In an action brought by a prosecuting attorney on behalf of the county under RCW 9A.82.100(1)(b)(i) in which the county prevails, any payments ordered in excess of the actual damages sustained shall be deposited in the ((state general fund)) crime victims' compensation account provided in section 3 of this act.

(c) The county legislative authority may prescribe a maximum level of moneys in the antiprofiteering revolving fund. Moneys exceeding the prescribed maximum shall be transferred to the county current expense fund.

(d) The moneys in the fund shall be used by the county prosecuting attorney for the investigation and prosecution of any offense, within the jurisdiction of the county prosecuting attorney, included in the definition of criminal profiteering, including civil enforcement.

(e) If a county has not established an antiprofiteering revolving fund, any payments or forfeitures ordered to the county under this chapter shall be deposited to the county current expense fund.

to read as follows:

in this section apply to this section.

(a) "Cost of incarceration" means the cost of providing an inmate

on the average per inmate costs established by the department and the

of time an inmate will be confined in the custody of the department,
considering the sentence imposed and adjusted for the total potential
earned early release time available to the inmate.

(c) "Program" means any series of courses or classes necessary to
achieve a proficiency standard, certificate, or postsecondary degree.

(2) When an inmate, except as provided in subsections (4) and (8)

a legal action, the additional funds shall be subject to the deductions
in RCW 72.09.111(1)(a) and the priorities established in chapter 72.11 RCW.

(4) When an inmate who is subject to a child support order
receives funds from an inheritance, the deduction required under

subsection (2) of this section shall not exceed the department's total
cost of incarceration for the inmate incurred during the inmate's
minimum or actual term of confinement, whichever is longer.

(6)(a) The deductions required under subsection (2) of this
section shall not apply to funds received by the department from an
offender or from a third party on behalf of an offender for payment of
education or vocational programs or postsecondary education degree
programs as provided in RCW 72.09.460 and 72.09.465.

(b) The deductions required under subsection (2) of this

(7) The deductions required under subsection (2) of this
section shall not apply to any money received by the department, on behalf of
an inmate, from family or other outside sources for the payment of

used for the payment of postage expenses and may not be transferred
to any other account or purpose. Money that remains unused in the
inmate's postage fund at the time of release shall be subject to the
deductions outlined in subsection (2) of this section.

(8) When an inmate sentenced to life imprisonment without

designee, may exempt an inmate from a personal inmate savings
account under subsection (2)(b) of this section if the inmate's earliest
release date is beyond the inmate's life expectancy.

(10) The interest earned on an inmate savings account created as

exempt from the mandatory deductions under this section and RCW
72.09.111.

(11) Nothing in this section shall limit the authority of the
department of social and health services division of child support, the

MESSAGE FROM THE SENATE

March 2, 2010

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 2547 with the following amendment:

Strike everything after the enacting clause and insert the following:
"Sec. 1. RCW 46.96.030 and 1989 c 415 s 3 are each amended to read as follows:

Notwithstanding the terms of a franchise and notwithstanding the terms of a waiver, no manufacturer may terminate, cancel, or fail to renew a franchise with a new motor vehicle dealer, unless the manufacturer has complied with the notice requirements of RCW 46.96.070 and an administrative law judge has determined, if requested in writing by the new motor vehicle dealer within the applicable time period specified in RCW 46.96.070 (1), (2), or (3), after hearing, that there is good cause for the termination, cancellation, or nonrenewal of the franchise and that the manufacturer has acted in good faith, as defined in this chapter, regarding the termination, cancellation, or nonrenewal. Between the time of issuance of the notice required under RCW 46.96.070 and the effective termination, cancellation, or nonrenewal of the franchise
under this chapter, the rights, duties, and obligations of the new motor vehicle dealer and the manufacturer under the franchise and this chapter are unaffected, including those under RCW 46.96.200.

Sec. 2. RCW 46.96.070 and 1989 c 415 s 7 are each amended to read as follows:

Before the termination, cancellation, or nonrenewal of a franchise, the manufacturer shall give written notification to both the department and the new motor vehicle dealer. For the purposes of this chapter, the discontinuance of the sale and distribution of a new motor vehicle line, or the constructive discontinuance by material reduction in selection offered, such that continuing to retain the line is no longer economically viable for a dealer is, at the option of the dealer, considered a termination, cancellation, or nonrenewal of a franchise. The notice shall be by certified mail or personally delivered to the new motor vehicle dealer and shall state the intention to terminate, cancel, or not renew the franchise, the reasons for the termination, cancellation, or nonrenewal, and the effective date of the termination, cancellation, or nonrenewal. The notice shall be given:

(1) Not less than ninety days before the effective date of the termination, cancellation, or nonrenewal;

(2) Not less than fifteen days before the effective date of the termination, cancellation, or nonrenewal with respect to any of the following that constitute good cause for termination, cancellation, or nonrenewal:

(a) Insolvency of the new motor vehicle dealer or the filing of any petition by or against the new motor vehicle dealer under bankruptcy or receivership law;

(b) Failure of the new motor vehicle dealer to conduct sales and service operations during customary business hours for seven consecutive business days, except for acts of God or circumstances beyond the direct control of the new motor vehicle dealer;

(c) Conviction of the new motor vehicle dealer, or principal operator of the dealership, of a felony punishable by imprisonment or death;

(d) Suspension or revocation of a license that the new motor vehicle dealer is required to have to operate the new motor vehicle dealership where the suspension or revocation is for a period in excess of thirty days;

(3) Not less than one hundred eighty days before the effective date of termination, cancellation, or nonrenewal, where the manufacturer intends to discontinue sale and distribution of the new motor vehicle line.

Sec. 3. RCW 46.96.090 and 1989 c 415 s 9 are each amended to read as follows:

(1) In the event of a termination, cancellation, or nonrenewal under this chapter, except for termination, cancellation, or nonrenewal under RCW 46.96.070(2) or a voluntary termination, cancellation, or nonrenewal initiated by the dealer, the manufacturer shall, at the request and option of the new motor vehicle dealer, also pay to the new motor vehicle dealer the dealer costs for any relocation, substantial alteration, or remodeling of a dealer's facilities required by a manufacturer for the continuance or renewal of a franchise agreement completed within three years of the termination, cancellation, or nonrenewal and:

(a) A sum equivalent to rent for the unexpired term of the lease or one year, whichever is less, or such longer term as provided in the franchise, if the new motor vehicle dealer is leasing the new motor vehicle dealership facilities from a lessor other than the manufacturer; or

(b) A sum equivalent to the reasonable rental value of the new motor vehicle dealership facilities for one year or until the facilities are leased or sold, whichever is less, if the new motor vehicle dealer owns the new motor vehicle dealership facilities.

(2) The rental payment required under subsection (1) of this section is only required to the extent that the facilities were used for activities under the franchise and only to the extent the facilities were not leased for unrelated purposes. If the rental payment under

subsection (1) of this section is made, the manufacturer is entitled to possession and use of the new motor vehicle dealership facilities for the period rent is paid.

Sec. 4. RCW 46.96.105 and 2003 c 21 s 2 are each amended to read as follows:

(1) Each manufacturer shall specify in its franchise agreement, or in a separate written agreement, with each of its dealers licensed in this state, the dealer's obligation to perform warranty work or service on the manufacturer's products. Each manufacturer shall provide each of its dealers with a schedule of compensation to be paid to the dealer for any warranty work or service, including parts, labor, and diagnostic work, required of the dealer by the manufacturer in connection with the manufacturer's products. The schedule of compensation must not be less than the rates charged by the dealer for similar service to retail customers for nonwarranty service and repairs, and must not be less than the schedule of compensation for an existing dealer as of the effective date of this section.

(a) The rates charged by the dealer for nonwarranty service or work for parts means the price paid by the dealer for those parts, including all shipping and handling, to a manufacturer. The dealer's rate shall be at least the franchised's average percentage markup. A dealer must establish and declare the dealer's average percentage markup by submitting to the manufacturer one hundred sequential customer-paid service repair orders or ninety days of customer-paid service repair orders, whichever is less, covering repairs made no more than one hundred eighty days before the submission. A change in a dealer's established average percentage markup takes effect thirty days following the submission. A manufacturer may not require a dealer to establish average percentage markup by another methodology. A manufacturer may not require information that the dealer believes is unduly burdensome or time consuming to provide, including, but not limited to, part-by-part or transaction-by-transaction calculations.

(b) A manufacturer shall compensate a dealer for labor and diagnostic work at the rates charged by the dealer to its retail customers for such work. If a manufacturer can demonstrate that the rates unreasonably exceed those of all other franchised motor vehicle dealers in the same relevant market area offering the same or a competitive motor vehicle line, the manufacturer is not required to honor the rate increase proposed by the dealer. If the manufacturer is not required to honor the rate increase proposed by the dealer, the dealer is entitled to resubmit a new proposed rate for labor and diagnostic work.

(c) A dealer may not be granted an increase in the average percentage markup or labor and diagnostic work rate more than twice in one calendar year.

(2) All claims for warranty work for parts and labor made by dealers under this section shall be submitted to the manufacturer within one year of the date the work was performed. All claims submitted must be paid by the manufacturer within thirty days following receipt, provided the claim has been approved by the manufacturer. The manufacturer has the right to audit claims for warranty work and to charge the dealer for any unsubmitted, incorrect, or false claims for a period of one year following payment. However, the manufacturer may audit and charge the dealer for any fraudulent claims during any period for which an action for fraud may be commenced under applicable state law.

(3) All claims submitted by dealers on the forms and in the manner specified by the manufacturer shall be either approved or disapproved within thirty days following their receipt. The manufacturer shall notify the dealer in writing of any disapproved claim, and shall set forth the reasons why the claim was not approved. Any claim not specifically disapproved in writing within thirty days following receipt is approved, and the manufacturer is required to pay that claim within thirty days of receipt of the claim.

(4) A manufacturer may not otherwise recover all or any portion of its costs for compensating its dealers licensed in this state for warranty
Sec. 5. RCW 46.96.110 and 1989 c 415 s 11 are each amended to read as follows:

(1) Notwithstanding the terms of a franchise, (a) an owner may appoint a designated successor to succeed to the ownership of the new motor vehicle dealer franchise upon the owner's death or incapacity, or (b) if an owner who has owned the franchise for not less than five consecutive years, the owner may appoint a designated successor to be effective on a date of the owner's choosing that is prior to the owner's death or disability.

(2) Notwithstanding the terms of a franchise, a designated successor (of a deceased or incapacitated owner of a new motor vehicle dealer franchise) described under subsection (1) of this section may succeed to the ownership interest of the owner under the existing franchise, if:

(a) In the case of a designated successor who meets the definition of a designated successor under RCW 46.96.020(5)(a), but who is not experienced in the business of a new motor vehicle dealer, the person will employ an individual who is qualified and experienced in the business of a new motor vehicle dealer to help manage the day-to-day operations of the motor vehicle dealership; or in the case of a designated successor who meets the definition of a designated successor under RCW 46.96.020(5)(b) or (c), the person is qualified and experienced in the business of a new motor vehicle dealer and meets the normal, reasonable, and uniformly applied standards for grant of an application as a new motor vehicle dealer by the manufacturer; and

(b) The designated successor furnishes written notice to the manufacturer of his or her intention to succeed to the ownership of the new motor vehicle dealership within sixty days after the owner's death or incapacity, or if the appointment is under subsection (1)(b) of this section, at least thirty days before the designated successor's proposed succession; and

(c) The designated successor agrees to be bound by all terms and conditions of the franchise.

(3) The manufacturer may request, and the designated successor shall promptly provide, such personal and financial information as is reasonably necessary to determine whether the succession should be honored.

(4) A manufacturer may refuse to honor the succession to the ownership of a new motor vehicle dealer franchise by a designated successor if the manufacturer establishes that good cause exists for its refusal to honor the succession. If the designated successor (of a deceased or incapacitated owner) of a new motor vehicle dealer franchise fails to meet the requirements set forth in subsections (2)(a), (b), and (c) of this section, good cause for refusing to honor the succession is presumed to exist. If a manufacturer believes that good cause exists for refusing to honor the succession to the ownership of a new motor vehicle dealer franchise by a designated successor, the manufacturer shall serve written notice on the designated successor and on the department of its refusal to honor the succession no earlier than sixty days from the date the notice is served. The notice must be served not later than sixty days after the manufacturer's receipt of:

(a) Notice of the designated successor's intent to succeed to the ownership interest of the new motor vehicle dealer's franchise; or

(b) Any personal or financial information requested by the manufacturer.

(5) The notice in subsection (4) of this section shall state the specific grounds for the refusal to honor the succession. If the notice of refusal is not timely and properly served, the designated successor may continue the franchise in full force and effect, subject to termination only as otherwise provided under this chapter.

(6) Within twenty days after receipt of the notice or within twenty days after the end of any appeal procedure provided by the manufacturer, whichever is greater, the designated successor may file a petition with the department protesting the refusal to honor the succession. The petition shall contain a short statement setting forth the reasons for the designated successor's protest. Upon the filing of a protest and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely protest has been filed and shall request the appointment of an administrative law judge under chapter 34.12 RCW to conduct a hearing. The manufacturer shall not terminate or otherwise discontinue the existing franchise until the administrative law judge has held a hearing and has determined that there is good cause for refusing to honor the succession. If an appeal is taken, the manufacturer shall not terminate or discontinue the franchise until the appeal to superior court is finally determined or until the expiration of one hundred eighty days from the date of issuance of the administrative law judge's written decision, whichever is less. Nothing in this section precludes a manufacturer or dealer from petitioning the superior court for a stay or other relief pending judicial review.

(7) The manufacturer has the burden of proof to show that good cause exists for the refusal to honor the succession.

(8) The administrative law judge shall conduct the hearing and render a final decision as expeditiously as possible, but in any event not later than one hundred eighty days after a protest is filed.

(9) The administrative law judge shall conduct any hearing concerning the refusal to the succession as provided in RCW 46.96.050(2) and all hearing costs shall be borne as provided in that subsection. A party to such a hearing aggrieved by the final order of the administrative law judge may appeal as provided and allowed in RCW 46.96.050(3).

(10) This section does not preclude the owner of a new motor vehicle dealer franchise from designating any person as his or her successor by a written, notarized, and witnessed instrument filed with the manufacturer. In the event of a conflict between such a written instrument that has not been revoked by written notice from the owner to the manufacturer and this section, the written instrument governs.

Sec. 6. RCW 46.96.185 and 2003 c 21 s 3 are each amended to read as follows:

(1) Notwithstanding the terms of a franchise agreement, a manufacturer, distributor, factory branch, or factory representative, or an agent, officer, parent company, wholly or partially owned subsidiary, affiliated entity, or other person controlled by or under common control with a manufacturer, distributor, factory branch, or factory representative, shall not:

(a) Discriminate between new motor vehicle dealers by selling or offering to sell a like vehicle to one dealer at a lower actual price than the actual price offered to another dealer for the same model similarly equipped;

(b) Discriminate between new motor vehicle dealers by selling or offering to sell parts or accessories to one dealer at a lower actual price than the actual price offered to another dealer;

(c) Discriminate between new motor vehicle dealers by using a promotion plan, marketing plan, or other similar device that results in a lower actual price on vehicles, parts, or accessories being charged to one dealer over another dealer;

(d) Discriminate between new motor vehicle dealers by adopting a method, or changing an existing method, for the allocation, scheduling, or delivery of new motor vehicles, parts, or accessories to its dealers that is not fair, reasonable, and equitable. Upon the request of a dealer, a manufacturer, distributor, factory branch, or factory representative shall disclose in writing to the dealer the method by which new motor vehicles, parts, and accessories are allocated, scheduled, or delivered to its dealers handling the same line or make of vehicles;

(e) Discriminate against a new motor vehicle dealer by preventing, offsetting, or otherwise impairing the dealer's right to request a documentary service fee on affinity or similar program
**(f)** Give preferential treatment to some new motor vehicle dealers over others by refusing or failing to deliver, in reasonable quantities and within a reasonable time after receipt of an order, to a dealer holding a franchise for a line or make of motor vehicles sold or distributed by the manufacturer, distributor, factory branch, or factory representative, a new vehicle, parts, or accessories, if the vehicle, parts, or accessories are being delivered to other dealers, or require a dealer to purchase unreasonable advertising displays or other materials, or unreasonably require a dealer to remodel or renovate existing facilities as a prerequisite to receiving a model or series of vehicles;

**(g)** Compete with a new motor vehicle dealer of any make or line by acting in the capacity of a new motor vehicle dealer, or by owning, operating, or controlling, whether directly or indirectly, a motor vehicle dealership in this state. It is not, however, a violation of this subsection for:

(i) A manufacturer, distributor, factory branch, or factory representative to own or operate a dealership for a temporary period, not to exceed two years, during the transition from one owner of the dealership to another where the dealership was previously owned by a franchised dealer and is currently for sale to any qualified independent person at a fair and reasonable price. The temporary operation may be extended for one twelve-month period on petition of the temporary operator to the department. The matter will be handled as an adjudicative proceeding under chapter 34.05 RCW. A dealer who is a franchisee of the petitioning manufacturer or distributor may intervene and participate in a proceeding under this subsection (1)(**(f)**) (**(g)**). The temporary operator has the burden of proof to show justification for the extension and a good faith effort to sell the dealership to an independent person at a fair and reasonable price;

(ii) A manufacturer, distributor, factory branch, or factory representative to own or operate a dealership in conjunction with an independent person in a bona fide business relationship for the purpose of broadening the diversity of its dealer body and enhancing opportunities for qualified persons who are part of a group who have historically been underrepresented in its dealer body, or other qualified persons who lack the resources to purchase a dealership outright, and where the independent person: (A) Has made, or within a period of two years from the date of commencement of operation will have made, a significant, bona fide capital investment in the dealership that is subject to loss; (B) has an ownership interest in the dealership; and (C) operates the dealership under a bona fide written agreement with the manufacturer, distributor, factory branch, or factory representative under which he or she will acquire all of the ownership interest in the dealership within a reasonable period of time and under reasonable terms and conditions. The manufacturer, distributor, factory branch, or factory representative has the burden of proof of establishing that the acquisition of the dealership by the independent person was made within a reasonable period of time and under reasonable terms and conditions. Nothing in this subsection (1)(**(f)**) (**(g)**) relieves a manufacturer, distributor, factory branch, or factory representative from complying with ((RCW 46.96.185(1))) (**(a)**) through ((RCW 46.96.185(1))) (**(f)**) of this subsection;

(iii) A manufacturer, distributor, factory branch, or factory representative to own or operate a dealership in conjunction with an independent person in a bona fide business relationship for the purpose of broadening the diversity of its dealer body, or other qualified persons who lack the resources to purchase a dealership outright, and where the independent person: (A) Has made, or within a period of two years from the date of commencement of operation will have made, a significant, bona fide capital investment in the dealership that is subject to loss; (B) has an ownership interest in the dealership; and (C) operates the dealership under a bona fide written agreement with the manufacturer, distributor, factory branch, or factory representative under which he or she will acquire all of the ownership interest in the dealership within a reasonable period of time and under reasonable terms and conditions. The manufacturer, distributor, factory branch, or factory representative has the burden of proof of establishing that the acquisition of the dealership by the independent person was made within a reasonable period of time and under reasonable terms and conditions. Nothing in this subsection (1)(**(f)**) (**(g)**) relieves a manufacturer, distributor, factory branch, or factory representative from complying with ((RCW 46.96.185(1))) (**(a)**) through ((RCW 46.96.185(1))) (**(f)**) of this subsection;

(iv) A manufacturer to own, operate, or control a new motor vehicle dealership trading exclusively in a single line make of the manufacturer if (A) the manufacturer does not own, directly or indirectly, in the aggregate, in excess of forty-five percent of the total ownership interest in the dealership, (B) at the time the manufacturer first acquires ownership or assumes operation or control of any such dealership, the distance between any dealership thus owned, operated, or controlled and the nearest new motor vehicle dealership trading in the same line make of vehicle and in which the manufacturer has no ownership or control is not less than fifteen miles and complies with the applicable provisions in the relevant market area sections of this chapter, (C) all of the manufacturer's franchise agreements confer rights on the dealer of that line make to develop and operate within a defined geographic territory or area, as many dealership facilities as the dealer and the manufacturer agree are appropriate, and (D) as of January 1, 2000, the manufacturer had no more than four new motor vehicle dealers of that manufacturer's line make in this state, and at least half of those dealers owned and operated two or more dealership facilities in the geographic territory or area covered by their franchise agreements with the manufacturer;

**(h)** Compete with a new motor vehicle dealer by owning, operating, or controlling, whether directly or indirectly, a service facility in this state for the repair or maintenance of motor vehicles under the manufacturer's new car warranty and extended warranty. Nothing in this subsection (1)(**(f)**) (**(h)**) prohibits a manufacturer, distributor, factory branch, or factory representative from owning or operating a service facility for the purpose of providing or performing maintenance, repair, or service work on motor vehicles that are owned by the manufacturer, distributor, factory branch, or factory representative;

**(i)** Use confidential or proprietary information obtained from a new motor vehicle dealer to unfairly compete with the dealer. For purposes of this subsection (1)(**(f)**) (**(i)**), "confidential or proprietary information" means trade secrets as defined in RCW 19.108.010, business plans, marketing plans or strategies, customer lists, contracts, sales data, revenues, or other financial information;

**(j)** Terminate, cancel, or fail to renew a franchise with a new motor vehicle dealer based upon any of the following events, which do not constitute good cause for termination, cancellation, or nonrenewal under RCW 46.96.060: (A) The fact that the new motor vehicle dealer owns, has an investment in, participates in the management of, or holds a franchise agreement for the sale or service of another make or line of new motor vehicles((**RCW 46.96.060**)); (B) the fact that the new motor vehicle dealer has established another make or line of new motor vehicles or service in the same dealership facilities as those of the manufacturer or distributor ((**with the prior written approval of the manufacturer or distributor, if the approval was**);
required under the terms of the new motor vehicle dealer's franchise agreement)); (C) that the new motor vehicle dealer has or intends to relocate the manufacturer or distributor's make or line of new motor vehicles or service to an existing dealership facility that is within the relevant market area, as defined in RCW 46.96.140, of the make or line to be relocated, except that, in any nonemergency circumstance, the dealer must give the manufacturer or distributor at least sixty days' notice of his or her intent to relocate; or (D) the failure of a franchisee to change the location of the dealership or to make substantial alterations to the use or number of franchises on the dealership premises or facilities.

(ii) Notwithstanding the limitations of this section, a manufacturer may, for separate consideration, enter into a written contract with a dealer to exclusively sell and service a single make or line of new motor vehicles at a specific facility for a defined period of time. The penalty for breach of the contract must not exceed the amount of consideration paid by the manufacturer plus a reasonable rate of interest; (Ge — (4)) (k) Coerce or attempt to coerce a motor vehicle dealer to refrain from or prohibit or attempt to prohibit a new motor vehicle dealer from acquiring, owning, having an investment in, participating in the management of, or holding a franchise agreement for the sale or service of another make or line of new motor vehicles or related products, or establishing another make or line of new motor vehicles or service in the same dealership facilities, if the prohibition against acquiring, owning, investing, managing, or holding a franchise for such additional make or line of vehicles or products, or establishing another make or line of new motor vehicles or service in the same dealership facilities, is not supported by reasonable business considerations. The burden of proving that reasonable business considerations support or justify the prohibition against the additional make or line of new motor vehicles or products or nonexclusive facilities is on the manufacturer;

(l) Require, by contract or otherwise, a new motor vehicle dealer to make a material alteration, expansion, or addition to any dealership facility, unless the required alteration, expansion, or addition is uniformly required of other similarly situated new motor vehicle dealers of the same make or line of vehicles and is reasonable in light of all existing circumstances, including economic conditions. In any proceeding in which a required facility alteration, expansion, or addition is an issue, the manufacturer or distributor has the burden of proof;

(m) Prevent or attempt to prevent by contract or otherwise any new motor vehicle dealer from changing the executive management of a new motor vehicle dealer unless the manufacturer or distributor, having the burden of proof, can show that a proposed change of executive management will result in executive management by a person or persons who are not of good moral character or who do not meet reasonable, preexisting, and equitably applied standards of the manufacturer or distributor. If a manufacturer or distributor rejects a proposed change in the executive management, the manufacturer or distributor shall give written notice of its reasons to the dealer within sixty days after receiving written notice from the dealer of the proposed change and all related information reasonably requested by the manufacturer or distributor, or the change in executive management must be considered approved; or

(n) Condition the sale, transfer, relocation, or renewal of a franchise agreement or condition manufacturer, distributor, factory branch, or factory representative sales, services, or parts incentives upon the manufacturer obtaining site control, including rights to purchase or lease the dealer's facility, or an agreement to make improvements or substantial renovations to a facility. For purposes of this section, a substantial renovation has a gross cost to the dealer in excess of five thousand dollars.

(2) Subsection (1)(a), (b), and (c) of this section do not apply to sales to a motor vehicle dealer: (a) For resale to a federal, state, or local government agency; (b) where the vehicles will be sold or donated for use in a program of driver's education; (c) where the sale is made under a manufacturer's bona fide promotional program offering sales incentives or rebates; (d) where the sale of parts or accessories is under a manufacturer's bona fide quantity discount program; or (e) where the sale is made under a manufacturer's bona fide fleet vehicle discount program. For purposes of this subsection, "fleet" means a group of fifteen or more new motor vehicles purchased or leased by a dealer at one time under a single purchase or lease agreement for use as part of a fleet, and where the dealer has been assigned a fleet identifier code by the department of licensing. (3) The following definitions apply to this section:

(a) "Actual price" means the price to be paid by the dealer less any incentive paid by the manufacturer, distributor, factory branch, or factory representative, whether paid to the dealer or the ultimate purchaser of the vehicle.

(b) "Control" or "controlling" means (i) the possession of, title to, or control of ten percent or more of the voting equity interest in a person, whether directly or indirectly through a fiduciary, agent, or other intermediary, or (ii) the possession, direct or indirect, of the power to direct or cause the direction of the management or policies of a person, whether through the ownership of voting securities, through director control, by contract, or otherwise, except as expressly provided under the franchise agreement.

(c) "Motor vehicles" does not include trucks that are 14,001 pounds gross vehicle weight and above or recreational vehicles as defined in RCW 43.22.335.

(d) "Operate" means to manage a dealership, whether directly or indirectly.

(e) "Own" or "ownership" means to hold the beneficial ownership of one percent or more of any class of equity interest in a dealership, whether the interest is that of a shareholder, partner, limited liability company member, or otherwise. To hold an ownership interest means to have possession of, title to, or control of the ownership interest, whether directly or indirectly through a fiduciary, agent, or other intermediary.

(4) A violation of this section is deemed to affect the public interest and constitutes an unlawful and unfair practice under chapter 19.86 RCW. A person aggrieved by an alleged violation of this section may petition the department to have the matter handled as an adjudicative proceeding under chapter 34.05 RCW.

Sec. 7. RCW 46.96.200 and 1994 c 274 s 7 are each amended to read as follows:

(1) Notwithstanding the terms of a franchise, a manufacturer shall not ((unreasonably)) withhold consent to the sale, transfer, or exchange of a franchise to a qualified buyer who meets the normal, reasonable, and uniformly applied standards established by the manufacturer for the appointment of a new dealer who does not already hold a franchise with the manufacturer or is capable of being licensed as a new motor vehicle dealer in the state of Washington. A decision or determination made by the administrative law judge as to whether a qualified buyer is capable of being licensed as a new motor vehicle dealer in the state of Washington is not conclusive or determinative of any ultimate determination made by the department of licensing as to the buyer's qualification for a motor vehicle dealer license. A manufacturer's failure to respond in writing to a request for consent under this subsection within sixty days after receipt of a written request on the forms, if any, generally used by the manufacturer containing the information and reasonable promises required by a manufacturer is deemed to be consent to the request. A manufacturer may request, and, if so requested, the applicant for a franchise (a) shall promptly provide such personal and financial information as is reasonably necessary to determine whether the sale, transfer, or exchange should be approved, and (b) shall agree to be bound by all reasonable terms and conditions of the franchise.
vehicle dealer for the make or line as of the date shall, at the request and option of the new motor vehicle dealer, also nonrenewal under RCW 46.96.070(2), or a voluntary termination, under this chapter, except for a termination, cancellation, or

filed, and the department shall arrange for a hearing with an

administrative law judge as the presiding officer to determine if the manufacturer unreasonably withheld consent to the sale, transfer, or exchange of the franchise.

(5) (In determining whether the manufacturer unreasonably withheld its approval to the sale, transfer, or exchange, the manufacturer has the burden of proof that it acted reasonably. A manufacturer's refusal to accept or approve a proposed buyer who otherwise meets the normal, reasonable, and uniformly applied standards established by the manufacturer for the appointment of a new dealer, or who otherwise is capable of being licensed as a new motor vehicle dealer in the state of Washington, is presumed to be unreasonable.

(6)) The administrative law judge shall conduct a hearing and render a final decision as expeditiously as possible, but in any event not later than one hundred twenty days after a protest is filed. Only the selling, transferring, or exchanging new motor vehicle dealer and the manufacturer may be parties to the hearing.

(7) This section and RCW 46.96.030 through 46.96.110 apply to all franchises and contracts existing on July 23, 1989, between manufacturers and new motor vehicle dealers as well as to all future franchises and contracts between manufacturers and new motor vehicle dealers.

(8) RCW 46.96.140 through 46.96.190 apply to all franchises and contracts existing on October 1, 1994, between manufacturers and new motor vehicle dealers as well as to all future franchises and contracts between manufacturers and new motor vehicle dealers.

NEW SECTION. Sec. 8. A new section is added to chapter 46.96 RCW to read as follows:

(1) In the event of a termination, cancellation, or nonrenewal under this chapter, except for a termination, cancellation, or nonrenewal under RCW 46.96.070(2), or a voluntary termination, cancellation, or nonrenewal initiated by the dealer, the manufacturer shall, at the request and option of the new motor vehicle dealer, also pay to the new motor vehicle dealer the fair market value of the motor vehicle dealer's goodwill for the make or line as of the date immediately preceding any communication to the public or dealer regarding termination. To the extent the franchise agreement provides for the payment or reimbursement to the new motor vehicle dealer in excess of the value specified in this section, the provisions of the franchise agreement control.

(2) The manufacturer shall pay the new motor vehicle dealer the value specified in subsection (1) of this section within ninety days after the date of termination.

NEW SECTION. Sec. 9. A new section is added to chapter 46.96 RCW to read as follows:

A manufacturer shall, upon demand, indemnify and hold harmless any existing or former franchisee and the franchisee's successors and assigns from any and all damages sustained and attorneys' fees and other expenses reasonably incurred by the franchisee that result from or relate to any claim made or asserted by a third party against the franchisee to the extent the claim results from any of the following:

(1) The condition, characteristics, manufacture, assembly, or design of any vehicle, parts, accessories, tools, or equipment, or the selection or combination of parts or components manufactured or distributed by the manufacturer or distributor;

(2) Service systems, procedures, or methods that the franchisor required or recommended the franchisee to use;

(3) Improper use by the manufacturer, its assignees, contractors, representatives, or licensees of nonpublic personal information obtained from a franchisee concerning any consumer, customer, or employee of the franchisee; or

(4) Any act or omission of the manufacturer or distributor for which the franchisee would have a claim for contribution or indemnity under applicable law or under the franchise, irrespective of any prior termination or expiration of the franchise.

NEW SECTION. Sec. 10. A new section is added to chapter 46.96 RCW to read as follows:

A manufacturer may not take or threaten to take any adverse action against a new motor vehicle dealer, including charge backs, reducing vehicle allocations, or terminating or threatening to terminate a franchise, because the dealer sold or leased a vehicle to a customer who exported the vehicle to a foreign country or who resold the vehicle, unless the manufacturer or distributor definitively proves that the dealer knew or reasonably should have known that the customer intended to export or resell the vehicle. A manufacturer or distributor shall, upon demand, indemnify, hold harmless, and defend any existing or former franchisee or franchisee's successors or assigns from any and all claims asserted, or damages sustained and attorneys' fees and other expenses reasonably incurred by the franchisee that result from or relate to any claim made or asserted, by a third party against the franchisee for any policy, program, or other behavior suggested by the manufacturer for sales of vehicles to parties that intend to export a vehicle purchased from the franchisee.

NEW SECTION. Sec. 11. A new section is added to chapter 46.96 RCW to read as follows:

A new motor vehicle dealer who is injured in his or her business or property by a violation of this chapter may bring a civil action in the superior court to recover the actual damages sustained by the dealer, together with the costs of the suit, including reasonable attorneys' fees if the new motor vehicle dealer prevails. The new motor vehicle dealer may bring a civil action in district court to recover his or her actual damages, except for damages that exceed the amount specified in RCW 3.66.020, and the costs of the suit, including reasonable attorneys' fees.

NEW SECTION. Sec. 12. A new section is added to chapter 46.96 RCW to read as follows:

A manufacturer or distributor shall not enter into an agreement or other behavior to terminate or threaten to terminate a franchise, because the dealer sold or leased a vehicle to a customer who exported the vehicle to a foreign country or who resold the vehicle, unless the manufacturer or distributor definitively proves that the dealer knew or reasonably should have known that the customer intended to export or resell the vehicle. A manufacturer or distributor shall, upon demand, indemnify, hold harmless, and defend any existing or former franchisee or franchisee's successors or assigns from any and all claims asserted, or damages sustained and attorneys' fees and other expenses reasonably incurred by the franchisee that result from or relate to any claim made or asserted, by a third party against the franchisee for any policy, program, or other behavior suggested by the manufacturer for sales of vehicles to parties that intend to export a vehicle purchased from the franchisee.
consideration, waive, limit, or disclaim a manufacturer's obligations or a dealer's rights under RCW 46.96.080, 46.96.090, 46.96.105, 46.96.140, and 46.96.150, if the contract sets forth the specific provisions of this chapter that are waived, limited, or disclaimed. A manufacturer shall not coerce, threaten, intimidate, or require a new motor vehicle dealer, as a condition to granting or renewing a franchise, to enter into such an agreement or understanding.

NEW SECTION. Sec. 13. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

“NEW SECTION. Sec. 14. The legislature finds that institutions of higher education are key to the future employment opportunities of Washington citizens and to the economic well-being of the state. The legislature further finds that current student financial aid programs are underfunded and subject to the unpredictability of the state budget. It is the intent of the legislature to direct increases in lottery account moneys toward stabilizing and increasing existing resources for
opportunity grants, GET ready for math and science scholarships, passport to college scholarships, college bound scholarships, the state work study program, the state need grant, Washington scholars awards, and the Washington award for vocational excellence.

NEW SECTION. Sec. 15. A new section is added to chapter 28B.76 RCW to read as follows:

The Washington opportunity pathways account is created in the state treasury. Expenditures from the account may be used only for programs in chapter 28B.12 RCW (state work-study), chapter 28B.50 RCW (opportunity grant), RCW 28B.76.660 (Washington scholars award), RCW 28B.76.670 (Washington award for vocational excellence), chapter 28B.92 RCW (state need grant program), chapter 28B.105 RCW (GET ready for math and science scholarship), chapter 28B.117 RCW (passport to college promise), and chapter 28B.118 RCW (college bound scholarship).

Sec. 16. RCW 67.70.340 and 2009 c 576 s 2 and 2009 c 479 s 45 are each reenacted and amended to read as follows:

(1) The legislature recognizes that creating a shared game lottery could result in less revenue being raised by the existing state lottery ticket sales. The legislature further recognizes that the fund most impacted by this potential event is the education construction account. Therefore, it is the intent of the legislature to use some of the proceeds from the shared game lottery to make up the difference that the potential state lottery revenue loss would have on the education construction account. The legislature further intends to use some of the proceeds from the shared game lottery to fund programs and services related to problem and pathological gambling.

(2) The education construction account is expected to receive one hundred two million dollars annually from state lottery games other than the shared game lottery. For fiscal year 2003 and thereafter, if the amount of lottery revenues earmarked for the education construction account is less than one hundred two million dollars, the commission, after making the transfer required under subsection (3) of this section, must transfer sufficient moneys from revenues derived from the shared game lottery into the education construction account to bring the total revenue up to one hundred two million dollars.

(3)(a) The commission shall transfer, from revenue derived from the shared game lottery, to the problem gambling account created in RCW 43.20A.892, an amount equal to the percentage specified in (b) of this subsection of net receipts. For purposes of this subsection, “net receipts” means the difference between (i) revenue received from the sale of lottery tickets or shares and revenue received from the sale of shared game lottery tickets or shares; and (ii) the sum of payments made to winners.

(b) In fiscal year 2006, the percentage to be transferred to the problem gambling account is one-tenth of one percent. In fiscal year 2007 and subsequent fiscal years, the percentage to be transferred to the problem gambling account is thirteen one-hundredths of one percent.

(4) The commission shall transfer the remaining net revenues, if any, derived from the shared game lottery “Powerball” authorized in RCW 67.70.044(1) after the transfers pursuant to this section into the state general fund for the student achievement program under RCW 28A.505.220.

(5) The remaining net revenues, if any, in the shared game lottery account after the transfers pursuant to this section shall be deposited into the (general fund) Washington opportunity pathways account.

NEW SECTION. Sec. 17. In consultation with independent experts and in collaboration with the higher education coordinating board, the state lottery commission shall upon the effective date of this act develop and begin implementation of a strategy and plan for actively marketing the state lottery as an essential contributor to higher education. The commission shall report to the appropriate committees of the legislature on the key messages, components, performance objectives, and anticipated revenue impacts of the strategy by December 1, 2010.

NEW SECTION. Sec. 18. The joint legislative audit and review committee shall conduct a review of marketing and vendor expenditures and incentive payment programs at the state lottery commission to identify cost savings and efficiencies to maximize contributions to beneficiaries under this act. This review shall include examination of the following:

(1) The expenditures at the state lottery commission related to marketing and vendors compared with ticket sales. This review shall include an analysis of: Marketing expenses for fiscal years 2005 to 2010 and the impact on ticket sales; the impact to sales of tickets from the change in lottery beneficiaries provided in this act from the education construction fund to the Washington opportunity pathways account; and the competitive bidding process for vendors in Washington. In its final report on this subject, due to the legislature by November 2010, the joint legislative audit and review committee shall provide: A description of the competitive contracting processes for marketing services and vendors, and any marketing programs or expenditures funded through the lottery administrative account; an all-state survey of marketing and vendor contractors for other state lotteries; identification of whether there are duplicative or unproductive marketing activities; identification of whether savings may occur from changing vendors; and an analysis of marketing expenses and ticket sales for fiscal year 2000 through the months of fiscal year 2011 for which data are available.

(2) The incentive payment program for employees at the state lottery commission. This review shall include an analysis of the state’s laws, policies, procedures, and practices as they relate to incentive payments. In its final report on this subject, due to the legislature by November 2010, the joint legislative audit and review committee shall provide: A description of how the incentive payment program at the state lottery commission operates, and comparison to best practices for outcome-based performance payments.”

The bill was read the second time.

Representative Orcutt moved the adoption of amendment (1605).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that the state of Washington maintains at least twelve state agencies that exist either wholly or in part to manage, regulate, mediate, or enforce the state's public and private natural resources, many of which have overlapping jurisdiction and authorities.

(2) The legislature finds that the overlap of state natural resources agencies creates unnecessary expenses for the state government, confusion for the state's citizens, and hampers private sector economic development.

(3) The legislature finds that it is important for state agencies to communicate, share resources, and provide comments during each other's rule-making processes. However, it is unnecessarily duplicative for more than one state agency to be involved in the implementation or enforcement of any one program.

Sec. 2. RCW 76.09.360 and 1997 c 290 s 2 are each amended to read as follows:

The department (together with the department of fish and wildlife, and the department of ecology relating to water quality protection) shall develop a suitable process to permit landowners to secure all permits required for the conduct of forest practices (in a single multiyear permit) to be (jointly) issued only by the departments and the department shall report their findings to the legislature not later than December 31, 2000) department.

NEW SECTION. Sec. 3. A new section is added to chapter 77.55 RCW to read as follows:

The requirements of RCW 77.55.021 are to be considered satisfied for any project that is required under chapter 76.09 RCW to submit a forest practices application or that is associated with any project that is required under chapter 76.09 RCW to submit a forest practices application.

Sec. 4. RCW 76.09.040 and 2009 c 246 s 1 are each amended to read as follows:

(1) Where necessary to accomplish the purposes and policies stated in RCW 76.09.010, and to implement the procedures of this chapter, the board shall adopt forest practices rules pursuant to chapter 34.05 RCW and in accordance with the procedures enumerated in this section that:

(a) Establish minimum standards for forest practices;

(b) Provide procedures for the voluntary development of resource management plans which may be adopted as an alternative to the minimum standards in (a) of this subsection if the plan is consistent with the purposes and policies stated in RCW 76.09.010 and the plan meets or exceeds the objectives of the minimum standards;

(c) Set forth necessary administrative provisions;

(d) Establish procedures for the collection and administration of forest practice fees as set forth by this chapter; and

(e) Allow for the development of watershed analyses.

Forest practices rules pertaining to water quality protection shall be adopted by the board after reaching agreement with the director of the department of ecology or the director's designee on the board with respect thereto. All other forest practices rules shall be adopted by the board.

Forest practices rules shall be administered and enforced by either the department or the local governmental entity as provided in this chapter. Such rules shall be adopted and administered so as to give consideration to all purposes and policies set forth in RCW 76.09.010.

(2) The board shall prepare proposed forest practices rules(. In addition to any forest practices rules relating to water quality protection proposed by the board, the department of ecology may submit to the board)) including proposed forest practices rules relating to water quality protection.

Prior to initiating the rule-making process, the proposed rules shall be submitted for review and comments to the department of fish and wildlife, the department of ecology, and to the counties of the state. After receipt of the proposed forest practices rules, the department of fish and wildlife, the department of ecology, and the counties of the state shall have thirty days in which to review and submit comments to the board((and to the department of ecology with respect to its proposed rules relating to water quality protection)). After the expiration of such thirty day period the board ((and the department of ecology)) shall jointly hold one or more hearings on the proposed rules pursuant to chapter 34.05 RCW. At such hearing(s) any county may propose specific forest practices rules relating to problems existing within such county. The board may adopt (((and the department of ecology may approve))) such proposals if they find the proposals are consistent with the purposes and policies of this chapter.

(3) The board shall establish by rule a program for the acquisition of riparian open space and critical habitat for threatened or endangered species as designated by the board. Acquisition must be a conservation easement. Lands eligible for acquisition are forest lands within unconfined channel migration zones or forest lands containing
critical habitat for threatened or endangered species as designated by the board. Once acquired, these lands may be held and managed by
the department, transferred to another state agency, transferred to an
appropriate local government agency, or transferred to a private
nonprofit nature conservancy corporation, as defined in RCW
64.04.130, in fee or transfer of management obligation. The board
shall adopt rules governing the acquisition by the state or donation to
the state of such interest in lands including the right of refusal if the
lands are subject to unacceptable liabilities. The rules shall include
definitions of qualifying lands, priorities for acquisition, and provide
for the opportunity to transfer such lands with limited warranties and
with a description of boundaries that does not require full surveys
where the cost of securing the surveys would be unreasonable in
relation to the value of the lands conveyed. The rules shall provide
for the management of the lands for ecological protection or fisheries
enhancement. For the purposes of conservation easements entered
into under this section, the following apply: (a) For conveyances of a
conservation easement in which the landowner conveys an interest in
the trees only, the compensation must include the timber value component, as determined by the cruised volume of any timber
located within the channel migration zone or critical habitat for
threatened or endangered species as designated by the board
multiplied by the appropriate quality code stumpage value for timber
of the same species shown on the appropriate table used for timber
harvest excise tax purposes under RCW 84.33.091; (b) for conveyances of a conservation easement in which the landowner
conveys interests in both land and trees, the compensation must
include the timber value component in (a) of this subsection plus such
portion of the land value component as determined just and equitable
by the department. The land value component must be the acreage of
qualifying channel migration zone or critical habitat for threatened or endangered species as determined by the board,
multiplied by the average per acre value of all commercial forest land
in western Washington or the average for eastern Washington,
whichever average is applicable to the qualifying lands. The
department must determine the western and eastern Washington
averages based on the land value tables established by RCW
84.33.140 and revised annually by the department of revenue.

(4) Subject to appropriations sufficient to cover the cost of such
an acquisition program and the related costs of administering the
program, the department must establish a conservation easement in
land that an owner tenders for purchase; provided that such lands
have been taxed as forest lands and are located within an unconfined
channel migration zone or contain critical habitat for threatened or
destroyed before their sale or conversion. The department shall determine such critical habitat for threatened or
endangered species as designated by the board. Lands acquired under
this section shall become riparian or habitat open space. These
acquisitions shall not be deemed to trigger the compensating tax of
this section shall become riparian or habitat open space. These
acquisitions shall not be deemed to trigger the compensating tax of

Sec. 5. RCW 76.09.050 and 2005 c 146 s 1003 are each
amended to read as follows:

(1) The board shall establish by rule which forest practices shall
be included within each of the following classes:

Class I: Minimal or specific forest practices that have no direct
potential for damaging a public resource and that may be conducted
without submitting an application or a notification except that when
the regulating authority is transferred to a local governmental entity,
those Class I forest practices that involve timber harvesting or road
construction within "urban growth areas," designated pursuant to
chapter 36.70A RCW, are processed as Class IV forest practices, but
are not subject to environmental review under chapter 43.21C RCW;

Class II: Forest practices which have a less than ordinary
potential for damaging a public resource that may be conducted
without submitting an application and may begin five calendar days,
or such lesser time as the department may determine, after written
notification by the operator, in the manner, content, and form as
prescribed by the department, is received by the department.
However, the work may not begin until all forest practice fees
required under RCW 76.09.065 have been received by the
department. Class II shall not include forest practices:

(a) On lands platted after January 1, 1960, as provided in chapter
58.17 RCW or on lands that have or are being converted to another
use;

(b) Which require approvals under the provisions of the
hydraulics act, RCW 77.55.021;

(c) Within "shorelines of the state" as defined in RCW 90.58.030;

(d) Excluded from Class II by the board; or

(e) Including timber harvesting or road construction within
"urban growth areas," designated pursuant to chapter 36.70A RCW,
which are Class IV;

Class III: Forest practices other than those contained in Class I,
II, or IV. A Class III application must be approved or disapproved by
the department within thirty calendar days from the date the
department receives the application. However, the applicant may not
begin work on that forest practice until all forest practice fees required
under RCW 76.09.065 have been received by the department;

Class IV: Forest practices other than those contained in Class I or
II: (a) On lands platted after January 1, 1960, as provided in chapter
58.17 RCW, (b) on lands that have or are being converted to another
use, (c) on lands which, pursuant to RCW 76.09.070 as now or
hereafter amended, are not to be reforested because of the likelihood
of future conversion to urban development, (d) involving timber
harvesting or road construction on lands that are contained within
"urban growth areas," designated pursuant to chapter 36.70A RCW,
except where the landowner provides: (i) A written statement
of intent signed by the forest landowner not to convert to a use other
than commercial forest product operations for ten years, accompanied
by either a written forest management plan acceptable to the
department or documentation that the land is enrolled under the
provisions of chapter 84.33 RCW; or (ii) a conversion option harvest
plan approved by the local governmental entity and submitted to the
department as part of the application, and/or (e) which have a
potential for a substantial impact on the environment and therefore
require an evaluation by the department as to whether or not a
detailed statement must be prepared pursuant to the state
environmental policy act, chapter 43.21C RCW. Such evaluation
shall be made within ten days from the date the department receives
the application: PROVIDED, That nothing herein shall be construed
to prevent any local or regional governmental entity from determining
that a detailed statement must be prepared for an action pursuant to a
Class IV forest practice taken by that governmental entity concerning
the land on which forest practices will be conducted. A Class IV
application must be approved or disapproved by the department
within thirty calendar days from the date the department receives
the application, unless the department determines that a detailed
statement must be made, in which case the application must be
approved or disapproved by the department within sixty calendar days
from the date the department receives the application, unless the
commissioner of public lands, through the promulgation of a formal
order, determines that the process cannot be completed within such
period. However, the applicant may not begin work on that forest
practice until all forest practice fees required under RCW 76.09.065
have been received by the department.

Forest practices under Classes I, II, and III are exempt from the
requirements for preparation of a detailed statement under the state
environmental policy act.

(2) Except for those forest practices being regulated by local
governmental entities as provided elsewhere in this chapter, no Class
II, Class III, or Class IV forest practice shall be commenced or
continued after January 1, 1975, unless the department has received a notification with regard to a Class II forest practice or approved an application with regard to a Class III or Class IV forest practice containing all information required by RCW 76.09.060 as now or hereafter amended. However, in the event forest practices regulations necessary for the scheduled implementation of this chapter and RCW 90.48.420 have not been adopted in time to meet such schedules, the department shall have the authority to regulate forest practices and approve applications on such terms and conditions consistent with this chapter and RCW 90.48.420 and the purposes and policies of RCW 76.09.010 until applicable forest practices regulations are in effect.

(3) Except for those forest practices being regulated by local governmental entities as provided elsewhere in this chapter, if a notification or application is delivered in person to the department by the operator or the operator's agent, the department shall immediately provide a dated receipt thereof. In all other cases, the department shall immediately mail a dated receipt to the operator.

(4) Except for those forest practices being regulated by local governmental entities as provided elsewhere in this chapter, forest practices shall be conducted in accordance with the forest practices regulations, orders and directives as authorized by this chapter or the forest practices regulations, and the terms and conditions of any approved applications.

(5) Except for those forest practices being regulated by local governmental entities as provided elsewhere in this chapter, the department of natural resources shall notify the applicant in writing of either its approval of the application or its disapproval of the application and the specific manner in which the application fails to comply with the provisions of this section or with the forest practices regulations. Except as provided otherwise in this section, if the department fails to either approve or disapprove an application or any portion thereof within the applicable time limit, the application shall be deemed approved and the operation may be commenced:

PROVIDED, That this provision shall not apply to applications which are neither approved nor disapproved pursuant to the provisions of subsection (7) of this section: PROVIDED, FURTHER, That if seasonal field conditions prevent the department from being able to properly evaluate the application, the department may issue an approval conditional upon further review within sixty days:

PROVIDED, FURTHER, That the department shall have until April 1, 1975, to approve or disapprove an application involving forest practices allowed to continue to April 1, 1975, under the provisions of subsection (2) of this section. Upon receipt of any notification or any satisfactorily completed application the department shall in any event no later than two business days after such receipt transmit a copy to the department of natural resources;

(6) For those forest practices regulated by the board and the department, if the county, city, or town believes that an application is inconsistent with this chapter, the forest practices regulations, or any local authority consistent with RCW 76.09.240 as now or hereafter amended, it may so notify the department and the applicant, specifying its objections.

(7) For those forest practices regulated by the board and the department, the department shall not approve portions of applications to which a county, city, or town objects if:

(a) The department receives written notice from the county, city, or town of such objections within fourteen business days from the time of transmittal of the application to the county, city, or town, or one day before the department acts on the application, whichever is later; and

(b) The objections relate to lands either:

(i) Platted after January 1, 1960, as provided in chapter 58.17 RCW; or

(ii) On lands that have or are being converted to another use.

The department shall either disapprove those portions of such application or appeal the county, city, or town objections to the appeals board. If the objections related to subparagraphs (b)(i) and (ii) of this subsection are based on local authority consistent with RCW 76.09.240 as now or hereafter amended, the department shall disapprove the application until such time as the county, city, or town consents to its approval or such disapproval is reversed on appeal. The applicant shall be a party to all department appeals of county, city, or town objections. Unless the county, city, or town either consents or has waived its rights under this subsection, the department shall not approve portions of an application affecting such lands until the minimum time for county, city, or town objections has expired.

(8) For those forest practices regulated by the board and the department, in addition to any rights under the above paragraph, the county, city, or town may appeal any department approval of an application with respect to any lands within its jurisdiction. The appeals board may suspend the department's approval in whole or in part pending such appeal where there exists potential for immediate and material damage to a public resource.

(9) For those forest practices regulated by the board and the department, appeals under this section shall be made to the appeals board in the manner and time provided in RCW 76.09.220(8). In such appeals there shall be no presumption of correctness of either the county, city, or town or the department position.

(10) For those forest practices regulated by the board and the department, the department shall, within four business days notify the county, city, or town of all notifications, approvals, and disapprovals of an application affecting lands within the county, city, or town, except to the extent the county, city, or town has waived its right to such notice.

(11) For those forest practices regulated by the board and the department, the county, city, or town may waive in whole or in part its rights under this section, and may withdraw or modify any such waiver, at any time by written notice to the department.

(12) Notwithstanding subsections (2) through (5) of this section, forest practices applications or notifications are not required for exotic insect and disease control operations conducted in accordance with RCW 76.09.060(8) where eradication can reasonably be expected.

Sec. 6. RCW 76.09.060 and 2007 c 480 s 11 and 2007 c 106 s 1 are each reenacted and amended to read as follows:

(1) The department shall prescribe the form and contents of the notification and application. The forest practices rules shall specify by whom and under what conditions the notification and application shall be signed or otherwise certified as acceptable. Activities conducted by the department or a contractor under the direction of the department under the provisions of RCW 76.04.660, shall be exempt from the landowner signature requirement on any forest practice application required to be filed. The application or notification shall be delivered in person to the department, sent by first-class mail to the department or electronically filed in a form defined by the department. The form for electronic filing shall be readily convertible to a paper copy, which shall be available to the public pursuant to chapter 42.56 RCW. The information required may include, but is not limited to:

(a) Name and address of the forest landowner, timber owner, and operator;

(b) Description of the proposed forest practice or practices to be conducted;

(c) Legal description and tax parcel identification numbers of the land on which the forest practices are to be conducted;

(d) Planimetric and topographic maps showing location and size of all lakes and streams and other public waters in and immediately
adjacent to the operating area and showing all existing and proposed roads and major tractor roads;

(e) Description of the silvicultural, harvesting, or other forest practice methods to be used, including the type of equipment to be used and materials to be applied;

(f) Proposed plan for reforestation and for any revegetation necessary to reduce erosion potential from roadsides and yarding roads, as required by the forest practices rules;

(g) Soil, geological, and hydrological data with respect to forest practices;

(h) The expected dates of commencement and completion of all forest practices specified in the application;

(i) Provisions for continuing maintenance of roads and other construction or other measures necessary to afford protection to public resources;

(j) An affirmation that the statements contained in the notification or application are true; and

(k) All necessary application or notification fees.

(2) Long range plans may be submitted to the department for review and consultation.

(3) The application for a forest practice or the notification of a forest practice is subject to the reforestation requirement of RCW 76.09.070.

(a) If the application states that any land will be or is intended to be converted:

(i) The reforestation requirements of this chapter and of the forest practices rules shall not apply if the land is in fact converted unless applicable alternatives or limitations are provided in forest practices rules issued under RCW 76.09.070;

(ii) Completion of such forest practice operations shall be deemed conversion of the lands to another use for purposes of chapters 84.33 and 84.34 RCW unless the conversion is to a use permitted under a current use tax agreement permitted under chapter 84.34 RCW;

(iii) The forest practices described in the application are subject to applicable county, city, town, and regional governmental authority permitted under RCW 76.09.240 as well as the forest practices rules.

(b) Except as provided elsewhere in this section, if the landowner harvests without an approved application or notification or the landowner does not state that any land covered by the application or notification will be or is intended to be converted, and the department or the county, city, town, or regional governmental entity becomes aware of conversion activities to a use other than commercial timber operations, as that term is defined in RCW 76.09.020, then the department shall send to the department of ecology and a local government under this subsection.

(i) A notice of a conversion to nonforestry use;

(ii) A copy of the applicable forest practices application or notification, if any; and

(iii) Copies of any applicable outstanding final orders or decisions issued by the department related to the forest practices application or notification.

(c) Failure to comply with the reforestation requirements contained in any final order or decision shall constitute a removal of designation under the provisions of RCW 84.33.140, and a change of use under the provisions of RCW 84.34.080, and, if applicable, shall subject such lands to the payments and/or penalties resulting from such removals or changes.

(d) Conversion to a use other than commercial forest product operations within six years after approval of the forest practices application or notification without the consent of the county, city, or town shall constitute a violation of each of the county, municipal city, town, and regional authorities to which the forest practice operations would have been subject if the application had stated an intent to convert.

(e) Land that is the subject of a notice of conversion to a nonforestry use produced by the department and sent to the department of ecology and a local government under this subsection is subject to the development prohibition and conditions provided in RCW 76.09.460.

(f) Landowners who have not stated an intent to convert the land covered by an application or notification and who decide to convert the land to a nonforestry use within six years of receiving an approved application or notification must do so in a manner consistent with RCW 76.09.470.

(g) The application or notification must include a statement requiring an acknowledgment by the forest landowner of his or her intent with respect to conversion and acknowledging that he or she is familiar with the effects of this subsection.

(4) Whenever an approved application authorizes a forest practice which, because of soil condition, proximity to a water course or other unusual factor, has a potential for causing material damage to a public resource, as determined by the department, the applicant shall, when requested on the approved application, notify the department two days before the commencement of actual operations.

(5) Before the operator commences any forest practice in a manner or to an extent significantly different from that described in a previously approved application or notification, there shall be submitted to the department a new application or notification form in the manner set forth in this section.

(6) Except as provided in RCW 76.09.350(4), the notification to or the approval given by the department to an application to conduct a forest practice shall be effective for a term of two years from the date of approval or notification and shall not be renewed unless a new application is filed and approved or a new notification has been filed. At the option of the applicant, an application or notification may be submitted to cover a single forest practice or a number of forest practices within reasonable geographic or political boundaries as specified by the department. An application or notification that covers more than one forest practice may have an effective term of more than two years. The board shall adopt rules that establish standards and procedures for approving an application or notification that has an effective term of more than two years. Such rules shall include extended time periods for application or notification approval or disapproval. On an approved application with a term of more than two years, the applicant shall inform the department before commencing operations.

(7) Notwithstanding any other provision of this section, no prior application or notification shall be required for any emergency forest practice necessitated by fire, flood, windstorm, earthquake, or other emergency as defined by the board, but the operator shall submit an application or notification, whichever is applicable, to the department within forty-eight hours after commencement of such practice or as required by local regulations.

(8) Forest practices applications or notifications are not required for forest practices conducted to control exotic forest insect or disease outbreaks, when conducted by or under the direction of the department of agriculture in carrying out an order of the governor or director of the department of agriculture to implement pest control measures as authorized under chapter 17.24 RCW, and are not required when conducted by or under the direction of the department in carrying out emergency measures under a forest health emergency declaration by the commissioner of public lands as provided in RCW 76.06.130.

(a) For the purposes of this subsection, exotic forest insect or disease has the same meaning as defined in RCW 76.06.020.

(b) In order to minimize adverse impacts to public resources, control measures must be based on integrated pest management, as defined in RCW 17.15.010, and must follow forest practices rules relating to road construction and maintenance, timber harvest,
forest chemicals, to the extent possible without compromising control objectives.

(c) Agencies conducting or directing control efforts must provide advance notice to the appropriate regulatory staff of the department of the operations that would be subject to exemption from forest practices application or notification requirements.

(d) When the appropriate regulatory staff of the department are notified under (c) of this subsection, they must consult with the landowner, interested agencies, and affected tribes, and assist the notifying agencies in the development of integrated pest management plans that comply with forest practices rules as required under (b) of this subsection.

(e) Nothing under this subsection relieves agencies conducting or directing control efforts from requirements of the federal clean water act as administered by the department of ecology under RCW 90.48.260.

(f) Forest lands where trees have been cut as part of an exotic forest insect or disease control effort under this subsection are subject to reforestation requirements under RCW 76.09.070.

(g) The exemption from obtaining approved forest practices applications or notifications does not apply to forest practices conducted after the governor, the director of the department of agriculture, or the commissioner of public lands have declared that an emergency no longer exists because control objectives have been met, that there is no longer an imminent threat, or that there is no longer a good likelihood of control.

Sec. 7. RCW 76.09.100 and 1975 1st ex.s. c 200 s 7 are each amended to read as follows:

If the department determines that a person has failed to comply with the forest practices regulations relating to water quality protection, and the department of natural resources has not issued a stop work order or notice to comply, the department of ecology shall inform the department thereof.

(a) If a landowner who did not state an intent to convert his or her land to a nonforestry use decides to convert his or her land to a nonforestry use within six years of receiving an approved forest practices application or notification under this chapter, the landowner must:

(1) Stop all forest practices activities on the parcels subject to the proposed land use conversion to a nonforestry use;

(2) Contact the department and withdraw any applicable permits or decisions; and

(3) Make a determination as to whether or not the condition of the land in question is in full compliance with local ordinances and regulations. If full compliance is not found, a mitigation plan to address violations of local ordinances or regulations must be required for the parcel in question by the county, city, town, or regional governmental entity. Required mitigation plans must be prepared by the landowner and approved by the county, city, town, or regional governmental entity. Once approved, the mitigation plan must be implemented by the landowner. Mitigation measures that may be required include, but are not limited to, revegetation requirements to plant and maintain trees of sufficient maturity and appropriate species.
composition to restore critical area and buffer function or to be in compliance with applicable local government regulations.

NEW SECTION. Sec. 11. A new section is added to chapter 90.48 RCW to read as follows:

All responsibilities and duties of the department under this chapter are transferred to the department of natural resources for any discharge or other water quality issue related to a project required to obtain a forest practices approval under chapter 76.09 RCW.

Sec. 12. RCW 90.64.010 and 2009 c 143 s 2 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Advisory and oversight committee" means a balanced committee of agency, dairy farm, and interest group representatives convened to provide oversight and direction to the dairy nutrient management program.

(2) "Bypass" means the intentional diversion of waste streams from any portion of a treatment facility.

(3) "Catastrophic" means a tornado, hurricane, earthquake, flood, or other extreme condition that causes an overflow from a required waste retention structure.

(4) "Certification" means:

(a) The acknowledgment by a local conservation district that a dairy producer has constructed or otherwise put in place the elements necessary to implement his or her dairy nutrient management plan; and

(b) The acknowledgment by a dairy producer that he or she is managing dairy nutrients as specified in his or her approved dairy nutrient management plan.

(5) "Chronic" means a series of wet weather events that precludes the proper operation of a dairy nutrient management system that is designed for the current herd size.

(6) "Conservation commission" or "commission" means the conservation commission under chapter 89.08 RCW.

(a) Has more than seven hundred mature dairy cows, whether milked or dry cows, that are confined; or

(b) Has more than two hundred head of mature dairy cattle, whether milked or dry cows, that are confined and either:

(i) From which pollutants are discharged into navigable waters through a manmade ditch, flushing system, or other similar manmade device; or

(ii) From which pollutants are discharged directly into surface or ground waters of the state that originate outside of and pass over, across, or through the facility or otherwise come into direct contact with the animals confined in the operation.

(9) "Dairy animal feeding operation" means a lot or facility where the following conditions are met:

(a) Dairy animals that have been, are, or will be stabled or confined and fed for a total of forty-five days or more in any twelve-month period; and

(b) Crops, vegetation forage growth, or postharvest residues are not sustained in the normal growing season over any portion of the lot or facility. Two or more dairy animal feeding operations under common ownership are considered, for the purposes of this chapter, to be a single dairy animal feeding operation if they adjoin each other or if they use a common area for land application of wastes.

(10) "Dairy farm" means any farm that is licensed to produce milk under chapter 15.36 RCW.

(11) "Dairy nutrient" means any organic waste produced by dairy cows or a dairy farm operation.

(14) "Department" means the department of ((ecology under chapter 13.21A RCW)) agriculture.

(15) "Director" means the director of the department ((of ecology)) or his or her designee.

(16) "Upset" means an exceptional incident in which there is an unintentional and temporary noncompliance with technology-based permit effluent limitations because of factors beyond the reasonable control of the dairy. An upset does not include noncompliance to the extent caused by operational error, improperly designed treatment facilities, inadequate treatment facilities, lack of preventive maintenance, or careless or improper operation.

(17) "Violation" means the following acts or omissions:

(a) A discharge of pollutants into the waters of the state, except those discharges that are due to a chronic or catastrophic event, or to an upset as provided in 40 C.F.R. Sec. 122.41, or to a bypass as provided in 40 C.F.R. Sec. 122.41, and that occur when:

(i) A dairy producer has a current national pollutant discharge elimination system permit with a wastewater system designed, operated, and maintained for the current herd size and that contains all process-generated wastewater plus average annual precipitation minus evaporation plus contaminated storm water runoff from a twenty-five year, twenty-four hour rainfall event for that specific location, and the dairy producer has complied with all permit conditions, including dairy nutrient management plan conditions for appropriate land application practices; or

(ii) A dairy producer does not have a national pollutant discharge elimination system permit, but has complied with all of the elements of a dairy nutrient management plan that: Prevents the discharge of pollutants to waters of the state, is commensurate with the dairy producer's current herd size, and is approved and certified under RCW 90.64.026;

(b) Failure to register as required under RCW 90.64.017;

(c)(i) Until July 1, 2011, failure to keep for a period of three years all records necessary to show that applications of nutrients to the land were within acceptable agronomic rates, unless otherwise required by law; and

(ii) Beginning July 1, 2011, failure to keep for a period of five years all records necessary to show that applications of nutrients to the land were within acceptable agronomic rates;

(d) The lack of an approved dairy nutrient management plan by July 1, 2002; or

Sec. 13. RCW 90.64.020 and 1993 c 221 s 3 are each amended to read as follows:

(1) The director of the department ((of ecology))) may designate any dairy animal feeding operation as a concentrated dairy animal feeding operation upon determining that it is a significant contributor of pollution to the surface or ground waters of the state. In making this designation the director shall consider the following factors:

(a) The size of the animal feeding operation and the amount of wastes reaching waters of the state;

(b) The location of the animal feeding operation relative to waters of the state;

(c) The means of conveyance of animal wastes and process waters into the waters of the state;

(d) The slope, vegetation, rainfall, and other factors affecting the likelihood or frequency of discharge of animal wastes and process waste waters into the waters of the state; and

(e) Other relevant factors as established by the department by rule.
(2) A notice of intent to apply for a permit shall not be required from a concentrated dairy animal feeding operation designated under this section until the director has conducted an on-site inspection of the operation and determined that the operation should and could be regulated under the permit program.

Sec. 14. RCW 90.64.170 and 2005 c 510 s 1 are each amended to read as follows:

(1) The legislature finds that a livestock nutrient management program is essential to protecting the quality of the waters of the state and ensuring a healthy and productive livestock industry.

(2) The department (of agriculture and ecology) shall examine (their) its current statutory authorities and provide the legislature with recommendations for statutory changes to fully implement a livestock nutrient management program within the department (of agriculture) for concentrated animal feeding operations, animal feeding operations, and dairies, as authorized in RCW 90.48.260(e, 90.64.813,) and 90.64.901. (In developing recommended statutory changes, the departments shall consult with the livestock nutrient management program development and oversight committee created in RCW 90.64.813.) The recommendations must be submitted to the legislature by the department (of agriculture and ecology) prior to applying to the environmental protection agency for delegated authority to administer the CAFO portion of the national pollutant discharge elimination system permit program under the federal clean water act.

(3) For purposes of chapter 510, Laws of 2005, animal feeding operations (CAFOs) and concentrated animal feeding operations (CAFOs) have the same meaning as defined in 40 C.F.R. 122.23.

(4) This section applies to all operations that meet the definition of an AFO. This section does not apply to true pasture and rangeland operations that do not meet the definition of AFO, however, such operations may have confinement areas that may qualify as an AFO.

NEW SECTION. Sec. 15. A new section is added to chapter 90.48 RCW to read as follows:

All responsibilities and duties of the department under this chapter are transferred to the department of agriculture with regard to any matters falling within the scope of chapter 90.64 RCW.

Sec. 16. RCW 90.48.260 and 2007 c 341 s 55 are each amended to read as follows:

Unless otherwise designated in this chapter, the department of ecology is hereby designated as the state water pollution control agency for all purposes of the federal clean water act as it exists on February 4, 1987, and is hereby authorized to participate fully in the programs of the act as well as to take all action necessary to secure to the state the benefits and to meet the requirements of that act. With regard to the national estuary program established by section 320 of that act, the department shall exercise its responsibility jointly with the Puget Sound partnership, created in RCW 90.71.210. The department of ecology may delegate its authority under this chapter, including its national pollutant discharge elimination permit system authority and duties regarding animal feeding operations and concentrated animal feeding operations, to the department of agriculture through a memorandum of understanding. Until any such delegation receives federal approval, the department of agriculture’s adoption or issuance of animal feeding operation and concentrated animal feeding operation rules, permits, programs, and directives pertaining to water quality shall be accomplished after reaching agreement with the director of the department of ecology. Adoption or issuance and implementation shall be accomplished so that compliance with such animal feeding operation and concentrated animal feeding operation rules, permits, programs, and directives will achieve compliance with all federal and state water pollution control laws.

The powers granted herein include, among others, and notwithstanding any other provisions of chapter 90.48 RCW or otherwise, the following:

(1) Complete authority to establish and administer a comprehensive state point source waste discharge or pollution discharge elimination permit program which will enable the department to qualify for full participation in any national waste discharge or pollution discharge elimination permit system and will allow the department to be the sole agency issuing permits required by such national system operating in the state of Washington subject to the provisions of RCW 90.48.262(2). Program elements authorized herein may include, but are not limited to: (a) Effluent treatment and limitation requirements together with timing requirements related thereto; (b) applicable receiving water quality standards requirements; (c) requirements of standards of performance for new sources; (d) pretreatment requirements; (e) termination and modification of permits for cause; (f) requirements for public notices and opportunities for public hearings; (g) appropriate relationships with the secretary of the army in the administration of his responsibilities which relate to anchorage and navigation, with the administrator of the environmental protection agency in the performance of his duties, and with other governmental officials under the federal clean water act; (h) requirements for inspection, monitoring, entry, and reporting; (i) enforcement of the program through penalties, emergency powers, and criminal sanctions; (j) a continuing planning process; and (k) user charges.

(2) The power to establish and administer state programs in a manner which will insure the procurement of moneys, whether in the form of grants, loans, or otherwise; to assist in the construction, operation, and maintenance of various water pollution control facilities and works; and the administering of various state water pollution control management, regulatory, and enforcement programs.

(3) The power to develop and implement appropriate programs pertaining to continuing planning processes, area-wide waste treatment management plans, and basin planning.

The governor shall have authority to perform those actions required of him or her by the federal clean water act.

Sec. 17. RCW 77.55.021 and 2008 c 272 s 1 are each amended to read as follows:

(1) Except as provided in RCW 77.55.031, 77.55.051, and 77.55.041, when section 3 of this act, in the event that any person or government agency desires to undertake a hydraulic project, the person or government agency shall, before commencing work thereon, secure the approval of the department in the form of a permit as to the adequacy of the means proposed for the protection of fish life.

(2) A complete written application for a permit may be submitted in person or by registered mail and must contain the following:

(a) General plans for the overall project;
(b) Complete plans and specifications of the proposed construction or work within the mean high water line in saltwater or within the ordinary high water line in freshwater;
(c) Complete plans and specifications for the proper protection of fish life; and
(d) Notice of compliance with any applicable requirements of the state environmental policy act, unless otherwise provided for in this chapter.

(3) (a) Protection of fish life is the only ground upon which approval of a permit may be denied or conditioned. Approval of a permit may not be unreasonably withheld or unreasonably conditioned. Except as provided in this subsection and subsections (8), (10), and (12) of this section, the department has forty-five calendar days upon receipt of a complete application to grant or deny approval of a permit. The forty-five day requirement is suspended if:
(i) After ten working days of receipt of the application, the applicant remains unavailable or unable to arrange for a timely field evaluation of the proposed project;
(ii) The site is physically inaccessible for inspection;
obtaining a written permit prior to commencing work. The department shall notify the applicant in writing of the reasons for the delay.

(c) The period of forty-five calendar days may be extended if the permit is part of a multiagency permit streamlining effort and all participating permitting agencies and the permit applicant agree to an extended timeline longer than forty-five calendar days.

(4) If the department denies approval of a permit, the department shall provide the applicant a written statement of the specific reasons why and how the proposed project would adversely affect fish life. Issuance, denial, conditioning, or modification of a permit shall be appealable to the department or the board as specified in RCW 77.55.301 within thirty days of the notice of decision.

(5)(a) The permittee must demonstrate substantial progress on construction of that portion of the project relating to the permit within two years of the date of issuance and in RCW 77.55.151.

(b) Approval of a permit is valid for a period of up to five years from the date of issuance, except as provided in (c) of this subsection and in RCW 77.55.151.

(c) A permit remains in effect without need for periodic renewal for hydraulic projects that divert water for agricultural irrigation or stock watering purposes and that involve seasonal construction or other work. A permit for streambank stabilization projects to protect farm and agricultural land as defined in RCW 84.34.020 remains in effect without need for periodic renewal if the project causes the need for the streambank stabilization occurs on an annual or more frequent basis. The permittee must notify the appropriate agency before commencing the construction or other work within the area covered by the permit.

