Sec. 37. RCW 72.09.100 and 2005 c 346 s 1 are each amended to read as follows:

It is the intent of the legislature to vest in the department the power to provide for a comprehensive inmate work program and to remove statutory and other restrictions which have limited work programs in the past. It is also the intent of the legislature to ensure that the ((correctional industries board of directors)) department, in developing and selecting correctional industries work programs, does not encourage the development of, or provide for selection of or contracting for, or the significant expansion of, any new or existing class I correctional industries work programs that unfairly compete with Washington businesses. The legislature intends that the requirements relating to fair competition in the correctional industries work programs be liberally construed by the ((correctional industries board of directors)) department to protect Washington businesses from unfair competition. For purposes of establishing such a comprehensive program, the legislature recommends that the department consider adopting any or all, or any variation of, the following classes of work programs:

(c) The ((correctional industries board of directors)) department shall review these proposed industries, including any potential new class I industries work program or the significant expansion of an existing class I industries work program, before the department contracts to provide such products or services. The review shall include the analysis required under RCW 72.09.115 to determine if the proposed correctional industries work program will compete with any Washington business. An agreement for a new class I correctional industries work program, or an agreement for a significant expansion of an existing class I correctional industries work program, that unfairly competes with any Washington business is prohibited.

(d) The department ((of corrections)) shall supply appropriate security and custody services without charge to the participating firms.

(e) Inmates who work in free venture industries shall do so at their own choice. They shall be paid a wage comparable to the wage paid for work of a similar nature in the locality in which the industry is located, as determined by the director of correctional industries. If the director cannot reasonably determine the comparable wage, then the pay shall not be less than the federal minimum wage.

(f) An inmate who is employed in the class I program of correctional industries shall not be eligible for unemployment compensation benefits pursuant to any of the provisions of Title 50 RCW until released on parole or discharged.

(b)(i) The industries selected for development within this class shall, as much as possible, match the available pool of inmate work skills and aptitudes with the work opportunities in the free community. The industries shall be closely patterned after private sector industries but with the objective of reducing public support costs rather than making a profit.

(ii) The products and services of this industry, including purchased products and services necessary for a complete product line, may be sold to the following:

(A) Public agencies;

(B) Nonprofit organizations;

(C) Private contractors when the goods purchased will be ultimately used by a public agency or a nonprofit organization;

(v) Clothing manufactured by an industry in this class may be donated to nonprofit organizations that provide clothing free of charge to low-income persons.

(c)(i) Class II correctional industries products and services shall be reviewed by the ((correctional industries board of directors)) department before offering such products and services for sale to private contractors.

(ii) The (board of directors) secretary shall conduct a yearly marketing review of the products and services offered under this subsection. Such review shall include an analysis of the potential impact of the proposed products and services on the Washington state business community. To avoid waste or spoilage and consequent loss to the state, when there is no public sector market for such goods, by-products and surpluses of timber, agricultural, and animal husbandry enterprises may be sold to private persons, at private sale. Surplus by-products and surpluses of timber, agricultural and animal husbandry enterprises that cannot be sold to public agencies or to private persons may be donated to nonprofit organizations. All sales of surplus products shall be carried out in accordance with rules prescribed by the secretary.

(d) Security and custody services shall be provided without charge by the department ((of corrections)).

(3) CLASS III: INSTITUTIONAL SUPPORT INDUSTRIES.

(a) Industries in this class shall be operated by the department ((of corrections)). They shall be designed and managed to accomplish the following objectives:

(i) Whenever possible, to provide basic work training and experience so that the inmate will be able to qualify for better work both within correctional industries and the free community. It is not intended that an inmate's work within this class of industries should be his or her final and total work experience as an inmate.

(ii) Whenever possible, to provide forty hours of work or work training per week.

(iii) Whenever possible, to offset tax and other public support costs.

(b) Class III correctional industries shall be reviewed by the ((correctional industries board of directors)) department to set policy for work crews. The department shall ((present to the board of directors)) prepare quarterly detail statements showing where work crews worked, what correctional industry class, and the hours worked. ((The board of directors may review any class III program at its discretion.))

(c) Supervising, management, and custody staff shall be employees of the department.

(d) All able and eligible inmates who are assigned work and who are not working in other classes of industries shall work in this class.

(e) Except for inmates who work in work training programs, inmates in this class shall be paid for their work in accordance with an inmate gratuity scale. The scale shall be adopted by the secretary of corrections.

(4) CLASS IV: COMMUNITY WORK INDUSTRIES.

(a) Industries in this class shall be operated by the department ((of corrections)). They shall be designed and managed to provide services in the inmate's resident community at a reduced cost. The services shall be provided to public agencies, to persons who are poor or infirm, or to nonprofit organizations.

(b) Class IV correctional industries shall be reviewed by the ((correctional industries board of directors)) department to set policy for work crews. The department shall ((present to the board of directors)) prepare quarterly detail statements showing where work crews worked, what correctional industry class, and the hours worked. ((The board of directors may review any class IV program at its discretion.)) Class IV correctional industries operated in work camps established pursuant to RCW 72.64.050 are exempt from the requirements of this subsection (4)(b).

(c) Inmates in this program shall reside in facilities owned by, contracted for, or licensed by the department ((of corrections)). A unit of local government shall provide work supervision services without charge to the state and shall pay the inmate's wage.

(d) The department ((of corrections)) shall reimburse participating units of local government for liability and workers compensation insurance costs.
(e) Inmates who work in this class of industries shall do so at their own choice and shall receive a gratuity which shall not exceed the wage paid for work of a similar nature in the locality in which the industry is located.

(5) CLASS V: COMMUNITY RESTITUTION PROGRAMS.

(b) Employment shall be in a community restitution program operated by the state, local units of government, or a nonprofit agency.

(c) To the extent that funds are specifically made available for such purposes, the department ((of corrections)) shall reimburse nonprofit agencies for workers compensation insurance costs.

NEW SECTION. Sec. 1. The legislature finds that adverse childhood experiences are a powerful common determinant of a child's ability to be successful at school and, as an adult, to be successful at work, to avoid behavioral and chronic physical health conditions, and to build healthy relationships. The purpose of this chapter is to identify the primary causes of adverse childhood experiences in communities and to mobilize broad public and private support to prevent harm to young children and reduce the accumulated harm of adverse experiences throughout childhood. Focused effort is needed to: (1) Identify and promote the use of innovative strategies based on evidence-based and research-based approaches and practices; and (2) align public and private policies and funding with approaches and strategies which have demonstrated effectiveness.

The legislature recognizes that many community public health and safety networks across the state have knowledge and expertise regarding the reduction of adverse childhood experiences and can provide leadership on this initiative in their communities. In addition, a broad range of community coalitions involved with early learning, child abuse prevention, and community mobilization have coalesced in many communities. The adverse childhood experiences initiative should coordinate and assemble the strongest components of these networks and coalitions to effectively respond to the challenge of reducing and preventing adverse childhood experiences while providing flexibility for communities to design responses that are appropriate for their community.

NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Adverse childhood experiences" means the following indicators of severe childhood stressors and family dysfunction that, when experienced in the first eighteen years of life and taken together, are proven by public health research to be powerful determinants of physical, mental, social, and behavioral health across the lifespan:

Child physical abuse; child sexual abuse; child emotional abuse; child neglect; serious illness; violence; and parental divorce or separation. Adverse childhood experiences have been demonstrated to affect the development of the brain and other major body systems.

(2) "Community public health and safety networks" or "networks" means the organizations authorized under RCW 70.190.060.

(3) "Department" means the department of social and health services.

(4) "Director" means the director of the department of early learning.

(5) "Evidence-based" has the same meaning as in RCW 43.215.146.

(6) "Research-based" has the same meaning as in RCW 43.215.146.

(7) "Secretary" means the secretary of social and health services.

NEW SECTION. Sec. 3. (1)(a) The secretary of the department of social and health services and the director of the department of early learning shall actively participate in the development of a nongovernmental private-public initiative focused on coordinating government and philanthropic organizations' investments in the positive development of children and preventing and mitigating the effects of adverse childhood experiences. The secretary and director shall convene a planning group to work with interested private partners to: (i) Develop a process by which the goals identified in section 1 of this act shall be met; and (ii) develop recommendations for inclusive and diverse governance to advance the adverse childhood experiences initiative.

(b) The secretary and director shall select no more than twelve to fifteen persons as members of the planning group. The members selected must represent a diversity of interests including: Early learning coalitions, community public health and safety networks, organizations that work to prevent and address child abuse and neglect, tribes, representatives of public agency agencies involved with interventions in or prevention of adverse childhood experiences, philanthropic organizations, and organizations focused on community mobilization.

(c) The secretary and director shall chair the planning group meetings and shall convene the first meeting.

(2) The planning group shall submit a report on its progress and recommendations to the appropriate legislative committees no later than December 15, 2011.

Creating the stay-at-work program; 2. Suspending cost of living adjustments for fiscal year 2012 with no catch-up and delaying the initial adjustment; 3. This duty is violated if the department or employer or employer representative: (i) Fails to comply with the terms of a claim resolution structured settlement agreement; (ii) uses the claim resolution settlement process to harass or coerce an injured worker; (iii) induces a worker to enter into an agreement through a material misrepresentation of law or fact; or (iv) induces a worker to enter an agreement that is unreasonable as a matter of law. Sec. 401. RCW 51.04.010 and 1977 ex.s.s. c 350 s 1 are each amended to read as follows:

"(The common law system governing the remedy of workers against employers for injuries received in employment is inconsistent with modern industrial conditions. In practice it proves to be economically unwise and unfair. Its administration has produced the result that little of the cost of the employer has reached the worker and that little only at large expense to the public. The remedy of the worker has been uncertain, slow and inadequate. Injuries in such works, formerly occasional, have become frequent and inevitable.) The welfare of the state depends upon its industries, and even more upon the welfare of its wage worker. The state of Washington, therefore, exercising (herein) in this title its police and sovereign power, declares that (all phases of the premises are withdrawn from private controversy, and) sure and certain relief for workers, injured in their work, and their families and dependents is hereby provided regardless of questions of fault (and to the exclusion of every other remedy, proceeding or compensation, except as otherwise provided in this title; and to that end all civil actions and civil causes of action for such personal injuries and all jurisdiction of the courts of the state over such causes are hereby abolished, except as in this title provided). Workers and their families and dependents shall be entitled to the full compensation and benefits provided by this title and also have a cause of action against the employer for damages as otherwise provided by law."

Sec. 402. RCW 51.32.010 and 1977 ex.s.s. c 350 s 37 are each amended to read as follows:

Each worker injured in the course of his or her employment, or his or her family or dependents in case of death of the worker, shall receive compensation in accordance with this chapter((, and except as in this title otherwise provided, such payment shall be in lieu of any and all rights of action whatsoever against any person whomsoever. PROVIDED THAT)), However, if an injured worker, or the surviving spouse of an injured worker shall not have the legal custody of a child for, or on account of whom payments are required to be made under this title, such payment or payments shall be made to the person or persons having the legal custody of such child but only for the periods of time after the department has been notified of the fact of such legal custody, and it shall be the duty of any such person or persons receiving payments because of legal custody of any child immediately to notify the department of any change in such legal custody.

NEW SECTION. Sec. 403. RCW 51.24.020 (Action against employer for intentional injury) and 1984 c 218 s 2, 1977 ex.s.s. c 350 s 31, 1973 1st ex.s.s. c 154 s 94, & 1961 c 23 s 51.24.020 are each repealed."

2SSB 5459  Prime Sponsor, Committee on Ways & Means: Regarding services for people with developmental disabilities. Reported by Committee on Ways & Means

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds that:
(1) A developmental disability is a natural part of human life and the presence of a developmental disability does not diminish a person's rights or the opportunity to participate in the life of the local community;
(2) The system of services for people with developmental disabilities should provide a balanced range of health, social, and supportive services at home or in other residential settings. The receipt of services should be coordinated so as to minimize administrative cost and service duplication, and eliminate unnecessarily complex system organization;
(3) The public interest would best be served by a broad array of services that would support people with developmental disabilities at home or in the community, whenever practicable, and that promote individual autonomy, dignity, and choice;
(4) In Washington state, people living in residential habilitation centers and their families are satisfied with the services they receive, and deserve to continue receiving services that meet their needs if they choose to receive those services in a community setting;
(5) As other care options for people with developmental disabilities become more available, the relative need for residential habilitation center beds is likely to decline. The legislature recognizes, however, that residential habilitation centers will continue to be a critical part of the state's long-term care options; and that such services should promote individual dignity, autonomy, and a home-like environment; and
(6) In a time of fiscal restraint, the state should consider the needs of all persons with developmental disabilities and spend its limited resources in a manner that serves more people, while not compromising the care people require.

NEW SECTION. Sec. 2. It is the intent of the legislature that:
(1) Community-based residential services supporting people with developmental disabilities should be available in the most integrated setting appropriate to individual needs; and
(2) An extensive transition planning and placement process should be used to ensure that people moving from a residential habilitation center to a community setting have the services and supports needed to meet their assessed health and welfare needs.

Sec. 3. RCW 71A.10.020 and 2010 c 94 s 21 are each amended to read as follows:

As used in this title, the following terms have the meanings indicated unless the context clearly requires otherwise.
(1) "Community residential support services," or "community support services," and "in-home services" means one or more of the services listed in RCW 71A.12.040.
(2) "Crisis stabilization services" means services provided to persons with developmental disabilities who are experiencing behaviors that jeopardize the safety and stability of their current living situation. Crisis stabilization services include:
(a) Temporary intensive services and supports, typically not to exceed sixty days, to prevent psychiatric hospitalization, institutional placement, or other out-of-home placement; and
(b) Services designed to stabilize the person and strengthen their current living situation so the person may continue to safely reside in the community during and beyond the crisis period.
(3) "Department" means the department of social and health services.
(4) "Developmental disability" means a disability attributable to intellectual disability, cerebral palsy, epilepsy, autism, or another neurological or other condition of an individual found by the secretary to be closely related to an intellectual disability or to require treatment similar to that required for individuals with intellectual disabilities, which disability originates before the individual attains age eighteen, which has continued or can be
expected to continue indefinitely, and which constitutes a substantial limitation to the individual. By January 1, 1989, the department shall promulgate rules which define neurological or other conditions in a way that is not limited to intelligence quotient scores as the sole determinant of these conditions, and notify the legislature of this action.

(1) "Eligible person" means a person who has been found by the secretary under RCW 71A.16.040 to be eligible for services.

(2) "Habilitative services" means those services provided by program personnel to assist persons in acquiring and maintaining life skills and to raise their levels of physical, mental, social, and vocational functioning. Habilitative services include education, training for employment, and therapy.

(3) "Legal representative" means a parent of a person who is under eighteen years of age, a person's legal guardian, a person's limited guardian when the subject matter is within the scope of the limited guardianship, a person's attorney-at-law, a person's attorney-in-fact, or any other person who is authorized by law to act for another person.

(4) "Notice" or "notification" of an action of the secretary means notice in compliance with RCW 71A.10.060.

(5) "Residential habilitation center" means a state-operated facility for persons with developmental disabilities governed by chapter 71A.20 RCW.

(6) "Respite services" means relief for families and other caregivers of people with disabilities, typically not to exceed ninety days, to include both in-home and out-of-home respite care on an hourly and daily basis, including twenty-four hour care for several consecutive days. Respite care workers provide supervision, companionship, and personal care services temporarily replacing those provided by the primary caregiver of the person with disabilities. Respite care may include other services needed by the client, including medical care which must be provided by a licensed health care practitioner.

(7) "Secretory" means the secretary of social and health services or the secretary's designee.

(8) "Service" or "services" means services provided by state or local government to carry out this title.

(9) "State-operated living alternative" means programs for community residential services which may include assistance with activities of daily living, behavioral, habilitative, interpersonal, protective, medical, nursing, and mobility supports provided to individuals who have been assessed by the department as meeting state and federal requirements for eligibility in home and community-based waiver programs for individuals with developmental disabilities. State-operated living alternatives are operated and staffed with state employees.

(10) "Supported living" means community residential services and housing which may include assistance with activities of daily living, behavioral, habilitative, interpersonal, protective, medical, nursing, and mobility supports provided to individuals with disabilities who have been assessed by the department as meeting state and federal requirements for eligibility in home and community-based waiver programs for individuals with developmental disabilities. Supported living services are provided under contracts with private agencies or with individuals who are not state employees.

(11) "Vacancy" means an opening at a residential habilitation center, which when filled, would not require the center to exceed its biennially budgeted capacity.

Sec. 4. RCW 71A.20.010 and 1988 c 176 s 701 are each amended to read as follows: (1) This chapter covers the operation of residential habilitation centers. The selection of persons to be served at the centers is governed by chapters 71A.16 and 71A.18 RCW. The purposes of this chapter are: To provide for those (children and adults) persons who are exceptional in their needs for care, treatment, and education by reason of developmental disabilities, residential care designed to develop their individual capacities to their optimum; to provide for admittance, withdrawal and discharge from state residential habilitation centers upon application; and to insure a comprehensive program for the education, guidance, care, treatment, and rehabilitation of all persons admitted to residential habilitation centers.

(2) Effective no later than July 1, 2012, no person under the age of sixteen years may be admitted to receive services at a residential habilitation center. The department shall offer residential habilitation center employees opportunities to work in state-operated living alternatives as they are established;

(b) May use existing supported living program capacity in the community for former residential habilitation center residents who prefer and choose a supported living program;

(c) Shall continue to staff and operate at Yakima Valley School crisis stabilization beds and respite service beds at the existing bed
capacity as of June 1, 2011, for individuals with developmental disabilities requiring such services;

   (e) Shall establish regional or mobile specialty services evenly distributed throughout the state, such as dental care, physical therapy, occupational therapy, and specialized nursing care, which can be made available to former residents of residential habilitation centers and, within available funds, other individuals with developmental disabilities residing in the community.

The department:
   (1) May, within sixty days of admission to a residential habilitation center, ensure that each resident's individual habilitation plan includes a plan for discharge to the community;

The department shall contract with the developmental disabilities council to provide mentoring services;

To strengthen continuity of care for residents leaving residential habilitation centers, the department shall provide opportunities for residential habilitation center employees to obtain employment in state-operated living alternatives;
      (c) Providing choice of community living options and providers, consistent with federal requirements, including offering to place, with the consent of the resident or his or her guardian, each resident of the residential habilitation center on the appropriate home and community-based waiver, as authorized under 42 U.S.C. Sec. 1396n, and provide continued access to the services that meet his or her assessed needs;
      (d) Providing residents and their families or guardians opportunities to visit state-operated living alternatives and supported living options in the community;

         (iii) Dental care;

   (3) Shall assure that, prior to discharge from a residential habilitation center, clients continue to be eligible for services for which they have an assessed need;
   (4) Shall maximize federal funding for transitioning clients through the roads to community living grant;
   (5) Shall limit the ability of a state-operated living alternative to reject clients;
   (6) Shall use any savings achieved through efficiencies to extend services, including state-staffed crisis stabilization and respite services, to people with developmental disabilities currently receiving limited or no services; and
   (7)(a) Shall employ the quality assurance process currently in use by the department to monitor the adjustment of each resident who leaves a residential habilitation center; and
      (b) Convene a work group to review findings from the quality assurance for people moving process and provide feedback on the transition process. The work group shall include representatives of the developmental disabilities council, disability rights Washington, University of Washington center for human development and disability, providers, and families and advocates of persons with disabilities.

Sec. 9. RCW 71A.18.040 and 1989 c 175 s 142 are each amended to read as follows:

(1) A person who is receiving a service under this title or the person's legal representative may request the secretary to authorize a service that is available under this title in place of a service that the person is presently receiving.

(2) The secretary upon receiving a request for change of service shall consult in the manner provided in RCW 71A.10.070 and within ninety days shall determine whether the following criteria are met:
   (a) The alternative plan proposes a less dependent program than the person is participating in under current service;
   (b) The alternative service is appropriate under the goals and objectives of the person's individual service plan;
   (c) The alternative service is not in violation of applicable state and federal law; and
   (d) The service can reasonably be made available.

(3) If the requested alternative service meets all of the criteria of subsection (2) of this section, the service shall be authorized as soon as reasonable, but not later than one hundred twenty days after completion of the determination process, unless the secretary determines that:
   (a) The alternative plan is more costly than the current plan;
   (b) Current appropriations are not sufficient to implement the alternative service without reducing services to existing clients; or
   (c) Providing alternative service would take precedence over other priorities for delivery of service.

(4) The secretary shall give notice as provided in RCW 71A.10.060 of the grant of a request for a change of service. The secretary shall give notice as provided in RCW 71A.10.060 of denial of a request for change of service and of the right to an adjudicative proceeding.

(5)(a) When the secretary has changed service from a residential habilitation center to a setting other than a residential habilitation center, the secretary shall reauthorize service at the residential habilitation center if the secretary in reevaluating the needs of the person finds that the person needs service in a residential habilitation center.

(b) A person who has moved from a residential habilitation center that has closed to a community-based setting shall be offered a right to return to a residential habilitation center during the first year following their move to the community.

(6) If the secretary determines that current appropriations are sufficient to deliver additional services without reducing services to persons who are presently receiving services, the secretary is authorized to give persons notice under RCW 71A.10.060 that they may request the services as new services or as changes of services under this section.

Sec. 10. RCW 71A.20.080 and 1989 c 175 s 143 are each amended to read as follows:

(1) Whenever in the judgment of the secretary, the treatment and training of any resident of a residential habilitation center has progressed to the point that it is deemed advisable to return such resident to the community, the secretary may grant placement on such terms and conditions as the secretary may deem advisable after consultation in the manner provided in RCW 71A.10.070. The secretary shall give written notice of the decision to return a resident to the community as provided in RCW 71A.10.060. The notice must include a statement advising the recipient of the right to an adjudicative proceeding under RCW 71A.10.050 and the time limits for filing an application for an adjudicative proceeding. The notice must also include a statement advising the recipient of the right to judicial review of an adverse adjudicative order as provided in chapter 34.05 RCW.

(2) A placement decision shall not be implemented at any level during any period during which an appeal can be taken or while an appeal is pending and undecided, unless authorized by court order so long as the appeal is being diligently pursued.

((The department of social and health services shall periodically evaluate at reasonable intervals the adjustment of the resident to the specific placement to determine whether the resident should be continued in the placement or returned to the institution or given a different placement.))

NEW SECTION. Sec. 11. A new section is added to chapter 71A.20 RCW to read as follows:

Beginning November 1, 2012, and annually thereafter, the department shall submit information to the appropriate committees of the legislature regarding persons who have transitioned from residential habilitation centers to the community, for the first two years following each person's new placement, including:

Sec. 12. RCW 71A.20.170 and 2008 c 265 s 1 are each amended to read as follows:

(1) The developmental disabilities community trust account is created in the state treasury. All net proceeds from the use of excess property identified in the 2002 joint legislative audit and review committee capital study or other studies of the division of developmental disabilities residential habilitation centers (at Lakeland Village, Yakima Valley school, Francis Haddon Morgan Center, and Rainier school) that would not impact current residential habilitation center operations must be deposited into the account.

(2) Proceeds may come from the lease of the land, conservation easements, sale of timber, or other activities short of sale of the property except as permitted under section 7 of this act.

(3) "Excess property" includes that portion of the property at Rainier school previously under the cognizance and control of Washington State University for use as a dairy/forage research facility.

(4) Only investment income from the principal of the proceeds deposited into the trust account may be spent from the account. For purposes of this section, "investment income" includes lease payments, rent payments, or other periodic payments deposited into the trust account. For purposes of this section, "principal" is the actual excess land from which proceeds are assigned to the trust account.

(5) Moneys in the account may be spent only after appropriation. Expenditures from the account shall be used exclusively to provide family support and/or employment/day services to eligible persons with developmental disabilities who can be served by community-based developmental disability services. It is the intent of the legislature that the account should not be used to replace, supplant, or reduce existing appropriations.

(6) The account shall be known as the Dan Thompson memorial developmental disabilities community trust account.

NEW SECTION. Sec. 13. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 14. If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to
the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state.

ESB 5873 Prime Sponsor, Senator Prentice: Concerning the sales and use tax exemption for qualifying businesses of eligible server equipment. Reported by Committee on Ways & Means

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 82.08.986 and 2010 1st sp.s. c 23 s 1601 are each amended to read as follows:

(1) An exemption from the tax imposed by RCW 82.08.020 is provided for sales to qualifying businesses of eligible server equipment to be installed, without intervening use, in an eligible computer data center, and to charges made for labor and services rendered in respect to installing eligible server equipment. The exemption also applies to sales to qualifying businesses of eligible power infrastructure, including labor and services rendered in respect to constructing, installing, repairing, altering, or improving eligible power infrastructure.

(2)(a) In order to claim the exemption under this section, a qualifying business must submit an application to the department for an exemption certificate. The application must include the information necessary, as required by the department, to determine that a business qualifies for the exemption under this section. The department must issue exemption certificates to qualifying businesses. The department may assign a unique identification number to each exemption certificate issued under this section.

(b) A qualifying business claiming the exemption under this section must present the seller with an exemption certificate in a form and manner prescribed by the department. The seller must retain a copy of the certificate for the seller's files.

(3)(a) Within six years of the date that the department issued an exemption certificate under this section to a qualifying business with respect to an eligible computer data center, the qualifying business must establish that net employment at the eligible computer data center has increased by a minimum of:

(i) Thirty-five family wage employment positions; or

(ii) Three family wage employment positions for each twenty thousand square feet of space or less that is newly dedicated to housing working servers at the eligible computer data center. For qualifying businesses that lease or sublease space at an eligible computer data center, the number of family wage employment positions that must be increased under this subsection (3)(a)(ii) is based only on the space occupied by the lessee or sublessee in the eligible computer data center.

(b) In calculating the net increase in family wage employment positions:

(i) The owner of an eligible computer data center, in addition to its own net increase in family wage employment positions, may include:

(A) The net increase in family wage employment positions employed by qualifying businesses leasing or subleasing space within the eligible computer data center ((from the owner)); and

(B) The net increase in family wage employment positions described in (c)(ii)(B) of this subsection (3).

(ii)(A) Lessees ((of the owner)) and sublessees of space within an eligible computer data center, in addition to their own net increase in family wage employment positions, may include:

(I) A portion of the net increase in family wage employment positions employed by the owner; and

(II) A portion of the net increase in family wage employment positions described in (c)(ii)(B) of this subsection (3).

(B) The portion of the net increase in family wage employment positions to be counted under this subsection (3)(b)(ii) by each lessee or sublessee must be in proportion to the amount of space in the eligible computer data center occupied by the lessee or sublessee compared to the total amount of space in the eligible computer data center occupied by all lessees and sublessees that are qualifying businesses.

(c)(i) For purposes of this subsection, family wage employment positions are new permanent employment positions requiring forty hours of weekly work, or their equivalent, on a full-time basis at the eligible computer data center and receiving a wage equivalent to or greater than one hundred fifty percent of the per capita personal income of the county in which the qualified project is located. An employment position may not be counted as a family wage employment position unless the employment position is entitled to health insurance coverage provided by the employer of the employment position. For purposes of this subsection (3)(c), "new permanent employment position" means an employment position that did not exist or that had not previously been filled as of the date that the department issued an exemption certificate to the owner ((or)), lessee, or sublessee of an eligible computer data center, as the case may be.

(ii)(A) Family wage employment positions include positions filled by employees of the owner of the eligible computer data center and by employees of qualifying businesses leasing or subleasing space ((from the owner)) within the eligible computer data center.

(B) Family wage employment positions also include individuals performing work at an eligible computer data center as an independent contractor hired by the owner of the eligible computer data center or as an employee of an independent contractor hired by the owner of the eligible computer data center, if the work is necessary for the operation of the computer data center, such as security and building maintenance, and provided that all of the requirements in (c)(i) of this subsection (3) are met.

(d) All previously exempted sales and use taxes are immediately due and payable for a qualifying business that does not meet the requirements of this subsection.

(4) A qualifying business claiming an exemption under this section or RCW 82.12.986 must complete an annual report with the department as required under RCW 82.32.534.

(5)(a) The exemption provided in this section does not apply to:

(ii) Any person affiliated with a person within the scope of (a)(i) of this subsection (5). For purposes of this subsection, "affiliated" means that one person has a direct or indirect ownership interest of at least twenty percent in another person.
The term includes electrical substations(s); generators(s); wiring(s); cogeneration equipment; and associated fixtures and equipment, such as electrical switches, batteries, and distribution, testing, and monitoring equipment.

The term does not include the state or federal government or any of their departments, agencies, and institutions; tribal governments; political subdivisions of this state; or any municipal, quasi-municipal, public, or other corporation created by the state or federal government, tribal government, municipality, or political subdivision of the state.

(ii) The office of financial management must consider the consequences and potential mitigation of improper or failed performance by the contractor.

(iii) For each of the selected activities, the department shall use a request for information, request for proposal, or other procurement process to determine if a contract for the activity would result in the activity being provided at a reduced cost and with greater efficiency.

(iv) The request for information, request for proposal, or other procurement process must contain measurable standards for the performance of the contract.

(v) The department may contract with one or more vendors to provide the service as a result of the procurement process.

(vii) The department of enterprise services, in consultation with the office of financial management, must establish a contract monitoring process to measure contract performance, costs, service delivery quality, and other contract standards, and to cancel contracts that do not meet those standards. In addition to the programs and services examined and the result of the examination, the report shall provide information on any procurement process that does not result in a contract for the services.

The report must include additional costs or savings to taxpayers as a result of the performance audit.

(5) Make public the time and date of any formal hearing set to determine whether a violation has occurred, the question or questions to be considered, and the results thereof;

The revisions shall be only for the purpose of recognizing economic changes as reflected by an inflationary index recommended by the office of financial management. The revisions shall be guided by the change in the index for the period commencing with the month of December preceding the last revision and concluding with the month of December preceding the month the revision is adopted. As to each of the three general categories of this chapter (reports of campaign finance, reports of lobbyist activity, and reports of the financial affairs of elected and appointed officials), the revisions shall equal all thresholds within each category. Revisions shall be adopted as rules under chapter 34.05 RCW. The first revision authorized by this subsection shall reflect economic changes from the time of the last legislative enactment affecting the respective code or threshold through December 1985; and (12) Develop and provide to filers a system for certification of reports required under this chapter which are transmitted by facsimile or electronically to the commission. Implementation of the program is contingent on the availability of funds. Sec. 448. (b) The commissioner's determination under (a) of this subsection is discretionary with the commissioner and is not subject to appeal.

(c) If the insurer to be examined is part of an insurance holding company system, the commissioner may also seek to simultaneously examine any affiliates of the insurer under common control and management which are licensed to write the same lines of business in this state.

(3) Before commencement of a market conduct examination, market conduct oversight personnel shall prepare a work plan consisting of the following:

The request for review shall specifically describe the alleged conflict of interest in the proposed assignment of any person to the examination.

(b) Within five business days of receiving a request for discretionary review of any alleged conflict of interest in the proposed assignment of any person to a market conduct examination, the commissioner or designee shall notify the insurer of any action regarding the assignment of personnel to a market conduct examination based on the insurer's allegation of conflict of interest.

(5) Market conduct examinations shall, to the extent feasible, use desk examinations and data requests before an on-site examination.

(10) The commissioner shall conduct a preexamination conference with the insurer examination coordinator and key personnel to clarify expectations at least thirty days before commencement of the examination, unless otherwise agreed by the insurer and the commissioner.

(11) Before the conclusion of the field work for market conduct examination, the examiner-in-charge shall review examination findings to date with insurer personnel and schedule an exit conference with the insurer, in accordance with procedures in the NAIC market regulation handbook.

(12)(a) No later than sixty days after completion of each market conduct examination, the commissioner shall make a full written report of each market conduct examination containing only facts ascertained from the accounts, records, and documents examined and from the sworn testimony of individuals, and such conclusions and recommendations as may reasonably be warranted from such facts.

(b) The report shall be certified by the commissioner or by the examiner-in-charge of the examination, and shall be filed in the commissioner’s office subject to (c) of this subsection.

(c) The commissioner shall furnish a copy of the market conduct examination report to the person examined not less than ten days and, unless the time is extended by the commissioner, not more than thirty days prior to the filing of the report for public inspection in the commissioner’s office. If the person so requests in writing within such period, the commissioner shall hold a hearing to consider objections of such person to the report as proposed, and shall not so file the report until after such hearing and until after any modifications in the report deemed necessary by the commissioner have been made.

(d) Within thirty days of the end of the period described in (c) of this subsection, unless extended by order of the commissioner, the commissioner shall consider the report, together with any written submissions or rebuttals and any relevant portions of the examiner’s work papers and enter an order:

(i) Adopting the market conduct examination report as filed or with modification or corrections. (ii) Rejecting the market conduct examination report with directions to the examiners to reopen the examination for purposes of obtaining additional data, documentation, or information, and refiling under this subsection; or

(e) All orders entered under (d) of this subsection must be accompanied by findings and conclusions resulting from the commissioner’s consideration and review of the market conduct examination report, relevant examiner work papers, and any written submissions or rebuttals. The order is considered a final administrative decision and may be appealed under the administrative procedure act, chapter 34.05 RCW, and must be served upon the company by certified mail or certifiable electronic means, together with a copy of the adopted examination report. A copy of the adopted examination report must be sent by certified mail or certifiable electronic means to each director at the director’s residential address or to a personal e-mail account.

(f)(i) Upon the adoption of the market conduct examination report under (d) of this subsection, the commissioner shall continue to hold the content of the examination report as private and confidential information for a period of five days except that the order may be disclosed to the person examined. Thereafter, the commissioner may open the report for public inspection so long as no court of competent jurisdiction has stayed its publication.

(ii) If the commissioner determines that regulatory action is appropriate as a result of any market conduct examination, he or she may initiate any proceedings or actions as provided by law.

(iii) Nothing contained in this subsection requires the commissioner to disclose any information or records that would indicate or show the existence or content of any investigation or activity of a criminal justice agency.

(g) The insurer’s response shall be included in the commissioner’s order adopting the final report as an exhibit to the order. The insurer is not obligated to submit a response.

(13) The commissioner may withhold from public inspection any examination or investigation report for so long as he or she deems it advisable.

(14)(a) Market conduct examinations within this state of any insurer domiciled or having its home offices in this state, other than a title insurer, made by the commissioner or the commissioner’s examiners and employees shall, except as to fees, mileage, and expense incurred as to witnesses, be at the expense of the state.

(b) Every other examination, whatever, or any part of the market conduct examination of any person domiciled or having its home offices in this state requiring travel and services outside this state, shall be made by the commissioner or by examiners designated by the commissioner and shall be at the expense of the person examined; but a domestic insurer shall not be liable for the compensation of examiners employed by the commissioner for such services outside this state.

(c) When making a market conduct examination under this chapter, the commissioner may contract, in accordance with applicable state contracting procedures, for qualified attorneys, appraisers, independent certified public accountants, contract actuaries, and other similar individuals who are independently practicing their professions, even though those persons may from time to time be similarly employed or retained by persons subject to examination under this chapter, as examiners as the commissioner deems necessary for the efficient conduct of a particular examination. The compensation and per diem allowances paid to such contract persons shall be reasonable in the market and time incurred, shall not exceed one hundred twenty-five percent of the compensation and per diem allowances for examiners set forth in the guidelines adopted by the national association of insurance commissioners, unless the commissioner demonstrates that one hundred twenty-five percent is inadequate under the circumstances of the examination, and subject to the provisions of (a) of this subsection.

(d) (d)(i) The person examined and liable shall reimburse the state upon presentation of an itemized statement thereof, for the actual travel expenses of the commissioner's examiners, their reasonable living expenses allowance, and their per diem compensation, including salary and the employer's cost of employee benefits, at a reasonable rate approved by the commissioner, incurred on account of the examination. Per diem, salary, and expenses for employees examining insurers domiciled outside the state of Washington shall be established by the commissioner on the basis of the national association of insurance commissioners, unless the commissioner demonstrates that one hundred twenty-five percent is inadequate under the circumstances of the examination, and subject to the provisions of (a) of this subsection.

Per diem, salary, and expenses for employees examining insurers domiciled outside the state of Washington shall be established by the commissioner on the basis of the national association of insurance commissioners, unless the commissioner demonstrates that one hundred twenty-five percent is inadequate under the circumstances of the examination, and subject to the provisions of (a) of this subsection.

(d)(iii) Nothing contained in this subsection requires the commissioner to disclose any information or records that would indicate or show the existence or content of any investigation or activity of a criminal justice agency.

(g) The insurer’s response shall be included in the commissioner’s order adopting the final report as an exhibit to the order. The insurer is not obligated to submit a response.

(13) The commissioner may withhold from public inspection any examination or investigation report for so long as he or she deems it advisable.

(14) (a) Market conduct examinations within this state of any insurer domiciled or having its home offices in this state, other than a title insurer, made by the commissioner or the commissioner’s examiners and employees shall, except as to fees, mileage, and expense incurred as to witnesses, be at the expense of the state.

(b) Every other examination, whatever, or any part of the market conduct examination of any person domiciled or having its home offices in this state requiring travel and services outside this state, shall be made by the commissioner or by examiners designated by the commissioner and shall be at the expense of the person examined; but a domestic insurer shall not be liable for the compensation of examiners employed by the commissioner for such services outside this state.

(c) When making a market conduct examination under this chapter, the commissioner may contract, in accordance with applicable state contracting procedures, for qualified attorneys, appraisers, independent certified public accountants, contract actuaries, and other similar individuals who are independently practicing their professions, even though those persons may from time to time be similarly employed or retained by persons subject to examination under this chapter, as examiners as the commissioner deems necessary for the efficient conduct of a particular examination. The compensation and per diem allowances paid to such contract persons shall be reasonable in the market and time incurred, shall not exceed one hundred twenty-five percent of the compensation and per diem allowances for examiners set forth in the guidelines adopted by the national association of insurance commissioners, unless the commissioner demonstrates that one hundred twenty-five percent is inadequate under the circumstances of the examination, and subject to the provisions of (a) of this subsection.

(d)(ii) The person examined and liable shall reimburse the state upon presentation of an itemized statement thereof, for the actual travel expenses of the commissioner's examiners, their reasonable living expenses allowance, and their per diem compensation, including salary and the employer's cost of employee benefits, at a reasonable rate approved by the commissioner, incurred on account of the examination. Per diem, salary, and expenses for employees examining insurers domiciled outside the state of Washington shall be established by the commissioner on the basis of the national association of insurance commissioners, unless the commissioner demonstrates that one hundred twenty-five percent is inadequate under the circumstances of the examination, and subject to the provisions of (a) of this subsection.

(d)(iii) Nothing contained in this subsection requires the commissioner to disclose any information or records that would indicate or show the existence or content of any investigation or activity of a criminal justice agency.

(g) The insurer’s response shall be included in the commissioner’s order adopting the final report as an exhibit to the order. The insurer is not obligated to submit a response.
(e) Nothing contained in this chapter limits the commissioner’s authority to terminate or suspend any examination in order to pursue other legal or regulatory action under the insurance laws of this state. Findings of fact and conclusions made pursuant to any examination are prima facie evidence in any legal or regulatory action.

(f) The commissioner shall maintain active management and oversight of market conduct examination costs, including costs associated with the commissioner’s own examiners, and with retaining qualified contract examiners necessary to perform an examination. Any agreement with a contract examiner shall:
(i) Clearly identify the types of functions to be subject to outsourcing;

Sec. 463. RCW 49.74.020 and 1993 c 281 s 57 are each amended to read as follows:

If the commission reasonably believes that a state agency, an institution of higher education, or the state patrol has failed to comply with an affirmative action rule adopted under RCW 41.06.150 or 43.34.340, the commission shall notify the director of the state agency, president of the institution of higher education, or chief of the Washington state patrol of the noncompliance, as well as the human resources director. The commission shall give the director of the state agency, president of the institution of higher education, or chief of the Washington state patrol an opportunity to be heard on the failure to comply.

Sec. 464. RCW 49.74.030 and 2002 c 354 s 246 are each amended to read as follows:

The commission in conjunction with the department of enterprise services, the office of financial management, or the state patrol, whichever is appropriate, shall attempt to resolve the noncompliance through conciliation. If an agreement is reached for the elimination of noncompliance, the agreement shall be reduced to writing and an order shall be issued by the commission setting forth the terms of the agreement. The noncomplying state agency, institution of higher education, or state patrol shall make a good faith effort to conciliate and make a full commitment to correct the noncompliance with any action that may be necessary to achieve compliance, provided such action is not inconsistent with the rules adopted under RCW 41.06.150(4)(c)(f) and 43.34.340(5), whichever is appropriate.

Sec. 465. RCW 49.90.010 and 2009 c 294 s 5 are each amended to read as follows:

(1) Within this section, "sensory disability" means a sensory condition that materially limits, contributes to limiting, or, if not corrected or accommodated, will probably result in limiting an individual's activities or functioning.

(2) The (department of personnel) office of financial management shall adopt rules that authorize state agencies to provide allowances to employees with sensory disabilities who must attend training necessary to attain a new service animal. The employee's absence must be treated in the same manner as that granted to employees who are absent to attend training that supports or improves their job performance, except that the employee shall not be eligible for reimbursement under RCW 43.03.050 or 43.03.060. The (department of personnel) office of financial management shall adopt rules as necessary to implement this chapter.

(3) If the necessity to attend training for a new service animal is foreseeable and the training will cause the employee to miss work, the employee shall provide the employer with not less than thirty days' notice, before the date the absence is to begin, of the employee's impending absence. If the date of the training requires the absence to begin in less than thirty days, the employee shall provide notice as is practicable.

(4) An agency may require that a request to attend service animal training be supported by a certification issued by the relevant training organization. The employee must provide, in a timely manner, a copy of the certification to the agency. Certification provided under this section is sufficient if it states: (a) The date on which the service animal training session is scheduled to commence; and (b) the session's duration.

Sec. 466. RCW 50.13.060 and 2008 c 120 s 6 are each amended to read as follows:

(1) Governmental agencies, including law enforcement agencies, prosecuting agencies, and the executive branch, whether state, local, or federal shall have access to information or records deemed private and confidential under this chapter if the information or records are needed by the agency for official purposes and:

(a) The agency submits an application in writing to the employment security department for the records or information containing a statement of the official purposes for which the information or records are needed and specific identification of the records or information sought from the department; and
(b) The director, commissioner, chief executive, or other official of the agency has verified the need for the specific information in writing either on the application or on a separate document; and

(c) The agency requesting access has served a copy of the application for records or information on the individual or employing unit whose records or information are sought and has provided the department with proof of service. Service shall be made in a manner which conforms to the civil rules for superior court. The requesting agency shall include with the copy of the application a statement to the effect that the individual or employing unit may contact the public records officer of the employment security department to state any objections to the release of the records or information. The employment security department shall not act upon the application of the requesting agency until at least five days after service on the concerned individual or employing unit. The employment security department shall consider any objections raised by the concerned individual or employing unit in deciding whether the requesting agency needs the information or records for official purposes.

(2) The requirements of subsections (1) and (9) of this section shall not apply to the state legislative branch. The state legislative branch shall have access to information or records deemed private and confidential under this chapter, if the legislature or a legislative committee finds that the information or records are necessary and for official purposes. If the employment security department does not make information or records available as provided in this subsection, the legislature may exercise its authority granted by chapter 44.16 RCW.

(3) In cases of emergency the governmental agency requesting access shall not be required to formally comply with the provisions of subsection (1) of this section at the time of the request if the procedures required by subsection (1) of this section are complied with by the requesting agency following the receipt of any records or information deemed private and confidential under this chapter. An emergency is defined as a situation in which irreparable harm or damage could occur if records or information are not released immediately.

(4) The requirements of subsection (1)(c) of this section shall not apply to governmental agencies where the procedures would frustrate the investigation of possible violations of criminal laws or to the release of employing unit names, addresses, number of employees, and aggregate employer wage data for the purpose of state governmental agencies preparing small business economic impact statements under chapter 19.85 RCW or preparing cost-benefit analyses under RCW 34.05.328(1)(c) and (d). Information provided by the department and held to be private and confidential under state or federal laws must not be misused or released to unauthorized parties. A person who misuses such information or releases such information to unauthorized parties is subject to the sanctions in RCW 34.05.328.

(5) Governmental agencies shall have access to certain records or information, limited to such items as names, addresses, social security numbers, and general information about benefit entitlement or employer information possessed by the department, for comparison purposes with records or information possessed by the requesting agency to detect improper or fraudulent claims, or to determine potential tax liability or employer compliance with registration and licensing requirements. In those cases the governmental agency shall not be required to comply with subsection (1)(c) of this section, but the requirements of the remainder of subsection (1) of this section must be satisfied.

(6) Governmental agencies may have access to certain records and information, limited to employer information possessed by the department for purposes authorized in chapter 50.38 RCW. Access to these records and information is limited to only those individuals conducting authorized statistical analysis, research, and evaluation studies. Only in cases consistent with the purposes of chapter 50.38 RCW are government agencies not required to comply with subsection (1)(c) of this section, but the requirements of the remainder of subsection (1) of this section must be satisfied. Information provided by the department and held to be private and confidential under state or federal laws shall not be misused or released to unauthorized parties subject to the sanctions in RCW 50.13.080.

(7) Disclosure to governmental agencies of information or records obtained by the employment security department from the federal government shall be governed by any applicable federal law or any agreement between the federal government and the employment security department where so required by federal law. When federal law does not apply to the records or information state shall control.

(8) The department may provide information for purposes of statistical analysis and evaluation of the WorkFirst program or any successor state welfare program to the department of social and health services, the office of financial management, and other governmental entities with oversight or evaluation responsibilities for the program in accordance with RCW 43.20A.080. The confidential information provided by the department shall remain the property of the department and may be used by the authorized requesting agencies only for statistical analysis, research, and evaluation purposes as provided in RCW 74.08A.410 and 74.08A.420. The department of social and health services, the office of financial management, or other governmental entities with oversight or evaluation responsibilities for the program are not required to comply with subsection (1)(c) of this section, but the requirements of the remainder of subsection (1) of this section and applicable federal laws and regulations must be satisfied. The confidential information used for evaluation and analysis of welfare reform supplied to the authorized requesting entities with regard to the WorkFirst program or any successor state welfare program are exempt from public inspection and copying under chapter 42.56 RCW.

(9) The disclosure of any records or information by a governmental agency which has obtained the records or information under this section is prohibited unless the disclosure is (a) directly connected to the official purpose for which the records or information were obtained or (b) to another governmental agency which would be permitted to obtain the records or information under subsection (4) or (5) of this section.

(10) In conducting periodic salary or fringe benefit studies pursuant to law, the office of financial management shall have access to records of the employment security department as may be required for such studies. For such purposes, the requirements of subsection (1)(c) of this section need not apply.

(11)(a) To promote the reemployment of job seekers, the commission may enter into data-sharing contracts with partners of the one-stop career development system. The contracts shall provide for the transfer of data only to the extent that the transfer is necessary for the efficient provisions of workforce programs, including but not limited to public labor exchange, unemployment insurance, worker training and retraining, vocational rehabilitation, vocational education, adult education, transition from public assistance, and support services. The transfer of information under contracts with one-stop partners is exempt from subsection (1)(c) of this section.

(b) An individual who applies for services from the department and whose information will be shared under (a) of this subsection (11) must be notified that his or her private and confidential information in the department's records will be shared among the one-stop partners to facilitate the delivery of one-stop services to the individual. The notice must advise the individual that he or she may request that private and confidential information not be shared among the one-stop partners and the department must honor the request. In addition, the notice must:
(i) Advise the individual that if he or she requests that private and confidential information not be shared among one-stop partners, the request will in no way affect eligibility for services;
(ii) Describe the nature of the information to be shared, the general use of the information by one-stop partner representatives, and among whom the information will be shared;
(iii) Inform the individual that shared information will be used only for the purpose of delivering one-stop services and that further disclosure of the information is prohibited under contract and is not subject to disclosure under chapter 42.56 RCW; and
(iv) Be provided in English and an alternative language selected by the one-stop center or job service center as appropriate for the community where the center is located.

If the notice is provided in-person, the individual who does not want private and confidential information shared among the one-stop partners must immediately advise the one-stop partner representative of that decision. The notice must be provided to an individual who applies for services telephonically, electronically, or by mail, in a suitable format and within a reasonable time after applying for services, which shall be no later than ten working days from the department's receipt of the application for services. A one-stop representative must be available to answer specific questions regarding the nature, extent, and purpose for which the information may be shared.

(12) To facilitate improved operation and evaluation of state programs, the commissioner may enter into data-sharing contracts with other state agencies only to the extent that such transfer is necessary for the efficient operation or evaluation of outcomes for those programs. The transfer of information by contract under this subsection is exempt from subsection (1)(c) of this section.

(13) The misuse or unauthorized release of records or information by any person or organization to which access is permitted by this chapter subjects the person or organization to a civil penalty of five thousand dollars and other applicable sanctions under state and federal law. Suit to enforce this section shall be brought by the attorney general and the amount of any penalties collected shall be paid into the employment security department administrative contingency fund. The attorney general may recover reasonable attorneys' fees for any action brought to enforce this section.

Sec. 468. RCW 28A.400.201 and 2010 c 236 s 7 are each amended to read as follows:

(1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intention of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of the superintendent of public instruction, in collaboration with the human resources director in the office of financial management, shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

(a) How to reduce the number of tiers within the existing salary allocation model;
(b) How to account for labor market adjustments;
(c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;
(d) The role of and types of bonuses available;
(e) Ways to accomplish salary equalization over a set number of years; and
(f) Initial fiscal estimates for implementing the recommendations including a recognition that staff on the existing salary allocation model would have the option to grandfather in permanently to the existing schedule.

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, "salaries and other compensation" includes average base salaries, average total salaries, average employee basic benefits, and retirement benefits.

(4) The analysis required under subsection (1) of this section must:

(a) Examine salaries and other compensation for teachers, other certificated instructional staff, principals, and other building-level certificated administrators, and the types of classified employees for whom salaries are allocated;
(b) Be calculated at a statewide level that identifies labor markets in Washington through the use of data from the United States bureau of the census and the bureau of labor statistics; and
(c) Include a comparison of salaries and other compensation to the appropriate labor market for at least the following subgroups of educators: Beginning teachers and types of educational staff associates.

(5) The working group shall include representatives of the ((department of personnel)) office of financial management, the professional educator standards board, the office of the superintendent of public instruction, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with appropriate expertise in compensation related matters. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(6) The working group shall be monitored and overseen by the legislature and the quality education council created in RCW 28A.290.010. The working group shall make an initial report to the legislature by June 30, 2012, and shall include in its report recommendations for whether additional further work of the group is necessary.

To assist each assessor in obtaining adequate and well qualified assistants or deputies, the ((state department of personnel)) office of financial management, after consultation with the Washington state association of county assessors, the Washington state association of counties, and the department of revenue, shall establish by July 1, 1967, and shall thereafter maintain, a classification and salary plan for the employees of an assessor who act as appraisers. The plan shall recommend the salary range and employment qualifications for each position encompassed by it, and shall, to the fullest extent practicable, conform to the classification plan, salary schedules and employment qualifications for state employees performing similar appraisal functions.

An assessor who intends to put such plan into effect shall inform the department of revenue and the county legislative authority of this intent in writing. The department of revenue and the county legislative authority may thereupon each designate a representative, and such representative or representatives as may be designated by the department of revenue or the county legislative authority, or both, shall form with the assessor a committee. The committee so formed may, by unanimous vote only, determine the required number of certified appraiser positions and their salaries necessary to enable the assessor to carry out the requirements relating to revaluation of property in chapter 84.41 RCW. The determination of the committee shall be certified to the county legislative authority. The committee may be formed only once in a period of four calendar years.

After such determination, the assessor may provide, in each of the four next succeeding annual budget estimates, for as many positions as are established in such determination. Each county legislative authority to which such a budget estimate is submitted shall allow sufficient funds for such positions. An employee may be appointed to a position covered by the plan only if the employee meets the employment qualifications established by the plan.

Prior to retiring, such members who elect to retire shall sign a statement acknowledging their receipt and understanding of the information.

The claim shall be supported by appropriate verification, such as the person's name at the time of the dismissal, the name of the employing department, and a social security number, or by evidence of official action of termination. The claimant shall also provide an address to which the department shall mail notification of its determination regarding the claimant's eligibility.

Sec. 475. RCW 41.68.040 and 1983 1st ex.s. c 15 s 4 are each amended to read as follows:

The department's financial incentive program must be reviewed and approved by the legislature before it can be implemented. This program must support the goal of enhancing project delivery timelines as outlined in section 101, chapter 363, Laws of 2003. Upon receiving approval from the legislature, the ((department of personnel)) office of financial management shall
implement, as required, specific aspects of the financial incentive package, as developed by the department of transportation.

(2) Notwithstanding chapter 41.06 RCW, the department of transportation may acquire services from qualified private firms in order to deliver the transportation construction program to the public. Services may be acquired solely for augmenting the department's workforce capacity and only when the department's transportation construction program cannot be delivered through its existing or readily available workforce. The department of transportation shall work with representatives of transportation labor groups to develop and implement a program identifying those projects requiring contracted services while establishing a program as defined in subsection (1) of this section to provide the classified personnel necessary to deliver future construction programs. The procedures for acquiring construction engineering services from private firms may not be used to displace existing state employees nor diminish the number of existing classified positions in the present construction program. The acquisition procedures must be in accordance with chapter 39.80 RCW.

(3) Starting in December 2004, and biennially thereafter, the secretary shall report to the transportation committees of the legislature on the use of construction engineering services from private firms authorized under this section. PART VII

CREATING THE OFFICE OF THE CHIEF INFORMATION OFFICER

NEW SECTION. Sec. 701. Information technology is a tool used by state agencies to improve their ability to deliver public services efficiently and effectively. Advances in information technology - including advances in hardware, software, and business processes for implementing and managing these resources - offer new opportunities to improve the level of support provided to citizens and state agencies and to reduce the per-transaction cost of these services. These advances are one component in the process of reengineering how government delivers services to citizens.

To fully realize the service improvements and cost efficiency from the effective application of information technology to its business processes, state government must establish decision-making structures that connect business processes and information technology in an operating model. Many of these business practices transcend individual agency processes and should be worked at the enterprise level. To do this requires an effective partnership of executive management, business processes owners, and providers of support functions necessary to efficiently and effectively deliver services to citizens.

To maximize the potential for information technology to contribute to government business process reengineering the state must establish clear central authority to plan, set enterprise standards, and provide project oversight and management analysis of the various aspects of a business process.

Establishing the office of the chief information officer and partnering it with the director of financial management will provide state government with the cohesive structure necessary to develop improved operating models with agency directors and reengineer business process to enhance service delivery while capturing savings.

NEW SECTION. Sec. 702. (1) The office of the chief information officer is created within the office of financial management.

(2) Powers, duties, and functions assigned to the department of information services as specified in this chapter shall be transferred to the office of the chief information officer as provided in this chapter.

(3) The primary duties of the office are:

(a) To prepare and lead the implementation of a strategic direction and enterprise architecture for information technology for state government;
(b) To enable the standardization and consolidation of information technology infrastructure across all state agencies to support enterprise-based system development and improve and maintain service delivery;
(c) To establish standards and policies for the consistent and efficient operation of information technology services throughout state government;
(d) To establish statewide enterprise architecture that will serve as the organizing standard for information technology for state agencies;
(e) Educate and inform state managers and policymakers on technological developments, industry trends and best practices, industry benchmarks that strengthen decision making and professional development, and industry understanding for public managers and decision makers.

(4) In the case of institutions of higher education, the powers of the office and the provisions of this chapter apply to business and administrative applications but do not apply to (a) academic and research applications; and (b) medical, clinical, and health care applications, including the business and administrative applications for such operations. However, institutions of higher education must disclose to the office any proposed academic applications that are enterprise-wide in nature relative to the needs and interests of other institutions of higher education.

(5) The legislature and the judiciary, which are constitutionally recognized as separate branches of government, are strongly encouraged to coordinate with the office and participate in shared services initiatives and the development of enterprise-based strategies, where appropriate.

NEW SECTION. Sec. 703. (1) The executive head and appointing authority of the office is the chief information officer. The chief information officer shall be appointed by the governor, subject to confirmation by the senate. The chief information officer shall serve at the pleasure of the governor. The chief information officer shall be paid a salary fixed by the governor. If a vacancy occurs in the position of the chief information officer while the senate is not in session, the governor shall make a temporary appointment until the next meeting of the senate at which time he or she shall present to that body his or her nomination for the position.

(2) The chief information officer may employ staff members, some of whom may be exempt from chapter 41.06 RCW, and any additional staff members as are necessary to administer this chapter, and such other duties as may be authorized by law. The chief information officer may delegate any power or duty vested in him or her by this chapter or other law.

(3) The internal affairs of the office shall be under the control of the chief information officer in order that the chief information officer may manage the office in a flexible and intelligent manner as dictated by changing contemporary circumstances. Unless specifically limited by law, the chief information officer shall have complete charge and supervisory powers over the office. The chief information officer may create such administrative structures as the chief information officer deems appropriate, except as otherwise specified by law, and the chief information officer may employ staff members as may be necessary in accordance with chapter 41.06 RCW, except as otherwise provided by law.

NEW SECTION. Sec. 704. The chief information officer shall:
(1) Supervise and administer the activities of the office of the chief information officer;

PORTFOLIO MANAGEMENT

NEW SECTION, Sec. 708. Management of information technology across state government requires managing resources and business processes across multiple agencies. It is no longer sufficient to pursue efficiencies within agency or individual business process boundaries. The state must manage the business process changes and information technology in support of business processes as a statewide portfolio. The chief information officer will use agency information technology portfolio planning as input to develop a statewide portfolio to guide resource allocation and prioritization decisions.

NEW SECTION, Sec. 709. An agency information technology portfolio shall serve as the basis for making information technology decisions and plans which may include, but are not limited to:

(1) System refurbishment, acquisitions, and development efforts;

(2) Setting goals and objectives for using information technology;

(3) Assessments of information processing performance, resources, and capabilities;

(4) Ensuring the appropriate transfer of technological expertise for the operation of new systems developed using external resources;

(5) Guiding new investment demand, prioritization, selection, performance, and asset value of technology and telecommunications; and

(6) Progress toward providing electronic access to public information.

NEW SECTION, Sec. 710. (1) Each agency shall develop an information technology portfolio consistent with RCW 43.105.172 (as recodified by this act).    (c) An explanation of how the agency's mission, goals, and objectives for information technology support and conform to the state strategic information technology plan developed under section 707 of this act;
   (d) An implementation strategy to provide electronic access to public records and information. This implementation strategy must be assembled to include:
      (i) Compliance with Title 40 RCW;
      (ii) Adequate public notice and opportunity for comment;
      (iii) Consideration of a variety of electronic technologies, including those that help transcend geographic locations, standard business hours, economic conditions of users, and disabilities;
      (iv) Methods to educate both state employees and the public in the effective use of access technologies;
      (e) Projects and resources required to meet the objectives of the portfolio; and
      (f) Where feasible, estimated schedules and funding required to implement identified projects.
   (3) Portfolios developed under subsection (1) of this section shall be submitted to the office for review and approval. The chief information officer may reject, require modification to, or approve portfolios as deemed appropriate. Portfolios submitted under this subsection shall be updated and submitted for review and approval as necessary.

   (5) The office shall establish standards, elements, form, and format for plans and reports developed under this section.
   (6) Agency activities to increase electronic access to public records and information, as required by this section, must be implemented within available resources and existing agency planning processes.
   (7) The office may exempt any agency from any or all of the requirements of this section.

BUDGET REVIEW

NEW SECTION. Sec. 711. (1) At the request of the director of financial management, the office shall evaluate both state agency information technology current spending and technology budget requests, including those proposed by the superintendent of public instruction, in conjunction with educational service districts, or statewide or regional providers of K-12 education information technology services. The office shall submit recommendations for funding all or part of such requests to the director of financial management. The office shall also submit recommendations regarding consolidation and coordination of similar proposals or other efficiencies it finds in reviewing proposals.

(1) The office shall establish standards and policies governing the planning, implementation, and evaluation of major information technology projects, including those proposed by the superintendent of public instruction, in conjunction with educational service districts, or statewide or regional providers of K-12 education information technology services. The standards and policies shall:

   (a) Establish criteria to identify projects which are subject to this section. Such criteria shall include, but not be limited to, significant anticipated cost, complexity, or statewide significance of the project; and
   (b) Establish a model process and procedures which state agencies shall follow in developing and implementing projects within their information technology portfolios. This process may include project oversight experts or panels, as appropriate. Agencies may propose, for approval by the office, a process and procedures unique to the agency. The office may accept or require modification of such agency proposals or the office may reject such agency proposals and require use of the model process and procedures established under this subsection. Any process and procedures developed under this subsection shall require (i) distinct and identifiable phases upon which funding may be based, (ii) user validation of products through system demonstrations and testing of prototypes and deliverables, and (iii) other elements identified by the office.

   The chief information officer may suspend or terminate a major project, and direct that the project funds be placed into unallotted reserve status, if the chief information officer determines that the project is not meeting or is not expected to meet anticipated performance standards.

(2) The office of financial management shall establish policies and standards consistent with portfolio-based information technology management to govern the funding of projects developed under this section. The policies and standards shall provide for:

   (a) Funding of a project under terms and conditions mutually agreed to by the chief information officer, the director of financial management, and the head of the agency proposing the project. However, the office of financial management may require incremental funding of a project on a phase-by-phase basis whereby funds for a given phase of a project may be released only when the office of financial management determines, with the advice of the office, that the previous phase is satisfactorily completed; and
   (b) Other elements deemed necessary by the office of financial management.

NEW SECTION. Sec. 713. (3) In reviewing a proposal, the office must determine whether the product or service is consistent with:

(a) The standards and policies developed by the office pursuant to section 706 of this act; and

(b) The state's enterprise-based strategy.

(4) If a substantially similar product or service is offered by the consolidated technology services agency established in RCW 43.105.047, the office may require the agency to procure the product or service through the consolidated technology services agency, if doing so would benefit the state as an enterprise.

(5) The office shall provide guidance to agencies as to what threshold of information technology spending constitutes a major information technology product or service under this section. If the total cost of ownership of a proposed information technology product or service exceeds ten million dollars, the office shall require that the agency conduct an independent technical and financial analysis of the product or service prior to submitting a technology budget request to the office of financial management for inclusion in any proposed capital, operating, or transportation budget.

**ENTERPRISE ARCHITECTURE**

**NEW SECTION.** Sec. 714. (1) The office shall develop an enterprise-based strategy for information technology in state government informed by portfolio management planning and information technology expenditure information collected from state agencies pursuant to RCW 43.88.092.

Plan 3 provides a combination of defined contribution and defined benefit pension, which will be available for newly hired employees. The legislature also intends to reduce the expanded postretirement employment provisions for members of the public employees' retirement system and the teachers' retirement system plans 1 that were temporarily expanded due to the shortage of qualified workers in particular teaching and public employment categories, and eliminate postretirement employment exceptions that existed for annuity or retirement income plan-covered positions that have been the subject of abuse.

(2) By June 30, 2013, and every two years thereafter, each institution of higher education that is responsible for payment of supplemental amounts under RCW 28B.10.400(1)(c) shall contract with the state actuary under chapter 41.44 RCW for an actuarial valuation of their supplemental benefit plan. By June 30, 2013, and at least once every six years thereafter, each institution shall also contract with the state actuary under chapter 41.44 RCW for an actuarial experience study of the mortality, service, compensation, and other experience of the annuity or retirement income plans created in this chapter, and into the financial condition of each system. At the discretion of the state actuary, the valuation or experience study may be performed by the state actuary or by an outside actuarial firm under contract to the office of the state actuary. Each institution of higher education is required to provide the data and information required for the performance of the valuation or experience study to the office of the state actuary or to the actuary performing the study on behalf of the state actuary. The state actuary may charge each institution for the actual cost of the valuation or experience study through an interagency agreement. Upon completion of the valuation or experience study, the state actuary shall provide copies of the study to the institution of higher education and to the select committee on pension policy and the pension funding council.

(3)(a) A higher education retirement plan supplemental benefit fund is created in the custody of the state treasurer for the purpose of funding future benefit obligations of higher education retirement plan supplemental benefits. (c) Consistent with chapter 41.50 RCW, the department of retirement systems shall collect the employer contribution rates established in this section from each state institution of higher education, and deposit those contributions into the higher education retirement plan supplemental benefit fund. The contributions made by each employer into the higher education retirement plan supplemental benefit fund and the earnings on those contributions shall be accounted for separately within the fund.

(d) Following the completion and review of the initial actuarial valuations and experience study conducted pursuant to subsection (2) of this section, the pension funding council may:

(i) Adopt and make changes to the employer contribution rate established in (a) of this subsection consistent with the procedures established in chapter 41.45 RCW. If the actuarial valuations of the higher education retirement plans of each institution contributing to the higher education retirement plan supplemental benefit fund suggest that different contribution rates are appropriate for each institution, different rates may be adopted. Rates adopted by the pension funding council are subject to revision by the legislature.

(ii) Recommend legislation that will, upon accumulation of sufficient funding in the higher education retirement plan supplemental benefit fund transfer the responsibility for making supplemental benefit payments to the department of retirement systems, and adjust employer contribution rates to reflect the transfer of responsibility.

Sec. 8. RCW 28B.10.430 and 1979 ex.s.s. c 96 s 5 are each amended to read as follows:
(1) This section applies only to those persons who are first employed by an institution of higher education in a position eligible for participation in an old age annuities or retirement income plan under this chapter prior to July 1, 2011.

Portions of a year shall be treated as fractions of a year and the decimal equivalent shall be multiplied by ten dollars. Where the benefit was adjusted at the time benefit payments to the beneficiary commenced, the minimum pension provided in this section shall be adjusted in a manner consistent with that adjustment.

((3))) (4) Notwithstanding any provision of law to the contrary, effective July 1, 1979, the monthly benefit of each person who commenced receiving a monthly benefit under this chapter as of a date no later than July 1, 1974, shall be permanently increased by a post-retirement adjustment. Such adjustment shall be calculated as follows:

(a) Monthly benefits to which this subsection and subsection ((2))) (3) of this section are both applicable shall be determined by first applying subsection ((2))) (3) of this section and then applying this subsection. The (department)) institution shall determine the total years of creditable service and the total dollar benefit base accrued as of December 31, 1978, except that this determination shall take into account only those persons to whom this subsection applies;

(b) The (department)) institution shall multiply the total benefits determined in (a) of this subsection by six percent and divide the dollar value thus determined by the total service determined in (a) of this subsection. The resultant figure shall then be a post-retirement increase factor which shall be applied as specified in (c) of this subsection;

(c) Each person to whom this subsection applies shall receive an increase which is the product of the factor determined in (b) of this subsection multiplied by the years of creditable service.

"Sec. 2. RCW 74.09.470 and 2011 1st sp.s. c . . . (2E2SHB 1738) s 21 are each amended to read as follows:

(1) Consistent with the goals established in RCW 74.09.402, through the apple health for kids program authorized in this section, the authority shall provide affordable health care coverage to children under the age of nineteen who reside in Washington state and whose family income at the time of enrollment is not greater than two hundred fifty percent of the federal poverty level as adjusted for family size and determined annually by the federal department of health and human services, and effective January 1, 2009, and only to the extent that funds are specifically appropriated therefor, to children whose family income is not greater than three hundred percent of the federal poverty level. In administering the program, the authority shall take such actions as may be necessary to ensure the receipt of federal financial participation under the medical assistance program, as codified at Title XIX of the federal social security act, the state children’s health insurance program, as codified at Title XXI of the federal social security act, and any other federal funding sources that are now available or may become available in the future. The authority and the caseload forecast council shall estimate the anticipated caseload and costs of the program established in this section.

(2) The authority shall accept applications for enrollment for children’s health care coverage; establish appropriate minimum- enrollment periods, as may be necessary; and determine eligibility based on current family income. The authority shall make eligibility determinations within the time frames for establishing eligibility for children on medical assistance, as defined by RCW 74.09.510. The application and annual renewal processes shall be designed to minimize administrative barriers for applicants and enrolled clients, and to minimize gaps in eligibility for families who are eligible for coverage. If a change in family income results in a change in the source of funding for coverage, the authority shall transfer the family members to the appropriate source of funding and notify the family with respect to any change in premium obligation, without a break in eligibility. The authority shall use the same eligibility redetermination and appeals procedures as those provided for children on medical assistance programs. The authority shall modify its eligibility renewal procedures to lower the percentage of children
failing to annually renew. The authority shall manage its outreach, application, and renewal procedures with the goals of: (a) Achieving year by year improvements in enrollment, enrollment rates, renewals, and renewal rates; (b) maximizing the use of existing program databases to obtain information related to earned and unearned income for purposes of eligibility determination and renewals, including, but not limited to, the basic food program, the child care subsidy program, federal social security administration programs, and the employment security department wage database; (c) streamlining renewal processes to rely primarily upon data matches, online submissions, and telephone interviews; and (d) implementing any other eligibility determination and renewal processes to allow the state to receive an enhanced federal matching rate and additional federal outreach funding available through the federal children’s health insurance program reauthorization act of 2009 by January 2010. The department shall advise the governor and the legislature regarding the status of these efforts by September 30, 2009. The information provided should include the status of the department’s efforts, the anticipated impact of those efforts on enrollment, and the costs associated with that enrollment.

3) To ensure continuity of care and ease of understanding for families and health care providers, and to maximize the efficiency of the program, the amount, scope, and duration of health care services provided to children under this section shall be the same as that provided to children under medical assistance, as defined in RCW 74.09.520.

4) The primary mechanism for purchasing health care coverage under this section shall be through contracts with managed health care systems as defined in RCW 74.09.522, subject to conditions, limitations, and appropriations provided in the biennial appropriations act. However, the authority shall make every effort within available resources to purchase health care coverage for uninsured children whose families have access to dependent coverage through an employer-sponsored health plan or another source when it is cost-effective for the state to do so, and the purchase is consistent with requirements of Title XIX and Title XXI of the federal social security act. To the extent allowable under federal law, the authority shall require families to enroll in available employer-sponsored coverage, as a condition of participating in the program established under this section, when it is cost-effective for the state to do so. Families who enroll in available employer-sponsored coverage under this section shall be accounted for separately in the annual report required by RCW 74.09.053.

5) (a) To reflect appropriate parental responsibility, the authority shall develop and implement a schedule of premiums for children’s health care coverage due to the authority from families with income greater than two hundred percent of the federal poverty level. For families with income greater than two hundred fifty percent of the federal poverty level, the premiums shall be established in consultation with the senate majority and minority leaders and the speaker and minority leader of the house of representatives. For children eligible for coverage under the federally funded children’s health insurance program, Title XXI of the federal social security act, premiums shall be set at a reasonable level that does not pose a barrier to enrollment. The amount of the premium shall be based upon family income and shall not exceed the premium limitations in Title XXI of the federal social security act. For children who are not eligible for coverage under the federally funded children’s health insurance program, premiums shall be set every two years in an amount no greater than the average state-only share of the per capita cost of coverage in the state-funded children’s health program. 

(b) Premiums shall not be imposed on children in households at or below two hundred percent of the federal poverty level as articulated in RCW 74.09.055.

(c) Beginning no later than January 1, 2010, the authority shall offer families whose income is greater than three hundred percent of the federal poverty level the opportunity to purchase health care coverage for their children through the programs administered under this section without an explicit premium subsidy from the state. The design of the health benefit package offered to these children should provide a benefit package substantially similar to that offered in the apple health for kids program, and may differ with respect to cost-sharing, and other appropriate elements from that provided to children under subsection (3) of this section including, but not limited to, application of preexisting conditions, waiting periods, and other design changes needed to offer affordable coverage. The amount paid by the family shall be in an amount equal to the rate paid by the state to the managed health care system for coverage of the child, including any associated and administrative costs to the state of providing coverage for the child. Any pooling of the program enrollees that results in state fiscal impact must be identified and brought to the legislature for consideration.

6) The authority shall undertake and continue a proactive, targeted outreach and education effort with the goal of enrolling children in health coverage and improving the health literacy of youth and parents. The authority shall collaborate with the department of social and health services, department of health, local public health jurisdictions, the office of the superintendent of public instruction, the department of early learning, health educators, health care providers, health carriers, community-based organizations, and parents in the design and development of this effort. The outreach and education effort shall include the following components:

(a) Broad dissemination of information about the availability of coverage, including media campaigns;

(b) Assistance with completing applications, and community-based outreach efforts to help people apply for coverage.

Community-based outreach efforts should be targeted to the populations least likely to be covered;

(c) Use of existing systems, such as enrollment information from the free and reduced-price lunch program, the department of early learning child care subsidy program, the department of health's women, infants, and children program, and the early childhood education and assistance program, to identify children who may be eligible but not enrolled in coverage;

(d) Contracting with community-based organizations and government entities to support community-based outreach efforts to help families apply for coverage. These efforts should be targeted to the populations least likely to be covered. The authority shall provide informational materials for use by government entities and community-based organizations in their outreach activities, and should identify any available federal matching funds to support these efforts;

(e) Development and dissemination of materials to engage and inform parents and families statewide on issues such as: The benefits of health insurance coverage; the appropriate use of health services, including primary care provided by health care practitioners licensed under chapters 18.71, 18.57, 18.36A, and 18.79 RCW, and emergency services; the value of a medical home, well-child services and immunization, and other preventive health services with linkages to department of health child profile efforts; identifying and managing chronic conditions such as asthma and diabetes; and the value of good nutrition and physical activity;

(f) An evaluation of the outreach and education efforts, based upon clear, cost-effective outcome measures that are included in contracts with entities that undertake components of the outreach and education effort;

(g) An implementation plan to develop online application capability that is integrated with the automated client eligibility system, and to develop data linkages with the office of the superintendent of public instruction for free and reduced-price lunch enrollment information and the department of early learning for child care subsidy program enrollment information.
(7) The authority shall take action to increase the number of primary care physicians providing dental disease preventive services including oral health screenings, risk assessment, family education, the application of fluoride varnish, and referral to a dentist as needed.

(8) The department shall monitor the rates of substitution between private-sector health care coverage and the coverage provided under this section.

The department's system of quality improvement for long-term care services shall use the following principles, consistent with applicable federal laws and regulations:

(1) The system shall be client-centered and promote privacy, independence, dignity, choice, and a home or home-like environment for consumers consistent with chapter 392, Laws of 1997.

(2) The goal of the system is continuous quality improvement with the focus on consumer satisfaction and outcomes for consumers. This includes that when conducting licensing or contract inspections, the department shall interview an appropriate percentage of residents, family members, resident case managers, and advocates in addition to interviewing providers and staff.

(3) Providers should be supported in their efforts to improve quality and address identified problems initially through training, consultation, technical assistance, and case management.

(4) The emphasis should be on problem prevention both in monitoring and in screening potential providers of service.

(5) Monitoring should be outcome based and responsive to consumer complaints and based on a clear set of health, quality of care, and safety standards that are easily understandable and have been made available to providers, residents, and other interested parties.

(6) Prompt and specific enforcement remedies shall also be implemented without delay, pursuant to RCW 74.39A.080, RCW 70.128.160, chapter 18.51 RCW, or chapter 74.42 RCW, for providers found to have delivered care or failed to deliver care resulting in problems that are serious, recurring, or uncorrected, or that create a hazard that is causing or likely to cause death or serious harm to one or more residents. These enforcement remedies may also include, when appropriate, reasonable conditions on a contract or license. In the selection of remedies, the safety, health, and well-being of residents shall be of paramount importance.

(7) All long-term care workers shall be screened through background checks in a uniform and timely manner to ensure that they do not have a criminal history that would disqualify them from working with vulnerable persons. Long-term care workers who are hired after January 1, 2014, are subject to background checks under RCW 74.39A.055. This information will be shared with the department of health in accordance with RCW 74.39A.055 to advance the purposes of chapter 2, Laws of 2009.

(8) No provider, or its staff, or long-term care worker, or prospective provider or long-term care worker, with a stipulated finding of fact, conclusion of law, an agreed order, or finding of fact, conclusion of law, or final order issued by a disciplining authority, a court of law, or entered into a state registry finding him or her guilty of abuse, neglect, exploitation, or abandonment of a minor or a vulnerable adult as defined in chapter 74.34 RCW shall be employed in the care of and have unsupervised access to vulnerable adults.

(9) The department shall establish, by rule, a state registry which contains identifying information about long-term care workers identified under this chapter who have substantiated findings of abuse, neglect, financial exploitation, or abandonment of a vulnerable adult as defined in RCW 74.34.020. The rule must include disclosure, disposition of findings, notification, findings of fact, appeal rights, and fair hearing requirements. The department shall
implement an implementation plan by December 12, 1998.

(10) Until December 31, ((2010)) 2013, individual providers and home care agency providers must satisfactorily complete department-approved orientation, basic training, and continuing education within the time period specified by the department in rule. The department shall adopt rules by March 1, 2002, for the implementation of this section. The department shall deny payment to an individual provider or a home care provider who does not complete the training requirements within the time limit specified by the department by rule.

(11) Until December 31, ((2010)) 2013, in an effort to improve access to training and education and reduce costs, especially for rural communities, the coordinated system of long-term care training and education must include the use of innovative types of learning strategies such as internet resources, videotapes, and distance learning using satellite technology coordinated through community colleges or other entities, as defined by the department.

(12) The department shall create an approval system by March 1, 2002, for those seeking to conduct department-approved training.

(13) The department shall establish, by rule, background checks and other quality assurance requirements for long-term care workers who provide in-home services funded by Medicaid personal care as described in RCW 74.09.520, community options program entry system waiver services as described in RCW 74.39A.030, or chore services as described in RCW 74.39A.110 that are equivalent to requirements for individual providers. Long-term care workers who are hired after January 1, ((2012)) 2014, are subject to background checks under RCW 74.39A.055.

(14) Under existing funds the department shall establish internally a quality improvement standards committee to monitor the development of standards and to suggest modifications.

(15) Within existing funds, the department shall design, develop, and implement a long-term care training program that is flexible, relevant, and qualifies towards the requirements for a nursing assistant certificate as established under chapter 18.88A RCW. This subsection does not require completion of the nursing assistant certificate training program by providers or their staff. The long-term care teaching curriculum must consist of a fundamental module, or modules, and a range of other available relevant training modules that provide the caregiver with appropriate options that assist in meeting the resident's care needs. Some of the training modules may include, but are not limited to, specific training on the special care needs of persons with developmental disabilities, dementia, mental illness, and the care needs of the elderly. No less than one training module must be dedicated to workplace violence prevention. The nursing care quality assurance commission shall work together with the department to develop the curriculum modules. The nursing care quality assurance commission shall direct the nursing assistant training programs to accept some or all of the skills and competencies from the curriculum modules towards meeting the requirements for a nursing assistant certificate as defined in chapter 18.88A RCW. A process may be developed to test persons completing modules from a caregiver's class to verify that they have the transferable skills and competencies for entry into a nursing assistant training program. The department may review whether facilities can develop their own related long-term care training programs. The department may develop a review process for determining what previous experience and training may be used to waive some or all of the mandatory training. The department of social and health services and the nursing care quality assurance commission shall work together to develop an implementation plan by December 12, 1998.

These background checks shall include checking against the federal bureau of investigation fingerprint identification records system and against the national sex offenders registry or their successor programs. The department shall require these long-term care workers to submit fingerprints for the purpose of investigating conviction records through both the Washington state patrol and the federal bureau of investigation.

(3) Each area agency on aging shall retain a record of each waiver of services included in a plan of care under this section.

(4) Each consumer has the right to direct and participate in the development of their plan of care to the maximum practicable extent of their abilities and desires, and to be provided with the time and support necessary to facilitate that participation.

(7) If the department or area agency on aging case manager finds that an individual provider’s inadequate performance or inability to deliver quality care is jeopardizing the health, safety, or well-being of a consumer receiving service under this section, the department or the area agency on aging may take action to terminate the contract between the department and the individual provider. If the department or the area agency on aging has a reasonable, good faith belief that the health, safety, or well-being of a consumer is in imminent jeopardy, the department or area agency on aging may summarily suspend the contract pending a fair hearing. The consumer may request a fair hearing to contest the planned action of the case manager, as provided in chapter 34.05 RCW. The consumer may request a fair hearing to contest the decision of the case manager, as provided in chapter 34.05 RCW. The department may by rule adopt guidelines for implementing this subsection.

(2) Prompt and specific enforcement remedies shall also be implemented without delay, consistent with RCW 18.20.190, for facilities found to have delivered care or failed to deliver care resulting in problems that are serious, recurring, or uncorrected, or that create a hazard that is causing or likely to cause death or serious harm to one or more residents. These enforcement remedies may also include, when appropriate, reasonable conditions on a license. In the selection of remedies, the safety, health, and well-being of residents shall be of paramount importance.

(a) To the extent funding is available, the licensee, administrator, and their staff should be screened through background checks in a uniform and timely manner to ensure that they do not have a criminal history that would disqualify them from working with vulnerable adults.    (b) Individual providers who are paid by the state and providers who are paid by home care agencies to provide in-home services involving unsupervised access to persons with physical, mental, or developmental disabilities or mental illness, or to vulnerable adults as defined in chapter 74.34 RCW; including but not limited to services provided under chapter 74.39 or 74.39A RCW; and

(5) An individual provider or home care agency provider hired to provide in-home care for and having unsupervised access to a vulnerable adult as defined in chapter 74.34 RCW must have no conviction for a criminal offense that would disqualify the applicant from having unsupervised access to persons with physical, mental, or developmental disabilities or mental illness, or to vulnerable adults as defined in chapter 74.34 RCW, then the secretary shall deny payment for any subsequent services rendered by the disqualified individual provider.

(6) Criminal justice agencies shall provide the secretary such information as they may have and that the secretary may require for such purpose.

PART II

HUMAN SERVICES

NEW SECTION. Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The health care authority and the department are authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP), the health care authority and the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 213 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county during the 2011-2013 fiscal biennium. The amount of funding assigned from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. In implementing the WMIP, the health care authority and the department may: (a) Withhold from calculations of “available resources” as set forth in RCW 71.24.025 a sum equal to the capitated rate for enrolled individuals; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The health care authority and the department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(4) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(5) By October 1, 2011, the department shall compile and submit to the department of health data regarding food procurement costs for fiscal year 2011 regarding meals and other food for both residential and nonresidential clients, including the percentage of food purchased from
Washington sources. The data shall be reported by setting and population, including costs per client, and be accompanied by the department's current food purchasing policies and standards.

(6) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in section 213 of this act. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

need for or reduce the duration of foster care placements. The workgroup membership shall include, at a minimum, the department, office of financial management, caseload forecast council, Partners for our Children, and legislative fiscal committee staff. The workgroup shall obtain input from experts who have provided consultation in the implementation of performance-based contracting under RCW 74.13.360. This is a reduction of $4,348,000 each fiscal year from the nonmedicaid funding that was allocated for expenditure by regional support networks during fiscal year 2011 prior to supplemental budget reductions. This $4,348,000 reduction shall be distributed among regional support networks proportional to each network's share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

(b) $6,590,000 of the general fund–state appropriation for fiscal year 2012, $6,590,000 of the general fund–state appropriation for fiscal year 2013, and $7,620,000 of the general fund–federal appropriation are provided solely for the department and regional support networks to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to regional support networks with PACT teams, the department shall consider the differences between regional support networks in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow regional support networks which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under section 204(1)(a) of
this act. The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) $5,850,000 of the general fund--state appropriation for fiscal year 2012, $5,850,000 of the general fund--state appropriation for fiscal year 2013, and $1,300,000 of the general fund--federal appropriation are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care previously provided by the program for adaptive living skills (PALS) at western state hospital.

(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 557 per day.

(e) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(f) $4,582,000 of the general fund--state appropriation for fiscal year 2012 and $4,582,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(g) The department is authorized to contract to continue directly, rather than through contracts, with regional support networks, for children's long-term inpatient facility services.

(h) $750,000 of the general fund--state appropriation for fiscal year 2012 and $750,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(i) $1,125,000 of the general fund--state appropriation for fiscal year 2012 and $1,125,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(j) $1,529,000 of the general fund--state appropriation for fiscal year 2012 and $1,529,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(k) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(l) Given the recent approval of federal medicaid matching funds for the disability lifeline and the alcohol and drug abuse treatment support act programs, the department shall charge regional support networks for only the state share rather than the total cost of community psychiatric hospitalization for persons enrolled in those programs.

(m) $750,000 of the general fund--state appropriation for fiscal year 2012, $750,000 of the general fund--state appropriation for fiscal year 2013, and $1,500,000 of the general fund--federal appropriation are provided solely to adjust regional support network capitation rates to account for the per diem rates actually paid for psychiatric care provided at hospitals participating in the certified public expenditure program operated pursuant to section 213 of this act.

NEW SECTION. Sec. 205. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--DEVELOPMENTAL DISABILITIES PROGRAM

(1) COMMUNITY SERVICES
General Fund--State Appropriation (FY 2012) ................................................................. $418,664,000
General Fund--State Appropriation (FY 2013) ................................................................. $422,393,000
General Fund--Federal Appropriation .............................................................................. $726,897,000
General Fund--Private/Local Appropriation .................................................................. $184,000
........................................................................................................................................ $1,568,138,000

The appropriations in this subsection are subject to the following conditions and limitations:
(a) Individuals receiving services as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.
(b) Amounts appropriated in this subsection reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients.
(c) Amounts appropriated in this subsection are sufficient to develop and implement the use of a consistent, statewide outcome-based vendor contract for employment and day services by July 1, 2012. The rates paid to vendors under this contract shall also be made consistent. In its description of activities the agency shall include activity listings and dollars appropriated for: Employment services, day services, child development services and county administration of services to the developmentally disabled. The department shall begin reporting to the office of financial management on these activities beginning in fiscal year 2010.
(d) $944,000 of the general fund--state appropriation for fiscal year 2012, $944,000 of the general fund--state appropriation for fiscal year 2013, and $1,888,000 of the general fund--federal appropriation are provided solely for state contributions for individual provider health care benefits. Pursuant to the collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270, the state shall contribute to the multiemployer health benefits trust fund $1.96 per paid hour worked by individual providers.
(e) $1,871,000 of the general fund–state appropriation for fiscal year 2012, $1,995,000 of the general fund–state appropriation for fiscal year 2013, and $3,865,000 of the general fund–federal appropriation are provided solely for home care agencies to purchase health coverage for home care providers. The department shall calculate and distribute payments for health care benefits to home care agencies at $558 per month for each worker who cares for publicly funded clients at 86 hours or more per month. In order to negotiate the most comprehensive health benefits package for its employees, each agency may determine benefit levels according to the hours an employee works providing state-funded personal care. Health benefits shall be offered to all employees who care for publicly funded clients for 86 hours per month or more. At a minimum, employees who care for publicly funded clients at 140 hours a month or greater must receive a comprehensive medical benefit. Benefits shall not be provided to employees who care for publicly funded clients at 85 hours or less per month or as interim respite workers. The department shall not pay an agency for benefits provided to an employee who otherwise receives health care coverage through other family members, other employment-based coverage, or military or veteran's coverage. The department shall require annually, each home care agency to review each of its employee's available health coverage and to provide a written declaration to the department verifying that health benefits purchased with public funds are solely for employees that do not have other available coverage. Home care agencies may determine a reasonable employee co-premium not to exceed 20 percent of the total benefit cost.

(f) $1,127,000 of the general fund–state appropriation for fiscal year 2012, $1,199,000 of the general fund–state appropriation for fiscal year 2013, and $2,322,000 of the general fund–federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, for instructional costs associated with the training of individual providers. House Bill No. 1548 and Senate Bill No. 5473 (long-term care worker requirements) make statutory changes to the increased training requirements and therefore the state shall contribute to the partnership $0.17 per paid hour worked by all home care workers. This amount is pursuant to the collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270. Expenditures for the purpose specified in this subsection shall not exceed the amounts provided in this subsection.

(g)(i) Within the amounts appropriated in this subsection, the department shall revise the current working age adult policy to allow clients to choose between employment and community access activities. Clients age 21 and older who are receiving services through a home- and community-based Medicaid waiver shall be offered the choice to transition to a community access program after nine months of enrollment in an employment program, and the option to transition from a community access program to an employment program at any time. The department shall inform clients and their legal representatives of all available options for employment and day services. Information provided to the client and the client's legal representative shall include the types of activities each service option provides, and the amount, scope, and duration of service for which the client would be eligible under each service option. An individual client may be authorized for only one service option, either employment services or community access services. Clients may not participate in more than one of these services at any given time.

(ii) The department shall work with counties and stakeholders to strengthen and expand the existing community access program. The program must emphasize support for the client so they are able to participate in activities that integrate them into their community and support independent living and skills.

(iii) The appropriation in this subsection includes funding to provide employment or community access services to 168 Medicaid eligible young adults with developmental disabilities living with their families who need employment opportunities and assistance after high school graduation.

(h) $75,000 of the general fund–state appropriation for fiscal year 2012 and $75,000 of the general fund–state appropriation for fiscal year 2013 are provided solely for the restoration of direct support to local organizations that utilize parent-to-parent networks and communication to promote access and quality of care for individuals with developmental disabilities and their families.

(i) In accordance with Engrossed Substitute House Bill No. 1277 (licensed settings for vulnerable adults), adult family home license fees are increased in fiscal years 2012 and 2013 to support the costs of conducting licensure, inspection, and regulatory programs.

(j) The current annual renewal license fee for adult family homes shall be increased to $100 per bed beginning in fiscal year 2012 and $175 per bed beginning in fiscal year 2013. Adult family homes shall receive a corresponding vendor rate increase per Medicaid patient day of $0.22 in fiscal year 2012 and $0.43 in fiscal year 2013 to cover the cost of the license fee increase for publicly funded beds.

(ii) Beginning in fiscal year 2012, a processing fee of $2,750 shall be charged to each adult family home when the home is initially licensed. This fee is nonrefundable.

(k) Clients with developmental disabilities have demonstrated a need and a desire for a day services program as verified by over 900 clients currently accessing day programs through a long-term care service model. In addition, every individual, to include those with a developmental disability, should have the opportunity for meaningful employment which allows them to contribute to their communities and to become as self-sufficient as possible. Providing choice empowers recipients of publicly funded services and their families by expanding their degree of control over the services and supports they need.

The department shall work with legislators and stakeholders to develop a new approach to employment and day services. The objective of this plan is to ensure that adults with developmental disabilities have optimum choices, and that employment and day offerings are comprehensive enough to meet the needs of all clients currently served on a home and community based waiver. The proposal shall be submitted to the 2012 legislature for consideration and shall be constructed such that a client ultimately receives employment, community access, or the community day option but not more than one service at a time. The proposal shall include options for program efficiencies within the current employment and day structure and shall provide details on the plan to implement a consistent, statewide outcome-based vendor contract for employment and day services as specified in (c) of this subsection.

NEW SECTION. Sec. 206. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES–AGING AND ADULTSERVICES PROGRAM

General Fund–State Appropriation (FY 2012) $783,305,000
General Fund–State Appropriation (FY 2013) $811,670,000
General Fund–Federal Appropriation $1,686,010,000
General Fund–Private/Local Appropriation $27,517,000
Nursing Facility Quality Assurance Account–State Appropriation $3,388,000

$3,399,800,000

The appropriations in this section are subject to the following conditions and limitations:

(1) For purposes of implementing chapter 74.46 RCW, the weighted average nursing facility payment rate shall not exceed $170.37 for fiscal year 2012 and shall not exceed $171.43 for fiscal year 2013, including the rate add-ons described in (a) and (b) of this subsection. However, if the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment created by Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is approved and implemented, the weighted average nursing facility payment rate shall not exceed $159.87 for fiscal year 2012 and shall not exceed $160.93 for fiscal year 2013. There will be no adjustments for economic trends and conditions in fiscal years 2012 and 2013. The economic trends and conditions factor or factors defined in the biennial appropriations act shall be compounded with the economic trends and conditions factor or factors defined in any other biennial appropriations acts before applying it to the component rate allocations established in accordance with chapter 74.46 RCW. When economic trends and conditions factor for either fiscal year is defined in a biennial appropriations act, no economic trends and conditions factor or factors defined in any earlier biennial appropriations acts shall be applied solely or compounded to the component rate allocations established in accordance with chapter 74.46 RCW.

(a) Within the funds provided, the department shall continue to provide an add-on per medicaid resident day per facility not to exceed $1.57. The add-on shall be used to increase wages, benefits, and/or staffing levels for certified nurse aides; or to increase wages and/or benefits for dietary aides, housekeepers, laundry aides, or any other category of worker whose statewide average dollars-per-hour wage was less than $15 in
criteria for inpatient involuntary commitment.

(b) The department shall do a comparative analysis of the facility-based payment rates calculated on July 1, 2011, using the payment methodology defined in Engrossed Substitute Senate Bill No. 5581 (nursing home payments), to the facility-based payment rates in effect June 30, 2010. If the facility-based payment rate calculated on July 1, 2011, is smaller than the facility-based payment rate on June 30, 2010, then the difference shall be provided to the individual nursing facilities as an add-on payment per Medicaid resident day.

(c) During the comparative analysis performed in subsection (b) of this section, if it is found that the direct care rate for any facility calculated using the payment methodology defined in Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is greater than the direct care rate in effect on June 30, 2010, then the facility shall receive a ten percent direct care rate add-on to compensate that facility for taking on more acute clients than they have in the past.

(d) The department shall provide a Medicaid rate add-on to reimburse the Medicaid share of the skilled nursing facility safety net assessment as a Medicaid allowable cost. The nursing facility safety net rate add-on may not be included in the calculation of the annual statewide weighted average nursing facility payment rate.

(e) If the waiver requested from the Federal Centers for Medicare and Medicaid Services in relation to the safety net assessment created by Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is for any reason not approved and implemented, subsections (b), (c), and (d) of this subsection do not apply.

(2) After examining actual nursing facility cost information, the legislature finds that the Medicaid nursing facility rates calculated pursuant to Engrossed Substitute Senate Bill No. 5581 (nursing home payments) provide sufficient reimbursement to efficiently and economically operating nursing facilities and bear a reasonable relationship to costs.

(3) In accordance with chapter 74.46 RCW, the department shall issue no additional certificates of capital authorization for fiscal year 2012 and no new certificates of capital authorization for fiscal year 2013 and shall grant no rate add-ons to payment rates for capital improvements not requiring a certificate of need and a certificate of capital authorization for fiscal years 2012 and 2013.

(4) The long-term care program may develop and pay enhanced rates for exceptional care to nursing homes for persons with traumatic brain injuries who are transitioning from hospital care. The cost per patient day for caring for these clients in a nursing home setting may be equal to or less than the cost of caring for these clients in a hospital setting.

(5) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients.

(6) $1,883,000 of the general fund--state appropriation for fiscal year 2012, $1,883,000 of the general fund--state appropriation for fiscal year 2013, and $3,766,000 of the general fund--federal appropriation are provided solely for state contributions for individual provider health care benefits. Pursuant to the collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270, the state shall contribute to the multiemployer health benefits trust fund $1.96 per paid hour worked by individual providers.

(7) $16,835,000 of the general fund--state appropriation for fiscal year 2012, $17,952,000 of the general fund--state appropriation for fiscal year 2013, and $34,786,000 of the general fund--federal appropriation are provided solely for home care agencies to purchase health coverage for home care providers. The department shall calculate and distribute payments for health care benefits to home care agencies at $558 per month for each worker who cares for publicly funded clients at 86 hours or more per month. In order to negotiate the most comprehensive health benefits package for its employees, each agency may determine benefit levels according to the hours an employee works providing state-funded personal care. Health benefits shall be offered to all employees who care for publicly funded clients for 86 hours per month or more. At a minimum, employees who care for publicly funded clients at 140 hours a month or greater must receive a comprehensive medical benefit. Benefits shall not be provided to employees who care for publicly funded clients at 85 hours or less per month or as interim respite workers. The department shall not pay an agency for benefits provided to an employee who otherwise receives health care coverage through other family members, other employment-based coverage, or military or veteran's coverage. The department shall require annually, each home care agency to review each of its employee's available health coverage and to provide a written declaration to the department verifying that health benefits purchased with public funds are solely for employees that do not have other available coverage. Home care agencies may determine a reasonable employee co-premium not to exceed 20 percent of the total benefit cost.

(8) $2,063,000 of the general fund for fiscal year 2012, $2,195,000 of the general fund--state appropriation for fiscal year 2013, and $4,260,000 of the general fund--federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, for instructional costs associated with the training of individual providers. House Bill No. 1548 and Senate Bill No. 5473 (long-term care worker requirements) make statutory changes to the increased training requirements and therefore the state shall contribute to the partnership $0.17 per paid hour worked by all home care workers. This amount is pursuant to the collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270. Expenditures for the purposes specified in this subsection shall not exceed the amounts provided in this subsection.

(9) Individuals receiving services as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

(10) The department shall eliminate the adult day health program under the state plan 1915(i) option and shall reestablish it under the long-term care home and community-based waiver.

(11) $4,588,000 of the general fund--state appropriation for fiscal year 2012, $4,559,000 of the general fund--state appropriation for fiscal year 2013, and $9,237,000 of the general fund--federal appropriation are provided solely for the continued operation of community residential and support services for persons who are older adults or who have co-occurring medical and behavioral disorders and who have been discharged or diverted from a state psychiatric hospital. These funds shall be used to serve individuals whose treatment needs constitute substantial barriers to community placement, who no longer require active psychiatric treatment at an inpatient hospital level of care, and who no longer meet the criteria for inpatient involuntary commitment.
(12) $1,840,000 of the general fund--state appropriation for fiscal year 2012 and $1,877,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for operation of the volunteer services program. Funding shall be prioritized towards serving populations traditionally served by long-term care services to include senior citizens and persons with disabilities.

(13) In accordance with Engrossed Substitute House Bill No. 1277 (licensed settings for vulnerable adults), nursing facility fees are increased in fiscal year 2012 and adult family home fees are increased in fiscal year 2012 and fiscal year 2013 to support the costs of conducting licensure, inspection, and regulatory programs.

(a) The current annual renewal license fee for nursing facilities shall be increased to $359 per bed beginning in fiscal year 2012 and assumes $517,000 of the general fund--private/local appropriation. Nursing facilities shall receive a vendor rate increase of $0.08 per medicaid patient day to cover the license fee increase for publicly funded beds.

(b) The current annual renewal license fee for adult family homes shall be increased to $100 per bed beginning in fiscal year 2012 and assumes $1,449,000 of the general fund--private/local appropriation; and $175 per bed beginning in fiscal year 2013 and assumes $2,463,000 of the general fund--private/local appropriation. Adult family homes shall receive a corresponding vendor rate increase per medicaid patient day of $0.22 in fiscal year 2012 and $0.43 in fiscal year 2013 to cover the license fee increase for publicly funded beds.

(c) Beginning in fiscal year 2012, a processing fee of $2,750 shall be charged to each adult family home where the home is initially licensed. This fee is nonrefundable.

(d) $72,000 of the general fund--state appropriation for fiscal year 2012, $708,000 of the general fund--private/local appropriation and $708,000 of the general fund--federal appropriation are provided solely to implement sections 501 through 503 of Engrossed Substitute House Bill No. 1277 (licensed settings for vulnerable adults). The department shall use additional investigative resources to address complaints about provider practices as well as alleged abuse, neglect, abandonment, and exploitation of residents in adult family homes. The department shall develop a statewide internal quality review and accountability program to improve the accountability of staff and the consistent application of investigative activities, and shall convene a quality assurance panel to review problems in the quality of care in adult family homes.

(14) $3,316,000 of the traumatic brain injury account--state appropriation is provided solely to continue services for persons with traumatic brain injury (TBI) as defined in chapter 143, Laws of 2011 (traumatic brain injury strategic partnership).

(15) The department is authorized to place long-term care clients residing in nursing homes and paid for with state only funds into less restrictive community care settings while continuing to meet the client's care needs.

(16) $30,000 of the general fund--state appropriation for fiscal year 2012 and $30,000 of the general fund--federal appropriation are provided solely to implement Engrossed Second Substitute House Bill No. 1901 (reshaping the delivery of long-term care services). If the bill is not enacted by June 30, 2011, the amounts provided in this subsection shall lapse.

(17) The department shall assess and determine whether it would be cost-efficient for the state to exercise the option made available under section 1915(k) of the federal social security act (42 U.S.C. Sec. 1396n(k)). If the department determines that it would be cost efficient for the state to exercise the federal option, it shall prepare a proposal to provide home- and community-based attendant services and supports that include assistance with activities of daily living (ADL's), instrumental activities of daily living (IADL's), and health-related tasks pursuant to section 1915(k) of the federal social security act (42 U.S.C. (e) The department shall create a temporary assistance for needy families budget structure that allows for more transparent tracking of budget units and subunits of expenditures where these units and subunits are mutually exclusive from other department budget units. These cases shall be given high priority for naturalization funding through the department.

(c) The department shall continue the interagency agreement with the department of veterans' affairs to establish a process for referral of veterans who may be eligible for veterans' services. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(14) The superintendent may distribute funding for the following programs outside the basic education formula during fiscal years 2012 and 2013 as follows:

(a) $289,000 of the general fund--state appropriation for fiscal year 2012 and $599,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW.

(b) $436,000 of the general fund--state appropriation for fiscal year 2012 and $436,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for programs providing skills training for secondary students who are enrolled in extended day school-to-work programs, as approved by the superintendent of public instruction. The funds shall be allocated at a rate not to exceed $500 per full-time equivalent student enrolled in those programs.

(c) Funding in this section is sufficient to fund adjustments to school districts' allocations resulting from the implementation of the prototypical school funding formula, pursuant to chapter 236, Laws of 2010 (K-12 education funding). The funding in this section is intended to hold school districts harmless in total for funding changes resulting from conversion to the prototypical school formula in the general apportionment program, the learning assistance program, the transitional bilingual program, and the highly capable program, after adjustment for changes in enrollment and other caseload adjustments.

(15) $208,000 of the general fund--state appropriation for fiscal year 2012 and $211,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for school district emergencies as certified by the superintendent of public instruction. At the close of the fiscal year the superintendent of public instruction shall report to the office of financial management and the appropriate fiscal committees of the legislature on the allocations provided to districts and the nature of the emergency.

(16) Amounts in this section include adjustments made by the superintendent of public instruction for the repayment of financial contingency funds allocated in fiscal year 2011, as specified in section 501 of the 2011 supplemental budget. For any amount allocated to a district in state fiscal year 2011, the superintendent of public instruction shall deduct in state fiscal year 2012 from the district's general apportionment the amount of the emergency contingency allocation and any earnings by the school district on the investment of a temporary cash surplus due to the emergency contingency allocation. Repayments or advances will be accomplished by a reduction in the school district's apportionment payments on or before June 30th of the school year following the distribution of the emergency contingency allocation. All disbursements, repayments, and outstanding allocations to be repaid of the emergency contingency pool shall be reported to the office of financial management and the appropriate fiscal committees of the legislature on July 1st and January 1st of each year.

(17) Funding in this section is sufficient to fund a maximum of 1.6 FTE enrollment for skills center students pursuant to chapter 463, Laws of 2007.

(18) Beginning in the 2011-12 school year, students participating in running start programs may be funded up to a combined maximum enrollment of 1.2 FTE including school district and institution of higher education enrollment. Additionally, the office of the superintendent of public instruction, in consultation with the state board for community and technical colleges, the higher education coordinating board, and the education data center, shall annually track and report to the fiscal committees of the legislature on the combined FTE experience of students participating in the running start program, including course load analyses at both the high school and community and technical college system.
(19) If two or more school districts consolidate and each district was receiving additional basic education salary allocations:

(a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

(b) For the fourth through eighth school years following consolidation, the difference between the basic education formula staff units received by the districts for the school year prior to consolidation and the basic education formula staff units after consolidation pursuant to subsection (12) of this section shall be reduced in increments of twenty percent per year.

(20) (a) Indirect cost charges by a school district to approved career and technical education middle and secondary programs shall not exceed 15 percent of the combined basic education and career and technical education program enhancement allocations of state funds. Middle and secondary career and technical education programs are considered separate programs for funding and financial reporting purposes under this section.

(b) Career and technical education program full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support, and payments shall be adjusted for reported career and technical education program enrollments on the same monthly basis as those adjustments for enrollment for students eligible for basic support.

NEW SECTION. Sec. 503. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION—BASIC EDUCATION EMPLOYEE COMPENSATION

(1) The following calculations determine the salaries used in the state allocations for certificated instructional, certificated administrative, and classified staff units as provided in RCW 28A.150.280 and under section 503 of this act:

(a) Salary allocations for certificated instructional staff units are determined for each district by multiplying the district's certificated instructional total base salary shown on LEAP Document 2 by the district's average staff mix factor for certificated instructional staff in that school year, computed using LEAP document 1; and

(b) Salary allocations for certificated administrative staff units and classified staff units for each district are determined based on the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 2.

(2) For the purposes of this section:

(a) "LEAP Document 1" means the staff mix factors for certificated instructional staff according to education and years of experience, as developed by the legislative evaluation and accountability program committee on May 23, 2011, at 16:10 hours; and

(b) "LEAP Document 2" means the school year salary allocations for certificated administrative staff and classified staff and derived and total base salaries for certificated instructional staff as developed by the legislative evaluation and accountability program committee on May 23, 2011, at 16:10 hours.

(3) Incremental fringe benefit factors are applied to salary adjustments at a rate of 15.85 percent for school year 2011-12 and 15.86 percent for school year 2012-13 for certificated instructional and certificated administrative staff and 15.36 percent for school year 2011-12 and 15.38 percent for the 2012-13 school year for classified staff.

(4)(a) Pursuant to RCW 28A.150.410, the following state-wide salary allocation schedules for certificated instructional staff are established for basic education salary allocations:

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:
(i) Credits earned since receiving the masters degree; and
(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.
(5) For the purposes of this section:
(a) "BA" means a baccalaureate degree.
(b) "MA" means a masters degree.
(c) "PHD" means a doctorate degree.
(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.
(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this part V, or any replacement schedules and documents, unless:
(a) The employee has a masters degree; or
(b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2).

NEW SECTION. Sec. 504. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL EMPLOYEE COMPENSATION ADJUSTMENTS

The appropriation in this section is subject to the following conditions and limitations:

(1) (a) Additional salary adjustments as necessary to fund the base salaries for certificated instructional staff as listed for each district in LEAP Document 2, defined in section 504(2)(b) of this act. Allocations for these salary adjustments shall be provided to all districts that are not grandfathered to receive salary allocations above the statewide salary allocation schedule, and to certain grandfathered districts to the extent necessary to ensure that salary allocations for districts that are currently grandfathered do not fall below the statewide salary allocation schedule.

(b) Additional salary adjustments to certain districts as necessary to fund the per full-time-equivalent salary allocations for certificated administrative staff as listed for each district in LEAP Document 2, defined in section 504(2)(b) of this act.

(c) Additional salary adjustments to certain districts as necessary to fund the per full-time-equivalent salary allocations for classified staff as listed for each district in LEAP Document 2, defined in section 504(2)(b) of this act.

(d) The appropriations in this subsection (1) include associated incremental fringe benefit allocations at 15.85 percent for the 2011-12 school year and 15.86 percent for the 2012-13 school year for certificated instructional and certificated administrative staff and 15.36 percent for the 2011-12 school year and 15.38 percent for the 2012-13 school year for classified staff.

(e) The appropriations in this act include the increased or decreased portion of salaries and incremental fringe benefits for all relevant state-funded school programs in part V of this act. Changes for general apportionment (basic education) are based on the salary allocation schedules and methodology in sections 503 and 504 of this act. Changes for special education result from changes in each district's basic education allocation per student. Changes for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in sections 503 and 504 of this act.

(f) The appropriations in this section include no salary adjustments for substitute teachers.

(2) The maintenance rate for insurance benefit allocations is $768.00 per month for the 2011-12 and 2012-13 school years. The appropriations in this section reflect the incremental change in cost of allocating rates of $768.00 per month for the 2011-12 school year and $768.00 per month for the 2012-13 school year.

(3) The rates specified in this section are subject to revision each year by the legislature.

NEW SECTION. Sec. 505. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR PUPIL TRANSPORTATION

(b) From July 1, 2011 to August 31, 2011, the superintendent shall allocate funding to school districts programs for the transportation of students as provided in section 505, chapter 56A, Laws of 2009, as amended through section 1404 of this act.

(3) Any amounts appropriated for maintenance level funding for pupil transportation that exceed actual maintenance level expenditures as calculated under the funding formula that takes effect September 1, 2011, shall be distributed to districts according to RCW 28A.160.192(2)(b).

(4) A maximum of $892,000 of this fiscal year 2012 appropriation and a maximum of $892,000 of the fiscal year 2013 appropriation may be expended for regional transportation coordinators and related activities. The transportation coordinators shall ensure that data submitted by school districts for state transportation funding shall, to the greatest extent practical, reflect the actual transportation activity of each district.

(5) The office of the superintendent of public instruction shall provide reimbursement funding to a school district for school bus purchases only after the superintendent of public instruction determines that the school bus was purchased from the list established pursuant to RCW 28A.160.195(2) or a comparable competitive bid process based on the lowest price quote based on similar bus categories to those used to establish the list pursuant to RCW 28A.160.195.

(6) The superintendent of public instruction shall base depreciation payments for school district buses on the pre-sales tax five-year average of lowest bids in the appropriate category of bus. The appropriations in this section are subject to the following conditions and limitations:

1. $7,111,000 of the general fund--state appropriation for fiscal year 2012 and $7,111,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for state matching money for federal child nutrition programs, and may support the meals for kids program through the following allowable uses:

NEW SECTION. Sec. 507. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2012) $659,950,000
General Fund--State Appropriation (FY 2013) $689,480,000
General Fund--Federal Appropriation $691,796,000
Education Legacy Trust Account--State Appropriation $756,000
TOTAL APPROPRIATION $2,041,982,000

The appropriations in this section are subject to the following conditions and limitations:

1. Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

2(a) The superintendent of public instruction shall ensure that:
   i. Special education students are basic education students first;
   ii. As a class, special education students are entitled to the full basic education allocation; and
   iii. Special education students are basic education students for the entire school day.

(b) The superintendent of public instruction shall continue to implement the full cost method of excess cost accounting, as designed by the committee and recommended by the superintendent, pursuant to section 501(1)(k), chapter 372, Laws of 2006.

(c) Beginning with the 2010-11 school year award cycle, the office of the superintendent of public instruction shall make award determinations for state safety net funding in August of each school year. Determinations on school district eligibility for state safety net awards shall be based on analysis of actual expenditure data from the current school year.

3. Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

4(a) For the 2011-12 and 2012-13 school years, the superintendent shall allocate funding to school district programs for special education students as provided in RCW 28A.150.390.

(b) From July 1, 2011 to August 31, 2011, the superintendent shall allocate funding to school district programs for special education students as provided in section 507, chapter 564, Laws of 2009, as amended through section 1406 of this act.

5. The following applies throughout this section: The definitions for enrollment and enrollment percent are as specified in RCW 28A.150.390(3). Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

6. At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with RCW 28A.150.390(3) (c) and (d), and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

7. $16,404,000 of the general fund--state appropriation for fiscal year 2012, $30,807,000 of the general fund--state appropriation for fiscal year 2013, and $29,574,000 of the general fund--federal appropriation are provided solely for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (4) of this section. If the federal safety net awards based on the federal eligibility threshold exceed the federal appropriation in this subsection (7) in any fiscal year, the superintendent shall expend all available federal discretionary funds necessary to meet this need. At the conclusion of each school year, the superintendent shall recover safety net funds that were distributed prospectively but for which districts were not subsequently eligible.
(a) For the 2011-12 and 2012-13 school years, safety net funds shall be awarded by the state safety net oversight committee as provided in section 109(1) chapter 548, Laws of 2009 (ESHB 2261).

(b) From July 1, 2011 to August 31, 2011, the superintendent shall operate the safety net oversight committee and shall award safety net funds as provided in section 507, chapter 564, Laws of 2009, as amended through section 1406 of this act.

(8) A maximum of $678,000 may be expended from the general fund-- state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(9) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high- cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(10) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.

(1) "Institutions" means the institutions of higher education receiving appropriations under sections 605 through 611 of this act.

(2) The legislature, the office of financial management, and other state agencies need consistent and accurate personnel data from institutions of higher education for policy planning purposes. Institutions of higher education shall report personnel data to the department of personnel for inclusion in the department's data warehouse. Uniform reporting procedures shall be established by the department of personnel for use by the reporting institutions, including provisions for common job classifications and common definitions of full-time equivalent staff. Annual contract amounts, number of contract months, and funding sources shall be consistently reported for employees under contract.

Institutions are encouraged to utilize strategies such as reduced work- hours per day or week, voluntary leave without pay, and temporary furloughs that enable employees to maintain permanent employment status. Institutions are further encouraged to implement such strategies in ways that will enable employees to maintain full insurance benefits, full retirement service credit, and a living wage.

However, an increase shall not be provided to any classified employee whose salary is above the approved salary range maximum for the class to which the employee's position is allocated.

(c) For each institution of higher education receiving appropriations under sections 606 through 611 of this act:

(ii) Institutions may provide salary increases from other sources to instructional and research faculty at the universities and The Evergreen State College, exempt professional staff, teaching and research assistants, as classified by the office of financial management, and all other
nonclassified staff, but not including employees under RCW 28B.16.015. Any salary increase granted under the authority of this subsection (6)(c)(ii) shall not be included in an institution’s salary base for future state funding. The office of financial management shall determine if changes to the list of global challenge states, and the program offerings of comparable public institutions of higher education in the global challenge states. In defining comparable per-student funding levels, from state appropriations plus tuition and fees, of at least the sixtieth percentile of funding for comparable institutions of higher education in the global challenge states, and the progress toward that goal that was made for each of the public institutions of higher education.

Assuming the goal of total per-student funding levels, from state appropriations plus tuition and fees, of at least the sixtieth percentile of total per-student funding at similar public institutions of higher education in the global challenge states. In defining comparable per-student funding levels, the office of financial management shall adjust for regional cost-of-living differences; for differences in program offerings and in the relative mix of lower division, upper division, and graduate students; and for accounting and reporting differences among the comparison institutions. The office of financial management shall develop a funding trajectory for each four-year institution of higher education and for the community and technical college system as a whole that when combined with tuition and fees revenue allows the state to achieve its funding goal for each four-year institution and the community and technical college system as a whole no later than fiscal year 2017. The state shall not reduce enrollment levels below fiscal year 2007 budgeted levels in order to improve or alter the per-student funding amount at any four-year institution of higher education or the community and technical college system as a whole. The state recognizes that each four-year institution of higher education and the community and technical college system as a whole have different funding requirements to achieve desired performance levels, and that increases to the total per-student funding amount may need to exceed the minimum funding goal.

By September 1st of each year beginning in 2008, the office of financial management shall report to the governor, the higher education coordinating board, and appropriate committees of the legislature with updated estimates of the total per-student funding level that represents the sixtieth percentile of funding for comparable institutions of higher education in the global challenge states, and the progress toward that goal that was made for each of the public institutions of higher education.

As used in this section, “global challenge states” are the top performing states on the new economy index published by the progressive policy institute as of July 22, 2007. The new economy index ranks states on indicators of their potential to compete in the new economy. At least once every five years, the office of financial management shall determine if changes to the list of global challenge states are appropriate. The office of financial management shall report its findings to the governor and the legislature.

During the 2009-10 and the 2010-11 academic years, institutions of higher education shall include information on their billing statements notifying students of tax credits available through the American opportunity tax credit provided in the American recovery and reinvestment act of 2009.

Sec. 929. RCW 28B.15.068 and 2009 c 540 s 1 are each amended to read as follows:

(1) Beginning with the 2007-08 academic year and ending with the 2016-17 academic year, tuition fees charged to full-time resident undergraduate students, except in academic years 2009-10 and 2010-11, may increase no greater than seven percent over the previous academic year in any institution of higher education. Annual reductions or increases in full-time tuition fees for resident undergraduate students shall be as provided in the omnibus appropriations act, within the seven percent increase limit established in this section. For academic years 2009-10 and 2010-11 the omnibus appropriations act may provide tuition increases greater than seven percent. To the extent that state appropriations combined with tuition and fee revenues are insufficient to achieve the total per-student funding goals established in subsection (2) of this section, the legislature may revisit state appropriations, authorized enrollment levels, and changes in tuition fees for any given fiscal year. In order to facilitate the full implementation of chapter ..., (Engrossed Second Substitute House Bill No. 1795), Laws of 2011 1st sp. sess. for the 2011-12 academic year and thereafter, the institutions of higher education are authorized to adopt tuition levels that are less than, equal to, or greater than the tuition levels assumed in the omnibus appropriations act, subject to the conditions and limitations in this chapter and the omnibus appropriations act.

(2) The state shall adopt as its goal total per-student funding levels, from state appropriations plus tuition and fees, of at least the sixtieth percentile of total per-student funding at similar public institutions of higher education in the global challenge states. In defining comparable per-student funding levels, the office of financial management shall adjust for regional cost-of-living differences; for differences in program offerings and in the relative mix of lower division, upper division, and graduate students; and for accounting and reporting differences among the comparison institutions. The office of financial management shall develop a funding trajectory for each four-year institution of higher education and for the community and technical college system as a whole that when combined with tuition and fees revenue allows the state to achieve its funding goal for each four-year institution and the community and technical college system as a whole no later than fiscal year 2017. The state shall not reduce enrollment levels below fiscal year 2007 budgeted levels in order to improve or alter the per-student funding amount at any four-year institution of higher education or the community and technical college system as a whole. The state recognizes that each four-year institution of higher education and the community and technical college system as a whole have different funding requirements to achieve desired performance levels, and that increases to the total per-student funding amount may need to exceed the minimum funding goal.

(3) By September 1st of each year beginning in 2008, the office of financial management shall report to the governor, the higher education coordinating board, and appropriate committees of the legislature with updated estimates of the total per-student funding level that represents the sixtieth percentile of funding for comparable institutions of higher education in the global challenge states, and the progress toward that goal that was made for each of the public institutions of higher education.

(3) No appropriation is required for expenditures from the trust fund.

(4) During the 2011-2013 fiscal biennium, the legislature may transfer from the foster care endowed scholarship trust fund to the state general fund such amounts as reflect the excess fund balance of the account.

However, the department may at its discretion establish a system of billing based upon calendar year quarters in which event the said billing shall be at the end of each such quarter.

(4) The director may adjust the expense fund contribution rate for each system at any time when necessary to reflect unanticipated costs or savings in administering the department.

(5) An employer who fails to submit timely and accurate reports to the department may be assessed an additional fee related to the increased costs incurred by the department in processing the deficient reports. Fees paid under this subsection shall be deposited in the retirement system expense fund.

(b) An additional fee assessed by the department under this subsection shall not exceed fifty percent of the standard fee.

(c) The department shall adopt rules implementing this section.

(6) Expenses other than those under RCW 41.34.060(3) shall be paid pursuant to subsection (1) of this section.

(7) During the (2007-2009 and) 2009-2011 and 2011-2013 fiscal biennia, the legislature may transfer from the department of retirement systems' expense fund to the state general fund such amounts as reflect the excess fund balance of the fund.

Sec. 937. RCW 41.60.050 and 1991 sp.s. c 16 s 918 are each amended to read as follows:

The legislature shall appropriate from the department of personnel service fund for the payment of administrative costs of the productivity board.

However, during the (2007-2009 and) 2009-2011 and 2011-2013 fiscal biennia, the (administrative costs) operations of the productivity board shall be (appropriated from the savings recovery account) suspended.

Sec. 938. RCW 41.80.010 and 2010 c 104 s 1 are each amended to read as follows:

(1) For the purpose of negotiating collective bargaining agreements under this chapter, the employer shall be represented by the governor or governor's designee, except as provided for institutions of higher education in subsection (4) of this section.

(2)(a) If an exclusive bargaining representative represents more than one bargaining unit, the exclusive bargaining representative shall negotiate with each employer representative as designated in subsection (1) of this section one master collective bargaining agreement on behalf of all the employees in bargaining units that the exclusive bargaining representative represents. For those exclusive bargaining representatives who represent fewer than a total of five hundred employees each, negotiation shall be by a coalition of all those exclusive bargaining representatives. The coalition shall bargain for a master collective bargaining agreement covering all of the employees represented by the coalition. The governor's designee and the exclusive bargaining representative or representatives are authorized to enter into supplemental bargaining of agency-specific issues for inclusion in or as an addendum to the master collective bargaining agreement, subject to the parties' agreement regarding the issues and procedures for supplemental bargaining. This section does not prohibit cooperation and coordination of bargaining between two or more exclusive bargaining representatives.

(b) This subsection (2) does not apply to exclusive bargaining representatives who represent employees of institutions of higher education, except when the institution of higher education has elected to exercise its option under subsection (4) of this section to have its negotiations conducted by the governor or governor's designee under the procedures provided for general government agencies in subsections (1) through (3) of this section.

(c) If five hundred or more employees of an independent state elected official listed in RCW 43.01.010 are organized in a bargaining unit or bargaining units under RCW 41.80.070, the official shall be consulted by the governor or the governor's designee before any agreement is reached under (a) of this subsection concerning supplemental bargaining of agency specific issues affecting the employees in such bargaining unit.

(3) The governor shall submit a request for funds necessary to implement the compensation and fringe benefit provisions in the master collective bargaining agreement or for legislation necessary to implement the agreement. Requests for funds necessary to implement the provisions of bargaining agreements shall not be submitted to the legislature by the governor unless such requests:

(a) Have been submitted to the director of the office of financial management by October 1 prior to the legislative session at which the requests are to be considered; and

(b) Have been certified by the director of the office of financial management as being feasible financially for the state.

The legislature shall approve or reject the submission of the request for funds as a whole. The legislature shall not consider a request for funds to implement a collective bargaining agreement unless the request is transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060. If the legislature rejects or fails to act on the submission, either party may reopen all or part of the agreement or the exclusive bargaining representative may seek to implement the procedures provided for in RCW 41.80.090.

(4)(a)(i) For the purpose of negotiating agreements for institutions of higher education, the employer shall be the respective governing board of each of the universities, colleges, or community colleges or a designee chosen by the board to negotiate on its behalf.

(ii) A governing board of a university or college may elect to have its negotiations conducted by the governor or governor's designee under the procedures provided for general government agencies in subsections (1) through (3) of this section, except that:

(A) The governor or the governor's designee and an exclusive bargaining representative shall negotiate one master collective bargaining agreement for all of the bargaining units of employees of a university or college that the representative represents; or

(B) If the parties mutually agree, the governor or the governor's designee and an exclusive bargaining representative shall negotiate one master collective bargaining agreement for all of the bargaining units of employees of more than one university or college that the representative represents.

(iii) A governing board of a community college may elect to have its negotiations conducted by the governor or governor's designee under the procedures provided for general government agencies in subsections (1) through (3) of this section.

(b) Prior to entering into negotiations under this chapter, the institutions of higher education or their designees shall consult with the director of the office of financial management regarding financial and budgetary issues that are likely to arise in the impending negotiations.
(c)(i) If appropriations are necessary to implement the compensation and fringe benefit provisions of the bargaining agreements reached between institutions of higher education and exclusive bargaining representatives agreed to under the provisions of this chapter, the governor shall submit a request for such funds to the legislature according to the provisions of subsection (3) of this section, except as provided in (c)(ii) of this subsection.

(ii) In the case of a bargaining unit of employees of institutions of higher education in which the exclusive bargaining representative is certified during or after the conclusion of a legislative session, the legislature may act upon the compensation and fringe benefit provisions of the unit's initial collective bargaining agreement if those provisions are agreed upon and submitted to the office of financial management and legislative budget committees before final legislative action on the biennial or supplemental operating budget by the sitting legislature.

(5) There is hereby created a joint committee on employment relations, which consists of two members with leadership positions in the house of representatives, representing each of the two largest caucuses; the chair and ranking minority member of the house appropriations committee, or its successor, representing each of the two largest caucuses; two members with leadership positions in the senate, representing each of the two largest caucuses; and the chair and ranking minority member of the senate ways and means committee, or its successor, representing each of the two largest caucuses. The governor shall periodically consult with the committee regarding appropriations necessary to implement the compensation and fringe benefit provisions in the master collective bargaining agreements, and upon completion of negotiations, advise the committee on the elements of the agreements and on any legislation necessary to implement the agreements.

(6) If, after the compensation and fringe benefit provisions of an agreement are approved by the legislature, a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties shall immediately enter into collective bargaining for a mutually agreed upon modification of the agreement.

(7) After the expiration date of a collective bargaining agreement negotiated under this chapter, all of the terms and conditions specified in the collective bargaining agreement remain in effect until the effective date of a subsequently negotiated agreement, not to exceed one year from the expiration date stated in the agreement. Thereafter, the employer may unilaterally implement according to law.

(8) For the 2011-2013 fiscal biennium, a collective bargaining agreement related to employee health care benefits negotiated between the employer and coalition pursuant to RCW 41.80.020(3) regarding the dollar amount expended on behalf of each employee shall be a separate agreement for which the governor may request funds necessary to implement the agreement. If such an agreement is negotiated and funded by the legislature, this agreement will supersede any terms and conditions of an expired 2009-2011 biennial master collective bargaining agreement under this chapter regarding health care benefits.

**Sec. 939.** RCW 41.80.020 and 2010 c 283 s 16 are each amended to read as follows:

(1) Except as otherwise provided in this chapter, the matters subject to bargaining include wages, hours, and other terms and conditions of employment, and the negotiation of any question arising under a collective bargaining agreement.

(2) The employer is not required to bargain over matters pertaining to:

   (a) Health care benefits or other employee insurance benefits, except as required in subsection (3) of this section;

   (b) Any retirement system or retirement benefit; or

   (c) Rules of the director of personnel or the Washington personnel resources board adopted under section 203, chapter 354, Laws of 2002.

(3) Matters subject to bargaining include the number of names to be certified for vacancies, promotional preferences, and the dollar amount expended on behalf of each employee for health care benefits. However, except as provided otherwise in this subsection for institutions of higher education, negotiations regarding the number of names to be certified for vacancies, promotional preferences, and the dollar amount expended on behalf of each employee for health care benefits shall be conducted between the employer and one coalition of all the exclusive bargaining representatives subject to this chapter. The exclusive bargaining representatives for employees that are subject to chapter 47.64 RCW shall bargain the dollar amount expended on behalf of each employee for health care benefits with the employer as part of the coalition under this subsection. Any such provision agreed to by the employer and the coalition shall be included in all master collective bargaining agreements negotiated by the parties. For institutions of higher education, promotional preferences and the number of names to be certified for vacancies shall be bargained under the provisions of RCW 41.80.010(4). For agreements covering the 2011-2013 fiscal biennium, any agreement between the employer and the coalition regarding the dollar amount expended on behalf of each employee for health care benefits is a separate agreement and shall not be included in the master collective bargaining agreements negotiated by the parties.

(4) The employer and the exclusive bargaining representative shall not agree to any proposal that would prevent the implementation of approved affirmative action plans or that would be inconsistent with the comparable worth agreement that provided the basis for the salary changes implemented beginning with the 1983-1985 biennium to achieve comparable worth.

(5) The employer and the exclusive bargaining representative shall not bargain over matters pertaining to management rights established in RCW 41.80.040.

(6) Except as otherwise provided in this chapter, if a conflict exists between an executive order, administrative rule, or agency policy relating to wages, hours, and terms and conditions of employment and a collective bargaining agreement negotiated under this chapter, the collective bargaining agreement shall prevail. A provision of a collective bargaining agreement that conflicts with the terms of a statute is invalid and unenforceable.

(7) This section does not prohibit bargaining that affects contracts authorized by RCW 41.06.142.

**Sec. 940.** RCW 43.07.129 and 2007 c 523 s 4 are each amended to read as follows:

The allocation shall precede the distribution of the remaining earnings as prescribed under RCW 43.79A.040 and 43.84.092. The state treasurer shall establish a uniform allocation rate for all funds and accounts; except that the state treasurer may negotiate a different allocation rate with any state agency that has independent authority over funds not statutorily required to be held in the state treasury or in the custody of the state treasurer. In no event shall the rate be less than the actual costs incurred by the state treasurer's office. If no rate is separately negotiated, the default rate for any funds held shall be the rate set for funds held pursuant to statute.

During the 2009-2011 fiscal biennium and the 2011-2013 fiscal biennium, the legislature may transfer from the state treasurer's service fund to the state general fund such amounts as reflect the excess fund balance of the fund.

**Sec. 944.** RCW 43.20A.725 and 2010 1st s.p.s. c 37 s 921 are each amended to read as follows:

(1) The department, through the sole authority of the office or its successor organization, shall maintain a program whereby an individual of school age or older who possesses a hearing or speech impairment is provided with telecommunications equipment, software, and/or peripheral devices, digital or otherwise, that is determined by the office to be necessary for such a person to access and use telecommunications transmission services effectively.

(2) The department, through the sole authority of the office or its successor organization, shall maintain a program where telecommunications relay services of a human or electronic nature will be provided to connect hearing impaired, deaf-blind, or speech impaired persons with persons who do not have a hearing or speech impairment. Such telecommunications relay services shall provide the ability for an individual who has a hearing or speech impairment to engage in voice, tactile, or visual communication by wire or radio with a hearing individual in a manner that is functionally equivalent to the ability of an individual who does not have a hearing or speech impairment to communicate using voice or visual communication services by wire or radio subject to subsection (4)(b) of this section.

(3) The telecommunications relay service and equipment distribution program may operate in such a manner as to provide communications transmission opportunities that are capable of incorporating new technologies that have demonstrated benefits consistent with the intent of this chapter and are in the best interests of the citizens of this state.

(4) The office shall administer and control the award of money to all parties incurring costs in implementing and maintaining telecommunications services, programs, equipment, and technical support services according to this section. The relay service contract shall be awarded to an individual company registered as a telecommunications company by the utilities and transportation commission, to a group of registered telecommunications companies, or to any other company or organization determined by the office as qualified to provide relay services, contingent upon that company or organization being approved as a registered telecommunications company prior to final contract approval. The relay system providers and telecommunications equipment vendors shall be selected on the basis of cost-effectiveness and utility to the greatest extent possible under the program and technical specifications established by the office.

(a) To the extent funds are available under the then-current rate and not otherwise held in reserve or required for other purposes authorized by this chapter, the office may award contracts for communications and related services and equipment for hearing impaired or speech impaired individuals accessing or receiving services provided by, or contracted for, the department to meet access obligations under Title 2 of the federal Americans with disabilities act or related federal regulations.

(b) The office shall perform its duties under this section with the goal of achieving functional equivalency of access to and use of telecommunications services similar to the enjoyment of access to and use of such services experienced by an individual who does not have a hearing or speech impairment only to the extent that funds are available under the then-current rate and not otherwise held in reserve or required for other purposes authorized by this chapter.

(5) The program shall be funded by a telecommunications relay service (TRS) excise tax applied to each switched access line provided by the local exchange companies. The office shall determine, in consultation with the office's program advisory committee, the budget needed to fund the program on an annual basis, including both operational costs and a reasonable amount for capital improvements such as equipment upgrade and replacement. The budget proposed by the office, together with documentation and supporting materials, shall be submitted to the office of financial management for review and approval. The approved budget shall be given by the department in an annual budget to the department of revenue no later than March 1st prior to the beginning of the fiscal year. The department of revenue shall then determine the amount of telecommunications relay service excise tax to be placed on each switched access line and shall inform local exchange companies and the utilities
and transportation commission of this amount no later than May 1st. The department of revenue shall determine the amount of telecommunications relay service excise tax to be collected in the following fiscal year by dividing the total of the program budget, as submitted by the office, by the total number of switched access lines in the prior calendar year, as reported to the department of revenue under chapter 82.14B RCW, and shall not exercise any further oversight of the program under this subsection other than administering the collection of the telecommunications relay service excise tax as provided in RCW 82.72.010 through 82.72.090. The telecommunications relay service excise tax shall not exceed nineteen cents per month per access line. The telecommunications relay service excise tax shall be separately identified on each ratepayer's bill with the following statement: "Funds federal ADA requirement." All proceeds from the telecommunications relay service excise tax shall be put into a fund to be administered by the office through the department. During the 2009-2011 and 2011-2013 fiscal biennia, the funds may also be used to provide individualized employment services and employment-related counseling to people with disabilities, and technical assistance to employers about the employment of people with disabilities. "Switched access line" has the meaning provided in RCW 82.14B.020.

(6) The telecommunications relay service program and equipment vendors shall provide services and equipment consistent with the requirements of federal law for the operation of both interstate and intrastate telecommunications services for the hearing impaired or speech impaired. The department and the utilities and transportation commission shall be responsible for ensuring compliance with federal requirements and shall provide timely notice to the legislature of any legislation that may be required to accomplish compliance.

(7) The department shall adopt rules establishing eligibility criteria, ownership obligations, financial contributions, and a program for distribution to individuals requesting and receiving such telecommunications devices distributed by the office, and other rules necessary to administer programs and services consistent with this chapter.

All moneys received by the board or any employee thereof, except for change funds and an amount of petty cash as fixed by the board within the authority of law shall be deposited daily in a depository approved by the state treasurer and transferred to the state treasurer to be credited to the liquor revolving fund. During the 2009-2011 fiscal biennium, the legislature may transfer funds from the liquor revolving account [fund] to the state general fund and may direct an additional amount of liquor profits to be distributed to local governments. Neither the transfer of funds nor the additional distribution of liquor profits to local governments during the 2009-2011 fiscal biennium may reduce the excess fund distributions that otherwise would occur under RCW 66.08.190. During the 2011-2013 fiscal biennium, the state treasurer shall transfer from the liquor revolving fund to the state general fund forty-two million five hundred thousand dollars for fiscal year 2012 and forty-two million five hundred thousand dollars for fiscal year 2013. The transfer during the 2011-2013 fiscal biennium may not reduce the excess fund distributions that otherwise would occur under RCW 66.08.190. Sales to licensees are exempt from any liquor price increases that may result from the transfer of funds from the liquor revolving fund to the state general fund during the 2011-2013 fiscal biennium. Disbursements from the revolving fund shall be on authorization of the board or a duly authorized representative thereof. In order to maintain an effective expenditure and revenue control the liquor revolving fund shall be subject in all respects to chapter 43.88 RCW but no appropriation shall be required to permit expenditures and payment of obligations from such fund.

(1) Except for revenues generated by the 2003 surcharge of $0.42/liter on retail sales of spirits that ((shall)) must be distributed to the state general fund during the 2003-2005 biennium, when excess funds are distributed, all moneys subject to distribution ((shall)) must be disbursed as follows:

(2) During the months of June, September, December, and March of each year, prior to disbursing the distribution to incorporated cities and towns under subsection (1)(b) of this section, the treasurer ((shall)) must deduct from that distribution an amount that will fund that quarter's allotments under RCW 43.88.110 from any legislative appropriation from the city and town research services account. The treasurer ((shall)) must deposit the amount deducted into the city and town research services account.

(3) The governor may notify and direct the state treasurer to withhold the revenues to which the counties and cities are entitled under this section if the counties or cities are found to be in noncompliance pursuant to RCW 36.70A.340.

(4) During the 2011-2013 fiscal biennium, from the amount remaining after distribution under subsection (1)(a) of this section, (a) 51.7 percent to the general fund of the state, (b) 9.7 percent to the counties of the state, and (c) 38.6 percent to the incorporated cities and towns of the state.

The liquor control board shall deposit into this account a portion of the board's markup, as authorized by chapter 66.16 RCW, placed upon liquor as determined by the board. Moneys in the account may be spent only after appropriation. The liquor control board shall use deposits to this account to fund construction and maintenance of a centralized distribution center for liquor products intended for sale through the board's liquor store and contract liquor store system. During the ((2001-2003)) 2011-2013 fiscal biennium, the legislature may transfer from the liquor control board construction and maintenance account to the state general fund such amounts as reflect the ((appropriations reductions made by the 2002 supplemental appropriations act for administrative efficiencies and savings)) excess fund balance of the account.

Sec. 962. RCW 67.70.260 and 2002 c 371 s 919 are each amended to read as follows:

During the 2011-2013 fiscal biennium, the lottery administrative account may also be used to fund an independent forecast of the lottery revenues conducted by the economic and revenue forecast council.

(a) Fifty percent to the department of ecology, for use by the departments of ecology, natural resources, revenue, transportation, and corrections, and the parks and recreation commission, for use in litter collection programs, to be distributed under RCW 70.93.220. The amount to the department of ecology shall also be used for a central coordination function for litter control efforts statewide, for the biennial litter survey under RCW 70.93.200(8), and for statewide public awareness programs under RCW 70.93.200(7). The amount to the department shall also be used to defray the costs of administering the funding, coordination, and oversight of local government programs for waste reduction, litter control, and recycling, so that local governments can apply one hundred percent of their funding to achieving program goals. The amount to the department of revenue shall be used to enforce compliance with the litter tax imposed in chapter 82.19 RCW;

(3) Not less than five percent and no more than ten percent of the amount appropriated into the waste reduction, recycling, and litter control account every biennium shall be reserved for capital needs, including the purchase of vehicles for transporting crews and for collecting litter and solid waste. Capital funds shall be distributed among state agencies and local governments according to the same criteria provided in RCW 70.93.220 for the remainder of the funds, so that the most effective waste reduction, litter control, and recycling programs receive the most...
funding. The intent of this subsection is to provide funds for the purchase of equipment that will enable the department to account for the greatest return on investment in terms of reaching a zero litter goal.

4. During the 2009-2011 fiscal biennium, the legislature may transfer from the waste reduction, recycling, and litter control account to the state general fund such amounts as reflect the excess fund balance of the account. Additionally, during the 2009-2011 fiscal biennium, subsection (1)(a), (b), and (c) of this section is suspended.

5. During the 2011-2013 fiscal biennium, the legislature may transfer from the waste reduction, recycling, and litter control account to the state general fund such amounts as reflect the excess fund balance of the account. (3) Notwithstanding other provisions of this section, the distributions to any city that substantially decriminalizes or repeals its criminal code after July 1, 1990, and that does not reimburse the county for costs associated with criminal cases under RCW 3.50.800 or 3.50.805(2), (shall) must be made to the county in which the city is located.

(4) Not more than five percent of the funds deposited to the municipal criminal justice assistance account (shall) may be available for appropriations for enhancements to the state patrol crime laboratory system and the continuing costs related to these enhancements. Funds appropriated from this account for such enhancements (shall) may not supplant existing funds from the state general fund.

(5) During the 2011-2013 fiscal biennium, the amount that would otherwise be transferred into the municipal criminal justice assistance account from the general fund under subsection (1) of this section must be reduced by 3.4 percent.

The tax is in addition to other taxes authorized by law and ((shall)) must be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the public facilities district. The rate of tax ((shall)) may not exceed 0.033 percent of the selling price in the case of a sales tax or value of the article used in the case of a use tax.

(2)(a) The governing body of a public facilities district imposing a sales and use tax under the authority of this section may increase the rate of tax up to 0.037 percent if, within three fiscal years of July 1, 2008, the department determines that, as a result of RCW 82.14.490 and the chapter 6, Laws of 2007 amendments to RCW 82.14.020, a public facilities district's sales and use tax collections for fiscal years after July 1, 2008, have been reduced by a net loss of at least 0.50 percent from the fiscal year before July 1, 2008. The fiscal year in which this section becomes effective is the first fiscal year after July 1, 2008.

(b) The department ((shall)) must determine sales and use tax collection net losses under this section as provided in RCW 82.14.500 (2) and (3). The department ((shall)) must provide written notice of its determinations to public facilities districts. Determinations by the department of a public facilities district's sales and use tax collection net losses as a result of RCW 82.14.490 and the chapter 6, Laws of 2007 amendments to RCW 82.14.020 are final and not appealable.

(c) A public facilities district may increase its rate of tax after it has received written notice from the department as provided in (b) of this subsection. The increase in the rate of tax must be made in 0.001 percent increments and must be the least amount necessary to mitigate the net loss in sales and use tax collections as a result of RCW 82.14.490 and the chapter 6, Laws of 2007 amendments to RCW 82.14.020. The increase in the rate of tax is subject to RCW 82.14.055.

(3) The tax imposed under subsection (1) of this section ((shall)) must be deducted from the amount of tax otherwise required to be collected or paid over to the department of revenue under chapter 82.08 or 82.12 RCW. The department of revenue ((shall)) must perform the collection of such taxes on behalf of the county at no cost to the public facilities district. During the 2011-2013 fiscal biennium, distributions by the state to a public facilities district based on the additional rate authorized in subsection (2) of this section must be reduced by 3.4 percent.

(4) No tax may be collected under this section before August 1, 2000. The tax imposed in this section ((shall)) expires when the bonds issued for the construction of the regional center and related parking facilities are retired, but not more than twenty-five years after the tax is first collected.

(5) Moneys collected under this section ((shall)) may only be used for the purposes set forth in RCW 35.57.020 and must be matched with an amount from other public or private sources equal to thirty-three percent of the amount collected under this section((prescribed that)); however, amounts generated from nonvoter approved taxes authorized under chapter 36.100 RCW ((shall)) do not constitute a public or private source. For the purpose of this section, public or private sources includes, but is not limited to cash or in-kind contributions used in all phases of the development or improvement of the regional center, land that is donated and used for the siting of the regional center, cash or in-kind contributions from public or private foundations, or amounts attributed to private sector partners as part of a public and private partnership agreement negotiated by the public facilities district.

(6) The combined total tax levied under this section ((shall)) may not be greater than 0.037 percent. If both a public facilities district created under chapter 35.57 RCW and a public facilities district created under chapter 36.100 RCW impose a tax under this section, the tax imposed by a public facilities district created under chapter 35.57 RCW ((shall)) must be credited against the tax imposed by a public facilities district created under chapter 36.100 RCW.

(7) A public facilities district created under chapter 36.100 RCW is not eligible to impose the tax under this section if the legislative authority of the county where the public facilities district is located has imposed a sales and use tax under RCW 82.14.0485 or 82.14.0494.

Sec. 974. RCW 82.14.500 and 2007 c 6 s 903 are each amended to read as follows:

On July 1, 2009, and each July 1st thereafter, the state treasurer shall transfer into the streamlined sales and use tax mitigation account from the general fund)) the amount required to mitigate actual net losses as determined under this section.

(b) During the 2011-2013 fiscal biennium, the amount that would otherwise be transferred under (a) of this subsection must be reduced by 3.4 percent.

(2) Beginning July 1, 2008, and continuing until the department determines annual losses under subsection (3) of this section, the department ((shall)) must determine the amount of local sales tax net loss each local taxing jurisdiction experiences as a result of the sourcing provisions of the streamlined sales and use tax agreement under this title each calendar quarter. The department ((shall)) must determine losses by analyzing and comparing data from tax return information and tax collections for each local taxing jurisdiction before and after July 1, 2008, on a calendar quarter basis. The department's analysis may be revised and supplemented in consultation with the oversight committee as provided in subsection (4) of this section. To determine net losses, the department ((shall)) must reduce losses by the amount of voluntary compliance revenue for the calendar quarter analyzed. Beginning December 31, 2008, distributions ((shall)) must be made quarterly from the streamlined sales and use tax mitigation account by the state treasurer, as directed by the department, to each local taxing jurisdiction, other than public facilities districts for losses in respect to taxes imposed under the authority of RCW 82.14.390, in an amount representing its net losses for the previous calendar quarter. Distributions ((shall)) must be made on the last working day of each calendar quarter and ((shall)) must cease when distributions under subsection (3) of this section begin.

(3)(a) By December 31, 2009, or such later date the department in consultation with the oversight committee determines that sufficient data is available, the department ((shall)) must determine each local taxing jurisdiction's annual loss. The department ((shall)) must determine annual
losses by comparing at least twelve months of data from tax return information and tax collections for each local taxing jurisdiction before and after July 1, 2008. The department ((shall)) is not ((is)) required to determine annual losses on a recurring basis, but may make any adjustments to annual losses as it deems proper as a result of the annual reviews provided in (b) of this subsection. Beginning the calendar quarter in which the department determines annual losses, and each calendar quarter thereafter, distributions ((shall)) must be made from the streamlined sales and use tax mitigation account by the state treasurer on the last working day of the calendar quarter, as directed by the department, to each local taxing jurisdiction, other than public facilities districts for losses in respect to taxes imposed under the authority of RCW 82.14.390, in an amount representing one-fourth of the jurisdiction's annual loss reduced by voluntary compliance revenue reported during the previous calendar quarter.

(b) The department's analysis of annual losses ((shall)) must be reviewed by December 1st of each year and may be revised and supplemented in consultation with the oversight committee as provided in subsection (4) of this section.

(4) The department ((shall)) must convene an oversight committee to assist in the determination of losses. **PART XI**

**HUMAN SERVICES**

**Sec. 1101.** 2010 1st sp.s. c 37 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES. (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, “unrestricted federal moneys” includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.
(3) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act.

(4) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP), the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county, during the 2009-2011 biennium. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot project, times the number of clients enrolled in the pilot project. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(5)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, (2010) 2011, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year (2010) 2011 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year (2010) 2011 caseload forecasts and utilization assumptions in the medicaid assistance, foster care, adoption support, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(6) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

$1,108,698,000

The appropriations in this section are subject to the following conditions and limitations:

(1) $937,000 of the general fund--state appropriation for fiscal year 2010 and $696,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to contract for the operation of one pediatric interim care facility. The facility shall provide residential care for up to thirteen children through two years of age. Seventy-five percent of the children served by the facility must be in need of special care as a result of substance abuse by their mothers. The facility shall also provide on-site training to biological, adoptive, or foster parents. The facility shall provide at least three months of consultation and support to parents accepting placement of children from the facility. The facility may recruit new and current foster and adoptive parents for infants served by the facility. The department shall not require case management as a condition of the contract.

(2) $369,000 of the general fund--state appropriation for fiscal year 2010, $343,000 of the general fund--state appropriation for fiscal year 2011, and $306,000 of the general fund--federal appropriation are provided solely for up to three nonfacility-based programs for the training, consultation, support, and recruitment of biological, foster, and adoptive parents of children through age three in need of special care as a result of substance abuse by their mothers, except that each program may serve up to three medically fragile nonsubstance-abuse-affected children. In selecting nonfacility-based programs, preference shall be given to programs whose federal or private funding sources have expired or that have successfully performed under the existing pediatric interim care program.

(3) $2,500,000 of the general fund--state appropriation for fiscal year 2010 and $46,000 of the general fund--state appropriation for fiscal year 2011, and $2,098,000 of the home security fund--state appropriation are provided solely for secure crisis residential centers. Within appropriated amounts, the department shall collaborate with providers to maintain no less than forty-five beds that are geographically representative of the state. The department shall examine current secure crisis residential staffing requirements, flexible payment options, center specific waivers, and other appropriate methods to accomplish this outcome.
(4) A maximum of $69,190,000 of the general fund--state appropriations and $54,443,000 of the general fund--federal appropriations for the 2009-11 biennium shall be expended for behavioral rehabilitative services and these amounts are provided solely for this purpose. The department shall work with behavioral rehabilitative service providers to safely keep youth with emotional, behavioral, or medical needs at home, with relatives, with other permanent placement resources and decrease the length of service through improved emotional, behavioral, or medical outcomes for children in behavioral rehabilitative services in order to achieve the appropriated levels.

(a) Contracted providers shall act in good faith and accept the hardest to serve children, to the greatest extent possible, in order to improve their emotional, behavioral, or medical conditions.

(b) The department and the contracted provider shall mutually agree and establish an exit date for when the child is to exit the behavioral rehabilitative service provider. The department and the contracted provider should mutually agree, to the greatest extent possible, on a viable placement for the child to go to once the child's treatment process has been completed. The child shall exit only when the emotional, behavioral, or medical condition has improved or if the provider has not shown progress toward the outcomes specified in the signed contract at the time of exit. This subsection (b) does not prevent or eliminate the department's responsibility for removing the child from the provider if the child's emotional, behavioral, or medical condition worsens or is threatened.

(c) The department is encouraged to use performance-based contracts with incentives directly tied to outcomes described in this section. The contracts should incentivize contracted providers to accept the hardest to serve children and incentivize improvement in children's emotional, mental, and medical well-being within the established exit date. The department is further encouraged to increase the use of behavioral rehabilitative service group homes, wrap around services to facilitate and support placement of youth at home with relatives, or other permanent resources, and other means to control expenditures.

(d) The total foster care per capita amount shall not increase more than four percent in the 2009-11 biennium and shall not include behavioral rehabilitative service.

(5) Within amounts provided for the foster care and adoption support programs, the department shall control reimbursement decisions for foster care and adoption support cases such that the aggregate average cost per case for foster care and for adoption support does not exceed the amounts assumed in the projected caseload expenditures.

(6) $13,387,000 of the general fund--state appropriation for fiscal year 2011 and $6,231,000 of the general fund--federal appropriation are provided solely for the department to provide contracted prevention and early intervention services. The legislature recognizes the need for flexibility as the department transitions to performance-based contracts. The following services are included in the prevention and early intervention block grant: Crisis family intervention services, family preservation services, intensive family preservation services, evidence-based programs, public health nurses, and early family support services. The legislature intends for the department to maintain and build on existing evidence-based and research-based programs with the goal of utilizing contracted prevention and intervention services to keep children safe at home and to safely reunify families. Priority shall be given to proven intervention models, including evidence-based prevention and early intervention programs identified by the Washington state institute for public policy and the department. The department is encouraged to provide information on the number, type, and outcomes of the evidence-based programs being implemented in its reports on child welfare reform efforts and shall provide the legislature and governor a report regarding the allocation of resources in this subsection by September 30, 2010. The department shall expend federal funds under this subsection in compliance with federal regulations.

(8) $125,000 of the general fund--state appropriation for fiscal year 2010 and $118,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for continuum of care services. $100,000 of this amount is for Casey family partners and $25,000 of this amount is for volunteers of America crosswalk in fiscal year 2010. $95,000 of this amount is for Casey family partners and $23,000 of this amount is for volunteers of America crosswalk in fiscal year 2011.

(9) $1,904,000 of the general fund--state appropriation for fiscal year 2010, $1,441,000 of the general fund--state appropriation for fiscal year 2011, and $335,000 of the general fund--federal appropriation are provided solely to contract with medical professionals for comprehensive safety assessments of high-risk families and for foster care assessments. The safety assessments will use validated assessment tools to guide intervention decisions through the identification of additional safety and risk factors. The department will maintain the availability of comprehensive foster care assessments and follow up services for children in out-of-home care who do not have permanent plans, comprehensive safety assessments for families receiving in-home child protective services or family voluntary services, and comprehensive safety assessments for families with an infant age birth to fifteen days where the infant was, at birth, diagnosed as substance exposed and the department received an intake referral related to the infant due to the substance exposure. The department must consolidate contracts, streamline administration, and explore efficiencies to achieve savings.

(10) $7,679,000 of the general fund--state appropriation for fiscal year 2010, $6,226,000 of the general fund--state appropriation for fiscal year 2011, and $4,658,000 of the general fund--federal appropriation are provided solely for court-ordered supervised visits between parents and dependent children and for sibling visits. The department shall work collaboratively with the juvenile dependency courts and revise the supervised visit reimbursement procedures to stay within appropriations without impeding reunification outcomes between parents and dependent children. The department shall report to the legislative fiscal committees on September 30, 2010, and December 30, 2010, the number of children in foster care who receive supervised visits, their frequency, length of time of each visit, and whether reunification is attained.

(15) $4,234,000 of the home security fund account--state appropriation is provided solely for the crisis residential centers.
(16) The appropriations in this section reflect reductions in the appropriations for the children's administration expenses. It is the intent of the legislature that these reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or programs.

(17) Within the amounts appropriated in this section, the department shall contract for a pilot project with family and community networks in Whatcom county and up to four additional counties to provide services. The pilot project shall be designed to provide a continuum of services that reduce out-of-home placements and the lengths of stay for children in out-of-home placement. The department and the community networks shall collaboratively select the additional counties for the pilot project and shall collaboratively design the contract. Within the framework of the pilot project, the contract shall seek to maximize federal funds. The pilot project in each county shall include the creation of advisory and management teams which include members from neighborhood-based family advisory committees, residents, parents, youth, providers, and local and regional department staff. The Whatcom county team shall facilitate the development of outcome-based protocols and policies for the pilot project and develop a structure to oversee, monitor, and evaluate the results of the pilot projects. The department shall report the costs and savings of the pilot project to the appropriate committees of the legislature by November 1 of each year.

(21) The legislature intends for the department to reduce the time a child remains in the child welfare system. The department shall establish a measurable goal and report progress toward meeting that goal to the legislature by January 15 of each fiscal year of the 2009-11 fiscal biennium. To the extent that actual caseloads exceed those assumed in this section, it is the intent of the legislature to address those issues in a manner similar to all other caseload programs.

Children's administration case workers, local public health nurses and case workers from the temporary assistance for needy families program shall refer children to MTCC services, as long as the children meet the eligibility requirements as outlined in the Washington state plan for the MTCC services.
(25) The department shall contract for at least one pilot project with adolescent services providers to deliver a continuum of short-term crisis stabilization services. The pilot project shall include adolescent services provided through secure crisis residential centers, crisis residential centers, and hope beds. The department shall work with adolescent service providers to maintain availability of adolescent services and maintain the delivery of services in a geographically representative manner. The department shall examine current staffing requirements, flexible payment options, center-specific licensing waivers, and other appropriate methods to achieve savings and streamline the delivery of services. The legislature intends for the pilot project to provide flexibility to the department to improve outcomes and to achieve more efficient utilization of existing resources, while meeting the statutory goals of the adolescent services programs. The department shall provide an update to the appropriate legislative committees and governor on the status of the pilot project implementation by December 1, 2010.
(26) To ensure expenditures remain within available funds appropriated in this section as required by RCW 74.13A.005 and 74.13A.020, the secretary shall not set the amount of any adoption assistance payment or payments, made pursuant to RCW 26.33.320 and 74.13A.005 through 74.13A.080, to more than ninety percent of the foster care maintenance payment for that child had he or she remained in a foster family home during the same period. ((28) The appropriations in this section reflect reductions to the foster care maintenance payment rates during fiscal year 2011.)

Criminal Justice Costs and Crime Rates": Multidimensional treatment foster care, family integrated transitions, and aggression replacement training. The administration may concentrate delivery of these treatments and therapies at a limited number of programs to deliver the treatments in a cost-effective manner.

6. $1,287,000 of the general fund--state appropriation for fiscal year 2010 and $1,287,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for expansion of the following treatments and therapies in juvenile rehabilitation administration programs identified by the Washington state institute for public policy in its October 2006 report: "Evidence-Based Public Policy Options to Reduce Future Prison Construction. Criminal Justice Costs and Crime Rates": Multidimensional treatment foster care, family integrated transitions, and aggression replacement training. The administration may concentrate delivery of these treatments and therapies at a limited number of programs to deliver the treatments in a cost-effective manner.

7(a) For the fiscal year ending June 30, 2011, the juvenile rehabilitation administration shall administer a block grant, rather than categorical funding, of consolidated juvenile service funds, community juvenile accountability act grants, the chemical dependency disposition alternative funds, the mental health disposition alternative, and the sentencing disposition alternative for the purpose of serving youth adjudicated in the juvenile justice system. In making the block grant, the juvenile rehabilitation administration shall follow the following formula and will prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program-eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative: (i) Thirty-seven and one-half percent for the at-risk population of youth ten to seventeen years old; (ii) fifteen percent for moderate and high-risk youth; (iii) twenty-five percent for evidence-based program participation; (iv) seventeen and one-half percent for minority populations; (v) three percent for the chemical dependency disposition alternative; and (vi) two percent for the mental health and sentencing dispositional alternatives. Funding for the special sex offender disposition alternative (SSODA) shall not be included in the block grant, but allocated on the average daily population in juvenile courts. Funding for the evidence-based expansion grants shall be excluded from the block grant formula. Funds may be used for promising practices when approved by the juvenile rehabilitation administration and juvenile courts, through the community juvenile accountability act committee, based on the criteria established in consultation with Washington state institute for public policy and the juvenile courts.

(b) It is the intent of the legislature that the juvenile rehabilitation administration phase the implementation of the formula provided in subsection (1) of this section by including a stop-loss formula of three percent in fiscal year 2011, five percent in fiscal year 2012, and five percent in fiscal year 2013. It is further the intent of the legislature that the evidence-based expansion grants be incorporated into the block grant formula by fiscal year 2013 and SSODA remain separate unless changes would result in increasing the cost benefit savings to the state as identified in (c) of this subsection.

(c) The juvenile rehabilitation administration and the juvenile courts shall establish a block grant funding formula oversight committee with equal representation from the juvenile rehabilitation administration and the juvenile courts. The purpose of this committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. The committee will be cochaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the ability to change members of the committee as needed to achieve its purpose. Initial members will include one juvenile court representative from the finance
committee, the community juvenile accountability act committee, the risk assessment quality assurance committee, the executive board of the Washington association of juvenile court administrators, the Washington state center for court research, and a representative of the superior court judges association; two representatives from the juvenile rehabilitation administration headquarters program oversight staff, two representatives of the juvenile rehabilitation administration regional office staff, one representative of the juvenile rehabilitation administration fiscal staff and a juvenile rehabilitation administration division director. The committee may make changes to the formula categories other than the evidence-based program and disposition alternative categories if it is determined the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost benefit savings to the state. Long-term cost benefit must be considered. Percentage changes may occur in the evidence-based program or disposition alternative categories of the formula should it be determined the changes will increase evidence-based program or disposition alternative delivery and increase the cost benefit to the state. These outcomes will also be considered in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(d) The juvenile courts and administrative office of the courts shall be responsible for collecting and distributing information and providing access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. The juvenile rehabilitation administration and the juvenile courts will work collaboratively to develop program outcomes that reinforce the greatest cost benefit to the state in the implementation of evidence-based practices and disposition alternatives.

(e) By December 1, 2010, the Washington state institute for public policy shall report to the office of financial management and appropriate committees of the legislature on the administration of the block grant authorized in this subsection. The report shall include the criteria used for allocating the funding as a block grant and the participation targets and actual participation in the programs subject to the block grant.

(8) $3,700,000 of the Washington auto theft prevention authority account—state appropriation is provided solely for competitive grants to community organizations to provide at-risk youth intervention services, including but not limited to, case management, employment services, educational services, and street outreach intervention programs. Projects funded should focus on preventing, intervening, and suppressing behavioral problems and violence while linking at-risk youth to pre-social activities. The department may not expend more than $1,850,000 per fiscal year. The costs of administration must not exceed four percent of appropriated funding for each grant recipient. Each entity receiving funds must report to the juvenile rehabilitation administration on the number and types of youth served, the services provided, and the impact of those services upon the youth and the community.

(9) The appropriations in this section assume savings associated with the transfer of youthful offenders age eighteen or older whose sentences extend beyond age twenty-one to the department of corrections to complete their sentences. Prior to transferring an offender to the department of corrections, the juvenile rehabilitation administration shall evaluate the offender to determine the offender's physical and emotional suitability for transfer.

TOTAL APPROPRIATION

| ($1,078,092,000) | .......................................................... | $1,078,080,000 |

The appropriations in this subsection are subject to the following conditions and limitations:

(a) $113,689,000 of the general fund–state appropriation for fiscal year 2010 and $101,089,000 of the general fund–state appropriation for fiscal year 2011 are provided solely for persons and services not covered by the medicaid program. This is a reduction in fiscal year 2010 of $11,606,000 (per fiscal year) and in fiscal year 2011 of $24,206,000 from the nonmedicaid funding that was allocated for expenditure by regional support networks during fiscal year 2009 prior to supplemental budget reductions. These reductions shall be distributed among regional support networks proportional to each network's share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

(b) $10,400,000 of the general fund–state appropriation for fiscal year 2010, $8,814,000 of the general fund–state appropriation for fiscal year 2011, and $1,300,000 of the general fund–federal appropriation are provided solely for the department and regional support networks to contract for implementation of high-intensity program for active community treatment (PACT) teams. The department shall work with regional support networks and the center for medicare and medicaid services to integrate eligible components of the PACT service delivery model into medicaid capitation rates no later than January 2011, while maintaining consistency with all essential elements of the PACT evidence-based practice model.

(c) $6,500,000 of the general fund–state appropriation for fiscal year 2010 and $6,091,000 of the general fund–state appropriation for fiscal year 2011 are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care provided by the program for adaptive living skills (PALS) at western state hospital.

(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 617 per day during the first quarter of fiscal year 2010, 587 per day through the second quarter of fiscal year 2011, and 557 per day thereafter. Beds in the program for adaptive living skills (PALS) are not included in the preceding bed allocations. The department shall separately charge regional support networks for persons served in the PALS program.
(e) From the general fund—state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund—state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(f) $4,582,000 of the general fund—state appropriation for fiscal year 2010 and $4,582,000 of the general fund—state appropriation for fiscal year 2011 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(g) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(h) $750,000 of the general fund—state appropriation for fiscal year 2010 and $703,000 of the general fund—state appropriation for fiscal year 2011 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(i) $1,500,000 of the general fund—state appropriation for fiscal year 2010 and $1,500,000 of the general fund—state appropriation for fiscal year 2011 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(j) The department shall return to the Spokane regional support network fifty percent of the amounts assessed against the network during the last six months of calendar year 2009 for state hospital utilization in excess of its contractual limit. The regional support network shall use these funds for operation during its initial months of a new sixteen-bed evaluation and treatment facility that will enable the network to reduce its use of the state hospital, and for diversion and community support services for persons with dementia who would likely otherwise require care at the state hospital.

(k) The department is directed to identify and implement program efficiencies and benefit changes in its delivery of medicaid managed-care services that are sufficient to operate within the state and federal appropriations in this section. Such actions may include but are not limited to methods such as adjusting the care access standards; improved utilization management of ongoing, recurring, and high-intensity services; and increased uniformity in provider payment rates. The department shall ensure that the capitation rate adjustments necessary to accomplish these efficiencies and changes are distributed uniformly and equitably across all regional support networks statewide. The department is directed to report to the relevant legislative fiscal and policy committees at least thirty days prior to implementing rate adjustments reflecting these changes.

(l) In developing the new medicaid managed care rates under which the public mental health managed care system will operate during the five years beginning in fiscal year 2011, the department should seek to estimate the reasonable and necessary cost of efficiently and effectively providing a comparable set of medically necessary mental health benefits to persons of different acuity levels regardless of where in the state they live. Actual prior period spending in a regional administrative area shall not be a key determinant of future payment rates. The department shall report to the office of financial management and to the relevant fiscal and policy committees of the legislature on its proposed new waiver and mental health managed care rate-setting approach by October 1, 2009, and again at least sixty days prior to implementation of new capitation rates.

(m) In implementing the new public mental health managed care payment rates for fiscal year 2011, the department shall to the maximum extent possible within each regional support network's allowable rate range establish rates so that there is no increase or decrease in the total state and federal funding that the regional support network would receive if it were to continue to be paid at its October 2009 through June 2010 rates. The department shall additionally revise the draft rates issued January 28, 2010, to more accurately reflect the lower practitioner productivity inherent in the delivery of services in extremely rural regions in which a majority of the population reside in frontier counties, as defined and designated by the national center for frontier communities.

(n) $1,529,000 of the general fund—state appropriation for fiscal year 2010 and $1,529,000 of the general fund—state appropriation for fiscal year 2011 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(o) The legislature intends and expects that regional support networks and contracted community mental health agencies shall make all possible efforts to, at a minimum, maintain current compensation levels of direct care staff. Such efforts shall include, but not be limited to, identifying local funding that can preserve client services and staff compensation, achieving administrative reductions at the regional support network level, and engaging stakeholders on cost-savings ideas that maintain client services and staff compensation. For purposes of this section, "direct care staff" means persons employed by community mental health agencies whose primary responsibility is providing direct treatment and support to people with mental illness, or whose primary responsibility is providing direct support to such staff in areas such as client scheduling, client intake, client reception, client records-keeping, and facilities maintenance.

(p) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(2) INSTITUTIONAL SERVICES
The appropriations in this subsection are subject to the following conditions and limitations:

(a) The state psychiatric hospitals may use funds appropriated in this subsection to purchase goods and supplies through hospital group purchasing organizations when it is cost-effective to do so.

(b) $231,000 of the general fund--state appropriation for fiscal year 2008 and $216,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for a community partnership between western state hospital and the city of Lakewood to support community policing efforts in the Lakewood community surrounding western state hospital. The appropriations in this subsection are subject to the following conditions and limitations:

(a) Individuals receiving services as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

(b)(i) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients. In doing so, the department shall comply with all maintenance of effort requirements contained in the American reinvestment and recovery act.

(ii) $508,000 of the general fund--state appropriation for fiscal year 2011 and $822,000 of the general fund--federal appropriation are provided solely for the department to partially restore the reductions to in-home care that are taken in (b)(i) of this subsection. The department will use the same formula to restore personal care hours that it used to reduce personal care hours.

(c) Amounts appropriated in this section are sufficient to develop and implement the use of a consistent, statewide outcome-based vendor contract for employment and day services by April 1, 2011. The rates paid to vendors under this contract shall also be made consistent. In its description of activities the agency shall include activity listings and dollars appropriated for: Employment services, day services, child development services and county administration of services to the developmentally disabled. (ii) The federal portion of the amounts in this subsection (i and ii) is contingent upon federal approval of participation in contributions to the trust and shall remain unallotted and placed in reserve status until the office of financial management and the department of social and health services receive federal approval.

(iii) Expenditures for the purposes specified in this subsection (i and ii) shall not exceed the amounts provided in this subsection.

The amounts appropriated are sufficient to ensure that all individuals currently receiving services under the state-only employment and day and state-only residential programs who are not transferred to a department HCBS waiver will continue to receive services.

Excluded from the reductions are exceptional care rate add-ons. The long-term care program may develop add-ons to pay exceptional care rates to adult family homes and boarding homes with specialty contracts to provide support for the following specifically eligible clients:

Within amounts appropriated, exceptional add-on rates for AIDS/HIV, dementia specialty care, and expanded community services may be standardized within each program.

(j) The amounts appropriated in this subsection reflect a reduction in funds available for employment and day services. In administering this reduction the department shall negotiate with counties and their vendors so that this reduction, to the greatest extent possible, is achieved by reducing vendor rates and allowable contract administrative charges (overhead) and not through reductions to direct client services or direct service delivery or programs.

(15) The department shall establish waiting lists to the extent necessary to assure that annual expenditures on the community options program entry systems (COPES) program do not exceed appropriated levels. $254,974,000

TOTAL APPROPRIATION ......................................................................................... $9,726,413,000

The appropriations in this section are subject to the following conditions and limitations:

1. Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

2. In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

3. The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

4. When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

5. (In accordance with RCW 74.46.625) $6,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the
nursing homes’ as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the department’s discretion. During either the interim cost settlement or the final cost settlement, the department shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The department shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(6) $649,000 of the general fund--federal appropriation and $644,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(7) $5,729,000 of the general fund--state appropriation for fiscal year 2011, and $5,776,000 of the general fund--federal appropriation are provided solely for grants to nonurban hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2009-11 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit reports to the governor and legislature by November 1, 2009, and by November 1, 2010, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2010 and fiscal year 2011, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim paid by medical assistance and one hundred percent of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2009-11 biennial operating appropriations act (chapter 564, Laws of 2009) and in effect on July 1, 2009, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2009-11 biennium. If payments during the fiscal year exceed the hospital’s baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grants payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $20,403,000 of the general fund--state appropriation for fiscal year 2010, of which $6,570,000 is appropriated in section ((204(1))) 1104(1) of this act, and ((204(1))) 1104(1) of this act, are provided solely for grants for the participating hospitals. CPE hospitals will receive the inpatient and outpatient reimbursement rate restorations in section 9 and rate increases in section 10(1)(b) of Engrossed Second Substitute House Bill No. 2956 (hospital safety net assessment) funded through the hospital safety net assessment fund rather than through the baseline mechanism specified in this subsection.

(9) The department is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the department determines it is cost-effective to do so.

The department shall report to the governor and the legislative fiscal committees on the prospects for expansion of the program to other qualifying providers as soon as feasibility is determined but no later than December 31, 2009. The report will outline estimated impacts on the participating providers, the procedures necessary to comply with federal guidelines, and the administrative resource requirements necessary to implement the program. The appropriations in this section are subject to the following conditions and limitations:

1. The department of health shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department of health and the state board of health shall not implement any new or amended rules pertaining to primary and secondary school facilities until the rules and a final cost estimate have been presented to the legislature, and the legislature has formally funded implementation of the rules through the omnibus appropriations act or by statute. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation that provides appropriation authority, and an equal amount of appropriated state moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

2. In accordance with RCW 43.70.250 and 43.135.055, the department is authorized to establish and raise fees in fiscal year 2011 as necessary to meet the actual costs of conducting business and the appropriation levels in this section. This authorization applies to fees for the review of sewage tank designs, fees related to regulation and inspection of farmworker housing, and fees associated with the following professions: Acupuncture, dental, dentist, mental health counselor, nursing, nursing assistant, optometry, radiologic technologist, recreational therapy, respiratory therapy, social worker, cardiovascular invasive specialist, and practitioners authorized under chapter 18.240 RCW.

3. Pursuant to RCW 43.135.055 and RCW 43.70.250, the department is authorized to establish fees by the amount necessary to fully support the cost of activities related to the administration of long-term care worker certification. The department is further authorized to increase fees by the amount necessary to implement the regulatory requirements of the following bills: House Bill No. 1414 (health care assistants), House Bill No. 1740 (dental residency licenses), and House Bill No. 1899 (retired active physician licenses).

4. $764,000 of the health professions account--state appropriation is provided solely for the medical quality assurance commission to maintain disciplinary staff and associated costs sufficient to reduce the backlog of disciplinary cases and to continue to manage the disciplinary caseload of the commission.

5. $57,000 of the general fund--state appropriation for fiscal year 2010 and $54,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the midwifery licensure and regulatory program to offset a reduction in revenue from fees. Pursuant to RCW 43.135.055 and 43.70.125, the department is authorized to adopt rules to establish a fee schedule to apply to applicants for initial certification surveys of health care facilities for purposes of receiving federal health care program reimbursement. The fees shall only apply when the department has determined that federal funding is not sufficient to compensate the department for the cost of conducting initial certification surveys. The fees for initial certification surveys may be established as follows: Up to $1,815 for ambulatory surgery centers, up to $2,015 for critical access hospitals, up to $980 for end stage renal disease facilities, up to $2,285 for home health agencies, up to $2,285 for hospice agencies, up to $2,285 for hospitals, up to $520 for rehabilitation facilities, up to $690 for rural health clinics, and up to $7,000 for transplant hospitals.

Funding for family planning grants for fiscal year 2011 is reduced in the expectation that federal funding shall become available to expand coverage of services for individuals through programs at the department of social and health services. In the event that such funding is not provided, the legislature intends to continue funding through a supplemental appropriation at fiscal year 2010 levels. $4,360,000 of the general fund—state appropriation is provided solely for the department of health-funded family planning clinic grants due to federal funding not becoming available.

Sec. 1406. 2011 c 5 s 505 (uncodified) is amended to read as follows:
FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION—FOR SPECIAL EDUCATION PROGRAMS

General Fund—State Appropriation (FY 2010) .......................................................... $632,136,000
General Fund—State Appropriation (FY 2011) .......................................................... $626,099,000
General Fund—Federal Appropriation ...................................................................... $756,000

TOTAL APPROPRIATION .................................................................................. $1,365,922,000

The appropriations in this section are subject to the following conditions and limitations:
(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.
(2)(a) The superintendent of public instruction shall ensure that:
(i) Special education students are basic education students first;
(ii) As a class, special education students are entitled to the full basic education allocation; and
(iii) Special education students are basic education students for the entire school day.
(b) The superintendent of public instruction shall continue to implement the full cost method of excess cost accounting, as designed by the committee and recommended by the superintendent, pursuant to section 501(1)(k), chapter 372, Laws of 2006.
(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.
(4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: (a) The first category includes (i) children birth through age two who are eligible for the optional program for special education eligible developmentally delayed infants and toddlers, and (ii) students eligible for the mandatory special education program and who are age three or four, or five and not yet enrolled in kindergarten; and (b) the second category includes students who are eligible for the mandatory special education program and who are age five and enrolled in kindergarten and students age six through 21.
(5)(a) For the 2009-10 and 2010-11 school years, the superintendent shall make allocations to each district based on the sum of:
(i) A district’s annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten, as defined in subsection (4) of this section, multiplied by the district’s average basic education allocation per full-time equivalent student, multiplied by 1.15; and
(ii) A district’s annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district’s average basic education allocation per full-time equivalent student multiplied by 0.9309.
(b) For purposes of this subsection, “average basic education allocation per full-time equivalent student” for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools in the 2009-
(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age four enrollment and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, $19,512,000 of the general fund--state appropriation and $29,574,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If the federal safety net awards based on the federal eligibility threshold exceed the federal appropriation in this subsection (8) in any fiscal year, the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards. In the determination of need, the committee shall require that districts demonstrate that they are maximizing their eligibility for all state and federal revenues related to services for special education-eligible students. Awards associated with (b) and (c) of this subsection shall not exceed the total of a district's specific determination of need.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services. The safety net awards to school districts shall be adjusted to reflect amounts awarded under (b) of this subsection.

(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(f) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999. The state safety net oversight committee shall ensure that safety net documentation and awards are based on current medicaid revenue amounts.

(g) Beginning with the 2010-11 school year award cycle, the office of the superintendent of public instruction shall make award determinations for state safety net funding in August of each school year. Determinations on school district eligibility for state safety net awards shall be based on analysis of actual expenditure data from the current school year.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) The office of the superintendent of public instruction shall review and streamline the application process to access safety net funds, provide technical assistance to school districts, and annually survey school districts regarding improvement to the process.

(12) A maximum of $678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(13) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(14) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.

(15) $262,000 of the general fund--state appropriation for fiscal year 2010 and $251,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for two additional full-time equivalent staff to support the work of the safety net committee and to provide training and support to districts applying for safety net awards.

(16) $50,000 of the general fund--state appropriation for fiscal year 2010, $50,000 of the general fund--state appropriation for fiscal 2011, and $100,000 of the general fund--federal appropriation shall be expended to support a special education ombudsman program within the office of superintendent of public instruction.

Warehousing and distribution of spirits, including the lease and modernization of the state's spirits warehouse and distribution facilities and related operations. Representative Ormsby moved the adoption of amendment (850).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. FINDINGS. The legislature finds that it is in the public interest to seek revenue opportunities through leasing and modernizing the state's liquor warehousing and distribution facilities and related operations. The legislature finds that it is also in the public interest to conduct a competitive process to select a private sector lessee for this purpose. Nothing in this act is intended to affect the private distribution or sale of beer or wine, the operation by the state of state liquor stores, or the authority of the Washington state liquor control board to oversee, manage, and enforce state liquor sales.

NEW SECTION. Sec. 2. COMPETITIVE PROCUREMENT.
(1) Within one hundred twenty days after the effective date of this section, the office of financial management, in consultation with the Washington state liquor control board and the liquor distribution advisory committee, must establish and conduct a competitive process for the selection of a private sector entity to lease and modernize the state's liquor warehousing and distribution facilities and related operations. The competitive process must assume that the Washington state liquor control board retains its existing exclusive retail spirits sales business, be designed to encourage the participation of private sector entities with previous wholesale distribution experience with a public partner excluding licensees engaged in the manufacture of liquor or the retail sale of liquor in the state, and be designed to encourage competition among such entities.

(2)(a) To implement the competitive process required under subsection (1) of this section, the office of financial management must, after consultation with the Washington state liquor control board and the liquor distribution advisory committee, request proposals for:

(i) The lease of or other contract for the entire state liquor warehousing and distribution business, including the facilities, operations, and other assets associated with the warehousing of liquor and the distribution of liquor; and

(ii) The exclusive right to warehouse spirits and to distribute spirits in the state.

(b) The request for proposals must include without limitation:

(i) A requirement that proposals demonstrate to the satisfaction of the office of financial management relevant previous experience as well as the financial capacity to perform obligations under the contract;

(ii) A requirement that proposals demonstrate, to the satisfaction of the office of financial management, a net positive financial benefit to the state and local government over the term of the proposed lease or contract taking into account: An initial up-front payment to the state during the 2011-2013 biennium; proposed profit sharing payments to the state; projected business and occupation and liquor tax revenues; and changes to retail profits generated as a result of the lease or contract. The office of financial management, in consultation with the liquor distribution advisory committee and interested stakeholders, must develop a definition and criteria on how to determine "positive financial benefit to the state and local government";

(iii) A requirement that the prevailing proponent deposit into an escrow account, within fifteen business days after the announcement of selection of that proposal and definitive resolution of any appeals to such selection, the full amount of the initial up-front payment offered in the proponent's response to the request for proposals, pending and subject to successful negotiation of a mutually acceptable lease or other contract;

(iv) A requirement that proposals include a quantified commitment to invest in capital improvements to warehousing and distribution facilities and a mechanism to ensure that such investments are timely made, consistent with requirements in a mutually acceptable lease or contract;

(v) A requirement that proposals include a commitment to assume responsibility for the costs associated with the operation of liquor warehousing and distribution;

(vi) A requirement that proposals demonstrate to the satisfaction of the office of financial management a commitment to improved distribution including without limitation logistics and delivery improvements to state or contract liquor stores to reduce out-of-stock problems, improve service to stores located in geographically remote areas of the state, expand liquor selection, provide for bottle rather than minimum case purchasing and stocking of state or contract liquor stores, if practicable, and enable electronic funds transfer of payments;

(vii) A requirement that proposals include a commitment to offer employment to the state employees currently in positions relating to the wholesale distribution of liquor and to recognize and bargain with any existing bargaining representative of such employees with respect to terms and conditions of employment;

(viii) A requirement that the variety of brands and types of liquor available to licensees, contract liquor stores, and state liquor stores must be equal to or greater than what is being distributed by the Washington state liquor control board; and

(ix) Measurable standards for the performance of the contract.
(c) Prior to conducting the competitive process outlined in this section, the request for proposals developed by the office of financial management must be reviewed by the house and senate fiscal committees. Opportunity for public comment regarding the request for proposal must be provided. The review must be completed within fourteen days of the office of financial management providing the request for proposals to the house and senate fiscal committees.

(d) The office of financial management must publicly disclose an analysis of the fiscal impacts to state and local government of each of the offers in the procurement process.

(e) After consultation with the Washington state liquor control board, local government, and the liquor distribution advisory committee, the office of financial management is authorized to recommend to the Washington state liquor control board the proposal that in the determination of the office of financial management best meets the criteria required under this subsection (2), in the best interests of the state. If, in the determination of the office of financial management, there is no proposal that meets the best interest of the state, the office of financial management must notify the Washington state liquor control board to not accept any of the proposals.

(3) Any challenge to or protest of the recommendation of the office of financial management and the acceptance by the liquor control board of the recommended proposal must be filed by a respondent that submitted a proposal with the office of financial management within five days after such recommendation and acceptance. The grounds for such challenge or protest are limited to claims that the recommendation and acceptance were arbitrary and capricious. The office of financial management must, within five days, render its decision on the protest. The respondent that filed the protest may, within five days after such decision, appeal to the superior court of Thurston county by petition setting forth objections to the decision. A copy of the petition on appeal together with a notice that an appeal has been taken must be served upon the secretary of state, the attorney general, the office of financial management, the liquor control board, and the respondent that submitted the recommended and accepted proposal. The court must accord first priority to examining the objections, may hear arguments, and must, within ten days, render its decision. The decision of the superior court is final.

NEW SECTION. Sec. 3. CONTRACT. (1) Within sixty days after the recommendation of a proposal under section 2 of this act, the Washington state liquor control board may accept that proposal and enter into a long-term contract with that entity for the lease of the business, facilities, and assets associated with the warehousing and distribution of liquor in the state. The contract must grant the exclusive right to distribute spirits in the state for the period of the contract. The contract must include enforceable performance standards and minimum financial returns to the state. The contract must provide a provision that allows the state to terminate the contract should specific performance standards or financial returns to the state not be realized. The contract must provide for a reasonable termination notification process as well as financial terms of termination should termination of contract take place.

(2) If the state receives an up-front payment of one hundred million dollars or more as a result of accepting a proposal from the procurement process in section 2 of this act, the contract must provide that the private entity place the up-front payment into irrevocable trust with the state being the beneficiary. The contract must provide that the trust be created in a manner that the state may not receive more than one-sixth of the up-front payment placed into the trust in any fiscal year.

(3) The contract must contain provisions that the Washington state liquor control board maintains the exclusive authority to select products and determine which products will be carried in state and contract liquor stores.

(4) The contract must contain provisions that the Washington state liquor control board must set the prices of liquor for sales in state and contract liquor stores as well as sales to licensees.

(5) The contract must contain a provision that any financial deficiencies or losses of the private entity contracting for the warehousing and distribution of liquor in the state must not be compensated for in any way by the state, contract stores, consumers, or licensees.
