(16) The appropriations in this section reflect reductions in the appropriations for the children's administration administrative expenses. It is the intent of the legislature that these reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or programs.

(17) Within the amounts appropriated in this section, the department shall contract for a pilot project with family and community networks in Whatcom county and up to four additional counties to provide services. The pilot project shall be designed to provide a continuum of services that reduce out-of-home placements and the lengths of stay for children in out-of-home placement. The department and the community networks shall collaboratively select the additional counties for the pilot project and shall collaboratively design the contract. Within the framework of the pilot project, the contractor shall seek to maximize federal funds. The pilot project in each county shall include the creation of advisory and management teams which include members from neighborhood-based family advisory committees, residents, parents, youth, providers, and local and regional department staff. The Whatcom county team shall facilitate the development of outcome-based protocols and policies for the pilot project and develop a structure to oversee, monitor, and evaluate the results of the pilot projects. The department shall report the costs and savings of the pilot project to the appropriate committees of the legislature by November 1 of each year.

(18) $157,000 of the general fund—state appropriation for fiscal year 2010 and ($148,000) $78,000 of the general fund—state appropriation for fiscal year 2011 are provided solely for the department to contract with a nonprofit entity for a reunification pilot project in Whatcom and Skagit counties. The contract for the reunification pilot project shall include a rate of $46.16 per hour for evidence-based interventions, in combination with supervised visits, to provide 3,564 hours of services to reduce the length of stay for children in the child welfare system. The contract shall also include evidence-based intensive parenting skills building services and family support case management services for 38 families participating in the reunification pilot project. The contract shall include the flexibility for the nonprofit entity to subcontract with trained providers.

(19) $303,000 of the general fund—state appropriation for fiscal year 2010, $392,000 of the general fund—state appropriation for fiscal year 2011, and $241,000 of the general fund—federal appropriation are provided solely to implement Engrossed Substitute House Bill No. 1961 (increasing adoptions act). If the bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(20) $98,000 of the general fund—state appropriation for fiscal year 2010 and ($92,000) $49,000 of the general fund—state appropriation for fiscal year 2011 are provided solely for the department to contract with an agency that is working in partnership with, and has been evaluated by, the University of Washington school of social work to implement promising practice constellation hub models of foster care support.

(21) The legislature intends for the department to reduce the time a child remains in the child welfare system. The department shall establish a measurable goal and report progress toward meeting that goal to the legislature by January 15 of each fiscal year of the 2009-11 fiscal biennium. To the extent that actual caseloads exceed those assumed in this section, it is the intent of the legislature to address those issues in a manner similar to all other caseload programs.

(22) $715,000 of the general fund—state appropriation for fiscal year 2010 and $671,000 of the general fund—state appropriation for fiscal year 2011 are provided solely for services provided through children's advocacy centers.

(23) $10,000 of the general fund—state appropriation for fiscal year 2011 and $3,000 of the general fund—federal appropriation are provided solely for implementation of chapter 224, Laws of 2010 (confinement alternatives). If the bill is not enacted by June 30, 2010, the amounts provided in this subsection shall lapse.

(24) $1,867,000 of the general fund—state appropriation for fiscal year 2010, $1,677,000 of the general fund—state appropriation for fiscal year 2011, and $4,379,000 of the general fund—federal appropriation are provided solely for the department to contract for medicaid treatment child care (MTCC) services. Children's administration case workers, local public health nurses and case workers from the temporary assistance for needy families program shall refer children to MTCC services, as long as the children meet the eligibility requirements as outlined in the Washington state plan for the MTCC services.

(25) The department shall contract for at least one pilot project with adolescent services providers to deliver a continuum of short-term crisis stabilization services. The pilot project shall include adolescent services provided through secure crisis residential centers, crisis residential centers, and hope beds. The department shall work with adolescent service providers to maintain availability of adolescent services and maintain the delivery of services in a geographically representative manner. The department shall examine current staffing requirements, flexible payment options, center-specific licensing waivers, and other appropriate methods to achieve savings and streamline the delivery of services. The legislature intends for the pilot project to provide flexibility to the department to improve outcomes and to achieve more efficient utilization of existing resources, while meeting the statutory goals of the adolescent services programs. The department shall provide an update to the appropriate legislative committees and governor on the status of the pilot project implementation by December 1, 2010.

(26) To ensure expenditures remain within available funds appropriated in this section as required by RCW 74.13A.005 and 74.13A.020, the secretary shall not set the amount of any adoption assistance payment or payments, made pursuant to RCW 26.33.320 and 74.13A.005 through 74.13A.080, to more than ninety percent of the foster care maintenance payment for that child had he or she remained in a foster family home during the same period. This subsection does not apply to adoption assistance agreements in existence on the effective date of this section.

(27) Receipts from fees per chapter 289, Laws of 2010, as deposited into the prostitution prevention and intervention account for services provided to sexually exploited children as defined in RCW 13.32A.030 in secure and semi-secure crisis residential centers with access to staff trained to meet their specific needs shall be used to expand capacity for secure crisis residential centers and not supplant existing funding.
The appropriations in this section reflect reductions to the foster care maintenance payment rates during fiscal year 2011.

(b) It is the intent of the legislature that the juvenile rehabilitation administration phase the implementation of the formula and will prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program eligibility youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative: (i) thirty-seven and one-half percent for the at-risk population of youth ten to seventeen years old; (ii) fifteen percent for moderate and high-risk youth; (iii) twenty-two percent for evidence-based program participation; (iv) seventeen and one-half percent for minority populations; (v) three percent for the chemical dependency disposition alternative; and (vi) two percent for the mental health and sentencing dispositional alternatives. Funding for the special sex offender disposition alternative (SSODA) shall not be included in the block grant, but allocated on the average daily population in juvenile courts.

The administration may concentrate delivery of these treatments and therapies at a limited number of programs to deliver the treatments in a cost-effective manner.

(7)(a) For the fiscal year ending June 30, 2011, the juvenile rehabilitation administration shall administer a block grant, rather than categorical funding, of consolidated juvenile service funds, community juvenile accountability act grants, the chemical dependency disposition alternative funds, the mental health disposition alternative, and the sentencing disposition alternative for the purpose of serving youth adjudicated in the juvenile justice system. In making the block grant, the juvenile rehabilitation administration shall follow the following formula and will prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program-eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative: (i) thirty-seven and one-half percent for the at-risk population of youth ten to seventeen years old; (ii) fifteen percent for moderate and high-risk youth; (iii) twenty-five percent for evidence-based program participation; (iv) seventeen and one-half percent for minority populations; (v) three percent for the chemical dependency disposition alternative; and (vi) two percent for the mental health and sentencing dispositional alternatives. Funding for the special sex offender disposition alternative (SSODA) shall not be included in the block grant, but allocated on the average daily population in juvenile courts.

Funding for the evidence-based expansion grants shall be excluded from the block grant formula. Funds may be used for promising practices when approved by the juvenile rehabilitation administration and juvenile courts, through the community juvenile accountability act committee, based on the criteria established in consultation with Washington state institute for public policy and the juvenile courts.

(b) It is the intent of the legislature that the juvenile rehabilitation administration phase the implementation of the formula provided in subsection (1) of this section by including a stop-loss formula of three percent in fiscal year 2011, five percent in fiscal year 2012, and five percent in fiscal year 2013. It is further the intent of the legislature that the evidence-based expansion grants be incorporated into the block grant...
formula by fiscal year 2013 and SSODA remain separate unless changes would result in increasing the cost benefit savings to the state as identified in (c) of this subsection.

(c) The juvenile rehabilitation administration and the juvenile courts shall establish a block grant funding formula oversight committee with equal representation from the juvenile rehabilitation administration and the juvenile courts. The purpose of this committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. The committee will be cochaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the ability to change members of the committee as needed to achieve its purpose. Initial members will include one juvenile court representative from the finance committee, the community juvenile accountability act committee, the risk assessment quality assurance committee, the executive board of the Washington association of juvenile court administrators, the Washington state center for court research, and a representative of the superior court judges association; two representatives from the juvenile rehabilitation administration headquarters program oversight staff, two representatives of the juvenile rehabilitation administration regional office staff, one representative of the juvenile rehabilitation administration fiscal staff and a juvenile rehabilitation administration division director. The committee may make changes to the formula categories other than the evidence-based program and disposition alternative categories if it is determined the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost benefit savings to the state. Long-term cost benefit must be considered. Percentage changes may occur in the evidence-based program or disposition alternative categories of the formula should it be determined the changes will increase evidence-based program or disposition alternative delivery and increase the cost benefit to the state. These outcomes will also be considered in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(d) The juvenile courts and administrative office of the courts shall be responsible for collecting and distributing information and providing access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. The juvenile rehabilitation administration and the juvenile courts will work collaboratively to develop program outcomes that reinforce the greatest cost benefit to the state in the implementation of evidence-based practices and disposition alternatives.

(e) By December 1, 2010, the Washington state institute for public policy shall report to the office of financial management and appropriate committees of the legislature on the administration of the block grant authorized in this subsection. The report shall include the criteria used for allocating the funding as a block grant and the participation targets and actual participation in the programs subject to the block grant.

(8) $3,700,000 of the Washington auto theft prevention authority account—state appropriation is provided solely for competitive grants to community-based organizations to provide at-risk youth intervention services, including but not limited to, case management, employment services, educational services, and street outreach intervention programs. Projects funded should focus on preventing, intervening, and suppressing behavioral problems and violence while linking at-risk youth to pro-social activities. The department may not expend more than $1,850,000 per fiscal year. The costs of administration must not exceed four percent of appropriated funding for each grant recipient. Each entity receiving funds must report to the juvenile rehabilitation administration on the number and types of youth served, the services provided, and the impact of those services upon the youth and the community.

(9) The appropriations in this section assume savings associated with the transfer of youthful offenders age eighteen or older whose sentences extend beyond age twenty-one to the department of corrections to complete their sentences. Prior to transferring an offender to the department of corrections, the juvenile rehabilitation administration shall evaluate the offender to determine the offender's physical and emotional suitability for transfer.

Sec. 203. 2010 2nd sp.s. c 1 s 203 (uncodified) is amended to read as follows:

| General Fund—State Appropriation (FY 2011) | ................................................................. | ($278,530,000) |
| $263,993,000 | General Fund—Federal Appropriation | ................................................................. | ($519,456,000) |
| $520,024,000 | General Fund—Private/Local Appropriation | ................................................................. | ($16,674,000) |
| $16,951,000 | Hospital Safety Net Assessment Fund—State |
| Appropriation | ................................................................. | $3,476,000 |
| ($1,094,284,000) | TOTAL APPROPRIATION |................................................................. | $1,078,092,000 |

The appropriations in this subsection are subject to the following conditions and limitations:

(a) $113,689,000 of the general fund—state appropriation for fiscal year 2010 and ($111,689,000) $101,089,000 of the general fund—state appropriation for fiscal year 2011 are provided solely for persons and services not covered by the medicaid program. This is a reduction of $11,606,000 each fiscal year from the nonmedicaid funding that was allocated for expenditure by regional support networks during fiscal year 2009 prior to supplemental budget reductions. This $11,606,000 reduction shall be distributed among regional support networks proportional to each network's share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

(b) $10,400,000 of the general fund—state appropriation for fiscal year 2010, ($9,100,000) $8,814,000 of the general fund—state appropriation for fiscal year 2011, and $1,300,000 of the general fund—federal appropriation are provided solely for the department and regional support networks to contract for implementation of high-intensity program for active community treatment (PACT) teams. The department shall work with regional support networks and the center for medicare and medicaid services to integrate eligible components of the PACT service delivery model into medicaid capitation rates no later than January 2011, while maintaining consistency with all essential elements of the PACT evidence-based practice model.
(c) $6,500,000 of the general fund--state appropriation for fiscal year 2010 and ($6,500,000) $6,091,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care provided by the program for adaptive living skills (PALS) at western state hospital.

(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 617 per day during the first quarter of fiscal year 2010, ($and) 587 per day through the second quarter of fiscal year 2011, and 557 per day thereafter. Beds in the program for adaptive living skills (PALS) are not included in the preceding bed allocations. The department shall separately charge regional support networks for persons served in the PALS program.

(e) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of Medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(f) $4,582,000 of the general fund--state appropriation for fiscal year 2010 and $4,582,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(g) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(h) $750,000 of the general fund--state appropriation for fiscal year 2010 and ($250,000) $703,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(i) $1,500,000 of the general fund--state appropriation for fiscal year 2010 and $1,500,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(j) The department shall return to the Spokane regional support network fifty percent of the amounts assessed against the network during the last six months of calendar year 2009 for state hospital utilization in excess of its contractual limit. The regional support network shall use these funds for operation during its initial months of a new sixteen-bed evaluation and treatment facility that will enable the network to reduce its use of the state hospital, and for diversion and community support services for persons with dementia who would likely otherwise require care at the state hospital.

(k) The department is directed to identify and implement program efficiencies and benefit changes in its delivery of Medicaid managed-care services that are sufficient to operate within the state and federal appropriations in this section. Such actions may include but are not limited to methods such as adjusting the care access standards; improved utilization management of ongoing, recurring, and high-intensity services; and increased uniformity in provider payment rates. The department shall ensure that the capitation rate adjustments necessary to accomplish these efficiencies and changes are distributed uniformly and equitably across all regional support networks statewide. The department is directed to report to the relevant legislative fiscal and policy committees at least thirty days prior to implementing rate adjustments reflecting these changes.

(l) In developing the new Medicaid managed-care rates under which the public mental health managed care system will operate during the five years beginning in fiscal year 2011, the department should seek to estimate the reasonable and necessary cost of efficiently and effectively providing a comparable set of medically necessary mental health benefits to persons of different acuity levels regardless of where in the state they live. Actual prior period spending in a regional administrative area shall not be a key determinant of future payment rates. The department shall report to the office of financial management and to the relevant fiscal and policy committees of the legislature on its proposed new waiver and mental health managed care rate-setting approach by October 1, 2009, and again at least sixty days prior to implementation of new capitation rates.

(m) In implementing the new public mental health managed care payment rates for fiscal year 2011, the department shall to the maximum extent possible within each regional support network's allowable rate range establish rates so that there is no increase or decrease in the total state and federal funding that the regional support network would receive if it were to continue to be paid at its October 2009 through June 2010 rates. The department shall additionally revise the draft rates issued January 28, 2010, to more accurately reflect the lower practitioner productivity inherent in the delivery of services in extremely rural regions in which a majority of the population reside in frontier counties, as defined and designated by the national center for frontier communities.

(n) $1,529,000 of the general fund--state appropriation for fiscal year 2010 and $1,529,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(o) The legislature intends and expects that regional support networks and contracted community mental health agencies shall make all possible efforts to, at a minimum, maintain current compensation levels of direct care staff. Such efforts shall include, but not be limited to, identifying local funding that can preserve client services and staff compensation, achieving administrative reductions at the regional support network level, and engaging stakeholders on cost-savings ideas that maintain client services and staff compensation. For purposes of this section, "direct care staff" means persons employed by community mental health agencies whose primary responsibility is providing direct treatment and
support to people with mental illness, or whose primary responsibility is providing direct support to such staff in areas such as client scheduling, client intake, client reception, client records-keeping, and facilities maintenance.

(p) Regional support networks may use local funds to earn additional federal Medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide Medicaid state plan or waiver services to Medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional Medicaid match, but only to the extent that the application of such funds to Medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for Medicaid.

Sec. 204. 2010 2nd s.p.s. c 1 s 204 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES—DEVELOPMENTAL DISABILITIES PROGRAM

(1) COMMUNITY SERVICES

General Fund—State Appropriation (FY 2010) .......................................................... $307,348,000
General Fund—State Appropriation (FY 2011) .......................................................... ($337,658,000)
$321,752,000

General Fund—Federal Appropriation ........................................................................ $890,274,000

............................................................................................................................................. TOTAL APPROPRIATION
............................................................................................................................................. $1,519,374,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) Individuals receiving services as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

(b)(i) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients. In doing so, the department shall comply with all maintenance of effort requirements contained in the American reinvestment and recovery act.

(ii) $508,000 of the general fund—state appropriation for fiscal year 2011 and $822,000 of the general fund—federal appropriation are provided solely for the department to partially restore the reductions to in-home care that are taken in (b)(i) of this subsection. The department will use the same formula to restore personal care hours that it used to reduce personal care hours.

(c) Amounts appropriated in this section are sufficient to develop and implement the use of a consistent, statewide outcome-based vendor contract for employment and day services by April 1, 2011. The rates paid to vendors under this contract shall also be made consistent. In its description of activities the agency shall include activity listings and dollars appropriated for: Employment services, day services, child development services and county administration of services to the developmentally disabled. The department shall begin reporting to the office of financial management on these activities beginning in fiscal year 2010.

(d) $302,000 of the general fund—state appropriation for fiscal year 2010, $831,000 of the general fund—state appropriation for fiscal year 2011, and $1,592,000 of the general fund—federal appropriation are provided solely for health care benefits pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.

(e)(i) $682,000 of the general fund—state appropriation for fiscal year 2010, $1,651,000 of the general fund—state appropriation for fiscal year 2011, and $1,678,000 of the general fund—federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.

(ii) The federal portion of the amounts in this subsection (g) is contingent upon federal approval of participation in contributions to the trust and shall remain unallotted and placed in reserve status until the office of financial management and the department of social and health services receive federal approval.

(iii) Expenditures for the purposes specified in this subsection (g) shall not exceed the amounts provided in this subsection.

(f) Within the amounts appropriated in this subsection (1), the department shall implement all necessary rules to facilitate the transfer to a department home and community-based services (HCBS) waiver of all eligible individuals who (i) currently receive services under the existing state-only employment and day program or the existing state-only residential program, and (ii) otherwise meet the waiver eligibility requirements. The amounts appropriated are sufficient to ensure that all individuals currently receiving services under the state-only employment and day and state-only residential programs who are not transferred to a department HCBS waiver will continue to receive services.

(g) In addition to other reductions, the appropriations in this subsection reflect reductions targeted specifically to state government administrative costs. These administrative reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or programs.

(i) Within the provisions of this section, the department shall reduce all seventeen payment levels of the seventeen-level payment system from the fiscal year 2009 levels for boarding homes, boarding homes contracted as assisted living, and adult family homes. (j) The amounts appropriated in this subsection reflect a reduction in funds available for employment and day services. In administering this reduction the department shall negotiate with counties and their vendors so that this reduction, to the greatest extent possible, is achieved by reducing vendor rates and allowable contract administrative charges (overhead) and not through reductions to direct client services or direct service delivery or programs.

(k) As part of the needs assessment instrument, the department may collect data on family income for minor children with developmental disabilities and all individuals who are receiving state-only funded services. The department may ensure that this information is collected as part of the client assessment process.

(15) The department shall establish waiting lists to the extent necessary to assure that annual expenditures on the community options program entry systems (COPES) program do not exceed appropriated levels. In establishing and managing any such waiting list, the department shall assure priority access to persons with the greatest unmet needs, as determined by department assessment processes.

The incapacity determination and progressive evaluation process regulations in effect on January 1, 2010, cannot be amended until at least September 30, 2010; except that provisions related to the use of administrative review teams may be amended, and obsolete terminology and functional assessment language may be updated on or after July 1, 2010, in a manner that only minimally impacts the outcome of incapacity evaluations.

After September 30, 2010, the incapacity determination and progressive evaluation process regulations may be amended only if the reports under (a) and (b) of this subsection have been submitted, and find that expenditures will exceed the appropriated level by three percent or more.

The department shall initiate and file the federal supplemental security income interim agreement as quickly as possible in order to maximize the recovery of federal funds;

(v) In addition to any earlier evaluation that may have been conducted, the department shall intensively evaluate those clients who have been receiving lifeline benefits for twelve months or more as of July 1, 2009, or thereafter, if the available medical and incapacity related evidence indicates that the client is unlikely to meet the disability standard for federal supplemental security income benefits. The evaluation shall identify services necessary to eliminate or minimize barriers to employment, including mental health treatment, substance abuse treatment and vocational rehabilitation services. The department shall expedite referrals to chemical dependency treatment, mental health and vocational rehabilitation services for these clients.

(vi) The appropriations in this subsection reflect a change in the earned income disregard policy for lifeline clients. It is the intent of the legislature that the department shall adopt the temporary assistance for needy families earned income policy for the lifeline program.

The appropriations in this section are subject to the following conditions and limitations:
(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(3) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(4) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(5) In accordance with RCW 74.46.625, $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the department's discretion. During either the interim cost settlement or the final cost settlement, the department shall recoup from the public hospital districts the supplemental payments that increase in section 10(1)(b) of Engrossed Second Substitute House Bill No. 2956 (hospital fund). The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(6) $(8,110,000) $6,091,000 of the general fund--federal appropriation and $(8,105,000) $6,444,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(7) $(9,183,000) $5,729,000 of the general fund--state appropriation for fiscal year 2011, and $(9,365,000) $5,776,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2009-11 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit reports to the governor and legislature by November 1, 2009, and by November 1, 2010, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2010 and fiscal year 2011, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2009-11 biennial operating appropriations act (chapter 564, Laws of 2009) and in effect on July 1, 2009, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2009-11 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement will be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $20,403,000 of the general fund--state appropriation for fiscal year 2010, of which $6,570,000 is appropriated in section 204(1) of this act, and $29,480,000 of the general fund--state appropriation for fiscal year 2011, of which $6,570,000 is appropriated in section 204(1) of this act, are provided solely for state grants for the participating hospitals. CPE hospitals will receive the inpatient and outpatient reimbursement rate restorations in section 9 and rate increases in section 10(1)(b) of Engrossed Second Substitute House Bill No. 2956 (hospital safety net assessment fund) funded through the hospital safety net assessment fund rather than through the baseline mechanism specified in this subsection.

(9) The department is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the department determines it is cost-effective to do so.

(10) $93,000 of the general fund--state appropriation for fiscal year 2010 and $93,000 of the general fund--federal appropriation are provided solely for the department to pursue a federal Medicaid waiver pursuant to Second Substitute Senate Bill No. 5945 (Washington health partnership plan). If the bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(11) The department shall require managed health care systems that have contracts with the department to serve medical assistance clients to limit any reimbursements or payments the systems make to providers not employed by or under contract with the systems to no more than the medical assistance rates paid by the department to providers for comparable services rendered to clients in the fee-for-service delivery system.

(12) A maximum of $241,141,000 in total funds from the general fund--state, general fund--federal, and tobacco and prevention control account--state appropriations may be expended in the fiscal biennium for the medical program pursuant to chapter 8, Laws of 2010 1st sp. sess.
(security lifeline act), and these amounts are provided solely for this program. Of these amounts, $10,749,000 of the general fund–state appropriation for fiscal year 2010 and $10,892,000 of the general fund–federal appropriation are provided solely for payments to hospitals for providing outpatient services to low income patients who are recipients of lifeline benefits. Pursuant to RCW 74.09.035, the department shall not expend for the lifeline medical care services program any amounts in excess of the amounts provided in this subsection.

(13) Mental health services shall be included in the services provided through the managed care system for lifeline clients under chapter 8, Laws of 2010 1st sp. sess. In transitioning lifeline clients to managed care, the department shall attempt to deliver care to lifeline clients through medical homes in community and migrant health centers. The department, in collaboration with the carrier, shall seek to improve the transition rate of lifeline clients to the federal supplemental security income program. The department shall renegotiate the contract with the managed care plan that provides services for lifeline clients to maximize state retention of future hospital savings as a result of improved care coordination. The department, in collaboration with stakeholders, shall propose a new name for the lifeline program.

(14) The department shall evaluate the impact of the use of a managed care delivery and financing system on state costs and outcomes for lifeline medical clients. Outcomes measured shall include state costs, utilization, changes in mental health status and symptoms, and involvement in the criminal justice system.

(15) The department shall report to the governor and the fiscal committees of the legislature by June 1, 2010, on its progress toward achieving a twenty percentage point increase in the generic prescription drug utilization rate.

(16) State funds shall not be used by hospitals for advertising purposes.

(17) $24,356,000 of the general fund–private/local appropriation and $35,707,000 of the general fund–federal appropriation are provided solely for the implementation of professional services supplemental payment programs. The department shall seek a medicaid state plan amendment to create a professional services supplemental payment program for University of Washington medicine professional providers no later than July 1, 2009. The department shall apply federal rules for identifying the shortfall between current fee-for-service medicaid payments to participating providers and the applicable federal upper payment limit. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the department in the development, implementation, and maintenance of this program will be the responsibility of the participating providers. Participating providers will retain the full amount of supplemental payments provided under this program, net of any potential costs for any related audits or litigation brought against the state. The department shall report to the governor and the legislative fiscal committees on the prospects for expansion of the program to other qualifying providers as soon as feasibility is determined but no later than December 31, 2009. The report will outline estimated impacts on the participating providers, the procedures necessary to comply with federal guidelines, and the administrative resource requirements necessary to implement the program. The department will create a process for expansion of the program to other qualifying providers as soon as it is determined feasible by both the department and providers but no later than June 30, 2010.

(18) $9,075,000 of the general fund–state appropriation for fiscal year 2010, $8,588,000 of the general fund–state appropriation for fiscal year 2011, and $39,747,000 of the general fund–federal appropriation are provided solely for development and implementation of a replacement system for the existing medicaid management information system. (20) Pursuant to 42 U.S.C. Sec. 1396(a)(25), the department shall pursue insurance claims on behalf of medicaid children served through its in-home medically intensive child program under WAC 388-551-3000. The department shall report to the Legislature by December 31, 2009, on the results of its efforts to recover such claims.

(21) The department may, on a case-by-case basis and in the best interests of the child, set payment rates for medically intensive home care services to promote access to home care as an alternative to hospitalization. Expenditures related to these increased payments shall not exceed the amount the department would otherwise pay for hospitalization for the child receiving medically intensive home care services.

(22) $425,000 of the general fund–state appropriation for fiscal year 2010 and $790,000 of the general fund–federal appropriation are provided solely to continue children's health coverage outreach and education efforts under RCW 74.09.470. These efforts shall rely on existing relationships and systems developed with local public health agencies, health care providers, public schools, the women, infants, and children program, the early childhood education and assistance program, child care providers, newborn visiting nurses, and other community-based organizations. The department shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(23) The department, in conjunction with the office of financial management, shall implement a prorated inpatient payment policy.

(24) The department will pursue a competitive procurement process for anthrophillic products, emphasizing evidence-based medicine and protection of patient access without significant disruption in treatment.

(25) The department will pursue several strategies towards reducing pharmacy expenditures including but not limited to increasing generic prescription drug utilization by 20 percentage points and promoting increased utilization of the existing mail-order pharmacy program.

(26) The department shall reduce reimbursement for over-the-counter medications while maintaining reimbursement for those over-the-counter medications that can replace more costly prescription medications.

(27) The department shall seek public-private partnerships and federal funds that are or may become available to implement health information technology projects under the federal children's health recovery and reinvestment act of 2009.

The department shall prioritize evidence-based practices for delivery of maternity support services. A joint report regarding the identified savings and expenditures shall be provided to the office of financial management and the appropriate fiscal committees of the legislature by November 30, 2010. (c) If the waiver in (b) of this subsection is granted, the health care authority may implement the waiver if it allows the program to remain within appropriated levels, after providing notice of its terms and conditions to the relevant policy and fiscal committees of the legislature in writing thirty days prior to the planned implementation date of the waiver.

The appropriations in this section are subject to the following conditions and limitations:

1. The department of health shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department of health and the state board of health shall not implement any new or amended rules pertaining to primary and secondary school facilities until the rules and a final cost estimate have been presented to the legislature, and the legislature has formally funded implementation of the rules through the omnibus appropriations act or by statute. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation that provides appropriation authority, and an equal amount of appropriated state moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, “unrestricted federal moneys” includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

The department is further authorized to increase fees by the amount necessary to implement the regulatory requirements of the following bills: House Bill No. 1414 (health care assistants), House Bill No. 1740 (dental residency licenses), and House Bill No. 1899 (retired active physician licenses).

(13) General apportionment payments to the Steilacoom historical school district shall reflect changes to operation of the Harriet Taylor elementary school consistent with the timing of reductions in correctional facility capacity and staffing.

(14) $2,500,000 of the general fund--state appropriation for fiscal year 2011 is provided solely for the superintendent for financial contingency funds for eligible school districts. The financial contingency funds shall be allocated to eligible districts in the form of an advance of their respective general apportionment allocations.

(a) Eligibility:

The superintendent shall determine a district's eligibility for receipt of financial contingency funds, and districts shall be eligible only if the following conditions are met:

Repayments or advances will be accomplished by a reduction in the school district's apportionment payments on or before June 30th of the school year following the distribution of the emergency contingency allocation.
All disbursements, repayments, and outstanding allocations to be repaid of the emergency contingency pool shall be reported to the office of financial management and the appropriate fiscal committees of the legislature on July 1st and January 1st of each year.

Sec. 505. 2010 1st s.p.s. c 37 s 507 (uncodified) is amended to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2010) .......................................................... $632,136,000
General Fund--State Appropriation (FY 2011) .......................................................... (($650,856,000))
$626,099,000
The appropriations in this section are subject to the following conditions and limitations:

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) The superintendent of public instruction shall ensure that:

(i) Special education students are basic education students first;

(ii) As a class, special education students are entitled to the full basic education allocation; and

(iii) Special education students are basic education students for the entire school day.

(b) The superintendent of public instruction shall continue to implement the full cost method of excess cost accounting, as designed by the committee and recommended by the superintendent, pursuant to section 501(1)(k), chapter 372, Laws of 2006.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: (a) The first category includes (i) children birth through age two who are eligible for the optional program for special education eligible developmentally delayed infants and toddlers, and (ii) students eligible for the mandatory special education program and who are age three or four, or five and not yet enrolled in kindergarten; and (b) the second category includes students who are eligible for the mandatory special education program and who are age five and enrolled in kindergarten and students age six through 21.

(5)(a) For the 2009-10 and 2010-11 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten, as defined in subsection (4) of this section, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools in the 2009-10 school year. In the 2010-11 school year, the per student allocation under this subsection (5)(b) shall include the same factors as in the 2009-10 school year, but shall also include the classified staff enhancements included in section 502(3)(b).

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment” means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent” means the district's resident special education annual average enrollment, excluding the birth through age four enrollment and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, ($44,260,000) $19,512,000 of the general fund--state appropriation and $29,574,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If the federal safety net awards based on the federal eligibility threshold exceed the federal appropriation in this subsection (8) in any fiscal year, the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards. In the determination of need, the committee shall require that districts demonstrate that they are maximizing their eligibility for all state and federal revenues related to services for special education-eligible students. Awards associated with (b) and (c) of this subsection shall not exceed the total of a district's specific determination of need.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services. The safety net awards to school districts shall be adjusted to reflect amounts awarded under (b) of this subsection.
(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.
(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.
(f) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999. The state safety net oversight committee shall ensure that safety net documentation and awards are based on current medicaid revenue amounts.
(g) (The office of the superintendent of public instruction, at the conclusion of each school year, shall recover safety net funds that were distributed prospectively but for which districts were not subsequently eligible). Beginning with the 2010-11 school year award cycle, the office of the superintendent of public instruction shall make award determinations for state safety net funding in August of each school year. Determinations on school district eligibility for state safety net awards shall be based on analysis of actual expenditure data from the current school year.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:
(a) One staff from the office of superintendent of public instruction;
(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and
(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) The office of the superintendent of public instruction shall review and streamline the application process to access safety net funds, provide technical assistance to school districts, and annually survey school districts regarding improvement to the process.

(12) A maximum of $678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent aides and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(13) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(14) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.

Opportunity Pathways Account–State Appropriation ......................... $40,000,000

TOTAL APPROPRIATION ....................................................... ($386,346,000)
$385,793,000

The appropriations in this section are subject to the following conditions and limitations:
1. $54,878,000 of the general fund–state appropriation for fiscal year 2010 and ($14,685,000) $14,405,000 of the general fund–state appropriation for fiscal year 2011, and $40,000,000 of the opportunity pathways account appropriation are provided solely for early childhood education and assistance program services. This appropriation temporarily reduces the number of slots for the 2009-11 fiscal biennium for the early childhood education and assistance program. The department shall reduce slots where providers serve both federal headstart and early childhood education and assistance program children, to the greatest extent possible, in order to achieve no reduction of slots across the state. The amounts in this subsection also reflect reductions to the administrative expenditures for the early childhood education and assistance program. The department shall reduce administrative expenditures, to the greatest extent possible, prior to reducing early childhood education and assistance program slots. Of these amounts, $10,284,000 is a portion of the biennial amount of state matching dollars required to receive federal child care and development fund grant dollars.
2. $1,000,000 of the general fund–federal appropriation is provided to the department to contract with Thrive by Five, Washington for a pilot project for a quality rating and improvement system to provide parents with information they need to choose quality child care and education programs and to improve the quality of early care and education programs. The department in collaboration with Thrive by Five shall operate the pilot projects in King, Yakima, Clark, Spokane, and Kitsap counties. The department shall use child care development fund quality money for this purpose.
3. $425,000 of the general fund–state appropriation for fiscal year 2010, $213,000 of the general fund–state appropriation for fiscal year 2011, and $850,000 of the general fund–federal appropriation are provided solely for child care resource and referral network services. The general fund–federal funding represents moneys from the American recovery and reinvestment act of 2009 (child care development block grant).
The legislature notes that the department of early learning is developing a plan for improving child care licensing and is consulting, as practicable, with parents, licensed child care providers, and stakeholders from the child care community. The plan shall outline the processes and specify the resources necessary for improvements such as continuing licenses, child care licensing technology, and weighted child care regulations, including development of risk-based decision making models and inclusive, evidence-based rule making. The department shall submit to the appropriate committees of the legislature a plan by January 15, 2011.

The department is the lead agency for and recipient of the federal child care and development fund grant. Amounts within this grant shall be used to fund child care licensing, quality initiatives, agency administration, and other costs associated with child care subsidies. The department shall transfer a portion of this grant to the department of social and health services to partially fund the child care subsidies paid by the department of social and health services on behalf of the department of early learning.

The department shall use child care development fund money to satisfy the federal audit requirement of the improper payments act (IPIA) of 2002. In accordance with the IPIA's rules, the money spent on the audits will not count against the five percent state limit on administrative expenditures.

Within available amounts, the department in consultation with the office of financial management and the department of social and health services shall report quarterly enrollments and active caseload for the working connections child care program to the legislative fiscal committees. The report shall also identify the number of cases participating in both temporary assistance for needy families and working connections child care.

The appropriations in this section reflect reductions in the appropriations for the department's administrative expenses. It is the intent of the legislature that these reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or program.

$500,000 of the general fund—state appropriation for fiscal year 2011 is provided solely for the department to contract with the private-public partnership established in chapter 43.215 RCW for home visitation programs. Of this amount, $200,000 of the general fund—state appropriation for fiscal year 2011 is provided solely for expenditure into the home visiting services account created in Part IX of this act to be used for contracts for home visitation with the private-public partnership.

In accordance with RCW 43.135.055, the department is authorized to increase child care center licensure fees by fifty-two dollars for the first twelve children and an additional four dollars per additional child in fiscal year 2011 for costs to the department for the licensure activity, including costs of necessary inspection.

In accordance with RCW 43.135.055, the department of early learning is authorized to adopt and increase the fees set for licensure activity, including costs of necessary inspection.

