(6) The general contractor/construction manager and the public body shall select the firm submitting the highest scored final proposal using the evaluation factors and the relative weight of factors identified in the solicitation of proposals. The scoring of the nonprice factors must be made available at the opening of the fee and cost proposals. The general contractor/construction manager shall notify all proposers of the selection decision and make a selection summary of the final proposals, which shall be available to all proposers within two business days of such notification. The general contractor/construction manager may not evaluate or disqualify a proposal based on the terms of a collective bargaining agreement.

(((4))) (7) If the public body receives a timely written protest from a "most qualified firm," the general contractor/construction manager may not execute a contract for the protested subcontract work until two business days after the final protest decision issued by the public body is transmitted to the protestor. The protestor must submit its protest in accordance with the published protest procedures.

(8) If the general contractor/construction manager is unable to negotiate a satisfactory maximum allowable subcontract cost with the firm selected by public body and the general contractor/construction manager is not able to negotiate a satisfactory maximum allowable subcontract cost with the firm selected by the public body and the general contractor/construction manager to be fair, reasonable, and within the available funds, negotiations with that firm must be formally terminated and the general contractor/construction manager may negotiate with the next highest scored firm until an agreement is reached or the process is terminated.

(((6))) If the general contractor/construction manager receives a written protest from a bidder, it may not execute a contract for the subject work with anyone other than the protesting bidder, without first providing at least two full business days' written notice to all bidders of the intent to execute a contract for the subcontract bid package. The protesting bidder must submit written notice to the general contractor/construction manager of its protest no later than two full business days following the bid opening.

(7)) With the approval of the public body, the general contractor/construction manager may contract with the selected firm to provide preconstruction services during the design phase that may include life-cycle cost design considerations, value engineering, scheduling, cost estimating, constructability, alternative construction options for cost savings, and sequencing of work; and to act as the mechanical or electrical subcontractor during the construction phase.

(((4))) (10) The maximum allowable subcontract cost must be used to establish a total subcontract cost for purposes of a performance and payment bond. Total subcontract cost means the fixed amount for the detailed specified general conditions work, the negotiated maximum allowable subcontract cost, and the percent fee on the negotiated maximum allowable subcontract cost. Maximum allowable subcontract cost means the maximum cost to complete the work specified for the subcontract, including the estimated cost of work to be performed by the subcontractor's own forces, a percentage for risk contingency, negotiated support services, and approved change orders. The maximum allowable subcontract cost must be negotiated between the general contractor/construction manager and the selected firm when the construction documents and specifications are at least ninety percent complete. Final agreement on the maximum allowable subcontract cost is subject to the approval of the public body.

(((4))) (11) If the work of the mechanical contractor or electrical contractor is completed for less than the maximum allowable subcontract cost, any savings not otherwise negotiated as part of an incentive clause becomes part of the risk contingency included in the general contractor/construction manager's maximum allowable construction cost. If the work of the mechanical contractor or the electrical contractor is completed for more than the maximum allowable subcontract cost, the additional cost is the responsibility of that subcontractor. An independent audit, paid for by the public body, must be conducted ((upon completion of the contract)) to confirm the proper accrual of costs as outlined in the contract.

(((4))) (12) A mechanical or electrical contractor selected under this section may perform work with its own forces. In the event it elects to subcontract some of its work, it must select a subcontractor utilizing the procedure outlined in RCW 39.10.380.

Sec. 16. RCW 39.10.390 and 2007 c 494 s 306 are each amended to read as follows:

(1) Except as provided in this section, bidding on subcontract work or for the supply of equipment or materials by the general contractor/construction manager or its subsidiaries is prohibited.

(2) The general contractor/construction manager, or its subsidiaries, may bid on subcontract work or for the supply of equipment or materials if:
   (a) The work within the subcontract bid package or equipment or materials is customarily performed or supplied by the general contractor/construction manager;
   (b) The bid opening is managed by the public body and is in compliance with RCW 39.10.380; and
   (c) Notification of the general contractor/construction manager's intention to bid is included in the public solicitation of bids for the bid package or for the equipment or materials.

(3) In no event may the general contractor/construction manager or its subsidiaries ((purchase equipment or materials for assignment to subcontractor))
Sec. 17. RCW 39.10.440 and 2007 c 494 s 307 are each amended to read as follows:

(1) If determination of subcontractor eligibility prior to seeking bids is in the best interest of the project and critical to the successful completion of a subcontract bid package, the general contractor/construction manager and the public body may determine subcontractor eligibility to bid. The general contractor/construction manager and the public body must:

(a) Conduct a hearing and provide an opportunity for any interested party to submit written and verbal comments regarding the justification for conducting bidder eligibility, the evaluation criteria, and weights for each criteria and subcriterion.

(b) Publish a notice of intent to evaluate and determine bidder eligibility in a legal newspaper published in or as near as possible to that part of the county where the public work will be constructed at least fourteen calendar days before conducting a public hearing;

(c) Ensure the public hearing notice includes the date, time, and location of the hearing, a statement justifying the basis and need for performing eligibility analysis before bid opening, and how interested parties may, at least five days before the hearing, obtain the specific eligibility criteria and applicable weights given to each criteria and subcriterion that will be used during evaluation;

(d) After the public hearing, consider written and verbal comments received and determine if establishing bidder eligibility in advance of seeking bids is in the best interests of the project and critical to the successful completion of a subcontract bid package; and

(e) Issue a written final determination to all interested parties. All protests of the decision to establish bidder eligibility before issuing a subcontract bid package must be filed with the superior court within seven calendar days of the final determination. Any modifications to the eligibility criteria and weights shall be based on comments received during the public hearing process and shall be included in the final determination.

(2) Determinations of bidder eligibility shall be in accordance with the evaluation criteria and weights for each criteria established in the final determination and shall be provided to interested persons upon request. Any potential bidder determined not to meet eligibility criteria must be afforded ((one)) one opportunity to establish its eligibility. Protests concerning bidder eligibility determinations shall be in accordance with subsection (1) of this section.

Sec. 18. RCW 39.10.420 and 2012 c 102 s 1 are each amended to read as follows:

(1) The following public bodies of the state of Washington are authorized to award job order contracts and use the job order contracting procedure:

(a) The department of enterprise services;

(b) The state universities, regional universities, and The Evergreen State College;

(c) Sound transit (central Puget Sound regional transit authority);

(d) Every city with a population greater than seventy thousand and any public authority chartered by such city under RCW 35.21.730 through 35.21.755;

(e) Every county with a population greater than four hundred fifty thousand;

(f) Every port district with total revenues greater than fifteen million dollars per year;

(g) Every public utility district with revenues from energy sales greater than twenty-three million dollars per year;

(h) Every school district; and

(i) The state ferry system.

(2) (a) The department of enterprise services may issue job order contract work orders for Washington state parks department projects.

(b) The department of enterprise services, the University of Washington, and Washington State University may issue job order contract work orders for the state regional universities and The Evergreen State College.

(3) Public bodies may use a job order contract for public works projects when a determination is made that the use of job order contracts will benefit the public by providing an effective means of reducing the total lead-time and cost for the construction of public works projects for repair and renovation required at public facilities through the use of unit price books and work orders by eliminating time-consuming, costly aspects of the traditional public works process, which require separate contracting actions for each small project.

Sec. 19. RCW 39.10.440 and 2007 c 494 s 403 are each amended to read as follows:

(1) The maximum total dollar amount that may be awarded under a job order contract is four million dollars per year for a maximum of three years. The maximum total dollar amount that may be awarded under a job order contract for counties with a population of more than one million is six million dollars per year for a maximum of three years.

(2) Job order contracts may be executed for an initial contract term of not to exceed two years, with the option of extending or renewing the job order contract for one year. All extensions or renewals must be priced as provided in the request for proposals. The extension or renewal must be mutually agreed to by the public body and the job order contractor.

(3) A public body may have no more than two job order contracts in effect at any one time, with the exception of the department of (general administration)) enterprise services, which may have four job order contracts in effect at any one time.

(4) At least ninety percent of work contained in a job order contract must be subcontracted to entities other than the job order contractor. The job order contractor must distribute contracts as equitably as possible among qualified and available subcontractors including minority and woman-owned subcontractors to the extent permitted by law.

(5) The job order contractor shall publish notification of intent to perform public works projects at the beginning of each contract year in a statewide publication and in a legal newspaper of general circulation in every county in which the public works projects are anticipated.

(6) Job order contractors shall pay prevailing wages for all work that would otherwise be subject to the requirements of chapter 39.12 RCW. Prevailing wages for all work performed pursuant to each work order must be the rates in effect at the time the individual work order is issued.

(7) If, in the initial contract term, the public body, at no fault of the job order contractor, fails to issue the minimum amount of work orders stated in the public request for proposals, the public body shall pay the contractor an amount equal to the difference between the minimum work order amount and the actual total of the work orders issued multiplied by an appropriate percentage for overhead and profit contained in the contract award coefficient for services as specified in the request for proposals. This is the contractor's sole remedy.

(8) All job order contracts awarded under this section must be signed before July 1, ((2013)) 2021; however the job order contract may be extended or renewed as provided for in this section.
(9) Public bodies may amend job order contract awards prior to July 1, 2007, in accordance with this chapter.

Sec. 20. RCW 39.10.490 and 2007 c 494 s 501 are each amended to read as follows:

    The alternative public works contracting procedures authorized under this chapter are limited to public works contracts signed before July 1, ((2013)) 2021. Methods of public works contracting authorized under this chapter shall remain in full force and effect until completion of contracts signed before July 1, ((2013)) 2021.

The following investigative, law enforcement, and crime victim information is exempt from public inspection and copying under this chapter:

(1) Specific intelligence information and specific investigative records compiled by investigative, law enforcement, and penology agencies, and state agencies vested with the responsibility to discipline members of any profession, the nondisclosure of which is essential to effective law enforcement or for the protection of any person's right to privacy;

(2) Information revealing the identity of persons who are witnesses to or victims of crime or who file complaints with investigative, law enforcement, or penology agencies, other than the commission, if disclosure would endanger any person's life, physical safety, or property. If at the time a complaint is filed the complainant, victim, or witness indicates a desire for disclosure or nondisclosure, such desire shall govern. However, all complaints filed with the commission about any elected official or candidate for public office must be made in writing and signed by the complainant under oath;

(3) Any records of investigative reports prepared by any state, county, municipal, or other law enforcement agency pertaining to sex offenses contained in chapter 9A.44 RCW or sexually violent offenses as defined in RCW 71.09.020, which have been transferred to the Washington association of sheriffs and police chiefs for permanent electronic retention and retrieval pursuant to RCW 40.14.070(2)(b);

However, for the purposes of this section and RCW 77.60.070, all persons who dive for geoducks are deemed to be employees as defined by the federal occupational safety and health act. All harvesting agreements shall provide that failure to comply with these standards is cause for suspension or cancellation of the harvesting agreement. Further, for the purposes of this subsection if the harvester contracts with another person or entity for the harvesting of geoducks, the harvesting agreement shall not be suspended or canceled if the harvester terminates its business relationship with such an entity until compliance with this subsection is secured.
(3) Beginning January 1, 2015, geoduck divers licensed under RCW 77.65.410 must annually complete the geoduck diver safety program established in section 5 of this act in order to be maintained on a department of natural resources' harvest agreement plan of operation.

MESSAGE FROM THE SENATE

April 16, 2013

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1941 with the following amendment:

Strike everything after the enacting clause and insert the following:

“Sec. 1. RCW 46.63.160 and 2011 c 367 s 705 are each amended to read as follows:

(1) This section applies only to civil penalties for nonpayment of tolls detected through use of photo toll systems.

(2) Nothing in this section prohibits a law enforcement officer from issuing a notice of traffic infraction to a person in control of a vehicle at the time a violation occurs under RCW 46.63.030(1) (a), (b), or (c).

(3) A notice of civil penalty may be issued by the department of transportation when a toll is assessed through use of a photo toll system and the toll is not paid by the toll payment due date, which is sixty days from the date the vehicle uses the toll facility and incurs the toll charge.

(4) Any registered owner or renter of a vehicle traveling upon a toll facility operated under chapter 47.56 or 47.46 RCW is subject to a civil penalty governed by the administrative procedures set forth in this section when the vehicle incurs a toll charge and the toll is not paid by the toll payment due date, which is sixty days from the date the vehicle uses the toll facility and incurs the toll charge.

(5)(a) Consistent with chapter 34.05 RCW, the department of transportation shall develop an administrative adjudication process to review appeals of civil penalties issued by the department of transportation for toll nonpayment detected through the use of a photo toll system under this section. The department of transportation shall submit to the transportation committees of the legislature an annual report on the number of times adjudicators reduce or dismiss the civil penalty as provided in (b) of this subsection and the total amount of the civil penalties dismissed. The report must be submitted by December 1st of each year.

(b) During the adjudication process, the alleged violator must have an opportunity to explain mitigating circumstances.

Hospitalization, a divorce decree or legal separation agreement resulting in a transfer of the vehicle, an active duty member of the military or national guard covered by the federal servicemembers civil relief act, 50 U.S.C. Sec. 501 et seq., or state service members’ civil relief act, chapter 38.42 RCW, eviction, homelessness, the death of the alleged violator or of an immediate family member, or if the alleged violator did not receive a toll charge bill or notice of civil
penalty are valid mitigating circumstances. All of these reasons that constitute mitigating circumstances must occur within a reasonable time of the alleged toll violation. In response to these circumstances, the adjudicator may reduce or dismiss the civil penalty.

(6) The use of a photo toll system is subject to the following requirements:

(a) Photo toll systems may take photographs, digital photographs, microphotographs, videotapes, or other recorded images of the vehicle and vehicle license plate only.

(b) A notice of civil penalty must include with it a certificate or facsimile thereof, based upon inspection of photographs, microphotographs, videotape, or other recorded images produced by a photo toll system, stating the facts supporting the notice of civil penalty. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding established under subsection (5) of this section. The photographs, digital photographs, microphotographs, videotape, or other recorded images evidencing the toll nonpayment civil penalty must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the civil penalty.

(c) Notwithstanding any other provision of law, all photographs, digital photographs, microphotographs, videotape, other recorded images, or other records identifying a specific instance of travel prepared under this (chapter) section are for the exclusive use of the tolling agency for toll collection and enforcement purposes and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a civil penalty under this (chapter) section. No photograph, digital photograph, microphotograph, videotape, other recorded image, or other record identifying a specific instance of travel may be used for any purpose other than toll collection or enforcement of civil penalties under this section. Records identifying a specific instance of travel by a specific person or vehicle must be retained only as required to ensure payment and enforcement of tolls and to comply with state records retention policies.

(d) All locations where a photo toll system is used must be clearly marked by placing signs in locations that clearly indicate to a driver that he or she is entering a zone where tolls are assessed and enforced by a photo toll system.

(e) Within existing resources, the department of transportation shall conduct education and outreach efforts at least six months prior to activating an all-electronic photo toll system. Methods of outreach shall include a department presence at community meetings in the vicinity of a toll facility, signage, and information published in local media. Information provided shall include notice of when all other record identifying a specific instance of travel may be used for any purpose other than toll collection or enforcement of civil penalties under this section. Records identifying a specific instance of travel by a specific person or vehicle must be retained only as required to ensure payment and enforcement of tolls and to comply with state records retention policies.

(f) The envelope containing a toll charge bill or related notice issued pursuant to RCW 47.46.105 or 47.56.795, or a notice of civil penalty issued under this section, must prominently indicate that the contents are time sensitive and related to a toll violation.

(7) Civil penalties for toll nonpayment detected through the use of photo toll systems must be issued to the registered owner of the vehicle identified by the photo toll system, but are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120.

(8) The civil penalty for toll nonpayment detected through the use of a photo toll system is forty dollars plus the photo toll and associated fees.

(9) Except as provided otherwise in this subsection, all civil penalties, including the photo toll and associated fees, collected under this section must be deposited into the toll facility account of the facility on which the toll was assessed. However, through June 30, 2013, civil penalties deposited into the Tacoma Narrows toll bridge account created under RCW 47.56.165 that are in excess of amounts necessary to support the toll adjudication process applicable to toll collection on the Tacoma Narrows bridge must first be allocated toward repayment of operating loans and reserve payments provided to the account from the motor vehicle account under section 1005(15), chapter 518, Laws of 2007. Additionally, all civil penalties, resulting from nonpayment of tolls on the state route number 520 corridor, shall be deposited into the state route number 520 civil penalties account created under section 4, chapter 248, Laws of 2010 but only if chapter 248, Laws of 2010 is enacted by June 30, 2010.

(10) If the registered owner of the vehicle is a rental car business, the department of transportation shall, before a toll bill is issued, provide a written notice to the rental car business that a toll bill may be issued to the rental car business if the rental car business does not, within thirty days of the mailing of the written notice, provide to the issuing agency by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the toll was assessed; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the toll was assessed because the vehicle was stolen at the time the toll was assessed. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(c) In lieu of identifying the vehicle operator, the rental car business may pay the applicable toll and fee.

Timely mailing of this statement to the issuing agency relieves a rental car business of any liability under this section for the payment of the toll.

(11) Consistent with chapter 34.05 RCW, the department of transportation shall develop rules to implement this section.

(12) For the purposes of this section, "photo toll system" means the system defined in RCW 47.56.010 and 47.46.020.

The Clerk called the roll on the final passage of Substitute House Bill No. 1941, as amended by the Senate.

SECOND SUBSTITUTE SENATE BILL NO. 5213, by Senate Committee on Ways & Means (originally sponsored by Senators Becker, Tom, Bailey, Honeyford and Frockt)

Concerning prescription review for medicaid managed care enrollees. Revised for 2nd Substitute: Concerning prescription review for medicaid managed care enrollees. (REVISED FOR PASSED LEGISLATURE: Concerning medication management services for medicaid managed care enrollees.)

The bill was read the second time.

Representative Cody moved the adoption of amendment (464).
medication management services for patients with multiple chronic conditions consistent with the findings and goals established in section 1 of this act;
(D) Provider reimbursement methods that reward health homes that, by using chronic care management, reduce emergency department and inpatient use; 
(E) Promoting provider participation in the program of training and technical assistance regarding care of people with chronic conditions described in RCW 43.70.533, including allocation of funds to support provider participation in the training, unless the managed care system is an integrated health delivery system that has programs in place for chronic care management;
(F) Provider reimbursement methods within the medical billing processes that incentivize pharmacists or other qualified providers licensed in Washington state to provide comprehensive medication management services consistent with the findings and goals established in section 1 of this act; and
(G) Evaluation and reporting on the impact of comprehensive medication management services on patient clinical outcomes and total health care costs, including reductions in emergency department utilization, hospitalization, and drug costs.
(ii) (A) Health home services contracted for under this subsection may be prioritized to enrollees with complex, high cost, or multiple chronic conditions.
(B) Contracts that include the items in (e)(i)(C) through (((E))) (G) of this subsection must not exceed the rates that would be paid in the absence of these provisions;
(f) The authority shall seek waivers from federal requirements as necessary to implement this chapter;
(g) The authority shall, wherever possible, enter into prepaid capitation contracts that include inpatient care. However, if this is not possible or feasible, the authority may enter into prepaid capitation contracts that do not include inpatient care; 
(h) The authority shall define those circumstances under which a managed health care system is responsible for out-of-plan services and assure that recipients shall not be charged for such services;
(i) Nothing in this section prevents the authority from entering into similar agreements for other groups of people eligible to receive services under this chapter; and
(j) The ((department)) authority must consult with the federal center for medicare and medicaid innovation and seek funding opportunities to support health homes.
(3) The authority shall ensure that publicly supported community health centers and providers in rural areas, who show serious intent and apparent capability to participate as managed health care systems are seriously considered as contractors. The authority shall coordinate its managed care activities with activities under chapter 70.47 RCW.
(4) The authority shall work jointly with the state of Oregon and other states in this geographical region in order to develop recommendations to be presented to the appropriate federal agencies and the United States congress for improving health care of the poor, while controlling related costs.
(5) The legislature finds that competition in the managed health care marketplace is enhanced, in the long term, by the existence of a large number of managed health care system options for medicaid clients. In a managed care delivery system, whose goal is to focus on prevention, primary care, and improved enrollee health status, continuity in care relationships is of substantial importance, and disruption to clients and health care providers should be minimized. To help ensure these goals are met, the following principles shall guide the authority in its healthy options managed health care purchasing efforts:
(a) All managed health care systems should have an opportunity to contract with the authority to the extent that minimum contracting requirements defined by the authority are met, at payment rates that enable the authority to operate as far below appropriated spending levels as possible, consistent with the principles established in this section.
(b) Managed health care systems should compete for the award of contracts and assignment of medicaid beneficiaries who do not voluntarily select a contracting system, based upon:
(i) Demonstrated commitment to or experience in serving low-income populations;
(ii) Quality of services provided to enrollees;
(iii) Accessibility, including appropriate utilization, of services offered to enrollees;
(iv) Demonstrated capability to perform contracted services, including ability to supply an adequate provider network;
(v) Payment rates; and
(vi) The ability to meet other specifically defined contract requirements established by the authority, including consideration of past and current performance and participation in other state or federal health programs as a contractor.
(c) Consideration should be given to using multiple year contracting periods.
(d) Quality, accessibility, and demonstrated commitment to serving low-income populations shall be given significant weight in the contracting, evaluation, and assignment process.
(e) All contractors that are regulated health carriers must meet state minimum net worth requirements as defined in applicable state laws. The authority shall adopt rules establishing the minimum net worth requirements for contractors that are not regulated health carriers. This subsection does not limit the authority of the Washington state health care authority to take action under a contract upon finding that a contractor's financial status seriously jeopardizes the contractor's ability to meet its contract obligations.
(f) Procedures for resolution of disputes between the authority and contract bidders or the authority and contracting carriers related to the award of, or failure to award, a managed care contract must be clearly set out in the procurement document.
(6) The authority may apply the principles set forth in subsection (5) of this section to its managed health care purchasing efforts on behalf of clients receiving supplemental security income benefits to the extent appropriate.
(7) A managed health care system shall pay a nonparticipating provider that provides a service covered under this chapter to the system's enrollee no more than the lowest amount paid for that service under the managed health care system's contracts with similar providers in the state.
(8) For services covered under this chapter to medical assistance or medical care services enrollees and provided on or after August 24, 2011, nonparticipating providers must accept as payment in full the amount paid by the managed health care system under subsection (7) of this section in addition to any deductible, coinsurance, or copayment that is due from the enrollee for the service provided. An enrollee is not liable to any nonparticipating provider for covered services, except for amounts due for any deductible, coinsurance, or copayment under the terms and conditions set forth in the managed health care system contract to provide services under this section.
(9) Pursuant to federal managed care access standards, 42 C.F.R. Sec. 438, managed health care systems must maintain a network of appropriate providers that is supported by written agreements sufficient to provide adequate access to all services covered under the contract with the department, including hospital-based physician services. The department will monitor and periodically report on the proportion of services provided by contracted providers and nonparticipating providers, by county, for each managed health care system to ensure that managed health care systems are meeting network adequacy requirements. No later than January 1st of each year, the department will review and report its findings to the
appropirate policy and fiscal committees of the legislature for the preceding state fiscal year.

(10) Subsections (7) through (9) of this section expire July 1, 2016."

Beginning on page 22, line 25, strike all of section 401 and insert the following:

Sec. 401. RCW 82.08.0273 and 2011 c 7 s 1 are each amended to read as follows:

1. Subject to the conditions and limitations in this section, an exemption from the tax levied by RCW 82.08.020 ((does not apply to)) in the form of a remittance from the department is provided for sales to nonresidents of this state of tangible personal property, digital goods, and digital codes((when)). The exemption only applies if:

   a. The property is for use outside this state;
   b. The purchaser is a bona fide resident of a province or territory of Canada or a state, territory, or possession of the United States, other than the state of Washington; and

   i. Such state, possession, territory, or province does not impose, or have imposed on its behalf, a generally applicable retail sales tax, use tax, value added tax, gross receipts tax on retailing activities, or similar generally applicable tax, of three percent or more; or

   ii. If imposing a tax described in (b)(i) of this subsection, provides an exemption for sales to Washington residents by reason of their residence; and

   c. The purchaser agrees, when requested, to grant the department of revenue access to such records and other forms of verification at ((his or her)) the purchaser's place of residence to assure that such purchases are not first used substantially in the state of Washington.

   2. Notwithstanding anything to the contrary in this chapter, if parts or other tangible personal property are installed by the seller during the course of repairing, cleaning, altering, or improving motor vehicles, trailers, or campers and the seller makes a separate charge for the tangible personal property, the tax levied by RCW 82.08.020 does not apply to the separately stated charge to a nonresident purchaser for the tangible personal property but only if the separately stated charge does not exceed either the seller's current publicly stated retail price for the tangible personal property or, if no publicly stated retail price is available, the seller's cost for the tangible personal property. However, the exemption provided by this section does not apply if tangible personal property is installed by the seller during the course of repairing, cleaning, altering, or improving motor vehicles, trailers, or campers and the seller makes a single nonitemized charge for providing the tangible personal property and service. All of the ((requirements)) provisions in subsections (1) and (3) through ((46)) (7) of this section apply to this subsection.

   3(a) Any person claiming exemption from retail sales tax under the provisions of this section must ((display proof of his or her current nonresident status as provided in this section)) pay the state and local sales tax to the seller at the time of purchase and then request a remittance from the department in accordance with this subsection and subsection (4) of this section. A request for remittance must include proof of the person's status as a nonresident at the time of the purchase for which a remittance is requested. The request for a remittance must also include any additional information and documentation as required by the department, which may include a description of the item purchased for which a remittance is requested, the sales price of the item, the amount of state and local sales tax paid on the item, the date of the purchase, the name of the seller and the physical address where the sale took place, and copies of sales receipts showing the qualified purchases.

   b. Acceptable proof of a nonresident person's status includes one piece of identification such as a valid driver's license from the jurisdiction in which the out-of-state residency is claimed or a valid identification card which has a photograph of the holder and is issued by the out-of-state jurisdiction. Identification under this subsection (3)(b) must show the holder's residential address and have as one of
its legal purposes the establishment of residency in that out-of-state jurisdiction.

(c) In lieu of furnishing proof of a person's nonresident status under (b) of this subsection (3), a person claiming exemption from retail sales tax under the provisions of this section may provide the seller with an exemption certificate in compliance with subsection (4)(b) of this section.

(4)(a) ([Nothing in this section requires the vendor to make tax exempt retail sales to nonresidents. A vendor may choose to make sales to nonresidents, collect the sales tax, and remit the amount of sales tax collected to the state as otherwise provided by law. If the vendor chooses to make a sale to a nonresident without collecting the sales tax, the vendor must examine the purchaser's proof of nonresidency, determine whether the proof is acceptable under subsection (3)(b) of this section, and maintain records for each nontaxable sale which shall show the type of proof accepted, including any identification numbers where appropriate, and the expiration date, if any.]

(b) In lieu of using the method provided in (a) of this subsection to document an exempt sale to a nonresident, a seller may accept from the purchaser a properly completed uniform exemption certificate approved by the streamlined sales and use tax agreement governing board or any other exemption certificate as may be authorized by the department and properly completed by the purchaser. A nonresident purchaser who uses an exemption certificate authorized in this subsection (4)(b) must include the purchaser's driver's license number or other state issued identification number and the state of issuance.

(c) In lieu of using the methods provided in (a) and (b) of this subsection to document an exempt sale to a nonresident, a seller may capture the relevant data elements as allowed under the streamlined sales and use tax agreement.

(5)(a) Any person making fraudulent statements, which includes the offer of fraudulent identification or fraudulently procured identification to a vendor, in order to purchase goods without paying retail sales tax is guilty of perjury under chapter 9A.72 RCW.

(b) Any person requesting a remittance of sales tax from the department by providing proof of identification or sales receipts not the person's own, or counterfeit identification or sales receipts, with intent to violate the provisions of this section, is guilty of a misdemeanor and, in addition, is liable for the tax and subject to a penalty equal to the greater of one hundred dollars or the tax due on such purchases.

(6) The exemption provided by this section is for both state and local sales taxes. For purposes of this section, "local sales tax" means a sales tax imposed by a local government under the authority of chapter 82.14 RCW, RCW 81.104.170, or other provision of law, and which is imposed on the same taxable event as the state sales tax imposed in this chapter.

(7) A nonresident who receives a refund of sales tax from the seller for any reason with respect to a purchase made in this state is not entitled to a remittance for the tax paid on the purchase. A person who receives both a remittance under this section and a refund from the seller with respect to the same purchase must immediately repay the remittance to the department. Interest as provided in chapter 82.32 RCW applies to amounts due under this section from the date that the department made the remittance until the amount due under this subsection is paid to the department. A person who receives a remittance with respect to a purchase for which the person had, at the time the person submitted the application for a remittance, already received a refund of sales tax from the seller is also liable for the evasion penalty in RCW 82.32.090(7) and is ineligible to receive any further remittances from the department under this section."

**2SSB 5794**  Prime Sponsor, Committee on Ways & Means: Concerning alternative learning experience courses. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended by Committee on Appropriations and without amendment by Committee on Education.

Strike everything after the enacting clause and insert the following:

Sec. 1. 2011 1st sp.s. c 34 s 1 (uncodified) is amended to read as follows:

(1) Under Article IX of the Washington state Constitution, all children are entitled to an opportunity to receive a basic education.

Although the state must assure that students in public schools have opportunities to participate in the instructional program of basic education, there is no obligation for either the state or school districts
to provide that instruction using a particular delivery method or through a particular program.

(2) The legislature finds ample evidence of the need to examine and reconsider policies under which alternative learning that occurs outside the classroom using an individual student learning plan may be considered equivalent to full-time attendance in school, including for funding purposes. Previous legislative studies have raised questions about financial practices and accountability in alternative learning experience ((programs)) courses. Since 2005, there has been significant enrollment growth in alternative learning experience online ((programs)) courses, with evidence of unexpected financial impact when large numbers of nonresident students enroll in ((programs)) courses. Based on this evidence, there is a rational basis on which to conclude that there are different costs associated with providing ((programs)) courses not primarily based on full-time, daily contact between teachers and students and not primarily occurring on-site in a classroom.

(3) For these reasons, the legislature intends to allow for continuing review and revision of the way in which state funding allocations are used to support alternative learning experience ((programs)) courses.

Sec. 2. RCW 28A.150.325 and 2011 1st sp.s c 34 s 2 are each amended to read as follows:

(1) ((For purposes of this chapter,)) The definitions in this subsection apply throughout this chapter unless the context clearly requires otherwise.

(a) "Alternative learning experience ((programs)) course" means a course ((or set of courses)), or for grades kindergarten through eight grade-level coursework, that is a delivery method for the program of basic education and is:

(i) ((Provided in whole or in part independently from a regular classroom setting or schedule, but may include some components of direct instruction;)) Supervised, monitored, assessed, evaluated, and documented by a certificated teacher employed by the school district or under contract as permitted by applicable rules; and

(ii) ((Provided in accordance with a written student learning plan that is implemented pursuant to the school district's policy and rules adopted by the superintendent of public instruction for alternative learning experiences.)) Provided in accordance with a written student learning plan, including but not limited to lessons, trips, and other activities, included in an alternative learning experience written student learning plan, including but not limited to lessons, trips, and other activities, and is made in the same manner as such purchases are made for students in the district's regular instructional program.

(b) "In-person" means face-to-face instructional contact in a physical classroom environment.

(c) "Instructional contact time" means instructional time with a certificated teacher. Instructional contact time must be for the purposes of actual instruction, review of assignments, testing, evaluation of student progress, or other learning activities or requirements identified in the student's written student learning plan. Instructional contact time must be related to an alternative learning experience course identified in the student's written student learning plan. Instructional contact time may occur in a group setting between the teacher and multiple students and may be delivered either in-person or remotely using technology.

(d) "Online course" means an alternative learning experience course that has the same meaning as provided in RCW 28A.250.010.

(e) "Remote course" means an alternative learning experience course that is not an online course where the student has in-person instructional contact time for less than twenty percent of the total weekly time for the course. No minimum in-person instructional contact time is required.

(f) "Site-based course" means an alternative learning experience course where the student has in-person instructional contact time for at least twenty percent of the total weekly time for the course.

(g) "Total weekly time" means the estimated average hours per school week the student will engage in learning activities to meet the requirements of the written student learning plan.

(2) ((The broad categories of alternative learning experience programs include, but are not limited to:

(a) Online programs as defined in RCW 28A.150.262;
(b) Parent partnership programs that include significant participation and partnership by parents and families in the design and implementation of a student's learning experience; and
(c) Contract-based learning programs)) School districts may claim state funding under section 3 of this act, to the extent otherwise allowed by state law including the provisions of RCW 28A.250.060, for students enrolled in remote, site-based, or online alternative learning experience courses. High school courses must meet district or state graduation requirements and be offered for high school credit.

(3) School districts that offer alternative learning experience ((programs)) courses may not provide any compensation, reimbursement, gift, reward, or gratuity to any parents, guardians, or students for participation in the courses. School district employees are prohibited from receiving any compensation or payment as an incentive to increase student enrollment of out-of-district students in ((an)) alternative learning experience ((programs)) courses. This prohibition includes, but is not limited to, providing funds to parents, guardians, or students for the purchase of educational materials, supplies, experiences, services, or technological equipment. A district may purchase educational materials, equipment, or other nonconsumable supplies for students' use in alternative learning experience ((programs)) courses if the purchase is consistent with the district's approved curriculum, conforms to applicable laws and rules, and is made in the same manner as such purchases are made for students in the district's regular instructional program. Items so purchased remain the property of the school district upon program completion. School districts may not purchase or contract for instructional or cocurricular experiences and services that are included in an alternative learning experience written student learning plan, including but not limited to lessons, trips, and other activities, unless substantially similar experiences and services are available to students enrolled in the district's regular instructional program. School districts that purchase or contract for such experiences and services for students enrolled in an alternative learning experience ((programs)) courses, and each district shall be responsible for monitoring the compliance of its providers with these requirements. However, nothing in this ((section)) subsection shall prohibit school districts from contracting with school district employees to provide services or experiences to students, or from contracting with online providers approved by the office of the superintendent of public instruction pursuant to chapter 28A.250 RCW.

(4) ((Part-time enrollment in alternative learning experiences is subject to the provisions of RCW 28A.150.350, the broad categories of alternative learning experience programs)) Each school district offering or contracting to offer alternative learning experience courses must:

(a) Report annually to the superintendent of public instruction regarding the course types and offerings, and number of students participating in each; and
(b) Document the district of residence for each student enrolled in an alternative learning experience course.

(5) The superintendent of public instruction shall adopt rules defining minimum requirements and accountability for alternative learning experience programs. Each school district offering or contracting to offer alternative learning experience courses must:

(a) Report annually to the superintendent of public instruction regarding the course types and offerings, and number of students participating in each; and
(b) Document the district of residence for each student enrolled in an alternative learning experience course.

(6) School districts must assess the educational progress of enrolled students at least annually, using, for full-time students, the state assessment for the student's grade level and using any other
annual assessments required by the school district. Part-time students must also be assessed at least annually. However, part-time students who are either receiving home-based instruction under chapter 28A.200 RCW or who are enrolled in an approved private school under chapter 28A.195 RCW are not required to participate in the assessments required under chapter 28A.655 RCW. The rules must address how students who reside outside the geographic service area of the school district are to be assessed.

(7) Beginning with the 2013-14 school year, school districts must designate alternative learning experience courses as such when reporting course information to the office of the superintendent of public instruction under RCW 28A.300.500.

(8)(a) The superintendent of public instruction shall adopt rules necessary to implement this section.

(b) Rules adopted for weekly direct personal contact requirements and monthly progress evaluation must be flexible and reflect the needs of the student and the student's individual learning plan rather than specifying an amount of time. In addition, the rules must reduce documentation requirements, particularly for students making satisfactory progress, based on the unique aspects of the alternative learning experience course types defined in this section and taking into consideration the technical and system capabilities associated with the different course types.

(c) The rules must establish procedures that address how the counting of students must be coordinated by resident and nonresident districts for state funding so that no student is counted for more than one full-time equivalent in the aggregate.

NEW SECTION. Sec. 3. (1) The superintendent of public instruction shall separately calculate and allocate moneys appropriated under RCW 28A.150.260 to school districts for each full-time equivalent student enrolled in an alternative learning experience course that may be claimed for state funding under this section. The calculation shall be based on the estimated statewide annual average allocation per full-time equivalent student in grades nine through twelve in general education, excluding small high school enhancements, and including applicable rules and provisions of the omnibus appropriations act.

(2) School districts may claim state funding for students enrolled in alternative learning experience courses under RCW 28A.150.325 (as recodified by this act) and 28A.250.060 as follows:

(a) School districts may claim state funding for students who reside in the district.

(b) School districts may claim state funding for students who do not reside in the district only if any of the following conditions are met:

(i) All alternative learning experience courses identified in the student's written student learning plan are online courses;

(ii) The alternative learning experience course in which the student is enrolled is a site-based course;

(iii) At least ninety percent of the school district's total headcount number of students enrolled in alternative learning experience courses consists of students who reside in the district. The calculation under this subsection (b)(iii) of the total headcount of students enrolled in alternative learning experience courses must exclude any students claimed under (b)(i) or (ii) of this subsection; or

(iv) The student resides in an adjacent school district.

Sec. 4. RCW 28A.250.010 and 2011 1st sp.s. c 34 s 5 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1)(a) "Multidistrict online provider" means:

(i) A private or nonprofit organization that enters into a contract with a school district to provide online courses or programs to K-12 students from more than one school district; or

(ii) A private or nonprofit organization that enters into contracts with multiple school districts to provide online courses or programs to K-12 students from those districts; or

(iii) Except as provided in (b) of this subsection, a school district that provides online courses or programs to students who reside outside the geographic boundaries of the school district.

(b) "Multidistrict online provider" does not include a school district online learning program in which fewer than ten percent of the students enrolled in the program are from other districts under the interdistrict student transfer provisions of RCW 28A.225.225.

"Multidistrict online provider" also does not include regional online learning programs that are jointly developed and implemented by two or more school districts or an educational service district through an interdistrict cooperative program agreement that addresses, at minimum, how the districts share student full-time equivalency for state basic education funding purposes and how categorical education programs, including special education, are provided to eligible students.

(2)(a) "Online course" means a course or grade-level coursework where:

(i) More than half of the course content is delivered electronically using the internet or other computer-based methods; and

(ii) More than half of the teaching is conducted from a remote location through an online course learning management system or other online or electronic tools;

(iii) A certificated teacher has the primary responsibility for the student's instructional interaction. Instructional interaction between the teacher and the student includes, but is not limited to, direct instruction, review of assignments, assessment, testing, progress monitoring, and educational facilitation; and

(iv) Students have access to the teacher synchronously, asynchronously, or both.

(b) "Online school program" means a school program that:

(i) Offers courses or grade-level coursework that is delivered primarily electronically using the internet or other computer-based methods;

(ii) Offers courses or grade-level coursework that is taught by a teacher primarily from a remote location using online or other electronic tools. Students enrolled in an online program may have access to the teacher synchronously, asynchronously, or both;

(iii) Offers a sequential set of online courses or grade-level coursework that may be taken in a single school term or throughout the school year in a manner that could provide a full-time basic education program if so desired by the student. Students may enroll in the program as part-time or full-time students; and

(iv) Has an online component of the program with online lessons and tools for student and data management).

(c) An online course or online school program may be delivered to students at school as part of the regularly scheduled school day. An online course or online school program also may be delivered to students, in whole or in part, independently from a regular classroom schedule, but such courses or programs must comply with RCW 28A.150.262 (as recodified by this act) and associated rules adopted by the superintendent of public instruction to qualify for state basic education funding.

(3) "Online provider" means any provider of an online course or program, including multidistrict online providers, all school district online learning programs, and all regional online learning programs.

Sec. 5. RCW 28A.250.020 and 2011 1st sp.s. c 34 s 6 are each amended to read as follows:

(1) The superintendent of public instruction, in collaboration with the state board of education, shall develop and implement approval criteria and a process for approving online providers; a process for monitoring and if necessary rescinding the approval of courses or programs offered by an online provider; and an appeals process. The
criteria and processes for multidistrict online providers shall be adopted by rule by December 1, 2009.

(2) When developing the approval criteria, the superintendent of public instruction shall require that providers offering online courses or programs have accreditation, or are candidates for accreditation, through the Northwest accreditation commission or another national, regional, or state accreditation program listed by the office of the superintendent of public instruction (after consultation with the Washington coalition for online learning). In addition to other criteria, the approval criteria shall include the degree of alignment with state academic standards and require that all teachers be certificated in accordance with Washington state law. When reviewing online providers that offer high school courses, the superintendent of public instruction shall assure that the courses offered by the provider are eligible for high school credit. However, final decisions regarding whether credit meets the school district’s graduation requirements shall remain the responsibility of the school districts.

(3) Initial approval of online providers by the superintendent of public instruction shall be for four years. The superintendent of public instruction shall develop a process for the renewal of approvals and for rescinding approvals based on noncompliance with approval requirements. Any multidistrict online provider that was approved by the digital learning commons or accredited by the Northwest association of accredited schools before July 26, 2009, and that meets the teacher certification requirements of subsection (2) of this section, is exempt from the initial approval process under this section until August 31, 2012, but must comply with the process for renewal of approvals and must comply with approval requirements.

(4) The superintendent of public instruction shall make the first round of decisions regarding approval of multidistrict online providers by April 1, 2010. The first round of decisions regarding approval of online providers that are not multidistrict online providers shall be made by April 1, 2013. Thereafter, the superintendent of public instruction shall make annual approval decisions no later than November 1st of each year.