(6) The department may, after consultation with the permittee, modify a permit due to changed conditions. The modification becomes effective unless appealed to the department or the board as specified in RCW 77.55.301 within thirty days of the notice of the proposed modification. For hydraulic projects that divert water for agricultural irrigation or stock watering purposes, or when the hydraulic project or other work is associated with streambank stabilization to protect farm and agricultural land as defined in RCW 84.34.020, the burden is on the department to show that changed conditions warrant the modification in order to protect fish life.

(7) A permittee may request modification of a permit due to changed conditions. The request must be processed within forty-five calendar days of receipt of the written request. A decision by the department may be appealed to the board within thirty days of the notice of the decision. For hydraulic projects that divert water for agricultural irrigation or stock watering purposes, or when the hydraulic project or other work is associated with streambank stabilization to protect farm and agricultural land as defined in RCW 84.34.020, the burden is on the permittee to show that changed conditions warrant the requested modification and that such a modification will not impair fish life.

(8)(a) The department, the county legislative authority, the governor, or the legislature may declare and continue an emergency. If the county legislative authority declares an emergency under this subsection, it shall immediately notify the department. A declared state of emergency by the governor under RCW 43.06.010 shall constitute a declaration under this subsection.

(b) The department, through its authorized representatives, shall issue immediately, upon request, oral approval for a stream crossing, or work to remove any obstructions, repair existing structures, restore streambanks, protect fish life, or protect property threatened by the stream or a change in the stream flow without the necessity of obtaining a written permit prior to commencing work. Conditions of the emergency oral permit must be established by the department and reduced to writing within thirty days and complied with as provided for in this chapter.

(c) The department may not require the provisions of the state environmental policy act, chapter 43.21C RCW, to be met as a condition of issuing a permit under this subsection.

(9) All state and local agencies with authority under this chapter to issue permits or other authorizations in connection with emergency water withdrawals and facilities authorized under RCW 43.83B.410 shall expedite the processing of such permits or authorizations in keeping with the emergency nature of such requests and shall provide a decision to the applicant within fifteen calendar days of the date of application.

(10) The department or the county legislative authority may determine an imminent danger exists. The county legislative authority shall notify the department, in writing, if it determines that an imminent danger exists. In cases of imminent danger, the department shall issue an expedited written permit, upon request, for work to remove any obstructions, repair existing structures, restore banks, protect fish resources, or protect property. Expedited permit requests require a complete written application as provided in subsection (2) of this section and must be issued within fifteen calendar days of receipt of a complete written application. Approval of an expedited permit is valid for up to sixty days from the date of issuance. The department may not require the provisions of the state environmental policy act, chapter 43.21C RCW, to be met as a condition of issuing a permit under this subsection.

(11)(a) For any property, except for property located on a marine shoreline, that has experienced at least two consecutive years of flooding or erosion that has damaged or has threatened to damage a major structure, water supply system, septic system, or access to any road or highway, the county legislative authority may determine that a chronic danger exists. The county legislative authority shall notify the department, in writing, when it determines that a chronic danger exists. In cases of chronic danger, the department shall issue a permit, upon request, for work necessary to abate the chronic danger by removing any obstructions, repairing existing structures, restoring banks, restoring road or highway access, protecting fish resources, or protecting property. Permit requests must be made and processed in accordance with subsections (2) and (3) of this section.

(b) Any projects proposed to address a chronic danger identified under (a) of this subsection that satisfies the project description identified in RCW 77.55.181(1)(a)(iii) are not subject to the provisions of the state environmental policy act, chapter 43.21C RCW. However, the project is subject to the review process established in RCW 77.55.181(3) as if it were a fish habitat improvement project.

(12) The department may issue an expedited written permit in those instances where normal permit processing would result in significant hardship for the applicant or unacceptable damage to the environment. Expedited permit requests require a complete written application as provided in subsection (2) of this section and must be issued within fifteen calendar days of receipt of a complete written application. Approval of an expedited permit is valid for up to sixty days from the date of issuance. The department may not require the provisions of the state environmental policy act, chapter 43.21C RCW, to be met as a condition of issuing a permit under this subsection.

Sec. 18. RCW 77.12.755 and 2003 c 311 s 10 are each amended to read as follows:

((In coordination with the department of natural resources and lead entity groups.)) The department must establish a ranked inventory of fish passage barriers on land owned by small forest landowners based on the principle of fixing the worst first within a watershed consistent with the fish passage priorities of the forest and fish report. The department shall first gather and synthesize all available existing information about the locations and impacts of fish
passage barriers in Washington. This information must include, but not be limited to, the most recently available limiting factors analysis conducted pursuant to RCW 77.85.060(2), the stock status information contained in the department of fish and wildlife salmonid stock inventory (SASSI), the salmon and steelhead habitat inventory and assessment project (SSHIAP), and any comparable science-based assessment when available. The inventory of fish passage barriers must be kept current and at a minimum be updated by the beginning of each calendar year. Nothing in this section grants the department or others additional right of entry onto private property.

Sec. 19. RCW 77.12.870 and 2009 c 333 s 21 are each amended to read as follows:

(1) The department((...in consultation with the Northwest straits commission, the department of natural resources, and other interested parties...)) must create and maintain a database of known derelict fishing gear, including the type of gear and its location.

(2) A person who loses or abandons commercial fishing gear within the waters of the state is encouraged to report the location of the loss and the type of gear lost to the department within forty-eight hours of the loss.

Sec. 20. RCW 77.12.878 and 2002 c 281 s 6 are each amended to read as follows:

(1) The director shall create a rapid response plan in cooperation with the aquatic nuisance species committee and its member agencies that describes actions to be taken when a prohibited aquatic animal species is found to be infesting a water body. These actions include eradication or control programs where feasible and containment of infestation where practical through notification, public education, and the enforcement of regulatory programs.

(2) The commission may adopt rules to implement the rapid response plan.

(3) The director((...the department of ecology, and the Washington state parks and recreation commission)) may post signs at water bodies that are infested with aquatic animal species that are classified as prohibited aquatic animal species under RCW 77.12.020 or with invasive species of the plant kingdom. The signs should identify the prohibited plant and animal species present and warn users of the water body of the hazards and penalties for possessing and transporting these species. Educational signs may be placed at uninfested sites.

Sec. 21. RCW 77.15.390 and 2001 c 253 s 40 are each amended to read as follows:

(1) A person is guilty of unlawful taking of seaweed if the person takes, possesses, or harvests seaweed and:

(a) The person does not have and possess the license required by chapter 77.32 RCW for taking seaweed;

(b) The action violates any rule of the department ((...of the department of natural resources...)) regarding seasons, possession limits, closed areas, closed times, or any other rule addressing the manner or method of taking, possessing, or harvesting of seaweed.

(2) Unlawful taking of seaweed is a misdemeanor. This does not affect rights of the state to recover civilly for trespass, conversion, or theft of state-owned valuable materials.

Sec. 22. RCW 77.44.040 and 1996 c 222 s 4 are each amended to read as follows:

The goals of the warm water game fish enhancement program are to improve the fishing for warm water game fish using cost-effective management. Development of new ponds and lakes shall be an important and integral part of the program. The department shall work ((...with the department of natural resources...)) to coordinate the reclamation of surface mines and the development of warm water game fish ponds. Improvement of warm water fishing shall be coordinated with the protection and conservation of cold water fish populations. This shall be accomplished by carefully designing the warm water projects to have minimal adverse effects upon the cold water fish populations. New pond and lake development should have beneficial effects upon wildlife due to the increase in lacustrine and wetland habitat that will accompany the improvement of warm water fish habitat. The department shall not develop projects that will increase the populations of undesirable or deleterious fish species such as carp, squawfish, walking catfish, and others.

Fish culture programs shall be used in conditions where they will prove to be cost-effective, and may include the purchase of warm water fish from aquatic farmers defined in RCW 15.85.020. Consideration should be made for development of urban area enhancement of fishing opportunity for put-and-take species, such as channel catfish, that are amenable to production by low-cost fish culture methods. Fish culture shall also be used for stocking of high value species, such as walleye, smallmouth bass, and tiger musky. Introduction of special genetic strains that show high potential for recreational fishing improvement, including Florida strain largemouth bass and striped bass, shall be considered.

Transplantation and introduction of exotic warm water fish shall be carefully reviewed to assure that adverse effects to native fish and wildlife populations do not occur. This review shall include an analysis of consequences from disease and parasite introduction.

Population management through the use of fish toxicants, including rotenone or derris root, shall be an integral part of the warm water game fish enhancement program. However, any use of fish toxicants shall be subject to a thorough review to prevent adverse effects to cold water fish, desirable warm water fish, and other biota. Eradication of deleterious fish species shall be a goal of the program.

Habitat improvement shall be a major aspect of the warm water game fish enhancement program. Habitat improvement opportunities shall be defined with scientific investigations, field surveys, and by using the extensive experience of other state management entities. Installation of cover, structure, water flow control structures, screens, spawning substrate, vegetation control, and other management techniques shall be fully used. The department shall work to gain access to privately owned waters that can be developed with habitat improvements to improve the warm water resource for public fishing.

The department shall use the resources of cooperative groups to assist in the planning and implementation of the warm water game fish enhancement program. In the development of the program the department shall actively involve the organized fishing clubs that primarily fish for warm water fish. The warm water fish enhancement program shall be cooperative between the department and private landowners; private landowners shall not be required to alter the uses of their private property to fulfill the purposes of the warm water fish enhancement program. The director shall not impose restrictions on the use of private property, or take private property, for the purpose of the warm water fish enhancement program.

Sec. 23. RCW 77.55.121 and 2005 c 146 s 404 are each amended to read as follows:

(1) Beginning in January 1998, the department ((...and the department of natural resources...)) shall implement a habitat incentives program based on the recommendations of federally recognized Indian tribes, landowners, the regional fisheries enhancement groups, the timber, fish, and wildlife cooperators, and other interested parties. The program shall allow a private landowner to enter into an agreement with the department((...)) to enhance habitat on the landowner's property for food fish, game fish, or other wildlife species. In exchange, the landowner shall receive state regulatory certainty with regard to future applications for a permit or a forest practices permit on the property covered by the agreement. The overall goal of the program is to provide a mechanism that facilitates habitat development on private property while avoiding an adverse state regulatory impact to the landowner at some future date. A single agreement between the department((...)) and a landowner may encompass up to one thousand acres. A landowner may enter into multiple agreements with the department((...)), provided that the total
acreage covered by such agreements with a single landowner does not exceed ten thousand acres. The department((s)) is not obligated to enter into an agreement unless the department((s)) finds that the agreement is in the best interest of protecting fish or wildlife species or their habitat.

(2) A habitat incentives agreement shall be in writing and shall contain at least the following: (a) A description of the property covered by the agreement; (b) an expiration date; (c) a description of the condition of the property prior to the implementation of the agreement; and (d) other information needed by the landowner and the departments for future reference and decisions.

(3) As part of the agreement, the department may stipulate the factors that will be considered when the department evaluates a landowner's application for a permit on property covered by the agreement. The department's identification of these evaluation factors shall be in concurrence with ((the department of natural resources and)) affected federally recognized Indian tribes. In general, future decisions related to the issuance, conditioning, or denial of a permit must be based on the conditions present on the landowner's property at the time of the agreement, unless all parties agree otherwise.

(4) As part of the agreement, the department ((of natural resources)) may stipulate the factors that will be considered when the department ((of natural resources)) evaluates a landowner's application for a forest practices permit under chapter 76.09 RCW on property covered by the agreement. The department's ((of natural resources)) identification of these evaluation factors shall be in concurrence with ((the department and)) affected federally recognized Indian tribes. In general, future decisions related to the issuance, conditioning, or denial of forest practices permits shall be based on the conditions present on the landowner's property at the time of the agreement, unless all parties agree otherwise.

(5) The agreement is binding on and may be used by only the landowner who entered into the agreement with the department. The agreement shall not be appurtenant to the land. However, if a new landowner chooses to maintain the habitat enhancement efforts on the property, the new landowner and the department and the department of natural resources may jointly choose to retain the agreement on the property.

(6) If the department ((and the department of natural resources)) receives multiple requests for agreements with private landowners under the habitat incentives program, the department((s)) shall prioritize these requests and shall enter into as many agreements as possible within available budgetary resources.

Sec. 24. RCW 77.55.211 and 2005 c 146 s 406 are each amended to read as follows:

The department((, the department of ecology, and the department of natural resources)) shall ((jointly)) develop an informational brochure that describes when permits and any other authorizations are required for flood damage prevention and reduction projects, and recommend((s)) ways to best proceed through the various regulatory permitting processes.

Sec. 25. RCW 77.55.131 and 2005 c 146 s 405 are each amended to read as follows:

The department ((and the department of ecology)) will work cooperatively with the United States army corps of engineers to develop a memorandum of agreement outlining dike vegetation management guidelines so that dike owners are eligible for coverage under P.L. 84-99, and state requirements established pursuant to RCW 77.55.021 are met.

Sec. 26. RCW 77.65.510 and 2009 c 195 s 1 are each amended to read as follows:

(1) The department must establish and administer a direct retail endorsement to serve as a single license that permits a Washington license holder or alternate operator to commercially harvest retail-eligible species and to clean, dress, and sell his or her catch directly to consumers at retail, including over the internet. The direct retail endorsement must be issued as an optional addition to all holders of: (a) A commercial fishing license for retail-eligible species that the department offers under this chapter; and (b) an alternate operator license who are designated as an alternate operator on a commercial fishing license for retail eligible species.

(2) The direct retail endorsement must be offered at the time of application for the qualifying commercial fishing license. Individuals in possession of a qualifying commercial fishing license issued under this chapter, and alternate operators designated on such a license, may add a direct retail endorsement to their current license at any time. Individuals who do not have a commercial fishing license for retail-eligible species issued under this chapter, and who are not designated as alternate operators on such a license, may not receive a direct retail endorsement. The costs, conditions, responsibilities, and privileges associated with the endorsed commercial fishing license is not affected or altered in any way by the addition of a direct retail endorsement. These costs include the base cost of the license and any revenue and excise taxes.

(3) An individual need only add one direct retail endorsement to his or her license portfolio. If a direct retail endorsement is selected by an individual holding more than one commercial fishing license issued under this chapter, a single direct retail endorsement is considered to be added to all qualifying commercial fishing licenses held by that individual, and is the only license required for the individual to sell at retail any retail-eligible species permitted by all of the underlying endorsed licenses. If a direct retail endorsement is selected by an individual designated as an alternate operator on more than one commercial license issued under this chapter, a single direct retail endorsement is the only license required for the individual to sell at retail any retail-eligible species permitted by all of the underlying endorsed licenses on which the individual is designated as an alternate operator. The direct retail endorsement applies only to the Washington license holder or alternate operator obtaining the endorsement.

(4) In addition to any fees charged for the endorsed licenses and harvest documentation as required by this chapter or the rules of the department, the department may set a reasonable annual fee not to exceed the administrative costs to the department for a direct retail endorsement.

(5) The holder of a direct retail endorsement is responsible for documenting the commercial harvest of salmon and crab according to the provisions of this chapter, the rules of the department for a wholesale fish dealer, and the reporting requirements of the endorsed license. Any retail-eligible species caught by the holder of a direct retail endorsement must be documented on fish tickets.

(6) The direct retail endorsement must be displayed in a readily visible manner by the seller wherever and whenever a sale to someone other than a licensed wholesale dealer occurs. The commission may require that the holder of a direct retail endorsement notify the department up to eighteen hours before conducting an in-person sale of retail-eligible species, except for in-person sales that have a cumulative retail sales value of less than one hundred fifty dollars in a twenty-four hour period that are sold directly from the vessel. For sales occurring in a venue other than in person, such as over the internet, through a catalog, or on the phone, the direct retail endorsement number of the seller must be provided to the buyer both at the time of sale and the time of delivery. All internet sales must be conducted in accordance with federal laws and regulations.

(7) The direct retail endorsement is to be held by a natural person and is not transferrable or assignable. If the endorsed license is transferred, the direct retail endorsement immediately becomes void, and the transferor is not eligible for a full or prorated reimbursement of the annual fee paid for the direct retail endorsement. Upon becoming void, the holder of a direct retail endorsement must surrender the physical endorsement to the department.
(8) The holder of a direct retail endorsement must abide by the provisions of Title 69 RCW as they apply to the processing and retail sale of seafood. The department must distribute a pamphlet provided by the department of agriculture with the direct retail endorsement generally describing the labeling requirements set forth in chapter 69.04 RCW as they apply to seafood.

(9) The holder of a qualifying commercial fishing license issued under this chapter, or an alternate operator designated on such a license, must either possess a direct retail endorsement or a wholesale dealer license provided for in RCW 77.65.280 in order to lawfully sell their catch or harvest in the state to anyone other than a licensed wholesale dealer.

(10) The direct retail endorsement entitles the holder to sell a retail-eligible species only at a temporary food service establishment as that term is defined in RCW 69.06.045, or directly to a restaurant or other similar food service business.

Sec. 27. RCW 77.70.210 and 2000 c 107 s 70 are each amended to read as follows:

(1) A herring spawn on kelp fishery license is required to commercially take herring eggs which have been deposited on vegetation of any type.

(2) A herring spawn on kelp fishery license may be issued only to a person who:

(a) Holds a herring fishery license issued under RCW 77.65.200 and 77.70.120; and

(b) Is the highest bidder in an auction conducted under subsection (3) of this section.

(3) The department shall sell herring spawn on kelp commercial fishery licenses at auction to the highest bidder. Bidders shall identify their sources of kelp. ((Kelp harvested from state-owned aquatic lands as defined in RCW 79.90.465 requires the written consent of the department of natural resources.)) The department shall give all holders of herring fishery licenses thirty days' notice of the auction.

Sec. 28. RCW 77.105.070 and 1994 c 264 s 47 are each amended to read as follows:

The department shall ((work with the department of ecology and local government entities)) streamline the siting process for new enhancement projects. The department is encouraged to work with the legislature to develop statutory changes that enable expeditious processing and granting of permits for fish enhancement projects.

Sec. 29. RCW 79.13.620 and 2003 c 334 s 378 are each amended to read as follows:

(1) It is the purpose of ((chapter 163, Laws of 1996)) this section that all state agricultural lands, grazing lands, and grazeable woodlands (shall) be managed in keeping with the statutory and constitutional mandates under which each agency operates. ((Chapter 163, Laws of 1996 is consistent with section 1, chapter 4, Laws of 1996 sp. sess.))

(2) ((The ecosystem standards developed under chapter 4, Laws of 1993 sp. sess. for state-owned agricultural and grazing lands are defined as desired ecological conditions. The standards are not intended to prescribe practices. For this reason,)) Land managers are encouraged to use an adaptive management approach in selecting and implementing practices that work towards meeting the standards based on the best available science and evaluation tools.

(3) ((For as long as the chapter 4, Laws of 1993 sp. sess. ecosystem standards remain in effect, they)) Land shall be ((applied)) managed through a collaborative process that incorporates the following principles:

(a) The land manager and lessee or permittee shall look at the land together and make every effort to reach agreement on management and resource objectives for the land under consideration;

(b) They will then discuss management options and make every effort to reach agreement on which of the available options will be used to achieve the agreed-upon objectives;

(c) No land manager or owner ever gives up his or her management prerogative;

(d) Efforts will be made to make land management plans economically feasible for landowners, managers, and lessees and to make the land management plan compatible with the lessee's entire operation;

(e) Coordinated resource management planning is encouraged where either multiple ownerships, or management practices, or both, are involved;

The program shall maintain a classification of natural heritage resources, an inventory of their locations, and a data bank for such information. (The department shall cooperate with the department of fish and wildlife in the selection and nomination of areas from the data bank that relate to critical wildlife habitats.) Information from the data bank shall be made available to public and private agencies and individuals for environmental assessment and proprietary land management purposes. Usage of the classification, inventory, or data bank of natural heritage resources for any purpose inconsistent with the natural heritage program is not authorized;

Sec. 56. RCW 78.56.060 and 1994 c 232 s 6 are each amended to read as follows:

The department of (ecology) natural resources will appoint a metals mining coordinator. The coordinator will maintain current information on the status of any metals mining and milling operations regulated under this chapter from the preparation of the environmental impact statement through the permitting, construction, operation, and reclamation phases of the project or until the proposal is no longer active. The coordinator shall also maintain current information on postclosure activities. The coordinator will act as a contact person for the applicant, the operator, and interested members of the public. The coordinator may also assist agencies with coordination of their inspection and monitoring responsibilities.

Sec. 57. RCW 78.56.080 and 1997 c 170 s 1 are each amended to read as follows:

(1) The metals mining account is created in the state treasury. Expenditures from this account are subject to appropriation. Expenditures from this account may only be used for: (a) The additional inspections of metals mining and milling operations required by RCW 78.56.070 and (b) the metals mining coordinator established in RCW 78.56.060.

(2)(e) As part of its normal budget development process and in consultation with the metals mining industry, the department of (ecology) natural resources shall estimate the costs required (for the department) to meet its obligations for the additional inspections of metals mining and milling operations required by chapter 232, Laws of 1994. The department shall also estimate the cost of employing the metals mining coordinator established in RCW 78.56.060.

(((b) As part of its normal budget development process and in consultation with the metals mining industry, the department of natural resources shall estimate the costs required for the department to meet its obligations for the additional inspections of metals mining and milling operations required by chapter 232, Laws of 1994.))

(3) Based on the cost estimates generated by the department of (ecology and the department of)) natural resources, the department (of ecology) shall establish the amount of a fee to be paid by each active metals mining and milling operation regulated under this chapter. The fee shall be established at a level to fully recover the direct and indirect costs of the (agency) department's responsibilities identified in subsection (2) of this section. The amount of the fee for each operation shall be proportional to the number of visits required per site. Each applicant for a metals mining and milling operation shall also be assessed the fee based on the same criterion. The department (of ecology) may adjust the fees established in this subsection if unanticipated activity in the industry increases or decreases the amount of funding necessary to meet (behavior) the agency's inspection responsibilities.

(4) The department of (ecology) natural resources shall collect the fees established in subsection (3) of this section. All moneys from these fees shall be deposited into the metals mining account.

Sec. 58. RCW 78.56.090 and 1994 c 232 s 9 are each amended to read as follows:

(1) In the processing of an application for an initial waste discharge permit for a tailings facility pursuant to the requirements of chapter 90.48 RCW, the department of (ecology) natural resources shall consider site-specific criteria in determining a preferred location of tailings facilities of metals mining and milling operations and incorporate the requirements of all known available and reasonable methods in order to maintain the highest possible standards to insure the purity of all waters of the state in accordance with the public policy identified by RCW 90.48.010.

In implementing the siting criteria, the department shall take into account the objectives of the proponent's application relating to mining and milling operations. These objectives shall consist of, but not be limited to: (a) operational feasibility, (b) compatibility with optimum tailings placement methods, (c) adequate volume capacity, (d) availability of construction materials, and (e) an optimized embankment volume.

(2) To meet the mandate of subsection (1) of this section, siting of tailings facilities shall be accomplished through a two-stage process that consists of a primary alternatives screening phase, and a secondary technical site investigation phase.

(3) The primary screening phase will consist of, but not be limited to, siting criteria based on considerations as to location as follows: (a) Proximity to the one hundred year floodplain, as indicated in the most recent federal emergency management agency maps; (b) Proximity to surface and ground water; (c) Topographic setting; (d) Identifiable adverse geologic conditions, such as landslides and active faults; and (e) Visibility impacts of the public generally and residents more particularly.

(4) The department of (ecology) natural resources, through the primary screening process, shall reduce the available tailings facility sites to one or more feasible locations whereupon a technical site
investigation phase shall be conducted by the department for the purpose of verifying the adequacy of the remaining potential sites. The technical site investigations phase shall consist of, but not be limited to, the following:

(a) Soil characteristics;
(b) Hydrologic characteristics;
(c) A local and structural geology evaluation, including seismic conditions and related geotechnical investigations;
(d) A surface water control analysis; and
(e) A slope stability analysis.

(5) Upon completion of the two phase evaluation process set forth in this section, the department of (ecology) natural resources shall issue a site selection report on the preferred location. This report shall address the above criteria as well as analyze the feasibility of reclamation and stabilization of the tailings facility. The siting report may recommend mitigation or engineering factors to address siting concerns. The report shall be developed in conjunction with the preparation of and contained in an environmental impact statement prepared pursuant to chapter 43.21C RCW. The report may be utilized by the department of ecology for the purpose of providing information related to the suitability of the site and for ruling on an application for a waste discharge permit.

(6) The department of (ecology) natural resources may, at its discretion, require the applicant to provide the information required in either phase one or phase two as described in subsections (3) and (4) of this section.

Sec. 59. RCW 78.56.100 and 1994 c 232 s 10 are each amended to read as follows:

(1) In order to receive a waste discharge permit from the department of (ecology) natural resources pursuant to the requirements of chapter 90.48 RCW or in order to operate a metals mining and milling tailing facility, an applicant proposing a metals mining and milling operation regulated under this chapter must meet the following additional requirements:

(a) Any tailings facility shall be designed and operated to prevent the release of pollution and must meet the following standards:

(i) Operators shall apply all known available and reasonable technology to limit the concentration of potentially toxic materials in the tailings facility to assure the protection of wildlife and human health;

(ii) The tailings facility shall have a containment system that includes an engineered liner system, leak detection and leak collection elements, and a seepage collection impoundment to assure that a leak of any regulated substance under chapter 90.48 RCW will be detected before escaping from the containment system. The design and management of the facility must ensure that any leaks from the tailings facility are detected in a manner which allows for remediation pursuant to chapter 90.48 RCW. The applicant shall prepare a detailed engineering report setting forth the facility design and construction. The applicant shall submit the report to the department of (ecology) natural resources for its review and approval of a design as determined by the department. Natural conditions, such as depth to groundwater or net rainfall, shall be taken into account in the facility design, but not in lieu of the protection required by the engineered liner system;

(iii) The toxicity of mine or mill tailings and the potential for long-term release of regulated substances from mine or mill tailings shall be reduced to the greatest extent practicable through stabilization, removal, or reuse of the substances; and

(iv) The closure of the tailings facility shall provide for isolation or containment of potentially toxic materials and shall be designed to prevent future release of regulated substances contained in the impoundment;

(b) The applicant must develop a waste rock management plan approved by the department of (ecology and the department of) natural resources which emphasizes pollution prevention. At a minimum, the plan must contain the following elements:

(i) An accurate identification of the acid generating properties of the waste rock;

(ii) A strategy for encapsulating potentially toxic material from the environment, when appropriate, in order to prevent the release of heavy metals and acidic drainage; and

(iii) A plan for reclaiming and closing waste rock sites which minimizes infiltration of precipitation and runoff into the waste rock and which is designed to prevent future releases of regulated substances contained within the waste rock;

(c) If an interested citizen or citizen group so requests of the department of (ecology) natural resources, the metals mining and milling operator or applicant shall work with the department (of ecology) and the interested party to make arrangements for citizen observation and verification in the taking of required water samples. While it is the intent of this subsection to provide for citizen observation and verification of water sampling activities, it is not the intent of this subsection to require additional water sampling and analysis on the part of the mining and milling operation or the department. The citizen observation and verification program shall be incorporated into the applicant's, operator's, or department's normal sampling regimen and shall occur at least once every six months. There is no duty of care on the part of the state or its employees to any person who participates in the citizen observation and verification of water sampling under chapter 232, Laws of 1994 and the state and its employees shall be immune from any civil lawsuit based on any injuries to or claims made by any person as a result of that person's participation in such observation and verification of water sampling activities. The metals mining and milling operator or applicant shall not be liable for any injuries to or claims made by any person which result from that person coming onto the property of the metals mining and milling operator or applicant as an observer pursuant to chapter 232, Laws of 1994. The results from these and all other relevant water sampling activities shall be kept on file with the relevant county and shall be available for public inspection during normal working hours; and

(d) An operator or applicant for a metals mining and milling operation must complete a voluntary reduction plan in accordance with RCW 70.95C.200.

(2) Only those tailings facilities constructed after April 1, 1994, must meet the requirement established in subsection (1)(a) of this section. Only those waste rock holdings constructed after April 1, 1994, must meet the requirement established in subsection (1)(b) of this section.

Sec. 60. RCW 78.56.110 and 1995 c 223 s 1 are each amended to read as follows:

(1) The department of (ecology) natural resources shall not issue necessary permits to an applicant for a metals mining and milling operation until the applicant has deposited with the department (of ecology) a performance security which is acceptable to the department (of ecology) based on the requirements of subsection (2) of this section. This performance security may be:

(a) Bank letters of credit;

(b) A cash deposit;

(c) Negotiable securities;

(d) An assignment of a savings account;

(e) A savings certificate in a Washington bank; or

(f) A corporate surety bond executed in favor of the department of ecology by a corporation authorized to do business in the state of Washington under Title 48 RCW.

The department of (ecology) natural resources may, for any reason, refuse any performance security not deemed adequate.

(2) The performance security shall be conditioned on the faithful performance of the applicant or operator in meeting the following obligations:
(a) Compliance with the environmental protection laws of the state of Washington administered by the department of ((ecology)) natural resources, or permit conditions administered by the department ((of ecology)), associated with the construction, operation, and closure pertaining to metals mining and milling operations, and with the related environmental protection ordinances and permit conditions established by local government when requested by local government;
(b) Reclamation of metals mining and milling operations that do not meet the threshold of surface mining as defined by RCW 78.44.031(17);
(c) Postclosure environmental monitoring as determined by the department of ((ecology)) natural resources; and
(d) Provision of sufficient funding as determined by the department of ((ecology)) natural resources for cleanup of potential problems revealed during or after closure.
(3) The department of ((ecology)) natural resources may, if it deems appropriate, adopt rules for determining the amount of the performance security, requirements for the performance security, requirements for the issuer of the performance security, and any other requirements necessary for the implementation of this section.
(4) The department of ((ecology)) natural resources may increase or decrease the amount of the performance security at any time to compensate for any alteration in the operation that affects meeting the obligations in subsection (2) of this section. At a minimum, the department shall review the adequacy of the performance security every two years.
(5) Liability under the performance security shall be maintained until the obligations in subsection (2) of this section are met to the satisfaction of the department of ((ecology)) natural resources. Liability under the performance security may be released only upon written notification by the department ((of ecology)).
(6) Any interest or appreciation on the performance security shall be held by the department of ((ecology)) natural resources until the obligations in subsection (2) of this section have been met to the satisfaction of the department ((of ecology)). At such time, the interest shall be remitted to the applicant or operator. However, if the applicant or operator fails to comply with the obligations of subsection (2) of this section, the interest or appreciation may be used by the department ((of ecology)) to comply with the obligations.
(7) ((Only one agency may require a performance security to satisfy the deposit requirements of RCW 78.44.087, and only one agency may require a performance security to satisfy the deposit requirements of this section. However,)) A single performance security, when acceptable to ((the department of ecology))), the department of natural resources, may be utilized ((by both agencies)) to satisfy the requirements of this section and RCW 78.44.087.

Sec. 61. RCW 78.56.120 and 1995 c 223 s 2 are each amended to read as follows:
The department may proceed at any time after issuing the order to submit performance security to remediate or mitigate adverse impacts.
The department shall keep a record of all expenses incurred in carrying out any remediation or mitigation activities authorized under this section, including:
(1) Remediation or mitigation;
(2) A reasonable charge for the services performed by the state's personnel and the state's equipment and materials utilized; and
(3) Administrative and legal expenses related to remediation or mitigation.
The department shall refund to the surety or permit holder all amounts received in excess of the amount of expenses incurred. If the amount received is less than the expenses incurred, the attorney general, upon request of the department of ((ecology)) natural resources, may bring an action against the permit holder on behalf of the state in the superior court to recover the remaining costs listed in this section.

Sec. 62. RCW 78.56.160 and 1998 c 245 s 161 are each amended to read as follows:
(1) Until June 30, 1996, there shall be a moratorium on metals mining and milling operations using the heap leach extraction process. The department of natural resources ((and the department of ecology)) shall ((jointly)) review the existing laws and regulations pertaining to the heap leach extraction process for their adequacy in safeguarding the environment.
(2) Metals mining using the process of in situ extraction is permanently prohibited in the state of Washington.

Sec. 63. RCW 78.60.070 and 2007 c 338 s 1 are each amended to read as follows:
(1) Any person proposing to drill a well or redrill an abandoned well for geothermal resources shall file with the department a written application for a permit to commence such drilling or redrilling on a form prescribed by the department accompanied by a permit fee of two hundred dollars. (The department shall forward a duplicate copy to the department of ecology within ten days of filing.)
(2) Upon receipt of a proper application relating to drilling or redrilling the department shall set a date, time, and place for a public hearing on the application, which hearing shall be in the county in which the drilling or redrilling is proposed to be made, and shall instruct the applicant to publish notices of such application and hearing by such means and within such time as the department shall prescribe. The department shall require that the notice so prescribed shall be published twice in a newspaper of general circulation within the county in which the drilling or redrilling is proposed to be made and in such other appropriate information media as the department may direct.
(3) Any person proposing to drill a core hole for the purpose of gathering geothermal data, including but not restricted to heat flow, temperature gradients, and rock conductivity, shall be required to obtain a single permit for each core hole according to subsection (1) of this section, including a permit fee for each core hole, but no notice need be published, and no hearing need be held. Such core holes that penetrate more than seven hundred and fifty feet into bedrock shall be deemed geothermal test wells and subject to the payment of a permit fee and to the requirement in subsection (2) of this section for public notices and hearing. In the event geothermal energy is discovered in a core hole, the hole shall be deemed a geothermal well and subject to the permit fee, notices, and hearing. Such core holes as described by this subsection are subject to all other provisions of this chapter, including a bond or other security as specified in RCW 78.60.130.
(4) All moneys paid to the department under this section shall be deposited with the state treasurer for credit to the general fund.

Sec. 64. RCW 78.60.080 and 1974 ex.s. c 43 s 8 are each amended to read as follows:
A permit shall be granted only if the department is satisfied that the area is suitable for the activities applied for; that the applicant will be able to comply with the provisions of this chapter and the rules and regulations enacted hereunder; and that a permit would be in the best interests of the state.

The department shall not allow operation of a well under permit if it finds that the operation of any well will unreasonably decrease groundwater available for prior water rights in any aquifer or other groundwater source for water for beneficial uses, unless such affected water rights are acquired by condemnation, purchase or other means.

The department shall have the authority to condition the permit as it deems necessary to carry out the provisions of this chapter, including but not limited to conditions to reduce any environmental impact.

((The department shall forward a copy of the permit to the department of ecology within five days of issuance.))

Sec. 65. RCW 78.60.100 and 2007 c 338 s 2 are each amended to read as follows:

Any well or core hole drilled under authority of this chapter from which

(1) It is not technologically practical to derive the energy to produce electricity commercially, or the owner or operator has no intention of deriving energy to produce electricity commercially, and

(2) Usable minerals cannot be derived, or the owner or operator has no intention of deriving usable minerals, shall be plugged and abandoned as provided in this chapter or, upon the owner's or operator's written application to the department ((of natural resources and with the concurrence and approval of the department of ecology)), jurisdiction over the well may be transferred to the department ((of ecology)) and, in such case, the well shall no longer be subject to the provisions of this chapter but shall be subject to any applicable laws and rules relating to wells drilled for appropriation and use of groundwaters. If an application is made to transfer jurisdiction, a copy of all logs, records, histories, and descriptions shall be provided to the department ((of ecology)) by the applicant.

Sec. 66. RCW 90.03.247 and 2003 c 39 s 48 are each amended to read as follows:

Whenever an application for a permit to make beneficial use of public waters is approved relating to a stream or other water body for which minimum flows or levels have been adopted and are in effect at the time of approval, the permit shall be conditioned to protect the levels or flows. No agency may establish minimum flows and levels or similar water flow or level restrictions for any stream or lake of the state other than the department of ecology whose authority to establish is exclusive, as provided in chapter 90.03 RCW and RCW 90.22.010 and 90.54.040. The provisions of other statutes, including but not limited to conditions to reduce any environmental impact.

Whenever an application for a permit to make beneficial use of public waters is approved relating to a stream or other water body for which minimum flows or levels have been adopted and are in effect at the time of approval, the permit shall be conditioned to protect the levels or flows. No agency may establish minimum flows and levels or similar water flow or level restrictions for any stream or lake of the state other than the department of ecology whose authority to establish is exclusive, as provided in chapter 90.03 RCW and RCW 90.22.010 and 90.54.040. The provisions of other statutes, including but not limited to conditions to reduce any environmental impact.

Sec. 68. RCW 90.03.290 and 2001 c 239 s 1 are each amended to read as follows:

(1) When an application complying with the provisions of this chapter and with the rules of the department has been filed, the same shall be placed on record with the department, and it shall be its duty to investigate the application, and determine what water, if any, is available for appropriation, and find and determine to what beneficial use or uses it can be applied. If it is proposed to appropriate water for irrigation purposes, the department shall investigate, determine and find what lands are capable of irrigation by means of water found available for appropriation. If it is proposed for the purpose of power development, the department shall investigate, determine and find whether the proposed development is likely to prove detrimental to the public interest, having in mind the highest feasible use of the waters belonging to the public.

(2) (a) If the application does not contain, and the applicant does not promptly furnish sufficient information on which to base such findings, the department may issue a preliminary permit, for a period of not to exceed three years, requiring the applicant to make such surveys, investigations, studies, and progress reports, as in the opinion of the department may be necessary. If the applicant fails to comply with the conditions of the preliminary permit, it and the application or applications on which it is based shall be automatically canceled and the applicant so notified. If the holder of a preliminary permit shall, before its expiration, file with the department a verified report of expenditures made and work done under the preliminary permit, which, in the opinion of the department, establishes the good faith, intent, and ability of the applicant to carry on the proposed development, the preliminary permit may, with the approval of the governor, be extended, but not to exceed a maximum period of five years from the date of the issuance of the preliminary permit.

(b) For any application for which a preliminary permit was issued and for which the availability of water was directly affected by a moratorium on further diversions from the Columbia river during the years from 1990 to 1998, the preliminary permit is extended through June 30, 2002. If such an application and preliminary permit were canceled during the moratorium, the application and preliminary permit shall be reinstated until June 30, 2002, if the application and permit: (i) Are for providing regional water supplies in more than one urban growth area designated under chapter 36.70A RCW and in one or more areas near such urban growth areas, or the application and permit are modified for providing such supplies, and (ii) provide or are modified to provide such regional supplies through the use of existing intake or diversion structures. The authority to modify such a canceled application and permit to accomplish the objectives of (b)(i) and (ii) of this subsection is hereby granted.

(3) The department shall make and file as part of the record in the matter, written findings of fact concerning all things investigated, and if it shall find that there is water available for appropriation for a beneficial use, and the appropriation thereof as proposed in the application will not impair existing rights or be detrimental to the public welfare, it shall issue a permit stating the amount of water to which the applicant shall be entitled and the beneficial use or uses to which it may be applied: PROVIDED, That where the water applied for is to be used for irrigation purposes, it shall become appurtenant only to such land as may be reclaimed thereby to the full extent of the soil for agricultural purposes. But where there is no unappropriated
water in the proposed source of supply, or where the proposed use conflicts with existing rights, or threatens to prove detrimental to the public interest, having due regard to the highest feasible development of the use of the waters belonging to the public, it shall be duty of the department to reject such application and to refuse to issue the permit asked for.

(4) If the permit is refused because of conflict with existing rights and such applicant shall acquire same by purchase or condemnation under RCW 90.03.040, the department may thereupon grant such permit. Any application may be approved for a less amount of water than that applied for, if there exists substantial reason therefor, and in any event shall not be approved for more water than can be applied to beneficial use for the purposes named in the application. In determining whether or not a permit shall issue upon any application, it shall be the duty of the department to investigate all facts relevant and material to the application. After the department approves said application in whole or in part and before any permit shall be issued thereon to the applicant, such applicant shall pay the fee provided in RCW 90.03.470.(c) PROVIDED FURTHER, That in the event a permit is issued by the department upon any application, it shall be its duty to notify the director of fish and wildlife of such issuance.

Sec. 69. RCW 90.03.360 and 1994 c 264 s 85 are each amended to read as follows:

(1) The owner or owners of any water diversion shall maintain, to the satisfaction of the department, substantial controlling works and a measuring device constructed and maintained to permit accurate measurement and practical regulation of the flow of water diverted. Every owner or manager of a reservoir for the storage of water shall construct and maintain, when required by the department, any measuring device necessary to ascertain the natural flow into and out of said reservoir.

Metering of diversions or measurement by other approved methods shall be required as a condition for all new surface water right permits, and except as provided in subsection (2) of this section, may be required as a condition for all previously existing surface water rights. The department may also require, as a condition for all water rights, metering of diversions, and reports regarding such metered diversions, and reports regarding such metered diversions as to the amount of water being diverted. Such reports shall be in a form prescribed by the department.

(2) Where water diversions are from waters in which the salmonid stock status is depressed or critical, as determined by the department of fish and wildlife, or where the volume of water being diverted exceeds one cubic foot per second, the department shall require metering or measurement by other approved methods as a condition for all new and previously existing water rights or claims. The department shall attempt to integrate the requirements of this subsection into its existing compliance workload priorities, but shall prioritize the requirements of this subsection ahead of the existing compliance workload where a delay may cause the decline of wild salmonids. (The department shall notify the department of fish and wildlife of the status of fish screens associated with these diversions.)

This subsection (2) shall not apply to diversions for public or private hatcheries or fish rearing facilities if the diverted water is returned directly to the waters from which it was diverted.

Sec. 70. RCW 90.03.590 and 2003 1st sp.s. c 5 s 16 are each amended to read as follows:

(1) On a pilot project basis, the department may enter into a watershed agreement with one or more municipal water suppliers in water resource inventory area number one to meet the objectives established in a water resource management program approved or being developed under chapter 90.82 RCW with the consent of the initiating governments of the water resource inventory area. The term of an agreement may not exceed ten years, but the agreement may be renewed or amended upon agreement of the parties.

(2) A watershed agreement must be consistent with:

(a) Growth management plans developed under chapter 36.70A RCW where these plans are adopted and in effect;
(b) Water supply plans and small water system management programs approved under chapter 43.20 or 70.116 RCW;
(c) Coordinated water supply plans approved under chapter 70.116 RCW;
(d) Water use efficiency and conservation requirements and standards established by the state department of health or such requirements and standards as are provided in an approved watershed plan, whichever are the more stringent.

(3) A watershed agreement must:

(a) Require the public water system operated by the participating municipal water supplier to meet obligations under the watershed plan;
(b) Establish performance measures and timelines for measures to be completed;
(c) Provide for monitoring of stream flows and metering of water use as needed to ensure that the terms of the agreement are met; and
(d) Require annual reports from the water users regarding performance under the agreement.

(4) As needed to implement watershed agreement activities, the department may provide or receive funding, or both, under its existing authorities.

(5) The department must provide opportunity for public review of a proposed agreement before it is executed. The department must make proposed and executed watershed agreements and annual reports available on the department’s internet web site.

(6) The department must consult with affected local governments (and the state departments of health and fish and wildlife) before executing an agreement.

(7) Before executing a watershed agreement, the department must conduct a government-to-government consultation with affected tribal governments. The municipal water suppliers operating the public water systems that are proposing to enter into the agreements must be invited to participate in the consultations. During these consultations, the department and the municipal water suppliers shall explore the potential interest of the tribal governments or governments in participating in the agreement.

(8) Any person aggrieved by the department’s failure to satisfy the requirements in subsection (3) of this section as embodied in the department’s decision to enter into a watershed agreement under this section may, within thirty days of the execution of such an agreement, appeal the department’s decision to the pollution control hearings board under chapter 43.21B RCW.

(9) Any projects implemented by a municipal water system under the terms of an agreement reached under this section may be continued and maintained by the municipal water system after the agreement expires or is terminated as long as the conditions of the agreement under which they were implemented continue to be met.

(10) Before December 31, 2003, and December 31, 2004, the department must report to the appropriate committees of the legislature the results of the pilot project provided for in this section. Based on the experience of the pilot project, the department must offer any suggested changes in law that would improve, facilitate, and maximize the implementation of watershed plans adopted under this chapter.

Sec. 71. RCW 90.16.050 and 2007 c 286 s 1 are each amended to read as follows:

(1) Every person, firm, private or municipal corporation, or association hereinafter called "claimant", claiming the right to the use of water within or bordering upon the state of Washington for power development, shall on or before the first day of January of each year pay to the state of Washington in advance an annual license fee, based upon the theoretical water power claimed under each and every separate claim to water according to the following schedule:
(a) For projects in operation: For each and every theoretical horsepower claimed up to and including one thousand horsepower, at the rate of eighteen cents per horsepower; for each and every theoretical horsepower in excess of one thousand horsepower, up to and including ten thousand horsepower, at the rate of thirty-two cents per horsepower; for each and every theoretical horsepower in excess of ten thousand horsepower, at the rate of one and eight-tenths cents per horsepower.

(b) For federal energy regulatory commission projects in operation, the following fee schedule applies in addition to the fees in (a) of this subsection: For each theoretical horsepower of capacity up to and including one thousand horsepower, at the rate of thirty-two cents per horsepower; for each theoretical horsepower in excess of one thousand horsepower, up to and including ten thousand horsepower, at the rate of six and four-tenths cents per horsepower; for each theoretical horsepower in excess of ten thousand horsepower, at the rate of three and two-tenths cents per horsepower.

(c) To justify the appropriate use of fees collected under (b) of this subsection, the department of ecology shall submit a progress report to the appropriate committees of the legislature prior to December 31, 2009, and biennially thereafter until December 31, 2017.

(i) The progress report will: (A) Describe how license fees were expended in the federal energy regulatory commission licensing process during the current biennium, and expected workload and full-time equivalent employees for federal energy regulatory commission licensing in the next biennium; (B) include any recommendations based on consultation with (the departments of ecology and fish and wildlife;) hydropower project operators(f(s)) and other interested parties; and (C) recognize hydropower operators that exceed their environmental regulatory requirements.

(ii) The fees required in (b) of this subsection expire June 30, 2017. The biennial progress reports submitted by the department of ecology will serve as a record for considering the extension of the fee structure in (b) of this subsection.

(2) The following are exceptions to the fee schedule in subsection (1) of this section:

(a) For undeveloped projects, the fee shall be at one-half the rates specified for projects in operation; for projects partly developed and in operation the fees paid on that portion of any project that shall have been developed and in operation shall be the full annual license fee specified in subsection (1) of this section for projects in operation, and for the remainder of the power claimed under such project the fees shall be the same as for undeveloped projects.

(b) The fees required in subsection (1) of this section do not apply to any hydropower project owned by the United States.

(c) The fees required in subsection (1) of this section do not apply to the use of water for the generation of fifty horsepower or less.

(d) The fees required in subsection (1) of this section for projects developed by an irrigation district in conjunction with the irrigation district's water conveyance system shall be reduced by fifty percent to reflect the portion of the year when the project is not operable.

(e) Any irrigation district or other municipal subdivision of the state, developing power chiefly for use in pumping of water for irrigation, upon filing of a statement showing the amount of power used for irrigation pumping, is exempt from the fees in subsection (1) of this section to the extent of the power used for irrigation pumping.

Sec. 72. RCW 90.16.090 and 2007 c 286 s 2 are each amended to read as follows:

(1) All fees paid under provisions of this chapter, shall be credited by the state treasurer to the reclamation account created in RCW 89.16.020 and subject to legislative appropriation, be allocated and expended by the director of ecology for:

(a) Investigations and surveys of natural resources in cooperation with the federal government, or independently thereof, including stream gaging, hydrographic, topographic, river, underground water, mineral and geological surveys; and

(b) Expenses associated with staff at the department(s) of ecology and fish and wildlife) working on federal energy regulatory commission relicensing and license implementation.

(2) Unless otherwise required by the omnibus biennial appropriations acts, the expenditures for these purposes must be proportional to the revenues collected under RCW 90.16.050(1).

Sec. 73. RCW 90.22.010 and 1997 c 32 s 4 are each amended to read as follows:

The department of ecology may establish minimum water flows or levels for streams, lakes or other public waters for the purposes of protecting fish, game, birds or other wildlife resources, or recreational or aesthetic values of said public waters whenever it appears to be in the public interest to establish the same. In addition, the department of ecology shall (when requested by the department of fish and wildlife) protect fish, game, or other wildlife resources (under the jurisdiction of the requesting state agency), or if the department of ecology finds it necessary to preserve water quality, establish such minimum flows or levels as are required to protect the resource or preserve the water quality (described in the request for determination)). (Any request submitted by the department of fish and wildlife shall include a statement setting forth the need for establishing a minimum flow or level.) When the department acts to preserve water quality, it shall include a (similar) statement setting forth the need for establishing a minimum flow or level with the proposed rule filed with the code reviser. This section shall not apply to waters artificially stored in reservoirs, provided that in the granting of storage permits by the department of ecology in the future, full recognition shall be given to downstream minimum flows, if any there may be, which have theretofore been established hereunder.

Sec. 74. RCW 90.22.020 and 1994 c 264 s 87 are each amended to read as follows:

Flows or levels authorized for establishment under RCW 90.22.010, or subsequent modification thereof by the department shall be provided for through the adoption of rules. Before the establishment or modification of a water flow or level for any stream or lake or other public water, the department shall hold a public hearing in the county in which the stream, lake, or other public water is located. If it is located in more than one county the department shall determine the location or locations therein and the number of hearings to be conducted. Notice of the hearings shall be given by publication in a newspaper of general circulation in the county or counties in which the stream, lake, or other public waters is located, once a week for two consecutive weeks before the hearing. The notice shall include the following:

(1) The name of each stream, lake, or other water source under consideration;

(2) The place and time of the hearing;

(3) A statement that any person, including any private citizen or public official, may present his or her views either orally or in writing. ((Any notice shall also be served upon the administrators of the departments of social and health services, natural resources, fish and wildlife, and transportation.))

Sec. 75. RCW 90.22.060 and 1998 c 245 s 172 are each amended to read as follows:

By December 31, 1993, the department of ecology shall, in cooperation with the Indian tribes, (and the department of fish and wildlife) establish a statewide list of priorities for evaluation of instream flows. In establishing these priorities, the department shall consider the achievement of wild salmonid production as its primary goal.

Sec. 76. RCW 90.24.010 and 1999 c 162 s 1 are each amended to read as follows:

Ten or more owners of real property abutting on a lake may petition the superior court of the county in which the lake is situated,
for an order to provide for the regulation of the outflow of the lake in order to maintain a certain water level therein. If there are fewer than ten owners, a majority of the owners abutting on a lake may petition the superior court for such an order. The court, after (notice to the department of fish and wildlife and) a hearing, is authorized to make an order fixing the water level thereof and directing the department of ecology to regulate the outflow therefrom in accordance with the purposes described in the petition. This section shall not apply to any lake or reservoir used for the storage of water for irrigation or other beneficial purposes, or to lakes navigable from the sea.

Sec. 77. RCW 90.24.030 and 1994 c 264 s 88 are each amended to read as follows:

The petition shall be entitled "In the matter of fixing the level of Lake . . . . in . . . . county, Washington," and shall be filed with the clerk of the court and a copy thereof, together with a copy of the order fixing the time for hearing the petition, shall be served on each owner of property abutting on the lake, not less than ten days before the hearing. Like copies shall also be served upon (the director of fish and wildlife and) the director of ecology. The copy of the petition and of the order fixing time for hearing shall be served in the manner provided by law for the service of summons in civil actions, or in such other manner as may be prescribed by order of the court. For the benefit of every riparian owner abutting on a stream or river flowing from such lake, a copy of the notice of hearing shall be published at least once a week for two consecutive weeks before the time set for hearing in a newspaper in each county or counties wherein located, said notice to contain a brief statement of the reasons and necessity for such application.

Sec. 78. RCW 90.24.060 and 1994 c 264 s 89 are each amended to read as follows:

Such improvement or device in said lake for the protection of the fish and game fish therein shall be installed by and under the direction of the board of county commissioners of said county with the approval of the (respective directors of the department of fish and wildlife and) director of the department of ecology of the state of Washington and paid for out of the special fund provided for in RCW 90.24.050.

Sec. 79. RCW 90.38.040 and 2001 c 237 s 29 are each amended to read as follows:

(1) All trust water rights acquired by the department shall be placed in the Yakima river basin trust water rights program to be managed by the department. The department shall issue a water right certificate in the name of the state of Washington for each trust water right it acquires.

(2) Trust water rights shall retain the same priority date as the water right from which they originated. Trust water rights may be modified as to purpose or place of use or point of diversion, including modification from a diversionsary use to a nondiversionsary instream use.

(3) Trust water rights may be held by the department for instream flows, irrigation use, or other beneficial use. Trust water rights may be acquired on a temporary or permanent basis. To the extent practicable and subject to legislative appropriation, trust water rights acquired in an area with an approved watershed plan developed under chapter 90.82 RCW shall be consistent with that plan if the plan calls for such acquisition.

(4) A schedule of the amount of net water saved as a result of water conservation projects carried out in accordance with this chapter, shall be developed annually to reflect the predicted hydrologic and water supply conditions, as well as anticipated water demands, for the upcoming irrigation season. This schedule shall serve as the basis for the distribution and management of trust water rights each year.

(5)(a) No exercise of a trust water right may be authorized unless the department determines that no existing water rights, junior or senior in priority, will be impaired as to their exercise or injured in any manner whatever by such authorization.

(b) Before any trust water right is exercised, the department shall publish notice thereof in a newspaper of general circulation published in the county or counties in which the storage, diversion, and use are to be made, and in such other newspapers as the department determines are necessary, once a week for two consecutive weeks. (At the same time the department may also send notice thereof containing pertinent information to the director of fish and wildlife.)

(c) Subsections (4) and (5)(b) of this section do not apply to a trust water right resulting from a donation for instream flows described in RCW 90.38.020(1)(b) or from the lease of a water right under RCW 90.38.020(6) if the period of the lease does not exceed five years. However, the department shall provide the notice described in (b) of this subsection the first time the trust water right resulting from the donation is exercised.

(6) RCW 90.03.380 and 90.14.140 through 90.14.910 shall have no applicability to trust water rights held by the department under this chapter or exercised under this section.

Sec. 80. RCW 90.48.177 and 1994 c 264 s 91 are each amended to read as follows:

Applications for permits shall be made on forms prescribed by the department and shall contain the name and address of the applicant, a description of the applicant's operations, the quantity and type of waste material sought to be disposed of, the proposed method of disposal, and any other relevant information deemed necessary by the department. Application for permits shall be made at least sixty days prior to commencement of any proposed discharge or permit expiration date, whichever is applicable. Upon receipt of a proper application relating to a new operation, or an operation previously under permit for which an increase in volume of wastes or change in character of effluent is requested over that previously authorized, the department shall instruct the applicant to publish notices thereof by such means and within such time as the department shall prescribe. The department shall require that the notice so prescribed shall be published twice in a newspaper of general circulation within the county in which the disposal of waste material is proposed to be made and in such other appropriate information media as the department may direct. Said notice shall include a statement that any person desiring to present his or her views to the department with regard to said application may do so in writing to the department, or any person interested in the department's action on an application for a permit, may submit his or her views or notify the department in such manner as the department may direct. Said notice to contain a brief statement of the reasons and necessity for such application.

Sec. 81. RCW 90.48.366 and 2007 c 347 s 1 are each amended to read as follows:

The department ((in consultation with the departments of fish and wildlife and natural resources, and the parks and recreation commission)) shall adopt rules establishing a compensation schedule for the discharge of oil in violation of this chapter and chapter 90.56 RCW. The amount of compensation assessed under this schedule shall be no less than one dollar per gallon of oil spilled and no greater than one hundred dollars per gallon of oil spilled. The compensation schedule shall reflect adequate compensation for unquantifiable damages or for damages not quantifiable at reasonable cost for any
Because of the small geographic areas involved and the short duration adverse environmental, recreational, aesthetic, or other effects caused by the spill and shall take into account:

(1) Characteristics of any oil spilled, such as toxicity, dispersibility, solubility, and persistence, that may affect the severity of the effects on the receiving environment, living organisms, and recreational and aesthetic resources;

(2) The sensitivity of the affected area as determined by such factors as: (a) The location of the spill; (b) habitat and living resource sensitivity; (c) seasonal distribution or sensitivity of living resources; (d) areas of recreational use or aesthetic importance; (e) the proximity of the spill to important habitats for birds, aquatic mammals, fish, or to species listed as threatened or endangered under state or federal law; (f) significant archaeological resources as determined by the department of archaeology and historic preservation; and (g) other areas of special ecological or recreational importance, as determined by the department; and

(3) Actions taken by the party who spilled oil or any party liable for the spill that: (a) Demonstrate a recognition and affirmative acceptance of responsibility for the spill, such as the immediate removal of oil and the amount of oil removed from the environment; or (b) enhance or impede the detection of the spill, the determination of the quantity of oil spilled, or the extent of damage, including the unauthorized removal of evidence such as injured fish or wildlife.

**Sec. 82. RCW 90.48.445 and 1999 sps. c 11 s 1 are each amended to read as follows:**

(1) The director shall issue or approve water quality permits for use by federal, state, or local governmental agencies and licensed applicators for the purpose of using, for aquatic noxious weed control, herbicides and surfactants registered under state or federal pesticide control laws, and for the purpose of experimental use of herbicides on aquatic sites, as defined in 40 C.F.R. Sec. 172.3. The issuance of the permits shall be subject only to compliance with: Federal and state pesticide label requirements, the requirements of the federal insecticide, fungicide, and rodenticide act, the Washington pesticide control act, the Washington pesticide application act, and the state environmental policy act, except that:

(a) When the director issues water quality permits for the purpose of using glyphosate and surfactants registered by the department of agriculture to control spartina, as defined by RCW 17.26.020, the water quality permits shall contain the following criteria:

(i) Spartina treatment shall occur between June 1st and October 31st of each year unless the department((the department of agriculture and the department of fish and wildlife agree to add)) authorizes additional dates beyond this period, except that no aerial application shall be allowed on July 4th or Labor Day and for ground application on those days the applicator shall post signs at each corner of the treatment area;

(ii) The applicator shall take all reasonable precautions to prevent the spraying of nontarget vegetation and nonvegetated areas;

(iii) A period of fourteen days between treatments is required prior to re-treating the previously treated areas;

(iv) Aerial or ground broadcast application shall not be made when the wind speed exceeds ten miles per hour; and

(v) An application shall not be made when a tidal regime leaves the plants dry for less than four hours.

(b) The director shall issue water quality permits for the purpose of using herbicides or surfactants registered by the department of agriculture to control aquatic noxious weeds, other than spartina, and the permit shall state that aerial and ground broadcast applications may not be made when the wind speed exceeds ten miles per hour.

(c) The director shall issue water quality permits for the experimental use of herbicides on aquatic sites, as defined in 40 C.F.R. Sec. 172.3, when the department of agriculture has issued an experimental use permit, under the authority of RCW 15.58.405(3). Because of the small geographic areas involved and the short duration of herbicide application, water quality permits issued under this subsection are not subject to state environmental policy act review.

(2) Applicable requirements established in an option or options recommended for controlling the noxious weed by a final environmental impact statement published under chapter 43.21C RCW by the department prior to May 5, 1995, by the department of agriculture, or by the department of agriculture jointly with other state agencies shall be considered guidelines for the purpose of granting the permits issued under this chapter. This section may not be construed as requiring the preparation of a new environmental impact statement to replace a final environmental impact statement published before May 5, 1995, but instead shall authorize the department of agriculture, as lead agency for the control of spartina under RCW 17.26.015, to supplement, amend, or issue addenda to the final environmental impact statement published before May 5, 1995, which may assess the environmental impact of the application of stronger concentrations of active ingredients, altered application patterns, or other changes as the department of agriculture deems appropriate.

(3) The director of ecology may not utilize this permit authority to otherwise condition or burden weed control efforts. Except for permits issued by the director under subsection (1)(c) of this section, permits issued under this section are effective for five years, unless a shorter duration is requested by the applicant. The director's authority to issue water quality modification permits for activities other than the application of surfactants and approved herbicides, to control aquatic noxious weeds or the experimental use of herbicides used on aquatic sites, as defined in 40 C.F.R. Sec. 172.3, is unaffected by this section.

(4) As used in this section, "aquatic noxious weed" means an aquatic weed on the state noxious weed list adopted under RCW 17.10.080.

**Sec. 83. RCW 90.48.448 and 1999 c 255 s 3 are each amended to read as follows:**

(1) Subject to restrictions in this section, a government entity seeking to control a limited infestation of Eurasian water milfoil may use the pesticide 2,4-D to treat the milfoil infestation, without obtaining a permit under RCW 90.48.445, if the milfoil infestation is either recently documented or remaining after the application of other control measures, and is limited to twenty percent or less of the littoral zone of the lake. Any pesticide application made under this section shall be made according to all label requirements for the product and must meet the public notice requirements of subsection (2) of this section.

(2) Before applying 2,4-D, the government entity shall: (a) Provide at least twenty-one days' notice to the department of ecology((the department of fish and wildlife, the department of agriculture, the department of health,)) and all lake residents; (b) post notices of the intent to apply 2,4-D at all public access points; and (c) place informational buoys around the treatment area.

(3) The department ((of fish and wildlife)) may impose timing restrictions on the use of 2,4-D to protect salmon and other fish and wildlife.

(4) The department may prohibit the use of 2,4-D if the department finds the product contains dioxin in excess of the standard allowed by the United States environmental protection agency. Sampling protocols and analysis used by the department under this section must be consistent with those used by the United States environmental protection agency for testing this product.

(5) Government entities using this section to apply 2,4-D may apply for funds from the freshwater aquatic weeds account consistent with the freshwater aquatic weeds management program as provided in RCW 43.21A.660.

(6) Government entities using this section shall consider development of long-term control strategies for eradication and control of the Eurasian water milfoil.
(7) For the purpose of this section, "government entities" includes cities, counties, state agencies, tribes, special purpose districts, and county weed boards.

Sec. 84. RCW 90.74.020 and 1997 c 424 s 3 are each amended to read as follows:

(1) Project proponents may use a mitigation plan to propose compensatory mitigation within a watershed. A mitigation plan shall:

(a) Contain provisions that guarantee the long-term viability of the created, restored, enhanced, or preserved habitat, including assurances for protecting any essential biological functions and values defined in the mitigation plan;

(b) Contain provisions for long-term monitoring of any created, restored, or enhanced mitigation site; and

(c) Be consistent with the local comprehensive land use plan and any other applicable planning process in effect for the development area, such as an adopted subbasin or watershed plan.

(2) The department((a) of ecology ((and fish and wildlife))) may not limit the scope of options in a mitigation plan to areas on or near the project site, or to habitat types of the same type as contained on the project site. The department((a) of ecology ((and fish and wildlife))) shall fully review and give due consideration to compensatory mitigation proposals that improve the overall biological functions and values of the watershed or bay and accommodate the mitigation needs of infrastructure development.

The department((a) of ecology ((and fish and wildlife))) is not required to grant approval to a mitigation plan that the department((a) finds does not provide equal or better biological functions and values within the watershed or bay.

(3) When making a permit or other regulatory decision under the guidance of this chapter, the department((of ecology and fish and wildlife))) shall consider whether the mitigation plan provides equal or better biological functions and values, compared to the existing conditions, for the target resources or species identified in the mitigation plan. This consideration shall be based upon the following factors:

(a) The relative value of the mitigation for the target resources, in terms of the quality and quantity of biological functions and values provided;

(b) The compatibility of the proposal with the intent of broader resource management and habitat management objectives and plans, such as existing resource management plans, watershed plans, critical areas ordinances, and shoreline master programs;

(c) The ability of the mitigation to address scarce functions or values within a watershed;

(d) The benefits of the proposal to broader watershed landscape, including the benefits of connecting various habitat units or providing population-limiting habitats or functions for target species;

(e) The benefits of early implementation of habitat mitigation for projects that provide compensatory mitigation in advance of the project's planned impacts; and

(f) The significance of any negative impacts to nontarget species or resources.

(4) A mitigation plan may be approved through a memorandum of agreement between the project proponent and ((either)) the department of ecology ((or the department of fish and wildlife, or both)).

Sec. 85. RCW 90.74.030 and 1997 c 424 s 4 are each amended to read as follows:

(1) In making regulatory decisions relating to wetland or aquatic resource mitigation, the department((of ecology and fish and wildlife)) shall, at the request of the project proponent, follow the guidance of RCW 90.74.005 through 90.74.020.

(2) If the department of ecology ((or the department of fish and wildlife)) receives multiple requests for review of mitigation plans, (each) the department may schedule its review of these proposals to conform to available budgetary resources.

Sec. 86. RCW 90.82.048 and 2003 1st sp.s. c 5 s 9 are each amended to read as follows:

(1) The timelines and interim milestones in a detailed implementation plan required by RCW 90.82.043 must address the planned future use of existing water rights for municipal water supply purposes, as defined in RCW 90.03.015, that are inchoate, including how these rights will be used to meet the projected future needs identified in the watershed plan, and how the use of these rights will be addressed when implementing instream flow strategies identified in the watershed plan.

(2) The watershed planning unit or other authorized lead agency shall ensure that holders of water rights for municipal water supply purposes not currently in use are asked to participate in defining the timelines and interim milestones to be included in the detailed implementation plan.

(3) The department of health shall annually compile a list of water system plans and plan updates to be reviewed by the department during the coming year and shall (consult with the department of ecology and fish and wildlife; and

(a) Identify watersheds where further coordination is needed between water system planning and local watershed planning under this chapter; and

(b) Develop a work plan for conducting the necessary coordination.

Sec. 87. RCW 90.90.020 and 2006 c 6 s 3 are each amended to read as follows:

(1)(a) Water supplies secured through the development of new storage facilities made possible with funding from the Columbia river basin water supply development account shall be allocated as follows:

(i) Two-thirds of active storage shall be available for appropriation for out-of-stream uses; and

(ii) One-third of active storage shall be available to augment instream flows and shall be managed by the department of ecology.

The timing of releases of this water shall be determined by the department of ecology, in cooperation with the department of fish and wildlife, to maximize benefits to salmon and steelhead populations.

(b) Water available for appropriation under (a)(i) of this subsection but not yet appropriated shall be temporarily available to augment instream flows to the extent that it does not impair existing water rights.

(2) Water developed under the provisions of this section to offset out-of-stream uses and for instream flows is deemed adequate mitigation for the issuance of new water rights provided for in subsection (1)(a) of this section and satisfies all consultation requirements under state law related to the issuance of new water rights.

(3) The department of ecology shall focus its efforts to develop water supplies for the Columbia river basin on the following needs:

(a) Alternatives to groundwater for agricultural users in the Odessa subarea aquifer;

(b) Sources of water supply for pending water right applications;

(c) A new uninterruptible supply of water for the holders of interruptible water rights on the Columbia river mainstem that are subject to instream flows or other mitigation conditions to protect stream flows; and

(d) New municipal, domestic, industrial, and irrigation water needs within the Columbia river basin.

(4) The one-third/two-thirds allocation of water resources between instream and out-of-stream uses established in this section does not apply to applications for changes or transfers of existing water rights in the Columbia river basin.

Sec. 88. RCW 90.90.030 and 2006 c 6 s 4 are each amended to read as follows:

(1) The department of ecology may enter into voluntary regional agreements for the purpose of providing new water for out-of-stream
(2) Such agreements shall ensure that:
(a) For water rights issued from the Columbia river mainstem, there is no negative impact on Columbia river mainstem instream flows in the months of July and August as a result of the new appropriations issued under the agreement;
(b) For water rights issued from the lower Snake river mainstem, there is no negative impact on Snake river mainstem instream flows from April through August as a result of the new appropriations issued under the agreement; and
(c) Efforts are made to harmonize such agreements with watershed plans adopted under the authority of chapter 90.82 RCW that are applicable to the area covered by the agreement.

(3) The protection of instream flow as set forth in subsection (2) of this section is adequate for purposes of mitigating instream flow impacts resulting from any appropriations for out-of-stream use made under a voluntary regional agreement, and the only applicable consultation provisions under state law regarding instream flow impacts shall be those set forth in subsection (4) of this section.

(4) Before executing a voluntary agreement under this section, the department of ecology shall:
(a) Provide a sixty-day period for consultation with county legislative authorities and watershed planning groups with jurisdiction over the area where the water rights included in the agreement are located, ((the department of fish and wildlife)) and affected tribal governments, and federal agencies. ((The department of fish and wildlife shall provide written comments within that time period.)) The consultation process for voluntary regional agreements developed under the provisions of this section is deemed adequate for the issuance of new water rights provided for in this section and satisfies all consultation requirements under state law related to the issuance of new water rights; and
(b) Provide a thirty-day public review and comment period for a draft agreement, and publish a summary of any public comments received. The thirty-day review period shall not begin until after the department of ecology has concluded its consultation under (a) of this subsection and the comments that have been received by the department are made available to the public.

(5) The provisions of subsection (4) of this section satisfy all applicable consultation requirements under state law.

(6) The provisions of this section and any voluntary regional agreements developed under such provisions may not be relied upon by the department of ecology as a precedent, standard, or model that must be followed in any other voluntary regional agreements.

(7) Nothing in this section may be interpreted or administered in a manner that precludes the processing of water right applications under chapter 90.03 or 90.44 RCW that are not included in a voluntary regional agreement.

(8) Nothing in this section may be interpreted or administered in a manner that impairs or diminishes a valid water right or a habitat conservation plan approved for purposes of compliance with the federal endangered species act.

(9) The department of ecology shall monitor and evaluate the water allocated to instream and out-of-stream uses under this section, evaluate the program, and provide an interim report to the appropriate committees of the legislature by June 30, 2008. A final report shall be provided to the appropriate committees of the legislature by June 30, 2011.

(10) If the department of ecology executes a voluntary agreement under this section that includes water rights appropriated from the lower Snake river mainstem, the department shall develop aggregate data in accordance with the provisions of RCW 90.90.050 for the lower Snake river mainstem.

(11) Any agreement entered into under this section shall remain in full force and effect through the term of the agreement regardless of the expiration of this section.

(12) The definitions in this subsection apply to this section and RCW 90.90.050, and may only be used for purposes of implementing these sections.

(a) "Columbia river mainstem" means all water in the Columbia river within the ordinary high water mark of the main channel of the Columbia river between the border of the United States and Canada and the Bonneville dam, and all groundwater within one mile of the high water mark.

(b) "Lower Snake river mainstem" means all water in the lower Snake river within the ordinary high water mark of the main channel of the lower Snake river from the head of Ice Harbor pool to the confluence of the Snake and Columbia rivers, and all groundwater within one mile of the high water mark.

Any city which imposes a license fee or tax upon business
activities consisting of the making of retail sales of tangible personal
property which are measured by gross receipts or gross income from

upon all such business activities. The taxing authority granted to
cities for taxes upon business activities measured by gross receipts or
gross income from sales (shall) may not exceed a rate of .0020;
except that any city with an adopted ordinance at a higher rate, as of
January 1, 1982 (shall) must be limited to a maximum increase of
ten percent of the January 1982 rate, not to exceed an annual
incremental increase of two percent of current rate (provided,
however: Any adopted ordinance which classifies according

the ten percent and the two percent annual incremental increase
limitation on each tax rate (provided further, that) and all
surtaxes on business and occupation classifications in effect as of
January 1, 1982 (shall) expire no later than December 31,

fee-per-call basis, independent of any other commercial transaction,
for the purpose of making telephone calls, when the telephone can
only be activated by inserting coins, calling collect, using a calling
card or credit card, or dialing a toll-free number, and the provider
of the service owns or leases the telephone equipment but does not own
the telephone line providing the service to that equipment and has no
affiliation with the owner of the telephone line.
NEW SECTION. Sec. 7. By June 30, 2015, the joint legislative
audit and review committee in consultation with the department of
social and health services and the department of revenue, must
conduct a review of the taxes imposed by this act on community
residential services businesses and adult day health businesses. In this
review, the committee must consult with a broad range of interested
stakeholders. The review must consider issues including benefits of
the tax, compliance with the tax, any determinations by the centers for
medicaid and medicare services regarding the tax, administrative
costs, other administrative issues and other issues deemed
appropriate. The committee must report to the legislature on its
findings and any recommendations related to the taxes imposed in
this act and related services funded by these taxes by December 1,
2015.

MESSAGE FROM THE SENATE
March 10, 2010

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 2776 with the following amendment:

Strike everything after the enacting clause and insert the following:

“NEW SECTION. Sec. 1. (1) It is the legislature's intent to continue implementation of chapter 548, Laws of 2009, by adopting the technical details of a new distribution formula for the instructional program of basic education. The legislature intends to continue to review and revise the formulas and may make revisions as necessary for technical purposes and consistency in the event of mathematical or other technical errors.

(2) The legislature further intends to adjust the timelines for the working groups created under chapter 548, Laws of 2009, so that their expertise and advice can be received as soon as possible and to make adjustments to the composition of the local finance working group. The legislature further intends to clarify the legislature’s intent to fully fund all-day kindergarten by the 2018-19 school year.