The appropriations in this section are subject to the following conditions and limitations: $271,000 of the general fund—private/local appropriation is provided solely for the school for the blind to offer short course programs, allowing students the opportunity to leave their home schools for short periods and receive intensive training. The school for the blind shall provide this service to the extent that it is funded by contracts with school districts and educational services districts.
The appropriations in this section are subject to the following conditions and limitations:

WHEREAS, Everyone's life is touched by a child at one time or another, in ways big and small, and each of us has the responsibility to set a good example for the children we meet; and
WHEREAS, Parents are a child's first and most important teacher, whose unconditional love, enduring support, and gentle guidance are the greatest treasure they can give; and
WHEREAS, When we embrace children with love and respect, those values are reflected back, and we thus encourage the formation of a caring and compassionate society; and
WHEREAS, Since 1995 this body has observed Children's Day as a most special and reverent celebration of Washington's children; and

WHEREAS, Washington is the only state named for an American president, George Washington, the father of our country, and, as such, we Washingtonians hold the presidency and presidents in especially high regard; and
WHEREAS, For many years our state and nation have set aside the third Monday in February to celebrate Presidents' Day, which honors President George Washington, President Abraham Lincoln, and other former Presidents of the United States of America; and
WHEREAS, George Washington, born February 22, 1732, led the Revolutionary Army with courage and fortitude and, then serving as the first President of the United States, defined the office and remained ever mindful of his actions and the ramifications carried by his deeds; and
WHEREAS, Abraham Lincoln, born February 12, 1809, is remembered as the savior of the Union, fighting the Civil War, and,
through the Emancipation Proclamation, ending slavery, and then turning at the Civil War's conclusion to rebuilding the Union and famously emphasizing "With malice toward none; with charity for all"; and

WHEREAS, It was in 1968 when federal legislation, the "Monday Holidays Act," was passed to install the Presidents' Day celebration that we have come to know and respect; and

WHEREAS, In 1985, the Washington State Legislature singled out the third Monday in February as a day for commemorating the births of Presidents Washington and Lincoln; and

WHEREAS, It is recognized that this diverse, wonderful land of ours has been fashioned into a land of freedom and opportunity thanks to the tireless efforts of our forebears, especially Presidents George Washington and Abraham Lincoln; and

WHEREAS, The first eight American presidents, comprising over a fifth of our forty-four presidents to date, did not begin their lives as Americans because there was no America when they were born, thus in a special way our reputation as a land of opportunity was established; and

WHEREAS, A Presidents' Day celebration would not be complete without recognizing the invaluable service of the first ladies in our American presidential history; and

WHEREAS, The first ladies of our nation have not only provided citizens with role models who exemplify what it means to be an American, but first ladies such as Abigail Adams, Dolly Madison, Eleanor Roosevelt, Jacqueline Kennedy, and Nancy Reagan have served as symbols of strength in times of adversity throughout our history;

NOW, THEREFORE, BE IT RESOLVED, That on this twenty-first day of February 2011, the House of Representatives honor the first and sixteenth Presidents of the United States for their immeasurable contributions to, and noble sacrifices for, the cause of liberty, equality, and justice.

SSB 5700  Prime Sponsor, Committee on Transportation:
Concerning certain toll facilities. Reported by
Committee on Transportation

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 925. The legislature recognizes that Washington voters strongly supported Initiative Measure No. 1053 during the 2010 general election, which indicates the clear desire on the part of the state's citizens that legislators approve any new fees or increases to existing fees. The legislature further recognizes that during the 2009 legislative session tolling was authorized on the state route number 520 corridor, bonds were authorized to finance construction of corridor projects, and the legislature committed to continue imposing tolls on the corridor in amounts sufficient to pay the principal and interest on those bonds. As tolling is scheduled to begin on the corridor in early April 2011, the legislature intends to honor the voters' clear direction as identified in Initiative Measure No. 1053 by reviewing the transportation commission's recommended schedule for tolling charges and explicitly approving those rates applicable to the state route number 520 corridor. The legislature also intends to review the transportation commission's recommended schedule for photo toll charges and explicitly approve those rates applicable to the Tacoma Narrows bridge.

NEW SECTION. Sec. 926. A new section is added to chapter 47.56 RCW to read as follows:

(1) Consistent with RCW 43.135.055 and 47.56.805 through 47.56.876, the legislature approves the action taken by the transportation commission on January 5, 2011, adopting amended rules to set the schedule of toll rates applicable to the state route number 520 corridor. The legislature further authorizes the transportation commission, as the tolling authority for the state, to set and adjust toll rates on the state route number 520 corridor in accordance with the authorization, requirements, and guidelines set forth in RCW 47.56.830, 47.56.850, and 47.56.870. The transportation commission may adjust the toll rates, as identified in the adopted schedule of toll rates, only in amounts not greater than those sufficient to meet (a) the operating costs of the state route number 520 corridor, including necessary maintenance, preservation, renewal, replacement, administration, and toll enforcement by public law enforcement and (b) obligations for the timely payment of debt service on bonds issued under chapter 498, Laws of 2009 and this act, and any other associated financing costs including, but not limited to, required reserves, minimum debt coverage or other appropriate contingency funding, insurance, and compliance with all other financial and other covenants made by the state in the bond proceedings. Prior to the convening of each regular session of the legislature, the transportation commission must provide the transportation committees of the legislature with a detailed report regarding any increase or decrease in any toll rate approved by the commission that has not been described in a previous report provided pursuant to this subsection (2), along with a detailed justification for each such increase or decrease.

(2) Consistent with RCW 43.135.055 and 47.46.100, the legislature approves the action taken by the transportation commission on January 25, 2011, adopting amended rules to set the schedule of photo toll, or "pay by mail," charges applicable to the Tacoma Narrows bridge. Prior to the convening of each regular session of the legislature, the transportation commission must provide the transportation committees of the legislature with a detailed report regarding any increase or decrease in any toll rate approved by the commission that has not been described in a previous report provided pursuant to this subsection (2), along with a detailed justification for each such increase or decrease.

(3) Consistent with RCW 43.135.055 and 47.56.795(6), the legislature approves the action taken by the transportation commission on January 5, 2011, adopting amended rules concerning the assessment of administrative fees for toll collection processes. The administrative fees must not exceed toll collection costs.

Sec. 927. RCW 47.10.882 and 2009 c 498 s 11 are each amended to read as follows:

The toll facility bond retirement account is created in the state treasury for the purpose of payment of the principal of and interest on bonds issued for the purposes of chapter 498, Laws of 2009 and this act shall be payable from the toll facility bond retirement account. The state finance committee may provide that special subaccounts be created in the account to facilitate payment of the principal of and interest on the bonds. The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount required for principal and interest on the bonds in accordance with the bond proceedings.

Sec. 928. RCW 47.10.886 and 2009 c 498 s 16 are each reenacted to read as follows:

If and to the extent that the state finance committee determines, in consultation with the department of transportation and the tolling authority, that it will be beneficial for the state to issue any bonds authorized in RCW 47.10.879 and 47.10.883 through 47.10.885 as toll revenue bonds rather than as general obligation bonds, the state finance committee is authorized to issue and sell, upon the request of the department of transportation, such bonds as toll revenue bonds and not as general obligation bonds. Notwithstanding RCW 47.10.883, such bond shall contain a recital that payment or redemption of the bond and payment of the interest and any premium thereon is payable solely from and secured solely by a direct pledge, charge, and lien upon toll revenue and is not a general obligation of the state to which the full faith and credit of the state is pledged.

Toll revenue is hereby pledged to the payment of any bonds and the interest thereon issued under the authority of this section, and the legislature agrees to continue to impose these toll charges on the state route number 520 corridor, and on any other eligible toll facility designated by the legislature and on which the imposition of tolls is authorized by the legislature in respect of the bonds, in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of this section.

Sec. 929. RCW 47.10.887 and 2009 c 498 s 17 are each amended to read as follows:

The state finance committee may determine and include in any resolution authorizing the issuance of any bonds under chapter 498, Laws of 2009 and this act, such terms, provisions, covenants, and conditions as it may deem appropriate in order to assist with the marketing and sale of the bonds, confer rights upon the owners of bonds, and safeguard rights of the owners of bonds including, among other things:

(1) Provisions regarding the maintenance and operation of eligible toll facilities;

(2) The pledges, uses, and priorities of application of toll revenue;

(3) Provisions that bonds shall be payable from and secured solely by toll revenue as provided by RCW 47.10.886, or shall be payable from and secured by both toll revenue and by a pledge of excise taxes on motor vehicle and special fuels and the full faith and credit of the state as provided in RCW 47.10.879 and 47.10.883 through 47.10.885;

(4) In consultation with the department of transportation and the tolling authority, financial covenants requiring that the eligible toll facilities must produce specified coverage ratios of toll revenue to debt service on bonds;
(5) The purposes and conditions that must be satisfied prior to the issuance of any additional bonds that are to be payable from and secured by any toll revenue on an equal basis with previously issued and outstanding bonds payable from and secured by toll revenue;

(6) Provisions that bonds for which any toll revenue are pledged, or for which a pledge of any toll revenue may be reserved, may be structured on a senior, parity, subordinate, or special lien basis in relation to any other bonds for which toll revenue is pledged, with respect to toll revenue only; and

(7) Provisions regarding reserves, credit enhancement, liquidity facilities, and payment agreements with respect to bonds.

Notwithstanding the foregoing, covenants and conditions detailing the character of management, maintenance, and operation of eligible toll facilities, insurance for eligible toll facilities, financial management of toll revenue, and disposition of eligible toll facilities must first be approved by the department of transportation.

The owner of any bond may by mandamus or other appropriate proceeding require and compel performance of any duties imposed upon the tolling authority and the department of transportation and their respective officials, including any duties imposed upon or undertaken by them or by their respective officers, agents, and employees, in connection with the construction, maintenance, and operation of eligible toll facilities and in connection with the collection, deposit, investment, application, and disbursement of the proceeds of the bonds and toll revenue.

Sec. 930. RCW 47.10.888 and 2009 c 498 s 18 are each amended to read as follows:

(1) For the purposes of chapter 498, Laws of 2009 and this act, "toll revenue" means all toll receipts, all interest income derived from the investment of toll receipts, and any gifts, grants, or other funds received for the benefit of transportation facilities in the state, including eligible toll facilities. However, for the purpose of any pledge of toll revenue to the payment of particular bonds issued under chapter 498, Laws of 2009 and this act, "toll revenue" means and includes only such toll revenue or portion thereof that is pledged to the payment of those bonds in the resolution authorizing the issuance of such bonds. Toll revenue constitutes "fees and revenues derived from the ownership or operation of any undertaking, facility, or project" as that phrase is used in Article VIII, section 1(c)(1) of the state Constitution.

(2) For the purposes of chapter 498, Laws of 2009 and this act, "tolling authority" has the same meaning as in RCW 47.56.810.

Sec. 931. RCW 47.56.810 and 2008 c 122 s 3 are each amended to read as follows:

The definitions in this section apply throughout this subchapter unless the context clearly requires otherwise:

(1) "Tolling authority" means the governing body that is legally empowered to review and adjust toll rates. Unless otherwise delegated, the transportation commission is the tolling authority for all state highways.

(2) "Eligible toll facility" or "eligible toll facilities" means portions of the state highway system specifically identified by the legislature including, but not limited to, transportation corridors, bridges, crossings, interchanges, on-ramps, off-ramps, approaches, state facilities, and interconnections between highways.

(3) "Toll revenue" or "revenue from an eligible toll facility" means toll receipts, all interest income derived from the investment of toll receipts, and any gifts, grants, or other funds received for the benefit of transportation facilities in the state, including eligible toll facilities.

NEW SECTION. Sec. 932. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

SUBSTITUTE HOUSE BILL NO. 1869 was read the second time.

With the consent of the house, amendment (97) was withdrawn.

Representative Condotta moved the adoption of amendment (85).

Strike everything after the enacting clause and insert the following:

"Sec. 4. RCW 51.36.010 and 2007 c 134 s 1 are each amended to read as follows:

(1) The legislature finds that high quality medical treatment and adherence to occupational health best practices can prevent disability and reduce loss of family income for workers, and lower labor and insurance costs for employers. Injured workers deserve high quality medical care in accordance with current health care best practices. To this end, the department shall establish minimum standards for providers who treat workers from both state fund and self-insured employers. The department shall establish a health care provider network to treat injured workers, and shall accept providers into the network who meet those minimum standards. The department shall convene an advisory group made up of representatives from or designees of the workers' compensation advisory committee and the industrial insurance medical and chiropractic advisory committees to consider and advise the department related to implementation of this section, including development of best practices treatment guidelines for providers in the network. The department shall also seek the input of various health care provider groups and associations concerning the network's implementation. Network providers must be required to follow the department's evidence-based coverage decisions and treatment guidelines, policies, and must be expected to follow other national treatment guidelines appropriate for their patient. The department, in collaboration with the advisory group, shall also establish additional best practice standards for providers to qualify for a second tier within the network, based on demonstrated use of occupational health best practices. This second tier is separate from and in addition to the centers for occupational health and education established under subsection (5) of this section.

(2)(a) Upon the occurrence of any injury to a worker entitled to compensation under the provisions of this title, he or she shall receive proper and necessary medical and surgical services at the hands of a physician or licensed advanced registered nurse practitioner of his or her own choice, if conveniently located, except as provided in (b) of this subsection, and proper and necessary hospital care and services during the period of his or her disability from such injury.

(b) Once the provider network is established in the worker's geographic area, an injured worker may receive care from a nonnetwork provider only for an initial office or emergency room visit. However, the department or self-insurer may limit reimbursement to the department's standard fee for the services. The provider must comply with all applicable billing policies and must accept the department's fee schedule as payment in full.

(c) The department, in collaboration with the advisory group, shall adopt policies for the development, credentialing, accreditation, and continued oversight of a network of health care providers approved to treat injured workers. Health care providers shall apply to the network by completing the department's provider application which shall have the force of a contract with the department to treat injured workers. The advisory group shall recommend minimum network standards for the department to approve a provider's application, to remove a provider from the network, or to require peer review such as, but not limited to:

(i) Current malpractice insurance coverage exceeding a dollar amount threshold, number, or seriousness of malpractice suits over a specific time frame;

(ii) Previous malpractice judgments or settlements that do not exceed a dollar amount threshold recommended by the advisory group, or a specific number or seriousness of malpractice suits over a specific time frame;

(iii) No licensing or disciplinary action in any jurisdiction or loss of treating or admitting privileges by any board, commission, agency, public or private health care payer, or hospital;

(iv) For some specialties such as surgeons, privileges in at least one hospital;

(v) Whether the provider has been credentialed by another health plan that follows national quality assurance guidelines; and

(vi) Alternative criteria for providers that are not credentialed by another health plan.

The department shall develop alternative criteria for providers that are not credentialed by another health plan or as needed to address access to care concerns in certain regions.

(d) Network provider contracts will automatically renew at the end of the contract period unless the department provides written notice of changes in contract provisions or the department or provider provides written notice of contract termination. The industrial insurance medical advisory committee shall develop criteria for removal of a provider from the network to be presented to the department and advisory group for consideration in the development of contract terms.

(e) In order to monitor quality of care and assure efficient management of the provider network, the department shall establish additional criteria and terms for network participation including, but not limited to, requiring compliance with administrative and billing policies.

(f) The advisory group shall recommend best practices standards to the department to use in determining second tier network providers. The department shall develop and implement financial and nonfinancial incentives for network providers who qualify for the second tier. The department is authorized to certify and decertify second tier providers.

(3) The department shall work with self-insurers and the department utilization review provider to implement utilization review for the self-insured community to ensure consistent quality, cost-effective care for all injured workers and employers, and to reduce administrative burden for providers.

(4) The department for state fund claims shall pay, in accordance with the department's fee schedule, for any alleged injury for which a worker files a claim, any initial prescription drugs provided in relation to that initial visit, without regard to whether the worker's claim for benefits is allowed. In all accepted claims, treatment shall be limited in point of duration as follows:

In the case of permanent partial disability, not to extend beyond the date when compensation shall be awarded him or her, except when the worker returned to work before permanent partial disability award is made, in such case not to extend beyond the time when monthly allowances to him or her shall cease; in case of temporary disability not to extend beyond the time when monthly allowances to him or her shall cease: PROVIDED, That after any injured worker has returned to his or her work his or her medical and surgical treatment may be continued if, and so long as, such continuation is deemed necessary by the supervisor of industrial insurance to be necessary to his or her more complete recovery; in case of a permanent total disability not to extend beyond the date on which a lump sum settlement is made with him or her or he or she is placed
upon the permanent pension roll: PROVIDED, HOWEVER, That the supervisor of industrial insurance, solely in his or her discretion, may authorize continued medical and surgical treatment for conditions previously accepted by the department when such medical and surgical treatment is deemed necessary by the supervisor of industrial insurance to protect such worker's life or provide for the administration of medical and therapeutic measures including payment of prescription medications, but not including those controlled substances currently scheduled by the state board of pharmacy as Schedule I, II, III, or IV substances under chapter 69.50 RCW, which are necessary to alleviate continuing pain which results from the industrial injury. In order to authorize such continued treatment the written order of the supervisor of industrial insurance issued in advance of the continuation shall be necessary.

The supervisor of industrial insurance, the supervisor's designee, or a self-insurer, in his or her sole discretion, may authorize inoculation or other immunological treatment in cases in which a work-related activity has resulted in probable exposure of the worker to a potential infectious occupational disease. Authorization of such treatment does not bind the department or self-insurer in any adjudication of a claim by the same worker or the worker's beneficiary for an occupational disease.

(5)(a) The legislature finds that the department and its business and labor partners have collaborated in establishing centers for occupational health and education to promote best practices and prevent preventable disability by focusing additional provider-based resources during the first twelve weeks following an injury. The centers for occupational health and education represent innovative accountable care systems in early phase of development consistent with national health care reform efforts. Many Washington workers do not yet have access to these innovative health care delivery models.

(b) To expand evidence-based occupational health best practices, the department shall establish additional centers for occupational health and education, with the goal of extending access to at least fifty percent of injured and ill workers by December 2013 and to all injured workers by December 2015. The department shall also develop additional best practices and incentives that span the entire period of recovery, not only the first twelve weeks.

(c) The department shall certify and decertify centers for occupational health and education based on criteria including institutional leadership and geographic areas covered by the center for occupational health and education, occupational health leadership and education, mix of participating health care providers necessary to address the anticipated needs of injured workers, health services coordination to deliver occupational health best practices, indicators to measure the success of the center for occupational health and education, and agreement that the center's providers shall, if feasible, treat certain injured workers if referred by the department or a self-insurer.

(d) Health care delivery organizations may apply to the department for certification as a center for occupational health and education. These may include, but are not limited to, hospitals and affiliated clinics and providers, multispecialty clinics, health maintenance organizations, and organized systems of network physicians.

(e) The centers for occupational health and education shall implement benchmark quality indicators of occupational health best practices for individual providers, developed in collaboration with the department. A center for occupational health and education shall remove individual providers who do not consistently meet these quality benchmarks.

(f) The department shall develop and implement financial and nonfinancial incentives for center for occupational health and education providers that are based on progressive and measurable gains in occupational health best practices, and that are applicable throughout the duration of an injured or ill worker's episode of care.

(g) The department shall develop electronic methods of tracking evidence-based quality measures to identify and improve outcomes for injured workers at risk of developing prolonged disability. In addition, these methods must be used to provide systematic feedback to physicians regarding quality of care, to conduct appropriate objective evaluation of progress in the centers for occupational health and education, and to allow efficient coordination of services.

(6) If a provider fails to meet the minimum network standards established in subsection (2) of this section, the department is authorized to remove the provider from the network or take other appropriate action regarding a provider's participation. The department may also require remedial steps as a condition for a provider to participate in the network. The department, with input from the advisory group, shall establish waiting periods that may be imposed before a provider who has been denied or removed from the network may reapply.

(7) The department may permanently remove a provider from the network or take other appropriate action when the provider exhibits a pattern of conduct of low quality care that exposes patients to risk of physical or psychiatric harm or death. Patterns that qualify as risk of harm include, but are not limited to, poor health care outcomes evidenced by increased, chronic, or prolonged pain or decreased function due to treatments that have not been shown to be curative, safe, or effective or for which it has been shown that the risks of harm exceed the benefits that can be reasonably expected based on peer-reviewed opinion.

(8) The department may not remove a health care provider from the network for an isolated instance of poor health and recovery outcomes due to treatment by the provider.

(9) When the department terminates a provider from the network, the department or self-insurer shall assist an injured worker currently under the provider's care in identifying a new network provider or providers from whom the worker can select an attending or treating provider. In such a case, the department or self-insurer shall notify the injured worker that he or she must choose a new attending or treating provider.

(10) The department may adopt rules related to this section.

(11) The department shall report to the workers' compensation advisory committee and to the appropriate committees of the legislature on each December 1st, beginning in 2012 and ending in 2016, on the implementation of the provider network and expansion of the centers for occupational health and education. The reports must include a summary of actions taken, progress toward long-term goals, outcomes of key initiatives, access to care issues, results of disputes or controversies related to new provisions, and whether any changes are needed to further improve the occupational health best practices care of injured workers.

The commissioner shall:

(1) Obtain and publish for the use of courts and appraisers throughout the state, tables showing the average expectancy of life and values of annuities and of life and term estates.

(2) Disseminate information concerning the insurance laws of this state.

(3) Except as provided in subsection (4) of this section, provide assistance to members of the public in obtaining information about insurance products and in resolving complaints involving insurers and other licensees.

(4) (a) Except as provided in (b) of this subsection, for a rate filing for an individual or small group health benefit plan with an effective date on or after January 1, 2012, subsection (3) of this section applies only to the numeric values of each rating factor used by a health carrier. The remainder of the rate filing shall be open to public inspection subject to subsection (5) of this section.

(b) Subsection (3) of this section shall continue to apply for a period of one year from the date a new individual or small group product filing is submitted or until the next rate filing for the product, whichever occurs earlier, if the commissioner determines that the proposed rate filing is for a new product that is distinct and unique from any of the carrier's currently or previously offered health benefit plans. A carrier must make a written request for a product classification as a new product under this subsection (4)(b) and must receive subsequent written approval by the commissioner for this subsection (4)(b) to apply.

(5) Unless the commissioner has determined that a filing is for a new product pursuant to subsection (4) of this section, for individual or small group health benefit rate filings with an effective date on or after January 1, 2012, the commissioner shall:

(a) Make the portions of each rate filing that are open to public inspection available for public inspection on the tenth calendar day after the commissioner determines that the rate filing is complete and accepts the filing for review through the electronic rate and form filing system;

(b) Prepare a rate disclosure summary form in a standard format that is written in plain language easily understood by the general public. The summary must allow carriers to explain the relationship between premium and health care cost drivers. The summary must set forth, at a minimum, the following: (i) The rate increase, year over year, for annual increases, including historic rate adjustments for at least the past three years; (ii) any percent increase to current rates attributed to mandated changes, not including changes due to demographics; (iii) the number of members impacted by the rate; (iv) the impact of benefit changes on the rate; (v) the products' filed health care trend; (vi) the projected medical loss ratio for the rating period; (vii) the top three drivers contributing to the change in premiums; and (viii) other information added to the summary form by rule that the commissioner, in consultation with carriers, finds reasonably necessary to help consumers understand the reasons for proposed and accepted rates. A carrier shall complete the disclosure summary form and submit it electronically to the commissioner along with each individual or small group health benefit plan rate filing; and

(c) Prepare a standardized rate summary form to explain his or her findings after the rate review process is completed. The commissioner's summary form must be included as part of the rate filing documentation available to the public electronically.

(6) The commissioner shall adopt rules to implement and administer this section. The rules must include, but are not limited to, a process for updating the summary form content in subsection (5)(b) of this section. (1) The department of ecology shall deliver to the governor and the legislature a formal report that outlines all available peer reviewed science showing a correlation between the implementation of the limitations on the use of dishwashing detergent that contains phosphorus contained in chapter 70.95L and improvements in waterbody phosphorus levels. (2) The report required under this section may be limited, at the discretion of the department of ecology, to Spokane and Whatcom counties. (3) The report required under this section must be delivered no later than January 1, 2013. If, by January 1, 2013, the department of ecology is unable to demonstrate through peer reviewed science that there is a correlation between the implementation of the limitations on the use of dishwashing detergent that contains phosphorus contained in chapter 70.95L and improvements in waterbody phosphorus levels, then that finding must reported to the governor and the legislature. (4) This section expires on July 31, 2013."

Correct the title, renumber the remaining sections consecutively, and correct any internal references accordingly.

On page 8, line 27, after "effect" strike "January 1, 2013" and insert "upon the delivery by the department of ecology of a report, as required in section 9 of this act, proving a correlation between the implementation of the limitations on the use of dishwashing detergent that contains phosphorus contained in chapter 70.95L and improvements in waterbody phosphorus levels. If the report delivered pursuant to section 9 of this act finds that peer reviewed science was unable to prove a correlation between the implementation of the limitations on the use of dishwashing detergent that contains phosphorus contained in chapter 70.95L and improvements in waterbody phosphorus levels, then sections 1 though 8 of this act are null and void."

New Section. Sec. 4. (1) The legislature finds that the "deepwater horizon" wellhead blowout, explosion, and oil spill in the Gulf of Mexico on April 20, 2010, resulted in the release of two hundred million gallons of crude oil into the environment. Impacts after the spill have included deaths and injuries, extensive damage to the marine environment and wildlife habitats, as well as large socioeconomic damages to local citizens, commercial fishing, tourism, businesses, and recreation. As late as six months after the spill, four thousand two hundred square miles of the Gulf of Mexico were closed to commercial shrimp harvest. The incident in the Gulf of Mexico is a reminder that the threat of major spills to Washington's environment, natural resources, economy, quality of life, and private property is significant.

(2) The legislature further finds that during the fall of 2010 the department of ecology compiled lessons learned from the Gulf of Mexico spill and the Puget Sound partnership convened an oil spill work group in an effort to ensure there is a rapid and aggressive response to a large scale spill in Washington and that oversight of spills is well coordinated among different levels of government and industry. The legislature intends to build upon these efforts, and other recent studies, to improve Washington's prevention and response capabilities. While current oil spill contingency plans are required to address worst case spills, it is also clear that the state may be underprepared for a large scale oil spill of the magnitude possible by failures of an oil tanker or a tank barge, particularly within the confined waters of Puget Sound. Lessons learned from the 2010 deepwater horizon incident demonstrate that improvements to Washington's existing oil spill prevention, preparedness, and response capabilities are both necessary and possible.

NEW SECTION. Sec. 6. A new section is added to chapter 88.46 RCW to read as follows:

(1)(a) The owner or operator of a tank vessel transiting to or from a Washington marine facility shall establish or fund a vessels of opportunity response system to supplement the timely and effective response to spills in the vessel's area of operation.
umbrella coverage under contract to single or multiple tank vessels. Any organization or corporation providing coverage to satisfy the requirements of this section must ensure that the vessels of opportunity response system being provided includes the establishment of a minimum of six distinct regional vessels of opportunity response groups that are located strategically to ensure a timely response in any of Washington’s marine waters or the Columbia river.

(b) Unless otherwise directed by the department, the response groups must at a minimum be stationed so as to be able to respond to incidents occurring in the following locations:

(i) The outer coast;
(ii) The Strait of Juan de Fuca;
(iii) Northern Puget Sound;
(iv) Central Puget Sound;
(v) Southern Puget Sound; and
(vi) The mouth of the Columbia river.

(c) The department may require a private organization or nonprofit corporation providing umbrella coverage to satisfy the requirements of this section to station regional vessels of opportunity response groups in areas that are in addition to the minimum required response areas of this subsection based on risk and need.

(6) Each regional vessel of opportunity response group must undergo a minimum of two drills a year to ensure that the overall vessels of opportunity response system is maintained at an appropriate level of readiness and that the actual number of participating vessels is sufficient to meet the planning goal of deploying a minimum of six capable vessels at any one time during a spill response incident. The department may award credit to the plan holder for practice drills accordingly. Each successful activation of the vessels of opportunity response system may be considered by the department to satisfy a drill covering this portion of the contingency plan.

(7) The decision to activate a vessels of opportunity response system during a spill response, and provide direction as to how and where the regional vessels of opportunity response groups should respond, is the sole responsibility of the designated incident commander or the unified command. The incident commander or unified command is the only entity empowered to direct which of the response equipment available to a regional vessels of opportunity response group is appropriate for the operating environment and for the capabilities of the specific individual responding vessels.

NEW SECTION. Sec. 7. A new section is added to chapter 88.46 RCW to read as follows:

(1) The department shall establish a volunteer coordination system. The volunteer coordination system may be included as a part of the state’s overall oil spill response strategy, and may be implemented by local emergency management organizations, in coordination with any analogous federal efforts, to supplement the state’s timely and effective response to spills.

(2) The department should consider how the volunteer coordination system will:

(a) Coordinate with the incident commander or unified command of an oil spill and any affected local governments to receive, screen, and register volunteers who are not affiliated with the emergency management organization or a local nongovernmental organization;
(b) Coordinate the management of volunteers with local nongovernmental organizations and their affiliated volunteers;
(c) Coordinate appropriate response operations with different classes of volunteers, including pretrained volunteers and convergent volunteers, to fulfill requests by the department or an oil spill incident commander or unified command;
(d) Coordinate public outreach regarding the need for and use of volunteers;
(e) Determine minimum participation criteria for volunteers; and
(f) Identify volunteer training requirements and, if applicable, provide training opportunities for volunteers prior to an oil spill response incident.

(2) An act or omission by any volunteer participating in a spill response or training as part of a volunteer coordination system, while engaged in such activities, does not impose any liability on the department, any participating local emergency management organization, or the volunteer for civil damages resulting from the act or omission. However, the immunity provided under this subsection does not apply to an act or omission that constitutes gross negligence or willful or wanton misconduct.

(3) The decisions to utilize volunteers in an oil spill response, which volunteers to utilize, and to determine which response activities are appropriate for volunteer participation in any given response are the sole responsibilities of the designated incident commander or unified command.

NEW SECTION. Sec. 8. A new section is added to chapter 88.46 RCW to read as follows:

(1) In addition to meeting the requirements specified in this chapter applicable to all covered vessels, contingency plans for tank vessels must provide for:

(a) Rapid access to equipment located within the state that reflects the best achievable protection for the expected operating environment in the vessel’s area of operation without requiring equipment with capabilities that exceed the response requirements for the expected operating environment; and

(b) Continuous operation of oil spill response activities without regard to the operating environment to the maximum extent practicable and without unreasonably jeopardizing crew safety.

(2) In reviewing tank vessel contingency plans to measure compliance with this section, the department must ensure that, at a minimum, plans:

(a) Provide access to dedicated equipment appropriate for the operating environment as needed to achieve oil recovery, to the maximum extent practicable and without unreasonably jeopardizing crew safety; including, at minimum, equipment that includes containment boom and oil recovery systems capable of operating in currents of at least four knots. Equipment intended to be used for response activities on the outer coast or the Strait of Juan de Fuca must also be capable of open water operations;

(b) Include a technical analysis of best achievable technology and best achievable protection for the expected operating environment in the vessel’s area of operation, and incorporate best achievable protection; and

(c) Provide adequate capacity for storage or proper disposal of the volume and type of oil considered by the contingency plan so as to achieve continuous operation of oil recovery to the maximum extent practicable.

(3) Contingency plans for tank vessels must provide for the ability of the tank vessel to have access, either directly or through an assured contract with a third party, to multispectrum scanning technologies that enhance the ability of responders to detect and respond to oil spills in times of low visibility and at night, including technology that is capable of aerial oil identification, location mapping, and downloading of the information in real time to response vessels and the command post. This technology is not required to be stationed in Washington, but must be capable of being operational at the site of an incident within four hours of plan activation.

NEW SECTION. Sec. 9. A new section is added to chapter 88.46 RCW to read as follows:

(1) The department is responsible for ordering joint large-scale, multiple plan equipment deployment drills of tank vessels to determine the adequacy of the owner's or operator's compliance with the contingency plan requirements of this chapter. The department must order at least one drill as outlined in this section every three years.

(2) The tank vessel equipment deployment drills must focus on, at a minimum, the following:

(a) The functional ability for multiple contingency plans to be simultaneously activated with the purpose of testing the ability for dedicated equipment and trained personnel cited in multiple contingency plans to be activated in a large scale spill; and

(b) The operational readiness during both the first six hours of a spill and, at the department's discretion, over multiple operational periods of response.

(3) Joint drills ordered under this section may be incorporated into other drill requirements under this chapter when deemed beneficial by the department for enabling larger scale drills within the overall drill management framework.

(4) Each successful large-scale, multiple plan equipment deployment drill conducted under this section may be considered by the department as a drill of the underlying contingency plan and credit may be awarded to the plan holder accordingly.

(5) The department shall, when practicable, coordinate with applicable federal agencies, the state of Oregon, and the province of British Columbia to establish a drill incident command and to help ensure that lessons learned from the drills are evaluated with the goal of improving the underlying contingency plans.

Sec. 10. RCW 88.46.060 and 2005 c 78 s 2 are each amended to read as follows:

(1) Each covered vessel shall have a contingency plan for the containment and cleanup of oil spills from the covered vessel into the waters of the state and for the protection of fisheries and wildlife, shellfish beds, natural resources, and public and private property from such spills. The department shall by rule adopt and periodically revise standards for the preparation of contingency plans. The department shall require contingency plans, at a minimum, to meet the following standards:

(a) Include full details of the method of response to spills of various sizes from any vessel which is covered by the plan;

(b) Be designed to be capable in terms of personnel, materials, and equipment, of promptly and properly, to the maximum extent practicable, as defined by the department, removing oil and minimizing any damage to the environment resulting from a worst case spill;

(c) Provide a clear, precise, and detailed description of how the plan relates to and is integrated into relevant contingency plans which have been prepared by cooperatives, ports, regional entities, the state, and the federal government;

(d) Provide procedures for early detection of spills and timely notification of such spills to appropriate federal, state, and local authorities under applicable state and federal law;

The departments of ecology, fish and wildlife, (and other) natural resources, and (the office of) archaeology and historic preservation, upon request, shall provide information that they have available to assist in preparing this description. The description of archaeologically sensitive areas shall not be required to be included in a contingency plan until it is reviewed and updated pursuant to subsection (9) of this section;

(h) State the means of protecting and mitigating effects on the environment, including fish, shellfish, marine mammals, and other
wildlife, and ensure that implementation of the plan does not pose unacceptable risks to the public or the environment;

(i) Establish guidelines for the use of equipment by the crew of a vessel to minimize vessel damage, stop or reduce any spilling from the vessel, and, only when appropriate and only when vessel safety is assured, contain and clean up the spilled oil;

(j) Provide arrangements for the prepositioning of spill containment and cleanup equipment and trained personnel at strategic locations from which they can be deployed to the spill site to promptly and properly remove the spilled oil;

(k) Provide arrangements for enlisting the use of qualified and trained cleanup personnel to implement the plan;

(l) Provide for disposal of recovered spilled oil in accordance with local, state, and federal laws;

(m) Until a spill prevention plan has been submitted pursuant to RCW 88.46.040, state the measures that have been taken to reduce the likelihood that a spill will occur, including but not limited to, design and operation of a vessel, training of personnel, number of personnel, and backup systems designed to prevent a spill;

(n) State the amount and type of equipment available to respond to a spill, where the equipment is located, and the extent to which other contingency plans rely on the same equipment; 

(o) If the department has adopted rules permitting the use of dispersants, the circumstances, if any, and the manner for the application of the dispersants in conformance with the department's rules;

(p) Compliance with section 8 of this act if the contingency plan is submitted by an umbrella plan holder; and

(q) Include any additional elements of contingency plans as required by this chapter.

(2)((a)) The owner or operator of a ((tank)) covered vessel ((of less than three thousand gross tons or more shall)) must submit ((a)) any required contingency plan updates to the department within ((six months after)) the timelines established by the department ((adopts rules establishing standards for contingency plans under subsection (1) of this section). 