(5) The superintendent of public instruction shall establish an online learning advisory committee within existing resources that shall provide advice to the superintendent regarding the approval criteria, major components of the web site, the model school district policy, model agreements, and other related matters. The committee shall include a representative of each of the following groups: Private and public online providers, parents of online students, accreditation organizations, educational service districts, school principals, teachers, school administrators, school board members, institutions of higher education, and other individuals as determined by the superintendent. Members of the advisory committee shall be selected by the superintendent based on nominations from statewide organizations, shall serve three-year terms, and may be reappointed. The superintendent shall select the chair of the committee.

Sec. 6. RCW 28A.250.080 and 2011 1st sp.s. c 34 s 11 are each amended to read as follows:

(1) By August 31, 2010, all school district boards of directors shall develop policies and procedures regarding student access to online courses and online learning programs. The policies and procedures shall include but not be limited to: Student eligibility criteria; the types of online courses available to students through the school district; the methods districts will use to support student success, which may include a local advisor; when the school district will and will not pay course fees and other costs; the granting of high school credit; and a process for students and parents or guardians to formally acknowledge any course taken for which no credit is given. The policies and procedures shall take effect beginning with the 2010-11 school year. School districts shall submit their policies to the superintendent of public instruction by September 15, 2010. By December 1, 2010, the superintendent of public instruction shall summarize the school district policies regarding student access to online courses and submit a report to the legislature.

(2) School districts must award credit and grades for online high school courses successfully completed by a student that meet the school district’s graduation requirements and are provided by an approved online provider.

(3) School districts shall provide students with information regarding online courses that are available through the school district. The information shall include the types of information described in subsection (1) of this section.

(4) When developing local or regional online learning programs, school districts shall incorporate into the program design the approval criteria developed by the superintendent of public instruction under RCW 28A.250.020.

Sec. 7. RCW 28A.250.060 and 2011 1st sp.s. c 34 s 8 are each amended to read as follows:

(1) Beginning with the 2011-12 school year, school districts may claim state funding under ((RCW 28A.150.260)) section 3 of this act, to the extent otherwise allowed by state law, for students enrolled in online courses or programs only if the online courses or programs are:

(a) Offered by a multidistrict online provider approved under RCW 28A.250.020 by the superintendent of public instruction;

(b) Offered by a school district online learning program if the program serves students who reside within the geographic boundaries of the school district, including school district programs in which fewer than ten percent of the program’s students reside outside the school district’s geographic boundaries; or

(c) Offered by a regional online learning program where courses are jointly developed and offered by two or more school districts or an educational service district through an interdistrict cooperative program agreement.

(2) Beginning with the 2013-14 school year, school districts may claim state funding under ((RCW 28A.150.260)) section 3 of this act, to the extent otherwise allowed by state law, for students enrolled in online courses or programs only if the online courses or programs are offered by an online provider approved under RCW 28A.250.020 by the superintendent of public instruction.

(3) Criteria shall be established by the superintendent of public instruction to allow online courses that have not been approved by the superintendent of public instruction to be eligible for state funding if the course is in a subject matter in which no courses have been approved and, if it is a high school course, the course meets Washington high school graduation requirements.

Sec. 8. RCW 28A.250.070 and 2009 c 542 s 8 are each amended to read as follows:

Nothing in this chapter is intended to diminish the rights of students to attend a nonresident school district in accordance with RCW 28A.225.220 through 28A.225.230 for the purposes of enrolling in online courses or online school programs. The office of online learning under RCW 28A.250.030 shall develop a standard form, which must be used by all school districts, for releasing a student to a nonresident school district for the purposes of enrolling in an online course or online school program.

NEW SECTION. Sec. 9. A new section is added to chapter 28A.250 RCW to read as follows:

An online school program may request a waiver from the office of the superintendent of public instruction to administer one or more sections of the statewide student assessment for grades three through eight for some or all students enrolled in the program on alternate days or on an alternate schedule, as long as the administration is within the testing period established by the office. The office may deny a request for a waiver if the online school program's proposal does not maintain adequate test security or would reduce the reliability of the assessment results by providing an inequitable advantage for some students.
Sec. 10. RCW 28A.225.220 and 1995 c 335 s 602 and 1995 c 52 s 2 are each reenacted and amended to read as follows:

(1) Any board of directors may make agreements with adults choosing to attend school, and may charge the adults reasonable tuition.

(2) A district is strongly encouraged to honor the request of a parent or guardian for his or her child to attend a school in another district or the request of a parent or guardian for his or her child to transfer as a student receiving home-based instruction.

(3) A district shall release a student to a nonresident district that agrees to accept the student if:

(a) A financial, educational, safety, or health condition affecting the student would likely be reasonably improved as a result of the transfer; or

(b) Attendance at the school in the nonresident district is more accessible to the parent's place of work or to the location of child care; or

(c) There is a special hardship or detrimental condition; or

(d) The purpose of the transfer is for the student to enroll in an online course or online school program offered by an online provider approved under RCW 28A.250.020.

(4) A district may deny the request of a resident student to transfer to a nonresident district if the release of the student would adversely affect the district's existing desegregation plan.

(5) For the purpose of helping a district assess the quality of its education program, a resident school district may request an optional exit interview or questionnaire with the parents or guardians of a child transferring to another district. No parent or guardian may be forced to attend such an interview or complete the questionnaire.

(6) Beginning with the 1993-94 school year, school districts may not charge transfer fees or tuition for nonresident students enrolled under subsection (3) of this section and RCW 28A.225.225. Reimbursement of a high school district for cost of educating high school pupils of a nonhigh school district shall not be deemed a transfer fee as affecting the apportionment of current state school funds.

Sec. 11. RCW 28A.225.225 and 2009 c 380 s 7 are each amended to read as follows:

(1) Except for students who reside out-of-state and students under RCW 28A.225.217, a district shall accept applications from nonresident students who are the children of full-time certificated and classified school employees, and those children shall be permitted to enroll:

(a) At the school to which the employee is assigned;

(b) At a school forming the district's K through 12 continuum which includes the school to which the employee is assigned; or

(c) At a school in the district that provides early intervention services pursuant to RCW 28A.155.065 or preschool services pursuant to RCW 28A.155.070, if the student is eligible for such services.

(2) A district may reject applications under this section if:

(a) The student's disciplinary records indicate a history of convictions for offenses or crimes, violent or disruptive behavior, or gang membership;

(b) The student has been expelled or suspended from a public school for more than ten consecutive days. Any policy allowing for readmission of expelled or suspended students under this subsection (2)(b) must apply uniformly to both resident and nonresident applicants;

(c) Enrollment of a child under this section would displace a child who is a resident of the district, except that if a child is admitted under subsection (1) of this section, that child shall be permitted to remain enrolled at that school, or in that district's kindergarten through twelfth grade continuum, until he or she has completed his or her schooling; or

(d) The student has repeatedly failed to comply with requirements for participation in an online school program, such as participating in weekly direct contact with the teacher or monthly progress evaluations.

(3) Except as provided in subsection (1) of this section, all districts accepting applications from nonresident students or from students receiving home-based instruction for admission to the district's schools shall consider equally all applications received. Each school district shall adopt a policy establishing rational, fair, and equitable standards for acceptance and rejection of applications by June 30, 1990. The policy may include rejection of a nonresident student if:

(a) Acceptance of a nonresident student would result in the district experiencing a financial hardship;

(b) The student's disciplinary records indicate a history of convictions for offenses or crimes, violent or disruptive behavior, or gang membership;

(c) The student has been expelled or suspended from a public school for more than ten consecutive days. Any policy allowing for readmission of expelled or suspended students under this subsection (3)(c) must apply uniformly to both resident and nonresident applicants.

For purposes of subsections (2)(a) and (3)(b) of this section, "gang" means a group which: (i) Consists of three or more persons; (ii) has identifiable leadership; and (iii) on an ongoing basis, regularly conspires and acts in concert mainly for criminal purposes.

(4) The district shall provide to applicants written notification of the approval or denial of the application in a timely manner. If the application is rejected, the notification shall include the reason or reasons for denial and the right to appeal under RCW 28A.225.230(3).

Sec. 12. RCW 28A.150.100 and 2011 1st sp.s c 34 s 10 are each amended to read as follows:

(1) For the purposes of this section and RCW 28A.150.410 and 28A.400.200, "basic education certificated instructional staff" means all full-time equivalent classroom teachers, teacher librarians, guidance counselors, certificated student health services staff, and other certificated instructional staff in the following programs as defined for statewide school district accounting purposes: Basic education, secondary vocational education, general instructional support, and general supportive services.

(2) Each school district shall maintain a ratio of at least forty-six support, and general supportive services.

(3) Each school district shall maintain a ratio of at least forty-six basic education certificated instructional staff to one thousand annual average full-time equivalent students. This requirement does not apply to that portion of a district's annual average full-time equivalent enrollment that is enrolled in alternative learning experience ("programs") courses as defined in RCW 28A.150.325 (as recodified by this act).

Sec. 13. RCW 28A.525.162 and 2012 c 244 s 2 are each amended to read as follows:

(1) Funds appropriated to the superintendent of public instruction from the common school construction fund shall be allotted by the superintendent of public instruction in accordance with this chapter.

(2) No allotment shall be made to a school district until such district has provided local funds equal to or greater than the difference between the total approved project cost and the amount of state funding assistance to the district for financing the project computed pursuant to RCW 28A.525.166, with the following exceptions:

(a) The superintendent of public instruction may waive the local requirement for state funding assistance for districts which have provided funds for school building construction purposes through the authorization of bonds or through the authorization of excess tax levies or both in an amount equivalent to two and one-half percent of the value of its taxable property, as defined in RCW 39.36.015.

(b) No such local funds shall be required as a condition to the allotment of funds from the state for the purpose of making major or minor structural changes to existing school facilities in order to bring
such facilities into compliance with the barrier free access requirements of section 504 of the federal rehabilitation act of 1973 (29 U.S.C. Sec. 706) and rules implementing the act.

(3) For the purpose of computing the state funding assistance percentage under RCW 28A.525.166 when a school district is granted authority to enter into contracts, adjusted valuation per pupil shall be calculated using headcount student enrollments from the most recent October enrollment reports submitted by districts to the superintendent of public instruction, adjusted as follows:

(a) In the case of projects for which local bonds were approved after May 11, 1989:

(i) For districts which have been designated as serving high school districts under RCW 28A.540.110, students residing in the nonhigh district so designating shall be excluded from the enrollment count if the student is enrolled in any grade level not offered by the nonhigh district;

(ii) The enrollment of nonhigh school districts shall be increased by the number of students residing within the district who are enrolled in a serving high school district so designated by the nonhigh school district under RCW 28A.540.110, including only students who are enrolled in grade levels not offered by the nonhigh school district; and

(iii) The number of preschool students with disabilities included in the enrollment count shall be multiplied by one-half;

(b) In the case of construction or modernization of high school facilities in districts serving students from nonhigh school districts, the adjusted valuation per pupil shall be computed using the combined adjusted valuations and enrollments of each district, each weighted by the percentage of the district's resident high school students served by the high school district;

(c) The number of kindergarten students included in the enrollment count shall be counted as one headcount student; and

(d) The number of students residing outside the school district who are enrolled in alternative learning experience (proposed) courses under RCW 28A.150.325 (as recodified by this act) shall be excluded from the total.

(4) In lieu of the exclusion in subsection (3)(d) of this section, a district may submit an alternative calculation for excluding students enrolled in alternative learning experience (proposed) courses. The alternative calculation must show the student headcount use of district classroom facilities on a regular basis for a regular duration by out-of-district alternative learning experience (proposed) students subtracted by the headcount of in-district alternative learning experience (proposed) students not using district classroom facilities on a regular basis for a reasonable duration. The alternative calculation must be submitted in a form approved by the office of the superintendent of public instruction. The office of the superintendent of public instruction must develop rules to define "regular basis" and "reasonable duration."

(5) The superintendent of public instruction, considering policy recommendations from the school facilities citizen advisory panel, shall prescribe such rules as are necessary to equate insofar as possible the efforts made by school districts to provide capital funds by the means aforesaid.

(6) For the purposes of this section, "preschool students with disabilities" means children of preschool age who have developmental disabilities who are entitled to services under RCW 28A.155.010 through 28A.155.100 and are not included in the kindergarten enrollment count of the district.

Sec. 14. RCW 28A.525.166 and 2012 c 244 s 3 are each amended to read as follows:

Allocations to school districts of state funds provided by RCW 28A.525.162 through 28A.525.180 shall be made by the superintendent of public instruction and the amount of state funding assistance to a school district in financing a school plant project shall be determined in the following manner:

(1) The boards of directors of the districts shall determine the total cost of the proposed project, which cost may include the cost of acquiring and preparing the site, the cost of constructing the building or of acquiring a building and preparing the same for school use, the cost of necessary equipment, taxes chargeable to the project, necessary architects' fees, and a reasonable amount for contingencies and for other necessary incidental expenses: PROVIDED, That the total cost of the project shall be subject to review and approval by the superintendent.

(2) The state funding assistance percentage for a school district shall be computed by the following formula:

\[
\text{State Funding Assistance} = \frac{3+\text{Valuation}}{\text{District Adjusted Valuation}} \times 100
\]

PROVIDED, That in the event the state funding assistance percentage to any school district based on the above formula is less than twenty percent and such school district is otherwise eligible for state funding assistance under RCW 28A.525.162 through 28A.525.180, the superintendent may establish for such district a state funding assistance percentage not in excess of twenty percent of the approved cost of the project, if the superintendent finds that such additional assistance is necessary to provide minimum facilities for housing the pupils of the district.

(3) In addition to the computed state funding assistance percentage developed in subsection (2) of this section, a school district shall be entitled to additional percentage points determined by the average percentage of growth for the past three years. One percent shall be added to the computed state funding assistance percentage for each percent of growth, with a maximum of twenty percent.

(4) In computing the state funding assistance percentage in subsection (2) of this section and adjusting the percentage under subsection (3) of this section, students residing outside the school district who are enrolled in alternative learning experience (proposed) courses under RCW 28A.150.325 (as recodified by this act) shall be excluded from the count of total pupils. In lieu of the exclusion in this subsection, a district may submit an alternative calculation for excluding students enrolled in alternative learning experience (proposed) courses. The alternative calculation must show the student headcount use of district classroom facilities on a regular basis for a reasonable duration by out-of-district alternative learning experience (proposed) students not using district classroom facilities on a regular basis for a reasonable duration. The alternative calculation must be submitted in a form approved by the office of the superintendent of public instruction. The office of the superintendent of public instruction must develop rules to define "regular basis" and "reasonable duration."

(5) The approved cost of the project determined in the manner prescribed in this section multiplied by the state funding assistance percentage derived as provided for in this section shall be the amount of state funding assistance to the district for the financing of the
project: PROVIDED, That need therefor has been established to the satisfaction of the superintendent: PROVIDED, FURTHER, That additional state funding assistance may be allowed if it is found by the superintendent, considering policy recommendations from the school facilities citizen advisory panel that such assistance is necessary in order to meet (a) a school housing emergency resulting from the destruction of a school building by fire, the condemnation of a school building by properly constituted authorities, a sudden excessive and clearly foreseeable future increase in school population, or other conditions similarly emergent in nature; or (b) a special school housing burden resulting from projects of statewide significance or imposed by virtue of the admission of nonresident students into educational programs established, maintained and operated in conformity with the requirements of law; or (c) a deficiency in the capital funds of the district resulting from financing, subsequent to April 1, 1969, and without benefit of the state funding assistance provided by prior state assistance programs, the construction of a needed school building project or projects in conformity with the requirements of such programs, after having first applied for and been denied state funding assistance because of the inadequacy of state funds available for the purpose, or (d) a condition created by the fact that an excessive number of students live in state owned housing, or (e) a need for the construction of a school building to provide for improved school district organization or racial balance, or (f) conditions similar to those defined under (a), (b), (c), (d), and (e) of this subsection, creating a like emergency.

MESSAGE FROM THE SENATE

April 24, 2013

Mr. Speaker:

The Senate has passed SECOND SUBSTITUTE HOUSE BILL NO. 1723 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 43.215 RCW to read as follows:

The legislature finds that the first five years of a child's life establish the foundation for educational success. The legislature also finds that children who have high quality early learning opportunities from birth through age five are more likely to succeed throughout their K-12 education and beyond. The legislature further finds that the benefits of high quality early learning experiences are particularly significant for low-income parents and children, and provide an opportunity to narrow the opportunity gap in Washington's K-12 educational system. The legislature understands that early support for high-risk parents of young children through home visiting services show a high return on investment due to significantly improved chances of better education, health, and life outcomes for children. The legislature further recognizes that, when parents work or go to school, high quality and full-day early learning opportunities should be available and accessible for their children. In order to improve education outcomes, particularly for low-income children, the legislature is committed to expanding high quality early learning opportunities and integrating currently disparate funding streams for all birth-to-five early learning services including, working connections child care and the early childhood education and assistance program, into a single high quality continuum of learning that provides essential services to low-income families and prepares all enrolled children for success in school. The legislature therefore intends to establish the early start program to provide a continuum of high quality and accountable early learning opportunities for Washington's parents and children.

Sec. 2. RCW 28A.150.220 and 2011 1st sp.s c 27 s 1 are each amended to read as follows:

(1) In order for students to have the opportunity to develop the basic education knowledge and skills under RCW 28A.150.210, school districts must provide instruction of sufficient quantity and quality and give students the opportunity to complete graduation requirements that are intended to prepare them for postsecondary education, gainful employment, and citizenship. The program established under this section shall be the minimum instructional program of basic education offered by school districts.

(2) Each school district shall make available to students the following minimum instructional offering each school year:

(a) For students enrolled in grades one through twelve, at least a district-wide annual average of one thousand hours, which shall be increased to at least one thousand eighty instructional hours for students enrolled in each of grades seven through twelve and at least one thousand one hundred instructional hours for students in each of grades one through six according to an implementation schedule adopted by the legislature, but not before the 2014-15 school year; and

(b) For students enrolled in kindergarten, at least four hundred fifty instructional hours, which shall be increased to at least one thousand instructional hours according to the implementation schedule under RCW 28A.150.315.

(3) The instructional program of basic education provided by each school district shall include:

(a) Instruction in the essential academic learning requirements under RCW 28A.655.070;

(b) Instruction that provides students the opportunity to complete twenty-four credits for high school graduation, subject to a phased-in implementation of the twenty-four credits as established by the legislature. Course distribution requirements may be established by the state board of education under RCW 28A.230.090;

(c) If the essential academic learning requirements include a requirement of languages other than English, the requirement may be met by students receiving instruction in one or more American Indian languages;

(d) Supplemental instruction and services for underachieving students through the learning assistance program under RCW 28A.165.005 through 28A.165.065;

(e) Supplemental instruction and services for eligible and enrolled students whose primary language is other than English through the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080;

(f) The opportunity for an appropriate education at public expense as defined by RCW 28A.155.020 for all eligible students with disabilities as defined in RCW 28A.155.020; and

(g) Programs for highly capable students under RCW 28A.185.010 through 28A.185.030.

(4) Nothing contained in this section shall be construed to require individual students to attend school for any particular number of hours per day or to take any particular courses.

(5) Each school district's kindergarten through twelfth grade basic educational program shall be accessible to all students who are five years of age, as provided by RCW 28A.225.160, and less than twenty-one years of age and shall consist of a minimum of one
hundred eighty school days per school year in such grades as are conducted by a school district, and one hundred eighty half-days of instruction, or equivalent, in kindergarten, to be increased to a minimum of one hundred eighty school days per school year according to the implementation schedule under RCW 28A.150.315. However, schools administering the Washington kindergarten inventory of developing skills may use up to three school days at the beginning of the school year to meet with parents and families as required in the parent involvement component of the inventory. In addition, effective May 1, 1979, a school district may schedule the last five school days of the one hundred and eighty day school year for noninstructional purposes in the case of students who are graduating from high school, including, but not limited to, the observance of graduation and early release from school upon the request of a student, and all such students may be claimed as a full-time equivalent student to the extent they could otherwise have been so claimed for the purposes of RCW 28A.150.250 and 28A.150.260.

(6) Nothing in this section precludes a school district from enrolling the instructional program of basic education, such as offering additional instruction or providing additional services, programs, or activities that the school district determines to be appropriate for the education of the school district's students.

(7) The state board of education shall adopt rules to implement and ensure compliance with the program requirements imposed by this section, RCW 28A.150.250 and 28A.150.260, and such related supplemental program approval requirements as the state board may establish.

Strike everything after the enacting clause and insert the following:

Sec. 1. RCW 74.34.020 and 2012 c 10 s 62 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Abandonment" means action or inaction by a person or entity with a duty of care for a vulnerable adult that leaves the vulnerable person without the means or ability to obtain necessary food, clothing, shelter, or health care.

(2) "Abuse" means the willful action or inaction that inflicts injury, unreasonable confinement, intimidation, or punishment on a vulnerable adult. In instances of abuse of a vulnerable adult who is unable to express or demonstrate physical harm, pain, or mental anguish, the abuse is presumed to cause physical harm, pain, or mental anguish. Abuse includes sexual abuse, mental abuse, physical abuse, and exploitation of a vulnerable adult, which have the following meanings:

(a) "Sexual abuse" means any form of nonconsensual sexual contact, including but not limited to unwanted or inappropriate touching, rape, sodomy, sexual coercion, sexually explicit photographing, and sexual harassment. Sexual abuse includes any sexual contact between a staff person, who is not also a resident or client, of a facility or a staff person of a program authorized under chapter 71A.12 RCW, and a vulnerable adult living in that facility or
receiving service from a program authorized under chapter 71A.12 RCW, whether or not it is consensual.

(b) "Physical abuse" means the willful action of inflicting bodily injury or physical mistreatment. Physical abuse includes, but is not limited to, striking with or without an object, slapping, pinching, choking, kicking, shoving, prodding, or the use of chemical restraints or physical restraints unless the restraints are consistent with licensing requirements, and includes restraints that are otherwise being used inappropriately.

(c) "Mental abuse" means any willful action or inaction of mental or verbal abuse. Mental abuse includes, but is not limited to, coercion, harassment, inappropriately isolating a vulnerable adult from family, friends, or regular activity, and verbal assault that includes ridiculing, intimidating, yelling, or swearing.

(d) "Exploitation" means an act of forcing, compelling, or exerting undue influence over a vulnerable adult causing the vulnerable adult to act in a way that is inconsistent with relevant past behavior, or causing the vulnerable adult to perform services for the benefit of another.

(3) "Consent" means express written consent granted after the vulnerable adult or his or her legal representative has been fully informed of the nature of the services to be offered and that the receipt of services is voluntary.

(4) "Department" means the department of social and health services.

(5) "Facility" means a residence licensed or required to be licensed under chapter 18.20 RCW, assisted living facilities; chapter 18.51 RCW, nursing homes; chapter 70.128 RCW, adult family homes; chapter 72.36 RCW, soldiers homes; or chapter 71A.20 RCW, residential habilitation centers; or any other facility licensed or certified by the department.

(6) "Financial exploitation" means the illegal or improper use, control over, or withholding of the property, income, resources, or trust funds of the vulnerable adult by any person or entity for any person's or entity's profit or advantage other than for the vulnerable adult's profit or advantage. "Financial exploitation" includes, but is not limited to:

(a) The use of deception, intimidation, or undue influence by a person or entity in a position of trust and confidence with a vulnerable adult to obtain or use the property, income, resources, or trust funds of the vulnerable adult for the benefit of a person or entity other than the vulnerable adult;

(b) The breach of a fiduciary duty, including, but not limited to, the misuse of a power of attorney, trust, or a guardianship appointment, that results in the unauthorized appropriation, sale, or transfer of the property, income, resources, or trust funds of the vulnerable adult for the benefit of a person or entity other than the vulnerable adult;

(c) Obtaining or using a vulnerable adult's property, income, resources, or trust funds without lawful authority, by a person or entity who knows or clearly should know that the vulnerable adult lacks the capacity to consent to the release or use of his or her property, income, resources, or trust funds.

(7) "Financial institution" has the same meaning as in RCW 30.22.040 and 30.22.041. For purposes of this chapter only, "financial institution" also means a "broker-dealer" or "investment adviser" as defined in RCW 21.20.005.

(8) "Incapacitated person" means a person who is at a significant risk of personal or financial harm under RCW 11.88.010(1) (a), (b), (c), or (d).

(10) "Interested person" means a person who demonstrates to the court's satisfaction that the person is interested in the welfare of the vulnerable adult, that the person has a good faith belief that the court's intervention is necessary, and that the vulnerable adult is unable, due to incapacity, undue influence, or duress at the time the petition is filed, to protect his or her own interests.

(11) "Mandated reporter" is an employee of the department; law enforcement officer; social worker; professional school personnel; individual provider; an employee of a facility; an operator of a facility; an employee of a social service, welfare, mental health, adult day health, adult day care, home health, home care, or hospice agency; county coroner or medical examiner; Christian Science practitioner; or health care provider subject to chapter 18.130 RCW.

(13) "Permissive reporter" means any person, including, but not limited to, an employee of a financial institution, attorney, or volunteer in a facility or program providing services for vulnerable adults.

(14) "Protective services" means any services provided by the department to a vulnerable adult with the consent of the vulnerable adult, or the legal representative of the vulnerable adult, who has been abandoned, abused, financially exploited, neglected, or in a state of self-neglect. These services may include, but are not limited to case management, social casework, home care, placement, arranging for medical evaluations, psychological evaluations, day care, or referral for legal assistance.

(15) "Self-neglect" means the failure of a vulnerable adult, not living in a facility, to provide for himself or herself the goods and services necessary for the vulnerable adult's physical or mental health, and the absence of which impairs or threatens the vulnerable adult's well-being. This definition may include a vulnerable adult who is receiving services through home health, hospice, or a home care agency, or an individual provider when the neglect is not a result of inaction by that agency or individual provider.

(16) "Social worker" means:

(a) A social worker as defined in RCW 18.320.010(2); or

(b) Anyone engaged in a professional capacity during the regular course of employment in encouraging or promoting the health, welfare, support, or education of vulnerable adults, or providing social services to vulnerable adults, whether in an individual capacity or as an employee or agent of any public or private organization or institution.

(17) "Vulnerable adult" includes a person:

(a) Mandated reporters shall immediately report to the department;

(4) A mandated reporter is not required to report to a law enforcement agency, unless requested by the injured vulnerable adult or his or her legal representative or family member, an incident of physical assault between vulnerable adults that causes minor bodily injury and does not require more than basic first aid, unless:
(a) The injury appears on the back, face, head, neck, chest, breasts, groin, inner thigh, buttock, genital, or anal area;
(b) There is a fracture;
(c) There is a pattern of physical assault between the same vulnerable adults or involving the same vulnerable adults; or

(9) Unless there is a judicial proceeding or the person consents, the identity of the person making the report under this section is confidential.

(10) In conducting an investigation of abandonment, abuse, financial exploitation, self-neglect, or neglect, the department or law enforcement, upon request, must have access to all relevant records related to the vulnerable adult that are in the possession of mandated reporters and their employees, unless otherwise prohibited by law.

THIRD READING
MESSAGE FROM THE SENATE
April 24, 2013

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1130 with the following amendment:

After the enacting clause and insert the following:

"Sec. 1. RCW 46.55.120 and 2009 c 387 s 3 are each amended to read as follows:

(1)(a) Vehicles or other items of personal property registered or titled with the department from the registered owner or insurer to move the vehicle, and has documented that consent in the insurer's claim file, or a vendor working on behalf of a third-party insurer that has a duty to repair or replace the vehicle's insurer;

(v) A third-party insurer that has a duty to repair or replace the vehicle, has obtained consent from the registered owner or the owner's agent to move the vehicle, and has documented that consent in the insurer's claim file, or a vendor working on behalf of the third-party insurer that has received such consent; provided, however, that at all times the registered owner must be granted access to and may reclaim possession of the vehicle. For the purposes of this subsection, "owner's agent" means the legal owner of the vehicle, a driver in possession of the vehicle with the registered owner's permission, or an adult member of the registered owner's family;

(vi) A person who is determined and verified by the operator to have the permission of the registered owner of the vehicle or other item of personal property registered or titled with the department((, or the vehicle's insurer));

(iv) The vehicle's insurer or a vendor working on behalf of the vehicle's insurer;

(v) A third-party insurer that has a duty to repair or replace the vehicle, has obtained consent from the registered owner or the owner's agent to move the vehicle, and has documented that consent in the insurer's claim file, or a vendor working on behalf of a third-party insurer that has received such consent; provided, however, that at all times the registered owner must be granted access to and may reclaim possession of the vehicle. For the purposes of this subsection, "owner's agent" means the legal owner of the vehicle, a driver in possession of the vehicle with the registered owner's permission, or an adult member of the registered owner's family;
Notwithstanding (((b))) (c) of this subsection, a rental bidder who is not the registered owner.

The registered owner is not eligible to purchase the vehicle at the auction, and the tow truck operator shall sell the vehicle to the highest bidder within the normal time limits set out in RCW 46.55.113(3).

In order to avoid discriminatory application, other than for the reasons for release set forth in (((a))) (b)(i) and (ii) of this subsection, an agency shall, under a provision of an applicable state agency rule or local ordinance, deny release in all other circumstances without discretion.

If a vehicle is impounded because the operator is in violation of RCW 46.20.342(1)(a) or (b), the vehicle may be held for up to thirty days at the written direction of the agency ordering the vehicle impounded. However, if the department's records show that the operator has been convicted of a violation of RCW 46.20.342(1)(a) or (b) or a similar local ordinance within the past five years, the vehicle may be held at the written direction of the agency ordering the vehicle impounded for up to sixty days, and for up to ninety days if the operator has two or more such prior offenses. If a vehicle is impounded because the operator is arrested for a violation of RCW 46.20.342, the vehicle may not be released until a person eligible to redeem it under (a) of this subsection satisfies the requirements of (((a))) (f) of this subsection, including paying all towing, removal, and storage fees, notwithstanding the fact that the hold was ordered by a government agency.

If the vehicle is directed to be held for a suspended license impound, a person who desires to redeem the vehicle at the end of the period of impound shall within five days of the impound at the request of the tow truck operator pay a security deposit to the tow truck operator of not more than one-half of the applicable impound rate for each day of the proposed suspended license impound. The tow truck operator shall credit this amount against the final bill due to lack of funds, to a towing firm that has provided a service in connection with services rendered pursuant to this section or in any other manner defrauds the towing firm in connection with services rendered pursuant to this section shall be liable for damages in the amount of twice the towing and storage fees, plus costs and reasonable attorney's fees.

The registered tow truck operator shall give to each person who seeks to redeem an impounded vehicle, or item of personal property registered or titled with the department, written notice of the right of redemption and opportunity for a hearing, which notice shall be accompanied by a form to be used for requesting a hearing, the name of the person or agency authorizing the impound, and a copy of payment of the costs of removal, towing, and storage, whereupon the vehicle will not be held for a suspended license impound.

Notwithstanding (((b))) (c) of this subsection, a motor vehicle dealer or lender with a perfected security interest in the vehicle may redeem or lawfully repossess a vehicle immediately by payment of the costs of removal, towing, and storage, whereupon the vehicle will not be held for a suspended license impound. A motor vehicle dealer or lender with a perfected security interest in the vehicle may not knowingly and intentionally engage in collusion with a registered owner to repossess and then return or resell a vehicle to the registered owner in an attempt to avoid a suspended license impound. However, this provision does not preclude a vehicle dealer or a lender with a perfected security interest in the vehicle from repossessing the vehicle and then selling, leasing, or otherwise disposing of it in accordance with chapter 62A.9A RCW, including providing redemption rights to the debtor under RCW 62A.9A.623.

If the debtor is the registered owner of the vehicle, the debtor's right to redeem the vehicle under chapter 62A.9A RCW is conditioned upon the debtor obtaining and providing proof from the impounding authority or court having jurisdiction that any penalties, fines, and forfeitures owed by the registered owner, as a result of the suspended license impound, have been paid, and proof of the payment must be tendered to the vehicle dealer or lender at the time the debtor tends all other obligations required to redeem the vehicle. Vehicle dealers or lenders are not liable for damages if they rely in good faith on an order from the impounding agency or a court in releasing a vehicle held under a suspended license impound.

The vehicle or other item of personal property registered or titled with the department shall be released upon the presentation to any person having custody of the vehicle of commercially reasonable tender sufficient to cover the costs of towing, storage, or other services rendered during the course of towing, removing, impounding, or storing any such vehicle, with credit being given for the amount of any security deposit paid under (((b))) (c) of this subsection. In addition, if a vehicle is impounded because the operator was arrested for a violation of RCW 46.20.342 or 46.20.345 and was being operated by the registered owner when it was impounded under local ordinance or agency rule, it must not be released to any person until the registered owner establishes with the agency that ordered the vehicle impounded or the court having jurisdiction that any penalties, fines, or forfeitures owed by him or her have been satisfied. Registered tow truck operators are not liable for damages if they rely in good faith on an order from the impounding agency or a court in releasing a vehicle held under a suspended license impound. Commercially reasonable tender shall include, without limitation, cash, major bank credit cards issued by financial institutions, or personal checks drawn on Washington state branches of financial institutions if accompanied by two pieces of valid identification, one of which may be required by the operator to have a photograph. If the towing firm cannot determine through the customer's bank or a check verification service that the presented check would be paid by the bank or guaranteed by the service, the towing firm may refuse to accept the check. Any person who stops payment on a personal check or credit card, or does not make restitution within ten days from the date a check becomes insufficient due to lack of funds, to a towing firm that has provided a service pursuant to this section or in any other manner defrauds the towing firm in connection with services rendered pursuant to this section shall be liable for damages in the amount of twice the towing and storage fees, plus costs and reasonable attorney's fees.

The registered tow truck operator shall give to each person who seeks to redeem an impounded vehicle, or item of personal property registered or titled with the department, written notice of the right of redemption and opportunity for a hearing, which notice shall be accompanied by a form to be used for requesting a hearing, the name of the person or agency authorizing the impound, and a copy of...
the towing and storage invoice. The registered tow truck operator shall maintain a record evidenced by the redeeming person’s signature that such notification was provided.

(b) Any person seeking to redeem an impounded vehicle under this section has a right to a hearing in the district or municipal court for the jurisdiction in which the vehicle was impounded to contest the validity of the impoundment or the amount of towing and storage charges. The district court has jurisdiction to determine the issues involving all impoundments including those authorized by the state or its agents. The municipal court has jurisdiction to determine the issues involving impoundments authorized by agents of the municipality. Any request for a hearing shall be made in writing on the form provided for that purpose and must be received by the appropriate court within ten days of the date the opportunity was provided for in (subsection (2))(a) of this subsection and more than five days before the date of the auction. At the time of the filing of the hearing request, the petitioner shall pay to the court clerk a filing fee in the same amount required for the filing of a suit in district court.

(3)(a) The court, within five days after the request for a hearing, shall notify the registered tow truck operator, the person requesting the hearing if not the owner, the registered and legal owners of the vehicle or other item of personal property registered or titled with the department, and the person or agency authorizing the impound in writing of the hearing date and time.

(b) At the hearing, the person or persons requesting the hearing may produce any relevant evidence to show that the impoundment, towing, or storage fees charged were not proper. The court may consider a written report made under oath by the officer who authorized the impoundment in lieu of the officer’s personal appearance at the hearing.

In addition, the court shall enter judgment in favor of the registered and legal owners of the vehicle, or other item of personal property registered or titled with the department, for the amount of the filing fee required by law for the impound hearing petition as well as reasonable damages for loss of the use of the vehicle during the time the same was impounded against the person or agency authorizing the impound. However, if an impoundment arising from an alleged violation of RCW 46.20.342 or 46.20.345 is determined to be in violation of this chapter, then the law enforcement officer directing the impoundment and the government employing the officer are not liable for damages if the officer relied in good faith and without gross negligence on the records of the department in ascertaining that the operator of the vehicle had a suspended or revoked driver’s license. If any judgment entered is not paid within fifteen days of notice in writing of its entry, the court shall award reasonable attorneys’ fees and costs against the defendant in any action to enforce the judgment. Notice of entry of judgment may be made by registered or certified mail, and proof of mailing may be made by affidavit of the party mailing the notice. NEW SECTION. Sec. 27. A new section is added to chapter 19.290 RCW to read as follows:

(1) The following personal property is subject to seizure and forfeiture and no property right exists in them: All personal property including, but not limited to, any item, object, tool, substance, device, weapon, machine, vehicle of any kind, money, security, or negotiable instrument, which the seizing agency proves by a preponderance of the evidence was used or intended to be used by its owner or the person in charge to knowingly or intentionally facilitate the commission of, or to knowingly or intentionally abet the commission of, a crime involving theft, trafficking, or unlawful possession of commercial metal property, or which the seizing agency proves by a preponderance of the evidence was knowingly or intentionally furnished or was intended to be furnished by any person in the commission of, as a result of, or as compensation for the commission of, a crime involving theft, trafficking, or the unlawful possession of commercial metal property, or which the property owner acquired in whole or in part with proceeds traceable to a knowing or intentional commission of a crime involving the theft, trafficking, or unlawful possession of commercial metal property, or which have been acquired in whole or in part with proceeds traceable to the commission of any crime involving the trafficking, theft, or unlawful possession of commercial metal property, if such activity is not less than a class C felony and a substantial nexus exists between the commission of the violation or crime and the real property. However:

(a) No property may be forfeited pursuant to this subsection (2), to the extent of the interest of an owner, by reason of any act or omission committed or omitted without the owner's actual or constructive knowledge; and further, a property owner's real property is not subject to seizure if an employee or agent of that property owner uses the property owner's real property to knowingly or intentionally facilitate the commission of, or to knowingly or intentionally aid and abet the commission of, a crime involving theft, trafficking, or unlawful possession of commercial metal property, in violation of that property owner's instructions or policies against such activity, and without the property owner's knowledge or consent; and

(b) A forfeiture of real property encumbered by a bona fide security interest is subject to the interest of the secured party if the secured party, neither had actual or constructive knowledge, nor consented to the act or omission.

(2) Property subject to forfeiture under this chapter may be seized by any law enforcement officer of this state upon process issued by any superior court having jurisdiction over the property. Seizure of real property shall include the filing of a lis pendens by the seizing agency. Real property seized under this section shall not be transferred or otherwise conveyed until ninety days after seizure or until a judgment of forfeiture is entered, whichever is later: PROVIDED, That real property seized under this section may be transferred or conveyed to any person or entity who acquires title by foreclosure or deed in lieu of foreclosure of a security interest.

Seizure of personal property without process may be made if:

(a) The seizure is incident to an arrest or a search under a search warrant; or

(b) The property subject to seizure has been the subject of a prior judgment in favor of the state in a criminal injunction or forfeiture proceeding.

(4) In the event of seizure pursuant to this section, proceedings for forfeiture shall be deemed commenced by the seizure. The law enforcement agency under whose authority the seizure was made shall cause notice to be served within fifteen days following the seizure on the owner of the property seized and the person in charge thereof and any person having any known right or interest therein, including any community property interest, of the seizure and intended forfeiture of the seized property. Service of notice of seizure of real property shall be made according to the rules of civil procedure. However, the state may not obtain a default judgment with respect to real property against a party who is served by substituted service absent an affidavit stating that a good faith effort has been made to ascertain if the defaulted party is incarcerated within the state, and that there is no present basis to believe that the party is incarcerated within the state. The notice of seizure of personal property may be served by any method authorized by law or court rule including but not limited to service by certified mail with return receipt requested. Service by mail shall be deemed complete upon mailing within the fifteen day period following the seizure. Notice of seizure in the case of property subject to a security interest that has been perfected by filing a financing statement in accordance with chapter 62A.9A RCW, or a certificate of title shall be made by service.
upon the secured party or the secured party's assignee at the address shown on the financing statement or the certificate of title.

(5) If no person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of items specified in subsection (1) of this section within forty-five days of the seizure in the case of personal property and ninety days in the case of real property, the item seized shall be deemed forfeited. The community property interest in real property of a person whose spouse or domestic partner committed a violation giving rise to seizure of the real property may not be forfeited if the person did not participate in the violation.

(6) If a person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of the seized property within forty-five days of the seizure in the case of personal property and ninety days in the case of real property, the law enforcement agency shall give the person or persons a reasonable opportunity to be heard as to the claim or right. The hearing shall be before the chief law enforcement officer of the seizing agency or the chief law enforcement officer's designee, except where the seizing agency is a state agency as defined in RCW 34.12.020(4), the hearing shall be before the chief law enforcement officer of the seizing agency or an administrative law judge appointed under chapter 34.12 RCW, except that any person asserting a claim or right may remove the matter to a court of competent jurisdiction. Removal may only be accomplished according to the rules of civil procedure. The person seeking removal of the matter must serve process against the state, county, political subdivision, or municipality that operates the seizing agency, and any other party of interest, in accordance with RCW 4.28.080 or 4.92.020, within forty-five days after the person seeking removal has notified the seizing law enforcement agency of the person's claim of ownership or right to possession. The court to which the matter is to be removed shall be the district court when the aggregate value of the property is within the jurisdictional limit set forth in RCW 3.66.020. A hearing before the seizing agency and any appeal therefrom shall be under Title 34 RCW. In a court hearing between two or more claimants to the property involved, the prevailing party shall be entitled to a judgment for costs and reasonable attorneys' fees. The burden of producing evidence shall be upon the person claiming to be the lawful owner or the person claiming to have the lawful right to possession of the property.

(7) At the hearing, the seizing agency has the burden of proof to establish by a preponderance of the evidence that seized property is subject to forfeiture, and that the use or intended use of the seized property in connection with a crime pursuant to this section occurred with the owner's actual or constructive knowledge or consent. The person claiming to be the lawful owner or the person claiming to have the lawful right to possession of the property has the burden of proof to establish by a preponderance of the evidence that the person owns or has a right to possess the seized property. The possession of bare legal title is not sufficient to establish ownership of seized property if the seizing agency proves by a preponderance of the evidence that the person claiming ownership or right to possession is a nominal owner and did not actually own or exert a controlling interest in the property. The seizing law enforcement agency shall promptly return the property to the claimant upon a determination by the administrative law judge or court that the claimant is the present lawful owner or is lawfully entitled to possession of the property.

(8) When property is forfeited under this chapter, after satisfying any court-ordered victim restitution, the seizing law enforcement agency may:

(a) Retain it for official use or, upon application by any law enforcement agency of this state, release such property to such agency; or

(b) Sell that which is not required to be destroyed by law and which is not harmful to the public.

(9) (a) Within one hundred twenty days after the entry of an order of forfeiture, each seizing agency shall remit to, if known, the victim of the crime involving the seized property, an amount equal to fifty percent of the net proceeds of any property forfeited.

(b) Retained property and net proceeds not required to be paid to victims shall be retained by the seizing law enforcement agency exclusively for the expansion and improvement of law enforcement activity. Money retained under this section may not be used to supplant preexisting funding sources.

(c) The net proceeds of forfeited property is the value of the forfeitable interest in the property after deducting the cost of satisfying any bona fide security interest to which the property is subject at the time of seizure; and in the case of sold property, after deducting the cost of sale, including reasonable fees or commissions paid to independent selling agents, and the cost of any valid landlord's claim for damages.

(d) The value of sold forfeited property is the sale price. The value of retained forfeited property is the fair market value of the property at the time of seizure, determined when possible by reference to an applicable commonly used index, such as the index used by the department of licensing for valuation of motor vehicles. A seizing agency may use, but need not use, an independent qualified appraiser to determine the value of retained property. If an appraiser is used, the value of the property appraised is net of the cost of appraisal. The value of destroyed property and retained firearms or illegal property is zero.

(10) Upon the entry of an order of forfeiture of real property, the court shall forward a copy of the order to the assessor of the county in which the property is located. Orders for the forfeiture of real property shall be entered by the superior court, subject to court rules. Such an order shall be filed by the seizing agency in the county auditor's records in the county in which the real property is located.

MESSAGE FROM THE SENATE

April 24, 2013

Mr. Speaker:

The Senate has passed HOUSE BILL NO. 1471 with the following amendment:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 43.70.056 and 2010 c 113 s 1 are each amended to read as follows:"
(B) Reporting under this subsection (2)(c) will provide substantially the same information to the public.

(ii) If the department determines that reporting of a measure must be conducted under this subsection (2)(c), the department must adopt rules to implement such reporting. The department’s rules must require reporting to the centers for medicare and medicaid services as soon as practicable, but not more than one hundred twenty days, after the centers for medicare and medicaid services allow hospitals to report the respective measure to the hospital compare program, or its successor. However, if the centers for medicare and medicaid services allow infection rates to be reported using the centers for disease control and prevention’s national healthcare safety network, the department’s rules must require reporting that reduces the burden of data reporting and minimizes changes that hospitals must make to accommodate requirements for reporting. If the centers for medicare and medicaid services changes reporting from the national healthcare safety network to another database or through another process, the department shall review the new reporting database or process and consider whether it aligns with the purposes of this section.

(d) Data collection and submission required under this subsection (2) must be overseen by a qualified individual with the appropriate level of skill and knowledge to oversee data collection and submission.

(e)(i) A hospital must release to the department, or grant the department access to, its hospital-specific information contained in the reports submitted under this subsection (2), as requested by the department consistent with RCW 70.02.050.

(ii) The hospital reports obtained by the department under this subsection (2), and any of the information contained in them, are not subject to discovery by subpoena or admissible as evidence in a civil proceeding, and are not subject to public disclosure as provided in RCW 42.56.360.

(3) The department shall:

(3)(d) By December 1, 2009, and by each December 1st thereafter, prepare and publish a report on the department’s web site that compares the health care-associated infection rates at individual hospitals in the state using the data reported in the previous calendar year pursuant to subsection (2) of this section. The department may update the reports quarterly. In developing a methodology for the report and determining its contents, the department shall consider the recommendations of the advisory committee established in subsection (5) of this section. The report is subject to the following:

(i) The report must not disclose data in a format that does not release health information about any individual patient; and

((Annual, beginning January 1, 2011, the advisory committee shall also make a recommendation to the department as to whether current science supports expanding presurgical screening for methicillin-resistant staphylococcus aureus prior to open chest cardiac, total hip, and total knee elective surgeries))

(b) In developing its recommendations, the advisory committee shall consider methodologies and practices related to health care-associated infections of the United States centers for disease control and prevention, the centers for medicare and medicaid services, the joint commission, the national quality forum, the institute for healthcare improvement, and other relevant organizations.

(6) The department shall adopt rules as necessary to carry out its responsibilities under this section.

SECOND READING

ENGROSSED SENATE BILL NO. 5236, by Senators Kline and Padden

Creating the uniform correction or clarification of defamation act.

The bill was read the second time.

Representative Goodman moved the adoption of amendment (491).

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. INTENT. Since the United States Supreme Court recognized the First Amendment limitations on the common law tort of defamation and defamation-like torts, courts have
struggled to achieve a balance between constitutionally protected guarantees of free expression and the need to protect citizens from reputational harm. Unlike personal injuries, harm to reputation can often be cured by means other than money damages. The correction or clarification of a published statement may restore a person's reputation more quickly and more thoroughly than a victorious lawsuit. The salutary effect of a correction or clarification is enhanced if it is published reasonably soon after a statement is made. This act seeks to provide strong incentives for individuals to promptly correct or clarify an alleged false statement as an alternative to costly litigation. The options created by this act provide an opportunity for a plaintiff who believes he or she has been harmed by a false statement to secure quick and complete vindication of his or her reputation. This act provides publishers with a quick and cost-effective means of correcting or clarifying alleged mistakes and avoiding costly litigation.

**NEW SECTION. Sec. 2. DEFINITION.** The definition in this section applies throughout this chapter unless the context clearly requires otherwise.

"Person" means an individual, corporation, business trust, estate, trust, partnership, association, joint venture, or other legal or commercial entity. The term does not include a government or governmental subdivision, agency, or instrumentality.

**NEW SECTION. Sec. 3. SCOPE.** (1) This chapter applies to any claim for relief, however characterized, for damages arising out of harm caused by the false content of a publication that is published on or after the effective date of this section.

(2) This chapter applies to all publications, including writings, broadcasts, oral communications, electronic transmissions, or other forms of transmitting information.

**NEW SECTION. Sec. 4. REQUEST FOR CORRECTION OR CLARIFICATION.** (1) A person may maintain an action for defamation or another claim covered by this chapter only if:

(a) The person has made a timely and adequate request for correction or clarification from the defendant; or

(b) The defendant has made a correction or clarification.

(2) A request for correction or clarification is timely if made within the period of limitation for commencement of an action for defamation.

(3) A request for correction or clarification is adequate if it:

(a) Is made in writing and reasonably identifies the person making the request;

(b) Specifies with particularity the statement alleged to be false and defamatory or otherwise actionable and, to the extent known, the time and place of publication;

(c) Alleviates the defamatory meaning of the statement;

(d) Specifies the circumstances giving rise to any defamatory meaning of the statement which arises from other than the express language of the publication; and

(e) States that the alleged defamatory meaning of the statement is false.

(4) In the absence of a previous adequate request, service of a summons and complaint stating a claim for defamation or another claim covered by this chapter and containing the information required in subsection (3) of this section constitutes an adequate request for correction or clarification.

(5) The period of limitation for commencement of a defamation action or another claim covered by this chapter is tolled during the period allowed in section 7(1) of this act for responding to a request for correction or clarification.

**NEW SECTION. Sec. 5. DISCLOSURE OF EVIDENCE OF FALSEITY.** (1) A person who has been requested to make a correction or clarification may ask the requester to disclose reasonably available information material to the falsity of the allegedly defamatory or otherwise actionable statement.

(2) If a correction or clarification is not made, a person who unreasonably fails to disclose the information after a request to do so may not recover damages for injury to reputation or presumed damages; however, the person may recover all other damages permitted by law.

**NEW SECTION. Sec. 6. EFFECT OF CORRECTION OR CLARIFICATION.** If a timely and sufficient correction or clarification is made, a person may not recover damages for injury to reputation or presumed damages; however, the person may recover all other damages permitted by law.

**NEW SECTION. Sec. 7. TIMELY AND SUFFICIENT CORRECTION OR CLARIFICATION.** (1) A correction or clarification is timely if it is published before, or within thirty days after, receipt of a request for correction or clarification or of the information in section 5(1) of this act, whichever is later, unless the period is extended by written agreement of the parties.

(2) A correction or clarification is sufficient if it:

(a) Is published with a prominence and in a manner reasonably likely to reach substantially the same audience as the publication complained of;

(b) Refers to the statement being corrected or clarified and:

(i) Corrects the statement;

(ii) In the case of defamatory or false meaning arising from other than the express language of the publication, disclaims an intent to communicate that meaning or to assert its truth; or

(iii) In the case of a statement attributed to another person, identifies the person and disclaims an intent to assert the truth of the statement;

(c) In advance of the publication, is provided to the person who has made a request for correction or clarification; and

(d) Accompanies and is an equally prominent part of any electronic publication of the allegedly defamatory or otherwise actionable statement by the publisher.

(3) A correction or clarification is published in a medium reasonably likely to reach substantially the same audience as the publication complained of if it is published in a later issue, edition, or broadcast of the original publication.

(4) If a later issue, edition, or broadcast of the original publication will not be published within the time limits established for a timely correction or clarification, a correction or clarification is published in a manner and medium reasonably likely to reach substantially the same audience as the publication complained of if:

(a) It is timely published in a reasonably prominent manner:

(i) In another medium likely to reach an audience reasonably equivalent to the original publication; or

(ii) If the parties cannot agree on another medium, in the newspaper with the largest general circulation in the region in which the original publication was distributed;

(b) Reasonable steps are taken to correct undistributed copies of the original publication, if any; and

(c) It is published in the next practicable issue, edition, or broadcast, if any, of the original publication.

(5) A correction or clarification is timely and sufficient if the parties agree in writing that it is timely and sufficient.

**NEW SECTION. Sec. 8. CHALLENGES TO CORRECTION OR CLARIFICATION OR TO REQUEST FOR CORRECTION OR CLARIFICATION.** (1) If a defendant in an action governed by this chapter intends to rely on a timely and sufficient correction or clarification, the defendant's intention to do so, and the correction or clarification relied upon, must be set forth in a notice served on the plaintiff within sixty days after service of the summons and complaint or ten days after the correction or clarification is made, whichever is later.

(2) If a defendant in an action governed by this chapter intends to challenge the adequacy or timeliness of a request for correction or clarification, the defendant must set forth the challenge in a motion to
NEW SECTION. Sec. 9. OFFER TO CORRECT OR CLARIFY. (1) If a timely correction or clarification is no longer possible, the publisher of an alleged defamatory or otherwise actionable statement may offer, at any time before trial, to make a correction or clarification. The offer must be made in writing to the person allegedly harmed by the publication and:

(a) Contain the publisher's offer to:

(i) Publish, at the person's request, a sufficient correction or clarification; and

(ii) Pay the person's reasonable expenses of litigation, including attorneys' fees, incurred before publication of the correction or clarification; and

(b) Be accompanied by a copy of the proposed correction or clarification and the plan for its publication.

(2) If the person accepts in writing an offer to correct or clarify made pursuant to subsection (1) of this section:

(a) The person is barred from commencing an action against the publisher based on the statement; or

(b) If an action has been commenced, the court shall dismiss the action against the defendant with prejudice after the defendant complies with the terms of the offer.

(3) A person who does not accept an offer made in conformance with subsection (1) of this section may not recover damages for injury to reputation or presumed damages in an action based on the statement; however, the person may recover all other damages permitted by law, together with reasonable expenses of litigation, including attorneys' fees, incurred before the offer, unless the person failed to make a good-faith attempt to request a correction or clarification in accordance with section 4 of this act or failed to disclose information in accordance with section 5 of this act.

(4) On request of either party, a court shall promptly determine the sufficiency of the offered correction or clarification.

NEW SECTION. Sec. 10. SCOPE OF PROTECTION. A timely and sufficient correction or clarification made by a person responsible for a publication constitutes a correction or clarification made by all persons responsible for that publication other than a republisher. However, a correction or clarification that is sufficient only because of the operation of section 7(2)(b)(iii) of this act does not constitute a correction or clarification made by the person to whom the statement is attributed.

NEW SECTION. Sec. 11. UNIFORMITY OF APPLICATION AND CONSTRUCTION. This chapter shall be applied and construed to effectuate its general purpose to make uniform the law with respect to the subject of this chapter among states enacting it.

NEW SECTION. Sec. 12. SHORT TITLE. This chapter may be known and cited as the uniform correction or clarification of defamation act.

NEW SECTION. Sec. 13. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 14. Sections 2 through 12 of this act constitute a new chapter in Title 7 RCW."

(2) The real estate services division of the department must recover the cost of its efforts from sale proceeds and fund additional future sales from those proceeds.
(3) The legislature recognizes that: the Dryden pit site (WSDOT Inventory Control (IC) No. 2-04-00103) is unused state-owned real property under the jurisdiction of the department, and that the public would benefit significantly from the complete enjoyment of the natural scenic beauty and recreational opportunities available at the site. Therefore, pursuant to RCW 47.12.080, the legislature declares that transferring the property to the department of fish and wildlife for recreational use and fish and wildlife restoration efforts is consistent with the public interest in order to preserve the area for the use of the public and the betterment of the natural environment. The department shall work with the department of fish and wildlife and transfer and convey the Dryden pit site to the department of fish and wildlife as-is for an adjusted fair market value reflecting site conditions, the proceeds of which must be deposited in the motor vehicle fund. (5) The legislature recognizes that the SR 20/Cook Road realignment and extension project in the city of Sedro-Woolley will enhance the state and local highway systems by providing a direct route from state route number 20 and state route number 9 to Interstate 5, and will reduce traffic on state route number 20 and state route number 9, improving the capacity of each route. Furthermore, the legislature declares that certain portions of the department's property held for highway purposes located primarily to the north and west of state route number 20, between state route number 20 to the south and F and S Grade Road to the north, in the incorporated limits of Sedro-Woolley in Skagit county, can help facilitate completion of the project. The legislature also finds that significant amounts of research and public education are occurring in similar efforts in several states and that these efforts can and should be leveraged to advance the evaluation in Washington. The legislature intends, therefore, that the transportation commission and its staff lead the policy development of the business case for a road usage charge system, with the goal of providing the business case to the governor and the legislative committees of the legislature in time for inclusion in the 2014 supplemental omnibus transportation appropriations act. The legislature intends for additional oversight in the business case development, with guidance from a steering committee as provided in chapter 86, Laws of 2012 for the transportation commission, augmented with participation by the joint transportation committee. The legislature further intends that, through the economic partnerships program, the department continue to address administrative, technical, and conceptual operational issues related to road usage charge systems, and that the department serve as a resource for information gleaned from other states on this topic for the transportation commission's efforts.
(2) The economic partnerships program must continue to explore retail partnerships at state-owned park-and-ride facilities, as authorized in RCW 47.04.295.

For the purpose of this pilot program, during the 2013-2015 fiscal biennium, a roadway construction zone includes areas where public employees or private contractors may be present or where a driving condition exists that would make it unsafe to drive at higher speeds, such as, when the department is redirecting or realigning lanes on any public roadway pursuant to ongoing construction. (2) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Prior to the department’s switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, the department shall contract with an independent research organization with expertise in the evaluation of wood products to determine on a life-cycle basis the cost effectiveness of using wood posts versus steel posts in new guardrail installations.

(a) The study must include the following objectives:

(i) Examine wood posts that are randomly selected, are representative of commonly found posts in service, and are of sufficient sampling size to produce a statistically valid data set;

(ii) Assess the residual flexural properties of guardrail posts after twenty years in service at various sites representing the climatic and soil variability of the state;

(iii) Measure test results against AASHTO standards;

(iv) Determine residual preservative levels in wood posts in terms of retention and penetration in order to determine the role of treatment quality on performance following test procedures outlined in American wood protection association standards;
(v) Examine the levels of decay in the guardrail posts, in terms of location of pockets and the presence of viable decay fungi, through culturing;
(vi) Investigate the effects of decay on flexural properties of guardrail posts;
(vii) Determine an acceptable level or number of nonstandard posts (i.e. posts with decay pockets that cause post strength to fall below AASHTO standards) that can be present in a guardrail run without compromising performance; and
(viii) Conduct thorough data search or identify case studies, or both, on service life of wood guardrail posts. Durability test results should also be factored in when evaluating service life.

(b) The study must be submitted to the office of financial management and the transportation committees of the legislature by January 1, 2015.

As part of the preparation of the statement, the department must review any impacts to the network of highways and roads surrounding Lake Washington. In developing this statement, the department must provide significant outreach to potential affected communities. The department may consider traffic management options that extend as far east as Issaquah.

(b) (i) As part of the project in this subsection (8), the department shall perform a study of all funding alternatives to tolling Interstate 90 to provide funding for construction of the unfunded state route number 520 and explore and evaluate options to mitigate the effect of tolling on affected residents and all other users of the network of highways and roads surrounding Lake Washington including, but not limited to:

(A) Allowing all Washington residents to traverse a portion of the tolled section of Interstate 90 without paying a toll. Residents may choose either (I) the portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing on Mercer Island, or (II) the portion of Interstate 90 between the easternmost landing east of Mercer Island and the easternmost landing on Mercer Island;

(B) Assessing a toll only when a driver traverses, in either direction, the entire portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing east of Mercer Island; and

(C) Allowing affected residents to choose one portion of the tolled section of Interstate 90 upon which they may travel without paying a toll. Residents may choose either (I) the portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing on Mercer Island, or (II) the portion of Interstate 90 between the westernmost landing east of Mercer Island and the easternmost landing on Mercer Island.

(ii) The department may also consider any alternative mitigation options that conform to the purpose of this subsection (8).
iii) For the purposes of this subsection (8), “affected resident”
means anyone who must use a portion of Interstate 90 west of
Interstate 405 upon which tolling is considered in order to access
necessary medical services, such as a hospital.

9) $541,901,000 of the transportation partnership account--state

more than three members as described under RCW 47.01.400 for the
purpose of updating the work that was previously completed by the
panel on the Alaskan Way viaduct project and to ensure that an
appropriate and viable financial plan is created and regularly
reviewed. The expert review panel must be selected cooperatively by
the chairs of the senate and house of representatives transportation
committees, the secretary of transportation, and the governor.
The expert review panel must report findings and recommendations to the
transportation committees of the legislature, the governor's Alaskan
Way viaduct project oversight committee, and the transportation
commission annually until the project is operationally complete. This
subsection takes effect if chapter ... (Substitute House Bill No. 1957),

appropriation and $53,755,000 of the transportation 2003 account
(nickel account)--state appropriation are provided solely for the I-
405/Kirkland Vicinity Stage 2 - Widening project (8B11002).
This project must be completed as soon as practicable as a design-build
project. Any future savings on this project or other Interstate 405
corridor projects must stay on the Interstate 405 corridor and be made
available to either the I-405/SR 167 Interchange - Direct Connector
project (140504C) or the I-405 Renton to Bellevue project.

13(a) The SR 520 Bridge Replacement and HOV project
(8B11003) is supported over time from multiple sources, including a
$300,000,000 TIFIA loan, $819,524,625 in Garvee bonds, toll
revenues, state bonds, interest earnings, and other miscellaneous
souces.

(b) The state route number 520 corridor account--state
appropriation includes up to $668,142,000 in proceeds from the sale of
bonds authorized in RCW 47.10.879 and 47.10.886.

(c) The state route number 520 corridor account--federal
appropriation includes up to $300,000,000 in proceeds from the sale of

(d) $153,124,000 of the transportation partnership account--state
appropriation, $300,000,000 of the state route number 520 corridor
account--federal appropriation, and $737,205,000 of the state route
number 520 corridor account--state appropriation are provided solely
for the SR 520 Bridge Replacement and HOV project (8B11003).
Of the amounts appropriated in this subsection (13)(d), $105,085,000 of
the state route number 520 corridor account--federal appropriation and
$227,415,000 of the state route number 520 corridor account--
state appropriation must be put into unallotted status and are subject
to review by the office of financial management. The director of the
office of financial management shall consult with the joint
transportation committee prior to making a decision to allot these
funds.

(e) When developing the financial plan for the project, the
department shall assume that all maintenance and operation costs for
the new facility are to be covered by tolls collected on the toll facility
and not by the motor vehicle account.

14) $1,100,000 of the motor vehicle account--federal
appropriation is provided solely for the 31st Ave SW Overpass
Widening and Improvement project (L1100048).

15) $22,602,000 of the motor vehicle account--state
appropriation is provided solely to advance the design, preliminary
engineering, and rights-of-way acquisition for the priority projects
identified in LEAP Transportation Document 2013-3 as developed
April 23, 2013. Funds must be used to advance the emergent, initial
development of these projects for the purpose of expediting delivery
of the associated major investments when funding for such
investments becomes available. Funding may be reallocated between
projects to maximize the accomplishment of design and preliminary
engineering work and rights-of-way acquisition, provided that all
projects are recommended to the legislature. It is the intent of the legislature that, while
seeking to maximize the outcomes in this section, the department
shall provide for continuity of both the state and consulting engineer
workforce, while strategically utilizing private sector involvement to
ensure consistency with the department's business plan for staffing in the
highway construction program in the current fiscal biennium.

16) If a planned roundabout in the vicinity of state route number
526 and 84th Street SW would divert commercial traffic onto
neighborhood streets, the department may not proceed with
improvements at state route number 526 and 84th Street SW until the
traffic impacts in the vicinity of state route number 526 and 40th
Avenue West are addressed.

17) The legislature finds that there are sixteen companies
involved in wood preserving in the state that employ four hundred
workers and have an annual payroll of fifteen million dollars. Prior to
the department's switch to steel guardrails, ninety percent of the
twenty-five hundred mile guardrail system was constructed of
preserved wood and one hundred ten thousand wood guardrail posts
were produced annually for state use. Moreover, the policy of using
steel posts requires the state to use imported steel. Given these
findings, where practicable, and until June 30, 2015, the department
shall include the design option to use wood guardrail posts, in
addition to steel posts, in new guardrail installations. The selection of
posts must be consistent with the agency design manual policy that
existed before December 2009.

18) The legislature finds that "right-sizing" is a lean, metric-
based approach to determining project investments. This concept
entails compromise between project cost and design, incorporating
local community needs, desired outcomes, and available funding.
Furthermore, the legislature finds that the concepts and principles the
department has utilized in the safety analyst program have been
effective tools to prioritize projects and reduce project costs.
Therefore, the department shall establish a pilot project on the SR
3/Belfair Bypass - New Alignment (300344C) to begin implementing the
concept of "right-sizing" in the highway construction program.

19) For urban corridors that are all or partially within a
metropolitan planning organization boundary, for which the
department has not initiated environmental review, and that require
an environmental impact statement, at least one alternative must be
consistent with the goals set out in RCW 47.01.440.

20) The department shall itemize all future requests for the
construction of buildings on a project list and submit them through
the transportation executive information system as part of the
department's 2014 budget submittal. It is the intent of the legislature that new facility construction must be transparent and not
appropriated within larger highway construction projects.
Transportation committees of the legislature on estimated cost and/or time savings realized as a result of using the design-build process.

(5) The department shall examine the use of electric arc furnace slag for use as an aggregate for new roads and paving projects in high traffic areas and report back to the legislature on its current use in other areas of the country and any characteristics that can provide greater wear resistance and skid resistance in new pavement construction.

For fiscal year 2015, the monthly employer funding rate must not exceed $820 per eligible employee.

(b) In order to achieve the level of funding provided for health benefits, the public employees' benefits board shall require any of the following: Employee premium copayments; increases in point-of-service cost sharing; the implementation of managed competition; or make other changes to benefits consistent with RCW 41.05.065.

(c) The health care authority shall deposit any moneys received on behalf of the uniform medical plan as a result of rebates on prescription drugs, audits of hospitals, subrogation payments, or any other moneys recovered as a result of prior uniform medical plan claims payments into the public employees' and retirees' insurance account to be used for insurance benefits. Such receipts must not be used for administrative expenditures.

(2) The health care authority, subject to the approval of the public employees' benefits board, shall provide subsidies for health benefit premiums to eligible retired or disabled public employees and school district employees who are eligible for Medicare, pursuant to RCW 41.05.085. For calendar years 2014 and 2015, the subsidy must be $150.00 per month.

NEW SECTION. Sec. 520. COMPENSATION--NONREPRESENTED EMPLOYEES--SALARIES AND WAGES

For classified state employees, except those within the Washington management service and those represented by a bargaining unit under chapter 41.80, 41.56, or 47.64 RCW, funding is provided within agency appropriations for implementation of a longevity step, in accordance with rules adopted under RCW 41.06.133.

Sec. 521. RCW 47.64.170 and 2011 c 367 s 712 are each amended to read as follows:

(1) Any ferry employee organization certified as the bargaining representative shall be the exclusive representative of all ferry employees in the bargaining unit and shall represent all such employees fairly.

(2) A ferry employee organization or organizations and the governor may each designate any individual as its representative to engage in collective bargaining negotiations.

(3) Negotiating sessions, including strategy meetings of the employer or employee organizations, mediation, and the deliberative process of arbitrators are exempt from the provisions of chapter 42.30 RCW. Hearings conducted by arbitrators may be open to the public by mutual consent of the parties.

(4) Terms of any collective bargaining agreement may be enforced by civil action in Thurston County Superior Court upon the initiative of either party.

(5) Ferry system employees or any employee organization shall not negotiate or attempt to negotiate directly with anyone other than the person who has been appointed or authorized a bargaining representative for the purpose of bargaining with the ferry employees or their representative.

(6)(a) Within ten working days after the first Monday in September of every odd-numbered year, the parties shall attempt to agree on an interest arbitrator to be used if the parties are not successful in negotiating a comprehensive collective bargaining agreement. If the parties cannot agree on an arbitrator within the ten-day period, either party may request a list of seven arbitrators from the federal mediation and conciliation service. The parties shall select an interest arbitrator using the coin toss/alternate strike method within thirty calendar days of receipt of the list. Immediately upon selecting an interest arbitrator, the parties shall cooperate to reserve dates with the arbitrator for potential arbitration between August 1st and September 15th of the following even-numbered year. The parties shall also prepare a schedule of at least five negotiation dates for the following year, absent an agreement to the contrary. The parties shall execute a written agreement before November 1st of each odd-numbered year setting forth the name of the arbitrator and the dates reserved for bargaining and arbitration. This subsection (6)(a) imposes minimum obligations only and is not intended to define or limit a party's full, good faith bargaining obligation under other sections of this chapter.

(b) The negotiation of a proposed collective bargaining agreement by representatives of the employer and a ferry employee organization shall commence on or about February 1st of every even-numbered year.

(c) For negotiations covering the 2009-2011 biennium and subsequent biennia, the time periods specified in this section, and in RCW 47.64.210 and 47.64.300 through 47.64.320, must ensure conclusion of all agreements on or before October 1st of the even-numbered year next preceding the biennial budget period during which the agreement should take effect. These time periods may only be altered by mutual agreement of the parties in writing. Any such agreement and any impasse procedures agreed to by the parties under RCW 47.64.200 must include an agreement regarding the new time periods that will allow final resolution by negotiations or arbitration by October 1st of each even-numbered year.

(7) It is the intent of this section that the collective bargaining agreement or arbitrator's award shall commence on July 1st of each odd-numbered year and shall terminate on June 30th of the next odd-numbered year to coincide with the ensuing biennial budget year, as defined by RCW 43.88.020(7), to the extent practical. It is further the intent of this section that all collective bargaining agreements be concluded by October 1st of the even-numbered year before the
commencement of the biennial budget year during which the agreements are to be in effect. After the expiration date of a collective bargaining agreement negotiated under this chapter, except to the extent provided in subsection (11) of this section and RCW 47.64.270(4), all of the terms and conditions specified in the collective bargaining agreement remain in effect until the effective date of a subsequently negotiated agreement, not to exceed one year from the expiration date stated in the agreement. Thereafter, the employer may unilaterally implement according to law.

(8) The office of financial management shall conduct a salary survey, for use in collective bargaining and arbitration, which must be conducted through a contract with a firm nationally recognized in the field of human resources management consulting.

(9) Except as provided in subsection (11) of this section:
(a) The governor shall submit a request either for funds necessary to implement the collective bargaining agreements including, but not limited to, the compensation and fringe benefit provisions or for legislation necessary to implement the agreement, or both. Requests for funds necessary to implement the collective bargaining agreements shall be submitted to the legislature by the governor unless such requests:
(i) Have been submitted to the director of the office of financial management by October 1st before the legislative session at which the requests are to be considered; and
(ii) Have been certified by the director of the office of financial management as being feasible financially for the state.
(b) The governor shall submit a request either for funds necessary to implement the arbitration awards or for legislation necessary to implement the arbitration awards, or both. Requests for funds necessary to implement the arbitration awards shall not be submitted to the legislature by the governor unless such requests:
(i) Have been submitted to the director of the office of financial management by October 1st before the legislative session at which the requests are to be considered; and
(ii) Have been certified by the director of the office of financial management as being feasible financially for the state.
(c) The legislature shall approve or reject the submission of the request for funds necessary to implement the collective bargaining agreements or arbitration awards as a whole for each agreement or award. The legislature shall not consider a request for funds to implement a collective bargaining agreement or arbitration award unless the request is transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060.

The governor shall submit a request either for funds necessary to implement the collective bargaining agreement or arbitration award reached after October 1st and was not transmitted to the legislature, or for legislation necessary to be in effect on the first day of the biennium during which the agreement is being made. The request must be submitted to the legislative budget committee at least 60 days before the beginning of the legislative session at which the legislature will consider the governor's budget document. The legislative budget committee shall determine whether the request for funds or legislation is feasible. No new program or project shall be initiated unless the request is transmitted to the legislature and included in the governor's budget document submitted under RCW 43.88.030 and 43.88.060.

(10) If, after the compensation and fringe benefit provisions of an agreement are approved by the legislature, a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties shall immediately enter into collective bargaining for mutually agreed upon modification of the agreement.

(a) For the collective bargaining agreements negotiated for the 2011-2013 fiscal biennium, the legislature may consider a request for funds to implement a collective bargaining agreement or arbitration agreement, even if the request for funds was not received by the office of financial management by October 1st and was not transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060.
(b) For the collective bargaining agreements negotiated for the 2011-2013 fiscal biennium, a collective bargaining agreement related to employee health care benefits negotiated between the employer and coalition pursuant to RCW 41.80.020(3) regarding the dollar amount expended on behalf of each employee must be a separate agreement for which the governor may request funds necessary to implement the agreement. ((If such an agreement is negotiated and funded by the legislature, this agreement will supersede any terms and conditions of an expired 2009-2011 biennial master collective bargaining agreement under this chapter regarding health care benefits.)) The legislature may act upon a 2013-2015 collective bargaining agreement related to employee health care benefits if an agreement is reached and submitted to the office of financial management and legislative budget committees before final legislative action on the biennial or supplemental operating budget by the sitting legislature.

(11) (a) For the collective bargaining agreements negotiated for the 2013-2015 fiscal biennium, the legislature may consider a request for funds to implement a collective bargaining agreement reached after October 1st after a determination of financial infeasibility by the director of the office of financial management if the request for funds is transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060.

Sec. 522. RCW 47.64.270 and 2011 c 367 s 713 are each amended to read as follows:

(1) The employer and one coalition of all the exclusive bargaining representatives subject to this chapter and chapter 41.80 RCW shall conduct negotiations regarding the dollar amount expended on behalf of each employee for health care benefits.

(2) Absent a collective bargaining agreement to the contrary, the department of transportation shall provide contributions to insurance and health care plans for ferry system employees and dependents, as determined by the state health care authority, under chapter 41.05 RCW.

(3) The employer and employee organizations may collectively bargain for insurance plans other than health care benefits, and employer contributions may exceed that of other state agencies as provided in RCW 41.05.050.

(4) For the 2013-2015 fiscal biennium, a collective bargaining agreement related to employee health care benefits negotiated between the employer and coalition pursuant to RCW 41.80.020(3) regarding the dollar amount expended on behalf of each employee must be a separate agreement for which the governor may request funds necessary to implement the agreement. ((If such an agreement is negotiated and funded by the legislature, this agreement will supersede any terms and conditions of an expired 2009-2011 biennial master collective bargaining agreement under this chapter regarding health care benefits.))

IMPLEMENTING PROVISIONS

NEW SECTION. Sec. 601. STAFFING LEVELS

(1) As the department of transportation completes delivery of the projects funded by the 2003 and 2005 transportation revenue packages, it is clear that the current staffing levels necessary to deliver these projects are not sustainable into the future. Therefore, the department is directed to quickly move forward to develop and implement new business practices so that a smaller, more nimble state workforce can effectively and efficiently deliver transportation improvement programs as they are approved in the future, in strong partnership with the private sector, while protecting the public's interests and assets.

(2) To this end, the department of transportation is directed to reduce the size of its engineering and technical workforce to a level sustained by current law revenue levels currently estimated at two thousand FTEs by the end of the 2013-2015 fiscal biennium. The department shall submit a report on the progress made in 2011-2013 by July 1, 2013.

(3) In order to successfully deliver the highway construction program as funded, the department of transportation may continue to contract out engineering and technical services. In addition, the department may continue the incentive program for retirements and employee separations.
NEW SECTION. Sec. 602. FOR THE DEPARTMENT OF TRANSPORTATION

The department shall begin to transition from owning a fleet of passenger vehicles in Thurston county to using the state motor pool. The funding appropriated in this act may not be used by programs headquartered in Thurston county to purchase passenger cars as defined in RCW 46.04.382.

NEW SECTION. Sec. 603. FUND TRANSFERS

(1) The transportation 2003 projects or improvements and the 2005 transportation partnership projects or improvements are listed in the LEAP list titled 2013-1 as developed April 23, 2013, which consists of a list of specific projects by fund source and amount over a ten-year period. Current fiscal biennium funding for each project is a line- item appropriation, while the outer year funding allocations represent a ten-year plan. The department is expected to use the flexibility provided in this section to assist in the delivery and completion of all transportation partnership account and transportation 2003 account (nickel account) projects on the LEAP transportation documents referenced in this act. However, this section does not apply to the I- 5/Columbia River Crossing project (400506A). For the 2011-2013 and 2013-2015 project appropriations, unless otherwise provided in this act, the director of financial management may authorize a transfer of appropriation authority between projects funded with transportation 2003 account (nickel account) appropriations, or transportation partnership account appropriations, in order to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

(a) Transfers may only be made within each specific fund source referenced on the respective project list;
(b) Transfers from a project may not be made as a result of the reduction of the scope of a project or be made to support increases in the scope of a project;
(c) Each transfer between projects may only occur if the director of financial management finds that any resulting change will not hinder the completion of the projects as approved by the legislature. Until the legislature reconvenes to consider the 2014 supplemental omnibus transportation appropriations act, any unexpended 2011-2013 appropriation balance as approved by the office of financial management, in consultation with the legislative staff of the house of representatives and senate transportation committees, may be considered when transferring funds between projects;
(d) Transfers from a project may be made if the funds appropriated to the project are in excess of the amount needed to complete the project;
(e) Transfers may not occur for projects not identified on the applicable project list;
(f) Transfers may not be made while the legislature is in session; and
(g) Transfers between projects may be made, without the approval of the director of the office of financial management, by the department of transportation until the transfer amount by project exceeds two hundred fifty thousand dollars, or ten percent of the total project, whichever is less. These transfers must be reported quarterly to the director of financial management and the chairs of the house of representatives and senate transportation committees.

(2) At the time the department submits a request to transfer funds under this section, a copy of the request must be submitted to the transportation committees of the legislature.

(3) The office of financial management shall work with legislative staff of the house of representatives and senate transportation committees to review the requested transfers in a timely manner.

(4) The office of financial management shall document approved transfers and schedule changes in the transportation executive information system, compare changes to the legislative baseline funding and schedules identified by project identification number identified in the LEAP transportation documents referenced in this act, and transmit revised project lists to chairs of the transportation committees of the legislature on a quarterly basis.

NEW SECTION. Sec. 604. ACQUISITION OF PROPERTIES AND FACILITIES THROUGH FINANCIAL CONTRACTS

(1) The agency in subsection (2) of this section may enter into financial contracts, paid from any funds of an agency, appropriated or nonappropriated, for the purposes indicated and in not more than the principal amounts indicated, plus financing expenses and required reserves pursuant to chapter 39.94 RCW. When securing properties under this section, agencies shall use the most economical financial contract option available, including long-term leases, lease-purchase agreements, lease-development with option to purchase agreements, or financial contracts using certificates of participation. Expenditures made by an agency for one of the indicated purposes before the issue date of the authorized financial contract and any certificates of participation therein are intended to be reimbursed from proceeds of the financial contract and any certificates of participation therein to the extent provided in the agency’s financing plan approved by the state finance committee.

(2) The Washington state patrol may enter into agreements with the department of enterprise services and the state treasurer's office to develop requests to the legislature for the acquisition of properties and facilities through financial contracts. The agreements may include charges for services rendered. The Washington state patrol may enter into a financing contract for up to $4,680,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to purchase and install mobile office platforms in state patrol and pursuit vehicles.

NEW SECTION. Sec. 605. FOR THE DEPARTMENT OF TRANSPORTATION

(1) The department of transportation shall prepare an updated facilities and property plan to improve the oversight of real estate procurement and property management across all department programs and regions, including the Washington state ferries. The plan must be submitted to the office of financial management and the transportation committees of the legislature by December 31, 2013. The plan must include:

(a) An inventory of all currently owned and leased buildings, including tunnel and bridge operation or maintenance facilities, and traffic management centers as provided by the state's facilities inventory process prescribed by the office of financial management annually by September 1st;
(b) A land inventory, as of July 2013, including an indication of whether the land is being held for right-of-way, disposition, or future operational facilities;
(c) A prioritized list of all facilities that are planned to be constructed, renovated, or remodeled in the next ten years, including each facility's purpose and use, and the funding source indicating whether the funding that is assumed for the facility improvements is project or operational funding;
(d) A list of options for consolidating staff, equipment, and operational activities to reduce costs with an emphasis on consolidating facilities from leased facilities into state-owned facilities. New locations for a permanent state program or activity, unless a life-cycle cost analysis supports leasing in lieu of ownership or funds are not available for construction, should be state-owned facilities;
(e) A department-wide coordinated process and plan for regularly evaluating facility needs, which includes all facilities in the inventory under (a) of this subsection; and
(f) A list of department-owned property that can be declared surplus property.

(2) Except as provided otherwise in this act, the department of transportation may not enter into new leases, equal value exchanges,
or property transactions, including land acquisitions, except for right-of-way purchases for projects on the legislative project lists, without first consulting with the office of financial management.

NEW SECTION. Sec. 606. FOR THE DEPARTMENT OF TRANSPORTATION

As part of its 2014 supplemental budget submittal, the department shall provide a report to the legislature and the office of financial management that:

(1) Identifies, by capital project, the amount of state funding that has been reappropriated from the 2011-2013 fiscal biennium into the 2013-2015 fiscal biennium; and

(2) Identifies, for each project, the amount of cost savings or increases in funding that have been identified as compared to the 2013 enacted omnibus transportation appropriations act.

NEW SECTION. Sec. 607. FOR THE DEPARTMENT OF TRANSPORTATION

The department of transportation, in conjunction with the office of minority and women's business enterprises, shall review the city of Seattle's minority and women's business enterprise inclusion plans that the city has implemented. The review should include a comparison between the existing state process and the city of Seattle inclusion process for bidding construction projects. As part of the review, any identified advantages or disadvantages along with any realized benefits that the city of Seattle has experienced should be included in a report that is due to the transportation committees of the legislature by December 1, 2013.

NEW SECTION. Sec. 608. VOLUNTARY RETIREMENT AND SEPARATION INCENTIVES

As a management tool to reduce costs and make more effective use of resources, while improving employee productivity and morale, agencies may implement a voluntary retirement and/or separation program that is cost neutral or results in cost savings, including costs to the state pension systems, over a two-year period following the commencement of the program, provided that the program is approved by the director of financial management. Agencies participating in this authorization may offer voluntary retirement and/or separation incentives and options according to procedures and guidelines established by the office of financial management, in consultation with the office of the state human resources director and the department of retirement systems. The options may include, but are not limited to, financial incentives for voluntary separation or retirement. An employee does not have any contractual right to a financial incentive offered pursuant to this section. Offers must be reviewed and monitored jointly by the office of the state human resources director and the department of retirement systems. Agencies must submit a report by June 30, 2015, to the legislature and the office of financial management on the outcome of their approved incentive program. The report should include information on the details of the program, including the incentive payment amount for each participant, the total cost to the state, and the projected or actual net dollar savings over the two-year period.

The department of retirement systems may collect from each participant, the total cost to the state, and the projected or actual net dollar savings over the two-year period.

NEW SECTION. Sec. 609. COMPENSATION--REVISE PENSION CONTRIBUTION RATES

The appropriations for school districts and state agencies, including institutions of higher education, are subject to the following conditions and limitations: Appropriations are adjusted to reflect changes to agency appropriations to reflect pension contribution rates adopted by the pension funding council and the law enforcement officers' and firefighters' retirement system plan 2 board.

NEW SECTION. Sec. 610. FOR THE DEPARTMENT OF TRANSPORTATION

The department of transportation may provide up to $3,000,000 in toll credits to Kitsap Transit for its role in passenger-only ferry service and ferry corridor-related projects. The number of toll credits provided must be equal to, but no more than, the number sufficient to meet federal match requirements for grant funding for passenger-only ferry service, but must not exceed the amount authorized in this section.

NEW SECTION. Sec. 611. To the extent that any appropriation authorizes expenditures of state funds from the motor vehicle account, special category C account, Tacoma Narrows toll bridge account, transportation 2003 account (nickel account), transportation partnership account, transportation improvement account, Puget Sound capital construction account, multimodal transportation account, state route number 520 corridor account, or other transportation capital project account in the state treasury for a state transportation program that is specified to be funded with proceeds from the sale of bonds authorized in chapter 47.10 RCW, the legislature declares that any such expenditures made prior to the issue date of the applicable transportation bonds for that state transportation program are intended to be reimbursed from proceeds of those transportation bonds in a maximum amount equal to the amount of such appropriation.

NEW SECTION. Sec. 612. WEB SITE REPORTING REQUIREMENTS FOR THE DEPARTMENT OF TRANSPORTATION

(1) The department of transportation shall post on its web site every report that is due from the department to the legislature during the 2013-2015 fiscal biennium on one web page. The department must post both completed reports and planned reports on a single web page.

The amount of biodiesel added to the ultra-low sulfur diesel fuel shall be not less than two percent.

(2) Except as provided in subsection (5) of this section, effective June 1, 2009, state agencies are required to use a minimum of twenty percent biodiesel as compared to total volume of all diesel purchases made by the agencies for the operation of the agencies’ diesel-powered vessels, vehicles, and construction equipment.

(1) Provisions that specify unsolicited proposals must meet predetermined criteria;

(2) Provisions governing procedures for the cessation of negotiations and consideration;

(3) Provisions outlining that unsolicited proposals are subject to a two-step process that begins with concept proposals and would only advance to the second step, which are fully detailed proposals, if the commission so directed;

(4) Provisions that require concept proposals to include at least the following information: Proposers' qualifications and experience; description of the proposed project and impact; proposed project financing; and known public benefits and opposition; and

(5) Provisions that specify the process to be followed if the commission is interested in the concept proposal, which must include provisions:

(a) Requiring that information regarding the potential project would be published for a period of not less than thirty days, during which time entities could express interest in submitting a proposal;

(b) Specifying that if letters of interest were received during the thirty days, then an additional sixty days for submission of the fully detailed proposal would be allowed; and

(c) Procedures for what will happen if there are insufficient proposals submitted or if there are no letters of interest submitted in the appropriate time frame.

The commission may adopt other rules as necessary to avoid conflicts with existing laws, statutes, or contractual obligations of the state.

The commission may not accept or consider any unsolicited proposals before July 1, (2014) 2015.

Sec. 709. RCW 47.56.403 and 2011 c 367 s 709 are each amended to read as follows:

(1) The department may provide for the establishment, construction, and operation of a pilot project of high occupancy toll lanes on state route 167 high occupancy vehicle lanes within King county. The department may issue, buy, and redeem bonds, and deposit and expend them; secure and remit financial and other assistance in the construction of high occupancy toll lanes, carry insurance, and handle any other matters pertaining to the high occupancy toll lane pilot project.

(2) Tolls for high occupancy toll lanes will be established as follows:

(a) The schedule of toll charges for high occupancy toll lanes must be established by the transportation commission and collected in a manner determined by the commission.

(b) Toll charges shall not be assessed on transit buses and vanpool vehicles owned or operated by any public agency.

(c) The department shall establish performance standards for the state route 167 high occupancy toll lane pilot project. The department must automatically adjust the toll charge, using dynamic tolling, to ensure that toll-paying single-occupant vehicle users are only permitted to enter the lane to the extent that average vehicle speeds in the lane remain above forty-five miles per hour at least ninety percent of the time during peak hours. The toll charge may vary in amount by time of day, level of traffic congestion within the highway facility, vehicle occupancy, or other criteria, as the commission may deem appropriate. The commission may also vary toll charges for single-occupant inherently low-emission vehicles such as those powered by electric batteries, natural gas, propane, or other clean burning fuels.

(d) The commission shall periodically review the toll charges to determine if the toll charges are effectively maintaining travel time, speed, and reliability on the highway facilities.

(3) The department shall monitor the state route 167 high occupancy toll lane pilot project and shall annually report to the transportation commission and the legislature on operations and findings. At a minimum, the department shall provide facility use data and review the impacts on:

(a) Freeway efficiency and safety;

(b) Effectiveness for transit;

(c) Person and vehicle movements by mode;

(d) Ability to finance improvements and transportation services through tolls; and

(e) The impacts on all highway users. The department shall analyze aggregate use data and conduct, as needed, separate surveys to assess usage of the facility in relation to geographic, socioeconomic, and demographic information within the corridor in order to ascertain actual and perceived questions of equitable use of the facility.

(4) The department shall modify the pilot project to address identified safety issues and mitigate negative impacts to high occupancy vehicle lane users.

(5) Authorization to impose high occupancy vehicle tolls for the state route 167 high occupancy toll lane pilot project expires if either of the following two conditions apply:

(a) If no contracts have been let by the department to begin construction of the toll facilities associated with this pilot project within four years of July 24, 2005; or

(b) If high occupancy vehicle tolls are being collected on June 30, (2013) 2015.

(6) The department of transportation shall adopt rules that allow automatic vehicle identification transponders used for electronic toll collection to be compatible with other electronic payment devices or transponders from the Washington state ferry system, other public transportation systems, or other toll collection systems to the extent that technology permits.

(7) The conversion of a single existing high occupancy vehicle lane to a high occupancy toll lane as proposed for SR-167 must be taken as the exception for this pilot project.

(8) A violation of the lane restrictions applicable to the high occupancy toll lanes established under this section is a traffic infraction.

(9) Procurement activity associated with this pilot project shall be open and competitive in accordance with chapter 39.29 RCW.
amended to read as follows:

((44)) A special account to be known as the state route number 520 civil penalties account is created in the state treasury. All state route number 520 bridge replacement and HOV program civil penalties generated from the nonpayment of tolls on the state route number 520 corridor must be deposited into the account, as provided under RCW 47.56.870(4)(b)(vii). Moneys in the account may be spent only after appropriation. Expenditures from the account may be used to fund any project within the state route number 520 bridge replacement and HOV program, including mitigation. During the 2011-2013 and 2013-2015 fiscal ((biennium)) biennia, the legislature may transfer from the state route number 520 civil penalties account to the state route number 520 corridor account such amounts as reflect the excess fund balance of the state route number 520 civil penalties account. Funds transferred must be used solely for capital expenditures for the state route number 520 bridge replacement and HOV project (881003).

Sec. 711. RCW 46.63.170 and 2012 c 83 s 7 are each reenacted and amended to read as follows:

(1) The use of automated traffic safety cameras for issuance of notices of infraction is subject to the following requirements:

(a) The appropriate local legislative authority must prepare an analysis of the locations within the jurisdiction where automated traffic safety cameras are proposed to be located: (i) Before enacting an ordinance allowing for the initial use of automated traffic safety cameras; and (ii) before adding additional cameras or relocating any existing camera to a new location within the jurisdiction. Automated traffic safety cameras may be used to detect one or more of the following: Stoplight, railroad crossing, or school speed zone violations. At a minimum, the local ordinance must contain the restrictions described in this section and provisions for public notice and signage. Cities and counties using automated traffic safety cameras before July 24, 2005, are subject to the restrictions described in this section, but are not required to enact an authorizing ordinance. Beginning one year after June 7, 2012, cities and counties using automated traffic safety cameras must post an annual report of the number of traffic accidents that occurred at each location where an automated traffic safety camera was located as well as the number of notices of infraction issued for each camera and any other relevant information about the automated traffic safety cameras that the city or county deems appropriate on the city’s or county’s web site.

(b) Use of automated traffic safety cameras is restricted to the following locations only: (i) Intersections of two arterials with traffic control signals that have yellow change interval durations in accordance with RCW 47.36.022, which interval durations may not be reduced after placement of the camera; (ii) railroad crossings; and (iii) school speed zones.

(c) During the 2011-2013 and 2013-2015 fiscal ((biennium)) biennia, automated traffic safety cameras may be used to detect speed violations for the purposes of section 201(2), chapter 367, Laws of 2011 and section 201(4) of this act if the local legislative authority first enacts an ordinance authorizing the use of cameras to detect speed violations.

(d) Automated traffic safety cameras may only take pictures of the vehicle and vehicle license plate and only while an infraction is occurring. The picture must not reveal the face of the driver or of passengers in the vehicle. The primary purpose of camera placement is to take pictures of the vehicle and vehicle license plate when an infraction is occurring. Cities and counties shall consider installing cameras in a manner that minimizes the impact of camera flash on drivers.

(e) A notice of infraction must be mailed to the registered owner of the vehicle within fourteen days of the violation, or to the renter of a vehicle within fourteen days of establishing the renter’s name and address under subsection (3)(a) of this section. The law enforcement officer issuing the notice of infraction shall include with it a certificate or facsimile thereof, based upon inspection of photographs, microphotographs, or electronic images produced by an automated traffic safety camera, stating the facts supporting the notice of infraction. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding charging a violation under this chapter. The photographs, microphotographs, or electronic images evidencing the violation must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the infraction. A person receiving a notice of infraction based on evidence detected by an automated traffic safety camera may respond to the notice by mail.

(f) The registered owner of a vehicle is responsible for an infraction under RCW 46.63.030(1)(d) unless the registered owner overcomes the presumption in RCW 46.63.075, or, in the case of a rental car business, satisfies the conditions under subsection (3) of this section. If appropriate under the circumstances, a renter identified under subsection (3)(a) of this section is responsible for an infraction.

(g) Notwithstanding any other provision of law, all photographs, microphotographs, or electronic images prepared under this section are for the exclusive use of law enforcement in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a violation under this section. No photograph, microphotograph, or electronic image may be used for any purpose other than enforcement of violations under this section nor retained longer than necessary to enforce this section.

(h) All locations where an automated traffic safety camera is used must be clearly marked at least thirty days prior to activation of the camera by placing signs in locations that clearly indicate to a driver that he or she is entering a zone where traffic laws are enforced by an automated traffic safety camera. Signs placed in automated traffic safety camera locations after June 7, 2012, must follow the specifications and guidelines under the manual of uniform traffic control devices for streets and highways as adopted by the department of transportation under chapter 47.36 RCW.

(i) If a county or city has established an authorized automated traffic safety camera program under this section, the compensation paid to the manufacturer or vendor of the equipment used must be based only upon the value of the equipment and services provided or rendered in support of the system, and may not be based upon a portion of the fine or civil penalty imposed or the revenue generated by the equipment.

(2) Infractions detected through the use of automated traffic safety cameras are not part of the registered owner’s driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of automated traffic safety cameras under this section shall be processed in the same manner as parking infractions, including for the purposes of RCW 3.50.100, 35.20.220, 46.16A.120, and 46.20.270(3). The amount of the fine issued for an infraction generated through the use of an automated traffic safety camera shall not exceed the amount of a fine issued for other parking infractions within the jurisdiction. However, the amount of the fine issued for a traffic control signal violation detected through the use of an automated traffic safety camera shall not exceed the monetary penalty for a violation of RCW 46.61.050 as provided under RCW 46.63.110, including all applicable statutory assessments.

(3) If the registered owner of the vehicle is a rental car business, the law enforcement agency shall, before a notice of infraction being issued under this section, provide a written notice to the rental car...
business that a notice of infraction may be issued to the rental car business if the rental car business does not, within eighteen days of receiving the written notice, provide to the issuing agency by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(c) In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty.

Timely mailing of this statement to the issuing law enforcement agency relieves a rental car business of any liability under this chapter for the notice of infraction.

(4) Nothing in this section prohibits a law enforcement officer from issuing a notice of traffic infraction to a person in control of a vehicle at the time a violation occurs under RCW 46.63.030(1), (a), (b), or (c).

(5) For the purposes of this section, "automated traffic safety camera" means a device that uses a vehicle sensor installed to work in conjunction with an intersection traffic control system, a railroad grade crossing control system, or a speed measuring device, and a camera synchronized to automatically record one or more sequenced photographs, microphotographs, or electronic images of the rear of a motor vehicle at the time the vehicle fails to stop when facing a steady red traffic control signal or an activated railroad grade crossing control signal, or exceeds a speed limit in a school speed zone as detected by a speed measuring device.

During the 2011 and section 216(6) of this act.

(6) During the 2011-2013 fiscal biennia, this section does not apply to automated traffic safety cameras for the purposes of section 201(2), chapter 367, Laws of 2011 and section 201(4) of this act.

Sec. 712. RCW 46.20.745 and 2012 c 183 s 10 are each amended to read as follows:

(1) The ignition interlock device revolving account program is created within the department to assist in covering the monetary costs of installing, removing, and leasing an ignition interlock device, and applicable licensing, for indigent persons who are required under RCW 46.63.030(1), 46.20.720, and 46.61.5055 to install an ignition interlock device, and one county from western Washington, as determined by the department, state patrol, and Washington traffic safety commission.

Sec. 713. RCW 46.68.370 and 2011 c 367 s 716 are each amended to read as follows:

The license plate technology account is created in the state treasury. All receipts collected under RCW 46.17.015 must be deposited into this account. Expenditures from this account must support current and future license plate technology and systems integration upgrades for both the department and correctional industries. Moneys in the account may be spent only after appropriation. Additionally, the moneys in this account may be used to reimburse the motor vehicle account for any appropriation made to implement the digital license plate system. During the 2011-2013 fiscal biennia, the legislature may transfer from the license plate technology account to the highway safety account such amounts as reflect the excess fund balance of the license plate technology account.

Sec. 714. RCW 47.12.244 and 2011 c 367 s 717 are each amended to read as follows:

There is created the "advance right-of-way revolving fund" in the custody of the treasurer, into which the department is authorized to deposit directly and expend without appropriation:

(1) An initial deposit of ten million dollars from the motor vehicle fund included in the department of transportation's 1999-93 budget;

(2) All moneys received by the department as rental income from real properties that are not subject to federal aid reimbursement, except moneys received from rental of capital facilities properties as defined in chapter 47.13 RCW; and

(3) Any federal moneys available for acquisition of right-of-way for future construction under the provisions of section 108 of Title 23, United States Code.

During the 2009-2011 fiscal biennia, the legislature may transfer from the advance right-of-way revolving fund to the motor vehicle account amounts as reflect the excess fund balance of the advance right-of-way revolving fund.

Sec. 715. RCW 47.12.340 and 2010 c 247 s 703 are each amended to read as follows:

The advanced environmental mitigation revolving account is created in the custody of the treasurer, into which the department shall deposit directly and may expend without appropriation:

(1) An initial appropriation included in the department of transportation's 1997-99 budget, and deposits from other identified sources;

(2) All moneys received by the department from internal and external sources for the purposes of conducting advanced environmental mitigation; and

(3) Interest gained from the management of the advanced environmental mitigation revolving account.

(4) During the 2009-2011 fiscal biennia, the legislature may transfer from the advance environmental mitigation revolving account to the motor vehicle account such amounts as reflect the excess fund balance of the advanced environmental mitigation revolving account.

(c) To expedite cleanups throughout the state, the department shall partner with local communities and liable parties for cleanups. The department is authorized to use the following additional strategies in order to ensure a healthful environment for future generations:
(i) The director may alter grant-matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:
(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;
(B) Funding would create new substantial economic development, public recreational, or habitat restoration opportunities that will not otherwise occur; or
(C) Funding would create an opportunity for acquisition and redevelopment of vacant, orphaned, or abandoned property under RCW 70.105D.040(5) that would not otherwise occur;

Sec. 717. RCW 46.63.180 and 2011 c 375 s 2 are each amended to read as follows:

(1) School districts may install and operate automated school bus safety cameras on school buses to be used for the detection of violations of RCW 46.61.370(1) if the use of the cameras is approved by a vote of the school board of directors. School districts are not required to take school buses out of service if the buses are not equipped with automated school bus safety cameras or functional automated safety cameras. Further, school districts shall be held harmless from and not liable for any criminal or civil liability arising under the provisions of this section.

(a) Automated school bus safety cameras may only take pictures of the vehicle and vehicle license plate and only while an infraction is occurring. The picture must not reveal the face of the driver or of passengers in the vehicle.

(b) A notice of infraction must be mailed to the registered owner of the vehicle within fourteen days of the violation, or to the renter of a vehicle within fourteen days of establishing the renter's name and address under subsection (2)(a)(i) of this section. The law enforcement officer issuing the notice of infraction shall include a certificate or facsimile of the notice, based upon inspection of photographs, microphotographs, or electronic images produced by an automated school bus safety camera, stating the facts supporting the notice of infraction. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding charging a violation under this chapter. The photographs, microphotographs, or electronic images evidencing the violation must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the infraction. A person receiving a notice of infraction based on evidence detected by an automated school bus safety camera may respond to the notice by mail.

(c) The registered owner of a vehicle is responsible for an infraction under RCW 46.63.030(1)(e) unless the registered owner overcomes the presumption in RCW 46.63.075, or, in the case of a rental car business, satisfies the conditions under subsection (2) of this section. If appropriate under the circumstances, a renter identified under subsection (2)(a)(i) of this section is responsible for an infraction.

(d) Notwithstanding any other provision of law, all photographs, microphotographs, or electronic images prepared under this section are for the exclusive use of law enforcement in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a violation under this section. No photograph, microphotograph, or electronic image may be used for any purpose other than enforcement of violations under this section nor retained longer than necessary to enforce this section.

(e) If a school district installs and operates an automated school bus safety camera under this section, the compensation paid to the manufacturer or vendor of the equipment used must be based only upon the value of the equipment and services provided or rendered in support of the system, and may not be based upon a portion of the fine or civil penalty imposed or the revenue generated by the equipment. Further, any repair, replacement, or administrative work costs related to installing or repairing automated school bus safety cameras must be solely paid for by the manufacturer or vendor of the cameras. Before entering into a contract with the manufacturer or vendor of the equipment used under this subsection (1)(e), the school district must follow the competitive bid process as outlined in RCW 28A.335.190(1).

(f) Any revenue collected from infractions detected through the use of automated school bus safety cameras, less the administration and operating costs of the cameras, must be remitted to school districts for school zone safety projects as determined by the school district using the automated school bus safety cameras. The administration and operating costs of the cameras includesinfraction enforcement and processing costs that are incurred by local law enforcement or local courts. During the 2013-2015 fiscal biennium, the infraction revenue may also be used for school bus safety projects by those school districts eligible to only for funding from the school zone safety account appropriation in section 201 of this act.

(2)(a) If the registered owner of the vehicle is a rental car business, the law enforcement agency shall, before a notice of infraction is issued under this section, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within eighteen days of receiving the written notice, provide to the issuing agency by return mail:

(i) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred;

(ii) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection (2)(a)(ii) must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(iii) In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty.

(b) Timely mailing of a statement under this subsection to the issuing law enforcement agency relieves a rental car business of any liability under this chapter for the notice of infraction.

(3) For purposes of this section, "automated school bus safety camera" means a device that is affixed to a school bus that is synchronized to automatically record one or more sequenced photographs, microphotographs, or electronic images of the rear of a vehicle at the time the vehicle is detected for an infraction identified in RCW 46.61.370(1).

Sec. 718. RCW 46.68.060 and 2011 c 367 s 718 and 2011 c 298 s 26 are each reenacted and amended to read as follows:

This fund must be used for carrying out the provisions of law relating to driver licensing, driver improvement, financial responsibility, cost of furnishing abstracts of driving records and maintaining such case records, and to carry out the purposes set forth in RCW 43.59.010, and chapters 46.72 and 46.72A RCW. During the ((2009-2011 and)) 2011-2013 and 2013-2015 fiscal biennium, the legislature may transfer from the highway safety fund to the Puget Sound ferry operations account, the motor vehicle fund, and the multimodal transportation account such amounts as reflect the excess fund balance of the highway safety fund.

Representative Carlyle moved the adoption of amendment (508).

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 82.08.0273 and 2011 c 7 s 1 are each amended to read as follows:

(1) Subject to the conditions and limitations in this section, an exemption from the tax levied by RCW 82.08.020 ((does not apply when)) in the form of a remittance from the department is provided for sales to nonresidents of this state of tangible personal property, digital goods, and digital codes((when)). The exemption only applies if:

(a) The property is for use outside this state;
(b) The purchaser is a bona fide resident of a province or territory of Canada or a state, territory, or possession of the United States, other than the state of Washington; and
(i) Such state, possession, territory, or province does not impose, or have imposed on its behalf, a generally applicable retail sales tax, use tax, value added tax, gross receipts tax on retailing activities, or similar generally applicable tax, of three percent or more; or
(ii) If imposing a tax described in (b)(i) of this subsection, provides an exemption for sales to Washington residents by reason of their residence; and
(c) The purchaser agrees, when requested, to grant the department of revenue access to such records and other forms of verification at (his or her) the purchaser's place of residence to assure that such purchases are not first used substantially in the state of Washington.

(2) Notwithstanding anything to the contrary in this chapter, if parts or other tangible personal property are installed by the seller during the course of repairing, cleaning, altering, or improving motor vehicles, trailers, or campers and the seller makes a separate charge for the tangible personal property, the tax levied by RCW 82.08.020 does not apply to the separately stated charge to a nonresident purchaser for the tangible personal property but only if the separately stated charge does not exceed either the seller's current publicly stated retail price for the tangible personal property or, if no publicly stated retail price is available, the seller's cost for the tangible personal property. However, the exemption provided by this section does not apply if tangible personal property is installed by the seller during the course of repairing, cleaning, altering, or improving motor vehicles, trailers, or campers and the seller makes a single nonitemized charge for providing the tangible personal property and service. All of the ((requirements)) provisions in subsections (1) and (3) through ((4)) (7) of this section apply to this subsection.

(3)(a) Any person claiming exemption from retail sales tax under the provisions of this section must ((display proof of his or her current nonresident status as provided in this section)) pay the state and local sales tax to the seller at the time of purchase and then request a remittance from the department in accordance with this subsection and subsection (4) of this section. A request for remittance must include proof of the person's status as a nonresident at the time of the purchase for which a remittance is requested. The request for a remittance must also include any additional information and documentation as required by the department, which may include a description of the item purchased for which a remittance is requested, the sales price of the item, the amount of state and local sales tax paid on the item, the date of the purchase, the name of the seller and the physical address where the sale took place, and copies of sales receipts showing the qualified purchases.

(b) Acceptable proof of a nonresident person's status includes one piece of identification such as a valid driver's license from the jurisdiction in which the out-of-state residency is claimed or a valid identification card which has a photograph of the holder and is issued by the out-of-state jurisdiction. Identification under this subsection (3)(b) must show the holder's residential address and have as one of its legal purposes the establishment of residency in that out-of-state jurisdiction.

(c)(c) In lieu of furnishing proof of a person's nonresident status under (b) of this subsection (3), a person claiming exemption from retail sales tax under the provisions of this section may provide the
seller with an exemption certificate in compliance with subsection (4)(b) of this section.)

(4)(a) ((Nothing in this section requires the vendor to make tax exempt retail sales to nonresidents. A vendor may choose to make sales to nonresidents, collect the sales tax, and remit the amount of sales tax collected to the state as otherwise provided by law. If the vendor chooses to make a sale to a nonresident without collecting the sales tax, the vendor must examine the purchaser's proof of nonresidence, determine whether the proof is acceptable under subsection (3)(b) of this section, and maintain records for each nontaxable sale which shall show the type of proof accepted, including any identification numbers where appropriate, and the expiration date, if any.

(b) In lieu of using the method provided in (a) of this subsection to document an exempt sale to a nonresident, a seller may accept from the purchaser a properly completed uniform exemption certificate approved by the streamlined sales and use tax agreement governing board or any other exemption certificate as may be authorized by the department and properly completed by the purchaser. A nonresident purchaser who uses an exemption certificate authorized in this subsection (4)(b) must include the purchaser's driver's license number or other state-issued identification number and the state of issuance.

(c) In lieu of using the methods provided in (a) and (b) of this subsection to document an exempt sale to a nonresident, a seller may capture the relevant data elements as allowed under the streamlined sales and use tax agreement.

(5)(a) Any person making fraudulent statements, which includes the offer of fraudulent identification or fraudulently procured identification to a vendor, in order to purchase goods without paying retail sales tax is guilty of perjury under chapter 9A.72 RCW.

(b) Any person making tax exempt purchases under this section by displaying proof of identification not his or her own, or counterfeit identification, with intent to violate the provisions of this section, is guilty of a misdemeanor and, in addition, is liable for the tax and subject to a penalty equal to the greater of one hundred dollars or the tax due on such purchases.

(6) The exemption provided by this section is for both state and local sales taxes. For purposes of this section, "local sales tax" means a sales tax imposed by a local government under the authority of chapter 82.14 RCW, RCW 81.104.170, or other provision of law, and which is imposed on the same taxable event as the state sales tax imposed in this chapter.

(7) A nonresident who receives a refund of sales tax from the seller for any reason with respect to a purchase made in this state is not entitled to a remittance for the tax paid on the purchase. A person who receives both a remittance under this section and a refund from the seller with respect to the same purchase must immediately repay the remittance to the department. Interest as provided in chapter 82.32 RCW applies to amounts due under this section from the date that the department made the remittance until the amount due under this subsection is paid to the department. A person who receives a remittance with respect to a purchase for which the person had, at the time the person submitted the application for a remittance, already received a refund of sales tax from the seller is also liable for the evasion penalty in RCW 82.32.090(7) and is ineligible to receive any further remittances from the department under this section.

NEW SECTION. Sec. 2. A new section is added to chapter 82.32 RCW to read as follows:

(1) By the last workday of the second and fourth calendar quarters, the state treasurer must transfer the amount specified in subsection (2) of this section from the general fund to the education legacy trust account. The first transfer under this subsection (1) must occur by December 31, 2013.

(2) By December 15th and by June 15th of each year, the department must estimate the increase in state general fund revenues from the changes made under section 1 of this act for the current and prior calendar quarters and notify the state treasurer of the increase.

RCW 43.135.034(4) does not apply to the transfers under section 2 of this act.

NEW SECTION. Sec. 4. A new section is added to chapter 39.42 RCW to read as follows:

The purpose of narrowing the tax preference in section 1 of this act is to support education-related expenditures from the education legacy trust account. For this reason, general state revenues transferred to the education legacy trust account under section 2 of this act are excluded from the calculation of general state revenues for purposes of Article VIII, section 1 of the state Constitution and RCW 39.42.130 and 39.42.140.

Sec. 5. RCW 82.14.050 and 2012 1st sp.s.c 9 s 1 are each amended to read as follows:

(1) The counties, cities, and transportation authorities under RCW 82.14.045, public facilities districts under chapters 36.100 and 35.57 RCW, public transportation benefit areas under RCW 82.14.440, regional transportation investment districts, and transportation benefit districts under chapter 36.73 RCW must contract, prior to the

(2) All administrative provisions in chapters 82.03, 82.08, 82.12, and 82.32 RCW, as they now exist or may hereafter be amended, insofar as they are applicable to state sales and use taxes, are applicable to taxes imposed pursuant to this chapter.

(3) Counties, cities, transportation authorities, public facilities districts, and regional transportation investment districts may not conduct independent sales or use tax audits of sellers registered under the streamlined sales tax agreement.

(4) Except as provided in RCW 43.08.190 and subsection (5) of this section, all earnings of investments of balances in the local sales and use tax account must be credited to the local sales and use tax account and distributed to the counties, cities, transportation authorities, public facilities districts, public transportation benefit areas, regional transportation investment districts, and transportation benefit districts monthly.

(5) Beginning January 1, 2013, the state treasurer must determine the amount of earnings on investments that would have been credited to the local sales and use tax account if the collections had been deposited in the account over the prior month. When distributions are made under subsection (1)(a) of this section, the state treasurer must transfer this amount from the state general fund to the local sales and use tax account and must distribute such sums to the counties, cities, transportation authorities, public facilities districts, public transportation benefit areas, regional transportation investment districts, and transportation benefit districts.

Sec. 6. RCW 82.14.060 and 2009 c 469 s 108 are each amended to read as follows:

(1)(a) Monthly, the state treasurer must distribute from the local sales and use tax account the amount of tax collected on behalf of each taxing authority, less:

(i) The deduction provided for in RCW 82.14.050; and

(ii) The amount of any refunds of local sales and use taxes exempted under RCW 82.08.273, 82.08.962 or 82.12.962, which must be made without appropriation.

(b) The state treasurer shall make the distribution under this section without appropriation.

(2) In the event that any ordinance or resolution imposes a sales and use tax at a rate in excess of the applicable limits contained herein, such ordinance or resolution shall not be considered void in toto, but only with respect to that portion of the rate which is in excess of the applicable limits contained herein.

NEW SECTION. Sec. 7. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect August 1, 2013.”

Sec. 103. RCW 82.08.0293 and 2011 c 2 s 301 are each amended to read as follows:

(1) The tax levied by RCW 82.08.020 does not apply to sales of food and food ingredients. "Food and food ingredients" means substances, whether in liquid, concentrated, solid, frozen, dried, or dehydrated form, that are sold for ingestion or chewing by humans and are consumed for their taste or nutritional value. "Food and food ingredients" does not include:

(For purposes of this subsection, the following definitions apply.) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Bottled water" means water that is placed in a safety sealed container or package for human consumption. Bottled water is calorie free and does not contain sweeteners or other additives except that it may contain: (i) Antimicrobial agents; (ii) fluoride; (iii) carbonation; (iv) vitamins, minerals, and electrolytes; (v) oxygen; (vi) preservatives; and (vii) only those flavors, extracts, or essences derived from a spice or fruit.

"Bottled water" includes water that is delivered to the buyer in a reusable container that is not sold with the water.

(b) "Dietary supplement" means any product, other than tobacco, intended to supplement the diet that:

(i) Contains one or more of the following dietary ingredients:

(A) A vitamin;

(B) A mineral;

(iii) Is required to be labeled as a dietary supplement, identifiable by the "supplement facts" box found on the label as required pursuant to 21 C.F.R. Sec. 101.36, as amended or renumbered as of January 1, 2003.

(14) "Prepared food" means:

(A) Food sold in a heated state or heated by the seller;

(B) Food sold with eating utensils provided by the seller, including plates, knives, forks, spoons, glasses, cups, napkins, or straws. A plate does not include a container or packaging used to transport the food; or

(ii) "Prepared food" does not include the following food or food ingredients, if the food or food ingredients are sold without eating utensils provided by the seller:

(A) Food sold by a seller whose proper primary North American industry classification system (NAICS) classification is manufacturing in sector 311, except subsector 3118 (bakeries), as provided in the "North American industry classification system--United States, 2002";

(c) That are provided to residents, sixty-two years of age or older, of a qualified low-income senior housing facility by the lessor or operator of the facility. The sale of a meal that is billed to both spouses of a marital community or both domestic partners of a domestic partnership meetings the age requirement in this subsection (3)(c) if at least one of the spouses or domestic partners is at least sixty-two years of age. For purposes of this subsection, "qualified low-income senior housing facility" means a facility:

(i) That meets the definition of a qualified low-income housing project under 26 U.S.C. Sec. 42 of the federal internal revenue code, as existing on August 1, 2009;

(iii) For which the lessor or operator has at any time been entitled to claim a federal income tax credit under 26 U.S.C. Sec. 42 of the federal internal revenue code.

(4)(a) Subsection (1) of this section notwithstanding, the retail sale of food and food ingredients is subject to sales tax under RCW 82.08.020 if the food and food ingredients are sold through a vending machine. Except as provided in (b) of this subsection, the selling price of food and food ingredients sold through a vending machine for purposes of RCW 82.08.020 is fifty-seven percent of the gross receipts.

(b) For soft drinks, bottled water, and hot prepared food and food ingredients, other than food and food ingredients which are heated after they have been dispensed from the vending machine, the selling price is the total gross receipts of such sales divided by the sum of one plus the sales tax rate expressed as a decimal.

(c) For tax collected under this subsection (4), the requirements that the tax be collected from the buyer and that the amount of tax be stated as a separate item are waived.

NEW SECTION. RCW 82.12.0293 and 2011 c 2 s 303 are each amended to read as follows:

"Prepared food," "soft drinks," "bottled water," and "dietary supplements" have the same meanings as in RCW 82.08.0293.

(3) Notwithstanding anything in this section to the contrary, the exemption of "food and food ingredients" provided in this section applies to food and food ingredients which are furnished, prepared, or served as meals:

(a) Under a state administered nutrition program for the aged as provided for in the older Americans act (P.L. 95-478 Title III) and RCW 74.38.040(6);

The sale of a meal that is billed to both spouses of a marital community or both domestic partners of a domestic partnership meets the age requirement in this subsection (3)(c) if at least one of the spouses or domestic partners is at least sixty-two years of age. For purposes of this subsection, "qualified low-income senior housing facility" has the same meaning as in RCW 82.08.0293.

NEW SECTION. Sec. 105. A new section is added to chapter 82.08 RCW to read as follows:

(1) Subject to the conditions in this section, the tax levied by RCW 82.08.020 does not apply to sales of bottled water dispensed or to be dispensed to patients, pursuant to a prescription for use in the cure, mitigation, treatment, or prevention of disease or other medical condition.

(2) For purposes of this section, "prescription" means an order, formula, or recipe issued in any form of oral, written, electronic, or other means of transmission by a duly licensed practitioner authorized by the laws of this state to prescribe.

(3) Except for sales of bottled water delivered to the buyer in a reusable container that is not sold with the water, sellers must collect tax on sales subject to this exemption. Any buyer that has paid at least twenty-five dollars in state and local sales taxes on purchases of bottled water subject to this exemption may apply for a refund of the taxes directly from the department in a form and manner prescribed by the department. The department must deny any refund application if the amount of the refund requested is less than twenty-five dollars. No refund may be made for taxes paid more than four years after the end of the calendar year in which the tax was paid to the seller.

(4) The provisions of RCW 82.32.060 apply to refunds authorized under this section.

(5) With respect to sales of bottled water delivered to the buyer in a reusable container that is not sold with the water, buyers claiming the exemption provided in this section must provide the seller with an exemption certificate in a form and manner prescribed by the department. The seller must retain a copy of the certificate for the seller's files.

NEW SECTION. Sec. 106. A new section is added to chapter 82.12 RCW to read as follows:

(1) The provisions of this chapter do not apply in respect to the use of bottled water dispensed or to be dispensed to patients, pursuant to a prescription for use in the cure, mitigation, treatment, or prevention of disease or medical condition.

(2) For purposes of this section, "prescription" has the same meaning as provided in section 105 of this act.

NEW SECTION. Sec. 107. A new section is added to chapter 82.08 RCW to read as follows:

(1)(a) Subject to the conditions in this section, the tax levied by RCW 82.08.020 does not apply to sales of bottled water to persons whose primary source of drinking water is unsafe.

(b) For purposes of this subsection and section 108 of this act, a person's primary source of drinking water is unsafe if:

(i) The public water system providing the drinking water has issued a public notification that the drinking water may pose a health risk, and the notification is still in effect on the date that the bottled water was purchased;

(ii) Test results on the person's drinking water, which are no more than twelve months old, from a laboratory certified to perform drinking water testing show that the person's drinking water does not meet safe drinking water standards applicable to public water systems; or

(iii) The person otherwise establishes, to the department's satisfaction, that the person's drinking water does not meet safe drinking water standards applicable to public water systems.

(2) Except for sales of bottled water delivered to the buyer in a reusable container that is not sold with the water, sellers must collect tax on sales subject to this exemption. Any buyer that has paid at least twenty-five dollars in state and local sales taxes on purchases of bottled water subject to this exemption may apply for a refund of the taxes directly from the department in a form and manner prescribed by the department. The department must deny any refund application if the amount of the refund requested is less than twenty-five dollars. No refund may be made for taxes paid more than four years after the end of the calendar year in which the tax was paid to the seller.
A person claiming the credit provided in this section must file a complete annual survey with the department under RCW 82.32.585.

The department may waive the requirement for an exemption certificate in the event of disaster or similar circumstance.

NEW SECTION. Sec. 108. A new section is added to chapter 82.12 RCW to read as follows:

The provisions of this chapter do not apply in respect to the use of bottled water by persons whose primary source of drinking water is unsafe as provided in section 107 of this act.

Sec. 109. RCW 82.04.4452 and 2010 c 114 s 114 are each amended to read as follows:

(1) In computing the tax imposed under this chapter, a credit is allowed for each person whose research and development spending during the year in which the credit is claimed exceeds 0.92 percent of the person's taxable amount during the same calendar year.

(2)(a) The credit is calculated as follows:

((a)) (i) Determine the greater of the amount of qualified research and development expenditures of a person or eighty percent of amounts received by a person other than a public educational or research institution in compensation for the conduct of qualified research and development;

((b)) (ii) Subtract 0.92 percent of the person's taxable amount from the amount determined under (a)(i) of this subsection;

((c)) (iii) Multiply the amount determined under ((b)) (ii) of this subsection by ((the following: (i) For the period June 10, 2004, through December 31, 2006, the person's average tax rate for the calendar year for which the credit is claimed;

(ii) For the calendar year ending December 31, 2007, the greater of the person's average tax rate for that calendar year or 0.75 percent;

(iii) For the calendar year ending December 31, 2008, the greater of the person's average tax rate for that calendar year or 1.0 percent;

(iv) For the calendar year ending December 31, 2009, the greater of the person's average tax rate for that calendar year or 1.25 percent;

(v) For the calendar year ending December 31, 2010, and thereafter.)) 1.50 percent.

(b) For purposes of calculating the credit, if a person's reporting period is less than annual, the person may use an estimated average tax rate for the calendar year for which the credit is claimed by using the person's average tax rate for each reporting period. A person who uses an estimated average tax rate must make an adjustment to the total credit claimed for the calendar year using the person's actual average tax rate for the calendar year when the person files its last return for the calendar year for which the credit is claimed.

(3) Any person entitled to the credit provided in subsection (2) of this section as a result of qualified research and development conducted under contract may assign all or any portion of the credit to the person contracting for the performance of the qualified research and development.

(4) The credit, including any credit assigned to a person under subsection (3) of this section, must be claimed against taxes due for the same calendar year in which the qualified research and development expenditures are incurred. The credit, including any credit assigned to a person under subsection (3) of this section, for each calendar year may not exceed the lesser of two million dollars or the amount of tax otherwise due under this chapter for the calendar year.

(5) For any person claiming the credit, including any credit assigned to a person under subsection (3) of this section, whose research and development spending during the calendar year in which the credit is claimed fails to exceed 0.92 percent of the person's taxable amount during the same calendar year or who is otherwise ineligible, the department must declare the taxes against which the credit was claimed to be immediately due and payable. The department must assess at the rate provided for delinquent excise taxes under chapter 82.32 RCW, retroactively to the date the credit was claimed, and accrues until the taxes against which the credit was claimed are repaid. Any credit assigned to a person under subsection (3) of this section that is disallowed as a result of this section may be claimed by the person who performed the qualified research and development subject to the limitations set forth in subsection (4) of this section.

(6) A person may not claim a credit under this section if the person reported an annual gross amount, as reported on the state combined excise tax returns for the calendar year for which the credit is claimed, less any taxable amount for which a credit is allowed under RCW 2007 c 15 s 4, is not required to refund any credit claimed in calendar year 2013 prior to the effective date of this section.

(7) A person claiming the credit provided in this section must file a complete annual survey with the department under RCW 82.32.585.

The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Average tax rate" means a person's total tax liability under this chapter for the calendar year for which the credit is claimed divided by the taxpayer's total taxable amount under this chapter for the calendar year for which the credit is claimed.

(b) "Qualified research and development expenditures" means operating expenses, including wages, compensation of a proprietor or a partner in a partnership as determined under rules adopted by the department, benefits, supplies, and computer expenses, directly incurred in qualified research and development by a person claiming the credit provided in this section. The term does not include amounts paid to a person other than a public educational or research institution to conduct qualified research and development. Nor does the term include capital costs and overhead, such as expenses for land, structures, or depreciable property.

(c) "Qualified research and development" ((shall have)) has the same meaning as provided in RCW 82.63.010.

(d) "Research and development spending" means qualified research and development expenditures plus eighty percent of amounts paid to a person other than a public educational or research institution to conduct qualified research and development.

(e) "Taxable amount" means the taxable amount subject to the tax imposed in this chapter required to be reported on the person's combined excise tax returns for the calendar year for which the credit is claimed, less any taxable amount for which a credit is allowed under RCW 82.04.440.

This section expires January 1, 2015.

Sec. 110. RCW 82.63.030 and 2008 c 15 s 4 are each amended to read as follows:

(1) Except as provided in subsection (2) of this section, the department ((shall)) must issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW on each eligible investment project.

K-12 Policy Changes

Sec. 209. RCW 28A.150.220 and 2013 c 323 s 2 are each amended to read as follows:

(1) In order for students to have the opportunity to develop the basic education knowledge and skills under RCW 28A.150.210, school districts must provide instruction of sufficient quantity and quality and give students the opportunity to complete graduation requirements that are intended to prepare them for postsecondary education, gainful employment, and citizenship. (a) Instruction in the essential academic learning requirements under RCW 28A.655.070;

(b) Instruction that provides students the opportunity to complete twenty-four credits for high school graduation, subject to a phased-in implementation of the twenty-four credits as established by the legislature. Course distribution requirements may be established by the state board of education under RCW 28A.230.090;

(c) If the essential academic learning requirements include a requirement of languages other than English, the requirement may be met by students receiving instruction in one or more American Indian languages;
(d) Supplemental instruction and services for underachieving students through the learning assistance program under RCW 28A.165.005 through 28A.165.065;  
(e) Supplemental instruction and services for eligible and enrolled students whose primary language is other than English through the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080;

(4) Nothing contained in this section shall be construed to require individual students to attend school for any particular number of hours per day or to take any particular courses.  

