(b) Funds for plans and programs shall be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.105 RCW, except that any applicant that is a Puget Sound partner, as defined in RCW 90.71.010, along with any project that is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, shall, except as conditioned by RCW 70.105D.120, receive priority for any available funding for any grant or funding programs or sources that use a competitive bidding process. During the 2007-2009 fiscal biennium, moneys in the account may also be used for grants to local governments to retrofit public sector diesel equipment and for storm water planning and implementation activities.
(c) To expedite cleanups throughout the state, the department shall partner with local communities and liable parties for cleanups. The department is authorized to use the following additional strategies in order to ensure a healthful environment for future generations:
   (i) The director may alter grant-matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:
      (A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;
      (B) Funding would create new substantial economic development, public recreational, or habitat restoration opportunities that would not otherwise occur; or
      (C) Funding would create an opportunity for acquisition and redevelopment of vacant, orphaned, or abandoned property under RCW 70.105D.040(5) that would not otherwise occur;
   (ii) The use of outside contracts to conduct necessary studies;
   (iii) The purchase of remedial action cost-cap insurance, when necessary to expedite multiparty clean-up efforts.

(d) To facilitate and expedite cleanups using funds from the local toxics control account, during the 2009-2011 fiscal biennium the director may establish grant-funded accounts to hold and disperse local toxics control account funds and funds from local governments to be used for remedial actions.

(4) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(5) Except during the period 2009-2011, 2011-2013 fiscal biennium, one percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation from either account which are not expended at the close of any biennium shall revert to the state toxics control account.

(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation, or, after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(7) The department shall adopt rules for grant or loan issuance and performance.

(8) During the 2007-2009 and 2009-2011 fiscal biennia, the legislature may transfer from the local toxics control account to either the state general fund or the oil spill prevention account, or both such amounts as reflect excess fund balance in the account.

(9) During the 2009-2011 fiscal biennium, the local toxics control account may also be used for a standby rescue tug at Neah Bay, local government shoreline update grants, private and public sector diesel equipment retrofit, and oil spill prevention, preparedness, and response activities.

(10) During the 2009-2011 fiscal biennium, the legislature may transfer from the state toxics control account to the state general fund such amounts as reflect excess fund balance in the account.

(11) During the 2011-2013 fiscal biennium, the local toxics control account may also be used for local government shoreline update grants and actions for reducing public exposure to toxic air pollution.

Sec. 922. RCW 74.08A.340 and 2009 c 564 s 953 are each amended to read as follows:

The department of social and health services shall operate the Washington WorkFirst program authorized under RCW 74.08A.200 through 74.08A.330, 43.330.145, 43.215.545, and 74.25.040, and chapter 74.12 RCW within the following constraints:

(1) The full amount of the temporary assistance for needy families block grant, plus qualifying state expenditures as appropriated in the biennial operating budget, shall be appropriated to the department each year in the biennial appropriations act to carry out the provisions of the program authorized in RCW 74.08A.200 through 74.08A.330, 43.330.145, 43.215.545, and 74.25.040, and chapter 74.12 RCW.

(2) (a) The department may expend funds defined in subsection (1) of this section in any manner that will effectively accomplish the outcome measures defined in RCW 74.08A.410 with the following exception: Beginning with the 2007-2009 biennium, funds that constitute the working connections child care program, child care quality programs, and child care licensing functions.
(b) Beginning in the 2007-2009 fiscal biennium, the legislature shall appropriate and the departments of early learning and social and health services shall expend funds defined in subsection (1) of this section that constitute the working connections child care program, child care quality programs, and child care licensing functions in a manner that is consistent with the outcome measures defined in RCW 74.08A.410.

(c) No more than fifteen percent of the amount provided in subsection (1) of this section may be spent for administrative purposes. For the purpose of this subsection, “administrative purposes” does not include expenditures for information technology and computerization needed for tracking and monitoring required by P.L. 104-193. The department shall not increase grant levels to recipients of the program authorized in RCW 74.08A.200 through 74.08A.330 and 43.330.145 and chapter 74.12 RCW, except (as authorized in the omnibus appropriations act for the 2009-2011 biennium) that during fiscal year 2013 the department may increase the grant levels by up to five percent.

(3) The department shall implement strategies that accomplish the outcome measures identified in RCW 74.08A.410 that are within the funding constraints in this section. Specifically, the department shall implement strategies that will cause the number of cases in the program authorized in RCW 74.08A.200 through 74.08A.330 and 43.330.145 and chapter 74.12 RCW to decrease by at least fifteen percent during the 1997-99 biennium and by at least five percent in the subsequent biennium. The department may transfer appropriation authority between funding categories within the economic services program in order to carry out the requirements of this subsection.

(4) The department shall monitor expenditures against the appropriation levels provided for in subsection (1) of this section. The department shall quarterly make a determination as to whether expenditure levels will exceed available funding and communicate its finding to the legislature. If the determination indicates that expenditures will exceed funding at the end of the fiscal year, the department shall take all necessary actions to ensure that all services provided under this chapter shall be made available only to the extent of the availability and level of appropriation made by the legislature.

Sec. 924. RCW 76.04.610 and 2007 c 110 s 1 are each amended to read as follows:

(1) (a) If any owner of forest land within a forest protection zone neglects or fails to provide adequate fire protection as required by RCW 76.04.600, the department shall provide such protection and shall annually impose the following assessments on each parcel of such land: (i) A flat fee assessment of seventeen dollars and fifty cents; and (ii) twenty-seven cents on each acre exceeding fifty acres.

(b) Assessors may, at their option, collect the assessment on tax exempt lands. If the assessor elects not to collect the assessment, the department may bill the landowner directly.

(2) An owner who has paid assessments on two or more parcels, each containing fewer than fifty acres and each within the same county, may obtain the following refund:

(a) If all the parcels together contain less than fifty acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars and (ii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

(b) If all the parcels together contain fifty or more acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars, (ii) twenty-seven cents for each acre exceeding fifty acres, and (iii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

Applications for refunds shall be submitted to the department on a form prescribed by the department in the same year in which the assessments were paid. The department may not provide refunds to applicants who do not provide verification that all assessments and property taxes on the property have been paid. Applications may be made by mail.

In addition to the procedures under this subsection, property owners with multiple parcels in a single county who qualify for a refund under this section may apply to the department on an application listing all the parcels owned in order to have the assessment computed on all parcels but billed to a single parcel. Property owners with the following number of parcels may apply to the department in the year indicated:

<table>
<thead>
<tr>
<th>Year</th>
<th>Number of Parcels</th>
</tr>
</thead>
<tbody>
<tr>
<td>2002</td>
<td>10 or more parcels</td>
</tr>
<tr>
<td>2003</td>
<td>8 or more parcels</td>
</tr>
<tr>
<td>2004 and thereafter</td>
<td>6 or more parcels</td>
</tr>
</tbody>
</table>

The department must compute the correct assessment and allocate one parcel in the county to use to collect the assessment. The county must then bill the forest fire protection assessment on that one allocated identified parcel. The landowner is responsible for notifying the department of any changes in parcel ownership.
(3) Beginning January 1, 1991, under the administration and at the discretion of the department up to two hundred thousand dollars per year of this assessment shall be used in support of those rural fire districts assisting the department in fire protection services on forest lands.

(4) For the purpose of this chapter, the department may divide the forest lands of the state, or any part thereof, into districts, for fire protection and assessment purposes, may classify lands according to the character of timber prevailing, and the fire hazard existing, and place unprotected lands under the administration of the proper district. Amounts paid or contracted to be paid by the department for protection of forest lands from funds at its disposal shall be a lien upon the property protected, unless reimbursed by the owner within ten days after October 1st of the year in which they were incurred. The department shall be prepared to make statement thereof, upon request, to a forest owner whose own protection has not been previously approved as to its adequacy, the department shall report the same to the assessor of the county in which the property is situated. The assessor shall extend the amounts upon the tax rolls covering the property, and upon authorization from the department shall levy the forest protection assessment against the amounts of unimproved land as shown in each ownership on the county assessor's records. The assessor may then segregate on the records to provide that the improved land and improvements thereon carry the millage levy designed to support the rural fire protection districts as provided for in RCW 52.16.170.

(5) The amounts assessed shall be collected at the time, in the same manner, by the same procedure, and with the same penalties attached that general state and county taxes on the same property are collected, except that errors in assessments may be corrected at any time by the department certifying them to the treasurer of the county in which the land involved is situated. Assessments shall be known and designated as assessments of the year in which the amounts became reimbursable. Upon the collection of assessments the county treasurer shall place fifty cents of the total assessments paid on a parcel for fire protection into the county current expense fund to defray the costs of listing, billing, and collecting these assessments. The treasurer shall then transmit the balance to the department. Collections shall be applied against expenses incurred in carrying out the provisions of this section, including necessary and reasonable administrative costs incurred by the department in the enforcement of these provisions. The department may also expend sums collected from owners of forest lands or received from any other source for necessary administrative costs in connection with the enforcement of RCW 76.04.660.

(6) When land against which forest protection assessments are outstanding is acquired for delinquent taxes and sold at public auction, the state shall have a prior lien on the proceeds of sale over and above the amount necessary to satisfy the county's delinquent tax judgment. The county treasurer, in case the proceeds of sale exceed the amount of the delinquent tax judgment, shall immediately remit to the department the amount of the outstanding forest protection assessments.

(7) All nonfederal public bodies owning or administering forest land included in a forest protection zone shall pay the forest protection assessments provided in this section and the special forest fire suppression account assessments under RCW 76.04.630. The forest protection assessments and special forest fire suppression account assessments shall be payable by nonfederal public bodies from available funds within thirty days following receipt of the written notice from the department which is given after October 1st of the year in which the protection was provided. Unpaid assessments are not a lien against the nonfederal publicly owned land but shall constitute a debt by the nonfederal public body to the department and are subject to interest charges at the legal rate. During the 2011-2013 fiscal biennium, the forest fire protection assessment account may be used by the joint legislative audit review committee to contract for analysis and recommendations to improve the efficiency and effectiveness of the state's mechanisms for funding fire prevention and suppression activities.

(8) A public body, having failed to previously pay the forest fire protection assessments required of it by this section, which fails to suppress a fire on or originating from forest lands owned or administered by it, is liable for the costs of suppression incurred by the department or its agent and is not entitled to reimbursement of costs incurred by the public body in the suppression activities.

(9) The department may adopt rules to implement this section, including, but not limited to, rules on levying and collecting forest protection assessments.

Sec. 925. RCW 77.12.201 and 2009 c 479 s 63 are each amended to read as follows:

The legislative authority of a county may elect, by giving written notice to the director and the treasurer prior to January 1st of any year, to obtain for the following year an amount in lieu of real property taxes on game lands as provided in RCW 77.12.203. Upon the election, the county shall keep a record of all fines, forfeitures, reimbursements, and costs assessed and collected, in whole or in part, under this title for violations of law or rules adopted pursuant to this title, with the exception of the 2011-2013 fiscal biennium, and shall monthly remit an amount equal to the amount collected to the state treasurer for deposit in the state general fund. The election shall continue until the department is notified differently prior to January 1st of any year.

Sec. 926. RCW 77.12.203 and 2005 c 303 s 14 are each amended to read as follows:

(1) Except as provided in subsection (5) of this section and notwithstanding RCW 84.36.010 or other statutes to the contrary, the director shall pay by April 30th of each year on game lands in each county, if requested by an election under RCW 77.12.201, an amount in lieu of real property taxes equal to that amount paid on similar parcels of open space land taxable under chapter 84.34 RCW or the greater of seventy cents per acre per year or the amount paid in 1984 plus an additional amount for control of noxious weeds equal to that which would be paid if such lands were privately owned. This amount shall not be assessed or paid on department buildings, structures, facilities, game farms, fish hatcheries, tidelands, or public fishing areas of less than one hundred acres.

(2) "Game lands," as used in this section and RCW 77.12.201, means those tracts one hundred acres or larger owned in fee by the department and used for wildlife habitat and public recreational purposes. All lands purchased for wildlife habitat, public access or recreation purposes with federal funds in the Snake River drainage basin shall be considered game lands regardless of acreage.

(3) This section shall not apply to lands transferred after April 23, 1990, to the department from other state agencies.

(4) The county shall distribute the amount received under this section in lieu of real property taxes to all property taxing districts except the state in appropriate tax code areas the same way it would distribute local property taxes from private property. The county shall distribute the amount received under this section for weed control to the appropriate weed district.

(5) For the 2011-2013 fiscal biennium, the director shall pay by April 30th of each year on game lands in each county, if requested by an election under RCW 77.12.201, an amount in lieu of real property taxes and shall be distributed as follows:

**Sec. 927.** RCW 77.95.090 and 2009 c 340 s 4 are each amended to read as follows:

The dedicated regional fisheries enhancement group account is created in the custody of the state treasurer. Only the commission or the commission's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures.

A portion of each recreational fishing license fee shall be used as provided in RCW 77.32.440. A surcharge of one hundred dollars shall be collected on each commercial salmon fishery license, each salmon delivery license, and each salmon charter license sold in the state. All receipts shall be placed in the regional fisheries enhancement group account and shall be used exclusively for regional fisheries enhancement group projects for the purposes of RCW 77.95.110. For the 2011-2013 fiscal biennium, the regional fisheries enhancement group account may be used for the purposes of RCW 77.95.070 and hatcheries. Except as provided in RCW 77.95.320, funds from the regional fisheries enhancement group account shall not serve as replacement funding for department operated salmon projects that exist on January 1, 1991.

All revenue from the department's sale of salmon carcasses and eggs that return to group facilities shall be deposited in the regional fisheries enhancement group account for use by the regional fisheries enhancement group that produced the surplus. The commission shall adopt rules to implement this section pursuant to chapter 34.05 RCW.

**Sec. 928.** RCW 79.22.010 and 2003 c 334 s 205 are each amended to read as follows:

1. The department has the power to accept gifts and bequests of money or other property, made in its own name, or made in the name of the state, to promote generally the interests of reforestation or for a specific named purpose in connection with reforestation, and to acquire in the name of the state, by purchase or gift, any lands which by reason of their location, topography, or geological formation, are chiefly valuable for purpose of developing and growing timber, and to designate such lands and any lands of the same character belonging to the state as state forest lands; and may acquire by gift or purchase any lands of the same character.

2. The department has the power to seed, plant, and develop forests on any lands, purchased, acquired, or designated by it as state forest lands, and shall furnish such care and fire protection for such lands as it shall deem advisable.

3. Upon approval of the board of county commissioners of the county in which the land is located such gift or donation of land may be accepted subject to delinquent general taxes thereon, and upon such acceptance of such gift or donation subject to such taxes, the department shall record the deed of conveyance thereof and file with the assessor and treasurer of the county wherein such land is situated, written notice of acquisition of such land, and that all delinquent general taxes thereon, except state taxes, shall be canceled, and the county treasurer shall thereupon proceed to make such cancellation in the records of the county treasurer.

4. (a) The department may accept gifts or donations of land at any time that are (b) The department may accept gifts or donations of land at any time that are...

(5) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys received subject to this section are the net proceeds from the contract harvesting sale.

(6) During the (2009-2011) 2011-2013 fiscal biennium ((and fiscal year 2012)), the twenty-five percent limitation on deductions set in subsection (3) of this section may be increased up to thirty percent by the board.

Sec. 931. RCW 79.64.100 and 2003 c 334 s 219 are each amended to read as follows:

There is created a forest development account in the state treasury. The state treasurer shall keep an account of all sums deposited therein and expended or withdrawn therefrom. Any sums placed in the forest development account shall be pledged for the purpose of paying interest and principal on the bonds issued by the department under RCW 79.22.080 and 79.22.090 and the provisions of this chapter, and for the purchase of land for growing timber. Any bonds issued shall constitute a first and prior claim and lien against the account for the payment of principal and interest. No sums for the above purposes shall be withdrawn or paid out of the account except upon approval of the department.

Appropriations may be made by the legislature from the forest development account to the department for the purpose of carrying on the activities of the department on state forest lands, lands managed on a sustained yield basis as provided for in RCW 79.10.320, and for reimbursement of expenditures that have been made or may be made from the resource management cost account in the management of state forest lands. For the 2011-2013 fiscal biennium, moneys from the forest development account shall be distributed as directed in section 708 of this act to the beneficiaries of the revenues derived from state forest lands. During the 2011-2013 fiscal biennium, the legislature may appropriate moneys in the forest development account to support emergency fire suppression activities in a manner that, at a maximum, represents the proportion of land that the department manages in comparison to the total land the department conducts emergency fire suppression activities on.

Sec. 932. RCW 79.105.150 and 2011 2nd sp. s c 9 s 911 are each amended to read as follows:

(1) After deduction for management costs as provided in RCW 79.64.040 and payments to towns under RCW 79.115.150(2), all moneys received by the state from the sale or lease of state-owned aquatic lands and from the sale of valuable material from state-owned aquatic lands shall be deposited in the aquatic lands enhancement account which is hereby created in the state treasury. After appropriation, these funds shall be used solely for aquatic lands enhancement projects; for the purchase, improvement, or protection of aquatic lands for public purposes; for providing and improving access to the lands; and for volunteer cooperative fish and game projects. During the (2009-2011) 2011-2013 fiscal (biennium) biennium, the aquatic lands enhancement account may also be used for scientific research as part of the adaptive management process and for developing a planning report for McNeil Island. During the (2009-2011) 2011-2013 fiscal (biennium) biennium, the legislature may transfer from the aquatic lands enhancement account to the state general fund such amounts as reflect excess fund balance of the account. During the 2011-2013 fiscal biennium, the aquatic lands enhancement account may be used to support the shellfish program, the ballast water program, parks, hatcheries, and the Puget Sound toxic sampling program at the department of fish and wildlife, and the knottewood program at the department of agriculture.

(c) Develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grants.

(3) To the extent possible, the department shall coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270.

(4) The department shall consult with affected interest groups in implementing this section.

(5) After January 1, 2010, any project designed to address the restoration of Puget Sound may be funded under this chapter only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

Sec. 933. RCW 79A.25.200 and 2007 c 241 s 53 are each amended to read as follows:

The recreation resource account is created in the state treasury. Moneys in this account are subject to legislative appropriation. The board shall administer the account in accordance with this chapter and chapter 79A.35 RCW and shall hold it separate and apart from all other money, funds, and accounts of the board. Moneys received from the marine fuel tax refund account under RCW 79A.25.070 shall be deposited into the account. Grants, gifts, or other financial assistance, proceeds received from public bodies as administrative cost contributions, and moneys made available to the state of Washington by the federal government for outdoor recreation may be deposited into the account. During the 2011-2013 fiscal biennium, the recreation resource account may be used by the department of fish and wildlife for the purposes of activities related to aquatic and marine enforcement.

Sec. 934. RCW 82.08.160 and 2011 1st sp. s c 50 s 969 are each amended to read as follows:

Moneys in the flood control assistance account may be spent only after appropriation for purposes specified under this chapter.

Sec. 936. RCW 90.48.390 and 2008 c 329 s 925 are each amended to read as follows:

The coastal protection fund is established to be used by the department as a revolving fund for carrying out the purposes of restoration of natural resources under this chapter and chapter 90.56 RCW. To this fund there shall be credited penalties, fees, damages, charges received pursuant to the provisions of this chapter and chapter 90.56 RCW, compensation for damages received under this chapter and chapter 90.56 RCW, and an amount equivalent to one cent per gallon from each marine use refund claim under RCW 82.36.330.

Moneys in the fund not needed currently to meet the obligations of the department in the exercise of its powers, duties, and functions under RCW 90.48.142, 90.48.366, 90.48.367, and 90.48.368 shall be deposited with the state treasurer to the credit of the fund. During the 2011-2013 fiscal biennium, the legislature may transfer from the coastal protection fund to the state general fund such amounts as reflect excess fund balance derived from penalties, forfeits, and seizures.

Sec. 937. 2010 c 23 s 205 (uncodified) is amended to read as follows:

(1) The legislature finds that this state's tax policy with respect to the taxation of transactions between affiliated entities and the income derived from such transactions (intercompany transactions) has motivated some taxpayers to engage in transactions designed solely or primarily to minimize the tax effects of intercompany transactions. The legislature further finds that some intercompany transactions result from taxpayers that are required to establish affiliated entities to comply with regulatory mandates and that transactions between such affiliates effectively increases the tax burden in this state on the affiliated group of entities.

(2) Therefore, as existing resources allow, the department of revenue is directed to conduct a review of the state's tax policy with respect to the taxation of intercompany transactions. The review must include the impacts of such transactions under the state's business and occupation tax and state and local sales and use taxes. The department may include other taxes in the review as it deems appropriate.

(3) In conducting the review, the department must examine how this state's tax policy compares to the tax policy of other states with respect to the taxation of intercompany transactions. The department's review must include an analysis of potential alternatives to the current policy of taxing intercompany transactions, including their estimated revenue impacts if practicable.

(4) In conducting this review, the department may seek input from members of the business community and others as it deems appropriate.

(5) The department must report its findings to the fiscal committees of the house of representatives and senate by December 1, 2010. However, if the department has not completed its review by December 1, 2010, the department must provide the fiscal committees of the legislature with a brief status report by December 1, 2010, and the final report by December 1, (2011) 2012.

Representative Hunter: “Thank you Mr. Speaker. The document that we have just adopted, for those of you who have read it, is actually kinda thick and a lot of work goes into producing it and those of you who spend hours and hours in the Ways and Means committee see the quality of the work that goes into this project. That work does not just magically appear and contrary to popular opinion, the good gentlemen from the 20th and I don’t actually do that work. The work is done by our OPR staff. Can we have them come out for a minute? I think we have some staff in the wings, can we have you come out and be recognized.

Mr. Speaker “Please come out and be recognized”

Representative Hunter: “This is our secret weapon. It’s our secret weapon in the war with the other chamber. These folks are smart and dedicated and work unbelievable hours and produce immense quality work and come up with brilliant ideas that make your head hurt. They are wonderful people really, we could not do without them. Thank you very much, thank you for your work.”

POINT OF PERSONAL PRIVILEGE

Representative Alexander: “Thank you Mr. Speaker the good gentlemen from the 48th District and I disagree on a few issues, but we don’t disagree on this issue, we have a wonderful staff and I am always amazed because every year it seems like the talent even gets brighter and sharper and more responsive. In this particular year Mr. Speaker as you know we put a double responsibility on them not only to produce on budget but to produce two budgets. They did that with all the esteem and with all the commitment regardless of what party was requesting. So on behalf of House Republicans we thank you very much for everything you do.”

The Speaker (Representative Moeller presiding) “On behalf of all the members of this house I would like to thank and express our sincere thank you to every member of this committee. Thank you so much.”

THIRD READING

MESSAGE FROM THE SENATE

March 8, 2012

Mr. Speaker:

The Senate has passed SECOND SUBSTITUTE HOUSE BILL NO. 2443 with the following amendment:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 2.28.175 and 2011 c 293 s 10 are each amended to read as follows:

(1) Counties may establish and operate DUI courts. Municipalities may enter into cooperative agreements with counties that have DUI courts to provide DUI court services.

(2) For the purposes of this section, "DUI court" means a court that has special calendars or dockets designed to achieve a reduction in recidivism of impaired driving among nonviolent, alcohol abusing offenders, whether adult or juvenile, by increasing their likelihood for successful rehabilitation through early, continuous, and intense judicially supervised treatment; mandatory periodic testing for alcohol use and, if applicable, drug use; and the use of appropriate sanctions and other rehabilitation services."
(3)(a) Any jurisdiction that seeks a state appropriation to fund a DUI court program must first:

(i) Exhaust all federal funding that is available to support the operations of its DUI court and associated services; and

(ii) Match, on a dollar-for-dollar basis, state moneys allocated for DUI court programs with local cash or in-kind resources. Moneys allocated by the state must be used to supplement, not supplant, other federal, state, and local funds for DUI court operations and associated services. However, until June 30, 2014, no match is required for state moneys expended for the administrative and overhead costs associated with the operation of a DUI court established as of January 1, 2011.

(b) Any ((county)) jurisdiction that establishes a DUI court pursuant to this section shall establish minimum requirements for the participation of offenders in the program. The DUI court may adopt local requirements that are more stringent than the minimum. The minimum requirements are:

(i) The offender would benefit from alcohol treatment;

(ii) The offender has not previously been convicted of a serious violent offense or sex offense as defined in RCW 9.94A.030.

(iii) The offender has not previously been convicted of vehicular homicide under RCW 46.61.520, vehicular assault under RCW 46.61.522, or an equivalent out-of-state offense; and

(iv) Without regard to whether proof of any of these elements is required to convict, the offender is not currently charged with or convicted of an offense:

(A) That is a sex offense;

(B) That is a serious violent offense;

(C) That is vehicular homicide or vehicular assault;

(D) During which the defendant used a firearm; or

(E) During which the defendant caused substantial or great bodily harm or death to another person.

Sec. 2. RCW 9.94A.475 and 2002 c 290 s 15 are each amended to read as follows:

Any and all recommended sentencing agreements or plea agreements and the sentences for any and all felony crimes shall be made and retained as public records if the felony crime involves:

(1)(a) Any violent offense as defined in this chapter;

(2) Any most serious offense as defined in this chapter;

(3) Any felony with a deadly weapon special verdict under RCW 9.94A.825;

(4) Any felony with any deadly weapon enhancements under RCW 9.94A.533 (3) or (4), or both; [(or)]

(5) The felony crimes of possession of a machine gun, possessing a stolen firearm, drive-by shooting, theft of a firearm, unlawful possession of a firearm in the first or second degree, and/or use of a machine gun in a felony;

(6) The felony crime of driving a motor vehicle while under the influence of intoxicating liquor or any drug as defined in RCW 46.61.502, and felony physical control of a motor vehicle while under the influence of intoxicating liquor or any drug as defined in RCW 46.61.504.

Sec. 3. RCW 9.94A.640 and 2006 c 73 s 8 are each amended to read as follows:

(1) Every offender who has been discharged under RCW 9.94A.637 may apply to the sentencing court for a vacation of the offender's record of conviction. If the court finds the offender meets the tests prescribed in subsection (2) of this section, the court may clear the record of conviction by: (a) Permitting the offender to withdraw the offender's plea of guilty and to enter a plea of not guilty; or (b) if the offender has been convicted after a plea of not guilty, by the court setting aside the verdict of guilty; and (c) by the court dismissing the information or indictment against the offender.

(2) An offender may not have the record of conviction cleared if:

(a) There are any criminal charges against the offender pending in any court of this state or another state, or in any federal court; (b) the offense was a violent offense as defined in RCW 9.94A.030; (c) the offense was a crime against persons as defined in RCW 43.43.830; (d) the offender has been convicted of a new crime in this state, another state, or federal court since the date of the offender's discharge under RCW 9.94A.637; (e) the offense is a class B felony and less than ten years have passed since the date the applicant was discharged under RCW 9.94A.637; (f) the offense was a class C felony, other than a class C felony described in RCW 46.61.502(6) or 46.61.504(6), and less than five years have passed since the date the applicant was discharged under RCW 9.94A.637; or (g) the offense was a class C felony described in RCW 46.61.502(6) or 46.61.504(6) and (less than ten years have passed since the applicant was discharged under RCW 9.94A.637).

(3) Once the court vacates a record of conviction under subsection (1) of this section, the fact that the offender has been convicted of the offense shall not be included in the offender's criminal history for purposes of determining a sentence in any subsequent conviction, and the offender shall be released from all penalties and disabilities resulting from the offense. For all purposes, including responding to questions on employment applications, an offender whose conviction has been vacated may state that the offender has never been convicted of that crime. Nothing in this section affects or prevents the use of an offender's prior conviction in a later criminal prosecution.

Sec. 4. RCW 9.95.210 and 2011 1st sp.s. c 40 s 7 are each amended to read as follows:

(1)(a) Except as provided in (b) of this subsection in granting probation, the superior court may suspend the imposition or the execution of the sentence and may direct that the suspension may continue upon such conditions and for such time as it shall designate, not exceeding the maximum term of sentence or two years, whichever is longer.

(b) For a defendant sentenced under RCW 46.61.5055, the superior court may suspend the imposition or the execution of the sentence and may direct that the suspension continue upon such conditions and for such time as the court shall designate, not to exceed five years. The court shall have continuing jurisdiction and authority to suspend the execution of all or any part of the sentence upon stated terms, including installment payment of fines. A defendant who has been sentenced, and who then fails to appear for any hearing to address the defendant's compliance with the terms of probation when ordered to do so by the court shall have the term of probation tolled until such time as the defendant makes his or her presence known to the court on the record. Any time before entering an order terminating probation, the court may modify or revoke its order suspending the imposition or execution of the sentence if the defendant violates or fails to carry out any of the conditions of the suspended sentence.

(2) In the order granting probation and as a condition thereof, the superior court may in its discretion imprison the defendant in the county jail for a period not exceeding one year and may fine the defendant any sum not exceeding the statutory limit for the offense committed, and court costs. As a condition of probation, the superior court shall require the payment of the penalty assessment required by RCW 7.68.035. The superior court may also require the defendant to make such monetary payments, on such terms as it deems appropriate under the circumstances, as are necessary: (a) To comply with any order of the court for the payment of family support; (b) to make restitution to any person or persons who may have suffered loss or damage by reason of the commission of the crime in question or when the offender pleads guilty to a lesser offense or fewer offenses and agrees with the prosecutor's recommendation that the offender be required to pay restitution to a victim of an offense or offenses which are not prosecuted pursuant to a plea agreement; (c) to pay such fine as may be imposed and court costs, including reimbursement of the state for costs of extradition if return to this state by extradition was required; (d) following consideration of the financial condition of the person subject to possible electronic monitoring, to pay for the costs
of electronic monitoring if that monitoring was required by the court as a condition of release from custody or as a condition of probation; (e) to contribute to a county or interlocal drug fund; and (f) to make restitution to a public agency for the costs of an emergency response under RCW 38.52.430, and may require bonds for the faithful observance of any and all conditions imposed in the probation.

(3) The superior court shall order restitution in all cases where the victim is entitled to benefits under the crime victims' compensation act, chapter 7.68 RCW. If the superior court does not order restitution and the victim of the crime has been determined to be entitled to benefits under the crime victims' compensation act, the department of labor and industries, as administrator of the crime victims' compensation program, may petition the superior court within one year of imposition of the sentence for entry of a restitution order. Upon receipt of a petition from the department of labor and industries, the superior court shall hold a restitution hearing and shall enter a restitution order.

(4) In granting probation, the superior court may order the probationer to report to the secretary of corrections or such officer as the secretary may designate and as a condition of the probation to follow the instructions of the secretary. If the county legislative authority has elected to assume responsibility for the supervision of superior court misdemeanor probationers within its jurisdiction, the superior court misdemeanor probationer shall report to a probation officer employed or contracted for by the county. In cases where a superior court misdemeanor probationer is sentenced in one county, but resides within another county, there must be provisions for the probationer to report to the agency having supervision responsibility for the probationer's county of residence.

(5) If the probationer has been ordered to make restitution and the superior court has ordered supervision, the officer supervising the probationer shall make a reasonable effort to ascertain whether restitution has been made. If the superior court has ordered supervision and restitution has not been made as ordered, the officer shall inform the prosecutor of that violation of the terms of probation not less than three months prior to the termination of the probation period. The secretary of corrections will promulgate rules and regulations for the conduct of the person during the term of probation. For defendants found guilty in district court, like functions as the secretary performs in regard to probation may be performed by probation officers employed for that purpose by the county legislative authority of the county wherein the court is located.

(6) The provisions of RCW 9.94A.501 and 9.94A.5011 apply to sentences imposed under this section.

Sec. 5. RCW 9.96.060 and 2001 c 140 s 1 are each amended to read as follows:

(1) Every person convicted of a misdemeanor or gross misdemeanor offense who has completed all of the terms of the sentence for the misdemeanor or gross misdemeanor offense may apply to the sentencing court for a vacation of the applicant's record of conviction for the offense. If the court finds the applicant meets the tests prescribed in subsection (2) of this section, the court may in its discretion vacate the record of conviction by: (a)(i) Permitting the applicant to withdraw the applicant's plea of guilty and to enter a plea of not guilty; or (ii) if the applicant has been convicted after a plea of not guilty, the court setting aside the verdict of guilty; and (b) the court dismissing the information, indictment, complaint, or citation against the applicant and vacating the judgment and sentence.

(2) An applicant may not have the record of conviction for a misdemeanor or gross misdemeanor offense vacated if any one of the following is present:

(a) There are any criminal charges against the applicant pending in any court of this state or another state, or in any federal court;
(b) The offense was a violent offense as defined in RCW 9.94A.030 or an attempt to commit a violent offense;
(c) The offense was a violation of RCW 46.61.502 (driving while under the influence), 46.61.504 (actual physical control while under the influence), (((a))) 9.91.020 (operating a railroad, etc. while intoxicated), or the offense is considered a "prior offense" under RCW 46.61.5055 and the applicant has had a subsequent alcohol or drug violation within ten years of the date of arrest for the prior offense;
(d) The offense was any misdemeanor or gross misdemeanor violation, including attempt, of chapter 9.68 RCW (obscenity and pornography), chapter 9.68A RCW (sexual exploitation of children), or chapter 9A.44 RCW (sex offenses);
(e) The applicant was convicted of a misdemeanor or gross misdemeanor offense as defined in RCW 10.99.020, or the court determines after a review of the court file that the offense was committed by one family member or household member against another, or the court, after considering the damage to person or property that resulted in the conviction, any prior convictions for crimes defined in RCW 10.99.020, or for comparable offenses in another state or in federal court, and the totality of the records under review by the court regarding the conviction being considered for vacation, determines that the offense involved domestic violence, and any one of the following factors exist:
(i) The applicant has not provided written notification of the vacation petition to the prosecuting attorney's office that prosecuted the offense for which vacation is sought, or has not provided that notification to the court;
(ii) The applicant has previously had a conviction for domestic violence. For purposes of this subsection, however, if the current application is for more than one conviction that arose out of a single incident, none of those convictions counts as a previous conviction;
(iii) The applicant has signed an affidavit under penalty of perjury affirming that the applicant has not previously had a conviction for a domestic violence offense, and a criminal history check reveals that the applicant has had such a conviction; or
(iv) Less than five years have elapsed since the person completed the terms of the original conditions of the sentence, including any financial obligations and successful completion of any treatment ordered as a condition of sentencing;
(f) For any offense other than those described in (e) of this subsection, less than three years have passed since the person completed the terms of the sentence, including any financial obligations;
(g) The offender has been convicted of a new crime in this state, another state, or federal court since the date of conviction;
(h) The applicant has ever had the record of another conviction vacated;
(i) The applicant is currently restrained, or has been restrained within five years prior to the vacation application, by a domestic violence protection order, a no-contact order, an antiharassment order, or a civil restraining order which restrains one party from contacting the other party.
(3) Once the court vacates a record of conviction under subsection (1) of this section, the person shall be released from all penalties and disabilities resulting from the offense and the fact that the person has been convicted of the offense shall not be included in the person's criminal history for purposes of determining a sentence in any subsequent conviction. For all purposes, including responding to questions on employment or housing applications, a person whose conviction has been vacated under subsection (1) of this section may state that he or she has never been convicted of that crime. Nothing in this section affects or prevents the use of an offender's prior conviction in a later criminal prosecution.
(4) All costs incurred by the court and probation services shall be paid by the person making the motion to vacate the record unless a determination is made pursuant to chapter 10.101 RCW that the
person making the motion is indigent, at the time the motion is brought.

(5) The clerk of the court in which the vacation order is entered shall immediately transmit the order vacating the conviction to the Washington state patrol identification section and to the local police agency, if any, which holds criminal history information for the person who is the subject of the conviction. The Washington state patrol and any such local police agency shall immediately update their records to reflect the vacation of the conviction, and shall transmit the order vacating the conviction to the federal bureau of investigation. A conviction that has been vacated under this section may not be disseminated or disclosed by the state patrol or local law enforcement agency to any person, except other criminal justice enforcement agencies.

Sec. 6. RCW 38.52.430 and 1993 c 251 s 2 are each amended to read as follows:

A person whose intoxication causes an incident resulting in an appropriate emergency response, and who, in connection with the incident, has been found guilty of or has had their prosecution deferred for (1) driving while under the influence of intoxicating liquor or any drug, RCW 46.61.502; (2) operating an aircraft under the influence of intoxicants or drugs, RCW 47.68.220; (3) use of a vessel while under the influence of alcohol or drugs, RCW 88.12.100; (4) vehicular assault while under the influence of intoxicating liquor or any drug, RCW 46.61.520(1)(a); or (5) vehicular assault while under the influence of intoxicating liquor or any drug, RCW 46.61.522(1)(b), is liable for the expense of an emergency response by a public agency to the incident.

The expense of an emergency response is a charge against the person liable for expenses under this section. The charge constitutes a debt of that person and is collectible by the public agency incurring those costs in the same manner as in the case of an obligation under a contract, expressed or implied. Following a conviction of an offense listed in this section, and prior to sentencing, the prosecution may present to the court information setting forth the expenses incurred by the public agency for its emergency response to the incident. Upon a finding by the court that the expenses are reasonable, the court shall order the defendant to reimburse the public agency.

The cost reimbursement shall be included in the sentencing order as an additional monetary obligation of the defendant and may not be substituted for any other fine or cost required or allowed by statute. The court may establish a payment schedule for the payment of the cost reimbursement, separate from any payment schedule imposed for other fines and costs.

In no event shall a person's liability under this section for the expense of an emergency response exceed $(\text{two thousand five hundred dollars})$ for a particular incident.

If more than one public agency makes a claim for payment from an individual for an emergency response to a single incident under the provisions of this section, and the sum of the claims exceeds the amount recovered, the division of the amount recovered shall be determined by an interlocal agreement consistent with the requirements of chapter 39.34 RCW.

Sec. 7. RCW 46.20.308 and 2008 c 282 s 2 are each amended to read as follows:

(1) Any person who operates a motor vehicle within this state is deemed to have given consent, subject to the provisions of RCW 46.61.506, to a test or tests of his or her breath or blood for the purpose of determining the alcohol concentration or presence of any drug in his or her breath or blood if arrested for any offense where, at the time of the arrest, the arresting officer has reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug or was in violation of RCW 46.61.503. Neither consent nor this section precludes a police officer from obtaining a search warrant for a person's breath or blood.

(2) The test or tests of breath shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been driving or in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or the person to have been driving or in actual physical control of a motor vehicle while having alcohol in a concentration in violation of RCW 46.61.503 in his or her system and being under the age of twenty-one. However, in those instances where the person is incapable due to physical injury, physical incapacity, or other physical limitation, of providing a breath sample or where the person is being treated in a hospital, clinic, doctor's office, emergency medical vehicle, ambulance, or other similar facility or where the officer has reasonable grounds to believe that the person is under the influence of a drug, a blood test shall be administered by a qualified person as provided in RCW 46.61.506(5).

The officer shall inform the person of his or her right to refuse the breath or blood test, and of his or her right to have additional tests administered by any qualified person of his or her choosing as provided in RCW 46.61.506. The officer shall warn the driver, in substantially the following language, that:

(a) If the driver refuses to take the test, the driver's license, permit, or privilege to drive will be revoked or denied for at least one year; and

(b) If the driver refuses to take the test, the driver's refusal to take the test may be used in a criminal trial; and

(c) If the driver submits to the test and the test is administered, the driver's license, permit, or privilege to drive will be suspended, revoked, or denied for at least ninety days if the driver is age twenty-one or over and the test indicates the alcohol concentration of the driver's breath or blood is 0.08 or more, or if the driver is under age twenty-one and the test indicates the alcohol concentration of the driver's breath or blood is 0.02 or more, or if the driver is under age twenty-one and the driver is in violation of RCW 46.61.502 or 46.61.504; and

(d) If the driver's license, permit, or privilege to drive is suspended, revoked, or denied the driver may be eligible to immediately apply for an ignition interlock driver's license.

(3) Except as provided in this section, the test administered shall be of the breath only. If an individual is unconscious or is under arrest for the crime of felony driving under the influence of intoxicating liquor or drugs under RCW 46.61.502(6), felony physical control of a motor vehicle while under the influence of intoxicating liquor or any drug under RCW 46.61.504(6), vehicular homicide as provided in RCW 46.61.520, vehicular assault as provided in RCW 46.61.522, or if an individual is under arrest for the crime of driving while under the influence of intoxicating liquor or drugs as provided in RCW 46.61.502, which arrest results from an accident in which there has been serious bodily injury to another person, a breath or blood test may be administered without the consent of the individual so arrested.

(4) Any person who is dead, unconscious, or who is otherwise in a condition rendering him or her incapable of refusal, shall be deemed not to have withdrawn the consent provided by subsection (1) of this section and the test or tests may be administered, subject to the provisions of RCW 46.61.506, and the person shall be deemed to have received the warnings required under subsection (2) of this section.

(5) If, following his or her arrest and receipt of warnings under subsection (2) of this section, the person arrested refuses upon the request of a law enforcement officer to submit to a test or tests of his or her breath or blood, no test shall be given except as authorized under subsection (3) or (4) of this section.

(6) If, after arrest and after the other applicable conditions and requirements of this section have been satisfied, a test or tests of the person's blood or breath is administered and the test results indicate that the alcohol concentration of the person's breath or blood is 0.08
or more if the person is age twenty-one or over, or 0.02 or more if the person is under the age of twenty-one, or the person refuses to submit to a test, the arresting officer or other law enforcement officer at whose direction any test has been given, or the department, where applicable, if the arrest results in a test of the person's blood, shall:

(a) Serve notice in writing on the person on behalf of the department of its intention to suspend, revoke, or deny the person's license, permit, or privilege to drive as required by subsection (7) of this section;

(b) Serve notice in writing on the person on behalf of the department of his or her right to a hearing, specifying the steps he or she must take to obtain a hearing as provided by subsection (8) of this section and that the person waives the right to a hearing if he or she receives an ignition interlock driver's license;

(c) Mark the person's Washington state driver's license or permit to drive, if any, in a manner authorized by the department;

(d) Serve notice in writing that the marked license or permit, if any, is a temporary license that is valid for sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or until the suspension, revocation, or denial of the person's license, permit, or privilege to drive is sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first. No temporary license is valid to any greater degree than the license or permit that it replaces; and

(e) Immediately notify the department of the arrest and transmit to the department within seventy-two hours, except as delayed as the result of a blood test, a sworn report or report under a declaration authorized by RCW 9A.72.085 that states:

(i) That the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or was under the age of twenty-one years and had been driving or was in actual physical control of a motor vehicle while having an alcohol concentration in violation of RCW 46.61.503;

(ii) That after receipt of the warnings required by subsection (2) of this section the person refused to submit to a test of his or her blood or breath, or a test was administered and the results indicated that the alcohol concentration of the person's breath or blood was 0.08 or more if the person is age twenty-one or over, or was 0.02 or more if the person is under the age of twenty-one; and

(iii) Any other information that the director may require by rule.

(7) The department of licensing, upon the receipt of a sworn report or report under a declaration authorized by RCW 9A.72.085 under subsection (6)(e) of this section, shall suspend, revoke, or deny the person's license, permit, or privilege to drive or any nonresident operating privilege, as provided in RCW 46.20.3101, such suspension, revocation, or denial to be effective beginning sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or when sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first.

(8) A person receiving notification under subsection (6)(b) of this section may, within twenty days after the notice has been given, request in writing a formal hearing before the department. The person shall pay a fee of two hundred dollars as part of the request. If the request is mailed, it must be postmarked within twenty days after receipt of the notification. Upon timely receipt of such a request for a formal hearing, including receipt of the required two hundred dollar fee, the department shall afford the person an opportunity for a hearing. The department may waive the required two hundred dollar fee if the person is an indigent as defined in RCW 10.101.010. Except as otherwise provided in this section, the hearing is subject to and shall be scheduled and conducted in accordance with RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest, except that all or part of the hearing may, at the discretion of the department, be conducted by telephone or other electronic means. The hearing shall be held within sixty days following the arrest or following the date notice has been given in the event notice is given by the department following a blood test, unless otherwise agreed to by the department and the person, in which case the action by the department shall be stayed, and any valid temporary license marked under subsection (6)(c) of this section extended, if the person is otherwise eligible for licensing. For the purposes of this section, the scope of the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more if the person was under the age of twenty-one, whether the person was placed under arrest, and whether the person refused to submit to the test or tests upon request of the officer after having been informed that such refusal would result in the revocation of the person's license, permit, or privilege to drive, or (b) if a test or tests were administered, whether the applicable requirements of this section were satisfied before the administration of the test or tests, whether the person submitted to the test or tests, or whether a test was administered without express consent as permitted under this section, and whether the test or tests indicated that the alcohol concentration of the person's breath or blood was 0.08 or more if the person was age twenty-one or over at the time of the arrest, or 0.02 or more if the person was under the age of twenty-one at the time of the arrest. The sworn report or report under a declaration authorized by RCW 9A.72.085 submitted by a law enforcement officer is prima facie evidence that the officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or the person had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more and was under the age of twenty-one and that the officer complied with the requirements of this section.

A hearing officer shall conduct the hearing, may issue subpoenas for the attendance of witnesses and the production of documents, and shall administer oaths to witnesses. The hearing officer shall not issue a subpoena for the attendance of a witness at the request of the person unless the request is accompanied by the fee required by RCW 5.56.010 for a witness in district court. The sworn report or report under a declaration authorized by RCW 9A.72.085 of the law enforcement officer and any other evidence accompanying the report shall be admissible without further evidentiary foundation and the certifications authorized by the criminal rules for courts of limited jurisdiction shall be admissible without further evidentiary foundation. The person may be represented by counsel, may question witnesses, may present evidence, and may testify. The department shall order that the suspension, revocation, or denial either be rescinded or sustained.

(9) If the suspension, revocation, or denial is sustained after such a hearing, the person whose license, privilege, or permit is suspended, revoked, or denied has the right to file a petition in the superior court of the county of arrest to review the final order of revocation by the department in the same manner as an appeal from a decision of a court of limited jurisdiction. Notice of appeal must be filed within thirty days after the date the final order is served or the right to appeal is waived. Notwithstanding RCW 46.20.334, RAJI 1.1, or other statutes or rules referencing de novo review, the appeal shall be limited to a review of the record of the administrative hearing. The appellant must pay the costs associated with obtaining the record of the hearing before the hearing officer. The filing of the appeal does not stay the effective date of the suspension, revocation, or denial. A petition filed under this subsection must include the petitioner's
grounds for requesting review. Upon granting petitioner's request for review, the court shall review the department's final order of suspension, revocation, or denial as expeditiously as possible. The review must be limited to a determination of whether the department has committed any errors of law. The superior court shall accept those factual determinations supported by substantial evidence in the record: (a) That were expressly made by the department; or (b) that may reasonably be inferred from the final order of the department. The superior court may reverse, affirm, or modify the decision of the department or remand the case back to the department for further proceedings. The decision of the superior court must be in writing and filed in the clerk's office with the other papers in the case. The court shall state the reasons for the decision. If judicial relief is sought for a stay or other temporary remedy from the department's action, the court shall not grant such relief unless the court finds that the appellant is likely to prevail in the appeal and that without a stay the appellant will suffer irreparable injury. If the court stays the suspension, revocation, or denial it may impose conditions on such stay.

(10)(a) If a person whose driver's license, permit, or privilege to drive has been or will be suspended, revoked, or denied under subsection (7) of this section, other than as a result of a breath or blood test refusal, and who has not committed an offense for which he or she was granted a deferred prosecution under chapter 10.05 RCW, petitions a court for a deferred prosecution on criminal charges arising out of the arrest for which action has been or will be taken under subsection (7) of this section, or notifies the department of licensing of the intent to seek such a deferred prosecution, then the license suspension or revocation shall be stayed pending entry of the deferred prosecution. The stay shall not be longer than one hundred fifty days after the date charges are filed, or two years after the date of the arrest, whichever time period is shorter. If the court stays the suspension, revocation, or denial, it may impose conditions on such stay. If the person is otherwise eligible for licensing, the department shall issue a temporary license, or extend any valid temporary license marked under subsection (6) of this section, for the period of the stay. If a deferred prosecution treatment plan is not recommended in the report made under RCW 10.05.050, or if treatment is rejected by the court, or if the person declines to accept an offered treatment plan, or if the person violates any condition imposed by the court, then the court shall immediately direct the department to cancel the stay and any temporary marked license or extension of a temporary license issued under this subsection.

(b) A suspension, revocation, or denial imposed under this section, other than as a result of a breath or blood test refusal, shall be stayed if the person is accepted for deferred prosecution as provided in chapter 10.05 RCW for the incident upon which the suspension, revocation, or denial is based. If the deferred prosecution is terminated, the stay shall be lifted and the suspension, revocation, or denial reinstated. If the deferred prosecution is completed, the stay shall be lifted and the suspension, revocation, or denial canceled.

(c) The provisions of (b) of this subsection relating to a stay of a suspension, revocation, or denial and the cancellation of any suspension, revocation, or denial do not apply to the suspension, revocation, denial, or disqualification of a person's commercial driver's license or privilege to operate a commercial motor vehicle.

(11) When it has been finally determined under the procedures of this section that nonresident's privilege to operate a motor vehicle in this state has been suspended, revoked, or denied, the department shall give information in writing of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which he or she has a license.

Sec. 8. RCW 46.20.385 and 2011 c 293 s 1 are each amended to read as follows:

(1)(a) Beginning January 1, 2009, any person licensed under this chapter who is convicted of a violation of RCW 46.61.502 or 46.61.504 or an equivalent local or out-of-state statute or ordinance, or a violation of RCW 46.61.520(1)(a) or 46.61.522(1)(b), or who has had or will have his or her license suspended, revoked, or denied under RCW 46.20.3101, or who is otherwise permitted under subsection (8) of this section, may submit to the department an application for an ignition interlock driver's license. The department, upon receipt of the prescribed fee and upon determining that the petitioner is eligible to receive the license, may issue an ignition interlock driver's license.

(b) A person may apply for an ignition interlock driver's license anytime, including immediately after receiving the notices under RCW 46.20.308 or after his or her license is suspended, revoked, or denied. A person receiving an ignition interlock driver's license waives his or her right to a hearing or appeal under RCW 46.20.308.

(c) An applicant under this subsection shall provide proof to the satisfaction of the department that a functioning ignition interlock device has been installed on all vehicles operated by the person.

(i) The department shall require the person to maintain the device on all vehicles operated by the person and shall restrict the person to operating only vehicles equipped with the device, for the remainder of the period of suspension, revocation, or denial. The installation of an ignition interlock device is not necessary on vehicles owned, leased, or rented by a person's employer and on those vehicles whose care and/or maintenance is the temporary responsibility of the employer, and driven at the direction of a person's employer as a requirement of employment during working hours. The person must provide the department with a declaration pursuant to RCW 9A.72.085 from his or her employer stating that the person's employment requires the person to operate a vehicle owned by the employer or other persons during working hours. However, when the employer's vehicle is assigned exclusively to the restricted driver and used solely for commuting to and from employment, the employer exemption does not apply.

(ii) Subject to any periodic renewal requirements established by the department under this section and subject to any applicable compliance requirements under this chapter or other law, an ignition interlock driver's license granted upon a suspension or revocation under RCW 46.61.5055 or 46.20.3101 extends through the remaining portion of any concurrent or consecutive suspension or revocation that may be imposed as the result of administrative action and criminal conviction arising out of the same incident.

(iii) The time period during which the person is licensed under this section shall apply on a day-for-day basis toward satisfying the period of time the ignition interlock device restriction is required under RCW 46.20.720 and 46.61.5055. Beginning with incidents occurring on or after September 1, 2011, when calculating the period of time for the restriction under RCW 46.20.720(3), the department must also give the person a day-for-day credit for the time period, beginning from the date of the incident, during which the person kept an ignition interlock device installed on all vehicles the person operates. For the purposes of this subsection (1)(c)(iii), the term "all vehicles" does not include vehicles that would be subject to the employer exception under RCW 46.20.720(3).

(2) An applicant for an ignition interlock driver's license who qualifies under subsection (1) of this section is eligible to receive a license only if the applicant files satisfactory proof of financial responsibility under chapter 46.29 RCW.

(3) Upon receipt of evidence that a holder of an ignition interlock driver's license granted under this subsection no longer has a functioning ignition interlock device installed on all vehicles operated by the driver, the director shall give written notice by first-class mail to the driver that the ignition interlock driver's license shall be canceled. If at any time before the cancellation goes into effect the driver submits evidence that a functioning ignition interlock device has been installed on all vehicles operated by the driver, the cancellation shall be stayed. If the cancellation becomes effective, the
driver may obtain, at no additional charge, a new ignition interlock driver's license upon submittal of evidence that a functioning ignition interlock device has been installed on all vehicles operated by the driver.

(4) A person aggrieved by the decision of the department on the application for an ignition interlock driver's license may request a hearing as provided by rule of the department.

(5) The director shall cancel an ignition interlock driver's license after receiving notice that the holder thereof has been convicted of operating a motor vehicle in violation of its restrictions, no longer meets the eligibility requirements, or has been convicted of or found to have committed a separate offense or any other act or omission that under this chapter would warrant suspension or revocation of a regular driver's license. The department must give notice of the cancellation as provided under RCW 46.20.245. A person whose ignition interlock driver's license has been canceled under this section may reapply for a new ignition interlock driver's license if he or she is otherwise qualified under this section and pays the fee required under RCW 46.20.380.

(6)(a) Unless costs are waived by the ignition interlock company or the person is indigent under RCW 10.101.010, the applicant shall pay the cost of installing, removing, and leasing the ignition interlock device and shall pay an additional fee of twenty dollars per month. Payments shall be made directly to the ignition interlock company. The company shall remit the additional twenty dollar fee to the department.

(b) The department shall deposit the proceeds of the twenty dollar fee into the ignition interlock device revolving account. Expenditures from the account may be used only to administer and operate the ignition interlock device revolving account program. The department shall adopt rules to provide monetary assistance according to greatest need and when funds are available.

(7) The department shall adopt rules to implement ignition interlock licensing. The department shall consult with the administrative office of the courts, the state patrol, the Washington association of sheriffs and police chiefs, ignition interlock companies, and any other organization or entity the department deems appropriate.

(8)(a) Any person licensed under this chapter who is convicted of a violation of RCW 46.61.500 when the charge was originally filed as a violation of RCW 46.61.502 or 46.61.504, or an equivalent local ordinance, may submit to the department an application for an ignition interlock driver's license under this section.

(b) A person who does not have any driver's license under this chapter, but who would otherwise be eligible under this section to apply for an ignition interlock license, may submit to the department an application for an ignition interlock license. The department may require the person to take any driver's licensing examination under chapter 46.20 RCW and may require the person to also apply and qualify for a temporary restricted driver's license under RCW 46.20.391.

Sec. 9. RCW 46.20.720 and 2011 c 293 s 6 are each amended to read as follows:

(1) The court may order that after a period of suspension, revocation, or denial of driving privileges, and for up to as long as the court has jurisdiction, any person convicted of any offense involving the use, consumption, or possession of alcohol while operating a motor vehicle may drive only a motor vehicle equipped with a functioning ignition interlock. The court shall establish a specific calibration setting at which the interlock will prevent the vehicle from being started. The court shall also establish the period of time for which interlock use will be required.

(2) Under RCW 46.61.5055 and subject to the exceptions listed in that statute, the court shall order any person convicted of a violation of RCW 46.61.502 or 46.61.504 or an equivalent local ordinance to compensate the court in the amount of $100 per period of time the person is restricted from driving a vehicle, not to exceed twenty-four months. Payments shall be made directly to the ignition interlock company. The company shall remit the additional twenty dollar fee to the department.

(3) The department shall require that, after any applicable period of suspension, revocation, or denial of driving privileges, a person may drive only a motor vehicle equipped with a functioning ignition interlock device if the person is convicted of a violation of RCW 46.61.502 or 46.61.504 or an equivalent local or out-of-state statute or ordinance. The department shall require that a person may drive only a motor vehicle equipped with a functioning ignition interlock device if the person is convicted of a violation of RCW 46.61.5249 or 46.61.500 and is required under RCW 46.61.5249(4) or 46.61.500(3) (a) or (b) to install an ignition interlock device on all vehicles operated by the person.

The department may waive the requirement for the use of such a device if it concludes that such devices are not reasonably available in the local area. The installation of an ignition interlock device is not necessary on vehicles owned, leased, or rented by a person's employer and on those vehicles whose care and/or maintenance is the temporary responsibility of the employer, and driven at the direction of a person's employer as a requirement of employment during working hours. The person must provide the department with a declaration pursuant to RCW 9A.72.085 from his or her employer stating that the person's employment requires the person to operate a vehicle owned by the employer or other persons during working hours. However, when the employer's vehicle is assigned exclusively to the restricted driver and used solely for commuting to and from employment, the employer exemption does not apply.

The ignition interlock device shall be calibrated to prevent the motor vehicle from being started when the breath sample provided has an alcohol concentration of 0.025 or more. Subject to the provisions of subsections (4) and (5) of this section, the period of time of the restriction will be no less than:

(a) For a person who has not previously been restricted under this section, a period of one year;

(b) For a person who has previously been restricted under (a) of this subsection, a period of five years;

(c) For a person who has previously been restricted under (b) of this subsection, a period of ten years.

(4) A restriction imposed under subsection (3) of this section shall remain in effect until the department receives a declaration from the person's ignition interlock device vendor, in a form provided or approved by the department, certifying that there have been none of the following incidents in the four consecutive months prior to the date of release:

(a) An attempt to start the vehicle with a breath alcohol concentration of 0.04 or more;

(b) Failure to take or pass any required retest; or

(c) Failure of the person to appear at the ignition interlock device vendor when required for maintenance, repair, calibration, monitoring, inspection, or replacement of the device.

(5) For a person required to install an ignition interlock device pursuant to RCW 46.61.5249(4) or 46.61.500(3), the period of time of the restriction shall be for six months and shall be subject to subsection (4) of this section.

(6) In addition to any other costs associated with the use of an ignition interlock device imposed on the person restricted under this section, the person shall pay an additional fee of twenty dollars per month. Payments must be made directly to the ignition interlock company. The company shall remit the additional twenty dollar fee to the department.
department to be deposited into the ignition interlock device revolving account.

Sec. 10. RCW 46.20.745 and 2008 c 282 s 10 are each amended to read as follows:

(1) The ignition interlock device revolving account program is created within the department to assist in covering the monetary costs of installing, removing, and leasing an ignition interlock device, and applicable licensing, for indigent persons who are required under RCW 46.20.385, 46.20.720, and 46.61.5055 to install an ignition interlock device in all vehicles owners or operated by the person. For purposes of this subsection, "indigent" has the same meaning as in RCW 10.101.010, as determined by the department.

(2) A pilot program is created within the ignition interlock device revolving account program for the purpose of monitoring compliance by persons required to use ignition interlock devices and by ignition interlock companies and vendors.

(3) The department, the state patrol, and the Washington traffic safety commission shall coordinate to establish a compliance pilot program that will target at least one county from eastern Washington and one county from Western Washington, as determined by the department, state patrol, and Washington traffic safety commission.

(4) At a minimum, the compliance pilot program shall:

(a) Review the number of ignition interlock devices that are required to be installed in the targeted county and the number of ignition interlock devices actually installed;

(b) Work to identify those persons who are not complying with ignition interlock requirements or are repeatedly violating ignition interlock requirements; and

(c) Identify ways to track compliance and reduce noncompliance.

(5) As part of monitoring compliance, the Washington traffic safety commission shall also track recidivism for violations of RCW 46.61.502 and 46.61.504 by persons required to have an ignition interlock device's license under RCW 46.20.385 and 46.20.720.

Sec. 11. RCW 46.61.500 and 2011 c 293 s 4 and 2011 c 96 s 34 are each reenacted and amended to read as follows:

(1) Any person who drives any vehicle in willful or wanton disregard for the safety of persons or property is guilty of reckless driving. Violation of the provisions of this section is a gross misdemeanor punishable by imprisonment for up to three hundred sixty-four days and by a fine of not more than five thousand dollars.

(2) (a) Subject to (b) of this subsection, the license or permit to drive or any nonresident privilege of any person convicted of reckless driving shall be suspended by the department for not less than thirty days.

(b) When a reckless driving conviction is a result of a charge that was originally filed as a violation of RCW 46.61.502 or 46.61.504 or an equivalent local ordinance, the county or municipality in which the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device to include an alcohol detection breathalyzer, and the court may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring.

Sec. 12. RCW 46.61.5055 and 2011 c 293 s 7 and 2011 c 96 s 35 are each reenacted and amended to read as follows:

(1) Except as provided in RCW 46.61.502(6) or 46.61.504(6), a person who is convicted of a violation of RCW 46.61.502 or 46.61.504 and who has no prior offense within seven years shall be punished as follows:

(a) In the case of a person whose alcohol concentration was less than 0.15, or for whom for reasons other than the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than one day nor more than three hundred sixty-four days. Twenty-four consecutive hours of the imprisonment may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended or deferred, the court shall state in writing the reason for granting the suspension or deferral and the facts upon which the suspension or deferral is based. In lieu of the mandatory minimum term of imprisonment required under this subsection (1)(a)(i), the court may order not less than fifteen days of electronic home monitoring. The offender shall pay the cost of electronic home monitoring. The county or municipality in which the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device to include an alcohol detection breathalyzer, and the court may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring; and

(ii) By a fine of not less than three hundred fifty dollars nor more than five thousand dollars. Three hundred fifty dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent; or

(b) In the case of a person whose alcohol concentration was at least 0.15, or for whom by reason of the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than two days nor more than three hundred sixty-four days. Two consecutive days of the imprisonment may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended or deferred, the court shall state in writing the reason for granting the suspension or deferral and the facts upon which the suspension or deferral is based. In lieu of the mandatory minimum term of imprisonment required under this subsection (1)(b)(i), the court may order not less than thirty days of electronic home monitoring. The offender shall pay the cost of electronic home monitoring. The county or municipality in which the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device to include an alcohol detection breathalyzer, and the court may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring; and

(ii) By a fine of not less than five hundred dollars nor more than five thousand dollars. Five hundred dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent; or

(2) Except as provided in RCW 46.61.502(6) or 46.61.504(6), a person who is convicted of a violation of RCW 46.61.502 or 46.61.504 and who has one prior offense within seven years shall be punished as follows:
(a) In the case of a person whose alcohol concentration was less than 0.15, or for whom for reasons other than the person’s refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person’s alcohol concentration:

(i) By imprisonment for not less than thirty days nor more than three hundred sixty-four days and sixty days of electronic home monitoring. In lieu of the mandatory minimum term of sixty days electronic home monitoring, the court may order at least an additional four days in jail. The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender’s electronic home monitoring device include an alcohol detection breathalyzer, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. Thirty days of imprisonment and sixty days of electronic home monitoring may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender’s physical or mental well-being. Whenever the mandatory minimum sentence is suspended or deferred, the court shall state in writing the reason for granting the suspension or deferral and the facts upon which the suspension or deferral is based; and

(ii) By a fine of not less than five hundred dollars nor more than five thousand dollars. Five hundred dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent; or

(b) In the case of a person whose alcohol concentration was at least 0.15, or for whom by reason of the person’s refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person’s alcohol concentration:

(i) By imprisonment for not less than forty-five days nor more than three hundred sixty-four days and ninety days of electronic home monitoring. In lieu of the mandatory minimum term of ninety days electronic home monitoring, the court may order at least an additional six days in jail. The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. Forty-five days of imprisonment and ninety days of electronic home monitoring may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended or deferred, the court shall state in writing the reason for granting the suspension or deferral and the facts upon which the suspension or deferral is based; and

(ii) By a fine of not less than seven hundred fifty dollars nor more than five thousand dollars. Seven hundred fifty dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent.

(3) Except as provided in RCW 46.61.502(6) or 46.61.504(6), a person who is convicted of a violation of RCW 46.61.502 or 46.61.504 and who has two or three prior offenses within seven years shall be punished as follows:

(a) In the case of a person whose alcohol concentration was less than 0.15, or for whom for reasons other than the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than ninety days nor more than three hundred sixty-four days and one hundred twenty days of electronic home monitoring. In lieu of the mandatory minimum term of one hundred twenty days of electronic home monitoring, the court may order at least an additional eight days in jail. The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. Ninety days of imprisonment and one hundred twenty days of electronic home monitoring may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended or deferred, the court shall state in writing the reason for granting the suspension or deferral and the facts upon which the suspension or deferral is based; and

(ii) By a fine of not less than one thousand dollars nor more than five thousand dollars. One thousand dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent; or

(b) In the case of a person whose alcohol concentration was at least 0.15, or for whom by reason of the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than one hundred twenty days nor more than three hundred sixty-four days and one hundred fifty days of electronic home monitoring. In lieu of the mandatory minimum term of one hundred fifty days of electronic home monitoring, the court may order at least an additional ten days in jail. The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. One hundred twenty days of imprisonment and one hundred fifty days of electronic home monitoring may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended or deferred, the court shall state in writing the reason for granting the suspension or deferral and the facts upon which the suspension or deferral is based; and

(ii) By a fine of not less than one thousand five hundred dollars nor more than five thousand dollars. One thousand five hundred dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent.

(4) A person who is convicted of a violation of RCW 46.61.502 or 46.61.504 shall be punished under chapter 9.94A RCW if:

(a) The person has four or more prior offenses within ten years; or

(b) The person has ever previously been convicted of:

(i) A violation of RCW 46.61.520 committed while under the influence of intoxicating liquor or any drug;

(ii) A violation of RCW 46.61.522 committed while under the influence of intoxicating liquor or any drug;

(iii) An out-of-state offense comparable to the offense specified in (b)(i) or (ii) of this subsection; or

(iv) A violation of RCW 46.61.502(6) or 46.61.504(6).

(5)(a) The court shall require any person convicted of a violation of RCW 46.61.502 or 46.61.504 or an equivalent local ordinance to comply with the requirements of the department regarding the installation and use of a functioning ignition interlock device installed on all motor vehicles operated by the person.

(b) The installation of an ignition interlock device is not necessary on vehicles owned, leased, or rented by a person's employer and on those vehicles whose care and/or maintenance is the temporary responsibility of the employer, and driven at the direction
of a person's employer as a requirement of employment during working hours. The person must provide the department with a declaration pursuant to RCW 9A.72.085 from his or her employer stating that the person's employment requires the person to operate a vehicle owned by the employer or other persons during working hours.

(c) An ignition interlock device imposed under this section shall be calibrated to prevent a motor vehicle from being started when the breath sample provided has an alcohol concentration of 0.025 or more.

(d) The court may waive the requirement that a person apply for an ignition interlock device's license if the court makes a specific finding in writing that:

(i) The person lives out-of-state and the devices are not reasonably available in the person's local area;

(ii) The person does not operate a vehicle; or

(iii) The person is not eligible to receive an ignition interlock driver's license under RCW 46.20.385 because the person is not a resident of Washington, is a habitual traffic offender, has already applied for or is already in possession of an ignition interlock device's license, has never had a driver's license, has been convicted under chapter 74.20A RCW as noncompliant with a child support order, or is subject to any other condition or circumstance that makes the person ineligible to obtain an ignition interlock driver's license.

(e) If a court finds that a person is not eligible to receive an ignition interlock driver's license under this section, the court is not required to make any further subsequent inquiry or determination as to the person's eligibility.

(f) If the court orders that a person refrain from consuming any alcohol (and requires the person to apply for an ignition interlock driver's license), and the person states that he or she does not operate a motor vehicle or the person is ineligible to obtain an ignition interlock driver's license), the court (shall) may order the person to submit to alcohol monitoring through an alcohol detection breathalyzer device, transdermal sensor device, or other technology designed to detect alcohol in a person's system. (Alcohol monitoring ordered under this subsection must be for the period of the mandatory license suspension or revocation.) The person shall pay for the cost of the monitoring, unless the court specifies that the cost of monitoring will be paid with funds that are available from an alternative source identified by the court. The county or municipality where the penalty is being imposed shall determine the cost.

(g) The period of time for which ignition interlock use is required will be as follows:

(i) For a person who has not previously been restricted under this section, a period of one year;

(ii) For a person who has previously been restricted under (g)(i) of this subsection, a period of five years;

(iii) For a person who has previously been restricted under (g)(ii) of this subsection, a period of ten years.

(h) Beginning with incidents occurring on or after September 1, 2011, when calculating the period of time for the restriction under RCW 46.20.720(3), the department must also give the person a day-for-day credit for the time period, beginning from the date of the incident, during which the person kept an ignition interlock device installed on all vehicles the person operates. For the purposes of this subsection (5)(h), the term "all vehicles" does not include vehicles that would be subject to the employer exception under RCW 46.20.720(3).

(i) If a person who is convicted of a violation of RCW 46.61.502 or 46.61.504 committed the offense while a passenger under the age of sixteen was in the vehicle, the court shall:

(A) In any case in which the installation and use of an interlock or other device is not mandatory under RCW 46.20.720 or other law, order the use of such a device for not less than sixty days following the restoration of the person's license, permit, or nonresident driving privileges; and

(B) In any case in which the installation and use of such a device is otherwise mandatory, order the use of such a device for an additional sixty days.

(7) In exercising its discretion in setting penalties within the limits allowed by this section, the court shall particularly consider the following:

(a) Whether the person's driving at the time of the offense was responsible for injury or damage to another or another's property; and

(b) Whether at the time of the offense the person was driving or in physical control of a vehicle with one or more passengers.

(8) An offender punishable under this section is subject to the alcohol assessment and treatment provisions of RCW 46.61.5056.

(9) The license, permit, or nonresident privilege of a person convicted of driving or being in physical control of a motor vehicle while under the influence of intoxicating liquor or drugs must:

(a) If the person's alcohol concentration was less than 0.15, or if for reasons other than the person's refusal to take a test offered under RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) Where there has been no prior offense within seven years, be suspended or denied by the department for ninety days;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for two years; or

(iii) Where there have been two or more prior offenses within seven years, be revoked or denied by the department for three years;

(b) If the person's alcohol concentration was at least 0.15:

(i) Where there has been no prior offense within seven years, be revoked or denied by the department for one year;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for nine hundred days; or

(iii) Where there have been two or more prior offenses within seven years, be revoked or denied by the department for four years; or

(c) If by reason of the person's refusal to take a test offered under RCW 46.20.308, there is no test result indicating the person's alcohol concentration:

(i) Where there have been no prior offenses within seven years, be revoked or denied by the department for two years;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for three years; or

(iii) Where there have been two or more previous offenses within seven years, be revoked or denied by the department for four years.

The department shall grant credit on a day-for-day basis for any portion of a suspension, revocation, or denial already served under this subsection for a suspension, revocation, or denial imposed under RCW 46.20.3101 arising out of the same incident.

For purposes of this subsection (9), the department shall refer to the driver's record maintained under RCW 46.52.120 when determining the existence of prior offenses.

(10) After expiration of any period of suspension, revocation, or denial of the offender's license, permit, or privilege to drive required by this section, the department shall place the offender's driving privilege in probationary status pursuant to RCW 46.20.335.

(11) (a) In addition to any nonsuspendable and nondeferrable jail sentence required by this section, whenever the court imposes up to three hundred sixty-four days in jail, the court shall also suspend but shall not defer a period of confinement for a period not exceeding five years. The court shall impose conditions of probation that include:

(i) Not driving a motor vehicle within this state without a valid license to drive and proof of financial responsibility for the future; (ii) not driving a motor vehicle within this state while having an alcohol concentration of 0.08 or more within two hours after driving; and (iii) not refusing to submit to a test of his or her blood or breath to determine alcohol concentration upon request of a law enforcement officer who has reasonable grounds to believe the person was driving
or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor. The court may impose conditions of probation that include nonrepetition, installation of an ignition interlock device on the probationer's motor vehicle, alcohol or drug treatment, supervised probation, or other conditions that may be appropriate. The sentence may be imposed in whole or in part upon violation of a condition of probation during the suspension period.

(b) For each violation of mandatory conditions of probation under (a)(i), (ii), or (iii) of this subsection, the court shall order the convicted person to be confined for thirty days, which shall not be suspended or deferred.

(c) For each incident involving a violation of a mandatory condition of probation imposed under this subsection, the license, permit, or privilege to drive of the person shall be suspended by the court for thirty days or, if such license, permit, or privilege to drive already is suspended, revoked, or denied at the time the finding of probation violation is made, the suspension, revocation, or denial then in effect shall be extended by thirty days. The court shall notify the department of any suspension, revocation, or denial or any extension of a suspension, revocation, or denial imposed under this subsection.

(12) A court may waive the electronic home monitoring requirements of this chapter when:

(a) The offender does not have a dwelling, telephone service, or any other necessity to operate an electronic home monitoring system;
(b) The offender does not reside in the state of Washington; or
(c) The court determines that there is reason to believe that the offender would violate the conditions of the electronic home monitoring penalty.

Whenever the mandatory minimum term of electronic home monitoring is waived, the court shall state in writing the reason for granting the waiver and the facts upon which the waiver is based, and shall impose an alternative sentence with similar punitive consequences. The alternative sentence may include, but is not limited to, additional jail time, work crew, or work camp.

Whenever the combination of jail time and electronic home monitoring or alternative sentence would exceed three hundred sixty-four days, the offender shall serve the jail portion of the sentence first, and the electronic home monitoring or alternative portion of the sentence shall be reduced so that the combination does not exceed three hundred sixty-four days.

(13) An offender serving a sentence under this section, whether or not a mandatory minimum term has expired, may be granted an extraordinary medical placement by the jail administrator subject to the standards and limitations set forth in RCW 9.94A.728(3).

(14) For purposes of this section and RCW 46.61.502 and 46.61.504:

(a) A "prior offense" means any of the following:
(i) A conviction for a violation of RCW 46.61.502 or an equivalent local ordinance;
(ii) A conviction for a violation of RCW 46.61.504 or an equivalent local ordinance;
(iii) A conviction for a violation of RCW 46.61.520 committed while under the influence of intoxicating liquor or any drug, or a conviction for a violation of RCW 46.61.520 committed in a reckless manner or with the disregard for the safety of others if the conviction is the result of a charge that was originally filed as a violation of RCW 46.61.520 committed while under the influence of intoxicating liquor or any drug;
(iv) A conviction for a violation of RCW 46.61.522 committed while under the influence of intoxicating liquor or any drug, or a conviction for a violation of RCW 46.61.522 committed in a reckless manner or with the disregard for the safety of others if the conviction is the result of a charge that was originally filed as a violation of RCW 46.61.522 committed while under the influence of intoxicating liquor or any drug;
(v) A conviction for a violation of RCW 46.61.5249, 46.61.500, or 9A.36.050 or an equivalent local ordinance, if the conviction is the result of a charge that was originally filed as a violation of RCW 46.61.502 or 46.61.504, or an equivalent local ordinance, or of RCW 46.61.520 or 46.61.522;
(vi) An out-of-state conviction for a violation that would have been a violation of (a)(i), (ii), (iii), (iv), or (v) of this subsection if committed in this state;
(vii) A deferred prosecution under chapter 10.05 RCW granted in a prosecution for a violation of RCW 46.61.502, 46.61.504, or an equivalent local ordinance; (\(\text{iii}\))
(viii) A deferred prosecution under chapter 10.05 RCW granted in a prosecution for a violation of RCW 46.61.5249, or an equivalent local ordinance, if the charge under which the deferred prosecution was granted was originally filed as a violation of RCW 46.61.502 or 46.61.504, or an equivalent local ordinance, or of RCW 46.61.520 or 46.61.522; or
(ix) A deferred prosecution granted in another state for a violation of driving or having physical control of a vehicle while under the influence of intoxicating liquor or any drug if the out-of-state deferred prosecution is equivalent to the deferred prosecution under chapter 10.05 RCW, including a requirement that the defendant participate in a chemical dependency treatment program.

If a deferred prosecution is revoked based on a subsequent conviction for an offense listed in this subsection (14)(a), the subsequent conviction shall not be treated as a prior offense of the revoked deferred prosecution for the purposes of sentencing;

(b) "Within seven years" means that the arrest for a prior offense occurred within seven years before or after the arrest for the current offense; and
(c) "Within ten years" means that the arrest for a prior offense occurred within ten years before or after the arrest for the current offense.

\textbf{Sec. 13.} RCW 46.61.5249 and 2011 c 293 s 5 are each amended to read as follows:

(1)(a) A person is guilty of negligent driving in the first degree if he or she operates a motor vehicle in a manner that is both negligent and endangers or is likely to endanger any person or property, and exhibits the effects of having consumed liquor or an illegal drug or exhibits the effects of having inhaled or ingested any chemical, whether or not a legal substance, for its intoxicating or hallucinatory effects.

(b) It is an affirmative defense to negligent driving in the first degree by means of exhibiting the effects of having consumed an illegal drug that must be proved by the defendant by a preponderance of the evidence, that the driver has a valid prescription for the drug consumed, and has been consuming it according to the prescription directions and warnings.

(c) "Exhibiting the effects of having consumed liquor" means that a person by speech, manner, appearance, behavior, lack of coordination, or otherwise exhibits that he or she has consumed liquor, and either:

(i) Is in possession of or in close proximity to a container that has or recently had liquor in it; or
(ii) Is shown by other evidence to have recently consumed liquor.

(c) "Exhibiting the effects of having consumed an illegal drug" means that a person by speech, manner, appearance, behavior, lack of coordination, or otherwise exhibits that he or she has consumed an illegal drug and either:
(i) Is in possession of an illegal drug; or
(ii) Is shown by other evidence to have recently consumed an illegal drug.

(d) "Exhibiting the effects of having inhaled or ingested any chemical, whether or not a legal substance, for its intoxicating or hallucinatory effects" means that a person by speech, manner, appearance, behavior, or lack of coordination or otherwise exhibits that he or she has inhaled or ingested a chemical and either:
   (i) Is in possession of the canister or container from which the chemical came; or
   (ii) Is shown by other evidence to have recently inhaled or ingested a chemical for its intoxicating or hallucinatory effects.

(e) "Illegal drug" means a controlled substance under chapter 69.50 RCW for which the driver does not have a valid prescription or that is not being consumed in accordance with the prescription directions and warnings, or a legend drug under chapter 69.41 RCW for which the driver does not have a valid prescription or that is not being consumed in accordance with the prescription directions and warnings.

(3) Any act prohibited by this section that also constitutes a crime under any other law of this state may be the basis of prosecution under such other law notwithstanding that it may also be the basis for prosecution under this section.

(4) A person convicted of negligent driving in the first degree who has one or more prior offenses as defined in RCW 46.61.505(14) within seven years shall be required, under RCW 46.20.720, to install an ignition interlock device on all vehicles operated by the person.

Sec. 14. RCW 46.61.540 and 1975 1st ex.s. c 287 s 5 are each amended to read as follows:

The word "drugs", as used in RCW 46.61.500 through 46.61.535, shall include but not be limited to those drugs and substances regulated by chapters 69.41 and 69.50 RCW and any chemical inhaled or ingested for its intoxicating or hallucinatory effects.

NEW SECTION. Sec. 15. A new section is added to chapter 43.43 RCW to read as follows:

(1) As part of the state patrol's authority to provide standards for certification, installation, repair, maintenance, monitoring, inspection, and removal of ignition interlock devices, the state patrol shall by rule establish a fee schedule and collect fees from ignition interlock manufacturers, technicians, providers, and persons required under RCW 46.20.385, 46.20.720, and 46.61.5055 to install an ignition interlock device in all vehicles owned or operated by the person. At a minimum, the fees must be set at a level necessary to support effective performance of the duties identified in this section. The state patrol must report back to the transportation committees of the legislature and the office of financial management by December 1st of each year on the level of the fees that have been adopted and whether those fees are sufficient to cover the cost of performing the duties listed in this section.

(2) Fees collected under this section must be deposited into the highway safety account to be used solely to fund the Washington state patrol impaired driving section projects.

Sec. 16. RCW 43.43.395 and 2010 c 268 s 2 are each amended to read as follows:

(1) The state patrol shall by rule provide standards for the certification, installation, repair, maintenance, monitoring, inspection, and removal of ignition interlock devices, as defined under RCW 46.04.215, and equipment as outlined under this section, and may inspect the records and equipment of manufacturers and vendors during regular business hours for compliance with statutes and rules and may suspend or revoke certification for any noncompliance. The state patrol may only inspect ignition interlock devices in the vehicles of customers for proper installation and functioning when installation is being done at the vendors' place of business.

(2)(a) When a certified service provider or individual installer of ignition interlock devices is found to be out of compliance, the installation privileges of that certified service provider or individual installer may be suspended or revoked until the certified service provider or individual installer comes into compliance. During any suspension or revocation period, the certified service provider or individual installer is responsible for notifying affected customers of any changes in their service agreement.

(b) A certified service provider or individual installer whose certification is suspended or revoked for noncompliance has a right to an administrative hearing under chapter 34.05 RCW to contest the suspension or revocation, or both. For the administrative hearing, the procedure and rules of evidence are as specified in chapter 34.05 RCW, except as otherwise provided in this chapter. Any request for an administrative hearing must be made in writing and must be received by the state patrol within twenty days after the receipt of the notice of suspension or revocation.

(3)(a) An ignition interlock device must employ fuel cell technology. For the purposes of this subsection, "fuel cell technology" consists of the following electrochemical method: An electrolyte designed to oxidize the alcohol and release electrons to be collected by an active electrode; a current flow is generated within the electrode proportional to the amount of alcohol oxidized on the fuel cell surface; and the electrical current is measured and reported as breath alcohol concentration. Fuel cell technology is highly specific for alcohols.

(b) When reasonably available in the area, as determined by the state patrol, an ignition interlock device must employ technology capable of taking a photo identification of the user giving the breath sample and recording on the photo the time the breath sample was given.

(c) To be certified, an ignition interlock device must:

(i) Meet or exceed the minimum test standards according to rules adopted by the state patrol. Only a notarized statement from a laboratory that is certified by the international organization of standardization and is capable of performing the tests specified will be accepted as proof of meeting or exceeding the standards. The notarized statement must include the name and signature of the person in charge of the tests under the following statement:

"Two samples of [model name], manufactured by [manufacturer], were tested by [laboratory], certified by the Internal Organization of Standardization. They do meet or exceed all specifications listed in the Federal Register, Volume 71, Number 31 (57 FR 11772), Breath Alcohol Ignition Interlock Devices (BAILD), NHTSA 2005-23470."; and

(ii) Be maintained in accordance with the rules and standards adopted by the state patrol.

NEW SECTION. Sec. 17. This act takes effect August 1, 2012."

SECOND READING

SUBSTITUTE SENATE BILL NO. 6492, by Senate Committee on Human Services & Corrections (originally sponsored by Senators Hargrove, Stevens and Regala)

Improving timeliness, efficiency, and accountability of forensic resource utilization associated with competency to stand trial.

The bill was read the second time.

Representative Pedersen moved the adoption of amendment (1400).

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The purpose of this act is to sustainably improve the timeliness of services related to competency to stand trial by setting performance expectations, establishing new mechanisms for accountability, and enacting reforms to ensure that forensic resources are expended in an efficient and clinically appropriate manner without diminishing the quality of competency services, and to reduce the time defendants with mental illness spend in jail awaiting evaluation and restoration of competency.

NEW SECTION. Sec. 2. A new section is added to chapter 10.77 RCW to read as follows:

1. (a) The legislature establishes the following performance targets for the timeliness of the completion of accurate and reliable evaluations of competency to stand trial and admissions for inpatient services related to competency to proceed or stand trial for adult criminal defendants. The legislature recognizes that these targets may not be achievable in all cases without compromise to quality of evaluation services, but intends for the department to manage, allocate, and request appropriations for resources in order to meet these targets whenever possible without sacrificing the accuracy of competency evaluations, and to otherwise make sustainable improvements and track performance related to the timeliness of competency services:

(i) For a state hospital to extend an offer of admission to a defendant in pretrial custody for legally authorized treatment or evaluation services related to competency, or to extend an offer of admission for legally authorized services following dismissal of charges based on incompetent to proceed or stand trial, seven days or less;

(ii) For completion of a competency evaluation in jail and distribution of the evaluation report for a defendant in pretrial custody, seven days or less;

(iii) For completion of a competency evaluation in the community and distribution of the evaluation report for a defendant who is released from custody and makes a reasonable effort to cooperate with the evaluation, twenty-one days or less.

(b) The time periods measured in these performance targets shall run from the date on which the state hospital receives the court referral and charging documents, discovery, and criminal history information related to the defendant. The targets in (a)(i) and (ii) of this subsection shall be phased in over a six-month period from the effective date of this section. The target in (a)(iii) of this subsection shall be phased in over a twelve-month period from the effective date of this section.

(c) The legislature recognizes the following nonexclusive list of circumstances that may place achievement of targets for completion of competency services described in (a) of this subsection out of the department's reach in an individual case without aspersion to the efforts of the department:

(i) Despite a timely request, the department has not received necessary medical clearance information regarding the current medical status of a defendant in pretrial custody for the purposes of admission to a state hospital;

(ii) The individual circumstances of the defendant make accurate completion of an evaluation of competency to proceed or stand trial dependent upon review of medical history information which is in the custody of a third party and cannot be immediately obtained by the department. Completion of a competency evaluation shall not be postponed for procurement of medical history information which is merely supplementary to the competency determination;

(iii) Completion of the referral is frustrated by lack of availability or participation by counsel, jail or court personnel, interpreters, or the defendant;

(iv) An unusual spike in the receipt of evaluation referrals or in the number of defendants requiring restoration services has occurred, causing temporary delays until the unexpected excess demand for competency services can be resolved.

(2) The department shall:

(a) Develop, document, and implement procedures to monitor the clinical status of defendants admitted to a state hospital for competency services that allow the state hospital to accomplish early discharge for defendants for whom clinical objectives have been achieved or may be achieved before expiration of the commitment period;

(b) Investigate the extent to which patients admitted to a state hospital under this chapter overstay time periods authorized by law and take reasonable steps to limit the time of commitment to authorized periods; and

(c) Establish written standards for the productivity of forensic evaluators and utilize these standards to internally review the performance of forensic evaluators.

(3) Following any quarter in which a state hospital has failed to meet one or more of the performance targets in subsection (1) of this section after full implementation of the performance target, the department shall report to the executive and the legislature the extent of this deviation and describe any corrective action being taken to improve performance. This report must be made publicly available. An average may be used to determine timeliness under this subsection.

(4) Beginning December 1, 2013, the department shall report annually to the legislature and the executive on the timeliness of services related to competency to proceed or stand trial and the timeliness with which court referrals accompanied by charging documents, discovery, and criminal history information are provided to the department relative to the signature date of the court order. The report must be in a form that is accessible to the public and that breaks down performance by county.

(5) This section does not create any new entitlement or cause of action related to the timeliness of competency evaluations or admission for inpatient services related to competency to proceed or stand trial, nor can it form the basis for contempt sanctions under chapter 7.21 RCW or a motion to dismiss criminal charges.

Sec. 3. RCW 10.77.060 and 2004 c 9 s 1 are each amended to read as follows:

(1) (a) Whenever a defendant has pleaded not guilty by reason of insanity, or there is reason to doubt his or her competency, the court
on its own motion or on the motion of any party shall either appoint or request the secretary to designate ((at least two)) a qualified expert(s) or professional person(s), (one of whom) who shall be approved by the prosecuting attorney, to (examine) evaluate and report upon the mental condition of the defendant.

(b) The signed order of the court shall serve as authority for the ((exams)) evaluator to be given access to all records held by any mental health, medical, educational, or correctional facility that relate to the present or past mental, emotional, or physical condition of the defendant. (At least one of the experts or professional personnel appointed shall be a developmentally disabled professional). If the court is advised by any party that the defendant may (be developmentally disabled) have a developmental disability, the evaluation must be performed by a developmentally disabled professional. (Upon agreement of the parties, the court may designate one expert or professional person to conduct the examination and report on the mental condition of the defendant. For purposes of the examination, the court may order)

(c) The evaluator shall assess the defendant in a jail, detention facility, in the community, or in court to determine whether a period of inpatient commitment will be necessary to complete an accurate evaluation. If inpatient commitment is needed, the signed order of the court shall serve as authority for the evaluator to request the jail or detention facility to transport the defendant ((committed)) to a hospital or ((other suitable)) secure ((private or public)) mental health facility for a period of ((time necessary to complete the examination, but)) commitment not to exceed fifteen days from the time of admission to the facility. Otherwise, the evaluator shall complete the evaluation.

(d) The court may commit the defendant for evaluation to a hospital or secure mental health facility without an assessment if: (i) The defendant is charged with murder in the first or second degree; (ii) the court finds that it is more likely than not that an evaluation in the jail will be inadequate to complete an accurate evaluation; or (iii) the court finds that an evaluation outside the jail setting is necessary for the health, safety, or welfare of the defendant. The court shall not order an initial inpatient evaluation for any purpose other than a competency evaluation. ((If the defendant is being held in jail or other detention facility, upon agreement of the parties, the court may direct that the examination be conducted at the jail or other detention facility.))