Sec. 2. RCW 28A.150.315 and 2009 c 548 s 107 are each amended to read as follows:

(1) Beginning with the 2007-08 school year, funding for voluntary all-day kindergarten programs shall be phased-in beginning with schools with the highest poverty levels, defined as those schools with the highest percentages of students qualifying for free and reduced-price lunch support in the prior school year. The funding shall continue to be phased-in until full statewide implementation of all-day kindergarten is achieved in the 2018-19 school year. Once a school receives funding for the all-day kindergarten program, that school shall remain eligible for funding in subsequent school years regardless of changes in the school's percentage of students eligible for free and reduced-price lunches as long as other program requirements are fulfilled. Additionally, schools receiving all-day kindergarten program support shall agree to the following conditions:

(a) Provide at least a one thousand-hour instructional program;

(b) Provide a curriculum that offers a rich, varied set of experiences that assist students in:

(i) Developing initial skills in the academic areas of reading, mathematics, and writing;

(ii) Developing a variety of communication skills;

(iii) Providing experiences in science, social studies, arts, health and physical education, and a world language other than English;

(iv) Acquiring large and small motor skills;

(v) Acquiring social and emotional skills including successful participation in learning activities as an individual and as part of a group; and

(vi) Learning through hands-on experiences;

(c) Establish learning environments that are developmentally appropriate and promote creativity;

(d) Demonstrate strong connections and communication with early learning community providers; and

(e) Participate in kindergarten program readiness activities with early learning providers and parents.

(2) Subject to funds appropriated for this purpose, the superintendent of public instruction shall designate one or more school districts to serve as resources and examples of best practices in designing and operating a high-quality all-day kindergarten program. Designated school districts shall serve as lighthouse programs and provide technical assistance to other school districts in the initial stages of implementing an all-day kindergarten program. Examples of topics addressed by the technical assistance include strategic planning, developing the instructional program and curriculum, working with early learning providers to identify students and communicate with parents, and developing kindergarten program readiness activities.

Sec. 3. 2009 c 548 s 302 (uncodified) is amended to read as follows:

(1) Beginning ((April 1, 2010,)) April 1, 2010, the office of financial management, with assistance and support from the office of the superintendent of public instruction, shall convene a technical working group to develop options for a new system of supplemental school funding through local school levies and local effort assistance.

(2) The working group shall consider the impact on overall school district revenues of the new basic education funding system established ((under this act)) by the legislature based on prototypical schools and shall recommend a phase-in plan that ensures that no school district suffers a decrease in funding from one school year to the next due to implementation of the new system of supplemental funding.

(3) The working group shall also:

(a) Examine local school district capacity to address facility needs associated with phasing-in full-day kindergarten across the state and reducing class size in kindergarten through third grade;

(b) Provide technical advice to the quality education council including an analysis on the potential use of local funds that may become available for redeploymen and redirection as a result of increased state funding allocations for pupil transportation and maintenance, supplies, and operating costs; and

(c) Advise the quality education council and the legislature on further development and implementation of the funding formulas under RCW 28A.150.260, as appropriate.

(4) The working group shall be composed of the following members:

(a) Four members of the house of representatives, with two members representing each of the major caucuses and appointed by the speaker of the house of representatives;

(b) Four members of the senate, with two members representing each of the major caucuses and appointed by the president of the senate; and

(c) Representatives from the department of revenue, the legislative evaluation and accountability program committee, school district and educational service district financial managers, and representatives of the Washington association of school business officers, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with expertise in education finance. When choosing the individuals to serve on the working group, the office of financial management and the office of the superintendent of public instruction are encouraged to include, as appropriate, members of the funding formula technical working group convened in accordance with section 112, chapter 548, Laws of 2009. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders. In
addition to the staff support provided by the office of financial management and the office of the superintendent of public instruction, the department of revenue shall provide technical assistance, including financial and legal analysis, to support the working group's findings and analysis under subsection (3) of this section.

(4) The local funding working group shall be monitored and overseen by the legislature and by the quality education council created in RCW 28A.290.010. The working group shall submit an initial report to the legislature on December 1, 2011, and a final report by June 30, 2012.

Sec. 4. RCW 43.41.398 and 2009 c 548 s 601 are each amended to read as follows:

(1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of financial management in collaboration with the office of the superintendent of public instruction shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

(a) How to reduce the number of tiers within the existing salary allocation model;
(b) How to account for labor market adjustments;
(c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;
(d) The role of and types of bonuses available;
(e) Ways to accomplish salary equalization over a set number of years; and
(f) Initial fiscal estimates for implementing the recommendations including a recognition that staff on the existing salary allocation model would have the option to grandfather in permanently to the existing schedule.

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, "salaries and other compensation" includes average base salaries, average total salaries, average employee basic benefits, and retirement benefits.

(4) The analysis required under subsection (1) of this section must:

(a) Examine salaries and other compensation for teachers, other certificated instructional staff, principals, and other building-level certificated administrators, and the types of classified employees for whom salaries are allocated;
(b) Be calculated at a statewide level that identifies labor markets in Washington through the use of data from the United States bureau of the census and the bureau of labor statistics; and
(c) Include a comparison of salaries and other compensation to the appropriate labor market for at least the following subgroups of educators: Beginning teachers and types of educational staff associates.

(5) The working group shall include representatives of the department of personnel, the professional educator standards board, the office of the superintendent of public instruction, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with appropriate expertise in compensation related matters. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(6) The working group shall be monitored and overseen by the legislature and the quality education council created in RCW 28A.290.010. The working group shall make an initial report to the legislature by December 1, 2012, and shall include in its report recommendations for whether additional further work of the group is necessary.

NEW SECTION. Sec. 5. A new section is added to chapter 28A.300 RCW to read as follows:

The office of the superintendent of public instruction shall implement and maintain an internet-based portal that provides ready public access to the state's prototypical school funding model for basic education under RCW 28A.150.260. The portal must provide citizens the opportunity to view, for each local school building, the staffing levels and other prototypical school funding elements that are assumed under the state funding formula. The portal must also provide a matrix displaying how individual school districts are deploying those same state resources through their allocation of staff and other resources to school buildings, so that citizens are able to compare the state assumptions to district allocation decisions for each local school building.

NEW SECTION. Sec. 6. The legislature intends to continue to refine and provide greater detail to the distribution formula for the basic education instructional allocation, which shall be based on minimum staffing and nonstaff costs that the legislature deems necessary to support instruction and operations in prototypical schools as defined by the legislature. The legislature expects that the detailed prototype school model will bring greater transparency, understanding, and public accountability to the funding system because it displays funding assumptions in understandable terms centered on the operations of school buildings.

Sec. 7. RCW 28A.150.260 and 2009 c 548 s 106 are each amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2) The distribution formula under this section shall be for allocation purposes only. Except as may be required under chapter 28A.155, 28A.165, 28A.180, or (28A.185) 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.
(3)(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) For the purposes of this section, prototypical schools are defined as follows:

(i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;

(ii) A prototypical middle school has four hundred thirty-two average annual full-time equivalent students in grades seven and eight; and

(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

((ee)) (4)(a) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on ((aa)) the following general education average class size ((as specified in the omnibus appropriations act)) of full-time equivalent students per teacher:

(iii) Student health services, a function that includes school nurses, whether certificated instructional or classified employee, and social workers;

MESSAGE FROM THE SENATE
March 9, 2010

Mr. Speaker:

The President ruled that the amendment is outside the “scope and object” of the measure and violative of Senate Rule 25. The Senate refuses to concur in the House amendment to SECOND ENGROSSED SUBSTITUTE SENATE BILL NO. 6508 and insists on its position.

HOUSE AMENDMENT TO SENATE BILL

There being no objection, the House receded from its amendment. The rules were suspended and SECOND ENGROSSED SUBSTITUTE SENATE BILL NO. 6508 was returned to second reading for the purpose of amendment.

There being no objection, the House reverted to the sixth order of business.

SECOND READING

SECOND ENGROSSED SUBSTITUTE SENATE BILL NO. 6508, by Senate Committee on Government Operations & Elections (originally sponsored by Senators Fairley, Prentice, Pridemore, Kline, Rockefeller, Ranker, Tom, McDermott, Gordon and Keiser)

Changing the class of persons entitled to recoveries under a wrongful death action or survival action.

Representative Pedersen moved the adoption of amendment (1599).

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 4.20.010 and 1917 c 123 s 1 are each amended to read as follows:

(1) When the death of a person is caused by the wrongful act, neglect or default of another his personal representative may maintain an action for damages against the person causing the death; and although the death shall have been caused under such circumstances as amount, in law, to a felony.

(2) The liability of a governmental entity in an action under this section that is based on a parent’s significant involvement in an adult child’s life is limited to situations where the governmental entity's acts or omissions are negligent and are a proximate cause of the death of the claimant, and where the governmental entity is not otherwise immune or where the governmental entity's liability is not otherwise limited by statute or case law.

(3) For the purposes of this section, "governmental entity" means the state, local agencies, political subdivisions, and any officers, employees, or agents of the state, local agencies, or political subdivisions.

Sec. 2. RCW 4.20.020 and 2007 c 156 s 29 are each amended to read as follows:

(1) Every ((such)) action under RCW 4.20.010 shall be for the benefit of the ((wife, husband)) spouse, state registered domestic partner, ((child)) or children, including stepchildren, of the person whose death shall have been so caused. If there (the (is)) is no ((wife, husband)) spouse, state registered domestic partner, ((or children, such)) the action may be maintained for the benefit of:

(a) The parents((, sisters, or brothers, who may be dependent upon the deceased person for support, and who are resident within the United States at the time of his death)) of a deceased adult child if the parents are financially dependent upon the adult child for support or if the parents have had significant involvement in the adult child's life; or

(b) Sisters or brothers who are financially dependent upon the decedent for support if there is no spouse, state registered domestic partner, child, or parent.

In every such action the jury may (give) award economic and noneconomic damages as((,)) under all circumstances of the case((s)) may to them seem just. In an action under RCW 4.20.010 that is based on a parent's significant involvement in an adult child's life, economic damages include any student loan balance that the parent may be obligated to repay as a result of acting as a cosigner or guarantor on the decedent's student loans, except for student loan balances that, under the terms of the loan, are eligible for a complete discharge upon the death of the borrower.

(2) For the purposes of this section:

(a) "Financially dependent for support" means substantial dependence based on the receipt of services that have an economic or monetary value, or substantial dependence based on actual monetary payments or contributions; and

(b) "Significant involvement" means demonstrated support of an emotional, psychological, or financial nature within the relationship, at or reasonably near the time of death, or at or reasonably near the time of the incident causing death. When determining if the parents have had significant involvement in the adult child's life, the court shall consider, but not be limited to, objective evidence of personal, verbal, written, or electronic contact with the adult child, and in-person interaction with the adult child during holidays, birthdays, and other events.

Sec. 3. RCW 4.20.046 and 2008 c 6 s 409 are each amended to read as follows:

(1) All causes of action by a person or persons against another person or persons shall survive to the personal representatives of the former and against the personal representatives of the latter, whether ((such)) the actions arise on contract or otherwise, and whether or not ((such)) the actions would have survived at the common law or prior to the date of enactment of this section((, PROVIDED, HOWEVER, That)).

(2) In addition to recovering economic losses for the estate, the personal representative ((shall only be)) is entitled to recover on behalf of those beneficiaries identified under RCW 4.20.060 any noneconomic damages for pain and suffering, anxiety, emotional distress, or humiliation personal to and suffered by ((a)) the deceased ((on behalf of those beneficiaries enumerated in RCW 4.20.020, and)) in such amounts as determined by a jury to be just under all the circumstances of the case. Damages under this section are recoverable regardless of whether or not the death was occasioned by the injury that is the basis for the action.

(3) The liability of property of spouses or domestic partners held by them as community property and subject to execution in satisfaction of a claim enforceable against such property so held shall
not be affected by the death of either or both spouses or either or both domestic partners; and a cause of action shall remain an asset as though both claiming spouses or both claiming domestic partners continued to live despite the death of either or both claiming spouses or both claiming domestic partners.

((22)) (4) Where death or an injury to person or property, resulting from a wrongful act, neglect or default, occurs simultaneously with or after the death of a person who would have been liable therefor if his or her death had not occurred simultaneously with such death or injury or had not intervened between the wrongful act, neglect or default and the resulting death or injury, an action to recover damages for such death or injury may be maintained against the personal representative of such person.

Sec. 4. RCW 4.20.060 and 2007 c 156 s 30 are each amended to read as follows:

(1) No action for a personal injury to any person occasioning death shall abate, nor shall ((such)) the right of action ((determine)) terminate, by reason of ((such)) the death((,)) if ((such)) the person has a surviving ((spouse,)) state registered domestic partner, or child living, including stepchildren, or leaving no surviving spouse, state registered domestic partner, or such children, if there is dependent upon the deceased for support and resident within the United States at the time of decedent's death, parents, sisters, or brothers; but such action may be prosecuted, or commenced and prosecuted, by the executor or administrator ((in whose favor the action may be brought under subsection (2) of this section)).

(2) An action under this section shall be brought by the personal representative of the deceased((,)) in favor of ((such)) the surviving spouse or state registered domestic partner((,)) or in favor of the surviving spouse or state registered domestic partner) and ((such)) children((,)). If there is no surviving spouse ((such)), state registered domestic partner, ((in favor of such child)) or children, (or if no surviving spouse, state registered domestic partner, or such child or children, then) the action shall be brought in favor of the decedent((;))

(a) Parents((, sisters, or brothers who may be dependent upon such person for support, and resident in the United States at the time of decedent's death)) if the parents are financially dependent upon the decedent for support or if the parents have had significant involvement in the decedent's life; or

(b) Sisters or brothers who are financially dependent upon the decedent for support if there is no spouse, state registered domestic partner, child, or parent.

(3) In addition to recovering economic losses, the persons identified in subsection (2) of this section are entitled to recover any noneconomic damages personal to and suffered by the decedent including, but not limited to, damages for the decedent's pain and suffering, anxiety, emotional distress, or humiliation, in such amounts as determined by a jury to be just under all the circumstances of the case.

(4) For the purposes of this section:

(a) "Financially dependent for support" means substantial dependence based on the receipt of services that have an economic or monetary value, or substantial dependence based on actual monetary payments or contributions; and

(b) "Significant involvement" means demonstrated support of an emotional, psychological, or financial nature within the relationship, at or reasonably near the time of death, or at or reasonably near the time of the incident causing death. When determining if the parents have had significant involvement in the child's life, the court shall consider, but not be limited to, objective evidence of personal, verbal, written, or electronic contact with the child, and in-person interaction with the child during holidays, birthdays, and other events.

Sec. 5. RCW 4.24.010 and 1998 c 237 s 2 are each amended to read as follows:

(1) A ((mother or father, or both)) parent who has regularly contributed to the support of his or her minor child, ((and the mother or father, or both, of a child on whom either, or both, are)) or a parent who is financially dependent on a minor child for support or who has had significant involvement in the minor child's life, may maintain or join ((as a party)) an action as plaintiff for the injury or death of the child.

(2) Each parent, separately from the other parent, is entitled to recover for his or her own loss regardless of marital status, even though this section creates only one cause of action,((but if the parents of the child are not married, are separated, or not married to each other damages may be awarded to each plaintiff separately, as the trier of fact finds just and equitable)).

(3) If one parent brings an action under this section and the other parent is not named as a plaintiff, notice of the institution of the suit, together with a copy of the complaint, shall be served upon the other parent: PROVIDED, That notice shall be required only if parental has been duly established.

Such notice shall be in compliance with the statutory requirements for a summons. Such notice shall state that the other parent must join as a party to the suit within twenty days or the right to recover damages under this section shall be barred. Failure of the other parent to timely appear shall bar such parent's action to recover any part of an award made to the party instituting the suit.

(4) In ((such)) an action under this section, in addition to damages for medical, hospital, medication expenses, and loss of services and support, damages may be recovered for the loss of love and companionship of the child and for injury or destruction of the parent-child relationship in such amount as, under all the circumstances of the case, may be just.

(5) For the purposes of this section:

(a) "Financially dependent for support" means substantial dependence based on the receipt of services that have an economic or monetary value, or substantial dependence based on actual monetary payments or contributions; and

(b) "Significant involvement" means demonstrated support of an emotional, psychological, or financial nature within the relationship, at or reasonably near the time of death, or at or reasonably near the time of the incident causing death. When determining if the parents have had significant involvement in the child's life, the court shall consider, but not be limited to, objective evidence of personal, verbal, written, or electronic contact with the child, and in-person interaction with the child during holidays, birthdays, and other events.

NEW SECTION. Sec. 6. This act applies to all causes of action that are based on deaths occurring on or after the effective date of this act.

NEW SECTION. Sec. 7. (1) On December 1, 2011, and every December 1st thereafter, the risk management division within the office of financial management shall report to the house of representatives judiciary committee, the senate ways and means committee, and the senate government operations and elections committee, or successor committees, on the incidents covered by this act that involve state agencies.

(3) This section expires December 2, 2016.

NEW SECTION. Sec. 8. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

ENGROSSED SUBSTITUTE SENATE BILL 5899
ENGROSSED SUBSTITUTE SENATE BILL 6364
and the same are herewith transmitted.

Thomas Hoemann, Secretary

March 11, 2010

Mr. Speaker:

The President has signed:

ENGROSSED SUBSTITUTE SENATE BILL 6538
SUBSTITUTE SENATE BILL 6548
SECOND SUBSTITUTE SENATE BILL 6575
SENATE BILL 6804
and the same are herewith transmitted.

Thomas Hoemann, Secretary

March 10, 2010

Mr. Speaker:

The Senate concurred in the House amendment to SUBSTITUTE SENATE BILL 6520 and passed the bill as amended by the House and the same is herewith transmitted.
(b) The requirement to pay for the cost of other applications under (a) of this subsection does not apply to an application for a new appropriation that would not diminish the water available to earlier pending applicants for new appropriations from the same source of supply.

(c) The requirement to pay for the cost of processing other applications under (a) of this subsection does not apply to an application for a change, transfer, or other amendment that would not diminish the water available to earlier pending applicants for changes or transfers from the same source of supply.

(d) In determining whether an application would not diminish the water available to earlier pending applicants, the department shall consider any water impoundment or other water resource management mitigation technique proposed by the applicant under RCW 90.03.255 or 90.44.055.

(e) The department may enter into cost-reimbursement agreements provided resources are available and shall use the process established under RCW 43.21A.690 for entering into cost-reimbursement agreements. The department’s share of work related to a cost-reimbursement application, such as final certificate approval, must be prioritized within the framework of other water right processing needs and as determined by agency rule.

(f) Each individual applicant is responsible for his or her own appeal costs that may result from a water right decision made by the department under this section. In the event that the department's approval of an application under this section is appealed under chapter 43.21B RCW by a third party, the applicant for the water right in question must reimburse the department for the cost of defending the decision before the pollution control hearings board unless otherwise agreed to by the applicant and the department. If an applicant appeals either an approval or a denial made by the department under this section, the applicant is responsible only for its own appeal costs.

(2) In pursuing a cost-reimbursement project, the department must determine the source of water proposed to be diverted or withdrawn from, including the boundaries of the area that delimits the source. The department must determine if any other water right permit applications are pending from the same source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department finds they are hydraulically connected. The department shall consider technical information submitted by the applicant in making its determinations under this subsection. The department may recover its costs in making the same source determination under this subsection.

(3) Upon request of the applicant seeking cost-reimbursement processing, the department may elect to initiate a coordinated cost-reimbursement process. To initiate this process, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general circulation in the area where affected properties are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that cost-reimbursement processing of applications within the described water source is being initiated;

(b) Provide to individual applicants the criteria under which the applications will be examined and determined;

(c) Provide to individual applicants the estimated cost for having an application processed on a cost-reimbursement basis;

(d) Provide an estimate of how long the cost-reimbursement process will take before an application is approved or denied; and

(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in the cost-reimbursement process.

(4) The applicant initiating the cost-reimbursement request must pay for the cost of the determination under subsections (2) and (3) of this section and other costs necessary for the initial phase of cost-reimbursement processing. The cost for each applicant for conducting processing under a coordinated cost-reimbursement agreement must be based primarily on the proportionate quantity of water requested by each applicant. The cost may be adjusted if it appears that an application will require a disproportionately greater amount of time and effort to process due to its complexity.

(5)(a) Only the department may approve or deny a water right application processed under this section, and such a final decision remains solely the responsibility and function of the department. The department retains full authority to amend, refuse, or approve any work product provided by any consultant under this section. The department may recover its costs related to: (i) The review of a consultant to ensure that no conflict of interest exists; (ii) the management of consultant contracts and cost-reimbursement agreements; and (iii) the review of work products provided by participating consultants.

(b) For any cost-reimbursement process initiated under subsection (1) of this section, the applicant may, after consulting with the department, select a prequalified consultant listed by the department under subsection (7) of this section or may be assigned such a prequalified consultant by the department.

(c) For any coordinated cost-reimbursement process initiated under subsection (3) of this section, the applicant may, after consulting with the department, select a prequalified consultant listed by the department under subsection (7) of this section or may be assigned a prequalified consultant by the department.

(d) In lieu of having one or more of the work products performed by a prequalified consultant listed under subsection (7) of this section, the department may, at its discretion, recognize specific work completed by an applicant or an applicant's consultant prior to the initiation of cost-reimbursement processing. The department may also, at its discretion, authorize the use of such a consultant to perform a specific scope of the work that would otherwise be assigned to prequalified consultants listed under subsection (7) of this section.

(e) At any point during the cost-reimbursement process, the department may request or accept technical information, data, and analysis from the applicant or the applicant's consultant to support the cost-reimbursement process or the department's decision on the application.

(6) The department is authorized to adopt rules or guidance providing minimum qualifications and standards for any consultant's submission of work products under this section, including standards for submission of technical information, scientific analysis, work product documentation, review for conflict of interest, and report presentation that such a consultant must meet.

(7) The department must provide notice to potential consultants of the opportunity to be considered for inclusion on the list of cost-reimbursement consultants to whom work assignments will be made. The department must competitively select an appropriate number of consultants who are qualified by training and experience to investigate and make recommendations on the disposition of water right applications. The prequalified consultant list must be renewed at least every six years, though the department may add qualified cost-reimbursement consultants to the list at any time. The department must enter a master contract with each consultant selected and thereafter make work assignments based on availability and qualifications.

(8) The department may remove any consultant from the consultant list for poor performance, malfeasance, or excessive complaints from cost-reimbursement participants. The department
may interview any cost-reimbursement consultant to determine whether the person is qualified for this work, and must spot-check the work of consultants to ensure that the public is being competently served.

(9) When a prequalified cost-reimbursement consultant from the department's list described in subsection (7) of this section is assigned or selected to investigate an application or set of applications, the consultant must document its findings and recommended disposition in the form of written draft technical reports and preliminary draft reports of examination. Within two weeks of the department receiving draft technical reports and preliminary draft reports of examination, the department shall provide the applicant such documents for review and comment prior to their completion by the consultant. The department shall consider such comments by the applicant prior to the department's issuance of a draft report of examination. The department may modify the preliminary draft reports of examination submitted by the consultant. The department's decision on a permit application is final unless it is appealed to the pollution control hearings board under chapter 43.21B RCW.

(10) If an applicant elects not to participate in a cost-reimbursement process, the application remains on file with the department, retains its priority date, and may be processed under regular processing, priority processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW.

NEW SECTION. Sec. 4. A new section is added to chapter 90.03 RCW to read as follows:

The water rights processing account is created in the state treasury. All receipts from the fees collected under sections 5, 7, and 12 of this act must be deposited into the account. Money in the account may be spent only after appropriation. Expenditures from the account may only be used to support the processing of water right applications for a new appropriation, change, transfer, or amendment of a water right as provided in this chapter and chapters 90.42 and 90.44 RCW or for the examination, certification, and renewal of certification of water right examiners as provided in section 7 of this act.

NEW SECTION. Sec. 5. A new section is added to chapter 90.03 RCW to read as follows:

(1) The department may expedite processing of applications within the same source of water on its own volition when there is interest from a sufficient number of applicants or upon receipt of written requests from at least ten percent of the applicants within the same source of water.

(2) If the conditions of subsection (1) of this section have been met and the department determines that the public interest is best served by expediting applications within a water source, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general circulation in the area where affected properties are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that expedited processing of applications within the described water source is being initiated;
(b) Provide to individual applicants the criteria under which the applications will be examined and determined;
(c) Provide to individual applicants the estimated cost for having an application processed on an expedited basis;
(d) Provide an estimate of how long the expedited process will take before an application is approved or denied; and

(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in the expedited processing of their applications.

(3) In addition to the application fees provided in RCW 90.03.470, the department must recover the full cost of processing all the applications from applicants who elect to participate within the water source through expedited processing fees. The department must calculate an expedited processing fee based primarily on the proportionate quantity of water requested by each applicant and may adjust the fee if it appears that the application will require a disproportionately greater amount of time and effort to process due to its complexity. Any application fees that were paid by the applicant under RCW 90.03.470 must be credited against the applicant's share of the cost of processing applications under the provisions of this section.

(4) The expedited processing fee must be collected by the department prior to the expedited processing of an application. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. An applicant who has stated in writing that he or she wants his or her application processed using the expedited procedures in this section must transmit the processing fee within sixty days of the written request. Failure to do so will result in the applicant not being included in expedited processing for that water source.

(5) If an applicant elects not to participate in expedited processing, the application remains on file with the department, the applicant retains his or her priority date, and the application may be processed through regular processing, priority processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW. Such an application may not be processed through expedited processing within twelve months after the department's issuance of decisions on participating applications at the conclusion of expedited processing unless the applicant agrees to pay the full proportionate share that would otherwise have been paid during such processing. Any proceeds collected from an applicant under this delayed entry into expedited processing shall be used to reimburse the other applicants who participated in the previous expedited processing of applications, provided sufficient proceeds remain to fully cover the department's cost of processing the delayed entry application and the department's estimated administrative costs to reimburse the previously expedited applicants.

NEW SECTION. Sec. 6. A new section is added to chapter 90.03 RCW to read as follows:

The department must post notice on its web site and provide additional electronic notice and opportunity for comment to affected federally recognized tribal governments concurrently when providing notice to applicants under RCW 90.03.265 and sections 5 and 12 of this act.

NEW SECTION. Sec. 7. A new section is added to chapter 90.03 RCW to read as follows:

(1) The department shall establish and maintain a list of certified water right examiners. Certified water right examiners on the list are eligible to perform final proof examinations of permitted water uses leading to the issuance of a water right certificate under RCW 90.03.330. The list must be updated annually and must be made available to the public through written and electronic media.

(2) In order to qualify, an individual must be registered in Washington as a professional engineer, professional land surveyor, or registered hydrogeologist, or an individual must demonstrate at least five years of applicable experience to the department, or be a board member of a water conservancy board. Qualified individuals must also pass a written examination prior to being certified by the department. Such an examination must be administered by either the department or an entity formally approved by the department. Each
certified water right examiner must demonstrate knowledge and competency regarding:

(a) Water law in the state of Washington;
(b) Measurement of the flow of water through open channels and enclosed pipes;
(c) Water use and water level reporting;
(d) Estimation of the capacity of reservoirs and ponds;
(e) Irrigation crop water requirements;
(f) Aerial photo interpretation;
(g) Legal descriptions of land parcels;
(h) Location of land and water infrastructure through the use of maps and global positioning;
(i) Proper construction and sealing of well bores; and
(j) Other topics related to the preparation and certification of water rights in Washington state.

(3) Except as provided in subsection (9) of this section, upon completion of a water appropriation and putting water to beneficial use, in order to receive a final water right certificate, the permit holder must secure the services of a certified water right examiner who has been tested and certified by the department. The department shall carry out a final examination of the project to verify its completion and to determine and document for the permit holder and the department the amount of water that has been appropriated for beneficial use, the location of diversion or withdrawal and conveyance facilities, and the actual place of use. The examiner shall make measurements or make estimates of the maximum diversion or withdrawal, the capacity of water storage facilities, the acreage irrigated, the type and number of residences served, the type and number of stock watered, and other information relevant to making a final determination of the amount of water beneficially used. The examiner shall take photographs of the facilities to document the use or uses of water and the photographs must be submitted with the examiner's report to the department. The department shall specify the format and required content of the reports and may provide a form for that purpose.

(4) The department may suspend or revoke a certification based on poor performance, malfeasance, failure to acquire continuing education credits, or excessive complaints from the examiner's customers. The department may require the retesting of an examiner. The department may interview any examiner to determine whether the person is qualified for this work. The department shall spot-check the work of examiners to ensure that the public is being competently served. Any person aggrieved by an order of the department including the granting, denial, revocation, or suspension of a certificate issued by the department under this chapter may appeal pursuant to chapter 43.21B RCW.

(5) The decision regarding whether to issue a final water right certificate is solely the responsibility and function of the department.

(6) The department shall make its final decision under RCW 90.03.330 within sixty days of the date of receipt of the proof of examination from the certified water right examiner, unless otherwise requested by the applicant or returned for correction by the department. The department may return an initial proof of examination for correction within thirty days of the department's receipt of such initial proof from a certified water right examiner. Such proof must be returned to both the certified water right examiner and the applicant. Within thirty days of the department's receipt of such returned proof from the certified water right examiner, the department shall make its final decision under RCW 90.03.330, unless otherwise requested by the applicant.

(7) Each certified water right examiner must complete eight hours annually of qualifying continuing education in the water resources field. The department shall determine and specify the qualifying continuing education and shall inform examiners of the opportunities. The department shall track whether examiners are current in their continuing education and may suspend the certification of an examiner who has not complied with the continuing education requirement.

(8) Each certified water right examiner must be bonded for at least fifty thousand dollars.

(9) The department may waive the requirement to secure the services of a certified water right examiner in situations in which the department has already conducted a final proof of examination or finds it unnecessary for purposes of issuing a certificate of water right.

(10) The department shall establish and collect fees for the examination, certification, and renewal of certification of water right examiners. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. Pursuant to RCW 43.135.055, the department is authorized to set fees for examination, certification, and renewal of certification for water right examiners.

(11) The department may adopt rules appropriate to carry out the purposes of this section.

Sec. 8. RCW 90.14.065 and 1987 c 93 s 1 are each amended to read as follows:

(1) Any person or entity, or successor to such person or entity, having a statement of claim on file with the water rights claims registry (see April 20, 1987) may submit to the department of ecology for filing an amendment to such a statement of claim if the submitted amendment is based on:

1. An error in estimation of the quantity of the applicant's water claim prescribed in RCW 90.14.051 if the applicant provides reasons for the failure to claim such right in the original claim;
2. A change in circumstances not foreseeable at the time the original claim was filed, if such change in circumstances relates only to the manner of transportation or diversion of the water and not to the use or quantity of such water; or
3. The amendment is ministerial in nature.

(b) The department shall accept any such submission and file the same in the registry unless the department by written determination concludes that the requirements of (a)(i), (ii), or (iii) of this subsection (((1)(a)(i), (ii), or (iii) of this subsection)))) have not been satisfied.

(2) In addition to subsection (1) of this section, a surface water right claim may be changed or transferred in the same manner as a permit or certificate under RCW 90.03.380, and a water right claim for groundwater may be changed or transferred as provided under RCW 90.03.380 and 90.44.100.

(3) Any person aggrieved by a determination of the department may obtain a review thereof by filing a petition for review with the pollution control hearings board within thirty days of the date of the determination by the department. The provisions of RCW 90.14.081 apply to any amendment filed or approved under this section.

Sec. 9. RCW 90.44.100 and 2009 c 183 s 16 are each amended to read as follows:

(1) After an application to, and upon the issuance by the department of an amendment to the appropriate permit or certificate of groundwater right, the holder of a valid right to withdraw public groundwater may, without losing the holder's priority of right, construct wells or other means of withdrawal at a new location in substitution for or in addition to those at the original location, or the holder may change the manner or the place of use of the water.

(2) An amendment to construct replacement or a new additional well or wells at a location outside of the location of the original well or wells or to change the manner or place of use of the water shall be issued only after publication of notice of the application and findings as prescribed in the case of an original application. Such amendment shall be issued by the department only on the conditions that: (a) The additional or replacement well or wells shall tap the same body of public groundwater as the original well or wells; (b) where a replacement well or wells is approved, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c)
where an additional well or wells is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original permit or certificate; and (d) other existing rights shall not be impaired. The department may specify an approved manner of construction and shall require a showing of compliance with the terms of the amendment, as provided in RCW 90.44.080 in the case of an original permit.

(3) The construction of a replacement or new additional well or wells at the location of the original well or wells shall be allowed without application to the department for an amendment. However, the following apply to such a replacement or new additional well: (a) The well shall tap the same body of public groundwater as the original well or wells; (b) if a replacement well is constructed, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) if a new additional well is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original permit or certificate; (d) the department may specify an approved manner of construction and shall require a showing of compliance with the conditions of this subsection (3).

(4) As used in this section, the "location of the original well or wells" of a water right permit or certificate is the area described as the point of withdrawal in the original public notice published for the application for the water right for the well. The location of the original well or wells of a water right claim filed under chapter 90.14 RCW is the area located within a one-quarter mile radius of the current well or wells.

(5) The development and use of a small irrigation impoundment, as defined in RCW 90.03.370(8), does not constitute a change or amendment for the purposes of this section. The exemption expressly provided by this subsection shall not be construed as requiring an amendment of any existing water right to enable the holder of the right to store water governed by the right.

(6) This section does not apply to a water right involved in an approved local water plan created under RCW 90.92.090 or a banked water right under RCW 90.92.070.

Sec. 10. RCW 90.44.100 and 2003 c 329 s 3 are each amended to read as follows:

(1) After an application to, and upon the issuance by the department of an amendment to the appropriate permit or certificate of groundwater right, the holder of a valid right to withdraw public groundwater may, without losing the holder's priority of right, construct wells or other means of withdrawal at a new location in substitution for or in addition to those at the original location, or the holder may change the manner or the place of use of the water.

(2) An amendment to construct replacement or a new additional well or wells at a location outside of the location of the original well or wells or to change the manner or place of use of the water shall be issued only after publication of notice of the application and findings as prescribed in the case of an original application. Such amendment shall be issued by the department only on the conditions that: (a) The additional or replacement well or wells shall tap the same body of public groundwater as the original well or wells; (b) where a replacement well or wells is approved, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) where an additional well or wells is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original permit or certificate; and (d) other existing rights shall not be impaired. The department may specify an approved manner of construction and shall require a showing of compliance with the terms of the amendment, as provided in RCW 90.44.080 in the case of an original permit.

(3) The construction of a replacement or new additional well or wells at the location of the original well or wells shall be allowed without application to the department for an amendment. However, the following apply to such a replacement or new additional well: (a) The well shall tap the same body of public groundwater as the original well or wells; (b) if a replacement well is constructed, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) if a new additional well is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original permit or certificate; (d) the construction and use of the well shall not interfere with or impair water rights with an earlier date of priority than the water right or rights for the original well or wells; (e) the replacement or additional well shall be located no closer than the original well to a well it might interfere with; (f) the department may specify an approved manner of construction of the well; and (g) the department shall require a showing of compliance with the conditions of this subsection (3).

(4) The development and use of a small irrigation impoundment, as defined in RCW 90.03.370(8), does not constitute a change or amendment for the purposes of this section. The exemption expressly provided by this subsection shall not be construed as requiring an amendment of any existing water right to enable the holder of the right to store water governed by the right.

SIXTIETH DAY, MARCH 11, 2010 1595
(b) Provide to individual applicants the criteria under which the applications will be examined and determined;
(c) Provide to individual applicants the estimated cost for having an application processed on an expedited basis;
(d) Provide an estimate of how long the expedited process will take before an application is approved or denied; and
(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in expedited processing of their applications.

(3) In addition to the application fees provided in RCW 90.03.470, the department must recover the full cost of processing all the applications from applicants who elect to participate within the water source through expedited processing fees. The department must calculate an expedited processing fee based primarily on the proportionate quantity of water requested by each applicant and may adjust the fee if it appears that an application will require a disproportionately greater amount of time and effort to process due to its complexity. Any application fees that were paid by the applicant under RCW 90.03.470 must be credited against the applicant's share of the cost of processing applications under the provisions of this section.

(4) The expedited processing fee must be collected by the department prior to the expedited processing of an application. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. An applicant who has stated in writing that he or she wants his or her application processed using the expedited procedures in this section must transmit the processing fee within sixty days of the written request. Failure to do so will result in the applicant not being included in expedited processing for that water source.

(5) If an applicant elects not to participate in expedited processing, the application remains on file with the department, the applicant retains his or her priority date, and the application may be processed through regular processing, priority processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW. Such an application may not be processed through expedited processing within twelve months after the department's issuance of decisions on participating applications at the conclusion of expedited processing unless the applicant agrees to pay the full proportionate share that would otherwise have been paid during such processing. Any proceeds collected from an applicant under this delayed entry into expedited processing shall be used to reimburse the other applicants who participated in the previous expedited processing of applications, provided sufficient proceeds remain to fully cover the department's cost of processing the delayed entry application and the department's estimated administrative costs to reimburse the previously expedited applicants.

NEW SECTION. Sec. 13. A new section is added to chapter 90.03 RCW to read as follows:

Nothing in this act affects or diminishes the processing of water right applications under any other existing authority, including but not limited to existing authority for the priority processing of applications by the department.

NEW SECTION. Sec. 14. Section 9 of this act expires June 30, 2019.

NEW SECTION. Sec. 15. Section 10 of this act takes effect June 30, 2019.

NEW SECTION. Sec. 16. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

SECOND READING

ENGROSSED SUBSTITUTE SENATE BILL NO. 6604, by Senate Committee on Early Learning & K-12 Education (originally sponsored by Senators Hobbs, King, McAuliffe, Oemig, Tom, Brandland, Holmquist, McDermott and Kline)

Providing flexibility in the education system.

Representative Quall moved the adoption of amendment (1646).

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 28A.655.061 and 2009 c 524 s 5 are each amended to read as follows:

(1) The high school assessment system shall include but need not be limited to the Washington assessment of student learning, opportunities for a student to retake the content areas of the assessment in which the student was not successful, and if approved by the legislature pursuant to subsection (10) of this section, one or more objective alternative assessments for a student to demonstrate achievement of state academic standards. The objective alternative assessments for each content area shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning for each content area.

(2) Subject to the conditions in this section, a certificate of academic achievement shall be obtained by most students at about the age of sixteen, and is evidence that the students have successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045 or 28A.655.0611, acquisition of the certificate is required for graduation from a public high school but is not the only requirement for graduation.

(3) Beginning with the graduating class of 2008, with the exception of students satisfying the provisions of RCW 28A.155.045, a student who meets the state standards on the reading, writing, and mathematics content areas of the high school Washington assessment of student learning shall earn a certificate of academic achievement. If a student does not successfully meet the state standards in one or more content areas required for the certificate of academic achievement, then the student may retake the assessment in the content area up to four times at no cost to the student. If the student successfully meets the state standards on a retake of the assessment then the student shall earn a certificate of academic achievement. Once objective alternative assessments are authorized pursuant to subsection (10) of this section, a student may use the objective alternative assessments to demonstrate that the student successfully meets the state standards for that content area if the student has taken the Washington assessment of student learning at least once. If the student successfully meets the state standards on the objective alternative assessments then the student shall earn a certificate of academic achievement.

(4) Beginning no later than with the graduating class of 2013, a student must meet the state standards in science in addition to the reading, writing, and mathematics content areas of the high school Washington assessment of student learning or the objective alternative assessments in order to earn a certificate of academic achievement. The state board of education may adopt a rule that implements the requirements of this subsection (4) beginning with a graduating class before the graduating class of 2013, if the state board of education adopts the rule by September 1st of the freshman school year of the graduating class to which the requirements of this subsection (4) apply. The state board of education's authority under this subsection (4) does not alter the requirement that any change in performance standards for the tenth grade assessment must comply with RCW 28A.305.130.

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

(6) A student may retain and use the highest result from each successfully completed content area of the high school assessment.

(7) School districts must make available to students the following options:

(a) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a public school; or

(b) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a high school completion program at a community or technical college. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.

(8) Students who achieve the standard in a content area of the high school assessment but who wish to improve their results shall pay for retaking the assessment, using a uniform cost determined by the superintendent of public instruction.

(9) Opportunities to retake the assessment at least twice a year shall be available to each school district.

(10)(a) The office of the superintendent of public instruction shall develop options for implementing objective alternative assessments, which may include an appeals process for students' scores, for students to demonstrate achievement of the state academic standards. The objective alternative assessments shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning and be objective in its determination of student achievement of the state standards. Before any objective alternative assessments in addition to those authorized in RCW 28A.655.065 or (b) of this subsection are used by a student to demonstrate that the student has met the state standards in a content area required to obtain a certificate, the legislature shall formally approve the use of any objective alternative assessments through the omnibus appropriations act or by statute or concurrent resolution.

(b)(i) A student's score on the mathematics, reading or English, or writing portion of the SAT or the ACT may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the state standards for the certificate of academic achievement. The state board of education shall identify the scores students must achieve on the relevant portion of the SAT or ACT to meet or exceed the state standard in the relevant content area on the Washington assessment of student learning. The state board of education shall identify the first scores by December 1, 2007. After the first scores are established, the state board may increase but not decrease the scores required for students to meet or exceed the state standards.

(ii) Until August 31, 2008, a student's score on the mathematics portion of the PSAT may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the state standard for the certificate of academic achievement. The state board of education shall identify the score students must achieve on the mathematics portion of the PSAT to meet or exceed the state standard in that content area on the Washington assessment of student learning.

(iii) A student who scores at least a three on the grading scale of one to five for selected AP examinations may use the score as an objective alternative assessment under this section for demonstrating that a student has met or exceeded state standards for the certificate of academic achievement. A score of three on the AP examinations in
calculus or statistics may be used as an alternative assessment for the mathematics portion of the Washington assessment of student learning. A score of three on the AP examinations in English language and composition may be used as an alternative assessment for the writing portion of the Washington assessment of student learning. A score of three on the AP examinations in English literature and composition, microeconomics, macroeconomics, psychology, United States history, world history, United States government and politics, or comparative government and politics may be used as an alternative assessment for the reading portion of the Washington assessment of student learning.

(11) By December 15, 2004, the house of representatives and senate education committees shall obtain information and conclusions from recognized, independent, national assessment experts regarding the validity and reliability of the high school Washington assessment of student learning for making individual student high school graduation determinations.

(12) To help assure continued progress in academic achievement as a foundation for high school graduation and to assure that students are on track for high school graduation, each school district shall prepare plans for and notify students and their parents or legal guardians as provided in this subsection ((42)).

(((a)) Student learning plans are required for eighth (through twelfth) grade students who were not successful on any or all of the content areas of the Washington state assessment (for student learning) during the previous school year or who may not be on track to graduate due to credit deficiencies or absences. The parent or legal guardian shall be notified about the information in the student learning plan, preferably through a parent conference and at least annually. To the extent feasible, schools serving English language learner students and their parents shall translate the plan into the primary language of the family. The plan shall include the following information as applicable:

1. The student's results on the Washington state assessment (for student learning);
2. The student is in the transitional bilingual program, the score on his or her Washington language proficiency test II;
3. Any credit deficiencies;
4. The student's attendance rates over the previous two years;
5. The student's progress toward meeting state and local graduation requirements;
6. Remediation strategies and alternative education options available to students, including informing students of the option to continue to receive instructional services after grade twelve or until the age of twenty-one;
7. Available programs offered through skill centers or career and technical education options available for students to meet graduation requirements; and

((b)) All fifth grade students who were not successful in one or more of the content areas of the fourth grade Washington assessment of student learning shall have a student learning plan.

(i) The parent or guardian of the student shall be notified, preferably through a parent conference, of the student's results on the Washington assessment of student learning, actions the school intends to take to improve the student's skills in any content area in which the student was unsuccessful, and provide strategies to help them improve their student's skills.

(ii) Progress made on the student plan shall be reported to the student's parents or guardian at least annually and adjustments to the plan made as necessary.)

MESSAGE FROM THE SENATE

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 3178 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 43.105 RCW to read as follows:

(1) The legislature finds that the provision of information technology in state government lacks strategic coordination, transparency, and meaningful enterprise-wide direction and oversight. It is no longer economically sustainable or technically feasible for state agencies to obtain and provide large-scale, commonly utilized information technology products and services on an individual, agency-by-agency basis without coordination. Instead, the state needs a strong, enterprise-based information technology strategy to ensure the public's needs are being met and the state is receiving the highest quality information technology products and services at the best price from public or private providers. Developing a strong enterprise-wide strategy also includes establishing clear lines of authority and accountability within state agencies so that those services unique to individual agencies receive the support required to effectively and efficiently provide services to citizens. To accomplish these objectives, the state needs to develop an open, transparent process for determining the total cost of ownership for the information technology products and services it provides, and to provide such information in an easily accessible, public fashion. It is in the state's interest to ensure that the wide range of disparate networks, systems, services, and structures across state government become more closely coordinated, organized, and structured. This type of coordinating effort is already underway in the area of higher education through the efforts of the higher education technology transformation task force and informally within other areas. When more transparent technical and financial information is readily available, the state can make sound policy decisions about what information technology services should be provided centrally on a shared services basis, and what products and services may be best suited for either contracting with private providers or for maintenance at the agency level. Furthermore, if attractive pricing models and service level agreements are developed for enterprise-based information technology services, the legislative and judicial branches will have an incentive to participate in those services as well.

(2) It is the intent of the legislature to organize, consolidate, and, where appropriate, contract with private providers for technology systems and resources in a strategic fashion that is based upon sound, objective, nonpolitical, and independent technical and financial criteria. The state needs to develop a clear, enterprise-based statewide strategy for information technology to ensure that there is transparency and accountability regarding how information technology resources are being allocated, how decisions are being made, and who is accountable for on-time, on-budget delivery.

NEW SECTION. Sec. 2. A new section is added to chapter 43.105 RCW to read as follows:

(1) State agencies that are purchasing wireless devices or services must make such purchases through the state master contract, unless the state agency provides to the office of financial management evidence that the state agency is securing its wireless devices or services from another source for a lower cost than through participation in the state master contract.

(2) For the purposes of this section, "state agency" means any office, department, board, commission, or other unit of state government, but does not include a unit of state government headed by a statewide elected official, an institution of higher education as defined in RCW 28B.10.016, the higher education coordinating board, the state board for community and technical colleges, or agencies of the legislative or judicial branches of state government.

NEW SECTION. Sec. 3. A new section is added to chapter 43.88 RCW to read as follows:

(1) As part of the biennial budget process, the office of financial management shall collect from agencies, and agencies shall provide,
information to produce reports, summaries, and budget detail sufficient to allow review, analysis, and documentation of all current and proposed expenditures for information technology by state agencies. Information technology budget detail must be included as part of the budget submittal documentation required pursuant to RCW 43.88.030.

(2) The office of financial management must collect, and present as part of the biennial budget documentation, information for all existing information technology projects as defined by information services board policy. The office of financial management must work with the department of information services to maximize the ability to draw this information from the information technology portfolio management data collected by the department of information services pursuant to RCW 43.105.170. Connecting project information collected through the portfolio management process with financial data developed under subsection (1) of this section provides transparency regarding expenditure data for existing technology projects.

(3) The biennial budget documentation submitted by the office of financial management pursuant to RCW 43.88.030 must include an information technology plan identifying proposed large information technology projects. This plan must be presented using a method similar to the capital budget, identifying project costs through stages of the project and across fiscal periods and biennia from project initiation to implementation. This information must be submitted electronically, in a format to be determined by the office of financial management and the legislative evaluation and accountability program committee.

(4) The office of financial management shall also institute a method of accounting for information technology-related expenditures, including creating common definitions for what constitutes an information technology investment.

Sec. 4. RCW 43.88.560 and 1992 c 20 s 7 are each amended to read as follows:

The director of financial management shall establish policies and standards governing the funding of major information technology projects as required under RCW 43.105.190(2). The director of financial management shall also direct the collection of additional information on information technology projects and submit an information technology plan as required under section 3 of this act.

(j) To develop procurement policies and procedures, such as unbundled contracting and subcontracting, that encourage and facilitate the purchase of products and services by state agencies and institutions from Washington small businesses to the maximum extent practicable and consistent with international trade agreement commitments.

(2) Statewide technical standards to promote and facilitate electronic information sharing and access are an essential component of acceptable and reliable public access service and complement content-related standards designed to meet those goals. The board shall:
(a) Establish technical standards to facilitate electronic access to government information and interoperability of information systems, including wireless communications systems. Local governments are strongly encouraged to follow the standards established by the board; and

MESSAGE FROM THE SENATE

March 10, 2010

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 3209 with the following amendment:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds that the Washington state ferry system is a critical component of the state’s highway system. The legislature further finds that ferry system revenues are inadequate to support the capital requirements of aging vessels and terminals, and operating cost growth is fast outpacing the growth of fare revenue and gas tax revenue dedicated to the ferry system. As such, and drawing on more than four consecutive years of legislative analysis and operating policy reforms, the legislature finds that a realignment of the ferry compensation policy framework is an appropriate next step toward the legislature’s long-term goal of assuring sustainable, cost-effective ferry service. The legislature further intends to address increased costs of ferry system operations in a manner that balances the interests of the ferry system, ferry workforce, and fare payers. It is the intent of the legislature that final recommendations from the joint transportation committee ferry study, submitted to the legislature during the 2009 regular legislative session, be enacted by the legislature and implemented by the department of transportation as soon as practicable in order to benefit from the efficiencies and cost savings identified in the recommendations. It is also the intent of the legislature to make various additional policy changes aimed at further efficiencies and cost savings. Since the study began in 2006, recommendations have been made with regard to long range planning and implementing the most efficient and effective balance between ferry capital and
operating investments. It is intended that this act, the 2009-2011 omnibus transportation appropriations act, and subsequent transportation appropriations acts serve as vehicles for enacting these recommendations in order to maximize the utilization of existing capacity and to make the most efficient use of existing assets and tax dollars.

NEW SECTION. Sec. 2. (1) The office of financial management shall convene an expert panel of ferry operators to conduct a management review of the Washington state department of transportation, ferries division. The panel must have between three and five members and must represent both management and operations specialists, as well as public and private ferry operators that can bring best practices and state-of-the-art knowledge to this effort. The panel shall review past studies, conduct its own review, and make recommendations of the ferries division's management.

The study must be completed and submitted to the transportation committees of the senate and house of representatives by August 1, 2010, and must include:

(a) A review and comment on the studies and audits conducted on the ferries division over the past four years in areas of overhead and management organization structure and costs, maintenance practices, scheduling, and prioritization of preservation of vessels and terminals to ensure they represent current best practices;

(b) A report on the implementation of the recommendations in the studies and audits described in (a) of this subsection, and a report on their effectiveness compared to national best practices; and

(c) A review and report on the procedures for crew and service scheduling and recommendations on opportunities for improvement to provide the least cost of operations while maintaining service schedules that meet the needs of ferries customers.

(2) This section expires July 1, 2011.

Sec. 3. RCW 47.60.355 and 2007 c 512 s 11 are each amended to read as follows:

Sec. 4. RCW 47.60.365 and 2007 c 512 s 12 are each amended to read as follows:

(b) Vehicle level of service standards as described in RCW 47.06.140;

(c) Operational strategies as described in RCW 47.60.327; and

(d) A current terminal preservation plan that adheres to the life-cycle cost model on capital assets as described in RCW 47.60.345.

Sec. 6. RCW 47.60.385 and 2008 c 124 s 6 are each amended to read as follows:

(1) Terminal improvement, vessel improvement, and vessel acquisition project funding requests must adhere to the capital plan((i.

(2) Requests for terminal improvement design and construction funding must), include route-based planning, and be submitted with a predesign study that:

(i) Demonstrates the evaluation of long-term operating costs including fuel efficiency, staffing, and preservation.

(2) The department shall prioritize vessel preservation and acquisition funding requests over vessel improvement funding requests.

NEW SECTION. Sec. 7. A new section is added to chapter 47.60 RCW to read as follows:

(1) In addition to the requirements of RCW 47.60.385(1), initial requests for, and substantial modification requests to, vessel acquisition funding must be submitted with a predesign study that:

(i) Alternatives to new vessel construction that increase capacity of existing vessels;

(ii) Service level changes in lieu of adding vessel capacity; and

(iii) Acquiring existing vessels or existing vessel plans rather than wholly new vessels or vessel plans; and

(d) Demonstrates that the vessel proposed for improvement, construction, or purchase, if intended to replace an existing vessel or to place an existing vessel into inactive or reserve status, is consistent with the scheduled replacements in the rebuild and replacement plan.

(2) In addition to the requirements of RCW 47.60.385(1), initial requests for, and substantial modification requests to, vessel improvement funding must be submitted with a predesign study that includes:

(a) An explanation of any regulatory changes necessitating the improvement;

(d) An assessment of out-of-service time associated with making the improvement and ongoing preservation of the improvement.

NEW SECTION. Sec. 8. (1) Signage must be prominently displayed at each terminal and on each vessel that informs the public that assaults on Washington state employees will be prosecuted to the full extent of the law.

(2) The department shall investigate the frequency, severity, and prosecutorial results of assaults on Washington state ferries employees and, if appropriate, make recommendations to the transportation committees of the senate and house of representatives during the 2011 legislative session regarding methods to decrease the number of assaults on employees and procedures for prosecuting those who assault employees.

(3) This section expires June 30, 2011.

Sec. 9. RCW 47.28.030 and 2007 c 218 s 90 are each amended to read as follows:

(1) (a) A state highway shall be constructed, altered, repaired, or improved, and improvements located on property acquired for right-of-way purposes may be repaired or renovated pending the use of such right-of-way for highway purposes, by contract or state forces. The work or portions thereof may be done by state forces when the estimated costs thereof are less than fifty thousand dollars and effective July 1, 2005, sixty thousand dollars((. PROVIDED, however, that when delay of performance would jeopardize a state highway or constitute a danger to the traveling public, the work may be done by state forces when the estimated cost thereof is less than eighty thousand dollars and effective July 1, 2005, one hundred thousand dollars.))

(b) When delay of performance of such work would jeopardize a state highway or constitute a danger to the traveling public, the work may be done by state forces when the estimated cost thereof is less than eighty thousand dollars and effective July 1, 2005, one hundred thousand dollars.

(2) The rules adopted under this section:

(i) Shall provide for competitive bids to the extent that competitive sources are available except when delay of performance would jeopardize life or property or inconvenience the traveling public; and

(ii) Need not require the furnishing of a bid deposit nor a performance bond, but if a performance bond is not required then progress payments to the contractor may be required to be made based on submittal of paid invoices to substantiate proof that disbursements have been made to laborers, material suppliers, mechanics, and subcontractors from the previous partial payment; and

(iii) May establish prequalification standards and procedures as an alternative to those set forth in RCW 47.28.070, but the prequalification standards and procedures under RCW 47.28.070 shall always be sufficient.

(3) The department of transportation shall comply with such goals and rules as may be adopted by the office of minority and women's business enterprises to implement chapter 39.19 RCW with respect to contracts entered into under this chapter. The department may adopt such rules as may be necessary to comply with the rules adopted by the office of minority and women's business enterprises under chapter 39.19 RCW.

(4)(a) For the period of March 15, 2010, through June 30, 2011, work for less than one hundred twenty thousand dollars may be performed on ferry vessels and terminals by state forces.

(b) The department shall hire a disinterested, third party to conduct an independent analysis to identify methods of reducing out-of-service times for vessel maintenance, preservation, and improvement projects. The analysis must include options that consider consolidating work while vessels are at shipyards by having state forces perform services traditionally performed at Eagle Harbor at the shipyard and decreasing the allowable time at shipyards. The analysis must also compare the out-of-service vessel times of performing services by state forces versus contracting out those services which in turn must be used to form a recommendation as to what the threshold of work performed on ferry vessels and terminals by state forces should be. This analysis must be presented to the transportation committees of the senate and house of representatives by December 1, 2010.

(c) The department shall develop a proposed ferry vessel maintenance, preservation, and improvement program and present it to the transportation committees of the senate and house of representatives by December 1, 2010. The proposed program must:

(i) Improve the basis for budgeting vessel maintenance, preservation, and improvement costs and for projecting those costs into a sixteen-year financial plan;

(ii) Limit the amount of planned out-of-service time to the greatest extent possible, including options associated with department staff as well as commercial shipyards; and

(iii) Be based on the service plan in the capital plan, recognizing that vessel preservation and improvement needs may vary by route.

(d) In developing the proposed ferry vessel maintenance, preservation, and improvement program, the department shall consider the following, related to reducing vessel out-of-service time:

(i) The costs compared to benefits of Eagle Harbor repair and maintenance facility operations options to include staffing costs and benefits in terms of reduced out-of-service time;

(ii) The maintenance requirements for on-vessel staff, including the benefits of a systemwide standard;

(iii) The costs compared to benefits of staff performing preservation or maintenance work, or both, while the vessel is underway, tied up between sailings, or not deployed;

(iv) A review of the department's vessel maintenance, preservation, and improvement program contracting process and contractual requirements;

(v) The costs compared to benefits of allowing for increased costs associated with expedited delivery;

(vi) A method for comparing the anticipated out-of-service time of proposed projects and other projects planned during the same construction period;

(vii) Coordination with required United States coast guard dry dockings;

(viii) A method for comparing how proposed projects relate to the service requirements of the route on which the vessel normally operates; and

(ix) A method for evaluating the ongoing maintenance and preservation costs associated with proposed improvement projects.

Sec. 10. RCW 47.64.120 and 2006 c 164 s 3 are each amended to read as follows:

(1) Except as otherwise provided in this chapter, the employer and ferry system employee organizations, through their collective bargaining representatives, shall meet at reasonable times ((or)) to negotiate in good faith with respect to wages, hours, working conditions, and insurance. ((and health care benefits as limited by RCW 47.64.270)) and other matters mutually agreed upon. Employer funded retirement benefits shall be provided under the public employees retirement system under chapter 41.40 RCW and shall not be included in the scope of collective bargaining. Except as provided under RCW 47.64.270, the employer is not required to bargain over health care benefits. Any retirement system or retirement benefits shall not be subject to collective bargaining.
(2) Upon ratification of bargaining agreements, ferry employees are entitled to an amount equivalent to the interest earned on retroactive compensation increases. For purposes of this section, the interest earned on retroactive compensation increases is the same monthly rate of interest that was earned on the amount of the compensation increases while held in the state treasury. The interest will be computed for each employee until the date the retroactive compensation is paid, and must be allocated in accordance with appropriation authority. The interest earned on retroactive compensation is not considered part of the ongoing compensation obligation of the state and is not compensation earnable for the purposes of chapter 41.40 RCW. Negotiations shall also include grievance procedures for resolving any questions arising under the agreement, which shall be embodied in a written agreement and signed by the parties.

(3) Except as otherwise provided in this chapter, if a conflict exists between an executive order, administrative rule, or agency policy relating to wages, hours, and terms and conditions of employment and a collective bargaining agreement negotiated under this chapter, the collective bargaining agreement shall prevail. A provision of a collective bargaining agreement that conflicts with the terms of a statute is invalid and unenforceable.

Sec. 11. RCW 47.64.170 and 2007 c 160 s 1 are each amended to read as follows:

(1) Any ferry employee organization certified as the bargaining representative shall be the exclusive representative of all ferry employees in the bargaining unit and shall represent all such employees fairly.

(2) A ferry employee organization or organizations and the governor may each designate any individual as its representative to engage in collective bargaining negotiations.

(3) Negotiating sessions, including strategy meetings of the employer or employee organizations, mediation, and the deliberative process of arbitrators are exempt from the provisions of chapter 42.30 RCW. Hearings conducted by arbitrators may be open to the public by mutual consent of the parties.

(4) Terms of any collective bargaining agreement may be enforced by civil action in Thurston county superior court upon the initiative of either party.

(5) Ferry system employees or any employee organization shall not negotiate or attempt to negotiate directly with anyone other than the person who has been appointed or authorized a bargaining representative for the purpose of bargaining with the ferry employees or their representative.

(6)(a) Within ten working days after the first Monday in September of every odd-numbered year, the parties shall attempt to agree on an interest arbitrator to be used if the parties are not successful in negotiating a comprehensive collective bargaining agreement. If the parties cannot agree on an arbitrator within the ten-day period, either party may request a list of seven arbitrators from the federal mediation and conciliation service. The parties shall select an interest arbitrator using the coin toss/alternate strike method within thirty calendar days of receipt of the list. Immediately upon selecting an interest arbitrator, the parties shall cooperate to reserve dates with the arbitrator for potential arbitration between August 1st and September 15th of the following even-numbered year. The parties shall also prepare a schedule of at least five negotiation dates for the following year, absent an agreement to the contrary. The parties shall execute a written agreement before November 1st of each odd-numbered year setting forth the name of the arbitrator and the dates reserved for bargaining and arbitration. This subsection (6)(a) imposes minimum obligations only and is not intended to define or limit a party's full, good faith bargaining obligation under other sections of this chapter.

(b) The negotiation of a proposed collective bargaining agreement by representatives of the employer and a ferry employee organization shall commence on or about February 1st of every even-numbered year.

(c) For negotiations covering the 2009-2011 biennium and subsequent biennia, the time periods specified in this section, and in RCW 47.64.210 and 47.64.300 through 47.64.320, must ensure conclusion of all agreements on or before October 1st of the even-numbered year next preceding the biennial budget period during which the agreement should take effect. These time periods may only be altered by mutual agreement of the parties in writing. Any such agreement and any impasse procedures agreed to by the parties under RCW 47.64.200 must include an agreement regarding the new time periods that will allow final resolution by negotiations or arbitration by October 1st of each even-numbered year.

(7) (Until a new collective bargaining agreement is in effect, the terms and conditions of the previous collective bargaining agreement shall remain in force.) It is the intent of this section that the collective bargaining agreement or arbitrator's award shall commence on July 1st of each odd-numbered year and shall terminate on June 30th of the next odd-numbered year to coincide with the ensuing biennial budget year, as defined by RCW 43.88.020(7), to the extent practical. It is further the intent of this section that all collective bargaining agreements be concluded by October 1st of the even-numbered year before the commencement of the biennial budget year during which the agreements are to be in effect. After the expiration date of a collective bargaining agreement negotiated under this chapter, all of the terms and conditions specified in the collective bargaining agreement remain in effect until the effective date of a subsequently negotiated agreement, not to exceed one year from the expiration date stated in the agreement. Thereafter, the employer may unilaterally implement according to law.

(8) The office of financial management shall conduct a salary survey, for use in collective bargaining and arbitration, which must be conducted through a contract with a firm nationally recognized in the field of human resources management consulting.

(9)(a) The governor shall submit a request either for funds necessary to implement the collective bargaining agreements including, but not limited to, the compensation and fringe benefits provisions or for legislation necessary to implement the agreement, or both. Requests for funds necessary to implement the collective bargaining agreements shall not be submitted to the legislature by the governor unless such requests:

(i) Have been submitted to the director of the office of financial management by October 1st before the legislative session at which the requests are to be considered; and

(ii) Have been certified by the director of the office of financial management as being feasible financially for the state.

(b) The governor shall submit a request either for funds necessary to implement the arbitration awards or for legislation necessary to implement the arbitration awards, or both. Requests for funds necessary to implement the arbitration awards shall not be submitted to the legislature by the governor unless such requests:

(i) Have been submitted to the director of the office of financial management by October 1st before the legislative session at which the requests are to be considered; and

(ii) Have been certified by the director of the office of financial management as being feasible financially for the state.

(c) The legislature shall approve or reject the submission of the request for funds necessary to implement the collective bargaining agreements or arbitration awards as a whole for each agreement or award. The legislature shall not consider a request for funds to implement a collective bargaining agreement or arbitration award unless the request is transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060. If the legislature rejects or fails to act on the submission, either party may reopen all or part of the agreement and award or the
exclusive bargaining representative may seek to implement the procedures provided for in RCW 47.64.210 and 47.64.300.

If, after the compensation and fringe benefit provisions of an agreement are approved by the legislature, a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties shall immediately enter into collective bargaining for a mutually agreed upon modification of the agreement.

Sec. 12. RCW 47.64.200 and 2006 c 164 s 7 are each amended to read as follows:

As the first step in the performance of their duty to bargain, the employer and the employee organization shall endeavor to agree upon impasse procedures. Unless otherwise agreed to by the employee organization and the employer in their impasse procedures, the arbitrator or panel (as limited to selecting the most reasonable offer in its judgment, of the final offers on each impasse item submitted by the parties. The employee organization and the employer may mutually agree to the impasse procedure under which the arbitrator or panel may) shall issue a decision it deems just and appropriate with respect to each impasse item. If the parties fail to agree upon impasse procedures under this section, the impasse procedures provided in RCW 47.64.210 and 47.64.300 apply. It is unlawful for either party to refuse to participate in the impasse procedures provided in RCW 47.64.210 and 47.64.230 and 47.64.300 through 47.64.320 apply. It is unlawful for either party to refuse to participate in the

Sec. 13. RCW 47.64.270 and 2006 c 164 s 17 are each amended to read as follows:

(1) The employer and one coalition of all the exclusive bargaining representatives subject to this chapter and chapter 41.80 RCW shall conduct negotiations regarding the dollar amount expended on behalf of each employee for health care benefits.

(2) Absent a collective bargaining agreement to the contrary, the department of transportation shall provide contributions to insurance and health care plans for ferry system employees and dependents, as determined by the state health care authority, under chapter 41.05 RCW.

(3) The employer and employee organizations may collectively bargain for (other) insurance and (health care) plans other than health care benefits, and employer contributions may exceed that of other state agencies as provided in RCW 41.05.050. ([To the extent that ferry employees by bargaining unit have absorbed the required offset of wage increases by the amount that the employer contribution for employees' and dependents' insurance and health care plans exceeds that of other state general government employees in the 1985-87 fiscal biennium, employees shall not be required to absorb a further offset except to the extent the differential between employer contributions for those employees and all other state general government employees increases during any subsequent fiscal biennium. If such differential increases in the 1987-89 fiscal biennium or the 1985-87 offset by bargaining unit is insufficient to meet the required deduction, the amount available for compensation shall be reduced by bargaining unit by the amount of such increase or the 1985-87 shortage in the required offset. Compensation shall include all wages and employee benefits.)

Sec. 14. RCW 47.64.280 and 2006 c 164 s 18 are each amended to read as follows:

(1) There is created the marine employees' commission. The governor shall appoint the commission with the consent of the senate. The commission shall consist of three members: One member to be appointed from labor, one member from industry, and one member from the public who has significant knowledge of maritime affairs. The public member shall be chair of the commission. One of the original members shall be appointed for a term of three years, one for a term of four years, and one for a term of five years. Their successors shall be appointed for terms of five years each, except that any person chosen to fill a vacancy shall be appointed only for the unexpired term of the member whom he or she succeeds.

Commission members are eligible for reappointment. Any member of the commission may be removed by the governor, upon notice and hearing, for neglect of duty or malfeasance in office, but for no other cause. Commission members are not eligible for state retirement under chapter 41.40 RCW by virtue of their service on the commission. Members of the commission shall be compensated in accordance with RCW 43.03.250 and shall receive reimbursement for official travel and other expenses at the same rate and on the same terms as provided for the transportation commission by RCW 47.01.061. The payments shall be made from the Puget Sound ferry operations account.

(2) The commission shall: (a) Adjust all complaints, grievances, and disputes between labor and management arising out of the operation of the ferry system as provided in RCW 47.64.150; (b) provide for impasse mediation as required in RCW 47.64.210; and (c) provide salary surveys as required in RCW 47.64.220, and (d) perform those duties required in RCW 47.64.300.

(3) (a) In adjudicating all complaints, grievances, and disputes, the party claiming labor disputes shall, in writing, notify the commission, which shall make careful inquiry into the cause thereof and issue an order advising the ferry employee, or the ferry employee organization representing him or her, and the department of transportation, as to the decision of the commission.

(b) The parties are entitled to offer evidence relating to disputes at all hearings conducted by the commission. The orders and awards of the commission are final and binding upon any ferry employee or employees or their representative affected thereby and upon the department.

(c) The commission shall adopt rules of procedure under chapter 34.05 RCW.

(d) The commission has the authority to subpoena any ferry employee or employees, or their representatives, and any member or representative of the department, and any witnesses. The commission may require attendance of witnesses and the production of all pertinent records at any hearings held by the commission. The subpoenas of the commission are enforceable by order of any superior court in the state of Washington for the county within which the proceeding may be pending. The commission may hire staff as necessary, appoint consultants, enter into contracts, and conduct studies as reasonably necessary to carry out this chapter.

Sec. 15. RCW 47.64.320 and 2006 c 164 s 14 are each amended to read as follows:

(1) The mediator, arbitrator, or arbitration panel may consider only matters that are subject to bargaining under this chapter, except that health care benefits are not subject to interest arbitration.

(2) The decision of an arbitrator or arbitration panel is not binding on the legislature and, if the legislature does not approve the funds necessary to implement provisions pertaining to compensation and fringe benefit provisions of an arbitrated collective bargaining agreement, is not binding on the state, the department of transportation, or the ferry employee organization.

(3) In making its determination, the arbitrator or arbitration panel shall be mindful of the legislative purpose under RCW 47.64.005 and 47.64.006 and, as additional standards or guidelines to aid it in reaching a decision, shall take into consideration the following factors:

(a) The financial ability of the department to pay for the compensation and fringe benefit provisions of a collective bargaining agreement;

(b) Past collective bargaining contracts between the parties including the bargaining that led up to the contracts;

(c) The constitutional and statutory authority of the employer;

(d) Stipulations of the parties;
The results of the salary survey as required in RCW 47.64.220 shall not exceed the per gallon price of diesel by more than five percent. 

The department shall analyze its progress of implementing new fuel forecasting and budgeting practices, price hedging contracts for fuel purchases, and fuel conservation strategies by November 30, 2010.

The department shall strive to significantly reduce the number of injuries suffered by Washington state ferries employees. By December 15, 2009, the department shall submit to the office of financial management and the transportation committees of the legislature its implementation plan to reduce such injuries.

The department shall continue to provide service to Sidney, British Columbia. The department may place a Sidney terminal on its progress of implementing new fuel forecasting and budgeting practices, price hedging contracts for fuel purchases, and fuel conservation strategies by November 30, 2010.

The department shall analyze operational solutions to enhance service on the Bremerton to Seattle ferry run. The Washington state....
ferries shall report its analysis to the transportation committees of the legislature by December 1, 2009.

(7) The office of financial management budget instructions require agencies to recast enacted budgets into activities. The Washington state ferries shall include a greater level of detail in its 2011-13 omnibus transportation appropriations act request, as determined jointly by the office of financial management, the Washington state ferries, and the legislative transportation committee.

(8) ($4,794,000) $4,124,000 of the Puget Sound ferry operations account--state appropriation is provided solely for commercial insurance for ferry assets. The office of financial management, after consultation with the transportation committees of the legislature, must present a business plan for the Washington state ferry system's insurance coverage to the 2010 legislature. The business plan must include a cost-benefit analysis of Washington state ferries' current commercial insurance purchased for ferry assets and a review of self-insurance for noncatastrophic events.

(9) $1,100,000 of the Puget Sound ferry operations account--state appropriation is provided solely for a marketing program. The department shall present a marketing program proposal to the transportation committees of the legislature during the 2010 legislative session before implementing this program. Of this amount, $10,000 is for the city of Port Townsend and $10,000 is for the town of Coupeville for mitigation expenses related to only one vessel operating on the Port Townsend/Keystone ferry route. The moneys provided to the city of Port Townsend and town of Coupeville are not contingent upon the required marketing proposal.

(10) $350,000 of the Puget Sound ferry operations account--state appropriation is provided solely for two extra trips per day during the summer of 2009 season, beyond the current schedule, on the Port Townsend/Keystone route.

(11) When purchasing uniforms that are required by collective bargaining agreements, the department shall contract with the lowest cost provider.

(12) The legislature finds that measuring the performance of Washington state ferries requires the measurement of quality, timeliness, and unit cost of services delivered to customers. Consequently, the department must develop a set of metrics that measure that performance and report to the transportation committees of the legislature and to the office of financial management on the development of these measurements along with recommendations to the 2010 legislature on which measurements must become a part of the next omnibus transportation appropriations act.

(13) As a priority task, the department is directed to propose a comprehensive incident and accident investigation policy and appropriate procedures, and to provide the proposal to the legislature by November 1, 2009, using existing resources and staff expertise. In addition to consulting with ferry system unions and the United States coast guard, the Washington state ferries is encouraged to solicit independent outside expertise on incident and accident investigation best practices as they may be found in other organizations with a similar concern for marine safety. It is the intent of the legislature to enact the policies into law and to publish that law and procedures as a manual for Washington state ferries' accident/incident investigations. Until that time, the Washington state ferry system must exercise particular diligence to assure that any incident or accident investigations are conducted within the spirit of the guidelines of this act. The proposed policy must contain, at a minimum:

(a) The definition of an incident and an accident and the type of investigation that is required by both types of events;

(b) The process for appointing an investigating officer or officers and a description of the authorities and responsibilities of the investigating officer or officers. The investigating officer or officers must:

(i) Have the appropriate training and experience as determined by the policy;

(ii) Not have been involved in the incident or accident so as to avoid any conflict of interest;

(iii) Have full access to all persons, records, and relevant organizations that may have information about or may have contributed to, directly or indirectly, the incident or accident under investigation, in compliance with any affected employee's or employees' respective collective bargaining agreement and state laws and rules regarding public disclosure under chapter 42.56 RCW;

(iv) Be provided with, if requested by the investigating officer or officers, appropriate outside technical expertise; and

(v) Be provided with staff and legal support by the Washington state ferries as may be appropriate to the type of investigation;

(c) The process of working with the affected employee or employees in accordance with the employee's or employees' respective collective bargaining agreement and the appropriate union officials, within protocols afforded to all public employees;

(d) The process by which the United States coast guard is kept informed of, interacts with, and reviews the investigation;

(e) The process for review, approval, and implementation of any approved recommendations within the department; and

(f) The process for keeping the public informed of the investigation and its outcomes, in compliance with any affected employee's or employees' respective collective bargaining agreement and state laws and rules regarding public disclosure under chapter 42.56 RCW.