(5) Each school district's kindergarten through twelfth grade basic educational program shall be accessible to all students who are five years of age, as provided by RCW 28A.225.160, and less than twenty-one years of age and shall consist of a minimum of one hundred eighty school days per school year in such grades as are conducted by a school district, and one hundred eighty half-days of instruction, or equivalent, in kindergarten, to be increased to a minimum of one hundred eighty school days per school year according to the implementation schedule under RCW 28A.150.315. However, schools administering the Washington kindergarten inventory of developing skills may use up to three school days at the beginning of the school year to meet with parents and families as required in the parent involvement component of the inventory. In addition, effective May 1, 1979, a school district may schedule the last five school days of the one hundred and eighty day school year for noninstructional purposes in the case of students who are graduating from high school, including, but not limited to, the observance of graduation and early release from school upon the request of a student, and all such students may be claimed as a full-time equivalent student to the extent they could otherwise have been so claimed for the purposes of RCW 28A.150.250 and 28A.150.260.  

(6) Nothing in this section precludes a school district from enriching the instructional program of basic education, such as offering additional instruction or providing additional services, programs, or activities that the school district determines to be appropriate for the education of the school district's students.  

(7) The state board of education shall adopt rules to implement and ensure compliance with the program requirements imposed by this section, RCW 28A.150.250 and 28A.150.260, and such related supplemental program approval requirements as the state board may establish.

Sec. 210. RCW 28A.150.260 and 2011 1st sp.s. c 27 s 2 are each amended to read as follows:  
The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:  

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.  

(2) The distribution formula under this section shall be for allocation purposes only. Except as may be required under chapter 28A.155, 28A.165, 28A.180, or 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.  

(3)(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.  

(b) For the purposes of this section, prototypical schools are defined as follows:

The superintendent shall make allocations to school districts based on the district's annual average full-time equivalent enrollment in each grade. The following prototypical school values shall determine the allocation for principals, assistance principals, and other certificated building level administrators:

<table>

</tr>
</tbody>
</table>

(b) Students in approved career and technical education and skill center programs generate certificated school building-level administrator staff units at per student rates that are a multiple of the general education rate in (a) of this subsection by the following factors:
- Career and Technical Education students: 1.025
- Skill Center students: 1.198

(4) CLASSIFIED STAFF ALLOCATIONS

Allocations for classified staff units providing school building-level and district-wide support services for the 2013-14 and 2014-15 school years are determined using the formula-generated staff units provided in RCW 28A.150.260, and adjusted based on each district's annual average full-time equivalent student enrollment in each grade.

(5) CENTRAL OFFICE ALLOCATIONS
In addition to classified and administrative staff units allocated in subsections (3) and (4) of this section, classified and administrative staff units are provided for the 2013-14 and 2014-15 school year for the central office administrative costs of operating a school district, at the following rates:

(a) The total central office staff units provided in this subsection (5) are calculated by first multiplying the total number of eligible certificated instructional, certificated administrative, and classified staff units providing school-based or district-wide support services, as identified in RCW 28A.150.260(6)(b), by 5.3 percent.

(b) Of the central office staff units calculated in (a) of this subsection, 74.53 percent are allocated as classified staff units, as generated in subsection (4) of this section, and 25.47 percent shall be allocated as administrative staff units, as generated in subsection (3) of this section.

(c) Staff units generated as enhancements outside the program of basic education to the minimum requirements of RCW 28A.150.260, and staff units generated by skill center and career-technical students, are excluded from the total central office staff units calculation in (a) of this subsection.

(d) For students in approved career-technical and skill center programs, central office classified units are allocated at the same staff unit per student rate as those generated for general education students of the same grade in this subsection (5), and central office administrative staff units are allocated at staff unit per student rates that exceed the general education rate established for students in the same grade in this subsection (5) by ((1.97)) 1.53 percent in the 2013-14 school year and ((1.97)) 1.61 percent in the 2014-15 school year for career and technical education students, and ((21.92)) 21.38 percent in the 2013-14 school year and ((21.92)) 19.93 percent in the 2014-15 school year for skill center students.

(6) FRINGE BENEFIT ALLOCATIONS

Fringe benefit allocations shall be calculated at a rate of 18.68 percent in the 2013-14 school year and 18.68 percent in the 2014-15 school year for certificated salary allocations provided under subsections (2), (3), and (5) of this section, and a rate of 20.95 percent in the 2013-14 school year and 20.95 percent in the 2014-15 school year for classified salary allocations provided under subsections (4) and (5) of this section.

(7) INSURANCE BENEFIT ALLOCATIONS

Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504 of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsections (2), (3), and (5) of this section; and

(b) The number of classified staff units determined in subsections (4) and (5) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(8) MATERIALS, SUPPLIES, AND OPERATING COSTS (MSOC) ALLOCATIONS

Funding is allocated per annual average full-time equivalent student for the materials, supplies, and operating costs (MSOC) incurred by school districts, consistent with the requirements of RCW 28A.150.260.

(a) MSOC funding for general education students are allocated at the following per student rates:

(1) A capital budget is hereby adopted and, subject to the provisions set forth in this act, the several dollar amounts hereinafter specified, or so much thereof as shall be sufficient to accomplish the purposes designated, are hereby appropriated and authorized to be incurred for capital projects during the period beginning with the effective date of this act and ending June 30, 2015, out of the several funds specified in this act.

(2) The definitions in this subsection apply throughout this act unless the context clearly requires otherwise.
(a) "Fiscal year 2014" or "FY 2014" means the period beginning July 1, 2013, and ending June 30, 2014.
(b) "Fiscal year 2015" or "FY 2015" means the period beginning July 1, 2014, and ending June 30, 2015.
(c) "Lapse" or "revert" means the amount shall return to an unappropriated status.
(d) "Provided solely" means the specified amount may be spent only for the specified purpose.
(3) Unless otherwise specifically authorized in this act, any portion of an amount provided solely for a specified purpose that is not expended subject to the specified conditions and limitations to fulfill the specified purpose shall lapse.
(4) The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2015-2017 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

Reappropriations shall be limited to the unexpended balances remaining on June 30, 2013, from the 2011-2013 biennial appropriations for each project.

NEW SECTION, Sec. 3022. FOR THE DEPARTMENT OF ECOLOGY
Kittitas Groundwater Study (30000029)

The reappropriation in this section is subject to the following conditions and limitations:
(1) Funds may be provided to develop and implement water banking and transfer methods and agreements that are fully protective of senior water rights and that protect domestic groundwater users and improve the profitability of farming operations. The legislature finds such activities to be in the public interest because they can help sustain the viability of the agricultural economy and enhance the certainty of water supplies for domestic groundwater users.

(2) Funds may be provided to lease or purchase water rights to create a reserve water supply for domestic groundwater users that have a groundwater right with a priority date later than May 10, 1905, as well as for all out-of-priority groundwater users. In securing water for such domestic groundwater users, strong preference must be given to the use of water banking and transfer methods that provide alternatives to permanent purchase and dry-up of agricultural water rights in the basin, including dry-year options, water banking, long-term water supply lease agreements, long-term agricultural land fallowing agreements, and reduced consumptive use through efficiency or alternative cropping arrangements while maintaining historic return flows.

(3) A portion of the reappropriation may be used for administrative costs, not to exceed four percent, and other costs associated with leasing or acquiring and transferring the water rights. All costs must be fully recovered from participating domestic water users for their prorated portion of the cost, including, but not limited to, the costs of securing a water right or rights for this purpose, costs associated with the development and implementation of alternative agricultural water transfer methods, associated annual operational costs, and federal water service contract costs owed to the United States bureau of reclamation. Funds recovered in this manner must be deposited in the state and local improvements revolving account and may be used for any purpose provided in this section.

NEW SECTION. Sec. 3140. FOR THE DEPARTMENT OF NATURAL RESOURCES
Replacing State Forest Lands with Productive Forests (91000029)

The reappropriation in this section is subject to the following conditions and limitations:

(1) The total reappropriation is provided solely to the department to transfer from state forest land status to natural resources conservation area status certain state forest lands in counties with a population of 25,000 or less that are subject to timber harvest deferrals greater than thirty years due to the presence of wildlife species listed as endangered or threatened under the federal endangered species act. The approved list of properties for transfer is identified in the LEAP capital document No. 2011-5A, revised April 10, 2013.

(2) Property transferred under this section must be appraised and transferred at fair market value, without consideration of management or regulatory encumbrances associated with wildlife species listed under the federal endangered species act. The value of the timber and other valuable materials transferred must be distributed as provided in RCW 79.64.110, in the same manner as valuable material revenues from other state forest lands in the applicable counties. The value of the land transferred must be deposited in the park land trust revolving account and be solely used to buy replacement state forest land within the same county as the property transferred, consistent with RCW 79.22.060.

(3) Prior to or concurrent with conveyance of these properties, the department shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose.

(4) The department and applicable counties shall work in good faith to carry out the intent of this section. However, the department or applicable counties may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the state forest trust or the natural resources conservation area program.

computers or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

(c) Minor works preservation projects may include program improvements of no more than twenty-five percent of the individual minor works preservation project cost.

Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; rolling stock, computers or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

Minor works preservation projects may include program improvements of no more than twenty-five percent of the individual minor works preservation project cost.

Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.
NEW SECTION. Sec. 6004. (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) A report of any transfer effected under this section, except emergency projects or any transfer under $250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

NEW SECTION. Sec. 6005. (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not extend to reappropriate funds other than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with construction and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

NEW SECTION. Sec. 6006. State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.

NEW SECTION. Sec. 6007. Executive Order No. 05-05, archaeological and cultural resources, was issued effective November 10, 2005. Agencies and higher education institutions shall comply with the requirements set forth in this executive order.

NEW SECTION. Sec. 6008. PUGET SOUND PROTECTION AND RESTORATION. Consistent with RCW 90.71.340, when expending appropriations under this act that contribute to Puget Sound protection and recovery, agencies shall consult with the Puget Sound partnership to ensure that projects and expenditures are either in, or consistent with the 2020 action agenda. These consultations shall include the exchange of information on specific actions, projects, associated funding, performance measures, and other information necessary to track project implementation and ensure alignment with the action agenda. In situations where the Puget Sound partnership finds that a project is not in, or is not consistent with the action agenda Puget Sound partnership shall document this finding and report back to the governor and legislative fiscal committees.

NEW SECTION. Sec. 6009. The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2015-2017 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

NEW SECTION. Sec. 6010. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 6011. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with funds available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate ways and means committee and the house of representatives capital budget committee.

NEW SECTION. Sec. 6012. (1) Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

(2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

NEW SECTION. Sec. 6013. The office of financial management, in consultation with the fiscal committees of the legislature, may select capital projects that have completed predesign to undergo a budget evaluation study. The budget evaluation study team approach using value engineering techniques and life cycle cost analysis must be utilized by the office of financial management in conducting the studies. The office of financial management shall select the budget evaluation team members, contract for the study, and report the results to the legislature and agencies in a timely manner following the study. Funds from the project appropriation must be used by the office of financial management through an interagency agreement with the affected agencies to cover the cost of the study.

NEW SECTION. Sec. 6014. COLUMBIA RIVER BASIN NONTAXABLE AND TAXABLE BOND PROCEEDS.

Portions of the appropriation authority granted by this act from the Columbia river basin water supply development account may be transferred to the Columbia river basin taxable bond water supply development account as deemed necessary by the state finance committee to comply with the federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds. The state treasurer shall submit written notification to the director of financial management if it is determined that a shift of appropriation authority between the Columbia...
river basin water supply development account and the Columbia river basin taxable bond water supply development account is necessary, or that a shift of appropriation authority from the Columbia river basin taxable bond water supply development account to the Columbia river basin water supply development account may be made.

MESSAGE FROM THE SENATE

June 12, 2013

MR. SPEAKER:

The Senate has adopted:

HOUSE CONCURRENT RESOLUTION NO. 4410
and the same is herewith transmitted.

Hunter G. Goodman, Secretary

There being no objection, the House advanced to the sixth order of business.

SECOND READING

ENGROSSED HOUSE BILL NO. 2075, by Representatives Carlyle and Roberts

Preserving funding deposited into the education legacy trust account used to support common schools and access to higher education by restoring the application of the Washington estate and transfer tax to certain property transfers while modifying the estate and transfer tax to provide tax relief for certain estates.

The bill was read the second time.

Representative Carlyle moved the adoption of amendment (523).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) In 2005, to address an unexpected significant loss of tax revenue resulting from the Estate of Hemphill decision and to provide additional funding for public education, the legislature enacted a stand-alone estate and transfer tax, effective May 17, 2005. The stand-alone estate and transfer tax applies to the transfer of property at death. By defining the term "transfer" to mean a "transfer as used in section 2001 of the internal revenue code," the legislature clearly expressed its intent that a "transfer" for purposes of determining the federal taxable estate is also a "transfer" for purposes of determining the Washington taxable estate.

(2) In In re Estate of Bracken, Docket No. 84114-4, the Washington supreme court narrowly construed the term "transfer" as defined in the Washington estate tax code.

(3) The legislature finds that it is well established that the term "transfer" as used in the federal estate tax code is construed broadly and extends to the "shifting from one to another of any power or privilege incidental to the ownership or enjoyment of property" that occurs at death. Fernandez v. Wiener, 326 U.S. 340, 352 (1945).

(4) The legislature further finds that: The Bracken decision held certain qualified terminable interest property (QTIP) of married couples was transferred without incurring Washington state estate tax liability, which: (a) Creates an inequity never intended by the legislature because unmarried individuals did not enjoy any similar opportunities to avoid or greatly reduce their potential Washington estate tax liability; and (b) may create disparate treatment between QTIP property and other property transferred between spouses that is eligible for the marital deduction.

(5) Therefore, the legislature finds that it is necessary to reinstate the legislature's intended meaning when it enacted the estate tax, restore parity between married couples and unmarried individuals, restore parity between QTIP property and other property eligible for the marital deduction, and prevent the adverse fiscal impacts of the Bracken decision by reaffirming its intent that the term "transfer" as used in the Washington estate and transfer tax is to be given its broadest possible meaning consistent with established United States supreme court precedents, subject only to the limits and exceptions expressly provided by the legislature.

(6) As curative, clarifying, and remedial, the legislature intends for this act to apply both prospectively and retroactively to estates of decedents dying on or after May 17, 2005.

Sec. 2. RCW 83.100.020 and 2013 c 23 s 341 are each amended to read as follows:

((As used in this chapter:)) The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1)(a) "Applicable exclusion amount" means:

     (i) One million five hundred thousand dollars for decedents dying before January 1, 2006;

     (ii) Two million dollars for estates of decedents dying on or after January 1, 2006, and before January 1, 2014; and

     (iii) For estates of decedents dying in calendar year 2014 and each calendar year thereafter, the amount in (a)(ii) of this subsection must be adjusted annually, except as otherwise provided in this subsection (1)(a)(iii).

     (b) The annual adjustment is determined by multiplying two million dollars by one plus the percentage by which the most recent October consumer price index exceeds the consumer price index for October 2012, and rounding the result to the nearest one thousand dollars. No adjustment is made for a calendar year if the adjustment would result in the same or a lesser applicable exclusion amount than the applicable exclusion amount for the immediately preceding calendar year. The applicable exclusion amount under this subsection (1)(a)(iii) for the decedent's estate is the applicable exclusion amount in effect as of the date of the decedent's death.

     (b) For purposes of this subsection, "consumer price index" means the consumer price index for all urban consumers, all items, for the Seattle-Tacoma-Bremerton metropolitan area as calculated by

of the internal revenue code and includes any shifting upon death
of the economic benefit in property or any power or legal privilege
incident to the ownership or enjoyment of property. However,
"transfer" does not include a qualified heir disposing of an interest in
property qualifying for a deduction under RCW 83.100.046 or
cessing to use the property for farming purposes(

(12) "Internal revenue code" means((, for the purposes of
this chapter and RCW 83.110.010,)) the United States internal
revenue code of 1986, as amended or renumbered as of January 1,
2005(

(13) "Washington taxable estate" means the federal
taxable estate((less: (a) One million five hundred thousand dollars
for decedents dying before January 1, 2006; and (b) two million
dollars for decedents dying on or after January 1, 2006; and (c) the
amount of any deduction allowed under RCW 83.100.046; and))
includes, but is not limited to, the value of any property included in
the gross estate under section 2044 of the internal revenue code,
regardless of whether the decedent's interest in such property was
acquired before May 17, 2005. (a) plus amounts required to be added

determined under chapter 11 of the internal revenue code without
regard to: (a) The termination of the federal estate tax under section
2210 of the internal revenue code or any other provision of law, and
(b) the deduction for state estate, inheritance, legacy, or succession
taxes allowable under section 2058 of the internal revenue code.

NEW SECTION. Sec. 3. A new section is added to chapter
83.100 RCW to read as follows:

(1) For the purposes of determining the tax due under this
chapter, a deduction is allowed for the value of the decedent's
qualified family-owned business interests, not to exceed two million

interests exceed fifty percent of the decedent's Washington taxable

decedent was at the time of his or her death a citizen or resident of the
United States; and

interests is not more than six million dollars.

(2) (a) Only amounts included in the decedent's federal taxable
estate may be deducted under this subsection.

(b) Amounts deductible under RCW 83.100.046 may not be
deducted under this section.

(3) (a) There is imposed an additional estate tax on a qualified heir
if, within three years of the decedent's death and before the date of the
qualified heir's death:

(i) The material participation requirements described in section
2032A(c)(6)(b)(ii) of the internal revenue code are not met with
respect to the qualified family-owned business interest which was
acquired or passed from the decedent;

(ii) The qualified heir ceases to be a citizen or resident of the
United States; and

(iii) The qualified heir ceases to own any qualified family-owned

code;

department determines necessary to secure the payment of amounts
due under this subsection. The qualified heir, on furnishing a bond
satisfactory to the department, is discharged from personal liability for
any additional tax and interest under this subsection and is entitled to
a receipt or writing showing such discharge.
Amounts due under this subsection attributable to any qualified family-owned business interest are secured by a lien in favor of the state on the property in respect to which such interest relates. The lien under this subsection (3)(f) arises at the time the Washington return is filed on which a deduction under this section is taken and continues in effect until: (i) The tax liability under this subsection has been satisfied or has become unenforceable by reason of lapse of time; or (ii) the department is satisfied that no further tax liability will arise under this subsection.

(g) Security acceptable to the department may be substituted for the lien imposed by (f) of this subsection.

(4)(a) The department may require a taxpayer claiming a deduction under this section to provide the department with the names and contact information of all qualified heirs.

(b) The department may also require any qualified heir to submit to the department on an ongoing basis such information as the department determines necessary or useful in determining whether the qualified heir is subject to the additional tax imposed in subsection (3) of this section. The department may not require such information more frequently than twice per year. The department may impose a penalty on a qualified heir who fails to provide the information requested within thirty days of the date the department's written request for the information was sent to the qualified heir. (b) If any property in the decedent's estate is located outside of Washington, the amount of tax is the amount determined in (a) of this subsection multiplied by a fraction. The numerator of the fraction is the value of the property located in Washington. The denominator of the fraction is the value of the decedent's gross estate. Property qualifying for a deduction under RCW 83.100.046 must be excluded from the numerator and denominator of the fraction.

(3) The tax imposed under this section is a stand-alone estate tax that incorporates only those provisions of the internal revenue code as amended or renumbered as of January 1, 2005, that do not conflict with the provisions of this chapter. The tax imposed under this chapter is independent of any federal estate tax obligation and is not affected by termination of the federal estate tax.

Sec. 5. RCW 83.100.047 and 2005 c 516 s 13 are each amended to read as follows:

(1) If the federal taxable estate on the federal return is determined by making an election under section 2056 or 2056A of the internal revenue code, or if no federal return is required to be filed, the department may provide by rule for a separate election on the Washington return, consistent with section 2056 or 2056A of the internal revenue code, for the purpose of determining the amount of tax due under this chapter. The election ((shall (be)) is binding on the estate and the beneficiaries, consistent with the internal revenue code. All other elections or valuations on the Washington return ((shall)) must be made in a manner consistent with the federal return, if a federal return is required, and such rules as the department may provide.

(2) Amounts deducted for federal income tax purposes under section 642(g) of the internal revenue code of 1986 ((shall)) are not ((be)) allowed as deductions in computing the amount of tax due under this chapter.

(3) Notwithstanding any department rule, if a taxpayer makes an election consistent with section 2056 of the internal revenue code as permitted under this section, the taxpayer's Washington taxable estate, and the surviving spouse's Washington taxable estate, must be adjusted as follows:

(a) For the taxpayer that made the election, any amount deducted by reason of section 2056(b)(7) of the internal revenue code is added to, and the value of property for which a Washington election under this section was made is deducted from, the Washington taxable estate.

(b) For the estate of the surviving spouse, the amount included in the estate's gross estate pursuant to section 2044 (a) and (b)(1)(A) of...
the internal revenue code is deducted from, and the value of any property for which an election under this section was previously made is added to, the Washington taxable estate.

Sec. 6. RCW 83.100.047 and 2009 c 521 s 192 are each amended to read as follows:

(1)(a) If the federal taxable estate on the federal return is determined by making an election under section 2056 or 2056A of the internal revenue code, or if no federal return is required to be filed, the department may provide by rule for a separate election on the Washington return, consistent with section 2056 or 2056A of the internal revenue code and (b) of this subsection, for the purpose of determining the amount of tax due under this chapter. The election (shall) is binding on the estate and the beneficiaries, consistent with the internal revenue code and (b) of this subsection. All other elections or valuations on the Washington return (shall) must be made in a manner consistent with the federal return, if a federal return is required, and such rules as the department may provide.

(b) The department (shall) must provide by rule that a state registered domestic partner is deemed to be a surviving spouse and entitled to a deduction from the Washington taxable estate for any interest passing from the decedent to his or her domestic partner, consistent with section 2056 or 2056A of the internal revenue code but regardless of whether such interest would be deductible from the federal gross estate under section 2056 or 2056A of the internal revenue code.

(2) Amounts deducted for federal income tax purposes under section 642(g) of the internal revenue code of 1986 (shall) are not (be) allowed as deductions in computing the amount of tax due under this chapter.

(3) Notwithstanding any department rule, if a taxpayer makes an election consistent with section 2056 of the internal revenue code as permitted under this section, the taxpayer's Washington taxable estate, and the surviving spouse's Washington taxable estate, must be adjusted as follows:

(a) For the taxpayer that made the election, any amount deducted by reason of section 2056(b)(7) of the internal revenue code is added to, and the value of property for which a Washington election under this section was made is deducted from, the Washington taxable estate.

(b) For the estate of the surviving spouse, the amount included in the estate's gross estate pursuant to section 2044 (a) and (b)(1)(A) of the internal revenue code is deducted from, and the value of any property for which an election under this section was previously made is added to, the Washington taxable estate.

Sec. 7. RCW 83.100.120 and 1981 2nd ex.s.c 7 s 83.100.120 are each amended to read as follows:

(1)(a) Except as otherwise provided in this subsection, any personal representative who distributes any property without first paying, securing another's payment of, or furnishing security for payment of the taxes due under this chapter is personally liable for the taxes due under this chapter to the extent of the value of the property delivered. Security for payment of the taxes due under this chapter (shall) must be in an amount equal to or greater than the value of all property delivered to the personal representative or legal representative of the decedent outside Washington by such a person.

(3) For the purposes of this section, persons who do not have possession of a decedent's property include anyone not responsible primarily for paying the tax due under this section or their transferees, which includes but is not limited to mortgagees or pledgees, stockbrokers or stock transfer agents, banks and other depositories of checking and savings accounts, safe-deposit companies, and life insurance companies.

(4) For the purposes of this section, any person who has the control, custody, or possession of any property and who delivers any of the property to the personal representative or legal representative of the decedent may rely upon the release certificate or the release of nonliability certificate, furnished by the department to the personal representative, as evidence of compliance with the requirements of this section.

NEW SECTION.  Sec. 8. Sections 2 and 5 of this act apply both prospectively and retroactively to all estates of decedents dying on or after May 17, 2005.

NEW SECTION.  Sec. 9. This act does not affect any final judgment, no longer subject to appeal, entered by a court of competent jurisdiction before the effective date of this section.

NEW SECTION.  Sec. 11. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION.  Sec. 12. Section 5 of this act expires January 1, 2014.

NEW SECTION.  Sec. 13. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately, except for sections 3, 4, and 6 of this act which take effect January 1, 2014."

Concerning department of transportation project delivery.

The bill was read the second time.

Representative Clibborn moved the adoption of the striking amendment (545).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 47.04 RCW to read as follows:

(1) The legislature intends the department to deliver the projects and activities listed in LEAP Transportation Document 2013-L1, as developed June 23, 2013, as funded by new revenues provided in chapter . . . (Substitute House Bill No. 1954), Laws of 2013 2nd sp. sess., or chapter . . . (Senate Bill No. 5920), Laws of 2013 2nd sp. sess., and for which appropriations of such funds are provided every two years in the omnibus transportation appropriations act, in a manner that exemplifies the stewardship goal in RCW 47.04.280.

(2) To allow the department the flexibility to deliver the projects in the most expeditious and efficient manner, while at the same time honoring the intent of the legislature under chapter . . . (Substitute House Bill No. 1955), Laws of 2013 2nd sp. sess. or chapter . . . (Senate Bill No. 5921), Laws of 2013 2nd sp. sess., the department's stewardship in delivering the projects and activities under this section is subject to the following limitations:

(a) The department must allocate funding to projects in a manner that optimizes efficient management of project spending and delivery. If the most recent engineer's estimate of a project cost differs from the most recent project budget approved by the legislature by ten percent or two hundred fifty thousand dollars, whichever is greater, the department must seek approval before proceeding as provided in this subsection (2).

(b) The legislative scope of a project may not be changed to a material degree except:

(i) By the legislature; or

(ii) When a more efficient, less expensive, or more expeditious scope would provide an equivalent functional outcome. If such an alternative scope is identified, the department must seek approval before proceeding as provided in this subsection (2).

(c)(i) To the extent possible within budgetary and financial planning constraints, the department must adhere to the capital delivery plan schedule adopted by the legislature and as referenced in the LEAP transportation document identified in subsection (1) of this section.

(ii) If adherence to the original capital delivery plan schedule would result in failure to substantively meet the stewardship, efficiency, and expediency objectives of this section, the department may seek approval of reasonable changes in project scheduling so as to meet the objectives as provided in this subsection (2).

(d) To seek approval of project changes under this subsection (2), the department must submit a request to the office of financial management. At the time the department submits a request to transfer funds under this section, a copy of the request must be submitted to the transportation committees of the legislature. The office of financial management must work with legislative staff of the house of representatives and senate transportation committees to review the requested transfers in a timely manner.

(e) The department must develop by the end of each calendar quarter a report with updates of any changes under (a), (b), or (c) of this subsection. The report must be submitted to the office of financial management and the transportation committees of the legislature.

(3) The legislature intends for the department to utilize a design-build or similar alternative public works contracting procedure whenever appropriate in highway construction, ferry vessel, or ferry terminal construction contracts on projects and activities under this section.

(4) For the delivery of projects and activities under this section, the legislature intends for the department to develop a management approach that minimizes the need to add additional permanent engineering staff and other permanent professional staff in the highway construction and ferry vessel and terminal construction programs. The baseline for staffing levels should be:

(a) For highway construction, the full-time equivalent level for such positions outlined by the secretary in the business plan for the department at the end of fiscal year 2015; and

(b) For the ferry vessel and terminal construction program, the full-time equivalent level for such positions at the end of fiscal year 2012.
(5)(a) In January of each year that precedes the next fiscal biennium, beginning January 1, 2015, the department must submit a report to the governor and to the transportation committees of the legislature on progress made toward the delivery of all projects and activities subject to this section.

(b) The secretary must certify to the governor and the legislature the completion of the project package identified in the LEAP transportation document identified in subsection (1) of this section, or the most recent version approved by the legislature or the office of financial management under subsection (2)(d) of this section, on the date that the delivery of the projects and activities subject to this section is substantively complete.

(6) The changes for which the department may seek approval under subsection (2)(a), (b), or (c) of this section are changes to the cost, scope, or schedule of a project relative to the cost, scope, or schedule of the project in the LEAP transportation document identified in subsection (1) of this section or the most recent version approved by the legislature or the office of financial management under subsection (2)(d) of this section.

(7) This section expires June 30, 2023, or the date the secretary certifies that the delivery of the projects and activities listed in the LEAP transportation document identified in subsection (1) of this section, or the most recent version approved by the legislature or the office of financial management under subsection (2)(d) of this section, is substantively complete, whichever is later.

NEW SECTION. Sec. 2. A new section is added to chapter 47.01 RCW to read as follows:

(1) The department must convene three expert review panels of no more than three members to provide independent financial and technical review for the development of a finance plan and project implementation plan for the Columbia river crossing project, the state route number 520 bridge replacement and HOV project, and the Alaskan Way viaduct replacement project.

(2) The expert review panels must be selected cooperatively by the chairs of the senate and house of representatives transportation committees, the secretary of transportation, and the governor.

(3) The expert review panels must, with respect to completion of the project alternatives as described in the draft environmental impact statement of each project:

(a) Review the finance plan for the project to ensure that it clearly identifies secured and anticipated funding sources and is feasible and sufficient; and

(b) Review the project implementation plan covering all state and local permitting and mitigation approvals that ensure the most expeditious and cost-effective delivery of the project.

(4) The expert review panels must report their findings and recommendations on the items described under subsection (3) of this section to the transportation committees of the legislature by December 1, 2014, and annually thereafter, until the projects are operationally complete.

(5) When convening the expert review panels, the department must be attentive to cost and consider ways to minimize expert review panel expenditures. Anticipated expenditures related to the expert review panels must be included in the panel’s findings and recommendation reports.

Sec. 3. RCW 47.01.300 and 2012 c 62 s 1 are each amended to read as follows:

The department shall, in cooperation with environmental regulatory authorities:

(1) Identify and document environmental resources in the development of the statewide multimodal plan under RCW 47.06.040;

(2) Allow for public comment regarding changes to the criteria used for prioritizing projects under chapter 47.05 RCW before final adoption of the changes by the commission;

(3) Use an environmental review as part of the project prospectus identifying potential environmental impacts, mitigation, the utilization of the mitigation option available in RCW 90.74.040, and costs during the early project identification and selection phase, submit the prospectus to the relevant environmental regulatory authorities, and maintain a record of comments and proposed revisions received from the authorities;

(4) Actively work with the relevant environmental regulatory authorities during the design alternative analysis process and seek written concurrence from the authorities that they agree with the preferred design alternative selected;

(5) Develop a uniform methodology, in consultation with relevant environmental regulatory authorities, for submitting plans and specifications detailing project elements that impact environmental resources, and proposed mitigation measures including the mitigation option available in RCW 90.74.040, to the relevant environmental regulatory authorities during the preliminary specifications and engineering phase of project development;

(6) Use available technologies to minimize permit delays for, inform and interact with interested parties including relevant environmental regulatory authorities regarding, and optimize the effectiveness of proposed compensatory mitigation projects;

(7)(a) In addition to the mitigation programs specified in RCW 90.74.040(1)(a), the correction of fish passage barriers on city streets and county roads located within the same watershed as the proposed project must be considered for compensatory mitigation. The department shall consult with the department of fish and wildlife, the appropriate local government, and interested tribes to identify the existing fish passage barriers that, upon removal, will result in the greatest habitat benefit.

(b) The department shall submit a report to the transportation committees of the legislature by December 1, 2014, regarding the use and effectiveness of the mitigation option created in this subsection as well as recommendations for improvements;

(8) Screen construction projects to determine which projects will require complex or multiple permits. The permitting authorities shall develop methods for initiating review of the permit applications for the projects before the final design of the projects;

(((((9) Conduct special prebid meetings for those projects that are environmentally complex; and

(10) Review environmental considerations related to particular projects during the preconstruction meeting held with the contractor who will be awarded the bid.

(1) From time to time, but at least once each year, the state treasurer shall refund from the motor vehicle fund one percent of the motor vehicle fuel tax revenues collected under chapter 82.36 RCW, based on a tax rate of: (a) Nineteen cents per gallon of motor vehicle fuel from July 1, 2003, through June 30, 2005; (b) twenty cents per gallon of motor vehicle fuel from July 1, 2005, through June 30, 2007; (c) twenty-one cents per gallon of motor vehicle fuel from July 1, 2007, through June 30, 2009; (d) twenty-two cents per gallon of motor vehicle fuel from July 1, 2009, through June 30, 2011; (e) twenty-three cents per gallon of motor vehicle fuel beginning July 1, 2011; (f) twenty-nine cents per gallon of motor vehicle fuel beginning August 1, 2013; (g) thirty-three and one-half cents per gallon of motor vehicle fuel beginning July 1, 2014; and (h) forty-eight cents per gallon of motor vehicle fuel beginning July 1, 2029.

(2) The treasurer shall place these funds in the general fund as follows:

(a) Thirty-six percent shall be credited to the ORV and nonhighway vehicle account and administered by the department of natural resources solely for acquisition, planning, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities; and information programs and maintenance of nonhighway roads;

(b) Three and one-half percent shall be credited to the ORV and nonhighway vehicle account and administered by the department of fish and wildlife solely for the acquisition, planning, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities and the maintenance of nonhighway roads;

(c) Two percent shall be credited to the ORV and nonhighway vehicle account and administered by the parks and recreation commission solely for the acquisition, planning, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities; and

(d) Fifty-eight and one-half percent shall be credited to the nonhighway and off-road vehicle activities program account to be administered by the board for planning, acquisition, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities and for education, information, and law enforcement programs. The funds under this subsection shall be expended in accordance with the following limitations:

(i) Not more than thirty percent may be expended for education, information, and law enforcement programs under this chapter;

(ii) Not less than seventy percent may be expended for ORV, nonmotorized, and nonhighway road recreation facilities. Except as provided in (d)(iii) of this subsection, of this amount:

(A) Not less than thirty percent, together with the funds the board receives under RCW 46.68.045, may be expended for ORV recreation facilities;

(B) Not less than thirty percent may be expended for nonmotorized recreation facilities. Funds expended under this subsection (2)(d)(ii)(B) shall be known as Ira Spring outdoor recreation facilities funds; and

(4) During the 2009-2011 fiscal biennium, the legislature may appropriate such amounts as reflect the excess fund balance in the NOVA account to the department of natural resources to install consistent off-road vehicle signage at department-managed recreation sites, and to implement the recreation opportunities on department-managed lands in the Reiter block and Ahtanum state forest, to the state parks and recreation commission. The legislature finds that the appropriation of funds from the NOVA account during the 2009-2011 fiscal biennium for maintenance and operation of state parks or to improve accessibility for boaters and off-road vehicle users at state parks will benefit boaters and off-road vehicle users and others who use nonhighway and nonmotorized recreational facilities. The appropriations under this subsection are not required to follow the specific distribution specified in subsection (2) of this section.

(C) Exclude any deferred prosecution under RCW 10.05.060, except that if a person is removed from a deferred prosecution under RCW 10.05.090, the abstract must show the deferred prosecution as well as the removal.

Sec. 403. RCW 36.73.020 and 2010 c 250 s 1 are each amended to read as follows:
(1) The legislative authority of a county or city may establish a transportation benefit district within the county or city area or within the area specified in subsection (2) of this section, for the purpose of acquiring, constructing, improving, providing, and funding a transportation improvement within the district that is consistent with any existing state, regional, or local transportation plans and necessitated by existing or reasonably foreseeable congestion levels. The transportation improvements shall be owned by the county of jurisdiction if located in an unincorporated area, by the city of jurisdiction if located in an incorporated area, or by the state in cases where the transportation improvement is or becomes a state highway. However, if deemed appropriate by the governing body of the transportation benefit district, a transportation improvement may be owned by a participating port district or transit district, unless otherwise prohibited by law. Transportation improvements shall be administered and maintained as other public streets, roads, highways, and transportation improvements. To the extent practicable, the district shall consider the following criteria when selecting transportation improvements:

(a) Reduced risk of transportation facility failure and improved safety;
(b) Improved travel time;

However, the boundaries of the district need not include all territory within the boundaries of the participating jurisdictions comprising the district.

(3) The members of the legislative authority proposing to establish the district, acting ex officio and independently, shall constitute the governing body of the district: PROVIDED, That where a district includes area within more than one jurisdiction under subsection (2) of this section, the district shall be governed under an interlocal agreement adopted pursuant to chapter 39.34 RCW, with the governing body being composed of (a) at least five members including at least one elected official from the legislative authority of each participating jurisdiction or (b) the governing body of the metropolitan planning organization serving the district, but only if the district boundaries are identical to the boundaries of the metropolitan planning organization serving the district.

(4) The treasurer of the jurisdiction proposing to establish the district shall act as the ex officio treasurer of the district, unless an interlocal agreement states otherwise.

(1) Except as provided in subsection (4) of this section, taxes, fees, charges, and tolls may not be imposed by a district without approval of a majority of the voters in the district voting on a proposition at a general or special election. The proposition must include a specific description of: (a) The transportation improvement or improvements proposed by the district; (b) any rebate program proposed to be established under RCW 36.73.067; and (c) the proposed taxes, fees, charges, and the range of tolls imposed by the district to raise revenue to fund the improvement or improvements or rebate program, as applicable.

(2) Voter approval under this section must be accorded substantial weight regarding the validity of a transportation improvement as defined in RCW 36.73.015.

(3) A district may not increase any taxes, fees, charges, or range of tolls imposed or change a rebate program under this chapter once the taxes, fees, charges, tolls, or rebate program takes effect, unless authorized by the district voters pursuant to RCW 36.73.160 or up to forty dollars of the vehicle fee authorized in RCW 82.80.140 by the governing board of the district.

(4)(a) A district that includes all the territory within the boundaries of the jurisdiction, or jurisdictions, establishing the district, but not including territory in which a fee is currently being collected under RCW 82.80.140, may impose by a majority vote of the governing board of the district the following fees and charges:

(c)(i) A district solely comprised of a city or cities (shall) may not impose the fees or charges identified in (a) of this subsection within one hundred eighty days after July 22, 2007, unless the county in which the city or cities reside, by resolution, declares that it will not impose the fees or charges identified in (a) of this subsection within the one hundred eighty-day period; or
(ii) A district solely comprised of a city or cities identified in RCW 36.73.020(6)(b) may not impose the fees or charges until after May 22, 2008, unless the county in which the city or cities reside, by resolution, declares that it will not impose the fees or charges identified in (a) of this subsection within the one hundred eighty-day period.

(5) If the interlocal agreement in RCW 82.80.140(2)(a) cannot be reached, a district that includes only the unincorporated territory of a county may impose by a majority vote of the governing body of the district up to ((twenty)) forty dollars of the vehicle fee authorized in RCW 82.80.140.

NEW SECTION. Sec. 405. A new section is added to chapter 82.80 RCW to read as follows:

(1) A county with a population of one million or more may impose, by approval of a majority of the registered voters of the county voting on the proposition at a general or special election, a local motor vehicle excise tax of up to one and one-half percent annually on the value of every motor vehicle registered to a person residing within the county based on any guidebook, report, or compendium of recognized standing in the automotive industry, such as the Kelley Blue Book or the National Automobile Dealers' Association Guide. A motor vehicle excise tax may not be imposed on vehicles licensed under RCW 46.17.355, except for motor vehicles with an unladen weight of six thousand pounds or less, RCW 46.16A.425, 46.17.335, or 46.17.350(1)(c).

(3) If the department of licensing determines a value for a vehicle pursuant to subsection (1) of this section, any person who pays a locally imposed motor vehicle excise tax for that vehicle may appeal the valuation to the department of licensing under chapter 34.05 RCW. If the taxpayer is successful on appeal, the department must refund the excess tax.

(4) The tax imposed under this section applies only when renewing a vehicle registration, and is effective upon the registration renewal date as provided by the department of licensing.

(5)(a) A county imposing a tax under this section must use sixty percent of the net funds, after any deductions pursuant to subsection (2) of this section, for the operation, maintenance, or capital needs of public transportation systems.

(b) The remaining forty percent of the net funds, after any deductions pursuant to subsection (2) of this section, must be used for the operations and maintenance of local roads and must be distributed on a pro rata basis to the county imposing the local motor vehicle excise tax and to incorporated cities and towns within the county based upon the population of the unincorporated portion of the county, the population of an incorporated city, or the population of an incorporated town as a percentage of the total population of the county.

(6) For purposes of this section, the population of an incorporated city or town is the most recent population determined by the office of financial management.

Sec. 406. RCW 82.14.045 and 2008 c 86 § 102 are each amended to read as follows:

(1) The legislative body of any city pursuant to RCW 35.92.060, of any county which has created an unincorporated transportation benefit area pursuant to RCW 36.57.100 and 36.57.110, of any public transportation benefit area pursuant to RCW 36.57A.080 and 36.57A.090, of any county transportation authority established pursuant to chapter 36.57 RCW, of any metropolitan municipal corporation within a county with a population of one million or more pursuant to chapter 36.57A.090, of any county transportation authority established pursuant to chapter 36.57.070 and 36.57.100, of any public transportation benefit area and, if approved, the sales and use tax shall be distributed to each city within the ((county)) district by interlocal agreement.

(2)(a) In the event a metropolitan municipal corporation imposes a sales and use tax pursuant to this chapter no city, county which has created an unincorporated transportation benefit area, public transportation benefit area, authority, or county transportation authority wholly within such metropolitan municipal corporation shall be empowered to impose and/or collect taxes under RCW 35.95.040 or this section, but nothing herein shall prevent such city or county from imposing sales and use taxes pursuant to any other authorization.

(b) In the event a county transportation authority imposes a sales and use tax under this section, no city, county which has created an unincorporated transportation benefit area, public transportation benefit area, or metropolitan municipal corporation, located within the territory of the authority, shall be empowered to impose or collect taxes under RCW 35.95.040 or this section.

(c) In the event a public transportation benefit area imposes a sales and use tax under this section, no city, county which has created an unincorporated transportation benefit area, or metropolitan municipal corporation, located wholly or partly within the territory of the public transportation benefit area, shall be empowered to impose or collect taxes under RCW 35.95.040 or this section.

(3) The legislative body of a public transportation benefit area located in a county with a population of seven hundred thousand or more that also contains a city with a population of seventy-five thousand or more operating a transit system pursuant to chapter 35.95 RCW may submit an authorizing proposition to the voters and, if approved by a majority of persons voting on the proposition, impose a sales and use tax in accordance with the terms of this chapter of one-tenth, two-tenths, or three-tenths of one percent of the selling price, in the case of meals and lodging, at a rate not otherwise authorized by RCW.

Sec. 407. RCW 82.80.140 and 2010 c 161 § 917 are each amended to read as follows:

(1) Subject to the provisions of RCW 36.73.065, a transportation benefit district under chapter 36.73 RCW may fix and impose an annual vehicle fee, not to exceed one hundred dollars per vehicle registered in the district, for each vehicle subject to vehicle license fees under RCW 46.17.350(1) (a), (c), (d), (e), (g), (h), (j), or (n) through (q) and for each vehicle subject to gross weight license fees under RCW 46.17.355 with a scale weight of ten thousand pounds or less.

(2)(a) A district that includes all the territory within the boundaries of the jurisdiction, or jurisdictions, establishing the district, but not including territory in which a fee is currently being collected under this section, may impose by a majority vote of the governing board of the district up to ((twenty)) forty dollars of the vehicle fee authorized in subsection (1) of this section.

(i) If the district is countywide, the revenues of the fee ((shall)) must be distributed to each city within the ((county)) district by interlocal agreement that must be effective prior to imposition of the fee. The interlocal agreement is effective when approved by the ((county)) districts and sixty percent of the cities representing seventy-five percent of the population of the cities within the ((county)) district in which the countywide fee is collected.
(ii) If the district is less than countywide, the revenues of the fee must be distributed to each city within the district by interlocal agreement that must be effective prior to imposition of the fee.

(b) A district may not impose a fee under this subsection (2):
(i) For a passenger-only ferry transportation improvement unless the vehicle fee is first approved by a majority of the voters within the jurisdiction of the district; or
(ii) That, if combined with the fees previously imposed by another district within its boundaries under RCW 36.73.065(4)(a)(i), exceeds (twenty) forty dollars.

If a district imposes or increases a fee under this subsection (2) that, if combined with the fees previously imposed by another district within its boundaries, exceeds (twenty) forty dollars, the district shall provide a credit for the previously imposed fees so that the combined vehicle fee does not exceed (twenty) forty dollars.

(3) The department of licensing shall administer and collect the fee. The department shall deduct a percentage amount, as provided by contract, not to exceed one percent of the fees collected, for administration and collection expenses incurred by it. The department shall remit remaining proceeds to the custody of the state treasurer. The state treasurer shall distribute the proceeds to the district on a monthly basis.

(4) No fee under this section may be collected until six months after approval under RCW 36.73.065.

(5) The vehicle fee under this section applies only when renewing a vehicle registration, and is effective upon the registration renewal date as provided by the department of licensing.

(6) The following vehicles are exempt from the fee under this section:

NEW SECTION. Sec. 408. A new section is added to chapter 82.14 RCW to read as follows:

(1)(a) The tax authorized under RCW 82.14.045 may also be imposed by the legislative body of an enhanced public transportation zone established under subsection (2) of this section if approved by the voters in the enhanced public transportation zone in the manner provided for in this section. The establishing transit agency must consult with the department on sales tax collection methods when establishing the boundaries of the enhanced public transportation zone.

(b) A tax imposed under (a) of this subsection, when combined with the rate of tax imposed by the establishing transit agency under RCW 82.14.045, may not exceed the maximum rate allowed under RCW 82.14.045, and expires either (i) three years after imposition, unless reauthorized by the voters in the enhanced public transportation zone in the manner provided for in this section, or (ii) upon failure of a reauthorization. Prior to reauthorization, the enhanced public transportation zone boundaries must be readjusted, if necessary, to meet the provisions under subsection (2)(c) of this section. A tax imposed under (a) of this subsection must be imposed only in the territory of the enhanced public transportation zone. The revenue from the tax imposed under (a) of this subsection must be expended only for public transportation service within the enhanced public transportation zone and must not supplant existing revenues allocated to the enhanced public transportation zone.

(c) Six months prior to the voter authorization or reauthorization of the tax authorized under (a) of this subsection, the establishing transit agency must determine a baseline level of fixed-route public transportation service. This baseline level of service must be publicly posted on the web site of the establishing transit agency. Upon the collection of the tax imposed under (a) of this subsection, fixed-route public transportation service within the enhanced public transportation zone must increase proportionally to additional revenue generated within the enhanced public transportation zone. Service hours within the enhanced public transportation zone must increase from the baseline level in accordance with the establishing transit agency's most recent cost of fixed-route public transportation per service hour, as approved by the national transit database. A report on the increase in public transportation service must be publicly posted annually on the establishing transit agency's web site.

(2)(a) The legislative body of a transit agency may establish an enhanced public transportation zone within a portion of the boundaries of the transit agency establishing the enhanced public transportation zone. An enhanced public transportation zone may include all or a portion of any county, city, or town as long as all or a portion of the county, city, or town is within the territory of the district. However, the legislative body of any city, town, or county may pass a resolution removing all or a portion of its jurisdiction from the enhanced public transportation zone, prior to creation of the zone, or at the time of reauthorization of the zone. The boundaries of any enhanced public transportation zone must follow election precinct lines as far as practicable. When creating the zone boundaries, the establishing transit agency must attempt to include a significant amount of the population that the establishing transit agency designated as low income or minority for purposes of Title VI of the federal civil rights act of 1964. An enhanced public transportation zone may not include more than forty-nine percent of the population of the establishing transit agency.

(b) The members of the legislative body of the transit agency proposing to establish the enhanced public transportation zone, acting ex officio and independently, constitutes the legislative body of the enhanced public transportation zone.

(c) An enhanced public transportation zone may establish, finance, and provide a public transportation system within its boundaries in the same manner as authorized for the transit agency establishing the enhanced public transportation zone. However, the establishing transit agency must adopt a resolution or ordinance finding that the enhanced public transportation zone warrants consistent and sustainable transportation service levels of passenger capacity, speed, and service frequency to serve persons within the enhanced public transportation zone that would otherwise be substantially disadvantaged if the enhanced public transportation zone were not created.

(d) An enhanced public transportation zone constitutes a body corporate and possesses all the usual powers of a corporation for public purposes as well as all other powers that may be conferred by statute including, but not limited to, the authority to hire employees, staff, and services, to enter into contracts, to acquire, hold, and dispose of real and personal property, and to sue and be sued. Public works contract limits applicable to the transit agency that established the enhanced public transportation zone also apply to the enhanced public transportation zone.

(e) An enhanced public transportation zone may be dissolved by a majority vote of its legislative body when all contractual obligations of the enhanced public transportation zone have either been discharged or assumed by another governmental entity.

(3) For the purposes of this section:
(a) "Enhanced public transportation zone" means a quasi-municipal corporation and independent taxing authority within the meaning of Article VII, section 1 of the state Constitution, and a taxing district within the meaning of Article VII, section 2 of the state Constitution, created by the legislative body of a transit agency.
(b) "Transit agency" means a city-owned transit system, an unincorporated transportation benefit area, a county transportation authority, a metropolitan municipal corporation within a county with a population of one million or more, and a public transportation benefit area.

NEW SECTION. Sec. 409. A new section is added to chapter 36.57A RCW to read as follows:

(1) A governing body of a public transportation benefit area may establish one or more passenger-only ferry service districts within all or a portion of the boundaries of the public transportation benefit area establishing the passenger-only ferry service district. A passenger-only ferry service district may include all or a portion of a city or town as long as all or a portion of the city or town boundaries are within the boundaries of the establishing public transportation benefit area. The members of the public transportation benefit area governing body proposing to establish the passenger-only ferry service district, acting ex officio and independently, shall constitute the governing body of the passenger-only ferry service district.

(2) A passenger-only ferry service district may establish, finance, and provide passenger-only ferry service, and associated services to support and augment passenger-only ferry service operation, within its boundaries in the same manner as authorized for public transportation benefit areas under this chapter.

(3) A passenger-only ferry service district constitutes a body corporate and possesses all the usual powers of a corporation for public purposes as well as all other powers that may be conferred by statute including, but not limited to, the authority to hire employees, staff, and services, to enter into contracts, to acquire, hold, and dispose of real and personal property, and to sue and be sued. Public works contract limits applicable to the public transportation benefit area that established the passenger-only ferry service district apply to the area. For purposes of this section, "passenger-only ferry service district" means a quasi-municipal corporation and independent taxing authority within the meaning of Article VII, section 1 of the state Constitution, and a taxing district within the meaning of Article VII, section 2 of the state Constitution, created by the legislative body of a public transportation benefit area.

(4) A passenger-only ferry service district may exercise the power of eminent domain to obtain property for its authorized purposes in the same manner as authorized for the public transportation benefit area that established the passenger-only ferry service district.

(5) Before a passenger-only ferry service district may provide passenger-only ferry service, it must develop a passenger-only ferry investment plan including elements: To operate or contract for the operation of passenger-only ferry services; to purchase, lease, or rent ferry vessels and dock facilities for the provision of transit service; and to identify other activities necessary to implement the plan. The plan must set forth terminal locations to be served, projected costs of providing services, and revenues to be generated from tolls, locally collected tax revenues, and other revenue sources. The plan must ensure that services provided under the plan are for the benefit of the residents of the passenger-only ferry service district. The passenger-only ferry service district may use any of its powers to carry out this purpose, unless otherwise prohibited by law. In addition, the passenger-only ferry service district may enter into contracts and agreements to operate passenger-only ferry service and public-private partnerships and design-build, general contractor/construction management, or other alternative procurement processes substantially consistent with chapter 39.10 RCW.

(6) A passenger-only ferry service district may be dissolved by a majority vote of the governing body when all obligations under any general obligation bonds issued by the passenger-only ferry service district have been discharged and any other contractual obligations of the passenger-only ferry service district have either been discharged or assumed by another governmental entity.

NEW SECTION. Sec. 410. A new section is added to chapter 36.57A RCW to read as follows:

(1) A passenger-only ferry service district may, as part of a passenger-only ferry investment plan, recommend some or all of the following revenue sources as provided in this chapter:

(a) A sales and use tax, as provided in section 411 of this act;
(b) A parking tax, as provided in RCW 82.80.030;
(c) Tolls for passengers and packages and, where applicable, parking; and
(d) Charges or licensing fees for advertising, leasing space for services to ferry passengers, and other revenue generating activities.

(2) Taxes may not be imposed without an affirmative vote of the majority of the voters within the boundaries of the passenger-only ferry service district voting on a single ballot proposition to both approve a passenger-only ferry investment plan and to approve taxes to implement the plan. Revenues from these taxes and fees may be used only to implement the plan and must be used for the benefit of the residents of the passenger-only ferry service district. A district may contract with the department of revenue or other appropriate entities for administration and collection of any of the taxes or charges authorized in this section.

NEW SECTION. Sec. 411. A new section is added to chapter 82.14 RCW to read as follows:

Passenger-only ferry service districts providing passenger-only ferry service as provided in section 409 of this act may submit an authorizing proposition to the voters and, if approved by a majority of persons voting, fix and impose a sales and use tax in accordance with the terms of this chapter, solely for the purpose of providing passenger-only ferry service and associated services to support and augment passenger-only ferry service operation. The tax authorized under this section is in addition to other taxes authorized by law and must be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of a taxable event within the taxing district. The maximum rate of the tax must be approved by the voters and may not exceed six-tenths of one percent of the selling price in the case of a sales tax or value of the article used in the case of a use tax.

Sec. 412. RCW 82.80.005 and 2002 c 56 s 415 are each amended to read as follows:

For the purposes of this chapter, "district" means a regional transportation investment district created under chapter 36.120 RCW or a passenger-only ferry service district created under chapter 36.57A RCW.

NEW SECTION. Sec. 413. A new section is added to chapter 36.57A RCW to read as follows:

(1) A passenger-only ferry service district may form a local improvement district to provide any transportation improvement it has the authority to provide, impose special assessments on all property specially benefited by the transportation improvements, and issue special assessment bonds or revenue bonds to fund the costs of the transportation improvement. Local improvement districts must be created and assessments must be made and collected pursuant to chapters 35.43, 35.44, 35.49, 35.50, 35.51, 35.53, and 35.54 RCW.

(2) The governing body of the passenger-only ferry service district shall by resolution establish for each special assessment bond issue the amount, date, terms, conditions, denominations, maximum fixed or variable interest rate or rates, maturity or maturities, redemption rights, registration privileges, if any, covenants, and form, including registration as to principal and interest, registration as to principal only, or bearer. Registration may include, but not be limited to: (a) A book entry system of recording the ownership of a bond whether or not physical bonds are issued; or (b) recording the ownership of a bond together with the requirement that the transfer of ownership may only be effected by the surrender of the old bond and either the reissuance of the old bond or the issuance of a new bond to the new owner. Facsimile signatures may be used on the bonds and
any coupons. The maximum term of any special assessment bonds may not exceed thirty years beyond the date of issue. Special assessment bonds issued pursuant to this section may not be an indebtedness of the passenger-only ferry service district issuing the bonds, and the interest and principal on the bonds may only be payable from special assessments made for the improvement for which the bonds were issued and any local improvement guaranty fund that the passenger-only ferry service district has created. The owner or bearer of a special assessment bond or any interest coupon issued pursuant to this section shall not have any claim against the passenger-only ferry service district arising from the bond or coupon except for the payment from special assessments made for the improvement for which the bonds were issued and any local improvement guaranty fund that the passenger-only ferry service district has created. The passenger-only ferry service district issuing the special assessment bonds is not liable to the owner or bearer of any special assessment bond or any interest coupon issued pursuant to this section for any loss occurring in the lawful operation of its local improvement guaranty fund. The substance of the limitations included in this subsection must be plainly printed, written, or engraved on each special assessment bond issued pursuant to this section.

3. Assessments must reflect any credits given by the passenger-only ferry service district for real property or property right donations made pursuant to RCW 47.14.030.

4. The governing body of the passenger-only ferry service district may establish and pay moneys into a local improvement guaranty fund to guarantee special assessment bonds issued by the passenger-only ferry service district.

NEW SECTION. Sec. 414. A new section is added to chapter 36.57A RCW to read as follows:

(1) To carry out the purposes of this chapter, a passenger-only ferry service district may issue general obligation bonds, not to exceed an amount, together with any other outstanding nonvoter-approved general obligation indebtedness, equal to one and one-half percent of the value of the taxable property within the area, as the term "value of the taxable property" is defined in RCW 39.36.015. A passenger-only ferry service district may also issue general obligation bonds for capital purposes only, together with any outstanding general obligation indebtedness, not to exceed an amount equal to five percent of the value of the taxable property within the area, as the term "value of the taxable property" is defined in RCW 39.36.015, when authorized by the voters of the area pursuant to Article VIII, section 6 of the state Constitution.

(2) General obligation bonds with a maturity in excess of twenty-five years may not be issued. The governing body of the passenger-only ferry service district shall by resolution determine for each general obligation bond issue the amount, date, terms, conditions, denominations, maximum fixed or variable interest rate or rates, maturity or maturities, redemption rights, registration privileges, manner of execution, manner of sale, call provisions, if any, covenants, and form, including registration as to principal and interest, registration as to principal only, or bearer. Registration may include, but not be limited to: (a) A book entry system of recording the ownership of a bond whether or not physical bonds are issued; or (b) recording the ownership of a bond together with the requirement that the transfer of ownership may only be effected by the surrender of the old bond and either the reissuance of the old bond or the issuance of a new bond to the new owner. Facsimile signatures may be used on the bonds and any coupons. Refunding general obligation bonds may be issued in the same manner as general obligation bonds are issued.

(3) Whenever general obligation bonds are issued to fund specific projects or enterprises that generate revenues, charges, user fees, or special assessments, the passenger-only ferry service district may specifically pledge all or a portion of the revenues, charges, user fees, or special assessments to refund the general obligation bonds. The passenger-only ferry service district may also pledge any other revenues that may be available to the area.

4. In addition to general obligation bonds, a passenger-only ferry service district may issue revenue bonds to be issued and sold in accordance with chapter 39.46 RCW.

TOLLING

NEW SECTION. Sec. 501. In order to provide funds necessary for the location, design, right-of-way, and construction of the Columbia river crossing project, there shall be issued and sold upon the request of the department of transportation up to six hundred fifty million dollars of toll revenue bonds of the state of Washington in accordance with sections 502 through 505 of this act. Each such bond shall contain a recital that payment or redemption of the bond and payment of the interest and any premium thereon is payable solely from and secured solely by a direct pledge and charge upon toll revenue and is not a general obligation of the state to which the full faith and credit of the state is pledged.

Toll revenue is hereby pledged to the payment of any bonds and the interest thereon issued under the authority of this act, and the legislature agrees to continue to impose or cause to be imposed these toll charges on the Columbia river crossing project, in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of this act.

NEW SECTION. Sec. 502. Upon the request of the department of transportation, and in consultation with the tolling authority, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by this act in accordance with chapter 39.42 RCW. Bonds authorized by this act shall be sold in the manner, at time or times, in amounts, and at the price as the state finance committee shall determine. No bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

NEW SECTION. Sec. 503. The proceeds from the sale of bonds authorized by this act shall be deposited in the Columbia river crossing project account created under RCW 47.56.894 and shall be available only for the purposes enumerated in section 501 of this act, for the payment of bond anticipation notes or other interim financing, if any, capitalizing interest on the bonds, and for the payment of bond issuance costs, including the costs of underwriting.

NEW SECTION. Sec. 504. The state finance committee may determine and include in any resolution authorizing the issuance of any bonds under this act such terms, provisions, covenants, and conditions as it may deem appropriate in order to assist with the marketing and sale of the bonds, confer rights upon the owners of bonds, and safeguard rights of the owners of bonds including, among other things:

1. Provisions regarding the maintenance and operation of eligible toll facilities;
2. The pledges, uses, and priorities of application of toll revenue;
3. Provisions that bonds shall be payable from and secured solely by toll revenue as provided by this act;
4. In consultation with the department of transportation and the tolling authority, financial covenants requiring that the eligible toll facilities must produce specified coverage ratios of toll revenue to debt service on bonds;
5. The purposes and conditions that must be satisfied prior to the issuance of any additional bonds that are to be payable from and secured by any toll revenue on an equal basis with previously issued and outstanding bonds payable from and secured by toll revenue;
(6) Provisions that bonds for which any toll revenue are pledged, or for which a pledge of any toll revenue may be reserved, may be structured on a senior, parity, subordinate, or special lien basis in relation to any other bonds for which toll revenue is pledged, with respect to toll revenue only; and

(7) Provisions regarding reserves, credit enhancement, liquidity facilities, and payment agreements with respect to bonds.

Notwithstanding the foregoing, covenants and conditions detailing the character of management, maintenance, and operation of eligible toll facilities, insurance for eligible toll facilities, financial management of toll revenue, and disposition of eligible toll facilities must first be approved by the department of transportation.

The owner of any bond may by mandamus or other appropriate proceeding require and compel performance of any duties imposed upon the tolling authority and the department of transportation and their respective officials, including any duties imposed upon or undertaken by them or by their respective officers, agents, and employees, in connection with the construction, maintenance, and operation of eligible toll facilities and in connection with the collection, deposit, investment, application, and disbursement of the proceeds of the bonds and toll revenue.

NEW SECTION. Sec. 505. For the purposes of this act, "toll revenue" means all toll receipts, all interest income derived from the investment of toll receipts, and any gifts, grants, or other funds received for the benefit of transportation facilities in the state, including eligible toll facilities. However, for the purpose of any pledge of toll revenue to the payment of particular bonds issued under this act, "toll revenue" means and includes only such toll revenue or portion thereof that is pledged to the payment of those bonds in the resolution authorizing the issuance of such bonds. Toll revenue constitutes "fees and revenues derived from the ownership or operation of any undertaking, facility, or project" as that phrase is used in Article VIII, section 1(c)(1) of the state Constitution.

For the purposes of this act, "tolling authority" has the same meaning as in RCW 47.56.810.

Sec. 506. RCW 47.10.882 and 2011 c 377 s 3 are each amended to read as follows:

The toll facility bond retirement account is created in the state treasury for the purpose of payment of the principal of and interest and premium on bonds. Both principal of and interest on the bonds issued for the purposes of chapter 498, Laws of 2009 (aud), chapter 377, Laws of 2011, and this act shall be payable from the toll facility bond retirement account. The state finance committee may provide that special subaccounts be created in the account to facilitate payment of the principal of and interest on the bonds. The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount required for principal and interest on the bonds in accordance with the bond proceedings.

Sec. 507. RCW 47.56.894 and 2012 c 36 s 3 are each amended to read as follows:

(1) A special account to be known as the Columbia river crossing project account is created in the state treasury.

(2) Deposits to the account must include:

(a) All proceeds of bonds and loans issued for the Columbia river crossing project, including any capitalized interest;

(b) All tolls and other revenues received from the operation of the Columbia river crossing project as a toll facility to be deposited at least monthly;

(c) Any interest that may be earned from the deposit or investment of those revenues;

(d) Notwithstanding RCW 47.12.063, proceeds from the sale of any surplus real property acquired for the Columbia river crossing project; and

(e) All damages, liquidated or otherwise, collected under any contract involving the Columbia river crossing project.

(3) Subject to the covenants made by the state in the bond proceedings authorizing the issuance and sale of bonds for the Columbia river crossing project, toll charges, other revenues, and interest received from the operation of the Columbia river crossing project as a toll facility may be used to pay any required costs allowed under RCW 47.56.820. The state treasurer may establish subaccounts for the purpose of segregating toll charges, bond sale proceeds, and other revenues.

Sec. 508. RCW 47.56.892 and 2012 c 36 s 4 are each amended to read as follows:

For the Columbia river crossing project, the tolling authority may set, adjust, and review toll rates and may enter into agreements with the Oregon state transportation commission regarding the mutual or joint setting, adjustment, and review of toll rates as the tolling authority may find necessary to carry out the purposes of this section. Any agreement between the tolling authority and the Oregon state transportation commission made pursuant to this section takes effect, and is not binding and enforceable until, thirty days after adjournment of the ((next ensuing)) 2013 regular legislative session. If the tolling authority has not entered into an agreement with the Oregon state transportation commission by December 31, 2015, this section expires.

Any project that has been awarded funds, but does not report activity on the project within one year of the grant award, must be reviewed by the department to determine whether the grant should be terminated. The department shall promptly close out grants when projects have been completed, and any remaining funds must be used only to fund projects identified in the LEAP transportation document referenced in this subsection. 1. Except as otherwise provided in this section, the total appropriation in this section is provided solely for the implementation of chapter ... (Substitute House Bill No. 1256, Laws of 2013 (addressing project selection by the freight mobility strategic investment board). If chapter ... (Substitute House Bill No. 1256), Laws of 2013 is not enacted by June 30, 2013, the amounts provided in this section lapse.

2. $6,500,000 of the multimodal transportation account--state appropriation is provided solely to help address bottlenecks and for other roadway improvements that would benefit freight movement.

Sec. 9. 2013 c 306 s 305 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF TRANSPORTATION—FACILITIES—PROGRAM D— (DEPARTMENT OF TRANSPORTATION-ONLY PROJECTS)–CAPITAL

Transportation Partnership Account--State

Appropriation ................................................................. $13,425,000

Motor Vehicle Account--State Appropriation ........................................ ($8,106,000)

$13,006,000

TOTAL APPROPRIATION .................................................. $(28,634,000)

$26,531,000

The appropriations in this section are subject to the following conditions and limitations:

1. The legislature recognizes that the Marginal Way site (King county parcel numbers 302409182 & 5367202525) is surplus state-owned real property under the jurisdiction of the department and that the public would benefit significantly if this site is used to provide important social services. Therefore, the legislature declares that committing the Marginal Way site to this use is consistent with the public interest.

Pursuant to RCW 47.12.063, the department shall work with the owner of King county parcel number 764340010, which abuts both parcels of the Marginal Way site, and shall convey the Marginal Way site to that abutting property owner for the appraised fair market value of the parcels, the proceeds of which must be deposited in the motor vehicle fund. The conveyance is conditional upon the purchaser's agreement to commit the use of the Marginal Way site to operations with the goal of ending hunger in western Washington. The department may not make this conveyance before September 1, 2013, and may not make this conveyance after January 15, 2014.

The Washington department of transportation is not responsible for any costs associated with the cleanup or transfer of the Marginal Way site.

2. $13,425,000 of the transportation partnership account--state appropriation is provided solely for the construction of a new traffic management and emergency operations center on property owned by the department on Dayton Avenue in Shoreline (project 100010T). Consistent with the office of financial management's 2012 study, it is the intent of the legislature to appropriate no more than $15,000,000 for the total construction costs. The department shall report to the transportation committees of the legislature and the office of financial management by June 30, 2014, on the progress of the construction of the traffic management and emergency operations center, including a schedule for terminating the current lease of the Goldsmith building in Seattle.

3. $5,000,000 of the motor vehicle account--state appropriation is provided solely for the planning and design work necessary to consolidate and expand the existing maintenance facility at Corson Avenue South in Seattle, Washington. The office of financial management shall hold this amount in unallotted status until the transfer authorized in subsection (1) of this section is completed.

TOTAL APPROPRIATION .................................................. $(3,559,033,000)

$4,195,733,000

The appropriations in this section are subject to the following conditions and limitations:
(1) Except as provided otherwise in this section, the entire transportation 2003 account (nickel account) appropriation and the entire transportation partnership account appropriation are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document 2013-1 as developed April 23, 2013, Program - Highway Improvement Program (I). However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section 603 of this act.

(2) Except as provided otherwise in this section, the entire motor vehicle account--state appropriation and motor vehicle account--federal appropriation are provided solely for the projects and activities listed in LEAP Transportation Document 2013-2 ALL PROJECTS as developed April 23, 2013, Program - Highway Improvement Program (I). (8) (a) $5,000,000 of the motor vehicle account--federal appropriation and $200,000 of the motor vehicle account--state appropriation are provided solely for the I-90 Comprehensive Tolling Study and Environmental Review project (100067T). The department shall prepare a detailed environmental impact statement that complies with the national environmental policy act regarding tolling Interstate 90 between Interstate 5 and Interstate 405 for the purposes of both managing traffic and providing funding for the construction of the unfunded state route number 520 from Interstate 5 to Medina project. As part of the preparation of the statement, the department must review any impacts to the network of highways and roads surrounding Lake Washington. In developing this statement, the department must provide significant outreach to potential affected communities. The department may consider traffic management options that extend as far east as Issaquah.

(b)(i) As part of the project in this subsection (8), the department shall perform a study of all funding alternatives to tolling Interstate 90 to provide funding for construction of the unfunded state route number 520 and explore and evaluate options to mitigate the effect of tolling on affected residents and all other users of the network of highways and roads surrounding Lake Washington including, but not limited to:

(A) Allowing all Washington residents to traverse a portion of the tolled section of Interstate 90 without paying a toll. Residents may choose either (I) the portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing on Mercer Island, or (II) the portion of Interstate 90 between the westernmost landing east of Mercer Island and the easternmost landing on Mercer Island;

(B) Assessing a toll only when a driver traverses, in either direction, the entire portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing east of Mercer Island; and

(C) Allowing affected residents to choose one portion of the tolled section of Interstate 90 upon which they may travel without paying a toll. Residents may choose either (I) the portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing on Mercer Island, or (II) the portion of Interstate 90 between the westernmost landing east of Mercer Island and the easternmost landing on Mercer Island.

(ii) The department may also consider any alternative mitigation options that conform to the purpose of this subsection (8).

(iii) For the purposes of this subsection (8), "affected resident" means anyone who must use a portion of Interstate 90 west of Interstate 405 upon which tolling is considered in order to access necessary medical services, such as a hospital.

(9) $541,901,000 of the transportation partnership account--state appropriation, $144,954,000 of the motor vehicle account--federal appropriation, $129,779,000 of the motor vehicle account--private/local appropriation, and $78,004,000 of the transportation 2003 account (nickel account)--state appropriation are provided solely for the SR 99/Alaskan Way Viaduct - Replacement project (809936Z).

(10) The department shall reconvene an expert review panel of no more than three members as described under RCW 47.01.400 for the purpose of updating the work that was previously completed by the panel on the Alaskan Way viaduct replacement project and to ensure that an appropriate and viable financial plan is created and regularly reviewed. The expert review panel must be selected cooperatively by the chairs of the senate and house of representatives transportation committees, the secretary of transportation, and the governor. The expert review panel must report findings and recommendations to the transportation committees of the legislature, the governor's Alaskan Way viaduct project oversight committee, and the transportation commission annually until the project is operationally complete. This subsection takes effect if chapter . . . (Substitute House Bill No. 1957), Laws of 2013 2nd sp. sess., is not enacted by June 30, 2013.

(11) $7,408,000 of the transportation partnership account--state appropriation, $14,594,000 of the transportation 2003 account (nickel account)--state appropriation, $3,730,000 of the motor vehicle account--state appropriation, $1,000,000 of the multimodal transportation account--state appropriation, and $41,395,000 of the motor vehicle account--federal appropriation are provided solely for the US 395/North Spokane Corridor projects (6030010A & 600003A). Any future savings on the projects must stay on the US 395/ Interstate 90 corridor and be made available to the current phase of the North Spokane corridor projects or any future phase of the projects.

(12) $114,369,000 of the transportation partnership account--state appropriation and $53,755,000 of the transportation 2003 account (nickel account)--state appropriation are provided solely for the I-405/Kirkland Vicinity Stage 2 - Widening project (8811002). This project must be completed as soon as practicable as a design build project. Any future savings on this project or other Interstate 405 corridor projects must stay on the Interstate 405 corridor and be made available to either the I-405/SR 167 Interchange - Direct Connector project (140504C) or the I-405 Renton to Bellevue project.

(13)(a) The SR 520 Bridge Replacement and HOV project (0811003) is supported over time from multiple sources, including a $300,000,000 TIFIA loan, $819,524,625 in Garvee bonds, toll revenues, state bonds, interest earnings, and other miscellaneous sources.
(b) The state route number 520 corridor account--state appropriation includes up to $668,142,000 in proceeds from the sale of bonds authorized in RCW 47.10.879 and 47.10.886.

(c) The state route number 520 corridor account--federal appropriation includes up to $300,000,000 in proceeds from the sale of bonds authorized in RCW 47.10.879 and 47.10.886.

(d) $153,124,000 of the transportation partnership account--state appropriation, $300,000,000 of the state route number 520 corridor account--federal appropriation, and $737,205,000 of the state route number 520 corridor account--state appropriation are provided solely for the SR 520 Bridge Replacement and HOV project (OB1003). Of the amounts appropriated in this subsection (13)(d), $105,085,000 of the state route number 520 corridor account--federal appropriation and $227,415,000 of the state route number 520 corridor account--state appropriation must be put into unallotted status and are subject to review by the office of financial management. The director of the office of financial management shall consult with the joint transportation committee prior to making a decision to allot these funds.

(e) When developing the financial plan for the project, the department shall assume that all maintenance and operation costs for the new facility are to be covered by tolls collected on the toll facility and not by the motor vehicle account.

(14) $1,100,000 of the motor vehicle account--federal appropriation is provided solely for the 31st Ave SW Overpass Widening and Improvement project (L1100048).

(15) $22,602,000 of the motor vehicle account--state appropriation is provided solely to advance the design, preliminary engineering, and rights-of-way acquisition for the priority projects identified in LEAP Transportation Document 2013-3 as developed April 23, 2013. Funds must be used to advance the emergent, initial development of these projects for the purpose of expediting delivery of the associated major investments when funding for such investments becomes available. Funding may be reallocated between projects to maximize the accomplishment of design and preliminary engineering work and rights-of-way acquisition, provided that all projects are addressed. It is the intent of the legislature that, while seeking to maximize the outcomes in this section, the department shall provide for continuity of both the state and consulting engineer workforce, while strategically utilizing private sector involvement to ensure consistency with the department's business plan for staffing in the highway construction program in the current fiscal biennium.

(16) If a planned roundabout in the vicinity of state route number 526 and 84th Street SW would divert commercial traffic onto neighborhood streets, the department may not proceed with improvements at state route number 526 and 84th Street SW until the traffic impacts in the vicinity of state route number 526 and 40th Avenue West are addressed.

(17) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Prior to the department's switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2015, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

(18) The legislature finds that "right-sizing" is a lean, metric-based approach to determining project investments. This concept entails compromise between project cost and design, incorporating local community needs, desired outcomes, and available funding. Furthermore, the legislature finds that the concepts and principles the department has utilized in the safety analyst program have been effective tools to prioritize projects and reduce project costs. Therefore, the department shall establish a pilot project on the SR 3/Belfair Bypass - New Alignment (300344C) to begin implementing the concept of "right-sizing" in the highway construction program.

(19) For urban corridors that are all or partially within a metropolitan planning organization boundary, for which the department has not initiated environmental review, and that require an environmental impact statement, at least one alternative must be consistent with the goals set out in RCW 47.01.440.

(20) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's 2014 budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(21) $28,963,000 of the motor vehicle account--state appropriation is provided solely for improvement program support activities (095901X). $18,000,000 of this amount must be held in unallotted status until the office of financial management certifies that the department's 2014 financial management budget request conforms to the terms of subsection (20) of this section.

(22) Any new advisory group that the department convenes during the 2013-2015 fiscal biennium must be representative of the interests of the entire state of Washington.

(23)(a) Except as otherwise provided in this section, the entire connecting Washington account--state appropriation is provided solely for the Program I projects and activities listed in LEAP Transportation Document 2013-1, as developed June 23, 2013, and is subject to the limitations in chapter 47.56.200, Laws of 2013 2nd sp. sess. (Substitute House Bill No. 1957), Laws of 2013 2nd sp. sess.

(b) $100,000,000 of the connecting Washington account--state appropriation is provided solely for the SR 509/L5/SR 167 Freight Corridor project (M00600R). The secretary of transportation must work with the freight mobility strategic investment board to ensure that the project is a priority project within the state freight mobility plan required under the federal moving ahead for progress in the 21st century act.

(c) $200,000 of the connecting Washington account--state appropriation is provided solely for the study of the state route number 162 and state route number 410 corridors (L1100068). The study must look at state route number 162 and state route number 410 and their relationship to state route number 167, corridor improvements to accommodate planned growth, and the identification of multimodal options to alleviate congestion and transit demands in eastern Pierce county communities.

(d) $200,000 of the connecting Washington account--state appropriation is provided solely for the department to study the feasibility of added high occupancy vehicles lanes on Interstate 5 between Joint Base Lewis-McChord and South 38th Street in Tacoma (L1100069). The study must include a cost estimate and be submitted to the transportation committees of the legislature by January 2015.

(e) In the development of projects within the US 395/North Spokane corridor, the associated planning staff shall review the department's project design plans in any draft environmental impact statement for conformance with the following legislative goals regarding the final design for additional projects within such corridors:

(i) Minimization of the project impact on surrounding neighborhoods, including minimizing any increases in additional traffic volumes through such neighborhoods; and

(ii) Incorporation of the recommendations of a health impact assessment to calculate the project's impact on air quality, carbon emissions, and
other public health issues, conducted by the Spokane regional transportation council and the Spokane county public health department.

(24)(a) $26,000,000 of the connecting Washington account--state appropriation is provided solely for storm water retrofits, including enhanced treatment retrofits, to build on and expand the department's storm water program. In completing storm water retrofits, the department shall use low-impact development (LID) techniques when feasible. Advance treatment and LID storm water retrofits shall be integrated with improvement project life-cycle, ranking, and construction, where such retrofits geographically coincide with planned improvement projects. To accomplish this directive, the department must develop LID retrofit projects lists and incorporate project lists into relevant capital plans. The department must consult with the Washington state department of ecology to certify that the retrofit projects have high water quality and environmental benefits.

(b) The department, in consultation with the Washington state department of ecology, shall develop comprehensive criteria to coordinate, rate, and rank improvement projects and storm water retrofit projects. The system must be designed to provide a funding preference to LID retrofit projects that reduce water pollution from existing transportation infrastructure.

(c) The department must incorporate statewide storm water retrofit project lists into ten-year capital project plans and create a biennial project list for the design and construction of LID storm water retrofit projects. The department will coordinate the design and construction of improvement and storm water retrofit projects to ensure efficient and effective use of funds. By December 31, 2013, and biennially thereafter, the department shall provide to the legislature a storm water retrofit project list to maintain and enhance the capacity of the department's storm water program and construct LID retrofits. The department must also provide a report regarding how much funding is allocated to improvement and storm water retrofit projects, identifying the water quality and environmental benefits created from the storm water projects, and summarizing how improvement and storm water retrofit projects are coordinated and integrated.

(25) $161,000,000 of the connecting Washington account--state appropriation and $101,400,000 of the connecting Washington account--federal appropriation are provided solely for the I-5/Columbia River crossing project (M00200R). ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 1306
SUBSTITUTE HOUSE BILL NO. 1866

and the same are herewith transmitted.
Hunter G. Goodman, Secretary

There being no objection, the House reverted to the sixth order of business.

SECOND READING

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1450, by Representatives Hunt and Pollet

Regarding assessments in public schools.

The bill was read the second time.

Representative Hunt moved the adoption of amendment (573).
"NEW SECTION. Sec. 1. The legislature finds that the superintendent of public instruction was authorized to align the state essential academic learning requirements for mathematics, reading, writing, and communication with the common set of standards for students in grades kindergarten through twelve, known as the common core state standards, which were initiated by the governors and chief school officers of forty-five states, including Washington. The legislature further finds that Washington has joined one of two multistate consortia using a federal grant to develop new English language arts and mathematics assessments in grades three through eight and grade eleven that are, among other factors, aligned with the common core state standards and intended to demonstrate a student's career and college readiness. The legislature further finds that the assessments are required to be ready for use by the 2014-15 school year.

The legislature intends to reduce the overall costs of the state assessment system by implementing the eleventh grade English language arts and mathematics assessments being developed by a multistate consortium in which Washington is participating, maximize use of the consortium assessments by developing a tenth grade high school English language arts assessment and modifying the algebra I and geometry end-of-course assessment to be used only during the transition to the consortium-developed assessments, and reduce to three the number of assessments that will be required for students to graduate beginning with the class of 2019.

The legislature further intends that the eleventh grade consortium-developed assessments have two different student performance standards: One for the purposes of high school graduation that will be established by the state board of education and one that is intended to demonstrate a student's career and college readiness.

Sec. 2. RCW 28A.655.061 and 2011 1st sp.s.c 22 s 2 are each amended to read as follows:

(1) The high school assessment system shall include but need not be limited to the statewide student assessment, opportunities for a student to retake the content areas of the assessment in which the student was not successful, and, if approved by the legislature pursuant to subsection (10) of this section, one or more objective alternative assessments for a student to demonstrate achievement of state academic standards. The objective alternative assessments for each content area shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the statewide student assessment for each content area.

(2) Subject to the conditions in this section, a certificate of academic achievement shall be obtained (by most students at about the age of sixteen) and is evidence that the student has successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045 or 28A.655.061, acquisition of the certificate is required for graduation from a public high school but is not the only requirement for graduation.

(3)(a) Beginning with the graduating class of 2008 through the graduating class of 2015, with the exception of students satisfying the provisions of RCW 28A.155.045, a student who meets the state standards on the reading, writing, and mathematics (content area of the) high school statewide student assessment shall earn a certificate of academic achievement. The mathematics assessment shall be the end-of-course assessment for the first year of high school mathematics that assesses the standards common to algebra I and integrated mathematics I or the end-of-course assessment for the second year of high school mathematics that assesses standards common to geometry and integrated mathematics II.

(b) As the state transitions from reading and writing assessments to an English language arts assessment and from end-of-course assessments to a comprehensive assessment for high school mathematics, a student in a graduating class of 2016 through 2018 shall earn a certificate of academic achievement if the student meets the state standard as follows:

(i) Students in the graduating class of 2016 may use the results from:

(A) The reading and writing assessment or the English language arts assessment developed with the multistate consortium; and

(B) The end-of-course assessment for the first year of high school mathematics, the end-of-course assessment for the second year of high school mathematics, or the comprehensive mathematics assessment developed with the multistate consortium.

(ii) Students in the graduating classes of 2017 and 2018 may use the results from:

(A) The tenth grade English language arts assessment developed by the superintendent of public instruction using resources from the multistate consortium or the English language arts assessment developed with the multistate consortium; and

(B) The end-of-course assessment for the first year of high school mathematics, the end-of-course assessment for the second year of high school mathematics, or the comprehensive mathematics assessment developed with the multistate consortium.

(c) Beginning with the graduating class of 2019, a student who meets the state standards on the high school English language arts assessment developed with the multistate consortium and the comprehensive mathematics assessment developed with the multistate consortium shall earn a certificate of academic achievement.