(b) Contingency plans for all other covered vessels shall be submitted to the department within eighteen months after the department has adopted rules under subsection (1) of this section. The department may adopt a schedule for submission of plans within the eighteen-month period).

(3)(a) The owner or operator of a tank vessel or of the facilities at which the vessel will be unloading its cargo, or a Washington state nonprofit corporation established for the purpose of oil spill response and contingency plan coverage and of which the owner or operator is a member, shall submit the contingency plan for the tank vessel. Subject to conditions imposed by the department, the owner or operator of a facility may submit a single contingency plan for tank vessels of a particular class that will be unloading cargo at the facility.

(b) The contingency plan for a cargo vessel or passenger vessel may be submitted by the owner or operator of the cargo vessel or passenger vessel, by the agent for the vessel resident in this state, or by a Washington state nonprofit corporation established for the purpose of oil spill response and contingency plan coverage and of which the owner or operator is a member. Subject to conditions imposed by the department, the owner, operator, or agent may submit a single contingency plan for cargo vessels or passenger vessels of a particular class.

(c) A person who has contracted with a covered vessel to provide containment and cleanup services and who meets the standards established pursuant to RCW 90.56.240, may submit the plan for any covered vessel for which the person is contractually obligated to provide services. Subject to conditions imposed by the department, the person may submit a single plan for more than one covered vessel.

(4) A contingency plan prepared for an agency of the federal government or another state that satisfies the requirements of this section and rules adopted by the department may be accepted by the department as a contingency plan under this section. The department shall ensure that to the greatest extent possible, requirements for contingency plans under this section are consistent with the requirements for contingency plans under federal law.

(5) In reviewing the contingency plans required by this section, the department shall consider at least the following factors:

(a) The adequacy of containment and cleanup equipment, personnel, communications equipment, notification procedures and call down lists, response time, and logistical arrangements for coordination and implementation of response efforts to remove oil spills promptly and properly and to protect the environment;

(b) The nature and amount of vessel traffic within the area covered by the plan;

(c) The volume and type of oil being transported within the area covered by the plan;

(d) The existence of navigational hazards within the area covered by the plan;

(e) The history and circumstances surrounding prior spills of oil within the area covered by the plan;

(f) The sensitivity of fisheries and wildlife, shellfish beds, and other natural resources within the area covered by the plan;

(g) Relevant information on previous spills contained in on-scene coordinator reports prepared by the director; and

(h) The extent to which reasonable, cost-effective measures to prevent a likelihood that a spill will occur have been incorporated into the plan.

(6)(a) The department shall approve a contingency plan only if it determines that the plan meets the requirements of this section and that, if implemented, the plan is capable, in terms of personnel, materials, and equipment, of removing oil promptly and properly and minimizing any damage to the environment.

(b) The department must notify the plan holder in writing within sixty-five days of an initial or amended plan's submittal to the department as to whether the plan is disapproved, approved, or conditionally approved. If a plan is conditionally approved, the department must clearly describe each condition and specify a schedule for plan holders to submit required updates.

(7) The approval of the contingency plan shall be valid for five years. Upon approval of a contingency plan, the department shall provide to the person submitting the plan a statement indicating that the plan has been approved, the vessels covered by the plan, and other information the department determines should be included.

(8) An owner or operator of a covered vessel shall notify the department in writing immediately of any significant change of which it is aware affecting its contingency plan, including changes in any factor set forth in this section or in rules adopted by the department. The department may require the owner or operator to update a contingency plan as a result of these changes.

(9) The department by rule shall require contingency plans to be reviewed, updated, if necessary, and resubmitted to the department at least once every five years.

(10) Approval of a contingency plan by the department does not constitute an express assurance regarding the adequacy of the plan nor constitute a defense to liability imposed under this chapter or other state law.

NEW SECTION. Sec. 11. A new section is added to chapter 88.46 RCW to read as follows:

(1) When submitting a contingency plan to the department under RCW 88.46.060, any umbrella plan holders that enroll both tank vessels and covered vessels that are not tank vessels must, in addition to satisfying the other requirements of this chapter, specify:

COLLOQUIY

Representative Rodne: Will the member from the 43rd district yield to a question?

Representative Pedersen: I will.

Rep Rodne: This legislation adopts the 2010 changes to the text of Article 9 adopted by the National Conference of Commissioners on Uniform State Laws. Is it the intent that the 2010 revisions to the Official Comments to Article 9 be incorporated as part of the legislative history for this act?

Representative Pedersen: Yes, that is the intent. The 2010 revisions to the Official Comments include changes not only to the sections being amended by this bill, but also to the Official Comments for sections of the Article where the underlying text was not amended. It is the intent that all revisions to the Official Comments be incorporated by reference as legislative intent regarding the explanation and interpretation of Washington's Article 9.

It is important to have uniformity across the 50 states in this area of the law. In order to maintain uniformity, Article 9 must be interpreted and applied consistently by the states. The Official Comments to Article 9 explain the purposes and intent of the provisions of the Article and are a helpful aid in interpreting and applying the act so that uniformity may be maintained.

"If an act of the legislature sets income eligibility for children who are not eligible for coverage under the federally funded children's health insurance program or medicaid at a level below three hundred percent of the federal poverty level, the department shall continue to provide coverage to children with family incomes between the new income standard and three hundred percent of the federal poverty level if the families pay premiums in an amount equal to the per capita cost of coverage under the state-funded children's health program."

POINT OF ORDER

Representative Van De Wege requested a scope and object ruling on amendment (203) to House Bill No. 2003.
**SPEAKER'S RULING**

Madame Speaker (Representative Orwall presiding): The title of House Bill 2003 is narrow, “an act relating to premium payments for children’s health coverage for children in families with income greater than two hundred percent of the federal poverty level who are not eligible for the federal children’s health insurance program.” Amendment 203 concerns premium payments for children whose family income is below three hundred percent of the federal poverty level. Because the amendment applies to income below two hundred percent of the federal poverty level and the title limits the bill to income greater than two hundred percent, the amendment is beyond the scope and object of the bill. The point of order is well taken.

There being no objection, the rules were suspended, the second reading considered the third and the bill was placed on final passage.

(1) Subject to the limitations of this section, any alien offender committed to the custody of the department under the sentencing reform act of 1981, chapter 9.94A RCW, who has been found by the United States attorney general to be subject to a final order of deportation or exclusion, may be placed on conditional release status and released to the immigration and customs enforcement agency for deportation at any time prior to the expiration of the offender's term of confinement. The legal determination and deportation is an activity of the federal government exclusively. Neither the department nor its staff shall be delegated nor shall the department or its staff assume a decision-making role in this process. Conditional release shall continue until the expiration of the statutory maximum sentence provided by law for the crime or crimes of which the offender was convicted. If the offender has multiple current convictions, the statutory maximum sentence allowed by law for each crime shall run concurrently.

(2) Offenders placed on conditional release status from Washington state correctional facilities are in a program specific to Washington. Placement on conditional release status does not constitute participation in the immigration and customs enforcement agency's rapid removal of eligible parolees accepted for transfer program.

(3) No offender may be released under this section unless:

(a) The secretary or the secretary's designee finds that such release is in the best interests of the state of Washington. Further, release under this section may occur only with the approval of the sentencing court and the prosecuting attorney of the county of conviction, as has confirmed that the detention facilities in Washington state operated by the immigration and customs enforcement agency, or operated under contract with the immigration and customs enforcement agency, have written guidelines in place that comport with the international and domestic human rights laws regarding the detention of offenders, due process, and personnel training and that these facilities meet Washington state and federal constitutional standards for correctional facilities;

(b) The immigration and customs enforcement agency will permit the secretary of the department or his or her designee to periodically review the conditions and procedures at its facilities, including due process, personnel training, and the treatment of detained offenders, as they affect offenders placed on conditional release status;

(c) The secretary or the secretary's designee has reached an agreement with the immigration and customs enforcement agency that the alien offender placed on conditional release status will be detained in total confinement at a facility operated by the immigration and customs enforcement agency pending the offender's return to the country of origin or other location designated in the final deportation or exclusion order;

(d) The alien offender, prior to stipulating to an order of removal prior to the issuance of a final deportation order by the United States attorney general, has been provided access to information regarding his or her due process rights and has had an opportunity to consult with an attorney or legal representative; and

(e) The secretary or the secretary's designee finds that such release is in the best interests of the state of Washington.

(4) If the secretary determines that state or federal constitutional standards are not being met at the detention facilities described in this section, the secretary shall immediately report the same to the governor and the legislature and shall immediately refrain from releasing offenders pursuant to this section.

(5) The secretary, in consultation with a representative from an immigration legal advocacy organization, shall report bimannually to the governor and the legislature regarding the substance of the secretary's review described in subsection (3)(b) of this section and any conclusions and recommendations made pursuant to this review. Such report shall make recommendations for modifications of policies or procedures, if appropriate. The first report shall be due on December 10, 2011.

(6) No offender may be released under this section who is serving a sentence for a violent offense or sex offense, as defined in RCW 9.94A.030, or any other offense that is a crime against a person.

(7) The unserved portion of the term of confinement of any offender released under this section shall be tolled at the time the offender is released to the immigration and customs enforcement agency for deportation. Upon the release of an offender to the immigration and customs enforcement agency, the department shall issue a warrant for the offender's arrest within the United States. This warrant shall remain in effect until the expiration of the offender's conditional release.

(8) Upon arrest of an offender, the department shall, upon making a finding that it is in the best interest of the state, seek extradition as necessary and the offender (shall) may be returned to the department for completion of the unserved portion of the offender's term of total confinement. If returned, the offender shall also be required to fully comply with all the terms and conditions of the sentence.

(9) Alien offenders released to the immigration and customs enforcement agency for deportation under this section are not thereby relieved of their obligation to pay restitution or other legal financial obligations ordered by the sentencing court.

(10) Any offender released pursuant to this section who returns illegally to the United States may not thereafter be released again pursuant to this section.

(11) The secretary is authorized to take all reasonable actions to implement this section and shall assist federal authorities in prosecuting alien offenders who may illegally reenter the United States and enter the state of Washington."

RESOLUTION

WHEREAS, Abraham Lincoln was inaugurated as President of the United States on March 4, 1861; and
WHEREAS, Lincoln was a champion of the American experiment in self-government, a student of the Declaration of Independence and the Constitution, who said in his First Inaugural Address, "This country, with its institutions, belongs to the people who inhabit it"; and
WHEREAS, Lincoln was a child of the frontier, a self-taught lawyer, and an Illinois legislator whose example of honesty, work, and discipline epitomize the American character; and
WHEREAS, Lincoln found that the practice of slavery violated the equal rights of human beings, and sought through reasoned debate to persuade his fellow citizens of its injustice; and
WHEREAS, In his First Inaugural Address, Lincoln called Americans back to their tradition of deliberation and discourse, instead of to war, saying, "My countrymen, one and all, think calmly and well upon this whole subject. Nothing valuable can be lost by taking time"; and
WHEREAS, Lincoln subsequently led the nation through Civil War, giving himself to the cause of national Union, and displaying throughout those terrible days the virtues of wisdom, courage, justice, and moderation; and
WHEREAS, Lincoln proclaimed emancipation for slaves in the American South and maintained throughout his public service a steady defense of human equality; and
WHEREAS, Lincoln looked forward from his Inauguration to a time when "the mystic chords of memory, stretching from every battlefield and patriot grave to every living heart and hearthstone all over this broad land, will yet swell the chorus of the Union, when again touched, as surely they will be, by the better angels of our nature";
NOW, THEREFORE, BE IT RESOLVED, That the Washington State House of Representatives take inspiration from the life and legacy of Abraham Lincoln, and that we seek in our own ways to be champions of liberty and equality.

Strike everything after the enacting clause and insert the following:

"Sec. 637. RCW 48.02.120 and 1985 c 264 s 2 are each amended to read as follows:

(1) The commissioner shall preserve in permanent form records of his or her proceedings, hearings, investigations, and examinations, and shall file such records in his or her office.

(2) The records of the commissioner and insurance filings in his or her office shall be open to public inspection, except as otherwise provided by this code.

(3) Except as provided in subsection (4) of this section, actuarial formulas, statistics, and assumptions submitted in support of a rate or form filing by an insurer, health care service contractor, or health maintenance organization or submitted to the commissioner upon his or her request shall be withheld from public inspection in order to preserve trade secrets or prevent unfair competition.

(4)(a) Except as provided in (b) of this subsection, for a rate filing for an individual or small group health benefit plan with an effective date on or after January 1, 2012, subsection (3) of this section applies only to the numeric values of each rating factor used by a health carrier. The remainder of the rate filing shall be open to public inspection subject to subsection (5) of this section.

(b) Subsection (3) of this section shall continue to apply for a period of one year from the date a new individual or small group product filing is submitted or until the next rate filing for the product, whichever occurs earlier, if the commissioner determines that the proposed rate filing is for a new product that is distinct and unique from any of the carrier's currently or previously offered health benefit plans. A carrier must make a written request for a product classification as a new product under this subsection (4)(b) and must receive subsequent written approval by the commissioner for this subsection (4)(b) to apply.

(5) Unless the commissioner has determined that a filing is for a new product pursuant to subsection (4) of this section, for individual or small group health benefit rate filings with an effective date on or after January 1, 2012, the commissioner shall:

(a) Make the portions of each rate filing that are open to public inspection available for public inspection on the tenth calendar day after the commissioner determines that the rate filing is complete and accepts the filing for review through the electronic rate and form filing system;

(b) Prepare a rate disclosure summary form in a standard format that is written in plain language easily understood by the general public. The summary must allow carriers to explain the relationship between premium and health care cost drivers. The summary must set forth, at a minimum, the following: (i) The rate increase, year over year, for annual increases, including historic rate adjustments for at least the past three years; (ii) any percent increase to current rates attributed to mandated changes, not including changes due to demographics; (iii) the number of members impacted by the rate; (iv) the impact of benefit changes on the rate; (v) the products' filed health care trend; (vi) the projected medical loss ratio for the rating period; (vii) the top three drivers contributing to the change in premiums; and (viii) other information added to the summary form by rule that the commissioner, in consultation with carriers, finds reasonably necessary to help consumers understand the reasons for proposed and accepted rates. A carrier shall complete the disclosure summary form and submit it electronically to the commissioner along with each individual or small group health benefit plan rate filing; and

(c) Prepare a standardized rate summary form to explain his or her findings after the rate review process is completed. The commissioner's summary form must be included as part of the rate filing documentation available to the public electronically.

(6) The commissioner shall adopt rules to implement and administer this section. The rules must include, but are not limited to, a process for updating the summary form content in subsection (5)(b) of this section. In adopting rules under this section, the commissioner shall consult with carriers, as defined in RCW 48.43.005, and consumers in the development of the summary forms."

"NEW SECTION. Sec. 644. The legislature finds that the affordable care act requires the states to establish health benefit exchanges. The legislature intends to establish an exchange, including a governance structure that will be in place no later than July 1, 2012. There are many policy decisions associated with establishing an exchange that need to be made that will take a great deal of effort and expertise. It is therefore the intent of the legislature to establish a process through which these policy decisions can be made by the legislature and the governor by the deadline established in the affordable care act.

NEW SECTION. Sec. 645. A new section is added to chapter 41.05 RCW to read as follows:

The state shall establish, by statute, a health benefit exchange consistent with the federal affordable care act, P.L. 111-148, to begin operations no later than January 1, 2014, and intended to:

(1) Increase access to quality affordable health care coverage, reduce the number of uninsured persons in Washington state, and increase the availability of health care coverage through the private health insurance market to qualified individuals and small employers;

(2) Provide consumer choice and portability of health insurance, regardless of employment status;

(3) Create an organized, transparent, and accountable health insurance marketplace for Washingtonians to purchase affordable, quality health care coverage, to claim available federal refundable premium tax credits and cost-sharing subsidies, and to meet the personal responsibility requirements for minimum essential coverage as provided under the federal affordable care act;

(4) Promote consumer literacy and empower consumers to compare plans and make informed decisions about their health care and coverage;

(5) Effectively and efficiently administer health care subsidies and determination of eligibility for participation in publicly subsidized health care programs, including the exchange;

(6) Create a health insurance market that competes on the basis of price, quality, service, and other innovative efforts;

(7) Operate in a manner compatible with efforts to improve quality, contain costs, and promote innovation;

(8) Recognize the need for a private health insurance market to exist outside of the exchange and the need for a regulatory framework that applies both inside and outside of the exchange; and

(9) Recognize that the regulation of the health insurance market, both inside and outside the exchange, should continue to be performed by the insurance commissioner.

NEW SECTION. Sec. 646. A new section is added to chapter 41.05 RCW to read as follows:

(1) The health benefit exchange board shall be established as a nonprofit, public-private partnership, composed of nine persons with expertise in the Washington state health care system and private and public health care coverage. (d) Health care consumer advocates;

(e) The administrator of the health care authority under chapter 41.05 RCW;

(f) The insurance commissioner or designee as a nonvoting ex officio member; and

(g) Two appointments from a list of recommendations submitted by the legislature. Each chamber of the legislature shall forward two recommendations representing mutually agreed on names from each caucus. Each person appointed to the board under this subsection (1) must have demonstrated and acknowledged expertise in at least one of the following areas:

(i) Individual health care coverage;

(ii) Small employer health care coverage;

(iii) Health benefits plan administration;

(iv) Health care finance and economics;

(v) Actuarial science;

(vi) Administering a public or private health care delivery system; or

(vii) Purchasing health plan coverage.

(2) The board shall elect a chair from among its members.

(3) No board member may be employed by, a consultant to, a member of the board of directors of, or otherwise a representative of or a lobbyist for an entity in the business of, or potentially in the business of, selling items or services of significant value to the health benefit exchange.

(4) Initial members of the board shall serve staggered terms not to exceed four years. Initial appointments must be made on or before July 1, 2012. Members appointed thereafter serve two-year terms.

(5) Members of the board must be reimbursed for their travel expenses while on official business in accordance with RCW 43.03.050 and 43.03.060. The board shall prescribe rules for the conduct of its business. Meetings of the board are at the call of the chair.

(6) The board shall conduct its business consistent with the provisions of chapter 42.30 RCW, the open public meetings act. Consistent with the open public meetings act, the board may hold
executive sessions to consider proprietary or confidential nonpublished information.

(7)(a) The board shall establish an advisory committee to allow for the views of the health care industry and other stakeholders to be heard in the operation of the health benefit exchange. The advisory committee shall provide expertise and recommendations to the board, but shall have no authority to promulgate rules or enter into contracts on behalf of the health benefit exchange.

(b) The board may establish technical advisory committees or seek the advice of technical experts when necessary to execute the powers and duties included in this act.

(8) Members of the board are not civilly or criminally liable and may not have any penalty or cause of action of any nature arise against them for any action taken or not taken, including any discretionary decision or failure to make a discretionary decision, when the action or inaction is done in good faith and in the performance of the powers and duties under this act. Nothing in this section prohibits legal actions against the board to enforce the board's statutory or contractual duties or obligations.

(9) In recognition of the government to government relationship between the state of Washington and the federally recognized tribes in the state of Washington, the board shall consult with the American Indian Health Commission on an ongoing basis.

The options must include analysis and recommendations on the following:

(vii) Development of sustainable funding for administration of the exchange as of January 1, 2015; and

(c) Individual and small group market impacts, including whether to:

(i) Merge the risk pools for rating the individual and small group markets in the exchange and the private health insurance markets; and

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 8. The legislature finds that the state loses over one hundred million dollars a year in taxes due to underground economy construction activity, causing great inequity to law-abiding businesses and taxpayers. The legislature further finds that an employer in construction is required to pay industrial insurance and unemployment taxes for a worker unless a seven-part independent contractor test is met, which test includes that the worker is free from direction and control and has his or her own books and records. The legislature finds that some contractors avoid taxes by engaging multiple contractors to work on the same task and treating the contractors as exempt independent contractors rather than hiring and paying taxes on these persons as covered workers. The legislature finds, however, that if multiple contractors are working on the same task on a job site, the contractors must be working under direction and control such that they are not exempt independent contractors but are, in fact, covered workers.

The legislature finds that the seven-part test is and should continue to be applied in investigations of underground economy activity in the construction industry. However, the legislature also finds that prohibiting up front certain contracting which by its nature creates a situation in which taxes due are not paid will provide clarity to contractors and provide an additional cost-effective means to reduce the underground economy. By enacting section 2 of this act, the legislature intends to define the prohibited contracting narrowly to assure no legitimate contracting is prohibited. The legislature intends that nothing in section 2 of this act prohibits a contractor from engaging more than two independent contractors who have no covered workers to work on the same task so long as those contractors are treated as covered workers.

NEW SECTION. Sec. 9. A new section is added to chapter 18.27 RCW to read as follows:

(1) It is a violation under this chapter and an infraction for any contractor to engage more than two independent contractors to work on or in a single building who:

(a) Are working on the same task involving a similar material;
(b) Bring no workers to work on or in the building subject to the mandatory coverage of Title 51 RCW; and
(c) Are not being treated by the contractor as covered workers under Title 51 RCW.

(2) (a) A contractor found to have committed an infraction under this section shall be assessed a fine of:

(i) Five hundred dollars for a first offense. However, the director shall waive the fine if the contractor registers for a department-approved training class within ten days of receiving a notice of infraction, completes the class within one hundred twenty days of receiving the notice of infraction, and pays the class fees upon class registration;
(ii) Two thousand five hundred dollars for a second offense; and
(iii) Five thousand dollars for a third or subsequent offense.
(b) For a third or subsequent offense under this section, the director shall also suspend the contractor's certificate of registration for one year.
(c) In addition to any other penalty, the director shall suspend the registration of the contractor until payment of penalties assessed under this section that have become final are paid in full.

(3) For purposes of this section, "task" means a single risk classification as defined in rule under Title 51 RCW.

(4) Classes offered under subsection (2) of this section may be conducted or approved by the department. Registrants must pay a fee to cover the cost of administering the class.

(5) This section does not apply to work performed on residential wood frame construction up to four stories in height.

Sec. 3. 2009 c 432 s 13 (uncodified) is amended to read as follows:

The department of labor and industries, the employment security department, and the department of revenue shall coordinate and report...
to the appropriate committees of the legislature by December 1st of each year on the effectiveness of efforts implemented since July 1, 2008, to address the underground economy. Beginning on December 1, 2012, the report shall include the effectiveness of section 2 of this act. The agencies shall use benchmarks and measures established by the institute for public policy and other measures it determines appropriate.

Sec. 4. Section 3 of this act is codified as a new section in chapter 18.27 RCW.”

(3) One-number locator services shall be operated by nongovernmental agencies.

(4) All facility operators within a one-number locator service area must subscribe to the service.

(5) Failure to subscribe to the one-number locator service constitutes willful intent to avoid compliance with this chapter.

Sec. 13. RCW 19.122.030 and 2000 c 191 s 17 are each amended to read as follows:

(1) Before commencing any excavation, excluding agriculture tilling less than twelve inches in depth, the excavator shall provide notice of the scheduled commencement of excavation to all owners of underground facilities through a one-number locator service.

(a) The notice must be provided to the one-number locator service not less than two business days or more than ten business days before the scheduled date for commencement of excavation, unless otherwise agreed to by the parties.

(b) Prior to providing notice, the boundary of the area where the excavation will be performed must be indicated by the application of white paint on the ground at the excavation site, unless doing so is uneasible, in which case the excavator must communicate directly with the affected facility operator or operators to ensure the area of excavation has been accurately identified.

(c) If an excavator intends to perform work at multiple sites or the project is a large project, the excavator must take reasonable steps to work with facility operators so that facility operators can locate their facilities at a time reasonably in advance of the actual start of excavation for each phase of the work.

(2) (All owners of underground facilities within a one-number locator service area shall subscribe to the service. One-number locator service rates for cable television companies will be based on the amount of their underground facilities. If no one-number locator
service is available, notice shall be provided individually to those
owners of underground facilities known to or suspected of having
underground facilities within the area of proposed excavation. The
notice shall be communicated to the owners of underground facilities
not less than two business days or more than ten business days before
the scheduled date for commencement of excavation, unless
otherwise agreed by the parties.

(3) Upon receipt of the notice provided for in this section, the
owner of the underground facility shall provide the excavator with reasonaby accurate information as to its locatable underground
facilities by surface-marking the location of the facilities. If there are
identified but unlocatable underground facilities, the owner of such
facilities shall provide the excavator with the best available
information as to their locations. The owner of the underground
facility providing the information shall respond no later than two
business days after the receipt of the notice or before the excavation
time, at the option of the owner, unless otherwise agreed by the
parties. Excavators shall not excavate until all known facilities have
been marked. Once marked by the owner of the underground facility,
the excavator is responsible for maintaining the markings. Excavators
shall have the right to receive compensation from the owner of the
underground facility for costs incurred if the owner of the
underground facility does not locate its facilities in accordance with
this section.

(4) The owner of the underground facility shall have the right to
receive compensation for costs incurred in responding to excavation
notices given less than two business days prior to the excavation from
the excavator.

(5) An owner of underground facilities is not required to indicate
the presence of existing service laterals or appurtenances if the
presence of existing service laterals or appurtenances on the site of the
construction project can be determined from the presence of other
visible facilities, such as buildings, manholes, or meter and junction
boxes on or adjacent to the construction site.

(6) Emergency excavations are exempt from the time
requirements for notification provided in this section.

(7) If the excavator, while performing the contract, discovers
underground facilities which are not identified, the excavator shall
cease excavating in the vicinity of the facility and immediately notify
the owner or operator of such facilities, or the one-number locator
service.) Upon receipt of the notice provided for in this section, the
facility operator shall provide the excavator with reasonably accurate
information as to its locatable underground facilities by marking the
location of the facilities. If there are identified but unlocatable
underground facilities, the facility operator responsible for the
facilities must provide the excavator with the best available
information as to the location of the underground facilities. The
facility operator providing the information must respond no later than
two business days after the receipt of the notice or before the
excavation time, at the option of the facility operator, unless otherwise
agreed by the parties. Excavators shall not excavate until all known
facilities have been marked. Once marked by the facility operator, the
excavator is responsible for maintaining the accuracy of the original
markings for the lesser of forty-five calendar days from the date
notice was provided to the one-number locator service or the life of
the project. Markings expire forty-five calendar days from the date
notice was provided to the one-number locator service. For
excavation occurring more than forty-five calendar days from the date
notice was provided to the one-number locator service, a second
notice must be provided in accordance with the provisions of
subsection (1) of this section. Excavators that make repeated calls for
relocates because of their failure to maintain the marks may be
charged for services provided. Excavators are entitled to recover
compensation from the facility operator for costs incurred if the
facility operator does not locate its facilities in accordance with this
section.

(3) The facility operator is entitled to recover compensation from
the excavator for costs incurred in responding to excavation notices
given less than two business days prior to the excavation.

(4) To assist in designating service, water, or sewer laterals, the
facility operator or sewer system owner or operator shall designate a
proposed excavation location by:

(a) Marking the location of service, water, or sewer laterals in
accordance with the procedures in subsection (2) of this section; or

(b) If a service, water, or sewer lateral is unlocatable, marking
within the proposed excavation area that there is an unlocatable
service, water, or sewer lateral.

(5) Facility operators, water, and sewer system owners or
operators must indicate the presence of service or sewer laterals only
to the extent that they exist within a right-of-way or easement. This
assistance does not constitute ownership or operation of service
lateral or sewer laterals by the facility operator or sewer system
owner or operator. Service or sewer laterals existing on private
property are the responsibility of the property owner. Nothing in this
section may be interpreted to require property owners to subscribe to
a one-number locator service or to locate service laterals within a
right-of-way or easement. Good faith compliance with the provisions
of this subsection in response to a locale request constitutes full
compliance with this chapter, and no person may be found liable to
any party for damages or injuries as a result of performing in
compliance with the requirements of this subsection.

(6) Emergency excavations are exempt from the time
requirements for notification provided in this section. For emergency
bar hugging twelve or more inches in depth, reasonable measures must
be taken to eliminate electrical arc hazards.

(7) If the excavator discovers underground facilities that are not
identified in plans or contract documents, the excavator shall cease
excavating in the vicinity of the facility and immediately notify the
facility operator or the one-number locator service. If the excavator
uncoveres identified but unlocatable underground facilities, the
excavator shall notify the facility operator and the facility operator
must take action under subsection (8) of this section.

(8) Upon notification by an excavator or the one-number locator
service in accordance with subsection (7) of this section, a facility
operator must take action to allow for the accurate future location of
the uncovered portion of the underground facility identified by the
excavator. A facility operator may accept facility location
information from the excavator for the future marking of an
underground facility.

Sec. 14. RCW 19.122.033 and 2000 c 191 s 18 are each amended
to read as follows:

(1) Before commencing any excavation, excluding agricultural
tilling less than twelve inches in depth, an excavator shall notify
pipeline companies of the scheduled commencement of excavation
through a one-number locator service in the same manner as is
required for notifying owners of underground facilities of excavation
work under RCW 19.122.030. Pipeline companies shall have the
same rights and responsibilities as owners of underground facilities
under RCW 19.122.030 regarding excavation work. Excavators have
the same rights and responsibilities under this section as they have
under RCW 19.122.030.

(2) Project owners, excavators, and pipeline companies have the
same rights and responsibilities relating to excavation near pipelines
that they have for excavation near underground facilities as provided
in RCW 19.122.040.

(3) The state or any of its political subdivisions undertaking or
permitting construction or excavation activity under chapter 19.27
RCW within one hundred feet, or greater distance if defined by local
ordinance, of a right-of-way or easement that contains a transmission
pipeline must:

(a) Notify the transmission pipeline company of the proposed
construction activity before such a permit is approved; or
(b) Require consultation between the person proposing the construction activity and the transmission pipeline company as a condition of receiving the permit.

Sec. 15. RCW 19.122.035 and 2000 c 191 s 19 are each amended to read as follows:

(1) After a pipeline company has been notified by an excavator pursuant to RCW 19.122.033 that excavation work will uncover any portion of the pipeline, the pipeline company shall ensure that the pipeline section in the vicinity of the excavation is examined for damage prior to being reburied.

(2) Immediately upon receiving information of third-party damage to a hazardous liquid pipeline, the company that operates the pipeline shall terminate the flow of hazardous liquid in that pipeline until it has visually inspected the pipeline. After visual inspection, the pipeline company shall determine whether the damaged pipeline section should be replaced or repaired, or whether it is safe to resume pipeline operation. Immediately upon receiving information of third-party damage to a gas pipeline, the pipeline company shall conduct a visual inspection of the pipeline to determine whether the flow of gas through that pipeline should be terminated, and whether the damaged pipeline section should be replaced or repaired. A record of the pipeline company's inspection report and test results shall be provided to the utilities and transportation commission consistent with reporting requirements under 49 C.F.R. 195 Subpart B.

(3) If an underground facility is damaged and such damage is the consequence of the failure to fulfill an obligation under this chapter, the party failing to perform that obligation shall be liable for any damages. Any clause in an excavation contract which attempts to allocate liability, or requires indemnification to shift the economic consequences of liability, different from the provisions of this chapter is against public policy and unenforceable. Nothing in this chapter prevents the parties to an excavation contract from contracting with respect to the allocation of risk for changed or differing site conditions.

No damaged underground facility may be buried until it is repaired or relocated.

(2) A facility operator notified in accordance with subsection (1) of this section shall arrange for repairs or relocation as soon as practical or may permit the excavator to do necessary repairs or relocation at a mutually acceptable price.

Sec. 18. RCW 19.122.070 and 2005 c 448 s 4 are each amended to read as follows:

All penalties recovered in such actions shall be deposited in the general fund.

(2) Any excavator who willfully or maliciously damages a field-marked underground facility shall be liable for treble the costs incurred in repairing or relocating the facility. In those cases in which an excavator fails to notify known underground facility operators or the one-number locator service, any damage to the underground facility shall be deemed willful and malicious and shall be subject to treble damages for costs incurred in repairing or relocating the facility.

(3) This chapter does not affect any civil remedies for personal injury or for property damage, including that to underground facilities, nor does this chapter create any new civil remedies for such damage.

Expenditures from the account may be used only for the purposes designated in section 11 of this act. The account is subject to allotment under chapter 43.88 RCW, but an appropriation is not required for expenditures.

NEW SECTION. Sec. 20. A new section is added to chapter 19.122 RCW to read as follows:

Any person who willfully damages or removes a permanent marking used to identify an underground facility or pipeline, or a temporary marking prior to its intended use, is subject to a civil penalty of not more than one thousand dollars for each initial violation, and not more than five thousand dollars for each subsequent violation within a three-year period.

Sec. 22. RCW 19.122.080 and 1984 c 144 s 8 are each amended to read as follows:

The notification and marking provisions of this chapter may be waived for one or more designated persons by an underground facility operator with respect to all or part of that facility's own underground facilities.

Sec. 23. RCW 19.122.100 and 2005 c 448 s 6 are each amended to read as follows:

"Sec. 2. RCW 36.70A.130 and 2010 c 216 s 1 and 2010 c 211 s 2 are each reenacted and amended to read as follows:

(1)(a) Each comprehensive land use plan and development regulations shall be subject to continuing review and evaluation by
the county or city that adopted them. Except as otherwise provided, a county or city shall take action to review and, if needed, revise its comprehensive land use plan and development regulations to ensure the plan and regulations comply with the requirements of this chapter according to the deadlines in subsections (4) and (5) of this section.

(b) Except as otherwise provided, a county or city not planning under RCW 36.70A.040 shall take action to review and, if needed, revise its policies and development regulations regarding critical areas and natural resource lands adopted according to this chapter to ensure these policies and regulations comply with the requirements of this chapter according to the deadlines in subsections (4) and (5) of this section. Legislative action means the adoption of a resolution or ordinance following notice and a public hearing indicating at a minimum, a finding that a review and evaluation has occurred and identifying the revisions made, or that a revision was not needed and the reasons therefor.

(c) The review and evaluation required by this subsection may be combined with the review required by subsection (2) of this section. The review and evaluation required by this subsection shall include, but is not limited to, consideration of critical area ordinances and, if planning under RCW 36.70A.040, an analysis of the population allocated to a city or county from the most recent ten-year population forecast by the office of financial management.

(d) Any amendment of or revision to a comprehensive land use plan shall conform to this chapter. Any amendment of or revision to development regulations shall be consistent with and implement the comprehensive plan.

(2)(a) Each county and city shall establish and broadly disseminate to the public a public participation program consistent with RCW 36.70A.035 and 36.70A.140 that identifies procedures and schedules whereby updates, proposed amendments, or revisions of the comprehensive plan are considered by the governing body of the county or city no more frequently than once every year. “Updates” means to review and revise, if needed, according to subsection (1) of this section, and the deadlines in subsections (4) and (5) of this section or in accordance with the provisions of subsection (6) of this section. Amendments may be considered more frequently than once per year under the following circumstances:

(i) The initial adoption of a subarea plan. Subarea plans adopted under this subsection (2) must include a public participation program consistent with RCW 36.70A.035 and 36.70A.140 that identifies procedures and schedules whereby updates, proposed amendments, or revisions of the comprehensive plan are considered by the governing body of the county or city no more frequently than once every year. “Updates” means to review and revise, if needed, according to subsection (1) of this section, and the deadlines in subsections (4) and (5) of this section or in accordance with the provisions of subsection (6) of this section. Amendments may be considered more frequently than once per year under the following circumstances:

(ii) The development of an initial subarea plan for economic development located outside of the one hundred year floodplain in a county that has completed a state-funded pilot project that is based on watershed characterization and local habitat assessment;

(iii) The adoption or amendment of a shoreline master program under the procedures set forth in chapter 90.58 RCW;

(iv) The amendment of the capital facilities element of a comprehensive plan that occurs concurrently with the adoption or amendment of a county or city budget; or

(v) The adoption of comprehensive plan amendments necessary to enact a planned action under RCW 43.21C.031(2), provided that amendments are considered in accordance with the public participation program established by the county or city under this subsection (2) and all persons who have requested notice of a comprehensive plan update are given notice of the amendments and an opportunity to comment.