(14) $7,300,000 of the Puget Sound ferry operations account--state appropriation is provided solely for the purposes of travel time associated with Washington state ferries employees. However, if Engrossed Substitute House Bill No. 3209 (managing costs of ferry system) is enacted by June 30, 2010, containing an appropriation for purposes of travel time associated with Washington state ferries employees, the amount provided in this subsection lapses.

(15) $50,000 of the Puget Sound ferry operations account--state appropriation is provided solely to implement a mechanism to report on-time performance statistics.

(a) The department shall conduct a study to identify process changes that would improve on-time performance on a route-by-route basis. The study must include looking into the slowing down of vessels for fuel economy purposes and touch-and-go sailings on peak runs. The department shall report its findings to the transportation committees of the senate and house of representatives by December 1, 2010.

(b) The department shall, by November 1, 2010, report to the transportation committees of the legislature statistics regarding its on-time arrival and departure status on a route-by-route and month-by-month basis, as well as an annual route-by-route and systemwide basis, weighted by the number of customers on each sailing and distinguishing peak period on-time performance. The statistics must include reasons for any delays over ten minutes from the scheduled time. The statistics must be prominently displayed on the Washington state ferries' web site. Each Washington state ferries vessel and terminal must prominently display the statistics as they relate to their specific route.

(16) The department shall investigate outsourcing the call center functions planned for the ferry reservation system and report its findings to the transportation committees of the senate and house of representatives by December 15, 2010.

(17) By July 1, 2010, the department shall provide to the governor and the transportation committees of the senate and house of representatives a listing of all benefits that Washington state ferries union employees receive that other state employees do not traditionally receive. The listing must include any costs associated with these benefits.

The department shall pursue a contract for the second and third Island Home class ferry vessels with an option to purchase a fourth Island Home class ferry vessel. However, if sufficient resources are available to build one 144-auto vehicle prior to exercising the option to build the fourth Island Home class ferry vessel, procurement of the fourth Island Home class ferry vessel will be postponed and the department shall pursue procurement of a 144-auto vessel.

(a) The first two Island Home class ferry vessels must be placed on the Port Townsend-Keystone route.

(b) The department may add additional passenger capacity to one of the Island Home class ferry vessels to make it more flexible within the system in the future, if doing so does not require additional staffing on the vessel.

(5) $3,000,000 of the Puget Sound capital construction account--federal appropriation is provided solely for completing the Anacortes terminal design up to the maximum allowable construction cost phase. The quarterly report regarding the status of projects identified on the list referenced in subsection (1) of this section must be developed according to an earned value method of project monitoring.

(9) The department shall review and adjust its capital program staffing levels to ensure staffing is at the most efficient level necessary to implement the capital program in the omnibus transportation appropriations act. The Washington state ferries shall
The Puget Sound capital construction account—state appropriation reflects the reduction of three terminal positions due to decreased terminal activity and funding.

MESSAGE FROM THE SENATE
March 11, 2010

Mr. Speaker:

The Senate has passed ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 1096 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION, Sec. 1. A new section is added to chapter 43.19 RCW to read as follows:

(1) The legislature finds that it is in the state's economic interest and serves a public purpose to promote and facilitate the fullest possible participation by Washington businesses of all sizes in the process by which goods and services are purchased by the state. The legislature further finds that large businesses have the resources to participate fully and effectively in the state's purchasing system, and because of many factors, including economies of scale, the purchasing system tends to create a preference in favor of large businesses and to disadvantage small businesses. The legislature intends, therefore, to assist, to the maximum extent possible, small businesses to participate in order to enhance and preserve competitive enterprise and to ensure that small businesses have a fair opportunity to be awarded contracts or subcontracts for goods and services purchased by the state.

(2) Purchasing agencies must establish and implement a plan to increase the number of small businesses annually receiving state contracts for goods and services purchased by the state. The goal of the plan must be to have the number of small businesses receiving state contracts in 2012 be at least fifty percent higher, and in 2014 be at least one hundred percent higher, than the number of contracts awarded to small businesses in 2009.

(3) On July 1, 2011, and each July 1st thereafter, the department of general administration, in consultation with the department of information services and the department of transportation, shall report to the governor and the appropriate committees of the legislature on progress in carrying out the plan required by this section. Annual reports must include information about progress in increasing the number of small businesses participating in state contracts, steps taken to meet the goals of the plan, and the characteristics of small businesses that are awarded contracts.

(4) As used in this section:

(a) "Purchasing agencies" are limited to the department of general administration, the department of information services, and the department of transportation.

(b) "In-state business" means a business that has its principal office located in Washington and its officers domiciled in Washington.

(c) "Small business" means an in-state business, including a sole proprietorship, corporation, partnership, or other legal entity, that: (i) Certifies, under penalty of perjury, that it is owned and operated independently from all other businesses and has either (A) fifty or fewer employees, or (B) a gross revenue of less than seven million dollars annually as reported on its federal income tax return or its return filed with the department of revenue over the previous three consecutive years; or (ii) is certified under chapter 39.19 RCW.

(5) This section expires July 1, 2015."

MESSAGE FROM THE SENATE
March 11, 2010

Mr. Speaker:

The Senate concurred in the Senate amendment to ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 2658. Under suspension of the rules, the bill was returned to second reading for purpose of amendment. The Senate adopted Substitute SB 2658-S2.E AMS KAST S5513.2 and passed the bill as amended by the Senate:

Strike everything after the enacting clause and insert the following:

"NEW SECTION, Sec. 1. In 2009, the legislature changed the name of the department of community, trade, and economic development to the department of commerce and directed the agency to, among other things, develop a report with recommendations on statutory changes to ensure that the department's efforts: Are organized around a concise core mission and aligned with the state's
comprehensive plan for economic development; generate greater local capacity; maximize results through partnerships and the use of intermediaries; and provide transparency and increased accountability. Recommendations for creating or consolidating programs deemed important to meeting the department's core mission and recommendations for terminating or transferring specific programs if they are not consistent with the department's core mission were to be included in the report.

In accordance with that legislation, chapter 565, Laws of 2009, in November 2009 the department of commerce submitted a plan that establishes a mission of growing and improving jobs in the state and recognizes the need for an innovation-driven economy. The plan also outlines agency priorities, efficiencies, and program transfers that will help to advance the new mission.

The primary purpose of this act is to implement portions of the department of commerce plan by transferring certain programs from the department of commerce to other state agencies whose missions are more closely aligned with the core functions of those programs. This act also directs additional efficiencies in state government and directs development of a statewide clean energy strategy, which will better enable the department of commerce to focus on its new mission.

Sec. 2. RCW 43.330.005 and 1993 c 280 s 1 are each amended to read as follows:

The legislature finds that the long-term economic health of the state and its citizens depends upon the strength and vitality of its communities and businesses. It is the intent of this chapter to create a (merged) department of (community, trade, and economic development) commerce that fosters new partnerships for strong and sustainable communities. (The consolidation of the department of trade and economic development and the department of community development into one department will) The mission of the department is to grow and improve jobs in Washington and facilitate innovation. To carry out its mission, the department will bring together focused efforts to: Streamline access to business assistance and economic development services by providing ((a simpler point of entry for state programs)) them through sector-based, cluster-based, and regional partners; provide focused and flexible responses to changing economic conditions; generate greater local capacity to respond to both economic growth and environmental challenges; (and) increase accountability to the public, the executive, the branch, and the legislature(, a new department can bring togrther focused efforts to); manage growth and achieve sustainable development; diversify the state's economy and export goods and services; provide greater access to economic opportunity; stimulate private sector investment and entrepreneurship; provide stable family-wage jobs and meet the diverse needs of families; provide affordable housing and housing services; and construct public infrastructure, (to protect our cultural heritage, and promote the health and safety of the state's citizens).

The legislature further finds that as a result of the rapid pace of global social and economic change, the state and local communities will require coordinated and creative responses by every segment of the community. The state can play a role in assisting such local efforts by reorganizing state assistance efforts to promote such partnerships. The department has a primary responsibility to provide financial and technical assistance to the communities of the state, to assist in improving the delivery of federal, state, and local programs, and to provide communities with opportunities for productive and coordinated development beneficial to the well-being of communities and their residents. It is the intent of the legislature in (this consolidation) creating the department to maximize the use of local expertise and resources in the delivery of community and economic development services.

Sec. 3. RCW 43.330.007 and 2009 c 565 s 1 are each amended to read as follows:

(1) The purpose of this chapter is to establish the broad outline of the structure of the department of commerce, leaving specific details of its internal organization and management to those charged with its administration. This chapter identifies the broad functions and responsibilities of the department and is intended to provide flexibility to the director to reorganize these functions to more closely reflect its customers, its mission, and its priorities, and to make recommendations for changes.

(2) In order to generate greater local capacity, maximize results through partnerships and the use of intermediaries, and leverage the use of state resources, the department shall, in carrying out its business assistance and economic development functions, provide business and economic development services primarily through sector-based, cluster-based, and regionally based organizations rather than providing assistance directly to individual firms.

NEW SECTION. Sec. 4. The department shall examine the functions and operations of agricultural commodity commissions in the state and collaborate with industry sector and cluster associations on legislation that would enable industries to develop self-financing systems for addressing industry-identified issues such as workforce training, international marketing, quality improvement, and technology deployment. By December 1, 2010, the department shall report to the governor and the legislature on its findings and proposed legislation.

NEW SECTION. Sec. 5. (1) The legislature recognizes that there are many strong community services and housing programs currently operating within the department and serving our most vulnerable individuals, families, and communities. The legislature finds that some of these programs can readily be transferred beginning on July 1, 2010, to other mission-aligned agencies in state government. However, the legislature finds that to maintain the strength and credibility of the majority of the department's community services and housing programs, it is necessary to create a separate division for them within the department.

(2)(a) The legislature directs the department to establish the community services and housing division to deliver essential services to individuals, families, and communities.

(b) Services provided by the division shall include, but are not limited to: (i) Homeless housing and assistance programs including transitional housing, emergency shelter grants, independent youth housing, housing assistance for persons with mental illness, and housing opportunities for people with AIDS; (ii) affordable housing development programs including the housing trust fund and low-income home energy assistance; (iii) farm worker housing; (iv) crime victims' advocacy and sexual assault services; (v) community mobilization against substance abuse and violence; (vi) asset building for working families; (vii) local and community projects including the building communities fund, building for the arts, and youth recreational facilities grants; (viii) dispute resolution centers; (ix) the Washington families fund; (x) community services block grants; (xi) child care facility fund; (xii) WorkFirst community jobs; (xiii) long-term care ombudsman; (xiv) state drug task forces; (xv) justice assistance grants; (xvi) children and families of incarcerated parents; and (xvii) the Washington new Americans program.

(3) This section expires July 1, 2012.

ENGROSSED SUBSTITUTE SENATE BILL NO. 6658, by Senate Committee on Environment, Water & Energy (originally sponsored by Senators Rockefeller, Morton and Pridemore)

Modifying community solar project provisions for investment cost recovery incentives.

The bill was read the second time.

There being no objection, the committee amendment by the Committee on Technology, Energy & Communications was not adopted.

Representative McCoy moved the adoption of amendment (1351).

Strike everything after the enacting clause and insert the following:
"Sec. 1. RCW 82.16.110 and 2009 c 469 s 504 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Administrator" means an owner and assignee of a community solar project as defined in subsection (2)(a)(i) of this section that is responsible for applying for the investment cost recovery incentive on behalf of the other owners and performing such administrative tasks on behalf of the other owners as may be necessary, such as receiving investment cost recovery incentive payments, and allocating and paying appropriate amounts of such payments to the other owners.

(2)(a) "Community solar project" means:

(i) A solar energy system that is capable of generating up to seventy-five kilowatts of electricity and is owned by local individuals, households, nonprofit organizations, or nonprofits that is placed on the property owned by a cooperating local governmental entity that is not in the light and power business or in the gas distribution business; (iii)

(ii) A utility-owned solar energy system that is capable of generating up to seventy-five kilowatts of electricity and that is voluntarily funded by the utility's ratepayers where, in exchange for their financial support, the utility gives customers a payment or credit on their utility bill for the value of the electricity produced by the project; or

(iii) A solar energy system placed on the property owned by a cooperating local governmental entity that is not in the light and power business or in the gas distribution business, that is capable of generating up to seventy-five kilowatts of electricity, and that is owned by a company whose members are each eligible for an investment cost recovery incentive for the same customer-generated electricity as provided in RCW 82.16.120.

(b) For the purposes of "community solar project" as defined in (a) of this subsection:

(i) "Company" means an entity that is:

(A)(i) A limited liability company; (II) A cooperative formed under chapter 23.86 RCW; or (III) A mutual corporation or association formed under chapter 24.06 RCW; and

(B) Not a "utility" as defined in this subsection (2)(b); and

(ii) "Nonprofit organization" means an organization exempt from taxation under (4) of the federal internal revenue code of 1986, as amended, as of January 1, 2009; and

(iii) "Utility" means a light and power business, an electric cooperative, or a mutual corporation that provides electricity service.

(2)(b) Before submitting for the first time the application for the incentive allowed under subsection (4) of this section, the applicant must submit to the department of revenue and to the city and county energy development center at the Washington State University, established under RCW 28B.30.642, a certification in a form and manner prescribed by the department that includes, but is not limited to, the following information:

(i) The name and address of the applicant and location of the renewable energy system,

(A) If the applicant is an administrator of a community solar project as defined in RCW 82.16.110(2)(a)(i), the certification must also include the name and address of each of the owners of the community solar project.

(B) If the applicant is a company that owns a community solar project as defined in RCW 82.16.110(2)(a)(iii), the certification must also include the name and address of each member of the company;

(ii) The applicant's tax registration number;

(iii) That the electricity produced by the applicant meets the definition of "customer-generated electricity" and that the renewable energy system produces electricity with:

(A) Any solar inverters and solar modules manufactured in Washington state;

(B) A wind generator powered by blades manufactured in Washington state;

(C) A solar inverter manufactured in Washington state;

(D) A solar module manufactured in Washington state; or

(E) Solar or wind equipment manufactured outside of Washington state;

(iv) That the electricity can be transformed or transmitted for entry into or operation in parallel with electricity transmission and distribution systems; and

(v) The date that the renewable energy system received its final electrical permit from the applicable local jurisdiction.

(b) Within thirty days of receipt of the certification the department of revenue must notify the applicant by mail, or electronically as provided in RCW 82.32.135, whether the renewable energy system qualifies for an incentive under this section. The
department may consult with the climate and rural energy
development center to determine eligibility for the incentive. System
certifications and the information contained therein are subject to
disclosure under RCW 82.32.330(3)(m).

(3)(a) By August 1st of each year application for the incentive
((shall)) must be made to the light and power business serving the
situs of the system by certification in a form and manner prescribed
by the department that includes, but is not limited to, the following
information:

(i) The name and address of the applicant and location of the
renewable energy system;

(A) If the applicant is an administrator of a community solar
project as defined in RCW 82.16.110((2)(a)(i)), the application must
also include the name and address of each of the owners of the
community solar project.

(B) If the applicant is a company that owns a community solar
project as defined in RCW 82.16.110(2)(a)(ii), the application must
also include the name and address of each member of the company;

(ii) The applicant's tax registration number;

(iii) The date of the notification from the department of revenue
stating that the renewable energy system is eligible for the incentives
under this section; and

(iv) A statement of the amount of kilowatt-hours generated by the
renewable energy system in the prior fiscal year.

(b) Within sixty days of receipt of the incentive certification
the light and power business serving the situs of the system ((shall)) must
notify the applicant in writing whether the incentive payment will be
authorized or denied. The business may consult with the climate and
rural energy development center to determine eligibility for the
incentive payment. Incentive certifications and the information
contained therein are subject to disclosure under RCW
82.32.330(3)(m).

(c)(i) Persons, administrators of community solar projects, and
companies receiving incentive payments ((shall)) must keep and
preserve, for a period of five years, suitable records as may be
necessary to determine the amount of incentive applied for and
received. Such records ((shall)) must be open for examination at any
time upon notice by the light and power business that made the
payment or by the department. If upon examination of any records or
from other information obtained by the business or department it
appears that an incentive has been paid in an amount that exceeds the
correct amount of incentive payable, the business may assess against
the person for the amount found to have been paid in excess of the
correct amount of incentive payable and ((shall)) must add thereto
interest on the amount. Interest ((shall)) is assessed in the manner
that the department assesses interest upon delinquent tax under RCW
82.32.050.

(ii) If it appears that the amount of incentive paid is less than the
correct amount of incentive payable the business may authorize
additional payment.

(4) Except for community solar projects, the investment cost
recovery incentive may be paid fifteen cents per economic
development kilowatt-hour unless requests exceed the amount
authorized for credit to the participating light and power business.
For community solar projects, the investment cost recovery incentive
may be paid thirty cents per economic development kilowatt-hour
unless requests exceed the amount authorized for credit to the
participating light and power business. For the purposes of this
section, the rate paid for the investment cost recovery incentive may
be multiplied by the following factors:

(a) For customer-generated electricity produced using solar
modules manufactured in Washington state, two and four-tenths;

(b) For customer-generated electricity produced using a solar or a
wind generator equipped with an inverter manufactured in
Washington state, one and two-tenths;

(c) For customer-generated electricity produced using an
anaerobic digester, or by other solar equipment or using a wind
generator equipped with blades manufactured in Washington state,
one; and

(d) For all other customer-generated electricity produced by wind,
eight-tenths.

(5)(a) No individual, household, business, or local governmental
entity is eligible for incentives provided under subsection (4) of this
section for more than five thousand dollars per year.

(b) Except as provided in (c) through (e) of this subsection (5),
each applicant in a community solar project is eligible for up to five
thousand dollars per year.

(c) Where the applicant is an administrator of a community solar
project as defined in RCW 82.16.110(2)(a)(i), each owner is eligible
for an incentive but only in proportion to the ownership share of the
project, up to five thousand dollars per year.

(d) Where the applicant is a company owning a community solar
project that has applied for an investment cost recovery incentive on
behalf of its members, each member of the company is eligible for an
incentive that would otherwise belong to the company but only in
proportion to each ownership share of the company, up to five
thousand dollars per year. The company itself is not eligible for
incentives under this section.

(e) In the case of a utility-owned community solar project, each
taxpayer that contributes to the project is eligible for an incentive in
proportion to the contribution, up to five thousand dollars per year.

(6) If requests for the investment cost recovery incentive exceed
the amount of funds available for credit to the participating light
and power business, the incentive payments ((shall)) must be reduced
proportionately.

(7) The climate and rural energy development center at
Washington State University energy program may establish
guidelines and standards for technologies that are identified as
Washington manufactured and therefore most beneficial to the state's
environment.

(8) The environmental attributes of the renewable energy system
belong to the applicant, and do not transfer to the state or the light
and power business upon receipt of the investment cost recovery
incentive.

(9) No incentive may be paid under this section for kilowatt-hours
generated before July 1, 2005, or after June 30, 2020.

Sec. 3. RCW 82.16.130 and 2009 c 409 s 506 are each
amended to read as follows:

(1) A light and power business shall be allowed a credit against
taxes due under this chapter in an amount equal to investment cost
recovery incentive payments made in any fiscal year under RCW
82.16.120. The credit shall be taken in a form and manner as required
by the department. The credit under this section for the fiscal year
may not exceed one percent of the businesses' taxable power sales due
under RCW 82.16.020(1)(b) or one hundred thousand dollars,
whichever is greater. Incentive payments to participants in a utility-owned
community solar project as defined in RCW 82.16.110(((4)))
(2)(a)(ii) may only account for up to twenty-five percent of the total
allowable credit. Incentive payments to participants in a company-owned
community solar project as defined in RCW 82.16.110(2)(a)(iii)
may only account for up to five percent of the total allowable credit.
The credit may not exceed the tax that would otherwise be due under this chapter. Refunds shall not be granted in the
place of credits. Expenditures not used to earn a credit in one
fiscal year may not be used to earn a credit in subsequent years.

(2) For any business that has claimed credit for amounts that
exceed the correct amount of the incentive payable under RCW
82.16.120, the amount of tax against which credit was claimed for the
excess payments shall be immediately due and payable. The
department shall assess interest but not penalties on the taxes against
which the credit was claimed. Interest shall be assessed at the rate
provided for delinquent excise taxes under chapter 82.32 RCW, retroactively to the date the credit was claimed, and shall accrue until the taxes against which the credit was claimed are repaid.

(3) The right to earn tax credits under this section expires June 30, 2020. Credits may not be claimed after June 30, 2021.

Sec. 4. RCW 82.16.140 and 2005 c 300 s 5 are each amended to read as follows:

(1) Using existing sources of information, the department ((shall)) must report to the house appropriations committee, the house committee dealing with energy issues, the senate committee on ways and means, and the senate committee dealing with energy issues by December 1, ((2009)) 2014. The report ((shall)) must measure the impacts of ((chapter 300, Laws of 2005)) RCW 82.16.110 through 82.16.130, including the total number of solar energy system manufacturing companies in the state, any change in the number of solar energy system manufacturing companies in the state since July 1, 2005, and, where relevant, the effect on job creation, the number of jobs created for Washington residents, and such other factors as the department selects.

(2) The department ((shall)) may not conduct any new surveys to provide the report in subsection (1) of this section.

(3) For the purposes of this section, "company" has the same meaning as provided in RCW 82.04.030.

NEW SECTION. Sec. 5. A new section is added to chapter 82.16 RCW to read as follows:

Owners of a community solar project as defined in RCW 82.16.110(2)(a) (i) and (iii) must agree to hold harmless the light and power business serving the situs of the system, including any application or certification submitted by an administrator or employee, for the good faith reliance on the information contained in an application or certification submitted by an administrator or company. In addition, the light and power business and any employee is immune from civil liability for the good faith reliance on any misstatement that may be made in such application or certification. Should a light and power business or employee prevail upon the defense provided in this section, it is entitled to certification. Should a light and power business or employee prevail upon the defense provided in this section, it is entitled to certification. Should a light and power business or employee prevail upon the defense provided in this section, it is entitled to certification. Should a light and power business or employee prevail upon the defense provided in this section, it is entitled to certification. Should a light and power business or employee prevail upon the defense provided in this section, it is entitled to certification. Should a light and power business or employee prevail upon the defense provided in this section, it is entitled to certification. Should a light and power business or employee prevail upon the defense provided in this section, it is entitled to certification. Should a light and power business or employee prevail upon the defense provided in this section, it is entitled to certification. Should a light and power business or employee prevail upon the defense provided in this section, it is entitled to certification. Should a light and power business or employee prevail upon the defense provided in this section, it is entitled to certification.

Regarding education reform.

Representative Sullivan moved the adoption of amendment (1657).

Strike everything after the enacting clause and insert the following:

"PART I
ACCOUNTABILITY FRAMEWORK"
NEW SECTION. Sec. 101. The legislature finds that it is the state's responsibility to create a coherent and effective accountability framework for the continuous improvement for all schools and districts. This system must provide an excellent and equitable education for all students; an aligned federal/state accountability system; and the tools necessary for schools and districts to be accountable. These tools include the necessary accounting and data reporting systems, assessment systems to monitor student achievement, and a system of general support, targeted assistance, and if necessary, intervention.

The office of the superintendent of public instruction is responsible for developing and implementing the accountability tools to build district capacity and working within federal and state guidelines. The legislature assigned the state board of education responsibility and oversight for creating an accountability framework. This framework provides a unified system of support for challenged schools that aligns with basic education, increases the level of support based upon the magnitude of need, and uses data for decisions. Such a system will identify schools and their districts for recognition as well as for additional state support. For a specific group of challenged schools, defined as persistently lowest-achieving schools, and their districts, it is necessary to provide a required action process that creates a partnership between the state and local district to target funds and assistance to turn around the identified lowest-achieving schools.

Phase I of this accountability system will recognize schools that have done an exemplary job of raising student achievement and closing the achievement gaps using the state board of education's accountability index. The state board of education shall have ongoing collaboration with the achievement gap oversight and accountability committee regarding the measures used to measure the closing of the achievement gaps and the recognition provided to the school districts for closing the achievement gaps. Phase I will also target the lowest five percent of persistently lowest-achieving schools defined under federal guidelines to provide federal funds and federal intervention models through a voluntary option in 2010, and for those who do not volunteer and have not improved student achievement, a required action process beginning in 2011.

Phase II of this accountability system will work toward implementing the state board of education's accountability index for identification of schools in need of improvement, including those that are not Title I schools, and the use of state and local intervention models and state funds through a required action process beginning in 2013, in addition to the federal program. Federal approval of the state board of education's accountability index must be obtained or else the federal guidelines for persistently lowest-achieving schools will continue to be used.

The expectation from implementation of this accountability system is the improvement of student achievement for all students to prepare them for postsecondary education, work, and global citizenship in the twenty-first century.

NEW SECTION. Sec. 102. (1) Beginning in 2010, and each year thereafter, by December 1st, the superintendent of public instruction shall annually identify schools as one of the state's persistently lowest-achieving schools if the school is a Title I school, or a school that is eligible for but does not receive Title I funds, that is among the lowest-achieving five percent of Title I or Title I eligible schools in the state.

(2) The criteria for determining whether a school is among the persistently lowest-achieving five percent of Title I schools, or Title I eligible schools, under subsection (1) of this section shall be established by the superintendent of public instruction. The criteria must meet all applicable requirements for the receipt of a federal school improvement grant under the American recovery and reinvestment act of 2009 and Title I of the elementary and secondary education act of 1965, and take into account both:

(a) The academic achievement of the "all students" group in a school in terms of proficiency on the state's assessment, and any alternative assessments, in reading and mathematics combined; and

(b) The school's lack of progress on the mathematics and reading assessments over a number of years in the "all students" group.

NEW SECTION. Sec. 103. (1) Beginning in January 2011, the superintendent of public instruction shall annually recommend to the state board of education school districts for designation as required action districts. A district with at least one school identified as a persistently lowest-achieving school shall be designated as a required action district if it meets the criteria developed by the superintendent of public instruction. However, a school district shall not be recommended for designation as a required action district if the district was awarded a federal school improvement grant by the superintendent in 2010 and for three consecutive years following receipt of the grant implemented a federal school intervention model at each school identified for improvement. The state board of education may designate a district that received a school improvement grant in 2010 as a required action district if after three years of voluntarily implementing a plan the district continues to have a school identified as persistently lowest-achieving and meets the criteria for designation established by the superintendent of public instruction.

(2) The superintendent of public instruction shall provide a school district superintendent with written notice of the recommendation for designation as a required action district by certified mail or personal service. A school district superintendent may request reconsideration of the superintendent of public instruction's recommendation. The reconsideration shall be limited to a determination of whether the school district met the criteria for being recommended as a required action district. A request for reconsideration must be in writing and served on the superintendent of public instruction within ten days of service of the notice of the superintendent's recommendation.

(3) The state board of education shall annually designate those districts recommended by the superintendent in subsection (1) of this section as required action districts. A district designated as a required action district shall be required to notify all parents of students attending a school identified as a persistently lowest-achieving school in the district of the state board of education's designation of the district as a required action district and the process for complying with the requirements set forth in sections 104 through 110 of this act.

NEW SECTION. Sec. 104. (1) The superintendent of public instruction shall contract with an external review team to conduct an academic performance audit of the district and each persistently lowest-achieving school in a required action district to identify the potential reasons for the school's low performance and lack of progress. The review team must consist of persons under contract with the superintendent who have expertise in comprehensive school and district reform and may not include staff from the agency, the school district that is the subject of the audit, or members or staff of the state board of education.

(2) The audit must be conducted based on criteria developed by the superintendent of public instruction and must include but not be limited to an examination of the following:

(a) Student demographics;
(b) Mobility patterns;
(c) School feeder patterns;
(d) The performance of different student groups on assessments;
(e) Effective school leadership;
(f) Strategic allocation of resources;
(g) Clear and shared focus on student learning;
(h) High standards and expectations for all students;
(i) High level of collaboration and communication;
(j) Aligned curriculum, instruction, and assessment to state standards;
(k) Frequency of monitoring of learning and teaching;
(l) Focused professional development;
request the public employment relations commission to, and the
commission shall, appoint an employee of the commission to act as a
mediator to assist in the resolution of a dispute between the school
district and the employee organizations. Beginning in 2011, and each
year thereafter, mediation shall commence no later than April 15th.
All mediations held under this section shall include the employer and
representatives of all affected bargaining units.

(c) If the executive director of the public employment relations
commission, upon the recommendation of the assigned mediator,
finds that the employer and any affected bargaining unit are unable to
reach agreement following a reasonable period of negotiations and
mediation, but by no later than May 15th of the year in which
mediation occurred, the executive director shall certify any disputed
issues for a decision by the superior court in the county where the
school district is located. The issues for determination by the superior
court must be limited to the issues certified by the executive director.

(d) The process for filing with the court in this subsection (3)(d)
must be used in the case where the executive director certifies issues
for a decision by the superior court.

(i) The school district shall file a petition with the superior court,
by no later than May 20th of the same year in which the issues were
certified, setting forth the following:

(A) The name, address, and telephone number of the school
district and its principal representative;

(B) The name, address, and telephone number of the employee
organizations and their principal representatives;

(C) A description of the bargaining units involved;

(D) A copy of the unresolved issues certified by the executive
director for a final and binding decision by the court; and

(E) The academic performance audit that the office of the
superintendent of public instruction completed for the school district.

(ii) Within seven days after the filing of the petition, each party
shall file with the court the proposal it is asking the court to order be
implemented in a required action plan for the district for each issue
certified by the executive director. Contemporaneously with the
filing of the proposal, a party must file a brief with the court setting
forth the reasons why the court should order implementation of its
proposal in the final plan.

(iii) Following receipt of the proposals and briefs of the parties,
the court must schedule a date and time for a hearing on the petition.
The hearing must be limited to argument of the parties or their
 counsel regarding the proposals submitted for the court's
consideration. The parties may waive a hearing by written agreement.

(iv) The court must enter an order selecting the proposal for
inclusion in a required action plan that best responds to the issues
raised in the school district's academic performance audit, and allows
for the award of a federal school improvement grant or a grant from
other federal funds for school improvement to the district from the
office of the superintendent of public instruction to implement one of
the four federal intervention models. The court's decision must be
issued no later than June 15th of the year in which the petition is filed
and is final and binding on the parties; however the court's decision is
subject to appeal only in the case where it does not allow the school
district to implement a required action plan consistent with the
requirements for the award of a federal school improvement grant or
other federal funds for school improvement by the superintendent of
public instruction.

(e) Each party shall bear its own costs and attorneys' fees incurred
under this statute.

(f) Any party that proceeds with the process in this section after
knowledge that any provision of this section has not been complied
with and who fails to state its objection in writing is deemed to have
waived its right to object.

(4) All contracts entered into between a school district and an
employee must be consistent with this section and allow school
NEW SECTION. Sec. 106. A required action plan developed by a district’s school board and superintendent must be submitted to the state board of education for approval. The state board must accept for inclusion in any required action plan the final decision by the superior court on any issue certified by the executive director of the public employment relations commission under the process in section 105 of this act. The state board of education shall approve a plan proposed by a school district only if the plan meets the requirements in section 105 of this act and provides sufficient remedies to address the findings in the academic performance audit to improve student achievement. Any addendum or modification to an existing collective bargaining agreement, negotiated under section 105 of this act or by agreement of the district and the exclusive bargaining unit, related to student achievement or school improvement shall not go into effect until approval of a required action plan by the state board of education. If the state board does not approve a proposed plan, it must notify the local school board and local district’s superintendent in writing with an explicit rationale for why the plan was not approved. Nonapproval by the state board of education of the local school district's initial required action plan submitted is not intended to trigger any actions under section 108 of this act. With the assistance of the office of the superintendent of public instruction, the superintendent and school board of the required action district shall either: (a) Submit a new plan to the state board of education for approval within forty days of notification that its plan was rejected, or (b) submit a request to the required action plan review panel established under section 107 of this act for reconsideration of the state board's rejection within ten days of the notification that the plan was rejected. If federal funds are not available, the plan is not required to be implemented until such funding becomes available. If federal funds for this purpose are available, a required action plan must be implemented in the immediate school year following the district's designation as a required action district.

NEW SECTION. Sec. 107. (1) A required action plan review panel shall be established to offer an objective, external review of a request from a school district for reconsideration of the state board of education's rejection of the district's required action plan. The review and reconsideration by the panel shall be based on whether the state board of education gave appropriate consideration to the unique circumstances and characteristics identified in the academic performance audit of the local school district whose required action plan was rejected.

(2)(a) The panel shall be composed of five individuals with expertise in school improvement, school and district restructuring, or parent and community involvement in schools. Two of the panel members shall be appointed by the speaker of the house of representatives; two shall be appointed by the president of the senate; and one shall be appointed by the governor.

(b) The speaker of the house of representatives, president of the senate, and governor shall solicit recommendations for possible panel members from the Washington association of school administrators, the Washington state school directors' association, the association of Washington school principals, the achievement gap oversight and accountability committee, and associations representing certificated teachers, classified school employees, and parents.

(c) Members of the panel shall be appointed no later than December 1, 2010, but the superintendent of public instruction shall convene the panel only as needed to consider a school district's request for reconsideration. Appointments shall be for a four-year term, with opportunity for reappointment. Reappointments in the case of a vacancy shall be made expeditiously so that all requests are considered in a timely manner.

(3) The required action plan review panel may reaffirm the decision of the state board of education, recommend that the state board reconsider the rejection, or recommend changes to the required action plan that should be considered by the district and the state board of education to secure approval of the plan. The state board of education shall consider the recommendations of the panel and issue a decision in writing to the local school district and the panel. If the school district must submit a new required action plan to the state board of education, the district must submit the plan within forty days of the board's decision.

(4) The state board of education and superintendent of public instruction must develop timelines and procedures for the deliberations under this section so that school districts can implement a required action plan within the timeframe required under section 106 of this act.

NEW SECTION. Sec. 108. The state board of education may direct the superintendent of public instruction to require a school district that has not submitted a final required action plan for approval, or has submitted but not received state board of education approval of a required action plan by the beginning of the school year in which the plan is intended to be implemented, to redirect the district's Title I funds based on the academic performance audit findings.

NEW SECTION. Sec. 109. A school district must implement a required action plan upon approval by the state board of education. The office of superintendent of public instruction must provide the required action district with technical assistance and federal school improvement grant funds or other federal funds for school improvement, if available, to implement an approved plan. The district must submit a report to the superintendent of public instruction that provides the progress the district is making in meeting the student achievement goals based on the state's assessments, identifying strategies and assets used to solve audit findings, and establishing evidence of meeting plan implementation benchmarks as set forth in the required action plan.

NEW SECTION. Sec. 110. (1) The superintendent of public instruction must provide a report twice per year to the state board of education regarding the progress made by all school districts designated as required action districts.

(2) The superintendent of public instruction must recommend to the state board of education that a school district be released from the designation as a required action district after the district implements a required action plan for a period of three years; has made progress, as defined by the superintendent of public instruction, in reading and mathematics on the state's assessment over the past three consecutive years; and no longer has a school within the district identified as persistently lowest achieving. The state board shall release a school district from the designation as a required action district upon confirmation that the district has met the requirements for a release.

(3) If the state board of education determines that the required action district has not met the requirements for release, the district remains in required action and must submit a new or revised plan under the process in section 105 of this act.

Sec. 111. RCW 28A.305.225 and 2009 c 548 s 503 are each amended to read as follows:

(1) The state board of education shall continue to refine the development of an accountability framework that creates a unified system of support for challenged schools, that aligns with basic education, increases the level of support based upon the magnitude of need, and uses data for decisions.

(2) The state board of education shall develop an accountability index to identify schools and districts for recognition for continuous improvement, and for additional state support. The index shall be based on criteria that are fair, consistent, and transparent. Performance shall be measured using multiple outcomes and indicators including, but not limited to, graduation rates and results from statewide assessments. The index shall be developed in such a way as to be easily understood by both employees within the schools
and districts, as well as parents and community members. It is the legislature's intent that the index provide feedback to schools and districts to self-assess their progress, and enable the identification of schools with exemplary student performance and those that need assistance to overcome challenges in order to achieve exemplary student performance. 

(1) Once the accountability index has identified schools that need additional help, a more thorough analysis will be done to analyze specific conditions in the district including but not limited to the level of state resources a school or school district receives in support of the basic education system, achievement gaps for different groups of students, and community support.

(2) The state board of education shall seek approval from the United States department of education for use of the accountability index and comprehensive system of voluntary support and assistance for schools and districts. The timeline must take into account and accommodate capacity limitations of the K-12 educational system. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized by the legislature through the omnibus appropriations act or other enacted legislation.

(4)(a) The state board of education shall develop a proposal and implementation timeline for a more formalized comprehensive system improvement targeted to challenged schools and districts that have not demonstrated sufficient improvement through the voluntary system. The timeline must take into account and accommodate capacity limitations of the K-12 educational system. The proposal and timeline shall be submitted to the education committees of the legislature by December 1, 2009, and shall include recommended legislation and recommended resources to implement the system according to the timeline developed.

(b) The proposal shall outline a process for addressing performance challenges that will include the following features: (i) An academic performance audit using peer review teams of educators that considers school and community factors in addition to other factors in developing recommended specific corrective actions that should be undertaken to improve student learning; (ii) a requirement for the local school board plan to develop and be responsible for implementation of corrective action plan taking into account the audit findings, which plan must be approved by the state board of education at which time the plan becomes binding upon the school district to implement; and (iii) monitoring of local district progress by the office of the superintendent of public instruction. The proposal shall take effect only if formally authorized by the legislature through the omnibus appropriations act or other enacted legislation.

(3) Based on the accountability index and in consultation with the superintendent of public instruction, the state board of education shall develop a proposal and timeline for implementation of a comprehensive system of voluntary support and assistance for schools and districts. The timeline must take into account and accommodate capacity limitations of the K-12 educational system. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized by the legislature through the omnibus appropriations act or other enacted legislation.

(4)(a) The state board of education shall develop a proposal and implementation timeline for a more formalized comprehensive system improvement targeted to challenged schools and districts that have not demonstrated sufficient improvement through the voluntary system. The timeline must take into account and accommodate capacity limitations of the K-12 educational system. The proposal and timeline shall be submitted to the education committees of the legislature by December 1, 2009, and shall include recommended legislation and recommended resources to implement the system according to the timeline developed.

(b) The proposal shall outline a process for addressing performance challenges that will include the following features: (i) An academic performance audit using peer review teams of educators that considers school and community factors in addition to other factors in developing recommended specific corrective actions that should be undertaken to improve student learning; (ii) a requirement for the local school board plan to develop and be responsible for implementation of corrective action plan taking into account the audit findings, which plan must be approved by the state board of education at which time the plan becomes binding upon the school district to implement; and (iii) monitoring of local district progress by the office of the superintendent of public instruction. The proposal shall take effect only if formally authorized by the legislature through the omnibus appropriations act or other enacted legislation.

(3) The state board of education, in cooperation with the office of the superintendent of public instruction, shall annually recognize schools for exemplary performance as measured on the state board of education accountability index. The state board of education shall have ongoing collaboration with the achievement gap oversight and accountability committee regarding the measures used to measure the closing of the achievement gaps and the recognition provided to the school districts for closing the achievement gaps.

(4) In coordination with the superintendent of public instruction, the state board of education shall seek approval from the United States department of education for use of the accountability index and the state system of support, assistance, and intervention, to replace the federal accountability system under P.L. 107-110, the no child left behind act of 2001.

(5) The state board of education shall work with the education data center established within the office of financial management and the technical working group established in section 112, chapter 548, Laws of 2009 to determine the feasibility of using the prototypical funding allocation model as not only a tool for allocating resources to schools and districts but also as a tool for schools and districts to report to the state legislature and the state board of education on how the state resources received are being used.

NEW SECTION. Sec. 112. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "All students group" means those students in grades three through eight and high school who take the state's assessment in reading and mathematics required under 20 U.S.C. Sec. 6311(b)(3).

(2) "Title I" means Title I, part A of the federal elementary and secondary education act of 1965 (ESEA) (20 U.S.C. Secs. 6311-6322).

NEW SECTION. Sec. 113. The superintendent of public instruction and the state board of education may each adopt rules in accordance with chapter 34.05 RCW as necessary to implement this chapter.

NEW SECTION. Sec. 114. (1) The legislature finds that a unified and equitable system of education accountability must include expectations and benchmarks for improvement, along with support for schools and districts to make the necessary changes that will lead to success for all students. Such a system must also clearly address the consequences for persistent lack of improvement. Establishing a process for school districts to prepare and implement a required action plan is one such consequence. However, to be truly accountable to students, parents, the community, and taxpayers, the legislature must also consider what should happen if a required action district continues not to make improvement after an extended period of time. Without an answer to this significant question, the state's system of education accountability is incomplete. Furthermore, accountability must be appropriately shared among various levels of decision makers, including in the building, in the district, and at the state.

(2)(a) A joint select committee on education accountability is established beginning no earlier than May 1, 2012, with the following members:

(i) The president of the senate shall appoint two members from each of the two largest caucuses of the senate.

(ii) The speaker of the house of representatives shall appoint two members from each of the two largest caucuses of the house of representatives.

(b) The committee shall choose its cochairs from among its membership.

(3) The committee shall:

(a) Identify and analyze options for a complete system of education accountability, particularly consequences in the case of persistent lack of improvement by a required action district;

(b) Identify and analyze appropriate decision-making responsibilities and accompanying consequences at the building, district, and state level within such an accountability system;

(c) Examine models and experiences in other states;

(d) Identify the circumstances under which significant state action may be required; and

(e) Analyze the financial, legal, and practical considerations that would accompany significant state action.

(4) Staff support for the committee must be provided by the senate committee services and the house of representatives office of program research.

(5) The committee shall submit an interim report to the education committees of the legislature by September 1, 2012, and a final report with recommendations by September 1, 2013.

(6) This section expires June 30, 2014.

PART II EVALUATIONS

Sec. 201. RCW 28A.150.230 and 2006 c 263 s 201 are each amended to read as follows:

(1) It is the intent and purpose of this section to guarantee that each common school district board of directors, whether or not acting through its respective administrative staff, be held accountable for the
proper operation of their district to the local community and its electorate. In accordance with the provisions of Title 28A RCW, as now or hereafter amended, each common school district board of directors shall be vested with the final responsibility for the setting of policies ensuring quality in the content and extent of its educational program and that such program provide students with the opportunity to achieve those skills which are generally recognized as requisite to learning.

(2) In conformance with the provisions of Title 28A RCW, as now or hereafter amended, it shall be the responsibility of each common school district board of directors to adopt policies to:
(a) Establish performance criteria and an evaluation process for its superintendent, classified staff, certificated personnel, including administrative staff, and for all programs constituting a part of such district's curriculum. Each district shall report annually to the superintendent of public instruction the following for each employee group listed in this subsection (2)(a): (i) Evaluation criteria and rubrics; (ii) a description of each rating; and (iii) the number of staff in each rating;
(b) Determine the final assignment of staff, certificated or classified, according to board enumerated classroom and program needs and data, based upon a plan to ensure that the assignment policy: (i) Supports the learning needs of all the students in the district; and (ii) gives specific attention to high-need schools and classrooms;
(c) Provide information to the local community and its electorate describing the school district's policies concerning hiring, assigning, terminating, and evaluating staff, including the criteria for evaluating teachers and principals;
(d) Determine the amount of instructional hours necessary for any student to acquire a quality education in such district, in not less than an amount otherwise required in RCW 28A.150.220, or rules of the state board of education;
(3)(a) Except as provided in subsection (4) of this section, employees means classroom teachers and certificated support personnel.
Sec. 202. RCW 28A.405.100 and 1997 c 278 s 1 are each amended to read as follows:
(1)(a) Except as provided in subsection (2) of this section, the superintendent of public instruction shall establish and may amend from time to time minimum criteria for the evaluation of the professional performance capabilities and development of certificated classroom teachers and certificated support personnel. For classroom teachers the criteria shall be developed in the following categories:

Instructional skill; classroom management, professional preparation and scholarship; effort toward improvement when needed; the handling of student discipline and attendant problems; and interest in teaching pupils and knowledge of subject matter.
(b) Every board of directors shall, in accordance with procedure provided in RCW 41.59.010 through 41.59.170, 41.59.910 and 41.59.920, establish evaluative criteria and procedures for all certificated classroom teachers and certificated support personnel. The evaluative criteria must contain as a minimum the criteria established by the superintendent of public instruction pursuant to this section and must be prepared within six months following adoption of the superintendent of public instruction's minimum criteria. The district must certify to the superintendent of public instruction that evaluative criteria have been so prepared by the district.
(2)(a) Pursuant to the implementation schedule established in subsection (7)(b) of this section, every board of directors shall, in accordance with procedures provided in RCW 41.59.010 through 41.59.170, 41.59.910, and 41.59.920, establish revised evaluative criteria and a four-level rating system for all certificated classroom teachers.

(b) The minimum criteria shall include: (i) Centering instruction on high expectations for student achievement; (ii) demonstrating effective teaching practices; (iii) recognizing individual student learning needs and developing strategies to address those needs; (iv) providing clear and intentional focus on subject matter content and curriculum; (v) fostering and managing a safe, positive learning environment; (vi) using multiple student data elements to modify instruction and improve student learning; (vii) communicating and collaborating with parents and school community; and (viii) exhibiting collaborative and collegial practices focused on improving instructional practice and student learning.
(c) The four-level rating system used to evaluate the certificated classroom teacher must describe performance along a continuum that indicates the extent to which the criteria have been met or exceeded. When student growth data, if available and relevant to the teacher and subject matter, is referenced in the evaluation process it must be based on multiple measures that can include classroom-based, school-based, district-based, and state-based tools. As used in this subsection, "student growth" means the change in student achievement between two points in time.
(3)(a) Except as provided in subsection (((5))) (10) of this section, it shall be the responsibility of a principal or his or her designee to evaluate all certificated personnel in his or her school. During each school year all classroom teachers and certificated support personnel(, hereinafter referred to as "employees" in this section,) shall be observed for the purposes of evaluation at least twice in the performance of their assigned duties. Total observation time for each employee for each school year shall be not less than sixty minutes.
An employee in the third year of provisional status as defined in RCW 28A.405.220 shall be observed at least three times in the performance of his or her duties and the total observation time for the school year shall not be less than ninety minutes. Following each observation, or series of observations, the principal or other evaluator shall promptly document the results of the observation in writing, and shall provide the employee with a copy thereof within three days after such report is prepared. New employees shall be observed at least once for a total observation time of thirty minutes during the first ninety calendar days of their employment period.
(b) As used in this subsection and subsection (4) of this section, "employees" means classroom teachers and certificated support personnel.
(4)(a) At any time after October 15th, an employee whose work is not judged (unsatisfactory) satisfactory based on district evaluation criteria shall be notified in writing of the specific areas of deficiencies along with a reasonable program for improvement. During the period of probation, the employee may not be transferred from the supervision of the original evaluator. Improvement of performance or probable cause for nonrenewal must occur and be documented by the original evaluator before any consideration of a request for transfer or reassignment as contemplated by either the individual or the school district. A probationary period of sixty school days shall be established. The establishment of a probationary period does not adversely affect the contract status of an employee within the meaning of RCW 28A.405.300. The purpose of the probationary period is to give the employee opportunity to demonstrate improvements in his or her areas of deficiency. The establishment of the probationary period and the giving of the notice to the employee of deficiency shall be by the school district superintendent and need not be submitted to the board of directors for approval. During the probationary period the evaluator shall meet with the employee at
Least twice monthly to supervise and make a written evaluation of the progress, if any, made by the employee. The evaluator may authorize one additional certificated employee to evaluate the probationer and to aid the employee in improving his or her areas of deficiency; such additional certificated employee shall be immune from any civil liability that might otherwise be incurred or imposed with regard to the good faith performance of such evaluation. The probationer may be removed from probation if he or she has demonstrated improvement to the satisfaction of the principal in those areas specifically detailed in his or her initial notice of deficiency and subsequently detailed in his or her improvement program. Lack of necessary improvement during the established probationary period, as specifically documented in writing with notification to the probationer and shall constitute grounds for a finding of probable cause under RCW 28A.405.300 or 28A.405.210.

(b) Immediately following the completion of a probationary period that does not produce performance changes detailed in the initial notice of deficiencies and improvement program, the employee may be removed from his or her assignment and placed into an alternative assignment for the remainder of the school year. This reassignment may not displace another employee nor may it adversely affect the probationary employee’s compensation or benefits for the remainder of the employee’s contract year. If such reassignment is not possible, the district may, at its option, place the employee on paid leave for the balance of the contract term.

Every board of directors shall establish evaluative criteria and procedures for all superintendents, principals, and other administrators. It shall be the responsibility of the district superintendent or his or her designee to evaluate all administrators. Except as provided in subsection (6) of this section, such evaluation shall be based on the administrative position job description. Such criteria, when applicable, shall include at least the following categories: Knowledge of, experience in, and training in recognizing good professional performance, capabilities and development; school administration and management; school finance; professional preparation and scholarship; effort toward improvement when needed; interest in pupils, employees, patrons and subjects taught in school; leadership; and ability and performance of evaluation of school personnel.

Pursuant to the implementation schedule established by subsection (7)(b) of this section, every board of directors shall establish revised evaluative criteria and a four-level rating system for principals.

(b) The minimum criteria shall include: (i) Creating a school culture that promotes the ongoing improvement of learning and teaching for students and staff; (ii) demonstrating commitment to closing the achievement gap; (iii) providing for school safety; (iv) leading the development, implementation, and evaluation of a data-driven plan for increasing student achievement, including the use of multiple student data elements; (v) assisting instructional staff with alignment of curriculum, instruction, and assessment with state and local district learning goals; (vi) monitoring, assisting, and evaluating effective instruction and assessment practices; (vii) managing both staff and fiscal resources to support student achievement and legal responsibilities; and (viii) partnering with the school community to promote student learning.

(c) The four-level rating system used to evaluate the principal must describe performance along a continuum that indicates the extent to which the criteria have been met or exceeded. When available, student growth data that is referenced in the evaluation process must be based on multiple measures that can include classroom-based, school-based, district-based, and state-based tools. As used in this subsection, “student growth” means the change in student achievement between two points in time.

(7)(a) The superintendent of public instruction, in collaboration with state associations representing teachers, principals, administrators, and parents, shall create models for implementing the evaluation system criteria, student growth tools, professional development programs, and evaluator training for certificated classroom teachers and principals. Human resources specialists, professional development experts, and assessment experts must also be consulted. Due to the diversity of teaching assignments and the many developmental levels of students, classroom teachers and principals must be prominently represented in this work. The models must be available for use in the 2011-12 school year.

(b) A new certificated classroom teacher evaluation system that implements the provisions of subsection (2) of this section and a new principal evaluation system that implements the provisions of subsection (6) of this section shall be phased-in beginning with the 2010-11 school year by districts identified in (c) of this subsection and implemented in all school districts beginning with the 2013-14 school year.

(c) A set of school districts shall be selected by the superintendent of public instruction to participate in a collaborative process resulting in the development and piloting of new certificated classroom teacher and principal evaluation systems during the 2010-11 and 2011-12 school years. These school districts must be selected based on: (i) The agreement of the local associations representing classroom teachers and principals to collaborate with the district in this developmental work and (ii) the agreement to participate in the full range of development and implementation activities, including: Development of rubrics for the evaluation criteria and ratings in subsections (2) and (6) of this section; identification of or development of appropriate multiple measures of student growth in subsections (2) and (6) of this section; development of appropriate evaluation system forms; participation in professional development for principals and classroom teachers regarding the content of the new evaluation system; participation in evaluator training; and participation in activities to evaluate the effectiveness of the new systems and support programs. The school districts must submit to the office of the superintendent of public instruction data that is used in evaluations and all district-collected student achievement, aptitude, and growth data regardless of whether the data is used in evaluations. If the data is not available electronically, the district may submit it in non-electronic form. The superintendent of public instruction must analyze the districts’ use of student data in evaluations, including examining the extent that student data is not used or is underutilized. The superintendent of public instruction must also consult with participating districts and stakeholders, recommend appropriate changes, and address statewide implementation issues. The superintendent of public instruction shall report evaluation system implementation status, evaluation data, and recommendations to appropriate committees of the legislature and governor by July 1, 2011, and at the conclusion of the development phase by July 1, 2012. In the July 1, 2011 report, the superintendent shall include recommendations for whether a single statewide evaluation model should be adopted, whether modified versions developed by school districts should be subject to state approval, and what the criteria would be for determining if a school district’s evaluation model meets or exceeds a statewide model. The report shall also identify challenges posed by requiring a state approval process.

(8) Each certificated (employee) classroom teacher and certificated support personnel shall have the opportunity for confidential conferences with his or her immediate supervisor on no less than two occasions in each school year. Such confidential conference shall have as its sole purpose the aiding of the administrator in his or her assessment of the employee’s professional performance.

(4)(c) (c) Any failure of any evaluator to evaluate or supervise or cause the evaluation or supervision of certificated (employee) classroom teachers and certificated support personnel or administrators in accordance with this section, as now or hereafter
amended, when it is his or her specific assigned or delegated responsibility to do so, shall be sufficient cause for the nonrenewal of any such evaluator's contract under RCW 28A.405.210, or the discharge of such evaluator under RCW 28A.405.300.

(10) After (an employee) a certificated classroom teacher or certificated support personnel has four years of satisfactory evaluations under subsection (1) of this section or has received one of the two top ratings for four years under subsection (2) of this section, a school district may use a short form of evaluation, a locally bargained evaluation emphasizing professional growth, an evaluation under subsection (1) or (2) of this section, or any combination thereof. The short form of evaluation shall include either a thirty minute observation during the school year with a written summary or a final annual written evaluation based on the criteria in subsection (1) or (2) of this section and based on at least two observation periods during the school year totaling at least sixty minutes without a written summary of such observations being prepared. A locally bargained short-form evaluation emphasizing professional growth must provide that the professional growth activity conducted by the certificated classroom teacher be specifically linked to one or more of the certificated classroom teacher evaluation criteria. However, the evaluation process set forth in subsection (1) or (2) of this section shall be followed at least once every three years unless this time is extended by a local school district under the bargaining process set forth in chapter 41.59 RCW. The employee or evaluator may require that the evaluation process set forth in subsection (1) or (2) of this section be conducted in any given school year. No evaluation other than the evaluation authorized under subsection (1) or (2) of this section may be used as a basis for determining that an employee's work is (unsatisfactory) not satisfactory under subsection (1) or (2) of this section or as probable cause for the nonrenewal of an employee's contract under RCW 28A.405.210 unless an evaluation process developed under chapter 41.59 RCW determines otherwise.

Sec. 203. RCW 28A.405.220 and 2009 c 57 s 2 are each amended to read as follows:

(1) Notwithstanding the provisions of RCW 28A.405.210, every person employed by a school district in a teaching or other nonsupervisory certificated position shall be subject to nonrenewal of employment contract as provided in this section during the first three years of employment by such district, unless: (a) The employee has previously completed at least two years of certificated employment in another school district in the state of Washington, in which case the employee shall be subject to nonrenewal of employment contract pursuant to this section during the first year of employment with the new district; or (b) the school district superintendent may make a determination to remove an employee from provisional status if the employee has received one of the top two evaluation ratings during the second year of employment by the district. Employees as defined in this section shall hereinafter be referred to as "provisional employees." (2) In the event the superintendent of the school district determines that the employment contract of any provisional employee should not be renewed by the district for the next ensuing term such provisional employee shall be notified thereof in writing on or before May 15th preceding the commencement of such school term, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 15th, which notification shall state the reason or reasons for such determination. Such notice shall be served upon the provisional employee personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein. The determination of the superintendent shall be subject to the evaluation requirements of RCW 28A.405.100.

(3) Every such provisional employee so notified, at his or her request made in writing and filed with the superintendent of the district within ten days after receiving such notice, shall be given the opportunity to meet informally with the superintendent for the purpose of requesting the superintendent to reconsider his or her decision. Such meeting shall be held no later than ten days following the receipt of such request, and the provisional employee shall be given written notice of the date, time and place of meeting at least three days prior thereto. At such meeting the provisional employee shall be given the opportunity to refute any facts upon which the superintendent's determination was based and to make any argument in support of his or her request for reconsideration.

(4) Within ten days following the meeting with the provisional employee, the superintendent shall either reinstate the provisional employee or shall submit to the school district board of directors for consideration at its next regular meeting a written report recommending that the employment contract of the provisional employee be nonrenewed and stating the reason or reasons therefor. A copy of such report shall be delivered to the provisional employee at least three days prior to the scheduled meeting of the board of directors. In taking action upon the recommendation of the superintendent, the board of directors shall consider any written communication which the provisional employee may file with the secretary of the board at any time prior to that meeting.

(5) The board of directors shall notify the provisional employee in writing of its final decision within ten days following the meeting at which the superintendent's recommendation was considered. The decision of the board of directors to nonrenew the contract of a provisional employee shall be final and not subject to appeal.

(6) This section applies to any person employed by a school district in a teaching or other nonsupervisory certificated position after June 25, 1976. This section provides the exclusive means for nonrenewing the employment contract of a provisional employee and no other provision of law shall be applicable thereto, including, without limitation, RCW 28A.405.210 and chapter 28A.645 RCW.

NEW SECTION. Sec. 204. A new section is added to chapter 28A.405 RCW to read as follows:

(1) Representatives of the office of the superintendent of public instruction and statewide associations representing administrators, principals, human resources specialists, and certificated classroom teachers shall analyze how the evaluation systems in RCW 28A.405.100 (2) and (6) affect issues related to a change in contract status.

(2) The analysis shall be conducted during each of the phase-in years of the certificated classroom teacher and principal evaluation systems. The analysis shall include: Procedures, timelines, probationary periods, appeal procedures, and other items related to the timely exercise of employment decisions and due process provisions for certificated classroom teachers and principals.

NEW SECTION. Sec. 205. A new section is added to chapter 28A.405 RCW to read as follows:

If funds are provided for professional development activities designed specifically for first through third-year teachers, the funds shall be allocated first to districts participating in the evaluation systems in RCW 28A.405.100 (2) and (6) before the required implementation date under that section.

PART III

PRINCIPAL PERFORMANCE

NEW SECTION. Sec. 301. The legislature finds that the presence of highly effective principals in schools has never been more important than it is today. To enable students to meet high academic standards, principals must lead and encourage teams of teachers and support staff to work together, align curriculum and instruction, use student data to target instruction and intervention strategies, and serve as the chief school officer with parents and the community. Greater responsibility should come with greater authority over personnel, budgets, resource allocation, and programs. But greater responsibility also comes with greater accountability for outcomes. Washington is
putting into place an updated and rigorous system of evaluating principal performance, one that will measure what matters. This system will never be truly effective unless the results are meaningfully used.

NEW SECTION. Sec. 302. A new section is added to chapter 28A.405 RCW to read as follows:

(1) Any certificated employee of a school district under this section who is first employed as a principal after the effective date of this section shall be subject to transfer as provided under this section, at the expiration of the term of his or her employment contract, to any subordinate certificated position within the school district. "Subordinate certificated position" as used in this section means any administrative or nonadministrative certificated position for which the annual compensation is less than the position currently held by the administrator. This section applies only to school districts with an annual average student enrollment of more than thirty-five thousand full-time equivalent students.

(2) During the first three consecutive school years of employment as a principal by the school district, or during the first full school year of such employment in the case of a principal who has been previously employed as a principal by another school district in the state for three or more consecutive school years, the transfer of the principal to a subordinate certificated position may be made by a determination of the superintendent that the best interests of the school district would be served by the transfer.

(3) Commencing with the fourth consecutive school year of employment as a principal, or the second consecutive school year of such employment in the case of a principal who has been previously employed as a principal by another school district in the state for three or more consecutive school years, the transfer of the principal to a subordinate certificated position shall be based on the superintendent's determination that the results of the evaluation of the principal's performance using the evaluative criteria and rating system established under RCW 28A.405.100 provide a valid reason for the transfer without regard to whether there is probable cause for the transfer. If a valid reason is shown, it shall be deemed that the transfer is reasonably related to the principal's performance. No probationary period is required. However, provision of support and an attempt at remediation of the performance of the principal, as defined by the superintendent, are required for a determination by the superintendent under this subsection that the principal should be transferred to a subordinate certificated position.

(4) Any superintendent transferring a principal under this section to a subordinate certificated position shall notify that principal in writing on or before May 15th before the beginning of the school year of that determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 15th. The notification shall state the reason or reasons for the transfer and shall notify the subordinate certificated position to which the principal will be transferred. The notification shall be served upon the principal personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein.

(5) Any principal so notified may request to the president or chair of the board of directors of the district, in writing and within ten days after receiving notice, an opportunity to meet informally with the board of directors in an executive session for the purpose of requesting the board to reconsider the determination of the superintendent, and shall be given such opportunity. The board, upon receipt of such request, shall schedule the meeting for no later than the next regularly scheduled meeting of the board, and shall give the principal written notice at least three days before the meeting of the date, time, and place of the meeting. At the meeting the principal shall be given the opportunity to refute any evidence upon which the determination was based and to make any argument in support of his or her request for reconsideration. The principal and the board may invite their respective legal counsel to be present and to participate at the meeting. The board shall notify the principal in writing of its final decision within ten days following its meeting with the principal. No appeal to the courts shall lie from the final decision of the board of directors to transfer a principal to a subordinate certificated position.

(6) This section provides the exclusive means for transferring a certificated employee first employed by a school district under this section as a principal after the effective date of this section to a subordinate certificated position at the expiration of the term of his or her employment contract.

Sec. 303. RCW 28A.405.210 and 2009 c 57 s 1 are each amended to read as follows:

No teacher, principal, supervisor, superintendent, or other certificated employee, holding a position as such with a school district, hereinafter referred to as "employee", shall be employed except by written order of a majority of the directors of the district at a regular or special meeting thereof, nor unless he or she is the holder of an effective teacher's certificate or other certificate required by law or the Washington professional educator standards board for the position for which the employee is employed.

The board shall make with each employee employed by it a written contract, which shall be in conformity with the laws of this state, and except as otherwise provided by law, limited to a term of not more than one year. Every such contract shall be made in duplicate, one copy to be retained by the school district superintendent or secretary and one copy to be delivered to the employee. No contract shall be offered by any board for the employment of any employee who has previously signed an employment contract for that same term in another school district of the state of Washington unless such employee shall have been released from his or her obligations under such previous contract by the board of directors of the school district to which he or she was obligated. Any contract signed in violation of this provision shall be void.

In the event it is determined that there is probable cause or causes that the employment contract of an employee should not be renewed by the district for the next ensuing term such employee shall be notified in writing on or before May 15th preceding the commencement of such term of that determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 15th, which notification shall specify the cause or causes for nonrenewal of contract. Such determination of probable cause for certificated employees, other than the superintendent, shall be made by the superintendent. Such notice shall be served upon the employee personally, or by certified or registered mail, or by leaving a copy of the notice at the house of his or her usual abode with some person of suitable age and discretion then resident therein. Every such employee so notified, at his or her request made in writing and filed with the president, chair or secretary of the board of directors of the district within ten days after receiving such notice, shall be granted opportunity for hearing pursuant to RCW 28A.405.310 to determine whether there is sufficient cause or causes for nonrenewal of contract: PROVIDED, That any employee receiving notice of nonrenewal of contract due to an enrollment decline or loss of revenue may, in his or her request for a hearing, stipulate that initiation of the arrangements for a hearing officer as provided for by RCW 28A.405.310(4) shall occur within ten days following July 15 rather than the day the employee submits the request for a hearing. If any such notification or opportunity for hearing is not timely given, the employee entitled thereto shall be conclusively presumed to have been reemployed by the district for the next ensuing term upon contractual terms identical with those which would have prevailed if his or her employment had actually been renewed by the board of directors for such ensuing term.
This section shall not be applicable to "provisional employees" as so designated in RCW 28A.405.220; transfer to a subordinate certificated position as that procedure is set forth in RCW 28A.405.230 or section 302 of this act shall not be construed as a nonrenewal of contract for the purposes of this section.

Sec. 304. RCW 28A.405.230 and 2009 c 57 s 3 are each amended to read as follows:

Any certificated employee of a school district employed as an assistant superintendent, director, principal, assistant principal, coordinator, or in any other supervisory or administrative position, hereinafter in this section referred to as "administrator", shall be subject to transfer, at the expiration of the term of his or her employment contract, to any subordinate certificated position within the school district. "Subordinate certificated position" as used in this section, shall mean any administrative or nonadministrative certificated position for which the annual compensation is less than the position currently held by the administrator.

Every superintendent determining that the best interests of the school district would be served by transferring any administrator to a subordinate certificated position shall notify that administrator in writing on or before May 15th preceding the commencement of such school term of that determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 15th, which notification shall state the reason or reasons for the transfer, and shall identify the subordinate certificated position to which the administrator will be transferred. Such notice shall be served upon the administrator personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein.

Every such administrator so notified, at his or her request made in writing and filed with the president or chair, or secretary of the board of directors in an executive session thereof for the purpose of requesting the board to reconsider the decision of the superintendent. Such board, upon receipt of such request, shall schedule the meeting for no later than the next regularly scheduled meeting of the board, and shall notify the administrator in writing of the date, time and place of the meeting at least three days prior thereto. At such meeting the administrator shall be given the opportunity to refute any facts upon which the determination was based and to make any argument in support of his or her request for reconsideration. The administrator and the board may invite their respective legal counsel to be present and to participate at the meeting. The board shall notify the administrator in writing of its final decision within ten days following its meeting with the administrator. No appeal to the courts shall lie from the final decision of the board of directors to transfer an administrator to a subordinate certificated position: PROVIDED, That in the case of principals such transfer shall be made at the expiration of the contract year and only during the first three consecutive school years of employment as a principal by a school district; except that if any such principal has been previously employed as a principal by another school district in the state of Washington for three or more consecutive school years the provisions of this section shall apply only to the first full school year of such employment.

This section applies to any person employed as an administrator by a school district on June 25, 1976, and to all persons so employed at any time thereafter, except that section 302 of this act applies to persons first employed after the effective date of this section as a principal by a school district meeting the criteria of section 302 of this act. This section provides the exclusive means for transferring an administrator subject to this section to a subordinate certificated position at the expiration of the term of his or her employment contract.

Sec. 305. RCW 28A.405.300 and 1990 c 33 s 395 are each amended to read as follows:

In the event it is determined that there is probable cause or causes for a teacher, principal, supervisor, superintendent, or other certificated employee, holding a position as such with the school district, hereinafter referred to as "employee", to be discharged or otherwise adversely affected in his or her contract status, such employee shall be notified in writing of that decision, which notification shall specify the probable cause or causes for such action. Such determinations of probable cause for certificated employees, other than the superintendent, shall be made by the superintendent. Such notices shall be served upon that employee personally, or by certified or registered mail, or by leaving a copy of the notice at the house of his or her usual abode with some person of suitable age and discretion then resident therein. Every such employee so notified, at his or her request made in writing and filed with the president, chair of the board or secretary of the board of directors of the district within ten days after receiving such notice, shall be granted opportunity for a hearing pursuant to RCW 28A.405.310 to determine whether or not there is sufficient cause or causes for his or her discharge or other adverse action against his or her contract status.

In the event any such notice or opportunity for hearing is not timely given, or in the event cause for discharge or other adverse action is not established by a preponderance of the evidence at the hearing, such employee shall not be discharged or otherwise adversely affected in his or her contract status for the causes stated in the original notice for the duration of his or her contract.

If such employee does not request a hearing as provided herein, such employee may be discharged or otherwise adversely affected as provided in the notice served upon the employee.

Transfer to a subordinate certificated position as that procedure is set forth in RCW 28A.405.230 or section 302 of this act shall not be construed as a discharge or other adverse action against contract status for the purposes of this section.

PART IV

(3) Candidates for residency certification who are required to successfully complete the assessment under this section, and who are charged a fee for the assessment by a third party contracted with under this section, shall pay the fee charged by the contractor directly to the contractor. Such fees shall be reasonably related to the actual costs of the contractor in providing the assessment.

NEW SECTION. Sec. 502. A new section is added to chapter 28A.410 RCW to read as follows:

(1) By September 30, 2010, the professional educator standards board shall review and revise teacher and administrator preparation program approval standards and proposal review procedures at the residency certificate level to ensure they are rigorous and appropriate standards for an expanded range of potential providers, including community college and nonhigher education providers. All approved providers must adhere to the same standards and comply with the same requirements.

The plan may include the following components:

(i) A minimum of one-half of a school year, and an additional significant amount of time if necessary, of intensive mentorship
during field experience, starting with full-time mentoring and progressing to increasingly less intensive monitoring and assistance as the intern demonstrates the skills necessary to take over the classroom with less intensive support. (For route one and two candidates.)

Before the supervision is diminished, the mentor of the teacher candidate at the school and the supervisor of the teacher candidate from the (higher education) teacher preparation program must both agree that the teacher candidate is ready to manage the classroom with less intensive supervision. (2) (3) To the extent funds are appropriated for this purpose, (districts) alternative route programs may apply for program funds to pay stipends to trained mentor teachers of interns during the mentored internship. (For route three and four candidates, the mentor of the teacher candidate shall make the determination that the candidate has successfully completed the program.)

Sec. 505. RCW 28A.660.050 and 2009 c 539 s 3 and 2009 c 192 s 2 are each reenacted and amended to read as follows:

Subject to the availability of amounts appropriated for these purposes, the conditional scholarship programs in this chapter are created under the following guidelines:

(1) The programs shall be administered by the higher education coordinating board. In administering the programs, the higher education coordinating board has the following powers and duties:

(c) To accept grants and donations from public and private sources for the programs.

(2) Requirements for participation in the conditional scholarship programs are as provided in this subsection (2).

(a) The alternative route conditional scholarship program is limited to interns of (the partnership grant) professional educator standards board-approved alternative routes to teaching programs under RCW 28A.660.040. For fiscal year 2011, priority must be given to fiscal year 2010 participants in the alternative route partnership program. In order to receive conditional scholarship awards, recipients shall:

(ii) Continue to make satisfactory progress toward completion of the alternative route certification program and receipt of a residency teaching certificate; and

(iii) Receive no more than the annual amount of the scholarship, not to exceed four thousand dollars, for the cost of tuition, fees, and educational expenses, including books, supplies, and transportation for the alternative route certification program in which the recipient is enrolled. The board may adjust the annual award by the average rate of tuition and fee increases at the state community and technical colleges.

(b) The pipeline for paraeducators conditional scholarship program is limited to qualified paraeducators as provided by RCW 28A.660.042. In order to receive conditional scholarship awards, recipients shall:

(i) Be accepted and maintain enrollment at a community and technical college for no more than two years and attain an associate of arts degree;

(ii) Continue to make satisfactory progress toward completion of an associate of arts degree. This progress requirement is a condition for eligibility in a route one program of the alternative routes to teacher certification program for a mathematics, special education, or English as a second language endorsement; and

(iii) Receive no more than the annual amount of the scholarship, not to exceed four thousand dollars, for the cost of tuition, fees, and educational expenses, including books, supplies, and transportation for the alternative route certification program in which the recipient is enrolled. The board may adjust the annual award by the average rate of tuition and fee increases at the state community and technical colleges.

(c) The retooling to teach mathematics and science conditional scholarship program is limited to current K-12 teachers ((and individuals having an elementary education certificate who but not employed in positions requiring an elementary education certificate)) shall pursue an endorsement in middle level mathematics or science, or both; and

(iii) Individuals shall use one of the pathways to endorsement processes to receive a mathematics or science endorsement, or both, which shall include passing a mathematics or science endorsement test, or both tests, plus observation and completing applicable coursework to attain the proper endorsement; and

(iv) Individuals shall receive no more than the annual amount of the scholarship, not to exceed three thousand dollars, for the cost of tuition, test fees, and educational expenses, including books, supplies, and transportation for the endorsement pathway being pursued.

(3) The Washington professional educator standards board shall select individuals to receive conditional scholarships. In selecting recipients, preference shall be given to eligible veterans or national guard members.

(4) For the purpose of this chapter, a conditional scholarship is a loan that is forgiven in whole or in part in exchange for service as a certificated teacher employed in a Washington state K-12 public school. The state shall forgive one year of loan obligation for every two years a recipient teaches in a public school. Recipients who fail to continue a course of study leading to residency teacher certification or cease to teach in a public school in the state of Washington in their endorsement area are required to repay the remaining loan principal with interest.

(5) Recipients who fail to fulfill the required teaching obligation are required to repay the remaining loan principal with interest and any other applicable fees. The higher education coordinating board shall adopt rules to define the terms for repayment, including applicable interest rates, fees, and deferrals.

(6) The higher education coordinating board may deposit all appropriations, collections, and any other funds received for the program in this chapter in the future teachers conditional scholarship account authorized in RCW 28B.102.080.

NEW SECTION. Sec. 506. A new section is added to chapter 28A.410 RCW to read as follows:

Beginning with the 2010 school year and annually thereafter, each educational service district, in cooperation with the professional educator standards board, must convene representatives from school districts within that region and professional educator standards board-approved educator preparation programs to review district and regional educator workforce data, make biennial projections of certificate staffing needs, and identify how recruitment and enrollment plans in educator preparation programs reflect projected need.

Sec. 507. RCW 28B.76.335 and 2007 c 396 s 17 are each amended to read as follows:

As part of the state needs assessment process conducted by the board in accordance with RCW 28B.76.230, the board shall, in
collaboration with the professional educator standards board, assess
the need for additional (baccalaureate) degree and certificate
programs in Washington that specialize in teacher preparation
(mathematics, science, and technology) to meet regional or subject
area shortages. If the board determines that there is a need for
additional programs, then the board shall encourage the appropriate
institutions of higher education or institutional sectors to create such a
program.

NEW SECTION. Sec. 508. A new section is added to chapter
28B.76 RCW to read as follows:

(1) The board must establish boundaries for service regions for
institutions of higher education as defined in RCW 28B.10.016
implementing professional educator standards board-approved
educator preparation programs. Regions shall be established to
encourage and support, not exclude, the reach of public institutions of
higher education across the state.

(2) Based on the data in the assessment in RCW 28B.76.230 and
28B.76.335, the board shall determine whether reasonable teacher
preparation program access for prospective teachers is available in
each region. If access is determined to be inadequate in a region, the
institution of higher education responsible for the region shall submit
a plan for meeting the access need to the board.

(3) Partnerships with other teacher preparation program providers
and the use of appropriate technology shall be considered. The board
shall review the plan and, as appropriate, assist the institution in
developing support and resources for implementing the plan.

NEW SECTION. Sec. 509. In conjunction with the regional
needs assessments in sections 506 through 508 of this act, the council of
presidents shall convene an interinstitutional work group to
implement the plans developed under section 601, chapter 564, Laws
of 2009 to increase the number of mathematics and science teacher
dorsements and certificates. The work group must collaborate in
evaluating regional needs and identifying strategies to meet those
needs. The council of presidents shall report to the education and
higher education committees of the legislature on demonstrated
progress toward achieving outcomes identified in the plans no later
than December 31, 2011.

COMMON CORE STANDARDS

NEW SECTION. Sec. 601. A new section is added to chapter
28A.655 RCW to read as follows:

(1) By August 2, 2010, the superintendent of public instruction
may revise the state essential academic learning requirements
authorized under RCW 28A.655.070 for mathematics, reading,
writing, and communication by provisionally adopting a common set
of standards for students in grades kindergarten through twelve. The
educational decisions. As data from the assessments in RCW 28A.655.060 becomes available, the annual performance report should enable parents, educators, and school board members to determine whether students in the district's schools are attaining mastery of the student learning goals under RCW 28A.150.210, and other important facts about the schools' performance in assisting students to learn. The annual report shall make comparisons to a school's performance in preceding years ((shall include school level goals under RCW 28A.655.050)), student performance relative to the goals and the percentage of students performing at each level of the assessment, a comparison of student performance at each level of the assessment to the previous year's performance, and information regarding school-level plans to achieve the goals.

(2) The annual performance report shall include, but not be limited to: (a) A brief statement of the mission of the school and the school district; (b) enrollment statistics including student demographics; (c) expenditures per pupil for the school year; (d) a summary of student scores on all mandated tests; (e) a concise annual budget report; (f) student attendance, graduation, and dropout rates; (g) information regarding the use and condition of the school building or buildings; (h) a brief description of the learning improvement plans for the school; (i) a summary of the feedback from parents and community members obtained under section 702 of this act; and (((i))) (j) an invitation to all parents and citizens to participate in school activities.

(3) The superintendent of public instruction shall develop by June 30, 1994, and update periodically, a model report form, which shall also be adapted for computers, that schools may use to meet the requirements of subsections (1) and (2) of this section. In order to make school performance reports broadly accessible to the public, the superintendent of public instruction, to the extent feasible, shall make information on each school's report available on or through the superintendent's internet web site.

NEW SECTION. Sec. 704. A new section is added to chapter 28A.300 RCW to read as follows:

There is a sizeable body of research positively supporting the involvement of parents taking an engaged and active role in their child's education. Therefore, the legislature intends to provide state recognition by the center for the improvement of student learning within the office of the superintendent of public instruction for schools that increase the level of direct parental involvement with their child's education. By September 1, 2010, the center for the improvement of student learning shall determine measures that can be used to evaluate the level of parental involvement in a school. The center for the improvement of student learning shall collaborate with school district family and community outreach programs and educational service districts to identify and highlight successful models and practices of parent involvement.

PART VIII
COLLECTIVE BARGAINING

Sec. 801. RCW 41.56.100 and 1989 c 45 s 1 are each amended to read as follows:

(1) A public employer shall have the authority to engage in collective bargaining with the exclusive bargaining representative and no public employer shall refuse to engage in collective bargaining with the exclusive bargaining representative. (PROVIDED, That nothing contained herein shall require any)). However, a public employer is not required to bargain collectively with any bargaining representative concerning any matter which by ordinance, resolution, or charter of said public employer has been delegated to any civil service commission or personnel board similar in scope, structure, and authority to the board created by chapter 41.06 RCW.

(2) Upon the failure of the public employer and the exclusive bargaining representative to conclude a collective bargaining agreement, any matter in dispute may be submitted by either party to the commission. This subsection does not apply to negotiations and mediations conducted between a school district employer and an exclusive bargaining representative under section 105 of this act.

(3) If a public employer implements its last and best offer where there is no contract settlement, allegations that either party is violating the terms of the implemented offer shall be subject to grievance arbitration procedures if and as such procedures are set forth in the implemented offer, or, if not in the implemented offer, if and as such procedures are set forth in the parties' last contract.

NEW SECTION. Sec. 802. A new section is added to chapter 41.56 RCW to read as follows:

All collective bargaining agreements entered into between a school district employer and school district employees under this chapter after the effective date of this section, as well as bargaining agreements existing on the effective date of this section but renewed or extended after the effective date of this section, shall be consistent with section 105 of this act.

NEW SECTION. Sec. 803. A new section is added to chapter 41.59 RCW to read as follows:

All collective bargaining agreements entered into between a school district employer and school district employees under this chapter after the effective date of this section, as well as bargaining agreements existing on the effective date of this section but renewed or extended after the effective date of this section, shall be consistent with section 105 of this act.

Sec. 804. RCW 41.59.120 and 1975 1st ex.s. c 288 s 13 are each amended to read as follows:

(1) Either an employer or an exclusive bargaining representative may declare that an impasse has been reached between them in collective bargaining and may request the commission to appoint a mediator for the purpose of assisting them in reconciling their differences and resolving the controversy on terms which are mutually acceptable. If the commission determines that its assistance is needed, not later than five days after the receipt of a request therefor, it shall appoint a mediator in accordance with rules and regulations for such appointment prescribed by the commission. The mediator shall meet with the parties or their representatives, or both, forthwith, either jointly or separately, and shall take such other steps as he may deem appropriate in order to persuade the parties to resolve their differences and effect a mutually acceptable agreement. The mediator, without the consent of both parties, shall not make findings of fact or recommend terms of settlement. The services of the mediator, including, if any, per diem expenses, shall be provided by the commission without cost to the parties. Nothing in this subsection (1) shall be construed to prevent the parties from mutually agreeing upon their own mediation procedure, and in the event of such agreement, the commission shall not appoint its own mediator unless failure to do so would be inconsistent with the effectuation of the purposes and policy of this chapter.

(2) If the mediator is unable to effect settlement of the controversy within ten days after his or her appointment, either party, by written notification to the other, may request that their differences be submitted to fact-finding with recommendations, except that the time for mediation may be extended by mutual agreement between the parties. Within five days after receipt of the aforesaid written request for fact-finding, the parties shall select a person to serve as fact finder and obtain a commitment from that person to serve. If they are unable to agree upon a fact finder or to obtain such a commitment within that time, either party may request the commission to designate a fact finder. The commission, within five days after receipt of such request, shall designate a fact finder in accordance with rules and regulations for such designation prescribed by the commission. The fact finder so designated shall not be the same person who was appointed mediator pursuant to subsection (1) of this section without the consent of both parties.
The fact finder, within five days after his appointment, shall meet with the parties or their representatives, or both, either jointly or separately, and make inquiries and investigations, hold hearings, and take such other steps as he may deem appropriate. For the purpose of such hearings, investigations and inquiries, the fact finder shall have the power to issue subpoenas requiring the attendance and testimony of witnesses and the production of evidence. If the dispute is not settled within ten days after his appointment, the fact finder shall make findings of fact and recommend terms of settlement within thirty days after his appointment, which recommendations shall be advisory only.

(3) Such recommendations, together with the findings of fact, shall be submitted in writing to the parties and the commission privately before they are made public. Either the commission, the fact finder, the employer, or the exclusive bargaining representative may make such findings and recommendations public if the dispute is not settled within five days after their receipt from the fact finder.

(4) The costs for the services of the fact finder, including, if any, per diem expenses and actual and necessary travel and subsistence expenses, and any other incurred costs, shall be borne by the commission without cost to the parties.

(5) Nothing in this section shall be construed to prohibit an employer and an exclusive bargaining representative from agreeing to substitute, at their own expense, their own procedure for resolving impasses in collective bargaining for that provided in this section or from agreeing to utilize for the purposes of this section any other governmental or other agency or person in lieu of the commission.

(6) Any fact finder designated by an employer and an exclusive representative or the commission for the purposes of this section shall be deemed an agent of the state.

(7) This section does not apply to negotiations and mediations conducted under section 105 of this act.

PART IX

MESSAGE FROM THE SENATE

March 11, 2010

Mr. Speaker:

The Senate receded from its amendments to SUBSTITUTE HOUSE BILL NO. 2776 and under suspension of the rules returned SUBSTITUTE HOUSE BILL NO. 2776 to second reading for purpose of amendment. The Senate adopted the following amendment and passed SUBSTITUTE HOUSE BILL NO. 2776 as amended by the Senate:
Format changed to accommodate amendment.
NEW SECTION.  Sec. 1. (1) It is the legislature's intent to continue implementation of chapter 548, Laws of 2009, by adopting the technical details of a new distribution formula for the instructional program of basic education and authorizing a phase-in of implementation of a new distribution formula for pupil transportation, both to take effect during the 2011-2013 biennium. Unless otherwise stated, the numeric values adopted in section 2 of this act represent the translation of 2009-2010 state funding levels for the basic education act into the funding factors of the prototypical school funding formula, based on the expert advice and extensive work of the funding formula technical working group established by the legislature for this purpose. The legislature intends to continue to review and revise the formulas and may make revisions as necessary for technical purposes and consistency in the event of mathematical or other technical errors.

(2) The legislature intends that per-pupil basic education funding for a school district shall not be decreased as a result of the transition of basic education funding formulas in effect during the 2009-2011 biennium to the new funding formulas under RCW 28A.150.260 that take effect during the 2011-2013 biennium.

(3) It is also the legislature's intent to begin phasing-in enhancements to the baseline funding levels of 2009-10 in the 2011-2013 biennium for pupil transportation, class size allocations for grades kindergarten through three, full-day kindergarten, and allocations for maintenance, supplies, and operating costs.

(4) Finally, it is the legislature's intent to adjust the timelines for other working groups so that their expertise and advice can be received as soon as possible and to make technical adjustments to certain provisions of chapter 548, Laws of 2009.

Sec. 2. RCW 28A.150.260 and 2009 c 548 s 106 are each amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2) The distribution formula under this section shall be for allocation purposes only. Except as may be required under chapter 28A.155, 28A.165, 28A.180, or (28A.155) 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

(3)(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) For the purposes of this section, prototypical schools are defined as follows:

(i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;

(ii) A prototypical middle school has four hundred thirty-two average annual full-time equivalent students in grades seven and eight; and

(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

(4)(a) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on (i) the following general education average class size (as specified in the omnibus appropriations act) of full-time equivalent students per teacher:

<table>
<thead>
<tr>
<th>Grade Level</th>
<th>Average Class Size</th>
</tr>
</thead>
<tbody>
<tr>
<td>K-3</td>
<td>25.23</td>
</tr>
<tr>
<td>4</td>
<td>27.00</td>
</tr>
<tr>
<td>5-6</td>
<td>27.00</td>
</tr>
<tr>
<td>7-8</td>
<td>28.53</td>
</tr>
<tr>
<td>9-12</td>
<td>28.74</td>
</tr>
</tbody>
</table>

(b) During the 2011-2013 biennium and beginning with schools with the highest percentage of students eligible for free and reduced-price meals in the prior school year, the general education average class size for grades K-3 shall be reduced until the average class size funded under this subsection (4) is no more than 17.0 full-time equivalent students per teacher beginning in the 2017-18 school year.

(c) The minimum allocation for each prototypical middle and high school shall also provide for full-time equivalent classroom teachers based on the following number of full-time equivalent students per teacher in career and technical education:

<table>
<thead>
<tr>
<th>Skill Center Requirement</th>
<th>Average Class Size</th>
</tr>
</thead>
<tbody>
<tr>
<td>Approved career and technical education offered at the middle school and high school level</td>
<td>26.57</td>
</tr>
<tr>
<td>Skill center programs meeting the standards established by the office of the superintendent of public instruction</td>
<td>22.76</td>
</tr>
</tbody>
</table>
(d) In addition, the omnibus appropriations act shall at a minimum specify:

(i) (Basic average class size;

(ii) Basic) A high-poverty average class size in schools where more than fifty percent of the students are eligible for free and reduced-price meals; and

(iii) (A specialty average class size for exploratory and preparatory career and technical education) laboratory science, advanced placement, and international baccalaureate courses;

(iv) Average class size in grades kindergarten through three.

((i)) (5) The minimum allocation for each level of prototypical school shall include allocations for the following types of staff in addition to classroom teachers:

(i) Principals, including assistant principals, and other certificated building-level administrators;

(ii) Teacher librarians, performing functions including information literacy, technology, and media to support school library media programs;

(iii) Student health services, a function that includes school nurses, whether certificated instructional or classified employee, and social workers;

(iv) Guidance counselors, performing functions including parent outreach and graduation advisor;

(v) Professional development coaches;

(vi) Teaching assistance, which includes any aspect of educational instructional services provided by classified employees;

(vii) Office support, technology support, and other noninstructional aides;

(viii) Custodians, warehouse, maintenance, laborer, and professional and technical education support employees; and

   (b) A district's annual average full-time equivalent basic education enrollment, multiplied by the district's funded enrollment percent, multiplied by the district's base allocation per full-time equivalent student, multiplied by 0.9309.

3. As used in this section:
   
   (a) "Base allocation" means the total state allocation to all schools in the district generated by the distribution formula under RCW 28A.150.260 ((2)(d), (e)(i), and (d), (4), and (8)(i)) (4)(a) and (b), (5), (6), and (8).

Sec. 4. RCW 28A.150.315 and 2009 c 548 s 107 are each amended to read as follows:

1. Beginning with the 2007-08 school year, funding for voluntary all-day kindergarten programs shall be phased-in beginning with schools with the highest poverty levels, defined as those schools with the highest percentages of students qualifying for free and reduced-price lunch support in the prior school year. During the 2011-2013 biennium, funding shall continue to be phased-in each year until full statewide implementation of all-day kindergarten is achieved in the 2017-18 school year. Once a school receives funding for the all-day kindergarten program, that school shall remain eligible for funding in subsequent school years regardless of changes in the school's percentage of students eligible for free and reduced-price lunches as long as other program requirements are fulfilled. Additionally, schools receiving all-day kindergarten program support shall agree to the following conditions:
   
   (a) Provide at least a one thousand-hour instructional program;
   
   (b) Provide a curriculum that offers a rich, varied set of experiences that assist students in:
      
      (i) Developing initial skills in the academic areas of reading, mathematics, and writing;
      
      (ii) Developing a variety of communication skills;

   (c) Establish learning environments that are developmentally appropriate and promote creativity;
   
   (d) Demonstrate strong connections and communication with early learning community providers; and
   
   (e) Participate in kindergarten program readiness activities with early learning providers and parents.

2. Subject to funds appropriated for this purpose, the superintendent of public instruction shall designate one or more school districts to serve as resources and examples of best practices in designing and operating a high-quality all-day kindergarten program. Designated school districts shall serve as lighthouse programs and provide technical assistance to other school districts in the initial stages of implementing an all-day kindergarten program. Examples of topics addressed by the technical assistance include strategic planning, developing the instructional program and curriculum, working with early learning providers to identify students and communicate with parents, and developing kindergarten program readiness activities.

Sec. 5. 2009 c 548 s 112 (uncodified) is amended to read as follows:

1. The legislature intends to continue to redefine the instructional program of education under RCW 28A.150.220 that fulfills the obligations and requirements of Article IX of the state Constitution. The funding formulas under RCW 28A.150.260 to support the instructional program shall be implemented to the extent the technical details of the formula have been established and according to an implementation schedule to be adopted by the legislature. The object of the schedule is to assure that any increases in funding allocations are timely, predictable, and occur concurrently with any increases in program or instructional requirements. It is the intent of the legislature that no increased programmatic or instructional expectations be imposed upon schools or school districts without an accompanying increase in resources as necessary to support those increased expectations.
(2) The office of financial management, with assistance and support from the office of the superintendent of public instruction, shall convene a technical working group to:

(a) Develop the details of the funding formulas under RCW 28A.150.260;

(b) Recommend to the legislature an implementation schedule for phasing-in any increased program or instructional requirements concurrently with increases in funding for adoption by the legislature; and

(c) Examine possible sources of revenue to support increases in funding allocations and present options to the legislature and the quality education council created in (section 114 of this act) RCW 28A.290.010 for consideration.

(3) The working group shall include representatives of the legislative evaluation and accountability program committee, school district and educational service district financial managers, the Washington association of school business officers, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors’ association, the public school employees of Washington, and other interested stakeholders with expertise in education finance. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(4) The working group shall be monitored and overseen by the legislature and the quality education council established in (section 114 of this act) RCW 28A.290.010. The working group shall submit its recommendations to the legislature by December 1, 2009.

(5) After the 2009 report to the legislature, the office of financial management and the office of the superintendent of public instruction shall periodically reconvene the working group to monitor and provide advice on further development and implementation of the funding formulas under RCW 28A.150.260 and provide technical assistance to the ongoing work of the quality education council.

Sec. 6. 2009 c 548 s 302 (uncodified) is amended to read as follows:

(1) Beginning (July 1, 2011), the office of financial management, with assistance and support from the office of the superintendent of public instruction, shall convene a technical working group to develop options for a new system of supplemental school funding through local school levies and local effort assistance.

(2) The working group shall consider the impact on overall school district revenues of the new basic education funding system established under (this act) chapter 548, Laws of 2009 and shall recommend a phase-in plan that ensures that no school district suffers a decrease in funding from one school year to the next due to implementation of the new system of supplemental funding.

(3) The working group shall also:

(a) Examine local school district capacity to address facility needs associated with phasing-in full-day kindergarten across the state and reducing class size in kindergarten through third grade; and

(b) Provide the quality education council with analysis on the potential use of local funds that may become available for redeployment and redirection as a result of increased state funding allocations for pupil transportation and maintenance, supplies, and operating costs.

(4) The working group shall be composed of representatives from the department of revenue, the legislative evaluation and accountability program committee, school district and educational service district financial managers, and representatives of the Washington association of school business officers, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors’ association, the public school employees of Washington, and other interested stakeholders with expertise in education finance. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

Sec. 7. RCW 43.41.398 and 2009 c 548 s 601 are each amended to read as follows:

(1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of the superintendent of public instruction, in collaboration with the office of financial management, shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

(a) How to reduce the number of tiers within the existing salary allocation model;

(b) How to account for labor market adjustments;

(c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;

(d) The role of and types of bonuses available;

(e) Ways to accomplish salary equalization over a set number of years; and

(f) Initial fiscal estimates for implementing the recommendations including a recognition that staff on the existing salary allocation model would have the option to grandfather in permanently to the existing schedule.

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, “salaries and other compensation” includes average base salaries, average total salaries, average employee basic benefits, and retirement benefits.

(4) The analysis required under subsection (1) of this section must:

(a) Examine salaries and other compensation for teachers, other certificated instructional staff, principals, and other building-level certificated administrators, and the types of classified employees for whom salaries are allocated;

(b) Be calculated at a statewide level that identifies labor markets in Washington through the use of data from the United States bureau of the census and the bureau of labor statistics; and
(c) Include a comparison of salaries and other compensation to the appropriate labor market for at least the following subgroups of educators: Beginning teachers and types of educational staff associates.

(5) The working group shall include representatives of the department of personnel, the professional educator standards board, the office of the superintendent of public instruction, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors’ association, the public school employees of Washington, and other interested stakeholders with appropriate expertise in compensation related matters. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(6) The working group shall be monitored and overseen by the legislature and the quality education council created in RCW 28A.290.010. The working group shall make an initial report to the legislature by (December 31, 2012, and shall include in its report recommendations for whether additional further work of the group is necessary.

Sec. 8. RCW 28A.160.192 and 2009 c 548 s 311 are each amended to read as follows:

(1) The superintendent of public instruction shall phase-in the implementation of the distribution formula under this chapter for allocating state funds to school districts for the transportation of students to and from school. The phase-in shall (be according to the implementation schedule adopted by the legislature and shall)) begin no later than the ((2013-14 school year)) 2011-2013 biennium and be fully implemented by the 2013-2015 biennium.

   (a) The formula must be developed and revised on an ongoing basis using the major cost factors in student transportation, including basic and special student loads, school district land area, average distance to school, roadway miles, and number of locations served. Factors must include all those site characteristics that are statistically significant after analysis of the data required by the revised reporting process.

   (b) The formula must allocate funds to school districts based on the average predicted costs of transporting students to and from school, using a regression analysis.

   (2) During the phase-in period, funding provided to school districts for student transportation operations shall be distributed on the following basis:

      (a) Annually, each school district shall receive the lesser of the previous school year’s pupil transportation operations allocation, or the total of allowable pupil transportation expenditures identified on the previous school year’s final expenditure report to the state plus district indirect expenses using the state recovery rate identified by the superintendent; and

      (b) Annually, any funds appropriated by the legislature in excess of the maintenance level funding amount for student transportation shall be distributed among school districts on a prorated basis using the difference between the amount identified in (a) of this subsection and the amount determined under the formula in RCW 28A.160.180.

   (((3) The superintendent shall develop, implement, and provide a copy of the rules specifying the student transportation reporting requirements to the legislature and school districts no later than December 1, 2009.

   (4) Beginning in December 2009, and continuing until December 2014, the superintendent shall provide quarterly updates and progress reports to the fiscal committees of the legislature on the implementation and testing of the distribution formula.))

NEW SECTION. Sec. 9. A new section is added to chapter 28A.160 RCW to read as follows:

(1) The superintendent of public instruction shall develop, implement, and provide a copy of the rules specifying the student transportation reporting requirements to the legislature and school districts no later than December 1, 2010.

(2) Beginning in December 2010, and continuing until December 2014, the superintendent shall provide quarterly updates and progress reports to the fiscal committees of the legislature on the implementation and testing of the distribution formula.

(3) This section expires June 30, 2015.

Sec. 10. RCW 28A.150.410 and 2007 c 403 s 1 are each amended to read as follows:

(1) The legislature shall establish for each school year in the appropriations act a statewide salary allocation schedule, for allocation purposes only, to be used to distribute funds for basic education certificated instructional staff salaries under RCW 28A.150.260. For the purposes of this section, the staff allocations for classroom teachers, teacher librarians, guidance counselors, and student health services staff under RCW 28A.150.260 are considered allocations for certificated instructional staff.

(2) Salary allocations for state-funded basic education certificated instructional staff shall be calculated by the superintendent of public instruction by determining the district’s average salary for certificated instructional staff, using the statewide salary allocation schedule and related documents, conditions, and limitations established by the omnibus appropriations act.

(3) Beginning January 1, 1992, no more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in the omnibus appropriations act, or any replacement schedules and documents, unless:

   (a) The employee has a master’s degree; or

   (b) The credits were used in generating state salary allocations before January 1, 1992.

(4) Beginning in the 2007-08 school year, the calculation of years of service for occupational therapists, physical therapists, speech-language pathologists, audiologists, nurses, social workers, counselors, and psychologists regulated under Title 18 RCW may include experience in schools and other nonschool positions as occupational therapists, physical therapists, speech-language pathologists, audiologists, nurses, social workers, counselors, or psychologists. The calculation shall be that one year of service in a nonschool position counts as one year of service for purposes of this chapter, up to a limit of two years of nonschool service. Nonschool years of service included in calculations under this subsection shall not be applied to service credit totals for purposes of any retirement benefit under chapter 41.32, 41.35, or 41.40 RCW, or any other state retirement system benefits.

Sec. 11. RCW 28A.175.010 and 2005 c 207 s 3 are each amended to read as follows:

Each school district shall account for the educational progress of each of its students. To achieve this, school districts shall be required to report annually to the superintendent of public instruction:

(1) For students enrolled in each of a school district’s high school programs:

   (a) The number of students who graduate in fewer than four years;

   (b) The number of students who graduate in four years;

   (c) The number of students who remain in school for more than four years but who eventually graduate and the number of students who remain in school for more than four years but do not graduate;
(d) The number of students who transfer to other schools;
(e) The number of students in the ninth through twelfth grade who drop out of school over a four-year period; and
(f) The number of students whose status is unknown.
(2) Dropout rates of students in each of the grades seven through twelve.
(3) Dropout rates for student populations in each of the grades seven through twelve by:
   (a) Ethnicity;
   (b) Gender;
   (c) Socioeconomic status; and
   (d) Disability status.
(4) The causes or reasons, or both, attributed to students for having dropped out of school in grades seven through twelve.
(5) The superintendent of public instruction shall adopt rules under chapter 34.05 RCW to assure uniformity in the information districts are required to report under subsections (1) through (4) of this section. In developing rules, the superintendent of public instruction shall consult with school districts, including administrative and counseling personnel, with regard to the methods through which information is to be collected and reported. 
(6) In reporting on the causes or reasons, or both, attributed to students for having dropped out of school, school building officials shall, to the extent reasonably practical, obtain such information directly from students. In lieu of obtaining such information directly from students, building principals and counselors shall identify the causes or reasons, or both, based on their professional judgment.
(7) The superintendent of public instruction shall report annually to the legislature the information collected under subsections (1) through (4) of this section.
(8) The Washington state institute for public policy shall calculate an annual estimate of the savings to taxpayers resulting from any improvement compared to the prior school year in the extended graduation rate, as calculated by the superintendent of public instruction. The superintendent shall include the estimate from the institute in an appendix of the report required under subsection (7) of this section, beginning with the 2010 report.

NEW SECTION. Sec. 12. A new section is added to chapter 28A.300 RCW to read as follows:
The office of the superintendent of public instruction shall implement and maintain an internet-based portal that provides ready public access to the state's prototypical school funding model for basic education under RCW 28A.150.260. The portal must provide citizens the opportunity to view, for each local school building, the staffing levels and other prototypical school funding elements that are assumed under the state funding formula. The portal must also provide a matrix displaying how individual school districts are deploying those same state resources through their allocation of staff and other resources to school buildings, so that citizens are able to compare the state assumptions to district allocation decisions for each local school building.

Sec. 13. RCW 28A.150.100 and 1990 c 33 s 103 are each amended to read as follows:
(1) For the purposes of this section and RCW 28A.150.410 and 28A.400.200, "basic education certificated instructional staff" ("shall") means all full-time equivalent classroom teachers, teacher librarians, guidance counselors, certificated student health services staff, and other certificated instructional staff in the following programs as defined for statewide school district accounting purposes: Basic education, secondary vocational education, general instructional support, and general supportive services.

MESSAGE FROM THE SENATE

March 10, 2010

Mr. Speaker:

The Senate receded from its amendment to SECOND SUBSTITUTE HOUSE BILL NO. 2731. Under suspension of the rules, the bill was returned to second reading for purpose of amendment. The Senate adopted the following amendment and passed the bill as amended by the Senate:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds that a critical factor in the eventual successful outcome of a K-12 education is for students to begin school ready, both intellectually and socially, to learn. The legislature also finds that, due to a variety of factors, some young children need supplemental instruction in preschool to assure that they have the opportunity to participate meaningfully and reach the necessary levels of achievement in the regular program of basic education. The legislature further finds that children who participate in high quality preschool programs have improved educational and life outcomes and are more likely to graduate from high school and pursue higher education, experience successful employment opportunities, and have increased earnings. Therefore the legislature intends to create a program of early learning that, when fully implemented, shall be an entitlement program for eligible children.

The legislature also finds that the state early childhood education and assistance program was established to help children from low-income families be prepared for kindergarten, and that the program has been a successful model for achieving that goal. Therefore, the legislature intends that the first phase of implementing the entitlement program of early learning shall be accomplished by utilizing the program standards and eligibility criteria in the early childhood education and assistance program. The legislature also intends that the implementation of subsequent phases of the program established by the ready for school act of 2010 will be aligned with the implementation of the state's all-day kindergarten program in order to maximize the gains resulting from investments in the two programs.

NEW SECTION. Sec. 2. DEFINITIONS. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Community-based early learning providers" includes for-profit and nonprofit licensed providers of child care and preschool programs.

(2) "Program" means the program of early learning established in section 3 of this act for eligible children who are three and four years of age.

NEW SECTION. Sec. 3. PROGRAM STANDARDS. (1) Beginning September 1, 2011, an early learning program to provide voluntary preschool opportunities for children three and four years of age shall be implemented according to the funding and implementation plan in section 4 of this act. The program must be a comprehensive program providing early childhood education and family support, options for parental involvement, and health information, screening, and referral services, as family need is determined. Participation in the program is voluntary. On a space available basis, the program may allow enrollment of children who are not otherwise eligible by assessing a fee.

(2) The first phase of the program shall be implemented by utilizing the program standards and eligibility criteria in the early childhood education and assistance program.

(3) The director shall adopt rules for the following program components, as appropriate and necessary during the phased implementation of the program:

(a) Minimum program standards, including lead teacher, assistant teacher, and staff qualifications;

(b) Approval of program providers; and

(c) Accountability and adherence to performance standards.

(4) The department has administrative responsibility for:

(a) Approving and contracting with providers according to rules developed by the director under this section;

(b) In partnership with school districts, monitoring program quality and assuring the program is responsive to the needs of eligible children;

(c) Assuring that program providers work cooperatively with school districts to coordinate the transition from preschool to kindergarten so that children and their families are well-prepared and supported; and

(d) Providing technical assistance to contracted providers.

NEW SECTION. Sec. 4. FUNDING AND STATEWIDE IMPLEMENTATION. (1) Funding for the program of early learning...
established under this chapter must be appropriated to the department. Allocations must be made on the basis of eligible children enrolled with eligible providers.

(2) The program shall be implemented in phases, so that full implementation is achieved in the 2018-19 school year.

(3) For the initial phase of the early learning program in school years 2011-12 and 2012-13, the legislature shall appropriate funding to the department for implementation of the program in an amount not less than the 2009-2011 enacted budget for the early childhood education and assistance program. The appropriation shall be sufficient to fund an equivalent number of slots as funded in the 2009-2011 enacted budget.

(4) Beginning in the 2013-14 school year, additional funding for the program must be phased in beginning in school districts providing all-day kindergarten programs under RCW 28A.150.315.

(5) Funding shall continue to be phased in incrementally each year until full statewide implementation of the early learning program is achieved in the 2018-19 school year, at which time any eligible child shall be entitled to be enrolled in the program.

(6) The department shall annually review the caseload forecasts for the program and, beginning December 1, 2012, and annually thereafter, report to the governor and the appropriate committees of the legislature with recommendations for phasing in additional funding necessary to achieve statewide implementation in the 2018-19 school year.

(7) School districts and approved community-based early learning providers may contract with the department to provide services under the program. The department shall collaborate with school districts, community-based providers, and educational service districts to promote an adequate supply of approved providers.

NEW SECTION. Sec. 5. A new section is added to chapter 28A.320 RCW to read as follows:

For the program of early learning established in section 3 of this act, school districts:

(1) Shall work cooperatively with program providers to coordinate the transition from preschool to kindergarten so that children and their families are well-prepared and supported; and

(2) May contract with the department of early learning to deliver services under the program.

Sec. 6. RCW 43.215.020 and 2007 c 394 s 5 are each amended to read as follows:

(1) The department of early learning is created as an executive branch agency. The department is vested with all powers and duties transferred to it under this chapter and such other powers and duties as may be authorized by law.

(2) The primary duties of the department are to implement state early learning policy and to coordinate, consolidate, and integrate child care and early learning programs in order to administer programs and funding as efficiently as possible. The department's duties include, but are not limited to, the following:

(a) To support both public and private sectors toward a comprehensive and collaborative system of early learning that serves parents, children, and providers and to encourage best practices in child care and early learning programs;

(b) To make early learning resources available to parents and caregivers;

(c) To carry out activities, including providing clear and easily accessible information about quality and improving the quality of early learning opportunities for young children, in cooperation with the nongovernmental private-public partnership;

(d) To administer child care and early learning programs;

(e) To standardize internal financial audits, oversight visits, performance benchmarks, and licensing criteria, so that programs can function in an integrated fashion;

(f) To support the implementation of the nongovernmental private-public partnership and cooperate with that partnership in pursuing its goals including providing data and support necessary for the successful work of the partnership;

(g) To work cooperatively and in coordination with the early learning council;

(h) To collaborate with the K-12 school system at the state and local levels to ensure appropriate connections and smooth transitions between early learning and K-12 programs; (i) To develop and adopt rules for administration of the program of early learning established in section 3 of this act; and

(i) Upon the development of an early learning information system, to make available to parents timely inspection and licensing action information through the internet and other means.

(3) The department's programs shall be designed in a way that respects and preserves the ability of parents and legal guardians to direct the education, development, and upbringing of their children. The department shall include parents and legal guardians in the development of policies and program decisions affecting their children.

Sec. 7. RCW 43.215.405 and 2006 c 265 s 210 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout RCW 43.215.400 through 43.215.450 and 43.215.900 through 43.215.903.

(1) "Advisory committee" means the advisory committee under RCW 43.215.420.

(2) "Department" means the department of early learning.

(3) "Eligible child" means a child not eligible for kindergarten whose family income is at or below one hundred ten percent of the federal poverty level, as published annually by the federal department of health and human services, and includes a child whose family is eligible for public assistance, and who is not a participant in a federal or state program providing comprehensive services; a child eligible for special education due to disability under RCW 28A.155.020; and may include children who are eligible under rules adopted by the department if the number of such children equals not more than ten percent of the total enrollment in the early childhood program.

Priority for enrollment shall be given to children from families with the lowest income, children in foster care, or to eligible children from families with multiple needs.

(4) "Approved programs" means those state-supported education and special assistance programs which are recognized by the department as meeting the minimum program rules adopted by the department to qualify under RCW 43.215.400 through 43.215.450 and 43.215.900 through 43.215.903.

(5) "Comprehensive" means an assistance program that focuses on the needs of the child and includes education, health, and family support services.

(6) "Family support services" means providing opportunities for parents to:

(a) Actively participate in their child's early childhood program;

(b) Increase their knowledge of child development and parenting skills;

(c) Further their education and training;

(d) Increase their ability to use needed services in the community;

NEW SECTION. Sec. 8. Sections 2 through 4 and 9 of this act are each added to chapter 43.215 RCW.

The legislature finds that there are several areas in the state that are characterized by very high levels of unemployment and poverty. The legislature further finds that economic stagnation is the primary cause of this high unemployment rate and poverty; that new state policies are necessary in order to promote economic stimulation and new employment opportunities in these distressed areas; and that policies providing incentives for economic growth in these distressed areas are essential. For these reasons, the legislature (hereby) restates a tax deferral program to be effective solely in distressed areas and under circumstances where the deferred tax payments are for investments or costs that result in the creation of a specified number of jobs)) counties. The legislature declares that this limited program serves the vital public purpose of creating employment opportunities and reducing poverty in the distressed (areas) counties of the state.

The debt for deferred taxes will not be extinguished by insolvency or other failure of the recipient. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of this chapter, for the remaining periods of the deferral.

Sec. 9. RCW 82.60.070 and 2004 c 25 s 7 are each amended to read as follows:

(1)(a) The legislature finds that accountability and effectiveness are important aspects of setting tax policy. In order to make policy choices regarding the best use of limited state resources the legislature needs information on how a tax incentive is used.

(b) Each recipient of a deferral granted under this chapter after June 30, 1994, (shall) must complete an annual survey. If the economic benefits of the deferral are passed to a lessee as provided in (RCW 82.60.020(4)) section 4 of this act, the lessee (shall agree to) must complete the annual survey and the applicant is not required to complete the annual survey. The survey is due by March 31st of the year following the calendar year in which the investment project is certified by the department as having been operationally complete and the seven succeeding calendar years. The survey (shall) must include the amount of tax deferred, the number of new products or research projects by general classification, and the number of trademarks, patents, and copyrights associated with activities at the investment project. The survey (shall) must also include the following information for employment positions in Washington:

(i) The number of total employment positions;

(ii) Full-time, part-time, and temporary employment positions as a percent of total employment;

(iii) The number of employment positions according to the following wage bands: Less than thirty thousand dollars; thirty thousand dollars or greater, but less than sixty thousand dollars; and sixty thousand dollars or greater. A wage band containing fewer than three individuals may be combined with another wage band; and

(iv) The number of employment positions that have employer-provided medical, dental, and retirement benefits, by each of the wage bands.

(c) As part of the survey, the department may request additional information necessary to measure the results of, or determine eligibility for, the deferral program, to be submitted at the same time as the survey.

(d) All information collected under this subsection, except the amount of the tax deferral taken, is deemed taxpayer information under RCW 82.32.330 and is not disclosable. Information on the amount of tax deferral taken is not subject to the confidentiality provisions of RCW 82.32.330 and may be disclosed to the public upon request.

(2) If, on the basis of a survey under this section or other information, the department finds that an investment project is not eligible for tax deferral under this chapter, the amount of deferred taxes outstanding for the project (shall be immediately due).

(3) If a recipient of the deferral fails to complete the annual survey required under subsection (1) of this section by the date due, twelve and one-half percent of the deferred tax (shall be) will be immediately due. If the economic benefits of the deferral are passed to a lessee as provided in (RCW 82.60.020(4)) section 4 of this act, the lessee (shall be) is responsible for payment to the extent the lessee has received the economic benefit.

(3) Notwithstanding any other subsection of this section, deferred taxes need not be repaid on machinery and equipment for lumber and wood products industries, and sales of or charges made for labor and services, of the type which qualifies for exemption under RCW 82.08.02565 or 82.12.02565 to the extent the taxes have not been repaid before July 1, 1995.

(4) Notwithstanding any other subsection of this section, deferred taxes on the following need not be repaid:

(b) Machinery and equipment which at the time of first use would have qualified for exemption under RCW 82.12.02565.

Sec. 10. RCW 82.60.100 and 1987 c 49 s 1 are each amended to read as follows:

FOR THE DEPARTMENT OF (COMMUNITY, TRADE, AND ECONOMIC DEVELOPMENT) COMMERCE

Temporary Public Works Grant Program (92000021)
The appropriation in this section is subject to the following conditions and limitations: The appropriation is provided solely for grants for the specified public works projects and competitive public works grant programs specified below. The public works board (board) shall administer the following competitive public works grants programs within the amounts specified, provided that up to ten percent of the amounts provided for competitive grant programs may be transferred to other competitive grant categories if acceptable applications for any category do not total the amount available.

(1) $9,531,000 is provided solely for a competitive public works grant program for local governments serving communities in rural counties as defined in RCW 43.160.020. The board shall prioritize applications for funding for this small community jobs program based on the following criteria:
(a) The unemployment rate of the community;
(b) The ability of the applicant to complete the project promptly; and
(c) The value the project presents to the community in lasting improvements to public safety, environmental quality, recreation and community life, or economic development.

(2) $9,531,000 is provided solely for a competitive public works grant program for local governments serving high density urban communities. The board shall prioritize applications for funding from this urban vitality program based on the following criteria:
(a) The proposed project's ability to decrease the per capita vehicle miles driven in the community by increasing access to mass transit, supporting residential density in proximity to employment opportunities, and improving the safety and appeal of walking and biking in a community;
(b) The ability of the applicant to complete the project promptly; and
(c) The local support for the project as indicated by the level of local matching funds devoted to the project. Local matching funds do not include funds from other state sources.

(3) The state taxable building construction account--state appropriation is provided solely for emergency loans under RCW 43.155.065.

(4) $23,535,000 is provided solely for the following list of projects. The appropriation for Airway Heights wastewater treatment plant is contingent upon a capacity agreement with the Kalispel Tribe that precludes the need to build multiple wastewater treatment facilities on the West Plains. If any project on the following list is unable to show reasonable progress towards accomplishing the intended project by December 31, 2010, the board may transfer the amount allocated for the project to the competitive grant categories in subsections (1) and (2) of this section.

FOR THE OFFICE OF FINANCIAL MANAGEMENT. (1) Due to the downturn of the economy and the direct effects on the state bond debt limit, the legislature intends to reduce bond debt while focusing resources on maintaining and creating jobs. Therefore, the legislature directs the office of financial management to work with state agencies to achieve savings in the amount of $42,291,000 by reducing previously approved allotments or by withholding approval of planned allotments for those projects that have not shown substantial progress under the criteria established in subsection (2) of this section.

(2) A project is subject to allotment reduction or non-approval of a planned allotment under this section if:
   (a)(i) It is a state project administered by a state agency; or

Required and appropriate transaction elements include, but are not limited to, matching funds, permits, environmental reviews, and required contracts and partnership agreements.

(3) Amounts attributable to allotment reductions or non-approval of planned allotments made under this section must be placed in or remain in unallotted status and remain unexpended.

(4) By December 31, 2010, the office of financial management must report to the house of representatives capital budget committee and the senate ways and means committee on the projects for which allotments were reduced or for which approval was withheld, including a list of the specific projects and related funds remaining in unallotted status.

Kittitas Groundwater Study (30000029)

The appropriation in this section is subject to the following conditions and limitations:

By September 30, 2010, if, after consultation with major Yakima basin governments and stakeholders, the department of ecology and Kittitas county reach an agreement on a preferred approach, including the appropriate geographic scope and administering entity, the appropriation may be fully or partially redirected for the following purposes:

1. Funds may be provided to develop and implement water banking and transfer methods and agreements that are fully protective of senior water rights and that protect domestic groundwater users and improve the profitability of farming operations. The legislature finds such activities to be in the public interest because they can help sustain the viability of the agricultural economy and enhance the certainty of water supplies for domestic groundwater users. The legislature finds such activities to be in the public interest because they can help sustain the viability of the agricultural economy and enhance the certainty of water supplies for domestic groundwater users.

2. Funds may be provided to lease or purchase water rights to create a reserve water supply for domestic groundwater users that have a groundwater right with a priority date later than May 10, 1905, as well as for all out-of-priority groundwater users. In securing water for such domestic groundwater users, strong preference shall be given to the use of water banking and transfer methods that provide alternatives to permanent purchase and dry-up of agricultural water rights in the basin, including dry-year options, water banking, long-term water supply lease arrangements, long-term agricultural land fallowing agreements, and reduced consumptive use through efficiency or alternative cropping arrangements while maintaining historic return flows.

3. A portion of the appropriation may be used for administrative costs, not to exceed four percent, and other costs associated with leasing or acquiring and transferring the water rights. All costs shall be fully recovered from participating domestic water users for their prorated portion of the cost, including but not limited to the costs of securing a water right or rights for this purpose, costs associated with the development and implementation of alternative agricultural water transfer methods, associated annual operational costs, and federal water service contract costs owed to the United States bureau of reclamation. (1) A working group of levee managers, local agencies, and stakeholders to advise and inform the study;
(2) In-state examples of the costs and processes of technical review of the structural integrity of levee systems;
(3) An inventory, map, and (state the effectiveness) description of the level of protection of existing levee systems; (and)
(4) The development of strategies and actions needed to improve the existing levee system and to ensure certification by the United States army corps of engineers for one-hundred year flood protection;
(5) The identification of current funding sources and the amounts available for levee improvements; and
(6) Recommendation for additional new funding sources and options.

The study must be completed and a report provided to the appropriate legislative committees by July 1, 2010.

FOR THE DEPARTMENT OF NATURAL RESOURCES

Trust Land Transfer (30000066)

The appropriation in this section is subject to the following conditions and limitations:

(1) The total appropriation is provided to the department solely to transfer from trust status, or enter into fifty year leases for, certain trust lands of statewide significance deemed appropriate for state park, fish and wildlife habitat, natural area preserve, natural resources conservation area, open space, housing and essential government services, or recreation purposes. The approved list of properties for lease or transfer is identified in the LEAP capital document No. 2009-2a, developed April 23, 2009.
(2) Property transferred under this section must be appraised and transferred at fair market value. The value of the timber transferred must be deposited by the department to the common school construction account in the same manner as timber revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040. The value of the land transferred must be deposited in the natural resources real property replacement account.

(3) Property subject to lease agreements under this section must be appraised at fair market value. Lease terms must be fifty years with options to renew for an additional fifty years. Lease payments must be lump sum payments for the entire term of the lease at the beginning of the lease. The department shall calculate such lump sum payments using professional appraisal standards. These lease payments may not exceed the fee simple purchase price based on current fair market value and must be deposited by the department to the common school construction account in the same manner as lease revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040.

(4) All reasonable costs incurred by the department to implement this section are authorized to be paid out of the appropriations. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs and shall not exceed (two and six-tenths) percent of the appropriation.

(5) Intergrant exchanges between common school and other trust lands of equal value may occur if the exchange is in the interest of each trust, as determined by the board of natural resources.

(6) Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer and lease agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose. Transfer and lease agreements may include provisions for receiving agencies to request alternative uses of the property, provided the alternative uses are compatible with the original intended public purpose and the department and legislature approves such uses.

(7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

(8) The department shall execute trust land transfers that, after the deduction of reasonable costs as provided in subsection (4) of this section, eighty percent of the total value of transferred property is timber value and is deposited in the common school construction account. To achieve the eighty percent requirement, the department may choose to lease properties originally intended as transfers.

(9) $4,189,000 of the amount appropriated is provided solely for fifty-year leases of development rights from timber lands at risk of conversion to non-timber land uses purchased from appropriations in the 2007-2009 fiscal period.

(10) (On June 30, 2011) The state treasurer shall transfer all remaining uncommitted funds from this appropriation to the common school construction account and the appropriations in this section shall be reduced by an equivalent amount.

NEW SECTION. Sec. 5008. A new section is added to 2009 c 497 (uncodified) to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION

Jobs Act for K-12 Public Schools (91000010)

The appropriation in this section is subject to the following conditions and limitations:

(1) The appropriation is provided solely for grants to K-12 public school districts for energy and operational cost savings improvements and related projects that result in energy and utility and operational cost savings. Related projects are those projects that must be completed in order for the energy efficiency improvement to be effective.

(2) The office of the superintendent of public instruction, in consultation with the department of general administration, the department of commerce, and the Washington State University energy program shall establish a competitive process to solicit and evaluate applications from K-12 public school districts. Final grant awards shall be determined by the office of the superintendent of public instruction.

(3) Grants must be awarded in competitive rounds, as provided in this subsection:

(a) Grants to K-12 public school districts, with at least five percent of the total grant round for small K-12 school districts with fewer than 1,000 full-time equivalent students.

(b) Grants shall be distributed in additional competitive rounds the same as established in (a) of this subsection.

(4) Within each competitive round, projects must be weighted and prioritized based on the following criteria and in the following order:

(a) Leverage ratio: In each round, the higher the leverage ratio of nonstate funding sources to state jobs act grant, the higher the project ranking.

(b) Energy savings: In each round, the higher the energy savings, the higher the project ranking. Applicants must submit documentation that demonstrates energy and operational cost savings resulting from the installation of energy equipment and improvements. The documentation must include, but is not limited to the following:

(i) A description of energy equipment and improvements; and

(ii) A description of energy and operational cost savings. The energy savings analysis must be performed by a licensed engineer.

(c) Expediency of expenditure: Project readiness to spend funds must be prioritized so that the legislative intent to expend funds quickly is met.

(5) Projects that do not use energy savings performance contracting must:

(a) Verify energy and operational cost savings for ten years or until energy and operational costs savings pay for the project, whichever is shorter; (b) follow the department of general administration's energy savings performance contracting project guidelines; and (c) employ a licensed engineer for the energy audit and construction. The department of general administration may require third-party verification of savings if a project is not implemented by an energy savings performance contractor selected by the department of general administration through the request of qualifications process. Third-party verification must be conducted by an energy savings performance contractor selected by the department of general administration through a request for qualifications or by a project or educational service district resource conservation manager.

(6) To intensify competition, the office of the superintendent of public instruction may only award funds to the top eighty-five percent of projects applying in a round until the office of the superintendent of public instruction determines a final round is appropriate. Projects that do not receive a grant award in one round may reapply in subsequent rounds.

(7) Grant amounts awarded to each project must allow for the maximum number of projects funded with the greatest energy and cost benefit.

(8) The office of the superintendent of public instruction must use bond proceeds to pay one-half of the preliminary audit, up to five cents per square foot, if the project does not meet the school district's predetermined cost-effectiveness criteria. The school district must pay the other one-half of the cost of the preliminary audit if the project does not meet the school district's predetermined cost-effectiveness criteria. The energy savings performance contractor shall not charge for an investment grade audit if the project does not meet the school district's predetermined cost-effectiveness criteria. The school district must pay the full price of an investment grade audit if they do not proceed with a project that meets the school district's predetermined cost-effectiveness criteria.
(9) The office of the superintendent of public instruction may charge projects administrative fees. The office of the superintendent of public instruction may pay the department of general administration administrative fees in an amount determined through a memorandum of understanding.

(10) The office of the superintendent of public instruction and the department of general administration must submit a joint report to the appropriate committees of the legislature and the office of financial management on the timing and use of the grant funds, program administrative function, and administrative fees by the end of each fiscal year, until the funds are fully expended and all savings verification requirements are fulfilled.

(2)(a) The Washington works housing program is created to increase opportunities for nonprofit organizations and public agencies to purchase, acquire, build, and own real property to be used for affordable housing for low and moderate-income households. The Washington works housing program is intended to provide access to new funding mechanisms and build long-term community equity by increasing the stock of permanently affordable housing owned by nonprofit organizations and public agencies.
   (b) The Washington works housing program is intended to provide these opportunities for public agencies and nonprofit organizations, including those materially participating as a managing member or general partner of a partnership, limited liability company, or equivalent organization, through the issuance of tax exempt or taxable revenue bonds issued by the commission in conjunction with a subsidy necessary to make bond issues to finance affordable housing properties financially feasible.    (c) During the period of initial bond indebtedness under the program, the owner of the property must meet one of the following requirements:
      A minimum of twenty percent of the units will be occupied by households earning less than fifty percent of area median income and an additional thirty-one percent of the units will be occupied by persons earning less than eighty percent of area median income; or forty percent of the units will be occupied by households earning less than sixty percent of area median income and an additional eleven percent of the units will be occupied by households earning less than eighty percent of area median income.
   (d) After the initial bond indebtedness is retired, the rents charged for units in the project will be adjusted to be sufficient to pay reasonable operation and maintenance expenses, including necessary capital needs, and to make reasonable deposits into a reserve account with the intent of providing affordable housing to very low or low-income households for the remaining useful life of the property. The reasonableness of the rent levels must be periodically approved by the commission based on information provided by the owner of the property about income, expenses, and necessary reserve levels. The determination of the commission regarding the reasonableness of the rent levels will be final.
   (e) The commission will enter into a recorded regulatory agreement with the borrower at the time of the issuance of bonds under the program for the purpose of ensuring that the property will meet the income and rent restrictions established in this section. The commission may charge such compliance fees as necessary to ensure enforcement of the income and rent restrictions during the useful life of the property.
(3) One billion dollars of the outstanding indebtedness of the commission is for the primary purpose of implementing the Washington works housing program.
Sec. 6027. RCW 39.86.100 and 2001 c 330 s 1 are each amended to read as follows:

The federal (tax reform act) internal revenue code of 1986, as amended imposes (annual) ceilings on the aggregate amount of (federally tax exempt private activity) certain types of bonds, including tax exempt private activity bonds (for housing, student loans, exempt facilities, small issue industrial, redevelopment, and certain public utility projects) and other types, that may be issued during any calendar year by or on behalf of states and their political subdivisions. (In 2001, the ceiling will be increased to sixty-two dollars and fifty cents per capita and in 2002 the ceiling will be increased to seventy-five dollars per capita, to be indexed annually, for 2003 and every year thereafter. However, a study by the department of community development indicates that the dollar amount of the state ceiling is considerably less than the anticipated dollar amount for which issuers would need an allocation from the state ceiling.) The ((tax reform act) code provides for allocating the annual tax-exempt private activity bond ceiling among various issuers of private activity bonds for housing, student loans, exempt facilities, and redevelopment projects within a state, but permits each state to enact a different allocation method that is appropriate to that state's needs. In addition, congress might, from time to time, amend the code by authorizing state ceilings on additional types of bonds. The purpose of this chapter is to provide a flexible and efficient method of allocating the annual state ceiling in Washington in a manner that recognizes the need of the state and its political subdivisions to finance activities or projects that satisfy a substantial public purpose.

Sec. 6028. RCW 39.86.110 and 2009 c 565 s 23 are each reenacted and amended to read as follows:

NEW SECTION. Sec. 6029. A new section is added to chapter 39.86 RCW to read as follows:

Original allocations or any reallocations of state bond ceilings other than the tax-exempt private activity bond ceiling must be determined by formula as provided in the code, or by department rule if no formula is provided in the code.

Sec. 6030. RCW 39.86.120 and 2001 c 330 s 2 are each amended to read as follows:

(1) Except as provided in subsections (2) and (4) of this section, the initial allocation of the state ceiling shall be for each year as follows:

<table>
<thead>
<tr>
<th>BOND USE CATEGORY</th>
<th>2002 and 2010 and</th>
</tr>
</thead>
<tbody>
<tr>
<td>(2001) THEREAFTER</td>
<td>THIERAFTER</td>
</tr>
</tbody>
</table>
(2) Initial allocations may be modified by the agency only to reflect an issuer’s carryforward amount. Any reduction of the initial allocation shall be added to the remainder and be available for allocation or reallocation.

(3) The remainder shall be allocated by the agency among one or more issuers from any bond use category with regard to the criteria specified in RCW 39.86.130.

(4) Should any bond use category no longer be subject to the state ceiling due to federal or state provisions of law, the agency shall divide the amount of that initial allocation among the remaining categories as necessary or appropriate with regard to the criteria specified in RCW 39.86.130. (Upon the earlier of: (a) Exhaustion of the seven hundred fifty million dollar authority under I.R.C. 1317(25), or any new federal legislation increasing the amount of authority, or creating additional authority; or (b) waiver of the authority described under (a) of this subsection due to alternative federal authority that does not use a state volume cap, then the alternative allocation schedule in subsection (1) of this section will be used.)

(5)(a) Prior to September 1 of each calendar year, any available portion of an initial allocation may be allocated or reallocated only to an issuer within the same bond use category, except that the remainder category, or portions thereof, may be allocated at any time to any bond use category.

(b) Beginning September 1 of each calendar year, the agency may allocate or reallocate any available portion of the state ceiling to any bond use category with regard to the criteria specified in RCW 39.86.130.

Sec. 6031. RCW 39.86.130 and 1987 c 297 s 4 are each amended to read as follows:

(1) In granting an allocation, reallocation, or carryforward of the state ceiling as provided in this chapter, the agency shall consider the criteria specified in RCW 39.86.130.

(2) Prior to September 1 of each calendar year, any available portion of an initial allocation may be allocated or reallocated only to an issuer within the same bond use category, except that the remainder category, or portions thereof, may be allocated at any time to any bond use category.

(3) If there is a state ceiling allocated to an issuer within a bond use category, the agency may allocate or reallocate any available portion of the state ceiling to any bond use category with regard to the criteria specified in RCW 39.86.130.

Sec. 6032. RCW 39.86.140 and 1987 c 297 s 5 are each amended to read as follows:

(1) No issuer may receive an allocation of the state ceiling without a certificate of approval from the agency.

(2)(a) For each state ceiling allocation request, an issuer shall submit to the agency, no sooner than ninety days prior to the beginning of a calendar year for which an allocation of the state ceiling is being requested, a form identifying:

(b) The amount of the allocation sought;
(b) The bond use category from which the allocation sought would be made;
(e) The project or program for which the allocation is requested;
(d) The financing schedule for which the allocation is needed; and
(e) Any other such information required by the agency, including information which corresponds to the allocation criteria of RCW 39.86.130.

3. The agency may approve or deny an allocation for all or a portion of the issuer's request. Any denied request, however, shall remain on file with the agency for the remainder of the calendar year and shall be considered for receiving any allocation, reallocation, or carryforward of unused portions of the state ceiling during that period.

4. After receiving an allocation request, the agency shall mail to the requesting issuer a written certificate of approval or notice of denial for an allocation amount, by a date no later than the latest of the following:
   (a) Forty-five days from May 8, 1987;
   (b) February 1st of the calendar year (other than 1987) for which the request is made;
   (c) Fifteen days from the date the agency receives an allocation request; or
   (d) Fifteen days from the date the agency receives a recommendation by the board with regard to a small issue allocation request, should the board choose to review individual requests.

5. (a) For requests of the state ceiling of any calendar year, the following applies to all bond use categories except housing (and student loans):
   (i) Except for housing (and student loans), any allocations granted prior to April 1st, for which bonds have not been issued by (September 4) July 1st of the same calendar year, shall revert to the agency on (September 4) July 1st of the same calendar year for reallocation unless an extension or carryforward is granted;
   (ii) Except for housing (and student loans), any allocations granted on or after April 1st, for which bonds have not been issued by (December 15) October 15th of the same calendar year, shall revert to the agency on (December 15) October 15th of the same calendar year for reallocation unless an extension or carryforward is granted.
   (b) For each calendar year, any housing (and student loan) allocations, for which bonds have not been issued by December 15th of the same calendar year, shall revert to the agency on December 15th of the same calendar year for reallocation unless an extension or carryforward is granted.

6. An extension of the deadlines provided by subsection (5) of this section may be granted by the agency for the approved allocation amount or a portion thereof, based on:
   (a) Firm and convincing evidence that the bonds will be issued before the end of the calendar year if the extension is granted; and
   (b) Any other criteria the agency deems appropriate.

7. If an issuer determines that bonds subject to the state ceiling will not be issued for the project or program for which an allocation was granted, the issuer shall promptly notify the agency in writing so that the allocation may be canceled and the amount may be available for reallocation.

8. Bonds subject to the state ceiling may be issued only to finance the project or program for which a certificate of approval is granted.

9. Within three business days of the date that bonds for which an allocation of the state ceiling is granted have been delivered to the original purchasers, the issuer shall mail to the agency a written notification of the bond issuance. In accordance with chapter 39.44 RCW, the issuer shall also complete bond issuance information on the form provided by the agency.

10. If the total amount of (tax exempt) bonds issued under the authority of a state ceiling for a project or program is less than the amount allocated, the remaining portion of the allocation shall revert to the agency for reallocation in accordance with the criteria in RCW 39.86.130. If the amount of (tax exempt) bonds actually issued under the authority of a state ceiling is greater than the amount allocated, the entire allocation shall be disallowed.

**Sec. 6033.** RCW 39.86.150 and 1987 c 297 s 6 are each amended to read as follows:

1. Beginning (September 4) July 1st of each calendar year, the agency may allocate or reallocate any portions of the annual state tax-exempt private activity bond ceiling for which no certificate of approval is in effect. Reallocations may also be made from the remainder category at any time during the year.

2. Prior to the end of each calendar year, the agency shall allocate or reallocate any unused portions of the state ceiling among one or more issuers as carryforward, to be used within three years, in accordance with the code and relevant criteria described in RCW 39.86.130.

3. Reallocations of state bond ceilings other than the annual tax-exempt private activity bond ceiling may be made by the agency in accordance with the code or as established in agency rule when not specified in the code.

**Sec. 6034.** RCW 39.86.170 and 1987 c 297 s 8 are each amended to read as follows:

A fee schedule shall be established by rule by the agency to assist in support of bond allocation activities. Fees shall reflect costs actually incurred or expected to be incurred by the agency in its bond allocation and bond users clearinghouse activities.

**Sec. 6035.** RCW 39.86.190 and 2009 c 518 s 19 are each amended to read as follows:

By February 1st of each even-numbered year, the agency shall summarize for the legislature each previous year's bond allocation requests and issuance. Beginning in (June of 1988) February 2010 and thereafter in (June) February of each even-numbered year, the agency shall also submit a biennial report summarizing usage of the bond allocation proceeds and any policy concerns for future bond allocations.

SECOND READING

Representative Dickerson moved the adoption of amendment (1705).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. INTENT. (1) The legislature finds that:
(a) Low-income families and individuals often face significant barriers to receiving the services and benefits that they are qualified to receive. These services are essential to meeting individuals' basic needs, and provide critical support to low-income individuals who are working or who have disabilities that prevent them from working;
(b) Each year millions of federal dollars go unclaimed due to underutilization of benefits such as tax credits, health care coverage, and food support;
(c) State agencies have been engaged in an effort to implement an online benefit portal to simplify and streamline access to state, federal, and local benefits that include a broad array of public benefits;
(d) Access to education and training gives low-income individuals and families the opportunity to acquire the skills they need to become successfully employed and attain self-sufficiency; and
(e) Agencies have been engaged in efforts to increase access to training and education for recipients of federal food assistance.

(2) The legislature therefore intends to strengthen existing efforts by providing enhanced structure and direction to ensure that a strong partnership among colleges, state agencies, community partners, and philanthropy be established. The legislature also intends to provide an efficient, effective, integrated approach to the delivery of basic support services and education and training programs. The integrated approach should include the creation of a one-stop-shop, online benefits portal where individuals can apply for a broad array of services, including public benefits and education and training support, and the expansion of the food stamp employment and training program.

(3) The legislature further finds that:
(a) The general assistance program can be reformed to better support the ability of persons who are unable to work due to physical or mental health impairments to either return to work, or transition to federal supplemental security income benefits; and
(b) Persons who are homeless and suffering from mental illness or chemical dependency are particularly vulnerable, because homelessness is a substantial barrier to successful participation in, and completion of, needed treatment services.

(4) Through the reforms included in this act, the legislature intends to end the general assistance program and establish the disability lifeline program, and to implement multiple strategies designed to improve the employment and basic support outcomes of persons receiving disability lifeline benefits. The legislature further intends to focus services on persons who are homeless and have a mental illness or chemical dependency by providing housing vouchers as an alternative to a cash grant so that these persons can be in stable housing and thus have a greater opportunity to succeed in treatment.

NEW SECTION. Sec. 2. A new section is added to chapter 74.04 RCW to read as follows:

OPPORTUNITY PORTAL. (1) An online opportunity portal shall be established to provide the public with more effective access to available state, federal, and local services. The secretary of the department of social and health services shall act as the executive branch sponsor of the portal planning process. Under the leadership of the secretary, the department shall:
(a) Identify and select an appropriate solution and acquisition approach to integrate technology systems to create a user-friendly electronic tool for Washington residents to apply for benefits;
(b) Facilitate the adaptation of state information technology systems to allow applications generated through the opportunity portal and other compatible electronic application systems to seamlessly link to appropriate state information systems;
(c) Ensure that the portal provides access to a broad array of state, federal, and local services, including but not limited to: Health care services, higher education financial aid, tax credits, civic engagement, nutrition assistance, energy assistance, family support, and disability lifeline benefits as defined in sections 4 through 13 of this act;
(d) Design an implementation strategy for the portal that maximizes collaboration with community-based organizations to facilitate its use by low-income individuals and families;
(e) Provide access to the portal at a wide array of locations including but not limited to: Community or technical colleges, community college campuses where community service offices are colocated, community-based organizations, libraries, churches, food banks, state agencies, early childhood education sites, and labor unions;
(f) Ensure project resources maximize available federal and private funds for development and initial operation of the opportunity portal. Any incidental costs to state agencies shall be derived from existing resources. This subsection does not obligate or preclude the appropriation of future state funding for the opportunity portal;
(g) Determine the solution and acquisition approach by June 1, 2010.

(2) By December 1, 2011, and annually thereafter, the department of social and health services shall report to the legislature and governor. The report shall include data and information on implementation and outcomes of the opportunity portal, including any increases in the use of public benefits and increases in federal funding.

(3) The department shall develop a plan for implementing paperless application processes for the services included in the opportunity portal for which the electronic exchange of application information is possible. The plan should include a goal of achieving, to the extent possible, the transition of these services to paperless application processes by July 1, 2012. The plan must comply with federal statutes and regulations and must allow applicants to submit applications by alternative means to ensure that access to benefits will not be restricted.

(4) To the extent that the department enters into a contractual relationship to accomplish the purposes of this section, such contract or contracts shall be performance-based.

NEW SECTION. Sec. 3. A new section is added to chapter 74.04 RCW to read as follows:

BASIC FOOD EMPLOYMENT AND TRAINING PROGRAM. (1) The department, the employment security department, and the state board for community and technical colleges shall work in partnership to expand the food stamp employment and training program. Subject to federal approval, the program shall be expanded to three additional community colleges or other community-based locations in 2010 and shall expand capacity at participating colleges. To the greatest extent possible, expansion shall be geographically diverse. The agencies shall:
(a) Identify and seek out partnerships with community-based organizations that can provide support services and case management to participants through performance-based contracts in the food stamp employment and training program, and do not replace the positions or work of department employees;

(b) Identify eligible nonfederal matching funds to draw down the federal match for food stamp employment and training services. Matching funds may include: Local funds, foundation grants, employer-paid costs, and the state allocation to community and technical colleges.

(2) Employment and training funds may be allocated for:

(a) Educational programs to develop skills for employability, vocational education, English as a second language courses, adult basic education, GED courses, remedial programs, job readiness training, case management, intake, assessment, evaluation, and barrier removal and support services such as tuition, books, child care, transportation, housing, and counseling services.

(3) The department shall annually track and report outcomes including those achieved through performance-based contracts as follows: Federal funding received, the number of participants served, achievement points, the number of participants who enter employment during or after participation in the food stamp employment and training program, and the average wage of jobs attained. The report shall be submitted to the governor and appropriate committees of the legislature on November 1st of each year, beginning in 2010.

(4) For purposes of this section, “food stamp employment and training program” refers to a program established and administered through the employment security department and the department of social and health services.

Sec. 4. RCW 74.04.005 and 2003 1st sp.s. c 10 s 1 are each amended to read as follows:

For the purposes of this title, unless the context indicates otherwise, the following definitions shall apply:

(1) "Public assistance" or "assistance"--Public aid to persons in need thereof for any cause, including services, medical care, assistance grants, disbursing orders, work relief, ((general assistance)) disability lifeline benefits and federal aid assistance.

(2) "Department"--The department of social and health services.

(3) "County or local office"--The administrative office for one or more counties or designated service areas.

(4) "Director" or "secretary" means the secretary of social and health services.

(5) "Disability lifeline program" means a program that provides aid and support in accordance with the conditions set out in this subsection:

(a) Aid and assistance shall be provided to persons who are not eligible to receive federal aid assistance, other than basic food benefits transferred electronically and medical assistance and meet one of the following conditions:

(i) Are pregnant and in need, based upon the current income and resource requirements of the federal temporary assistance for needy families program; or

(ii) Are incapacitated from gainful employment by reason of bodily or mental infirmity that will likely continue for a minimum of ninety days as determined by the department; and

(A) Are citizens or aliens lawfully admitted for permanent residence or otherwise residing in the United States under color of law;

(B) Have furnished the department their social security number; If the social security number cannot be furnished because it has not been issued or is not known, an application for a number shall be made prior to authorization of benefits, and the social security number shall be provided to the department upon receipt;

(C) Have not refused or failed without good cause to participate in drug or alcohol treatment if an assessment by a certified chemical dependency counselor indicates a need for such treatment. Good cause must be found to exist when a person’s physical or mental condition, as determined by the department, prevents the person from participating in drug or alcohol dependency treatment, when needed outpatient drug or alcohol treatment is not available to the person in the county of his or her residence or when needed inpatient treatment is not available in a location that is reasonably accessible for the person; and

(D) Have not refused or failed without good cause to participate in vocational rehabilitation services, if an assessment conducted under section 5 of this act indicates that the person might benefit from such services. Good cause must be found to exist when a person’s physical or mental condition, as determined by the department, prevents the person from participating in vocational rehabilitation services, or when vocational rehabilitation services are not available to the person in the county of his or her residence.

(b(i) Persons who initially apply and are found eligible for disability lifeline benefits based upon incapacity from gainful employment under (a) of this subsection on or after September 2, 2010, who are homeless and have been assessed as needing chemical dependency or mental health treatment or both, must agree, as a condition of eligibility for the disability lifeline program, to accept a housing voucher in lieu of a cash grant if a voucher is available. The department shall establish the dollar value of the housing voucher. The dollar value of the housing voucher may differ from the value of the cash grant. Persons receiving a housing voucher under this subsection also shall receive a cash stipend of fifty dollars per month.

(ii) If the department of commerce has determined under section 8 of this act that sufficient housing is not available, persons described in this subsection who apply for disability lifeline benefits during the time period that housing is not available shall receive a cash grant in lieu of a cash stipend and housing voucher.

(iii) Persons who refuse to accept a housing voucher under this subsection but otherwise meet the eligibility requirements of (a) of this subsection are eligible for medical care services benefits under RCW 74.09.035, subject to the time limits in (h) of this subsection.

(c) The following persons are not eligible for the disability lifeline program:

(i) Persons who are unemployable due primarily to alcohol or drug addiction. These persons shall be referred to appropriate assessment, treatment, shelter, or supplemental security income referral services as authorized under chapter 74.50 RCW. Referrals shall be made at the time of application or at the time of eligibility review. This subsection shall not be construed to prohibit the department from granting disability lifeline benefits to alcoholics and drug addicts who are incapacitated due to other physical or mental conditions that meet the eligibility criteria for the disability lifeline program;

(ii) Persons who refuse or fail to cooperate in obtaining federal aid assistance, without good cause,

(d) Disability lifeline benefits shall be provided only to persons who are not members of assistance units receiving federal aid assistance, except as provided in (a) of this subsection, and who will accept available services that can reasonably be expected to enable the person to work or reduce the need for assistance unless there is good cause to refuse. Failure to accept such services shall result in termination until the person agrees to cooperate in accepting such services and subject to the following maximum periods of ineligibility after reaplication:

(i) First failure: One week;

(ii) Second failure within six months: One month;

(iii) Third and subsequent failure within one year: Two months.

(e) Persons who are likely eligible for federal supplemental security income benefits shall be moved into the disability lifeline expedited component of the disability lifeline program. Persons placed in the expedited component of the program may, if otherwise
contracted for a continuous period of twelve months. Any

demonstrates no material improvement in their medical or mental
health condition. The department may discontinue benefits when
there was specific error in the prior determination that found the
person eligible by reason of incapacity.
beginning September 1, 2010, no person who is currently
receiving or becomes eligible for disability lifeline program benefits
shall be eligible to receive benefits under the program for more than
twenty-four months in a sixty-month period. For purposes of this
subsection, months of receipt of general assistance-unemployable
benefits count toward the twenty-four month limit. Months during
which a person received benefits under the expedited component of
the disability lifeline or general assistance program or under the aged,
blind, or disabled component of the disability lifeline or general
assistance program shall not be included when determining whether a
person has been receiving benefits for more than twenty-four months.
Before July 1, 2010, the department must review the cases of all
persons who have received disability lifeline benefits or general
assistance unemployable benefits for at least twelve months as of that
date. The review should determine whether the person meets the
federal supplemental security income disability standard and, if the
person does not meet that standard, whether the receipt of additional
services could lead to employability. If a need for additional services
is identified, the department shall provide case management services,
such as assistance with arranging transportation or locating stable
housing, that will facilitate the person's access to needed services. A
person may not be determined ineligible due to exceeding the time
limit unless he or she has received a case review under this subsection
finding that the person does not meet the federal supplemental
security income disability standard.
(ii) The time limit in (h)(i) of this subsection may be modified to
eighteen months in a thirty-six month period if the following
conditions are met, as determined by the Washington state institute
for public policy:
(A) The department is consistently reviewing the cases of all
persons who have received disability lifeline benefits or general
assistance unemployable benefits for twelve months, as described in
(h)(i) of this subsection in a timely manner,
(B) The performance goals in section 7(2) of this act have been
met consistently on a statewide basis by the department and its
contracted entities for a continuous period of twelve months. Any
modification of the time limit under this subsection must be
accomplished through the adoption of rules under chapter 34.05
RCW.
(iii) The time limits established under this subsection expire June
30, 2013.
(i) No person may be considered an eligible individual for
disability lifeline benefits with respect to any month if during that
month the person:
(i) Is fleeing to avoid prosecution of, or to avoid custody or
confliction for conviction of, a felony, or an attempt to commit a
felony, under the laws of the state of Washington or the place from
which the person flees; or
(ii) Is violating a condition of probation, community supervision,
or parole imposed under federal or state law for a felony or gross
misdemeanor conviction.
(6) "Disability lifeline expedited" means a component of the
disability lifeline program under which persons receiving disability
lifeline benefits have been determined, after examination by an
appropriate health care provider, to be likely to be eligible for federal
supplemental security income benefits based on medical and
behavioral health evidence that meets the disability standards used for
the federal supplemental security income program.
(7) "Federal aid assistance"--The specific categories of assistance
for which provision is made in any federal law existing or hereafter
passed by which payments are made from the federal government to
the state in aid or in respect to payment by the state for public
assistance rendered to any category of needy persons for which
provision for federal funds or aid may from time to time be made, or a
federally administered needs-based program.
(6)(a) "General assistance"--Aid to persons in need who:
(i) Are not eligible to receive federal aid assistance, other than
food stamps or food stamp benefits transferred electronically and
medical assistance; however, an individual who refuses or fails to
cooperate in obtaining federal aid assistance, without good cause, is
not eligible for general assistance;

Aid to persons in need who:
(i) Are not eligible to receive federal aid assistance, other than
food stamps or food stamp benefits transferred electronically and
medical assistance; however, an individual who refuses or fails to
cooperate in obtaining federal aid assistance, without good cause, is
not eligible for general assistance;
(ii) Meet one of the following conditions:
(A) Pregnant: PROVIDED, That need is based on the current
income and resource requirements of the federal temporary assistance
for needy families program; or
(B) Subject to chapter 165, Laws of 1992, incapacitated from
gainful employment by reason of bodily or mental infirmity that will
likely continue for a minimum of ninety days as determined by the
department.
(C) Persons who are unemployable due to alcohol or drug
addiction are not eligible for general assistance. Persons receiving
general assistance on July 26, 1987, or becoming eligible for such
assistance thereafter, due to an alcohol or drug related incapacity,
shall be referred to appropriate assessment, treatment, shelter, or
supplemental security income referral services as authorized under
chapter 74.50 RCW. Referrals shall be made at the time of
application or at the time of eligibility review. Alcoholic and drug
addicted clients who are receiving general assistance on July 26,
1987, may remain on general assistance if they otherwise retain their
eligibility until they are assessed for services under chapter 74.50
RCW.
Subsection (6)(a)(ii)(B) of this section shall not be construed
to prohibit the department from granting general assistance benefits to
alcoholics and drug addicts who are incapacitated due to other
physical or mental conditions that meet the eligibility criteria for the
general assistance program;
(iii) Are citizens or aliens lawfully admitted for permanent
residence or otherwise residing in the United States under color of
law; and
(iv) Have furnished the department their social security account
number. If the social security account number cannot be furnished
because it has not been issued or is not known, an application for a
number shall be made prior to authorization of assistance, and the
social security number shall be provided to the department upon receipt.

(b) Notwithstanding the provisions of subsection (6)(a)(i), (ii), and (c) of this section, general assistance shall be provided to the following recipients of federal-aid assistance:

(i) Recipients of supplemental security income whose need, as defined in this section, is not met by such supplemental security income grant because of separation from a spouse;

(ii) To the extent authorized by the legislature in the biennial appropriations act, to recipients of temporary assistance for needy families whose needs are not being met because of a temporary reduction in monthly income below the entitled benefit payment level caused by loss or reduction of wages or unemployment compensation benefits or some other unforeseen circumstances. The amount of general assistance authorized shall not exceed the difference between the entitled benefit payment level and the amount of income actually received.

(c) General assistance shall be provided only to persons who are not members of assistance units receiving federal-aid assistance, except as provided in subsection (6)(a)(i), (ii), and (b) of this section, and will accept available services which can reasonably be expected to enable the person to work or reduce the need for assistance unless there is good cause to refuse. Failure to accept such services shall result in termination until the person agrees to cooperate in accepting such services and subject to the following maximum periods of ineligibility after reaplication:

(i) First failure: One week;

(ii) Second failure within six months: One month;

(iii) Third and subsequent failure within one year: Two months.

(d) Persons found eligible for general assistance based on incapacity from gainful employment may, if otherwise eligible, receive general assistance pending application for federal supplemental security income benefits. Any general assistance that is subsequently duplicated by the person's receipt of supplemental security income for the same period shall be considered a debt due the state and shall be subject to recovery through all available legal remedies.

(e) The department shall adopt by rule medical criteria for general assistance eligibility to ensure that eligibility decisions are consistent with statutory requirements and are based on clear, objective medical information.

(f) The process implementing the medical criteria shall involve consideration of opinions of the treating or consulting physicians or health care professionals regarding incapacity, and any eligibility decision which rejects unconverted medical opinion must set forth clear and convincing reasons for doing so.

(g) Recipients of general assistance based upon a finding of incapacity from gainful employment who remain otherwise eligible shall have their benefits discontinued unless the recipient demonstrates no material improvement in their medical or mental condition. The department may discontinue benefits when there was specific error in the prior determination that found the recipient eligible by reason of incapacity. Recipients of general assistance based upon pregnancy who relinquish their child for adoption remain otherwise eligible, and are not eligible to receive benefits under the federal temporary assistance for needy families program shall not have their benefits terminated until the end of the month in which the period of six weeks following the birth of the recipient's child falls. Recipients of the federal temporary assistance for needy families program who lose their eligibility solely because of the birth and relinquishment of the qualifying child may receive general assistance through the end of the month in which the period of six weeks following the birth of the child falls.

(h) No person may be considered an eligible individual for general assistance with respect to any month if during that month the person:

(i) Is fleeing to avoid prosecution of, or to avoid custody or confinement for conviction of, a felony, or an attempt to commit a felony, under the laws of the state of Washington or the place from which the person flees; or

(ii) Is violating a condition of probation, community supervision, or parole imposed under federal or state law for a felony or gross misdemeanor conviction.

(7) "Recipient"--Any person who has made a request, or on behalf of whom a request has been made, to any county or local office for assistance.

(8) "Applicant"--Any person receiving assistance and in addition those dependents whose needs are included in the recipient's assistance.

(9) "Standards of assistance"--The level of income required by an applicant or recipient to maintain a level of living specified by the department.

(10) "Resource"--Any asset, tangible or intangible, owned by or available to the applicant at the time of application, which can be applied toward meeting the applicant's need, either directly or by conversion into money or its equivalent. The department may by rule designate resources that an applicant may retain and not be ineligible for public assistance because of such resources. Exempt resources shall include, but are not limited to:

(a) A home that an applicant, recipient, or their dependents is living in, including the surrounding property;

(b) Household furnishings and personal effects;

(c) A motor vehicle, other than a motor home, used and useful having an equity value not to exceed five thousand dollars;

(d) A motor vehicle necessary to transport a (physically disabled) household member with a physical disability. This exclusion is limited to one vehicle per (physically disabled) person with a physical disability;

(e) All other resources, including any excess of values exempted, not to exceed one thousand dollars or other limit as set by the department, to be consistent with limitations on resources and exemptions necessary for federal aid assistance. The department shall also allow recipients of temporary assistance for needy families to exempt savings accounts with combined balances of up to an additional three thousand dollars;

(f) Applicants for or recipients of (general assistance)) disability lifeline benefits shall have their eligibility based on resource limitations consistent with the temporary assistance for needy families program rules adopted by the department; and

(g) If an applicant for or recipient of public assistance possesses property and belongings in excess of the ceiling value, such value shall be used in determining the need of the applicant or recipient, except that: (i) The department may exempt resources or income when the income and resources are determined necessary to the applicant's or recipient's restoration to independence, to decrease the need for public assistance, or to aid in rehabilitating the applicant or recipient or a dependent of the applicant or recipient; and (ii) the department may provide grant assistance for a period not to exceed nine months from the date the agreement is signed pursuant to this section to persons who are otherwise ineligible because of excess real property owned by such persons when they are making a good faith effort to disposes of that property: PROVIDED, That:

(A) The applicant or recipient signs an agreement to repay the lesser of the amount of aid received or the net proceeds of such sale;

(B) If the owner of the excess property ceases to make good faith efforts to sell the property, the entire amount of assistance may become an overpayment and a debt due the state and may be recovered pursuant to RCW 43.20B.630;

(C) Applicants and recipients are advised of their right to a fair hearing and afforded the opportunity to challenge a decision that good faith efforts to sell have ceased, prior to assessment of an overpayment under this section; and
(D) At the time assistance is authorized, the department files a lien without a sum certain on the specific property.

((444)) (12) "Income"--(a) All appreciable gains in real or personal property (cash or kind) or other assets, which are received by or become available for use and enjoyment by an applicant or recipient during the month of application or after applying for or receiving public assistance. The department may by rule and regulation exempt income received by an applicant for or recipient of public assistance which can be used by him or her to decrease his or her need for public assistance or to aid in rehabilitating him or her or his or her dependents, but such exemption shall not, unless otherwise provided in this title, exceed the exemptions of resources granted under this chapter to an applicant for public assistance. In addition, for cash assistance the department may disregard income pursuant to RCW 74.08A.230 and 74.12.350.

(b) If, under applicable federal requirements, the state has the option of considering property in the form of lump sum compensatory awards or related settlements received by an applicant or recipient as income or as a resource, the department shall consider such property to be a resource.

((444)) (13) "Need"--The difference between the applicant’s or recipient’s standards of assistance for himself or herself and the dependent members of his or her family, as measured by the standards of the department, and value of all nonexempt resources and nonexempt income received by or available to the applicant or recipient and the dependent members of his or her family.

((444)) (14) For purposes of determining eligibility for public assistance and participation levels in the cost of medical care, the department shall exempt restitution payments made to people of Japanese and Aleut ancestry pursuant to the Civil Liberties Act of 1988 and the Aleutian and Pribilof Island Restoration Act passed by congress, P.L. 100-383, including all income and resources derived therefrom.

((444)) (15) In the construction of words and phrases used in this title, the singular number shall include the plural, the masculine gender shall include both the feminine and neuter genders and the present tense shall include the past and future tenses, unless the context thereof shall clearly indicate to the contrary.

NEW SECTION. Sec. 5. A new section is added to chapter 74.04 RCW to read as follows:

REFERRAL TO THE DEPARTMENT OF VETERANS AFFAIRS. During the application process for disability lifeline benefits, the department shall inquire of each applicant whether he or she has ever served in the United States military service. If the applicant answers in the affirmative, the department shall confer with a veterans benefit specialist with the Washington state department of veterans affairs or a contracted veterans service officer in the community to determine whether the applicant is eligible for any benefits or programs offered to veterans by either the state or the federal government.

NEW SECTION. Sec. 6. A new section is added to chapter 74.04 RCW to read as follows:

EARLY SSI TRANSITION PROJECT. (1) To ensure that persons who are likely eligible for supplemental security income benefits are transitioned from disability lifeline benefits to disability lifeline expedited and the medicaid program, and then to the supplemental security income program as quickly as practicable, the department shall implement the early supplemental security income transition project starting in King, Pierce, and Spokane counties no later than July 1, 2010, and extending statewide no later than October 1, 2011. The program shall be implemented through performance-based contracts with managed health care systems providing medical care services under RCW 74.09.035 or other qualified entities. The participants shall have the following responsibilities and duties under this program:

(a) The entities with whom the department contracts to provide the program shall be responsible for:

(i) Systematically screening persons receiving disability lifeline benefits at the point of eligibility determination or shortly thereafter to determine if the persons should be referred for medical or behavioral health evaluations to determine whether they are likely eligible for supplemental security income;

(ii) Immediately sharing the results of the disability screening with the department;

(iii) Managing disability lifeline incapacity evaluation examinations to provide timely access to needed medical and behavioral health evaluations and standardizing health care providers’ conduct of incapacity evaluations. To maximize the timeliness and efficiency of incapacity evaluation examinations, the department must strongly consider contracting with a managed health care system with a network of health care providers that are trained and have agreed to conduct disability lifeline medical and psychological incapacity and recertification exams. The department may obtain medical evidence and other relevant information from sources other than the contracted entity if such evidence is available at the time of a person’s application for disability lifeline benefits and is sufficient to support a determination that the person is incapacitated;

(iv) Maintaining a centralized appointment and clinical data system; and

(v) Assisting persons receiving disability lifeline benefits with obtaining additional medical or behavioral health examinations needed to meet the disability standard for federal supplemental security income benefits and with submission of applications for supplemental security income benefits.

(b) The department shall be responsible for:

(i) Determining incapacity and eligibility for disability lifeline benefits;

(ii) Making timely determinations that a person receiving disability lifeline benefits is likely eligible for supplemental security income based on medical evidence and other relevant information provided by a contracted entity, and immediately referring such persons to a contracted entity for services;

(iii) Developing standardized procedures for sharing data and information with the contracted entities to ensure timely identification...
of clients who have not been transferred to the disability lifeline expedited program within four months of their date of application, but who may, upon further review, be appropriately transferred to that program;

(iv) Providing case management, in partnership with the managed health care system or contracted entity, to support persons' transition to federal supplemental security income and medicaid benefits; and

(v) Identifying a savings determination methodology, in consultation with the contracted entities, the office of financial management, and the legislature, on or before implementation of the project.

(2) Early supplemental security income transition project contracts shall include the following performance goals:

(a) Persons receiving disability lifeline benefits should be screened within sixty days of entering the program to determine the propriety of their transfer to the disability lifeline expedited program; and

(b) Seventy-five percent of persons receiving disability lifeline benefits that are likely to qualify for supplemental security income benefits shall be transferred to the disability lifeline expedited program within four months of their application for disability lifeline benefits.

(3) The initial focus of the efforts of the early supplemental security income transition project shall be on persons who have been receiving disability lifeline or general assistance unemployable benefits for twelve or more months as of September 1, 2010.

(4) No later than December 1, 2011, the department shall report to the governor and appropriate policy and fiscal committees on whether the early supplemental security income transition project performance goals in subsection (2) of this section were met, including the reasons those goals were or were not met.

(5) Pursuant to RCW 41.06.142(3), performance-based contracting under this section is expressly mandated by the legislature and is not subject to the processes set forth in RCW 41.06.142 (1), (4), and (5).

The statewide expansion of the program under this section shall be considered expressly mandated by the legislature and not be subject to the provisions of RCW 41.06.142 (1), (4), and (5).

A new section is added to chapter 43.330 RCW to read as follows:

DISABILITY LIFELINE HOUSING VOUCHER PROGRAM.

(1) To address the housing issues faced by the disability lifeline applicants in RCW 74.04.005(5)(b), the department of commerce and the department of social and health services shall jointly develop a housing voucher program. The departments also shall develop housing resources to be used by the applicants in RCW 74.04.005(5)(b). To the greatest extent possible, the housing resources shall follow the supportive housing model. The department of commerce shall administer the housing voucher program and shall:

(a) Identify the current supply of private and public housing including acquisition and rental of existing housing stock;

(b) Develop funding strategies for the development of housing resources; and

(c) Design the voucher program to maximize the ability of the department of social and health services to recover federal funding.

(2) If the department of commerce determines that the housing supply is inadequate to meet the need for those applicants qualifying for housing vouchers under RCW 74.04.005(5)(b), those applicants shall instead receive a cash grant administered by the department of social and health services. Upon the department of commerce's determination that the housing supply is adequate to meet the needs of the applicants in RCW 74.04.005(5)(b), housing vouchers rather than cash grants shall be issued to these applicants who apply on or after the department's determination.

(3) The department of commerce and the department of social and health services shall evaluate the impact of the use of housing vouchers under this section and report to the governor and relevant policy and fiscal committees of the legislature by November 30, 2012, on the following items:

(a) The supply, affordability, appropriateness, and use of stable housing;

(b) The following outcomes for persons receiving disability lifeline housing vouchers:

(i) Participation in and completion of chemical dependency or mental health treatment;

(ii) Contact with law enforcement, including arrest and conviction data;

(iii) Use of emergency room services; and

(iv) Involuntary commitment under chapter 71.05 RCW.

NEW SECTION. Sec. 9. A new section is added to chapter 70.47 RCW to read as follows:

BASIC HEALTH PLAN ENROLLMENT. In order to ensure continuity of health care coverage and avoid deterioration in health status, persons who have lost eligibility for disability lifeline benefits under RCW 74.04.005(5) due to improvement in their health status and who are eligible for subsidized basic health coverage shall be given priority for enrollment in the basic health plan. If the administrator closes or limits subsidized enrollment, to the extent funding is available, the basic health plan must continue to accept and process applications for subsidized enrollment from persons described in this section.

NEW SECTION. Sec. 10. A new section is added to chapter 70.96A RCW to read as follows:

ACCESS TO CHEMICAL DEPENDENCY TREATMENT. If an assessment by a certified chemical dependency counselor indicates a need for drug or alcohol treatment, in order to enable a person receiving disability lifeline benefits to improve his or her health status and transition from disability lifeline benefits to employment, or transition to federal disability benefits, the person must be given high priority for enrollment in treatment, within funds appropriated for that treatment. However, first priority for receipt of treatment services must be given to pregnant women and parents of young children. This section expires June 30, 2013. Persons who are terminated from disability lifeline benefits under RCW 74.04.005(5)(h) and are actively engaged in chemical dependency treatment during the month they are terminated shall be provided the opportunity to complete their current course of treatment.

NEW SECTION. Sec. 11. A new section is added to chapter 74.04 RCW to read as follows:

(4) "Available funds" means liquid assets and disposable net monthly income calculated after provision is made for bail obligations. For the purpose of determining available funds, the following definitions shall apply:

(1) "Abandoned" means when the child's parent, guardian, or other custodian has expressed, either by statement or conduct, an intent to forego, for an extended period, parental rights or responsibilities despite an ability to exercise such rights and responsibilities. If the court finds that the petitioner has exercised due diligence in attempting to locate the parent, no contact between the child and the child's parent, guardian, or other custodian for a period of three months creates a rebuttable presumption of abandonment, even if there is no expressed intent to abandon.

(2) "Child" and "juvenile" means any individual under the age of eighteen years.

(3) "Current placement episode" means the period of time that begins with the most recent date that the child was removed from the home of the parent, guardian, or legal custodian for purposes of placement in out-of-home care and continues until: (a) The child returns home; (b) an adoption decree, a permanent custody order, or guardianship order is entered; or (c) the dependency is dismissed, whichever occurs first.

(7) "Developmental disability" means a disability attributable to mental retardation, cerebral palsy, epilepsy, autism, or another neurological or other condition of an individual found by the secretary to be closely related to mental retardation or to require treatment similar to that required for individuals with mental retardation, which disability originates before the individual attains age eighteen, which has continued or can be expected to continue indefinitely, and which constitutes a substantial handicap to the individual.

(8) "Guardian" means the person or agency that: (a) Has been appointed as the guardian of a child in a legal proceeding other than a proceeding under this chapter; and (b) has the legal right to custody of the child pursuant to such appointment. The term "guardian" shall not include a "dependency guardian" appointed pursuant to a proceeding under this chapter.

(9) "Guardian ad litem" means a person, appointed by the court to represent the best interests of a child in a proceeding under this chapter, or in any matter which may be consolidated with a proceeding under this chapter. A "court-appointed special advocate" appointed by the court to be the guardian ad litem for the child, or to perform substantially the same duties and functions as a guardian ad litem, shall be deemed to be guardian ad litem for all purposes and uses of this chapter.

(10) "Guardian ad litem program" means a court-authorized volunteer program, which is or may be established by the superior court of the county in which such proceeding is filed, to manage all aspects of volunteer guardian ad litem representation for children alleged or found to be dependent.    (b) Involuntarily committed to a public mental health facility; or
   (c) Receiving an annual income, after taxes, of one hundred twenty-five percent or less of the federally established poverty level; or
   (d) Unable to pay the anticipated cost of counsel for the matter before the court because his or her available funds are insufficient to pay any amount for the retention of counsel.

(13) "Out-of-home care" means placement in a foster family home or group care facility licensed pursuant to chapter 74.15 RCW.

The description shall identify the services chosen and approved by the parent;
(c) If removal is recommended, a full description of the reasons why the child cannot be protected adequately in the home, including a description of any previous efforts to work with the parents and the child in the home; the in-home treatment programs that have been considered and rejected; the preventive services, including housing assistance, that have been offered or provided and have failed to prevent the need for out-of-home placement, unless the health, safety, and welfare of the child cannot be protected adequately in the home; and the parents' attitude toward placement of the child;
(d) A statement of the likely harms the child will suffer as a result of removal;
(e) A description of the steps that will be taken to minimize the harm to the child that may result if separation occurs including an assessment of the child's relationship and emotional bond with any siblings, and the agency's plan to provide ongoing contact between the child and the child's siblings if appropriate; and

Sec. 14. RCW 26.19.071 and 2009 c 84 s 3 are each amended to read as follows:

(1) Consideration of all income. All income and resources of each parent's household shall be disclosed and considered by the court when the court determines the child support obligation of each parent. Only the income of the parents of the children whose support is at issue shall be calculated for purposes of calculating the basic support obligation. Income and resources of any other person shall not be included in calculating the basic support obligation.

(2) Verification of income. Tax returns for the preceding two years and current pay stubs shall be provided to verify income and deductions. Other sufficient verification shall be required for income and deductions which do not appear on tax returns or pay stubs.

(3) Income sources included in gross monthly income. Except as specifically excluded in subsection (4) of this section, monthly gross income shall include income from any source, including:

(a) Salaries;
(b) Wages;
(c) Commissions;
(d) Deferred compensation;
(e) Overtime, except as excluded for income in subsection (4)(h) of this section;
(f) Contract-related benefits;

Receipt of income and resources from temporary assistance for needy families, supplemental security income, ((general assistance)) disability lifeline benefits, and food stamps shall not be a reason to deviate from the standard calculation.

(5) Determination of net income. The following expenses shall be disclosed and deducted from gross monthly income to calculate net monthly income:

(a) Federal and state income taxes;
(b) Federal insurance contributions act deductions;
(c) Mandatory pension plan payments;
(d) Mandatory union or professional dues;
(e) State industrial insurance premiums;
(f) Court-ordered maintenance to the extent actually paid;
(g) Up to five thousand dollars per year in voluntary retirement contributions actually made if the contributions show a pattern of contributions during the one-year period preceding the action establishing the child support order unless there is a determination that the contributions were made for the purpose of reducing child support; and
(h) Normal business expenses and self-employment taxes for self-employed persons. Justification shall be required for any business expense deduction about which there is disagreement.

Items deducted from gross income under this subsection shall not be a reason to deviate from the standard calculation.

(6) Imputation of income. The court shall impute income to a parent when the parent is voluntarily unemployed or voluntarily underemployed. The court shall determine whether the parent is
voluntarily underemployed or voluntarily unemployed based upon that parent's work history, education, health, and age, or any other relevant factors. A court shall not impute income to a parent who is gainfully employed on a full-time basis, unless the court finds that the parent is voluntarily underemployed and finds that the parent is purposely underemployed to reduce the parent's child support obligation. Income shall not be imputed for an unemployed parent. Income shall not be imputed to a parent to the extent the parent is unemployed or significantly underemployed due to the parent's efforts to comply with court-ordered reunification efforts under chapter 13.34 RCW or under a voluntary placement agreement with an agency supervising the child. In the absence of records of a parent's actual earnings, the court shall impute a parent's income in the following order of priority:

Sec. 15. RCW 31.04.540 and 2009 c 149 s 8 are each amended to read as follows:
(1) To the extent that implementation of this section does not conflict with federal law resulting in the loss of federal funding, proprietary reverse mortgage loan advances made to a borrower must be treated as proceeds from a loan and not as income for the purpose of determining eligibility and benefits under means-tested programs of aid to individuals.
(2) Undisbursed reverse mortgage funds must be treated as equity in the borrower's home and not as proceeds from a loan, resources, or assets for the purpose of determining eligibility and benefits under means-tested programs of aid to individuals.
(3) This section applies to any law or program relating to payments, allowances, benefits, or services provided on a means-tested basis by this state including, but not limited to, optional state supplements to the federal supplemental security income program, low-income energy assistance, property tax relief, (general assistance)) disability lifestyle benefits, and medical assistance only to the extent this section does not conflict with Title 19 of the federal social security act.

(2) "Family" means the spouse or domestic partner, surviving spouse, surviving domestic partner, and dependent children of a living or deceased veteran.
(3) "Indigent" means a person who is defined as such by the county legislative authority using one or more of the following definitions:

(c) Unable to pay reasonable costs for shelter, food, utilities, and transportation because his or her available funds are insufficient.
(4) "Indirect costs" includes those allowable costs that are generally associated with carrying out the statutory objectives of this chapter, but the identification and tracking of those costs cannot be readily assigned to a specific statutory objective without an accounting effort that is disproportionate to the benefit received. A county legislative authority may allocate allowable indirect costs to its veterans' assistance fund if it is accomplished in a manner consistent with the cost principles promulgated by the federal office of management and budget in circular No. A-87, dated May 10, 2004.

An appropriate living situation shall include a place of residence that is maintained by the applicant's parents, parent, legal guardian, or other adult relative as their or his or her own home and that the department finds would provide an appropriate supportive living arrangement. It also includes a living situation maintained by an agency that is licensed under chapter 74.15 RCW that the department finds would provide an appropriate supportive living arrangement. Grant assistance shall not be provided under this chapter if the applicant does not reside in the most appropriate living situation, as determined by the department.
(2) A pregnant minor residing in the most appropriate living situation, as provided under subsection (1) of this section, is presumed to be unable to manage adequately the funds paid to the minor or on behalf of the dependent child or children and, unless the minor provides sufficient evidence to rebut the presumption, shall be subject to the protective payee requirements provided for under RCW 74.12.250 and 74.08.280.
(3) The department shall consider any statements or opinions by either parent of the unmarried minor parent or pregnant minor

The department shall provide the parents or parent with the opportunity to make a showing that the parental home, or home of the other relative placement, is the most appropriate living situation. It shall be presumed in any administrative or judicial proceeding conducted under this subsection that the parental home or other relative placement requested by the parents or parent is the most appropriate living situation. This presumption is rebuttable.

(4) In cases in which the minor is unmarried and unemployed, the department shall, as part of the determination of the appropriate living situation, provide information about adoption including referral to community-based organizations providing counseling.

(5) For the purposes of this section, "most appropriate living situation" shall not include a living situation including an adult male who fathered the qualifying child and is found to meet the elements of rape of a child as set forth in RCW 9A.44.079.

Sec. 19. RCW 74.04.120 and 1979 c 141 s 301 are each amended to read as follows:

Allocations of state and federal funds shall be made upon the basis of need within the respective counties as disclosed by the quarterly budgets, considered in conjunction with revenues available for the satisfaction of that need: PROVIDED, That in preparing his quarterly budget for federal aid assistance, the administrator shall include the aggregate of the individual case load approved by the department to date on the basis of need and the secretary shall approve and allocate an amount sufficient to serve the aggregate case load as included in said budget, and in the event any portion of the budgeted case load cannot be serviced with moneys available for the particular category for which an application is made the committee may on the administrator's request authorize the transfer of sufficient (general assistance) disability lifeline program funds to the appropriation for such category to service such case load and secure the benefit of federal matching funds.

(2) The department is authorized to establish reasonable standards of assistance and resource and income exemptions specifically for such program of state supplementation which shall be consistent with the provisions of the Social Security Act.

(3) The department is authorized to make payments to applicants for supplemental security income, pursuant to agreements as provided in Public Law 93-368, who are otherwise eligible for (general assistance) disability lifeline benefits.

(4) Any agreement between the department and a supplemental security income applicant providing for the reimbursement of interim assistance to the department shall provide, if the applicant has been represented by an attorney, that twenty-five percent of the reimbursement received shall be withheld by the department and all or such portion thereof as has been approved as a fee by the United States department of health and human services shall be released directly to the applicant's attorney. The secretary may maintain such records as are deemed appropriate to measure the cost and effectiveness of such agreements and may make recommendations concerning the continued use of such agreements to the legislature.

The department shall establish consolidated standards of need each fiscal year which may vary by geographical areas, program, and family size, for temporary assistance for needy families, refugee assistance, supplemental security income, and (general assistance) disability lifeline benefits. Standards for temporary assistance for needy families, refugee assistance, and (general assistance) disability lifeline benefits shall be based on studies of actual living costs and generally recognized inflation indices and shall include reasonable allowances for shelter, fuel, food, transportation, clothing, household maintenance and operations, personal maintenance, and necessary incidentals. The standard of need may take into account the economies of joint living arrangements, but unless explicitly required by federal statute, there shall not be proration of any portion of assistance grants unless the amount of the grant standard is equal to the standard of need.

The department is authorized to establish rateable reductions and grant maximums consistent with federal law.

Payment level will be equal to need or a lesser amount if rateable reductions or grant maximums are imposed. In no case shall a recipient of supplemental security income receive a state supplement less than the minimum required by federal law.

The department may establish a separate standard for shelter provided at no cost.

Sec. 24. RCW 74.08.043 and 1981 1st exs. c 6 s 12 are each amended to read as follows:

In determining the living requirements of otherwise eligible applicants and recipients of supplemental security income and (general assistance) disability lifeline benefits, the department is authorized to consider the need for personal and special care and supervision due to physical and mental conditions.

In order to comply with federal statutes and regulations pertaining to federal matching funds and to provide for the prompt payment of initial grants and adjusting payments of grants the secretary is authorized to make provisions for the cash payment of assistance by the secretary or county administrators by the establishment of a central operating fund. The secretary may establish such a fund with the approval of the state auditor from moneys appropriated to the department for the payment of (general assistance) disability lifeline benefits in a sum not to exceed one million dollars. Such funds shall be deposited as agreed upon by the secretary and the state auditor in accordance with the laws regulating the deposits of public funds. Such security shall be required of the depository in connection with the fund as the state treasurer may prescribe. Moneys remaining in the fund shall be returned to the general fund at the end of the biennium, or an accounting of proper expenditures from the fund shall be made to the state auditor. All expenditures from such central operating fund shall be reimbursed out of and charged to the proper program appropriated by the use of such forms and vouchers as are approved by the secretary of the department and the state auditor.
Expenditures from such fund shall be audited by the director of financial management and the state auditor from time to time and a report shall be made by the state auditor and the secretary as are required by law.

**Sec. 26.** RCW 74.08.335 and 1997 c 59 s 13 are each amended to read as follows:

Temporary assistance for needy families and (general assistance) disability lifeline benefits shall not be granted to any person who has made an assignment or transfer of property for the purpose of rendering himself or herself eligible for the assistance. There is a rebuttable presumption that a person who has transferred or transfers any real or personal property or any interest in property within two years of the date of application for the assistance without receiving adequate monetary consideration therefor, did so for the purpose of rendering himself or herself eligible for the assistance. Any person who transfers property for the purpose of rendering himself or herself eligible for assistance, or any person who after becoming a recipient transfers any property or any interest in property without the consent of the secretary, shall be ineligible for assistance for a period of time during which the reasonable value of the property so transferred would have been adequate to meet the person’s needs under normal conditions of living: PROVIDED, That the secretary is hereby authorized to allow exceptions in cases where undue hardship would result from a denial of assistance.

**Sec. 27.** RCW 74.08A.210 and 1997 c 58 s 302 are each amended to read as follows:

1. In order to prevent some families from developing dependency on temporary assistance for needy families, the department shall make available to qualifying applicants a diversion program designed to provide brief, emergency assistance for families in crisis whose income and assets would otherwise qualify them for temporary assistance for needy families.

2. Diversion assistance may include cash or vouchers in payment for the following needs:
   a. Child care;
   b. Housing assistance;
   c. Transportation-related expenses;
   d. Food;
   e. Medical costs for the recipient’s immediate family;
   f. Employment-related expenses which are necessary to keep or obtain paid unsubsidized employment.

3. Diversion assistance is available once in each twelve-month period for each adult applicant. Recipients of diversion assistance are not included in the temporary assistance for needy families program.

4. Diversion assistance may not exceed one thousand five hundred dollars for each instance.

5. To be eligible for diversion assistance, a family must otherwise be eligible for temporary assistance for needy families.

6. Families ineligible for temporary assistance for needy families or (general assistance) disability lifeline benefits due to sanction, noncompliance, the lump sum income rule, or any other reason are not eligible for diversion assistance.

7. Families must provide evidence showing that a bona fide need exists according to subsection (2) of this section in order to be eligible for diversion assistance.

   An adult applicant may receive diversion assistance of any type no more than once per twelve-month period. If the recipient of diversion assistance is placed on the temporary assistance for needy families program within twelve months of receiving diversion assistance, the prorated dollar value of the assistance shall be treated as a loan from the state, and recovered by deduction from the recipient’s cash grant.

MESSAGE FROM THE SENATE

March 19, 2010

Mr. Speaker:

The Senate has passed ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 2956 with the following amendment:

0) Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. PURPOSE, FINDINGS, AND INTENT. (1) The purpose of this chapter is to provide for a safety net assessment on certain Washington hospitals, which will be used solely to augment funding from all other sources and thereby obtain additional funds to restore recent reductions and to support additional payments to hospitals for medicaid services.

(2) The legislature finds that:

(a) Washington hospitals, working with the department of social and health services, have proposed a hospital safety net assessment to generate additional state and federal funding for the medicaid program, which will be used to partially restore recent inpatient and outpatient reductions in hospital reimbursement rates and provide for an increase in hospital payments; and

(b) The hospital safety net assessment and hospital safety net assessment fund created in this chapter allows the state to generate additional federal financial participation for the medicaid program and provides for increased reimbursement to hospitals.

(3) In adopting this chapter, it is the intent of the legislature:

(a) To impose a hospital safety net assessment to be used solely for the purposes specified in this chapter;

(b) That funds generated by the assessment shall be used solely to augment all other funding sources and not as a substitute for any other funds;

(c) That the total amount assessed not exceed the amount needed, in combination with all other available funds, to support the
reimbursement rates and other payments authorized by this chapter; and
(d) To condition the assessment on receiving federal approval for receipt of additional federal financial participation and on continuation of other funding sufficient to maintain hospital inpatient and outpatient reimbursement rates and small rural disproportionate share payments at least at the levels in effect on June 30, 2009.

(ii) Each prospective payment system hospital shall pay an assessment of one dollar for each annual nonmedicare hospital inpatient day over and above sixty thousand per year, multiplied by a ratio, the numerator of which is the number of days between June 30, 2009, and the day after the applicable conditions established by section 17(1) of this act have been met and the denominator of which is three hundred sixty-five.

(4) Long-term acute care hospitals.

NEW SECTION, Sec. 6. ADMINISTRATION AND COLLECTION. (1) The department, in cooperation with the office of financial management, shall develop rules for determining the amount to be assessed to individual hospitals, notifying individual hospitals of the assessed amount, and collecting the amounts due. Such rule making shall specifically include provision for:

(a) Transmittal of quarterly notices of assessment by the department to each hospital informing the hospital of its nonmedicare hospital inpatient days and the assessment amount due and payable. Such quarterly notices shall be sent to each hospital at least thirty calendar days prior to the due date for the quarterly assessment payment.

(b) Interest on delinquent assessments at the rate specified in RCW 82.32.050.

(c) Adjustment of the assessment amounts as follows:

(i) For each fiscal year beginning July 1, 2010, the assessment amounts under section 4 (1) and (3) of this act may be adjusted as follows:

(A) If sufficient other funds for hospitals, including any increase in federal financial participation for hospital payments in addition to what is provided under section 5001 of P.L. No. 111-5 or any extensions thereof, are available to support the reimbursement rates and other payments under section 9, 10, 11, 12, or 13 of this act without utilizing the full assessment authorized under section 4 (1) or (3) of this act, the department shall reduce the amount of the assessment for prospective payment system, psychiatric, and rehabilitation hospitals proportionately to the minimum level necessary to support those reimbursement rates and other payments.

(B) Provided that none of the conditions set forth in section 17(2) of this act have occurred, if the department's forecasts indicate that the assessment amounts under section 4 (1) and (3) of this act, together with all other available funds, are not sufficient to support the reimbursement rates and other payments under section 9, 10, 11, 12, or 13 of this act, the department shall increase the assessment rates for prospective payment system, psychiatric, and rehabilitation hospitals proportionately to the amount necessary to support those reimbursement rates and other payments, plus a contingency factor up to ten percent of the total assessment amount.

(C) Any positive balance remaining in the fund at the end of the fiscal year shall be applied to reduce the assessment amount for the subsequent fiscal year.

(ii) Any adjustment to the assessment amounts pursuant to this subsection, and the data supporting such adjustment, including but not limited to relevant data listed in subsection (2) of this section, must be submitted to the Washington state hospital association for review and comment at least sixty calendar days prior to implementation of such adjusted assessment amounts. Any review and comment provided by the Washington state hospital association shall not limit the ability of the Washington state hospital association or its members to challenge an adjustment or other action by the department that is not made in accordance with this chapter.

(2) By November 30th of each year, the department shall provide the following data to the Washington state hospital association:

(a) The fund balance;

(b) The amount of assessment paid by each hospital;

(c) The annual medicare fee-for-service payments for inpatient hospital services and outpatient hospital services; and

(d) The medicare healthy options inpatient and outpatient payments as reported by all hospitals to the department on disproportionate share hospital applications. The department shall amend the disproportionate share hospital application and reporting...

(3) The department shall determine the number of nonmedicare hospital inpatient days for each hospital for each assessment period.

(4) To the extent necessary, the department shall amend the contracts between the managed care organizations and the department and between regional support networks and the department to incorporate the provisions of section 13 of this act. The department shall pursue amendments to the contracts as soon as possible after the effective date of this act. The amendments to the contracts shall, among other provisions, provide for increased payment rates to managed care organizations in accordance with section 13 of this act.

NEW SECTION. Sec. 8. ASSESSMENT PART OF OPERATING OVERHEAD. The incidence and burden of assessments imposed under this chapter shall be on hospitals and the expense associated with the assessments shall constitute a part of the operating overhead of hospitals. (2) Recalculate the amount payable to each hospital that submitted an otherwise allowable claim for inpatient and outpatient medicaid-covered services rendered from and after July 1, 2009, up to and including the date when the applicable conditions under section 17(1) of this act have been satisfied, as if the four percent medicaid inpatient and outpatient rate reductions did not occur effective July 1, 2009, and, within sixty calendar days after the date upon which the applicable conditions set forth in section 17(1) of this act have been satisfied, remit the difference to each hospital.

(b) Harborview medical center and University of Washington medical center:
(i) Inpatient psychiatric services: Three percent;
(ii) Inpatient services: Three percent;
(iii) Outpatient services: Twenty-one percent.
(c) Rehabilitation hospitals:
(i) Inpatient services: Twelve percent;
(ii) Outpatient services: Thirty-two percent.
(d) Psychiatric hospitals:
(i) Inpatient psychiatric services: Twelve percent;
(ii) Inpatient services: Twelve percent.
(2) For claims processed for services rendered on or after February 1, 2010, but prior to satisfaction of the applicable conditions specified in section 17(1) of this act, the department shall, within sixty calendar days after satisfaction of those conditions, calculate the amount payable to hospitals in accordance with this section and remit the difference to each hospital that has submitted an otherwise allowable claim for payment for such services.

(3) By December 1, 2012, the department will submit a study to the legislature with recommendations on the amount of the assessments necessary to continue to support hospital payments for the 2013-15 biennium. The evaluation will assess medicaid hospital payments relative to medicaid hospital costs. The study should address current federal law, including any changes on scope of medicaid coverage and provisions related to provider taxes. The study should also address the state's economic forecast. Based on the forecast, the department should recommend the amount of assessment needed to support future hospital payments and the departmental administrative expenses. Recommendations should be developed with the fiscal committees of the legislature, office of financial management and the Washington state hospital association.

NEW SECTION. Sec. 11. CRITICAL ACCESS HOSPITAL PAYMENTS. Upon satisfaction of the applicable conditions set forth in section 17(1) of this act, the department shall pay critical access hospitals that do not qualify for or receive a small rural disproportionate share payment in the subject state fiscal year an access payment of fifty dollars for each medicaid inpatient day, exclusive of days on which a swing bed is used for subacute care, from and after July 1, 2009. Initial payments to hospitals, covering the period from July 1, 2009, to the date when the applicable conditions under section 17(1) of this act are satisfied, shall be made within sixty calendar days after such conditions are satisfied. Subsequent payments shall be made to critical access hospitals on an annual basis at the time that disproportionate share eligibility and payment for the state fiscal year are established. These payments shall be in addition to any other amount payable with respect to services provided by critical access hospitals and shall not reduce any other payments to critical access hospitals.

NEW SECTION. Sec. 12. DISPROPORTIONATE SHARE HOSPITAL PAYMENTS. Upon satisfaction of the applicable conditions set forth in section 17(1) of this act, small rural disproportionate share payments shall be increased to one hundred twenty percent of the level in effect as of June 30, 2009, for the period from and after July 1, 2009, until July 1, 2013. Initial payments, covering the period from July 1, 2009, to the date when the applicable conditions under section 17(1) of this act are satisfied, shall be made within sixty calendar days after those conditions are satisfied. Subsequent payments shall be made directly to hospitals by the department on a periodic basis.

NEW SECTION. Sec. 13. INCREASED MANAGED CARE PAYMENTS AND CORRESPONDING PAYMENTS TO HOSPITALS. Subject to the applicable conditions set forth in section 17(1) of this act, the department shall:

(1) Amend medicaid-managed care and regional support network contracts as necessary in order to ensure compliance with this chapter;

(2) With respect to the inpatient and outpatient rates established by section 9 of this act:

(a) Upon satisfaction of the applicable conditions under section 17(1) of this act, increase payments to managed care organizations and regional support networks as necessary to ensure that hospitals are reimbursed in accordance with section 9(1) of this act for services rendered from and after the date when applicable conditions under section 17(1) of this act have been satisfied, and pay an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks due as a result of the payments under this section, and require managed care organizations and regional support networks to make payments to each hospital in accordance with section 9 of this act. The increased payments made to hospitals pursuant to this subsection shall be in
addition to any other amounts payable to hospitals by managed care organizations or regional support networks and shall not affect any other payments to hospitals;

(b) Within sixty calendar days after satisfaction of the applicable conditions under section 17(1) of this act, calculate the additional amount due to each hospital to pay claims submitted for inpatient and outpatient medicaid-covered services rendered from and after July 1, 2009, through the date when the applicable conditions under section 17(1) of this act have been satisfied, based on the rates required by section 9(2) of this act, make payments to managed care organizations and regional support networks in amounts sufficient to pay the additional amounts due to each hospital plus an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks due as a result of the payments under this subsection, and require managed care organizations and regional support networks to make payments to each hospital in accordance with the department's calculations within forty-five calendar days after the department disburses funds for those purposes.

(3) With respect to the inpatient and outpatient hospital rates established by section 10 of this act:

(a) Upon satisfaction of the applicable conditions under section 17(1) of this act, increase payments to managed care organizations and regional support networks as necessary to ensure that hospitals are reimbursed in accordance with section 10 of this act, and pay an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks due as a result of the payments under this section;

(b) Require managed care organizations and regional support networks to reimburse hospitals for hospital inpatient and outpatient services rendered after the date that the applicable conditions under section 17(1) of this act are satisfied at rates no lower than the combined rates established by sections 9 and 10 of this act;

(c) Within sixty calendar days after satisfaction of the applicable conditions under section 17(1) of this act, calculate the additional amount due to each hospital to pay claims submitted for inpatient and outpatient medicaid-covered services rendered from and after February 1, 2010, through the date when the applicable conditions under section 17(1) of this act are satisfied based on the rates required by section 10 of this act, make payments to managed care organizations and regional support networks in amounts sufficient to pay the additional amounts due to each hospital plus an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks, and require managed care organizations and regional support networks to make payments to each hospital in accordance with the department's calculations within forty-five calendar days after the department disburses funds for those purposes;

(d) Require managed care organizations that contract with health care organizations that provide, directly or by contract, health care services on a prepaid or capitated basis to make payments to health care organizations for any of the hospital payments that the managed care organizations would have been required to pay to hospitals under this section if the managed care organizations did not contract with those health care organizations, and require the managed care organizations to require those health care organizations to make equivalent payments to the hospitals that would have received payments under this section if the managed care organizations did not contract with the health care organizations;

(4) The department shall ensure that the increases to the medicaid fee schedules as described in section 10 of this act are included in the development of healthy options premiums.

(5) The department may require managed care organizations and regional support networks to demonstrate compliance with this section.

NEW SECTION Sec. 14. QUALITY INCENTIVE PAYMENTS. (1) The department, in collaboration with the health care authority, the department of health, the department of labor and industries, the Washington state hospital association, the Puget Sound health alliance, and the forum, a collaboration of health carriers, physicians, and hospitals in Washington state, shall design a system of hospital quality incentive payments. The design of the system shall be submitted to the relevant policy and fiscal committees of the legislature by December 15, 2010. The system shall be based upon the following principles:

(a) Evidence-based treatment and processes shall be used to improve health care outcomes for hospital patients;

(b) Effective purchasing strategies to improve the quality of health care services should involve the use of common quality improvement measures by public and private health care purchasers, while recognizing that some measures may not be appropriate for application to specialty pediatric, psychiatric, or rehabilitation hospitals;

(c) Quality measures chosen for the system should be consistent with the standards that have been developed by national quality improvement organizations, such as the national quality forum, the federal centers for medicare and medicaid services, or the federal agency for healthcare research and quality. New reporting burdens to hospitals should be minimized by giving priority to measures hospitals are currently required to report to governmental agencies, such as the hospital compare measures collected by the federal centers for medicare and medicaid services;

(d) Benchmarks for each quality improvement measure should be set at levels that are feasible for hospitals to achieve, yet represent real improvements in quality and performance for a majority of hospitals in Washington state; and

(e) Hospital performance and incentive payments should be designed in a manner such that all noncritical access hospitals in Washington are able to receive the incentive payments if performance is at or above the benchmark score set in the system established under this section.

(2) Upon satisfaction of the applicable conditions set forth in section 17(1) of this act, and for state fiscal year 2013 and each fiscal year thereafter, assessments may be increased to support an additional one percent increase in inpatient hospital rates for noncritical access hospitals that meet the quality incentive benchmarks established under this section.

NEW SECTION Sec. 15. A new section is added to chapter 70.47 RCW to read as follows:

The increases in inpatient and outpatient reimbursement rates included in chapter 74.---- RCW (the new chapter created in section 23 of this act) shall not be reflected in hospital payment rates for services provided to basic health enrollees under this chapter.

NEW SECTION Sec. 16. MULTIHOSPITAL LOCATIONS, NEW HOSPITALS, AND CHANGES IN OWNERSHIP. (1) If an entity owns or operates more than one hospital subject to assessment under this chapter, the entity shall pay the assessment for each hospital separately. However, if the entity operates multiple hospitals under a single medicaid provider number, it may pay the assessment for the hospitals in the aggregate.

(2) Notwithstanding any other provision of this chapter, if a hospital subject to the assessment imposed under this chapter ceases to conduct hospital operations throughout a state fiscal year, the assessment for the quarter in which the cessation occurs shall be adjusted by multiplying the assessment computed under section 4 (1) and (3) of this act by a fraction, the numerator of which is the number of days during the year which the hospital conducts, operates, or maintains the hospital and the denominator of which is three hundred sixty-five. Immediately prior to ceasing to conduct, operate, or maintain a hospital, the hospital shall pay the adjusted assessment for the fiscal year to the extent not previously paid.
(3) Notwithstanding any other provision of this chapter, in the case of a hospital that commences conducting, operating, or maintaining a hospital that is not exempt from payment of the assessment under section 5 of this act and that did not conduct, operate, or maintain such hospital throughout the cost reporting year used to determine the assessment amount, the assessment for that hospital shall be computed based on the cost report data previously submitted by that hospital. The assessment shall be allocated between the transferee based on the number of days within the assessment period that each owned, operated, or maintained the hospital.

NEW SECTION. Sec. 17. CONDITIONS. (1) The assessment, collection, and disbursement of funds under this chapter shall be conditional upon:

(a) Withdrawal of those aspects of any pending state plan amendments previously submitted to the centers for medicare and medicaid services that are inconsistent with this chapter, specifically any pending state plan amendment related to the four percent rate reductions for inpatient and outpatient hospital rates and elimination of the small rural disproportionate share hospital payment program as implemented July 1, 2009;

(b) Approval by the centers for medicare and medicaid services of any state plan amendments or waiver requests that are necessary in order to implement the applicable sections of this chapter;

(c) To the extent necessary, amendment of contracts between the department and managed care organizations in order to implement this chapter; and

(d) Certification by the office of financial management that appropriations have been adopted that fully support the rates established in this chapter for the upcoming fiscal year.

(2) This chapter does not take effect or cease to be imposed, and any moneys remaining in the fund shall be refunded to hospitals in proportion to the amounts paid by such hospitals, if and to the extent that:

(a) An appellate court or the centers for medicare and medicaid services makes a final determination that any element of this chapter, other than section 11 of this act, cannot be validly implemented;

(b) Medicaid inpatient or outpatient reimbursement rates for hospitals are reduced below the combined rates established by sections 9 and 10 of this act;

(c) Except for payments to the University of Washington medical center, and Harborview medical center, payments to hospitals required under sections 9, 10, 12, and 13 of this act are not eligible for federal matching funds;

(d) Other funding available for the medicare program is not sufficient to maintain medicare inpatient and outpatient reimbursement rates for hospitals and small rural disproportionate share payments at one hundred percent of the levels in effect on July 1, 2009; or

(e) The fund is used as a substitute for or to supplant other funds, except as authorized by section 3(3)(e) of this act.

NEW SECTION. Sec. 18. SEVERABILITY. (1) The provisions of this chapter are not severable: If the conditions set forth in section 17(1) of this act are not satisfied or if any of the circumstances set forth in section 17(2) of this act should occur, this entire chapter shall have no effect from that point forward, except that if the payment under section 11 of this act, or the application thereof to any hospital or circumstances does not receive approval by the centers for medicare and medicaid services as described in section 17(1)(b) of this act or is determined to be unconstitutional or otherwise invalid, the other provisions of this chapter or its application to hospitals or circumstances other than those to which it is held invalid shall not be affected thereby.

(2) In the event that any portion of this chapter shall have been validly implemented and the entire chapter is later rendered ineffective under this section, prior assessments and payments under the validly implemented portions shall not be affected.

(3) In the event that the payment under section 11 of this act, or the application thereof to any hospital or circumstances does not receive approval by the centers for medicare and medicaid services as described in section 17(1)(b) of this act or is determined to be unconstitutional or otherwise invalid, the amount of the assessment shall be adjusted under section 6(1)(c) of this act.

Sec. 19. 2009 c 564 s 209 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--MEDICAL ASSISTANCE PROGRAM

General Fund--State Appropriation (FY 2010) $1,597,387,000

General Fund--State Appropriation (FY 2011) $1,984,797,000

General Fund--Federal Appropriation $5,210,672,000

Emergency Medical Services and Trauma Care Systems Trust Account--State Appropriation $15,076,000

Tobacco Prevention and Control Account--State Appropriation $3,766,000

TOTAL APPROPRIATION $8,824,601,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(3) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(4) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(5) In accordance with RCW 74.46.625, $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate- setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicaid cost reports. The timing of the interim and final cost settlements shall be at the department's discretion. During either the interim cost settlement or the final cost
settlement, the department shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The department shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(6) $1,110,000 of the general fund--federal appropriation and $1,105,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(7) $9,818,000 of the general fund--state appropriation for fiscal year 2011, and $9,865,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2009-11 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit reports to the governor and legislature by November 1, 2009, and by November 1, 2010, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2010 and fiscal year 2011, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2009-11 biennium. If payments during the fiscal year exceed the hospital’s baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $6,570,000 of the general fund--state appropriation for fiscal year 2010, which is appropriated in section 204(1) of this act, and $1,500,000 of the general fund--state appropriation for fiscal year 2011, which is appropriated in section 204(1) of this act, are provided solely for state grants for the participating hospitals. Sufficient amounts are appropriated in this section for the remaining state grants for the participating hospitals.

(9) The department is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the department determines it is cost-effective to do so.

(10) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(11) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is at least equivalent to the benefit provided in the 2003-05 biennium.

(12) $93,000 of the general fund--state appropriation for fiscal year 2010 and $93,000 of the general fund--federal appropriation are provided solely for the department to purchase a federal Medicaid waiver pursuant to Second Substitute Senate Bill No. S945 (Washington health partnership plan). If the bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(13) The department shall require managed health care systems that have contracts with the department to serve medical assistance clients to limit any reimbursements or payments the systems make to providers not employed by or under contract with the systems to no more than the medical assistance rates paid by the department to providers for comparable services rendered to clients in the fee-for-service delivery system.

(14) Appropriations in this section are sufficient for the department to continue to fund family planning nurses in the community services offices.

(15) The department, in coordination with stakeholders, will conduct an analysis of potential savings in utilization of home dialysis. The department shall present its findings to the appropriate house of representatives and senate committees by December 2010.

(16) A maximum of $166,875,000 of the general fund--state appropriation and $38,389,000 of the general fund--federal appropriation may be expended in the fiscal biennium for the general assistance-unemployable medical program, and these amounts are provided solely for this program. Of these amounts, $10,749,000 of the general fund--state appropriation for fiscal year 2010 and $10,892,000 of the general fund--federal appropriation are provided solely for payments to hospitals for providing outpatient services to low income patients who are recipients of general assistance-unemployable. Pursuant to RCW 74.09.035, the department shall not expend for the general assistance medical care services program any amounts in excess of the amounts provided in this subsection.

(17) If the department determines that it is feasible within the amounts provided in subsection (16) of this section, and without the loss of federal disproportionate share hospital funds, the department shall contract with the carrier currently operating a managed care pilot project for the provision of medical care services to general assistance-unemployable clients. Mental health services shall be included in the services provided through the managed care system. If the department determines that it is feasible, effective October 1, 2009, in addition to serving clients in the pilot counties, the carrier shall expand managed care services to clients residing in at least the following counties: Spokane, Yakima, Chelan, Kitsap, and Cowlitz. If the department determines that it is feasible, the carrier shall complete implementation into the remaining counties. Total per person costs to the state, including outpatient and inpatient services and any additional costs due to stop loss agreements, shall not exceed the per capita payments projected for the general assistance-unemployable eligibility category, by fiscal year, in the February 2009 medical assistance expenditures forecast. The department, in
collaboration with the carrier, shall seek to improve the transition rate of
general assistance clients to the federal supplemental security
income program.

(18) The department shall evaluate the impact of the use of a
managed care delivery and financing system on state costs and
outcomes for general assistance medical clients. Outcomes measured
shall include state costs, utilization, changes in mental health status
and symptoms, and involvement in the criminal justice system.

(19) The department shall report to the governor and the fiscal
committees of the legislature by June 1, 2010, on its progress toward
achieving a twenty percentage point increase in the generic
prescription drug utilization rate.

(20) State funds shall not be used by hospitals for advertising
purposes.

(21) The department shall seek a medicaid state plan amendment
to create a professional services supplemental payment program for
University of Washington medicine professional providers no later
than July 1, 2009. The department shall apply federal rules for
identifying the shortfall between current fee-for-service medicaid
payments to participating providers and the allocable Federal upper
payment limit. Participating providers shall be solely responsible for
providing the local funds required to obtain federal matching funds.

Any incremental costs incurred by the department in the
development, implementation, and maintenance of this program will
be the responsibility of the participating providers. Participating
providers will retain the full amount of supplemental payments
provided under this program, net of any potential costs for any related
audits or litigation brought against the state. The department shall
report to the governor and the legislative fiscal committees on the
prospects for expansion of the program to other qualifying providers
as soon as feasibility is determined but no later than December 31,
2009. The report will outline estimated impacts on the participating
providers, the procedures necessary to comply with federal
guidelines, and the administrative resource requirements necessary to
implement the program. The department will create a process for
expansion of the program to other qualifying providers as soon as it is
determined feasible by both the department and providers but no later
than June 30, 2010.

(22) $9,350,000 of the general fund--state appropriation for fiscal
year 2010, $8,313,000 of the general fund--state appropriation for
fiscal year 2011, and $20,371,000 of the general fund--federal
appropriation are provided solely to implement a replacement system for the existing medicaid
management information system. The amounts provided in this
subsection are conditioned on the department satisfying the
requirements of section 902 of this act.

(23) $506,000 of the general fund--state appropriation for fiscal
year 2011 and $657,000 of the general fund--federal appropriation are
provided solely for the implementation of Second Substitute House
Bill No. 1373 (children's mental health). If the bill is not enacted by
June 30, 2009, the amounts provided in this subsection shall lapse.

(24) Pursuant to 42 U.S.C. Sec. 1396a(25), the department shall
pursue insurance claims on behalf of medicaid children served
through its in-home medically intensive child program under WAC
388-551-3000. The department shall report to the Legislature by
December 31, 2009, on the results of its efforts to recover such
claims.

(25) The department may, on a case-by-case basis and in the best
interests of the child, set payment rates for medically intensive home
care services to promote access to home care as an alternative to
hospitalization. Expenditures related to these increased payments
shall not exceed the amount the department would otherwise pay for
hospitalization for the child receiving medically intensive home care
services.

(26) $425,000 of the general fund--state appropriation for fiscal
year 2010, $425,000 of the general fund--state appropriation for fiscal
year 2011, and $1,580,000 of the general fund--federal appropriation
are provided solely to continue children's health coverage outreach
and education efforts under RCW 74.09.470. These efforts shall rely
on existing relationships and systems developed with local public
health agencies, health care providers, public schools, the women,
infants, and children program, the early childhood education and
assistance program, child care providers, newborn visiting nurses, and
other community-based organizations. The department shall seek
public-private partnerships and federal funds that are or may become
available to provide on-going support for outreach and education
efforts under the federal children's health insurance program
reauthorization act of 2009.

(27) The department, in conjunction with the office of financial
management, shall ((reduce outpatient and inpatient hospital rates
and)) implement a prorated inpatient payment policy. ((In
determining the level of reductions needed, the department shall
include in its calculations services paid under fee for service,
managed care, and certified public expenditure payment methods; but
reductions shall not apply to payments for psychiatric inpatient
services or payments to critical access hospitals.))

(28) The department will pursue a competitive procurement
process for antihemophilic products, emphasizing evidence-based
medicine and protection of patient access without significant
disruption in treatment.

(29) The department will pursue several strategies towards
reducing pharmacy expenditures including but not limited to
increasing generic prescription drug utilization by 20 percentage
points and promoting increased utilization of the existing mail-order
pharmacy program.

(30) The department shall reduce reimbursement for over-the-
counter medications while maintaining reimbursement for those over-
the-counter medications that can replace more costly prescription
medications.

(31) The department shall seek public-private partnerships and
federal funds that are or may become available to implement health
information technology projects under the federal American recovery
and reinvestment act of 2009.

(32) The department shall target funding for maternity support
services towards pregnant women with factors that lead to higher
rates of poor birth outcomes, including hypertension, a preterm or low
birth weight birth in the most recent previous birth, a cognitive deficit
or developmental disability, substance abuse, severe mental illness,
unhealthy weight or failure to gain weight, tobacco use, or African
American or Native American race.

(33) The department shall direct graduate medical education
funds to programs that focus on primary care training.

(34) $79,000 of the general fund--state appropriation for fiscal
year 2010 and $53,000 of the general fund--federal appropriation are
provided solely to implement Substitute House Bill No. 1845
(medical support obligations).

(35) $63,000 of the general fund--state appropriation for fiscal
year 2010, $583,000 of the general fund--state appropriation for fiscal
year 2011, and $864,000 of the general fund--federal appropriation
are provided solely to implement Engrossed House Bill No. 2194
(extraordinary medical placement for offenders). The department
shall work in partnership with the department of corrections to
identify services and find placements for offenders who are released
through the extraordinary medical placement program. The
department shall collaborate with the department of corrections to
identify and track cost savings to the department of corrections,
including medical cost savings, and to identify and track expenditures
incurred by the aging and disability services program for community
services and by the medical assistance program for medical expenses.
A joint report regarding the identified savings and expenditures shall
be provided to the office of financial management and the appropriate
fiscal committees of the legislature by November 30, 2010. If this bill
is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(36) Sufficient amounts are provided in this section to provide full benefit dual eligible beneficiaries with medicare part D prescription drug copayment coverage in accordance with RCW 74.09.520.

Sec. 20. RCW 43.84.092 and 2009 c 479 s 31, 2009 c 472 s 5, and 2009 c 451 s 8 are each reenacted and amended to read as follows:

(1) All earnings of investments of surplus balances in the state treasury shall be deposited to the treasury income account, which account is hereby established in the state treasury.

(2) The treasury income account shall be utilized to pay or receive funds associated with federal programs as required by the federal cash management improvement act of 1990. The treasury income account is subject in all respects to chapter 43.88 RCW, but no appropriation is required for refunds or allocations of interest earnings required by the cash management improvement act. Refunds of interest to the federal treasury required under the cash management improvement act fall under RCW 43.88.180 and shall not require appropriation. The office of financial management shall determine the amounts due to or from the federal government pursuant to the cash management improvement act. SECOND ENGROSSED SUBSTITUTE SENATE BILL NO. 6143, by Senate Committee on Ways & Means (originally sponsored by Senator Prentice)

Relating to revenue and taxation. Revised for 1st Substitute: Modifying excise tax laws to preserve funding for public schools, colleges, and universities, as well as other public systems essential for the safety, health, and security of all Washingtonians.

The bill was read the second time.

There being no objection, amendments (1722) and (1724) were withdrawn.

Representative Hunter moved the adoption of amendment (1720).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. In order to preserve funding for education, public safety, health care, environmental protection, and safety net services for children, elderly, disabled, and vulnerable people, it is the intent of the legislature to close obsolete tax preferences, clarify the legislature's intent regarding existing tax policy, and to ensure balanced tax policy while bolstering emerging industries.

PART I
Minimum Nexus Standards

NEW SECTION. Sec. 101. (1) The legislature finds that out-of-state businesses that do not have a physical presence in Washington earn significant income from Washington residents from providing services or collecting royalties on the use of intangible property in this state. The legislature further finds that these businesses receive significant benefits and opportunities provided by the state, such as: Laws providing protection of business interests or regulating consumer credit; access to courts and judicial process to enforce business rights, including debt collection and intellectual property rights; an orderly and regulated marketplace; and police and fire protection and a transportation system benefiting in-state agents and other representatives of out-of-state businesses. Therefore, the legislature intends to extend the state's business and occupation tax to these companies to ensure that they pay their fair share of the cost of services that this state renders and the infrastructure it provides.

(2)(a) The legislature also finds that the current cost apportionment method in RCW 82.04.460(1) for apportioning most service income has been difficult for both taxpayers and the department to apply due in large part (i) to the difficulty in assigning certain costs of doing business inside or outside of this state, and (ii) to its dissimilarity with the apportionment methods used in other states for their business activity taxes.

(b) The legislature further finds that there is a trend among states to adopt a single factor apportionment formula based on sales. The legislature recognizes that adoption of a sales factor only apportionment method has the advantages of simplifying apportionment and making Washington a more attractive place for businesses to expand their property and payroll. For these reasons, the legislature adopts single factor sales apportionment for purposes of apportioning royalty income and certain service income for state business and occupation tax purposes.

(c) Nothing in this act may be construed, however, to authorize apportionment of the gross income or value of products taxable under the following business and occupation tax classifications: Retailing, wholesaling, manufacturing, processing for hire, extracting, extracting for hire, printing, government contracting, public road construction, the classifications in RCW 82.04.280 (2), (4), (6), and (7), and any other activity not specifically included in the definition of apportionable activities in RCW 82.04.460.

(d) Nothing in this part is intended to modify the nexus and apportionment requirements for local gross receipts business and occupation taxes.

Sec. 102. RCW 82.04.220 and 1961 c 15 s 82.04.220 are each amended to read as follows:
(1) There is levied and ((shall be)) collected from every person that has a substantial nexus with this state a tax for the act or privilege of engaging in business activities. ((Such)) The tax ((shall be)) is measured by the application of rates against value of products, gross proceeds of sales, or gross income of the business, as the case may be. (2) A person who has a substantial nexus with this state in any tax year will be deemed to have a substantial nexus with this state for the following tax year.

NEW SECTION. Sec. 103. A new section is added to chapter 82.04 RCW to read as follows:
"Engaging within this state" and "engaging within the state," when used in connection with any apportionable activity as defined in RCW 82.04.460, means that a person generates gross income of the business from sources within this state, such as customers or intangible property located in this state, regardless of whether the person is physically present in this state.

NEW SECTION. Sec. 104. A new section is added to chapter 82.04 RCW to read as follows:
(1) A person engaging in business is deemed to have substantial nexus with this state if the person is:
(a) An individual and is a resident or domiciliary of this state;
(b) A business enterprise and is organized or commercially domiciled in this state; or
(c) A nonresident individual or a business entity that is organized or commercially domiciled outside this state, and in any tax year the person has:
   (i) More than fifty thousand dollars of property in this state;
   (ii) More than fifty thousand dollars of payroll in this state;
   (iii) More than two hundred fifty thousand dollars of receipts from this state; or
   (iv) At least twenty-five percent of the person's total property, total payroll, or total receipts in this state.

(2)(a) Property counting toward the thresholds in subsection (1)(c)(i) and (iv) of this section is the average value of the taxpayer's property, including intangible property, owned or rented and used in this state during the tax year.

(b)(i) Property owned by the taxpayer, other than loans and credit card receivables owned by the taxpayer, is valued at its original cost basis. Loans and credit card receivables owned by the taxpayer are valued at their outstanding principal balance, without regard to any reserve for bad debts. However, if a loan or credit card receivable is charged off in whole or in part for federal income tax purposes, the portion of the loan or credit card receivable charged off is deducted from the outstanding principal balance.

(ii) Property rented by the taxpayer is valued at eight times the net annual rental rate. For purposes of this subsection, "net annual rental rate" means the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

(c) The average value of property must be determined by averaging the values at the beginning and ending of the tax year; but the department may require the averaging of monthly values during the tax year if reasonably required to properly reflect the average value of the taxpayer's property.

(d)(i) For purposes of this subsection (2), loans and credit card receivables are deemed owned and used in this state as follows:

   (A) Loans secured by real property, personal property, or both real and personal property, are deemed owned and used in the state if the real property or personal property securing the loan is located within this state. If the property securing the loan is located both within this state and one or more other states, the loan is deemed owned and used in this state if more than fifty percent of the fair market value of the real or personal property is located within this state. If more than fifty percent of the fair market value of the real or personal property is not located within any one state, then the loan is deemed owned and used in this state if the borrower is located in this state. The determination of whether the real or personal property securing a loan is located within this state must be made, as of the time the original agreement was made, and any and all subsequent substitutions of collateral must be disregarded.

   (B) Loans not secured by real or personal property are deemed owned and used in this state if the borrower is located in this state.

(ii) (A) Except as otherwise provided in (d)(ii)(B) of this subsection (2), the definitions in the multistate tax commission's recommended formula for the apportionment and allocation of net income of financial institutions as existing on the effective date of this section or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section, apply to this section.

   (B) "Credit card" means a card or device existing for the purpose of obtaining money, property, labor, or services on credit.

   (e) Notwithstanding anything else to the contrary in this subsection, property counting toward the thresholds in subsection (1)(c)(i) and (iv) of this section does not include a person's ownership of, or rights in, computer software as defined in RCW 82.04.215, including computer software used in providing a digital automated service; master copies of software; and digital goods and digital codes residing on servers located in this state.

(3)(a) Payroll counting toward the thresholds in subsection (1)(c)(ii) and (iv) of this section is the total amount paid by the taxpayer for compensation in this state during the tax year plus nonemployee compensation paid to representative third parties in this state. Nonemployee compensation paid to representative third parties includes the gross amount paid to nonemployees who represent the taxpayer in interactions with the taxpayer's clients and includes sales commissions.

(b) Employee compensation is paid in this state if the compensation is properly reportable to this state for unemployment compensation tax purposes, regardless of whether the compensation was actually reported to this state.

(c) Nonemployee compensation is paid in this state if the service performed by the representative third party occurs entirely or primarily within this state.

(d) For purposes of this subsection, "compensation" means wages, salaries, commissions, and any other form of remuneration paid to employees or nonemployees and defined as gross income under 26 U.S.C. Sec. 61 of the federal internal revenue code of 1986, as existing on the effective date of this section.

(4) Receipts counting toward the thresholds in subsection (1)(c)(iii) and (iv) of this section are those amounts included in the numerator of the receipts factor under section 105 of this act and, for financial institutions, those amounts included in the numerator of the receipts factor under the rule adopted by the department as authorized in RCW 82.04.460(2).

(5)(a) Each December, the department must review the cumulative percentage change in the consumer price index. The department must adjust the thresholds in subsection (1)(c)(i) through (iii) of this section if the consumer price index has changed by five percent or more since the later of the effective date of this section, or the date that the thresholds were last adjusted under this subsection.

   For purposes of determining the cumulative percentage change in the consumer price index, the department must compare the consumer price index available as of December 1st of the current year with the consumer price index as of the later of the effective date of this section, or the date that the thresholds were last adjusted under this subsection. The thresholds must be adjusted to reflect that cumulative percentage change in the consumer price index. The adjusted thresholds must be rounded to the nearest one thousand dollars. Any adjustment will apply to tax periods that begin after the adjustment is made.

(b) As used in this subsection, "consumer price index" means the consumer price index for all urban consumers (CPI-U) available from the bureau of labor statistics of the United States department of labor.

(6) Subsections (1) through (5) of this section only apply with respect to the taxes imposed under this chapter on apportionable activities as defined in RCW 82.04.460. For purposes of the taxes imposed under this chapter on any activity not included in the definition of apportionable activities in RCW 82.04.460, a person is deemed to have a substantial nexus with this state if the person has a physical presence in this state, which need only be demonstrably more than a slightest presence. For purposes of this subsection, a person is physically present in this state if the person has property or employees in this state. A person is also physically present in this state if the person, either directly or through an agent or other representative, engages in activities in this state that are significantly associated with the person's ability to establish or maintain a market for its products in this state.

**NEW SECTION. Sec. 105.** A new section is added to chapter 82.04 RCW to read as follows:

(1) The apportionable income of a person within the scope of RCW 82.04.460(1) is apportioned to Washington by multiplying its apportionable income by the receipts factor. Persons who are subject
to tax under more than one of the tax classifications enumerated in RCW 82.04.460(4)(a) (i) through (ix) must calculate a separate receipts factor for each tax classification that the person is taxable under.

(2) For purposes of subsection (1) of this section, the receipts factor is a fraction and is calculated as provided in subsections (3) and (4) of this section and, for financial institutions, as provided in the rule adopted by the department under the authority of RCW 82.04.460(2).

(3)(a) The numerator of the receipts factor is the total gross income of the business of the taxpayer attributable to this state during the tax year from engaging in an apportionable activity. The denominator of the receipts factor is the total gross income of the business of the taxpayer from engaging in an apportionable activity everywhere in the world during the tax year.

(b) Except as otherwise provided in this section, for purposes of computing the receipts factor, gross income of the business generated from each apportionable activity is attributable to the state:

(i) Where the customer received the benefit of the taxpayer's service or the use of the intangible property, where the customer used the taxpayer's intangible property.

(ii) If the customer received the benefit of the service or used the intangible property in more than one state, gross income of the business must be attributed to the state in which the benefit of the service was primarily received or in which the intangible property was primarily used.

(iii) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i) or (ii) of this subsection (3), gross income of the business must be attributed to the state from which the customer ordered the service or, in the case of royalties, the office of the customer from which the royalty agreement with the taxpayer was negotiated.

(iv) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), or (iii) of this subsection (3), gross income of the business must be attributed to the state to which the billing statements or invoices are sent to the customer by the taxpayer.

(v) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), or (iv) of this subsection (3), gross income of the business must be attributed to the state to which the customer sends payment to the taxpayer.

(vi) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), (iv), or (v) of this subsection (3), gross income of the business must be attributed to the state where the customer is located as indicated by the customer's address: (A) Shown in the taxpayer's business records maintained in the regular course of business; or (B) obtained during consummation of the sale or the negotiation of the contract for services or for the use of the taxpayer's intangible property, including any address of a customer's payment instrument when readily available to the taxpayer and no other address is available.

(vii) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), (iv), (v), or (vi) of this subsection (3), gross income of the business must be attributed to the commercial domicile of the taxpayer.

(viii) For purposes of this subsection (3)(b), "customer" means a person or entity to whom the taxpayer makes a sale or renders services or from whom the taxpayer otherwise receives gross income of the business. "Customer" includes anyone who pays royalties or charges in the nature of royalties for the use of the taxpayer's intangible property.

(c) Gross income of the business from engaging in an apportionable activity must be excluded from the denominator of the receipts factor if, in respect to such activity, at least some of the activity is performed in this state, and the gross income is attributable under (b) of this subsection (3) to a state in which the taxpayer is not taxable. For purposes of this subsection (3)(c), "not taxable" means that the taxpayer is not subject to a business activities tax by that state, except that a taxpayer is taxable in a state in which it would be deemed to have a substantial nexus with that state under the standards in section 104(1) of this act regardless of whether that state imposes such a tax. "Business activities tax" means a tax measured by the amount of, or economic results of, business activity conducted in a state. The term includes taxes measured in whole or in part on net income or gross income or receipts. "Business activities tax" does not include a sales tax, use tax, or a similar transaction tax, imposed on the sale or acquisition of goods or services, whether or not denominated a gross receipts tax or a tax imposed on the privilege of doing business.

(d) This subsection (3) does not apply to financial institutions with respect to apportionable income taxable under RCW 82.04.290. Financial institutions must calculate the receipts factor as provided in subsection (4) of this section and the rule adopted by the department under the authority of RCW 82.04.460(2) with respect to apportionable income taxable under RCW 82.04.290. Financial institutions that are subject to tax under any other tax classification enumerated in RCW 82.04.460(4)(a) (i) through (v) and (vi) through (x) must calculate a separate receipts factor, as provided in this section, for each of the other tax classifications that the financial institution is taxable under.

(4) A taxpayer may calculate the receipts factor for the current tax year based on the most recent calendar year for which information is available for the full calendar year. If a taxpayer does not calculate the receipts factor for the current tax year based on previous calendar year information as authorized in this subsection, the business must use current year information to calculate the receipts factor for the current tax year. In either case, a taxpayer must correct the reporting for the current tax year when complete information is available to calculate the receipts factor for that year, but not later than October 31st of the following tax year. Interest will apply to any additional tax due on a corrected tax return. Interest must be assessed at the rate provided for delinquent excise taxes under chapter 82.32 RCW, retroactively to the date the original return was due, and will accrue until the additional taxes are paid. Penalties as provided in RCW 82.32.090 will apply to any such additional tax due only if the current tax year reporting is not corrected and the additional tax is not paid by October 31st of the following tax year. Interest as provided in RCW 82.32.060 will apply to any tax paid in excess of that properly due on a return as a result of a taxpayer using previous calendar year data or incomplete current-year data to calculate the receipts factor.

(5) Unless the context clearly requires otherwise, the definitions in this subsection apply throughout this section.

(a) "Appor tionable activities" and "appor tionable income" have the same meaning as in RCW 82.04.460.

(b) "State" means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any foreign country or political subdivision of a foreign country.

Sec. 106. RCW 82.04.2907 and 2009 c 535 s 407 are each amended to read as follows:

(1) Upon every person engaging within this state in the business of receiving income from royalties ((or charges in the nature of royalties for the granting of intangible rights, such as copyrights, licenses, patents, or franchise fees)), the amount of tax with respect to such business (shall be) is equal to the gross income from royalties ((or charges in the nature of royalties from the business)) multiplied by the rate of 0.484 percent.

(2) For the purposes of this section, "gross income from royalties" means compensation for the use of intangible property, ((such as)) including charges in the nature of royalties, regardless of where the intangible property will be used. For purposes of this subsection, "intangible property" includes copyrights, patents, licenses,
franchises, trademarks, trade names, and similar items. (4h) "Gross income from royalties" does not include compensation for any natural resource, the licensing of prewritten computer software to the end user, or the licensing (or usage) of digital goods, digital codes, or digital automated services to the end user as defined in RCW 82.04.190(11).

Sec. 107. RCW 82.04.2907 and 2010 c . . . (SHB 2620) s 302 are each amended to read as follows:

(1) Upon every person engaging within this state in the business of receiving income from royalties (or charges in the nature of royalties for the granting of intangible rights, such as copyrights, licenses, patents, or franchise fees), the amount of tax with respect to the business is equal to the gross income from royalties (or charges in the nature of royalties from the business) multiplied by the rate of 0.484 percent.

(2) For the purposes of this section, "gross income from royalties" means compensation for the use of intangible property, (each as) including charges in the nature of royalties, regardless of where the intangible property will be used. For purposes of this subsection, "intangible property" includes copyrights, licenses, franchises, trademarks, trade names, and similar items. (4h) "Gross income from royalties" does not include compensation for any natural resource, the licensing of prewritten computer software to the end user, or the licensing of digital goods, digital codes, or digital automated services to the end user as defined in RCW 82.04.190(11).

Sec. 108. RCW 82.04.460 and 2004 c 174 s 6 are each amended to read as follows:

(1) Except as otherwise provided in this section, any person (rendering services) earning apportionable income taxable under (RCW 82.04.200 or 82.04.2008) this chapter and (maintaining places of business both within and without this state which contribute to the rendition of such services shall) also taxable in another state, must, for the purpose of computing tax liability under (RCW 82.04.290 or 82.04.2908) this chapter, apportion to this state, in accordance with section 105 of this act, that portion of the person's (gross) apportionable income (which is) derived from (services rendered) business activities performed within this state. (Where such apportionment cannot be accurately made by separate accounting methods, the taxpayer shall apportion to this state that proportion of the taxpayer's total income which the cost of doing business within the state bears to the total cost of doing business both within and without the state.)

(2) (Notwithstanding the provision of subsection (1) of this section, persons doing business both within and without the state who receive gross income from service charges, as defined in RCW 63.14.100 (relating to amounts charged for granting the right or privilege to make deferred or installment payments) or who receive gross income from engaging in business as financial institutions within the scope of chapter 82.14A RCW (relating to city taxes on financial institutions) shall apportion or allocate gross income taxable under RCW 82.04.290 to this state pursuant to rules promulgated by the department consistent with uniform rules for apportionment or allocation developed by the states.) The department must by rule provide a method of apportioning the apportionable income of financial institutions, where such apportionable income is taxable under RCW 82.04.290. The rule adopted by the department must, to the extent feasible, be consistent with the multistate tax commission's recommended formula for the apportionment and allocation of net income of financial institutions as existing on the effective date of this section or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section, except that:

(a) The department's rule must provide for a single factor apportionment method based on the receipts factor; and

(b) The definition of "financial institution" contained in appendix A to the multistate tax commission's recommended formula for the apportionment and allocation of net income of financial institutions is advisory only.

(3) The department ((shall)) may by rule provide a method or methods of apportioning or allocating gross income derived from sales of telecommunications service and competitive telephone service((s)) taxed under this chapter, if the gross proceeds of sales subject to tax under this chapter do not fairly represent the extent of the taxpayer's income attributable to this state. (The rules shall be, so far as feasible, consistent with the methods of apportionment contained in this section and shall require the consideration of those facts, circumstances, and apportionment factors as will result in an equitable and constitutionally permissible division of the services.)

The rule must provide for an equitable and constitutionally permissible division of the tax base.

(4) For purposes of this section, the following definitions apply unless the context clearly requires otherwise:

(a) "Apportionable income" means gross income of the business generated from engaging in apportionable activities, including income received from apportionable activities performed outside this state if the income would be taxable under this chapter if received from activities in this state, less the exemptions and deductions allowable under this chapter. For purposes of this subsection, "apportionable activities" means only those activities taxed under:

(i) RCW 82.04.255;

(ii) RCW 82.04.260 (3), (4), (5), (6), (7), (8), (9), and (12);

(iii) RCW 82.04.280(5);

(iv) RCW 82.04.285;

(v) RCW 82.04.286;

(vi) RCW 82.04.290;

(vii) RCW 82.04.2907;

(viii) RCW 82.04.2908;

(ix) RCW 82.04.263, but only to the extent of any activity that would be taxable under any of the provisions enumerated under (a)(i) through (viii) of this subsection (4) if the tax classification in RCW 82.04.263 did not exist; and

(x) RCW 82.04.260(13) and 82.04.280(1), but only with respect to advertising.

(b)(i) Taxable in another state" means that the taxpayer is subject to a business activities tax by another state on its income received from engaging in apportionable activities; or the taxpayer is not subject to a business activities tax by another state on its income received from engaging in apportionable activities, but any other state has jurisdiction to subject the taxpayer to a business activities tax on such income under the substantial nexus standards in section 104(1) of this act.

(ii) For purposes of this subsection (4)(b), "business activities tax" and "state" have the same meaning as in section 105 of this act.

Sec. 109. RCW 82.04.080 and 1961 c 15 s 82.04.080 are each amended to read as follows:

(1) "Gross income of the business" means the value proceeding or accruing by reason of the transaction of the business engaged in and includes gross proceeds of sales, compensation for the rendition of services, gains realized from trading in stocks, bonds, or other evidences of indebtedness, interest, discount, rents, royalties, fees, commissions, dividends, and other emoluments however designated, all without any deduction on account of the cost of tangible property sold, the cost of materials used, labor costs, interest, discount, delivery costs, taxes, or any other expense whatsoever paid or accrued and without any deduction on account of losses.

(2) Financial institutions must determine gains realized from trading in stocks, bonds, and other evidences of indebtedness on a net annualized basis. For purposes of this subsection, a financial institution means a person within the scope of the rule adopted by the department under the authority of RCW 82.04.460(2).

NEW SECTION. Sec. 110. A new section is added to chapter 82.04 RCW to read as follows:
(1) This chapter does not apply to amounts received by a financial institution from an affiliated person if the amounts are received from transactions that are required to be at arm's length under sections 23A or 23B of the federal reserve act as existing on the effective date of this section or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section. For purposes of this subsection, "financial institution" has the same meaning as in RCW 82.04.080.

(2) As used in this section, "affiliated" means under common control. "Common control" means the possession, directly or indirectly, of more than fifty percent of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting shares, by contract, or otherwise.

NEW SECTION. Sec. 111. A new section is added to chapter 82.04 RCW to read as follows:

(1) This chapter does not apply to amounts received by investment conduits or securitization entities from cash and securities.

(2) For purposes of this section, the following definitions apply:

(a) "Investment conduit" means an entity formed by a financial institution as defined in RCW 82.04.080 for the express purpose of holding or owning cash or securities if the entity formed:

(i) Has no employees;

(ii) Has no direct profit-making motive;

(iii) Owns no tangible assets, other than cash, fixed or revolving discrete pools of credit or charge card receivables originated by a financial institution, or securities;

(iv) Acts solely as a conduit, allocating its income to holders of its ownership interests; and

(v) Has, within twelve months of its organization or initial capitalization date, issued ownership interests to other than affiliated persons, equal to or greater than twenty-five percent of its total issued ownership interests.

(b) "Securities" has the same meaning as in section 2 of the securities act of 1933 and includes eligible assets as defined by Rule 3a-7 of the investment company act, as the law and rule exist on the effective date of this section or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section.

(c) "Securitization entity" means an entity created by a bank holding company if the entity created:

(i) Has no employees;

(ii) Has no direct profit-making motive;

(iii) Owns no tangible assets, other than cash or securities;

(iv) Holds or owns cash or securities solely as a conduit, allocating its income to holders of its ownership interests; and

(v) Has, within twelve months of its organization or initial capitalization date, issued ownership interests to other than affiliated persons, equal to or greater than twenty-five percent of its total issued ownership interests.

(2) As used in this section, "affiliated" means under common control. "Common control" means the possession, directly or indirectly, of more than fifty percent of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting shares, by contract, or otherwise.

(2)(a) The department must, as resources allow, adopt rules to assist in determining when to disregard the form of a transaction or a related series of transactions adopted for the purposes described in subsection (1)(a)(i) through (iii) of this section. In adopting rules, the department may consider the following judicial doctrines, except to the extent such doctrines are inconsistent with express provisions contained in Washington state statutes:

(i) The sham transaction doctrine;

(ii) The economic substance doctrine;

(iii) The business purpose doctrine;

(iv) The substance over form doctrine;

(v) The step transaction doctrine; and

(vi) The assignment of income doctrine.

(b) The adoption of a rule as required under this subsection is not a condition precedent for the department to use the authority provided in this section. Any rules adopted under this section must include examples of transactions that the department will disregard for tax purposes.

(3) The provisions of this section are cumulative and nonexclusive and do not affect any other remedies provided to the department under statutory or common law.

NEW SECTION. Sec. 202. A new section is added to chapter 82.32 RCW to read as follows:

(1)(a) The department may not use section 201 of this act to disregard any transaction, plan, or arrangement initiated before April 1, 2010, if, in respect to such transaction, plan, or arrangement, the taxpayer had reported its tax liability in conformance with the specific written instructions published by the department.

(b) This section does not apply if the transaction, plan, or arrangement engaged in by the taxpayer differs materially from the transaction, plan, or arrangement that was addressed in the specific written instructions, published determination, or other published document.

(2) For purposes of this section, "specific written instructions" means tax reporting instructions provided to a taxpayer which specifically identifies the taxpayer to whom the instructions apply. Specific written instructions may be provided as part of an audit, tax assessment, determination, closing agreement, or in response to a binding ruling request.

Sec. 203. RCW 82.32.090 and 2006 c 256 s 6 are each amended to read as follows:

(1) If payment of any tax due on a return to be filed by a taxpayer is not received by the department of revenue by the due date, there ((shall be)) is assessed a penalty of five percent of the amount of the tax; and if the tax is not received on or before the last day of the month following the due date, there ((shall be)) is assessed a total penalty of fifteen percent of the amount of the tax under this subsection; and if the tax is not received on or before the last day of

PART II
Tax Avoidance Transactions

NEW SECTION. Sec. 201. A new section is added to chapter 82.32 RCW to read as follows:

(1)(a) Unless otherwise specifically provided in statute, the department must respect the form of a transaction, except where the form of the transaction or a related series of transactions is adopted for the purpose of:

(i) Disguising income received, or otherwise avoiding tax on income, from a person that is not affiliated with the taxpayer;

(ii) Disguising the purchase or sale of property or services from or to a person that is not affiliated with the taxpayer; or

(iii) Avoiding the tax imposed in RCW 82.12.020 on the use of property in this state that is owned by an entity organized outside of Washington.

(b) For purposes of this subsection, "affiliated" means under common control. "Control" means the possession, directly or indirectly, of more than fifty percent of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting shares, by contract, or otherwise.

A new section is added to chapter 82.32 RCW to read as follows:

(1) If payment of any tax due on a return to be filed by a taxpayer is not received by the department of revenue by the due date, there ((shall be)) is assessed a penalty of five percent of the amount of the tax; and if the tax is not received on or before the last day of the month following the due date, there ((shall be)) is assessed a total penalty of fifteen percent of the amount of the tax under this subsection; and if the tax is not received on or before the last day of

A new section is added to chapter 82.32 RCW to read as follows:

(1) If payment of any tax due on a return to be filed by a taxpayer is not received by the department of revenue by the due date, there ((shall be)) is assessed a penalty of five percent of the amount of the tax; and if the tax is not received on or before the last day of
the second month following the due date, there ((shall be)) is assessed a total penalty of twenty-five percent of the amount of the tax under this subsection. No penalty so added shall be less than five dollars.

(2) If the department of revenue determines that any tax has been substantially underpaid, there ((shall be)) is assessed a penalty of five percent of the amount of the tax determined by the department to be due. If payment of any tax determined by the department to be due is not received by the department by the due date specified in the notice, or any extension thereof, there ((shall be)) is assessed a total penalty of fifteen percent of the amount of the tax under this subsection; and if payment of any tax determined by the department to be due is not received on or before the thirtieth day following the due date specified in the notice of tax due, or any extension thereof, there ((shall be)) is assessed a total penalty of twenty-five percent of the amount of the tax under this subsection. No penalty so added ((shall be)) may be less than five dollars. As used in this section, “substantially underpaid” means that the taxpayer has paid less than eighty percent of the amount of tax determined by the department to be due for all of the types of taxes included in, and for the entire period of time covered by, the department’s examination and the amount of underpayment is at least one thousand dollars.

(3) If a warrant ((be)) is issued by the department ((of revenue)) for the collection of taxes, increases, and penalties, there ((shall be)) is added thereto a penalty of ten percent of the amount of the tax, but not less than ten dollars.

(4) If the department finds that a person has engaged in any business or performed any act upon which a tax is imposed under this title and that person has not obtained from the department a registration certificate as required by RCW 82.32.030, the department ((shall)) must impose a penalty of five percent of the amount of tax due from that person for the period that the person was not registered as required by RCW 82.32.030. The department ((shall)) may not impose the penalty under this subsection (4) if a person who has engaged in business taxable under this title without first having registered as required by RCW 82.32.030, prior to any notification by the department of the need to register, obtains a registration certificate from the department.

(5) If the department finds that all or any part of a deficiency resulted from the disregard of specific written instructions as to reporting or tax liabilities, the department ((shall)) must add a penalty of ten percent of the amount of the additional tax found due because of the failure to follow the instructions. A taxpayer disregards specific written instructions when the department ((of revenue)) has informed the taxpayer in writing of the taxpayer's tax obligations and the taxpayer fails to act in accordance with those instructions unless the department has not issued final instructions because the matter is under appeal pursuant to this chapter or departmental regulations. The department ((shall)) may not assess the penalty under this section upon any taxpayer who has made a good faith effort to comply with the specific written instructions provided by the department to that taxpayer. Specific written instructions may be given as a part of a tax assessment, audit, determination, or closing agreement, provided that such specific written instructions ((shall)) apply only to the taxpayer addressed or referenced on such documents. Any specific written instructions by the department ((of revenue shall)) must be clearly identified as such and ((shall)) must inform the taxpayer that failure to follow the instructions may subject the taxpayer to the penalties imposed by this subsection.

(6) If the department finds that all or any part of a deficiency resulted from engaging in a disregarded transaction, as described in section 201(1)(a) (i), (ii), or (iii) of this act, the department must assess a penalty of thirty-five percent of the additional tax found to be due as a result of engaging in a transaction disregarded by the department under section 201(1)(a) (i), (ii), or (iii) of this act. The penalty provided in this subsection may be assessed together with any other applicable penalties provided in this section on the same tax found to be due, except for the evasion penalty provided in subsection (7) of this section. The department may not assess the penalty under this subsection if, before the department discovers the taxpayer's use of a transaction described under section 201(1)(a) (i), (ii), or (iii) of this act, the taxpayer discloses its participation in the transaction to the department.

(7) If the department finds that all or any part of the deficiency resulted from an intent to evade the tax payable ((hereunder)), a further penalty of fifty percent of the additional tax found to be due ((shall)) must be added.

((4))) (6) The department ((of revenue)) may not impose both the evasion penalty and the penalty for disregarding specific written instructions or the penalty provided in subsection (6) of this section on the same tax found to be due. ((6)) (9) For the purposes of this section, “return” means any document a person is required by the state of Washington to file to satisfy or establish a tax or fee obligation that is administered or collected by the department ((of revenue)), and that has a statutorily defined due date.

NEW SECTION. Sec. 204. (1) The legislature finds that this state's tax policy with respect to the taxation of transactions between affiliated entities and the income derived from such transactions (intercompany transactions) has motivated some taxpayers to engage in transactions designed solely or primarily to minimize the tax effects of intercompany transactions. The legislature further finds that some intercompany transactions result from taxpayers that are required to establish affiliated entities to comply with regulatory mandates and that transactions between such affiliates effectively increases the tax burden in this state on the affiliated group of entities.

(2) Therefore, as existing resources allow, the department of revenue is directed to conduct a review of the state's tax policy with respect to the taxation of intercompany transactions. The review must include the impacts of such transactions under the state's business and occupation tax and state and local sales and use taxes. The department may include other taxes in the review as it deems appropriate.

(3) In conducting this review, the department must examine how this state's tax policy compares to the tax policy of other states with respect to the taxation of intercompany transactions. The department's review must include an analysis of potential alternatives to the current policy of taxing intercompany transactions, including their estimated revenue impacts if practicable.

(4) In conducting this review, the department may seek input from members of the business community and others as it deems appropriate.

(5) The department must report its findings to the fiscal committees of the house of representatives and senate by December 1, 2011. However, if the department has not completed its review by December 1, 2010, the department must provide the fiscal committees of the legislature with a brief status report by December 1, 2010, and the final report by December 1, 2011.

Sec. 205. RCW 82.12.020 and 2009 c 535 s 305 are each amended to read as follows:

(1) There is ((hereby)) levied and ((there shall be)) collected from every person in this state a tax or excise for the privilege of using within this state as a consumer any:

(a) Article of tangible personal property ((purchased at retail, or) acquired by ((lease, gift, repossession, or bailment, or extracted or produced or manufactured by the person to using the same, or otherwise furnished to a person engaged in any business taxable under RCW 82.04.280 (2) or (7) the user in any manner, including tangible personal property acquired at a casual or isolated sale, and
including by-products used by the manufacturer thereof, except as
otherwise provided in this chapter, irrespective of whether the article
or similar articles are manufactured or are available for purchase
within this state;

(b) Prewritten computer software, regardless of the method of
delivery, but excluding prewritten computer software that is either
provided free of charge or is provided for temporary use in viewing
information, or both;

(c) Services defined as a retail sale in RCW 82.04.050 (2)(a) or
(g), (3)(a), or (6)(b), excluding services defined as a retail sale in
RCW 82.04.050(6)(b) that are provided free of charge;

(d) Extended warranty; or

(e)(i) Digital good, digital code, or digital automated service,
including the use of any services provided by a seller exclusively in
connection with digital goods, digital codes, or digital automated
services, whether or not a separate charge is made for such services.
(ii) With respect to the use of digital goods, digital automated
services, and digital codes acquired by purchase, the tax imposed in
this subsection (1)(e) applies in respect to:
(A) Sales in which the seller has granted the purchaser the right of
permanent use;

(B) Sales in which the seller has granted the purchaser a right of
use that is less than permanent;

(C) Sales in which the purchaser is obligated to make
continued payment as a condition of the sale; and

(D) Sales in which the purchaser is obligated to make continued
payment as a condition of the sale.

(iii) With respect to digital goods, digital automated services,
and digital codes acquired other than by purchase, the tax imposed in
this subsection (1)(e) applies regardless of whether or not the consumer
has a right of permanent use or is obligated to make continued
payment as a condition of use.

(2) The provisions of this chapter do not apply in respect to the
use of any article of tangible personal property, extended warranty,
digital good, digital code, digital automated service, or service taxable
under RCW 82.04.050 (2)(a) or (g), (3)(a), or (6)(b), if the sale to, or
the use by, the present user or the present user's bailor or donor has
already been subjected to the tax under chapter 82.08 RCW or this
chapter and the tax has been paid by the present user or by the present
user's bailor or donor.

(3)(a) Except as provided in this section, payment of the tax
imposed by this chapter or chapter 82.08 RCW by one purchaser or
user of tangible personal property, extended warranty, digital good,
digital code, digital automated service, or other service does not have
the effect of exempting any other purchaser or user of the same
property, extended warranty, digital good, digital code, digital automated
service, or other service from the taxes imposed by such chapters.

(b) The tax imposed by this chapter does not apply:
(i) If the sale to, or the use by, the present user or his or her bailor
or donor has already been subjected to the tax under chapter 82.08
RCW or this chapter and the tax has been paid by the present user or
by his or her bailor or donor;

(ii) In respect to the use of any article of tangible personal
property acquired by bailment and the tax has once been paid based
on reasonable rental as determined by RCW 82.12.060 measured by
the value of the article at time of first use multiplied by the tax rate
imposed by chapter 82.08 RCW or this chapter as of the time of first
use;

(iii) In respect to the use of any article of tangible personal
property acquired by bailment, if the property was acquired by a
previous bailee from the same bailor for use in the same general
activity and the original bailment was prior to June 9, 1961; or

(iv) To the use of digital goods or digital automated services,
which were obtained through the use of a digital code, if the sale of
the digital code to, or the use of the digital code by, the present user or
the present user's bailor or donor has already been subjected to the tax
under chapter 82.08 RCW or this chapter and the tax has been paid by
the present user or by the present user's bailor or donor.

(4)(a) Except as provided in (b) of this subsection (4), the tax is
levied and must be collected in an amount equal to the value of the
article used, value of the digital good or digital code used, value of the
extended warranty used, or value of the service used by the taxpayer,
multiplied by the applicable rates in effect for the retail sales tax
under RCW 82.08.020.

(b) In the case of a seller required to collect use tax from the
purchaser, the tax must be collected in an amount equal to the
purchase price multiplied by the applicable rate in effect for the retail
sales tax under RCW 82.08.020.

(5) For purposes of the tax imposed in this section, "person" includes
anyone within the definition of "buyer," "purchaser," and "consumer"
in RCW 82.08.010.

Sec. 206. RCW 82.45.010 and 2008 c 116 s 3 and 2008 c 6 s
701 are each reenacted and amended to read as follows:

(1) As used in this chapter, the term "sale" ("shall have") has its
ordinary meaning and ("shall have") includes any conveyance, grant,
assignment, quitclaim, or transfer of the ownership of or title to real
property, including standing timber, or any estate or interest therein
for a valuable consideration, and any contract for such conveyance,
grant, assignment, quitclaim, or transfer, and any lease with an option
to purchase real property, including standing timber, or any estate or
interest therein or other contract under which possession of the
property is given to the purchaser, or any other person at the
purchaser's direction, and title to the property is retained by the
vendor as security for the payment of the purchase price. The term
also includes the grant, assignment, quitclaim, sale, or transfer of
improvements constructed upon leased land.

(2)(a) The term "sale" also includes the transfer or acquisition
within any twelve-month period of a controlling interest in any entity
with an interest in real property located in this state for a valuable
consideration.

(b) For the sole purpose of determining whether, pursuant to the
exercise of an option, a controlling interest was transferred or
acquired within a twelve-month period, the date that the option
agreement was executed is the date on which the transfer or
acquisition of the controlling interest is deemed to occur. For all
other purposes under this chapter, the date upon which the option is
exercised is the date of the transfer or acquisition of the controlling
interest.

(c) For purposes of this subsection, all acquisitions of persons
acting in concert ("shall have") must be aggregated for purposes of
determining whether a transfer or acquisition of a controlling interest
has taken place. The department ("of revenue shall") must adopt
standards by rule to determine when persons are acting in concert.
In adopting a rule for this purpose, the department ("shall") must
consider the following:

(1) Persons ("shall") must be treated as acting in concert
when they have a relationship with each other such that one person
influences or controls the actions of another through common
ownership; and

(2) When persons are not commonly owned or controlled,
they ("shall") must be treated as acting in concert only when the unity
with which the purchasers have negotiated and will consummate the
transfer of ownership interests supports a finding that they are acting
as a single entity. If the acquisitions are completely independent, with
each purchaser buying without regard to the identity of the other
purchasers, then the acquisitions ("shall be") considered separate
acquisitions.

(3) The term "sale" ("shall have") does not include:
(a) A transfer by gift, devise, or inheritance.
(b) A transfer of any leasehold interest other than of the type
mentioned above.
(c) A cancellation or forfeiture of a vendee’s interest in a contract for the sale of real property, whether or not such contract contains a forfeiture clause, or deed in lieu of foreclosure of a mortgage.

(d) The partition of property by tenants in common by agreement or as the result of a court decree.

(e) The assignment of property or interest in property from one spouse to another or domestic partner to the other spouse or other domestic partner in accordance with the terms of a decree of dissolution of marriage or state registered domestic partnership or in fulfillment of a property settlement agreement.

(f) The assignment or transfer of the transferor’s interest in the contract for the sale of real property, even though accompanied by a conveyance of the vendor’s interest in the real property involved.

(g) Transfers by appropriation or decree in condemnation proceedings brought by the United States, the state or any political subdivision thereof, or a municipal corporation.

(h) A mortgage or other transfer of an interest in real property merely to secure a debt, or the assignment thereof.

(i) Any transfer or conveyance made pursuant to a deed of trust or an order of sale by the court in any mortgage, deed of trust, or lien foreclosure proceeding or upon execution of a judgment, or deed in lieu of foreclosure to satisfy a mortgage or deed of trust.

(j) A conveyance to the federal housing administration or veterans administration by an authorized mortgagee made pursuant to a contract of insurance or guaranty with the federal housing administration or veterans administration.

(k) A transfer in compliance with the terms of any lease or contract upon which the tax as imposed by this chapter has been paid or where the lease or contract was entered into prior to the date this tax was first imposed.

(l) The sale of any grave or lot in an established cemetery.

(m) A sale by the United States, this state or any political subdivision thereof, or a municipal corporation of this state.

(n) A sale to a regional transit authority or public corporation under RCW 81.112.320 under a lease/leaseback agreement under RCW 81.112.300.

(o) A transfer of real property, however effected, if it consists of a mere change in identity or form of ownership of an entity where there is no change in the beneficial ownership. These include transfers to a corporation or partnership which is wholly owned by the transferor and/or the transferor’s spouse or domestic partner or children of the transferor or the transferor’s spouse or domestic partner( (Provided, That)). However, if thereafter such transferee corporation or partnership voluntarily transfers such real property, or such transferor, spouse or domestic partner, or children of the transferor or the transferor’s spouse or domestic partner voluntarily transfer stock in the transferee corporation or interest in the transferee partnership capital, as the case may be, to other than (((44))) (i) the transferor and/or the transferor’s spouse or domestic partner or children of the transferor or the transferor’s spouse or domestic partner, ((2))) (ii) a trust having the transferor and/or the transferor’s spouse or domestic partner or children of the transferor or the transferor’s spouse or domestic partner as the only beneficiaries at the time of the transfer to the trust, or (((44))) (iii) a corporation or partnership wholly owned by the original transferor and/or the transferor’s spouse or domestic partner or children of the transferor or the transferor’s spouse or domestic partner, within three years of the original transfer to which this exemption applies, and the tax on the subsequent transfer has not been paid within sixty days of becoming due, excise taxes (shall) become due and payable on the original transfer as otherwise provided by law.

U.S.C. Sec. 332, 337, 351, 368(a)(1), 721, or 731 of the internal revenue code of 1986, as amended.

(ii) However, the transfer described in (p)(i) of this subsection cannot be preceded or followed within a twelve-month period by another transfer or series of transfers, that, when combined with the otherwise exempt transfer or transfers described in (p)(i) of this subsection, results in the transfer of a controlling interest in the entity for valuable consideration, and in which one or more persons previously holding a controlling interest in the entity receive cash or property in exchange for any interest the person or persons acting in concert hold in the entity. This subsection (3)(p)(ii) does not apply to that part of the transfer involving property received that is the real property interest that the person or persons originally contributed to the entity or when one or more persons who did not contribute real property or belong to the entity at a time when real property was purchased receive cash or personal property in exchange for that person or persons' interest in the entity. The real estate excise tax under this subsection (3)(p)(ii) is imposed upon the person or persons who previously held a controlling interest in the entity.

(q) A qualified sale of a manufactured/mobile home community, as defined in RCW 59.20.030, that takes place on or after June 12, 2008, but before December 31, 2018.

Sec. 207. RCW 82.45.033 and 1993 sp.s. c 25 s 505 are each amended to read as follows:

(1) As used in this chapter, the term “controlling interest” has the following meaning:

(((44))) (a) In the case of a corporation, either fifty percent or more of the total combined voting power of all classes of stock of the corporation entitled to vote, or fifty percent of the capital, profits, or beneficial interest in the voting stock of the corporation; and

((44))) (b) In the case of a partnership, association, trust, or other entity, fifty percent or more of the capital, profits, or beneficial interest in such partnership, association, trust, or other entity.

(2) The department may, at the department's option, enforce the obligation of the seller under this chapter as provided in this subsection (2):

(a) In the transfer or acquisition of a controlling interest as defined in subsection (1)(a) of this section, either against the corporation in which a controlling interest is transferred or acquired, against the person or persons who acquired the controlling interest in the corporation or, when the corporation is not a publicly traded company, against the person or persons who transferred the controlling interest in the corporation; and

(b) In the transfer or acquisition of a controlling interest as defined in subsection (1)(b) of this section, either against the entity in which a controlling interest is transferred or acquired or against the person or persons who transferred or acquired the controlling interest in the entity.

Sec. 208. RCW 82.45.070 and 1969 ex.s. c 223 s 28A.45.070 are each amended to read as follows:

The tax (hereinafter) provided for in this chapter and any interest or penalties thereon (shall) be a specific lien upon each (piece) parcel of real property located in this state that is either sold or that is owned by an entity in which a controlling interest has been transferred or acquired. The lien attaches from the time of sale until the tax (shall have been) is paid, which lien may be enforced in the manner prescribed for the foreclosure of mortgages.

Sec. 209. RCW 82.45.080 and 1980 c 154 s 3 are each amended to read as follows:

(1) The tax levied under this chapter (shall) is the obligation of the seller and the department (of revenue) may, at the department's option, enforce the obligation through an action of debt against the seller or the department may proceed in the manner prescribed for the foreclosure of mortgages (and hence). The department's use of one course of enforcement (shall) is not (be) an election not to pursue the other.
(2) For purposes of this section and notwithstanding any other provisions of law, the seller is the parent corporation of a wholly owned subsidiary, when such subsidiary is the transferee to a third-party transferee and the subsidiary is dissolved before paying the tax imposed under this chapter.

Sec. 210. RCW 82.45.100 and 2007 c 111 s 112 are each amended to read as follows:

(1) Payment of the tax imposed under this chapter is due and payable immediately at the time of sale, and if not paid within one month thereafter ((shall)) will bear interest from the time of sale until the date of payment.

(a) Interest imposed before January 1, 1999, ((shall)) is computed at the rate of one percent per month.

(b) Interest imposed after December 31, 1998, ((shall)) is computed on a monthly basis at the rate as computed under RCW 82.32.050(2). The rate so computed ((shall)) must be adjusted on the first day of January of each year for use in computing interest for that calendar year. The department ((of Revenue)) must provide written notification to the county treasurers of the variable rate on or before December 1st of the year preceding the calendar year in which the rate applies.

(2) In addition to the interest described in subsection (1) of this section, if the payment of any tax is not received by the county treasurer or the department of revenue, as the case may be, within one month of the date due, there ((shall)) is assessed a penalty of five percent of the amount of the tax; if the tax is not received within two months of the date due, there ((shall)) will be assessed a total penalty of ten percent of the amount of the tax; and if the tax is not received within three months of the date due, there ((shall)) will be assessed a total penalty of twenty percent of the amount of the tax. The payment of the penalty described in this subsection ((shall)) is collectible from the seller only, and RCW 82.45.070 does not apply to the penalties described in this subsection.

(3) If the tax imposed under this chapter is not received by the due date, the transferee ((shall)) is personally liable for the tax, along with any interest as provided in subsection (1) of this section, unless ((shall)).

(a) An instrument evidencing the sale is recorded in the official real property records of the county in which the property conveyed is located; and

(b) Either the transferee or transferee notifies the department of revenue in writing of the occurrence of the sale within thirty days following the date of the sale.

(4) If upon examination of any affidavits or from other information obtained by the department or its agents it appears that all or a portion of the tax is unpaid, the department ((shall)) must assess against the taxpayer the additional amount found to be due plus interest and penalties as provided in subsections (1) and (2) of this section. The department ((shall)) must notify the taxpayer by mail, or electronically as provided in RCW 82.32.135, of the additional amount and the same ((shall)) becomes due and ((shall)) must be paid within thirty days from the date of the notice, or within such further time as the department may provide.

(5) No assessment or refund may be made by the department more than four years after the date of sale except upon a showing of:

(a) Fraud or misrepresentation of a material fact by the taxpayer;

(b) A failure by the taxpayer to record documentation of a sale or otherwise report the sale to the county treasurer; or

(c) A failure of the transferee or transferee to report the sale under RCW 82.45.090(2).

(6) Penalties collected on taxes due under this chapter under subsection (2) of this section and RCW 82.32.090(2) through (7) ((shall)) must be deposited in the housing trust fund as described in chapter 43.185 RCW.

Sec. 211. RCW 82.45.220 and 2005 c 326 s 3 are each amended to read as follows:

(1) An organization that fails to report a transfer of the controlling interest in the organization under RCW 43.07.390 to the secretary of state and is later determined to be subject to real estate excise taxes due to the transfer, ((shall)) is subject to the provisions of RCW 82.45.100 as well as the evasion penalty in RCW 82.32.090((6a)) (7).

(2) Subsection (1) of this section also applies to the failure to report to the secretary of state the granting of an option to acquire an interest in the organization if the exercise of the option would result in a sale as defined in RCW 82.45.010(2).

Sec. 212. RCW 43.07.390 and 2005 c 326 s 2 are each amended to read as follows:

(1)(a) The secretary of state ((shall)) must adopt rules requiring any entity that is required to file an annual report with the secretary of state, including entities under titles 23, 23B, 24, and 25 RCW, to disclose: (i) Any transfer ((of)) of the controlling interest ((in)) the entity ((and any interest in real property)), and (ii) the granting of any option to acquire an interest in the entity if the exercise of the option would result in a sale as defined in RCW 82.45.010(2).

(b) The disclosure requirements in this subsection only applies to entities owning an interest in real property located in this state.

(2) This information ((shall)) must be made available to the department of revenue upon request for the purposes of tracking the transfer of the controlling interest in entities owning real property and to determine when the real estate excise tax is applicable in such cases.

(3) For the purposes of this section, "controlling interest" has the same meaning as provided in RCW 82.45.033.

PART III
Modifying and Placing a Cap on the First Mortgage Deduction

NEW SECTION. Sec. 301. In 1980, the legislature adopted a business and occupation tax deduction to financial businesses for amounts derived from interest received on investments or loans primarily secured by first mortgages or trust deeds on nontransient residential properties which was codified in RCW 82.04.4292. However, the Washington state supreme court in Homestreet, Inc. v. Dept of Revenue, 166 Wn.2d 444 (2009) held that a mortgage lender was entitled to a business and occupation tax deduction under RCW 82.04.4292 for the portion of interest it retained for servicing loans and mortgage-backed securities that it sold on a service-retained basis on the secondary market. The legislature finds that inclusion of interest retained for servicing loans and mortgage-backed securities was not within the legislative intent when the deduction provided in 82.04.4292 was adopted in 1980. Therefore, by this act, the legislature declares that the deduction provided by RCW 82.04.4292 does not apply to fees that are received in exchange for services, regardless of whether the source of the fees is or may have been interest when paid by a borrower.

Sec. 302. RCW 82.04.4292 and 1980 c 37 s 12 are each amended to read as follows:

(1) In computing tax there may be deducted from the measure of tax by those engaged in banking, loan, security or other financial businesses, amounts derived from interest received on investments or loans primarily secured by first mortgages or trust deeds on nontransient residential properties.

(2) Interest deductible under this section includes the portion of fees charged to borrowers, including points and loan origination fees, that is recognized over the life of the loan as an adjustment to yield in the taxpayer's books and records according to generally accepted accounting principles.

(3) Subsections (1) and (2) of this section notwithstanding, the following is a nonexclusive list of items that are not deductible under this section:

(a) Fees for specific services such as: Document preparation fees; finder fees; brokerage fees; title examination fees; fees for credit checks; notary fees; loan application fees; interest lock-in fees if the
loan is not made; servicing fees, including servicing fees received by lenders when they sell loans or mortgage-backed or mortgage-related securities in the secondary market while retaining the right to service the loans or securities and receive a portion of the interest payments as the servicing fee; and similar fees or amounts;

(b) Fees received in consideration for an agreement to make funds available for a specific period of time at specified terms, commonly referred to as commitment fees;

c) Any other fees, or portion of a fee, that is not recognized over the life of the loan as an adjustment to yield in the taxpayer's books and records according to generally accepted accounting principles; and

d) Gains on the sale of valuable rights such as:

(i) Service release premiums, which are amounts received when servicing rights are sold; and

(ii) Gains on the sale of loans.

(iii) Gains on the sale of loans.

4) The total amount a person may deduct under this section for any calendar year may not exceed one hundred twenty million dollars.

PART IV
Repealing the Nonresident Sales Tax Exemption

NEW SECTION. Sec. 401. RCW 82.08.0273 (Exemptions--Sales to nonresidents of tangible personal property, digital goods, and digital codes for use outside the state--Proof of nonresident status--Penalties) and 2009 c 535 s 512, 2007 c 135 s 2, 2003 c 53 s 399, 1993 c 444 s 1, 1988 c 96 s 1, 1982 1st ex.s. c 5 s 1, & 1980 c 37 s 39 are each repealed.

NEW SECTION. Sec. 402. RCW 82.08.0273 (Exemptions--Sales to nonresidents of tangible personal property, digital goods, and digital codes for use outside the state--Proof of nonresident status--Penalties) and 2010 c . . . (E2SHB 1597) s 215, 2009 c 535 s 512, 2007 c 135 s 2, 2003 c 53 s 399, 1993 c 444 s 1, 1988 c 96 s 1, 1982 1st ex.s. c 5 s 1, & 1980 c 37 s 39 are each repealed.

PART V
Direct Seller Business and Occupation Tax Exemption

NEW SECTION. Sec. 501. (1) A business and occupation tax exemption is provided in RCW 82.04.423 for certain out-of-state sellers that sell consumer products exclusively to or through a direct seller's representative. The intent of the legislature in enacting this exemption was to provide a narrow exemption for out-of-state businesses engaged in direct sales of consumer products, typically accomplished through in-home parties or door-to-door selling.

(2) In Dot Foods, Inc. v. Dept of Revenue, Docket No. 81022-2 (September 10, 2009), the Washington supreme court held that the exemption in RCW 82.04.423 applied to a taxpayer: (a) That sold nonconsumer products through its representative in addition to consumer products; and (b) Whose consumer products were ultimately sold at retail in permanent retail establishments.

(3) The legislature finds that most out-of-state businesses selling consumer products in this state will either be eligible for the exemption under RCW 82.04.423 or could easily restructure their business operations to qualify for the exemption. As a result, the legislature expects that the broadened interpretation of the direct sellers' exemption will lead to large and devastating revenue losses. This comes at a time when the state's existing budget is facing a two billion six hundred million dollar shortfall, which could grow, while at the same time the demand for state and state-funded services is also growing. Moreover, the legislature further finds that RCW 82.04.423 provides preferential tax treatment for out-of-state businesses over their in-state competitors and now creates a strong incentive for in-state businesses to move their operations outside Washington.

(4) Therefore, the legislature finds that it is necessary to reaffirm the legislature's intent in establishing the direct sellers' exemption and prevent the loss of revenues resulting from the expanded interpretation of the exemption by amending RCW 82.04.423 retroactively to conform the exemption to the original intent of the legislature and by prospectively ending the direct sellers' exemption as of the effective date of this section.

Sec. 502. RCW 82.04.423 and 1983 1st ex.s. c 66 s 5 are each amended to read as follows:

(1) Prior to April 1, 2010, this section ((which)) does not apply to any person in respect to gross income derived from the business of making sales at wholesale or retail if such person:

(a) Does not own or lease real property within this state; and

(b) Does not regularly maintain a stock of tangible personal property in this state for sale in the ordinary course of business; and

(c) Is not a corporation incorporated under the laws of this state; and

(d) Makes sales in this state exclusively to or through a direct seller's representative.

(2) For purposes of this section, the term "direct seller's representative" means a person who buys only consumer products on a buy-sell basis or a deposit-commission basis for resale, by the buyer or any other person, in the home or otherwise than in a permanent retail establishment, or who sells at retail, or solicits the sale at retail, of only consumer products in the home or otherwise than in a permanent retail establishment.

(3) Nothing in this section ((which)) may be construed to imply that a person exempt from tax under this section was engaged in a business activity taxable under this chapter prior to ((the enactment of this section)) August 23, 1983.

PART VI
Business and Occupation Tax Preferences for Manufacturers of Products Derived from Certain Agricultural Products

NEW SECTION. Sec. 601. (1)(a) In 1967, the legislature amended RCW 82.04.260 in chapter 149, Laws of 1967 ex. sess. to authorize a preferential business and occupation tax rate for slaughtering, breaking, and/or processing perishable meat products and/or selling the same at wholesale. The legislature finds that RCW 82.04.260(4) was interpreted by the state supreme court on January 13, 2005, in Agrilink Foods, Inc. v. Department of Revenue, 153 Wn.2d 392 (2005). The supreme court held that the preferential business and occupation tax rate on the slaughtering, breaking, and/or processing of perishable meat products applied to the processing of perishable meat products into nonperishable finished products, such as canned food.

(b) The legislature intends to narrow the exemption provided for slaughtering, breaking, and/or processing perishable meat products and/or selling such products at wholesale by requiring that the end product be a perishable meat product; a nonperishable meat product that is comprised primarily of animal carcass by weight or volume, other than a canned meat product; or a meat by-product.

(2)(a) A business and occupation tax exemption is provided for (i) manufacturing by canning, preserving, freezing, processing, or dehydrating fresh fruits or vegetables, and (ii) selling such products at wholesale by the manufacturer to purchasers who transport the goods out of state in the ordinary course of business. This exemption expires July 1, 2012, and is replaced by a preferential business and occupation tax rate.

(b) The legislature finds that the rationale of the Agrilink decision, if applied to these tax preferences, could result in preferential tax
treatment for any processed food product that contained any fresh fruit or vegetable as an ingredient, however small the amount.

(c) The legislature intends to narrow the tax preference provided to fruit and vegetable manufacturers by requiring that the end product be comprised either (i) exclusively of fruits and/or vegetables, or (ii) of any combination of fruits, vegetables, and certain other substances that, cumulatively, may not exceed the amount of fruits and vegetables contained in the product measured by weight or volume.

NEW SECTION. Sec. 602. A new section is added to chapter 82.04 RCW to read as follows:

(1) Upon every person engaging within this state in the business of manufacturing:

(a) Perishable meat products, by slaughtering, breaking, or processing, if the finished product is a perishable meat product; as to such persons the tax imposed is equal to the value of the perishable meat products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent;

(b) Meat products, by dehydration, curing, smoking, or any combination of these activities, if the finished meat products are not canned; as to such persons the tax imposed is equal to the value of the meat products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent;

(c) Hides, tallow, meat meal, and other similar meat by-products, if such products are derived in part from animals and manufactured in a rendering plant licensed under chapter 16.68 RCW; as to such persons the tax imposed is equal to the value of the products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent.

(2) Upon every person engaging within this state in the business of selling at wholesale:

(a) Perishable meat products; as to such persons the tax imposed is equal to the gross proceeds derived from such sales multiplied by the rate of 0.138 percent;

(b) Meat products that have been manufactured by the seller by dehydration, curing, smoking, or any combination of such activities, if the finished meat products are not canned; as to such persons the tax imposed is equal to the gross proceeds derived from such sales multiplied by the rate of 0.138 percent;

(c) Hides, tallow, meat meal, and other similar meat by-products, if such products are derived in part from animals and manufactured by the seller in a rendering plant; as to such persons the tax imposed is equal to the gross proceeds derived from such sales multiplied by the rate of 0.138 percent.

(3) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Animal" means all members of the animal kingdom except humans, fish, and insects.

(b) "Carcass" means all or any parts, including viscera, of a slaughtered animal.

(c) "Fish" means any water-breathing animal, including shellfish.

(d) "Hide" means any unprocessed animal pelt or skin.

(A) Products comprised exclusively of animal carcass; and

(B) Products, such as jerky, sausage, and other cured meat products, that are comprised primarily of animal carcass by weight or volume and may also contain water; nitrates; nitrites; acids; binders and extenders; natural or synthetic casings; colorings; flavorings such as soy sauce, liquid smoke, seasonings, citric acid, sugar, molasses, corn syrup, and vinegar; and similar substances.

(ii) Except as provided in (e)(i) of this subsection (3), "meat products" does not include products containing any cereal grains or cereal-grain products, dairy products, legumes and legume products, fruit or vegetable products as defined in RCW 82.04.260, and similar ingredients, unless the ingredient is used as a flavoring. For purposes of this subsection, "flavoring" means a substance that contains the flavoring constituents derived from a spice, fruit or fruit juice, vegetable or fruit juice, edible yeast, herb, bark, bud, root, leaf, or any other edible substance of plant origin, whose primary function in food is flavoring or seasoning rather than nutritional, and which may legally appear as "natural flavor," "flavor," or "flavorings" in the ingredient statement on the label of the meat product.

(iii) "Meat products" includes only products that are intended for human consumption as food or animal consumption as feed.

(f) "Perishable" means having a high risk of spoilage within thirty days of manufacture without any refrigeration or freezing.

(g) "Rendering plant" means any place of business or location where dead animals or any part or portion thereof, or packing house refuse, are processed for the purpose of obtaining the hide, skin, grease residue, or any other by-product whatsoever.

Sec. 603. RCW 82.04.4266 and 2006 c . . . (SHB 3066) s 3 are each amended to read as follows:

(1) This chapter (shall) does not apply to the value of products or the gross proceeds of sales derived from:

(2)(a) "Fruit or vegetable products" means:

(i) Products comprised exclusively of fruits, vegetables, or both; and

(ii) Products comprised of fruits, vegetables, or both, and which may also contain water, sugar, salt, seasonings, preservatives, binders, stabilizers, flavorings, yeast, and similar substances. However, the amount of all ingredients contained in the product, other than fruits, vegetables, and water, may not exceed the amount of fruits and vegetables contained in the product measured by weight or volume.

(b) "Fruit or vegetable products" includes only products that are intended for human consumption as food or animal consumption as feed.

(3) This section expires July 1, 2012.

(b) "Fruit or vegetable products" includes only products that are intended for human consumption as food or animal consumption as feed.

(3) A person claiming the exemption provided in this section must file a complete annual survey with the department under RCW 82.32.--- (section 102, chapter . . . (SHB 3066), Laws of 2010).

(4) "Customization of prewritten computer software" means any alteration, modification, or development of applications using or incorporating prewritten computer software for a specific person. "Customization of prewritten computer software" includes individualized configuration of software to work with other software and computer hardware but does not include routine installation. Customization of prewritten computer software does not change the underlying character or taxability of the original prewritten computer software.

(5) "Master copies" of software means copies of software from which a software developer, author, inventor, publisher, licensor, sublicensor, or distributor makes copies for sale or license.

(6) "Prewritten computer software" means computer software, including prewritten upgrades, that is not designed and developed by the author or other creator to the specifications of a specific purchaser. The combining of two or more prewritten computer software programs or prewritten portions thereof does not cause the combination to be other than prewritten computer software. Where a person modifies or enhances computer software of which such persons is not the author or creator, the person (shall be) is deemed to be the author or creator only of the person's modifications or enhancements. Prewritten computer software or a prewritten portion thereof that is modified or enhanced to any degree, where such modification or enhancement is designed and developed to the specifications of a specific purchaser, remains prewritten computer software; however where there is a reasonable, separately stated charge or an invoice or other statement of the price given to the purchaser for the modification or enhancement, the modification or enhancement (shall) does not constitute prewritten computer software.

(7) "Retained rights" means any and all rights, including intellectual property rights such as those rights arising from copyrights, patents, and trade secret laws, that are owned or are held under contract or license by a software developer, author, inventor, publisher, licensor, sublicensor, or distributor.

(d) In the case of articles manufactured or produced by the user and used in the manufacture or production of products sold or to be sold to the department of defense of the United States, the value of the articles used (shall be) must be determined according to the value of the ingredients of such articles.

the calculation under subsections (1) through (3) of this section. A
table prepared by the department under this subsection (as shall) must
be used by all taxpayers in taking the credit provided in this section.

the month in which the taxable activities occur.

(2) The department of revenue may relieve any taxpayer or class

these taxpayers, tax payments are due on or before the last day of the
month next succeeding the end of the period covered by the return.

(3) The department of revenue may also require verified annual
returns from any taxpayer, setting forth such additional information as
it may deem necessary to correctly determine tax liability.

MESSAGE FROM THE SENATE

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 2753 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. This act may be known and cited as the Washington works housing act of 2010.

Sec. 2. RCW 43.180.160 and 2009 c 291 s 1 are each amended to read as follows:

(1) The total amount of outstanding indebtedness of the commission may not exceed six billion dollars at any time. The calculation of outstanding indebtedness shall include the initial principal amount of an issue and shall not include interest that is either currently payable or that accrues as a part of the face amount of an issue payable at maturity or earlier redemption. Outstanding indebtedness shall not include notes or bonds as to which the obligation of the commission has been satisfied and discharged by refunding or for which payment has been provided by reserves or otherwise.

(2) The Washington works housing program is intended to provide access to new funding mechanisms and build long-term community equity by increasing the stock of permanently affordable housing owned by nonprofit organizations and public agencies. The Washington works housing program is intended to provide access to new funding mechanisms and build long-term community equity by increasing the stock of permanently affordable housing owned by nonprofit organizations and public agencies.

(b) The Washington works housing program is intended to provide these opportunities for public agencies and nonprofit organizations, including those materially participating as a managing member or general partner of a partnership, limited liability company, or equivalent organization, through the issuance of tax exempt or taxable revenue bonds issued by the commission in conjunction with a subsidy necessary to make bond issues to finance affordable housing properties financially feasible. The program is intended to provide financing for affordable housing that will meet the following income and rent restrictions during the period of initial bond indebtedness and thereafter:

(c) During the period of initial bond indebtedness under the program, the owner of the property must meet one of the following requirements: A minimum of twenty percent of the units will be occupied by households earning less than fifty percent of area median income and an additional thirty-one percent of the units will be occupied by persons earning less than eighty percent of area median income; or forty percent of the units will be occupied by households earning less than sixty percent of area median income and an additional eleven percent of the units will be occupied by households earning less than eighty percent of area median income.

(d) After the initial bond indebtedness is retired, the rents charged for units in the project will be adjusted to be sufficient to pay reasonable operation and maintenance expenses, including necessary capital needs, and to make reasonable deposits into a reserve account with the intent of providing affordable housing to very low or low-income households for the remaining useful life of the property. The reasonableness of the rent levels must be periodically approved by the commission based on information provided by the owner of the property about income, expenses, and necessary reserve levels. The determination of the commission regarding the reasonableness of the rent levels will be final.

(e) The commission will enter into a recorded regulatory agreement with the borrower at the time of the issuance of bonds under the program for the purpose of ensuring that the property will meet the income and rent restrictions established in this section. The commission may charge such compliance fees as necessary to ensure enforcement of the income and rent restrictions during the useful life of the property.

(3) One billion dollars of the outstanding indebtedness of the commission is for the primary purpose of implementing the Washington works housing program.

(4) If no subsidies are available to make the program in subsection (2) of this section feasible; then the commission may pass a resolution stating these facts and authorize the use of a portion of the one billion dollars of indebtedness intended for the program to support its other bond programs until such time as the one billion dollars is exhausted or subsidies are available to make the program feasible."

Sec. 3. RCW 39.86.100 and 2001 c 330 s 1 are each amended to read as follows:

The federal ((tax reform act)) internal revenue code of 1986, as amended imposes (am annual) ceilings on the aggregate amount of ((federally tax exempt private activity bond) certain types of bonds, including tax-exempt private activity bonds (for housing, student loans, exempt facilities, small issue industrial, redevelopment, and certain public utility projects) and other types, that may be issued during any calendar year by or on behalf of states and their political subdivisions. ((In 2001, the ceiling will be increased to an additional two dollars and fifty cents per capita, and in 2002, the ceiling will be increased to an additional five dollars per capita, to be indexed annually, for 2003 and every year thereafter. However, a study by the department of community development indicates that the ceiling amount of the state ceiling is considerably less than the anticipated dollar amount for which issuers would need an allocation from the state ceiling.)) The ((tax reform act of 1986)) code provides a formula for allocating the annual tax-exempt private activity bond ceiling among various issuers of private activity bonds for housing, student loans, exempt facilities, and redevelopment projects within a state, but permits each state to enact a different allocation method that is appropriate to that state's needs. In addition, congress might, from time to time, amend the code by authorizing state ceilings on additional types of bonds. The purpose of this chapter is to provide a flexible and efficient method of allocating the annual state ceiling in
Washington in a manner that recognizes the need of the state and its political subdivisions to finance activities or projects that satisfy a substantial public purpose.

MESSAGE FROM THE SENATE

March 19, 2010

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 3014 with the following amendment:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 82.60.010 and 1985 c 232 s 1 are each amended to read as follows:

The legislature finds that there are several areas in the state that are characterized by very high levels of unemployment and poverty. The (legislative [legislature]) legislature further finds that economic stagnation is the primary cause of this high unemployment rate and poverty; that new state policies are necessary in order to promote economic stimulation and new employment opportunities in these distressed areas; and that policies providing incentives for economic growth in these distressed areas are essential. For these reasons, the legislature (hereby) reestablishes a tax deferral program to be effective solely in distressed ((areas)) counties. The legislature declares that this limited program serves the vital public purpose of creating employment opportunities and reducing poverty in the distressed ((areas)) counties of the state.

Sec. 2. RCW 82.60.020 and 2010 c ... (SHB 3066) s 138 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(2) "Department" means the department of revenue.

(3) "Eligible area" means ((a):)

   (i) The underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person; or
   (ii) A written contract agrees to pass the economic benefit of the deferral to the lessee.

(c) The lessee that receives the economic benefit of the deferral agrees in writing with the department to complete the annual survey required under RCW 82.60.070, and

(d) (The economic benefit of the deferral passed to the lessee is no less than the amount of tax deferred by the lessor and is evidenced by written documentation of any type of payment, credit, or other financial arrangement between the lessor or owner of the qualified building and the lessee.

(e)(iii) "Eligible investment project" does not include any portion of an investment project undertaken by a light and power business as defined in RCW 82.16.010(4), other than that portion of a cogeneration project that is used to generate power for consumption within the manufacturing site of which the cogeneration project is an integral part, or investment projects (which) have already received deferrals under this chapter.

If a building is used partly for manufacturing or research and development and partly for other purposes, the applicable tax deferral (النالان) must be determined by apportionment of the costs of construction under rules adopted by the department.

A new section is added to chapter 82.60 RCW to read as follows:

The department, with the assistance of the employment security department, must establish a list of qualifying counties effective July 1, 2010. The list of qualifying counties is effective for a twenty-four month period and must be updated by July 1st of the year that is two calendar years after the list was established or last updated, as the case may be.
(2) This section expires July 1, 2020.

Sec. 6. RCW 82.60.040 and 2004 c 25 s 4 are each amended to read as follows:

(1) The department ((الجالبية)) must issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW on each eligible investment project ((ذاك هو تفكير أقلية من ديلاينيyy 는의)) as defined in RCW 82.60.020.

(2) The department ((الجالبية)) must keep a running total of all deferrals granted under this chapter during each fiscal biennium.

(a) The applicant will hire at least one qualified employment position for each seven hundred fifty thousand dollars of investment for which a deferral is requested; and

(b) The positions will be filled by persons who at the time of hire are residents of the community empowerment zone. As used in this subsection, "resident" means the person makes his or her home in the community empowerment zone or the county in which the zone is located. A mailing address alone is insufficient to establish that a person is a resident for the purposes of this section. The persons must be hired after the date the application is filed with the department.

(3) All other provisions and eligibility requirements of this chapter apply to applicants eligible under this section.

(4) The qualified employment position must be filled by the end of the calendar year following the year in which the project is certified as operationally complete. If a person does not meet the requirements for qualified employment positions by the end of the second calendar year following the year in which the project is certified as operationally complete, all deferred taxes are immediately due.

Sec. 8. RCW 82.60.060 and 2000 c 106 s 5 are each amended to read as follows:

(1) The recipient ((الجالبية)) must begin paying the deferred taxes in the third year after the date certified by the department as the date on which the ((construction)) investment project has been operationally completed. The first payment will be due on December 31st of the third calendar year after such certified date, with subsequent annual payments due on December 31st of the following four years with amounts of payment scheduled as follows:

(2) The department may authorize an accelerated repayment schedule upon request of the recipient.

(3) Interest ((الجالبية)) may not be charged on any taxes deferred under this chapter for the period of deferral, although all other penalties and interest applicable to delinquent excise taxes may be assessed and imposed for delinquent payments under this chapter. The debt for deferred taxes will not be extinguished by insolvency or other failure of the recipient. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of this chapter, for the remaining periods of the deferral.

Sec. 9. RCW 82.60.070 and 2010 c ... (SHB 3066) s 139 are each amended to read as follows:

(1)(a) Each recipient of a deferral of taxes granted under this chapter must file a complete annual survey with the department under RCW 82.32. . . (section 102, chapter . . . (SHB 3066), Laws of 2010). If the economic benefits of the deferral are passed to a lessee as provided in ((RCW 82.60.020(4))) section 4 of this act, the lessee must file a complete annual survey, and the applicant is not required to file a complete annual survey.

(b) The department must use the information reported on the annual survey required by this section to study the tax deferral program authorized under this chapter. The department must report to the legislature by December 1, (2000) 2019. The report must measure the effect of the program on job creation, the number of jobs created for residents of eligible areas, company growth, the introduction of new products, the diversification of the state’s economy, growth in research and development investment, the movement of firms or the consolidation of firms’ operations into the state, and such other factors as the department selects.

(2) Except as provided in section 10 of this act, if, on the basis of a survey under ((section)) RCW 82.32. . . (section 102, chapter . . . (SHB 3066), Laws of 2010) or other information, the department finds that an investment project is not eligible for tax deferral under this chapter, the amount of deferred taxes outstanding for the project is, according to the repayment schedule in RCW 82.60.060, will be immediately due. For purposes of this subsection (2)(a), the repayment schedule in RCW 82.60.060 is tolled during the period of time that a taxpayer is receiving relief from repayment of deferred taxes under section 10 of this act.

(3) A recipient who may repay deferred taxes under subsection (2) of this section because the department has found that an investment project is not eligible for tax deferral under this chapter is no longer required to file annual surveys under RCW 82.32. . . (section 102, chapter . . . (SHB 3066), Laws of 2010) beginning on the date an investment project is used for nonqualifying purposes.

(4) Notwithstanding any other provision of this section or RCW 82.32. . . (section 102, chapter . . . (SHB 3066), Laws of 2010), deferred taxes on the following need not be repaid:

(a) Machinery and equipment, and sales of or charges made for labor and services, which at the time of purchase would have qualified for exemption under RCW 82.08.02565; and

(b) Machinery and equipment which at the time of first use would have qualified for exemption under RCW 82.12.02565.

NEW SECTION. Sec. 10. A new section is added to chapter 82.60 RCW to read as follows:

(1) Subject to the conditions in this section, a person is not liable for the amount of deferred taxes outstanding for an investment project when the person temporarily ceases to use its qualified buildings and qualified machinery and equipment for manufacturing or research and development activities in a county with a population of less than twenty thousand persons for a period not to exceed twenty-four months from the date that the department sent its assessment for the amount of outstanding deferred taxes to the taxpayer.

(2) The relief from repayment of deferred taxes under this section does not apply unless the number of qualified employment positions
maintained at the investment project after manufacturing or research and development activities are temporarily ceased at least ten percent of the number of qualified employment positions employed at the investment project at the time the deferral was approved by the department. If a person has been approved for more than one deferral under this chapter, relief from repayment of deferred taxes under this section does not apply unless the number of qualified employment positions maintained at the investment project after manufacturing or research and development activities are temporarily ceased is at least ten percent of the highest number of qualified employment positions at the investment project at the time any of the deferrals were approved by the department. If, at any time during the twenty-four month period after the department has sent the taxpayer an assessment for outstanding deferred taxes resulting from the person temporarily ceasing to use its qualified buildings and qualified machinery and equipment for manufacturing or research and development activities, the number of qualified employment positions falls below the ten percent threshold in this subsection, the amount of deferred taxes outstanding for the project is immediately due and payable.

(4) A person seeking relief from the payment of deferred taxes under this section must apply to the department in a form and manner prescribed by the department. The application required under this subsection must be received by the department within thirty days of the date that the department sent its assessment for outstanding deferred taxes resulting from the person temporarily ceasing to use its qualified buildings and qualified machinery and equipment for manufacturing or research and development activities. The department must approve applications that meet the requirements in this section for relief from the payment of deferred taxes under this section.

(5) A person is entitled to relief under this section only once.

(6) A person whose application for relief from the payment of deferred taxes has been approved under this section must continue to file an annual survey as required under RCW 82.60.070(1) or any successor statute. In addition, the person must file, in a form and manner prescribed by the department, a report on the status of the business and the outlook for commencing manufacturing or research and development activities.

Concerning the governance and financing of the Washington state convention and trade center.

Strike everything after the enacting clause and insert the following:

“NEW SECTION. Sec. 1. (1) The legislature finds that conventions and trade shows provide both direct and indirect civic and economic benefits. It is the intent of the legislature to provide for the transfer of the governance and financing of the state convention and trade center to a public facilities district formed by a county with a population of one million five hundred thousand or more to acquire, own, and operate the convention and trade center. The legislature also intends to replace, in connection with such transfer, the authority under chapter 67.40 RCW of the state and city to impose excise taxes on the sale of or charge made for the furnishing of lodging to fund the state convention and trade center with authority for the public facilities district to impose lodging taxes at these rates, without affecting the existing authority of the state, county, cities, and other municipal corporations to impose taxes on the sale or charge made for the furnishing of lodging under existing caps on the aggregate rate that may be charged.

(2) The legislature further finds that the location of the convention and trade center particularly benefits and increases the occupancy of larger hotels and other lodging facilities in the city in which it is located and to a lesser extent in the remainder of the county in which it is located. The legislature finds that imposing excise taxes on the sale of or charge made for the furnishing of lodging at the rates authorized in section 5 of this act is an appropriate method of paying for the cost of acquiring, constructing, owning, remodeling, maintaining, equipping, reequipping, repairing, altering, and operating a convention and trade center.

Sec. 2. RCW 36.100.010 and 2002 c 218 s 26 are each amended to read as follows:

(1) (a) One or more public facilities districts may be created in any county and (dall) must be coextensive with the boundaries of the county.
(2) A public facilities district ((shall)) is created upon adoption of a resolution providing for the creation of such a district by the county legislative authority in which the proposed district is located.

(3) A public facilities district is a municipal corporation, an independent taxing “authority” within the meaning of Article VII, section 1 of the state Constitution, and a “taxing district” within the meaning of Article VII, section 2 of the state Constitution.

(4) Except as provided in RCW 36.100.040(4) and (5), no taxes authorized under this chapter may be assessed or levied unless a majority of the voters of the public facilities district has approved such tax at a general or special election. A single ballot proposition may both validate the imposition of the sales and use tax under RCW 82.14.048 and the excise tax under RCW 36.100.040(1).

(5)(a) A public facilities district ((shall)) constitutes a body corporate and ((shall)) possesses all the usual powers of a corporation for public purposes as well as all other powers that may now or hereafter be specifically conferred by statute, including, but not limited to, the authority to hire employees, staff, and services, to enter into contracts, including contracts with public and private parties, to acquire, own, sell, transfer, lease, and otherwise acquire or dispose of property, to grant concessions under terms approved by the public facilities district, and to sue and be sued.

(b) A public facilities district created by a county with a population of one million five hundred thousand or more to acquire, own, and operate a convention and trade center transferred from a public nonprofit corporation may continue to contract with the Seattle-King county convention and visitors’ bureau or its successor in interest for marketing the conversion and trade center facility and services.

(6) A public facilities district may enter into contracts with a county for the purpose of exercising any powers of a community renewal agency under chapter 35.81 RCW.

(7) The ((county)) legislative authority ((or the city council)) of a city or county, the board of directors of a public nonprofit corporation, or the state of Washington may transfer property to ((the)) a public facilities district created under this chapter, with or without consideration. No property that is encumbered with debt or that is in need of major capital renovation may be transferred to the district without the agreement of the district and revenues adequate to retire the existing indebtedness.

(8) A public facilities district may enter into agreements with the state, any municipal corporation, or any other governmental entity for the design, financing, acquisition, development, construction, reconstruction, lease, remodeling, alteration, maintenance, equipping, reequipping, repair, operation, or management of one or more facilities of the parties thereto. Agreements may provide that any party to the contract designs, finances, acquires, develops, constructs, reconstructs, remodels, alters, maintains, equips, reequips, repairs, and operates one or more facilities for the other party or parties to the contract. A public facilities district may enter into an agreement with the state, any municipal corporation, or other public or private entity that will assist a public facilities district in the financing of all or any part of a district facility on such terms as may be determined by agreement between the respective parties, including without limitation by a loan, guaranty, or other financing agreement.

Sec. 3. RCW 36.100.020 and 1995 3rd sp.s. c 1 s 302 are each amended to read as follows:

(1)(a) A public facilities district ((shall)) must be governed by a board of directors consisting of five ((seven), seven, or nine members as provided in this section.

(b) If the largest city in the county has a population that is at least forty percent of the total county population, the board of directors of the public facilities district ((shall)) must consist of five members selected as follows:

(((i)))(j) Two members appointed by the county legislative authority to serve for four-year staggered terms;

(((i)))(ii) Two members appointed by the city council of the largest city in the county to serve for four-year staggered terms; and

(((i)))(iii) One person to serve for a four-year term who is selected by the other directors.

(c)(i) Except as provided in (c)(ii) of this subsection (1), if the largest city in the county has a population of less than forty percent of the total county population, the county legislative authority ((shall)) must establish in the resolution creating the public facilities district whether the board of directors of the public facilities district has either five or seven members, and the county legislative authority ((shall)) must appoint the members of the board of directors to reflect the interests of cities and towns in the county, as well as the unincorporated area of the county.

(ii) However, if the county has a population of one million five hundred thousand or more, the largest city in the county has a population of less than forty percent of the total county population, and the county operates under a county charter, which provides for an elected county executive, the members of the board of directors must be appointed as follows:

(A) If the public facilities district is created to construct a baseball stadium as defined in RCW 82.14.0485, three members ((shall)) must be appointed by the governor and the remaining members ((shall)) must be appointed by the county executive subject to confirmation by the county legislative authority. Of the members appointed by the governor, the speaker of the house of representatives and the majority leader of the senate ((shall)) must each recommend to the governor a person to be appointed to the board; and

(B) If the public facilities district is created to acquire, own, and operate a convention and trade center, following the expiration of the terms of the initial board of directors, three members must be appointed by the governor, three members must be nominated by the county executive subject to confirmation by the county legislative authority, and three members must be nominated by the mayor of the city in which the convention and trade center is located subject to confirmation by the city legislative authority. Members of the board of directors may not be members of the legislative authority of the county or any city within the county.

(d) The initial board of directors of a public facilities district created in a county of one million five hundred thousand or more to acquire, own, and operate a convention and trade center must be comprised of the nine members of the board of the public nonprofit corporation that transfers the convention and trade center to the public facilities district under section 8 of this act. The governor must designate which of the initial board members must serve two-year terms and which must serve four-year terms and identify the board positions to which successors to initial directors are to be appointed by the county and the city.

(2) At least one member on the board of directors ((shall)) must be representative of the lodging industry in the public facilities district before the public facilities district imposes the excise tax under RCW 36.100.040(1). Of the members of the board of directors of a public facilities district created in a county of one million five hundred thousand or more to acquire, own, and operate a convention and trade center, one of the governor's appointments and one of the county’s appointments must be representative of the lodging industry in the public facilities district and one of the city’s appointments must be representative of organized labor, except that these requirements do not apply to the initial board of such district.

(3) Members of the board of directors ((shall)) must serve four-year terms of office, except that two of the initial five board members ((six), three of the initial seven board members ((shall)), and four of the initial nine board members must serve two-year terms of office.

(4) A vacancy ((shall)) must be filled in the same manner as the original appointment was made and the person appointed to fill a vacancy ((shall)) must serve for the remainder of the unexpired term of the office for the position to which he or she was appointed.
(5) Any director may be removed from office by the person or entity that appointed or confirmed such director for any reason or for no reason as follows: A director appointed by the governor may be removed from office by the governor((i)); and any ((t)he) director confirmed by a city or county legislative authority may be removed from office by action of at least two-thirds of the members of the legislative authority ((which made the appointment)) that confirmed the director.

Sec. 4. RCW 36.100.030 and 2003 c 376 s 1 are each amended to read as follows:
(1) A public facilities district is authorized to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate (a) sports facilities, entertainment facilities, convention facilities, including without limitation any convention and trade center transferred from a public nonprofit corporation under section 8(1) of this act, or regional centers as defined in RCW 35.57.020, and (b) for districts formed after January 1, 2000, recreational facilities other than ski areas, together with contiguous parking facilities. The taxes that are provided for in this chapter may only be imposed for these purposes, including without limitation implementing any redemption, prepayment, or legal defeasance of outstanding obligations under section 8(3)(a) of this act.
(2) A public facilities district may enter into agreements under chapter 39.34 RCW for the ((joint provision and operation)) design, financing, acquisition, development, construction, reconstruction, lease, remodeling, alteration, maintenance, equipping, reequipping, repair, operation, or management of such facilities and may enter into contracts under chapter 39.34 RCW where any party to the contract provides and operates such facilities for the other party or parties to the contract. A public facilities district may enter into agreements under chapter 39.34 RCW that will assist a public facilities district in the financing of all or any part of a district facility on such terms as may be determined by agreement between the respective parties, including without limitation by a loan, guaranty, or other financing agreement.
(3) Notwithstanding the establishment of a career, civil, or merit service system, a public facilities district may contract with a public or private entity for the operation or management of its public facilities.
(4) A public facilities district is authorized to use the supplemental alternative public works contracting procedures set forth in chapter 39.10 RCW in connection with the design, construction, reconstruction, remodel, or alteration of any of its public facilities.
(5) A public facilities district may impose charges and fees for the use of its facilities, and may accept and expend or use gifts, grants, and donations.