(d) If a student does not successfully meet the state standards in one or more content areas required for the certificate of academic achievement, then the student may retake the assessment in the content area (up to four times) at least twice a year at no cost to the student. If the student successfully meets the state standards on a retake of the assessment then the student shall earn a certificate of academic achievement. Once objective alternative assessments are authorized pursuant to subsection (10) of this section, a student may use the objective alternative assessments to demonstrate that the student successfully meets the state standards for that content area if the student has taken the statewide student assessment at least once. If the student successfully meets the state standards on the objective alternative assessments then the student shall earn a certificate of academic achievement.

(4) Beginning with the graduating class of 2015, a student must meet the state standards in science in addition to the other content areas required under subsection (3) of this section on the statewide student assessment, a retake, or the objective alternative assessments in order to earn a certificate of academic achievement.

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045. 2011 1st sp.s.c 22 s 2 is each amended to read as follows:

(6) A student may retain and use the highest result from each successfully completed content area of the high school assessment.

(7) School districts must make available to students the following options:

(a) To retake the statewide student assessment (up to four times) at least twice a year in the content areas in which the student did not meet the state standards if the student is enrolled in a public school; or

(b) To retake the statewide student assessment (up to four times) at least twice a year in the content areas in which the student did not meet the state standards if the student is enrolled in a high school completion program at a community or technical college. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.
(8) Students who achieve the standard in a content area of the high school assessment but who wish to improve their results shall pay for retaking the assessment, using a uniform cost determined by the superintendent of public instruction.

(9) Opportunities to retake the assessment at least twice a year shall be available to each school district.

(10)(a) The office of the superintendent of public instruction shall develop options for implementing objective alternative assessments, which may include an appeals process for students’ scores, for students to demonstrate achievement of the state academic standards. The objective alternative assessments shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the statewide student assessment and be objective in its determination of student achievement of the state standards. Before any objective alternative assessments in addition to those authorized in RCW 28A.655.065 or (b) of this subsection are used by a student to demonstrate that the student has met the state standards in a content area required to obtain a certificate, the legislature shall formally approve the use of any objective alternative assessments through the omnibus appropriations act or by statute or concurrent resolution.

(b)(i) A student’s score on the mathematics, reading or English, or writing portion of the SAT or the ACT may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the state standards for the certificate of academic achievement. The state board of education shall identify the scores students must achieve on the relevant portion of the SAT or ACT to meet or exceed the state standard in the relevant content area on the statewide student assessment. A student’s score on the science portion of the ACT or the science subject area tests of the SAT may be used as an objective alternative assessment under this section as soon as the state board of education determines that sufficient data is available to identify reliable equivalent scores for the science content area of the statewide student assessment. After the first scores are established, the state board may increase but not decrease the scores required for students to meet or exceed the state standards.

(ii) A student who scores at least a three on the grading scale of one to five for selected AP examinations may use the score as an objective alternative assessment under this section for demonstrating that a student has met or exceeded state standards for the certificate of academic achievement. A score of three on the AP examinations in calculus or statistics may be used as an alternative assessment for the mathematics portion of the statewide student assessment. A score of three on the AP examinations in English language and composition may be used as an objective alternative assessment for the writing portion of the statewide student assessment; and for the English language arts portion of the assessment developed with the multistate consortium, once established in the 2014-15 school year. A score of three on the AP examinations in English literature and composition, or the AP examinations in history, world history, United States government and politics, or comparative government and politics may be used as an alternative assessment for the reading portion of the statewide student assessment; and for the English language arts portion of the assessment developed with the multistate consortium, once established in the 2014-15 school year. A score of three on the AP examination in biology, physics, chemistry, or environmental science may be used as an alternative assessment for the science portion of the statewide student assessment.

(iii) A student who scores at least a four on selected externally administered international baccalaureate (IB) examinations may use the score as an objective alternative assessment under this section for demonstrating that the student has met or exceeded state standards for the certificate of academic achievement. A score of four on the higher level IB examinations for any of the IB English language and literature courses or for any of the IB individuals and societies courses may be used as an alternative assessment for the reading, writing, or English language arts portions of the statewide student assessment. A score of four on the higher level IB examinations for any of the IB mathematics courses may be used as an alternative assessment for the mathematics portion of the statewide student assessment. A score of four on the higher level IB examinations for IB biology, chemistry, or physics may be used as an alternative assessment for the science portion of the statewide student assessment.

(11) ((By December 15, 2004, the house of representatives and senate education committees shall obtain information and conclusions from recognized, independent, national assessment experts regarding the validity and reliability of the high school Washington assessment of student learning for making individual student high school graduation determinations.

(12)) For help assure continued progress in academic achievement as a foundation for high school graduation and to assure that students are on track for high school graduation, each school district shall prepare plans for and notify students and their parents or legal guardians as provided in this subsection. Student learning plans are required for eighth grade students who were not successful on any or all of the content areas of the state assessment during the previous school year or who may not be on track to graduate due to credit deficiencies or absences. The parent or legal guardian shall be notified about the information in the student learning plan, preferably through a parent conference and at least annually. To the extent feasible, schools serving English language learner students and their parents shall translate the plan into the primary language of the family. The plan shall include the following information as applicable:

(a) The student’s results on the state assessment;
(b) If the student is in the transitional bilingual program, the score on his or her Washington language proficiency test II;
(c) Any credit deficiencies;
(d) The student’s attendance rates over the previous two years;
(e) The student’s progress toward meeting state and local graduation requirements;
(f) The courses, competencies, and other steps needed to be taken by the student to meet state academic standards and stay on track for graduation;
(g) Remediation strategies and alternative education options available to students, including informing students of the option to continue to receive instructional services after grade twelve or until the age of twenty-one;
(h) The alternative assessment options available to students under this section and RCW 28A.655.065;
(i) School district programs, high school courses, and career and technical education options available for students to meet graduation requirements; and
(j) Available programs offered through skill centers or community and technical colleges, including the college high school diploma options under RCW 28B.50.535.

Sec. 3. RCW 28A.655.066 and 2011 c 25 s 2 are each amended to read as follows:

(1)(a) In consultation with the state board of education, the superintendent of public instruction shall develop statewide end-of-course assessments for high school mathematics that measure student achievement of the state mathematics standards. The superintendent shall take steps to ensure that the language of the assessments is responsive to a diverse student population. The assessments shall be implemented statewide in the 2010-11 school year.

(b) The superintendent shall develop end-of-course assessments for the first year of high school mathematics that include the standards common to algebra I and integrated mathematics I and for the second year of high school mathematics that include the standards common to geometry and integrated mathematics II. The assessments under this subsection (1)(b) shall be used to demonstrate that a student meets the state standard on the mathematics content area of the high
school (Washington) statewide student assessment (of student learning) for purposes of RCW 28A.655.061.

(c) The superintendent of public instruction shall also develop subtests for the end-of-course assessments that measure standards for the first two years of high school mathematics that are unique to algebra I, integrated mathematics I, geometry, and integrated mathematics II. The results of the subtests shall be reported at the student, teacher, school, and district level.

(2) (For the graduating classes of 2013 and 2014 and for purposes of the certificate of academic achievement under RCW 28A.655.061, a student may use: (a) Results from the end-of-course assessment for the first year of high school mathematics or the results from the end-of-course assessment for the second year of high school mathematics; or (b) results from a high school mathematics retake assessment.

(3) Beginning with the graduating class of 2015 and for purposes of the certificate of academic achievement under RCW 28A.655.061, the mathematics content area of the Washington assessment of student learning shall be assessed using the end-of-course assessment for the first year of high school mathematics plus the end-of-course assessment for the second year of high school mathematics, or results from a high school mathematics retake assessment in which the student did not meet the standard.

(4) All of the objective alternative assessments available to students under RCW 28A.655.061 and 28A.655.065 shall be available to any student who has taken (the sequence of) an end-of-course assessment(s) once but does not meet the state mathematics standard on (the sequence of) an end-of-course assessment(s).

(5) The superintendent of public instruction shall report at least annually or more often if necessary to keep the education committees of the legislature informed on each step of the development and implementation process under this section.

Sec. 4. RCW 28A.655.068 and 2011 1st sp.s. c 22 s 3 are each amended to read as follows:

(1) Beginning in the 2011-12 school year, the statewide high school assessment in science shall be an end-of-course assessment for biology that measures the state standards for life sciences, in addition to systems, inquiry, and application as they pertain to life sciences.

(2)(a) The superintendent of public instruction may develop or adopt science end-of-course assessments (including) or a comprehensive science assessment that includes subjects in addition to biology for purposes of RCW 28A.655.061, when so directed by the legislature. The legislature intends to transition from a biology end-of-course assessment to a more comprehensive science assessment in a manner consistent with the way in which the state transitioned to an English language arts assessment and a comprehensive mathematics assessment. The legislature further intends that the transition will include at least two years of using the student assessment results from either the biology end-of-course assessment or the more comprehensive assessment in order to provide students with reasonable opportunities to demonstrate high school competencies while being mindful of the increasing rigor of the new assessment.

(b) The superintendent of public instruction shall develop or adopt a science assessment in accordance with RCW 28A.655.070(10) that is not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

(c) Before the next subsequent school year after the legislature directs the superintendent to develop or adopt a new science assessment, the superintendent of public instruction shall review the objective alternative assessments for the science assessment and make recommendations to the legislature regarding additional objective alternatives, if any.

(3) The superintendent of public instruction may participate with consortia of multiple states as common student learning standards and assessments in science are developed. The superintendent of public instruction, in consultation with the state board of education, may modify the essential academic learning requirements and statewide student assessments in science, including the high school assessment, according to the multistate common student learning standards and assessments as long as the education committees of the legislature have opportunities for review before the modifications are adopted, as provided under RCW 28A.655.070.

(4) The statewide high school assessment under this section shall be used to demonstrate that a student meets the state standards in the science content area of the statewide student assessment for purposes of RCW 28A.655.061.

Sec. 5. RCW 28A.655.070 and 2008 c 163 s 2 are each amended to read as follows:

(1) The superintendent of public instruction shall develop essential academic learning requirements that identify the knowledge and skills all public school students need to know and be able to do based on the student learning goals in RCW 28A.150.210, develop student assessments, and implement the accountability recommendations and requests regarding assistance, rewards, and recognition of the state board of education.

(2) The superintendent of public instruction shall:

(a) Periodically revise the essential academic learning requirements, as needed, based on the student learning goals in RCW 28A.150.210. Goals one and two shall be considered primary. To the maximum extent possible, the superintendent shall integrate goal four and the knowledge and skill areas in the other goals in the essential academic learning requirements; and

(b) Review and prioritize the essential academic learning requirements and identify, with clear and concise descriptions, the grade level content expectations to be assessed on the Washington statewide student assessment (of student learning) and used for state or federal accountability purposes. The review, prioritization, and identification shall result in more focus and targeting with an emphasis on depth over breadth in the number of grade level content expectations assessed at each grade level. Grade level content expectations shall be articulated over the grades as a sequence of expectations and performances that are logical, build with increasing depth after foundational knowledge and skills are acquired, and reflect, where appropriate, the sequential nature of the discipline. The office of the superintendent of public instruction, within seven working days, shall post on its web site any grade level content expectations provided to an assessment vendor for use in constructing the Washington statewide student assessment (of student learning).

(3)(a) In consultation with the state board of education, the superintendent of public instruction shall maintain and continue to develop and revise a statewide academic assessment system in the content areas of reading, writing, mathematics, and science for use in the elementary, middle, and high school years designed to determine if each student has mastered the essential academic learning requirements identified in subsection (1) of this section. School districts shall administer the assessments under guidelines adopted by the superintendent of public instruction. The academic assessment system may include a variety of assessment methods, including criterion-referenced and performance-based measures.

(b) Effective with the 2009 administration of the Washington assessment of student learning and continuing with the statewide student assessment, the superintendent shall redesign the assessment in the content areas of reading, mathematics, and science in all grades except high school by shortening test administration and reducing the number of short answer and extended response questions.

(c) By the 2014-15 school year, the superintendent of public instruction, in consultation with the state board of education, shall modify the statewide student assessment system to transition to assessments developed with a multistate consortium, as provided in this subsection:
(i) The assessments developed with a multistate consortium to assess student proficiency in English language arts and mathematics shall be administered beginning in the 2014-15 school year. The reading and writing assessments shall not be administered by the superintendent of public instruction or schools after the 2013-14 school year.

(ii) The high school assessments in English language arts and mathematics in (c)(i) of this subsection shall be used for the purposes of earning a certificate of academic achievement for high school graduation under the timeline established in RCW 28A.655.061 and for assessing student career and college readiness.

(iii) During the transition period specified in RCW 28A.655.061, the superintendent of public instruction shall use test items and other resources from the consortium assessment to develop and administer a tenth grade high school English language arts assessment, an end-of-course mathematics assessment to assess the standards common to algebra I and integrated mathematics I, and an end-of-course mathematics assessment to assess the standards common to geometry and integrated mathematics II.

(4) If the superintendent proposes any modification to the essential academic learning requirements or the statewide assessments, then the superintendent shall, upon request, provide opportunities for the education committees of the house of representatives and the senate to review the assessments and proposed modifications to the essential academic learning requirements before the modifications are adopted.

5) The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not mastered the essential academic learning requirements at the appropriate periods in the student's educational development.

(6) By September 2007, the results for reading and mathematics shall be reported in a format that will allow parents and teachers to determine the academic gain a student has acquired in those content areas from one school year to the next.

(7) To assist parents and teachers in their efforts to provide educational support to individual students, the superintendent of public instruction shall provide as much individual student performance information as possible within the constraints of the assessment system's item bank. The superintendent shall also provide the school districts:

(a) Information on classroom-based and other assessments that may provide additional achievement information for individual students; and

(b) A collection of diagnostic tools that educators may use to evaluate the academic status of individual students. The tools shall be designed to be inexpensive, easily administered, and quickly and easily scored, with results provided in a format that may be easily shared with parents and students.

(8) To the maximum extent possible, the superintendent shall integrate knowledge and skill areas in development of the assessments.

9) Assessments for goals three and four of RCW 28A.150.210 shall be integrated in the essential academic learning requirements and assessments for goals one and two.

(10) The superintendent shall develop assessments that are directly related to the essential academic learning requirements, and are not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

(11) The superintendent shall consider methods to address the unique needs of special education students when developing the assessments under this section.

(12) The superintendent shall consider methods to address the unique needs of highly capable students when developing the assessments under this section.

(13) The superintendent shall post on the superintendent's web site lists of resources and model assessments in social studies, the arts, and health and fitness.

NEW SECTION. Sec. 6. By December 1, 2013, the superintendent of public instruction shall report to the education committees of the house of representatives and the senate on the process that was used by the superintendent, the multistate consortium in which Washington is participating, and by other states, to prevent bias in the state assessments and assure fairness to students who take the assessments.

Sec. 7. RCW 28A.305.130 and 2011 1st sp.s.c 6 1 s are each amended to read as follows:

The purpose of the state board of education is to provide advocacy and strategic oversight of public education; implement a standards-based accountability framework that creates a unified system of increasing levels of support for schools in order to improve student academic achievement; provide leadership in the creation of a system that personalizes education for each student and respects diverse cultures, abilities, and learning styles; and promote achievement of the goals of RCW 28A.150.210. In addition to any other powers and duties as provided by law, the state board of education shall:

1) Hold regularly scheduled meetings at such time and place within the state as the board shall determine and may hold such special meetings as may be deemed necessary for the transaction of public business;

2) Form committees as necessary to effectively and efficiently conduct the work of the board;

3) Seek advice from the public and interested parties regarding the work of the board;

4) For purposes of statewide accountability:

(a) Adopt and revise performance improvement goals in reading, writing, science, and mathematics, by subject and grade level, once assessments in these subjects are required statewide; academic and technical skills, as appropriate, in secondary career and technical education programs; and student attendance, as the board deems appropriate to improve student learning. The goals shall be consistent with student privacy protection provisions of RCW 28A.655.090(7) and shall not conflict with requirements contained in Title I of the federal elementary and secondary education act of 1965, or the requirements of the Carl D. Perkins vocational education act of 1998, as amended. The goals may be established for all students, economically disadvantaged students, limited English proficient students, students with disabilities, and students from disproportionately academically underachieving racial and ethnic backgrounds. The board may establish school and school district goals addressing high school graduation rates and dropout reduction goals for students in grades seven through twelve. The board shall adopt the goals by rule. However, before each goal is implemented, the board shall present the goal to the education committees of the house of representatives and the senate for the committees' review and comment in a time frame that will permit the legislature to take statutory action on the goal if such action is deemed warranted by the legislature;

(b)(i) Identify the scores students must achieve in order to meet the standard on the statewide student assessment and, for high school students, to obtain a certificate of academic achievement. The board shall also determine student scores that identify levels of student performance below and beyond the standard. The board shall consider the incorporation of the standard error of measurement into the decision regarding the award of the certificates. The board shall set such performance standards and levels in consultation with the superintendent of public instruction and after consideration of any recommendations that may be developed by any advisory committees that may be established for this purpose.
standards for the high school statewide student assessment. Any

assessments, and review the scores in other states that require passage

multistate consortium.  To determine the appropriate score, the state board

developed with a multistate consortium in accordance with RCW

students must achieve to meet the standard and earn a certificate of

academic achievement on the high school English language arts

assessment and the comprehensive mathematics assessment
developed with a multistate consortium in accordance with RCW

28A.655.070. To determine the appropriate score, the state board

shall review the transition experience of Washington students to the

consortium-developed assessments, examine the student scores used

in other states that are administering the consortium-developed

assessments, and review the scores in other states that require passage

of an eleventh grade assessment as a high school graduation

requirement. The scores established by the state board of education

for the purposes of earning a certificate of academic achievement and

graduation from high school may be different from the scores used for

the purpose of determining a student's career and college readiness.

The legislature shall be advised of the initial performance

standards for the high school statewide student assessment. Any

changes recommended by the board in the performance standards for

the high school assessment shall be presented to the education

committees of the house of representatives and the senate by

November 30th of the school year in which the changes will take

place to permit the legislature to take statutory action before the

changes are implemented if such action is deemed warranted by the

legislature. The legislature shall be advised of the initial performance

standards and any changes made to the elementary level performance

standards and the middle school level performance standards. The

board must provide an explanation of and rationale for all initial

performance standards and any changes, for all grade levels of the

statewide student assessment. If the board changes the performance

standards for any grade level or subject, the superintendent of public

instruction must recalculate the results from the previous ten years of

administering that assessment regarding students below, meeting, and

beyond the state standard, to the extent that this data is available, and

post a comparison of the original and recalculated results on the

superintendent's web site;

(c) Annually review the assessment reporting system to ensure

fairness, accuracy, timeliness, and equity of opportunity, especially

with regard to schools with special circumstances and unique

populations of students, and a recommendation to the superintendent

of public instruction to improve the fairness, accuracy, timeliness,

and equity of opportunity, especially with regard to schools with

special circumstances and unique populations of students; and

(d) Include in the biennial report required under RCW

28A.305.035, information on the progress that has been made in

achieving goals adopted by the board;

(5) Accredit, subject to such accreditation standards and

procedures as may be established by the state board of education, all

private schools that apply for accreditation, and approve, subject to

the provisions of RCW 28A.195.010, private schools carrying out a

program for any or all of the grades kindergarten through twelve.

However, no private school may be approved that operates a

kindergarten program only and no private school shall be placed upon

the list of accredited schools so long as secret societies are knowingly

allowed to exist among its students by school officials;

(6) Articulate with the institutions of higher education, workforce

representatives, and early learning policymakers and providers to

coordinate and unify the work of the public school system;

(7) Hire an executive director and an administrative assistant to

reside in the office of the superintendent of public instruction for

administrative purposes. Any other personnel of the board shall be

appointed as provided by RCW 28A.300.020. The board may
delegate to the executive director by resolution such duties as deemed
necessary to efficiently carry on the business of the board including,
but not limited to, the authority to employ necessary personnel and
the authority to enter into, amend, and terminate contracts on behalf
of the board. The executive director, administrative assistant, and all
but one of the other personnel of the board are exempt from civil
service, together with other staff as now or hereafter designated as
exempt in accordance with chapter 41.06 RCW; and

(8) Adopt a seal that shall be kept in the office of the

superintendent of public instruction.

NEW SECTION. Sec. 8. A new section is added to chapter

28A.320 RCW to read as follows:

(1) At the beginning of each school year, school districts must

notify parents and guardians of enrolled students from eighth through

twelfth grade about each student assessment required by the state, the

minimum state-level graduation requirements, and any additional

school district graduation requirements. The information may be

provided when the student is enrolled, contained in the student or

parent handbook, or posted on the school district's web site. The

notice must include the following:

(a) When each assessment will be administered;

(b) Which assessments will be required for graduation and what

options students have to meet graduation requirements if they do not

pass a given assessment;

(c) Whether the results of the assessment will be used for

program placement or grade-level advancement;

(d) When the assessment results will be released to parents or

guardians and whether there will be an opportunity for parents and

teachers to discuss strategic adjustments; and

(e) Whether the assessment is required by the school district,

state, federal government, or more than one of these entities.

(2) The office of the superintendent of public instruction shall

provide information to the school districts to enable the districts to

provide the information to the parents and guardians in accordance

with subsection (1) of this section.

Sec. 9. RCW 28A.655.185 and 2005 c 495 s 1 are each amended

to read as follows:

(1) It is the intent of the legislature, through the creation of the

apple award, to honor and reward students in Washington's public

elementary schools who have shown significant improvement in their

school's results on the ((Washington)) statewide student assessment

(of student learning).

(2) The apple award program is created to honor and reward

public elementary schools that have the greatest combined average

increase in the percentage of students meeting the fourth grade

reading, mathematics, and writing standards. The program shall be

administered by the ((state board of education)) superintendent of public instruction.

(3) Within the amounts appropriated for this purpose, each school

that receives an apple award shall be provided with a twenty-five

thousand dollar grant to be used for capital construction purposes that

have been selected by students in the school and approved by the

district's school directors. The funds may be used exclusively for

capital construction projects on school property or on other public

Sec. 2. RCW 9.94A.729 and 2011 1st sp.s, c 40 s 4 are each amended to read as follows:

(1)(a) The term of the sentence of an offender committed to a correctional facility operated by the department may be reduced by earned release time in accordance with procedures that shall be developed and adopted by the correctional agency having jurisdiction in which the offender is confined. The earned release time shall be for good behavior and good performance, as determined by the correctional agency having jurisdiction. The correctional agency shall not credit the offender with earned release credits in advance of the offender actually earning the credits.

(b) Any program established pursuant to this section shall allow an offender to earn early release credits for presentence incarceration. If an offender is transferred from a county jail to the department, the administrator of a county jail facility shall certify to the department the amount of time spent in custody at the facility and the (amount) number of days of (earned) early release ((time)) credits lost or not earned. The department may approve a jail certification from a correctional agency that calculates ((earned)) early release time based on the actual amount of confinement time served by the offender before sentencing when an erroneous calculation of confinement time served by the offender before sentencing appears on the judgment and sentence. The department must adjust an offender's rate of early release listed on the jail certification to be consistent with the rate applicable to offenders in the department's facilities. However, the department is not authorized to adjust the number of presentence early release days that the jail has certified as lost or not earned.

(2) An offender who has been convicted of a felony committed after July 23, 1995, that involves any applicable deadly weapon enhancements under RCW 9.94A.533 (3) or (4), or both, shall not receive any good time credits or earned release time for that portion of his or her sentence that results from any deadly weapon enhancements.

(3) An offender may earn early release time as follows:

(a) In the case of an offender convicted of a serious violent offense, or a sex offense that is a class A felony, committed on or after July 1, 1990, and before July 1, 2003, the aggregate earned release time may not exceed fifteen percent of the sentence.

(b) In the case of an offender convicted of a serious violent offense, or a sex offense that is a class A felony, committed on or after July 1, 2003, the aggregate earned release time may not exceed ten percent of the sentence.

(c) An offender is qualified to earn up to fifty percent of aggregate earned release time if he or she:

(i) Is not classified as an offender who is at a high risk to reoffend as provided in subsection (4) of this section;

(ii) Is not confined pursuant to a sentence for:

(A) A sex offense;

(B) A violent offense;

(C) A crime against persons as defined in RCW 9.94A.411;

(D) A felony that is domestic violence as defined in RCW 10.99.020;

(E) A violation of RCW 9A.52.025 (residential burglary);

(F) A violation of, or an attempt, solicitation, or conspiracy to violate, RCW 69.50.401 by manufacture or delivery or possession with intent to deliver methamphetamine; or

(G) A violation of, or an attempt, solicitation, or conspiracy to violate, RCW 69.50.406 (delivery of a controlled substance to a minor);

(iii) Has no prior conviction for the offenses listed in (c)(ii) of this subsection;

(iv) Participates in programming or activities as directed by the offender's individual reentry plan as provided under RCW 72.09.270 to the extent that such programming or activities are made available by the department; and

(v) Has not committed a new felony after July 22, 2007, while under community custody.

(d) In no other case shall the aggregate earned release time exceed one-third of the total sentence.

(4) The department shall perform a risk assessment of each offender who may qualify for earned early release under subsection (3)(c) of this section utilizing the risk assessment tool recommended by the Washington state institute for public policy. Subsection (3)(c) of this section does not apply to offenders convicted after July 1, 2010.

(5)(a) A person who is eligible for earned early release as provided in this section and who will be supervised by the department pursuant to RCW 9.94A.501 or 9.94A.501, shall be transferred to community custody in lieu of earned release time;

(b) The department shall, as a part of its program for release to the community in lieu of earned release, require the offender to propose a release plan that includes an approved residence and living arrangement. All offenders with community custody terms eligible
for release to community custody in lieu of earned release shall provide an approved residence and living arrangement prior to release to the community;

(c) The department may deny transfer to community custody in lieu of earned release time if the department determines an offender's release plan, including proposed residence location and living arrangements, may violate the conditions of the sentence or conditions of supervision, place the offender at risk to violate the conditions of the sentence, place the offender at risk to reoffend, or present a risk to victim safety or community safety. The department's authority under this section is independent of any court-ordered condition of sentence or statutory provision regarding conditions for community custody;

(d) If the department is unable to approve the offender's release plan, the department may do one or more of the following:

(i) Transfer an offender to partial confinement in lieu of earned early release for a period not to exceed three months. The three months in partial confinement is in addition to that portion of the offender's term of confinement that may be served in partial confinement as provided in RCW 9.94A.726(5);

The earned release date shall be recalculated whether the offender is currently incarcerated or is sentenced after the effective date of this section, and regardless of the offender's date of offense. For offenders whose offense was committed prior to the effective date of this section, the recalculation shall not extend a term of incarceration beyond that to which an offender is currently subject.

NEW SECTION. Sec. 5. The legislature declares that section 4 of this act does not create any liberty interest. The department is authorized to take the time reasonably necessary to complete the recalculations of section 4 of this act after the effective date of this section.

NEW SECTION. Sec. 6. Section 1 of this act applies to sentences imposed on or after July 1, 2013, regardless of the date of offense.

NEW SECTION. Sec. 7. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

POINT OF PARLIAMENTARY INQUIRY

Representative Stonier: “Apart from my duties as a legislator, I am a certificated educational instructor employed by the Evergreen School District. House Bill 2043 affects compensation for educational staff, including certificated K-12 instructors. Do I have a private interest in the proposed legislation which requires my recusal from voting?”

SPEAKER’S RULING

Mr. Speaker: “Thank you Representative Stonier for bringing this question to the body. House Rule 19 (D), which is based on article 2, section 30 of our state constitution, states that “no member shall vote on any question which affects that member privately or particularly.” The Washington Legislature is, by constitutional design, a citizen legislature.

The design is based on the premise that the people of our state are best represented by legislators who are currently engaged in outside employment and activities, and can bring real-world experience and expertise to bear on the issues before this body.

The question as to whether outside employment and activities require recusal from voting turns on whether a legislator is affected privately or particularly, or as a member of a class.

House Bill 2043 temporarily suspends the state’s obligation to provide cost of living increases to K-12 and higher education staff as required by Initiative 732. According to the Office of Superintendent of Public Instruction, there are more than 60,000 certified K-12 instructional staff in Washington. Representative Stonier, given the size of the class of persons affected, the Speaker finds that the interest you have is neither private nor particular, and does not warrant your recusal under House Rules of the State Constitution.”

POINT OF PARLIAMENTARY INQUIRY

Representative Bergquist: “Apart from my duties as a legislator, I am a certificated teacher employed by the Renton School District. House Bill 2043 affects compensation for educational staff, including certificated K-12 instructors. Do I have a private interest in the proposed legislation which requires my recusal from voting?”

SPEAKER’S RULING

Mr. Speaker: “Thank you Representative Bergquist for bringing this question to the body. The Speaker finds that the interest you have is neither private nor particular, and does not warrant your recusal under House Rules or the State Constitution, for the same reasons as expressed in response to the question posed by Representative Stonier.”

The Speaker (Representative Moeller presiding) stated the question before the House to be the final passage of House Bill No. 2043.

or the principal’s designee to discuss appropriate grade placement and recommended intensive strategies to improve the student’s reading skills. For students to be placed in fourth grade, the strategies discussed must include an intensive improvement strategy provided, supported, or contracted by the school district that includes a summer program or other option identified by the parents, teacher, principal, or principal’s designee as appropriately meeting the student’s need to prepare for fourth grade. The parents or guardians must be fully informed about the strategies and the parent’s or guardian’s consent must be obtained regarding the appropriate grade placement and the intensive improvement strategy to be implemented. The school district must implement the strategy selected in consultation with the student’s parents or guardians.

(4) School districts may use an alternative practice or strategy that is not on a state menu developed under subsection (3) of this section for two school years initially. If the district is able to demonstrate improved outcomes for participating students over the previous two school years at a level commensurate with the best practices and strategies on the state menu, the office of the superintendent of public instruction must approve use of the alternative practice or strategy by the district for one additional school year. Subsequent annual approval by the superintendent of public instruction to use the alternative practice or strategy is dependent on the district continuing to demonstrate an increase in improved outcomes for participating students.

Except in emergency circumstances, the teacher first must attempt one or more alternative forms of corrective action. In no event without the consent of the teacher may an excluded student return to the class during the balance of that class or activity period or up to the following two days, or until the principal or his or her designee and the teacher have conferred.

(3) In order to preserve a beneficial learning environment for all students and to maintain good order and discipline in each classroom, every school district board of directors shall provide that written procedures are developed for administering discipline at each school within the district. Such procedures shall be developed with the participation of parents and the community, and shall provide that the teacher, principal or designee, and other authorities designated by the board of directors, make every reasonable attempt to involve the parent or guardian and the student in the resolution of student discipline problems. Such procedures shall provide that students may be excluded from their individual classes or activities for periods of time in excess of that provided in subsection (2) of this section if such students have repeatedly disrupted the learning of other students. The procedures must be consistent with the rules of the superintendent of public instruction and must provide for early involvement of parents in attempts to improve the student's behavior.

(4) The procedures shall assure, pursuant to RCW 28A.400.110, that all staff work cooperatively toward consistent enforcement of proper student behavior throughout each school as well as within each classroom.

(5)(a) A principal shall consider imposing long-term suspension or expulsion as a sanction when deciding the appropriate disciplinary action for a student who, after July 27, 1997:

((ii)) (i) Engages in two or more violations within a three-year period of RCW 9A.46.120, 28A.320.135, 28A.600.455, 28A.600.460, 28A.635.020, 28A.600.020, 28A.635.060, 9.41.280, or 28A.320.140; or

((iii)) (ii) Engages in one or more of the offenses listed in RCW 13.04.155.

(b) The principal shall communicate the disciplinary action taken by the principal to the school personnel who referred the student to the principal for disciplinary action.

(6) Any corrective action involving a suspension or expulsion from school for more than ten days must have an end date of not more than one calendar year from the time of corrective action. Districts shall make reasonable efforts to assist students and parents in returning to an educational setting prior to and no later than the end date of the corrective action. Where warranted based on public health or safety, a school may petition the superintendent of the school district, pursuant to policies and procedures adopted by the office of the superintendent of public instruction, for authorization to exceed the one calendar year limitation in this subsection. The superintendent of public instruction shall adopt rules outlining the limited circumstances in which a school may petition to exceed the one calendar year limitation, including safeguards to ensure that the school district has made every effort to plan for the student's return to school. School districts shall report to the office of the superintendent of public instruction the number of petitions made to the school board and the number of petitions granted on an annual basis.

Sec. 304. RCW 28A.600.410 and 1992 c 155 s 1 are each amended to read as follows:

The state of Washington excludes tens of thousands of students from school each year due to out-of-school suspensions and expulsions. Out-of-school suspensions and expulsions contribute to poor
academic achievement, lower graduation rates, and higher dropout rates. It is the intent of the legislature to minimize the use of out-of-school suspension and expulsion and its impact on student achievement by reducing the number of days that students are excluded from school due to disciplinary action. Student behavior should not result in the loss of educational opportunity in the public school system.

School districts are encouraged to find alternatives to suspension including reducing the length of a student's suspension conditioned by the commencement of counseling or other treatment services. Consistent with current law, the conditioning of a student's suspension does not obligate the school district to pay for the counseling or other treatment services except for those stipulated and agreed to by the district at the inception of the suspension.

Sec. 305. RCW 28A.600.460 and 1997 c 266 s 9 are each amended to read as follows:

(1) School district boards of directors shall adopt policies that restore discipline to the classroom. Such policies must provide for at least the following: Allowing each teacher to take disciplinary action to correct a student who disrupts normal classroom activities, abuses or insults a teacher as prohibited by RCW 28A.635.010, willfully disobeys a teacher, uses abusive or foul language directed at a school district employee, school volunteer, or another student, violates school rules, or who interferes with an orderly education process. Disciplinary action may include but is not limited to: Oral or written reprimands; written notification to parents of disruptive behavior, a copy of which must be provided to the principal.

(2) A student committing an offense under chapter 9A.36, 9A.40, 9A.46, or 9A.48 RCW when the activity is directed toward the teacher, shall not be assigned to that teacher's classroom for the duration of the student's attendance at that school or any other school where the teacher is assigned.

(3) A student who commits an offense under chapter 9A.36, 9A.40, 9A.46, or 9A.48 RCW, when directed toward another student, may be removed from the classroom of the victim for the duration of the student's attendance at that school or any other school where the victim is enrolled. A student who commits an offense under one of the chapters enumerated in this section against a student or another school employee, may be expelled or suspended.

(4) Nothing in this section is intended to limit the authority of a school under existing law and rules to expel or suspend a student for misconduct or criminal behavior.

(5) All school districts must collect data on disciplinary actions taken in each school and must record these actions using the statewide student data system, based on the data collection standards established by the office of the superintendent of public instruction and the K-12 data governance group. The information shall be made available to the public upon request. This collection of data shall not include personally identifiable information, including, but not limited to, a student's social security number, name, or address.

Sec. 306. RCW 28A.300.046 and 2011 c 288 s 10 are each amended to read as follows:

(1)(a) The superintendent of public instruction shall adopt rules establishing a standard definition of student absence from school. In adopting the definition, the superintendent shall review current practices in Washington school districts, definitions used in other states, and any national standards or definitions used by the national center for education statistics or other national groups. The superintendent shall also consult with the building bridges work group established under RCW 28A.175.075.

(b) Using the definition of student absence adopted under this section, the superintendent shall establish an indicator for measuring student attendance in high schools for purposes of the PASS program under RCW 28A.175.130.

(2)(a) The K-12 data governance group under RCW 28A.300.507 shall establish the parameters and an implementation schedule for statewide collection through the comprehensive education and data research system of: (i) Student attendance data using the definitions of student absence adopted under this section; and (ii) student discipline data with a focus on suspensions and expulsions from school.

(b) Student suspension and expulsion data collected for the purposes of this subsection (2) must be:
   (i) Made publicly available and easily accessible on the superintendent of public instruction's web site; and
   (ii) Disaggregated and cross-tabulated as established under RCW 28A.300.042.

(c) School districts must collect and submit student attendance data and student discipline data for high school students through the comprehensive education and data research system for purposes of the PASS program under RCW 28A.175.130 beginning in the 2012-13 school year.

Sec. 307. RCW 28A.300.042 and 2009 c 468 s 4 are each amended to read as follows:

(1) All student data-related reports required of the superintendent of public instruction in this title must be disaggregated by at least the following subgroups of students: White, Black, Hispanic, American Indian/Alaskan Native, Asian, Pacific Islander/Hawaiian Native, low income, transitional bilingual, migrant, special education, and students covered by section 504 of the federal rehabilitation act of 1973, as amended (29 U.S.C. Sec. 794).

(2) All student data-related reports required of the superintendent of public instruction regarding student suspensions and expulsions as required in RCW 28A.300.046 are subject to disaggregation by subgroups including:
   (a) Gender;
   (b) Foster care;
   (c) Homeless, if known;
   (d) School district;
   (e) School;
   (f) Grade level;
   (g) Behavior infraction code, including:
      (i) Bullying;
      (ii) Tobacco;
      (iii) Alcohol;
      (iv) Illicit drug;
      (v) Fighting without major injury;
      (vi) Violence without major injury;
      (vii) Violence with major injury;
      (viii) Possession of a weapon;
      (ix) Other behavior resulting from a short-term or long-term suspension, expulsion, or interim alternative education setting.
   (h) Intervention applied, including:
      (i) Short-term suspension;
      (ii) Long-term suspension;
      (iii) Emergency expulsion;
      (iv) Expulsion;
      (v) Interim alternative education settings;
      (vi) No intervention applied; and
   (vii) Other intervention applied that is not described in this subsection (2)(h);
      (i) Number of days a student is suspended or expelled, to be counted in half or full days; and
      (j) Any other categories added at a future date by the data governance group.

(3) All student data-related reports required of the superintendent of public instruction regarding student suspensions and expulsions as required in RCW 28A.300.046 are subject to cross-tabulation at a minimum by the following:
EDUCATOR SUPPORT PROGRAM

NEW SECTION. Sec. 308. A new section is added to chapter 28A.600 RCW to read as follows:

(1) School districts should make efforts to have suspended or expelled students return to an educational setting as soon as possible. School districts should convene a meeting with the student and the student's parents or guardians within twenty days of the student's long-term suspension or expulsion, but no later than five days before the student's enrollment, to discuss a plan to reengage the student in a school program.

(2) In developing a reengagement plan, school districts should consider shortening the length of time that the student is suspended or expelled, other forms of corrective action, and supportive interventions that aid in the student's academic success and keep the student engaged and on track to graduate. School districts must create a reengagement plan tailored to the student's individual circumstances, including consideration of the incident that led to the student's long-term suspension or expulsion. The plan should aid the student in taking the necessary steps to remedy the situation that led to the student's suspension or expulsion.

(3) Any reengagement meetings conducted by the school district involving the suspended or expelled student and his or her parents or guardians are not intended to replace a petition for readmission.

NEW SECTION. Sec. 309. Nothing in chapter . . ., Laws of 2013 2nd sp. sess. (this act) prevents a public school district, law enforcement agencies, or law enforcement personnel from enforcing laws protecting health and human safety.

PART IV

EDUCATOR SUPPORT PROGRAM

NEW SECTION. Sec. 401. A new section is added to chapter 28A.415 RCW to read as follows:

(1) The educator support program is established to provide professional development and mentor support for beginning educators and educators on probation under RCW 28A.405.100, to be composed of the beginning educator support team for beginning educators and continuous improvement coaching for educators on probation, as provided in this section.

(2) (a) Subject to funds appropriated for this specific purpose, the office of the superintendent of public instruction shall allocate funds for the beginning educator support team on a competitive basis to individual school districts or consortia of districts. School districts are encouraged to include educational service districts in creating regional consortia. In allocating funds, the office of the superintendent of public instruction shall give priority to school districts with low-performing schools identified under RCW 28A.657.020 as being challenged schools in need of improvement. A portion of the appropriated funds may be used for program coordination and provision of statewide or regional professional development through the office of the superintendent of public instruction.

(b) A beginning educator support team must include the following components:

(i) A paid orientation or individualized assistance before the start of the school year for beginning educators;

(ii) Assignment of a trained and qualified mentor for the first three years for beginning educators, with intensive support in the first year and decreasing support over the following years depending on the needs of the beginning educator;

(iii) Professional development for beginning educators that is designed to meet their unique needs for supplemental training and skill development;

(iv) Professional development for mentors;

(v) Release time for mentors and their designated educators to work together, as well as time for educators to observe accomplished peers; and

(vi) A program evaluation using a standard evaluation tool provided from the office of the superintendent of public instruction that measures increased knowledge, skills, and positive impact on student learning for program participants.

(3) Subject to funds separately appropriated for this specific purpose, the beginning educator support team components under subsection (2) of this section may be provided for continuous improvement coaching to support educators on probation under RCW 28A.405.100.

Sec. 402. RCW 28A.415.010 and 2006 c 263 s 807 are each amended to read as follows:

It shall be the responsibility of each educational service district board to establish a center for the improvement of teaching. The center shall administer, coordinate, and act as fiscal agent for such programs related to the recruitment and training of certificated and classified K-12 education personnel as may be delegated to the center by the superintendent of public instruction under RCW 28A.310.470. To assist in these activities, each educational service district board shall establish an improvement of teaching coordinating council to include, at a minimum, representatives as specified in RCW 28A.415.040. An existing in-service training task force, established pursuant to RCW 28A.415.040, may serve as the improvement of teaching coordinating council. The educational service district board shall ensure coordination of programs established pursuant to RCW 28A.415.030, 28A.410.060, and ((28A.415.250)) section 401 of this act.

The educational service district board may arrange each year for the holding of one or more teachers' institutes and/or workshops for professional staff preparation and in-service training in such manner and at such time as the board believes will be of benefit to the teachers and other professional staff of school districts within the educational service district and shall comply with rules of the professional educator standards board pursuant to RCW 28A.410.060 or the superintendent of public instruction (pursuant to RCW 28A.415.250)). The board may provide such additional means of teacher and other professional staff preparation and in-service training as it may deem necessary or appropriate and there shall be a proper charge against the educational service district general expense fund when approved by the educational service district board.

Educational service district boards of contiguous educational service districts, by mutual arrangements, may hold joint institutes and/or workshops, the expenses to be shared in proportion to the numbers of certificated personnel as shown by the last annual reports of the educational service districts holding such joint institutes or workshops.

In local school districts employing more than one hundred teachers and other professional staff, the school district superintendent may hold a teachers' institute of one or more days in such district, said institute when so held by the school district superintendent to be in all respects governed by the provisions of this title and rules relating to teachers' institutes held by educational service district superintendents.
PART V
ALTERNATIVE LEARNING EXPERIENCES

Sec. 501. 2011 1st sp.s. c 34 s 1 (uncodified) is amended to read as follows:

(1) Under Article IX of the Washington state Constitution, all children are entitled to an opportunity to receive a basic education. Although the state must assure that students in public schools have opportunities to participate in the instructional program of basic education, there is no obligation for either the state or school districts to provide that instruction using a particular delivery method or through a particular program.

(2) The legislature finds ample evidence of the need to examine and reconsider policies under which alternative learning that occurs outside the classroom using an individual student learning plan may be considered equivalent to full-time attendance in school, including for funding purposes. Previous legislative studies have raised questions about financial practices and accountability in alternative learning experience (programs) courses. Since 2005, there has been significant enrollment growth in alternative learning experience online (programs) courses, with evidence of unexpected financial impact when large numbers of nonresident students enroll in (programs) courses. Based on this evidence, there is a rational basis on which to conclude that there are different costs associated with providing (programs) courses not primarily based on full-time, daily contact between teachers and students and not primarily occurring on-site in a classroom.

(3) For these reasons, the legislature intends to allow for continuing review and revision of the way in which state funding allocations are used to support alternative learning experience (programs) courses.

Sec. 502. RCW 28A.150.325 and 2011 1st sp.s. c 34 s 2 are each amended to read as follows:

(1) For purposes of this chapter, The definitions in this subsection apply throughout this chapter unless the context clearly requires otherwise.

(a) Alternative learning experience (program) course means a course ((or set of courses)), or for grades kindergarten through eight grade-level coursework, that is a delivery method for the program of basic education and is:

(i) Provided in whole or in part independently from a regular classroom setting or schedule, but may include some components of direct instruction;

(ii) Supervised, monitored, assessed, evaluated, and documented by a certificated teacher employed by the school district or under contract as permitted by applicable rules; and

(iii) Provided in accordance with a written student learning plan that is implemented pursuant to the school district's policy and rules adopted by the superintendent of public instruction for alternative learning experiences.

(b) In-person means face-to-face instructional contact in a physical classroom environment.

(c) Instructional contact time means instructional time with a certificated teacher. Instructional contact time must be for the purposes of actual instruction, review of assignments, testing, evaluation of student progress, or other learning activities or requirements identified in the student's written student learning plan. Instructional contact time must be related to an alternative learning experience course identified in the student's written student learning plan. Instructional contact time may occur in a group setting between the teacher and multiple students and may be delivered either in-person or remotely using technology.

(d) Online course means an alternative learning experience course that has the same meaning as provided in RCW 28A.250.010.

(e) Remote course means an alternative learning experience course that is not an online course where the student has in-person instructional contact time for less than twenty percent of the total weekly time for the course. No minimum in-person instructional contact time is required.

(f) Site-based course means an alternative learning experience course where the student has in-person instructional contact time for at least twenty percent of the total weekly time for the course.

(g) Total weekly time means the estimated average hours per school week the student will engage in learning activities to meet the requirements of the written student learning plan.

(2) The broad categories of alternative learning experience programs include, but are not limited to:

(a) Online programs as defined in RCW 28A.150.262;

(b) Parent partnership programs that include significant participation and partnership by parents and families in the design and implementation of a student’s learning experience; and

(c) Contract-based learning programs. School districts may claim state funding under section 503 of this act, to the extent otherwise allowed by state law including the provisions of RCW 28A.250.060, for students enrolled in remote, site-based, or online alternative learning experience courses. High school courses must meet district or state graduation requirements and be offered for high school credit.

(3) School districts that offer alternative learning experience (programs) courses may not provide any compensation, reimbursement, gift, reward, or gratuity to any parents, guardians, or students for participation in the courses. School district employees are prohibited from receiving any compensation or payment as an incentive to increase student enrollment of out-of-district students in (an) alternative learning experience (program) courses. This prohibition includes, but is not limited to, providing funds to parents, guardians, or students for the purchase of educational materials, supplies, experiences, services, or technological equipment. A district may purchase educational materials, equipment, or other nonconsumable supplies for students’ use in alternative learning experience (programs) courses if the purchase is consistent with the district’s approved curriculum, conforms to applicable laws and rules, and is made in the same manner as such purchases are made for students in the district’s regular instructional program. Items so purchased remain the property of the school district upon program completion. School districts may not purchase or contract for instructional or cocurricular experiences and services that are included in an alternative learning experience written student learning plan, including but not limited to lessons, trips, and other activities, unless substantially similar experiences and services are available to students enrolled in the district’s regular instructional program. School districts that purchase or contract for such experiences and services for students enrolled in an alternative learning experience (program) course must submit an annual report to the office of the superintendent of public instruction detailing the costs and purposes of the expenditures. These requirements extend to contracted providers of alternative learning experience (programs) courses, and each district shall be responsible for monitoring the compliance of its providers with these requirements. However, nothing in this (section) subsection shall prohibit school districts from contracting with school district employees to provide services or experiences to students, or from contracting with online providers approved by the office of the superintendent of public instruction pursuant to chapter 28A.250 RCW.

(4) Part-time enrollment in alternative learning experiences is subject to the provisions of RCW 28A.150.350.

(5) The superintendent of public instruction shall adopt rules defining minimum requirements and accountability for alternative learning experience programs. Each school district offering or
contracting to offer alternative learning experience courses must:

(a) Report annually to the superintendent of public instruction regarding the course types and offerings, and number of students participating in each;

(b) Document the district of residence for each student enrolled in an alternative learning experience course; and

(c) Beginning in the 2013-14 school year and continuing through the 2016-17 school year, pay costs associated with a biennial measure of student outcomes and financial audit of the district's alternative learning experience courses by the office of the state auditor.

(5) A school district offering or contracting to offer an alternative learning experience course to a nonresident student must inform the resident school district if the student drops out of the course or is otherwise no longer enrolled.

(6) School districts must assess the educational progress of enrolled students at least annually, using, for full-time students, the state assessment for the student's grade level and using any other annual assessments required by the school district. Part-time students must also be assessed at least annually. However, part-time students who are either receiving home-based instruction under chapter 28A.200 RCW or who are enrolled in an approved private school under chapter 28A.195 RCW are not required to participate in the assessments required under chapter 28A.655 RCW. The rules must address how students who reside outside the geographic service area of the school district are to be assessed.

(7) Beginning with the 2013-14 school year, school districts must designate alternative learning experience courses as such when reporting course information to the office of the superintendent of public instruction under RCW 28A.300.500.

(8)(a) The superintendent of public instruction shall adopt rules necessary to implement this section.

(b) Rules adopted for weekly direct personal contact requirements and monthly progress evaluation must be flexible and reflect the needs of the student and the student's individual learning plan rather than specifying an amount of time. In addition, the rules must reduce documentation requirements, particularly for students making satisfactory progress, based on the unique aspects of the alternative learning experience course types defined in this section and taking into consideration the technical and system capabilities associated with the different course types.

(c) The rules must establish procedures that address how the counting of students must be coordinated by resident and nonresident districts for state funding so that no student is counted for more than one full-time equivalent in the aggregate.

NEW SECTION. Sec. 503. The superintendent of public instruction shall separately calculate and allocate moneys appropriated under RCW 28A.150.260 to school districts for each full-time equivalent student enrolled in an alternative learning experience course. The calculation shall be based on the estimated statewide annual average allocation per full-time equivalent student in grades nine through twelve in general education, excluding small high school enhancements, and including applicable rules and provisions of the omnibus appropriations act.

Sec. 504. RCW 28A.250.010 and 2011 1st sp.s. c 34 s 5 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1)(a) "Multidistrict online provider" means:

(i) A private or nonprofit organization that enters into a contract with a school district to provide online courses or programs to K-12 students from more than one school district;

(ii) A private or nonprofit organization that enters into contracts with multiple school districts to provide online courses or programs to K-12 students from those districts; or

(iii) Except as provided in (b) of this subsection, a school district that provides online courses or programs to students who reside outside the geographic boundaries of the school district.

(b) "Multidistrict online provider" does not include a school district online learning program in which fewer than ten percent of the students enrolled in the program are from other districts under the interdistrict student transfer provisions of RCW 28A.225.225. "Multidistrict online provider" also does not include regional online learning programs that are jointly developed and implemented by two or more school districts or an educational service district through an interdistrict cooperative program agreement that addresses, at minimum, how the districts share student full-time equivalency for state basic education funding purposes and how categorical education programs, including special education, are provided to eligible students.

(2)(a) "Online course" means a course or grade-level coursework where:

(i) More than half of the course content is delivered electronically using the internet or other computer-based methods; ((and))

(ii) More than half of the teaching is conducted from a remote location through an online course learning management system or other online or electronic tools;

(iii) A certificated teacher has the primary responsibility for the student's instructional interaction. Instructional interaction between the teacher and the student includes, but is not limited to, direct instruction, review of assignments, assessment, testing, progress monitoring, and educational facilitation; and

(iv) Students have access to the teacher synchronously, asynchronously, or both.

(b) "Online school program" means a school program that((

(i) Offers courses or grade-level coursework that is delivered primarily electronically using the internet or other computer-based methods;

(ii) Offers courses or grade-level coursework that is taught by a teacher primarily from a remote location using online or other electronic tools. Students enrolled in an online program may have access to the teacher synchronously, asynchronously, or both;

(iii)) offers a sequential set of online courses or grade-level coursework that may be taken in a single school term or throughout the school year in a manner that could provide a full-time basic education program if so desired by the student. Students may enroll in the program as part-time or full-time students((, and

(iv) Has an online component of the program with online lessons and tools for student and data management)).

(c) An online course or online school program may be delivered to students at school as part of the regularly scheduled school day. An online course or online school program also may be delivered to students, in whole or in part, independently from a regular classroom schedule, but such courses or programs must comply with RCW (28A.150.260)) 28A.150.325 (as recodified by this act) and associated rules adopted by the superintendent of public instruction to qualify for state basic education funding.

(3) "Online provider" means any provider of an online course or program, including multidistrict online providers, all school district online learning programs, and all regional online learning programs.

Sec. 505. RCW 28A.250.020 and 2011 1st sp.s. c 34 s 6 are each amended to read as follows:

(1) The superintendent of public instruction, in collaboration with the state board of education, shall develop and implement approval criteria and a process for approving online providers; a process for monitoring and if necessary rescinding the approval of courses or programs offered by an online provider; and an appeals process. The criteria and processes for multidistrict online providers shall be adopted by rule by December 1, 2009.

(2) When developing the approval criteria, the superintendent of public instruction shall require that providers offering online courses...
or programs have accreditation, or are candidates for accreditation, through the Northwest accreditation commission or another national, regional, or state accreditation program listed by the office of the superintendent of public instruction. In addition to other criteria, the approval criteria shall include the degree of alignment with state academic standards and require that all teachers be certificated in accordance with Washington state law. When reviewing online providers that offer high school courses, the superintendent of public instruction shall assure that the courses offered by the provider are eligible for high school credit. However, final decisions regarding whether credit meets the school district's graduation requirements shall remain the responsibility of the school districts.

(3) Initial approval of online providers by the superintendent of public instruction shall be for four years. The superintendent of public instruction shall develop a process for the renewal of approvals and for rescinding approvals based on noncompliance with approval requirements. Any multiday district online provider that was approved by the digital learning commission or accredited by the Northwest association of accredited schools before July 26, 2009, and that meets the teacher certification requirements of subsection (2) of this section, is exempt from the initial approval process under this section until August 31, 2012, but must comply with the process for renewal of approvals and must comply with approval requirements.

(4) The superintendent of public instruction shall make the first round of decisions regarding approval of multiday district online providers by April 1, 2010. The first round of decisions regarding approval of online providers that are not multiday district online providers shall be made by April 1, 2013. Thereafter, the superintendent of public instruction shall make annual approval decisions no later than November 1st of each year.

The committee shall include a representative of each of the following groups: Private and public online providers, parents of online students, accreditation organizations, educational service districts, school principals, teachers, school administrators, school board members, institutions of higher education, and other individuals as determined by the superintendent. Members of the advisory committee shall be selected by the superintendent based on nominations from statewide organizations, shall serve three-year terms, and may be reappointed. The superintendent shall select the chair of the committee.

Sec. 506. RCW 28A.250.050 and 2011 1st sp.s. c 34 s 11 are each amended to read as follows:

(1) By August 31, 2010, all school district boards of directors shall develop policies and procedures regarding student access to online courses and online learning programs. The policies and procedures shall include but not be limited to: Student eligibility criteria; the types of online courses available to students through the school district; the methods the school district will use to support student success, which may include a local advisor; when the school district will and will not pay course fees and other costs; the granting of high school credit; and a process for students and parents or guardians to formally acknowledge any course taken for which no credit is given. The policies and procedures shall take effect beginning with the 2010-11 school year. School districts shall submit their policies to the superintendent of public instruction by September 15, 2010. By December 1, 2010, the superintendent of public instruction shall summarize the school district policies regarding student access to online courses and submit a report to the legislature.

(2) School districts must award credit and grades for online high school courses successfully completed by a student that meet the school district's graduation requirements and are provided by an approved online provider.

(3) School districts shall provide students with information regarding online courses that are available through the school district. The information shall include the types of information described in subsection (1) of this section.

(4) When developing local or regional online learning programs, school districts shall incorporate into the program design the approval criteria developed by the superintendent of public instruction under RCW 28A.250.020.

Sec. 507. RCW 28A.250.060 and 2011 1st sp.s. c 34 s 8 are each amended to read as follows:

(1) Beginning with the 2011-12 school year, school districts may claim state funding under section 503 of this act, to the extent otherwise allowed by state law, for students enrolled in online courses or programs only if the online courses or programs are:

(a) Offered by a multiday district online provider approved under RCW 28A.250.020 by the superintendent of public instruction;

(b) Offered by a school district online learning program if the program serves students who reside within the geographic boundaries of the school district, including school district programs in which fewer than ten percent of the program's students reside outside the school district's geographic boundaries; or

(c) Offered by a regional online learning program where courses are jointly developed and offered by two or more school districts or an educational service district through an interdistrict cooperative program agreement.

(2) Beginning with the 2013-14 school year, school districts may claim state funding under section 503 of this act, to the extent otherwise allowed by state law, for students enrolled in online courses or programs only if the online courses or programs are offered by an online provider approved under RCW 28A.250.020 by the superintendent of public instruction.

(3) Criteria shall be established by the superintendent of public instruction to allow online courses that have not been approved by the superintendent of public instruction to be eligible for state funding if the course is in a subject matter in which no courses have been approved and, if it is a high school course, the course meets Washington high school graduation requirements.

Sec. 508. RCW 28A.250.070 and 2009 c 542 s 8 are each amended to read as follows:

Nothing in this chapter is intended to diminish the rights of students to attend a nonresident school district in accordance with RCW 28A.225.220 through 28A.225.230 for the purposes of enrolling in online courses or online school programs. The office of online learning under RCW 28A.250.030 shall develop a standard form, which must be used by all school districts, for releasing a student to a nonresident school district for the purposes of enrolling in an online course or online school program.

NEW SECTION. Sec. 509. A new section is added to chapter 28A.250 RCW to read as follows:

An online school program may request a waiver from the office of the superintendent of public instruction to administer one or more sections of the statewide student assessment for grades three through eight for some or all students enrolled in the program on alternate days or on an alternate schedule, as long as the administration is within the testing period established by the office. The office may deny a request for a waiver if the online school program's proposal does not maintain adequate test security or would reduce the reliability of the assessment results by providing an inequitable advantage for some students.

Sec. 510. RCW 28A.225.220 and 1995 c 335 s 602 and 1995 c 52 s 2 are each reenacted and amended to read as follows:
(1) Any board of directors may make agreements with adults choosing to attend school, and may charge the adults reasonable tuition.

(2) A district is strongly encouraged to honor the request of a parent or guardian for his or her child to attend a school in another district or the request of a parent or guardian for his or her child to transfer as a student receiving home-based instruction.

(3) A district shall release a student to a nonresident district that agrees to accept the student if:
   (a) A financial, educational, safety, or health condition affecting the student would likely be reasonably improved as a result of the transfer; or
   (b) Attendance at the school in the nonresident district is more accessible to the parent's place of work or to the location of child care; or
   (c) There is a special hardship or detrimental condition; or
   (d) The purpose of the transfer is for the student to enroll in an online course or online school program offered by an online provider approved under RCW 28A.250.020.

(4) A district may deny the request of a resident student to transfer to a nonresident district if the release of the student would adversely affect the district's existing desegregation plan.

(5) For the purpose of helping a district assess the quality of its education program, a resident school district may request an optional exit interview or questionnaire with the parents or guardians of a child transferring to another district. No parent or guardian may be forced to attend such an interview or complete the questionnaire.

(6) Beginning with the 1993-94 school year, school districts may not charge transfer fees or tuition for nonresident students enrolled under subsection (3) of this section and RCW 28A.225.225. Reimbursement of a high school district for cost of educating high school pupils of a nonhigh school district shall not be deemed a transfer fee as affecting the apportionment of current state school funds.

Sec. 511. RCW 28A.225.225 and 2013 c 192 s 2 are each amended to read as follows:

(1) Except for students who reside out-of-state and students under RCW 28A.225.217, a district shall accept applications from nonresident students who are the children of full-time certificated and classified school employees, and those children shall be permitted to enroll:
   (a) At the school to which the employee is assigned;
   (b) At a school forming the district's K through 12 continuum which includes the school to which the employee is assigned; or
   (c) At a school in the district that provides early intervention services pursuant to RCW 28A.155.065 or preschool services pursuant to RCW 28A.155.070, if the student is eligible for such services.

(2) A district may reject applications under this section if:
   (a) The student's disciplinary records indicate a history of convictions for offenses or crimes, violent or disruptive behavior, or gang membership;
   (b) The student has been expelled or suspended from a public school for more than ten consecutive days. Any policy allowing for readmission of expelled or suspended students under this subsection (2)(b) must apply uniformly to both resident and nonresident applicants; ((ae) )
   (c) Enrollment of a child under this section would displace a child who is a resident of the district, except that if a child is admitted under subsection (1) of this section, that child shall be permitted to remain enrolled at that school, or in that district's kindergarten through twelfth grade continuum, until he or she has completed his or her schooling; or
   (d) The student has repeatedly failed to comply with requirements for participation in an online school program, such as participating in weekly direct contact with the teacher or monthly progress evaluations.

(3) A nonhigh district that is participating in an innovation academy cooperative may not accept an application from a high school student that conflicts with RCW 28A.340.080.

(4) Except as provided in subsection (1) of this section, all districts accepting applications from nonresident students or from students receiving home-based instruction for admission to the district's schools shall consider equally all applications received. Each school district shall adopt a policy establishing rational, fair, and equitable standards for acceptance and rejection of applications by June 30, 1990. The policy may include rejection of a nonresident student if:
   (a) Acceptance of a nonresident student would result in the district experiencing a financial hardship;
   (b) The student's disciplinary records indicate a history of convictions for offenses or crimes, violent or disruptive behavior, or gang membership;
   (c) Accepting of the nonresident student would conflict with RCW 28A.340.080; or
   (d) The student has been expelled or suspended from a public school for more than ten consecutive days. Any policy allowing for readmission of expelled or suspended students under this subsection (4)(d) must apply uniformly to both resident and nonresident applicants.

For purposes of subsections (2)(a) and (4)(b) of this section, "gang" means a group which: (i) Consists of three or more persons; (ii) has identifiable leadership; and (iii) on an ongoing basis, regularly conspires and acts in concert mainly for criminal purposes.

(5) The district shall provide to applicants written notification of the approval or denial of the application in a timely manner. If the application is rejected, the notification shall include the reason or reasons for denial and the right to appeal under RCW 28A.225.230(3).

Sec. 512. RCW 28A.150.100 and 2011 1st sp.s. c 34 s 10 are each amended to read as follows:

(1) For the purposes of this section and RCW 28A.150.410 and 28A.400.200, "basic education certificated instructional staff" means all full-time equivalent classroom teachers, teacher librarians, guidance counselors, certificated student health services staff, and other certificated instructional staff in the following programs as defined for statewide school district accounting purposes: Basic education, secondary vocational education, general instructional support, and general supportive services.

(2) Each school district shall maintain a ratio of at least forty-six basic education certificated instructional staff to one thousand annual average full-time equivalent students. This requirement does not apply to that portion of a district's annual average full-time equivalent enrollment that is enrolled in alternative learning experience (programs) courses as defined in RCW 28A.150.325 (as recodified by this act).

Sec. 513. RCW 28A.525.162 and 2012 c 244 s 2 are each amended to read as follows:

(1) Funds appropriated to the superintendent of public instruction from the common school construction fund shall be allotted by the superintendent of public instruction in accordance with this chapter.

(2) No allotment shall be made to a school district until such district has provided local funds equal to or greater than the difference between the total approved project cost and the amount of state funding assistance to the district for financing the project computed pursuant to RCW 28A.525.166, with the following exceptions:
   (a) The superintendent of public instruction may waive the local requirement for state funding assistance for districts which have provided funds for school building construction purposes through the authorization of bonds or through the authorization of excess tax
levies or both in an amount equivalent to two and one-half percent of
the value of its taxable property, as defined in RCW 39.36.015.

(b) No such local funds shall be required as a condition to the
allotment of funds from the state for the purpose of making major or
minor structural changes to existing school facilities in order to bring
such facilities into compliance with the barrier free access
requirements of section 504 of the federal rehabilitation act of 1973
(29 U.S.C. Sec. 706) and rules implementing the act.

(3) For the purpose of computing the state funding assistance
percentage under RCW 28A.525.166 when a school district is granted
authority to enter into contracts, adjusted valuation per pupil shall be
calculated using headcount student enrollments from the most recent
October enrollment reports submitted by districts to the
superintendent of public instruction, adjusted as follows:

(a) In the case of projects for which local bonds were approved
after May 11, 1989:

(i) For districts which have been designated as serving high
school districts under RCW 28A.540.110, students residing in the
nonhigh district so designating shall be excluded from the enrollment
count if the student is enrolled in any grade level not offered by the
nonhigh district;

(ii) The enrollment of nonhigh school districts shall be increased
by the number of students residing within the district who are enrolled
in a serving high school district so designated by the nonhigh school
district under RCW 28A.540.110, including only students who are
enrolled in grade levels not offered by the nonhigh school district; and

(iii) The number of preschool students with disabilities included
in the enrollment count shall be multiplied by one-half;

(b) In the case of construction or modernization of high school
facilities in districts serving students from nonhigh school districts,
the adjusted valuation per pupil shall be computed using the
combined adjusted valuations and enrollments of each district, each
weighted by the percentage of the district’s resident high school
students served by the high school district;

(c) The number of kindergarten students included in the
enrollment count shall be counted as one headcount student; and

(d) The number of students residing outside the school district
who are enrolled in alternative learning experience ((programs))
courses under RCW 28A.150.325 (as recodified by this act) shall be
excluded from the total.

(4) In lieu of the exclusion in subsection (3)(d) of this section, a
district may submit an alternative calculation for excluding students
enrolled in alternative learning experience ((programs)) courses. The
alternative calculation must show the student headcount use of district
classroom facilities on a regular basis for a regular duration by out-of-
district alternative learning experience ((programs)) students
subtracted by the headcount of in-district alternative learning
experience ((programs)) students not using district classroom facilities
on a regular basis for a reasonable duration. The alternative
calculation must be submitted in a form approved by the office of the
superintendent of public instruction. The office of the superintendent
of public instruction must develop rules to define “regular basis” and
“reasonable duration.”

(5) The superintendent of public instruction, considering policy
recommendations from the school facilities citizen advisory panel,
shall prescribe such rules as are necessary to equate insofar as
possible the efforts made by school districts to provide capital funds
by the means aforesaid.

(6) For the purposes of this section, “preschool students with
disabilities” means children of preschool age who have
developmental disabilities who are entitled to services under RCW
28A.155.010 through 28A.155.100 and are not included in the
kindergarten enrollment count of the district.

Sec. 514. RCW 28A.525.166 and 2012 c 244 s 3 are each
amended to read as follows:

Allocations to school districts of state funds provided by RCW
28A.525.162 through 28A.525.180 shall be made by the
superintendent of public instruction and the amount of state funding
assistance to a school district in financing a school plant project shall
be determined in the following manner:

(1) The boards of directors of the districts shall determine the
total cost of the proposed project, which cost may include the cost of
acquiring and preparing the site, the cost of constructing the building
or of acquiring a building and preparing the same for school use, the
cost of necessary equipment, taxes chargeable to the project,
necessary architects’ fees, and a reasonable amount for contingencies
and for other necessary incidental expenses: PROVIDED, That the
total cost of the project shall be subject to review and approval by the
superintendent.

(2) The state funding assistance percentage for a school district
shall be computed by the following formula:

\[
\text{State} = \frac{\text{District adjusted}}{\text{Total state}} \times \frac{3-\text{valuation}}{\text{adjusted valuation}}
\]

\[
\text{Ratio} = \frac{\text{District adjusted}}{\text{Total state}} \times \frac{3+\text{valuation}}{\text{adjusted valuation}}
\]

PROVIDED, That in the event the state funding assistance percentage
to any school district based on the above formula is less than twenty
percent and such school district is otherwise eligible for state funding
assistance under RCW 28A.525.162 through 28A.525.180, the
superintendent may establish for such district a state funding
assistance percentage not in excess of twenty percent of the approved
cost of the project, if the superintendent finds that such additional
assistance is necessary to provide minimum facilities for housing the
pupils of the district.

(3) In addition to the computed state funding assistance
percentage developed in subsection (2) of this section, a school
district shall be entitled to additional percentage points determined by
the average percentage of growth for the past three years. One
percent shall be added to the computed state funding assistance
percentage for each percent of growth, with a maximum of twenty
percent.

(4) In computing the state funding assistance percentage in
subsection (2) of this section and adjusting the percentage under
subsection (3) of this section, students residing outside the school
district who are enrolled in alternative learning experience ((programs))
courses under RCW 28A.150.325 (as recodified by this act) shall be
excluded from the count of total pupils. In lieu of the
exclusion in this subsection, a district may submit an alternative
calculation for excluding students enrolled in alternative learning
experience ((programs)) courses. The alternative calculation must
show the student headcount use of district classroom facilities on a
regular basis for a reasonable duration by out-of-district alternative
learning experience ((programs)) students subtracted by the headcount
of in-district alternative learning experience (program) students not using district classroom facilities on a regular basis for a reasonable duration. The alternative calculation must be submitted in a form approved by the office of the superintendent of public instruction. The office of the superintendent of public instruction must develop rules to define "regular basis" and "reasonable duration."

(5) The approved cost of the project determined in the manner prescribed in this section multiplied by the state funding assistance percentage derived as provided for in this section shall be the amount of state funding assistance to the district for the financing of the project: PROVIDED, That need therefor has been established to the satisfaction of the superintendent: PROVIDED, FURTHER, That additional state funding assistance may be allowed if it is found by the superintendent, considering policy recommendations from the school facilities citizen advisory panel that such assistance is necessary in order to meet (a) a school housing emergency resulting from the destruction of a school building by fire, the condemnation of a school building by properly constituted authorities, a sudden excessive and clearly foreseeable future increase in school population, or other conditions similarly emergent in nature; or (b) a special school housing burden resulting from projects of statewide significance or imposed by virtue of the admission of nonresident students into educational programs established, maintained and operated in conformity with the requirements of law; or (c) a deficiency in the capital funds of the district resulting from financing, subsequent to April 1, 1969, and without benefit of the state funding assistance provided by prior state assistance programs, the construction of a needed school building project or projects approved in conformity with the requirements of such programs, after having first applied for and been denied state funding assistance because of the inadequacy of state funds available for the purpose, or (d) a condition created by the fact that an excessive number of students live in state owned housing, or (e) a need for the construction of a school building to provide for improved school district organization or racial balance, or (f) conditions similar to those defined under (a), (b), (c), (d), and (e) of this subsection, creating a like emergency.

NEW SECTION, Sec. 515. (1) The office of financial management shall conduct a study, in consultation with, at minimum, one representative from each school district that administer remote, site-based, and online alternative learning experience courses; the office of the superintendent of public instruction; the Washington state institute for public policy; individuals with expertise in based public school funding models; a Washington state non-organization with expertise in alternative learning education; and the legislative evaluation and accountability program committee.

(2) The purpose of the study is to create a proposal for efficiently and sustainably funding alternative learning experience courses and to recommend steps to increase the focus on educational outcomes. The study may recommend the funding method established in section 503 of this act or another method of funding. The study shall review alternative learning funding models used in other states and consider the advantages and disadvantages of applying state policies, including funding policies, differentially depending on the type of alternative learning experience course. The study should also include but not be limited to, recommendations for establishing baseline data regarding alternative learning experience student proficiency and achievement in relation to students in a comparable demographic, identifying outcome targets and methods to measure progress toward targets, identifying methods to ensure ongoing evaluation of outcomes that account for the student demographics being served, and improving alternative learning experience accountability.

(3) The office of financial management shall report its findings from the study to the quality education council by November 1, 2013. The quality education council shall review the findings and make recommendations to the education and fiscal committees of the legislature by December 15, 2013.

NEW SECTION, Sec. 516. RCW 28A.150.262 (Defining full-time equivalent student--Students receiving instruction through alternative learning experience online programs--Requirements) and 2011 1st sp.s. c 34 s 3, 2009 c 542 s 9, & 2005 c 356 s 2 are each repealed.

NEW SECTION, Sec. 517. (1) RCW 28A.150.325 is recodified as a section in chapter 28A.-- RCW (the new chapter created in section 518 of this act).

(2) 2011 1st sp.s. c 34 s 1 is codified as a section in chapter 28A.-- RCW (the new chapter created in section 518 of this act).

NEW SECTION, Sec. 518. Sections 501 and 503 of this act constitute a new chapter in Title 28A RCW.

Representative Santos moved the adoption of amendment (582) to amendment (581).

On page 10, beginning on line 25 of the striking amendment, strike sections 301 through 309 and insert the following:

NEW SECTION, Sec. 301. A new section is added to chapter 28A.600 RCW to read as follows:

(1) The office of the superintendent of public instruction shall convene a discipline task force to develop standard definitions for causes of student disciplinary actions taken at the discretion of the school district. The task force must also develop data collection standards for disciplinary actions that are discretionary and for disciplinary actions that result in the exclusion of a student from school. The data collection standards must include data about education services provided while a student is subject to a disciplinary action, the status of petitions for readmission to the school district when a student has been excluded from school, credit retrieval during a period of exclusion, and school dropout as a result of disciplinary action.

(2) The discipline task force shall include representatives from the K-12 data governance group, the educational opportunity gap oversight and accountability committee, the state ethnic commissions, the governor's office of Indian affairs, the office of the education...
(3) The office of the superintendent of public instruction and the K-12 data governance group shall revise the statewide student data system to incorporate the student discipline data collection standards recommended by the discipline task force, and begin collecting data based on the revised standards in the 2015-16 school year.

Sec. 302. RCW 28A.600.015 and 2006 c 263 s 701 are each amended to read as follows:

(1) The superintendent of public instruction shall adopt and distribute to all school districts lawful and reasonable rules prescribing the substantive and procedural due process guarantees of pupils in the common schools. Such rules shall authorize a school district to use informal due process procedures in connection with the short-term suspension of students to the extent constitutionally permissible. PROVIDED, That the superintendent of public instruction deems the interest of students to be adequately protected. When a student suspension or expulsion is appealed, the rules shall authorize a school district to impose the suspension or expulsion temporarily after an initial hearing for no more than ten consecutive school days or until the appeal is decided, whichever is earlier. Any days that the student is temporarily suspended or expelled before the appeal is decided shall be applied to the term of the student suspension or expulsion and shall not limit or extend the term of the student suspension or expulsion. A suspension or expulsion of a student may not be for an indefinite period of time, and a school district may not suspend the provision of educational services to a student as a disciplinary measure.

(2) Short-term suspension procedures may be used for suspensions of students up to and including, ten consecutive school days.

(3) Emergency expulsions must end or be converted to another form of corrective action within ten school days from the date of the emergency removal from school. Notice and due process rights must be provided to students when an emergency expulsion is converted to another form of corrective action.

(4) A school district may not impose a disciplinary action that results in the suspension of educational services to a student. A student may be excluded from a particular classroom or instructional or activity area for the period of suspension, but the school district must provide an opportunity for the student to receive educational services in an alternative manner, which may include services provided through an alternative program, at an alternative school, or at an alternative location within the student's regular school.

Sec. 303. RCW 28A.600.020 and 2006 c 263 s 706 are each amended to read as follows:

(1) The rules adopted pursuant to RCW 28A.600.010 shall be interpreted to ensure that the optimum learning atmosphere of the classroom is maintained, and that the highest consideration is given to the judgment of qualified certificated educators regarding conditions necessary to maintain the optimum learning atmosphere.

(2) Any student who creates a disruption of the educational process in violation of the building disciplinary standards while under a teacher's immediate supervision may be excluded by the teacher from his or her individual classroom and instructional or activity area for all or any portion of the balance of the school day, or up to the following two days, or until the principal or designee and teacher have conferred, whichever occurs first. Except in emergency circumstances, the teacher first must attempt one or more alternative forms of corrective action. In no event without the consent of the teacher may an excluded student return to the class during the balance of that class or activity period or up to the following two days, or until the principal or his or her designee and the teacher have conferred.

(3) In order to preserve a beneficial learning environment for all students and to maintain good order and discipline in each classroom, every school district board of directors shall provide that written procedures are developed for administering discipline at each school within the district. Such procedures shall be developed with the participation of ((parents)) families and the community, and shall provide that the teacher, principal or designee, and other authorities designated by the board of directors, make every reasonable attempt to involve the ((parents)) family or guardian and the student in the resolution of student discipline problems. Such procedures shall provide that students may be excluded from their individual classes or activities for periods of time in excess of that provided in subsection (2) of this section if such students have repeatedly disrupted the learning of other students. The procedures must be consistent with the rules of the superintendent of public instruction and must provide for early involvement of ((parents)) families in attempts to improve the student's behavior.

(4) The procedures shall assure, pursuant to RCW 28A.400.110, that all staff work cooperatively toward consistent enforcement of proper student behavior throughout each school as well as within each classroom.

(5)(a) A principal (shall) may consider imposing long-term suspension or expulsion as a sanction when deciding the appropriate disciplinary action for a student who, after July 27, 1997:

((i)) (i) Engages in two or more violations within a three-year period of RCW 9A.46.120, 28A.320.135, 28A.600.455, 28A.600.460, 28A.635.020, 28A.600.020, 28A.635.060, or 9A.41.280((, or 28A.320.140)); or

((ii)) (ii) Engages in one or more of the offenses listed in RCW 28A.400.115.

(b) The principal shall communicate the disciplinary action taken by the principal to the school personnel who referred the student to the principal for disciplinary action.

(6) Any corrective action involving a suspension or expulsion from school for more than ten days must have an end date no later than the end of the academic term in which the student exhibited behavior leading to a corrective action. In consultation with families and guardians of students subject to corrective action, school districts shall make reasonable efforts to assist students in returning to an educational setting prior to and no later than the end date of the corrective action. Where warranted based on public health or safety, a school district may petition the local school board, pursuant to policies and procedures adopted by the superintendent of public instruction, for authorization to exceed the term limitation provided in this subsection. The superintendent of public instruction shall adopt rules outlining the limited circumstances in which a school district may petition the local school board to exceed the academic term limitation, including safeguards to ensure that the district has made every effort to plan for the student's return to school and that the student's extended expulsion from the district does not impair the student's constitutional right to education. In adopting rules and reviewing petitions to exceed the academic term limitation, the superintendent of public instruction must assure that students receive educational services while serving a suspension or expulsion. A petition to exceed the academic term limitation shall not be granted by the superintendent of public instruction if a school district does not provide educational services to a student serving a suspension or expulsion.

(7) As provided in RCW 28A.600.015, a school district may not impose disciplinary action that results in the suspension of educational services to a student.

Sec. 304. RCW 28A.600.410 and 1992 c 155 s 1 are each amended to read as follows:

It is the intent of the legislature to minimize the use of out-of-school suspension and expulsion and its impact on student achievement by reducing the number of days that students are excluded from school due to disciplinary action. Student discipline should not impair a student's constitutional right to education.
School districts are encouraged to find alternatives to suspension including reducing the length of a student's suspension conditioned by the commencement of counseling or other treatment services. Consistent with current law, the conditioning of a student's suspension does not obligate the school district to pay for the counseling or other treatment services except for those stipulated and agreed to by the district at the inception of the suspension.

Sec. 305. RCW 28A.600.460 and 1997 c 266 s 9 are each amended to read as follows:

(1) School district boards of directors shall adopt policies that restore discipline to the classroom. Such policies must provide for at least the following: Allowing each teacher to take disciplinary action to correct a student who disrupts normal classroom activities, abuses or insults a teacher as prohibited by RCW 28A.635.010, willfully disobeys a teacher, uses abusive or foul language directed at a school district employee, school volunteer, or another student, violates school rules, or who interferes with an orderly education process. Disciplinary action may include but is not limited to: Oral or written reprimands; written notification to parents of disruptive behavior, a copy of which must be provided to the principal.

(2) A student committing an offense under chapter 9A.36, 9A.40, 9A.46, or 9A.48 RCW when the activity is directed toward the teacher, shall not be assigned to that teacher's classroom for the duration of the student's attendance at that school or any other school where the teacher is assigned.

(3) A student who commits an offense under chapter 9A.36, 9A.40, 9A.46, or 9A.48 RCW, when directed toward another student, may be removed from the classroom of the victim for the duration of the student's attendance at that school or any other school where the victim is enrolled. A student who commits an offense under one of the chapters enumerated in this section against a student or another school employee, may be expelled or suspended.

(c) Collaborate with the legislative evaluation and accountability program committee and the education and fiscal committees of the legislature in identifying the data to be compiled and analyzed to ensure that legislative interests are served;

(d) Annually provide to the K-12 data governance group a list of data elements and data quality improvements that are necessary to answer the research and policy questions identified by the education data center and have been identified by the legislative committees in (c) of this subsection. Within three months of receiving the list, the K-12 data governance group shall develop and transmit to the education data center a feasibility analysis of obtaining or improving the data, including the steps required, estimated time frame, and the financial and other resources that would be required. Based on the analysis, the education data center shall submit, if necessary, a recommendation to the legislature regarding any statutory changes or resources that would be needed to collect or improve the data;

(e) Monitor and evaluate the education data collection systems of the organizations and agencies represented in the education data center ensuring that data systems are flexible, able to adapt to evolving needs for information, and to the extent feasible and necessary, include data that are needed to conduct the analyses and provide answers to the research and policy questions identified in (a) of this subsection;

(i) Prepare a regular report on the educational and workforce outcomes of youth in the juvenile justice system, using data disaggregated according to RCW 28A.300.042, and by age; and

(j) Make recommendations to the legislature as necessary to help ensure the goals and objectives of this section and RCW 28A.655.210 and 28A.300.057 are met.

(3) The department of early learning, superintendent of public instruction, professional educator standards board, state board of education, state board for community and technical colleges, workforce training and education coordinating board, student achievement council, public four-year institutions of higher education, department of social and health services, and employment security department shall work with the education data center to develop data-sharing and research agreements, consistent with applicable security and confidentiality requirements, to facilitate the work of the center. The education data center shall also develop data-sharing and research agreements with the administrative office of the courts to conduct research on educational and workforce outcomes using data maintained under RCW 13.50.010(1) related to juveniles. Private, nonprofit institutions of higher education that provide programs of education beyond the high school level leading at least to the baccalaureate degree and are accredited by the Northwest association of schools and colleges or their peer accreditation bodies.
may also develop data-sharing and research agreements with the education data center, consistent with applicable security and confidentiality requirements. The education data center shall make data from collaborative analyses available to the education agencies and institutions that contribute data to the education data center to the extent allowed by federal and state security and confidentiality requirements applicable to the data of each contributing agency or institution.

NEW SECTION. Sec. 307. A new section is added to chapter 28A.600 RCW to read as follows:

(1) School districts should make efforts to have suspended or expelled students return to the educational setting they were suspended or expelled from as soon as possible. School districts should convene a school reenrollment meeting with the student and the student's family or guardians within twenty days of the student's long-term suspension or expulsion, but no later than five days before the student's enrollment, to discuss a plan to reenroll and reengage the student in a school program.

(2) In developing a reenrollment and reengagement plan, school districts should consider shortening the length of time that the student is suspended or expelled, other forms of corrective action, and supportive interventions that aid in the student's academic success and keep the student engaged and on track to graduate. School districts must create a reenrollment and reengagement plan tailored to the student's individual circumstances, including consideration of the incident that led to the student's long-term suspension or expulsion. The plan should aid the student in taking the necessary steps to remedy the situation that led to the student's suspension or expulsion.

(3) Any reenrollment meetings conducted by the school district involving the suspended or expelled student and his or her family or guardians are not intended to replace a petition for readmission.

NEW SECTION. Sec. 308. Nothing in chapter . . . Laws of 2013 (this act) prevents a public school district, law enforcement agencies, or law enforcement personnel from enforcing laws protecting health and human safety.