(b) Except as otherwise provided in (a) of this subsection, all proposals shall be considered by the governing body concurrently so the cumulative effect of the various proposals can be ascertained. However, after appropriate public participation a county or city may adopt amendments or revisions to its comprehensive plan that conform with this chapter whenever an emergency exists or to resolve an appeal of a comprehensive plan filed with the growth management hearings board or with the court.

(3)(a) Each county that designates urban growth areas under RCW 36.70A.110 shall review, (at least every ten years) according to the schedules established in subsection (5) of this section, its designated urban growth area or areas, and the densities permitted within both the incorporated and unincorporated portions of each urban growth area. In conjunction with this review by the county, each city located within an urban growth area shall review the densities permitted within its boundaries, and the extent to which the urban growth occurring within the county has located within each city and the unincorporated portions of the urban growth areas.

(b) The county comprehensive plan designating urban growth areas, and the densities permitted in the urban growth areas by the comprehensive plans of the county and each city located within the urban growth areas, shall be revised to accommodate the urban growth projected to occur in the county for the succeeding twenty-year period. The review required by this subsection may be combined with the review and evaluation required by RCW 36.70A.215.

(4) Except as provided in subsection (6) of this section, counties and cities shall take action to review and, if needed, revise their comprehensive plans and development regulations to ensure the plan and regulations comply with the requirements of this chapter as follows:

With regard to the national estuary program established by section 320 of that act, the department shall exercise its responsibility jointly with the Puget Sound partnership, created in RCW 90.71.210. The department of ecology may delegate its authority under this chapter, including its national pollutant discharge elimination permit system authority and duties regarding animal feeding operations and concentrated animal feeding operations, to the department of agriculture through a memorandum of understanding. Until any such delegation receives federal approval, the department of agriculture's adoption or issuance of animal feeding operation and concentrated animal feeding operation rules, permits, programs, and directives pertaining to water quality shall be accomplished after reaching agreement with the director of the department of ecology. Adoption or issuance and implementation shall be accomplished so that compliance with such animal feeding operation and concentrated animal feeding operation rules, permits, programs, and directives will achieve compliance with all federal and state water pollution control laws. Strike everything after the enacting clause and insert the following:

"NEW SECTION, Sec. 4. A new section is added to chapter 28B.30 RCW to read as follows:
(1) The legislature finds that access to baccalaureate and graduate degree programs continues to be limited for residents of north Snohomish, Island, and Skagit counties. Studies conducted by the state board for community and technical colleges, the higher education coordinating board, and the council of presidents confirm that enrollment in higher education compared to demand in this geographic region lags behind enrollment in other parts of the state, particularly for upper-division courses leading to advanced degrees.
(2) The legislature also finds that access to high employer demand programs of study is imperative for the state's global competitiveness and economic prosperity, particularly those degrees in the science, technology, engineering, and math (STEM) fields that align with the workforce skill demands of the regional economy, that support the aerospace industry, and provide skilled undergraduate and graduate-degree engineers required by the largest employers in the aerospace industry cluster.
(3) The legislature finds that meeting the long-range goal of greatly expanded access for the population of the region to the widest array of baccalaureate and graduate programs can best be accomplished by assigning responsibility to a research university with multiple experiences in similar settings.
(4) Management and leadership of the University Center of North Puget Sound is assigned to Washington State University to meet the needs of the Everett metropolitan area and the north Snohomish, Island, and Skagit county region and the state of Washington for baccalaureate and graduate degrees offered by a state university. The chief executive officer of the University Center of North Puget Sound is the director who reports to the president of Washington State University. The director shall manage the activities and logistics of operating the center, make policy and planning recommendations to the council in subsection (5) of this section, and implement decisions of the council.
(5)(a) Washington State University and Everett Community College must collaborate with community leaders, and other four-year institutions of higher education that offer programs at the University Center of North Puget Sound to serve the varied interests of students in the region. To this end, a coordinating and planning council must be established to be responsible for long-range and strategic planning, interinstitutional collaboration, collaboration with the community served, and dispute resolution for the center. The following individuals shall comprise the coordinating and planning council:
(i) The president of Washington State University, or his or her designee;
(ii) The provost of Washington State University, or his or her designee;
(iii) The president of Everett Community College;
(iv) A representative of one other institution of higher education that offers baccalaureate or graduate degree programs at the center;
(v) The director of the council, as the nonvoting chair;
(vi) A community leader appointed by the president of Everett Community College;
(vii) A community leader appointed by the president of Washington State University; and
(viii) A community leader appointed by the mayor of Everett.
(b) Center partners must implement the strategic plan with careful attention to the academic and professional standards established and maintained by each institution and by the appropriate accrediting bodies, and to the historic role of each institution's governing board in setting policy.
(c) The strategic plan must address expansion of the range and depth of educational opportunities in the region and include strategies that:
(i) Build upon baccalaureate and graduate degree offerings at the center;
(ii) Meet projected student enrollment demands for baccalaureate, graduate, and certificate programs in the region;
(iii) Meet employers' needs for skilled workers by expanding high employer demand programs of study, with an initial emphasis by Washington State University on undergraduate and graduate engineering degree programs in a variety of engineering disciplines such as civil, mechanical, aeronautical, and aerospace manufacturing;
(iv) Coordinate delivery of lower and upper division courses to maximize student opportunities and resources; and
(v) Transfer budget support and resources for the center from Everett Community College to Washington State University.
(d) The strategic plan must be completed by July 1, 2013. The transfer of the responsibility for the management and operation of the University Center of North Puget Sound to Washington State University must occur by July 1, 2014.
(7)(a) Academic programming and delivery at the center must be developed in accordance with the missions of Washington State University, Everett Community College, and other institutions of higher education that have a presence at the center.
(b) Each institution shall abide by the guidelines for university centers adopted by the higher education coordinating board.
(c) Each institution shall award all degrees and certificates granted in the programs it delivers at the center.
(d) The coordinating council described in subsection (5) of this section shall establish a process for prioritizing new programs and revising existing programs that facilitates timeliness of new offerings, recognizes the internal processes of the proposing institutions, and addresses each proposal's fit with the needs of the region.
(8)(a) Washington State University shall review center expansion needs and consider capital facilities funding at least annually. Washington State University and Everett Community College must
cooperate in preparing funding requests and bond financing for submission to the legislature on behalf of development at the center, in accordance with each institution's process and priorities for advancing legislative requests.

(b) Washington State University shall design, construct, and manage any facility developed at the center. Any facility developed at the center with Everett Community College capital funding must be designed by Everett Community College in consultation with Washington State University. Building construction may be managed by Washington State University via an interagency agreement which details responsibility and associated costs. Building operations and management for all facilities at the center must be governed by the infrastructure and operating cost allocation method described in subsection (9) of this section.

(9) Washington State University has responsibility for infrastructure development and maintenance for the center. All infrastructure operating and maintenance costs are to be shared in what is deemed to be an equitable and fair manner based on space allocation, special cost, and other relevant considerations.

Washington State University may make infrastructure development and maintenance decisions in consultation with the council described in subsection (5) of this section.

(10) In the event that conflict cannot be resolved through the coordinating council described in subsection (5) of this section the higher education coordinating board dispute resolution must be employed.

Sec. 5. RCW 28B.50.795 and 2010 1st sp.s. c 25 s 1 are each amended to read as follows:

(1) (RCW 28B.50.901 assigns responsibility for the north Snohomish, Island, and Skagit counties' higher education consortium to Everett Community College. In April of 2009, Everett Community College opened Gray Wolf Hall, the new home of the University Center of North Puget Sound. The University Center currently offers over twenty bachelor's and master's degrees from six partner universities.

(2)) Although Everett Community College offers an associate degree nursing program that graduates approximately seventy to ninety students per year, the University Center does not offer a bachelor of science in nursing. Some graduates of the Everett Community College program are able to articulate to the bachelor of science in nursing program offered by the University of Washington-Bothell at its Bothell campus or in Mt. Vernon but current capacity is not sufficient for all of the graduates who are both interested and qualified.

(261) (2) Despite recent growth in nursing education capacity, shortages still persist for registered nurses. According to a June 2007 study by the Washington, Wyoming, Alaska, Montana, and Idaho center for health workforce studies, the average age of Washington's registered nurses was forty-eight years. More than a third were fifty-five years of age or older. Consequently, the high rate of registered nurses retiring from nursing practice over the next two decades will significantly reduce the supply. This reduction comes at the same time as the state's population grows and ages. The registered nurse education capacity in Washington has a large impact on the supply of registered nurses in the state. If the rate of graduation in registered nursing does not increase, projections show that supply in Washington will begin to decline by 2015. In contrast, if graduation rates increased by four hundred per year, the supply of registered nurses would meet estimated demand by the year 2021.

(261) (3) Subject to specific funding to support up to fifty full-time equivalent students in a bachelor of nursing program, the University Center (at Everett Community College) of North Puget Sound, in partnership with the University of Washington-Bothell, shall offer a bachelor of science in nursing program with capacity for up to fifty full-time students.

'Sec. 8. RCW 82.02.050 and 1994 c 257 s 24 are each amended to read as follows:

(1) It is the intent of the legislature:

(a) To ensure that adequate facilities are available to serve new growth and development;

(b) To promote orderly growth and development by establishing standards by which counties, cities, and towns may require, by ordinance, that new growth and development pay a proportionate share of the cost of new facilities needed to serve new growth and development; and

(c) To ensure that impact fees are imposed through established procedures and criteria so that specific developments do not pay arbitrary fees or duplicative fees for the same impact.

(2) Counties, cities, and towns that are required or choose to plan under RCW 36.70A.040 are authorized to impose impact fees on development activity as part of the financing for public facilities, provided that the financing for system improvements to serve new development must provide for a balance between impact fees and other sources of public funds and cannot rely solely on impact fees.

(3)(a) Counties, cities, and towns collecting impact fees must adopt a permanent system for the collection of impact fees from applicants for residential building permits issued for a lot or unit created by a subdivision, short subdivision, site development permit, binding site plan, or condominium that includes one or more of the following:

(i) A process by which an applicant for any development permit that requires payment of an impact fee may record a covenant against title to the lot or unit subject to the impact fee obligation. A covenant under this subsection (3)(a)(i) must also serve as a lien. The covenant must require payment equal to one hundred percent of the impact fee applicable to the lot or unit at the rates in effect at the time the building permit was issued, less a credit for any deposits paid.

(ii) Covenants recorded in accordance with this subsection (3)(a)(i) must provide for payment of the impact fee through escrow at the earlier of the following: The time of closing of sale of the applicable lot or unit; or in accordance with the applicable county, city, or town ordinance, eighteen or more months after the building permit is issued. Payment of impact fees due at closing of a sale must, unless an agreement to the contrary is reached between buyer and seller, be made from the seller's proceeds. In the absence of an agreement to the contrary, the seller bears strict liability for the payment of the impact fees.

(iii) Either a seller or a buyer's agent, or both, of property subject to a deferral covenant authorized under this subsection (3)(a)(ii) must provide written disclosure of the covenant to a purchaser or prospective purchaser. Disclosure of the covenant must include the amount of impact fees payable and the entities to which fees are to be paid at closing.

(iv) Upon receiving payment of impact fees due, the applicable county, city, or town must remove the covenant recorded in accordance with this subsection (3)(a)(ii); or

(v) A process by which an applicant may apply for a deferral of the impact fee payment until final inspection or certificate of occupancy, or equivalent certification.

(b) Counties, cities, and towns may adopt local systems for the collection of impact fees that differ from the requirements of this subsection (3) if the payment timing provisions are consistent with those of this subsection.

(4) The impact fees:

(a) Shall only be imposed for system improvements that are reasonably related to the new development;

(b) Shall not exceed a proportionate share of the costs of system improvements that are reasonably related to the new development; and

(c) Shall be used for system improvements that will reasonably benefit the new development.

((4))) (5)(a) Impact fees may be collected and spent only for the public facilities defined in RCW 82.02.090 which are addressed by a capital facilities plan element of a comprehensive land use plan
adopted pursuant to the provisions of RCW 36.70A.070 or the provisions for comprehensive plan adoption contained in chapter 36.70, 35.63, or 35A.63 RCW. After the date a county, city, or town is required to adopt its development regulations under chapter 36.70A RCW, continued authorization to collect and expend impact fees (shall be) contingent on the county, city, or town adopting or revising a comprehensive plan in compliance with RCW 36.70A.070, and on the capital facilities plan identifying:

(i) Deficiencies in public facilities serving existing development and the means by which existing deficiencies will be eliminated within a reasonable period of time;

(ii) Additional demands placed on existing public facilities by new development; and

(iii) Additional public facility improvements required to serve new development.

(b) If the capital facilities plan of the county, city, or town is complete other than for the inclusion of those elements which are the responsibility of a special district, the county, city, or town may impose impact fees to address those public facility needs for which the county, city, or town is responsible.

PASSING HOUSE BILL NO. 1257

The Speaker (Representative Moeller presiding) stated the question before the House to be the final passage of House Bill No. 1257.
SUBSTITUTE HOUSE BILL NO. 1421 was read the second time.

With the consent of the house, amendments (124), (57) and (99) were withdrawn.

Representative Tharinger moved the adoption of amendment (243).

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 4. (1) The legislature finds that since the 1980s, about seventeen percent of Washington's commercial forests have been converted to other land uses.

(2) The legislature further finds that as these forests vanish, so do the multiple benefits they provide to our communities such as local timber jobs, clean air and water, carbon storage, fish and wildlife habitat, recreation areas, and open space.

(3) The legislature further finds that it has provided policy direction to the department of natural resources to protect working forest and natural resource lands at risk of conversion, while maintaining the department's obligation to manage the state's fiduciary trust lands and financial assets in the interest of the beneficiaries of the respective trust lands and assets.

(4) The legislature further finds that there are numerous tools available to acquire open space and recreation lands, but limited tools to protect working forest lands.

(5) The legislature further finds that currently the department of natural resources lacks a full complement of policy and management tools necessary to protect or manage working forest lands at high risk of conversion.

(6) The legislature further finds that through modest enhancements to existing department of natural resources' programs and authorities, the legislature can expand Washington's ability to protect communities' working forest lands, while simultaneously improving the revenue generating performance of fiduciary trust lands managed by the department of natural resources.

(7) The legislature further finds that there has been past and present legislative intent to ensure continued public access for recreation compatible with the purposes of the lands involved.

(8) The legislature further finds that there exists an interest by local communities, governments, and conservation organizations in cooperating in the establishment of working community forests.

NEW SECTION. Sec. 5. (1) If deemed practicable by the commissioner, the department is authorized to create and manage, consistent with the provisions of this chapter, a discrete category of natural resource lands in a nonfiduciary community forest land trust. The department is authorized to assemble, hold title to, and manage directly or through mutual agreement with other landowners land suitable for sustainable forest management, to be held in the community forest trust.

(2) All land held in the community forest trust must be held by the department and actively managed, consistent with a community working forest management plan developed under section 8 of this act, to generate financial support for the management of the community forest trust and to advance and sustain the working forest conservation objectives established in the management plan.

NEW SECTION. Sec. 6. (1) The department must identify lands for inclusion into the community forest trust, and manage the resulting community forest trust lands, in furtherance of goals that must be identified by the department prior to the creation of a community forest.

(2) In addition to any goals for a community forest identified by the department, the community forest trust program must satisfy the following minimum program management principles:

(a) Protecting in perpetuity working forest lands that are at a significant risk of conversion to another land use;
(b) Securing financial and social viability through sound management plans and objectives that are consistent with the values of the local community;
(c) Maintaining the land in a working status, through traditional forestry, management of specialized forest products harvest consistent with chapter 76.48 RCW, land leases, renewable energy opportunities, ecosystem services such as clean water protection or carbon storage, and other sources of revenue appropriate for the community forest to generate;
(d) Generating revenue at levels that are, at a minimum, capable of reimbursing the department for management costs and providing for some reinvestment into the management objectives of the community forest;
(e) Providing for ongoing, sustainable public recreational access, local timber jobs, clean air and water, carbon storage, fish and wildlife habitat, and open space in a manner that is compatible with management plans and objectives adopted for the community forest; and
(f) Providing educational opportunities for local communities regarding the benefits that working forests provide to Washington's economy, communities, environment, and quality of life.

NEW SECTION. Sec. 7. (1)(a) Except as limited by section 7 of this act, the department is authorized to acquire by purchase, gift, donation, grant, transfer, or other means other than eminent domain fee interest or a partial interest, including conservation easements, in lands or other real property suitable for management as part of the community forest trust and that are appropriate to further the goals of the community forest trust.

(b) The fair market value of any real property, and the associated valuable materials, of any land transferred into the community forest trust from state lands must be provided to the beneficiaries of the transferee trust or used for the furtherance of the transferees.

(2) The department is authorized to receive funds for purposes of establishing the community forest trust from grants, gifts, bequests, or loans, whether public or private, as well as from legislative appropriation.

(3) All acquisitions of real property for the community forest trust must be approved by the board.

NEW SECTION. Sec. 8. (1) The department shall, if it establishes a community forest trust program, develop criteria to be used for the identification and prioritization of forest land that is suitable for potential inclusion in the community forest trust due to its ability to most closely satisfy the goals of the community forest trust outlined in section 3 of this act.

(2) In prioritizing forest land for inclusion in the community forest trust, the department shall give priority consideration to lands that are:

(a) The subject of established management and revenue production objectives of potential local community partners;
(b) At greatest risk of conversion;
(c) Helping buffer commercial public or private forest lands from encroaching development;
(d) Helping to block up other community forest assets to be managed consistently with the community forest trust acquisition;
(e) Able to be managed, considering surrounding current or expected future land use, as economically sustainable working forest land either alone or in combination with adjacent and nearby working forest land, including other lands incorporated into a community forest by the department, a local governmental entity, or a not-for-profit conservation organization managing forest lands;
(f) Eligible for trust land transfer capital appropriations;
(g) Available for acquisition through existing or new programs or funding;
(h) Supporting existing or expanded forest product manufacturing infrastructure;
(i) Useful in leveraging funds to match available acquisition moneys;
(j) Positioned to have their development rights extinguished through transfer, purchase, conservation easement, lease, or by some other comparable mechanism; or
(k) Enhancing state fiduciary trust land revenues by repositioning underperforming state trust lands to provide short and long-term revenues to that trust.

NEW SECTION. Sec. 9. (1) The department shall, if it establishes a community forest trust program, submit biennially to the office of financial management and the appropriate committees of the legislature a prioritized list that identifies nominated parcels of state land or state forest land that are suitable for transfer into the community forest trust, where such a transfer is also in the best interest of the respective trust. The department shall solicit and consider input from the board on a draft list before submitting a final prioritized list.

(2) The list of nominated parcels must reflect consideration of local nominations and the priorities outlined in section 5 of this act and be delivered to the required recipients by November 1st of each even-numbered year.

NEW SECTION. Sec. 10. (1) The department must, prior to using the authority provided in section 4 of this act to acquire land for inclusion in a community forest, obtain from the local community a commitment to preserving the land as a working forest.

(2) Following initial agreement between potential local community partners and the department regarding management and revenue production objectives for the lands in question, the local commitment to preserving the land as a working forest must be demonstrated by the county, city, or other local entity providing a financial contribution to the specific community forest of at least fifty percent of the difference between the parcel's appraised fair market value and the parcel's timber and forest land value. The local community contribution may be provided through any means deemed acceptable by the department and the local contributor, including:
(a) Traditional financing or bonding;
(b) The purchase of conservation easements; or
(c) The purchase or transfer of development rights.

(3) The local financial contribution must be deposited into the park land trust revolving fund created in RCW 43.30.385 and used solely for acquisition of the community forest trust land parcel or parcels for which it is intended.

NEW SECTION. Sec. 11. (1) All lands transferred into community forest trust status must be managed in accordance with a postacquisition management plan developed by the department consistent with this section.

(2) After exercising the authority provided in section 4 of this act to acquire land for inclusion in a community forest, the department must establish a local advisory committee in cooperation with any interested and affected local government.

(3) The department must use the local advisory committee as a source of advice and comment on a postacquisition management plan. Comments and advice should, at a minimum, include plans for how the department will maintain the land's working status and economic viability objectives through revenue-generating activities that are sufficient to generate ongoing revenue at a level that reimburses administrative costs, while satisfying, or contributing to, identified community conservation and recreation objectives.

(4)(a) If, after a good faith effort by all parties, the department and the local advisory committee fail to reach a consensus on a conceptual postacquisition management plan for the parcel in question, the department may either adopt a management plan informed by the community or recommend to the board that the parcel be divested through the existing authority of the department and the board. If the parcel is divested, then, except as otherwise provided in this subsection, proceeds must return to the park land trust revolving fund created in RCW 43.30.385.

(b) Prior to depositing the proceeds of a land divestiture under this subsection to the park land trust revolving fund, the department must first reimburse local entities that have made financial contributions to the parcel's acquisition as provided in section 7(2) of this act. However, local entities are only eligible for reimbursement upon divestiture under this subsection if the board determines that:
(i) The subsequent parcel use is likely to remain a working forest, the department secures full fair market value for the parcel, and the local entity's contribution was not provided by a state or federal grant; or
(ii) The funds used as part of the local contribution were originally provided through a grant that requires, as a condition of the grant, the repayment of granted dollars if the purposes of the grant are not or cannot be fulfilled and the decision to divest the land creates an inability for the purposes of the grant to be fulfilled.

NEW SECTION. Sec. 12. (1) Any revenue produced on community forest trust lands must be, consistent with RCW 79.64.040, allocated as follows:
(a) All costs incurred by the department in managing the parcel must be fully reimbursed; and
(b) After the department's management costs are reimbursed, any remaining revenue must then be prioritized to fulfill the management objectives for the specific parcel as identified in the postacquisition management plan developed under section 8 of this act consistent with the management principles outlined in section 3 of this act.

(2) (a) If, by the determination of the board, there is revenue remaining in any given biennium after fulfilling the requirements of subsection (1) of this section, then the board has the discretion to reimburse any local entities' eligible financial contributions for acquisition of the parcel under section 7(2) of this act and any state contribution to the acquisition of the parcel up to an amount that represents fifty percent of the difference between the parcel's original appraised fair market value and the parcel's timber and forest land value. However, any funds used as part of the local contribution may not be reimbursed if the funds were originally provided through a state or federal grant, provided through a fully compensated transfer of development rights at fair market value, or provided by a donation of funds or property.

(b) If the board decides to reimburse the state and local contribution, then it must allocate the reimbursement so that fifty percent is provided to the state general fund and fifty percent is provided to any eligible partnering local entities.

(c) Nothing in this section creates an expectation, requirement, or fiduciary duty for the board or the associated community forest trust land to generate revenue in excess of amounts as provided in subsection (1)(a) of this section.

NEW SECTION. Sec. 13. By September 1, 2014, and periodically, but at least once every ten years thereafter, the department shall provide to the board a review and update of the community forest trust program. The review must include updates on the performance of the community forest trust statewide and notification of any community forest trust parcels not performing according to their management plan. The department is authorized to, consistent with this chapter, recommend to the board action to divest itself of nonperforming community forest trust parcels using existing policies and mechanisms available to the department and the board.

NEW SECTION. Sec. 14. (1) The commissioner may establish and maintain a statewide advisory committee to assist the department in the implementation of this chapter.

(2) If a statewide advisory committee is established, the commissioner shall appoint a balanced representation of interests on the committee, including representatives of state fiduciary trust land beneficiaries, tribal governments, local governments, relevant state
agencies, commercial forest landowners, land trusts, and conservation organizations.

(3) The statewide advisory committee shall provide consultation on issues and questions presented by the commissioner and may be dissolved by the commissioner at any time.

(4) Participation on the statewide advisory committee is voluntary and members are not eligible for any form of compensation nor for reimbursement for expenses incurred due to service on the committee.

NEW SECTION. Sec. 15. (1) The commissioner may, if deemed practicable and beneficial by the commissioner, cooperate with interested local governments in establishing community forest districts or local working forest districts that are compatible with the goals identified in this chapter for the community forest trust.

Cooperative districts would attempt to voluntarily synchronize the management of community forest trust lands, other public lands, and private lands located within a certain geographic area to further a common set of community goals. If a working forest district encompasses state lands or state forest lands, then their voluntary management to further a common set of community goals must be consistent with the department's fiduciary and other legal obligations to the trust, including the multiple use act in chapter 79.10 RCW.

(2)(a) The department may, in its sole discretion and if it deems sufficient funding to be available, provide technical assistance grants to local communities for the purpose of developing and furthering the development of community forest management plans consistent with this chapter.

(b) This subsection does not create a private right of action.

Sec. 16. RCW 79.17.210 and 2003 c 334 s 118 are each amended to read as follows:

(1) The legislature finds that the department has a need to maintain the real property asset base it manages and needs an accounting mechanism to complete transactions without reducing the real property asset base.

(2) The natural resources real property replacement account is created in the state treasury. This account shall consist of funds transferred or paid for the disposal or transfer of real property by the department under RCW 79.17.200 and the transfer of state lands or state forest lands into community forest trust lands under section 4 of this act. The funds in this account shall be used solely for the acquisition of replacement real property and may be spent only when, and as, authorized by legislative appropriation.

Sec. 17. RCW 43.30.385 and 2009 c 354 s 9 are each amended to read as follows:

(1) The park land trust revolving fund is to be utilized by the department for the purpose of acquiring real property, including all reasonable costs associated with these acquisitions, as a replacement for the property transferred to the state parks and recreation commission, as directed by the legislature in order to maintain the land base of the affected trusts or under RCW 79.22.060 and to receive voluntary contributions for the purpose of operating and maintaining public use and recreation facilities, including trails, managed by the department.

(2) In addition to the other purposes identified in this section, the park land trust revolving fund may be utilized by the department to hold funding for future acquisition of lands for the community forest trust program from willing sellers under section 4 of this act.

(3)(a) Proceeds from transfers of real property to the state parks and recreation commission or other proceeds identified from transfers of real property as directed by the legislature shall be deposited in the park land trust revolving fund.

(b) The proceeds from real property transferred or disposed under RCW 79.22.060 must be used solely to purchase replacement forest land, that must be actively managed as a working forest, within the same county as the property transferred or disposed.

(c) Disbursement from the park land trust revolving fund to acquire replacement property and for operating and maintaining public use and recreation facilities shall be on the authorization of the department.

(4) In order to maintain an effective expenditure and revenue control, the park land trust revolving fund is subject in all respects to chapter 43.88 RCW, but no appropriation is required to permit expenditures and payment of obligations from the fund.

(5) The department is authorized to solicit and receive voluntary contributions for the purpose of operating and maintaining public use and recreation facilities, including trails, managed by the department. The department may seek voluntary contributions from individuals and organizations for this purpose. Voluntary contributions will be deposited into the park land trust revolving fund and used solely for the purpose of public use and recreation facilities operations and maintenance. Voluntary contributions are not considered a fee for use of these facilities.

Sec. 18. RCW 79.64.040 and 2008 c 328 s 6004 are each amended to read as follows:

A resource management cost account in the state treasury is created to be used solely for the purpose of defraying the costs and expenses necessarily incurred by the department in managing and administering state lands, community forest trust lands, and aquatic lands and the making and administering of leases, sales, contracts, licenses, permits, easements, and rights-of-way as authorized under the provisions of this title. Appropriations from the resource management cost account to the department shall be expended for no other purposes. Funds in the resource management cost account may be appropriated or transferred by the legislature for the benefit of all of the trusts from which the funds were derived.

(6) For the 2007-2009 biennium, moneys in the account may be used for the purposes identified in section 3044, chapter 328, Laws of 2008.

Sec. 19. RCW 79.64.040 and 2009 c 564 s 957 are each amended to read as follows:

(1) The board shall determine the amount deemed necessary in order to achieve the purposes of this chapter and shall provide by rule for the deduction of this amount from the moneys received from all leases, sales, contracts, licenses, permits, easements, and rights-of-way issued by the department and affecting state lands, community forest trust lands, and aquatic lands, provided that no deduction shall be made from the proceeds from agricultural college lands.

(2) Moneys received as deposits from successful bidders, advance payments, and security under RCW 79.15.100, 79.15.080, and 79.11.150 prior to December 1, 1981, which have not been subjected to deduction under this section are not subject to deduction under this section.

(3) Except as otherwise provided in subsections (6) and (6) of this section, the deductions authorized under this section shall not exceed twenty-five percent of the moneys received by the department in connection with any one transaction pertaining to state lands and aquatic lands other than second-class tide and shore lands and the beds of navigable waters, and fifty percent of the moneys received by the department pertaining to second-class tide and shore lands and the beds of navigable waters.

(4) Deductions authorized under this section for transactions pertaining to community forest trust lands shall be established at a level sufficient to defray over time the management costs for activities prescribed in a parcel's management plan adopted pursuant to section 8 of this act, and, if deemed appropriate by the board consistent with section 9 of this act, to reimburse the state and any local entities' eligible financial contributions for acquisition of the parcel.

(5) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530,
the moneys received subject to this section are the net proceeds from the contract harvesting sale.

((45)) (6) During the 2009-2011 fiscal biennium, the twenty-five percent limitation on deductions set in subsection (3) of this section may be increased up to thirty percent by the board.

New Section. Sec. 23. It is the intent of the legislature to utilize the infrastructure and resources of the commercial driver training schools and the school districts' traffic safety education programs by authorizing these entities to provide driver licensing examinations. The legislature intends for the department of licensing to authorize the administration of driver licensing examinations by these entities in order to maintain and reprioritize its staff for the purpose of reducing the wait times at its driver licensing offices.

Further, the legislature recognizes the growing importance of the work performed by department of licensing driver licensing services employees, who play an increasingly vital role in our security by ensuring that applicants are properly issued identification.

Sec. 24. RCW 28A.220.030 and 2000 c 115 s 9 are each amended to read as follows:

(1) The superintendent of public instruction is authorized to establish a section of traffic safety education, and through such section shall: Define a "realistic level of effort" required to provide an effective traffic safety education course, establish a level of driving competency required of each student to successfully complete the course, and ensure that an effective statewide program is implemented and sustained, administer, supervise, and develop the traffic safety education program and shall assist local school districts in the conduct of their traffic safety education programs.

(2) The board of directors of any school district maintaining a secondary school which includes any of the grades 10 to 12, inclusive, may establish and maintain a traffic safety education course. If a school district elects to offer a traffic safety education course and has within its boundaries a private accredited secondary school which includes any of the grades 10 to 12, inclusive, at least one class in traffic safety education shall be given at times other than regular school hours if there is sufficient demand therefor.

(3) The board of directors of a school district, or combination of school districts, may contract with any drivers' license service licensed under the provisions of chapter 46.82 RCW to teach the laboratory phase of the traffic safety education course. Instructors provided by any such contracting drivers' school must be properly qualified teachers of traffic safety education under the joint qualification requirements adopted by the superintendent of public instruction and the director of licensing.

(4) The superintendent shall establish a required minimum number of hours of continuing traffic safety education for traffic safety education instructors. The superintendent may phase in the requirement over not more than five years.
(5) School districts that offer a traffic safety education program under this chapter may administer the portions of the driver licensing examination that test the applicant’s knowledge of traffic laws and ability to safely operate a motor vehicle as authorized under RCW 46.20.120(7). The superintendent shall work with the department of licensing, in consultation with school districts that offer a traffic safety education program, to develop standards and requirements for administering each portion of the driver licensing examination that are comparable to the standards and requirements for driver training schools under section 11 of this act.

(6) Before a school district may provide a portion of the driver licensing examination, the school district must, after consultation with the superintendent, enter into an agreement with the department of licensing that, at a minimum, contains provisions that:
(a) Allow the department of licensing to conduct random examinations, inspections, and audits without prior notice;
(b) Allow the department of licensing to conduct on-site inspections at least annually;
(c) Allow the department of licensing to test, at least annually, a random sample of the drivers approved by the school district for licensure and to cancel any driver’s license that may have been issued to any driver selected for testing who refuses to be tested; and
(d) Reserve to the department of licensing the right to take prompt and appropriate action against a school district that fails to comply with state or federal standards for a driver licensing examination or to comply with any terms of the agreement.

NEW SECTION. Sec. 25. A new section is added to chapter 46.01 RCW to read as follows:

A civil suit or action may not be commenced or prosecuted against the director, the state of Washington, any driver training school licensed by the department, any other government officer or entity, including a school district or an employee of a school district, or against any other person, by reason of any act done or omitted to be done in connection with administering the portions of the driver licensing examination that test the applicant’s knowledge of traffic laws and ability to safely operate a motor vehicle. This section does not bar the state of Washington or the director from bringing any action, whether civil or criminal, against any driver training school licensed by the department.

Sec. 26. RCW 46.20.049 and 2005 c 314 s 309 are each amended to read as follows:

There shall be an additional fee for issuing any class of commercial driver’s license in addition to the prescribed fee required for the issuance of the original driver’s license. The additional fee for each class shall be ((thirty)) thirty-six dollars for the original commercial driver’s license or subsequent renewals. If the commercial driver’s license is renewed or extended for a period other than ((five)) six years, the fee for each class shall be six dollars for each year that the commercial driver’s license is renewed or extended. The fee shall be deposited in the highway safety fund.

Sec. 27. RCW 46.20.117 and 2005 c 314 s 305 are each amended to read as follows:

(1) Issuance. The department shall issue an identicard, containing a picture, if the applicant:
(a) Does not hold a valid Washington driver’s license;  
(b) Proves his or her identity as required by RCW 46.20.035; and
(c) Pays the required fee. The fee is ((twentieth)) twenty-four dollars unless an applicant is a recipient of continuing public assistance grants under Title 74 RCW, who is referred in writing by the secretary of social and health services. For those persons the fee must be the actual cost of production of the identicard.

(2) Design and term. The identicard must:
(a) Be distinctly designed so that it will not be confused with the official driver’s license; and
(b) Expire on the ((fifth)) sixth anniversary of the applicant’s birthdate after issuance.

(3) Renewal. An application for identicard renewal may be submitted by means of:
(a) Personal appearance before the department; or
(b) Mail or electronic commerce, if permitted by rule of the department and if the applicant did not renew his or her identicard by mail or by electronic commerce when it last expired. (However, the department may accept an application for renewal of an identicard submitted by means of mail or electronic commerce only if specific authority and funding is provided for this purpose by June 30, 2004, in the Omnibus Transportation Appropriations Act.)

An identicard may not be renewed by mail or by electronic commerce unless the renewal issued by the department includes a photograph of the identicard holder.

(4) Cancellation. The department may cancel an identicard if the holder of the identicard used the card or allowed others to use the card in violation of RCW 46.20.0921.

(5) From the effective date of this section to July 1, 2020, the department may issue or renew an identicard for a period other than six years, or may extend by mail an identicard that has already been issued, in order to evenly distribute, as nearly as possible, the yearly renewal rate of identicard holders; however, the department may not issue or renew an identicard for a period that exceeds six years. The fee for an identicard issued or renewed for a period other than six years, or that has been extended by mail, is four dollars for each year that the identicard is issued, renewed, or extended. The department may adopt rules as necessary to administer this subsection.

