**Sec. 51.** RCW 43.43.930 and 1995 c 369 s 14 are each amended to read as follows:

The legislature finds that fire protection services at the state level are provided by different, independent state agencies. This has resulted in a lack of a comprehensive state-level focus for state fire protection services, funding, and policy. The legislature further finds that the paramount duty of the state in fire protection services is to enhance the capacity of all local jurisdictions to assure that their personnel with fire suppression, prevention, inspection, origin and cause, and arson investigation responsibilities are adequately trained to discharge their responsibilities. It is the intent of the legislature to consolidate fire protection services into a single state agency (and to create a state board with the responsibility of (1) establishing a comprehensive state policy regarding fire protection services and (2) advising the chief of the Washington state patrol and the director of fire protection on matters relating to their duties under state law)). It is also the intent of the legislature that the fire protection services program created herein will assist local fire protection agencies in program development without encroaching upon their historic autonomy. It is the further intent of the legislature that the fire protection services program be implemented incrementally to assure a smooth transition, to build local, regional, and state capacity, and to avoid undue burdens on jurisdictions with limited resources.

**Sec. 52.** RCW 43.43.934 and 2003 c 316 s 1 are each amended to read as follows:

(b) ((Adopt minimum standards for each level of responsibility among personnel with fire suppression, prevention, inspection, and investigation responsibilities that assure continuing assessment of skills and are flexible enough to meet emerging technologies. With particular respect to training for fire investigations, the master plan shall encourage cross training in appropriate law enforcement skills. To meet special local needs, fire agencies may adopt more stringent requirements than those adopted by the state;))

(5) ((Cooperate with the common schools, technical and community colleges, institutions of higher education, and any department or division of the state, or of any county or municipal corporation in establishing and maintaining instruction in fire service training and education in accordance with any act of congress and legislation enacted by the legislature in pursuance thereof and in establishing, building, and operating training and education facilities.))

Oil Spill Advisory Council

NEW SECTION. Sec. 78. The following acts or parts of acts are each repealed:

(1) RCW 90.56.120 (Oil spill advisory council—Meetings—Travel expenses and compensation) and 2006 c 372 s 907 & 2005 c 304 s 2; and

(2) RCW 90.56.130 (Council—Duties—Work plan—Reports) and 2005 c 304 s 3.

Sec. 79. RCW 90.56.005 and 2005 c 304 s 1 are each amended to read as follows:

(1) The legislature declares that water borne transportation as a source of supply for oil and hazardous substances poses special concern for the state of Washington. Each year billions of gallons of crude oil and refined petroleum products are transported as cargo and fuel by vessels on the navigable waters of the state. These shipments are expected to increase in the coming years. Vessels transporting oil into Washington travel on some of the most unique and special marine environments in the United States. These marine environments are a source of natural beauty, recreation, and economic livelihood for many residents of this state. As a result, the state has an obligation to ensure the citizens of the state that the waters of the state will be protected from oil spills.

(2) The legislature finds that prevention is the best method to protect the unique and special marine environments in this state. The technology for containing and cleaning up a spill of oil or hazardous substances is at best only partially effective. Preventing spills is more protective of the environment and more cost-effective when all the response and damage costs associated with responding to a spill are considered. Therefore, the legislature finds that the primary objective of the state is to achieve a zero spills strategy to prevent any oil or hazardous substances from entering waters of the state.

(3) The legislature also finds that:

(a) Recent accidents in Washington, Alaska, southern California, Texas, Pennsylvania, and other parts of the nation have shown that the transportation, transfer, and storage of oil have caused significant damage to the marine environment;

(b) Even with the best efforts, it is nearly impossible to remove all oil that is spilled into the water, and average removal rates are only fourteen percent;

(c) Washington’s navigable waters are treasured environmental and economic resources that the state cannot afford to place at undue risk from an oil spill;

(d) The state has a fundamental responsibility as the trustee of the state’s natural resources and the protector of public health and the environment to prevent the spill of oil; and

(e) In section 5002 of the federal oil pollution act of 1990, the United States congress found that many people believed that complacency on the part of industry and government was one of the contributing factors to the Exxon Valdez spill and, further, that one method to combat this complacency is to involve local citizens in the monitoring and oversight of oil spill plans. Congress also found that a mechanism should be established that fosters the long-term partnership of industry, government, and local communities in overseeing compliance with environmental concerns in the operation of crude oil terminals. Moreover, congress concluded that, in addition to Alaska, a program of citizen monitoring and oversight should be established in other major crude oil terminals in the United States because recent oil spills indicate that the safe transportation of oil is a national problem.
(4) In order to establish a comprehensive prevention and response program to protect Washington's waters and natural resources from spills of oil, it is the purpose of this chapter:

(a) To establish state agency expertise in marine safety and to centralize state activities in spill prevention and response activities;

(b) To prevent spills of oil and to promote programs that reduce the risk of both catastrophic and small chronic spills;

(c) To ensure that responsible parties are liable, and have the resources and ability, to respond to spills and provide compensation for all costs and damages;

(d) To provide for state spill response and wildlife rescue planning and implementation;

(e) To support and complement the federal oil pollution act of 1990 and other federal law, especially those provisions relating to the national contingency plan for cleanup of oil spills and discharges, including provisions relating to the responsibilities of state agencies designated as natural resource trustees. The legislature intends this chapter to be interpreted and implemented in a manner consistent with federal law;

(f) To provide broad powers of regulation to the department of ecology relating to spill prevention and response;

(g) To provide for (\(\text{independent (oil spill advisory council)\()}}\) review on an ongoing basis the adequacy of oil spill prevention, preparedness, and response activities in this state; and

(h) To provide an adequate funding source for state response and prevention programs.

Sec. 80. RCW 90.56.060 and 2005 c 304 s 4 are each amended to read as follows:

(1) The department shall prepare and annually update a statewide master oil and hazardous substance spill prevention and contingency plan. In preparing the plan, the department shall consult with an advisory committee representing diverse interests concerned with oil and hazardous substance spills, including the United States coast guard, the federal environmental protection agency, state agencies, local governments, port districts, private facilities, environmental organizations, oil companies, shipping companies, containment and cleanup contractors, tow companies, and hazardous substance manufacturers((, and with the oil spill advisory council)).

(2) The state master plan prepared under this section shall at a minimum:

(a) Take into consideration the elements of oil spill prevention and contingency plans approved or submitted for approval pursuant to this chapter and chapter 88.46 RCW and oil and hazardous substance spill contingency plans prepared pursuant to other state or federal law or prepared by federal, state, or local agencies and regional entities;

(b) State the respective responsibilities as established by relevant statutes and rules of each of the following in the prevention of and the assessment, containment, and cleanup of a worst case spill of oil or hazardous substances into the environment of the state: (i) State agencies; (ii) local governments; (iii) appropriate federal agencies; (iv) facility operators; (v) property owners whose land or other property may be affected by the oil or hazardous substance spill; and (vi) other parties identified by the department as having an interest in or the resources to assist in the containment and cleanup of an oil or hazardous substance spill;

(c) State the respective responsibilities of the parties identified in (b) of this subsection in an emergency response;

(d) Identify actions necessary to reduce the likelihood of spills of oil and hazardous substances;

(e) Identify and obtain mapping of environmentally sensitive areas at particular risk to oil and hazardous substance spills;

(f) Establish an incident command system for responding to oil and hazardous substances spills; and

(g) Establish a process for immediately notifying affected tribes of any oil spill.

(3) In preparing and updating the state master plan, the department shall:

(a) Consult with federal, provincial, municipal, and community officials, other state agencies, the state of Oregon, and with representatives of affected regional organizations;

(b) Submit the draft plan to the public for review and comment;

(c) Submit to the appropriate standing committees of the legislature for review, not later than November 1st of each year, the plan and any annual revision of the plan; and

(d) Require or schedule unannounced oil spill drills as required by RCW 90.56.260 to test the sufficiency of oil spill contingency plans approved under RCW 90.56.210.

(4) The department shall evaluate the functions of advisory committees created by the department regarding oil spill prevention, preparedness, and response programs, and shall revise or eliminate those functions which are no longer necessary.

Orthotic and Prosthetics Advisory Committee

NEW SECTION. Sec. 88. RCW 18.200.060 (Advisory committee--Composition--Terms--Duties) and 1997 c 285 s 7 are each repealed.

Sec. 89. RCW 18.200.010 and 1997 c 285 s 2 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Advisory committee" means the orthotics and prosthetics advisory committee.

(2) "Department" means the department of health.

(3) "Secretary" means the secretary of health or the secretary's designee.

(4) "Orthotics" means the science and practice of evaluating, measuring, designing, fabricating, assembling, fitting, adjusting, or servicing, as well as providing the initial training necessary to accomplish the fitting of, an orthosis for the support, correction, or alleviation of neuromuscular or musculoskeletal dysfunction, disease, injury, or deformity. The practice of orthotics encompasses evaluation, treatment, and consultation. With basic observational gait and postural analysis, orthotists assess and design orthoses to maximize function and provide not only the support but the alignment necessary to either prevent or correct deformity or to improve the safety and efficiency of mobility or locomotion, or both. Orthotic practice includes providing continuing patient care in order to assess its effect on the patient's tissues and to assure proper fit and function of the orthotic device by periodic evaluation.

(5) "Orthosis" means a custom-fabricated, definitive brace or support that is designed for long-term use. Except for the treatment of scoliosis, orthosis does not include prefabricated or direct-formed orthotic devices, as defined in this section, or any of the following assistive technology devices: commercially available knee orthoses used following injury or surgery; spastic muscle tone-inhibiting orthoses; upper extremity adaptive equipment; finger splints; hand splints; custom-made, leather wrist gauntlets; face masks used following burns; wheelchair seating that is an integral part of the wheelchair and not worn by the patient independent of the wheelchair; fabric or elastic supports; corsets; arch supports, also known as foot orthotics; low-temperature formed plastic splints; trusses; elastic hose; canes; crutches; cervical collars; dental appliances; and other similar devices as determined by the secretary, such as those commonly carried in stock by a pharmacy, department store, corset shop, or surgical supply facility. Prefabricated orthoses, also known as custom-fitted, or off-the-shelf, are devices that are manufactured as commercially available stock items for no specific patient. Direct-formed orthoses are devices formed or shaped during the molding process directly on the patient's body or body segment. Custom-fabricated orthoses, also known as custom-made orthoses, are devices designed and fabricated, in turn, from raw materials for a specific patient and require the generation of an image, form, or mold that replicates the patient's body or body segment and, in turn, involves the rectification of dimensions, contours, and
(6) "Prosthetics" means the science and practice of evaluating, measuring, designing, fabricating, assembling, fitting, aligning, adjusting, or servicing, as well as providing the initial training necessary to accomplish the fitting of, a prosthesis through the replacement of external parts of a human body lost due to amputation or congenital deformities or absences. The practice of prosthetics also includes the generation of an image, form, or mold that replicates the patient’s body or body segment and that requires rectification of dimensions, contours, and volumes for use in the design and fabrication of a socket to accept a residual anatomic limb to, in turn, create an artificial appendage that is designed either to support body weight or to improve or restore function or cosmesis, or both. Involved in the practice of prosthetics is observational gait analysis and clinical assessment of the requirements necessary to refine and mechanically fix the relative position of various parts of the prosthesis to maximize the function, stability, and safety of the patient. The practice of prosthetics includes providing continuing patient care in order to assess the prosthesis’s effect on the patient’s tissues and to assure proper fit and function of the prosthetic device by periodic evaluation.

(7) "Prosthetist" means a person who is licensed to practice prosthetics under this chapter.

(8) "Prosthesis" means a definitive artificial limb that is alignable or articulated, or, in lower extremity applications, capable of weight bearing. Prosthesis means an artificial medical device that is not surgically implanted and that is used to replace a missing limb, appendage, or other external human body part including an artificial limb, hand, or foot. The term does not include artificial eyes, ears, fingers or toes, dental appliances, ostomy products, devices such as artificial breasts, eyelashes, wigs, or other devices as determined by the secretary that do not have a significant impact on the musculoskeletal functions of the body. In the lower extremity of the body, the term prosthesis does not include prostheses required for amputations distal to and including the transmetatarsal level. In the upper extremity of the body, the term prosthesis does not include prostheses that are provided to restore function for amputations distal to and including the carpal level.

(9) "Authorized health care practitioner" means licensed physicians, physician’s assistants, osteopathic physicians, chiropractors, naturopaths, podiatric physicians and surgeons, dentists, and advanced registered nurse practitioners.

Sec. 90. RCW 18.200.050 and 1997 c 285 s 6 are each amended to read as follows:

In addition to other authority provided by law, the secretary has the authority to:

(1) Adopt rules under chapter 34.05 RCW necessary to implement this chapter;

(3) Register applicants, issue licenses to applicants who have met the education, training, and examination requirements for licensure, and deny licenses to applicants who do not meet the minimum qualifications, except that proceedings concerning the denial of credentials based upon unprofessional conduct or impairment are governed by the uniform disciplinary act, chapter 18.130 RCW;

Sec. 114. RCW 17.26.006 and 1995 c 255 s 2 are each amended to read as follows:

This state is facing an environmental disaster that will affect other states as well as other nations. The legislature finds that six years is sufficient time for state agencies to debate solutions to the Spartina and purple loosestrife problems that are occurring in state waters. One of the purposes of chapter 255, Laws of 1995 is to focus agency action on control and future eradication of Spartina and purple loosestrife. It is the mandate of the legislature that one state agency, the department of agriculture, be responsible for a unified effort to eliminate Spartina and control purple loosestrife. The state agency shall be directly accountable to the legislature on the progress of the Spartina eradication and purple loosestrife control program.

Sec. 115. RCW 17.26.015 and 1998 c 245 s 4 are each amended to read as follows:

(a) Coordination of the control program including memorandums of understanding, contracts, and agreements with local, state, federal, and tribal governmental entities and private parties;

(b) Preparation of a statewide Spartina management plan utilizing integrated vegetation management strategies that encompass all of Washington's tidelands. The plan shall be developed in cooperation with local, state, federal, and tribal governments, private landowners, and concerned citizens. The plan shall prioritize areas for control. Nothing in this subsection prohibits the department from taking action to control Spartina in a particular area of the state in accordance with a plan previously prepared by the state while preparing the statewide plan;

(c) Directing on the ground control efforts that include, but are not limited to: (i) Control work and contracts; (ii) Spartina survey; (iii) collection and maintenance of Spartina location data; (iv) purchasing equipment, goods, and services; (v) survey of threatened and endangered species; and (vi) site-specific environmental information and documents; and

(d) Evaluating the effectiveness of the control efforts.
The aquatic nuisance species committee is created for the purpose of fostering state, federal, tribal, and private cooperation on aquatic nuisance species issues. The mission of the committee is to minimize the unauthorized or accidental introduction of nonnative aquatic species and give special emphasis to preventing the introduction and spread of aquatic nuisance species. The term “aquatic nuisance species” means a nonnative aquatic plant or animal species that threatens the diversity or abundance of native species, the ecological stability of infested waters, or commercial, agricultural, or recreational activities dependent on such waters.

The committee consists of representatives from each of the following state agencies: Department of fish and wildlife, department of ecology, department of agriculture, department of health, department of natural resources, Puget Sound partnership, state patrol, (state noxious weed control board), and Washington sea grant program. The committee shall encourage and solicit participation by: Federally recognized tribes of Washington, federal agencies, Washington conservation organizations, environmental groups, and representatives from industries that may either be affected by the introduction of an aquatic nuisance species or that may serve as a pathway for their introduction.

The committee has the following duties:

(a) Periodically revise the state of Washington aquatic nuisance species management plan, originally published in June 1998;

(b) Make recommendations to the legislature on statutory provisions for classifying and regulating aquatic nuisance species;

(c) Recommend to the (state noxious weed control board) department of agriculture that a plant be classified under the process designated by RCW 17.10.080 as an aquatic noxious weed;

(d) Coordinate education, research, regulatory authorities, monitoring and control programs, and participate in regional and national efforts regarding aquatic nuisance species;

(e) Consult with representatives from industries and other activities that may serve as a pathway for the introduction of aquatic nuisance species to develop practical strategies that will minimize the risk of new introductions; and

(f) Prepare a biennial report to the legislature with the first report due by December 1, 2001, making recommendations for better accomplishing the purposes of this chapter, and listing the accomplishments of this chapter to date.

The committee shall accomplish its duties through the authority and cooperation of its member agencies. Implementation of all plans and programs developed by the committee shall be through the member agencies and other cooperating organizations.

Sec. 117. RCW 79A.25.320 and 2006 c 152 s 3 are each amended to read as follows:

(1) The office shall serve as a coordinating body for public and private efforts to improve quality in health care, promote cost-effectiveness in health care, and plan health facility and health service availability. In addition, the office shall facilitate access to health care data collected by public and private organizations as needed to conduct its planning responsibilities.

(2) The office shall:
   (a) Conduct strategic health planning activities related to the preparation of the strategy, as specified in this chapter;

   (c) Have access to the information submitted as part of the health professional licensing application and renewal process, excluding social security number and background check information, whether the license is issued by the secretary of the department of health or a board or commission. The office shall also have access to information submitted to the department of health as part of the medical or health facility licensing process. Access to and use of all data shall be in accordance with state and federal confidentiality laws and ethical guidelines, and the office shall maintain the same degree of confidentiality as the department of health. For professional licensing information provided to the office, the department of health shall replace any social security number with an alternative identifier capable of linking all licensing records of an individual; and
   (d) Conduct research and analysis or arrange for research and analysis projects to be conducted by public or private organizations to further the purposes of the strategy.

(3) The office shall establish a technical advisory committee to assist in the development of the strategy. Members of the committee shall include health economists, health planners, representatives of government and nongovernment health care purchasers, representatives of state agencies that use or regulate entities with an interest in health planning, representatives of acute care facilities, representatives of long-term care facilities, representatives of community-based long-term care providers, representatives of health care providers, a representative of one or more federally recognized Indian tribes, and representatives of health care consumers. The committee shall include members with experience in the provision of health services to rural communities.

Sec. 148. RCW 43.370.030 and 2007 c 259 s 52 are each amended to read as follows:

(1) The office (in consultation with the technical advisory committee established under RCW 43.370.020) shall develop a statewide health resources strategy. The strategy shall establish statewide health planning policies and goals related to the availability of health care facilities and services, quality of care, and cost of care. The strategy shall identify needs according to geographic regions suitable for comprehensive health planning as designated by the office.

(2) The development of the strategy shall consider the following general goals and principles:
   (a) That excess capacity of health services and facilities place considerable economic burden on the public who pay for the construction and operation of these facilities as patients, health insurance purchasers, carriers, and taxpayers; and
   (b) That the development and ongoing maintenance of current and accurate health care information and statistics related to cost and quality of health care, as well as projections of need for health facilities and services, are essential to effective strategic health planning.

(3) The strategy, with public input by health service areas, shall include:
   (a) A health system assessment and objectives component that:
      (i) Describes state and regional population demographics, health status indicators, and trends in health status and health care needs; and
      (ii) Identifies key policy objectives for the state health system related to access to care, health outcomes, quality, and cost-effectiveness;
   (b) A health care facilities and services plan that shall assess the demand for health care facilities and services to inform state health planning efforts and direct certificate of need determinations, for those facilities and services subject to certificate of need as provided in chapter 70.38 RCW. The plan shall include:
      (i) An inventory of each geographic region’s existing health care facilities and services;
      (ii) Projections of need for each category of health care facility and service, including those subject to certificate of need;
      (iii) Policies to guide the addition of new or expanded health care facilities and services to promote the use of quality, evidence-based, cost-effective health care delivery options, including any recommendations for criteria, standards, and methods relevant to the certificate of need review process; and
      (iv) An assessment of the availability of health care providers, public health resources, transportation infrastructure, and other considerations necessary to support the needed health care facilities and services in each region;
   (c) A health care data resource plan that identifies data elements necessary to properly conduct planning activities and to review certificate of need applications, including data related to inpatient and outpatient utilization and outcomes information, and financial and utilization information related to charity care, quality, and cost. The plan shall inventory existing data resources, both public and private, that store and disclose information relevant to the health planning process, including information necessary to conduct certificate of need activities pursuant to chapter 70.38 RCW. The plan shall identify any deficiencies in the inventory of existing data resources and the data necessary to conduct comprehensive health planning activities. The plan may recommend that the office be authorized to access existing data sources and conduct appropriate analyses of such data or that other agencies expand their data collection activities as statutory authority permits. The plan may identify any computing infrastructure deficiencies that impede the proper storage, transmission, and analysis of health planning data. The plan shall provide recommendations for increasing the availability of data related to health planning to provide greater community involvement in the health planning process and consistency in data used for certificate of need applications and determinations;
   (d) An assessment of emerging trends in health care delivery and technology as they relate to access to health care facilities and services, quality of care, and costs of care. The assessment shall recommend any changes to the scope of health care facilities and services covered by the certificate of need program that may be
warranted by these emerging trends. In addition, the assessment may recommend any changes to criteria used by the department to review certificate of need applications, as necessary;

(e) A rural health resource plan to assess the availability of health resources in rural areas of the state, assess the unmet needs of these communities, and evaluate how federal and state reimbursement policies can be modified, if necessary, to more efficiently and effectively meet the health care needs of rural communities. The plan shall consider the unique health care needs of rural communities, the adequacy of the rural health workforce, and transportation needs for accessing appropriate care.

(4) The office shall submit the initial strategy to the governor and the appropriate committees of the senate and house of representatives by January 1, 2010. Every two years the office shall submit an updated strategy. The health care facilities and services plan as it pertains to a distinct geographic planning region may be updated by individual categories on a rotating, biannual schedule.

(5) The office shall hold at least one public hearing and allow opportunity to submit written comments prior to the issuance of the initial strategy or an updated strategy. A public hearing shall be held prior to issuing a draft of an updated health care facilities and services plan, and another public hearing shall be held before final adoption of an updated health care facilities and services plan. Any hearing related to updating a health care facilities and services plan for a specific planning region shall be held in that region with sufficient notice to the public and an opportunity to comment.

Water Supply Advisory Committee

NEW SECTION. Sec. 154. RCW 70.119A.160 (Water supply advisory committee) and 1998 c 245 s 735 & 1995 c 376 s 4 are each repealed.

Sec. 155. RCW 70.119A.180 and 2003 1st sp.s. c 5 s 7 are each amended to read as follows:

(1) It is the intent of the legislature that the department establish water use efficiency requirements designed to ensure efficient use of water while maintaining water system financial viability, improving affordability of supplies, and enhancing system reliability.

(2) The requirements of this section shall apply to all municipal water suppliers and shall be tailored to be appropriate to system size, forecasted system demand, and system supply characteristics.

(3) For the purposes of this section:

(a) Water use efficiency includes conservation planning requirements, water distribution system leakage standards, and water conservation performance reporting requirements; and

(b) "Municipal water supplier" and "municipal water supply purposes" have the meanings provided by RCW 90.03.015.
(4) To accomplish the purposes of this section, the department shall adopt rules necessary to implement this section by December 31, 2005. The department shall:

(a) Develop conservation planning requirements that ensure municipal water suppliers are: (i) Implementing programs to integrate conservation with water system operation and management; and (ii) identifying how to appropriately fund and implement conservation activities. Requirements shall apply to the conservation element of water system plans and small water system management programs developed pursuant to chapter 43.20 RCW. In establishing the conservation planning requirements the department shall review the current department conservation planning guidelines and include those elements that are appropriate for rule. Conservation planning requirements shall include but not be limited to:

(A) Selection of cost-effective measures to achieve a system's water conservation objectives. Requirements shall allow the municipal water supplier to select and schedule implementation of the best methods for achieving its conservation objectives;

(B) Evaluation of the feasibility of adopting and implementing water delivery rate structures that encourage water conservation;

(C) Evaluation of each system's water distribution system leakage and, if necessary, identification of steps necessary for achieving water distribution system leakage standards developed under (b) of this subsection;

(D) Collection and reporting of water consumption and source production and/or water purchase data. Data collection and reporting requirements shall be sufficient to identify water use patterns among utility customer classes, where applicable, and evaluate the effectiveness of each system's conservation program. Requirements, including reporting frequency, shall be appropriate to system size and complexity. Reports shall be available to the public; and

(E) Establishment of minimum requirements for water demand forecast methodologies such that demand forecasts prepared by municipal water suppliers are sufficient for use in determining reasonably anticipated future water needs;

(b) Develop water distribution system leakage standards to ensure that municipal water suppliers are taking appropriate steps to reduce water system leakage rates or are maintaining their water distribution systems in a condition that results in leakage rates in compliance with the standards. Limits shall be developed in terms of percentage of total water produced and/or purchased and shall not be lower than ten percent. The department may consider alternatives to the percentage of total water supplied where alternatives provide a better evaluation of the water system's leakage performance. The department shall institute a graduated system of requirements based on levels of water system leakage. A municipal water supplier shall select one or more control methods appropriate for addressing leakage in its water system;

(c) Establish minimum requirements for water conservation performance reporting to assure that municipal water suppliers are regularly evaluating and reporting their water conservation performance. The objective of setting conservation goals is to enhance the efficient use of water by the water system customers. Performance reporting shall include:

(i) Requirements that municipal water suppliers adopt and achieve water conservation goals. The elected governing board or governing body of the water system shall set water conservation goals for the system. In setting water conservation goals the water supplier may consider historic conservation performance and conservation investment, customer base demographics, regional climate variations, forecasted demand and system supply characteristics, system financial viability, system reliability, and affordability of water rates. Conservation goals shall be established by the municipal water supplier in an open public forum;

(ii) Requirements that the municipal water supplier adopt schedules for implementing conservation program elements and achieving conservation goals to ensure that progress is being made toward adopted conservation goals;

(iii) A reporting system for regular reviews of conservation performance against adopted goals. Performance reports shall be available to customers and the public. Requirements, including reporting frequency, shall be appropriate to system size and complexity;

(iv) Requirements that any system not meeting its water conservation goals shall develop a plan for modifying its conservation program to achieve its goals along with procedures for reporting performance to the department;

(v) If a municipal water supplier determines that further reductions in consumption are not reasonably achievable, it shall identify how current consumption levels will be maintained;

(d) Adopt rules that, to the maximum extent practical, utilize existing mechanisms and simplified procedures in order to minimize the cost and complexity of implementation and to avoid placing unreasonable financial burden on smaller municipal systems.

(5) ((The department shall establish an advisory committee to assist the department in developing rules for water use efficiency. The advisory committee shall include representatives from public water system customers, environmental interest groups, business interest groups, a representative cross section of municipal water suppliers, a water utility conservation professional, tribal governments, the department of ecology, and any other members determined necessary by the department. The department may use the water supply advisory committee created pursuant to RCW 70.119A.160 augmented with additional participants as necessary to comply with this subsection to assist the department in developing rules.

(6)) (6) The department shall provide technical assistance upon request to municipal water suppliers and local governments regarding water conservation, which may include development of best management practices for water conservation programs, conservation landscape ordinances, conservation rate structures for public water systems, and general public education programs on water conservation.

((6))) (6) To ensure compliance with this section, the department shall establish a compliance process that incorporates a graduated approach employing the full range of compliance mechanisms available to the department.

((6))) (7) Prior to completion of rule making required in subsection (4) of this section, municipal water suppliers shall continue to meet the existing conservation requirements of the department and shall continue to implement their current water conservation programs.

Sec. 156. RCW 90.86.030 and 2005 c 60 s 3 are each amended to read as follows:

(1) The joint legislative committee on water supply during drought shall convene from time to time at the call of the chair when a drought conditions order under RCW 43.83B.405 is in effect, or when the chair determines, in consultation with the department of ecology, that it is likely that such an order will be issued within the next year.

(2) The committee may request and review information relating to water supply conditions in the state, and economic, environmental, and other impacts relating to decreased water supply being experienced or anticipated. The governor's executive water emergency committee, the department of ecology, (the water supply advisory committee,) and other state agencies with
water management or related responsibilities shall cooperate in responding to requests from the committee.

(3) During drought conditions in which an order issued under RCW 43.83B.405 is in effect, the department of ecology shall provide to the committee no less than monthly a report describing drought response activities of the department and other state and federal agencies participating on the water supply availability committee. The report shall include information regarding applications for, and approvals and denials of emergency water withdrawals and temporary changes or transfers of, water rights under RCW 43.83B.410.

(4) The committee from time to time shall make recommendations to the senate and house of representatives on budgetary and legislative actions that will improve the state's drought response programs and planning.

Fees shall be set by rule by the department of natural resources at the level necessary to cover the costs of the program after receiving recommendations on such fees from the public ((and the forest fire advisory board established by RCW 76.04.145)).

Sec. 163. RCW 76.04.630 and 1993 c 36 s 2 are each amended to read as follows:

There is created a landowner contingency forest fire suppression account in the state treasury. Moneys in the account may be spent only as provided in this section. Disbursements from the account shall be on authorization of the commissioner of public lands or the commissioner's designee. The account is subject to the allotment procedure provided under chapter 43.88 RCW, but no appropriation is required for disbursements.

The department may expend from this account the amounts as may be available and as it considers appropriate for the payment of emergency fire costs resulting from a participating landowner fire. The department may, when moneys are available from the landowner contingency forest fire suppression account, expend moneys for summarily abating, isolating, or reducing an extreme fire hazard under RCW 76.04.660. All moneys recovered as a result of the department's actions, from the owner or person responsible, under RCW 76.04.660 shall be deposited in the landowner contingency forest fire suppression account.

When a determination is made that the fire was started by other than a landowner operation, moneys expended from this account in the suppression of such fire shall be recovered from the general fund appropriations as may be available for emergency fire suppression costs. The department shall deposit in the landowner contingency forest fire suppression account moneys paid out of the account which are later recovered, less reasonable costs of recovery.

This account shall be established and renewed by an annual special forest fire suppression account assessment paid by participating landowners at a rate to be established by the department. In establishing assessments, the department shall seek to establish and thereafter reestablish a balance in the account of three million dollars. The department may establish a flat fee assessment of no more than seven dollars and fifty cents for participating landowners owning parcels of fifty acres or less. For participating landowners owning parcels larger than fifty acres, the department may charge the flat fee assessment plus a per acre assessment for every acre over fifty acres. The per acre assessment established by the department may not exceed fifteen cents per acre per year. The assessments may differ to equitably distribute the assessment based on emergency fire suppression cost experience necessitated by landowner operations. Amounts assessed for this account shall be a lien upon the forest lands with respect to which the assessment is made and may be collected as directed by the department in the same manner as forest protection assessments. Payment of emergency costs from this account shall in no way restrict the right of the department to recover costs pursuant to RCW 76.04.495 or other laws.
When the department determines that a forest fire was started in the course of or as a result of a landowner operation, (it shall notify the forest fire advisory board of the determination) the determination shall be final, unless, within ninety days of the notification, (the forest fire advisory board) or an interested party serves a request for a hearing before the department. The hearing shall constitute an adjudicative proceeding under chapter 34.05 RCW, the administrative procedure act, and an appeal shall be in accordance with RCW 34.05.510 through 34.05.598.

Sec. 164. RCW 76.04.660 and 2007 c 480 s 13 are each amended to read as follows:

(1) The owner of land on which there is an additional fire hazard, when the hazard is the result of a landowner operation or the land is within an area covered by a forest health hazard warning issued under RCW 76.06.180, shall take reasonable measures to reduce the danger of fire spreading from the area and may abate the hazard by burning or other satisfactory means.

(2) An extreme fire hazard shall exist within areas covered by a forest health hazard order issued by the commissioner of public lands under RCW 76.06.180 in which there is an additional fire hazard caused by disturbance agents and the landowner has failed to take such action as required by the forest health hazard order. The duties and liability of such landowner under this chapter are as described in subsections (5), (6), and (7) of this section.

(3) The department shall adopt rules defining areas of extreme fire hazard that the owner and person responsible shall abate. The areas shall include but are not limited to high risk areas such as where life or buildings may be endangered, areas adjacent to public highways, and areas of frequent public use.

(4) The department may adopt rules((after consultation with the forest fire advisory board)) defining other conditions of extreme fire hazard with a high potential for fire spreading to lands in other ownerships. The department may prescribe additional measures that shall be taken by the owner and person responsible to isolate or reduce the extreme fire hazard.

(5) The owner or person responsible for the existence of the extreme fire hazard is required to abate, isolate, or reduce the hazard. The duty to abate, isolate, or reduce, and liability under this chapter, arise upon creation of the extreme fire hazard. Liability shall include but not be limited to all fire suppression expenses incurred by the department, regardless of fire cause.

(6) If the owner or person responsible for the existence of the extreme fire hazard or forest debris subject to RCW 76.04.650 refuses, neglects, or unsuccessfully attempts to abate, isolate, or reduce the same, the department may summarily abate, isolate, or reduce the hazard as required by this chapter and recover twice the actual cost thereof from the owner or person responsible. Landowner contingency forest fire suppression account moneys may be used by the department, when available, for this purpose. Moneys recovered by the department pursuant to this section shall be returned to the landowner contingency forest fire suppression account.

(7) Such costs shall include all salaries and expenses of people and equipment incurred therein, including those of the department. All such costs shall also be a lien upon the land enforceable in the same manner with the same effect as a mechanic's lien.

(8) The summary action may be taken only after ten days' notice in writing has been given to the owner or reputed owner of the land on which the extreme fire hazard or forest debris subject to RCW 76.04.650 exists. The notice shall include a suggested method of abatement and estimated cost thereof. The notice shall be by personal service or by registered or certified mail addressed to the owner or reputed owner at the owner's last known place of residence.

(9) A landowner or manager may make a written request to the department to inspect their property and provide a written notice that they have complied with a forest health hazard warning or forest health hazard order, or otherwise adequately abated, isolated, or reduced an additional or extreme fire hazard. An additional or extreme fire hazard shall be considered to continue to exist unless and until the department, in its sole discretion, issues such notice.

"Sec. 12. RCW 85.38.090 and 1991 c 349 s 12 are each amended to read as follows:

(1) Whenever the governing body of a special district has more than three members, the governing body shall be reduced to three members as of January 1, 1986, by eliminating the positions of those district governing body members with the shortest remaining terms of office. The remaining three governing body members shall have staggered terms with the one having the shortest remaining term having his or her position filled at the 1987 special district general election, the one with the next shortest remaining term having his or her position filled at the 1989 special district general election, and the one with the longest remaining term having his or her position filled at the 1992 special district general election. If any of these remaining three governing body members have identical remaining terms of office, the newly calculated remaining terms of these persons shall be determined by lot with the county auditor who assists the special district in its elections managing such lot procedure. The newly established terms shall be recorded by the county auditor.

(2) However, whenever five or more special districts have consolidated under chapter 85.36 RCW and the consolidated district has five members in its governing body on July 28, 1985, the consolidated district may adopt a resolution retaining a five-member governing body. At any time thereafter, such a district may adopt a resolution and reduce the size of the governing body to three members with the reduction occurring as provided in subsection (1) of this section, but the years of the effective dates shall be extended so that the reduction occurs at the next January 1st occurring after the date of the adoption of the resolution. Whenever a special district is
so governed by a five-member governing body, two members shall be elected at each of two consecutive special district general elections, and one member shall be elected at the following special district general election, each to serve a six-year staggered term.

(3) Nothing in this section permits the governing body of a flood control district that is subject to section 2 of this act to reduce the size of its governing body.

**NEW SECTION.** Sec. 13. A new section is added to chapter 85.38 RCW to read as follows:

The following provisions apply to the governing bodies of flood control districts that, upon creation, have territory in three or more counties;

(1) The governing body shall include one member from each county with territory in the district, and two additional members selected as provided by this section. No more than two governing members may be from the same county.

(2) The initial members of the governing body must be chosen by each county legislative authority within which the district resides, with each county choosing one member, and the two counties with the largest populations within the district choosing one additional member each. The initial governing body members shall serve until their successors are elected and qualified at the next special district general election.

(3) At this first election, the members receiving the two greatest number of votes shall serve six-year terms, the members receiving the third and fourth greatest number of votes shall serve four-year terms, and the remaining members shall serve two-year terms of office.

(4) The requirements for the filing period, method for filing declarations of candidacy, and the arrangement of candidate names on the ballot for all special district general elections conducted after the initial election in the district shall be the same as the requirements for the initial election in the district. No primary elections may be held for the governing body of a flood control district that, upon creation, has territory in three or more counties.

(5) A vacancy occurs upon the death, resignation, or incapacity of a governing body member, or whenever the governing body member ceases to be a registered voter of the district.

(6)(a) Whenever a vacancy occurs in the governing body, the legislative authority of the county within which the largest geographic portion of the district is located shall appoint a registered voter to serve until a person is elected, at the next special district general election occurring sixty or more days after the vacancy has occurred, to serve the remainder of the unexpired term. The person so elected shall take office immediately when qualified as defined in RCW 29A.04.133.

(b) If an election for the position that became vacant would otherwise have been held at this special district general election, only one election shall be held and the person elected to fill the succeeding term for that position shall take office immediately when qualified as defined in RCW 29A.04.133 and shall serve both the remainder of the unexpired term and the succeeding term.

(7) An elected or appointed member of the governing body, or a candidate for the governing body, must be a registered voter of the flood control district who has resided within the district for period of not less than thirty days before the election. In accordance with RCW 85.38.127, land ownership is not a requirement for serving on the governing body of the district."

"NEW SECTION. Sec. 20. The legislature finds that when people who have disabilities are welcomed and included as members of our communities and provided with equal access to the opportunities available to others, their participation enriches those communities, enhances the strength of those communities' diversity, and contributes toward the economic vitality of those communities. (2) The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. Only the commissioner may authorize expenditures from the account.

(3) Expenditures from the account may be used for promoting greater awareness of disability issues and improved access for and inclusion and acceptance of persons with disabilities in communities in the state of Washington, including:

(1) The legislature finds that the elimination of polling places resulting from the transition to vote by mail creates barriers that restrict the ability of many voters with disabilities from achieving the independence and privacy in voting provided by the accessible voting devices required under the help America vote act. (2) Each county shall establish and maintain an advisory committee that includes persons with diverse disabilities and persons with expertise in providing accommodations for persons with disabilities. The committee shall assist election officials in developing a plan to identify and implement changes to improve the accessibility of elections for voters with disabilities. (3) Counties may form a joint advisory committee to develop the plan identified in subsection (2) of this section if ((the total population of the joining counties does not exceed thirty thousand, and the counties are geographically adjacent)) no more than one of the participating counties has a population greater than seventy thousand.

Sec. 25. RCW 46.16.381 and 2007 c 262 s 1 and 2007 c 44 s 1 are each reenacted and amended to read as follows:

(1) The director shall grant special parking privileges to any person who has a disability that limits or impairs the ability to walk or involves acute sensitivity to light and meets one of the following criteria, as determined by a licensed physician, an advanced registered nurse practitioner licensed under chapter 18.79 RCW, or a physician assistant licensed under chapter 18.71A or 18.57A RCW:

(i) Is restricted by a form of porphyria to the extent that the applicant would significantly benefit from a decrease in exposure to light.

(2) The applications for parking permits for persons with disabilities and parking permits for persons with temporary disabilities are official state documents. Knowingly providing false information in conjunction with the application is a gross misdemeanor punishable under chapter 9A.20 RCW. The following statement must appear on each application form immediately below the physician's, advanced registered nurse practitioner's, or physician assistant's signature and immediately below the applicant's signature: "A parking permit for a person with disabilities may be issued only for a medical necessity that severely affects mobility or involves acute sensitivity to light (RCW 46.16.381). Knowingly providing false information on this application is a gross misdemeanor. The penalty is up to one year in jail and a fine of up to $5,000 or both."

(3) Persons who qualify for special parking privileges are entitled to receive from the department of licensing a removable windshield placard bearing the international symbol of access and an individual serial number, along with a special identification card bearing the name and date of birth of the person to whom the placard is issued, and the placard's serial number. The special identification card shall be issued to all persons who are issued parking placards, including those issued for temporary disabilities, and special parking license plates for persons with disabilities. The department shall design the placard to be displayed when the vehicle is parked by suspending it from the rearview mirror, or in the absence of a rearview mirror the card may be displayed on the dashboard of any vehicle used to transport the person with disabilities. Instead of regular motor vehicle license plates, persons with disabilities are entitled to receive special license plates under this section or RCW 46.16.385 bearing the international symbol of access for one vehicle registered in the name of the person with disabilities. Persons with disabilities who are not issued the special license plates are entitled to receive a second special placard upon submitting a written request to the department. Persons who have been issued the parking privileges and who are using a vehicle or are riding in a vehicle displaying the placard or...
special license plates issued under this section or RCW 46.16.385 may park in places reserved for persons with physical disabilities. The director shall adopt rules providing for the issuance of special placards and license plates to public transportation authorities, nursing homes licensed under chapter 18.51 RCW, boarding homes licensed under chapter 18.20 RCW, senior citizen centers, private nonprofit agencies as defined in chapter 24.03 RCW, and vehicles registered with the department as cabulations that regularly transport persons with disabilities who have been determined eligible for special parking privileges provided under this section. The director may issue special license plates for a vehicle registered in the name of the public transportation authority, nursing home, boarding home, senior citizen center, private nonprofit agency, or cabulation service if the vehicle is primarily used to transport persons with disabilities described in this section. Public transportation authorities, nursing homes, boarding homes, senior citizen centers, private nonprofit agencies, and cabulation services are responsible for insuring that the special placards and license plates are not used improperly and are responsible for all fines and penalties for improper use.

(4) Whenever the person with disabilities transfers or assigns his or her interest in the vehicle, the special license plates shall be removed from the motor vehicle. If another vehicle is acquired by the person with disabilities and the vehicle owner qualifies for a special plate, the plate shall be attached to the vehicle, and the director shall be immediately notified of the transfer of the plate. If another vehicle is not acquired by the person with disabilities, the removed plate shall be immediately surrendered to the director.

(5) The special license plate shall be renewed in the same manner and at the time required for the renewal of regular motor vehicle license plates under this chapter. No special license plate may be issued to a person who is temporarily disabled. A person who has a condition expected to improve within six months may be issued a temporary placard for a period not to exceed six months. If the condition exists after six months a new temporary placard shall be issued upon receipt of a new certification from the person's physician. The permanent parking placard and identification card of a person with disabilities shall be renewed at least every five years, as required by the director, by satisfactory proof of the right to continued use of the privileges. In the event of the permit holder's death, the parking placard and identification card must be immediately surrendered to the department. The department shall match and purge its database of parking permits issued to persons with disabilities with available death record information at least every twelve months.

(6) Additional fees shall not be charged for the issuance of the special placards or the identification cards. No additional fee may be charged for the issuance of the special license plates except the regular motor vehicle registration fee and any other fees and taxes required to be paid upon registration of a motor vehicle.

(7) Any unauthorized use of the special placard, special license plate issued under this section or RCW 46.16.385, or identification card is a traffic infraction with a monetary penalty of four hundred fifty dollars.

(8) It is a parking infraction, with a monetary penalty of four hundred fifty dollars for any person to park in, block, or otherwise make inaccessible the access aisle located next to a space reserved for persons with physical disabilities. The Clerk of the court shall report all violations related to this subsection to the department.

(9) It is a parking infraction, with a monetary penalty of four hundred fifty dollars for any person to park a vehicle in a parking place provided on private property without charge or on public property reserved for persons with physical disabilities without a placard or special license plate issued under this section or RCW 46.16.385. If a person is charged with a violation, the person shall not be determined to have committed an infraction if the person produces in court or before the court appearance the placard or special license plate issued under this section or RCW 46.16.385 required under this section. A local jurisdiction providing nonmetered, on-street parking spaces reserved for persons with physical disabilities may impose by ordinance time restrictions of no less than four hours on the use of these parking places. A local jurisdiction may impose by ordinance time restrictions of no less than four hours on the use of nonreserved, on-street parking spaces by vehicles displaying the special parking placards or special license plates issued under this section or RCW 46.16.385. All time restrictions must be clearly posted.

(10) (The penalties) Two hundred dollars from each full penalty imposed under subsections (7), (8), and (9) of this section shall be deposited in the accessible communities account created in section 2 of this act. "Sec. 28. RCW 36.70A.110 and 2009 c 342 s 1 and 2009 c 121 s 1 are each reenacted and amended to read as follows:

(1) Each county that is required or chooses to plan under RCW 36.70A.040 shall designate an urban growth area or areas within which urban growth shall be encouraged and outside of which growth can occur only if it is not urban in nature. Each city that is located in such a county shall be included within an urban growth area. An urban growth area may include more than one city. An urban growth area may include territory that is located outside of a city only if such territory already is characterized by urban growth whether or not the urban growth area includes a city, or is adjacent to territory already characterized by urban growth, or is a designated new fully contained community as defined by RCW 36.70A.350.

(2) Based upon the growth management population projection made for the county by the office of financial management, the county and each city within the county shall include areas and densities sufficient to permit the urban growth that is projected to occur in the county or city for the succeeding twenty-year period, except for those urban growth areas contained totally within a national historical reserve. As part of this planning process, each city within the county must include areas sufficient to accommodate the broad range of needs and uses that will accompany the projected urban growth including, as appropriate, medical, governmental, institutional, commercial, service, retail, and other nonresidential uses.

Each urban growth area shall permit urban densities and shall include greenbelt and open space areas. In the case of urban growth areas contained totally within a national historical reserve, the city may restrict densities, intensities, and forms of urban growth as determined to be necessary and appropriate to protect the physical, cultural, or historic integrity of the reserve. An urban growth area determination may include a reasonable land market supply factor and shall permit a range of urban densities and uses. In determining this market factor, cities and counties may consider local circumstances. Cities and counties have discretion in their comprehensive plans to make many choices about accommodating growth.

Within one year of July 1, 1990, each county that as of June 1, 1991, was required or chose to plan under RCW 36.70A.040, shall begin consulting with each city located within its boundaries and each city shall propose the location of an urban growth area. Within sixty days of the date the county legislative authority of a county adopts its resolution of intention or of certification by the office of financial management, all other counties that are required or choose to plan under RCW 36.70A.040 shall begin this consultation with each city located within its boundaries. The county shall attempt to reach agreement with each city on the location of an urban growth area within which the city is located. If such an agreement is not reached with each city located within the urban growth area, the county shall justify in writing why it so designated the area an urban growth area. A city may object formally with the department over the designation of the urban growth area within which it is located. Where appropriate, the department shall attempt to resolve the conflicts, including the use of mediation services.

(3) Urban growth should be located first in areas already characterized by urban growth that have adequate existing public facility and service capacities to serve such development, second in areas already characterized by urban growth that will be served adequately by a combination of both existing public facilities and services and any additional needed public facilities and services that are provided by either public or private sources, and third in the remaining portions of the urban growth areas. Urban growth may also be located in designated new fully contained communities as defined by RCW 36.70A.350.

(4) In general, cities are the units of local government most appropriate to provide urban governmental services. In general, it is not appropriate that urban governmental services be extended to or expanded in rural areas except in those limited circumstances shown to be necessary to protect basic public health and safety and the environment and when such services are financially supportable at rural densities and do not permit urban development.

(5) On or before October 1, 1993, each county that was initially required to plan under RCW 36.70A.040(1) shall adopt development regulations designating interim urban growth areas under this chapter. Within three years and three months of the date the county legislative authority of a county adopts its resolution of intention or of certification by the office of financial management, all other counties that are required or choose to plan under RCW 36.70A.040 shall adopt development regulations designating interim urban growth areas under this chapter. Adoption of the interim urban growth areas may only occur after public notice; public hearing; and compliance with the state environmental policy act, chapter 43.21C RCW, and under this section. Such action may be appealed to the (appropriate) growth management hearings board under RCW 36.70A.280. Final urban growth areas shall be adopted at the time of comprehensive plan adoption under this chapter.

(6) Each county shall include designations of urban growth areas in its comprehensive plan.

(7) An urban growth area designated in accordance with this section may include within its boundaries urban service areas or
potential annexation areas designated for specific cities or towns within the county.

(8)(a) Except as provided in (b) of this subsection, the expansion of an urban growth area is prohibited into the one hundred year floodplain of any river or river segment that: (i) Is located west of the crest of the Cascade Mountains; and (ii) has a mean annual flow of one thousand or more cubic feet per second as determined by the department of ecology.

(b) Subsection (8)(a) of this section does not apply to:

(i) Urban growth areas that are fully contained within a floodplain and lack adjacent buildable areas outside the floodplain;

(ii) Urban growth areas where expansions are precluded outside floodplains because:

(A) Urban governmental services cannot be physically provided to serve areas outside the floodplain; or

(B) Expansions outside the floodplain would require a river or estuary crossing to access the expansion; or

(iii) Urban growth area expansions where:

(A) Public facilities already exist within the floodplain and the expansion of an existing public facility is only possible on the land to be included in the urban growth area and located within the floodplain; or

(B) Urban development already exists within a floodplain as of July 26, 2009, and is adjacent to, but outside of, the urban growth area, and the expansion of the urban growth area is necessary to include such urban development within the urban growth area; or

(C) The land is owned by a jurisdiction planning under this chapter or the rights to the development of the land have been permanently extinguished, and the following criteria are met:

(I) The permissible use of the land is limited to one of the following: Outdoor recreation; environmentally beneficial projects, including but not limited to habitat enhancement or environmental restoration; storm water facilities; flood control facilities; or underground conveyances; and

(II) The development and use of such facilities or projects will not decrease flood storage, increase storm water runoff, discharge pollutants to fresh or salt waters during normal operations or floods, or increase hazards to people and property.

(c) For the purposes of this subsection (8), "one hundred year floodplain" means the same as "special flood hazard area" as set forth in WAC 173-158-040 as it exists on July 26, 2009.

Sec. 29. RCW 36.70A.130 and 2009 c 479 s 23 are each amended to read as follows:

(1)(a) Each comprehensive land use plan and development regulations shall be subject to continuing review and evaluation by the county or city that adopted them. Except as otherwise provided, a county or city shall take legislative action to review and, if needed, revise its comprehensive land use plan and development regulations to ensure the plan and regulations comply with the requirements of this chapter according to the time periods specified in subsection (4) of this section.

(b) Except as otherwise provided, a county or city not planning under RCW 36.70A.040 shall take action to review and, if needed, revise its policies and development regulations regarding critical areas and natural resource lands adopted according to this chapter to ensure these policies and regulations comply with the requirements of this chapter according to the time periods specified in subsection (4) of this section. Legislative action means the adoption of a resolution or ordinance following notice and a public hearing indicating at a minimum, a finding that a review and evaluation has occurred and identifying the revisions made, or that a revision was not needed and the reasons therefor.

(c) The review and evaluation required by this subsection may be combined with the review required by subsection (3) of this section. The review and evaluation required by this subsection shall include, but is not limited to, consideration of critical area ordinances and, if planning under RCW 36.70A.040, an analysis of the population allocated to a city or county from the most recent ten-year population forecast by the office of financial management.

(d) Any amendment of or revision to a comprehensive land use plan shall conform to this chapter. Any amendment of or revision to development regulations shall be consistent with and implement the comprehensive plan.

(2)(a) Each county and city shall establish and broadly disseminate to the public a public participation program consistent with RCW 36.70A.035 and 36.70A.140 that identifies procedures and schedules whereby updates, proposed amendments, or revisions of the comprehensive plan are considered by the governing body of the county or city no more frequently than once every year. "Updates" means to review and revise, if needed, according to subsection (1) of this section, and the time periods specified in subsection (4) of this section or in accordance with the provisions of subsections (5) and (8) of this section. Amendments may be considered more frequently than once per year under the following circumstances:

(i) The initial adoption of a subarea plan that does not modify the comprehensive plan policies and designations applicable to the subarea;

(ii) The adoption or amendment of a shoreline master program under the procedures set forth in chapter 90.58 RCW;

(iii) The amendment of the capital facilities element of a comprehensive plan that occurs concurrently with the adoption or amendment of a county or city budget;

(iv) Until June 30, 2006, the designation of recreational lands under RCW 36.70A.1701. A county amending its comprehensive plan pursuant to this subsection (2)(a)(iv) may not do so more frequently than every eighteen months; and

(v) The adoption of comprehensive plan amendments necessary to enact a planned action under RCW 43.21C.031(2), provided that amendments are considered in accordance with the public participation program established by the county or city under this subsection (2)(a) and all persons who have requested notice of a comprehensive plan update are given notice of the amendments and an opportunity to comment.

(b) Except as otherwise provided in (a) of this subsection, all proposals shall be considered by the governing body concurrently so the cumulative effect of the various proposals can be ascertained. However, after appropriate public participation a county or city may adopt amendments or revisions to its comprehensive plan that conform with this chapter whenever an emergency exists or to resolve an appeal of a comprehensive plan filed with (ia) the growth management hearings board or with the court.

(3)(a) Each county that designates urban growth areas under RCW 36.70A.110 shall review, at least every ten years, its designated urban growth area or areas, and the densities permitted within both the incorporated and unincorporated portions of each urban growth area. In conjunction with this review by the county, each city located within an urban growth area shall review the densities permitted within its boundaries, and the extent to which the urban growth occurring within the county has located within each city and the unincorporated portions of the urban growth areas.

(b) The county comprehensive plan designating urban growth areas, and the densities permitted in the urban growth areas by the comprehensive plans of the county and each city located within the urban growth areas, shall be revised to accommodate the urban growth projected to occur in the county for the succeeding twenty-year period. The review required by this subsection may be combined with the review and evaluation required by RCW 36.70A.215.

(4) The department shall establish a schedule for counties and cities to take action to review and, if needed, revise their comprehensive plans and development regulations to ensure the plan and regulations comply with the requirements of this chapter. Except
as provided in subsections (5) and (8) of this section, the schedule established by the department shall provide for the reviews and evaluations to be completed as follows:

(a) On or before December 1, 2004, and every seven years thereafter, for Clallam, Clark, Jefferson, King, Kitsap, Pierce, Snohomish, Thurston, and Whatcom counties and the cities within those counties;

(b) On or before December 1, 2005, and every seven years thereafter, for Cowlitz, Island, Lewis, Mason, San Juan, Skagit, and Skamania counties and the cities within those counties;

(c) On or before December 1, 2006, and every seven years thereafter, for Benton, Chelan, Douglas, Grant, Kittitas, Spokane, and Yakima counties and the cities within those counties; and

(d) On or before December 1, 2007, and every seven years thereafter, for Adams, Asotin, Columbia, Ferry, Franklin, Garfield, Grays Harbor, Klickitat, Lincoln, Okanogan, Pacific, Pend Oreille, Stevens, Wahkiakum, Walla Walla, and Whitman counties and the cities within those counties.

(5)(a) Nothing in this section precludes a county or city from conducting the review and evaluation required by this section before the time limits established in subsection (4) of this section. Counties and cities may begin this process early and may be eligible for grants from the department, subject to available funding, if they elect to do so.

(b) A county that is subject to a schedule established by the department under subsection (4)(b) through (d) of this section and meets the following criteria may comply with the requirements of this section at any time within the thirty-six months following the date established in the applicable schedule: The county has a population of less than fifty thousand and has had its population increase by no more than seventeen percent in the ten years preceding the date established in the applicable schedule as of that date.

(c) A city that is subject to a schedule established by the department under subsection (4)(b) through (d) of this section and meets the following criteria may comply with the requirements of this section at any time within the thirty-six months following the date established in the applicable schedule: The city has a population of no more than five thousand and has had its population increase by the greater of either no more than one hundred persons or no more than seventeen percent in the ten years preceding the date established in the applicable schedule as of that date.

(d) State agencies are encouraged to provide technical assistance to the counties and cities in the review of critical area ordinances, comprehensive plans, and development regulations.

(6) A county or city subject to the time periods in subsection (4)(a) of this section that, pursuant to an ordinance adopted by the county or city establishing a schedule for periodic review of its comprehensive plan and development regulations, has conducted a review and evaluation of its comprehensive plan and development regulations and, on or after January 1, 2001, has taken action in response to that review and evaluation shall be deemed to have conducted the first review required by subsection (4)(a) of this section. Subsequent review and evaluation by the county or city of its comprehensive plan and development regulations shall be conducted in accordance with the time periods established under subsection (4)(a) of this section.

(7) The requirements imposed on counties and cities under this section shall be considered "requirements of this chapter" under the terms of RCW 36.70A.040(1). Only those counties and cities: (a) Complying with the schedules in this section; (b) demonstrating substantial progress towards compliance with the schedules in this section for development regulations that protect critical areas; or (c) complying with the extension provisions of subsection (5)(b) or (c) of this section may receive grants, loans, pledges, or financial guarantees under chapter 43.155 or 70.146 RCW. A county or city that is fewer than twelve months out of compliance with the schedules in this section for development regulations that protect critical areas is making substantial progress towards compliance. Only those counties and cities in compliance with the schedules in this section may receive preference for grants or loans subject to the provisions of RCW 43.17.250.

(8) Except as provided in subsection (5)(b) and (c) of this section:

(a) Counties and cities required to satisfy the requirements of this section according to the schedule established by subsection (4)(b) through (d) of this section may comply with the requirements of this section for development regulations that protect critical areas one year after the dates established in subsection (4)(b) through (d) of this section;

(b) Counties and cities complying with the requirements of this section one year after the dates established in subsection (4)(b) through (d) of this section for development regulations that protect critical areas shall be deemed in compliance with the requirements of this section; and

(c) This subsection (8) applies only to the counties and cities specified in subsection (4)(b) through (d) of this section, and only to the requirements of this section for development regulations that protect critical areas that must be satisfied by December 1, 2005, December 1, 2006, and December 1, 2007.

(9) Notwithstanding subsection (8) of this section and the substantial progress provisions of subsections (7) and (10) of this section, only those counties and cities complying with the schedule in subsection (4) of this section, or the extension provisions of subsection (5)(b) or (c) of this section, may receive preferences for grants, loans, pledges, or financial guarantees under chapter 43.155 or 70.146 RCW.

(10) Until December 1, 2005, and notwithstanding subsection (7) of this section, a county or city subject to the time periods in subsection (4)(a) of this section demonstrating substantial progress towards compliance with the schedules in this section for its comprehensive land use plan and development regulations may receive grants, loans, pledges, or financial guarantees under chapter 43.155 or 70.146 RCW. A county or city that is fewer than twelve months out of compliance with the schedules in this section for its comprehensive land use plan and development regulations is deemed to be making substantial progress towards compliance.

(3) Each board member shall not: (a) Be a candidate for or hold any other public office or trust; (b) engage in any occupation or business interfering with or inconsistent with his or her duty as a board member; and (c) for a period of one year after the termination of his or her board membership, act in a representative capacity before the board on any matter.

(4) A majority of (each) the board shall constitute a quorum for ((making orders or decisions)) adopting rules necessary for the conduct of its powers and duties((s))) or transacting other official business, and may act even though one position of the board is vacant. One or more members may hold hearings and take testimony to be reported for action by the board when authorized by rule or order of the board. The board shall perform all the powers and duties specified in this chapter or as otherwise provided by law.
(5) The board may appoint one or more hearing examiners to assist the board in its hearing function, to make conclusions of law and findings of fact and, if requested by the board, to make recommendations to the board for decisions in cases before the board. Such hearing examiners must have demonstrated knowledge of land use planning and law. The board(s) shall specify in (their joint) its rules of practice and procedure, as required by subsection (7) of this section, the procedure and criteria to be employed for designating hearing examiners as a presiding officer. Hearing examiners selected by (a) the board shall meet the requirements of subsection (3) of this section. The findings and conclusions of the hearing examiner shall not become final until they have been formally approved by the board. This authorization to use hearing examiners does not waive the requirement of RCW 36.70A.300 that final orders be issued within one hundred eighty days of board receipt of a petition.

(6) (Final) The board shall make findings of fact and prepare a written decision in each case decided by it, and such findings and decision shall be effective upon being signed by two or more members of the board. (All three) The board(s) shall (jointly meet to) develop and adopt (joint) rules of practice and procedure, including rules regarding expedited and summary disposition of appeals and the assignment of cases to regional panels. The board(s) shall publish such rules and decisions (they) it renders and arrange for the reasonable distribution of the rules and decisions. Except as it conflicts with specific provisions of this chapter, the administrative procedures, chapter 34.05 RCW, and specifically including the provisions of RCW 34.05.455 governing ex parte communications, shall govern the practice and procedure of the board(s).

(8) A board member or hearing examiner is subject to disqualification under chapter 34.05 RCW. The (joint) rules of practice of the board(ai) shall establish procedures by which a party to a hearing conducted before the board may file with the board a motion to disqualify, with supporting affidavit, against a board member or hearing examiner assigned to preside at the hearing.

(9) (The) All members of the board(s) shall meet (jointly) on at least an annual basis with the objective of sharing information that promotes the goals and purposes of this chapter.

(10) The board shall annually elect one of its members to be the board administrative officer. The duties and responsibilities of the administrative officer include handling day-to-day administrative, budget, and personnel matters on behalf of the board, together with making case assignments to board members in accordance with the board's rules of procedure in order to achieve a fair and balanced workload among all board members. The administrative officer of the board may carry a reduced caseload to allow time for performing the administrative work functions.

Sec. 34. RCW 36.70A.280 and 2008 c 289 s 5 are each amended to read as follows:

(1) (4) The growth management hearings board shall hear and determine only those petitions alleging either:

(a) That, except as provided otherwise by this subsection, a state agency, county, or city planning under this chapter is not in compliance with the requirements of this chapter, chapter 90.58 RCW as it relates to the adoption of shoreline master programs or amendments thereto, or chapter 43.21C RCW as it relates to plans, development regulations, or amendments, adopted under RCW 36.70A.040 or chapter 90.58 RCW. Nothing in this subsection authorizes (aa) the board to hear petitions alleging noncompliance with RCW 36.70A.5801; or

(b) That the twenty-year growth management planning population projections adopted by the office of financial management pursuant to RCW 43.62.035 should be adjusted.

(2) A petition may be filed only by: (a) The state, or a county or city that plans under this chapter; (b) a person who has participated orally or in writing before the county or city regarding the matter on which a hearing is requested; (c) a person who is certified by the governor within sixty days of filing the request with the board; or (d) a person qualified pursuant to RCW 34.05.530.

(3) For purposes of this section "person" means any individual, partnership, corporation, association, state agency, governmental subdivision or unit thereof, or public or private organization or entity of any character.

(4) To establish participation standing under subsection (2)(b) of this section, a person must show that his or her participation before the county or city was reasonably related to the persons issues as presented to the board.

(5) When considering a possible adjustment to a growth management planning population projection prepared by the office of financial management, (aa) the board shall consider the implications of any such adjustment to the population forecast for the entire state. The rationale for any adjustment that is adopted by (a) the board must be documented and filed with the office of financial management within ten working days after adoption.

If adjusted by (a) the board, a county growth management planning population projection shall only be used for the planning purposes set forth in this chapter and shall be known as (aa) the "board adjusted population projection." None of these changes shall affect the official state and county population forecasts prepared by the office of financial management, which shall continue to be used for state budget and planning purposes.

Sec. 35. RCW 36.70A.290 and 1997 c 429 s 12 are each amended to read as follows:

(1) All requests for review to (a) the growth management hearings board shall be initiated by filing a petition that includes a detailed statement of issues presented for resolution by the board. The board shall render written decisions articulating the basis for its holdings. The board shall not issue advisory opinions on issues not presented to the board in the statement of issues, as modified by any prehearing order.

(2) All petitions relating to whether or not an adopted comprehensive plan, development regulation, or permanent amendment thereto, is in compliance with the goals and requirements of this chapter or chapter 90.58 or 43.21C RCW must be filed within sixty days after publication by the legislative bodies of the county or city.

(a) Except as provided in (c) of this subsection, the date of publication for a city shall be the date the city publishes the ordinance, or summary of the ordinance, adopting the comprehensive plan or development regulations, or amendment thereto, as is required to be published.

(b) Promptly after adoption, a county shall publish a notice that it has adopted the comprehensive plan or development regulations, or amendment thereto.

Except as provided in (c) of this subsection, for purposes of this section the date of publication for a county shall be the date the county publishes the notice that it has adopted the comprehensive plan or development regulations, or amendment thereto.

(c) For local governments planning under RCW 36.70A.040, promptly after approval or disapproval of a local government's shoreline master program or amendment thereto by the department of ecology as provided in RCW 90.58.090, the local government shall publish a notice that the shoreline master program or amendment thereto has been approved or disapproved by the department of ecology. For purposes of this section, the date of publication for the adoption or amendment of a shoreline master program is the date the
local government publishes notice that the shoreline master program or amendment thereto has been approved or disapproved by the department of ecology.

(3) Unless the board dismisses the petition as frivolous or finds that the person filing the petition lacks standing, or the parties have filed an agreement to have the case heard in superior court as provided in RCW 36.70A.295, the board shall, within ten days of receipt of the petition, set a time for hearing the matter.

(4) The board shall base its decision on the record developed by the city, county, or the state and supplemented with additional evidence if the board determines that such additional evidence would be necessary or of substantial assistance to the board in reaching its decision.

(5) The board, shall consolidate, when appropriate, all petitions involving the review of the same comprehensive plan or the same development regulation or regulations.

Sec. 36. RCW 36.70A.295 and 1997 c 429 s 13 are each amended to read as follows:

(1) The superior court may directly review a petition for review filed under RCW 36.70A.290 if all parties to the proceeding before the board have agreed to direct review in the superior court. The agreement of the parties shall be in writing and signed by all of the parties to the proceeding or their designated representatives. The agreement shall include the parties' agreement to proper venue as provided in RCW 36.70A.300(5). The parties shall file their agreement with the board within ten days after the date the petition is filed, or if multiple petitions have been filed and the board has consolidated the petitions pursuant to RCW 36.70A.300, within ten days after the board serves its order of consolidation.

(2) Within ten days of receiving the timely and complete agreement of the parties, the board shall file a certificate of agreement with the designated superior court and shall serve the parties with copies of the certificate. The superior court shall obtain exclusive jurisdiction over a petition when it receives the certificate of agreement. With the certificate of agreement the board shall also file the petition for review, any orders entered by the board, all other documents in the board's files regarding the action, and the written agreement of the parties.

(3) For purposes of a petition that is subject to direct review, the superior court's subject matter jurisdiction shall be equivalent to that of the board. Consistent with the requirements of the superior court civil rules, the superior court may consolidate a petition subject to direct review under this section with a separate action filed in the superior court.

(4)(a) Except as otherwise provided in (b) and (c) of this subsection, the provisions of RCW 36.70A.280 through 36.70A.330, which specify the nature and extent of board review, shall apply to the superior court's review.

(b) The superior court:
(i) Shall not have jurisdiction to directly review or modify an office of financial management population projection;
(ii) Except as otherwise provided in RCW 36.70A.300(2)(b), shall render its decision on the petition within one hundred eighty days of receiving the certification of agreement; and
(iii) Shall give a compliance hearing under RCW 36.70A.330(2) the highest priority of all civil matters before the court.

(c) An aggrieved party may secure appellate review of a final judgment of the superior court under this section by the supreme court or the court of appeals. The review shall be secured in the manner provided by law for review of superior court decisions in other civil cases.

(5) If, following a compliance hearing, the court finds that the state agency, county, or city is not in compliance with the court's prior order, the court may use its remedial and contempt powers to enforce compliance.

(6) The superior court shall transmit a copy of its decision and order on direct review to the board, the department, and the governor. If the court has determined that a county or city is not in compliance with the provisions of this chapter, the governor may impose sanctions against the county or city in the same manner as if (i) the board had recommended the imposition of sanctions as provided in RCW 36.70A.330.

(7) After the court has assumed jurisdiction over a petition for review under this section, the superior court civil rules shall govern a request for intervention and all other procedural matters not specifically provided for in this section.

Sec. 37. RCW 36.70A.302 and 1997 c 429 s 16 are each amended to read as follows:

(1) ((A)) The board may determine that part or all of a comprehensive plan or development regulations are invalid if the board:

(a) Makes a finding of noncompliance and issues an order of remand under RCW 36.70A.300;

(b) Includes in the final order a determination, supported by findings of fact and conclusions of law, that the continued validity of part or parts of the plan or regulation would substantially interfere with the fulfillment of the goals of this chapter; and

(c) Specifies in the final order the particular part or parts of the plan or regulation that are determined to be invalid, and the reasons for their invalidity.

(2) A determination of invalidity is prospective in effect and does not extinguish rights that vested under state or local law before receipt of the board's order by the city or county. The determination of invalidity does not apply to a completed development permit application for a project that vested under state or local law before receipt of the board's order by the county or city or to related construction permits for that project.

(3)(a) Except as otherwise provided in subsection (2) of this section and (b) of this subsection, a development permit application not vested under state or local law before receipt of the board's order by the county or city vests to the local ordinance or resolution that is determined by the board not to substantially interfere with the fulfillment of the goals of this chapter.

(b) Even though the application is not vested under state or local law before receipt by the county or city of the board's order, a determination of invalidity does not apply to a development permit application for:

(i) A permit for construction by any owner, lessee, or contract purchaser of a single-family residence for his or her own use or for the use of his or her family on a lot existing before receipt by the county or city of the board's order, except as otherwise specifically provided in the board's order to protect the public health and safety;

(ii) A building permit and related construction permits for remodeling, tenant improvements, or expansion of an existing structure on a lot existing before receipt of the board's order by the county or city; and

(iii) A boundary line adjustment or a division of land that does not increase the number of buildable lots existing before receipt of the board's order by the county or city.

(4) If the ordinance that adopts a plan or development regulation under this chapter includes a savings clause intended to revive prior policies or regulations in the event the new plan or regulations are determined to be invalid, the board shall determine under subsection (1) of this section whether the prior policies or regulations are valid during the period of remand.

(5) A county or city subject to a determination of invalidity may adopt interim controls and other measures to be in effect until it adopts a comprehensive plan and development regulations that comply with the requirements of this chapter. A development permit application may vest under an interim control or measure upon determination by the board that the interim controls and other
measures do not substantially interfere with the fulfillment of the goals of this chapter.

(6) A county or city subject to a determination of invalidity may file a motion requesting that the board clarify, modify, or rescind the order. The board shall expeditiously schedule a hearing on the motion. At the hearing on the motion, the parties may present information to the board to clarify the part or parts of the comprehensive plan or development regulations to which the final order applies. The board shall issue any supplemental order based on the information provided at the hearing not later than thirty days after the date of the hearing.

(7)(a) If a determination of invalidity has been made and the county or city has enacted an ordinance or resolution amending the invalidated part or parts of the plan or regulation or establishing interim controls on development affected by the order of invalidity, after a compliance hearing, the board shall modify or rescind the determination of invalidity if it determines under the standard in subsection (1) of this section that the plan or regulation, as amended or made subject to such interim controls, will no longer substantially interfere with the fulfillment of the goals of this chapter.

(b) If the board determines that part or parts of the plan or regulation are no longer invalid as provided in this subsection, but does not find that the plan or regulation is in compliance with all of the requirements of this chapter, the board, in its order, may require periodic reports to the board on the progress the jurisdiction is making towards compliance.

Sec. 38. RCW 36.70A.310 and 1994 c 249 s 32 are each amended to read as follows:

A request for review by the state to ((a)) the growth management hearings board may be made only by the governor, or with the governor's consent the head of an agency, or by the commissioner of public lands as relating to state trust lands, for the review of whether: (1) A county or city that is required or chooses to plan under RCW 36.70A.040 has failed to adopt a comprehensive plan or development regulations, or county-wide planning policies within the time limits established by this chapter; or (2) A county or city that is required or chooses to plan under this chapter has adopted a comprehensive plan, development regulations, or county-wide planning policies, that are not in compliance with the requirements of this chapter.

Sec. 39. RCW 36.70A.3201 and 1997 c 429 s 2 are each amended to read as follows:

((In amending RCW 36.70A.3203 by section 20(3), chapter 429, Laws of 1997.)) The legislature intends that the board((s)) applies a more deferential standard of review to actions of counties and cities than the preponderance of the evidence standard provided for under existing law. In recognition of the broad range of discretion that may be exercised by counties and cities consistent with the requirements of this chapter, the legislature intends for the board((s)) to grant deference to counties and cities in how they plan for growth, consistent with the requirements and goals of this chapter. Local comprehensive plans and development regulations require counties and cities to balance priorities and options for action in full consideration of local circumstances. The legislature finds that while this chapter requires local planning to take place within a framework of state goals and requirements, the ultimate burden and responsibility for planning, harmonizing the planning goals of this chapter, and implementing a county's or city's future rests with that community.

Sec. 40. RCW 36.70A.345 and 1994 c 249 s 33 are each amended to read as follows:

The governor may impose a sanction or sanctions specified under RCW 36.70A.340 on: (1) A county or city that fails to designate critical areas, agricultural lands, forest lands, or mineral resource lands under RCW 36.70A.170 by the date such action was required to have been taken; (2) A county or city that fails to adopt development regulations under RCW 36.70A.060 protecting critical areas or conserving agricultural lands, forest lands, or mineral resource lands by the date such action was required to have been taken; (3) A county that fails to designate urban growth areas under RCW 36.70A.110 by the date such action was required to have been taken; and (4) A county or city that fails to adopt its comprehensive plan or development regulations when such actions are required to be taken.

Imposition of a sanction or sanctions under this section shall be preceded by written findings by the governor, that either the county or city is not proceeding in good faith to meet the requirements of the act; or that the county or city has unreasonably delayed taking the required action. The governor shall consult with and communicate his or her findings to the ((appropriate)) growth management hearings board prior to imposing the sanction or sanctions. For those counties or cities that are not required to plan or have not opted in, the governor in imposing sanctions shall consider the size of the jurisdiction relative to the requirements of this chapter and the degree of technical and financial assistance provided.

Sec. 41. RCW 90.58.190 and 2003 c 321 s 4 are each amended to read as follows:

(1) The appeal of the department's decision to adopt a master program or amendment pursuant to RCW 90.58.070(2) or 90.58.090(5) is governed by RCW 34.05.510 through 34.05.598.

(2)(a) The department's decision to approve, reject, or modify a proposed master program or amendment adopted by a local government planning under RCW 36.70A.040 shall be appealed to the growth management hearings board ((with jurisdiction over the local government)). The appeal shall be initiated by filing a petition as provided in RCW 36.70A.250 through 36.70A.320.

(b) If the appeal to the growth management hearings board concerns shorelines, the growth management hearings board shall review the proposed master program or amendment solely for compliance with the requirements of this chapter, the policy of RCW 90.58.020 and the applicable guidelines, the internal consistency provisions of RCW 36.70A.070, 36.70A.040(4), 35A.63.125, and 35A.63.105, and chapter 43.21C RCW as it relates to the adoption of master programs and amendments under chapter 90.58 RCW.

(c) If the appeal to the growth management hearings board concerns a shoreline of statewide significance, the board shall uphold the decision by the department unless the board, by clear and convincing evidence, determines that the decision of the department is inconsistent with the policy of RCW 90.58.020 and the applicable guidelines.

(d) The appellant has the burden of proof in all appeals to the growth management hearings board under this subsection.

(e) Any party aggrieved by a final decision of (a) the growth management hearings board under this subsection may appeal the decision to superior court as provided in RCW 36.70A.300.

(3)(a) The department's decision to approve, reject, or modify a proposed master program or master program amendment by a local government not planning under RCW 36.70A.040 shall be appealed to the shorelines hearings board by filing a petition within thirty days of the date of the department's written notice to the local government of the department's decision to approve, reject, or modify a proposed master program or master program amendment as provided in RCW 90.58.090(2).

(b) In an appeal relating to shorelines, the shorelines hearings board shall review the proposed master program or master program amendment and, after full consideration of the presentations of the local government and the department, shall determine the validity of the local government's master program or amendment in light of the policy of RCW 90.58.020 and the applicable guidelines.

(c) In an appeal relating to shorelines of statewide significance, the shorelines hearings board shall uphold the decision by the department unless the board determines, by clear and convincing evidence that the decision of the department is inconsistent with the policy of RCW 90.58.020 and the applicable guidelines.
Review shall be considered an adjudicative proceeding under chapter 34.05 RCW, the Administrative Procedure Act. The aggrieved local government shall have the burden of proof in all such reviews.

Whenever possible, the review by the shorelines hearings board shall be heard within the county where the land subject to the proposed master program or master program amendment is primarily located. The department and any local government aggrieved by a final decision of the hearings board may appeal the decision to the superior court as provided in chapter 34.05 RCW.

A master program amendment shall become effective after the approval of the department or after the decision of the shorelines hearings board to uphold the master program or master program amendment, provided that the board may remand the master program or master program adjustment to the local government or the department for modification prior to the final adoption of the master program or master program amendment.

Sec. 42. RCW 34.05.518 and 2003 c 393 s 16 are each amended to read as follows:

(1) The final decision of an administrative agency in an adjudicative proceeding under this chapter, except as otherwise provided in chapter 43.21L RCW, may be directly reviewed by the court of appeals either (a) upon certification by the superior court pursuant to this section or (b) if the final decision is from an environmental board as defined in subsection (3) of this section, upon acceptance by the court of appeals after a certificate of appealability has been filed by the environmental board that rendered the final decision.

(2) For direct review upon certification by the superior court, an application for direct review must be filed with the superior court within thirty days of the filing of the petition for review in superior court. The superior court may certify a case for direct review only if the judicial review is limited to the record of the agency proceeding and the court finds that:

(a) Fundamental and urgent issues affecting the future administrative process or the public interest are involved which require a prompt determination;

(b) Delay in obtaining a final and prompt determination of such issues would be detrimental to any party or the public interest;

(c) An appeal to the court of appeals would be likely regardless of the determination in superior court; and

(d) The appeal court's determination in the proceeding would have significant precedential value.

Procedures for certification shall be established by court rule.

(3) (a) For the purposes of direct review of final decisions of environmental boards, environmental boards include those boards identified in RCW 43.21L and the growth management hearings board as identified in RCW 36.70A.250.

(b) An environmental board may issue a certificate of appealability if it finds that delay in obtaining a final and prompt determination of the issues would be detrimental to any party or the public interest and either:

(i) Fundamental and urgent statewide or regional issues are raised; or

(ii) The proceeding is likely to have significant precedential value.

(4) The environmental board shall state in the certificate of appealability which criteria it applied, explain how that criteria was met, and file with the certificate a copy of the final decision.

(5) For an appellate court to accept direct review of a final decision of an environmental board, it shall consider the same criteria outlined in subsection (3) of this section, except as otherwise provided in chapter 43.21L RCW.

(6) The procedures for direct review of final decisions of environmental boards include:

(a) Within thirty days after filing the petition for review with the superior court, a party may file an application for direct review with the superior court and serve the appropriate environmental board and all parties of record. The application shall request the environmental board to file a certificate of appealability.

(b) If an issue on review is the jurisdiction of the environmental board, the board may file an application for direct review on that issue.

(c) The environmental board shall have thirty days to grant or deny the request for a certificate of appealability and its decision shall be filed with the superior court and served on all parties of record.

(d) If a certificate of appealability is issued, the parties shall have fifteen days from the date of service to file a notice of discretionary review in the superior court, and the notice shall include a copy of the certificate of appealability and a copy of the final decision.

(e) If the appellate court accepts review, the certificate of appealability shall be transmitted to the court of appeals as part of the certified record.

(f) If a certificate of appealability is denied, review shall be by the superior court. The superior court's decision may be appealed to the court of appeals.

Sec. 43. RCW 34.12.020 and 2002 c 354 s 226 are each amended to read as follows:

(3) All funds, credits, or other assets held by the three growth management hearings boards must, on the effective date of this section, be transferred to the growth management hearings board.

Any appropriations made to the three growth management hearings boards must, on the effective date of this section, be transferred and credited to the growth management hearings board. If any question arises to the transfer of any personnel, funds, books, documents, records, papers, files, equipment, or other tangible property used or held in the exercise of the powers and the performance of the duties and functions transferred, the director of financial management shall make a determination as to the proper allocation and certify the same to the state agencies concerned.

(4) All employees of the three growth management hearings boards are transferred to the growth management hearings board. All employees classified under chapter 41.06 RCW, the state civil service law, are assigned to the growth management hearings board to perform their usual duties upon the same terms as formerly, without

ESB 6240 Prime Sponsor, Senator Keiser: Regulating joint underwriting associations. Reported by Committee on Financial Institutions & Insurance

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 46. Availability of insurance for loss arising from flooding in the geographical area protected by any dam is vital to the economy of the state of Washington. If adequate property insurance for loss arising from this flood is not available, the security of citizens' property and the viability of business operations and services are threatened. This chapter gives the commissioner authority to ensure continued availability of excess insurance to insure property at risk from, and business that is interrupted by, flood arising from the failure of a dam or from efforts to prevent the failure of a dam. The commissioner may establish a temporary joint underwriting association for excess flood insurance to insure property at risk from, and business that is interrupted by, flood arising from the failure of a dam or from efforts to prevent the failure of a dam if:

(1) Excess flood insurance of a particular class or type is not available from the voluntary market; or

(2) There are so few insurers selling excess flood insurance that a competitive market does not exist.

The commissioner may use appropriated funds as needed to establish and supervise the association.

NEW SECTION. Sec. 47. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Association" means a nonprofit underwriting association established under this chapter.

(2) "Board" means the governing board of the association.
(2) The board, jointly with the commissioner, shall apportion policies within these limitations on an equitable basis.

NEW SECTION. Sec. 50. (1) If an association is formed, a person that is unable to obtain excess flood or business interruption insurance because it is unavailable in the voluntary market or because the market is not competitive is eligible to apply to an association for insurance.

(2) The association may decline to insure particular persons that present an extraordinary risk because of the nature of their operations, property condition, past claims experience, or inadequate risk management. However, the location of a property for which insurance is sought from the association must not, in and of itself, constitute an extraordinary risk.

(3) Any decision to decline coverage must be sent to the applicant and include:

(a) A statement of the actual reason for declination; and
(b) A statement that the applicant may appeal the decision to the commissioner.

(4) If the commissioner finds that the decision to decline coverage is not supported by the criteria in this section, the commissioner may require the association to provide coverage.

(5) A decision of the commissioner to provide or to decline to provide coverage under this may be appealed under chapters 48.04 and 34.05 RCW.

NEW SECTION. Sec. 51. (1) The association is composed of all insurers that have a certificate of authority to write either casualty or property insurance, or both, in this state. Every property or casualty insurer, or both, must be a member of the association as a condition of its authority to continue to transact business in this state.

(2) The association has the general powers and limitations of a nonprofit corporation under chapter 24.03 RCW and of an insurance company under Title 48 RCW, as needed to transact its business.

(3) To the extent consistent with this chapter, the association and its member insurers are "persons" under chapter 48.30 RCW.

NEW SECTION. Sec. 52. (1) A governing board shall administer the association.

(2) The board and the commissioner shall work cooperatively to achieve the objectives of this chapter.

(3) The board may select and employ one or more persons to manage the operations of an association. Every managing person must be authorized to transact insurance in the state of Washington and have demonstrated expertise in excess flood insurance. The board may employ any advisors that the board deems necessary.

(4) The board must consist of seven persons appointed as set forth in this subsection.

(a) Three board members must be member insurers appointed by each of the following three trade associations: Property casualty insurers association of America, American insurance association, and national association of mutual insurance companies. At least one of the three insurers on the board must be a domestic insurer.

(b) Four board members must be residents of the state. One is appointed by the insurance commissioner. One is appointed by the King county council. One is appointed by the association of Washington cities, to represent one or more of the following municipal governments: Auburn, Kent, Renton, or Tukwila. One is appointed by the board of directors of the center for advanced manufacturing Puget Sound. None of the resident-appointees may be employed by, serve on the board of directors of, or have a substantial ownership interest in any insurer.

(c) Original board members must be appointed to serve an initial term of three years and may be appointed for a second term. Board members may serve consecutive terms. Successor board members must be appointed as soon as possible subject to (a) and (b) of this subsection.

(5) The commissioner shall notify the members of the board if he or she has information that any board member is dishonest, reckless, or incompetent or is failing to perform any duty of his or her office, and the board shall meet immediately to consider the matter. The commissioner must receive notice of the time and place of this meeting. If the board finds by a majority of the board members, with the accused board member not voting on this matter, that the commissioner's objection is well-founded, the accused board member shall be removed immediately. The successor of a board member removed under this section must be appointed as soon as possible subject to subsection (4) of this section.

(6) All members of the board shall conduct the business of the association in a manner that is in the interest of all policyholders of the association. Board members stand in a fiduciary relationship to the association and must discharge their duties in good faith and with that diligence, care, and skill that ordinary, prudent persons would exercise under similar circumstances in a like position.

(7) Each person serving on the board or any subcommittee thereof, each member insurer of the association, and each officer and employee of the association must be indemnified by the association against all costs and expenses actually and necessarily incurred by him, her, or it in connection with the defense of any action, suit, or proceeding in which he, she, or it is made a party by reason of his, her, or its being or having been a member of the board, or a member or officer or employee of the association, except in relation to matters as to which he, she, or it has been judged in such action, suit, or proceeding to be liable by reason of willful misconduct in the performance of his, her, or its duties as a member of the board, or member, officer, or employee of the association. This indemnification is not exclusive of other rights as to which the member, officer, or employee may be entitled as a matter of law.

(8) Board members may not receive any compensation, but may be reimbursed for all travel expenses as provided in RCW 43.03.050 and 43.03.060.

NEW SECTION. Sec. 53. (1) The board must adopt a plan of operation within thirty days of its appointment.

(2) The plan of operation may take effect only after it has been reviewed by the commissioner. Any changes recommended by the commissioner must be either approved by a majority of the members of the board or a written statement of the board's reasons for rejection of any provision provided to the commissioner. The commissioner may continue to consult with the board to arrive at a plan of operation that is approved by both the commissioner and the board, or the commissioner may accept the plan of operation of the board. This process must conclude with a plan of operation accepted by the board within thirty days of the first board appointed under this act.

(a) The plan of operation may be amended by agreement of a majority of the members of the board and the commissioner.

(b) The association must use rates that are demonstrably sound as compared to accepted actuarial standards. At the time of filing with the commissioner, the rates must be accompanied by an actuarial analysis. The rates must comply with chapter 48.19 RCW and be approved by the commissioner.

NEW SECTION. Sec. 54. The association must file a statement annually with the commissioner that contains information about the association's transactions, financial condition, and operations during the preceding year. The statement must be in the form and in a manner approved by the commissioner. The association must maintain its records according to the accounting practices and procedures manual adopted by the national association of insurance commissioners. The commissioner may require the association to furnish additional information if the commissioner considers it necessary to evaluate the scope, operation, and experience of the association.

NEW SECTION. Sec. 55. (1) The commissioner may examine the transactions, financial condition, and operations of the association when the commissioner finds it necessary in order to carry out the purposes of this chapter. Except as set forth in subsections (2) and (3)
of this section, each examination must be conducted in the manner prescribed for domestic insurance companies in chapter 48.03 or 48.37 RCW.

(2) The commissioner is not required to examine any association on a prescribed cycle or schedule.

(3) An association created under this chapter is responsible for the total costs of its financial and market conduct examinations. RCW 48.03.060(1) and (2) and 48.37.060(14) (a) and (b) are not applicable to the examination of an association created under this chapter.

NEW SECTION. Sec. 56. (1) The association is not a member of the guaranty fund created under chapter 48.32 RCW. The guaranty fund, this state, and any political subdivisions are not responsible for losses sustained by the association.

(2) The association is exempt from payment of all fees and all taxes levied by the state or any of its subdivisions, except taxes levied on real or personal property.

NEW SECTION. Sec. 57. (1) The association is funded by premiums paid by persons insured by the association.

(a) All premiums for the association must be deposited into a fund or funds under management of the board.

(b) Premiums must be used to pay claims, administrative costs, and other expenses of the association.

(2) The association may assess its members to pay past and future financial obligations of the association, not funded by premiums. Each member insurer must be assessed a proportionate share based on the sum of direct premiums earned in this state for all property insurance and casualty insurance.

(3) If the association makes an assessment, an assessed insurer must pay the association within thirty days after it receives notice of the assessment. If an insurer does not pay an assessment within thirty days after it receives notice of the assessment:

(a) The assessment accrues interest at the maximum legal rate until it is paid in full. The interest is paid to the association;

(b) The association may collect the assessment in a civil action and must be awarded its attorneys' fees if it prevails;

(c) The commissioner may suspend, revoke, or refuse to renew an insurer's certificate of authority; and

(d) The commissioner may fine the insurer up to ten thousand dollars.

(4) This section may be enforced under RCW 48.02.080.

NEW SECTION. Sec. 58. (1) The association may operate for a period of five years. At the end of the five-year period, the association must be dissolved unless the legislature authorizes its continued operation.

(2) If, at any time, the commissioner or the board of directors holds a hearing under chapters 48.04 and 34.05 RCW and determines that excess flood and business interruption insurance is available through a market assistance plan, in the voluntary market, or that a competitive market exists, the commissioner must order the association to end its underwriting operations.

(3) If the commissioner or the board of directors orders the association to end all underwriting operations, the commissioner must supervise the dissolution of the association, including settlement of all financial and legal obligations and distribution of any remaining assets as follows:

(a) If there has been an assessment on the members of the association, and after all creditors of the association are paid in full, then to the member insurers in a proportional manner and as determined by rule by the commissioner; or

(b) If there has not been an assessment on the members of the association, or if there are funds remaining after distribution under (a) of this subsection and after all creditors of the association are paid in full, then to the policyholders in a proportional manner and as determined by rule by the commissioner.

NEW SECTION. Sec. 59. The commissioner may adopt all rules needed to implement and administer this chapter and to ensure the efficient operation of the association, including but not limited to rules:

(1) Creating sample plans of operation for the assistance of the board;

(2) Requiring or limiting certain policy provisions;

(3) Containing the basis and method for assessing members for operation of the association; and

(4) Establishing the order in which the assets of the association that is dissolved by the commissioner must be distributed.

NEW SECTION. Sec. 60. (1) The commissioner must by rule require insurers authorized to write property insurance in this state to form a market assistance plan to assist persons located in the geographical area protected by any dam that are unable to purchase excess flood or business interruption insurance in an adequate amount from either the admitted or nonadmitted market.

(2) For the purpose of this section, a market assistance plan means a voluntary mechanism by insurers writing property insurance in this state in either the admitted or nonadmitted market to provide excess flood or business interruption insurance for a class of insurance as designated in writing to the plan by the commissioner.

(3) The bylaws and method of operation of any market assistance plan must be approved by the commissioner prior to its operation.

(4) A market assistance plan must have a minimum of twenty-five insurers willing to insure risks within the class designated by the commissioner. If twenty-five insurers do not voluntarily agree to participate, the commissioner may require either property or property and casualty, or both, insurers to participate in a market assistance plan as a condition of continuing to do business in this state. The commissioner must make this requirement to fulfill the quota of at least twenty-five insurers. The commissioner must make his or her designation on the basis of the insurer's premium volume of property insurance in this state.

NEW SECTION. Sec. 61. The board and the commissioner shall report to the respective committees of the house of representatives and senate having jurisdiction over the insurance code by January 31, 2011, and each subsequent January 31st of each year that the association remains in existence.

Sec. 62. RCW 48.15.040 and 1983 1st ex.s. c 32 s 4 are each amended to read as follows:

If certain insurance coverages cannot be procured from authorized insurers, such coverages, hereinafter designated as "surplus lines," may be procured from unauthorized insurers subject to the following conditions:

(1) The insurance must be procured through a licensed surplus line broker.

(2) The insurance must not be procurable, after diligent effort has been made to do so from among a majority of the insurers authorized to transact that kind of insurance in this state.

(3) Coverage shall not be procured from an unauthorized insurer for the purpose of securing a lower premium rate than would be accepted by any authorized insurer nor to secure any other competitive advantage.

(4) The commissioner may by regulation establish the degree of effort required to comply with subsections (2) and (3) of this section.

(5) At the time of the procuring of any such insurance an affidavit setting forth the facts referred to in subsections (2) and (3) of this section must be executed by the surplus line broker. Such affidavit shall be filed with the commissioner within thirty days after the insurance is procured.

(6) For purposes of chapter 48. -- RCW (the new chapter created in section 18 of this act), a joint underwriting association established or authorized by the legislature is not an authorized insurer.

NEW SECTION. Sec. 63. Sections 1 through 16 of this act constitute a new chapter in Title 48 RCW.

NEW SECTION. Sec. 64. This act is necessary for the immediate preservation of the public peace, health, or safety, or
support of the state government and its existing public institutions, and takes effect immediately.

NEW SECTION. Sec. 65. This act expires December 31, 2016.

NEW SECTION. Sec. 67. A new section is added to chapter 59.18 RCW to read as follows:

(1) Local municipalities may require that landlords provide a certificate of inspection as a business license condition. A local municipality does not need to have a business license or registration program in order to require that landlords provide a certificate of inspection. A certificate of inspection does not preclude or limit inspections conducted pursuant to the tenant remedy as provided for in RCW 59.18.115, at the request or consent of the tenant, or pursuant to a warrant.

(2) A qualified inspector who is conducting an inspection under this section may only investigate a rental property as needed to provide a certificate of inspection.

(3) A local municipality may only require a certificate of inspection on a rental property once every three years.

(4)(a) A rental property that has received a certificate of occupancy within the last four years and has had no code violations reported on the property during that period is exempt from inspection under this section.

(b) A rental property inspected by a government agency or other qualified inspector within the previous twenty-four months may provide proof of that inspection which the local municipality may accept in lieu of a certificate of inspection. If any additional inspections of the rental property are conducted, a copy of the findings of these inspections may also be required by the local municipality.

(5) A rental property owner may choose to inspect one hundred percent of the units on the rental property and provide only the certificate of inspection for all units to the local municipality. However, if a rental property owner chooses to inspect only a sampling of the units, the owner must send written notice of the inspection to all units at the property. The notice must advise tenants that some of the units at the property will be inspected and that the tenants whose units need repairs or maintenance should send written notification to the landlord as provided in RCW 59.18.070. The notice must also advise tenants that if the landlord fails to adequately respond to the request for repairs or maintenance, the tenants may contact local municipality officials. A copy of the notice must be provided to the inspector upon request on the day of inspection.

(6)(a) If a rental property has twenty or fewer dwelling units, no more than four dwelling units at the rental property may be selected for the initial inspection as long as the initial inspection reveals that no conditions exist that endanger or impair the health or safety of a tenant.

(b) If a rental property has twenty-one or more units, no more than twenty percent of the units, rounded up to the next whole number, on the rental property, and up to a maximum of fifty units at any one property, may be selected by the local municipality to provide a certificate of inspection as long as the initial inspection reveals that no conditions exist that endanger or impair the health or safety of a tenant.

(c) If a rental property is asked to provide a certificate of inspection for a sample of units on the property and a selected unit fails the initial inspection, the local municipality may require up to one hundred percent of the units on the rental property to provide a certificate of inspection.

(d) If a rental property has had conditions that endanger or impair the health or safety of a tenant reported since the last required inspection, the local municipality may require one hundred percent of the units on the rental property to provide a certificate of inspection.
(e) If a rental property owner chooses to hire a qualified inspector other than a municipal housing code enforcement officer, and a selected unit of the rental property fails the initial inspection, both the results of the initial inspection and any certificate of inspection must be provided to the local municipality.

(7)(a) The landlord shall provide written notification of his or her intent to enter an individual unit for the purposes of providing a local municipality with a certificate of inspection in accordance with RCW 59.18.150(6). The written notice must indicate the date and approximate time of the inspection and the company or person performing the inspection, and that the tenant has the right to see the inspector's identification before the inspector enters the individual unit. A copy of this notice must be provided to the inspector upon request on the day of inspection.

(b) A tenant who continues to deny access to his or her unit is subject to RCW 59.18.150(8).

(8) If a rental property owner does not agree with the findings of an inspection performed by a local municipality under this section, the local municipality shall offer an appeals process.

(9) A penalty for noncompliance under this section may be assessed by a local municipality. A local municipality may also notify the landlord that until a certificate of inspection is provided, it is unlawful to rent or to allow a tenant to continue to occupy the dwelling unit.

(10) Any person who knowingly submits or assists in the submission of a falsified certificate of inspection, or knowingly submits falsified information upon which a certificate of inspection is issued, is, in addition to the penalties provided for in subsection (9) of this section, guilty of a gross misdemeanor and must be punished by a fine of not more than five thousand dollars.

(11) As of the effective date of this section, a local municipality may not enact an ordinance requiring a certificate of inspection unless the ordinance complies with this section. This prohibition does not preclude any amendments made to ordinances adopted before the effective date of this section.

Sec. 68. RCW 59.18.150 and 2002 c 263 s 1 are each amended to read as follows:

(1) The tenant shall not unreasonably withhold consent to the landlord to enter into the dwelling unit in order to inspect the premises, make necessary or agreed repairs, alterations, or improvements, supply necessary or agreed services, or exhibit the dwelling unit to prospective or actual purchasers, mortgagees, tenants, workers, or contractors.

(2) Upon written notice of intent to seek a search warrant, when a tenant or landlord denies a fire official the right to search a dwelling unit, a fire official may immediately seek a search warrant and, upon a showing of probable cause specific to the dwelling unit sought to be searched that criminal fire code violations exist in the dwelling unit, a court of competent jurisdiction shall issue a warrant allowing a search of the dwelling unit.

Upon written notice of intent to seek a search warrant, when a landlord denies a fire official the right to search the common areas of the rental building other than the dwelling unit, a fire official may immediately seek a search warrant and, upon a showing of probable cause specific to the common area sought to be searched that a criminal fire code violation exists in those areas, a court of competent jurisdiction shall issue a warrant allowing a search of the common areas in which the violation is alleged.

The superior court and courts of limited jurisdiction organized under Titles 3, 35, and 35A RCW have jurisdiction to issue such search warrants. Evidence obtained pursuant to any such search may be used in a civil or administrative enforcement action.

(3) As used in this section:

(a) "Common areas" means a common area or those areas that contain electrical, plumbing, and mechanical equipment and facilities used for the operation of the rental building.

(b) "Fire official" means any fire official authorized to enforce the state or local fire code.

(4)(a) A search warrant may be issued by a judge of a superior court or a court of limited jurisdiction under Titles 3, 35, and 35A RCW to a code enforcement official of the state or of any county, city, or other political subdivision for the purpose of allowing the inspection of any specified dwelling unit and premises to determine the presence of an unsafe building condition or a violation of any building regulation, statute, or ordinance.

(b) A search warrant must only be issued upon application of a designated officer or employee of a county or city prosecuting or regulatory authority supported by an affidavit or declaration made under oath or upon sworn testimony before the judge, establishing probable cause that a violation of a state or local law, regulation, or ordinance regarding rental housing exists and endangers the health or safety of the tenant or adjoining neighbors. In addition, the affidavit must contain a statement that consent to inspect has been sought from the owner and the tenant but could not be obtained because the owner or the tenant either refused or failed to respond within five days, or a statement setting forth facts or circumstances reasonably justifying the failure to seek such consent. A landlord may not take or threaten to take reprisals or retaliatory action as defined in RCW 59.18.240 against a tenant who gives consent to a code enforcement official of the state or of any county, city, or other political subdivision to inspect his or her dwelling unit to determine the presence of an unsafe building condition or a violation of any building regulation, statute, or ordinance.

(c) In determining probable cause, the judge is not limited to evidence of specific knowledge, but may also consider any of the following:

(i) The age and general condition of the premises;

(ii) Previous violations or hazards found present in the premises;

(iii) The purpose for which the premises are used; or

(iv) The presence of hazards or violations in and the general condition of the premises near the premises sought to be inspected.

(d) Before issuing an inspection warrant, the judge shall find that the applicant has: (i) Provided written notice of the date, approximate time, and court in which the applicant will be seeking the warrant to the owner and, if the applicant reasonably believes the dwelling unit or rental property to be inspected is in the lawful possession of a tenant, to the tenant; and (ii) posted a copy of the notice on the exterior of the dwelling unit or rental property to be inspected. The judge shall also allow the owner and any tenant who appears during consideration of the application for the warrant to defend against or in support of the issuance of the warrant.

(e) All warrants must include at least the following:

(i) The name of the agency and building official requesting the warrant and authorized to conduct an inspection pursuant to the warrant;

(ii) A reasonable description of the premises and items to be inspected; and

(iii) A brief description of the purposes of the inspection.

(f) An inspection warrant is effective for the time specified in the warrant, but not for a period of more than ten days unless it is extended or renewed by the judge who signed and issued the original warrant upon satisfying himself or herself that the extension or renewal is in the public interest. The inspection warrant must be executed and returned to the judge by whom it was issued within the time specified in the warrant or within the extended or renewed time. After the expiration of the time specified in the warrant, the warrant, unless executed, is void.

(g) An inspection pursuant to a warrant must not be made:

(i) Between 7:00 p.m. of any day and 8:00 a.m. of the succeeding day, on Saturday or Sunday, or on any legal holiday, unless the owner
or, if occupied, the tenant specifies a preference for inspection during such hours or on such a day;

(ii) Without the presence of an owner or occupant over the age of eighteen years or a person designated by the owner or occupant unless specifically authorized by a judge upon a showing that the authority is reasonably necessary to effectuate the purpose of the search warrant; or

(iii) By means of forcible entry, except that a judge may expressly authorize a forcible entry when:

(A) Facts are shown that are sufficient to create a reasonable suspicion of a violation of a state or local law or rule relating to municipal or county building, fire, safety, environmental, animal control, land use, plumbing, electrical, health, minimum housing, or zoning standards that, if the violation existed, would be an immediate threat to the health or safety of the tenant; or

(B) Facts are shown establishing that reasonable attempts to serve a previous warrant have been unsuccessful;

(h) Immediate execution of a warrant is prohibited, except when necessary to prevent loss of life or property.

(i) Any person who willfully refuses to permit inspection, obstructs inspection, or aids in the obstruction of an inspection of property authorized by warrant issued pursuant to this section is subject to remedial and punitive sanctions for contempt of court under chapter 7.21 RCW. Such conduct may also be subject to a civil penalty imposed by local ordinance that takes into consideration the facts and circumstances and the severity of the violation.

(5) The landlord may enter the dwelling unit without consent of the tenant in case of emergency or abandonment.

((44)) (6) The landlord shall not abuse the right of access or use it to harass the tenant. Except in the case of emergency or if it is impracticable to do so, the landlord shall give the tenant at least two days' notice of his or her intent to enter and shall enter only at reasonable times. The tenant shall not unreasonably withhold consent to the landlord to enter the dwelling unit at a specified time where the landlord has given at least one day's notice of intent to enter to exhibit the dwelling unit to prospective or actual purchasers or tenants. A landlord shall not unreasonably interfere with a tenant's enjoyment of the rented dwelling unit by excessively exhibiting the dwelling unit.

((44)) (7) The landlord has no other right of access except by court order, arbitrator or by consent of the tenant.

((44)) (8) A landlord or tenant who continues to violate the rights of the tenant or landlord with respect to the duties imposed on the other as set forth in this section after being served with one written notification alleging in good faith violations of this section listing the date and time of the violation shall be liable for up to one hundred dollars for each violation after receipt of the notice. The prevailing landlord or tenant may recover costs of the suit or arbitration under this section during

(15) Any person who is responsible for the victim's injuries, or who would otherwise be unjustly enriched as a result of the victim's injuries, shall not be a beneficiary under this chapter.

(16) Crime victims' compensation is not available to pay for services covered under chapter 74.09 RCW or Title XIX of the federal social security act, except to the extent that the costs for such services exceed service limits established by the department of social and health services or, during the 1993-95 fiscal biennium, to the extent necessary to provide matching funds for federal medicaid reimbursement.

(17) In addition to other benefits provided under this chapter, immediate family members of a homicide victim may receive appropriate counseling to assist in dealing with the immediate, near-term consequences of the related effects of the homicide. Sec. 72. RCW 13.40.070 and 2009 c 252 s 3 are each amended to read as follows:

1) Complaints referred to the juvenile court alleging the commission of an offense shall be referred directly to the prosecutor. The prosecutor, upon receipt of a complaint, shall screen the complaint to determine whether:

(a) The alleged facts bring the case within the jurisdiction of the court; and

(b) On a basis of available evidence there is probable cause to believe that the juvenile did commit the offense.

(2) If the identical alleged acts constitute an offense under both the law of this state and an ordinance of any city or county of this state, state law shall govern the prosecutor's screening and charging decision for both filed and diverted cases.

(3) If the requirements of subsections (1)(a) and (b) of this section are met, the prosecutor shall either file an information in juvenile court or divert the case, as set forth in subsections (5), (6), and (((7a))) (8) of this section. If the prosecutor finds that the requirements of subsection (1)(a) and (b) of this section are not met, the prosecutor shall maintain a record, for one year, of such decision and the reasons therefor. In lieu of filing an information or diverting an offense a prosecutor may file a motion to modify community supervision where such offense constitutes a violation of community supervision.

(4) An information shall be a plain, concise, and definite written statement of the essential facts constituting the offense charged. It shall be signed by the prosecuting attorney and conform to chapter 10.37 RCW.

(5) Except as provided in RCW 13.40.213 and subsection (7) of this section, where a case is legally sufficient, the prosecutor shall file an information with the juvenile court if:

(a) An alleged offender is accused of a class A felony, a class B felony, an attempt to commit a class B felony, a class C felony listed in RCW 9.94A.411(2) as a crime against persons or listed in RCW 9A.46.060 as a crime of harassment, or a class C felony that is a violation of RCW 9.41.080 or 9.41.040(2)(a)(iii); or

(b) An alleged offender is accused of a felony and has a criminal history of any felony, or at least two gross misdemeanors, or at least two misdemeanors; or

(c) An alleged offender has previously been committed to the department; or

(d) An alleged offender has been referred by a diversion unit for prosecution or desires prosecution instead of diversion; or

(e) An alleged offender has two or more diversion agreements on the alleged offender's criminal history; or

(f) A special allegation has been filed that the offender or an accomplice was armed with a firearm when the offense was committed.

(6) Where a case is legally sufficient the prosecutor shall divert the case if the alleged offense is a misdemeanor or gross misdemeanor or violation and the alleged offense is the offender's first offense or violation. If the alleged offender is charged with a related offense that must or may be filed under subsections (5) and (((7a))) (8) of this section, a case under this subsection may also be filed.

(7) Where a case is legally sufficient to charge an alleged offender with either prostitution or prostitution loitering and the alleged offense is the offender's first prostitution or prostitution loitering offense, the prosecutor shall divert the case.

((8)) Where a case is legally sufficient and falls into neither subsection (5) nor (6) of this section, it may be filed or diverted. In deciding whether to file or divert an offense under this section the prosecutor shall be guided by only the length, seriousness, and recency of the alleged offender's criminal history and the circumstances surrounding the commission of the alleged offense.

((9)) Whenever a juvenile is placed in custody or, where not placed in custody, referred to a diversion interview, the parent or legal guardian of the juvenile shall be notified as soon as possible concerning the allegation made against the juvenile and the current status of the juvenile. Where a case involves victims of crimes against persons or victims whose property has not been recovered at the time a juvenile is referred to a diversion unit, the victim shall be notified of the referral and informed how to contact the unit.

((10)) The responsibilities of the prosecutor under subsections (1) through (((7))) (9) of this section may be performed by a juvenile court probation counselor for any complaint referred to the court alleging the commission of an offense which would not be a felony if committed by an adult, if the prosecutor has given sufficient written notice to the juvenile court that the prosecutor will not review such complaints.

((11)) The prosecutor, juvenile court probation counselor, or diversion unit may, in exercising their authority under this section or RCW 13.40.080, refer juveniles to mediation or victim offender reconciliation programs. Such mediation or victim offender reconciliation programs shall be voluntary for victims.
Sec. 73. RCW 13.40.213 and 2009 c 252 s 2 are each amended to read as follows:

(1) When a juvenile is alleged to have committed the offenses of prostitution or prostitution loitering, and the allegation, if proved, would not be the juvenile's first offense, a prosecutor may divert the offense if the county in which the offense is alleged to have been committed has a comprehensive program that provides:
(a) Safe and stable housing;
(b) Comprehensive on-site case management;
(c) Integrated mental health and chemical dependency services, including specialized trauma recovery services;
(d) Education and employment training delivered on-site; and
(e) Referrals to off-site specialized services, as appropriate.

(2) A prosecutor may divert a case for prostitution or prostitution loitering into the comprehensive program described in this section, notwithstanding the filing criteria set forth in RCW 13.40.070(5).

(3) A diversion agreement under this section may extend to twelve months.

(4)(a) The administrative office of the courts shall compile data regarding:
(i) The number of juveniles whose cases are diverted into the comprehensive program described in this section;
(ii) Whether the juveniles complete their diversion agreements under this section; and
(iii) Whether juveniles whose cases have been diverted under this section have been subsequently arrested or committed subsequent offenses.

(b) An annual report of the data compiled shall be provided to the governor and the appropriate committee of the legislature. The first report is due by November 1, 2010.

NEW SECTION. Sec. 74. A new section is added to chapter 13.40 RCW to read as follows:
In any proceeding under this chapter related to an arrest for prostitution or prostitution loitering, there is a presumption that the alleged offender meets the criteria for a certification as a victim of a severe form of trafficking in persons as defined in section 7105 of Title 22 of the United States code, and that the alleged offender is also a victim of commercial sex abuse of a minor.

NEW SECTION. Sec. 75. A new section is added to chapter 74.15 RCW to read as follows:
The department shall require that to be licensed or continue to be licensed as a secure or semi-secure crisis residential center or HOPE center that the center has on staff, or otherwise has access to, a person who has been trained to work with the needs of sexually exploited children. For purposes of this section, "sexually exploited child" means that person as defined in RCW 13.32A.030(17).

Sec. 76. RCW 9.94A.515 and 2008 c 108 s 23 and 2008 c 38 s 1 are each reenacted and amended to read as follows:

This chapter does not apply to lawful conduct between spouses.

(2) In a prosecution under RCW 9.68A.050, 9.68A.060, 9.68A.070, or 9.68A.080, it is not a defense that the defendant did not know the age of the child depicted in the visual or printed matter (+
**PROVIDED, That**). It is a defense, which the defendant must prove by a preponderance of the evidence, that at the time of the offense the defendant was not in possession of any facts on the basis of which he or she should reasonably have known that the person depicted was a minor.

(3) In a prosecution under RCW 9.68A.040, 9.68A.090, 9.68A.100, 9.68A.101, or 9.68A.102, it is not a defense that the defendant did not know the alleged victim's age (+
**PROVIDED, That**). It is a defense, which the defendant must prove by a preponderance of the evidence, that at the time of the offense, the defendant made a reasonable bona fide attempt to ascertain the true age of the minor by requiring production of a driver's license, marriage license, birth certificate, or other governmental or educational identification card or paper and did not rely solely on the oral allegations or apparent age of the minor.

(4) In a prosecution under RCW 9.68A.050, 9.68A.060, or 9.68A.070, it shall be an affirmative defense that the defendant was a law enforcement officer in the process of conducting an official investigation of a sex-related crime against a minor, or that the defendant was providing individual case treatment as a recognized medical facility or as a psychiatrist or psychologist licensed under Title 18 RCW.

(5) In a prosecution under RCW 9.68A.050, 9.68A.060, or 9.68A.070, the state is not required to establish the identity of the alleged victim.

Referred to Committee on Ways & Means. February 22, 2010

2SSB 6515 Prime Sponsor, Committee on Ways & Means: Refocusing the department of commerce, including transferring programs. Reported by Committee on Community & Economic Development & Trade

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"**NEW SECTION.** Sec. 84. A new section is added to chapter 43.330 RCW to read as follows:

(1) In 2009, the legislature changed the name of the department of community, trade, and economic development to the department of commerce and directed the agency to organize around a concise core mission aligned with the state's economic development plan and around jobs. In accordance with that legislation, chapter 565, Laws of 2009, in November 2009 the department of commerce submitted a plan that establishes a mission of growing and improving jobs in the state. The plan also outlines agency priorities, efficiencies, and program transfers that will help to advance the new mission.

(2) The purposes of this act are: (a) To implement portions of the department of commerce plan by transferring certain programs from the department of commerce to other state agencies whose missions are more closely aligned with the core functions of those programs; (b) to direct strategic initiatives and targeted actions focused on the mission of growing and improving jobs; (c) to direct the department to establish a separate division to contain community services and housing programs, and to work with the legislature on future plans for these programs; (d) to direct creation of a central point of access within the department for small business and entrepreneurial assistance; and (e) to direct development of a statewide clean energy strategy. This act also directs additional efficiencies in state government, which will better enable the department of commerce to focus on its new mission.

(3) The legislature finds that the department of commerce has conducted a credible process to identify the most critical economic needs of our state. The legislature recognizes that to sustain a world-class innovation economy on a foundation of strong communities requires continuous improvement and focus on the fundamentals. The legislature finds that the state's reputation as a center of innovative, cutting edge research and development will form the foundation of whole new markets, product categories, and industry clusters. The legislature therefore affirms the department's mission, to focus on growing and improving jobs, and supports the eight priorities identified by the department in its 2009 report to the legislature: (a) Improving the state's competitiveness; (b) strengthening education and workforce training; (c) investing in infrastructure; (d) increasing regulatory efficiency; (e) building community capacity; (f) focusing on rural economic development; (g) engaging with key industry sectors; and (h) helping small businesses succeed.

(4)(a) The legislature recognizes that small businesses and entrepreneurs are a foundation of the state's economy yet they encounter many barriers to achieving long-term stability and growth. Gaining access to capital, complying with complex government regulations, and competing successfully for market opportunities are among the challenges they face. The legislature finds that state government must enhance its commitment to helping small businesses and entrepreneurs thrive, including finding ways to integrate and coordinate existing programs to make them more accessible and effective. The legislature further finds that the mission of the department of commerce to growing and improving jobs in Washington makes it particularly well-suited to take a leadership role in these efforts.

(b) The legislature therefore directs the department of commerce, beginning in fiscal year 2011, to create a central point of access within the department for small business and entrepreneurial assistance, and in collaboration with other agencies and partners over time, to (i) consolidate and expand small business financing services; (ii) develop and implement regulatory assistance initiatives; and (iii) institute innovative systems to connect small businesses and entrepreneurs to a broad array of technical assistance resources at the local, state, and federal levels.

(c) The department shall report to appropriate legislative committees by December 1, 2010, on the milestones achieved and the future actions planned to meet the priorities described in subsections (3) and (4) of this section.

(5)(a) The legislature recognizes that there are many strong community services and housing programs currently operating within
the department and serving our most vulnerable individuals, families, and communities. The legislature finds that some of these programs can readily be transferred beginning on July 1, 2010, to other mission-aligned agencies in state government. However, the legislature finds that to maintain the strength and credibility of the majority of the department’s community services and housing programs, it is necessary to create a separate division for them within the department and to develop a plan to establish a separate state government agency for them in the future.

(b) The legislature directs the department of commerce to establish a single division to contain community services and housing programs that deliver essential services to individuals, families, and communities. Services provided by the division shall include, but are not limited to: (i) Homeless housing and assistance programs including transitional housing, emergency shelter grants, independent youth housing, housing assistance for persons with mental illness, and housing opportunities for people with AIDS; (ii) affordable housing development programs including the housing trust fund and low-income home energy assistance; (iii) farm worker housing; (iv) crime victims’ advocacy and sexual assault services; (v) community mobilization against substance abuse and violence; (vi) asset building for working families; (vii) local and community projects including the building communities fund, building for the arts, and youth recreational facilities grants; (viii) dispute resolution centers; (ix) the Washington families fund; (x) community services block grants; (xi) community development block grants; (xii) child care facility fund; (xiii) WorkFirst community jobs; (xiv) long-term care ombudsman; (xv) state drug task forces; (xvi) justice assistance grants; (xvii) children and families of incarcerated parents; and (xviii) the Washington new Americans program.

(c) The economic development committees in the house of representatives and the senate shall, in consultation with the governor and the department: (i) Solicit information and advice from representatives of community, social services, and housing organizations at the local and state levels, including minority communities, people with disabilities, and other vulnerable populations; and (ii) develop a plan for consideration and action in the 2011 legislative session to establish a separate state government agency whose mission is focused on community services and housing.

(6) The department shall examine the functions and operations of agricultural commodity commissions in the state and collaborate with industry sector and cluster associations on legislation that would enable industries to develop self-financing systems for addressing industry-identified issues such as workforce training, international marketing, quality improvement, and technology deployment. By December 1, 2010, the department shall report to the governor and the legislature on its findings and proposed legislation.

PART I
DEPARTMENT OF HEALTH--PUBLIC HEALTH
Sec. 101. RCW 70.05.125 and 2009 c 479 s 48 are each amended to read as follows:

(1) The county public health account is created in the state treasury. Funds deposited in the county public health account shall be distributed by the state treasurer to each local public health jurisdiction based upon amounts certified to it by the department of (community, trade, and economic development) in consultation with the Washington state association of counties. The account shall include funds distributed under RCW 82.14.200(8) and such funds as are appropriated to the account from the state general fund, the public health services account under RCW 43.72.902, and such other funds as the legislature may appropriate to it.

(2)(a) The (director) secretary of (community, trade, and economic development) shall certify the amounts to be distributed to each local public health jurisdiction using 1995 as the base year of actual city contributions to local public health.

(b) Only if funds are available and in an amount no greater than available funds under RCW 82.14.200(8), the department of community, trade, and economic development shall adjust the amount certified under (a) of this subsection to compensate for any annexation of an area with fifty thousand residents or more to any city as a result of a petition during calendar year 1996 or 1997, or for any city that became newly incorporated as a result of an election during calendar year 1994 or 1995. The amount to be adjusted shall be equal to the amount which otherwise would have been lost to the health jurisdiction due to the annexation or incorporation as calculated using the jurisdiction’s 1995 funding formula.

(c) The county treasurer shall certify the actual 1995 city contribution to the department. Funds in excess of the base shall be distributed proportionately among the health jurisdictions based on incorporated population figures as last determined by the office of financial management.

(3) Moneys distributed under this section shall be expended exclusively for local public health purposes.

NEW SECTION. Sec. 102. (1) All powers, duties, and functions of the department of commerce pertaining to county public health assistance are transferred to the department of health. All references to the director or the department of commerce in the Revised Code of Washington shall be construed to mean the secretary or the department of health when referring to the functions transferred in this section.

(2)(a) All reports, documents, surveys, books, records, files, papers, or written material in the possession of the department of commerce pertaining to the powers, functions, and duties transferred shall be delivered to the custody of the department of health. All cabinets, furniture, office equipment, motor vehicles, and other tangible property employed by the department of commerce in carrying out the powers, functions, and duties transferred shall be made available to the department of health. All funds, credits, or other assets held in connection with the powers, functions, and duties transferred shall be assigned to the department of health.

(b) Any appropriations made to the department of commerce for carrying out the powers, functions, and duties transferred shall, on the effective date of this section, be transferred and credited to the department of health.

(c) Whenever any question arises as to the transfer of any personnel, funds, books, documents, records, papers, files, equipment, or other tangible property used or held in the exercise of the powers and the performance of the duties and functions transferred, the director of financial management shall make a determination as to the proper allocation and certify the same to the state agencies concerned.

(3) All employees of the department of commerce engaged in performing the powers, functions, and duties transferred are transferred to the jurisdiction of the department of health. All employees classified under chapter 41.06 RCW, the state civil service law, are assigned to the department of health to perform their usual duties upon the same terms as formerly, without any loss of rights, subject to any action that may be appropriate thereafter in accordance with the laws and rules governing state civil service.

(4) All rules and all pending business before the department of commerce pertaining to the powers, functions, and duties transferred shall be continued and acted upon by the department of health. All existing contracts and obligations shall remain in full force and shall be performed by the department of health.

(5) The transfer of the powers, duties, functions, and personnel of the department of commerce shall not affect the validity of any act performed before the effective date of this section.

(6) If apportionments of budgeted funds are required because of the transfers directed by this section, the director of financial management shall certify the apportionments to the agencies affected,
the state auditor, and the state treasurer. Each of these shall make the appropriate transfer and adjustments in funds and appropriation accounts and equipment records in accordance with the certification.

If the director determines that the position for which exemption is requested is one involving substantial responsibility for the formulation of basic agency or executive policy or one involving directing and controlling program operations of an agency or a major administrative division thereof, the director of personnel shall grant the request and such determination shall be final as to any decision made before July 1, 1993. The total number of additional exemptions permitted under this subsection shall not exceed one percent of the number of employees in the classified service not including employees of institutions of higher education and related boards for those agencies not directly under the authority of any elected public official other than the governor, and shall not exceed a total of twenty-five for all agencies under the authority of elected public officials other than the governor.

The salary and fringe benefits of all positions presently or hereafter exempted except for the chief executive officer of each agency, full-time members of boards and commissions, administrative assistants and confidential secretaries in the immediate office of an elected state official, and the personnel listed in subsections (1)(j) through (v) and (y) and (2) of this section, shall be determined by the director of personnel. Changes to the classification plan affecting exempt salaries must meet the same provisions for classified salary increases resulting from adjustments to the classification plan as outlined in RCW 41.06.152.

For the twelve months following February 18, 2009, a salary or wage increase shall not be granted to any position exempt from classification under this chapter.

Any person holding a classified position subject to the provisions of this chapter shall, when and if such position is subsequently exempted from the application of this chapter, be afforded the following rights: If such person previously held permanent status in another classified position, such person shall have a right of reversion to the highest class of position previously held, or to a position of similar nature and salary.

Any classified employee having civil service status in a classified position who accepts an appointment in an exempt position shall have the right of reversion to the highest class of position previously held, or to a position of similar nature and salary.

A person occupying an exempt position who is terminated from the position for gross misconduct or malfeasance does not have the right of reversion to a classified position as provided for in this section.

area ordinances under RCW 36.70A.060(2) as they specifically apply to agricultural activities. Nothing in this section:

(a) Nullifies critical area ordinances adopted by a county or city prior to May 1, 2007, to comply with RCW 36.70A.060(2);

(b) Limits or otherwise modifies the obligations of a county or city to comply with the requirements of this chapter pertaining to critical areas not associated with agricultural activities; or

(c) Limits the ability of a county or city to adopt or employ voluntary measures or programs to protect or enhance critical areas associated with agricultural activities.

(2) Counties and cities subject to deferral requirements under subsection (1) of this section:

(a) Should implement voluntary programs to enhance public resources and the viability of agriculture. Voluntary programs implemented under this subsection (2)(a) must include measures to evaluate the successes of these programs; and

(b) Must review and, if necessary, revise critical area ordinances as they specifically apply to agricultural activities to comply with the requirements of this chapter by December 1, (2004) 2012.

(3) For purposes of this section and RCW 36.70A.5601, "agricultural activities" means agricultural uses and practices currently existing or legally allowed on rural land or agricultural land designated under RCW 36.70A.170 including, but not limited to: Producing, breeding, or increasing agricultural products; rotating and changing agricultural crops; allowing land used for agricultural activities to lie fallow in which it is plowed and tilled but left unseeded; allowing land used for agricultural activities to lie dormant as a result of adverse agricultural market conditions; allowing land used for agricultural activities to lie dormant because the land is enrolled in a local, state, or federal conservation program, or the land is subject to a conservation easement; conducting agricultural operations; maintaining, repairing, and replacing agricultural equipment; maintaining, repairing, and replacing agricultural facilities, when the replacement facility is no closer to a critical area than the original facility; and maintaining agricultural lands under production or cultivation.

Sec. 805. RCW 36.70A.5601 and 2007 c 353 s 3 are each amended to read as follows:

(1) (Subject to the availability of amounts appropriated for this specific purpose)) The William D. Ruckelshaus Center must conduct an examination of the conflicts between agricultural activities and critical area ordinances adopted under chapter 36.70A RCW. The examination required by this section must commence by July 1, 2007.

(2) In fulfilling the requirements of this section, the center must:

(a) Work and consult with willing participants including, but not limited to, agricultural, environmental, tribal, and local government interests; and (b) involve and apprise legislators and legislative staff of its efforts.

(3) The examination conducted by the center must be completed in two distinct phases in accordance with the following:

(a) In the first phase, the center must conduct fact-finding and stakeholder discussions with stakeholders identified in subsection (2) of this section. These discussions must identify stakeholder concerns, desired outcomes, opportunities, and barriers. The fact-finding must identify existing regulatory, management, and scientific information related to agricultural activities and critical areas including, but not limited to: (i) Critical area ordinances adopted under chapter 36.70A RCW; (ii) acreage enrolled in the conservation reserve enhancement program; (iii) acreage protected by conservation easements; (iv) buffer widths; (v) requirements of federally approved salmon recovery plans; (vi) the impacts of agricultural activities on Puget Sound recovery efforts; and (vii) compliance with water quality requirements. The center must issue two reports of its fact-finding efforts and stakeholder discussions to the governor and the appropriate committees of the house of representatives and the senate by December 1, 2007, and December 1, 2008; and

(b)(i) In the second phase, the center must facilitate discussions between the stakeholders identified in subsection (2) of this section to identify policy and financial options or opportunities to address the issues and desired outcomes identified by stakeholders in the first phase of the center's examination efforts.

(ii) In particular, the stakeholders must examine innovative solutions including, but not limited to, outcome-based approaches that incorporate, to the maximum extent practicable, voluntary programs or approaches. Additionally, stakeholders must examine ways to modify statutory provisions to ensure that regulatory constraints on agricultural activities are used as a last resort if desired outcomes are not achieved through voluntary programs or approaches.

(iii) The center must work to achieve agreement among participating stakeholders and to develop a coalition that can be used to support agreed upon changes or new approaches to protecting critical areas during the (2014) 2011 legislative session.

(4) The center must issue a final report of findings and legislative recommendations to the governor and the appropriate committees of the house of representatives and the senate by September 1, (2007) 2010.

(6) Brake friction material manufactured as part of an original equipment service contract for vehicles manufactured prior to January 1, 2021, is exempt from subsection (2) of this section.

NEW SECTION, Sec. 810. (1) By December 1, 2015, the department shall review risk assessments, scientific studies, and other relevant analysis regarding alternative brake friction material and determine whether the material may be available. The department shall consider any new science with regard to the bioavailability and toxicity of copper.

(2) If the department finds that alternative brake friction material may be available, it shall convene a brake friction material advisory committee. The committee shall include, but is not limited to:
   (a) A representative of the department, who will chair the committee;
   (b) The chief of the Washington state patrol, or the chief's designee;
   (c) A representative of manufacturers of brake friction material;

   (e) A representative of a nongovernmental organization concerned with motor vehicle safety;
   (f) A representative of the national highway traffic safety administration; and
   (g) A representative of a nongovernmental organization concerned with the environment.

(3) If convened pursuant to subsection (2) of this section, the committee shall separately assess alternative brake friction material for passenger vehicles, light-duty vehicles, and heavy-duty vehicles. The committee shall make different recommendations to the department as to whether alternative brake friction material is available or unavailable for passenger vehicles, light-duty vehicles, and heavy-duty vehicles. For purposes of this section, "heavy-duty vehicle" means a vehicle used for commercial purposes with a gross vehicle weight rating above twenty-six thousand pounds. The committee shall also consider appropriate exemptions including original equipment service and brake friction material manufactured prior to the dates specified in section 5 of this act. The department shall consider the committee's recommendations and make a finding as to whether alternative brake friction material is available or unavailable.

(4) If, pursuant to subsection (3) of this section, the department finds that alternative brake friction material:
   (a) Is available, it shall comply with section 5 of this act;
   (b) Is not available, it shall periodically evaluate the finding and, if it determines that alternative brake friction material may be available, comply with subsections (2) and (3) of this section. If the department finds that alternative brake friction material is available, it shall comply with section 5 of this act.

NEW SECTION, Sec. 811. If, pursuant to section 4 of this act, the department finds that alternative brake friction material is available:
   (1)(a) By December 31st of the year in which the finding is made, the department shall publish the information required by section 4 of this act in the Washington State Register and present it in a report to the appropriate committees of the legislature; and
   (b) The report must include recommendations for exemptions on original equipment service and brake friction material manufactured prior to dates specified in this section and may include recommendations for other exemptions.

(2) Beginning eight years after the report in subsection (1) of this section is published in the Washington State Register, no manufacturer, wholesaler, retailer, or distributor may sell or offer for sale brake friction material in Washington state containing more than 0.5 percent copper and its compounds by weight, as specified in the report.

(3) The department shall adopt rules to implement this section.

NEW SECTION, Sec. 812. (1) Motor vehicles manufactured by small volume motor vehicle manufacturers are exempt from this chapter for any year in which the manufacturer qualifies as a small volume motor vehicle manufacturer. Small volume motor vehicle manufacturers must report vehicle sales annually to the department for the purpose of qualifying for this exemption.

(2) Any motor vehicle manufacturer or brake friction material manufacturer may apply to the department for an exemption from this chapter for brake friction material intended for a specific motor vehicle model or class of motor vehicles based on special needs or characteristics of the motor vehicles for which the brake friction material is intended. Exemptions may only be issued for specific motor vehicle models or special classes of vehicles, such as fire trucks, police cars, and heavy or wide-load equipment hauling, provided the manufacturer can demonstrate it is not feasible to comply with the requirements of this chapter, is necessary to comply with safety standards, or causes significant financial hardship.

Exemptions are valid for no less than one year and may be renewed automatically as needed or the exemption may be permanent for as long as the vehicle is used in the manner described in the application.

NEW SECTION, Sec. 813. (1) By January 1, 2013, and at least every three years thereafter, manufacturers of brake friction material sold or offered for sale in Washington state shall provide data to the department adequate to enable the department to determine concentrations of antimony, copper, nickel, and zinc and their compounds in brake friction material sold or offered for sale in Washington state.

(2) Using data provided pursuant to subsection (1) of this section and other data as needed, and in consultation with the brake friction material manufacturing industry, the department must:
   (a) By July 1, 2013, establish baseline concentration levels for constituents identified in subsection (1) of this section in brake friction material; and
   (b) Track progress toward reducing the use of copper and its compounds and ensure that concentration levels of antimony, nickel, or zinc and their compounds do not increase by more than fifty percent above baseline concentration levels.

(3) If concentration levels of antimony, nickel, or zinc and their compounds in brake friction material increase by more than fifty percent above baseline concentration levels, the department shall review scientific studies to determine the potential impact of the constituent on human health and the environment. If scientific studies demonstrate the need for controlling the use of the constituent in brake friction material, the department may consider recommending limits on concentration levels of the constituent in the material.

(4) Confidential business information otherwise protected under RCW 43.21A.160 or chapter 42.56 RCW is exempt from this chapter.

NEW SECTION, Sec. 814. (1) Manufacturers of brake friction material offered for sale in Washington state must certify compliance with the requirements of this chapter and mark proof of certification on the brake friction material in accordance with criteria developed under this section.

(2) By December 1, 2012, the department must, after consulting with interested parties, develop compliance criteria to meet the requirements of this chapter. Compliance criteria includes, but is not limited to:
   (a) Self-certification of compliance by brake friction material manufacturers using accredited laboratories; and
   (b) Marked proof of certification, including manufacture date, on brake friction material and product packaging. Marked proof of certification must appear by January 1, 2015. Brake friction material manufactured or packaged prior to January 1, 2015, is exempt from this subsection (2)(b).
(3) Beginning January 1, 2021, manufacturers of new motor vehicles offered for sale in Washington state must ensure that motor vehicles are equipped with brake friction material certified to be compliant with the requirements of this chapter.

NEW SECTION. Sec. 815. (1) The department shall enforce this chapter. The department may periodically purchase and test brake friction material sold or offered for sale in Washington state to verify that the material complies with this chapter.

(2) Enforcement of this chapter by the department must rely on notification and information exchange between the department and manufacturers, distributors, and retailers. The department shall issue one warning letter by certified mail to a manufacturer, distributor, or retailer that sells or offers to sell brake friction material in violation of this chapter, and offer information or other appropriate assistance regarding compliance with this chapter. Once a warning letter has been issued to a distributor or retailer for violations under subsections (3) and (5) of this section, the department need not provide warning letters for subsequent violations by that distributor or retailer. For the purposes of subsection (6) of this section, a warning letter serves as notice of the violation. If compliance is not achieved, the department may assess penalties under this section.

(3) A brake friction material distributor or retailer that violates this chapter is subject to a civil penalty not to exceed ten thousand dollars for each violation. Brake friction material distributors or retailers that sell brake friction material that is packaged consistent with section 8(2)(b) of this act are not in violation of this chapter. However, if the brake friction material distributor or retailer had actual knowledge that the brake friction material being sold violates section 3 or 5 of this act, the brake friction material distributor or retailer is subject to civil penalties according to this section.

(4) A brake friction material manufacturer that knowingly violates this chapter shall recall the brake friction material and reimburse the brake friction distributor, retailer, or any other purchaser for the material and any applicable shipping and handling charges for returning the material. A brake friction material manufacturer that violates this chapter is subject to a civil penalty not to exceed ten thousand dollars for each violation.

(5) A motor vehicle distributor or retailer that violates this chapter is subject to a civil penalty not to exceed ten thousand dollars for each violation. A motor vehicle distributor or retailer is not in violation of this chapter for selling a vehicle that was previously sold at retail and that contains brake friction material failing to meet the requirements of this chapter. However, if the motor vehicle distributor or retailer installed brake friction material that violates section 3, 5, or 8(2)(b) of this act on the vehicle being sold and had actual knowledge that the brake friction material violates section 3, 5, or 8(2)(b) of this act, the motor vehicle distributor or retailer is subject to civil penalties under this section.

(6) A motor vehicle manufacturer that violates this chapter must notify the registered owner of the vehicle within six months of knowledge of the violation and must replace at no cost to the owner the noncompliant brake friction material with brake friction material that complies with this chapter. A motor vehicle manufacturer that fails to provide the required notification to registered owners of the affected vehicles within six months of knowledge of the violation is subject to a civil penalty not to exceed one hundred thousand dollars. A motor vehicle manufacturer that fails to provide the required notification to registered owners of the affected vehicles after twelve months of knowledge of the violation is subject to a civil penalty not to exceed ten thousand dollars per vehicle. For purposes of this section, “motor vehicle manufacturer” does not include a vehicle dealer defined under RCW 46.70.011 and required to be licensed as a vehicle dealer under chapter 46.70 RCW.

(7) Before the effective date of the prohibitions in section 3 or 5 of this act, the department shall prepare and distribute information about the prohibitions to manufacturers, distributors, and retailers to the maximum extent practicable.

(8) All penalties collected under this chapter must be deposited in the state toxics control account created in RCW 70.105D.070.

NEW SECTION. Sec. 816. The department may adopt rules necessary to implement this chapter.

NEW SECTION. Sec. 817. Sections 1 through 10 and 12 of this act constitute a new chapter in Title 70 RCW.

NEW SECTION. Sec. 818. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. Correct the title.

(a) An assessment tool or combination of tools to be used by individuals performing court-ordered competency assessments and level of risk assessments of defendants pursuant to chapter 10.77 RCW; and

(b) An assessment tool or combination of tools to be used by individuals developing recommendations to courts as to the appropriateness of conditional release from inpatient treatment of criminally insane patients pursuant to chapter 10.77 RCW.

(2) This section expires June 30, 2011.

Sec. 2. RCW 10.77.150 and 1998 c 297 s 41 are each amended to read as follows:"
(1) Persons examined pursuant to RCW 10.77.140 may make application to the secretary for conditional release. The secretary shall, after considering the reports of experts or professional persons conducting the examination pursuant to RCW 10.77.140, forward to the court of the county which ordered the person's commitment the person's application for conditional release as well as the secretary's recommendations concerning the application and any proposed terms and conditions upon which the secretary reasonably believes the person can be conditionally released. Conditional release may also contemplate partial release for work, training, or educational purposes.

(2) In instances in which persons examined pursuant to RCW 10.77.140 have not made application to the secretary for conditional release, but the secretary, after considering the reports of experts or professional persons conducting the examination pursuant to RCW 10.77.140, reasonably believes the person may be conditionally released, the secretary may submit a recommendation for release to the court of the county which ordered the person's commitment. The secretary's recommendation must include any proposed terms and conditions upon which the secretary reasonably believes the person may be conditionally released. Conditional release may also include partial release for work, training, or educational purposes. Notice of the secretary's recommendation under this subsection must be provided to the person for whom the secretary has made the recommendation for release and to his or her attorney.

(3)(a) The court of the county which ordered the person's commitment, upon receipt of an application or recommendation for conditional release with the secretary's recommendation for conditional release terms and conditions, shall within thirty days schedule a hearing. The court may schedule a hearing on applications recommended for disapproval by the secretary.

(b) The prosecuting attorney shall represent the state at such hearings and shall have the right to have the patient examined by an expert or professional person of the prosecuting attorney's choice. If the committed person is indigent, and he or she so requests, the court shall appoint a qualified expert or professional person to examine the person on his or her behalf.

(c) The issue to be determined at such a hearing is whether or not the person may be released conditionally without substantial danger to other persons, or substantial likelihood of committing criminal acts jeopardizing public safety or security.

(d) The court, after the hearing, shall rule on the secretary's recommendations, and if it disapproves of conditional release, may do so only on the basis of substantial evidence. The court may modify the suggested terms and conditions on which the person is to be conditionally released. Pursuant to the determination of the court after hearing, the committed person shall thereupon be released on such conditions as the court determines to be necessary, or shall be remitted to the custody of the secretary. If the order of conditional release includes a requirement for the committed person to report to a community corrections officer, the order shall also specify that the conditionally released person shall be under the supervision of the secretary of corrections or such person as the secretary of corrections may designate and shall follow explicitly the instructions of the secretary of corrections including reporting as directed to a community corrections officer, remaining within prescribed geographical boundaries, and notifying the community corrections officer prior to making any change in the offender's address or employment. If the order of conditional release includes a requirement for the committed person to report to a community corrections officer, the community corrections officer shall notify the secretary or the secretary's designee, if the person is not in compliance with the court-ordered conditions of release.

(4) If the court determines that receiving regular or periodic medication or other medical treatment shall be a condition of the committed person's release, then the court shall require him or her to report to a physician or other medical or mental health practitioner for the medication or treatment. In addition to submitting any report required by RCW 10.77.160, the physician or other medical or mental health practitioner shall immediately upon the released person's failure to appear for the medication or treatment report the failure to the court, to the prosecuting attorney of the county in which the released person was committed, to the secretary, and to the supervising community corrections officer.

(5) Any person, whose application for conditional release has been denied, may reapply after a period of six months from the date of denial.

Sec. 3. RCW 10.77.200 and 2000 c 94 s 16 are each amended to read as follows:

(1) Upon application by the committed or conditionally released person, the secretary shall determine whether or not reasonable grounds exist for release. In making this determination, the secretary may consider the reports filed under RCW 10.77.060, 10.77.110, 10.77.140, and 10.77.160, and other reports and evaluations provided by professionals familiar with the case. If the secretary approves the release, he or she shall authorize the person to petition the court.

(2) In instances in which persons have not made application for release, but the secretary believes, after consideration of the reports filed under RCW 10.77.060, 10.77.110, 10.77.140, and 10.77.160, and other reports and evaluations provided by professionals familiar with the case, that reasonable grounds exist for release, the secretary may petition the court. If the secretary petitions the court for release under this subsection, notice of the petition must be provided to the person who is the subject of the petition and to his or her attorney.

(3) The petition shall be served upon the court and the prosecuting attorney. The court, upon receipt of the petition for release, shall within forty-five days order a hearing. Continuance of the hearing date shall only be allowed for good cause shown. The hearing shall be before a jury if demanded by either the petitioner or the prosecuting attorney. The burden of proof shall be upon the petitioner to show by a preponderance of the evidence that the petitioner no longer presents, as a result of a mental disease or defect, a substantial danger to other persons, or a substantial likelihood of committing criminal acts jeopardizing public safety or security, unless kept under further control by the court or other persons or institutions.

Nothing contained in this chapter shall prohibit the patient from petitioning the court for release or conditional release from the institution in which he or she is committed. The issue to be determined in such proceeding is whether the petitioner, as a result of a mental disease or defect, is a substantial danger to other persons, or presents a substantial likelihood of committing criminal acts jeopardizing public safety or security, unless kept under further control by the court or other persons or institutions.

Nothing contained in this chapter shall prohibit the committed person from petitioning for release by writ of habeas corpus.

Strike everything after the enacting clause and insert the following:

"Sec. 6. RCW 9.94A.030 and 2009 c 375 s 4 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Board" means the indeterminate sentence review board created under chapter 9.95 RCW.

(2) "Collect," or any derivative thereof, "collect and remit," or "collect and deliver," when used with reference to the department, means that the department, either directly or through a collection agreement authorized by RCW 9.94A.760, is responsible for monitoring and enforcing the offender's sentence with regard to the legal financial obligation, receiving payment thereof from the offender, and, consistent with current law, delivering daily the entire payment to the superior court Clerk without depositing it in a departmental account.

(3) "Commission" means the sentencing guidelines commission.

(4) "Community corrections officer" means an employee of the department who is responsible for carrying out specific duties in supervision of sentenced offenders and monitoring of sentence conditions.

(5) "Community custody" means that portion of an offender's sentence of confinement in lieu of earned release time or imposed as part of a sentence under this chapter and served in the community subject to controls placed on the offender's movement and activities by the department.

(6) "Community protection zone" means the area within eight hundred eighty feet of the facilities and grounds of a public or private school.

(7) "Community restitution" means compulsory service, without compensation, performed for the benefit of the community by the offender.

(8) "Confinement" means total or partial confinement.

(9) "Conviction" means an adjudication of guilt pursuant to Title 10 or 13 RCW and includes a verdict of guilty, a finding of guilty, and acceptance of a plea of guilty.

(10) "Crime-related prohibition" means an order of a court prohibiting conduct that directly relates to the circumstances of the crime for which the offender has been convicted, and shall not be construed to mean orders directing an offender affirmatively to participate in rehabilitative programs or to otherwise perform affirmative conduct. However, affirmative acts necessary to monitor compliance with the order of a court may be required by the department.

(11) "Criminal history" means the list of a defendant's prior convictions and juvenile adjudications, whether in this state, in federal court, or elsewhere.

(a) The history shall include, where known, for each conviction (i) whether the defendant has been placed on probation and the length and terms thereof; and (ii) whether the defendant has been incarcerated and the length of incarceration.

(b) A conviction may be removed from a defendant's criminal history only if it is vacated pursuant to RCW 9.96.060, 9.94A.640, 9.95.240, or a similar out-of-state statute, or if the conviction has been vacated pursuant to a governor's pardon.

(c) The determination of a defendant's criminal history is distinct from the determination of an offender score. A prior conviction that was not included in an offender score calculated pursuant to a former version of the sentencing reform act remains part of the defendant's criminal history.

(12) "Criminal street gang" means any ongoing organization, association, or group of three or more persons, whether formal or informal, having a common name or common identifying sign or symbol, having as one of its primary activities the commission of criminal acts, and whose members or associates individually or collectively engage in or have engaged in a pattern of criminal street gang activity. This definition does not apply to employees engaged in concerted activities for their mutual aid and protection, or to the activities of labor and bona fide nonprofit organizations or their members or agents.

(13) "Criminal street gang associate or member" means any person who actively participates in any criminal street gang and who intentionally promotes, furthers, or assists in any criminal act by the criminal street gang.

(14) "Criminal street gang-related offense" means any felony or misdemeanor offense, whether in this state or elsewhere, that is committed for the benefit of, at the direction of, or in association with
any criminal street gang, or is committed with the intent to promote, further, or assist in any criminal conduct by the gang, or is committed for one or more of the following reasons:

(a) To gain admission, prestige, or promotion within the gang;
(b) To increase or maintain the gang's size, membership, prestige, dominance, or control in any geographical area;
(c) To exact revenge or retribution for the gang or any member of the gang;
(d) To obstruct justice, or intimidate or eliminate any witness against the gang or any member of the gang;
(e) To directly or indirectly cause any benefit, aggrandizement, gain, profit, or other advantage for the gang, its reputation, influence, or membership; or
(f) To provide the gang with any advantage in, or any control or dominance over any criminal market sector, including, but not limited to, manufacturing, delivering, or selling any controlled substance (chapter 69.50 RCW); trafficking in stolen property (chapter 9A.82 RCW); promoting prostitution (chapter 9A.88 RCW); human trafficking (RCW 9A.40.100); or promoting pornography (chapter 9.68 RCW).

15 "Day fine" means a fine imposed by the sentencing court that equals the difference between the offender's net daily income and the reasonable obligations that the offender has for the support of the offender and any dependents.

17 "Department" means the department of corrections.

18 "Determinate sentence" means a sentence that states with exactitude the number of actual years, months, or days of total confinement, of partial confinement, of community custody, the number of actual hours or days of community restitution work, or dollars or terms of a legal financial obligation. The fact that an offender through earned release can reduce the actual period of confinement shall not affect the classification of the sentence as a determinate sentence.

19 "Disposable earnings" means that part of the earnings of an offender remaining after the deduction from those earnings of any amount required by law to be withheld. For the purposes of this definition, "earnings" means compensation paid or payable for personal services, whether denominated as wages, salary, commission, bonuses, or otherwise, and, notwithstanding any other provision of law making the payments exempt from garnishment, attachment, or other process to satisfy a court-ordered legal financial obligation, specifically includes periodic payments pursuant to pension or retirement programs, or insurance policies of any type, but does not include payments made under Title 50 RCW, except as provided in RCW 50.40.020 and 50.40.050, or Title 74 RCW.

(1) An offender is eligible for the parenting sentencing alternative if:

offense is greater than one year;
(b) The offender has no prior or current conviction for a felony
that is a sex offense or a violent offense;
(c) The offender has not been found by the United States attorney
general to be subject to a deportation detainer or order and does not
become subject to a deportation order during the period of the
sentence;
(d) The offender signs any release of information waivers
required to allow information regarding current or prior child welfare
cases to be shared with the department and the court; and
(e) The offender has physical custody of his or her minor child or
is a legal guardian or custodian with physical custody of a child under
the age of eighteen at the time of the current offense.
(2) To assist the court in making its determination, the court may
order the department to complete either a risk assessment report or a
chemical dependency screening report as provided in RCW
9.94A.500, or both reports prior to sentencing.
(3) If the court is considering this alternative, the court shall
request that the department contact the children's administration of the
Washington state department of social and health services to
determine if the agency has an open child welfare case or prior
substantiated referral of abuse or neglect involving the offender or if
the agency is aware of any substantiated case of abuse or neglect with
a tribal child welfare agency involving the offender.
(a) If the offender has an open child welfare case, the department
will provide the release of information waiver and request that the
children's administration or the tribal child welfare agency provide a
report to the court. The children's administration shall provide a
report within seven business days of the request that includes, at the
minimum, the following:
(i) Legal status of the child welfare case;

services ordered by a juvenile court under a child welfare case; and
(vi) If the offender has been convicted of a crime against a child.
(b) If a report is required from a tribal child welfare agency, the
department shall attempt to obtain information that is similar to what
is required for the report provided by the children's administration in a
timely manner.
(c) If the offender does not have an open child welfare case with
the children's administration or with a tribal child welfare agency but
has prior involvement, the department will obtain information from
the children's administration on the number and type of past
substantiated referrals of abuse or neglect and report that information
to the court. If the children's administration has never had any
substantiated referrals or an open case with the offender, the
department will inform the court.
(4) If the sentencing court determines that the offender is eligible
for a sentencing alternative under this section and that the sentencing
alternative is appropriate and should be imposed, the court shall
waive imposition of a sentence within the standard sentence range
and impose a sentence consisting of twelve months of community
custody. The court shall consider the offender's criminal history
when determining if the alternative is appropriate.
(5) When a court imposes a sentence of community custody
under this section:
(a) The court may impose conditions as provided in RCW
9.94A.703 and may impose other affirmative conditions as the court
considers appropriate.
(b) The department may impose conditions as authorized in RCW
9.94A.704 that may include, but are not limited to:

(c) The department shall report to the court if the offender
commits any violations of his or her sentence conditions.
(6) The department shall provide the court with quarterly progress
reports regarding the offender's progress in required programming,
treatment, and other supervision conditions. When an offender has an
open child welfare case, the department will seek to coordinate
services with the children's administration.
(7)(a) The court may bring any offender sentenced under this
section back into court at any time during the period of community
custody on its own initiative to evaluate the offender's progress in
treatment, or to determine if any violations of the conditions of the
sentence have occurred.
(b) If the offender is brought back to court, the court may modify
the conditions of community custody or impose sanctions under (c) of
this subsection.
(c) The court may order the offender to serve a term of total
confinement within the standard range of the offender's current
offense at any time during the period of community custody, if the
offender violates the conditions or requirements of the sentence or if
the offender is failing to make satisfactory progress in treatment.
(d) An offender ordered to serve a term of total confinement
under (c) of this subsection shall receive credit for any time
previously served in confinement under this section.

Sec. 8. RCW 9.94A.501 and 2009 c 376 s 2 are each amended
to read as follows:
(1) The department shall supervise every offender convicted of a
misdemeanor or gross misdemeanor offense who is sentenced to
probation in superior court, pursuant to RCW 9.92.060, 9.95.204, or
9.95.210, for an offense included in (a) and (b) of this subsection.
The superior court shall order probation for:
(a) Offenders convicted of fourth degree assault, violation of a
domestic violence court order pursuant to RCW 10.99.040,

may include not more than one year of confinement; community restitution work; a term of community custody under RCW 9.94A.702 not to exceed one year; and/or other legal financial obligations. The court may impose a sentence which provides more than one year of confinement and a community custody term under RCW 9.94A.701 if the court finds reasons justifying an exceptional sentence as provided in RCW 9.94A.535.

(3) If the court imposes a sentence requiring confinement of thirty days or less, the court may, in its discretion, specify that the sentence be served on consecutive or intermittent days. A sentence requiring more than thirty days of confinement shall be served on consecutive days. Local jail administrators may schedule court-ordered intermittent sentences as space permits.

(4) If a sentence imposed includes payment of a legal financial obligation, it shall be imposed as provided in RCW 9.94A.750, 9.94A.753, 9.94A.760, and 43.43.7541.

(5) Except as provided under RCW 9.94A.750(4) and 9.94A.753(4), a court may not impose a sentence providing for a term of confinement or community custody that exceeds the statutory maximum for the crime as provided in chapter 9A.20 RCW.

The sentencing court shall give the offender credit for all confinement time served before the sentencing if that confinement was solely in regard to the offense for which the offender is being sentenced.

(7) The court shall order restitution as provided in RCW 9.94A.750 and 9.94A.753.

(8) As a part of any sentence, the court may impose and enforce crime-related prohibitions and affirmative conditions as provided in this chapter.

(9) In any sentence of partial confinement, the court may require the offender to serve the partial confinement in work release, in a program of home detention, on work crew, or in a combined program of work crew and home detention.

Sec. 10. RCW 9.94A.701 and 2009 c 375 s 5 are each amended to read as follows:

(1) If an offender is sentenced to the custody of the department for one of the following crimes, the court shall, in addition to the other terms of the sentence, sentence the offender to community custody for three years:

For offenders not sentenced under section 2 of this act, but otherwise eligible under this section, no more than the final twelve months of the offender's term of confinement may be served in partial confinement as home detention as part of the parenting program developed by the department.
(1) The secretary may transfer an offender from a correctional facility to home detention in the community if it is determined that the parenting program is an appropriate placement and when all of the following conditions exist:
(a) The offender is serving a sentence in which the high end of the range is greater than one year;
(b) The offender has no current conviction for a felony that is a sex offense or a violent offense;
(c) The offender has not been found by the United States attorney general to be subject to a deportation detainer or order and does not become subject to a deportation order during the period of the sentence;

(iii) Is a legal guardian of a child that was under the age of eighteen at the time of the current offense; and
(f) The department determines that such a placement is in the best interests of the child.
(2) When the department is considering partial confinement as part of the parenting program for an offender, the department shall inquire of the individual and the children's administration with the Washington state department of social and health services whether the agency has an open child welfare case or prior substantiated referral for abuse or neglect involving the offender. If the children's administration or a tribal jurisdiction has an open child welfare case, the department will seek input from the children's administration or the involved tribal jurisdiction as to: (a) The status of the child welfare case; and (b) recommendations regarding placement of the offender and services required of the department and the court governing the individual's child welfare case. The department and its officers, agents, and employees are not liable for the acts of offenders participating in the parenting program unless the department or its officers, agents, and employees acted with willful and wanton disregard.
(3) All offenders placed on home detention as part of the parenting program shall provide an approved residence and living arrangement prior to transfer to home detention.

ESSB 6658 Prime Sponsor, Committee on Environment, Water & Energy: Modifying community solar project provisions for investment cost recovery incentives. Reported by Committee on Technology, Energy & Communications

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"Sec. 18. RCW 82.16.110 and 2009 c 469 s 504 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Administrator" means an owner and assignee of a community solar project as defined in subsection (2)(a)(i) of this section that is responsible for applying for the investment cost recovery incentive on behalf of the other owners and performing such administrative tasks on behalf of the other owners as may be necessary, such as receiving investment cost recovery incentive payments, and allocating and paying appropriate amounts of such payments to the other owners.

(2)(a) "Community solar project" means:

(i) A solar energy system that produces a maximum instantaneous power output of one megawatt of electricity and is owned by local individuals, households, nonprofit organizations, or nonutility businesses that is placed on the property owned by a cooperating local governmental entity that is not in the light and power business or in the gas distribution business; (ii)

(ii) A utility-owned solar energy system that produces a maximum instantaneous power output of one megawatt of electricity and that is voluntarily funded by the utility's ratepayers where, in exchange for their financial support, the utility gives contributors a payment or credit on their utility bill for the value of the electricity produced by the project;

(iii) A solar energy system, placed on the property owned by a cooperating local governmental entity that is not in the light and power business or in the gas distribution business, that produces a maximum instantaneous power output of one megawatt of electricity, and that is owned by a limited liability company whose members are each eligible for an investment cost recovery incentive for the same customer-generated electricity as provided in RCW 82.16.120; or

(iv) A virtual net metering system, as defined in RCW 80.60.030, that uses solar energy to generate electricity and the customer-generators participating in virtual net metering are assigned fractions or shares by a net metering aggregator as determined under RCW 80.60.010 through 80.60.030.

(b) For the purposes of "community solar project" as defined in (a) of this subsection:

(i) "Nonprofit organization" means an organization exempt from taxation under (Title) 26 U.S.C. Sec. 501(c)(3) of the federal internal revenue code of 1986, as amended, of as January 1, 2009; and

(ii) "Utility" means a light and power business, an electric cooperative, or a mutual corporation that provides electricity service.

(5) "Customer-generated electricity" means a community solar project or the alternating current electricity that is generated from a renewable energy system located in Washington and installed on an individual's, businesses, or local government's real property that is also provided electricity generated by a light and power business. Except for community solar projects, a system located on a leasehold interest does not qualify under this definition. Except for utility-owned community solar projects, "customer-generated electricity" does not include electricity generated by a light and power business with greater than one thousand megawatt hours of annual sales or a gas distribution business.

(4) "Economic development kilowatt-hour" means the actual kilowatt-hour measurement of customer-generated electricity multiplied by the appropriate economic development factor.

(6) "Photovoltaic cell" means a device that converts light directly into electricity without moving parts.

(7) "Renewable energy system" means a solar energy system, an anaerobic digester as defined in RCW 82.08.900, or a wind generator used for producing electricity.

(8) "Solar energy system" means any device or combination of devices or elements that rely upon direct sunlight as an energy source for use in the generation of electricity.

(9) "Solar inverter" means the device used to convert direct current to alternating current in a photovoltaic cell system.
((424)) (10) "Solar module" means the smallest nondivisible self-contained physical structure housing interconnected photovoltaic cells and providing a single direct current electrical output.

Sec. 19, RCW 82.16.120 and 2009 c 469 s 505 are each amended to read as follows:

(1)(a) Any individual, business, local governmental entity, not in the light and power business or in the gas distribution business, or a participant in a community solar project may apply to the light and power business serving the situs of the system, each fiscal year beginning on July 1, 2005, for an investment cost recovery incentive for each kilowatt-hour from a customer-generated electricity generated by the department that includes, but is not limited to, the following:

(i) The name and address of the applicant and location of the renewable energy system.

(2)(a) Before submitting for the first time the application for the incentive allowed under subsection (4) of this section, the applicant must submit to the department of revenue and to the climate and rural energy development center at the Washington State University, established under RCW 28B.30.642, a certification in a form and manner prescribed by the department that includes, but is not limited to, the following information:

(i) The name and address of the applicant and location of the renewable energy system.

(ii) If the applicant is an administrator of a community solar project as defined in RCW 82.16.110(2)(a)(i), the certification must also include the name and address of each of the owners of the community solar project.

(B) If the applicant is a limited liability company that owns a community solar project as defined in RCW 82.16.110(2)(a)(iii), the application must also include the name and address of each member of the limited liability company.

(iv) A statement of the amount of kilowatt-hours generated by the renewable energy system in the prior fiscal year.

(3)(a) By August 1st of each year application for the incentive ((shall)) must be made to the light and power business serving the situs of the system in a certification in a form and manner prescribed by the department that includes, but is not limited to, the following information:

(i) The name and address of the applicant and location of the renewable energy system.

(A) If the applicant is an administrator of a community solar project as defined in RCW 82.16.110(2)(a)(i), the application must also include the name and address of each of the owners of the community solar project.

(B) If the applicant is a limited liability company that owns a community solar project as defined in RCW 82.16.110(2)(a)(iii), the application must also include the name and address of each member of the limited liability company.

(ii) The applicant's tax registration number;

(iii) The date of the notification from the department of revenue stating that the renewable energy system is eligible for the incentives under this section; and

(iv) A statement of the amount of kilowatt-hours generated by the renewable energy system in the prior fiscal year.

(4) Except for community solar projects, the investment cost recovery incentive may be paid fifteen cents per economic development kilowatt-hour unless requests exceed the amount authorized for credit to the participating light and power business. For community solar projects, the investment cost recovery incentive may be paid thirty cents per economic development kilowatt-hour unless requests exceed the amount authorized for credit to the participating light and power business. For the purposes of this section, the rate paid for the investment cost recovery incentive may be multiplied by the following factors:

(a) For customer-generated electricity produced using solar modules manufactured in Washington state, two and four-tenths;

(b) For customer-generated electricity produced using a solar or a wind generator equipped with an inverter manufactured in Washington state, one and two-tenths;
(c) For customer-generated electricity produced using an anaerobic digester, or by other solar equipment or using a wind generator equipped with blades manufactured in Washington state, and

(d) For all other customer-generated electricity produced by wind, eight-tenths.

(5)(a) No individual, household, business, or local governmental entity is eligible for incentives provided under subsection (4) of this section for more than five thousand dollars per year.

(b) Except as provided in (c) and (d) of this subsection, each applicant in a community solar project is eligible for up to five thousand dollars per year.

(c) Where the applicant is an administrator of a community solar project as defined in RCW 82.16.110(2)(a)(i), each owner is eligible for an incentive up to five thousand dollars per year.

(d) Where the applicant is a limited liability company owning a community solar project that has applied for an investment cost recovery incentive on behalf of its members, the limited liability company is eligible for an incentive up to five thousand dollars per year.

(6) Owners in a community solar project are eligible to receive an investment cost recovery incentive based on the total customer-generated electricity produced by the project but only in proportion to each ownership share or, in the case of a utility-owned community solar project, in proportion to each ratepayer's contribution. No owner in a community solar project is eligible for incentives under this section for more than five thousand dollars.

(7) If requests for the investment cost recovery incentive exceed the amount of funds available for the participating light and power business, the incentive payments shall be reduced proportionately.

(8) The climate and rural energy development center at Washington State University energy program may establish guidelines and standards for technologies that are identified as Washington manufactured and therefore most beneficial to the state’s environment.

(9) The environmental attributes of the renewable energy system belong to the applicant, and do not transfer to the state or the light and power business upon receipt of the investment cost recovery incentive.

(10) No incentive may be paid under this section for kilowatt-hours generated before July 1, 2005, or after June 30, 2020.

NEW SECTION. Sec. 20. A new section is added to chapter 82.16 RCW to read as follows:

Owners of a community solar project as defined in RCW 82.16.110(2)(a)(i) and (iii) must agree to hold harmless the light and power business serving the situs of the system, including any employee, for the good faith reliance on the information contained in an application or certification submitted by an administrator or limited liability company. In addition, the light and power business and any employee is immune from civil liability for the good faith reliance on any misstatement that may be made in such application or certification. Should a light and power business or employee prevail upon the defense provided in this section, it is entitled to recover expenses and reasonable attorneys' fees incurred in establishing the defense.

Sec. 21. RCW 80.60.010 and 2007 c 323 s 1 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Commission" means the utilities and transportation commission.

The net metering system and the group of customer-generators must all be within the same electric distribution system.

(16) "Virtual net metering aggregator" means an entity that:

(a) Is responsible for professionally managing the net metering system for the life of the project;

(b) Acts as the sole point of contact with the electric utility, responsible for calibrating, maintaining, and communicating to the electric utility a list of assigned fractions, shares, or net meter readings
of the electrical output of a net metering system depending on if utility or aggregator is providing software for meter aggregation;

(c) Registers the net metering system with the western renewable energy generation information system and accounts for all renewable energy credit transactions on that system; and

(d) Registers with the secretary of state as required by statute as either: A limited liability company; a profit corporation; a nonprofit corporation; a limited partnership; or a limited liability partnership.

(17) "Assigned fraction" means the percentage of kilowatt-hours generated by a net metering system deducted from the electrical consumption of a customer-generator. Unless there is a voluntary agreement for smaller fractions, an assigned fraction may not be smaller than:

(18) "Operating fraction" means the percentage of kilowatt-hours generated by a net metering system that is:

(a) Specified by the net metering aggregator;

(b) Not assigned to a customer-generator for virtual net metering; and

(c) Sold by the virtual net metering aggregator to the utility at the rates, terms, and conditions that would otherwise apply to a renewable energy generation system of the same size as the net metering system.

(19) "Distribution system" means all of the distribution lines, substations, switches, and other distribution hardware contiguously connected at voltages below ninety kilovolts that are:

(a) Owned and operated by a single utility; or

(b) Owned and operated by two or more utilities with adjoining distribution systems agreeing to combine their distribution systems for the purpose of virtual net metering.

(20) "Full requirements customer" has the same meaning as defined in RCW 19.280.020.

Sec. 22. RCW 80.60.020 and 2007 c 323 s 2 are each amended to read as follows:

(1) An electric utility:

(a) Shall offer to make net metering available to eligible customers-generators on a first-come, first-served basis until the cumulative generating capacity of net metering systems equals 0.25 percent of the utility’s peak demand during 1996. On January 1, 2014, the cumulative generating capacity available to net metering systems will equal 0.5 percent of the utility’s peak demand during 1996. Not less than one-half of the utility’s 1996 peak demand available for net metering systems shall be reserved for the cumulative generating capacity attributable to net metering systems that generate renewable energy;

(b) Shall allow net metering systems to be interconnected using a standard kilowatt-hour meter capable of registering the flow of electricity in two directions, unless the commission, in the case of an electrical company, or the appropriate governing body, in the case of other electric utilities, determines, after appropriate notice and opportunity for comment:

(i) That the use of additional metering equipment to monitor the flow of electricity in each direction is necessary and appropriate for the interconnection of net metering systems, after taking into account the benefits and costs of purchasing and installing additional metering equipment; and

(ii) How the cost of purchasing and installing an additional meter is to be allocated between the customer-generator and the utility;

(c) Shall charge the customer-generator a minimum monthly fee that is the same as other customers of the electric utility in the same rate class, but shall not charge the customer-generator any additional standby, capacity, interconnection, or other fee or charge unless the commission, in the case of an electrical company, or the appropriate governing body, in the case of other electric utilities, determines, after appropriate notice and opportunity for comment that:

(i) The electric utility will incur direct costs associated with interconnecting or administering net metering systems that exceed any offsetting benefits associated with these systems; and

(ii) Public policy is best served by imposing these costs on the customer-generator rather than allocating these costs among the utility’s entire customer base;

(d) Shall buy an operating fraction of the net metering aggregator of the net metering system using rates, tariffs, contracts, and conditions as would otherwise apply to the utility buying power from a comparable renewable energy generator.

(2) (a) If a meter producer ((and)) software, and associated interconnection equipment is required by the electric utility to provide meter aggregation under RCW 80.60.030(4), ((the)) customer-generators ((and)) or aggregators are responsible for the purchase of the production meter ((and)), software, and associated interconnection equipment. If an electric utility chooses to update its billing software to accommodate meter aggregation, the customer-generator may not be required to purchase software.

(b) If the electric utility decides to update its billing software to accommodate meter aggregation, the aggregator must assign fractions to customer-generators and operating fractions in a manner consistent with this chapter.

(c) If the net metering aggregator is required by the electric utility to provide software to accommodate meter aggregation, the aggregator must provide net meter readings to the electric utility in the form the electric utility uses to read meters.

(3) A net metering aggregator, who must assign fractions to customer-generators and operating fractions as required under subsection (2)(b) of this section, shall submit an updated list of assigned fractions and operating fractions to the electric utility no more than once per quarter on a date determined by the electric utility. A net metering aggregator must provide information to the electric utility demonstrating that the assigned fractions and operating fractions equal one hundred percent.

Sec. 23. RCW 80.60.030 and 2007 c 323 s 3 are each amended to read as follows:

Consistent with the other provisions of this chapter, the net energy measurement must be calculated in the following manner:

(1) The electric utility shall measure the net electricity produced or consumed during the billing period, in accordance with normal metering practices.

(2) If the electricity supplied by the electric utility exceeds the electricity generated by the customer-generator and fed back to the electric utility during the billing period, the customer-generator shall be billed for the net electricity supplied by the electric utility, in accordance with normal metering practices.

(3) If electricity generated by the customer-generator exceeds the electricity supplied by the electric utility, the customer-generator:

(a) Shall be billed for the appropriate customer charges for that billing period, in accordance with RCW 80.60.020; and

(b) Shall be credited for the excess kilowatt-hours generated during the billing period, with this kilowatt-hour credit appearing on the bill for the following billing period.

(4) If a customer-generator requests, an electric utility shall provide meter aggregation.

(a) For customer-generators participating in meter aggregation, kilowatt-hours credits earned by a net metering system during the billing period first shall be used to offset electricity supplied by the electric utility.

(b) Not more than a total of one ((hundred kilowatts)) megawatt shall be aggregated among all customer-generators participating in a ((generating facility)) net metering system under this subsection.
(c) Excess kilowatt-hours credits earned by the net metering system, during the same billing period, shall be either: (i) Credited equally by the electric utility to remaining meters located on all premises of a customer-generator at the designated rate of each meter; or (ii) in the case of virtual net metering, credited by the virtual net metering aggregator to remaining meters in proportion to the contracted specified fraction, share, or net meter reading for each customer-generator. An assigned fraction, share, or net meter reading shall be directly proportional to each meter's share of the net consumption or generation at its rate class as related to the total of all aggregated meters of a virtual net metering aggregator.

(d) Meters so aggregated shall not change rate classes due to meter aggregation under this section.

(5) On April 30th of each calendar year, any remaining unused kilowatt-hour credit accumulated during the previous year shall be granted to the electric utility, without any compensation to the customer-generator.

(6)(a) All renewable energy credits produced as a result of the generation of electricity from a net metering system shall be the property of the customer-generator.

(b) For renewable energy credits generated through virtual net metering, an assigned fraction or share of the renewable energy credit shall be assigned to the customer-generator by the virtual net metering aggregator.

"NEW SECTION. Sec. 24. The legislature finds that small businesses and entrepreneurs are a fundamental source of economic and community vitality for our state. They employ state residents, pay state taxes, purchase goods and services from local and regional companies, and contribute to our communities in many other ways. The legislature finds that small businesses and entrepreneurs need increased access to capital and technical assistance in order to maximize their potential. The legislature intends that the department of commerce and the small business development center each build upon their existing relevant statutory missions and authorities by collaborating on a specific plan to expand services to small businesses and entrepreneurs beginning in the 2011-2013 biennium.

Sec. 25. RCW 43.330.060 and 2005 c 136 s 13 are each amended to read as follows:

(5) The department shall assist women and minority-owned businesses in overcoming barriers to entrepreneurial success. The department shall contract with public and private agencies, institutions, and organizations to conduct entrepreneurial training courses for minority and women-owned businesses. The instruction shall be intensive, practical training courses in financing, marketing, managing, accounting, and recordkeeping for a small business, with an emphasis on federal, state, local, or private programs available to assist small businesses. Instruction shall be offered in major population centers throughout the state at times and locations that are convenient for minority and women small business owners.

(6)(a) By December 1, 2010, the department, in conjunction with the small business development center, must prepare and present to the governor and appropriate legislative committees a specific, actionable plan to increase access to capital and technical assistance to small businesses and entrepreneurs beginning with the 2011-2013 biennium. In developing the plan, the department and the center must consult with the Washington state micropreneur association, and may consult with other government, nonprofit, and private organizations as necessary. The plan must identify:

(iii) Workable solutions to filling the gaps and removing barriers identified in (a)(ii) of this subsection; and

(iv) The financial resources and statutory changes necessary to put the plan into effect beginning with the 2011-2013 biennium.

(b) With respect to increasing access to capital, the plan must identify specific, feasible sources of capital and practical mechanisms for expanding access to it.

(i) Research capacity in the form of a university or community college fostering commercially valuable research, nonprofit institutions creating commercially applicable innovations, or a national laboratory.

(ii) Dense proximity of globally competitive firms in a research-based industry or industries or of individual firms with innovation strategies linked to (a)(i) of this subsection. A globally competitive firm may be signified through international organization for standardization 9000 or 1400 certification, or other recognized evidence of international success; and

(4) On October 1st of each odd-numbered year, the director shall designate innovation partnership zones on the basis of applications that meet the legislative criteria, estimated economic impact of the zone, evidence of forward planning for the zone, and other criteria as recommended by the Washington state economic development commission. Estimated economic impact must include evidence of anticipated private investment, job creation, innovation, and commercialization. The director shall require evidence that zone applicants will promote commercialization, innovation, and collaboration among zone residents and with applicable industry clusters.

(5) Innovation partnership zones are eligible for funds and other resources as provided by the legislature, the department, or at the discretion of the governor.

(6) If the innovation partnership zone meets the other requirements of the fund sources, then the zone is eligible for the following (funds relating to) state programs:

(a) The local infrastructure financing tools and the local revitalization financing programs;

(b) The sales and use tax for public facilities in rural counties;

(c) Job skills; and

(d) The industry cluster grant program.

(7) An innovation partnership zone shall be designated as a zone for a four-year period. At the end of the four-year period, the zone must reapply for the designation through the department.

(9) The department shall convene annual information sharing events for innovation partnership zone administrators, industry clusters and their associations, and other interested parties.

(10) An innovation partnership zone shall provide performance measures as required by the director, including but not limited to private investment measures, job creation measures, and measures of innovation such as licensing of ideas in research institutions, patents, or other recognized measures of innovation.

(11) The department shall compile a biennial report on the innovation partnership zone program by December 1st of every even-numbered year. The report shall provide information for each zone on its: Objectives; funding, tax incentives, and other support obtained from public sector sources; major activities; partnerships, including connections with industry clusters; performance measures; and outcomes achieved since the inception of the zone or since the previous biennial report. MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"Sec. 2. RCW 43.162.005 and 2007 c 232 s 1 are each amended to read as follows:

The legislature finds that ((Washington's innovation and trade-driven economy has provided tremendous opportunities for citizens of the state, but that there is no guarantee that globally competitive firms will continue to grow and locate in the state. The current economic development system is fragmented among numerous programs, councils, centers, and organizations with inadequate overall coordination and insufficient guidance built into the system to ensure that the system is responsive to its customers. The current economic development system's data-gathering and evaluation methods are inconsistent and unable to provide adequate information for determining how well the system is performing on a regular basis so the system may be held accountable for its outcomes.

The legislature also finds that developing a comprehensive economic development strategic plan to guide the operation of effective economic development programs, including workforce training, infrastructure development, small business assistance, technology transfer, and export assistance, is vital to the state's efforts to increase the competitiveness of state businesses, encourage employment growth, increase state revenues, and generate economic well-being. There is a need for responsive and consistent involvement of the private sector in the state's economic development efforts. The legislature finds that there is a need for the development of coordination criteria for business recruitment, expansion, and retention activities carried out by the state and local entities. It is the intent of the legislature to create an economic development commission that will provide planning, coordination, evaluation, monitoring, and policy analysis and development for the state economic development system as a whole, and advice to the governor and legislature concerning the state economic development system)) in order to achieve long-term global competitiveness, prosperity, and economic opportunity for all the state's citizens. Washington state must become the most attractive, creative, and fertile investment environment for innovation in the world.

The legislature finds that the state must take a strategic approach to fostering an innovation economy, and that success will be driven by public and private sector leaders who are committed to developing and advocating a shared vision and collaborating across organizational and geographic boundaries.

The legislature intends therefore that (1) the Washington economic development commission be comprised of business, labor, academic, association, and government leaders, and (2) the commission's mission be to create and regularly update a comprehensive statewide economic development strategy to guide the state's investments in economic development activities including: Infrastructure, talent and workforce development, technology transfer, trade, access to capital, and entrepreneurship.

Sec. 3. RCW 43.162.010 and 2007 c 232 s 2 are each amended to read as follows:

Participation by that method constitutes presence in person at a meeting.

(c) The chair of the commission shall be a voting member ((selected by the governor with the consent of the senate, and shall serve at the pleasure of the governor. In selecting the chair, the governor shall seek a person who understands the future economic needs of the state and nation and the role the state's economic development system has in meeting those needs)) elected by members of the commission to a two-year term. The chair may be reelected to serve additional terms. The chair or vice-chair may not be the director of an executive branch agency or a member of the legislature. A vice-chair shall also be elected by members of the commission and shall exercise the duties of the commission chair in the event of the chair's absence.

(4) In the event a corporation, organized solely by a group of architects each registered under this chapter, applies for a certificate of authorization, the board may, in its discretion, grant a certificate of authorization to that corporation based on a review of the professional records of such incorporators, in lieu of the required qualifications set forth in subsections (1) and (2) of this section. In the event the ownership of such corporation is altered, the corporation shall apply for a revised certificate of authorization, based upon the professional records of the owners if exclusively architects, under the qualifications required by subsections (1) and (2) of this section).

(5) Any ((corporation)) business entity practicing or offering to practice architecture, whether or not it is authorized to practice architecture under this chapter, ((together with its directors and officers for their own individual acts, are)) shall be jointly and severally responsible to the same degree as an individual registered architect and shall conduct their business without misconduct or malpractice in the practice of architecture as defined in this chapter.

(6) Any ((corporation)) business entity that has been certified under this chapter and has engaged in the practice of architecture may have its certificate of authorization either suspended or revoked by the board if, after a proper hearing, the board finds that the ((corporation)) business entity has committed misconduct or malpractice under RCW 18.08.440 or 18.235.130. In such a case, any individual architect registered under this chapter who is involved in such misconduct or malpractice is also subject to disciplinary measures provided in this chapter and RCW 18.235.110.

(7) All plans, specifications, designs, and reports when issued in connection with work performed by a corporation under its certificate of authorization shall be prepared by or under the direction of the designated architects and shall be signed by and stamped with the official seal of the designated architects in the corporation authorized under this chapter.

(8) For each certificate of authorization issued under this section there shall be paid a certification fee and an annual certification renewal fee as prescribed by the director under RCW 43.24.086.

(9) This chapter shall not affect the practice of architecture as a professional service corporation under chapter 18.100 RCW.))

Sec. 18. RCW 18.08.430 and 1985 c 37 s 14 are each amended to read as follows:

Registrants who fail to pay the renewal fee within thirty days of the due date shall pay all delinquent fees plus a penalty fee equal to one-third of the renewal fee. A registrant who fails to pay a renewal fee for a period of five years may be reinstated under such circumstances as the board
determines. The renewal and penalty fees and the frequency of renewal assessment shall be authorized under this chapter. Renewal date for certificates of authorization shall be the anniversary of the date of authorization.

(2) Any registrant in good standing may withdraw from the practice of architecture by giving written notice to the director, and may within five years thereafter resume active practice upon payment of the then-current renewal fee. SSB 5668 Prime Sponsor, Committee on Financial Institutions, Housing & Insurance: Restricting the use of consignment contracts in the sale of used manufactured/mobile homes. Reported by Committee on Commerce & Labor

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 21. The legislature finds that restricting the use of consignment contract sales of manufactured/mobile homes in favor of listing agreement sales by listing dealers or other vehicle dealers is necessary to protect the interests of homeowners, especially those who are elderly. Although a manufactured/mobile home is considered a vehicle, it is also a home, and those manufactured/mobile homes that are used as homes should not be sold strictly as a vehicle in the care of a dealer. The Department of Licensing by rule recognizes that a manufactured/mobile home is not simply a vehicle but a home.

The legislature also finds that a consignment contract is not transparent to the parties involved. The agent or dealer can easily hide or disguise terms of sale that can be detrimental to both the buyer and the seller and beneficial to the agent or dealer.

Therefore, the legislature intends this act to require the use of a listing agreement for the sale of a used manufactured/mobile home to ensure a transparent transaction between the parties.

NEW SECTION. Sec. 22. A new section is added to chapter 46.70 RCW to read as follows:

(1) As used in this section:
(a) "Consignment" means an arrangement where a vehicle dealer accepts delivery or entrustment of a vehicle and agrees to sell the vehicle on behalf of another.
(b) "Listing agreement" means a contract between a seller of a used manufactured/mobile home and a listing dealer to locate a willing buyer for the used manufactured/mobile home.

(2)(a) If a listing dealer or other vehicle dealer of manufactured/mobile homes acts on behalf of a seller for the sale and transfer of a used manufactured/mobile home, the listing dealer or other vehicle dealer shall use a listing agreement only and is prohibited from entering into a consignment contract if the used manufactured/mobile home:
(i) Exists as a finished home certified for occupancy and located in a manufactured/mobile home community or on private land; and
(ii) Is intended to remain at its location as a home, or will be moved to another manufactured/mobile home community or private land as a home, upon the sale and transfer of ownership.
(b) The listing agreement used under this subsection must state the amount of compensation to be paid to the listing dealer or other vehicle dealer for the sale of the used manufactured/mobile home, which may be expressed as a fixed dollar amount, a percentage of the sales price, or another means of compensation.

(3) The listing dealer or other vehicle dealer shall negotiate the purchase agreement between the seller and buyer of the used manufactured/mobile home, which must include the following procedure:
(a) All written purchase offers bearing the buyer's signature must immediately be delivered to the seller for acceptance or refusal.
(b) The seller accepts the purchase agreement by signing the offer. A copy of the purchase agreement must be delivered to the buyer immediately following the seller signing and accepting the offer as proof that the buyer's purchase offer was accepted.
(c) Any counteroffers or amendments to the purchase agreement must also bear the signatures of both the buyer and seller, and copies of the counteroffers or amendments must be delivered to each party.
(4) The listing dealer or other vehicle dealer must follow all other requirements under this chapter.

NEW SECTION. Sec. 23. A new section is added to chapter 46.70 RCW to read as follows:

A listing dealer or other vehicle dealer of manufactured/mobile homes acting on behalf of a seller for the sale and transfer of a used manufactured/mobile home shall complete and attach to any listing agreement the following notice:

NOTICE

The description and physical location of the used manufactured/mobile home to be sold under this listing agreement is

. The compensation to be paid to the listing dealer or other vehicle dealer for the sale of the used manufactured/mobile home is

. Any changes to the compensation to be paid to the listing dealer or other vehicle dealer for the sale of the used manufactured/mobile home must be .

Sec. 24. RCW 46.70.028 and 2000 c 131 s 2 are each amended to read as follows:

Dealers who transact dealer business by consignment shall obtain a consignment contract for sale and shall comply with applicable provisions of this chapter ([46.70 RCW]). The dealer shall place all funds received from the sale of the consigned vehicle in a trust account until the sale is completed, except that the dealer shall pay any outstanding liens against the vehicle from these funds. Where title has been delivered to the purchaser, the dealer shall pay the amount due a consignor within ten days after the sale. However, in the case of a consignment from a licensed vehicle dealer from any state, the wholesale auto auction shall pay the consignor within twenty days. Dealers are also subject to the requirements of sections 2 and 3 of this act.

Sec. 25. RCW 46.70.029 and 2001 c 64 s 8 are each amended to read as follows:

Listing dealers shall transact dealer business by obtaining a listing agreement for sale, and the buyer's purchase of the mobile home from these funds. Where title has been delivered to the purchaser, the listing dealer shall pay the amount due a seller within ten days after the sale of a listed mobile home. A complete account of all funds received and disbursed shall be given to the seller or consignor after the sale is completed. The sale of listed mobile homes imposes the same duty under RCW 46.70.122 on the listing dealer as any other sale. Listing dealers are also subject to the requirements of sections 2 and 3 of this act."

ESB 6261 Prime Sponsor, Senator Marr: Addressing utility services collections against rental property.

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 35.21.217 and 1998 c 285 s 1 are each amended to read as follows:

(1) Prior to furnishing utility services, a city or town may require a deposit to guarantee payment for services. However, failure to require a deposit does not affect the validity of any lien authorized by RCW 35.21.290 or 35.67.200. A city or town may determine how to apply partial payments on past due accounts.

(2) A city or town may provide a real property owner or the owner's designee with duplicates of tenant utility service bills, or may notify an owner or the owner's designee that a tenant's utility account is delinquent. However, if an owner or the owner's designee notifies the city or town in writing that a property served by the city or town is a rental property, asks to be notified of a tenant's delinquency, and has provided, in writing, a complete and accurate mailing address, the city or town shall notify the owner or the owner's designee of a tenant's delinquency at the same time and in the same manner the city or town notifies the tenant of the tenant's delinquency or by mail, and the city or town is prohibited from collecting from the owner or the owner's designee any charges for electric light or power services more than four months past due. When a city or town provides a real property owner or the owner's designee with duplicates of tenant utility service bills or notice that a tenant's utility account is delinquent, the city or town shall notify the tenant that it is providing the duplicate bills or delinquency notice to the owner or the owner's designee.

(3) After (January 1, 1999) August 1, 2010, if a city or town fails to notify the owner of a tenant's delinquency after receiving a written request to do so and after receiving the other information required by this subsection, the city or town shall have no lien against the premises for the tenant's delinquent and unpaid charges and is prohibited from collecting the tenant's delinquent and unpaid charges for electric light or power services from the owner or the owner's designee.

(4) When a utility account is in a tenant's name, the owner or the owner's designee shall notify the city or town in writing within fourteen days of the termination of the rental agreement and vacation of the premises. If the owner or the owner's designee fails to provide this notice, a city or town providing electric light or power services is not limited to collecting only up to four months of a tenant's delinquent charges from the owner or the owner's designee, provided that the city or town has complied with the notification requirements of subsection (3) of this section.

(5)(a) When service is provided through a master meter, when the address of the real property owner is different from the address of the property served, or when the city or town has been previously notified that a tenant resides at the property served, the city or town shall provide notice of pending disconnection to the service address at least ten calendar days prior to disconnection, so that any tenant has an opportunity to resolve the delinquency or dispute with his or her landlord or to arrange for continued service by opening his or her own utility service account. If requested, a city or town shall provide utility service to a tenant on the same terms and conditions as other utility customers, without requiring that he or she pay delinquent amounts for services owed by the property owner or a previous tenant.

(b) This subsection does not affect the validity of any lien authorized by RCW 35.21.290 or 35.67.200. Furthermore, a city or town who allows a tenant to open his or her own utility service account in these circumstances shall retain the right to collect any
delinquent amounts due for service previously provided from the property owner, previous tenant, or both.

Sec. 2. RCW 35.21.290 and 1965 c 7 s 35.21.290 are each amended to read as follows:

Except as provided in RCW 35.21.217(4), cities and towns owning their own waterworks, or electric light or power plants shall have a lien against the premises to which water, electric light, or power services were furnished for four months charges therefor due or to become due, but for any charges more than four months past due(c). PROVIDED. That the owner of the premises or the owner of a delinquent mortgage thereon may give written notice to the superintendent or other head of such works or plant to cut off service to such premises accompanied by payment or tender of payment of the then delinquent and unpaid charges for such service against the premises together with the cut-off charge, whereupon the city or town shall have no lien against the premises for charges for such service thereafter furnished, nor shall the owner of the premises or the owner of a delinquent mortgage thereon be held for the payment thereof."

"NEW SECTION. Sec. 3. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Association" means the Washington vaccine association.
(2) "Covered lives" means all persons under the age of nineteen in Washington state who are:
(a) Covered under an individual or group health benefit plan issued or delivered in Washington state or an individual or group health benefit plan that otherwise provides benefits to Washington residents; or
(b) Enrolled in a group health benefit plan administered by a third-party administrator. Persons under the age of nineteen for whom federal funding is used to purchase vaccines or who are enrolled in state purchased health care programs covering low-income children including, but not limited to, apple health for kids under RCW 74.09.470 and the basic health plan under chapter 70.47 RCW are not considered "covered lives" under this chapter.

NEW SECTION. Sec. 4. There is created a nonprofit corporation to be known as the Washington vaccine association. The association is formed for the primary purpose of collecting and remitting adequate funds from health carriers and third-party administrators for the cost of vaccines provided to certain children in Washington state. The association may also undertake other activities in support of a broader private/public initiative to protect Washington's children from the effects of preventable infectious diseases through increasing immunization rates. Costs of activities undertaken in support of a broader initiative to increase immunization rates cannot be financed through assessments under this chapter.

NEW SECTION. Sec. 5. (b) Prepare and adopt a plan of operation;

(c) Submit the plan of operation to the secretary for approval;

(d) Conduct all activities in accordance with the approved plan of operation;

(e) Enter into contracts as necessary or proper to collect and disburse the assessment;

(j) By May 1, 2010, establish the estimated amount of the assessment needed for the period of May 1, 2010, through December 31, 2010, based upon the estimate provided to the association under section 4(1) of this act; and notify, in writing, each health carrier and third-party administrator of the health carrier's or third-party administrator's total assessment for this period by May 15, 2010;

(k) On an annual basis, beginning no later than November 1, 2010, and by November 1st of each year thereafter, establish the estimated amount of the assessment;

(l) Notify, in writing, each health carrier and third-party administrator of the health carrier's or third-party administrator's estimated total assessment by November 15th of each year;

(m) Submit a periodic report to the secretary listing those health carriers or third-party administrators that failed to remit their assessments and audit health carrier and third-party administrator books and records for accuracy of assessment payment submission;

(q) Perform any other functions as may be necessary or proper to carry out the plan of operation and to affect any or all of the purposes for which the association is organized.

(6) The secretary shall convene the initial meeting of the association board of directors.

NEW SECTION. Sec. 6. (1) The secretary shall estimate the total nonfederal program cost for the upcoming calendar year by October 1, 2010, and October 1st of each year thereafter. Additionally, the secretary shall subtract any amounts needed to serve children enrolled in state purchased health care programs covering low-income children for whom federal vaccine funding is not available, and report the final amount to the association. In addition, the secretary shall perform such calculation for the period of May 1st through December 31st, 2010, as soon as feasible but in no event later than April 1, 2010. The estimates shall be timely communicated to the association.

(2) The board of directors of the association shall determine the method and timing of assessment collection in consultation with the department of health. The board shall use a formula designed by the board to ensure the total anticipated nonfederal program cost, minus costs for other children served through state-purchased health care programs covering low-income children, calculated under subsection (1) of this section, is collected and transmitted to the universal vaccine purchase account created in RCW 43.70.720 in order to ensure adequacy of state funds to order state-supplied vaccine from federal centers for disease control and prevention.

(3) Each licensed health carrier and each third-party administrator on behalf of its client health benefit plans, must be assessed and is required to timely remit payment for its share of the total amount needed to fund nonfederal program costs calculated by the department of health. Such an assessment includes additional funds as determined necessary by the board to cover the reasonable costs for the association's administration. The board shall determine the assessment methodology, with the intent of ensuring that the nonfederal costs are based on actual usage of vaccine for a health carrier or third-party administrator's covered lives. State andlocal governments and school districts must pay their portion of vaccine expense for covered lives under this chapter.

(4) The board of the association shall develop a mechanism through which the number and cost of doses of vaccine purchased under this chapter that have been administered to children covered by each health carrier and each third-party administrator's client health benefit plans are attributed to each such health carrier and third-party administrator. Except as otherwise permitted by the board, this mechanism must include at least the following: Date of service; patient name; vaccine received; and health benefit plan eligibility. The data must be collected and maintained in a manner consistent with applicable state and federal health information privacy laws. Beginning November 1, 2011, and each November 1st thereafter, the board shall factor the results of this mechanism for the previous year into the determination of the appropriate assessment amount for each health carrier and third-party administrator for the upcoming year.

(5) For any year in which the total calculated cost to be received from association members through assessments is less than the total nonfederal program cost, the association must pay the difference to the state for deposit into the universal vaccine purchase account established in RCW 43.70.720. The board may assess, and the health carrier and third-party administrators are obligated to pay, their proportionate share of such costs and appropriate reserves as determined by the board.

(6) The aggregate amount to be raised by the association in any year may be reduced by any surpluses remaining from prior years.

(7) In order to generate sufficient start-up funding, the association may accept prepayment from member health carriers and third-party administrators, subject to offset of future amounts otherwise owing or other repayment method as determined by the board. The initial deposit of start-up funding must be deposited into the universal vaccine purchase account or before April 30, 2010.

NEW SECTION. Sec. 7. (1) The board of the association shall establish a committee for the purposes of developing recommendations to the board regarding selection of vaccines to be purchased in each upcoming year by the department. The committee must be composed of at least five voting board members, including at least three health carrier or third-party administrator members, one physician, and the secretary or the secretary's designee. The committee must also include a representative of vaccine manufacturers, who is a nonvoting member of the committee. The representative of vaccine manufacturers must be chosen by the
secretary from a list of three nominees submitted collectively by vaccine manufacturers on an annual basis.

(2) In selecting vaccines to purchase, the following factors should be strongly considered by the committee: Patient safety and clinical efficacy, public health and purchaser value, patient and provider choice, and stability of vaccine supply.

NEW SECTION. Sec. 8. In addition to the duties and powers enumerated elsewhere in this chapter:

(1) The association may, pursuant to either vote of its board of directors or request of the secretary, audit compliance with reporting obligations established under the association's plan of operation. Upon failure of any entity that has been audited to reimburse the costs of such audit as certified by vote of the association's board of directors within forty-five days of receipt of such vote, the secretary shall assess a civil penalty of one hundred fifty percent of the amount of such costs.

(2) The association may establish an interest charge for late payment of any assessment under this chapter. The secretary shall assess a civil penalty against any health carrier or third-party administrator that fails to pay an assessment within three months of notification under section 3 of this act. The civil penalty under this subsection is one hundred fifty percent of such assessment.

(3) The secretary and the association are authorized to file liens and seek judgment to recover amounts in arrears and civil penalties, and recover reasonable collection costs, including reasonable attorneys' fees and costs. Civil penalties so levied must be deposited in the universal vaccine purchase account created in RCW 43.70.720.

(4) The secretary may adopt rules under chapter 34.05 RCW as necessary to carry out the purposes of this section.

NEW SECTION. Sec. 9. The board of directors of the association shall submit to the secretary, no later than one hundred twenty days after the close of the association's fiscal year, a financial report in a form approved by the secretary.

NEW SECTION. Sec. 10. No liability on the part of, and no cause of action of any nature, shall arise against any member of the board of the association, against an employee or agent of the association, or against any health care provider for any lawful action taken by them in the performance of their duties or required activities under this chapter.

NEW SECTION. Sec. 11. A new section is added to chapter 43.24 RCW to read as follows:

(1)(a) Beginning September 1, 2010, a third-party administrator must register with the department of licensing and renew its registration on an annual basis thereafter prior to December 31st of each year, or within ten days after the registrant changes its name, business name, business address, or business telephone number, whichever occurs sooner.

(b) The registrant shall pay the registration or renewal fee established by the department of licensing as provided in RCW 43.24.086.

(c) Any person or entity that is acting as or holding itself out to be a third-party administrator while failing to have registered under this section is subject to a civil penalty of not less than one thousand dollars nor more than ten thousand dollars for each violation. The civil penalty is in addition to any other penalties that may be imposed for violations of other laws of this state.

(2) For the purposes of this section, "third-party administrator" has the same meaning as defined in section 1 of this act.

(3) The department of licensing may adopt rules under chapter 34.05 RCW as necessary to implement this section.

Sec. 12. RCW 43.70.720 and 2009 c 564 s 934 are each amended to read as follows:

The universal vaccine purchase account is created in the custody of the state treasurer. Receipts from public and private sources for the purpose of increasing access to vaccines for children may be deposited into the account. Expenditures from the account must be used exclusively for the purchase of vaccines, at no cost to health care providers in Washington, to administer to children under nineteen years old who are not eligible to receive vaccines at no cost through federal programs. Only the secretary or the secretary's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

NEW SECTION. Sec. 13. Sections 1 through 8 and 12 through 14 of this act constitute a new chapter in Title 70 RCW.

NEW SECTION. Sec. 14. (1) The association board may, on or after June 30, 2015, vote to recommend termination of the association if it finds that the original intent of its formation and operation, which is to ensure more cost-effective purchase and distribution of vaccine than if provided through uncoordinated purchase by health care providers, has not been achieved. The association board shall provide notice of the recommendation to the relevant policy and fiscal committees of the legislature within thirty days of the vote being taken by the association board. If the legislature has not acted by the last day of the next regular legislative session to reject the board's recommendation, the board may vote to permanently dissolve the association.

(2) In the event of a voluntary or involuntary dissolution of the association, funds remaining in the universal purchase vaccine account created in RCW 43.70.720 that were collected under this chapter must be returned to the member health carrier and third-party administrators in proportion to their previous year's contribution, from any balance remaining following the repayment of any prepayments for start-up funding not previously recouped by such member.

NEW SECTION. Sec. 15. Physicians and clinics ordering state supplied vaccine must ensure they have billing mechanisms and practices in place that enable the association to accurately track vaccine delivered to association members' covered lives and must submit documentation in such a form as may be prescribed by the board in consultation with state physician organizations. Physicians and other persons providing childhood immunization are strongly encouraged to use state supplied vaccine whenever possible. Nothing in this chapter prohibits health carriers and third-party administrators from denying claims for vaccine serum costs when the serum or serums providing similar protection are provided or available via state supplied vaccine.

NEW SECTION. Sec. 16. If the requirement that any segment of health carriers, third-party administrators, or state or local governmental entities provide funding for the program established in this chapter is invalidated by a court of competent jurisdiction, the board of the association may terminate the program one hundred twenty days following a final judicial determination on the matter.

NEW SECTION. Sec. 17. A new section is added to chapter 48.43 RCW to read as follows:

Assessments paid by carriers under section 4 of this act may be considered medical expenses for purposes of rate setting and regulatory filings.

NEW SECTION. Sec. 18. A new section is added to chapter 82.04 RCW to read as follows:

This chapter does not apply to assessments described in sections 3 and 4 of this act received by a nonprofit corporation established under section 2 of this act.

NEW SECTION. Sec. 19. A new section is added to chapter 84.36 RCW to read as follows:

(1) Real and personal property owned by a nonprofit corporation established under section 2 of this act and used primarily for the purposes described in section 2 of this act is exempt from property taxation.

(2) The conditions of RCW 84.36.805(2) do not apply to property exempt under this section.

NEW SECTION. Sec. 20. This act is necessary for the immediate preservation of the public peace, health, or safety, or
support of the state government and its existing public institutions, and takes effect immediately."

E2SSB 6267 Prime Sponsor, Committee on Ways & Means: Regarding water right processing improvements. Reported by Committee on Agriculture & Natural Resources

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 21. Water is an essential element for economic prosperity and it generates new, family-wage jobs and state revenues. It is the intent of the legislature to provide both water right applicants and the department of ecology with the necessary tools to expedite the processing of water right applications depending on the needs of the project and agency workload.

NEW SECTION. Sec. 22. Sufficient resources to support the department of ecology's water resource program are essential for effective and sustainable water management that provides certainty to applicants and the department of ecology with the necessary tools to expedite the processing of water right applications depending on the needs of the project and agency workload.

Sec. 23. RCW 90.03.265 and 2003 c 70 s 6 are each amended to read as follows:

(a) Any applicant for a new withdrawal or a change, transfer, or amendment of a water right pending before the department, may initiate a cost-reimbursement agreement with the department to provide expedited review of the application. A cost-reimbursement agreement may be initiated under this section if the applicant agrees to pay for, or as part of a cooperative effort agrees to pay for, the cost of processing his or her application and all other applications from the same source of supply which must be acted upon before the applicant's request because they were filed prior to the date of when the applicant filed.

(b) The requirement to pay for the cost of other applications under (a) of this subsection does not apply to an application for a new appropriation that would not diminish the water available to earlier pending applicants for new appropriations from the same source of supply.

(c) The requirement to pay for the cost of processing other applications under (a) of this subsection does not apply to an application for a change, transfer, or other amendment that would not diminish the water available to earlier pending applicants for changes or transfers from the same source of supply.

(d) In determining whether an application would not diminish the water available to earlier pending applicants, the department shall consider any water impoundment or other water resource management mitigation technique proposed by the applicant under RCW 90.03.255 or 90.44.055.

(e) The department may enter into cost-reimbursement agreements provided resources are available and shall use the process established under RCW 43.21A.690 for entering into cost-reimbursement agreements. The department's share of work related to a cost-reimbursement application, such as final certificate approval, must be prioritized within the framework of other water right processing needs and as determined by agency rule.

(f) Each individual applicant is responsible for his or her own appeal costs that may result from a water right decision made by the department. In the event that the department's approval of an application is appealed under chapter 43.21B RCW by a third party, the applicant for the water right in question must reimburse the department for the cost of defending the decision before the pollution control hearings board unless otherwise agreed to by the applicant and the department. If an applicant appeals either an appeal or a denial by the department, the applicant is responsible only for its own appeal costs.

(2) In pursuing a cost-reimbursement project, the department must determine the source of water proposed to be diverted or withdrawn from, including the boundaries of the area that defines the source. The department must determine if any other water right permit applications are pending from the same source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department finds they are hydraulically connected. The department shall consider technical information submitted by the applicant in making its determinations under this subsection. The department may recover from a cost-reimbursement applicant its own costs in making the same source determination under this subsection.

(3) Upon request of the applicant seeking cost-reimbursement processing, the department may elect to initiate a coordinated cost-reimbursement process. To initiate this process, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general circulation in the area where affected properties are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that cost-reimbursement processing of applications within the described source water is being initiated;
(b) Provide to individual applicants the criteria under which the applications will be examined and determined;
(c) Provide to individual applicants the estimated cost for having an application processed on a cost-reimbursement basis;
(d) Provide an estimate of how long the cost-reimbursement process will take before an application is approved or denied; and
(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in the cost-reimbursement process.

(4) The applicant initiating the cost-reimbursement request must pay for the cost of the determination under subsections (2) and (3) of this section and other costs necessary for the initial phase of cost-reimbursement processing. The cost for each applicant for conducting processing under a coordinated cost-reimbursement agreement must be based primarily on the proportionate quantity of water requested by each applicant. The cost may be adjusted if it appears that an application will require a disproportionately greater amount of time and effort to process due to its complexity.

(5)(a) Only the department may approve or deny a water right application processed under this section, and such a final decision remains solely the responsibility and function of the department. The department retains full authority to amend, refuse, or approve any work product provided by any consultant under this section. The department may recover its costs related to: (i) The review of a contractor to ensure that no conflict of interest exists; (ii) the management of consultant contracts and cost-reimbursement agreements; and (iii) the review of work products provided by participating consultants.
(b) For any cost-reimbursement process initiated under subsection (1) of this section, the applicant may, after consulting with the department, select a prequalified consultant listed by the department under subsection (7) of this section or may be assigned such a prequalified consultant by the department.

(c) For any coordinated cost-reimbursement process initiated under subsection (2) of this section, the applicant may, after consulting with the department, select a prequalified consultant listed by the department under subsection (7) of this section or may be assigned a prequalified consultant by the department.

(d) In lieu of having one or more of the work products performed by a prequalified consultant listed under subsection (7) of this section, the department may, at its discretion, recognize specific work completed by an applicant or an applicant's consultant prior to the initiation of cost-reimbursement processing. The department may also, at its discretion, authorize the use of such a consultant to perform a specific scope of the work performed by prequalified consultants listed under subsection (7) of this section.

(e) At any point during the cost-reimbursement process, the department may request or accept technical information, data, and analysis from the applicant or the applicant's consultant to support the cost-reimbursement process or the department's decision on the application.

(f) The department is authorized to adopt rules or guidance providing minimum qualifications and standards for any consultant's submission of work products under this section, including standards for submission of technical information, scientific analysis, work product documentation, and report presentation that such a consultant must meet.

(g) The department must provide notice to potential consultants of the opportunity to be considered for inclusion on the list of cost-reimbursement consultants to whom work assignments will be made. The department must competitively select an appropriate number of consultants who are qualified by training and experience to investigate and make recommendations on the disposition of water rights applications. The prequalified consultant list must be renewed at least every six years, though the department may add qualified cost-reimbursement consultants to the list at any time. The department must enter a master contract with each consultant selected and thereafter make work assignments based on availability and qualifications.

(h) The department may remove any consultant from the consultant list for poor performance, malfeasance, or excessive complaints from cost-reimbursement participants. The department may interview any cost-reimbursement consultant to determine whether the person is qualified for this work, and must spot-check the work of consultants to ensure that the public is being competently served.

(i) When a prequalified cost-reimbursement consultant from the department's list described in subsection (7) of this section is assigned or selected to investigate an application or set of applications, the consultant must document its findings and recommended disposition in the form of written draft technical reports and preliminary draft reports of examination. Within two weeks of the department receiving draft technical reports and preliminary draft reports of examination, the department shall provide the applicant such documents for review and comment prior to their completion by the consultant. The department shall consider such comments by the applicant prior to the department's issuance of a draft report of examination. The department may modify the preliminary draft reports of examination submitted by the consultant. The department's decision on a permit application is final unless it is appealed to the pollution control hearings board under chapter 43.21B RCW.

(j) If an applicant elects not to participate in a cost-reimbursement process, the application remains on file with the department, retains its priority date, and may be processed in the future under regular processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW.

NEW SECTION. Sec. 24. A new section is added to chapter 90.03 RCW to read as follows:

The water rights processing account is created in the state treasury. All receipts from the fees collected under sections 5, 7, and 12 of this act must be deposited into the account. Money in the account may be spent only after appropriation. Expenditures from the account may only be used to support the processing of water right applications for a new appropriation, change, transfer, or amendment of a water right as provided in this chapter and chapters 90.42 and 90.44 RCW or for the examination, certification, and renewal of certification of water rights examiners as provided in section 7 of this act.

NEW SECTION. Sec. 25. A new section is added to chapter 90.03 RCW to read as follows:

(1) The department may expedite processing of applications within the same source of water on its own volition where there is interest from a sufficient number of applicants or upon receipt of written requests from at least ten percent of the applicants within the same source of water.

(2) If the conditions of subsection (1) of this section have been met and the department determines that the public interest is best served by expediting applications within a water source, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general circulation in the area where affected properties are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that expedited processing of applications within the described water source is being initiated;

(b) Provide to individual applicants the criteria under which the applications will be examined and determined;

(c) Provide to individual applicants the estimated cost for having an application processed on an expedited basis;

(d) Provide an estimate of how long the expedited process will take before an application is approved or denied; and

(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in the expedited processing of their applications.

(3) In addition to the application fees provided in RCW 90.03.470, the department must recover the full cost of processing all the applications from applicants who elect to participate within the water source through expedited processing fees. The department must calculate an expedited processing fee based primarily on the proportionate quantity of water requested by each applicant and may adjust the fee if it appears that the application will require a disproportionately greater amount of time and effort to process due to its complexity. Any application fees that were paid by the applicant under RCW 90.03.470 must be credited against the applicant's share of the cost of processing applications under the provisions of this section.

(4) The expedited processing fee must be collected by the department prior to the expedited processing of an application. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. An applicant who has stated in writing that he or she wants his or her application processed using the expedited procedures in this section must transmit the processing fee within sixty days of the written
request. Failure to do so will result in the applicant not being included in expedited processing for that water source.

(5) If an applicant elects not to participate in expedited processing, the application remains on file with the department, the applicant retains his or her priority date, and the application may be processed through regular processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW. Such an application may not be processed through expedited processing within twelve months after the department's issuance of decisions on participating applications at the conclusion of expedited processing unless the applicant agrees to pay the full proportionate share that would otherwise have been paid during such processing. Any proceeds collected from an applicant under this delayed entry into expedited processing shall be used to reimburse the other applicants who participated in the previous expedited processing of applications, provided sufficient proceeds remain to fully cover the department's cost of processing the delayed entry application and the department's estimated administrative costs to reimburse the previously expedited applicants.

NEW SECTION. Sec. 26. A new section is added to chapter 90.03 RCW to read as follows:

The department must post notice on its web site and provide electronic notice and opportunity for comment to affected federally recognized tribal governments concurrently when providing notice to applicants under RCW 90.03.265 and sections 5 and 12 of this act.

NEW SECTION. Sec. 27. A new section is added to chapter 90.03 RCW to read as follows:

(1) The department shall establish and maintain a list of certified water right examiners. Certified water right examiners on the list are eligible to perform final proof examinations of permitted water uses leading to the issuance of a water right certificate under RCW 90.03.330. The list must be updated annually and must be made available to the public through written and electronic media.

(2) In order to qualify, an individual must be registered in Washington as a professional engineer, a professional land surveyor, or a registered hydrogeologist, or an individual must demonstrate at least five years of applicable experience to the department, or be a board member of a water conservancy board. Qualified individuals must also pass a written examination prior to being certified by the department. Such an examination must be administered by either the department or an entity formally approved by the department. Each certified water right examiner must demonstrate knowledge and competency regarding:

(a) Water law in the state of Washington;
(b) Measurement of the flow of water through open channels and encased pipes;
(c) Water use and water level reporting;
(d) Estimation of the capacity of reservoirs and ponds;
(e) Irrigation crop water requirements;
(f) Aerial photo interpretation;
(g) Legal descriptions of land parcels;
(h) Location of land and water infrastructure through the use of maps and global positioning;
(i) Proper construction and sealing of well bores; and
(j) Other topics related to the preparation and certification of water rights in Washington state.

(3) Except as provided in subsection (9) of this section, upon completion of a water appropriation and putting water to beneficial use, in order to receive a final water right certificate, the permit holder must secure the services of a certified water right examiner who has been tested and certified by the department. The examiner shall carry out a final examination of the project to verify its completion and to determine and document for the permit holder and the department the amount of water that has been appropriated for beneficial use, the location of diversion or withdrawal and conveyance facilities, and the actual place of use. The examiner shall take measurements or make estimates of the maximum diversion or withdrawal, the capacity of water storage facilities, the acreage irrigated, the type and number of residences served, the type and number of stock watered, and other information relevant to making a final determination of the amount of water beneficially used. The examiner shall make photographs of the facilities to document the use or uses of water and the photographs must be submitted with the examiner's report to the department. The department shall specify the format and required content of the reports and may provide a form for that purpose.

(4) The department may suspend or revoke a certificate based on poor performance, malfeasance, failure to acquire continuing education credits, or excessive complaints from the examiner's customers. The department may require the retesting of an examiner. The department may interview any examiner to determine whether the person is qualified for this work. The department shall spot-check the work of examiners to ensure that the public is being competently served. Any person aggrieved by an order of the department including the granting, denial, revocation, or suspension of a certificate issued by the department under this chapter may appeal pursuant to chapter 43.21B RCW.

(5) The decision regarding whether to issue a final water right certificate is solely the responsibility and function of the department.

(6) The department shall make its final decision under RCW 90.03.330 within sixty days of the date of receipt of the proof of examination from the certified water right examiner, unless otherwise requested by the applicant.

(7) Each certified water right examiner must complete eight hours annually of qualifying continuing education in the water resources field. The department shall determine and specify the qualifying continuing education and shall inform examiners of the opportunities. The department shall track whether examiners are current in their continuing education and may suspend the certification of an examiner who has not complied with the continuing education requirement.

(8) Each certified water right examiner must be bonded for at least fifty thousand dollars.

(9) The department may waive the requirement to secure the services of a certified water right examiner in situations in which the department deems it unnecessary for purposes of issuing a certificate of water right.

(10) The department shall establish and collect fees for the examination, certification, and renewal of certification of water right examiners. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. Pursuant to RCW 43.135.055, the department is authorized to set fees for examination, certification, and renewal of certification for water right examiners.

(11) The department may adopt rules appropriate to carry out the purposes of this section.

Sec. 28. RCW 90.14.065 and 1987 c 93 s 1 are each amended to read as follows:

(1)(a) Any person or entity, or successor to such person or entity, having a statement of claim on file with the water rights claims registry ((on April 20, 1987.)) may submit to the department of ecology for filing((i))) an amendment to such a statement of claim if the submitted amendment is based on:

((i))) ((i) An error in estimation of the quantity of the applicant's water claim prescribed in RCW 90.14.051 if the applicant provides reasons for the failure to claim such right in the original claim;

((ii))) ((ii) A change in circumstances not foreseeable at the time the original claim was filed, if such change in circumstances relates only to the manner of transportation or diversion of the water and not to the use or quantity of such water; or

((iii))) ((iii) The amendment is ministerial in nature.
(b) The department shall accept any such submission and file the
same in the registry unless the department by written determination
concludes that the requirements of (a)(i), (ii), or (iii) of this subsection
((1)(b), (2), or (3) of this section)) have not been satisfied.
(2) In addition to subsection (1) of this section, a surface water right
claim may be changed or transferred in the same manner as a permit
or certificate under RCW 90.03.380, and a water right claim for
groundwater may be changed or transferred as provided under RCW
90.03.380 and 90.44.100.
(3) Any person aggrieved by a determination of the department
may obtain a review thereof by filing a petition for review with the
pollution control hearings board within thirty days of the date of
the determination by the department. The provisions of RCW 90.14.081
shall apply to any amendment filed or approved under this section.

**Section 29.** RCW 90.44.100 and 2009 c 183 s 16 are each
amended to read as follows:

(1) After an application to, and upon the issuance by the
department of an amendment to the appropriate permit or certificate
of groundwater right, the holder of a valid right to withdraw public
groundwaters may, without losing the holder's priority of right,
construct wells or other means of withdrawal at a new location in
substitution for or in addition to those at the original location, or
the holder may change the manner or the place of use of the water.

(2) An amendment to construct replacement or a new additional
well or wells at a location outside of the location of the original well
or wells or to change the manner or place of use of the water shall be
issued only after public notice of the application and findings
as prescribed in the case of an original application. Such amendment
shall be issued by the department only on the conditions that: (a) The
additional or replacement well or wells shall tap the same body of
public groundwater as the original well or wells; (b) a replacement
well or wells is approved, the use of the original well or
wells shall be discontinued and the original well or wells shall be
properly decommissioned as required under chapter 18.104 RCW; (c)
where an additional well or wells is constructed, the original well or
wells may continue to be used, but the combined total withdrawal
from the original and additional well or wells shall not enlarge the
right conveyed by the original permit or certificate; and (d) other
existing rights shall not be impaired. The department may specify an
approved manner of construction and shall require a showing of
compliance with the terms of the amendment, as provided in RCW
90.44.080 in the case of an original permit.

(3) The construction of a replacement or new additional well or
wells at the location of the original well or wells shall be allowed
without application to the department for an amendment. However,
the following apply to such a replacement or new additional well: (a)
The well shall tap the same body of public groundwater as the
original well or wells; (b) if a replacement well is constructed, the use
of the original well or wells shall be discontinued and the original
well or wells shall be properly decommissioned as required under
chapter 18.104 RCW; (c) if a new additional well is constructed, the
original well or wells may continue to be used, but the combined total
withdrawal from the original and additional well or wells shall not
enlarge the right conveyed by the original water use permit or
certificate; (d) the construction and use of the well shall not interfere
with or impair water rights with an earlier date of priority than the
water right or rights for the original well or wells; (e) the replacement
or additional well shall be located no closer than the original well to a
well it might interfere with; (f) the department may specify an
approved manner of construction of the well; and (g) the department
shall require a showing of compliance with the conditions of this
subsection (3).

(4) As used in this section, the "location of the original well or
wells" of a water right permit or certificate is the area described as the
point of withdrawal in the original public notice published for
the application for the water right for the well. The location of the
original well or wells of a water right claim filed under chapter 90.14
RCW is the area located within a one-quarter mile radius of the
current well or wells.

(5) The development and use of a small irrigation impoundment,
as defined in RCW 90.03.370(8), does not constitute a change or
amendment for the purposes of this section. The exemption expressly
provided by this subsection shall not be construed as requiring an
amendment of any existing water right to enable the holder of the
right to store water governed by the right.

(6) This section does not apply to a water right involved in an
approved local water plan created under RCW 90.92.090 or a banked
water right under RCW 90.92.070.

**Section 30.** RCW 90.44.100 and 2003 c 329 s 3 are each amended
to read as follows:

(1) After an application to, and upon the issuance by the
department of an amendment to the appropriate permit or certificate
of groundwater right, the holder of a valid right to withdraw public
groundwaters may, without losing the holder's priority of right,
construct additional or replacement well or wells at a location outside of
the location of the original well or wells or to change the manner or
place of use of the water shall be
issued only after publication of notice of the application and findings
as prescribed in the case of an original application. Such amendment
shall be issued by the department only on the conditions that: (a) The
additional or replacement well or wells shall tap the same body of
public groundwater as the original well or wells; (b) where a
replacement well or wells is approved, the use of the original well or
wells shall be discontinued and the original well or wells shall be
properly decommissioned as required under chapter 18.104 RCW; (c)
where an additional well or wells is constructed, the original well or
wells may continue to be used, but the combined total withdrawal
from the original and additional well or wells shall not enlarge the
right conveyed by the original permit or certificate; and (d) other
existing rights shall not be impaired. The department may specify an
approved manner of construction and shall require a showing of
compliance with the terms of the amendment, as provided in RCW
90.44.080 in the case of an original permit.

(3) The construction of a replacement or new additional well or
wells at the location of the original well or wells shall be allowed
without application to the department for an amendment. However,
the following apply to such a replacement or new additional well: (a)
The well shall tap the same body of public groundwater as the
original well or wells; (b) if a replacement well is constructed, the use
of the original well or wells shall be discontinued and the original
well or wells shall be properly decommissioned as required under
chapter 18.104 RCW; (c) if a new additional well is constructed, the
original well or wells shall be properly decommissioned as required under
chapter 18.104 RCW; (d) the construction and use of the well shall not interfere
with or impair water rights with an earlier date of priority than the
water right or rights for the original well or wells; (e) the replacement
or additional well shall be located no closer than the original well to a
well it might interfere with; (f) the department may specify an
approved manner of construction of the well; and (g) the department
shall require a showing of compliance with the conditions of this
subsection (3).

(4) As used in this section, the "location of the original well or
wells" of a water right permit or certificate is the area described as the
point of withdrawal in the original public notice published for
the application for the water right for the well. The location of the
original well or wells of a water right claim filed under chapter 90.14
RCW is the area located within a one-quarter mile radius of the current well or wells.

(5) The development and use of a small irrigation impoundment, as defined in RCW 90.03.370(8), does not constitute a change or amendment for the purposes of this section. The exemption expressly provided by this subsection shall not be construed as requiring an amendment of any existing water right to enable the holder of the right to store water governed by the right.

NEW SECTION. Sec. 31. A new section is added to chapter 90.44 RCW to read as follows:

Applications to appropriate groundwater under a cost-reimbursement agreement must be processed in accordance with RCW 90.03.265 when an applicant requests the assignment of a cost-reimbursement consultant as provided in RCW 43.21A.690.

NEW SECTION. Sec. 32. A new section is added to chapter 90.44 RCW to read as follows:

(1) The department may expedite processing of applications within the same source of water on its own volition when there is interest from a sufficient number of applicants or upon receipt of written requests from at least ten percent of the applicants within the same source of water.

(2) If the conditions of subsection (1) of this section have been met and the department determines that the public interest is best served by expediting applications within a water source, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general circulation in the area where affected properties are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that expedited processing of applications within the described water source is being initiated;

(b) Provide to individual applicants the criteria under which the applications will be examined and determined;

(c) Provide to individual applicants the estimated cost for having an application processed on an expedited basis;

(d) Provide an estimate of how long the expedited process will take before an application is approved or denied; and

(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in expedited processing of their applications.

(3) In addition to the application fees provided in RCW 90.03.470, the department must recover the full cost of processing all the applications from applicants who elect to participate within the water source through expedited processing fees. The department must calculate an expedited processing fee based primarily on the proportionate quantity of water requested by each applicant and may adjust the fee if it appears that an application will require a disproportionately greater amount of time and effort to process due to its complexity. Any application fees that were paid by the applicant under RCW 90.03.470 must be credited against the applicant's share of the cost of processing applications under the provisions of this section.

(4) The expedited processing fee must be collected by the department prior to the expedited processing of an application. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. An applicant who has stated in writing that he or she wants his or her application processed using the expedited procedures in this section must transmit the processing fee within sixty days of the written request. Failure to do so will result in the applicant not being included in expedited processing for that water source.

(5) If an applicant elects not to participate in expedited processing, the application remains on file with the department, the applicant retains his or her priority date, and the application may be processed through regular processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW. Such an application may not be processed through expedited processing within twelve months after the department's issuance of decisions on participating applications at the conclusion of expedited processing unless the applicant agrees to pay the full proportionate share that would otherwise have been paid during such processing. Any proceeds collected from an applicant under this delayed entry into expedited processing shall be used to reimburse the other applicants who participated in the previous expedited processing of applications, provided sufficient proceeds remain to fully cover the department's cost of processing the delayed entry application and the department's estimated administrative costs to reimburse the previously expedited applicants.

NEW SECTION. Sec. 33. Section 9 of this act expires June 30, 2019.

NEW SECTION. Sec. 34. Section 10 of this act takes effect June 30, 2019.

NEW SECTION. Sec. 35. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

ESSB 6289 Prime Sponsor, Committee on Environment, Water & Energy: Protecting lake water quality by reducing phosphorus from lawn fertilizers. Reported by Committee on Agriculture & Natural Resources

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECT. Sec. 36. (1) The legislature finds that:
(a) Phosphorus loading of surface waters can stimulate the growth of weeds and algae and that this growth can have adverse environmental, health, and aesthetic effects;
(b) Lawn fertilizers contribute to phosphorus loading. Limits on turf fertilizer containing phosphorus can significantly reduce the discharge of phosphorus into the state's ground and surface waters;
(c) Turf fertilizers containing no or very low amounts of phosphorus are readily available and maintaining established turf in a healthy and green condition is not dependent upon the addition of phosphorus fertilizers; and
(d) While significant reductions of phosphorus from laundry detergent and dishwashing detergent have been achieved, similar progress in reducing phosphorus contributions from turf fertilizer has not been accomplished.
(2) It is the intent of the legislature that this chapter significantly limit the use of fertilizers containing the plant nutrient phosphorus.

NEW SECT. Sec. 37. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.
(1) "Department" means the department of ecology.
(2) "Director" means the director of the department of ecology.
(3)(a) "Fertilizer" includes any substance containing one or more recognized plant nutrients, and that is either used for its plant nutrient content or is designated for use or claimed to have value in promoting plant growth, or both. "Fertilizer" includes gypsum and manipulated animal and vegetable manures.
(b) "Fertilizer" does not include:
(i) Unmanipulated animal and vegetable material, organic waste-derived materials, substances containing phosphorus derived solely

from natural organic sources, and other products exempted by the department by rule;
(ii) Calcium carbonate (lime) and anhydrous ammonia;
(iii) Materials including, but not limited to, compost biosolids, municipal sewage sludge, or slow release fertilizer used in compliance with best practices developed by the Washington State University extension service, or products derived therefrom, that are regulated under chapter 70.95 or 70.95J RCW or rules adopted under those chapters; and
(iv) Materials using waste manure from confined animal feeding operations as the primary feedstock and manufactured as a biotic fertilizer in a manner that balances the pH of the material and reduces the leaching of phosphorus.
(4) "Impervious surface" means a highway, street, sidewalk, parking lot, driveway, or other artificial surface that prevents infiltration of water into the soil.
(5) "Turf" means noncrop land planted in closely mowed, managed grasses on residential property. Turf does not include managed pasture, hayland, hay, turf grown on turf farms, home or commercial vegetable production, horticultural beds, flower beds, general landscaping, or any other form of agricultural production.

NEW SECT. Sec. 38. (1) Except as provided in subsection (2) of this section, after January 1, 2012, a person may not apply to turf a fertilizer containing the plant nutrient phosphorus.
(2) Subsection (1) of this section does not apply when:
(a) Applying a solid fertilizer containing less than 0.67 percent phosphate by weight or a liquid fertilizer applied at a rate not greater than 0.3 pounds of phosphate per one thousand square feet of turf;
(b) Laboratory test results or other certifications by a turf specialist performed within the three years previous to the application indicates that the level of available phosphorus in the soils is insufficient to support healthy turf growth. The level of phosphorous needed to support healthy turf and the agronomic application rate must be determined by Washington State University; or
(c) The property owner or an agent of the property owner is first establishing turf via seed or sod procedures and only during the first growing season.
(3)(a) This section does not apply to the application of turf fertilizer for agricultural uses.
(b) This section does not apply to the application of turf fertilizer for golf courses.

NEW SECT. Sec. 39. A person may not apply a fertilizer to an impervious surface. Fertilizer released on an impervious surface must be immediately contained and either legally applied to turf or another legal site or returned to the original container or another appropriate container.

NEW SECT. Sec. 40. (1) The department may issue a notice of corrective action to a person in violation of section 3 or 4 of this act.
(2) A city or county may adopt an ordinance providing for enforcement of the requirements of sections 3 and 4 of this act. A city or county adopting an ordinance has jurisdiction concurrent with the department to enforce this section.

NEW SECT. Sec. 41. The department may produce consumer information on the application restrictions under section 3 of this act and on recommended best practices for turf fertilizer and other residential landscaping uses. The consumer information must be produced in consultation with the Washington State University extension service, fertilizer industry representatives, lakes health organizations, and other interested parties. The consumer information must be in a format and of a content suitable for posting and distribution at retail points of sale of fertilizer that contains phosphorus for use on turf.

NEW SECT. Sec. 42. Sections 1 through 6 of this act constitute a new chapter in Title 90 RCW."

This subsection does not apply to a grain warehouse or grain elevator if the warehouse or elevator handles more than ten million bushels of grain annually.

(4) For the purposes of subsection (3) of this section:
(a) A "grain warehouse" or "grain elevator" is an establishment classified in standard industrial classification (SIC) code 5153 for wholesale trade for which a license is required and includes, but is not limited to, such a licensed facility that also conducts cleaning operations for grain;
(b) A "license" is a license issued by the department of agriculture licensing a facility as a grain warehouse or grain elevator under chapter 22.09 RCW or a license issued by the federal government licensing a facility as a grain warehouse or grain elevator for purposes similar to those of license for the facility under chapter 22.09 RCW; and

(c) "Grain" means a grain or a pulse.

(5)(a) The department shall adopt rules requiring ((the reporting of)) persons to report emissions of greenhouse gases as defined in RCW 70.235.010((... The rules must include a de minimis amount of emissions below which reporting will not be required for both indirect and direct emissions. The rules must require that emissions of greenhouse gases resulting from the burning of fossil fuels be reported separately from emissions of greenhouse gases resulting from the burning of biomass. Except as provided in (b) of this subsection, the department shall, under the authority granted in subsection (1) of this section, adopt rules requiring any owner or operator: (i) Of a fleet of on-road motor vehicles that as a fleet emit at least twenty-five hundred metric tons of greenhouse gas annually in the state to report the emissions of greenhouse gases generated from or emitted by that fleet; or (ii) of a source or combination of sources that emit at least ten thousand metric tons of greenhouse gas annually in the state to report their total annual emissions of greenhouse gases. In calculating emissions of greenhouse gases for purposes of determining whether or not reporting is required, only direct emissions shall be included. For purposes of reporting emissions of greenhouse gases in chapter 14, Laws of 2008, "source" means any stationary source as defined in RCW 70.94.030, or mobile source used for transportation of people or cargo. The emissions of greenhouse gases must be reported as carbon dioxide equivalents. The rules must require that persons report 2009 emissions starting in 2010. The rules must establish an annual reporting schedule that takes into account the time needed to allow the owner or operator reporting emissions of greenhouse gases to gather the information needed and to verify the emissions being reported. However, in no event may reports be submitted later than October 31 of the year in which the report is due. The department may phase in the reporting requirements for sources or combinations of sources under (a)(ii) of this subsection until the reporting threshold is met, which must be met by January 1, 2012. The department may, from time to time amend the rules to include other persons that emit less than the annual greenhouse gas emissions levels set out in this subsection if necessary to comply with any federal reporting requirements for emissions of greenhouse gases;

(b) In its rules, the department may defer the reporting requirement under (a) of this subsection for emissions associated with interstate and international commercial aircraft, rail, truck, or marine vessels until (i) there is a federal requirement to report these emissions; or (ii) the department finds that there is a generally accepted reporting protocol for determining interstate emissions from these sources,) where those emissions from a single facility, source, or site, or from fossil fuels sold in Washington by a single supplier meet or exceed ten thousand metric tons of carbon dioxide equivalent annually. The department may phase in the requirement to report greenhouse gas emissions until the reporting threshold in this subsection is met, which must occur by January 1, 2012. In addition, the rules must require that:
(i) Emissions of greenhouse gases resulting from the combustion of fossil fuels be reported separately from emissions of greenhouse gases resulting from the combustion of biomass;

(ii) Reporting will start in 2010 for 2009 emissions. Each annual report must include emissions data for the preceding calendar year and must be submitted to the department by October 31st of the year in which the report is due. However, starting in 2011, a person who is required to report greenhouse gas emissions to the United States environmental protection agency under 40 C.F.R. Part 98, as adopted on September 22, 2009, must submit the report required under this section to the department concurrent with the submission to the United States environmental protection agency. Except as otherwise provided in this section, the data for emissions in Washington and any corrections thereto that are reported to the United States environmental protection agency must be the emissions data reported to the department; and

(iii) Emissions of carbon dioxide associated with the complete combustion or oxidation of liquid motor vehicle fuel, special fuel, or aircraft fuel that is sold in Washington where the annual emissions associated with that combustion or oxidation equal or exceed ten thousand metric tons be reported to the department. Each person who is required to file periodic tax reports of motor vehicle fuel sales under RCW 82.36.031 or special fuel sales under RCW 82.38.150, or each distributor of aircraft fuel required to file periodic tax reports under RCW 82.42.040 must report to the department the annual emissions of carbon dioxide from the complete combustion or oxidation of the fuels listed in those reports as sold in the state of Washington. The department shall not require suppliers to use additional data to calculate greenhouse gas emissions other than the data the suppliers report to the department of licensing. The rules may allow this information to be aggregated when reported to the department. The department and the department of licensing shall enter into an interagency agreement to ensure proprietary information is protected if they share reported information. Any proprietary information exempt from disclosure when reported to the department of licensing is exempt from disclosure when shared by the department of licensing with the department under this provision. The term "proprietary information" means information that is protected from disclosure under chapter 42.36 RCW.

(b)(i) Except as otherwise provided in this subsection, the rules adopted by the department under (a) of this subsection must be consistent with the regulations adopted by the United States environmental protection agency in 40 C.F.R. Part 98 on September 22, 2009.

(ii) The department may by rule include additional gases to the definition of "greenhouse gas" in RCW 70.235.010 only if the gas has been designated as a greenhouse gas by the United States congress or by the United States environmental protection agency. Prior to including additional gases to the definition of "greenhouse gas" in RCW 70.235.010, the department shall notify the appropriate committees of the legislature. Decisions to amend the rule to include additional gases must be made prior to December 1st of any year and the amended rule may not take effect before the end of the regular legislative session in the next year.

(iii) The department may by rule exempt persons who are required to report greenhouse gas emissions to the United States environmental protection agency and who emit less than ten thousand metric tons carbon dioxide equivalent annually.

(iv) The department must establish a methodology for persons who are not required to report under this section to voluntarily report their greenhouse gas emissions.

(c) The department shall review and if necessary update its rules whenever the United States environmental protection agency adopts final amendments to 40 C.F.R. Part 98 to ensure consistency with federal reporting requirements for emissions of greenhouse gases. However, the department shall not amend its rules in a manner that conflicts with (a) of this subsection.

(d) The department shall share any reporting information reported to it with the local air authority in which the (owner or operator)) person reporting under the rules adopted by the department operates.

(e) The fee provisions in subsection (2) of this section apply to reporting of emissions of greenhouse gases. (Owners and operators) Persons required to report under (a) of this subsection who fail to report or pay the fee required in subsection (2) of this section are subject to enforcement penalties under this chapter. The department shall enforce the reporting rule requirements unless it approves a local air authority’s request to enforce the requirements for (sources) persons operating within the authority's jurisdiction. However, neither the department nor an approved local air authority are authorized to assess enforcement penalties on persons required to report under (a) of this subsection until six months after the department finalizes its reporting rule.

(f) The energy facility site evaluation council shall, simultaneously with the department, adopt rules that impose greenhouse gas reporting requirements in site certifications on owners or operators of a facility permitted by the energy facility site evaluation council. The greenhouse gas reporting requirements imposed by the energy facility site evaluation council must be the same as the greenhouse gas reporting requirements imposed by the department. The department shall share any information reported to it from facilities permitted by the energy facility site evaluation council with the council, including notice of a facility that has failed to report as required. The energy facility site evaluation council shall contract with the department to monitor the reporting requirements adopted under this section.

(g) The inclusion or failure to include any person, source, classes of persons or sources, or types of emissions of greenhouse gases into the department’s rules for reporting under this section does not indicate whether such a person, source, or category is appropriate for inclusion in ((the multisection market based system designed under RCW 70.235.020)) state, regional, or national greenhouse gas reduction programs or strategies.

(h) (Should the federal government adopt rules sufficient to track progress toward the emissions reductions required by chapter 14, Laws of 2008 governing the reporting of greenhouse gases, the department shall amend its rules, as necessary, to seek consistency with the federal rules to ensure duplicate reporting is not required. Nothing in this section requires the department to increase the reporting threshold established in (a) of this subsection or otherwise require the department’s rules be identical to the federal rules in scope.) (i) The definitions in RCW 70.235.010 apply throughout this subsection (5) unless the context clearly requires otherwise.

(ii) For the purpose of this subsection (5), the term “supplier” includes: (A) A motor vehicle fuel supplier or a motor vehicle fuel importer, as those terms are defined in RCW 82.36.010; (B) a special fuel supplier or a special fuel importer, as those terms are defined in RCW 82.38.020; and (C) a distributor of aircraft fuel, as those terms are defined in RCW 82.42.010.

(iii) For the purpose of this subsection (5), the term “person” includes: (A) An owner or operator, as those terms are defined by the United States environmental protection agency in its mandatory greenhouse gas reporting regulation in 40 C.F.R. Part 98, as adopted on September 22, 2009; and (B) a supplier. "Correct the title.

management plan applicable to the area containing an objective of decreasing the number of existing and newly developed small groundwater withdrawal wells. The department shall provide a priority to reviewing and deciding upon applications subject to this subsection, and shall make its decision within sixty days of the end of the comment period following publication of the notice by the applicant or applicants within sixty days of the date on which compliance with the state environmental policy act, chapter 43.21C RCW, is completed, whichever is later. The applicant and the department may by prior mutual agreement extend the time for making a decision. Until December 31, 2015, if an existing, publicly owned and operated group A or group B water system, as those terms are defined in RCW 70.119A.020, that holds a permitted or certified right to withdraw public groundwater is unable to serve proposed new development within or adjacent to the approved service area of the water system because it does not have adequate water rights or a sufficient number of connections, and the proposed new development would then seek to obtain water supply under the groundwater permit exemption in RCW 90.44.050, the water system may consolidate with its water right an additional quantity of water authorized to be withdrawn under the permit exemption in RCW 90.44.050 and necessary to serve the proposed new development subject to the following requirements:

(a) The water system shall publish public notice of the intent to consolidate an exempt withdrawal in a newspaper of general circulation in the county or counties in which the water system and the proposed new development are located once a week for two consecutive weeks. The notice must include contact information for the water system so that owners of existing exempt wells may contact the water system if interested in well consolidation. The notice shall provide for a thirty-day comment period;

(b) The water system shall provide evidence of publication of the notice to the department, the department of health, and the local government with land use authority over the proposed new development;

(c) The local government with land use authority over the proposed new development shall ensure that the proposed consolidation is consistent with an adopted coordinated water system plan under chapter 70.116 RCW, an adopted comprehensive land use plan under chapter 36.70A RCW, or other comprehensive watershed management plan applicable to the area containing an objective of decreasing the number of existing and newly developed small groundwater withdrawal wells;

(d) The water system must make any necessary amendments to its water system plan and receive approval from the department of health to authorize the addition of new connections, new uses, or revise or modify the retail service area boundary;

(e) Legally enforceable agreements have been entered to prohibit the construction of an exempt well to serve the area of the proposed new development, and such agreements are binding upon subsequent owners of the land through appropriate binding limitations on the title to the land; and

(f) Compliance with the state environmental policy act, chapter 43.21C RCW.

(4)(a) The department shall give priority to reviewing and deciding upon applications subject to subsection (3) of this section, and shall make its decision within sixty days of the date on which the requirements in subsection (3) of this section have been completed. The department may extend the sixty-day time period by forty-five days for good cause or for any period of time at the request of the applicant.

(b) The department shall consult with the department of health and the local government with land use authority over the proposed new development to ensure compliance with subsection (3) of this section prior to deciding upon applications.

(c) Prior to deciding upon applications, the department shall: (i) Review public comments; (ii) determine whether water is legally available for purposes of the consolidation; (iii) determine whether the proposed consolidation would violate any water resource management rules; and (iv) determine whether the proposed consolidation would impair existing rights, including instream flows.

(5) In no case may the quantity of water consolidated with the water system’s water rights under subsection (3) of this section exceed five thousand gallons per day or the number of new connections exceed fourteen, and the quantity of water withdrawn must also comply with rules adopted by the department and ordinances adopted by the local government with land use authority over the proposed new development.

(6) The water system must separately meter both existing connections and new connections to be added under subsection (3) of this section.

(7) Any letter, certificate, or other statement that water is available to serve the proposed new development utilizing the procedure in subsection (3) of this section to satisfy the water availability requirement of RCW 19.27.097 or 58.17.110 must be provided to the department, the department of health, and the local government with land use authority upon issuance by the water system.

(8) A water system may exercise the authority in subsection (3) of this section on multiple occasions, but only until a total of fourteen residential connections or five thousand gallons per day of water has been consolidated with the water rights of the water system.

(9) After beneficial use has occurred, the water system shall submit a proof of appropriation demonstrating the actual quantity of water beneficially used in order to obtain a consolidation amendment from the department.

(10) Any determination by the department under this section is appealable to the pollution control hearings board under chapter 43.21B RCW.

February 23, 2010

SSB 6521 Prime Sponsor, Committee on Agriculture & Rural Economic Development: Requiring state agencies to use an agriculture impact statement. Reported by Committee on Agriculture & Natural Resources

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 78. (1) The legislature finds that loss of productive farmland is a critical issue of statewide importance that puts at risk the long-term viability of agriculture in the state. To address the issues relating to loss of farmland the legislature, in 2007, created the office of farmland preservation as a program within the state conservation commission. One of the tasks of the office is to provide the legislature and governor with an analysis of the factors contributing to the loss of farmland in the state.

(2) State agencies acquire various interests in real property that range from easements and leases to purchases in fee simple. Sometimes agencies will acquire an interest in real property that is currently used as working agricultural land for the production of food and fiber, or has the potential for such production. In these acquisitions, the agency plans for the real property may or may not include the continued use of the land for agricultural production. When the agency does not continue agricultural production, these lands may be put to other uses that will permanently remove productive agricultural lands from future use. Given the continuing loss of productive agricultural lands, the legislature intends to gather information to determine the scope and extent to which state agency acquisition of real property contributes to this ongoing loss of productive agricultural lands.
(3) The legislature finds that agricultural lands are also acquired and in some cases converted to other uses by activities that are not undertaken by state agencies. It is the intent of the legislature to gather information on the scope and extent of the impact of these private activities on agricultural lands.

(4) State agencies adopt rules, guidance, and policies that may impact productive agricultural lands. It is the intent of the legislature to examine whether additional information is needed to determine the scope and extent to which agricultural lands may be impacted by these activities.

NEW SECTION. Sec. 79. A new section is added to chapter 89.08 RCW to read as follows:

(1) The commission shall develop a form and process for an agriculture impact statement to be completed by any state agency before the acquisition of an interest in real property when the interest includes agricultural land as defined in this section. The acquisition of a water right separate from real property shall not be considered an interest in real property for the purposes of this section and is not subject to completion of an agriculture impact statement form.

(2) When developing the agriculture impact statement form and process, the commission shall consult with affected agencies before final adoption. The commission may exempt smaller scale acquisitions and activities from the requirements of this section. The commission shall work with affected agencies to identify sources of information that minimize costs to agencies but will still provide the necessary information.

(3) The commission shall report to the governor and legislature no later than December 1st of each calendar year, which at a minimum should provide information on the status of the agriculture impact statement program, the results of the information submitted to the commission over the previous year, and other factors the commission deems appropriate to report that fulfill the purposes of this section and section 3 of this act. The commission may also make recommendations to the governor and legislature on issues raised through the evaluation of the agriculture impact statement forms.

(4) An agriculture impact statement completed by an agency pursuant to this chapter may not be used as the basis for appeal of an agency action or to otherwise delay or stop the proposed agency activity described in the agriculture impact statement.

(5) The definitions in this subsection apply throughout this section.

(a) "Agriculture impact statement" means the document developed by the state conservation commission and used by agencies consistent with this section, and is separate and distinct from the detailed environmental review documents required under chapter 43.21C RCW and WAC 197-11-400.

(b) "Agricultural land" includes land that is (i) currently used for agricultural production, (ii) zoned agricultural land of long-term commercial significance, or (iii) otherwise zoned as agricultural land by a local jurisdiction. "Agricultural land" does not include timberland as defined in RCW 84.40.032.

(c) "Interest in real property" includes an easement, lease, any interest in fee simple or less than fee simple, a restrictive covenant, or a deferred purchase mechanism.

NEW SECTION. Sec. 80. A new section is added to chapter 43.17 RCW to read as follows:

(1) Except as otherwise provided in this section, all state agencies including all state departments, boards, councils, commissions, and state universities, colleges, and community colleges shall complete an agriculture impact statement in the form and process described and adopted by the Washington state conservation commission pursuant to chapter 89.08 RCW before acquisition of an interest in real property when the interest includes agricultural land.

(2) The terms used in this section have the same meaning as defined in section 2 of this act. Agricultural land does not include timberland as defined in RCW 84.40.032.

(3) This section does not apply to the following:

(a) Any interest in a water right; and

(b) Any acquisition by the department of transportation of a right-of-way to be used only for physical construction purposes.

NEW SECTION. Sec. 81. (1) In the first report to the legislature and governor under section 2 of this act, the state conservation commission shall address the information obtained through the agriculture impact statement process and other research by the commission. The first report must contain state conservation commission recommendations on:

(a) The potential applicability of the agriculture impact statement to agency rule-making actions;

(b) The potential applicability to acquisition and land use activities by federal and local governments;

(c) Whether the agriculture impact statement should be applied to the state acquisition of an interest in a water right; and

(d) Whether existing processes adequately provide for the evaluation of impacts to agricultural lands from other project activities.

Strike everything after the enacting clause and insert the following:

"NEW SECTION.  Sec. 82.  It is the legislature's intent to eventually automatically seal juvenile offender records at age eighteen provided the offender meets certain requirements. The legislature recognizes that because of information technology differences in the computer systems used by the various agencies that would be involved in automatically sealing juvenile offender records, this goal cannot be currently accomplished without a significant fiscal impact. Nevertheless, the legislature intends that the agencies involved begin to work together to achieve the goal of automatically sealing juvenile offender records within the near future.

Sec. 83.  RCW 13.04.240 and 1961 c 302 s 16 are each amended to read as follows:

An order of court adjudging a child ((delinquent)) a juvenile offender or dependent under the provisions of this chapter shall in no case be deemed a conviction of crime.

Sec. 84.  RCW 13.50.050 and 2008 c 221 s 1 are each amended to read as follows:

(1) This section governs records relating to the commission of juvenile offenses, including records relating to diversions.

(2) The official juvenile court file of any alleged or proven juvenile offender shall be open to public inspection, unless sealed pursuant to subsection (12) of this section.

(3) All records other than the official juvenile court file are confidential and may be released only as provided in this section, RCW 13.50.010, 13.40.215, and 4.24.550.

(4) Except as otherwise provided in this section and RCW 13.50.010, records retained or produced by any juvenile justice or care agency may be released to other participants in the juvenile justice or care system only when an investigation or case involving the juvenile in question is being pursued by the other participant or when that other participant is assigned the responsibility for supervising the juvenile.

(5) Except as provided in RCW 4.24.550, information not in an official juvenile court file concerning a juvenile or a juvenile's family may be released to the public only when that information could not reasonably be expected to identify the juvenile or the juvenile's family.

(6) Notwithstanding any other provision of this chapter, the release, to the juvenile or his or her attorney, of law enforcement and prosecuting attorneys' records pertaining to investigation, diversion, and prosecution of juvenile offenses shall be governed by the rules of discovery and other rules of law applicable in adult criminal investigations and prosecutions.

(7) Upon the decision to arrest or the arrest, law enforcement and prosecuting attorneys may cooperate with schools in releasing information to a school pertaining to the investigation, diversion, and prosecution of a juvenile attending the school. Upon the decision to arrest or the arrest, incident reports may be released unless releasing the records would jeopardize the investigation or prosecution or endanger witnesses. If release of incident reports would jeopardize the investigation or prosecution or endanger witnesses, law enforcement and prosecuting attorneys may release information to the maximum extent possible to assist schools in protecting other students, staff, and school property.

(8) The juvenile court and the prosecutor may set up and maintain a central record-keeping system which may receive information on all alleged juvenile offenders against whom a complaint has been filed pursuant to RCW 13.40.070 whether or not their cases are currently pending before the court. The central record-keeping system may be computerized. If a complaint has been referred to a diversion unit, the diversion unit shall promptly report to the juvenile court or the prosecuting attorney when the juvenile has agreed to diversion. An offense shall not be reported as criminal history in any central record-keeping system without notification by the diversion unit of the date on which the offender agreed to diversion.

(9) Upon request of the victim of a crime or the victim's immediate family, the identity of an alleged or proven juvenile offender alleged or found to have committed a crime against the victim and the identity of the alleged or proven juvenile offender's parent, guardian, or custodian and the circumstance of the alleged or
proven crime shall be released to the victim of the crime or the victim's immediate family.

(10) Subject to the rules of discovery applicable in adult criminal prosecutions, the juvenile offense records of an adult criminal defendant or witness in an adult criminal proceeding shall be released upon request to prosecution and defense counsel after a charge has actually been filed. The juvenile offense records of any adult convicted of a crime and placed under the supervision of the adult corrections system shall be released upon request to the adult corrections system.

(11) In any case in which an information has been filed pursuant to RCW 13.40.100 or a complaint has been filed with the prosecutor and referred for diversion pursuant to RCW 13.40.070, the person the subject of the information or complaint may file a motion with the court to have the court vacate its order and findings, if any, and, subject to subsection (23) of this section, order the sealing of the official juvenile court file, the social file, and records of the court and of any other agency in the case.

(12)(a) The court shall not grant any motion to seal records for class A offenses made pursuant to subsection (11) of this section that is filed on or after July 1, 1997, unless ((it finds that));

((a) For class B offenses other than sex offenses, (i) Since the last date of release from confinement, including full-time residential treatment, if any, or entry of disposition, the person has spent five consecutive years in the community without committing any offense or crime that subsequently results in an adjudication or conviction.  For class C offenses other than sex offenses, since the last date of release from confinement, including full-time residential treatment, if any, or entry of disposition, the person has spent two consecutive years in the community without committing any offense or crime that subsequently results in conviction.  For gross misdemeanors and misdemeanors, since the last date of release from confinement, including full-time residential treatment, if any, or entry of disposition, the person has spent two consecutive years in the community without committing any offense or crime that subsequently results in conviction for diversion.);

((ii) No proceeding is pending against the moving party seeking the conviction of a juvenile offense or a criminal offense; and

((iii) No proceeding is pending seeking the formation of a diversion agreement with that person;

((iv) The person has not been convicted of a ((class A or) sex offense; and

((v) Full restitution has been paid.

(b) The court shall not grant any motion to seal records for class B, C, gross misdemeanor and misdemeanor offenses and diversions, other than sex offenses, made under subsection (11) of this section unless:

(i) Since the date of last release from confinement, including full-time residential treatment, if any, entry of disposition, or completion of the diversion agreement, the person has spent two consecutive years in the community without being convicted of any offense or crime;

(ii) No proceeding is pending against the moving party seeking the conviction of a juvenile offense or a criminal offense;

(iii) No proceeding is pending seeking the formation of a diversion agreement with that person; and

(iv) Full restitution has been paid.

(13) The person making a motion pursuant to subsection (11) of this section shall give reasonable notice of the motion to the prosecution and to any person or agency whose files are sought to be sealed.

(14) If the court grants the motion to seal made pursuant to subsection (11) of this section, it shall, subject to subsection (23) of this section, order sealed the official juvenile court file, the social file, and other records relating to the case as are named in the order.

Thereafter, the proceedings in the case shall be treated as if they never occurred, and the subject of the records may reply accordingly to any inquiry about the events, records of which are sealed. Any agency shall reply to any inquiry concerning confidential or sealed records that records are confidential, and no information can be given about the existence or nonexistence of records concerning an individual.

(15) Inspection of the files and records included in the order to seal may thereafter be permitted only by order of the court upon motion made by the person who is the subject of the information or complaint, except as otherwise provided in RCW 13.50.010(8) and subsection (23) of this section.

(16) Any adjudication of a juvenile offense or a crime subsequent to sealing has the effect of nullifying the sealing order. Any charging of an adult felony subsequent to the sealing has the effect of nullifying the sealing order for the purposes of chapter 9.94A RCW. The administrative office of the courts shall ensure that the superior court judicial information system provides prosecutors access to information on the existence of sealed juvenile records.

(17)(a)(i) Subject to subsection (23) of this section, all records maintained by any court or law enforcement agency, including the juvenile court, local law enforcement, the Washington state patrol, and the prosecutor's office, shall be automatically destroyed within ninety days of becoming eligible for destruction. Juvenile records are eligible for destruction when:

(A) The person who is the subject of the information or complaint is at least eighteen years of age;

(B) His or her criminal history consists entirely of one diversion agreement or counsel and release entered on or after June 12, 2008;

(C) Two years have elapsed since completion of the agreement or counsel and release;

(D) No proceeding is pending against the person seeking the conviction of a criminal offense; and

(E) There is no restitution owing in the case.

(ii) No less than quarterly, the administrative office of the courts shall provide a report to the juvenile courts of those individuals whose records may be eligible for destruction. The juvenile court shall verify eligibility and notify the Washington state patrol and the appropriate local law enforcement agency and prosecutor's office of the records to be destroyed. The requirement to destroy records under this subsection is not dependent on a court hearing or the issuance of a court order to destroy records.

(iii) The state and local governments and their officers and employees are not liable for civil damages for the failure to destroy records pursuant to this section.

(b) A person eighteen years of age or older whose criminal history consists entirely of one diversion agreement or counsel and release entered prior to June 12, 2008, may request that the court order the records in his or her case destroyed. The request shall be granted, subject to subsection (23) of this section, if the court finds that two years have elapsed since completion of the agreement or counsel and release.

(c) A person twenty-three years of age or older whose criminal history consists of only referrals for diversion may request that the court order the records in those cases destroyed. The request shall be granted, subject to subsection (23) of this section, if the court finds that all diversion agreements have been successfully completed and no proceeding is pending against the person seeking the conviction of a criminal offense.

(18) If the court grants the motion to destroy records made pursuant to subsection (17)(b) or (c) of this section, it shall, subject to subsection (23) of this section, order the official juvenile court file, the social file, and any other records named in the order to be destroyed.

(19) The person making the motion pursuant to subsection (17)(b) or (c) of this section shall give reasonable notice of the motion
to the prosecuting attorney and to any agency whose records are sought to be destroyed.

(20) Any juvenile to whom the provisions of this section may apply shall be given written notice of his or her rights under this section at the time of his or her disposition hearing or during the diversion process.

(21) Nothing in this section may be construed to prevent a crime victim or a member of the victim's family from divulging the identity of the alleged or proven juvenile offender or his or her family when necessary in a civil proceeding.

(22) Any juvenile justice or care agency may, subject to the limitations in subsection (23) of this section and (a) and (b) of this subsection, develop procedures for the routine destruction of records relating to juvenile offenses and diversions.

(a) Records may be routinely destroyed only when the person the subject of the information or complaint has attained twenty-three years of age or older or pursuant to subsection (17)(a) of this section.

(b) The court may not routinely destroy the official juvenile court file or recordings or transcripts of any proceedings.

(23) No identifying information held by the Washington state patrol in accordance with chapter 43.43 RCW is subject to destruction or sealing under this section. For the purposes of this subsection, identifying information includes photographs, fingerprints, palmprints, soleprints, toeprints and any other data that identifies a person by physical characteristics, name, birthdate or address, but does not include information regarding criminal activity, arrest, charging, diversion, conviction or other information about a person's treatment by the criminal justice system or about the person's behavior.

(24) Information identifying children under age eighteen who are victims of sexual assaults by juvenile offenders is confidential and not subject to release to the public. Identifying information includes the child's name, address, location, photographs, and in cases in which the child victim is a relative of the alleged perpetrator, identification of the relationship between the child and the alleged perpetrator. Information identifying a child victim of sexual assault may be released to law enforcement, prosecutors, judges, defense attorneys, or private or governmental agencies that provide services to the child victim of sexual assault.

ESSB 6582 Prime Sponsor, Committee on Health & Long-Term Care: Concerning nursing assistant credentialing. Reported by Committee on Health Care & Wellness

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"Sec. 8. RCW 18.88A.010 and 1991 c 16 s 1 are each amended to read as follows:

(1) The legislature takes special note of the contributions made by nursing assistants in health care facilities whose tasks are arduous and whose working conditions may be contributing to the high and often critical turnover among the principal cadre of health care workers who provide for the basic needs of patients. The legislature also recognizes the growing shortage of nurses as the proportion of the elderly population grows and as the acuity of patients in hospitals and nursing homes becomes generally more severe.

(2) The legislature finds and declares that:

(a) Occupational nursing assistants should have a formal system of educational and experiential qualifications leading to career mobility and advancement. The establishment of such a system should bring about a more stabilized workforce in health care facilities, as well as provide a valuable resource for recruitment into licensed nursing practice.

(b) The quality of patient care in health care facilities is dependent upon the competence of the
personnel who staff their facilities. To assure the availability of trained personnel in health care facilities the legislature recognizes the need for training programs for nursing assistants.

(\text{\textit{The legislature declares that}}) (c) Certified home care aides and medical assistants are a valuable potential source of nursing assistants who will be needed to meet the care needs of the state's growing aging population. To assure continued opportunity for recruitment into licensed nursing practice and career advancement for certified home care aides and medical assistants, nursing assistant training programs should recognize the relevant training and experience obtained by these credentialed professionals. By taking advantage of the authority granted under the federal social security act to certify nursing assistants through a state-approved competency evaluation program as a federally recognized alternative to the state-approved training and competency evaluation program, the legislature intends to increase the potential for recruitment into licensed nursing practice while maintaining a single standard for competency evaluation of certified nursing assistants.

(d) The registration of nursing assistants and providing for voluntary certification of those who wish to seek higher levels of qualification is in the interest of the public health, safety, and welfare.

PRIME Sponsors, Committee on Early Learning and K-12 Education: Providing flexibility in the education system. Reported by Committee on Education

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"Sec. 25. RCW 28A.655.061 and 2009 c 524 s 5 are each amended to read as follows:

(1) The high school assessment system shall include but need not be limited to the Washington assessment of student learning, opportunities for a student to retake the content areas of the assessment in which the student was not successful, and if approved by the legislature pursuant to subsection (10) of this section, one or more objective alternative assessments for a student to demonstrate achievement of state academic standards. The objective alternative assessments for each content area shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning for each content area.

(2) Subject to the conditions in this section, a certificate of academic achievement shall be obtained by most students at about the age of sixteen, and is evidence that the students have successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045 or 28A.655.0611, acquisition of the certificate is required for graduation from a public high school but is not the only requirement for graduation.

(3) Beginning with the graduating class of 2008, with the exception of students satisfying the provisions of RCW 28A.155.045, a student who meets the state standards on the reading, writing, and mathematics content areas of the high school Washington assessment of student learning shall earn a certificate of academic achievement. If a student does not successfully meet the state standards in one or more content areas required for the certificate of academic achievement, then the student may retake the assessment in the content area up to four times at no cost to the student. If the student successfully meets the state standards on a retake of the assessment then the student shall earn a certificate of academic achievement. Once objective alternative assessments are authorized pursuant to subsection (10) of this section, a student may use the objective alternative assessments to demonstrate that the student successfully meets the state standards for that content area if the student has taken the Washington assessment of student learning at least once. If the student successfully meets the state standards on the objective alternative assessments then the student shall earn a certificate of academic achievement.

(4) Beginning no later than with the graduating class of 2013, a student must meet the state standards in science in addition to the other content areas required under subsection (3) of this section on the Washington assessment of student learning or the objective alternative assessments in order to earn a certificate of academic achievement. The state board of education may adopt a rule that implements the requirements of this subsection (4) beginning with a graduating class before the graduating class of 2013, if the state board of education adopts the rule by September 1st of the freshman school year of the graduating class to which the requirements of this subsection (4) apply. The state board of education’s authority under this subsection (4) does not alter the requirement that any change in performance standards for the tenth grade assessment must comply with RCW 28A.305.130.

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

(6) A student may retain and use the highest result from each successfully completed content area of the high school assessment.

(7) School districts must make available to students the following options:
(a) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a public school; or
(b) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a high school completion program at a community or technical college. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.

(8) Students who achieve the standard in a content area of the high school assessment but who wish to improve their results shall pay for retaking the assessment, using a uniform cost determined by the superintendent of public instruction.

(9) Opportunities to retake the assessment at least twice a year shall be available to each school district.

(10)(a) The office of the superintendent of public instruction shall develop options for implementing objective alternative assessments, which may include an appeals process for students’ scores, for students to demonstrate achievement of the state academic standards. The objective alternative assessments shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning and be objective in its determination of student achievement of the state standards. Before any objective alternative assessments in addition to those authorized in RCW 28A.655.065 or (b) of this subsection are used by a student to demonstrate that the student has met the state standards in a content area required to obtain a certificate, the legislature shall formally approve the use of any objective alternative assessments through the omnibus appropriations act or by statute or concurrent resolution.

(b)(i) A student's score on the mathematics, reading or English, or writing portion of the SAT or the ACT may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the state standards for the certificate of academic achievement. The state board of education shall identify the scores students must achieve on the relevant portion of the SAT or ACT to meet or exceed the state standard in the relevant content area on the Washington assessment of student learning. The state board of education shall identify the first scores by December 1, 2007. After the first scores are established, the state board may increase but not decrease the scores required for students to meet or exceed the state standards.

(ii) Until August 31, 2008, a student's score on the mathematics portion of the PSAT may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the state standard for the certificate of academic achievement. The state board of education shall identify the score students must achieve on the mathematics portion of the PSAT to meet or exceed the state standard in that content area on the Washington assessment of student learning. The state board shall identify the first scores by December 1, 2007. After the first scores are established, the state board may increase but not decrease the scores required for students to meet or exceed the state standards.

(iii) A student who scores at least three on the graduating scale of one to five for selected AP examinations may use the score as an objective alternative assessment under this section for demonstrating that a student has met or exceeded state standards for the certificate of academic achievement. A score of three on the AP examinations in calculus or statistics may be used as an alternative assessment for the mathematics portion of the Washington assessment of student learning. A score of three on the AP examinations in English language and composition may be used as an alternative assessment for the writing portion of the Washington assessment of student learning. A score of three on the AP examinations in English literature and composition, macroeconomics, microeconomics, psychology, United States history, world history, United States government and politics, or comparative government and politics may be used as an alternative assessment for the reading portion of the Washington assessment of student learning.

(11) By December 15, 2004, the house of representatives and senate education committees shall obtain information and conclusions from recognized, independent, national assessment experts regarding the validity and reliability of the high school Washington assessment of student learning for making individual student high school graduation determinations.

(((12) To help assure continued progress in academic achievement as a foundation for high school graduation and to assure that students are on track for high school graduation, each school district shall prepare plans for and notify students and their parents or legal guardians as provided in this subsection (12).

(a) Student learning plans are required for eighth through twelfth grade students who were not successful on any or all of the content areas of the Washington assessment for student learning during the previous school year or who may not be on track to graduate due to credit deficiencies or absences. The parent or legal guardian shall be notified about the information in the student learning plan, preferably through a parent conference and at least annually. To the extent feasible, schools serving English language learner students and their parents shall translate the plan into the primary language of the family. The plan shall include the following information as applicable:

(i) The student's results on the Washington assessment of student learning:

(ii) If the student is in the transitional bilingual program, the score on his or her Washington language proficiency test II;

(iii) Any credit deficiencies;

(iv) The student's attendance rates over the previous two years;

(v) The student's progress toward meeting state and local graduation requirements;

(vi) The courses, competencies, and other steps needed to be taken by the student to meet state academic standards and stay on track for graduation;

(vii) Remediation strategies and alternative education options available to students, including informing students of the option to receive instructional services after grade twelve or until the age of twenty-one;

(viii) The alternative assessment options available to students under this section and RCW 28A.655.065;

(ix) School district programs, high school courses, and career and technical education options available for students to meet graduation requirements; and

(x) Available programs offered through skill centers or community and technical colleges, including the college high school graduation requirements under RCW 28B.50.535.

(b) All fifth grade students who were not successful in one or more of the content areas of the fourth grade Washington assessment of student learning shall have a student learning plan.

(i) The parent or guardian of the student shall be notified, preferably through a parent conference, of the student's results on the Washington assessment of student learning. The school intends to take to improve the student's skills in any content area in which the student was unsuccessful, and provide strategies to help them improve their students' skills.