(e) The order shall indicate whether, in the event the defendant is committed to a hospital or secure mental health facility for evaluation, all parties agree to waive the presence of the defendant or to the defendant's remote participation at a subsequent competency hearing or presentation of an agreed order if the recommendation of the evaluator is for continuation of the stay of criminal proceedings, or if the opinion of the evaluator is that the defendant remains incompetent and there is no remaining restoration period, and the hearing is held prior to the expiration of the authorized commitment period.

(f) When a defendant is ordered to be committed for inpatient (examination) evaluation under this subsection (1), the court may delay granting bail until the defendant has been evaluated for competency or sanity and appears before the court. Following the evaluation, in determining bail the court shall consider: (i) Recommendations of the (expert or professional persons) evaluator regarding the defendant's competency, sanity, or diminished capacity; (ii) whether the defendant has a recent history of one or more violent acts; (iii) whether the defendant has previously been acquitted by reason of insanity or found incompetent; (iv) whether it is reasonably likely the defendant will fail to appear for a future court hearing; and (v) whether the defendant is a threat to public safety.

(2) The court may direct that a qualified expert or professional person retained by or appointed for the defendant be permitted to witness the (examination) evaluation authorized by subsection (1) of this section, and that the defendant shall have access to all information obtained by the court appointed experts or professional persons. The defendant's expert or professional person shall have the right to file his or her own report following the guidelines of subsection (3) of this section. If the defendant is indigent, the court shall upon the request of the defendant assist him or her in obtaining an expert or professional person.

(3) The report of the (examination) evaluation shall include the following:

(a) A description of the nature of the (examination) evaluation;
(b) A diagnosis or description of the current mental ((condition)) status of the defendant;
(c) If the defendant suffers from a mental disease or defect, or ((is developmentally disabled)) has a developmental disability, an opinion as to its competency;
(d) If the defendant has indicated his or her intention to rely on the defense of insanity pursuant to RCW 10.77.030, and an evaluation and report by an expert or professional person has been provided concluding that the defendant was criminally insane at the time of the alleged offense, an opinion as to whether the defendant presents a substantial danger to others, or presents a substantial likelihood of committing criminal acts jeopardizing public safety or security, unless kept under further control by the court or other persons or institutions, provided that no opinion shall be rendered under this subsection (3)(d) unless the evaluator or court determines that the defendant is competent to stand trial;
(e) When directed by the court, if an evaluation and report by an expert or professional person has been provided concluding that the defendant lacked the capacity at the time of the offense to form the mental state necessary to commit the charged offense, an opinion as to the capacity of the defendant to have a particular state of mind which is an element of the offense charged;
(f) An opinion as to whether the defendant should be evaluated by a ((county)) designated mental health professional under chapter 71.05 RCW (and an opinion as to whether the defendant is a substantial danger to other persons, or presents a substantial likelihood of committing criminal acts jeopardizing public safety or security, unless kept under further control by the court or other persons or institutions));

(4) The secretary may execute such agreements as appropriate and necessary to implement this section and may choose to designate more than one evaluator.

Sec. 4. RCW 10.77.065 and 2008 c 213 s 1 are each amended to read as follows:

(1)(a)(i) The ((facility)) expert conducting the evaluation shall provide ((his or her)) his or her report and recommendation to the court in which the criminal proceeding is pending. For a competency evaluation of a defendant who is released from custody, if the evaluation cannot be completed within twenty-one days due to a lack of cooperation by the defendant, the evaluator shall notify the court that he or she is unable to complete the evaluation because of such lack of cooperation.

(ii) A copy of the report and recommendation shall be provided to the designated mental health professional, the prosecuting attorney, the defense attorney, and the professional person at the local correctional facility where the defendant is being held, or if there is no professional person, to the person designated under (a)(ii)(iv) of this subsection. Upon request, the ((facility)) evaluator shall also provide copies of any source documents relevant to the evaluation to the designated mental health professional. ((The report and recommendation shall be provided not less than twenty-four hours preceding the transfer of the defendant to the correctional facility in the county in which the criminal proceeding is pending.))

(iii) Any facility providing inpatient services related to competency shall discharge the defendant as soon as the facility
determines that the defendant is competent to stand trial. Discharge shall not be postponed during the writing and distribution of the evaluation report. Distribution of an evaluation report by a facility providing inpatient services shall ordinarily be accomplished within two working days or less following the final evaluation of the defendant. If the defendant is discharged to the custody of a local correctional facility, the local correctional facility must continue the medication regimen prescribed by the facility, when clinically appropriate, unless the defendant refuses to cooperate with medication.

(iv) If there is no professional person at the local correctional facility, the local correctional facility shall designate a professional person as defined in RCW 71.05.020 or, in cooperation with the regional support network, a professional person at the regional support network to receive the report and recommendation.

((iii)) When a defendant is transferred to the facility conducting the evaluation, (ii) (v) Upon commencement of a defendant's evaluation in the local correctional facility, the local correctional facility must notify the evaluator ((or the facility conducting the evaluation)) of the name of the professional person, or person designated under (a) of this subsection, to receive the report and recommendation.

(b) If the ([facility]) evaluator concludes, under RCW 10.77.060(3)(f), the person should be (((kept under further control, an evaluation shall be conducted of such person)) evaluated by a designated mental health professional under chapter 71.05 RCW, the court shall order ((by the appropriately designated mental health professional: (i))) prior to release from confinement ((for such person who is convicted, if sentenced to confinement for twenty-four months or less; (ii) for any person who is acquitted or for any person: (A) Whose charges are dismissed pursuant to RCW 10.77.086(1); or (B) whose nonfelony charges are dismissed)) when the person is acquitted or convicted and sentenced to confinement for twenty-four months or less, or when charges are dismissed pursuant to a finding of incompetent to stand trial.

(2) The designated mental health professional shall provide written notification within twenty-four hours of the results of the determination whether to commence proceedings under chapter 71.05 RCW. The notification shall be provided to the persons identified in subsection (1)(a) of this section.

(3) The prosecuting attorney shall provide a copy of the results of any proceedings commenced by the designated mental health professional under subsection (2) of this section to the (of the facility conducting the evaluation under this chapter) secretary.

(4) The fact of admission and all information and records compiled, obtained, or maintained in the course of providing services under this chapter may also be disclosed to the courts solely to prevent the entry of any evaluation or treatment order that is inconsistent with any order entered under chapter 71.05 RCW.

Sec. 5, RCW 10.77.084 and 2007 c 375 s 3 are each amended to read as follows:

(1)(a) If at any time during the pendency of an action and prior to judgment the court finds, following a report as provided in RCW 10.77.060, a defendant is incompetent, the court shall order the proceedings against the defendant be stayed except as provided in subsection (4) of this section.

(b) ((A defendant found incompetent shall be evaluated at the direction of the secretary and a determination made whether the defendant is an individual with a developmental disability. Such evaluation and determination shall be accomplished as soon as possible following the court's placement of the defendant in the custody of the secretary.))

(i) When appropriate, and subject to available funds, if the defendant is determined to be an individual with a developmental disability, he or she may be placed in a program specifically reserved for the treatment and training of persons with developmental disabilities where the defendant shall have the right to habilitation according to an individualized service plan specifically developed for the particular needs of the defendant. A copy of the evaluation shall be sent to the program.

(A) The program shall be separate from programs serving persons involved in any other treatment or habilitation program.

(B) The program shall be appropriately secure under the circumstances and be administered by developmental disabilities professionals who shall direct the habilitation efforts.

(C) The program shall provide an environment affording security appropriate with the charged criminal behavior and necessary to protect the public safety.

(ii) The department may limit admissions of such persons to this specialized program in order to ensure that expenditures for services do not exceed amounts appropriated by the legislature and allocated by the department for such services.

(iii) The department may establish admission priorities in the event that the number of eligible persons exceeds the limits set by the department.

(c)) At the end of the mental health treatment and restoration period, if any, or at any time a professional person determines competency has been, or is unlikely to be, restored, the defendant shall be returned to court for a hearing. The parties may agree to waive the defendant's presence or to remote participation by the defendant at a hearing or presentation of an agreed order if the recommendation of the evaluator is for the continuation of the stay of criminal proceedings, or if the opinion of the evaluator is that the defendant remains incompetent and there is no remaining restoration period, and the hearing is held prior to expiration of the defendant's authorized period of commitment, in which case the department shall promptly notify the court and parties of the date of the defendant's admission and expiration of commitment so that a timely hearing date may be scheduled. If, after notice and hearing, competency has been restored, the stay entered under (a) of this subsection shall be lifted. If competency has not been restored, the proceedings shall be dismissed without prejudice. If the court concludes that competency has not been restored, but that further treatment within the time limits established by RCW 10.77.086 or 10.77.088 is likely to restore competency, the court may order that treatment for purposes of competency restoration be continued. Such treatment may not extend beyond the combination of time provided for in RCW 10.77.086 or 10.77.088.

((ii)) (c) If at any time during the proceeding the court finds, following notice and hearing, a defendant is not likely to regain competency, the proceedings shall be dismissed without prejudice and the defendant shall be evaluated for civil commitment proceedings.

(2) If the defendant is referred ((to the)) for evaluation by a designated mental health professional ((for consideration of initial detention proceedings under chapter 21.05 RCW pursuant to)) under this chapter, the designated mental health professional shall provide prompt written notification of the results of the ((determination whether to commence initial detention proceedings under chapter 21.05 RCW)) evaluation and whether the person was detained. The notification shall be provided to the court in which the criminal action was pending, the prosecutor, the defense attorney in the criminal action, and the facility that evaluated the defendant for competency.

(3) The fact that the defendant is unfit to proceed does not preclude any pretrial proceedings which do not require the personal participation of the defendant.

(4) A defendant receiving medication for either physical or mental problems shall not be prohibited from standing trial, if the medication either enables the defendant to understand the proceedings against him or her and to assist in his or her own defense, or does not disable him or her from so understanding and assisting in his or her own defense.
(5) At or before the conclusion of any commitment period provided for by this section, the facility providing evaluation and treatment shall provide to the court a written report of evaluation which meets the requirements of RCW 10.77.060(3). For defendants charged with a felony, the report following the second competency restoration period or first competency restoration period if the defendant's incompetence is determined to be solely due to a developmental disability or the evaluator concludes that the defendant is not likely to regain competency must include an assessment of the defendant's future dangerousness which is evidence-based regarding predictive validity.

Sec. 6. RCW 10.77.086 and 2007 c 375 s 4 are each amended to read as follows:

(1)(a) If the defendant is charged with a felony and determined to be incompetent, until he or she has regained the competency necessary to understand the proceedings against him or her and assist in his or her own defense, or has been determined unlikely to regain competency pursuant to RCW 10.77.084(1][(a)] (b), but in any event for a period of no longer than ninety days, the court:

((a)) (i) Shall commit the defendant to the custody of the secretary who shall place such defendant in an appropriate facility of the department for evaluation and treatment; or

((a)) (ii) May alternatively order the defendant to undergo evaluation and treatment at some other facility as determined by the department, or under the guidance and control of a professional person.

(b) For a defendant whose highest charge is a class C felony, or a class B felony that is not classified as violent under RCW 9.94A.030, the maximum time allowed for the initial period of commitment for competency restoration is forty-five days.

(2) On or before expiration of the initial (ninety-day) period of commitment under subsection (1) of this section the court shall conduct a hearing, at which it shall determine whether or not the defendant is incompetent.

(3) If the court finds by a preponderance of the evidence that a defendant charged with a felony is incompetent, the court shall have the option of extending the order of commitment or alternative treatment for an additional (ninety-day) period of ninety days, but the court must at the time of extension set a date for a prompt hearing to determine the defendant's competency before the expiration of the second (ninety-day) period. The defendant, the defendant's attorney, or the prosecutor has the right to demand that the hearing be before a jury. No extension shall be ordered for a second (ninety-day) or third restoration period (nor for any subsequent period) as provided in subsection (4) of this section(ii) if the defendant's incompetence has been determined by the secretary to be solely the result of a developmental disability which is such that competence is not reasonably likely to be regained during an extension.

(4) For persons charged with a felony, at the hearing upon the expiration of the second (ninety-day) period or at the end of the first (ninety-day) period, in the case of a defendant with a developmental disability, if the jury or court finds that the defendant is incompetent, the charges shall be dismissed without prejudice, and (either civil commitment proceedings shall be instituted or) the court shall either order the release of the defendant or order the defendant to be committed to a hospital or secure mental health facility for up to seventy-two hours starting from admission to the facility, excluding Saturdays, Sundays, and holidays, for evaluation for the purpose of filing a civil commitment petition. The criminal charges shall not be dismissed if the court or jury finds that:

(a) The defendant (i) is a substantial danger to other persons; or (ii) presents a substantial likelihood of committing criminal acts jeopardizing public safety or security; and (b) there is a substantial probability that the defendant will regain competency within a reasonable period of time. In the event that the court or jury makes such a finding, the court may extend the period of commitment for up to an additional six months.

NEW SECTION. Sec. 7. A new section is added to chapter 10.77 RCW to read as follows:

(1) A defendant found incompetent by the court under RCW 10.77.084 must be evaluated at the direction of the secretary and a determination made whether the defendant is an individual with a developmental disability. Such evaluation and determination must be accomplished as soon as possible following the court’s placement of the defendant in the custody of the secretary.

(2) When appropriate, and subject to available funds, if the defendant is determined to be an individual with a developmental disability, he or she may be placed in a program specifically reserved for the treatment and training of persons with developmental disabilities where the defendant has the right to habilitation according to an individualized service plan specifically developed for the particular needs of the defendant. A copy of the evaluation must be sent to the program.

(a) The program must be separate from programs serving persons involved in any other treatment or habilitation program.

(b) The program must be appropriately secure under the circumstances and must be administered by developmental disabilities professionals who shall direct the habilitation efforts.

(c) The program must provide an environment affording security appropriate with the charged criminal behavior and necessary to protect the public safety.

(3) The department may limit admissions of such persons to this specialized program in order to ensure that expenditures for services do not exceed amounts appropriated by the legislature and allocated by the department for such services.

(4) The department may establish admission priorities in the event that the number of eligible persons exceeds the limits set by the department.

Sec. 8. RCW 71.05.310 and 2005 c 504 s 709 are each amended to read as follows:

The court shall conduct a hearing on the petition for ninety-day treatment within five judicial days of the first court appearance after the probable cause hearing, or within ten judicial days for a petition filed under RCW 71.05.280(3). The court may continue the hearing for good cause upon the written request of the person named in the petition or the person’s attorney(s). The court may continue for good cause (shown, which continuity shall not exceed five additional judicial days) the hearing on a petition filed under RCW 71.05.280(3) upon written request by the person named in the petition or the person’s attorney, or the petitioner. If the named in the petition requests a jury trial, the trial shall commence within ten judicial days of the first court appearance after the probable cause hearing. The burden of proof shall be by clear, cogent, and convincing evidence and shall be upon the petitioner. The person shall be present at such proceeding, which shall in all respects accord with the constitutional guarantees of due process of law and the rules of evidence pursuant to RCW 71.05.360 (8) and (9).

During the proceeding, the person named in the petition shall continue to be treated until released by order of the superior court. If no order has been made within thirty days after the filing of the petition, not including extensions of time requested by the detained person or his or her attorney, or the petitioner in the case of a petition filed under RCW 71.05.280(3), the detained person shall be released.

NEW SECTION. Sec. 9. The joint legislative audit and review committee shall make an independent assessment of the performance of the state hospitals with respect to provisions specified in section 2 of this act, but shall not be required to independently evaluate the exercise of clinical judgment. A report shall be made to the legislature reflecting the committee’s findings and recommendations both six and eighteen months following the effective date of this section. The department of social and health services shall cooperate
in a timely manner with requests for data and assistance related to this assessment.

NEW SECTION. Sec. 10. The Washington state institute for public policy shall study and report to the legislature the benefit of standardizing protocols used for treatment to restore competency to stand trial in Washington and during what clinically appropriate time period said treatment may be expected to be effective. The department of social and health services shall cooperate in a timely manner with data requests in service of this study.

NEW SECTION. Sec. 11. A new section is added to chapter 70.48 RCW to read as follows:

A jail may not refuse to book a patient of a state hospital solely based on the patient's status as a state hospital patient, but may consider other relevant factors that apply to the individual circumstances in each case.

NEW SECTION. Sec. 12. A new section is added to chapter 10.77 RCW to read as follows:

(1) A state hospital may administer antipsychotic medication without consent to an individual who is committed under this chapter as criminally insane by following the same procedures applicable to the administration of antipsychotic medication without consent to a civilly committed patient under RCW 71.05.217, except for the following:

(a) The maximum period during which the court may authorize the administration of medication without consent under a single involuntary medication petition shall be the time remaining on the individual's current order of commitment or one hundred eighty days, whichever is shorter; and

(b) A petition for involuntary medication may be filed in either the superior court of the county that ordered the commitment or the superior court of the county in which the individual is receiving treatment, provided that a copy of any order that is entered must be provided to the superior court of the county that ordered the commitment following the hearing. The superior court of the county of commitment shall retain exclusive jurisdiction over all hearings concerning the release of the patient.

(2) The state has a compelling interest in providing antipsychotic medication to a patient who has been committed as criminally insane when refusal of antipsychotic medication would result in a likelihood of serious harm or substantial deterioration or substantially prolong the length of involuntary commitment and there is no less intrusive course of treatment than medication that is in the best interest of the patient.

NEW SECTION. Sec. 13. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 14. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect May 1, 2012."

Sec. 8. RCW 46.70.180 and 2010 c 161 s 1136 are each amended to read as follows:

Each of the following acts or practices is unlawful:

(1) To cause or permit to be advertised, printed, displayed, published, distributed, broadcasted, televised, or disseminated in any manner whatsoever, any statement or representation with regard to the sale, lease, or financing of a vehicle which is false, deceptive, or misleading, including but not limited to the following:

(a) That no down payment is required in connection with the sale of a vehicle when a down payment is in fact required, or that a vehicle may be purchased for a smaller down payment than is actually required;

(b) That a certain percentage of the sale price of a vehicle may be financed when such financing is not offered in a single document evidencing the entire security transaction;

(c) That a certain percentage is the amount of the service charge to be charged for financing, without stating whether this percentage charge is a monthly amount or an amount to be charged per year;

(d) That a new vehicle will be sold for a certain amount above or below cost without computing cost as the exact amount of the factory invoice on the specific vehicle to be sold;

(e) That a vehicle will be sold upon a monthly payment of a certain amount, without including in the statement the number of payments of that same amount which are required to liquidate the unpaid purchase price.

(2)(a)(i) To incorporate within the terms of any purchase and sale or lease agreement any statement or representation with regard to the sale, lease, or financing of a vehicle which is false, deceptive, or misleading, including but not limited to terms that include as an added cost to the selling price or capitalized cost of a vehicle an amount for licensing or transfer of title of that vehicle which is not actually due to the state, unless such amount has in fact been paid by the dealer prior to such sale.

(ii) However, an amount not to exceed 100 fifty dollars per vehicle sale or lease may be charged by a dealer to recover administrative costs for collecting motor vehicle excise taxes, licensing and registration fees and other agency fees, verifying and clearing titles, transferring titles, perfecting, releasing, or satisfying liens or other security interests, and other administrative and documentary services rendered by a dealer in connection with the sale or lease of a vehicle and in carrying out the requirements of this chapter or any other provisions of state law.

(((iii) A dealer may charge under (a)(ii) of this subsection:  
(A) As of July 26, 2009, through June 30, 2014, an amount not to exceed one hundred fifty dollars; and

(B) As of July 1, 2014, an amount not to exceed fifty dollars.))  

(b) A dealer may charge the documentary service fee in (a) of this subsection under the following conditions:

(i) The documentary service fee is disclosed in writing to a prospective purchaser or lessee before the execution of a purchase and sale or lease agreement;

(ii) The dealer discloses to the purchaser or lessee in writing that the documentary service fee is a negotiable fee. The disclosure must be written in a typeface that is at least as large as the typeface used in the standard text of the document that contains the disclosure and that is bold faced, capitalized, underlined, or otherwise set out from the surrounding material so as to be conspicuous. The dealer shall not represent to the purchaser or lessee that the fee or charge is required by the state to be paid by either the dealer or prospective purchaser or lessee;

(iii) The documentary service fee is separately designated from the selling price or capitalized cost of the vehicle and from any other taxes, fees, or charges; and

(iv) Dealers disclose in any advertisement that a documentary service fee in an amount (provided in (iv)(A) and (B) of this subsection) up to one hundred fifty dollars may be added to the sale price or the capitalized cost;

(A) As of July 26, 2009, through June 30, 2014, an amount up to one hundred fifty dollars; and

(B) As of July 1, 2014, an amount up to fifty dollars).

For the purposes of this subsection (2), the term "documentary service fee" means the optional amount charged by a dealer to provide the services specified in (a) of this subsection.

(3) To set up, promote, or aid in the promotion of a plan by which vehicles are to be sold or leased to a person for a consideration and upon further consideration that the purchaser or lessee agrees to secure one or more persons to participate in the plan by respectively making a similar purchase and in turn agreeing to secure one or more persons likewise to join in said plan, each purchaser or lessee being given the right to secure money, credits, goods, or something of value, depending upon the number of persons joining the plan.

(4) To commit, allow, or ratify any act of "bushing" which is defined as follows: Entering into a written contract, written purchase order or agreement, retail installment sales agreement, note and security agreement, or written lease agreement, hereinafter collectively referred to as contract or lease, signed by the prospective buyer or lessee of a vehicle, which:

(a) Is subject to any conditions or the dealer's or his or her authorized representative's future acceptance, and the dealer fails or refuses within four calendar days, exclusive of Saturday, Sunday, or legal holiday, and prior to any further negotiations with said buyer or lessee to inform the buyer or lessee either:  
(i) That the dealer unconditionally accepts the contract or lease, having satisfied, removed, or waived all conditions to acceptance or performance, including, but not limited to, financing, assignment, or lease approval; or

(ii) That the dealer rejects the contract or lease, thereby automatically voiding the contract or lease, as long as such voiding does not negate commercially reasonable contract or lease provisions pertaining to the return of the subject vehicle and any physical damage, excessive mileage after the demand for return of the vehicle, and attorneys' fees authorized by law, and tenders the refund of any initial payment or security made or given by the buyer or lessee, including, but not limited to, any down payment, and tenders return of the trade-in vehicle, key, other trade-in, or certificate of title to a trade-in. Tender may be conditioned on return of the subject vehicle if previously delivered to the buyer or lessee.

The provisions of this subsection (4)(a) do not impair, prejudice, or abrogate the rights of a dealer to assert a claim against the buyer or lessee for misrepresentation or breach of contract and to exercise all remedies available at law or in equity, including those under chapter 62A.9A RCW, if the dealer, bank, or other lender or leasing company discovers that approval of the contract or financing or approval of the lease was based upon material misrepresentations made by the buyer or lessee, including, but not limited to, misrepresentations regarding income, employment, or debt of the buyer or lessee, as long as the dealer, or his or her staff, has not, with knowledge of the material misrepresentation, aided, assisted, encouraged, or participated, directly or indirectly, in the misrepresentation. A dealer shall not be in violation of this subsection (4)(a) if the buyer or lessee made a material misrepresentation to the dealer, as long as the dealer, or his or her staff, has not, with knowledge of the material misrepresentation, aided, assisted, encouraged, or participated, directly or indirectly, in the misrepresentation.
When a dealer informs a buyer or lessee under this subsection (4)(a) regarding the unconditional acceptance or rejection of the contract, lease, or financing by an electronic mail message, the dealer must also transmit the communication by any additional means;

(b) Permits the dealer to renegotiate a dollar amount specified as trade-in allowance on a vehicle delivered or to be delivered by the buyer or lessee as part of the purchase price or lease, for any reason except:

(i) Failure to disclose that the vehicle's certificate of title has been branded for any reason, including, but not limited to, status as a rebuilt vehicle as provided in RCW 46.12.540 and 46.12.560; or

(ii) Substantial physical damage or latent mechanical defect occurring before the dealer took possession of the vehicle and which could not have been reasonably discoverable at the time of the taking of the order, offer, or contract; or

(iii) Excessive additional miles or a discrepancy in the mileage. "Excessive additional miles" means the addition of five hundred miles or more, as reflected on the vehicle's odometer, between the time the vehicle was first valued by the dealer for purposes of determining its trade-in value and the time of actual delivery of the vehicle to the dealer. "A discrepancy in the mileage" means (A) a discrepancy between the mileage reflected on the vehicle's odometer and the stated mileage on the signed odometer statement; or (B) a discrepancy between the mileage stated on the signed odometer statement and the actual mileage on the vehicle;

(c) Fails to comply with the obligation of any written warranty or guarantee given by the dealer requiring the furnishing of services or repairs within a reasonable time.

(5) To commit any offense relating to odometers, as such offenses are defined in RCW 46.37.540, 46.37.550, 46.37.560, and 46.37.570. A violation of this subsection is a class C felony punishable under chapter 9A.20 RCW.

(6) For any vehicle dealer or vehicle salesperson to refuse to furnish, upon request of a prospective purchaser or lessee, for vehicles previously registered to a business or governmental entity, the name and address of the business or governmental entity.

(7) To commit any other offense under RCW 46.37.423, 46.37.424, or 46.37.425.

(8) To commit any offense relating to a dealer's temporary license permit, including but not limited to failure to properly complete each such permit, or the issuance of more than one such permit on any one vehicle. However, a dealer may issue a second temporary permit on a vehicle if the following conditions are met:

(a) The lienholder fails to deliver the vehicle title to the dealer within the required time period;

(b) The dealer has satisfied the lien; and

(c) The dealer has proof that payment of the lien was made within two calendar days, exclusive of Saturday, Sunday, or a legal holiday, after the sales contract has been executed by all parties and all conditions and contingencies in the sales contract have been met or otherwise satisfied.

(9) For a dealer, salesperson, or mobile home manufacturer, having taken an instrument or cash "on deposit" from a purchaser or lessee prior to the delivery of the bargain-for vehicle, to commingle the "on deposit" funds with assets of the dealer, salesperson, or mobile home manufacturer instead of holding the "on deposit" funds as trustee in a separate trust account until the purchaser or lessee has taken delivery of the bargain-for vehicle. Delivery of a manufactured home shall be deemed to occur in accordance with RCW 46.70.135(5). Failure, immediately upon receipt, to endorse "on deposit" instruments to such a trust account, or to set aside "on deposit" cash for deposit in such trust account, and failure to deposit such instruments or cash in such trust account by the close of banking hours on the day following receipt thereof, shall be evidence of intent to commit this unlawful practice: PROVIDED, HOWEVER, That a motor vehicle dealer may keep a separate trust account which equals his or her customary total customer deposits for vehicles for future delivery. For purposes of this section, "on deposit" funds received from a purchaser of a manufactured home means those funds that a seller requires a purchaser to advance before ordering the manufactured home, but does not include any loan proceeds or moneys that might have been paid on an installment contract.

(10) For a dealer or manufacturer to fail to comply with the obligations of any written warranty or guarantee given by the dealer or manufacturer requiring the furnishing of goods and services or repairs within a reasonable period of time, or to fail to furnish to a purchaser or lessee, all parts which attach to the manufactured unit including but not limited to the undercarriage, and all items specified in the terms of a sales or lease agreement signed by the seller and buyer or lessee.

(11) For a vehicle dealer to pay to or receive from any person, firm, partnership, association, or corporation acting, either directly or through a subsidiary, as a buyer's agent for consumers, any compensation, fee, purchase moneys or funds that have been deposited into or withdrawn out of any account controlled or used by any buyer's agent, gratuity, or reward in connection with the purchase, sale, or lease of a new motor vehicle.

(12) For a buyer's agent, acting directly or through a subsidiary, to pay to or to receive from any motor vehicle dealer any compensation, fee, gratuity, or reward in connection with the purchase, sale, or lease of a new motor vehicle. In addition, it is unlawful for any buyer's agent to engage in any of the following acts on behalf of or in the name of the consumer:

(a) Receiving or paying any purchase moneys or funds into or out of any account controlled or used by any buyer's agent;

(b) Signing any vehicle purchase orders, sales contracts, leases, odometer statements, or title documents, or having the name of the buyer's agent appear on the vehicle purchase order, sales contract, lease, or title; or

(c) Signing any other documentation relating to the purchase, sale, lease, or transfer of any new motor vehicle.

It is unlawful for a buyer's agent to use a power of attorney obtained from the consumer to accomplish or effect the purchase, sale, lease, or transfer of ownership documents of any new motor vehicle by any means which would otherwise be prohibited under (a) through (c) of this subsection. However, the buyer's agent may use a power of attorney for physical delivery of motor vehicle license plates to the consumer.

Further, it is unlawful for a buyer's agent to engage in any false, deceptive, or misleading advertising, disseminated in any manner whatsoever, including but not limited to making any claim or statement that the buyer's agent offers, obtains, or guarantees the lowest price on any motor vehicle or words to similar effect.

(13) For a buyer's agent to arrange for or to negotiate the purchase, or both, of a new motor vehicle through an out-of-state dealer without disclosing in writing to the customer that the new vehicle would not be subject to chapter 19.118 RCW. This subsection also applies to leased vehicles. In addition, it is unlawful for any buyer's agent to fail to have a written agreement with the customer that: (a) Sets forth the terms of the parties' agreement; (b) discloses to the customer the total amount of any fees or other compensation being paid by the customer to the buyer's agent for the agent's services; and (c) further discloses whether the fee or any portion of the fee is refundable.

(14) Being a manufacturer, other than a motorcycle manufacturer governed by chapter 46.93 RCW, to:

(a) Coerce or attempt to coerce any vehicle dealer to order or accept delivery of any vehicle or vehicles, parts or accessories, or any other commodities which have not been voluntarily ordered by the vehicle dealer: PROVIDED, That recommendation, endorsement, exposition, persuasion, urging, or argument are not deemed to constitute coercion;
(b) Cancel or fail to renew the franchise or selling agreement of any vehicle dealer doing business in this state without fairly compensating the dealer at a fair going business value for his or her capital investment which shall include but not be limited to tools, equipment, and parts inventory possessed by the dealer on the day he or she is notified of such cancellation or termination and which are still within the dealer's possession on the day the cancellation or termination is effective. If: (i) the capital investment has been entered into with reasonable and prudent business judgment for the purpose of fulfilling the franchise; and (ii) the cancellation or nonrenewal was not done in good faith. Good faith is defined as the duty of each party to any franchise to act in a fair and equitable manner towards each other, so as to guarantee one party freedom from coercion, intimidation, or threats of coercion or intimidation from the other party. PROVIDED, That recommendation, endorsement, expropriation, persuasion, urging, or argument are not deemed to constitute a lack of good faith;

(c) Encourage, aid, abet, or teach a vehicle dealer to sell or lease vehicles through any false, deceptive, or misleading sales or financing practices including but not limited to those practices declared unlawful in this section;

(d) Coerce or attempt to coerce a vehicle dealer to engage in any practice forbidden in this section by either threats or actual cancellation or failure to renew the dealer's franchise agreement;

(e) Refuse to deliver any vehicle publicly advertised for immediate delivery to any duly licensed vehicle dealer having a franchise or contractual agreement for the retail sale or lease of new and unused vehicles sold or distributed by such manufacturer within sixty days after such dealer's order has been received in writing unless caused by inability to deliver because of shortage or curtailment of material, labor, transportation, or utility services, or by any labor or production difficulty, or by any cause beyond the reasonable control of the manufacturer;

(f) To provide under the terms of any warranty that a purchaser or lessee of any new or unused vehicle that has been sold or leased, distributed for sale or lease, or transferred into this state for resale or lease by the vehicle manufacturer may only make any warranty claim on any item included as an integral part of the vehicle against the manufacturer of that item.

Nothing in this section may be construed to impair the obligations of a contract or to prevent a manufacturer, distributor, representative, or any other person, whether or not licensed under this chapter, from requiring performance of a written contract entered into with any licensee hereunder, nor does the requirement of such performance constitute a violation of any of the provisions of this section if any such contract or the terms thereof requiring performance, have been freely entered into and executed between the contracting parties. This paragraph and subsection (14)(b) of this section do not apply to new motor vehicle manufacturers governed by chapter 46.96 RCW.

(15) Unlawful transfer of an ownership interest in a motor vehicle as defined in RCW 19.116.050.

(16) To knowingly and intentionally engage in collusion with a duly licensed vehicle dealer having a franchise or contractual agreement for the retail sale or lease of new and unused vehicles sold or distributed by the manufacturer, with chapter 62A.9A RCW in repossessing, selling, leasing, or transferring to the register as defined in RCW 19.116.050.

Motor vehicle manufacturers governed by chapter 46.96 RCW shall be required to provide the same disclosure to a buyer of the new motor vehicle suggested by the manufacturer, and includes the retail delivered price suggested by the manufacturer for each accessory or item of optional equipment physically attached to the new motor vehicle at the time of delivery to the new motor vehicle dealer that is not included within the retail price suggested by the manufacturer for the new motor vehicle.

snowmobile dealer license from the department in a manner
prescribed by the department. Upon receipt of an application for a
snowmobile dealer’s license and the fee provided in subsection (2) of

would be required to register the vehicle in this state;
(ii) Not registered when registration is required under this
chapter;
(iii) The license tabs have expired; or
(iv) The current gross weight license is insufficient for the load
being carried. The licensed gross weight may not exceed eighty

A violation of or a failure to comply with this subsection is a gross misdemeanor, subject to a minimum monetary penalty of two thousand five hundred dollars for the first violation and five thousand dollars for each subsequent violation.

(3)(a) Each trip permit authorizes the operation of a single vehicle at the maximum legal weight limit for a period of three consecutive days beginning with the day of first use. No more than three trip permits may be used for any one vehicle in any thirty consecutive day period. More than two trip permits may be used for any one recreational vehicle, as defined in RCW 43.22.335, in a one-year period. Every trip permit must:

(i) Identify the vehicle for which it is issued;

(ii) Be completed in its entirety;

(iv) Not be altered or corrected. Altering or correcting data on the trip permit invalidates the trip permit; and

(v) Be displayed on the vehicle for which it is issued as required by the department.

(b) Vehicles operating under the authority of trip permits are subject to all laws, rules, and regulations affecting the operation of similar vehicles in this state.

(4) Prorate operators operating commercial vehicles on trip permits in Washington shall retain the customer copy of each permit for four years.

(5) Trip permits may be obtained from field offices of the department of transportation, department of licensing, county auditors or other agents, and subagents appointed by the department for the fee provided in RCW 46.17.400(1)(h). Exchanges, credits, or refunds may not be given for trip permits after they have been purchased.

(6) Except as provided in subsection (2)(b) of this section, a violation of or a failure to comply with this section is a gross misdemeanor.

(7) The department may adopt rules necessary to administer this section.

(4) Until January 1, 2014, an annual derelict vessel removal surcharge of one dollar must be charged with each vessel registration. The surcharge:

(a) Is to address the significant backlog of derelict vessels accumulated in Washington state waters that pose a threat to the health and safety of the people and to the environment;

(b) Is to be used only for the removal of vessels that are less than seventy-five feet in length; and

(c) Must be deposited into the derelict vessel removal account created in RCW 79.100.100.

POINT OF PARLIAMENTARY INQUIRY

Representative Shea “Thank you Mr. Speaker, House Bill No. 2791 repeals a tax exemption, how many votes are required for final passage for this bill?”

SPEAKER’S RULING

Mr. Speaker: “House Bill 2791 repeals the nonresident sales tax exemption and directs the funds raised by the repeal to the finding of all-day kindergarten. RCW 43.135.034 requires a supermajority vote of 2/3 of the members for final passage of a measure that “raises taxes”. The department shall report to the transportation committees of the legislature by December 1, 2012, with a plan to implement the designation. (3) The public-private partnerships office must explore retail partnerships at state-owned park-and-ride facilities, as authorized in RCW 47.04.295, and if feasible, solicit proposals to implement a retail partnership pilot project at one park-and-ride facility by June 30, 2013.

TOTAL APPROPRIATION ($387,327,000)
$380,709,000

The appropriations in this section are subject to the following conditions and limitations:
(1) The department shall request an unanticipated receipt for any federal moneys received for emergency snow and ice removal and shall place an equal amount of the motor vehicle account--state appropriation into unallotted status. This exchange shall not affect the amount of funding available for snow and ice removal.

(2) $7,000,000 of the motor vehicle account--state appropriation is provided solely for third-party damages to the highway system where the responsible party is known and reimbursement is anticipated. The department shall request additional appropriation authority for any funds received for reimbursements of third-party damages that are in excess of this appropriation.

(3) $7,000,000 of the motor vehicle account--federal appropriation is for unanticipated federal funds that may be received during the 2011-2013 fiscal biennium. The department shall track the costs associated with ((these)) active traffic management systems on a corridor basis and report to the transportation committees of the legislature on the costs and benefits of the systems by December 1. (2011) 2012.

Sec. 216. 2011 c 367 s 216 (uncodified) is amended to read as follows:
FOR THE DEPARTMENT OF TRANSPORTATION--TRAFFIC OPERATIONS--PROGRAM Q--OPERATING
Motor Vehicle Account--State Appropriation ($50,166,000)
$48,818,000
Motor Vehicle Account--Federal Appropriation, $2,050,000
Motor Vehicle Account--Private/Local Appropriation ($122,000)
$250,000
TOTAL APPROPRIATION ($52,343,000)
$51,118,000

The appropriations in this section are subject to the following conditions and limitations:

Of this amount, $10,000 of the motor vehicle account--state appropriation is provided solely for the department to install additional farm machinery signs to promote safety in agricultural areas along state highways. The department shall give priority to low-cost enhancement projects that improve safety or provide congestion relief. The department shall prioritize low-cost enhancement projects on a statewide rather than regional basis. By September 1st of each even-numbered year, the
department shall provide a report to the legislature listing all low-cost enhancement projects prioritized on a statewide rather than regional basis completed in the prior year.

(2) $145,000 of the motor vehicle account--state appropriation is provided solely for the department to continue a pilot tow truck incentive program and to expand the program to other areas of the state. The department may provide incentive payments to towing companies that meet clearance goals on accidents that involve heavy trucks.

(3) During the 2011-2013 fiscal biennium, the department shall implement a pilot program that expands private transportation providers' access to high occupancy vehicle lanes. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, the following vehicles must be authorized to use the reserved portion of the highway if the vehicle has the capacity to carry eight or more passengers, regardless of the number of passengers in the vehicle: (a) Auto transportation company vehicles regulated under chapter 81.68 RCW; (b) passenger charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; (c) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and (d) private employer transportation service vehicles.

For purposes of this subsection, "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees. By June 30, 2013, the department shall report to the transportation committees of the legislature on whether private transportation provider use of high occupancy vehicle lanes under the pilot program reduces the speeds of high occupancy vehicle lanes. Nothing in this subsection is intended to authorize the conversion of public infrastructure to private, for-profit purposes or to otherwise create an entitlement or other claim by private users to public infrastructure. If chapter ... (Substitute Senate Bill No. 5836), Laws of 2011 is enacted by June 30, 2011, this subsection is null and void.

(4) $9,000,000 of the motor vehicle account--state appropriation is provided solely for the department's incident response program.

(5) The department, in consultation with the Washington state patrol, must continue a pilot program for the patrol to issue infractions based on information from automated traffic safety cameras in roadway construction zones on state highways. The department must report to the joint transportation committee by January 1, 2012, and January 1, 2013, on the status of this pilot program. For the purpose of this pilot program, during the 2011-2013 fiscal biennium, a roadway construction zone includes areas where public employees or private contractors may be present or where a driving condition exists that would make it unsafe to drive at higher speeds, such as, when the department is redirecting or realigning lanes on any public roadway pursuant to ongoing construction. The department shall use the following guidelines to administer the program:

(a) Automated traffic safety cameras may only take pictures of the vehicle and vehicle license plate and only while an infraction is occurring. The picture must not reveal the face of the driver or of passengers in the vehicle;

(b) The department shall plainly mark the locations where the automated traffic safety cameras are used by placing signs on locations that clearly indicate to a driver that he or she is entering a roadway construction zone where traffic laws are enforced by an automated traffic safety camera;

(c) Notices of infractions must be mailed to the registered owner of a vehicle within fourteen days of the infraction occurring;

(d) The owner of the vehicle is not responsible for the violation if the owner of the vehicle, within fourteen days of receiving notification of the violation, mails to the patrol, a declaration under penalty of perjury, stating that the vehicle involved was, at the time, stolen or in the care, custody, or control of some person other than the registered owner, or any other extenuating circumstances;

(e) For purposes of the 2011-2013 fiscal biennium pilot program, infractions detected through the use of automated traffic safety cameras are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of automated traffic safety cameras must be processed in the same manner as parking infractions for the purposes of RCW 3.50.100, 35.20.220, 46.16A.120, and 46.20.270(3). However, the amount of the fine issued under this subsection (5) for an infraction generated through the use of an automated traffic safety camera is one hundred thirty-seven dollars. The court shall remit thirty-two dollars of the fine to the state treasurer for deposit into the state patrol highway account; and

(f) If a notice of infraction is sent to the registered owner and the registered owner is a rental car business, the infraction must be dismissed against the business if it mails to the patrol, within fourteen days of receiving the notice, a declaration under penalty of perjury of the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred. If the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred, the business must sign a declaration under penalty of perjury to this effect. The declaration must be mailed to the patrol within fourteen days of receiving the notice of traffic infraction. Timely mailing of this declaration to the issuing agency relieves a rental car business of any liability under this section for the notice of infraction. A declaration form suitable for this purpose must be included with each automated traffic infraction notice issued, along with instructions for its completion and use.

(6) The department shall track the costs associated with active traffic management systems on a corridor basis and report to the transportation committees of the legislature on the cost and benefits of the systems by December 1, 2011.

(7) State university research and extension centers serve as important research hubs for university graduate students and, as such, there is a safety concern with any centers being located on a state highway. Therefore, consistent with RCW 46.61.415, and upon request of a county with a state university research and extension center located on a state highway within its respective jurisdiction, the secretary of transportation shall approve a reduction of the maximum speed limit on the state highway in the vicinity of the center. The speed on the state highway may be less than the maximum speed permitted under RCW 46.61.400(2).

Implementing provisions

New section. Sec. 601. A new section is added to 2011 c 367 (uncodified) to read as follows:

The department of transportation may provide up to $163,000 in toll credits to the Port of Kingston for its role in the new passenger-only ferry service and ferry corridor-related projects. The number of toll credits provided to the Port of Kingston must be equal to, but no more than, the number sufficient to meet federal match requirements for grant funding for passenger-only ferry service, but shall not exceed the amount authorized in this section.

Sec. 602. 2011 c 367 s 608 (uncodified) is amended to read as follows:

Staffing levels

(1) As the department of transportation completes delivery of the projects funded by the 2003 and 2005 transportation revenue packages, it is clear that the current staffing levels necessary to deliver these projects are not sustainable into the future. Therefore, the department is directed to quickly move forward to develop and implement new business practices so that a smaller, more nimble state workforce can effectively and efficiently deliver transportation improvement programs as they are approved in the future, in strong partnership with the private sector, while protecting the public's interests and assets.
(2) To this end, the department of transportation is directed to reduce the size of its engineering and technical workforce to a level sustained by current law revenue levels currently estimated at two thousand FTEs by the end of the 2013-2015 fiscal biennium. The department's current two thousand eight hundred FTE engineering and technical workforce levels for highway construction will be reduced in the 2011-2013 fiscal biennium, with a target of two thousand four hundred FTEs by June 30, 2013, and to a level of two thousand FTEs by June 30, 2015.
(3) In order to successfully deliver the highway construction program as funded, the department of transportation may continue to contract out engineering and technical services. In addition, the department may continue the incentive program for retirements and employee separations. ((The department shall report quarterly to the office of financial management and the transportation committees of...))
the legislature on its progress and plans to reduce highway construction workforce levels to two thousand FTEs by June 2015. This report must also be posted on the department's web site.

(4) The department of transportation is directed to reduce the size of its administrative operating programs for the 2013-2015 biennium. As part of the department's biennial budget submittal, the department shall reduce its workforce in Programs C, H, T, and S by three percent. The ratio of executive management service or Washington management services employee staff must be at least six staff for every manager by the end of the 2013-2015 biennium.

Sec. 603. 2011 c 367 s 603 (uncodified) is amended to read as follows:

FUND TRANSFERS

(1) The transportation 2003 projects or improvements and the 2005 transportation partnership projects or improvements are listed in LEAP Transportation Document ((2011-1)) 2012-2 as developed ((April 19, 2011)) March 8, 2012, which consists of a list of specific projects by fund source and amount over a sixteen-year period. Current fiscal biennium funding for each project is a line-item appropriation, while the outer year funding allocations represent a sixteen-year plan. The department is expected to use the flexibility provided in this section to assist in the delivery and completion of all transportation partnership account and transportation 2003 account (nickel account) projects on the LEAP transportation documents referenced in this act. For the 2009-2011 and 2011-2013 project appropriations, unless otherwise provided in this act, the director of financial management may authorize a transfer of appropriation authority between projects funded with transportation 2003 account (nickel account) appropriations, or transportation partnership account appropriations, in order to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

(a) Transfers may only be made within each specific fund source referenced on the respective project list;

(b) Transfers from a project may not be made as a result of the reduction of the scope of a project or be made to support increases in the scope of a project;

(c) Each transfer between projects may only occur if the director of financial management finds that any resulting change will not hinder the completion of the projects as approved by the legislature. Until the legislature reconvenes to consider the 2012 supplemental transportation budget, any unexpended 2009-2011 appropriation balance as approved by the office of financial management, in consultation with the legislative staff of the house of representatives and senate transportation committees, may be considered when transferring funds between projects;

(d) Transfers from a project may be made if the funds appropriated to the project are in excess of the amount needed to complete the project;

(e) Transfers may not occur for projects not identified on the applicable project list;

(f) Transfers may not be made while the legislature is in session; and

(g) Transfers between projects may be made by the department of transportation until the transfer amount by project exceeds two hundred fifty thousand dollars, or ten percent of the total project, whichever is less. These transfers must be reported quarterly to the director of financial management and the chairs of the house of representatives and senate transportation committees.

(2) At the time the department submits a request to transfer funds under this section, a copy of the request must be submitted to the transportation committees of the legislature.

(3) The office of financial management shall work with legislative staff of the house of representatives and senate transportation committees to review the requested transfers in a timely manner.

(4) The office of financial management shall document approved transfers and schedule changes in the transportation executive information system, compare changes to the legislative baseline funding and schedules identified by project identification number identified in the LEAP transportation documents referenced in this act, and transmit revised project lists to chairs of the transportation committees of the legislature on a quarterly basis.

NEW SECTION. Sec. 604. A new section is added to 2011 c 367 (uncodified) to read as follows:

The office of financial management must request from the federal communications commission an extension of ninety days for meeting the January 1, 2013, narrowbanding mandate to allow the time required to perform the review.

POINT OF PERSONAL PRIVILEGE

Representative Clibborn: “I would like to have the staff to come out, who worked so hard on this transportation budget, if we could have the OPR staff come. So Mr. Speaker I can’t say enough about the hard work that has gone into this budget, but also the support that no matter what we are asking, especially today when we had to do a lot of heavy lifting working late at night, they are always there for us. I thank them so much it has been such a pleasure getting to know them and work with them and thank you I can’t say enough.”

POINT OF PERSONAL PRIVILEGE

Representative Armstrong: “Thank you Mr. Speaker, we here in Olympia are very fortunate to have staff that’s great. We in the transportation committee, by the way the transportation committee is twenty nine member strong, is the largest committee in the legislature and in either body. We believe some of the best cat herders of the bunch standing up there, and they have a tough job and they do it well. It always amazes me, for instance, I got a call at eleven thirty to come down and sign one of the concurrence budgets so these folks are working around the clock, I don’t know when they sleep, but it’s pretty amazing the job they do. And with them we have two other people I don’t want to go without saying something about and that’s our caucus staff, both of our caucus staff in both caucuses do a great and outstanding job working with these fine people and we make a great team, so thank you very much for all you do.”

PART II
HUMAN SERVICES

Sec. 201. 2011 2nd sp.s. c 9 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES
(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapping of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, “unrestricted federal moneys” includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a)(i) The health care authority and the department are authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medical expenditures for the aged and disabled population. Under ((ii)) the Washington medicare and medicaid integration partnership (WMIP) and the medicare integrated care project (MICP), the health care authority and the department may combine and transfer such medicare funds appropriated under sections 204, 206, 208, and 213 of this act as may be necessary to finance a unified health care plan for the WMIP and the MICP. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county during the 2011-2013 fiscal biennium. The amount of funding assigned from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. In implementing the WMIP and the MICP, the health care authority and the department may: ((ii)) (i) Withhold from calculations of “available resources” as set forth in RCW 71.24.025 a sum equal to the capitated rate for enrolled individuals; and ((ii)) (ii) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicare and medicaid programs.

The health care authority and the department shall conduct an evaluation of the WMIP((i)) by October 15, 2012, and of the MICP measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(b) Effective January 1, 2013, if Washington has been selected to participate in phase two of the federal demonstration project for persons dually-eligible for both medicare and medicaid, the department and the authority may initiate the MICP. Participation in the project shall be limited to persons who are eligible for both medicare and medicaid and to counties in which the county legislative authority has agreed to the terms and conditions under which it will operate. The purpose of the project shall be to demonstrate and evaluate ways to improve care while reducing state expenditures for persons enrolled both in medicare and medicaid. To that end, prior to initiating the project, the department and the authority shall assure that state expenditures shall be no greater on either a per person or total basis than the state would otherwise incur. Individuals who are solely eligible for medicare may also participate if their participation is agreed to by the health care authority, the department, and the county legislative authority.

(4) The legislature finds that medicare payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(5) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in section 213 of this act. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers, the department may transfer general fund--state appropriations for fiscal year 2012 among programs after approval by the director of financial management.

(6)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2012, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2012 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2012 caseload forecasts and utilization assumptions in the long-term care, foster care, adoptions support, medicaid personal care, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management
shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

General Fund--Private/Local Appropriation $17,864,000

This is a reduction of $4,348,000 each fiscal year from the nonmedicaid funding that was allocated for expenditure by regional support networks during fiscal year 2011 prior to supplemental budget reductions. This $4,348,000 reduction shall be distributed among regional support networks proportional to each network's share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

(b) $6,590,000 of the general fund--state appropriation for fiscal year 2012, $6,590,000 of the general fund--state appropriation for fiscal year 2013, and $7,620,000 of the general fund--federal appropriation are provided solely for the department and regional support networks to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to regional support networks with PACT teams, the department shall consider the differences between regional support networks in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow regional support networks which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under section 204(1)(a) of this act. The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) $5,850,000 of the general fund--state appropriation for fiscal year 2012, $5,850,000 of the general fund--state appropriation for fiscal year 2013, and $1,300,000 of the general fund--federal appropriation are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care previously provided by the program for adaptive living skills (PALS) at western state hospital.

number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 557 per day through June 2012, 527 per day from July 2012 through September 2012, and 497 per day from October 2012 through the remainder of fiscal year 2013.  

(e) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

In addition, the report shall identify how many of the individuals who were determined to be eligible for regional support network services received additional outpatient services within 30 and 60 days of release from incarceration.

(g) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(h) $750,000 of the general fund--state appropriation for fiscal year 2012 and $750,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative.  These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(k) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients.  Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(l) Given the recent approval of federal medicaid matching funds for the disability lifeline and the alcohol and drug abuse treatment support act programs, the department shall charge regional support networks for only the state share rather than the total cost of community psychiatric hospitalization for persons enrolled in those programs.

(b) It is expected that per-pupil funding for level 2 proficiency will be set at the same level as would have been provided statewide prior to establishing differential per-pupil amounts; level 1 will be 125 percent of level 2; level 3 through the level prior to exit will be 75 percent of level 2; and two bonus years upon successful demonstration of proficiency will be 100 percent of level 2. If the student graduates or transfers to another district prior to the district receiving both years’ bonuses, the district shall receive the bonus for only the length of time the student remains enrolled in the exiting district.

(d) The quality education council shall examine the revised funding model developed under this subsection and provide a report to the education and fiscal committees of the legislature by December 1, 2011, that includes recommendations for:

(i) Changing the prototypical school funding formula for the transitional bilingual program to align with the revised model in an accurate and transparent manner;

(iii) Clarifying the elements of the transitional bilingual instructional program that fall under the definition of basic education and the impact of the revised model on them; and
(iv) The extent that the disparate financial impact of the revised model on different school districts should be addressed and options for addressing it.

(e) The office of the superintendent of public instruction shall report to the senate and house of representatives ways and means committees and education committees annually by December 31st of each year, through 2018, regarding any measurable changes in proficiency, time-in-program, and transition experience.

NEW SECTION. Sec. 712. A new section is added to 2012 c 86 (ESHB 2190) (uncodified) to read as follows:

FOR THE WASHINGTON STATE DEPARTMENT OF TRANSPORTATION

The legislature finds that it is critically important that highway improvement project lists, incorporated by reference in the biennial transportation appropriations act, accurately reflect the intent of the legislature with respect to the identified projects and activities as listed by fund, project, and amount in the list, including intended future commitments. The legislature further finds that during the 2012 regular legislative session, Engrossed Substitute House Bill No. 2190, as recommended by the conference committee, passed the legislature and that it incorporated by reference a highway improvement project list containing various technical drafting errors resulting in an inaccurate reflection of the conference committee report as agreed to by the conferees. The legislature further finds that a corrected version of the list is necessary to conform with the recommendations of the conference committee in a manner that does not change the funding decisions or appropriations for the current 2011-2013 biennium as agreed to by the conferees. Therefore, any reference in chapter 86 (ESHB 2190), Laws of 2012 to "LEAP Transportation Document 2012-2" as developed March 8, 2012, Program--Highway Improvement Program (I)" is superseded by the corrected version "LEAP Transportation Document 2012-2C as developed March 14, 2012, Program--Highway Improvements Program (I)".

The governing boards of the state universities, regional universities, and The Evergreen State College; and the state board for community and technical colleges may reduce or increase full-time tuition fees for all students other than resident undergraduates, including nonresident students, summer school students, and students in other self-supporting degree programs. Percentage increases in full-time tuition may exceed the fiscal growth factor. Except during the 2011-2013 fiscal biennium, the state board for community and technical colleges may pilot or institute differential tuition models. The board may define scale, scope, and rationale for the models.

(3)(a) Beginning with the 2011-12 academic year and through the end of the 2014-15 academic year, the governing boards of the state universities, the regional universities, and The Evergreen State College may reduce or increase full-time tuition fees for all students, including summer school students and students in other self-supporting degree programs. Percentage increases in full-time tuition fees may exceed the fiscal growth factor. Reductions or increases may be made for all or portions of an institution's programs, campuses, courses, or students; however, during the 2011-2013 fiscal biennium, reductions or increases in tuition must be uniform among resident undergraduate students.

(b) Prior to reducing or increasing tuition for each academic year, the governing boards of the state universities, the regional universities, and The Evergreen State College shall consult with existing student associations or organizations with student undergraduate and graduate representatives regarding the impacts of potential tuition increases. Governing boards shall be required to provide data regarding the percentage of students receiving financial aid, the sources of aid, and the percentage of total costs of attendance paid for by aid.

(c) Prior to reducing or increasing tuition for each academic year, the state board for community and technical college system shall consult with existing student associations or organizations with undergraduate student representation regarding the impacts of potential tuition increases. The state board for community and technical colleges shall provide data regarding the percentage of students receiving financial aid, the sources of aid, and the percentage of total costs of attendance paid for by aid.

(4) Beginning with the 2015-16 academic year through the 2018-19 academic year, the governing boards of the state universities, regional universities, and The Evergreen State College may set tuition for resident undergraduates as follows:

(a) If state funding for a college or university falls below the state funding provided in the operating budget for fiscal year 2011, the governing board may increase tuition up to the limits set in (d) of this subsection, reduce enrollments, or both;

(b) If state funding for a college or university is at least at the level of state funding provided in the operating budget for fiscal year 2011, the governing board may increase tuition up to the limits set in (d) of this subsection and shall continue to at least maintain the actual enrollment levels for fiscal year 2011 or increase enrollments as required in the omnibus appropriations act; (and)

(c) If state funding is increased so that combined with resident undergraduate tuition the sixty- sixtieth percentile of the total per-student funding at similar public institutions of higher education in the global challenge states under RCW 28B.15.068 is exceeded, the governing board shall decrease tuition by the amount needed for the total per-student funding to be at the sixtieth percentile under RCW 28B.15.068; and

(d) The amount of tuition set by the governing board for an institution under this subsection (4) may not exceed the sixtieth percentile of the resident undergraduate tuition of similar public institutions of higher education in the global challenge states.

(5) The tuition fees established under this chapter shall not apply to high school students enrolling in participating institutions of higher education under RCW 28A.600.300 through 28A.600.400.

(6) The tuition fees established under this chapter shall not apply to eligible students enrolling in a dropout reengagement program through an interlocal agreement between a school district and a community or technical college under RCW 28A.175.100 through 28A.175.110.

(7) The tuition fees established under this chapter shall not apply to eligible students enrolling in a community or technical college participating in the pilot program under RCW 28B.50.534 for the purpose of obtaining a high school diploma.

(8) Beginning in the 2019-20 academic year, reductions or increases in full-time tuition fees for resident undergraduates at four-year institutions of higher education shall be as provided in the omnibus appropriations act.

(9) The legislative advisory committee to the committee on advanced tuition payment established in RCW 28B.95.170 shall:

(a) Review the impact of differential tuition rates on the funded status and future unit price of the Washington advanced college tuition payment program; and

(b) No later than January 14, 2013, make a recommendation to the appropriate policy and fiscal committees of the legislature regarding how differential tuition should be addressed in order to maintain the ongoing solvency of the Washington advanced college tuition payment program.

Sec. 916. RCW 38.52.540 and 2010 1st sp.s. c 19 s 18 are each amended to read as follows:

(1) The enhanced 911 account is created in the state treasury. All receipts from the state enhanced 911 excise taxes imposed by RCW 82.14B.030 must be deposited into the account. Moneys in the account must be used only to support the statewide coordination and management of the enhanced 911 system, for the implementation of wireless enhanced 911 statewide, for the modernization of enhanced 911 emergency communications systems statewide, and to help supplement, within available funds, the operational costs of the system, including adequate funding of counties to enable implementation of wireless enhanced 911 service and reimbursement of radio communications service companies for costs incurred in providing wireless enhanced 911 service pursuant to negotiated contracts between the counties or their agents and the radio communications service companies. For the 2011-2013 fiscal biennium, the account may be used for modernizing narrowband radio capability in the department of corrections. A county must show just cause, including but not limited to a true and accurate accounting of the funds expended, for any inability to provide reimbursement to radio communications service companies of costs incurred in providing enhanced 911 service.

(2) Funds generated by the enhanced 911 excise tax imposed by RCW 82.14B.030(5) may not be distributed to any county that has not imposed the maximum county enhanced 911 excise tax allowed under RCW 82.14B.030(1). Funds generated by the enhanced 911 excise tax imposed by RCW 82.14B.030(6) may not be distributed to any county that has not imposed the maximum county enhanced 911 excise tax allowed under RCW 82.14B.030(2).

(3) The state enhanced 911 coordinator, with the advice and assistance of the enhanced 911 advisory committee, is authorized to enter into statewide agreements to improve the efficiency of enhanced 911 services for all counties and shall specify by rule the additional
purposes for which moneys, if available, may be expended from this account.

Sec. 917. RCW 41.06.560 and 2011 1st sp.s. c 39 s 11 are each amended to read as follows:

From February 15, 2010, until June 30, 2013, no monetary performance-based awards or incentives may be granted by the director or employers to employees covered by rules adopted under this section. This section does not prohibit the payment of awards provided for in chapter 41.60 RCW. For institutions of higher education, this section does not prohibit the payment of specific cash awards from private donations from individuals or businesses including, but not limited to, endowments.

From July 1, 2011, until June 30, 2013, no performance-based awards or incentives may be granted by the director or employers to employees pursuant to a performance management confirmation granted by the department of personnel under WAC 357-37-055.

Sec. 918. RCW 43.07.129 and 2011 1st sp.s. c 50 s 940 are each amended to read as follows:

The Washington state heritage center account is created in the custody of the state treasurer. All moneys received under RCW 36.18.010(11) and 43.07.128 must be deposited in the account. Expenditures from the account may be made only for the following purposes:

1. Payment of the certificate of participation issued for the Washington state heritage center;
2. Capital maintenance of the Washington state heritage center; and
3. Program operations that serve the public, relate to the collections and exhibits housed in the Washington state heritage center, or fulfill the missions of the state archives, state library, and capital museum.

Only the secretary of state or the secretary of state's designee may authorize expenditures from the account. An appropriation is not required for expenditures, but the account is subject to allotment procedures under chapter 43.88 RCW. The account shall be used to fund the following:

- Construction of the Washington state heritage center.
- Site acquisition, site development, and construction.
- Operating costs of the Washington state heritage center.
- Any other purposes for which moneys, if available, may be expended from this account.

This section sets forth the expenditure programs and the allotment and reserve procedures to be followed by the executive branch for public funds.

1. Allotments of an appropriation for any fiscal period shall conform to the terms, limits, or conditions of the appropriation.
2. The director of financial management shall provide all agencies with a complete set of operating and capital instructions for preparing a statement of proposed expenditures at least thirty days before the beginning of a fiscal period. The set of instructions need not include specific appropriation amounts for the agency.
3. Within forty-five days after the beginning of the fiscal period or within forty-five days after the governor signs the omnibus biennial appropriations act, whichever is later, all agencies shall submit to the governor a statement of proposed expenditures at such times and in such form as may be required by the governor.
4. The office of financial management shall develop a method for monitoring capital appropriations and expenditures that will capture at least the following elements:
   a. Appropriations made for capital projects including transportation projects;
   b. Estimates of total project costs including past, current, ensuing, and future biennial costs;
   c. Comparisons of actual costs to estimated costs;
   d. Comparisons of estimated construction start and completion dates with actual dates;
   e. Documentation of fund shifts between projects.

This data may be incorporated into the existing accounting system or into a separate project management system, as deemed appropriate by the office of financial management.

5. The office of financial management, prior to approving allotments for major capital construction projects valued over five million dollars, shall institute procedures for reviewing such projects at the predesign stage that will reduce long-term costs and increase facility efficiency. The procedures shall include, but not be limited to, the following elements:
   a. Evaluation of facility program requirements and consistency with long-range plans;
   b. Utilization of a system of cost, quality, and performance standards to compare major capital construction projects; and
   c. A requirement to incorporate value-engineering analysis and constructability review into the project schedule.

6. No expenditure may be incurred or obligation entered into for such major capital construction projects including, without exception, land acquisition, site development, predesign, design, construction, and equipment acquisition and installation, until the allotment of the funds to be expended has been approved by the office of financial management. This limitation does not prohibit the continuation of expenditures and obligations into the succeeding biennium for projects for which allotments have been approved in the immediate prior biennium.

7. (a) Beginning January 1, 2013, if at any time during the fiscal period the governor projects a cash deficit in a particular fund or account as defined by RCW 43.88.050, the governor shall make across-the-board reductions in allotments for that particular fund or account so as to prevent a cash deficit, unless the legislature has directed the liquidation of the cash deficit over one or more fiscal periods.
   (b) (i) From the effective date of this section until January 1, 2013, if at any time during the fiscal period the governor projects a cash deficit in a particular fund or account as defined by RCW 43.88.050, then as set forth in (b) of this subsection the governor shall make across-the-board reductions in the total amount allotted to each agency from each appropriation from that fund or account so as to prevent a cash deficit, unless the legislature has directed the liquidation of the cash deficit over one or more fiscal periods.
   (ii) The percentage reduction applied to individual allotments of
an agency's total allotments from each appropriation from that fund or account may vary, but each agency's total allotments from each appropriation from that fund or account must be uniformly reduced by the percentage necessary to prevent a cash deficit. Where a portion of an appropriation is provided solely for a particular purpose, allotments of that portion of the appropriation may be reduced only by the same percentage as the overall appropriation.

(iii) Allotments for the following programs may be reduced only by a percentage equal to one-half of the percentage reduction applied to total allotments of appropriations under (b)(ii) of this subsection:

(A) Direct custody in the department of corrections and the juvenile rehabilitation administration; and
(B) The special commitment center of the department of social and health services.

(iv) Basic education programs, debt service on state bonds, state contributions to retirement systems, and programs for which a defined benefit is specifically mandated in statute are exempt from across-the-board allotment reductions under this subsection (7)(b) and allotments for these purposes shall not be included when calculating the allotment reductions.

(8) Except for the legislative and judicial branches and other agencies headed by elective officials, the governor shall review the statement of proposed operating expenditures for reasonableness and conformance with legislative intent. The governor may request corrections of proposed allotments submitted by the legislative and judicial branches and agencies headed by elective officials if those proposed allotments contain significant technical errors.

(9) Once the governor approves the proposed allotments, further revisions may at the request of the office of financial management or upon the agency's initiative be made on a quarterly basis and must be accompanied by an explanation of the reasons for significant changes. If the governor initiates across-the-board allotment revisions under subsection (7)(b) of this section, the office of financial management shall provide notice to the appropriate legislative fiscal committees of the proposed revisions, including the explanation for the significant changes, and the revisions may not take effect until ten days after this notice is provided. However, changes in appropriation level authorized by the legislature, changes required by across-the-board reductions mandated by the governor, changes caused by executive increases to spending authority, and changes caused by executive decreases to spending authority for failure to comply with the provisions of chapter 36.70A RCW may require additional revisions. Revisions shall not be made retroactively. However, the governor may assign to a reserve status any portion of an agency appropriation withheld as part of across-the-board reductions made by the governor and any portion of an agency appropriation conditioned on a contingent event by the appropriations act. The governor may remove these amounts from reserve status if the across-the-board reductions are subsequently modified or if the contingent event occurs. The director of financial management shall enter approved statements of proposed expenditures into the state budgeting, accounting, and reporting system within forty-five days after receipt of the proposed statements from the agencies. If an agency or the director of financial management is unable to meet these requirements, the director of financial management shall provide a timely explanation in writing to the legislative fiscal committees.

(8) It is expressly provided that all agencies shall be required to maintain accounting records and to report thereon in the manner prescribed in this chapter and under the regulations issued pursuant to this chapter. Within ninety days of the end of the fiscal year, all agencies shall submit to the director of financial management their final adjustments to close their books for the fiscal year. Prior to submitting fiscal data, written or oral, to committees of the legislature, it is the responsibility of the agency submitting the data to reconcile it with the budget and accounting data reported by the agency to the director of financial management.

(9) The director of financial management may exempt certain public funds from the allotment controls established under this chapter if it is not practical or necessary to allot the funds. Allotment control exemptions expire at the end of the fiscal biennium for which they are granted. The director of financial management shall report any exemptions granted under this subsection to the legislative fiscal committees.

(b) Funds for plans and programs shall be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW, except that any applicant that is a Puget Sound partner, as defined in RCW 90.71.010, along with any project that is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, shall, except as conditioned by RCW 70.105D.120, receive priority for any available funding for any grant or funding programs or sources that use a competitive bidding process.       (A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;
      (B) Funding would create new substantial economic development, public recreational, or habitat restoration opportunities that would not otherwise occur; or
      (C) Funding would create an opportunity for acquisition and redevelopment of vacant, orphaned, or abandoned property under RCW 70.105D.040(5) that would not otherwise occur;
   (ii) The use of outside contracts to conduct necessary studies;
   (iii) The purchase of remedial action cost-cap insurance, when necessary to expedite multiparty clean-up efforts.

(5) Except during the (2009-2011) 2011-2013 fiscal biennium, one percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation from either account which are not expended at the close of any biennium shall revert to the state toxics control account.

(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation, or, after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(11) During the 2011-2013 fiscal biennium, the local toxics control account may also be used for local government shoreline update grants and actions for reducing public exposure to toxic air pollution.

Sec. 923. RCW 74.48.090 and 2011 1st sp.s. c 7 s 21 are each amended to read as follows:

(1) The department and the department of health, in consultation with the Washington state health care association, and aging services of Washington, shall design a system of skilled nursing facility quality incentive payments. The design of the system shall be submitted to the relevant policy and fiscal committees of the legislature by (December 15, 2011) January 1, 2013. For the 2011-2013 fiscal biennial budget period, the department shall not implement a system of skilled nursing facility quality incentive payments designed pursuant to this section. The system shall be based upon the following principles:

(a) Evidence-based treatment and processes shall be used to improve health care outcomes for skilled nursing facility residents;

(b) Effective purchasing strategies to improve the quality of health care services should involve the use of common quality improvement measures, while recognizing that some measures may not be appropriate for application to facilities with high bariatric, behaviorally challenged, or rehabilitation populations;

(c) Quality measures chosen for the system should be consistent with the standards that have been developed by national quality improvement organizations, such as the national quality forum, the federal centers for medicare and medicaid services, or the federal agency for healthcare research and quality. New reporting burdens to skilled nursing facilities should be minimized by giving priority to measures skilled nursing facilities that are currently required to report to governmental agencies, such as the nursing home compare measures collected by the federal centers for medicare and medicaid services;

(d) Benchmarks for each quality improvement measure should be set at levels that are feasible for skilled nursing facilities to achieve, yet represent real improvements in quality and performance for a majority of skilled nursing facilities in Washington state; and

(e) Skilled nursing facilities performance and incentive payments should be designed in a manner such that all facilities in Washington are able to receive the incentive payments if performance is at or
above the benchmark score set in the system established under this section.

(2) Pursuant to an appropriation by the legislature, for state fiscal year (2013) 2014 and each fiscal year thereafter, assessments may be increased to support an additional one percent increase in skilled nursing facility reimbursement rates for facilities that meet the quality incentive benchmarks established under this section.

Sec. 924. RCW 76.04.610 and 2007 c 110 s 1 are each amended to read as follows:

(1)(a) If any owner of forest land within a forest protection zone neglects or fails to provide adequate fire protection as required by RCW 76.04.600, the department shall provide such protection and shall annually impose the following assessments on each parcel of such land: (i) A flat fee assessment of seventeen dollars and fifty cents; and (ii) twenty-seven cents on each acre exceeding fifty acres.

(b) Assessors may, at their option, collect the assessment on tax exempt lands. If the assessor elects not to collect the assessment, the department may bill the landowner directly.

(2) An owner who has paid assessments on two or more parcels, each containing fewer than fifty acres and each within the same county, may obtain the following refund:

(a) If all the parcels together contain less than fifty acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars and (ii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

(b) If all the parcels together contain fifty or more acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars, (ii) twenty-seven cents for each acre exceeding fifty acres, and (iii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

Applications for refunds shall be submitted to the department on a form prescribed by the department and in the same year in which the assessments were paid. The department may not provide refunds to applicants who do not provide verification that all assessments and property taxes on the property have been paid. Applications may be made by mail.

In addition to the procedures under this subsection, property owners with multiple parcels in a single county who qualify for a refund under this section may apply to the department on an application listing all the parcels owned in order to have the assessment computed on all parcels but billed to a single parcel. Property owners with the following number of parcels may apply to the department in the year indicated:

<table>
<thead>
<tr>
<th>Year</th>
<th>Number of Parcels</th>
</tr>
</thead>
<tbody>
<tr>
<td>2002</td>
<td>10 or more parcels</td>
</tr>
<tr>
<td>2003</td>
<td>8 or more parcels</td>
</tr>
<tr>
<td>2004 and thereafter</td>
<td>6 or more parcels</td>
</tr>
</tbody>
</table>

The department must compute the correct assessment and allocate one parcel in the county to use to collect the assessment. The county must then bill the forest fire protection assessment on that one allocated identified parcel. The landowner is responsible for notifying the department of any changes in parcel ownership.

(3) Beginning January 1, 1991, under the administration and at the discretion of the department up to two hundred thousand dollars per year of this assessment shall be used in support of those rural fire districts assisting the department in fire protection services on forest lands.

(4) For the purpose of this chapter, the department may divide the forest lands of the state, or any part thereof, into districts, for fire protection and assessment purposes, may classify lands according to the character of timber prevailing, and the fire hazard existing, and place unprotected lands under the administration of the proper district.

The department shall be prepared to make statement thereof, upon request, to a forest owner whose own protection has not been previously approved as to its adequacy, the department shall report the same to the assessor of the county in which the property is situated. The assessor shall extend the amounts upon the tax rolls covering the property, and upon authorization from the department shall levy the forest protection assessment against the amounts of unimproved land as shown in each ownership on the county assessor's records. The assessor may then segregate on the records to provide that the improved land and improvements thereon carry the millage levy designed to support the rural fire protection districts as provided for in RCW 52.16.170.

(5) The amounts assessed shall be collected at the time, in the same manner, by the same procedure, and with the same penalties attached that general state and county taxes on the same property are collected, except that errors in assessments may be corrected at any time by the department certifying them to the treasurer of the county in which the land involved is situated. Assessments shall be known and designated as assessments of the year in which the amounts became reimbursable. Upon the collection of assessments the county treasurer shall place fifty cents of the total assessments paid on a parcel for fire protection into the county current expense fund to defray the costs of listing, billing, and collecting these assessments. The treasurer shall then transmit the balance to the department. Collections shall be applied against expenses incurred in carrying out the provisions of this section, including necessary and reasonable administrative costs incurred by the department in the enforcement of these provisions. The department may also expend sums collected from owners of forest lands or received from any other source for necessary administrative costs in connection with the enforcement of RCW 76.04.660.

(6) When land against which forest protection assessments are outstanding is acquired for delinquent taxes and sold at public auction, the state shall have a lien on the proceeds of sale over and above the amount necessary to satisfy the county's delinquent tax judgment. The county treasurer, in case the proceeds of sale exceed the amount of the delinquent tax judgment, shall immediately remit to the department the amount of the outstanding forest protection assessments.

(7) All nonfederal public bodies owning or administering forest land included in a forest protection zone shall pay the forest protection assessments provided in this section and the special forest fire suppression account assessments under RCW 76.04.630. The forest fire protection assessments and special forest fire suppression account assessments shall be payable by nonfederal public bodies from available funds within thirty days following receipt of the written notice from the department which is given after October 1st of the year in which the protection was provided. Unpaid assessments are not a lien against the nonfederal publicly owned land but shall constitute a debt by the nonfederal public body to the department and are subject to interest charges at the legal rate. During the 2011-2013 fiscal biennium, the forest fire protection assessment account may be appropriated to the joint legislative audit review committee for analysis and recommendations to improve the efficiency and effectiveness of the state's mechanisms for funding fire prevention and suppression activities.

(8) A public body, having failed to previously pay the forest protection assessments required of it by this section, which fails to suppress a fire on or originating from forest lands owned or
administered by it, is liable for the costs of suppression incurred by the department or its agent and is not entitled to reimbursement of costs incurred by the public body in the suppression activities.

(9) The department may adopt rules to implement this section, including, but not limited to, rules on levying and collecting forest protection assessments.

The legislative authority of a county may elect, by giving written notice to the director and the treasurer prior to January 1st of any year, to obtain for the following year an amount in lieu of real property taxes on game lands as provided in RCW 77.12.203. Upon the election, the county shall keep a record of all fines, forfeitures, reimbursements, and costs assessed and collected, in whole or in part, under this title for violations of law or rules adopted pursuant to this title, with the exception of the 2011-2013 fiscal biennium, and shall monthly remit an amount equal to the amount collected to the state treasurer for deposit in the state general fund. The election shall continue until the department is notified differently prior to January 1st of any year.

Sec. 926. RCW 77.12.203 and 2009 c 303 s 14 are each amended to read as follows:

(1) Except as provided in subsection (5) of this section and notwithstanding RCW 84.36.010 or other statutes to the contrary, the director shall pay by April 30th of each year on game lands in each county, if requested by an election under RCW 77.12.201, an amount in lieu of real property taxes equal to that amount paid on similar parcels of open space land taxable under chapter 84.34 RCW or the greater of seventy cents per acre per year or the amount paid in 1984 plus an additional amount for control of noxious weeds equal to that which would be paid if such lands were privately owned. This amount shall not be assessed or paid on department buildings, structures, facilities, game farms, fish hatcheries, tidelands, or public fishing areas of less than one hundred acres.

(2) "Game lands," as used in this section and RCW 77.12.201, means those tracts one hundred acres or larger owned in fee by the department and used for wildlife habitat and public recreational purposes. All lands purchased for wildlife habitat, public access or recreation purposes with federal funds in the Snake River drainage basin shall be considered game lands regardless of acreage.

(3) This section shall not apply to lands transferred after April 23, 1990, to the department from other state agencies.

(4) The county shall distribute the amount received under this section in lieu of real property taxes to all property taxing districts except the state in appropriate tax code areas the same way it would distribute local property taxes from private property. The county shall distribute the amount received under this section for weed control to the appropriate weed district.

(5) For the 2011-2013 fiscal biennium, the director shall pay by April 30th of each year on game lands in each county, if requested by an election under RCW 77.12.201, an amount in lieu of real property taxes and shall be distributed as follows:

(1) If any land acquired by a county through foreclosure of tax liens, or otherwise, comes within the classification of land described in RCW 79.22.010 and can be used as state forest land and if the department deems such land necessary for the purposes of this chapter, the county shall, upon demand by the department, deed such land to the department and the land shall become a part of the state forest lands.

(2) Such land shall be held in trust and administered and protected by the department in the same manner as other state forest lands.

(3) (a) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys derived subject to this section are the net proceeds from the contract harvesting sale.

(b) During the 2011-2013 fiscal biennium, the legislature may appropriate moneys derived subject to this section from the forest development account consistent with RCW 79.64.100.

Sec. 930. RCW 79.64.040 and 2011 1st sp.s. c 50 s 966 and 2011 c 216 s 16 are each reenacted and amended to read as follows:

(4) Deductions authorized under this section for transactions pertaining to community forest trust lands must be established at a level sufficient to defray over time the management costs for activities prescribed in a parcel’s management plan adopted pursuant to RCW 79.155.080, and, if deemed appropriate by the board consistent with RCW 79.155.090, to reimburse the state and any local entities’ eligible financial contributions for acquisition of the parcel.

(5) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys received subject to this section are the net proceeds from the contract harvesting sale.

(6) During the (2009-2011) 2011-2013 fiscal biennium (land fiscal year 2012)), the twenty-five percent limitation on deductions set in subsection (3) of this section may be increased up to thirty percent by the board.

Any bonds issued shall constitute a first and prior claim and lien against the account for the payment of principal and interest. No sums for the above purposes shall be withdrawn or paid out of the account except upon approval of the department.

Appropriations may be made by the legislature from the forest development account to the department for the purpose of carrying on the activities of the department on state forest lands, lands managed on a sustained yield basis as provided for in RCW 79.10.320, and for reimbursement of expenditures that have been made or may be made from the resource management cost account in the management of state forest lands. After appropriation, these funds shall be used solely for aquatic lands enhancement projects; for the purchase, improvement, or protection of aquatic lands for public purposes; for providing and improving access to the lands; and for volunteer cooperative fish and game projects. During the (2009-2011 end) 2011-2013 fiscal (biennium) biennium, the aquatic lands enhancement account may also be used for scientific research as part of the adaptive management process and for developing a planning report for McNeil Island. During the (2009-2011 end) 2011-2013 fiscal (biennium), the legislature may transfer from the aquatic lands enhancement account to the state general fund such amounts as reflect excess fund balance of the account. During the 2011-2013 fiscal biennium, the aquatic lands enhancement account may be used to support the shellfish program, the ballast water program, parks, hatcheries, and the Puget Sound toxic sampling program at the department of fish and wildlife, and the knotweed program at the department of agriculture.

(4) The department shall consult with affected interest groups in implementing this section.

(5) After January 1, 2010, any project designed to address the restoration of Puget Sound may be funded under this chapter only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

Sec. 933. RCW 79A.25.200 and 2007 c 241 s 53 are each amended to read as follows:

Moneys in the flood control assistance account may be spent only after appropriation for purposes specified under this chapter.

Sec. 935. RCW 90.48.390 and 2008 c 329 s 925 are each amended to read as follows:

The coastal protection fund is established to be used by the department as a revolving fund for carrying out the purposes of restoration of natural resources under this chapter and chapter 90.56 RCW. Sec. 936. 2010 c 23 s 205 (uncodified) is amended to read as follows:

(1) The legislature finds that this state's tax policy with respect to the taxation of transactions between affiliated entities and the income derived from such transactions (intercompany transactions) has motivated some taxpayers to engage in transactions designed solely or primarily to minimize the tax effects of intercompany transactions. The legislature further finds that some intercompany transactions result from taxpayers that are required to establish affiliated entities to comply with regulatory mandates and that transactions between such affiliates effectively increases the tax burden in this state on the affiliated group of entities.

(2) Therefore, as existing resources allow, the department of revenue is directed to conduct a review of the state's tax policy with respect to the taxation of intercompany transactions. The review must include the impacts of such transactions under the state's business and occupation tax and state and local sales and use taxes. The department may include other taxes in the review as it deems appropriate.

(3) In conducting the review, the department must examine how this state's tax policy compares to the tax policy of other states with respect to the taxation of intercompany transactions. The department's review must include an analysis of potential alternatives to the current policy of taxing intercompany transactions, including their estimated revenue impacts if practicable.

(4) In conducting this review, the department may seek input from members of the business community and others as it deems appropriate.

(5) The department must report its findings to the fiscal committees of the house of representatives and senate by December 1, 2010. However, if the department has not completed its review by December 1, 2010, the department must provide the fiscal committees of the legislature with a brief status report by December 1, 2010, and the final report by December 1, 2011.

(3) Provide notice about when the business may expect the results of a technical assistance or regulatory visit;

"In order to achieve the reductions in appropriations provided in 
this section, the authority, in consultation with the Washington state 
hospital association, the Washington state medical association, and 
the Washington chapter of the American college of emergency 
physicians shall designate best practices and performance measures to 
reduce medically unnecessary emergency room visits of medicaid 
clients. The Washington state hospital association, the Washington 
state medical association, and the Washington chapter of the
American college of emergency physicians will work with the authority to promote these best practices. The best practices and performance measures shall consist of the following items:

(a) Adoption of a system to exchange patient information among emergency room departments on a regional or statewide basis;

(b) Active dissemination of patient educational materials produced by the Washington state hospital association, Washington state medical association, and the Washington chapter of the American college of emergency physicians that instruct patients on appropriate facilities for non-emergency health care needs;

(c) Designation of hospital personnel and emergency room physician personnel to receive and appropriately disseminate information on clients participating in the medicaid patient review and coordination program and to review monthly utilization reports on those clients provided by the authority;

(d) A process to assist the authority's patient review and coordination program clients with their care plans. The process must include substantial efforts by hospitals to schedule an appointment with the client’s assigned primary care provider within seventy-two hours of the client’s medically unnecessary emergency room visit when appropriate under the client’s care plan;

(e) Implementation of narcotic guidelines that incorporate the Washington chapter of the American college of emergency physician guidelines;

(f) Physician enrollment in the state's prescription monitoring program, as long as the program is funded; and

(g) Designation of a hospital emergency department physician responsible for reviewing the state’s medicaid utilization management feedback reports, which will include defined performance measures. The emergency department physician and hospital will have a process to take appropriate action in response to the information in the feedback reports if performance measures are not met. The authority must develop feedback reports that include timely emergency room utilization data such as visit rates, medically unnecessary visit rates (by hospital and by client), emergency department imaging utilization rates, and other measures as needed. The authority may utilize the Robert Bree collaborative for assistance related to this best practice.

The requirements for best practices for a critical access hospital should not include adoption of a system to exchange patient information if doing so would pose a financial burden, and should not include requirements related to the authority’s patient review and coordination program if the volume of those patients seen at the critical access hospital are small.

Hospitals participating in this medicaid best practices program shall submit to the authority a declaration from executive level leadership indicating hospital adoption of and compliance with the best practices enumerated above. In the declaration, hospitals will affirm that they have in place written policies, procedures, or guidelines to implement these best practices and are willing to share them upon request. The declaration must also give consent for the authority to disclose feedback reports and performance measures on its website. The authority shall submit a list of declaring hospitals to the relevant policy and fiscal committees of the legislature by July 15, 2012.

If the authority does not receive by July 1, 2012, declarations from hospitals representing at least seventy-five percent of emergency room visits by medicaid clients in fiscal year 2010, the authority may implement a policy of nonpayment of medically unnecessary emergency room visits, with appropriate client and clinical safeguards such as exemptions and expedited prior authorization. The authority shall by January 15, 2013, perform a preliminary fiscal analysis of trends in implementing the best practices in this subsection, focusing on outlier hospitals with high rates of unnecessary visits by Medicaid clients, high emergency room visit rates for patient review and coordination clients, low rates of completion of treatment plans for patient review and coordination clients assigned to the hospital, and high rates of prescribed long-acting opiates. Also there were physical demands too, when he left Korea he was up with understanding those things that he was going through. A emotional and psychological trauma that he had had to endure that States there were some serious things to deal with, all of the here today giving this speech to you. that terrible situation, sixty years after that he would be stan cadet, who would sixty years after that time when he was facing family would at some point marry a nice young Air Force academy married, have five children, and the youngest daughter of that to survive; he was going to come back to the United States, get going to die. At that moment he did not realize that he was going to the edge of a ravine, had a gun pointed at his head, and told he was a prisoner fellow prisoners of war had come up with a plan for escaping the of war, they were moved from camp to camp during the night only course they were ill equipped for the weather and so on as they were being moved around. He tells me that he saw fellow prisoners of war executed along the way when they could not keep up on these trying marches. In particular there came a time when he and some of his fellow prisoners of war had come up with a plan for escaping the prisoner of war camp, and it was discovered. He was then taken to the edge of a ravine, had a gun pointed at his head, and told he was going to die. At that moment he did not realize that he was going to survive; he was going to come back to the United States, get married, have five children, and the youngest daughter of that family would at some point marry a nice young Air Force academy cadet, who would sixty years after that time when he was facing that terrible situation, sixty years after that he would be standing here today giving this speech to you.

Now as you can imagine when he came back to the United States there were some serious things to deal with, all of the emotional and psychological trauma that he had had to endure that he would have to overcome. Also of course his family had to put up with understanding those things that he was going through. Also there were physical demands too, when he left Korea he was 6’2” and he weighed 90 pounds, so there was a significant toll on his body. He for decades wore glasses that were kind of odd because they had to correct for his double vision that he faced there. Another example I can think of the toll of that war is that I know for a fact, for decades that I’ve known him, that I have never seen a grain of rice in his house or on his plate at a restaurant. So anyway Mr. Speaker I just wanted to bring that personal example of one of the prisoners of war that are true heroes of our country. They sacrifice so much for us and we will do well to remember them today. Thank you Mr. Speaker.”

SUBSTITUTE SENATE BILL NO. 6636

Brad Hendrickson, Deputy, Secretary

There being no objection, the House adjourned until 9:00 a.m., April 10, 2012, the 30th Day of the 1st Special Session.

FRANK CHOPP, Speaker

BARBARA BAKER, Chief Clerk
THIRTIETH DAY

The House was called to order at 10:00 a.m. by the Speaker (Representative Moeller presiding). The Clerk called the roll and a quorum was present.

The flags were escorted to the rostrum by a Sergeant at Arms Color Guard, Pages Allen Hayward and Lief Espedal. The Speaker (Representative Moeller presiding) invited Representative Alexander to share a point of personal privilege and lead the Chamber in the Pledge of Allegiance.

POINT OF PERSONAL PRIVILEGE

Representative Alexander: “Thank you Mr. Speaker. In the hopefully last day of session there will be a number of people that have been with me and this body for a long time that may not be here, including one of the gentlemen that just brought the flag up (Allen Hayward). Every morning we say the pledge of allegiance and then we have the opportunity to listen to some of the most powerful and influential prayers that I have ever heard. But this morning I’d like to take a minute and recognize the first thing we do in the morning, the pledge of allegiance. I’d like to relate to you a little story about the importance of what this pledge of allegiance means.

This is a story that was related by Senator John McCain; “As you may know I spent 5 ½ years as a prisoner of war during the Vietnam War. In the early years of our imprisonment the North Vietnamese Army kept us in solitary confinement, or two or three to a cell. In 1971 the North Vietnamese moved us from these conditions of isolation into a large room with as many as thirty to forty men to a room. This was, as you can imagine, a wonderful change and was a direct result of millions of Americans on the behalf of a few hundred POWs ten thousand miles from home.

One of the men that moved into my room was a young man named Mike Christian. Mike came from a small town near Selma, Alabama. He didn't wear a pair of shoes until he was thirteen years old. At seventeen, he enlisted in the U.S. Navy. He later earned a commission. He became a Naval flying officer and was shot down and captured in 1967. Mike had a keen and deep appreciation for the opportunities of this country and our military to provide for people who want to work and want to succeed.

As part of the change in treatment, the Vietnamese allowed some prisoners to receive packages from home. In some of these packages were handkerchiefs, scarves and other items of clothing. Mike got himself a pie bamboo needle. Over a period of a couple of months, he created an American flag and sewed it on the inside of his shirt.

Every afternoon, before we had a bowl of soup, we would hang Mike's shirt on the wall of our cell, and say the Pledge of Allegiance. I know the Pledge of Allegiance may not seem the most important part of our day now, but I can assure you that in that stark prison cell it was indeed the most important and meaningful event.

One day, the Vietnamese searched our cell as they did periodically and discovered Mike's shirt with the flag sewn inside, and removed it. That evening they returned, opened the door of the cell, and for the benefit of all of us, beat Mike Christian severely for the next couple of hours.

Then they opened the door of the cell and threw him back inside. We cleaned him up as well as we could. The cell in which we lived had a concrete slab in the middle on which we slept. Four naked light bulbs hung in each corner of the room.

As I said we tried to clean up Mike as well as we could. After the excitement died down I looked into the corner of the room and sitting there beneath that dim light bulb, with a piece of red cloth, another shirt and his bamboo needle, was my friend, Mike Christian. Sitting there, with his eyes almost shut from the beating he had received, making another American flag. He was not making the flag because it made Mike Christian feel better. He was making that flag because he knew how important it was for us to be able to pledge our allegiance to our flag and country.”

So the next time you say the pledge of allegiance you must not forget the sacrifice and courage that thousands of Americans have made to build our nation and promote freedom around the world. You must please remember our duty, our honor and our country, would you please join me in the pledge of allegiance.”

The prayer was offered by Representative Smith, 20th District, Washington.

Reading of the Journal of the previous day was dispensed with and it was ordered to stand approved.

"NEW SECTION. Sec. 1. A new section is added to chapter 43.88 RCW to read as follows:

(1) The legislature must adopt a four-year balanced budget as follows:

(a) Beginning in the 2013-2015 fiscal biennium, the legislature shall enact a balanced omnibus operating appropriations bill that leaves, in total, a positive ending fund balance in the general fund and related funds.

(b) Beginning in the 2013-2015 fiscal biennium, the projected maintenance level of the omnibus appropriations bill enacted by the legislature shall not exceed the available fiscal resources for the next ensuing fiscal biennium.

(2) For purposes of this section:

(a) "Available fiscal resources" means the beginning general fund and related fund balances and any fiscal resources estimated for the general fund and related funds, adjusted for enacted legislation, and with forecasted revenues adjusted to the greater of (i) the official general fund and related funds revenue forecast for the ensuing biennium, or (ii) the official general fund and related funds forecast for the second fiscal year of the current fiscal biennium, increased by 4.5 percent for each fiscal year of the ensuing biennium;

(b) "Projected maintenance level" means estimated appropriations necessary to maintain the continuing costs of program and service levels either funded in that appropriations bill or mandated by other state or federal law, and the amount of any general fund moneys projected to be transferred to the budget stabilization account pursuant to Article VII, section 12 of the state Constitution, but does not include in the 2013-2015 and 2015-2017 fiscal biennia the costs related to the enhanced funding under the new definition of basic education as established in chapter 581, Laws of 2011, such that the short-term exclusion of these obligations is solely for the purposes of calculating this estimate and does not in any way indicate an intent to avoid full funding of these obligations;

(c) "Related funds," as used in this section, means the Washington opportunity pathways account and the education legacy stabilization account.

(3) Subsection (1)(a) and (b) of this section does not apply to an appropriations bill that makes net reductions in general fund and related funds appropriations and is enacted between July 1st and February 15th of any fiscal year.

(4) Subsection (1)(b) of this section does not apply in a fiscal biennium in which money is appropriated from the budget stabilization account.

(5) A councilmember who does not cast an affirmative vote for
approval of the official economic and revenue forecast or the state budget outlook may request, and the supervisor shall provide, an alternative economic and revenue forecast or state budget outlook based on assumptions specified by the member including, for purposes of the state budget outlook, revenues to and expenditures from additional funds.

((Li48)) (6) Members of the economic and revenue forecast council shall serve without additional compensation but shall be reimbursed for travel expenses in accordance with RCW 44.04.120 while attending sessions of the council or on official business authorized by the council. In even-numbered years, the period covered by the forecasts for the state general fund and related funds shall be current fiscal and the next two ensuing fiscal biennia.

(3) All agencies of state government shall provide to the supervisor immediate access to all information relating to economic and revenue forecasts. Revenue collection information shall be available to the supervisor the first business day following the conclusion of each collection period.

(4) The economic and revenue forecast supervisor and staff shall co-locate and share information, data, and files with the tax research section of the department of revenue but shall not duplicate the duties and functions of one another.

(5) As part of its forecasts under subsection (1) of this section, the supervisor shall provide estimated revenue from tuition fees as defined in RCW 28B.15.020.

(6) The economic and revenue forecast council must, in consultation with the economic and revenue forecast work group created in RCW 82.33.040, review the existing economic and revenue forecast council revenue model, data, and methodologies and in light of recent economic changes, engage outside experts if necessary, and recommend changes to the economic and revenue forecast council revenue forecasting process to increase confidence and promote accuracy in the revenue forecast. The recommendations are due by September 30, 2012, and every five years thereafter.

NEW SECTION. Sec. 4. A new section is added to chapter 82.33 RCW to read as follows:

(1) To facilitate compliance with, and subject to the terms of, section 1 of this act, the state budget outlook work group shall prepare, subject to the approval of the economic and revenue forecast council under RCW 82.33.010, an official state budget outlook for state revenues and expenditures for the general fund and related funds. In odd-numbered years, the period covered by the November state budget outlook shall be the current fiscal biennium and the next ensuing fiscal biennium. In even-numbered years, the period covered by the November state budget outlook shall be the next two ensuing fiscal biennia. The revenue and caseload projections used in the outlook must reflect the most recent official forecasts adopted by the economic and revenue forecast council and the caseload forecast council for the years for which those forecasts are available.

(2) The outlook must:
(a) Estimate revenues to and expenditures from the state general fund and related funds. The estimate of ensuing biennium expenditures must include maintenance items including, but not limited to, continuation of current programs, forecasted growth of current entitlement programs, and actions required by law, including legislation with a future implementation date. Estimation of ensuing biennium expenditures must exclude policy items including, but not limited to, legislation not yet enacted by the legislature, collective bargaining agreements not yet approved by the legislature, and changes to levels of funding for employee salaries and benefits unless those changes are required by statute. Estimated maintenance level expenditures must also exclude costs of court rulings issued during or within fewer than ninety days before the beginning of the current legislative session;
(b) Address major budget and revenue drivers, including trends and variability in these drivers;
(c) Clearly state the assumptions used in the estimates of baseline and projected expenditures and any adjustments made to those estimates;
(d) Clearly state the assumptions used in the baseline revenue estimates and any adjustments to those estimates; and
(e) Include the impact of previously enacted legislation with a future implementation date.

(5) Each January, the state budget outlook work group shall also prepare, subject to the approval of the economic and revenue forecast council, a state budget outlook for state revenues and expenditures that reflects the governor's proposed budget document submitted to the legislature under chapter 43.88 RCW. Within thirty days following enactment of an operating budget by the legislature, the work group shall prepare, subject to the approval of the economic and revenue forecast council, a state budget outlook for state revenues and expenditures that reflects the enacted budget.

(6) All agencies of state government shall provide to the supervisor immediate access to all information relating to state budget outlooks.

(7) The state budget outlook work group must publish its proposed methodology on the economic and revenue forecast council web site. The state budget outlook work group, in consultation with the economic and revenue forecast council and outside experts if necessary, must analyze the extent to which the proposed methodology for projecting expenditures for the ensuing fiscal biennia may be reliably used to determine the future impact of appropriations and make recommendations to change the outlook process to increase reliability and accuracy. The recommendations are due on December 1, 2015, and every five years thereafter.

**THIRD READING**

**MESSAGE FROM THE SENATE**

April 4, 2012

Mr. Speaker:

The Senate has passed HOUSE BILL NO. 2824 with the following amendment:

Strike everything after the enacting clause and insert the following:

"**NEW SECTION.** Sec. 1. (1) Legislation enacted in 2009 (chapter 548, Laws of 2009) and in 2010 (chapter 236, Laws of 2010) revised the definition of the program of basic education, established new methods for distributing state funds to school districts to support this program of basic education, and provided an outline of specific enhancements to the program of basic education that are required to be implemented by 2018. In order to meet the required deadlines to implement full funding of the enhancements, the joint task force in section 2 of this act is created to develop and recommend options for a permanent funding mechanism.

(2) Initiative Measure No. 728 (chapter 3, Laws of 2001) dedicated a portion of state revenues to fund class size reductions and other education improvements. Because class size reductions and
similar improvements are incorporated in the reforms that were enacted in chapter 548, Laws of 2009, and chapter 236, Laws of 2010, and that are being incrementally implemented through 2018. Initiative Measure No. 728 is repealed in order to make these dedicated revenues available for implementation of basic education reform and to facilitate the funding reform recommendations of the joint task force in section 2 of this act.

(3) Nothing in this act alters or amends the elements included in the school district levy base set forth in RCW 84.52.0531.

NEW SECTION. Sec. 2. (1) The joint task force on education funding is established. The task force shall make recommendations on how the legislature can meet the requirements outlined in chapter 548, Laws of 2009 and chapter 236, Laws of 2010. In particular, the task force shall develop a proposal for a reliable and dependable funding mechanism to support basic education programs. At a minimum, the proposed funding mechanism must support full implementation of the programmatic enhancements required in chapter 548, Laws of 2009, and chapter 236, Laws of 2010, including full-day kindergarten; reduced K-3 class size; increased allocations for maintenance, supplies, and operating costs; and a new pupil transportation formula. The task force shall also consider the specific recommendations for the transitional bilingual instructional program from the quality education council to the legislature dated January 6, 2012. It shall provide recommendations for: Implementation of a scaled funding formula based on levels of English language proficiency, a supplemental formula based on students exiting the program due to demonstrated English language proficiency, and implementing legislation.

(2) The joint task force on education funding shall consist of the following members:

(a) Eight legislators, with two members from each of the two largest caucuses of the senate appointed by the president of the senate and two members from each of the two largest caucuses of the house of representatives appointed by the speaker of the house of representatives; and

(b) Three individuals, to be appointed by the governor.

(b) The task force may recommend multiple options, but shall recommend one preferred alternative, including an outline of necessary implementing legislation. Should the task force recommend an option to fully fund the program of basic education with no new revenues, the task force must identify what areas already in the budget would be eliminated or reduced.

(c) The task force shall be staffed by the house of representatives office of program research, senate committee services, and the office of financial management, with assistance from the Washington state institute for public policy and other agencies as necessary.

(3) The task force shall submit a final report to the legislature by December 31, 2012.

Sec. 3. RCW 28A.150.380 and 2009 c 548 s 110 and 2009 c 479 s 16 are each reenacted and amended to read as follows:

(1) The state legislature shall, at each regular session in an odd-numbered year, appropriate for the current use of the common schools such amounts as needed for state support to school districts during the ensuing biennium for the program of basic education under RCW 28A.150.200.

(2) In addition to those state funds provided to school districts for basic education, the legislature may appropriate funds to be distributed to school districts for other factors and for other special programs to enhance or enrich the program of basic education.

(3) The state legislature shall also, at each regular session in an odd numbered year, appropriate from the general fund and education construction fund for the purposes of and in accordance with the provisions of the student achievement act during the ensuing biennium.

Sec. 4. RCW 28A.600.405 and 2007 c 355 s 4 are each amended to read as follows:

(2) An eligible student may enroll in courses or a program of study made available by a community or technical college participating in the pilot program created under RCW 28B.50.534 for the purpose of obtaining a high school diploma.

(3) For eligible students in courses or programs delivered directly by the community or technical college participating in the pilot program under RCW 28B.50.534 and only for enrollment in courses that lead to a high school diploma, the superintendent of public instruction shall transmit to the colleges participating in the pilot program an amount per each full-time equivalent college student at statewide uniform rates. The amount shall be the sum of (a), (b), and (c) of ((i) and (d)) of this subsection, as applicable.

(a) The superintendent shall separately calculate and allocate moneys appropriated for basic education under RCW 28A.150.260 for purposes of making payments under this section. The calculations and allocations shall be based upon the estimated statewide annual average per full-time equivalent high school student allocations under RCW 28A.150.260, excluding small high school enhancements, and applicable rules adopted under chapter 34.05 RCW.

(b) The superintendent shall allocate an amount equal to the per funded student state allocation for the learning assistance program under chapter 28A.165 RCW for each full-time equivalent college student or a pro rata amount for less than full-time enrollment.

(c) The superintendent shall allocate an amount equal to the per full-time equivalent student allocation for the student achievement program under RCW 28A.505.210 for each full-time equivalent college student or a pro rata amount for less than full-time enrollment.

(4) For eligible students who meet eligibility criteria for the state transitional bilingual instruction program under chapter 28A.180 RCW, the superintendent shall allocate an amount equal to the per student state allocation for the transitional bilingual instruction program or a pro rata amount for less than full-time enrollment.

(5) The superintendent may adopt rules establishing enrollment reporting, recordkeeping, and accounting requirements necessary to ensure accountability for the use of basic education, learning assistance, and transitional bilingual program funds under this section for the pilot program created under RCW 28B.50.534.

(5) All school districts in the geographic area of the two community and technical colleges selected pursuant to section 8, chapter 355, Laws of 2007 to participate in the pilot program shall provide information about the high school completion option under RCW 28B.50.534 to students in grades ten, eleven, and twelve and the parents or guardians of those students.

Sec. 5. RCW 43.135.045 and 2011 1st sp.s. c 50 s 950 are each amended to read as follows:

The education construction fund is hereby created in the state treasury.

(1) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education
construction. During the 2007-2009 fiscal biennium, funds may also be used for higher education facilities preservation and maintenance. During the 2009-2011 and 2011-2013 fiscal biennia, the legislature may transfer from the education construction fund to the state general fund such amounts as reflect the excess fund balance of the fund.

(2) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(3) (a) Funds for the student achievement program in RCW 28A.505.210 and 28A.505.220 shall be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. Allocations shall be made on an equal per pupil basis to each school district.

(b) After July 1, 2010, the state treasurer shall transfer one hundred two million dollars from the general fund to the education construction fund by June 30th of each year.

Sec. 6. RCW 67.70.340 and 2010 1st sp.s. c 27 s 4 are each amended to read as follows:

(1) The legislature recognizes that creating a shared game lottery could result in less revenue being raised by the existing state lottery ticket sales. The legislature further recognizes that the fund most impacted by this potential event is the Washington opportunity pathways account. Therefore, it is the intent of the legislature to use some of the proceeds from the shared game lottery to make up the difference that the potential state lottery revenue loss would have on the Washington opportunity pathways account. The legislature further intends to use some of the proceeds from the shared game lottery to fund programs and services related to problem and pathological gambling.

(2) The Washington opportunity pathways account is expected to receive one hundred two million dollars annually from state lottery games other than the shared game lottery. For fiscal year 2011 and thereafter, if the amount of lottery revenues earmarked for the Washington opportunity pathways account is less than one hundred two million dollars, the commission, after making the transfer required under subsection (3) of this section, must transfer sufficient moneys from revenues derived from the shared game lottery into the Washington opportunity pathways account to bring the total revenue up to one hundred two million dollars.

(a) The commission shall transfer, from revenue derived from the shared game lottery, to the problem gambling account created in RCW 43.20A.892, an amount equal to the percentage specified in (b) of this subsection of net receipts. For purposes of this subsection, net receipts means the difference between (i) revenue received from the sale of lottery tickets or shares and revenue received from the sale of shared game lottery tickets or shares; and (ii) the sum of payments made to winners.

(b) In fiscal year 2006, the percentage to be transferred to the problem gambling account is one-twentieth of one percent. In fiscal year 2007 and subsequent fiscal years, the percentage to be transferred to the problem gambling account is thirteen one-hundredths of one percent.

(4) The commission shall transfer the remaining net revenues, if any, derived from the shared game lottery ‘Powerball’ authorized in RCW 67.70.044(1) after the transfers pursuant to this section into the state general fund for (the student achievement program under RCW 28A.505.220)) support for the program of basic education under RCW 28A.150.200.

(5) The remaining net revenues, if any, in the shared game lottery account after the transfers pursuant to this section shall be deposited into the Washington opportunity pathways account.

Sec. 7. RCW 83.100.230 and 2010 1st sp.s. c 37 s 953 are each amended to read as follows:

The education legacy trust account is created in the state treasury. Money in the account may be spent only after appropriation. Expenditures from the account may be used only for ((deposit into the student achievement fund)) support of the common schools, and for expanding access to higher education through funding for new enrollments and financial aid, and other educational improvement efforts. ((During the 2009-2011 fiscal biennium, money in the account may also be transferred into the state general fund.))

Sec. 8. RCW 84.52.0531 and 2010 c 237 s 1 and 2010 c 99 s 11 are each reenacted and amended to read as follows:

The maximum dollar amount which may be levied by or for any school district for maintenance and operation support under the provisions of RCW 84.52.053 shall be determined as follows:

(1) For excess levies for collection in calendar year 1997, the maximum dollar amount shall be calculated pursuant to the laws and rules in effect in November 1996.

(2) For excess levies for collection in calendar year 1998 and thereafter, the maximum dollar amount shall be the sum of (a) plus or minus (b), (c), and (d) of this subsection minus (e) of this subsection:

(c) Except for nonhigh districts under (d) of this subsection, for districts in an interdistrict cooperative agreement, the nonresident school district's maximum levy amount shall be reduced and the resident school district's maximum levy amount shall be increased by an amount equal to the per pupil basic education allocation included in the nonresident district's levy base under subsection (3) of this section multiplied by:

(i) The number of full-time equivalent students served from the resident district in the prior school year; multiplied by:

(ii) The serving district's maximum levy percentage determined under subsection (6) of this section; increased by:

(iii) The percent increase per full-time equivalent student as stated in the state basic education appropriation section of the biennial budget between the prior school year and the current school year divided by fifty-five percent;

(d) The levy bases of nonhigh districts participating in an innovation academy cooperative established under RCW 28A.340.080 shall be adjusted by the office of the superintendent of public instruction to reflect each district's proportional share of student enrollment in the cooperative;

(e) The district's maximum levy amount shall be reduced by the maximum amount of state matching funds for which the district is eligible under RCW 28A.500.010.

(3) For excess levies for collection in calendar year 2005 and thereafter, a district's levy base shall be the sum of allocations in (a) through (c) of this subsection received by the district for the prior school year and the amounts determined under subsection (4) of this section, including allocations for compensation increases, plus the sum of such allocations multiplied by the percent increase per full time equivalent student as stated in the state basic education appropriation section of the biennial budget between the prior school year and the current school year and divided by fifty-five percent. A district's levy base shall not include local school district property tax levies or other local revenues, or state and federal allocations not identified in (a) through (c) of this subsection.
(a) The district's basic education allocation as determined pursuant to RCW 28A.150.250, 28A.150.260, and 28A.150.350;
(b) State and federal categorical allocations for the following programs:
(i) Pupil transportation;
(ii) Special education;
(iii) Education of highly capable students;
(iv) Compensatory education, including but not limited to learning assistance, migrant education, Indian education, refugee programs, and bilingual education;
(v) Food services; and
(vi) Statewide block grant programs; and
(c) Any other federal allocations for elementary and secondary school programs, including direct grants, other than federal impact aid funds and allocations in lieu of taxes.

(4) For levy collections in calendar years 2005 through 2017, in addition to the allocations included under subsection (3)(a) through (c) of this section, a district's levy base shall also include the following:
(a) For levy collections in calendar year 2010, the difference between the allocation the district would have received in the current school year had RCW 84.52.068 not been amended by chapter 19, Laws of 2003 1st sp. sess. and the allocation the district received in the current school year pursuant to RCW 28A.505.220;
(b) For levy collections in calendar years 2011 through 2017, the difference between the allocation the district would have received in the prior school year using the Initiative 728 rate (the difference between the allocation rate the district received in the prior school year pursuant to RCW 28A.505.220) multiplied by the full-time equivalent student enrollment used to calculate the Initiative 728 allocation for the prior school year; and
(c) The difference between the allocations the district would have received the prior school year using the Initiative 732 base and the allocations the district actually received the prior school year pursuant to RCW 28A.400.205.

(5) For levy collections in calendar years 2011 through 2017, in addition to the allocations included under subsections (3)(a) through (c) and (4)(a) and (b) of this section, a district's levy base shall also include the difference between an allocation of fifty-three and two-tenths certificated instructional staff units per thousand full-time equivalent students in grades kindergarten through four enrolled in the prior school year and the allocation of certificated instructional staff units per thousand full-time equivalent students in grades kindergarten through four that the district actually received in the prior school year, except that the levy base for a school district whose allocation in the 2009-10 school year was less than fifty-three and two-tenths certificated instructional staff units per thousand full-time equivalent students in grades kindergarten through four shall include the difference between the allocation the district actually received in the 2009-10 school year and the allocation the district actually received in the prior school year.

(ii) For 2011 through 2017, the percentage calculated as follows:
(A) Multiply the grandfathered percentage for the prior year times the district's levy base determined under subsection (3) of this section;
(B) Reduce the result of (b)(ii)(A) of this subsection by any levy reduction funds as defined in subsection (7) of this section that are to be allocated to the district for the current school year;
(C) Divide the result of (b)(ii)(B) of this subsection by the district's levy base; and
(D) Take the greater of zero or the percentage calculated in (b)(ii)(C) of this subsection.

(7) "Levy reduction funds" shall mean increases in state funds from the prior school year for programs included under subsections (3) and (4) of this section: (a) That are not attributable to enrollment changes, compensation increases, or inflationary adjustments; and (b) that are or were specifically identified as levy reduction funds in the appropriations act. If levy reduction funds are dependent on formula factors which would not be finalized until after the start of the current school year, the superintendent of public instruction shall estimate the total amount of levy reduction funds by using prior school year data in place of current school year data. Levy reduction funds shall not include moneys received by school districts from cities or counties.

(d) "Initiative 732 base" means the prior year's state allocation for annual salary cost-of-living increases for district employees in the state-funded salary base as it would have been calculated under chapter 4, Laws of 2001, if each annual cost-of-living increase allocation had been provided in previous years and in each subsequent year.

(9) Funds collected from transportation vehicle fund tax levies shall not be subject to the levy limitations in this section.

(10) The superintendent of public instruction shall develop rules and inform school districts of the pertinent data necessary to carry out the provisions of this section.

(11) For calendar year 2009, the office of the superintendent of public instruction shall recalculate school district levy authority to reflect levy rates certified by school districts for calendar year 2009.

The legislature finds that significant opportunities exist to modify programs that provide for management and protection of the state's natural resources, including the state's forests, fish, and wildlife, in order to streamline regulatory processes and achieve program efficiencies while at the same time increasing the sustainability of program funding and maintaining current levels of natural resource protection. The legislature intends to update provisions relating to natural resource management and regulatory programs including the hydraulic project approval program, forest
practices act, and state environmental policy act, in order to achieve these opportunities.

of this section, the department may not proceed with permit review until all fees are paid in full as required in section 103 of this act.

(7) (a) Protection of fish life is the only ground upon which approval of a permit may be denied or conditioned. Approval of a permit may not be unreasonably withheld or unreasonably conditioned.

(b) Except as provided in this subsection and subsections (((4)), ((5)), and (12)) (12) through (14) and (16) of this section, the department has forty-five calendar days upon receipt of a complete application to grant or deny approval of a permit. The forty-five day requirement is suspended if:

(i) After ten working days of receipt of the application, the applicant remains unavailable or unable to arrange for a timely field evaluation of the proposed project;

(ii) The site is physically inaccessible for inspection;

(iii) The applicant requests a delay; or

(iv) The department is issuing a permit for a storm water discharge and is complying with the requirements of RCW 77.55.161(3)(b).

(c) Immediately upon determination that the forty-five day period is suspended under (b) of this subsection, the department shall notify the applicant in writing of the reasons for the delay.

((4)) (d) The period of forty-five calendar days may be extended if the permit is part of a multiagency permit streamlining effort and all participating permitting agencies and the permit applicant agree to an extended timeline longer than forty-five calendar days.

((4)) (8) If the department denies approval of a permit, the department shall provide the applicant a written statement of the specific reasons why and how the proposed project would adversely affect fish life.

((4)) (11) A permittee may request modification of a permit due to changed conditions. The request must be processed within forty-five calendar days of receipt of the written request and payment of applicable fees under section 103 of this act. A decision by the department is appealable as provided in subsection ((4)) (8) of this section. For a hydraulic project((s)) that divert((s)) water for agricultural irrigation or stock watering purposes, ((4)) when the hydraulic project or other work is associated with streambank stabilization to protect farm and agricultural land as defined in RCW 84.34.020, the burden is on the permittee to show that changed conditions warrant the requested modification and that such a modification will not impair fish life.

((4)) (12)(a) The department, the county legislative authority, or the governor may declare and continue an emergency. If the county legislative authority declares an emergency under this subsection, it shall immediately notify the department. A declared state of emergency by the governor under RCW 43.06.010 shall constitute a declaration under this subsection.

(b) The department, through its authorized representatives, shall issue immediately, upon request, ((oral)) verbal approval for a stream crossing, or work to remove any obstructions, repair existing structures, restore streambanks, protect fish life, or protect property threatened by the stream or a change in the stream flow without the necessity of obtaining a written permit prior to commencing work. Conditions of the emergency ((oral)) verbal permit must be ((established by the department)) reduced to writing within thirty days and complied with as provided for in this chapter.

((14)) (14) The department or the county legislative authority may determine an imminent danger exists. The county legislative authority shall notify the department, in writing, if it determines that an imminent danger exists. In cases of imminent danger, the department shall issue an expedited written permit, upon request, for work to remove any obstructions, repair existing structures, restore banks, protect fish resources, or protect property. Expedited permit requests require a complete written application as provided in subsection (2) of this section and must be issued within fifteen calendar days of the receipt of a complete written application. Approval of an expedited permit is valid for up to sixty days from the date of issuance. The department may not require the provisions of the state environmental policy act, chapter 43.21C RCW, to be met as a condition of issuing a permit under this subsection.

((15)) (15)(a) For any property, except for property located on a marine shoreline, that has experienced at least two consecutive years of flooding or erosion that has damaged or has threatened to damage a major structure, water supply system, septic system, or access to any road or highway, the county legislative authority may determine that a chronic danger exists. The county legislative authority shall notify the department, in writing, when it determines that a chronic danger exists. In cases of chronic danger, the department shall issue a permit, upon request, for work necessary to abate the chronic danger by removing any obstructions, repairing existing structures, restoring
banks, restoring road or highway access, protecting fish resources, or protecting property. Permit requests must be made and processed in accordance with subsections (2) and (3) of this section.

(b) Any projects proposed to address a chronic danger identified under (a) of this subsection that satisfies the project description identified in RCW 77.55.181(1)(a)(ii) are not subject to the provisions of the state environmental policy act, chapter 43.21C RCW. However, the project is subject to the review process established in RCW 77.55.181(3) as if it were a fish habitat improvement project.

NEW SECTION. Sec. 103. A new section is added to chapter 77.55 RCW to read as follows:

(1) The department shall charge an application fee of one hundred fifty dollars for a hydraulic project permit or permit modification issued under RCW 77.55.021 where the project is located at or below the ordinary high water line. The application fee established under this subsection may not be charged after June 30, 2017.

(2) The following hydraulic projects are exempt from all fees listed under this section:

(a) Hydraulic projects approved under applicant-funded contracts with the department for the pay of costs of processing those projects;
(b) If sections 201 through 203 of this act are enacted into law by June 30, 2012, forest practices hydraulic projects;
(c) Pamphlet hydraulic projects;
(d) Mineral prospecting and mining activities; and
(e) Hydraulic projects occurring on farm and agricultural lands, as that term is defined in RCW 84.34.020.

(3) All fees collected under this section must be deposited in the hydraulic project approval account created in section 104 of this act.

(4) The fee provisions contained in this section are prospective only. The department of fish and wildlife may not charge fees for hydraulic project permits issued under this title prior to the effective date of this section.

(5) This section expires June 30, 2017.

NEW SECTION. Sec. 104. A new section is added to chapter 77.55 RCW to read as follows:

(2) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the hydraulic project approval account may be spent only after appropriation.

(3) Expenditures from the hydraulic project approval account may be used only to fund department activities relating to implementing and operating the hydraulic project approval program.

Sec. 105. RCW 77.55.151 and 2005 c 146 s 502 are each amended to read as follows:

(1) For a marina or marine terminal in existence on June 6, 1996, or a marina or marine terminal that has received a permit for its initial construction, a renewable, five-year permit shall be issued, upon request, for regular maintenance activities of the marina or marine terminal.

(2) For the purposes of this section, regular maintenance activities are only those activities necessary to restore the marina or marine terminal to the conditions approved in the initial permit. These activities may include, but are not limited to, dredging, piling replacement, and float replacement.

(3) Upon construction of a new marina or marine terminal that has received a permit, a renewable, five-year permit shall be issued, upon request, for regular maintenance activities of the marina or marine terminal.
PART TWO
Hydraulic Project

Approval and Forest Practices Integration

NEW SECTION. Sec. 201. A new section is added to chapter 77.55 RCW to read as follows:

(1) The requirements of this chapter do not apply to any forest practices hydraulic project, or to any activities that are associated with such a project, upon incorporation of fish protection standards adopted under this chapter into the forest practices rules and approval of technical guidance as required under RCW 76.09.040, at which time these projects are regulated under chapter 76.09 RCW.

(2) The department must continue to conduct regulatory and enforcement activities under this chapter for forest practices hydraulic projects until the forest practices board incorporates fish protection standards adopted under this chapter into the forest practices rules and approves technical guidance as required under RCW 76.09.040.

(3) By December 31, 2013, the department shall adopt rules establishing the procedures for the concurrence review process consistent with section 202 of this act. The concurrence review process must allow the department up to thirty days to review forest practices hydraulic projects meeting the criteria under section 202(2)(a) and (b) of this act for consistency with fish protection standards.

(4) The department shall notify the department of natural resources prior to beginning a rule-making process that may affect activities regulated under chapter 76.09 RCW.

(5) The department shall act consistent with appendix M of the forest and fish report, as the term "forests and fish report" is defined in RCW 76.09.020, when modifying fish protection rules that may affect activities regulated under chapter 76.09 RCW.

(6) The department may review and provide comments on any forest practices application. The department shall review, and either verify that the review has occurred or comment on, forest practices applications that include a forest practices hydraulic project involving fish bearing waters or shorelines of the state, as that term is defined in RCW 90.58.030. Prior to commenting and whenever reasonably practicable, the department shall communicate with the applicant regarding the substance of the project.

(7) The department shall participate in effectiveness monitoring for forest practices hydraulic projects through its role in the review processes provided under WAC 222-08-160 as it existed on the effective date of this section.

NEW SECTION. Sec. 202. A new section is added to chapter 76.09 RCW to read as follows:

(1) The department may request information and technical assistance from the department of fish and wildlife regarding any forest practices hydraulic project involving one or more forest practices hydraulic projects, as follow:

(a) After receiving an application under RCW 76.09.050 that includes a forest practices hydraulic project involving one or more water crossing structures meeting the criteria of (b) of this subsection, the department shall provide all necessary information provided by the applicant to the department of fish and wildlife for concurrence review consistent with section 201(3) of this act. The required information must be transmitted by the department to the department of fish and wildlife as soon as practicable following the receipt of a complete application.

(b) The concurrence review process applies only to:

(i) Culvert installation or replacement, and repair at or below the bankfull width, as that term is defined in WAC 222-16-010 on the effective date of this section, in fish bearing rivers and streams that exceed five percent gradient;

(ii) Bridge construction or replacement, and repair at or below the bankfull width, of fish bearing unconfined streams; or

(iii) Fill within the flood level - 100 year, as that term is defined in WAC 222-16-010, as it existed on the effective date of this section, of fish bearing unconfined streams.

Sec. 203. RCW 76.09.040 and 2010 c 188 s 4 are each amended to read as follows:

(1)(a) Where necessary to accomplish the purposes and policies stated in RCW 76.09.010, and to implement the provisions of this chapter, the board shall adopt forest practices rules pursuant to chapter 34.05 RCW and in accordance with the procedures enumerated in this section that:

(i) Establish minimum standards for forest practices;

(ii) Provide procedures for the voluntary development of resource management plans which may be adopted as an alternative to the minimum standards in (a)(i) of this subsection if the plan is consistent with the purposes and policies stated in RCW 76.09.010 and the plan meets or exceeds the objectives of the minimum standards;

(iii) Set forth necessary administrative provisions;

(iv) Establish procedures for the collection and administration of forest practice fees as set forth by this chapter; and

(v) Allow for the development of watershed analyses.

(b) Forest practices rules pertaining to water quality protection shall be adopted by the board after reaching agreement with the director of the department of ecology or the director of the department of ecology or the director's designee on the board with respect to its proposed rules relating to water quality protection.

NEW SECTION. Sec. 204. A new section is added to chapter 77.55 RCW to read as follows:

(a) The board shall adopt proposed forest practices rules consistent with this section and chapter 34.05 RCW. In addition to any forest practices rules relating to water quality protection proposed by the board, the department of ecology may submit to the board proposed forest practices rules relating to water quality protection.

(b)(i) Prior to initiating the rule-making process, the proposed rules shall be submitted for review and comments to the department of fish and wildlife and to the counties of the state. After receipt of the proposed forest practices rules, the department of fish and wildlife and the counties of the state shall have thirty days in which to review and submit comments to the board, and to the department of ecology with respect to its proposed rules relating to water quality protection.

(ii) After the expiration of the thirty day period, the board (and the department of ecology) shall hold one or more hearings on the proposed rules pursuant to chapter 34.05 RCW. Any county representative may propose specific forest practices rules relating to problems existing within the county at the hearings.

(c) Forest practices rules shall be administered and enforced by either the department or the local governmental entity as provided in this chapter. Such rules shall be adopted and administered so as to give consideration to all purposes and policies set forth in RCW 76.09.010.

NEW SECTION. Sec. 205. A new section is added to chapter 76.09 RCW to read as follows:

(a) The board shall incorporate into the forest practices rules those fish protection standards in the rules adopted under chapter 77.55 RCW, as the rules existed on the effective date of this section, that are applicable to activities regulated under the forest practices rules. If fish protection standards are incorporated by reference, the board shall minimize administrative processes by utilizing the exception from the administrative procedures controlling significant legislative rules under RCW 34.05.328(5)(b)(iii) for the incorporation of rules adopted by other state agencies.

(b) Thereafter, the board shall incorporate into the forest practices rules any changes to those fish protection standards in the rules adopted under chapter 77.55 RCW that are: (i) Adopted consistent with section 201 of this act; and (ii) applicable to activities regulated under the forest practices rules. If fish protection standards are
incorporated by reference, the board shall minimize administrative processes by utilizing the exception from the administrative procedures controlling significant legislative rules under RCW 34.05.328(5)(b)(iii) for the incorporation of rules adopted by other state agencies.

(c) The board shall establish and maintain technical guidance in the forest practices board manual, as provided under WAC 222-12-090 as it existed on the effective date of this section, to assist with implementation of the standards incorporated into the forest practices rules under this section. The guidance must include best management practices and standard techniques to ensure fish protection.

(d) The board must complete the requirements of (a) of this subsection and establish initial technical guidance under (c) of this subsection by December 31, 2013.

(4)(a) The board shall establish by rule a program for the acquisition of riparian open space and critical habitat for threatened or endangered species as designated by the board. Acquisition must be a conservation easement. Lands eligible for acquisition are forest lands within unconfined channel migration zones or forest lands containing critical habitat for threatened or endangered species as designated by the board. Once acquired, these lands may be held and managed by the department, transferred to another state agency, transferred to an appropriate local government agency, or transferred to a private nonprofit nature conservancy corporation, as defined in RCW 64.04.130, in fee or transfer of management obligation. The board shall adopt rules governing the acquisition by the state or donation to the state of such interest in lands including the right of refusal if the lands are subject to unacceptable liabilities. The rules shall include definitions of qualifying lands, priorities for acquisition, and provide for the opportunity to transfer such lands with limited warranties and with a description of boundaries that does not require full surveys where the cost of securing the surveys would be unreasonable in relation to the value of the lands conveyed. The rules shall provide for the management of the lands for ecological protection or fisheries enhancement. For the purposes of conservation easements entered into under this section, the following apply:

(i) For conveyances of a conservation easement in which the landowner conveys an interest in the trees only, the compensation must include the timber value component, as determined by the cruised volume of any timber located within the channel migration zone or critical habitat for threatened or endangered species as designated by the board, multiplied by the appropriate quality code stumpage value for timber of the same species shown on the appropriate table used for timber harvest excise tax purposes under RCW 84.33.091;

(ii) For conveyances of a conservation easement in which the landowner conveys interests in both land and trees, the compensation must include the timber value component in (a)(i) of this subsection plus such portion of the land value component as determined just and equitable by the department. The land value component must be the acreage of qualifying channel migration zone or critical habitat for threatened or endangered species as designated by the board, to be conveyed, multiplied by the average per acre value of all commercial forest land in western Washington or the average for eastern Washington, whichever average is applicable to the qualifying lands. The department must determine the western and eastern Washington averages based on the land value tables established by RCW 84.33.140 and revised annually by the department of revenue.

(b) Subject to appropriations sufficient to cover the cost of such an acquisition program and the related costs of administering the program, the department must establish a conservation easement in land that an owner tenders for purchase; provided that such lands have been taxed as forest lands and are located within an unconfined channel migration zone or contain critical habitat for threatened or endangered species as designated by the board. Lands acquired under this section shall become riparian or habitat open space. These acquisitions shall not be deemed to trigger the compensating tax of chapters 84.33 and 84.34 RCW.

(c) Instead of offering to sell interests in qualifying lands, owners may elect to donate the interests to the state.

(d) Any acquired interest in qualifying lands by the state under this section shall be managed as riparian open space or critical habitat.

NEW SECTION. Sec. 204. A new section is added to chapter 77.55 RCW to read as follows:

(1) The department and the department of natural resources shall enter into and maintain a memorandum of agreement between the two agencies that describes how to implement integration of hydraulic project approvals into forest practices applications consistent with this act.

(2) The initial memorandum of agreement required under subsection (1) of this section between the two departments must be executed by December 31, 2012. The memorandum of agreement may be amended as agreed to by the two departments.

(3) The department and the department of natural resources shall enter into and maintain an interagency contract to ensure implementation of this act and the memorandum of agreement between the two agencies required under subsection (1) of this section. The contract must include funding provisions for the department's review of forest practices hydraulic projects.

Sec. 205. RCW 76.09.050 and 2011 c 207 s 1 are each amended to read as follows:

(1) The board shall establish by rule which forest practices shall be included within each of the following classes:

Class I: Minimal or specific forest practices that have no direct potential for damaging a public resource and that may be conducted without submitting an application or a notification except that when the regulating authority is transferred to a local governmental entity, those Class I forest practices that involve timber harvesting or road construction within "urban growth areas," designated pursuant to chapter 36.70A RCW, are processed as Class IV forest practices, but are not subject to environmental review under chapter 43.21C RCW;

Class II: Forest practices which have a less than ordinary potential for damaging a public resource that may be conducted without submitting an application and may begin five calendar days, or such lesser time as the department may determine, after written notification by the operator, in the manner, content, and form as prescribed by the department, is received by the department.

However, the work may not begin until all forest practice fees required under RCW 76.09.065 have been received by the department. Class II shall not include forest practices:

(a) On forest lands that are being converted to another use;

(b) (Which require approvals under the provisions of the hydraulics act, RCW 77.55.021;)

(c) Within "shorelines of the state" as defined in RCW 90.58.030;

(d) (c) Excluded from Class II by the board; or

(e)(d) Including timber harvesting or road construction within "urban growth areas," designated pursuant to chapter 36.70A RCW, which are Class IV;

Class III: Forest practices other than those contained in Class I, II, or IV. A Class III application must be approved or disapproved by the department according to the following timelines; however, the applicant may not begin work on the forest practice until all forest practice fees required under RCW 76.09.065 have been received by the department:

(a) Within thirty calendar days from the date the department receives the application; however, the applicant may not begin work on that forest practice until all forest practice fees required under RCW 76.09.065 have been received by the department)

(b) Within thirty days of the completion of the concurrence
review by the department of fish and wildlife if the application is subject to concurrence review by the department of fish and wildlife under section 202 of this act:

Class IV: Forest practices other than those contained in Class I or II:

(a) On forest lands that are being converted to another use;
(b) On lands which, pursuant to RCW 76.09.070 as now or hereafter amended, are not to be reforested because of the likelihood of future conversion to urban development;
(c) That involve timber harvesting or road construction on forest lands that are contained within “urban growth areas,” designated pursuant to chapter 36.70A RCW, except where the forest landowner provides:
   (i) A written statement of intent signed by the forest landowner not to convert to a use other than commercial forest product operations for ten years, accompanied by either a written forest management plan acceptable to the department or documentation that the land is enrolled under the provisions of chapter 84.33 or 84.34 RCW; or
   (ii) A conversion option harvest plan approved by the local governmental entity and submitted to the department as part of the application; and/or
   (d) Which have a potential for a substantial impact on the environment and therefore require an evaluation by the department as to whether or not a detailed statement must be prepared pursuant to the state environmental policy act, chapter 43.21C RCW. Such evaluation shall be made within ((ten days from the date the department receives the application; PROVIDED, That)) the timelines established in RCW 43.21C 037; however, nothing herein shall be construed to prevent any local or regional governmental entity from determining that a detailed statement must be prepared for an action pursuant to a Class IV forest practice taken by that governmental entity concerning the land on which forest practices will be conducted. Unless the application is subject to concurrence review by the department of fish and wildlife under section 202 of this act, a Class IV application must be approved or disapproved by the department within thirty calendar days from the date the department receives the application((unless the department determines that a detailed statement must be made, in which case the application must be approved or disapproved by the department within sixty calendar days from the date the department receives the application, unless the commissioner of public lands, through the promulgation of a formal order, determines that the process cannot be completed within such period)). If a Class IV application is subject to concurrence review by the department of fish and wildlife under section 202 of this act, then the application must be approved or disapproved by the department within thirty calendar days from the completion of the concurrence review by the department of fish and wildlife. However, the department may extend the timelines applicable to the approval or disapproval of the application an additional thirty calendar days if the department determines that a detailed statement must be made, unless the commissioner of public lands, through the promulgation of a formal order, determines that the process cannot be completed within such a period. However, the applicant may not begin work on that forest practice until all forest practice fees required under RCW 76.09.065 have been received by the department.

Forest practices under Classes I, II, and III are exempt from the requirements for preparation of a detailed statement under the state environmental policy act.

(2) Except for those forest practices being regulated by local governmental entities as provided elsewhere in this chapter, no Class II, Class III, or Class IV forest practice shall be commenced or continued after January 1, 1975, unless the department has received a notification with regard to a Class II forest practice or approved an application with regard to a Class III or Class IV forest practice containing all information required by RCW 76.09.060 as now or hereafter amended. However, in the event forest practices regulations necessary for the scheduled implementation of this chapter and RCW 90.48.420 have not been adopted in time to meet such schedules, the department shall have the authority to regulate forest practices and approve applications on such terms and conditions consistent with this chapter and RCW 90.48.420 and the purposes and policies of RCW 76.09.010 until applicable forest practices regulations are in effect.

(3) Except for those forest practices being regulated by local governmental entities as provided elsewhere in this chapter, if a notification or application is delivered in person to the department by the operator or the operator’s agent, the department shall immediately provide a dated receipt thereof. In all other cases, the department shall immediately mail a dated receipt to the operator.

(4) Except for those forest practices being regulated by local governmental entities as provided elsewhere in this chapter, forest practices shall be conducted in accordance with the forest practices regulations, orders and directives as authorized by this chapter or the forest practices regulations, and the terms and conditions of any approved applications.

(5) Except for those forest practices being regulated by local governmental entities as provided elsewhere in this chapter, the department of natural resources shall notify the applicant in writing of either its approval of the application or its disapproval of the application and the specific manner in which the application fails to comply with the provisions of this section or with the forest practices regulations. Except as provided otherwise in this section, if the department fails to either approve or disapprove an application or any portion thereof within the applicable time limit, the application shall be deemed approved and the operation may be commenced: PROVIDED, That this provision shall not apply to applications which are neither approved nor disapproved pursuant to the provisions of subsection (7) of this section: PROVIDED, FURTHER, That if seasonal field conditions prevent the department from being able to properly evaluate the application, the department may issue an approval conditional upon further review within sixty days((provided, that the department shall have until April 1, 1975, to approve or disapprove an application involving forest practices allowed to continue to April 1, 1975, under the provisions of subsection (2) of this section)). Upon receipt of any notification or any satisfactorily completed application the department shall in any event no later than two business days after such receipt transmit a copy to the departments of ecology and fish and wildlife, and to the county, city, or town in whose jurisdiction the forest practice is to be commenced. Any comments by such agencies shall be directed to the department of natural resources.

(6) For those forest practices regulated by the board and the department, if the county, city, or town believes that an application is inconsistent with this chapter, the forest practices regulations, or any local authority consistent with RCW 76.09.240 as now or hereafter amended, it may so notify the department and the applicant, specifying its objections.

(7) For those forest practices regulated by the board and the department, the department shall not approve portions of applications to which a county, city, or town objects if:
   (a) The department receives written notice from the county, city, or town of such objections within fourteen business days from the time of transmittal of the application to the county, city, or town, or one day before the department acts on the application, whichever is later; and
   (b) The objections relate to forest lands that are being converted to another use.

The department shall either disapprove those portions of such application or appeal the county, city, or town objections to the appeals board. If the objections related to (b) of this subsection are
based on local authority consistent with RCW 76.09.240 as now or hereafter amended, the department shall disapprove the application until such time as the county, city, or town consents to its approval or such disapproval is reversed on appeal. The applicant shall be a party to all department appeals of county, city, or town objections. Unless the county, city, or town either consents or has waived its rights under this subsection, the department shall not approve portions of an application affecting such lands until the minimum time for county, city, or town objections has expired.

(8) For those forest practices regulated by the board and the department, in addition to any rights under the above paragraph, the county, city, or town may appeal any department approval of an application with respect to any lands within its jurisdiction. The appeals board may suspend the department's approval in whole or in part pending such appeal where there exists potential for immediate and material damage to a public resource.

(9) For those forest practices regulated by the board and the department, appeals under this section shall be made to the appeals board in the manner and time provided in RCW 76.09.205. In such appeals there shall be no presumption of correctness of either the county, city, or town or the department position.

(10) For those forest practices regulated by the board and the department, the department shall, within four business days notify the county, city, or town of all notifications, approvals, and disapprovals of an application affecting lands within the county, city, or town, except to the extent the county, city, or town has waived its right to such notice.

(11) For those forest practices regulated by the board and the department, a county, city, or town may waive in whole or in part its rights under this section, and may withdraw or modify any such waiver, at any time by written notice to the department.

(12) Notwithstanding subsections (2) through (5) of this section, forest practices applications or notifications are not required for exotic insect and disease control operations conducted in accordance with RCW 76.09.060(8) where eradication can reasonably be expected. Sec. 206. RCW 76.09.060 and 2007 c 480 s 11 and 2007 c 106 s 1 are each reenacted and amended to read as follows:

(1) The department shall prescribe the form and contents of the notification and application. The forest practices rules shall specify by whom and under what conditions the notification and application shall be signed or otherwise certified as acceptable. Activities conducted by the department or a contractor under the direction of the department under the provisions of RCW 76.04.660, shall be exempt from the landowner signature requirement on any forest practices application required to be filed. The application or notification shall be delivered in person to the department, sent by first-class mail to the department or electronically filed in a form defined by the department. The form for electronic filing shall be readily convertible to a paper copy, which shall be available to the public pursuant to chapter 42.56 RCW. The information required may include, but is not limited to:

(a) Name and address of the forest landowner, timber owner, and operator;
(b) Description of the proposed forest practice or practices to be conducted;
(c) Legal description and tax parcel identification numbers of the land on which the forest practices are to be conducted;
(d) Planimetric and topographic maps showing location and size of all lakes and streams and other public waters in and immediately adjacent to the operating area and showing all existing and proposed roads and major tractor roads;
(e) Description of the silvicultural, harvesting, or other forest practice methods to be used, including the type of equipment to be used and materials to be applied;
(f) For an application or notification submitted on or after the effective date of section 202 of this act that includes a forest practices hydraulic project, plans and specifications for the forest practices hydraulic project to ensure the proper protection of fish life;
(g) Proposed plan for reforestation and for any revegetation necessary to reduce erosion potential from roadsides and yarding roads, as required by the forest practices rules;
(h) Soil, geological, and hydrological data with respect to forest practices;
(i) The expected dates of commencement and completion of all forest practices specified in the application;
(j) Provisions for continuing maintenance of roads and other construction or other measures necessary to afford protection to public resources;
(k) An affirmation that the statements contained in the notification or application are true; and
(l) All necessary application or notification fees.
(2) Long range plans may be submitted to the department for review and consultation.

(3) The application for a forest practice or the notification of a forest practice is subject to the reforestation requirement of RCW 76.09.070.

(a) If the application states that any land will be or is intended to be converted:
(i) The reforestation requirements of this chapter and of the forest practices rules shall not apply if the land is in fact converted unless applicable alternatives or limitations are provided in forest practices rules issued under RCW 76.09.070;
(ii) Completion of such forest practice operations shall be deemed conversion of the lands to another use for purposes of chapters 84.33 and 84.34 RCW unless the conversion is to a use permitted under a current use tax agreement permitted under chapter 84.34 RCW;
(iii) The forest practices described in the application are subject to applicable county, city, town, and regional governmental authority permitted under RCW 76.09.240 as well as the forest practices rules.
(b) Except as provided elsewhere in this section, if the landowner harvests without an approved application or notification or the landowner does not state that any land covered by the application or notification will be or is intended to be converted, and the department or the county, city, town, or regional governmental entity becomes aware of conversion activities to a use other than commercial timber operations, as that term is defined in RCW 76.09.020, then the department shall send to the department of ecology and the appropriate county, city, town, and regional governmental entities the following documents:
(i) A notice of a conversion to nonforestry use;
(ii) A copy of the applicable forest practices application or notification, if any; and
(iii) Copies of any applicable outstanding final orders or decisions issued by the department related to the forest practices application or notification.
(c) Failure to comply with the reforestation requirements contained in any final order or decision shall constitute a conversion of designated under the provisions of RCW 84.33.140, and a change of use under the provisions of RCW 84.34.080, and, if applicable, shall subject such lands to the payments and/or penalties resulting from such removals or changes.
(d) Conversion to a use other than commercial forest product operations within six years after approval of the forest practices application or notification without the consent of the county, city, or town shall constitute a violation of each of the county, municipal city, town, and regional authorities to which the forest practice operations would have been subject if the application had stated an intent to convert.
(e) Land that is the subject of a notice of conversion to a nonforestry use produced by the department and sent to the department of ecology and a local government under this subsection.
is subject to the development prohibition and conditions provided in RCW 76.09.460.

(f) Landowners who have not stated an intent to convert the land covered by an application or notification and who decide to convert the land to a nonforestry use within six years of receiving an approved application or notification must so do in a manner consistent with RCW 76.09.470.

(g) The application or notification must include a statement requiring an acknowledgment by the forest landowner of his or her intent with respect to conversion and acknowledging that he or she is familiar with the effects of this subsection.

(4) Whenever an approved application authorizes a forest practice which, because of soil condition, proximity to a water course or other unusual factor, has a potential for causing material damage to a public resource, as determined by the department, the applicant shall, when requested on the approved application, notify the department two days before the commencement of actual operations.

(5) Before the operator commences any forest practice in a manner or to an extent significantly different from that described in a previously approved application or notification, there shall be submitted to the department a new application or notification form in the manner set forth in this section.

(6)(a) Except as provided in RCW 76.09.350(4), the notification to or the approval given by the department to conduct a forest practice shall be effective for a term of (((three))) three years from the date of approval or notification (((and shall not be renewed unless a new application is filed and approved or a new notification has been filed))).

(b) A notification or application may be renewed for an additional three-year term by the filing and approval of a notification or application, as applicable, prior to the expiration of the original application or notification. A renewal application or notification is subject to the forest practices rules in effect at the time the renewal application or notification is filed. Nothing in this section precludes the applicant from applying for a new application or notification after the renewal period has lapsed.

(c) At the option of the applicant, an application or notification may be submitted to cover a single forest practice or a number of forest practices within reasonable geographic or political boundaries as specified by the department. An application or notification that covers more than one forest practice may have an effective term of more than (((three))) three years.

(d) The board shall adopt rules that establish standards and procedures for approving an application or notification that has an effective term of more than (((three))) three years. Such rules shall include extended time periods for application or notification approval or disapproval. ((On an approved application with a term of more than two years, the applicant shall inform the department before commencing operations)) The department may require the applicant to provide advance notice before commencing operations on an approved application or notification.

(7) Notwithstanding any other provision of this section, no prior application or notification shall be required for any emergency forest practice necessitated by fire, flood, windstorm, earthquake, or other emergency as defined by the board, but the operator shall submit an application or notification, whichever is applicable, to the department within forty-eight hours after commencement of such practice or as required by local regulations.

(8) Forest practices applications or notifications are not required for forest practices conducted to control exotic forest insect or disease outbreaks, when conducted by or under the direction of the department of agriculture in carrying out an order of the governor or director of the department of agriculture to implement pest control measures as authorized under chapter 17.24 RCW, and are not required when conducted by or under the direction of the department in carrying out emergency measures under a forest health emergency declaration by the commissioner of public lands as provided in RCW 76.06.130.

(a) For the purposes of this subsection, exotic forest insect or disease has the same meaning as defined in RCW 76.06.020.

(b) In order to minimize adverse impacts to public resources, control measures must be based on integrated pest management, as defined in RCW 17.15.010, and must follow forest practices rules relating to road construction and maintenance, timber harvest, and forest chemicals, to the extent possible without compromising control objectives.

(c) Agencies conducting or directing control efforts must provide advance notice to the appropriate regulatory staff of the department of the operations that would be subject to exemption from forest practices application or notification requirements.

(d) When the appropriate regulatory staff of the department are notified under (c) of this subsection, they must consult with the landowner, interested agencies, and affected tribes, and assist the notifying agencies in the development of integrated pest management plans that comply with forest practices rules as required under (b) of this subsection.

(e) Nothing under this subsection relieves agencies conducting or directing control efforts from requirements of the federal clean water act as administered by the department of ecology under RCW 90.48.260.

(f) Forest lands where trees have been cut as part of an exotic forest insect or disease control effort under this subsection are subject to reforestation requirements under RCW 76.09.070.

(g) The exemption from obtaining approved forest practices applications or notifications does not apply to forest practices conducted after the governor, the director of the department of agriculture, or the commissioner of public lands have declared that an emergency no longer exists because control objectives have been met, that there is no longer an imminent threat, or that there is no longer a good likelihood of control.

Sec. 207. RCW 76.09.150 and 2000 c 11 s 7 are each amended to read as follows:

(1) The department shall make inspections of forest lands, before, during, and after the conducting of forest practices as necessary for the purpose of ensuring compliance with this chapter, including forest practices rules incorporated under RCW 76.09.040(3), and to ensure that no material damage occurs to the natural resources of this state as a result of forest practices.

(2) Any duly authorized representative of the department shall have the right to enter upon forest land at any reasonable time to enforce the provisions of this chapter and the forest practices rules.

(3) The department or the department of ecology may apply for an administrative inspection warrant to either Thurston county superior court, or the superior court in the county in which the property is located. An administrative inspection warrant may be issued where:

(a) The department has attempted an inspection of forest lands under this chapter to ensure compliance with this chapter and the forest practices rules or to ensure that no potential or actual material damage occurs to the natural resources of this state, and access to all or part of the forest lands has been actually or constructively denied; or

(b) The department has reasonable cause to believe that a violation of this chapter or of rules adopted under this chapter is occurring or has occurred.

(4) In connection with any watershed analysis, any review of a pending application by an identification team appointed by the department, any compliance studies, any effectiveness monitoring, or other research that has been agreed to by a landowner, the department may invite representatives of other agencies, tribes, and interest groups to accompany a department representative and, at the
landowner's election, the landowner, on any such inspections. Reasonable efforts shall be made by the department to notify the landowner of the persons being invited onto the property and the purposes for which they are being invited.

NEW SECTION. Sec. 208. A new section is added to chapter 43.30 RCW to read as follows:

(1) By December 31, 2013, the department shall make examples of complete, high quality forest practices applications and the resulting approvals readily available to the public on its internet site, as well as the internet site of the office of regulatory assistance established in RCW 43.42.010. The department must maximize assistance to the public and interested parties by seeking to make readily available examples from forest practices that generate significant permitting activity or frequent questions.

(2) The department must regularly review and update the examples required to be made available on the internet under subsection (1) of this section.

(3) The department must obtain the written permission of an applicant before making publicly available an applicant’s application or approval under this section and must work cooperatively with the applicant to ensure that no personal or proprietary information is made available.

Sec. 209. RCW 76.09.065 and 2000 c 11 s 5 are each amended to read as follows:

(1) (Effective July 1, 1997.) An applicant shall pay an application fee for (and a recording fee), if applicable, at the time an application or notification is submitted to the department or to the local governmental entity as provided in this chapter.

(2) (For applications and notifications submitted to the department, the application fee) (a) If sections 201 through 203 and 206 of this act are not enacted into law by June 30, 2012, then the fee for applications and notifications submitted to the department shall be fifty dollars for class II, III, and IV forest practices applications or notifications relating to the commercial harvest of timber. However, the fee shall be five hundred dollars for class IV forest practices applications on lands being converted to other uses or on lands which are not to be reforested because of the likelihood of future conversion to urban development or on lands that are contained within “urban growth areas,” designated pursuant to chapter 36.70A RCW, except the fee shall be fifty dollars on those lands where the forest landowner provides:

((A))) ((a)) A written statement of intent signed by the forest landowner not to convert to a use other than commercial forest product operations for ten years, accompanied by either a written forest management plan acceptable to the department or documentation that the land is enrolled under the provisions of chapter 84.33 RCW; or

((B))) ((b)) A conversion option harvest plan approved by the local governmental entity and submitted to the department as part of the forest practices application.

(b) If sections 201 through 203 and 206 of this act are enacted into law by June 30, 2012, then:

(A) The fee for applications and notifications relating to the commercial harvest of timber submitted to the department shall be one hundred fifty dollars for class II applications and notifications, class III applications, and class IV forest practices that have a potential for a substantial impact on the environment and therefore require an evaluation by the department to whether or not a detailed statement must be prepared pursuant to the state environmental policy act, chapter 43.21C RCW, when the application or notification is submitted by a landowner who does not satisfy the criteria for a reduced application fee as provided in (b)(i)(A) of this subsection (2); and

(C) The fee shall be one thousand five hundred dollars for class IV forest practices applications on lands being converted to other uses or on lands that are not to be reforested because of the likelihood of future conversion to urban development or on lands that are contained within urban growth areas, designated pursuant to chapter 36.70A RCW, except the fee shall be the same as for a class III forest practices application where the forest landowner provides:

(I) A written statement of intent signed by the forest landowner not to convert to a use other than commercial forest product operations for ten years, accompanied by either a written forest management plan acceptable to the department or documentation that the land is enrolled under the provisions of chapter 84.33 RCW;

(II) A conversion option harvest plan approved by the local governmental entity and submitted to the department as part of the forest practices application.

(ii) If the board has not incorporated fish protection standards adopted under chapter 77.55 RCW into the forest practices rules and approved technical guidance as required under RCW 76.09.040 by December 31, 2013, the fee for applications and notifications submitted to the department shall be as provided under (a) of this subsection the rules are adopted and technical guidance approved.

(3) The forest practices application account is created in the state treasury. Moneys in the account may be spent only after appropriation. All money collected from fees under ((this)) subsection (2) of this section shall be deposited in the (state general fund) forest practices application account for the purposes of implementing this chapter, chapter 76.13 RCW, and Title 222 WAC.

((A))) (4) For applications submitted to ((this)) a local governmental entity as provided in this chapter, the fee shall be ((five hundred dollars for class IV forest practices on lands being converted to other uses or on lands that are contained within "urban growth areas," designated pursuant to chapter 36.70A RCW, except as otherwise provided in this section, unless a different fee is otherwise provided)) determined, collected, and retained by the local governmental entity.

((B))) (4) Recording fees shall be as provided in chapter 36.18 RCW.

(5) An application fee under subsection (2) of this section shall be refunded or credited to the applicant if either the application or notification is disapproved by the department or the application or notification is withdrawn by the applicant due to restrictions imposed by the department.

Sec. 210. RCW 76.09.470 and 2007 c 106 s 3 are each amended to read as follows:

(1) If a landowner who did not state an intent to convert his or her land to a nonforestry use decides to convert his or her land to a nonforestry use within six years of receiving an approved forest practices application or notification under this chapter, the landowner must:

(a) Stop all forest practices activities on the parcels subject to the proposed land use conversion to a nonforestry use;

(b) Contact the department of ecology and the applicable county, city, town, or regional governmental entity to begin the permitting process; and

(c) Notify the department (and), withdraw any applicable applications or notifications (or request), and submit a new application for the conversion. The fee for a new application for conversion under this subsection (1)(c) is the difference between the
applicable fee for the new application under RCW 76.09.065 and the fee previously paid for the original application or notification, which must be deposited in the forest practices application account created in RCW 76.09.065.

(2) Upon being contacted by a landowner under this section, the county, city, town, or regional governmental entity must:
   (a) Notify the department and request from the department the status of any applicable forest practices applications, notifications, or final orders or decisions; and
   (b) Complete the following activities:
      (i) Require that the landowner be in full compliance with chapter 43.21C RCW, if applicable;
      (ii) Receive notification from the department that the landowner has resolved any outstanding final orders or decisions issued by the department; and
      (iii) Make a determination as to whether or not the condition of the land in question is in full compliance with local ordinances and regulations. If full compliance is not found, a mitigation plan to address violations of local ordinances or regulations must be required for the parcel in question by the county, city, town, or regional governmental entity. Required mitigation plans must be prepared by the landowner and approved by the county, city, town, or regional governmental entity. Once approved, the mitigation plan must be implemented by the landowner. Mitigation measures that may be required include, but are not limited to, revegetation requirements to plant and maintain trees of sufficient maturity and appropriate species composition to restore critical area and buffer function or to be in compliance with applicable local government regulations.

Sec. 211. RCW 76.09.030 and 2008 c 46 s 1 are each amended to read as follows:

(1) There is hereby created the forest practices board of the state of Washington as an agency of state government consisting of members as follows:
   (a) The commissioner of public lands or the commissioner's designee;
   (b) The director of the department of (community, trade, and economic development) commerce or the director's designee;
   (c) The director of the department of agriculture or the director's designee;
   (d) The director of the department of ecology or the director's designee;
   (e) The director of the department of fish and wildlife or the director's designee;
   (f) An elected member of a county legislative authority appointed by the governor (Provided, That such). However, the county member's service on the board shall be conditioned on the member's continued service as an elected county official;
   (g) One member representing a timber products union, appointed by the governor from a list of three names submitted by a timber labor coalition affiliated with a statewide labor organization that represents a majority of the timber product unions in the state; and
   (h) Six members of the general public appointed by the governor, one of whom shall be a small forest landowner who actively manages his or her land, and one of whom shall be an independent logging contractor.

(2) (The director of the department of fish and wildlife's service on the board may be terminated two years after August 18, 1999, if the legislature finds that after two years the department has not made substantial progress toward integrating the laws, rules, and programs governing forest practices, chapter 76.09 RCW, and the laws, rules, and programs governing hydraulic projects, chapter 77.55 RCW. Such a finding shall be based solely on whether the department of fish and wildlife makes substantial progress as defined in this subsection, and will not be based on other actions taken as a member of the board. Substantial progress shall include recommendations to the legislature for closer integration of the existing rule making authorities of the board and the department of fish and wildlife, and closer integration of the forest practices and hydraulics permitting processes, including exploring the potential for a consolidated permitting process. These recommendations shall be designed to resolve problems currently associated with the existing dual regulatory and permitting processes.

—(3) The members of the initial board appointed by the governor shall be appointed so that the term of one member shall expire December 31, 1975, the term of one member shall expire December 31, 1976, the term of one member shall expire December 31, 1977, the terms of two members shall expire December 31, 1978, and the terms of two members shall expire December 31, 1979. Thereafter, each member shall be appointed for a term of four years. Vacancies on the board shall be filled in the same manner as the original appointments. Each member of the board shall continue in office until his or her successor is appointed and qualified. The commissioner of public lands or the commissioner's designee shall be the chair of the board.

((4)) (3) The board shall meet at such times and places as shall be designated by the chair or upon the written request of the majority of the board. The principal office of the board shall be at the state capital.

((5)) (4) Members of the board, except public employees and elected officials, shall be compensated in accordance with RCW 43.03.250. Each member shall be entitled to reimbursement for travel expenses incurred in the performance of their duties as provided in RCW 43.03.050 and 43.03.060.

((6)) (5) The board may employ such clerical help and staff pursuant to chapter 41.06 RCW as is necessary to carry out its duties. Sec. 212. RCW 76.09.020 and 2010 c 210 s 19 and 2010 c 188 s 6 are each reenacted and amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Adaptive management" means reliance on scientific methods to test the results of actions taken so that the management and related policy can be changed promptly and appropriately.

(2) "Appeals board" means the pollution control hearings board created by RCW 43.21B.010.

(5) "Board" means the forest practices board created in RCW 76.09.030.

(6) "Commissioner" means the commissioner of public lands.

(7) "Contiguous" means land adjoining or touching by common corner or otherwise. Land having common ownership divided by a road or other right-of-way shall be considered contiguous.

(8) "Conversion to a use other than commercial timber operation" means a bona fide conversion to an active use which is incompatible with timber growing and as may be defined by forest practices rules.

(9) "Date of receipt" has the same meaning as defined in RCW 43.21B.001.

(10) "Department" means the department of natural resources.

(11) "Ecosystem services" means the benefits that the public enjoys as a result of natural processes and biological diversity.

(13) "Fish passage barrier" means any artificial instream structure that impedes the free passage of fish.

(14) "Forest land" means all land which is capable of supporting a merchantable stand of timber and is not being actively used for a use which is incompatible with timber growing. Forest land does not include agricultural land that is or was enrolled in the conservation reserve enhancement program by contract if such agricultural land was historically used for agricultural purposes and the landowner intends to continue to use the land for agricultural purposes in the future. As it applies to the operation of the road maintenance and abandonment plan element of the forest practices rules on small forest landowners, the term "forest land" excludes:

(a) Residential home sites, which may include up to five acres; and

(b) Cropfields, orchards, vineyards, pastures, feedlots, fish pens, and the land on which appurtenances necessary to the production, preparation, or sale of crops, fruit, dairy products, fish, and livestock exist.

(15) "Forest landowner" means any person in actual control of forest land, whether such control is based either on legal or equitable title, or on any other interest entitling the holder to sell or otherwise dispose of any or all of the timber on such land in any manner. However, any lessee or other person in possession of forest land without legal or equitable title to such land shall be excluded from the definition of "forest landowner" unless such lessee or other person has the right to sell or otherwise dispose of any or all of the timber located on such forest land.

(16) "Forest practice" means any activity conducted on or directly pertaining to forest land and relating to growing, harvesting, or processing timber, including but not limited to:

(a) Road and trail construction, including forest practices hydraulic projects that include water crossing structures, and associated activities and maintenance;

(b) Harvesting, final and intermediate;

(c) Precommercial thinning;

(d) Reforestation;

(e) Fertilization;

(f) Prevention and suppression of diseases and insects;

(g) Salvage of trees; and

(h) Brush control.

"Forest practice" shall not include preparatory work such as tree marking, surveying and road flagging, and removal or harvesting of incidental vegetation from forest lands such as berries, ferns, greenery, mistletoe, herbs, mushrooms, and other products which cannot normally be expected to result in damage to forest soils, timber, or public resources.

(17) "Forest practices rules" means any rules adopted pursuant to RCW 76.09.040.

(18) "Forest road," as it applies to the operation of the road maintenance and abandonment plan element of the forest practices rules on small forest landowners, means a road or road segment that crosses land that meets the definition of forest land, but excludes residential access roads.

(19) "Forest trees" does not include hardwood trees cultivated by agricultural methods in growing cycles shorter than fifteen years if the trees were planted on land that was not in forest use immediately before the trees were planted and before the land was prepared for planting the trees. "Forest trees" includes Christmas trees, but does not include Christmas trees that are cultivated by agricultural methods, as that term is defined in RCW 84.33.035.

(20) "Forests and fish report" means the forests and fish report to the board dated April 29, 1999.

(21) "Operator" means any person engaging in forest practices except an employee with wages as his or her sole compensation.

(26) "Timber owner" means any person having all or any part of the legal interest in timber. Where such timber is subject to a contract of sale, "timber owner" shall mean the contract purchaser.

(27) "Unconfined channel migration zone" means the area within which the active channel of an unconfined stream is prone to move and where the movement would result in a potential near-term loss of riparian forest adjacent to the stream. Sizeable islands with productive timber may exist within the zone.

(28) "Unconfined stream" means generally fifth order or larger waters that experience abrupt shifts in channel location, creating a complex floodplain characterized by extensive gravel bars, disturbance species of vegetation of variable age, numerous side channels, wall- based channels, oxbow lakes, and wetland complexes. Many of these streams have dikes and levees that may temporarily or permanently restrict channel movement.

(29) "Forest practices hydraulic project" means a hydraulic project, as defined under RCW 77.55.011, that requires a forest practices application or notification under this chapter.

(30) "Fill" means the placement of earth material or aggregate for road or landing construction or other similar activities.

NEW SECTION. Sec. 213. A new section is added to chapter 43.21C RCW to read as follows:

The incorporation of fish protection standards adopted under chapter 77.55 RCW into the forest practices rules as required under RCW 76.09.040(3) is exempt from compliance with this chapter.

NEW SECTION. Sec. 214. (1) The departments of natural resources and fish and wildlife must jointly provide a report to the appropriate committees of the legislature containing findings and any recommendations relating to the regulatory integration of hydraulic projects and forest practices as provided in this act, including:

(a) Progress made in implementing the integration required under this act, including rule incorporation and development of forest practices board manual guidance;

(b) An update on and potential for permitting efficiencies in addition to the integration required under this act;

(c) The process for and outcomes from review of forest practices applications that include forest practices hydraulic projects by the department of fish and wildlife; and

(d) Compliance monitoring for forest practices hydraulic projects through the review processes provided under WAC 222-08-160 as it existed on the effective date of this section.

(2) The departments of natural resources and fish and wildlife must provide an initial report by September 1, 2014, and a second report by September 1, 2016.

NEW SECTION. Sec. 215. Sections 202 and 205 of this act take effect on the date the forest practices board incorporates fish protection standards adopted under chapter 77.55 RCW into the forest practices rules and approves technical guidance as required under RCW 76.09.040. The department of natural resources must provide written notice of the effective date of these sections to affected parties, the chief clerk of the house of representatives, the secretary of
the senate, the office of the code reviser, and others as deemed appropriate by the department of natural resources.

NEW SECTION. Sec. 216. Nothing in this act affects any rules, processes, or procedures of the department of fish and wildlife and the department of natural resources existing on the effective date of this section that provide for regulatory integration of hydraulic projects and forest practices for projects in nonfish-bearing waters.

NEW SECTION. Sec. 217. Nothing in this act authorizes the department of fish and wildlife to assume authority over approval, disapproval, conditioning, or enforcement of applications or notifications submitted under chapter 76.09 RCW.

NEW SECTION. Sec. 218. Nothing in this act affects the jurisdiction or other authority of a federally recognized Indian tribe within the boundary of its reservation or on other tribally owned lands.

NEW SECTION. Sec. 219. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

PART THREE
State Environmental Policy Act and Local Development Regulations

NEW SECTION. Sec. 301. (1) The legislature recognizes that the rule-based categorical exemption thresholds to chapter 43.21C RCW, found in WAC 197-11-800, have not been updated in recent years, and should be reviewed in light of the increased environmental protections in place under chapters 36.70A and 90.58 RCW, and other laws. It is the intent of the legislature to direct the department of ecology to conduct two phases of rule making over the next two years to increase the thresholds for these categorical exemptions.

(2) By December 31, 2012, the department of ecology shall increase the rule-based categorical exemptions to chapter 43.21C RCW found in WAC 197-11-800 and update the environmental checklist found in WAC 197-11-960. In updating the categorical exemptions, the department of ecology must:

(a) At a minimum, increase the existing maximum threshold levels for the following project types:
   (i) The construction or location of single-family residential developments;
   (ii) The construction or location of multifamily residential developments;
   (iii) The construction of an agricultural structure, other than a feed lot, that is similar to the following: A barn, a loafing shed, a farm equipment storage building, or a produce storing or packing structure;
   (iv) The construction of the following, including any associated parking areas or facilities: An office, a school, a commercial building, a recreational building, a service building, or a storage building;
   (v) Landfilling or excavation activities; and
   (vi) The installation of an electric facility, lines, equipment, or appurtenances, other than substations.

(b) Establish maximum exemption levels for action types that differ based on whether the project is proposed to occur in:
   (i) An incorporated city;
   (ii) An unincorporated area within an urban growth area;
   (iii) An unincorporated area outside of an urban growth area but within a county planning under chapter 36.70A RCW; or
   (iv) An unincorporated area within a county not planning under chapter 36.70A RCW.

(c) In updating the environmental checklist found in WAC 197-11-960, the department of ecology shall:
   (i) Improve efficiency of the environmental checklist; and
   (ii) Not include any new subjects into the scope of the checklist, including climate change and greenhouse gases.

(d) Until the completion of the rule making required under this section, a city or county may apply the highest categorical exemption levels authorized under WAC 197-11-800 to any action, regardless if the city or county with jurisdiction has exercised its authority to raise the exemption levels above the established minimums, unless the city or county with jurisdiction passes an ordinance or resolution that lowers the exemption levels to a level below the allowed maximum but not less than the default minimum levels detailed in WAC 197-11-800.

   (3)(a) By December 31, 2013, the department of ecology shall:
      (i) Update, but not decrease, the thresholds for all other project actions not specified in subsection (2) of this section;
      (ii) Propose methods for integrating the state environmental policy act process with provisions of the growth management act, chapter 36.70A RCW, including consideration of ways to revise WAC 197-11-210 through 197-11-232 to further the goals of RCW 43.21C.240; and
      (iii) Create categorical exemptions for minor code amendments for which review under chapter 43.21C RCW would not be required because they do not lessen environmental protection.

   (b) During this process, the department of ecology may also review and update the thresholds resulting from the 2012 rule-making process outlined in subsection (2) of this section.

   (4)(a) The department of ecology shall convene an advisory committee consisting of members representing, at minimum, cities, counties, business interests, environmental interests, agricultural interests, cultural resources interests, state agencies, and tribal governments to:
      (i) Assist in updating the environmental checklist and updating the thresholds for other project actions for both rule-making processes under subsections (2) and (3) of this section;
      (ii) Ensure that state agencies and other interested parties can receive notice about projects of interest through notice under chapter 43.21C RCW and means other than chapter 43.21C RCW; and
      (iii) Ensure that federally recognized tribes receive notice about projects that impact tribal interests through notice under chapter 43.21C RCW and means other than chapter 43.21C RCW.

   (b) Advisory committee members must have direct experience with the implementation or application of the state environmental policy act.

   (5) This section expires July 31, 2014.

Sec. 302. RCW 43.21C.031 and 1995 c 347 s 203 are each amended to read as follows:

(1) An environmental impact statement (the detailed statement required by RCW 43.21C.030(2)(c)) shall be prepared on proposals for legislation and other major actions having a probable significant, adverse environmental impact. The environmental impact statement may be combined with the recommendation or report on the proposal or issued as a separate document. The substantive decisions or recommendations shall be clearly identifiable in the combined document. Actions categorically exempt under RCW 43.21C.110(1)(a) and section 308 of this act do not require environmental review or the preparation of an environmental impact statement under this chapter. (In a county, city, or town planning under RCW 36.70A.040, a planned action, as provided for in subsection (2) of this section, does not require a threshold determination or the preparation of an environmental impact statement under this chapter, but is subject to environmental review and mitigation as provided in this chapter.)

(2) An environmental impact statement is required to analyze only those probable adverse environmental impacts which are
significant. Beneficial environmental impacts may be discussed. The responsible official shall consult with agencies and the public to identify such impacts and limit the scope of an environmental impact statement. The subjects listed in RCW 43.21C.030(2)(c) need not be treated as separate sections of an environmental impact statement. Discussions of significant short-term and long-term environmental impacts, significant irrevocable commitments of natural resources, significant alternatives including mitigation measures, and significant environmental impacts which cannot be mitigated should be consolidated or included, as applicable, in those sections of an environmental impact statement where the responsible official decides they logically belong.

((2)(a) For purposes of this section, a planned action means one or more types of project action that:

(i) Are designated planned actions by an ordinance or resolution adopted by a county, city, or town planning under RCW 36.70A.040;

(ii) Have had the significant impacts adequately addressed in an environmental impact statement prepared in conjunction with (A) a comprehensive plan or subarea plan adopted under chapter 36.70A RCW, or (B) a fully contained community, a master planned resort, a master planned development, or a phased project;

(iii) Are subsequent or implementing projects for the proposals listed in (a)(i) of this subsection;

(iv) Are located within an urban growth area, as defined in RCW 36.70A.030;

(v) Are not essential public facilities, as defined in RCW 36.70A.200; and

(vi) Are consistent with a comprehensive plan adopted under chapter 36.70A RCW.

(b) A county, city, or town shall limit planned actions to certain types of development or redevelopment described in the planned action ordinance, except for impacts that are specifically deferred to the project level at the time of the planned action ordinance's adoption. At least one community meeting must be held before the notice is issued for the planned action ordinance. Notice for the planned action ordinance and notice of the community meeting required by this subsection must be mailed or otherwise verifiably provided to: (i) All affected federally recognized tribal governments; and (ii) agencies with jurisdiction over the future development anticipated for the planned action. The determination of consistency, and the adequacy of any environmental review that was specifically deferred, are subject to the type of administrative appeal that the county, city, or town provides for the proposal itself consistent with RCW 36.70B.060.

(3) For a planned action ordinance that encompasses the entire jurisdictional boundary of a county, city, or town, at least one community meeting must be held before the notice is issued for the planned action ordinance. Notice for the planned action ordinance and notice of the community meeting required by this subsection must be mailed or otherwise verifiably provided to:

(a) All property owners of record within the county, city, or town;

(b) All affected federally recognized tribal governments; and

(c) All agencies with jurisdiction over the future development anticipated for the planned action.

NEW SECTION. Sec. 303. A new section is added to chapter 43.21C RCW to read as follows:

(1) For purposes of this chapter, a planned action means one or more types of development or redevelopment that meet the following criteria:

(a) Are designated as planned actions by an ordinance or resolution adopted by a county, city, or town planning under RCW 36.70A.040;

(b) Have had the significant impacts adequately addressed in an environmental impact statement under the requirements of this chapter in conjunction with, or to implement, a comprehensive plan or subarea plan adopted under chapter 36.70A RCW, or a fully contained community, a master planned resort, a master planned development, or a phased project;

(c) Have had project level significant impacts adequately addressed in an environmental impact statement unless the impacts are specifically deferred for consideration at the project level pursuant to subsection (3)(b) of this section;

(d) Are subsequent or implementing projects for the proposals listed in (b) of this subsection;

(e) Are located within an urban growth area designated pursuant to RCW 36.70A.110;

(f) Are not essential public facilities, as defined in RCW 36.70A.200, unless an essential public facility is accessory to or part of a residential, office, school, commercial, recreational, service, or industrial development that is designated a planned action under this subsection; and

(g) Are consistent with a comprehensive plan or subarea plan adopted under chapter 36.70A RCW.

(2) A county, city, or town shall define the types of development included in the planned action and may limit a planned action to:

(a) A specific geographic area that is less extensive than the jurisdictional boundaries of the county, city, or town; or

(b) A time period identified in the ordinance or resolution adopted under this subsection.

(3)(a) A county, city, or town shall determine during permit review whether a proposed project is consistent with a planned action ordinance adopted by the jurisdiction. To determine project consistency with a planned action ordinance, a county, city, or town may utilize a modified checklist pursuant to the rules adopted to implement RCW 43.21C.110, a form that is designated within the planned action ordinance, or a form contained in agency rules adopted pursuant to RCW 43.21C.120.

(b) A county, city, or town is not required to make a threshold determination and may not require additional environmental review, for a proposal that is determined to be consistent with the development or redevelopment described in the planned action ordinance, except for impacts that are specifically deferred to the project level at the time of the planned action ordinance's adoption. At least one community meeting must be held before the notice is issued for the planned action ordinance. Notice for the planned action ordinance and notice of the community meeting required by this subsection must be mailed or otherwise verifiably provided to: (i) All affected federally recognized tribal governments; and (ii) agencies with jurisdiction over the future development anticipated for the planned action. The determination of consistency, and the adequacy of any environmental review that was specifically deferred, are subject to the type of administrative appeal that the county, city, or town provides for the proposal itself consistent with RCW 36.70B.060.

(4) For a planned action ordinance that encompasses the entire jurisdictional boundary of a county, city, or town, at least one community meeting must be held before the notice is issued for the planned action ordinance. Notice for the planned action ordinance and notice of the community meeting required by this subsection must be mailed or otherwise verifiably provided to:

(a) All property owners of record within the county, city, or town;

(b) All affected federally recognized tribal governments; and

(c) All agencies with jurisdiction over the future development anticipated for the planned action.

Sec. 304. RCW 43.21C.229 and 2003 c 298 s 1 are each amended to read as follows:

(1) In order to accommodate infill development and thereby realize the goals and policies of comprehensive plans adopted according to chapter 36.70A RCW, a city or county planning under RCW 36.70A.040 is authorized by this section to establish categorical exemptions from the requirements of this chapter. An exemption adopted under this section applies even if it differs from the categorical exemptions adopted by rule of the department under RCW 43.21C.110(1)(a). An exemption may be adopted by a city or county under this section if it meets the following criteria:

(a) It categorically exempts government action related to development (which is new residential or mixed-use development) proposed to fill in an urban growth area designated according to RCW 36.70A.110, where current density and intensity of use in the area is lower than called for in the goals and policies of the applicable comprehensive plan and the development is either:

(i) Residential development;

(ii) Mixed-use development; or

(iii) Commercial development up to sixty-five thousand square feet excluding retail development;

(b) It does not exempt government action related to development that is inconsistent with the applicable comprehensive plan or would exceed the density or intensity of use called for in the goals and policies of the applicable comprehensive plan; and

(c) The local government considers the specific probable adverse environmental impacts of the proposed action and determines that
these specific impacts are adequately addressed by the development regulations or other applicable requirements of the comprehensive plan, subarea plan element of the comprehensive plan, planned action ordinance, or other local, state, or federal rules or laws; and

(d)(i) The city or county's applicable comprehensive plan was previously subjected to environmental analysis through an environmental impact statement under the requirements of this chapter prior to adoption; or

(ii) The city or county has prepared an environmental impact statement that considers the proposed use or density and intensity of use in the area proposed for an exemption under this section.

(2) Any categorical exemption adopted by a city or county under this section shall be subject to the rules of the department adopted according to RCW 43.21C.110(1)(a) that provide exceptions to the use of categorical exemptions adopted by the department.

NEW SECTION. Sec. 305. A new section is added to chapter 43.21C RCW to read as follows:

(1) A county, city, or town may recover its reasonable expenses of preparation of a nonproject environmental impact statement prepared under RCW 43.21C.229 and section 303 of this act:

(a) Through access to financial assistance under RCW 36.70A.490;

(b) With funding from private sources; and

(c) By the assessment of fees consistent with the requirements and limitations of this section.

(2)(a) A county, city, or town is authorized to assess a fee upon subsequent development that will make use of and benefit from:

(i) The analysis in an environmental impact statement prepared for the purpose of compliance with section 303 of this act regarding planned actions; or

(ii) The reduction in environmental analysis requirements resulting from the exercise of authority under RCW 43.21C.229 regarding infill development.

(b) The amount of the fee must be reasonable and proportionate to the total expenses incurred by the county, city, or town in the preparation of the environmental impact statement.

(3) A county, city, or town assessing fees under subsection (2)(a) of this section must provide for a mechanism by which project proponents may either elect to utilize the environmental review completed by the lead agency and pay the fees under subsection (1) of this section or certify that they do not want the local jurisdiction to utilize the environmental review completed as a part of a planned action and therefore not be assessed any associated fees. Project proponents who choose this option may not make use of or benefit from the up-front environmental review prepared by the local jurisdiction.

(4) Prior to the collection of fees, the county, city, or town must enact an ordinance that establishes the total amount of expenses to be recovered through fees and provides objective standards for determining the fee amount to be imposed upon each development proposal proportionate to the impacts of each development and to the benefits accruing to each development from the nonproject environmental review. The ordinance must provide (a) a procedure by which an applicant who disagrees with whether the amount of the fee is correct, reasonable, or proportionate may pay the fee with the written stipulation "paid under protest"; and (b) if the county, city, or town provides for an administrative appeal of its decision on the project for which the fees are imposed, any dispute about the amount of the fees must be resolved in the same administrative appeals process. Any disagreement about the reasonableness, proportionality, or amount of the fees imposed upon a development may not be the basis for delay in issuance of a project permit for that development.

(5) The ordinance adopted under subsection (4) of this section must make information available about the amount of the expenses designated for recovery. When such expenses have been fully recovered, the county, city, or town may no longer assess a fee under this section.

(6) Any fees collected under this section from subsequent development may be used to reimburse funding received from private sources to conduct the environmental review.

(7) The city, county, or town shall refund fees collected where a court of competent jurisdiction determines that the environmental review conducted under section 303 of this act, regarding planned actions, or under RCW 43.21C.229, regarding infill development, was not sufficient to comply with the requirements of this chapter regarding the proposed development activity for which the fees were collected. The applicant and the city, county, or town may mutually agree to a partial refund or to waive the refund in the interest of resolving any dispute regarding compliance with this chapter.

Sec. 306. RCW 43.21C.037 and 2011 c 207 s 3 are each amended to read as follows:

(1) Decisions pertaining to applications for Class I, II, and III forest practices, as defined by rule of the forest practices board under RCW 76.09.050, are not subject to the requirements of RCW 43.21C.030(2)(c) ([as now or hereafter amended]).

(2) When the applicable county, city, or town requires a license in connection with any proposal involving forest practices:

(a) On forest lands that are being converted to another use; or

(b) On lands which, pursuant to RCW 76.09.070 as now or hereafter amended, are not to be reforested because of the likelihood of future conversion to urban development, then the local government, rather than the department of natural resources, is responsible for any detailed statement required under RCW 43.21C.030(2)(c).

(3)(a) Those forest practices determined by rule of the forest practices board to have a potential for a substantial impact on the environment, and thus to be Class IV practices, require an evaluation by the department of natural resources as to whether or not a detailed statement must be prepared pursuant to this chapter.

(b) The evaluation ([shall]) required by this section must be made within ten days from the date the department receives the application unless the application is subject to concurrence review by the department of fish and wildlife under section 202 of this act. Evaluations for applications that are subject to concurrence review by the department of fish and wildlife under section 202 of this act must be made within ten days from the date the department of fish and wildlife completes the concurrent review.

(c) A Class IV forest practice application must be approved or disapproved by the department ([within thirty calendar days from the date the department receives the application, unless the department determines that a detailed statement must be made, in which case the application must be approved or disapproved by the department within sixty days from the date the department receives the application, unless the commissioner of public lands, through the promulgation of a formal order, determines that the process cannot be completed within such period]) according to the timelines established in RCW 76.09.050.

(d) This section shall not be construed to prevent any local or regional governmental entity from determining that a detailed statement must be prepared for an action regarding a Class IV forest practice taken by that governmental entity concerning the land on which forest practices will be conducted.

Sec. 307. RCW 82.02.020 and 2010 c 153 s 3 are each amended to read as follows:

Except only as expressly provided in chapters 67.28, 81.104, and 82.14 RCW, the state preempts the field of imposing retail sales and use taxes and taxes upon parimutuel wagering authorized pursuant to RCW 67.16.060, conveyances, and cigarettes, and no county, town, or other municipal subdivision shall have the right to impose taxes of that nature. Except as provided in RCW 64.34.440 and 82.02.050 through 82.02.090, no county, city, town, or other municipal corporation shall impose any tax, fee, or charge, either direct or indirect, on the construction or reconstruction of residential buildings,
commercial buildings, industrial buildings, or on any other building or building space or appurtenance thereto, or on the development, subdivision, classification, or reclassification of land. However, this section does not preclude dedications of land or easements within the proposed development or plat which the county, city, town, or other municipal corporation can demonstrate are reasonably necessary as a direct result of the proposed development or plat to which the dedication of land or easement is to apply.

This section does not prohibit voluntary agreements with counties, cities, towns, or other municipal corporations that allow a payment in lieu of a dedication of land or to mitigate a direct impact that has been identified as a consequence of a proposed development, subdivision, or plat. A local government shall not use such voluntary agreements for local off-site transportation improvements within the geographic boundaries of the area or areas covered by an adopted transportation program authorized by chapter 39.92 RCW. Any such voluntary agreement is subject to the following provisions:

(1) The payment shall be held in a reserve account and may only be expended to fund a capital improvement agreed upon by the parties to mitigate the identified, direct impact;
(2) The payment shall be expended in all cases within five years of collection; and
(3) Any payment not so expended shall be refunded with interest to be calculated from the original date the deposit was received by the county and at the same rate applied to tax refunds pursuant to RCW 84.69.100; however, if the payment is not expended within five years due to delay attributable to the developer, the payment shall be refunded without interest.

Nothing in this section limits the authority of counties, cities, or towns to implement programs consistent with RCW 36.70A.540, nor to enforce agreements made pursuant to such programs.

This section does not apply to special purpose districts formed and acting pursuant to Title 54, 57, or 87 RCW, nor is the authority conferred by these titles affected.

NEW SECTION. Sec. 308. A new section is added to chapter 43.21C RCW to read as follows:

The following nonproject actions are categorically exempt from the requirements of this chapter:

(1) Amendments to development regulations that are required to ensure consistency with an adopted comprehensive plan pursuant to RCW 36.70A.040, where the comprehensive plan was previously subjected to environmental review pursuant to this chapter and the impacts associated with the proposed regulation were specifically addressed in the prior environmental review;
(2) Amendments to development regulations that are required to ensure consistency with a shoreline master program approved pursuant to RCW 90.58.090, where the shoreline master program was previously subjected to environmental review pursuant to this chapter and the impacts associated with the proposed regulation were specifically addressed in the prior environmental review;
(3) Amendments to development regulations that, upon implementation of a project action, will provide increased environmental protection, limited to the following:
   (a) Increased protections for critical areas, such as enhanced buffers or setbacks;
   (b) Increased vegetation retention or decreased impervious surface areas in shoreline jurisdiction; and
   (c) Increased vegetation retention or decreased impervious surface areas in critical areas;
(4) Amendments to technical codes adopted by a county, city, or town to ensure consistency with minimum standards contained in state law, including the following:
   (a) Building codes required by chapter 19.27 RCW;
   (b) Energy codes required by chapter 19.27A RCW; and
   (c) Electrical codes required by chapter 19.28 RCW.

NEW SECTION. Sec. 309. A new section is added to chapter 43.21C RCW to read as follows:

(1) The lead agency for an environmental review under this chapter utilizing an environmental checklist developed by the department of ecology pursuant to RCW 43.21C.110 may identify within the checklist provided to applicants instances where questions on the checklist are adequately covered by a locally adopted ordinance, development regulation, land use plan, or other legal authority.
(2) If a lead agency identifies an instance as described in subsection (1) of this section, it shall still consider whether the action has an impact on the particular element or elements of the environment in question.
(3) In instances where the locally adopted ordinance, development regulation, land use plan, or other legal authority provide the necessary information to answer a specific question, the lead agency must explain how the proposed project satisfies the underlying local legal authority.
(4) If the lead agency identifies instances where questions on the checklist are adequately covered by a locally adopted ordinance, development regulation, land use plan, or other legal authority, an applicant may still provide answers to any questions on the checklist.
(5) Nothing in this section authorizes a lead agency to ignore or delete a question on the checklist.
(6) Nothing in this section changes the standard for whether an environmental impact statement is required for an action that may have a probable significant, adverse environmental impact pursuant to RCW 43.21C.030.
(7) Nothing in this section affects the appeal provisions provided in this chapter.

(8) Nothing in this section modifies existing rules for determining the lead agency, as defined in WAC 197-11-922 through 197-11-948, nor does it modify agency procedures for complying with the state environmental policy act when an agency other than a local government is serving as the lead agency.

Sec. 310. RCW 36.70A.490 and 1995 c 347 s 115 are each amended to read as follows:

The growth management planning and environmental review fund is hereby established in the state treasury. Moneys may be placed in the fund from the proceeds of bond sales, tax revenues, budget transfers, federal appropriations, gifts, or any other lawful source. Moneys in the fund may be spent only after appropriation. Moneys in the fund shall be used to make grants or loans to local governments for the purposes set forth in RCW 43.21C.240, 43.21C.031, or 36.70A.500. Any payment of either principal or interest, or both, derived from loans made from this fund must be deposited into the fund.

Sec. 311. RCW 36.70A.500 and 1997 c 429 s 28 are each amended to read as follows:

(1) The department of ((community, trade, and economic development)) commerce shall provide management services for the growth management planning and environmental review fund created by RCW 36.70A.490. The department shall establish procedures for fund management. The department shall encourage participation in the grant or loan program by other public agencies. The department shall develop the grant or loan criteria, monitor the grant or loan program, and select grant or loan recipients in consultation with state agencies participating in the grant or loan program through the provision of grant or loan funds or technical assistance.

(2) A grant or loan may be awarded to a county or city that is required to or has chosen to plan under RCW 36.70A.040 and that is qualified pursuant to this section. The grant or loan shall be provided to assist a county or city in paying for the cost of preparing an environmental analysis under chapter 43.21C RCW, that is integrated with a comprehensive plan, subarea plan, plan element, countywide planning policy, development regulation, monitoring program, or other planning activity adopted under or implementing this chapter that:

(a) Improves the process for project permit review while maintaining environmental quality; or

(b) Encourages use of plans and information developed for purposes of complying with this chapter to satisfy requirements of other state programs.

(3) In order to qualify for a grant or loan, a county or city shall:

(a) Demonstrate that it will prepare an environmental analysis pursuant to chapter 43.21C RCW and subsection (2) of this section that is integrated with a comprehensive plan, subarea plan, plan element, countywide planning policy, development regulations, monitoring program, or other planning activity adopted under or implementing this chapter;

(b) Address environmental impacts and consequences, alternatives, and mitigation measures in sufficient detail to allow the analysis to be adopted in whole or in part by applicants for development permits within the geographic area analyzed in the plan;

(c) Demonstrate that procedures for review of development permit applications will be based on the integrated plans and environmental analysis;

(d) Include mechanisms to monitor the consequences of growth as it occurs in the plan area and to use the resulting data to update the plan, policy, or implementing mechanisms and associated environmental analysis;

(e) Demonstrate substantial progress towards compliance with the requirements of this chapter. A county or city that is more than six months out of compliance with a requirement of this chapter is deemed not to be making substantial progress towards compliance; and

(f) Provide local funding, which may include financial participation by the private sector.

(4) In awarding grants or loans, the department shall give preference to proposals that include one or more of the following elements:

(a) Financial participation by the private sector, or a public/private partnering approach;

(b) Identification and monitoring of system capacities for elements of the built environment, and to the extent appropriate, of the natural environment;

(c) Coordination with state, federal, and tribal governments in project review;

(d) Furtherance of important state objectives related to economic development, protection of areas of statewide significance, and siting of essential public facilities;

(e) Programs to improve the efficiency and effectiveness of the permitting process by greater reliance on integrated plans and prospective environmental analysis;

(f) Programs for effective citizen and neighborhood involvement that contribute to greater likelihood that planning decisions can be implemented with community support; ((and))

(g) Programs to identify environmental impacts and establish mitigation measures that provide effective means to satisfy concurrency requirements and establish project consistency with the plans; or

(h) Environmental review that addresses the impacts of increased density or intensity of comprehensive plans, subarea plans, or receiving areas designated by a city or town under the regional transfer of development rights program in chapter 43.362 RCW.

(5) If the local funding includes funding provided by other state functional planning programs, including open space planning and watershed or basin planning, the functional plan shall be integrated into and be consistent with the comprehensive plan.

(6) State agencies shall work with grant or loan recipients to facilitate state and local project review processes that will implement the projects receiving grants or loans under this section.

Sec. 312. RCW 43.21C.110 and 1997 c 429 s 47 are each amended to read as follows:

It shall be the duty and function of the department of ecology:

(1) To adopt and amend ((thereafter)) rules of interpretation and implementation of this chapter, subject to the requirements of chapter 34.05 RCW, for the purpose of providing uniform rules and guidelines to all branches of government including state agencies, political subdivisions, public and municipal corporations, and counties. The proposed rules shall be subject to full public hearings requirements associated with rule (promulgation) adoption. Suggestions for modifications of the proposed rules shall be considered on their merits, and the department shall have the authority and responsibility for full and appropriate independent (promulgation and) adoption of rules, assuring consistency with this chapter as amended and with the preservation of protections afforded by this chapter. The rule-making powers authorized in this section shall include, but shall not be limited to, the following phases of interpretation and implementation of this chapter:

(e) Rules and procedures for public notification of actions taken and documents prepared.

(f) Definition of terms relevant to the implementation of this chapter including the establishment of a list of elements of the environment. Analysis of environmental considerations under RCW 43.21C.030(2) may be required only for those subjects listed as elements of the environment (or portions thereof). The list of elements of the environment shall consist of the "natural" and "built" environment. The elements of the built environment shall consist of public services and utilities (such as water, sewer, schools, fire and police protection), transportation, environmental health (such as explosive materials and toxic waste), and land and shoreline use (including housing, and a description of the relationships with land use and shoreline plans and designations, including population).

(g) Rules for determining the obligations and powers under this chapter of two or more branches of government involved in the same project significantly affecting the quality of the environment.

There being no objection, Substitute House Bill No. 2823 was substituted for House Bill No. 2823 and the substitute bill was placed on the second reading calendar.

SUBSTITUTE HOUSE BILL NO. 2823 was read the second time.

With the consent of the house, amendment (1435) was withdrawn.

Representative Hunter moved the adoption of amendment (1439).

Strike everything after the enacting clause and insert the following:

Sec. 1. RCW 43.135.045 and 2011 1st sp.s.s. c 50 s 950 are each amended to read as follows:

The education construction fund is hereby created in the state treasury.

(1) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education construction. During the 2007-2009 fiscal biennium, funds may also be used for higher education facilities preservation and maintenance. During the 2009-2011 and 2011-2013 fiscal biennium, the legislature may transfer from the education construction fund to the state general fund such amounts as reflect the excess fund balance of the fund.

(2) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection (shall) must result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and (shall) does not affect any subsequent fiscal period.

(3) Funds for the student achievement program in RCW 28A.505.210 and 28A.505.220 (shall) must be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. Allocations (shall) must be made on an equal per full-time equivalent student basis to each school district.

(4) After July 1, 2010, the state treasurer (shall) must transfer one hundred two million dollars from the general fund to the education construction fund by June 30th of each year. However, the transfers may not take place in the fiscal biennium ending June 30, 2015.

Sec. 2. RCW 82.18.040 and 2011 1st sp.s.s c 48 s 7034 are each amended to read as follows:

(1) Taxes collected under this chapter (shall) must be held in trust until paid to the state. Except as otherwise provided in this subsection (1), taxes received by the state (shall) must be deposited in the public works assistance account created in RCW 43.135.050(1)(provided, that during the fiscal year 2014). For the period beginning July 1, 2011, and ending June 30, 2015, taxes received by the state under this chapter must be deposited in the general fund for general purpose expenditures. For fiscal years 2016, 2017, and 2018, one-half of the taxes received by the state under this chapter must be deposited in the general fund for general purpose expenditures and the remainder deposited in the public works assistance account. Any person collecting the tax who appropriates or converts the tax collected (shall be) guilty of a gross misdemeanor if the money required to be collected is not available for payment on the date payment is due. If a taxpayer fails to pay the tax imposed by this chapter to the person charged with collection of the tax and the person charged with collection fails to pay the tax to the department, the department may, in its discretion, proceed directly against the taxpayer for collection of the tax.

(2) The tax (shall be) is due from the taxpayer within twenty-five days from the date the taxpayer is billed by the person collecting the tax.

(3) The tax (shall be) is due from the person collecting the tax at the end of the tax period in which the tax is received from the taxpayer. If the taxpayer remits only a portion of the total amount billed for taxes, consideration, and related charges, the amount remitted (shall) must be applied first to payment of the solid waste collection tax and this tax (shall have) has priority over all other claims to the amount remitted.

Sec. 3. RCW 82.08.160 and 2011 1st sp.s.s. c 50 s 969 are each amended to read as follows:

PART II
HUMAN SERVICES

Sec. 201. 2011 2nd sp.s. c 9 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as
expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The health care authority and the department are authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under (a) the Washington medicare integration partnership (WMIP) and the medicare integrated care project (MICP), the health care authority and the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 213 of this act as may be necessary to finance a unified health care plan for the WMIP and the MICP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county during the 2011-2013 fiscal biennium. The amount of funding assigned from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. In implementing the WMIP and the MICP, the health care authority and the department may: (i) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for enrolled individuals; and (ii) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The health care authority and the department shall conduct an evaluation of the WMIP by October 15, 2012, and of the MICP measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(b) Effective January 1, 2013, if Washington has been selected to participate in phase two of the federal demonstration project for persons dually-eligible for both medicare and medicaid, the department and the authority may initiate the MICP. Participation in the project shall be limited to persons who are eligible for both medicare and medicaid and to counties in which the county legislative authority has agreed to the terms and conditions under which it will operate. The purpose of the project shall be to demonstrate and evaluate ways to improve care while reducing state expenditures for persons enrolled both in medicare and medicaid. To that end, prior to initiating the project, the department and the authority shall assure that state expenditures shall be no greater on either a per person or total basis than the state would otherwise incur. Individuals who are solely eligible for medicare may also participate if their participation is agreed to by the health care authority, the department, and the county legislative authority.

(4) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(5) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in section 213 of this act. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(6)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2012, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2012 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2012 caseload forecasts and utilization assumptions in the long-term care, foster care, adoptions support, medicaid personal care, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

The appropriations in this subsection are subject to the following conditions and limitations:

(a) $109,342,000 of the general fund--state appropriation for fiscal year 2012 and $109,341,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for persons and services not covered by the medicaid program. This is a reduction of $4,348,000 each fiscal year from the nonmedicaid funding that was allocated for expenditure by regional support networks during fiscal year 2011 prior to supplemental budget reductions. This $4,348,000 reduction shall be distributed among regional support networks proportional to each network’s share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

(b) $6,590,000 of the general fund--state appropriation for fiscal year 2012, $6,590,000 of the general fund--state appropriation for fiscal year 2013, and $7,620,000 of the general fund--federal appropriation are provided solely for the department and regional support networks to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to regional support networks with PACT teams, the department shall consider the differences between regional support networks in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow regional support networks which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under section 204(1)(a) of this act. The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) $5,850,000 of the general fund--state appropriation for fiscal year 2012, $5,850,000 of the general fund--state appropriation for fiscal year 2013, and $1,300,000 of the general fund--federal appropriation are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care previously provided by the program for adaptive living skills (PALS) at western state hospital.

(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 557 per day.

(e) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(f) $4,582,000 of the general fund--state appropriation for fiscal year 2012 and $4,582,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. Beginning in fiscal year 2013, the department shall report regional outcome data on individuals in jail who are referred for regional support network services. By December 1, 2012, the department shall provide a report to the relevant fiscal
and policy committees of the legislature on the number of individuals referred to the program who had an evaluation for regional support network services either during incarceration or within 30 and 60 days of release from jail; and the number who were made newly eligible or reinstated to eligibility for medical assistance services either during incarceration or within 30 and 60 days of release from jail. In addition, the report shall identify how many of the individuals who were determined to be eligible for regional support network services received additional outpatient services within 30 and 60 days of release from incarceration.

(g) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children’s long-term inpatient facility services.

(h) $750,000 of the general fund--state appropriation for fiscal year 2012 and $750,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community service initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(i) $1,125,000 of the general fund--state appropriation for fiscal year 2012 and $1,125,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(j) $1,529,000 of the general fund--state appropriation for fiscal year 2012 and $1,529,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(k) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients.

Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(l) Given the recent approval of federal medicaid matching funds for the disability lifeline and the alcohol and drug abuse treatment support act programs, the department shall charge regional support networks for only the state share rather than the total cost of community psychiatric hospitalization for persons enrolled in those programs.

(m) $750,000 of the general fund--state appropriation for fiscal year 2012, $750,000 of the general fund--state appropriation for fiscal year 2013, and $1,500,000 of the general fund--federal appropriation are provided solely to adjust regional support network capitation rates to account for the per diem rates actually paid for psychiatric care provided at hospitals participating in the certified public expenditure program operated pursuant to section 213 of this act.

(n) The appropriations in this section reflect efficiencies to be achieved through voluntary consolidation of regional support networks in accordance with Substitute House Bill No. 2139 (regional support networks). Voluntary consolidation of regional support networks is expected to result in administrative efficiencies and maximize dollars available for direct services to individuals with mental illnesses without corresponding increases in state appropriations.

Funding in this section for purposes other than the individual provider collective bargaining agreement cannot be used for the purposes of this subsection (1)(e). It is the intent of the legislature that the funding provided in this subsection, including any repurposed funding, is sufficient to cover the costs of individual provider training and therefore tuition or other entrance fees are not necessary. (f) $104,669,000 of the general fund--state appropriation for fiscal year 2013 and $104,669,000 of the general fund--federal appropriation are provided solely for the department to provide personal care services to waiver and nonwaiver in-home clients. The department shall inform clients and their legal representatives of all available options for employment and day services. In addition, every individual, to include those with a developmental disability, should have the opportunity for meaningful employment which allows them to contribute to their communities and to become as self-sufficient as possible. Providing choice empowers recipients of publicly funded services and their families by expanding their degree of control over the services and supports they need.

The department shall work with legislators and stakeholders to develop a new approach to employment and day services. The objective of this plan is to ensure that adults with developmental disabilities have optimum choices, and that employment and day offerings are comprehensive enough to meet the needs of all clients currently served on a home and community based waiver. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennia shall be compared to a baseline amount. (51) The health care authority shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The health care authority may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the health care authority receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. the time elapsing between initial payment and final reconciliation.

The new methodology shall be developed in consultation with the rural health clinic association, staff from the office of financial management, and the legislative fiscal committees, and the federal centers for medicare and medicaid services. The authority shall contract with a consultant acceptable to the rural health clinic association to assist in preparation of the new methodology, and shall report to the governor and appropriate committees of the legislature by December 1, 2012, on the proposed alternative payment and reconciliation methodology.

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the toal of:

(i) Credits earned since receiving the masters degree; and

(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

(a) "BA" means a baccalaureate degree.

(b) "MA" means a masters degree.

(c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this part V, or any replacement schedules and documents, unless:

(a) The employee has a masters degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2).

**Sec. 504.** 2011 2nd sp.s. c 9 s 504 (uncodified) is amended to read as follows:

**FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL EMPLOYEE COMPENSATION ADJUSTMENTS**

General Fund--Federal Appropriation $2,000

The appropriation in this section is subject to the following conditions and limitations:

(1) (a) Additional salary adjustments as necessary to fund the base salaries for certificated instructional staff as listed for each district in LEAP Document 2, defined in section 504(2)(b) of this act. Allocations for these salary adjustments shall be provided to all districts that are not grandfathered to receive salary allocations above the statewide salary allocation schedule, and to certain grandfathered districts to the extent necessary to ensure that salary allocations for districts that are currently grandfathered do not fall below the statewide salary allocation schedule.

(b) Additional salary adjustments to certain districts as necessary to fund the per full-time-equivalent salary allocations for certificated administrative staff as listed for each district in LEAP Document 2, defined in section 504(2)(b) of this act.

(c) Additional salary adjustments to certain districts as necessary to fund the per full-time-equivalent salary allocations for classified staff as listed for each district in LEAP Document 2, defined in section 504(2)(b) of this act.

(d) The appropriations in this subsection (1) include associated incremental fringe benefit allocations at 15.69 percent for the 2011-12
school year and (45.69) 15.70 percent for the 2012-13 school year for certificated instructional and certificated administrative staff and 15.23 percent for the 2011-12 school year and 15.23 percent for the 2012-13 school year for classified staff.

e) The appropriations in this section include the increased or decreased portion of salaries and incremental fringe benefits for all relevant state-funded school programs in part V of this act. Changes for general apportionment (basic education) are based on the salary allocation schedules and methodology in sections 503 and 504 of this act. Changes for special education result from changes in each district’s basic education allocation per student. Changes for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in sections 503 and 504 of this act.

(f) The appropriations in this section include no salary adjustments for substitute teachers.

(2) The maintenance rate for insurance benefit allocations is $768.00 per month for the 2011-12 and 2012-13 school years. The appropriations in this section reflect the incremental change in cost of allocating rates of $768.00 per month for the 2011-12 school year and $768.00 per month for the 2012-13 school year.

(3) The rates specified in this section are subject to revision each year by the legislature.

Sec. 505. 2011 2nd sp.s. c 9 s 505 (uncodified) is amended to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--
FOR PUPIL TRANSPORTATION

General Fund--State Appropriation (FY 2012) ($422,033,000) $322,243,000
General Fund--State Appropriation (FY 2013) ($273,380,000) $273,642,000

TOTAL APPROPRIATION ($595,413,000) $595,885,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Each general fund fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(2) For the 2011-12 and 2012-13 school years, the superintendent shall allocate funding to school district programs for the transportation of students as provided in RCW 28A.160.192.

(b) From July 1, 2011 to August 31, 2011, the superintendent shall allocate funding to school districts programs for the transportation of students as provided in section 505, chapter 564, Laws of 2009, as amended through section 1404 of this act.

(3) Any amounts appropriated for maintenance level funding for pupil transportation that exceed actual maintenance level expenditures as calculated under the funding formula that takes effect September 1, 2011, shall be distributed to districts according to RCW 28A.160.192.

(4) A maximum of $892,000 of this fiscal year 2012 appropriation and a maximum of $892,000 of the fiscal year 2013 appropriation may be expended for regional transportation coordinators and related activities. The transportation coordinators shall ensure that data submitted by school districts for state transportation funding shall, to the greatest extent practical, reflect the actual transportation activity of each district.

(5) The office of the superintendent of public instruction shall provide reimbursement funding to a school district for school bus purchases only after the superintendent of public instruction determines that the school bus was purchased from the list established pursuant to RCW 28A.160.195(2) or a comparable competitive bid process based on the lowest price quote based on similar bus categories to those used to establish the list pursuant to RCW 28A.160.195.

(6) The superintendent of public instruction shall base depreciation payments for school district buses on the pre-sales tax five-year average of lowest bids in the appropriate category of bus. In the final year on the depreciation schedule, the depreciation payment shall be based on the lowest bid in the appropriate bus category for that school year.

(7) Funding levels in this section reflect waivers granted by the state board of education for four-day school weeks as allowed under RCW 28A.305.141.

(8) Starting with the 2012-13 school year, the office of the superintendent of public instruction shall disburse payments for bus depreciation in August.

(9) The office of the superintendent of public instruction shall develop, in consultation with the Washington association of school business officials and the Washington association for pupil transportation, a unit-cost transportation formula or hybrid formula for legislative consideration and potential adoption. The transportation-allocation formula shall take into account statistically significant cost drivers, recognize fixed costs, and simplify the current regression-analysis transportation-allocation method. The formula or hybrid formula developed should be based on currently collected data identified under RCW 28A.160.192(1)(a). These data are to include basic and special student loads, school district land area, average distance to school, roadway miles, and number of locations served.

The office of the superintendent of public instruction shall report to the legislative fiscal committees, the education committees of the senate and the house of representatives, and to the office of financial management by September 30, 2012, for legislative consideration and possible amendment or adoption of the unit-cost or hybrid formula for the 2013-14 school year.

Sec. 506. 2011 2nd sp.s. c 9 s 507 (uncodified) is amended to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--
FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2012) ($653,001,000) $648,369,000
General Fund--State Appropriation (FY 2013) ($694,237,000) $679,832,000
General Fund--Federal Appropriation ($486,923,000) $486,923,000

Education Legacy Trust Account--State Appropriation $756,000 TOTAL APPROPRIATION ($1,835,833,000) $1,815,879,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(b) The superintendent of public instruction shall continue to implement the full cost method of excess cost accounting, as designed
by the committee and recommended by the superintendent, pursuant to section 501(1)(k), chapter 372, Laws of 2006.

(c) Beginning with the 2010-11 school year award cycle, the office of the superintendent of public instruction shall make award determinations for state safety net funding in August of each school year. Determinations on school district eligibility for state safety net awards shall be based on analysis of actual expenditure data from the current school year.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4)(a) For the 2011-12 and 2012-13 school years, the superintendent shall allocate funding to school district programs for special education students as provided in RCW 28A.150.390.

(b) From July 1, 2011 to August 31, 2011, the superintendent shall allocate funding to school district programs for special education students as provided in section 507, chapter 564, Laws of 2009, as amended through section 1406 of this act.

(5) The following applies throughout this section: The definitions for enrollment and enrollment percent are as specified in RCW 28A.150.390(3). Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

(6) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with RCW 28A.150.390(3) (c) and (d), and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(7) $8,914,000 of the general fund--state appropriation for fiscal year 2012, $34,200,000 of the general fund--state appropriation for fiscal year 2013, and $29,574,000 of the general fund--federal appropriation are provided solely for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (4) of this section. If the federal safety net awards based on the federal eligibility threshold exceed the federal appropriation in this subsection (7) in any fiscal year, the superintendent shall expend all available federal discretionary funds necessary to meet this need. At the conclusion of each school year, the superintendent shall recover safety net funds that were distributed prospectively but for which districts were not subsequently eligible.

(a) For the 2011-12 and 2012-13 school years, safety net funds shall be awarded by the state safety net oversight committee as provided in section 109(1) chapter 548, Laws of 2009 (ESHB 2261).

(b) From July 1, 2011 to August 31, 2011, the superintendent shall operate the safety net oversight committee and shall award safety net funds as provided in section 507, chapter 564, Laws of 2009, as amended through section 1406 of this act.

(8) A maximum of $678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(9) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(10) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.

(11) $251,000 of the general fund--state appropriation for fiscal year 2012 and $251,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for two additional full-time equivalent staff to support the work of the safety net committee and to provide training and support to districts applying for safety net awards.

(12) $50,000 of the general fund--state appropriation for fiscal year 2012, $50,000 of the general fund--state appropriation for fiscal year 2013, and $100,000 of the general fund--federal appropriation shall be expended to support a special education ombudsman program within the office of superintendent of public instruction.
The appropriations in this section are subject to the following conditions and limitations:

(1) Each general fund–state fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(2) State funding provided under this section is based on salaries and other expenditures for a 220-day school year. The superintendent of public instruction shall monitor school district expenditure plans for institutional education programs to ensure that districts plan for a full-time summer program.

(3) State funding for each institutional education program shall be based on the institution’s annual average full-time equivalent student enrollment. Staffing ratios for each category of institution shall remain the same as those provided in the 1995-97 biennium.

(4) The funded staffing ratios for education programs for juveniles age 18 or less in department of corrections facilities shall be the same as those provided in the 1997-99 biennium.

(5) $586,000 of the general fund–state appropriation for fiscal year 2012 and $549,000 of the general fund–state appropriation for fiscal year 2013 are provided solely to maintain at least one certificated instructional staff and related support services at an institution whenever the K-12 enrollment is not sufficient to support one full-time equivalent certificated instructional staff to furnish the educational program. The following types of institutions are included: Residential programs under the department of social and health services for developmentally disabled juveniles, programs for juveniles under the department of corrections, programs for juveniles under the juvenile rehabilitation administration, and programs for juveniles operated by city and county jails.

(6) Ten percent of the funds allocated for each institution may be carried over from one year to the next.

Sec. 510. 2011 2nd sp.s. c 9 s 511 (uncodified) is amended to read as follows:

NEW SECTION. Sec. 712. A new section is added to 2012 c 86 (ESHB 2190) (uncodified) to read as follows:

FOR THE WASHINGTON STATE DEPARTMENT OF TRANSPORTATION

The legislature finds that it is critically important that highway improvement project lists, incorporated by reference in the biennial transportation appropriations act, accurately reflect the intent of the legislature with respect to the identified projects and activities as listed by fund, project, and amount in the list, including intended future commitments. The legislature further finds that during the 2012 regular legislative session, Engrossed Substitute House Bill No. 2190, as recommended by the conference committee, passed the legislature and that it incorporated by reference a highway improvement project list containing various technical drafting errors resulting in an inaccurate reflection of the conference committee report as agreed to by the conferees. The legislature further finds that a corrected version of the list is necessary to conform with the recommendations of the conference committee in a manner that does not change the funding decisions or appropriations for the current 2011-2013 biennium as agreed to by the conferees. Therefore, any reference in chapter 86 (ESHB 2190), Laws of 2012 to "LEAP Transportation Document 2012-2 as developed March 8, 2012, Program – Highway Improvement Program (I)" is superseded by the corrected version "LEAP Transportation Document 2012-2C as developed March 14, 2012, Program – Highway Improvements Program (I)".

From appropriations to state agencies for the 2011-2013 fiscal biennium, the office of financial management shall reduce general fund-state allotments by $5,000,000 for fiscal year 2013 to reflect savings associated with a reduction in expenditures related to information technology, pursuant to allotment schedules prepared by the office of financial management. Sec. 920. RCW 43.88.110 and 2009 c 518 s 3 are each amended to read as follows:

This section sets forth the expenditure programs and the allotment and reserve procedures to be followed by the executive branch for public funds.

1. Allotments of an appropriation for any fiscal period shall conform to the terms, limits, or conditions of the appropriation.
2. The director of financial management shall provide all agencies with a complete set of operating and capital instructions for preparing a statement of proposed expenditures at least thirty days before the beginning of a fiscal period. The set of instructions need not include specific appropriation amounts for the agency.
3. Within forty-five days after the beginning of the fiscal period or within forty-five days after the governor signs the omnibus biennial appropriations act, whichever is later, all agencies shall submit to the governor a statement of proposed expenditures at such times and in such form as may be required by the governor.
4. The office of financial management shall develop a method for monitoring capital appropriations and expenditures that will capture at least the following elements:
   a. Appropriations made for capital projects including transportation projects;
   b. Estimates of total project costs including past, current, ensuing, and future biennial costs;
   c. Comparisons of actual costs to estimated costs;
   d. Comparisons of estimated construction start and completion dates with actual dates;
   e. Documentation of fund shifts between projects.

This data may be incorporated into the existing accounting system or into a separate project management system, as deemed appropriate by the office of financial management.
5. The office of financial management, prior to approving allotments for major capital construction projects valued over five million dollars, shall institute procedures for reviewing such projects at the predesign stage that will reduce long-term costs and increase facility efficiency. The procedures shall include, but not be limited to, the following elements:
   a. Evaluation of facility program requirements and consistency with long-range plans;
   b. Utilization of a system of cost, quality, and performance standards to compare major capital construction projects; and
   c. A requirement to incorporate value-engineering analysis and constructability review into the project schedule.
6. No expenditure may be incurred or obligation entered into for such major capital construction projects including, without exception, land acquisition, site development, predesign, design, construction, and equipment acquisition and installation, until the allotment of the funds to be expended has been approved by the office of financial management. This limitation does not prohibit the continuation of expenditures and obligations into the succeeding biennium for projects for which allotments have been approved in the immediate prior biennium.

7(a) Beginning January 1, 2013, if at any time during the fiscal period the governor projects a cash deficit in a particular fund or account as defined by RCW 43.88.050, the governor shall make across-the-board reductions in allotments for that particular fund or account so as to prevent a cash deficit, unless the legislature has directed the liquidation of the cash deficit over one or more fiscal periods.

(b)(i) From the effective date of this section until January 1, 2013, if at any time during the fiscal period the governor projects a cash deficit in a particular fund or account as defined by RCW 43.88.050, then as set forth in (b) of this subsection the governor shall make across-the-board reductions in the total amount allotted to each agency from each appropriation from that fund or account so as to prevent a cash deficit, unless the legislature has directed the liquidation of the cash deficit over one or more fiscal periods.

(ii) The percentage reduction applied to individual allotments of an agency’s total allotments from each appropriation from that fund or account may vary, but each agency’s total allotments from each appropriation from that fund or account must be uniformly reduced by the percentage necessary to prevent a cash deficit. Where a portion of an appropriation is provided solely for a particular purpose, allotments of that portion of the appropriation may be reduced only by the same percentage as the overall appropriation.

(iii) Allotments for the following programs may be reduced only by a percentage equal to one-half of the percentage reduction applied to total allotments of appropriations under (b)(ii) of this subsection:

   (A) Direct custody in the department of corrections and the juvenile rehabilitation administration; and
   (B) The special commitment center of the department of social
and health services.

(iv) Basic education programs, debt service on state bonds, state contributions to retirement systems, and programs for which a defined benefit is specifically mandated in statute are exempt from across-the-board allotment reductions under this subsection (7)(b) and allotments for these purposes shall not be included when calculating the allotment reductions.

(8) Except for the legislative and judicial branches and other agencies headed by elective officials, the governor shall review the statement of proposed operating expenditures for reasonableness and conformance with legislative intent. The governor may request corrections of proposed allotments submitted by the legislative and judicial branches and agencies headed by elective officials if those proposed allotments contain significant technical errors.

(9) Once the governor approves the proposed allotments, further revisions may at the request of the office of financial management or upon the agency's initiative be made on a quarterly basis and must be accompanied by an explanation of the reasons for significant changes. If the governor initiates across-the-board allotment revisions under subsection (7)(b) of this section, the office of financial management shall provide notice to the appropriate legislative fiscal committees of the proposed revisions, including the explanation for the significant changes, and the revisions may not take effect until ten days after this notice is provided. However, changes in appropriation level authorized by the legislature, changes required by across-the-board reductions mandated by the governor, changes caused by executive increases to spending authority, and changes caused by executive decreases to spending authority for failure to comply with the provisions of chapter 36.70A RCW may require additional revisions. Revisions shall not be made retroactively. However, the governor may assign to a reserve status any portion of an agency appropriation withheld as part of across-the-board reductions made by the governor and any portion of an agency appropriation conditioned on a contingent event by the appropriations act. The governor may remove these amounts from reserve status if the across-the-board reductions are subsequently modified or if the contingent event occurs. The director of financial management shall enter approved statements of proposed expenditures into the state budgeting, accounting, and reporting system within forty-five days after receipt of the proposed statements from the agencies. If an agency or the director of financial management is unable to meet these requirements, the director of financial management shall provide a timely explanation in writing to the legislative fiscal committees.

(10) It is expressly provided that all agencies shall be required to maintain accounting records and to report thereon in the manner prescribed in this chapter and under the regulations issued pursuant to this chapter. Within ninety days of the end of the fiscal year, all agencies shall submit to the director of financial management their final adjustments to close their books for the fiscal year. Prior to submitting fiscal data, written or oral, to committees of the legislature, it is the responsibility of the agency submitting the data to reconcile it with the budget and accounting data reported by the agency to the director of financial management.

(11) The director of financial management may exempt certain public funds from the allotment controls established under this chapter if it is not practical or necessary to allot the funds. Allotment control exemptions expire at the end of the fiscal biennium for which they are granted. The director of financial management shall report any exemptions granted under this subsection to the legislative fiscal committees.

(xi) Public funding to assist potentially liable persons to pay for the costs of remedial action in compliance with cleanup standards under RCW 70.105D.030(2)(e) but only when the amount and terms of such funding are established under a settlement agreement under RCW 70.105D.040(4) and when the director has found that the funding will achieve both (A) a substantially more expeditious or enhanced cleanup than would otherwise occur, and (B) the prevention or mitigation of unfair economic hardship;

(xii) Development and demonstration of alternative management technologies designed to carry out the hazardous waste management priorities of RCW 70.105.150;

(xiii) During the 2009-2011 and 2011-2013 fiscal biennia, shoreline update technical assistance;

(xiv) During the 2009-2011 fiscal biennium, multijurisdictional permitting teams: (i) (and)

(xv) During the 2011-2013 fiscal biennium, actions for reducing public exposure to toxic air pollution; and

(xvi) During the 2011-2013 fiscal biennium, the department of ecology's water quality, shorelands and environmental assessment, hazardous waste, waste to resources, nuclear waste, and air quality programs.

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(a) Moneys deposited in the local toxics control account shall be used by the department for grants or loans to local governments for the following purposes in descending order of priority:

(i) Remedial actions;

(ii) Hazardous waste plans and programs under chapter 70.105 RCW;

(iii) Solid waste plans and programs under chapters 70.95, 70.95C, 70.95I, and 70.105 RCW;

(iv) Funds for a program to assist in the assessment and cleanup of sites of methamphetamine production, but not to be used for the initial containment of such sites, consistent with the responsibilities and intent of RCW 69.50.511; and
(v) Cleanup and disposal of hazardous substances from abandoned or derelict vessels, defined for the purposes of this section as vessels that have little or no value and either have no identified owner or have an identified owner lacking financial resources to clean up and dispose of the vessel, that pose a threat to human health or the environment.

(b) Funds for plans and programs shall be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW, except that any applicant that is a Puget Sound partner, as defined in RCW 90.71.010, along with any project that is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, shall, except as conditioned by RCW 70.105D.120, receive priority for any available funding for any grant or funding programs or sources that use a competitive bidding process. During the 2007-2009 fiscal biennium, moneys in the account may also be used for grants to local governments to retrofit public sector diesel equipment and for storm water planning and implementation activities.

(c) To expedite cleanups throughout the state, the department shall partner with local communities and liable parties for cleanups. The department is authorized to use the following additional strategies in order to ensure a healthful environment for future generations:

(i) The director may alter grant-matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of vacant, orphaned, or abandoned property under RCW 70.105D.040(5) that would not otherwise occur;

(ii) The use of outside contracts to conduct necessary studies;

(iii) The purchase of remedial action cost-cap insurance, when necessary to expedite multiparty clean-up efforts.

(d) To facilitate and expedite cleanups using funds from the local toxics control account, during the 2009-2011 fiscal biennium the director may establish grant-funded accounts to hold and disperse local toxics control account funds and funds from local governments to be used for remedial actions.

(4) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(5) Except during the (2009-2011) 2011-2013 fiscal biennium, one percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation from either account which are not expended at the close of any biennium shall revert to the state toxics control account.

(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation, or, after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(7) The department shall adopt rules for grant or loan issuance and performance.

(8) During the (2007-2009 and 2009-2011) 2011-2013 fiscal biennium, the legislature may transfer from the local toxics control account to (either) the state (general fund or the oil spill prevention account, or both) toxics control account such amounts as reflect excess fund balance in the account.

——-(9) During the 2009-2011 fiscal biennium, the local toxics control account may also be used for a standby rescue tug at Neah Bay, local government shoreline update grants, private and public sector diesel equipment retrofit, and oil spill prevention, preparedness, and response activities.

——-(10) During the 2009-2011 fiscal biennium, the legislature may transfer from the state toxics control account to the state general fund such amounts as reflect the excess fund balance in the account.

——-(11)) (9) During the 2011-2013 fiscal biennium, the local toxics control account may also be used for local government shoreline update grants and actions for reducing public exposure to toxic air pollution.

Sec. 922. RCW 74.48.090 and 2011 1st sp.s. c 7 s 21 are each amended to read as follows:

(1) The department and the department of health, in consultation with the Washington state health care association, and aging services of Washington, shall design a system of skilled nursing facility quality incentive payments. The design of the system shall be submitted to the relevant policy and fiscal committees of the legislature by (December 15, 2011)) January 1, 2013. For the 2011-2013 fiscal biennial budget period, the department shall not implement a system of skilled nursing facility quality incentive payments designed pursuant to this section. The system shall be based upon the following principles:

(a) Evidence-based treatment and processes shall be used to improve health care outcomes for skilled nursing facility residents;

(b) Effective purchasing strategies to improve the quality of health care services should involve the use of common quality improvement measures, while recognizing that some measures may not be appropriate for application to facilities with high bariatric, behaviorally challenged, or rehabilitation populations;

(c) Quality measures chosen for the system should be consistent with the standards that have been developed by national quality improvement organizations, such as the national quality forum, the federal centers for medicare and medicaid services, or the federal agency for healthcare research and quality. New reporting burdens to skilled nursing facilities should be minimized by giving priority to measures skilled nursing facilities that are currently required to report to governmental agencies, such as the nursing home compare measures collected by the federal centers for medicare and medicaid services;

(d) Benchmarks for each quality improvement measure should be set at levels that are feasible for skilled nursing facilities to achieve, yet represent real improvements in quality and performance for a majority of skilled nursing facilities in Washington state; and

(e) Skilled nursing facilities performance and incentive payments should be designed in a manner such that all facilities in Washington are able to receive the incentive payments if performance is at or above the benchmark score set in the system established under this section.

(2) Pursuant to an appropriation by the legislature, for state fiscal year (2013) 2014 and each fiscal year thereafter, assessments may be increased to support an additional one percent increase in skilled nursing facility reimbursement rates for facilities that meet the quality incentive benchmarks established under this section.

Sec. 923. RCW 76.04.610 and 2007 c 110 s 1 are each amended to read as follows:

(1)(a) If any owner of forest land within a forest protection zone neglects or fails to provide adequate fire protection as required by
RCW 76.04.600, the department shall provide such protection and shall annually impose the following assessments on each parcel of such land: (i) A flat fee assessment of seventeen dollars and fifty cents; and (ii) twenty-seven cents on each acre exceeding fifty acres.

(b) Assessors may, at their option, collect the assessment on tax exempt lands. If the assessor elects not to collect the assessment, the department may bill the landowner directly.

(2) An owner who has paid assessments on two or more parcels, each containing fewer than fifty acres and each within the same county, may obtain the following refund:

(a) If all the parcels together contain less than fifty acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars and (ii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

(b) If all the parcels together contain fifty or more acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars, (ii) twenty-seven cents for each acre exceeding fifty acres, and (iii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

Applicants for refunds shall be submitted to the department on a form prescribed by the department and in the same year in which the assessments were paid. The department may not provide refunds to applicants who do not provide verification that all assessments and property taxes on the property have been paid. Applications may be made by mail.

In addition to the procedures under this subsection, property owners with multiple parcels in a single county who qualify for a refund under this section may apply to the department on an application listing all the parcels owned in order to have the assessment computed on all parcels but billed to a single parcel. Property owners with the following number of parcels may apply to the department in the year indicated:

<table>
<thead>
<tr>
<th>Year</th>
<th>Number of Parcels</th>
</tr>
</thead>
<tbody>
<tr>
<td>2002</td>
<td>10 or more parcels</td>
</tr>
<tr>
<td>2003</td>
<td>8 or more parcels</td>
</tr>
<tr>
<td>2004 and thereafter</td>
<td>6 or more parcels</td>
</tr>
</tbody>
</table>

The department must compute the correct assessment and allocate one parcel in the county to use to collect the assessment. The county must then bill the forest fire protection assessment on that one allocated identified parcel. The landowner is responsible for notifying the department of any changes in parcel ownership.

(3) Beginning January 1, 1991, under the administration and at the discretion of the department up to two hundred thousand dollars per year of this assessment shall be used in support of those rural fire districts assisting the department in fire protection services on forest lands.

(4) For the purpose of this chapter, the department may divide the forest lands of the state, or any part thereof, into districts, for fire protection and assessment purposes, may classify lands according to the character of timber prevailing, and the fire hazard existing, and place unprotected lands under the administration of the proper district. Amounts paid or contracted to be paid by the department for protection of forest lands from funds at its disposal shall be a lien upon the property protected, unless reimbursed by the owner within ten days after October 1st of the year in which they were incurred. The department shall be prepared to make statement thereof, upon request, to a forest owner whose own protection has not been previously approved as to its adequacy, the department shall report the same to the assessor of the county in which the property is situated. The assessor shall extend the amounts upon the tax rolls covering the property, and upon authorization from the department shall levy the forest protection assessment against the amounts of unimproved land as shown in each ownership on the county assessor's records. The assessor may then segregate on the records to provide that the improved land and improvements thereon carry the millage levy designed to support the rural fire protection districts as provided for in RCW 52.16.170.

(5) The amounts assessed shall be collected at the time, in the same manner, by the same procedure, and with the same penalties attached that general state and county taxes on the same property are collected, except that errors in assessments may be corrected at any time by the department certifying them to the treasurer of the county in which the land involved is situated. Assessments shall be known and designated as assessments of the year in which the amounts became reimbursable. Upon the collection of assessments the county treasurer shall place fifty cents of the total assessments paid on a parcel for fire protection into the county current expense fund to defray the costs of listing, billing, and collecting these assessments. The treasurer shall then transmit the balance to the department. Collections shall be applied against expenses incurred in carrying out the provisions of this section, including necessary and reasonable administrative costs incurred by the department in the enforcement of these provisions. The department may also expend sums collected from owners of forest lands or received from any other source for necessary administrative costs in connection with the enforcement of RCW 76.04.660.

(6) When land against which forest protection assessments are outstanding is acquired for delinquent taxes and sold at public auction, the state shall have a prior lien on the proceeds of sale over and above the amount necessary to satisfy the county's delinquent tax judgment. The county treasurer, in case the proceeds of sale exceed the amount of the delinquent tax judgment, shall immediately remit to the department the amount of the outstanding forest protection assessments.

(7) All nonfederal public bodies owning or administering forest land included in a forest protection zone shall pay the forest protection assessments provided in this section and the special forest fire suppression account assessments under RCW 76.04.630. The forest protection assessments and special forest fire suppression account assessments shall be payable by nonfederal public bodies from available funds within thirty days following receipt of the written notice from the department which is given after October 1st of the year in which the protection was provided. Unpaid assessments are not a lien against the nonfederal publicly owned land but shall constitute a debt by the nonfederal public body to the department and are subject to interest charges at the legal rate. During the 2011-2013 fiscal biennium, the forest fire protection assessment account may be appropriated to The Evergreen State College for analysis and recommendations to improve the efficiency and effectiveness of the state's mechanisms for funding fire prevention and suppression activities.

(8) A public body, having failed to previously pay the forest protection assessments required of it by this section, which fails to suppress a fire on or originating from forest lands owned or administered by it, is liable for the costs of suppression incurred by the department or its agent and is not entitled to reimbursement of costs incurred by the public body in the suppression activities.

(9) The department may adopt rules to implement this section, including, but not limited to, rules on levying and collecting forest protection assessments.

Sec. 924. RCW 77.12.201 and 2009 c 479 s 63 are each amended to read as follows:

The legislative authority of a county may elect, by giving written notice to the director and the treasurer prior to January 1st of any year, to obtain for the following year an amount in lieu of real property taxes on game lands as provided in RCW 77.12.203. Upon the election, the county shall keep a record of all fines, forfeitures,
reimbursements, and costs assessed and collected, in whole or in part, under this title for violations of law or rules adopted pursuant to this title, with the exception of the 2011-2013 fiscal biennium, and shall monthly remit an amount equal to the amount collected to the state treasurer for deposit in the state general fund. The election shall continue until the department is notified differently prior to January 1st of any year.

Sec. 925. RCW 77.12.203 and 2005 c 303 s 14 are each amended to read as follows:

(1) Except as provided in subsection (5) of this section and notwithstanding RCW 84.36.010 or other statutes to the contrary, the director shall pay by April 30th of each year on game lands in each county, if requested by an election under RCW 77.12.201, an amount in lieu of real property taxes equal to that amount paid on similar parcels of open space land taxable under chapter 84.34 RCW or the greater of seventy cents per acre per year or the amount paid in 1984 plus an additional amount for control of noxious weeds equal to that which would be paid if such lands were privately owned. This amount shall not be assessed or paid on department buildings, structures, facilities, game farms, fish hatcheries, tidelands, or public fishing areas of less than one hundred acres.

(2) "Game lands," as used in this section and RCW 77.12.201, means those tracts one hundred acres or larger owned in fee by the department and used for wildlife habitat and public recreational purposes. All lands purchased for wildlife habitat, public access or recreation purposes with federal funds in the Snake River drainage basin shall be considered game lands regardless of acreage.

(3) This section shall not apply to lands transferred after April 23, 1990, to the department from other state agencies.

(4) The county shall distribute the amount received under this section in lieu of real property taxes to all property taxing districts except the state in appropriate tax code areas the same way it would distribute local property taxes from private property. The county shall distribute the amount received under this section for weed control to the appropriate weed district.

(5) For the 2011-2013 fiscal biennium, the director shall pay by April 30th of each year on game lands in each county, if requested by an election under RCW 77.12.201, an amount in lieu of real property taxes and shall be distributed as follows:

These amounts shall not be assessed or paid on department buildings, structures, facilities, game farms, fish hatcheries, tidelands, or public fishing areas of less than one hundred acres.

Sec. 926. RCW 79.22.010 and 2003 c 334 s 205 are each amended to read as follows:

(1) The department has the power to accept gifts and bequests of money or other property, made in its own name, or made in the name of the state, to promote generally the interests of reforestation or for a specific named purpose in connection with reforestation, and to acquire in the name of the state, by purchase or gift, any lands which by reason of their location, topography, or geological formation, are chiefly valuable for purpose of developing and growing timber, and to designate such lands and any lands of the same character belonging to the state as state forest lands; and may acquire by gift or purchase any lands of the same character.

(2) The department has the power to seed, plant, and develop forests on any lands, purchased, acquired, or designated by it as state forest lands, and shall furnish such care and fire protection for such lands as it shall deem advisable.

(3) Upon approval of the board of county commissioners of the county in which the land is located such gift or donation of land may be accepted subject to delinquent general taxes thereon, and upon such acceptance of such gift or donation subject to such taxes, the department shall record the deed of conveyance thereof and file with the assessor and treasurer of the county wherein such land is situated, written notice of acquisition of such land, and that all delinquent general taxes thereon, except state taxes, shall be canceled, and the county treasurer shall thereupon proceed to make such cancellation in the records of the county treasurer. (Thereafter, such lands)

(4)(a) Lands acquired under this section shall be held in trust, protected, managed, and administered upon, and the proceeds therefrom disposed of, under RCW 79.22.040.
(b) During the 2011-2013 fiscal biennium, the legislature may appropriate any proceeds derived subject to this section from the forest development account consistent with RCW 79.64.100.

Sec. 927. RCW 79.22.040 and 2003 c 334 s 206 are each amended to read as follows:

(1) If any land acquired by a county through foreclosure of tax liens, or otherwise, comes within the classification of land described in RCW 79.22.010 and can be used as state forest land and if the department deems such land necessary for the purposes of this chapter, the county shall, upon demand by the department, deed such land to the department and the land shall become a part of the state forest lands.

(2) Such land shall be held in trust and administered and protected by the department in the same manner as other state forest lands.

(3)(a) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the money derived subject to this section are the net proceeds from the contract harvesting sale.
(b) During the 2011-2013 fiscal biennium, the legislature may appropriate the money derived subject to this section from the forest development account consistent with RCW 79.64.100.

Sec. 928. RCW 79.64.040 and 2011 1st sp.s. c 50 s 966 and 2011 c 216 s 16 are each reenacted and amended to read as follows:

(1) The board shall determine the amount deemed necessary in order to achieve the purposes of this chapter and shall provide by rule for the deduction of this amount from the moneys received from all leases, sales, contracts, licenses, permits, easements, and rights-of-way issued by the department and affecting state lands, community
forest trust lands, and aquatic lands, provided that no deduction shall be made from the proceeds from agricultural college lands.

(2) Moneys received as deposits from successful bidders, advance payments, and security under RCW 79.15.100, 79.15.080, and 79.11.150 prior to December 1, 1981, which have not been subjected to deduction under this section are not subject to deduction under this section.

(3) Except as otherwise provided in subsections (4) and (6) of this section, the deductions authorized under this section shall not exceed twenty-five percent of the moneys received by the department in connection with any one transaction pertaining to state lands and aquatic lands other than second-class tide and shore lands and the beds of navigable waters, and fifty percent of the moneys received by the department pertaining to second-class tide and shore lands and the beds of navigable waters.

(4) Deductions authorized under this section for transactions pertaining to community forest trust lands must be established at a level sufficient to defray over time the management costs for activities prescribed in a parcel's management plan adopted pursuant to RCW 79.155.080 and, if deemed appropriate by the board consistent with RCW 79.155.090, to reimburse the state and any local entities' eligible financial contributions for acquisition of the parcel.

(5) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys received subject to this section are the net proceeds from the contract harvesting sale.

(6) During the (2009-2011) 2011-2013 fiscal biennium (and fiscal year 2012)), the twenty-five percent limitation on deductions set in subsection (3) of this section may be increased up to thirty percent by the board.

Sec. 929. RCW 79.64.100 and 2003 c 334 s 219 are each amended to read as follows:

There is created a forest development account in the state treasury. The state treasurer shall keep an account of all sums deposited therein and expended or withdrawn therefrom. Any sums placed in the forest development account shall be pledged for the purpose of paying interest and principal on the bonds issued by the department under RCW 79.22.080 and 79.22.090 and the provisions of this chapter, and for the purchase of land for growing timber. Any bonds issued shall constitute a first and prior claim and lie against the account for the payment of principal and interest. No sums for the above purposes shall be withdrawn or paid out of the account except upon approval of the department.

Appropriations may be made by the legislature from the forest development account to the department for the purpose of carrying on the activities of the department on state forest lands, lands managed on a sustained yield basis as provided for in RCW 79.10.320, and for reimbursement of expenditures that have been made or may be made from the resource management cost account in the management of state forest lands. For the 2011-2013 fiscal biennium, moneys from the forest development account shall be distributed as directed in section 706 of this act to the beneficiaries of the revenues derived from state forest lands. During the 2011-2013 fiscal biennium, the legislature may appropriate moneys in the forest development account to support emergency fire suppression activities in a manner that, at a maximum, represents the proportion of land that the department manages in comparison to the total land the department conducts emergency fire suppression activities on.

Sec. 930. RCW 79.105.150 and 2011 2nd sp.s. c 9 s 911 are each amended to read as follows:

(1) After deduction for management costs as provided in RCW 79.64.040 and payments to towns under RCW 79.115.150(2), all moneys received by the state from the sale or lease of state-owned aquatic lands and from the sale of valuable material from state-owned aquatic lands shall be deposited in the aquatic lands enhancement account which is hereby created in the state treasury. After

appropriation, these funds shall be used solely for aquatic lands enhancement projects; for the purchase, improvement, or protection of aquatic lands for public purposes; for providing and improving access to the land; and for volunteer cooperative fish and game projects. During the (2009-2011 and) 2011-2013 fiscal (biennium), the aquatic lands enhancement account may also be used for research and development as part of the adaptive management process and for developing a planning report for McNeil Island. During the (2009-2011 and) 2011-2013 fiscal (biennium), the legislature may transfer from the aquatic lands enhancement account to the state general fund such amounts as reflect excess fund balance of the account. During the 2011-2013 fiscal biennium, the aquatic lands enhancement account may be used to support the shellfish program, the ballast water program, parks, hatcheries, and the Puget Sound toxic sampling program at the department of fish and wildlife, and the knotweed program at the department of agriculture. During the 2011-2013 fiscal biennium, the legislature may transfer from the aquatic lands enhancement account to the marine resources stewardship trust account funds for the purposes of RCW 43.372.070.

(2) In providing grants for aquatic lands enhancement projects, the recreation and conservation funding board shall:

(a) Require grant recipients to incorporate the environmental benefits of the project into their grant applications;

(b) Utilize the statement of environmental benefits, consideration, except as provided in RCW 79.105.610, of whether the applicant is a Puget Sound partner, as defined in RCW 90.71.010, whether a project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, and except as otherwise provided in RCW 79.105.630, and effective one calendar year following the development and statewide availability of model evergreen community management plans and ordinances under RCW 35.105.050, whether the applicant is an entity that has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030 in its prioritization and selection process; and

(c) Develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grants.

(3) To the extent possible, the department should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270.

(4) The department shall consult with affected interest groups in implementing this section.

(5) After January 1, 2010, any project designed to address the restoration of Puget Sound may be funded under this chapter only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310, and except as otherwise provided in RCW 79.105.630, and effective one calendar year following the development and statewide availability of model evergreen community management plans and ordinances under RCW 35.105.050, whether the applicant is an entity that has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030 in its prioritization and selection process; and

Sec. 931. RCW 79.105.240 and 2005 c 155 s 147 are each amended to read as follows:

Except as otherwise provided by this chapter, annual rent rates for the lease of state-owned aquatic lands for water-dependent uses shall be determined as follows:

(1)(a) The assessed land value, exclusive of improvements, as determined by the county assessor, of the upland tax parcel used in conjunction with the leased area or, if there are no such uplands, of the nearest upland tax parcel used for water-dependent purposes divided by the parcel area equals the upland value.

(b) The upland value times the area of leased aquatic lands times thirty percent equals the aquatic land value.

(2) As of July 1, 1989, and each July 1st thereafter, the department shall determine the real capitalization rate to be applied to water-dependent aquatic land leases commencing or being adjusted under subsection (3)(a) of this section in that fiscal year. The real capitalization rate shall be the real rate of return, except that until June 30, 1989, the real capitalization rate shall be five percent and
(3) The annual rent shall be:
(a) Determined initially, and redetermined every four years or as otherwise provided in the lease, by multiplying the aquatic land value times the real capitalization rate; and
(b) Adjusted by the inflation rate each year in which the rent is not determined under (a) of this subsection.
(4) If the upland parcel used in conjunction with the leased area is not assessed or has an assessed value inconsistent with the purposes of the lease, the nearest comparable upland parcel used for similar purposes shall be substituted and the lease payment determined in the same manner as provided in this section.
(5) For the purposes of this section, "upland tax parcel" is a tax parcel, some portion of which has upland characteristics. Filled tidelands or shorelands with upland characteristics which abut state-owned aquatic land shall be considered as uplands in determining aquatic land values.
(6) The annual rent for filled state-owned aquatic lands that have the characteristics of uplands shall be determined in accordance with RCW 79.105.270 in those cases in which the state owns the fill and has a right to charge for the fill.
(7) For all new leases for other water-dependent uses, issued after December 31, 1997, the initial annual water-dependent rent shall be determined by the methods in subsections (1) through (6) of this section.
(8) During the 2011-2013 fiscal biennium, the department may calculate annual rent for qualifying marinas as provided in section 308(12) of this act.

Moneys received from the marine fuel tax refund account under RCW 79A.25.070 shall be deposited into the account. Grants, gifts, or other financial assistance, proceeds received from public bodies as administrative cost contributions, and moneys made available to the state for fish and wildlife for the purposes of activities related to aquatic and marine enforcement.

Sec. 933. RCW 86.26.007 and 2011 1st sp.s. c 50 s 976 are each amended to read as follows:

The flood control assistance account is hereby established in the state treasury. At the beginning of the 2005-2007 fiscal biennium, the state treasurer shall transfer three million dollars from the general fund to the flood control assistance account. Each biennium thereafter the state treasurer shall transfer four million dollars from the general fund to the flood control assistance account, except that during the (2009-2011 and) 2011-2013 fiscal biennium (biennium), the state treasurer shall transfer (two) one million dollars from the general fund to the flood control assistance account. Moneys in the flood control assistance account may be spent only after appropriation for purposes specified under this chapter.

Sec. 934. RCW 90.48.390 and 2008 c 329 s 925 are each amended to read as follows:

The coastal protection fund is established to be used by the department as a revolving fund for carrying out the purposes of restoration of natural resources under this chapter and chapter 90.56 RCW. To this fund there shall be credited penalties, fees, damages, charges received pursuant to the provisions of this chapter and chapter 90.56 RCW, compensation for damages received under this chapter and chapter 90.56 RCW, and an amount equivalent to one cent per gallon from each marine use refund claim under RCW 82.36.330.

Sec. 935. 2010 c 23 s 205 (uncodified) is amended to read as follows:

(1) The legislature finds that this state's tax policy with respect to the taxation of transactions between affiliated entities and the income derived from such transactions (intercompany transactions) has motivated some taxpayers to engage in transactions designed solely or primarily to minimize the tax effects of intercompany transactions. The legislature further finds that some intercompany transactions result from taxpayers that are required to establish affiliated entities to comply with regulatory mandates and that transactions between such affiliates effectively increases the tax burden in this state on the affiliated group of entities.

(2) Therefore, as existing resources allow, the department of revenue is directed to conduct a review of the state's tax policy with respect to the taxation of intercompany transactions. The review must include the impacts of such transactions under the state's business and occupation tax and state and local sales and use taxes. The department may include other taxes in the review as it deems appropriate.

(3) In conducting the review, the department must examine how this state's tax policy compares to the tax policy of other states with respect to the taxation of intercompany transactions. The department's review must include an analysis of potential alternatives to the current policy of taxing intercompany transactions, including their estimated revenue impacts if practicable.

(4) In conducting this review, the department may seek input from members of the business community and others as it deems appropriate.

(5) The department must report its findings to the fiscal committees of the house of representatives and senate by December 1, 2010. However, if the department has not completed its review by December 1, 2010, the department must provide the fiscal committees of the legislature with a brief status report by December 1, 2010, and the final report by December 1, 2011.

NEW SECTION. Sec. 936. A new section is added to 2011 1st sp.s. c 50 (uncodified) to read as follows:

It is the intent of the legislature that regulatory agencies receiving appropriations in this act work with the office of regulatory assistance to:

(1) Establish a small business liaison team to assist small businesses with permitting and regulatory issues.

(2) Take action to assure that additional violations or corrective actions that could have been discovered and noted in the original violation or correction notice are not subsequently added and to provide a single list of any violations discovered during the regulatory visit or inspection;

(3) Provide notice about when the business may expect the results of a technical assistance or regulatory visit;

(4) Provide information about how the business may provide anonymous feedback regarding a technical assistance or other regulatory visit; and

(5) Provide information regarding the role of the agency's small business liaison as a neutral party within the agency, as well as contact information for the liaison.

Pension contribution rates for the public employees' retirement system, the public safety employees' retirement system, the school employees' retirement systems, and the teachers' retirement system are established.

GOVERNOR'S VETO MESSAGES
Sixty Second Legislature
2011 Second Special Legislative Session

VETO MESSAGE ON SHB 2058

December 20, 2011

The Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I commend you and your Senate colleagues for your early action 2011 supplemental operating budget. I fully recognize the difficult decisions that had to be made in a short period of time.

As I sign this appropriations bill, there are many issues of critical importance to our state that must still be addressed. I commit to working with you to craft a swift and responsible supplemental budget early in the 2012 legislative session.

I am returning, without my approval as to Section 203(9), Substitute House Bill 2058 entitled:

“AN ACT Relating to fiscal matters.” Section 203(9), page 38, Department of Social and Health Services, Juvenile Rehabilitation Program, Maintaining Maple Lane School.

This proviso directs the Department of Social and Health Services to maintain the physical plant and protect state assets at the closed Maple Lane School. No additional funds were provided to perform these tasks. For this reason, I have vetoed Section 203(9). However, since the future use of the facility will be significantly affected by ceasing all maintenance, utilities, and security activities, I am directing the agency to temporarily provide minimum operating systems and security so the Legislature has the opportunity to discuss future uses for the facility. The agency will cease all support of the facility no later than April 1, 2012, unless additional legislative appropriation and direction are given.

With the exception of Section 203(9), Substitute House Bill 2058 is approved.

Respectfully submitted,
Christine Gregoire

GOVERNOR'S VETO MESSAGES
Sixty Second Legislature
2012 Legislative Session

VETO MESSAGE ON SHB 2127

May 2, 2012

The Honorable Speaker and Members
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 124; 131(5); 204(1)(f); 205(2)(c); 205(2)(d); 211(6); 213(40); 213(44); 213(45); 213(49); 213(54); 302(13); 308, page 144, lines 27-28; 308(2); 308(12); 505(9); 511(18); 601(7); 714; 919; 925; 926; 930; and 935, Third Engrossed Substitute House Bill 2127 entitled:

"AN ACT Relating to fiscal matters."
Section 124, page 18, Office of the State Treasurer, Supplemental Budget Reductions
The State Treasurer has made significant contributions to solving the state's budget problem, including proposing a $12.6 million transfer from the State Treasurer's Service Account to the General Fund for my proposed 2012 supplemental operating budget. The Legislature increased this transfer to the General Fund by another $3.5 million in Section 804 of this budget. This section would reduce appropriations to the Office of the State Treasurer by another $1.2 million. The Treasurer believes this 15 percent reduction would likely lead to lower investment earnings and higher risks to public funds. Moreover, this reduction in the Treasurer's appropriation does not help the General Fund. Rather, it is the transfers in Section 804 that help the General Fund and this appropriation reduction was not included in the transfer. I am leaving Section 804 intact, but
given the impacts that the appropriation reduction could have on timely administration of state finances, I am vetoing Section 124. The Treasurer has volunteered to place actual savings in reserve for a later transfer to the General Fund to help balance the next supplemental budget. For these reasons, I have vetoed Section 124.

Section 131(5), pages 32-34, Office of Financial Management, Office of Regulatory Assistance

Section 935, page 276, Office of Regulatory Assistance and Regulatory Agencies, Small Business Activities

The Office of Regulatory Assistance (ORA) is directed to coordinate an agency small business liaison team with regulatory agencies to recommend improvements to inspection practices and customer service. In addition, ORA must develop anonymous customer service surveys related to regulatory agencies and post them to its website. Similar activities were the subject of legislation that failed to pass the Legislature. The underlying goals of this proviso have already been incorporated into Executive Order 12-01, which directed ORA to establish a small business liaison program, conduct regular outreach with small business groups to streamline and reduce redundancy in regulatory practices and inspections, and establish a web-based customer survey tool for input from all businesses. However, these legislative provisos also set prescriptive requirements on regulatory agencies to document inspection violations and corrective notices. These requirements should be established through a statutory change rather than the budget. In addition, insufficient funding is provided to ORA and regulatory agencies to implement these requirements. For these reasons, I have vetoed Section 131 (5) and Section 935.

Section 204(1)(f), pages 60-61, Department of Social and Health Services, Jail Services Study

The Department of Social and Health Services is directed to submit a report to the Legislature by December 1, 2012, regarding the utilization of mental health services by those who are incarcerated or have been recently released from incarceration. No funding was provided to the Department to identify and compile the data necessary to compose the report by the deadline. For this reason, I have vetoed Section 204(1)(f).

Section 205(2)(c), pages 71-72, Department of Social and Health Services, Student Transition Funding

Funding is provided to the Department to contract with school districts for instructional support of new students with developmental disabilities that are admitted to a Residential Habilitation Center (RHC). This budget contains three mechanisms for school districts to obtain additional funding for providing special education services to students housed at RHCs, including one program based on demonstrated need for special education funding in excess of state and federal funding otherwise provided. Only one district would be eligible for this transition funding and it failed to demonstrate excessive costs related to special education for the 2011-12 school year. Because school districts have access to other fund sources when there is a demonstrated need, I have vetoed Section 205(2)(c).

Section 205(2)(d), page 72, Department of Social and Health Services, Rainier School Long Range Development Plan

This proviso appropriates $600,000 to create a long-range vision and development plan for Rainier School. Chapter 30, Laws of 2011 established a task force to make recommendations regarding the development of a system of services for persons with developmental disabilities and the state's long-term needs for residential habilitation center capacity. The long-range vision and development plan for Rainier School should be and is part of this larger, statewide strategy. For this reason, I have vetoed Section 205(2)(d).

Section 211(6), pages 87-88, Department of Social and Health Services, Funding for Community Initiative

The Department of Social and Health Services (DSHS) is required to maintain separate centralized administrative services for community health and safety networks that remain after the sunset of the Family Policy Council. DSHS has the administrative capacity to support this initiative within its current infrastructure. A separate administrative system within the Secretary's office is not necessary. For this reason, I have vetoed Section 211(6).

Section 213(40), page 103, Health Care Authority, Critical Access Hospitals
This proviso requires the Health Care Authority (HCA), in collaboration with numerous parties, to submit a design for rural health system access and quality incentive payments to the Legislature in December 2012. This represents a significant undertaking for which no funding is provided. However, the issue of how to use limited resources to best meet the health care needs of our state's rural residents is an important one. I understand the Legislature intends to focus on this issue, and I will ask my staff and the staff of the relevant agencies to participate in and support these efforts. For this reason, I have vetoed Section 213(40).

Section 213(44), page 106, Health Care Authority, Facility Fees

This item directs the HCA to complete a study on the payment of facility fees and to issue a report to the Legislature by November 1, 2012. Both funding and time is insufficient for the successful completion of this study. Further, the Legislature passed Engrossed Substitute House Bill2582 this past session which will require hospitals to report to the Department of Health a number of data requirements in regard to facility fees after January 1, 2013. It is premature to conduct this study until the necessary data are submitted and analyzed. For these reasons, I have vetoed Section 213(44).

Section 213(45), pages 106-107, Health Care Authority, Medicaid Managed Care

Section 213(45) requires the director of the HCA to make specific certifications of network adequacy to the Legislature and the Governor prior to awarding a contract for Medicaid managed care services. It also requires a rebidding process in counties where a certification cannot be established and prohibits a reversion to fee-for-service as a result of the procurement process. I am concerned that this proviso circumvents state laws requiring competitive procurements to be free from influence or bias. Competitive procurements ensure that public contracts are awarded based on quality and cost. The agency recently completed its procurement process for Medicaid managed care services. New competitors in the market were able to offer innovative proposals without sacrificing access or quality of care, saving taxpayers $131 million in this biennium. This was done under the specific directive in this operating budget to "place substantial emphasis upon price competition in the selection of successful bidders," when awarding managed care contracts for Medicaid enrollees. A federal judge recently upheld the competitive process. Unfortunately, some competitors did not compete on price, quality, and innovation criteria. This result is what we expect from a competitive procurement process. For these reasons, I have vetoed Section 213(45).

Section 213(49), page 108, Health Care Authority, Lowest Cost Generic Bidding

This proviso permits the HCA to enter into a competitive bidding process for the purchase of lowest cost generic drugs within the Medicaid program. The HCA already has the statutory authority to pursue competitive contracts through the Preferred Drug Program, and therefore, this proviso is not necessary. The current procurement model used by the agency has proven effective in obtaining the lowest cost generic on the market. Increased use of generic drugs has reduced Medicaid expenditures by $118 million in the past five fiscal years. The model also is flexible in meeting the needs of patients and pharmacies by not limiting the choice of generic products and instead providing incentives for dispensing at the lowest cost. However, if another model were to prove more effective, current law gives the HCA the authority to move forward. For these reasons, I have vetoed Section 213(49).

Section 213(54), page 109, Health Care Authority, Rural Health Clinics

The HCA is directed to develop an alternative payment and reconciliation methodology for rural health clinics by December 1, 2012. This proviso is unnecessary as the HCA is committed to continuing discussions with the Rural Health Clinic Association of Washington and the Centers for Medicare and Medicaid Services to identify viable options for developing alternative payment and reconciliation methods. Groundwork was laid for this discussion with federal regulators last summer and fall, as the agency began exploratory discussions with the new federal Center for Medicare and Medicaid Innovation to gauge federal tolerance for innovation in this area. In addition, too little time and money were provided to develop the study. For these reasons, I have vetoed Section 213(54).

Section 302(13), page 136, Department of Ecology, Implementation of Children's Safe Products Legislation

This proviso funds the Department of Ecology's responsibilities for implementing either Senate Bi116120 or House Bi12821, regarding children's safe products, with legislative direction that
the appropriations would lapse if the bills were not enacted. These bills did not pass. For this reason, I have vetoed Section 302(13).
Section 308, page 144, lines 27-28, Department of Natural Resources, Fiscal Year 2013
General Fund-State Appropriation Change

Section 308(2), page 146, Department of Natural Resources, Emergency Fire Suppression
Section 925, page 268, Department of Natural Resources, Forest Development Account
Section 926, pages 268-269, Department of Natural Resources, Forest Development Account

Section 308(2) shifts $2.1 million in fire suppression costs to the Forest Development Account, which is a trust management account used by the Department of Natural Resources (DNR) to pay for management of state forest trust lands that benefit 19 timber-dependent counties. It is not appropriate to require these 19 counties to bear the statewide costs of fire suppression, even partially, while other trusts and timber landowners remain unaffected. Additionally, $623,000 in fire suppression overtime savings is assumed in this reduction, which is not feasible to achieve by DNR and its partners to manage wildfire responses. For these reasons, I have vetoed Section 308(2).

To restore funding sufficient to cover the $2.1 million in fire suppression costs shifted back to the General Fund, I have also vetoed the fiscal year 2013 General Fund appropriation revision found in Section 308, page 144, lines 27-28. Because this veto will restore more funding than necessary to cover the fire suppression costs shifted back to General Fund-State, the Commissioner of Public Lands has agreed, at my request, to place $1.2 million General Fund-State in reserve for fiscal year 2013.

Sections 925 and 926 make statutory changes needed to allow the use of the Forest Development Account for fire suppression costs by the Department of Natural Resources proposed in Section 308(2). Because I have vetoed Section 308(2), I have also vetoed Section 925 and Section 926.

Section 308(12), pages 148-149, Department of Natural Resources, Marina Rent Rates
Section 930, pages 272-273, Department of Natural Resources, Calculation of Annual Rent for Qualifying Marinas

These items have the effect of reducing marina rent solely benefiting up to six marinas in our state. Revising marina rent rates has long been an issue before the Legislature. The Department has completed several different studies and options for revising marina rents and introduced legislation as early as 2011 to implement these changes. These studies have clearly demonstrated that the current method to set marina rents is inequitable. The Legislature needs to take action on a permanent statutory change that addresses rents for all marinas within the state, not simply “pilot” a rent reduction for a few marinas through the budget. Additionally, the lower rent rates would reduce revenue to the Aquatic Lands Enhancement Account by $75,000 per year, an account which is already over-appropriated by $2 million. For these reasons, I have vetoed Section 308(12) and Section 930.

Section 505(9), page 180, Office of the Superintendent of Public Instruction, Development of New Transportation Allocation Formula

The Office of the Superintendent of Public Instruction (OSPI) is required to develop a new state unit-cost pupil transportation funding allocation for schools, or a hybrid formula, for legislative consideration and potential adoption. From 2006 to 2011, the state invested more than $1,000,000 to study and implement pupil transportation formula options. Consultants for the study, along with a working group of school district finance and transportation experts, recommended the expected cost model of funding over a unit-cost model. This model was enacted by the Legislature, effective September 1, 2011, and OSPI has proceeded with implementation. The state has carefully considered various formula options and invested considerable effort into developing the expected cost model. Another pupil transportation study is unwarranted. For these reasons, I have vetoed Section 505(9).

Section 511(18), page 192, Office of the Superintendent of Public Instruction, Education Reform Program, American Academy

This proviso allocates $200,000 solely for The American Academy to provide social support and academic interventions to at-risk students. The American Academy is one of many programs in the state providing services to at-risk students. This proviso singles out a specific provider, The American Academy, for additional funding when other programs serving at-risk students are
equally deserving. For this reason, I have vetoed Section 511(18).

Section 601(7), page 200, State Board for Community and Technical Colleges, Bellevue College Baccalaureate Degrees

Bellevue College would be temporarily authorized through this budget proviso to offer baccalaureate degrees, rather than applied baccalaureate degrees as currently authorized. The current applied baccalaureate pilot program at Bellevue College and other participating institutions shows promise. While expansion of baccalaureate degree programs into the state’s community and technical college system may ultimately prove to be sound public policy, such authorization through a budget proviso is the wrong approach. The Legislature endorsed the System Design Plan in 2010 for the purpose of establishing a process for the expansion of new programs and degrees where there is demand and to ensure financial sustainability. This important planning process cannot succeed if independent authorization is given in a budget proviso. Moreover, it is unlikely that implementation of degree programs on a new campus can be completed by June 30, 2013, when the authority in this subsection will expire. For these reasons, I have vetoed Section 601(7).

Section 714, pages 232-233, Office of Financial Management, Fiscal Year 2013 Information Technology Savings

Section 714 directs the Office of Financial Management to identify information technology (IT) savings and to reduce state agency allotments by $10 million in all funds. The 2011-13 budget already includes another $60 million in central service reductions, as well as administrative cuts in multiple agencies and the expectation that agencies will under-spend their revised budgets by $120 million of reversions. While the state will continue to pursue savings in IT and other back office functions, we have to be realistic about the detrimental effect of random reduction targets. At some point, agencies will not be able to deliver expected services even with increased productivity. So, enough is enough. For this reason, I have vetoed Section 714.

Section 919, pages 253-257, Office of the Governor, Across-the-Board Reductions

Existing law gives the Governor authority to impose across-the-board spending reductions when a cash deficit is projected in a particular fund. To prevent the necessity of a special session if revenues decline, I asked the Legislature for more flexibility in the event there was a need to reduce State General Fund expenditure authority. However, this language actually reduces executive flexibility by mandating that all provisoed amounts be reduced by the same percentage as separate appropriations. While agencies must respect legislative priorities when implementing across-the-board reductions, mandating the preservation of provisoed funds over core services is the wrong approach. For these reasons, I have vetoed Section 919.

I am not vetoing Section 307, which transfers $3.3 million of the Department of Fish and Wildlife’s enforcement expenses from the State General Fund to the Recreation Resources Account. However, I do have concerns about this provision of the bill. A veto would not restore the $3.3 million General Fund reduction and would result in the elimination of 30 enforcement officer positions. The Department cannot effectively enforce state fish and wildlife regulations with a reduction of this magnitude. The Recreation Resources Account provides grants for local boating projects across the state. The Legislature should reconsider this transfer next session.

With the exception of Sections 124; 131(5); 204(1)(t); 205(2)(c); 205(2)(d); 211(6); 213(40); 213(44); 213(45); 213(49); 213(54); 302(13); 308, page 144, lines 27-28; 308(2); 308(12); 505(9); 511(18); 601(7); 714; 919; 925; 926; 930; and 935, Third Engrossed Substitute House Bill 2127 is approved.

VETO MESSAGE ON ESHB 2190

March 23, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:
I am returning herewith, without my approval as to Sections 102(9), 604, 212(2), 216(7), 602(4), and 717, Engrossed Substitute House Bill 2190 entitled:

"AN ACT Relating to transportation funding and appropriations."

Section 102(9), pages 4-5, Office of Financial Management
Section 604, page 93, Washington State Patrol

These provisos require the Office of the Chief Information Officer (OCIO) and the Washington State Patrol to conduct a technical review of the State Patrol’s conversion to narrowbanding. Funding was not provided in either proviso, and review of the narrowbanding project has already been done by external entities. For these reasons, I have vetoed Section 102(9) and Section 604.

Section 212(2), page 28, Department of Transportation

This proviso directs the Department to provide a report about a possible move of the Aviation Division from Arlington to Olympia, and states that this move cannot occur unless approved by the Legislature during the 2013 session. A financial analysis has already been completed that identifies savings by moving the Aviation Division office to a state-owned building. For this reason, I have vetoed Section 212(2).

Section 216(7), page 35, Department of Transportation

This proviso requires the Secretary of the Department of Transportation, upon the request of a county, to reduce the maximum speed limits on a state highway in proximity to a state university research and extension center. As highway safety remains one of my top transportation concerns, I have instructed the Department to work with the affected counties identified in this proviso by June 30, 2012. Nevertheless, for safety reasons, state highway speed limits should be managed in a consistent manner at the state level. For this reason, I have vetoed Section 216(7).

Section 602(4), page 91, Department of Transportation

This proviso requires that the Department of Transportation’s 2013–15 biennial budget submittal include a three percent reduction in workforce in Information Technology, Program Delivery Management, Administration and Support, and Planning and Research. The Department believes it is more appropriate that the budget be informed by workload needs, federal planning requirements and other management responsibilities, which are balanced against project delivery expectations and available resources. The proviso also imposes a management-to-staffing ratio on the Department’s administrative operating programs. These programs require a higher-than-average concentration of managers as they provide statewide management and oversight of the highways construction program and other core programs. Therefore, it is not appropriate to impose a management-to-staffing ratio on these programs. For these reasons, I have vetoed Section 602(4), and instructed the Department to continue to find efficiencies and make reductions in its administrative overhead this biennium and in the 2013–15 biennial budget submittal. For this reason, I have vetoed Section 602(4).

Section 717, page 98, Conditionally Additive Appropriations

This proviso ties the appropriation of additional transportation funding in sections 702, 705, 708, 710, 711(2), 712, and 713 to the passage of Engrossed Substitute Senate Bill 6455, which did not pass. In order to preserve the appropriations, I have vetoed Section 717.

With the exception of Sections 102(9), 604, 212(2), 216(7), 602(4) and 717, Engrossed Substitute House Bill 2190 is approved.

Respectfully submitted,

Christine Gregoire
Governor

VETO MESSAGE ON ESSHB 2319

March 23, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Section 26, Engrossed Second Substitute House Bill 2319 entitled:

"AN ACT Relating to furthering state implementation of the health benefit exchange and related provisions of the affordable care act."
Section 26 requires the exchange to suspend operations if at any time it is not self-sustaining. There are other sections of the bill which require the exchange to be self-sustaining. Section 26 is redundant, and the phrase “at any time” adds an unnecessary element of uncertainty and creates risks of litigation that could interfere with exchange operations. For these reasons I have vetoed Section 26.

Although there are other sections of the bill about which concerns have been raised, I am approving them for the following reasons:

Section 6 imposes market rules essential to help health plans sold in the exchange remain affordable by protecting them against adverse selection, with great care taken not to inappropriately burden the general insurance market. Concern that this section would apply to other than individual or small group plans is misplaced. Such a reading is unsupported by the legislative history and makes no sense in light of the statutory purpose and the corresponding provisions of the federal Affordable Care Act.

Section 7 has also produced some confusion about the effective date when it becomes law and the later operative date when the Insurance Commissioner would implement its provisions. This section will become a statute in existing law on its effective date of June 7, 2012; however, it will not become operative and apply to any health plans until January 1, 2014. This is because the referenced Section 1302 of the Affordable Care Act does not become operative until that later date. The Insurance Commissioner has advised me his office will not apply or enforce the provisions of Section 7 until January 1, 2014.

Section 25 effectively exempts “navigators” acting under the Affordable Care Act from the state licensing requirements applicable to insurance agents or brokers under chapter 48.17 RCW. These are individuals or organizations that will be charged with informing consumers about their new health insurance options – particularly low-income consumers who face language or cultural barriers. Section 25 conforms state law to recent rules issued by the United States Department of Health and Human Services which prohibit a state from requiring a navigator to hold an agent or broker license. These federal rules also call for the state to adopt separate consumer protection standards addressing the unique circumstances under which navigators will operate, which Section 25 does not preclude, and I expect our state will do.

With the exception of Section 26, Engrossed Second Substitute House Bill 2319 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON ESSHB 2483

March 30, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 570, Engrossed Second Substitute House Bill 2483 entitled:

"AN ACT Relating to higher education coordination."

The Legislature has passed two bills this session amending RCW 28B.117.020. To prevent a conflicting double amendment, I am vetoing Section 570 of Engrossed Second Substitute House Bill 2483. This section would correct a reference to the Higher Education Coordinating Board in RCW 28B.117.020. Substitute House Bill 2254 eliminates the reference and obviates the need for correction.

For this reason I have vetoed Section 570 of Engrossed Second Substitute House Bill 2483.
With the exception of Section 570, Engrossed Second Substitute House Bill 2483 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON EHB 2509

March 30, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Engrossed House Bill 2509 entitled:

"AN ACT Relating to improving workplace safety and health by enacting the blueprint for safety program."
Engrossed House Bill 2509 would require the Department of Labor and Industries to expand its voluntary technical assistance pilot program, the Blueprint for Safety Program, to an additional region of the state. Engrossed House Bill 2509 further states that funding for this program cannot be appropriated from the medical aid fund or accident fund, but shall be implemented within existing resources.

The goal of the Blueprint for Safety Program is to improve employee safety and lower costs by assisting those employers for which the traditional safety and health model has not been effective. This goal is laudable, and I will direct the Department to continue its work in this area. However, combining a mandated expansion of this labor-intensive program with restrictions on use of the medical aid fund or accident fund is problematic. These limits on funding sources could cause significant reductions in several important ongoing programs supported by other funds. Also, these limits would decrease the Department’s ability to ensure federal matching funds are not put in jeopardy.

This bill contains a single section that both expands the Blueprint for Safety Program and restricts use of resources. For this reason I have vetoed Engrossed House Bill 2509 in its entirety.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON SHB 2541

March 29, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute House Bill 2541 entitled:

"AN ACT Relating to sealing juvenile records."

The policy of this bill is covered in Substitute Senate Bill 6240. Further, the two sections in Substitute House Bill 2541 would result in double amendments of RCW 13.40.127 and RCW 13.50.050 that cannot be fully reconciled with Substitute Senate Bill 6240.

For these reasons I have vetoed Substitute House Bill 2541 in its entirety.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON ESHB 2570

March 30, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 1, Engrossed Substitute House Bill 2570 entitled:

"AN ACT Relating to metal property theft."

Section 1 creates a twenty-four member task force to study the issue of metal theft and make recommendations to the Legislature. As I have stated many times, I do not support the statutory creation of new boards, commissions, work groups, or task forces. I believe this task force can be assembled independently, by the interested parties, without the need for a statute. In the alternative, the Legislative Committee(s) with jurisdiction can make the issue part of its interim work plan. For these reasons, I have vetoed Section 1 of Engrossed Substitute House Bill 2570.

With the exception of Section 1, Engrossed Substitute House Bill 2570 is approved.

Respectfully submitted,
Christine Gregoire
Governor
VETO MESSAGE ON 3SHB 2585

March 30, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 2, Third Substitute House Bill 2585 entitled:

"AN ACT Relating to creating efficiencies for institutions of higher education."

Section 2 allows institutions of higher education to implement higher education health care special pay plans without the approval of the State Human Resources Director. Higher education health care special pay plans have existed for many years and the institutions do an excellent job in demonstrating the need for special pay ranges to be competitive with positions of a similar nature in the locality of the institutions. However, review of special pay plans by the State Human Resources Director prior to implementation is a necessary step to assess the impact of special pay ranges to the state’s compensation structure. Only the State Human Resources Director can provide this enterprise wide perspective. For this reason, I am vetoing Section 2 of Third Substitute House Bill 2585.

However, I appreciate the needs of institutions to find efficiencies in this process. Therefore, I am directing the State Human Resources Director to work with institutions of higher education to identify opportunities at the administrative level to streamline the process for reviewing special pay plans.

With the exception of Section 2, Third Substitute House Bill 2585 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON SHB 2657

March 29, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 3, Substitute House Bill 2657 entitled:

"AN ACT Relating to adoption support expenditures."

Section 3 requires the Department of Social and Health Services to convene a work group, as part of its children’s mental health redesign efforts, to develop recommendations to better address the mental health service needs of adoptive families and reduce the need to spend adoption support payments on mental health services. The Department of Social and Health Services is additionally required to issue recommendations to the Legislature by December 15, 2012.

While I appreciate the intent of this section, the Department of Social and Health Services has already included the convening of a similar work group in its plan for improvements to the children's mental health system. I am directing the Secretary of the Department of Social and Health Services to consider the Legislature's intent in the composition and tasks of the work group and to keep the Legislature informed of its efforts. Creation of a work group in statute and the preparation of a formal report are not necessary. For this reason, I have vetoed Section 3 of Substitute House Bill 2657.

With the exception of Section 3, Substitute House Bill 2657 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON ESHB 2692

March 29, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington
Ladies and Gentlemen:

I have approved, except for Section 1, Engrossed Substitute House Bill 2692 entitled:

“AN ACT Relating to the reduction of the commercial sale of sex.”

I am vetoing Section 1 because it amends the same section of the Revised Code of Washington that is amended in Section 3 of Engrossed Substitute House Bill 1983. The amendments cannot be reconciled. For this reason I have vetoed Section 1 of Engrossed Substitute House Bill 2692.

With the exception of Section 1, Engrossed Substitute House Bill 2692 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON HB 2834

May 2, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 4, House Bill 2834 entitled:

“AN ACT Relating to providing cost savings for local governments by reducing a limited number of reporting requirements.”

Section 4 contains two directives. The first requires the Office of Financial Management (OFM) to conduct a review of reports, programs, and mandates required of state and local governments to determine those that are obsolete or unnecessary. The second requires OFM to develop and submit executive request legislation to terminate specific reports, programs, and mandates based on the review. While I agree that conducting a sunset review of requirements imposed on state and local governments would be beneficial, I do not believe it is appropriate for the Legislature to mandate the content of executive request legislation. Article III, section 6 of the Washington Constitution provides that the Governor shall recommend to the Legislature such measures as the Governor deems expedient for their action. Section 4 is inconsistent with this constitutional provision and the constitutional separation of powers.

I will direct OFM to work with statewide organizations representing cities and counties to create a process to review reports, mandates, and programs that create additional expenses for state and local governments. OFM will report to the Governor and the Legislature and submit recommendations on executive request legislation to the Governor. For this reason, I have vetoed Section 4 of House Bill 2834.

With the exception of Section 4, House Bill 2834 is approved.

Respectfully submitted,
Christine O. Gregoire
Governor