Sec. 28. RCW 46.20.120 and 2005 c 314 s 306 and 2005 c 61 s 2 are each reenacted and amended to read as follows:

An applicant for a new or renewed driver’s license must successfully pass a driver licensing examination to qualify for a driver’s license. The department ((shall give)) must ensure that examinations are given at places and times reasonably available to the people of this state. If the department does not administer driver licensing examinations as a routine part of its licensing services within a department region because adequate testing sites are provided by driver training schools or school districts within that region, the department shall, at a minimum, administer driver licensing examinations by appointment to applicants eighteen years of age and older in at least one licensing office within that region.

(1) Waiver. The department may waive:
(a) All or any part of the examination of any person applying for the renewal of a driver’s license unless the department determines that the applicant is not qualified to hold a driver’s license under this title; or
(b) All or any part of the examination involving operating a motor vehicle if the applicant:
(i) Surrenders a valid driver’s license issued by the person’s previous home state; or
(ii) Provides for verification a valid driver’s license issued by a foreign driver licensing jurisdiction with which the department has an informal agreement under RCW 46.20.125; and
(iii) Is otherwise qualified to be licensed.

(2) Fee. Each applicant for a new license must pay an examination fee of twenty dollars.

(a) The examination fee is in addition to the fee charged for issuance of the license.
(b) "New license" means a license issued to a driver:
(i) Who has not been previously licensed in this state; or
(ii) Whose last previous Washington license has been expired for more than ((five)) six years.

(3) An application for driver’s license renewal may be submitted by means of:
(a) Personal appearance before the department; or
(b) Mail or electronic commerce, if permitted by rule of the department and if the applicant did not renew his or her license by mail or by electronic commerce when it last expired. (However, the
department may accept an application for renewal of a driver's license submitted by means of mail or electronic commerce only if specific authority and funding is provided for this purpose by June 30, 2004, in the omnibus transportation appropriations act.)

(4) A person whose license expired or will expire while he or she is living outside the state, may:

(a) Apply to the department to extend the validity of his or her license for no more than twelve months. If the person establishes to the department's satisfaction that he or she is unable to return to Washington before the date his or her license expires, the department shall extend the person's license. The department may grant consecutive extensions, but in no event may the cumulative total of extensions exceed twelve months. An extension granted under this section does not change the expiration date of the license for purposes of RCW 46.20.181. The department shall charge a fee of five dollars for each license extension;

(b) Apply to the department to renew his or her license by mail or, if permitted by rule of the department, by electronic commerce even if subsection (3)(b) or (4)(b) of this section would not otherwise allow renewal by that means. If the person establishes to the department's satisfaction that he or she is unable to return to Washington within twelve months of the date that his or her license expires, the department shall renew the person's license by mail or, if permitted by rule of the department, by electronic commerce.

(5) If a qualified person submits an application for renewal under subsection (3)(b) or (4)(b) of this section, he or she is not required to pass an examination nor provide an updated photograph. A license renewed by mail or by electronic commerce that does not include a photograph of the licensee must be labeled "not valid for identification purposes."

(6) Driver training schools licensed by the department under chapter 46.82 RCW may administer the portions of the driver licensing examination that test the applicant's knowledge of traffic laws and ability to safely operate a motor vehicle.

(7) School districts that offer a traffic safety education program under chapter 28A.220 RCW may administer the portions of the driver licensing examination that test the applicant's knowledge of traffic laws and ability to safely operate a motor vehicle.

Sec. 29. RCW 46.20.161 and 2000 c 115 s 6 are each amended to read as follows:

The department, upon receipt of a fee of ((twenty-five)) thirty dollars, unless the driver's license is issued for a period other than ((five)) six years, in which case the fee shall be five dollars for each year that the license is issued, which includes the fee for the required photograph, shall issue to every qualifying applicant a driver's license. A driver's license issued to a person under the age of eighteen is an intermediate license, subject to the restrictions imposed under RCW 46.20.075, until the person reaches the age of eighteen. The license must include a distinguishing number assigned to the licensee, the name of record, date of birth, Washington residence address, photograph, a brief description of the license, and either a facsimile of the signature of the licensee or a space upon which the licensee shall write his or her usual signature with pen and ink immediately upon receipt of the license. No license is valid until it has been so signed by the licensee.

Sec. 30. RCW 46.20.181 and 1999 c 308 s 3 are each amended to read as follows:

(1) Except as provided in subsection (4) of this section, every driver's license expires on the ((fifth)) sixth anniversary of the licensee's birthdate following the issuance of the license.

(2) A person may renew his or her license on or before the expiration date by submitting an application as prescribed by the department and paying a fee of ((twenty-five)) thirty dollars. This fee includes the fee for the required photograph. The department may waive five dollars of the renewal fee under this subsection if a person

renews his or her driver's license through the mail or through online services.

(3) A person renewing his or her driver's license more than sixty days after the license has expired shall pay a penalty fee of ten dollars in addition to the renewal fee, unless his or her license expired when:

(a) The person was outside the state and he or she renews the license within sixty days after returning to this state; or

(b) The person was incapacitated and he or she renews the license within sixty days after the termination of the incapacity.

(4) ((During the period from July 1, 2000, to July 1, 2006)) From the effective date of this section to July 1, 2020, the department may issue or renew a driver's license for a period other than ((six)) six years, or may extend by mail a license that has already been issued, in order to evenly distribute, as nearly as possible, the yearly renewal rate of licensed drivers; however, the department may not issue or renew a driver's license for a period that exceeds six years.

The fee for a driver's license issued or renewed for a period other than ((six)) six years, or that has been extended by mail, is five dollars for each year that the license is issued, renewed, or extended. The department may adopt any rules as are necessary to carry out this subsection.

Sec. 31. RCW 46.20.505 and 2007 c 97 s 1 are each amended to read as follows:

Every person applying for a special endorsement of a driver's license authorizing such person to drive a two or three-wheeled motorcycle or a motor-driven cycle shall pay a fee of five dollars, which is not refundable. In addition, the endorsement fee for the initial motorcycle endorsement shall not exceed ((twenty-five)) thirty dollars, and the subsequent renewal endorsement fee shall not exceed ((twenty-five)) thirty dollars, unless the endorsement is renewed or extended for a period other than ((six)) six years, in which case the subsequent renewal endorsement fee shall not exceed five dollars for each year that the endorsement is renewed or extended. Fees collected under this section shall be deposited in the motorcycle safety education account of the highway safety fund.

Sec. 32. RCW 46.20.515 and 2003 c 41 s 3 are each amended to read as follows:

(1) The motorcycle endorsement examination must emphasize maneuvers necessary for on-street operation, including emergency braking and turning as may be required to avoid an impending collision.

(2) The examination for a two-wheeled motorcycle endorsement and the examination for a three-wheeled motorcycle endorsement must be separate and distinct examinations emphasizing the skills and maneuvers necessary to operate each type of motorcycle.

(3) The department may authorize an entity that has entered into a contract under RCW 46.20.520 to administer the motorcycle endorsement examination.

(4) The department may waive all or part of the examination for persons who satisfactorily complete the voluntary motorcycle operator training and education program authorized under RCW 46.20.520 or who satisfactorily complete a private motorcycle skills education course that has been certified by the department under RCW 46.81A.020.

NEW SECTION. Sec. 33. A new section is added to chapter 46.82 RCW to read as follows:

(j) Requirements for annual auditing, which must include the collection of current information regarding insurance, curriculums, instructors' names and licenses, and a selection of random student files to review for accuracy; and
(k) Sanctions for violations of the rules adopted under this section.
(3) Before a driver training school may provide a portion of the driver licensing examination, it must enter into an agreement with the department that, at a minimum, contains provisions that:
(a) Allow the department to conduct random examinations, inspections, and audits with prior notice;
(b) Allow the department to conduct on-site inspections at least annually;
(c) Allow the department to test, at least annually, a random sample of the drivers approved by the driver training school for licensure and to cancel any driver's license that may have been issued to any driver selected for testing who refuses to be tested; and

NEW SECTION. Sec. 35. It is the intent of the legislature to improve mobility for people and goods by maximizing the effectiveness of the freeway system. The ability of the state to provide an efficient transportation system will be enhanced by a public-private partnership in which private entities undertake the study, planning, design, development, acquisition, installation, construction, or improvement of existing transportation systems. A public-private partnership using toll lanes is one approach for generating funds to improve the Interstate 405 and state route number 167 corridor. The legislature acknowledges that as one of the most congested freeway sections in the state, the Interstate 405 and state route number 167 corridor serves as an ideal candidate for the use of a public-private partnership.

Therefore, it is the intent of the legislature to direct the department of transportation to explore improving the movement of vehicles and people through the use of a public-private partnership on Interstate 405 between the city of Bellevue on the north end and state route number 167 on the south end and to determine the feasibility of financing capacity improvements through tolls.

NEW SECTION. Sec. 36. A new section is added to chapter 47.56 RCW under the subchapter heading "toll facilities created after July 1, 2008" to read as follows:

(1) The department shall conduct a traffic and revenue analysis that would be informative to potential partners in a public-private partnership with the goal of completing planned throughput and
capacity improvements on state route number 167 and Interstate 405. Information included in the analysis must help evaluate the viability of a public-private partnership model for completing improvements to state route number 167 and Interstate 405 that will most effectively improve congestion and provide reliable travel times. The department shall also develop a corridor-wide project management plan to develop a strategy for phasing the completion of improvements in the Interstate 405 and state route number 167 corridor.

(2) The department shall use the information from the traffic and revenue analysis and the corridor-wide project management plan to develop a finance plan to fund improvements in the Interstate 405 and state route number 167 corridor. The department must include the following elements in the finance plan:

(a) Current state and federal funding contributions for projects in the Interstate 405 and state route number 167 corridor;
(b) A potential future state and federal funding contribution to leverage toll revenues;
(c) Financing mechanisms to optimize the revenue available for capacity improvements including, but not limited to, using the full faith and credit of the state; and
(d) Private financing to further state and federal funding contributions.

(3) The department must consult with a committee consisting of local and state elected officials from the Interstate 405 and state route number 167 corridor and representatives from the transit agencies that operate in the Interstate 405 and state route number 167 corridor while developing the traffic and revenue analysis and finance plan.

(4) The department must provide the traffic and revenue analysis plan and finance plan to the governor and the legislature by January 2012.

NEW SECTION. Sec. 37. A new section is added to chapter 46.68 RCW to read as follows:

(1) The Interstate 405 toll lanes account is created in the motor vehicle fund in the state treasury. Money in the account may be spent only after appropriation. Expenditures from the account must be used only for the improvements specified in a public-private partnership agreement for projects on the Interstate 405 corridor.

(2) Deposits to the account must include:

(a) All proceeds of bonds issued for construction of Interstate 405 improvements, including any capitalized interest;
(b) All of the tolls and other revenues received from the operation of Interstate 405 as a toll facility when authorized by the legislature, to be deposited at least monthly;
(c) Any interest that may be earned from the deposit or investment of those revenues;
(d) Notwithstanding RCW 47.12.063, proceeds from the sale of any surplus real property acquired for the Interstate 405 corridor improvement program; and
(e) All damages, liquidated or otherwise, collected under any contract involving the Interstate 405 corridor improvement program.

Sec. 38. RCW 43.84.092 and 2010 1st sp.s. c 30 s 20, 2010 1st sp.s. c 9 s 7, 2010 c 248 s 6, 2010 c 222 s 5, 2010 c 162 s 6, and 2010 c 145 s 11 are each reenacted and amended to read as follows:

(1) All earnings of investments of surplus balances in the state treasury shall be deposited to the treasury income account, which account is hereby established in the state treasury.

(2) The treasury income account shall be utilized to pay or receive funds associated with federal programs as required by the federal cash management improvement act of 1990. The treasury income account is subject in all respects to chapter 43.88 RCW, but no appropriation is required for refunds or allocations of interest earnings required by the cash management improvement act. Refunds of interest to the federal treasury required under the cash management improvement act fall under RCW 43.88.180 and shall not require appropriation. The office of financial management shall determine the amounts due to or from the federal government pursuant to the cash management improvement act. (2) If the director has reason to believe that an employer has failed to correct a violation for which a citation has been issued within the period permitted in the citation for its correction, which period shall not begin to run until the entry of a final order in the case of any appeal proceedings under this section initiated by the employer in good faith and not solely for delay or avoidance of penalties) the employer was previously cited and which has become a final order, the director shall notify the employer by certified mail of such failure to correct the violation and of the penalty to be assessed under RCW 49.17.180 by reason of such failure, and shall state that the employer has fifteen working days from the communication of such notification and assessment of penalty to notify the director that the employer wishes to appeal the director's notification of the assessment of penalty. If, within fifteen working days from the receipt of notification issued by the director the employer fails to notify the director that the employer intends to appeal the notification of assessment of penalty, the notification and assessment of penalty shall be deemed a final order of the department and not subject to review by any court or agency.

(3) If any employer notifies the director that the employer intends to appeal the citation issued under either RCW 49.17.120 or 49.17.130 or notification of the assessment of a penalty issued under subsections (1) or (2) of this section, or if, within fifteen working days from the issuance of a citation under either RCW 49.17.120 or 49.17.130 any employee or representative of employees files a notice with the director alleging that the period of time fixed in the citation for the abatement of the violation is unreasonable, the director may reconsider the matter and that the a stay of abatement is required while the appeal is pending.

(4) An appeal of any violation classified and cited as serious, willful, repeated serious violation, or failure to abate a serious violation does not stay abatement dates and requirements except as follows:

(a) An employer may request a stay of abatement for any serious, willful, repeated serious violation, or failure to abate a serious violation in a notice of appeal under subsection (3) of this section;

(b) When the director reassumes jurisdiction of an appeal under subsection (3) of this section, it will include the stay of abatement request. The issued redetermination decision will include a decision on the stay of abatement request. The department shall stay the abatement for any serious, willful, repeated serious violation, or failure to abate a serious violation where the department cannot determine that the preliminary evidence shows a substantial probability of death or serious physical harm to workers. The decision on stay of abatement will be final unless the employer renews the request for a stay of abatement in any direct appeal of the redetermination to the board of industrial insurance appeals under subsection (3) of this section;

(c) The board of industrial insurance appeals shall adopt rules necessary for conducting an expedited review on any stay of abatement requests identified in the employer's notice of appeal, and shall issue a final decision within forty-five working days of the board's notice of filing of appeal. This rule making shall be initiated in 2011;

(d) Affected employees or their representatives must be afforded an opportunity to participate as parties in an expedited review for stay of abatement;

(e) The board shall grant a stay of an abatement for a serious, willful, repeated serious violation, or failure to abate a serious violation where there is good cause for a stay unless based on the preliminary evidence it is more likely than not that a stay would result in death or serious physical harm to a worker;

(f) As long as a motion to stay abatement is pending all abatement requirements will be stayed.

(5) When the board of industrial insurance appeals denies a stay of abatement and abatement is required while the appeal is adjudicated, the abatement process must be the same process as the process required for abatement upon a final order.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 40. A new section is added to chapter 51.18 RCW to read as follows:

(1) In addition to those general powers and rights deemed appropriate by the department, retrospective rating plan employers and groups who administer their plans with an approved claims administrator shall have the authority to assist the department in the processing of claims when approved by the department. However, the department retains the final authority over decisions with respect to any individual claim. Under this authority, retrospective rating plan employers and groups may do any or all of the following:

(a) Schedule medical examinations and consultations, using only qualified persons from the department's approved examiner list. No more than two independent medical examinations for each claim may be scheduled by the claims administrator within any twenty-four month period. An independent medical examination may be scheduled when the claim file includes medical reports indicating that an examination may be necessary for any of the following reasons: Establishing a diagnosis, outlining a program of treatment, evaluating what, if any, conditions are related to the claimed industrial injury or occupational disease, determining whether an industrial injury or occupational disease has aggravated a preexisting condition, establishing an impairment rating when the claim file medical reports indicate that the worker's claim-related condition is at maximum medical improvement, evaluating whether the industrial injury or occupational disease has worsened, or evaluating the worker's mental or physical restrictions as well as the worker's ability to work. The results of any independent medical examination scheduled under this subsection must be sent by the examiner or independent medical examination panel directly to the department for the claimant's claim file. The department shall enforce penalties under RCW 51.32.110 for refusals to submit to medical examinations scheduled by retrospective rating plan employers or groups or obstruction of the same.

(b) Schedule vocational assessments using only qualified providers from a qualified provider list developed by the department. Providers may be selected based on department quality or performance indicators and based on industry experience. Any vocational assessment resulting from a referral under this section must be sent by the vocational rehabilitation counselor directly to the department for the claimant's claim file.

(c) Close claims as provided by this subsection. Closure of claims shall be conducted under the standards and procedures as provided in this title, except as provided in this section. If a claim with date of injury or manifestation of occupational disease on or after January 1, 2012: (i) Involves only medical treatment and/or the payment of temporary disability compensation under RCW 51.32.090 for a period of thirty days or less; (ii) at the time medical treatment is concluded, does not involve permanent disability; (iii) is one with respect to which the department has not intervened under subsection (2) of this section; and (iv) concerns an injured worker who has returned to work with the retrospective rating plan employer or employer within the group at the worker's previous job or at a job that has at least ninety-five percent of at-injury wages as calculated under RCW 51.08.178, the claim may be closed by the retrospective rating plan employer or group, subject to reporting of claims to the department in a manner prescribed by department rules adopted under chapter 34.05 RCW. No later than at the time of closure for such claims, the retrospective rating plan employer or group shall issue and send to the department and the worker a written order and forward to the worker a notification developed by the department describing in nontechnical language the worker's rights under this title.

(2) If a dispute arises from the handling of any claim under this section, the injured worker, or retrospective rating plan employer or group, may request the department to intervene. When exercising any authority under subsection (1) of this section, a retrospective rating plan employer or group must inform a worker in writing that the worker may request the department to intervene at any time.

(3) The department shall require the retrospective rating plan employer or group to notify the department prior to exercising any authority authorized by this section. Rules adopted under this section must minimize the department's need to respond and ensure that any delay in response by the department does not impede the timely administration of the claim. Charges incurred by the retrospective rating plan employer or group for independent medical examinations or vocational assessment shall be charged against the claim.

(4) For the purposes of this section, "approved claims administrator" means a person who meets department qualifications to manage industrial insurance claims for retrospective rating plan employers and groups. Any claims managers employed by the approved claims administrator to manage retrospective rating plan claims must pass a certification
test approved by the department as established in rule. The department may audit or review the claims management process of a retrospective rating plan employer or group that has received authority to assist the department with the processing of claims. The director shall take corrective action, subject to appeal to the board of industrial insurance appeals, against a retrospective rating plan employer or group, if the director determines that a claims manager under its direction is not following proper industrial insurance claims procedures. Corrective actions taken by the director may include:
(a) Probationary period of time for the claims manager;
(b) Additional mandatory training for claims management personnel; and
(c) Monitoring of the activities of the employer or group to determine progress towards compliance.

The director shall adopt rules defining the corrective actions which may be taken in response to a given condition. If the director determines that compliance has been attained, no further action shall be taken. If compliance has not been attained, the director may take additional corrective action including the removal of the additional authority to assist the department in the processing of claims under this section. The withdrawal of approval revokes the ability of the approved claims administrator to exercise authority under this section, but does not otherwise affect the administrator's status or the retrospective rating plan employer or group's status in the retrospective rating program.

(5) The department may adopt rules to implement this section.

NEW SECTION. Sec. 41. A new section is added to chapter 51.18 RCW to read as follows:

Payment by an employer for direct primary care services as defined in RCW 48.150.010 does not disqualify: (1) An employer from participating in the retrospective rating plan; (2) a group sponsor from promoting a retrospective rating plan; or (3) a plan administrator from administering a retrospective rating plan. The department may adopt rules requiring a direct practice to provide such information as the department requires to establish refunds or assessments for employers or groups under this chapter. Any billing rule requiring a provider to bill for services does not apply to a direct practice. For purposes of this section, "direct practice" shall have the meaning in RCW 48.150.010.

NEW SECTION. Sec. 3. A new section is added to chapter 51.18 RCW to read as follows:

(1) When a retrospective rating plan employer or group or its representative communicates with a medical provider, the employer must provide to the worker and send to the claim file a copy of any written communication received and a memorandum describing any oral communication. The copy of the written communication and memorandum describing an oral communication must be provided within seventy-two hours of receiving the information.
(2) The information required to be provided under subsection (1) of this section must be provided regardless of the source of the information and any claim of privilege or work product.
(3) The employer must send the information required to be provided under subsection (1) of this section to the claim file electronically. If the worker chooses, the information must be sent to the worker electronically.

NEW SECTION. Sec. 4. A new section is added to chapter 51.18 RCW to read as follows:

A retrospective rating plan employer or group must maintain complete records of all claims administered under this chapter. The records may be maintained by service companies or at an out of state location under conditions and procedures established by the director. The retrospective rating plan employer or group must make the records available for inspection upon request by the department, worker or beneficiary, or their representative within five business days of the request at a location within the state requested by the department, worker or beneficiary, or representative. The expense of producing the records must be borne by the retrospective rating plan employer or group.

NEW SECTION. Sec. 5. The joint legislative audit and review committee shall conduct a study of the impact of section 1 of this act on the state's workers' compensation system, including the impact on the retrospective rating plan performance and refunds, the department's processes, and worker outcomes and satisfaction. The joint legislative audit and review committee shall submit the study to the appropriate committees of the legislature by July 1, 2015.

(1) Any person who operates a motor vehicle within this state is deemed to have given consent, subject to the provisions of RCW 46.61.506, to a test or tests of his or her breath or blood for the purpose of determining the alcohol concentration ([±]) and presence of any other drug in his or her breath or blood if arrested for any offense where, at the time of the arrest, the arresting officer has reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug or was in violation of RCW 46.61.503. Neither consent nor this section precludes a police officer from obtaining a search warrant for a person's breath or blood.

(2) The test or tests of breath shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been driving or in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or the person to have been driving or in actual physical control of a motor vehicle while having alcohol in a concentration in violation of RCW 46.61.503 in his or her system and being under the age of twenty-one. However, in those instances where the person is incapable due to physical injury, physical incapacity, or other physical limitation, of providing a breath sample or where the person is being treated in a hospital, clinic, doctor's office, emergency medical vehicle, ambulance, or other similar facility or where the officer has reasonable grounds to believe that the person is under the influence of a drug, a blood test shall be administered by a qualified person as provided in RCW 46.61.506(5) for the purpose of determining the alcohol concentration and presence of other drugs in the person's blood. The officer shall inform the person of his or her right to refuse the breath or blood test, and of his or her right to have additional tests administered by any qualified person of his or her choosing as provided in RCW 46.61.506. The officer shall warn the driver, in substantially the following language, that:

(a) If the driver refuses to take the test, the driver's license, permit, or privilege to drive will be revoked or denied for at least one year; and

(b) If the driver refuses to take the test, the driver's refusal to take the test may be used in a criminal trial; and

(c) If the driver submits to the test and the test is administered, the driver's license, permit, or privilege to drive will be suspended, revoked, or denied for at least ninety days if the driver is age twenty-one or over and the test indicates the alcohol concentration of the driver's breath or blood is 0.08 or more, or if the driver is under age twenty-one and the test indicates the alcohol concentration of the driver's breath or blood is 0.02 or more, or if the driver is under age twenty-one and the driver is in violation of RCW 46.61.502 or 46.61.504; and

(d) If the driver's license, permit, or privilege to drive is suspended, revoked, or denied the driver may be eligible to immediately apply for an ignition interlock driver's license.

(3) Except as provided in this section, the test administered shall be of the breath only. If an individual is unconscious or is under arrest for the crime of vehicular homicide as provided in RCW 46.61.520 or vehicular assault as provided in RCW 46.61.522, or if an individual is under arrest for the crime of driving while under the influence of intoxicating liquor or drugs as provided in RCW 46.61.502, which arrest results from an accident in which there has been serious bodily injury to another person, a breath or blood test may be administered without the consent of the individual so arrested. If a blood test is administered, the blood must be tested for both alcohol concentration and the presence of other drugs.

(4) Any person who is dead, unconscious, or who is otherwise in a condition rendering him or her incapable of refusal, shall be deemed not to have withdrawn the consent provided by subsection (1) of this section and the test or tests may be administered, subject to the provisions of RCW 46.61.506, and the person shall be deemed to have received the warnings required under subsection (2) of this section. If a blood test is administered, the blood must be tested for both alcohol concentration and the presence of other drugs.

(a) Serve notice in writing on the person on behalf of the department of its intention to suspend, revoke, or deny the person's license, permit, or privilege to drive as required by subsection (7) of this section;
(b) Serve notice in writing on the person on behalf of the department of his or her right to a hearing, specifying the steps he or she must take to obtain a hearing as provided by subsection (8) of this section and that the person waives the right to a hearing if he or she receives an ignition interlock driver's license;
(c) Mark the person's Washington state driver's license or permit to drive, if any, in a manner authorized by the department;
(d) Serve notice in writing that the marked license or permit, if any, is a temporary license that is valid for sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or until the suspension, revocation, or denial of the person's license, permit, or privilege to drive is sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first. (i) That the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or was under the age of twenty-one years and had been driving or was in actual physical control of a motor vehicle while having an alcohol concentration in violation of RCW 46.61.503;
(ii) That after receipt of the warnings required by subsection (2) of this section the person refused to submit to a test of his or her blood or breath, or a test was administered and the results indicated that the alcohol concentration of the person's breath or blood was 0.08 or more if the person is age twenty-one or over, or 0.02 or more if the person is under the age of twenty-one; and
(iii) Any other information that the director may require by rule.
(7) The department of licensing, upon the receipt of a sworn report or report under a declaration authorized by RCW 9A.72.085 under subsection (6)(e) of this section, shall suspend, revoke, or deny the person's license, permit, or privilege to drive or any nonresident operating privilege, as provided in RCW 46.20.3101, such suspension, revocation, or denial to be effective beginning sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or when sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first.
(8) A person receiving notification under subsection (6)(b) of this section may, within twenty days after the notice has been given, request in writing a formal hearing before the department. The person shall pay a fee of two hundred dollars as part of the request. If the request is mailed, it must be postmarked within twenty days after receipt of the notification. Upon timely receipt of such a request for a formal hearing, including receipt of the required two hundred dollar fee, the department shall afford the person an opportunity for a hearing. The department may waive the required two hundred dollar fee if the person is an indigent as defined in RCW 10.101.010. Except as otherwise provided in this section, the hearing is subject to and shall be scheduled and conducted in accordance with RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest, except that all or part of the hearing may, at the discretion of the department, be conducted by telephone or other electronic means. The hearing shall be held within sixty days following the arrest or following the date notice has been given in the event notice is given by the department following a blood test, unless otherwise agreed to by the department and the person, in which case the action by the department shall be stayed, and any valid temporary license marked under subsection (6)(c) of this section extended, if the person is otherwise eligible for licensing. For the purposes of this section, the scope of the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more if the person was under the age of twenty-one, whether the person was placed under arrest, and (a) whether the person refused to submit to the test or tests upon request of the officer after having been informed that such refusal would result in the revocation of the person's license, permit, or privilege to drive, or (b) if a test or tests were administered, whether the applicable requirements of this section were satisfied before the administration of the test or tests, whether the person submitted to the test or tests, or whether a test was administered without express consent as permitted under this section, and whether the test or tests indicated that the alcohol concentration of the person's breath or blood was 0.08 or more if the person was age twenty-one or over at the time of the arrest, or 0.02 or more if the person was under the age of twenty-one at the time of the arrest. The sworn report or report under a declaration authorized by RCW 9A.72.085 submitted by a law enforcement officer is prima facie evidence that the officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or the person had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more and was under the age of twenty-one and that the officer complied with the requirements of this section.
A hearing officer shall conduct the hearing; may issue subpoenas for the attendance of witnesses and the production of documents, and shall administer oaths to witnesses. The hearing officer shall not issue a subpoena for the attendance of a witness at the request of the person unless the request is accompanied by the fee required by RCW 5.56.010 for a witness in district court. The sworn report or report under a declaration authorized by RCW 9A.72.085 of the law enforcement officer and any other evidence accompanying the report shall be admissible without further evidentiary foundation and the certifications authorized by the criminal rules for courts of limited jurisdiction shall be admissible without further evidentiary foundation. The person may be represented by counsel, may question witnesses, may present evidence, and may testify. The department shall order that the suspension, revocation, or denial either be rescinded or sustained.
(9) If the suspension, revocation, or denial is sustained after such a hearing, the person whose license, privilege, or permit is suspended, revoked, or denied has the right to file a petition in the superior court of the county of arrest to review the final order of revocation by the department in the same manner as an appeal from a decision of a
court of limited jurisdiction. Notice of appeal must be filed within thirty days after the date the final order is served or the right to appeal is waived. Notwithstanding RCW 46.20.334, RALJ 1.1, or other statutes or rules referencing de novo review, the appeal shall be limited to a review of the record of the administrative hearing. The appellant must pay the costs associated with obtaining the record of the hearing before the hearing officer. The filing of the appeal does not stay the effective date of the suspension, revocation, or denial.

A petition filed under this subsection must include the petitioner's grounds for requesting review. Upon granting petitioner's request for review, the court shall review the department's final order of suspension, revocation, or denial as expeditiously as possible. The court shall order the suspension, revocation, or denial reinstated. If the deferred prosecution is completed, the stay shall be lifted and the suspension, revocation, or denial canceled.

(11) When it has been finally determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been suspended, revoked, or denied, the department shall give information in writing of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which he or she has a license."

(3) The legislature further finds that vulnerable adult referral professionals should be required to meet certain minimum requirements to promote better integration of vulnerable adult housing choices.

(4) The legislature further finds that the requirement that elder and vulnerable adult referral agencies meet minimum standards of conduct is in the interest of public health, safety, and welfare.

NEW SECTION. Sec. 13. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Care services" means any combination of services, including in-home care, private duty care, or private duty nursing designed for or with the goal of allowing vulnerable adults to receive care and related services at home or in a home-like setting. Information also means the provision by an agency of the names of specific providers to a social worker, discharge planner, case manager, professional guardian, nurse, or other professional who is assisting a vulnerable adult locate supportive housing or care services, where the agency does not request or receive any fee.

(2) The agency may not create an exclusive agreement between the agency and the client, or between the agency and a provider. The agency cannot provide referral services to a client where the only names given to the client are of providers in which the agency or its personnel or immediate family members have an ownership interest in those providers. An agreement entered into between an agency and a provider must allow either the provider or the agency to cancel the agreement with specific payment terms regarding pending fees or commissions outlined in the agreement.

Any provision in a contract or written agreement not consistent with this chapter is void and unenforceable.

NEW SECTION. Sec. 65. A new section is added to chapter 80.28 RCW to read as follows:

(1) A wastewater company may not own or develop a system of sewerage for the purpose of providing service for compensation without first having obtained from the commission a certificate declaring that the public convenience and necessity requires such service.

(2) Issuance of the certificate of public convenience and necessity must be determined on, but not limited to, the following factors:

(a) A comprehensive business plan detailing the design, construction, operation, and maintenance of the proposed service system;

(b) Demonstration of sufficient financial resources to properly operate and maintain the proposed system, and to replace and upgrade capital assets;
(c) The need to develop a new stand alone system instead of connecting to an existing system;

(d) A statement of prior experience, if any, in such field by the petitioner, set out in an affidavit or declaration;

(e) A certification from the municipal corporation that it is not willing and able to provide the sewerage services being proposed; and

(f) A certification from the municipal corporation that the company's proposed service is consistent with the locally approved general sewer plan.

(3) The commission may, after providing notice and an opportunity for public comment, issue certificates, or for good cause shown refuse to issue them, or issue them for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted such terms and conditions as, in its judgment, the public convenience and necessity may require.

(4) No certificate may be transferred to any private or nonprofit entity unless authorized by the commission.

(5)(a) Prior to the commission approving a wastewater company to provide new service or extend existing service, the wastewater company must file and continuously maintain in effect a bond, or equivalent surety as determined by the commission, with the commission to ensure that there are sufficient funds to:

(i) Design, construct, operate, and maintain the proposed system;

(ii) Replace and upgrade capital assets as required by federal or state law or by order of the department of health or department of ecology; and

(iii) Allow additional connections to the system, if approved by the department of health or the department of ecology.

(b) The bond, or its equivalent surety, is payable under this section to the commission upon:

(i) An order under section 5 of this act to transfer a system or systems of sewerage to a capable wastewater company;

(ii) Notice that the wastewater company does not intend to renew the bond or its equivalent surety or has failed to renew the bond or its equivalent surety; or

(iii) A petition by the commission under section 6, 13, or 14 of this act to place a wastewater company in receivership.

(c) The commission must hold the payment in trust until an acquiring wastewater company is designated under section 5 of this act or a receiving entity is designated under section 6, 13, or 14 of this act, at which point the funds will be made available to the company or entity to expend as directed by the commission.

(6) For purposes of issuing certificates under this chapter, the commission may adopt rules to implement this section.

(7) A wastewater company must obtain commission approval before expanding an existing system beyond the approved capacity set forth in its certificate or acquiring new systems, either by construction or purchase.

NEW SECTION. Sec. 66. A new section is added to chapter 80.04 RCW to read as follows:

(1) Every wastewater company subject to regulation by the commission must, on or before the date specified by the commission for filing annual reports under RCW 80.04.080, pay to the commission a regulatory fee.

(2) The commission must assess such regulatory fees in amounts sufficient for the commission to recover the commission's actual and reasonable costs of supervising and regulating wastewater companies.

(3) Any payment of a fee assessed under this section made after the due date must include a late fee of two percent of the amount due.

(4) Delinquent fees accrue interest at the rate of one percent per month.

(5) The provisions of RCW 80.04.030, 80.04.040, and 80.04.050 apply to regulatory fees for wastewater companies.

(6) The commission is authorized and empowered to adopt and issue rules and regulations to implement this section, including establishing the methodologies and procedures for developing, assessing, and collecting fees under this section.

NEW SECTION. Sec. 67. A new section is added to chapter 80.28 RCW to read as follows:

(1) If the commission determines, after providing notice and an opportunity for a hearing in the manner required for complaints under RCW 80.04.110, that a wastewater company is unfit to provide wastewater service on any system of sewerage, under its ownership, the commission may order the transfer of any such system or systems to a capable wastewater company.

(2) In determining whether a wastewater company is unfit to provide wastewater service on a system of sewerage in consultation with the department of health or the department of ecology as appropriate to the agencies' jurisdiction, the commission may consider the company's technical and managerial expertise to operate the system of sewerage, the company's financial soundness and the company's willingness and ability to make ongoing investments necessary to maintain compliance with statutory and regulatory standards for the safety, adequacy, efficiency, and reasonableness of the service provided.

(3) Before ordering the transfer of a system of sewerage owned by a wastewater company that is unfit to provide service, the commission must first determine that:

(a) Alternatives to the transfer are impractical or not economically feasible;

(b) The acquiring wastewater company is willing and able to acquire the system or systems of sewerage, financially sound, and has the technical and managerial expertise to own and operate the system or systems of sewerage in compliance with applicable statutory and regulatory standards; and

(c) Rates paid by existing customers served by the acquiring wastewater company will not increase unreasonably because of the acquisition of the system of sewerage or because of expenditures that may be necessary to assure compliance with applicable statutory and regulatory standards for the safety, adequacy, efficiency, and reasonableness of the service provided.

(4) The sale price for the unfit wastewater company's system or systems of sewerage assets must be determined by agreement between the unfit wastewater company and the acquiring capable wastewater company subject to a finding by the commission that the agreed price is reasonable. A price is deemed reasonable if it does not exceed the original cost of plant in service, minus accumulated depreciation, minus contributions in aid to construction. If the unfit wastewater company and the acquiring capable wastewater company are unable to agree on the sale price or the commission finds that the agreed sale price is not reasonable, the acquiring capable wastewater company may initiate a condemnation proceeding in superior court in the manner provided by chapter 8.04 RCW to determine the compensation to be paid by the acquiring capable wastewater company for the failed system or systems of sewerage assets.

(5) The capable wastewater company acquiring an unfit wastewater company's system or systems shall have the same immunity from liability as wastewater companies assuming substandard systems as set forth in RCW 80.28.275.

(6) The commission must provide copies of the notice required by subsection (1) of this section to the department of health or the department of ecology, as appropriate to the agencies' jurisdiction, and all proximate public entities providing wastewater utility service.

(7) Any capable wastewater company approved by the commission to acquire the system or systems of sewerage of an unfit wastewater company must submit to the commission, for approval, a financial plan, including a timetable, for bringing the acquired system of sewerage assets into compliance with applicable statutory and regulatory standards. The acquiring capable wastewater company must also provide a copy of the plan to the department of health or the department of ecology, as appropriate to the agencies' jurisdiction,
and other state or local agency as the commission may direct. The commission must give the department of health or the department of ecology, as appropriate to the agencies' jurisdiction, adequate opportunity to comment on the plan and must consider any comments submitted in deciding whether or not to approve the plan.

(8) The legislature grants to any private entity the power of eminent domain, for exercise only under the circumstances described in this section. However, a private entity must obtain authorization from the city, town, or county with jurisdiction over the subject property after the legislative authority of the city, town, or county has passed an ordinance requiring that property be taken for public use. This subsection does not limit eminent domain authority granted by any other provision of law.

NEW SECTION. Sec. 68. A new section is added to chapter 80.28 RCW to read as follows:

(1) The commission may petition the Thurston county superior court pursuant to chapter 7.60 RCW to place a wastewater company in receivership. The petition must include the names of one or more qualified candidates for receiver who have consented to assume operation of the system of sewerage. The petition must also include a list of interested and qualified individuals, municipal corporations, and wastewater companies with experience in providing wastewater service and a history of satisfactory operation of a system of sewerage. If no other entity is willing and able to be appointed as the receiver, the court must appoint the county or other municipal corporation whose geographic boundaries include, in whole or in part, the system of sewerage at issue. The municipal corporation may designate one of its agencies or divisions to operate the system, or it may contract with another entity to operate the system. The department of health or department of ecology, whichever has jurisdiction, must provide regulatory oversight for managing the system of sewerage.

(2) In any petition for receivership under subsection (1) of this section, the commission must recommend that the court grant the receiver full authority to act in the best interests of the customers served by the system of sewerage. The receiver must assess the capability, in conjunction with the department of health or ecology, whichever has jurisdiction, and local government, for the system to operate in compliance with health and safety standards. The receiver must report to the court and the commission its recommendations for the company's future operation of the system, including the formation of a water-sewer district or other public entity, or ownership by another existing wastewater company capable of providing service.

(3) If a petition for receivership and verifying affidavit executed by an appropriate official alleges an immediate and serious danger to residents constituting an emergency, the court must set the matter for hearing within three days and may appoint a temporary receiver ex parte upon the strength of such petition and affidavit pending a full evidentiary hearing, which must be held within fourteen days after receipt of the petition.

(4) If the court imposes a bond upon a receiver, the amount must reasonably relate to the level of operating revenue generated by, and the capital value of, the wastewater company. Any receiver appointed pursuant to this section may not be held personally liable for any good faith, reasonable effort to assume possession of, and to operate, the system in compliance with the court's orders, subject to the provisions of law governing clean water as referenced by the commission by rule.

(5) The court must authorize the receiver to impose reasonable assessments on the customers of the system of sewerage to recover expenditures for improvements necessary for the public health and safety.

(6) The commission must develop a plan for transfer of the system of sewerage to a new operator and submit its plan to the court. The commission must develop the plan after notice to, and an opportunity to participate by, the receiver, the municipal corporations whose geographic boundaries, in whole or in part, include the system of sewerage at issue, and the public. The commission must complete the plan no later than twelve months after appointment of a receiver.

(a) If the commission finds that no private entity is able or willing to take over the system of sewerage and decides the system of sewerage should be taken over by a municipal corporation whose geographic boundaries include the system of sewerage at issue, in whole or in part, the commission must provide its findings to the court and the court may issue an order to that effect. If the court orders a municipal corporation to take over the system of sewerage, the municipal corporation must promptly institute negotiations to purchase the system. If, within six months of the court's order, the negotiations fail or otherwise do not result in a purchase, the municipal corporation must promptly initiate a condemnation proceeding to acquire the system. The court must terminate the receivership once the purchase is complete.

(b) If the commission decides the system of sewerage should be taken over by a private entity, such as an individual or business, the commission must provide its findings to the court and the court may issue an order to that effect. If the court orders a private entity to take over the system of sewerage, the private entity must promptly institute negotiations to purchase the system. If, within six months of the court's order, the negotiations fail or otherwise do not result in a purchase, the private entity must promptly exercise its power of eminent domain granted by the legislature in subsection (9) of this section to acquire the system. The court must terminate the receivership once the purchase is complete.

(7) Other than pursuant to subsection (6)(a) and (b) of this section, the court may not terminate the receivership, and order the return of the system to the owners, unless the commission approves that action. The court may impose reasonable conditions upon the return of the system to the owner, including the posting of a bond or other security, routine performance and financial audits, employment of qualified operators and other staff or contracted services, compliance with financial viability requirements, or other measures sufficient to ensure the ongoing proper operation of the system.

(8) If, as part of the ultimate disposition of the system, a condemnation proceeding is commenced to acquire the system of sewerage, the court shall oversee any appraisal of the system conducted under Title 7 RCW to assure that the appraised value properly reflects any reduced value because of the necessity to make improvements to the system. The court has the authority to approve the appraisal and to modify the appraisal based on any information provided at an evidentiary hearing. The court's determination of the proper value of the system, based on the appraisal, is final and only appealable if not supported by substantial evidence. If the appraised value is appealed, the court may order the system's ownership to be transferred upon payment of the approved appraised value.

(9) The legislature grants any municipal corporation, and any private entity the power of eminent domain under the circumstances described in this section. However, a private entity must obtain authorization from the city, town, or county with jurisdiction over the subject property after the legislative authority of the city, town, or county has passed an ordinance requiring that property be taken for public use. This subsection does not limit eminent domain authority granted by any other provision of law.

Sec. 69. RCW 80.04.110 and 1995 c 376 s 12 are each amended to read as follows:

(1)(a) Complaint may be made by the commission of its own motion or by any person or corporation, chamber of commerce, board of trade, or any commercial, mercantile, agricultural or manufacturing society, or any body politic or municipal corporation, or by the public counsel section of the office of the attorney general, or its successor, by petition or complaint in writing, setting forth any act or done or omitted to be done by any public service corporation in violation, or claimed to be in violation, of any provision of (law) this title.
Title 81 RCW, or of any order or rule of the commission((PROVIDED, That)),

(b) No complaint ((shall)) may be entertained by the commission except upon its own motion, as to the reasonableness of the schedule of the rates or charges of any gas company, electrical company, water company, wastewater company, or telecommunications company, unless the same be signed by the mayor, council or commission of the city or town in which the company complained of is engaged in business, or not less than twenty-five consumers or purchasers of such gas, electricity, water, wastewater company services, or telecommunications service, or at least twenty-five percent of the consumers or purchasers of the company's service((PROVIDED, FURTHER, That)).

(c) When two or more public service corporations, (meaning to exclude municipal and other public corporations) are engaged in competition in any locality or localities in the state, either may make complaint against the other or others that the rates, charges, rules, regulations or practices of such other or others with or in respect to which the complainant is in competition, are unreasonable, unreasonable, discriminatory, illegal, unfair or tending or tending to oppress the complainant, to stifle competition, or to create or encourage the creation of monopoly, and upon such complaint or upon complaint of the commission upon its own motion, the commission ((shall have)) has power, after notice and hearing as in other cases, to, by its order, subject to appeal as in other cases, correct the abuse complained of by establishing such uniform rates, charges, rules, regulations or practices in lieu of those complained of, to be observed by all of such competing public service corporations in the locality or localities specified as ((shall be)) is found reasonable, remunerative, nondiscriminatory, legal, and fair or tending to prevent oppression or monopoly or to encourage competition, and upon any such hearing it ((shall be)) is proper for the commission to take into consideration the rates, charges, rules, regulations and practices of the public service corporation or corporations complained of in any other locality or localities in the state.

(2) All matters upon which complaint may be founded may be joined in one hearing, and no motion ((shall)) may be entertained against a complaint for misjoinder of complaints or grievances or misjoinder of parties; and in any review of the courts of orders of the commission the same rule shall apply and pertain with regard to the joinder of complaints and parties as herein provided((PROVIDED)). However, all grievances to be inquired into ((shall)) must be plainly set forth in the complaint. No complaint ((shall)) may be dismissed because of the absence of direct damage to the complainant.

(3) Upon the filing of a complaint, the commission shall cause a copy thereof to be served upon the person or corporation complained of, which ((shall)) must be accompanied by a notice fixing the time when and place where a hearing shall be had upon such complaint. The time fixed for such hearing ((shall)) may not be less than ten days after the date of the service of such notice and complaint, excepting as herein provided. The commission shall enter its final order with respect to a complaint filed by any entity or person other than the commission within ten months from the date of filing of the complaint, unless the date is extended for cause. Rules of practice and procedure not otherwise provided for in this title may be prescribed by the commission. Such rules may include the requirement that a complainant use informal processes before filing a formal complaint.

(4)(a) The commission ((shall)) may, as appropriate, audit a nonmunicipal water system upon receipt of an administrative order from the department, or the city or county in which the water system is located, finding that the water delivered by a system does not meet state board of health standards adopted under RCW 43.20.050(2)(a) or standards adopted under chapters 70.116 and 70.119A RCW, and the results of the audit ((shall)) must be provided to the requesting department, city, or county. However, the number of nonmunicipal water systems referred to the commission in any one calendar year shall not exceed twenty percent of the water companies subject to commission regulation as defined in RCW 80.04.010.

(b) Every nonmunicipal water system referred to the commission for audit under this section shall pay to the commission an audit fee in an amount, based on the system's twelve-month audited period, equal to the fee required to be paid by regulated companies under RCW 80.24.010.

(5) Any customer or purchaser of service from a water system or company that is subject to commission regulation may file a complaint with the commission if he or she has reason to believe that the water delivered by the system to the customer does not meet state drinking water standards under chapter 43.20 or 70.116 RCW. The commission shall investigate such a complaint, and shall request that the state department of health or local health department of the county in which the system is located test the water for compliance with state drinking water standards, and provide the results of such testing to the commission. The commission may decide not to investigate the complaint if it determines that the complaint has been filed in bad faith, or for the purpose of harassment of the water system or company, or for other reasons has no substantial merit. The water system or company shall bear the expense for the testing. After the commission has received the complaint from the customer and during the pendency of the commission investigation, the water system or company ((shall)) may not take any steps to terminate service to the customer or to collect any amounts alleged to be owed to the company by the customer. The commission may issue an order or take any other action to ensure that no such steps are taken by the system or company. The customer may, at the customer's option and expense, obtain a water quality test by a licensed or otherwise qualified water testing laboratory, of the water delivered to the customer by the water system or company, and provide the results of such a test to the commission. If the commission determines that the water does not meet state drinking water standards, it shall exercise its authority over the system or company as provided in this title, and may, where appropriate, order a refund to the customer on a pro rata basis for the standard water delivered to the customer, and shall order reimbursement to the customer for the cost incurred by the customer, if any, in obtaining a water quality test.

Sec. 70. RCW 80.04.160 and 1961 c 14 s 80.04.160 are each amended to read as follows:

The commission is hereby authorized and empowered to adopt, promulgate and issue rules and regulations covering the transmission and delivery of messages and conversations, and the furnishing and supply of gas, electricity, wastewater company services, and water, and any and all services concerning the same, or connected therewith; and generally such rules as pertain to the comfort and convenience of the public concerning the subjects treated of in this title. Such rules and regulations ((shall)) must be promulgated and issued by the commission on its own motion, and ((shall)) must be served on the public service company affected thereby as other orders of the commission are served. Any public service company affected thereby, and deeming such rules and regulations, or any of them, improper, unjust, unreasonable, or contrary to law, may within twenty days from the date of service of such order upon it file objections thereto with the commission, specifying the particular grounds of such objections. The commission shall, upon receipt of such objections, fix a time and place for hearing the same, and after a full hearing may make such changes or modifications thereto, if any, as the evidence may justify. The commission ((shall have)) has, and it is hereby given, power to adopt rules to govern its proceedings, and to regulate the mode and manner of all investigations and hearings((PROVIDED)). However, no person desiring to be present at such hearing ((shall)) may be denied permission. Actions may be
instituted to review rules and regulations promulgated under this section as in the case of orders of the commission.

Sec. 71. RCW 80.04.250 and 1991 c 122 s 2 are each amended to read as follows:

(1) The commission (shall have) has power upon complaint or upon its own motion to ascertain and determine the fair value for rate making purposes of the property of any public service company used and useful for service in this state and shall exercise such power whenever it (shall) deems such valuation or determination necessary or proper under any of the provisions of this title. In determining what property is used and useful for providing electric, gas, wastewater company services, or water service, the commission may include the reasonable costs of construction work in progress to the extent that the commission finds that inclusion is in the public interest.

(2) The commission (shall have) has the power to make revaluations of the property of any public service company from time to time.

(3) The commission shall, before any hearing is had, notify the complainants and the public service company concerned of the time and place of such hearing by giving at least thirty days' written notice thereof, specifying that at the time and place designated a hearing will be held for the purpose of ascertaining the value of the company's property, used and useful as aforesaid, which notice (shall) must be sufficient to authorize the commission to inquire into and pass upon the matters designated in this section.

Sec. 72. RCW 80.04.500 and 1985 c 450 s 13 are each amended to read as follows:

Nothing in this title (shall) authorizes the commission to make or enforce any order affecting rates, tolls, rentals, contracts or charges or service rendered, or the adequacy or sufficiency of the facilities, equipment, instrumentalities or buildings, or the reasonableness of rules or regulations made, furnished, used, supplied or in force affecting any telecommunications line, gas plant, electrical plant, system of sewerage, or water system owned and operated by any city or town, or to make or enforce any order relating to the safety of any telecommunications line, electrical plant, system of sewerage, or water system owned and operated by any city or town, but all other provisions enumerated herein (shall) apply to public utilities owned by any city or town.

Sec. 73. RCW 80.28.010 and 2008 c 299 s 35 are each amended to read as follows:

(1) All charges made, demanded or received by any gas company, electrical company, wastewater company, or water company for gas, electricity or water, or for any service rendered or to be rendered in connection therewith, shall be just, fair, reasonable and sufficient. Reasonable charges necessary to cover the cost of administering the collection of voluntary donations for the purposes of supporting the development and implementation of evergreen community management plans and ordinances under RCW 80.28.300 (shall) must be deemed as prudent and necessary for the operation of a utility.

(2) Every gas company, electrical company, wastewater company, and water company shall furnish and supply such service, instrumentalities and facilities as shall be safe, adequate and efficient, and in all respects just and reasonable.

(3) All rules and regulations issued by any gas company, electrical company, wastewater company, or water company, affecting or pertaining to the sale or distribution of its product or service, (shall) must be just and reasonable.

(4) Utility service for residential space heating shall not be terminated between November 15 through March 15 if the customer:

(a) Notifies the utility of the inability to pay the bill, including a security deposit. This notice should be provided within five business days of receiving a payment overdue notice unless there are extenuating circumstances. If the customer fails to notify the utility within five business days and service is terminated, the customer can, by paying reconnection charges, if any, and fulfilling the requirements of this section, receive the protections of this chapter; (b) Provides self-certification of household income for the prior twelve months to a grantee of the department of ((community, trade, and economic development) commerce, which administers federally funded energy assistance programs. The grantee shall determine that the household income does not exceed the maximum allowed for eligibility under the state's plan for low-income energy assistance under 42 U.S.C. 8624 and shall provide a dollar figure that is seven percent of household income. The grantee may verify information provided in the self-certification; (c) Has applied for home heating assistance from applicable government and private sector organizations and certifies that any assistance received will be applied to the current bill and future utility bills;

(d) Has applied for low-income weatherization assistance to the utility or other appropriate agency if such assistance is available for the dwelling; (e) Agrees to a payment plan and agrees to maintain the payment plan. The plan (shall) may not require monthly payments in excess of seven percent of the customer's monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter during November 15 through March 15. A customer may agree to pay a higher percentage during this period, but shall not be in default unless payment during this period is less than seven percent of monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter. (e) Advise the customer in writing at the time it disconnects service that it will restore service if the customer contacts the utility and fulfills the other requirements of this section.

(7) Every gas company and electrical company shall offer residential customers the option of a budget billing or equal payment plan. The budget billing or equal payment plan shall be offered low-income customers eligible under the state's plan for low-income energy assistance prepared in accordance with 42 U.S.C. 8624(C)(1) without limiting availability to certain months of the year, without regard to the length of time the customer has occupied the premises,
and without regard to whether the customer is the tenant or owner of the premises occupied.

(8) Every gas company, electrical company, wastewater company, and water company shall construct and maintain such facilities in connection with the manufacture and distribution of its product, or provision of its services, as will be efficient and safe to its employees and the public.

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

Sec. 95. RCW 4.24.550 and 2008 c 98 s 1 are each amended to read as follows:

In addition to the disclosure under subsection (5) of this section, public agencies are authorized to release information to the public regarding sex offenders and kidnapping offenders when the agency determines that disclosure of the information is relevant and necessary to protect the public and counteract the danger created by the particular offender. This authorization applies to information regarding: (a) Any person adjudicated or convicted of a sex offense as defined in RCW (9A.44.120) 9A.44.128 or a kidnapping offense as defined by RCW (9A.44.120) 9A.44.128; (b) any person under the jurisdiction of the indeterminate sentence review board as the result of a sex offense or kidnapping offense; (c) any person committed as a sexually violent predator under chapter 71.09 RCW or as a sexual psychopath under chapter 71.06 RCW; (d) any person found not guilty of a sex offense or kidnapping offense by reason of insanity under chapter 10.77 RCW; and (e) any person found
incompetent to stand trial for a sex offense or kidnapping offense and subsequently committed under chapter 71.05 or 71.34 RCW.

(2) Except for the information specifically required under subsection (5) of this section, the extent of the public disclosure of relevant and necessary information shall be rationally related to: (a) The level of risk posed by the offender to the community; (b) the locations where the offender resides, expects to reside, or is regularly found; and (c) the needs of the affected community members for information to enhance their individual and collective safety.

(3) Except for the information specifically required under subsection (5) of this section, local law enforcement agencies shall consider the following guidelines in determining the extent of a public disclosure made under this section: (a) For offenders classified as risk level I, the agency shall share information with other appropriate law enforcement agencies and, if the offender is a student, the public or private school regulated under Title 28A RCW or chapter 72.40 RCW which the offender is attending, or planning to attend. The agency may disclose, upon request, relevant, necessary, and accurate information to any victim or witness to the offense and to any individual or entity, including a scalp or close family member whom disclosure near the residence where the offender resides, expects to reside, or is regularly found; (b) for offenders classified as risk level II, the agency may also disclose relevant, necessary, and accurate information to public and private schools, child day care centers, family day care providers, public libraries, businesses and organizations that serve primarily children, women, or vulnerable adults, and neighbors and community groups near the residence where the offender resides, expects to reside, or is regularly found; (c) for offenders classified as risk level III, the agency may also disclose relevant, necessary, and accurate information to the public at large; and (d) because more localized notification is not feasible and homeless and transient offenders may present unique risks to the community, the agency may also disclose relevant, necessary, and accurate information to the public at large for offenders registered as homeless or transient.

(4) The county sheriff with whom an offender classified as risk level III is registered shall cause to be published by legal notice, advertising, or news release a sex offender community notification that conforms to the guidelines established under RCW 4.24.5501 in at least one legal newspaper with general circulation in the area of the sex offender's registered address or location. (The county sheriff shall also cause to be published consistent with this subsection a current list of level III registered sex offenders, twice yearly.) Unless the information is posted on the web site described in subsection (5) of this section, this list shall be maintained by the county sheriff on a publicly accessible web site and shall be updated at least once per month.

(5)(a) When funded by federal grants or other sources, the Washington association of sheriffs and police chiefs shall create and operate web sites that offer sex offender registration information to the public at large. The level of risk posed by the offender to the community, the location where the offender resides, expects to reside, or is regularly found; and the needs of the affected community members for information to enhance their individual and collective safety.

(6) Local law enforcement agencies that disseminate information pursuant to this section shall: (a) Review available risk level classifications made by the department of corrections, the department of social and health services, and the indeterminate sentence review board; (b) assign risk level classifications to all offenders about whom information will be disseminated; and (c) make a good faith effort to notify the public and residents at least fourteen days before the offender is released from confinement or, where an offender moves from another jurisdiction, within a reasonable period of time after the offender registers with the agency. The juvenile court shall provide local law enforcement officials with all relevant information on offenders allowed to remain in the community in a timely manner.

(7) An appointed or elected public official, public employee, or public agency as defined in RCW 4.24.470, or units of local government and its employees, as provided in RCW 36.28A.010, are immune from civil liability for damages for any discretionary risk level classification decisions or release of relevant and necessary information, unless it is shown that the official, employee, or agency acted with gross negligence or in bad faith. The immunity in this section applies to risk level classification decisions and the release of relevant and necessary information regarding any individual for whom disclosure is authorized. The decision of a local law enforcement agency or official to classify an offender to a risk level other than the one assigned by the department of corrections, the department of social and health services, or the indeterminate sentence review board, or the release of any relevant and necessary information based on that different classification shall not, by itself, be considered gross negligence or bad faith. The immunity provided under this section applies to the release of relevant and necessary information to public officials, public employees, or public agencies, and to the general public.

(8) Except as may otherwise be provided by law, nothing in this section shall impose any liability upon a public official, public employee, or public agency for failing to release information authorized under this section.

(9) Nothing in this section implies that information regarding persons designated in subsection (1) of this section is confidential except as may otherwise be provided by law.

(10) When a local law enforcement agency or official classifies an offender differently than the offender is classified by the end of sentence review committee or the department of social and health services at the time of the offender's release from confinement, the law enforcement agency or official shall notify the end of sentence review committee or the department of social and health services and submit its reasons supporting the change in classification. (Upon implementation of subsection (5)(a) of this section, notification of the change shall also be sent to the Washington association of sheriffs and police chiefs.)

The agency that has jurisdiction over the offender shall notify the offender of the registration requirements before the offender moves to Washington.

(vi) OFFENDERS FOUND NOT GUILTY BY REASON OF INSANITY. Any adult or juvenile who has been found not guilty by reason of insanity under chapter 10.77 RCW of (A) committing a sex offense on, before, or after February 28, 1990, and who, on or on after July 23, 1995, is in custody, as a result of that finding, of the state department of social and health services, or (B) committing a kidnapping offense on, before, or after July 27, 1997, and who on or after July 27, 1997, is in custody, as a result of that finding, of the state department of social and health services, must register within three business days from the time of release with the county sheriff for the county of the person's residence. The state department of social and health services shall provide notice to the adult or juvenile in its custody of the duty to register. Any adult or juvenile who has been found not guilty by reason of insanity of committing a sex offense on, before, or after February 28, 1990, but who was released before July 23, 1995, or any adult or juvenile who has been found not guilty by reason of insanity of committing a kidnapping offense but who was released before July 27, 1997, shall be required to register within three business days of receiving notice of this registration requirement.

(vii) OFFENDERS WHO LACK A FIXED RESIDENCE. Any person who lacks a fixed residence and leaves the county in which he or she is registered and enters and remains within a new county for twenty-four hours is required to register with the county sheriff not more than three business days after entering the county and provide the information required in subsection ((4)(b)(i)) (2)(a) of this section.

(viii) OFFENDERS WHO LACK A FIXED RESIDENCE AND WHO ARE UNDER SUPERVISION. Offenders who lack a fixed residence and who are under the supervision of the department shall register in the county of their supervision.

(ix) OFFENDERS WHO MOVE TO, WORK, CARRY ON A VOCATION, OR ATTEND SCHOOL IN ANOTHER STATE. Offenders required to register in Washington, who move to another state, or who work, carry on a vocation, or attend school in another state shall register a new address, fingerprints, and photograph with the new state within three business days after establishing residence, or after beginning to work, carry on a vocation, or attend school in the new state. The person must also send written notice within three business days of moving to the new state or to a foreign country to the county sheriff with whom the person last registered in Washington state. The county sheriff shall promptly forward this information to the Washington state patrol.

(b) The county sheriff shall not be required to determine whether the person is living within the county.

(c) An arrest on charges of failure to register, service of an information, or a complaint for a violation of RCW 9A.44.132, or arraignment on charges for a violation of RCW 9A.44.132, constitutes actual notice of the duty to register. Any person charged with the crime of failure to register under RCW 9A.44.132 who appears as a defense the lack of notice of the duty to register shall register within three business days following actual notice of the duty through arrest, service, or arraignment. Failure to register as required under this subsection ((4)(b)(i)) (3)(c) constitutes grounds for filing another charge of failing to register. Registering following arrest, service, or arraignment on charges shall not relieve the offender from criminal liability for failure to register prior to the filing of the original charge.

(d) The deadlines for the duty to register under this section do not relieve any sex offender of the duty to register under this section as it existed prior to July 28, 1991.

((4)(b)(i)) (4)(a) If any person required to register pursuant to this section changes his or her residence address within the same county, the person must provide, by certified mail, with return receipt requested or in person, signed written notice of the change of address to the county sheriff within three business days of moving.

(b) If any person required to register pursuant to this section moves to a new county, the person must register with that county sheriff within three business days of moving. Within three business days, the person must also provide, by certified mail, with return receipt requested or in person, signed written notice of the change of address with the new county to the county sheriff with whom the person last registered. The county sheriff with whom the person last registered shall promptly forward the information concerning the change of address to the county sheriff for the county of the person's new residence. Upon receipt of notice of change of address to a new state, the county sheriff shall promptly forward the information regarding the address of the county designated by the new state as the state's offender registration agency.

(((5)) (5)(a)) Any person required to register under this section who lacks a fixed residence shall provide signed written notice to the sheriff of the county where he or she last registered within three business days after ceasing to have a fixed residence. The notice shall include the information required by subsection (((4)(b)(i)) (2)(a) of this section, except the photograph and fingerprints. The county sheriff may, for reasonable cause, require the offender to provide a photograph and fingerprints. The sheriff shall forward this information to the sheriff of the county in which the person intends to reside, if the person intends to reside in another county.

(b) A person who lacks a fixed residence must report weekly, in person, to the sheriff of the county where he or she is registered. The weekly report shall be on a day specified by the county sheriff's office, and shall occur during normal business hours. The person must keep an accurate accounting of where he or she stays during the week and provide it to the county sheriff upon request. The lack of a
fixed residence is a factor that may be considered in determining an offender's risk level and shall make the offender subject to disclosure of information to the public at large pursuant to RCW 4.24.550.

(c) If any person required to register pursuant to this section does not have a fixed residence, it is an affirmative defense to the charge of failure to register, that he or she provided written notice to the sheriff of the county where he or she last registered within three business days of ceasing to have a fixed residence and has subsequently complied with the requirements of subsections (((4)(i)) (3)(a)(vii) or (viii) and (4)(i)) (5) of this section. To prevail, the person must prove the defense by a preponderance of the evidence.

(ii) The person provides proof of relief from registration to the
level classification.

NEW SECTION. Sec. 99. A new section is added to chapter 9A.44 RCW to read as follows:

(1) Upon receiving notice from a registered person pursuant to RCW 9A.44.130 that the person will be attending a school or institution of higher education or will be employed with an institution of higher education, the sheriff must promptly notify the school district and the school principal or institution's department of public safety and shall provide that school or department with the person's:
(a) Name and any aliases used; (b) complete residential address; (c) date and place of birth; (d) place of employment; (e) crime for which convicted; (f) date and place of conviction; (g) social security number; (h) photograph; and (i) risk level classification.

(2) A principal or department receiving notice under this subsection must disclose the information received from the sheriff as follows:

(a) If the student is classified as a risk level II or III, the principal shall provide the information received to every teacher of the student and to any other personnel who, in the judgment of the principal, supervises the student or for security purposes should be aware of the student's record;

(b) If the student is classified as a risk level I, the principal or department shall provide the information received only to personnel who, in the judgment of the principal or department, for security purposes should be aware of the student's record.

(3) The sheriff shall notify the applicable school district and school principal or institution's department of public safety whenever a student's risk level classification is changed or the sheriff is notified of a change in the student's address.

(4) Any information received by school or institution personnel under this subsection is confidential and may not be further disseminated except as provided in RCW 28A.225.330, other statutes or case law, and the family and educational and privacy rights act of 1994, 20 U.S.C. Sec. 1232g et seq.

Sec. 99. RCW 9A.44.132 and 2010 c 267 s 3 are each amended to read as follows:

(1) A person commits the crime of failure to register as a sex offender if the person has a duty to register under RCW 9A.44.130 for a felony sex offense (as defined in that section) and knowingly fails to comply with any of the requirements of RCW 9A.44.130.

(a) (Except as provided in (b) of this subsection) The failure to register as a sex offender pursuant to this subsection is a class C felony if:

(i) It is the person's first conviction for a felony failure to register;

(ii) The person has previously been convicted of a felony failure to register as a sex offender in this state or pursuant to the laws of another state.

(b) If a person has been convicted (in this state) of a felony failure to register as a sex offender in this state or pursuant to the laws of another state on two or more prior occasions, the failure to register under this subsection is a class B felony.

(2) A person is guilty of failure to register as a sex offender if the person has a duty to register under RCW 9A.44.130 for a sex offense other than a felony and knowingly fails to comply with any of the requirements of RCW 9A.44.130. The failure to register as a sex offender under this subsection is a gross misdemeanor.

(3) A person commits the crime of failure to register as a kidnapping offender if the person has a duty to register under RCW 9A.44.130 for a kidnapping offense and knowingly fails to comply with any of the requirements of RCW 9A.44.130.

(a) If the person has a duty to register for a kidnapping offense, the failure to register as a kidnapping offender is a class C felony.

(b) If a person has a duty to register for a kidnapping offense other than a felony, the failure to register as a kidnapping offender is a gross misdemeanor.

Sec. 100. RCW 9A.44.141 and 2010 c 267 s 5 are each amended to read as follows:

(a) Using available records, the county sheriff shall verify that the
offender has spent the requisite time in the community and has not been convicted of a disqualifying offense.

(b) If the county sheriff determines the person's duty to register has ended by operation of law, the county sheriff shall request the Washington state patrol remove the person's name from the central registry.

(2) Nothing in this subsection prevents a county sheriff from investigating, upon his or her own initiative, whether a person's duty to register has ended by operation of law pursuant to RCW 9A.44.140.

(3) (a) A person who is listed in the central registry as the result of a federal or out-of-state conviction may request the county sheriff to investigate whether the person should be removed from the registry if:

(i) A court in the person's state of conviction has made an individualized determination that the person should not be required to register; and

(ii) The person provides proof of relief from registration to the county sheriff.

(b) If the county sheriff determines the person has been relieved of the duty to register in his or her state of conviction, the county
sheriff shall request the Washington state patrol remove the person's name from the central registry.

(4) An appointed or elected public official, public employee, or public agency as defined in RCW 4.24.470, or units of local government and its employees, as provided in RCW 36.28A.010, are immune from civil liability for damages for removing or requesting the removal of a person from the central registry of sex offenders and kidnapping offenders or the failure to remove or request removal of a person within the time frames provided in RCW 9A.44.140.

Sec. 101. RCW 9A.44.142 and 2010 c 267 s 6 are each amended to read as follows:

(1) A person who is required to register under RCW 9A.44.130 may petition the superior court to be relieved of the duty to register:
   (a) If the person has a duty to register for a sex offense or kidnapping offense committed when the offender was a juvenile, regardless of whether the conviction was in this state, as provided in RCW 9A.44.143;
   (b) If the person is required to register for a conviction in this state and is not prohibited from petitioning for relief from registration under subsection (c) of this section, when the person has spent ten consecutive years in the community without being convicted of a disqualifying offense during that time period; and
   (c) If the person is required to register for a federal or out-of-state conviction, when the person has spent fifteen consecutive years in the community without being convicted of a disqualifying offense during that time period.

(2)(a) A person may not petition for relief from registration if the person has been:
   (i) Determined to be a sexually violent predator as defined in RCW 71.09.020;

After July 1, 2012, this subsection (2)(a)(iii) shall have no further force and effect.
   (b) Any person who may not be relieved of the duty to register may petition the court to be exempted from any community notification requirements that the person may be subject to fifteen years after the later of the entry of the judgment and sentence or the last date of release from confinement, including full-time residential treatment, pursuant to the conviction, if the person has spent the time in the community without being convicted of a disqualifying offense.

(3) A petition for relief from registration or exemption from notification under this section shall be made to the court in which the petitioner was convicted of the offense that subjects him or her to the duty to register or, in the case of convictions in other states, a foreign country, or a federal or military court, to the court in (where the person is registered at the time the petition is sought). The prosecuting attorney of the county shall be named and served as the respondent in any such petition.

(4)(a) The court may relieve a petitioner of the duty to register only if the petitioner shows by clear and convincing evidence that the petitioner is sufficiently rehabilitated to warrant removal from the central registry of sex offenders and kidnapping offenders.
   (b) In determining whether the petitioner is sufficiently rehabilitated to warrant removal from the registry, the following factors are provided as guidance to assist the court in making its determination:
      (i) The nature of the registrable offense committed including the number of victims and the length of the offense history;

"PART I

FINDINGS

NEW SECTION, Sec. 101. FINDINGS. (1) Recognizing that uncoordinated and poorly planned growth poses a threat to the environment, sustainable economic development, and the health, safety, and high quality of life enjoyed by residents of this state, the legislature passed the growth management act, chapter 36.70A RCW. The planning goals adopted through the growth management act encourage development in urban areas where public facilities and services exist or can be provided efficiently, conservation of productive forest and agricultural lands, and a reduction of sprawl.

(2) Under RCW 36.70A.090 and 43.362.005 the legislature has encouraged:

(a) The use of innovative land use management techniques, including the transfer of development rights, to meet growth management goals; and

(b) The creation of a regional transfer of development rights marketplace in the central Puget Sound to assist in conserving agricultural and forest land, as well as other lands of state or regional priority.

(3) The legislature finds that:

(a) Local governments are in need of additional resources to provide public infrastructure to meet the needs of a growing population, and that public infrastructure is fundamental to community health, safety, and economic vitality. Investment in public infrastructure in growing urban areas supports growth management goals, encourages the redevelopment of underutilized or blighted urban areas, stimulates business activity and helps create jobs, lowers the cost of housing, promotes efficient land use, and improves residents' quality of life;
(b) Transferring development rights from agricultural and forest lands to urban areas where public facilities and services exist or can be provided efficiently and cost-effectively will ensure vibrant, economically viable communities. Directing growth to communities where people can live close to where they work or have access to transportation choices will also advance state goals regarding climate change by reducing vehicle miles traveled and by reducing fuel consumption and emissions that contribute to climate change. Directing growth to these communities will further help avoid the impacts of storm water runoff to Puget Sound by avoiding impervious surfaces associated with development in watershed uplands;

(c) A transfer of development rights marketplace is particularly appropriate for conserving agricultural and forest land of long-term commercial significance. Transferring the development rights from these lands of statewide importance to cities will help achieve a specific goal of the growth management act by keeping them in farming and forestry, thereby helping ensure these remain viable industries in counties experiencing population growth. Transferring growth from agricultural and forest land of long-term commercial significance will also reduce costs to the counties that otherwise would be responsible for the provision of infrastructure and services for development on these lands, which are generally further from existing infrastructure and services; and

(d) The state and its residents benefit from investment in public infrastructure that is associated with urban growth facilitated by the transfer of development from agricultural and forest lands of long-term commercial significance. These activities advance multiple state growth management goals and benefit the state and local economies. It is in the public interest to enable local governments to finance such infrastructure investments and to incentivize development right transfers in the central Puget Sound through this chapter.

PART II

NEW SECTION. Sec. 201. DEFINITIONS. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(i) For new construction and improvements to property added to the assessment roll, the year during which the new construction and improvements are initially placed on the assessment roll;

(i) Infrastructure improvements within the local infrastructure project area that include:

(A) Street, road, bridge, and rail construction and maintenance;

NEW SECTION. Sec. 301. DESIGNATION OF SENDING AREAS--INCLUSION OF AGRICULTURAL AND FOREST LAND OF LONG-TERM COMMERCIAL SIGNIFICANCE. An eligible county must designate all agricultural and forest land of long-term commercial significance within its jurisdiction as sending areas for conservation under the eligible county's program for transfer of development rights. The development rights from all such agricultural and forest land of long-term commercial significance within the eligible counties must be available for transfer to receiving cities under this chapter.

NEW SECTION. Sec. 302. DEVELOPMENT RIGHTS FROM AGRICULTURAL AND FOREST LAND OF LONG-TERM COMMERCIAL SIGNIFICANCE. (1) An eligible county must calculate the number of development rights from agricultural and forest land of long-term commercial significance that are eligible for transfer to receiving areas. An eligible county must determine transferable development rights for allocation purposes in this program by:

(a) Base zoning in effect as of January 1, 2011; or

(b) An allocation other than base zoning as reflected by an eligible county's transfer development rights program or an interlocal agreement with a receiving city in effect as of January 1, 2011.

(2) The number of transferable development rights includes the development rights from agricultural and forest lands of long-term commercial significance that have been previously issued under the eligible county's program for transfer of development rights, but that have not as yet been utilized to increase density or intensity in a development as of January 1, 2011.

(3) The number of transferable development rights does not include development rights from agricultural and forest lands of long-term commercial significance that have previously been removed or extinguished, such as through an existing conservation easement or mitigation or habitat restoration plan, except when consistent with subsection (2) of this section.

NEW SECTION. Sec. 303. DESIGNATION OF SENDING AREAS--INCLUSION OF RURAL ZONED LANDS UNDER CERTAIN CIRCUMSTANCES. (1) Subject to the requirements of this section, an eligible county may designate a portion of its rural zoned lands as sending areas for conservation under the eligible county's program for transfer of development rights available for transfer to receiving cities under this chapter.

(2) An eligible county may designate rural zoned lands as available for transfer to receiving cities under this chapter only if, and at such time as, fifty percent or more of the total acreage of land classified as agricultural and forest land of long-term commercial significance in the county, as of January 1, 2011, has been protected through either a permanent conservation easement, ownership in fee by the county for land protection or conservation purposes, or ownership in fee by a nongovernmental land conservation organization.

(3) To be designated as available for transfer to receiving cities under this chapter, rural zoned lands must either:

(a) Be identified by the county as top conservation priorities because they:

(i) Provide ecological effectiveness in achieving water resource inventory area goals;
(ii) Provide contiguous habitat protection, are adjacent to already protected habitat areas, or improve ecological function;
(iii) Are of sufficient size and location in the landscape to yield strategic growth management benefits;
(iv) Provide improved access for regional recreational opportunity;
(v) Prevent forest fragmentation or are appropriate for forest management;
(vi) Provide flood protection or reduce flood risk; or
(vii) Have other attributes that meet natural resource preservation program priorities; or

(b) Be identified by the state or in regional conservation plans as highly important to the water quality of Puget Sound.

(4) The portion of rural zoned lands in an eligible county designated as sending areas for conservation under the eligible county's program for transfer of development rights available for transfer to receiving cities under this chapter must not exceed one thousand five hundred development rights.

NEW SECTION. Sec. 304. DETERMINATION OF TOTAL NUMBER OF TRANSFERABLE DEVELOPMENT RIGHTS FOR AGRICULTURAL AND FOREST LAND OF LONG-TERM COMMERCIAL SIGNIFICANCE AND DESIGNATED RURAL ZONED LANDS. On or before September 1, 2011, each eligible county must report to the Puget Sound regional council the total number of transferable development rights from agricultural and forest land of long-term commercial significance and designated rural zoned lands within the eligible county that may be available for allocation to receiving cities under this chapter, as determined under sections 302 and 303 of this act.

NEW SECTION. Sec. 305. ALLOCATION AMONG LOCAL GOVERNMENTS OF TRANSFERABLE DEVELOPMENT RIGHTS FROM AGRICULTURAL AND FOREST LAND OF LONG-TERM COMMERCIAL SIGNIFICANCE AND DESIGNATED RURAL ZONED LANDS. (1) The Puget Sound regional council must allocate among receiving cities the total number of development rights reported by eligible counties under section 304 of this act. Each receiving city allocated share must be determined by the Puget Sound regional council, in consultation with eligible counties and receiving cities, based on growth targets, determined by established growth management processes, and other relevant factors as determined by the Puget Sound regional council in conjunction with the counties and receiving cities.

(2) The Puget Sound regional council must report to each receiving city its receiving city allocated share on or before March 1, 2012.

(3) The Puget Sound regional council must report each receiving city allocated share to the department of commerce on or before March 1, 2012.

(4) A receiving city may become a sponsoring city by accepting all or a portion of its receiving city allocated share, adopting a plan in accordance with section 401 of this act, and creating one or more local infrastructure project areas to pay or finance costs of public improvements.

(5) A receiving city may, by interlocal agreement, transfer all or a portion of its receiving city allocated share to another sponsoring city. The transferred portion of the receiving city allocated share must be included in the other sponsoring city allocated share.

PART IV RECEIVING AREAS

NEW SECTION. Sec. 401. DEVELOPMENT PLAN FOR INFRASTRUCTURE. (1) Before adopting an ordinance or resolution creating one or more local infrastructure project areas, a sponsoring city must adopt a plan for development of public infrastructure within one or more proposed local infrastructure project areas sufficient to utilize, on an aggregate basis, a sponsoring city specified portion that is equal to or greater than twenty percent of the sponsoring city allocated share.

(2) The plan must be developed in consultation with the department of transportation and the county where the local infrastructure project area to be created is located, be consistent with any transfer of development rights policies or development regulations adopted by the sponsoring city under section 402 of this act, specify the public improvements to be financed using local infrastructure project financing under section 601 of this act, estimate the number of any transferable development rights that will be used within the local infrastructure project area or areas and estimate the cost of the public improvements.

(3) A plan adopted under this section may be revised from time to time by the sponsoring city, in consultation with the county where the local infrastructure project area or areas are located, to increase the sponsoring city specified portion.

NEW SECTION. Sec. 402. PROGRAM FOR TRANSFER OF DEVELOPMENT RIGHTS INTO RECEIVING AREAS—REQUIREMENTS. (1) Before adopting an ordinance or resolution creating one or more local infrastructure project areas, a sponsoring city must:
(a) Adopt transfer of development rights policies or implement development regulations as required by subsection (2) of this section; or
(b) Make a finding that the sponsoring city will:
(i) Receive its sponsoring city specified portion within one or more local infrastructure project areas; or
(ii) Purchase its sponsoring city specified portion should the sponsoring city not be able to receive its sponsoring city specified portion within one or more local infrastructure project areas such that purchased development rights can be held in reserve by the sponsoring city and used in future development.

(2) Any adoption of transfer of development rights policies or implementation of development regulations must:
(a) Comply with chapter 36.70A RCW;
(b) Designate a receiving area or areas;
(c) Adopt incentives consistent with subsection (4) of this section for developers purchasing transferable development rights;
(d) Establish an exchange rate consistent with subsection (5) of this section; and
(e) Require that the sale of a transferable development right from agricultural or forest land of long-term commercial significance or designated rural zoned lands under section 303 of this act be evidenced by its permanent removal from the sending site, such as through a conservation easement on the sending site.

(3) Any adoption of transfer of development rights policies or implementation of development regulations must not be based upon a downzone within one or more receiving areas solely to create a market for the transferable development rights.

(4) Developer incentives should be designed to:
(a) Achieve the densities or intensities reasonably likely to result from absorption of the sponsoring city specified portion identified in the plan under section 401 of this act,
(b) Include streamlined permitting strategies such as by-right permitting; and
(c) Include streamlined environmental review strategies such as development and substantial environmental review of a subarea plan for a receiving area that benefits projects that use transferable development rights, with adoption as appropriate under RCW 43.21C.420 of optional elements of their comprehensive plan and optional development regulations that apply within the receiving area, adoption as appropriate of a categorical exemption for infill under RCW 43.21C.229 for a receiving area, and adoption as appropriate of a planned action under RCW 43.21C.031 for the receiving area.

(5) Each sponsoring city may determine, at its option, what developer incentives to adopt within its jurisdiction.
(6) Exchange rates should be designed to:
(a) Create a marketplace in which transferable development rights are priced at a level at which sending site landowners are willing to sell and developers are willing to buy transferable development rights;
(b) Achieve the densities or intensities anticipated by the plan adopted under section 401 of this act;
(c) Provide for translation to commodities in addition to residential density, such as building height, commercial floor area, parking ratio, impervious surface, parkland and open space, setbacks, and floor area ratio; and
(d) Allow for appropriate exemptions from other land use or building requirements.
(7) A sponsoring city must designate all agricultural and forest land of long-term commercial significance and designated rural zoned lands under section 303 of this act within the eligible counties as available sending areas.
(8) A sponsoring city, in accordance with its existing comprehensive planning and development regulation authority under chapter 36.70A RCW, and in accordance with RCW 36.70A.080, may elect to adopt an optional comprehensive plan element and optional development regulations that apply within one or more local infrastructure project areas under this chapter.

NEW SECTION. Sec. 403. DEVELOPMENT RIGHTS AVAILABLE FOR TRANSFER TO RECEIVING CITIES. Only development rights from agricultural and forest land of long-term commercial significance within the eligible counties as determined under section 302 of this act, and rural-zoned lands with the eligible counties designated under section 303 of this act, may be available for transfer to receiving cities in accordance with this chapter.

PART V

PART VI
ESTABLISHMENT OF LOCAL INFRASTRUCTURE PROJECT AREAS

NEW SECTION. Sec. 601. CREATING A LOCAL INFRASTRUCTURE PROJECT AREA. (1) Before adopting an ordinance or resolution creating one or more local infrastructure project areas, a sponsoring city must:
(a) Provide notice to the county assessor, county treasurer, and county within the proposed local infrastructure project area of the sponsoring city's intent to create one or more local infrastructure project areas. This notice must be provided at least one hundred eighty days in advance of the public hearing as required by (b) of this subsection;
(b) Hold a public hearing on the proposed formation of the local infrastructure project area.
(2) A sponsoring city may create one or more local infrastructure project areas by ordinance or resolution that:
(a) Describes the proposed public improvements, identified in the plan under section 401 of this act, to be financed in each local infrastructure project area;
(b) Describes the boundaries of each local infrastructure project area, subject to the limitations in section 602 of this act; and
(c) Provides the date when the use of local property tax allocation revenues will commence and a list of the participating taxing districts.
(3) The sponsoring city must deliver a certified copy of the adopted ordinance or resolution to the county assessor, county treasurer, and each other participating taxing district within which the local infrastructure project area is located.

NEW SECTION. Sec. 602. LIMITATIONS ON LOCAL INFRASTRUCTURE PROJECT AREAS. The designation of any local infrastructure project area is subject to the following limitations:
(1) A local infrastructure project area is limited to contiguous tracts, lots, pieces, or parcels of land without the creation of islands of territory not included in the local infrastructure project area;
(2) The public improvements to be financed with local infrastructure project financing must be located in the local infrastructure project area and must, in the determination of the sponsoring city, further the intent of this chapter;
(3) Local infrastructure project areas created by a sponsoring city may not comprise an area containing more than twenty-five percent of the total assessed value of taxable property within the sponsoring city at the time the local infrastructure project areas are created;
(4) The boundaries of each local infrastructure project area may not overlap and may not be changed during the time period that local...
infrastructure project financing is used within the local infrastructure project area, as provided under this chapter; and

(5) All local infrastructure project areas created by the sponsoring city must comprise, in the aggregate, an area that the sponsoring city determines (a) is sufficient to use the sponsoring city specified portion, unless the sponsoring city satisfies its sponsoring city allocated share under section 402(1)(b)(ii) of this act, and (b) is no larger than reasonably necessary to use the sponsoring city specified portion in projected future developments.

NEW SECTION. Sec. 603. PARTICIPATING TAXING DISTRICTS. Participating taxing districts must allow the use of all of their local property tax allocation revenues for local infrastructure project financing.

PART VII
LOCAL INFRASTRUCTURE PROJECT FINANCING
USE OF PROPERTY TAX REVENUES TO PAY OR FINANCE
COSTS OF PUBLIC IMPROVEMENTS

NEW SECTION. Sec. 701. ALLOCATION OF PROPERTY TAX REVENUES. (1) Commencing in the second calendar year following the creation of a local infrastructure project area by a sponsoring city, the county treasurer must distribute receipts from regular taxes imposed on real property located in the local infrastructure project area as follows:

(a) Each participating taxing district and the sponsoring city must receive that portion of its regular property taxes produced by the rate of tax levied by or for the taxing district on the property tax allocation revenue base value for that local infrastructure project area in the taxing district; and

(b) The sponsoring city must receive an additional portion of the regular property taxes levied by it and by or for each participating taxing district upon the property tax allocation revenue value within the local infrastructure project area. However, if there is no property tax allocation revenue value, the sponsoring city may not receive any additional regular property taxes under this subsection (1)(b). The sponsoring city may agree to receive less than the full amount of the additional portion of regular property taxes under this subsection (1)(b) as long as bond debt service, reserve, and other bond covenant requirements are satisfied, in which case the balance of these tax receipts must be allocated to the participating taxing districts that levied regular property taxes, or have regular property taxes levied for them, in the local infrastructure project area for collection that year in proportion to their regular tax levy rates for collection that year. The sponsoring city may request that the treasurer transfer this additional portion of the property taxes to its designated agent. The portion of the tax receipts distributed to the sponsoring local government or its agent under this subsection (1)(b) may only be expended to pay or finance public improvement costs within the local infrastructure project area.

(2) The county assessor must determine the property tax allocation revenue value and property tax allocation revenue base value. This section does not authorize revaluations of real property by the assessor for property taxation that are not made in accordance with the assessor's revaluation plan under chapter 84.41 RCW or under other authorized revaluation procedures.

(3)(a) The distribution of local property tax allocation revenue to the sponsoring city must cease on the date that is the earlier of:

(i) The date when local property tax allocation revenues are no longer used or obligated to pay the costs of the public improvements; or

(ii) The final termination date as determined under (b) of this subsection.

(b) The final termination date is determined as follows:

(i) Except as provided otherwise in this subsection (3)(b), if the sponsoring city certifies to the county treasurer that the local property tax threshold level 1 is met, the final termination date is ten years after the date of the first distribution of local property tax allocation revenues under subsection (1) of this section;

(ii) If the sponsoring city certifies to the county treasurer that the local property tax threshold level 2 is met at least six months prior to the final termination date under (b)(i) of this subsection (3), the final termination date is fifteen years after the date of the first distribution of local property tax allocation revenues under subsection (1) of this section;

(iii) If the sponsoring city certifies to the county treasurer that the local property tax threshold level 3 is met at least six months prior to the final termination date under (b)(ii) of this subsection (3), the final termination date is twenty years after the date of the first distribution of local property tax allocation revenues under subsection (1) of this section;

(iv) If the sponsoring city certifies to the county treasurer that the local property tax threshold level 4 is met at least six months prior to the final termination date under (b)(iii) of this subsection (3), the final termination date is twenty-five years after the date of the first distribution of local property tax allocation revenues under subsection (1) of this section.

(4) For purposes of this section:

(a) The "local property tax threshold level 1" is met when the sponsoring city has either:

(i) Issued building permits for development within the local infrastructure project area that, on an aggregate basis, uses at least twenty-five percent of the sponsoring city specified portion; or

(ii) Acquired transferable development rights equal to at least twenty-five percent of the sponsoring city specified portion for use in the local infrastructure project area or for extinguishment.

(b) The "local property tax threshold level 2" is met when the sponsoring city has either:

(i) Issued building permits for development within the local infrastructure project area that, on an aggregate basis, uses at least fifty percent of the sponsoring city specified portion; or

(ii) Acquired transferable development rights equal to at least fifty percent of the sponsoring city specified portion for use in the local infrastructure project area or for extinguishment.

(c) The "local property tax threshold level 3" is met when the sponsoring city has either:

(i) Issued building permits for development within the local infrastructure project area that, on an aggregate basis, uses at least seventy-five percent of the sponsoring city specified portion; or

(ii) Acquired transferable development rights equal to at least seventy-five percent of the sponsoring city specified portion for use in the local infrastructure project area or for extinguishment.

(d) The "local property tax threshold level 4" is met when the sponsoring city has either:

(i) Issued building permits for development within the local infrastructure project area that, on an aggregate basis, uses at least one hundred percent of the sponsoring city specified portion; or

(ii) Acquired transferable development rights equal to at least one hundred percent of the sponsoring city specified portion for use in the local infrastructure project area or for extinguishment.

(5) Any excess local property tax allocation revenues, and earnings on the revenues, remaining at the time the distribution of local property tax allocation revenue terminates must be returned to the county treasurer and distributed to the participating taxing districts that imposed regular property taxes, or had regular property taxes imposed for it, in the local infrastructure project area for collection that year, in proportion to the rates of their regular property tax levies for collection that year.

(6) The allocation to local infrastructure project financing of that portion of the sponsoring city's and each participating taxing district's regular property taxes levied upon the property tax allocation revenue value within that local infrastructure project area is declared to be a
public purpose of and benefit to the sponsoring city and each participating taxing district.

(7) The distribution of local property tax allocation revenues under this section may not affect or be deemed to affect the rate of taxes levied by or within any sponsoring local government and participating taxing district or the consistency of any such levies with the uniformity requirement of Article VII, section 1 of the state Constitution.

department or by the state board of health.

(3) Following its review of the application, its supporting
material, and any information received by the department in its
investigation of the application, the department shall issue or deny

it determines are reasonable and necessary to ensure that the system
will provide a safe and reliable water supply to its users.

(5) Operating permits shall be issued for a term of one year, and
shall be renewed annually, unless the operator fails to apply for a new

The legislature finds and declares that ((assisting persons regarding immigration matters)) the practice by nonlawyers and other unauthorized persons of providing legal advice and legal services to others in immigration matters substantially affects the public interest. The practice((s)) of ((immigration assistants have a significant impact on the residents of the state of Washington)) nonlawyers and other unauthorized persons providing immigration-related legal advice and legal services for compensation may impact the ability of their customers to reside and work within the United States and to establish and maintain stable families and business relationships. The legislature further finds and declares that the previous scheme for regulating the behavior of nonlawyers and other unauthorized persons who provide immigration-related services is inadequate to address the level of unfair and deceptive practices that exists in the marketplace and often contributes to the unauthorized practice of law. It is the intent of the legislature, through this act, to ((establish rules of practice and conduct for immigration assistants to promote honesty and fair dealing with residents and to preserve public confidence)) prohibit nonlawyers and other unauthorized persons from providing immigration-related services that constitute the practice of law.

SSB 5042 Prime Sponsor, Committee on Health & Long-Term Care: Concerning the protection of vulnerable adults. Reported by Committee on Judiciary

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"Sec. 917. RCW 74.34.020 and 2010 c 133 s 2 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Abandonment" means action or inaction by a person or entity with a duty of care for a vulnerable adult that leaves the vulnerable person without the means or ability to obtain necessary food, clothing, shelter, or health care.

(2) "Abuse" means the willful action or inaction that inflicts injury, unreasonable confinement, intimidation, or punishment on a vulnerable adult. In instances of abuse of a vulnerable adult who is unable to express or demonstrate physical harm, pain, or mental anguish, the abuse is presumed to cause physical harm, pain, or mental anguish. Abuse includes sexual abuse, mental abuse, physical abuse, and exploitation of a vulnerable adult, which have the following meanings:

(a) "Sexual abuse" means any form of nonconsensual sexual contact, including but not limited to unwanted or inappropriate touching, rape, sodomy, sexual coercion, sexually explicit photographing, and sexual harassment. Sexual abuse includes any sexual contact between a staff person, who is not also a resident or client, of a facility or a staff person of a program authorized under chapter 71A.12 RCW, and a vulnerable adult living in that facility or receiving service from a program authorized under chapter 71A.12 RCW, whether or not it is consensual.

(b) "Physical abuse" means the willful action of inflicting bodily injury or physical mistreatment. Physical abuse includes, but is not limited to, striking with or without an object, slapping, pinching, choking, kicking, shoving, prodding, or the use of chemical restraints or physical restraints unless the restraints are consistent with licensing requirements, and includes restraints that are otherwise being used inappropriately.

(c) "Mental abuse" means any willful action or inaction of mental or verbal abuse. Mental abuse includes, but is not limited to, coercion, harassment, inappropriately isolating a vulnerable adult from family, friends, or regular activity, and verbal assault that includes ridiculing, intimidating, yelling, or swearing.

(d) "Exploitation" means an act of forcing, compelling, or exerting undue influence over a vulnerable adult causing the vulnerable adult to act in a way that is inconsistent with relevant past behavior, or causing the vulnerable adult to perform services for the benefit of another.

(3) "Consent" means express written consent granted after the vulnerable adult or his or her legal representative has been fully informed of the nature of the services to be offered and that the receipt of services is voluntary.

(4) "Department" means the department of social and health services.

(5) "Facility" means a residence licensed or required to be licensed under chapter 18.20 RCW, boarding homes; chapter 18.51 RCW, nursing homes; chapter 70.128 RCW, adult family homes; chapter 72.36 RCW, soldiers' homes; or chapter 71A.20 RCW, residential habilitation centers; or any other facility licensed or certified by the department.

(6) "Financial exploitation" means the illegal or improper use, control over, or withholding of the property, income, resources, or trust funds of the vulnerable adult by any person or entity for any person's or entity's profit or advantage other than for the vulnerable adult's profit or advantage. "Financial exploitation" includes, but is not limited to:

(a) The use of deception, intimidation, or undue influence by a person or entity in a position of trust and confidence with a vulnerable adult to obtain or use the property, income, resources, or trust funds of the vulnerable adult for the benefit of a person or entity other than the vulnerable adult;

(b) The breach of a fiduciary duty, including, but not limited to, the misuse of a power of attorney, trust, or a guardianship appointment, that results in the unauthorized appropriation, sale, or transfer of the property, income, resources, or trust funds of the vulnerable adult for the benefit of a person or entity other than the vulnerable adult;

(c) Obtaining or using a vulnerable adult's property, income, resources, or trust funds without lawful authority, by a person or entity who knows or clearly should know that the vulnerable adult lacks the capacity to consent to the release or use of his or her property, income, resources, or trust funds.

(7) "Financial institution" has the same meaning as in RCW 30.22.040 and 30.22.041. For purposes of this chapter only, "financial institution" also means a "broker-dealer" or "investment adviser" as defined in RCW 21.20.005.

(8) "Incapacitated person" means a person who is at a significant risk of personal or financial harm under RCW 11.88.010(1) (a), (b), (c), or (d).

(9) "Individual provider" means a person under contract with the department to provide services in the home under chapter 74.09 or 74.39A RCW.

(10) "Interested person" means a person who demonstrates to the court's satisfaction that the person is interested in the welfare of the vulnerable adult, that the person has a good faith belief that the court's intervention is necessary, and that the vulnerable adult is unable, due to incapacity, undue influence, or duress at the time the petition is filed, to protect his or her own interests.

(11) "Mandated reporter" is an employee of the department; law enforcement officer; social worker; professional school personnel; individual provider; an employee of a facility; an operator of a facility; an employee of a social service, welfare, mental health, adult day health, adult day care, home health, home care, or hospice agency; county coroner or medical examiner; Christian Science practitioner; or health care provider subject to chapter 18.130 RCW.

(12) "Neglect" means (a) a pattern of conduct or inaction by a person or entity with a duty of care that fails to provide the goods and services that maintain physical or mental health of a vulnerable adult, or that fails to avoid or prevent physical or mental harm or pain to a vulnerable adult; or (b) an act or omission that demonstrates a serious disregard of consequences of such a magnitude as to constitute a clear and present danger to the vulnerable adult's health, welfare, or safety, including but not limited to conduct prohibited under RCW 9A.42.100.

(13) "Permissive reporter" means any person, including, but not limited to, an employee of a financial institution, attorney, or
volunteer in a facility or program providing services for vulnerable adults.

(14) "Protective services" means any services provided by the department to a vulnerable adult with the consent of the vulnerable adult, or the legal representative of the vulnerable adult, who has been abandoned, abused, financially exploited, neglected, or in a state of self-neglect. These services may include, but are not limited to case management, social casework, home care, placement, arranging for medical evaluations, psychological evaluations, day care, or referral for legal assistance.

(15) "Self-neglect" means the failure of a vulnerable adult, not living in a facility, to provide for himself or herself the goods and services necessary for the vulnerable adult's physical or mental health, and the absence of which impairs or threatens the vulnerable adult's well-being. This definition may include a vulnerable adult who is receiving services through home health, hospice, or a home care agency, or an individual provider when the neglect is not a result of inaction by that agency or individual provider.

(16) "Vulnerable adult" includes a person:
(a) Sixty years of age or older who has the functional, mental, or physical inability to care for himself or herself; or
(b) Found incapacitated under chapter 11.88 RCW; or
(c) Who has a developmental disability as defined under RCW 71A.10.020; or
(d) Admitted to any facility; or
(e) Receiving services from home health, hospice, or home care agencies licensed or required to be licensed under chapter 70.127 RCW; or
(f) Receiving services from an individual provider; or
(g) Who self-directs his or her own care and receives services from a personal aide under chapter 74.39 RCW.

Sec. 918. RCW 74.34.067 and 2007 c 312 s 2 are each amended to read as follows:
(1) Where appropriate, an investigation by the department may include a private interview with the vulnerable adult regarding the alleged abandonment, abuse, financial exploitation, neglect, or self-neglect.

(2) In conducting the investigation, the department shall interview the complainant, unless anonymous, and shall use its best efforts to interview the vulnerable adult or adults harmed, and, consistent with the protection of the vulnerable adult shall interview facility staff, any available independent sources of relevant information, including if appropriate the family members of the vulnerable adult.

(3) The department may conduct ongoing case planning and consultation with: (a) Those persons or agencies required to report under this chapter or submit a report under this chapter; (b) Consultants designated by the department; and (c) Designated representatives of Washington Indian tribes if client information exchanged is pertinent to cases under investigation or the provision of protective services. Information considered privileged by statute and not directly related to reports required by this chapter must not be divulged without a valid written waiver of the privilege.

(4) The department shall prepare and keep on file a report of each investigation conducted by the department for a period of time in accordance with policies established by the department.

(5) If the department has reason to believe that the vulnerable adult has suffered from abandonment, abuse, financial exploitation, neglect, or self-neglect, and lacks the ability or capacity to consent, and needs the protection of a guardian, the department may bring a guardianship action under chapter 11.88 RCW.

(6) When the investigation is completed and the department determines that an incident of abandonment, abuse, financial exploitation, neglect, or self-neglect has occurred, the department shall inform the vulnerable adult of their right to refuse protective services, and ensure that, if necessary, appropriate protective services are provided to the vulnerable adult, with the consent of the vulnerable adult. The vulnerable adult has the right to withdraw or refuse protective services.

(7) The department's adult protective services division may enter into agreements with federally recognized tribes to investigate reports of abandonment, abuse, financial exploitation, neglect, or self-neglect of vulnerable adults on property over which a federally recognized tribe has exclusive jurisdiction. If the department has information that abandonment, abuse, financial exploitation, or neglect is criminal or is placing a vulnerable adult on tribal property at potential risk of personal or financial harm, the department may notify tribal law enforcement or another tribal representative specified by the tribe. Upon receipt of the notification, the tribe may assume jurisdiction of the matter. Neither the department nor its employees may participate in the investigation after the tribe assumes jurisdiction. The department, its officers, and its employees are not liable for any action or inaction of the tribe or for any harm to the alleged victim, the person against whom the allegations were made, or other parties that occur after the tribe assumes jurisdiction. Nothing in this section limits the department's jurisdiction and authority over facilities or entities that the department licenses or certifies under federal or state law.

(8) The department may photograph a vulnerable adult or their environment for the purpose of providing documentary evidence of the physical condition of the vulnerable adult or his or her environment. When photographing the vulnerable adult, the department shall obtain permission from the vulnerable adult or his or her legal representative unless immediate photographing is necessary to preserve evidence. However, if the legal representative is alleged to have abused, neglected, abandoned, or exploited the vulnerable adult, consent from the legal representative is not necessary. No such consent is necessary when photographing the physical environment.

NEW SECTION. Sec. 919. A new section is added to chapter 74.34 RCW to read as follows:

(1) When the department opens an investigation of a report of abandonment, abuse, financial exploitation, or neglect of a vulnerable adult, the department shall, at the time of the interview of the vulnerable adult who is an alleged victim, provide a written statement of the rights afforded under this chapter and other applicable law to alleged victims or legal guardians. This statement must include the department's name, address, and telephone number and may include other appropriate referrals. The statement must be substantially in the following form:

"You are entitled to be free from abandonment, abuse, financial exploitation, and neglect. If there is a reason to believe that you have experienced abandonment, abuse, financial exploitation, or neglect, you have the right to:

(a) Make a report to the department of social and health services and law enforcement and share any information you believe could be relevant to the investigation, and identify any persons you believe could have relevant information.

(b) Be free from retaliation for reporting or causing a report of abandonment, abuse, financial exploitation, or neglect.

(c) Be treated with dignity and addressed with respectful language.

(d) Reasonable accommodation for your disability when reporting, and during investigations and administrative proceedings.

(e) Request an order that prohibits anyone who has abandoned, abused, financially exploited, or neglected you from remaining in
your home, having contact with you, or accessing your money or property.

(f) Receive from the department of social and health services information and appropriate referrals to other agencies that can advocate, investigate, or take action.

(g) Be informed of the status of investigations, proceedings, court actions, and outcomes by the agency that is handling any case in which you are a victim.

(h) Request referrals for advocacy or legal assistance to help with safety planning, investigations, and hearings.

(i) Complain to the department of social and health services, formally or informally, about investigations or proceedings, and receive a prompt response."

(2) This section shall not be construed to create any new cause of action or limit any existing remedy.

SSB 5067 Prime Sponsor, Committee on Labor, Commerce & Consumer Protection: Changing the certified and registered mail requirements of the department of labor and industries and employment security department. Reported by Committee on Labor & Workforce Development

MAJORITY recommendation: Do pass as amended.

On page 3, after line 10 insert the following:

"Sec. 3. RCW 18.27.370 and 2001 c 159 s 6 are each amended to read as follows:

(1) If an unregistered contractor defaults in a payment, penalty, or fine due to the department, the director or the director's designee may issue a notice of assessment certifying the amount due. The notice must be served upon the unregistered contractor by mailing the notice to the unregistered contractor by certified mail to the unregistered contractor's last known address or served in the manner prescribed for the service of a summons in a civil action.

(2) A notice of assessment becomes final thirty days from the date the notice was served upon the unregistered contractor unless a written request for reconsideration is filed with the department or an appeal is filed in a court of competent jurisdiction in the manner specified in RCW 34.05.510 through 34.05.598. The request for reconsideration must set forth with particularity the reason for the unregistered contractor's request. The department, within thirty days after receiving a written request for reconsideration, may modify or reverse a notice of assessment, or may hold a notice of assessment in abeyance pending further investigation. If a final decision of a court in favor of the department is not appealed within the time allowed by law, then the amount of the unappealed assessment, or such amount of the assessment as is found due by the final decision of the court, is final.

(3) The director or the director's designee may file with the clerk of any county within the state, a warrant in the amount of the notice of assessment, plus interest, penalties, and a filing fee of twenty dollars. The clerk of the county in which the warrant is filed shall immediately designate a superior court cause number for the warrant, and the clerk shall cause to be entered in the judgment docket under the superior court cause number assigned to the warrant, the name of the unregistered contractor mentioned in the warrant, the amount of payment, penalty, fine due on it, or filing fee, and the date when the warrant was filed. The aggregate amount of the warrant as docketed shall become a lien upon the title to, and interest in, all real and personal property of the unregistered contractor against whom the warrant is issued, the same as a judgment in a civil case docketed in the office of the clerk. The sheriff shall proceed upon the warrant in all respects and with like effect as prescribed by law with respect to execution or other process issued against rights or property upon judgment in a court of competent jurisdiction. The warrant so docketed is sufficient to support the issuance of writs of garnishment in favor of the state in a manner provided by law in case of judgment, wholly or partially unsatisfied. The clerk of the court is entitled to a filing fee which will be added to the amount of the warrant. A copy of the warrant shall be mailed to the unregistered contractor within three days of filing with the clerk.

(4) The director or the director's designee may issue to any person, firm, corporation, other entity, municipal corporation, political subdivision of the state, a public corporation, or any agency of the state, a notice and order to withhold and deliver property of any kind or value, or any income tax required to be paid by a trustee.

The notice and order to withhold and deliver property of any kind or value, or any income tax required to be paid by a trustee, or any order of lapse of time and shall notify the person against whom the notice and order arose is satisfied or becomes unenforceable by reason of lapse of time. The department shall release the notice and order when the liability out of which the notice and order arose is satisfied or becomes unenforceable by reason of lapse of time and shall notify the person against whom the notice and order was made that the notice and order has been released.

The notice and order to withhold and deliver must be served by the sheriff of the county or by the sheriff's deputy, (by certified mail, return receipt requested) using a method by which the mailing can be tracked or the delivery can be confirmed, or by an authorized representative of the director. A person, firm, corporation, other entity, municipal corporation, political subdivision of the state, public corporation, or agency of the state upon whom service has been made shall answer the notice and order in a manner provided by law in case of judgment, wholly or partially unsatisfied. The clerk of the court is entitled to a filing fee which will be added to the amount of the warrant. A copy of the warrant shall be mailed to the unregistered contractor within three days of filing with the clerk.
determination of a petition for review. In the alternative, the party shall furnish a good and sufficient surety bond satisfactory to the director conditioned upon final determination of liability. If a party served and named in the notice fails to answer the notice within the time prescribed in this section, the court may render judgment by default against the party for the full amount claimed by the director in the notice, together with costs. If a notice is served upon an unregistered contractor and the property subject to it is wages, the unregistered contractor may assert in the answer all exemptions provided for by chapter 6.27 RCW to which the wage earner is entitled.

(5) In addition to the procedure for collection of a payment, penalty, or fine due to the department as set forth in this section, the department may recover civil penalties imposed under this chapter in a civil action in the name of the department brought in a court of competent jurisdiction of the county where the violation is alleged to have occurred."

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 922. The legislature finds that consumer savings is essential, both for individuals seeking to obtain the American dream, and in order to rebuild a strong economy. The legislature further finds that for most of the last two decades, consumers have borrowed more than they have saved, with current United States savings rates under six percent. The legislature intends to encourage financial institutions to develop innovative products that create incentives to encourage consumer savings, particularly savings by low-income consumers.

Sec. 923. RCW 9.46.0356 and 2000 c 228 s 1 are each amended to read as follows:

(1) The legislature authorizes:
   (a) A business to conduct a promotional contest of chance as defined in this section, in this state, or partially in this state, whereby the elements of prize and chance are present but in which the element of consideration is not present;
   (b) A financial institution, as defined in RCW 30.22.040, to conduct a promotional contest of chance under this section in which a drawing for a prize is held that includes as eligible prize recipients only those persons who: (i) Deposited funds at the financial institution in a savings account, certificate of deposit, or any other savings program; and (ii) retained those funds for at least one year in a savings account, certificate of deposit, or any other savings program of the financial institution. No such contest may be conducted, either wholly or partially, by means of the internet.
   (2) Promotional contests of chance under this section are not gambling as defined in RCW 9.46.0237.
   (3) Promotional contests of chance shall be conducted as advertising and promotional undertakings solely for the purpose of advertising or promoting the services, goods, wares, and merchandise of a business.
   (4) No person eligible to receive a prize in a promotional contest of chance under subsection (1)(a) of this section may be required to:
      (a) Pay any consideration to the promoter or operator of the business in order to participate in the contest; or
      (b) Purchase any service, goods, wares, merchandise, or anything of value from the business, however, for other than contests entered through a direct mail solicitation, the promoter or sponsor may give additional entries or chances upon purchase of service, goods, wares, or merchandise if the promoter or sponsor provides an alternate method of entry requiring no consideration.
   (5) No person eligible to receive a prize in a promotional contest of chance under subsection (1)(b) of this section may be required to pay any consideration other than the deposit of funds, or purchase any service, goods, wares, merchandise, or anything of value from the financial institution.
   (6)(a) As used in this section, "consideration" means anything of pecuniary value required to be paid to the promoter or sponsor in order to participate in a promotional contest. Such things as visiting a business location, placing or answering a telephone call, completing an entry form or customer survey, or furnishing a stamped, self-addressed envelope do not constitute consideration.
      (b) Coupons or entry blanks obtained by purchase of a bona fide newspaper or magazine or in a program sold in conjunction with a regularly scheduled sporting event are not consideration.
      (c) Merchandise or prizes obtained by purchase of a bona fide newspaper or magazine or in a program sold in conjunction with a regularly scheduled sporting event are not consideration.

Sec. 925. RCW 30.22.040 and 1981 c 192 s 4 are each amended to read as follows:
Unless the context of this chapter otherwise requires, the terms contained in this section have the meanings indicated.
(1) "Account" means a contract of deposit between a depositor or depositors and a financial institution; the term includes a checking account, savings account, certificate of deposit, savings certificate, share account, savings bond, and other like arrangements.
(2) "Actual knowledge" means written notice to a manager of a branch of a financial institution, or an officer of the financial institution in the course of his employment at the branch, pertaining to funds held on deposit in an account maintained by the branch received within a period of time which affords the financial institution a reasonable opportunity to act upon the knowledge.
(3) "Individual" means a human being; "person" includes an individual, corporation, partnership, limited partnership, joint venture, trust, or other entity recognized by law to have separate legal powers.
(4) "Agent" means a person designated by a depositor or depositors in a contract of deposit or other document to have the authority to deposit and to make payments from an account in the name of the depositor or depositors.
(5) "Agency account" means an account to which funds may be deposited and from which payments may be made by an agent designated by a depositor. In the event there is more than one depositor named on an account, each depositor may designate the same or a different agent for the purpose of depositing to or making payments of funds from a depositor's account.
(6) "Single account" means an account in the name of one depositor only.
(7) "Joint account without right of survivorship" means an account in the name of two or more depositors and which contains no provision that the funds of a deceased depositor become the property of the surviving depositor or depositors.
(8) "Joint account with right of survivorship" means an account in the name of two or more depositors and which provides that the funds of a deceased depositor become the property of one or more of the surviving depositors.

The term "trust account" does not include deposits by trustees or other fiduciaries where the trust or fiduciary relationship is established other than by a contract of deposit with a financial institution.
(10) "Trust or P.O.D. account beneficiary" means a person or persons, other than a codepositor, who has or has been designated by a depositor or depositors to receive the depositor's funds remaining in an account upon the death of a depositor or all depositors.
(11) "Depositor", when utilized in determining the rights of individuals to funds in an account, means an individual who owns the funds. When utilized in determining the rights of a financial institution to make or withhold payment, and/or to take any other action with regard to funds held under a contract of deposit, "depositor" means the individual or individuals who have the current right to payment of funds held under the contract of deposit without regard to the actual rights of ownership thereof by these individuals. In either case, the proofs constitute prima facie proof of the
fact, place, date, and time of death, and identity of the decedent and the status of the dates, circumstances, and places disclosed by the record or report.

16) "Request" means a request for withdrawal, or a check or order for payment, which complies with all conditions of the account, including special requirements concerning necessary signatures and regulations of the financial institution; but if the financial institution conditions withdrawal or payment on advance notice, for purposes of this chapter the request for withdrawal or payment is treated as immediately effective and a notice of intent to withdraw is treated as a request for withdrawal.

17) "Withdrawal" means payment to a person pursuant to check or other directive of a depositor.

18) "Director" means the director of the department of financial institutions or his or her designee.

19) "Promotional contest of chance" means a drawing for a prize that includes as eligible prize recipients only those persons who: (a) Deposited funds at the financial institution in a savings account, certificate of deposit, or any other savings program; and (b) retained those funds for at least one year in a savings account, certificate of deposit, or any other savings program of the financial institution.

SSB 5271 Prime Sponsor, Committee on Natural Resources & Marine Waters: Regarding abandoned or derelict vessels. Reported by Committee on Judiciary

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

 Sec. 931. RCW 79.100.110 and 2006 c 153 s 1 are each amended to read as follows:

(1) A person who causes a vessel to become abandoned or derelict upon aquatic lands is guilty of a misdemeanor.

(2) A person who intentionally, through action or inaction and without the appropriate state, local, or federal authorization, causes a vessel to sink, break up, or block a navigational channel upon aquatic lands is guilty of a misdemeanor.

 Sec. 932. RCW 79.100.130 and 2007 c 342 s 3 are each amended to read as follows:

A marina owner may contract with a local government for the purpose of participating in the derelict vessel removal program. The local government shall serve as the authorized public entity for the removal of the derelict or abandoned vessel from the marina owner's property. The contract must provide for the marina owner to be financially responsible for the removal costs that are not reimbursed.
by the department as provided under RCW 79.100.100, and any additional reasonable administrative costs incurred by the local government during the removal of the derelict or abandoned vessel. Prior to the commencement of any removal which will seek reimbursement from the derelict vessel removal program, the contract and the proposed vessel removal shall be submitted to the department for review and approval. The local government shall use the procedure specified under RCW 79.100.100(6).

Sec. 933. RCW 53.08.320 and 2002 c 286 s 23 are each amended to read as follows:

A moorage facility operator may adopt all rules necessary for rental and use of moorage facilities and for the expeditious collection of port charges. The rules may also establish procedures for the enforcement of these rules by port district, city, county, metropolitan park district or town personnel. The rules shall include the following:

1. Procedures authorizing moorage facility personnel to take reasonable measures, including the use of chains, ropes, and locks, or removal from the water, to secure vessels within the moorage facility so that the vessels are in the possession and control of the moorage facility operator and cannot be removed from the moorage facility. These procedures may be used if an owner mooring or storing a vessel at the moorage facility fails, after being notified that charges are owing and of the owner's right to commence legal proceedings to contest that such charges are owing, to pay the port charges owed or to commence legal proceedings. Notification shall be by registered mail to the owner at his or her last known address. In the case of a transient vessel, or where no address was furnished by the owner, the moorage facility operator need not give such notice prior to securing the vessel. At the time of securing the vessel, an authorized moorage facility employee shall attach to the vessel a readily visible notice. The notice shall be of a reasonable size and shall contain the following information:

(a) The date and time the notice was attached;

(b) A statement that if the account is not paid in full within ninety days from the time the notice is attached, the vessel may be sold at public auction to satisfy the port charges; and

(c) The address and telephone number where additional information may be obtained concerning release of the vessel.

After a vessel is secured, the operator shall make a reasonable effort to notify the owner by registered mail in order to give the owner the information contained in the notice.

2. Procedures authorizing moorage facility personnel at their discretion to move moored vessels ashore for storage within properties under the operator's control or for storage with private persons under their control as bailees of the moorage facility, if the vessel is, in the opinion of port personnel a nuisance, if the vessel is in danger of sinking or creating other damage, or is owing port charges. Costs of any such procedure shall be paid by the vessel's owner. If the owner is not known, or unable to reimburse the moorage facility operator for the costs of these procedures, the mooring facility operator may seek reimbursement of (sec 935:disposal) ninety percent of all reasonable and auditable costs from the derelict vessel removal account established in RCW 79.100.100.

3. If a vessel is secured under subsection (1) of this section or moved ashore under subsection (2) of this section, the owner who is obligated to the moorage facility operator for port charges may regain possession of the vessel by:

(a) Making arrangements satisfactory with the moorage facility operator for the immediate removal of the vessel from the moorage facility or for authorized moorage; and

(b) Making payment to the moorage facility operator of all port charges, or by posting with the moorage facility operator a sufficient cash bond or other acceptable security, to be held in trust by the moorage facility operator pending written agreement of the parties with respect to payment by the vessel owner of the amount owing, or pending resolution of the matter of the charges in a civil action in a court of competent jurisdiction. After entry of judgment, including any appeals, in a court of competent jurisdiction, or after the parties reach agreement with respect to payment, the trust shall terminate and the moorage facility operator shall receive so much of the bond or other security as is agreed, or as is necessary to satisfy any judgment, costs, and interest as may be awarded to the moorage facility operator. The balance shall be refunded immediately to the owner at his or her last known address.

4. If a vessel has been secured by the moorage facility operator under subsection (1) of this section and is not released to the owner under the bonding provisions of this section within ninety days after notifying or attempting to notify the owner under subsection (1) of this section, the vessel shall be conclusively presumed to have been abandoned by the owner.

5. If a vessel moored or stored at a moorage facility is abandoned, the moorage facility operator may, by resolution of its legislative authority, authorize the public sale of the vessel by authorized personnel to the highest and best bidder for cash as prescribed by this subsection (5). Either a minimum bid may be established or a letter of credit may be required, or both, to discourage the future reabandonment of the vessel.

(a) Before the vessel is sold, the owner of the vessel shall be given at least twenty days' notice of the sale in the manner set forth in subsection (1) of this section if the name and address of the owner is known. The notice shall contain the time and place of the sale, a reasonable description of the vessel to be sold, and the amount of port charges owing with respect to the vessel. The notice of sale shall be published at least once, more than ten but not more than twenty days before the sale, in a newspaper of general circulation in the county in which the moorage facility is located. Such notice shall include the name of the vessel, if any, the last known owner and address, and a reasonable description of the vessel to be sold. The moorage facility operator may bid all or part of its port charges at the sale and may become a purchaser at the sale.

(b) Before the vessel is sold, any person seeking to redeem an impounded vessel under this section may commence a lawsuit in the superior court for the county in which the vessel was impounded to contest the validity of the impoundment or the amount of the port charges owing. Such lawsuit must be commenced within ten days of the date the notification was provided pursuant to subsection (1) of this section, or the right to a hearing shall be deemed waived and the owner shall be liable for any port charges owing the moorage facility operator. In the event of litigation, the prevailing party shall be entitled to reasonable attorneys' fees and costs.

(c) The proceeds of a sale under this section shall first be applied to the payment of port charges. The balance, if any, shall be paid to the owner. If the owner cannot in the exercise of due diligence be located by the moorage facility operator within one year of the date of the sale, the excess funds from the sale shall revert to the derelict vessel removal account established in RCW 79.100.100. If the sale is for a sum less than the applicable port charges, the moorage facility operator is entitled to assert a claim for a deficiency.

(d) In the event no one purchases the vessel at a sale, or a vessel is not removed from the premises or other arrangements are not made within ten days of sale, title to the vessel will revert to the moorage facility operator.

6. The rules authorized under this section shall be enforceable only if the moorage facility has had its tariff containing such rules conspicuously posted at its moorage facility at all times.

Sec. 934. RCW 79.100.030 and 2002 c 286 s 4 are each amended to read as follows:

1. An authorized public entity has the authority, subject to the processes and limitations of this chapter, to store, strip, use, auction, sell, salvage, scrap, or dispose of an abandoned or derelict vessel found on or above aquatic lands within the jurisdiction of the authorized public entity. A vessel disposal must be done in an
environmentally sound manner and in accordance with all federal, state, and local laws, including the state solid waste disposal provisions provided for in chapter 70.95 RCW. Scuttling or sinking of a vessel is only permissible after obtaining the express permission of the owner or owners of the aquatic lands where the scuttling or sinking would occur, and obtaining all necessary state and federal permits or licenses.

(2) The primary responsibility to remove a derelict or abandoned vessel belongs to the owner, operator, or lessee of the moorage facility or the aquatic lands where the vessel is located. If the authorized public entity with the primary responsibility is unwilling or unable to exercise the authority granted by this section, it may request the department to assume the authorized public entity's authority for a particular vessel. The department may at its discretion assume the authorized public entity's authority for a particular vessel after being requested to do so. For vessels not at a moorage facility, an authorized public entity with jurisdiction over the aquatic lands where the vessel is located, at its discretion, request to assume primary responsibility for that particular vessel from the owner of the aquatic lands where the vessel is located.

(3) The authority granted by this chapter is permissive, and no authorized public entity has a duty to exercise the authority. No liability attaches to an authorized public entity that chooses not to exercise this authority. An authorized public entity, in the good faith performance of the actions authorized under this chapter, is not liable for civil damages resulting from any act or omission in the performance of the actions other than acts or omissions constituting gross negligence or willful or wanton misconduct. Any person whose assistance has been requested by an authorized public entity, who has entered into a written agreement pursuant to RCW 79.100.070, and who, in good faith, renders assistance or advice with respect to activities conducted by an authorized public entity pursuant to this chapter, is not liable for civil damages resulting from any act or omission in the rendering of the assistance or advice, other than acts or omissions constituting gross negligence or willful or wanton misconduct.

(2) The law enforcement officer or prosecuting authority issuing the notice of infraction for an offense under this section shall state on the notice of infraction that the offense was a proximate cause of death, great bodily harm, or substantial bodily harm, as defined in RCW 9A.04.110, of a vulnerable user of a public way.

(6) If a person found to have committed a violation of this section elects the penalties imposed under subsection (5) of this section, the court shall impose the penalties under subsection (5) of this section and the court may assess costs as the court deems appropriate for administrative processing.

(7) Except as provided in (b) of this subsection, if a person found to have committed a violation of this section elects the penalties under subsection (5) of this section but does not complete all requirements of subsection (5) of this section within one year of the hearing:

(a)(i) The court shall impose a monetary penalty in the amount of five thousand dollars, which may not be reduced to an amount less than one thousand dollars; and
(ii) The person's driving privileges shall be suspended for ninety days.

(b) For good cause shown, the court may extend the period of time in which the person must complete the requirements of subsection (5) of this section before any of the penalties provided in this subsection are imposed.

Procedures for the conduct of all hearings provided for in this section may be established by rule of the supreme court.

(9) If a person is penalized under subsection (4) of this section, then the court shall notify the department, and the department shall suspend the person's driving privileges. If a person fails to meet the requirements of subsection (5) of this section, the court shall notify the department that the person has failed to meet the requirements of subsection (5) of this section and the department shall suspend the person's driving privileges. (1) It is unlawful for any person to drive a motor vehicle in this state while that person is in a suspended or revoked status or when his or her privilege to drive is suspended or revoked in this or any other state. Any person who has a valid Washington driver's license is not guilty of a violation of this section.

(a) A person found to be ((aa)) a habitual offender under chapter 46.65 RCW, who violates this section while an order of revocation issued under chapter 46.65 RCW prohibiting such operation is in effect, is guilty of driving while license suspended or revoked in the first degree, a gross misdemeanor. The minimum sentence of confinement required shall not be suspended or deferred. A conviction under this subsection does not prevent a person from petitioning for reinstatement as provided by RCW 46.65.080.

(b) A person who violates this section while an order of suspension or revocation prohibiting such operation is in effect and while the person is not eligible to reinstate his or her driver's license or driving privilege, other than for a suspension for the reasons described in (c) of this subsection, is guilty of driving while license suspended or revoked in the second degree, a gross misdemeanor. For the purposes of this subsection, a person is not considered to be eligible to reinstate his or her driver's license or driving privilege if the person is eligible to obtain an ignition interlock driver's license but did not obtain such a license. This subsection applies when a person's driver's license or driving privilege has been suspended or revoked by reason of:

(vi) A conviction of RCW 46.52.020, relating to duty in case of injury to or death of a person or damage to an attended vehicle;

(ix) A conviction of RCW 46.61.500, relating to reckless driving;

(x) A conviction of RCW 46.61.502 or 46.61.504, relating to a person under the influence of intoxicating liquor or drugs;

(xi) A conviction of RCW 46.61.520, relating to vehicular homicide;

(xii) A conviction of RCW 46.61.522, relating to vehicular assault;

(xiii) A conviction of RCW 46.61.527(4), relating to reckless endangerment of roadway workers;

(xvi) A conviction of RCW 46.61.740, relating to theft of motor vehicle fuel;

(xvii) A conviction of RCW 46.64.048, relating to attempting, aiding, abetting, coercing, and committing crimes;

(xviii) An administrative action taken by the department under chapter 46.20 RCW; ((aa))

(xix) A conviction of a local law, ordinance, regulation, or resolution of a political subdivision of this state, the federal government, or any other state, of an offense substantially similar to a violation included in this subsection; or

(xx) A finding that a person has committed a traffic infraction under section 1 of this act and suspension of driving privileges pursuant to section 1 (4)(b) or (7)(a)(ii) of this act.

(c) A person who violates this section when his or her driver's license or driving privilege is, at the time of the violation, suspended or revoked solely because (i) the person must furnish proof of satisfactory progress in a required alcoholism or drug treatment program, (ii) the person must furnish proof of financial responsibility for the future as provided by chapter 46.29 RCW, (iii) the person has failed to comply with the provisions of chapter 46.29 RCW relating to uninsured accidents, (iv) the person has failed to respond to a notice of traffic infraction, failed to appear at a requested hearing, violated a
written promise to appear in court, or has failed to comply with the terms of a notice of traffic infraction or citation, as provided in RCW 46.20.289. (v) the person has committed an offense in another state that, if committed in this state, would not be grounds for the suspension or revocation of the person's driver's license, (vi) the person has been suspended or revoked by reason of one or more of the items listed in (b) of this subsection, but was eligible to reinstate his or her driver's license or driving privilege at the time of the violation, or (vii) the person has received traffic citations or notices of traffic infraction that have resulted in a suspension under RCW 46.20.267 relating to intermediate drivers' licenses, or any combination of (c)(i) through (vii) of this subsection, is guilty of driving while license suspended or revoked in the third degree, a misdemeanor. For the purposes of this subsection, a person is not considered to be eligible to reinstate his or her driver's license or driving privilege if the person is eligible to obtain an ignition interlock driver's license but did not obtain such a license.

(2) Upon receiving a record of conviction of any person or upon receiving an order by any juvenile court or any duly authorized court officer of the conviction of any juvenile under this section, the department shall:

(a) For a conviction of driving while suspended or revoked in the first degree, as provided by subsection (1)(a) of this section, extend the period of administrative revocation imposed under chapter 46.65 RCW for an additional period of one year from and after the date the person would otherwise have been entitled to apply for a new license or have his or her driving privilege restored; or

(b) For a conviction of driving while suspended or revoked in the second degree, as provided by subsection (1)(b) of this section, not issue a new license or restore the driving privilege for an additional period of one year from and after the date the person would otherwise have been entitled to apply for a new license or have his or her driving privilege restored; or

(c) Not extend the period of suspension or revocation if the conviction was under subsection (1)(c) of this section. If the conviction was under subsection (1)(a) or (b) of this section and the court recommends against the extension and the convicted person has obtained a valid driver's license, the period of suspension or revocation shall not be extended.

Sec. 937. RCW 46.63.070 and 2006 c 327 s 7 are each amended to read as follows:

(1) Any person who receives a notice of traffic infraction shall respond to such notice as provided in this section within fifteen days of the date of the notice.

(2) If the person determined to have committed the infraction does not contest the determination the person shall respond by completing the appropriate portion of the notice of infraction and submitting it, either by mail or in person, to the court specified on the notice. A check or money order in the amount of the penalty prescribed for the infraction must be submitted with the response. When a response which does not contest the determination is received, an appropriate order shall be entered in the court's records, and a record of the response and order shall be furnished to the department in accordance with RCW 46.20.270.

(3) If the person determined to have committed the infraction wishes to contest the determination the person shall respond by completing the portion of the notice of infraction requesting a hearing and submitting it, either by mail or in person, to the court specified on the notice. The court shall notify the person in writing of the time, place, and date of the hearing, and that date shall not be sooner than seven days from the date of the notice, except by agreement.

(4) If the person determined to have committed the infraction does not contest the determination but wishes to explain mitigating circumstances surrounding the infraction the person shall respond by completing the portion of the notice of infraction requesting a hearing for that purpose and submitting it, either by mail or in person, to the court specified on the notice. The court shall notify the person in writing of the time, place, and date of the hearing.

(5) (a) Except as provided in (b) ((and) (c), (d), and (e)) of this subsection, in hearings conducted pursuant to subsections (3) and (4) of this section, the court may defer findings, or in a hearing to explain mitigating circumstances may defer entry of its order, for up to one year and impose conditions upon the defendant the court deems appropriate. Upon deferring findings, the court may assess costs as the court deems appropriate for administrative processing. If at the end of the deferral period the defendant has met all conditions and has not been determined to have committed another traffic infraction, the court may dismiss the infraction.

(b) A person may not receive more than one deferral within a seven-year period for traffic infractions for moving violations and more than one deferral within a seven-year period for traffic infractions for nonmoving violations.

(c) A person who is the holder of a commercial driver's license or who was operating a commercial motor vehicle at the time of the violation may not receive a deferral under this section.

(d) A person who commits negligent driving in the second degree with a vulnerable user victim may not receive a deferral for this infraction under this section.

(6) If any person issued a notice of traffic infraction:

(a) Fails to respond to the notice of traffic infraction as provided in subsection (2) of this section; or

(b) Fails to appear at a hearing requested pursuant to subsection (3) or (4) of this section; the court shall enter an appropriate order assessing the monetary penalty prescribed for the traffic infraction and any other penalty authorized by this chapter and shall notify the department in accordance with RCW 46.20.270, of the failure to respond to the notice of infraction or to appear at a requested hearing.

SSB 5579  Prime Sponsor, Committee on Judiciary: Modifying harassment provisions. Reported by Committee on Judiciary

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:
Sec. 941. RCW 10.14.150 and 2005 c 196 s 1 are each amended to read as follows:

(1) The district courts shall have original jurisdiction and cognizance of any civil actions and proceedings brought under this chapter, except the district court shall transfer such actions and proceedings to the superior court when it is shown that (a) the respondent to the petition is under eighteen years of age; (b) the action involves title or possession of real property; (c) a superior court has exercised or is exercising jurisdiction over a proceeding involving the parties; or (d) the action would have the effect of interfering with a respondent's care, control, or custody of the respondent's minor child.

(2) Municipal courts may exercise jurisdiction and cognizance of any civil actions and proceedings brought under this chapter by adoption of local court rule, except the municipal court shall transfer such actions and proceedings to the superior court when it is shown that (a) the respondent to the petition is under eighteen years of age; (b) the action involves title or possession of real property; (c) a superior court has exercised or is exercising jurisdiction over a proceeding involving the parties; or (d) the action would have the effect of interfering with a respondent's care, control, or custody of the respondent's minor child.

(3) Superior courts shall have concurrent jurisdiction to receive transfer of antiharassment petitions in cases where a district or municipal court judge makes findings of fact and conclusions of law showing that meritorious reasons exist for the transfer. The municipal and district courts shall have jurisdiction and cognizance of any criminal actions brought under RCW 10.14.120 and 10.14.170.

Sec. 942. RCW 10.14.020 and 2001 c 260 s 2 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Unlawful harassment" means a knowing and willful course of conduct directed at a specific person which seriously alarms,annoys, harasses, or is detrimental to such person, and which serves no legitimate or lawful purpose. The course of conduct shall be such as would cause a reasonable person to suffer substantial emotional distress, and shall actually cause substantial emotional distress to the petitioner, or, when the course of conduct would cause a reasonable parent to fear for the well-being of their child.

(2) "Course of conduct" means a pattern of conduct composed of a series of acts over a period of time, however short, evidencing a continuity of purpose. "Course of conduct" includes, in addition to any other form of communication, contact, or conduct, the sending of an electronic communication, but does not include constitutionally protected free speech. Constitutionally protected activity is not included within the meaning of "course of conduct."

Sec. 943. RCW 10.14.080 and 2001 c 311 s 1 are each amended to read as follows:

(1) Upon filing a petition for a civil antiharassment protection order under this chapter, the petitioner may obtain an ex parte temporary antiharassment protection order. An ex parte temporary antiharassment protection order may be granted with or without notice upon the filing of an affidavit which, to the satisfaction of the court, shows reasonable proof of unlawful harassment of the petitioner by the respondent and that great or irreparable harm will result to the petitioner if the temporary antiharassment protection order is not granted.

(2) An ex parte temporary antiharassment protection order shall be effective for a fixed period not to exceed fourteen days or twenty-four days if the court has permitted service by publication under RCW 10.14.085. The ex parte order may be reissued. A full hearing, as provided in this chapter, shall be set for not later than fourteen days from the issuance of the temporary order or not later than twenty-four days if service by publication is permitted. Except as provided in RCW 10.14.070 and 10.14.085, the respondent shall be personally served with a copy of the ex parte order along with a copy of the petition and notice of the date set for the hearing. The ex parte order and notice of hearing shall include at a minimum the date and time of the hearing set by the court to determine if the temporary order should be made effective for one year or more, and notice that if the respondent should fail to appear or otherwise not respond, an order for protection will be issued against the respondent pursuant to the provisions of this chapter, for a minimum of one year from the date of the hearing. The notice shall also include a brief statement of the provisions of the ex parte order and notify the respondent that a copy of the ex parte order and notice of hearing has been filed with the clerk of the court.

(3) At the hearing, if the court finds by a preponderance of the evidence that unlawful harassment exists, a civil antiharassment protection order shall issue prohibiting such unlawful harassment.

(4) An order issued under this chapter shall be effective for not more than one year unless the court finds that the respondent is likely to resume unlawful harassment of the petitioner when the order expires. If so, the court may enter an order for a fixed time exceeding one year or may enter a permanent antiharassment protection order. The court shall not enter an order that is effective for more than one year if the order restrains the respondent from contacting the respondent's minor children. This limitation is not applicable to civil antiharassment protection orders issued under chapter 26.09, 26.10, or 26.26 RCW. If the petitioner seeks relief for a period longer than one year on behalf of the respondent's minor children, the court shall advise the petitioner that the petitioner may apply for renewal of the order as provided in this chapter or if appropriate may seek relief pursuant to chapter 26.09 or 26.10 RCW.

(5) At any time within the three months before the expiration of the order, the petitioner may apply for a renewal of the order by filing a petition for renewal. The petition for renewal shall state the reasons why the petitioner seeks to renew the protection order. Upon receipt of the petition for renewal, the court shall order a hearing which shall be not later than fourteen days from the date of the order. Except as provided in RCW 10.14.085, personal service shall be made upon the respondent not less than five days before the hearing. If timely service cannot be made the court shall set a new hearing date and shall either require additional attempts at obtaining personal service or permit service by publication as provided by RCW 10.14.085. If the court permits service by publication, the court shall set the new hearing date not later than twenty-four days from the date of the order. If the order expires because timely service cannot be made the court shall grant an ex parte order of protection as provided in this section. The court shall grant the petition for renewal unless the respondent proves by a preponderance of the evidence that the respondent will not resume harassment of the petitioner when the order expires. The court may renew the protection order for another fixed time period or may enter a permanent order as provided in subsection (4) of this section.

(6) The court, in granting an ex parte temporary antiharassment protection order or a civil antiharassment protection order, shall have broad discretion to grant such relief as the court deems proper, including an order:

(a) Restraining the respondent from making any attempts to contact the petitioner;
(b) Restraining the respondent from making any attempts to keep the petitioner under surveillance;
(c) Requiring the respondent to stay a stated distance from the petitioner's residence and workplace; and
(d) Considering the provisions of RCW 9.41.800.

(7) The court in granting an ex parte temporary antiharassment protection order or a civil antiharassment protection order, shall not prohibit the respondent from exercising constitutionally protected free speech. Nothing in this section prohibits the petitioner from utilizing other civil or criminal remedies to restrain conduct or communications not otherwise constitutionally protected.
(8) The court in granting an ex parte temporary antiharassment protection order or a civil antiharassment protection order, shall not prohibit the respondent from the use or enjoyment of real property to which the respondent has a cognizable claim unless that order is issued under chapter 26.09 RCW or under a separate action commenced with a summons and complaint to determine title or possession of real property.

(9) The court in granting an ex parte temporary antiharassment protection order or a civil antiharassment protection order, shall not limit the respondent's right to care, control, or custody of the respondent's minor child, unless that order is issued under chapter 13.32A, 26.09, 26.10, or 26.26 RCW.

(10) A petitioner may not obtain an ex parte temporary antiharassment protection order against a respondent if the petitioner has previously obtained two such ex parte orders against the same respondent but has failed to obtain the issuance of a civil antiharassment protection order unless good cause for such failure can be shown.

((68)) (11) The court order shall specify the date an order issued pursuant to subsections (4) and (5) of this section expires if any. The court order shall also state whether the court issued the protection order following personal service or service by publication and whether the court has approved service by publication of an order issued under this section.

A certified copy of the order shall be provided to the victim by the clerk of the court.

Willful violation of a court order issued under this section or an equivalent local ordinance is a misdemeanor. There is hereby levied on all commercial tree fruit produced in this state or held out as being produced in this state for fresh or processing use, an assessment, initially not to exceed ten cents per ton on all such tree fruits, except that such assessment for apples for fresh shipment shall be at the rate of one-half cent per one hundred pounds gross billing weight. Such assessment on all such commercial tree fruit shall not become effective until approved by a majority of such commercial producers of tree fruit voting in a referendum conducted jointly by the Washington apple ((advertising)) commission, Washington state fruit commission, and the department. The respective commissions shall supply all known producers of tree fruits subject to their respective commissions with a ballot for the referendum and the department shall supply all known tree fruit producers not subject to either of the commissions with a ballot wherein all known producers may approve or disapprove such assessment. The commission may waive the payment of assessments by any class of producers of minimal amounts of tree fruit when the commission determines subsequent to a hearing that the cost of collecting and keeping records of such assessments is disproportionate to the return to the commission.

Sec. 19. RCW 15.30.200 and 1961 c 29 s 20 are each amended to read as follows:

All moneys collected under the provisions of this chapter for the inspection and certification of any fruits or vegetables subject to the provisions of this chapter shall be handled and deposited in the manner provided for in chapter ((45.16)) 15.17 RCW, as enacted or hereafter amended, for the handling of inspection and certification fees derived for the inspection of any fruits and vegetables.

Sec. 20. RCW 90.64.030 and 2003 c 325 s 3 are each amended to read as follows:

(1) Under the inspection program established in RCW 90.64.023, the department may investigate a dairy farm to determine whether the operation is discharging pollutants or has a record of discharging pollutants into surface or ground waters of the state. Upon concluding an investigation, the department shall make a written report of its findings, including the results of any water quality measurements, photographs, or other pertinent information, and provide a copy of the report to the dairy producer within twenty days of the investigation.

(2) The department shall investigate a written complaint filed with the department within three working days and shall make a written report of its findings including the results of any water quality measurements, photographs, or other pertinent information. Within twenty days of receiving a written complaint, a copy of the findings shall be provided to the dairy producer subject to the complaint, and to the complainant if the person gave his or her name and address to the department at the time the complaint was filed.

(3) The department may consider past complaints against the same dairy farm from the same person and the results of its previous inspections, and has the discretion to decide whether to conduct an inspection if:

(a) The same or a similar complaint or complaints have been filed against the same dairy farm within the immediately preceding six-month period; and

(b) The department made a determination that the activity that was the subject of the prior complaint was not a violation.

(4) If the decision of the department is not to conduct an inspection, it shall document the decision and the reasons for the decision within twenty days. The department shall provide the decision to the complainant if the name and address were provided to the department, and to the dairy producer subject to the complaint, and the department shall place the decision in the department's administrative records.

(5) The report of findings of any inspection conducted as the result of either an oral or a written complaint shall be placed in the department's administrative records. Only findings of violations shall be entered into the database identified in RCW 90.64.130.

(6) A dairy farm that is determined to be a significant contributor of pollution based on actual water quality tests, photographs, or other pertinent information is subject to the provisions of this chapter and to the enforcement provisions of chapters 43.05 and 90.48 RCW, including civil penalties levied under RCW 90.48.144.

(7) If the department determines that an unresolved water quality problem from a dairy farm requires immediate corrective action, the department shall notify the producer and the district in which the problem is located. When corrective actions are required to address such unresolved water quality problems, the department shall provide copies of all final dairy farm inspection reports and documentation of all formal regulatory and enforcement actions taken by the
department against that particular dairy farm to the local conservation district and to the appropriate dairy farm within twenty days.

(8) For a violation of water quality laws that is a first offense for a dairy producer, the penalty may be waived to allow the producer to come into compliance with water quality laws. The department shall record all legitimate violations and subsequent enforcement actions.

(9) A discharge, including a storm water discharge, to surface waters of the state shall not be considered a violation of this chapter, chapter 90.48 RCW, or chapter 173-20A WAC, and shall therefore not be enforceable by the department of ecology or a third party, if at the time of the discharge, a violation is not occurring under RCW 90.64.010(((14))) ((17)). In addition, a dairy producer shall not be held liable for violations of this chapter, chapter 90.48 RCW, chapter 173-20A WAC, or the federal clean water act due to the discharge of dairy nutrients to waters of the state resulting from spreading these materials on lands other than where the nutrients were generated, when the nutrients are spread by persons other than the dairy producer or the dairy producer’s agent.

(10) As provided under RCW 7.48.305, agricultural activities associated with the management of dairy nutrients are presumed to be reasonable and shall not be found to constitute a nuisance unless the activity has a substantial adverse effect on public health and safety.

(11) This section specifically acknowledges that if a holder of a general or individual national pollutant discharge elimination system permit complies with the permit and the dairy nutrient management plan conditions for appropriate land application practices, the permit provides compliance with the federal clean water act and acts as a shield against citizen or agency enforcement for any additions of pollutants to waters of the state or of the United States as authorized by the permit.

(12) A dairy producer who fails to have an approved dairy nutrient management plan by July 1, 2002, or a certified dairy nutrient management plan by December 31, 2003, and for which no appeals have been filed with the pollution control hearings board, is in violation of this chapter. Each month beyond these deadlines that a dairy producer is out of compliance with the requirement for either plan approval or plan certification shall be considered separate violations of chapter 90.64 RCW that may be subject to penalties. Such penalties may not exceed one hundred dollars per month for each violation up to a combined total of five thousand dollars. The department has discretion in imposing penalties for failure to meet deadlines for plan approval or plan certification if the failure to comply is due to lack of state funding for implementation of the program. Failure to register as required in RCW 90.64.017 shall subject a dairy producer to a maximum penalty of one hundred dollars. Penalties shall be levied by the department.

Sec. 21. RCW 15.48.280 and 1967 c 114 s 15 are each amended to read as follows:
