(5) Within seven days after the presiding hearing officer's decision, the offender may appeal the decision to the full board or to a panel of three reviewing examiners designated by the chair of the board or by the chair's designee. (1) Except as provided in subsections (2) and (3) of this section, any person convicted of the crime of aggravated first degree murder shall be sentenced to life imprisonment without possibility of release or parole. In no case, however, shall a person be sentenced to death if the person had an intellectual disability at the time the crime was committed, under the definition of intellectual disability set forth in (a) of this subsection. A diagnosis of intellectual disability shall be documented by a licensed psychiatrist or licensed psychologist designated by the court, who is an expert in the diagnosis and evaluation of intellectual disabilities. (ii) Any person convicted of the crime of aggravated first
degree murder for an offense committed when the person is at least sixteen years old but less than eighteen years old shall be sentenced to a maximum term of life imprisonment and a minimum term of total confinement of no less than twenty-five years. A minimum term of life may be imposed, in which case the person will be eligible for parole or early release. 

(b) In setting a minimum term, the court must take into account mitigating factors that account for the diminished culpability of youth as provided in Miller v. Alabama, 132 S.Ct. 2455 (2012) including, but not limited to, the age of the individual, the youth's childhood and life experience, the degree of responsibility the youth was capable of exercising, and the youth's chances of becoming rehabilitated.

c) A person sentenced under this subsection shall serve the sentence in a facility or institution operated, or utilized under contract, by the state. During the minimum term of total confinement, the person shall not be eligible for community custody, earned release time, furlough, home detention, partial confinement, work crew, work release, or any other form of early release authorized under RCW 9.94A.728, or any other form of authorized leave or absence from the correctional facility while not in the direct custody of a corrections officer. To the extent possible, the department shall make programming available as identified by the assessment.

(f) No later than one hundred eighty days prior to the expiration of the person's minimum term, the department of corrections shall conduct, and the offender shall participate in, an examination of the person, incorporating methodologies that are recognized by experts in the prediction of dangerousness, and including a prediction of the probability that the person will engage in future criminal behavior if released on conditions to be set by the board. The board may consider a person's failure to participate in an evaluation under this subsection in determining whether to release the person. The board shall order the person released, in an evaluation under this subsection in determining whether to release the person.

(g) In a hearing conducted under (f) of this subsection, the board shall provide opportunities for victims and survivors of victims of any crimes for which the person has been convicted to present statements as set forth in RCW 7.69.032. The procedures for victim and survivor of victim input shall be developed by rule. To facilitate victim and survivor of victim involvement, county prosecutor's offices shall ensure that any victim impact statements and known contact information for victims of record and survivors of victims are forwarded as part of the judgment and sentence.

(h) An offender released by the board is subject to the supervision of the department of corrections for a period of time to be determined by the board. The department shall monitor the offender's compliance with conditions of community custody imposed by the court, department, or board, and promptly report any violations to the board. (2) When an offender who will be eligible to petition under this subsection has served fifteen years, the department shall conduct an assessment of the offender and identify programming and services that would be appropriate to prepare the offender for return to the community. To the extent possible, the department shall make programming available as identified by the assessment.

(3) No later than one hundred eighty days from receipt of the petition for early release, the department shall conduct, and the offender shall participate in, an examination of the person, incorporating methodologies that are recognized by experts in the prediction of dangerousness, and including a prediction of the probability that the person will engage in future criminal behavior if released on conditions to be set by the board. The board may consider a person's failure to participate in an evaluation under this subsection in determining whether to release the person. The board shall order the person released under such affirmative and other conditions as the board determines appropriate, unless the board determines by a preponderance of the evidence that, despite such conditions, it is more likely than not that the person will commit new criminal law violations if released. The board shall give public safety considerations the highest priority when making all discretionary decisions regarding the ability for release and conditions of release.

(4) In a hearing conducted under subsection (3) of this section, the board shall provide opportunities for victims and survivors of victims of any crimes for which the offender has been convicted to present statements as set forth in RCW 7.69.032. ((2))) (b) To acquire by purchase, condemnation, gift or grant and to lease, construct, add to, improve, replace, repair, maintain, operate and regulate the use of metropolitan facilities for water supply within or without the metropolitan area, including buildings, structures, water sheds, wells, springs, dams, settling basins, intakes, treatment plants, trunk supply mains and pumping stations, together with all lands, property, equipment and accessories necessary to enable the metropolitan municipal corporation to obtain and develop sources of water supply, treat and store water and deliver water through trunk supply mains. Water supply facilities which are owned by a city or special district may be acquired or used by the metropolitan municipal corporation only with the consent of the legislative body of the city or special district owning such facilities. Cities and special districts are hereby authorized to convey or lease such facilities to metropolitan municipal corporations or to contract for their joint use on such terms as may be fixed by agreement between the legislative body of such city or special district and the metropolitan council, without submitting the matter to the voters of such city or special district.

((3))) (c) To fix rates and charges for water supplied by the metropolitan municipal corporation.

((4))) (d) To acquire by purchase, condemnation, gift or grant and to lease, construct, add to, improve, replace, repair, maintain, operate and regulate the use of facilities for the local distribution of water in portions of the metropolitan area not contained within any city, or water-sewer district that operates a water system, and, with the consent of the legislative body of any city or the water-sewer district, to exercise such powers within such city or water-sewer district and for such purpose to have all the powers conferred by law upon such city or water-sewer district with respect to such local distribution facilities. All costs of such local distribution facilities shall be paid for by the area served thereby.

(2) No rates, charges, noncapital fees, or other costs may be charged for any vacant lot in a manufactured housing community, as defined in RCW 59.20.030, unless the lot is receiving individually storm or surface water sewer system or sanitary sewage system services or the landlord voluntarily elects to continue the rates, charges, noncapital fees, or other costs during the period the lot is vacant.

(3)(a) The rate a city or town may charge under this section for storm or surface water sewer systems or the portion of the rate allocable to the storm or surface water sewer system of combined sanitary sewage and storm or surface water sewer systems shall be reduced by a minimum of ten percent for any new or remodeled commercial building that utilizes a permisive rainwater harvesting system. Rainwater harvesting systems shall be properly sized to utilize the available roof surface of the building. The jurisdiction shall consider rate reductions in excess of ten percent dependent upon the amount of rainwater harvested.

(b) No rates, charges, noncapital fees, or other costs may be charged for any vacant lot in a manufactured housing community, as defined in RCW 59.20.030, unless the lot is receiving individually storm or surface water sewer system or sanitary sewage system services or the landlord voluntarily elects to continue the rates, charges, noncapital fees, or other costs during the period the lot is vacant.

(4) Rates or charges for on-site inspection and maintenance services may not be imposed under this chapter on the development, construction, or reconstruction of property.

(5) A city or town may provide assistance to aid low-income persons in connection with services provided under this chapter.

(6) Under this chapter, after July 1, 1998, any requirements for pumping the septic tank of an on-site sewage system should be based, among other things, on actual measurement of accumulation of sludge and scum by a trained inspector, trained owner's agent, or trained owner. Training must occur in a program approved by the state board of health or by a local health officer.

(7) Before adopting on-site inspection and maintenance utility services, or incorporating residences into an on-site inspection and maintenance or sewer utility under this chapter, notification must be provided, prior to the applicable public hearing, to all residences within the proposed service area that have on-site systems permitted by the local health officer. The notice must clearly state that the residence is within the proposed service area and must provide information on estimated rates or charges that may be imposed for the service.
(8) A city or town shall not provide on-site sewage system inspection, pumping services, or other maintenance or repair services under this section unless the city or town is a public utility district. If the on-site system is connected by a publicly owned collection system to the city or town's sewerage system, and the on-site system represents the first step in the sewage disposal process. Nothing in this section shall affect the authority of state or local health officials to carry out their responsibilities under any other applicable law.

Sec. 4. RCW 35.92.010 and 2002 c 102 s 2 are each amended to read as follows:

A city or town may construct, condemn and purchase, purchase, acquire, add to, alter, maintain and operate waterworks, including fire hydrants as an integral utility service incorporated within general rates, within or without its limits, for the purpose of furnishing the city and its inhabitants, and any other persons, with an ample supply of water for all purposes, public and private, including water power and other power derived therefrom, with full power to regulate and control the use, distribution, and price thereof. PROVIDED, That the rates charged must be uniform for the same class of customers or service. Such waterworks may include facilities for the generation of electricity as a by-product and such electricity may be used by the city or town or sold to an entity authorized by law to distribute electricity. Such electricity is a by-product when the electrical generation is subordinate to the primary purpose of water supply.

In classifying customers served or service furnished, the city or town governing body may in its discretion consider any or all of the following factors: The difference in cost of service to the various customers; location of the various customers within and without the city or town; the difference in cost of maintenance, operation, repair, and replacement of the various parts of the system; the different character of the service furnished various customers; the quantity and quality of the water furnished; the time of its use; the achievement of water conservation goals and the discouragement of wasteful water use practices; capital contributions made to the system including, but not limited to, assessments; and any other matters which present a reasonable difference as a ground for distinction. No rate shall be charged which is less than the cost of the water and service to the class of customers served. No rates, charges, noncapital fees, or other costs may be charged for any vacant lot in a manufactured housing community, as defined in RCW 59.20.030, unless the lot is receiving individually water services or the landlord voluntarily elects to continue the rates, charges, noncapital fees, or other costs during the period the lot is vacant.

For such purposes any city or town may take, condemn and purchase, purchase, acquire, and retain water from any public or navigable lake or watercourse, surface or ground, and, by means of aqueducts or pipe lines, conduct it to the city or town; and it may erect and build dams or other works across or at the outlet of any lake or watercourse in this state for the purpose of storing and retaining water therein up to and above high water mark; and for all the purposes of erecting such aqueducts, pipe lines, dams, or waterworks or other necessary structures in storing and retaining water, or for any of the purposes provided for by this chapter, the city or town may occupy and use the beds and shores up to the high water mark of any such watercourse or lake, and acquire the right by purchase, or by condemnation and purchase, or otherwise, to any water, water rights, easements or privileges named in this chapter, or necessary for any of said purposes, and the city or town may acquire by purchase or condemnation and purchase any properties or privileges necessary to be had to protect its water supply from pollution. Should private property be necessary for any such purposes or for storing water above high water mark, the city or town may condemn and purchase, or purchase and acquire such private property. For the purposes of waterworks which include facilities for the generation of electricity as a by-product, nothing in this section may be construed to authorize a city or town that does not own or operate an electric utility system to condemn electric generating, transmission, or distribution rights or facilities of entities authorized by law to distribute electricity, or to acquire such rights or facilities without the consent of the owner.

Sec. 5. RCW 35.92.020 and 2003 c 394 s 2 are each amended to read as follows:

(1) A city or town may construct, condemn and purchase, purchase, acquire, add to, alter, maintain, and operate systems, plants, sites, or other facilities of sewerage as defined in RCW 35.67.010, or solid waste handling as defined by RCW 70.95.030. A city or town shall have full authority to manage, regulate, operate, control, and, except as provided in subsection (3) of this section, to fix the price of service and facilities of those systems, plants, sites, or other facilities within and without the limits of the city or town.

(2) Subject to subsection (3) of this section, the rates charged shall be uniform for the same class of customers or service and facilities. In classifying customers served or service and facilities furnished by a system or systems of sewerage, the legislative authority of the city or town may in its discretion consider any or all of the following factors:

(a) The difference in cost of service and facilities to customers;

(b) The location of customers within and without the city or town;

(c) The difference in cost of maintenance, operation, repair, and replacement of the parts of the system;

(d) The different character of the service and facilities furnished to customers;

(e) The quantity and quality of the sewage delivered and the time of its delivery;

(f) Capital contributions made to the systems, plants, sites, or other facilities, including but not limited to, assessments;

(g) The nonprofit public benefit status, as defined in RCW 24.03.490, of the land user; and

(h) Any other factors that present a reasonable difference as a ground for distinction.

(3)(a) The rate a city or town may charge under this section for storm or surface water sewer systems or the portion of the rate allocable to the storm or surface water sewer system of combined sanitary sewage and storm or surface water sewer systems shall be reduced by a minimum of ten percent for any new or remodeled commercial building that utilizes a permitted rainwater harvesting system. Rainwater harvesting systems shall be properly sized to utilize the available roof surface of the building. The jurisdiction shall consider rate reductions in excess of ten percent dependent upon the amount of rainwater harvested.

(b) No rates, charges, noncapital fees, or other costs may be charged for any vacant lot in a manufactured housing community, as defined in RCW 59.20.030, unless the lot is receiving individually storm or surface water sewer system or sanitary sewage system services or the landlord voluntarily elects to continue the rates, charges, noncapital fees, or other costs during the period the lot is vacant.

(4) Rates or charges for on-site inspection and maintenance services may not be imposed under this chapter on the development, construction, or reconstruction of property.

(5) A city or town may provide assistance to aid low-income persons in connection with services provided under this chapter.

Nothing in this section shall affect the authority of state on-site system represents the first step in the sewage disposal process. Nothing in this section shall affect the authority of state or local health officers to carry out their responsibilities under any other applicable law.

Sec. 6. RCW 36.89.080 and 2003 c 394 s 3 are each amended to read as follows:

1. Subject to subsections (2) and (3) of this section, any county legislative authority may provide by resolution for revenues by fixing rates and charges for the furnishing of service to those served or receiving benefits or to be served or to receive benefits from any storm water control facility or contributing to an increase of surface water runoff. In fixing rates and charges, the county legislative authority may in its discretion consider:

- Services furnished or to be furnished;
- Benefits received or to be received;
- The character and use of land or its water runoff characteristics;
- The nonprofit public benefit status, as defined in RCW 24.03.490, of the land user;
- Benefits received or provided benefits under this chapter, including senior citizens and ((disabled)) persons with disabilities; or
- Any other matters which present a reasonable difference as a ground for distinction.

2. The rate a county may charge under this section for storm water control facilities shall be reduced by a minimum of ten percent for any new or remodeled commercial building that utilizes a permit rainwater harvesting system. Rainwater harvesting systems shall be properly sized to utilize the available roof surface of the building. The jurisdiction shall consider rate reductions in excess of ten percent dependent upon the amount of rainwater harvested.

3. Rates and charges authorized under this section may not be imposed on lands taxed as forest land under chapter 84.33 RCW or as timber land under chapter 84.34 RCW.

4. No rates, charges, noncapital fees, or other costs may be charged for any vacant lot in a manufactured housing community, as defined in RCW 59.20.030, unless the lot is receiving individually storm water control facility services or the landlord voluntarily elects to continue the rates, charges, noncapital fees, or other costs during the period the lot is vacant.

5. The service charges and rates collected shall be deposited in a special fund or funds in the county treasury to be used only for the purpose of paying all or any part of the cost and expense of maintaining and operating storm water control facilities, all or any part of the cost and expense of planning, designing, establishing, acquiring, developing, constructing and improving any of such facilities, or to pay or secure the payment of all or any portion of any issue of general obligation or revenue bonds issued for such purpose.

Sec. 7. RCW 36.94.140 and 2005 c 324 s 2 are each amended to read as follows:

1. Every county, in the operation of a system of sewerage and/or water, shall have full jurisdiction and authority to manage, regulate, and control it. Except as provided in subsection (3) of this section, every county shall have full jurisdiction and authority to fix, alter, regulate, and control the rates and charges for the service and facilities to those to whom such service and facilities are available, and to levy charges for connection to the system.

2. The rates for availability of service and facilities, and connection charges so charged must be uniform for the same class of customers or service and facility. In classifying customers served, service furnished or made available by such system of sewerage and/or water, or the connection charges, the county legislative authority may consider any or all of the following factors:

- The difference in cost of service to the various customers within or without the area;
- The difference in cost of maintenance, operation, repair and replacement of the various parts of the systems;
- The different character of the service and facilities furnished various customers;
- The quantity and quality of the sewage and/or water delivered and the time of its delivery;
- Capital contributions made to the system or systems, including, but not limited to, assessments;
- The cost of acquiring the system or portions of the system in making system improvements necessary for the public health and safety;
- The nonprofit public benefit status, as defined in RCW 24.03.490, of the land user; and
- Any other matters which present a reasonable difference as a ground for distinction.

3. (a) The rate a county may charge under this section for storm or surface water sewer systems or the portion of the rate allocable to the storm or surface water sewer system of combined sanitary sewage and storm or surface water sewer systems shall be reduced by a minimum of ten percent for any new or remodeled commercial building that utilizes a permit rainwater harvesting system. Rainwater harvesting systems shall be properly sized to utilize the available roof surface of the building. The jurisdiction shall consider rate reductions in excess of ten percent dependent upon the amount of rainwater harvested.

(b) No rates, charges, noncapital fees, or other costs may be charged for any vacant lot in a manufactured housing community, as defined in RCW 59.20.030, unless the lot is receiving individually storm or surface water sewer system or sanitary sewage system services or the landlord voluntarily elects to continue the rates, charges, noncapital fees, or other costs during the period the lot is vacant.

4. A county may provide assistance to aid low-income persons in connection with services provided under this chapter.

5. The service charges and rates shall produce revenues sufficient to take care of the costs of maintenance and operation, revenue bond and warrant interest and principal amortization requirements, and all other charges necessary for the efficient and proper operation of the system.

6. A connection charge under this section for service to a manufactured housing community, as defined in RCW 59.20.030, applies to an individual lot within that community only if the system of water or sewerage provides and maintains the connection.
Sec. 8. RCW 54.24.080 and 1995 c 140 s 3 are each amended to read as follows:

(1) The commission of each district which shall have revenue obligations outstanding shall have the power and shall be required to establish, maintain, and collect rates or charges for electric energy and water and other services, facilities, and commodities sold, furnished, or supplied by the district. The rates and charges shall be fair and, except as authorized by RCW 74.38.070 and by subsections (2) and (3) of this section, nondiscriminatory, and shall be adequate to provide revenues sufficient for the payment of the principal of and interest on such revenue obligations for which the payment has not otherwise been provided and all payments which the district is obligated to set aside in any special fund or funds created for such purpose, and for the proper operation and maintenance of the public utility and all necessary repairs, replacements, and renewals thereof.

(2) The commission of a district may waive connection charges for properties purchased by low-income persons from organizations exempt from tax under section 501(c)(3) of the federal internal revenue code as amended prior to the July 23, 1995. Waivers of connection charges for the same class of electric or gas utility service must be uniformly applied to all qualified property. Nothing in this subsection (2) authorizes the impairment of a contract.

(3) In establishing rates or charges for water service, commissioners may in their discretion consider the achievement of water conservation goals and the discouragement of wasteful water use practices.

(4) No rates, charges, noncapital fees, or other costs may be charged for any vacant lot in a manufactured housing community, as defined in RCW 59.20.030, unless the lot is receiving individually electric energy or water services or the landlord voluntarily elects to continue the rates, charges, noncapital fees, or other costs during the period the lot is vacant.

Sec. 9. RCW 57.08.081 and 2003 c 394 s 6 are each amended to read as follows:

(1) Subject to RCW 57.08.005(((4)))(7), the commissioners of any district shall provide for revenues by fixing rates and charges for furnishing sewer and drainage service and facilities to those to whom service is available or for providing water, such rates and charges to be fixed as deemed necessary by the commissioners, so that uniform charges will be made for the same class of customer or service and facility. Rates and charges may be combined for the furnishing of more than one type of sewer or drainage service and facilities.

(2) In classifying customers of such water, sewer, or drainage system, the board of commissioners may in its discretion consider any or all of the following factors: The difference in cost to various customers; the location of the various customers within and without the district; the difference in cost of maintenance, operation, repair, and replacement of the various parts of the system; the different character of the service furnished various customers; the quantity and quality of the service and facility furnished; the time of its use; the achievement of water conservation goals and the discouragement of wasteful practices; capital contributions made to the system including but not limited to assessments; and any other matters which present a reasonable difference as a ground for distinction. Rates shall be established as deemed proper by the commissioners and as fixed by resolution and shall produce revenues sufficient to take care of the costs of maintenance and operation, revenue bond and warrant interest and principal amortization requirements, and all other charges necessary for efficient and proper operation of the system. No rates, charges, noncapital fees, or other costs may be charged for any vacant lot in a manufactured housing community, as defined in RCW 59.20.030, unless the lot is receiving individually water, sewer, or drainage system services or the landlord voluntarily elects to continue the rates, charges, noncapital fees, or other costs during the period the lot is vacant. Prior to furnishing services, a district may require a deposit to guarantee payment for services. However, failure to require a deposit does not affect the validity of any lien authorized by this section.

(3) The commissioners shall enforce collection of connection charges, and rates and charges for water supplied against property owners connecting with the system or receiving such water, and for sewer and drainage services charged against property to which and its owners to whom the service is available, such charges being deemed charges against the property served, by addition of penalties of not more than ten percent thereof in case of failure to pay the charges at times fixed by resolution. The commissioners may provide by resolution that where either connection charges or rates and charges for services supplied are delinquent for any specified period of time, the district shall certify the delinquencies to the auditor of the county in which the real property is located, and the charges and any penalties added thereto and interest thereon at the rate of not more than the prime lending rate of the district's bank plus four percentage points per year shall be a lien against the property upon which the service was received, subject only to the lien for general taxes.

(4) The district may, at any time after the connection charges or rates and charges for services supplied or available and penalties are delinquent for a period of sixty days, bring suit in foreclosure by civil action in the superior court of the county in which the real property is located. The court may allow, in addition to the costs and disbursements provided by statute, attorneys' fees, title search and report costs, and expenses as it adjudges reasonable. The action shall be in rem, and may be brought in the name of the district against an individual or against all of those who are delinquent in one action. The laws and rules of the court shall control as in other civil actions.

(5) In addition to the right to foreclose provided in this section, the district may also cut off all or part of the service after charges for water or sewer service supplied or available are delinquent for a period of thirty days.

(6) A district may determine how to apply partial payments on past due accounts.

(7) A district may provide a real property owner or the owner's designee with duplicate bills for service to tenants, or may notify an owner or the owner's designee that a tenant's service account is delinquent. However, if an owner or the owner's designee notifies the district in writing that a property served by the district is a rental property, asks to be notified of a tenant's delinquency, and has provided, in writing, a complete and accurate mailing address, the district shall notify the owner or the owner's designee of a tenant's delinquency in writing to the property owner or the owner's designee with duplicates of tenant utility service bills or notice that a tenant's utility account is delinquent, the district shall notify the tenant that it is providing the duplicate bills or delinquency notice to the owner or the owner's designee. After January 1, 1999, if a district fails to notify the owner of a tenant's delinquency after receiving a written request to do so and after receiving the other information required by this subsection (7), the district shall have no lien against the premises for the tenant's delinquent and unpaid charges."

"Sec. 1. RCW 46.20.161 and 2012 c 80 s 8 are each amended to read as follows:

(1) The department, upon receipt of a fee of forty-five dollars from October 1, 2012, to June 30, 2013, and fifty-four dollars after June 30, 2013, unless the driver's license is issued for a period other than five years from October 1, 2012, to June 30, 2013, or six years after June 30, 2013, in which case the fee shall be nine dollars for each year that the license is issued, which includes the fee for the required photograph, shall issue to every qualifying applicant a driver's license. A driver's license issued to a person under the age of eighteen is an intermediate license, subject to the restrictions imposed under RCW 46.20.075, until the person reaches the age of eighteen. The license must include a distinguishing number assigned to the licensee, the name of record, date of birth, Washington residence address, photograph, a brief description of the licensee, (and) either a facsimile of the signature of the licensee or a space upon which the licensee shall write his or her usual signature with pen and ink immediately upon receipt of the license, and, if applicable, the person's status as a veteran as provided in subsection (2) of this section. No license is valid until it has been so signed by the licensee.

(2) A person may apply to the department to obtain a veteran designation on a driver's license issued under this section by providing the United States department of defense discharge document, DD Form 214, as it exists on the effective date of this section, or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section, that shows a discharge status of "honorable" or "general under honorable conditions" that establishes the person's service in the armed forces of the United States.

Sec. 2. RCW 46.20.117 and 2012 c 80 s 6 are each amended to read as follows:

(1) Issuance. The department shall issue an identicard, containing a picture, if the applicant:

(a) Does not hold a valid Washington driver's license;
(b) Proves his or her identity as required by RCW 46.20.035; and
(c) Pays the required fee. Except as provided in subsection (5) of this section, the fee is forty-five dollars from October 1, 2012, to June 30, 2013, and fifty-four dollars after June 30, 2013, unless an applicant is a recipient of continuing public assistance grants under Title 74 RCW, who is referred in writing by the secretary of social and health services. For those persons the fee must be the actual cost of production of the identicard.

(2)(a) Design and term. The identicard must:

(i) Be distinctly designed so that it will not be confused with the official driver's license; and

(ii) Except as provided in subsection (5) of this section, expire on the sixth anniversary of the applicant's birthdate after issuance.

(b) The identicard may include the person's status as a veteran, consistent with RCW 46.20.161(2).

(3) Renewal. An application for identicard renewal may be submitted by means of:

(a) Personal appearance before the department; or
(b) Mail or electronic commerce, if permitted by rule of the department and if the applicant did not renew his or her identicard by mail or by electronic commerce when it last expired.

An identicard may not be renewed by mail or by electronic commerce unless the renewal issued by the department includes a photograph of the identicard holder.

(4) Cancellation. The department may cancel an identicard if the holder of the identicard used the card or allowed others to use the card in violation of RCW 46.20.0921.

(5) Alternative issuance/renewal/extension. The department may issue or renew an identicard for a period other than five years from October 1, 2012, to June 30, 2013, or six years after June 30, 2013, or may extend by mail or electronic commerce an identicard that has already been issued, in order to evenly distribute, as nearly as possible, the yearly renewal rate of identicard holders. The fee for an identicard issued or renewed for a period other than five years from October 1, 2012, to June 30, 2013, or six years after June 30, 2013, that has been extended by mail or electronic commerce, is nine dollars for each year that the identicard is issued, renewed, or extended. The department may adopt any rules as are necessary to carry out this subsection.

ESB 5964 Prime Sponsor, Senator Fain: Concerning training public officials and employees regarding public records, records management, and open public meetings requirements. Reported by Committee on Government Operations & Elections

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the rights of citizens to observe the actions of their public officials and to have timely access to public records are the underpinnings of democracy
and are essential for meaningful citizen participation in the democratic process. All too often, however, violations of the requirements of the public records act and the open public meetings act by public officials and agencies result in citizens being denied this important information and materials to which they are legally entitled. Such violations are often the result of inadvertent error or a lack of knowledge on the part of officials and agencies regarding their legal duties to the public pursuant to these acts. Also, whether due to error or ignorance, violations of the public records act and open public meetings act are very costly for state and local governments, both in terms of litigation expenses and administrative costs. The legislature also finds that the implementation of simple, cost-effective training programs will greatly increase the likelihood that public officials and agencies will better serve the public by improving citizen access to public records and encouraging public participation in governmental deliberations. Such improvements in public service will, in turn, enhance the public's trust in its government and result in significant cost savings by reducing the number of violations of the public records act and open public meetings act.

NEW SECTION. Sec. 2. A new section is added to chapter 42.30 RCW to read as follows:

(1) Every member of the governing body of a public agency must complete training on the requirements of this chapter no later than ninety days after the date the member either:

(2) Officials required to complete training under this section may complete their training before assuming office but must:

(c) A law enforcement officer has probable cause to believe that the property is directly or indirectly dangerous to health or safety; or
(d) The law enforcement officer has probable cause to believe that the property was used or is intended to be used in violation of this chapter.
(5) In the event of seizure under subsection (4) of this section, proceedings for forfeiture shall be deemed commenced by the seizure. The law enforcement agency under whose authority the seizure was made shall cause notice to be served within fifteen days following the seizure on the owner of the property seized and the person in charge thereof and any person having any known right or interest therein, of the seizure and intended forfeiture of the seized property. The notice may be served by any method authorized by law or court rule including but not limited to service by certified mail with return receipt requested. Service by mail shall be deemed complete upon mailing within the fifteen day period following the seizure.
(6) If no person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of seized items within forty-five days of the seizure, the item seized shall be deemed forfeited.

The hearing before an administrative law judge and any appeal therefrom shall be under Title 34 RCW. In a court hearing between two or more claimants to the article or articles involved, the prevailing party shall be entitled to a judgment for costs and reasonable attorney's fees. The burden of producing evidence shall

The proceeds and all moneys forfeited under this chapter shall be used for payment of all proper expenses of the investigation leading to the seizure, including any money delivered to the subject of the investigation by the law enforcement agency, and of the proceedings for forfeiture and sale, including expenses of seizure, maintenance of custody, advertising, actual costs of the prosecuting or city attorney, and court costs. Fifty percent of the money remaining after payment of these expenses shall be deposited in the state general fund and fifty percent shall be deposited in the general fund of the state, county, or city of the seizing law enforcement agency); or

(c) The value of sold forfeited property is the sale price. The value of retained forfeited property is the fair market value of the property at the time of seizure determined when possible by reference to an applicable commonly used index. A seizing agency may use, but need not use, an independent qualified appraiser to determine the value of retained property. If an appraiser is used, the value of the property appraised is net of the cost of the appraisal. The value of destroyed property and retained firearms or illegal property is zero.

(11) Forfeited property and net proceeds not required to be paid to the state treasurer under this chapter shall be used for payment of all proper expenses of the investigation leading to the seizure, including any money delivered to the subject of the investigation by the law enforcement agency, and of the proceedings for forfeiture and sale, including expenses of seizure, maintenance of custody, advertising, actual costs of the prosecuting or city attorney, and court costs. Money remaining after payment of these expenses shall be retained by the seizing law enforcement agency for the exclusive use of enforcing the provisions of this chapter or chapter 9A.88 RCW.
appurtenances or improvements which are being used with the knowledge of the owner for a violation of RCW 9.68A.100, 9.68A.101, or 9A.88.070, or which have been acquired in whole or in part with proceeds traceable to an exchange or series of exchanges in violation of RCW 9.68A.100, 9.68A.101, or 9A.88.070, if a substantial nexus exists between the violation and the real property. However:

(i) No property may be forfeited pursuant to this subsection (i)(g), to the extent of the interest of an owner, by reason of any act or omission committed or omitted without the owner's knowledge or consent;

(ii) A forfeiture of real property encumbered by a bona fide security interest is subject to the interest of the secured party if the secured party, at the time the security interest was created, neither had knowledge of nor consented to the act or omission.

(2) Real or personal property subject to forfeiture under this section may be seized by any law enforcement officer of this state upon process issued by any superior court having jurisdiction over the property. Seizure of real property shall include the filing of a lis pendens by the seizing agency. Real property seized under this section shall not be transferred or otherwise conveyed until ninety days after seizure or until a judgment of forfeiture is entered, whichever is later: PROVIDED, That real property seized under this section may be transferred or conveyed to any person or entity who acquires title by foreclosure or deed in lieu of foreclosure of a security interest. (3) In the event of seizure pursuant to subsection (2) of this section, proceedings for forfeiture shall be deemed commenced by the seizure. The law enforcement agency under whose authority the seizure was made shall cause notice to be served within fifteen days following the seizure on the owner of the property seized and the person in charge thereof and any person having any known right or interest therein, including any community property interest, of the seizure and intended forfeiture of the seized property. Service of notice of seizure of real property shall be made according to the rules of civil procedure. However, the state may not obtain a default judgment against a party who is served by substituted service absent an affidavit stating that a good faith effort has been made to ascertain if the defaulted party is incarcerated within the state, and that there is no present basis to believe that the party is incarcerated within the state. Notice of seizure in the case of property subject to a security interest that has been perfected by filing a financing statement, or a certificate of title, shall be made by service upon the secured party or the secured party's assignee at the address shown on the financing statement or the certificate of title. The notice of seizure in other cases may be served by any method authorized by law or court rule including, but not limited to, service by certified mail with return receipt requested. Service by mail shall be deemed complete upon mailing within the fifteen day period following the seizure.

(4) If no person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of items specified in subsection (1) of this section within forty-five days of the service of notice from the seizing agency in the case of personal property and ninety days in the case of real property, the item seized shall be deemed forfeited. The community property interest in real property of a person whose spouse or domestic partner committed a violation giving rise to seizure of the real property may not be forfeited if the person did not participate in the violation.

(5) If any person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of items specified in subsection (1) of this section within forty-five days of the service of notice from the seizing agency in the case of personal property and ninety days in the case of real property, the person or persons shall be afforded a reasonable opportunity to be heard as to the claim or right. Service by mail shall be deemed complete upon mailing within the forty-five day period following service of the notice of seizure in the case of personal property and within the ninety day period following service of the notice of seizure in the case of real property. The hearing shall be before the chief law enforcement officer of the seizing agency or the chief law enforcement officer's designee, except where the seizing agency is a state agency as defined in RCW 34.12.020(4), the hearing shall be before the chief law enforcement officer of the seizing agency or an administrative law judge appointed under chapter 34.12 RCW, except that any person asserting a claim or right may remove the matter to a court of competent jurisdiction. Removal of any matter involving personal property may only be accomplished according to the rules of civil procedure. The person seeking removal of the matter must serve process against the state, county, political subdivision, or municipality that operates the seizing agency, and any other party of interest, in accordance with RCW 4.28.080 and 4.92.020, within forty-five days after the person seeking removal has notified the seizing law enforcement agency of the person's claim of ownership or right to possession. The court to which the matter is to be removed shall be the district court when the aggregate value of personal property is within the jurisdictional limit set forth in RCW 3.66.020. A hearing before the seizing agency and any appeal therefrom shall be under Title 34 RCW. In all cases, the burden of proof is upon the law enforcement agency to establish, by a preponderance of the evidence, that the property is subject to forfeiture.

The seizing law enforcement agency shall promptly return the article or articles to the claimant upon a determination by the administrative law judge or court that the claimant is the present lawful owner or is lawfully entitled to possession thereof of items specified in subsection (1) of this section.

(6) In any proceeding to forfeit property under this title, where the claimant substantially prevails, the claimant is entitled to reasonable attorneys' fees reasonably incurred by the claimant. In addition, in a court hearing between two or more claimants to the article or articles involved, the prevailing party is entitled to a judgment for costs and reasonable attorneys' fees.

(7) When property is forfeited under this chapter, the seizing law enforcement agency ((shall sell the property that is not required to be destroyed by law and that is not harmful to the public) may:

(a) Retain it for official use or upon application by any law enforcement agency of this state release the property to that agency for the exclusive use of enforcing this chapter or chapter 9.68A RCW;

(b) Sell that which is not required to be destroyed by law and which is not harmful to the public; or

(c) Request the appropriate sheriff or director of public safety to take custody of the property and remove it for disposition in accordance with law.

(8)(a) When property is forfeited, the seizing agency shall keep a record indicating the identity of the prior owner, if
known, a description of the property, the disposition of the
property, the value of the property at the time of seizure, and the
amount of proceeds realized from disposition of the property.

(b) Each seizing agency shall retain records of forfeited
property for at least seven years.

(c) Each seizing agency shall file a report including a
copy of the records of forfeited property with the state treasurer
each calendar quarter.

(d) The quarterly report need not include a record of
forfeited property that is still being held for use as evidence during
the investigation or prosecution of a case or during the appeal from
a conviction.

(9)(a) By January 31st of each year, each seizing agency
shall remit to the state treasurer an amount equal to ten percent
of the net proceeds of any property forfeited during the preceding
year. Money remitted shall be deposited in the
prostitution prevention and intervention account under RCW
43.63A.740.

(b) The net proceeds of forfeited property is the value of
the forfeitable interest in the property after deducting the cost of
satisfying any bona fide security interest to which the property
is subject at the time of seizure; and in the case of sold property, after
deducting the cost of sale, including reasonable fees or
commissions paid to independent selling agents, and the cost of
any valid landlord's claim for damages under subsection (((11)))
(12) of this section.

(c) The value of sold forfeited property is the sale price.
The value of destroyed property and retained firearms or illegal
property is zero.

(10) Net proceeds not required to be paid to the state
treasurer shall be used for payment of all proper expenses of the
investigation leading to the seizure, including any money delivered
to the subject of the investigation by the law enforcement agency,
and of the proceedings for forfeiture and sale, including expenses
of seizure, maintenance of custody, advertising, actual costs of the
prosecuting or city attorney, and court costs. Money remaining
after payment of these expenses shall be retained by the seizing
law enforcement agency for the exclusive use of enforcing the
provisions of this chapter or chapter 9.68A RCW.

(11) Upon the entry of an order of forfeiture of real
property, the court shall forward a copy of the order to the assessor
of the county in which the property is located. Orders for the
forfeiture of real property shall be entered by the superior court,
subject to court rules. Such an order shall be filed by the seizing
agency in the county auditor's records in the county in which the
real property is located.

((11)) (12) A landlord may assert a claim against
proceeds from the sale of assets seized and forfeited under
subsection (9) of this section, only if:

(a) A law enforcement officer, while acting in his or her
official capacity, directly caused damage to the complaining
landlord's property while executing a search of a tenant's residence;

(b) The landlord has applied any funds remaining in the
tenant's deposit, to which the landlord has a right under chapter
59.18 RCW, to cover the damage directly caused by a law
enforcement officer prior to asserting a claim under the provisions
of this section:

(i) Only if the funds applied under (b) of this subsection
are insufficient to satisfy the damage directly caused by a law
enforcement officer, may the landlord seek compensation for the
damage by filing a claim against the governmental entity under
whose authority the law enforcement agency operates within thirty
days after the search;

(ii) Only if the governmental entity denies or fails to
respond to the landlord's claim within sixty days of the date of
filing, may the landlord collect damages under this subsection by
that focus on reducing nutrient inputs from human activities affecting the aquatic ecosystem, such as decreasing nutrients into storm water sewers, decreasing fertilizer application, promoting the proper disposal of pet waste, promoting the use of vegetative borders, promoting the reduction of nutrients from on-site septic systems where appropriate, and protecting riparian areas. Organic debris, including vegetation, driftwood, seaweed, kelp, and organisms, are extremely important to beach ecosystems. (3) The legislature further finds that it is in the public interest to promote the conservation and stewardship of shorelines and upland properties adjoining lakes and beaches in order to: (a) Conserve natural or scenic resources; (b) protect riparian habitats and water quality; (c) promote conservation of soils, wetlands, shorelines, or tidal marshes; (d) enhance the value of lakes or beaches to the public as well as the benefit of abutting or neighboring parks, forests, wildlife preserves, nature reservations or sanctuaries, or other open space; (e) enhance recreation opportunities; (f) preserve historic sites; and (g) protect visual quality along highway, road, street, trail, recreation trail, and other corridors or scenic vistas. (4) It is the purpose of this chapter to establish a governmental mechanism by which property owners can embark on a program of lake or beach improvement and maintenance for their and the general public's benefit, health, and welfare. Public property, including state property, shall be considered the same as private property in this chapter, except liens for special assessments and liens for rates and charges shall not extend to public property. Lake bottom property and marine property below the line of the ordinary high water mark shall not be considered to be benefitted, shall not be subject to special assessments or rates and charges, and shall not receive voting rights under this chapter. Sec. 2. RCW 36.61.020 and 2008 c 301 s 3 are each amended to read as follows: (1) Any county may create lake or beach management districts to finance: (a) The improvement and maintenance of lakes or beaches located within or partially within the boundaries of the county; and (b) the acquisition of real property or property rights within or outside a lake or beach management district including, by way of example, conservation easements authorized under RCW 64.04.130, and to promote the conservation and stewardship of shorelines as well as the conservation and stewardship of upland properties adjoining lakes or beaches for conservation or for minimal development. All or a portion of a lake or beach and the adjacent land areas may be included within one or more lake or beach management districts. More than one lake or beach, or portions of lakes or beaches, and the adjacent land areas may be included in a single lake or beach management district. (2) For the purposes of this chapter, the term "improvement" includes, among other things, the acquisition of real property and property rights within or outside a lake or beach management district for the purposes set forth in RCW 36.61.010 and this section. (3) Special assessments or rates and charges may be imposed on the property included within a lake or beach management district for the duration of the lake or beach management district without a related issuance of lake or beach management district bonds or revenue bonds. Special assessments also may be imposed in the manner of special assessments in a local improvement district with each landowner being given the choice of paying the entire special assessment in one payment, or to paying installments, with lake or beach management district bonds being issued to obtain moneys not derived from the sale of lake or beach management district bonds. NEW SECTION. Sec. 3. A new section is added to chapter 36.61 RCW to read as follows: A proposal to acquire real property or property rights within or outside of a lake or beach management district in accordance with RCW 36.61.020 must, prior to the acquisition of the real property or property rights, have the written approval of a majority of the property owners of the district, as determined by the tax rolls of the county assessor. Sec. 4. RCW 36.61.070 and 2008 c 301 s 9 are each amended to read as follows: (1) After the public hearing, the county legislative authority may adopt a resolution submitting the question of creating the lake or beach management district to the owners of land within the proposed lake or beach management district, including publicly owned land, if the county legislative authority finds that it is in the public interest to create the lake or beach management district and the financing of the lake or beach improvement and maintenance activities is feasible. The resolution shall also include: (((4))) (q) A plan describing the proposed lake or beach improvement and maintenance activities which avoid adverse impacts on fish and wildlife and provide for appropriate measures to protect and enhance fish and wildlife; (((2))) (b) the number of years the lake or beach management district will exist; (((3))) (c) the amount to be raised by special assessments or rates and charges; (((4))) (d) if special assessments are to be imposed, whether the special assessments shall be imposed annually for the duration of the lake or beach management district or only once with the possibility of installment being imposed and lake or beach management bonds being issued, or both, and, if both types of special assessments are proposed to be imposed, the lake or beach improvement or maintenance activities proposed to be financed by each type of special assessment; (((5))) (e) if rates and charges are to be imposed, a description of the proposed rates and charges and the possibility of revenue bonds being issued that are payable from the rates and charges; and (((6))) (f) the estimated special assessment or rate and charge proposed to be imposed on each parcel included in the proposed lake or beach management district. (2) No lake or beach management district may be created by a county that includes territory located in another county without the approval of the legislative authority of the other county. Sec. 5. RCW 36.61.220 and 2008 c 301 s 21 are each amended to read as follows: Within ((fifteen)) thirty days after a county creates a lake or beach management district, the county shall cause to be filed with the county treasurer, a description of the lake or beach improvement and maintenance activities proposed that the lake or beach management district finances, the lake or beach management district number, and a copy of the diagram or print showing the boundaries of the lake or beach management district and preliminary special assessment roll or abstract of the same showing thereon the lots, tracts, parcels of land, and other property that will be specially benefitted thereby and the estimated cost and expense of such lake or beach improvement and maintenance activities to
be borne by each lot, tract, parcel of land, or other property. The treasurer shall immediately post the proposed special assessment roll upon his or her index of special assessments against the properties affected by the lake or beach improvement or maintenance activities.

Sec. 6. RCW 36.61.250 and 1985 c 398 s 25 are each amended to read as follows:

Except when lake or beach management district bonds are outstanding or when an existing contract might otherwise be impaired, the county legislative authority may stop the imposition of annual special assessments if, in its opinion, the public interest will be served by such action.

Sec. 7. RCW 36.61.260 and 2008 c 301 s 23 are each amended to read as follows:

(1) Counties may issue lake or beach management district revenue bonds in accordance with this section. Lake or beach management district bonds may be issued to obtain money sufficient to cover that portion of the special assessments that are not paid within the thirty-day period provided in RCW 36.61.190.

(2) Whenever lake or beach management district revenue bonds are proposed to be issued, the county legislative authority shall create a special fund or funds for the lake or beach management district from which all or a portion of the costs of the lake or beach improvement and maintenance activities shall be paid. Lake or beach management district bonds shall not be issued in excess of the costs and expenses of the lake or beach improvement and maintenance activities and shall not be issued prior to twenty days after the thirty days allowed for the payment of special assessments without interest or penalties.

(3) Lake or beach management district revenue bonds shall be exclusively payable from the special fund or funds and from a guaranty fund that the county may have created out of a portion of proceeds from the sale of the lake or beach management district bonds.

((24a)) (4) Lake or beach management district revenue bonds shall not constitute a general indebtedness of the county issuing the bond nor an obligation, general or special, of the state. The owner of any lake or beach management district revenue bond shall not have any claim for the payment thereof against the county that issues the bonds except for: (i) With respect to revenue bonds payable from special assessments, payment from the special assessments made for the lake or beach improvement or maintenance activities for which the lake or beach management district bond was issued and from the special fund or funds, and a lake or beach management district guaranty fund, that may have been created; and (ii) with respect to revenue bonds payable from rates and charges, payment from rates and charges deposited in the special fund or funds that the county may have created for that purpose. Revenue bonds may be payable from both special assessments and from rates and charges. The county shall not be liable to the owner of any lake or beach management district bond for any loss to (the) a lake or beach management district guaranty fund occurring in the lawful operation of the fund. The owner of a lake or beach management district bond shall not have any claim against the state arising from the lake or beach management district bond, rates and charges, special assessments, or guaranty fund. Tax revenues shall not be used to secure or guarantee the payment of the principal of or interest on lake or beach management district bonds. Notwithstanding the provisions of this subsection, nothing in this section may be interpreted as limiting a county's issuance of bonds pursuant to RCW 36.67.010 in order to assist in the financing of improvements to lakes or beaches located within or partially within the boundaries of the county, including without limitation lakes or beaches located within a lake or beach management district.

(b) The substance of the limitations included in this subsection (4) shall be plainly printed, written, engraved, or reproduced on: ((4)(i)) (i) Each lake or beach management district bond that is a physical instrument; ((4)(ii)) (ii) the official notice of sale; and ((4)(iii)) (iii) each official statement associated with the lake or beach management district bonds.

((4)) (5) If the county fails to make any principal or interest payments on any lake or beach management district bond or to promptly collect any special assessment securing ((the)) lake or beach management district revenue bonds when due, the owner of the lake or beach management district revenue bond may obtain a writ of mandamus from any court of competent jurisdiction requiring the county to collect the special assessments, foreclose on the related lien, and make payments out of the special fund or guaranty fund if one exists. Any number of owners of lake or beach management districts may join as plaintiffs.

((4)) (6) A county may create a lake or beach management district bond guaranty fund for each issue of lake or beach management district bonds. The guaranty fund shall only exist for the life of the lake or beach management district bonds with which it is associated. A portion of the bond proceeds may be placed into a guaranty fund. Unused moneys remaining in the guaranty fund during the last two years of the installments shall be used to proportionally reduce the required level of installments and shall be transferred into the special fund into which installment payments are placed. A county may, in the discretion of the legislative authority of the county, deposit amounts into a lake or beach management district bond guaranty fund from any money legally available for that purpose. Any amounts remaining in the guaranty fund after the repayment of all revenue bonds secured thereby and the payment of assessment installments, may be applied to lake or beach improvement and maintenance activities or to other district purposes.

((7)) (7) Lake or beach management district bonds shall be issued and sold in accordance with chapter 39.46 RCW. The authority to create a special fund or funds shall include the authority to create accounts within a fund.

Sec. 8. RCW 36.61.030 and 2008 c 301 s 5 are each amended to read as follows:

A lake or beach management district may be initiated upon either the adoption of a resolution of intention by a county legislative authority or the filing of a petition signed by ten landowners or the owners of at least ((fifteen)) twenty percent of the acreage contained within the proposed lake or beach management district, whichever is greater. A petition or resolution of intention shall set forth: (1) The nature of the lake or beach improvement or maintenance activities proposed to be financed; (2) the amount of money proposed to be raised by special assessments or rates and charges; (3) if special assessments are to be imposed, whether the special assessments will be imposed annually for the duration of the lake or beach management district, or the full special assessments will be imposed at one time, with the possibility of installments being made to finance the issuance of lake or beach management district bonds, or both methods; (4) if rates and charges are to be imposed, the annual amount of revenue proposed to be collected and whether revenue bonds payable from the rates and charges are proposed to be issued; (5) the number of years proposed for the duration of the lake or beach management district; and (6) the proposed boundaries of the lake or beach management district.

The county legislative authority may require the posting of a bond of up to five thousand dollars before the county considers the proposed creation of a lake or beach management district initiated by petition. The bond may only be used by the county to finance its costs in studying, holding hearings, making notices, preparing special assessment rolls or rolls showing the
rates and charges on each parcel, and conducting elections related to the lake or beach management district if the proposed lake or beach management district is not created.

A resolution of intention shall also designate the number of the proposed lake or beach management district, and fix a date, time, and place for a public hearing on the formation of the proposed lake or beach management district. The date for the public hearing shall be at least thirty days and no more than ninety days after the adoption of the resolution of intention unless an emergency exists.

Petitions shall be filed with the county legislative authority. The county legislative authority shall determine the sufficiency of the signatures, which shall be conclusive upon all persons. No person may withdraw his or her name from a petition after it is filed. If the county legislative authority determines a petition to be sufficient and the proposed lake or beach management district appears to be in the public interest and the financing of the lake or beach improvement or maintenance activities is feasible, it shall adopt a resolution of intention, setting forth all of the details required to be included when a resolution of intention is initiated by the county legislative authority.

NEW SECTION. Sec. 9. A new section is added to chapter 36.61 RCW to read as follows:

(1) In connection with the acquisition of real property or property rights within or outside a lake or beach management district, a county may: (a) Own real property and property rights, including without limitation conservation easements; (b) transfer real property and property rights to another state or local governmental entity; (c) contract with a public or private entity, including without limitation a financial institution with trust powers, a municipal corporation, or a nonprofit corporation, to hold real property or property rights such as conservation easements in trust for the purposes of the lake and beach management district, and, in connection with those services, to pay the reasonable costs of that financial institution or nonprofit corporation; (d) monitor and enforce the terms of a real property right such as a conservation easement, or for that purpose to contract with a public or private entity, including without limitation a financial institution with trust powers, a municipal corporation, or a nonprofit corporation; (e) impose terms, conditions, and encumbrances upon real property or property rights acquired in respect of a lake or beach management district, and amend the same; and (f) accept gifts, grants, and loans in connection with the acquisition of real property and property rights for lake or beach management district purposes.

(2) If a county contracts with a financial institution, municipal corporation, or nonprofit corporation to hold that property or property rights in trust for purposes of the district, the terms of the contract must provide that the financial institution, municipal corporation, or nonprofit corporation may not sell, pledge, or hypothecate the property or property rights for any purpose, and must further provide for the return of the property or property rights back to the county in the event of a material breach of the terms of the contract.

(3) Before a lake or beach management district in existence as of the effective date of this section exercises the powers set forth in this section, the legislative authority of the county must provide for an amended resolution of intention and modify the plan for the district, with a public hearing, all as provided in RCW 36.61.050.

Sec. 10. RCW 36.61.170 and 2008 c 301 s 18 are each amended to read as follows:

(1) The total annual special assessments may not exceed the estimated cost of the lake or beach improvement or maintenance activities proposed to be financed by such special assessments, as specified in the resolution of intention. The total of special assessments imposed in a lake or beach management district that are of the nature of special assessments imposed in a local improvement district shall not exceed one hundred fifty percent of the estimated total cost of the lake or beach improvement or maintenance activities that are proposed to be financed by the lake or beach management district as specified in the resolution of intention.

(2) After a lake or beach management district has been created, the resolution of intention may be amended to increase or otherwise modify the amount to be financed by the lake or beach management district by using the same procedure in which a lake or beach management district is created, including landowner approvals consistent with the procedures established in RCW 36.61.080 through 36.61.100.

NEW SECTION. Sec. 11. A new section is added to chapter 36.61 RCW to read as follows:

(1) Except when lake or beach management district bonds are outstanding or when an existing contract might otherwise be impaired, a lake or beach management district may be dissolved either by: The county legislative authority upon a finding that the purposes of the district have been accomplished; or a vote of the property owners within the district, if proposed by the legislative authority of the county or through the filing of a sufficient petition signed by the owners of at least twenty percent of the acreage within the district.

(2) If the question of dissolution of a district is submitted to property owners, the balloting is subject to the following conditions, which must be included in the instructions mailed with each ballot, as provided in RCW 36.61.080:

(a) A ballot must be mailed to each owner or reputed owner of any lot, tract, parcel of land, or other property within the district, with the ballot weighted so that a property owner has one vote for each dollar of special assessment or rates and charges imposed on his or her property;

(b) A ballot must be signed by the owner or reputed owner of property according to the assessor's tax rolls;

(c) Each ballot must be returned to the county legislative authority no later than 5:00 p.m. of a specified day, which must be at least twenty, but not more than thirty days after the ballots are mailed; and

(d) Each property owner must mark his or her ballot for or against the dissolution of the district.

(3) If, following the tabulation of the valid ballots, a simple majority of the votes cast are in favor of dissolving the district, the district must be dissolved on the date established in the ballot proposition.

(4) A county, although not separately responsible for satisfying the financial obligations of a dissolved district, has full authority to continue imposing special assessments, rates, and charges for a dissolved district until all financial obligations of the district incurred prior to its dissolution have been extinguished or retired."

SB 6045 Prime Sponsor, Senator Brown: Promoting economic development through enhancing
transparency and predictability of state agency permitting and review processes. Reported by Committee on Government Operations & Elections

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. On December 30, 2013, the Washington state auditor's office issued a performance audit report, finding that state agencies could shorten the time it takes to submit, review, and make decisions on business permit applications through simple improvements. In response to the performance audit findings, the legislature intends to improve the predictability and efficiency of permit decisions by making information about permitting assistance and timelines more readily available to the public. The legislature finds that providing citizens and businesses with better information about permit decisions will assist their planning and decision making, promoting economic development. Making permit performance data readily accessible to citizens helps them hold government accountable to a high level of customer service and timeliness. Finally, requiring agencies to track the time it takes to issue permits equips agency leaders with key information that can assist them in improving overall project schedules, better allocating resources, and identifying additional opportunities to better serve the public.

NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(2)(a) Each agency shall track and record the time it takes to make permitting decisions.

(b) Agencies are encouraged to track all relevant information that can assist Washington businesses in determining how long a permit process will take so that the businesses may successfully plan their activities and make sound investment choices, reduce permitting costs to the taxpayers in the form of unnecessary or duplicate staff work, and avoid permitting decision delays that can result in higher costs and lost revenue.

(c) At a minimum, each agency shall track and record the following information for each permit application it receives or decision it issues:
(i) The application completion time, which is the time elapsed from the initial submission of an application by an entity seeking a permit to the time at which the agency has determined that the application is complete; and
(ii) The permit decision time, which is the time elapsed from receipt of a complete application to the agency's issuance of a decision approving or denying the permit.

(3) Each agency shall calculate, for each permit it has identified in its inventory, the following performance data:
(a) The average application completion and permit decision times for each permit, as measured by the times tracked for ninety percent of applications or permit decisions, excluding the five percent that took the shortest and the five percent that took the longest;
(b) The maximum application completion time, excluding applications that were withdrawn or never completed; and
(c) The maximum permit decision time.

(4) Each agency shall report to the office, as provided in this subsection (4).
(a) By March 1, 2016, each agency shall report the times calculated under subsection (3) of this section for the period from January 1, 2015, to January 1, 2016.

(5) The office shall make available to the legislature, upon request, the individual agency reports submitted under subsection (4) of this section.

NEW SECTION. Sec. 4. (1) To provide meaningful customer service that informs project planning and decision making by the citizens and businesses served, each agency must make available to permit applicants the following information through a link from the agency's web site to the office's web site, as provided in subsection (4) of this section:
(a) A list of the types of permit assistance available and how such assistance may be accessed;
(b) An estimate of the time required by the agency to process a permit application and issue a decision;
(c) Other tools to help applicants successfully complete a thorough application, such as:
(i) Examples of model completed applications;
(ii) Examples of approved applications, appropriately redacted to remove sensitive information; and
(iii) Checklists for ensuring a complete application.
(2) Each agency shall update at reasonable intervals the information it posts pursuant to this section.
(3)(a) Agencies must post the information required under subsection (1) of this section for all permits as soon as practicable, and no later than the deadlines established in this section.

(d) Agencies must consider the customer experience in ensuring all permit assistance information is simple to use, easy to access, and designed in a customer-friendly manner.
Sec. 6. To ensure agencies can post the required information online with minimal expenditure of agency resources, the office of the chief information officer shall, in consultation with the office of regulatory assistance, establish a central repository of this information, hosted on the office of regulatory assistance's web site. Each agency shall include at least one link to the central repository from the agency's web site. Agencies shall place the link or links in such locations as the agency deems will be most customer-friendly and maximize accessibility of the information to users of the web site.

(5) The office shall ensure the searchability of the information posted on the central repository, applying industry best practices such as search engine optimization, to ensure that the permit performance and assistance information is readily findable and accessible by members of the public.

NEW SECTION. Sec. 5. (1) By September 30th of 2016 and each even-numbered year thereafter up to and including 2020, the office shall publish a comprehensive progress report to the economic development committees of the house of representatives and the senate and to the governor on the performance of agencies in tracking permit timelines and other efforts to improve clarity and predictability of regulatory permitting. The report must include at a minimum for each agency a summary of the data reported by the agency to the office under section 3(4) of this act.

Sec. 6. RCW 43.17.385 and 2005 c 384 s 3 are each amended to read as follows:

(1) Each state agency shall, within available funds, develop and implement a quality management, accountability, and performance system to improve the public services it provides.

(2) Each agency shall ensure that managers and staff at all levels, including those who directly deliver services, are engaged in the system and shall provide managers and staff with the training necessary for successful implementation.

(3) Each agency shall, within available funds, ensure that its quality management, accountability, and performance system:

(a) Uses strategic business planning to establish goals, objectives, and activities consistent with the priorities of government, as provided in statute;

Sec. 6. To ensure agencies can post the required information online with minimal expenditure of agency resources, the office of the chief information officer shall, in consultation with the office of regulatory assistance, establish a central repository of this information, hosted on the office of regulatory assistance's web site. Each agency shall include at least one link to the central repository from the agency's web site. Agencies shall place the link or links in such locations as the agency deems will be most customer-friendly and maximize accessibility of the information to users of the web site.

"Sec. 1. RCW 43.43.842 and 2007 c 387 s 4 are each amended to read as follows:

(1)(a) The secretary of social and health services and the secretary of health shall adopt additional requirements for the licensure or relicensure of agencies, facilities, and licensed individuals who provide care and treatment to vulnerable adults, including nursing pools registered under chapter 18.52C RCW. These additional requirements shall ensure that any person associated with a licensed agency or facility having unsupervised access with a vulnerable adult shall not be the respondent in an active protective order under RCW 74.34.130, nor have been: (i) Convicted of a crime against persons as defined in RCW
43.43.830, except as provided in this section; (ii) convicted of
crimes relating to financial exploitation as defined in RCW
43.43.830, except as provided in this section; or (iii) found in any
disciplinary board final decision to have abused a vulnerable adult
under RCW 43.43.830.

(b) A person associated with a licensed agency or facility
who has unsupervised access with a vulnerable adult shall make
the disclosures specified in RCW 43.43.834(2). The person shall
make the disclosures in writing, sign, and swear to the contents
under penalty of perjury. The person shall, in the disclosures,
specify all crimes against children or other persons, all crimes
relating to financial exploitation, and all crimes relating to drugs as
defined in RCW 43.43.830, committed by the person.

(2) The rules adopted under this section shall permit the
licensee to consider the criminal history of an applicant for
employment in a licensed facility when the applicant has one or
more convictions for a past offense and:
(a) The offense was simple assault, assault in the fourth
degree, or the same offense as it may be renamed, and three or
more years have passed between the most recent conviction and
the date of application for employment;
(b) The offense was prostitution, or the same offense as
it may be renamed, and three or more years have passed between
the most recent conviction and the date of application for
employment;
(c) The offense was theft in the third degree, or the same
offense as it may be renamed, and three or more years have passed
between the most recent conviction and the date of application for
employment;
(d) The offense was theft in the second degree, or the
same offense as it may be renamed, and five or more years have passed
between the most recent conviction and the date of application for
employment;
(e) The offense was forgery, or the same offense as it
may be renamed, and five or more years have passed between
the most recent conviction and the date of application for
employment;
(f) The department of social and health services reviewed
the employee's otherwise disqualifying criminal history through
the department of social and health services' background
assessment review team process conducted in 2002, and
determined that such employee could remain in a position covered
by this section; or

(g) The otherwise disqualifying conviction or disposition
has been the subject of a pardon, annulment, or other equivalent
procedure.

The offenses set forth in (a) through (((omega))) (g) of this
subsection do not automatically disqualify an applicant from
employment by a licensee. Nothing in this section may be
construed to require the employment of any person against a
licensee's judgment.

(3) In consultation with law enforcement personnel, the
secretary of social and health services and the secretary of health
shall investigate, or cause to be investigated, the conviction record
and the protection proceeding record information under this
chapter of the staff of each agency or facility under their respective
jurisdictions seeking licensure or relicensure. An individual
responding to a criminal background inquiry request from his or
her employer or potential employer shall disclose the information
about his or her criminal history under penalty of perjury. The
secretaries shall use the information solely for the purpose of
determining eligibility for licensure or relicensure. Criminal
justice agencies shall provide the secretaries such information as
they may have and that the secretaries may require for such
purpose.

Sec. 2. RCW 43.20A.710 and 2012 c 164 s 505 are each amended
to read as follows:

(1) The secretary shall investigate the conviction records,
pending charges and disciplinary board final decisions of:
(a) Any current employee or applicant seeking or being
considered for any position with the department who will or may
have unsupervised access to children, vulnerable adults, or
individuals with mental illness or developmental disabilities. This
includes, but is not limited to, positions conducting comprehensive
assessments, financial eligibility determinations, licensing and
certification activities, investigations, surveys, or case
management; or for state positions otherwise required by federal
law to meet employment standards;
(b) Individual providers who are paid by the state and
providers who are paid by home care agencies to provide in-home
services involving unsupervised access to persons with physical,
mental, or developmental disabilities or mental illness, or to
vulnerable adults as defined in chapter 74.34 RCW, including but
not limited to services provided under chapter 74.39 or 74.39A
RCW;
(c) Individuals or businesses or organizations for the
care, supervision, case management, or treatment of children,
persons with developmental disabilities, or vulnerable adults,
including but not limited to services contracted for under chapter
18.20, 70.127, 70.128, 72.36, or 74.39A RCW or Title 71A RCW.

(2) The secretary shall require a fingerprint-based
background check through both the Washington state patrol and
the federal bureau of investigation as provided in RCW 43.43.837.
Unless otherwise authorized by law, the secretary shall use
the information solely for the purpose of determining the character,
suitability, and competence of the applicant.

(3) Except as provided in subsection (4) of this section,
an individual provider or home care agency provider who has
resided in the state less than three years before applying for
employment involving unsupervised access to a vulnerable adult as
defined in chapter 74.34 RCW must be fingerprinted for the
purpose of investigating conviction records through both the
Washington state patrol and the federal bureau of investigation.
This subsection applies only with respect to the provision of in-
home services funded by medicaid personal care under RCW
74.09.520, community options program entry system waiver
services under RCW 74.39A.030, or chore services under RCW
74.39A.110. However, this subsection does not supersede RCW
74.15.030(2)(b).

(4) Long-term care workers, as defined in RCW
74.39A.009, who are hired after January 7, 2012, are subject to
background checks under RCW 74.39A.056, except that the
department may require a background check at any time under
RCW 43.43.837. For the purposes of this subsection, "background
check" includes, but is not limited to, a fingerprint check submitted
for the purpose of investigating conviction records through both the
Washington state patrol and the federal bureau of investigation.
(5) An individual provider or home care agency provider
hired to provide in-home care for and having unsupervised access
to a vulnerable adult as defined in chapter 74.34 RCW must have
no conviction for a disqualifying crime under RCW 43.43.830 and
43.43.842. An individual or home care agency provider must also
have no conviction for a crime relating to drugs as defined in RCW
43.43.830. This subsection applies only with respect to the
provision of in-home services funded by medicaid personal care
under RCW 74.09.520, community options program entry system
waiver services under RCW 74.39A.030, or chore services under RCW
74.39A.110.

(6) The secretary shall provide the results of the state
background check on long-term care workers, including individual
providers, to the persons hiring them or to their legal guardians, if
any, for their determination of the character, suitability, and
competence of the applicants. If the person elects to hire or retain
an individual provider after receiving notice from the department that the applicant has a conviction for an offense that would disqualify the applicant from having unsupervised access to persons with physical, mental, or developmental disabilities or mental illness, or to vulnerable adults as defined in chapter 74.34 RCW, then the secretary shall deny payment for any subsequent services rendered by the disqualified individual provider.

(7) Criminal justice agencies shall provide the secretary such information as they may have and that the secretary may require for such purpose.

(8) Any person whose criminal history would otherwise disqualify the person under this section from a position which will or may have unsupervised access to children, vulnerable adults, or persons with mental illness or developmental disabilities shall not be disqualified if the department of social and health services reviewed the person's otherwise disqualifying criminal history through the department of social and health services' background assessment review team process conducted in 2002 and determined that such person could remain in a position covered by this section, or if the otherwise disqualifying conviction or disposition has been the subject of a pardon, annulment, or other equivalent procedure.

NEW SECTION. Sec. 3. A new section is added to chapter 74.15 RCW to read as follows:

If an agency operating under contract with the children's administration chooses to hire an individual that would be precluded from employment with the department based on a disqualifying crime or negative action, the department and its officers and employees have no liability arising from any injury or harm to a child or other department client that is attributable to such individual.

Sec. 4. RCW 74.13.700 and 2013 c 162 s 2 are each amended to read as follows:

(1) In determining the character, suitability, and competence of an individual, the department may not:

(a) Deny or delay a license or approval of unsupervised access to children to an individual solely because of a crime or civil infraction involving the individual or entity revealed in the background check process that (is not on the secretary's list of crimes and negative actions and is not related) does not fall within the categories of disqualifying crimes described in the adoption and safe families act of 1997 or does not relate directly to child safety, permanence, or well-being; or

(b) Delay the issuance of a license or approval of unsupervised access to children by requiring the individual to obtain records relating to a crime or civil infraction revealed in the background check process that (is not on the secretary's list of crimes and negative actions and is not related) does not fall within the categories of disqualifying crimes described in the adoption and safe families act of 1997 or does not relate directly to child safety, permanence, or well-being (is not a permanent disqualifier pursuant to department rule).

(2) If the department determines that an individual does not possess the character, suitability, or competence to provide care or have unsupervised access to a child, it must provide the reasons for its decision in writing with copies of the records or documents related to its decision to the individual within ten days of making the decision.

(3) For purposes of this section, "individual" means a relative as defined in RCW 74.15.020(2)(a), an "other suitable person" under chapter 13.34 RCW, a person pursuing licensing as a foster parent, or a person employed or seeking employment by a business or organization licensed by the department or with whom the department has a contract to provide care, supervision, case management, or treatment of children in the care of the department. "Individual" does not include long-term care workers defined in RCW 74.39A.009(17)(a) whose background checks are conducted as provided in RCW 74.39A.056.

(4) The department or its officers, agents, or employees may not be held civilly liable based upon its decision to grant or deny unsupervised access to children if the background information it relied upon at the time the decision was made did not indicate that child safety, permanence, or well-being would be a concern.

(1) County treasurers are authorized to accept electronic payments for payment of any kind including, but not limited to, payment for taxes, fines, interest, penalties, special assessments, fees, rates, charges, or moneys due counties.

The county treasurer's determination must be based upon costs incurred by the treasurer and may not, in any event, exceed the additional direct costs incurred by the county to accept the specific form of payment utilized by the payer.

(b) A payer using electronic payment must pay the transaction processing cost, except as otherwise provided in this section.

(2) For payments for taxes, interest associated with taxes, and penalties associated with taxes that are made by automatic clearinghouse system, federal wire, or other electronic communication, any fee associated with the transaction may be absorbed within the county treasurer's banking services budget.

SB 6128 Prime Sponsor, Senator Litzow: Concerning the delivery of medication and services by unlicensed school employees. Reported by Committee on Education

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:
"NEW SECTION. Sec. 1. Students in public schools are bringing more health conditions to school at the same time school districts are reducing nursing services. As a result, school districts are becoming more dependent upon unlicensed, minimally trained, and many times unwilling classified employees to provide these services.

Over the years, unlicensed employees have sought and received legislative approval for protections from employer reprisal if they refuse to deliver nursing services and liability protections if they provide nursing services that harm a student. It is clear that unlicensed employees will be expected to deliver new medications and nursing services not currently recognized in state law to students in the future.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.210 RCW to read as follows:

(1) Beginning July 1, 2014, a school district employee not licensed under chapter 18.79 RCW who is asked to administer medications or perform nursing services not previously recognized in law shall at the time he or she is asked to administer the medication or perform the nursing service file, without coercion by the employer, a voluntary written, current, and unexpired letter of intent stating the employee's willingness to administer the new medication or nursing service. (2) In the event a school employee provides the medication or service to a student in substantial compliance with (a) rules adopted by the state nursing care quality assurance commission and the instructions of a registered nurse or advanced registered nurse practitioner issued under such rules, and (b) written policies of the school district, then the employee, the registered nurse practitioner issued under such rules, and (b) written policies of the school district, then the employee, the employee's school district or school of employment, and the members of the governing board and chief administrator thereof are not liable in any criminal action or for civil damages in his or her individual, marital, governmental, corporate, or other capacity as a result of providing the medication or service.

(3) The board of directors shall designate a professional person licensed under chapter 18.71, 18.57, or 18.79 RCW as it applies to registered nurses and advanced registered nurse practitioners to consult and coordinate with the student's parents and health care provider, and train and supervise the appropriate school district personnel in proper procedures to ensure a safe, therapeutic learning environment. School employees must receive the training provided under this subsection before they are authorized to deliver the service or medication. Such training must be provided, where necessary, on an ongoing basis to ensure that the proper procedures are not forgotten because the services or medication are delivered infrequently.

Sec. 3. RCW 4.24.300 and 2004 c 87 s 1 are each amended to read as follows:

(1) Any person, including but not limited to a volunteer provider of emergency or medical services, who without compensation or the expectation of compensation renders emergency care at the scene of an emergency or who participates in transporting, not for compensation, therefrom an injured person or persons for emergency medical treatment shall not be liable for civil damages resulting from any act or omission in the rendering of such emergency care in either an emergency medical treatment shall not be liable for civil damages resulting from any act or omission in the rendering of such emergency care or in transporting such persons, other than acts or omissions constituting gross negligence or willful or wanton misconduct. NEW SECTION. Sec. 5. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2014, in the omnibus appropriations act, this act is null and void."

Correct the title.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 6. The legislature acknowledges that paraeducators have become a significant resource to students who need additional education assistance. School districts have come to rely upon paraeducators who, for instance, provided more than half of the hours of instruction in the 2012-13 school year to students in the learning assistance program, the transitional bilingual instruction program, the federal disadvantaged program, head start, and the federal limited English proficiency program.

Paraeducators are often the primary caretakers in the classroom for students with special needs and provided more than half of the hours of instruction in the 2012-13 school year to students in special education.

The legislature further recognizes that there is significant variability in paraeducator standards. In some situations, paraeducators are expected to provide services for which they are not trained or qualified. In other situations, their knowledge, skills, and commitment to education are underused. A clear definition of the differentiated knowledge, skills, and abilities associated with different jobs will ensure that students receive the education services they need and deserve.

Paraeducator training and professional development varies significantly dependent upon school district and program. With few exceptions, paraeducator training has been significantly reduced over the last several years due to state and school district budget cuts.

A carefully constructed paraeducator development program is intended to place the highest qualified paraeducators working with the highest need students. Such a program when combined with a career ladder will offer paraeducators real opportunities for upward mobility. Since paraeducators more closely reflect the cultural diversity of the student population, a development program and career ladder is likely to encourage more paraeducators to become teachers. Training teachers how to work with a paraeducator in their classrooms will increase paraeducators' ability to teach students who need additional assistance.

NEW SECTION. Sec. 7. (1) The superintendent of public instruction shall convene a work group to examine the use of paraeducators across school districts, including their roles and types of assignments in the classroom and the variation in paraeducator deployment in support of teachers. The work group must include paraeducators, teachers, school and school district administrators, school directors, and representatives of their respective associations. The superintendent of public instruction shall submit the findings of the work group to the professional educator standards board by August 31, 2014, to inform the work of the board and the work group established under subsection (2) of this section.

(2)(a) The professional educator standards board shall simultaneously convene a work group to design program specific minimum employment standards for paraeducators, professional development and education opportunities that support the standards, a paraeducator career ladder, an articulated pathway for teacher preparation and certification, and teacher professional development on how to maximize the use of paraeducators in the classroom.

(b) The work group convened by the professional educator standards board must include representatives of:

(i) The professional educator standards board; the Green River Community College center of excellence for careers in education; educational service districts; community and technical college paraeducator apprenticeship and certificate programs; colleges of education; teacher, paraeducator, principal, school director, and administrator associations; career and technical education; special education parents and advocacy organizations; community-based organizations representing immigrant and refugee communities and communities of color; the educational opportunity gap oversight and accountability committee; and the office of the superintendent of public instruction; and

(ii) A maximum of two paraeducators from each program for which specific minimum employment standards will be designed.

(3) By January 10, 2015, the work group convened by the professional educator standards board shall submit a report to the education committees of the legislature that recommends:

(a) Multiple options for assuring minimum employment standards and professional development opportunities for paraeducators who work in:

(i) English language learner programs, transitional bilingual instruction programs, and federal limited English proficiency programs; and

(ii) The learning assistance program and federal disadvantaged program;

(b) A career ladder that encourages paraeducators to pursue advanced education and professional development as well as increased instructional ability and responsibility;

(c) An articulated pathway for teacher preparation that includes:

(i) Paraeducator certificate and apprenticeship programs that offer course credits that apply to transferrable associate degrees and are aligned with the standards and competencies for teachers adopted by the professional educator standards board;

(ii) Associate degree programs that build on and do not duplicate the courses and competencies of paraeducator certificate programs, incorporate field experiences, are aligned with the standards and competencies for teachers adopted by the professional educator standards board, and are transferrable to bachelor's degree in education programs and teacher certification programs;

(iii) Bachelor's degree programs that lead to teacher certification that build on and do not duplicate the courses and competencies of transferrable associate degrees;

(iv) Incorporation of the standards for cultural competence developed by the professional educator standards board under RCW 28A.410.270 throughout the courses and curriculum of the pathway, particularly focusing on multicultural education and principles of language acquisition; and

(v) A comparison of the current status of pathways for teacher certification to the elements of the articulated pathway, highlighting gaps and recommending strategies to address the gaps;

(d) Professional development for certificated employees that focuses on maximizing the success of paraeducators in the classroom.

(4) The work group convened by the professional educator standards board must submit a final report of its recommendations to the education committees of the legislature by January 10, 2016, concerning:

(a) Multiple options for assuring minimum employment standards and professional development opportunities for basic education and special education paraeducators;
technical colleges.

(3) "Pharmacist" has the same meaning as in RCW 18.64.011.

(b) Whether there should be alignment of training requirements of paraeducators providing special education services for students during the school year with existing training for home care aides who provide similar services to students when they are not in school, and if so, how the alignment should be accomplished; and

c) Appropriate professional development and training to help paraeducators meet the employment standards.

(5) This section expires June 30, 2016.

NEW SECTION, Sec. 8. A new section is added to chapter 28A.410 RCW to read as follows:

(2) If funds are appropriated for a summer knowledge improvement pilot program as provided under sections 5 through 7 of this act or other initiatives to reduce summer learning loss or increase expanded learning opportunities, the expanded learning opportunities council shall monitor the progress of the program or initiative and serve as a resource for participating schools and community-based organizations. 'Sec. 1. RCW 36.70A.040 and 2000 c 36 s 1 are each amended to read as follows:

(1) Each county that has both a population of fifty thousand or more and, until May 16, 1995, has had its population increase by more than ten percent in the previous ten years or, on or after May 16, 1995, has had its population increase by more than seventeen percent in the previous ten years, and the cities located within such county, and any other county regardless of its population that has had its population increase by more than twenty percent in the previous ten years, and the cities located within such county, shall conform with all of the requirements of this chapter. However, the county legislative authority of such a county with a population of less than fifty thousand population may adopt a resolution removing the county, and the cities located within the county, from the requirements of adopting comprehensive land use plans and development regulations under this chapter if this resolution is adopted and filed with the department by December 31, 1990, for counties initially meeting this set of criteria, or within sixty days of the date the office of financial management certifies that a county meets this set of criteria under subsection (5) of this section. For the purposes of this subsection, a county not currently planning under this chapter is not required to include in its population count those persons confined in a correctional facility under the jurisdiction of the department of corrections that is located in the county.

Once a county meets either of these sets of criteria, the requirement to conform with all of the requirements of this chapter remains in effect, even if the county no longer meets one of these sets of criteria.

(2) (a) The county legislative authority of any county that does not meet either of the sets of criteria established under subsection (1) of this section may adopt a resolution indicating its intention to have subsection (1) of this section apply to the county. Each city, located in a county that chooses to plan under this subsection, shall conform with all of the requirements of this chapter. Once such a resolution has been adopted, the county and the cities located within the county remain subject to all of the requirements of this chapter, unless the county subsequently adopts a withdrawal resolution for partial planning pursuant to (b)(i) of this subsection.

(b)(i) Until December 31, 2015, the legislative authority of a county may adopt a resolution removing the county and the cities located within the county from the requirements to plan under this section if:

(A) The county has a population, as estimated by the office of financial management, of twenty thousand or fewer inhabitants at any time between April 1, 2010, and April 1, 2015;

(B) The county has previously adopted a resolution indicating its intention to have subsection (1) of this section apply to the county;

(C) At least sixty days prior to adopting a resolution for partial planning, the county provides written notification to the legislative body of each city within the county of its intent to consider adopting the resolution; and

(D) The legislative bodies of at least sixty percent of those cities having an aggregate population of at least seventy-five
percent of the incorporated county population have not: Adopted resolutions opposing the action by the county; and provided written notification of the resolutions to the county.

(ii) Upon adoption of a resolution for partial planning under (b)(i) of this subsection:

(A) The county and the cities within the county are no longer obligated to plan under this section; and

(B) The county may not, for a minimum of ten years from the date of adoption of the resolution, adopt another resolution indicating its intention to have subsection (1) of this section apply to the county.

(c) The adoption of a resolution for partial planning under (b)(i) of this subsection does not nullify or otherwise modify the requirements for counties and cities established in RCW 36.70A.060, 36.70A.170, and 36.70A.172.

(3) Any county or city that is initially required to conform with all of the requirements of this chapter under subsection (1) of this section shall take actions under this chapter as follows: (a) The county legislative authority shall adopt a countywide planning policy under RCW 36.70A.110; and (d) the county and each city located within the county shall adopt a comprehensive plan under this chapter and development regulations that are consistent with and implement the comprehensive plan not later than four years from the date the county legislative authority has not adopted a resolution removing the county from these requirements as provided in subsection (1) of this section, the county and each city within such county shall take actions under this chapter as follows: (a) The county legislative authority shall adopt a countywide planning policy under RCW 36.70A.210; (b) the county and each city located within the county shall adopt development regulations under RCW 36.70A.060 conserving agricultural lands, forest lands, and mineral resource lands designated within one year of the certification by the office of financial management; (e) the county shall designate and take other actions related to urban growth areas under RCW 36.70A.040, and each city within such county, shall adopt development regulations under RCW 36.70A.060 conserving agricultural lands, forest lands, and mineral resource lands designated within one year of the certification by the office of financial management.

(4) Any county or city that is required to conform with all the requirements of this chapter, as a result of the county legislative authority adopting its resolution of intention under subsection (2) of this section, shall take actions under this chapter as follows: (a) The county legislative authority shall adopt a countywide planning policy under RCW 36.70A.210; (b) the county and each city that is located within the county shall adopt development regulations conserving agricultural lands, forest lands, and mineral resource lands designated under RCW 36.70A.170. (5) If the office of financial management certifies that the population of a county that previously had not been required to plan under subsection (1) or (2) of this section has changed sufficiently to meet either of the sets of criteria specified under subsection (1) of this section, and where applicable, the county legislative authority has not adopted a resolution removing the county from these requirements as provided in subsection (1) of this section, the county and each city within such county shall take actions under this chapter as follows: (a) The county legislative authority shall adopt a countywide planning policy under RCW 36.70A.210; (b) the county and each city located within the county shall adopt development regulations under RCW 36.70A.060 conserving agricultural lands, forest lands, and mineral resource lands designated within one year of the certification by the office of financial management.

(6) A copy of each document that is required under this section shall be submitted to the department at the time of its adoption.

(7) Cities and counties planning under this chapter must amend the transportation element of the comprehensive plan to be in compliance with this chapter and chapter 47.80 RCW no later than December 31, 2000.

Sec. 2. RCW 36.70A.060 and 2005 c 423 s 3 are each amended to read as follows:

(1)(a) (((Except as provided in RCW 36.70A.170.))) Each county that is required or chooses to plan under RCW 36.70A.040, and each city within such county, shall adopt development regulations on or before September 1, 1991, to assure the conservation of agricultural, forest, and mineral resource lands designated under RCW 36.70A.170. Regulations adopted under this subsection may not prohibit uses legally existing on any parcel prior to their adoption and shall remain in effect until the county or city adopts development regulations pursuant to RCW 36.70A.040. Such regulations shall assure that the use of lands adjacent to agricultural, forest, or mineral resource lands shall not interfere with the continued use, in the accustomed manner and in accordance with best management practices, of these designated lands for the production of food, agricultural products, or timber, or for the extraction of minerals.

(b) Counties and cities shall require that all plats, short plats, development permits, and building permits issued for development activities on, or within five hundred feet of, lands designated as agricultural lands, forest lands, or mineral resource lands, contain a notice that the subject property is within or near designated agricultural lands, forest lands, or mineral resource lands on which a variety of commercial activities may occur that are not compatible with residential development for certain periods of limited duration. The department must approve or deny the application for a determination of compliance within one hundred twenty days of its receipt or by June 30, 2017, whichever date is earlier.

(ii) If the department denies an application under (d)(i) of this subsection, the county and each city within is obligated to comply with all requirements of this chapter and the resolution for partial planning adopted under RCW 36.70A.040(2)(b) is no longer in effect.

(iii) A petition for review of a determination of compliance under (d)(i) of this subsection may only be appealed to the growth management hearings board within sixty days of the issuance of the decision by the department.

(iv) In the event of a filing in accordance with (d)(iii) of this subsection, the county and the department must equally share the costs incurred by the department for defending an approval of determination of compliance that is before the growth management hearings board.

(v) The department may implement this subsection (d) by adopting rules related to determinations of compliance. The rules may address, but are not limited to: The requirements for applications for a determination of compliance; charging of costs under (d)(iv) of this subsection; procedures for processing applications; criteria for the evaluation of applications; issuance and notice of department decisions; and applicable timelines.

(2) Each county and city shall adopt development regulations that protect critical areas that are required to be designated under RCW 36.70A.170. (3) For purposes of this section "person" means any individual, partnership, corporation, association, state agency, governmental subdivision or unit thereof, or public or private organization or entity of any character.

(4) To establish participation standing under subsection (2)(b) of this section, a person must show that his or her participation before the county or city was reasonably related to the person's issue as presented to the board.

(5) When considering a possible adjustment to a growth management planning population projection prepared by the office of financial management, the board shall consider the implications of any such adjustment to the population forecast for the entire state.

The rationale for any adjustment that is adopted by the board must be documented and filed with the office of financial management within ten working days after adoption.

ESSB 6228  Prime Sponsor, Committee on Health Care: Concerning transparency tools for consumer information on health care cost and quality. Reported by Committee on Health Care & Wellness

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. Consumers face a challenge finding reliable, consumer friendly information on health care pricing and quality. Greater transparency of health care prices and quality leads to engaged, activated consumers. Research indicates that engaged and educated consumers help control costs and improve quality with lower costs per patient, lower hospital readmission rates, and the use of higher quality providers. Washington is a leader in efforts to develop and publish provider quality information.

Although data is available today, research indicates the existing information is not user friendly, consumers do not know which measures are most relevant, and quality ratings are inconsistent or nonstandardized. It is the intent of the legislature to ensure consumer tools are available to educate and engage patients in managing their care and understanding the costs and quality.

NEW SECTION. Sec. 2. A new section is added to chapter 41.05 RCW to read as follows:

(1) There is created a performance measures committee, the purpose of which is to identify and recommend standard statewide measures of health performance to inform public and private health care purchasers and set benchmarks to track costs and improvements in health outcomes.

(2) Members of the committee must include representation from state agencies, small and large employers, health plans, patient groups, consumers, academic experts on health care measurement, hospitals, physicians, and other providers. The governor shall appoint the members of the committee, except that a statewide association representing hospitals may appoint a member representing hospitals and a statewide association representing physicians may appoint a member representing physicians. The governor shall ensure that members represent diverse geographic locations and both rural and urban communities. The committee must be chaired by the director of the authority.

(3) The committee shall develop a transparent process for selecting performance measures, and the process must include opportunities for public comment.

(4) By January 1, 2015, the committee shall submit the performance measures to the authority. The measures must include dimensions of:

(a) Prevention and screening;
(b) Effective management of chronic conditions;
(c) Key health outcomes;
(d) Care coordination and patient safety; and
(e) Use of the lowest cost, highest quality care for acute conditions.

(5) The committee shall develop a measure set that:

(a) Is of manageable size;
(b) Gives preference to nationally reported measures and, where nationally reported measures may not be appropriate, measures used by the health benefit exchange and state agencies that purchase health care;
(c) Focuses on the overall performance of the system, including outcomes and total cost;
(d) Is aligned with the governor's performance management system measures and common measure requirements specific to medicaid delivery systems under RCW 70.320.020 and 43.20A.895;
(e) Considers the needs of different stakeholders and the populations served; and
(f) Is usable by multiple payers, providers, hospitals, purchasers, public health, and communities as part of health improvement, care improvement, provider payment systems, benefit design, and administrative simplification for providers and hospitals.

(6) State agencies shall use the measure set developed under this section to inform purchasing decisions and set benchmarks.

(7) The committee shall establish a public process to periodically evaluate the measure set and make additions or changes to the measure set as needed.

NEW SECTION. Sec. 3. A new section is added to chapter 48.43 RCW to read as follows:

(1) Each carrier offering or renewing a health benefit plan on or after January 1, 2016, must offer member transparency tools with certain price and quality information to enable the member to make treatment decisions based on cost, quality, and patient experience. This subsection applies only to the portion of enrollment a carrier offers pursuant to chapter 48.46 RCW and as
part of an integrated delivery system, and does not exempt from (a) of this subsection coverage offered pursuant to chapter 48.21, 48.44, or 48.46 RCW if not part of an integrated delivery system;
(c) Are encouraged to display the description of prescription medications on their member website or through a link to a third party that manages the prescription benefits;

(e) Must allow members to access the estimated cost of the treatment, or the total cost of care, as set forth in (a) and (b) of this subsection on a portable electronic device;
(f) Must display options based on the selected search criteria for members to compare;
(g) Must display the estimated cost of the treatment, or total cost of care episode, and the estimated out-of-pocket costs of the treatment for the member and display the application of personalized benefits such as deductibles and cost-sharing;
(h) Must display quality information on providers when available; and
(i) Are encouraged to display alternatives that are more cost-effective when there are alternatives available, such as the use of an ambulatory surgical center when one is available or medical versus surgical alternatives as appropriate.
(2) In addition to the required features on cost and quality information, the member transparency tools must include information to allow a provider and hospital search of in-network providers and hospitals with provider information including specialties, distance from patient, the provider's contact information, the provider's education, board certification and other credentials, where to find information on malpractice history and disciplinary actions, affiliated hospitals and other providers in a clinic, and directions to provider offices and hospitals.
(3) Each carrier offering or renewing a health benefit plan on or after January 1, 2016, must provide information regarding cost and quality performance. The information must:
(a) Be prominently displayed on the carrier's website alongside other consumer tools; and
(b) Include performance information from the following cost and quality performance measurement programs or indicate that the carrier does not participate in the program:
(i) The national business coalition on health performance measures, with scores and comparisons with national and regional benchmarks;
(ii) The national committee for quality assurance compass, with Washington state rankings for the prior three years;
(iii) National committee for quality assurance accreditation, with the report card on plan type, overall accreditation status, and star rating; and
(iv) The carrier's medicare five-star rating if the carrier participates in medicare advantage.
(4) The insurance commissioner must prepare a brief, standardized statement in this section to explain how consumers may use the information to make cost and quality comparisons. The statement must be displayed with the information required by subsection (3) of this section.
(5) Each carrier offering or renewing a health benefit plan on or after January 1, 2016, must, within thirty days from the offer or renewal date, attest to the office of the insurance commissioner that the member transparency tools meet the requirements in this section and access to the tools is available on the home page within the health plan's secured member website."
(a) Two of the five waivers granted under this subsection shall be granted to school districts with student populations of less than one hundred fifty students.

(b) Three of the five waivers granted under this subsection shall be granted to school districts with student populations of between one hundred fifty-one and five hundred students.

(4) ((The state board of education shall examine the waivers granted under this section and make a recommendation to the education committees of the legislature by December 15, 2013, regarding whether the waiver program should be continued, modified, or allowed to terminate. This recommendation should focus on whether the program resulted in improved student learning as demonstrated by empirical evidence. Such evidence includes, but is not limited to: Improved scores on the Washington assessment of student learning, results of the dynamic indicators of basic early literacy skills, student grades, and attendance.

"NEW SECTION. Sec. 1. (1) In conjunction with recent findings from the Washington state auditor's office, the legislature finds that there are thousands of state citizens who have been determined eligible for services through the department of social and health services' developmental disability administration. For those who have asked for help but are waiting for services, families may experience financial or emotional hardships. The legislature intends to clarify and make transparent the process for accessing publicly funded services for individuals with developmental disabilities and their families. The legislature intends to significantly reduce the number of eligible individuals who are waiting for services by funding additional slots and by implementing new programs that better utilize federal funding partnerships.

(2) In addition to the need to serve more individuals with developmental disabilities, the legislature finds that there is an increasing need for long-term care services. By 2030, nearly twenty percent or one out of five people in our state will be age sixty-five or older and our state is not prepared for the growing demand for long-term services and supports. Washington must plan for the future long-term services and support needs of its residents by utilizing alternative long-term care financing options.

Sec. 2. RCW 71A.10.020 and 2011 1st sp.s. c 30 s 3 are each amended to read as follows:

As used in this title, the following terms have the meanings indicated unless the context clearly requires otherwise.

(1) "Assessment" means an evaluation provided by the department to determine:
   (a) If the individual meets functional and financial criteria for Medicaid services; and
   (b) The individual's support needs for service determination.

(2) "Community residential support services," or "Community support services," and "In-home services" means one or more of the services listed in RCW 71A.12.040.

(3) "Crisis stabilization services" means services provided to persons with developmental disabilities who are experiencing behaviors that jeopardize the safety and stability of their current living situation. Crisis stabilization services include:
   (a) Temporary intensive services and supports, typically not to exceed sixty days, to prevent psychiatric hospitalization, institutional placement, or other out-of-home placement; and
   (b) Services designed to stabilize the person and strengthen their current living situation so the person may continue to safely reside in the community during and beyond the crisis period.

(4) "Department" means the department of social and health services.

(5) "Developmental disability" means a disability attributable to intellectual disability, cerebral palsy, epilepsy, autism, or another neurological or other condition of an individual found by the secretary to be closely related to an intellectual disability or to require treatment similar to that required for individuals with intellectual disabilities, which disability originates before the individual attains age eighteen, which has continued or can be expected to continue indefinitely, and which constitutes a substantial limitation to the individual. By January 1, 1989, the department shall promulgate rules which define neurological or other conditions in a way that is not limited to intelligence quotient scores as the sole determinant of these conditions, and notify the legislature of this action.

(6) "Eligible person" means a person who has been found by the secretary under RCW 71A.16.040 to be eligible for services.

(7) "Habilitative services" means those services provided by program personnel to assist persons in acquiring and maintaining life skills and to raise their levels of physical, mental, social, and vocational functioning. Habilitative services include education, training for employment, and therapy.

(8) "Legal representative" means a parent of a person who is under eighteen years of age, a person's legal guardian, a person's limited guardian when the subject matter is within the scope of the limited guardianship, a person's attorney-at-law, a person's attorney-in-fact, or any other person who is authorized by law to act for another person.

(9) "Notice" or "notification" of an action of the secretary means notice in compliance with RCW 71A.10.060.

(10) "Residential habilitation center" means a state-operated facility for persons with developmental disabilities governed by chapter 71A.20 RCW.

(11) "Respite services" means relief for families and other caregivers of people with disabilities, typically not to exceed ninety days, to include both in-home and out-of-home respite care on an hourly and daily basis, including twenty-four hour care for several consecutive days. Respite care workers provide supervision, companionship, and personal care services temporarily replacing those provided by the primary caregiver of the person with disabilities. Respite care may include other services needed by the client, including medical care which must be provided by a licensed health care practitioner.

(12) "Secretary" means the secretary of social and health services or the secretary's designee.

(13) "Service" or "services" means services provided by state or local government to carry out this title.

(14) "State-operated living alternative" means programs for community residential services which may include assistance with activities of daily living, behavioral, habilitative, interpersonal, protective, medical, nursing, and mobility supports provided to individuals who have been assessed by the department as meeting state and federal requirements for eligibility in home and community-based waiver programs for individuals with developmental disabilities. State-operated living alternatives are operated and staffed with state employees.

(15) "Supported living" means community residential services and housing which may include assistance with activities of daily living, behavioral, habilitative, interpersonal, protective, medical, nursing, and mobility supports provided to individuals with disabilities who have been assessed by the department as meeting state and federal requirements for eligibility in home and community-based waiver programs for individuals with developmental disabilities. Supported living services are provided under contracts with private agencies or with individuals who are not state employees.

(16) "Vacancy" means an opening at a residential habilitation center, which when filled, would not require the center to exceed its biennially budgeted capacity.

(17) "Service request list" means a list of eligible persons who have received an assessment for service determination and their assessment shows that they meet the eligibility requirements for the requested service but were denied access due to funding limits.

Sec. 3. RCW 71A.16.050 and 1988 c 176 s 405 are each amended to read as follows:
The determination made under this chapter is only as to whether a person is eligible for services. After the secretary has determined under this chapter that a person is eligible for services, the individual may request an assessment for eligibility for medicaid programs and specific services administered by the developmental disabilities administration. The secretary shall make a determination as to what services are appropriate for the person. The secretary shall prioritize services to medicaid eligible clients. Services may be made available to nonmedicaid eligible clients based on available funding. Services available through the state medicaid plan must be provided to those individuals who meet the eligibility criteria. The department shall establish and maintain a service request list database for individuals who are found to be eligible and have an assessed unmet need for programs and services offered under a home and community-based services waiver, but the provision of a specific service would exceed the biennially budgeted capacity.

NEW SECTION. Sec. 4. The department of social and health services shall develop and implement a medicaid program to replace the individual and family services program for medicaid-eligible clients during the 2015-2017 biennium, as soon as May 1, 2015, and no later than May 30, 2016. The new medicaid program must offer services that closely resemble the services offered in fiscal year 2014 through the individual and family services program. The department shall expand the client caseload as soon as the new medicaid program is implemented. By June 30, 2017, the department shall increase the number of clients served in the new medicaid program by at least four thousand additional individuals from the numbers served in the 2014 individual and family support program. The department is authorized in fiscal year 2015 to use general fund--state dollars previously provided for the individual and family services program to cover the costs of increasing the number of clients served in the new medicaid program. To the extent possible, the department shall use general fund--state savings from section 6 of this act to cover the costs of increasing the client caseloads in fiscal years 2016, 2017, 2018, and 2019.

NEW SECTION. Sec. 5. The department of social and health services shall expand the home and community-based services basic plus waiver client caseload beginning June 30, 2015. By June 30, 2017, the department of social and health services shall increase the number served on the home and community-based services basic plus waiver program by at least one thousand additional individuals from the numbers served in fiscal year 2014. The department is authorized in fiscal year 2015 to use general fund--state dollars previously provided for the individual and family services program to cover the costs of increasing the number of clients served in the basic plus waiver program. To the extent possible, the department shall use general fund--state savings from section 6 of this act to offset costs for the increased client caseloads in fiscal years 2016, 2017, 2018, and 2019.

NEW SECTION. Sec. 6. (1) The department of social and health services shall refine medicaid personal care services under the community first choice option. Beginning July 1, 2014, the department shall seek stakeholder input on program and system design prior to the submission of a proposal to the governor for medicaid and medicare services. The community first choice option shall be designed in such a way to meet the federal minimum maintenance of effort requirements and all service requirements as specified in federal rule.

(2) In the first full year of implementation, the per capita cost of all services offered in the community first choice benefit design, including required and optional services, shall not exceed three percent increase over the per capita cost of the services provided to this population prior to the community first choice option refinance. The three percent limit on new expenditures shall not apply to cost increases that are not the result of implementing the community first choice option, including but not limited to caseload growth, case mix changes, inflation, vendor rate changes, expenditures necessary to meet state and federal law requirements, and adjustments made pursuant to collective bargaining, and adjustments made in the biennial budget.

(3) The community first choice option must be fully implemented during the 2015-2017 biennium, as soon as July 1, 2015, and no later than June 30, 2016. In fiscal year 2015, the department shall use general fund--state savings from section 4 of this act to cover the fiscal year 2015 general fund--state costs of this section. For the 2015-2017 biennium and the 2017-2019 biennium, the department shall use general fund--state savings from the refinance in this section to offset costs related to sections 4 and 5 of this act. Any remaining general fund--state savings from section 4 of this act shall be reserved for potential investments in home and community-based services for individuals with developmental disabilities. Any remaining savings from the refinance of medicaid personal care services under the community first choice option shall be reserved for potential investments in home and community-based services for individuals with developmental disabilities or individuals with long-term care needs, including investments recommended by the joint legislative executive committee on aging and disability and other work groups, councils, or committees convened by the department."

The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer or other separate alcohol monitoring device, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring; and

(ii) By a fine of not less than seven hundred fifty dollars nor more than five thousand dollars. Seven hundred fifty dollars of the fine may not be suspended unless the court finds the offender to be indigent.

(b) Penalty for alcohol concentration at least 0.15. In the case of a person whose alcohol concentration was at least 0.15, or for whom by reason of the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than forty-five days nor more than three hundred sixty-four days and ninety days of electronic home monitoring. In lieu of the mandatory minimum term of ninety days electronic home monitoring, the court may order at least an additional six days in jail or, if available in that county or city, a six-month period of 24/7 sobriety program monitoring pursuant to RCW 36.28A.300 through 36.28A.390, and the court shall order an expanded alcohol assessment and treatment, if deemed appropriate by the assessment. The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer or other separate alcohol monitoring device, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. Forty-five days of imprisonment and ninety days of electronic home monitoring may not be suspended unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended, the court shall state in writing the reason for granting the suspension and the facts upon which the suspension is based; and

(ii) By a fine of not less than seven hundred fifty dollars nor more than five thousand dollars. Seven hundred fifty dollars of the fine may not be suspended unless the court finds the offender to be indigent.

(3) Two or three prior offenses in seven years. Except as provided in RCW 46.61.502(6) or 46.61.504(6), a person who is convicted of a violation of RCW 46.61.502 or 46.61.504 and who has two or three prior offenses within seven years shall be punished as follows:

(a) Penalty for alcohol concentration less than 0.15. In the case of a person whose alcohol concentration was less than 0.15, or for whom by reason other than the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than thirty days nor more than three hundred sixty-four days and eighty days of electronic home monitoring. Thirty days of imprisonment and sixty days of electronic home monitoring may not be suspended unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended, the court shall state in writing the reason for granting the suspension and the facts upon which the suspension is based; and

(ii) By a fine of not less than five hundred dollars nor more than five thousand dollars. Five hundred dollars of the fine may not be suspended unless the court finds the offender to be indigent; or

(i) By imprisonment for not less than forty-five days nor more than three hundred sixty-four days, if available in that county or city, a six-month period of 24/7 sobriety program monitoring pursuant to RCW 36.28A.300 through 36.28A.390, and one hundred twenty days of electronic home monitoring. In lieu of the mandatory minimum term of one hundred twenty days of electronic home monitoring, the court may order at least an additional eight days in jail. The court shall order an expanded alcohol assessment and treatment, if deemed appropriate by the assessment. The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the
offender's electronic home monitoring device include an alcohol detection breathalyzer or other separate alcohol monitoring device, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. Ninety days of imprisonment and one hundred twenty days of electronic home monitoring may not be suspended unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended, the court shall state in writing the reason for granting the suspension and the facts upon which the suspension is based; and

(ii) By a fine of not less than one thousand dollars nor more than five thousand dollars. One thousand dollars of the fine may not be suspended unless the court finds the offender to be indigent; or

(b) **Penalty for alcohol concentration at least 0.15.** In the case of a person whose alcohol concentration was at least 0.15, or for whom by reason of the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than one hundred twenty days nor more than three hundred sixty-four days, if available in that county or city, a six-month period of 24/7 sobriety program monitoring pursuant to RCW 36.28A.300 through 36.28A.390, and one hundred fifty days of electronic home monitoring. In lieu of the mandatory minimum term of one hundred fifty days of electronic home monitoring, the court may order at least an additional ten days in jail. The offender shall pay for the cost of the electronic monitoring. The court shall order an expanded alcohol assessment and treatment, if deemed appropriate by the assessment. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer or other separate alcohol monitoring device, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. One hundred twenty days of imprisonment and one hundred fifty days of electronic home monitoring may not be suspended unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended, the court shall state in writing the reason for granting the suspension and the facts upon which the suspension is based; and

(ii) By a fine of not less than one thousand five hundred dollars nor more than five thousand dollars. One thousand five hundred dollars of the fine may not be suspended unless the court finds the offender to be indigent.

(c) **Ignition interlock device substituted for 24/7 sobriety program monitoring.** In any county or city where a 24/7 sobriety program is available and verified by the Washington association of sheriffs and police chiefs, the court shall:

(i) Order the person, if the offense involved intoxicating liquor, to install and use a functioning ignition interlock or other device in lieu of such period of 24/7 sobriety program monitoring;

(ii) Order the person to a period of 24/7 sobriety program monitoring pursuant to subsections (1) through (3) of this section; or

(iii) Order the person, if the offense involved intoxicating liquor, to install and use a functioning ignition interlock or other device in addition to a period of 24/7 sobriety program monitoring pursuant to subsections (1) through (3) of this section.

(d) In any case in which the person has two or three prior offenses within seven years, and except as provided in RCW 46.61.504(6), order an additional five days of imprisonment and a fine of not less than five thousand dollars and not more than ten thousand dollars. One thousand dollars of the fine may not be suspended unless the court finds the offender to be indigent.

(e) In any case in which the person has one prior offense within seven years, and except as provided in RCW 46.61.504(6), order an additional five days of imprisonment and a fine of not less than five thousand dollars and not more than ten thousand dollars. One thousand dollars of the fine may not be suspended unless the court finds the offender to be indigent.

(f) In any case in which the person has one prior offense within seven years, and except as provided in RCW 46.61.504(6), order an additional ten days of imprisonment and a fine of not less than ten thousand dollars and not more than twenty thousand dollars. One thousand dollars of the fine may not be suspended unless the court finds the offender to be indigent.

(7) **Other items courts must consider while setting penalties.** In exercising its discretion in setting penalties within the limits allowed by this section, the court shall particularly consider the following:

(a) Whether the person's driving at the time of the offense was responsible for injury or damage to another or another's property;

(b) Whether at the time of the offense the person was driving or in physical control of a vehicle with one or more passengers;
(c) Whether the driver was driving in the opposite direction of the normal flow of traffic on a multiple lane highway, as defined by RCW 46.04.350, with a posted speed limit of forty-five miles per hour or greater; and

(d) Whether a child passenger under the age of sixteen was an occupant in the driver's vehicle.

(8) **Treatment and information school.** An offender punishable under this section is subject to the alcohol assessment and treatment provisions of RCW 46.61.5056.

(9) **Driver's license privileges of the defendant.** The license, permit, or nonresident privilege of a person convicted of driving or being in physical control of a motor vehicle while under the influence of intoxicating liquor or drugs must:

(a) **Penalty for alcohol concentration less than 0.15.** If the person's alcohol concentration was less than 0.15, or if for reasons other than the person's refusal to take a test offered under RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) Where there has been no prior offense within seven years, be revoked or denied by the department for ninety days;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for two years; or

(iii) Where there have been two or more prior offenses within seven years, be revoked or denied by the department for three years;

(b) **Penalty for alcohol concentration at least 0.15.** If the person's alcohol concentration was at least 0.15:

(i) Where there has been no prior offense within seven years, be revoked or denied by the department for one year;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for nine hundred days; or

(iii) Where there have been two or more prior offenses within seven years, be revoked or denied by the department for four years; or

(c) **Penalty for refusing to take test.** If by reason of the person's refusal to take a test offered under RCW 46.20.308, there is no test result indicating the person's alcohol concentration:

(i) Where there have been no prior offenses within seven years, be revoked or denied by the department for two years;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for three years; or

(iii) Where there have been two or more previous offenses within seven years, be revoked or denied by the department for four years.

The department shall grant credit on a day-for-day basis for any portion of a suspension, revocation, or denial already served under this subsection for a suspension, revocation, or denial imposed under RCW 46.20.3101 arising out of the same incident. Upon its own motion or upon motion by a person, a court may find, on the record, that notice to the department under RCW 46.20.270 has been delayed for three years or more as a result of a clerical or court error. If so, the court may order the person's license, permit, or privilege to drive shall be suspended by the court for thirty days or, if such license, permit, or privilege to drive already is suspended, revoked, or denied, the time the finding of probation violation is made, the suspension, revocation, or denial then in effect shall be extended by thirty days. The court shall notify the department of any suspension, revocation, or denial or any extension of a suspension, revocation, or denial imposed under this subsection.

(12) **Waiver of electronic home monitoring.** A court may waive the electronic home monitoring requirements of this chapter when:

(a) The offender does not have a dwelling, telephone service, or any other necessity to operate an electronic home monitoring system. However, if a court determines that an alcohol monitoring device utilizing wireless reporting technology is reasonably available, the court may require the person to obtain such a device during the period of required electronic home monitoring;

(b) The offender does not reside in the state of Washington; or

(c) The court determines that there is reason to believe that the offender would violate the conditions of the electronic home monitoring penalty.

Whenever the mandatory minimum term of electronic home monitoring is waived, the court shall state in writing the reason for granting the waiver and the facts upon which the waiver is based, and shall impose an alternative sentence with similar punitive consequences. The alternative sentence may include, but is not limited to, use of an ignition interlock device (if the offense involved intoxicating liquor), the 24/7 sobriety program monitoring, additional jail time, work crew, or work camp.

Whenever the combination of jail time and electronic home monitoring or alternative sentence would exceed three
hundred sixty-four days, the offender shall serve the jail portion of the sentence first, and the electronic home monitoring or alternative portion of the sentence shall be reduced so that the combination does not exceed three hundred sixty-four days.

13. **Extraordinary medical placement.** An offender serving a sentence under this section, whether or not a mandatory minimum term has expired, may be granted an extraordinary medical placement by the department of social and health services if the offense occurred within seven years before or after the arrest for the current offense and the offender is unable to participate in a deferred prosecution under chapter 10.05 RCW, including a requirement that the offender participate in a chemical dependency treatment program.

1. Any police officer having probable cause to believe that a person has committed or is committing a misdemeanor or gross misdemeanor, involving physical harm or threats of harm to any person or property or the unlawful taking of property or involving the use or possession of cannabis, or involving the acquisition, possession, or consumption of alcohol by a person under the age of twenty-one years under RCW 66.44.270, or involving criminal trespass under RCW 9A.52.070 or 9A.52.080, shall have the authority to arrest the person.

(2)(a) Subject to (b) of this subsection, the license or permit to drive or any nonresident privilege of any person convicted of reckless driving shall be suspended by the department for not less than thirty days.

(b) When a reckless driving conviction is a result of a charge that was originally filed as a violation of RCW 46.61.502 or 46.61.504, or an equivalent local ordinance, the department shall grant credit on a day-for-day basis for any portion of a suspension, revocation, or denial already served under an administrative action arising out of the same incident. During any period of suspension, revocation, or denial due to a conviction for reckless driving as the result of a charge originally filed as a violation of RCW 46.61.502 or 46.61.504, any person who has obtained an ignition interlock driver's license under RCW 46.20.385 may continue to drive a motor vehicle pursuant to the provision of the ignition interlock driver's license without obtaining a separate temporary restricted driver's license under RCW 46.20.391.

(b) If the offense involved intoxicating liquor, a person convicted of reckless driving shall be required, under RCW

(b) It is an affirmative defense to negligent driving in the first degree by means of exhibiting the effects of having consumed any drug that must be proved by the defendant by a preponderance of the evidence, that the driver has a valid prescription for the drug consumed, and has been consuming it according to the prescription directions and warnings.

(c) Negligent driving in the first degree is a misdemeanor.

(2) For the purposes of this section:

(4) A person convicted of negligent driving in the first degree who has one or more prior offenses as defined in RCW 46.61.5055(14) within seven years shall be required, under RCW 46.20.720, to install an ignition interlock device on all vehicles operated by the person, if the offense involved intoxicating liquor."

However, the governor may request, and the private sector donors shall provide, an additional list or lists from which the governor shall select these representatives.

(2) Board members shall hold their offices for a term of four years from the first day of September and until their successors are appointed. No more than the terms of two members may expire simultaneously on the last day of August in any one year.

(3) The members of the ((opportunity scholarship)) board shall elect one of the business and industry representatives to serve as chair.

(4) ((Election)) Seven members of the board constitute a quorum for the transaction of business. (6) The purpose of the ((opportunity scholarship)) board is to provide oversight and guidance for the opportunity expansion and the opportunity scholarship programs in light of established legislative priorities and to fulfill the duties and responsibilities under this chapter, including but not limited to determining eligible education programs for purposes of the opportunity scholarship program. Duties, exercised jointly with the program administrator, include soliciting funds and setting annual fund-raising goals.

(7) The ((opportunity scholarship)) board may report to the governor and the appropriate committees of the legislature with recommendations as to:

(a) Whether some or all of the scholarships should be changed to conditional scholarships that must be repaid in the event the participant does not complete the eligible education program; and

(b) A source or sources of funds for the opportunity expansion program in addition to the voluntary contributions of the high technology research and development tax credit under RCW 82.32.800.

Sec. 3. RCW 28B.145.030 and 2011 1st sp.s. c 13 s 4 are each amended to read as follows:

(1) The program administrator, under contract with the ((board)) council, shall staff the ((opportunity scholarship)) board and shall have the duties and responsibilities provided in this chapter, including but not limited to publicizing the program, selecting participants for the opportunity scholarship award, distributing opportunity scholarship awards, and achieving the maximum possible rate of return on investment of the accounts in subsection (2) of this section, while ensuring transparency in the investment decisions and processes. Duties, exercised jointly with the ((opportunity scholarship)) board, include soliciting funds and setting annual fund-raising goals. The program administrator shall be paid an administrative fee as determined by the ((opportunity scholarship)) board.

(2) With respect to the opportunity scholarship program, the program administrator shall:

(a) Establish and manage two separate accounts into which to receive grants and contributions from private sources as well as state matching funds, and from which to disburse scholarship funds to participants;

(b) Solicit and accept grants and contributions from private sources, via direct payment, pledge agreement, or escrow account, of private sources for deposit into one or both of the two accounts created in this subsection (2)(b) in accordance with this subsection (2)(b):

(i) The "scholarship account," whose principal may be invaded, and from which scholarships must be disbursed beginning no later than December 1, 2011, if, by that date, state matching funds in the amount of five million dollars or more have been received. Thereafter, scholarships shall be disbursed on an annual basis beginning no later than May 1, 2012, and every ((May)) October 1st thereafter;

(ii) The "endowment account," from which scholarship moneys may be disbursed from earnings only in years when:

(A) The state match has been made into both the scholarship and the endowment account;

(B) The state appropriations for the state need grant under RCW 28B.92.010 meet or exceed state appropriations for the state need grant made in the 2011-2013 biennium, adjusted for inflation, and eligibility for state need grant recipients is at least seventy percent of state median family income; and

(C) The state has demonstrated progress toward the goal of total per-student funding levels, from state appropriations plus tuition and fees, of at least the sixtieth percentile of total per-student funding at similar public institutions of higher education in the global challenge states, as defined, measured, and reported in RCW 28B.15.068. In any year in which the office of financial management reports that the state has not made progress toward this goal, no new scholarships may be awarded. In any year in which the office of financial management reports that the percentile of total per-student funding is less than the sixtieth percentile and at least five percent less than the prior year, pledges of future grants and contributions may, at the request of the donor, be released and grants and contributions already received refunded to the extent that opportunity scholarship awards already made can be fulfilled from the funds remaining in the endowment account.

In fulfilling the requirements of this subsection, the office of financial management shall use resources that facilitate measurement and comparisons of the most recently completed academic year. These resources may include, but are not limited to, the data provided in a uniform dashboard format under RCW 28B.77.090 as the statewide public four-year dashboard and academic year reports prepared by the state board for community and technical colleges; (and)

(iii) An amount equal to at least fifty percent of all grants and contributions must be deposited into the scholarship account until such time as twenty million dollars have been deposited into the account, after which time the private donors may designate whether their contributions must be deposited to the scholarship or the endowment account. The ((opportunity scholarship)) board and the program administrator must work to maximize private sector contributions to both the scholarship account and the endowment account, to maintain a robust scholarship program while simultaneously building the endowment, and to determine the division between the two accounts in the case of undesignated grants and contributions, taking into account the need for a long-term funding mechanism and the short-term needs of families and students in Washington. The first five million dollars in state match, as provided in RCW 28B.145.040, shall be deposited into the scholarship account and thereafter the state match shall be deposited into the two accounts in equal proportion to the private funds deposited in each account; and

(iv) Once moneys in the opportunity scholarship match transfer account are subject to an agreement under RCW
All investments made by the state investment board shall be made with the exercise of that degree of judgment and care the earnings from the investment of the money shall be retained by the endowment account; with the exception of these expenses, with the investment of money shall be paid under RCW 28B.145.030(2)(b). If the board so elects, the state investment board has the full power to invest, reinvest, manage, contract, sell, or exchange investment money in the two accounts. All investment and operating costs associated with the investment of money shall be paid under RCW 43.33A.160 and 43.84.160. With the exception of these expenses, the earnings from the investment of the money shall be retained by the accounts.

All investments made by the state investment board shall be made with the exercise of that degree of judgment and care under RCW 43.33A.140 and the investment policy established by the state investment board.

As deemed appropriate by the state investment board, money in the scholarship and endowment accounts may be commingled for investment with other funds subject to investment by the state investment board.

Members of the state investment board shall not be considered an insurer of the funds or assets and are not liable for any action or inaction.

Members of the state investment board are not liable to the state, to the fund, or to any other person as a result of their activities as members, whether ministerial or discretionary, except for willful dishonesty or intentional violations of law. The state investment board in its discretion may purchase liability insurance for members.

The authority to establish all policies relating to the scholarship account and the endowment account, other than the investment policies as provided in subsections (1) through (3) of this section, resides with the board and program administrator acting in accordance with the principles set forth in this chapter.

With the exception of expenses of the state investment board in subsection (1) of this section, disbursements from the scholarship account and endowment account shall be made only on the authorization of the opportunity scholarship board or its designee, and moneys in the accounts may be spent only for the purposes specified in this chapter.

The state investment board shall routinely consult and communicate with the board on the investment policy, earnings of the accounts, and related needs of the program.

Sec. 5. RCW 28B.145.050 and 2011 1st sp.s. c 13 s 6 are each amended to read as follows:

(1) The opportunity scholarship match transfer account is created in the custody of the state treasurer as a nonappropriated account to be used solely and exclusively for the opportunity scholarship program created in RCW 28B.145.040. The purpose of the account is to provide matching funds for the opportunity scholarship program.

(2) Revenues to the account shall consist of appropriations by the legislature into the account and any gifts, grants, or donations received by the executive director of the ((board)) council for this purpose.

(3) No expenditures from the account may be made except upon receipt of proof, by the executive director of the ((board)) council from the program administrator, of private contributions to the opportunity scholarship program. Expenditures, in the form of matching funds, may not exceed the total amount of private contributions.

(4) Only the executive director of the ((board)) council or the executive director’s designee may authorize expenditures from the opportunity scholarship match transfer account. Such authorization must be made as soon as practicable following receipt of proof as required under subsection (3) of this section.

(5) The council shall enter into an appropriate agreement with the program administrator to demonstrate exchange of consideration for the matching funds.

Sec. 6. RCW 28B.145.060 and 2013 c 39 s 14 are each amended to read as follows:

(1) The opportunity expansion program is established.

(2) The ((opportunity scholarship)) board shall select institutions of higher education to receive opportunity expansion awards. In so doing, the ((opportunity scholarship)) board must:

(a) Solicit, receive, and evaluate proposals from institutions of higher education that are designed to directly increase the number of baccalaureate degrees produced in high employer demand and other programs of study, and that include annual numerical targets for the number of such degrees, with a
strong emphasis on serving students who received their high school diploma or high school equivalency certificate as provided in RCW 28B.50.536 in Washington or are adult Washington residents who are returning to school to gain a baccalaureate degree; (b) Develop criteria for evaluating proposals and awarding funds to the proposals deemed most likely to increase the number of baccalaureate degrees and degrees produced in high employer demand and other programs of study; (c) Give priority to proposals that include a partnership between public and private partnership entities that leverage additional private funds; (d) Give priority to proposals that are innovative, efficient, and cost-effective, given the nature and cost of the particular program of study; (e) Consult and operate in consultation with existing higher education stakeholders, including but not limited to: Faculty, labor, student organizations, and relevant higher education agencies; and (f) Determine which proposals to improve and accelerate the production of baccalaureate degrees in high employer demand and other programs of study will receive opportunity expansion awards for the following state fiscal year, notify the state treasurer, and announce the awards. (3) The state treasurer, at the direction of the (opportunity scholarship) board, must distribute the funds that have been awarded to the institutions of higher education from the opportunity expansion account. (4) Institutions of higher education receiving awards under this section may not supplant existing general fund state revenues with opportunity expansion awards. (5) Annually, the office of financial management shall report to the (opportunity scholarship) board, the governor, and the relevant committees of the legislature regarding the percentage of Washington households with incomes in the middle-income bracket or higher. For purposes of this section, "middle-income bracket" means household incomes between two hundred and five hundred percent of the 2010 federal poverty level, as determined by the United States department of health and human services for a family of four, adjusted annually for inflation. (6) Annually, the (student achievement) council must report to the (opportunity scholarship) board, the governor, and the relevant committees of the legislature regarding the increase in the number of degrees in high employer demand and other programs of study awarded by institutions of higher education over the average of the preceding ten academic years. (7) In its comprehensive plan, the workforce training and education coordinating board shall include specific strategies to reach the goal of increasing the percentage of Washington households living in the middle-income bracket or higher, as calculated by the office of financial management and developed by the agency or education institution that will lead the strategy. Sec. 7. RCW 28B.145.070 and 2011 1st sp.s. c 13 s 8 are each amended to read as follows: (1) (By December 1, 2012, and) Annually each December 1st (thereafter), the (opportunity scholarship) board, together with the program administrator, shall report to the (board) council, the governor, and the appropriate committees of the legislature regarding the opportunity scholarship and opportunity expansion programs, including but not limited to: (a) Which education programs the (opportunity scholarship) board determined were eligible for purposes of the opportunity scholarship; (b) The number of applicants for the opportunity scholarship, disaggregated, to the extent possible, by race, ethnicity, gender, county of origin, age, and median family income; (c) The number of participants in the opportunity scholarship program, disaggregated, to the extent possible, by race, ethnicity, gender, county of origin, age, and median family income; (d) The number and amount of the scholarships actually awarded, and whether the scholarships were paid from the scholarship account or the endowment account; (e) The institutions and eligible education programs in which opportunity scholarship participants enrolled, together with data regarding participants' completion and graduation; (f) The total amount of private contributions and state match moneys received for the opportunity scholarship program, how the funds were distributed between the scholarship and endowment accounts, the interest or other earnings on the accounts, and the amount of any administrative fee paid to the program administrator; and (g) Identification of the programs the (opportunity scholarship) board selected to receive opportunity expansion awards and the amount of such awards. (2) In the next succeeding legislative session following receipt of a report required under subsection (1) of this section, the appropriate committees of the legislature shall review the report and consider whether any legislative action is necessary with respect to either the opportunity scholarship program or the opportunity expansion program, including but not limited to consideration of whether any legislative action is necessary with respect to the nature and level of focus on high employer demand fields and the number and amount of scholarships." SB 6424 Prime Sponsor, Senator Roach: Establishing a state seal of biliteracy for high school students. Reported by Committee on Education

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that:
(a) The study of world languages in elementary and secondary schools should be encouraged because it contributes to students' cognitive development and to the national economy and security;
(b) Proficiency in multiple languages enables Washington to participate more effectively in the current global political, social, and economic context;
(c) The benefits to employers of having employees who are fluent in more than one language are clear: Increased access to expanding markets, better service of customers' needs, and expanded trading opportunities with other countries; and
(d) Protecting the state's rich heritage of multiple cultures and languages, as well as building trust and understanding
across the multiple cultures and languages of diverse communities, requires multilingual communication skills.

(2) Therefore, the legislature's intent is to promote and recognize linguistic proficiency and cultural literacy in one or more world languages in addition to English through the establishment of a Washington state seal of biliteracy.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.300 RCW to read as follows:

(1) The Washington state seal of biliteracy is established to recognize public high school graduates who have attained a high level of proficiency in speaking, reading, and writing in one or more world languages in addition to English. School districts are encouraged to award the seal of biliteracy to graduating high school students who meet the criteria established by the office of the superintendent of public instruction under this section. Participating school districts shall place a notation on a student's high school diploma and high school transcript indicating that the student has earned the seal.

(2) The office of the superintendent of public instruction shall adopt rules establishing criteria for award of the Washington state seal of biliteracy. The criteria must require a student to demonstrate proficiency in one or more world languages other than English. The criteria must permit a student to demonstrate proficiency in another world language through multiple methods including nationally or internationally recognized language proficiency tests and competency-based world language credits awarded under the model policy adopted by the Washington state school directors' association. Participating school districts may be encouraged to award the seal of biliteracy to graduating high school students who meet the criteria established by the office of the superintendent of public instruction under this section.

(3) For the purposes of this section, a world language other than English must include American sign language and Native American languages.

Sec. 3. RCW 28A.230.125 and 2011 1st sp.s. c 11 s 130 are each amended to read as follows:

(1) The superintendent of public instruction, in consultation with the four-year institutions as defined in RCW 28B.76.020, the state board for community and technical colleges, and the workforce training and education coordinating board, shall develop for use by all public school districts a standardized high school transcript. The superintendent shall establish clear definitions for the terms "credits" and "hours" so that school programs operating on the quarter, semester, or trimester system can be compared.

(2) The standardized high school transcript shall include a notation of whether the student has earned a certificate of individual achievement or a certificate of academic achievement. The standardized high school transcript may include a notation of whether the student has earned the Washington state seal of biliteracy established under this act.

NEW SECTION. Sec. 4. By December 1, 2017, the office of the superintendent of public instruction shall submit a report to the education committees of the legislature that compares the number of students who have earned the Washington state seal of biliteracy in the previous two school years and the languages spoken by those students to the number of students enrolled or previously enrolled in the transitional bilingual instruction program and the languages spoken by those students. The office of the superintendent of public instruction shall also report the methods used by students to demonstrate proficiency for the Washington state seal of biliteracy, and describe how the office of the superintendent of public instruction plans to increase the number of possible methods for students to demonstrate proficiency, particularly in world languages that are not widely spoken."

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 70.95I.020 and 1991 c 319 s 303 are each amended to read as follows:

(1) Each local government and its local hazardous waste plan under RCW 70.105.220 is required to include a used oil recycling element. This element shall include:
   (a) A plan to reach the local goals for household used oil recycling established by the local government and the department under RCW 70.95I.030. The plan shall, to the maximum extent possible, incorporate voluntary agreements with the private sector and state agencies to provide sites for the collection of used oil. Where provided, the plan shall also incorporate residential collection of used oil;
   (b) A plan for enforcing the sign and container ordinances required by RCW 70.95I.040;
   (c) A plan for public education on used oil recycling;
   (d) A plan for addressing best management practices as provided for under RCW 70.95I.030; and
   (e) An estimate of funding needed to implement the requirements of this chapter. This estimate shall include a budget reserve for disposal of contaminated oil detected at any public used oil collection site administered by the local government.

(2) By July 1, 1993, each local government or combination of contiguous local governments shall submit its used oil recycling element to the department. The department shall approve or disapprove the used oil recycling element by January 1, 1994, or within ninety days of submission, whichever is later. The department shall approve or disapprove the used oil recycling element if it determines that the element is consistent with this chapter and the guidelines developed by the department under RCW 70.95I.030.

(3) Each local government, or combination of contiguous local governments, shall submit an annual statement to the department describing the number of used oil collection sites and the quantity of household used oil recycled for the jurisdiction during the previous calendar year. The first statement shall be due April 1, 1994. Subsequent statements shall be due April 1st of each year.

(4) Nothing in this section shall be construed to require a city or county to construct or operate a public used oil collection site.

Sec. 2. RCW 70.95I.030 and 1991 c 319 s 304 are each amended to read as follows:

(1) ((By July 1, 1992)), the department shall, in consultation with local governments, maintain guidelines for the used oil recycling elements required by RCW 70.95I.020 and, by July 1, 2015, shall develop best management practices for preventing and managing polychlorinated biphenyl contamination at public used oil collection sites.

(a) The guidelines shall:
   ((ii)) ((i)) require development of local collection and rerefining goals for household used oil for each entity preparing a used oil recycling element under RCW 70.95I.020;
   ((ii)) ((ii)) require local government to recommend the number of used oil collection sites needed to meet the local goals. The department shall establish criteria regarding minimum levels of used oil collection sites;
   ((iii)) ((iiii)) require local government to identify locations suitable as public used oil collection sites as described under RCW 70.95I.020(1)(a).

(b) The best management practices for preventing and managing polychlorinated biphenyl contamination at public used oil collection sites must include, at a minimum:

   (i) Tank testing requirements;
   (ii) Contaminated tank labeling and security measures;
   (iii) Contaminated tank cleanup standards;
   (iv) Proper contaminated used oil disposal as required under chapter 70.105 RCW and 40 C.F.R. Part 761;
   (v) Spill control measures; and
   (vi) Model contract language for contracts with used oil collection vendors.

(2) The department may waive all or part of the specific requirements of RCW 70.95I.020 if a local government demonstrates to the satisfaction of the department that the objectives of this chapter have been met.

(3) The department may prepare and implement a used oil recycling plan for any local government failing to complete the used oil recycling element of the plan.

(4) The department shall develop statewide collection and rerefining goals for household used oil for each calendar year beginning with calendar year 1994. Goals shall be based on the estimated statewide collection and rerefining rate for calendar year 1993, and shall increase each year until calendar year 1996, when the rate shall be eighty percent.

(5) By July 1, ((1992)) 2015, the department shall ((prepare)) update the guidelines establishing statewide equipment and operating standards for public used oil collection sites. The updated guidelines must include the best management practices for prevention and management of contaminated used oil developed pursuant to subsection (1) of this section and a process for how to petition the legislature for relief of extraordinary costs incurred with the management and disposal of contaminated used oil. In addition, the standards shall:

   (a) Allow the use of used oil collection igloos and other types of portable used oil collection tanks;
   (b) Prohibit the disposal of nonhousehold-generated used oil;
   (c) Limit the amount of used oil deposited to five gallons per household per day;
   (d) Ensure adequate protection against leaks and spills; and
   (e) Include other requirements deemed appropriate by the department.

NEW SECTION. Sec. 3. A new section is added to chapter 43.21A RCW to read as follows:

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the
following:

"NEW SECTION. Sec. 2. A new section is added to chapter
48.165 RCW to read as follows:

(1) The insurance commissioner must reauthorize the
efforts with the lead organization established in RCW 48.165.030,

recommendations to the commissioner by October 31, 2014.

(2) The lead organization and work group established to
review prior authorization requirements must consider the
following areas in their efforts:
(a) Requiring carriers and pharmacy benefit managers to
provide a listing of prior authorization requirements electronically
on a web site. The listing of requirements for any procedure,
supply, or service requiring preauthorization must include criteria
needed by the carrier specific to that medical or procedural code, to
allow a provider's office to submit all information needed on the
initial request for prior authorization, along with instructions for
submitting that information;
(b) Requiring a carrier or pharmacy benefit manager to
issue an acknowledgement of receipt or reference number for prior
authorization within a specified time frame, such as two business

for pharmacy related prior authorization on a web site and other
recommended alternatives; and options for prior authorizations
involving urgent and emergent care with short-term prescription
fill, such as a three-day supply, while the authorization is obtained.

(3) In preparing the recommendations, the work group
must consider the opportunities to align with national mandates
and regulatory guidance in the health insurance portability and
accountability act and the patient protection and affordable care
act, and use information technologies and electronic health records
to increase efficiencies in health care and reengineer and automate
age-old practices to improve business functions and ensure timely

(2) A carrier, whether directly or indirectly through subcontracted networks, shall disclose:
(a) Its criteria and methods for establishing limits on access to network providers, including, but not limited to, the carrier's method used to determine that a network provider may provide care to a covered person without prior authorization while imposing prior authorization requirements on other network providers; and

SSB 6558  Prime Sponsor, Committee on Ways & Means: Concerning intensive home and community-based mental health services for medicaid-eligible children. Reported by Committee on Early Learning & Human Services

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that services for low-income children in Washington with serious mental health needs should be improved so that children can be served in their community, rather than in out-of-home placements, in order to receive the help they need. Entering a state institution, foster home, or other out-of-home placement may create additional hardship on the child and the family by forcing a child into an unfamiliar living situation and separating them from their family, friends, school, community, and natural supports. The legislature intends to expand access to intensive home and community-based children's services so that these services will be implemented statewide on a phased-in basis to children with serious mental health needs.

Sec. 2. RCW 71.24.065 and 2007 c 359 s 10 are each amended to read as follows:

"(To the extent funds are specifically appropriated for this purpose,) (1) The department of social and health services shall (contract for implementation of a wraparound model of integrated children's mental health services delivery in up to four regional support network regions in Washington state in which wraparound programs are not currently operating, and in up to two regional support network regions in which wraparound programs
are currently operating. Contracts in regions with existing wraparound programs shall be for the purpose of expanding the number of children served.

(1) Funding provided may be expended for: Costs associated with a request for proposal and contracting process; administrative costs associated with successful bidders’ operation of the wraparound model; the evaluation under subsection (5) of this section; and funding for services needed by children enrolled in wraparound model sites that are not otherwise covered under existing state programs. The services provided through the wraparound model sites shall include, but not be limited to, services covered under the medicaid program. The department shall maximize the use of medicaid and other existing state-funded programs as a funding source. However, state funds provided may be used to develop a broader service package to meet needs identified in a child’s care plan. Amounts provided shall supplement, and not supplant, state, local, or other funding for services that a child being served through a wraparound site would otherwise be eligible to receive. (2) The department shall contract, with regional support networks, alone or in partnership with either educational service districts or entities licensed to provide mental health services to children with serious emotional or behavioral disturbances, to operate the wraparound model sites. The contractor shall operate the wraparound model sites in a manner that maintains fidelity to the wraparound process as defined in RCW 71.36.010.

(3) The department shall track, monitor, and report on measures such as:
   (a) Decreased out-of-home placement, (including residential, group, and foster care, and increased stability of such placements, school attendance, school performance, recidivism,) as well as decreased length of stay in such placements;
   (b) Emergency room utilization);
   (c) Involvement with the juvenile justice system((, decreased));
   (d) Use of psychotropic medication((, )); and
   (e) Hospitalization between baseline and postimplementation periods.

((6) The evidence-based practice institute shall provide a report and recommendations to the appropriate committees of the legislature by December 1, 2010.))

NEW SECTION. Sec. 3. For the duration of the implementation process of the wraparound with intensive services, the department of social and health services shall provide annual implementation reports to the office of financial management and the appropriate legislative committees on or before December 1st each year. Throughout the implementation process, and as services are phased in, the department shall seek input from local stakeholders to include families and youth, local government, tribal partners, and service providers on:

(1) The adequacy and availability of core services required for wraparound with intensive services within provider networks and shall engage in problem-solving around shortages or lack of quality core service availability;

(2) Performance measures, outcomes, and quality improvement relevant to children’s behavioral health in Washington state; and

(3) Recommendations for participants in a local collaborative body to ensure that children, families, and other stakeholders have a clear pathway to receive intensive home and community-based wraparound services.

NEW SECTION. Sec. 4. Beginning July 1, 2014, funding provided for the wraparound pilot programs must be repurposed toward the costs of phasing in an implementation of wraparound with intensive services. The department of social and health services shall prioritize service areas based on provider readiness and develop a schedule for phase-in by county."

(5) "Enters or remains unlawfully." A person "enters or remains unlawfully" in or upon premises when he or she is not then licensed, invited, or otherwise privileged to so enter or remain.

A license or privilege to enter or remain in a building which is only partly open to the public is not a license or privilege to enter or remain in that part of a building which is not open to the public. A person who enters or remains upon unimproved and apparently unused land, which is neither fenced nor otherwise enclosed in a manner designed to exclude intruders, does so with license and privilege unless notice against trespass is personally communicated to him or her by the owner of the land or some other authorized person, or unless notice is given by posting in a conspicuous manner. (a) Identifying fluorescent orange marks must be:
   (i) Vertical lines not less than eight inches in length and not less than one inch in width;
   (ii) Placed so that the bottom of the mark is between three and five feet from the ground; and
   (iii) Placed at locations that are readily visible to any person approaching the property and no more than one hundred feet apart on forest land, as defined in RCW 76.09.020, or one thousand feet apart on land other than forest land.

E2SSB 6126 Prime Sponsor, Committee on Ways & Means: Concerning representation of children in dependency matters. Reported by Committee on Judiciary

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature recognizes that some children may remain in foster care following the termination of the parent and child relationship. These children have legal rights and no longer have a parent to advocate on their behalf, and no other party represents their legal interests. The legislature finds that providing attorneys for children following the termination of the parent and child relationship is fundamental to protecting the child's legal rights and to accelerate permanency.

(2) Although the legislature recognizes that many jurisdictions provide attorneys to children prior to termination of the parent and child relationship, nothing in this act may be construed against the parent's fundamental liberty interest in parenting the child prior to termination of the parent and child relationship as stated in In re Dependency of K.N.J., 171 Wn.2d 568, 574 (2011) and In re Welfare of Lucier, 84 Wn.2d 135, 136-37 (1974), unless such a position would jeopardize the child's right to conditions of basic nurture, health, or safety.

Sec. 2. RCW 13.34.100 and 2010 c 180 s 2 are each amended to read as follows:

(1) The court shall appoint a guardian ad litem for a child who is the subject of an action under this chapter, unless a court for
good cause finds the appointment unnecessary. The requirement of a guardian ad litem may be deemed satisfied if the child is represented by an independent attorney in the proceedings. The court shall attempt to match a child with special needs with a guardian ad litem who has specific training or education related to the child's individual needs.

(2) If the court does not have available to it a guardian ad litem program with a sufficient number of volunteers, the court may appoint a suitable person to act as guardian ad litem for the child under this chapter. Another party to the proceeding or the party's employee or representative shall not be so appointed.

(3) Each guardian ad litem program shall maintain a background information record for each guardian ad litem in the program. The background information record shall include, but is not limited to, the following information:
   (a) Level of formal education;
   (b) General training related to the guardian ad litem's duties;
   (c) Specific training related to issues potentially faced by children in the dependency system;
   (d) Specific training or education related to child disability or developmental issues;
   (e) Number of years' experience as a guardian ad litem;
   (f) Number of appointments as a guardian ad litem and the county or counties of appointment;
   (g) The names of any counties in which the person was removed from a guardian ad litem registry pursuant to a grievance action, and the name of the court and the cause number of any case in which the court has removed the person for cause;
   (h)Founded allegations of abuse or neglect as defined in RCW 26.44.020;
   (i) The results of an examination of state and national criminal identification data. The examination shall consist of a background check as allowed through the Washington state criminal records privacy act under RCW 10.97.050, the Washington state patrol criminal identification system under RCW 43.43.832 through 43.43.834, and the federal bureau of investigation. The background check shall be done through the Washington state patrol criminal identification section and must include a national check from the federal bureau of investigation based on the submission of fingerprints; and
   (j) Criminal history, as defined in RCW 9.94A.030, for the period covering ten years prior to the appointment. The background information record shall be updated annually. As a condition of appointment, the guardian ad litem's background information record shall be made available to the court. If the appointed guardian ad litem is not a member of a guardian ad litem program a suitable person appointed by the court to act as guardian ad litem shall provide the background information record to the court.

Upon appointment, the guardian ad litem, or guardian ad litem program, shall provide the parties or their attorneys with a copy of the background information record. The portion of the background information record containing the results of the criminal background check and the criminal history shall not be disclosed to the parties or their attorneys. The background information record shall not include identifying information that may be used to harm a guardian ad litem, such as home addresses and home telephone numbers, and for volunteer guardians ad litem the court may allow the use of maiden names or pseudonyms as necessary for their safety.

(4) The appointment of the guardian ad litem shall remain in effect until the court discharges the appointment or no longer has jurisdiction, whichever comes first. The guardian ad litem may also be discharged upon entry of an order of guardianship.

(5) A guardian ad litem through an attorney, or as otherwise authorized by the court, shall have the right to present evidence, examine and cross-examine witnesses, and to be present at all hearings. A guardian ad litem shall receive copies of all pleadings and other documents filed or submitted to the court, and notice of all hearings according to court rules. The guardian ad litem shall receive all notice contemplated for a parent or other party in all proceedings under this chapter.

(6) (a) The court must appoint an attorney for a child in a dependency proceeding six months after granting a petition to terminate the parent and child relationship pursuant to RCW 13.34.180 and when there is no remaining parent with parental rights.

   The court must appoint an attorney for a child when there is no remaining parent with parental rights for six months or longer prior to the effective date of this section if the child is not already represented.

   The court may appoint one attorney to a group of siblings, unless there is a conflict of interest, or such representation is otherwise inconsistent with the rules of professional conduct.

   (b) Legal services provided by an attorney appointed pursuant to (a) of this subsection do not include representation of the child in any appellate proceedings relative to the termination of the parent and child relationship.

   (c)(i) Subject to the availability of amounts appropriated for this specific purpose, the state shall pay the costs of legal services provided by an attorney appointed pursuant to (a) of this subsection, if the legal services are provided in accordance with the standards of practice, voluntary training, and caseload limits developed and recommended by the statewide children's representation work group pursuant to section 5, chapter 180, Laws of 2010. Caseload limits must be calculated pursuant to (c)(ii) of this subsection.

   (ii) Counties are encouraged to set caseloads as low as possible and to account for the individual needs of the children in care. Notwithstanding the caseload limits developed and recommended by the statewide children's representation work group pursuant to section 5, chapter 180, Laws of 2010, when one attorney represents a sibling group, the first child is counted as one case, and each child thereafter is counted as one-half case to determine compliance with the caseload standards pursuant to (c)(i) of this subsection and section 3 of this act.

   (iii) The office of civil legal aid is responsible for implementation of (c)(i) and (ii) of this subsection as provided in section 3 of this act.

   (7) (a) The court may appoint an attorney to represent the child's position in any dependency action on its own initiative, or upon the request of a parent, the child, a guardian ad litem, a caregiver, or the department.

   (b) If the court has not already appointed an attorney for a child, or the child is not represented by a privately retained attorney:

      (A) The child's caregiver, or any individual, may refer the child to an attorney for the purposes of filing a motion to request appointment of an attorney at public expense; or
      (B) The child or any individual may retain an attorney for the purposes of filing a motion to request appointment of an attorney at public expense.

   (ii) Nothing in this subsection (7)(b) shall be construed to change or alter the confidentiality provisions of RCW 13.50.100.

   (c) Pursuant to this subsection, the department or supervising agency and the child's guardian ad litem shall each notify a child of his or her right to request counsel and shall ask the child whether he or she wishes to have counsel.
guardian ad litem shall notify the child and make this inquiry immediately after:

(i) The date of the child's twelfth birthday;
(ii) Assignment of a case involving a child age twelve or older; or
(iii) July 1, 2010, for a child who turned twelve years old before July 1, 2010.

(((iii)) (((i))) The department or supervising agency and the child's guardian ad litem shall repeat the notification and inquiry at least annually and upon the filing of any motion or petition affecting the child's placement, services, or familial relationships. (((ii))) (((ii))) The notification and inquiry is not required if the child has already been appointed (((counsel))) an attorney.

(((iv))) (((iii))) The department or supervising agency shall note in the child's individual service and safety plan, and the guardian ad litem shall note in his or her report to the court, that the child was notified of the right to request (((counsel))) an attorney and indicate the child's position regarding appointment of (((counsel))) an attorney.

(((v))) (((iv))) At the first regularly scheduled hearing after:
(i) The date of the child's twelfth birthday;
(ii) The date that a dependency petition is filed pursuant to this chapter on a child age twelve or older; or
(iii) July 1, 2010, for a child who turned twelve years old before July 1, 2010;
the court shall inquire whether the child has received notice of his or her right to request (((legal counsel))) an attorney from the department or supervising agency and the child's guardian ad litem. The court shall make an additional inquiry at the first regularly scheduled hearing after the child's fifteenth birthday. No inquiry is necessary if the child has already been appointed (((counsel))) an attorney.

(((vi))) (((v))) If the child requests legal counsel and is age twelve or older, or if the guardian ad litem or the court determines that the child needs to be independently represented by counsel, the court may appoint an attorney to represent the child's position.

(8) For the purposes of child abuse prevention and treatment act (42 U.S.C. Secs. 5101 et seq.) grants to this state under P.L. 93-247, or any related state or federal legislation, a person appointed pursuant to this section shall be deemed a guardian ad litem (to represent the best interests of the minor in proceedings before the court).

(((vii))) (((vi))) When a court-appointed special advocate or volunteer guardian ad litem is requested on a case, the program shall give the court the name of the person it recommends. The program shall attempt to match a child with special needs with a guardian ad litem who has specific training or education related to the child's individual needs. The court shall immediately appoint the person recommended by the program.

(((viii))) (((vii))) If a party in a case reasonably believes the court-appointed special advocate or volunteer guardian ad litem is inappropriate or unqualified, the party may request a review of the appointment by the program. The program must complete the review within five judicial days and remove any appointee for good cause. If the party seeking the review is not satisfied with the outcome of the review, the party may file a motion with the court for the removal of the court-appointed special advocate or volunteer guardian ad litem on the grounds the advocate or volunteer is inappropriate or unqualified.

NEW SECTION. Sec. 3. A new section is added to chapter 2.53 RCW to read as follows:

(1) Money appropriated by the legislature for legal services provided by an attorney appointed pursuant to RCW 13.34.100 must be administered by the office of civil legal aid established under RCW 2.53.020.

(2) The office of civil legal aid may enter into contracts with the counties to disburse state funds for an attorney appointed pursuant to RCW 13.34.100. The office of civil legal aid may also require a county to use attorneys under contract with the office for the provision of legal services under RCW 13.34.100 to remain within appropriated amounts.

(3) Prior to distributing state funds under subsection (2) of this section, the office of civil legal aid must verify that attorneys providing legal representation to children under RCW 13.34.100 meet the standards of practice, voluntary training, and caseload limits developed and recommended by the statewide children's representation work group pursuant to section 5, chapter 180, Laws of 2010. Caseload limits described in this subsection must be determined as provided in RCW 13.34.100(6)(c)(ii).

Creating effective and timely access to magistrates
for purposes of reviewing search warrant
applications. Reported by Committee on Judiciary

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that recent
decisions of the United States supreme court and the Washington
court require law enforcement to obtain the review of a neutral and disinterested magistrate and the issuance of a
search warrant more frequently before proceeding with a criminal
investigation. The legislature intends to accommodate this
requirement by creating effective and timely access to magistrates
for purposes of reviewing search warrant applications across the
state of Washington. This act does not change the legal standards
for issuing a search warrant or the legal standards for review of an
issued search warrant.

NEW SECTION. Sec. 2. A new section is added to chapter 2.20
RCW to read as follows:

Any district or municipal court judge, in the county in
which the offense is alleged to have occurred, may issue a search
warrant for any person or evidence located anywhere within the
state.

NEW SECTION. Sec. 3. A new section is added to chapter 10.79
RCW to read as follows:

(1) Any magistrate as defined by RCW 2.20.010, when

supported by oath or affirmation, issue a search warrant to search for
and seize any: (a) Evidence of a crime; (b) contraband, the
fruits of crime, or things otherwise criminally possessed; (c)
weapons or other things by means of which a crime has been
committed or reasonably appears about to be committed; or (d)
person for whose arrest there is probable cause or who is
unlawfully restrained.

(2) The application may be provided or transmitted to the
magistrate by telephone, e-mail, or any other reliable method.

(3) If the magistrate finds that probable cause for the
issuance of a warrant exists, the magistrate must issue a warrant or
direct an individual whom the magistrate authorizes to affix
the magistrate's signature to a warrant identifying the property or
person for whose arrest there is probable cause or who is
unlawfully restrained.

(4) The evidence in support of the finding of probable
cause and a record of the magistrate's permission to affix
the magistrate's signature to the warrant shall be preserved and shall be
filed with the issuing court as required by CrRLJ 2.3 or CrR 2.3

Sec. 4. RCW 9A.72.085 and 1981 c 187 s 3 are each amended to

or requirement made under the law of this state, any matter in an
official proceeding is required or permitted to be supported,
evidenced, established, or proved by a person's sworn written
statement, declaration, verification, certificate, oath, or affidavit,
the matter may with like force and effect be supported, evidenced,
established, or proved in the official proceeding by an unsworn
written statement, declaration, verification, or certificate, which:

(a) Recites that it is certified or declared by the
person to be true under penalty of perjury;

(b) Is subscribed by the person;

(c) States the date and place of its execution; and

(d) States that it is so certified or declared under
the laws of the state of Washington.

(2) The certification or declaration may be in substantially the
following form:

the laws of the State of Washington that the foregoing is
true and correct:"

(3) For purposes of this section, a person subscribes to an unsworn
written statement, declaration, verification, or certificate by:

(a) Affixing or placing his or her signature as defined in
RCW 9A.04.110 on the document;

(b) Attaching or logically associating his or her digital
signature or electronic signature as defined in RCW 19.34.020 to
the document;

(c) Affixing or logically associating his or her signature
in the manner described in general rule 30 to the document if he or
she is a licensed attorney; or

(d) Affixing or logically associating his or her full name,

1. "Open space land" means (a) any land area so designated by an official comprehensive land use plan adopted by any city or county and zoned accordingly, or (b) any land area, the preservation of which in its present use would (i) conserve and enhance natural or scenic resources, or (ii) protect streams or water supply, or (iii) promote conservation of soils, wetlands, beaches or tidal marshes, or (iv) enhance the value to the public of abutting or neighboring parks, forests, wildlife preserves, nature reservations or sanctuaries or other open space, or (v) enhance recreation opportunities, or (vi) preserve historic sites, or (vii) preserve visual quality along highway, road, and street corridors or scenic vistas, or (viii) retain in its natural state tracts of land not less than one acre situated in an urban area and open to public use on such conditions as may be reasonably required by the legislative body granting the open space classification, or (c) any land meeting the definition of farm and agricultural conservation land under subsection (8) of this section. NEW SECTION. Sec. 2. A new section is added to chapter 69.04 RCW to read as follows:

(1) The department shall issue a license to operate as a direct retailer license for businesses that sell and collect payment only through a web site for prepackaged foods obtained from a food processor either licensed or inspected, or both, by a state or federal regulatory agency and that deliver the food directly to consumers without any interim storage.

NEW SECTION. Sec. 3. The amendments to RCW 84.34.020, as provided in section 2 of this act, are intended to clarify an ambiguity in an existing tax preference, and are therefore exempt from the requirements of RCW 82.32.805 and 82.32.808."
(d) Maintains food temperature logs or uses a device to monitor the temperature of the packages in real time for all food while in transport; and
(e) Submits all appropriate fees to the department.
(2) The department shall develop, by rule, an annual license and renewal fee to defray the costs of administering the licensing and inspection program created by this section. All moneys received by the department under the provisions of this section must be paid into the food processing inspection account created in RCW 69.07.120 and must be used solely to carry out the provisions of this section.
(3) (a) A licensed direct retailer is required to protect food from contamination while in transport. Food must be transported under conditions that protect food against physical, chemical, and microbial contamination, as well as against deterioration of the food and its container.

(b) Compliance with this subsection (3) requires, but is not limited to, the separation of raw materials in such a fashion that they avoid cross-contamination of other food products, particularly ready-to-eat food. An example of this principle includes ensuring that, during the transport of raw fish and seafood, meat, poultry, or other food which inherently contains pathogenic and spoilage microorganisms, soil, or other foreign material, the raw materials may not come into direct contact with other food in the same container or in any other cross-contaminating circumstance.

(4) In the event of a food recall or when required by the department, a federal, state, or local health authority in response to a food borne illness outbreak, a licensed direct retailer shall use its client listerv to notify customers of the recall and any other relevant information.

(5) In the implementation of this section, the department shall:
(a) Conduct inspections of vehicles, food handling areas, refrigeration equipment, and product packaging used by a licensed direct retailer;
(b) Conduct audits of temperature logs and other food handling records as appropriate;
(c) Investigate any complaints against a licensed direct retailer for the failure to maintain food safety; and
(d) Adopt rules, in consultation with the department of health and local health jurisdictions, necessary to administer and enforce the program consistent with federal regulations.

(6) Direct retailers that have a license from the department under this section are exempt from the permitting requirements of food service rules adopted by the state board of health and any local health jurisdiction.

(7) The director may deny, suspend, or revoke any license provided under this section if the director determines that an applicant or licensee has committed any of the following:
(a) Refused, neglected, or failed to comply with the provisions of this section, the rules and regulations adopted under this section, or any order of the director;
(b) Refused, neglected, or failed to keep and maintain records required by this chapter, or refused the department access to such records;
(c) Refused the department access to any portion or area of vehicles, food handling areas, or any other areas or facilities housing equipment or product packaging used by the direct retailer in the course of performing business responsibilities; or
(d) Failed to submit an application for a license meeting the requirements of this section or failed to pay the appropriate annual license or renewal fee.

(8) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise:
(a) "Department" means the department of agriculture.
(b) "Direct retailer" means an entity that receives prepackaged food from a food processor that is either licensed or inspected, or both, by a state or federal regulatory agency or the department and that delivers the food directly to consumers who only placed and paid for an order on the entity's web site, as long as:
(i) The food is delivered by the entity without opening the packaging and without dividing it into smaller packages;
(ii) There is no interim storage by the entity; and
(iii) The food is delivered by means of vehicles that are equipped with either refrigeration or freezer units, or both, and that meet the requirements of rules authorized by this chapter.

ESB 6549 Prime Sponsor, Senator Hobbs: Creating
demonstration projects for preserving agricultural
land and public infrastructure in flood plains.
Reported by Committee on Agriculture & Natural
Resources

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the
following:
"NEW SECTION. Sec. 1. (1) The legislature finds that
accumulation of sediment and gravel in certain rivers of the state
may be a contributing factor to threats faced by farmland and by
successful recovery or enhancement efforts for certain fish
populations.

(2) The legislature further finds that improperly managed
river systems may contribute to erosion and an associated
reduction in acreage of productive farmland and the functions of
riparian zones. This loss could be a factor in warming of river
waters, flooding in residential areas, loss of recreational access to
rivers, and loss of public infrastructure.

(3) The legislature further finds that commissioning a
collaborative process to further the process of addressing river
management in the state will be useful in providing a model of
collaboration moving forward throughout the state.

NEW SECTION. Sec. 2. (1)(a) The state conservation
commission must take the administrative lead in a process to
evaluate the effectiveness, legal barriers, and costs of various river
management strategies and techniques. Each identified strategy
and technique must be compared in regards to their value in accomplishing the following goals:

(i) The protection of agricultural lands;
(ii) The restoration or enhancement of fish runs; and
(iii) The protection of public infrastructure and recreational access.

(b) The various river management strategies and techniques reviewed by the process established in this act must ultimately be decided by the expertise panel required by this act. In developing a list of strategies and techniques to review, the following factors must be considered:

(i) The types of techniques that are most likely to result in decreased localized flooding events;
(ii) The types of data or analysis that are required to ensure those techniques are appropriately sited and implemented;
(iii) Potential impacts and benefits to fish and wildlife and their habitats that may result from the recommended techniques and how negative impacts can be eliminated or minimized;
(iv) Potential impacts to downstream structures, properties, public access and other uses, and safety; and
(v) The frequency and duration of post-project monitoring.

(c) The process required by this act must also result in recommendations regarding funding mechanisms and incentives designed to encourage participation in flood reduction programs. Funding recommendations may include federal grants, federal loans, state grants and loans, private donations, or, if other funding sources do not appear to be available, legislative appropriations from the biennial omnibus capital appropriations act or omnibus operating appropriations act.

(2) The state conservation commission, as administrative lead, is responsible for creating timelines, arranging and chairing the meetings of the expertise panel required in this act, and reporting the conclusions of the expertise panel.

(3) The end product of the implementation of this act must be developed by an expertise panel appointed by the executive director of the state conservation commission. This expertise panel must include, at a minimum, representatives of the following:

(a) The department of agriculture;
(b) The department of natural resources;
(c) The department of fish and wildlife;
(d) The department of ecology;
(e) Local and statewide agricultural organizations;
(f) Land conservation organizations;
(g) Local governments with interest or experience in the use of river management techniques to provide for flood control; and
(h) Any other perspective deemed insightful by the executive director.

(4) The state conservation commission must offer all interested Indian tribes the opportunity to send representatives to participate on the expertise panel required under this act or to serve as a co-administrative lead with the state conservation commission in the implementation of this act.

(5) The work product resulting from the implementation of this act must include an opinion regarding the appropriateness and feasibility of conducting river management demonstration projects. If demonstration projects are found to be appropriate and feasible, a proposed detailed outline for one or more demonstration projects that could be conducted to test various river management strategies and techniques must be developed. Any proposed outline must be of sufficient detail as to allow for a decision by future legislatures as to whether to authorize and fund the project or projects. At a minimum, the proposal must include recommendations as to:

(a) The river system or systems where the demonstration projects should occur;
(b) The time of year when projects should occur and other steps to ensure compliance with chapter 77.55 RCW;
(c) Steps that should be taken to avoid or reduce turbidity in the rivers during the projects;
(d) The disposition of any gravel removed from rivers during a demonstration project, if a project calls for gravel removal;
(e) The most efficient way for all necessary federal, state, and local permits and approvals, if any, to be obtained;
(f) The appropriate timelines and benchmarks;
(g) The expected results; and
(h) The proposed funding amount needed to conduct the projects.

(6) (a) In implementing this act, the expertise panel must examine river management techniques being studied or implemented in other jurisdictions or currently underway in Washington.

(b) The requirements of (a) of this subsection must include a review of river management techniques conducted in the Fraser river, British Columbia, Canada, for any practices that are potentially applicable in Washington.

(7) This act must be implemented in a way that coordinates with other flood control and river management efforts in Washington.

(8) The findings, conclusions, and recommendations resulting from the implementation of this act must be reported to the legislature, consistent with RCW 43.01.036, by October 31, 2015.

(9) This section expires June 30, 2016."

(1) Upon the return of any sale of real estate, the clerk:
(a) Shall enter the cause, on which the execution or order of sale issued, by its title, on the motion docket, and mark opposite the same: "Sale of land for confirmation"; (b) shall mail notice of the filing of the return of sale to all parties who have entered a written notice of appearance in the action and who have not had an order of default entered against them; (c) shall file proof of such mailing in the action; (d) shall apply the proceeds of the sale returned by the sheriff, or so much thereof as may be necessary, to satisfaction
of the judgment, including interest as provided in the judgment, and shall pay any excess proceeds as provided in subsection (5) of this section by direction of court order; and (e) upon confirmation of the sale, shall deliver the original certificate of sale to the purchaser.

(2) The judgment creditor or successful purchaser at the sheriff's sale is entitled to an order confirming the sale at any time after twenty days have elapsed from the mailing of the notice of the filing of the sheriff's return, on motion with notice given to all parties who have entered a written notice of appearance in the action and who have not had an order of default entered against them, unless the judgment debtor, or in case of the judgment debtor's death, the representative, or any nondefaulting party to whom notice was sent shall file objections to confirmation with the clerk within twenty days after the mailing of the notice of the filing of such return.

(3) If objections to confirmation are filed, the court shall nevertheless allow the order confirming the sale, unless, on the hearing of the motion, it shall satisfactorily appear that there were substantial irregularities in the proceedings concerning the sale, to the probable loss or injury of the party objecting. In the latter case, the court shall disallow the motion and direct that the property be resold, in whole or in part, as the case may be, upon an execution received as of that date.

(4) Upon a resale, the bid of the purchaser at the former sale shall be deemed to be renewed and continue in force, and no bid shall be taken, except for a greater amount. If on resale the property sells for a greater amount to any person other than the bid shall be taken, except for a greater amount. If on resale the property sells for a greater amount to any person other than the former purchaser, the clerk shall first repay to the former purchaser the probable loss or injury of the party objecting. In the latter case, the court shall disallow the motion and direct that the property be resold, in whole or in part, as the case may be, upon an execution received as of that date.

(5)(a) If, after the satisfaction confirmation of the sale and the judgment is satisfied, there are any proceeds of the sale remaining, the clerk shall pay such proceeds, as provided for in subsection (b) of this section, to all interests in, or liens against, the property eliminated by sale under this section in the order of priority that the interest, lien, or claim attached to the property, as determined by the court. Any remaining proceeds shall be paid to the judgment debtor, or the judgment debtor's representative, as the case may be, before the order is made upon the motion to confirm the sale only if the party files with the clerk a waiver of all objections made or to be made to the proceedings concerning the sale; otherwise, the excess proceeds shall remain in the custody of the clerk until the sale of the property has been disposed of (but if the sale be confirmed, such excess proceeds shall be paid to the judgment debtor or representative as a matter of course)).

(b) Anyone seeking disbursement of surplus funds shall file a motion requesting disbursement in the superior court for the county in which the surplus funds are deposited. Notice of the motion shall be personally served upon, or mailed in the manner specified in RCW 61.24.040(1)(b), to all parties to whom the trustee mailed notice of the surplus, and any other party who has entered an appearance in the proceeding, not less than twenty days prior to the hearing of the motion. The clerk shall not disburse such surplus except upon order of the superior court of such county.

Sec. 3. RCW 6.17.140 and 1988 c 231 s 11 are each amended to read as follows:

The sheriff shall, at a time as near before or after service of the writ on, or mailing of the writ to, the judgment debtor as is possible, execute the writ as follows:

(1) If property has been attached, the sheriff shall indorse the writ or for payment of any excess proceeds to all interests in, or liens against, the property attached and it is probable that such property will not be sufficient to satisfy the judgment, the sheriff may, on instructions from the judgment creditor, levy on other property of the judgment debtor without delay.

(2) If the judgment is not then satisfied, and property has been attached and remains in custody, the sheriff shall sell the same, or sufficient thereof to satisfy the judgment. When property has been attached and it is probable that such property will not be sufficient to satisfy the judgment, the sheriff may, on instructions from the judgment creditor, levy on other property of the judgment debtor without delay.

(3) If then any portion of the judgment remains unsatisfied, or if no property has been attached or the same has been discharged, the sheriff shall levy on the property of the judgment debtor, sufficient to satisfy the judgment, in the manner described in RCW 6.17.160.

(4) If, after the judgment is satisfied, any property remains in custody, the sheriff shall deliver it to the judgment debtor.

(5) Until a levy, personal property shall not be affected by the execution.

(6) When property has been sold or debts received on execution, the sheriff shall pay the proceeds to the clerk who issued the writ, for satisfaction of the judgment as commanded in the writ or for payment of any excess proceeds to all interests in, or liens against, the property eliminated by the sale in the order of priority that the interest, lien, or claim attached to the property, as determined by the court. It is the purpose of this chapter to encourage increased residential opportunities, including affordable housing opportunities, in cities that are required to plan or choose to plan under the growth management act within urban centers where the governing authority of the affected city has found there is insufficient housing opportunities, including affordable housing opportunities. It is further the purpose of this chapter to stimulate the construction of new multifamily housing and the rehabilitation of existing vacant and underutilized buildings for multifamily housing in urban centers having insufficient housing opportunities that will increase and improve residential opportunities, including affordable housing opportunities, within these urban centers. To achieve these purposes, this chapter provides for special valuations in residentially deficient urban centers for eligible improvements associated with multiunit housing, which includes affordable housing.

5. After designation of a residential targeted area, the governing authority must adopt and implement standards and guidelines to be utilized in considering applications and making the determinations required under RCW 84.14.060. MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:
"NEW SECTION. Sec. 1. The legislature finds that promoting a financially viable health care system in all parts of the state is a critical interest. The federal centers for medicare and medicaid
services has recognized the crucial role hospitals play in providing care in rural areas by creating the sole community hospital program, which allows certain small rural hospitals to receive enhanced payments for medicare services. The legislature further finds that creating a similar reimbursement system for the state's medicaid program for sole community hospitals will promote the long-term financial viability of the rural health care system in those communities.

Sec. 2. RCW 74.09.5225 and 2011 1st sp.s.c 15 s 31 are each amended to read as follows:

(1) Payments for recipients eligible for medical assistance programs under this chapter for services provided by hospitals, regardless of the beneficiary's managed care enrollment status, shall be made based on allowable costs incurred during the year, when services are provided by a rural hospital certified by the centers for medicare and medicaid services as a critical access hospital. Any additional payments made by the authority for the healthy options program shall be no more than the additional amounts per service paid under this section for other medical assistance programs.

(2) Beginning on July 24, 2005, a moratorium shall be placed on additional hospital participation in critical access hospital payments under this section. However, rural hospitals that applied for certification to the centers for medicare and medicaid services prior to January 1, 2005, have not yet completed the process or have not yet been approved for certification, remain eligible for medical assistance payments under this section.

(3)(a) Beginning January 1, 2015, payments for recipients eligible for medical assistance programs under this chapter for services provided by a hospital, regardless of the beneficiary's managed care enrollment status, shall be increased to one hundred twenty-five percent of the hospital's fee-for-service rates, when services are provided by a rural hospital that:

(i) Was certified by the centers for medicare and medicaid services as a sole community hospital as of January 1, 2013;

(ii) Had a level III adult trauma service designation from the department of health as of January 1, 2014;

(iii) Had less than one hundred fifty acute care licensed beds in fiscal year 2011; and

(iv) Is owned and operated by the state or a political subdivision.

(b) The enhanced payment rates under this subsection shall be considered the hospital's medicaid payment rate for purposes of any other state or private programs that pay hospitals according to medicaid payment rates.

(c) Hospitals participating in the certified public expenditures program may not receive the increased reimbursement rates provided in this subsection (3) for inpatient services.

'Sec. 1. RCW 36.61.010 and 2008 c 301 s 1 are each amended to read as follows:

(1) The legislature finds that the environmental, recreational, and aesthetic values of many of the state's lakes are threatened by eutrophication and other deterioration and that existing governmental authorities are unable to adequately improve and maintain the quality of the state's lakes.

(2) The legislature intends that an ecosystem-based beach management approach should be used to help promote the health of aquatic ecosystems and that such a management approach be undertaken in a manner that retains ecosystem values within the state. This management approach should use long-term strategies that focus on reducing nutrient inputs from human activities affecting the aquatic ecosystem, such as decreasing nutrients into storm water sewers, decreasing fertilizer application, promoting the proper disposal of pet waste, promoting the use of vegetative borders, promoting the reduction of nutrients from on-site septic systems where appropriate, and protecting riparian areas. Organic debris, including vegetation, driftwood, seaweed, kelp, and organisms, are extremely important to beach ecosystems.

(3) The legislature further finds that it is in the public interest to promote the conservation and stewardship of shorelines and upland properties adjoining lakes and beaches in order to: (a) Conserve natural or scenic resources; (b) protect riparian habitats and water quality; (c) promote conservation of soils, wetlands, shorelines, or tidal marshes; (d) enhance the value of lakes or beaches to the public as well as the benefit of abutting or neighboring parks,'
forests, wildlife preserves, nature reservations or sanctuaries, or other open space; (e) enhance recreation opportunities; (f) preserve historic sites; and (g) protect visual quality along highway, road, street, trail, recreational, and other corridors or scenic vistas.

(4) It is the purpose of this chapter to establish a governmental mechanism by which property owners can embark on a program of lake or beach improvement and maintenance for their and the general public's benefit, health, and welfare. Public property, including state property, shall be considered the same as private property in this chapter, except liens for special assessments and liens for rates and charges shall not extend to public property. Lake bottom property and marine property below the line of the ordinary high water mark shall not be considered to be benefitted, shall not be subject to special assessments or rates and charges, and shall not receive voting rights under this chapter.

Sec. 2. RCW 36.61.020 and 2008 c 301 s 3 are each amended to read as follows:

(1) Any county may create lake or beach management districts to finance: (a) The improvement and maintenance of lakes or beaches located within or partially within the boundaries of the county; and (b) the acquisition of real property or property rights within or outside a lake or beach management district including, by way of example, conservation easements authorized under RCW 64.04.130, and to promote the conservation and stewardship of shorelines as well as the conservation and stewardship of upland properties adjoining lakes or beaches for conservation or for minimal development. All or a portion of a lake or beach and the adjacent land areas may be included within one or more lake or beach management districts. More than one lake or beach, or portions of lakes or beaches, and the adjacent land areas may be included in a single lake or beach management district.

(2) For the purposes of this chapter, the term "improvement" includes, among other things, the acquisition of real property and property rights within or outside a lake or beach management district for the purposes set forth in RCW 36.61.010 and this section.

(3) Special assessments or rates and charges may be imposed on the property included within a lake or beach management district to finance lake or beach improvement and maintenance activities, including: ((44)) (a) Controlling or removing aquatic plants and vegetation; ((44)) (b) improving water quality; ((44)) (c) controlling water levels; ((44)) (d) treating and diverting storm water; ((44)) (e) controlling agricultural waste; ((44)) (f) studying lake or marine water quality problems and solutions; ((44)) (g) cleaning and maintaining ditches and streams entering the lake or marine waters or leaving the lake; ((44)) (h) monitoring air quality; (i) the acquisition of real property and property rights; and ((44)) (j) the related administrative, engineering, legal, and operational costs, including the costs of creating the lake or beach management district.

(4) Special assessments or rates and charges may be imposed annually on all the land in a lake or beach management district for the duration of the lake or beach management district without a related issuance of lake or beach management district bonds or revenue bonds. Special assessments also may be imposed in the manner of special assessments in a local improvement district with each landowner being given the choice of paying the entire special assessment in one payment, or to paying installments, with lake or beach management district bonds being issued to obtain moneys not derived by the initial full payment of the special assessments, and the installments covering all of the costs related to issuing, selling, and redeeming the lake or beach management district bonds.

NEW SECTION. Sec. 3. A new section is added to chapter 36.61 RCW to read as follows:

A proposal to acquire real property or property rights within or outside of a lake or beach management district in accordance with RCW 36.61.020 is subject to the following limitations and requirements: (1) The real property or property rights proposed for acquisition must be in a county located west of the crest of the Cascade mountain range that plans under RCW 36.70A.040 and has a population of more than forty thousand and fewer than sixty-five thousand persons as of April 1, 2013, as determined by the office of financial management; and (2) prior to the acquisition of real property or property rights, the proposal must have the written approval of a majority of the property owners of the district, as determined by the tax rolls of the county assessor.

Sec. 4. RCW 36.61.070 and 2008 c 301 s 9 are each amended to read as follows:

(1) After the public hearing, the county legislative authority may adopt a resolution submitting the question of creating the lake or beach management district to the owners of land within the proposed lake or beach management district, including publicly owned land, if the county legislative authority finds that it is in the public interest to create the lake or beach management district and the financing of the lake or beach improvement and maintenance activities is feasible. The resolution shall also include: ((44)) (a) A plan describing the proposed lake or beach improvement and maintenance activities which avoid adverse impacts on fish and wildlife and provide for appropriate measures to protect and enhance fish and wildlife; ((44)) (b) the number of years the lake or beach management district will exist; ((44)) (c) the amount to be raised by special assessments or rates and charges; ((44)) (d) if special assessments are to be imposed, whether the special assessments shall be imposed annually for the duration of the lake or beach management district or only once with the possibility of installments being imposed and lake or beach management bonds being issued, or both, and, if both types of special assessments are proposed to be imposed, the lake or beach improvement or maintenance activities proposed to be financed by each type of assessment; ((44)) (e) if rates and charges are to be imposed, a description of the proposed rates and charges and the possibility of revenue bonds being issued that are payable from the rates and charges; and ((44)) (f) the estimated special assessment or rate and charge proposed to be imposed on each parcel included in the proposed lake or beach management district.

(2) No lake or beach management district may be created by a county that includes territory located in another county without the approval of the legislative authority of the other county.

Sec. 5. RCW 36.61.220 and 2008 c 301 s 21 are each amended to read as follows:

Within ((fifteen)) thirty days after a county creates a lake or beach management district, the county shall cause to be filed with the county treasurer, a description of the lake or beach improvement and maintenance activities proposed that the lake or beach management district finances, the lake or beach management district number, and a copy of the diagram or print showing the boundaries of the lake or beach management district and preliminary special assessment roll or abstract of the same showing thereon the lots, tracts, parcels of land, and other property that will be specially benefitted thereby and the estimated cost and expense of such lake or beach improvement and maintenance activities to be borne by each lot, tract, parcel of land, or other property. The treasurer shall immediately post the proposed special assessment roll upon his or her index of special assessments against the properties affected by the lake or beach improvement or maintenance activities.

Sec. 6. RCW 36.61.250 and 1985 c 398 s 25 are each amended to read as follows:
Except when lake or beach management district bonds are outstanding or when an existing contract might otherwise be impaired, the county legislative authority may stop the imposition of annual special assessments if, in its opinion, the public interest will be served by such action.

Sec. 7. RCW 36.61.260 and 2008 c 301 s 23 are each amended to read as follows:

(1) Counties may issue lake or beach management district revenue bonds in accordance with this section. Lake or beach management district bonds may be issued to obtain money sufficient to cover that portion of the special assessments that are not paid within the thirty-day period provided in RCW 36.61.190.

(2) Whenever lake or beach management district revenue bonds are proposed to be issued, the county legislative authority shall create a special fund or funds for the lake or beach management district from which all or a portion of the costs of the lake or beach improvement and maintenance activities shall be paid. Lake or beach management district bonds shall not be issued in excess of the costs and expenses of the lake or beach improvement and maintenance activities and shall not be issued prior to twenty days after the thirty days allowed for the payment of special assessments without interest or penalties.

(3) Lake or beach management district revenue bonds shall be exclusively payable from the special fund or funds and from a guaranty fund that the county may have created out of a portion of proceeds from the sale of the lake or beach management district bonds.

((3))) (4)(a) Lake or beach management district revenue bonds shall not constitute a general indebtedness of the county issuing the bond nor an obligation, general or special, of the state. The owner of any lake or beach management district revenue bond shall not have any claim for the payment thereof against the county that issues the bonds except for: (i) With respect to revenue bonds payable from special assessments, payment from the special assessments made for the lake or beach improvement or maintenance activities for which the lake or beach management district bond was issued and from the special fund or funds, and a lake or beach management district guaranty fund; (ii) with respect to revenue bonds payable from rates and charges, payment from rates and charges deposited in the special fund or funds that the county may have created for that purpose. Revenue bonds may be payable from both special assessments and from rates and charges. The county shall not be liable to the owner of any lake or beach management district bond for any loss to (the) a lake or beach management district guaranty fund occurring in the lawful operation of the fund. The owner of a lake or beach management district bond shall not have any claim against the state arising from the lake or beach management district bond, rates and charges, special assessments, or guaranty fund. Tax revenues shall not be used to secure or guarantee the payment of the principal or interest on lake or beach management district bonds. Notwithstanding the provisions of this subsection, nothing in this section may be interpreted as limiting a county's issuance of bonds pursuant to RCW 36.67.010 in order to assist in the financing of improvements to lakes or beaches located within or partially within the boundaries of the county, including without limitation lakes or beaches located within a lake or beach management district.

(b) The substance of the limitations included in this subsection (4) shall be plainly written, printed, engraved, or reproduced on:

((5)) (i) Each lake or beach management district bond that is a physical instrument; ((6)) (ii) the official notice of sale; and ((7)) (iii) each official statement associated with the lake or beach management district bonds.

((6)) (5) If the county fails to make any principal or interest payments on any lake or beach management district bond or to promptly collect any special assessment securing (the) lake or beach management district revenue bonds when due, the owner of the lake or beach management district revenue bond may obtain a writ of mandamus from any court of competent jurisdiction requiring the county to collect the special assessments, foreclose on the related lien, and make payments out of the special fund or guaranty fund if one exists. Any number of owners of lake or beach management districts may join as plaintiffs.

((7)) (6) A county may create a lake or beach management district bond guaranty fund for each issue of lake or beach management district bonds. The guaranty fund shall only exist for the life of the lake or beach management district bonds with which it is associated. A portion of the bond proceeds may be placed into a guaranty fund. Unused moneys remaining in the guaranty fund during the last two years of the installments shall be used to proportionally reduce the required level of installments and shall be transferred into the special fund into which installment payments are placed. A county may, in the discretion of the legislative authority of the county, deposit amounts into lake or beach management district bond guaranty fund from any money legally available for that purpose. Any amounts remaining in the guaranty fund after the repayment of all revenue bonds secured thereby and the payment of assessment installments, may be applied to lake or beach improvement and maintenance activities or to other district purposes.

((8)) (7) Lake or beach management district bonds shall be issued and sold in accordance with chapter 39.46 RCW. The authority to create a special fund or funds shall include the authority to create accounts within a fund.

Sec. 8. RCW 36.61.030 and 2008 c 301 s 5 are each amended to read as follows:

A lake or beach management district may be initiated upon either the adoption of a resolution of intention by a county legislative authority or the filing of a petition signed by ten landowners or the owners of at least ((fifteen)) twenty percent of the acreage contained within the proposed lake or beach management district, whichever is greater. A petition or resolution of intention shall set forth: (1) The nature of the lake or beach improvement or maintenance activities proposed to be financed; (2) the amount of money proposed to be raised by special assessments or rates and charges; (3) if special assessments are to be imposed, whether the special assessments will be imposed annually for the duration of the lake or beach management district, or the full special assessments will be imposed at one time, with the possibility of installments being made to finance the issuance of lake or beach management district bonds, or both methods; (4) if rates and charges are to be imposed, the annual amount of revenue proposed to be collected and whether revenue bonds payable from the rates and charges are proposed to be issued; (5) the number of years proposed for the duration of the lake or beach management district; and (6) the proposed boundaries of the lake or beach management district.

The county legislative authority may require the posting of a bond of up to five thousand dollars before the county considers the proposed creation of a lake or beach management district initiated by petition. The bond may only be used by the county to finance its costs in studying, holding hearings, making notices, preparing special assessment rolls or rolls showing the rates and charges on each parcel, and conducting elections related to the lake or beach management district if the proposed lake or beach management district is not created.

A resolution of intention shall also designate the number of the proposed lake or beach management district, and fix a date, time, and place for a public hearing on the formation of the proposed lake or beach management district. The date for the public hearing shall be at least thirty days and no more than ninety...
days after the adoption of the resolution of intention unless an emergency exists.

Petitions shall be filed with the county legislative authority. The county legislative authority shall determine the sufficiency of the signatures, which shall be conclusive upon all persons. No person may withdraw his or her name from a petition after it is filed. If the county legislative authority determines a petition to be sufficient and the proposed lake or beach management district appears to be in the public interest and the financing of the lake or beach improvement or maintenance activities is feasible, it shall adopt a resolution of intention, setting forth all of the details required to be included when a resolution of intention is initiated by the county legislative authority.

NEW SECTION. Sec. 10. RCW 36.61.170 and 2008 c 301 s 18 are each amended to read as follows:

(1) In connection with the acquisition of real property or property rights within or outside a lake or beach management district, a county may: (a) Own real property and property rights, including without limitation conservation easements; (b) transfer real property and property rights to another state or local governmental entity; (c) contract with a public or private entity, including without limitation a financial institution with trust powers, a municipal corporation, or a nonprofit corporation, to hold real property or property rights such as conservation easements in trust for the purposes of the lake and beach management district, and, in connection with those services, to pay the reasonable costs of that financial institution or nonprofit corporation; (d) monitor and enforce the terms of a real property right such as a conservation easement, or for that purpose to contract with a public or private entity, including without limitation a financial institution with trust powers, a municipal corporation, or a nonprofit corporation; (e) impose terms, conditions, and encumbrances upon real property or property rights acquired in respect of a lake or beach management district, and amend the same; and (f) accept gifts, grants, and loans in connection with the acquisition of real property and property rights for lake or beach management district purposes.

(2) If a county contracts with a financial institution, municipal corporation, or nonprofit corporation to hold that property or property rights in trust for purposes of the district, the terms of the contract must provide that the financial institution or nonprofit corporation, to hold real property or property rights such as conservation easements in trust for the purposes of the lake and beach management district, and, in connection with those services, to pay the reasonable costs of that financial institution or nonprofit corporation; (d) monitor and enforce the terms of a real property right such as a conservation easement, or for that purpose to contract with a public or private entity, including without limitation a financial institution with trust powers, a municipal corporation, or a nonprofit corporation; (e) impose terms, conditions, and encumbrances upon real property or property rights acquired in respect of a lake or beach management district, and amend the same; and (f) accept gifts, grants, and loans in connection with the acquisition of real property and property rights for lake or beach management district purposes.

(3) Before a lake or beach management district in existence as of the effective date of this section exercises the powers set forth in this section, the legislative authority of the county must provide for an amended resolution of intention and modify the plan for the district, with a public hearing, all as provided in RCW 36.61.050.

Sec. 10. RCW 36.61.170 and 2008 c 301 s 18 are each amended to read as follows:

(1) The total annual special assessments may not exceed the estimated cost of the lake or beach improvement or maintenance activities proposed to be financed by such special assessments, as specified in the resolution of intention. The total of special assessments imposed in a lake or beach management district that are of the nature of special assessments imposed in a local improvement district shall not exceed one hundred fifty percent of the estimated total cost of the lake or beach improvement or maintenance activities that are proposed to be financed by the lake or beach management district as specified in the resolution of intention.

(2) After a lake or beach management district has been created, the resolution of intention may be amended to increase or otherwise modify the amount to be financed by the lake or beach management district by using the same procedure in which a lake or beach management district is created, including landowner approvals consistent with the procedures established in RCW 36.61.080 through 36.61.100.

NEW SECTION. Sec. 11. A new section is added to chapter 36.61 RCW to read as follows:

(1) Except when lake or beach management district bonds are outstanding or when an existing contract might otherwise be impaired, a lake or beach management district may be dissolved either by: The county legislative authority upon a finding that the purposes of the district have been accomplished; or a vote of the property owners within the district, if proposed by the legislative authority of the county or through the filing of a sufficient petition signed by the owners of at least twenty percent of the acreage within the district.

(2) If the question of dissolution of a district is submitted to property owners, the ballots are subject to the following conditions, which must be included in the instructions mailed with each ballot, as provided in RCW 36.61.080:

(a) A ballot must be mailed to each owner or reputed owner of any lot, tract, parcel of land, or other property within the district, with the ballot weighted so that a property owner has one vote for each dollar of special assessment or rates and charges imposed on his or her property;

(b) A ballot must be signed by the owner or reputed owner of property according to the assessor's tax rolls;

(c) Each ballot must be returned to the county legislative authority no later than 5:00 p.m. of a specified day, which must be at least twenty, but not more than thirty days after the ballots are mailed; and

(d) Each property owner must mark his or her ballot for or against the dissolution of the district.

(3) If, following the tabulation of the valid ballots, a simple majority of the votes cast are in favor of dissolving the district, the district must be dissolved on the date established in the ballot proposition.

(4) A county, although not separately responsible for satisfying the financial obligations of a dissolved district, has full authority to continue imposing special assessments, rates, and charges for a dissolved district until all financial obligations of the district incurred prior to its dissolution have been extinguished or retired.

ESSB 6040 Prime Sponsor, Committee on Natural Resources & Parks: Concerning invasive species. Reported by Committee on Appropriations.

MAJORITY recommendation: Do pass as amended by Committee on Appropriations and without amendment by Committee on Agriculture & Natural Resources.
(1) The state's fish, wildlife, and habitat are exceptionally valuable environmental resources for the state's citizens.

(2) The state's fish, wildlife, and habitat also provide exceptionally valuable economic, cultural, and recreational resources. These include hydroelectric power, agriculture, forests, water supplies, commercial and recreational fisheries, aquaculture, and public access to outdoor recreational opportunities.

(3) Invasive species pose a grave threat to these environmental and economic resources, especially to salmon recovery and state and federally listed threatened and endangered species. Because of the significant harm invasive species can cause, invasive species constitute a public nuisance.

(4) If allowed to become established, invasive species can threaten human health and cause environmental and economic disasters affecting not only our state, but other states and nations.

(5) The risk of invasive species spreading into Washington increases as travel and commerce grows in volume and efficiency.

(6) Prevention of invasive species is a cost-effective, successful, and proven management strategy. Prevention is the state's highest management priority with an emphasis on education and outreach, inspections, and rapid response.

(7) The integrated management of invasive species through pathways regulated by the department is critical to preventing the introduction and spread of a broad range of such species, including plants, diseases, and parasites.

(8) Washington's citizens must work together to protect the state from invasive species.

(9) Public and private partnerships, cooperative agreements, and compacts are important for preventing new arrivals and managing existing populations of invasive species, and coordinating these actions on local, state, national, and international levels.

(10) The department requires authority for this mission to effectively counter the unpredictable nature of invasive species' introductions and spread, enable the utilization of new advances in invasive ecology science, and implement applicable techniques and technology to address invasive species.

(11) An integrated management approach provides the best way for the state to manage invasive species and includes opportunities for creating an informed public, encouraging public involvement, and striving for local, regional, national, and international cooperation and consistency on management standards. An integrated management approach also applies sound science to minimize the chance that invasive species used for beneficial purposes will result in environmental harm.

(12) This chapter provides authority for the department to effectively address invasive species using an integrated management approach.

(13) The department of fish and wildlife currently has sufficient statutory authority to effectively address invasive species risks posed through discharge of ballast water under chapter 77.120 RCW and by private sector shellfish aquaculture operations regulated under chapter 77.115 RCW. The programs developed by the department under these chapters embody the principles of prevention as the highest priority, integrated management of pathways, public-private partnerships, clean and drain principles, and rapid response capabilities.
(13) "Invasive species" means nonnative species of the animal kingdom that are not naturally occurring in Washington for purposes of breeding, resting, or foraging, and that pose an invasive risk of harming or threatening the state's environmental, economic, or human resources. Invasive species include all stages of species development and body parts. They may also include genetically modified or cryptogenic species.

(14) "Invasive species council" means the Washington invasive species council established in RCW 79A.25.310 or a similar collaborative state agency forum. The term includes the council and all of its officers, employees, agents, and contractors.

(15) "Mandatory check station" means a location where a person transporting an aquatic conveyance must stop and allow the conveyance to be inspected for aquatic invasive species.

(16) "Possess" means to have authority over the use of an invasive species or use of an aquatic conveyance that may carry or contain an invasive species. For the purposes of this subsection, "authority over" includes the ability to intentionally or unintentionally hold, import, export, transport, purchase, sell, barter, distribute, or propagate an invasive species.

(17) "Prohibited species" means a classification category of nonnative species as provided in section 104 of this act.

(18) "Property" means both real and personal property.

(19) "Quarantine declaration" means a management action as provided under section 107 of this act involving the prohibition or conditioning of the movement of aquatic conveyances and waters from a place or an area that is likely to contain a prohibited species.

(20) "Rapid response" means expedited management actions as provided under section 108 of this act triggered when invasive species are detected, for the time-sensitive purpose of containing or eradicating the species before it spreads or becomes further established.

(21) "Raw water" means water from a water body and held on or within property. "Raw water" does not include water from precipitation that is captured in a conveyance, structure, or depression that is not otherwise intended to function as a water body, or water from a potable water supply system, unless the water contains visible aquatic organisms.

(22) "Regulated species" means a classification category of nonnative species as provided in section 104 of this act.

(23) "Registered watercraft" means a management category of aquatic conveyances required to register as vessels under RCW 88.02.550 or similar requirements for a state other than Washington or a country other than the United States.

(24) "Seaplane" means a management category of aquatic conveyances capable of landing on or taking off from water and required to register as an aircraft under RCW 47.68.250 or similar registration in a state other than Washington or a country other than the United States.

(25) "Small watercraft" means a management category of aquatic conveyances:

(a) Including inflatable and hard-shell watercraft used or capable of being used as a means of transportation on the water, such as kayaks, canoes, sailboats, and rafts that:

(i) Do not meet watercraft registration requirements under chapter 88.02 RCW; and

(ii) Are ten feet or more in length with or without mechanical propulsion or less than ten feet in length and fitted with mechanical propulsion.

(b) Excluding nonmotorized aquatic conveyances of any size not designed or modified to be used as a means of transportation on the water, such as inflatable air mattresses and tubes, beach and water toys, surf boards, and paddle boards.

(26) "Water body" means an area that carries or contains a collection of water, regardless of whether the feature carrying or containing the water is natural or nonnatural. Examples include basins, bays, coves, streams, rivers, springs, lakes, wetlands, reservoirs, ponds, tanks, irrigation canals, and ditches.
threatened or endangered species.

effects on the preservation of native species, salmon recovery, and take into consideration environmental impacts, and especially invasive risk levels and criteria for determining beneficial use that council, must adopt rules establishing standards for determining section, the department, in consultation with the invasive species council, may classify and list by rule regulated type A species and do not require listing by rule.

(a) Species classified as prohibited level 1 pose a high invasive risk and are a priority for prevention and expedited rapid response management actions.

(b) Species classified as prohibited level 2 pose a high invasive risk and are a priority for long-term infested site management actions.

(c) Species classified as prohibited level 3 pose a moderate to high invasive risk and may be appropriate for prevention, rapid response, or other prohibited species management plan actions by the department, another agency, a local government, tribes, or the public.

(2) The department, in consultation with the invasive species council, may change these classifications by rule.

(a) Zebra mussels (Dreissena polymorpha), quagga mussels (Dreissena rostriformis bugensis), European green crab (Carcinus maenas), and all members of the genus Eriocheir (including Chinese mitten crab), all members of the walking catfish family (Clariidae), all members of the snakehead family (Channidae), silver carp (Hypophthalmichthys molitrix), largescale silver carp (Hypophthalmichthys harmandii), black carp (Mylopharyngodon piceus), and bighead carp (Hypophthalmichthys nobilis) are prohibited level 1 species statewide;

(b) Prohibited aquatic animal species classified under WAC 220-12-090(1), in effect on July 1, 2014, except those as noted in this subsection are prohibited level 3 species statewide;

(c) Regulated aquatic animal species classified under WAC 220-12-090(2), in effect on July 1, 2014, are regulated type A species statewide; and

(d) Nonnative aquatic animal species classified as game fish under WAC 232-12-019, in effect on July 1, 2014, or food fish under WAC 220-12-010, in effect on July 1, 2014, are regulated type A species statewide.

(2) The department, in consultation with the invasive species council, may implement these classifications by rule.

NEW SECTION. Sec. 107. (1) If the department determines it is necessary to protect the environmental, economic, or human health interests of the state from the threat of a prohibited level 1 or level 2 species, the department may declare a quarantine against a water body, property, or region within the state. The department may prohibit or condition the movement of aquatic conveyances and waters from such a quarantined place or area that are likely to contain a prohibited species.

(a) Zebra mussels (Dreissena polymorpha), quagga mussels (Dreissena rostriformis bugensis), European green crab (Carcinus maenas), and all members of the genus Eriocheir (including Chinese mitten crab), all members of the walking catfish family (Clariidae), all members of the snakehead family (Channidae), silver carp (Hypophthalmichthys molitrix), largescale silver carp (Hypophthalmichthys harmandii), black carp (Mylopharyngodon piceus), and bighead carp (Hypophthalmichthys nobilis) are prohibited level 1 species statewide;

(b) Prohibited aquatic animal species classified under WAC 220-12-090(1), in effect on July 1, 2014, except those as noted in this subsection are prohibited level 3 species statewide;

(c) Regulated aquatic animal species classified under WAC 220-12-090(2), in effect on July 1, 2014, are regulated type A species statewide; and

(d) Nonnative aquatic animal species classified as game fish under WAC 232-12-019, in effect on July 1, 2014, or food fish under WAC 220-12-010, in effect on July 1, 2014, are regulated type A species statewide.

(2) The department, in consultation with the invasive species council, may change these classifications by rule.

NEW SECTION. Sec. 106. (1) Prohibited level 1, level 2, and level 3 species may not be possessed, introduced on or into a water body or property, or trafficked, without department authorization, a permit, or as otherwise provided by rule.

(2) Regulated type A, type B, and type C species may not be introduced on or into a water body or property without department authorization, a permit, or as otherwise provided by rule.

(3) Regulated type B species, when being actively used for commercial purposes, must be readily and clearly identified in writing by taxonomic species name or subspecies name to distinguish the subspecies from another prohibited species or a regulated type A species. Nothing in this section precludes using additional descriptive language or trade names to describe regulated type B species as long as the labeling requirements of this section are met.

NEW SECTION. Sec. 105. (1) Until the department adopts rules classifying species pursuant to chapter 77.---RCW (the new chapter created in section 121 of this act), species and classifications identified in this section are automatically managed as follows:

(a) Zebra mussels (Dreissena polymorpha), quagga mussels (Dreissena rostriformis bugensis), European green crab (Carcinus maenas), and all members of the genus Eriocheir (including Chinese mitten crab), all members of the walking catfish family (Clariidae), all members of the snakehead family (Channidae), silver carp (Hypophthalmichthys molitrix), largescale silver carp (Hypophthalmichthys harmandii), black carp (Mylopharyngodon piceus), and bighead carp (Hypophthalmichthys nobilis) are prohibited level 1 species statewide;
must be implemented in a manner best suited to contain, control, and eradicate prohibited level 1 and level 2 species while protecting human safety, minimizing adverse environmental impacts to a water body or property, and minimizing adverse economic impacts to owners of an affected water body or property.

(2) The department is the lead agency for quarantine declarations, rapid response, and infested site management actions. Where the infested water body is subject to tribal, federal, or other sovereign jurisdiction, the department:

(a) Must consult with appropriate federal agencies, tribal governments, other states, and Canadian government entities to develop and implement coordinated management actions on affected water bodies under shared jurisdiction;

(b) May assist in infested site management actions where these actions may prevent the spread of prohibited species into state water bodies; and

(c) May assist other states and Canadian government entities, in the Columbia river basin, in management actions on affected water bodies outside of the state where these actions may prevent the spread of the species into state water bodies.

(3) The department must provide notice of quarantine declarations, rapid response, and infested site management actions to owners of an affected water body or property. Notice may be provided by any reasonable means, such as in person, by United States postal service, by publication in a local newspaper, by electronic publication including social media or postings on the department’s public web site, or by posting signs at the water body.

(b) The department must provide updates to owners of an affected water body or property based on management action type as follows:

(i) Every seven days for a rapid response management action and, if applicable, a quarantine declaration implemented in conjunction with a rapid response management action;

(ii) Every six months for a separate quarantine declaration;

(iii) Annually for the duration of an infested site management action and, if applicable, a quarantine declaration implemented in conjunction with an infested site management action; and

(iv) A final update at the conclusion of any management action.

(c) In addition to owners of an affected water body or property, the department must provide notice of a quarantine declaration to members of the public by any reasonable means for an area subject to a quarantine declaration, such as by publication in a local newspaper, by electronic publication including social media or postings on the department’s public web site, or by posting signs at the water body. The department must provide updates at reasonable intervals and a final update at the conclusion of the quarantine declaration.

(4) The department must publicly list those water bodies or portions of water bodies in which a prohibited level 1 or level 2 species has been detected. The department may list those areas in which a prohibited level 3 species has been detected.

(5) When posting signs at a water body or property where a prohibited species has been detected, the department must consult with owners of the affected water body or property regarding placement of those signs.

NEW SECTION. Sec. 111. (1) If the director finds that there exists an imminent danger of a prohibited level 1 or level 2 species detection that seriously endangers or threatens the environment, economy, human health, or well-being of the state of Washington, the director must ask the governor to order, under RCW 43.06.010(14), emergency measures to prevent or abate the prohibited species. The director’s findings must contain an evaluation of the effect of the emergency measures on
environmental factors such as fish listed under the endangered species act, economic factors such as public and private access, human health factors such as water quality, or well-being factors such as cultural resources.

(2) If an emergency is declared pursuant to RCW 43.06.010(14), the director may consult with the invasive species council to advise the governor on emergency measures necessary under RCW 43.06.010(14) and this section, and make subsequent recommendations to the governor. The invasive species council must involve owners of the affected water body or property, state and local governments, federal agencies, tribes, public health interests, technical service providers, and environmental organizations, as appropriate.

(3) Upon the governor's approval of emergency measures, the director may implement these measures to prevent, contain, control, or eradicate invasive species that are the subject of the emergency order, notwithstanding the provisions of chapter 15.58 or 17.21 RCW or any other statute. These measures, after evaluation of all other alternatives, may include the surface and aerial application of pesticides.

(4) The director must continually evaluate the effects of the emergency measures and report these to the governor at intervals of not less than ten days. The director must immediately advise the governor if the director finds that the emergency no longer exists or if certain emergency measures should be discontinued.

NEW SECTION. Sec. 112. (1) A person in possession of an aquatic conveyance who enters Washington by road, air, or water is required to have a certificate of inspection. A person must provide this certificate of inspection upon request by a fish and wildlife officer or ex officio fish and wildlife officer.

(2) The department must adopt rules to implement this section including:
   (a) Types of aquatic conveyances required to have a certificate of inspection;
   (b) Allowable certificate of inspection forms including passport type systems and integration with existing similar permits;
   (c) Situations when authorization can be obtained for transporting an aquatic conveyance not meeting inspection requirements to a specified location within the state where certificate of inspection requirements can be provided; and
   (d) Situations where aquatic conveyances are using shared boundary waters of the state, such as portions of the Columbia river, lake Osoyoos, and the Puget Sound.

NEW SECTION. Sec. 113. (1) A person in possession of an aquatic conveyance must meet clean and drain requirements after the conveyance's use in or on a water body or property. A certificate of inspection is not needed to meet clean and drain requirements.

(2) A fish and wildlife officer or ex officio fish and wildlife officer may order a person transporting an aquatic conveyance not meeting clean and drain requirements to:
   (a) Requiring decontamination at the discovery site, if the department determines there is minimal risk of spreading invasive species;
   (b) Allow the aquatic conveyance to be inspected for clean and drain requirements and aquatic invasive species;
   (c) Exemptions to clean and drain requirements where the department determines there is minimal risk of spreading invasive species.

NEW SECTION. Sec. 114. (1) The department may establish mandatory check stations to inspect aquatic conveyances for clean and drain requirements and aquatic invasive species. The check stations must be operated by at least one fish and wildlife officer, an ex officio fish and wildlife officer in coordination with the department, or department-authorized representative, and must be plainly marked by signs and operated in a safe manner.

(2) Aquatic conveyances required to stop at mandatory check stations include registered watercraft, commercial watercraft, and small watercraft. The department may establish rules governing other types of aquatic conveyances that must stop at mandatory check stations. The rules must provide sufficient guidance so that a person transporting the aquatic conveyance readily understands that he or she is required to stop.

(3) A person who encounters a mandatory check station while transporting an aquatic conveyance must:
   (a) Stop at the mandatory check station;
   (b) Allow the aquatic conveyance to be inspected for clean and drain requirements and aquatic invasive species;
   (c) Follow clean and drain orders if clean and drain requirements are not met pursuant to section 113 of this act; and
   (d) Follow decontamination orders pursuant to section 115 of this act if an aquatic invasive species is found.

(4) A person who complies with the department directives under this section is exempt from criminal penalties under sections 205 and 206 of this act, civil penalties under RCW 77.15.160(4), and civil forfeiture under RCW 77.15.070, unless the person has a prior conviction for an invasive species violation within the past five years.

NEW SECTION. Sec. 115. (1) Upon discovery of an aquatic conveyance that carries or contains an aquatic invasive species without department authorization, a person, or as otherwise provided by rule, a fish and wildlife officer or ex officio fish and wildlife officer may issue a decontamination order:
   (a) Requiring decontamination at the discovery site, if the situation presents a low risk of aquatic invasive species introduction, and sufficient department resources are available at the discovery site;
   (b) Prohibiting the launch of the aquatic conveyance in a water body until decontamination is completed and certified, if the situation presents a low risk of aquatic invasive species introduction, and sufficient department resources are not available at the discovery site;
   (c) Requiring immediate transport of the conveyance to an approved decontamination station, and prohibiting the launch of the conveyance in a water body until decontamination is completed and certified, if the situation presents a moderate risk of aquatic invasive species introduction, and sufficient department resources are not available at the discovery site; or
   (d) Seizing and transporting the aquatic conveyance to an approved decontamination station until decontamination is completed and certified, if the situation presents a high risk of aquatic invasive species introduction, and sufficient department resources are not available at the discovery site.

(2) The person possessing the aquatic conveyance that is subject to orders issued under subsection (1)(b) through (d) of this section must bear any costs for seizure, transportation, or decontamination.

(3) Orders issued under subsection (1)(b) through (d) of this section must be in writing and must include notice of the
opportunity for a hearing pursuant to section 116 of this act to determine the validity of the orders.

(4) If a decontamination order is issued under subsection (1)(d) of this section, the department may seize the aquatic conveyance for two working days or a reasonable additional period of time thereafter as needed to meet decontamination requirements. The decontamination period must be based on factors including conveyance size and complexity, type and number of aquatic invasive species present, and decontamination station resource capacity.

(5) If an aquatic conveyance is subject to forfeiture under RCW 77.15.070, the timelines and other provisions under that section apply to the seizure.

(6) Upon decontamination and issuing a certificate of inspection, an aquatic conveyance must be released to the person in possession of the aquatic conveyance at the time the decontamination order was issued, or to the owner of the aquatic conveyance.

NEW SECTION. Sec. 116. (1) A person aggrieved or adversely affected by a quarantine declaration under section 107 of this act, a rapid response management action under section 108 of this act, an infested site management action under section 109 of this act, or a decontamination order under section 115 of this act may contest the validity of the department's actions by requesting a hearing in writing within twenty days of the department's actions.

(2) Hearings must be conducted pursuant to chapter 34.05 RCW and the burden of demonstrating the invalidity of agency action is on the party asserting invalidity. The hearing may be conducted by the director or the director's designee and may occur telephonically.

(3) A hearing on a decontamination order is limited to the issues of whether decontamination was necessary and the reasonableness of costs assessed for any seizure, transportation, and decontamination. If the person in possession of the aquatic conveyance that was decontaminated prevails at the hearing, the person is entitled to reimbursement by the department for any costs assessed by the department or decontamination station operator for the seizure, transportation, and decontamination. If the department prevails at the hearing, the department is not responsible for and may not reimburse any costs.

NEW SECTION. Sec. 117. (1) The department may operate aquatic conveyance inspection and decontamination stations statewide for voluntary use by the public or for mandatory use where directed by the department to meet inspection and decontamination requirements of this chapter. Decontamination stations can be part of or separate from inspection stations. Inspection and decontamination stations are separate from commercial vehicle weigh stations operated by the Washington state patrol.

(2) Inspection station staff must inspect aquatic conveyances to determine whether the conveyances carry or contain aquatic invasive species. If an aquatic conveyance is free of aquatic invasive species, then inspection station staff must issue a certificate of inspection. A certificate of inspection is valid until the conveyance's next use in a water body.

(3) If a conveyance carries or contains aquatic invasive species, then inspection station staff must require the conveyance's decontamination before issuing a certificate of inspection. The certificate of inspection is valid until the conveyance's next use in a water body.

(4) The department must identify, in a way that is readily available to the public, the location and contact information for inspection and decontamination stations.

(5) The department must adopt by rule standards for inspection and decontamination that, where practical and appropriate, align with regional, national, and international standards.

NEW SECTION. Sec. 118. (1) The department may authorize representatives to operate its inspection and decontamination stations and mandatory check stations. Department-authorized representatives may be department volunteers, other law enforcement agencies, or independent businesses.

(2) The department must adopt rules governing the types of services that department-authorized representatives may perform under this chapter.

(3) Department-authorized representatives must have official identification, training, and administrative capacity to fulfill their responsibilities under this section.

(4) Within two years of the effective date of this section, the department must provide the legislature with recommendations for a fee schedule that department-authorized representatives may charge users whose aquatic conveyances receive inspection and decontamination services.

NEW SECTION. Sec. 119. (1) The department may enter upon a property or water body at any reasonable time for the purpose of administering this chapter, including inspecting and decontaminating aquatic conveyances, collecting invasive species samples, implementing rapid response management actions or infested site management actions, and containing, controlling, or eradicating invasive species.

(2) Prior to entering the property or water body, the department shall make a reasonable attempt to notify the owner of the property or water body as to the purpose and need for the entry. Should the department be denied access to any property or water body where access is sought for the purposes set forth in this chapter, the department may apply to any court of competent jurisdiction for a warrant authorizing access to the property.

(3) Upon such an application, the court may issue the warrant for the purposes requested where the court finds reasonable cause to believe it is necessary to achieve the purposes of this chapter.

NEW SECTION. Sec. 120. The provisions of this chapter must be liberally construed to carry out the intent of the legislature.

NEW SECTION. Sec. 121. Sections 102 through 104 and 106 through 120 of this act constitute a new chapter in Title 77 RCW.

(j) Criminal history, as defined in RCW 9.94A.030, for the period covering ten years prior to the appointment.

The background information record shall be updated annually. As a condition of appointment, the guardian ad litem's background information record shall be made available to the court. If the appointed guardian ad litem is not a member of a guardian ad litem program a suitable person appointed by the court to act as guardian ad litem shall provide the background information record to the court.

Upon appointment, the guardian ad litem, or guardian ad litem program, shall provide the parties or their attorneys with a copy of the background information record. The portion of the background information record containing the results of the criminal background check and the criminal history shall not be disclosed to the parties or their attorneys. The background information record shall not include identifying information that may be used to harm a guardian ad litem, such as home addresses and home telephone numbers, and for volunteer guardians ad litem the court may allow the use of maiden names or pseudonyms as necessary for their safety.

(4) The appointment of the guardian ad litem shall remain in effect until the court discharges the appointment or no longer has jurisdiction, whichever comes first. The guardian ad litem may also be discharged upon entry of an order of guardianship.

(5) A guardian ad litem through an attorney, or as otherwise authorized by the court, shall have the right to present evidence, examine and cross-examine witnesses, and to be present at all hearings. A guardian ad litem shall receive copies of all pleadings and other documents filed or submitted to the court, and notice of all hearings according to court rules. The guardian ad litem shall receive all notice contemplated for a parent or other party in all proceedings under this chapter.

(a) The court must appoint an attorney for a child in a dependency proceeding six months after granting a petition to terminate the parent and child relationship pursuant to RCW 13.34.180 and when there is no remaining parent with parental rights.

The court must appoint an attorney for a child when there is no remaining parent with parental rights for six months or longer prior to the effective date of this section if the child is not already represented.

The court may appoint one attorney to a group of siblings, unless there is a conflict of interest, or such representation is otherwise inconsistent with the rules of professional conduct.

(b) Legal services provided by an attorney appointed pursuant to (a) of this subsection do not include representation of the child in any appellate proceedings relative to the termination of
the parent and child relationship.

(c)(i) Subject to the availability of amounts appropriated for this specific purpose, the state shall pay the costs of legal services provided by an attorney appointed pursuant to (a) of this subsection, if the legal services are provided in accordance with the standards of practice, voluntary training, and caseload limits developed and recommended by the statewide children's representation work group pursuant to section 5, chapter 180, Laws of 2010. Caseload limits must be calculated pursuant to (c)(ii) of this subsection.

(ii) Counties are encouraged to set caseloads as low as possible and to account for the individual needs of the children in care. Notwithstanding the caseload limits developed and recommended by the statewide children's representation work group pursuant to section 5, chapter 180, Laws of 2010, when one attorney represents a sibling group, the first child is counted as one case, and each child thereafter is counted as one-half case to determine compliance with the caseload standards pursuant to (c)(i) of this subsection and section 3 of this act.

(iii) The office of civil legal aid is responsible for implementation of (c)(i) and (ii) of this subsection as provided in section 3 of this act.

(7)(a) The court may appoint an attorney to represent the child's position in any dependency action on its own initiative, or upon the request of a parent, the child, a guardian ad litem, a caregiver, or the department.

(b)(i) If the court has not already appointed an attorney for a child, or the child is not represented by a privately retained attorney:

(A) The child's caregiver, or any individual, may refer the child to an attorney for the purposes of filing a motion to request appointment of an attorney at public expense; or

(B) The child or any individual may retain an attorney for the purposes of filing a motion to request appointment of an attorney at public expense.

(ii) Nothing in this subsection (7)(b) shall be construed to change or alter the confidentiality provisions of RCW 13.50.100.

(c) Pursuant to this subsection, the department or supervising agency and the child's guardian ad litem shall each notify a child of his or her right to request ((counsel)) an attorney and shall ask whether the child wishes to have ((counsel)) an attorney. The department or supervising agency and the child's guardian ad litem shall notify the child and make this inquiry immediately after:

(i) The date of the child's twelfth birthday;

(ii) Assignment of a case involving a child age twelve or older; or

(iii) July 1, 2010, for a child who turned twelve years old before July 1, 2010.

(d) The department or supervising agency and the child's guardian ad litem shall repeat the notification and inquiry at least annually and upon the filing of any motion or petition affecting the child's placement, services, or familial relationships.

(e) The notification and inquiry is not required if the child has already been appointed ((counsel)) an attorney.

(f) The department or supervising agency shall note in their report to the court, that the child was notified of the right to request ((counsel)) an attorney and indicate the child's position regarding appointment of ((counsel)) an attorney.

(g) At the first regularly scheduled hearing after:

(i) The date of the child's twelfth birthday;

(ii) The date that a dependency petition is filed pursuant to (c)(ii) of this subsection.

((ii)) (g) If the child requests legal counsel and is age twelve or older, or if the guardian ad litem or the court determines that the child needs to be independently represented by counsel, the court may appoint an attorney to represent the child's position.

((7)) (g) For the purposes of child abuse prevention and treatment act (42 U.S.C. Secs. 5101 et seq.) grants to the state under P.L. 93-247, or any related state or federal legislation, a person appointed pursuant to this section shall be deemed a guardian ad litem ((to represent the best interests of the minor in proceedings before the court)).

((8)) (h) When a court-appointed special advocate or volunteer guardian ad litem is requested on a case, the program shall give the court the name of the person it recommends. The program shall attempt to match a child with special needs with a guardian ad litem who has specific training or education related to the child's individual needs. The court shall immediately appoint the person recommended by the program.

((9)) (i) If a party in a case reasonably believes the court-appointed special advocate or volunteer guardian ad litem is inappropriate or unqualified, the party may request a review of the appointment by the program. The program must complete the review within five judicial days and remove any appointee for good cause. If the party seeking the review is not satisfied with the outcome of the review, the party may file a motion with the court for the removal of the court-appointed special advocate or volunteer guardian ad litem on the grounds the advocate or volunteer is inappropriate or unqualified.

NEW SECTION. Sec. 3. A new section is added to chapter 2.53 RCW to read as follows:

(1) Money appropriated by the legislature for legal services provided by an attorney appointed pursuant to RCW 13.34.100 must be administered by the office of civil legal aid established under RCW 2.53.020.

(2) The office of civil legal aid may enter into contracts with the counties to disburse state funds for an attorney appointed pursuant to RCW 13.34.100. The office of civil legal aid may also require a county to use attorneys under contract with the office for the provision of legal services under RCW 13.34.100 to remain within appropriated amounts.

(3) Prior to distributing state funds under subsection (2) of this section, the office of civil legal aid must verify that attorneys providing legal representation to children under RCW 13.34.100 meet the standards of practice, voluntary training, and caseload limits developed and recommended by the statewide children's representation work group pursuant to section 5, chapter 180, Laws of 2010. Caseload limits described in this subsection must be determined as provided in RCW 13.34.100(6)(c)(ii).

NEW SECTION. Sec. 4. This act takes effect July 1, 2014.

NEW SECTION. Sec. 5. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2014, in the omnibus appropriations act, this act is null and void."

Strike everything after the enacting clause and insert the following:
"Sec. 1. RCW 36.70A.040 and 2000 c 36 s 1 are each amended to read as follows:

(1) Each county that has both a population of fifty thousand or more and, until May 16, 1995, has had its population increase by more than ten percent in the previous ten years or, on or after May 16, 1995, has had its population increase by more than seventeen percent in the previous ten years, and the cities located within such county, and any other county regardless of its population that has had its population increase by more than twenty percent in the previous ten years, and the cities located within such county, shall conform with all of the requirements of this chapter. However, the county legislative authority of such a county with a population of less than fifty thousand population may adopt a resolution removing the county, and the cities located within the county, from the requirements of adopting comprehensive land use plans and development regulations under this chapter if this resolution is adopted and filed with the department by December 31, 1990, for counties initially meeting this set of criteria, or within sixty days of the date the office of financial management certifies that a county meets this set of criteria under subsection (5) of this section. For the purposes of this subsection, the county and not currently planning under this chapter is not required to include in its population count those persons confined in a correctional facility under the jurisdiction of the department of corrections that is located in the county.

Once a county meets either of these sets of criteria, the requirement to conform with all of the requirements of this chapter remains in effect, even if the county no longer meets one of these sets of criteria.

(2)(a) The county legislative authority of any county that does not meet either of the sets of criteria established under subsection (1) of this section may adopt a resolution indicating its intention to have subsection (1) of this section apply to the county. Each city, located in a county that chooses to plan under this subsection, shall conform with all of the requirements of this chapter. Once such a resolution has been adopted, the county and the cities located within the county remain subject to all of the requirements of this chapter, unless the county subsequently adopts a withdrawal resolution for partial planning pursuant to (b)(i) of this subsection.

(b)(i) Until December 31, 2015, the legislative authority of a county may adopt a resolution removing the county and the cities located within the county from the requirements to plan under this section if:

(A) The county has a population, as estimated by the office of financial management, of twenty thousand or fewer inhabitants at any time between April 1, 2010, and April 1, 2015;

(B) The county has previously adopted a resolution indicating its intention to have subsection (1) of this section apply to the county;

(C) At least sixty days prior to adopting a resolution for partial planning, the county provides written notification to the legislative body of each city within the county of its intent to consider adopting the resolution; and

(D) The legislative bodies of at least sixty percent of those cities having an aggregate population of at least seventy-five percent of the incorporated county population have not: Adopted resolutions opposing the action by the county; and provided written notification of the resolutions to the county.

(ii) Upon adoption of a resolution for partial planning under (b)(i) of this subsection:

(A) The county and the cities within the county are no longer obligated to plan under this section; and

(B) The county may not, for a minimum of ten years from the date of adoption of the resolution, adopt another resolution indicating its intention to have subsection (1) of this section apply to the county.

(c) The adoption of a resolution for partial planning under (b)(i) of this subsection does not nullify or otherwise modify the requirements for counties and cities established in RCW 36.70A.060, 36.70A.170, and 36.70A.172.

(3) Any county or city that is initially required to conform with all of the requirements of this chapter under subsection (1) of this section shall take actions under this chapter as follows: (a) The county legislative authority shall adopt a countywide planning policy under RCW 36.70A.210; (b) the county and each city located within the county shall designate
critical areas, agricultural lands, forest lands, and mineral resource lands, and adopt development regulations conserving these designated agricultural lands, forest lands, and mineral resource lands and protecting these designated critical areas, under RCW 36.70A.170 and 36.70A.060; (c) the county shall designate and take other actions related to urban growth areas under RCW 36.70A.110; (d) if the county has a population of fifty thousand or more, the county and each city located within the county shall adopt a comprehensive plan under this chapter and development regulations that are consistent with and implement the comprehensive plan on or before July 1, 1994, and if the county has a population of less than fifty thousand, the county and each city located within the county shall adopt a comprehensive plan under this chapter and development regulations that are consistent with and implement the comprehensive plan by January 1, 1995, but if the governor makes written findings that a county with a population of less than fifty thousand or a city located within such a county is not making reasonable progress toward adopting a comprehensive plan and development regulations the governor may reduce this deadline for such actions to be taken by no more than one hundred eighty days. Any county or city subject to this subsection may obtain an additional six months before it is required to have adopted its development regulations by submitting a letter notifying the department ((of community, trade, and economic development)) of its need prior to the deadline for adopting both a comprehensive plan and development regulations.

(4) Any county or city that is required to conform with all the requirements of this chapter, as a result of the county legislative authority adopting its resolution of intention under subsection (2) of this section, shall take actions under this chapter as follows: (a) The county legislative authority shall adopt a county-wide planning policy under RCW 36.70A.210; (b) the county and each city that is located within the county shall adopt development regulations conserving agricultural lands, forest lands, and mineral resource lands it designated under RCW 36.70A.060 within one year of the date the county legislative authority adopts its resolution of intention; (c) the county shall designate and take other actions related to urban growth areas under RCW 36.70A.110; and (d) the county and each city that is located within the county shall adopt a comprehensive plan and development regulations that are consistent with and implement the comprehensive plan not later than four years from the date the county legislative authority adopts its resolution of intention, but a county or city may obtain an additional six months before it is required to have adopted its development regulations by submitting a letter notifying the department ((of community, trade, and economic development)) of its need prior to the deadline for adopting both a comprehensive plan and development regulations.

(5) If the office of financial management certifies that the population of a county that previously had not been required to plan under subsection (1) or (2) of this section has changed sufficiently to meet either of the sets of criteria specified under subsection (1) of this section, and where applicable, the county legislative authority has not adopted a resolution removing the county from these requirements as provided in subsection (1) of this section, the county and each city within such county shall take actions under this chapter as follows: (a) The county legislative authority shall adopt a countywide planning policy under RCW 36.70A.210; (b) the county and each city located within the county shall adopt development regulations under RCW 36.70A.060 conserving agricultural lands, forest lands, and mineral resource lands it designated within one year of the certification by the office of financial management; (c) the county shall designate and take other actions related to urban growth areas under RCW 36.70A.110; and (d) the county and each city located within the county shall adopt a comprehensive land use plan and development regulations that are consistent with and implement the comprehensive plan within four years of the certification by the office of financial management, but a county or city may obtain an additional six months before it is required to have adopted its development regulations by submitting a letter notifying the department ((of community, trade, and economic development)) of its need prior to the deadline for adopting both a comprehensive plan and development regulations.

(6) A copy of each document that is required under this section shall be submitted to the department at the time of its adoption.

(7) Cities and counties planning under this chapter must amend the transportation element of the comprehensive plan to be in compliance with this chapter and chapter 47.80 RCW no later than December 31, 2000.

Sec. 2. RCW 36.70A.060 and 2005 c 423 s 3 are each amended to read as follows:

(1)(a) ((Except as provided in RCW 36.70A.1701,)) Each county that is required or chooses to plan under RCW 36.70A.040, and each city within such county, shall adopt development regulations on or before September 1, 1991, to assure the conservation of agricultural, forest, and mineral resource lands designated under RCW 36.70A.170. Regulations adopted under this subsection may not prohibit uses legally existing on any parcel prior to their adoption and shall remain in effect until the county or city adopts development regulations pursuant to RCW 36.70A.040. Such regulations shall assure that the use of lands adjacent to agricultural, forest, or mineral resource lands shall not interfere with the continued use, in the accustomed manner and in accordance with best management practices, of these designated lands for the production of food, agricultural products, or timber, or for the extraction of minerals.

(b) Counties and cities shall require that all plats, short plats, development permits, and building permits issued for development activities on, or within five hundred feet of, lands designated as agricultural lands, forest lands, or mineral resource lands, contain a notice that the subject property is within or near designated agricultural lands, forest lands, or mineral resource lands on which a variety of commercial activities may occur that are not compatible with residential development for certain periods of limited duration. The notice for mineral resource lands shall also inform that an application might be made for mining-related activities, including mining, extraction, washing, crushing, stockpiling, blasting, transporting, and recycling of minerals.

(c) Each county that adopts a resolution of partial planning under RCW 36.70A.040(2)(b), and each city within such county, shall adopt development regulations within one year after the adoption of the resolution of partial planning to assure the conservation of agricultural, forest, and mineral resource lands designated under RCW 36.70A.170. Regulations adopted under this subsection (1)(c) must comply with the requirements governing regulations adopted under (a) of this subsection.

(d)(i) A county that adopts a resolution of partial planning under RCW 36.70A.040(2)(b) and that is not in compliance with the planning requirements of this section, RCW 36.70A.040(4), 36.70A.070(5), 36.70A.170, and 36.70A.172 at the time the resolution is adopted must, by January 30, 2017, apply for a determination of compliance from the department finding that the county's development regulations, including development regulations adopted to protect critical areas, and comprehensive plans are in compliance with the requirements of this section, RCW 36.70A.040(4), 36.70A.070(5), 36.70A.170, and 36.70A.172. The department must approve or deny the application for a determination of compliance within one hundred twenty days of its receipt or by June 30, 2017, whichever date is earlier.

(ii) If the department denies an application under (d)(i)
of this subsection, the county and each city within is obligated to comply with all requirements of this chapter and the resolution for partial planning adopted under RCW 36.70A.040(2)(b) is no longer in effect.

(iii) A petition for review of a determination of compliance under (d)(i) of this subsection may only be appealed to the growth management hearings board within sixty days of the issuance of the decision by the department.

(iv) In the event of a filing of a petition in accordance with (d)(iii) of this subsection, the county and the department must equally share the costs incurred by the department for defending an approval of determination of compliance that is before the growth management hearings board.

(v) The department may implement this subsection (d) by adopting rules related to determinations of compliance. The rules may address, but are not limited to: The requirements for applications for a determination of compliance; charging of costs under (d)(iv) of this subsection; procedures for processing applications; criteria for the evaluation of applications; issuance and notice of department decisions; and applicable timelines.

(2) Each county and city shall adopt development regulations that protect critical areas that are required to be designated under RCW 36.70A.170. For counties and cities that are required or choose to plan under RCW 36.70A.040, such development regulations shall be adopted on or before September 1, 1991. For the remainder of the counties and cities, such development regulations shall be adopted on or before March 1, 1992.

(3) Such counties and cities shall review these designs and development regulations when adopting their comprehensive plans under RCW 36.70A.040 and implementing development regulations under RCW 36.70A.120 and may alter such designs and development regulations to insure consistency.

(4) Forest land and agricultural land located within urban growth areas shall not be designated by a county or city as forest land or agricultural land of long-term commercial significance under RCW 36.70A.170 unless the city or county has enacted a program authorizing transfer or purchase of development rights.

Sec. 3. RCW 36.70A.280 and 2011 c 360 s 17 are each amended to read as follows:

(1) The growth management hearings board shall hear and determine only those petitions alleging either:

(a) That, except as provided otherwise by this subsection, a state agency, county, or city planning under this chapter is not in compliance with the requirements of this chapter, chapter 90.58 RCW as it relates to the adoption of shoreline master programs or amendments thereto, or chapter 43.21C RCW as it relates to plans, development regulations, or amendments, adopted under RCW 36.70A.040 or chapter 90.58 RCW. Nothing in this subsection authorizes the board to hear petitions alleging noncompliance with RCW 36.70A.5801;

(b) That the twenty-year growth management planning population projections adopted by the office of financial management pursuant to RCW 43.62.035 should be adjusted;

(c) That the approval of a work plan adopted under RCW 36.70A.735(1)(a) is not in compliance with the requirements of the program established under RCW 36.70A.710;

(d) That regulations adopted under RCW 36.70A.735(1)(b) are not regionally applicable and cannot be adopted, wholly or partially, by another jurisdiction; or

(e) That a department certification under RCW 36.70A.735(1)(c) is erroneous; or

(f) That a department determination under RCW 36.70A.060(1)(d) is erroneous.

(2) A petition may be filed only by: (a) The state, or a county or city that plans under this chapter; (b) a person who has participated orally or in writing before the county or city regarding the matter on which a review is being requested; (c) a person who is certified by the governor within sixty days of filing the request with the board; or (d) a person qualified pursuant to RCW 34.05.530.

(3) For purposes of this section "person" means any individual, partnership, corporation, association, state agency, governmental subdivision or unit thereof, or public or private organization or entity of any character.

(4) To establish participation standing under subsection (2)(b) of this section, a person must show that his or her participation before the county or city was reasonably related to the person's issue as presented to the board.

(5) When considering a possible adjustment to a growth management planning population projection prepared by the office of financial management, the board shall consider the implications of any such adjustment to the population forecast for the entire state.

The rationale for any adjustment that is adopted by the board must be documented and filed with the office of financial management within ten working days after adoption.

If adjusted by the board, a county growth management planning population projection shall only be used for the planning purposes set forth in this chapter and shall be known as the "board adjusted population projection." None of these changes shall affect the official state and county population forecasts prepared by the office of financial management, which shall continue to be used for state budget and planning purposes.

Sec. 5. RCW 71.24.015 and 2005 c 503 s 1 are each amended to read as follows:

It is the intent of the legislature to establish a community mental health program which shall help people experiencing mental illness to retain a respected and productive position in the community. This will be accomplished through programs that focus on resilience and recovery, and practices that are evidence-based, research-based, consensus-based, or, where these do not exist, promising or emerging best practices, which provide for:

(1) Access to mental health services for adults ((of the state who are acutely mentally ill, chronically mentally ill,)) with acute mental illness, chronic mental illness, or who are seriously disturbed and children ((of the state who are acutely mentally ill)) with acute mental illness, or who are severely emotionally disturbed, or seriously disturbed, which services recognize the special needs of underserved populations, including minorities, children, the elderly, (disabled) individuals with disabilities, and low-income persons. Access to mental health services shall not be limited by a person's history of confinement in a state, federal, or local correctional facility. It is also the purpose of this chapter to promote the early identification of ((mentally ill)) children with mental illness and to ensure that they receive the mental health care and treatment which is appropriate to their developmental level. This care should improve home, school, and community functioning, maintain children in a safe and nurturing home environment, and should enable treatment decisions to be made in response to clinical needs in accordance with sound professional judgment while also recognizing parents' rights to participate in treatment decisions for their children;

(2) The involvement of persons with mental illness, their family members, and advocates in designing and implementing mental health services that reduce unnecessary hospitalization and incarceration and promote the recovery and employment of persons with mental illness. To improve the quality of services available and promote the rehabilitation, recovery, and reintegration of persons with mental illness, consumer and advocate participation in mental health services is an integral part of the community mental health system and shall be supported;

(3) Accountability of efficient and effective services through state-of-the-art outcome and performance measures and statewide standards for monitoring client and system outcomes, performance, and reporting of client and system outcome information. These processes shall be designed so as to maximize the use of available resources for direct care of people with a mental illness and to assure uniform data collection across the state;

(4) Minimum service delivery standards;

(5) Priorities for the use of available resources for the care of ((mentally ill)) individuals with mental illness consistent with the priorities defined in the statute;

(6) Coordination of services within the department, including those divisions within the department that provide services to children, between the department and the office of the superintendent of public instruction, and among state mental hospitals, county authorities, ((regional support networks)) behavioral health and recovery organizations, community mental health services, and other support services, which shall to the maximum extent feasible also include the families of ((mentally ill)) individuals with mental illness, and other service providers;

(7) Coordination of services aimed at reducing duplication in service delivery and promoting complementary services among all entities that provide mental health services to adults and children.

It is the policy of the state to encourage the provision of a full range of treatment and rehabilitation services in the state for mental disorders including services operated by consumers and advocates. The legislature intends to encourage the development of regional mental health services with adequate local flexibility to assure eligible people in need of care access to the least-restrictive treatment alternative appropriate to their needs, and the availability of treatment components to assure continuity of care. To this end, counties ((are encouraged to)) must enter into joint operating agreements with other counties to form regional systems of care that are consistent with the regional service areas established under
section 2 of this act. Regional systems of care, whether operated by a county, group of counties, or another entity shall integrate planning, administration, and service delivery duties under chapters 71.05 and 71.24 RCW to consolidate administration, reduce administrative layering, and reduce administrative costs. The legislature hereby finds and declares that sound fiscal management requires vigilance to ensure that funds appropriated by the legislature for the provision of needed community mental health programs and services are ultimately expended solely for the purpose for which they were appropriated, and not for any other purpose.

It is further the intent of the legislature to integrate the provision of services to provide continuity of care through all phases of treatment. To this end, the legislature intends to promote active engagement with (((mentally ill))) persons with mental illness and collaboration between families and service providers.

Sec. 6. RCW 71.24.016 and 2006 c 333 s 102 are each amended to read as follows:

(1) The legislature intends that eastern and western state hospitals shall operate as clinical centers for handling the most complicated long-term care needs of patients with a primary diagnosis of mental disorder. It is further the intent of the legislature that the community mental health service delivery system focus on maintaining (((mentally ill))) individuals with mental illness in the community. The program shall be evaluated and managed through a limited number of outcome and performance measures ((designed to hold each regional support network accountable for program success)), as provided in RCW 43.20A.895, 70.320.020, and 71.36.025.

(2) The legislature intends to address the needs of people with mental disorders with a targeted, coordinated, and comprehensive set of evidence-based practices that are effective in serving individuals in their community and will reduce the need for placements in state mental hospitals. The legislature further intends to explicitly hold (((regional support networks))) behavioral health and recovery organizations accountable for serving people with mental disorders within the boundaries of their regional service area and for not exceeding their allocation of state hospital beds. (((Within funds appropriated by the legislature for the purpose of providing community mental health programs, federal funds, except those provided according to Title XIX of the Social Security Act, and state funds appropriated under this chapter or chapter 71.05 RCW by the legislature during any biennium for the purpose of providing residential services, resource management services, community support services, and other mental health services. This does not include funds appropriated for the purpose of operating and administering the state psychiatric hospitals.)))

Behavioral health and recovery organizations are encouraged to maximize the use of evidence-based practices and alternative resources with the goal of substantially reducing and potentially eliminating the use of institutions for mental diseases.

The ((regional support networks)) behavioral health and recovery organization may accept and expend gifts and grants received from private, county, state, and federal sources.

Sec. 26. RCW 71.24.300 and 2008 c 261 s 4 are each amended to read as follows:

(1) Upon the request of a tribal authority or authorities within a ((regional support network)) behavioral health and recovery organization the joint operating agreement or the county authority shall allow for the inclusion of the tribal authority to be represented as a party to the ((regional support network)) behavioral health and recovery organization.

(2) The roles and responsibilities of the county and tribal authorities shall be determined by the terms of that agreement including a determination of membership on the governing board and advisory committees, the number of tribal representatives to be party to the agreement, and the provisions of law and shall assure the provision of culturally competent services to the tribes served.

(3) The state mental health authority may not determine the roles and responsibilities of county authorities as to each other under ((regional support networks)) behavioral health and recovery organizations by rule, except to assure that all duties required of ((regional support networks)) behavioral health and recovery organizations are assigned and that counties and the ((regional support network)) behavioral health and recovery organization do not duplicate functions and that a single authority has final responsibility for all available resources and performance under the ((regional support network)) behavioral health and recovery organization's contract with the secretary.

(4) If a ((regional support network)) behavioral health and recovery organization is a private entity, the department shall allow for the inclusion of the tribal authority to be represented as a party to the ((regional support network)) behavioral health and recovery organization.

(5) The roles and responsibilities of the private entity and the tribal authorities shall be determined by the department, through negotiation with the tribal authority.

(6) ((Regional support networks)) Behavioral health and recovery organizations shall submit an overall six-year operating and capital plan, timeline, and budget and submit progress reports and an updated two-year plan biennially thereafter, to assume within available resources all of the following duties:

(a) Administer and provide for the availability of all resource management services, residential services, and community support services.

(b) Administer and provide for the availability of all investigation, transportation, court-related, and other services provided by the state or counties pursuant to chapter 71.05 RCW.

(c) Provide within the boundaries of each ((regional support network)) behavioral health and recovery organization evaluation and treatment services for at least ninety percent of persons detained or committed for periods up to seventeen days according to chapter 71.05 RCW. ((Regional support networks)) Behavioral health and recovery organizations may contract to purchase evaluation and treatment services from other ((networks)) organizations if they are unable to provide for appropriate resources within their boundaries. Insofar as the original intent of serving persons in the community is maintained, the secretary is authorized to approve exceptions on a case-by-case basis to the requirement to provide evaluation and treatment services within the boundaries of each ((regional support network)) behavioral health and recovery organization. Such exceptions are limited to:

(i) Contracts with neighboring or contiguous regions; or

(ii) Individuals detained or committed for periods up to seventeen days at the state hospitals at the discretion of the secretary.

(d) Administer and provide for the availability of all other mental health services, which shall include patient counseling, day treatment, consultation, education services, employment services as ((defined)) described in RCW 71.24.035, and mental health services to children.

(e) Establish standards and procedures for reviewing individual service plans and determining when that person may be discharged from resource management services.

(7) A ((regional support network)) behavioral health and recovery organization may request that any state-owned land, building, facility, or other capital asset which was ever purchased, deeded, given, or placed in trust for the care of the persons with mental illness and which is within the boundaries of a ((regional support network)) behavioral health and recovery organization be made available to support the operations of the ((regional support network)) behavioral health and recovery organization. State agencies managing such capital assets shall give first priority to requests for their use pursuant to this chapter.

(8) Each ((regional support network)) behavioral health and recovery organization shall appoint a mental health advisory board which shall review and provide comments on plans and policies developed under this chapter, provide local oversight regarding the activities of the ((regional support network)) behavioral health and recovery organization, and work with the ((regional support network)) behavioral health and recovery organization to resolve significant concerns regarding service delivery and outcomes. The department shall establish statewide procedures for the operation of regional advisory committees including mechanisms for advisory board feedback to the department regarding ((regional support network)) behavioral health and recovery organization performance. The composition of the board shall be broadly representative of the demographic
character of the region and shall include, but not be limited to, representatives of consumers and families, law enforcement, and where the county is not the ((regional support network)) behavioral health and recovery organization, county elected officials. Composition and length of terms of board members may differ between ((regional support networks)) behavioral health and recovery organizations but shall be included in each ((regional support network)) behavioral health and recovery organization's contract and approved by the secretary.

(9) ((Regional support networks)) Behavioral health and recovery organizations shall assume all duties specified in their plans and joint operating agreements through biennial contractual agreements with the secretary.

(10) ((Regional support networks)) Behavioral health and recovery organizations may receive technical assistance from the housing trust fund and may identify and submit projects for housing and housing support services to the housing trust fund established under chapter 43.185 RCW. Projects identified or submitted under this subsection must be fully integrated with the ((regional support network)) behavioral health and recovery organization six-year operating and capital plan, timeline, and budget required by subsection (6) of this section.

Sec. 27. RCW 71.24.310 and 2013 2nd sp.s. c 4 s 994 are each amended to read as follows:

The legislature finds that administration of chapter 71.05 RCW and this chapter can be most efficiently and effectively implemented as part of the ((regional support networks)) behavioral health and recovery organization defined in RCW 71.24.025. For this reason, the legislature intends that the department and the ((regional support networks)) behavioral health and recovery organizations shall work together to implement chapter 71.05 RCW as follows:

(1) By June 1, 2006, ((regional support networks)) behavioral health and recovery organizations shall recommend to the department the number of state hospital beds that should be allocated for use by each ((regional support network)) behavioral health and recovery organization. The statewide total allocation shall not exceed the number of state hospital beds offering long-term inpatient care, as defined in this chapter, for which funding is provided in the biennial appropriations act.

(2) If there is consensus among the ((regional support networks)) behavioral health and recovery organizations regarding the number of state hospital beds that should be allocated for use by each ((regional support network)) behavioral health and recovery organization, the department shall contract with each ((regional support network)) behavioral health and recovery organization accordingly.

(3) If there is not consensus among the ((regional support networks)) behavioral health and recovery organizations regarding the number of beds that should be allocated for use by each ((regional support network)) behavioral health and recovery organization, the department shall establish by emergency rule the number of state hospital beds that are available for use by each ((regional support network)) behavioral health and recovery organization. The emergency rule shall be effective September 1, 2006. The primary factor used in the allocation shall be the estimated number of adults with acute and chronic mental illness in each ((regional support network)) behavioral health and recovery organization area, based upon population-adjusted incidence and utilization.

(4) The allocation formula shall be updated at least every three years to reflect demographic changes, and new evidence regarding the incidence of acute and chronic mental illness and the need for long-term inpatient care. In the updates, the statewide total allocation shall include (a) all state hospital beds offering long-term inpatient care for which funding is provided in the biennial appropriations act; plus (b) the estimated equivalent number of beds or comparable diversion services contracted in accordance with subsection (5) of this section.

(5) The department is encouraged to enter performance-based contracts with ((regional support networks)) behavioral health and recovery organizations to provide some or all of the ((regional support network)) behavioral health and recovery organization's allocated long-term inpatient treatment capacity in the community, rather than in the state hospital. The performance contracts shall specify the number of patient days of care available for use by the ((regional support network)) behavioral health and recovery organization in the state hospital.

(6) If a ((regional support network)) behavioral health and recovery organization uses more state hospital patient days of care than it has been allocated under subsection (3) or (4) of this section, or if it has contracted to use under subsection (5) of this section, whichever is less, it shall reimburse the department for that care, except during the period of July 1, 2012, through December 31, 2013, where reimbursements may be temporarily altered per section 204, chapter 4, Laws of 2013 2nd sp. sess. The reimbursement rate per day shall be the hospital's total annual budget for long-term inpatient care, divided by the total patient days of care assumed in development of that budget.

(7) One-half of any reimbursements received pursuant to subsection (6) of this section shall be used to support the cost of operating the state hospital and, during the 2007-2009 fiscal biennium, implementing new services that will enable a ((regional support network)) behavioral health and recovery organization to reduce its utilization of the state hospital. The department shall distribute the remaining half of such reimbursements among ((regional support networks)) behavioral health and recovery organizations that have used less than their allocated or contracted patient days of care at that hospital, proportional to the number of patient days of care not used.

Sec. 28. RCW 71.24.350 and 2013 c 23 s 189 are each amended to read as follows:

The department shall require each ((regional support network)) behavioral health and recovery organization to provide for a separately funded mental health ombuds office in each ((regional support network)) behavioral health and recovery organization that is independent of the ((regional support network)) behavioral health and recovery organization. The ombuds office shall maximize the use of consumer advocates.

Sec. 29. RCW 71.24.370 and 2006 c 333 s 103 are each amended to read as follows:

(1) Except for monetary damage claims which have been reduced to final judgment by a superior court, this section applies to all claims against the state, state agencies, state officials, or state employees that exist on or arise after March 29, 2006.

(2) Except as expressly provided in contracts entered into between the department and the ((regional support networks)) behavioral health and recovery organizations after March 29, 2006, the entities identified in subsection (3) of this section shall have no claim for declaratory relief, injunctive relief, judicial review under chapter 34.05 RCW, or civil liability against the state or state agencies for actions or inactions performed pursuant to the administration of this chapter with regard to the following: (a) The allocation or payment of federal or state funds; (b) the use or allocation of state hospital beds; or (c) financial responsibility for the provision of inpatient mental health care.

(3) This section applies to counties, ((regional support networks)) behavioral health and recovery organizations, and entities which contract to provide ((regional support network)) behavioral health and recovery organization services and their subcontractors, agents, or employees.
Sec. 30. RCW 71.24.455 and 1997 c 342 s 2 are each amended to read as follows:

(1) The secretary shall select and contract with a ((regional support network)) behavioral health and recovery organization or private provider to provide specialized access and services to ((mentally ill)) offenders with mental illness upon release from total confinement within the department of corrections who have been identified by the department of corrections and selected by the ((regional support network)) behavioral health and recovery organization or private provider as high-priority clients for services and who meet service program entrance criteria. The program shall enroll no more than twenty-five offenders at any one time, or a number of offenders that can be accommodated within the appropriated funding level, and shall seek to fill any vacancies that occur.

(2) Criteria shall include a determination by department of corrections staff that:
(a) The offender suffers from a major mental illness and needs continued mental health treatment;
(b) The offender's previous crime or crimes have been determined by either the court or department of corrections staff to have been substantially influenced by the offender's mental illness;
(c) It is believed the offender will be less likely to commit further criminal acts if provided ongoing mental health care;
(d) The offender is unable or unlikely to obtain housing and/or treatment from other sources for any reason; and
(e) The offender has at least one year remaining before his or her sentence expires but is within six months of release to community housing and is currently housed within a work release facility or any department of corrections' division of prisons facility.

(3) The ((regional support network)) behavioral health and recovery organization or private provider shall provide specialized access and services to the selected offenders. The services shall be aimed at lowering the risk of recidivism. An oversight committee composed of a representative of the department, a representative of the selected ((regional support network)) behavioral health and recovery organization or private provider, and a representative of the department of corrections shall develop policies to guide the pilot program, provide dispute resolution including making determinations as to when entrance criteria or required services may be waived in individual cases, advise the department of corrections and the ((regional support network)) behavioral health and recovery organization or private provider on the selection of eligible offenders, and set minimum requirements for service contracts. The selected ((regional support network)) behavioral health and recovery organization or private provider shall implement the policies and service contracts. The following services shall be provided:
(a) Intensive case management to include a full range of intensive community support and treatment in client-to-staff ratios of no more than ten offenders per case manager including: (i) A minimum of weekly group and weekly individual counseling; (ii) home visits by the program manager at least two times per month; and (iii) counseling focusing on relapse prevention and past, current, or future behavior of the offender.
(b) The case manager shall attempt to locate and procure housing appropriate to the living and clinical needs of the offender and as needed to maintain the psychiatric stability of the offender. The entire range of emergency, transitional, and permanent housing and involuntary hospitalization must be considered as available housing options. A housing subsidy may be provided to offenders to defray housing costs up to a maximum of six thousand six hundred dollars per offender per year and be administered by the case manager. Additional funding sources may be used to offset these costs when available.
(c) The case manager shall collaborate with the assigned prison, work release, or community corrections staff during release planning, prior to discharge, and in ongoing supervision of the offender while under the authority of the department of corrections.
(d) Medications including the full range of psychotropic medications including atypical antipsychotic medications may be required as a condition of the program. Medication prescription, medication monitoring, and counseling to support offender understanding, acceptance, and compliance with prescribed medication regiments must be included.
(e) A systematic effort to engage offenders to continuously involve themselves in current and long-term treatment and appropriate habilitative activities shall be made.
(f) Classes appropriate to the clinical and living needs of the offender and appropriate to his or her level of understanding.
(g) The case manager shall assist the offender in the application and qualification for entitlement funding, including medicaid, state assistance, and other available government and private assistance at any point that the offender is qualified and resources are available.
(h) The offender shall be provided access to daily activities such as drop-in centers, prevocational and vocational training and jobs, and volunteer activities.

(4) Once an offender has been selected into the pilot program, the offender shall remain in the program until the end of his or her sentence or unless the offender is released from the pilot program earlier by the department of corrections.

(5) Specialized training in the management and supervision of high-crime risk ((mentally ill)) offenders with mental illness shall be provided to all participating mental health providers by the department and the department of corrections prior to their participation in the program and as requested thereafter.

(6) The pilot program provided for in this section must be providing services by July 1, 1998.

Sec. 31. RCW 71.24.470 and 2009 c 319 s 1 are each amended to read as follows:

(1) The secretary shall contract, to the extent that funds are appropriated for this purpose, for case management services and such other services as the secretary deems necessary to assist offenders identified under RCW 72.09.370 for participation in the offender reentry community safety program. The contracts may be with ((regional support networks)) behavioral health and recovery organizations or any other qualified and appropriate entities.

(2) The case manager has the authority to assist these offenders in obtaining the services, as set forth in the plan created under RCW 72.09.370(2), for up to five years. The services may include coordination of mental health services, assistance with unfunded medical expenses, obtaining chemical dependency treatment, housing, employment services, educational or vocational training, independent living skills, parenting education, anger management services, and such other services as the case manager deems necessary.

(3) The legislature intends that funds appropriated for the purposes of RCW 72.09.370, 71.05.145, and 71.05.212, and this section and distributed to the ((regional support networks)) behavioral health and recovery organizations are to supplement and not to supplant general funding. Funds appropriated to implement RCW 72.09.370, 71.05.145, and 71.05.212, and this section are not to be considered available resources as defined in RCW 71.24.025 and are not subject to the priorities, terms, or conditions in the appropriations act established pursuant to RCW 71.24.035.
The offender reentry community safety program was formerly known as the community integration assistance program. Sec. 32. RCW 71.24.480 and 2009 c 319 s 2 are each amended to read as follows:

(1) A licensed service provider or ((regional support network)) behavioral health and recovery organization, acting in the course of the provider's or ((networks)) organization's duties under this chapter, is not liable for civil damages resulting from the injury or death of another caused by a participant in the offender reentry community safety program who is a client of the provider or ((network)) organization, unless the act or omission of the provider or ((network)) organization constitutes:

(a) Gross negligence;
(b) Willful or wanton misconduct; or
(c) A breach of the duty to warn of and protect from a client's threatened violent behavior if the client has communicated a serious threat of physical violence against a reasonably ascertainable victim or victims.

(2) In addition to any other requirements to report violations, the licensed service provider and ((regional support network)) behavioral health and recovery organization shall report an offender's expressions of intent to harm or other predatory behavior, regardless of whether there is an ascertainable victim, in progress reports and other established processes that enable courts and supervising entities to assess and address the progress and appropriateness of treatment.

(3) A licensed service provider's or ((regional support network's)) behavioral health and recovery organization's mere act of treating a participant in the offender reentry community safety program is not negligence. Nothing in this subsection alters the limited liability provided by this section applies with regard to the client.

(4) The limited liability provided by this section applies only to the conduct of licensed service providers and ((regional support networks)) behavioral health and recovery organizations and does not apply to conduct of the state.

(5) For purposes of this section, "participant in the offender reentry community safety program" means a person who has been identified under RCW 72.09.370 as an offender who: (a) Is reasonably believed to be dangerous to himself or herself or others; and (b) has a mental disorder.

Sec. 33. RCW 71.24.845 and 2013 c 230 s 1 are each amended to read as follows:

The ((regional support networks)) behavioral health and recovery organizations shall jointly develop a uniform transfer agreement to govern the transfer of clients between ((regional support networks)) behavioral health and recovery organizations. By September 1, 2013, the ((regional support networks)) behavioral health and recovery organizations shall submit the uniform transfer agreement to the department. By December 1, 2013, the department shall establish guidelines to implement the uniform transfer agreement and may modify the uniform transfer agreement as necessary to avoid impacts on state administrative systems.

Sec. 34. RCW 71.24.055 and 2007 c 359 s 4 are each amended to read as follows:

As part of the system transformation initiative, the department of social and health services shall undertake the following activities related specifically to children's mental health services:

(1) The development of recommended revisions to the access to care standards for children. The recommended revisions shall reflect the policies and principles set out in RCW 71.36.005, 71.36.010, and 71.36.025, and recognize that early identification, intervention and prevention services, and brief intervention services may be provided outside of the ((regional support network)) behavioral health and recovery organization system. Revised access to care standards shall assess a child's need for mental health services based upon the child's diagnosis and its negative impact upon his or her persistent impaired functioning in family, school, or the community, and should not solely condition the receipt of services upon a determination that a child is engaged in high risk behavior or is in imminent need of hospitalization or out-of-home placement. Assessment and diagnosis for children under five years of age shall be determined using a nationally accepted assessment tool designed specifically for children of that age. The recommendations shall also address whether amendments to RCW 71.24.025 ((26) and) (27) and (28) and 71.24.035(5) are necessary to implement revised access to care standards;

(2) Development of a revised children's mental health benefit package. The department shall ensure that services included in the children's mental health benefit package reflect the policies and principles included in RCW 71.36.005 and 71.36.025, to the extent allowable under medicaid, Title XIX of the federal social security act. Strong consideration shall be given to developmentally appropriate evidence-based and research-based practices, family-based interventions, the use of natural and peer supports, and community support services. This effort shall include a review of other states' efforts to fund family-centered children's mental health services through their medicaid programs;

(3) Consistent with the timeline developed for the system transformation initiative, recommendations for revisions to the children's access to care standards and the children's mental health services benefits package shall be presented to the legislature by January 1, 2009.

Sec. 35. RCW 71.24.065 and 2007 c 359 s 10 are each amended to read as follows:

To the extent funds are specifically appropriated for this purpose, the department of social and health services shall contract for implementation of a wraparound model of integrated children's mental health services delivery in up to four ((regional support network)) behavioral health and recovery organization regions in Washington state in which wraparound programs are not currently operating, and in up to two ((regional support network)) behavioral health and recovery organization regions in which wraparound programs are currently operating. Contracts in regions with existing wraparound programs shall be for the purpose of expanding the number of children served.

(1) Funding provided may be expended for: Costs associated with a request for proposal and contracting process; administrative costs associated with successful bidders' operation of the wraparound model; the evaluation under subsection (5) of this section; and funding for services needed by children enrolled in wraparound model sites that are not otherwise covered under existing state programs. The services provided through the wraparound model sites shall include, but not be limited to, services covered under the medicaid program. The department shall maximize the use of medicaid and other existing state-funded programs as a funding source. However, state funds provided may be used to develop a broader service package to meet needs identified in a child's care plan. Amounts provided shall supplement, and not supplant, state, local, or other funding for services that a child being served through a wraparound site would otherwise be eligible to receive.

(2) The wraparound model sites shall serve children with serious emotional or behavioral disturbances who are at high risk of residential or correctional placement or psychiatric hospitalization, and who have been referred for services from the department, a county juvenile court, a tribal court, a school, or a licensed mental health provider or agency.
(3) Through a request for proposal process, the department shall contract, with behavioral health and recovery organizations, alone or in partnership with other public or private entities licensed to provide mental health services to children with serious emotional or behavioral disturbances, to operate the wraparound model sites. The contractor shall provide care coordination and facilitate the delivery of services and other supports to families using a strength-based, highly individualized wraparound process. The request for proposal shall require that:

(a) The behavioral health and recovery organization agree to use its medicaid revenues to fund services included in the existing behavioral health and recovery organization’s benefit package that a medicaid-eligible child participating in the wraparound model site is determined to need;

(b) The contractor provide evidence of commitments from at least the following entities to participate in wraparound care plan development and service provision when appropriate: Community mental health agencies, schools, the department of social and health services children's administration, juvenile courts, the department of social and health services juvenile rehabilitation administration, and managed health care systems contracting with the department under RCW 74.09.522; and

(c) The contractor will operate the wraparound model site in a manner that maintains fidelity to the wraparound process as defined in RCW 71.36.010.

(4) Contracts for operation of the wraparound model sites shall be executed on or before April 1, 2008, with enrollment and service delivery beginning on or before July 1, 2008.

(5) The evidence-based practice institute established in RCW 71.24.061 shall evaluate the wraparound model sites, measuring outcomes for children served. Outcomes measured shall include, but are not limited to: Decreased out-of-home placement, including residential, group, and foster care, and increased stability of such placements, school attendance, school performance, recidivism, emergency room utilization, involvement with the juvenile justice system, decreased use of psychotropic medication, and decreased hospitalization.

(6) The evidence-based practice institute shall provide a report and recommendations to the appropriate committees of the legislature by December 1, 2010.

Sec. 36. RCW 71.24.240 and 2005 c 503 s 10 are each amended to read as follows:

In order to establish eligibility for funding under this chapter, any behavioral health and recovery organization seeking to obtain federal funds for the support of any aspect of a community mental health program as defined in this chapter shall submit program plans to the secretary for prior review and approval before such plans are submitted to any federal agency.

Sec. 37. RCW 71.24.320 and 2008 c 261 s 5 are each amended to read as follows:

(1) If an existing behavioral health and recovery organization chooses not to respond to a request for a detailed plan, or is unable to substantially meet the requirements of a request for a detailed plan, or notifies the department of social and health services that it will no longer serve as a behavioral health and recovery organization, the department shall utilize a procurement process in which other entities recognized by the secretary may bid to serve as the behavioral health and recovery organization.

(a) The request for proposal shall include a scoring factor for proposals that include additional financial resources beyond that provided by state appropriation or allocation.

(b) The department shall provide detailed briefings to all bidders in accordance with department and state procurement policies.

(c) The request for proposal shall also include a scoring factor for proposals submitted by nonprofit entities that include a component to maximize the utilization of state provided resources and the leverage of other funds for the support of mental health services to persons with mental illness.

(2) A behavioral health and recovery organization that voluntarily terminates, refuses to renew, or refuses to sign a mandatory amendment to its contract to act as a behavioral health and recovery organization is prohibited from responding to a procurement under this section or serving as a behavioral health and recovery organization for five years from the date that the department signs a contract with the entity that will serve as the behavioral health and recovery organization.

Sec. 38. RCW 71.24.330 and 2013 c 320 s 9 are each amended to read as follows:

(1)(a) Contracts between a behavioral health and recovery organization and the department shall include mechanisms for monitoring performance under the contract and remedies for failure to substantially comply with the requirements of the contract including, but not limited to, financial penalties, termination of the contract, and repurchase of the contract.

(b) The department shall incorporate the criteria to measure the performance of service coordination organizations into contracts with behavioral health and recovery organizations as provided in chapter 70.320 RCW.

(2) The behavioral health and recovery organization procurement processes shall encourage the preservation of infrastructure previously purchased by the community mental health service delivery system, the maintenance of linkages between other services and delivery systems, and maximization of the use of available funds for services versus profits. However, a behavioral health and recovery organization selected through the procurement process is not required to contract for services with any county-owned or operated facility. The behavioral health and recovery organization procurement process shall provide that public funds appropriated by the legislature shall not be used to promote or deter, encourage, or discourage employees from exercising their rights under Title 29, chapter 7, subchapter II, United States Code or chapter 41.56 RCW.

(3) In addition to the requirements of RCW 71.24.035, contracts shall:

(a) Define administrative costs and ensure that the behavioral health and recovery organization does not exceed an administrative cost of ten percent of available funds;

(b) Require effective collaboration with law enforcement, criminal justice agencies, and the chemical dependency treatment system;

(c) Require substantial implementation of department adopted integrated screening and assessment process and matrix of best practices;

(d) Maintain the decision-making independence of designated mental health professionals;

(e) Except at the discretion of the secretary or as specified in the biennial budget, require
behavioral health and recovery organizations to pay the state for the costs associated with individuals who are being served on the grounds of the state hospitals and who are not receiving long-term inpatient care as defined in RCW 71.24.025;

(f) Include a negotiated alternative dispute resolution clause; and

(g) Include a provision requiring either party to provide one hundred eighty days' notice of any issue that may cause either party to voluntarily terminate, refuse to renew, or refuse to sign a mandatory amendment to the contract to act as a behavioral health and recovery organization. If either party decides to voluntarily terminate, refuse to renew, or refuse to sign a mandatory amendment to the contract to serve as a behavioral health and recovery organization they shall provide ninety days' advance notice in writing to the other party.

Sec. 39. RCW 71.24.360 and 2012 c 91 s 1 are each amended to read as follows:

(1) The department may establish new behavioral health and recovery organization boundaries in any part of the state:

(a) Where more than one behavioral health and recovery organization chooses not to respond to, or is unable to substantially meet the requirements of, the request for a detailed plan under RCW 71.24.320;

(b) Where a behavioral health and recovery organization is subject to reprocurement under RCW 71.24.330;

(c) Where two or more behavioral health and recovery organizations propose to reconfigure themselves to achieve consolidation, in which case the procurement process described in RCW 71.24.320 and 71.24.330(2) does not apply.

(2) The department may establish no fewer than six and no more than fourteen behavioral health and recovery organizations under this chapter. No entity shall be responsible for more than three behavioral health and recovery organizations.

Sec. 40. RCW 71.24.405 and 2001 c 323 s 19 are each amended to read as follows:

The department shall establish a comprehensive and collaborative effort within behavioral health and recovery organizations and with local mental health service providers aimed at creating innovative and streamlined community mental health service delivery systems, in order to carry out the purposes set forth in RCW 71.24.400 and to capture the diversity of the community mental health service delivery system.

The department must accomplish the following:

(1) Identification, review, and cataloging of all rules, regulations, duplicative administrative and monitoring functions, and other requirements that currently lead to inefficiencies in the community mental health service delivery system and, if possible, eliminate the requirements;

(2) The systematic and incremental development of a single system of accountability for all federal, state, and local funds provided to the community mental health service delivery system. Systematic efforts should be made to include federal and local funds into the single system of accountability;

(3) The elimination of process regulations and related contract and reporting requirements. In place of the regulations and requirements, a set of outcomes for mental health adult and children clients according to chapter 71.24 RCW must be used to measure the performance of mental health service providers and behavioral health and recovery organizations. Such outcomes shall focus on stabilizing out-of-home and hospital care, increasing stable community living, increasing age-appropriate activities, achieving family and consumer satisfaction with services, and system efficiencies;

(4) Evaluation of the feasibility of contractual agreements between the department of social and health services and behavioral health and recovery organizations and mental health service providers that link financial incentives to the success or failure of mental health service providers and behavioral health and recovery organizations to meet outcomes established for mental health service clients;

(5) The involvement of mental health consumers and their representatives. Mental health consumers and their representatives will be involved in the development of outcome standards for mental health clients under section 5 of this act; and

(6) An independent evaluation component to measure the success of the department in fully implementing the provisions of RCW 71.24.400 and this section.

Sec. 41. RCW 71.24.430 and 2001 c 323 s 3 are each amended to read as follows:

(1) The department shall ensure the coordination of allied services for mental health clients. The department shall implement strategies for resolving organizational, regulatory, and funding issues at all levels of the system, including the state, the behavioral health and recovery organizations, and local service providers.

(2) The department shall propose, in operating budget requests, transfers of funding among programs to support collaborative service delivery to persons who require services from multiple department programs. The department shall report annually to the appropriate committees of the senate and house of representatives on actions and projects it has taken to promote collaborative service delivery.

Sec. 42. RCW 74.09.522 and 2013 2nd sp.s. c 17 s 13 are each amended to read as follows:

(1) For the purposes of this section:

(a) "Managed health care system" means any health care organization, including health care providers, insurers, health care service contractors, health maintenance organizations, health insuring organizations, or any combination thereof, that provides directly or by contract health care services covered under this chapter and rendered by licensed providers, on a prepaid capitated basis and that meets the requirements of section 1903(m)(1)(A) of Title XIX of the federal social security act or federal demonstration waivers granted under section 1115(a) of Title XI of the federal social security act;

(b) "Nonparticipating provider" means a person, health care provider, practitioner, facility, or entity, acting within their scope of practice, that does not have a written contract to participate in a managed health care system's provider network, but provides health care services to enrollees of programs authorized under this chapter whose health care services are provided by the managed health care system.

(2) The authority shall enter into agreements with managed health care systems to provide health care services to recipients of temporary assistance for needy families under the following conditions:

(a) Agreements shall be made for at least thirty thousand recipients statewide;

(b) Agreements in at least one county shall include enrollment of all recipients of temporary assistance for needy families;

(c) To the extent that this provision is consistent with section 1903(m) of Title XIX of the federal social security act or federal demonstration waivers granted under section 1115(a) of Title XI of the federal social security act, recipients shall have a
choice of systems in which to enroll and shall have the right to terminate their enrollment in a system: PROVIDED, That the authority may limit recipient termination of enrollment without cause to the first month of a period of enrollment, which period shall not exceed twelve months: AND PROVIDED FURTHER, That the authority shall not restrict a recipient's right to terminate enrollment in a system for good cause as established by the authority by rule;

(d) To the extent that this provision is consistent with section 1903(m) of Title XIX of the federal social security act, participating managed health care systems shall not enroll a disproportionate number of medical assistance recipients within the total numbers of persons served by the managed health care systems, except as authorized by the authority under federal demonstration waivers granted under section 1115(a) of Title XI of the federal social security act;

(e)(i) In negotiating with managed health care systems the authority shall adopt a uniform procedure to enter into contractual arrangements, to be included in contracts issued or renewed on or after January 1, 2015, including:

(A) Standards regarding the quality of services to be provided;

(B) The financial integrity of the responding system;

(C) Provider reimbursement methods that incentivize chronic care management within health homes, including comprehensive medication management services for patients with multiple chronic conditions consistent with the findings and goals established in RCW 74.09.5223;

(D) Provider reimbursement methods that reward health homes that, by using chronic care management, reduce emergency department and inpatient use;

(E) Promoting provider participation in the program of training and technical assistance regarding care of people with chronic conditions described in RCW 43.70.533, including allocation of funds to support provider participation in the training, unless the managed care system is an integrated health delivery system that has programs in place for chronic care management;

(F) Provider reimbursement methods within the medical billing processes that incentivize pharmacists or other qualified providers licensed in Washington state to provide comprehensive medication management services consistent with the findings and goals established in RCW 74.09.5223; (and)

(G) Evaluation and reporting on the impact of comprehensive medication management services on patient clinical outcomes and total health care costs, including reductions in emergency department utilization, hospitalization, and drug costs; and

(ii) Established consistent processes to incentivize integration of behavioral health services in the primary care setting, promoting care that is integrated, collaborative, colocated, and preventive.

(ii)(A) Health home services contracted for under this subsection may be prioritized to enrollees with complex, high cost, or multiple chronic conditions.

(B) Contracts that include the items in (e)(i)(C) through (G) of this subsection must not exceed the rates that would be paid in the absence of these provisions;

(f) The authority shall seek waivers from federal requirements as necessary to implement this chapter;

(g) The authority shall, wherever possible, enter into prepaid capitation contracts that include inpatient care. However, if this is not possible or feasible, the authority may enter into prepaid capitation contracts that do not include inpatient care;

(h) The authority shall define those circumstances under which a managed health care system is responsible for out-of-plan services and assure that recipients shall not be charged for such services;

(i) Nothing in this section prevents the authority from entering into similar agreements for other groups of people eligible to receive services under this chapter; and

(j) The authority must consult with the federal center for medicare and medicaid innovation and seek funding opportunities to support health homes.

(3) The authority shall ensure that publicly supported community health centers and providers in rural areas, who show serious intent and apparent capability to participate as managed health care systems are seriously considered as contractors. The authority shall coordinate its managed care activities with activities under chapter 70.47 RCW.

(4) The authority shall work jointly with the state of Oregon and other states in this geographical region in order to develop recommendations to be presented to the appropriate federal agencies and the United States congress for improving health care of the poor, while controlling related costs.

(5) The legislature finds that competition in the managed health care marketplace is enhanced, in the long term, by the existence of a large number of managed health care system options for medicaid clients. In a managed care delivery system, whose goal is to focus on prevention, primary care, and improved enrollee health status, continuity in care relationships is of substantial importance, and disruption to clients and health care providers should be minimized. To help ensure these goals are met, the following principles shall guide the authority in its healthy options managed health care purchasing efforts:

(a) All managed health care systems should have an opportunity to contract with the authority to the extent that minimum contracting requirements defined by the authority are met, at payment rates that enable the authority to operate as far below appropriated spending levels as possible, consistent with the principles established in this section.

(b) Managed health care systems should compete for the award of contracts and assignment of medicaid beneficiaries who do not voluntarily select a contracting system, based upon:

(i) Demonstrated commitment to or experience in serving low-income populations;

(ii) Quality of services provided to enrollees;

(iii) Accessibility, including appropriate utilization, of services offered to enrollees;

(iv) Demonstrated capability to perform contracted services, including ability to supply an adequate provider network;

(v) Payment rates; and

(vi) The ability to meet other specifically defined contract requirements established by the authority, including consideration of past and current performance and participation in other state or federal health programs as a contractor.

(c) Consideration should be given to using multiple year contracting periods.

(d) Quality, accessibility, and demonstrated commitment to serving low-income populations shall be given significant weight in the contracting, evaluation, and assignment process.

(e) All contractors that are regulated health carriers must meet state minimum net worth requirements as defined in applicable state laws. The authority shall adopt rules establishing the minimum net worth requirements for contractors that are not regulated health carriers. This subsection does not limit the authority of the Washington state health care authority to take action under a contract upon finding that a contractor's financial status seriously jeopardizes the contractor's ability to meet its contract obligations.

(f) Procedures for resolution of disputes between the authority and contract bidders or the authority and contracting
carriers related to the award of, or failure to award, a managed care contract must be clearly set out in the procurement document.

(6) The authority may apply the principles set forth in subsection (5) of this section to its managed health care purchasing efforts on behalf of clients receiving supplemental security income benefits to the extent appropriate.

(7) By April 1, 2016, any contract with a managed health care system to provide services to medical assistance enrollees shall require that managed health care systems offer contracts to behavioral health and recovery organizations, mental health providers, or chemical dependency treatment providers to provide access to primary care services integrated into behavioral health clinical settings, for individuals with behavioral health and medical comorbidities.

(8) Managed health care system contracts effective on or after April 1, 2016, shall serve geographic areas that correspond to the regional service areas established in section 2 of this act.

(9) A managed health care system shall pay a nonparticipating provider that provides a service covered under this chapter to the system's enrollee no more than the lowest amount paid for that service under the managed health care system's contracts with similar providers in the state.

For services covered under this chapter to medical assistance or medical care services enrollees and provided on or after August 24, 2011, nonparticipating providers must accept as payment in full the amount paid by the managed health care system under subsection (7) of this section in addition to any deductible, coinsurance, or copayment that is due from the enrollee for the service provided. An enrollee is not liable to any nonparticipating provider for covered services, except for amounts due for any deductible, coinsurance, or copayment under the terms and conditions set forth in the managed health care system contract to provide services under this section.

Pursuant to federal managed care access standards, 42 C.F.R. Sec. 438, managed health care systems must maintain a network of appropriate providers that is supported by written agreements sufficient to provide adequate access to all services covered under the contract with the authority, including hospital-based physician services. The authority will monitor and periodically report on the proportion of services provided by contracted providers and nonparticipating providers, by county, for each managed health care system to ensure that managed health care systems are meeting network adequacy requirements. No later than January 1st of each year, the authority will review and report its findings to the appropriate policy and fiscal committees of the legislature for the preceding state fiscal year.

Payments under RCW 74.60.130 are exempt from this section.

Subsections ((24)) (9) through ((29)) (11) of this section expire July 1, 2016.

certificate of need under this chapter, provided the facility has been
in continuous operation and has not been purchased or leased. Any
conversion to the original licensed bed capacity, or to any portion
thereof, shall comply with the same life and safety code
requirements as existed at the time the nursing home voluntarily

subsection, is limited to those projects that are expected to equal or
exceed the expenditure minimum amount, as determined under this
chapter.

(c) Conversion of beds back under this subsection must
be completed no later than four years after the effective date of the
license reduction. However, for good cause shown, the four-year
period for conversion may be extended by the department of health
for one additional four-year period.

(d) Nursing home beds that have been voluntarily
reduced under this section shall be counted as available nursing
home beds for the purpose of evaluating need under RCW
70.38.115(2)(a) and (k) so long as the facility retains the ability to
convert them back to nursing home use under the terms of this
section.

Any contract for such a purchase must comply with all federal medicaid and state law requirements related to managed health care contracting.

Sec. 99. RCW 71.24.015 and 2005 c 503 s 1 are each amended to read as follows:

It is the intent of the legislature to establish a community mental health program which shall help people experiencing mental illness to retain a respected and productive position in the community. This will be accomplished through programs that focus on resilience and recovery, and practices that are evidence-based, research-based, consensus-based, or, where these do not exist, promising or emerging best practices, which provide for:

(1) Access to mental health services for adults (of the state who are acutely mentally ill, chronically mentally ill)) with acute mental illness, chronic mental illness, or who are seriously disturbed and children ((of the state who are acutely mentally ill)) with acute mental illness, or who are severely emotionally disturbed, or seriously disturbed, which services recognize the special needs of underserved populations, including minorities, children, the elderly, (disabled) individuals with disabilities, and low-income persons. Access to mental health services shall not be limited by a person's history of confinement in a state, federal, or local correctional facility. It is also the purpose of this chapter to promote the early identification of ((mentally ill)) children with mental illness and to ensure that they receive the mental health care and treatment which is appropriate to their developmental level. This care should improve home, school, and community functioning, maintain children in a safe and nurturing home environment, and should enable treatment decisions to be made in response to clinical needs in accordance with sound professional judgment while also recognizing parents' rights to participate in treatment decisions for their children;
(2) The involvement of persons with mental illness, their family members, and advocates in designing and implementing mental health services that reduce unnecessary hospitalization and incarceration and promote the recovery and employment of persons with mental illness. To improve the quality of services available and promote the rehabilitation, recovery, and reintegration of persons with mental illness, consumer and advocate participation in mental health services is an integral part of the community mental health system and shall be supported;

(3) Accountability of efficient and effective services through state-of-the-art outcome and performance measures and statewide standards for monitoring client and system outcomes, performance, and reporting of client and system outcome information. These processes shall be designed so as to maximize the use of available resources for direct care of people with a mental illness and to assure uniform data collection across the state;

(4) Minimum service delivery standards;

(5) Priorities for the use of available resources for the care of (mentally ill) individuals with mental illness consistent with the priorities defined in the statute;

(6) Coordination of services within the department, including those divisions within the department that provide services to children, between the department and the office of the superintendent of public instruction, and among state mental hospitals, county authorities, (regional support networks) behavioral health and recovery organizations, community mental health services, and other support services, which shall to the maximum extent feasible also include the families of (mentally ill) individuals with mental illness, and other service providers; and

(7) Coordination of services aimed at reducing duplication in service delivery and promoting complementary services among all entities that provide mental health services to adults and children.

It is the policy of the state to encourage the provision of a full range of treatment and rehabilitation services in the state for mental disorders including services operated by consumers and advocates. The legislature intends to encourage the development of regional mental health services with adequate local flexibility to assure eligible people in need of care access to the least-restrictive treatment alternative appropriate to their needs, and the availability of treatment components to assure continuity of care. To this end, counties ((are encouraged to)) must enter into joint operating agreements with other counties to form regional systems of care that are consistent with the regional service areas established under section 2 of this act. Regional systems of care, whether operated by a county, group of counties, or another entity shall integrate planning, administration, and service delivery duties under chapters 71.05 and 71.24 RCW to consolidate administration, reduce administrative layering, and reduce administrative costs. The legislature hereby finds and declares that sound fiscal management requires vigilance to ensure that funds appropriated by the legislature for the provision of needed community mental health programs and services are ultimately expended solely for the purpose for which they were appropriated, and not for any other purpose.

It is further the intent of the legislature to integrate the provision of services to provide continuity of care through all phases of treatment. To this end, the legislature intends to promote active engagement with (mentally ill) persons with mental illness and collaboration between families and service providers.

The program shall be evaluated and managed through a limited number of outcome and performance measures (designed to hold each regional support network accountable for program success), as provided in RCW 43.20A.895, 70.320.020, and 71.36.025.

(2) The legislature intends to address the needs of people with mental disorders with a targeted, coordinated, and comprehensive set of evidence-based practices that are effective in serving individuals in their community and will reduce the need for placements in state mental hospitals. The legislature further intends to explicitly hold (regional support networks) behavioral health and recovery organizations accountable for serving people with mental disorders within the boundaries of their (geographic boundaries) regional service area and for not exceeding their allocation of state hospital beds. (Within funds appropriated by the legislature for this purpose, regional support networks shall develop the means to serve the needs of people with mental disorders within their geographic boundaries. Elements of the program may include:

(a) Crisis triage;

(b) Evaluation and treatment and community hospital beds;

(c) Residential beds;

(d) Programs for community treatment teams; and

Regional support networks are encouraged to maximize the use of evidence-based practices and alternative resources with the goal of substantially reducing and potentially eliminating the use of institutions for mental diseases.)

NEW SECTION. Sec. 102. A new section is added to chapter 71.24 RCW to read as follows:

Behavioral health and recovery organizations are encouraged to maximize the use of evidence-based practices and alternative resources with the goal of substantially reducing and potentially eliminating the use of institutions for mental diseases.

(2) To the extent that funds are specifically appropriated for this purpose or that nonstate funds are available, a children's mental health evidence-based practice institute shall be established at the University of Washington division of public behavioral health and justice policy. The institute shall closely collaborate...
with entities currently engaged in evaluating and promoting the use of evidence-based, research-based, promising, or consensus-based practices in children's mental health treatment, including but not limited to the University of Washington department of psychiatry and behavioral sciences, children's hospital and regional medical center, the University of Washington school of nursing, the University of Washington school of social work, and the Washington state institute for public policy. The institute shall:

(a) Improve the implementation of evidence-based and research-based practices by providing sustained and effective training and consultation to licensed children's mental health providers and child-serving agencies who are implementing evidence-based or researched-based practices for treatment of children's emotional or behavioral disorders, or who are interested in adapting these practices to better serve ethnically or culturally diverse children. Efforts under this subsection should include a focus on appropriate oversight of implementation of evidence-based practices to ensure fidelity to these practices and thereby achieve positive outcomes;

(3) To the extent that funds are specifically appropriated for this purpose, the department in collaboration with the evidence-based practice institute shall implement a pilot program to support primary care providers in the assessment and provision of appropriate diagnosis and treatment of children with mental and behavioral health disorders and track outcomes of this program. The program shall be designed to promote more accurate diagnoses and treatment through timely case consultation between primary care providers and child psychiatric specialists, and focused educational learning collaboratives with primary care providers.

Sec. 118. RCW 71.24.160 and 2011 c 343 s 6 are each amended to read as follows:

The ((regional support network)) behavioral health and recovery organizations shall make satisfactory showing to the secretary that state funds shall in no case be used to replace local funds from any source being used to finance mental health services prior to January 1, 1990. Maintenance of effort funds devoted to judicial services related to involuntary commitment reimbursed under RCW 71.05.730 must be expended for other purposes that further treatment for mental health and chemical dependency disorders.

Sec. 119. RCW 71.24.250 and 2001 c 323 s 16 are each amended to read as follows:

The ((regional support network)) behavioral health and recovery organization may accept and expend gifts and grants received from private, county, state, and federal sources.

Sec. 120. RCW 71.24.300 and 2008 c 261 s 4 are each amended to read as follows:

(1) Upon the request of a tribal authority or authorities within a ((regional support network)) behavioral health and recovery organization the joint operating agreement or the county authority shall allow for the inclusion of the tribal authority to be represented as a party to the ((regional support network)) behavioral health and recovery organization.

(2) The roles and responsibilities of the county and tribal authorities shall be determined by the terms of that agreement including a determination of membership on the governing board and advisory committees, the number of tribal representatives to be party to the agreement, and the provisions of law and shall assure the provision of culturally competent services to the tribes served.

(3) The state mental health authority may not determine the roles and responsibilities of county authorities as to each other under ((regional support networks)) behavioral health and recovery organizations by rule, except to assure that all duties required of ((regional support networks)) behavioral health and recovery organizations are assigned and that counties and the ((regional support network)) behavioral health and recovery organization do not duplicate functions and that a single authority has final responsibility for all available resources and performance under the ((regional support network)) behavioral health and recovery organization's contract with the secretary.

(4) If a ((regional support network)) behavioral health and recovery organization is a private entity, the department shall allow for the inclusion of the tribal authority to be represented as a party to the ((regional support network)) behavioral health and recovery organization.

(5) The roles and responsibilities of the private entity and the tribal authorities shall be determined by the department, through negotiation with the tribal authority.

(6) ((Regional support networks)) Behavioral health and recovery organizations shall submit an overall six-year operating and capital plan, timeline, and budget and submit progress reports and an updated two-year plan biennially thereafter, to assume within available resources all of the following duties:

(a) Administer and provide for the availability of all resource management services, residential services, and community support services.

(b) Administer and provide for the availability of all investigation, transportation, court-related, and other services provided by the state or counties pursuant to chapter 71.05 RCW.

(c) Provide within the boundaries of each ((regional support network)) behavioral health and recovery organization evaluation and treatment services for at least ninety percent of persons detained or committed for periods up to seventeen days according to chapter 71.05 RCW. ((Regional support networks)) Behavioral health and recovery organizations may contract to
purchase evaluation and treatment services from other ((regional support networks)) organizations if they are unable to provide for appropriate resources within their boundaries. Insofar as the original intent of serving persons in the community is maintained, the secretary is authorized to approve exceptions on a case-by-case basis to the requirement to provide evaluation and treatment services within the boundaries of each ((regional support network)) behavioral health and recovery organization. Such exceptions are limited to:

(i) Contracts with neighboring or contiguous regions; or
(ii) Individuals detained or committed for periods up to seventeen days at the state hospitals at the discretion of the secretary.

(d) Administer and provide for the availability of all other mental health services, which shall include patient counseling, day treatment, consultation, education services, employment services as defined in RCW 71.24.035, and mental health services to children.

(e) Establish standards and procedures for reviewing individual service plans and determining when that person may be discharged from resource management services.

(7) A ((regional support network)) behavioral health and recovery organization may request that any state-owned land, building, facility, or other capital asset which was ever purchased, deeded, given, or placed in trust for the care of the persons with mental illness and which is within the boundaries of a ((regional support network)) behavioral health and recovery organization be made available to support the operations of the ((regional support network)) behavioral health and recovery organization. State agencies managing such capital assets shall give first priority to requests for their use pursuant to this chapter.

(8) Each ((regional support network)) behavioral health and recovery organization shall appoint a mental health advisory board which shall review and provide comments on plans and policies developed under this chapter, provide local oversight regarding the activities of the ((regional support network)) behavioral health and recovery organization, and work with the ((regional support network)) behavioral health and recovery organization to resolve significant concerns regarding service delivery and outcomes. The department shall establish statewide procedures for the operation of regional advisory committees including mechanisms for advisory board feedback to the department regarding ((regional support network)) behavioral health and recovery organization performance. The composition of the board shall be broadly representative of the demographic character of the region and shall include, but not be limited to, representatives of consumers and families, law enforcement, and where the county is not the ((regional support network)) behavioral health and recovery organization, county elected officials. Composition and length of terms of board members may differ between ((regional support networks)) behavioral health and recovery organizations but shall be included in each ((regional support network)) behavioral health and recovery organization’s contract and approved by the secretary.

(9) ((Reginal support networks)) Behavioral health and recovery organizations shall assume all duties specified in their plans and joint operating agreements through biennial contractual agreements with the secretary.

(10) ((Reginal support networks)) Behavioral health and recovery organizations may receive technical assistance from the housing trust fund and may identify and submit projects for housing and housing support services to the housing trust fund established under chapter 43.185 RCW. Projects identified or submitted under this subsection must be fully integrated with the ((regional support network)) behavioral health and recovery organization six-year operating and capital plan, timeline, and budget required by subsection (6) of this section.

Sec. 121. RCW 71.24.310 and 2013 2nd sp.s.c 4 s 994 are each amended to read as follows:

The legislature finds that administration of chapter 71.05 RCW and this chapter can be most efficiently and effectively implemented as part of the ((regional support network)) behavioral health and recovery organization defined in RCW 71.24.025. For this reason, the legislature intends that the department and the ((regional support networks)) behavioral health and recovery organizations shall work together to implement chapter 71.05 RCW as follows:

(1) By June 1, 2006, ((regional support networks)) behavioral health and recovery organizations shall recommend to the department the number of state hospital beds that should be allocated for use by each ((regional support network)) behavioral health and recovery organization. The statewide total allocation shall not exceed the number of state hospital beds offering long-term inpatient care, as defined in this chapter, for which funding is provided in the biennial appropriations act.

(2) If there is consensus among the ((regional support networks)) behavioral health and recovery organizations regarding the number of state hospital beds that should be allocated for use by each ((regional support network)) behavioral health and recovery organization, the department shall contract with each ((regional support network)) behavioral health and recovery organization accordingly.

(3) If there is not consensus among the ((regional support networks)) behavioral health and recovery organizations regarding the number of beds that should be allocated for use by each ((regional support network)) behavioral health and recovery organization, the department shall establish by emergency rule the number of state hospital beds that are available for use by each ((regional support network)) behavioral health and recovery organization. The emergency rule shall be effective September 1, 2006. The primary factor used in the allocation shall be the estimated number of adults with acute and chronic mental illness in each ((regional support network)) behavioral health and recovery organization area, based upon population-adjusted incidence and utilization.

(4) The allocation formula shall be updated at least every three years to reflect demographic changes, and new evidence regarding the incidence of acute and chronic mental illness and the need for long-term inpatient care. In the updates, the statewide total allocation shall include (a) all state hospital beds offering long-term inpatient care for which funding is provided in the biennial appropriations act; plus (b) the estimated equivalent number of beds or comparable diversion services contracted in accordance with subsection (5) of this section.

(5) The department is encouraged to enter performance-based contracts with ((regional support networks)) behavioral health and recovery organizations to provide some or all of the ((regional support network)) behavioral health and recovery organization’s allocated long-term inpatient treatment capacity in the community, rather than in the state hospital. The performance contracts shall specify the number of patient days of care available for use by the ((regional support network)) behavioral health and recovery organization in the state hospital.

(6) If a ((regional support network)) behavioral health and recovery organization uses more state hospital patient days of care than it has been allocated under subsection (3) or (4) of this section, or than it has contracted to use under subsection (5) of this section, whichever is less, it shall reimburse the department for that care, except during the period of July 1, 2012, through December 31, 2013, where reimbursements may be temporarily altered per section 204, chapter 4, Laws of 2013 2nd sp. sess. The reimbursement rate per day shall be the hospital’s total annual
budget for long-term inpatient care, divided by the total patient days of care assumed in development of that budget.

(7) One-half of any reimbursements received pursuant to subsection (6) of this section shall be used to support the cost of operating the state hospital and, during the 2007-2009 fiscal biennium, implementing new services that will enable a ((regional support network)) behavioral health and recovery organization to reduce its utilization of the state hospital. The department shall distribute the remaining half of such reimbursements among ((regional support networks)) behavioral health and recovery organizations that have used less than their allocated or contracted patient days of care at that hospital, proportional to the number of patient days of care not used.

Sec. 122. RCW 71.24.350 and 2013 c 23 s 189 are each amended to read as follows:

The department shall require each ((regional support network)) behavioral health and recovery organization to provide for a separately funded mental health ombuds office in each ((regional support network)) behavioral health and recovery organization that is independent of the ((regional support network)) behavioral health and recovery organization. The ombuds office shall maximize the use of consumer advocates.

Sec. 123. RCW 71.24.370 and 2006 c 333 s 103 are each amended to read as follows:

(1) Except for monetary damage claims which have been reduced to final judgment by a superior court, this section applies to all claims against the state, state agencies, state officials, or state employees that exist on or arise after March 29, 2006.

(2) Except as expressly provided in contracts entered into between the department and the ((regional support networks)) behavioral health and recovery organizations after March 29, 2006, the entities identified in subsection (3) of this section shall have no claim for declaratory relief, injunctive relief, judicial review under chapter 34.05 RCW, or civil liability against the state or state agencies for actions or inactions performed pursuant to the administration of this chapter with regard to the following: (a) The allocation or payment of federal or state funds; (b) the use or allocation of state hospital beds; or (c) financial responsibility for the provision of inpatient mental health care.

(3) This section applies to counties, ((regional support networks)) behavioral health and recovery organizations, and entities which contract to provide ((regional support network)) behavioral health and recovery organization services and their subcontractors, agents, or employees.

Sec. 124. RCW 71.24.455 and 1997 c 342 s 2 are each amended to read as follows:

(1) The secretary shall select and contract with a ((regional support network)) behavioral health and recovery organization or private provider to provide specialized access and services to ((mentally ill)) offenders with mental illness upon release from total confinement within the department of corrections who have been identified by the department of corrections and selected by the ((regional support network)) behavioral health and recovery organization or private provider as high-priority clients for services and who meet service program entrance criteria. The program shall enroll no more than twenty-five offenders at any one time, or a number of offenders that can be accommodated within the appropriated funding level, and shall seek to fill any vacancies that occur.

(2) Criteria shall include a determination by department of corrections staff that:

(b) The offender's previous crime or crimes have been determined by either the court or department of corrections staff to have been substantially influenced by the offender's mental illness;

(c) It is believed the offender will be less likely to commit further criminal acts if provided ongoing mental health care;

(d) The offender is unable or unlikely to obtain housing and/or treatment from other sources for any reason; and

(e) The offender has at least one year remaining before his or her sentence expires but is within six months of release to community housing and is currently housed within a work release facility or any department of corrections' division of prisons facility.

(3) The ((regional support network)) behavioral health and recovery organization or private provider shall provide specialized access and services to the selected offenders. The services shall be aimed at lowering the risk of recidivism. An oversight committee composed of a representative of the department, a representative of the selected ((regional support network)) behavioral health and recovery organization or private provider, and a representative of the department of corrections shall develop policies to guide the pilot program, provide dispute resolution including making determinations as to when entrance criteria or required services may be waived in individual cases, advise the department of corrections and the ((regional support network)) behavioral health and recovery organization or private provider on the selection of eligible offenders, and set minimum requirements for service contracts. The selected ((regional support network)) behavioral health and recovery organization or private provider shall implement the policies and service contracts. The following services shall be provided:

(a) Intensive case management to include a full range of intensive community support and treatment in client-to-staff ratios of not more than ten offenders per case manager including: (i) A minimum of weekly group and weekly individual counseling; (ii) home visits by the program manager at least two times per month; and (iii) counseling focused on relapse prevention and past, current, or future behavior of the offender.

(b) The case manager shall attempt to locate and procure housing appropriate to the living and clinical needs of the offender and as needed to maintain the psychiatric stability of the offender. The entire range of emergency, transitional, and permanent housing and involuntary hospitalization must be considered as available housing options. A housing subsidy may be provided to offenders to defray housing costs up to a maximum of six thousand six hundred dollars per offender per year and be administered by the case manager. Additional funding sources may be used to offset these costs when available.

(c) The case manager shall collaborate with the assigned prison, work release, or community corrections staff during release planning, prior to discharge, and in ongoing supervision of the offender while under the authority of the department of corrections.

(d) Medications including the full range of psychotropic medications including atypical antipsychotic medications may be required as a condition of the program. Medication prescription, medication monitoring, and counseling to support offender understanding, acceptance, and compliance with prescribed medication regimens must be included.

(e) A systematic effort to engage offenders to continuously involve themselves in current and long-term treatment and appropriate habilitative activities shall be made.

(f) Classes appropriate to the clinical and living needs of the offender and appropriate to his or her level of understanding.

(g) The case manager shall assist the offender in the application and qualification for entitlement funding, including medicaid, state assistance, and other available government and private assistance at any point that the offender is qualified and resources are available.
(h) The offender shall be provided access to daily activities such as drop-in centers, prevocational and vocational training and jobs, and volunteer activities.

(4) Once an offender has been selected into the pilot program, the offender shall remain in the program until the end of his or her sentence or unless the offender is released from the pilot program earlier by the department of corrections.

(5) Specialized training in the management and supervision of high-crime risk (mentally ill) offenders with mental illness shall be provided to all participating mental health providers by the department and the department of corrections prior to their participation in the program and as requested thereafter.

(6) The pilot program provided for in this section must be providing services by July 1, 1998.

Sec. 125. RCW 71.24.470 and 2009 c 319 s 1 are each amended to read as follows:

(1) The secretary shall contract, to the extent that funds are appropriated for this purpose, for case management services and such other services as the secretary deems necessary to assist offenders identified under RCW 72.09.370 for participation in the offender reentry community safety program. The contracts may be with (regional support networks) behavioral health and recovery organizations or any other qualified and appropriate entities.

(2) The case manager has the authority to assist these offenders in obtaining the services, as set forth in the plan created under RCW 72.09.370(2), for up to five years. The services may include coordination of mental health services, assistance with unfunded medical expenses, obtaining chemical dependency treatment, housing, employment services, educational or vocational training, independent living skills, parenting education, anger management services, and such other services as the case manager deems necessary.

(3) The legislature intends that funds appropriated for the purposes of RCW 72.09.370, 71.05.145, and 71.05.212, and this section and distributed to the (regional support networks) behavioral health and recovery organizations are to supplement and not to supplant general funding. Funds appropriated to implement RCW 72.09.370, 71.05.145, and 71.05.212, and this section are not to be considered available resources as defined in RCW 71.24.025 and are not subject to the priorities, terms, or conditions in the appropriations act established pursuant to RCW 71.24.035.

(4) The offender reentry community safety program was formerly known as the community integration assistance program.

Sec. 126. RCW 71.24.480 and 2009 c 319 s 2 are each amended to read as follows:

(1) A licensed service provider or (regional support network) behavioral health and recovery organization, acting in the course of the provider's or (network) organization's duties under this chapter, is not liable for civil damages resulting from the injury or death of another caused by a participant in the offender reentry community safety program who is a client of the provider or (network) organization, unless the act or omission of the provider or (network) organization constitutes:

(a) Gross negligence;

(b) Willful or wanton misconduct; or

(c) A breach of the duty to warn of and protect from a client's threatened violent behavior if the client has communicated a serious threat of physical violence against a reasonably ascertainable victim or victims.

(2) In addition to any other requirements to report violations, the licensed service provider and (regional support network) behavioral health and recovery organization shall report an offender's expressions of intent to harm or other predatory behavior, regardless of whether there is an ascertainable victim, in progress reports and other established processes that enable courts and supervising entities to assess and address the progress and appropriateness of treatment.

(3) A licensed service provider's or (regional support network's) behavioral health and recovery organization's mere act of treating a participant in the offender reentry community safety program is not negligence. Nothing in this subsection alters the licensed service provider's or (regional support network's) behavioral health and recovery organization's normal duty of care with regard to the client.

(4) The limited liability provided by this section applies only to the conduct of licensed service providers and (regional support networks) behavioral health and recovery organizations and does not apply to conduct of the state.

(5) For purposes of this section, "participant in the offender reentry community safety program" means a person who has been identified under RCW 72.09.370 as an offender who: (a) Is reasonably believed to be dangerous to himself or herself or others; and (b) has a mental disorder.

Sec. 127. RCW 71.24.845 and 2013 c 230 s 1 are each amended to read as follows:

Sec. 128. RCW 71.24.055 and 2007 c 359 s 4 are each amended to read as follows:

As part of the system transformation initiative, the department of social and health services shall undertake the following activities related specifically to children's mental health services:

(1) The development of recommended revisions to the access to care standards for children. The recommended revisions shall reflect the policies and principles set out in RCW 71.36.005, 71.36.010, and 71.36.025, and recognize that early identification, intervention and prevention services, and brief intervention services may be provided outside of the (regional support network) behavioral health and recovery organization system. Revised access to care standards shall assess a child's need for mental health services based upon the child's diagnosis and its negative impact upon his or her persistent impaired functioning in family, school, or the community, and should not solely condition the receipt of services upon a determination that a child is engaged in high risk behavior or is in imminent need of hospitalization or out-of-home placement. Assessment and diagnosis for children under five years of age shall be determined using a nationally accepted assessment tool designed specifically for children of that age. The recommendations shall also address whether amendments to RCW 71.24.025 (26) and 27 and 28 and 71.24.035(5) are necessary to implement revised access to care standards;

(2) Development of a revised children's mental health benefit package. The department shall ensure that services included in the children's mental health benefit package reflect the policies and principles included in RCW 71.36.005 and 71.36.025, to the extent allowable under medicaid, Title XIX of the federal social security act. Strong consideration shall be given to developmentally appropriate evidence-based and research-based practices, family-based interventions, the use of natural and peer
supports, and community support services. This effort shall include a review of other states' efforts to fund family-centered children's mental health services through their Medicaid programs;

(3) Consistent with the timeline developed for the system transformation initiative, recommendations for revisions to the children's access to care standards and the children's mental health services benefits package shall be presented to the legislature by January 1, 2009.

Sec. 129. RCW 71.24.065 and 2007 c 359 s 10 are each amended to read as follows:

To the extent funds are specifically appropriated for this purpose, the department of social and health services shall contract for implementation of a wraparound model of integrated children's mental health services delivery in up to four ((regional support network)) behavioral health and recovery organization regions in Washington state in which wraparound programs are not currently operating, and in up to two ((regional support network)) behavioral health and recovery organization regions in which wraparound programs are currently operating. Contracts in regions with existing wraparound programs shall be for the purpose of expanding the number of children served.

(1) Funding provided may be expended for: Costs associated with a request for proposal and contracting process; administrative costs associated with successful bidders' operation of the wraparound model; the evaluation under subsection (5) of this section; and funding for services needed by children enrolled in wraparound model sites that are not otherwise covered under existing state programs. The services provided through the wraparound model sites shall include, but not be limited to, services covered under the Medicaid program. The department shall maximize the use of Medicaid and other existing state-funded programs as a funding source. However, state funds provided may be used to develop a broader service package to meet needs identified in a child's care plan. Amounts provided shall supplement, and not supplant, state, local, or other funding for services that a child being served through a wraparound site would otherwise be eligible to receive.

(2) The wraparound model sites shall serve children with serious emotional or behavioral disturbances who are at high risk of residential or correctional placement or psychiatric hospitalization, and who have been referred for services from the department, a county juvenile court, a tribal court, a school, or a licensed mental health provider or agency.

(3) Through a request for proposal process, the department shall contract, with ((regional support networks)) behavioral health and recovery organizations, alone or in partnership with either educational service districts or entities licensed to provide mental health services to children with serious emotional or behavioral disturbances, to operate the wraparound model sites. The contractor shall provide care coordination and the delivery of services and other supports to families using a strength-based, highly individualized wraparound process. The request for proposal shall require that:

(a) The ((regional support network)) behavioral health and recovery organization agrees to use its Medicaid revenues to fund services included in the existing ((regional support network's)) behavioral health and recovery organization's benefit package that a Medicaid-eligible child participating in the wraparound model site is determined to need;

(b) The contractor provides evidence of commitments from at least the following entities to participate in wraparound care plan development and service provision when appropriate: Community mental health agencies, schools, the department of social and health services children's administration, juvenile courts, the department of social and health services juvenile rehabilitation administration, and managed health care systems contracting with the department under RCW 74.09.522; and

(c) The contractor will operate the wraparound model site in a manner that maintains fidelity to the wraparound process as defined in RCW 71.36.010.

(4) Contracts for operation of the wraparound model sites shall be executed on or before April 1, 2008, with enrollment and service delivery beginning on or before July 1, 2008.

(5) The evidence-based practice institute established in RCW 71.24.061 shall evaluate the wraparound model sites, measuring outcomes for children served. Outcomes measured shall include, but are not limited to: Decreased out-of-home placement, including residential, group, and foster care, and increased stability of such placements, school attendance, school performance, recidivism, emergency room utilization, involvement with the juvenile justice system, decreased use of psychotropic medication, and decreased hospitalization.

(6) The evidence-based practice institute shall provide a report and recommendations to the appropriate committees of the legislature by December 1, 2010.

Sec. 130. RCW 71.24.240 and 2005 c 503 s 10 are each amended to read as follows:

In order to establish eligibility for funding under this chapter, any ((regional support network)) behavioral health and recovery organization seeking to obtain federal funds for the support of any aspect of a community mental health program as defined in this chapter shall submit program plans to the secretary for prior review and approval before such plans are submitted to any federal agency.

Sec. 131. RCW 71.24.320 and 2008 c 261 s 5 are each amended to read as follows:

(1) If an existing ((regional support network)) behavioral health and recovery organization chooses not to respond to a request for ((qualifications)) a detailed plan, or is unable to substantially meet the requirements of a request for ((qualifications)) a detailed plan, or notifies the department of social and health services it will no longer serve as a ((regional support network)) behavioral health and recovery organization, the department shall utilize a procurement process in which other entities recognized by the secretary may bid to serve as the ((regional support network)) behavioral health and recovery organization.

(a) The request for proposal shall include a scoring factor for proposals that include additional financial resources beyond that provided by state appropriation or allocation.

(b) The department shall provide detailed briefings to all bidders in accordance with department and state procurement policies.

(c) The request for proposal shall also include a scoring factor for proposals submitted by nonprofit entities that include a component to maximize the utilization of state provided resources and the leverage of other funds for the support of mental health services to persons with mental illness.

(2) A ((regional support network)) behavioral health and recovery organization that voluntarily terminates, refuses to renew, or refuses to sign a mandatory amendment to its contract to act as a ((regional support network)) behavioral health and recovery organization is prohibited from responding to a procurement under this section or serving as a ((regional support network)) behavioral health and recovery organization for five years from the date that the department signs a contract with the entity that will serve as the ((regional support network)) behavioral health and recovery organization.

Sec. 132. RCW 71.24.330 and 2013 c 320 s 9 are each amended to read as follows:
(1a) Contracts between a ((regional support network)) behavioral health and recovery organization and the department shall include mechanisms for monitoring performance under the contract and remedies for failure to substantially comply with the requirements of the contract including, but not limited to, financial penalties, termination of the contract, and repurchase of the contract.

(b) The department shall incorporate the criteria to measure the performance of service coordination organizations into contracts with ((regional support networks)) behavioral health and recovery organizations as provided in chapter 70.320 RCW.

(2) The ((regional support network)) behavioral health and recovery organization procurement processes shall encourage the preservation of infrastructure previously purchased by the community mental health service delivery system, the maintenance of linkages between other services and delivery systems, and maximization of the use of available funds for services versus profits. However, a ((regional support network)) behavioral health and recovery organization selected through the procurement process is not required to contract for services with any county-owned or operated facility. The ((regional support network)) behavioral health and recovery organization procurement process shall provide that public funds appropriated by the legislature shall not be used to promote or deter, encourage, or discourage employees from exercising their rights under Title 41, chapter 7, subchapter II, United States Code or chapter 41.56 RCW.

(3) In addition to the requirements of RCW 71.24.035, contracts shall:
(a) Define administrative costs and ensure that the ((regional support network)) behavioral health and recovery organization does not exceed an administrative cost of ten percent of available funds;
(b) Require effective collaboration with law enforcement, criminal justice agencies, and the chemical dependency treatment system;
(c) Require substantial implementation of department adopted integrated screening and assessment process and matrix of best practices;
(d) Maintain the decision-making independence of designated mental health professionals;
(e) Except at the discretion of the secretary or as specified in the biennial budget, require ((regional support networks)) behavioral health and recovery organizations to pay the state for the costs associated with individuals who are being served on the grounds of the state hospitals and who are not receiving long-term inpatient care as defined in RCW 71.24.025;
(f) Include a negotiated alternative dispute resolution clause; and

(g) Include a provision requiring either party to provide one hundred eighty days’ notice of any issue that may cause either party to voluntarily terminate, refuse to renew, or refuse to sign a mandatory amendment to the contract to act as a ((regional support network)) behavioral health and recovery organization. If either party decides to voluntarily terminate, refuse to renew, or refuse to sign a mandatory amendment to the contract to serve as a ((regional support network)) behavioral health and recovery organization they shall provide ninety days’ advance notice in writing to the other party.

Sec. 133. RCW 71.24.360 and 2012 c 91 s 1 are each amended to read as follows:
(1) The department may establish new ((regional support network)) behavioral health and recovery organization boundaries in any part of the state:
(a) Where more than one ((network)) organization chooses not to respond to, or is unable to substantially meet the requirements of, the request for ((qualifications)) a detailed plan under RCW 71.24.320;
(b) Where a ((regional support network)) behavioral health and recovery organization is subject to reprocurement under RCW 71.24.330; or
(c) Where two or more ((regional support networks)) behavioral health and recovery organizations propose to reconfigure themselves to achieve consolidation, in which case the procurement process described in RCW 71.24.320 and 71.24.330(2) does not apply.
(2) The department may establish no fewer than six and no more than fourteen ((regional support networks)) behavioral health and recovery organizations under this chapter. No entity shall be responsible for more than three ((regional support networks)) behavioral health and recovery organizations.

Sec. 134. RCW 71.24.405 and 2001 c 323 s 19 are each amended to read as follows:

(2) The systematic and incremental development of a single system of accountability for all federal, state, and local funds provided to the community mental health service delivery system. Systematic efforts should be made to include federal and local funds into the single system of accountability;
(3) The elimination of process regulations and related contract and reporting requirements. In place of the regulations and requirements, a set of outcomes for mental health adult and children clients according to chapter 71.24 RCW must be used to measure the performance of mental health service providers and ((regional support networks)) behavioral health and recovery organizations. Such outcomes shall focus on stabilizing out-of-home and hospital care, increasing stable community living, increasing age-appropriate activities, achieving family and consumer satisfaction with services, and system efficiencies;
(4) Evaluation of the feasibility of contractual agreements between the department of social and health services and ((regional support networks)) behavioral health and recovery organizations and mental health service providers that link financial incentives to the success or failure of mental health service providers and ((regional support networks)) behavioral health and recovery organizations to meet outcomes established for mental health service clients;

(b) The application contains such information respecting the organization, combination, or facility and the proposed offering or obligation by a nursing home as the department may require to determine if the organization or combination meets the requirements of subsection (1) of this section or the facility meets or will meet such requirements; and

(c) The department approves such application. The department shall approve or disapprove an application for exemption within thirty days of receipt of a completed application. In the case of a proposed health care facility (or portion thereof) which has not begun to provide tertiary health services on the date an application is submitted under this subsection with respect to such facility (or portion), the facility (or portion) shall meet the applicable requirements of subsection (1) of this section when the facility first provides such services. The department shall approve an application submitted under this subsection if it determines that the applicable requirements of subsection (1) of this section are met.

(3) A health care facility (or any part thereof) with respect to which an exemption was granted under subsection (1) of this section may not be sold or leased and a controlling interest in such facility or in a lease of such facility may not be acquired and a health care facility described in (1)(c) which was granted an exemption under subsection (1) of this section may not be used by any person other than the lessee described in (1)(c) unless:

(a) The department issues a certificate of need approving the sale, lease, acquisition, or use; or

(b) The department determines, upon application, that (i) the entity to which the facility is proposed to be sold or leased, which intends to acquire the controlling interest, or which intends to use the facility is a health maintenance organization or a combination of health maintenance organizations which meets the requirements of (1)(a)(i), and (ii) with respect to such facility, meets the requirements of (1)(a)(ii) or (iii) or the requirements of (1)(b)(i) and (ii).

(4) In the case of a health maintenance organization, an ambulatory care facility, or a health care facility, which ambulatory or health care facility is controlled, directly or indirectly, by a health maintenance organization or a combination of health maintenance organizations, the department may under the program apply its certificate of need requirements to the offering of inpatient tertiary health services to the extent that such offering is not exempt under the provisions of this section or RCW 70.38.105(7).

(5) (a) The department shall not require a certificate of need for the construction, development, or other establishment of a nursing home, or the addition of beds to an existing nursing home, that is owned and operated by a continuing care retirement community that:

(i) Offers services only to contractual members;

(ii) Provides its members a contractually guaranteed range of services from independent living through skilled nursing, including some assistance with daily living activities;

(iii) Contractually assumes responsibility for the cost of services exceeding the member’s financial responsibility under the contract, so that no third party, with the exception of insurance purchased by the retirement community or its members, but including the medicaid program, is liable for costs of care even if the member depletes his or her personal resources;

(iv) Has offered continuing care contracts and operated a nursing home continuously since January 1, 1988, or has obtained a certificate of need to establish a nursing home;

(v) Maintains a binding agreement with the state assuring that financial liability for services to members, including nursing home services, will not fall upon the state;

(vi) Does not operate, and has not undertaken a project that would result in a number of nursing home beds in excess of one for every four living units operated by the continuing care retirement community, exclusive of nursing home beds; and

(vii) Has obtained a professional review of pricing and long-term solvency within the prior five years which was fully disclosed to members.

(b) A continuing care retirement community shall not be exempt under this subsection from obtaining a certificate of need unless:

(i) It has submitted an application for exemption at least thirty days prior to commencing construction of, is submitting an application for the licensure of, or is commencing operation of a nursing home, whichever comes first; and

(ii) The application documents to the department that the continuing care retirement community qualifies for exemption.

(c) The sale, lease, acquisition, or use of part or all of a continuing care retirement community nursing home that qualifies for exemption under this subsection shall require prior certificate of need approval to qualify for licensure as a nursing home unless the department determines such sale, lease, acquisition, or use is by a continuing care retirement community that meets the conditions of (a) of this subsection.

(6) A rural hospital, as defined by the department, reducing the number of licensed beds to become a rural primary care hospital under the provisions of Part A Title XVIII of the Social Security Act Section 1820, 42 U.S.C., 1395c et seq. may, within three years of the reduction of beds licensed under chapter 70.41 RCW, increase the number of licensed beds to no more than the previously licensed number without being subject to the provisions of this chapter.

(7) A rural health care facility licensed under RCW 70.175.100 formerly licensed as a hospital under chapter 70.41 RCW may, within three years of the effective date of the rural health care facility license, apply to the department for a hospital license and not be subject to the requirements of RCW 70.38.105(4)(a) as the construction, development, or other establishment of a new hospital, provided there is no increase in the number of beds previously licensed under chapter 70.41 RCW and there is no redistribution in the number of beds used for acute care or long-term care, the rural health care facility has been in continuous operation, and the rural health care facility has not been purchased or leased.

(8)(a) A nursing home that voluntarily reduces the number of its licensed beds to provide assisted living, licensed assisted living facility care, adult day care, adult day health, respite care, hospice, outpatient therapy services, congregate meals, home health, or senior wellness clinic, or to reduce to one or two the number of beds per room or to otherwise enhance the quality of life for residents in the nursing home, may convert the original facility or portion of the facility back, and thereby increase the...
number of nursing home beds to no more than the previously licensed number of nursing home beds without obtaining a certificate of need under this chapter, provided the facility has been in continuous operation and has not been purchased or leased. Any conversion to the original licensed bed capacity, or to any portion thereof, shall comply with the same life and safety code requirements as existed at the time the nursing home voluntarily reduced its licensed beds; unless waivers from such requirements were issued, in which case the converted beds shall reflect the conditions or standards that then existed pursuant to the approved waivers.

(b) To convert beds back to nursing home beds under this subsection, the nursing home must:

(i) Give notice of its intent to preserve conversion options to the department of health no later than thirty days after the effective date of the license reduction; and

(ii) Give notice to the department of health and to the department of social and health services of the intent to convert beds back. If construction is required for the conversion of beds back, the notice of intent to convert beds back must be given, at a minimum, one year prior to the effective date of license modification reflecting the restored beds; otherwise, the notice must be given a minimum of ninety days prior to the effective date of license modification reflecting the restored beds. Prior to any license modification to convert beds back to nursing home beds under this section, the licensee must demonstrate that the nursing home meets the certificate of need exemption requirements of this section.

The term "construction," as used in (b)(ii) of this subsection, is limited to those projects that are expected to equal or exceed the expenditure minimum amount, as determined under this chapter.

(c) Conversion of beds back under this subsection must be completed no later than four years after the effective date of the license reduction. However, for good cause shown, the four-year period for conversion may be extended by the department of health for one additional four-year period.

(d) Nursing home beds that have been voluntarily reduced under this section shall be counted as available nursing home beds for the purpose of evaluating need under RCW 70.38.115(2) (a) and (k) so long as the facility retains the ability to convert them back to nursing home use under the terms of this section.

(e) When a building owner has secured an interest in the nursing home beds, which are intended to be voluntarily reduced by the licensee under (a) of this subsection, the applicant shall provide the department with a written statement indicating the building owner's approval of the bed reduction.

(9)(a) The department shall not require a certificate of need for a hospice agency if:

(i) The hospice agency is designed to serve the unique religious or cultural needs of a religious group or an ethnic minority and commits to furnishing hospice services in a manner specifically aimed at meeting the unique religious or cultural needs of the religious group or ethnic minority;

(ii) The hospice agency is operated by an organization that:

(A) Operates a facility, or group of facilities, that offers a comprehensive continuum of long-term care services, including, at a minimum, a licensed, medicare-certified nursing home, assisted living, independent living, day health, and various community-based support services, designed to meet the unique social, cultural, and religious needs of a specific cultural and ethnic minority group;

(B) Has operated the facility or group of facilities for at least ten continuous years prior to the establishment of the hospice agency;

(iii) The hospice agency commits to coordinating with existing hospice programs in its community when appropriate;

(iv) The hospice agency has a census of no more than forty patients;

(v) The hospice agency commits to obtaining and maintaining medicare certification;

(vi) The hospice agency only serves patients located in the same county as the majority of the long-term care services offered by the organization that operates the agency; and

(vii) The hospice agency is not sold or transferred to another agency.

(b) The department shall include the patient census for an agency exempted under this subsection (9) in its calculations for future certificate of need applications.

(10) To alleviate the need to board psychiatric patients in emergency departments, for fiscal year 2015 the department shall suspend the certificate of need requirement for a hospital licensed under chapter 70.41 RCW that changes the use of licensed beds to increase the number of beds to provide psychiatric services, including involuntary treatment services. A certificate of need exemption under this section shall be valid for two years.

Sec. 186. RCW 18.205.040 and 2008 c 135 s 17 are each amended to read as follows:

Sec. 187. RCW 70.96A.350 and 2013 2nd sp.s. c 4 s 990 are each amended to read as follows:

(1) The criminal justice treatment account is created in the state treasury. Moneys in the account may be expended solely for: (a) Substance abuse treatment and treatment support services for offenders with an addiction or a substance abuse problem that, if not treated, would result in addiction, against whom charges are filed by a prosecuting attorney in Washington state; (b) the provision of drug and alcohol treatment services and treatment support services for nonviolent offenders within a drug court program; (c) the administrative and overhead costs associated with the operation of a drug court; and (d) during the 2011-2013 biennium, the legislature may appropriate up to three million dollars from the account in order to offset reductions in the state general fund for treatment services provided by counties. This amount is not subject to the requirements of subsections (5) through (9) of this section. During the 2013-2015 fiscal biennium, the legislature may transfer from the criminal justice treatment account to the state general fund amounts as reflect the state savings associated with the implementation of the medicaid expansion of the federal affordable care act. Moneys in the account may be spent only after appropriation.
For purposes of this section:

(a) "Treatment" means services that are critical to a participant's successful completion of his or her substance abuse treatment program, but does not include the following services: Housing other than that provided as part of an inpatient substance abuse treatment program, vocational training, and mental health counseling; and

(b) "Treatment support" means transportation to or from inpatient or outpatient treatment services when no viable alternative exists, and child care services that are necessary to ensure a participant's ability to attend outpatient treatment sessions.

(3) Revenues to the criminal justice treatment account consist of: (a) Funds transferred to the account pursuant to this section; and (b) any other revenues appropriated to or deposited in the account.

(4)(a) For the fiscal biennium beginning July 1, 2003, the state treasurer shall transfer eight million nine hundred fifty thousand dollars from the general fund into the criminal justice treatment account, divided into eight equal quarterly payments. For the fiscal year beginning July 1, 2003, and each subsequent fiscal year, the state treasurer shall transfer eight million two hundred fifty thousand dollars from the general fund to the criminal justice treatment account, divided into four equal quarterly payments. For the fiscal year beginning July 1, 2006, and each subsequent fiscal year, the amount transferred shall be increased on an annual basis by the implicit price deflator as published by the federal bureau of labor statistics.

(b) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in (a) of this subsection to the division of alcohol and substance abuse for the purposes of subsection (5) of this section.

(5) Moneys appropriated to the division of alcohol and substance abuse from the criminal justice treatment account shall be distributed as specified in this subsection. The department shall serve as the fiscal agent for purposes of distribution. Until July 1, 2004, the department may not use moneys appropriated from the criminal justice treatment account for administrative expenses and shall distribute all amounts appropriated under subsection (4)(b) of this section in accordance with this subsection. Beginning in July 1, 2004, the department may retain up to three percent of the amount appropriated under subsection (4)(b) of this section for its administrative costs.

(a) Seventy percent of amounts appropriated to the division from the account shall be distributed to counties pursuant to the distribution formula adopted under this section. The division of alcohol and substance abuse, in consultation with the department of corrections, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges' association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance abuse treatment providers, and any other person deemed by the division to be necessary, shall establish a fair and reasonable methodology for distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the division from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. The division shall appoint a panel of representatives from the Washington association of prosecuting attorneys, the Washington association of sheriffs and police chiefs, the superior court judges' association, the Washington state association of counties, the Washington defender's association or the Washington association of criminal defense lawyers, the department of corrections, the Washington state association of drug court professionals, substance abuse treatment providers, and the division. The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under this subsection. The panel shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The funds shall be used solely to provide approved alcohol and substance abuse treatment pursuant to RCW 70.96A.090, treatment support services, and for the administrative and overhead costs associated with the operation of a drug court.

(a) No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent on the administrative and overhead costs associated with the operation of a drug court.

(b) No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

(7) Counties are encouraged to consider regional agreements and submit regional plans for the efficient delivery of treatment under this section.

(8) Moneys allocated under this section shall be used to supplement, not supplant, other federal, state, and local funds used for substance abuse treatment.

(9) Counties must meet the criteria established in RCW 2.28.170(3)(b).

(10) The authority under this section to use funds from the criminal justice treatment account for the administrative and overhead costs associated with the operation of a drug court expires June 30, 2015.

(11) Expenditures from the criminal justice treatment account may only be used for the purposes set out in this section and does not include managed care purchasing for Medicaid enrollees.

"NEW SECTION. Sec. 1. In conjunction with recent findings from the Washington state auditor's office, the legislature finds that there are thousands of state citizens who have been determined eligible for services through the department of social and health services' developmental disability administration. For those who have asked for help but are waiting for services, families may experience financial or emotional hardships. The legislature intends to clarify and make transparent the process for accessing publicly funded services for individuals with developmental disabilities and their families. The legislature intends to significantly reduce the number of eligible individuals who are waiting for services by funding additional slots and by implementing new programs that better utilize federal funding partnerships.

(6) Direct retailers that have a license from the department under this section are exempt from the permitting requirements of food service rules adopted by the state board of health and any local health jurisdiction.

(7) The director may deny, suspend, or revoke any license provided under this section if the director determines that an applicant or licensee has committed any of the following:

(a) Refused, neglected, or failed to comply with the provisions of this section, the rules and regulations adopted under this section, or any order of the director;

(b) Refused, neglected, or failed to keep and maintain records required by this chapter, or refused the department access to such records;

(ii) There is no interim storage by the entity; and

(iii) The food is delivered by means of vehicles that are equipped with either refrigeration or freezer units, or both, and that meet the requirements of rules authorized by this chapter.

"Sec. 1. RCW 9.94A.589 and 2002 c 175 s 7 are each amended to read as follows:

(1)(a) Except as provided in (b) ((or)) (c), or (d) of this subsection, whenever a person is to be sentenced for two or more current offenses, the sentence range for each current offense shall be determined by using all other current and prior convictions as if they were prior convictions for the purpose of the offender score: PROVIDED, That if the court enters a finding that some or all of those current offenses encompass the same criminal conduct then those current offenses shall be counted as one crime. The standard sentence range for any offenses that are not serious violent offenses shall be determined according to (a) of this subsection. All sentences imposed under (((b) of)) this subsection (1)(b) shall be served consecutively to each other and concurrently with sentences imposed under (a) of this subsection.

(c) If an offender is convicted under RCW 9.41.040 for unlawful possession of a firearm in the first or second degree and for the felony crimes of theft of a firearm or possession of a stolen firearm, or both, the standard sentence range for each of these current offenses shall be determined by using all other current and prior convictions, except other current convictions for the felony crimes listed in this subsection (1)(c), as if they were prior convictions. The offender shall serve consecutive sentences for each conviction of the felony crimes listed in this subsection (1)(c), and for each firearm unlawfully possessed.

(d) All sentences imposed under RCW 46.61.502(6), 46.61.504(6), or 46.61.5055(4) shall be served consecutively with any sentences imposed under RCW 46.20.740 and 46.20.750.

(2) (a) Except as provided in (b) of this subsection, whenever a person while under sentence for conviction of a felony commits another felony and is sentenced to another term of confinement, the latter term shall not begin until expiration of all prior terms.

(b) Whenever a second or later felony conviction results in community supervision with conditions not currently in effect, under the prior sentence or sentences of community supervision the court may require that the conditions of community supervision contained in the second or later sentence begin during the immediate term of community supervision and continue throughout the duration of the consecutive term of community supervision.

(3) Subject to subsections (1) and (2) of this section, whenever a person is sentenced for a felony that was committed while the person was not under sentence for conviction of a felony, the sentence shall run concurrently with any felony sentence which has been imposed by any court in this or another state or by a federal court subsequent to the commission of the crime being sentenced unless the court pronouncing the current sentence expressly orders that they be served consecutively.

(4) Whenever any person granted probation under RCW 9.95.210 or 9.92.060, or both, has the probationary sentence revoked and a prison sentence imposed, that sentence shall run consecutively to any sentence imposed pursuant to this chapter, unless the court pronouncing the subsequent sentence expressly orders that they be served concurrently.

(5) In the case of consecutive sentences, all periods of total confinement shall be served before any partial confinement, community restitution, community supervision, or any other requirement or conditions of any of the sentences. Except for exceptional sentences as authorized under RCW 9.94A.535, if two or more sentences that run consecutively include periods of community supervision, the aggregate of the community supervision period shall not exceed twenty-four months.

Sec. 2. RCW 46.20.740 and 2010 c 269 s 8 are each amended to read as follows:

(1) The department shall attach or imprint a notation on the driving record of any person restricted under RCW 46.20.720, 46.61.5055, or 10.05.140 stating that the person may operate only a motor vehicle equipped with a functioning ignition interlock device. The department shall determine the person's eligibility for licensing based upon written verification by a company doing business in the state that it has installed the required device on a vehicle owned or operated by the person seeking reinstatement. If, based upon notification from the interlock provider or otherwise, the department determines that an ignition interlock required under this section is no longer installed or functioning as required, the department shall suspend the person's license or privilege to drive. Whenever the license or driving privilege of any person is suspended or revoked as a result of noncompliance with an ignition interlock requirement, the suspension shall remain in effect until the person provides notice issued by a company doing business in the state that a vehicle owned or operated by the person is equipped with a functioning ignition interlock device.

(2) It is a gross misdemeanor for a person with such a notation on his or her driving record to operate a motor vehicle that is not so equipped.

(3) Any sentence imposed for a violation of subsection (2) of this section shall be served consecutively with any sentence imposed under RCW 46.20.750, 46.61.502, 46.61.504, or 46.61.5055.

Sec. 3. RCW 46.20.750 and 2005 c 200 s 2 are each amended to read as follows:

(1) A person who is restricted to the use of a vehicle equipped with an ignition interlock device and who tampers with the device or directs, authorizes, or requests another to tamper with the device, in order to circumvent the device by modifying, detaching, disconnecting, or otherwise disabling it, is guilty of a gross misdemeanor.

(2) A person who knowingly assists another person who is restricted to the use of a vehicle equipped with an ignition interlock device to circumvent the device or to start and operate that vehicle in violation of a court order is guilty of a gross misdemeanor. The provisions of this subsection do not apply if the starting of a motor vehicle, or the request to start a motor vehicle, equipped with an ignition interlock device is done for the purpose of safety or mechanical repair of the device or the vehicle and the person subject to the court order does not operate the vehicle.

(3) Any sentence imposed for a violation of subsection (1) of this section shall be served consecutively with any sentence imposed under RCW 46.20.740, 46.61.502, 46.61.504, or 46.61.5055.

Sec. 1. RCW 48.02.210 and 2012 2nd sp.s. c 3 s 5 are each amended to read as follows:
(1) For purposes of this section, "benefit provider" has the same meaning as provided in RCW 28A.400.270.
(2)(a) By December 1, 2013, and December 1st of each year thereafter, the commissioner shall submit a report to the governor, the health care authority, and the legislature on school district health insurance benefits. The report shall be available to the public on the commissioner's web site. The confidentiality of personally identifiable district employee data shall be safeguarded consistent with the provisions of RCW 42.56.400(21).
(b) The report shall include a summary of each school district's health insurance benefit plans and each district's aggregated financial data and other information as required in RCW 28A.400.275.
(3) The commissioner shall collect data from school districts or their benefit providers to fulfill the requirements of this section. The commissioner may adopt rules necessary to
implement the data submission requirements under this section and RCW 28A.400.275, including, but not limited to, the format, timing of data reporting, data elements, data standards, instructions, definitions, and data sources.

(4) In fulfilling the duties under chapter 3, Laws of 2012 2nd sp. sess., the commissioner shall consult with school district representatives to ensure that the data and reports from benefit providers will give individual school districts sufficient information to enhance districts' ability to understand, manage, and seek competitive alternatives for health insurance coverage for their employees.

(5) If the commissioner determines that a school district has not substantially complied with the reporting requirements of RCW 28A.400.275, and the failure is due to the action or inaction of the school district, the commissioner will inform the superintendent of public instruction of the noncompliance.

(6) The office of the insurance commissioner shall share all data, information, and documents collected pursuant to this section with the health care authority.

(7) Data, information, and documents, other than those described in subsection (2) of this section, that are provided by a school district or an entity providing coverage pursuant to this section are exempt from public inspection and copying under chapter 3, Laws of 2012 2nd sp. sess. and chapters 42.17A and 42.56 RCW.

(8) If a school district or benefit provider does not comply with the data reporting requirements of this section or RCW 28A.400.275, and the failure is due to the actions of an entity providing coverage authorized under this title (RCW 48.31C.020), the commissioner may take enforcement actions under this chapter.

(9) The commissioner may enter into one or more personal services contracts with third-party contractors to provide services necessary to accomplish the commissioner's responsibilities under chapter 3, Laws of 2012 2nd sp. sess.

Sec. 2. RCW 41.05.655 and 2012 2nd sp.s. c 3 s 6 are each amended to read as follows:

By June 1, 2015, the health care authority must report to the governor, legislature, and joint legislative audit and review committee the following duties and analyses, based on two years of reports and other data, information, and documents collected by the office of the insurance commissioner, on school district health benefits submitted to it by the office of the insurance commissioner under this section or RCW 48.02.210:

(1) The director shall establish a specific target to realize the goal of greater equity between premium costs for full family coverage and employee only coverage for the same health benefit plan. In developing this target, the director shall consider the appropriateness of the three-to-one ratio of employee premium costs between full family coverage and employee only coverage, and consider alternatives based on the data and information received from the office of the insurance commissioner.

(2) The director shall also study and report the advantages and disadvantages to the state, local school districts, and district employees:

(a) Whether better progress on the legislative goals could be achieved through consolidation of school district health insurance purchasing through a single consolidated school employee health benefits purchasing plan;

(b) Whether better progress on the legislative goals could be achieved by consolidating K-12 health insurance purchasing through the public employees' benefits board program, and whether consolidation into the public employees' benefits board program would be preferable to the creation of a consolidated school employee health benefits purchasing plan; and

(c) Whether certificated or classified employees, as separate groups, would be better served by purchasing health insurance through a single consolidated school employee health benefits purchasing plan or through participation in the public employees' benefits board program.

(3) Analyses shall include implications of taking any of the actions described in subsection (2)(a) through (c) of this section to include, at a minimum, the following: The costs for the state and school employees, impacts for existing purchasing programs, a proposed timeline for the implementation of any recommended actions.

(4) Data, information, and documents that are provided to the authority by a school district, an entity providing coverage, the office of the insurance commissioner, or the joint legislative audit and review committee, pursuant to this section or RCW 48.02.210 are exempt from public inspection and copying under chapters 42.17A and 42.56 RCW.

(5) Data, information, and documents that are provided pursuant to this section or RCW 48.02.210 shall be used solely for the purposes in this section and shall not be disclosed in any manner that could identify health conditions or information of any individual.

(6) Any data reporting provided by districts with fewer than fifty employees shall be aggregated in reports issued by the health care authority in a manner to prevent disclosure of individual health conditions and information.

Sec. 3. RCW 42.56.400 and 2013 c 277 s 5 and 2013 c 65 s 5 are each reenacted and amended to read as follows:

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature recognizes that preparing students to be successful in postsecondary education, gainful employment, and citizenship requires increased rigor and achievement, including attaining a meaningful high school diploma with the opportunity to earn twenty-four credits. The legislature finds that an investment was made in the 2013-2015 omnibus appropriations act to implement an increase in instructional hours in the 2014-2015 school year. School districts informed the legislature that the funding as provided in the 2013-2015 omnibus appropriations act would result in only a few minutes being added onto each class period and would not result in a meaningful increase in instruction that would have the positive impact on student learning that the legislature expects. The school districts suggested that it would be a better educational policy to use the funds to implement the requirement of twenty-four credits for high school graduation, which will result in a meaningful increase of instructional hours. Based on input from school districts across the state, the legislature recognizes the need to provide flexibility for school districts to implement the increase in instructional hours while still moving towards an increase in the high school graduation requirements. Therefore, the legislature intends to shift the focus and intent of the investments from compliance with the minimum instructional hours offering to assisting school districts to provide an opportunity for students to earn twenty-four credits for high school graduation and obtain a meaningful diploma, beginning with the graduating class of 2019.

PART I

CAREER AND TECHNICAL EQUIVALENCIES

Sec. 101. RCW 28A.700.070 and 2008 c 170 s 201 are each amended to read as follows:

(1) The office of the superintendent of public instruction shall support school district efforts under RCW 28A.230.097 to adopt course equivalencies for career and technical courses by:
(a) Recommending career and technical curriculum suitable for course equivalencies;
(b) Publicizing best practices for high schools and school districts in developing and adopting course equivalencies; and
(c) In consultation with the Washington association for career and technical education, providing professional development, technical assistance, and guidance for school districts seeking to expand their lists of equivalent courses.

(2) The office of the superintendent of public instruction shall provide professional development, technical assistance, and guidance for school districts to develop career and technical course equivalencies that also qualify as advanced placement courses.

(3) The office of the superintendent of public instruction, in consultation with one or more technical working groups convened for this purpose, shall develop curriculum frameworks for a selected list of career and technical courses that may be offered by high schools or skill centers whose content in science, technology, engineering, and mathematics is considered equivalent in full or in part to science or mathematics courses that meet high school graduation requirements. The content of the courses must be aligned with state essential academic learning requirements in mathematics as adopted by the superintendent of public instruction in July 2011 and the essential academic learning requirements in science as adopted in October 2013, and industry standards. The office shall submit the list of equivalent career and technical courses and their curriculum frameworks to the state board of education for review, an opportunity for public comment, and approval. The first list of courses under this subsection must be developed and approved before the 2015-16 school year. Thereafter, the office may periodically update or revise the list of courses using the process in this subsection.

(4) Subject to funds appropriated for this purpose, the office of the superintendent of public instruction shall allocate grant funds to school districts to increase the integration and rigor of academic instruction in career and technical courses. Grant recipients are encouraged to use grant funds to support teams of academic and technical teachers using a research-based professional development model supported by the national research center for career and technical education. The office of the superintendent of public instruction may require that grant recipients provide matching resources using federal Carl Perkins funds or other fund sources.

Sec. 102. RCW 28A.230.097 and 2013 c 241 s 2 are each amended to read as follows:

(1) Each high school or school district board of directors shall adopt course equivalencies for career and technical high school courses offered to students in high schools and skill centers. A career and technical course equivalency may be for whole or partial credit. Each school district board of directors shall develop a course equivalency approval procedure. Boards of directors must approve AP computer science courses as equivalent to high school mathematics or science, and must denote on a student's transcript that AP computer science qualifies as a math-based quantitative course for students who take the course in their senior year. In order for a board to approve AP computer science as equivalent to high school mathematics, the student must be concurrently enrolled in or have successfully completed algebra II.

Beginning
no later than the 2015-16 school year, a school district board of directors must, at a minimum, grant academic course equivalency in mathematics or science for a high school career and technical course, if the course is offered, from the list of courses approved by the state board of education under RCW 28A.700.070, but is not limited to the courses on the list. If the list of courses is revised after the 2015-16 school year, the school district board of directors must grant academic course equivalency based on the revised list beginning with the school year immediately following the revision.

(2) Career and technical courses determined to be equivalent to academic core courses, in full or in part, by the high school or school district shall be accepted as meeting core requirements, including graduation requirements, if the courses are recorded on the student's transcript using the equivalent academic high school department designation and title. Full or partial credit shall be recorded as appropriate. The high school or school district shall also issue and keep record of course completion certificates that demonstrate that the career and technical courses were successfully completed as needed for industry certification, college credit, or preapprenticeship, as applicable. The certificate shall be either part of the student's high school and beyond plan or the student's culminating project, as determined by the student. The office of the superintendent of public instruction shall develop and make available electronic samples of certificates of course completion.

PART II
INSTRUCTIONAL HOURS AND HIGH SCHOOL GRADUATION CREDIT REQUIREMENTS
Sec. 201. RCW 28A.150.220 and 2013 2nd sp.s. c 9 s 2 are each amended to read as follows:

(1) In order for students to have the opportunity to develop the basic education knowledge and skills under RCW 28A.150.210, school districts must provide instruction of sufficient quantity and quality and give students the opportunity to complete graduation requirements that are intended to prepare them for postsecondary education, gainful employment, and citizenship. The program established under this section shall be the minimum instructional program of basic education offered by school districts.

(2) Each school district shall make available to students the following minimum instructional offering each school year:

(a) For students enrolled in grades one through twelve, at least a district-wide average annual average of one thousand hours, which shall be increased beginning in the 2015-16 school year to at least one thousand eighty instructional hours for students enrolled in ((each of)) grades ((each of)) nine through twelve and at least one thousand instructional hours for students in ((each of)) grades one through ((six according to an implementation schedule adopted by the legislature, but not before the 2014-15 school year)) eight, all of which may be calculated by a school district using a district-wide average of instructional hours over grades one through twelve; and

(b) For students enrolled in kindergarten, at least four hundred fifty instructional hours, which shall be increased to at least one thousand instructional hours according to the implementation schedule under RCW 28A.150.315.

(3) The instructional program of basic education provided by each school district shall include:

(a) Instruction in the essential academic learning requirements under RCW 28A.655.070;

(b) Instruction that provides students the opportunity to complete twenty-four credits for high school graduation, ((subject to a phased in implementation of the twenty-four credits as established by the legislature)) beginning with the graduating class of 2019. Course distribution requirements may be established by the state board of education under RCW 28A.230.090;

(c) If the essential academic learning requirements include a requirement of languages other than English, the requirement may be met by students receiving instruction in one or more American Indian languages;

(d) Supplemental instruction and services for underachieving students through the learning assistance program under RCW 28A.165.005 through 28A.165.065;

(e) Supplemental instruction and services for eligible and enrolled students and exited students whose primary language is other than English through the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080;

(f) The opportunity for an appropriate education at public expense as defined by RCW 28A.155.020 for all eligible students with disabilities as defined in RCW 28A.155.020; and

(g) Programs for highly capable students under RCW 28A.185.010 through 28A.185.030.

(4) Nothing contained in this section shall be construed to require individual students to attend school for any particular number of hours per day or to take any particular courses.

(5)(a) Each school district's kindergarten through twelfth grade basic educational program shall be accessible to all students who are five years of age, as provided by RCW 28A.225.160, and less than twenty-one years of age and shall consist of a minimum of one hundred eighty school days per school year in such grades as are conducted by a school district, and one hundred eighty half-days of instruction, or equivalent, in kindergarten, to be increased to a minimum of one hundred eighty school days per school year according to the implementation schedule under RCW 28A.150.315. ((However))

(b) Schools administering the Washington kindergarten inventory of developing skills may use up to three school days at the beginning of the school year to meet with parents and families as required in the parent involvement component of the inventory. ((In addition, effective May 1, 1979.))

(c) In the case of students who are graduating from high school, a school district may schedule the last five school days of the one hundred ((and)) eighty day school year for noninstructional purposes ((in the case of students who are graduating from high school)) including, but not limited to, the observance of graduation and early release from school upon the request of a student((, and)). All such students may be claimed as a full-time equivalent student to the extent they could otherwise have been so claimed for the purposes of RCW 28A.150.250 and 28A.150.260. Any hours scheduled by a school district for noninstructional purposes during the last five school days for such students shall count toward the instructional hours requirement in subsection (2)(a) of this section.

(6) Nothing in this section precludes a school district from enrolling the instructional program of basic education, such as offering additional instruction or providing additional services, programs, or activities that the school district determines to be appropriate for the education of the school district's students.

(7) The state board of education shall adopt rules to implement and ensure compliance with the program requirements imposed by this section, RCW 28A.150.250 and 28A.150.260, and such related supplemental program approval requirements as the state board may establish.

Sec. 202. RCW 28A.230.090 and 2011 c 203 s 2 are each amended to read as follows:

(1) The state board of education shall establish high school graduation requirements or equivalencies for students, except as provided in RCW 28A.230.122 and except those equivalencies established by local high schools or school districts under RCW 28A.230.097. The purpose of a high school diploma
is to declare that a student is ready for success in postsecondary education, gainful employment, and citizenship, and is equipped with the skills to be a lifelong learner.

(a) Any course in Washington state history and government used to fulfill high school graduation requirements shall consider including information on the culture, history, and government of the American Indian peoples who were the first inhabitants of the state.

(b) The certificate of academic achievement requirements under RCW 28A.655.061 or the certificate of individual achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation.

c) Any decision on whether a student has met the state board’s high school graduation requirements for a high school and beyond plan shall remain at the local level.

d) The state board of education shall adopt rules to implement the career and college ready graduation requirement proposal adopted under board resolution on November 10, 2010, and revised on January 9, 2014, to take effect beginning with the graduating class of 2019, which includes authorization for a school district to waive up to two credits on an individual student basis in accordance with the rules established by the state board of education.

(2)(a) In recognition of the statutory authority of the state board of education to establish and enforce minimum high school graduation requirements, the state board shall periodically reevaluate the graduation requirements and shall report such findings to the legislature in a timely manner as determined by the state board.

(b) The state board shall reevaluate the graduation requirements for students enrolled in vocationally intensive and rigorous career and technical education programs, particularly those programs that lead to a certificate or credential that is state or nationally recognized. The purpose of the evaluation is to ensure that students enrolled in these programs have sufficient opportunity to earn a certificate of academic achievement, complete the program and earn the program's certificate or credential, and complete other state and local graduation requirements.

c) The state board shall forward any proposed changes to the high school graduation requirements to the education committees of the legislature for review and to the quality education council established under RCW 28A.290.010. The legislature shall have the opportunity to act during a regular legislative session before the changes are adopted through administrative rule by the state board. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized and funded by the legislature through the omnibus appropriations act.

(c) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(3)(a) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school graduation, students who receive instruction in American sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(b) The academic level of the course exceeds the requirements for seventh and eighth grade classes, and the student has successfully passed by completing the same course requirements and examinations as the high school students enrolled in the class; or

(c) The academic level of the course exceeds the requirements for seventh and eighth grade classes and the course would qualify for high school credit, because the course is similar or equivalent to a course offered at a high school in the district as determined by the school district board of directors.

(5) Students who have taken and successfully completed high school courses under the circumstances in subsection (4) of this section shall not be required to take an additional competency examination or perform any other additional assignment to receive credit.

(6) At the college or university level, five quarter or three semester hours equals one high school credit.

Sec. 203. RCW 28A.150.260 and 2011 1st sp.s. c 27 s 2 are each amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2) The distribution formula under this section shall be for allocation purposes only. Except as may be required under chapter 28A.155, 28A.165, 28A.180, or 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

(3)(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) For the purposes of this section, prototypical schools are defined as follows:

(i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;

(ii) A prototypical middle school has four hundred thirty-two average annual full-time equivalent students in grades seven and eight; and
(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

(4)(a)(i) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on the following general education average class size of full-time equivalent students per teacher:

(ii) The minimum class size allocation for each prototypical high school shall also provide for enhanced funding for class size reduction for two laboratory science classes within grades nine through twelve per full-time equivalent high school student multiplied by a laboratory science course factor of 0.0833, based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours in RCW 28A.150.220, and providing at least one teacher planning period per school day:

(b) During the 2011-2013 biennium and beginning with schools with the highest percentage of students eligible for free and reduced-price meals in the prior school year, the general education average class size for grades K-3 shall be reduced until the average class size funded under this subsection (4) is no more than 17.0 full-time equivalent students per teacher beginning in the 2017-18 school year.

(c) The minimum allocation for each prototypical middle and high school shall also provide for full-time equivalent classroom teachers based on the following number of full-time equivalent students per teacher in career and technical education:

(d) In addition, the omnibus appropriations act shall at a minimum specify:

(i) A high-poverty average class size in schools where more than fifty percent of the students are eligible for free and reduced-price meals; and

(ii) A specialty average class size for laboratory science and advanced placement and international baccalaureate courses.

(5) The minimum allocation for each level of prototypical school shall include allocations for the following types of staff in addition to classroom teachers:

(b) The minimum allocation of staff units for each school district to support certificated and classified staffing of central administration shall be 5.30 percent of the staff units generated under subsections (4)(a) and (b) and (5) of this section and (a) of this subsection.

(7) The distribution formula shall include staffing allocations to school districts for career and technical education and skill center administrative and other school-level certificated staff, as specified in the omnibus appropriations act.
(8)(a) Except as provided in (b) and (c) of this subsection, the minimum allocation for each school district shall include allocations per annual average full-time equivalent student for the following materials, supplies, and operating costs, to be adjusted for inflation from the 2008-09 school year:

(9) In addition to the amounts provided in subsection (8) of this section, the omnibus appropriations act shall provide an amount based on full-time equivalent student enrollment in each of the following:

(a) Exploratory career and technical education courses for students in grades seven through twelve;

(b) Laboratory science courses for students in grades nine through twelve;

(c)) Preparatory career and technical education courses for students in grades nine through twelve offered in a high school; and

((d))) (c) Preparatory career and technical education courses for students in grades eleven and twelve offered through a skill center.

(10) In addition to the allocations otherwise provided under this section, amounts shall be provided to support the following programs and services:

(a) To provide supplemental instruction and services for underachieving students through the learning assistance program under RCW 28A.165.005 through 28A.165.065, allocations shall be based on the district percentage of students in grades K-12 who were eligible for free or reduced-price meals in the prior school year. The minimum allocation for the program shall provide for each level of prototypical school resources to provide, on a statewide average, 1.5156 hours per week in extra instruction with a class size of fifteen learning assistance program students per teacher.

