Before the agency head makes a determination to return unused leave in connection with an illness or injury, or any other qualifying condition, he or she must receive from the affected employee a statement from the employee's doctor verifying that the illness or injury is resolved. To the extent administratively feasible, the value of unused leave which was transferred by more than one employee shall be returned on a pro rata basis.

(10) An employee who uses leave that is transferred to him or her under this section may not be required to repay the value of the leave that he or she used.

SECOND READING

HOUSE BILL NO. 1690, by Representatives Hasegawa, Hunt, Hudgins, Anderson and Kenney

Authorizing alternative public works contracting procedures.

The bill was read the second time.

Representative Dammeier moved the adoption of amendment (1739).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The establishment of alternative public works contracting procedures authorized for use by public bodies has been a complex, controversial, and challenging undertaking, but it has been successful. The key to the successful adoption and consideration of these procedures has depended, in great part, on the review and oversight mechanisms put in place by the legislature in chapter 39.10 RCW, as well as the countless hours of dedicated work by numerous stakeholders over many years. It is the intent of the legislature to clarify that, unless otherwise specifically provided for in law, public bodies that want to use an alternative public works contracting procedure may use only those procedures specifically authorized in chapter 39.10 RCW.

Sec. 2. RCW 39.10.200 and 2007 c 494 s 1 are each amended to read as follows:

The legislature finds that the traditional process of awarding public works contracts in lump sum to the lowest responsible bidder is a fair and objective method of selecting a contractor. However, under certain circumstances, alternative public works contracting procedures may best serve the public interest if such procedures are implemented in an open and fair process based on objective and equitable criteria. The purpose of this chapter is to authorize the use of certain supplemental alternative public works contracting procedures, to prescribe appropriate requirements to ensure that such
contracting procedures serve the public interest, and to establish a process for evaluation of such contracting procedures. It is the intent of the legislature to establish that, unless otherwise specifically provided for in law, public bodies may use only those alternative public works contracting procedures specifically authorized in this chapter, subject to the requirements of this chapter.

Sec. 3. RCW 39.10.230 and 2009 c 75 s 1 are each amended to read as follows:

The board has the following powers and duties:

(1) Develop and recommend to the legislature policies to further enhance the quality, efficiency, and accountability of capital construction projects through the use of traditional and alternative delivery methods in Washington, and make recommendations regarding expansion, continuation, elimination, or modification of the alternative public works contracting methods;

(2) Evaluate the use of existing contracting procedures and the potential future use of other alternative contracting procedures including competitive negotiation contracts;

(3) (Develop guidelines to be used by the committee for the review and approval of design-build demonstration projects that procure operations and maintenance services) Submit recommendations to the appropriate committees of the legislature evaluating alternative contracting procedures that are not authorized under this chapter;

(4) Appoint members of the committee; and

(5) Develop and administer questionnaires designed to provide quantitative and qualitative data on alternative public works contracting procedures on which evaluations are based.

Sec. 4. RCW 43.131.408 and 2007 c 494 s 507 are each amended to read as follows:

The following acts or parts of acts, as now existing or hereafter amended, are each effective June 30, 2010:

(1) RCW 39.10.200 and section 2 of this act, 2007 c 494 s 1 & 1994 c 132 s 1;

MESSAGE FROM THE SENATE

April 10, 2010

Mr. Speaker:

The Senate receded from its amendment to ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 2956, and under suspension of the rules returned ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 2956 to second reading for the
purpose of amendment. The Senate further adopted amendment 2956-S2.8E and passed the measure as amended.

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. PURPOSE, FINDINGS, AND INTENT. (1) The purpose of this chapter is to provide for a safety net assessment on certain Washington hospitals, which will be used solely to augment funding from all other sources and thereby obtain additional funds to restore recent reductions and to support additional payments to hospitals for medicaid services.

(2) The legislature finds that:

(a) Washington hospitals, working with the department of social and health services, have proposed a hospital safety net assessment to generate additional state and federal funding for the medicaid program, which will be used to partially restore recent inpatient and outpatient reductions in hospital reimbursement rates and provide for an increase in hospital payments;

(b) The hospital safety net assessment and hospital safety net assessment fund created in this chapter allows the state to generate additional federal financial participation for the medicaid program and provides for increased reimbursement to hospitals.

(3) In adopting this chapter, it is the intent of the legislature:

(a) To impose a hospital safety net assessment to be used solely for the purposes specified in this chapter;

(b) That funds generated by the assessment shall be used solely to augment all other funding sources and not as a substitute for any other funds;

(c) That the total amount assessed not exceed the amount needed, in combination with all other available funds, to support the reimbursement rates and other payments authorized by this chapter;

(d) To condition the assessment on receiving federal approval for receipt of additional federal financial participation and on continuation of other funding sufficient to maintain hospital inpatient and outpatient reimbursement rates and small rural disproportionate share payments at least at the levels in effect on July 1, 2009.

NEW SECTION. Sec. 2. DEFINITIONS. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Certified public expenditure hospital" means a hospital participating in the department's certified public expenditure payment program as described in WAC 388-550-4650 or successor rule.

(10) "Nonmedicare hospital inpatient day" means total hospital inpatient days less medicare inpatient days, including medicare days reported for medicare managed care plans, as reported on the medicare cost report, form 2552-96, or successor forms, excluding all skilled and nonskilled nursing facility days, skilled and nonskilled swing bed days, nursery days, observation bed days, hospice days, home health agency days, and other days not typically associated with an acute care inpatient hospital stay.

(11) "Prospective payment system hospital" means a hospital reimbursed for inpatient and outpatient services provided to medicaid beneficiaries under the inpatient prospective payment system and the outpatient prospective payment system as defined in WAC 388-550-1050. For purposes of this chapter, prospective payment system hospital does not include a hospital participating in the certified public expenditure program or a bordering city hospital located outside of the state of Washington and in one of the bordering cities listed in WAC 388-501-0175 or successor regulation.

(12) "Psychiatric hospital" means a hospital facility licensed as a psychiatric hospital under chapter 71.12 RCW.

NEW SECTION. Sec. 3. HOSPITAL SAFETY NET ASSESSMENT FUND. (1) A dedicated fund is hereby established within the state treasury to be known as the hospital safety net assessment fund. The purpose and use of the fund shall be to receive and disburse funds, together with accrued interest, in accordance with this chapter. Moneys in the fund, including interest earned, shall not be used or disbursed for any purposes other than those specified in this chapter. Any amounts expended from the fund that are later recouped by the department on audit or otherwise shall be returned to the fund.

(a) Any unexpended balance in the fund at the end of a fiscal biennium shall carry over into the following biennium and shall be applied to reduce the amount of the assessment under section 6(1)(c) of this act.

(b) Any amounts remaining in the fund on July 1, 2013, shall be used to make increased payments in accordance with sections 10 and 13 of this act for any outstanding claims with dates of service prior to July 1, 2013. Any amounts remaining in the fund after such increased payments are made shall be refunded to hospitals, pro rata according to the amount paid by the hospital, subject to the limitations of federal law.

(2) All assessments, interest, and penalties collected by the department under sections 4 and 6 of this act shall be deposited into the fund.

(3) Disbursements from the fund may be made only as follows:

(c) Upon certification by the secretary that the conditions set forth in section 17(1) of this act have been met with respect to the assessments imposed under section 4(3) of this act and the payments
provided under sections 10 and 14 of this act, payments made subsequent to the initial payments under sections 11 and 12 of this act, and payments under section 13(3) of this act, funds shall be disbursed periodically as necessary to make the payments as specified in those sections;

(d) To refund erroneous or excessive payments made by hospitals pursuant to this chapter;

(e) The sum of forty-nine million three-hundred thousand dollars per biennium may be expended in lieu of state general fund payments to hospitals. An additional sum of seventeen million five-hundred thousand dollars for the 2009-2011 fiscal biennium may be expended in lieu of state general fund payments to hospitals if additional federal financial participation under section 5001 of P.L. No. 111-5 is extended beyond December 31, 2010;

(f) The sum of one million dollars per biennium may be disbursed for payment of administrative expenses incurred by the department in performing the activities authorized by this chapter;

(g) To repay the federal government for any excess payments made to hospitals from the fund if the assessments or payment increases set forth in this chapter are deemed out of compliance with federal statutes and regulations and all appeals have been exhausted. In such a case, the department may require hospitals receiving excess payments to refund the payments in question to the fund. The state in turn shall return funds to the federal government in the same proportion as the original financing. If a hospital is unable to refund payments, the state shall develop a payment plan and/or deduct moneys from future medicaid payments.

Payments under this subsection are due and payable on the first day of each calendar quarter after the department sends notice of assessment to affected hospitals. However, the initial assessment is not due and payable less than thirty calendar days after notice of the amount due has been provided to affected hospitals.

(a) For the period beginning on the date the applicable conditions under section 17(1) of this act are met through December 31, 2010:

(i) Each prospective payment system hospital shall pay an assessment of thirty-two dollars for each annual nonmedicare hospital inpatient day, multiplied by the number of days in the assessment period divided by three hundred sixty-five.

Such rule making shall specifically include provision for:
   (a) Transmittal of quarterly notices of assessment by the department to each hospital informing the hospital of its nonmedicare hospital inpatient days and the assessment amount due and payable. Such quarterly notices shall be sent to each hospital at least thirty calendar days prior to the due date for the quarterly assessment payment.

No. 111-5, are available to support the reimbursement rates and other payments under section 9, 10, 11, 12, or 13 of this act without utilizing the full assessment authorized under section 4 (1) or (3) of this act, the department shall reduce the amount of the assessment for prospective payment system, psychiatric, and rehabilitation hospitals proportionately to the minimum level necessary to support those reimbursement rates and other payments.
         (B) Provided that none of the conditions set forth in section 17(2) of this act have occurred, if the department's forecasts indicate that the
(3) Any positive balance remaining in the fund at the end of the fiscal year shall be applied to reduce the assessment amount for the subsequent fiscal year.

(ii) Any adjustment to the assessment amounts pursuant to this subsection, and the data supporting such adjustment, including but not limited to relevant data listed in subsection (2) of this section, must be submitted to the Washington state hospital association for review and comment at least sixty calendar days prior to implementation of such adjusted assessment amounts. (3) The department shall determine the number of nonmedicare hospital inpatient days for each hospital for each assessment period.

(4) To the extent necessary, the department shall amend the contracts between the managed care organizations and the department and between regional support networks and the department to incorporate the provisions of section 13 of this act. The department shall pursue amendments to the contracts as soon as possible after the effective date of this act. The amendments to the contracts shall, among other provisions, provide for increased payment rates to managed care organizations in accordance with section 13 of this act.

NEW SECTION. Sec. 7. LOCAL ASSESSMENTS OR TAXES NOT AUTHORIZED. Nothing in this chapter shall be construed to authorize any unit of local government to impose a tax or assessment on hospitals, including but not limited to a tax or assessment measured by a hospital's income, earnings, bed days, or other similar measures.

NEW SECTION. Sec. 8. ASSESSMENT PART OF OPERATING OVERHEAD. The incidence and burden of assessments imposed under this chapter shall be on hospitals and the expense associated with the assessments shall constitute a part of the operating overhead of hospitals. Hospitals shall not increase charges or billings to patients or third-party payers as a result of the assessments under this chapter. The department may require hospitals to submit certified statements by their chief financial officers or equivalent officials attesting that they have not increased charges or billings as a result of the assessments.

NEW SECTION. Sec. 9. RESTORATION OF JUNE 30, 2009, REIMBURSEMENT RATES. Upon satisfaction of the applicable conditions set forth in section 17(1) of this act, the department shall:

(1) Restore medicaid inpatient and outpatient reimbursement rates to levels as if the four percent medicaid inpatient and outpatient rate reductions did not occur on July 1, 2009; and

(2) Recalculate the amount payable to each hospital that submitted an otherwise allowable claim for inpatient and outpatient medicaid-covered services rendered from and after July 1, 2009, up to and including the date when the applicable conditions under section 17(1) of this act have been satisfied, as if the four percent medicaid inpatient and outpatient rate reductions did not occur effective July 1, 2009, and, within sixty calendar days after the date upon which the applicable conditions set forth in section 17(1) of this act have been satisfied, remit the difference to each hospital.

NEW SECTION. Sec. 10. INCREASED HOSPITAL PAYMENTS. (1) Upon satisfaction of the applicable conditions set forth in section 17(1) of this act and for services rendered on or after February 1, 2010, the department shall increase the medicaid inpatient and outpatient fee-for-service hospital reimbursement rates in effect on June 30, 2009, by the percentages specified below:

(a) Prospective payment system hospitals:
   (i) Inpatient psychiatric services: Thirteen percent;
   (ii) Inpatient services: Thirteen percent;
   (iii) Outpatient services: Thirty-six and eighty-three one-hundredths percent;

   (ii) Outpatient services: Thirty-six and eighty-three one-hundredths percent;
(d) Psychiatric hospitals:
   (i) Inpatient psychiatric services: Thirteen percent;
   (ii) Inpatient services: Thirteen percent.
(2) For claims processed for services rendered on or after February 1, 2010, but prior to satisfaction of the applicable conditions specified in section 17(1) of this act, the department shall, within sixty calendar days after satisfaction of those conditions, calculate the amount payable to hospitals in accordance with this section and remit the difference to each hospital that has submitted an otherwise allowable claim for payment for such services.

(3) By December 1, 2012, the department will submit a study to the legislature with recommendations on the amount of the assessments necessary to continue to support hospital payments for the 2013-15 biennium. The evaluation will assess medicaid hospital payments relative to medicaid hospital costs. The study should address current federal law, including any changes on scope of medicaid coverage, provisions related to provider taxes, and impacts of federal health care reform legislation. The study should also address the state's economic forecast. Based on the forecast, the department should recommend the amount of assessment needed to support future hospital payments and the departmental administrative expenses. Recommendations should be developed with the fiscal committees of the legislature, office of financial management and the Washington state hospital association.

NEW SECTION. Sec. 11. CRITICAL ACCESS HOSPITAL PAYMENTS. Upon satisfaction of the applicable conditions set forth in section 17(1) of this act, the department shall pay critical access hospitals that do not qualify for or receive a small rural disproportionate share payment in the subject state fiscal year an access payment of fifty dollars for each medicaid inpatient day, exclusive of days on which a swing bed is used for subacute care, from and after July 1, 2009. Initial payments to hospitals, covering the period from July 1, 2009, to the date when the applicable conditions under section 17(1) of this act are satisfied, shall be made within sixty calendar days after such conditions are satisfied. Subsequent payments shall be made to critical access hospitals on an annual basis at the time that disproportionate share eligibility and
payment for the state fiscal year are established. These payments shall be in addition to any other amount payable with respect to services provided by critical access hospitals and shall not reduce any other payments to critical access hospitals.

NEW SECTION. Sec. 12. DISPROPORTIONATE SHARE HOSPITAL PAYMENTS. Upon satisfaction of the applicable conditions set forth in section 17(1) of this act, small rural disproportionate share payments shall be increased to one hundred twenty percent of the level in effect as of June 30, 2009, for the period from and after July 1, 2009, until July 1, 2013. Initial payments, covering the period from July 1, 2009, to the date when the applicable conditions under section 17(1) of this act are satisfied, shall be made within sixty calendar days after those conditions are satisfied. Subsequent payments shall be made directly to hospitals by the department on a periodic basis.

NEW SECTION. Sec. 13. INCREASED MANAGED CARE PAYMENTS AND CORRESPONDING PAYMENTS TO HOSPITALS. Subject to the applicable conditions set forth in section 17(1) of this act, the department shall:

(1) Amend medicaid managed care and regional support network contracts as necessary in order to ensure compliance with this chapter; and

(2) With respect to the inpatient and outpatient rates established by section 9 of this act:

(a) Upon satisfaction of the applicable conditions under section 17(1) of this act, increase payments to managed care organizations and regional support networks as necessary to ensure that hospitals are reimbursed in accordance with section 9(1) of this act for services rendered from and after the date when applicable conditions under section 17(1) of this act have been satisfied, and pay an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks as a result of the payments under this section, and require managed care organizations and regional support networks to make payments to each hospital in accordance with section 9 of this act. The increased payments made to hospitals pursuant to this subsection shall be in addition to any other amounts payable to hospitals by managed care organizations or regional support networks and shall not affect any other payments to hospitals;

(b) Within sixty calendar days after satisfaction of the applicable conditions under section 17(1) of this act, calculate the additional amount due to each hospital to pay claims submitted for inpatient and outpatient medicaid-covered services rendered from and after July 1, 2009, through the date when the applicable conditions under section 17(1) of this act have been satisfied, based on the rates required by section 9(2) of this act, make payments to managed care organizations and regional support networks in amounts sufficient to pay the additional amounts due to each hospital plus an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks as a result of the payments under this subsection, and require managed care organizations and regional support networks to make payments to each hospital in accordance with the department's calculations within forty-five calendar days after the department disburses funds for those purposes.

(3) With respect to the inpatient and outpatient hospital rates established by section 10 of this act:

(a) Upon satisfaction of the applicable conditions under section 17(1) of this act, increase payments to managed care organizations and regional support networks as necessary to ensure that hospitals are reimbursed in accordance with section 10 of this act, and pay an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks as a result of the payments under this section;

(b) Require managed care organizations and regional support networks to reimburse hospitals for hospital inpatient and outpatient services rendered after the date that the applicable conditions under section 17(1) of this act are satisfied at rates no lower than the combined rates established by sections 9 and 10 of this act;

(c) Within sixty calendar days after satisfaction of the applicable conditions under section 17(1) of this act, calculate the additional amount due to each hospital to pay claims submitted for inpatient and outpatient medicaid-covered services rendered from and after February 1, 2010, through the date when the applicable conditions under section 17(1) of this act are satisfied based on the rates required by section 10 of this act, make payments to managed care organizations and regional support networks in amounts sufficient to pay the additional amounts due to each hospital plus an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks, and require managed care organizations and regional support networks to make payments to each hospital in accordance with the department's calculations within forty-five calendar days after the department disburses funds for those purposes;

(d) Require managed care organizations that contract with health care organizations that provide, directly or by contract, health care services on a prepaid or capitated basis to make payments to health care organizations for any of the hospital payments that the managed care organizations would have been required to pay to hospitals under this section if the managed care organizations did not contract with those health care organizations, and require the managed care organizations to require those health care organizations to make equivalent payments to the hospitals that would have received payments under this section if the managed care organizations did not contract with the health care organizations;

(4) The department shall ensure that the increases to the medicaid fee schedules as described in section 10 of this act are included in the development of healthy options premiums.

(5) The department may require managed care organizations and regional support networks to demonstrate compliance with this section.

NEW SECTION. Sec. 14. QUALITY INCENTIVE PAYMENTS. (1) The department, in collaboration with the health care authority, the department of health, the department of labor and industries, the Washington state hospital association, the Puget Sound health alliance, and the forum, a collaboration of health carriers, physicians, and hospitals in Washington state, shall design a system of hospital quality incentive payments. The design of the system shall be submitted to the relevant policy and fiscal committees of the legislature by December 15, 2010. The system shall be based upon the following principles:

(a) Evidence-based treatment and processes shall be used to improve health care outcomes for hospital patients;

(b) Effective purchasing strategies to improve the quality of health care services should involve the use of common quality improvement measures by public and private health care purchasers, while recognizing that some measures may not be appropriate for application to specialty pediatric, psychiatric, or rehabilitation hospitals;

(c) Quality measures chosen for the system should be consistent with the standards that have been developed by national quality improvement organizations, such as the national quality forum, the federal centers for medicare and medicaid services, or the federal agency for healthcare research and quality. New reporting burdens to hospitals should be minimized by giving priority to measures hospitals are currently required to report to governmental agencies, such as the hospital compare measures collected by the federal centers for medicare and medicaid services;

(d) Benchmarks for each quality improvement measure should be set at levels that are feasible for hospitals to achieve, yet represent real improvements in quality and performance for a majority of hospitals in Washington state; and
(e) Hospital performance and incentive payments should be designed in a manner such that all noncritical access hospitals in Washington are able to receive the incentive payments if performance is at or above the benchmark score set in the system established under this section.

(2) Upon satisfaction of the applicable conditions set forth in section 17(1) of this act, and for state fiscal year 2013 and each fiscal year thereafter, assessments may be increased to support an additional one percent increase in inpatient hospital rates for noncritical access hospitals that meet the quality incentive benchmarks established under this section.

NEW SECTION. Sec. 15. A new section is added to chapter 70.47 RCW to read as follows:

The increases in inpatient and outpatient reimbursement rates included in this chapter shall not be reflected in hospital payment rates for services provided to basic health enrollees under this chapter.

NEW SECTION. Sec. 16. MULTIHOSPITAL LOCATIONS, NEW HOSPITALS, AND CHANGES IN OWNERSHIP. (1) If an entity owns or operates more than one hospital subject to assessment under this chapter, the entity shall pay the assessment for each hospital separately. However, if the entity operates multiple hospitals under a single medicaid provider number, it may pay the assessment for the hospitals in the aggregate.

(2) Notwithstanding any other provision of this chapter, if a hospital subject to the assessment imposed under this chapter ceases to conduct hospital operations throughout a state fiscal year, the assessment for the quarter in which the cessation occurs shall be adjusted by multiplying the assessment computed under section 4(1) and (3) of this act by a fraction, the numerator of which is the number of days during the year which the hospital conducts, operates, or maintains the hospital and the denominator of which is three hundred sixty-five. Immediately prior to ceasing to conduct, operate, or maintain a hospital, the hospital shall pay the adjusted assessment for the fiscal year to the extent not previously paid.

(3) Notwithstanding any other provision of this chapter, in the case of a hospital that commences conducting, operating, or maintaining a hospital that is not exempt from payment of the assessment under section 5 of this act and that did not conduct, operate, or maintain such hospital throughout the cost reporting year used to determine the assessment amount, the assessment for that hospital shall be computed on the basis of the actual number of nonmedicare inpatient days reported to the department by the hospital on a quarterly basis. The hospital shall be eligible to receive increased payments under this chapter beginning on the date it commences hospital operations.

(4) Notwithstanding any other provision of this chapter, if a hospital previously subject to assessment is sold or transferred to another entity and remains subject to assessment, the assessment for that hospital shall be computed based upon the cost report data previously submitted by that hospital. The assessment shall be allocated between the transferee and transferor based on the number of days within the assessment period that each owned, operated, or maintained the hospital.

NEW SECTION. Sec. 17. CONDITIONS. (1) The assessment, collection, and disbursement of funds under this chapter shall be conditional upon:

(a) Withdrawal of those aspects of any pending state plan amendments previously submitted to the centers for medicare and medicaid services that are inconsistent with this chapter, specifically any pending state plan amendment related to the four percent rate reductions for inpatient and outpatient hospital rates and elimination of the small rural disproportionate share hospital payment program as implemented July 1, 2009;

(b) Approval by the centers for medicare and medicaid services of any state plan amendments or waiver requests that are necessary in order to implement the applicable sections of this chapter;

(c) To the extent necessary, amendment of contracts between the department and managed care organizations in order to implement this chapter; and

(d) Certification by the office of financial management that appropriations have been adopted that fully support the rates established in this chapter for the upcoming fiscal year.

(2) This chapter does not take effect or cease to be imposed, and any moneys remaining in the fund shall be refunded to hospitals in proportion to the amounts paid by such hospitals, if and to the extent that:

(a) An appellate court or the centers for medicare and medicaid services makes a final determination that any element of this chapter, other than section 11 of this act, cannot be validly implemented;

(b) Medicaid inpatient or outpatient reimbursement rates for hospitals are reduced below the combined rates established by sections 9 and 10 of this act;

(c) Except for payments to the University of Washington medical center and Harborview medical center, payments to hospitals required under sections 9, 10, 12, and 13 of this act are not eligible for federal matching funds;

(d) Other funding available for the medicaid program is not sufficient to maintain medicaid inpatient and outpatient reimbursement rates for hospitals and small rural disproportionate share payments at one hundred percent of the levels in effect on July 1, 2009; or

(e) The fund is used as a substitute for or to supplant other funds, except as authorized by section 3(3)(e) of this act.

NEW SECTION. Sec. 18. SEVERABILITY. (1) The provisions of this chapter are not severable: If the conditions set forth in section 17(1) of this act are not satisfied or if any of the circumstances set forth in section 17(2) of this act should occur, this entire chapter shall have no effect from that point forward, except that if the payment under section 11 of this act, or the application thereof to any hospital or circumstances does not receive approval by the centers for medicare and medicaid services as described in section 17(1)(b) of this act or is determined to be unconstitutional or otherwise invalid, the other provisions of this chapter or its application to hospitals or circumstances other than those to which it is held invalid shall not be affected thereby.

(2) In the event that any portion of this chapter shall have been validly implemented and the entire chapter is later rendered ineffective under this section, prior assessments and payments under the validly implemented portions shall not be affected.

(3) In the event that the payment under section 11 of this act, or the application thereof to any hospital or circumstances does not receive approval by the centers for medicare and medicaid services as described in section 17(1)(b) of this act or is determined to be unconstitutional or otherwise invalid, the amount of the assessment shall be adjusted under section 6(1)(c) of this act.

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(3) The legislature affirms that it is in the state's interest for Harborsview medical center to remain an economically viable component of the state's health care system.

(4) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(5) In accordance with RCW 74.46.625, $6,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the department's discretion. During either the interim cost settlement or the final cost settlement, the department shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The department shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(6) $1,110,000 of the general fund—federal appropriation and $1,105,000 of the general fund—state appropriation for fiscal year 2011 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(7) $9,818,000 of the general fund—state appropriation for fiscal year 2011, and $9,865,000 of the general fund—federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2009-11 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit reports to the governor and legislature by November 1, 2009, and by November 1, 2010, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2010 and fiscal year 2011, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medicaid assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2009-11 biennial operating appropriations act (chapter 564, Laws of 2009) and in effect on July 1, 2009, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2009-11 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $6,570,000 of the general fund—state appropriation for fiscal year 2010, which is appropriated in section 204(1) of this act, and $1,500,000 of the general fund—state appropriation for fiscal year 2011, which is appropriated in section 204(1) of this act, are provided solely for state grants for the participating hospitals. Sufficient amounts are appropriated in this section for the remaining state grants for the participating hospitals. CPE hospitals will receive the inpatient and outpatient reimbursement rate restorations in section 9 and rate increases in section 10 (1) (b) of Crossed Second Substitute House Bill 2956 (hospital safety net assessment) funded through the hospital safety net assessment fund rather than through the baseline mechanism specified in this section.

(9) The department is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the department determines it is cost-effective to do so.

(10) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(11) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is at least equivalent to the benefit provided in the 2003-05 biennium.

(12) $93,000 of the general fund—state appropriation for fiscal year 2010 and $93,000 of the general fund—federal appropriation are provided solely for the department to pursue a federal Medicaid
waiver pursuant to Second Substitute Senate Bill No. 5945 (Washington health partnership plan). If the bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(13) The department shall require managed health care systems that have contracts with the department to serve medical assistance clients to limit any reimbursements or payments the systems make to providers not employed by or under contract with the systems to no more than the medical assistance rates paid by the department to providers for comparable services rendered to clients in the fee-for-service delivery system.

(14) Appropriations in this section are sufficient for the department to continue to fund family planning nurses in the community services offices.

(15) The department, in coordination with stakeholders, will conduct an analysis of potential savings in utilization of home dialysis. The department shall present its findings to the appropriate house of representatives and senate committees by December 2010.

(16) A maximum of $166,875,000 of the general fund—state appropriation and $38,389,000 of the general fund—federal appropriation may be expended in the fiscal biennium for the general assistance-unemployable medical program, and these amounts are provided solely for this program. Of these amounts, $10,749,000 of the general fund—state appropriation for fiscal year 2010 and $10,892,000 of the general fund—federal appropriation are provided solely for payments to hospitals for providing outpatient services to low income patients who are recipients of general assistance-unemployable. Pursuant to RCW 74.09.035, the department shall not expend for the general assistance medical care services program any amounts in excess of the amounts provided in this subsection.

(17) If the department determines that it is feasible within the amounts provided in subsection (16) of this section, and without the loss of federal disproportionate share hospital funds, the department shall contract with the carrier currently operating a managed care pilot project for the provision of medical care services to general assistance-unemployable clients. Mental health services shall be included in the services provided through the managed care system. If the department determines that it is feasible, effective October 1, 2009, in addition to serving clients in the pilot counties, the carrier shall expand managed care services to clients residing in at least the following counties: Spokane, Yakima, Chelan, Kitsap, and Cowlitz. If the department determines that it is feasible, the carrier shall complete implementation into the remaining counties. Total per person costs to the state, including outpatient and inpatient services and any additional costs due to stop loss agreements, shall not exceed the per capita payments projected for the general assistance-unemployable eligibility category, by fiscal year, in the February 2009 medical assistance expenditures forecast. The department, in collaboration with the carrier, shall seek to improve the transition rate of general assistance clients to the federal supplemental security income program.

(18) The department shall evaluate the impact of the use of a managed care delivery and financing system on state costs and outcomes for general assistance medical clients. Outcomes measured shall include state costs, utilization, changes in mental health status and symptoms, and involvement in the criminal justice system.

(19) The department shall report to the governor and the fiscal committees of the legislature by June 1, 2010, on its progress toward achieving a twenty percentage point increase in the generic prescription drug utilization rate.

(20) State funds shall not be used by hospitals for advertising purposes.

(21) The department shall seek a medicaid state plan amendment to create a professional services supplemental payment program for University of Washington medicine professional providers no later than July 1, 2009. The department shall apply federal rules for identifying the shortfall between current fee-for-service medicaid payments to participating providers and the applicable federal upper payment limit. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the department in the development, implementation, and maintenance of this program will be the responsibility of the participating providers. Participating providers will retain the full amount of supplemental payments provided under this program, net of any potential costs for any related audits or litigation brought against the state. The department shall report to the governor and the legislative fiscal committees on the prospects for expansion of the program to other qualifying providers as soon as feasibility is determined but no later than December 31, 2009. The report will outline estimated impacts on the participating providers, the procedures necessary to comply with federal guidelines, and the administrative resource requirements necessary to implement the program. The department will create a process for expansion of the program to other qualifying providers as soon as it is determined feasible by both the department and providers but no later than June 30, 2010.

(22) $9,350,000 of the general fund—state appropriation for fiscal year 2010, $8,313,000 of the general fund—state appropriation for fiscal year 2011, and $20,371,000 of the general fund—federal appropriation are provided solely for development and implementation of a replacement system for the existing medicaid management information system. The amounts provided in this subsection are conditioned on the department satisfying the requirements of section 902 of this act.

(23) $506,000 of the general fund—state appropriation for fiscal year 2011 and $657,000 of the general fund—federal appropriation are provided solely for the implementation of Second Substitute House Bill No. 1373 (children's mental health). If the bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(24) Pursuant to 42 U.S.C. Sec. 1396(a)(25), the department shall pursue insurance claims on behalf of medicaid children served through its in-home medically intensive child program under WAC 388-551-3000. The department shall report to the Legislature by December 31, 2009, on the results of its efforts to recover such claims.

(25) The department may, on a case-by-case basis and in the best interests of the child, set payment rates for medically intensive home care services to promote access to home care as an alternative to hospitalization. Expenditures related to these increased payments shall not exceed the amount the department would otherwise pay for hospitalization for the child receiving medically intensive home care services.

(26) $425,000 of the general fund—state appropriation for fiscal year 2010, $425,000 of the general fund—state appropriation for fiscal year 2011, and $1,580,000 of the general fund—federal appropriation are provided solely to continue children's health coverage outreach and education efforts under RCW 74.09.470. These efforts shall rely on existing relationships and systems developed with local public health agencies, health care providers, public schools, the women, infants, and children program, the early childhood education and assistance program, child care providers, newborn visiting nurses, and other community-based organizations. The department shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(27) The department, in conjunction with the office of financial management, shall ((reduce outpatient and inpatient hospital rates and)) implement a prorated inpatient payment policy. ((In determining the level of reductions needed, the department shall include in its calculations services paid under fee for service, managed care, and certified public expenditure payment methods; but...))
(28) The department will pursue a competitive procurement process for anthemophilic products, emphasizing evidence-based medicine and protection of patient access without significant disruption in treatment.

(29) The department will pursue several strategies towards reducing pharmacy expenditures including but not limited to increasing generic prescription drug utilization by 20 percentage points and promoting increased utilization of the existing mail-order pharmacy program.

(30) The department shall reduce reimbursement for over-the-counter medications while maintaining reimbursement for those over-the-counter medications that can replace more costly prescription medications.

(31) The department shall seek public-private partnerships and federal funds that are or may become available to implement health information technology projects under the federal American recovery and reinvestment act of 2009.

(32) The department shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race.

(33) The department shall direct graduate medical education funds to programs that focus on primary care training.

(34) $79,000 of the general fund--state appropriation for fiscal year 2010 and $53,000 of the general fund--federal appropriation are provided solely to implement Substitute House Bill No. 1845 (medical support obligations).

(35) $63,000 of the general fund--state appropriation for fiscal year 2010, $583,000 of the general fund--state appropriation for fiscal year 2011, and $864,000 of the general fund--federal appropriation are provided solely to implement Engrossed House Bill No. 2194 (extraordinary medical placement for offenders). The department shall work in partnership with the department of corrections to identify services and find placements for offenders who are released through the extraordinary medical placement program. The department shall collaborate with the department of corrections to identify and track cost savings to the department of corrections, including medical cost savings, and to identify and track expenditures incurred by the aging and disability services program for community services and the medical assistance program for medical expenses. A joint report regarding the identified savings and expenditures shall be provided to the office of financial management and the appropriate fiscal committees of the legislature by November 30, 2010. If this bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(36) Sufficient amounts are provided in this section to provide full benefit dual eligible beneficiaries with medicare part D prescription drug copayment coverage in accordance with RCW 74.09.520.

Sec. 20. RCW 43.84.092 and 2009 c 479 s 31, 2009 c 472 s 5, and 2009 c 451 s 8 are each reenacted and amended to read as follows:

(2) The treasury income account shall be utilized to pay or receive funds associated with federal programs as required by the federal cash management improvement act of 1990. Refunds of interest to the federal treasury required under the cash management improvement act fall under RCW 43.88.180 and shall not require appropriation. The office of financial management shall determine the amounts due to or from the federal government pursuant to the cash management improvement act. The office of financial management may direct transfers of funds between accounts as deemed necessary to implement the provisions of the cash management improvement act, and this subsection. Refunds or allocations shall occur prior to the distributions of earnings set forth in subsection (4) of this section.

(3) Except for the provisions of RCW 43.84.160, the treasury income account may be utilized for the payment of purchased banking services on behalf of treasury funds including, but not limited to, depository, safekeeping, and disbursement functions for the state treasury and affected state agencies. The treasury income account is subject in all respects to chapter 43.88 RCW, but no appropriation is required for payments to financial institutions. STATEMENT FOR THE JOURNAL

I intended to vote NAY on Engrossed Second Substitute House Bill No. 2956.
We of your Conference Committee, to whom was referred SECOND ENGROSSED SUBSTITUTE SENATE BILL NO. 6143, modifying excise tax laws to preserve funding for public schools, colleges, and universities, as other public systems essential for the safety, health, and security of all Washingtonians, have had the same under consideration and we recommend that:

All previous amendments not be adopted and that the attached striking amendment (H-5847.5/10) be adopted

and that the bill do pass as recommended by the Conference Committee:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. In order to preserve funding for education, public safety, health care, environmental protection, and safety net services for children, elderly, disabled, and vulnerable people, it is the intent of the legislature to close obsolete tax preferences, clarify the legislature's intent regarding existing tax policy, and to ensure balanced tax policy while bolstering emerging industries.

PART I

Minimum Nexus Standards

NEW SECTION. Sec. 101. (1) The legislature finds that out-of-state businesses that do not have a physical presence in Washington earn significant income from Washington residents from providing services or collecting royalties on the use of intangible property in this state. The legislature further finds that these businesses receive significant benefits and opportunities provided by the state, such as: Laws providing protection of business interests or regulating consumer credit; access to courts and judicial process to enforce business rights, including debt collection and intellectual property rights; an orderly and regulated marketplace; and police and fire protection and a transportation system benefiting in-state agents and other representatives of out-of-state businesses. Therefore, the legislature intends to extend the state's business and occupation tax to these companies to ensure that they pay their fair share of the cost of services that this state renders and the infrastructure it provides.

(2)(a) The legislature also finds that the current cost apportionment method in RCW 82.04.460(1) for apportioning most service income has been difficult for both taxpayers and the department to apply due in large part (i) to the difficulty in assigning certain costs of doing business inside or outside of this state, and (ii) to its dissimilarity with the apportionment methods used in other states for their business activity taxes.

(b) The legislature further finds that there is a trend among states to adopt a single factor apportionment formula based on sales. The legislature recognizes that adoption of a sales factor only apportionment method has the advantages of simplifying apportionment and making Washington a more attractive place for businesses to expand their property and payroll. For these reasons, the legislature adopts single factor sales apportionment for purposes of apportioning royalty income and certain service income for state business and occupation tax purposes.

(c) Nothing in this act may be construed, however, to authorize apportionment of the gross income or value of products taxable under the following business and occupation tax classifications: Retailing, wholesaling, manufacturing, processing for hire, extracting, extracting for hire, printing, government contracting, public road construction, the classifications in RCW 82.04.280 (2), (4), (6), and (7), and any other activity not specifically included in the definition of apportionable activities in RCW 82.04.460.

(d) Nothing in this part is intended to modify the nexus and apportionment requirements for local gross receipts business and occupation taxes.

Sec. 102. RCW 82.04.220 and 1961 c 15 s 82.04.220 are each amended to read as follows:

(1) There is levied and ((shall be)) collected from every person that has a substantial nexus with this state a tax for the act or privilege of engaging in business activities. ((Such)) The tax ((shall be)) is measured by the application of rates against value of products, gross proceeds of sales, or gross income of the business, as the case may be.

(2) A person who has a substantial nexus with this state in any tax year will be deemed to have a substantial nexus with this state for the following tax year.

NEW SECTION. Sec. 103. A new section is added to chapter 82.04 RCW to read as follows:

"Engaging within this state" and "engaging within the state," when used in connection with any apportionable activity as defined in RCW 82.04.460, means that a person generates gross income of the business from sources within this state, such as customers or intangible property located in this state, regardless of whether the person is physically present in this state.

NEW SECTION. Sec. 104. A new section is added to chapter 82.04 RCW to read as follows:

(1) A person engaging in business is deemed to have substantial nexus with this state if the person is:

(a) An individual and is a resident or domiciliary of this state;

(b) A business entity and is organized or commercially domiciled in this state;

(c) A nonresident individual or a business entity that is organized or commercially domiciled outside this state, and in any tax year the person has:

(i) More than fifty thousand dollars of property in this state;

(ii) More than fifty thousand dollars of payroll in this state;

(iii) More than two hundred fifty thousand dollars of receipts from this state;

(iv) At least twenty-five percent of the person's total property, total payroll, or total receipts in this state.

(2)(a) Property counting toward the thresholds in subsection (1)(c)(i) and (iv) of this section is the average value of the taxpayer's property, including intangible property, owned or rented and used in this state during the tax year.
(b)(i) Property owned by the taxpayer, other than loans and credit card receivables owned by the taxpayer, is valued at its original cost basis. Loans and credit card receivables owned by the taxpayer are valued at their outstanding principal balance, without regard to any reserve for bad debts. However, if a loan or credit card receivable is charged off in whole or in part for federal income tax purposes, the portion of the loan or credit card receivable charged off is deducted from the outstanding principal balance.

(ii) Property rented by the taxpayer is valued at eight times the net annual rental rate. For purposes of this subsection, "net annual rental rate" means the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

(c) The average value of property must be determined by averaging the values at the beginning and ending of the tax year; but the department may require the averaging of monthly values during the tax year if reasonably required to properly reflect the average value of the taxpayer’s property.

(d)(i) For purposes of this subsection (2), loans and credit card receivables are deemed owned and used in this state as follows:

(A) Loans secured by real property, personal property, or both real and personal property, are deemed owned and used in the state if the real property or personal property securing the loan is located within this state. If the property securing the loan is located both within this state and one or more other states, the loan is deemed owned and used in this state if more than fifty percent of the fair market value of the real or personal property is located within this state. If more than fifty percent of the fair market value of the real or personal property is not located within any one state, then the loan is deemed owned and used in this state if the borrower is located in this state. The determination of whether the real or personal property securing a loan is located within this state must be made, as of the time the original agreement was made, and any and all subsequent substitutions of collateral must be disregarded.

(B) Loans not secured by real or personal property are deemed owned and used in this state if the borrower is located in this state.

(C) Credit card receivables are deemed owned and used in this state if the billing address of the cardholder is in this state.

(ii)(A) Except as otherwise provided in (d)(ii)(B) of this subsection (2), the definitions in the multistate tax commission’s recommended formula for the apportionment and allocation of net income of financial institutions as existing on the effective date of this section or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section, apply to this section.

(B) "Credit card" means a card or device existing for the purpose of obtaining money, property, labor, or services on credit.

(e) Notwithstanding anything else to the contrary in this subsection, property counting toward the thresholds in subsection (1)(c)(i) and (iv) of this section does not include a person's ownership of, or rights in, computer software as defined in RCW 82.04.215, including computer software used in providing a digital automated service; master copies of software; and digital goods and digital codes residing on servers located in this state.

(3)(a) Payroll counting toward the thresholds in subsection (1)(c)(ii) and (iv) of this section is the total amount paid by the taxpayer for compensation in this state during the tax year plus nonemployee compensation paid to representative third parties in this state. Nonemployee compensation paid to representative third parties includes the gross amount paid to nonemployees who represent the taxpayer in interactions with the taxpayer's clients and includes sales commissions.

(b) Employee compensation is paid in this state if the compensation is properly reportable to this state for unemployment compensation tax purposes, regardless of whether the compensation was actually reported to this state.

(c) Nonemployee compensation is paid in this state if the service performed by the representative third party occurs entirely or primarily within this state.

(d) For purposes of this subsection, "compensation" means wages, salaries, commissions, and any other form of remuneration paid to employees or nonemployees and defined as gross income under 26 U.S.C. Sec. 61 of the federal internal revenue code of 1986, as existing on the effective date of this section.

(4) Receipts counting toward the thresholds in subsection (1)(c)(iii) and (iv) of this section are those amounts included in the numerator of the receipts factor under section 105 of this act and, for financial institutions, those amounts included in the numerator of the receipts factor under the rule adopted by the department as authorized in RCW 82.04.460(2).

(5)(a) Each December, the department must review the cumulative percentage change in the consumer price index. The department must adjust the thresholds in subsection (1)(c)(i) through (iii) of this section if the consumer price index has changed by five percent or more since the later of the effective date of this section, or the date that the thresholds were last adjusted under this subsection. For purposes of determining the cumulative percentage change in the consumer price index, the department must compare the consumer price index available as of December 1st of the current year with the consumer price index as of the later of the effective date of this section, or the date that the thresholds were last adjusted under this subsection. The thresholds must be adjusted to reflect that cumulative percentage change in the consumer price index. The adjusted thresholds must be rounded to the nearest one thousand dollars. Any adjustment will apply to tax periods that begin after the adjustment is made.

(b) As used in this subsection, "consumer price index" means the consumer price index for all urban consumers (CPI-U) available from the bureau of labor statistics of the United States department of labor.

(6) Subsections (1) through (5) of this section only apply with respect to the taxes imposed under this chapter on apportionable activities as defined in RCW 82.04.460. For purposes of the taxes imposed under this chapter on any activity not included in the definition of apportionable activities in RCW 82.04.460, a person is deemed to have a substantial nexus with this state if the person has a physical presence in this state, which need only be demonstrably more than a slightest presence. For purposes of this subsection, a person is physically present in this state if the person has property or employees in this state. A person is also physically present in this state if the person, either directly or through an agent or other representative, engages in activities in this state that are significantly associated with the person’s ability to establish or maintain a market for its products in this state.

NEW SECTION. Sec. 105. A new section is added to chapter 82.04 RCW to read as follows:

(1) The apportionable income of a person within the scope of RCW 82.04.460(1) is apportioned to Washington by multiplying its apportionable income by the receipts factor. Persons who are subject to tax under more than one of the tax classifications enumerated in RCW 82.04.460(4)(a) (i) through (x) must calculate a separate receipts factor for each tax classification that the person is taxable under.

(2) For purposes of subsection (1) of this section, the receipts factor is a fraction and is calculated as provided in subsections (3) and (4) of this section and, for financial institutions, as provided in the rule adopted by the department under the authority of RCW 82.04.460(2).
(3) The numerator of the receipts factor is the total gross income of the business of the taxpayer attributable to this state during the tax year from engaging in an apportionable activity. The denominator of the receipts factor is the total gross income of the business of the taxpayer from engaging in an apportionable activity everywhere in the world during the tax year.

(b) Except as otherwise provided in this section, for purposes of computing the receipts factor, gross income of the business generated from each apportionable activity is attributable to the state:

(i) Where the customer received the benefit of the taxpayer's service or, in the case of gross income from royalties, where the customer used the taxpayer's intangible property.

(ii) If the customer received the benefit of the service or used the intangible property in more than one state, gross income of the business must be attributed to the state in which the benefit of the service was primarily received or in which the intangible property was primarily used.

(iii) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i) or (ii) of this subsection (3), gross income of the business must be attributed to the state from which the customer ordered the service or, in the case of royalties, the office of the customer from which the royalty agreement with the taxpayer was negotiated.

(iv) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), or (iii) of this subsection (3), gross income of the business must be attributed to the state to which the billing statements or invoices are sent to the customer by the taxpayer.

(v) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), or (iv) of this subsection (3), gross income of the business must be attributed to the state from which the customer sends payment to the taxpayer.

(vi) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), (iv), or (v) of this subsection (3), gross income of the business must be attributed to the state where the customer is located as indicated by the customer's address: (A) Shown in the taxpayer's business records maintained in the regular course of business; or (B) obtained during consummation of the sale or the negotiation of the contract for services or for the use of the taxpayer's intangible property, including any address of a customer's payment instrument when readily available to the taxpayer and no other address is available.

(vii) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), (iv), (v), or (vi) of this subsection (3), gross income of the business must be attributed to the commercial domicile of the taxpayer.

(viii) For purposes of this subsection (3)(b), "customer" means a person or entity to whom the taxpayer makes a sale or renders services or from whom the taxpayer otherwise receives gross income of the business. "Customer" includes anyone who pays royalties or charges in the nature of royalties for the use of the taxpayer's intangible property.

(c) Gross income of the business from engaging in an apportionable activity must be excluded from the denominator of the receipts factor if, in respect to such activity, at least some of the activity is performed in this state, and the gross income is attributable under (b) of this subsection (3) to a state in which the taxpayer is not taxable. For purposes of this subsection (3)(c), "not taxable" means that the taxpayer is not subject to a business activities tax by that state, except that a taxpayer is taxable in a state in which it would be deemed to have a substantial nexus with that state under the standards in section 104(1) of this act regardless of whether that state imposes such a tax. "Business activities tax" means a tax measured by the amount of, or economic results of, business activity conducted in a state. The term includes taxes measured in whole or in part on net income or gross income or receipts. "Business activities tax" does not include a sales tax, use tax, or a similar transaction tax, imposed on the sale or acquisition of goods or services, whether or not denominated a gross receipts tax or a tax imposed on the privilege of doing business.

(d) This subsection (3) does not apply to financial institutions with respect to apportionable income taxable under RCW 82.04.290. Financial institutions must calculate the receipts factor as provided in subsection (4) of this section and the rule adopted by the department under the authority of RCW 82.04.460(2) with respect to apportionable income taxable under RCW 82.04.290. Financial institutions that are subject to tax under any other tax classification enumerated in RCW 82.04.460(4)(a) (i) through (v) and (vii) through (x) must calculate a separate receipts factor, as provided in this section, for each of the other tax classifications that the financial institution is taxable under.

(4) A taxpayer may calculate the receipts factor for the current tax year based on the most recent calendar year for which information is available for the full calendar year. If a taxpayer does not calculate the receipts factor for the current tax year based on previous calendar year information as authorized in this subsection, the business must use current year information to calculate the receipts factor for the current tax year. In either case, a taxpayer must correct the reporting for the current tax year when complete information is available to calculate the receipts factor for that year, but not later than October 31st of the following tax year. Interest will apply to any additional tax due on a corrected tax return. Interest must be assessed at the rate provided for delinquent excise taxes under chapter 82.32 RCW, retroactively to the date the original return was due, and will accrue until the additional taxes are paid. Penalties as provided in RCW 82.32.090 will apply to any such additional tax due only if the current tax year reporting is not corrected and the additional tax is not paid by October 31st of the following tax year. Interest as provided in RCW 82.32.080 will apply to any tax paid in excess of that properly due on a return as a result of a taxpayer using previous calendar year data or incomplete current-year data to calculate the receipts factor.

(5) Unless the context clearly requires otherwise, the definitions in this subsection apply throughout this section.

(a) "Appor tionable activities" and "apportionable income" have the same meaning as in RCW 82.04.460.

(b) "State" means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any foreign country or political subdivision of a foreign country.

**Sec. 106.** RCW 82.04.2907 and 2009 c 535 s 407 are each amended to read as follows:

(1) Upon every person engaging within this state in the business of receiving income from royalties and charges in the nature of royalties for the granting of intangible rights, such as copyrights, licenses, patents, or franchise fees, the amount of tax with respect to (such) the business (shall be) is equal to the gross income from royalties (or charges in the nature of royalties from the business) multiplied by the rate of 0.484 percent.

(2) For the purposes of this section, "gross income from royalties" means compensation for the use of intangible property, (such as) including charges in the nature of royalties, regardless of where the intangible property will be used. For purposes of this subsection, "intangible property" includes copyrights, patents, licenses, franchises, trademarks, trade names, and similar items. (4) "Gross income from royalties" does not include compensation for any natural resource, the licensing of prewritten computer software to the end user, or the licensing (as) of digital goods, digital codes, or digital automated services to the end user as defined in RCW 82.04.190(1).

**Sec. 107.** RCW 82.04.2907 and 2010 c 111 (SHB 2620) s 302 are each amended to read as follows:
(1) Upon every person engaging within this state in the business of receiving income from royalties, including charges in the nature of royalties for the granting of intangible rights, such as copyrights, licenses, patents, or franchise fees), the amount of tax with respect to the business is equal to the gross income from royalties (including charges in the nature of royalties from the business) multiplied by the rate of 0.484 percent.

(2) For the purposes of this section, "gross income from royalties" means compensation for the use of intangible property, including charges in the nature of royalties, regardless of where the intangible property will be used. For purposes of this subsection, "intangible property" includes copyrights, patents, licenses, franchises, trademarks, trade names, and similar items. ((H)) "Gross income from royalties" does not include compensation for any natural resource, the licensing of prewritten computer software to the end user, or the licensing of digital goods, digital codes, or digital automated services to the end user as defined in RCW 82.04.190(11).

Sec. 108. RCW 82.04.460 and 2004 c 174 s 6 are each amended to read as follows:

(1) Except as otherwise provided in this section, any person (including services), earning apportionable income taxable under ((RCW 82.04.290 or 82.04.2908)) this chapter and (((maintaining places of business both within and without this state which contribute to the rendition of such services shall)) also taxable in another state, must, for the purpose of computing tax liability under ((RCW 82.04.290 or 82.04.2908)) this chapter, apportion to this state, in accordance with section 105 of this act, that portion of the person's (including services) apportionable income (which is derived from (services rendered) business activities performed within this state. ((Where such apportionment cannot be accurately made by separate accounting methods, the taxpayer shall apportion to this state that proportion of the taxpayer's total income which the cost of doing business within the state bears to the total cost of doing business both within and without the state.)) (2) (Notwithstanding the provision of subsection (1) of this section, persons doing business both within and without the state who receive gross income from service charges, as defined in RCW 63.14.010 (relating to amounts charged for granting the right or privilege to make deferred or installment payments) or who receive gross income from engaging in business as financial institutions within the scope of chapter 82.14A RCW (relating to city taxes on financial institutions) shall apportion or allocate gross income taxable under RCW 82.04.290 to this state pursuant to rules promulgated by the department consistent with uniform rules for apportionment or allocation developed by the states.)) The department must by rule provide a method of apportioning the apportionable income of financial institutions, where such apportionable income is taxable under RCW 82.04.290. The rule adopted by the department must, to the extent feasible, be consistent with the multistate tax commission's recommended formula for the apportionment and allocation of net income of financial institutions as existing on the effective date of this section or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section, except that:

(a) The department's rule must provide for a single factor apportionment method based on the receipts factor; and
(b) The definition of "financial institution" contained in appendix A to the multistate tax commission's recommended formula for the apportionment and allocation of net income of financial institutions is advisory only.

(3) The department ((shall)) may by rule provide a method or methods of apportioning or allocating gross income derived from sales of telecommunications service and competitive telephone service((s)) taxed under this chapter, if the gross proceeds of sales subject to tax under this chapter do not fairly represent the extent of the taxpayer's income attributable to this state. ((The rules shall be, so far as feasible, consistent with the method of apportionment contained in this section and shall require the consideration of those facts, circumstances, and apportionment factors as will result in an equitable and constitutionally permissible division of the services.)) The rule must provide for an equitable and constitutionally permissible division of the tax base.

(4) For purposes of this section, the following definitions apply unless the context clearly requires otherwise:

(a) "Apportionable income" means gross income of the business generated from engaging in apportionable activities, including income received from apportionable activities performed outside this state if the income would be taxable under this chapter if received from activities in this state, less the exemptions and deductions allowable under this chapter. For purposes of this subsection, "apportionable activities" means only those activities taxed under:

(i) RCW 82.04.255;
(ii) RCW 82.04.260 (3), (4), (5), (6), (7), (8), (9), and (12);
(iii) RCW 82.04.280(5);
(iv) RCW 82.04.285;
(v) RCW 82.04.286;
(vi) RCW 82.04.290;
(vii) RCW 82.04.2907;
(viii) RCW 82.04.2908;
(ix) RCW 82.04.2909;
(x) RCW 82.04.2904, but only to the extent of any activity that would be taxable under any of the provisions enumerated under (a)(i) through (x) of this subsection (4) if the tax classification in RCW 82.04.2904 did not exist; and

(b)(i) "Taxable in another state" means that the taxpayer is subject to a business activities tax by another state on its income received from engaging in apportionable activities; or the taxpayer is not subject to a business activities tax by another state on its income received from engaging in apportionable activities, but any other state has jurisdiction to subject the taxpayer to a business activities tax on such income under the substantial nexus standards in section 104(1) of this act.

Sec. 109. RCW 82.04.080 and 1961 c 15 s 82.04.080 are each amended to read as follows:

(1) "Gross income of the business" means the value proceeding or accruing by reason of the transaction of the business engaged in and includes gross proceeds of sales, compensation for the rendition of services, gains realized from trading in stocks, bonds, or other evidences of indebtedness, interest, discount, rents, royalties, fees, commissions, dividends, and other emoluments however designated, all without any deduction on account of the cost of tangible property sold, the cost of materials used, labor costs, interest, discount, delivery costs, taxes, or any other expense whatsoever paid or accrued and without any deduction on account of losses.

(2) Financial institutions must determine gains realized from trading in stocks, bonds, and other evidences of indebtedness on a net annualized basis. For purposes of this subsection, a financial institution means a person within the scope of the rule adopted by the department under the authority of RCW 82.04.460(2).

NEW SECTION. Sec. 110. A new section is added to chapter 82.04 RCW to read as follows:

For purposes of this subsection, "financial institution" has the same meaning as in RCW 82.04.080.

(2) As used in this section, "affiliated" means under common control. "Common control" means the possession, directly or indirectly, of more than fifty percent of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting shares, by contract, or otherwise.

(b) "Securities" has the same meaning as in section 2 of the securities act of 1933 and includes eligible assets as defined by Rule 3a-7 of the investment company act, as the law and rule exist on the effective date of this section or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section.

PART II

Tax Avoidance Transactions

NEW SECTION. Sec. 201. A new section is added to chapter 82.32 RCW to read as follows:

(1) It is the legislature's intent to require all taxpayers to pay their fair share of taxes. To accomplish this purpose, it is the legislature's intent to stop transactions or arrangements that are designed to unfairly avoid taxes.

(2) The department must disregard, for tax purposes, the tax avoidance transactions or arrangements that are described in subsection (3) of this section. The department may disregard a transaction or arrangement described under subsection (3) of this section, the department may consider:

(a) Whether an arrangement or transaction changes in a meaningful way, apart from its tax effects, the economic positions of the participants in the arrangement when considered as a whole;

(b) Whether substantial nontax reasons exist for entering into an arrangement or transaction;

(c) Whether an arrangement or transaction is a reasonable means of accomplishing a substantial nontax purpose;

(d) An entities' relative contributions to the work that generates income;

(e) The location where work is performed; and

(f) Other relevant factors.

(3) This section applies only to the following transactions or arrangements:
(a) Arrangements that are, in form, a joint venture or similar arrangement between a construction contractor and the owner or developer of a construction project but that are, in substance, substantially guaranteed payments for the purchase of construction services characterized by a failure of the parties’ agreement to provide for the contractor to share substantial profits and bear significant risk of loss in the venture;

(b) Arrangements through which a taxpayer attempts to avoid tax under chapter 82.04 RCW by disguising income received, or otherwise avoiding tax on income, from a person that is not affiliated with the taxpayer from business activities that would be taxable in Washington by moving that income to another entity that would not be taxable in Washington; and

(c) Arrangements through which a taxpayer attempts to avoid tax under chapter 82.08 or 82.12 RCW by engaging in a transaction to disguise its purchase or use of tangible personal property by vesting legal title or other ownership interest in another entity over which the taxpayer exercises control in such a manner as to effectively retain control of the tangible personal property.

(4) In determining whether a transaction or arrangement comes within the scope of subsection (3) of this section, the department is not required to prove a taxpayer's subjective intent in the transaction or arrangement.

(5) The department must adopt rules to assist in determining whether a transaction or arrangement is within the scope of subsection (3) of this section. The adoption of a rule as required under this subsection is not a condition precedent for the department's exercise of the authority provided in this section. Any rules adopted under this section must include examples of transactions that the department will disregard for tax purposes.

(6) This section does not affect the department's authority to apply any other remedies available under statutory or common law.

(7) For purposes of this section, "affiliated" means under common control. "Control" means the possession, directly or indirectly, of more than fifty percent of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting shares, by contract, or otherwise.

A new section is added to chapter 82.32 RCW to read as follows:

NEW SECTION. Sec. 202. A new section is added to chapter 82.32 RCW to read as follows:

(3) For purposes of this section, "specific written instructions" means tax reporting instructions provided to a taxpayer and which specifically identify the taxpayer to whom the instructions apply. Specific written instructions may be provided as part of an audit, tax assessment, determination, closing agreement, or in response to a binding ruling request.

Sec. 203. RCW 82.32.090 and 2006 c 256 s 6 are each amended to read as follows:

(1) If payment of any tax due on a return to be filed by a taxpayer is not received by the department of revenue by the due date, there ((shall be)) is assessed a penalty of five percent of the amount of the tax; and if the tax is not received on or before the last day of the month following the due date, there ((shall be)) is assessed a total penalty of fifteen percent of the amount of the tax under this subsection; and if the tax is not received on or before the last day of the second month following the due date, there ((shall be)) is assessed a total penalty of twenty-five percent of the amount of the tax under this subsection. No penalty so added shall be less than five dollars.

(2) If the department of revenue determines that any tax has been substantially underpaid, there ((shall be)) is assessed a penalty of five percent of the amount of the tax determined by the department to be due. If payment of any tax determined by the department to be due is not received by the department by the due date specified in the notice, or any extension thereof, there ((shall be)) is assessed a total penalty of fifteen percent of the amount of the tax under this subsection; and if payment of any tax determined by the department to be due is not received on or before the thirtieth day following the due date specified in the notice of tax due, or any extension thereof, there ((shall be)) is assessed a total penalty of twenty-five percent of the amount of the tax under this subsection. No penalty so added ((shall)) may be less than five dollars. As used in this section, "substantially underpaid" means that the taxpayer has paid less than eighty percent of the amount of tax determined by the department to be due for all of the types of taxes included in, and for the entire period of time covered by, the department's examination, and the amount of underpayment is at least one thousand dollars.

(5) If the department finds that any tax has been substantially underpaid, there ((shall be)) is assessed a penalty of five percent of the amount of the tax determined by the department to be due. If payment of any tax determined by the department to be due is not received by the department by the due date specified in the notice, or any extension thereof, there ((shall be)) is assessed a total penalty of fifteen percent of the amount of the tax under this subsection; and if payment of any tax determined by the department to be due is not received on or before the thirtieth day following the due date specified in the notice of tax due, or any extension thereof, there ((shall be)) is assessed a total penalty of twenty-five percent of the amount of the tax under this subsection. No penalty so added ((shall)) may be less than five dollars. As used in this section, "substantially underpaid" means that the taxpayer has paid less than eighty percent of the amount of tax determined by the department to be due for all of the types of taxes included in, and for the entire period of time covered by, the department's examination, and the amount of underpayment is at least one thousand dollars.

(3) If a warrant ((be))) is issued by the department of revenue for the collection of taxes, increases, and penalties, there ((shall be)) is added thereto a penalty of ten percent of the amount of the tax, but not less than ten dollars.

(4) If the department finds that a person has engaged in any business or performed any act upon which a tax is imposed under this title and that person has not obtained from the department a registration certificate as required by RCW 82.32.030, the department ((shall)) must impose a penalty of five percent of the amount of tax due from that person for the period that the person was not registered as required by RCW 82.32.030. The department ((shall)) may not impose the penalty under this subsection (4) if a person who has engaged in business taxable under this title without first having registered as required by RCW 82.32.030, prior to any notification by the department of the need to register, obtains a registration certificate from the department.

(5) If the department finds that all or any part of a deficiency resulted from the disregard of specific written instructions as to reporting or tax liabilities, the department ((shall)) must add a penalty of ten percent of the amount of the additional tax found due because of the failure to follow the instructions. A taxpayer disregards specific written instructions when the department ((of revenue)) has informed the taxpayer in writing of the taxpayer's tax obligations and the taxpayer fails to act in accordance with those instructions unless the department has not issued final instructions because the matter is under appeal pursuant to this chapter or departmental regulations. The department ((shall)) may not assess the penalty under this section upon any taxpayer who has made a good faith effort to comply with the specific written instructions provided by the department to that taxpayer. Specific written instructions may be given as a part of a tax assessment, audit, determination, or closing agreement, provided that such specific written instructions ((shall)) apply only to the taxpayer addressed or referenced on such documents. Any specific written instructions by the department ((of revenue shall)) must be clearly identified as such and ((shall)) must inform the taxpayer that failure to follow the instructions may subject the taxpayer to the penalties imposed by this subsection.
(6) If the department finds that all or any part of a deficiency resulted from engaging in a disregarded transaction, as described in section 201(3) of this act, the department must assess a penalty of thirty-five percent of the additional tax found to be due as a result of engaging in a transaction disregarded by the department under section 201(2) of this act. The penalty provided in this subsection may be assessed together with any other applicable penalties provided in this section on the same tax found to be due, except for the evasion penalty provided in subsection (7) of this section. The department may not assess the penalty under this subsection if, before the department discovers the taxpayer's use of a transaction described under section 201(3) of this act, the taxpayer discloses its participation in the transaction to the department.

(7) If the department finds that all or any part of the deficiency resulted from an intent to evade the tax payable hereunder, a further penalty of fifty percent of the additional tax found to be due (((shall))) must be added.

(((42))) (8) The penalties imposed under subsections (1) through (4) of this section can each be imposed on the same tax found to be due. This subsection does not prohibit or restrict the application of other penalties authorized by law.

(((44))) (9) The department (((of revenue))) may not impose (((shall))) the evasion penalty (((and))) in combination with the penalty for disregarding specific written instructions or the penalty provided in subsection (6) of this section on the same tax found to be due.

(((42))) (10) For the purposes of this section, "return" means any document a person is required by the state of Washington to file to satisfy or establish a tax or fee obligation that is administered or collected by the department (((of revenue))), and that has a statutorily defined due date.

NEW SECTION. Sec. 204. A new section is added to chapter 82.32 RCW to read as follows:

There is hereby created a joint tax avoidance review committee which is a bipartisan committee consisting of three members of the senate, two from the majority caucus and one from the minority caucus, and three members of the house of representatives, two from the majority caucus and one from the minority caucus. The senate members of the committee must be appointed by the majority leader of the senate, and the house members of the committee must be appointed by the speaker of the house. The appointing authorities must also appoint one alternate member from each of the two largest caucuses of each legislative chamber.

(1) Members and alternates must be appointed as soon as possible after the effective date of this section, and their terms continue until such persons no longer wish to serve on the committee or no longer serve in the legislature, whichever occurs first.

(b) A vacancy must be filled by the appointment of a legislator from the same legislative chamber and caucus as the original appointment.

The appropriate appointing authority must make the appointment within thirty days of the vacancy occurring. Former committee members and alternates may be reappointed to the committee.

(2) The committee must choose its chair and vice-chair from among its membership. The committee meets at the call of the chair. The chair of the committee must cause all meeting notices and committee documents to be sent to the committee members and alternates.

(3) Staff support for the committee must be provided by the senate committee services and the house of representatives office of program research.

(4) The committee must:

(a) Generally monitor the department's implementation of Part II of this act, providing timely advice to the department in any rule making undertaken pursuant to the authority granted under section 201 of this act;

(b) Seek input from stakeholders and other legislators as the committee may determine is desirable and useful in the furtherance of its mission herein described;

(c) Review other cases, identified by the department, of tax avoidance transactions not described in section 201 of this act that may represent examples of arrangements that circumvent the policies of this state and thus unfairly avoid taxes;

(d) Consider the need for an explicit statutory construction standard to provide direction to the courts on the interpretation of Part II of this act; and

(e) Provide a report to the fiscal committees of the house of representatives and senate by December 31, 2010, which must include:

(i) Recommended legislation on any matters that the committee deems advisable, including amendments to sections 201, 202, and 203 of this act; and

(ii) Recommendations for future legislative oversight of the department's implementation of sections 201, 202, and 203 of this act.

(5) For the purposes of this section, the disclosure of otherwise confidential tax information to the members of the committee is deemed to fall within the exception provided by RCW 82.32.330(3)(d).

(6) This section expires July 1, 2011.

NEW SECTION. Sec. 205. (1) The legislature finds that this state's tax policy with respect to the taxation of transactions between affiliated entities and the income derived from such transactions (intercompany transactions) has motivated some taxpayers to engage in transactions that circumvent the policies of this state and thus unfairly avoid taxes.

(2) Therefore, as existing resources allow, the department of revenue is directed to conduct a review of the state's tax policy with respect to the taxation of intercompany transactions. The review must include the impacts of such transactions under the state's business and occupation tax and state and local sales and use taxes. The department may include other taxes in the review as it deems appropriate.

(3) In conducting the review, the department must examine how this state's tax policy compares to the tax policy of other states with respect to the taxation of intercompany transactions. The department's review must include an analysis of potential alternatives to the current policy of taxing intercompany transactions, including their estimated revenue impacts if practicable.

(4) In conducting this review, the department may seek input from members of the business community and others as it deems appropriate.

(5) The department must report its findings to the fiscal committees of the house of representatives and senate by December 1, 2010. However, if the department has not completed its review by December 1, 2010, the department must provide the fiscal committees of the legislature with a brief status report by December 1, 2010, and the final report by December 1, 2011.

Sec. 206. RCW 82.12.020 and 2009 c 535 s 305 are each amended to read as follows:

(C) Sales in which the purchaser is not obligated to make continued payment as a condition of the sale; and

(D) Sales in which the purchaser is obligated to make continued payment as a condition of the sale.

(iii) With respect to digital goods, digital automated services, and digital codes acquired other than by purchase, the tax imposed in this subsection (1)(e) applies regardless of whether or not the consumer has a right of permanent use or is obligated to make continued payment as a condition of use.

(2) The provisions of this chapter do not apply in respect to the use of any article of tangible personal property, extended warranty, digital good, digital code, digital automated service, or service taxable under RCW 82.04.050 (2)(a) or (g), (3)(a), or (6)(b), if the sale to, or the use by, the present user or the present user's bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by the present user's bailor or donor.

(3)(a) Except as provided in this section, payment of the tax imposed by this chapter or chapter 82.08 RCW by one purchaser or user of tangible personal property, extended warranty, digital good, digital code, digital automated service, or other service does not have the effect of exempting any other purchaser or user of the same property, extended warranty, digital good, digital code, digital automated service, or other service from the taxes imposed by such chapters.

(b) The tax imposed by this chapter does not apply:

(i) If the sale to, or the use by, the present user or his or her bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by his or her bailor or donor;

(ii) In respect to the use of any article of tangible personal property acquired by bailment and the tax has once been paid based on reasonable rental as determined by RCW 82.12.060 measured by the value of the article at time of first use multiplied by the tax rate imposed by chapter 82.08 RCW or this chapter as of the time of first use;

(iii) In respect to the use of any article of tangible personal property acquired by bailment, if the property was acquired by a previous bailee from the same bailor for use in the same general activity and the original bailment was prior to June 9, 1961; or

(iv) To the use of digital goods or digital automated services or services which were obtained through the use of a digital code, if the sale of the digital code to, or the use of the digital code by, the present user or the present user's bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by the present user's bailor or donor.

(4)(a) Except as provided in (b) of this subsection (4), the tax is levied and must be collected in an amount equal to the value of the article used, value of the digital good or digital code used, value of the extended warranty used, or value of the service used by the taxpayer, multiplied by the applicable rates in effect for the retail sales tax under RCW 82.08.020.

(b) In the case of a seller required to collect use tax from the purchaser, the tax must be collected in an amount equal to the purchase price multiplied by the applicable rate in effect for the retail sales tax under RCW 82.08.020.

(5) For purposes of the tax imposed in this section, "person" includes anyone within the definition of "buyer," "purchaser," and "consumer" in RCW 82.08.010.

Sec. 207. RCW 82.45.010 and 2008 c 116 s 3 and 2008 c 6 s 701 are each reenacted and amended to read as follows:

(1) As used in this chapter, the term "sale" (shall have) has its ordinary meaning and (shall) includes any conveyance, grant, assignment, quitclaim, or transfer of the ownership of or title to real property, including standing timber, or any estate or interest therein for a valuable consideration, and any contract for such conveyance, grant, assignment, quitclaim, or transfer, and any lease with an option to purchase real property, including standing timber, or any estate or interest therein or other contract under which possession of the property is given to the purchaser, or any other person at the purchaser's direction, and title to the property is retained by the vendor as security for the payment of the purchase price. The term also includes the grant, assignment, quitclaim, sale, or transfer of improvements constructed upon leased land.

(2)(a) The term "sale" also includes the transfer or acquisition within any twelve-month period of a controlling interest in any entity with an interest in real property located in this state for a valuable consideration.

(b) For the sole purpose of determining whether, pursuant to the exercise of an option, a controlling interest was transferred or acquired within a twelve-month period, the date that the option agreement was executed is the date on which the transfer or acquisition of the controlling interest is deemed to occur. For all other purposes under this chapter, the date upon which the option is exercised is the date of the transfer or acquisition of the controlling interest.

(c) For purposes of this subsection, all acquisitions of persons acting in concert (shall) must be aggregated for purposes of determining whether a transfer or acquisition of a controlling interest has taken place. The department (of revenue shall) must adopt standards by rule to determine when persons are acting in concert. In adopting a rule for this purpose, the department (shall) must consider the following:

(i) Persons (shall) must be treated as acting in concert when they have a relationship with each other such that one person influences or controls the actions of another through common ownership; and

(ii) When persons are not commonly owned or controlled, they (shall) must be treated as acting in concert only when the unity with which the purchasers have negotiated and will consummate the transfer of ownership interests supports a finding that they are acting as a single entity. If the acquisitions are completely independent, with each purchaser buying without regard to the identity of the other purchasers, then the acquisitions (shall be) are considered separate acquisitions.
(3) The term "sale" (shall) does not include:
   (a) A transfer by gift, devise, or inheritance.
   (b) A transfer of any leasehold interest other than of the type mentioned above.
   (c) A cancellation or forfeiture of a vendee's interest in a contract for the sale of real property, whether or not such contract contains a forfeiture clause, or deed in lieu of foreclosure of a mortgage.
   (d) The partition of property by tenants in common by agreement or as the result of a court decree.
   (e) The assignment of property or interest in property from one spouse or one domestic partner to the other spouse or other domestic partner in accordance with the terms of a decree of dissolution of marriage or state registered domestic partnership or in fulfillment of a property settlement agreement.
   (f) The assignment or other transfer of a vendor's interest in a contract for the sale of real property, even though accompanied by a conveyance of the vendor's interest in the real property involved.
   (g) Transfers by appropriation or decree in condemnation proceedings brought by the United States, the state or any political subdivision thereof, or a municipal corporation.
   (h) A mortgage or other transfer of an interest in real property merely to secure a debt, or the assignment thereof.
   (i) Any transfer or conveyance made pursuant to a deed of trust or an order of sale by the court in any mortgage, deed of trust, or lien foreclosure proceeding or upon execution of a judgment, or deed in lieu of foreclosure to satisfy a mortgage or deed of trust.
   (j) A conveyance to the federal housing administration or veterans administration by an authorized mortgagee made pursuant to a contract of insurance or guaranty with the federal housing administration or veterans administration.
   (k) A transfer in compliance with the terms of any lease or contract upon which the tax as imposed by this chapter has been paid or where the lease or contract was entered into prior to the date this tax was first imposed.
   (l) The sale of any grave or lot in an established cemetery.
   (m) A sale by the United States, this state or any political subdivision thereof, or a municipal corporation of this state.
   (n) A sale to a regional transit authority or public corporation under RCW 81.112.320 under a sale/leaseback agreement under RCW 81.112.300.

(o) A transfer of real property, however effected, if it consists of a mere change in identity or form of ownership of an entity where there is no change in the beneficial ownership. These include transfers to a corporation or partnership which is wholly owned by the transferor and/or the transferor's spouse or domestic partner or children of the transferor or the transferor's spouse or domestic partner (provided, that).

However, if thereafter such transferee corporation or partnership voluntarily transfers such real property, or such transferor, spouse or domestic partner, or children of the transferor or the transferor's spouse or domestic partner voluntarily transfer stock in the transferee corporation or interest in the transferee partnership capital, as the case may be, to other than ((4)) (i) the transferor and/or the transferor's spouse or domestic partner or children of the transferor or the transferor's spouse or domestic partner, ((2)) (ii) a trust having the transferor and/or the transferor's spouse or domestic partner or children of the transferor or the transferor's spouse or domestic partner as the only beneficiaries at the time of the transfer to the trust, or ((2)) (iii) a corporation or partnership wholly owned by the original transferor and/or the transferor's spouse or domestic partner or children of the transferor or the transferor's spouse or domestic partner, within three years of the original transfer to which this exemption applies, and the tax on the subsequent transfer has not been paid within sixty days of becoming due, excise taxes (shall) become due and payable on the original transfer as provided by law.

(p)(i) A transfer that for federal income tax purposes does not involve the recognition of gain or loss for entity formation, liquidation or dissolution, and reorganization, including but not limited to nonrecognition of gain or loss because of application of (section) 26 U.S.C. Sec. 332, 337, 351, 368(a)(1), 721, or 731 of the internal revenue code of 1986, as amended.

(ii) However, the transfer described in (p)(i) of this subsection cannot be preceded or followed within a twelve-month period by another transfer or series of transfers, that, when combined with the otherwise exempt transfer or transfers described in (p)(i) of this subsection, results in the transfer of a controlling interest in the entity for valuable consideration, and in which one or more persons previously holding a controlling interest in the entity receive cash or property in exchange for any interest the person or persons acting in concert hold in the entity. This subsection (3)(p)(ii) does not apply to that part of the transfer involving property received that is the real property interest that the person or persons originally contributed to the entity or when one or more persons who did not contribute real property or belong to the entity at a time when real property was purchased receive cash or personal property in exchange for that person or persons' interest in the entity. The real estate excise tax under this subsection (3)(p)(ii) is imposed upon the person or persons who previously held a controlling interest in the entity.

(q) A qualified sale of a manufactured/mobile home community, as defined in RCW 59.20.030, that takes place on or after June 12, 2008, but before December 31, 2018.

Sec. 208. RCW 82.45.033 and 1993 sp.s. c 25 s 505 are each amended to read as follows:

(1) As used in this chapter, the term "controlling interest" has the following meaning:

(((4))) (a) In the case of a corporation, either fifty percent or more of the total combined voting power of all classes of stock of the corporation entitled to vote, or fifty percent of the capital, profits, or beneficial interest in the voting stock of the corporation; and

(((2))) (b) In the case of a partnership, association, trust, or other entity, fifty percent or more of the capital, profits, or beneficial interest in such partnership, association, trust, or other entity.

(2) The department may, at the department's option, enforce the obligation of the seller under this chapter as provided in this subsection (2):

(a) In the transfer or acquisition of a controlling interest as defined in subsection (1)(a) of this section, either against the corporation in which a controlling interest is transferred or acquired, against the person or persons who acquired the controlling interest in the corporation or, when the corporation is not a publicly traded company, against the person or persons who transferred the controlling interest in the corporation; and

(b) In the transfer or acquisition of a controlling interest as defined in subsection (1)(b) of this section, either against the entity in which a controlling interest is transferred or acquired or against the person or persons who transferred or acquired the controlling interest in the entity.

Sec. 209. RCW 82.45.070 and 1969 ex.s. c 223 s 28A.45.070 are each amended to read as follows:

The tax (been) provided for in this chapter and any interest or penalties thereon (shall) is a specific lien upon each (piece) parcel of real property located in this state that is either sold or that is owned by an entity in which a controlling interest has been transferred or acquired. The lien attaches from the time of sale until the tax (shall have been) is paid, which lien may be enforced in the manner prescribed for the foreclosure of mortgages.
Sec. 210. RCW 82.45.080 and 1980 c 154 s 3 are each amended to read as follows:
(1) The tax levied under this chapter (shall) is the obligation of the seller and the department (of revenue) may, at the department's option, enforce the obligation through an action of debt against the seller or the department may proceed in the manner prescribed for the foreclosure of mortgages (and resort to) The department's use of one course of enforcement (shall) is not (be) an election not to pursue the other.
(2) For purposes of this section and notwithstanding any other provisions of law, the seller is the parent corporation of a wholly owned subsidiary, when such subsidiary is the transferor to a third-party transferee and the subsidiary is dissolved before paying the tax imposed under this chapter.

Sec. 211. RCW 82.45.100 and 2007 c 111 s 112 are each amended to read as follows:
(1) Payment of the tax imposed under this chapter is due and payable immediately at the time of sale, and if not paid within one month thereafter (shall) will bear interest from the time of sale until the date of payment.
(a) Interest imposed before January 1, 1999, (shall) is computed at the rate of one percent per month.
(b) Interest imposed after December 31, 1998, (shall) is computed on a monthly basis at the rate as computed under RCW 82.32.050(2).
(2) In addition to the interest described in subsection (1) of this section, if the payment of any tax is not received by the county treasurer or the department of revenue, as the case may be, within one month of the date due, there (shall) is assessed a penalty of five percent of the amount of the tax; if the tax is not received within two months of the date due, there (shall) will be assessed a total penalty of ten percent of the amount of the tax; and if the tax is not received within three months of the date due, there (shall) will be assessed a total penalty of twenty percent of the amount of the tax. The payment of the penalty described in this subsection (shall) is collectible from the seller only, and RCW 82.45.070 does not apply to the penalties described in this subsection.
(3) If the tax imposed under this chapter is not received by the due date, the transferee (shall) is personally liable for the tax, along with any interest as provided in subsection (1) of this section, unless(s)
—(a) An instrument evidencing the sale is recorded in the official real property records of the county in which the property conveyed is located((
—(b) Either the transferor or transferee notifies the department of revenue in writing of the occurrence of the sale within thirty days following the date of the sale)).

(4) If upon examination of any affidavits or from other information obtained by the department or its agents it appears that all or a portion of the tax is unpaid, the department (shall) must assess against the taxpayer the additional amount found to be due plus interest and penalties as provided in subsections (1) and (2) of this section. The department (shall) must notify the taxpayer by mail, or electronically as provided in RCW 82.32.135, of the additional amount and the same (shall) becomes due and (shall) must be paid within thirty days from the date of the notice, or within such further time as the department may provide.
(5) No assessment or refund may be made by the department more than four years after the date of sale except upon a showing of:
(a) Fraud or misrepresentation of a material fact by the taxpayer;
(b) A failure by the taxpayer to record documentation of a sale or otherwise report the sale to the county treasurer; or
(c) A failure of the transferor or transferee to report the sale under RCW 82.45.090(2).
(6) Penalties collected on taxes due under this chapter under subsection (2) of this section and RCW 82.32.090(2) through (((47))) 81 (shall) must be deposited in the housing trust fund as described in chapter 43.185 RCW.

(1) An organization that fails to report a transfer of the controlling interest in the organization under RCW 43.07.390 to the secretary of state and is later determined to be subject to real estate excise taxes due to the transfer, (shall) is subject to the provisions of RCW 82.45.100 as well as the evasion penalty in RCW 82.32.090(((i))) 72.
(2) Subsection (1) of this section also applies to the failure to report to the secretary of state the granting of an option to acquire an interest in the organization if the exercise of the option would result in a sale as defined in RCW 82.45.010(2).

Sec. 213. RCW 43.07.390 and 2005 c 326 s 2 are each amended to read as follows:

(b) The disclosure requirement in this subsection only applies to entities owning an interest in real property located in this state.
(2) This information (shall) must be made available to the department of revenue upon request for the purposes of tracking the transfer of the controlling interest in entities owning real property and to determine when the real estate excise tax is applicable in such cases.
(3) For the purposes of this section, "controlling interest" has the same meaning as provided in RCW 82.45.033.

PART III
Modifying the First Mortgage Deduction

Sec. 301. RCW 82.04.4292 and 1980 c 37 s 12 are each amended to read as follows:

(3) Subsections (1) and (2) of this section notwithstanding, the following is a nonexclusive list of items that are not deductible under this section:
(a) Fees for specific services such as: Document preparation fees; finder fees; brokerage fees; title examination fees; fees for credit checks; notary fees; loan application fees; interest lock-in fees if the loan is not made; servicing fees; and similar fees or amounts;
(b) Fees received in consideration for an agreement to make funds available for a specific period of time at specified terms, commonly referred to as commitment fees;
(c) Any other fees, or portion of a fee, that is not recognized over the life of the loan as an adjustment to yield in the taxpayer's books and records according to generally accepted accounting principles;
(d) Gains on the sale of valuable rights such as service release premiums, which are amounts received when servicing rights are sold; and
(e) Gains on the sale of loans, except deferred loan origination fees and points deductible under subsection (2) of this section, are not to be considered part of the proceeds of sale of the loan.

(4) Notwithstanding subsection (3) of this section, in computing tax there may be deducted from the measure of tax by those engaged in banking, loan, security, or other financial businesses, amounts received for servicing loans primarily secured by first mortgages or trust deeds on nontransient residential properties, including such loans that secure mortgage-backed or mortgage-related securities, but only if:

(a)(i) The loans were originated by the person claiming a deduction under this subsection (4) and that person either sold the loans on the secondary market or securitized the loans and sold the securities on the secondary market; or
(ii) (A) The person claiming a deduction under this subsection (4) acquired the loans from the person that originated the loans through a merger or acquisition of substantially all of the assets of the person who originated the loans, or the person claiming a deduction under this subsection (4) is affiliated with the person that originated the loans. For purposes of this subsection, "affiliated" means under common control. (B) Either the person who originated the loans or the person claiming a deduction under this subsection (4) sold the loans on the secondary market or securitized the loans and sold the securities on the secondary market; and
(b) The amounts received for servicing the loans are determined by a percentage of the interest paid by the borrower and are only received if the borrower makes interest payments.

PART IV

Direct Seller Business and Occupation Tax Exemption

NEW SECTION. Sec. 401. (1) A business and occupation tax exemption is provided in RCW 82.04.423 for certain out-of-state sellers that sell consumer products exclusively to or through a direct seller's representative. The intent of the legislature in enacting this exemption was to provide a narrow exemption for out-of-state businesses engaged in direct sales of consumer products, typically accomplished through in-home parties or door-to-door selling.

(2) In Dot Foods, Inc. v. Dept of Revenue, Docket No. 81022-2 (September 10, 2009), the Washington supreme court held that the exemption in RCW 82.04.423 applied to a taxpayer: (a) That sold nonconsumer products through its representative in addition to consumer products; and (b) whose consumer products were ultimately sold at retail in permanent retail establishments.

(3) The legislature finds that most out-of-state businesses selling consumer products in this state will either be eligible for the exemption under RCW 82.04.423 or could easily restructure their business operations to qualify for the exemption. As a result, the legislature expects that the broadened interpretation of the direct sellers' exemption will lead to large and devastating revenue losses. This comes at a time when the state's existing budget is facing a two billion six hundred million dollar shortfall, which could grow, while at the same time the demand for state and state-funded services is also growing. Moreover, the legislature further finds that RCW 82.04.423 provides preferential tax treatment for out-of-state businesses over their in-state competitors and now creates a strong incentive for in-state businesses to move their operations outside Washington.

(4) Therefore, the legislature finds that it is necessary to reaffirm the legislature's intent in establishing the direct sellers' exemption and prevent the loss of revenues resulting from the expanded interpretation of the exemption by amending RCW 82.04.423 retroactively to conform the exemption to the original intent of the legislature and by prospectively ending the direct sellers' exemption as of the effective date of this section.

Sec. 402. RCW 82.04.423 and 1983 1st ex.s. c 66 s 5 are each amended to read as follows:

(1) Prior to the effective date of this section, this chapter ((الحل)) does not apply to any person in respect to gross income derived from the business of making sales at wholesale or retail if such person:
(a) Does not own or lease real property within this state; and
(b) Does not regularly maintain a stock of tangible personal property in this state for sale in the ordinary course of business; and
(c) Is not a corporation incorporated under the laws of this state; and
(d) Makes sales in this state exclusively to or through a direct seller's representative.

(2) For purposes of this section, the term "direct seller's representative" means a person who buys only consumer products on a buy-sell basis or a deposit-commission basis for resale, by the buyer or any other person, in the home or otherwise than in a permanent retail establishment, or who sells at retail, or solicits the sale at retail of, only consumer products in the home or otherwise than in a permanent retail establishment; and
(a) Substantially all of the remuneration paid to such person, whether or not paid in cash, for the performance of services described in this subsection is directly related to sales or other output, including the performance of services, rather than the number of hours worked; and
(b) The services performed by the person are performed pursuant to a written contract between such person and the person for whom the services are performed and such contract provides that the person will not be treated as an employee with respect to such purposes for federal tax purposes.

(3) Nothing in this section ((الحل)) may be construed to imply that a person exempt from tax under this section was engaged in a business activity taxable under this chapter prior to ((the enactment of this section)) August 23, 1983.

PART V

Business and Occupation Tax Preferences for Manufacturers of Products Derived from Certain Agricultural Products

NEW SECTION. Sec. 501. (1)(a) In 1967, the legislature amended RCW 82.04.260 in chapter 149, Laws of 1967 ex. sess. to authorize a preferential business and occupation tax rate for slaughtering, breaking, and/or processing perishable meat products and/or selling the same at wholesale. The legislature finds that RCW 82.04.260(4) was interpreted by the state supreme court on January 13, 2005, in Agrilink Foods, Inc.
v. Department of Revenue, 153 Wn.2d 392 (2005). The supreme court held that the preferential business and occupation tax rate on the
slaughtering, breaking, and/or processing of perishable meat products applied to the processing of perishable meat products into nonperishable
finished products, such as canned food.

(b) The legislature intends to narrow the exemption provided for slaughtering, breaking, and/or processing perishable meat products and/or
selling such products at wholesale by requiring that the end product be a perishable meat product; a nonperishable meat product that is comprised
primarily of animal carcass by weight or volume, other than a canned meat product; or a meat by-product.

(2)(a) A business and occupation tax exemption is provided for (i) manufacturing by canning, preserving, freezing, processing, or
dehydrating fresh fruits or vegetables, and (ii) selling such products at wholesale by the manufacturer to purchasers who transport the goods out
of state in the ordinary course of business. This exemption expires July 1, 2012, and is replaced by a preferential business and occupation tax
rate.

(b) The legislature finds that the rationale of the Agrilink decision, if applied to these tax preferences, could result in preferential tax treatment
for any processed food product that contained any fresh fruit or vegetable as an ingredient, however small the amount.

(c) The legislature intends to narrow the tax preference provided to fruit and vegetable manufacturers by requiring that the end product be
comprised either (i) exclusively of fruits and/or vegetables, or (ii) of any combination of fruits, vegetables, and certain other substances that,
cumulatively, may not exceed the amount of fruits and vegetables contained in the product measured by weight or volume.

NEW SECTION. Sec. 502. A new section is added to chapter 82.04 RCW to read as follows:

(1) Upon every person engaging within this state in the business of manufacturing:

(a) Perishable meat products, by slaughtering, breaking, or processing; if the finished product is a perishable meat product; as to such persons the

business, multiplied by the rate of 0.138 percent;

(b) Meat products, by dehydration, curing, smoking, or any combination of these activities, if the finished meat products are not canned; as to

business, multiplied by the rate of 0.138 percent;

(c) Hides, tallow, meat meal, and other similar meat by-products, if such products are derived in part from animals and manufactured in a
rendering plant licensed under chapter 16.68 RCW; as to such persons the tax imposed is equal to the value of the products manufactured, or, in the

finished meat products are not canned; as to such persons the tax imposed is equal to the gross proceeds derived from such sales multiplied by the
rate of 0.138 percent;

(c) Hides, tallow, meat meal, and other similar meat by-products, if such products are derived in part from animals and manufactured by the
seller in a rendering plant; as to such persons the tax imposed is equal to the gross proceeds derived from such sales multiplied by the rate of

PART VII

Ending the Preferential Business and Occupation Tax Treatment Received by Directors of Corporations

NEW SECTION. Sec. 701. (1) In adopting the state's business and occupation tax, the legislature intended to tax virtually all business activities carried on within the state. See Simpson Inv. Co. v. Dept of Revenue, 141 Wn.2d 139, 149 (2000). The legislature recognizes that the business and occupation tax applies to all activities engaged in with the object of gain, benefit, or advantage to the taxpayer or to another person or class, directly or indirectly, unless a specific exemption applies.

(2) One of the major business and occupation tax exemptions is provided in RCW 82.04.360 for income earned as an employee or servant as distinguished from income earned as an independent contractor. The legislature's intent in providing this exemption was to exempt employee wages from the business and occupation tax but not to exempt income earned as an independent contractor.

(3) The legislature finds that corporate directors are not employees or servants of the corporation whose board they serve on and therefore are not entitled to a business and occupation tax exemption under RCW 82.04.360. The legislature further finds that there are no business and occupation tax exemptions for compensation received for serving as a member of a corporation's board of directors.

(4) The legislature also finds that there is a widespread misunderstanding among corporate directors that the business and occupation tax does not apply to the compensation they receive for serving as a director of a corporation. It is the legislature's expectation that the department of revenue will take appropriate measures to ensure that corporate directors understand and comply with their business and occupation tax obligations with respect to their director compensation. However, because of the widespread misunderstanding by corporate directors of their liability for business and occupation tax on director compensation, the legislature finds that it is appropriate in this unique situation to provide limited relief against the retroactive assessment of business and occupation taxes on corporate director compensation.

(5) The legislature also reaffirms its intent that all income of all independent contractors is subject to business and occupation tax unless specifically exempt under the Constitution or laws of this state or the United States.

Sec. 702. RCW 82.04.360 and 2010 c 106 (E2SHB 1597) s 207 are each amended to read as follows:

(1) This chapter does not apply to any person in respect to his or her employment in the capacity of an employee or servant as distinguished from that of an independent contractor. For the purposes of this section, the definition of employee (shall) includes those persons that are defined in section 3121(d)(3)(B) of the federal internal revenue code of 1986, as amended through January 1, 1991.

(2) Until the effective date of this section, this chapter does not apply to amounts received by an individual from a corporation as compensation for serving as a member of that corporation's board of directors. Beginning on the effective date of this section, such amounts are taxable under RCW 82.04.290(2).

(3) A booth renter is an independent contractor for purposes of this chapter. For purposes of this (sub)section, "booth renter" means any person who:

(a) Performs cosmetology, barbering, esthetics, or manicuring services for which a license is required under chapter 18.16 RCW; and

(b) Pays a fee for the use of salon or shop facilities and receives no compensation or other consideration from the owner of the salon or shop for the services performed.

PART VIII

For the purposes of this section, any retail sales taxes that have been paid but not collected shall be deductible from the retail sales taxes collected but not paid.

(2) The officer, member, manager, or other person shall be liable only for taxes collected which) Whenever the department has issued a warrant under RCW 82.32.210 for the collection of unpaid retail sales tax funds collected and held in trust under RCW 82.08.050 from a limited liability business entity and that business entity has been terminated, dissolved, or abandoned, or is insolvent, the department may pursue collection of the entity's unpaid sales taxes, including penalties and interest on those taxes, against any or all of the responsible individuals. For purposes of this subsection, "insolvent" means the condition that results when the sum of the entity's debts exceeds the fair market value of its assets. sales tax liability that became due during the period that he or she had the duty to remit payment of the limited liability business entity's taxes to the department but was not the chief executive or chief financial officer.

(c) Remit payment of the limited liability business entity's taxes to the department.

(5) Persons described in subsection ((4)) (3)(b) of this section are exempt from liability under this section in situations where nonpayment of the limited liability business entity's sales taxes is due to reasons beyond their control as determined by the department by rule.

(6) Any person having been issued a notice of assessment under this section is entitled to the appeal procedures under RCW 82.32.160, 82.32.170, 82.32.180, 82.32.190, and 82.32.200.

(7) This section applies only in situations where the department has determined that there is no reasonable means of collecting the retail sales tax funds held in trust directly from the corporation.

(8) This section does not relieve the corporation or limited liability business entity of any other tax liabilities.

(9) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

The rate of the tax is equal to two cents per twelve ounces of carbonated beverages sold in this state.

(b) For a fraction of an ounce that is equal to or greater than one-half ounce, the taxable quantity must be rounded up to the nearest ounce.

(2) Successive sales by any person of carbonated beverages exempt under subsection (1) of this section are also exempt from the tax imposed in this chapter. MESSAGE FROM THE SENATE

Mr. Speaker:

The Senate has passed SECOND SUBSTITUTE HOUSE BILL 2576 and the same is herewith transmitted.

Brad Hendrickson, Deputy Secretary

MESSAGE FROM THE SENATE

Mr. Speaker:

The Senate has passed HOUSE BILL NO. 2694 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 28B.50 RCW to read as follows:
(1) RCW 28B.50.901 assigns responsibility for the north Snohomish, Island, and Skagit counties' higher education consortium to Everett Community College. In April of 2009, Everett Community College opened Gray Wolf Hall, the new home of the University Center of North Puget Sound. The University Center currently offers over twenty bachelor's and master's degrees from six partner universities.

(2) Although Everett Community College offers an associate degree nursing program that graduates approximately seventy to ninety students per year, the University Center does not offer a bachelor of science in nursing. Some graduates of the Everett Community College program are able to articulate to the bachelor of science in nursing program offered by the University of Washington-Bothell at its Bothell campus or in Mt. Vernon but current capacity is not sufficient for all of the graduates who are both interested and qualified.

(3) Despite recent growth in nursing education capacity, shortages still persist for registered nurses. According to a June 2007 study by the Washington, Wyoming, Alaska, Montana, and Idaho center for health workforce studies, the average age of Washington's registered nurses was forty-eight years. More than a third were fifty-five years of age or older. Consequently, the high rate of registered nurses retiring from nursing practice over the next two decades will significantly reduce the supply. This reduction comes at the same time as the state's population grows and ages. The registered nurse education capacity in Washington has a large impact on the supply of registered nurses in the state. If the rate of graduation in registered nursing does not increase, projections show that supply in Washington will begin to decline by 2015. In contrast, if graduation rates increased by four hundred per year, the supply of registered nurses would meet estimated demand by the year 2021.

(4) Subject to specific funding to support up to fifty full-time equivalent students in a bachelor of nursing program, the University Center at Everett Community College, in partnership with the University of Washington-Bothell, shall offer a bachelor of science in nursing program with capacity for up to fifty full-time students.

NEW SECTION. Sec. 2. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2010.

NEW SECTION. Sec. 3. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2010, in the omnibus appropriations act, this act is null and void."

MESSAGE FROM THE SENATE

April 12, 2010

Mr. Speaker:

The Senate has passed ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 2630 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that in times of severe economic recession, the state has a special obligation to help unemployed and low-income citizens access the training and education necessary to help them find and keep living wage jobs. The legislature also finds that during times of recession, when state revenues are at their lowest, demand for education and training are at their highest, making it especially important for the legislature to set clear goals and make the most efficient use of limited state resources.

(2) The legislature therefore intends to expand training and education programs, which have proven to be successful, to help Washington citizens receive the training they need. These programs include the worker retraining program, the opportunity grant program, and the opportunity internship program. The legislature further intends to create more effective intake and outreach systems to reach the greatest number of citizens and connect them to the resources they need, including college, apprenticeship, and pre-apprenticeship.

Sec. 2. RCW 28C.04.390 and 1999 c 121 s 1 are each amended to read as follows:

(1) The college board worker retraining program funds shall be used for training programs and related support services, including financial aid, counseling, referral to training resources, job referral, and job development that:

(a) Are consistent with the unified plan for workforce development;

(b) Provide increased enrollments for dislocated workers;

(c) Provide customized training opportunities for dislocated workers; and

(d) Provide increased enrollments and support services, including financial aid for those students not receiving unemployment insurance benefits, that do not replace or supplant any existing enrollments, programs, support services, or funding sources.

(2) The college board shall develop a plan for use of the worker retraining program funds in conjunction with the workforce training customer advisory committee established in subsection (3) of this section. In developing the plan the college board shall:

(a) Provide that applicants for worker retraining program funds shall solicit financial support for training programs and give priority in receipt of funds to those applicants which are most successful in matching public dollars with financial support;

(b) Provide that applicants for worker retraining program funds shall develop training programs in partnership with local businesses, industry associations, labor, and other partners as appropriate and give priority in receipt of funds to those applicants who develop customized training programs in partnership with local businesses, industry associations, and labor organizations;

(c) Give priority in receipt of funds to those applicants serving rural areas;

(d) Ensure that applicants receiving worker retraining program funds gather information from local workforce development councils on employer workforce needs, including the needs of businesses with less than twenty-five employees; and

(e) Provide for specialized vocational training at a private career school or college at the request of a recipient eligible under subsection (1)(b) of this section. Available tuition for the training is limited to the amount that would otherwise be payable per enrolled quarter to a public institution; and

(f) Give priority in receipt of funds to those applicants working toward careers in the aerospace, health care, advanced manufacturing, construction, forest product, and renewable energy industries; high-demand occupations in strategic industry clusters identified in the state comprehensive plan and the workforce development councils' local comprehensive plans for workforce educational training as identified in RCW 28C.18.080 and 28C.18.150; and occupations and industries identified by community and technical colleges in collaboration with local workforce development councils. For purposes of this section, health care includes long-term care.
(3) The executive director of the college board shall appoint a workforce training customer advisory committee by July 1, 1999, to:

(a) Assist in the development of the plan for the use of the college board worker retraining program funds and recommend guidelines to the college board for the operation of worker retraining programs;

(b) Recommend selection criteria for worker retraining programs and grant applicants for receipt of worker retraining program grants;

(c) Provide advice to the college board on other workforce development activities of the community and technical colleges;

(d) Recommend selection criteria for job skills grants, consistent with criteria established in this chapter and chapter 121, Laws of 1999. Such criteria shall include a prioritization of job skills applicants in rural areas;

(e) Recommend guidelines to the college board for the operation of the job skills program; and

(f) Recommend grant applicants for receipt of job skills program grants.

(4) Members of the workforce training customer advisory committee shall consist of three college system representatives selected by the executive director of the college board, three representatives of business selected from nominations provided by statewide business organizations, and three representatives of labor selected from nominations provided by a statewide labor organization representing a cross-section of workers in the state.

NEW SECTION. Sec. 3. A new section is added to chapter 28B.50 RCW to read as follows:

By July 1, 2010, and within existing resources, the college board may create a single web site for the purpose of advertising the availability of opportunity express funding to Washington citizens; explaining that opportunity express helps people who want to pursue college and apprenticeship for certain targeted industries; and explaining that opportunity express includes the following tracks:

(3) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act.

(4) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP), the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county, during the 2009-2011 biennium. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot project, times the number of clients enrolled in the pilot project. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of “available resources” as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicaid expansion programs. The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(5) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2010, unless specifically prohibited by this act, the department may transfer general fund–state appropriations for fiscal year 2010 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2010 caseload forecasts and utilization assumptions in the medical assistance, long-term care, foster care, adoptions support, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director...
of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(6) The legislature finds that Medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(7) With the objective of improving and enhancing the efficiency and effectiveness of the audit and oversight program, the department shall identify streamlining opportunities in the areas described in (a) through (d) of this subsection. The goals of these activities are to leverage department resources to better fulfill the obligations of all aspects of audit and oversight programs in an era of resource constraints and to assure that the burden of audits and other oversight activities on the state's businesses, organizations, and individuals is as minimal as practical.

(a) The department shall complete an assessment of expanding the use of technology and automated data matches for identification and recovery of third party resources, including data matches with pharmacy benefit managers (PBM). The department shall submit a report to the governor and the relevant fiscal and policy committees of the legislature by September 1, 2010, that identifies resources needed to implement the enhanced data matching capability and the actions and timelines necessary for implementation of automated production data matching capability.

(b) The department shall complete a comprehensive review of multiple licensing and certification reviews, onsite surveys, and contract oversight activities that require provider site visits or require provider response. The department shall identify all related oversight and review activities and identify opportunities for consolidation of multiple clinical and business management review activities as appropriate with a view to minimizing the cost of both conducting and receiving the audits or other review or oversight activities.

(c) The department shall expand its provider audit capacity through its provider one payment system. The department shall identify Medicaid payment system enhancements that will maximize new technical capabilities. The department shall explore new technical capabilities of its fraud and abuse detection system to identify more efficient ways to correlate audit efforts to the levels of risk and materiality. Results of focused audits must be used to enhance educational materials. The department shall report to the governor and legislature by December 1, 2010, on the status of developing this audit capacity.

(d) The department shall conduct a review and assessment of audit processes and timeframes. The department shall review audit outcomes from the past three fiscal years and will concentrate on identifying opportunities to shorten timeframes between the various stages of an audit, including the letter of intent to audit, records collection to issuance of the draft audit, dispute resolution activities, issuance of the final audit, and administrative hearings. The department shall initiate a provider outreach and education program to include communication materials that clearly identify expectations of the department and the provider being audited. The department must develop and publish an orientation to Medicaid audits publication by October 1, 2010, that includes audit requirements, expectations of providers and the department, and associated timelines.

The department shall report to the governor and relevant policy and fiscal committees of the legislature by December 1, 2010, on the status of these activities.

Evidence-based programs, based on criteria established by the Washington state institute for public policy, and disposition alternatives will be funding priorities. Funds may be used for promising practices when approved by juvenile rehabilitation administration, based on criteria established in consultation with Washington state institute for public policy and the juvenile courts.
— By September 1, 2009, a committee with four members, in consultation with Washington state institute for public policy, shall develop a funding formula that takes into account the juvenile courts average daily population of program eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative. The committee shall have one representative from the juvenile rehabilitation administration, one representative from the office of financial management, one representative from the office of the administrator of the courts, and one representative from the juvenile courts. Decision making will be by majority rule.

— By September 1, 2010, the Washington state institute for public policy shall provide a report to the office of financial management and the legislature on the administration of the block grant authorized in this subsection. The report shall include the criteria used for allocating the funding as a block grant and the participation targets and actual participation in the programs subject to the block grant.

(b) By December 1, 2009, the committee established in (a) of this subsection, in consultation with Washington state institute for public policy, shall propose to the office of financial management and the legislature changes in the process of funding and managing, including accountability and information collection and dissemination, grants to juvenile courts for serving youth adjudicated in the juvenile court system in the fiscal year ending June 30, 2011. The proposal shall include, but is not limited to: A process of making a block grant of funds consistent with (a) of this subsection; a program of data collection and measurement criteria for receiving the funds which will include targets of the number of youth served in identified evidence-based programs and disposition alternatives in which the juvenile courts and office of the administrator of the courts will have responsibility for collecting and distributing information and providing access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data; and necessary changes to the Washington administrative code.

For the fiscal year ending June 30, 2011, the juvenile rehabilitation administration shall administer a block grant, rather than categorical funding, of consolidated juvenile service funds, community juvenile accountability act grants, the chemical dependency disposition alternative funds, the mental health disposition alternative, and the sentencing disposition alternative for the purpose of serving youth adjudicated in the juvenile justice system. In making the block grant, the juvenile rehabilitation administration shall follow the following formula and will prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program-eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative: (i) Thirty-seven and one-half percent for the at-risk population of youth ten to seventeen years old; (ii) fifteen percent for moderate and high-risk youth; (iii) twenty-five percent for evidence-based program participation; (iv) seventeen and one-half percent for minority populations; (v) three percent for the chemical dependency disposition alternative; and (vi) two percent for the mental health and sentencing dispositional alternatives. (b) It is the intent of the legislature that the juvenile rehabilitation administration phase the implementation of the formula provided in subsection (1) of this section by including a stop-loss formula of three percent in fiscal year 2011, five percent in fiscal year 2012, and five percent in fiscal year 2013. It is further the intent of the legislature that the evidence-based expansion grants be incorporated into the block grant formula by fiscal year 2013 and SSODA remain separate unless changes would result in increasing the cost benefit savings to the state as identified in (c) of this subsection.

(c) The juvenile rehabilitation administration and the juvenile courts shall establish a block grant funding formula oversight committee with equal representation from the juvenile rehabilitation administration and the juvenile courts. The purpose of this committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. The committee will be cochaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the authority to change members of the committee as needed to achieve its purpose. Initial members will include one juvenile court representative from the finance committee, the community juvenile accountability act committee, the risk assessment quality assurance committee, the executive board of the Washington association of juvenile court administrators, the Washington state center for court research, and a representative of the superior court judges association; two representatives from the juvenile rehabilitation administration headquarters program oversight staff; two representatives of the juvenile rehabilitation administration regional office staff; one representative of the juvenile rehabilitation administration fiscal staff and a juvenile rehabilitation administration division director. The committee may make changes to the formula categories other than the evidence-based program and disposition alternative categories if it is determined the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost benefit savings to the state. Long-term cost benefit must be considered. Percentage changes may occur in the evidence-based program or disposition alternative categories of the formula should it be determined the changes will increase evidence-based program or disposition alternative delivery and increase the cost benefit to the state. These outcomes will also be considered in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(d) The juvenile courts and administrative office of the courts shall be responsible for collecting and distributing information and providing access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. The juvenile rehabilitation administration and the juvenile courts will work collaboratively to develop program outcomes that reinforce the greatest cost benefit to the state in the implementation of evidence-based practices and disposition alternatives.

(e) By December 1, 2010, the Washington state institute for public policy shall report to the office of financial management and appropriate committees of the legislature on the administration of the block grant authorized in this subsection. The report shall include the criteria used for allocating the funding as a block grant and the participation targets and actual participation in the programs subject to the block grant.

(8) $3,700,000 of the Washington auto theft prevention authority account--state appropriation is provided solely for competitive grants to community-based organizations to provide at-risk youth intervention services, including but not limited to, case management, employment services, educational services, and street outreach intervention programs. Projects funded should focus on preventing, intervening, and suppressing behavioral problems and violence while linking at-risk youth to pro-social activities. The department may not expend more than
$1,850,000 per fiscal year. The costs of administration must not exceed four percent of appropriated funding for each grant recipient. Each entity receiving funds must report to the juvenile rehabilitation administration on the number and types of youth served, the services provided, and the impact of those services upon the youth and the community.

(9) The appropriations in this section assume savings associated with the transfer of youthful offenders age eighteen or older whose sentences extend beyond age twenty-one to the department of corrections to complete their sentences. Prior to transferring an offender to the department of corrections, the juvenile rehabilitation administration shall evaluate the offender to determine the offender's physical and emotional suitability for transfer.

Hospital Safety Net Assessment Fund--State

| Appropriation                             | $1,043,344,000 |

The appropriations in this subsection are subject to the following conditions and limitations:

(a) $113,689,000 of the general fund--state appropriation for fiscal year 2010 and $113,689,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for persons and services not covered by the medicaid program. This is a reduction of $11,606,000 each fiscal year from the nonmedicaid funding that was allocated for expenditure by regional support networks during fiscal year 2009 prior to supplemental budget reductions. This $11,606,000 reduction shall be distributed among regional support networks proportional to each network's share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

(b) ($16,900,000) $10,400,000 of the general fund--state appropriation for fiscal year 2010 ((and $16,900,000)), $9,100,000 of the general fund--state appropriation for fiscal year 2011, and $1,300,000 of the general fund--federal appropriation are provided solely for the department and regional support networks to contract for implementation of high-intensity program for active community treatment (PACT) team(( and other proven program approaches that the department concurs will enable the regional support network to achieve significant reductions in the number of beds the regional support network would otherwise need to use at the state hospitals)). The department shall work with regional support networks and the center for medicare and medicaid services to integrate eligible components of the PACT service delivery model into medicaid capitation rates no later than January 2011, while maintaining consistency with all essential elements of the PACT evidence-based practice model.

(c) ($4,582,000) of the general fund--state appropriation for fiscal year 2010 and $4,582,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care provided by the program for adaptive living skills (PALS) at western state hospital. The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 617 per day during the first quarter of fiscal year 2010, and 587 per day thereafter. Beds in the program for adaptive living skills (PALS) are not included in the preceding bed allocations. The department shall separately charge regional support networks for persons served in the PALS program.

(d) (e) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(e) (f) $4,582,000 of the general fund--state appropriation for fiscal year 2010 and $4,582,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(f) (g) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(g) (h) $750,000 of the general fund--state appropriation for fiscal year 2010 and $750,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(h) (i) $1,500,000 of the general fund--state appropriation for fiscal year 2010 and $1,500,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;
(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and
(iv) Services at the sixteen-bed evaluation and treatment facility.
At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

((iii)(i)) The department shall return to the Spokane regional support network fifty percent of the amounts assessed against the network during the last six months of calendar year 2009 for state hospital utilization in excess of its contractual limit. The regional support network shall use these funds for operation during its initial months of a new sixteen-bed evaluation and treatment facility that will enable the network to reduce its use of the state hospital, and for diversion and community support services for persons with dementia who would likely otherwise require care at the state hospital.

((iii)(k)) The department is directed to identify and implement program efficiencies and benefit changes in its delivery of medicaid managed-care services that are sufficient to operate within the state and federal appropriations in this section. Such actions may include but are not limited to methods such as adjusting the care access standards; improved utilization management of ongoing, recurring, and high-intensity services; and increased uniformity in provider payment rates. The department shall ensure that the capitation rate adjustments necessary to accomplish these efficiencies and changes are distributed uniformly and equitably across all regional support networks statewide. The department is directed to report to the relevant legislative fiscal and policy committees at least thirty days prior to implementing rate adjustments reflecting these changes.

The legislature intends and expects that regional support networks and contracted community mental health agencies shall make all possible efforts to, at a minimum, maintain current compensation levels of direct care staff. Such efforts shall include, but not be limited to, identifying local funding that can preserve client services and staff compensation, achieving administrative reductions at the regional support network level, and engaging stakeholders on cost-savings ideas that maintain client services and staff compensation. For purposes of this section, “direct care staff” means persons employed by community mental health agencies whose primary responsibility is providing direct treatment and support to people with mental illness, or whose primary responsibility is providing direct support to such staff in areas such as client scheduling, client intake, client reception, client records-keeping, and facilities maintenance.

(p) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

Sec. 205. 2010 c 3 s 204 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES–DEVELOPMENTAL DISABILITIES PROGRAM

(1) COMMUNITY SERVICES
The appropriations in this subsection are subject to the following conditions and limitations:

(a) Individuals receiving services as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

(b)(i) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients. In doing so, the department shall comply with all maintenance of effort requirements contained in the American reinvestment and recovery act.

(ii) $508,000 of the general fund--state appropriation for fiscal year 2011 and $822,000 of the general fund--federal appropriation are provided solely for the department to partially restore the reductions to in-home care that are taken in (b)(i) of this subsection. The department will use the same formula to restore personal care hours that it used to reduce personal care hours.

(c) Amounts appropriate in this section are sufficient to develop and implement the use of a consistent, statewide outcome-based vendor contract for employment and day services by April 1, 2011. The rates paid to vendors under this contract shall also be made consistent. In its description of activities the agency shall include activity listings and dollars appropriated for: Employment services, day services, child development services and county administration of services to the developmentally disabled. The department shall begin reporting to the office of financial management on these activities beginning in fiscal year 2010.

(d) (i) $5,593,000 of the general fund--state appropriation for fiscal year 2010, $4,002,000 of the general fund--state appropriation for fiscal year 2011, and $14,701,000 of the general fund--federal appropriation are provided solely for community residential and support services. Funding in this subsection shall be prioritized for (i) residents of residential habilitation centers who are able to be adequately cared for in community settings and who choose to live in those community settings; (ii) clients without residential services who are at immediate risk of institutionalization or in crisis; (iii) children who are at risk of institutionalization or who are aging out of other state services; and (iv) current home and community-based waiver program clients who have been assessed as having an immediate need for increased services. First priority shall be given to children who are at risk of institutionalization. The department shall ensure that the average cost per day for all program services other than start up costs shall not exceed $300. In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds, provided the total projected carry forward expenditures do not exceed the amounts estimated. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

— (ii) $403,000 of the general fund--state appropriation for fiscal year 2010, $1,463,000 of the general fund--state appropriation for fiscal year 2011, and $2,741,000 of the general fund--federal appropriation are provided solely for community services for persons with developmental disabilities who also have community protection issues. Funding in this subsection shall be prioritized for (A) clients being diverted or discharged from the state psychiatric hospitals; (B) clients participating in the dangerous mentally ill offender program; (C) clients participating in the community protection program; and (D) mental health crisis diversion. The department shall ensure that the average cost per day for all program services other than start up costs shall not exceed $349 per day in fiscal year 2010 and $356 per day in fiscal year 2011. In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds, provided the total projected carry forward expenditures do not exceed the amounts estimated. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

— (iii) $302,000 of the general fund--state appropriation for fiscal year 2010, $831,000 of the general fund--state appropriation for fiscal year 2011, and $1,592,000 of the general fund--federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.

— (iv) $682,000 of the general fund--state appropriation for fiscal year 2010, $1,651,000 of the general fund--state appropriation for fiscal year 2011, and $1,678,000 of the general fund--federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.

(ii) The federal portion of the amounts in this subsection (g) is contingent upon federal approval of participation in contributions to the trust and shall remain unallotted and placed in reserve status until the office of financial management and the department of social and health services receive federal approval.

(iii) Expenditures for the purposes specified in this subsection (g) shall not exceed the amounts provided in this subsection.

(iv) The department shall implement all necessary rules to facilitate the transfer to a department home and community-based services (HCBS) waiver of all eligible individuals who (i) currently receive services under the existing state-only employment and day program or the existing state-only residential program, and (ii) otherwise meet the waiver eligibility requirements. The amounts appropriated are sufficient to ensure that all individuals currently receiving services under the state-only employment and day and state-only residential programs who are not transferred to a department HCBS waiver will continue to receive services.
(i) Adult day health services shall only be authorized for in-home clients.

(j) In addition to other reductions, the appropriations in this subsection reflect reductions targeted specifically to state government administrative costs. These administrative reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or programs.

(k) The department shall not pay a home care agency licensed under chapter 70.127 RCW for personal care services provided by a family member, pursuant to Substitute House Bill No. 2361 (modifying state payments for in-home care).

(l) (i) Within the appropriations of this section, the department shall reduce all seventeen payment levels of the seventeen-level payment system from the fiscal year 2009 levels for boarding homes, boarding homes contracted as assisted living, and adult family homes. Excluded from the reductions are exceptional care rate add-ons. The long-term care program may develop add-ons to pay exceptional care rates to adult family homes and boarding homes with specialty contracts to provide support for the following specifically eligible clients:

(ii) Persons with AIDS or HIV-related diseases who might otherwise require nursing home or hospital care;

(iii) Persons with Alzheimer's disease and related dementia who might otherwise require nursing home care; and

(iv) Persons with co-occurring mental illness and long-term care needs who are eligible for expanded community services and who might otherwise require state and local psychiatric hospital care.

Within amounts appropriated, exceptional add-on rates for AIDS/HIV, dementia specialty care, and expanded community services may be standardized within each program.

(m) The amounts appropriated in this subsection reflect a reduction in funds available for employment and day services. In administering this reduction the department shall negotiate with counties and their vendors so that this reduction, to the greatest extent possible, is achieved by reducing vendor rates and allowable contract administrative charges (overhead) and not through reductions to direct client services or direct service delivery or programs.

(n) Within the amounts allotted for employment and day services in this section, the department shall prioritize the funding of employment services for students graduating from high school during fiscal years 2010 and 2011. However, nothing in this subsection is intended to displace services for other recipients of employment services.

(o) As part of the needs assessment instrument, the department may collect data on family income for minor children with developmental disabilities and all individuals who are receiving state-only funded services. The department may ensure that this information is collected as part of the client assessment process.

(l) $116,000 of the general fund–state appropriation for fiscal year 2010, $2,689,000 of the general fund–state appropriation for fiscal year 2011, and $1,772,000 of the general fund–federal appropriation are provided solely for employment services and required waiver services. Priority consideration for this new funding shall be young adults with developmental disabilities living with their family who need employment opportunities and assistance after high school graduation. Services shall be provided for both waiver and nonwaiver clients. Fifty percent of the general fund appropriation shall be utilized for graduates served on a home and community-based services waiver and fifty percent of the general fund appropriation shall be used for nonwaiver clients.

(m) The Division of Developmental Disabilities shall not reduce funding for county employment contracts. Funding for this purpose shall be maintained at the amount appropriated for this purpose in chapter 564, Laws of 2009.

(n) The department shall, by September 30, 2010, provide a report to the legislature on the implementation of chapter 571, Laws of 2009 (Substitute House Bill No. 2361). The report shall provide an analysis of the savings and/or costs to the agency associated with the implementation of the bill. Additionally, the report shall provide a full accounting of the relative hourly costs of agency providers and individual providers.

(o) The department shall establish a working group with representatives of the home care industry to identify and eliminate or mitigate administrative burdens. The make-up of this working group shall be limited to:

(i) The state unit on aging chief of the aging and disabilities service administration (ADSA);

(ii) Other ADSA representatives as the state unit on aging chief deems necessary;

(iii) A representative from the department of health facility services licensing;

(iv) No more than seven representatives of the home care industry, to include:

(A) A representative of each of the three home care associations;

(B) A for-profit agency with at least seven area agency on aging contracts;

(C) A nonprofit with at least seven area agency on aging contracts;

(D) An agency that serves persons with developmental disabilities; and

(E) An agency that is a community action program;

(v) No more than two area agency on aging directors; and

(vi) Representatives from each of the two labor unions which represent home care workers,

The department is authorized to assign work group members consistent with this subsection (1)(s). The working group shall hold its first meeting no later than May 1, 2010, and shall meet at least monthly or as needed until the group has accomplished its goals. The work group shall provide a report on its findings to the legislative fiscal committees by January 1, 2011.

(p) The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served in each of the following categories: (i) Residents of residential habilitation centers who are able to be adequately cared for in community settings and who choose to live in those community settings; (ii) clients without residential services who are at immediate risk of institutionalization or in crisis; (iii) children who are at risk of institutionalization or who are aging out of other state services; (iv) current home and community-based waiver program clients who have been assessed as having an immediate need for increased services; (v) clients being diverted or discharged from the state psychiatric hospitals; (vi) clients participating in the dangerous mentally ill offender program; (vii) clients participating in the community protection program; or (viii) mental health crisis diversion outplacements. The department shall strive to serve these clients in the most cost-effective manner.

(q) $81,000 of the general fund–state appropriation for fiscal year 2010, $599,000 of the general fund–state appropriation for fiscal year 2011, and $1,111,000 of the general fund–federal appropriation are provided solely for the department to provide employment and day services for eligible students who are currently on a waiver and will graduate from high school during fiscal years 2010 and 2011.

The appropriations in this section are subject to the following conditions and limitations:

(1) For purposes of implementing chapter 74.46 RCW, the weighted average nursing facility payment rate shall not exceed ($156.37) $169.85 for fiscal year 2010 and shall not exceed ($158.24) $166.24 for fiscal year 2011, including the rate add-on described in subsection (12) of this section. There will be no adjustments for economic trends and conditions in fiscal years 2010 and 2011. The economic trends and conditions factor or factors defined in the biennial appropriations act shall not be compounded with the economic trends and conditions factor or factors defined in any other biennial appropriations acts before applying it to the component rate allocations established in accordance with chapter 74.46 RCW. When no economic trends and conditions factor for either fiscal year is defined in a biennial appropriations act, no economic trends and conditions factor or factors defined in any earlier biennial appropriations act shall be applied solely or compounded to the component rate allocations established in accordance with chapter 74.46 RCW.

(2) After examining actual nursing facility cost information, the legislature finds that the medicaid nursing facility rates calculated pursuant to Substitute House Bill No. 3202 or Substitute Senate Bill No. 6872 (nursing facility medicaid payments) provide sufficient reimbursement to efficient and economically operating nursing facilities and bears a reasonable relationship to costs.

(3) In accordance with chapter 74.46 RCW, the department shall issue no additional certificates of capital authorization for fiscal year 2010 and no new certificates of capital authorization for fiscal year 2011 and shall grant no rate add-ons to payment rates for capital improvements not requiring a certificate of need and a certificate of capital authorization for fiscal year 2011.

(4) The long-term care program may develop and pay enhanced rates for exceptional care to nursing homes for persons with traumatic brain injuries who are transitioning from hospital care. The cost per patient day for caring for these clients in a nursing home setting may be equal to or less than the cost of caring for these clients in a hospital setting.

(5) Within the appropriations of this section, the department shall reduce all seventeen payment levels of the seventeen-level payment system from the fiscal year 2009 levels for boarding homes, boarding homes contracted as assisted living, and adult family homes. Excluded from the reductions are exceptional care rate add-ons. The long-term care program may develop add-ons to pay exceptional care rates to adult family homes and boarding homes with specialty contracts to provide support for the following specifically eligible clients:

(a) Persons with AIDS or HIV-related diseases who might otherwise require nursing home or hospital care;
(b) Persons with Alzheimer's disease and related dementia who might otherwise require nursing home care; and
(c) Persons with co-occurring mental illness and long-term care needs who are eligible for expanded community services and who might otherwise require state and local psychiatric hospital care.

Within amounts appropriated, exceptional add-on rates for AIDS/HIV, dementia specialty care, and expanded community services may be standardized within each program.

(6) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients. In doing so, the department shall comply with all maintenance of effort requirements contained in the American reinvestment and recovery act.

(b) $3,070,000 of the general fund--state appropriation for fiscal year 2011, including the rate add-on described in subsection (12) of this section reflect a reduction to funds appropriated for in-home care that are taken in (a) of this subsection. The department will use the same formula to restore personal care hours that it used to reduce personal care hours.

(d) If it is necessary to establish a waiting list for either waiver because the budgeted number of enrollment opportunities has been reached, the department shall track how the long-term care needs of applicants assigned to the waiting list are met.

(15) The department shall establish waiting lists to the extent necessary to assure that annual expenditures on the community options program entry systems (COPES) program do not exceed appropriated levels. In establishing and managing any such waiting list, the department shall assure priority access to persons with the greatest unmet needs, as determined by department assessment processes.

(16) The department shall contract for housing with service models, such as cluster care, to create efficiencies in service delivery and responsiveness to unscheduled personal care needs by clustering hours for clients that live in close proximity to each other.

(17) The department shall not pay a home care agency licensed under chapter 70.127 RCW for personal care services provided by a family member, pursuant to Substitute House Bill No. 2361 (modifying state payments for in-home care).

(18) ($204,000) $209,000 of the general fund--state appropriation for fiscal year 2010, (($1,099,000) ($781,000) of the general fund--state appropriation for fiscal year 2011, and ($1,697,000) ($1,293,000) of the general fund--federal appropriation are provided solely to implement Engrossed House Bill No. 2194 (extraordinary medical placement for offenders). The department shall collaborate with the department of corrections to identify and track cost savings to the department of corrections, including medical cost savings and to identify and track expenditures incurred by the aging and disability services program for community services and by the medical assistance program for medical expenses. A joint report regarding the identified savings and expenditures shall be provided to the office of financial management and the appropriate fiscal committees of the legislature by November 30, 2010. If this bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(19) (Sufficient funding is provided in this section for the department to implement Engrossed Second Substitute House Bill No. 1935 (adult family homes). During the 2009-11 biennium, the initial licensing fee for an adult family home shall be set at $900.00. During the 2009-11 biennium, the annual licensing renewal fee shall be set at $100.00.) In accordance with RCW 18.51.050, 18.20.050, and 43.135.055, the department is authorized to increase nursing facility and boarding home fees in fiscal year 2011 as necessary to meet the actual costs of conducting the licensure, inspection, and regulatory programs.

The department shall also report the percentage of families who have returned to temporary assistance for needy families after 12 months, 24 months, and 36 months;

(c) Submit a report electronically by October 1, 2009, to the fiscal committees of the legislature containing a spending plan for the WorkFirst program. The legislature intends to work with the governor to design and implement fiscal and programmatic modifications to provide for the sustainability of the program. The funding in this subsection assumes that no other expenditure reductions will be made prior to January 2011 other than those assumed in the appropriation levels in this act.

(5) ((5)) $(84,356,000) $94,322,000 of the general fund--state appropriation for fiscal year 2010 and (($(895,173,000)) $97,168,000 of the general fund--state appropriation for fiscal year 2011 net of recoveries, are provided solely for cash assistance and other services to recipients in the (general assistance-unemployable program) cash program pursuant to chapter 8, Laws of 2010 1st sp. sess. (security lifeline act), including persons in the unemployable, expedited, and aged, blind, and disabled components of the program. It is the intent of the legislature that the lifeline incapacity determination and progressive evaluation process regulations be carefully designed to accurately identify those persons who have been or will be incapacitated for at least ninety days. The incapacity determination and progressive evaluation process regulations in effect on January 1, 2010, cannot be amended until at least September 30, 2010; except that provisions related to the use of administrative review teams may be amended, and obsolete terminology and functional assessment language may be updated on or after July 1, 2010, in a manner that only minimally impacts the outcome of incapacity evaluations. After September 30, 2010, the incapacity determination and progressive evaluation process regulations may be amended only if the reports under (a) and (b) of this subsection have been submitted, and find that expenditures will exceed the appropriated level by three percent or more.

(a) The department and the caseload forecast council shall, by September 21, 2010, submit a report to the legislature based upon the most recent caseload forecast and actual expenditure data available, as to whether expenditures for the lifeline-unemployed grants in fiscal year 2011 will exceed $69,648,000 for fiscal year 2011 in the 2010 supplemental operating budget by three percent or more. If expenditures will exceed the appropriated amount for lifeline-unemployed grants by three percent or more, the department may adopt regulations modifying incapacity determination and progressive evaluation process regulations after September 30, 2010.

(b) On or before September 21, 2010, the department shall submit a report to the relevant policy and fiscal committees of the legislature that includes the following information regarding any regulations proposed for adoption that would modify the lifeline incapacity determination and progressive evaluation process:

(i) A copy of the proposed changes and a concise description of the changes;

(ii) A description of the persons who would likely be affected by adoption of the regulations, including their impairments, age, education, and work history;

(iii) An estimate of the number of persons who, on a monthly basis through June 2013, would be denied lifeline benefits if the regulations were adopted, expressed as a number, as a percentage of total applicants, and as a percentage of the number of persons granted lifeline benefits in each month;

(iv) An estimate of the number of persons who, on a monthly basis through June 2013, would have their lifeline benefits terminated following an eligibility review if the regulations were adopted, expressed as a number, as a percentage of the number of persons who have had an eligibility review in each month, and as a percentage of the total number of persons currently receiving lifeline-unemployed benefits in each month; and

(v) Intended improvements in employment or treatment outcomes among persons receiving lifeline benefits that could be attributable to the changes in the regulations.

(c) Within these amounts:

((d)) ((i)) The department shall aggressively pursue opportunities to transfer (general assistance-unemployable) lifeline clients to general assistance expedited coverage and to facilitate client applications for federal supplemental security income when the client's incapacity indicate that he or she would be likely to meet the federal disability criteria for supplemental security income. The department shall initiate and file the federal supplemental security income interim agreement as quickly as possible in order to maximize the recovery of federal funds;

((d)) ((ii)) The department shall review the (general assistance) lifeline caseload to identify recipients that would benefit from assistance in becoming naturalized citizens, and thus be eligible to receive federal supplemental security income benefits. Those cases shall be given high priority for naturalization funding through the department;

((d)) ((iii)) The department shall actively coordinate with local workforce development councils to expedite access to worker retraining programs for (general assistance-unemployable) lifeline clients in those regions of the state with the greatest number of such clients;

((d)) ((iv)) By July 1, 2009, the department shall enter into an interagency agreement with the department of veterans' affairs to establish a process for referral of veterans who may be eligible for veteran's services. This agreement must include outsourcing department of veterans' affairs staff in selected community service office locations in King and Pierce counties to facilitate applications for veterans' services; and
In addition to any earlier evaluation that may have been conducted, the department shall intensively evaluate those clients who have been receiving (general assistance unemployable) lifeline benefits for twelve months or more as of July 1, 2009, or thereafter, if the available medical and incapacity related evidence indicates that the client is unlikely to meet the disability standard for federal supplemental security income benefits. The evaluation shall identify services necessary to eliminate or minimize barriers to employment, including mental health treatment, substance abuse treatment and vocational rehabilitation services. The department shall expedite referrals to chemical dependency treatment, mental health and vocational rehabilitation services for these clients.

The appropriations in this subsection reflect a change in the earned income disregard policy for (general assistance unemployable) lifeline clients. It is the intent of the legislature that the department shall adopt the temporary assistance for needy families earned income policy for (general assistance unemployable) the lifeline program.

The appropriations in this section reflect reductions in the appropriations for the economic services administration's administrative expenses. It is the intent of the legislature that these reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or program.

The funds shall be awarded to provide funding for community groups to provide transitional assistance, language skills, and other resources to improve refugees' economic self-sufficiency through the effective use of social services, financial services, and medical assistance.

The appropriations in this section are subject to the following conditions and limitations:

1. Within the amounts appropriated in this section, the department may contract with the University of Washington and community-based providers for the provision of the parent-child assistance program. For all contractors, indirect charges for administering the program shall not exceed ten percent of the total contract amount.

4. $2,247,000 of the general fund--state appropriation for fiscal year 2011 is provided solely for the implementation of the lifeline program under Second Substitute House Bill No. 2782 (security lifeline act). If the bill is not enacted by June 30, 2010, the amount provided in this subsection shall lapse.

5. $3,500,000 of the general fund--federal appropriation (from the substance abuse prevention and treatment federal block grant) is provided solely for the continued funding of existing county drug and alcohol use prevention programs.

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(3) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(4) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(5) In accordance with RCW 74.46.625, $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the department's discretion. During either the interim cost settlement or the final cost settlement, the department shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The department shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(6) $1,110,000 of the general fund--federal appropriation and $1,105,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(7) $9,818,000 of the general fund--state appropriation for fiscal year 2011, and $9,865,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2009-11 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit reports to the governor and legislature by November 1, 2009, and by November 1, 2010, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2010 and fiscal year 2011, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2009-11 biennial operating appropriations act (chapter 564, Laws of 2009) and in effect on July 1, 2009, (b) one half of the medicaid costs of claims incurred for the inpatient hospital certified public expenditures program from the 2005-06 biennium, and (c) all of the other disproportionate share hospital program payments paid to and retained by each hospital during fiscal year 2005. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be
made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $20,403,000 of the general fund--state appropriation for fiscal year 2010, of which $6,570,000 (of the general fund--state appropriation for fiscal year 2010, which) is appropriated in section 204(1) of this act, and ($1,500,000 of the general fund--state appropriation for fiscal year 2011, which) $29,480,000 of the general fund--state appropriation for fiscal year 2011, of which $6,570,000 is appropriated in section 204(1) of this act, are provided solely for state grants for the participating hospitals. (Sufficient amounts are appropriated in this section for the remaining state grants for the participating hospitals.) CPE hospitals will receive the inpatient and outpatient reimbursement rate restorations in section 9 and rate increases in section 100(jb) of Engrossed Second Substitute House Bill No. 2956 (hospital safety net assessment) funded through the hospital safety net assessment fund rather than through the baseline mechanism specified in this subsection.

(9) The department is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the department determines it is cost-effective to do so.

(10) $93,000 of the general fund--state appropriation for fiscal year 2010 and $90,000 of the general fund--federal appropriation are provided solely for the department to pursue a federal Medicaid waiver pursuant to Second Substitute Senate Bill No. 5945 (Washington health partnership plan). If the bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(11) The department shall require managed health care systems that have contracts with the department to serve medical assistance clients to limit any reimbursements or payments the systems make to providers not employed by or under contract with the systems to no more than the medical assistance rates paid by the department to providers for comparable services rendered to clients in the fee-for-service delivery system.

(12) A maximum of ($166,875,000 of the general fund--federal) $241,141,000 in total funds from the general fund--state, general fund--federal, and tobacco and prevention control account--state appropriations may be expended in the fiscal biennium for the (general assistance unemployed) medical program pursuant to chapter 8, Laws of 2010 1st sp. sess. (security line life act), and these amounts are provided solely for this program. Of these amounts, $10,749,000 of the general fund--state appropriation for fiscal year 2010 and $10,892,000 of the general fund--federal appropriation are provided solely for payments to hospitals for providing outpatient services to low income patients who are recipients of (general assistance unemployed) lifeline benefits. Pursuant to RCW 74.09.035, the department shall not expend for the (general assistance) lifeline medical care services program any amounts in excess of the amounts provided in this subsection.

(13) (If the department determines that it is feasible within the amounts provided in subsection (16) of this section, and without the loss of federal disproportionate share hospital funds, the department shall contract with the carrier currently operating a managed care pilot project for the provision of medical care services to general assistance unemployed clients.) Mental health services shall be included in the services provided through the managed care system. If the department determines that it is feasible, effective October 1, 2009, in addition to serving clients in the pilot counties, the carrier shall expand managed care services to clients residing in at least the following counties: Spokane, Yakima, Chelan, Kittitas, and Cowlitz. If the department determines that it is feasible, the carrier shall complete implementation into the remaining counties. Total per client costs to the state, including outpatient and inpatient services and any additional costs due to stop loss agreements, shall not exceed the per capita payments projected for the general assistance unemployed eligibility category, by fiscal year, in the February 2009 medical assistance expenditures forecast) for lifeline clients under chapter 8, Laws of 2010 1st sp. sess. In transitioning lifeline clients to managed care, the department shall attempt to deliver care to lifeline clients through medical homes in community and migrant health centers. The department, in collaboration with the carrier, shall seek to improve the transition rate of (general assistance) lifeline clients to the federal supplemental security income program. The department shall renegotiate the contract with the managed care plan that provides services for lifeline clients to maximize state retention of future hospital savings as a result of improved care coordination. The department, in collaboration with stakeholders, shall propose a new name for the lifeline program.

(14) The department shall evaluate the impact of the use of a managed care delivery and financing system on state costs, savings, and outcomes for (general assistance) lifeline medical clients. Outcomes measured shall include state costs, utilization, changes in mental health status and symptoms, and involvement in the criminal justice system. Outcomes measured shall also include the total costs or savings resulting from utilization changes due to care management, and how much of those costs or savings accrued to the state and the managed care organization. The department shall provide a report on these outcomes to the relevant policy and fiscal committees of the legislature by November 1, 2010. Monthly encounter data shall be included in the report.

(15) The department shall report to the governor and the fiscal committees of the legislature by June 1, 2010, on its progress toward achieving a twenty percentage point increase in the generic prescription drug utilization rate.

(16) State funds shall not be used by hospitals for advertising purposes.

(17) $24,356,000 of the general fund--private/local appropriation and $35,707,000 of the general fund--federal appropriation are provided solely for the implementation of professional services supplemental payment programs. The department shall seek a Medicaid state plan amendment to create a professional services supplemental payment program for University of Washington medicine professional providers no later than July 1, 2009. The department shall apply federal rules for identifying the shortfall between current fee-for-service Medicaid payments to participating providers and the applicable federal upper payment limit. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the department in the development, implementation, and maintenance of this program will be the responsibility of the participating providers. Participating providers will retain the full amount of supplemental payments provided under this program, net of any potential costs for any related audits or litigation brought against the state. The department shall report to the governor and the legislative fiscal committees on the prospects for expansion of the program to other qualifying providers as soon as feasibility is determined but no later than December 31, 2009. The report will outline estimated impacts on the participating providers, the procedures necessary to comply with federal guidelines, and the administrative resource requirements necessary to implement the program. The department will create a process for expansion of the program to other qualifying providers as soon as it is determined feasible by both the department and providers but no later than June 30, 2010.

(18) ($39,747,000) $9,075,000 of the general fund--state appropriation for fiscal year 2010. ($8,588,000) $8,588,000 of the general fund--state appropriation for fiscal year 2011, and ($20,371,000) $39,747,000 of the general fund--federal appropriation are provided solely for

The department shall report to the Legislature by December 31, 2009, on the results of its efforts to recover such claims.

(21) The department may, on a case-by-case basis and in the best interests of the child, set payment rates for medically intensive home services to promote access to home care as an alternative to hospitalization. The appropriations in this section are subject to the following conditions and limitations: In addition to other reductions, the appropriations in this section reflect reductions targeted specifically to state government administrative costs. (1) ((150,000)) $333,000 of the general fund--state appropriation for fiscal year 2010 and ((150,000)) $300,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the Washington state mentors program to continue its public-private partnerships to provide technical assistance and training to mentoring programs that serve at-risk youth.

(2) $445,000 of the general fund--state appropriation for fiscal year 2010 and $445,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for funding of the teamchild project through the governor's juvenile justice advisory committee.

(7) $25,000 of the general fund--state appropriation for fiscal year 2010 is provided for the department, in collaboration with the department of health and the health care authority, to report to the fiscal committees of the legislature by November 1, 2010, on estimates of the full costs and savings to all state-purchased health care from the inclusion of coverage for the diagnosis and treatment of autism spectrum disorders for individuals less than twenty-one years of age. Autism spectrum disorders are defined to mean any of the pervasive developmental disorders defined by the most recent edition of the diagnostic and statistical manual of mental disorders. Coverage must include all medically necessary care which is defined to include any care, treatment, intervention, service, or item that is prescribed, provided, or ordered by a licensed physician or licensed psychologist. Treatment of autism spectrum disorders includes the following care prescribed, ordered, or provided for an individual diagnosed with one of the autism spectrum disorders by a licensed physician or licensed psychologist who determines the care to be medically necessary: (a) Habitual or rehabilitative care; (b) pharmacy care, except when plans do not offer any pharmacy benefits; (c) psychiatric care; and (d) psychological care. The estimates should fully consider all potential offsets to currently funded care and services and should consider including the coverage of the diagnosis and treatment of autism spectrum disorders within the currently mandated provision of mental health benefits.

The appropriations in this section are subject to the following conditions and limitations:
Within amounts appropriated in this section and sections 205 and 206 of this act, the health care authority shall continue to provide an enhanced basic health plan subsidy for foster parents licensed under chapter 74.15 RCW and workers in state-funded home care programs. Under this enhanced subsidy option, foster parents eligible to participate in the basic health plan as subsidized enrollees and home care workers with family incomes below 200 percent of the federal poverty level shall be allowed to enroll in the basic health plan at the minimum premium amount charged to enrollees with incomes below sixty-five percent of the federal poverty level.

The health care authority shall require organizations and individuals that are paid to deliver basic health plan services and that choose to sponsor enrollment in the subsidized basic health plan to pay 133 percent of the premium amount which would otherwise be due from the sponsored enrollees.

The administrator shall take at least the following actions to assure that persons participating in the basic health plan are eligible for the level of assistance they receive: (a) Require submission of (i) income tax returns, and recent pay history, from all applicants, or (ii) other verifiable evidence of earned and unearned income from those persons not required to file income tax returns; (b) check employment security payroll records at least once every twelve months on all enrollees; (c) require enrollees whose income as indicated by payroll records exceeds that upon which their subsidy is based to document their current income as a condition of continued eligibility; (d) require enrollees for whom employment security payroll records cannot be obtained to document their current income at least once every six months; (e) not reduce gross family income for self-employed persons by noncash-flow expenses such as, but not limited to, depreciation, amortization, and home office deductions, as defined by the United States internal revenue service; and (f) pursue repayment and civil penalties from persons who have received excessive subsidies, as provided in RCW 70.47.060(9).

In order to maximize the funding appropriated for the basic health plan, the health care authority is directed to make modifications that will reduce the total number of subsidized enrollees to approximately 65,000 by January 1, 2010. In addition to the reduced enrollment, other modifications may include changes in enrollee premium obligations, changes in benefits, enrollee cost-sharing, and termination of the enrollment of individuals concurrently enrolled in a medical assistance program as provided in Substitute House Bill No. 2341.

The health care authority shall coordinate with the department of social and health services to negotiate a medicaid section 1115 waiver with the federal centers for medicare and medicaid services that would provide matching funds for services provided to persons enrolled in the basic health plan under chapter 70.47 RCW.

If the waiver in (b) of this subsection is granted, the health care authority may implement the waiver if it allows the program to remain within appropriated levels, after providing notice of its terms and conditions to the relevant policy and fiscal committees of the legislature in writing thirty days prior to the planned implementation date of the waiver.

$250,000 of the general fund–state appropriation for fiscal year 2010 and $250,000 of the general fund–state appropriation for fiscal year 2011 are provided solely for the implementation of Substitute Senate Bill No. 5360 (community collaboratives). If the bill is not enacted by June 30, 2009, the amounts provided in this section shall lapse.

The authority shall seek public-private partnerships and federal funds that are or may become available to implement health information technology projects under the federal American recovery and reinvestment act of 2009.

In order to participate in a pilot, eligible low-income adults must have an income at or below two hundred percent of the federal poverty level; reside in the county where the project is based; be on the basic health waiting list at the time of application to participate; have no other health insurance coverage; and not be eligible for full scope medical assistance programs, federal medicare programs, or health insurance through their employer. Grantees may require participants to meet other criteria, such as qualifying for health insurance coverage and paying premiums or other costs in order to participate in the pilot.

The authority, in collaboration with the grantees of the pilots in (a) of this subsection, shall seek any federal funds that may be available with the enactment of federal health care reform.

In the event that the authority markets a nonsubsidized version of the basic health plan, the authority must also provide information on other health care coverage options to potential clients.

1. The department of health shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department of health and the state board of health shall not implement any new or amended rules pertaining to primary and secondary school facilities until the rules and a final cost estimate have been presented to the legislature, and the legislature has formally funded implementation of the rules through the omnibus appropriations act or by statute. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation that provides appropriation authority, and an equal amount of appropriated state moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

2. In accordance with RCW 43.70.250 and 43.135.055, the department is authorized to establish and raise fees in fiscal year 2011 as necessary to meet the actual costs of conducting business and the appropriation levels in this section. The department is further authorized to increase fees by the amount necessary to implement the regulatory requirements of the following bills: House Bill No. 1414 (health care assistants), House Bill No. 1740 (dental residency licenses), and House Bill No. 1899 (retired active physician licenses).

4. (1) $764,000 of the health professions account--state appropriation is provided solely for the medical quality assurance commission to maintain disciplinary staff and associated costs sufficient to reduce the backlog of disciplinary cases and to continue to manage the disciplinary caseload of the commission.

6. (6) Funding for the human papillomavirus vaccine shall not be included in the department's universal vaccine purchase program in fiscal year 2010. Remaining funds for the universal vaccine purchase program shall be used to continue the purchase of all other vaccines included in the program until May 1, 2010, (or until state funds are exhausted) at which point state funding for the universal vaccine purchase program shall be discontinued. (Funds from section 317 of the federal public health services act direct assistance shall not be used in lieu of state funds)

7. (7) Beginning July 1, 2010, the department, in collaboration with the department of social and health services, shall maximize the use of existing federal funds, including section 317 of the federal public health services act direct assistance as well as federal funds that may become available under the American recovery and reinvestment act, in order to continue to provide immunizations for low-income, nonmedicaid eligible children up to three hundred percent of the federal poverty level in state-sponsored health programs.

8. (8) The department shall eliminate outreach activities for the health care directives registry and use the remaining amounts to maintain the contract for the registry and minimal staffing necessary to administer the basic entry functions for the registry.

9. (9) Funding in this section reflects a temporary reduction of resources for the 2009-11 fiscal biennium for the state board of health to conduct health impact reviews.

10. (10) Pursuant to RCW 43.135.055 and 43.70.125, the department is authorized to adopt rules to establish a fee schedule to apply to applicants for initial certification surveys of health care facilities for purposes of receiving federal health care program reimbursement. (b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.  
(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree.  Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:  
(i) Credits earned since receiving the masters degree; and  
(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.  
(5) For the purposes of this section:  
(a) "BA" means a baccalaureate degree.  
(b) "MA" means a masters degree.  
(c) "PHD" means a doctorate degree.  
(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.  
(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.  
(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:  
(a) The employee has a masters degree; or  
(b) The credits were used in generating state salary allocations before January 1, 1992.  
(7) The certificated instructional staff base salary specified for each district in LEAP Document 2 and the salary schedules in subsection (4)(a) of this section include one learning improvement day for the 2009-10 school year and zero learning improvement days for the 2010-11 school year.  A school district is eligible for the learning improvement day funds only if the learning improvement day has been added to the 180-day contract year.  If fewer days are added, the additional learning improvement allocation shall be adjusted accordingly.  The additional day shall be limited to specific activities identified in the state required school improvement plan related to improving student learning that are consistent with education reform implementation, and shall not be considered part of basic education.  The principal in each school shall assure that the days are used to provide the necessary school-wide, all staff professional development that is tied directly to the school improvement plan.  The school principal and the district superintendent shall maintain documentation as to their approval of these activities.  The length of a learning improvement day shall not be less than the length of a full day under the base contract.  The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.  
(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2).  
Sec. 504. 2009 c 564 s 504 (uncodified) is amended to read as follows:

The appropriations in this section are subject to the following conditions and limitations:

(1) Each general fund fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(2) A maximum of $878,000 of this fiscal year 2010 appropriation and a maximum of ($892,000) of the fiscal year 2011 appropriation may be expended for regional transportation coordinators and related activities. The transportation coordinators shall ensure that data submitted by school districts for state transportation funding shall, to the greatest extent practical, reflect the actual transportation activity of each district.

(3) Allocations for transportation of students shall be based on reimbursement rates of $48.15 per weighted mile in the 2009-10 school year and ($48.37) per weighted mile in the 2010-11 school year exclusive of salary and benefit adjustments provided in section 504 of this act. Allocations for transportation of students transported more than one radius mile shall be based on weighted miles as determined by superintendent of public instruction multiplied by the per mile reimbursement rates for the school year pursuant to the formulas adopted by the superintendent of public instruction. Allocations for transportation of students living within one radius mile shall be based on the number of enrolled students in grades kindergarten through five living within one radius mile of their assigned school multiplied by the per mile reimbursement rate for the school year multiplied by 1.29.

(4) The office of the superintendent of public instruction shall provide reimbursement funding to a school district only after the superintendent of public instruction determines that the school bus was purchased from the list established pursuant to RCW 28A.160.195(2) or a comparable competitive bid process based on the lowest price quote based on similar bus categories to those used to establish the list pursuant to RCW 28A.160.195.

(5) The superintendent of public instruction shall base depreciation payments for school district buses on the pre-sales tax five-year average of lowest bids in the appropriate category of bus. In the final year on the depreciation schedule, the depreciation payment shall be based on the lowest bid in the appropriate bus category for that school year.

(6) Funding levels in this section reflect reductions from the implementation of Substitute House Bill No. 1292 (authorizing waivers from the one hundred eighty-day school year requirement in order to allow four-day school weeks).

Sec. 506. 2009 c 564 s 506 (uncodified) is amended to read as follows:

Sec. 507. 2009 c 564 s 507 (uncodified) is amended to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS

| General Fund--State Appropriation (FY 2010) | ($640,059,000) |
| $632,136,000 |
| General Fund--State Appropriation (FY 2011) | ($652,388,000) |
| $650,856,000 |
| General Fund--Federal Appropriation | ($656,052,000) |
| $664,601,000 |
| Education Legacy Trust Account--State Appropriation | $756,000 |
| TOTAL APPROPRIATION | ($1,950,155,000) |
| $1,948,349,000 |

The appropriations in this section are subject to the following conditions and limitations:

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2) (a) The superintendent of public instruction shall ensure that:

(i) Special education students are basic education students first;
(ii) As a class, special education students are entitled to the full basic education allocation; and
(iii) Special education students are basic education students for the entire school day.

(b) The superintendent of public instruction shall continue to implement the full cost method of excess cost accounting, as designed by the committee and recommended by the superintendent, pursuant to section 501(1)(k), chapter 372, Laws of 2006.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: (a) The first category includes (i) children birth through age two who are eligible for the optional program for special education eligible developmentally delayed infants and toddlers, and (ii) students eligible for the mandatory special education program who are age three or four, or five and not yet enrolled in kindergarten; and (b) the second category includes students who are eligible for the mandatory special education program and who are age five and enrolled in kindergarten and students age six through 21.

(5)(a) For the 2009-10 and 2010-11 school years, the superintendent shall make allocations to each district based on the sum of:
(i) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten, as defined in subsection (4) of this section, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and
(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools in the 2009-10 school year. In the 2010-11 school year, the per student allocation under this subsection (5)(b) shall include the same factors as in the 2009-10 school year, but shall also include the classified staff enhancements included in section 502(3)(b).

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age four enrollment and those five olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, ((573,668,000)) $44,269,000 of the general fund--state appropriation and $29,574,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If the federal safety net awards based on the federal eligibility threshold exceed the federal appropriation in this subsection (8) in any fiscal year, the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards. In the determination of need, the committee shall require that districts demonstrate that they are maximizing their eligibility for all state and federal revenues related to services for special education-eligible students. Awards associated with (b) and (c) of this subsection shall not exceed the total of a district's specific determination of need.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services. The safety net awards to school districts shall be adjusted to reflect amounts awarded under (b) of this subsection.

(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(f) Safety net awards shall be based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999. The state safety net oversight committee shall ensure that safety net documentation and awards are based on current medicaid revenue amounts.

(g) The office of the superintendent of public instruction, at the conclusion of each school year, shall recover safety net funds that were distributed prospectively but for which districts were not subsequently eligible.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:
(a) One staff from the office of superintendent of public instruction;
(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and
(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) The office of the superintendent of public instruction shall review and streamline the application process to access safety net funds, provide technical assistance to school districts, and annually survey school districts regarding improvement to the process.

(12) A maximum of $678,000 may be expended from the general fund-- state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(13) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(14) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.

(15) $262,000 of the general fund--state appropriation for fiscal year 2010 and $251,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for two additional full-time equivalent staff to support the work of the safety net committee and to provide training and support to districts applying for safety net awards.

(16) ($221,357,000 of the general fund--federal appropriation of American recovery and reinvestment act of 2009 funds is provided solely for the individuals with disabilities education act (IDEA), Part B, for distribution to school districts. The funds' use is to be consistent with the current IDEA, Part B statutory and regulatory requirements.

(17) $50,000 of the general fund--state appropriation for fiscal year 2010, $50,000 of the general fund--state appropriation for fiscal 2011, and $100,000 of the general fund--federal appropriation shall be expended to support a special education ombudsman program within the office of superintendent of public instruction.

Sec. 601. 2009 c 564 s 601 (uncodified) is amended to read as follows:

The appropriations in sections 605 through 611 of this act are subject to the following conditions and limitations:

(1) "Institutions" means the institutions of higher education receiving appropriations under sections 605 through 611 of this act.

(2) The legislature, the office of financial management, and other state agencies need consistent and accurate personnel data from institutions of higher education for policy planning purposes. Institutions of higher education shall report personnel data to the department of personnel for inclusion in the department's data warehouse. Uniform reporting procedures shall be established by the department of personnel for use by the reporting institutions, including provisions for common job classifications and common definitions of full-time equivalent staff. Annual contract amounts, number of contract months, and funding sources shall be consistently reported for employees under contract.

(3) In addition to waivers granted under the authority of RCW 28B.15.910, the governing boards and the state board may waive all or a portion of operating fees for any student. State general fund appropriations shall not be provided to replace tuition and fee revenue foregone as a result of waivers granted under this subsection.

(4) The colleges of education for institutions with appropriations in sections 606 through 611 shall develop a plan, by October 30, 2009, to increase the number of math and science teacher endorsements and certificates granted by the institution. The plan shall address the college's math and science teacher endorsement and certification completion goal for each of the next six years, beginning with the 2010-2011 academic year, and shall be reported to the governor, the relevant policy committees of the legislature, the higher education coordinating board (HECB) and the professional educator standards board (PESB). Plan components may address: Student advising practices, increased outreach and recruitment efforts to under-represented populations, linkages with university mathematics and science departments, and implementation of redesigned, innovative endorsement and certification programs. To accomplish this work, enrollments may need to be shifted from low-need endorsement and certificate areas to math and science. A report shall be made each October 30th to the HECB and PESB regarding the degree to which plan goals have been met and activities undertaken to support those outcomes.

(5) In accordance with RCW 28B.10.920 through 28B.10.922, the state performance agreement committee and each public four-year institution of higher education shall develop performance agreements for the period September 1, 2009, through June 30, 2015. The agreements shall reflect the level of state, tuition, and other resources appropriated or authorized for each institution in this act and in the omnibus 2009-11 omnibus capital budget act, as well as reasonably anticipated changes in such resources for the two subsequent biennia as required to accomplish the higher education master plan as adopted by the legislature. The agreements shall build upon each institution's actual performance relative to the 2011 targets previously negotiated between the institution, the higher education coordinating board, and the office of financial management, and shall include measurable performance targets, benchmarks, and goals in areas including but not limited to:

(a) Student enrollment levels, by campus;

(b) Baccalaureate and advanced degree production;

(c) Baccalaureate and advanced degree production in high employer-demand fields;

(d) Undergraduate retention and graduation rates;

(e) Time-to-degree for students entering as freshmen, and as upper-division transfers;

(f) Efficiency to degree; and

(g) Capital investment as required to (i) maintain existing capacity, and (ii) meet enrollment targets in accordance with the master plan as adopted by the legislature.

Each institution shall report progress toward its performance targets during the preceding academic year to the state performance agreement committee prior to November 1, 2010. The higher education coordinating board shall consolidate and summarize the institutional reports, and provide them to the relevant policy and fiscal committees of the legislature by December 1, 2010.

(6) To facilitate transparency and compliance with the American recovery and reinvestment act, the institutions of higher education receiving state and federal appropriations under sections 605 through 611 of this act shall allot anticipated state, federal, and tuition expenditures by budget program and fiscal year. The office of financial management shall notify the legislative ways and means committees of the proposed allotments at least ten days prior to their approval.

(7) To the extent permitted by the applicable personnel system rules, and to the extent collectively bargained with represented employees, institutions of higher education are encouraged to achieve the reductions in full-time-equivalent employment and payroll levels necessary to operate within this budget through strategies that will minimize impacts on employees, their families, their communities, and short- and longer-term accomplishment of institutional mission. Institutions are encouraged to utilize strategies such as reduced work-hours per day or week, voluntary leave without pay, and temporary furloughs that enable employees to maintain permanent employment status. Institutions are further encouraged to implement such strategies in ways that will enable employees to maintain full insurance benefits, full retirement service credit, and a living wage.

(8)(a) For institutions receiving appropriations in section 605 of this act the only allowable salary increases provided are those with normally occurring promotions and increases related to faculty and staff retention, to the extent permitted by Engrossed Substitute Senate Bill No. 5460, ((and)) House Bill No. 2328, and Substitute Senate Bill No. 6382. In fiscal year 2010 and fiscal year 2011, the state board for community and technical colleges may use salary and benefit savings from faculty turnover to provide salary increments and associated benefits for faculty who qualify through professional development and training.
(b) For employees under the jurisdiction of chapter 41.56 RCW, salary increases will be in accordance with the applicable collective bargaining agreement. However, an increase shall not be provided to any classified employee whose salary is above the approved salary range maximum for the class to which the employee's position is allocated.

(c) For each institution of higher education receiving appropriations under sections 606 through 611 of this act:

(ii) Institutions may provide salary increases from other sources to instructional and research faculty, exempt professional staff, teaching and research assistants, as classified by the office of financial management, and all other nonclassified staff, but not including employees under RCW 28B.16.015, to the extent permitted by Engrossed Substitute Senate Bill No. 5460 ((and)), House Bill No. 2328, and Substitute Senate Bill No. 6382. Any salary increase granted under the authority of this subsection (8)(c)(ii) shall not be included in an institution's salary base for future state funding. It is the intent of the legislature that state general fund support for an institution shall not increase during the current or any future biennium as a result of any salary increases authorized under this subsection (8)(c)(ii).

(2) The department, through the sole authority of the office or its successor organization, shall maintain a program where telecommunications relay services of a human or electronic nature will be provided to connect hearing impaired, deaf-blind, or speech impaired persons with persons who do not have a hearing or speech impairment. (3) The telecommunications relay service and equipment distribution program may operate in such a manner as to provide communications transmission opportunities that are capable of incorporating new technologies that have demonstrated benefits consistent with the intent of this chapter and are in the best interests of the citizens of this state.

(4) The office shall administer and control the award of money to all parties incurring costs in implementing and maintaining telecommunications services, programs, equipment, and technical support services according to this section. The relay service contract shall be awarded to an individual company registered as a telecommunications company by the utilities and transportation commission, to a group of registered telecommunications companies, or to any other company or organization determined by the office as qualified to provide relay services, contingent upon that company or organization being approved as a registered telecommunications company prior to final contract approval. The relay system providers and telecommunications equipment vendors shall be selected on the basis of cost-effectiveness and utility to the greatest extent possible under the program and technical specifications established by the office.

(a) To the extent funds are available under the then-current rate and not otherwise held in reserve or required for other purposes authorized by this chapter, the office may award contracts for communications and related services and equipment for hearing impaired or speech impaired individuals accessing or receiving services provided by, or contracted for, the department to meet access obligations under Title 2 of the federal Americans with disabilities act or related federal regulations.

"Class three" organizations shall consist of self-funded multiple employer welfare arrangements as defined in RCW 48.125.010.

(b)(i) "Receipts" means (A) net direct premiums consisting of direct gross premiums, as defined in RCW 48.18.170, paid for insurance written or renewed upon risks or property resident, situated, or to be performed in this state, less return premiums and premiums on policies not taken, dividends paid or credited to policyholders on direct business, and premiums received from policies or contracts issued in connection with qualified plans as defined in RCW 48.14.021, and (B) prepayments to health care service contractors, as defined in RCW 48.44.010, health

(ii) Participant contributions, under chapter 48.125 RCW, used to determine the receipts in this state under this section shall be determined in the same manner as premiums taxable in this state are determined under RCW 48.14.090.

(c) "Regulatory surcharge" means the fees imposed by this section.

(2) The annual cost of operating the office of insurance commissioner shall be determined by legislative appropriation. A pro rata share of the cost shall be charged to all organizations as a regulatory surcharge. Each class of organization shall contribute a sufficient amount to the insurance commissioner's regulatory account to pay the reasonable costs, including overhead, of regulating that class of organization.

(3) The regulatory surcharge shall be calculated separately for each class of organization. The regulatory surcharge collected from each organization shall be that portion of the cost of operating the insurance commissioner's office, for that class of organization, for the ensuing fiscal year that is represented by the organization's portion of the receipts collected or received by all organizations within that class on business in this state during the previous calendar year. However, the regulatory surcharge must not exceed one-eighth of one percent of receipts and the minimum regulatory surcharge shall be one thousand dollars.

(4) The commissioner shall annually, on or before June 1st, calculate and bill each organization for the amount of the regulatory surcharge. The regulatory surcharge shall be due and payable no later than June 15th of each year. However, if the necessary financial records are not available or if the amount of the legislative appropriation is not determined in time to carry out such calculations and bill such regulatory surcharge within the time specified, the commissioner may use the regulatory surcharge factors for the prior year as the basis for the regulatory surcharge and, if necessary, the commissioner may impose supplemental fees to fully and properly charge the organizations. Any organization failing to pay the regulatory surcharges by June 30th shall pay the same penalties as the penalties for failure to pay taxes when due under RCW 48.14.060. The regulatory surcharge required by this section is in addition to all other taxes and fees now imposed or that may be subsequently imposed.

(5) All moneys collected shall be deposited in the insurance commissioner's regulatory account in the state treasury which is hereby created.

(6) Unexpended funds in the insurance commissioner's regulatory account at the close of a fiscal year shall be carried forward in the insurance commissioner's regulatory account to the succeeding fiscal year and shall be used to reduce future regulatory surcharges.

(7)(a) Each insurer may annually collect regulatory surcharges remitted in preceding years by means of a policyholder surcharge on premiums charged for all kinds of insurance. The recoupment shall be at a uniform rate reasonably calculated to collect the regulatory surcharge remitted by the insurer.

(b) If an insurer fails to collect the entire amount of the recoupment in the first year under this section, it may repeat the recoupment procedure provided for in this subsection (7) in succeeding years until the regulatory surcharge is fully collected or a de minimis amount remains uncollected. Any such de minimis amount may be collected as provided in (d) of this subsection.

(c) The amount and nature of any recoupment shall be separately stated on either a billing or policy declaration sent to an insured. The amount of the recoupment must not be considered a premium for any purpose, including the premium tax or agents' commissions.

(d) An insurer may elect not to collect the regulatory surcharge from its insured. In such a case, the insurer may recoup the regulatory surcharge through its rates, if the following requirements are met:

(i) The insurer remits the amount of surcharge not collected by election under this subsection; and

(ii) The surcharge is not considered a premium for any purpose, including the premium tax or agents' commission.

(8) During the 2009-2011 fiscal biennium, the legislature may transfer from the insurance commissioner's regulatory account to the state general fund such amounts as reflect the excess fund balance in the account.

Sec. 939. RCW 66.08.170 and 2009 c 564 s 947 are each amended to read as follows:

There shall be a fund, known as the "liquor revolving fund", which shall consist of all license fees, permit fees, penalties, forfeitures, and all other moneys, income, or revenue received by the board. The state treasurer shall be custodian of the fund. All moneys received by the board or any employee thereof, except for change funds and an amount of petty cash as fixed by the board within the authority of law shall be deposited each day in a depository approved by the state treasurer and transferred to the state treasurer to be credited to the liquor revolving fund. During the 2009-2011 fiscal biennium, the legislature may transfer funds from the liquor revolving fund to the state general fund and may direct an additional amount of liquor profits to be distributed to local governments. Neither the transfer of funds nor the additional distribution of liquor profits to local governments during the 2009-2011 fiscal biennium may reduce the excess fund distributions otherwise payable under RCW 66.08.190. Licensee sales are exempt from any increases to the price of liquor made by the board during the 2009-2011 fiscal biennium for the purpose of implementing any transfers to the state general fund or additional distribution of liquor profits. This exemption includes price increases implemented for such purposes during the 2009-2011 fiscal biennium prior to the effective date of this section but applies only to sales made on or after July 1, 2010. Disbursements from the revolving fund shall be on authorization of the board or a duly authorized representative thereof. In order to maintain an effective expenditure and revenue control the liquor revolving fund shall be subject in all respects to chapter 43.88 RCW but no appropriation shall be required to permit expenditures and payment of obligations from such fund.

Sec. 940. RCW 67.70.044 and 2009 c 576 s 1 are each amended to read as follows:

(1) Pursuant to RCW 67.70.040(1)(a), the commission may enter into the multistate agreement establishing a shared game lottery known as "The Big Game," that was entered into by party state lotteries in August 1996 and subsequently amended and a shared game lottery known as "Powerball."

(2) The shared game lottery account is created as a separate account outside the state treasury. The account is managed, maintained, and controlled by the commission and consists of all revenues received from the sale of shared game lottery tickets or shares, and all other moneys credited or transferred to it from any other fund or source under law. The account is allotted according to chapter 43.88 RCW. During the 2009-2011 fiscal biennium, the legislature may transfer from the shared game lottery account to the education legacy trust account such amounts as reflect the excess fund balance of the account.

Sec. 941. RCW 70.105D.070 and 2009 c 564 s 951 are each amended to read as follows:

Such account shall be managed, maintained, and controlled by the commission and shall consist of all revenues received from the sale of toxics control account licenses, permits, and fees. All other moneys credited to the toxics control account are subject to the conditions set forth in this chapter. The account is allotted according to chapter 70.105A RCW. During the 2009-2011 fiscal biennium, the legislature may transfer from the toxics control account to the education legacy trust account such amounts as reflect the excess fund balance of the account.

(xii) Development and demonstration of alternative management technologies designed to carry out the hazardous waste management priorities of RCW 70.105.150; (aud)

(xiii) During the 2009-2011 fiscal biennium, shoreline update technical assistance; and

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(a) Moneys deposited in the local toxics control account shall be used by the department for grants or loans to local governments for the following purposes in descending order of priority:

(b) Funds for plans and programs shall be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW, except that any applicant that is a Puget Sound partner, as defined in RCW 90.71.010, along with any project that is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, shall, except as conditioned by RCW 70.105D.120, receive priority for any available funding for any grant or funding programs or sources that use a competitive bidding process. During the 2007-2009 fiscal biennium, moneys in the account may also be used for grants to local governments to retrofit public sector diesel equipment and for storm water planning and implementation activities.

(c) To expedite cleanups throughout the state, the department shall partner with local communities and liable parties for cleanups. The department is authorized to use the following additional strategies in order to ensure a healthful environment for future generations:

(i) The director may alter grant-matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of vacant, orphaned, or abandoned property under RCW 70.105D.040(5) that would not otherwise occur;

(ii) The use of outside contracts to conduct necessary studies;

(iii) The purchase of remedial action cost-cap insurance, when necessary to expedite multiparty clean-up efforts.

(d) To facilitate and expedite cleanups using funds from the local toxics control account, during the 2009-2011 fiscal biennium the director may establish grant-funded accounts to hold and disperse local toxics control account funds and funds from local governments to be used for remedial actions.

(4) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(5) Except during the 2009-2011 fiscal biennium, one percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation from either account which are not expended at the close of any biennium shall revert to the state's solid and hazardous waste management priorities.

(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation, or, after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(8) During the 2007-2009 and 2009-2011 fiscal biennia, the legislature may transfer from the local toxics control account to either the state general fund or the oil spill prevention account, or both such amounts as reflect excess fund balance in the account.

(9) During the 2009-2011 fiscal biennium, the local toxics control account may also be used for a standby rescue tug at Neah Bay, local government shoreline update grants, private and public sector diesel equipment retrofit, and oil spill prevention, preparedness, and response activities.

(10) During the 2009-2011 fiscal biennium, the legislature may transfer from the state toxics control account to the state general fund such amounts as reflect the excess fund balance in the account.

(2) The department shall provide data and information to the council established under RCW 74.31.020 that is requested by the council and is in the possession or control of the department.

(3) By December 1, 2007, the department shall provide a preliminary report to the legislature and the governor, and shall provide a final report by December 1, 2008, containing recommendations for a comprehensive statewide plan to address the needs of individuals with traumatic brain injuries, including the use of public-private partnerships and a public awareness campaign. The comprehensive plan should be created in collaboration with the council and should consider the following:
   (a) Building provider capacity and provider training;
   (b) Improving the coordination of services; and
   (c) The feasibility of establishing agreements with private sector agencies to develop services for individuals with traumatic brain injuries.

(4) By December 1, 2007, the department shall:
   (a) Provide information and referral services to individuals with traumatic brain injuries until the statewide referral and information network is developed. The referral services may be funded from the traumatic brain injury account established under RCW 74.31.060; and
   (b) Encourage and facilitate the following:

      (ii) Collaboration among organizations and entities that provide services to individuals with traumatic brain injuries; and

(5) By December 1, 2007, and by December 1st each year thereafter, the department shall issue a report to the governor and the legislature containing the following:
   (a) A summary of action taken by the department to meet the needs of individuals with traumatic brain injuries; and
   (b) Recommendations for improvements in services to address the needs of individuals with traumatic brain injuries.

Sec. 944. RCW 74.31.060 and 2007 c 356 s 7 are each amended to read as follows:

The traumatic brain injury account is created in the state treasury. Two dollars of the fee imposed under RCW 46.63.110(7)(c) must be deposited into the account. Moneys in the account may be spent only after appropriation, and may be used only to provide a public awareness campaign and services related to traumatic brain injury under RCW 74.31.060 and 74.31.050, for information and referral services, and for costs of required department staff who are providing support for the council and information and referral services under RCW 74.31.020 and 74.31.030. During the 2009-2011 fiscal biennium, money in the account may also be spent on long-term care services and the services authorized in RCW 74.31.030(4)(c). The secretary of the department of social and health services has the authority to administer the funds.

Sec. 945. RCW 70.93.180 and 2009 c 564 s 950 are each amended to read as follows:

(1) There is hereby created an account within the state treasury to be known as the "waste reduction, recycling, and litter control account". Moneys in the account may be spent only after appropriation. Expenditures from the waste reduction, recycling, and litter control account shall be used as follows:
   (a) Fifty percent to the department of ecology, for use by the departments of ecology, natural resources, revenue, transportation, and corrections, and the parks and recreation commission, for use in litter collection programs, to be distributed under RCW 70.93.220. The amount to the department of ecology shall also be used for a central coordination function for litter control efforts statewide, for the biennial litter survey under RCW 70.93.200(8), and for statewide public awareness programs under RCW 70.93.200(7). The amount to the department shall also be used to defray the costs of administering the funding, coordination, and oversight of local government programs for waste reduction, litter control, and recycling, so that local governments can apply one hundred percent of their funding to achieving program goals. The amount to the department of revenue shall be used to enforce compliance with the litter tax imposed in chapter 82.19 RCW;
   (b) Twenty percent to the department for local government funding programs for waste reduction, litter control, and recycling activities by cities and counties under RCW 70.93.250, to be administered by the department of ecology; and
   (c) Thirty percent to the department of ecology for waste reduction and recycling efforts.

(2) All taxes imposed in RCW 82.19.010 and fines and bail forfeitures collected or received pursuant to this chapter shall be deposited in the waste reduction, recycling, and litter control account and used for the programs under subsection (1) of this section.

(3) Not less than five percent and no more than ten percent of the amount appropriated into the waste reduction, recycling, and litter control account every biennium shall be reserved for capital needs, including the purchase of vehicles for transporting crews and for collecting litter and solid waste. Capital funds shall be distributed among state agencies and local governments according to the same criteria provided in RCW 70.93.220 for the remainder of the funds, so that the most effective waste reduction, litter control, and recycling programs receive the most funding. The intent of this subsection is to provide funds for the purchase of equipment that will enable the department to account for the greatest return on investment in terms of reaching a zero litter goal.

(4) During the 2009-2011 fiscal biennium, the legislature may transfer from the waste reduction, recycling, and litter control account to the state general fund such amounts as reflect the excess fund balance of the account. (For purposes of subsection (1) of this section, this transfer shall be treated as an expenditure for litter collection.) Additionally, during the 2009-2011 fiscal biennium, subsection (1)(a), (b), and (c) of this section is suspended.

NEW SECTION. Sec. 946. A new section is added to chapter 43.79 RCW to read as follows:
The legislature recognizes that efforts to restructure state operations to achieve greater efficiency are often impeded by the lack of a financing tool to support the transition and phase-down of state operations. The state efficiency and restructuring account is established in the state treasury to finance efforts to restructure state operations and achieve budget savings. Moneys from the account may be expended only after appropriation. As directed by the legislature, the state treasurer must transfer funds from specified accounts into the state efficiency and restructuring account to support appropriations from that account. The state treasurer must maintain a record of such transfers and must calculate repayment obligations to any accounts providing surplus funds for a term of eight years at an interest rate that is five tenths of a percent higher than the interest rate that the account would have earned without the transfer. The state treasurer must submit a report of all such repayment obligations to the office of financial management by September 1st of each year. The governor's budget request under RCW 43.88.060 must include sufficient funds to meet the biennial repayment obligation.

Sec. 947. RCW 70.105D.130 and 2008 c 106 s 1 are each amended to read as follows:
(1) The cleanup settlement account is created in the state treasury. The account is not intended to replace the state toxics control account established under RCW 70.105D.070. All receipts from the sources identified in subsection (2) of this section must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only as identified in subsection (4) of this section.

(2) The following receipts must be deposited into the cleanup settlement account:
(a) Receipts from settlements or court orders that direct payment to the account and resolve a person's liability or potential liability under this chapter for either or both of the following:
(i) Conducting future remedial action at a specific facility, if it is not feasible to require the person to conduct the remedial action based on the person's financial insolvency, limited ability to pay, or insignificant contribution under RCW 70.105D.040(4)(a);
(ii) Assessing or addressing the injury to natural resources caused by the release of a hazardous substance from a specific facility; and
(b) Receipts from investment of the moneys in the account.

(3) If a settlement or court order does not direct payment of receipts described in subsection (2)(a) of this section into the cleanup settlement account, then the receipts from any payment to the state must be deposited into the state toxics control account.

(4) Expenditures from the cleanup settlement account may only be used to conduct remedial actions at the specific facility or to assess or address the injury to natural resources caused by the release of hazardous substances from that facility for which the moneys were deposited in the account. Conducting remedial actions or assessing or addressing injury to natural resources includes direct expenditures and indirect expenditures such as department oversight costs. During the 2009-2011 fiscal biennium, the legislature may transfer excess fund balances in the account into the state efficiency and restructuring account. Transfers of excess fund balances made under this section shall be made only to the extent amounts transferred with required repayments do not impair the ten-year spending plan administered by the department of ecology for environmental remedial actions dedicated for any designated clean-up site associated with the Everett smelter and Tacoma smelter, including plumes, or former Asarco mine sites. The cleanup settlement account must be repaid with interest under provisions of the state efficiency and restructuring account.

(5) The department shall track moneys received, interest earned, and moneys expended separately for each facility.

(6) After the department determines that all remedial actions at a specific facility, and all actions assessing or addressing injury to natural resources caused by the release of hazardous substances from that facility, are completed, including payment of all related costs, any moneys remaining for the specific facility must be transferred to the state toxics control account established under RCW 70.105D.070.

(7) The department shall provide the office of financial management and the fiscal committees of the legislature with a report by October 31st of each year regarding the activity within the cleanup settlement account during the previous fiscal year.

Sec. 948. RCW 70.146.100 and 2007 c 233 s 1 are each amended to read as follows:
(1) The water quality capital account is created in the state treasury. Moneys in the water quality capital account may be spent only after appropriation.

(2) Expenditures from the water quality capital account may only be used: (a) To make grants or loans to public bodies, including grants to public bodies as cost-sharing moneys in any case where federal, local, or other moneys are made available on a cost-sharing basis, for the capital component of water pollution control facilities and activities; (b) For purposes of assisting a public body to obtain an ownership interest in water pollution control facilities; or (c) To defray any part of the capital component of the payments made by a public body to a service provider under a service agreement entered into under RCW 70.150.060. During the 2009-2011 fiscal biennium, the legislature may transfer from the water quality capital account to the state general fund such amounts as reflect the excess fund balance of the account.

Sec. 949. RCW 79.105.150 and 2009 c 564 s 959 are each amended to read as follows:
(1) After deduction for management costs as provided in RCW 79.64.040 and payments to towns under RCW 79.115.150(2), all moneys received by the state from the sale or lease of state-owned aquatic lands and from the sale of valuable material from state-owned aquatic lands shall be deposited in the aquatic lands enhancement account which is hereby created in the state treasury. After appropriation, these funds shall be used solely for aquatic lands enhancement projects; for the purchase, improvement, or protection of aquatic lands for public purposes; for providing and improving access to the lands; and for volunteer cooperative fish and game projects. During the 2009-2011 fiscal biennium, the aquatic lands enhancement account may also be used for scientific research as part of the adaptive management process. During the 2009-11 fiscal biennium, the legislature may transfer from the aquatic lands enhancement account to the state general fund such amounts as reflect excess fund balance of the account.

(2) In providing grants for aquatic lands enhancement projects, the recreation and conservation funding board shall:
(a) Require grant recipients to incorporate the environmental benefits of the project into their grant applications;
(b) Utilize the statement of environmental benefits, consideration, except as provided in RCW 79.105.610, of whether the applicant is a Puget Sound partner, as defined in RCW 90.71.010, whether a project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, and except as otherwise provided in RCW 79.105.630, and effective one calendar year following the development and statewide availability of model evergreen community management plans and ordinances under RCW 35.105.050, whether the applicant is an entity that has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030 in its prioritization and selection process; and
(c) Develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grants.
(3) To the extent possible, the department should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270.

(4) The department shall consult with affected interest groups in implementing this section.

(5) After January 1, 2010, any project designed to address the restoration of Puget Sound may be funded under this chapter only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

Sec. 950. RCW 80.01.080 and 2006 c 3 s 2 are each amended to read as follows:

Regulatory fees payable by all types of public service companies shall be deposited to the credit of the public service revolving fund. Except for expenses payable out of the pipeline safety account, all expense of operation of the Washington utilities and transportation commission shall be payable out of the public service revolving fund.

During the (2003-2005) 2009-2011 fiscal biennium, the legislature may transfer from the public service revolving fund to the state general fund such amounts as reflect the excess fund balance of the fund. ((Due to the extraordinarily high winter energy costs, during the 2005-2007 fiscal biennium, no more than seven million six hundred thousand dollars, as appropriated in section 1, chapter 3, Laws of 2006, shall be payable out of the public service revolving fund to provide energy assistance to customers in accordance with the low income energy assistance program.))

Sec. 951. RCW 80.36.430 and 2009 c 564 s 960 are each amended to read as follows:

(1) The Washington telephone assistance program shall be funded by a telephone assistance excise tax on all switched access lines and by funds from any federal government or other programs for this purpose. Switched access lines are defined in RCW 82.14B.020. The telephone assistance excise tax shall be applied equally to all residential and business access lines not to exceed fourteen cents per month. The department shall submit an approved annual budget for the Washington telephone assistance program to the department of revenue no later than March 1st prior to the beginning of each fiscal year. The department of revenue shall then determine the amount of telephone assistance excise tax to be placed on each switched access line and shall inform local exchange companies and the utilities and transportation commission of this amount no later than May 1st. The department of revenue shall determine the amount of telephone assistance excise tax by dividing the total of the program budget funded by the telephone assistance excise tax, as submitted by the department, by the total number of switched access lines in the prior calendar year. The telephone assistance excise tax shall be separately identified on each ratepayer's bill as the "Washington telephone assistance program." All money collected from the telephone assistance excise tax shall be transferred to a telephone assistance program fund administered by the department.

(2) Local exchange companies shall bill the fund for their expenses incurred in offering the telephone assistance program, including administrative and program expenses. The department shall disburse the money to the local exchange companies. The department is exempted from having to conclude a contract with local exchange companies in order to effect this reimbursement. The department shall recover its administrative costs from the fund. The department may specify by rule the range and extent of administrative and program expenses that will be reimbursed to local exchange companies.

(3) The department shall enter into an agreement with the department of ([(community, trade, and economic development)]) commerce for an amount not to exceed eight percent of the prior fiscal year's total revenue for the administrative and program expenses of providing community service voice mail services. The community service voice mail service may include toll-free lines in community action agencies through which recipients can access their community service voice mailboxes at no charge.

(4) During the 2009-2011 biennium, the department shall enter into an agreement with the ([(military department)]) WIN 211 organization for (one million dollars to) operational support ([(the WIN 211 program)])

Sec. 952. RCW 82.14.495 and 2009 c 4 s 907 are each amended to read as follows:

(1) The streamlined sales and use tax mitigation account is created in the state treasury. MESSAGE FROM THE SENATE

April 12, 2010

Mr. Speaker:

The Senate has passed ENGROSSED HOUSE BILL NO. 1690 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The establishment of alternative public works contracting procedures authorized for use by public bodies has been a complex, controversial, and challenging undertaking, but it has been successful. The key to the successful adoption and consideration of these procedures has depended, in great part, on the review and oversight mechanisms put in place by the legislature in chapter 39.10 RCW, as well as the countless hours of dedicated work by numerous stakeholders over many years. It is the intent of the legislature to clarify that, unless otherwise specifically provided for in law, public bodies that want to use an alternative public works contracting procedure may use only those procedures specifically authorized in chapter 39.10 RCW.

Sec. 2. RCW 39.10.200 and 2007 c 494 s 1 are each amended to read as follows:

The legislature finds that the traditional process of awarding public works contracts in lump sum to the lowest responsible bidder is a fair and objective method of selecting a contractor. However, under certain circumstances, alternative public works contracting procedures may best serve the public interest if such procedures are implemented in an open and fair process based on objective and equitable criteria. The purpose of this chapter is to authorize the use of certain supplemental alternative public works contracting procedures, to prescribe appropriate requirements to ensure that such contracting procedures serve the public interest, and to establish a process for evaluation of such contracting procedures. It is the intent of the legislature to establish that, unless otherwise specifically provided for in law, public bodies may use only those alternative public works contracting procedures specifically authorized in this chapter, subject to the requirements of this chapter.

Sec. 3. RCW 39.10.230 and 2009 c 75 s 1 are each amended to read as follows:

The board has the following powers and duties:

(1) Develop and recommend to the legislature policies to further enhance the quality, efficiency, and accountability of capital construction projects through the use of traditional and alternative delivery methods in Washington, and make recommendations regarding expansion, continuation, elimination, or modification of the alternative public works contracting methods;

(2) Evaluate the use of existing contracting procedures and the potential future use of other alternative contracting procedures including competitive negotiation contracts;

(3) Develop guidelines to be used by the committee for the review and approval of design build demonstration projects that procure operations and maintenance services) Submit recommendations to the appropriate committees of the legislature evaluating alternative contracting procedures that are not authorized under this chapter;

(4) Appoint members of the committee; and

(5) Develop and administer questionnaires designed to provide quantitative and qualitative data on alternative public works contracting procedures on which evaluations are based.

"Sec. 4. RCW 35.82.200 and 1965 c 7 s 35.82.200 are each amended to read as follows:

(1) In addition to the powers conferred upon an authority by other provisions of this chapter, an authority is empowered to borrow money or accept contributions, grants or other financial assistance from the federal government for or in aid of any housing project within its area of operation, to take over or lease or manage any housing project or undertaking constructed or owned by the federal government, and to these ends, to comply with such conditions and enter into such mortgages, trust indentures, leases or agreements as may be necessary, convenient or desirable. It is the purpose and intent of this chapter to authorize every authority to do any and all things necessary or desirable to secure the financial aid or cooperation
of the federal government in the undertaking, construction, maintenance or operation of any housing project by such authority.

(2) All housing authorities shall be subject to the provisions of chapter 39.10 RCW except where alternative requirements or procedures of federal law or federal regulation are authorized.

(3) The requirements of chapter 39.12 RCW regarding prevailing wages shall apply to housing authority public works except where specifically preempted by federal law or federal regulation."

Sec. 5. RCW 43.131.408 and 2007 c 494 s 507 are each amended to read as follows:

The following acts or parts of acts, as now existing or hereafter amended, are each repealed, effective June 30, 2014:

(1) RCW 39.10.200 and section 2 of this act, 2007 c 494 s 1, & 1994 c 132 s 1;

**MESSAGE FROM THE SENATE**

April 12, 2010

Mr. Speaker:

The Senate has passed ENGROSSED HOUSE BILL NO. 2561 with the following amendment:

Format changed to accommodate text.
Strike everything after the enacting clause and insert the following:

"PART I

SHORT TITLE AND INTENT

NEW SECTION, Sec. 101. This act may be known and cited as the jobs act.

NEW SECTION, Sec. 102. The legislature intends to create jobs in every corner of Washington state by issuing bonds, which will catalyze energy savings and repair work at public schools and state colleges and universities.

It is the intent of the legislature that these investments will create jobs quickly and directly, at a time when the state's residents need jobs. It is the further intent of the legislature that these investments both accelerate innovation in the energy efficiency sector and create locally developed technologies and companies to provide sustainable jobs. The legislature intends to prioritize the use of innovative technologies and facilitate the development of a sustainable innovation cluster that creates and installs highly efficient building technologies and creates jobs.

The legislature intends that these job-creating projects save taxpayers money, with an estimated one hundred twenty-six million dollars saved each year in public schools through reduced energy and operational costs, and improve the health and safety of those buildings. The energy savings are equivalent to the use of an estimated ninety thousand houses. It is also the intent of the legislature that these job-creating projects lead to reduced pollutants, as the weatherization and energy efficiency projects will reduce pollution emissions by an estimated amount equivalent to removing an estimated one hundred thirty thousand cars from the roads each year.

PART II

BOND AUTHORIZATION

NEW SECTION, Sec. 201. (1) For the purpose of creating jobs by constructing needed capital improvements to public facilities for energy, utility, and operational cost savings, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of five hundred five million dollars, or so much thereof as may be required, for this purpose and all costs incidental thereto. The bonds issued under the authority of this section are known as jobs act bonds.

(2) Bonds authorized in this section must be sold in the manner, at the time or times, in amounts, and at such prices as the state finance committee determines.

(3) The authorization to issue bonds contained in this chapter does not expire until the full authorization has been issued.

(4) No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

NEW SECTION, Sec. 202. (1) The nondebt-limit general fund bond retirement account must be used for the payment of the principal of and interest on the bonds authorized in section 201 of this act.

(2) The state finance committee must, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet the bond retirement and interest requirements on the bonds authorized in section 201 of this act.

(3) On each date on which any interest or principal and interest payment is due on bonds issued for the purposes of section 201 of this act, the state treasurer shall withdraw from any general state revenues received in the state treasury and deposit in the nondebt-limit general fund bond retirement account an amount equal to the amount certified by the state finance committee to be due on the payment date.

NEW SECTION, Sec. 203. (1) Bonds issued under this section and sections 201 and 202 of this act must state that they are a general obligation of the state of Washington, must pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and must contain an unconditional promise to pay the principal and interest as the same shall become due.

(2) The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section.

PART III

PROGRAM REQUIREMENTS, APPROPRIATIONS, AND REVENUE PROVISIONS

NEW SECTION, Sec. 301. (1) The department of commerce, in consultation with the department of general administration and the Washington State University energy program, shall administer the jobs act.

(2) The department of general administration must develop guidelines that are consistent with national and international energy savings performance standards for the implementation of energy savings performance contracting projects by the energy savings performance contractors by December 31, 2010.

(3) The definitions in this section apply throughout this chapter and section 302 of this act unless the context clearly requires otherwise.

(a) "Cost-effectiveness" means that the present value to higher education institutions and school districts of the energy reasonably expected to be saved or produced by a facility, activity, measure, or piece of equipment over its useful life, including any compensation received from a utility or the Bonneville power administration, is greater than the net present value of the costs of implementing, maintaining, and operating such facility, activity, measure, or piece of equipment over its useful life, when discounted at the cost of public borrowing.

(b) "Energy cost savings" means savings realized in expenses for energy use and expenses associated with water, wastewater, or solid waste systems.

(c) "Energy equipment" means energy management systems and any equipment, materials, or supplies that are expected, upon installation, to reduce the energy use or energy cost of an existing building or facility, and the services associated with the equipment, materials, or supplies, including but not limited to design, engineering, financing, installation, project management, guarantees, operations, and maintenance. Reduction in energy use or energy cost may also include reductions in the use or cost of water, wastewater, or solid waste.

(d) "Energy savings performance contracting" means the process authorized by chapter 39.35C RCW by which a company contracts with a public agency to conduct energy audits and guarantee energy savings from energy efficiency.

(e) "Innovative measures" means advanced or emerging technologies, systems, or approaches that may not yet be in common practice but improve energy efficiency, accelerate deployment, or reduce energy usage, and become widely commercially available in the future if proven successful in demonstration programs without compromising the guaranteed performance or measurable energy and operational cost savings anticipated. Examples of innovative measures include, but are not limited to, advanced energy and systems operations monitoring, diagnostics, and controls systems for buildings; novel heating, cooling, ventilation, and water heating systems; advanced windows and insulation technologies, highly efficient lighting technologies, designs, and controls; and integration of renewable energy sources into buildings, and energy savings verification technologies and solutions.
NEW SECTION. Sec. 302. (1) Within appropriations specifically provided for the purposes of this chapter, the department of commerce, in consultation with the department of general administration, and the Washington State University energy program shall establish a competitive process to solicit and evaluate applications from public school districts, public higher education institutions, and other state agencies. Final grant awards shall be determined by the department of commerce.

(2) Grants must be awarded in competitive rounds, based on demand and capacity, with at least five percent of each grant round awarded to small public school districts with fewer than one thousand full-time equivalent students, based on demand and capacity.

(3) Within each competitive round, projects must be weighted and prioritized based on the following criteria and in the following order:

(a) Leverage ratio: In each round, the higher the leverage ratio of nonstate funding sources to state jobs act grant, the higher the project ranking.

(b) Energy savings: In each round, the higher the energy savings, the higher the project ranking. Applicants must submit documentation that demonstrates energy and operational cost savings resulting from the installation of the energy equipment and improvements. The energy savings analysis must be performed by a licensed engineer and documentation must include but is not limited to the following:

(i) A description of the energy equipment and improvements;

(ii) A description of the energy and operational cost savings; and

(iii) A description of the extent to which the project employs collaborative and innovative measures and encourages demonstration of new and emerging technologies with high energy savings or energy cost reductions.

(c) Expediency of expenditure: Project readiness to spend funds must be prioritized so that the legislative intent to expend funds quickly is met.

(4) Projects that do not use energy savings performance contracting must: (a) Verify energy and operational cost savings, as defined in section 301 of this act, for ten years or until the energy and operational costs savings pay for the project, whichever is shorter; (b) follow the department of general administration's energy savings performance contracting project guidelines developed pursuant to section 301 of this act; and (c) employ a licensed engineer for the energy audit and construction. The department of commerce may require third-party verification of savings if a project is not implemented by an energy savings performance contractor selected by the department of general administration through the request of qualifications process. Third-party verification must be conducted either by an energy savings performance contractor selected by the department of general administration through a request for qualifications, a licensed engineer specializing in energy conservation, or by a project resource conservation manager or educational service district resource conservation manager.

(5) To intensify competition, the department of commerce may only award grants to the top eighty-five percent of projects applying in a round until the department of commerce determines a final round is appropriate. Projects that do not receive a grant award in one round may reapply in subsequent rounds.

(6) To match federal grants and programs that require state matching funds and produce significantly higher efficiencies in operations and utilities, the level of innovation criteria may be increased for the purposes of weighted scoring to capture those federal dollars for selected projects that require a higher level of innovation and regional collaboration.

(7) Grant amounts awarded to each project must allow for the maximum number of projects funded with the greatest energy and cost benefit.

(a) The department of commerce must use bond proceeds to pay one-half of the preliminary audit, up to five cents per square foot, if the project does not meet the school district's and higher education institution's predetermined cost-effectiveness criteria. School districts and higher education institutions must pay the other one-half of the cost of the preliminary audit if the project does not meet their predetermined cost-effectiveness criteria.

(b) The energy savings performance contractor may not charge for an investment grade audit if the project does not meet the school district's and higher education institution's predetermined cost-effectiveness criteria. School districts and higher education institutions must pay the full price of an investment grade audit if they do not proceed with a project that meets the school district's and higher education institution's predetermined cost-effectiveness criteria.

(9) The department of commerce may charge projects administrative fees and may pay the department of general administration and the Washington State University energy program administration fees in an amount determined through a memorandum of understanding.

(10) The department of commerce and the department of general administration must submit a joint report to the appropriate committees of the legislature and the office of financial management on the timing and use of the grant funds, program administrative function, compliance with apprenticeship utilization requirements in RCW 39.04.320, compliance with prevailing wage requirements, and administration fees by the end of each fiscal year, until the funds are fully expended and all savings verification requirements are fulfilled.

Related projects are those projects that must be completed in order for the energy efficiency improvements to be effective.

(2) The education construction account is expected to receive one hundred two million dollars annually from state lottery games other than the shared game lottery. For fiscal year 2003 and thereafter, if the amount of lottery revenues earmarked for the education construction account is less than one hundred two million dollars, the commission, after making the transfer required under subsection (3) of this section, must transfer sufficient moneys from revenues derived from the shared game lottery into the education construction account to bring the total revenue up to one hundred two million dollars.

POINT OF PERSONAL PRIVILEGE

Representative Kessler: “Eighteen years ago I decided to run for the state legislature representing a district that had 19% unemployment, a rural area of our state, and I have never looked back and never regretted these eighteen years. One of my proudest achievements for all of us who have worked together on this is to provide direction for One Washington. One of my dearest friends, the good gentleman from the 16th District, Uncle Bill, who is no longer with us, taught of the importance of trying to tear down the Cascade Curtain. I tried my darndest in my eighteen years to tear down the urban-rural divide and I think we’ve made huge strides. I have appreciated the friendship and leadership of Mr. Speaker from the 43rd District, and working with him these past twelve years, and working with the good lady from the 37th who has been on our leadership team. We’ve all bonded and become quite good friends. We brought a very diverse group of viewpoints to the leadership team which was always very interesting and I love that perspective. I love that our caucus this year passed a bill that provides jobs in Eastern Washington. I love that we don’t look at that as, well that’s politically not our area so we’re not going to
help them. I love that about my caucus, I love that I’ve been a part of that. I appreciated you Mr. Speaker, you are just amazing. I watch you handle all the fairly tedious discussions and I think what a wonderful job you are doing and I’m so glad you represent us. I don’t know where the other Mr. Speaker is half the time. I came in with some people that I care very deeply for that are still here. My good friend from the 40th who made me weep when I said goodbye when I knew he was leaving. Representative Quall and I sat at the same table in 1992 at a reorganization meeting and we just hit it off immediately. My good friend from the 42nd, our Ways & Means chair, and I have shared many years together, many good times together and many hard times together. We’ve had new leadership with our good lady from the 25th, Representative Morrell. She has just brought, she is a nurse, she is the one that picked me up this year, drove me to the doctor, took me to a cardiologist in Puyallup and said get in there and get taken care of. My good friend from the 32nd, who has made early learning her passion, which is also a passion of mine. I so respect what she has done and I think it has made an incredible difference for our children. Children learn from the minute they are born, in fact they actually learn when they are still in the mothers’ womb. They do learn and the more they learn the better they are in their lives. They need to change laws that change lives, that saved lives, that make lives better, that allow some people to go to college whose families have never even been to college. And then we can do little things that we do for our constituents and those are very special to each and every one of us. This year the gentleman from the 45th had a bill that included something that was very dear to the heart of one of my constituents. He called me about a year and a half ago and said that his relative was married to a man who beat her up, domestic violence. He killed her and the gentleman told me that he prohibited the family from having her body taken care of and a burial because he was in charge of the disposition of her remains. The bill that the good gentleman from the 45th passed this year included that no victim of a domestic violence murder would ever have to have her perpetrator continue that violence against her after she is gone, that the disposition would not be put in the hands of the person accused of that murder. I know each and every one of you have so many stories like that where you are able to, because of the positions that we all have, were able to do great and small things together and I’m privileged to have served with all of you. Now I’m sad that I’m leaving but I’m really glad, just so you know I am really actually glad, I think it’s time. I love you all, it’s been fun being in the trenches with you because sometimes those trenches are deep and very, very difficult and I hope that we all appreciate our differences because that’s what makes this place very special and that’s what makes each and every one of you very special because we can really make a difference. We have made a difference and we continue to make a difference. I will watch you on TVW, but I don’t actually get it where I live, so I won’t be making a big habit of it. But if I’m anywhere there is TVW I will watch you and be somewhat nostalgic that I won’t be here any longer. Thank you for the privilege of serving with all of you. That is my deal, I’m retiring. I’m almost 70, for God’s sake, it’s time. To my seat mates, my wonderful Senator and my wonderful seat mate who could save me if I did start to croak on the floor, you’ve just been a joy to serve with and we’ve had each others’ backs. The Senator and I have had each others’ backs for eighteen years and it’s been a real pleasure, he prays for me and that has got to be good, so thank you again, all of you. I wish you all well and please be kind to one another. Thank you.”

**POINTS OF PERSONAL PRIVILEGE**

Representatives Van De Wege, DeBolt, Quall, Armstrong, Linville, Orcutt, Santos, Morris and Mr. Speaker thanked Representative Kessler for her service to the people of the 24th District and the State of Washington, and wished her well in her retirement.

(c) Project applicants must demonstrate that the proposed project is ready to proceed, will make timely use of the funds, and requires state funding to accomplish a discrete, usable phase of the project that may include acquisition.

(d) If grant funds under this subsection are used for the acquisition of surplus school facilities, the sale proceeds must be used by the local school board disposing of such property for renovation, replacement, or new construction of school facilities in the district, but shall not be used as local match for projects receiving state school construction assistance grants.

(e) In contracts for grants authorized under this subsection, the department shall include provisions that require that capital improvements must be held by the grantee for a specified period of time appropriate to the amount of the grant and that facilities must be used for the express purpose of the grant. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant.

(2) The construction of a non-mobile facility, accessible to students in central and eastern Washington for the purpose of financial literacy education, for the eastern and western Washington junior achievement world initiative.

The appropriation in this section is subject to the following conditions and limitations:

(1) Prior to receiving funds, project recipients must demonstrate that the project site is under control for a minimum of ten years, either through ownership or a long-term lease. This requirement does not apply to appropriations for preconstruction activities or appropriations whose sole purpose is to purchase real property that does not include a construction or renovation component.

(3) Projects funded in this section may be required to comply with Washington's high performance building standards as required by chapter 39.35D RCW.

(4) Project funds are available on a reimbursement basis only, and shall not be advanced under any circumstances.

(5) Projects funded in this section must be held by the recipient for a minimum of ten years and used for the same purpose or purposes intended by the legislature as required in RCW 43.63A.125(2)(c).

(6) Projects funded in this section, including those that are owned and operated by nonprofit organizations, are generally required to pay state prevailing wages.

(7) Except as directed otherwise prior to the effective date of this section, the department shall not expend the appropriations in this section unless and until the nonstate share of project costs have been either expended, or firmly committed, or both, in an amount sufficient to complete the project or a distinct phase of the project that is usable to the public for the purpose intended by the legislature.

(8) The appropriation is provided solely for the following list of projects:

NEW SECTION.  Sec. 1016. A new section is added to 2009 c 497 (uncodified) to read as follows:

FOR THE DEPARTMENT OF COMMERCE

Jobs Act for K-12 Public Schools and Higher Education Institutions (91000085)

The appropriation in this section is subject to the following conditions and limitations:

(1) The appropriation is provided solely for grants to public school districts and public higher education institutions for operational cost savings improvements to public school district and higher education facilities and related projects that result in energy and operational cost savings. Related projects are those projects that must be completed in order for the energy efficiency improvements to be effective. Grants may also be used for loan interest payments over the term of a loan.
(2) The department of commerce, in consultation with the department of general administration, the office of the superintendent of public instruction, and the Washington State University energy program shall establish a competitive process to solicit and evaluate applications from public school districts and public higher education institutions. Final grant awards shall be determined by the department of commerce.

(3) The definitions in this section apply throughout this section.

(a) "Cost-effectiveness" means that the present value to public school districts and public higher education institutions of the energy reasonably expected to be saved or produced by a facility, activity, measure, or piece of equipment over its useful life, including any compensation received from a utility or the Bonneville power administration, is greater than the net present value of the costs of implementing, maintaining, and operating such facility, activity, measure, or piece of equipment over its useful life, when discounted at the cost of public borrowing.

(b) "Energy equipment" means energy management systems and any equipment, materials, or supplies that are expected, upon installation, to reduce the energy use or energy cost of an existing building or facility, and the services associated with the design, engineering, financing, installation, project management, guarantees, operations, and maintenance. Reduction in energy use or energy cost may also include reductions in the use or cost of water, wastewater, or solid waste.

(c) "Energy cost savings" means savings realized in expenses for energy use and expenses associated with water, wastewater, or solid waste systems.

(d) "Energy savings performance contracting" means the process authorized by chapter 39.35C RCW by which a company contracts with a public agency to conduct energy audits and guarantee energy savings from energy efficiency.

(e) "Operational cost savings" means savings realized from parts, service fees, capital renewal costs, and other measurable annual expenses to maintain and repair systems. This definition does not mean labor savings related to existing facility staff.

(f) "Public facilities" means buildings, building components, and major equipment or systems owned by public school districts and public higher education institutions.

(g) "Innovative measures" means advanced or emerging technologies, systems or approaches that may not yet be in common practice but improve energy efficiency, accelerate deployment, or reduce energy usage, and become widely commercially available in the future if proven successful in demonstration programs without compromising the guaranteed performance or measurable energy and operational cost savings anticipated. Examples of innovative measures include, but are not limited to, advanced energy and systems operations monitoring, diagnostics and controls systems for buildings; novel heating, cooling, ventilation and water heating systems; advanced windows and insulation technologies, highly efficient lighting technologies, designs, and controls; and integration of renewable energy sources into buildings, and energy savings verification technologies and solutions.

(4) Grants must be awarded in competitive rounds, based on demand and capacity, with at least five percent of each grant round awarded to small public school districts with fewer than 1,000 full-time equivalent students, based on demand and capacity.

(5) Within each competitive round, projects must be weighted and prioritized based on the following criteria and in the following order:

(a) Leverage ratio: In each round, the higher the leverage ratio of nonstate funding sources to state jobs act grant, the higher the project ranking.

(b) Energy savings: In each round, the higher the energy savings, the higher the project ranking. Applicants must submit documentation that demonstrates energy and operational cost savings resulting from the installation of the energy equipment and improvements. The energy savings analysis shall be performed by a licensed engineer, and the documentation must include but is not limited to the following:

(i) A description of the energy equipment and improvements;

(ii) A description of the energy and operational cost savings; and

(iii) A description of the extent to which the project employs collaborative and innovative measures and encourages demonstration of new and emerging technologies with high energy-savings or energy cost- reductions.

(c) Expediency of expenditure: Project readiness to spend funds must be prioritized so that the legislative intent to expend funds quickly is met.

(6) Projects that do not use energy savings performance contracting must:

(a) Verify energy and operational cost savings for ten years or until the energy and operational costs savings pay for the project, whichever is shorter; (b) follow the department of general administration's energy savings performance contracting project guidelines; and (c) employ a licensed engineer for the energy audit and construction. The department of commerce may require third-party verification of savings if a project is not implemented by an energy savings performance contractor selected by the department of general administration through the request of qualifications process. Third-party verification must be conducted either by an energy savings performance contractor selected by the department of general administration through a request for qualifications, a licensed engineer that is a certified energy manager, a project resource conservation manager, or educational service district resource conservation manager.

(7) To intensify competition, the department of commerce may only award funds to the top eighty-five percent of projects applying in a round until the department of commerce determines a final round is appropriate. Projects that do not receive a grant award in one round may reapply in subsequent rounds.

(8) To match federal grants and programs that require state matching funds and produce significantly higher efficiencies in operations and utilities, the level of innovation criteria may be increased for the purposes of weighted scoring to capture those federal dollars for selected projects that require a higher level of innovation and regional collaboration.

(9) Grant amounts awarded to each project must allow for the maximum number of projects funded with the greatest energy and cost benefit.

(10)(a) The department of commerce must use bond proceeds to pay one-half of the preliminary audit, up to five cents per square foot, if the project does not meet the school district's and higher education institution's predetermined cost-effectiveness criteria. Public school districts and public higher education institutions must pay the other one-half of the cost of the preliminary audit if the project does not meet their predetermined cost-effectiveness criteria.

(b) The energy savings performance contractor shall not charge for an investment grade audit if the project does not meet the school district's and higher education institution's predetermined cost-effectiveness criteria. Public school districts and public higher education institutions must pay the full price of an investment grade audit if they do not proceed with a project that meets the school district's and higher education institution's predetermined cost-effectiveness criteria.
(11) The department of commerce may charge projects administrative fees and may pay the department of general administration, the Washington State University energy program, and the office of the superintendent of public instruction administration fees in an amount determined through a memorandum of understanding.

(12) The department of commerce and the department of general administration must submit a joint report to the appropriate committees of the legislature and the office of financial management on the timing and use of the grant funds, program administrative function, compliance with apprenticeship utilization requirements in RCW 39.04.320, compliance with prevailing wage requirements, and administration fees by the end of each fiscal year, until the funds are fully expended and all savings verification requirements are fulfilled.

(1) $1,640,000 of the reappropriation is provided solely for nonfederal matching funds and state agency costs associated with the army corps of engineers flood hazard mitigation projects for the Chehalis river basin.
(2) $1,200,000 of the total reappropriation is provided solely for the Chehalis basin flood control authority to develop governance agreements for development, operation, and maintenance of flood hazard mitigation measures throughout the basin. The development of the governance agreements shall include preliminary estimates of local property tax options necessary to support the maintenance and operation of the twin city levy project and tax options necessary to support other possible flood control measures throughout the basin. Sec. 3037. 2009 c 497 s 3203 (unclassified) is amended to read as follows:

FOR THE DEPARTMENT OF NATURAL RESOURCES

The appropriation in this section is subject to the following conditions and limitations:

1. The total appropriation is provided to the department solely to transfer from trust status, or enter into fifty year leases for, certain trust lands of statewide significance deemed appropriate for state park, fish and wildlife habitat, natural area preserve, natural resources conservation area, open space, housing and essential government services, or recreation purposes. The approved list of properties for lease or transfer is identified in the LEAP capital document No. 2009-2a, developed April 23, 2009.

2. Property transferred under this section must be appraised and transferred at fair market value. The value of the timber transferred must be deposited by the department to the common school construction account in the same manner as timber revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040. The value of the land transferred must be deposited in the natural resources real property replacement account.

3. Property subject to lease agreements under this section must be appraised at fair market value. Lease terms must be fifty years with options to renew for an additional fifty years. Lease payments must be lump sum payments for the entire term of the lease at the beginning of the lease. The department shall calculate such lump sum payments using professional appraisal standards. These lease payments may not exceed the fee simple purchase price based on current fair market value and must be deposited by the department to the common school construction account in the same manner as lease revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040.

4. All reasonable costs incurred by the department to implement this section are authorized to be paid out of the appropriations. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs and shall not exceed ((one and nine-tenths)) two and six-tenths percent of the appropriation.

5. Intergrant exchanges between common school and other trust lands of equal value may occur if the exchange is in the interest of each trust, as determined by the board of natural resources.

6. Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer and lease agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose. Transfer and lease agreements may include provisions for receiving agencies to request alternative uses of the property, provided the alternative uses are compatible with the original intended public purpose and the department and legislature approves such uses.

7. The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

8. The department shall execute trust land transfers that, after the deduction of reasonable costs as provided in subsection (4) of this section, eighty percent of the total value of transferred property is timber value and is deposited in the common school construction account. To achieve the eighty percent requirement, the department may choose to lease properties originally intended as transfers.

9. $4,189,000 of the amount appropriated is provided solely for fifty-year leases of development rights from timber lands at risk of conversion to non-timber land uses purchased from appropriations in the 2007-2009 fiscal period.

10. (On June 30, 2011) The state treasurer shall transfer all remaining uncommitted funds from this appropriation to the common school construction account and the appropriations in this section shall be reduced by an equivalent amount.

FOR THE DEPARTMENT OF NATURAL RESOURCES

Forest Hazard Reduction and Biomass Equipment (91000003)

The appropriation in this section is subject to the following conditions and limitations:
(1) The natural resources equipment account appropriation in this section is provided solely for the purchase of forest biomass feedstock processing equipment appropriate for forest biomass-to-energy projects in eastern Washington in areas with a scarcity of primary wood processing facilities, or for making grants on a competitive basis to local governments or nonprofit entities in such local areas for purchase of such equipment. Equipment purchased, either by the department or a grantee, must be made available for lease, or other lawful means of conveyance, or be operated directly, for use in forest biomass-to-energy projects in an area of eastern Washington with a scarcity of primary wood processing facilities. In providing for the use of such equipment, consideration shall be given by the department or grantee in the opportunity for the forest biomass-to-energy project to promote forest treatments to improve forest health and/or remove hazardous buildup of forest fuels. Consideration may also be given to generating jobs in counties with high rates of unemployment.

(2) The state building construction account--state appropriation is provided solely for forest improvement treatments on forest lands of eastern Washington with the five highest priority fire and disease hazards in Stevens, Ferry, Lincoln, Pend Oreille, Okanogan, Yakima, Kittitas, and Spokane counties. Forest treatments on private lands funded by this appropriation require an agreement with the property owner that includes a commitment to maintain the improvements to forest health.

lineal descendant of a landowner meeting this condition; (c) the applicant has an outstanding violation of the forest practices act under chapter 76.09 RCW; (d) the applicant is in default on a financial obligation to an agency of the state including noncompliance with a child support order under RCW 74.20A.320; (e) the application is for land on which other conservation easements have been executed and recorded on the title; or (f) the land is owned by a nonprofit organization that does not have deferred tax designations of either classified timber land or classified open space as defined in RCW 84.34.020 and does not have a county-recognized forest management plan.

(5) The department of natural resources shall use legally binding affidavits to obtain from the applicants any supplemental information necessary to assist in prioritizing the use of the funds appropriated in this section. The department must verify the prioritized use of the funds appropriated in this section by: (a) Investigating a random subset of affidavits for easements purchased for an amount less than one hundred thousand dollars; and (b) investigating all easements purchased for an amount in excess of one hundred thousand dollars.

(6) The department shall work with interested stakeholders to develop recommendations for changes to the ongoing eligibility, prioritization, and policy provisions of the forestry riparian easement program specified in RCW 76.13.120. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION
2009-11 School Construction Assistance Grant Program (30000031)

The appropriation in this section is subject to the following conditions and limitations:
(1) (The office of the superintendent of public instruction shall develop a tracking system to increase accuracy in predicting the timing of school district claims for reimbursement for school construction assistance grants. The office of the superintendent of public instruction shall also improve its communication with school districts regarding the status of grant projects and create requirements regarding the timing of reimbursement claims.
   The office of the superintendent of public instruction shall submit a report on the progress of the new tracking and communication system to the appropriate committees of the legislature by November 15, 2009. The report must include a list of school district capital projects receiving state funding and each project's anticipated final reimbursement date.
   (2)) In calculating square foot eligibility for state assistance grants, kindergarten student headcount shall not be reduced by fifty percent.
   (2) For school construction projects funded through the school construction assistance grant program, the superintendent of public instruction shall require mapping the design of new facilities and remapping the design of facilities to be remodeled.
   (3) Up to $17,000,000 of the state building construction account-- state appropriation in this section is for the Grand Coulee Dam school district school project, contingent on the availability of sufficient contributions from federal, local, or private sources to make up the remainder of the total cost of the project. The Grand Coulee Dam school district is faced with a unique set of local funding barriers and federal funds may substitute as the usual requirement for school district participation. In the event sufficient matching contributions are not secured, these funds shall lapse.
   (4) $250,000 of the common school construction account--state appropriation is provided solely for the office of the superintendent of public instruction to develop a K-12 facility inventory and condition system based on option number 3, described in the joint legislative audit and review committee's January 2010 report, "K-12 Pilot Facility Inventory, Condition and Use System" as providing semi-customized information capabilities with complete state data. The office of the superintendent of public instruction must require school districts to submit any energy audits completed for K-12 public school buildings to be incorporated in the inventory system. It is the legislature's intent to improve the availability of information regarding the local use of state funds provided for school maintenance. Although school facilities are constructed by, and the property of, local jurisdictions, the legislature encourages school districts to invest in activities that extend the useful life of school district facilities. The state's general taxpayers have an interest in information regarding these local decisions since state policy has been to contribute funds in the biennial omnibus operating budget for facilities' maintenance and to contribute capital budget funds to eligible districts for renovation and replacement of buildings. In light of 2010 legislation enacting changes to RCW 28A.150.260 that increase state funding for school maintenance from $73.27 per annual average full-time equivalent K-12 student to $153.18 per student by the 2015-16 school year, with annual adjustments for inflation thereafter, it is the legislature's intent to facilitate development of an information system that will provide better data regarding school districts' use of any state funds provided to assist with maintenance and to monitor facilities' conditions.

The reappropriation in this section is subject to the following conditions and limitations:

The appropriation in this section is subject to the following conditions and limitations:

(1) Up to $3,000,000 of the appropriation is provided solely for nonrecurring costs associated with school facility repairs and renovations necessary for health and safety. The office of the superintendent of public instruction, after consulting with maintenance and operations administrators of school districts, shall develop criteria for providing funding for specific projects to stay within the appropriation level provided in this section. (2) (The) $50,000,000 of the new appropriation is provided solely for energy operational cost savings ((and safety and health infrastructure)) improvements to school facilities ((initiated after July 1, 2008)). The appropriation must be distributed using the performance-based contracting method of delivering energy operational cost savings ((and safety and health infrastructure)) improvements to public facilities((, unless the minimal cost or the immediacy of the project makes performance-based contracting impracticable. If the minimal cost or immediacy of the project makes performance-based contracting impracticable, the school district must receive a waiver from the office of the superintendent of public instruction in order to use the appropriation to address safety and health needs))

(3) The superintendent of public instruction must report to the appropriate committees of the legislature and the office of financial management on the timing and use of the funds by the end of each fiscal year, until the funds are fully expended.

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Engrossed Second Substitute House Bill 1096 entitled:

"AN ACT Relating to enhancing small business participation in state purchasing."

I support the intent of this bill and believe that state government can and should be more active in promoting state contracting procurement with small businesses. Small businesses are a vital component in building and stabilizing Washington's economy. State agencies already provide outreach and training to the small business community. Earlier legislation I signed imposed a freeze on contracts at this time to save money. In addition this bill requires a collection of data that is burdensome, resource-intensive, and lacks accountability. Further, the Departments of General Administration, Information Services, and Transportation were not appropriated funds for this purpose and would each be required to absorb the cost to implement the bill.

I am vetoing this bill but I urge the Legislature during the next session to develop legislation that provides appropriate reporting requirements and that can be implemented within appropriated funds.

For these reasons I have vetoed Engrossed Second Substitute House Bill 1096 in its entirety.

Respectfully submitted,

Christine Gregoire
Governor

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 2, House Bill 1880 entitled:

"AN ACT Relating to ballot envelopes."

This bill provides that county auditors may, but are no longer required to, provide return ballot envelopes that have a privacy flap to cover the voter's signature and optional telephone number. There is no emergent need for the bill to become effective immediately, and therefore the emergency clause in Section 2 of this bill is unnecessary.

For this reason, I have vetoed Section 2 of House Bill 1880.

With the exception of Section 2, House Bill 1880 is approved.

Respectfully submitted,

Christine Gregoire
Governor

March 25, 2010

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 309, 412 and 415 Second Substitute House Bill 2016 entitled:

"AN ACT Relating to campaign contribution and disclosure laws."

This bill reorganizes and recodifies chapter 42.17 RCW, provides for the listing of the controlling entity on independent expenditures if the sponsor is a political committee, and allows bona fide political parties to use exempt funds for independent expenditures and electioneering communications.

Two bills delivered to me by the Legislature amend the same sections of existing laws in inconsistent ways. Section 309 (amending RCW 42.17.450), Section 412 (amending RCW 42.17.100), and Section 415 (amending RCW 42.17.550) amend the same sections of existing law that are amended or repealed in Senate Bill 6243 which will be signed today. These sections are technical changes with clarifying language which can be vetoed without affecting the policy changes in Second Substitute House Bill 2016.

For these reasons, I have vetoed Sections 309, 412 and 415 of Second Substitute House Bill 2016.

With the exception of Sections 309, 412 and 415, Second Substitute House Bill 2016 is approved.

Respectfully submitted,
April 1, 2010

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, House Bill 2575 entitled:
"AN ACT Relating to the expansion of the membership of the capital projects advisory review board."
This bill expands the membership of the capital projects advisory review board which currently has 23 members. Adding a member to an existing board is inconsistent with my policy of reducing boards and commissions in state government.
For this reason I have vetoed House Bill 2575 in its entirety.
Respectfully submitted,

Christine Gregoire
Governor

April 23, 2010

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 6, Engrossed Second Substitute House Bill 2630 entitled:
"AN ACT Relating to creating the opportunity express program."
Section 6 is an unnecessary emergency clause. The general fund appropriation to the Opportunity Express Account created in the bill is a Fiscal Year 2011 appropriation. Engrossed Second Substitute House Bill 2630 can take effect ninety days after the adjournment of the session at which it was enacted and still allow timely transfer of funding to the new account.
For these reasons, I have vetoed Section 6 of Engrossed Second Substitute House Bill 2630.
With the exception of Section 6 of Engrossed Second Substitute House Bill 2630 is approved.
Respectfully submitted,

Christine Gregoire
Governor

April 1, 2010

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 404, Engrossed Second Substitute House Bill 2658 entitled:
"AN ACT Relating to refocusing the mission of the department of commerce, including transferring programs."
Section 404 of Engrossed Second Substitute House Bill 2658 outlines ways the state energy strategy must identify administrative actions, regulatory coordination, and legislative recommendations that need to be undertaken to ensure that the energy strategy is implemented and operationally supported by all state agencies and regulatory bodies responsible for implementation of energy policy in the state. I strongly agree with the intent of this section. However, a subsection in Section 404 provides that the Legislature shall, by concurrent resolution, approve or recommend changes to the energy strategy and updates. Such provisions create ambiguities that may impede the Department of Commerce in the performance of its duties.
As this bill recognizes, the energy strategy is the primary guidance for implementation of the state's energy policy and should be an integrated document that includes proposed executive actions under existing law as well as any proposals for new legislation. Section 404 could be read to require legislative approval before the Department undertakes any actions that are included in the strategy. Executive actions authorized by existing law should not be subject to legislative approval, as such a requirement would infringe upon the right and ability of the executive branch to execute the laws. Therefore, I will direct the Department to undertake activities outlined in Section 404 while retaining the authority to implement existing laws without a requirement for additional legislative approval.
For these reasons I have vetoed Section 404 of Engrossed Second Substitute House Bill 2658.
With the exception of Section 404, Engrossed Second Substitute House Bill 2658 is approved.
Respectfully submitted,

Christine Gregoire
Governor

GOVERNOR'S VETO MESSAGES

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 1, Second Substitute House Bill 2731 entitled: "AN ACT Relating to implementing a program of early learning for educationally at-risk children."

Section 1 indicates the Legislature's intent regarding the future of early learning in our state. The Legislature is undertaking a study of the optimal approach for implementing a voluntary program for early learning in Senate Bill 6759 which I am signing today. I look forward to future legislation implementing the results of that study. Because the language in this section presupposes the outcome of the study called for in Senate Bill 6759, I am vetoing this section.

For this reason, I have vetoed Section 1 of Second Substitute House Bill 2731.

With the exception of Section 1, Second Substitute House Bill 2731 is approved.

Respectfully submitted,

Christine Gregoire
Governor

March 29, 2010

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 11, Substitute House Bill 2776 entitled: "AN ACT Relating to funding distribution formulas for K-12 education."

Section 11 amends RCW 28.175.010 to add the requirement that the Washington State Institute for Public Policy annually calculate savings to taxpayers resulting from improved graduation rates. Since this provision is also contained in Senate Bill 6403 which I am also signing today, I am vetoing Section 11 in order to avoid a double amendment regarding the same subject.

For this reason, I have vetoed Section 11 of Substitute House Bill 2776.

With the exception of Section 11, Substitute House Bill 2776 is approved.

Respectfully submitted,

Christine Gregoire
Governor

April 1, 2010

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 202, Engrossed Substitute House Bill 2777 entitled: "AN ACT Relating to modifying domestic violence provisions."

This bill makes a number of changes to the laws relating to domestic violence. Section 202 adds a new section to chapter 36.28A RCW. This section provides that "[w]hen funded" the Washington association of sheriffs and police chiefs shall convene a work group to develop a model policy regarding the reporting of domestic violence to law enforcement in cases where the victim is unable or unwilling to make a report in the jurisdiction where the alleged crime occurred. The Legislature has not provided funding for this work group. Rather than leave an inoperable section in statute, I have vetoed Section 202. If the Legislature makes funds available for this purpose in the future, the tasks and directions to the work group may be included in an appropriations bill.

For this reason, I have vetoed Section 202 of Engrossed Substitute House Bill 2777.

With the exception of Section 202, Engrossed Substitute House Bill 2777 is approved.

Respectfully submitted,

Christine Gregoire
Governor

March 29, 2010

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 9, Engrossed Second Substitute House Bill 2782 entitled: "AN ACT Relating to establishing the security lifeline act."
This bill reforms one of the oldest safety net programs in Washington State for better efficiency and fiscal management. Section 9 would require the Health Care Authority to prioritize ineligible disability lifeline recipients for enrollment in the subsidized Basic Health Plan. The Health Care Authority would be required to continue to process these applications, even if subsidized enrollment is limited or closed due to lack of funding. Prioritizing ineligible disability lifeline recipients is counter to the reform actions exemplified within the security lifeline bill. Section 9 would limit the Health Care Authority's ability to efficiently manage enrollment to the appropriated budget, maintain a balanced risk pool, and is detrimental to the long-term viability of the Basic Health Plan.

We must preserve a viable safety net and access to health care for all Washington residents. For these reasons, I have vetoed Section 9 of Engrossed Second Substitute House Bill 2782. With the exception of Section 9, Engrossed Second Substitute House Bill 2782 is approved.

Respectfully submitted,

Christine Gregoire
Governor

May 4, 2010

Section 5061, page 98, Community and Technical College System, Bates Technical College Mohler Communications Technology Center Design funding for the Mohler Communications Technology Center at Bates Technical College was reduced by $563,000 from the budget approved by the 2009 Legislature. This reduced budget amount would not be sufficient to pay for currently executed contracts, and the costs cannot be deferred until the next biennium. Therefore, I am vetoing Section 5061.

Section 6003, page 111, Office of Financial Management Budget Instructions With this proviso, the Office of Financial Management must require that preliminary energy audits be conducted on project requests that involve significant renovations or improvements in owned or leased facilities. Reducing energy consumption is a high priority, but requiring energy audits before funding decisions are made will be burdensome and costly. I am directing the Office of Financial Management to develop instructions to state agencies that will serve the goal of reducing energy costs without requiring formal audits for every project. Therefore, I am vetoing Section 6003.

Section 6012, page 121-122, Project Transfer Authority This proviso eliminates existing authorization for the Office of Financial Management to approve the transfer of funds from one capital project to another within the same state agency. It also places limitations on approving spending plans for construction contingencies, bid alternates, and equipment costs for capital budget projects already approved by the Legislature. These limitations are too stringent for state agencies and may cause unintended cost increases and schedule delays. I am directing the Office of Financial Management to continue to scrutinize capital project spending plans to identify additional savings that can be directed to new projects in the 2011-13 Biennium. Therefore, I am vetoing Section 6012.

For these reasons, I have vetoed Sections 5061, 6003 and 6012 of Engrossed Substitute House Bill 2836. With the exception of Sections 5061, 6003 and 6012, Engrossed Substitute House Bill 2836 is approved.

Respectfully submitted,

Christine O. Gregoire
Governor

March 25, 2010

Section 8, page 140, Pain Management Authority This bill generally requires state health care boards and commissions to adopt rules, including dosage standards, on chronic, noncancer pain management. Section 8, however, requires that before final adoption, these rules be submitted to the Legislature. Members of the Legislature may review agency rules, proposed or final, and their perspectives are valuable. However, requiring proposed rules to be submitted to the Legislature would infringe upon the role of the executive branch and would blur the distinction between the Legislature and a state agency with regard to the rulemaking process. Therefore, I have vetoed Section 8 of Engrossed Substitute House Bill 2876. With the exception of Section 8, Engrossed Substitute House Bill 2876 is approved.

Respectfully submitted,
Christine Gregoire  
Governor  

March 29, 2010

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 12, Substitute House Bill 2893 entitled: "AN ACT Relating to school levies."

Section 12 provides in part: "If each provision of this act as passed by the senate and house of representatives is not enacted into law, the entire act is null and void." The only action that could prevent any provision of the bill from being enacted into law is the veto power of the Governor. The Washington Constitution provides the Governor with the power to object to one or more sections of a bill while approving other sections of the bill. Section 12 purports to provide that the veto of any section of this bill is a veto of the entire bill. This attempt to constrain the Governor's veto power is inconsistent with our state constitution.

As noted by the Washington Supreme Court in Washington State Legislature v. Lowry, 131 Wn.2d 309, 320 (1997), "[o]ur constitution condones neither artful legislative drafting nor crafty gubernatorial vetoes." Neither the Legislature in its bill drafting nor the Governor in exercising the veto should deprive the other of the fair opportunity to exercise its constitutional prerogatives. A veto of Section 12 will cause "the act ... to be considered now just as it would have been if the vetoed provisions had never been written into the bill at any stage of the proceedings." State ex rel. Stiner v. Yelle, 174 Wash. 402, 408 (1933). For these reasons, I have vetoed Section 12 of Substitute House Bill 2893. With the exception of Section 12, Substitute House Bill 2893 is approved.

Respectfully submitted,

Christine Gregoire  
Governor  

March 23, 2010

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 3, Engrossed Substitute House Bill 2925 entitled: "AN ACT Relating to impact payments of a municipally owned hydroelectric facility."

The bill requires large cities that own a hydroelectric facility in another county to continue to make financial compensation payments to the county in the event an existing compensation agreement between the city and county expires. There is no emergent need for the bill to become effective immediately, and therefore the emergency clause in Section 3 of this bill is unnecessary. For this reason I have vetoed Section 3 of Engrossed Substitute House Bill 2925. With the exception of Section 3 of Engrossed Substitute House Bill 2925 is approved.

Respectfully submitted,

Christine Gregoire  
Governor

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 2, Substitute House Bill 2939 entitled: "AN ACT Relating to notations on driver abstracts that a person was not at fault in a motor vehicle accident."

Section 2 of the legislation states the bill is null and void if funding is not provided in the transportation budget. The transportation budget as passed the Legislature did not contain funding for this bill. However, I am vetoing this section with the understanding that the Department of Licensing will assess the costs of implementing the bill and request any needed funding in 2011. For this reason, I have vetoed Section 2 of Substitute House Bill 2939. With the exception of Section 2, Substitute House Bill 2939 is approved.

Respectfully submitted,

Christine Gregoire  
Governor  

April 1, 2010

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 1, 3, and 4, Engrossed Second Substitute House Bill 3141 entitled:

"AN ACT Relating to redesigning the delivery of temporary assistance for needy families."

This bill directs significant changes to the Temporary Assistance for Needy Families program (TANF) known as the WorkFirst program. The WorkFirst program is an important safety net program for many of Washington's low-income families and children. As Washington addresses an economic downturn, our important and vital safety net programs must provide appropriate assistance to Washington residents. The WorkFirst program has been in existence for almost 13 years. In conversations with the Legislature, I expressed my support for reevaluation of the WorkFirst program to examine how to best meet the challenges for various Washington families to obtain work stability and family self-sufficiency.

Section 3 of the bill directs an executive cabinet level workgroup, the WorkFirst Subcabinet, to examine and report on the TANF program in the context of a reframed legislative intent set forth in Section 1. Section 4 makes a programmatic change in advance of any examination and report. The best way for an executive cabinet level workgroup to examine a broad, programmatic agenda of a $900 million block grant program is under the direction of the Governor, without restrictions or initial assumptions. Although I have vetoed Sections 1, 3 and 4, I am directing the WorkFirst Subcabinet to examine the best practices to meet the needs of WorkFirst families to obtain employment and achieve family self-sufficiency. The WorkFirst Subcabinet shall provide a report and plan to implement the best practices for WorkFirst families and children that are sustainable. For these reasons, I have vetoed Sections 1, 3, and 4 of Engrossed Second Substitute House Bill 3141. With the exception of Sections 1, 3, and 4, Engrossed Second Substitute House Bill 3141 is approved.

Respectfully submitted,

Christine Gregoire
Governor

April 1, 2010

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 5, 13, 14 and 15, Engrossed Substitute House Bill 3178 entitled:

"AN ACT Relating to creating efficiencies in the use of technology in state government."

Section 5 requires the Information Services Board to develop standardized contracts and to review state agency information technology budgets. I am vetoing Section 5 because the Department of Information Services already has the authority to standardize its contracts and has already implemented many standardized contracts. In developing a statewide enterprise-based information technology strategy, the Office of Financial Management and Department of Information Services can determine if additional contract standardization is required. In addition, it is premature to vest additional authority and staff in the Information Services Board prior to the information technology governance review called for in Section 16 of this bill. Finally, no funding was provided to implement these subsections.

Section 13 requires the Office of Financial Management to develop and execute a pilot program to contract with private providers for the delivery, support, maintenance, and operation of information technology projects and report on the findings. I am vetoing this section because funding has not been provided for this purpose in the omnibus appropriations act and the Office of Financial Management cannot absorb the cost.

Section 14 requires the Department of Information Services to report on the efforts to develop a centralized project management office by November 1, 2010. I am vetoing this section because it codifies a requirement for the Department to produce a one-time report on the status of the establishment of a Centralized Information Technology Project Management Office that was funded as part of the 2007 Supplemental Budget. The Department has already completed the report and will submit it to the Legislature.

Section 15 requires the Office of Financial Management to contract with an independent consultant to conduct a technical and financial analysis of the state's plan for the Consolidated State Data Center and Office Building and to develop a business plan outlining the various options for use of the site. I am vetoing this section because funding was not provided for this purpose in the omnibus appropriations act and the Office of Financial Management cannot absorb the cost. For these reasons, I have vetoed Sections 5, 13, 14 and 15 of Engrossed Substitute House Bill 3178. With the exception of Sections 5, 13, 14 and 15, Engrossed Substitute House Bill 3178 is approved.

Respectfully submitted,

Christine Gregoire
Governor

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 17 and 18, Engrossed Substitute House Bill 3209 entitled: "AN ACT Relating to managing costs of the ferry system."

Section 17 eliminates ferry passes for current employees, retirees, and their family members at the end of the current collective bargaining agreements. The issuance of ferry passes is a subject of collective bargaining and should be dealt with as part of the overall compensation package at the bargaining table, not singled out in legislation for elimination. Legislating matters subject to bargaining may restrict the state's ability to address other more important cost savings measures through the collective bargaining process. I am directing my Labor Relations Office to focus in this bargaining cycle on the best approaches to reduce long-term labor costs, including ferry passes and all aspects of the compensation package.

Section 18 reduces the Ferries Division insurance policy appropriation by $670,000, based on a legislative study that concluded that the Department could save money by eliminating some marine insurance coverage. I share the Legislature's interest in saving money over the long term and being responsible stewards of taxpayer dollars by protecting our state-owned assets. While I am vetoing this subsection, I direct the Office of Financial Management to work with the Legislature over the interim to review the Department's marine insurance coverage carefully and to assess whether cost reductions can be made while still adequately protecting taxpayer dollars.

For these reasons, I have vetoed Sections 17 and 18 of Engrossed Substitute House Bill 3209.

With the exception of Sections 17 and 18, Engrossed Substitute House Bill 3209 is approved.

Respectfully submitted,

Christine Gregoire
Governor

April 23, 2010

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 11, House Bill 3219 entitled: "AN ACT Relating technical corrections to the Revised Code of Washington."

This bill implements several changes recommended by the Statute Law Committee which were not enacted during the regular session. It also updates effective dates for the elimination of boards and commissions and for a campaign law provision.

Section 11 is not a technical change, but reinstates the Pesticide Incident Reporting and Tracking (PIRT) Review Panel which was eliminated in Engrossed Second Substitute House Bill 2617 which I signed on March 29, 2010. Section 11 requires the Department of Health to support the PIRT Review Panel activities, but the operating budget passed by the Legislature does not provide funding for such support. The Department of Health would have to decrease support for pesticide investigation and exposure response activities to fund this panel. In a time of difficult choices, I am vetoing this section so that the Department of Health can focus its limited funding on front line services instead of support to operate the PIRT Review Panel.

For these reasons, I have vetoed Section 11 of House Bill 3219.

With the exception of Section 11, House Bill 3219 is approved.

Respectfully submitted,

Christine Gregoire
Governor