Sec. 5. RCW 36.100.040 and 2008 c 137 s 5 are each amended to read as follows:
(1) A public facilities district may impose an excise tax on the sale of or charge made for the furnishing of lodging that is subject to tax under chapter 82.08 RCW, except that no such tax may be levied on any premises having fewer than forty lodging units. (However)
Except for any tax imposed under subsection (4) or (5) of this section, if a public facilities district has not imposed such an excise tax prior to December 31, 1995, the public facilities district may only impose the excise tax if a ballot proposition authorizing the imposition of the tax has been approved by a simple majority vote of voters of the public facilities district voting on the proposition.
(2) The rate of the tax ((shall)) may not exceed two percent and the proceeds of the tax ((shall)) may only be used for the acquisition, design, construction, remodeling, maintenance, equipping, reequipping, repairing, and operation of its public facilities. This excise tax ((shall)) may not be imposed until the district has approved the proposal to acquire, design, and construct the public facilities.

(3) (A) A public facilities district may not impose the tax authorized in this section if, after the tax authorized in this section was imposed, the effective combined rate of state and local excise taxes, including sales and use taxes and excise taxes on lodging, imposed on the sale of or charge made for furnishing of lodging in any jurisdiction in the public facilities district exceeds eleven and one-half percent.
(b) For the purposes of this subsection (6), "annual payment amount" means an amount equal to revenues received by the public facilities district in the fiscal year from the additional excise tax imposed under subsection (5) of this section plus an interest charge calculated on one-half the annual payment amount times an interest
rate equal to the average annual rate of return for the prior calendar year in the Washington state local government investment pool created in chapter 43.250 RCW.

(c)(i) If the public facilities district in any fiscal year is required to apply additional lodging excise tax revenues to the payment of principal and interest on obligations it issues or incurs, and the public facilities district is unable to pay all or any portion of the annual payment amount to the state, the deficiency is deemed to be a loan from the state to the public facilities district for the purpose of assisting the district in paying such principal and interest and must be repaid by the public facilities district to the state after providing for the payment of the principal of and interest on obligations issued or incurred by the public facilities district, all on terms established by an agreement between the state treasurer and the public facilities district executed prior to the transfer date. Any agreement between the state treasurer and the public facilities district must specify the term for the repayment of the deficiency in the annual payment amount with an interest rate equal to the twenty year bond general obligation bond buyer index plus one percentage point.

(ii) Outstanding obligations to repay any loans deemed to have been made to the public facilities district as provided in any such agreements between the state treasurer and the public facilities district survive the expiration of the additional excise tax under subsection (5) of this section.

(iii) For the purposes of this subsection (6)(c), “additional lodging excise tax revenues” mean the tax revenues received by the public facilities district under subsection (5) of this section.

(7) A public facilities district is authorized to pledge any of its revenues, including without limitation revenues from the taxes authorized in this section, to pay or secure the payment of obligations issued or incurred by the public facilities district, subject to the terms established by the board of directors of the public facilities district. So long as a pledge of the taxes authorized under this section is in effect, the legislature may not withdraw or modify the authority to levy and collect the taxes at the rates permitted under this section and may not increase the annual payment amount to be transferred to the state under subsection (6) of this section.

(8) The department of revenue must perform the collection of such taxes on behalf of the public facilities district at no cost to the district, and the state treasurer must distribute those taxes as available on a monthly basis to the district or, upon the direction of the district, to a fiscal agent, paying agent or trustee for obligations issued or incurred by the district.

(9) Except as expressly provided in this chapter, all of the provisions contained in RCW 82.08.050 and 82.08.060 and chapter 82.32 RCW have full force and application with respect to taxes imposed under the provisions of this section.

(10) The taxes imposed in this section ((these)) do not apply to sales of temporary medical housing exempt under RCW 82.08.997.

Sec. 6. RCW 36.100.060 and 1999 c 165 s 15 are each amended to read as follows:

(1) To carry out the purpose of this chapter, a public facilities district may issue general obligation bonds, not to exceed an amount, together with any outstanding nonvoter approved general obligation indebtedness, equal to one-half of one percent of the value of taxable property within the district, as the term “value of taxable property” is defined in RCW 39.36.015. A public facilities district additionally may issue general obligation bonds for capital purposes only, together with any outstanding general obligation indebtedness, not to exceed an amount equal to one and one-fourth percent of the value of the taxable property within the district, as the term “value of taxable property” is defined in RCW 39.36.015, when authorized by the voters of the public facilities district pursuant to Article VIII, section 6 of the state Constitution, and to provide for the retirement thereof by excess property tax levies as provided in this chapter.

(2) General obligation bonds may be issued with a maturity of up to thirty years, and must be issued and sold in accordance with the provisions of chapter 39.46 RCW. If the public facilities district is formed by a county with a population of one million five hundred thousand or more to acquire, own, and operate a convention and trade center, general obligation bonds may be issued with a maturity of up to forty years, and ((these)) must be issued and sold in accordance with the provisions of chapter 39.46 RCW. In addition to the powers vested in it under RCW 39.46.030, a public facilities district created by a county with a population of one million five hundred thousand or more to acquire, own, and operate a convention and trade center may appoint, and may specify the rights and duties of, trustees with respect to its bonds, and such trustees may receive, hold, disburse, invest, and reinvest funds on the district’s behalf and for the protection of the district’s bond owners.

(3) The general obligation bonds may be payable from the operating revenues of the public facilities district in addition to the tax receipts of the district.

(4) The excise tax imposed pursuant to RCW 36.100.040 ((these)) (1) terminates upon final payment of all bonded indebtedness for its public facilities, except that the excise tax may be reauthorized by a public vote, in the same manner as originally authorized, for funding of additional public facilities or a regional center.

Sec. 7. RCW 36.100.100 and 1995 c 396 s 7 are each amended to read as follows:

The treasurer of the county in which a public facilities district is located ((these)) must be the ex officio treasurer of the district, unless the board of directors of a public facilities district created in a county of one million five hundred thousand or more designates by resolution another person having experience in financial or fiscal matters as the treasurer of the district. Such a treasurer possesses all of the powers, responsibilities, and duties of, and is subject to the same restrictions as provided by law for, a county treasurer with regard to district financial matters. Such treasurer must be bonded for not less than twenty-five thousand dollars.

NEW SECTION. Sec. 8. A new section is added to chapter 36.100 RCW to read as follows:

(1) On the transfer date the board of directors of a public nonprofit corporation formed under RCW 67.40.020 that owns and operates a state convention and trade center must transfer all lands, facilities, equipment, assets, other interests in real, personal, and intangible property, and interests under contracts, leases, licenses, and agreements under the control of that board of directors to a public facilities district created as provided in RCW 36.100.010 by the county in which the convention and trade center is located pursuant to an agreement with the public facilities district, subject to the review and approval of the state treasurer.

(2) No real estate excise tax or other excise tax may be imposed with respect to the transfer of assets of the public nonprofit corporation to the public facilities district.

(3) For the purposes of this section, “transfer date” means the date on or prior to June 30, 2011, on which provision has been made for all of the following, pursuant to agreements and other necessary arrangements approved by the state treasurer:

(d) The transfer of all other assets and liabilities and, to the extent permissible by their terms, the assignment or transfer of all contracts and agreements of the public nonprofit corporation from the public nonprofit corporation to the public facilities district;

(e) The execution of an agreement settling all claims in the case of Tourism Alliance, a Washington nonprofit corporation; Craig Schaefer; Claridge LLC, a Washington limited liability company; R.C. State of Washington and James L. McIntire, in his official capacity as State Treasurer of the State of Washington;

(f) The payment or provision for payment of all fees, costs, and expenses incurred by the state of Washington and the public nonprofit corporation to effect such transfer;

(g) An agreement of the public facilities district to transfer to the state on June 30, 2011, an amount equal to (i) the revenues from the tax imposed under RCW 36.100.040(5) during the state fiscal year ending June 30, 2011, plus (ii) the revenues from the tax imposed under RCW 67.40.130 during the state fiscal year ending June 30, 2011; and

(h) The agreement between the state treasurer and the public facilities district, referred to in section 5(6)(c)(i).

NEW SECTION. Sec. 9. A new section is added to chapter 36.100 RCW to read as follows:

(1) Except as provided in chapters 35.101, 67.28, and 82.14 RCW, after January 1, 1983, no city, town, or county in which the tax under RCW 36.100.040 (4) and (5) is imposed may impose a license fee or tax on the act or privilege of engaging in business to furnish lodging by a hotel, rooming house, tourist court, motel, trailer camp, or similar facilities in excess of the rate imposed upon other persons engaged in the business of making sales at retail.

(2) For the purposes of this section, "sales at retail" has the same meaning as provided in RCW 82.04.050.

NEW SECTION. Sec. 10. A new section is added to chapter 36.100 RCW to read as follows:

Such bonds are hereby made securities which may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the state for any purpose for which the deposit of bonds and other obligations of the state are now or may hereafter be authorized by law.

NEW SECTION. Sec. 12. A new section is added to chapter 36.100 RCW to read as follows:

(1) Any county with a population of one million five hundred thousand or more that creates a public facilities district pursuant to this chapter to acquire, own, and operate a convention and trade center transferred from a public nonprofit corporation is authorized to acquire by condemnation property or property rights as may be necessary to carry out the purposes of such district. If the legislative body of such county chooses to exercise its authority to acquire property by eminent domain on behalf of such public facilities district, it must do so pursuant to the procedures set forth in chapter 8.08 RCW.

(2) The accomplishment of the activities authorized by this chapter is declared to be a strictly public purpose of the municipality or municipal entities authorized to perform the same.

(3) The powers and authority conferred by this section are in addition and supplemental to existing powers or authority. Nothing contained in this section limits any other powers or authority of any agency, political subdivision, or unit of local government of this state.

MESSAGE FROM THE SENATE

March 22, 2010

Mr. Speaker:

The Senate has passed ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 2782 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. INTENT. (1) The legislature finds that:
(a) Low-income families and individuals often face significant barriers to receiving the services and benefits that they are qualified to receive. These services are essential to meeting individuals' basic needs, and provide critical support to low-income individuals who are working or who have disabilities that prevent them from working;
(b) Each year millions of federal dollars go unclaimed due to underutilization of benefits such as tax credits, health care coverage, and food support;
(c) State agencies have been engaged in an effort to implement an online benefit portal to simplify and streamline access to state, federal, and local benefits that include a broad array of public benefits;
(d) Access to education and training gives low-income individuals and families the opportunity to acquire the skills they need to become successfully employed and attain self-sufficiency; and
(e) Agencies have been engaged in efforts to increase access to training and education for recipients of federal food assistance.

(2) The legislature therefore intends to strengthen existing efforts by providing enhanced structure and direction to ensure that a strong partnership among colleges, state agencies, community partners, and philanthropy be established. The legislature also intends to provide an efficient, effective, integrated approach to the delivery of basic support services and education and training programs. The integrated approach should include the creation of a one-stop-shop, online benefits portal where individuals can apply for a broad array of state, federal, and local benefits, including but not limited to: Community or technical colleges, community college campuses where community service offices are colocated, community and technical colleges shall work in partnership to expand the food stamp employment and training program.

(3) The legislature further finds that:
(a) The general assistance program can be reformed to better support the ability of persons who are unable to work due to physical or mental health impairments to either return to work, or transition to federal supplemental security income benefits; and
(b) Persons who are homeless and suffering from mental illness or chemical dependency are particularly vulnerable, because homelessness is a substantial barrier to successful participation in, and completion of, needed treatment services.

(4) Through the reforms included in this act, the legislature intends to end the general assistance program and establish the disability lifeline program, and to implement multiple strategies designed to improve the employment and basic support outcomes of persons receiving disability lifeline benefits. The legislature further intends to focus services on persons who are homeless and have a mental illness or chemical dependency by providing housing vouchers as an alternative to a cash grant so that these persons can be in stable housing and thus have a greater opportunity to succeed in treatment.

NEW SECTION. Sec. 2. A new section is added to chapter 74.04 RCW to read as follows:

OPPORTUNITY PORTAL. (1) An online opportunity portal shall be established to provide the public with more effective access to available state, federal, and local services. The secretary of the department of social and health services shall act as the executive branch sponsor of the portal planning process. Under the leadership of the secretary, the department shall:
(a) Identify and select an appropriate solution and acquisition approach to integrate technology systems to create a user-friendly electronic tool for Washington residents to apply for benefits;
(b) Facilitate the adaptation of state information technology systems to allow applications generated through the opportunity portal and other compatible electronic application systems to seamlessly link to appropriate state information systems;
(c) Ensure that the portal provides access to a broad array of state, federal, and local services, including but not limited to: Health care services, higher education financial aid, tax credits, civic engagement, nutrition assistance, energy assistance, family support, and disability lifeline benefits as defined in sections 4 through 13 of this act;
(d) Design an implementation strategy for the portal that maximizes collaboration with community-based organizations to facilitate its use by low-income individuals and families;
(e) Provide access to the portal at a wide array of locations including but not limited to: Community or technical colleges, community college campuses where community service offices are colocated, community-based organizations, libraries, churches, food banks, state agencies, early childhood education sites, and labor unions;
(f) Ensure project resources maximize available federal and private funds for development and initial operation of the opportunity portal. Any incidental costs to state agencies shall be derived from existing resources. This subsection does not obligate or preclude the appropriation of future state funding for the opportunity portal;
(g) Determine the solution and acquisition approach by June 1, 2010.

(2) By December 1, 2011, and annually thereafter, the department of social and health services shall report to the legislature and governor. The report shall include data and information on implementation and outcomes of the opportunity portal, including any increases in the use of public benefits and increases in federal funding.

(3) The department shall develop a plan for implementing paperless application processes for the services included in the opportunity portal for which the electronic exchange of application information is possible. The plan should include a goal of achieving, to the extent possible, the transition of these services to paperless application processes by July 1, 2012. The plan must comply with federal statutes and regulations and must allow applicants to submit applications by alternative means to ensure that access to benefits will not be restricted.

(4) To the extent that the department enters into a contractual relationship to accomplish the purposes of this section, such contract or contracts shall be performance-based.

NEW SECTION. Sec. 3. A new section is added to chapter 74.04 RCW to read as follows:

BASIC FOOD EMPLOYMENT AND TRAINING PROGRAM. (1) The department, the employment security department, and the state board for community and technical colleges shall work in partnership to expand the food stamp employment and training program. Subject to federal approval, the program shall be expanded to three additional community colleges or other community-based locations in 2010 and shall expand capacity at participating colleges.
To the greatest extent possible, expansion shall be geographically diverse. The agencies shall:

(a) Identify and seek out partnerships with community-based organizations that can provide support services and case management to participants through performance-based contracts in the food stamp employment and training program, and do not replace the positions or work of department employees;

(b) Identify eligible nonfederal matching funds to draw down the federal match for food stamp employment and training services. Matching funds may include: Local funds, foundation grants, employer-paid costs, and the state allocation to community and technical colleges.

(2) Employment and training funds may be allocated for:

(a) Educational programs to develop skills for employability, vocational education, English as a second language courses, adult basic education, GED courses, remedial programs, job readiness training, case management, intake, assessment, evaluation, and barrier removal and support services such as tuition, books, child care, transportation, housing, and counseling services.

(b) The department shall annually track and report outcomes including those achieved through performance-based contracts as follows: Federal funding received, the number of participants served, achievement points, the number of participants who enter employment during or after participation in the food stamp employment and training program, and the average wage of jobs attained. The report shall be submitted to the governor and appropriate committees of the legislature on November 1st of each year, beginning in 2010.

(4) For purposes of this section, "food stamp employment and training program" refers to a program established and administered through the employment security department and the department of social and health services.

Sec. 4. RCW 74.04.005 and 2003 1st sp.s. c 10 s 1 are each amended to read as follows:

For the purposes of this title, unless the context indicates otherwise, the following definitions shall apply:

(1) "Public assistance" or "assistance"--Public aid to persons in need thereof for any cause, including services, medical care, assistance grants, disbursing orders, work relief, (general assistance) disability lifeline benefits and federal aid assistance.

(2) "Department"--The department of social and health services.

(3) "County or local office"--The administrative office for one or more counties or designated service areas.

(4) "Director" or "secretary" means the secretary of social and health services.

(5) "Disability lifeline program" means a program that provides aid and support in accordance with the conditions set out in this subsection.

(a) Aid and assistance shall be provided to persons who are not eligible to receive federal aid assistance, other than basic food benefits transferred electronically and medical assistance and meet one of the following conditions:

(i) Are pregnant and in need, based upon the current income and resource requirements of the federal temporary assistance for needy families program; or

(ii) Are incapacitated from gainful employment by reason of bodily or mental infirmity that will likely continue for a minimum of ninety days as determined by the department. The standard for incapacity in this subsection, as evidenced by the ninety-day duration standard, is not intended to be as stringent as federal supplemental security income disability standards; and

(A) Are citizens or aliens lawfully admitted for permanent residence or otherwise residing in the United States under color of law; and

(B) Have furnished the department their social security number.

If the social security number cannot be furnished because it has not been issued or is not known, an application for a number shall be made prior to authorization of benefits, and the social security number shall be provided to the department upon receipt;

(C) Have not refused or failed without good cause to participate in drug or alcohol treatment if an assessment by a certified chemical dependency counselor indicates a need for such treatment. Good cause must be found to exist when a person's physical or mental condition, as determined by the department, prevents the person from participating in drug or alcohol dependency treatment, when needed outpatient drug or alcohol treatment is not available to the person in the county of his or her residence or when needed inpatient treatment is not available in a location that is reasonably accessible for the person; and

(D) Have not refused or failed without good cause to participate in vocational rehabilitation services, if an assessment conducted under section 5 of this act indicates that the person might benefit from such services. Good cause must be found to exist when a person’s physical or mental condition, as determined by the department, prevents the person from participating in vocational rehabilitation services, or when vocational rehabilitation services are not available to the person in the county of his or her residence.

(b) Persons who initially apply and are found eligible for disability lifeline benefits based upon incapacity from gainful employment under (a) of this subsection on or after September 2, 2010, who are homeless and have been assessed as needing chemical dependency or mental health treatment or both, must agree, as a condition of eligibility for the disability lifeline program, to accept a housing voucher in lieu of a cash grant if a voucher is available. The department shall establish the dollar value of the housing voucher. The dollar value of the housing voucher may differ from the value of the cash grant. Persons receiving a housing voucher under this subsection shall receive a housing voucher.

(ii) If the department of commerce has determined under section 8 of this act that sufficient housing is not available, persons described in this section who apply for disability lifeline benefits during the time period that housing is not available shall receive a cash grant in lieu of a cash stipend and housing voucher.

(iii) Persons who refuse to accept a housing voucher under this subsection but otherwise meet the eligibility requirements of (a) of this subsection are eligible for medical care services benefits under RCW 74.09.035, subject to the time limits in (h) of this subsection.

(c) The following persons are not eligible for the disability lifeline program:

(i) Persons who are unemployable due primarily to alcohol or drug addiction. These persons shall be referred to appropriate assessment, treatment, shelter, or supplemental security income referral services as authorized under chapter 74.50 RCW. Referrals shall be made at the time of application or at the time of eligibility review. This subsection shall not be construed to prohibit the department from granting disability lifeline benefits to alcoholics and drug addicts who are incapacitated due to physical or mental disabilities that meet the eligibility criteria for the disability lifeline program;

(ii) Persons who refuse or fail to cooperate in obtaining federal aid assistance, without good cause;

(d) Disability lifeline benefits shall be provided only to persons who are not members of assistance units receiving federal aid assistance, except as provided in (a) of this subsection, and who will accept available services that can reasonably be expected to enable the person to work or reduce the need for assistance unless there is good cause to refuse. Failure to accept such services shall result in termination until the person agrees to cooperate in accepting such services and subject to the following maximum periods of ineligibility after reapplication:

(i) First failure: One week;

(ii) Second failure within six months: One month;
(iii) Third and subsequent failure within one year: Two months.

(c) Persons who are likely eligible for federal supplemental security income benefits shall be moved into the disability lifeline expedited component of the disability lifeline program. Persons placed in the expedited component of the program may, if otherwise eligible, receive disability lifeline benefits pending application for federal supplemental security income benefits. The monetary value of any disability lifeline benefit that is subsequently duplicated by the person's receipt of supplemental security income for the same period shall be considered a debt due the state and shall by operation of law be subject to recovery through all available legal remedies.

(f) For purposes of determining whether a person is incapacitated from gainful employment under (a) of this subsection:

(i) The department shall adopt by rule medical criteria for disability lifeline incapacity determinations to ensure that eligibility decisions are consistent with statutory requirements and are based on clear, objective medical information; and

(ii) The process implementing the medical criteria shall involve consideration of opinions of the treating or consulting physicians or health care professionals regarding incapacity, and any eligibility decision which rejects uncontroverted medical opinion must set forth clear and convincing reasons for doing so.

(g) Persons receiving disability lifeline benefits based upon a finding of incapacity from gainful employment who remain otherwise eligible shall have their benefits discontinued unless the recipient demonstrates no material improvement in their medical or mental health condition. The department may discontinue benefits when there was specific error in the prior determination that found the person eligible by reason of incapacity.

(h)(i) Beginning September 1, 2010, no person who is currently receiving or becomes eligible for disability lifeline program benefits shall be eligible to receive benefits under the program for more than twenty-four months in a sixty-month period. For purposes of this subsection, months of receipt of general assistance-unemployable benefits count toward the twenty-four month limit. Months during which a person received benefits under the expedited component of the disability lifeline or general assistance program or under the aged, blind, or disabled component of the disability lifeline or general assistance program shall not be included when determining whether a person has been receiving benefits for more than twenty-four months. On or before July 1, 2010, the department must review the cases of all persons who have received disability lifeline benefits or general assistance unemployable benefits for at least twenty months as of that date. On or before September 1, 2010, the department must review the cases of all remaining persons who have received disability lifeline benefits for at least twelve months as of that date. The review should determine whether the person meets the federal supplemental security income disability standard and, if the person does not meet that standard, whether the receipt of additional services could lead to employability. If a need for additional services is identified, the department shall provide case management services, such as assistance with arranging transportation or locating stable housing, that will facilitate the person's access to needed services. A person may not be determined ineligible due to exceeding the time limit unless he or she has received a case review under this subsection finding that the person does not meet the federal supplemental security income disability standard.

(ii) The time limits established under this subsection expire June 30, 2013.

(i) No person may be considered an eligible individual for disability lifeline benefits with respect to any month if during that month the person:

(i) Is fleeing to avoid prosecution of, or to avoid custody or confinement for conviction of, a felony, or an attempt to commit a felony, under the laws of the state of Washington or the place from which the person flees; or

(ii) Is violating a condition of probation, community supervision, or parole imposed under federal or state law for a felony or gross misdemeanor conviction.

(6) "Disability lifeline expedited" means a component of the disability lifeline program under which persons receiving disability lifeline benefits have been determined, after examination by an appropriate health care provider, to be likely to be eligible for Federal supplemental security income benefits based on medical and behavioral health evidence that meets the disability standards used for the federal supplemental security income program.

(7) "Federal aid assistance"—The specific categories of assistance for which provision is made in any federal law existing or hereafter passed by which payments are made from the federal government to the state in aid or in respect to payment by the state for public assistance rendered to any category of needy persons for which provision for federal funds or aid may from time to time be made, or a federally administered needs-based program.

(6)(a) "General assistance"—Aid to persons in need who:

(i) Are not eligible to receive federal aid assistance, other than food stamps or food stamp benefits transferred electronically and medical assistance, however, an individual who refuses or fails to cooperate in obtaining federal aid assistance, without good cause, is not eligible for general assistance;

(ii) Meet one of the following conditions:

(A) Pregnant: PROVIDED. That need is based on the current income and resource requirements of the federal temporary assistance for needy families program; or

(B) Subject to chapter 165, Laws of 1992, incapacitated from gainful employment by reason of bodily or mental infirmity that will likely continue for a minimum of ninety days as determined by the department.

(C) Persons who are unemployable due to alcohol or drug addiction are not eligible for general assistance. Persons receiving general assistance on July 26, 1987, or becoming eligible for such assistance thereafter, due to an alcohol or drug-related incapacity, shall be referred to appropriate assessment, treatment, shelter, or supplemental security income referral services as authorized under chapter 74.50 RCW. Referrals shall be made at the time of application or at the time of eligibility review. Alcoholics and drug addicted clients who are receiving general assistance on July 26, 1987, may remain on general assistance if they otherwise retain their eligibility until they are assessed for services under chapter 74.50 RCW. Subsection (6)(a)(i)(B) of this section shall not be construed to prohibit the department from granting general assistance benefits to alcoholics and drug addicts who are incapacitated due to other physical or mental conditions that meet the eligibility criteria for the general assistance program.

(iii) Are citizens or aliens lawfully admitted for permanent residence or otherwise residing in the United States under color of law; and

(iv) Have furnished the department their social security account number. If the social security account number cannot be furnished because it has not been issued or is not known, an application for a number shall be made prior to authorization of assistance; and the social security number shall be provided to the department upon receipt.

(b) Notwithstanding the provisions of subsection (6)(a)(i), (ii), and (e) of this section, general assistance shall be provided to the following recipients of federal-aid assistance:

(i) Recipients of supplemental security income whose need, as defined in this section, is not met by such supplemental security income grant because of separation from a spouse; or

(ii) To the extent authorized by the legislature in the biennial appropriations act, to recipients of temporary assistance for needy families whose needs are not being met because of a temporary reduction in monthly income below the entitled benefit payment level
caused by loss or reduction of wages or unemployment compensation benefits or some other unforeseen circumstances. The amount of general assistance authorized shall not exceed the difference between the entitled benefit payment level and the amount of income actually received.

(c) General assistance shall be provided only to persons who are not members of assistance units receiving federal aid assistance, except as provided in subsection (c)(a)(i)(A) and (b) of this section, and will accept available services which can reasonably be expected to enable the person to work or reduce the need for assistance unless there is good cause to refuse. Failure to accept such services shall result in termination until the person agrees to cooperate in accepting such services and subject to the following maximum periods of ineligibility after reaplication:

(i) First failure: One week;
(ii) Second failure within six months: One month;
(iii) Third and subsequent failure within one year: Two months.

(d) Persons found eligible for general assistance based on incapacity from gainful employment may, if otherwise eligible, receive general assistance pending application for federal supplemental security income benefit. Any general assistance that is subsequently duplicated by the person's receipt of supplemental security income for the same period shall be considered a debt due the state and shall by operation of law be subject to recovery through all available legal remedies.

(e) The department shall adopt by rule medical criteria for general assistance eligibility to ensure that eligibility decisions are consistent with statutory requirements and are based on clear, objective medical information.

(f) The process implementing the medical criteria shall involve consideration of opinions of the treating or consulting physicians or health care professionals regarding incapacity, and any eligibility decision which rejects uncontroverted medical opinion must set forth clear and convincing reasons for doing so.

(g) Recipients of general assistance based upon a finding of incapacity from gainful employment who remain otherwise eligible shall have their benefits discontinued unless the recipient demonstrates no material improvement in their medical or mental condition. The department may discontinue benefits when there was specific error in the prior determination that found the recipient eligible by reason of incapacity. Recipients of general assistance based upon pregnancy who relinquish their child for adoption, remain otherwise eligible, and are not eligible to receive benefits under the federal temporary assistance for needy families program shall not have their benefits terminated until the end of the month in which the period of six weeks following the birth of the recipient's child falls. Recipients of the federal temporary assistance for needy families program who lose their eligibility solely because of the birth and relinquishment of the qualifying child may receive general assistance through the end of the month in which the period of six weeks following the birth of the child falls.

(h) No person may be considered an eligible individual for general assistance with respect to any month if during that month the person:

(i) Is fleeing to avoid prosecution of, or to avoid custody or confinement for conviction of, a felony, or an attempt to commit a felony, under the laws of the state of Washington or the place from which the person flees;
(ii) Is violating a condition of probation, community supervision, or parole imposed under federal or state law for a felony or gross misdemeanor conviction.

(Applicant)--Any person who has made a request, or on behalf of whom a request has been made, to any county or local office for assistance.

(Recipient)--Any person receiving assistance and in addition those dependents whose needs are included in the recipient's assistance.

(Standards of assistance)--The level of income required by an applicant or recipient to maintain a level of living specified by the department.

(Resource)--Any asset, tangible or intangible, owned by or available to the applicant at the time of application, which can be applied toward meeting the applicant's need, either directly or by conversion into money or its equivalent. The department may by rule designate resources that an applicant may retain and not be ineligible for public assistance because of such resources. Exempt resources shall include, but are not limited to:

(a) A home that an applicant, recipient, or their dependents is living in, including the surrounding property;
(b) Household furnishings and personal effects;
(c) A motor vehicle, other than a motor home, used and useful having an equity value not to exceed five thousand dollars;
(d) A motor vehicle necessary to transport a (physically disabled) household member with a physical disability. This exclusion is limited to one vehicle per (physically disabled) person with a physical disability;
(e) All other resources, including any excess of values exempted, not to exceed one thousand dollars or other limit as set by the department, to be consistent with limitations on resources and exemptions necessary for federal aid assistance. The department shall also allow recipients of temporary assistance for needy families to exempt savings accounts with combined balances of up to an additional three thousand dollars;
(f) Applicants for or recipients of (general assistance) disability lifeline benefits shall have their eligibility based on resource limitations consistent with the temporary assistance for needy families program rules adopted by the department; and

(g) If an applicant for or recipient of public assistance possesses property and belongings in excess of the ceiling value, such value shall be used in determining the need of the applicant or recipient, except that: (i) The department may exempt resources or income when the income and resources are determined necessary to the applicant's or recipient's restoration to independence, to decrease the need for public assistance, or to aid in rehabilitating the applicant or recipient or a dependent of the applicant or recipient; and (ii) the department may provide grant assistance for a period not to exceed nine months from the date the agreement is signed pursuant to this section to persons who are otherwise ineligible because of excess real property owned by such persons when they are making a good faith effort to dispose of that property: PROVIDED, That:
(A) The applicant or recipient signs an agreement to repay the lesser of the amount of aid received or the net proceeds of such sale;
(B) If the owner of the excess property censes to make good faith efforts to sell the property, the entire amount of assistance may become an overpayment and a debt due the state and may be recovered pursuant to RCW 43.20B.630;
(C) Applicants and recipients are advised of their right to a fair hearing and afforded the opportunity to challenge a decision that good faith efforts to sell have ceased, prior to assessment of an overpayment under this section; and

(D) At the time assistance is authorized, the department files a lien without a sum certain on the specific property.

(11) "Income"--(a) All appreciable gains in real or personal property (cash or kind) or other assets, which are received by or become available for use and enjoyment by an applicant or recipient during the month of application or after applying for or receiving public assistance. The department may by rule and regulation exempt income received by an applicant for or recipient of public assistance which can be used by him or her to decrease his or her need for public assistance or to aid in rehabilitating him or her or
his or her dependents, but such exemption shall not, unless otherwise provided in this title, exceed the exemptions of resources granted under this chapter to an applicant for public assistance. In addition, for cash assistance the department may disregard income pursuant to RCW 74.08A.230 and 74.12.350.

(b) If, under applicable federal requirements, the state has the option of considering property in the form of lump sum compensatory awards or related settlements received by an applicant or recipient as income or as a resource, the department shall consider such property to be a resource.

(13) "Need"—The difference between the applicant's or recipient's standards of assistance for himself or herself and the dependent members of his or her family, as measured by the standards of the department, and value of all nonexempt resources and nonexempt income received by or available to the applicant or recipient and the dependent members of his or her family.

(14) For purposes of determining eligibility for public assistance and participation levels in the cost of medical care, the department shall exempt restitution payments made to people of Japanese and Aleut ancestry pursuant to the Civil Liberties Act of 1988 and the Aleutian and Pribilof Island Restitution Act passed by congress, P.L. 100-383, including all income and resources derived therefrom.

(15) In the construction of words and phrases used in this title, the singular number shall include the plural, the masculine gender shall include both the feminine and neuter genders and the present tense shall include the past and future tenses, unless the context thereof shall clearly indicate to the contrary.

REFERRAL TO THE DIVISION OF VOCATIONAL REHABILITATION. (1) The economic services administration shall work jointly with the division of vocational rehabilitation to develop an assessment tool that must be used to determine whether the programs offered by the division of vocational rehabilitation could assist persons receiving disability lifeline benefits in returning to the work force. The assessment tool shall be completed no later than December 1, 2010. The economic services administration shall begin using the tool no later than January 1, 2011. No later than December 30, 2011, the department shall report on the use of the tool and to what extent the programs offered by the division of vocational rehabilitation have been successful in returning persons receiving disability lifeline benefits to the work force.

(2) After January 1, 2011, all persons receiving disability lifeline benefits shall be assessed to determine whether they would likely benefit from a program offered by the division of vocational rehabilitation. If the assessment indicates that the person might benefit, the economic services administration shall make a referral to the division of vocational rehabilitation. If the person is found eligible for a program with the division of vocational rehabilitation, he or she must participate in that program to remain eligible for the monthly stipend and housing voucher or a cash grant. If the person refuses to participate or does not complete the program, the department shall terminate the cash stipend and housing voucher or cash grant but may not terminate medical coverage and food benefits.

NEW SECTION. Sec. 6. A new section is added to chapter 74.04 RCW to read as follows:

To maximize the timeliness and efficiency of incapacity evaluation examinations, the department must strongly consider contracting with a medicare health care system with a network of health care providers that are trained and have agreed to conduct disability lifeline medical and psychological incapacity and recertification exams. The department may obtain medical evidence and other relevant information from sources other than the contracted entity if such evidence is available at the time of a person's application for disability lifeline benefits and is sufficient to support a determination that the person is incapacitated; (iv) Maintaining a centralized appointment and clinical data system; and (v) Assisting persons receiving disability lifeline benefits with obtaining additional medical or behavioral health examinations needed to meet the disability standard for federal supplemental security income benefits and with submission of applications for supplemental security income benefits.

(5) Pursuant to RCW 41.06.142(3), performance-based contracting under this section is expressly mandated by the legislature and is not subject to the processes set forth in RCW 41.06.142 (1), (4), and (5).

The statewide expansion of the program under this section shall be considered expressly mandated by the legislature and not subject to the provisions of RCW 41.06.142 (1), (4), and (5).

If the administrator closes or limits subsidized enrollment, to the extent funding is available, the basic health plan must continue to accept and process applications for subsidized enrollment from persons described in this section.

NEW SECTION. Sec. 10. A new section is added to chapter 70.96A RCW to read as follows:

ACCESS TO CHEMICAL DEPENDENCY TREATMENT. If an assessment by a certified chemical dependency counselor indicates a need for drug or alcohol treatment, in order to enable a person receiving disability lifetime benefits to improve his or her health status and transition from disability lifetime benefits to employment, or transition to federal disability benefits, the person must be given high priority for enrollment in treatment, within funds appropriated for that treatment. However, first priority for receipt of treatment services must be given to pregnant women and parents of young children. This section expires June 30, 2013.    (b) Involuntarily committed to a public mental health facility; or
(c) Receiving an annual income, after taxes, of one hundred twenty-five percent or less of the current federally established poverty level; or

(2) "Indigent and able to contribute" means a person who, at any stage of a court proceeding, is unable to pay the anticipated cost of counsel for the matter before the court because his or her available funds are less than the anticipated cost of counsel but sufficient for the person to pay a portion of that cost.

(3) "Anticipated cost of counsel" means the cost of retaining private counsel for representation on the matter before the court.

(4) "Available funds" means liquid assets and disposable net monthly income calculated after provision is made for bail obligations. For the purpose of determining available funds, the following definitions shall apply:

(a) "Liquid assets" means cash, savings accounts, bank accounts, stocks, bonds, certificates of deposit, equity in real estate, and equity in motor vehicles. A motor vehicle necessary to maintain employment and having a market value not greater than three thousand dollars shall not be considered a liquid asset.

(b) "Income" means salary, wages, interest, dividends, and other earnings which are reportable for federal income tax purposes, and cash payments such as reimbursements received from pensions, annuities, social security, and public assistance programs. It includes any contribution received from any family member or other person who is domiciled in the same residence as the defendant and who is helping to defray the defendant's basic living costs.

(c) "Disposable net monthly income" means the income remaining each month after deducting federal, state, or local income taxes, social security taxes, contributory retirement, union dues, and basic living costs.

For purposes of this chapter:

(1) "Abandoned" means when the child's parent, guardian, or other custodian has expressed, either by statement or conduct, an intent to forego, for an extended period, parental rights or responsibilities despite an ability to exercise such rights and responsibilities. If the court finds that the petitioner has exercised due diligence in attempting to locate the parent, no contact between the child and the child's parent, guardian, or other custodian for a period of three months creates a rebuttable presumption of abandonment, even if there is no expressed intent to abandon.

(2) "Child" and "juvenile" means any individual under the age of eighteen years.

(3) "Current placement episode" means the period of time that begins with the most recent date that the child was removed from the home of the parent, guardian, or legal custodian for purposes of placement in out-of-home care and continues until: (a) The child returns home; (b) an adoption decree, a permanent custody order, or guardianship order is entered; or (c) the dependency is dismissed, whichever occurs first.

(4) "Department" means the department of social and health services.

(5) "Dependency guardian" means the person, nonprofit corporation, or Indian tribe appointed by the court pursuant to this chapter for the limited purpose of assisting the court in the supervision of the dependency.

(7) "Developmental disability" means a disability attributable to mental retardation, cerebral palsy, epilepsy, autism, or another neurological or other condition of an individual found by the secretary to be closely related to mental retardation or to require treatment similar to that required for individuals with mental retardation, which disability originates before the individual attains age eighteen, which has continued or can be expected to continue indefinitely, and which constitutes a substantial handicap to the individual.

(8) "Guardian" means the person or agency that: (a) Has been appointed as the guardian of a child in a legal proceeding other than a proceeding under this chapter; and (b) has the legal right to custody of the child pursuant to such appointment. The term "guardian" shall not include a "dependency guardian" appointed pursuant to a proceeding under this chapter.

(9) "Guardian ad litem" means a person, appointed by the court to represent the best interests of a child in a proceeding under this chapter, or in any matter which may be consolidated with a proceeding under this chapter. A "court-appointed special advocate" appointed by the court to be the guardian ad litem for the child, or to perform substantially the same duties and functions as a guardian ad litem, shall be deemed to be guardian ad litem for all purposes and uses of this chapter.

(10) "Guardian ad litem program" means a court-authorized volunteer program, which is or may be established by the superior court of the county in which such proceeding is filed, to manage all aspects of volunteer guardian ad litem representation for children alleged or found to be dependent. Such management shall include but is not limited to: Recruitment, screening, training, supervision, assignment, and discharge of volunteers.

(11) "Housing assistance" means appropriate referrals by the department or other supervising agencies to federal, state, local, or private agencies or organizations, assistance with forms, applications, or financial subsidies or other monetary assistance for housing. For purposes of this chapter, "housing assistance" is not a remedial service or time-limited family reunification service as described in RCW 13.34.025(2).

(12) "Indigent" means a person who, at any stage of a court proceeding, is:

(a) Receiving one of the following types of public assistance: Temporary assistance for needy families, general assistance, disability lifetime benefits, poverty-related veterans' benefits, food stamps or food stamp benefits transferred electronically, refugee resettlement benefits, medicaid, or supplemental security income; or

(b) Involuntarily committed to a public mental health facility; or

(c) Receiving an annual income, after taxes, of one hundred twenty-five percent or less of the federally established poverty level; or

(d) Unable to pay the anticipated cost of counsel for the matter before the court because his or her available funds are insufficient to pay any amount for the retention of counsel.

(13) "Out-of-home care" means placement in a foster family home or group care facility licensed pursuant to chapter 74.15 RCW or placement in a home, other than that of the child's parent, guardian, or legal custodian, not required to be licensed pursuant to chapter 74.15 RCW.

(14) "Preventive services" means preservation services, as defined in chapter 74.14C RCW, and other reasonably available services, including housing assistance, capable of preventing the need for out-of-home placement while protecting the child.

(17) "Social study" means a written evaluation of matters relevant to the disposition of the case and shall contain the following information:

(a) A statement of the specific harm or harms to the child that intervention is designed to alleviate;

(b) A description of the specific services and activities, for both the parents and child, that are needed in order to prevent serious harm to the child; the reasons why such services and activities are likely to be useful; the availability of any proposed services; and the agency's overall plan for ensuring that the services will be delivered. The description shall identify the services chosen and approved by the parent;

(c) If removal is recommended, a full description of the reasons why the child cannot be protected adequately in the home, including a description of any previous efforts to work with the parents and the child in the home; the in-home treatment programs that have been considered and rejected; the preventive services, including housing assistance, that have been offered or provided and have failed to prevent the need for out-of-home placement, unless the health, safety, and welfare of the child cannot be protected adequately in the home; and the parents' attitude toward placement of the child;

(d) A statement of the likely harms the child will suffer as a result of removal;

(e) A description of the steps that will be taken to minimize the harm to the child that may result if separation occurs including an assessment of the child's relationship and emotional bond with any siblings, and the agency's plan to provide ongoing contact between the child and the child's siblings if appropriate; and

(f) Behavior that will be expected before determination that supervision of the family or placement is no longer necessary.

(18) "Supervising agency" means an agency licensed by the state under RCW 74.15.090 or an Indian tribe under RCW 74.15.190 with whom the department has entered into a performance-based contract to provide child welfare services as defined in RCW 74.13.020.

Sec. 14. RCW 26.19.071 and 2009 c 84 s 3 are each amended to read as follows:

(1) Consideration of all income. All income and resources of each parent's household shall be disclosed and considered by the court when the court determines the child support obligation of each parent. Only the income of the parents of the children whose support is at issue shall be calculated for purposes of calculating the basic support obligation. Income and resources of any other person shall not be included in calculating the basic support obligation.

(2) Verification of income. Tax returns for the preceding two years and current paystubs shall be provided to verify income and deductions. Other sufficient verification shall be required for income and deductions which do not appear on tax returns or paystubs.

(3) Income sources included in gross monthly income. Except as specifically excluded in subsection (4) of this section, monthly gross income shall include income from any source, including:

(a) Salaries;

(b) Wages;

(c) Commissions;

(d) Deferred compensation;

(e) Overtime, except as excluded for income in subsection (4)(h) of this section;

(f) Contract-related benefits;

(t) Disability insurance benefits; and

(u) Income from self-employment, rent, royalties, contracts, proprietorship of a business, or joint ownership of a partnership or closely held corporation.

(4) Income sources excluded from gross monthly income. The following income and resources shall be disclosed but shall not be included in gross income:

Receipt of income and resources from temporary assistance for needy families, supplemental security income, ((general assistance)) disability lifeline benefits, and food stamps shall not be a reason to deviate from the standard calculation.

(5) Determination of net income. The following expenses shall be disclosed and deducted from gross monthly income to calculate net monthly income:

(h) Normal business expenses and self-employment taxes for self-employed persons. Justification shall be required for any business expense deduction about which there is disagreement.

Items deducted from gross income under this subsection shall not be a reason to deviate from the standard calculation.

(6) Imputation of income. The court shall impute income to a parent when the parent is voluntarily unemployed or voluntarily underemployed. The court shall determine whether the parent is voluntarily underemployed or voluntarily unemployed based upon the parent's work history, education, health, and age, or any other relevant factors. A court shall not impute income to a parent who is gainfully employed on a full-time basis, unless the court finds that the parent is voluntarily underemployed and finds that the parent is purposely underemployed to reduce the parent's child support obligation. Income shall not be imputed for an unemployable parent.
Income shall not be imputed to a parent to the extent the parent is unemployed or significantly underemployed due to the parent's efforts to comply with court-ordered reunification efforts under chapter 13.34 RCW or under a voluntary placement agreement with an agency supervising the child. In the absence of records of a parent's actual earnings, the court shall impute a parent's income in the following order of priority:

(a) Full-time earnings at the current rate of pay;
(b) Full-time earnings at the historical rate of pay based on reliable information, such as employment security department data;
(c) Full-time earnings at a past rate of pay where information is incomplete or sporadic;

Sec. 15. RCW 31.04.540 and 2009 c 149 s 8 are each amended to read as follows:

(1) To the extent that implementation of this section does not conflict with federal law resulting in the loss of federal funding, proprietary reverse mortgage loan advances made to a borrower must be treated as proceeds from a loan and not as income for the purpose of determining eligibility and benefits under means-tested programs of aid to individuals.

(2) Undisbursed reverse mortgage funds must be treated as equity in the borrower's home and not as proceeds from a loan, resources, or assets for the purpose of determining eligibility and benefits under means-tested programs of aid to individuals.

(3) This section applies to any law or program relating to payments, allowances, benefits, or services provided on a means-tested basis by this state including, but not limited to, optional state supplements to the federal supplemental security income program, low-income energy assistance, property tax relief, (((general assistance unemployed)) disability lifeline benefits, and medical assistance only to the extent this section does not conflict with Title 19 of the federal social security act.

(2) "Family" means the spouse or domestic partner, surviving spouse, surviving domestic partner, and dependent children of a living or deceased veteran.

(3) "Indigent" means a person who is defined as such by the county legislative authority using one or more of the following definitions:

(a) Receiving one of the following types of public assistance: Temporary assistance for needy families, (((general assistance unemployed)) disability lifeline benefits, poverty-related veterans' benefits, food stamps or food stamp benefits transferred electronically, refugee resettlement benefits, medicaid, or supplemental security income;
(b) Receiving an annual income, after taxes, of up to one hundred fifty percent or less of the current federally established poverty level, or receiving an annual income not exceeding a higher qualifying income established by the county legislative authority; or
(c) Unable to pay reasonable costs for shelter, food, utilities, and transportation because his or her available funds are insufficient.

(4) "Indirect costs" includes those allowable costs that are generally associated with carrying out the statutory objectives of this chapter, but the identification and tracking of those costs cannot be readily assigned to a specific statutory objective without an accounting effort that is disproportionate to the benefit received. A county legislative authority may allocate allowable indirect costs to its veterans' assistance fund if it is accomplished in a manner consistent with the cost principles promulgated by the federal office of management and budget in circular No. A-87, dated May 10, 2004.

(5) "Veteran" has the same meaning as defined in RCW 41.04.005 and 41.04.007, and includes a current member of the national guard or armed forces reserves who has been deployed to serve in an armed conflict.

Sec. 18. RCW 74.04.0052 and 1997 c 58 s 502 are each amended to read as follows:

(1) The department shall determine, after consideration of all relevant factors and in consultation with the applicant, the most appropriate living situation for applicants under eighteen years of age, unmarried, and pregnant who are eligible for (((general assistance unemployed)) disability lifeline benefits. An appropriate living situation shall include a place of residence that is maintained by the applicant's parents, parent, legal guardian, or other adult relative as their or his or her own home and that the department finds would provide an appropriate supportive living arrangement. It also includes a living situation maintained by an agency that is licensed under chapter 74.15 RCW that the department finds would provide an appropriate supportive living arrangement. Grant assistance shall not be provided under this chapter if the applicant does not reside in the most appropriate living situation, as determined by the department.

(2) A pregnant minor residing in the most appropriate living situation, as provided under subsection (1) of this section, is presumed to be unable to manage adequately the funds paid to the minor or on behalf of the dependent child or children and, unless the minor provides sufficient evidence to rebut the presumption, shall be subject to the protective payee requirements provided for under RCW 74.12.250 and 74.08.280.

(3) The department shall consider any statements or opinions by either parent of the unmarried minor parent or pregnant minor applicant as to an appropriate living situation for the minor, whether in the parental home or other situation. If the parents or a parent of the minor request, they or he or she shall be entitled to a hearing in juvenile court regarding designation of the parental home or other relative placement as the most appropriate living situation for the pregnant or parenting minor.
The department shall provide the parents or parent with the opportunity to make a showing that the parental home, or home of the other relative placement, is the most appropriate living situation. It shall be presumed in any administrative or judicial proceeding conducted under this subsection that the parental home or other relative placement requested by the parents or parent is the most appropriate living situation. This presumption is rebuttable.

(4) In cases in which the minor is unmarried and unemployed, the department shall, as part of the determination of the appropriate living situation, provide information about adoption including referral to community-based organizations providing counseling.

(5) For the purposes of this section, “most appropriate living situation” shall not include a living situation including an adult male who fathered the qualifying child and is found to meet the elements of rape of a child as set forth in RCW 9A.44.079.

Sec. 19. RCW 74.04.120 and 1979 c 141 s 301 are each amended to read as follows:

Allocations of state and federal funds shall be made upon the basis of need within the respective counties as disclosed by the quarterly budgets, considered in conjunction with revenues available for the satisfaction of that need: PROVIDED, That in preparing his quarterly budget for federal aid assistance, the administrator shall include the aggregate of the individual case load approved by the department to date on the basis of need and the secretary shall approve and allocate an amount sufficient to service the aggregate case load as included in said budget, and in the event any portion of the budgeted case load cannot be served with money available for the particular category for which an application is made the committee may on the administrator's request authorize the transfer of sufficient (general assistance) disability life-line program funds to the appropriation for such category to service such case load and secure the benefit of federal matching funds.

Sec. 20. RCW 74.04.230 and 1982 c 204 s 16 are each amended to read as follows:

Persons eligible for (general assistance under RCW 74.04.050) disability life-line benefits are eligible for mental health services to the extent that they meet the client definitions and priorities established by chapter 71.24 RCW.

Sec. 21. RCW 74.04.266 and 1977 ex.s. c 215 s 1 are each amended to read as follows:

In determining need for (general assistance for unemployed persons as defined in RCW 74.04.050(6)(a)) disability life-line benefits, the department may by rule and regulation establish a monthly earned income exemption in an amount not to exceed the exemption allowable under disability programs authorized in Title XVI of the federal social security act.

Sec. 22. RCW 74.04.620 and 1983 1st ex.s. c 41 s 37 are each amended to read as follows:

(1) The department is authorized to establish a program of state supplementation to the national program of supplemental security income consistent with Public Law 92-603 and Public Law 93-66 to those persons who are in need thereof in accordance with eligibility requirements established by the department.

(2) The department is authorized to establish reasonable standards of assistance and resource and income exemptions specifically for such program of state supplementation which shall be consistent with the provisions of the Social Security Act.

(3) The department is authorized to make payments to applicants for supplemental security income, pursuant to agreements as provided in Public Law 93-368, who are otherwise eligible for (general assistance) disability life-line benefits.

(4) Any agreement between the department and a supplemental security income applicant providing for the reimbursement of interim assistance to the department shall provide, if the applicant has been represented by an attorney, that twenty-five percent of the reimbursement received shall be withheld by the department and all or such portion thereof as has been approved as a fee by the United States department of health and human services shall be released directly to the applicant's attorney. The secretary may maintain such records as are deemed appropriate to measure the cost and effectiveness of such agreements and may make recommendations concerning the continued use of such agreements to the legislature.

Sec. 23. RCW 74.04.770 and 1997 c 59 s 11 are each amended to read as follows:

The department shall establish consolidated standards of need each fiscal year which may vary by geographical areas, program, and family size, for temporary assistance for needy families, refugee assistance, supplemental security income, and (general assistance) disability life-line benefits. Standards for temporary assistance for needy families, refugee assistance, and (general assistance) disability life-line benefits shall be based on studies of actual living costs and generally recognized inflation indices and shall include reasonable allowances for shelter, fuel, food, transportation, clothing, household maintenance and operations, personal maintenance, and necessary incidentals. The standard of need may take into account the economies of joint living arrangements, but unless explicitly required by federal statute, there shall not be proration of any portion of assistance grants unless the amount of the grant standard is equal to the standard of need.

The department is authorized to establish rateable reductions and grant maximums consistent with federal law. Payment level will be equal to need or a lesser amount if rateable reductions or grant maximums are imposed. In no case shall a recipient of supplemental security income receive a state supplement less than the minimum required by federal law.

The department may establish a separate standard for shelter provided at no cost.

Sec. 24. RCW 74.08.043 and 1981 1st ex.s. c 6 s 12 are each amended to read as follows:

In determining the living requirements of otherwise eligible applicants and recipients of supplemental security income and (general assistance) disability life-line benefits, the department is authorized to consider the need for personal and special care and supervision due to physical and mental conditions.

Sec. 25. RCW 74.08.278 and 1979 c 141 s 327 are each amended to read as follows:

In order to comply with federal statutes and regulations pertaining to federal matching funds and to provide for the prompt payment of initial grants and adjusting payments of grants the secretary is authorized to make provisions for the cash payment of assistance by the secretary or county administrators by the establishment of a central operating fund. The secretary may establish such a fund with the approval of the state auditor from moneys appropriated to the department for the payment of (general assistance) disability life-line benefits in a sum not to exceed one million dollars. Such funds shall be deposited as agreed upon by the secretary and the state auditor in accordance with the laws regulating the deposits of public funds. Such security shall be required of the depository in connection with the fund as the state treasurer may prescribe. Moneys remaining in the fund shall be returned to the general fund at the end of the biennium, or an accounting of proper expenditures from the fund shall be made to the state auditor. All expenditures from such central operating fund shall be reimbursed out of and charged to the proper program appropriated by the use of such forms and vouchers as are approved by the secretary of the department and the state auditor. Expenditures from such fund shall be audited by the director of financial management and the state auditor from time to time and a report shall be made by the state auditor and the secretary as are required by law.

Sec. 26. RCW 74.08.335 and 1997 c 59 s 13 are each amended to read as follows:
Temporary assistance for needy families and ((general assistance)) disability lifeline benefits shall not be granted to any person who has made an assignment or transfer of property for the purpose of rendering himself or herself eligible for the assistance. There is a rebuttable presumption that a person who has transferred or transfers any real or personal property or any interest in property within two years of the date of application for the assistance without receiving adequate monetary consideration therefor, did so for the purpose of rendering himself or herself eligible for the assistance. Any person who transfers property for the purpose of rendering himself or herself eligible for assistance, or any person who after becoming a recipient transfers any property or any interest in property without the consent of the secretary, shall be ineligible for assistance for a period of time during which the reasonable value of the property so transferred would have been adequate to meet the person's needs under normal conditions of living: PROVIDED, That the secretary is hereby authorized to allow exceptions in cases where undue hardship would result from a denial of assistance.

Sec. 27. RCW 74.08A.210 and 1997 c 58 s 302 are each amended to read as follows:

(1) In order to prevent some families from developing dependency on temporary assistance for needy families, the department shall make available to qualifying applicants a diversion program designed to provide brief, emergency assistance for families in crisis whose income and assets would otherwise qualify them for temporary assistance for needy families.

(2) Diversion assistance may include cash or vouchers in payment for the following needs:

(a) Child care;
(b) Housing assistance;
(c) Transportation-related expenses;
(d) Food;
(e) Medical costs for the recipient's immediate family;
(f) Employment-related expenses which are necessary to keep or obtain paid unsubsidized employment.

(3) Diversion assistance is available once in each twelve-month period for each adult applicant. Recipients of diversion assistance are not included in the temporary assistance for needy families program.

(4) Diversion assistance may not exceed one thousand five hundred dollars for each instance.

(5) To be eligible for diversion assistance, a family must otherwise be eligible for temporary assistance for needy families.

(6) Families ineligible for temporary assistance for needy families or ((general assistance)) disability lifeline benefits due to sanction, noncompliance, the lump sum income rule, or any other reason are not eligible for diversion assistance.

(7) Families must provide evidence showing that a bona fide need exists according to subsection (2) of this section in order to be eligible for diversion assistance.

An adult applicant may receive diversion assistance of any type no more than once per twelve-month period. If the recipient of diversion assistance is placed on the temporary assistance for needy families program within twelve months of receiving diversion assistance, the prorated dollar value of the assistance shall be treated as a loan from the state, and recovered by deduction from the recipient's cash grant.

(2) The department, in collaboration with the Washington association of sheriffs and police chiefs, the department of corrections, and the regional support networks, shall establish procedures for coordination between department field offices, institutions for mental disease, and correctional institutions, as defined in RCW 9.94.049, that result in prompt reinstatement of eligibility and speedy eligibility determinations for persons who are likely to be eligible for medical assistance services upon release from confinement. Procedures developed under this subsection must address:

(b) Expedient review of applications filed by or on behalf of confined persons and, to the extent practicable, completion of the review before the person is released;

(c) Mechanisms for providing medical assistance services identity cards to persons eligible for medical assistance services immediately upon their release from confinement; and

(d) Coordination with the federal social security administration, through interagency agreements or otherwise, to expedite processing of applications for federal supplemental security income or social security disability benefits, including federal acceptance of applications on behalf of confined persons.

No facility under contract to the department shall allow the consumption of alcoholic beverages on the premises. The department may contract with counties and cities for such shelter services. To the extent possible, the department shall not displace existing emergency shelter beds for use as shelter under this chapter. In areas of the state in which it is not feasible to develop shelters, due to low numbers of people needing shelter services, or in which sufficient numbers of shelter beds are not available, the department may provide shelter through an intensive protective payee program, unless the department grants an exception on an individual basis for less intense supervision.

(2) Persons continuously eligible for the ((general assistance - unemployed program)) disability lifeline program since July 25, 1987, who transfer to the program established by this chapter, have the option to continue their present living situation, but only through a protective payee.

NEW SECTION. Sec. 32. A new section is added to chapter 74.08A RCW to read as follows:

To the greatest extent possible, services shall be funded through the temporary assistance for needy families appropriations.

NEW SECTION. Sec. 33. This act shall be known and cited as the security lifeline act.

NEW SECTION. Sec. 34. Except for section 10 of this act, this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.

NEW SECTION. Sec. 36. If private funding sufficient to implement and operate the portal authorized under section 2 of this act is not secured by December 31, 2010, section 2 of this act is null and void.

NEW SECTION. Sec. 37. Sections 1 through 10 and 29 of this act shall be implemented within the amounts appropriated specifically for these purposes in the omnibus operating appropriations act."

MESSAGE FROM THE SENATE

March 25, 2010

Mr. Speaker:

The Senate receded from its amendment to ENGROSSED SUBSTITUTE HOUSE BILL NO. 3014. Under suspension of the rules, the bill was returned to second reading for purpose of amendment. The Senate adopted the following amendment and passed the bill, as amended by the Senate:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 82.60.010 and 1985 c 232 s 1 are each amended to read as follows:

The legislature finds that there are several areas in the state that are characterized by very high levels of unemployment and poverty. The (legislative [legislature]) legislature further finds that economic stagnation is the primary cause of this high unemployment rate and poverty; that new state policies are necessary in order to promote economic stimulation and new employment opportunities in these distressed areas; and that policies providing incentives for economic growth in these distressed areas are essential. For these reasons, the legislature (hereby) reestablishes a tax deferral program to be effective solely in distressed (areas and under circumstances where the deferred tax payments are for investments or costs that result in the creation of a specified number of jobs) counties. The legislature declares that this limited program serves the vital public purpose of creating employment opportunities and reducing poverty in the distressed (areas) counties of the state.

Sec. 2. RCW 82.60.020 and 2010 c ... (SHB 3066) s 138 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Applicant" means a person applying for a tax deferral under this chapter.

(2) "Department" means the department of revenue.

(3) "Eligible area" means (a):

(a) Through June 30, 2010, a rural county as defined in RCW 82.14.370; and

(b) Beginning July 1, 2010, a qualifying county.

(4)(a) "Eligible investment project" means an investment project that is located, as of the date the application required by RCW 82.60.030 is received by the department, in an eligible area as defined in subsection (3) of this section.

(b) [(The lessor or owner of a qualified building is not eligible for a deferral unless:

(i) The underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person; or

(ii) A) The lessor by written contract agrees to pass the economic benefit of the deferral to the lessee;

(B) The lessor that receives the economic benefit of the deferral agrees in writing with the department to complete the annual survey required under RCW 82.60.070; and

(C) The economic benefit of the deferral passed to the lessee is no less than the amount of tax deferred by the lessor and is evidenced by written documentation of any type of payment, credit, or other financial arrangement between the lessor or owner of the qualified building and the lessee.

(c)) "Eligible investment project" does not include any portion of an investment project undertaken by a light and power business as defined in RCW 82.16.010(4), other than that portion of a cogeneration project that is used to generate power for consumption within the manufacturing site of which the cogeneration project is an integral part, or investment projects ((which)) that have already received deferrals under this chapter.

(5) "Initiation of construction" has the same meaning as in RCW 82.63.010.

If a building is used partly for manufacturing or research and development and partly for other purposes, the applicable tax deferral (shall) must be determined by apportionment of the costs of construction under rules adopted by the department.

(10) "Qualified employment position" means a permanent full-time employee employed in the eligible investment project during the
entire tax year. The term "entire tax year" means a full-time position that is filled for a period of twelve consecutive months. The term "full-time" means at least thirty-five hours a week, four hundred fifty-five hours a quarter, or one thousand eight hundred twenty hours a year.

As used in this subsection, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

NEW SECTION. Sec. 3. A new section is added to chapter 82.60 RCW to read as follows:

The department, with the assistance of the employment security department, must establish a list of qualifying counties effective July 1, 2010. The list of qualifying counties is effective for a twenty-four month period and must be updated by July 1st of the year that is two calendar years after the list was established or last updated, as the case may be.

NEW SECTION. Sec. 4. A new section is added to chapter 82.60 RCW to read as follows:

The lessor or owner of a qualified building is not eligible for a deferral unless:

(1) The underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person; or

(2) (a) The lessor by written contract agrees to pass the economic benefit of the deferral to the lessee;

(b) The lessee that receives the economic benefit of the deferral agrees in writing with the department to complete the annual survey required under RCW 82.60.070; and

(c) The economic benefit of the deferral passed to the lessee is no less than the amount of tax deferred by the lessor and is evidenced by written documentation of any type of payment, credit, or other financial arrangement between the lessor or owner of the qualified building and the lessee.

Sec. 5. RCW 82.60.030 and 1994 sp.s. c 1 s 2 are each amended to read as follows:

(1) Application for deferral of taxes under this chapter must be made before initiation of the construction of the investment project or acquisition of equipment or machinery. The application ((shall)) must be made to the department in a form and manner prescribed by the department. The application ((shall)) must contain information regarding the location of the investment project, the applicant's average employment in the state for the prior year, estimated or actual new employment related to the project, estimated or actual wages of employees related to the project, estimated or actual costs, time schedules for completion and operation, and other information required by the department. The department ((shall)) must rule on the application within sixty days.

(2) This section expires July 1, 2020.

Sec. 6. RCW 82.60.040 and 2004 c 25 s 4 are each amended to read as follows:

(1) The department ((shall)) must issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW on each eligible investment project ((that is located in an eligible area as defined in RCW 82.60.020)).

(2) The department ((shall)) must keep a running total of all deferrals granted under this chapter during each fiscal biennium.

(3) This section expires July 1, (2044) 2020.

Sec. 7. RCW 82.60.049 and 2004 c 25 s 5 are each amended to read as follows:

(a) The applicant will hire at least one qualified employment position for each seven hundred fifty thousand dollars of investment for which a deferral is requested; and

(b) The positions will be filled by persons who at the time of hire are residents of the community empowerment zone. As used in this subsection, "resident" means the person makes his or her home in the community empowerment zone or the county in which the zone is located. A mailing address alone is insufficient to establish that a person is a resident for the purposes of this section. The persons must be hired after the date the application is filed with the department.

(3) All other provisions and eligibility requirements of this chapter apply to applicants eligible under this section.

(4) The qualified employment position must be filled by the end of the calendar year following the year in which the project is certified as operationally complete. If a person does not meet the requirements for qualified employment positions by the end of the second calendar year following the year in which the project is certified as operationally complete, all deferred taxes are immediately due.

Sec. 8. RCW 82.60.060 and 2000 c 106 s 5 are each amended to read as follows:

(1) The recipient ((shall)) must begin paying the deferred taxes in the third year after the date certified by the department as the date on which the ((construction)) investment project has been operationally completed. The first payment will be due on December 31st of the third calendar year after such certified date, with subsequent annual payments due on December 31st of the following four years with amounts of payment scheduled as follows:

<table>

<tr>
<th>Repayment Year</th>
<th>% of Deferred Tax Repaid</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>10%</td>
</tr>
<tr>

<tr>

<tr>

<td>25%</td>

</tbody>
</table>
The department may authorize an accelerated repayment schedule upon request of the recipient.

Interest not charged on any taxes deferred under this chapter for the period of deferral, although all other penalties and interest applicable to delinquent excise taxes may be assessed and imposed for delinquent payments under this chapter. The debt for deferred taxes will not be extinguished by insolvency or other failure of the recipient. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of this chapter, for the remaining periods of the deferral.

Sec. 9. R.C.W. 82.60.070 and 2010 c ... (SHB 3066) s 139 are each amended to read as follows:

(1) Each recipient of a deferral of taxes granted under this chapter must file a complete annual survey with the department under R.C.W. 82.32... (section 102, chapter... (SHB 3066), Laws of 2010). If the economic benefits of the deferral are passed to a lessee as provided in (R.C.W. 82.60.020(4)) section 4 of this act, the lessee must file a complete annual survey, and the applicant is not required to file a complete annual survey.

(b) The department must use the information reported on the annual survey required by this section to study the tax deferral program authorized under this chapter. The department must report to the legislature by December 1, (2009) 2019. The report must measure the effect of the program on job creation, the number of jobs created for residents of eligible areas, company growth, the introduction of new products, the diversification of the state's economy, growth in research and development investment, the movement of firms or the consolidation of firms' operations into the state, and such other factors as the department selects.

(2) Except as provided in section 10 of this act, if, on the basis of a survey under (section) R.C.W. 82.32... (section 102, chapter... (SHB 3066), Laws of 2010) or other information, the department finds that an investment project is not eligible for tax deferral under this chapter, the amount of deferred taxes outstanding for the project, according to the repayment schedule in R.C.W. 82.60.060, is immediately due. For purposes of this subsection (2)(a), the repayment schedule in R.C.W. 82.60.060 is tolled during the period of time that a taxpayer is receiving relief from repayment of deferred taxes under section 10 of this act.

(3) A recipient who must repay deferred taxes under subsection (2) of this section because the department has found that an investment project is not eligible for tax deferral under this chapter is no longer required to file annual surveys under R.C.W. 82.32... (section 102, chapter... (SHB 3066), Laws of 2010) beginning on the date an investment project is used for nonqualifying purposes. Notwithstanding any other provision of this section or R.C.W. 82.32... (section 102, chapter... (SHB 3066), Laws of 2010), deferred taxes on the following need not be repaid:

(a) Machinery and equipment, and sales of or charges made for labor and services, which at the time of purchase would have qualified for exemption under R.C.W. 82.08.02565; and

(b) Machinery and equipment which at the time of first use would have qualified for exemption under R.C.W. 82.12.02565.

NEW SECTION. Sec. 10. A new section is added to chapter 82.60 R.C.W. to read as follows:

(1) Subject to the conditions in this section, a person is not liable for the amount of deferred taxes outstanding for an investment project when the person temporarily ceases to use its qualified buildings and qualified machinery and equipment for manufacturing or research and development activities in a county with a population of less than thirty thousand persons for a period not to exceed twenty-four months from the date that the department sent its assessment for the amount of outstanding deferred taxes to the taxpayer.

(2) The relief from repayment of deferred taxes under this section does not apply unless the number of qualified employment positions maintained at the investment project after manufacturing or research and development activities are temporarily ceased is at least ten percent of the number of qualified employment positions employed at the investment project at the time the deferral was approved by the department. If a person has been approved for more than one deferral under this chapter, relief from repayment of deferred taxes under this section does not apply unless the number of qualified employment positions maintained at the investment project after manufacturing or research and development activities are temporarily ceased is at least ten percent of the highest number of qualified employment positions at the investment project at the time any of the deferrals were approved by the department. If, at any time during the twenty-four month period after the department has sent the taxpayer an assessment for outstanding deferred taxes resulting from the person temporarily ceasing to use its qualified buildings and qualified machinery and equipment for manufacturing or research and development activities, the number of qualified employment positions falls below the ten percent threshold in this subsection, the amount of deferred taxes outstanding for the project is immediately due.

(3) The lessor of an investment project for which a deferral has been granted under this chapter who has passed the economic benefits of the deferral to the lessee is not eligible for relief from the payment of deferred taxes under this section.

(4) A person seeking relief from the payment of deferred taxes under this section must apply to the department in a form and manner prescribed by the department. The application required under this subsection must be received by the department within thirty days of the date that the department sent its assessment for outstanding deferred taxes resulting from the person temporarily ceasing to use its qualified buildings and qualified machinery and equipment for manufacturing or research and development activities. The department must approve applications that meet the requirements in this section for relief from the payment of deferred taxes.

(5) A person is entitled to relief under this section only once.

(6) A person whose application for relief from the payment of deferred taxes has been approved under this section must continue to file an annual survey as required under R.C.W. 82.60.070(1) or any successor statute. In addition, the person must file, in a form and manner prescribed by the department, a report on the status of the business and the outlook for commencing manufacturing or research and development activities.

Sec. 11. R.C.W. 82.62.010 and 2010 c ... (E2SHB 1597) s 232 are each amended to read as follows:

(b) "Eligible business project" does not include any portion of a business project undertaken by a light and power business as defined in R.C.W. 82.16.010((44)) or that portion of a business project creating qualified full-time employment positions outside an eligible area.

"NEW SECTION. Sec. 1. The legislature declares that unprecedented revenue shortfalls necessitate immediate action to reduce expenditures during the 2009-2011 fiscal biennium. From the effective date of this section, it is the intent of the legislature that state agencies of the legislative branch, judicial branch, and executive branch including institutions of higher education, shall achieve a reduction in government operating expenses as provided in this act. It is the legislature's intent that, to the extent that the reductions in expenditures reduce compensation costs, agencies and institutions shall strive to preserve family wage jobs by reducing the impact of temporary layoffs on lower-wage jobs.

NEW SECTION. Sec. 2. State agencies and institutions shall achieve reductions in compensation expenditures for employees employed by general government state agencies in Washington management services, or exempt positions as managers, as defined in RCW 41.06.022, as provided in the omnibus appropriations act. These reductions shall be sufficient to attain a savings of $10 million general fund--state for fiscal year 2011. Savings in other funds and accounts shall be achieved as provided in the omnibus appropriations act.

NEW SECTION. Sec. 3. (1)(a) The office of financial management shall certify to each executive branch state agency and institution of higher education the compensation reduction amount to be achieved by that agency or institution. Each agency and institution shall achieve compensation expenditure reductions as provided in the omnibus appropriations act.

(b) Each executive branch state agency other than institutions of higher education may submit to the office of financial management a compensation and operations reduction plan to achieve at least the cost reductions as provided in the omnibus appropriations act. For purposes of the reduction plan, the state board of community and technical colleges shall submit a single plan on behalf of all community and technical colleges. The reduction plan of each institution may include, but is not limited to, employee leave without pay, including mandatory and voluntary temporary layoffs, reductions in the institution workforce, compensation reductions, and reduced work hours, as well as voluntary retirement, separation, incentive programs authorized by section 912, chapter 564, Laws of 2009, as well as other reductions to the cost of operations. The amount of cost reductions to be achieved by each institution shall be adjusted to reflect voluntary and mandatory temporary layoffs at the institution during the 2009-2011 fiscal biennium and implemented prior to January 1, 2010, but not adjusted by other compensation reduction plans adopted as a result of the enactment of chapter 564, Laws of 2009, or the enactment of other compensation cost reduction measures applicable to the 2009-2011 fiscal biennium.

The amount of cost reductions to be achieved by each institution shall be adjusted to reflect voluntary and mandatory temporary layoffs at the institution during the 2009-2011 fiscal biennium and implemented prior to January 1, 2010, but not adjusted by other compensation reduction plans adopted as a result of the enactment of chapter 564, Laws of 2009, or the enactment of other compensation cost reduction measures applicable to the 2009-2011 fiscal biennium.

(d) The director of financial management shall review, approve, and submit to the legislative fiscal committees those executive branch state agencies and higher education institution plans that achieve the cost reductions as provided in the omnibus appropriations act. For those executive branch state agencies and institutions of higher education that do not have an approved compensation and operations reduction plan, the institution shall be closed on the dates specified in subsection (2) of this section.

(e) For each agency of the legislative branch, the chief clerk of the house of representatives and the secretary of the senate shall review and approve a plan of employee mandatory and voluntary leave for the 2009-2011 fiscal biennium that achieves the cost reductions as provided in the omnibus appropriations act. The amount of compensation cost reductions to be achieved shall be adjusted, if necessary, to reflect voluntary and mandatory temporary layoffs at the agencies during the 2009-2011 fiscal biennium and implemented prior to January 1, 2010.

(f) For each agency of the judicial branch, the supreme court shall review and approve a plan of employee mandatory and voluntary leave for the 2009-2011 fiscal biennium that achieve the cost reductions as provided in the omnibus appropriations act.