(b) To provide supplemental instruction and services for students whose primary language is other than English, allocations shall be based on the head count number of students in each school who are eligible for and enrolled in the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080. The minimum allocation for each level of prototypical school shall provide resources to provide, on a statewide average, 4.7780 hours per week in extra instruction with fifteen transitional bilingual instruction program students per teacher. Notwithstanding other provisions of this subsection (10), the actual per-student allocation may be scaled to provide a larger allocation for students needing more intensive intervention and a commensurate reduced allocation for students needing less intensive intervention, as detailed in the omnibus appropriations act.

(c) To provide additional allocations to support programs for highly capable students under RCW 28A.185.010 through 28A.185.030, allocations shall be based on two and three hundred fourteen one-thousandths percent of each school district's full-time equivalent basic education enrollment. The minimum allocation for the programs shall provide resources to provide, on a statewide average, 2.1590 hours per week in extra instruction with fifteen highly capable program students per teacher.

(11) The allocations under subsections (4)(a) and (b), (5), (6), and (8) of this section shall be enhanced as provided under RCW 28A.150.390 on an excess cost basis to provide supplemental instructional resources for students with disabilities.

(12)(a) For the purposes of allocations for prototypical high schools and middle schools under subsections (4) and (10) of this section that are based on the percent of students in the school who are eligible for free and reduced-price meals, the actual percent of such students in a school shall be adjusted by a factor identified in the omnibus appropriations act to reflect underreporting of free and reduced-price meal eligibility among middle and high school students.

(b) Allocations or enhancements provided under subsections (4), (7), and (9) of this section for exploratory and preparatory career and technical education courses shall be provided only for courses approved by the office of the superintendent of public instruction under chapter 28A.700 RCW.

(13)(a) This formula for distribution of basic education funds shall be reviewed biennially by the superintendent and governor. The recommended formula shall be subject to approval, amendment or rejection by the legislature.

(b) In the event the legislature rejects the distribution formula recommended by the governor, without adopting a new distribution formula, the distribution formula for the previous school year shall remain in effect.

(c) The enrollment of any district shall be the annual average number of full-time equivalent students and part-time
students as provided in RCW 28A.150.350, enrolled on the first school day of each month, including students who are in attendance pursuant to RCW 28A.335.160 and 28A.225.250 who do not reside within the servicing school district. The definition of full-time equivalent student shall be determined by rules of the superintendent of public instruction and shall be included as part of the superintendent's biennial budget request. The definition shall be based on the minimum instructional hour offerings required under RCW 28A.150.220. Any revision of the present definition shall not take effect until approved by the house ways and means committee and the senate ways and means committee.

(d) The office of financial management shall make a monthly review of the superintendent's reported full-time equivalent students in the common schools in conjunction with RCW 43.62.050.

The appropriation in this section is subject to the following conditions and limitations:

(1) The appropriation in this section is provided solely for a demonstration program making loans or grants to low-income housing developers for ultra-high energy efficient housing projects including single and multifamily units. The program's purpose is to apply ultra-high energy efficiency design and build strategies and technologies to the construction of affordable housing, in order to increase housing affordability for low-income households and reduce consumption of limited natural resources.

(2) In consultation with professional building, energy efficiency, and housing finance organizations, the office of financial management, and the appropriate legislative staff, the department shall develop and implement a competitive program by December 1, 2014, that is designed to fund and evaluate ultra-high energy efficient housing projects.

   (b) Propose to use a performance-based design and build process; and,
   (c) Provide a life-cycle cost analysis report to the department.

(4) At least one of the projects selected for funding must demonstrate energy-saving and renewable energy systems designed to achieve net zero energy use after the housing is fully occupied.

The department must consider, at a minimum and in any order, the following factors in assigning a numerical ranking to a project:

(a) Whether the proposed design demonstrates that the project will achieve a fifty percent or greater reduction in building energy use when fully occupied, compared to the current edition of the Washington state energy code. Points for this factor must be awarded so that the greater the reduction in energy use, the higher the number of points.

(b) The life-cycle cost of the project;
(c) That the project demonstrates a design, use of materials, and construction process that can be replicated by the Washington building industry;
(d) The extent to which the project leverages nonstate funds;
(e) The extent to which the project is ready to proceed to construction;
(f) Whether the project promotes sustainable use of resources and environmental quality;
(g) Whether the project is being well-managed to fund maintenance and capital depreciation;
(h) Reduction of housing and utilities carbon footprint; and,
(i) Other criteria that the department considers necessary to achieve the purpose of this program.

(6) By October 1, 2015, the department shall submit a report to the governor and legislative fiscal committees on the results of the demonstration project, including a benefit-cost analysis of designing projects to reach net-zero energy use.

The appropriations in this section are subject to the following conditions and limitations:

(1) All expenditures from the state taxable building construction account--state appropriation in this section must be used for projects that provide a benefit to the public through development, demonstration, and deployment of clean energy technologies that save energy and reduce energy costs, reduce harmful air emissions or otherwise increase energy independence for the state. All expenditures must be used for projects that develop and acquire assets that have a useful life of at least thirteen years. These requirements must be specified in funding agreements issued by the department.

(2) For any project funded from the state taxable building construction account--state appropriation in this section, state funds must not exceed fifty percent of the estimated cost of a project, and funding preference must be provided to projects that offer a higher percentage of nonstate match funds.

(3)(a) $15,000,000 of the state taxable building construction account--state appropriation in this section is provided solely to create a revolving loan fund to support the widespread use of proven building energy efficiency and renewable energy technologies now inhibited by lack of access to capital.

(b) To create the loan fund, the department shall provide grant funds to a competitively selected nonprofit lender that will provide matching private capital and will administer the loan fund. The department must select the loan fund administrator through a competitive process, with scoring conducted by a group of qualified experts, applying criteria specified by the department.

(c) The department must establish guidelines for the lender related to applicant eligibility, the screening process, and evaluation and selection criteria. The criteria must include requiring evidence of support for the proposed project from the impacted community and consistency with economic growth strategies and plans of the affected local governments. Applications for loans from the revolving fund must disclose all sources of public funding to be provided for a project. The nonprofit lender must use the revolving loan fund to make affordable loans for projects including, but not limited to: Residential and commercial energy retrofits, residential and community-scale solar installations, anaerobic digesters to treat dairy and organic waste, and combined heat and power projects using woody biomass as a fuel source.

(d) The department must conduct due diligence activities associated with the use of public funds, including oversight of the project selection process and project monitoring.

(e) Projects seeking financing of solar installations under this section must agree in contract to not participate in the cost-recovery program under RCW 82.16.120.

The department shall work with utilities to offer matching grants for projects that demonstrate new smart grid technologies. The department shall develop a grant application process to competitively select projects for grant awards, to include scoring conducted by a group of qualified experts with application of criteria specified by the department. Applications for grants must disclose all sources of public funding to be provided for a project. The grant funds must be used to fund projects that demonstrate how to: Integrate intermittent renewables through energy storage and information technology, dispatch energy storage resources from utility control rooms, use the thermal properties and electric load of commercial buildings and district energy systems to store energy, or otherwise improve the reliability and reduce the costs of intermittent or distributed renewable energy.

(5) $6,000,000 of the state taxable building construction account--state appropriation in this section is provided solely for grants to match federal funds used to develop and demonstrate clean energy technologies. The department shall work with the University of Washington, Washington State University, and the Pacific Northwest National Laboratory to offer matching funds for projects including, but not limited to: Advancing energy storage and solar technologies, and federal manufacturing innovation centers related to use of light-weight carbon fiber components to advance energy efficiency in the aeronautical, automotive, and marine sectors.

(6) The department must report on number and results of projects funded through the clean energy fund, including the number of job hours created and the number of jobs maintained and created, to the governor and the legislature, by November 1, 2014.

(7) The energy recovery act account--federal appropriation in this section is provided solely for loans, loan guarantees, and grants that encourage the establishment of innovative and sustainable industries for renewable energy and energy efficiency technology, consistent with provisions of RCW 43.325.040 (energy freedom account).

NEW SECTION. Sec. 1017. A new section is added to 2013 2nd sp.s. c 19 (uncodified) to read as follows:

FOR THE DEPARTMENT OF COMMERCE
The appropriations in this section are subject to the following conditions and limitations:

(1) Except as directed otherwise prior to the effective date of this section, the department shall not expend the appropriations in this section unless and until the nonstate share of project costs have been either expended, or firmly committed, or both, in an amount sufficient to complete the project or a distinct phase of the project that is useable to the public for the purpose intended by the legislature.

(2) Prior to receiving funds, project recipients must demonstrate that the project site is under control for a minimum of ten years, either through ownership or a long-term lease. This requirement does not apply to appropriations for preconstruction activities or appropriations whose sole purpose is to purchase real property that does not include a construction or renovation component.

(3) Projects funded in this section may be required to comply with Washington's high performance building standards as required by chapter 39.35D RCW.

(4) Project funds are available on a reimbursement basis only, and shall not be advanced under any circumstances.

(5) Projects funded in this section must be held by the recipient for a minimum of ten years and used for the same purpose or purposes intended by the legislature as required in RCW 43.63A.125(6).

(6) Projects funded in this section, including those that are owned and operated by nonprofit organizations, are generally required to pay state prevailing wages.

(7) The appropriation from the state taxable building construction account in this section is provided solely for a historic building rehabilitation demonstration program. The purposes of the program are to: Support the public interest in preserving the state's historical heritage; protect public safety and health in and around historic buildings; and contribute to the economic stability of Washington communities by keeping historic buildings functional and economically viable.

(a) For purposes of this subsection, "historic building" means a building that is at least fifty years old and retains authentic, distinctive physical characteristics from its historic period of construction.

(b) Funds appropriated in this subsection must be used to provide gap financing for historic building rehabilitation projects that otherwise could not be completed due to the financial circumstances of their owners.

(i) Funds may be used for rehabilitation work that makes a building safe and secure, such as fire sprinkler systems and reinforcing walls. Funds may also be used for rehabilitation work that is required to make space habitable and in compliance with code requirements.

(ii) Financing shall be in the form of low-interest rate loans. Forgivable interest loans or grants may be allowed under certain circumstances, as determined by the department. Loan repayments must be deposited into the historic building rehabilitation revolving loan fund established in section 6010 of this act, to be lent to future projects.

(c) The department must issue a competitive request for qualifications and quotations and select a certified nonprofit community development financial institution to implement the demonstration program. The department and selected organization must enter into a contract and jointly develop a project solicitation, evaluation and selection process.

(d) The expectation is that at least five percent of the project cost will be contributed by the building owner in cash. The contractor must work with other public and private lenders to underwrite financing packages that leverage additional funding resources and applicable tax credits. **...

(e) Projects will be evaluated on criteria including but not limited to the following:

(i) Whether the project meets at least one of the public purposes stated in this subsection;

(ii) The extent to which the project has leveraged funding from public and private lenders and applicable tax credits; and

(iii) The extent to which the building owner has committed cash and in-kind resources to the project.

(f) The department must conduct due diligence activities associated with the use of public funds, including oversight of the project selection process and project monitoring.

(g) By October 1, 2015, the department must provide a report to the governor and appropriate legislative committees on the results of the demonstration program and a recommendation as to whether it should continue as a statutorily authorized program.

Sec. 6003. RCW 43.155.070 and 2013 2nd sp.s. c 19 s 7032 are each amended to read as follows:

(1) To qualify for financial assistance under this chapter the board must determine that a local government meets all of the following conditions:

(a) The city or county must be a part of a state economy that has adopted a comprehensive plan, including a capital facilities plan element, and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 before executing a contractual agreement for financial assistance with the board.

(b) The local government must have developed a capital facility plan; and

(c) The local government must be using all local revenue sources which are reasonably available for funding public works, taking into consideration local employment and economic factors.

(2) Except where necessary to address a public health need or substantial environmental degradation, a county, city, or town planning under RCW 36.70A.040 may not receive financial assistance under this chapter unless it has adopted a comprehensive plan, including a capital facilities plan element, and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 to adopt a comprehensive plan or development regulations before requesting or receiving financial assistance under this chapter if such request is made before the expiration of the time periods specified in RCW 36.70A.040. A county, city, or town planning under RCW 36.70A.040 that has not adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.040 may apply for and receive financial assistance under this chapter if the comprehensive plan and development regulations are adopted as required by RCW 36.70A.040 before executing a contractual agreement for financial assistance with the board.

(3) In considering awarding financial assistance for public facilities to special districts requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, the board must consider whether the county, city, or town planning under RCW 36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a comprehensive plan and development regulations as required by RCW 36.70A.040.

(4) The board must develop a priority process for public works projects as provided in this section. The intent of the priority process is to maximize the value of public works projects accomplished with assistance under this chapter. The board must attempt to assure a geographical balance in assigning priorities to projects. The board must consider at least the following factors in assigning a priority to a project:

(a) Whether the local government receiving assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;

(b) Except as otherwise conditioned by RCW 43.155.110, whether the entity receiving assistance is a Puget Sound partner, as defined in RCW 90.71.010;

(c) Whether the project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310;

(d) Whether the project is critical in nature and would affect the health and safety of a great number of citizens;

(e) Whether the applicant's permitting process has been certified as streamlined by the office of regulatory assistance;

(f) Whether the applicant has developed and adhered to guidelines regarding its permitting process for those applying for development permits consistent with section 1(2), chapter 231, Laws of 2007;

(g) The cost of the project compared to the size of the local government and amount of loan money available;

(h) The number of communities served by or funding the project;

(i) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(j) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards, including the cost of extending existing service to such a system;

(k) Except as otherwise conditioned by RCW 43.155.120, and effective one calendar year following the development of model evergreen community management plans and ordinances under RCW 35.105.050, whether the entity receiving assistance has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030;

(l) The relative benefit of the project to the community, considering the present level of economic activity in the community and the existing local capacity to increase local economic activity in communities that have low economic growth; and

(m) Other criteria that the board considers advisable.

(5) For the 2013-2015 fiscal biennium, in place of the criteria, ranking, and submission processes for construction loan lists provided in subsections (4) and (7) of this section:

(a) The board must develop a process for numerically ranking applications for construction loans submitted by local governments. The board must consider, at a minimum and in any order, the following factors in assigning a numerical ranking to a project:

(i) Whether the project is critical in nature and would affect the health and safety of many people;

(ii) The extent to which the project leverages nonstate funds;

(iii) The extent to which the project is ready to proceed to construction;

(iv) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(v) Whether the project promotes the sustainable use of resources and environmental quality;

(vi) Whether the project consolidates or regionalizes systems;

(vii) Whether the project encourages economic development through mixed-use and mixed income development consistent with chapter 36.70A RCW;

(viii) Whether the system is being well-managed in the present and for long-term sustainability;

(ix) Achieving equitable distribution of funds by geography and population;

(x) The extent to which the project meets the following state policy objectives:

(A) Efficient use of state resources;

(B) Preservation and enhancement of health and safety;
(C) Abatement of pollution and protection of the environment;
(D) Creation of new, family wage jobs, and avoidance of shifting existing jobs from one Washington state community to another;
(E) Fostering economic development consistent with chapter 36.70A RCW;
(F) Efficiency in delivery of goods and services, public transit, and transportation;
(G) Avoidance of additional costs to state and local governments that adversely impact local residents and small businesses; and
(H) Reduction of the overall cost of public infrastructure; and
(xi) Other criteria that the board considers necessary to achieve the purposes of this chapter.

(b) Before November 1, 2014, the board must develop and submit to the appropriate fiscal committees of the senate and house of representatives a ranked list of qualified public works projects which have been evaluated by the board and are recommended for funding by the legislature. The maximum amount of funding that the board may recommend for any jurisdiction is ten million dollars per biennium. For each project on the ranked list, as well as for eligible projects not recommended for funding, the board must document the numerical ranking that was assigned.

(6) Existing debt or financial obligations of local governments may not be refinanced under this chapter. Each local government applicant must provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(7) Before November 1st of each even-numbered year, the board must develop and submit to the appropriate fiscal committees of the senate and house of representatives a description of the loans made under RCW 43.155.065, 43.155.068, and subsection (10) of this section during the preceding fiscal year and a prioritized list of projects which are recommended for funding by the legislature, including one copy to the staff of each of the committees. The list must include, but not be limited to, a description of each project and recommended financing, the terms and conditions of the loan or financial guarantee, the local government jurisdiction and unemployment rate, demonstration of the jurisdiction's critical need for the project and documentation of local funds being used to finance the public works project. The list must also include measures of fiscal capacity for each jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes, real estate excise taxes; property taxes; and charges for or taxes on sewerage, water, garbage, and other utilities.

(8) The board may not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds for a specific list of public works projects. The legislature may remove projects from the list recommended by the board. The legislature may not change the order of the priorities recommended for funding by the board.

(9) Subsection (8) of this section does not apply to loans made under RCW 43.155.065, 43.155.068, and subsection (10) of this section.

(10) Loans made for the purpose of capital facilities plans are exempted from subsection (8) of this section.

(11) To qualify for loans or pledges for solid waste or recycling facilities under this chapter, a city or county must demonstrate that the solid waste or recycling facility is consistent with and necessary to implement the comprehensive solid waste management plan adopted by the city or county under chapter 70.95 RCW.

(12) After January 1, 2010, any project designed to address the effects of storm water or wastewater on Puget Sound may be funded under this section only if the project is not in conflict with the action agenda developed by the Puget Sound Partnership under RCW 90.71.310.

(13) During the 2013-2015 fiscal biennium, for projects involving repair, replacement, or improvement of a wastewater treatment plant or other public works facility for which an investment grade efficiency audit is obtainable, the public works board must require as a contract condition that the project sponsor undertake an investment grade efficiency audit. The project sponsor may finance the costs of the audit as part of its public works assistance account program loan.

(14)(a) For public works assistance account application rounds conducted during the 2013-2015 fiscal biennium, the board must implement policies and procedures designed to maximize local government use of federally funded drinking water and clean water state revolving funds operated by the state departments of health and ecology. The board, department of ecology, and department of health must jointly develop evaluation criteria and application procedures that will increase access of eligible drinking water and wastewater projects to the public works assistance account for short-term preconstruction financing and to the federally funded state revolving funds for construction financing. The procedures must also strengthen coordinated funding of preconstruction and construction projects.

(b) For all construction loan projects proposed to the legislature for funding during the 2013-2015 fiscal biennium, the board must (base interest rates on the average daily market interest rate for tax-exempt municipal bonds as published in the bond buyer's index for the period from sixty to thirty days before the start of the application cycle. For projects with a repayment period between five and twenty years, the rate must be sixty percent of the market rate. For projects with a repayment period under five years, the rate must be thirty percent of the market rate) establish lending policies and procedures that are consistent with managing the public works assistance account for long-term sustainability. When determining loan terms that will be in effect for an application round, the board must take into account applicable market rates, but may, at its discretion, use additional factors to set the final loan terms. The board must also provide reduced interest rates((c)) or extended repayment periods((d)) for projects that meet financial hardship criteria as measured by the affordability index or similar standard measure of financial hardship.

(c) By December 1, 2013, the board must recommend to the appropriate committees of the legislature statutory language to make permanent these new criteria, procedures, and financing policies.

Sec. 6004. RCW 70.105D.070 and 2013 2nd sp.s. c 19 s 7033 and 2013 2nd sp.s. c 4 s 992 are each reenacted and amended to read as follows:

(2)(a) Moneys collected under RCW 82.21.030 must be deposited as follows: Fifty-six percent to the state toxics control account under subsection (3) of this section and forty-four percent to the local toxics control account under subsection (4) of this section. When the cumulative amount of deposits made to the state and local toxics control accounts under this section reaches the limit during a fiscal year as established in (b) of this subsection, the remainder of the moneys collected under RCW 82.21.030 during that fiscal year must be deposited into the environmental legacy stewardship account created in RCW 70.105D.170.

(iii) Enter into a grant agreement with a local government prior to it acquiring a property or obtaining necessary access to conduct remedial actions, provided the agreement is conditioned upon the local government acquiring the property or obtaining the access in accordance with a schedule specified in the agreement;

(iv) Provide integrated planning grants to local governments to fund studies necessary to facilitate remedial actions at brownfield properties and adaptive reuse of properties following remediation. Eligible activities include, but are not limited to: Environmental site assessments; remedial investigations; health assessments; feasibility studies; site planning; community involvement; land use and regulatory analyses; building and infrastructure assessments; economic and fiscal analyses; and any environmental analyses under chapter 43.21C RCW;

(v) Provide grants to local governments for remedial actions related to areawide groundwater contamination. To receive the funding, the local government does not need to be a potentially liable person or be required to seek reimbursement of grant funds from a potentially liable person;

(vi) The director may alter grant matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational opportunities, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of brownfield property under RCW 70.105D.040(5) that would not otherwise occur;

(vii) When pending grant applications under (((c)(e)) (e)(iv) and (v) of this subsection (4) exceed the amount of funds available, designated redevelopment opportunity zones must receive priority for distribution of available funds.

(6) No moneys deposited into either the state or local toxics control account may be used for: Natural disasters where there is no hazardous substance contamination; high performance buildings; solid waste incinerator facility feasibility studies, construction, maintenance, or operation; or after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. However, this subsection does not prevent an appropriation from the state toxics control account to the department of revenue to enforce compliance with the hazardous substance tax imposed in chapter 82.21 RCW.

(7) Except during the 2011-2013 fiscal biennium, one percent of the moneys collected under RCW 82.21.030 shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation that are not expended at the close of any biennium revert to the state toxics control account.

(8) The department shall adopt rules for grant or loan issuance and performance. To accelerate both remedial action and economic recovery, the department may expedite the adoption of rules necessary to implement chapter 1, Laws of 2013 2nd sp. sess. using the expedited procedures in RCW 34.05.353. The department shall initiate the award of financial assistance by August 1, 2013. To ensure the adoption of rules will not delay financial assistance, the department may expedite the award of financial assistance through interpretive guidance pending the adoption of rules through July 1, 2014.

(9) Except as provided under subsection (3)(k) and (q) of this section, nothing in chapter 1, Laws of 2013 2nd sp. sess. affects the ability of a potentially liable person to receive public funding.

(10) During the 2013-2015 fiscal biennium the local toxics control account may also be used for the centennial clean water program and for storm water grants.

Sec. 6005. RCW 43.160.080 and 2010 1st sp.s. c 36 s 6011 are each amended to read as follows:

In order to maintain an effective expenditure and revenue control, the public facilities construction loan revolving account shall be subject in all respects to chapter 43.88 RCW. During the 2009-2011 biennium, sums in the public facilities construction loan revolving account may be used for community economic revitalization board export assistance grants and loans in section 1018, chapter 36, Laws of 2010 1st sp. sess. and for matching grants for the federal energy regional innovation cluster in section 1017, chapter 36, Laws of 2010 1st sp. sess. During the 2013-2015 biennium, sums in the public facilities construction loan revolving account may be used for the animal disease traceability project in section 3247, chapter 19, Laws of 2013 2nd sp. sess., administered by the department of agriculture.

The director shall notify the department of revenue of this amount by the fifteenth day of each calendar quarter. The director may immediately establish an initial financial assistance reserve of five million dollars from available revenues. The director may not expend more than fifteen million dollars for the financial assistance program.

(4) During the 2013-2015 fiscal biennium, the legislature may transfer from the pollution liability insurance program trust account to the state general fund such amounts as reflect the excess fund balance of the account.

(5) During the 2013-2015 fiscal biennium, the pollution liability insurance program trust account may be used for other underground storage tank cleanup projects as provided in sections 1023, 2011, and 5009, chapter . . . ., Laws of 2014 (this act).

(6) This section expires July 1, 2020.

The Washington state historical society shall establish a competitive process to solicit proposals for and prioritize heritage capital projects for potential funding in the state capital budget. The society shall adopt rules governing project eligibility and evaluation criteria. The list shall include a description of each project, the amount of recommended state funding, and documentation of nonstate funds to be used for the project. The total amount of recommended state funding for projects on a biennial project list shall not exceed ten million dollars. The prioritized list shall be developed through open and public meetings and the amount of state funding shall not exceed thirty-three and one-third percent of the total cost of the project. The nonstate portion of the total project cost may include cash, the value of real property when acquired solely for the purpose of the project, and in-kind contributions. The department shall not sign contracts or otherwise financially obligate funds under this section until the legislature has approved a specific list of projects. In contracts for grants authorized under this section, the society shall include provisions requiring that capital improvements be held by the grantee for a specified period of time appropriate to the amount of the grant and that facilities be used for the express purpose of the grant. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant. "PART I

INTENT

NEW SECTION. Sec. 101. The legislature finds that school districts are strapped for the physical space to meet education funding reforms as provided in chapter 548, Laws of 2009 (Engrossed Substitute House Bill No. 2261) and chapter 236, Laws of 2010 (Substitute House Bill No. 2776), as interpreted in McCleary v. State, related to all-day kindergarten and K-3 class size reduction. The legislature further finds that a program of near-term state grants without a local match requirement will assist school districts to provide these new programs by the scheduled full implementation date of the 2017-18 school year. The legislature further finds that school districts will need flexibility in determining the most appropriate construction method to accommodate the additional classroom space, including permanent construction, modular construction, or portables. The legislature further finds that the use of lottery revenues for common schools is consistent with the construction objectives of chapter 3, Laws of 2001 (Initiative Measure No. 728). Therefore, it is the intent of the legislature to authorize seven hundred million dollars in lottery revenue bonds for grants to school districts to support the physical capacity required for statewide implementation of all-day kindergarten and K-3 class size reduction beginning with the 2015-2017 fiscal biennium.

PART II

BOND AUTHORIZATION

NEW SECTION. Sec. 201. LOTTERY REVENUE BONDS AUTHORIZED. (1) For the purpose of providing needed construction assistance to support all-day kindergarten and K-3 class size reduction, the state finance committee is authorized to issue a total of seven hundred seven million dollars of lottery revenue bonds, or as much
thereof as may be required, payable from the Washington opportunity pathways account revenues under RCW 28B.76.526, which consist of net lottery revenues deposited in the lottery account created in RCW 67.70.230, and net shared game lottery revenues deposited in the shared game lottery account in RCW 67.70.044, as such revenues are defined in section 202 of this act, to finance these projects and all costs incidental thereto.

(2) Bonds authorized in this section may be sold at such price as the state finance committee shall determine. No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

(3) The state finance committee may determine and include in any resolution authorizing the issuance of any bonds authorized by this section and sections 202 through 207 of this act such terms, provisions, covenants, and conditions as it may deem appropriate in order to assist with the marketing and sale of the bonds, confer rights upon the owners of bonds, and safeguard rights of the owners of bonds, including, among other things:

(a) Provisions that the bonds shall be payable solely from and secured solely by the Washington opportunity pathways account revenues under RCW 28B.76.526, as such revenues are defined in section 202 of this act;

(b) The conditions that must be satisfied prior to the issuance of any additional bonds that are to be payable from and secured by the Washington opportunity pathways account revenues, as such revenues are defined in section 202 of this act, on equal basis with previously issued and outstanding bonds payable from the net lottery revenues and net shared game lottery revenues;

(c) Provisions regarding debt service reserves and credit enhancement; and

(d) Whether bonds may be issued as tax-exempt bonds or must be issued as taxable bonds under the applicable provisions of the federal internal revenue code.

NEW SECTION. Sec. 202. WASHINGTON OPPORTUNITY PATHWAYS ACCOUNT/LOTTERY REVENUES PLEDGED TO BONDS. (1) Each bond issued under the authority of this section and sections 201 and 203 through 207 of this act shall distinctly state that payment or redemption of the bond and payment of the interest and any premium thereon is payable solely from and secured solely by a pledge of the Washington opportunity pathways account revenues under RCW 28B.76.526, which consist of net lottery revenues received in the lottery account established in RCW 67.70.230 and net shared game lottery revenues received in the shared game lottery account in RCW 67.70.044 and is not a general obligation of the state to which the full faith and credit of the state is pledged. The legislature covenants to appropriate the Washington opportunity pathways account revenues pledged to the payment of the bonds issued under this section and sections 201 and 203 through 207 of this act. The legislature further agrees for the benefit of the owners of outstanding bonds issued by the state under this section and sections 201 and 203 through 207 of this act to continue in effect and not to impair the operation of the state lottery as authorized in chapter 67.70 RCW for the payment and security of the bonds. The state finance committee shall include this pledge and agreement of the state to owners of any bonds issued under this section and sections 201 and 203 through 207 of this act. The owner of any bond or the trustee for the owner of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of pledged revenues as directed in this section.

(2) For purposes of this section and sections 201 and 203 through 209 of this act:

(a) "Washington opportunity pathways account revenues" means all revenues of the Washington opportunity pathways account in RCW 28B.76.526 including, but not limited to, net lottery revenues and net shared game lottery revenues;

(b) "Net lottery revenues" means all revenues deposited in the lottery account, excluding revenues used to make the following distributions under RCW 67.70.240: Payment of prizes under RCW 67.70.240(1)(a) other than unclaimed prizes under RCW 67.70.190; deposits made by the lottery commission in the reserve account and lottery administrative account under RCW 67.70.240(1)(b); amounts obligated under RCW 67.70.240(1)(d); amounts used for the purchase and promotion of games and services under RCW 67.70.240(1)(e); and payments to agents under RCW 67.70.240(1)(f); and

(c) "Net shared game lottery revenues" means all moneys deposited in the shared game lottery account in RCW 67.70.044 excluding direct expenses of the shared game.

Sec. 203. RCW 67.70.230 and 2010 1st sp.s. c 37 s 941 are each amended to read as follows:

NET LOTTERY REVENUES PLEDGED TO BONDS. There is hereby created and established a separate account, to be known as the state lottery account. Such account shall be managed, maintained, and controlled by the commission and shall consist of all revenues received from the sale of lottery tickets or shares, and all other moneys credited or transferred thereto from any other fund or source pursuant to law. The account shall be a separate account outside the state treasury. No appropriation is required to permit repayment and payment of obligations from the account. (During the 2009-2011 fiscal biennium, the legislature may transfer from the state lottery account to the education legacy trust account such amounts as reflect the excess fund balance of the account.) As set forth in section 202 of this act, net lottery revenues are pledged to principal and interest payments on bonds issued under section 201 of this act, including any required reserves as provided in the bond proceedings, and must be transferred for this purpose by the state treasurer into the Washington opportunity pathways account in RCW 28B.76.526.

Sec. 204. RCW 67.70.044 and 2010 1st sp.s. c 37 s 940 are each amended to read as follows:

NEW SECTION. Sec. 205. BOND PROCEEDS DEPOSITED INTO EDUCATION CONSTRUCTION REVENUE BOND PROCEEDS ACCOUNT. The proceeds from the sale of bonds authorized in section 201 of this act shall be deposited in the education construction revenue bond proceeds account hereby created in the state treasury. Moneys in the account may be spent only after appropriation and only for the purposes stated in section 201 of this act, for the payment of bond anticipation notes or other interim financing, if any, capitalizing interest on the bonds, and payment of expenses incurred in the sale and issuance of the bonds, including underwriter compensation. The state treasurer may establish subaccounts in the account for the purpose of segregating bond proceeds, including
separate subaccounts for segregating proceeds of tax-exempt bonds and taxable bonds.

Sec. 206. RCW 28B.76.526 and 2010 1st sp.s. c 27 s 2 are each amended to read as follows:

WASHINGTON OPPORTUNITY PATHWAYS ACCOUNT; PRIORITY PLEDGE OF REVENUES TO BONDS. (1) The Washington opportunity pathways account is created in the state treasury. Deposits to the account must include net lottery revenues as defined in section 202 of this act that are required to be deposited in the account pursuant to RCW 67.70.230, net shared game lottery revenues as defined in section 202 of this act that are required to be deposited in the account pursuant to RCW 67.70.044, and any other amounts directed by the legislature to be transferred to or deposited in the account.

(2) As set forth in sections 202, 208, and 209 of this act, net lottery revenues and net shared game lottery revenues deposited in the account are pledged to principal and interest payments on bonds issued under section 201 of this act, including any required reserves as provided in the bond proceedings. This pledge of Washington opportunity pathways account revenues to pay and service bonds issued under section 201 of this act takes priority over the use of Washington opportunity pathways account revenue to make any other expenditures from the account for any other purpose. Before any other expenditures may be made from the account, moneys in the account must have been expended or set aside on or before the applicable payment date for debt service requirements and debt service reserve requirements of the bonds issued under section 201 of this act in the amounts certified from time to time by the state finance committee pursuant to section 207 of this act. The state finance committee in the bond proceedings may provide for the establishment of a special subaccount in the account to serve as a debt service reserve fund for bonds issued under section 201 of this act.

(3) After applicable debt service requirements and debt service reserve requirements for bonds issued under section 201 of this act have been satisfied or provided for pursuant to subsection (2) of this section, other expenditures from the account may be made only for programs in chapter 28B.12 RCW (state work-study), chapter 28B.50 RCW (opportunity grant), RCW 28B.76.660 (Washington scholars award), RCW 28B.76.670 (Washington award for vocational excellence), chapter 28B.92 RCW (state need grant program), chapter 28B.101 RCW (educational opportunity grant), chapter 28B.105 RCW (GET ready for math and science scholarship), chapter 28B.117 RCW (passport to college promise), chapter 28B.118 RCW (college bound scholarship), chapter 28B.119 RCW (Washington promise scholarship), chapter 43.215 RCW (early childhood education and assistance program), and RCW 43.330.280 (recruitment of entrepreneurial researchers, innovation partnership zones and research teams).

NEW SECTION. Sec. 207. RETIREMENT OF BONDS. (1) The nondebt- limit bond retirement account shall be used for the payment of principal and interest on the bonds authorized in section 201 of this act.

(2) The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount required for principal and interest payments on the bonds and the amounts, if any, required for the funding or replenishment of any debt service reserve fund for the bonds in accordance with the bond proceedings.

(3) On each date on which any principal and interest payment is due on bonds or on which any amount is required for the funding or replenishment of any debt service reserve fund for bonds issued for the purposes of section 201 of this act, the state treasurer shall withdraw from the Washington opportunity pathways account an amount equal to the amount certified by the state finance committee to be due or required on such date.

Sec. 208. RCW 67.70.240 and 2013 c 136 s 1 are each amended to read as follows:

DISTRIBUTION OF LOTTERY REVENUES. (1) The moneys in the state lottery account may be used only:

(a) For the payment of prizes to the holders of winning lottery tickets or shares;

(b) For purposes of making deposits into the reserve account created by RCW 67.70.250 and into the lottery administrative account created by RCW 67.70.260;

(c) For purposes of making deposits into the Washington opportunity pathways account created in RCW 28B.76.526. Moneys in the state lottery account deposited in the Washington opportunity pathways account are included in "general state revenues" under RCW 39.42.020(2).

(d) For deposits in the Washington opportunity pathways account for purposes of debt service payments and any required reserve on bonds issued under section 201 of this act and for other authorized purposes of the account after such payments are made;

(e) For the purchase and promotion of lottery games and game-related services; and

(f) For the payment of agent compensation.

(2) The office of financial management shall require the allotment of all expenses paid from the account and shall report to the ways and means committees of the senate and house of representatives any changes in the allotments.

Sec. 209. RCW 67.70.340 and 2012 1st sp.s. c 10 s 6 are each amended to read as follows:

DISTRIBUTION OF SHARED GAME REVENUES. (1) ((The legislature recognizes that creating a shared game lottery could result in less revenue being raised by the existing state lottery ticket sales. The legislature further recognizes that the fund most impacted by this potential event is the Washington opportunity pathways account. Therefore, it is the intent of the legislature to use some of the proceeds from the shared game lottery to make up the difference that the potential state lottery revenue loss would have on the Washington opportunity pathways account. The legislature further intends to use some of the proceeds from the shared game lottery to fund programs and services related to problem and pathological gambling.)) The Washington opportunity pathways account is expected to receive one hundred two million dollars annually from state lottery games other than the shared game lottery. For fiscal year 2011 and thereafter, if the amount of lottery revenues earmarked for the Washington opportunity pathways account is less than one hundred two million dollars, the commission, after making the transfer required under subsection (2) of this section, must transfer sufficient monies from revenues derived from the shared game lottery to the Washington opportunity pathways account to bring the total revenue up to one hundred two million dollars.

(2) The Washington opportunity pathways account is expected to receive one hundred two million dollars annually from state lottery games other than the shared game lottery. For fiscal year 2011 and thereafter, if the amount of lottery revenues earmarked for the Washington opportunity pathways account is less than one hundred two million dollars, the commission, after making the transfer required under subsection (2) of this section, must transfer sufficient monies from revenues derived from the shared game lottery to the Washington opportunity pathways account to bring the total revenue up to one hundred two million dollars.

(3))) If at any time the amount available to be transferred from the state lottery account in RCW 67.70.240 to the Washington opportunity pathways account pursuant to section 207 of this act is insufficient to satisfy the amount certified under RCW 28B.76.526, then before the commission may make any transfers under this section the treasurer must transfer net shared game lottery revenues from the shared game lottery account to the Washington opportunity pathways account.

(a) The commission shall transfer, from revenue derived from the shared game lottery, to the problem gambling account created in RCW 43.20A.892, an amount equal to the percentage specified in (b) of this subsection of net receipts. For purposes of this subsection, "net
receipts" means the difference between (i) revenue received from the sale of lottery tickets or shares and revenue received from the sale of shared game lottery tickets or shares; and (ii) the sum of payments made to winners.

(b) In fiscal year 2006, the percentage to be transferred to the problem gambling account is one-tenth of one percent. In fiscal year 2007 and subsequent fiscal years, the percentage to be transferred to the problem gambling account is thirteen one-hundredths of one percent.

((44)) (2) The commission shall transfer the remaining net revenues, if any, derived from the shared game lottery "Powerball" authorized in RCW 67.70.044(1) after the transfers pursuant to this section into the state general fund for support for the program of basic education under RCW 28A.150.200.

((44)) (3) The remaining net revenues, if any, in the shared game lottery account after the transfers pursuant to this section shall be deposited into the Washington opportunity pathways account.

Sec. 210. RCW 67.70.040 and 2006 c 290 s 3 are each amended to read as follows:

I. LOTTERY COMMISSION DUTIES. The commission shall have the power, and it shall be its duty:

(1) To adopt rules governing the establishment and operation of a state lottery as it deems necessary and desirable in order that such a lottery be initiated at the earliest feasible and practicable time, and in order that such lottery produce the maximum amount of net revenues for the state consonant with the dignity of the state and the general welfare of the people. The use of electronic or mechanical devices or video terminals which allow for individual play against such devices or terminals shall be prohibited. An affirmative vote of sixty percent of both houses of the legislature is required before offering any game allowing or requiring a player to become eligible for a prize or to otherwise play any portion of the game by interacting with any device or terminal involving digital, video, or other electronic representations of any game of chance, including scratch tickets, pull- tabs, bingo, poker or other cards, dice, roulette, keno, or slot machines. Approval of the legislature shall be required before entering any agreement with other state lotteries to conduct shared games;

(b) The price, or prices, of tickets or shares in the lottery;

(c) The numbers and sizes of the prizes on the winning tickets or shares;

PART II

HUMAN SERVICES

Sec. 201. 2013 2nd sp.s. c 4 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.
(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The health care authority and the department are authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage health care expenditures for the aged and disabled population. Under the Washington medicare integration partnership (WMIP) and the medicare integrated care project (MICP), the health care authority and the department may combine and transfer such medicare funds appropriated under sections 204, 206, 208, and 213 of this act as may be necessary to finance a unified health care plan for the WMIP and the MICP program enrollment. The WMIP pilots project shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county during the 2013-2015 fiscal biennium. The amount of funding assigned from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. In implementing the WMIP and the MICP, the health care authority and the department may—(i) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for enrolled individuals; and (ii) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicare and medicaid programs.

(b) If Washington has been selected to participate in phase two of the federal demonstration project for persons dually-eligible for both medicare and medicaid, the department and the authority may initiate the MICP. Participation in the project shall be limited to persons who are eligible for both medicare and medicaid and to counties in which the county legislative authority has agreed to the terms and conditions under which it will operate. The purpose of the project shall be to demonstrate and evaluate ways to improve care while reducing state expenditures for persons enrolled both in medicare and medicaid. To that end, prior to initiating the project, the department and the authority shall assure that state expenditures shall be no greater on either a per person or total basis than the state would otherwise incur. Individuals who are solely eligible for medicare may also participate if their participation is agreed to by the health care authority, the department, and the county legislative authority.

(4) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(5) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in section 213 of this act. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(6) The department shall facilitate enrollment under the medicare expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for the medicare expansion but are enrolled in coverage that will be eliminated in the transition to the medicare expansion.

(7)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2014, unless specifically prohibited by this act, the department may transfer general fund—state appropriations for fiscal year 2014 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2014 caseload forecasts and utilization assumptions in the long-term care, foster care, adoptions support, medicaid personal care, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

The reductions to appropriations in this subsection related to semi-secure crisis residential centers reflect a reduction to the number of beds for semi-secure crisis residential centers and not a reduction in rates. Any secure crisis residential center or semi-secure crisis residential center bed reduction shall not be based solely upon bed utilization. The department is to exercise its discretion in reducing the number of beds but to do so in a manner that maintains availability and geographic representation of semi-secure and secure crisis residential centers.

Long-term cost benefit must be considered. Percentage changes may occur in the evidence-based program or disposition alternative categories of the formula should it be determined the changes will increase evidence-based program or disposition alternative delivery and increase the cost benefit to the state. Projects funded should focus on preventing, intervening, and suppressing behavioral problems and violence while linking at-risk youth to pro-social activities. The costs of administration may not exceed four percent of appropriated funding for each grant recipient. Each entity receiving funds must report to the juvenile rehabilitation administration on the number and types of youth served, the services provided, and the impact of these services upon the youth and the community.

General Fund–State Appropriation (FY 2015) ............................................................ (($308,723,000))
$329,211,000

General Fund–Federal Appropriation ........................................................................ ($561,394,000)
$666,113,000

General Fund–Private/Local Appropriation ............................................................... $17,864,000

TOTAL APPROPRIATION .......................................................................................... (($1,341,715,000))

$1,341,715,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) $104,999,000 of the general fund–state appropriation for fiscal year 2014 and (($85,895,000)) $88,895,000 of the general fund–state appropriation for fiscal year 2015 are provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. This is a reduction in flexible nonmedicaid funding of $4,343,000 for fiscal year 2014 and (($23,446,000)) $20,446,000 for fiscal year 2015. This reduction reflects offsets in state funding related to services that will now be funded with federal dollars through the affordable care act mandate expansion. This reduction shall be distributed as follows:

(i) The $4,343,000 reduction in fiscal year 2014 and ($11,723,000 of the reduction in fiscal year 2015 must be distributed)) among regional support networks based on a formula that equally weights each regional support networks proportion of individuals who become newly eligible and enroll in medicaid under the expansion provisions of the affordable care act (in fiscal year 2014) and each regional support network's spending of flexible nonmedicaid funding on services that would be reimbursable for federal medicaid matching funds if provided to medicaid enrollees in the 2011-2013 fiscal biennium.

(ii) The remaining $11,723,000 reduction in fiscal year 2015 must be distributed among regional support networks based on each regional support network's proportion of individuals who become newly eligible and enroll in medicaid under the expansion provisions of the affordable care act through fiscal year 2015.])

(b) $6,590,000 of the general fund–state appropriation for fiscal year 2014, $6,590,000 of the general fund–state appropriation for fiscal year 2015, and $7,620,000 of the general fund–federal appropriation are provided solely for the department and regional support networks to continue to contract for implementation of high- intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to regional support networks with PACT teams, the department shall consider the differences between regional support networks in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow regional support networks which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under section 204(1)(a) of this act. The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) $5,856,000 of the general fund–state appropriation for fiscal year 2014, $5,856,000 of the general fund–state appropriation for fiscal year 2015, and $13,000,000 of the general fund–federal appropriation are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care previously provided by the program for adaptive living skills (PALS) at western state hospital.

(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 557 per day.

(e) From the general fund–state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund–state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.
(f) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(g) $750,000 of the general fund--state appropriation for fiscal year 2014 and $750,000 of the general fund--state appropriation for fiscal year 2015 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(h) $1,125,000 of the general fund--state appropriation for fiscal year 2014 and $1,125,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(i) $1,529,000 of the general fund--state appropriation for fiscal year 2014 and $1,529,000 of the general fund--state appropriation for fiscal year 2015 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(j) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(k) $3,436,000 of the general fund--state appropriation for fiscal year 2014 and $2,291,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(l) $523,000 of the general fund--state appropriation for fiscal year 2014, $775,000 of the general fund--state appropriation for fiscal year 2015, and $854,000 of the general fund--federal appropriation are provided solely for implementation of sections 3 through 5 of chapter 289, Laws of 2013 (E2SHB 1114). Regional support networks must use this funding for the development of intensive community programs that allow individuals to be diverted or transitioned from the state hospitals in accordance with plans approved by the department.

(m) $5,986,000 of the general fund--state appropriation for fiscal year 2014, $11,592,000 of the general fund--state appropriation for fiscal year 2015, and $10,160,000 of the general fund--federal appropriation are provided solely for implementation of chapter 335, Laws of 2013 (ESSB 5480). Regional support networks must use this funding for the development of intensive community programs that allow individuals to be diverted or transitioned from the state hospitals in accordance with plans approved by the department.

(n) Due to recent approval of federal medicaid matching funds for the disability lifeline and the alcohol and drug abuse treatment support act programs, the department shall charge regional support networks for only the state share rather than the total cost of community psychiatric hospitalization for persons enrolled in those programs.

(o) The legislature finds that the circumstances of the Chelan- Douglas regional support network (CD-RSN) make it necessary for CD-RSN to undergo restructuring in order to provide mental health services essential to the health and wellness of the citizens within its service area. The legislature intends to provide additional temporary financial relief to the CD-RSN while it undergoes internal restructuring or negotiates a merger with another regional support network.

The department shall negotiate relief for outstanding fiscal year 2013 reimbursements owed by CD-RSN to the state provided that the CD-RSN has a plan in place that is approved by the department by August 1, 2013, that demonstrates how CD-RSN will maintain financial viability and stability or will merge with another regional support network.

For the period of July 1, 2013, through December 31, 2013, the department may alter collection of reimbursement from CD-RSN for overuse of state hospital beds. To receive a reduction to the required reimbursement for overuse of state hospital beds, CD-RSN must continue to prioritize services that reduce its utilization and census at eastern state hospital and be actively implementing an approved plan to maintain financial viability or pursuing a future merger with another regional support network. Up to $298,000 of the general fund--state appropriation for fiscal year 2014 is for the department to provide payments to regional support networks in eastern Washington which have used less than their allocated or contracted patient days of care at the state hospital to replace the share of the reimbursements from CD-RSN that the regional support networks would have received under RCW 71.24.320.

(p) $266,000 of the general fund--state appropriation for fiscal year 2014 (ii) and $1,500,000 of the general fund--state appropriation for fiscal year 2015 are provided solely to maintain services for the King county regional support network as it works to transition services to settings that are eligible for federal participation for individuals covered under the medicaid program.

(q) Within the amounts appropriated in this section, funding is provided for the department to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in T.R. v. Dreyfus and Porter.

(r) $7,281,000 of the general fund--state appropriation for fiscal year 2015 and $4,589,000 of the general fund--federal appropriation are provided solely for implementation of Substitute House Bill No. 2725 (involuntary commitment) and enhancement of community mental health services. The department must contract these funds for the operation of the following community programs that allow individuals to be diverted or transitioned from the state hospitals: (i) Community hospital or free standing evaluation and treatment services providing short-term detention and commitment services under the involuntary treatment act to be located in the geographic areas of the King regional support network, the Spokane regional support network outside of Spokane county, and the Thurston Mason regional support network; (ii) one new full program of an
assertive community treatment team in the King regional support network and two new half programs of assertive community treatment teams in the Spokane regional support network and the Pierce regional support network; and (iii) three new recovery support services programs in the Grays Harbor regional support network, the Greater Columbia regional support network, and the North Sound regional support network. In contracting for community evaluation and treatment services, the department may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the department is unable to come to a contract agreement with a designated regional support network for any of the services identified above, it may consider contracting for that service in another regional support network that has the need for such service.