(ii) Progress made on the student plan shall be reported to the student's parents or guardian at least annually and adjustments to the plan made as necessary."

MAJORITY recommendation: Do pass as amended.

"PART I
ACCOUNTABILITY FRAMEWORK

NEW SECTION. Sec. 101. The legislature finds that it is the state's responsibility to create a coherent and effective accountability framework for the continuous improvement for all schools and districts. This system must provide an excellent and equitable education for all students; an aligned federal/state accountability system; and the tools necessary for schools and districts to be accountable. These tools include the necessary accounting and data reporting systems, assessment systems to monitor student achievement, and a system of general support, targeted assistance, and if necessary, intervention.

The office of the superintendent of public instruction is responsible for developing and implementing the accountability tools to build district capacity and working within federal and state guidelines. The legislature assigned the state board of education responsibility and oversight for creating an accountability framework. This framework provides a unified system of support for challenged schools that aligns with basic education, increases the level of support based upon the magnitude of need, and uses data for decisions. Such a system will identify schools and their districts for recognition as well as for additional state support. For a specific group of challenged schools, defined as persistently lowest-achieving schools, and their districts, it is necessary to provide a required action process that creates a partnership between the state and local district to target funds and assistance to turn around the identified lowest-achieving schools.

Phase I of this accountability system will recognize schools that have done an exemplary job of raising student achievement and closing the achievement gaps using the state board of education's accountability index. The state board of education shall have ongoing collaboration with the achievement gap oversight and accountability committee regarding the measures used to measure the closing of the achievement gaps and the recognition provided to the school district for closing the achievement gaps. Phase I will also target the lowest five percent of persistently lowest-achieving schools defined under federal guidelines to provide federal funds and federal intervention models through a voluntary option in 2010, and for those who do not volunteer and have not improved student achievement, a required action process beginning in 2011.

Phase II of this accountability system will work toward implementing the state board of education's accountability index for identification of schools in need of improvement, including those that are not Title I schools, and the use of state and local intervention models and state funds through a required action process beginning in 2013, in addition to the federal program. Federal approval of the state board of education's accountability index must be obtained or else the federal guidelines for persistently lowest-achieving schools will continue to be used.

The expectation from implementation of this accountability system is the improvement of student achievement for all students to prepare them for postsecondary education, work, and global citizenship in the twenty-first century.

NEW SECTION. Sec. 102. (1) Beginning in 2010, and each year thereafter, by December 1st, the superintendent of public instruction shall annually identify schools as one of the state's persistently lowest-achieving schools if the school is a Title I school, or a school that is eligible for but does not receive Title I funds, that is among the lowest-achieving five percent of Title I or Title I eligible schools in the state.
(2) The criteria for determining whether a school is among the persistently lowest-achieving five percent of Title I schools, or Title I eligible schools, under subsection (1) of this section shall be established by the superintendent of public instruction. The criteria must meet all applicable requirements for the receipt of a federal school improvement grant under the American recovery and reinvestment act of 2009 and Title I of the elementary and secondary education act of 1965, and take into account both:
(a) The academic achievement of the "all students" group in a school in terms of proficiency on the state's assessment, and any alternative assessments, in reading and mathematics combined; and
(b) The school's lack of progress on the mathematics and reading assessments over a number of years in the "all students" group.

NEW SECTION. Sec. 103. (1) Beginning in January 2011, the superintendent of public instruction shall annually recommend to the state board of education school districts for designation as required
action districts. A district with at least one school identified as a persistently lowest-achieving school shall be designated as a required action district if it meets the criteria developed by the superintendent of public instruction. However, a school district shall not be recommended for designation as a required action district if the district was awarded a federal school improvement grant by the superintendent in 2010 and for three consecutive years following receipt of the grant implemented a federal school intervention model at each school identified for improvement. The state board of education may designate a district that received a school improvement grant in 2010 as a required action district if after three years of voluntarily implementing a plan the district continues to have a school identified as persistently lowest-achieving and meets the criteria for designation established by the superintendent of public instruction.

(2) The superintendent of public instruction shall provide a school district superintendent with written notice of the recommendation for designation as a required action district by certified mail or personal service. A school district superintendent may request reconsideration of the superintendent of public instruction's recommendation. The reconsideration shall be limited to a determination of whether the school district met the criteria for being recommended as a required action district. A request for reconsideration must be in writing and served on the superintendent of public instruction within ten days of service of the notice of the superintendent's recommendation.

(3) The state board of education shall annually designate those districts recommended by the superintendent in subsection (1) of this section as required action districts. A district designated as a required action district shall be required to notify all parents of students attending a school identified as a persistently lowest-achieving school in the district of the state board of education's designation of the district as a required action district and the process for complying with the requirements set forth in sections 104 through 110 of this act.

NEW SECTION. Sec. 104. (1) The superintendent of public instruction shall contract with an external review team to conduct an academic performance audit of the district and each persistently lowest-achieving school in a required action district to identify the potential reasons for the school's low performance and lack of progress. The review team must consist of persons under contract with the superintendent who have expertise in comprehensive school and district reform and may not include staff from the agency, the school district that is the subject of the audit, or members or staff of the state board of education.

(2) The audit must be conducted based on criteria developed by the superintendent of public instruction and must include but not be limited to an examination of the following:

(a) Student demographics;
(b) Mobility patterns;
(c) School feeder patterns;
(d) The performance of different student groups on assessments;
(e) Effective school leadership;
(f) Strategic allocation of resources;
(g) Clear and shared focus on student learning;
(h) High standards and expectations for all students;
(i) High level of collaboration and communication;
(j) Aligned curriculum, instruction, and assessment to state standards;
(k) Frequency of monitoring of learning and teaching;
(l) Focused professional development;
(m) Supportive learning environment;
(n) High level of family and community involvement; and
(o) Alternative secondary schools best practices.

(3) Audit findings must be made available to the local school district, its staff, the community, and the state board of education.

NEW SECTION. Sec. 105. (1) The local district superintendent and local school board of a school district designated as a required action district must submit a required action plan to the state board of education for approval. Unless otherwise required by subsection (3) of this section, the plan must be submitted under a schedule as required by the state board. A required action plan must be developed in collaboration with administrators, teachers, and other staff, parents, unions representing any employees within the district, students, and other representatives of the local community. The superintendent of public instruction shall provide a district with assistance in developing its plan if requested. The school board must conduct a public hearing to allow for comment on a proposed required action plan. The local school district shall submit the plan first to the office of the superintendent of public instruction to review and approve that the plan is consistent with federal guidelines. After the office of the superintendent of public instruction has approved the plan in consistent with federal guidelines, the local school district must submit its required action plan to the state board of education for approval.

(2) A required action plan must include all of the following:

(a) Implementation of one of the four federal intervention models required for the receipt of a federal school improvement grant, for those persistently lowest-achieving schools that the district will be focusing on for required action. However, a district may not establish a charter school under a federal intervention model without express legislative authority. The intervention models are the turnaround, restart, school closure, and transformation models. The intervention model selected must address the concerns raised in the academic performance audit and be intended to improve student performance to allow a school district to be removed from the list of districts designated as a required action district by the state board of education within three years of implementation of the plan;

(b) Submission of an application for a federal school improvement grant to the superintendent of public instruction;

(c) A budget that provides for adequate resources to implement the federal model selected and any other requirements of the plan;

(d) A description of the changes in the district's or school's existing policies, structures, agreements, processes, and practices that are intended to attain significant achievement gains for all students enrolled in the school;

(e) Identification of the measures that the school district will use in assessing student achievement at a school identified as a persistently lowest-achieving school, which include improving mathematics and reading student achievement and graduation rates as defined by the office of the superintendent of public instruction that enable the school to no longer be identified as a persistently lowest-achieving school.

(3)(a) For any district designated for required action, the parties to any collective bargaining agreement negotiated, renewed, or extended under chapter 41.59 or 41.56 RCW after the effective date of this section must reopen the agreement, or negotiate an addendum, if needed, to make changes to terms and conditions of employment that are necessary to implement a required action plan.

(b) If the school district and the employee organizations are unable to agree on the terms of an addendum or modification to an existing collective bargaining agreement, the parties, including all labor organizations affected under the required action plan, shall request the public employment relations commission to, and the commission shall, appoint an employee of the commission to act as a mediator to assist in the resolution of a dispute between the school district and the employee organizations. Beginning in 2011, and each year thereafter, mediation shall commence no later than April 15th. All mediations held under this section shall include the employer and representatives of all affected bargaining units.

(c) If the executive director of the public employment relations commission, upon the recommendation of the assigned mediator, finds that the employer and any affected bargaining unit are unable to reach agreement following a reasonable period of negotiations and mediation, but by no later than May 15th of the year in which
mediation occurred, the executive director shall certify any disputed issues for a decision by the superior court in the county where the school district is located. The issues for determination by the superior court must be limited to the issues certified by the executive director.

(d) The process for filing with the court in this subsection (3)(d) must be used in the case where the executive director certifies issues for a decision by the superior court.

(i) The school district shall file a petition with the superior court, by no later than May 20th of the same year in which the issues were certified, setting forth the following:

(A) The name, address, and telephone number of the school district and its principal representative;
(B) The name, address, and telephone number of the employee organizations and their principal representatives;
(C) A description of the bargaining units involved;
(D) A copy of the unresolved issues certified by the executive director for a final and binding decision by the court; and
(E) The academic performance audit that the office of the superintendent of public instruction completed for the school district.

(ii) Within seven days after the filing of the petition, each party shall file with the court the proposal it is asking the court to order be implemented in a required action plan for the district for each issue certified by the executive director. Contemporaneously with the filing of the proposal, a party must file a brief with the court setting forth the reasons why the court should order implementation of its proposal in the final plan.

(iii) Following receipt of the proposals and briefs of the parties, the court must schedule a date and time for a hearing on the petition. The hearing must be limited to argument of the parties or their counsel regarding the proposals submitted for the court's consideration. The parties may waive a hearing by written agreement.

(iv) The court must enter an order selecting the proposal for inclusion in a required action plan that best responds to the issues raised in the school district's academic performance audit, and allows for the award of a federal school improvement grant to the district from the office of the superintendent of public instruction to implement one of the four federal intervention models. The court's decision must be issued no later than June 15th of the year in which the petition is filed and is final and binding on the parties; however the court's decision is subject to appeal only in the case where it does not allow the school district to implement a required action plan consistent with the requirements for the award of a federal school improvement grant by the superintendent of public instruction.

(e) Each party shall bear its own costs and attorneys' fees incurred under this statute.

(f) Any party that proceeds with the process in this section after knowledge that any provision of this section has not been complied with and who fails to state its objection in writing is deemed to have waived its right to object.

(4) All contracts entered into between a school district and an employee must be consistent with this section and allow school districts designated as required action districts to implement one of the four federal models in a required action plan.

NEW SECTION. Sec. 106. A required action plan developed by a district's school board and superintendent must be submitted to the state board of education for approval. The state board must accept for inclusion in any required action plan the final decision by the superior court on any issue certified by the executive director of the public employment relations commission under the process in section 105 of this act. The state board of education shall approve a plan proposed by a school district only if it meets the requirements set forth in section 105 of this act. Any addendum or modification to an existing collective bargaining agreement, negotiated under section 105 of this act or by agreement of the district and the exclusive bargaining unit, related to student achievement or school improvement shall not go into effect until approval of a required action plan by the state board of education. If the state board does not approve a proposed plan, it must notify the local school board and local district's superintendent in writing with an explicit rationale for why the plan was not approved. Nonapproval by the state board of education of the local school district's initial required action plan submitted is not intended to trigger any actions under section 108 of this act. With the assistance of the office of the superintendent of public instruction, the superintendent and school board of the required action district shall either: (a) Submit a new plan to the state board of education for approval within forty days of notification that its plan was rejected, or (b) submit a request to the required action plan review panel established under section 107 of this act for reconsideration of the state board's rejection within ten days of the notification that the plan was rejected. If federal funds are not available, the plan is not required to be implemented until such funding becomes available. If federal funds for this purpose are available, a required action plan must be implemented in the immediate school year following the district's designation as a required action district.

NEW SECTION. Sec. 107. (1) A required action plan review panel shall be established to offer an objective, external review of a request from a school district for reconsideration of the state board of education's rejection of the district's required action plan. The review and reconsideration by the panel shall be based on whether the state board of education gave appropriate consideration to the unique circumstances and characteristics of the local school district whose required action plan was rejected.

(2)(a) The panel shall be composed of five individuals with expertise in school improvement, school and district restructuring, or parent and community involvement in schools. Two of the panel members shall be appointed by the speaker of the house of representatives; two shall be appointed by the president of the senate; and one shall be appointed by the governor.

(b) The speaker of the house of representatives, president of the senate, and governor shall solicit recommendations for possible panel members from the Washington association of school administrators, the Washington state school directors' association, the association of Washington school principals, the achievement gap oversight and accountability committee, and associations representing certificated teachers, classified school employees, and parents.

(c) Members of the panel shall be appointed no later than December 1, 2010, but the superintendent of public instruction shall convene the panel only as needed to consider a school district's request for reconsideration. Reappointments in the case of a vacancy shall be made expeditiously so that all requests are considered in a timely manner.

(3) The required action plan review panel may reaffirm the decision of the state board of education, recommend that the state board reconsider the rejection, or recommend changes to the required action plan that should be considered by the district and the state board of education to secure approval of the plan. The state board of education shall consider the recommendations of the panel and issue a decision in writing to the local school district and the panel. If the school district must submit a new required action plan to the state board of education, the district must submit the plan within forty days of the board's decision.

(4) The state board of education and superintendent of public instruction must develop timelines and procedures for the deliberations under this section so that school districts can implement a required action plan within the time frame required under section 106 of this act.

NEW SECTION. Sec. 108. The state board of education may direct the superintendent of public instruction to require a school district that has not submitted a final required action plan for approval, or has submitted but not received state board of education approval of a required action plan by the beginning of the school year
in which the plan is intended to be implemented, to redirect the district's Title I funds based on the academic performance audit findings.

NEW SECTION. Sec. 109. A school district must implement a required action plan upon approval by the state board of education. The office of superintendent of public instruction must provide the required action district with technical assistance and federal school improvement grant funds, if available, to implement an approved plan. The district must submit a report to the superintendent of public instruction that provides the progress the district is making in meeting the student achievement goals based on the state's assessments, identifying strategies and assets used to solve audit findings, and establishing evidence of meeting plan implementation benchmarks as set forth in the required action plan.

NEW SECTION. Sec. 110. (1) The superintendent of public instruction must provide a report twice per year to the state board of education regarding the progress made by all school districts designated as required action districts.

(2) The superintendent of public instruction must recommend to the state board of education that a school district be released from the designation as a required action district after the district implements a required action plan for a period of three years; has made progress, as defined by the superintendent of public instruction, in reading and mathematics on the state's assessment over the past three consecutive years; and no longer has a school within the district identified as persistently lowest achieving. The state board shall release a school district from the designation as a required action district upon confirmation that the district has met the requirements for a release.

(3) If the state board of education determines that the required action district has not met the requirements for release, the district remains in required action and must submit a new or revised plan under the process in section 105 of this act.

Sec. 111. RCW 28A.305.225 and 2009 c 548 s 503 are each amended to read as follows:

(1) The state board of education shall continue to refine the development of an accountability framework that creates a unified system of support for challenged schools, that aligns with basic education, increases the level of support based upon the magnitude of need, and uses data for decisions.

(2) The state board of education shall develop an accountability index to identify schools and districts for recognition for continuous improvement, and for additional state support. The index shall be based on criteria that are fair, consistent, and transparent. Performance shall be measured using multiple outcomes and indicators including, but not limited to, graduation rates and results from statewide assessments. The index shall be developed in such a way as to be easily understood by both employees within the schools and districts, as well as parents and community members. It is the legislature's intent that the index provide feedback to schools and districts to self-assess their progress, and enable the identification of schools with exemplary student performance and those that need assistance to overcome challenges in order to achieve exemplary student performance.

(3) Based on the accountability index and in consultation with the superintendent of public instruction, the state board of education shall develop a proposal and timeline for implementation of a comprehensive system of voluntary support and assistance for schools and districts. The timeline must take into account and accommodate capacity limitations of the K-12 educational system. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized by the legislature through the omnibus appropriations act or other enacted legislation.

(4) (a) The state board of education shall develop a proposal and implementation timeline for a more formalized comprehensive system improvement targeted to challenged schools and districts that have not demonstrated sufficient improvement through the voluntary system. The timeline must take into account and accommodate capacity limitations of the K-12 educational system. The proposal and timeline shall be submitted to the education committees of the legislature by December 1, 2009, and shall include recommended legislation and recommended resources to implement the system according to the timeline developed.

(b) The proposal shall outline a process for addressing performance challenges that will include the following features: (i) An academic performance audit using peer review teams of educators that considers school and community factors in addition to other factors in developing recommended specific corrective actions that should be undertaken to improve student learning; (ii) a requirement for the local school board plan to develop and be responsible for implementation of corrective action plan taking into account the audit findings, which plan must be approved by the state board of education at which time the plan becomes binding upon the school district to implement; and (iii) monitoring of local district progress by the office of the superintendent of public instruction. The proposal shall take effect only if formally authorized by the legislature through the omnibus appropriations act or other enacted legislation.

(5) Sec. 112. RCW 28A.305.225 and 2009 c 548 s 503 are each amended to read as follows:

(1) "All students group" means those students in grades three through eight and high school who take the state's assessment in reading and mathematics required under 20 U.S.C. Sec. 6311(b)(3).

(2) "Title I" means Title I, part A of the federal elementary and secondary education act of 1965 (ESEA) (20 U.S.C. Secs. 6311-6322).

NEW SECTION. Sec. 113. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "All students group" means those students in grades three through eight and high school who take the state's assessment in reading and mathematics required under 20 U.S.C. Sec. 6311(b)(3).

(2) "Title I" means Title I, part A of the federal elementary and secondary education act of 1965 (ESEA) (20 U.S.C. Secs. 6311-6322).
to success for all students. Such a system must also clearly address the consequences for persistent lack of improvement. Establishing a process for school districts to prepare and implement a required action plan is one such consequence. However, to be truly accountable to students, parents, the community, and taxpayers, the legislature must also consider what should happen if a required action district continues not to make improvement after an extended period of time. Without an answer to this significant question, the state's system of education accountability is incomplete. Furthermore, accountability must be appropriately shared among various levels of decision makers, including in the building, in the district, and at the state.

(2)(a) A joint select committee on education accountability is established with the following members:

(i) The president of the senate shall appoint two members from each of the two largest caucuses of the senate.

(ii) The speaker of the house of representatives shall appoint two members from each of the two largest caucuses of the house of representatives.

(b) The committee shall choose its cochairs from among its membership.

(3) The committee shall:

(a) Identify and analyze options for a complete system of education accountability, particularly consequences in the case of persistent lack of improvement by a required action district;

(b) Identify and analyze appropriate decision-making responsibilities and accompanying consequences at the building, district, and state level within such an accountability system;

(c) Examine models and experiences in other states;

(d) Identify the circumstances under which significant state action may be required; and

(e) Analyze the financial, legal, and practical considerations that would accompany significant state action.

(4) Staff support for the committee must be provided by the senate committee services and the house of representatives office of program research.

(5) The committee shall submit an interim report to the education committees of the legislature by September 1, 2011, and a final report with recommendations by September 1, 2012.

(6) This section expires June 30, 2013.

PART II
EVALUATIONS

Sec. 201. RCW 28A.150.230 and 2006 c 263 s 201 are each amended to read as follows:

(1) It is the intent and purpose of this section to guarantee that each common school district board of directors, whether or not acting through its respective administrative staff, be held accountable for the proper operation of their district to the local community and its electorate. In accordance with the provisions of Title 28A RCW, as now or hereafter amended, each common school district board of directors shall be vested with the final responsibility for the setting of policies ensuring quality in the content and extent of its educational program and that such program provide students with the opportunity to achieve those skills which are generally recognized as requisite to learning.

(2) In conformance with the provisions of Title 28A RCW, as now or hereafter amended, it shall be the responsibility of each common school district board of directors to adopt policies to:

(a) Establish performance criteria and an evaluation process for its superintendent, classified staff, certificated personnel, including administrative staff, and for all programs constituting a part of such district's curriculum. Each district shall report annually to the superintendent of public instruction the following for each employee group listed in this subsection (2)(a): (i) Evaluation criteria and rubrics; (ii) a description of each rating; and (iii) the number of staff in each rating;

(b) Determine the final assignment of staff, certificated or classified, according to board enumerated classroom and program needs and data, based upon a plan to ensure that the assignment policy: (i) Supports the learning needs of all the students in the district; and (ii) gives specific attention to high-need schools and classrooms;

(c) Provide information to the local community and its electorate describing the school district's policies concerning hiring, assigning, terminating, and evaluating staff, including the criteria for evaluating teachers and principals;

(d) Determine the amount of instructional hours necessary for any student to acquire a quality education in such district, in not less than an amount otherwise required in RCW 28A.150.220, or rules of the state board of education;

(i) (e) Determine the allocation of staff time, whether certificated or classified;

((ii)) (f) Establish final curriculum standards consistent with law and rules of the superintendent of public instruction, relevant to the particular needs of district students or the unusual characteristics of the district, and ensuring a quality education for each student in the district; and

((iii)) (g) Evaluate teaching materials, including text books, teaching aids, handouts, or other printed material, in public hearing upon complaint by parents, guardians or custodians of students who consider dissemination of such material to students objectionable.

Sec. 202. RCW 28A.405.100 and 1997 c 278 s 1 are each amended to read as follows:

(1)(a) Except as provided in subsection (2) of this section, the superintendent of public instruction shall establish and may amend from time to time minimum criteria for the evaluation of the professional performance capabilities and development of certificated classroom teachers and certificated support personnel. For classroom teachers the criteria shall be developed in the following categories: Instructional skill; classroom management, professional preparation and scholarship; effort toward improvement when needed; the handling of student discipline and attendant problems; and interest in teaching pupils and knowledge of subject matter.

(b) Every board of directors shall, in accordance with procedure provided in RCW 41.59.010 through 41.59.170, 41.59.910 and 41.59.920, establish evaluative criteria and procedures for all certificated classroom teachers and certificated support personnel. The evaluative criteria must contain as a minimum the criteria established by the superintendent of public instruction pursuant to this section and must be prepared within six months following adoption of the superintendent of public instruction’s minimum criteria. The district must certify to the superintendent of public instruction that evaluative criteria have been so prepared by the district.

(2)(a) Pursuant to the implementation schedule established in subsection (7)(b) of this section, every board of directors shall, in accordance with procedures provided in RCW 41.59.010 through 41.59.170, 41.59.910, and 41.59.920, establish revised evaluative criteria and a four-level rating system for all certificated classroom teachers.

(b) The minimum criteria shall include: (i) Centering instruction on high expectations for student achievement; (ii) demonstrating effective teaching practices; (iii) recognizing individual student learning needs and developing strategies to address those needs; (iv) providing clear and intentional focus on subject matter content and curriculum; (v) fostering and managing a safe, positive learning environment; (vi) using multiple student data elements to modify instruction and improve student learning; (vii) communicating and collaborating with parents and school community; and (viii) exhibiting collaborative and collegial practices focused on improving instructional practice and student learning.

(c) The four-level rating system used to evaluate the certificated classroom teacher must describe performance along a continuum that
(3)(a) Except as provided in subsection ((5)(a)) (10) of this section, it shall be the responsibility of a principal or his or her designee to evaluate all certificated personnel in his or her school. During each school year all classroom teachers and certificated support personnel shall be observed for the purposes of evaluation at least twice in the performance of their assigned duties. Total observation time for each employee for each school year shall be not less than sixty minutes. An employee in the third year of provisional status as defined in RCW 28A.405.220 shall be observed at least three times in the performance of his or her duties and the total observation time for the school year shall not be less than ninety minutes. Following each observation, or series of observations, the principal or other evaluator shall promptly document the results of the observation in writing, and shall provide the employee with a copy thereof within three days after such report is prepared. New employees shall be observed at least once for a total observation time of thirty minutes during the first ninety calendar days of their employment period.

(b) As used in this subsection and subsection (4) of this section, "employees" means classroom teachers and certificated support personnel.

(4)(a) At any time after October 15th, an employee whose work is not judged ((unsatisfactory)) satisfactory based on district evaluation criteria shall be notified in writing of the specific areas of deficiencies along with a reasonable program for improvement. During the period of probation, the employee may not be transferred from the supervision of the original evaluator. Improvement of performance or probable cause for nonrenewal must occur and be documented by the original evaluator before any consideration of a request for transfer or reassignment as contemplated by either the individual or the school district. A probationary period of sixty school days shall be established. The establishment of a probationary period does not adversely affect the contract status of an employee within the meaning of RCW 28A.405.300. The purpose of the probationary period is to give the employee opportunity to demonstrate improvements in his or her areas of deficiency. The establishment of the probationary period and the giving of the notice to the employee of deficiency shall be by the school district superintendent and need not be submitted to the board of directors for approval. During the probationary period the evaluator shall meet with the employee at least twice monthly to supervise and make a written evaluation of the progress, if any, made by the employee. The evaluator may authorize one additional certificated employee to evaluate the probationer and to aid the employee in improving his or her areas of deficiency. Such additional certificated employee shall be immune from any civil liability that might otherwise be incurred or imposed with regard to the good faith performance of such evaluation. The probationer may be removed from probation if he or she has demonstrated improvement to the satisfaction of the principal in those areas specifically detailed in his or her initial notice of deficiency and subsequently detailed in his or her improvement program. Lack of necessary improvement during the established probationary period, as specifically documented in writing with notification to the probationer and shall constitute grounds for a finding of probable cause under RCW 28A.405.300 or 28A.405.210.

(b) Immediately following the completion of a probationary period that does not produce performance changes detailed in the initial notice of deficiencies and improvement program, the employee may be removed from his or her assignment and placed into an alternative assignment for the remainder of the school year. This reassignment may not displace another employee nor may it adversely affect the probationary employee's compensation or benefits for the remainder of the employee's contract year. If such reassignment is not possible, the district may, at its option, place the employee on paid leave for the balance of the contract term.

(4)(b) Every board of directors shall establish evaluative criteria and procedures for all superintendents, principals, and other administrators. It shall be the responsibility of the district superintendent or his or her designee to evaluate all administrators. Except as provided in subsection (6) of this section, such evaluation shall be based on the administrative position job description. Such criteria, when applicable, shall include at least the following categories: Knowledge of, experience in, and training in recognizing good professional performance, capabilities and development; school administration and management; school finance; professional preparation and scholarship; effort toward improvement when needed; interest in pupils, employees, patrons and subjects taught in school; leadership; and ability and performance of evaluation of school personnel.

(4)(c) Pursuant to the implementation schedule established by subsection (7)(b) of this section, every board of directors shall establish revised evaluative criteria and a four-level rating system for principals.

(b) The minimum criteria shall include: (i) Creating a school culture that promotes the ongoing improvement of learning and teaching for students and staff; (ii) demonstrating commitment to closing the achievement gap; (iii) providing for school safety; (iv) leading the development, implementation, and evaluation of a data-driven plan for increasing student achievement, including the use of multiple student data elements; (v) assisting instructional staff with alignment of curriculum, instruction, and assessment with state and local district learning goals; (vi) monitoring, assisting, and evaluating effective instruction and assessment practices; (vii) managing both staff and fiscal resources to support student achievement and legal responsibilities; and (viii) partnering with the school community to promote student learning.

(c) The four-level rating system used to evaluate the principal must describe performance along a continuum that indicates the extent to which the criteria have been met or exceeded. When available, student growth data that is referenced in the evaluation process must be based on multiple measures that can include classroom-based, school-based, district-based, and state-based tools. As used in this subsection, "student growth" means the change in student achievement between two school years.

(7)(a) The superintendent of public instruction, in collaboration with state professional associations representing teachers, principals, and administrators, shall create models for implementing the evaluation system criteria, student growth tools, professional development programs, and evaluator training for certificated classroom teachers and principals. Human resources specialists, professional development experts, and assessment experts must also be consulted. Due to the diversity of teaching assignments and the many developmental levels of students, classroom teachers and principals must be prominently represented in this work. The models must be available for use in the 2012-13 school year.

(b) A new certificated classroom teacher evaluation system that implements the provisions of subsection (2) of this section and a new principal evaluation system that implements the provisions of subsection (6) of this section shall be phased-in beginning with the 2010-11 school year by districts identified in (c) of this subsection and implemented in all school districts beginning with the 2013-14 school year.

(c) A set of school districts shall be selected by the superintendent of public instruction to participate in a collaborative process resulting in the development and piloting of new certificated classroom teacher
and principal evaluation systems during the 2010-11 and 2011-12 school years. These school districts must be selected based on: (i) The agreement of the local associations representing classroom teachers and principals to collaborate with the district in this developmental work and (ii) the agreement to participate in the full range of development and implementation activities, including: Development of rubrics for the evaluation criteria and ratings in subsections (2) and (6) of this section; identification of or development of appropriate multiple measures of student growth in subsections (2) and (6) of this section; development of appropriate evaluation system forms; participation in professional development for principals and classroom teachers regarding the content of the new evaluation system; participation in evaluator training; and participation in activities to evaluate the effectiveness of the new systems and support programs. The school districts must submit to the office of the superintendent of public instruction data that is used in evaluations and all district-collected student achievement, aptitude, and growth data regardless of whether the data is used in evaluations. If the data is not available electronically, the district may submit it in non-electronic form. The superintendent of public instruction must analyze the districts’ use of student data in evaluations, including examining the extent that student data is not used or is underutilized. The superintendent of public instruction shall also consult with participating districts and stakeholders, recommend appropriate changes, and address statewide implementation issues. The superintendent of public instruction shall report evaluation system implementation status, evaluation data, and recommendations to appropriate committees of the legislature and governor by July 1, 2011, and at the conclusion of the development phase by July 1, 2012. In the July 1, 2011 report, the superintendent shall include recommendations for whether a single statewide evaluation model should be adopted, whether modified versions developed by school districts should be subject to state approval, and what the criteria would be for determining if a school district’s evaluation model meets or exceeds a statewide model. The report shall also identify challenges posed by requiring a state approval process.

(8) Each certified classroom teacher and certificated support personnel shall have the opportunity for confidential conferences with his or her immediate supervisor on no less than two occasions in each school year. Such confidential conference shall have as its sole purpose the aiding of the administrator in his or her assessment of the employee's professional performance.

(9) The failure of any evaluator to evaluate or supervise or cause the evaluation or supervision of certificated classroom teachers and certificated support personnel or administrators in accordance with this section, as now or hereafter amended, when it is his or her specific assigned or delegated responsibility to do so, shall be sufficient cause for the nonrenewal of any such evaluator's contract under RCW 28A.405.210, or the discharge of such evaluator under RCW 28A.405.300.

(10) After an certified classroom teacher or certificated support personnel has four years of satisfactory evaluations under subsection (1) of this section or has received one of the two top ratings for four years under subsection (2) of this section, a school district may use a short form of evaluation, a locally bargained evaluation emphasizing professional growth, an evaluation under subsection (1) or (2) of this section, or any combination thereof. The short form of evaluation shall include either a thirty minute observation during the school year with a written summary or a final annual written evaluation based on the criteria in subsection (1) or (2) of this section and based on at least two observation periods during the school year totaling at least sixty minutes without a written summary of such observations being prepared. A locally bargained short-form evaluation emphasizing professional growth must provide that the professional growth activity conducted by the certified classroom teacher be specifically linked to one or more of the certificated classroom teacher evaluation criteria. However, the evaluation process set forth in subsection (1) or (2) of this section shall be followed at least once every three years unless this time is extended by a local school district under the bargaining process set forth in chapter 41.59 RCW. The employee or evaluator may require that the evaluation process set forth in subsection (1) or (2) of this section be conducted in any given school year. No evaluation other than the evaluation authorized under subsection (1) or (2) of this section may be used as a basis for determining that an employee's work is (unsatisfactory) not satisfactory under subsection (1) or (2) of this section or as probable cause for the nonrenewal of an employee's contract under RCW 28A.405.210 unless an evaluation process developed under chapter 41.59 RCW determines otherwise.

Sec. 203. RCW 28A.405.220 and 2009 c 57 s 2 are each amended to read as follows:

(1) Notwithstanding the provisions of RCW 28A.405.210, every person employed by a school district in a teaching or other nonsupervisory certificated position shall be subject to nonrenewal of employment contract pursuant to this section during the first year of employment in another school district in the state of Washington, in which case the employee shall be subject to nonrenewal of employment contract pursuant to this section during the first year of employment with the new district; or (b) the school district superintendent may make a determination to remove an employee from provisional status if the employee has received one of the top two evaluation ratings during the second year of employment by the district. Employees as defined in this section shall hereinafter be referred to as "provisional employees(2)."

(2) In the event the superintendent of the school district determines that the employment contract of any provisional employee should not be renewed by the district for the next ensuing term such provisional employee shall be notified thereof in writing on or before May 15th preceding the commencement of such school term, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 15th, which notification shall state the reason or reasons for such determination. Notice shall be served upon the provisional employee personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein. The determination of the superintendent shall be subject to the evaluation requirements of RCW 28A.405.100.

(3) Every such provisional employee so notified, at his or her request made in writing and filed with the superintendent of the district within ten days after receiving such notice, shall be given the opportunity to meet informally with the superintendent for the purpose of requesting the superintendent to reconsider his or her decision. Such meeting shall be held no later than ten days following the receipt of such request, and the provisional employee shall be given written notice of the date, time and place of meeting at least three days prior thereto. At such meeting the provisional employee shall be given the opportunity to refute any facts upon which the superintendent's determination was based and to make any argument in support of his or her request for reconsideration.

(4) Within ten days following the meeting with the provisional employee, the superintendent shall either reinstate the provisional employee or shall submit to the school district board of directors for consideration at its next regular meeting a written report recommending that the employment contract of the provisional employee be nonrenewed and stating the reason or reasons therefor. A copy of such report shall be delivered to the provisional employee at least three days prior to the scheduled meeting of the board of directors. In taking action upon the recommendation of the
superintendent, the board of directors shall consider any written communication which the provisional employee may file with the secretary of the board at any time prior to that meeting.

(5) The board of directors shall notify the provisional employee in writing of its final decision within ten days following the meeting at which the superintendent's recommendation was considered. The decision of the board of directors to nonrenew the contract of a provisional employee shall be final and not subject to appeal.

(6) This section applies to any person employed by a school district in a teaching or other nonsupervisory certificated position after June 25, 1976. This section provides the exclusive means for nonrenewing the employment contract of a provisional employee and no other provision of law shall be applicable thereto, including, without limitation, RCW 28A.405.210 and chapter 28A.645 RCW.

NEW SECTION. Sec. 204. A new section is added to chapter 28A.405 RCW to read as follows:

(1) Representatives of the office of the superintendent of public instruction and statewide associations representing administrators, principals, human resources specialists, and certificated classroom teachers shall analyze how the evaluation systems in RCW 28A.405.100 (2) and (6) affect issues related to a change in contract status.

(2) The analysis shall be conducted during each of the phase-in years of the certificated classroom teacher and principal evaluation systems. The analysis shall include: Procedures, timelines, probationary periods, appeal procedures, and other items related to the timely exercise of employment decisions and due process provisions for certificated classroom teachers and principals.

NEW SECTION. Sec. 205. A new section is added to chapter 28A.405 RCW to read as follows:

If funds are provided for professional development activities designed specifically for first through third-year teachers, the funds shall be allocated first to districts participating in the evaluation systems in RCW 28A.405.100 (2) and (6) before the required implementation date under that section.

PART III

PRINCIPAL PERFORMANCE

NEW SECTION. Sec. 301. The legislature finds that the presence of highly effective principals in schools has never been more important than it is today. To enable students to meet high academic standards, principals must lead and encourage teams of teachers and support staff to work together, align curriculum and instruction, use student data to target instruction and intervention strategies, and serve as the chief school officer with parents and the community. Greater responsibility should come with greater authority over personnel, budgets, resource allocation, and programs. But greater responsibility also comes with greater accountability for outcomes. Washington is putting into place an updated and rigorous system of evaluating principal performance, one that will measure what matters. This system will never be truly effective unless the results are meaningfully used.

NEW SECTION. Sec. 302. A new section is added to chapter 28A.405 RCW to read as follows:

(1) Any certificated employee of a school district under this section who is first employed as a principal after the effective date of this section shall be subject to transfer as provided under this section, at the expiration of the term of his or her employment contract, to any subordinate certificated position within the school district. "Subordinate certificated position" as used in this section means any administrative or nonadministrative certificated position for which the annual compensation is less than the position currently held by the administrator. This section applies only to school districts with an annual average student enrollment of more than thirty-five thousand full-time equivalent students.

(2) During the first three consecutive school years of employment as a principal by the school district, or during the first full school year of such employment in the case of a principal who has been previously employed as a principal by another school district in the state for three or more consecutive school years, the transfer of the principal to a subordinate certificated position may be made by a determination of the superintendent that the best interests of the school district would be served by the transfer.

(3) Commencing with the fourth consecutive school year of employment as a principal, or the second consecutive school year of such employment in the case of a principal who has been previously employed as a principal by another school district in the state for three or more consecutive school years, the transfer of the principal to a subordinate certificated position shall be based on the superintendent's determination that the results of the evaluation of the principal's performance using the evaluative criteria and rating system established under RCW 28A.405.100 provide a valid reason for the transfer without regard to whether there is probable cause for the transfer. If a valid reason is shown, it shall be deemed that the transfer is reasonably related to the principal's performance. No probationary period is required. However, provision of support and an attempt at remediation of the performance of the principal, as defined by the superintendent, are required for a determination by the superintendent under this subsection that the principal should be transferred to a subordinate certificated position.

(4) Any superintendent transferring a principal under this section to a subordinate certificated position shall notify that principal in writing or before May 15th before the beginning of the school year of that determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 15th. The notification shall state the reason or reasons for the transfer and shall identify the subordinate certificated position to which the principal will be transferred. The notification shall be served upon the principal personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein.

(5) Any principal so notified may request to the president or chair of the board of directors of the district, in writing and within ten days after receiving notice, an opportunity to meet informally with the board of directors in an executive session for the purpose of requesting the board to reconsider the decision of the superintendent, and shall be given such opportunity. The board, upon receipt of such request, shall schedule the meeting for no later than the next regularly scheduled meeting of the board, and shall give the principal written notice at least three days before the meeting of the date, time, and place of the meeting. At the meeting the principal shall be given the opportunity to refute any evidence upon which the determination was based and to make any argument in support of his or her request for reconsideration. The principal and the board may invite their respective legal counsel to be present and to participate at the meeting. The board shall notify the principal in writing of its final decision within ten days following its meeting with the principal. No appeal to the courts shall lie from the final decision of the board of directors to transfer a principal to a subordinate certificated position.

(6) This section provides the exclusive means for transferring a certificated employee first employed by a school district under this section as a principal after the effective date of this section to a subordinate certificated position at the expiration of the term of his or her employment contract.

Sec. 303. RCW 28A.405.210 and 2009 c 57 s 1 are each amended to read as follows:

No teacher, principal, supervisor, superintendent, or other certificated employee, holding a position as such with a school district, hereinafter referred to as "employee", shall be employed except by written order of a majority of the directors of the district at a regular or special meeting thereof, nor unless he or she is the holder of an effective teacher's certificate or other certificate required by law
or the Washington professional educator standards board for the position for which the employee is employed.

The board shall make with each employee employed by it a written contract, which shall be in conformity with the laws of this state, and except as otherwise provided by law, limited to a term of not more than one year. Every such contract shall be made in duplicate, one copy to be retained by the school district superintendent or secretary and one copy to be delivered to the employee. No contract shall be offered by any board for the employment of any employee who has previously signed an employment contract for that same term in another school district of the state of Washington unless such employee shall have been released from his or her obligations under such previous contract by the board of directors of the school district to which he or she was obligated. Any contract signed in violation of this provision shall be void.

In the event it is determined that there is probable cause or causes that the employment contract of an employee should not be renewed by the district for the next ensuing term such employee shall be notified in writing or before May 15th of the probable cause or causes for nonrenewal of contract. Such determination of probable cause for certificated employees, other than the superintendent, shall be made by the superintendent. Such notice shall be served upon the employee personally, or by certified or registered mail, or by leaving a copy of the notice at the house of his or her usual abode with some person of suitable age and discretion then resident therein. Every such employee so notified, at his or her request made in writing and filed with the president, chair or secretary of the board of directors of the district within ten days after receiving such notice, shall be granted opportunity for a hearing pursuant to RCW 28A.405.310 to determine whether there is sufficient cause or causes for nonrenewal of contract: PROVIDED, That any employee receiving notice of nonrenewal of contract due to an enrollment causation for nonrenewal of contract: PROVIDED, That any employee receiving notice of nonrenewal of contract due to an enrollment decline or loss of revenue may, in his or her request for a hearing, stipulate that initiation of the arrangements for a hearing officer as provided for by RCW 28A.405.310(4) shall occur within ten days following July 15 rather than the day that the employee submits the request for a hearing. If any such notification or opportunity for hearing is not timely given, the employee entitled thereto shall be conclusively presumed to have been reemployed by the district for the next ensuing term up upon contractual terms identical with those which would have prevailed if his or her employment had actually been renewed by the board of directors for such ensuing term.

This section shall not be applicable to "provisional employees" as so designated in RCW 28A.405.220; transfer to a subordinate certificated position as that procedure is set forth in RCW 28A.405.230 or section 302 of this act shall not be construed as a nonrenewal of contract for the purposes of this section.

Sec. 304. RCW 28A.405.230 and 2009 c 57 s 3 are each amended to read as follows:

Any certificated employee of a school district employed as an assistant superintendent, director, principal, assistant principal, coordinator, or in any other supervisory or administrative position, hereinafter in this section referred to as "administrator", shall be subject to transfer, at the expiration of the term of his or her employment contract, to any subordinate certificated position within the school district. "Subordinate certificated position" as used in this section, shall mean any administrative or nonadministrative certificated position for which the annual compensation is less than the position currently held by the administrator.

Every superintendent determining that the best interests of the school district would be served by transferring any administrator to a subordinate certificated position shall notify that administrator in
there is sufficient cause or causes for his or her discharge or other adverse action against his or her contract status.

In the event any such notice or opportunity for hearing is not timely given, or in the event cause for discharge or other adverse action is not established by a preponderance of the evidence at the hearing, such employee shall not be discharged or otherwise adversely affected in his or her contract status for the causes stated in the original notice for the duration of his or her contract.

If such employee does not request a hearing as provided herein, such employee may be discharged or otherwise adversely affected as provided in the notice served upon the employee.

Transfer to a subordinate certificated position as that procedure is set forth in RCW 28A.405.230 or section 302 of this act shall not be construed as a discharge or other adverse action against contract status for the purposes of this section.

(3) Provide for basic skills and literacy education, and occupational education and technical training at technical colleges in order to prepare students for careers in a competitive workforce;

(4) Provide or coordinate related and supplemental instruction for apprentices at community and technical colleges;

(5) Provide administration by state and local boards which will avoid unnecessary duplication of facilities or programs; and which will encourage efficiency in operation and creativity and imagination in education, training, and service to meet the needs of the community and students;

(6) Allow for the growth, improvement, flexibility and modification of the community colleges and their education, training, and service programs as future needs occur; and

(7) Establish firmly that, except on a pilot basis as provided under RCW 28B.50.810 and section 502 of this act, community colleges are, for purposes of academic training, two year institutions, and are an independent, unique, and vital section of our state's higher education system, separate from both the common school system and
other institutions of higher learning, and never to be considered for conversion into four-year liberal arts colleges.

The model tools and strategies are intended to provide assistance to school districts. School districts are encouraged to adapt the models or develop unique tools and strategies that best fit the circumstances in their communities.

Sec. 703. RCW 28A.655.110 and 1999 c 388 s 303 are each amended to read as follows:

(1) Beginning with the 1994-95 school year, to provide the local community and electorate with access to information on the educational programs in the schools in the district, each school shall publish annually a school performance report and deliver the report to each parent with children enrolled in the school and make the report available to the community served by the school. The annual performance report shall be in a form that can be easily understood and be used by parents, guardians, and other members of the community who are not professional educators to make informed educational decisions. As data from the assessments in RCW 28A.655.060 becomes available, the annual performance report should enable parents, educators, and school board members to determine whether students in the district's schools are attaining mastery of the student learning goals under RCW 28A.150.210, and other important facts about the schools' performance in assisting students to learn. The annual report shall make comparisons to a school's performance in preceding years ((and shall include school level goals under RCW 28A.655.050)), student performance relative to the goals and the percentage of students performing at each level of the assessment, a comparison of student performance at each level of the assessment to the previous year's performance, and information regarding school-level plans to achieve the goals.

(2) The annual performance report shall include, but not be limited to: (a) A brief statement of the mission of the school and the school district; (b) enrollment statistics including student demographics; (c) expenditures per pupil for the school year; (d) a summary of student scores on all mandated tests; (e) a concise annual budget report; (f) student attendance, graduation, and dropout rates; (g) information regarding the use and condition of the school building or buildings; (h) a brief description of the learning improvement plans for the school; (i) a summary of the feedback from parents and community members obtained under section 702 of this act; and (((i))) (i) an invitation to all parents and citizens to participate in school activities.

(3) The superintendent of public instruction shall develop by June 30, 1994, and update periodically, a model report form, which shall also be adapted for computers, that schools may use to meet the requirements of subsections (1) and (2) of this section. In order to make school performance reports broadly accessible to the public, the superintendent of public instruction, to the extent feasible, shall make information on each school's report available on or through the superintendent's Internet web site.

NEW SECTION. Sec. 704. A new section is added to chapter 28A.300 RCW to read as follows:

There is a sizeable body of research positively supporting the involvement of parents taking an engaged and active role in their
child's education. Therefore, the legislature intends to provide state recognition by the center for the improvement of student learning within the office of the superintendent of public instruction for schools that increase the level of direct parental involvement with their child's education. By September 1, 2010, the center for the improvement of student learning shall determine measures that can be used to evaluate the level of parental involvement in a school. The center for the improvement of student learning shall collaborate with school district family and community outreach programs and educational service districts to identify and highlight successful models and practices of parent involvement.

PART VIII
COLLECTIVE BARGAINING

Sec. 801. RCW 41.56.100 and 1989 c 45 s 1 are each amended to read as follows:

(1) A public employer shall have the authority to engage in collective bargaining with the exclusive bargaining representative and no public employer shall refuse to engage in collective bargaining with the exclusive bargaining representative. (Prohibited. That nothing contained herein shall require any employer to bargain collectively with any bargaining representative concerning any matter which by ordinance, resolution, or charter of said public employer has been delegated to any civil service commission or personnel board similar in scope, structure, and authority to the board created by chapter 41.06 RCW.)

(2) Upon the failure of the public employer and the exclusive bargaining representative to conclude a collective bargaining agreement, any matter in dispute may be submitted by either party to the commission. This subsection does not apply to negotiations and mediations conducted between a school district employer and an exclusive bargaining representative under section 105 of this act.

(3) If a public employer implements its last and best offer where there is no contract settlement, allegations that either party is violating the terms of the implemented offer shall be subject to grievance arbitration procedures if and as such procedures are set forth in the implemented offer, or, if not in the implemented offer, if and as such procedures are set forth in the parties' last contract.

NEW SECTION. Sec. 802. A new section is added to chapter 41.56 RCW to read as follows:

All collective bargaining agreements entered into between a school district employer and school district employees under this chapter after the effective date of this section, as well as bargaining agreements existing on the effective date of this section but renewed or extended after the effective date of this section, shall be consistent with section 105 of this act.

NEW SECTION. Sec. 803. A new section is added to chapter 41.59 RCW to read as follows:

All collective bargaining agreements entered into between a school district employer and school district employees under this chapter after the effective date of this section, as well as bargaining agreements existing on the effective date of this section but renewed or extended after the effective date of this section, shall be consistent with section 105 of this act.

Sec. 804. RCW 41.59.120 and 1975 1st ex.s. c 288 s 13 are each amended to read as follows:

(1) Either an employer or an exclusive bargaining representative may declare that an impasse has been reached between them in collective bargaining and may request the commission to appoint a mediator for the purpose of assisting them in reconciling their differences and resolving the controversy on terms which are mutually acceptable. If the commission determines that its assistance is needed, not later than five days after the receipt of a request therefor, it shall appoint a mediator in accordance with rules and regulations for such appointment prescribed by the commission. The mediator shall meet with the parties or their representatives, or both, forthwith, either jointly or separately, and shall take such other steps as he may deem appropriate in order to persuade the parties to resolve their differences and effect a mutually acceptable agreement. The mediator, without the consent of both parties, shall not make findings of fact or recommend terms of settlement. The services of the mediator, including, if any, per diem expenses, shall be provided by the commission without cost to the parties. Nothing in this subsection (1) shall be construed to prevent the parties from mutually agreeing upon their own mediation procedure, and in the event of such agreement, the commission shall not appoint its own mediator unless failure to do so would be inconsistent with the effectuation of the purposes and policy of this chapter.

(2) If the mediator is unable to effect settlement of the controversy within ten days after his or her appointment, either party, by written notification to the other, may request that their differences be submitted to fact-finding with recommendations, except that the time for mediation may be extended by mutual agreement between the parties. Within five days after receipt of the aforesaid written request for fact-finding, the parties shall select a person to serve as fact finder and obtain a commitment from that person to serve. If they are unable to agree upon a fact finder or to obtain such a commitment within that time, either party may request the commission to designate a fact finder. The commission, within five days after receipt of such request, shall designate a fact finder in accordance with rules and regulations for such designation prescribed by the commission. The fact finder so designated shall not be the same person who was appointed mediator pursuant to subsection (1) of this section without the consent of both parties.

The fact finder, within five days after his appointment, shall meet with the parties or their representatives, or both, either jointly or separately, and make inquiries and investigations, hold hearings, and take such other steps as he may deem appropriate. For the purpose of such hearings, investigations and inquiries, the fact finder shall have the power to issue subpoenas requiring the attendance and testimony of witnesses and the production of evidence. If the dispute is not settled within ten days after his appointment, the fact finder shall make findings of fact and recommend terms of settlement within thirty days after his appointment, which recommendations shall be advisory only.

(3) Such recommendations, together with the findings of fact, shall be submitted in writing to the parties and the commission privately before they are made public. Either the commission, the fact finder, the employer, or the exclusive bargaining representative may make such findings and recommendations public if the dispute is not settled within five days after their receipt from the fact finder.

(4) The costs for the services of the fact finder, including, if any, per diem expenses and actual and necessary travel and subsistence expenses, and any other incurred costs, shall be borne by the commission without cost to the parties.

(5) Nothing in this section shall be construed to prohibit an employer and an exclusive bargaining representative from agreeing to substitute, at their own expense, their own procedure for resolving impasses in collective bargaining for that provided in this section or from agreeing to utilize for the purposes of this section any other governmental or other agency or person in lieu of the commission.

(6) Any fact finder designated by an employer and an exclusive bargaining representative or the commission for the purposes of this section shall be deemed an agent of the state.

(7) This section does not apply to negotiations and mediations conducted under section 105 of this act.

PART IX

Legislative members of the committee shall be reimbursed for travel expenses in accordance with RCW 44.04.120.

(8) The superintendent of public instruction, the state board of education, the professional educator standards board, and the quality education council shall work collaboratively with the achievement gap oversight and accountability committee to close the achievement gap.

PART X
EDUCATION REFORM FINANCE

NEW SECTION. Sec. 1001. (1) An essential aspect of overall education reform is reform in state financing for basic education, both in the way that funds are distributed and the overall level of state support to school districts. Chapter 548, Laws of 2009, took a significant step in this aspect of education reform by creating a framework for new funding distribution formulas and directing further work on this topic and recommendations from the quality education council and technical working groups. It is the legislature's intent to continue implementation of the education reforms in chapter 548, Laws of 2009, by adopting the technical details of a new distribution formula for the instructional program of basic education and authorizing a phase-in of implementation of a new distribution formula for pupil transportation, both to take effect September 1, 2011. Unless otherwise stated, the numeric values adopted in section 1002 of this act represent the translation of 2009-2010 state funding levels for the basic education act into the funding factors of the prototypical school funding formula, based on the expert advice and extensive work of the funding formula technical working group established by the legislature for this purpose. The legislature intends to continue to review and revise the formulas and may make revisions as necessary for technical purposes and consistency in the event of mathematical or other technical errors.

(2) It is also the legislature's intent to adopt an implementation schedule for phasing-in additional education finance reforms and enhancements to the baseline funding levels of 2009-10 beginning in the 2011-12 school year for pupil transportation, class size allocations for grades kindergarten through three, full-day kindergarten, and allocations for maintenance, supplies, and operating costs.

(3) Finally, it is the legislature's intent to adjust the timelines for other working groups so that their expertise and advice can be received as soon as possible and to make technical adjustments to certain provisions of chapter 548, Laws of 2009.

Sec. 1002. RCW 28A.150.260 and 2009 c 548 s 106 are each amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2) The distribution formula under this section shall be for allocation purposes only. Except as may be required under chapter 28A.155, 28A.165, 28A.180, or (28A.155) 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

(3)(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district
and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) For the purposes of this section, prototypical schools are defined as follows:

(i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;
(ii) A prototypical middle school has four hundred thirty-two average annual full-time equivalent students in grades seven and eight; and
(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

(4)(a) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on (ee) the following general education average class size (as specified in the omnibus appropriations act) of full-time equivalent students per teacher:

(b) Beginning in the 2011-12 school year and beginning with schools with the highest percentage of students eligible for free and reduced-price meals in the prior school year, the general education average class size for grades K-3 shall be reduced until the average class size funded under this subsection (4) is no more than 15.0 full-time equivalent students per teacher beginning in the 2015-16 school year.

(c) The minimum allocation for each prototypical middle and high school shall also provide for full-time equivalent classroom teachers based on the following number of full-time equivalent students per teacher in career and technical education:

<table>
<thead>
<tr>
<th>Career and technical education average class size</th>
<th>Approved career and technical education offered at the middle school and high school level</th>

(d) In addition, the omnibus appropriations act shall at a minimum specify:

(i) (Basic average class size;
(ii) Basic) A high-poverty average class size in schools where more than fifty percent of the students are eligible for free and reduced-price meals; and
(iii) (Exploratory and preparatory career and technical education) laboratory science, advanced placement, and international baccalaureate courses;
(iv) Average class size in grades kindergarten through three).

(4)(a) The minimum allocation for each level of prototypical school shall include allocations for the following types of staff in addition to classroom teachers:

(iii) Principals, including assistant principals, and other certificated building-level administrators;
(ii) Teacher librarians, performing functions including information literacy, technology, and media to support school library media programs;
(iii) Student health services, a function that includes school nurses, whether certificated instructional or classified employee, and social workers;
(iv) Guidance counselors, performing functions including parent outreach and graduation advisor;
(v) Professional development coaches;
(vi) Teaching assistance, which includes any aspect of educational instructional services provided by classified employees;
(vii) Office support, technology support, and other noninstructional aides;
(viii) Custodians, warehouse, maintenance, laborer, and professional and technical education support employees; and
(ix) Classified staff providing student and staff safety.

(10) In addition to the allocations otherwise provided under ((subsections (3) and (4) of this section (shall be enhanced as follows to provide additional allocations for classroom teachers and maintenance, supplies, and operating costs)), amounts shall be provided to support the following programs and services:

(a) To provide supplemental instruction and services for underachieving students through the learning assistance program under RCW 28A.165.005 through 28A.165.065, allocations shall be based on the ((percent)) district percentage of students in ((each school)) grades K-12 who ((are)) were eligible for free ((and)) or reduced-price meals in the prior school year. The minimum allocation for the ((learning assistance)) program shall provide ((an extended school day and extended school year)) for each level of prototypical school ((and a per student allocation for maintenance, supplies, and operating costs)) resources to provide, on a statewide average, 1,5156 hours per week in extra instruction with a class size of fifteen learning assistance program students per teacher.

The minimum allocation shall be calculated as a percentage, identified in the omnibus appropriations act, of the total allocations for staff subsections (3) and (6) of this section for all schools in the district.

(13)(a) This formula for distribution of basic education funds shall be reviewed biennially by the superintendent and governor. The recommended formula shall be subject to approval, amendment or rejection by the legislature.

Sec. 1004. RCW 28A.150.315 and 2009 c 548 s 107 are each amended to read as follows:

(1) Beginning with the 2007-08 school year, funding for voluntary all-day kindergarten programs shall be phased-in beginning with schools with the highest poverty levels, defined as those schools with the highest percentages of students qualifying for free and reduced-price lunch support in the prior school year. Beginning with the 2011-12 school year, funding shall continue to be phased-in incrementally each year until full statewide implementation of all-day kindergarten is achieved in the 2017-18 school year. Once a school receives funding for the all-day kindergarten program, that school shall remain eligible for funding in subsequent school years regardless of changes in the school's percentage of students eligible for free and reduced-price lunches as long as other program requirements are fulfilled. Examples of topics addressed by the technical assistance include strategic planning, developing the instructional program and curriculum, working with early learning providers to identify students and communicate with parents, and developing kindergarten program readiness activities.

Sec. 1005. 2009 c 548 s 112 (uncodified) is amended to read as follows:

(1) The legislature intends to continue to redefine the instructional program of education under RCW 28A.150.220 that fulfills the obligations and requirements of Article IX of the state Constitution. The funding formulas under RCW 28A.150.260 to support the instructional program shall be implemented to the extent the technical details of the formula have been established and according to an implementation schedule to be adopted by the legislature. The object of the schedule is to assure that any increases in funding allocations are timely, predictable, and occur concurrently with any increases in program or instructional requirements. It is the intent of the legislature that no increased programmatic or instructional expectations be imposed upon schools or school districts without an accompanying increase in resources as necessary to support those increased expectations.

(2) The office of financial management, with assistance and support from the office of the superintendent of public instruction, shall convene a technical working group to:

(a) Develop the details of the funding formulas under RCW 28A.150.260;

The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

4. The working group shall be monitored and overseen by the legislature and the quality education council established in (section 114 of this act) RCW 28A.290.010. The working group shall submit its recommendations to the legislature by December 1, 2009.

5. After the 2009 report to the legislature, the office of financial management and the office of the superintendent of public instruction shall periodically reconvene the working group to monitor and provide advice on further development and implementation of the funding formulas under RCW 28A.150.260 and provide technical assistance to the ongoing work of the quality education council.

Sec. 1006. 2009 c 548 s 302 (uncodified) is amended to read as follows:

(1) The legislature recognizes that providing students with the opportunity to access world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of the superintendent of public instruction, in collaboration with the office of financial management, shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

(a) How to reduce the number of tiers within the existing salary allocation model;
(b) How to account for labor market adjustments;
(c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;
(d) The role of and types of bonuses available;
(e) Ways to accomplish salary equalization over a set number of years; and
(f) Initial fiscal estimates for implementing the recommendations including a recognition that staff on the existing salary allocation model would have the option to grandfather in permanently to the existing schedule.

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, “salaries and other compensation” includes average base salaries, average total salaries, average employee basic benefits, and retirement benefits.

(4) The analysis required under subsection (1) of this section must:

(a) Examine salaries and other compensation for teachers, other certificated instructional staff, principals, and other building-level certificated administrators, and the types of classified employees for whom salaries are allocated;
(b) Be calculated at a statewide level that identifies labor markets in Washington through the use of data from the United States Bureau of the census and the Bureau of Labor Statistics; and
(c) Include a comparison of salaries and other compensation to the appropriate labor market for at least the following subgroups of educators: Beginning teachers and types of educational staff associates.

(5) The working group shall include representatives of the department of personnel, the professional educator standards board, the office of the superintendent of public instruction, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with appropriate expertise in compensation related matters. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(6) The working group shall be monitored and overseen by the legislature and the quality education council created in RCW 28A.290.010. The working group shall report to the legislature by (December 4) June 30, 2012, and shall include in its report recommendations for whether additional further work of the group is necessary.
Sec. 1008. RCW 28A.160.192 and 2009 c 548 s 311 are each amended to read as follows:

(1) The superintendent of public instruction shall phase-in the implementation of the distribution formula under this chapter for allocating state funds to school districts for the transportation of students to and from school. The phase-in shall begin no later than the 2013-14 school year and be fully implemented by the 2013-14 school year.

(a) The formula must be developed and revised on an ongoing basis using the major cost factors in student transportation, including basic and special student loads, school district land area, average distance to school, roadway miles, and number of locations served. Factors must include all those site characteristics that are statistically significant after analysis of the data required by the revised reporting process.

(b) The formula must allocate funds to school districts based on the average predicted costs of transporting students to and from school, using a regression analysis.

(2) During the phase-in period, funding provided to school districts for student transportation operations shall be distributed on the basis:

(a) Annually, each school district shall receive the lesser of the previous school year’s pupil transportation operations allocation, or the total of allowable pupil transportation expenditures identified on the previous school year’s final expenditure report to the state plus district indirect expenses using the state recovery rate identified by the superintendent; and

(b) Annually, any funds appropriated by the legislature in excess of the maintenance level funding amount for student transportation shall be distributed among school districts on a prorated basis using the difference between the amount identified in (a) of this subsection and the amount determined under the formula in RCW 28A.160.180.

((3) The superintendent shall develop, implement, and provide a copy of the rules specifying the student transportation reporting requirements to the legislature and school districts no later than December 1, 2009.

(4) Beginning in December 2009, and continuing until December 2014, the superintendent shall provide quarterly updates and progress reports to the fiscal committees of the legislature on the implementation and testing of the distribution formula.)

(3) Beginning January 1, 1992, no more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in the omnibus appropriations act, or any replacement schedules and documents, unless:

(a) The employee has a master’s degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(4) Beginning in the 2007-08 school year, the calculation of years of service for occupational therapists, physical therapists, speech-language pathologists, audiologists, nurses, social workers, counselors, and psychologists regulated under Title 18 RCW may include experience in schools and other nonschool positions as occupational therapists, physical therapists, speech-language pathologists, audiologists, nurses, social workers, counselors, or psychologists. Prime Sponsor, Senator Fraser: Regarding compliance with the state environmental policy act in the consideration of cumulative impacts and the assumption of lead agency status when the same agency is the sponsor of the project. Reported by Committee on Ecology & Parks

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"Sec. 1115. RCW 43.21C.031 and 1995 c 347 s 203 are each amended to read as follows:

(1)(a) An environmental impact statement (the detailed statement required by RCW 43.21C.030(2)(c)) shall be prepared on proposals for legislation and other major actions having a probable significant, adverse environmental impact. The environmental impact statement may be combined with the recommendation or report on the proposal or issued as a separate document. The substantive decisions or recommendations shall be clearly identifiable in the combined document. Actions categorically exempt under RCW 43.21C.110(1)(a) do not require environmental review or the preparation of an environmental impact statement under this chapter. This subsection does not impose the requirements of RCW 43.21C.030 or this section upon actions that are statutorily exempt from this chapter’s environmental review requirements. Proposals, or parts of proposals, that are so closely related as to be in effect a single course of action must be evaluated in the same environmental document if the:

(i) Proposal, or parts of the proposal, cannot or will not proceed unless implemented simultaneously; or

(ii) Larger proposal is necessary for justification or implementation of parts of the proposal. Phased environmental review may be allowed by rule of the department. In a county, city, or town planning under RCW 36.70A.040, a planned action, as provided for in subsection (2) of this section, does not require a threshold determination or the preparation of an environmental impact statement under this chapter, but is subject to environmental review and mitigation as provided in this chapter.

(b) An environmental impact statement is required to analyze only those probable adverse environmental impacts which are significant. Beneficial environmental impacts may be discussed. The responsible official shall consult with agencies and the public to identify such impacts and limit the scope of an environmental impact statement. The subjects listed in RCW 43.21C.030(2)(c) need not be treated as separate sections of an environmental impact statement. Discussions of significant short-term and long-term environmental impacts, including cumulative impacts, significant irrevocable commitments of natural resources, significant alternatives including mitigation measures, and significant environmental impacts which cannot be mitigated should be consolidated or included, as applicable, in those sections of an environmental impact statement where the responsible official decides they logically belong.

(2)(a) For purposes of this section, a planned action means one or more types of project action that:

(i) Are designated planned actions by an ordinance or resolution adopted by a county, city, or town planning under RCW 36.70A.040;

(ii) Have had the significant impacts adequately addressed in an environmental impact statement prepared in conjunction with (A) a comprehensive plan or subarea plan adopted under chapter 36.70A RCW, or (B) a fully contained community, a master planned resort, a master planned development, or a phased project;

(iii) Are subsequent or implementing projects for the proposals listed in (a)(ii) of this subsection;

(iv) Are located within an urban growth area, as defined in RCW 36.70A.030;

(v) Are not essential public facilities, as defined in RCW 36.70A.200; and

(vi) Are consistent with a comprehensive plan adopted under chapter 36.70A RCW.

(b) A county, city, or town shall limit planned actions to certain types of development or to specific geographical areas that are less extensive than the jurisdictional boundaries of the county, city, or town and may limit a planned action to a time period identified in the environmental impact statement or the ordinance or resolution adopted under this subsection.

NEW SECTION. Sec. 1116. A new section is added to chapter 43.21C RCW to read as follows:

"NEW SECTION. Sec. 1117. (1) The legislature finds that providing for long-term stewardship of nonindustrial forests and woodlands is an important factor in maintaining Washington's special character and quality of life.

(2) The legislature further finds that in order to encourage and maintain nonindustrial forests and woodlands for their present and future benefit to all citizens, Washington's nonindustrial forest and woodland owners' long-term commitments to stewardship of forest resources must be recognized and supported by the citizens of the state.

(3) The legislature further finds that the adoption of forest practices rules consistent with the forests and fish report, as defined in RCW 76.09.020, has imposed substantial financial burdens on small forest landowners.

(4) The legislature further finds that in order to maintain the economic viability of eighty-nine thousand family forest owners, managing five million acres of forest land across the state, small forest landowners must be provided with incentives to keep their land in long-term forestry.

NEW SECTION. Sec. 1118. (1) The joint work group on small forest landowner sustainability is established. Utilizing research conducted by the school of forest resources at the University of Washington and the information and perspectives provided by the department of natural resources, the department of fish and wildlife, and the department of ecology, the joint work group shall report to the
legislature consistent with RCW 43.10.036, the commissioner of public lands, and the governor on ways to remove regulatory barriers and disincentives in order to encourage small forest landownership for generations to come without reducing protection to public resources.

(2) The joint work group on small forest landowner sustainability shall consist of two members of the house of representatives agriculture and natural resources committee appointed by the speaker of the house of representatives and two members of the senate natural resources, ocean, and recreation committee appointed by the president of the senate. The speaker of the house of representatives and the president of the senate shall ensure that there is equal participation between the two largest caucuses in their respective chambers.

(3) The joint work group shall consult with relevant state agencies, stakeholders, and experts in the fields of forestry, tax policy, transfer of development rights, forested fish habitat, and ecosystem service payments. The joint work group may also request assistance from the department of natural resources, the department of ecology, the department of fish and wildlife, federal experts on the state habitat conservation plan, representatives of native American tribes, and the environmental community.

(4) The joint work group will utilize the house of representatives office of program research and senate committee services and existing legislative resources. The work group will also utilize teleconferencing and other communications methods, when feasible, to minimize travel and per diem expenditures for legislators and staff.

(5) In developing recommendations, the joint work group shall review and build upon reports related to small forest landowner economic viability, including reports completed for or by the rural technology initiative, the Northwest environmental forum, and the small landowner office at the department of natural resources. The work group shall also rely on the department of natural resources' and other entities' work to develop proposals for landowner conservation incentives that support forest landowners maintaining their lands in forestry.

(6) In developing recommendations, the joint work group shall consider:

(a) The long-term sustainability of the forestry riparian easement program defined in RCW 76.13.120 and ways to reform that program.

(b) Recommendations on how to address issues unique to small forest lands east of the Cascade mountains, including periodic insect and disease attacks, catastrophic wildfire, and replacement of historic species by shade tolerant species.

(c) Whether, how, and to what extent the department of natural resources has evaluated the cumulative impact of small forest landowner alternate management plans or alternate harvest restrictions on essential riparian functions as required by RCW 76.13.110.

(d) Whether, how, and to what extent the department of natural resources and the forest practices board have developed alternate plans or alternate harvest restrictions that meet riparian functions while requiring less costly regulatory prescriptions for small forest landowners, including recognition of or credit for improving the condition of public resources.

(e) The complexity of administrative rules for small harvests and relatively short stream reaches.

(f) Recommendations on ways the forest practices board and the legislature could provide more effective incentives to encourage continued management of nonindustrial forests and woodlands for forestry.

(g) Ways to address conversion pressures, global competition, and the gap between appraised values of forest land and the value for the same land for development.

(h) The possibility of a pilot program for ecosystem service payments and technical funding assistance for small forest landowners.

(i) Whether, how, and to what extent the recommendations are consistent with the state's obligations under the forest practices habitat conservation plan and clean water act assurances.

(7) The joint work group on small forest landowner sustainability shall deliver its report in the form of proposed legislation to the legislature, the commissioner of public lands, and the governor by September 15, 2010.

(8) This section expires June 31, 2011."

Prime Sponsor, Committee on Human Services & Corrections: Concerning child welfare services. Reported by Committee on Early Learning & Children's Services

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1119. The legislature finds that, based upon the work of the child welfare transformation design committee established pursuant to 2SHB 2106 during the 2009 legislative session, several narrowly based amendments to that legislation need to be made, mainly for clarifying purposes. The legislature further finds that two deadlines need to be extended by six months, the first to allow the department of social and health services additional time to complete the conversion of its contracts to performance-based contracts and the second to allow the department additional time to gradually transfer existing cases to supervising agencies in the demonstration sites. The legislature finds that the addition of a foster youth on the child welfare transformation design committee will greatly assist the committee in its work.

The legislature recognizes that clarifying language regarding Indian tribes should be added regarding the government-to-government relationship the tribes have with the state. The legislature further recognizes that language is needed regarding the department's ability to receive federal funding based upon the recommendations made by the child welfare transformation design committee.

Sec. 1120. RCW 74.13.368 and 2009 c 520 s 8 are each amended to read as follows:

(1)(a) The child welfare transformation design committee is established, with members as provided in this subsection.

(c) The representative from partners for our children shall convene the initial meeting of the committee no later than June 15, 2009.

(d) The cochairs of the committee shall be the assistant secretary for the children’s administration and another member selected by a majority vote of those members present at the initial meeting.

(2) The committee shall establish a transition plan containing recommendations to the legislature and the governor consistent with this section for the provision of child welfare services by supervising agencies pursuant to RCW 74.13.360.

(3) The plan shall include the following:
(a) A model or framework for performance-based contracts to be used by the department that clearly defines:
(i) The target population;
(ii) The referral and exit criteria for the services;
(iii) The child welfare services including the use of evidence-based services and practices to be provided by contractors;
(iv) The roles and responsibilities of public and private agency workers in key case decisions;
(v) Contract performance and outcomes, including those related to eliminating racial disparities in child outcomes;
(vi) That supervising agencies will provide culturally competent service;
(vii) How to measure whether each contractor has met the goals listed in RCW 74.13.360(5); and
(viii) Incentives to meet performance outcomes;
(b) A method by which the department will substantially reduce its current number of contracts for child welfare services;
(c) A method or methods by which clients will access community-based services, how private supervising agencies will engage other services or form local service networks, develop subcontracts, and share information and supervision of children;
(d) Methods to address the effects of racial disproportionality, as identified in the 2008 Racial Disproportionality Advisory Committee Report published by the Washington state institute for public policy in June 2008;

(g) Contract monitoring and evaluation procedures that will ensure that children and families are receiving timely and quality services and that contract terms are being implemented;
(h) A method or methods by which to ensure that the children’s administration has sufficiently trained and experienced staff to monitor and manage performance-based contracts;
(i) A process by which to expand the capacity of supervising and other private agencies to meet the service needs of children and families in a performance-based contractual arrangement;
(j) A method or methods by which supervising and other private agencies can expand services in underserved areas of the state;
(k) The appropriate amounts and procedures for the reimbursement of supervising agencies given the proposed services restructuring;
(l) A method by which to access and enhance existing data systems to include contract performance information;
(m) A financing arrangement for the contracts that examines:
(i) The use of case rates or performance-based fee-for-service contracts that include incentive payments or payment schedules that link reimbursement to outcomes; and
(ii) Ways to reduce a contractor’s financial risk that could jeopardize the solvency of the contractor, including consideration of the use of a risk-reward corridor that limits risk of loss and potential profits or the establishment of a statewide risk pool;
(n) A description of how the transition will impact the state’s ability to obtain federal funding and examine options to further maximize federal funding opportunities and increased flexibility;
(o) A review of whether current administrative staffing levels in the regions should be continued when the majority of child welfare services are being provided by supervising agencies;
(p) A description of the costs of the transition, the initial start-up cost, and the mechanisms to periodically assess the overall adequacy of funds and the fiscal impact of the changes, and the feasibility of the plan and the impact of the plan on department employees during the transition; and
(q) Identification of any statutory and regulatory revisions necessary to accomplish the transition.

(4)(a) The committee, with the assistance of the department, shall select two demonstration sites within which to implement chapter 520, Laws of 2009. One site must be located on the eastern side of the state. The other site must be located on the western side of the state. Neither site must be wholly located in any of the department’s administrative regions.

(b) The committee shall develop two sets of performance outcomes to be included in the performance-based contracts the department enters into with supervising agencies. The first set of outcomes shall be used for those cases transferred to a supervising
agency over time. The second set of outcomes shall be used for new entrants to the child welfare system.

(c) The committee shall also identify methods for ensuring that comparison of performance between supervising agencies and the existing service delivery system takes into account the variation in the characteristics of the populations being served as well as historical trends in outcomes for those populations.

(5) The committee shall determine the appropriate size of the child and family populations to be provided services under performance-based contracts with supervising agencies. The committee shall also identify the time frame within which cases will be transferred to supervising agencies. The performance-based contracts entered into with supervising agencies shall encompass the provision of child welfare services to enough children and families in each demonstration site to allow for the assessment of whether there are meaningful differences, to be defined by the committee, between the outcomes achieved in the demonstration sites and the comparison sites or populations. To ensure adequate statistical power to assess these differences, the populations served shall be large enough to provide a probability greater than seventy percent that meaningful difference will be detected and a ninety-five percent probability that observed differences are not due to chance alone.

(6) The committee shall also prepare as part of the plan a recommendation as to how to implement chapter 520, Laws of 2009 so that full implementation of chapter 520, Laws of 2009 is achieved no later than (June) December 30, 2012.

(7) The committee shall prepare the plan to manage the delivery of child welfare services in a manner that achieves coordination of the services and programs that deliver primary prevention services.

(8) Beginning June 30, 2009, the committee shall report quarterly to the governor and the legislative children's oversight committee established in RCW 44.04.220. From June 30, 2012, until January 1, 2015, the committee need only report twice a year. The committee shall report on its progress in meeting its duties under subsections (2) and (3) of this section and on any other matters the committee or the legislative children's oversight committee or the governor deems appropriate. The portion of the plan required in subsection (6) of this section shall be due to the legislative children's oversight committee on or before June 1, 2010. The reports shall be in written form.

(9) The committee, by majority vote, may establish advisory committees as it deems necessary.

(10) All state executive branch agencies and the agencies with whom the department contracts for child welfare services shall cooperate with the committee and provide timely information as the chair or cochair may request. Cooperation by the children's administration must include developing and scheduling training for supervising agencies to access data and information necessary to implement and monitor the contracts.

(11) It is expected that the administrative costs for the committee will be supported through private funds.

(12) Staff support for the committee shall be provided jointly by partners for our children and legislative staff.

(13) The committee is subject to chapters 42.30 (open public meetings act) and 42.52 (ethics in public service) RCW.

(14) This section expires July 1, 2015.

(b) Protecting and caring for dependent, abused, or neglected children;

(c) Assisting children who are in conflict with their parents, and assisting parents who are in conflict with their children, with services designed to resolve such conflicts;

Sec. 1122. RCW 74.13.360 and 2009 c 520 s 3 are each amended to read as follows:

(1) No later than (January) July 1, 2011, the department shall convert its current contracts with providers of child welfare services
into performance-based contracts. In accomplishing this conversion, the department shall decrease the total number of contracts it uses to purchase child welfare services from providers. The conversion of contracts for the provision of child welfare services to performance-based contracts must be done in a manner that does not adversely affect the state's ability to continue to obtain federal funding for child welfare related functions currently performed by the state and with consideration of options to further maximize federal funding opportunities and increase flexibility in the use of such funds, including use for preventive and in-home child welfare services.

(2) No later than (July 1) December 30, 2012:

(a) In the demonstration sites selected under RCW 74.13.368(4)(a), child welfare services shall be provided by supervising agencies with whom the department has entered into performance-based contracts. Supervising agencies may enter into subcontracts with other licensed agencies; and

(b) Except as provided in subsection (4) of this section, and notwithstanding any law to the contrary, the department may not directly provide child welfare services to families and children provided child welfare services by supervising agencies in the demonstration sites selected under RCW 74.13.368(4)(a).

(3) No later than (July 1) December 30, 2012, for families and children provided child welfare services by supervising agencies in the demonstration sites selected under RCW 74.13.368(4)(a), the department is responsible for only the following:

(4) No later than (July 1) December 30, 2012, for families and children provided child welfare services by supervising agencies in the demonstration sites selected under RCW 74.13.368(4)(a), the department may provide child welfare services only:

(a) For the limited purpose of establishing a control or comparison group as deemed necessary by the child welfare transformation design committee, with input from the Washington state institute for public policy, to implement the demonstration sites selected and defined pursuant to RCW 74.13.368(4)(a) in which the performance in achieving measurable outcomes will be compared and evaluated pursuant to RCW 74.13.370; or

(b) In an emergency or as a provider of last resort. The department shall adopt rules describing the circumstances under which the department may provide those services. For purposes of this section, "provider of last resort" means the department is unable to contract with a private agency to provide child welfare services in a particular geographic area or, after entering into a contract with a private agency, either the contractor or the department terminates the contract.

(5) For purposes of this chapter, on and after September 1, 2010, performance-based contracts shall be structured to hold the supervising agencies accountable for achieving the following goals in order of importance: Child safety; child permanency, including reunification; and child well-being.

(6) A federally recognized tribe located in this state may enter into a performance-based contract with the department to provide child welfare services to Indian children whether or not they reside on a reservation. Nothing in this section prohibits a federally recognized Indian tribe located in this state from providing child welfare services to its members or other Indian children pursuant to existing tribal law, regulation, or custom, or from directly entering into agreements for the provision of such services with the department, if the department continues to otherwise provide such services, or with federal agencies.

Sec. 1123. RCW 74.13.364 and 2009 c 520 s 5 are each amended to read as follows:

Children whose cases are managed by a supervising agency as defined in RCW 74.13.020 remain under the care and placement authority of the state. The child welfare transformation design committee, in selecting demonstration sites for the provision of child welfare services under RCW 74.13.368(4), shall maintain the placement and care authority of the state over children receiving child welfare services at a level that does not adversely affect the state's ability to continue to obtain federal funding for child welfare related functions currently performed by the state and with consideration of options to further maximize federal funding opportunities and increase flexibility in the use of such funds, including use for preventive and in-home child welfare services.

Sec. 1124. RCW 74.13.366 and 2009 c 520 s 6 are each amended to read as follows:

In any continuation or expansion of delivery of child welfare services purchased through the use of performance-based contracts under the provisions of RCW 74.13.372, when all other elements of the bids are equal, private nonprofit entities, federally recognized Indian tribes located in this state, and state employees shall receive primary preference over private for profit entities.

"NEW SECTION. Sec. 1. Water is an essential element for economic prosperity and it generates new, family-wage jobs and state revenues. It is the intent of the legislature to provide both water right applicants and the department of ecology with the necessary tools to expedite the processing of water right applications depending on the needs of the project and agency workload.

NEW SECTION. Sec. 2. Sufficient resources to support the department of ecology's water resource program are essential for effective and sustainable water management that provides certainty to processed applications. The department of ecology shall review current water resource functions and report to the legislature and the governor by September 1, 2010, on improvements to make the program more self-sustaining and efficient."
Sec. 3. RCW 90.03.265 and 2003 c 70 s 6 are each amended to read as follows:

(1)(a) Any applicant for a new withdrawal or a change, transfer, or amendment of a water right pending before the department((i)) may initiate a cost-reimbursement agreement with the department to provide expedited review of the application. A cost-reimbursement agreement may (((ii))) be initiated under this section if the applicant agrees to pay for, or as part of a cooperative effort agrees to pay for, the cost of processing his or her application and all other applications from the same source of supply which must be acted upon before the applicant's request because they were filed prior to the date of when the applicant filed.

(b) The requirement to pay for the cost of other applications under (a) of this subsection does not apply to an application for a new appropriation that would not diminish the water available to earlier pending applicants for new appropriations from the same source of supply.

(c) The requirement to pay for the cost of processing other applications under (a) of this subsection does not apply to an application for a change, transfer, or other amendment that would not diminish the water available to earlier pending applicants for changes or transfers from the same source of supply.

(d) In determining whether an application would not diminish the water available to earlier pending applicants, the department shall consider any water impoundment or other water resource management mitigation technique proposed by the applicant under RCW 90.03.255 or 90.44.055.

(e) The department may enter into cost-reimbursement agreements provided resources are available and shall use the process established under RCW 43.21A.690 for entering into cost-reimbursement agreements. The department's share of work related to a cost-reimbursement application, such as final certificate approval, must be prioritized within the framework of other water right processing needs and as determined by agency rule.

(f) Each individual applicant is responsible for his or her own appeal costs that may result from a water right decision made by the department. In the event that the department's approval of an application is appealed under chapter 43.21B RCW by a third party, the applicant for the water right in question must reimburse the department for the cost of defending the decision before the pollution control hearings board unless otherwise agreed to by the applicant and the department. If an applicant appeals either an approval or a denial by the department, the applicant is responsible only for its own appeal costs.

(2) In pursuing a cost-reimbursement project, the department must determine the source of water proposed to be diverted or withdrawn from, including the boundaries of the area that delimits the source. The department must determine if any other water right permit applications are pending from the same source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department finds they are hydraulically connected. The department shall consider technical information submitted by the applicant in making its determinations under this subsection. The department may recover from a cost-reimbursement applicant its own costs in making the same source determination under this subsection.

(3) Upon request of the applicant seeking cost-reimbursement processing, the department may elect to initiate a coordinated cost-reimbursement process. To initiate this process, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general circulation in the area where affected properties are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that cost-reimbursement processing of applications within the described water source is being initiated;

(b) Provide to individual applicants the criteria under which the applications will be examined and determined;

(c) Provide to individual applicants the estimated cost for having an application processed on a cost-reimbursement basis;

(d) Provide an estimate of how long the cost-reimbursement process will take before an application is approved or denied; and

(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in the cost-reimbursement process.

(4) The applicant initiating the cost-reimbursement request must pay for the cost of the determination under subsections (2) and (3) of this section and other costs necessary for the initial phase of cost-reimbursement processing. The cost for each applicant conducting processing under a coordinated cost-reimbursement agreement must be based primarily on the proportionate quantity of water requested by each applicant. The cost may be adjusted if it appears that an application will require a disproportionately greater amount of time and effort to process due to its complexity.

(5)(a) Only the department may approve or deny a water right application processed under this section, and such a final decision remains solely the responsibility and function of the department. The department retains full authority to amend, refuse, or approve any work product provided by any consultant under this section. The department may recover its costs related to: (i) The review of a contractor to ensure that no conflict of interest exists; (ii) the management of consultant contracts and cost-reimbursement agreements; and (iii) the review of work products provided by participating consultants.

(b) For any cost-reimbursement process initiated under subsection (1) of this section, the applicant may, after consulting with the department, select a prequalified consultant listed by the department under subsection (7) of this section or may be assigned such a prequalified consultant by the department.

(c) For any coordinated cost-reimbursement process initiated under subsection (2) of this section, the applicant may, after consulting with the department, select a prequalified consultant listed by the department under subsection (7) of this section or may be assigned a prequalified consultant by the department.

(d) In lieu of having one or more of the work products performed by a prequalified consultant listed under subsection (7) of this section, the department may, at its discretion, recognize specific work completed by an applicant or an applicant's consultant prior to the initiation of cost-reimbursement processing. The department may also, at its discretion, recognize the use of such a consultant to perform a specific scope of the work performed by prequalified consultants listed under subsection (7) of this section.

(e) At any point during the cost-reimbursement process, the department may request or accept technical information, data, and analysis from the applicant or the applicant's consultant to support the cost-reimbursement process or the department's decision on the application.

(6) The department is authorized to adopt rules or guidance providing minimum qualifications and standards for any consultant's submission of work products under this section, including standards for submission of technical information, scientific analysis, work product documentation, and report presentation that such a consultant must meet.

(7) The department must provide notice to potential consultants of the opportunity to be considered for inclusion on the list of cost-reimbursement consultants to whom work assignments will be made. The department must competitively select an appropriate number of consultants who are qualified by training and experience to
investigate and make recommendations on the disposition of water right applications. The prequalified consultant list must be renewed at least every six years, though the department may add qualified cost-reimbursement consultants to the list at any time. The department must enter a master contract with each consultant selected and thereafter make work assignments based on availability and qualifications.

(8) The department may remove any consultant from the consultant list for poor performance, malfeasance, or excessive complaints from cost-reimbursement participants. The department may interview any cost-reimbursement consultant to determine whether the person is qualified for this work, and must spot-check the work of consultants to ensure that the public is being competently served.

(9) When a prequalified cost-reimbursement consultant from the department's list described in subsection (7) of this section is assigned or selected to investigate an application or set of applications, the consultant must document its findings and recommended disposition in the form of written draft technical reports and preliminary draft reports of examination. Within two weeks of the department receiving draft technical reports and preliminary draft reports of examination, the department shall provide the applicant such documents for review and comment prior to their completion by the consultant. The department shall consider such comments by the applicant prior to the department's issuance of a draft report of examination. The department may modify the preliminary draft reports of examination submitted by the consultant. The department's decision on a permit application is final unless it is appealed to the pollution control hearings board under chapter 43.21B RCW.

(10) If an applicant elects not to participate in a cost-reimbursement process, the application remains on file with the department, retains its priority date, and may be processed in the future under regular processing, expedited processing, coordinated cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW.

NEW SECTION. Sec. 4. A new section is added to chapter 90.03 RCW to read as follows:

The water rights processing account created in the state treasury. All receipts from the fees collected under sections 5, 7, and 12 of this act must be deposited into the account. Money in the account may be spent only after appropriation. Expenditures from the account may only be used to support the processing of water right applications for a new appropriation, change, transfer, or amendment of a water right as provided in this chapter and chapters 90.42 and 90.44 RCW or for the examination, certification, and renewal of certification of water right examiners as provided in section 7 of this act.

NEW SECTION. Sec. 5. A new section is added to chapter 90.03 RCW to read as follows:

(1) The department may expedite processing of applications within the same source of water on its own volition when there is interest from a sufficient number of applicants or upon receipt of written requests from at least ten percent of the applicants within the same source of water.

(2) If the conditions of subsection (1) of this section have been met and the department determines that the public interest is best served by expediting applications within a water source, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general circulation in the area where affected properties are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that expedited processing of applications within the described water source is being initiated;
(b) Provide to individual applicants the criteria under which the applications will be examined and determined;
(c) Provide to individual applicants the estimated cost for having an application processed on an expedited basis;
(d) Provide an estimate of how long the expedited process will take before an application is approved or denied; and
(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in the expedited processing of their applications.

(3) In addition to the application fees provided in RCW 90.03.470, the department must recover the full cost of processing all the applications from applicants who elect to participate within the water source through expedited processing fees. The department must calculate an expedited processing fee based primarily on the proportionate quantity of water requested by each applicant and may adjust the fee if it appears that the application will require a disproportionately greater amount of time and effort to process due to its complexity. Any application fees that were paid by the applicant under RCW 90.03.470 must be credited against the applicant's share of the cost of processing applications under the provisions of this section.

(4) The expedited processing fee must be collected by the department prior to the expedited processing of an application. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. An applicant who has stated in writing that he or she wants his or her application processed using the expedited procedures in this section must transmit the processing fee within sixty days of the written request. Failure to do so will result in the applicant not being included in expedited processing for that water source.

(5) If an applicant elects not to participate in expedited processing, the application remains on file with the department, the applicant retains his or her priority date, and the application may be processed through regular processing, expedited processing, coordinated cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW.

NEW SECTION. Sec. 6. A new section is added to chapter 90.03 RCW to read as follows:

The department must post notice on its web site and provide electronic notice and opportunity for comment to affected federally recognized tribal governments concurrently when providing notice to applicants under RCW 90.03.265 and sections 5 and 12 of this act.

NEW SECTION. Sec. 7. A new section is added to chapter 90.03 RCW to read as follows:

(1) The department shall establish and maintain a list of certified water right examiners. Certified water right examiners on the list are eligible to perform final proof examinations of permitted water uses leading to the issuance of a water right certificate under RCW 90.03.330. The list must be updated annually and must be made available to the public through written and electronic media.
(2) In order to qualify, an individual must be registered in Washington as a professional engineer, professional land surveyor, or registered hydrogeologist, or an individual must demonstrate at least five years of applicable experience to the department, or be a board member of a water conservancy board. Qualified individuals must also pass a written examination prior to being certified by the department. Such an examination must be administered by either the department or an entity formally approved by the department. Each certified water right examiner must demonstrate knowledge and competency regarding:

(a) Water law in the state of Washington;
(b) Measurement of the flow of water through open channels and enclosed pipes;
(c) Water use and water level reporting;
(d) Estimation of the capacity of reservoirs and ponds;
(e) Irrigation crop water requirements;
(f) Aerial photo interpretation;
(g) Legal descriptions of land parcels;
(h) Location of land and water infrastructure through the use of maps and global positioning;
(i) Proper construction and sealing of well bores; and
(j) Other topics related to the preparation and certification of water rights in Washington state.

(3) Except as provided in subsection (9) of this section, upon completion of a water appropriation and putting water to beneficial use, in order to receive a final water right certificate, the permit holder must secure the services of a certified water right examiner who has been tested and certified by the department. The examiner shall carry out a final examination of the project to verify its completion and to determine and document for the permit holder and the department the amount of water that has been appropriated for beneficial use, the location of diversion or withdrawal and conveyance facilities, and the actual place of use. The examiner shall take measurements or make estimates of the maximum diversion or withdrawal, the capacity of water storage facilities, the acreage irrigated, the type and number of residences served, the type and number of stock watered, and other information relevant to making a final determination of the amount of water beneficially used. The examiner shall make photographs of the facilities to document the use or uses of water and the photographs must be submitted with the examiner's report to the department. The department shall specify the format and required content of the reports and may provide a form for that purpose.

(4) The department may suspend or revoke a certification based on poor performance, malfeasance, failure to acquire continuing education credits, or excessive complaints from the examiner's customers. The department may require the retesting of an examiner. The department may interview any examiner to determine whether the person is qualified for this work. The department shall spot-check the work of examiners to ensure that the public is being competently served. Any person aggrieved by an order of the department including the granting, denial, revocation, or suspension of a certificate issued by the department under this chapter may appeal pursuant to chapter 43.21B RCW.

(5) The decision regarding whether to issue a final water right certificate is solely the responsibility and function of the department.

(6) The department shall make its final decision under RCW 90.03.330 within sixty days of the date of receipt of the proof of examination from the certified water right examiner, unless otherwise requested by the applicant.

(7) Each certified water right examiner must complete eight hours annually of qualifying continuing education in the water resources field. The department shall determine and specify the qualifying continuing education and shall inform examiners of the opportunities. The department shall track whether examiners are current in their continuing education and may suspend the certification of an examiner who has not complied with the continuing education requirement.

(8) Each certified water right examiner must be bonded for at least fifty thousand dollars.

(9) The department may waive the requirement to secure the services of a certified water right examiner in situations in which the department deems it unnecessary for purposes of issuing a certificate of water right.

(10) The department shall establish and collect fees for the examination, certification, and renewal of certification of water right examiners. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. Pursuant to RCW 43.135.055, the department is authorized to set fees for examination, certification, and renewal of certification for water right examiners.

(11) The department may adopt rules appropriate to carry out the purposes of this section.

Sec. 8. RCW 90.14.065 and 1987 c 93 s 1 are each amended to read as follows:

(1)(a) Any person or entity, or successor to such person or entity, having a statement of claim on file with the water rights claims registry ((on April 20, 1987)) may submit to the department of ecology for filing((c)) an amendment to such a statement of claim if the submitted amendment is based on:

1) An error in estimation of the quantity of the applicant's water claim prescribed in RCW 90.14.051 if the applicant provides reasons for the failure to claim such right in the original claim;
2) A change in circumstances not foreseeable at the time the original claim was filed, if such change in circumstances relates only to the manner of transportation or diversion of the water and not to the use or quantity of such water; or
3) The amendment is ministerial in nature.

(b) The department shall accept any such submission and file the same in the registry unless the department by written determination concludes that the requirements of (a)(i), (ii), or (iii) of this subsection ((1)(ii) or (1)(iii) of this section) have not been satisfied.

(2) In addition to subsection (1) of this section, a surface water right claim may be changed or transferred in the same manner as a permit or certificate under RCW 90.03.380, and a water right claim for groundwater may be changed or transferred as provided under RCW 90.03.380 and 90.44.100.

(3) Any person aggrieved by a determination of the department may obtain a review thereof by filing a petition for review with the pollution control hearings board within thirty days of the date of the determination by the department. The provisions of RCW 90.14.081 shall apply to any amendment filed or approved under this section.

Sec. 9. RCW 90.44.100 and 2009 c 183 s 16 are each amended to read as follows:

(1) After an amendment to, and upon the issuance by the department of an amendment to the appropriate permit or certificate of groundwater right, the holder of a valid right to withdraw public groundwater may, without losing the holder's priority of right, construct wells or other means of withdrawal at a new location in substitution for or in addition to those at the original location, or the holder may change the manner or the place of use of the water.

(2) An amendment to construct replacement or a new additional well or wells at a location outside of the location of the original well or wells or to change the manner or place of use of the water shall be issued only after publication of notice of the application and findings as prescribed in the case of an original application. Such amendment shall be issued by the department only on the conditions that: (a) The additional or replacement well or wells shall tap the same body of public groundwater as the original well or wells; (b) where a replacement well or wells is approved, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c)
where an additional well or wells is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original permit or certificate; and (d) other existing rights shall not be impaired. The department may specify an approved manner of construction and shall require a showing of compliance with the terms of the amendment, as provided in RCW 90.44.080 in the case of an original permit.

(3) The construction of a replacement or new additional well or wells at the location of the original well or wells shall be allowed without application to the department for an amendment. However, the following apply to such a replacement or new additional well: (a) The well shall tap the same body of public groundwater as the original well or wells; (b) if a replacement well is constructed, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) if a new additional well is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original permit or certificate; (d) the construction and use of the well shall not interfere with or impair water rights with an earlier date of priority than the water right or rights for the original well or wells; (e) the replacement or additional well shall be located no closer than the original well to a well it might interfere with; (f) the department may specify an approved manner of construction of the well; and (g) the department shall require a showing of compliance with the conditions of this subsection (3).

(4) As used in this section, the “location of the original well or wells” of a water right permit or certificate is the area described as the point of withdrawal in the original public notice published for the application for the water right for the well. The location of the original well or wells of a water right claim filed under chapter 90.14 RCW is the area located within a one-quarter mile radius of the current well or wells.

(5) The development and use of a small irrigation impoundment, as defined in RCW 90.03.370(8), does not constitute a change or amendment for the purposes of this section. The exemption expressly provided by this subsection shall not be construed as requiring an amendment of any existing water right to enable the holder of the right to store water governed by the right.

(6) This section does not apply to a water right involved in an approved local water plan created under RCW 90.92.090 or a banked water right under RCW 90.92.070.

Sec. 10. RCW 90.44.100 and 2003 c 329 s 3 are each amended to read as follows:

(1) After an application to, and upon the issuance by the department of an amendment to the appropriate permit or certificate of groundwater right, the holder of a valid right to withdraw public groundwaters may, without losing the holder's priority of right, construct wells or other means of withdrawal at a new location in substitution for or in addition to those at the original location, or the holder may change the manner or the place of use of the water.

(2) An amendment to construct replacement or a new additional well or wells at a location outside of the location of the original well or wells or to change the manner or place of use of the water shall be issued only after publication of notice of the application and findings as prescribed in the case of an original application. Such amendment shall be issued by the department only on the conditions that: (a) The additional or replacement well or wells shall tap the same body of public groundwater as the original well or wells; (b) where a replacement well or wells is approved, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) where an additional well or wells is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original permit or certificate; and (d) other existing rights shall not be impaired. The department may specify an approved manner of construction and shall require a showing of compliance with the terms of the amendment, as provided in RCW 90.44.080 in the case of an original permit.

(3) The construction of a replacement or new additional well or wells at the location of the original well or wells shall be allowed without application to the department for an amendment. However, the following apply to such a replacement or new additional well: (a) The well shall tap the same body of public groundwater as the original well or wells; (b) if a replacement well is constructed, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) if a new additional well is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original water use permit or certificate; (d) the construction and use of the well shall not interfere with or impair water rights with an earlier date of priority than the water right or rights for the original well or wells; (e) the replacement or additional well shall be located no closer than the original well to a well it might interfere with; (f) the department may specify an approved manner of construction of the well; and (g) the department shall require a showing of compliance with the conditions of this subsection (3).

(4) As used in this section, the “location of the original well or wells” of a water right permit or certificate is the area described as the point of withdrawal in the original public notice published for the application for the water right for the well. The location of the original well or wells of a water right claim filed under chapter 90.14 RCW is the area located within a one-quarter mile radius of the current well or wells.

(5) The development and use of a small irrigation impoundment, as defined in RCW 90.03.370(8), does not constitute a change or amendment for the purposes of this section. The exemption expressly provided by this subsection shall not be construed as requiring an amendment of any existing water right to enable the holder of the right to store water governed by the right.

NEW SECTION. Sec. 11. A new section is added to chapter 90.44 RCW to read as follows:

Applications to appropriate groundwater under a cost-reimbursement agreement must be processed in accordance with RCW 90.03.265 when an applicant requests the assignment of a cost-reimbursement consultant as provided in RCW 43.21A.690.

NEW SECTION. Sec. 12. A new section is added to chapter 90.44 RCW to read as follows:

(1) The department may expedite processing of applications within the same source of water on its own volition when there is interest from a sufficient number of applicants or upon receipt of written requests from at least ten percent of the applicants within the same source of water.

(2) If the conditions of subsection (1) of this section have been met and the department determines that the public interest is best served by expediting applications within a water source, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general circulation in the area where affected properties are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that expedited processing of applications within the described water source is being initiated;
(b) Provide to individual applicants the criteria under which the applications will be examined and determined;
(c) Provide to individual applicants the estimated cost for having an application processed on an expedited basis;
(d) Provide an estimate of how long the expedited process will take before an application is approved or denied; and
(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in expedited processing of their applications.

(3) In addition to the application fees provided in RCW 90.03.470, the department must recover the full cost of processing all the applications from applicants who elect to participate within the water source through expedited processing fees. The department must calculate an expedited processing fee based primarily on the proportionate quantity of water requested by each applicant and may adjust the fee if it appears that an application will require a disproportionately greater amount of time and effort to process due to its complexity. Any application fees that were paid by the applicant under RCW 90.03.470 must be credited against the applicant's share of the cost of processing applications under the provisions of this section.

(4) The expedited processing fee must be collected by the department prior to the expedited processing of an application. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. An applicant who has stated in writing that he or she wants his or her application processed using the expedited procedures in this section must transmit the processing fee within sixty days of the written request. Failure to do so will result in the applicant not being included in expedited processing for that water source.

(5) If an applicant elects not to participate in expedited processing, the application remains on file with the department, the applicant retains his or her priority date, and the application may be processed through regular processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW. Such an application may not be processed through expedited processing within twelve months after the department's issuance of decisions on participating applications at the conclusion of expedited processing unless the applicant agrees to pay the full proportionate share that would otherwise have been paid during such processing. Any proceeds collected from an applicant under this delayed entry into expedited processing shall be used to reimburse the other applicants who participated in the previous expedited processing of applications, provided sufficient proceeds remain to fully cover the department's cost of processing the delayed entry application and the department's estimated administrative costs to reimburse the previously expedited applicants.

NEW SECTION. Sec. 13. Section 9 of this act expires June 30, 2019.

NEW SECTION. Sec. 14. Section 10 of this act takes effect June 30, 2019.

NEW SECTION. Sec. 15. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 16. It is the intent of the legislature to recover the actual cost of processing applications for water right permits and to stop subsidizing the processing of water right permits out of general tax revenues. The legislature recognizes that the largest beneficiary of receiving a water permit is the person receiving the water permit.

It is further the intent of the legislature that the backlog of applications be eliminated within five years of the effective date of this section and that thereafter water right permit applications be processed to a conclusion within twelve months of an application being made to the department of ecology.

NEW SECTION. Sec. 17. A new section is added to chapter 90.03 RCW to read as follows:

The water rights processing and dam safety account is created in the state treasury. All receipts from the fees collected under RCW 90.03.470 must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only to support the processing of water right applications and change applications as provided in this chapter and chapters 90.38, 90.42, and 90.44 RCW and the safety inspection of hydraulic works and plans and specifications for such works.

Sec. 18. RCW 90.03.470 and 2005 c 412 s 2 are each amended to read as follows:

The fees specified in this section shall be collected by the department in advance of the requested action.

(1) For the examination of an application for a permit to appropriate water, a minimum fee of fifty dollars must be remitted with the application.

For an amount of water exceeding one-half cubic foot per second, the examination fee shall be assessed at the rate of one dollar per one hundred cubic foot per second. In no case will the examination fee be less than fifty dollars or more than twenty-five thousand dollars. No fee is required under this subsection (1) for an application filed by a party to a cost-reimbursement agreement made under RCW 90.03.265.) For the examination of an application for a permit to appropriate water or for an application to change, transfer, or amend an existing water right, an examination fee equal to one hundred dollars for each one-hundredth of a cubic foot per second must be remitted with the application, but in no case may the examination fee be less than one thousand dollars or more than fifty thousand dollars.

(2) The following fees apply for the examination of an application to store water, a fee of two dollars for each acre-foot of storage proposed shall be charged, but a minimum fee of fifty dollars must be remitted with the application. In no case will the examination fee for a storage project be less than fifty dollars or more than twenty-five thousand dollars. No fee is required under this subsection (2) for an application filed by a party to a cost-reimbursement agreement made under RCW 90.03.265) and for an application to change a storage right.

(a) For storage of less than one hundred acre-feet of water, an examination fee of one thousand dollars must be remitted with the application.
(b) For storage of more than one hundred acre-feet of water but less than or equal to one thousand acre-feet of water, an examination fee of two thousand dollars must be remitted with the application.
(c) For storage of more than one thousand acre-feet of water but less than or equal to ten thousand acre-feet of water, an examination fee of seven thousand five hundred dollars must be remitted with the application.
(d) For storage of more than ten thousand acre-feet of water, an examination fee of fifteen thousand dollars must be remitted with the application.

(3)(a) For the examination of an application to transfer, change, or amend a water right certificate, permit, or claim as authorized by RCW 90.44.100, 90.44.105, or 90.03.380, a minimum fee of fifty dollars must be remitted with the application. For an application for change involving an amount of water exceeding one cubic foot per second, the total examination fee shall be assessed at the rate of fifty cents per one hundred cubic foot per second. For an application for change of a storage water right, the total examination fee shall be assessed at the rate of one dollar for each acre-foot of water involved in the change. The fee shall be based on the amount of water subject to change as proposed in the application, not on the total amount of water reflected in the water right certificate, permit, or claim. In no
case will the examination fee charged for a change application be less than fifty dollars or more than twelve thousand five hundred dollars.  
(b)) The fee paid to the department for an application for change filed with a water conservancy board under chapter 90.80 RCW or for an application for change filed by a party to a cost-reimbursement agreement under RCW 90.03.265 must be one-fifth of the amounts provided in subsections (1) and (2) of this section. A conservancy board may charge its own processing fees in accordance with RCW 90.80.060.  
(b) The examination fee for a temporary or seasonal change under RCW 90.03.390 is (fifty) two hundred dollars and must be remitted with the application.  
(c) No fee is required under this subsection (3) for:

(d) For a change, transfer, or amendment involving a single project operating under more than one water right, including related secondary diversion rights, or involving the consolidation of multiple water rights, only one examination fee and one certificate fee are required to be paid.  
(4) (The fifty-dollar minimum fee payable with the application shall be a credit to the total amount whenever the examination fee totals more than fifty dollars under the schedule specified in subsections (1) through (3) of this section and in such case the further fee due shall be the total computed amount, less the amount previously paid. Within five working days from receipt of an application, the department shall notify the applicant by registered mail of any additional fees due under subsections (1) through (3) of this section.) (a) The fee amounts specified in this section apply to applications received after the effective date of this section and to all applications that have not been acted on by the department by issuance of a report of examination as of the effective date of this section. For pending applications that were filed prior to the effective date of this section, any fees that were paid under a previous fee schedule must be credited to the amounts required by subsections (1), (2), and (3) of this section. When the department is prepared to take action on an application that was filed prior to the effective date of this section, the department shall notify the applicant that additional fees are due and give the applicant sixty days to remit the additional fees. If the applicant fails to remit the additional fees within the time provided, the department shall cancel the application and inform the applicant of the cancellation.  
(b) If the department receives a water right, change, transfer, amendment, or storage application that does not include remittance of the fee amounts required by this section, the department shall return the application to the applicant with instructions on the proper fee amount to be remitted. An application does not establish a priority date until the proper fee is remitted.  
(5) The (fees specified in subsections (1) through (3) of this section do not apply to any filings) fee for filing an emergency withdrawal authorization(ies) or temporary drought-related water right change(s) authorized under RCW 43.83B.410 that ((are)) is received by the department while a drought condition order issued under RCW 43.83B.405 is in effect is one hundred dollars.  
(6) For applying for each extension of time for beginning construction work under a permit to appropriate water, for completion of construction work, or for completing application of water to a beneficial use, a fee of two hundred fifty dollars is required. These fees also apply to similar extensions of time requested under a change or transfer authorization.  
(7) For the inspection of any hydraulic works to ((ensure)) ensure safety to life and property, a fee based on the actual cost of the inspection, including the expense incident thereto, is required (except as follows: (a) For any hydraulic works less than ten years old, that the department examined and approved the construction plans and specifications as to its safety when required under RCW 90.03.350, there shall be no fee charged; or (b) for any hydraulic works more than ten years old, but less than twenty years old, that the department examined and approved the construction plans and specifications as to its safety when required under RCW 90.03.350, the fee charged shall not exceed the fee for a significant hazard dam)).  
(8) For the examination of plans and specifications as to safety of controlling works for storage of ten acre feet or more of water, a minimum fee of ((fifty)) five hundred dollars, or a fee equal to the actual cost, is required.  
(9) For recording an assignment either of a permit to appropriate water or of an application for such a permit, a fee of ((fifty)) two hundred dollars is required.  
(10) For preparing and issuing all water right certificates, a fee of ((fifty)) two hundred dollars is required.  
(11) For filing and recording a formal protest against grantin  
(12) For filing an application to amend a water right claim filed under chapter 90.14 RCW, a fee of ((fifty)) two hundred dollars is required.  
(13) For the registration of a new permit exempt groundwater withdrawal as required by RCW 90.44.050, a fee of three hundred dollars must be remitted.  
(14)(a) Each person who holds a water right permit application, a reservoir permit application, or a change, transfer, or amendment application that is pending at any time between the effective date of this section and June 30, 2011, must remit a one-time fee of two hundred dollars to the department to retain an application in good standing. The department shall provide written notice by certified mail to each holder of an application for the fees that are due under this section. The notice must require that the fees be paid within sixty days of the date of receipt, but in no case may payment be due later than June 30, 2011. For ease of administration, the department may distribute the issuance of the notices by geographic area. The surcharge paid under this subsection is a credit against the application fees required in this section.  
(b) Applications not in good standing must be canceled. The department shall issue an order to any holder of an application who fails to pay the fee within the prescribed time. The order must state that the application is canceled unless payment is received within thirty days.  
(c) The department shall advise an applicant and provide an opportunity for an applicant to withdraw their application without further payment of fees if the department determines that the application would not likely be approved. The department shall summarize the basis for its conclusion to the applicant. The department shall further advise that the applicant has the option of providing an amended application that could include storage or other resource management technique that might make it approvable under RCW 90.03.255 or 90.44.055. The department’s advice is not subject to appeal. If the applicant decides to retain the application on file and pays the fee required in this subsection, the department shall maintain the application in good standing until it is able to render a final decision on the application. The final decision is subject to appeal to the pollution control hearings board as provided under chapter 43.21B RCW.
(15) An application or request for an action as provided for under this section is incomplete unless accompanied by the fee or the minimum fee. If no fee or an amount less than the minimum fee accompanies an application or request for an action as provided under this section, the department shall return the application or request to the applicant with advice as to the fee that must be remitted with the application or request for it to be accepted for processing. If additional fees are due, the department shall provide timely notification by certified mail with return receipt requested to the applicant. No action may be taken by the department until the fee is paid in full. Failure to remit fees within sixty days of the department's notification is grounds for rejecting the application or request or canceling the permit. Cash shall not be accepted. Fees must be paid by check or money order and are nonrefundable.

(16) For purposes of calculating fees for groundwater filings, one cubic foot per second shall be regarded as equivalent to four hundred fifty gallons per minute.

((15) Eighty percent of the fees collected by the department under this section shall be deposited in the state general fund. Twenty percent of the fees collected by the department under this section shall be deposited in the water rights tracking system account established in RCW 90.14.240.

(16) Except for the fees relating to the inspection of hydraulic works and the examination of plans and specifications of controlling works provided for in subsections (7) and (8) of this section, nothing in this section is intended to grant authority to the department to amend the fees in this section by adoption of rules or otherwise.)

(17) The fees collected by the department under this section must be deposited in the water rights processing and dam safety account created in section 17 of this act.

(18)(a) The fees specified in this section are effective until the department adopts rules that modify them in accordance with section 21 of this act, except that the fees required in subsections (7) and (8) of this section may be modified at any time.

(b) When information has been previously obtained that directly relates to the processing of an application in subsections (1) and (2) of this section, the department must proportionately reduce the fees associated with that application as a result of the reduced workload of the department.

NEW SECTION. Sec. 19. A new section is added to chapter 90.03 RCW to read as follows:

Within existing appropriations, the department must provide grant funds to assist applicants in the payment of fees required in RCW 90.03.470. The department shall give priority in the distribution of grant money to applicants who designate on their application that the water will be used for agricultural purposes.

Sec. 20. RCW 90.44.050 and 2003 c 307 s 1 are each amended to read as follows:

(1) After June 6, 1945, no withdrawal of public groundwater of the state shall be begun, nor shall any well or other works for such withdrawal be constructed, unless an application to appropriate such waters has been made to the department and a permit has been granted by it as herein provided: EXCEPT, HOWEVER, That any withdrawal of public groundwater for stock-watering purposes, or for the watering of a lawn or of a noncommercial garden not exceeding one-half acre in area, or for single or group domestic uses in an amount not exceeding five thousand gallons a day, or as provided in RCW 90.44.052, or for an industrial purpose in an amount not exceeding five thousand gallons a day, and shall be exempt from the provisions of this section, but, to the extent that it is regularly used beneficially, shall be entitled to a right equal to that established by a permit issued under the provisions of this chapter: PROVIDED, HOWEVER, That the department from time to time may require the person or agency making any such small withdrawal to furnish information as to the means for and the quantity of that withdrawal: PROVIDED, FURTHER, That at the option of the party making withdrawals of groundwater of the state not exceeding five thousand gallons per day, applications under this section or declarations under RCW 90.44.090 may be filed and permits and certificates obtained in the same manner and under the same requirements as is in this chapter provided in the case of withdrawals in excess of five thousand gallons a day.

(2)(a) The owner of a permit exempt withdrawal established under this section, the beneficial use of which is commenced on or after the effective date of this section, must register the withdrawal with the department on a registration form provided by the department. The registration must include information regarding the ownership and intended purpose of the withdrawal, the amounts withdrawn or proposed to be withdrawn, and the location, size, depth, and other particulars regarding the well. The department shall make the registration form available on its internet site and shall accept the filing of registration forms electronically as well as by conventional mail or personal delivery.

(b) For each permit exempt withdrawal the beneficial use of which is commenced on or after the effective date of this section, the registration form must be accompanied by a fee of three hundred dollars. Upon receiving a completed registration form and fee, the department shall make a record of the registration form and shall return a copy of the registration marked as having been received and registered.

(c) The well or wells being registered must be tagged in accordance with RCW 18.104.040(6). The department shall provide an identification tag for each well and shall instruct the owner to affix the tags to the wells used to withdraw water.

(d) Whenever the owner of a permit exempt withdrawal adds dwelling units or additional purposes for the use of the withdrawal or otherwise increases the amount of water to be withdrawn by more than twenty percent, a new registration form and fee of one hundred dollars must be filed.

(e) All fees collected under this section must be deposited into the water rights processing and dam safety account created in section 17 of this act.

(3) The department may issue either an order under RCW 43.27A.190 or a civil penalty under RCW 90.03.600, or both, to the owner of a new permit exempt withdrawal who fails to file the registration form and fee required in subsection (2) of this section. Before issuing an order or penalty, the department shall inform the owner in writing by registered mail with return receipt that the registration form and fee must be remitted within thirty days. An order issued under this subsection may require the owner to cease withdrawing and using water until the form and fee have been filed. If the owner continues to refuse to file the form and fee, the department may issue an order requiring that the subject well or wells be decommissioned.

(4) A permit exempt withdrawal, the beneficial use of which is commenced on or after the effective date of this section, that has not been registered shall not be recognized as a water right under a general adjudication of water rights held under chapter 90.03 RCW.

NEW SECTION. Sec. 21. A new section is added to chapter 90.03 RCW to read as follows:

To effectuate the purpose of fully recovering the direct administrative costs incurred by the state to process water right and storage applications under this chapter and RCW 90.44.050 and to inspect and approve hydraulic works under this chapter, the department may periodically adopt rules to adjust the fees established in RCW 90.03.470. Any subsequent fees adopted by rule supersede those provided in RCW 90.03.470. Before proposing to adopt any changes to the fees, the department shall consult with the policy committees of the legislature that review water resources legislation.

NEW SECTION. Sec. 22. A new section is added to chapter 90.03 RCW to read as follows:
(1) The department shall submit a report to the legislature prior to December 31, 2012, and biennially thereafter until December 31, 2020, on the status of the backlog of applications for water right permits, the effectiveness of processing water right permit applications to a conclusion within twelve months, and the appropriateness of the fee amounts.

(2) This section expires January 1, 2021.

NEW SECTION. Sec. 23. A new section is added to chapter 90.44 RCW to read as follows:

(1) The department may not require withdrawals of groundwater to be metered or measured for wells authorized under the provisions of RCW 90.44.050 constructed prior to the effective date of this section for single or group domestic uses that do not exceed withdrawing five thousand gallons a day.

(2) This section does not apply to wells the department has required to be metered or measured as of the effective date of this section.”

(1) The department or supervising agency shall provide the child's foster parents, adoptive parents, or other caregivers with notice of their right to be heard prior to each proceeding held with respect to the child in juvenile court under this chapter. The rights to notice and to be heard apply only to persons with whom a child has been placed by the department (before shelter care)) or other supervising agency and who are providing care to the child at the time of the proceeding. This section shall not be construed to grant party status to any person solely on the basis of such notice and right to be heard.

(2) The department or other supervising agency and the court also shall consider, in any hearing under this chapter regarding a change in the child's placement, written information about the child submitted by persons who provided care to the child within twelve months preceding the hearing and other persons who have a significant relationship with the child.

Sec. 3. RCW 74.13.300 and 2009 c 520 s 77 are each amended to read as follows:
(1) Whenever a child has been placed in a foster family home or in the home of a relative caregiver or other suitable person as described in RCW 13.34.130(1)(b) by the department or supervising agency and the child has thereafter resided in the home for at least ninety consecutive days, the department or supervising agency shall notify the foster family, relative caregiver, or other suitable person at least five days prior to moving the child to another placement, unless:

(b) The child is being returned home;
(c) The child's safety is in jeopardy; or
(d) The child is residing in a receiving home or a group home.

(2) If the child has resided in a foster family home or in the home of a relative caregiver or other suitable person as described in RCW 13.34.130(1)(b) for less than ninety days or if, due to one or more of the circumstances in subsection (1) of this section, it is not possible to give five days' notification, the department or supervising agency shall notify the foster family, relative caregiver, or suitable person of proposed placement changes as soon as reasonably possible.

(3) This section is intended (solely) to assist in minimizing disruption to the child in changing ((foster care)) placements.

Nothing in this section shall be construed to require that a court hearing be held prior to changing a child's ((foster care)) placement nor to create any substantive custody rights ((in the)) for foster parents, relative caregivers, or other suitable persons with whom a child is placed.

(4) Whenever a child has been placed with and resided in the home of a foster family, relative caregiver, or other suitable person as described in RCW 13.34.130(1)(b) for twelve continuous months or longer, the notice required under this section must be in writing and specify the reasons for changing the child's placement. The department shall report annually to the appropriate committees of the legislature regarding changes in placement for children who have resided for twelve continuous months or longer with a foster family, relative caregiver, or other suitable person, including the reasons for changing the placements of those children. The first report is due to the legislature not later than September 1, 2011, and a final report is due September 1, 2015.

Sec. 4. RCW 13.34.105 and 2008 c 267 s 13 are each amended to read as follows:
(1) Unless otherwise directed by the court, the duties of the guardian ad litem for a child subject to a proceeding under this chapter, including an attorney specifically appointed by the court to serve as a guardian ad litem, include but are not limited to the following:

(2) When a child, in the course of a guardian ad litem's normal investigation and collection of information for the court, makes a disclosure of abuse or neglect, the guardian ad litem shall make a referral to child protective services pursuant to RCW 26.44.030.

Prime Sponsor, Committee on Ways & Means: Regarding the basic education instructional allocation distribution formula. Reported by Committee on Education Appropriations

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) It is the legislature's intent to continue implementation of chapter 548, Laws of 2009, by adopting the technical details of a new distribution formula for the instructional program of basic education and authorizing a phase-in of implementation of a new distribution formula for pupil transportation, both to take effect September 1, 2011. Unless otherwise stated, the numeric values adopted in section 2 of this act represent the translation of 2009-2010 state funding levels for the basic education act into the funding factors of the prototypical school funding formula, based on the expert advice and extensive work of the funding formula technical working group established by the legislature for this purpose. The legislature intends to continue to review and revise the formulas and may make revisions as necessary for technical purposes and consistency in the event of mathematical or other technical errors.
   (2) The legislature intends that basic education funding for a school district shall not be decreased as a result of the transition of basic education funding formulas in effect during the 2009-2011 biennium to the new funding formulas under RCW 28A.150.260 that take effect September 1, 2011.
   (3) It is also the legislature's intent to adopt an implementation schedule for phasing-in enhancements to the baseline funding levels of 2009-10 beginning in the 2011-12 school year for pupil transportation, class size allocations for grades kindergarten through three, full-day kindergarten, and allocations for maintenance, supplies, and operating costs.
   (4) Finally, it is the legislature's intent to adjust the timelines for other working groups so that their expertise and advice can be received as soon as possible and to make technical adjustments to certain provisions of chapter 548, Laws of 2009."
Sec. 2. RCW 28A.150.260 and 2009 c 548 s 106 are each amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2) The distribution formula under this section shall be for allocation purposes only. Except as may be required under chapter 28A.155, 28A.165, 28A.180, or (28A.185) 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

(3)(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section.

The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) For the purposes of this section, prototypical schools are defined as follows:

(i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;
(ii) A prototypical middle school has four hundred thirty average annual full-time equivalent students in grades seven and eight; and
(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

((4)(a)) (4)(a) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on (4)(a) the following general education average class size (as specified in the omnibus appropriations act)) of full-time equivalent students per teacher:

(b) Beginning in the 2011-12 school year and beginning with schools with the highest percentage of students eligible for free and reduced-price meals in the prior school year, the general education average class size for grades K-3 shall be reduced until the average class size funded under this subsection (4) is no more than 15.0 full-time equivalent students per teacher beginning in the 2015-16 school year.

(c) The minimum allocation for each prototypical middle and high school shall also provide for full-time equivalent classroom teachers based on the following number of full-time equivalent students per teacher in career and technical education:

Career and technical education average class size

Approved career and technical education offered at the middle school and high school level 26.57

Skill center programs meeting the standards established by the office of the superintendent of public instruction 22.76

(iv) Average class size in grades kindergarten through three).)

((iii)) (5) The minimum allocation for each level of prototypical school shall include allocations for the following types of staff in addition to classroom teachers:

(iii) Principals, including assistant principals, and other certificated building-level administrators;
(ii) Teacher librarians, performing functions including information literacy, technology, and media to support school library media programs;
(iii) Student health services, a function that includes school nurses, whether certificated instructional or classified employee, and social workers;

Examples of topics addressed by the technical assistance include strategic planning, developing the instructional program and curriculum, working with early learning providers to identify students and communicate with parents, and developing kindergarten program readiness activities.

Sec. 5. 2009 e 548 s 112 (uncodified) is amended to read as follows:

(1) The legislature intends to continue to redefine the instructional program of education under RCW 28A.150.220 that fulfills the obligations and requirements of Article IX of the state Constitution. The funding formulas under RCW 28A.150.260 to support the instructional program shall be implemented to the extent the technical details of the formula have been established and according to an implementation schedule to be adopted by the legislature. The object of the schedule is to assure that any increases in funding allocations are timely, predictable, and occur concurrently with any increases in program or instructional requirements. It is the intent of the legislature that no increased programmatic or instructional expectations be imposed upon schools or school districts without an accompanying increase in resources as necessary to support those increased expectations.

(2) The office of financial management, with assistance and support from the office of the superintendent of public instruction, shall convene a technical working group to:

(a) Develop the details of the funding formulas under RCW 28A.150.260;

The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders. The local funding working group shall be monitored and overseen by the legislature and by the quality education council created in ((section 114 of this act)) RCW 28A.290.010. The working group shall report to the legislature ((December 1)) June 30, 2011.

Sec. 7. RCW 43.41.398 and 2009 e 548 s 601 are each amended to read as follows:

(1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of the superintendent of public instruction, in collaboration with the office of financial management, shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

(a) How to reduce the number of tiers within the existing salary allocation model;

(b) How to account for labor market adjustments;
(c) How to account for different geographic regions of the state
where districts may encounter difficulty recruiting and retaining
teachers;
(d) The role of and types of bonuses available;
(e) Ways to accomplish salary equalization over a set number of
years; and
(f) Initial fiscal estimates for implementing the recommendations
including a recognition that staff on the existing salary allocation
model would have the option to grandfather in permanently to
the existing schedule.
(3) As part of its work, the technical working group shall conduct
or contract for a preliminary comparative labor market analysis of
salaries and other compensation for school district employees to be
conducted and shall include the results in any reports to the
legislature. For the purposes of this subsection, "salaries and other
compensation" includes average base salaries, average total salaries,
average employee basic benefits, and retirement benefits.
(4) The analysis required under subsection (1) of this section
must:
(a) Examine salaries and other compensation for teachers, other
certificated instructional staff, principals, and other building-level
certificated administrators, and the types of classified employees for
whom salaries are allocated;
(b) Be calculated at a statewide level that identifies labor markets
in Washington through the use of data from the United States bureau
of the census and the bureau of labor statistics; and
(c) Include a comparison of salaries and other compensation to the
appropriate labor market for at least the following subgroups of
educators: Beginning teachers and types of educational staff
associates.
(5) The working group shall include representatives of the
department of personnel, the professional educator standards board,
the office of the superintendent of public instruction, the Washington
education association, the Washington association of school
administrators, the association of Washington school principals, the
Washington state school directors’ association, the public school
employees of Washington, and other interested stakeholders with
appropriate expertise in compensation related matters. The working
group may convene advisory subgroups on specific topics as
necessary to assure participation and input from a broad array of
diverse stakeholders.
(6) The working group shall be monitored and overseen by the
legislature and the quality education council created in RCW
28A.150.260. The working group shall make an initial report to the

Factors must include all those site characteristics that are statistically
significant after analysis of the data required by the revised reporting
process.
(b) The formula must allocate funds to school districts based on
the average predicted costs of transporting students to and from
school, using a regression analysis.
(2) During the phase-in period, funding provided to school
districts for student transportation operations shall be distributed on
the following basis:
(a) Annually, each school district shall receive the lesser of the
previous school year’s pupil transportation operations allocation, or
the total of allowable pupil transportation expenditures identified on
the previous school year’s final expenditure report to the state plus
district indirect expenses using the state recovery rate identified by the
superintendent; and
(b) Annually, any funds appropriated by the legislature in excess of
the maintenance level funding amount for student transportation
shall be distributed among school districts on a prorated basis using
the difference between the amount identified in (a) of this subsection
and the amount determined under the formula in RCW 28A.160.180.
(((3) The superintendent shall develop, implement, and provide a

quarter-hour credits received by any employee after the baccalaureate

counselors, and psychologists regulated under Title 18 RCW may
include experience in schools and other nonschool positions as
occupational therapists, physical therapists, speech-language
pathologists, audiologists, nurses, social workers, counselors, or
psychologists. The calculation shall be that one year of service in a
nonschool position counts as one year of service for purposes of this chapter, up to a limit of two years of nonschool service. Measurements shall be along or parallel to the edge of the main traveled way of the highway. The following shall not be considered commercial or industrial activities:

For type 3 signs (temporary agricultural directional signs), when the land in question is owned by the department, the consent statement must be reviewed and, if the sign does not create a safety concern, be approved within ten days of application by the department. The application shall be accompanied by a fee established by department rule to be deposited with the state treasurer to the credit of the motor vehicle fund. Permits shall be for the remainder of the calendar year in which they are issued, and accompanying fees shall not be prorated for fractions of the year. Permits must be renewed annually through a certification process established by department rule. Advertising copy may be changed at any time without the payment of an additional fee. Assignment of permits in good standing is effective only upon receipt of written notice of assignment by the department. A permit may be revoked after hearing if the department finds that any statement made in the application or annual certification process was false or misleading, or that the sign covered is not in good general condition and in a reasonable state of repair, or is otherwise in violation of this chapter, if the false or misleading information has not been corrected and the sign

(1) It is unlawful for any person to drive a motor vehicle in this state while that person is in a suspended or revoked status or when his or her privilege to drive is suspended or revoked in this or any other state. Any person who has a valid Washington driver's license is not guilty of a violation of this section.
(a) A person found to be an habitual offender under chapter 46.65 RCW, who violates this section while an order of revocation issued under chapter 46.65 RCW prohibiting such operation is in effect, is guilty of driving while license suspended or revoked in the first degree, a gross misdemeanor. Upon the first such conviction, the person shall be punished by imprisonment for not less than ten days. Upon the second conviction, the person shall be punished by imprisonment for not less than ninety days. Upon the third or subsequent conviction, the person shall be punished by imprisonment for not less than one hundred eighty days. If the person is also convicted of the offense defined in RCW 46.61.502 or 46.61.504, when both convictions arise from the same event, the minimum sentence of confinement shall be not less than ninety days. The minimum sentence of confinement required shall not be suspended or deferred. A conviction under this subsection does not prevent a person from petitioning for reinstatement as provided by RCW 46.65.080.

(b) A person who violates this section while an order of suspension or revocation prohibiting such operation is in effect and while the person is not eligible to reinstate his or her driver's license or driving privilege, other than for a suspension for the reasons described in (c) of this subsection, is guilty of driving while license suspended or revoked in the second degree, a gross misdemeanor. This subsection applies when a person's driver's license or driving privilege has been suspended or revoked by reason of:
(i) A conviction of a felony in the commission of which a motor vehicle was used;
(ii) A previous conviction under this section;
(iii) A notice received by the department from a court or diversion unit as provided by RCW 46.20.265, relating to a minor who has committed, or who has entered a diversion unit concerning an offense relating to alcohol, legend drugs, controlled substances, or imitation controlled substances;
(iv) A conviction of RCW 46.20.410, relating to the violation of restrictions of an occupational driver's license, a temporary restricted driver's license, or an ignition interlock driver's license;
(v) A conviction of RCW 46.20.345, relating to the operation of a motor vehicle with a suspended or revoked license;
(vi) A conviction of RCW 46.52.020, relating to duty in case of injury to or death of a person or damage to an attended vehicle;
(vii) A conviction of RCW 46.61.024, relating to attempting to elude pursuing police vehicles;
(viii) A conviction of RCW 46.61.212(4), relating to reckless endangerment of emergency zone workers;
(ix) A conviction of RCW 46.61.500, relating to reckless driving;

A conviction of RCW 46.61.520, relating to vehicular homicide;

A conviction of RCW 46.61.522, relating to vehicular assault;

A conviction of RCW 46.61.527(4), relating to reckless endangerment of roadway workers;

A conviction of RCW 46.61.530, relating to racing vehicles on highways;

A conviction of RCW 46.61.685, relating to leaving children in an unattended vehicle with motor running;

A conviction of RCW 46.61.740, relating to theft of motor vehicle fuel;

A conviction of RCW 46.64.048, relating to attempting, aiding, abetting, coercing, and committing crimes;

An administrative action taken by the department under chapter 46.20 RCW, or a conviction of a local law, ordinance, regulation, or resolution of a political subdivision of this state, the federal government, or any other state, of an offense substantially similar to a violation included in this subsection.

A person who violates this section when his or her driver's license or driving privilege is, at the time of the violation, suspended or revoked solely because (i) the person must furnish proof of satisfactory progress in a required alcoholism or drug treatment program, (ii) the person must furnish proof of financial responsibility for the future as provided by chapter 46.29 RCW, (iii) the person has failed to comply with the provisions of chapter 46.29 RCW relating to uninsured accidents, (iv) the person has failed to respond to a notice of traffic infraction, failed to appear at a requested hearing, violated a written promise to appear in court, or has failed to comply with the terms of a notice of traffic infraction or citation, as provided in RCW 46.20.289, (v) the person has committed an offense in another state that, if committed in this state, would not be grounds for the suspension or revocation of the person's driver's license, (vi) the person has been suspended or revoked by reason of one or more of the items listed in (b) of this subsection, but was eligible to reinstate his or her driver's license or driving privilege at the time of the violation, or (vii) the person has received traffic citations or notices of traffic infraction that have resulted in a suspension under RCW 46.20.267 relating to intermediate drivers' licenses, or any combination of (c)(ii) through (vii) of this subsection, is guilty of driving while license suspended or revoked in the third degree, a misdemeanor.

(2) Upon receiving a record of conviction of any person or upon receiving an order by any juvenile court or any duly authorized court officer of the conviction of any juvenile under this section, the department shall:

(a) For a conviction of driving while suspended or revoked in the first degree, as provided by subsection (1)(a) of this section, extend the period of administrative revocation imposed under chapter 46.65 RCW for an additional period of one year from and after the date the person would otherwise have been entitled to apply for a new license or have his or her driving privilege restored; or

(b) For a conviction of driving while suspended or revoked in the second degree, as provided by subsection (1)(b) of this section, not issue a new license or restore the driving privilege for an additional period of one year from and after the date the person would otherwise have been entitled to apply for a new license or have his or her driving privilege restored; or

(c) Not extend the period of suspension or revocation if the conviction was under subsection (1)(c) of this section. If the conviction was under subsection (1)(a) or (b) of this section and the court recommends against the extension and the convicted person has obtained a valid driver's license, the period of suspension or revocation shall not be extended.

Sec. 5. RCW 46.63.110 and 2009 c 479 s 39 are each amended to read as follows:

(1) A person found to have committed a traffic infraction shall be assessed a monetary penalty. No penalty may exceed two hundred and fifty dollars for each offense unless authorized by this chapter or title.

(2) The monetary penalty for a violation of (a) RCW 46.55.105(2) is two hundred fifty dollars for each offense; (b) RCW 46.61.210(1) is five hundred dollars for each offense. No penalty assessed under this subsection (2) may be reduced.

(3) The supreme court shall prescribe by rule a schedule of monetary penalties for designated traffic infractions. This rule shall also specify the conditions under which local courts may exercise discretion in assessing fines and penalties for traffic infractions. The legislature respectfully requests the supreme court to adjust this schedule every two years for inflation.

(4) There shall be a penalty of twenty-five dollars for failure to respond to a notice of traffic infraction except where the infraction relates to parking as defined by local law, ordinance, regulation, or resolution or failure to pay a monetary penalty imposed pursuant to this chapter. A local legislative body may set a monetary penalty not to exceed twenty-five dollars for failure to respond to a notice of traffic infraction relating to parking as defined by local law, ordinance, regulation, or resolution. The local court, whether a municipal, police, or district court, shall impose the monetary penalty set by the local legislative body.

(5) Monetary penalties provided for in chapter 46.70 RCW which are civil in nature and penalties which may be assessed for violations of chapter 46.44 RCW relating to size, weight, and load of motor vehicles are not subject to the limitation on the amount of monetary penalties which may be imposed pursuant to this chapter.

(6) Whenever a monetary penalty, fee, cost, assessment, or other monetary obligation is imposed by a court under this chapter it is immediately payable. If the court determines, in its discretion, that a person is not able to pay a monetary obligation in full, and not more than one year has passed since the later of July 1, 2005, or the date the monetary obligation initially became due and payable, the court shall enter into a payment plan with the person, unless the person has previously been granted a payment plan with respect to the same monetary obligation, or unless the person is in noncompliance of any existing or prior payment plan, in which case the court may, at its discretion, implement a payment plan. If the court has notified the department that the person has failed to pay or comply and the person has subsequently entered into a payment plan and made an initial payment, the court shall notify the department that the infraction has been adjudicated, and the department shall rescind any suspension of the person's driver's license or driving privilege based on failure to respond to that infraction. "Payment plan," as used in this section, means a plan that requires reasonable payments based on the financial ability of the person to pay. The person may voluntarily pay an amount at any time in addition to the payments required under the payment plan.

(a) If a payment required to be made under the payment plan is delinquent or the person fails to complete a community restitution program on or before the time established under the payment plan, unless the court determines good cause therefor and adjusts the payment plan or the community restitution plan accordingly, the court shall notify the department of the person's failure to meet the conditions of the plan, and the department shall suspend the person's driver's license or driving privilege until all monetary obligations, including those imposed under subsections (3) and (4) of this section, have been paid, and court authorized community restitution has been completed, or until the department has been notified that the court has
entered into a new time payment or community restitution agreement with the person.

(b) If a person has not entered into a payment plan with the court and has not paid the monetary obligation in full on or before the time established for payment, the court shall notify the department of the delinquency. The department shall suspend the person's driver's license or driving privilege until all monetary obligations have been paid, including those imposed under subsections (3) and (4) of this section, or until the person has entered into a payment plan under this section.

(c) If the payment plan is to be administered by the court, the court may assess the person a reasonable administrative fee to be wholly retained by the city or county with jurisdiction. The administrative fee shall not exceed ten dollars per infraction or twenty-five dollars per payment plan, whichever is less.

(d) Nothing in this section precludes a court from contracting with outside entities to administer its payment plan system. When outside entities are used for the administration of a payment plan, the court may assess the person a reasonable fee for such administrative services, which fee may be calculated on a periodic, percentage, or other basis.

(e) If a court authorized community restitution program for offenders is available in the jurisdiction, the court may allow conversion of all or part of the monetary obligations due under this section to court authorized community restitution in lieu of time payments if the person is unable to make reasonable time payments.

(7) In addition to any other penalties imposed under this section and not subject to the limitation of subsection (1) of this section, a person found to have committed a traffic infraction shall be assessed:

(a) A fee of five dollars per infraction. Under no circumstances shall this fee be reduced or waived. Revenue from this fee shall be forwarded to the state treasurer for deposit in the emergency medical services and trauma care system trust account under RCW 70.168.040;

(b) A fee of ten dollars per infraction. Under no circumstances shall this fee be reduced or waived. Revenue from this fee shall be forwarded to the state treasurer for deposit in the Washington auto theft prevention authority account; and

(c) A fee of two dollars per infraction. Revenue from this fee shall be forwarded to the state treasurer for deposit in the traumatic brain injury account established in RCW 74.31.060.

(8)(a) In addition to any other penalties imposed under this section and not subject to the limitation of subsection (1) of this section, a person found to have committed a traffic infraction other than of RCW 46.61.527 or 46.61.212 shall be assessed an additional penalty of twenty dollars. The court may not reduce, waive, or suspend the additional penalty unless the court finds the offender to be indigent. If a court authorized community restitution program for offenders is available in the jurisdiction, the court shall allow offenders to offset all or a part of the penalty due under this subsection (8) by participation in the court authorized community restitution program.

(b) Eight dollars and fifty cents of the additional penalty under (a) of this subsection shall be remitted to the state treasurer. The remaining revenue from the additional penalty must be remitted under chapters 2.08, 3.46, 3.50, 3.62, 10.82, and 35.20 RCW. Money remitted under this subsection to the state treasurer must be deposited in the state general fund. The balance of the revenue received by the county or city treasurer under this subsection must be deposited into the county or city current expense fund. Moneys retained by the city or county under this subsection shall constitute reimbursement for any liabilities under RCW 43.135.060.

(9) If a legal proceeding, such as garnishment, has commenced to collect any delinquent amount owed by the person for any penalty imposed by the court under this section, the court may, at its discretion, enter into a payment plan.

(10) The monetary penalty for violating RCW 46.37.395 is: (a) Two hundred fifty dollars for the first violation; (b) five hundred dollars for the second violation; and (c) seven hundred fifty dollars for each violation thereafter.

Failure to notify the department or the possession by any person of any such certificate for a vehicle so destroyed, after fifteen days following its destruction, is prima facie evidence of violation of the provisions of this chapter and constitutes a gross misdemeanor.

(2) Any insurance company settling an insurance claim on a vehicle that has been issued a certificate of ownership under this chapter or a certificate of license registration under chapter 46.16 RCW as a total loss, less salvage value, shall notify the department thereof within fifteen days after the settlement of the claim.

Sec. 309. RCW 46.12.101 and 2008 c 316 s 1 are each amended to read as follows:

((A transfer of ownership in a motor vehicle is perfected by compliance with the requirements of this section.))

(1)(a) If an owner transfers his or her interest in a vehicle, other than by the creation, deletion, or change of a security interest, the owner shall, at the time of the delivery of the vehicle, execute an assignment to the transferee and provide an odometer disclosure statement under RCW 46.12.124 on the certificate of ownership or as the department otherwise prescribes, and cause the certificate and assignment to be transmitted to the transferee. The owner shall notify the department or its agents or subagents, in writing, on the appropriate form, of the date of the sale or transfer, the name and address of the owner and of the transferee, the transferee's driver's license number if available, and such description of the vehicle, including the vehicle identification number, as may be required in the appropriate form provided or approved for that purpose by the department. The report of sale will be deemed properly filed if all information required in this section is provided on the form and includes a department-authorized notation that the document was received by the department, its agents, or subagents on or before the fifth day after the sale of the vehicle, excluding Saturdays, Sundays, and state and federal holidays. Agents and subagents shall immediately electronically transmit the seller's report of sale to the department. Reports of sale processed and recorded by the department's agents or subagents may be subject to fees as specified in RCW 46.01.140 (4)(a) or (5)(b). By January 1, 2003, the department shall create a system enabling the seller of a vehicle to transmit the report of sale electronically. The system created by the department must immediately indicate on the department's vehicle record that a seller's report of sale has been filed.

(b) By January 1, 2008, the department shall provide instructions on release of interest forms that allow the seller of a vehicle to release his or her interest in a vehicle at the same time a financial institution, as defined in RCW 30.22.040, releases its lien on the vehicle.

(2) The requirements of subsection (1) of this section to provide an odometer disclosure statement apply to the transfer of vehicles held for lease when transferred to a lessee and then to the lessor at the end of the leasehold and to vehicles held in a fleet when transferred to a purchaser.

(3) Except as provided in RCW 46.70.122 the transferee shall within fifteen days after delivery to the transferee of the vehicle, execute the application for a new certificate of ownership in the same space provided therefor on the certificate or as the department prescribes, and cause the certificates and application to be transmitted to the department accompanied by a fee of five dollars in addition to any other fees required.

(4) Upon request of the owner or transferee, a secured party in possession of the certificate of ownership shall, unless the transfer was a breach of its security agreement, either deliver the certificate to the transferee for transmission to the department or, when the secured party receives the owner's assignment from the transferee, it shall transmit the transferee's application for a new certificate, the existing certificate, and the required fee to the department. Compliance with this section does not affect the rights of the secured party.

(5) If a security interest is reserved or created at the time of the transfer, the certificate of ownership shall be retained by or delivered to the person who becomes the secured party, and the parties shall comply with the provisions of RCW 46.12.170.

(6) If the purchaser or transferee fails or neglects to make application to transfer the certificate of ownership and license registration within fifteen days after the date of delivery of the vehicle, he or she shall on making application for transfer be assessed a twenty-five dollar penalty on the sixteenth day and two dollars additional for each day thereafter, but not to exceed one hundred dollars. The director may by rule establish conditions under which the penalty will not be assessed when an application for transfer is delayed for reasons beyond the control of the purchaser. Conditions for not assessing the penalty may be established for but not limited to delays caused by:

(a) The department requesting additional supporting documents;

(b) Extended hospitalization or illness of the purchaser;

(c) Failure of a legal owner to release his or her interest;

(d) Failure, negligence, or nonperformance of the department, auditor, or subagent;

(e) The transferee had no knowledge of the filing of the vehicle report of sale and signs an affidavit to the fact.
Failure or neglect to make application to transfer the certificate of ownership and license registration within forty-five days after the date of delivery of the vehicle is a misdemeanor and a continuing offense for each day during which the purchaser or transferee does not make application to transfer the certificate of ownership and license registration. Despite the continuing nature of this offense, it shall be considered a single offense, regardless of the number of days that have elapsed following the forty-five day time period.

(7) Upon receipt of an application for reissue or replacement of a certificate of ownership and transfer of license registration, accompanied by the endorsed certificate of ownership or other documentary evidence as is deemed necessary, the department shall, if the application is in order and if all provisions relating to the certificate of ownership and license registration have been complied with, issue new certificates of title and license registration as in the case of an original issue and shall transmit the fees together with an itemized detailed report to the state treasurer.

(8) Once each quarter the department shall report to the department of revenue a list of those vehicles for which a seller's report has been received but no transfer of title has taken place. (a) Provide or approve records of sale, or subagent appointed by the director in writing within five business days after a vehicle is or has been:

(b) The owner's name and address;
(c) The name and address of the person acquiring the vehicle;
(d) The vehicle identification number and license plate number;
(e) A date or stamp by the department showing it was received on or before the fifth business day after the date of sale or transfer; and
(f) Payment of the fees required under section 505 of this act if the report of sale is processed by a county auditor or other agent or subagent appointed by the director.

(4) Report of sale - administration. The department shall:

(a) Provide or approve reports of sale forms;
(b) Provide a system enabling an owner to submit reports of sale electronically;
(c) Immediately update the department's vehicle record when a report of sale has been filed;
(d) Provide instructions on release of interest forms that allow the seller of a vehicle to release their interest in a vehicle at the same time a financial institution, as defined in RCW 30.22.040, releases its lien on the vehicle; and
(e) Send a report to the department of revenue that lists vehicles for which a report of sale has been received but no transfer of ownership has taken place. The department shall send the report once each quarter.

(5)(a) Transferring ownership. A person who has recently acquired a vehicle by purchase, exchange, gift, lease, inheritance, or legal action shall apply to the department, county auditor or other agent, or subagent appointed by the director for a new certificate of title within fifteen days of delivery of the vehicle. A secured party who has possession of the certificate of title shall either:

(i) Apply for a new certificate of title on behalf of the owner and pay the fee required under section 508 of this act; or
(ii) Provide all required documents to the owner, as long as the transfer was not a breach of its security agreement, to allow the owner to apply for a new certificate of title.

(b) Compliance with this subsection does not affect the rights of the secured party.

(6) Certificate of title delivered to secured party. The certificate of title must be kept by or delivered to the person who becomes the secured party when a security interest is reserved or created at the time of the transfer of ownership. The parties must comply with RCW 46.12.170 (as recodified by this act).

(7) Penalty for late transfer. A person who has recently acquired a motor vehicle by purchase, exchange, gift, lease, inheritance, or legal action who does not apply for a new certificate of title within fifteen calendar days of delivery of the vehicle is charged a penalty, as described in section 512 of this act, when applying for a new certificate of title. It is a misdemeanor to fail or neglect to apply for a transfer of ownership within forty-five days after delivery of the vehicle. The misdemeanor is a single continuing offense for each day that passes regardless of the number of days that have elapsed following the forty-five day time period.

(8) Penalty for late transfer - exceptions. The penalty is not charged if the delay in application is due to at least one of the following:

(a) The department requests additional supporting documents;
(b) The department, county auditor or other agent, or subagent fails to perform or is neglectful;
(c) The owner is prevented from applying due to an illness or extended hospitalization;
(d) The legal owner fails or neglects to release interest;
(e) The owner did not know of the filing of a report of sale by the previous owner and signs an affidavit to the fact; or
(f) The department finds other conditions exist that adequately explain the delay.

In addition to the license fees required ((under section 530 of this act for registering vehicles under RCW 46.16.070 (as recodified

by this act), operators of auto stages with seating capacity over six
shall pay, at the time they file gross earning returns with the utilities
and transportation commission, the sum of fifteen cents for each one
hundred vehicle miles operated by each auto stage over the public
highways of this state. However, in the case of each auto stage
propelled by steam, electricity, natural gas, diesel oil, butane, or
propane, the payment required in this section is twenty cents per one
hundred miles of such operation. The commission shall transmit all
sums so collected to the state treasurer, who shall deposit the same in
the motor vehicle fund. Any person failing to make any payment
required by this section is subject to a penalty of one hundred percent
of the payment due in this section, in addition to any penalty provided
for failure to submit a report. Any penalties so collected shall be
credited to the public service revolving fund.

Sec. 425. RCW 46.16.160 and 2007 c 419 s 6 are each
amended to read as follows:

((1) The owner of a vehicle which under reciprocal relations with
another jurisdiction would be required to obtain a license registration
in this state or an unlicensed vehicle which would be required to
obtain a license registration for operation on public highways of this
state may, as an alternative to such license registration, secure and
operate such vehicle under authority of a trip permit issued by this
state in lieu of a Washington certificate of license registration, and
licensed gross weight if applicable. The licensed gross weight may
not exceed eighty thousand pounds for a combination of vehicles nor
forty thousand pounds for a single unit vehicle with three or more
axles. Trip permits are required for movement of mobile homes or
park model trailers and may only be issued if property taxes are paid
in full. For the purpose of this section, a vehicle is considered
unlicensed if the licensed gross weight currently in effect for the
vehicle or combination of vehicles is not adequate for the load being
carried. Vehicles registered under RCW 46.16.135 shall not be
operated under authority of trip permits in lieu of further registration
within the same registration year.

(2) Each trip permit shall authorize the operation of a single
vehicle at the maximum legal weight limit for such vehicle for a
period of three consecutive days commencing with the day of first
use. No more than three such permits may be used for any one
vehicle in any period of thirty consecutive days, except that in the
case of a recreational vehicle as defined in RCW 43.22.335, no more
than two trip permits may be used for any one vehicle in a one-year
period. Every permit shall identify, as the department may require,
the vehicle for which it is issued and shall be completed in its entirety
and signed by the operator before operation of the vehicle on the
public highways of this state. Correction of data on the permit such
as dates, license number, or vehicle identification number invalidates
the permit. The trip permit shall be displayed on the vehicle to which
it is issued as prescribed by the department.

(3) Vehicles operating under authority of trip permits are subject
to all laws, rules, and regulations affecting the operation of like
vehicles in this state.

(4) Prorate operators operating commercial vehicles on trip
permits in Washington shall retain the customer copy of such permit
for four years.

(5) Trip permits may be obtained from field offices of the
department of transportation, department of licensing, or other agents
appointed by the department. The fee for each trip permit is twenty
dollars. Five dollars from every twenty-dollar trip permit fee shall
be deposited into the state patrol highway account and must be used for
commercial motor vehicle inspections. For each permit issued, the
fee includes a filing fee as provided by RCW 46.01.140 and an excise
tax of one dollar. The remaining portion of the trip permit fee must
be deposited to the credit of the motor vehicle fund as an
administrative fee. If the filing fee amount of three dollars as
prescribed in RCW 46.01.140 is increased or decreased after July 1,
2002, the administrative fee must be increased or decreased by the
same amount so that the total trip permit would be adjusted equally to
compensate. These fees and taxes are in lieu of all other vehicle
license fees and taxes. No exchange, credits, or refunds may be given
for trip permits after they have been purchased.

(6) The department may appoint county auditors or businesses as
agents for the purpose of selling trip permits to the public. County
auditors or businesses so appointed may retain the filing fee collected
for each trip permit to defray expenses incurred in handling and
selling the permits.

(7) Commercial motor vehicles that are owned by a motor carrier
subject to RCW 46.32.080, must not be operated on trip permits
authorized by RCW 46.16.160 or 46.16.162 if the motor carrier's
department of transportation number has been placed out of service
by the Washington state patrol. A violation of or a failure to comply
with this subsection is a gross misdemeanor, subject to a minimum
monetary penalty of two thousand five hundred dollars for the first
violation and five thousand dollars for each subsequent violation.

(8) Except as provided in subsection (7) of this section, a
violation of or a failure to comply with any provision of this section is
a gross misdemeanor;

(9) The department of licensing may adopt rules as it deems
necessary to administer this section.

(10) A surcharge of five dollars is imposed on the issuance of trip
permits. The portion of the surcharge paid by motor carriers must be
deposited in the motor vehicle fund for the purpose of supporting
vehicle weigh stations, weigh-in-motion programs, and the
commercial vehicle information systems and networks program. The
remaining portion of the surcharge must be deposited in the motor
vehicle fund for the purpose of supporting congestion relief programs.
All other administrative fees and excise taxes collected under the
provisions of this chapter shall be forwarded by the department with
proper identifying detailed report to the state treasurer who shall
deposit the administrative fees to the credit of the motor vehicle fund
and the excise taxes to the credit of the general fund. Filing fees will
be forwarded and reported to the state treasurer by the department as
described in RCW 46.01.140.)

1(a) A vehicle owner may operate an unregistered vehicle on public
highways under the authority of a trip permit issued by this state. For
purposes of trip permits, a vehicle is considered unregistered if:

(i) Under reciprocal relations with another jurisdiction, the owner
would be required to register the vehicle in this state;

(ii) The license tabs have expired; or

(iii) The current gross weight license is insufficient for the load
being carried. The licensed gross weight may not exceed eighty
thousand pounds for a combination of vehicles or forty thousand
pounds for a single unit vehicle with three or more axles.

(b) Trip permits are required to move mobile homes or park
model trailers and may only be issued if property taxes are paid in
full.

(2) Trip permits may not be:

(a) Issued to vehicles registered under RCW 46.16.070(5) (as
revised by this act) in lieu of further registration within the same
registration year; or

(b) Used for commercial motor vehicles owned by a motor carrier
subject to RCW 46.32.080 if the motor carrier's department of
transportation number has been placed out of service by the
Washington state patrol. A violation of or a failure to comply
with this subsection is a gross misdemeanor, subject to a minimum
monetary penalty of two thousand five hundred dollars for the first
violation and five thousand dollars for each subsequent violation.

(3)(a) Each trip permit authorizes the operation of a single vehicle
at the maximum legal weight limit for the vehicle for a period of three
consecutive days beginning with the day of first use. No more than
three trip permits may be used for any one vehicle in any thirty
consecutive day period. No more than two trip permits may be used
for any one recreational vehicle, as defined in RCW 43.22.335, in a
one-year period. Every trip permit must:

(i) Identify the vehicle for which it is issued;

(ii) Be completed in its entirety;

(iii) Be signed by the operator before operation of the vehicle on the public highways of this state;

(iv) Not be altered or corrected. Altering or correcting data on the trip permit invalidates the trip permit; and

(v) Be displayed on the vehicle for which it is issued as required by the department.

(b) Vehicles operating under the authority of trip permits are subject to all laws, rules, and regulations affecting the operation of similar vehicles in this state.

(4) Prorate operators operating commercial vehicles on trip permits in Washington shall retain the customer copy of each permit for four years.

(5) Trip permits may be obtained from field offices of the department of transportation, department of licensing, county auditors or other agents, and subagents appointed by the department for the fee provided in section 535(1)(h) of this act. Exchanges, credits, or refunds may not be given for trip permits after they have been purchased.

(6) Except as provided in subsection (2)(b) of this section, a violation of or a failure to comply with this section is a gross misdemeanor.

(7) The department may adopt rules necessary to administer this section.

Sec. 426. RCW 46.16.162 and 2009 c 452 s 1 are each amended to read as follows:

(1) The owner of a farm vehicle (licensed) registered under RCW 46.16.090 purchasing a monthly (license) registration under RCW (46.16.125) 46.16.070(5) (as recodified by this act) may ((as an alternative to the)) operate the farm vehicle under the authority of a farm vehicle trip permit if:

The application must be accompanied by such license fees and excise tax as may be required by law. PART VI. SPECIAL LICENSE PLATES

A. REVIEW BOARD

Sec. 601. RCW 46.16.700 and 2003 c 196 s 1 are each amended to read as follows:

The legislature has seen an increase in the demand from constituent groups seeking recognition and funding through the establishment of commemorative or special license plates. The high cost of implementing a new special license plate series coupled with the uncertainty of the state's ability to recoup its costs((i)) has led the legislature to delay the implementation of new special license plates. In order to address these issues, it is the intent of the legislature to create a mechanism that will allow for the evaluation of special license plate requests and establish a funding policy that will alleviate the financial burden currently placed on the state. Using these two strategies, the legislature will be better equipped to efficiently process special license plate legislation.

Sec. 602. RCW 46.16.705 and 2005 c 319 s 117 are each amended to read as follows:

(1) The special license plate review board is created.
(2) The board will consist of seven members: One member appointed by the governor ((and)) who will serve as chair of the board; four members of the legislature, one from each caucus of the house of representatives and the senate; a department of licensing representative appointed by the director; and a Washington state patrol representative appointed by the chief.
(3) Members shall serve terms of four years, except that four of the members initially appointed will be appointed for terms of two years. ((No)) A member may not be appointed for more than three consecutive terms.
(4) The respective appointing authority may remove members from the board before the expiration of their terms only for cause based upon a determination of incapacity, incompetence, neglect of
duty, or malfeasance in office as ordered by the Thurston county superior court, upon petition and show cause proceedings brought for that purpose in that court and directed to the board member in question.

Sec. 603. RCW 46.16.715 and 2005 c 319 s 118 are each amended to read as follows:
