POINT OF PARLIAMENTARY INQUIRY

Representative Jinkins rose for a point of parliamentary inquiry and was recognized by the Speaker: "Mr. Speaker, what is the number of votes required for final passage of Substitute House Bill No. 2078?"

SPEAKER'S RULING

Mr. Speaker: “Article 2, section 22 of the Washington State Constitution requires the affirmative vote of a constitutional majority of the membership of the House, or 50 votes, for final passage of bills. Separate constitutional provisions for higher voting requirements in certain cases not relevant here, such as for constitutional amendments. RCW 43.135.034 imposes a supermajority requirement of 2/3 of the members for final passage of a measure that “raises taxes”. Subsection (6) of that section defines “raises taxes” as “any action or combination of actions by the legislature that increases state tax revenue deposited in any fund, budget, or account, regardless of whether the revenues are deposited into the general fund.” In determining whether a measure raises taxes as defined by the statute, the Speaker considers whether the money raised is revenue for general government purposes, which would be a tax, or a charge to a specific class of payors to provide a specific service or program related to that class, which would be a fee. Substitute House Bill No. 2078 repeals a business and occupation tax exemption on interest from first mortgages and directs the proceeds to class size reduction in kindergarten through third grade of our public schools, as contemplated by Initiative 728. The fiscal note for the bill indicates that its passage would result in an increase in state education legacy trust fund account. The funds would benefit the general public as a whole, and are properly characterized as a tax. RCW 43.135.034 therefore requires the affirmative vote of 2/3 of the members, or 66 votes, for final passage.”

POINT OF PARLIAMENTARY INQUIRY

Representative Pedersen rose for a point of parliamentary inquiry and was recognized by the Speaker: “Mr. Speaker, your previous ruling referenced the different vote requirements of Article 2, section 22 of the Washington State Constitution and RCW 43.135.034. Mr. Speaker, do you, as presiding officer of the House of Representatives, have the authority to determine whether the supermajority requirement of the statute violates the constitutional majority requirement of Article 2, section 22?”

SPEAKER'S RULING

Mr. Speaker: “Under long-standing precedent in this body, the Speaker does not have the authority to rule on the constitutionality of any statutory requirement. This institutional precedent is supported by centuries of American legal jurisprudence holding that only the courts may determine the constitutionality of a statute. In addition, if the Speaker were on his own authority to disregard a statute that has not been declared unconstitutional by the courts, doing so might constitute malfeasance for purposes of RCW 29A.56.110, potentially subjecting the Speaker to recall. Having personally faced this ambiguity for thirteen years, the Speaker would welcome clarification from the courts about how to resolve the differences between the provisions of the constitution and the statute.”

POINT OF PARLIAMENTARY INQUIRY

Representative Frockt rose for a point of parliamentary inquiry and was recognized by the Speaker: “Mr. Speaker, would an appeal under House Rule 22 authorize the members of this body to overturn the ruling you issued and determine that the supermajority requirement of RCW 43.35.034 is unconstitutional?”

SPEAKER’S RULING

Mr. Speaker: “No. House Rule 22 provides that any member of the House may appeal the ruling of the presiding officer to the body, which may sustain or overrule the Speaker’s ruling by a simple majority vote. However, neither House Rule 22 nor any other parliamentary device would authorize the members of this body to determine the constitutionality of the statutory supermajority requirement. The Speaker is aware of only one instance in Washington legislative history where the members of a legislative body have appealed and overturned the ruling of the presiding officer. In that instance, the President of the Senate ruled that a measure embraced multiple subjects in violation of Senate Rule 59. The members of the Senate appealed the ruling and overturned it. In Power, Inc. v. Hultby, 39 Washington Second 191, decided in 1951, the Washington Supreme Court found the measure to embrace multiple subjects in violation of Article 2, Section 19 of the Washington State Constitution and voided it in its entirety. The Supreme Court considered this issue de novo, without any deference to the previous procedural history in the Senate. This case illustrates a fundamental precept of the doctrine of separation of powers, that is, that determinations of constitutionality are solely within the province of the courts. While the Speaker and the members of this body have sworn an oath to uphold our state constitution, only the courts have the power to enforce its provisions.”

Representatives DeBolt, Orcutt, Chandler, Parker, Armstrong, Hinkle, Alexander, Klippert and Ross spoke against the passage of the bill.

The Speaker stated the question before the House to be the final passage of Substitute House Bill No. 2078.

ROLL CALL

The Clerk called the roll on the final passage of Substitute House Bill No. 2078, and the bill passed the House by the following vote: Yeas, 52; Nays, 42; Absent, 0; Excused, 4.

The Speaker called upon Representative Moeller to preside.

There being no objection, House Rule 13 (C) was suspended allowing the House to work past 10:00 p.m.

"NEW SECTION. Sec. 1. (1) The legislature finds that:
(a) The capital budget includes appropriations for the construction and repair of public schools, colleges and universities, prisons and juvenile rehabilitation facilities, state office buildings, housing for low-income and disabled persons, farm workers and others, parks, public infrastructure, and for other capital facilities and programs;
(b) The size of the capital budget is determined by the available bond capacity under the constitutional debt limit and by moneys available from dedicated accounts, trust revenue, and other funding sources; .................................................................
(c) Approximately half of the capital budget is financed with state-issued general obligation bonds, which pledge the full faith and taxing power of the state toward payment of debt service; and
(d) The capital budget has limited purpose if there is no bond authorization bill to finance appropriations.
(2) The legislature therefore intends to increase the transparency and clarity of the uses and sources of the capital budget for the 2011 supplemental and 2011-2013 fiscal biennium by combining in one bill the authorization of state general obligation bonds with the appropriations that they support.

NEW SECTION. Sec. 2. (1) A capital budget is hereby adopted and, subject to the provisions set forth in this act, the several dollar amounts hereinafter specified, or so much thereof as shall be sufficient to accomplish the purposes designated, are hereby appropriated and authorized to be incurred for capital projects during the period beginning with the effective date of this act and ending June 30, 2013, out of the several funds specified in this act.
(2) The appropriations in this act are appropriations for capital purposes from proceeds of general obligation and other bonds. Appropriations in this act may not necessarily represent all expenditures authorized for a particular project for the 2011-2013 fiscal biennium. For some projects receiving appropriations in this act, additional appropriations from other sources for those projects may also be contained in chapter . . . ., Laws of 2011 (House Bill No. 1997).
(3) The definitions in this subsection apply throughout this act unless the context clearly requires otherwise.
(a) "Fiscal year 2012" or "FY 2012" means the period beginning July 1, 2011, and ending June 30, 2012.
(b) "Fiscal year 2013" or "FY 2013" means the period beginning July 1, 2012, and ending June 30, 2013.
(c) "Lapse" or "revert" means the amount shall return to an unappropriated status.
(d) "Provided solely" means the specified amount may be spent only for the specified purpose.
(4) Unless otherwise specifically authorized in this act, any portion of an amount provided solely for a specified purpose that is not expended subject to the specified conditions and limitations to fulfill the specified purpose shall lapse.
(5) The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2011-2013 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.
(6) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2011, from the 2009-2011 biennial appropriations for each project.

NEW SECTION, Sec. 3023. FOR THE DEPARTMENT OF ECOLOGY
Kittitas Groundwater Study (30000029)

The reappropriation in this section is subject to the following conditions and limitations:

1. Funds may be provided to develop and implement water banking and transfer methods and agreements that are fully protective of senior water rights and that protect domestic groundwater users and improve the profitability of farming operations. The legislature finds such activities to be in the public interest because they can help sustain the viability of the agricultural economy and enhance the certainty of water supplies for domestic groundwater users.

2. Funds may be provided to lease or purchase water rights to create a reserve water supply for domestic groundwater users that have a groundwater right with a priority date later than May 10, 1905, as well as for all out-of-priority groundwater users. In securing water for such domestic groundwater users, strong preference shall be given to the use of water banking and transfer methods that provide alternatives to permanent purchase and dry-up of agricultural water rights in the basin, including dry-year options, water banking, long-term water supply lease agreements, long-term agricultural land fallowing agreements, and reduced consumptive use through efficiency or alternative cropping arrangements while maintaining historic return flows.

3. A portion of the reappropriation may be used for administrative costs, not to exceed four percent, and other costs associated with leasing or acquiring and transferring the water rights. All costs shall be fully recovered from participating domestic water users for their prorated portion of the cost, including but not limited to the costs of securing a water right or rights for this purpose, costs associated with the development and implementation of alternative agricultural water transfer methods, associated annual operational costs, and federal water service contract costs owed to the United States bureau of reclamation. Funds recovered in this manner shall be deposited in the state and local improvement revolving fund and may be used for any purpose provided in this section.

The appropriation in this section is provided solely for grants for projects that improve water supplies and help achieve instream flows by implementing watershed plans, as follows:

1. Surface or groundwater storage feasibility projects, where such projects are consistent with the recommendations of the water storage task force report to the legislature, February 2001 (Ecology Publication # 01 11 2002). The department shall consult the department of fish and wildlife before issuing water storage grants.

2. Infrastructure or water management projects that resolve conflicts among water needs for municipal, agricultural, rural, and fish restoration purposes. The stream flow improvements and other public benefits secured from these projects must be commensurate with the investment of state funds.

3. Purchase and installation of water measuring devices in salmon critical basins and areas participating in the department of fish and wildlife fish screening and cooperative compliance program, and basins where watershed plans call for additional water use or stream flow measurement.

4. Acquisition of water to achieve instream flows or to establish water banks, water exchanges or similar tools. The department of ecology shall give priority to water acquisitions in salmon critical basins and in basins with adopted watershed plans (chapter 90.82 RCW). The department shall place acquired water into the state's trust water rights program (chapters 90.38 and 90.42 RCW). $2,000,000 of the appropriation is provided solely for acquisition of water rights that will be placed into the state's trust water rights program specifically and only for instream flow purposes and not for water banks, water exchanges and similar tools that are for mitigation of existing or future water supply needs and other beneficial uses other than in stream flows.

NEW SECTION. Sec. 3111. FOR THE DEPARTMENT OF NATURAL RESOURCES
Trust Land Transfer (30000200)
The appropriation in this section is subject to the following conditions and limitations:

(1) The total appropriation is provided solely to the department to transfer from trust status, or enter into fifty year leases for, certain trust lands of statewide significance deemed appropriate for state park, fish and wildlife habitat, natural area preserve, natural resources conservation area, open space, or recreation purposes. The approved list of properties for lease or transfer is identified in the LEAP capital document No. 2011-4B, developed April 11, 2011.

(2) Property transferred under this section must be appraised and transferred at fair market value. No later than September 30, 2011, the department must deposit in the common school construction account the portion of the appropriation in this section that represents the estimated value of the timber on the transferred properties. This transfer must be made in the same manner as timber revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040. The portion of the appropriation in this section that represents the value of the land transferred must be deposited in the natural resources real property replacement account.

(3) Property subject to lease agreements under this section must be appraised at fair market value. Lease terms must be fifty years with options to renew for an additional fifty years. Lease payments must be lump sum payments for the entire term of the lease at the beginning of the lease. The department shall calculate such lump sum payments using professional appraisal standards. These lease payments may not exceed the fee simple purchase price based on current fair market value and must be deposited by the department to the common school construction account in the same manner as lease revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040. No later than September 30, 2011, the department must transfer to the common school construction account the portion of the appropriation in this section that is attributable to receipts from lease payments.

(4) All reasonable costs incurred by the department to implement this section are authorized to be paid out of the appropriations. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs and shall not exceed one and nine-tenths percent of the appropriation.

(5) Intergant exchanges between common school and other trust lands of equal value may occur if the exchange is in the interest of each trust, as determined by the board of natural resources.

(6) Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer and lease agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose. Transfer and lease agreements may include provisions for receiving agencies to request alternative uses of the property, provided the alternative uses are compatible with the original intended public purpose and the department and legislature approves such uses.

(7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

(8) $53,231,000 of the appropriation must be deposited in the common school construction account by September 30, 2011. The department shall execute trust land transfers so that after the deduction of reasonable costs as provided in subsection (4) of this section on an aggregate basis eighty percent of the total value of transferred property is timber value or lease payments and is deposited in the common school construction account. To achieve the eighty percent requirement, the department may choose to lease properties originally intended as transfers or transfer properties originally intended as leases.

(9) By June 30, 2013, the state treasurer shall transfer to the common school construction account any unexpended balance of the appropriation in this section.

(10) $500,000 of the appropriation is provided solely for the department to process the fee transfer of properties leased to the department of fish and wildlife through the trust land transfer program during the current or previous biennium.

Replacing State Forest Lands with Productive Forests (91000029)

The appropriation in this section is subject to the following conditions and limitations:

(1) The total appropriation is provided solely to the department to transfer from state forest land status to natural resources conservation area status certain state forest lands in counties with a population of 25,000 or less which are subject to timber harvest deferrals greater than thirty years due to the presence of wildlife listed as endangered or threatened under the federal endangered species act. The approved list of properties for transfer is identified in the LEAP capital document No. 2011-5A, developed March 24, 2011.

(2) Property transferred under this section must be appraised and transferred at fair market value, without consideration of management or regulatory encumbrances associated with wildlife species listed under the federal endangered species act. The value of the timber and other valuable materials transferred must be distributed as provided in RCW 79.64.110, in the same manner as valuable material revenues from other state forest lands in the applicable counties. The value of the land transferred must be deposited in the park land trust revolving account and be solely used to buy replacement state forest land within the same county as the property transferred, consistent with RCW 79.22.060.

(3) Prior to or concurrent with conveyance of these properties, the department shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose.

(4) The department and applicable counties shall work in good faith to carry out the intent of this section. However, the department or applicable counties may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the state forest trust or the natural resources conservation area program.

The appropriation in this section is subject to the following conditions and limitations:
(1) The appropriation is provided solely for energy operational cost savings improvements to school facilities.
(2) Grants shall be awarded for projects using the energy savings performance contracting method under chapter 39.35C RCW or an equivalent method of evaluating and delivering energy operational costs savings improvements. Projects that do not use energy savings performance contracting must: (a) Verify energy and operational cost savings for ten years or until the energy and operational costs savings pay for the project, whichever is shorter; (b) follow the department of general administration's energy savings performance contracting method guidelines; and (c) employ a licensed engineer for the energy audit, design, and construction. The office of the superintendent of public instruction may require third-party verification of savings if a project is not implemented by an energy savings performance contracting method as outlined in chapter 39.35C RCW. If required, third-party verification must be conducted either by an energy savings performance contractor qualified by the department of general administration, or a licensed engineer that is a certified energy manager.
(3) Projects must be weighted and prioritized based on the following criteria and in the following order:
(a) Prior grant award: Priority consideration shall be given to applicants that did not receive grant awards from appropriations provided in sections 1016 and 5007, chapter 36, Laws of 2010 1st sp. sess.;
(b) Leverage ratio: The higher the leverage ratio of guaranteed energy savings and utility or other incentives to state grant, the higher the project ranking;
(c) Energy savings: The higher the simple payback for energy savings, not to exceed the useful life of the energy conservation measure, the higher the project ranking; and
(d) Persistence: The more extensively a project ensures the persistence of energy operational cost savings through ongoing measurement, verification, and reporting over the life of a project, the higher the project ranking.

(4) In order to be eligible for energy cost savings grants under this section, school districts must complete an investment grade audit prior to

(5)(a) The superintendent of public instruction must use bond proceeds to pay one-half of the preliminary audit, up to five cents per square foot, if the project does not meet the school district's predetermined cost-effectiveness criteria. Public school districts must pay the other one-half of the cost of the preliminary audit if the project does not meet their predetermined cost-effectiveness criteria.
(b) The energy savings performance contractor shall not charge for an investment grade audit if the project does not meet the school district's predetermined cost-effectiveness criteria. Public school districts must pay the full price of an investment grade audit if they do not proceed with a project that meets the school district's predetermined cost-effectiveness criteria.

(6) Applicants must submit documentation that demonstrates energy and operational cost savings resulting from the installation of the energy equipment and improvements. The energy savings analysis shall be performed by a licensed engineer, and the documentation must include, but is not limited to, the following:
(i) A description of the energy equipment and improvements; and
(ii) A description of the energy and operational cost savings.

FOR THE DEPARTMENT OF ((COMMUNITY, TRADE, AND ECONOMIC DEVELOPMENT)) COMMERCE

Temporary Public Works Grant Program (92000021)

The appropriation in this section is subject to the following conditions and limitations: The appropriation is provided solely for grants for the specified public works projects and competitive public works grant programs specified below. The public works board (board) shall administer the following competitive public works grant programs within the amounts specified, provided that up to ten percent of the amounts provided for competitive grant programs may be transferred to other competitive grant categories if acceptable applications for any category do not total the amount available.

(1) $9,531,000 is provided solely for a competitive public works grant program for local governments serving communities in rural counties as defined in RCW 43.160.020. The board shall prioritize applications for funding for this small community jobs program based on the following criteria:

(a) The unemployment rate of the community;
(b) The ability of the applicant to complete the project promptly; and
(c) The value the project presents to the community in lasting improvements to public safety, environmental quality, recreation and community life, or economic development.

(2) $9,531,000 is provided solely for a competitive public works grant program for local governments serving high density urban communities. The board shall prioritize applications for funding from this urban vitality program based on the following criteria:

(a) The proposed project's ability to decrease the per capita vehicle miles driven in the community by increasing access to mass transit, supporting residential density in proximity to employment opportunities, and improving the safety and appeal of walking and biking in a community;
(b) The ability of the applicant to complete the project promptly; and
(c) The local support for the project as indicated by the level of local matching funds devoted to the project. Local matching funds do not include funds from other state sources.

(3) The state taxable building construction account--state appropriation is provided solely for emergency loans under RCW 43.155.065.

(4) ($23,535,000) $21,528,000 is provided solely for the following list of projects. Sec. 6017. 2010 1st. sp.s. c 36 s 1016 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF COMMERCE**

Jobs Act for K-12 Public Schools and Higher Education Institutions (91000085)

The appropriation in this section is subject to the following conditions and limitations:

1. The appropriation is provided solely for grants to public school districts and public higher education institutions for operational cost savings improvements to public school district and higher education facilities and related projects that result in energy and operational cost savings. Related projects are those projects that must be completed in order for the energy efficiency improvements to be effective. Grants may also be used for loan interest payments over the term of a loan.

2. The department of commerce, in consultation with the department of general administration, the office of the superintendent of public instruction, and the Washington State University energy program shall establish a competitive process to solicit and evaluate applications from public school districts and public higher education institutions. Final grant awards shall be determined by the department of commerce.

3. The definitions in this section apply throughout this section.

(a) "Cost-effectiveness" means that the present value to public school districts and public higher education institutions of the energy reasonably expected to be saved or produced by a facility, activity, measure, or piece of equipment over its useful life, including any compensation received from a utility or the Bonneville power administration, is greater than the net present value of the costs of implementing, maintaining, and operating such facility, activity, measure, or piece of equipment over its useful life, when discounted at the cost of public borrowing.

(b) "Energy equipment" means energy management systems and any equipment, materials, or supplies that are expected, upon installation, to reduce the energy use or energy cost of an existing building or facility, and the services associated with the equipment, materials, or supplies, including but not limited to design, engineering, financing, installation, project management, guarantees, operations, and maintenance. Reduction in energy use or energy cost may also include reductions in the use or cost of water, wastewater, or solid waste.

(c) "Energy cost savings" means savings realized in expenses for energy use and expenses associated with water, wastewater, or solid waste systems.

(d) "Energy savings performance contracting" means the process authorized by chapter 39.35C RCW by which a company contracts with a public agency to conduct energy audits and guarantee energy savings from energy efficiency.

(e) "Operational cost savings" means savings realized from parts, service fees, capital renewal costs, and other measurable annual expenses to maintain and repair systems. This definition does not mean labor savings related to existing facility staff.
(f) "Public facilities" means buildings, building components, and major equipment or systems owned by public school districts and public higher education institutions.

(g) "Innovative measures" means advanced or emerging technologies, systems or approaches that may not yet be in common practice but improve energy efficiency, accelerate deployment, or reduce energy usage, and become widely commercially available in the future if proven successful in demonstration programs without compromising the guaranteed performance or measurable energy and operational cost savings anticipated. Examples of innovative measures include, but are not limited to, advanced energy and systems operations monitoring, diagnostics and controls systems for buildings; novel heating, cooling, ventilation and water heating systems; advanced windows and insulation technologies, highly efficient lighting technologies, designs, and controls; and integration of renewable energy sources into buildings, and energy savings verification technologies and solutions.

(4) Grants must be awarded in competitive rounds, based on demand and capacity, with at least five percent of each grant round awarded to small public school districts with fewer than 1,000 full-time equivalent students, based on demand and capacity.

(5) Within each competitive round, projects must be weighted and prioritized based on the following criteria and in the following order:
(a) Leverage ratio: In each round, the higher the leverage ratio of nonstate funding sources to state jobs act grant, the higher the project ranking.
(b) Energy savings: In each round, the higher the energy savings, the higher the project ranking. Applicants must submit documentation that demonstrates energy and operational cost savings resulting from the installation of the energy equipment and improvements. The energy savings analysis shall be performed by a licensed engineer, and the documentation must include but is not limited to the following:
   (i) A description of the energy equipment and improvements;
   (ii) A description of the energy and operational cost savings; and
   (iii) A description of the extent to which the project employs collaborative and innovative measures and encourages demonstration of new and emerging technologies with high energy-savings or energy cost-reductions.
(c) Expediency of expenditure: Project readiness to spend funds must be prioritized so that the legislative intent to expend funds quickly is met.

(6) Projects that do not use energy savings performance contracting must:
(a) Verify energy and operational cost savings for ten years or until the energy and operational costs savings pay for the project, whichever is shorter; (b) follow the department of general administration's energy savings performance contracting project guidelines; and (c) employ a licensed engineer for the energy audit and construction. The department of commerce may require third-party verification of savings if a project is not implemented by an energy savings performance contractor selected by the department of general administration through the request of qualifications process. Third-party verification must be conducted either by an energy savings performance contractor selected by the department of general administration through a request for qualifications, a licensed engineer that is a certified energy manager, a project resource conservation manager, or educational service district resource conservation manager.

(7) To intensify competition, the department of commerce may only award funds to the top eighty-five percent of projects applying in a round until the department of commerce determines a final round is appropriate. Projects that do not receive a grant award in one round may reapply in subsequent rounds.

(8) To match federal grants and programs that require state matching funds and produce significantly higher efficiencies in operations and utilities, the level of innovation criteria may be increased for the purposes of weighted scoring to capture those federal dollars for selected projects that require a higher level of innovation and regional collaboration.

(9) Grant amounts awarded to each project must allow for the maximum number of projects funded with the greatest energy and cost benefit.

(10)(a) The department of commerce must use bond proceeds to pay one-half of the preliminary audit, up to five cents per square foot, if the project does not meet the school district's and higher education institution's predetermined cost-effectiveness criteria. Public school districts and public higher education institutions must pay the other one-half of the cost of the preliminary audit if the project does not meet their predetermined cost-effectiveness criteria.

(b) The energy savings performance contractor shall not charge for an investment grade audit if the project does not meet the school district's and higher education institution's predetermined cost-effectiveness criteria. Public school districts and public higher education institutions must pay the full price of an investment grade audit if they do not proceed with a project that meets the school district's and higher education institution's predetermined cost-effectiveness criteria.

(11) The department of commerce may charge projects administrative fees and may pay the department of general administration, the Washington State University energy program, and the office of the superintendent of public instruction administration fees in an amount determined through a memorandum of understanding.

(12) The department of commerce and the department of general administration must submit a joint report to the appropriate committees of the legislature and the office of financial management on the timing and use of the grant funds, program administrative function, compliance with apprenticeship utilization requirements in RCW 39.04.320, compliance with prevailing wage requirements, and administration fees by the end of each fiscal year, until the funds are fully expended and all savings verification requirements are fulfilled.

PART 7

BOND AUTHORIZATION

NEW SECTION.  Sec. 7001.  For the purpose of providing funds to finance the projects described and authorized by the legislature in the capital and operating appropriations acts for the 2009-2011 and 2011- 2013 fiscal bienniums, and all costs incidental thereto, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of one billion one hundred twenty- two million dollars, or as much thereof as may be required, to finance these projects and all costs incidental thereto.  Bonds authorized in this section may be sold at such price as the state finance committee shall determine.  No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

NEW SECTION.  Sec. 7002.  (1) The proceeds from the sale of the bonds authorized in section 7001 of this act shall be deposited in the state building construction account created by RCW 43.83.020.  The proceeds shall be transferred as follows:
(a) One billion seven million dollars to remain in the state building construction account created by RCW 43.83.020;
(b) Twenty million two hundred thousand dollars to the outdoor recreation construction account created by RCW 79A.25.060;
(c) Twenty million two hundred thousand dollars to the habitat conservation account created by RCW 79A.15.020;
(d) Eight hundred thousand dollars to the riparian protection account created by RCW 79A.15.120;
(e) Eight hundred thousand dollars to the farmlands preservation account created by RCW 79A.15.130;
(f) Fifty-one million dollars to the state taxable building construction account. All receipts from taxable bond issues are to be deposited into the account. If the state finance committee deems it necessary or advantageous to issue more than the amount specified in this subsection (1)(f) as taxable bonds in order to comply with federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds or in order to reduce the total financing costs for bonds issued, the proceeds of such additional taxable bonds shall be transferred to the state taxable building construction account in lieu of any transfer otherwise provided by this section. If the state finance committee determines that a portion of the amount specified in this subsection (1)(f) as taxable bonds may be issued as nontaxable bonds in compliance with federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds, then such bond proceeds shall be transferred to the state building construction account in lieu of the transfer to the state taxable building construction account otherwise provided by this subsection (1)(f).

The state treasurer shall submit written notice to the director of financial management if it is determined that any such additional transfer to the state taxable building construction account is necessary or that a transfer from the state taxable building construction account to the state building construction account may be made. Moneys in the account may be spent only after appropriation.

(2) These proceeds shall be used exclusively for the purposes specified in this section and for the payment of expenses incurred in the issuance and sale of the bonds issued for the purposes of this section, and shall be administered by the office of financial management subject to legislative appropriation.

NEW SECTION. Sec. 7003. (1) The debt-limit general fund bond retirement account shall be used for the payment of the principal of and interest on the bonds authorized in section 7002(1)(a) through (f) of this act.
(2) The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet the bond retirement and interest requirements on the bonds authorized in section 7002(1)(a) through (f) of this act.
(3) On each date on which any interest or principal and interest payment is due on bonds issued for the purposes of section 7002(1)(a) through (f) of this act, the state treasurer shall withdraw from any general state revenues received in the state treasury and deposit in the debt-limit general fund bond retirement account an amount equal to the amount certified by the state finance committee to be due on the payment date.

NEW SECTION. Sec. 7004. (1) Bonds issued under sections 7001 through 7003 of this act shall state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state of Washington, and shall be administered by the office of financial management subject to the payment of the principal and interest as the same shall become due.
(2) The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section.

NEW SECTION. Sec. 7005. The legislature may provide additional means for raising moneys for the payment of the principal of and interest on the bonds authorized in section 7001 of this act, and sections 7002 and 7003 of this act shall not be deemed to provide an exclusive method for the payment.

NEW SECTION. Sec. 7006. A new section is added to chapter 43.99I RCW to read as follows:
If any bonds authorized in this chapter have not been issued by June 30, 2013, the authority of the state finance committee to issue such remaining unissued bonds shall expire June 30, 2013.

NEW SECTION. Sec. 7008. A new section is added to chapter 43.99P RCW to read as follows:
If any bonds authorized in this chapter have not been issued by June 30, 2013, the authority of the state finance committee to issue such remaining unissued bonds shall expire June 30, 2013.

Sec. 7009. RCW 43.99Q.130 and 2009 c 500 s 10 are each amended to read as follows:
(1) For the purpose of providing funds for the planning, design, construction, and other necessary costs for the rehabilitation of the state legislative building, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of eighty-two million five hundred ten thousand dollars or as much thereof as may be required to finance the rehabilitation and improvements to the legislative building and all costs incidental thereto. The approved rehabilitation plan includes costs associated with earthquake repairs and future earthquake mitigation and allows for associated relocation costs and the acquisition of appropriate relocation space. Bonds authorized in this section may be sold at a price the state finance committee determines. No bonds authorized in this section may be sold at a price the state finance committee determines. The proceeds of the sale of the bonds issued for the purposes of this section shall be deposited in the capitol historic district construction account hereby created in the state treasury. These proceeds shall be used exclusively for the purposes specified in this section and for the payment of expenses incurred in the issuance and sale of the bonds issued for the purposes of this section, and shall be administered by the office of financial management subject to legislative appropriation.

NEW SECTION. Sec. 7011. Sections 7001 through 7005 of this act constitute a new chapter in Title 43 RCW.

PART 8

MISCELLANEOUS PROVISIONS

NEW SECTION. Sec. 8001. (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management and in compliance with RCW 43.88.110. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110.
appropriations are carried out in accordance with legislative intent, funds appropriated in this act shall not be allotted until project lists are on file at the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee. All projects must meet the criteria included in subsection (2)(a) of this section. Revisions to the lists must be filed with the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee and include an explanation of variances from the prior lists before funds may be expended on the revisions.

(2)(a) Minor works projects are single line appropriations that include multiple projects of a similar nature and that are valued between $25,000 and $1,000,000 each, with the exception of higher education minor works projects that may be valued up to $2,000,000. These projects can generally be completed within two years of the appropriation with the funding provided. Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed $1,000,000, or $2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(c) Minor works preservation projects may include program improvements of no more than twenty-five percent of the individual minor works preservation project cost.

(3) It is generally not the intent of the legislature to make future appropriations for capital expenditures or for maintenance and operating expenses for an acquisition project or a significant expansion project that is initiated through the minor works process and therefore does not receive a policy and fiscal analysis by the legislature. Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

NEW SECTION. Sec. 8004. (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if:
(a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) The office of financial management shall report any transfer effected under this section to the house of representatives capital budget committee, the senate ways and means committee, and the legislative evaluation and accountability program committee, at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers in excess of $5,000,000 shall not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign. The predesign document shall include but not be limited to program, site, and cost analysis in accordance with the predesign manual adopted by the office of financial management. To improve monitoring of major construction projects, progress reports shall be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports will be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

NEW SECTION. Sec. 8003. (1) To ensure minor works appropriations are carried out in accordance with legislative intent, funds appropriated in this act shall not be allotted until project lists are on file at the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee. All projects must meet the criteria included in subsection (2)(a) of this section. Revisions to the lists must be filed with the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee and include an explanation of variances from the prior lists before funds may be expended on the revisions.

(2)(a) Minor works projects are single line appropriations that include multiple projects of a similar nature and that are valued between $25,000 and $1,000,000 each, with the exception of higher education minor works projects that may be valued up to $2,000,000. These projects can generally be completed within two years of the appropriation with the funding provided. Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed $1,000,000, or $2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(c) Minor works preservation projects may include program improvements of no more than twenty-five percent of the individual minor works preservation project cost.

(3) It is generally not the intent of the legislature to make future appropriations for capital expenditures or for maintenance and operating expenses for an acquisition project or a significant expansion project that is initiated through the minor works process and therefore does not receive a policy and fiscal analysis by the legislature. Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

NEW SECTION. Sec. 8004. (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if:
(a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) The office of financial management shall report any transfer effected under this section to the house of representatives capital budget committee, the senate ways and means committee, and the legislative evaluation and accountability program committee, at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer. The governor's capital budget request following any transfer shall reflect that transfer in the affected agency.

NEW SECTION. Sec. 8005. (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

NEW SECTION. Sec. 8006. State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.

"NEW SECTION, Sec. 1. (1) A capital budget is hereby adopted and, subject to the provisions set forth in this act, the several dollar amounts hereinafter specified, or so much thereof as shall be sufficient to accomplish the purposes designated, are hereby appropriated and authorized to be incurred for capital projects during the period beginning with the effective date of this act and ending June 30, 2013, out of the several funds specified in this act.

(2) The definitions in this subsection apply throughout this act unless the context clearly requires otherwise.

(a) "Fiscal year 2012" or "FY 2012" means the period beginning July 1, 2011, and ending June 30, 2012.

(b) "Fiscal year 2013" or "FY 2013" means the period beginning July 1, 2012, and ending June 30, 2013.

(c) "Lapse" or "revert" means the amount shall return to an unappropriated status.

(d) "Provided solely" means the specified amount may be spent only for the specified purpose.

(3) The appropriations in this act are appropriations for capital purposes from sources other than bond proceeds. Appropriations in this act may not necessarily represent all expenditures authorized for a particular project for the 2011-2013 fiscal biennium. For some projects receiving appropriations in this act, additional appropriations from other sources for those projects may also be contained in chapter . . . . Laws of 2011 (House Bill No. 2020).

(4) Unless otherwise specifically authorized in this act, any portion of an amount provided solely for a specified purpose that is not expended subject to the specified conditions and limitations to fulfill the specified purpose shall lapse.

(5) The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2011-2013 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

(6) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2011, from the 2009-2011 biennial appropriations for each project.

Reappropriation:

Puget Sound Initiative - Nearshore Salmon Restoration (20062001)

The reappropriations in this section are subject to the following conditions and limitations:

1. The reappropriations are provided solely for efforts to restore nearshore habitat and estuaries in Puget Sound. The department of fish and wildlife must focus on restoring natural nearshore processes, including protection and restoration of beach sediments and removal of existing bulkheads.

2. The department of fish and wildlife shall provide the Puget Sound partnership, as created by chapter 341, Laws of 2007, the opportunity to review and provide comment on proposed projects and activities recommended for funding. This review must be consistent with the funding schedule for the program.

3. Funded projects require a nonstate match or in-kind contributions. The department of fish and wildlife must seek to maximize the amount of nonstate match from local, state, tribal, and federal partners. Individual projects require a minimum 33 percent cash or in-kind match.

4. Eligible projects must be within Puget Sound and identified by a salmon recovery lead entity or marine resource committee and identified in a current salmon recovery, watershed, or nearshore habitat restoration and protection plan.

5. Project evaluation criteria must be developed by the Puget Sound nearshore steering committee. The criteria must be consistent with the technical guidance developed by the Puget Sound nearshore science team and shall be coordinated with the salmon recovery funding board to ensure that project funding and matching requirements are maximized to the greatest extent possible.

6. The department of fish and wildlife must not utilize any amount of these reappropriations to support administration or overhead. Funding to support the administration of the funds and the implementation of selected projects must be obtained from the department of fish and wildlife's operating budget.

7. In recognition of the urgent need to complete the Puget Sound nearshore ecosystem restoration project general investigation, up to $1,446,000 of these reappropriations may be used to match federal funds implementing the cost-share agreement between the department and the United States Army Corps of Engineers.

8. Up to $2,061,735 of the reappropriations are provided solely for the following projects:

All projects must meet the criteria included in subsection (2)(a) of this section. Revisions to the lists must be filed with the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee and include an explanation of variances from the prior lists before funds may be expended on the revisions.

(2)(a) Minor works projects are single line appropriations that include multiple projects of a similar nature and that are valued between $25,000 and $1,000,000 each, with the exception of higher education minor works projects that may be valued up to $2,000,000. These projects can generally be completed within two years of the appropriation with the funding provided. Agencies are prohibited from including projects on
their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed $1,000,000, or $2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(c) Minor works preservation projects may include program improvements of no more than twenty-five percent of the individual minor works preservation project cost.

(3) It is generally not the intent of the legislature to make future appropriations for capital expenditures or for maintenance and operating expenses for an acquisition project or a significant expansion project that is initiated through the minor works process and therefore does not receive a policy and fiscal analysis by the legislature. Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

NEW SECTION. Sec. 7004. (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) The office of financial management shall report any transfer effected under this section to the house of representatives capital budget committee, the senate ways and means committee, and the legislative evaluation and accountability program committee, at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer. The governor's capital budget request following any transfer shall reflect that transfer in the affected agency.

Sec. 7005. RCW 39.35B.050 and 2007 c 506 s 3 are each amended to read as follows:

The office of financial management shall:

(1) Design and implement a cost-effective life-cycle cost model by October 1, 2008, based on the work completed by the joint legislative audit and review committee in January 2007 and in consultation with legislative fiscal committees;

(2) Deploy the life-cycle cost model for use by state agencies once completed and tested;

(3) Update the life-cycle cost model periodically in consultation with legislative fiscal committees;

(4) Establish clear policies, standards, and procedures regarding the use of life-cycle cost analysis by state agencies including:

(a) When state agencies must use the life-cycle cost analysis, including the types of proposed capital projects and leased facilities to which it must be applied;

(b) Procedures state agencies must use to document the results of required life-cycle cost analyses;

(c) Standards regarding the discount rate and other key model assumptions; ((and))

(d) A process to document and justify any deviation from the standard assumptions;

(e) Establish a requirement that agencies conduct the analysis comparing a thirty-year and fifty-year building life when using the life-cycle cost model; and

(f) Establish a requirement that agencies include renovation, system replacement, and remodel costs in maintenance costs for use in the life-cycle cost model.

NEW SECTION. Sec. 7006. (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

Performance-based contracting as allowed in chapter 39.35A RCW shall be the means of project delivery for all applicable systems or structural improvements. The program shall at a minimum include the following: (1) Guidelines for developing a prequalified list of energy services contractors eligible for selection to lead or participate on a team to design and construct a new building, or renovate a building; (2) a process for evaluating the projects submitted by school districts to determine if they are candidates for the pilot; (3) a model contract that requires a guarantee of system performance by way of ongoing monitoring and verification of energy measures to be used in the building; and (4) any rule making or oversight that the department of general administration considers necessary for the success of the pilot program. (d) The department may not set a monetary limit to funding requests.

(3) The department shall submit (annually) biennially to the governor and the legislature in the department's capital budget request (an unranked) a ranked list of the qualified eligible projects for which applications were received. (6) In contracts for grants authorized under this section the department shall include provisions which require that capital improvements shall be held by the grantee for a specified period of time appropriate to the amount of the grant and that facilities shall be used for the express purpose of the grant. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant.

POINT OF PARLIAMENTARY INQUIRY

Representative Ross rose for a point of parliamentary inquiry and was recognized by the Speaker. “Mr. Speaker, as you know we have explored the question recently on whether or not an extraction made over the past few years for these programs are really taxes or fees. These document recording fees have moved in the last 9 years from the $5 that it actually costs to process the paper to the current amount which is $62. This bill before us moves the cost to $72 while still providing only $5 to cover the actual cost of processing the paper. Mr. Speaker I know that these changes in the past have been called fees, but as the total charges for the recording of a document continue to climb and the purpose continues to expand that we use the money for, have we not finally reached a point at which these extractions are now a tax? I ask this for review under initiative 1053, and if so, if it were deemed to be a tax it would require a 2/3 vote for approval. Thank you Mr. Speaker.”

SPEAKER’S RULING

Mr. Speaker (Representative Moeller presiding): “Engrossed Substitute House Bill No. 2048 imposes a temporary surcharge on real property related documents that are required to be recorded or filed, with the proceeds used to fund programs that provide housing for the homeless. In determining whether a measure raises taxes as defined by Initiative 1053, codified at RCW 43.135.034, the Speaker considers whether the money raised is revenue for general government purposes, which is a tax, or a charge to a specific class of payors to provide a specific service or program related to that class, which is a fee. In prior rulings on a similar but smaller surcharge, the Speaker and the President of the Senate have both found the surcharge to be a fee for purposes of Initiative 1053 and its predecessors. This conclusion was based on the real and demonstrable nexus between activity in the real estate market, the cost of housing, and the availability of housing for those of limited means. The extension of and increase in the surcharge proposed in Engrossed Substitute House Bill No. 2048 does not change that conclusion. Engrossed Substitute House Bill No. 2048 requires a constitutional majority of 50 for final passage.”

Representatives Kenney, Maxwell, Angel, Frockt, Miloscia and Finn spoke in favor of the passage of the bill.

Representatives Ross, Orcutt, Smith, Takko, Walsh and DeBolt spoke against the passage of the bill.

The Speaker (Representative Moeller presiding) stated the question before the House to be the final passage of Engrossed Substitute House Bill No. 2048.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 2048, having received the necessary constitutional majority, was declared passed.

Strike everything after the enacting clause and insert the following:

“NEW SECTION. Sec. 1. The legislature recognizes that for ensuing biennia, the Washington state patrol, ferry operations, as well as state and local roadway preservation and maintenance activities will soon experience significant funding shortfalls. The legislature further recognizes that existing law, enacted in 2002, requires the department of licensing to submit a fee study every two years to the transportation committees of the house of representatives and the senate, the purpose of which is to ensure cost recovery for transportation services. Based on the review of the department of licensing's fee study, the legislature will review and adjust fees accordingly each biennium to ensure that fees are adjusted and brought up-to-date. The legislature further recognizes that previous studies conducted by the joint transportation committee have...
recommended various fees adjustments. The legislature finds that many of the fee adjustments identified in these studies have not been made for several years. Therefore, it is the intent of the legislature to adjust certain fees for the sole purposes of addressing funding shortfalls in certain transportation programs, providing gap funding for local transportation entities along with roadway preservation for cities and counties, and bringing fees in-line with costs. Accordingly, the legislature intends to provide additional funding solely for: The Washington state patrol; the Washington state ferry operating and capital programs; the department of transportation highway maintenance and preservation programs; the department of transportation public transportation program; the transportation improvement board; the county road administration board; the freight mobility strategic investment board; the safe routes to schools program; and the state treasurer, for the purposes of debt service and ancillary costs related to bonds issued to fund the construction of a ferry boat vessel.

For those persons the fee must be the actual cost of production of the identicard.

(2) Design and term. The identicard must:
   (a) Be distinctly designed so that it will not be confused with the official driver's license; and
   (b) Expire on the fifth anniversary of the applicant's birthdate after issuance.

(b) Apply to the department to renew his or her license by mail or, if permitted by rule of the department, by electronic commerce even if subsection (3)(b) of this section would not otherwise allow renewal by that means. (2) A replacement permit, identicard, or driver's license may be obtained to change or correct material information upon payment of a fee of ten dollars and surrender of the permit, identicard, or driver's license being replaced.

Sec. 18. RCW 46.20.308 and 2008 c 282 s 2 are each amended to read as follows:

(1) Any person who operates a motor vehicle within this state is deemed to have given consent, subject to the provisions of RCW 46.61.506, to a test or tests of his or her breath or blood for the purpose of determining the alcohol concentration or presence of any drug in his or her breath or blood if arrested for any offense where, at the time of the arrest, the arresting officer has reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug or was in violation of RCW 46.61.503. Neither consent nor this section precludes a police officer from obtaining a search warrant for a person's breath or blood.

(2) The test or tests of breath shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been driving or in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or the person to have been driving or in actual physical control of a motor vehicle while having alcohol in a concentration in violation of RCW 46.61.503 in his or her system and being under the age of twenty-one. However, in those instances where the person is incapable due to physical injury, physical incapacity, or other physical limitation, of providing a breath sample or where the person is being treated in a hospital, clinic, doctor's office, emergency medical vehicle, ambulance, or other similar facility or where the officer has reasonable grounds to believe that the person is under the influence of a drug, a blood test shall be administered by a qualified person as provided in RCW 46.61.506.(5)

The officer shall inform the person of his or her right to refuse the breath or blood test, and of his or her right to have additional tests administered by any qualified person of his or her choosing as provided in RCW 46.61.506. The officer shall warn the driver, in substantially the following language, that:

(a) If the driver refuses to take the test, the driver's license, permit, or privilege to drive will be revoked or denied for at least one year; and

(b) If the driver refuses to take the test, the driver's refusal to take the test may be used in a criminal trial; and

(c) If the driver submits to the test and the test is administered, the driver's license, permit, or privilege to drive will be suspended, revoked, or denied for at least ninety days if the driver is at least twenty-one or over and the test indicates the alcohol concentration of the driver's breath or blood is 0.08 or more, or if the driver is under age twenty-one and the test indicates the alcohol concentration of the driver's breath or blood is 0.02 or more, or if the driver is under age twenty-one and the driver is in violation of RCW 46.61.502 or 46.61.504; and

(d) If the driver's license, permit, or privilege to drive is suspended, revoked, or denied the driver may be eligible to immediately apply for an ignition interlock driver's license.

(3) Except as provided in this section, the test administered shall be of the breath only. If an individual is unconscious or is under arrest for the crime of vehicular homicide as provided in RCW 46.61.520 or vehicular assault as provided in RCW 46.61.522, or if an individual is under arrest for the crime of driving while under the influence of intoxicating liquor or drugs as provided in RCW 46.61.502, which arrest results from an accident in which there has been serious bodily injury to another person, a breath or blood test may be administered without the consent of the individual so arrested.

(4) Any person who is dead, unconscious, or who is otherwise in a condition rendering him or her incapable of refusal, shall be deemed not to have withdrawn the consent provided by subsection (1) of this section and the test or tests may be administered, subject to the provisions of RCW 46.61.506, and the person shall be deemed to have received the warnings required under subsection (2) of this section.

(5) If, following his or her arrest and receipt of warnings under subsection (2) of this section, the person arrested refuses upon the request of a law enforcement officer to submit to a test or tests of his or her breath or blood, no test shall be given except as authorized under subsection (3) or (4) of this section.

(6) If, after arrest and after the other applicable conditions and requirements of this section have been satisfied, a test or tests of the person's breath or blood is administered and the test results indicate that the alcohol concentration of the person's breath or blood is 0.08 or more if the person is age twenty-one or over, or 0.02 or more if the person is under the age of twenty-one, or the person refuses to submit to a test, the arresting officer or other law enforcement officer at whose direction any test has been given, or the department, where applicable, if the arrest results in a test of the person's blood, shall:

(a) Serve notice in writing on the person on behalf of the department of its intention to suspend, revoke, or deny the person's license, permit, or privilege to drive as required by subsection (7) of this section;

(b) Serve notice in writing on the person on behalf of the department of his or her right to a hearing, specifying the steps he or she must take to obtain a hearing as provided by subsection (8) of this section and that the person waives the right to a hearing if he or she receives an ignition interlock driver's license;

(c) Mark the person's Washington state driver's license or permit to drive, if any, in a manner authorized by the department;

(d) Serve notice in writing that the marked license or permit, if any, is a temporary license that is valid for sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or until the suspension, revocation, or denial of the person's license, permit, or privilege to drive is sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first. No temporary license is valid to any greater degree than the license or permit that it replaces; and

(e) Immediately notify the department of the arrest and transmit to the department within seventy-two hours, except as delayed as the result of a blood test, a sworn report or report under a declaration authorized by RCW 9A.72.085 that states:

(i) That the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or was under the age of twenty-one years and had been driving or was in actual physical control of a motor vehicle
while having an alcohol concentration in violation of RCW 46.61.503;

(ii) That after receipt of the warnings required by subsection (2) of this section the person refused to submit to a test of his or her blood or breath, or a test was administered and the results indicated that the alcohol concentration of the person's breath or blood was 0.08 or more if the person is age twenty-one or over, or was 0.02 or more if the person is under the age of twenty-one; and

(iii) Any other information that the director may require by rule.

(7) The department of licensing, upon the receipt of a sworn report or report under a declaration authorized by RCW 9A.72.085 under subsection (6)(e) of this section, shall suspend, revoke, or deny the person's license, permit, or privilege to drive or any nonresident operating privilege, as provided in RCW 46.20.3101, such suspension, revocation, or denial to be effective beginning sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or when sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first.

(8) A person moving notification under subsection (6)(b) of this section may, within twenty days after the notice has been given, request in writing a formal hearing before the department. The person shall pay a fee of $300.00 three hundred seventy-five dollars as part of the request. If the request is mailed, it must be postmarked within twenty days after receipt of the notification. Upon timely receipt of such a request for a formal hearing, including receipt of the required three hundred seventy-five dollar fee, the department shall afford the person an opportunity for a hearing. The department may waive the required three hundred seventy-five dollar fee if the person is an indigent as defined in RCW 10.101.010. Except as otherwise provided in this section, the hearing is subject to and shall be scheduled and conducted in accordance with RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest, except that all or part of the hearing may, at the discretion of the department, be conducted by telephone or other electronic means. The hearing shall be held within sixty days following the arrest or following the date notice has been given in the event notice is given by the department following a blood test, unless otherwise agreed to by the department and the person, in which case the action by the department shall be stayed, and any valid temporary license marked under subsection (6)(c) of this section extended, if the person is otherwise eligible for licensing. For the purposes of this section, the scope of the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her breath or blood system in a concentration of 0.02 or more if the person was under the age of twenty-one, whether the person was placed under arrest, and (a) whether the person refused to submit to the test or tests upon request of the officer after having been informed that such refusal would result in the revocation of the person's license, permit, or privilege to drive, or (b) if a test or tests were administered, whether the applicable requirements of this section were satisfied before the administration of the test or tests, whether the person submitted to the test or tests, or whether a test was administered without express consent as permitted under this section, and whether the test or tests indicated that the alcohol concentration of the person's breath or blood was 0.08 or more if the person was age twenty-one or over at the time of the arrest, or 0.02 or more if the person was under the age of twenty-one at the time of the arrest. The sworn report or report under a declaration authorized by RCW 9A.72.085 submitted by a law enforcement officer is prima facie evidence that the officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or the person had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more and was under the age of twenty-one and that the officer complied with the requirements of this section.

A hearing officer shall conduct the hearing, may issue subpoenas for the attendance of witnesses and the production of documents, and shall administer oaths to witnesses. The hearing officer shall not issue a subpoena for the attendance of a witness at the request of the person unless the request is accompanied by the fee required by RCW 5.56.010 for a witness in district court. The sworn report or report under a declaration authorized by RCW 9A.72.085 of the law enforcement officer and any other evidence accompanying the report shall be admissible without further evidentiary foundation and the certifications authorized by the criminal rules for courts of limited jurisdiction shall be admissible without further evidentiary foundation. The person may be represented by counsel, may question witnesses, may present evidence, and may testify. The department shall order that the suspension, revocation, or denial either be rescinded or sustained.

(9) If the suspension, revocation, or denial is sustained after such a hearing, the person whose license, privilege, or permit is suspended, revoked, or denied has the right to file a petition in the superior court of the county of arrest to review the final order of revocation by the department in the same manner as an appeal from a decision of a court of limited jurisdiction. Notice of appeal must be filed within thirty days after the date the final order is served or the right to appeal is waived. Notwithstanding RCW 46.20.334, RALJ 1.1, or other statutes or rules referencing de novo review, the appeal shall be limited to a review of the record of the administrative hearing. The appellant must pay the costs associated with obtaining the record of the hearing before the hearing officer. The filing of the appeal does not stay the effective date of the suspension, revocation, or denial. A petition filed under this subsection must include the petitioner's grounds for requesting review. Upon granting petitioner's request for review, the court shall review the department's final order of suspension, revocation, or denial as expeditiously as possible. The review must be limited to a determination of whether the department has committed any errors of law. The superior court shall accept those factual determinations supported by substantial evidence in the record: (a) That were expressly made by the department; or (b) that may reasonably be inferred from the final order of the department. The superior court may reverse, affirm, or modify the decision of the department or remand the case back to the department for further proceedings. The decision of the superior court must be in writing and filed in the clerk's office with the other papers in the case. The court shall state the reasons for the decision. If judicial relief is sought for a stay or other temporary remedy from the department's action, the court shall not grant such relief unless the court finds that the appellant is likely to prevail in the appeal and that without a stay the appellant will suffer irreparable injury. If the court stays the suspension, revocation, or denial it may impose conditions on such stay.

(10)(a) If a person whose driver's license, permit, or privilege to drive has been or will be suspended, revoked, or denied under subsection (7) of this section, other than as a result of a breath or blood test refusal, and who has not committed an offense for which he or she was granted a deferred prosecution under chapter 10.05 RCW, petitions a court for a deferred prosecution on criminal charges arising out of the arrest for which action has been or will be taken under subsection (7) of this section, or notifies the department of licensing of the intent to seek such a deferred prosecution, then the license suspension or revocation shall be stayed pending entry of the deferred prosecution. The stay shall not be longer than one hundred fifty days after the date charges are filed, or two years after the date of the arrest, whichever time period is shorter. If the court stays the suspension,
revocation, or denial, it may impose conditions on such stay. If the person is otherwise eligible for licensing, the department shall issue a temporary license, or extend any valid temporary license marked under subsection (6) of this section, for the period of the stay. If a deferred prosecution treatment plan is not recommended in the report made under RCW 10.05.050, or if treatment is rejected by the court, or if the person declines to accept an offered treatment plan, or if the person violates any condition imposed by the court, then the court shall immediately direct the department to cancel the stay and any temporary marked license or extension of a temporary license issued under this subsection.

(b) A suspension, revocation, or denial imposed under this section, other than as a result of a breath or blood test refusal, shall be stayed if the person is accepted for deferred prosecution as provided in chapter 10.05 RCW for the incident upon which the suspension, revocation, or denial is based. If the deferred prosecution is terminated, the stay shall be lifted and the suspension, revocation, or denial reinstated. If the deferred prosecution is completed, the stay shall be lifted and the suspension, revocation, or denial canceled. The provisions of (b) of this subsection relating to a stay of a suspension, revocation, or denial and the cancellation of any suspension, revocation, or denial do not apply to the suspension, revocation, denial, or disqualification of a person's commercial driver's license or privilege to operate a commercial motor vehicle.

(11) When it has been finally determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been suspended, revoked, or denied, the department shall give information in writing of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which he or she has a license.

The penalty must be distributed under RCW 46.68.020.

Sec. 22. RCW 46.17.200 and 2011 c 171 s 56 are each amended to read as follows:

(a) The following license plate fees for each license plate, unless the owner or type of vehicle is exempt from payment:

(b) A license plate retention fee, as required under RCW 46.16A.200(10)(a)(iii), of twenty dollars if the owner wishes to retain the current license plate number upon license plate replacement, unless the owner or type of vehicle is exempt from payment. The twenty dollar fee must be deposited in the multimodal transportation account created in RCW 47.66.070.

(c) A ten dollar license plate transfer fee, as required under RCW 46.16A.200(8)(a), when transferring standard issue license plates from one vehicle to another, unless the owner or type of vehicle is exempt from payment. The ten dollar license plate transfer fee must be deposited in the motor vehicle fund created in RCW 46.68.070.

(d) Former prisoner of war license plates, as described in RCW 46.18.235, may be transferred to a replacement vehicle upon payment of a five dollar license plate fee, in addition to any other fee required by law.

(2) The department may, upon request, provide license plates that have been used and returned to the department to individuals for nonvehicular use. The department may charge a fee of up to five dollars per license plate to cover costs or recovery for postage and handling. The department may waive the fee for license plates used in educational projects and may, by rule, provide standards for the fee waiver and restrictions on the number of license plates provided to any one person. The fee must be deposited in the motor vehicle fund created in RCW 46.68.070.

(ii) The abstract provided to the insurance company must:

(A) Not contain any information related to actions committed by law enforcement officers or firefighters, as both terms are defined in RCW 41.26.030, or by Washington state patrol officers, while driving official vehicles in the performance of their occupational duty. This does not apply to any situation where the vehicle was used in the commission of a misdemeanor or felony;

Representative Damaier moved the adoption of amendment (822).

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 29. (1) The legislature continues to support end-of-course assessments as a fair and practical way to measure students’ knowledge and skills in high school science, but the legislature also recognizes that there are important scientific concepts, principles, and content that are not able to be captured in a single course or a single assessment. The legislature also does not wish to narrow the high school science curriculum to a singular focus on biology.

(2) However, the legislature finds that the financial resources for developing additional end-of-course assessments for high school science are not available in the 2011-13 biennium. Nevertheless, the legislature intends to revisit this issue in the future and further intends at an appropriate time to direct the superintendent of public instruction to develop one or more end-of-course assessments in additional science subjects.

Sec. 30. RCW 28A.655.061 and 2010 c 244 s 1 are each amended to read as follows:

(1) The high school assessment system shall include but need not be limited to the (Washington) statewide student assessment (of student learning), opportunities for a student to retake the content areas of the assessment in which the student was not successful, and, if approved by the legislature pursuant to subsection (10) of this section, one or more objective alternative assessments for a student to demonstrate achievement of state academic standards. The objective alternative assessments for each content area shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the (Washington) statewide student assessment (of student learning) for each content area.

(2) Subject to the conditions in this section, a certificate of academic achievement shall be obtained by most students at about the age of sixteen, and is evidence that the students have successfully met the state standard in the content areas included in the certificate.

With the exception of students satisfying the provisions of RCW 28A.155.045 or 28A.655.0611, acquisition of the certificate is required for graduation from a public high school but is not the only requirement for graduation.

(3) Beginning with the graduating class of 2008, with the exception of students satisfying the provisions of RCW 28A.155.045, a student who meets the state standards on the reading, writing, and mathematics content areas of the high school (Washington) statewide student assessment (of student learning) shall earn a certificate of academic achievement. If a student does not successfully meet the state standards in one or more content areas required for the certificate of academic achievement, then the student may retake the assessment in the content area up to four times at no cost to the student. If the student successfully meets the state standards on a retake of the assessment then the student shall earn a certificate of academic achievement. Once objective alternative assessments are authorized pursuant to subsection (10) of this section, a student may use the objective alternative assessments to demonstrate that the student successfully meets the state standard for that content area if the student has taken the (Washington) statewide student assessment (of student learning) at least once. If the student successfully meets the state standards on the objective alternative assessments then the student shall earn a certificate of academic achievement.

(4) Beginning (no later than) with the graduating class of (2013) 2015, a student must meet the state standards in science in addition to the other content areas required under subsection (3) of this section on the (Washington) statewide student assessment (of student learning) or the objective alternative assessments in order to earn a certificate of academic achievement. (The state board of education may adopt a rule that implements the requirements of this subsection (1) beginning with a graduating class before the graduating class of 2013, if the state board of education adopts the rule by September 1st of the freshman school year of the graduating class to
which the requirements of this subsection (1) apply. The state board of 
education's authority under this subsection (4) does not alter the 
requirement that any change in performance standards for the tenth 
grade assessment must comply with RCW 28A.305.120.)

(5) The state board of education may not require the acquisition 
of the certificate of academic achievement for students in home-based 
instruction under chapter 28A.200 RCW, for students enrolled in 
private schools under chapter 28A.195 RCW, or for students 
satisfying the provisions of RCW 28A.155.045.

(6) A student may retain and use the highest result from each 
successfully completed content area of the high school assessment.
(7) School districts must make available to students the following 
options:
(a) To retake the ((Washington)) statewide student 
assessment ((of student learning)) up to four times in the content areas in which 
the student did not meet the state standards if the student is enrolled in 
a public school; or
(b) To retake the ((Washington)) statewide student assessment 
((of student learning)) up to four times in the content areas in which 
the student did not meet the state standards if the student is enrolled in 
a high school completion program at a community or technical 
college. The superintendent of public instruction and the state board 
for community and technical colleges shall jointly identify means by 
which students in these programs can be assessed.

(8) Students who achieve the standard in a content area of the 
high school assessment but who wish to improve their results shall 
pay for retaking the assessment, using a uniform cost determined by 
the superintendent of public instruction.

(9) Opportunities to retake the assessment at least twice a year 
shall be available to each school district.

(10)(a) The office of the superintendent of public instruction shall 
develop options for implementing objective alternative assessments, 
which may include an appeals process for students' scores, for 
students to demonstrate achievement of the state academic standards. 
The objective alternative assessments shall be comparable in rigor to 
the skills and knowledge that the student must demonstrate on the 
((Washington)) statewide student assessment ((of student learning)) 
and be objective in its determination of student achievement of the 
state standards. Before any objective alternative assessments in 
addition to those authorized in RCW 28A.655.065 or (b) of this 
subsection are used by a student to demonstrate that the student has 
met the state standards in a content area required to obtain a 
certificate, the legislature shall formally approve the use of any 
objective alternative assessments through the omnibus appropriations 
act or by statute or concurrent resolution.

(b)(i) A student's score on the mathematics, reading or English, or 
writing portion of the SAT or the ACT may be used as an objective 
alternative assessment under this section for demonstrating that a 
student has met or exceeded the state standards for the certificate of 
academic achievement. The state board of education shall identify 
the scores students must achieve on the relevant portion of the SAT or 
ACT to meet or exceed the state standard in the relevant content area on 
the ((Washington)) statewide student assessment ((of student 
learning). The state board of education shall identify the first scores 
by December 1, 2007). A student's score on the science portion of 
the ACT or the science subject area tests of the SAT may be used as 
an objective alternative assessment under this section as soon as the 
state board of education determines that sufficient data is available to 
identify reliable equivalent scores for the science content area of 
the statewide student assessment. After the first scores are established, 
the state board may increase but not decrease the scores required for 
students to meet or exceed the state standards.

(ii) (Until August 31, 2008, a student's score on the mathematics 
portion of the PSAT may be used as an objective alternative 
assessment under this section for demonstrating that a student has met 
or exceeded the state standard for the certificate of academic 
achievement. The state board of education shall identify the score 
students must achieve on the mathematics portion of the PSAT to 
meet or exceed the state standard in that content area on the 
Washington assessment of student learning.

(iii) A student who scores at least a three on the grading scale of 
one to five for selected AP examinations may use the score as an 
objective alternative assessment under this section for demonstrating 
that a student has met or exceeded state standards for the certificate of 
academic achievement. A score of three on the AP examinations in 
calculus or statistics may be used as an alternative assessment for the 
mathematics portion of the ((Washington)) statewide student 
assessment ((of student learning)). A score of three on the AP 
examinations in English language and composition may be used as an 
alternative assessment for the writing portion of the ((Washington)) 
statewide student assessment ((of student learning)). A score of three on 
the AP examinations in English literature and composition, 
macroeconomics, microeconomics, psychology, United States 
history, world history, United States government and politics, or 
comparative government or politics may be used as an alternative 
assessment for the reading portion of the ((Washington)) statewide 
student assessment ((of student learning)). A score of three on the AP 
examination in biology, physics, chemistry, or environmental science 
may be used as an alternative assessment for the science portion of 
the statewide student assessment.

(11) By December 15, 2004, the house of representatives and 
separate education committees shall obtain information and conclusions 
from recognized, independent, national assessment experts regarding 
the validity and reliability of the high school Washington assessment 
of student learning for making individual student high school 
graduation determinations.

(12) To help assure continued progress in academic achievement 
as a foundation for high school graduation and to assure that students 
are on track for high school graduation, each school district shall 
prepare plans for and notify students and their parents or legal 
guardians as provided in this subsection. Student learning plans are 
required for eighth grade students who were not successful on any or 
all of the content areas of the state assessment during the previous 
school year or who may not be on track to graduate due to credit 
deficiencies or absences. The parent or legal Guardian shall be 
notified about the information in the student learning plan, preferably 
through a parent conference and at least annually. To the extent 
feasible, schools serving English language learner students and their 
parents shall translate the plan into the primary language of the 
family. The plan shall include the following information as 
applicable:

(a) The student's results on the state assessment;
(b) If the student is in the transitional bilingual program, the score 
on his or her Washington language proficiency test II;
(c) Any credit deficiencies;
(d) The student's attendance rates over the previous two years;
(e) The student's progress toward meeting state and local 
graduation requirements;
(f) The courses, competencies, and other steps needed to be taken 
by the student to meet state academic standards and stay on track for 
graduation;
(g) Remediation strategies and alternative education options 
available to students, including informing students of the option to 
continue to receive instructional services after grade twelve or until 
the age of twenty-one;
(h) The alternative assessment options available to students under 
this section and RCW 28A.655.065;
(i) School district programs, high school courses, and career 
technical education options available for students to meet graduation 
requirements; and
(j) Available programs offered through skill centers or community and technical colleges, including the college high school diploma options under RCW 28B.50.535.

NEW SECTION. Sec. 31. A new section is added to chapter 28A.655 RCW to read as follows:

(1) Beginning in the 2011-12 school year, the statewide high school assessment in science shall be an end-of-course assessment for biology that measures the state standards for life sciences, in addition to systems, inquiry, and application as they pertain to life sciences.

(2) The superintendent of public instruction may develop science end-of-course assessments in subjects in addition to biology for purposes of RCW 28A.655.061, when so directed by the legislature.

(3) The superintendent of public instruction may participate with consortia of multiple states as common student learning standards and assessments in science are developed. The superintendent of public instruction, in consultation with the state board of education, may modify the essential academic learning requirements and statewide student assessments in science, including the high school assessment, according to the multistate common student learning standards and assessments as long as the education committees of the legislature have opportunities for review before the modifications are adopted, as provided under RCW 28A.655.070.

(4) The statewide high school assessment under this section shall be used to demonstrate that a student meets the state standards in the science content area of the statewide student assessment for purposes of RCW 28A.655.061."

DEPARTMENT OF ENTERPRISE SERVICES CREATED

NEW SECTION. Sec. 101. To maximize the benefits to the public, state government should be operated in an efficient and effective manner. The department of enterprise services is created to provide centralized leadership in efficiently and cost-effectively managing resources necessary to support the delivery of state government services. The mission of the department is to implement a world-class, customer-focused organization that provides valued products and services to government and state residents.

NEW SECTION. Sec. 102. A new section is added to chapter 43.19 RCW to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Department" means the department of enterprise services.

(2) "Director" means the director of enterprise services.

NEW SECTION. Sec. 103. A new section is added to chapter 43.19 RCW to read as follows:

(1) The department of enterprise services is created as an executive branch agency. The department is vested with all powers and duties transferred to it under this act and such other powers and duties as may be authorized by law.

(2) In addition to the powers and duties as provided in this act, the department shall:

(a) Provide products and services to support state agencies, and may enter into agreements with any other governmental entity or a public benefit nonprofit organization, in compliance with RCW 39.34.055, to furnish such products and services as deemed appropriate by both parties. The agreement shall provide for the reimbursement to the department of the reasonable cost of the products and services furnished. All governmental entities of this state may enter into such agreements, unless otherwise prohibited; and

(b) Make available to state, local, and federal agencies, local governments, and public benefit nonprofit corporations on a full cost-recovery basis information and printing services to include equipment acquisition assistance, including leasing, brokering, and establishing master contracts. For the purposes of this section "public benefit
nonprofit corporation” means a public benefit nonprofit corporation as defined in RCW 24.03.005 that is receiving local, state, or federal funds either directly or through a public agency other than an Indian tribe or political subdivision of another state.

NEW SECTION. Sec. 104. A new section is added to chapter 43.19 RCW to read as follows:
(1) The executive powers and management of the department shall be administered as described in this section.
(2) The executive head and appointing authority of the department is the director. The director is appointed by the governor, subject to confirmation by the senate. The director serves at the pleasure of the governor. The director is paid a salary fixed by the governor in accordance with RCW 43.03.040. If a vacancy occurs in the position of director while the senate is not in session, the governor shall make a temporary appointment until the next meeting of the senate at which time he or she shall present to that body his or her nomination for the position.
(3) The director may employ staff members, who are exempt from chapter 41.06 RCW, and any additional staff members as are necessary to administer this chapter, and such other duties as may be authorized by law. The director may delegate any power or duty vested in him or her by this act or other law, including authority to make final decisions and enter final orders in hearings conducted under chapter 34.05 RCW.
(4) The internal affairs of the department are under the control of the director in order that the director may manage the department in a flexible and intelligent manner as dictated by changing contemporary circumstances. Unless specifically limited by law, the director has complete charge and supervisory powers over the department. The director may create the administrative structures as the director deems appropriate, except as otherwise specified by law, and the director may employ personnel as may be necessary in accordance with chapter 41.06 RCW, except as otherwise provided by law.
(5) Until June 30, 2018, at the beginning of each fiscal biennium, the office of financial management shall conduct a review of the programs and services that are performed by the department to determine whether the program or service may be performed by the private sector in a more cost-efficient and effective manner than being performed by the department. In conducting this review, the office of financial management shall:
(a) Examine the existing activities currently being performed by the department, including but not limited to an examination of services for their performance, staffing, capital requirements, and mission. Programs may be broken down into discrete services or activities or reviewed as a whole; and
(b) Examine the activities to determine which specific services are available in the marketplace and what potential for efficiency gains or savings exist.
(i) As part of the review in this subsection (5), the office of financial management shall select up to six activities or services that have been determined as an activity that may be provided by the private sector in a cost-effective and efficient manner, including for the 2011-2013 fiscal biennium the bulk printing services. The office of financial management may consult with affected industry stakeholders in making its decision on which activities to contract for services. Priority for selection shall be given to agency activities or services that are significant, ongoing functions.
(ii) The office of financial management must consider the consequences and potential mitigation of improper or failed performance by the contractor.
(iii) For each of the selected activities, the department shall use a request for information, request for proposal, or other procurement process to determine if a contract for the activity would result in the activity being provided at a reduced cost and with greater efficiency.
(iv) The request for information, request for proposal, or other procurement process must contain measurable standards for the performance of the contract.
(v) The department may contract with one or more vendors to provide the service as a result of the procurement process.
(vi) If the office of financial management determines via the procurement process that the activity cannot be provided by the private sector at a reduced cost and greater efficiency, the department of enterprise services may cancel the procurement without entering into a contract and shall promptly notify the legislative fiscal committees of such a decision.
(vii) The department of enterprise services, in consultation with the office of financial management, must establish a contract monitoring process to measure contract performance, costs, service delivery quality, and other contract standards, and to cancel contracts that do not meet those standards. No contracts may be renewed without a review of these measures.
(viii) The office of financial management shall prepare a biennial report summarizing the results of the examination of the agency’s programs and services. In addition to the programs and services examined and the result of the examination, the report shall provide information on any procurement process that does not result in a contract for the services. During each regular legislative session held in odd-numbered years, the legislative fiscal committees shall hold a public hearing on the report and the department’s activities under this section.
(ix) The joint legislative audit and review committee shall conduct an audit of the implementation of this subsection (5), and report to the legislature by January 1, 2018, on the results of the audit. The report must include an estimate of additional costs or savings to taxpayers as a result of the contracting out provisions.

NEW SECTION. Sec. 105. (1) The department of enterprise services has powers and duties related to state contracting as provided in chapters 43.19 and 39.29 RCW. The process and procedures in each chapter differ from each other in many respects. In addition, the process and procedures may not represent the best practices for the agency or the public.
(2) In order to effect reform and consolidation of procurement practices, the department shall review current state procurement practices, not including public works, and provide a report to the governor with procurement reform recommendations. The department should review national best practices and the procedures used in other states and by the federal government. The department may also review private sector procedures and model codes such as the American bar association model procurement code. The department shall seek input from stakeholders and interested parties. The department shall submit a report to the governor and the office of financial management by December 31, 2011. (2) Appoint and set, within the limits established by the office of financial management under RCW 43.03.028, the compensation of an executive director who shall perform such duties and have such powers as the commission may prescribe and delegate to implement and enforce this chapter efficiently and effectively. The commission shall not delegate its authority to adopt, amend, or rescind rules nor shall it delegate authority to determine whether an actual violation of this chapter has occurred or to assess penalties for such violations;

(3) Prepare and publish such reports and technical studies as in its judgment will tend to promote the purposes of this chapter, including reports and statistics concerning campaign financing, lobbying, financial interests of elected officials, and enforcement of this chapter;

(4) Make from time to time, on its own motion, audits and field investigations;

(5) Make public the time and date of any formal hearing set to determine whether a violation has occurred, the question or questions to be considered, and the results thereof;

The term "legislative information," for the purposes of this subsection, means books, pamphlets, reports, and other materials prepared, published, or distributed at substantial cost, a substantial purpose of which is to influence the passage or defeat of any legislation. The state auditor in his or her regular examination of each agency under chapter 43.09 RCW shall review the rules, accounts, and reports and make appropriate findings, comments, and recommendations in his or her examination reports concerning those agencies;

The commission shall find that a manifestly unreasonable hardship exists if reporting the name of an entity required to be reported under RCW 42.17.241(1)(g)(ii) would be likely to adversely affect the competitive position of any entity in which the person filing the report or any member of his or her immediate family holds any office, directorship, general partnership interest, or an ownership interest of ten percent or more. The revisions shall be only for the purpose of recognizing economic changes as reflected by an inflationary index recommended by the office of financial management. As to each of the three general categories of this chapter (reports of campaign finance, reports of lobbyist activity, and reports of the financial affairs of elected and appointed officials), the revisions shall equally affect all thresholds within each category. Revisions shall be adopted as rules under chapter 34.05 RCW. The first revision authorized by this subsection shall reflect economic changes from the time of the last legislative enactment affecting the respective code or threshold through December 1985; and

(12) Develop and provide to filers a system for certification of reports required under this chapter which are transmitted by facsimile or electronically to the commission. Implementation of the program is contingent on the availability of funds.

(1) When the commissioner determines that other market conduct actions identified in RCW 48.37.040(4)(a) have not sufficiently addressed issues raised concerning company activities in Washington state, the commissioner has the discretion to conduct market conduct examinations in accordance with the NAIC market conduct uniform examination procedures and the NAIC market regulation handbook.

(2)(a) In lieu of an examination of an insurer licensed in this state, the commissioner shall accept an examination report of another state, unless the commissioner determines that the other state does not have laws substantially similar to those of this state, or does not have a market oversight system that is comparable to the market conduct oversight system set forth in this law.

(b) The commissioner's determination under (a) of this subsection is discretionary with the commissioner and is not subject to appeal.

(c) If the insurer to be examined is part of an insurance holding company system, the commissioner may also seek to simultaneously examine any affiliates of the insurer under common control and management which are licensed to write the same lines of business in this state.

(3) Before commencement of a market conduct examination, market conduct oversight personnel shall prepare a work plan consisting of the following:

(a) The name and address of the insurer being examined;

(b) The name and contact information of the examiner in-charge;

(c) The name of all market conduct oversight personnel initially assigned to the market conduct examination;

(d) The justification for the examination;

(e) The scope of the examination;

(f) The date the examination is scheduled to begin;

(g) Notice of any noninsurance department personnel who will assist in the examination;

(h) A time estimate for the examination;

(i) A budget for the examination if the cost of the examination is billed to the insurer; and

(j) An identification of factors that will be included in the billing if the cost of the examination is billed to the insurer.

(4)(a) Within ten days of the receipt of the information contained in subsection (3) of this section, insurers may request the commissioner's discretionary review of any alleged conflict of interest, pursuant to RCW 48.37.090(2), of market conduct oversight personnel and noninsurance department personnel assigned to a market conduct examination. The request for review shall specifically describe the alleged conflict of interest in the proposed assignment of any person to the examination.

(b) Within five business days of receiving a request for discretionary review of any alleged conflict of interest in the proposed assignment of any person to a market conduct examination, the commissioner or designee shall notify the insurer of any action regarding the assignment of personnel to a market conduct examination based on the insurer's allegation of conflict of interest.

(5) Market conduct examinations shall, to the extent feasible, use desk examinations and data requests before an on-site examination.

(6) Market conduct examinations shall be conducted in accordance with the provisions set forth in the NAIC market regulation handbook and the NAIC market conduct uniform examinations procedures, subject to the precedence of the provisions of chapter 82, Laws of 2007.

(7) The commissioner shall use the NAIC standard data request.

(8) Announcement of the examination shall be sent to the insurer and posted on the NAIC's examination tracking system as soon as possible but in no case later than sixty days before the estimated commencement of the examination, except where the examination is conducted in response to extraordinary circumstances as described in RCW 48.37.050(2)(a). The announcement sent to the insurer shall contain the examination work plan and a request for the insurer to name its examination coordinator.

(9) If an examination is expanded significantly beyond the original reasons provided to the insurer in the notice of the examination required by subsection (3) of this section, the commissioner shall provide a written notice to the insurer, explaining the expansion and reasons for the expansion. The commissioner shall provide a revised work plan if the expansion results in significant changes to the items presented in the original work plan required by subsection (3) of this section.

(10) The commissioner shall conduct a preexamination conference with the insurer examination coordinator and key personnel to clarify expectations at least thirty days before commencement of the examination, unless otherwise agreed by the insurer and the commissioner.

(11) Before the conclusion of the field work for market conduct examination, the examiner in-charge shall review examination findings to date with insurer personnel and schedule an exit conference with the insurer, in accordance with procedures in the NAIC market regulation handbook.

(12)(a) No later than sixty days after completion of each market conduct examination, the commissioner shall make a full written report of each market conduct examination containing only facts ascertained from the accounts, records, and documents examined and from the sworn testimony of individuals, and such conclusions and recommendations as may reasonably be warranted from such facts.

(b) The report shall be certified by the commissioner or by the examiner in-charge of the examination, and shall be filed in the commissioner's office subject to (c) of this subsection.

(c) The commissioner shall furnish a copy of the market conduct examination report to the person examined not less than ten days and, unless the time is extended by the commissioner, not more than thirty days prior to the filing of the report for public inspection in the commissioner's office. If the person so requests in writing within such period, the commissioner shall hold a hearing to consider objections of such person to the report as proposed, and shall not so file the report until after such hearing and until after any modifications in the report deemed necessary by the commissioner have been made.

(d) Within thirty days of the end of the period described in (c) of this subsection, unless extended by order of the commissioner, the commissioner shall consider the report, together with any written submissions or rebuttals and any relevant portions of the examiner's work papers and enter an order:

(i) Adopting the market conduct examination report as filed or with modification or corrections. If the market conduct examination report reveals that the company is operating in violation of any law, rule, or order of the commissioner, the commissioner may order the company to take any action the commissioner considers necessary and appropriate to cure that violation;

(ii) Rejecting the market conduct examination report with directions to the examiners to reopen the examination for purposes of
'obtaining additional data, documentation, or information, and refiling under this subsection; or

(iii) Calling for an investigatory hearing with no less than twenty days' notice to the company for purposes of obtaining additional documentation, data, information, and testimony.

(c) All orders entered under (d) of this subsection must be accompanied by findings and conclusions resulting from the commissioner's consideration and review of the market conduct examination report, relevant examiner work papers, and any written submissions or rebuttals. The order is considered a final administrative decision and may be appealed under the administrative procedure act, chapter 34.05 RCW, and must be served upon the company by certified mail or certifiable electronic means, together with a copy of the adopted examination report. A copy of the adopted examination report must be sent by certified mail or certifiable electronic means to each director at the director's residential address or to a personal e-mail account.

(f)(i) Upon the adoption of the market conduct examination report under (d) of this subsection, the commissioner shall continue to hold the content of the examination report as private and confidential information for a period of five days except that the order may be disclosed to the person examined. Thereafter, the commissioner may open the report for public inspection so long as no court of competent jurisdiction has stayed its publication.

(ii) If the commissioner determines that regulatory action is appropriate as a result of any market conduct examination, he or she may initiate any proceedings or actions as provided by law.

(iii) Nothing contained in this subsection requires the commissioner to disclose any information or records that would indicate or show the existence or content of any investigation or activity of a criminal justice agency.

(g) The insurer's response shall be included in the commissioner's order adopting the final report as an exhibit to the order. The insurer is not obligated to submit a response.

13) The commissioner may withhold from public inspection any examination or investigation report for so long as he or she deems it advisable.

14)(a) Market conduct examinations within this state of any insurer domiciled or having its home offices in this state, other than a title insurer, made by the commissioner or the commissioner's examiners and employees shall, except as to fees, mileage, and expense incurred as to witnesses, be at the expense of the state.

(b) Every other examination, whatsoever, or any part of the market conduct examination of any person domiciled or having its home offices in this state requiring travel and services outside this state, shall be made by the commissioner or by examiners designated by the commissioner and shall be at the expense of the person examined; but a domestic insurer shall not be liable for the compensation of examiners employed by the commissioner for such services outside this state.

(c) When making a market conduct examination under this chapter, the commissioner may contract, in accordance with applicable state contracting procedures, for qualified attorneys, appraisers, independent certified public accountants, contract actuaries, and other similar individuals who are independently practicing their professions, even though those persons may from time to time be similarly employed or retained by persons subject to examination under this chapter, as examiners as the commissioner deems necessary for the efficient conduct of a particular examination. The compensation and per diem allowances paid to such contract persons shall be reasonable in the market and time incurred, shall not exceed one hundred twenty-five percent of the compensation and per diem allowances for examiners set forth in the guidelines adopted by the national association of insurance commissioners, unless the commissioner demonstrates that one hundred twenty-five percent is inadequate under the circumstances of the examination, and subject to the provisions of (a) of this subsection.

(d)(i) The person examined and liable shall reimburse the state upon presentation of an itemized statement thereof, for the actual travel expenses of the commissioner's examiners, their reasonable living expenses allowance, and their per diem compensation, including salary and the employer's cost of employee benefits, at a reasonable rate approved by the commissioner, incurred on account of the examination. Per diem, salary, and expenses for employees examining insurers domiciled outside the state of Washington shall be established by the commissioner on the basis of the national association of insurance commissioner's recommended salary and expense schedule for zone examiners, or the salary schedule established by the human resources director (of the Washington department of personnel) and the expense schedule established by the office of financial management, whichever is higher. A domestic title insurer shall pay the examination expense and costs to the commissioner as itemized and billed by the commissioner.

(ii) The commissioner or the commissioner's examiners shall not receive or accept any additional emolument on account of any examination.

(iii) Market conduct examination fees subject to being reimbursed by an insurer shall be itemized and bills shall be provided to the insurer on a monthly basis for review prior to submission for payment, or as otherwise provided by state law.

(e) Nothing contained in this chapter limits the commissioner's authority to terminate or suspend any examination in order to pursue other legal or regulatory action under the insurance laws of this state. Findings of fact and conclusions made pursuant to any examination are prima facie evidence in any legal or regulatory action.

(f) The commissioner shall maintain active management and oversight of market conduct examination costs, including costs associated with the commissioner's own examiners, and with retaining qualified contract examiners necessary to perform an examination. Any agreement with a contract examiner shall:

(i) Clearly identify the types of functions to be subject to outsourcing;

(ii) Provide specific timelines for completion of the outsourced review;

(iii) Require disclosure to the insurer of contract examiners' recommendations;

(iv) Establish and use a dispute resolution or arbitration mechanism to resolve conflicts with insurers regarding examination fees; and

(v) Require disclosure of the terms of the contracts with the outside consultants that will be used, specifically the fees and/or hourly rates that can be charged.

(g) The commissioner, or the commissioner's designee, shall review and affirmatively endorse detail contained in this subsection requires the commissioner to disclose any information or records that would indicate or show the existence or content of any investigation or activity of a criminal justice agency.

(h) The insurer's response shall be included in the commissioner's order adopting the final report as an exhibit to the order. The insurer is not obligated to submit a response.

If the commission reasonably believes that a state agency, an institution of higher education, or the state patrol has failed to comply with an affirmative action rule adopted under RCW 41.06.150 or 43.43.340, the commission shall notify the director of the state agency, president of the institution of higher education, or chief of the Washington state patrol of the noncompliance, as well as the human resources director ((of personnel)). The commission shall give the director of the state agency, president of the institution of higher education, or chief of the Washington state patrol an opportunity to be heard on the failure to comply.

If an agreement is reached for the elimination of noncompliance, the agreement shall be reduced to writing and an order shall be issued by the commission setting forth the terms of the agreement. The noncomplying state agency, institution of higher education, or state patrol shall make a good faith effort to conciliate and make a full commitment to correct the noncompliance with any action that may be necessary to achieve compliance, provided such action is not inconsistent with the rules adopted under RCW 41.06.150(66)(5) and 43.43.340(5), whichever is appropriate.

(2) The ((department of personnel)) office of financial management shall adopt rules that authorize state agencies to provide allowances to employees with sensory disabilities who must attend training necessary to attain a new service animal. The employee's absence must be treated in the same manner as that granted to employees who are absent to attend training that supports or improves their job performance, except that the employee shall not be eligible for reimbursement under RCW 43.03.050 or 43.03.060. The ((department of personnel)) office of financial management shall adopt rules as necessary to implement this chapter.

(3) If the necessity to attend training for a new service animal is foreseeable and the training will cause the employee to miss work, the employee shall provide the employer with not less than thirty days' notice, before the date the absence is to begin, of the employee's impending absence. If the date of the training requires the absence to begin in less than thirty days, the employee shall provide notice as is practicable.

(4) An agency may require that a request to attend service animal training be supported by a certification issued by the relevant training organization. The employee must provide, in a timely manner, a copy of the certification to the agency. (1) Governmental agencies, including law enforcement agencies, prosecuting agencies, and the executive branch, whether state, local, or federal shall have access to information or records deemed private and confidential under this chapter if the information or records are needed by the agency for official purposes and:

(b) The director, commissioner, chief executive, or other official of the agency has verified the need for the specific information in writing either on the application or on a separate document; and

(c) The agency requesting access has served a copy of the application for records or information on the individual or employing unit whose records or information are sought and has provided the department with proof of service. Service shall be made in a manner which conforms to the civil rules for superior court. The requesting agency shall include with the copy of the application a statement to the effect that the individual or employing unit may contact the public records officer of the employment security department to state any objections to the release of the records or information. The employment security department shall not act upon the application of the requesting agency until at least five days after service on the concerned individual or employing unit. The employment security department shall consider any objections raised by the concerned individual or employing unit in deciding whether the requesting agency needs the information or records for official purposes.

(2) The requirements of subsections (1) and (9) of this section shall not apply to the state legislative branch. The state legislature shall have access to information or records deemed private and confidential under this chapter, if the legislature or a legislative committee finds that the information or records are necessary and for official purposes. If the employment security department does not make information or records available as provided in this subsection, the legislature may exercise its authority granted by chapter 44.16 RCW.

(3) In cases of emergency the governmental agency requesting access shall not be required to formally comply with the provisions of subsection (1) of this section at the time of the request if the procedures required by subsection (1) of this section are complied with by the requesting agency following the receipt of any records or information deemed private and confidential under this chapter. An emergency is defined as a situation in which irreparable harm or damage could occur if records or information are not released immediately.

(4) The requirements of subsection (1)(c) of this section shall not apply to governmental agencies where the procedures would frustrate the investigation of possible violations of criminal laws or to the release of employing unit names, addresses, number of employees,
and aggregate employer wage data for the purpose of state governmental agencies preparing small business economic impact statements under chapter 19.85 RCW or preparing cost-benefit analyses under RCW 34.05.328(1)(c) and (d). Information provided by the department and held to be private and confidential under state or federal laws must not be misused or released to unauthorized parties. A person who misuse such information or releases such information to unauthorized parties is subject to the sanctions in RCW 50.13.080.

(5) Governmental agencies shall have access to certain records or information, limited to such items as names, addresses, social security numbers, and general information about benefit entitlement or employer information possessed by the department, for comparison purposes with records or information possessed by the requesting agency to detect improper or fraudulent claims, or to determine potential tax liability or employer compliance with registration and licensing requirements. In those cases the governmental agency shall not be required to comply with subsection (1)(c) of this section, but the requirements of the remainder of subsection (1) of this section must be satisfied.

(6) Governmental agencies may have access to certain records and information, limited to employer information possessed by the department for purposes authorized in chapter 50.38 RCW. Access to these records and information is limited to only those individuals conducting authorized statistical analysis, research, and evaluation studies. Only in cases consistent with the purposes of chapter 50.38 RCW are governmental agencies not required to comply with subsection (1)(c) of this section, but the requirements of the remainder of subsection (1) of this section must be satisfied. Information provided by the department and held to be private and confidential under state or federal laws shall not be misused or released to unauthorized parties subject to the sanctions in RCW 50.13.080.

(7) Disclosure to governmental agencies of information or records obtained by the employment security department from the federal government shall be governed by any applicable federal law or any agreement between the federal government and the employment security department where so required by federal law. When federal law does not apply to the records or information state law shall control.

(8) The department may provide information for purposes of statistical analysis and evaluation of the WorkFirst program or any successor state welfare program to the department of social and health services, the office of financial management, and other governmental entities with oversight or evaluation responsibilities for the program in accordance with RCW 43.20A.080. The confidential information provided by the department shall remain the property of the department and may be used by the authorized requesting agencies only for statistical analysis, research, and evaluation purposes as provided in RCW 74.08A.410 and 74.08A.420. The department of social and health services, the office of financial management, or other governmental entities with oversight or evaluation responsibilities for the program are not required to comply with subsection (1)(c) of this section, but the requirements of the remainder of subsection (1) of this section and applicable federal laws and regulations must be satisfied. The confidential information used for evaluation and analysis of welfare reform supplied to the authorized requesting entities with regard to the WorkFirst program or any successor state welfare program are exempt from public inspection and copying under chapter 42.56 RCW.

(9) The disclosure of any records or information by a governmental agency which has obtained the records or information under this section is prohibited unless the disclosure is (a) directly connected to the official purpose for which the records or information were obtained or (b) to another governmental agency which would be permitted to obtain the records or information under subsection (4) or (5) of this section.

(10) In conducting periodic salary or fringe benefit studies pursuant to law, the (department of personnel) office of financial management shall have access to records of the employment security department as may be required for such studies. For such purposes, the requirements of subsection (1)(c) of this section need not apply.

(11)(a) To promote the reemployment of job seekers, the commissioner may enter into data-sharing contracts with partners of the one-stop career development system. The contracts shall provide for the transfer of data only to the extent that the transfer is necessary for the efficient provisions of workforce programs, including but not limited to public labor exchange, unemployment insurance, worker training and retraining, vocational rehabilitation, vocational education, adult education, transition from public assistance, and support services. The transfer of information under contracts with one-stop partners is exempt from subsection (1)(c) of this section.

(b) An individual who applies for services from the department and whose information will be shared under (a) of this subsection (11) must be notified that his or her private and confidential information in the department's records will be shared among the one-stop partners to facilitate the delivery of one-stop services to the individual. The notice must advise the individual that he or she may request that private and confidential information not be shared among the one-stop partners and the department must honor the request. In addition, the notice must:

(i) Advise the individual that if he or she requests that private and confidential information not be shared among one-stop partners, the request will in no way affect eligibility for services;

(ii) Describe the nature of the information to be shared, the general use of the information by one-stop partner representatives, and among whom the information will be shared;

(iii) Inform the individual that shared information will be used only for the purpose of delivering one-stop services and that further disclosure of the information is prohibited under contract and is not subject to disclosure under chapter 42.56 RCW; and

(iv) Be provided in English and an alternative language selected by the one-stop center or job service center as appropriate for the community where the center is located.

If the notice is provided in-person, the individual who does not want private and confidential information shared among the one-stop partners must immediately advise the one-stop partner representative of that decision. The notice must be provided to an individual who applies for services telephonically, electronically, or by mail, in a suitable format and within a reasonable time after applying for services, which shall be no later than ten working days from the department's receipt of the application for services. A one-stop representative must be available to answer specific questions regarding the nature, extent, and purpose for which the information may be shared.

(12) To facilitate improved operation and evaluation of state programs, the commissioner may enter into data-sharing contracts with other state agencies only to the extent that such transfer is necessary for the efficient operation or evaluation of outcomes for those programs. The transfer of information by contract under this subsection is exempt from subsection (1)(c) of this section.

(13) The misuse or unauthorized release of records or information by any person or organization to which access is permitted by this chapter subjects the person or organization to a civil penalty of five thousand dollars and other applicable sanctions under state and federal law. Suit to enforce this section shall be brought by the attorney general and the amount of any penalties collected shall be paid into the employment security department administrative contingency fund. The attorney general may recover reasonable attorneys' fees for any action brought to enforce this section.

(1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of the superintendent of public instruction, in collaboration with the human resources director in the office of financial management, shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

(a) How to reduce the number of tiers within the existing salary allocation model;
(b) How to account for labor market adjustments;
(c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;
(d) The role of and types of bonuses available;
(e) Ways to accomplish salary equalization over a set number of years; and
(f) Initial fiscal estimates for implementing the recommendations including a recognition that staff on the existing salary allocation model would have the option to grandfather in permanently to the existing schedule.

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, "salaries and other compensation" includes average base salaries, average total salaries, average employee basic benefits, and retirement benefits.

(4) The analysis required under subsection (1) of this section must:

(a) Examine salaries and other compensation for teachers, other certificated instructional staff, principals, and other building-level certificated administrators, and the types of classified employees for whom salaries are allocated;
(b) Be calculated at a statewide level that identifies labor markets in Washington through the use of data from the United States Bureau of the Census and the Bureau of Labor Statistics; and
(c) Include a comparison of salaries and other compensation to the appropriate labor market for at least the following subgroups of educators: Beginning teachers and types of educational staff associates.

(5) The working group shall include representatives of the (office of financial management) office of financial management, the professional educator standards board, the office of the superintendent of public instruction, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with appropriate expertise in compensation related matters. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(6) The working group shall be monitored and overseen by the legislature and the quality education council created in RCW 28A.290.010. The working group shall make an initial report to the legislature by June 30, 2012, and shall include in its report recommendations for whether additional further work of the group is necessary.

An assessor who intends to put such plan into effect shall inform the department of revenue and the county legislative authority of this intent in writing. The department of revenue and the county legislative authority may thereupon each designate a representative, and such representative or representatives as may be designated by the department of revenue or the county legislative authority, or both, shall form with the assessor a committee. The final report shall be subject to discovery in a civil or administrative proceeding. However, the final report shall not be admitted into evidence or otherwise used in a civil or administrative proceeding except pursuant to subsection (2) of this section.

(2) The relevant excerpt or excerpts from the final report of a loss prevention review team may be used to impeach a fact witness in a civil or administrative proceeding only if the party wishing to use the excerpt or excerpts from the report first shows the court by clear and convincing evidence that the witness, in testimony provided in deposition or at trial in the present proceeding, has contradicted his or her previous statements to the loss prevention review team on an issue of fact material to the present proceeding. In that case, the party may use only the excerpt or excerpts necessary to demonstrate the contradiction. This section shall not be interpreted as expanding the scope of material that may be used to impeach a witness.

(3) No member of a loss prevention review team may be examined in a civil or administrative proceeding as to (a) the work of the loss prevention review team, (b) the incident under review, (c) his or her statements, deliberations, thoughts, analyses, or impressions relating to the work of the loss prevention review team or the incident under review, or (d) the statements, deliberations, thoughts, analyses, or impressions of any other member of the loss prevention review team, or any person who provided information to it, relating to the work of the loss prevention review team or the incident under review.

(4) Any document that exists prior to the appointment of a loss prevention review team, or that is created independently of such a team, does not become inadmissible merely because it is reviewed or used by the loss prevention review team. A person does not become unavailable as a witness merely because the person has been interviewed by or has provided a statement to a loss prevention review team. However, if called as a witness, the person may not be examined regarding the person’s interactions with the loss prevention review team, including without limitation whether the loss prevention review team interviewed the person, what questions the loss prevention review team asked, and what answers the person provided to the loss prevention review team. This section shall not be construed as restricting the person from testifying fully in any proceeding regarding his or her knowledge of the incident under review.

(5) Documents prepared by or for the loss prevention review team are inadmissible and may not be used in a civil or administrative proceeding, except that excerpts may be used to impeach the credibility of a witness under the same circumstances that excerpts of the final report may be used pursuant to subsection (2) of this section.

(6) The restrictions set forth in this section shall not apply in a licensing or disciplinary proceeding arising from an agency’s effort to revoke or suspend the license of any licensed professional based in whole or in part upon allegations of wrongdoing in connection with the death, injury, or other incident reviewed by the loss prevention review team.

(7) Within one hundred twenty days after completion of the final report of a loss prevention review team, the agency under review shall issue to the ((office of financial management) department a response to the report. The response will indicate (a) which of the report’s recommendations the agency hopes to implement, (b) whether implementation of those recommendations will require additional funding or legislation, and (c) whatever other information the director may require. This response shall be considered part of the final report and shall be subject to all provisions of this section that apply to the final report, including without limitation the restrictions on admissibility and use in civil or administrative proceedings and the obligation of the director to make the final report public.

(8) Nothing in RCW 43.41.370 or this section is intended to limit the scope of a legislative inquiry into or review of an incident that is the subject of a loss prevention review.

(9) Nothing in RCW 43.41.370 or in this section affects chapter 70.41 RCW and application of that chapter to state-owned or managed hospitals licensed under chapter 70.41 RCW.

(2) Whenever a final judgment against the state is obtained in an action on a claim arising out of tortious conduct, the claim shall be paid from the liability account.

(3) Whenever a final judgment against the state shall have been obtained in any other action, the clerk of the court shall make and furnish to the office of risk management (division) a duly certified copy of such judgment; the office of risk management (division) shall thereupon audit the amount of damages and costs therein awarded, and the same shall be paid from appropriations specifically provided for such purposes by law.

All claims of two thousand dollars or less shall be approved or rejected by the office of risk management (division), and if approved shall be paid from appropriations specifically provided for such purpose by law. Such decision, if adverse to the claimant in whole or part, shall not preclude the claimant from seeking relief from the legislature. If the claimant accepts any part of his or her claim which is approved for payment by the office of risk management (division), such acceptance shall constitute a waiver and release of the state from any further claims relating to the damage or injury asserted in the claim so accepted. The office of risk management (division) shall submit to the house and senate committees on ways and means, at the beginning of each regular session, a comprehensive list of all claims paid pursuant to this subsection during the preceding year. (6) The legislative committees to whom such claims are referred shall make a transcript, recording, or statement of the substance of the evidence given in support of such a claim. If the legislature approves a claim the same shall be paid from appropriations specifically provided for such purpose by law.

Sec. 1981 et seq. or for the tortious conduct of its officers, employees, and volunteers and all related legal defense costs.

(1) The purpose of the liability account is to: (a) Expeditiously pay legal liabilities and defense costs of the state resulting from tortious conduct; (b) promote risk control through a cost allocation system which recognizes agency loss experience, levels of self-retention, and levels of risk exposure; and (c) establish an actuarially sound system to pay incurred losses, within defined limits.

(2) The liability account shall be used to pay claims for injury and property damages and legal defense costs exclusive of agency-retained expenses otherwise budgeted.

(6) Disbursements for claims from the liability account shall be made to the claimant, or to the clerk of the court for judgments, upon written request to the state treasurer from the risk manager.

(7) The director may direct agencies to transfer moneys from other funds and accounts to the liability account if premiums are delinquent.

(8) The liability account shall not exceed fifty percent of the actuarial value of the outstanding liability as determined annually by the office of risk management (division). If the account exceeds the maximum amount specified in this section, premiums may be adjusted by the office of risk management (division) in order to maintain the account balance at the maximum limits. If, after adjustment of premiums, the account balance remains above the limits specified, the excess amount shall be prorated back to the appropriate funds.

(2) The clerk of court has made and forwarded a certified copy of a final judgment in a court of competent jurisdiction and the attorney general certifies that the judgment is final and was entered in an action on a claim arising out of tortious conduct or under and pursuant to 42 U.S.C. Sec. 1981 et seq. Payment of a judgment shall be made to the clerk of the court for the benefit of the judgment creditors. Upon receipt of payment, the clerk shall satisfy the judgment against the state.

Sec. 518. RCW 4.92.280 and 1998 c 217 s 4 are each amended to read as follows:

If chapter 217, Laws of 1998 mandates an increased level of service by local governments, the local government may, under RCW 43.135.060 and chapter 4.92 RCW, submit claims for reimbursement by the legislature. The claims shall be subject to verification by the office of financial management (department of enterprise services).

Sec. 519. RCW 10.92.020 and 2008 c 224 s 2 are each amended to read as follows:

(1) Tribal police officers under subsection (2) of this section shall be recognized and authorized to act as general authority Washington peace officers. A tribal police officer recognized and authorized to act as a general authority Washington peace officer under this section has the same powers as any other general authority Washington peace officer to enforce state laws in Washington, including the power to make arrests for violations of state laws.

(2) A tribal police officer may exercise the powers of law enforcement of a general authority Washington peace officer under this section, subject to the following:

(a) The appropriate sovereign tribal nation shall submit to the office of financial management (department of enterprise services) proof of public liability and property damage insurance for vehicles operated by the peace officers and professional liability insurance from a company licensed to sell insurance in the state. For purposes of determining adequacy of insurance liability, the sovereign tribal government must submit with the proof of liability insurance a copy of the interlocal agreement between the sovereign tribal government and the local governments that have shared jurisdiction under this chapter where such an agreement has been reached pursuant to subsection (10) of this section.

(i) Within the thirty days of receipt of the information from the sovereign tribal nation, the office of financial management (department of enterprise services) shall either approve or reject the adequacy of insurance, giving consideration to the scope of the interlocal agreement. The adequacy of insurance under this chapter shall be subject to annual review by the state office of financial management (department of enterprise services).

(ii) Each policy of insurance issued under this chapter must include a provision that the insurance shall be available to satisfy settlements or judgments arising from the tortious conduct of tribal police officers when acting in the capacity of a general authority Washington peace officer, and that to the extent of policy coverage neither the sovereign tribal nation nor the insurance carrier will raise a defense of sovereign immunity to preclude an action for damages under state or federal law, the determination of fault in a civil action, or the payment of a settlement or judgment arising from the tortious conduct.

(b) The appropriate sovereign tribal nation shall submit to the office of financial management (department of enterprise services) proof of training requirements for each tribal police officer. To be authorized as a general authority Washington peace officer, a tribal police officer must successfully complete the requirements set forth under RCW 43.101.157. Any applicant not meeting the requirements for certification as a tribal police officer may not act as a general authority Washington peace officer under this chapter. The criminal justice training commission shall notify the office of financial management (department of enterprise services) if:

(i) A tribal police officer authorized under this chapter as a general authority Washington state peace officer has been decertified pursuant to RCW 43.101.157; or

(ii) An appropriate sovereign tribal government is otherwise in noncompliance with RCW 43.101.157.

(3) A copy of any citation or notice of infraction issued, or any incident report taken, by a tribal police officer acting in the capacity of a general authority Washington peace officer as authorized by this chapter must be submitted within three days to the police chief or
sheriff within whose jurisdiction the action was taken. Any citation issued under this chapter shall be to a Washington court, except that any citation issued to Indians within the exterior boundaries of an Indian reservation may be cited to a tribal court. Any arrest made or citation issued not in compliance with this chapter is not enforceable.

(4) Any authorization granted under this chapter shall not in any way expand the jurisdiction of any tribal court or other tribal authority.

(5) The authority granted under this chapter shall be coextensive with the exterior boundaries of the reservation, except that an officer commissioned under this section may act as authorized under RCW 10.93.070 beyond the exterior boundaries of the reservation.

(6) For purposes of civil liability under this chapter, a tribal police officer shall not be considered an employee of the state of Washington or any local government except where a state or local government has deputized a tribal police officer as a specially commissioned officer. Neither the state of Washington and its individual employees nor any local government and its individual employees shall be liable for the authorization of tribal police officers under this chapter, nor for the negligence or other misconduct of tribal officers. The authorization of tribal police officers under this chapter shall not be deemed to have been a nondelegable duty of the state of Washington or any local government.

(7) Nothing in this chapter impairs or affects the existing status and sovereignty of those sovereign tribal governments whose traditional lands and territories lie within the borders of the state of Washington as established under the laws of the United States.

(8) Nothing in this chapter limits, impairs, or nullifies the authority of a county sheriff to appoint duly commissioned state or federally certified tribal police officers as deputy sheriffs authorized to enforce the criminal and traffic laws of the state of Washington.

(9) Nothing in this chapter limits, impairs, or otherwise affects the existing authority under state or federal law of state or local law enforcement officers to enforce state law within the exterior boundaries of an Indian reservation or to enter Indian country in fresh pursuit, as defined in RCW 10.93.120, of a person suspected of violating state law, where the officer would otherwise not have jurisdiction.

(10) An interlocal agreement pursuant to chapter 39.34 RCW is required between the sovereign tribal government and all local government law enforcement agencies that will have shared jurisdiction under this chapter prior to authorization taking effect under this chapter. Nothing in this chapter shall limit, impair, or otherwise affect the implementation of an interlocal agreement completed pursuant to chapter 39.34 RCW by July 1, 2008, between a sovereign tribal government and a local government law enforcement agency for cooperative law enforcement.

(a) Sovereign tribal governments that meet all of the requirements of subsection (2) of this section, but do not have an interlocal agreement pursuant to chapter 39.34 RCW and seek authorization under this chapter, may submit proof of liability insurance and training certification to the office of financial management. Upon confirmation of receipt of the information from the office of financial management, the sovereign tribal government and the local government law enforcement agencies that will have shared jurisdiction under this chapter have one year to enter into an interlocal agreement pursuant to chapter 39.34 RCW. If the sovereign tribal government and the local government law enforcement agencies that will have shared jurisdiction under this chapter are not able to reach agreement after one year, the sovereign tribal governments and the local government law enforcement agencies shall submit to binding arbitration pursuant to chapter 7.04A RCW with the American arbitration association or successor agency for purposes of completing an agreement prior to authorization going into effect.

(b) For the purposes of (a) of this subsection, those sovereign tribal government and local government law enforcement agencies that must enter into binding arbitration shall submit to last best offer arbitration. For purposes of accepting a last best offer, the arbitrator must consider other interlocal agreements between sovereign tribal governments and local law enforcement agencies in Washington state, any model policy developed by the Washington association of sheriffs and police chiefs or successor agency, and national best practices.

PART VII
CREATING THE OFFICE OF CHIEF INFORMATION OFFICER

NEW SECTION. Sec. 701. Information technology is a tool used by state agencies to improve their ability to deliver public services efficiently and effectively. Advances in information technology - including advances in hardware, software, and business processes for implementing and managing these resources - offer new opportunities to improve the level of support provided to citizens and state agencies and to reduce the per-transaction cost of these services. These advances are one component in the process of reengineering how government delivers services to citizens.

To fully realize the service improvements and cost efficiency from the effective application of information technology to its business processes, state government must establish decision-making structures that connect business processes and information technology in an operating model. Many of these business practices transcend individual agency processes and should be worked at the enterprise level. To do this requires an effective partnership of executive management, business processes owners, and providers of support functions necessary to efficiently and effectively deliver services to citizens.

To maximize the potential for information technology to contribute to government business process reengineering the state must establish clear central authority to plan, set enterprise standards, and provide project oversight and management analysis of the various aspects of a business process.

Establishing the office of chief information officer and partnering it with the director of financial management will provide state government with the cohesive structure necessary to develop improved operating models with agency directors and reengineer business process to enhance service delivery while capturing savings.

NEW SECTION. Sec. 702. (1) The office of the chief information officer is created within the office of financial management.

(2) Powers, duties, and functions assigned to the department of information services as specified in this chapter shall be transferred to the office of chief information officer as provided in this chapter.

(3) The primary duties of the office are:

(a) To prepare and lead the implementation of a strategic direction and enterprise architecture for information technology for state government;
(b) To enable the standardization and consolidation of information technology infrastructure across all state agencies to support enterprise-based system development and improve and maintain service delivery;
(c) To establish standards and policies for the consistent and efficient operation of information technology services throughout state government;
(d) To establish statewide enterprise architecture that will serve as the organizing standard for information technology for state agencies;
(e) Educate and inform state managers and policymakers on technological developments, industry trends and best practices, industry benchmarks that strengthen decision making and professional development, and industry understanding for public managers and decision makers.

(4) In the case of institutions of higher education, the powers of the office and the provisions of this chapter apply to business and administrative applications but do not apply to (a) academic and research applications; and (b) medical, clinical, and health care applications, including the business and administrative applications for such operations. However, institutions of higher education must disclose to the office any proposed academic applications that are enterprise-wide in nature relative to the needs and interests of other institutions of higher education.

(5) The legislature and the judiciary, which are constitutionally recognized as separate branches of government, are strongly encouraged to coordinate with the office and participate in shared services initiatives and the development of enterprise-based strategies, where appropriate.

NEW SECTION. Sec. 703. (1) The executive head and appointing authority of the office is the chief information officer. The chief information officer shall be appointed by the governor, subject to confirmation by the senate. The chief information officer shall serve at the pleasure of the governor. The chief information officer shall be paid a salary fixed by the governor. If a vacancy occurs in the position of chief information officer while the senate is not in session, the governor shall make a temporary appointment until the next meeting of the senate at which time he or she shall present to that body his or her nomination for the position.
(2) The chief information officer may employ staff members, some of whom may be exempt from chapter 41.06 RCW, and any additional staff members as are necessary to administer this chapter, and such other duties as may be authorized by law. The chief information officer may delegate any power or duty vested in him or her by this chapter or other law.

(3) The internal affairs of the office shall be under the control of the chief information officer in order that the chief information officer may manage the office in a flexible and intelligent manner as dictated by changing contemporary circumstances. Unless specifically limited by law, the chief information officer shall have complete charge and supervisory powers over the office. The chief information officer may create such administrative structures as the chief information officer deems appropriate, except as otherwise specified by law, and the chief information officer may employ staff members as may be necessary in accordance with chapter 41.06 RCW, except as otherwise provided by law.

NEW SECTION. Sec. 705. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.
(1) "Backbone network" means the shared high-density portions of the state's telecommunications transmission facilities. It includes specially conditioned high-speed communications carrier lines, multiplexors, switches associated with such communications lines, and any equipment and software components necessary for management and control of the backbone network.
(2) "Board" means the technology services board.
(3) "Committee" means the state interoperability executive committee.
(4) "Educational sectors" means those institutions of higher education, school districts, and educational service districts that use the network for distance education, data transmission, and other uses permitted by the board.
(5) "Enterprise architecture" means an ongoing program for translating business vision and strategy into effective enterprise change. It is a continuous activity. Enterprise architecture creates, communicates, and improves the key principles and models that describe the enterprise's future state and enable its evolution.
NEW SECTION. Sec. 231. Management of information technology across state government requires managing resources and business processes across multiple agencies. It is no longer sufficient to pursue efficiencies within agency or individual business process boundaries. The state must manage the business process changes and information technology in support of business processes as a statewide portfolio. The chief information officer will use agency information technology portfolio planning as input to develop a statewide portfolio to guide resource allocation and prioritization decisions.

NEW SECTION. Sec. 232. An agency information technology portfolio shall serve as the basis for making information technology decisions and plans which may include, but are not limited to:

(1) System refurbishment, acquisitions, and development efforts;
(2) Setting goals and objectives for using information technology;
(3) Assessments of information processing performance, resources, and capabilities;
(4) Ensuring the appropriate transfer of technological expertise for the operation of new systems developed using external resources;
(5) Guiding new investment demand, prioritization, selection, performance, and asset value of technology and telecommunications; and
(6) Progress toward providing electronic access to public information.

NEW SECTION. Sec. 233. Each agency shall develop an information technology portfolio consistent with RCW 43.105.172 (as recodified by this act). The superintendent of public instruction shall develop its portfolio in conjunction with educational service districts and statewide or regional providers of K-12 education information technology services.

(2) Agency portfolios shall include, but not be limited to, the following:

(a) A baseline assessment of the agency's information technology resources and capabilities that will serve as the benchmark for subsequent planning and performance measures;
(b) A statement of the agency's mission, goals, and objectives for information technology, including goals and objectives for achieving electronic access to agency records, information, and services;
(c) An explanation of how the agency's mission, goals, and objectives for information technology support and conform to the state strategic information technology plan developed under section 707 of this act;
(d) An implementation strategy to provide electronic access to public records and information. This implementation strategy must be assembled to include:
   (i) Compliance with Title 40 RCW;
   (ii) Adequate public notice and opportunity for comment;
   (iii) Consideration of a variety of electronic technologies, including those that help transcend geographic locations, standard business hours, economic conditions of users, and disabilities;
   (iv) Methods to educate both state employees and the public in the effective use of access technologies;
   (e) Projects and resources required to meet the objectives of the portfolio; and
   (f) Where feasible, estimated schedules and funding required to implement identified projects.

(3) Portfolios developed under subsection (1) of this section shall be submitted to the office for review and approval. The chief information officer may reject, require modification to, or approve portfolios as deemed appropriate. Portfolios submitted under this subsection shall be updated and submitted for review and approval as necessary.

(4) Each agency shall prepare and submit to the office a biennial performance report that evaluates progress toward the objectives articulated in its information technology portfolio and the strategic priorities of the state. The superintendent of public instruction shall
develop its portfolio in conjunction with educational service districts and statewide or regional providers of K-12 education information technology services. The report shall include:

(a) An evaluation of the agency's performance relating to information technology;

(b) An assessment of progress made toward implementing the agency information technology portfolio;

(c) Progress toward electronic access to public information and enabling citizens to have two-way interaction for obtaining information and services from agencies; and

(d) An inventory of agency information services, equipment, and proprietary software.

(5) The office shall establish standards, elements, form, and format for plans and reports developed under this section.

(6) Agency activities to increase electronic access to public records and information, as required by this section, must be implemented within available resources and existing agency planning processes.

(7) The office may exempt any agency from any or all of the requirements of this section.

NEW SECTION. Sec. 711. (1) At the request of the director of financial management, the office shall evaluate both state agency information technology current spending and technology budget requests, including those proposed by the superintendent of public instruction, in conjunction with educational service districts, or statewide or regional providers of K-12 education information technology services. The office shall submit recommendations for funding all or part of such requests to the director of financial management. The office shall also submit recommendations regarding consolidation and coordination of similar proposals or other efficiencies it finds in reviewing proposals.

(2) The office shall establish criteria, consistent with portfolio-based information technology management, for the evaluation of agency budget requests under this section. Technology budget requests shall be evaluated in the context of the state's information technology portfolio; technology initiatives underlying budget requests are subject to review by the office. Criteria shall include, but not be limited to: Feasibility of the proposed projects, consistency with the state strategic information technology plan and the state enterprise architecture, consistency with information technology portfolios, appropriate provision for public electronic access to information, evidence of business process streamlining and gathering of business and technical requirements, services, duration of investment, costs, and benefits.

PROJECT MANAGEMENT OVERSIGHT

NEW SECTION. Sec. 712. (1) The office shall establish standards and policies governing the planning, implementation, and evaluation of major information technology projects, including those proposed by the superintendent of public instruction, in conjunction with educational service districts, or statewide or regional providers of K-12 education information technology services. The standards and policies shall:

(a) Establish criteria to identify projects which are subject to this section. Such criteria shall include, but not be limited to, significant anticipated cost, complexity, or statewide significance of the project; and

(b) Establish a model process and procedures which state agencies shall follow in developing and implementing projects within their information technology portfolios. This process may include project oversight experts or panels, as appropriate. Agencies may propose, for approval by the office, a process and procedures unique to the agency. The office may accept or require modification of such agency proposals or the office may reject such agency proposals and require use of the model process and procedures established under this subsection. Any process and procedures developed under this subsection shall require (i) distinct and identifiable phases upon which funding may be based, (ii) user validation of products through system demonstrations and testing of prototypes and deliverables, and (iii) other elements identified by the office.

The chief information officer may suspend or terminate a major project, and direct that the project funds be placed into unallotted reserve status, if the chief information officer determines that the project is not meeting or is not expected to meet anticipated performance standards.

(2) The office of financial management shall establish policies and standards consistent with portfolio-based information technology management to govern the funding of projects developed under this section. The policies and standards shall provide for:

(a) Funding of a project under terms and conditions mutually agreed to by the chief information officer, the director of financial management, and the head of the agency proposing the project. However, the office of financial management may require incremental funding of a project on a phase-by-phase basis whereby funds for a given phase of a project may be released only when the office of financial management determines, with the advice of the office, that the previous phase is satisfactorily completed; and

(b) Other elements deemed necessary by the office of financial management.

NEW SECTION. Sec. 713. (1) Prior to making a commitment to purchase, acquire, or develop a major information technology project or service, state agencies must provide a proposal to the office outlining the business case of the proposed product or service, including the upfront and ongoing cost of the proposal.

(2) Within sixty days of receipt of a proposal, the office shall approve the proposal, reject it, or propose modifications.

(3) In reviewing a proposal, the office must determine whether the product or service is consistent with:

(a) The standards and policies developed by the office pursuant to section 706 of this act; and

(b) The state's enterprise-based strategy.

(4) If a substantially similar product or service is offered by the consolidated technology services agency established in RCW 43.105.047, the office may require the agency to procure the product or service through the consolidated technology services agency, if doing so would benefit the state as an enterprise.

(5) The office shall provide guidance to agencies as to what threshold of information technology spending constitutes a major information technology product or service under this section.

ENTERPRISE ARCHITECTURE

NEW SECTION. Sec. 714. (1) The office shall develop an enterprise-based strategy for information technology in state government informed by portfolio management planning and information technology expenditure information collected from state agencies pursuant to RCW 43.88.092.

(2)(a) The office shall develop an ongoing enterprise architecture program for translating business vision and strategy into effective enterprise change. This program will create, communicate, and improve the key principles and models that describe the enterprise’s future state and enable its evolution, in keeping with the priorities of government and the information technology strategic plan.

(b) The enterprise architecture program will facilitate business process collaboration among agencies statewide; improving the reliability, interoperability, and sustainability of the business processes that state agencies use.

In developing an enterprise-based strategy for the state, the office is encouraged to consider the following strategies as possible opportunities for achieving greater efficiency:

(i) Developing evaluation criteria for deciding which common enterprise-wide business processes should become managed as enterprise services;
(ii) Developing a roadmap of priorities for creating enterprise services;
(iii) Developing decision criteria for determining implementation criteria for centralized or decentralized enterprise services;
(iv) Developing evaluation criteria for deciding which technology investments to continue, hold, or drop; and
(v) Performing such other duties as may be assigned by the office to promote effective enterprise change.

The program will establish performance measurement criteria for each of its initiatives; will measure the success of those initiatives; and will assess its quarterly results with the chief information officer to determine whether to continue, revise, or disband the initiative.

Education data systems must be flexible and able to adapt to evolving needs for information, but there must be an objective and orderly data governance process for determining when changes are needed and how to implement them. It is the further intent of the legislature to provide independent review and evaluation of a comprehensive K-12 education data improvement system by assigning the review and monitoring responsibilities to the education research and data center (and the legislative evaluation and accountability program committee).

(2) It is the intent that the data system specifically service reporting requirements for teachers, parents, superintendents, school boards, the legislature, the office of the superintendent of public instruction, and the public.

(j) The capacity to link program cost information with student performance information to gauge the cost-effectiveness of programs;

(k) Information that is centrally accessible and updated regularly; and

(l) An anonymous, nonidentifiable replicated copy of data that is updated at least quarterly, and made available to the public by the state.

(4) It is the legislature's goal that all school districts have the capability to collect state-identified common data and export it in a standard format to support a statewide K-12 education data improvement system under this section.

(5) It is the legislature's intent that the K-12 education data improvement system be developed to provide the capability to make reports as required under RCW 28A.300.507 available.

**MESSAGE FROM THE SENATE**

May 25, 2011

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 2088 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that, despite increases in degree production, there remain acute shortages in high employer demand programs of study, particularly in the science, technology, engineering, and mathematics (STEM) and health care fields of study. According to the workforce training and education coordinating board, seventeen percent of Washington businesses had difficulty finding job applicants in 2010. Eleven thousand employers did not fill a vacancy because they lacked qualified job applicants. Fifty-nine percent of projected job openings in Washington state from now until 2017 will require some form of postsecondary education and training.

It is the intent of the legislature to provide jobs and opportunity by making Washington the place where the world's most productive companies find the world's most talented people. The legislature intends to accomplish this through the creation of the opportunity scholarship and the opportunity expansion programs to help mitigate the impact of tuition increases, increase the number of baccalaureate degrees in high employer demand and other programs, and invest in programs and students to meet market demands for a knowledge-based economy while filling middle-income jobs with a sufficient supply of skilled workers."

**NEW SECTION. Sec. 2.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

1. "Board" means the higher education coordinating board or its successor.

2. "Eligible education programs" means high employer demand and other programs of study as determined by the opportunity scholarship board.

3. "Eligible expenses" means reasonable expenses associated with the costs of acquiring an education such as tuition, books, equipment, fees, room and board, and other expenses as determined by the program administrator in consultation with the board and the state board for community and technical colleges.

4. "Eligible student" means a resident student who received their high school diploma or GED in high employer demand and one of the following:
   a) Has been accepted at a four-year institution of higher education into an eligible education program leading to a baccalaureate degree; or
(ii) Will attend a two-year institution of higher education and intends to transfer to an eligible education program at a four-year institution of higher education;
(b) Declares an intention to obtain a baccalaureate degree; and
(c) Has a family income at or below one hundred twenty-five percent of the state median family income at the time the student applies for an opportunity scholarship.

(5) "High employer demand program of study" has the same meaning as provided in RCW 28B.50.030.

(6) "Participant" means an eligible student who has received a scholarship under the opportunity scholarship program.

(7) "Program administrator" means a college scholarship organization that is a private nonprofit corporation registered under Title 24 RCW and qualified as a tax-exempt entity under section 501(c)(3) of the federal internal revenue code, with expertise in managing scholarships and college advising.

(8) "Resident student" has the same meaning as provided in RCW 28B.15.012.

NEW SECTION. Sec. 3. (1) The opportunity scholarship board is created. The opportunity scholarship board consists of seven members:
(a) Three members appointed by the governor. For two of the three appointments, the governor shall consider names from a list provided by the president of the senate and the speaker of the house of representatives; and
(b) Four foundation or business and industry representatives appointed by the governor from among the state’s most productive industries such as aerospace, manufacturing, health sciences, information technology, and others. The foundation or business and industry representatives shall be selected from among nominations provided by the private sector donors to the opportunity scholarship and opportunity expansion programs. However, the governor may request, and the private sector donors shall provide, an additional list or lists from which the governor shall select these representatives.

(2) Board members shall hold their offices for a term of four years from the first day of September and until their successors are appointed. No more than the terms of two members may expire simultaneously on the last day of August in any one year.

(3) The members of the opportunity scholarship board shall elect one of the business and industry representatives to serve as chair.

(4) Five members of the board constitute a quorum for the transaction of business. In case of a vacancy, or when an appointment is made after the date of expiration of the term, the governor or the president of the senate or the speaker of the house of representatives, depending upon which made the initial appointment to that position, shall fill the vacancy for the remainder of the term of the board member whose office has become vacant or expired.

(5) The opportunity scholarship board shall be staffed by the program administrator.

(6) The purpose of the opportunity scholarship board is to provide oversight and guidance for the opportunity expansion and the opportunity scholarship programs in light of established legislative priorities and to fulfill the duties and responsibilities under this chapter, including but not limited to determining eligible education programs for purposes of the opportunity scholarship program. Duties, exercised jointly with the program administrator, include soliciting funds and setting annual fund-raising goals.

(7) The opportunity scholarship board may report to the governor and the appropriate committees of the legislature with recommendations as to:
(a) Whether some or all of the scholarships should be changed to conditional scholarships that must be repaid in the event the participant does not complete the eligible education program; and
(b) A source or sources of funds for the opportunity expansion program in addition to the voluntary contributions of the high technology research and development tax credit under section 10 of this act.

NEW SECTION. Sec. 4. (1) The program administrator, under contract with the board, shall staff the opportunity scholarship board and shall have the duties and responsibilities provided in this chapter, including but not limited to publicizing the program, selecting participants for the opportunity scholarship award, distributing opportunity scholarship awards, and achieving the maximum possible rate of return on investment of the accounts in subsection (2) of this section, while ensuring transparency in the investment decisions and processes. Duties, exercised jointly with the opportunity scholarship board, include soliciting funds and setting annual fund-raising goals. The program administrator shall be paid an administrative fee as determined by the opportunity scholarship board.

(2) With respect to the opportunity scholarship program, the program administrator shall:
(a) Establish and manage two separate accounts into which to receive grants and contributions from private sources as well as state matching funds, and from which to disburse scholarship funds to participants;
(b) Solicit and accept grants and contributions from private sources, via direct payment, pledge agreement, or escrow account, of private sources for deposit into one or both of the two accounts created in this subsection (2)(b) in accordance with this subsection (2)(b):
(i) The "scholarship account," whose principal may be invaded, and from which scholarships must be disbursed beginning no later than December 1, 2011, if, by that date, state matching funds in the amount of five million dollars or more have been received. Thereafter, scholarships shall be disbursed on an annual basis beginning no later than May 1, 2012, and every May 1st thereafter;
(ii) The "endowment account," from which scholarship moneys may be disbursed from earnings only in years when:
(A) The state match has been made into both the scholarship and the endowment account;
(B) The state appropriations for the state need grant under RCW 28B.92.010 meet or exceed state appropriations for the state need grant made in the 2011-2013 biennium, adjusted for inflation, and eligibility for state need grant recipients is at least seventy percent of state median family income; and
(C) The state has demonstrated progress toward the goal of total per-student funding levels, from state appropriations plus tuition and fees, of at least the sixtieth percentile of total per-student funding at similar public institutions of higher education in the global challenge states, as defined, measured, and reported in RCW 28B.15.068. In any year in which the office of financial management reports that the state has not made progress toward this goal, no new scholarships may be awarded. In any year in which the office of financial management reports that the percentile of total per-student funding is less than the sixtieth percentile and at least five percent less than the prior year, pledges of future grants and contributions may, at the request of the donor, be released and grants and contributions already received refunded to the extent that opportunity scholarship awards already made can be fulfilled from the funds remaining in the endowment account; and
(iii) An amount equal to at least fifty percent of all grants and contributions must be deposited into the scholarship account until such time as twenty million dollars have been deposited into the account, after which time the private donors may designate whether their contributions must be deposited to the scholarship or the endowment account. The opportunity scholarship board and the program administrator must work to maximize private sector contributions to both the scholarship account and the endowment account, to maintain a robust scholarship program while simultaneously building the endowment, and to determine the division between the two accounts in the case of undesignated grants.
and contributions, taking into account the need for a long-term funding mechanism and the short-term needs of families and students in Washington. The first five million dollars in state match, as provided in section 5 of this act, shall be deposited into the scholarship account and thereafter the state match shall be deposited into the two accounts in equal proportion to the private funds deposited in each account;

(c) Provide proof of receipt of grants and contributions from private sources to the board, identifying the amounts received by name of private source and date, and whether the amounts received were deposited into the scholarship or the endowment account;

(d) In consultation with the higher education coordinating board and the state board for community and technical colleges, make an assessment of the reasonable annual eligible expenses associated with eligible education programs identified by the opportunity scholarship board;

(e) Determine the dollar difference between tuition fees charged by institutions of higher education in the 2008-09 academic year and the academic year for which an opportunity scholarship is being distributed;

(f) Develop and implement an application, selection, and notification process for awarding opportunity scholarships;

(g) Determine the annual amount of the opportunity scholarship for each selected participant. The annual amount shall be at least one thousand dollars or the amount determined under (e) of this subsection, but may be increased on an income-based, sliding scale basis up to the amount necessary to cover all reasonable annual eligible expenses as assessed pursuant to (d) of this subsection, or to encourage participation in baccalaureate degree programs identified by the opportunity scholarship board;

(h) Distribute scholarship funds to selected participants. Once awarded, and to the extent funds are available for distribution, an opportunity scholarship shall be automatically renewed until the participant withdraws from or is no longer attending the program, completes the program, or has taken the credit or clock hour equivalent of one hundred twenty-five percent of the published length of time of the participant's program, whichever occurs first, and as long as the participant annually submits documentation of filing both a free application for federal student aid and for available federal education tax credits, including but not limited to the American opportunity tax credit; and

(i) Notify institutions of scholarship recipients who will attend their institutions and inform them of the terms of the students' eligibility.

3 With respect to the opportunity expansion program, the program administrator shall:

(a) Assist the opportunity scholarship board in developing and implementing an application, selection, and notification process for making opportunity expansion awards; and

(b) Solicit and accept grants and contributions from private sources for opportunity expansion awards.

NEW SECTION. Sec. 5. (1) The opportunity scholarship program is established.

2 The purpose of this scholarship program is to provide scholarships that will help low and middle-income Washington residents earn baccalaureate degrees in high employer demand and other programs of study and encourage them to remain in the state to work. The program must be designed for both students starting at two-year institutions of higher education and intending to transfer to four-year institutions of higher education and students starting at four-year institutions of higher education.

3 The opportunity scholarship board shall determine which programs of study, including but not limited to high employer demand programs, are eligible for purposes of the opportunity scholarship.

4 The source of funds for the program shall be a combination of private grants and contributions and state matching funds. A state match may be earned under this section for private contributions made on or after the effective date of this section. A state match, up to a maximum of fifty million dollars annually, shall be provided beginning the later of January 1, 2014, or January 1st next following the end of the fiscal year in which collections of state retail sales and use tax, state business and occupation tax, and state public utility tax exceed, by ten percent the amounts collected from these tax resources in the fiscal year that ended June 30, 2008, as determined by the department of revenue.

NEW SECTION. Sec. 6. (1) The opportunity scholarship match transfer account is created in the custody of the state treasurer as a nonappropriated account to be used solely and exclusively for the opportunity scholarship program created in section 5 of this act. The purpose of the account is to provide matching funds for the opportunity scholarship program.

(2) Revenues to the account shall consist of appropriations by the legislature into the account and any gifts, grants, or donations received by the director of the board for this purpose.

(3) No expenditures from the account may be made except upon receipt of proof, by the director of the board from the program administrator, of private contributions to the opportunity scholarship program. Expenditures, in the form of matching funds, may not exceed the total amount of private contributions.

(4) Only the director of the board or the director's designee may authorize expenditures from the opportunity scholarship match transfer account. Such authorization must be made as soon as practicable following receipt of proof as required under subsection (3) of this section.

NEW SECTION. Sec. 7. (1) The opportunity expansion program is established.

(2) The opportunity scholarship board shall select institutions of higher education to receive opportunity expansion awards. In so doing, the opportunity scholarship board must:

(a) Solicit, receive, and evaluate proposals from institutions of higher education that are designed to directly increase the number of baccalaureate degrees produced in high employer demand and other programs of study, and that include annual numerical targets for the number of such degrees, with a strong emphasis on serving students who received their high school diploma or GED in Washington or are adult Washington residents who are returning to school to gain a baccalaureate degree;

(b) Develop criteria for evaluating proposals and awarding funds to the proposals deemed most likely to increase the number of baccalaureate degrees and degrees produced in high employer demand and other programs of study;

(c) Give priority to proposals that include a partnership between public and private partnership entities that leverage additional private funds;

(d) Give priority to proposals that are innovative, efficient, and cost-effective, given the nature and cost of the particular program of study;

(e) Consult and operate in consultation with existing higher education stakeholders, including but not limited to: Faculty, labor, student organizations, and relevant higher education agencies; and

(f) Determine which proposals to improve and accelerate the production of baccalaureate degrees in high employer demand and other programs of study will receive opportunity expansion awards for the following state fiscal year, notify the state treasurer, and announce the awards.

(3) The state treasurer, at the direction of the opportunity scholarship board, must distribute the funds that have been awarded to the institutions of higher education from the opportunity expansion account.
(4) Institutions of higher education receiving awards under this section may not supplant existing general fund state revenues with opportunity expansion awards.

(5) Annually, the office of financial management shall report to the opportunity scholarship board, the governor, and the relevant committees of the legislature regarding the percentage of Washington households with incomes in the middle-income bracket or higher. For purposes of this section, "middle-income bracket" means household incomes between two hundred and five hundred percent of the 2010 federal poverty level, as determined by the United States department of health and human services for a family of four, adjusted annually for inflation.

(6) Annually, the higher education coordinating board must report to the opportunity scholarship board, the governor, and the relevant committees of the legislature regarding the increase in the number of degrees in high employer demand and other programs of study awarded by institutions of higher education over the average of the preceding ten academic years.

(7) In its comprehensive plan, the workforce training and education coordinating board shall include specific strategies to reach the goal of increasing the percentage of Washington households living in the middle-income bracket or higher, as calculated by the office of financial management and developed by the agency or education institution that will lead the strategy.

NEW SECTION. Sec. 8. (1) By December 1, 2012, and annually each December 1st thereafter, the opportunity scholarship board, together with the program administrator, shall report to the board, the governor, and the appropriate committees of the legislature regarding the opportunity scholarship and opportunity expansion programs, including but not limited to:

(a) Which education programs the opportunity scholarship board determined were eligible for purposes of the opportunity scholarship;

(b) The number of applicants for the opportunity scholarship, disaggregated, to the extent possible, by race, ethnicity, gender, county of origin, age, and median family income;

(c) The number of participants in the opportunity scholarship program, disaggregated, to the extent possible, by race, ethnicity, gender, county of origin, age, and median family income;

(d) The number and amount of the scholarships actually awarded, and whether the scholarships were paid from the scholarship account or the endowment account;

(e) The institutions and eligible education programs in which opportunity scholarship participants enrolled, together with data regarding participants' completion and graduation;

(f) The total amount of private contributions and state match moneys received for the opportunity scholarship program, how the funds were distributed between the scholarship and endowment accounts, the interest or other earnings on the accounts, and the amount of any administrative fee paid to the program administrator; and

(g) Identification of the programs the opportunity scholarship board selected to receive opportunity expansion awards and the amount of such awards.

(2) In the next succeeding legislative session following receipt of a report required under subsection (1) of this section, the appropriate committees of the legislature shall review the report and consider whether any legislative action is necessary with respect to either the opportunity scholarship program or the opportunity expansion program, including but not limited to consideration of whether any legislative action is necessary with respect to the nature and level of focus on high employer demand fields and the number and amount of scholarships.

NEW SECTION. Sec. 9. (1) Beginning in 2018, the joint legislative audit and review committee shall evaluate the opportunity scholarship and opportunity expansion programs, and submit a report to the appropriate committees of the legislature by December 1, 2018. The committee's evaluation shall include, but not be limited to:

(a) The number and type of eligible education programs as determined by the opportunity scholarship board;

(b) The number of participants in the opportunity scholarship program in relation to the number of participants who completed a baccalaureate degree;

(c) The number of participants in the opportunity scholarship program in relation to the number of participants who completed a baccalaureate degree after receiving an opportunity scholarship and the types of baccalaureate degrees awarded;

(d) The amount of private contributions to the opportunity scholarship program, annually and in total;

(e) The amount of state match moneys to the opportunity scholarship program, annually and in total;

(f) The amount of any administrative fees paid to the program administrator, annually and in total;

(g) The amount of any administrative fees paid to the program administrator, annually and in total;

(h) The number and type of proposals submitted by institutions for opportunity expansion awards, the number and type of proposals that received an award of opportunity expansion funds, and the amount of such awards;

(i) The total cumulative number of additional high employer demand degrees produced in Washington state due to the opportunity expansion program, including both the initial opportunity expansion awards and the subsequent inclusion in base funding; and

(j) Evidence that the existence of the opportunity scholarship and opportunity expansion programs have contributed to the achievement of the public policy objectives of helping to mitigate the impact of tuition increases, increasing the number of baccalaureate degrees in high employer demand and other programs, and investing in programs and students to meet market demands for a knowledge-based economy while filling middle-income jobs with a sufficient supply of skilled workers.

(2) In the event that the joint legislative audit and review committee is charged with completing an evaluation of other aspects of degree production, funding, or other aspects of higher education in 2018, and to the extent that it is economical and feasible to do so, the committee shall combine the multiple evaluations and submit a single report.

NEW SECTION. Sec. 10. A new section is added to chapter 82.32 RCW to read as follows:

A person eligible for the high technology research and development tax credit under RCW 82.04.4452 may contribute all or any portion of the credit to the opportunity expansion account hereby created in the state treasury. The department must create the forms and processes to allow a person to make such an election easily and quickly by means of checking a box. By May 1, 2012, and by May 1st of every year thereafter, the department must report the amount so contributed and certify the amount to the state treasurer. By July 1, 2012, and by July 1st of every year thereafter, the state treasurer must transfer the amount into the opportunity expansion account. MESSAGE FROM THE SENATE

May 25, 2011

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 2082 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. Intent. (1) The legislature finds that:
(a) Persons who have a long-term disability and apply for federal supplemental security income benefits should receive assistance while their application for federal benefits is pending, with repayment from the federal government of state-funded income assistance paid through the aged, blind, or disabled assistance program;
(b) Persons who are incapacitated from gainful employment for an extended period, but who may not meet the level of severity of a long-term disability, are at increased risk of homelessness; and
(c) Persons who are homeless and suffering from significant medical impairments, mental illness, or chemical dependency face substantial barriers to successful participation in, and completion of, needed medical or behavioral health treatment services. Stable housing increases the likelihood of compliance with and completion of treatment.
(2) Through this act, the legislature intends to:
(a) Terminate all components of the disability lifeline program created in 2010 and codified in RCW 74.04.005 and create new programs: (i) To provide financial grants through the aged, blind, and disabled assistance program and the pregnant women assistance program; and (ii) to provide services through the essential needs and housing support program; and
(b) Increase opportunities to utilize limited public funding, combined with private charitable and volunteer efforts to serve persons who are recipients of the benefits provided by the new programs created under this act.
NEW SECTION. Sec. 2. Effective October 31, 2011, the disability lifeline program, as defined under chapter 74.04 RCW, is terminated and all benefits provided under that program shall expire and cease to exist.

NEW SECTION. Sec. 3. (1)(a) Effective November 1, 2011, the aged, blind, or disabled assistance program shall provide financial grants to persons in need who:
(i) Are not eligible to receive federal aid assistance, other than basic food benefits transferred electronically and medical assistance;
(ii) Meet the eligibility requirements of subsection (3) of this section; and
(iii) Are aged, blind, or disabled.  For purposes of determining eligibility for assistance for the aged, blind, or disabled assistance program, the following definitions apply:
(A) "Aged" means age sixty-five or older.
(B) "Blind" means statutorily blind as defined for the purpose of determining eligibility for the federal supplemental security income program.
(C) "Disabled" means likely to meet the federal supplemental security income disability standard. In making this determination, the department shall give full consideration to the cumulative impact of an applicant's multiple impairments, an applicant's age, and vocational and educational history.

In determining whether a person is disabled, the department may rely on the following:
(I) A previous disability determination by the social security administration or the disability determination service entity within the department; or
(II) A determination that an individual is eligible to receive optional categorically needy medicaid as a disabled person under the federal regulations at 42 C.F.R. Parts 435, Secs. 201(a)(3) and 210.
(b) The following persons are not eligible for the aged, blind, or disabled assistance program:
(i) Persons who are not able to engage in gainful employment due primarily to alcohol or drug addiction. These persons shall be referred to appropriate assessment, treatment, shelter, or supplemental security income referral services as authorized under chapter 74.50 RCW. Referrals shall be made at the time of application or at the time of eligibility review. This subsection may not be construed to prohibit the department from granting aged, blind, or disabled assistance benefits to alcoholics and drug addicts who are incapacitated due to other physical or mental conditions that meet the eligibility criteria for the aged, blind, or disabled assistance program; or
(ii) Persons for whom there has been a final determination of ineligibility for federal supplemental security income benefits.
(c) Persons may receive aged, blind, or disabled assistance benefits pending application for federal supplemental security income benefits. The monetary value of any aged, blind, or disabled assistance benefit that is subsequently duplicated by the person's receipt of supplemental security income for the same period shall be considered a debt due the state and shall by operation of law be subject to recovery through all available legal remedies.

(2) Effective November 1, 2011, the pregnant women assistance program shall provide financial grants to persons who:

(a) Are not eligible to receive federal aid assistance other than basic food benefits or medical assistance; and

(b) Are pregnant and in need, based upon the current income and resource standards of the federal temporary assistance for needy families program, but are ineligible for federal temporary assistance for needy families benefits for a reason other than failure to cooperate in program requirements; and

(c) Meet the eligibility requirements of subsection (3) of this section.

(3) To be eligible for the aged, blind, or disabled assistance program under subsection (1) of this section or the pregnant women assistance program under subsection (2) of this section, a person must:

(a) Be a citizen or alien lawfully admitted for permanent residence or otherwise residing in the United States under color of law;

(b) Have furnished the department his or her social security number. If the social security number cannot be furnished because it has not been issued or is not known, an application for a number shall be made prior to authorization of benefits, and the social security number shall be provided to the department upon receipt;

(c) Have not refused or failed without good cause to participate in drug or alcohol treatment if an assessment by a certified chemical dependency counselor indicates a need for such treatment. Good cause must be found to exist when a person's physical or mental condition, as determined by the department, prevents the person from participating in drug or alcohol dependency treatment, when needed outpatient drug or alcohol treatment is not available to the person in the county of his or her residence or when needed inpatient treatment is not available in a location that is reasonably accessible for the person; and

(d) Not have refused or failed to cooperate in obtaining federal aid assistance, without good cause.

(4) Effective November 1, 2011, referrals for essential needs and housing support under section 4 of this act shall be provided to persons found eligible for medical care services under RCW 74.09.035 who are not recipients of alcohol and addiction services provided under chapter 74.50 RCW or are not recipients of aged, blind, or disabled assistance.

(5) No person may be considered an eligible individual for benefits under this section with respect to any month if during that month the person:

(a) Is fleeing to avoid prosecution of, or to avoid custody or confinement for conviction of, a felony, or an attempt to commit a felony, under the laws of the state of Washington or the place from which the person flees; or

(b) Is violating a condition of probation, community supervision, or parole imposed under federal or state law for a felony or gross misdemeanor conviction.

(6) The department must review the cases of all persons, except recipients of alcohol and addiction treatment under chapter 74.50 RCW, or recipients of aged, blind, or disabled assistance, who have received medical care services for twelve consecutive months, and at least annually after the first review, to determine whether they are eligible for the aged, blind, or disabled assistance program.
(c) The appropriations by the legislature for the purposes of the essential needs and housing support program established under this section shall be based on forecasted program caseloads. The caseload forecast council shall provide a courtesy forecast of the medical care services recipient population that is homeless or is included in reporting under subsection (7)(c)(iii) of this section. The department may move funds between entities or between counties to reflect actual caseload changes. In doing so, the department must: (i) Develop a process for reviewing the caseload of designated essential needs and housing support entities, and for redistributing grant funds from those entities experiencing reduced actual caseloads to those with increased actual caseloads; and (ii) inform all designated entities of the redistribution process. Savings resulting from program caseload attrition from the essential needs and housing support program shall not result in increased per-client expenditures.

(d) Essential needs and housing support entities must partner with other public and private organizations to maximize the beneficial impact of funds distributed under this section, and should attempt to leverage other sources of public and private funds to serve essential needs and housing support recipients. Funds appropriated in the operating budget for essential needs and housing support must be used only to serve persons eligible to receive services under that program.

(7) The department shall:

(a) Require housing support entities to enter data into the homeless client management information system;

(b) Require essential needs support entities to report on services provided under this section;

(c) In collaboration with the department of social and health services, submit a report annually to the relevant policy and fiscal committees of the legislature. A preliminary report shall be submitted by December 31, 2011, and must include (c)(i), (iii), and (v) of this subsection. Annual reports must be submitted beginning December 1, 2012, and must include:

(i) A description of the actions the department has taken to achieve the objectives of this act;

(ii) The amount of funds used by the department to administer the program;

(iii) Information on the housing status of essential needs and housing support recipients served by housing support entities, and individuals who have requested housing support but did not receive housing support;

(iv) Grantee expenditure data related to administration and services provided under this section; and

(v) Efforts made to partner with other entities and leverage sources or public and private funds;

(d) Review the data submitted by the designated entities, and make recommendations for program improvements and administrative efficiencies. The department has the authority to designate alternative entities as necessary due to performance or other significant issues. Such change must only be made after consultation with the department of social and health services and the impacted entity.

(8) The department, counties, and essential needs and housing support entities are not civilly or criminally liable and may not have any penalty or cause of action of any nature arise against them related to decisions regarding: (a) The provision or lack of provision of housing or essential needs support; or (b) the type of housing arrangement supported with funds allocated under this section, when the decision was made in good faith and in the performance of the powers and duties under this section. However, this section does not prohibit legal actions against the department, county, or essential needs or housing support entity to enforce contractual duties or obligations.

NEW SECTION. Sec. 5. A new section is added to chapter 43.185C RCW to read as follows:

The department, in collaboration with the department of social and health services, shall develop a mechanism through which the department and local governments or community-based organizations can verify a person has been determined eligible and remains eligible for medical care services under RCW 74.09.035 by the department of social and health services.

Sec. 6. RCW 74.09.035 and 2011 c 284 s 3 are each amended to read as follows:

(a) Persons who:

(i) Are incapacitated from gainful employment by reason of bodily or mental infirmity that will likely continue for a minimum of ninety days as determined by the department. The standard for incapacity in this subsection, as evidenced by the ninety-day duration standard, is not intended to be as stringent as federal supplemental security income disability standards;

(ii) Are citizens or aliens lawfully admitted for permanent residence or otherwise residing in the United States under color of law;

(iii) Have furnished the department their social security number. If the social security number cannot be furnished because it has not been issued or is not known, an application for a number shall be made prior to authorization of benefits, and the social security number shall be provided to the department upon receipt;

(iv) Have countable income as described in RCW 74.04.005 at or below four hundred twenty-eight dollars for a married couple or at or below three hundred thirty-nine dollars for a single individual; and

(d) The following persons are not eligible for medical care services:

(i) Persons who are unemployed due primarily to alcohol or drug addiction, except as provided in (c) of this subsection. These persons shall be referred to appropriate assessment, treatment, shelter, or supplemental security income referral services as authorized under chapter 74.50 RCW. Referrals shall be made at the time of application or at the time of eligibility review. This subsection shall not be construed to prohibit the department from granting medical care services benefits to alcoholics and drug addicts who are incapacitated due to other physical or mental conditions that meet the eligibility criteria for medical care services;

(ii) Persons who refuse or fail to cooperate in obtaining federal aid assistance, without good cause;

(iii) Persons who refuse or fail without good cause to participate in drug or alcohol treatment if an assessment by a certified chemical dependency counselor indicates a need for such treatment. Good cause must be found to exist when a person's physical or mental condition, as determined by the department, prevents the person from participating in drug or alcohol dependency treatment, when needed outpatient drug or alcohol treatment is not available to the person in
the county of his or her residence or when needed inpatient treatment is not available in a location that is reasonably accessible for the person; and

      (ii) The process implementing the medical criteria shall involve consideration of opinions of the treating or consulting physicians or health care professionals regarding incapacity, and any eligibility decision which rejects uncontroverted medical opinion must set forth clear and convincing reasons for doing so.
   (f) For purposes of reviewing a person's continuing eligibility and in order to remain eligible for the program, persons who have been found to have an incapacity from gainful employment must demonstrate that there has been no material improvement in their medical or mental health condition. The department may discontinue benefits when there was specific error in the prior determination that found the person eligible by reason of incapacitation.
   (2) Enrollment in medical care services may not result in expenditures that exceed the amount that has been appropriated in the operating budget. If it appears that continued enrollment will result in expenditures exceeding the appropriated level for a particular fiscal year, the department may freeze new enrollment and establish a waiting list of (eligible) persons who may receive benefits only when sufficient funds are available. (Upon implementation of a federal Medicaid 1115 waiver providing federal matching funds for medical care services, persons subject to termination of disability life line benefits under RCW 74.04.005(5)(h)) remain enrolled in medical care services and persons subject to denial of disability life line benefits under RCW 74.04.005(3)(i) remain eligible for medical care services.

   (3) Determination of the amount, scope, and duration of medical care services shall be limited to coverage as defined by the department, except that adult dental, and routine foot care shall not be included unless there is a specific appropriation for these services.

   (6) Residents of skilled nursing homes, intermediate care facilities, and intermediate care facilities for persons with intellectual disabilities, as that term is described by federal law, who are eligible for medical care services shall be provided medical services to the same extent as provided to those persons eligible under the medical assistance program.

   (7) Eligibility for medical care services shall commence with the date of certification for medical care services, date of eligibility for the aged, blind, or disabled assistance program provided under section 3 of this act, or the date or eligibility for alcohol and drug addiction services provided under chapter 74.50 RCW.

(ii) Second failure within six months: One month;

(iii) Third and subsequent failure within one year: Two months.

On or before July 1, 2010, the department must review the cases of all persons who have received disability lifeline benefits or general assistance unemployable benefits for at least twenty months as of that date. On or before September 1, 2010, the department must review the cases of all remaining persons who have received disability lifeline benefits or general assistance unemployable benefits for at least twelve months as of that date. A person may not be determined ineligible due to exceeding the time limit unless he or she has received a case review under this subsection finding that the person does not meet the federal supplemental security income disability standard.

Sec. 32. RCW 74.09.555 and 2010 1st sp.s. c 8 s 30 are each amended to read as follows:

(1) The department shall adopt rules and policies providing that when persons with a mental disorder, who were enrolled in medical assistance immediately prior to confinement, are released from confinement, their medical assistance coverage will be fully reinstated on the day of their release, subject to any expedited review of their continued eligibility for medical assistance coverage that is required under federal or state law.

(2) The department, in collaboration with the Washington association of sheriffs and police chiefs, the department of corrections, and the regional support networks, shall establish procedures for coordination between department field offices, institutions for mental disease, and correctional institutions, as defined in RCW 9.94.049, that result in prompt reinstatement of eligibility and speedy eligibility determinations for persons who are likely to be eligible for medical assistance services upon release from confinement. Procedures developed under this subsection must address:

(a) Mechanisms for receiving medical assistance services applications on behalf of confined persons in anticipation of their release from confinement;
(b) Expedited review of applications filed by or on behalf of confined persons and, to the extent practicable, completion of the review before the person is released;
(c) Mechanisms for providing medical assistance services identity cards to persons eligible for medical assistance services immediately upon their release from confinement; and
(d) Coordination with the federal social security administration, through interagency agreements or otherwise, to expedite processing of applications for federal supplemental security income or social security disability benefits, including federal acceptance of applications on behalf of confined persons.

(3) Where medical or psychiatric examinations during a person's confinement indicate that the person is disabled, the correctional
institution or institution for mental diseases shall provide the department with that information for purposes of making medical assistance eligibility and enrollment determinations prior to the person's release from confinement. The department shall, to the maximum extent permitted by federal law, use the examination in making its determination whether the person is disabled and eligible for medical assistance.

(4) For purposes of this section, "confined" or "confinement" means incarcerated in a correctional institution, as defined in RCW 9.94.049, or admitted to an institute for mental disease, as defined in 42 C.F.R. part 435, Sec. 1009 on July 24, 2005.

(5) For purposes of this section, "likely to be eligible" means that a person:

(a) Was enrolled in medicaid or supplemental security income or the ((disability lifeline)) medical care services program immediately before he or she was confined and his or her enrollment was terminated during his or her confinement; or

(b) Was enrolled in medicaid or supplemental security income or the ((disability lifeline)) medical care services program at any time during the five years before his or her confinement, and medical or psychiatric examinations during the person's confinement indicate that the person continues to be disabled and the disability is likely to last at least twelve months following release.

(6) The economic services administration shall adopt standardized statewide screening and application practices and forms designed to facilitate the application of a confined person who is likely to be eligible for medicaid.

Sec. 33. RCW 74.50.060 and 2010 1st sp.s. c 8 s 31 are each amended to read as follows:

((44)) The department shall establish a shelter assistance program to provide, within available funds, shelter for persons eligible under this chapter. "Shelter," "shelter support," or "shelter assistance" means a facility under contract to the department providing room and board in a supervised living arrangement, normally in a group or dormitory setting, to eligible recipients under this chapter. This may include supervised domiciliary facilities operated under the auspices of public or private agencies. No facility under contract to the department shall allow the consumption of alcoholic beverages on the premises. The department may contract with counties and cities for such shelter services. To the extent possible, the department shall not displace existing emergency shelter beds for use as shelter under this chapter. In areas of the state in which it is not feasible to develop shelters, due to low numbers of people needing shelter services, or in which sufficient numbers of shelter beds are not available, the department may provide shelter through an intensive protective payee program, unless the department grants an exception on an individual basis for less intense supervision.

((2)) Persons continuously eligible for the disability lifeline program since July 25, 1987, who transfer to the program established by this chapter, have the option to continue their present living situation, but only through a protective payee.))

NEW SECTION. Sec. 34. The following acts or parts of acts are each repealed:

(1) RCW 43.330.175 (Disability lifeline housing voucher program) and 2010 1st sp.s. c 8 s 8;

(2) RCW 74.04.120 (Basis of state's allocation of federal aid funds--County budget) and 2010 1st sp.s. c 8 s 19, 1979 c 141 s 301, & 1959 c 26 s 74.04.120; and

(3) RCW 74.04.810 (Study of disability lifeline program terminations--Report) and 2010 1st sp.s. c 8 s 11.

NEW SECTION. Sec. 35. The code reviser shall alphabetize the subsections containing definitions in RCW 74.04.005.

NEW SECTION. Sec. 36. Sections 1 through 3 and 7 of this act constitute a new chapter in Title 74 RCW.

NEW SECTION. Sec. 37. Section 11 of this act expires June 30, 2013.

THIRD READING

MESSAGE FROM THE SENATE

May 25, 2011

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 2065 with the following amendment:

Strike everything after the enacting clause and insert the following: Formatting changed to accommodate text
NEW SECTION. Sec. 1. (1) Under Article IX of the Washington state Constitution, all children are entitled to an opportunity to receive a basic education. Although the state must assure that students in public schools have opportunities to participate in the instructional program of basic education, there is no obligation for either the state or school districts to provide that instruction using a particular delivery method or through a particular program.

(2) The legislature finds ample evidence of the need to examine and reconsider policies under which alternative learning that occurs outside the classroom using an individual student learning plan may be considered equivalent to full-time attendance in school, including for funding purposes. Previous legislative studies have raised questions about financial practices and accountability in alternative learning experience programs. Since 2005, there has been significant enrollment growth in alternative learning experience online programs, with evidence of unexpected financial impact when large numbers of nonresident students enroll in programs. Based on this evidence, there is a rational basis on which to conclude that there are different costs associated with providing a program not primarily based on full-time, daily contact between teachers and students and not primarily occurring on-site in a classroom.

(3) For these reasons, the legislature intends to allow for continuing review and revision of the way in which state funding allocations are used to support alternative learning experience programs.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.150 RCW to read as follows:

(1) For purposes of this chapter, "alternative learning experience program" means a course or set of courses that is:

(a) Provided in whole or in part independently from a regular classroom setting or schedule, but may include some components of direct instruction;

(b) Supervised, monitored, assessed, evaluated, and documented by a certificated teacher employed by the school district or under contract as permitted by applicable rules; and

(c) Provided in accordance with a written student learning plan that is implemented pursuant to the school district's policy and rules adopted by the superintendent of public instruction for alternative learning experiences.

(2) The broad categories of alternative learning experience programs include, but are not limited to:

(a) Online programs as defined in RCW 28A.150.262;

(b) Parent partnership programs that include significant participation and partnership by parents and families in the design and implementation of a student's learning experience; and

(c) Contract-based learning programs.

(3) School districts that offer alternative learning experience programs may not provide any compensation, reimbursement, gift, reward, or gratuity to any parents, guardians, or students for participation. School district employees are prohibited from receiving any compensation or payment as an incentive to increase student enrollment of out-of-district students in an alternative learning experience program. This prohibition includes, but is not limited to, providing funds to parents, guardians, or students for the purchase of educational materials, supplies, experiences, services, or technological equipment. A district may purchase educational materials, equipment, or other nonconsumable supplies for students' use in alternative learning experience programs if the purchase is consistent with the district's approved curriculum, conforms to applicable laws and rules, and is made in the same manner as such purchases are made for students in the district's regular instructional program. Items so purchased remain the property of the school district upon program completion. School districts may not purchase or contract for instructional or co-curricular experiences and services that are included in an alternative learning experience written student learning plan, including but not limited to lessons, trips, and other activities, unless substantially similar experiences and services are available to students enrolled in the district's regular instructional program. School districts that purchase or contract for such experiences and services for students enrolled in an alternative learning experience program must submit an annual report to the office of the superintendent of public instruction detailing the costs and purposes of the expenditures. These requirements extend to contracted providers of alternative learning experience programs, and each district shall be responsible for monitoring the compliance of its providers with these requirements. However, nothing in this section shall prohibit school districts from contracting with online providers approved by the office of the superintendent of public instruction pursuant to chapter 28A.250 RCW.

(4) Part-time enrollment in alternative learning experiences is subject to the provisions of RCW 28A.150.350.

(5) The superintendent of public instruction shall adopt rules defining minimum requirements and accountability for alternative learning experience programs.

Sec. 3. RCW 28A.150.262 and 2009 c 542 s 9 are each amended to read as follows:

Under RCW 28A.150.260, the superintendent of public instruction shall revise the definition of a full-time equivalent student to include students who receive instruction through alternative learning experience online programs. As used in this section and section 2 of this act, an "alternative learning experience online program" is a set of online courses or an online school program as defined in RCW 28A.250.010 that is delivered to students in whole or in part independently from a regular classroom schedule. (The superintendent of public instruction has the authority to adopt rules to implement the revised definition beginning with the 2005-2007 biennium for school districts claiming state funding for the programs.) Beginning in the 2013-14 school year, alternative learning experience online programs must be offered by an online provider approved by the superintendent of public instruction under RCW 28A.250.020 to meet the definition in this section. The rules shall include but not be limited to the following:

(1) Defining a full-time equivalent student under RCW 28A.150.260 or part-time student under RCW 28A.150.350 based upon the district's estimated average weekly hours of learning activity as identified in the student's learning plan, as long as the student is found, through monthly evaluation, to be making satisfactory progress; the rules shall require districts providing programs under this section to nonresident students to establish procedures that address, at a minimum, the coordination of student counting for state funding so that no student is counted for more than one full-time equivalent in the aggregate;

(2) Requiring the board of directors of a school district offering, or contracting under RCW 28A.150.305 to offer, an alternative learning experience online program to adopt and annually review written policies for each program and program provider and to receive an annual report on its digital alternative learning experience online programs from its staff;

(3) Requiring each school district offering or contracting to offer an alternative learning experience online program to report annually to the superintendent of public instruction on the types of programs and course offerings, and number of students participating;

(4) Requiring completion of a program self-evaluation;
(5) Requiring documentation of the district of the student's physical residence;

(6) Requiring that supervision, monitoring, assessment, and evaluation of the alternative learning experience online program be provided by certificated teacher;

(7) Requiring each school district offering courses or programs to identify the ratio of certificated instructional staff to full-time equivalent students enrolled in such courses or programs, and to include a description of their ratio as part of the reports required under subsections (2) and (3) of this section;

(8) Requiring reliable methods to verify a student is doing his or her own work; the methods may include proctored examinations or projects, including the use of web cams or other technologies. "Proctored" means directly monitored by an adult authorized by the school district;

(9) Requiring, for each student receiving instruction in an alternative learning experience online program, a learning plan that includes a description of course objectives and information on the requirements a student must meet to successfully complete the program or courses. The rules shall allow course syllabi and other additional information to be used to meet the requirement for a learning plan;

(10) Requiring that the district assess the educational progress of enrolled students at least annually, using, for full-time students, the state assessment for the student's grade level and using any other annual assessments required by the school district. Part-time students shall also be assessed at least annually. However, part-time students who are either receiving home-based instruction under chapter 28A.200 RCW or who are enrolled in an approved private school under chapter 28A.195 RCW are not required to participate in the assessments required under chapter 28A.655 RCW. The rules shall address how students who reside outside the geographic service area of the school district are to be assessed;

(11) Requiring that each student enrolled in the program have direct personal contact with a certificated teacher at least weekly until the student completes the course objectives or the requirements in the learning plan. Direct personal contact is for the purposes of instruction, review of assignments, testing, evaluation of student progress, or other learning activities. Direct personal contact may include the use of telephone, e-mail, instant messaging, interactive video communication, or other means of digital communication;

(12) Requiring state-funded public schools or public school programs whose primary purpose is to provide alternative learning experience online learning programs to receive accreditation through the Northwest Accreditation Commission or another national, regional, or state accreditation program listed by the office of the superintendent of public instruction after consultation with the Washington Coalition for online learning;

(13) Requiring state-funded public schools or public school programs whose primary purpose is to provide alternative learning experience online learning to provide information to students and parents on whether or not the courses or programs: Cover one or more of the school district's learning goals or of the state's essential academic learning requirements or whether they permit the student to meet one or more of the state's or district's graduation requirements; and

(14) Requiring that a school district that provides one or more alternative learning experience online courses to a student provide the parent or guardian of the student, prior to the student's enrollment, with a description of any difference between home-based education as described in chapter 28A.200 RCW and the enrollment option selected by the student. The parent or guardian shall sign documentation attesting to his or her understanding of the difference and the documentation shall be retained by the district and made available for audit.

Sec. 4. RCW 28A.250.005 and 2009 c 542 s 1 are each amended to read as follows:

(1) The legislature finds that online learning provides tremendous opportunities for students to access curriculum, courses, and a unique learning environment that might not otherwise be available. The legislature supports and encourages online learning opportunities.

(2) However, the legislature also finds that there is a need to assure quality in online learning, both for the programs and the administration of those programs. The legislature is the steward of public funds that support students enrolled in online learning and must ensure an appropriate accountability system at the state level.

(3) Therefore, the legislature intends to take a first step in improving oversight and quality assurance of online learning programs, and intends to examine possible additional steps that may need to be taken to improve financial accountability.

(4) The first step in improving quality assurance is to:

(a) Provide objective information to students, parents, and educators regarding available online learning opportunities, including program and course content, how to register for programs and courses, teacher qualifications, student-to-teacher ratios, prior course completion rates, and other evaluative information;

(b) Create an approval process for online providers;

(c) Enhance statewide equity of student access to high quality online learning opportunities; and

(d) Require school district boards of directors to develop policies and procedures for student access to online learning opportunities.

Sec. 5. RCW 28A.250.010 and 2009 c 542 s 2 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(a) "Multidistrict online provider" means:

(i) A private or nonprofit organization that enters into a contract with a school district to provide online courses or programs to K-12 students from more than one school district;

(ii) A private or nonprofit organization that enters into contracts with multiple school districts to provide online courses or programs to K-12 students from those districts; or

(iii) Except as provided in (b) of this subsection, a school district that provides online courses or programs to students who reside outside the geographic boundaries of the school district.

(b) "Multidistrict online provider" does not include a school district online learning program in which fewer than ten percent of the students enrolled in the program are from other districts under the interdistrict student transfer provisions of RCW 28A.225.225. "Multidistrict online provider" also does not include regional online learning programs that are jointly developed and implemented by two or more school districts or an educational service district through an interdistrict cooperative program agreement that addresses, at minimum, how the districts share student full-time equivalency for state basic education funding purposes and how categorical education programs, including special education, are provided to eligible students.

(2)(a) "Online course" means a course electronically using the internet or other computer-based methods; and
(ii) (Is taught by a teacher primarily from a remote location. Students enrolled in an online course may have access to the teacher synchronously, asynchronously, or both)) More than half of the teaching is conducted from a remote location through an online course learning management system or other online or electronic tools.

(b) "Online school program" means a school program that:

(i) Offers courses or grade-level coursework that is delivered primarily electronically using the internet or other computer-based methods;

(ii) Offers courses or grade-level coursework that is taught by a teacher primarily from a remote location using online or other electronic tools. Students enrolled in an online program may have access to the teacher synchronously, asynchronously, or both;

(iii) ((Delivers a part-time or full-time sequential program)) Offers a sequential set of online courses or grade-level coursework that may be taken in a single school term or throughout the school year in a manner that could provide a full-time basic education program if so desired by the student. Students may enroll in the program as part-time or full-time students; and

(iv) Has an online component of the program with online lessons and tools for student and data management.

(c) An online course or online school program may be delivered to students at school as part of the regularly scheduled school day. An online course or online school program also may be delivered to students, in whole or in part, independently from a regular classroom schedule, but such courses or programs must comply with RCW 28A.150.262 to qualify for state basic education funding.

(3) "Online provider" means any provider of an online course or program, including multidistrict online providers, all school district online learning programs, and all regional online learning programs.

Sec. 6. RCW 28A.250.020 and 2009 c 542 s 3 are each amended to read as follows:

(1) The superintendent of public instruction, in collaboration with the state board of education, shall develop and implement approval criteria and a process for approving ((multidistrict)) online providers; a process for monitoring and if necessary rescinding the approval of courses or programs offered by an online ((course)) provider; and an appeals process. The criteria and processes for multidistrict online providers shall be adopted by rule by December 1, 2009.

(2) When developing the approval criteria, the superintendent of public instruction shall require that providers offering online courses or programs have accreditation through the Northwest ((association of accredited schools)) accreditation commission or another national, regional, or state accreditation program listed by the office of the superintendent of public instruction after consultation with the Washington coalition for online learning. In addition to other criteria, the approval criteria shall include the degree of alignment with state academic standards and require that all teachers be certified in accordance with Washington state law. When reviewing ((multidistrict)) online providers that offer high school courses, the superintendent of public instruction shall assure that the courses offered by the provider are eligible for high school credit. However, final decisions regarding ((the awarding of high school credit)) whether credit meets the school district's graduation requirements shall remain the responsibility of the school districts.

(3) Initial approval of ((multidistrict)) online providers by the superintendent of public instruction shall be for four years. The superintendent of public instruction shall develop a process for the renewal of approvals and for rescinding approvals based on noncompliance with approval requirements. Any multidistrict online provider that was approved by the digital learning commons or accredited by the Northwest association of accredited schools before July 26, 2009, and that meets the teacher certification requirements of subsection (2) of this section, is exempt from the initial approval process under this section until August 31, 2012, but must comply with the process for renewal of approvals and must comply with approval requirements.

(4) The superintendent of public instruction shall make the first round of decisions regarding approval of multidistrict online providers by April 1, 2010. The first round of decisions regarding approval of online providers that are not multidistrict online providers shall be made by April 1, 2013. Thereafter, the superintendent of public instruction shall make annual approval decisions no later than November 1st of each year.

(5) The superintendent of public instruction shall establish an online learning advisory committee within existing resources that shall provide advice to the superintendent regarding the approval criteria, major components of the website, the model school district policy, model agreements, and other related matters. The committee shall include a representative of each of the following groups: Private and public online providers, parents of online students, accreditation organizations, educational service districts, school principals, teachers, school administrators, school board members, institutions of higher education, and other individuals as determined by the superintendent. Members of the advisory committee shall be selected by the superintendent based on nominations from statewide organizations, shall serve three-year terms, and may be reappointed. The superintendent shall select the chair of the committee.

Sec. 7. RCW 28A.250.030 and 2009 c 542 s 4 are each amended to read as follows:

The superintendent of public instruction shall create an office of online learning. In the initial establishment of the office, the superintendent shall hire staff who have been employed by the digital learning commons to the extent such hiring is in accordance with state law and to the extent funds are available. The office shall:

(1) Develop and maintain a website that provides objective information for students, parents, and educators regarding online learning opportunities offered by ((multidistrict)) online providers that have been approved in accordance with RCW 28A.250.020. The website shall include information regarding the online course provider's overall instructional program, specific information regarding the content of individual online courses and online school programs, a direct link to each online course provider's website, how to register for online learning programs and courses, teacher qualifications, student-to-teacher ratios, course completion rates, and other evaluative and comparative information. The website shall also provide information regarding the process and criteria for approving ((multidistrict)) online providers. To the greatest extent possible, the superintendent shall use the framework of the course offering component of the website developed by the digital learning commons;

(2) Develop model agreements with approved ((multidistrict)) online providers that address standard contract terms and conditions that may apply to contracts between a school district and the approved provider. The purpose of the agreements is to provide a template to assist individual school districts, at the discretion of the district, in contracting with ((multidistrict)) online providers to offer the ((multidistrict)) online provider's courses and programs to students in the district. The agreements may address billing, fees, responsibilities of online course providers and school districts, and other issues; and

(3) In collaboration with the educational service districts:

(a) Provide technical assistance and support to school district personnel through the educational technology centers in the development and implementation of online learning programs in their districts; and

(b) To the extent funds are available, provide online learning tools for students, teachers, administrators, and other educators.
Sec. 8. RCW 28A.250.060 and 2009 c 542 s 7 are each amended to read as follows:

1. Beginning with the 2011-12 school year, school districts may claim state (basic education) funding under RCW 28A.150.260, to the extent otherwise allowed by state law, for students enrolled in online courses or programs only if the online courses or programs are:

(a) Offered by a multidistrict online provider approved under RCW 28A.250.020 by the superintendent of public instruction;

(b) Offered by a school district online learning program if the program serves students who reside within the geographic boundaries of the school district, including school district programs in which fewer than ten percent of the program's students reside outside the school district's geographic boundaries; or

(c) Offered by a regional online learning program where courses are jointly developed and offered by two or more school districts or an educational service district through an interdistrict cooperative program agreement.

2. Beginning with the 2013-14 school year, school districts may claim state funding under RCW 28A.150.260, to the extent otherwise allowed by state law, for students enrolled in online courses or programs only if the online courses or programs are offered by an online provider approved under RCW 28A.250.020 by the superintendent of public instruction.

3. Criteria shall be established by the superintendent of public instruction to allow online courses that have not been approved by the superintendent of public instruction to be eligible for state funding if the course is in a subject matter in which no courses have been approved and, if it is a high school course, the course meets Washington high school graduation requirements.

Sec. 9. RCW 28A.150.260 and 2010 c 236 s 2 are each amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

1. The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

2. The distribution formula under this section shall be for allocation purposes only. Except as may be required under chapter 28A.155, 28A.165, 28A.180, or 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

3(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) The total aggregate statewide allocations calculated under subsections (4) through (12) of this section for full-time equivalent student enrollment in alternative learning experience programs as defined in section 2 of this act shall be reduced by fifteen percent for the 2011-12 and 2012-13 school years. The superintendent of public instruction shall determine how to implement this aggregate fifteen percent reduction among the different alternative learning experience programs. No program may receive less than a ten percent reduction and no program may receive greater than a twenty percent reduction. In determining how to implement the reductions among the alternative learning experience programs, the superintendent of public instruction must look to both how a program is currently operating as well as how it has operated in the past, to the extent that data is available, and must give consideration to the following criteria:

(i) The category of program;

(ii) The certificated instructional staffing ratio maintained by the program;

(iii) The amount and type of direct personal student-to-teacher contact used by the program on a weekly basis;

(iv) Whether the program uses any classroom-based instructional time to meet requirements in the written student learning plan for enrolled students; and

(v) For online programs, whether the program is approved by the superintendent of public instruction under RCW 28A.250.020.

(c) The superintendent of public instruction shall report to the legislature by December 31, 2011, regarding how the reductions in (b) of this subsection were implemented.

(d) For the purposes of this section, prototypical schools are defined as follows:

(i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;

(ii) A prototypical middle school has four hundred thirty-two average annual full-time equivalent students in grades seven and eight; and

(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

4(a) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on the following general education average class size of full-time equivalent students per teacher:

(b) During the 2011-2013 biennium and beginning with schools with the highest percentage of students eligible for free and reduced-price meals in the prior school year, the general education average class size for grades K-3 shall be reduced until the average class size funded under this subsection (4) is no more than 17.0 full-time equivalent students per teacher beginning in the 2017-18 school year.

(c) The minimum allocation for each prototypical middle and high school shall also provide for full-time equivalent classroom teachers based on the following number of full-time equivalent students per teacher in career and technical education:

(d) In addition, the omnibus appropriations act shall at a minimum specify:

(i) A high-poverty average class size in schools where more than fifty percent of the students are eligible for free and reduced-price meals; and

(ii) A specialty average class size for laboratory science, advanced placement, and international baccalaureate courses.

(5) The minimum allocation for each level of prototypical school shall include allocations for the following types of staff in addition to classroom teachers:

(b) The minimum allocation of staff units for each school district to support certificated and classified staffing of central administration shall be 5.30 percent of the staff units generated under subsections (4)(a) and (b) and (5) of this section and (a) of this subsection.

(7) The distribution formula shall include staffing allocations to school districts for career and technical education and skill center administrative and other school-level certificated staff, as specified in the omnibus appropriations act.
(8)(a) Except as provided in (b) of this subsection, the minimum allocation for each school district shall include allocations per annual average full-time equivalent student for the following materials, supplies, and operating costs, to be adjusted for inflation from the 2008-09 school year:

(9) In addition to the amounts provided in subsection (8) of this section, the omnibus appropriations act shall provide an amount based on full-time equivalent student enrollment in each of the following:

(a) Exploratory career and technical education courses for students in grades seven through twelve;
(b) Laboratory science courses for students in grades nine through twelve;
(c) Preparatory career and technical education courses for students in grades nine through twelve offered in a high school; and
(d) Preparatory career and technical education courses for students in grades eleven and twelve offered through a skill center.

(10) In addition to the allocations otherwise provided under this section, amounts shall be provided to support the following programs and services:

(a) To provide supplemental instruction and services for underachieving students through the learning assistance program under RCW 28A.165.005 through 28A.165.065, allocations shall be based on the district percentage of students in grades K-12 who were eligible for free or reduced-price meals in the prior school year. The minimum allocation for the program shall provide for each level of prototypical school resources to provide, on a statewide average, 1,5156 hours per week in extra instruction with a class size of fifteen learning assistance program students per teacher.

(b) To provide supplemental instruction and services for students whose primary language is other than English, allocations shall be based on the head count number of students in each school who are eligible for and enrolled in the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080. The minimum allocation for each level of prototypical school shall provide resources to provide, on a statewide average, 4,7780 hours per week in extra instruction with fifteen transitional bilingual instruction program students per teacher.

(c) To provide additional allocations to support programs for highly capable students under RCW 28A.185.010 through 28A.185.030, allocations shall be based on two and three hundred fourteen one-thousandths percent of each school district’s full-time equivalent basic education enrollment. The minimum allocation for the programs shall provide resources to provide, on a statewide average, 2,1590 hours per week in extra instruction with fifteen highly capable program students per teacher.

(11) The allocations under subsections (4)(a) and (b), (5), (6), and (8) of this section shall be enhanced as provided under RCW 28A.150.390 on an excess cost basis to provide supplemental instructional resources for students with disabilities.

(12)(a) For the purposes of allocations for prototypical high schools and middle schools under subsections (4) and (10) of this section that are based on the percent of students in the school who are eligible for free and reduced-price meals, the actual percent of such students in a school shall be adjusted by a factor identified in the omnibus appropriations act to reflect underreporting of free and reduced-price meal eligibility among middle and high school students.

(b) Allocations or enhancements provided under subsections (4), (7), and (9) of this section for exploratory and preparatory career and technical education courses shall be provided only for courses approved by the office of the superintendent of public instruction under chapter 28A.700 RCW.

(13)(a) This formula for distribution of basic education funds shall be reviewed biennially by the superintendent and governor. The recommended formula shall be subject to approval, amendment or rejection by the legislature.

(b) In the event the legislature rejects the distribution formula recommended by the governor, without adopting a new distribution formula, the distribution formula for the previous school year shall remain in effect.
(c) The enrollment of any district shall be the annual average number of full-time equivalent students and part-time students as provided in RCW 28A.150.350, enrolled on the first school day of each month, including students who are in attendance pursuant to RCW 28A.335.160 and 28A.225.250 who do not reside within the servicing school district. The definition of full-time equivalent student shall be determined by rules of the superintendent of public instruction and shall be included as part of the superintendent's biennial budget request. The definition shall be based on the minimum instructional hour offerings required under RCW 28A.150.220. Any revision of the present definition shall not take effect until approved by the house ways and means committee and the senate ways and means committee.

(d) The office of financial management shall make a monthly review of the superintendent's reported full-time equivalent students in the common schools in conjunction with RCW 43.62.050.

Sec. 10. RCW 28A.150.100 and 2010 c 236 s 13 are each amended to read as follows:

(1) For the purposes of this section and RCW 28A.150.410 and 28A.400.200, "basic education certificated instructional staff" means all full-time equivalent classroom teachers, teacher librarians, guidance counselors, certificated student health services staff, and other certificated instructional staff in the following programs as defined for statewide school district accounting purposes: Basic education, secondary vocational education, general instructional support, and general supportive services.

(2) Each school district shall maintain a ratio of at least forty-six basic education certificated instructional staff to one thousand annual average full-time equivalent students. This requirement does not apply to that portion of a district's annual average full-time equivalent enrollment that is enrolled in alternative learning experience programs as defined in section 2 of this act.

Sec. 11. RCW 28A.250.050 and 2009 c 542 s 6 are each amended to read as follows:

(2) School districts must award credit for online high school courses successfully completed by a student that meet the school district's graduation requirements and are provided by an approved online provider.

(3) School districts shall provide students with information regarding online courses that are available through the school district. The information shall include the types of information described in subsection (1) of this section.

((4))) (4) When developing local or regional online learning programs, school districts shall incorporate into the program design the approval criteria developed by the superintendent of public instruction under RCW 28A.250.020.

GOVERNOR’S VETO MESSAGES
Sixty Second Legislature
2011 Legislative Session

VETO MESSAGE ON HB 1000

May 16, 2011

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 2, House Bill 1000 entitled:

"AN ACT Relating to overseas and service voters."

I am vetoing Section 2 of House Bill 1000 because another bill I am signing today amends the same statute regarding the date ballots are mailed to military and overseas voters. Section 16 of Second Engrossed Substitute Senate Bill 5171 contains the same amendment to this statute. Each of these amendments to the statute takes effect on a different date. House Bill 1000 takes effect ninety days after the end of session, whereas Section 16 of Second Engrossed Substitute Senate Bill 5171 takes effect January 1, 2012. The Secretary of State has stated that the statutory amendment should take effect in 2012 to correspond with other election date changes in Second Engrossed Substitute Senate Bill 5171.

For this reason I have vetoed Section 2 of House Bill 1000.

With the exception of Section 2, House Bill 1000 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON SHB 1053

May 12, 2011

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 11, Substitute House Bill 1053 entitled:

"AN ACT Relating to the implementation of recommendations from the Washington state bar association elder law section's executive committee report of the guardianship task force."

Section 11 implements a fee schedule for filing of reports under RCW 11.92.040(2). The Judicial Branch has indicated support for the underlying bill, but opposition to the fee. Therefore, I am vetoing Section 11 and expect that the Judicial Branch agencies will implement the requirements of the bill within appropriated resources.

For this reason, I have vetoed Section 11 of Substitute House Bill 1053.

With the exception of Section 11, Substitute House Bill 1053 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON SHB 1084

May 16, 2011

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 7, Substitute House Bill 1084 entitled:

"AN ACT Relating to creating the board on geographic names."

Substitute House Bill 1084 recognizes the need for a board on geographic names. Section 7 would declare this act null and void if funding were not provided specifically for the purposes of this act in the omnibus appropriations act. Funding for this activity is less than $50,000 per biennium and may not appear as a line item in the omnibus appropriations act.

For this reason I have vetoed Section 7 of Substitute House Bill 1084.

With the exception of Section 7, Substitute House Bill 1084 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON ESHB 1086

February 18, 2011

The Honorable Speaker and Members
The House of Representatives of the State of Washington

Ladies and Gentlemen:

First, I extend my appreciation for the collaborative and bipartisan effort that has culminated in this early action supplemental operating budget. I fully recognize the difficult choices that you made in a short period of time.

I asked the Legislature to consider an early target date for passage of state General Fund reductions due to concerns about the feasibility of implementing major service alterations this late in the biennium. With the passage of Engrossed Substitute House Bill 1086, we still face challenges about the timing of program cuts, especially for reductions predicated on a March 1 implementation date. I will continue to monitor the situation as agencies move forward with budget implementation, and keep you informed of issues that require additional consideration.

As you wait for final caseload, enrollment and revenue forecasts for this biennium, I encourage your attention to those budget adjustments and the small number of additions I included in my December budget proposal. As one example, the entire $30 million cut in information technology (IT) in the enacted 2009-11 budget cannot be achieved. Given the multiple administrative cuts already specified in the budget, this IT cut will likely lead to unintended service reductions at such agencies as the Department of Social and Health Services and Department of Corrections.

As I sign this appropriations bill, the 2011 legislative session is a little more than one-third complete. Many issues of critical importance to our state must still be addressed. I commit to working with you to craft a timely and responsible budget for the 2011-13 biennium.

This is the time to set strategies in place that can be implemented and accomplish projected savings for now and the future. Because some budget revisions do not meet that criteria, I am returning, without my approval as to Sections 123(5), 707, 708, 709, and 710, Engrossed Substitute House Bill 1086 entitled:

"AN ACT Relating to fiscal matters."

Section 123(5), page 32, Department of Information Services, Prohibition on Expenditures to Equip the State Data Center Budget language prohibits the Department of Information Services from spending any funds for the purchase or installation of equipment for the new State Data Center. This prohibition will not save any money, and will significantly delay Data Center operation and budget savings made possible by the consolidation of existing data centers. While I agree with the intent to create more time for legislative involvement, this collaboration can take place without a restriction on the equipment necessary to make the Data Center operational within its original budget.

For these reasons, I have vetoed Section 123(5).
Section 707, page 211, 3 Percent Pay Reduction
This budget would cut the pay of many non-represented state employees by 3 percent beginning April 1, for a savings of $3.4 million in the state General Fund. While my 2011-13 budget proposal includes an employee pay cut, the early implementation date in this bill is not achievable and would have unintended consequences.

First, there is insufficient time for the necessary changes to be made to the state's payroll system to meet the April 1 implementation date. In addition, while I believe that sacrifices by state employees, in addition to many others, are essential during these tough times, I also believe that compensation reductions should be made fairly and compassionately. The Legislature's cut does not provide exceptions for workers who are paid the least and would have the most difficulty in absorbing this reduction to their paychecks. Hundreds of employees making less than $30,000 a year would be affected by this pay cut while the pay of some higher-salaried employees would be unchanged.

Lastly, a salary reduction should also recognize actions already taken. Thousands of state employees are already bringing home smaller paychecks as a result of temporary layoffs required by Engrossed Substitute Senate Bill 6503 enacted last year. Many of these employees will be temporarily laid off for one day each in April and June of this year. Many also will have a layoff day in May. This budget does not distinguish between employees who are subject to temporary layoffs during this time period and those who are not.

For these reasons, I have vetoed Section 707.

Section 708, page 211-212, Communications Staff Savings
The budget requires agencies to achieve $1.0 million of savings through reductions in communications functions in the executive branch. The communications staff of the legislative and judicial branches would not be affected. Communications staff provide information to the public, media, and legislators, which advances the goal of transparency in government. Given the importance of the work performed by these employees, ranging from providing information on real-time traffic to public health concerns to unemployment insurance and licensed child care facilities and the budget, it is difficult to see how the public would be served through the sudden and dramatic elimination of these staff.

Marketing functions generate revenue in the State Lottery, state liquor stores, and correctional industries, and stimulate economic development through promotion of tourism and agricultural products. We will continue our efforts to create efficiencies such as abolishing non-essential reports, but the savings target is not achievable in the last three months of the biennium.

For these reasons, I have vetoed Section 708.

Section 709, page 212, Management Efficiencies in the Department of Social and Health Services
This section requires the Department of Social and Health Services to achieve state General Fund savings of $1.7 million by reducing management staffing and administration in addition to achieving other efficiencies. In reality, the reduction is closer to twice that amount because many of these positions are partially supported by federal or other fund sources. The department has already instituted significant administrative and other reductions, including the elimination of 147 centralized administrative staff, which represents a 27 percent reduction. Additional administrative reductions have been made in every DSHS program. With the previously mentioned information technology cuts, these proposed reductions would jeopardize the department's ability to implement the program changes required in the budget.

Therefore, I have vetoed Section 709.

Section 710, page 212, Dual Language Pay Reductions
This section restricts dual language pay, which is provided to some employees who are fluent in more than one language and use their language skills in the performance of their duties. The reduction exceeds anticipated expenditures for this purpose in the remainder of the biennium. Further, dual language assignment pay is included in the collective bargaining agreements that cover all but a fraction of these employees, which means that this reduction cannot be implemented.

For these reasons, I have vetoed Section 710.

With the exception of Sections 123(5), 707, 708, 709, and 710, Engrossed Substitute House Bill 1086 is approved.

Sincerely,
Christine O. Gregoire
Governor

VETO MESSAGE ON 2ESHB 1087
June 15, 2011

The Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 123(4); 125, page 14, line 28; 127(11); 129(4); 129(5); 129(6); 129(8); 129(9); 129(10); 134(4); 139(3); 139(4); 144(1); 144(2); 201(5); 202(8); 202(11); 205(1)(j); 205(2)(c); 205(2)(d); 206(16); 206(17); 207(9); 209(1); 213, page 68, line 12; 213(16); 213(17); 213(34); 213(38); 213(47); 213(48); 217(3); 218(2)(a); 219(11); 219(14); 219(17); 220(1)(b); 220(2)(a); 220(3)(a); 221, page 96, lines 8-14; 301, page 98, lines 8-11; 302(9); 302(10); 303(4); 307(12); 308(10); 310, page 110, lines 25-28; 312; 401(3); 401(4); 501(1)(i); 605(3); 610(3); 610(9); 613(2)(b); 613(4); 617(7); 617(11); 716; 721(2); 724; 805, page 192, lines 35-37, and page 193, line 1-18; 925; 934; 935; 978, Second Engrossed Substitute House Bill 1087 entitled:

"AN ACT Relating to fiscal matters."

I have vetoed the following appropriation items because of concerns with policy or technical issues relating to the legislative provisions:

Section 123(4), page 14, State Auditor's Office, Fraud Ombudsman
The State Auditor is provided funding for the work of the fraud ombudsman, whose office was to be created through passage of Engrossed Substitute Senate Bill 5921 (relating to social services). Because I have vetoed the creation of the fraud ombudsman's office within the State Auditor's Office, I have also vetoed Section 123(4).

Section 125, page 14, line 28, Attorney General's Office, Medicaid Fraud Penalty Account
Section 213, page 68, line 12, Health Care Authority, Medicaid Fraud Penalty Account
These appropriations, which were to be used to fund the Attorney General's Fraud Investigation Unit, are from a non-existent account. The budget assumed passage of Engrossed Substitute Senate Bill 5960 (relating to Medicaid fraud), which did not pass. As a result, the Attorney General's Office and Health Care Authority will need to use other sources of funding until an appropriate fund source can be identified in the 2012 supplemental budget. Because this account does not exist, I have vetoed Section 125, page 14, line 28, and Section 213, page 68, line 12.

Section 127(11), page 19, Department of Commerce, Public Works Assistance Account Savings
The administrative savings attributed to the Public Works Assistance Account are from the implementation of Substitute Senate Bill 5844 (local government infrastructure), which did not pass. The Department should be afforded flexibility in how it achieves its budget reductions. For this reason, I have vetoed Section 127(11).

Section 129(4), page 23, Office of Financial Management, Collective Bargaining for Health Insurance
The requirement to propose employee contributions to health insurance on a sliding scale is incompatible with Washington's collective bargaining statutes, which limit bargaining on health insurance to the amount of the employer contribution. It is also problematic to consider single elements of collective bargaining in isolation. The existing statute recognizes this by having the Governor negotiate the agreements in their totality, with input from the Joint Committee on Employment Relations. Further, sliding scale contributions would present implementation challenges. For these reasons, I have vetoed Section 129(4).

Section 129(5), page 23, Office of Financial Management, Direct Deposit Feasibility Study
This proviso requires the Office of Financial Management (OFM) to conduct a feasibility study on the implications of mandating direct payroll deposit for state employees, and to report to the legislative fiscal committees by December 1, 2011. OFM has already researched the feasibility of mandating direct deposit for all state employees. As a part of this research, stakeholders were contacted and concerns were raised regarding the impact of such a mandate. Since the majority of state employees voluntarily use direct deposit, the amount of effort required to make this change would outweigh the possible savings. For this reason, I have vetoed Section 129(5).

Section 129(6), page 24, Office of Financial Management, Study to Use Digital Signatures for Employment Actions
This proviso requires OFM to conduct a feasibility study on the potential impacts of a system that would allow digital signatures for the purpose of employment actions. OFM is responsible for coordinating an unprecedented level of organizational and governmental service changes in the 2011-13 biennium. It does not have the capacity to perform this study with existing resources. For this reason, I have vetoed Section 129(6).

Section 129(8), page 24, Office of Financial Management, Washington State Quality Award Training
Section 129(9), page 24, Office of Financial Management, Washington State Quality Award Assessment
Section 129(10), page 24, Office of Financial Management, Priorities of Government Program Information
Section 205(2)(d), page 54, Department of Social and Health Services -- Developmental Disabilities, Frances Haddon Morgan Center and Yakima Valley School

This proviso directs that no resident shall be moved from these residential habilitation centers unless and until the Department has the "appropriate and suitable" community option and services available as specified in the client's individual habilitation plan. The terms "appropriate and suitable" are subjective and would be difficult to implement. I am directing the Department to keep the wellbeing of the residents at the forefront as these moves take place. For this reason, I have vetoed Section 205(2)(d).
The Department must determine whether it would be cost-efficient for the state to exercise a 1915(k) Medicaid waiver, and submit a plan to the Legislature in the next legislative session. I am directing the Department to conduct this review and move forward with implementing the waiver if the finding demonstrates that it is cost-efficient, instead of waiting for the subsequent legislative session. For this reason, I have vetoed Section 206(17).

Section 209(1), page 66, Department of Social and Health Services -- Vocational Rehabilitation, Serving Lifeline Clients This proviso, which applies to the entire 2011-13 biennium, directs the Department to serve Lifeline clients; however, the Lifeline program terminates on October 31, 2011. I am, however, directing the Department to make every effort to continue to serve clients receiving public assistance, within the requirements of the federal Rehabilitation Act of 1973. For this reason, I have vetoed Section 209(1).

Section 213(16), pages 74-75, Health Care Authority, Disability Lifeline Managed Care The reference to Disability Lifeline is no longer valid because the Disability Lifeline program no longer exists effective November 2011. I am directing the Health Care Authority to contract managed care services in a way that maximizes patient outcomes in the most cost effective manner. For this reason, I have vetoed Section 213(16).

Section 213(17), page 75, Health Care Authority, Impact Evaluation for Disability Lifeline The Health Care Authority is directed to evaluate the impact of a managed care delivery system on state costs and outcomes for Lifeline medical clients. No funding was provided for this evaluation. For this reason, I have vetoed Section 213(17).

Section 213(34), page 79, Health Care Authority, Power Wheelchairs The state must meet the medical necessity test as a condition of operating a Medicaid program. This proviso creates a confusing situation by prohibiting the current limitation of power wheelchairs to clients in school or work. As a cost savings step, reducing power wheelchairs is preferable to many other service reduction options. The state should be allowed to establish a benefit design that meets federal standards without overly prescriptive budget provisos. For these reasons, I have vetoed Section 213(34).

Section 213(38), page 80, Health Care Authority, Federally Qualified Health Clinics This proviso directs payments to federally qualified health centers and rural health clinics. On lines 22-23, the proviso references the incorrect years, which would result in deeper reductions than is intended. I am, however, directing the Health Care Authority to implement the reductions in accordance with the appropriation amounts. For this reason, I have vetoed Section 213(38).

Section 213(47), page 82, Health Care Authority, State Pharmacists Contract The agency is directed to contract with an organization that will use state pharmacists to provide medication therapy management services to lower costs and improve patient compliance. No other state Medicaid program in the country has implemented this program and achieved savings. For this reason, I have vetoed Section 213(47).

Section 213(48), page 82, Health Care Authority, Report on Not-For-Profit Disproportionate Share Hospitals This proviso requires the agency to evaluate community benefit information provided by disproportionate share hospitals and report to the Legislature with an assessment of improved measures for charity care efforts. No resources were provided to conduct this evaluation. For this reason, I have vetoed Section 213(48).

Section 218(2)(a), page 87, Department of Veterans Affairs, Identify and Assist General Assistance Unemployable Clients The General Assistance Unemployable program no longer exists. I am directing the Department of Social and Health Services and the Department of Veterans Affairs to continue working collaboratively to help public assistance clients access veterans' benefits for which they qualify. For this reason, I have vetoed Section 218(2)(a).

Section 220(2)(a), page 93, Department of Corrections -- Priority of Personnel Reductions Section 220(3)(a), page 94, Department of Corrections -- Priority of Personnel Reductions The Department continues to look for administrative and other reductions that minimize impact on custody staff and correctional industries. However, given the significant expenditure reductions made in the past few years, it is critical that the Department has flexibility in how it achieves its budget reductions. For this reason, I have vetoed Section 220(2)(a) and Section 220(3)(a).

Natural Resource Agency Consolidation Several appropriations in Second Engrossed Substitute House Bill 1087 assume the passage of Engrossed Second Substitute Senate Bill 5669 (Consolidating natural resources agencies and programs); however, this bill did not pass. Appropriation bill language signals a legislative intent to shift Fiscal Year 2013 funding among agencies to reflect the new organizational structure created in Engrossed Second Substitute Senate Bill 5669. These discrepancies will need to be reconciled during the 2012 legislative session. Initial steps can be taken now through some vetoes of unneeded consolidation-related provisos that contain duplicative information or technical errors. For these reasons, I have vetoed the following sections:

Section 301, page 98, lines 8-11, Columbia River Gorge Commission
Section 302(9), page 101, Department of Ecology
Section 302(10), page 101, Department of Ecology
Section 310, page 110, lines 25-28, Washington Pollution Liability Insurance Program
Section 303(4), page 102, State Parks and Recreation Commission, Land Purchase
The Commission is prohibited from expending state monies to purchase or acquire lands other than those called for in Senate Bill 5467 (capital budget) or House Bill 1497 (capital budget). A technical problem is created by the fact that the House bill cited is only one of the two capital budget bills that passed the Legislature. For this reason, I have vetoed Section 303(4).

Section 307(12), page 107, Department of Fish and Wildlife, Purchase of Lands
This proviso restricts the Department from expending state monies to purchase or acquire additional lands other than those called for in Senate Bill 5467 (capital budget) or House Bill 1497 (capital budget). The House bill cited is only one of the two capital budget bills that passed the Legislature. For this reason, I have vetoed Section 307(12).

Section 308(10), pages 109-110, Department of Natural Resources, Marine Rents Committee
This proviso directs the Department to convene a marine rents review committee in order to explore ways to refine and improve the method for calculating rents for marinas occupying state-owned aquatic lands. A report and recommendations are due to the Legislature by December 1, 2011. Since no funding was provided to complete this report, I have vetoed Section 308(10). I am however, asking the Commissioner of Public Lands to review past studies on this subject, discuss the issue with all affected stakeholders and prepare legislation for next session.

Section 312, pages 111-112, Department of Agriculture, Department of Ecology, and State Conservation Commission - Livestock Operations Review
Three agencies are required to conduct a process to review the impact of livestock operations on water quality, and to make recommendations by December 31, 2011. In March, these agencies committed to conducting a review process similar to this one; however, this proviso expands that process without an increase in funding. For this reason, I have vetoed Section 312. I am directing these agencies to continue the process they committed to during the legislative session.

Section 401(4), pages 113-114, Department of Licensing, House Bill 2017 - Master License Service (MLS) Transfer
This proviso prohibits the Department of Revenue from reimbursing the Department of Licensing for costs related to transferring the Master License Service program after July 1, 2011. This restriction limits the agencies' ability to facilitate a seamless transfer of the program, as required by Substitute House Bill 2017. For this reason, I have vetoed Section 401(4). However, I am directing the Department of Licensing to expedite the transfer in order to minimize the work and costs that will be incurred in the next biennium.

Section 501(1)(a)(iv), page 117, Superintendent of Public Instruction, Electronic Certification System
The Office of the Superintendent of Public Instruction and the Office of Financial Management are required "to work to allocate sufficient funding from the federal grant funds for the state's P-20 longitudinal data system, to the extent allowable, for the purpose of developing and implementing a new electronic certification system." The P-20 grant links student education data across time and databases, from early childhood to career, by funding data technology projects at ten state agencies. As drafted, this proviso places construction of the electronic certification system ahead in the funding priority line, in front of all other projects. Additionally, the electronic certification system can be built with fees authorized in Engrossed Substitute House Bill 1449, a funding source not available for the other projects. For this reason, I have vetoed Section 501(1)(a)(iv). However, I am directing OFM to explore the use of grant funds for the system's construction, if funds are available and consistent with the administration of other projects in the P-20 program.

Section 601(6)(c), page 155, Higher Education, Salary Increases from Other Sources
This proviso authorizes salary increases from sources other than the State General Fund for instructional and research faculty at the state's universities and The Evergreen State College. This authority conflicts with Engrossed Substitute Senate Bill 5860, which freezes state government salaries unless agencies or institutions demonstrate difficulty in retaining qualified employees. For this reason, I have vetoed Section 601(6)(c).

Section 605(3), page 160, State Board for Community and Technical Colleges, Administrative Efficiencies
The State Board for Community and Technical Colleges is directed to achieve $7 million in savings through efficiencies, including consolidation of college districts and administrative and governance functions. The State Board will achieve the required savings, but the proviso is overly prescriptive. For this reason, I have vetoed Section 605(3).

Section 610(9), page 167, The Evergreen State College, Controlled Substances Study
This proviso directs the Washington State Institute for Public Policy to study the costs and benefits to state and local governments and the citizens of Washington from implementation of the state's policies on "controlled substances, excluding alcohol, tobacco and pharmaceuticals." The reality is that these are controlled substances under federal law. It is unwise to spend taxpayer dollars on a study that cannot address the fundamental issues in this policy area. Therefore, I have vetoed Section 610(9).
Section 613(2)(b), page 168, Higher Education Coordinating Board -- Financial Aid and Grant Programs, State Need Grant Scholarships for Private College Students

This proviso limits State Need Grant award in Fiscal Year 2012 for private college students to the level of students attending public regional universities. This would reduce Need Grant awards to levels below current practice. This proviso was included in the bill as a result of a technical drafting error. Appropriations in the budget are not based on this unintended restriction. For this reason, I have vetoed Section 613(2)(b).

Section 613(4), page 169, Higher Education Coordinating Board, Financial Aid and Grant Programs -- Gaining Early Awareness and Readiness for Undergraduate Programs Project

This proviso would restrict the use of funding in an appropriation from the Education Legacy Trust Account. This apparently is a technical bill drafting error, because no such appropriation exists in this section. Therefore, I have vetoed Section 613(4).

Section 617(7), page 173, Department of Early Learning, Eligibility for Working Connections Child Care

This proviso prohibits the Department of Early Learning from making rules that reduce the income eligibility criteria of the Working Connections Child Care program to below the current level of 175 percent of the federal poverty level. Such a limitation infringes on my authority to manage the WorkFirst program, which includes the Working Connections Child Care program. For this reason, I have vetoed Section 617(7).

Section 617(11), page 173, Department of Early Learning, Child Care Copayment Structure

This proviso directs the Department of Early Learning to implement a child care copayment structure that gradually increases the copayments of parents in the Working Connection Child Care program based on income and other factors. Additionally, the proviso includes multiple directives about how the copayment structure should be developed. The Department of Early Learning is already beginning work on potential child care copayment structures that smooth out the tiers in the current model. The parameters of this proviso unnecessarily limit the agency's options. For this reason, I have vetoed Section 617(11).

Section 716, pages 182-184, Office of Financial Management, Agency Reallocation and Realignment Commission

Section 716 creates the Agency Reallocation and Realignment Commission with responsibilities for examining current state operations and organization, and making proposals to reduce expenditures and eliminate duplication and overlapping services. The sum of $100,000 in State General Fund dollars is provided for this purpose. During the Priorities of Government activity conducted during the summer of 2010, I appointed an external stakeholder team that performed similar responsibilities envisioned for this commission. Several of the public's suggestions, including the merger of central service functions, were proposed in my budget and enacted by the Legislature. Since we already have mechanisms to perform many of the same responsibilities without additional expense, this commission is not needed. For these reasons, I have vetoed Section 716.

Section 805, page 192, lines 35-37, and page 193, lines 1-18, State Treasurer, Conditions on Life Sciences Discovery Fund

These provisos place seven conditions on the Life Sciences Discovery Fund (LSDF). With the exception of subsection 1 these conditions decrease its autonomy and overall efficacy. For this reason, I have vetoed Section 805, page 192, lines 35-37; and page 193, lines 1-18.

Section 934, page 212, Amending the State Civil Service Law, RCW 41.06.022

Section 935, pages 212-218, Amending the State Civil Service Law, RCW 41.06.070

Section 934 makes two changes to the current civil service law for the duration of the 2011-13 biennium: (1) Any manager whose position is eliminated and who transfers to a different position shall be compensated at a level no higher than commensurate with the new position, and (2) No manager whose position is eliminated shall have reversion rights to classified position unless the employee was employed in the position, or a substantially equivalent one, within three years prior to the effective date of this act. Section 935 requires that any exempt employee whose position is eliminated and who transfers to a different position shall be compensated at a level no higher than commensurate with the new position. It is inappropriate to unilaterally and retroactively change the terms of employment for employees who have served with sufficient excellence to be promoted to leadership positions. Revoking guarantees made when these employees accepted offers to serve in management positions is simply unwarranted. In addition, the language is written in such a way that it would be applied unevenly to employees in equivalent situations, based on the presumed specific budget reduction that might apply in a given case. This approach would also make it distinctly more difficult for state agencies to promote from within the ranks of their employees. For these reasons, I have vetoed Sections 934 and 935.

Section 978, page 271, Reports on Ensuing Biennium Impact of Budget Proposals

While I am supportive of the intent to provide ensuing biennium impact statements on legislative and executive budget proposals, this language originated as separate legislation and is more appropriately implemented as a change to statute, not as part of an appropriations bill that expires in two years. Furthermore, the information required for both the State General Fund and other funds is far more detailed than necessary for a statewide budget outlook. For these reasons, I have vetoed Section 978.
A number of appropriations in Second Engrossed Substitute House Bill 1087 are contingent upon passage of separate legislation, with legislative direction that the appropriations will lapse if the bills are not enacted. The following vetoes relate to bills that did not pass:

Section 134(4), page 26, Department of Retirement Systems, Substitute Senate Bill 5846 (Retired public employees)
Section 144(1), page 29, Liquor Control Board, House Bill 2043 or Senate Bill 5916 (Liquor related products)
Section 144(2), page 29, Liquor Control Board, House Bill 2043 or Senate Bill 5917 (Co-located contract stores)
Section 206(16), page 61, Department of Social and Health Services, Engrossed Second Substitute House Bill 1901 (Reshaping the delivery of the long-term care system)
Section 217(3), page 86, Department of Labor and Industries, Engrossed Second Substitute House Bill 1701 (Contractor misclassification)
Section 219(11), page 91, Department of Health, Substitute House Bill 1468 (Public water system permits)
Section 219(17), page 92, Department of Health, Substitute Senate Bill 5542 (Cigar lounge and tobacconist shop special license)
Section 401(3), page 113, Department of Licensing, Substitute House Bill 1205 (Court reporter licensing)
Section 501(1)(i), pages 118-119, Office of the Superintendent of Public Instruction, House Bill 2111 (Implementing Quality Education Council recommendations)
Section 610(3), page 165, The Evergreen State College, Engrossed Second Substitute House Bill 1443 (Continuing education reforms)
Section 721(2), page 186, Transportation agencies, Senate Bill 5920 (Limiting annual increase amounts)
Section 724, page 187, Substitute Senate Bill 5846 (Health benefit subsidies)

For these reasons, I have vetoed Sections 134(4); 144(1); 144(2); 206(16); 217(3); 219(11); 219(17); 401(3); 501(1)(i); 610(3); 721(2); and 724.

With the exception of Sections 123(4); 125, page 14, line 28; 127(11); 129(4); 129(5); 129(6); 129(8); 129(9); 129(10); 134(4); 139(3); 139(4); 144(1); 144(2); 201(5); 202(8); 202(11); 205(1)(j); 205(2)(c); 205(2)(d); 206(16); 206(17); 207(9); 209(1); 213, page 68, line 12; 213(16); 213(17); 213(34); 213(38); 213(47); 213(48); 217(3); 218(2)(a); 219(11); 219(14); 219(17); 220(1)(b); 220(2)(a); 220(3)(a); 221, page 96, lines 8-14; 301, page 98, lines 8-11; 302(9); 302(10); 303(4); 307(12); 308(10); 310, page 110, lines 25-28; 401(3); 401(4); 501(1)(a)(iv); 501(1)(i); 601(6)(c); 605(3); 610(3); 610(9); 613(2)(b); 613(4); 617(7); 617(11); 716; 721(2); 724; 805, page 192, lines 35-37, and page 193, line 1-18; 925; 934; 935; 978, Second Engrossed Substitute House Bill 1087 is approved.

VETO MESSAGE ON SHB 1089

May 16, 2011

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 1, Substitute House Bill 1089 entitled:

"AN ACT Relating to instructional materials provided in a specialized format version."

I am vetoing the intent section, Section 1 of the bill, because it is broader than the substantive language in the bill. Vetoing the intent section may avoid confusion and does not impede implementation of the bill.

For this reason I have vetoed Section 1 of Substitute House Bill 1089.

With the exception of Section 1, Substitute House Bill 1089 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON ESHB 1175

May 16, 2011
The Honorable Speaker and Members  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

Thank you for your work on the supplemental and 2011-13 transportation budgets. I am returning, without my approval as to Sections 103(3), 103(4), 204(2), 205(3), 208(11), 210(4), 210(6), 221(3), 221(4), 221(7), 221(8), 221(9), 221(18), 305(6), 306(4), 308(6), 308(10), 308(12), 610, 706, 714, 722, and 817, Engrossed Substitute House Bill 1175 entitled:

"AN ACT Relating to making transportation appropriations for the 2009-2011 and 2011-2013 fiscal biennia."

Section 103(3), pages 3-4, Office of Financial Management, Predesign Requirements for Washington State Ferries This proviso requires the Office of Financial Management (OFM) to review and modify the Department of Transportation's (WSDOT) predesign requirements for state ferry vessel and terminal projects so that they continue to meet legal mandates without unduly burdening WSDOT. OFM is committed to working with the legislative transportation committees and stakeholders during the interim to assess and re-write the predesign manual for all appropriate transportation facilities, not just for ferry terminals and vessels. For this reason, I have vetoed Section 103(3).

Section 103(4), page 4, Office of Financial Management, List of Ferry Demands to Bargain This proviso requires the Office of Financial Management to provide the legislative transportation committees, on a quarterly basis, a list of all demands to bargain with respect to unions representing marine employees. While I support sharing this information with the Legislature, it should not be limited to only one sector of employees. Therefore, I am directing OFM to provide information on all demands to bargain received by the Labor Relations Office to the legislative transportation committees and the Joint Committee on Employment Relations, as appropriate. For this reason, I have vetoed Section 103(4).

Section 204(2), page 8, Joint Transportation Committee, Study of Management Organizational Structure of Ferries Division This proviso provides funding to the Joint Transportation Committee (JTC) to conduct a study of the management organizational structure of the Department of Transportation Ferries Division. The ferry system has been studied extensively. The transportation budget passed in 2009 directed twelve studies or reports, and six more were added in the 2010 budget. The JTC recently completed a three-year series of finance studies related to ferries. The most recent study was conducted last year by the national Passenger Vessel Association (PVA) at my request and provided recommendations now being implemented by the Ferries Division. This report noted that the level of oversight for Washington State Ferries is greater than the five ferry systems represented on the PVA panel that performed the study. "This constant responding, educating and reacting are tremendously costly and this expenditure could be better utilized elsewhere." For these reasons, I have vetoed Section 204(2).

Section 205(3), page 10, Transportation Commission, Survey of Transportation Users This proviso ties the appropriation for a survey of transportation users to the passage of Substitute Senate Bill 5128, which did not pass. It is important to conduct a statistically valid survey to identify the transportation priorities the public would like to target for future investments. In order to preserve the funding necessary for this survey, I have vetoed Section 205(3).

Section 208(11), page 15, Department of Licensing, Commercial Drivers Funding is provided to implement provisions of Engrossed House Bill 1229 (related to commercial drivers) from the Highway Safety Account-State. However, this proviso incorrectly identifies the funds as Motor Vehicle Account-Federal instead of Highway Safety Account-State. For this reason, I have vetoed Section 208(11).

Section 210(4), pages 17-18, Department of Transportation, Time, Leave and Labor System This proviso directs the Department of Transportation to report quarterly on its progress on the development of a time, leave, and labor distribution system. While this is a high priority for WSDOT, it is an important need of all state agencies. That is why I proposed that this project be developed as an enterprise solution by the Office of Financial Management in partnership with the Department of Personnel and WSDOT, with WSDOT being the pilot site to implement what will become an enterprise-wide application. Because it is important to clearly set out the state's commitment to an enterprise solution for business process systems improvements, I am vetoing this section and directing that the project commence as a partnership of state agencies with OFM leadership. For these reasons, I have vetoed Section 210(4).

Section 210(6), page 18, Department of Transportation, 511 Traveler Information System Improvements This proviso directs the Department of Transportation to make enhancements to the 511 traveler information system, as well as to develop or purchase software to allow public transportation users to determine the public transportation options available to them. The private sector is providing similar services for travelers, often at no cost to consumers. During this time of limited state resources, it is unnecessary to dedicate scarce state resources to areas being addressed by the private sector. Furthermore, no funding was provided to accomplish these actions. For these reasons, I have vetoed Section 210(6).

Section 221(3), pages 31-32, Department of Transportation, Ferry Performance Metrics
This section requires the Department of Transportation to develop a set of performance metrics for the Ferries Division and make recommendations to the 2012 Legislature on which measurements should be incorporated into the transportation appropriations act. My Government Management Accountability and Performance (GMAP) program already requires WSDOT to include ferry performance measures as part of its quarterly reports. WSDOT is further enhancing its use of performance metrics, which was one of the recommendations of the Passenger Vessel Association study I directed last year. WSDOT will continue reporting its progress and we will share those updates with the Legislature. For these reasons, I have vetoed Section 221(3).

Section 221(4), page 32, Department of Transportation, Ferries Division Process Changes
This section requires the Department of Transportation Ferries Division to continue to identify and implement route-by-route on-time performance changes. At the same time, it directs WSDOT to consider slowing down vessels to save fuel. It is unclear how the Ferries Division should improve on-time performance while slowing down vessels. WSDOT remains committed to a safe and reliable ferry system, as evidenced by the 94% of sailings arriving within ten minutes of the scheduled sailing time in 2010. For these reasons, I have vetoed Section 221(4).

Section 221(7), page 32, Department of Transportation, Fiscal Year Reports Outlining Wages and Benefits to Ferry Employees
This proviso requires the Department of Transportation to provide to the legislative transportation committees fiscal year reports outlining wages and benefits provided to marine employees. While I support sharing this information with the Legislature, it should not be limited to only one sector of employees. Therefore, I am directing the Office of Financial Management to work with the appropriate agencies to provide wage and benefit information to the legislative transportation committees and ways and means committees. For these reasons, I have vetoed Section 221(7).

Section 221(8), page 32, Department of Transportation, Ferry Detail in the Transportation Executive Information System (TEIS)
This proviso requires the Department of Transportation to work with the Legislative Evaluation and Accountability Program Committee to provide more details on ferry projects in the capital reporting system used by the Legislature, Office of Financial Management, and WSDOT. It is important that versions of this system are compatible among the agencies for transmitting and comparing data. Furthermore, it would be premature to make such changes to the TEIS until the work required in Section 221(16) regarding the budget structure of the Ferries Division is complete, including a potential restructuring of the ferries budget. For these reasons, I have vetoed Section 221(8).

Section 221(9), page 32, Department of Transportation, Ferry Operating Program, Restrictions on Use of Appropriations for Labor Costs
This proviso limits appropriations used for labor costs to obligations under collective bargaining agreements, civil service laws, and judgments. This limitation would prevent the Department of Transportation from paying legal and necessary labor costs that fall outside these constraints. For example, WSDOT would not be able to pay the salaries and benefits of exempt employees, travel reimbursement for all nonrepresented employees, or the cost of contractors who perform labor-related services from funds appropriated for labor costs. For this reason, I have vetoed Section 221(9).

Section 221(18), pages 34-35, Department of Transportation, Ferry Operating Program, Report Linking Vessel Asset Condition Reports with Vessel Life-Cycle Cost Model
This proviso requires the Department of Transportation to link vessel asset condition reports with its life-cycle cost model for integration with a vessel management system. It also requires WSDOT’s 2013-15 budget request to provide a project scope for implementing a vessel asset management system. Predesign requirements, life-cycle cost model changes, asset condition ratings, proposed new management systems, and revised budget structures must be considered in total. To that end, I am directing the Office of Financial Management to convene a workgroup that includes staff from the legislative transportation committees to evaluate how these various requirements should be integrated and reflected in future budget instructions. Therefore, I have vetoed Section 221(18).

Section 305(6), page 40, Department of Transportation, Redistributed Federal Funds
These provisions require that redistributed federal funds received by the Department of Transportation first be applied to offset planned expenditures of state funds, and second to offset planned expenditures of federal funds, on projects identified in the project list in the 2010 supplemental budget. If these options are not feasible, WSDOT must consult with the Joint Transportation Committee (JTC) prior to obligating redistributed federal funds. If such consultation is not feasible and Washington does not act quickly, we may lose the opportunity to receive redistributed federal funds. However, because input from the Legislature is important, I am directing WSDOT to consult with JTC members when possible. For this reason, I have vetoed Section 305(6) and Section 306(4).

Section 308(6), page 50, Department of Transportation, Ferry Capital Program, Restrictions on Use of Appropriations for Labor Costs
This proviso limits appropriations used for labor costs to obligations under collective bargaining agreements, civil service laws, and judgments. This limitation would prevent the Department of Transportation from paying legal and necessary labor costs that fall outside these constraints. For example, WSDOT would not be able to pay the salaries and benefits of exempt employees,
travel reimbursement for all nonrepresented employees, or the cost of contractors who perform labor-related services from funds appropriated for labor costs. For this reason, I have vetoed Section 308(6).

Section 308(10), page 51, Department of Transportation, Ferry Capital Program, Review and Adjust Capital Funding Levels
This proviso requires the Department of Transportation to review and adjust its capital program staffing levels, compare the findings to a 2009 capital staffing level report, and report to the Office of Financial Management and the legislative transportation committees. WSDOT is currently conducting a thorough review of its staffing levels in all program areas, including the Ferries Division, as it downsizes to meet diminishing revenues. Thus, this requirement specific to Ferries is unnecessary. Therefore, I have vetoed Section 308(10).

Section 308(12), page 51, Department of Transportation, Ferry Capital Program, Provide Cost-Benefit Analysis of Eagle Harbor Slips
This proviso requires the Department to conduct a cost-benefit analysis of replacing or repairing existing structures at the Eagle Harbor maintenance facility. A report is due to the Legislature by December 31, 2011. While I appreciate the need for a thoughtful cost-benefit analysis prior to any capital budget request, I cannot support another unfunded reporting mandate. I am directing the Office of Financial Management to ensure adequate provisions are included in the predesign manual and budget instructions to address these concerns. Therefore, I have vetoed Section 308(12).

Section 610, pages 73-74, Department of Transportation, Report on Department's Future Business Model
This section requires the Department of Transportation to report to the Joint Transportation Committee on its future business model staffing scenarios and method of program and project delivery. I understand the importance of tailoring the workforce to reflect the ramping down of construction funded by the last two transportation revenue packages and to prepare for a potential new transportation revenue package. However, Section 608 also directs WSDOT to develop new business practices so that a smaller, more nimble workforce can effectively and efficiently deliver transportation projects. In addition, WSDOT is already conducting a thorough review of its staffing levels as it downsizes to meet diminishing revenues. Because this section is unnecessary, I have vetoed Section 610.

Section 706, pages 82-83, Department of Transportation, Exempts Ferries from Biodiesel Requirements for 2011-13
This section exempts ferries from the state biodiesel use requirement. By leveraging federal and private funding, we have made the infrastructure investments to provide biodiesel to ferries. We are moving forward with changes to state procurement contracts to help further reduce the cost of biodiesel and take advantage of available in-state production. If we walk away now, our state funding investments in the industry will be lost, our oilseed farming and refining jobs will move out of state, and we will be forced to pay more to transport biodiesel products from the midwest. The rising cost of gas serves to remind us that we must rely on ourselves, not other countries, for our economic security and safety. I am directing the Department of Transportation to use as much biodiesel as possible within its authorized budget. For these reasons, I have vetoed Section 706.

Section 714, pages 95-96, Marine Employees' Commission Duties Subject to Available Amounts Appropriated for Statutory Duties
RCW 47.64.280 creates the Marine Employees' Commission (MEC). Section 714 amends this statute to provide that MEC shall not perform its duties as identified in this section if funding is not provided. Because funding for MEC has not been provided, this section would prohibit it from performing its statutory duties. Among its duties, MEC adjudicates complaints, grievances, and disputes between labor and management arising out of the operation of the ferry system. A provision in a budget bill cannot extinguish the rights of employees and labor organizations to access MEC to resolve disputes. Changing or eliminating MEC duties should be the subject of a policy bill, not a provision in a two-year budget bill. For these reasons, I have vetoed Section 714.

Section 722, page 99, Toll Enforcement and Administration
During the 2010 legislative session, two separate pieces of legislation, SB 6379 and ESSB 6499, amended RCW 46.63.160 without reference to each other. This section repeals one of those amendments. However, this action is unnecessary because RCW 1.12.025 clearly provides that the amendments can be merged because they do not conflict in purpose. While ESSB 6499 made policy changes related to toll enforcement as we move to a statewide photo toll system, SB 6379 made technical changes to a variety of vehicle and vessel title and registration statutes intended to have no policy or substantive legal effect. For this reason, I have vetoed Section 722.

Section 817, pages 130-131, Department of Transportation
A reduction of $7.5 million in the Multimodal Transportation Account-State appropriation was made in the Rail Operating program for the 2009-11 biennium because it was assumed that there would be offsetting Amtrak credits. Amtrak recently informed WSDOT that it had incorrectly calculated the credits. Vetoing this section will restore funding to 2010 levels and allow the Rail Operating program the flexibility needed to close the 2009-11 Biennium. WSDOT is directed to report to the Office of Financial Management and legislative transportation committees on the total credits received from Amtrak. For these reasons, I have vetoed Section 817.
With the exception of Sections 103(3), 103(4), 204(2), 205(3), 208(11), 210(4), 210(6), 221(3), 221(4), 221(7), 221(8), 221(9), 221(18), 305(6), 306(4), 308(6), 308(10), 308(12), 610, 706, 714, 722, and 817, Engrossed Substitute House Bill 1175 is approved.

Respectfully submitted,

VETO MESSAGE ON E2SHB 1206

April 13, 2011

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Section 3 and Section 4, Engrossed Second Substitute House Bill No. 1206 entitled:

"AN ACT Relating to harassment against criminal justice participants."
Section 3 directs the sentencing guidelines commission to report to the appropriate committees of the legislature by December 1, 2011, and annually thereafter, the number of prosecutions for criminal harassment of a criminal justice participant. Several bills now before the legislature either eliminate the sentencing guidelines commission or eliminate it as a regularly standing commission. The data identified in this section will be retained by a yet to be identified agency. Therefore, I am vetoing Section 3 and the appropriate committees of the legislature may request the data from the appropriate agency.

Section 4 causes the act to expire July 1, 2018. I believe the legislature should monitor the impact of the act and affirmatively take action to amend or repeal particular aspects of the act at a future date, if needed. Therefore, I am vetoing Section 4.

For these reasons, I have vetoed Section 3 and Section 4 of Engrossed Second Substitute House Bill No. 1206.

With the exception of Section 3 and Section 4, Engrossed Second Substitute House Bill No. 1206 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON SHB 1257

April 29, 2011

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 19, Substitute House Bill 1257 entitled:

"AN ACT Relating to adopting the investments of insurers model act."
This bill updates the statutes on insurer investments to increase financial security and to provide more flexibility for insurers to manage their investments.

Section 19 would require the Office of the Insurance Commissioner to submit a report to the Governor and the Legislature, in consultation with the Department of Financial Institutions and the State Investment Board, by December 1, 2011. This is prior to the effective date of the act, July 1, 2012. Section 19 would require the Office of the Insurance Commissioner to gather information that is a redundant to the bill analysis, overly burdensome to obtain, or difficult to analyze prior to implementation of the law. Further, requiring proposed rules to be submitted to the Governor and Legislature would infringe upon the role of the Insurance Commissioner and would blur the distinction between the Legislature and a state executive office with regard to the rulemaking process.

For these reasons, I have vetoed Section 19 of Substitute House Bill 1257.
With the exception of Section 19, Substitute House Bill 1257 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON ESHB 1406

April 29, 2011

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 10, Engrossed Substitute House Bill 1406 entitled:

"AN ACT Relating to intrastate building safety mutual aid in the event of emergencies and other situations that temporarily render a jurisdiction incapable of providing required building safety services."

Section 10 creates the intrastate building safety mutual aid oversight committee, and provides that it shall be a committee of the Washington association of building officials. I do not believe the creation of this oversight committee is necessary to carry out the purposes of the act. If desired, the members of the intrastate building safety mutual aid system can establish a committee structure without the need of a statutory reference.

For these reasons, I have vetoed Section 10 of Engrossed Substitute House Bill 1406.

With the exception of Section 10, Engrossed Substitute House Bill 1406 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON ESHB 1489

April 14, 2011

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 4, Engrossed Substitute House Bill 1489 entitled:

"AN ACT Relating to protecting water quality through restrictions on fertilizer containing phosphorus."

This bill limits the use, sale, and retail display of turf fertilizer that contains phosphorus, as of January 1, 2013.

Section 4 would prevent the Department of Agriculture from enforcing the bill through the issuance of civil penalties. Without this tool, the Department would be unable to effectively implement the bill.

For this reason, I have vetoed Section 4 of Engrossed Substitute House Bill 1489.

It is unfortunate that the final bill did not include the exemption for fertilizers made from biosolids, manure and other organic materials. These products provide a valued and beneficial use of materials that would otherwise need to be managed as waste. Since the bill is not effective until January 2013, I would entertain legislation in 2012 to exempt these organic products from the limits established in the bill.

With the exception of Section 4, Engrossed Substitute House Bill 1489 is approved.

Respectfully submitted,
Christine Gregoire

VETO MESSAGE ON ESHB 1497

June 15, 2011

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 5028; 6001; 7018; and 7031, page 83, lines 32-35, and 7031, page 83, line 36, and page 84, lines 1-3 of Engrossed Substitute House Bill 1497 entitled:

"AN ACT Relating to the capital budget."
Section 5028, page 50, Central Washington University -- Combined Utilities
The appropriation of $273,000 erroneously references the State Building Construction Account instead of the Central Washington University Building Account. ESHB 1497 is comprised of cash and dedicated fund sources, and does not otherwise include bond accounts. Therefore, I am vetoing Section 5028 so that the fund source can be corrected in the 2012 supplemental capital budget.

Section 6001, page 58, Salmon Recovery Funding Board Programs, Termination of Contract for Restoration of Bear River Estuary
This proviso language conflicts with the existing statutory process for Salmon Recovery Funding Board project review by directing the Board to take action on an existing contract. In addition, the requirement is now moot because the Board terminated this contract in May. For these reasons, I am vetoing Section 6001.

Section 7018, pages 72-73, Department of Fish and Wildlife Land Transfer
This proviso requires the Fish and Wildlife Commission to transfer to the City of Olympia its three parcels of property located in downtown Olympia. The Department of General Administration is directed to obtain an appraisal, and negotiate a contract with the City of Olympia to develop a plan for preparing the land for mixed use retail and market rate housing. This requirement precludes the possibility of other parties offering competitive bids for these properties. Therefore, I am vetoing Section 7018.

Section 7031, page 83, lines 32-35, Treasurer Transfers
Section 7031, page 83, line 36, and page 84, lines 1-3, Treasurer Transfers
The Legislature's reduction of the existing transfers from the State Toxics Control Account and the Local Toxics Control Account to the state General Fund was meant to accompany a statutory change directing toxics account revenues into the General Fund. Because the offsetting statutory change was not made, the transfers in Section 7031 would result in an unintended loss of $103.5 million to the General Fund. Therefore, I am vetoing Section 7031, page 83, lines 32-35; and Section 7031, page 83, line 36, and page 84, lines 1-3.

For these reasons, I have vetoed Sections 5028; 6001; 7018; and 7031, page 83, lines 32-35, and 7031, page 83, line 36, and page 84, lines 1-3, of Engrossed Substitute House Bill 1497.

With the exception of Sections 5028; 6001; 7018; and 7031, page 83, lines 32-35, and 7031, page 83, line 36, and page 84, lines 1-3, Engrossed Substitute House Bill 1497 is approved.

Respectfully submitted,
Christine Gregoire

VETO MESSAGE ON ESHB 1509

April 29, 2011

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 7, Engrossed Substitute House Bill 1509 entitled:
"AN ACT Relating to the forestry riparian easement program."
This bill resolves eligibility requirements for participation and compensation in the Forest Riparian Easement Program and fine-tunes what easements to protect riparian habitat the program will purchase if funding is available. There is no emergent need for the bill to become effective immediately, and therefore the emergency clause in Section 7 of this bill is unnecessary.

For this reason I have vetoed Section 7 of Engrossed Substitute House Bill 1509.

With the exception of Section 7 Engrossed Substitute House Bill 1509 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON SHB 1538
April 29, 2011
To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 5, Substitute House Bill 1538 entitled:

"AN ACT Relating to animal health inspections."
Section 5 of this bill establishes a formal Animal Disease Traceability Advisory Committee to serve in an advisory capacity to the Department of Agriculture for this program. I am vetoing Section 5 of this bill. I understand the importance of involving livestock growers, feeders, farmers, and business interests in guiding this disease traceability program, but that does not necessitate creating a formal committee in statute. However, along with this veto, I am directing the director of the Department of Agriculture to convene an informal advisory group made up of key livestock industry representatives to assist the department as it implements the animal disease traceability program.

For these reasons, I have vetoed Section 5 of Substitute House Bill 1538.

With the exception of Section 5 Substitute House Bill 1538 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON ESHB 1547
April 29, 2011
To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 2 and 3, Engrossed Substitute House Bill 1547 entitled:

"AN ACT Relating to the deportation of criminal alien offenders."
Section 2 requires the Department of Corrections to provide written notice of rights in removal proceedings to all offenders in the department's custody subject to potential conditional release under this statute. Advising offenders of these rights is the responsibility of the federal government at the time removal proceedings are initiated.

Section 3 requires a court to advise a defendant that he or she may be subject to early release from custody for removal from the United States as a consequence of conviction and that the defendant may be able to contest a removal order. Current law and court practices and procedures provide defendants with adequate notice of potential deportation consequences of a plea of guilty.
For these reasons, I have vetoed Sections 2 and 3 of Engrossed Substitute House Bill 1547.

With the exception of Sections 2 and 3 Engrossed Substitute House Bill 1547 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON E2SHB 1599

May 10, 2011

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 1, Engrossed Second Substitute House Bill 1599 entitled:

"AN ACT Relating to establishing the pay for actual student success dropout prevention program."

To the extent funding is provided in the appropriations act by June 30, 2011, this legislation provides resources to schools and school districts that improve various student engagement and success factors that lead to more high school graduations. The legislation sets forth the data used to determine whether schools and districts are eligible for the incentives authorized.

Section 1 is an intent section that discusses various experiences of schools and principles of law, and is not necessary to interpret or implement the substantive provisions of the bill. For this reason, I have vetoed Section 1 of Engrossed Second Substitute House Bill 1599.

With the exception of Section 1, Engrossed Second Substitute House Bill 1599 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON E2SHB 1634

May 5, 2011

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 24, Engrossed Second Substitute House Bill 1634 entitled:

"AN ACT Relating to underground utilities."

This bill strengthens our law for preventing damages to underground pipelines and other utilities during excavation. The bill provides the Utilities and Transportation Commission with the authority to take enforcement action for violations, to require reporting of damage to underground utilities, and to develop a stakeholder process to review violations and encourage better excavation practices. The bill provides a comprehensive damage prevention program for underground utilities.

Pursuant to the House floor colloquy on this bill, section 24 was intended to ensure that the bill would not result in regulation by the Utilities and Transportation Commission of consumer-owned utilities such as electric cooperatives, municipal utilities and public utility districts, except when such a utility damages an underground facility subject to this bill, in which case the Commission would have the authority to enforce the provisions of this act.

While the House floor colloquy clarifies legislative intent, the language in Section 24 could be read to exempt consumer-owned utilities from enforcement under the bill, and thereby prevent the Commission from taking enforcement action on underground utility damage caused by consumer-owner utilities. Since the language in this section does not change the statutory independence of consumer-owned utilities in setting their rates and determining their services, the section is not necessary.

For these reasons, I have vetoed section 24 of Engrossed Second Substitute House Bill 1634.
With the exception of section 24, Engrossed Second Substitute House Bill 1634 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON SHB 1663

April 29, 2011

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 2, Substitute House Bill 1663 entitled:

"AN ACT Relating to the purchasing authority of institutions of higher education."

This bill removes higher education institutions from the requirement to seek approval from the Office of Financial Management to be exempted from certain purchasing from the Department of Corrections. Section 2 of this bill is an emergency clause that is not necessary. Higher education institutions have been exceeding the minimum 2% purchase target from Correctional Industries, and there is no need for the bill to go into effect immediately.

For this reason, I have vetoed Section 2 of Substitute House Bill 1663.

With the exception of Section 2, Substitute House Bill 1663 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON HB 1770

May 16, 2011

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 5, House Bill 1770 entitled:

"AN ACT Relating to enhancing small business participation in state purchasing."

I am vetoing Section 5 because it inadvertently eliminated the ability for agencies to make purchases up to three thousand dollars based on buyer experience and knowledge of the market and is therefore in conflict with RCW 43.19.1906(2).

For this reason I have vetoed Section 5 of House Bill 1770.

With the exception of Section 5, House Bill 1770 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON E2SHB 1795

June 6, 2011

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 13 through 25, Engrossed Second Substitute House Bill 1795 entitled:

"AN ACT Relating to the higher education opportunity act."

Sections 13 and 14 exempt higher education from the requirements of competitive solicitation for personal services contracts and other purchases that are less than $100,000. Current law requires competitive solicitation for personal service contract greater than $20,000 and for other purchases greater than $35,000. Section 15 exempts higher education from the requirement that no payments may be made in advance for equipment maintenance services to be performed in excess of one year. Other legislation requires a study and the establishment of a policy regarding these practices for all of state government, including higher education institutions.

Sections 16 through 24 exempt higher education from various spending freezes, such as hiring, personal service contracts, equipment, out of state travel and training, and board member travel allowances that were imposed during the 2009-2011 biennium. These freezes expire on June 30, 2011. Due to the length of the regular legislative session and special session, sections 15, 16, 17, 18, 19 and 20 have no operative effect because the restrictions expire before the law takes effect.

Section 25 would exempt, through June 30, 2011, higher education institutions from prohibitions on wage and salary increases granted with non-state funds. These prohibitions on wage and salary increases are reinstated for the 2011-13 biennium in SB 5860 for all of state government. In addition, the underlying statute already provides an exemption for higher education to the wage and salary freeze if increases are needed for recruitment and retention purposes.

For these reasons, I am vetoing Sections 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24 and 25 of Engrossed Second Substitute House Bill 1795. Higher education institutions are still prohibited from granting wage and salary increases using tuition funding for the 2011-13 biennium, unless increases are necessary for recruitment and retention.

For these reasons, I have vetoed Sections 13 through 25 of Engrossed Second Substitute House Bill 1795.

With the exception of Sections 13 through 25, Engrossed Second Substitute House Bill 1795 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON SHB 1861

April 22, 2011

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 4, Substitute House Bill 1861 entitled:

"AN ACT Relating to the sale or lease of surplus state-owned railroad properties."

The Department of Transportation does not intend to surplus property within the next 90 days. With that understanding, the emergency clause is unnecessary.

For this reason, I have vetoed Section 4 of Substitute House Bill 1861.

With the exception of Section 4, Substitute House Bill 1861 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON ESHB 1967

May 16, 2011
To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 3, Engrossed Substitute House Bill 1967 entitled:

"AN ACT Relating to modifying provisions related to public transportation system planning."
Section 3 of the bill would require new state facilities located within a public transportation system to be sited in areas adequately accessible by transit service. Access to public transportation is a priority when siting state buildings. However, it is not always feasible or necessary for each state building to be served by public transportation, depending on the nature of the agency or institution and who it serves. Therefore, I am vetoing Section 3 of this bill. However, I have asked the Department of General Administration to consult with transit agencies to assess the access to public transportation when siting state buildings.

For these reasons I have vetoed Section 3 of Engrossed Substitute House Bill 1967.

With the exception of Section 3, Engrossed Substitute House Bill 1967 is approved.

Respectfully submitted,
Christine Gregoire
Governor
