The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2015, and by November 1, 2016, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2016 and fiscal year 2017, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2015-2017 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2015-2017 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $14,014,000 of the general fund-state appropriation for fiscal year 2016 and $9,700,000 of the general fund-state appropriation for fiscal year 2017 are provided solely for state grants for the participating hospitals.

"Sec. 960. RCW 43.88.055 and 2012 1st sp.s. c 8 s 1 are each amended to read as follows:

(1) The legislature must adopt a four-year balanced budget as follows:

(a) Beginning in the 2013-2015 fiscal biennium, the legislature shall enact a balanced omnibus operating appropriations bill that leaves, in total, a positive ending fund balance in the general fund and related funds.

(b) Beginning in the 2013-2015 fiscal biennium, the projected maintenance level of the omnibus appropriations bill enacted by the legislature shall not exceed the available fiscal resources for the next ensuing fiscal biennium.

(2) For purposes of this section:

(a) "Available fiscal resources" means the beginning general fund and related fund balances and any fiscal resources estimated for the general fund and related funds, adjusted for enacted legislation, and with forecasted revenues adjusted to the greater of (i) the official general fund and related funds revenue forecast for the ensuing biennium, or (ii) the official general fund and related funds forecast for the second fiscal year of the current fiscal biennium, increased by 4.5 percent for each fiscal year of the ensuing biennium;

(b) "Projected maintenance level" means estimated appropriations necessary to maintain the continuing costs of program and service levels either funded in that appropriations bill or mandated by other state or federal law, and the amount of any general fund moneys projected to be transferred to the budget stabilization account pursuant to Article VII, section 12 of the state Constitution, but does not include the costs related to the enhanced funding under the new definition of basic education as established in chapter 548, Laws of 2009, and affirmed by the decision in Mathew McCleary et al., v. The State of Washington, 173 Wn.2d 477, 269 P.3d 227, (2012), from which the short-term exclusion of these obligations is solely for the purposes of calculating this estimate and does not in any way indicate an intent to avoid full funding of these obligations;

(c) "Related funds," as used in this section, means the Washington opportunity pathways account and the education legacy trust account.

(3) Subsection (1)(a) and (b) of this section does not apply to an appropriations bill that makes net reductions in general fund and related funds appropriations and is enacted between July 1st and February 15th of any fiscal year.

(4) Subsection (1)(b) of this section does not apply in a fiscal biennium in which money is appropriated from the budget stabilization account.

(5) (a) When any legislator or caucus of either house of the legislature introduces or otherwise publicly proposes omnibus operating appropriations legislation, that legislation must propose operating expenditures based on the estimated revenues and caseloads as approved by the economic and revenue forecast counsel and caseload forecast council, and upon revenue and caseload estimates of the office of financial management for those accounts and programs for which the forecast councils do not prepare an official forecast. Revenues to support those proposed operating expenditures must be estimated from sources and rates existing at the time of the introduction or public proposal of the legislation.

(b) If a legislator or caucus of either house of the legislature has introduced or publicly proposed omnibus operating appropriations legislation that complies with (a) of this subsection (5), then the legislator or caucus may also introduce, as an appendix to that legislation, a proposal for expenditures that relies on revenues derived from changes in existing revenue statutes.

POINT OF ORDER

Representative Tarleton requested a scope and object ruling on amendment (394) to the striking amendment (330).

SPEAKER'S RULING

Mr. Speaker(Representative Lovick presiding): The bill before us is the operating budget. The scope and object of a budget bill does not extend to permanent changes in substantive law. One of the factors to be considered in determining whether a provision is substantive law is whether it modifies statutory rights or obligations.

Amendment 394 amends the industrial insurance act to exempt certain persons from workers compensation coverage and benefits.

The speaker therefore finds and rules that the amendment is beyond the scope and object of the budget bill. The point of order is well taken.

Amendment (394) to the striking amendment (330) was not adopted.

Representative Maycumber moved the adoption of amendment (331) to the striking amendment (330):

On page 315, after line 9, insert the following:

"NEW SECTION. Sec. 980. A new section is added to chapter 84.40 RCW to read as follows:

(1) If, on or before June 30th of 2017 through 2018, water supply to any real property placed upon the assessment roll of that year is impacted by a water ruling, the property must be reassessed to reflect the true and fair value of the property after the water ruling.

(2) The assessor must make such a reduction within one year after the water ruling; however, the taxpayer may apply for the reduction on forms prepared by the department and provided by the assessor.
The assessor must notify the taxpayer of the amount of the reduction.

(3) The taxpayer may appeal the amount of reduction to the county board of equalization in accordance with the provisions of RCW 84.40.038.

(4) For the purposes of this section, "water ruling" means any federal or state appellate court ruling that impacts, directly or indirectly, water supply to any parcel or parcels or the process or procedures for proving the adequacy of water supply to a parcel, as well as any court ruling that requires a change in county ordinance, comprehensive plan, development regulation, or procedures or policies concerning approval of building permits under RCW 19.27.097 or approval of subdivisions under RCW 58.17.110.

(5) If any reassessment has been conducted under this section, the county assessor must prepare a report that includes, but is not limited to, the number of parcels with reduced value and the number of parcels to which a tax burden was shifted, and the extent of the tax shift. The report is due to the department by March 1st, 2019 for calendar year 2018. The county must bill the state for the costs of the reassessment and preparation of the report, and the state has the obligation to appropriate sufficient money to cover the cost in accordance with RCW 43.135.060."

REPORTS OF STANDING COMMITTEES

March 30, 2017

SSB 5453 Prime Sponsor, Committee on Ways & Means: Concerning school construction assistance grants for small, rural school districts. Reported by Committee on Capital Budget

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 28A.525 RCW to read as follows:

(1) School construction assistance program grants for small, rural districts must be determined in accordance with this section.

(2) Eligibility. Small, rural district modernization grants are for school districts with enrollments that are less than or equal to one thousand students. For school districts that, because of low assessed property values or high indebtedness, are not eligible for school construction assistance program modernization grants, the office of the superintendent of public instruction shall recommend measures for those school districts to become eligible in the small, rural district school construction assistance program. Districts with incomplete information in the inventory and condition of schools data system are not eligible to apply.

(3) Coordination with the school construction assistance program (SCAP)."
(a) The full administrative and procedural process of SCAP funding may be streamlined by the office of the superintendent of public instruction in order to coordinate eligible SCAP funding with the small, rural district modernization grants. Such coordination must ensure that total state funding from both grants does not exceed total project costs minus available local resources.

(b) Projects seeking small, rural district modernization grants must meet the requirements for a SCAP grant except for the following:

(i) The estimated cost of the project may be less than forty percent of the estimated replacement value of the facility, and

(ii) Local funding assistance percentage requirements of the SCAP do not apply. However, available district resources are considered in prioritizing small rural school grants.

(4) Prioritized grants and advisory committee.

(a) The small, rural district school modernization program must propose a list of prioritized grants by September 1st of even-numbered years. The superintendent of public instruction must appoint an advisory committee to prioritize applications for small, rural school districts. Committee members must have experience in financing, managing, repairing, and improving school facilities in small, rural districts but must not be involved in a small, rural modernization program request for the biennium under consideration. The office of the superintendent of public instruction must provide administrative and staff support to the committee. The committee must review and rank applications in the three-step process in this subsection (4).

(b) Step one must involve a simplified application from interested districts with a brief statement of the school condition, its deficiencies, student enrollment, student achievement measures, and financial limitations of the district. The advisory committee created in (a) of this subsection must identify a preliminary list of school districts with the most serious building deficiencies, the most limited financial capacity, and the greatest student opportunity gaps given the condition of school facilities.

(c) After identifying the list of school districts under (b) of this subsection, the advisory committee created in (a) of this subsection and the office of superintendent of public instruction must offer technical assistance to the districts on the list to develop affordable and effective proposals to resolve the most serious building deficiencies.

(d) After offering technical assistance under (c) of this subsection, the advisory committee created in (a) of this subsection must evaluate final applications from the school districts on the first list interested in pursuing a grant. The advisory committee must submit a prioritized list of grants to the superintendent of public instruction and the governor. The list must prioritize applications to achieve the greatest improvement of school facilities, in the districts with the most limited financial capacity, for projects that are likely to improve student health, safety, and academic performance for the largest number of students for the amount of state grant support. The advisory committee must develop specific criteria to achieve the prioritization. The submitted prioritized list must describe the project, the proposed state funding level, and the estimated total project cost including other funding and in-kind resources. The list must also indicate student achievement measures that will be used to evaluate the benefits of the project. The superintendent of public instruction and the governor may determine the level of funding in their omnibus capital appropriations act requests to support small, rural school district grants, but their funding requests must follow the prioritized list prepared by the advisory committee unless new information determines that a specific project is no longer viable as proposed.

(5) Disbursement of grant funds and reporting requirements. The office of the superintendent of public instruction must execute a contract with school districts receiving small, rural school modernization grants. The contract must not be executed until the district has identified available local and other resources sufficient to complete the approved project considering the amount of the state grant. The contract must include provisions for disbursing state funds for eligible project costs incurred. When a district has used local funds for costs eligible for state fund reimbursement under a small, rural modernization grant, if the state funds are not applied to
eligible project costs, use of the state funds must comply with the requirements of the applicable source of local funds. The contract must specify reporting requirements from the district, which must include updating all pertinent information in the inventory and condition of schools system and submitting a final project report as specified by the office of the superintendent of public instruction in consultation with the school facilities citizens advisory committee specified in RCW 28A.525.025."

NEW SECTION. Sec. 101. A new section is added to chapter 54.28 RCW to read as follows:

(1) The following provisions of chapter 82.32 RCW apply with respect to the state taxes administered by the department of revenue under this chapter, unless the context clearly requires otherwise: RCW 82.32.050, 82.32.060, 82.32.070, 82.32.080, 82.32.085, 82.32.090, 82.32.100, 82.32.105, 82.32.110, 82.32.117, 82.32.120, 82.32.130, 82.32.135, 82.32.150, 82.32.160, 82.32.170, 82.32.180, 82.32.190, 82.32.200, 82.32.210, 82.32.235, 82.32.237, 82.32.240, 82.32.270, 82.32.310, 82.32.320, 82.32.330, 82.32.340, 82.32.350, 82.32.360, 82.32.410, and any other provision of chapter 82.32 RCW specifically referenced in the statutes listed in this subsection (1).

(2) Chapter 82.32 RCW also applies with respect to the state taxes administered by the department of revenue under this chapter to the extent provided in any other provision of law.

(3) The definitions in this chapter have full force and application with respect to the application of chapter 82.32 RCW to this chapter unless the context clearly requires otherwise.

NEW SECTION. Sec. 102. RCW 54.28.040 and 1996 c 149 s 16 are each amended to read as follows:

(1) Before May 1st of each calendar year through calendar year 2018, the department of revenue must compute the tax imposed by this chapter for the last preceding calendar year and notify the district of the amount thereof, which shall be payable on or before the following June 1st.

(2) If payment of any tax is not received by the department on or before the due date, there shall be assessed a penalty of five percent of the amount of the tax; if the tax is not received within one month of the due date, there shall be assessed a total penalty of ten percent of the amount of the tax; and if the tax is not received within two months of the due date, there shall be assessed a total penalty of twenty percent of the amount of the tax.

For tax reporting periods beginning on or after January 1, 2018, taxpayers must report the taxes due under RCW 54.28.020 and 54.28.025 on returns as prescribed by the department of revenue. Except as otherwise provided in this subsection (2), taxes imposed in RCW 54.28.020 and 54.28.025 are due for a taxpayer at the same time as the taxpayer's payment of taxes imposed under chapters 82.04 and 82.16 RCW. The department of revenue may allow taxpayers to report and pay the taxes due under RCW 54.28.020 and 54.28.025 on an annual basis, even if they report taxes imposed under chapters 82.04 and 82.16 RCW more frequently than annually. In such cases, the taxes imposed in RCW 54.28.020 and 54.28.025 are due at the same time as the taxes under chapters 82.04 and 82.16 RCW for the taxpayer's final reporting period for the calendar year.

(3) The department of revenue may require persons to report such information as needed by the department to administer this chapter.

(4) Upon receipt of the amount of each tax imposed the department of revenue shall deposit the same with the state treasurer, who must deposit four percent of the revenues received under RCW 54.28.020(1) and 54.28.025(1) and all revenues received under RCW 54.28.020(2) and 54.28.025(2) in the general fund of the state and must distribute the remainder in the manner hereinafter set forth. The state treasurer must send a duplicate copy of each transmittal to the department of revenue.
Sec. 104. RCW 54.28.050 and 1982 1st ex.s. c 35 s 21 are each amended to read as follows:

((After computing the tax imposed by RCW 54.28.020(1)),) (1) Except as provided in subsection (2) of this section, the department of revenue ((shall)) must instruct the state treasurer, after placing thirty-seven and six-tenths percent of the taxes collected under RCW 54.28.020(1) in the state general fund to be dedicated for the benefit of the public schools, to distribute the balance collected under RCW 54.28.020(1)(a) to each county in proportion to the gross revenue from sales made within each county; and to distribute the balance collected under RCW 54.28.020(1) (b) and (c) as follows:

(a) If the entire generating facility, including reservoir, if any, is in a single county then all of the balance to the county where such generating facility is located((.));

(b) If any reservoir is in more than one county, then to each county in which the reservoir or any portion thereof is located a percentage equal to the percentage determined by dividing the total cost of the generating facilities, including adjacent switching facilities, into twice the cost of land and land rights acquired for any reservoir within each county, land and land rights to be defined the same as used by the federal ((power commission)) energy regulatory commission.

(c) If the powerhouse and dam, if any, in connection with such reservoir are in more than one county, the balance ((shall)) must be divided sixty percent to the county in which the owning district is located and forty percent to the other county or counties or if ((said)) the powerhouse and dam, if any, are owned by a joint operating agency organized under chapter 43.52 RCW, or by more than one district or are outside the county of the owning district, then to be divided equally between the counties in which such facilities are located. If all of the powerhouse and dam, if any, are in one county, then the balance ((shall)) must be distributed to the county in which the facilities are located.

(2) The department of revenue must instruct the state treasurer to adjust distributions under this section, in whole or in part, to account for each county's proportionate share of amounts previously distributed under this section and subsequently refunded to a public utility district under RCW 82.32.060.

(3) The provisions of this section ((shall)) do not apply to the distribution of taxes collected under RCW 54.28.025.

Sec. 105. RCW 54.28.055 and 1986 c 189 s 1 are each amended to read as follows:

((After computing the tax imposed by RCW 54.28.025(1))),) Except as provided in subsection (3) of this section, the department of revenue ((shall)) must instruct the state treasurer to distribute the amount collected under RCW 54.28.025(1) as follows:

(a) Fifty percent to the state general fund for the support of schools; and

(b) Twenty-two percent to the counties, twenty-three percent to the cities, three percent to the fire protection districts, and two percent to the library districts.

(2) Each county, city, fire protection district, and library district ((shall)) must receive a percentage of the amount for distribution to counties, cities, fire protection districts, and library districts, respectively, in the proportion that the population of such district residing within the impacted area bears to the total population of all such districts residing within the impacted area. For the purposes of this chapter, the term "library district" includes only regional libraries ((as defined in RCW 27.12.010(4))), rural county library districts ((as defined in RCW 27.12.010(5))), intercounty rural library districts ((as defined in RCW 27.12.010(6))), and island library districts as those terms are defined in RCW 27.12.010((7))). The population of a library district, for purposes of such a distribution, ((shall)) does not include any population within the library district and the impact area that also is located within a city or town.

(3) Distributions under this section must be adjusted as follows:

(a) If any distribution pursuant to subsection (1)(b) of this section cannot be made, then that share ((shall)) must be prorated among the state and remaining local districts.

(b) The department of revenue must instruct the state treasurer to adjust distributions under this section, in whole or in part, to account for each county's, city's, fire protection district's, and
library district's proportionate share of amounts previously distributed under this section and subsequently refunded to a public utility district under RCW 82.32.060.

(4) All distributions directed by this section to be made on the basis of population ((shall)) must be calculated in accordance with ((data to be provided)) population data as last determined by the office of financial management.

Sec. 106. RCW 82.32.105 and 1998 c 304 s 13 are each amended to read as follows:

(1) If the department ((of revenue)) finds that the payment by a taxpayer of a tax less than that properly due or the failure of a taxpayer to pay any tax by the due date was the result of circumstances beyond the control of the taxpayer, the department ((of revenue shall)) must waive or cancel any penalties imposed under this chapter with respect to such tax.

(2) The department ((shall)) must waive or cancel the penalty imposed under RCW 82.32.090(1) when the circumstances under which the delinquency occurred do not qualify for waiver or cancellation under subsection (1) of this section if:

(a) The taxpayer requests the waiver for a tax return required to be filed under RCW 54.28.040, 82.32.045, 82.14B.061, 82.23B.020, 82.27.060, 82.29A.050, or 84.33.086; and

(b) The taxpayer has timely filed and remitted payment on all tax returns due for that tax program for a period of twenty-four months immediately preceding the period covered by the return for which the waiver is being requested.

(3) The department ((shall)) must waive or cancel interest imposed under this chapter if:

(a) The failure to timely pay the tax was the direct result of written instructions given the taxpayer by the department; or

(b) The extension of a due date for payment of an assessment of deficiency was not at the request of the taxpayer and was for the sole convenience of the department.

(4) The department ((of revenue shall)) must adopt rules for the waiver or cancellation of penalties and interest imposed by this chapter.

Sec. 107. RCW 82.32.350 and 1971 ex.s. c 299 s 23 are each amended to read as follows:

(1) Except as otherwise provided in this subsection, "sale" means any transfer of the ownership of, title to, or possession of property for a valuable consideration and includes any activity classified as a "sale at retail" or "retail sale" under RCW 82.04.050. It includes lease or rental, conditional sale contracts, and any contract under which possession of the property is given to the purchaser but title is retained by the vendor as security for the payment of the purchase price. It also includes the furnishing of food, drink, or meals for compensation whether consumed upon the premises or not. The term "sale" does not include the transfer of the ownership of, title to, or possession of an animal by an animal rescue organization in exchange for the payment of an adoption fee.

(2) "Casual or isolated sale" means a sale made by a person who is not engaged in the business of selling the type of property involved.

(3) (a) "Lease or rental" means any transfer of possession or control of tangible personal property for a fixed or indeterminate term for consideration. A lease or rental may include future options

Sec. 7701(h)(1), as amended or renumbered as of January 1, 2003. The definition in this subsection (3) ((shall)) must be used for sales and use tax purposes regardless if a transaction is characterized as a lease or rental under generally accepted accounting principles, the United States internal revenue code, Washington state's commercial code, or other provisions of federal, state, or local law.

(b) "Lease or rental" does not include:

A condition of this exclusion is that the operator is necessary for the tangible personal property to perform as designed. For the purpose of this subsection (3)(b)(iii), an operator must do more than maintain, inspect, or set up the tangible personal property.

(4)(a) "Adoption fee" means an amount charged by an animal rescue organization to adopt an animal, except that "adoption fee" does not include any separately itemized charge for any incidental inanimate items provided to persons adopting an animal, including food, identification tags, collars, and leashes.

(b) "Animal care and control agency" means the same as in RCW 16.52.011 and also includes any similar entity operating outside of this state.

(5) Except for section 2004 of this act, Part XX of this act takes effect January 1, 2019.

(6) Section 2004 of this act takes effect January 1, 2022.

Sec. 302. 2015 3rd sp. s c 6 s 2303 (uncodified) is amended to read as follows:

((Part VIII of this act expires July 1, 2013)) (1) Sections 802 and 804, chapter 6, Laws of 2015 3rd sp. sess. expire July 1, 2026;

(2) Section 803, chapter 6, Laws of 2015 3rd sp. sess. expires January 1, 2026; and

(3) Section 805, chapter 6, Laws of 2015 3rd sp. sess. expires January 1, 2031.

Sec. 303. 2015 3rd sp.s. c 6 s 801 (uncodified) is amended to read as follows:

(1)(a) The legislature finds that a robust maritime industry is crucial for the state's economic vitality. The legislature further finds that:

(i) The joint task force for economic resilience of maritime and manufacturing established policy goals to continue efforts towards developing a robust maritime industry in the state;

(ii) The maritime industry has a direct and indirect impact on jobs in the state;
(iii) Many of the cities and towns impacted by the maritime industry are often small with limited resources to encourage economic growth, heavily relying on the maritime industry for local jobs and revenues in the community;

(iv) Keeping Washington competitive with other cruising destinations is essential to continue to build a robust maritime economy in the state; and

(v) Tax incentives are an imperative component to improve the state's overall competitiveness in this sector.

(b) Therefore, the legislature intends to:

(i) Bolster the maritime industry in the state by incentivizing larger vessel owners to use Washington waters for recreational boating to increase economic activity and jobs in coastal communities and inland water regions of the state;

(ii) Achieve this objective in a fiscally responsible manner and require analysis of specific metrics to ensure valuable state resources are being used to accomplish the intended goal; and

(iii) Provide limited, short-term tax relief to entity-owned nonresident vessel owners that currently are not afforded the same benefits as other nonresident vessel owners.

(2)(a) This subsection is the tax preference performance statement for the entity-owned nonresident vessel tax preference established in section 803 of this act. The performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(b) The legislature categorizes this tax preference as one intended to accomplish the purposes indicated in RCW 82.32.808(2)(c) and one intended to improve the state's competitiveness with other nearby cruising destinations.

(c) It is the legislature's specific public policy objective to increase economic activity and jobs related to the maritime industry by providing a tax preference for large entity-owned nonresident vessels to increase the length of time these vessels cruise Washington waters in turn strengthening the maritime economy in the state.

(d) To measure the effectiveness of the tax preference provided in part ((XII [VIII] of this act)) VIII, chapter 6, Laws of 2015 3rd sp. sess. in achieving the public policy objective in (c) of this subsection, the joint legislative audit and review committee must provide the following in a published evaluation of this tax preference by December 31, 2024:

(i) A comparison of the gross and taxable revenue generated by businesses that sell or provide maintenance or repair of vessels, prior to and after the enactment of this tax preference;

(ii) Analysis of retail sales taxes collected from the restaurant and service industries in coastal and inlet coastal jurisdictions, for both counties and cities, for periods prior to and after the enactment of this tax preference;

(iii) Employment and wage trends for businesses described in (d)(i) and (ii) of this subsection, for periods prior to and after the enactment of this tax preference;

(iv) Descriptive statistics for the number of permits sold each year in addition to the following information:

(A) The cost for each permit by strata of vessel length;

(B) The jurisdiction of ownership for the nonresident vessel; and

(C) The amount of use tax that would have been due based on the estimated value of the vessel;

(v) A comparison of the number of registered entity-owned and individually owned vessels registered in Washington prior to and after the enactment of this tax preference; and

(vi) Data and analysis for Washington's main cruising destination competitors, specifically looking at tax preferences provided in those jurisdictions, vessel industry income data, and any additional relevant information to compare Washington's maritime climate with its competitors.

(e) The provision of RCW 82.32.808(5) does not apply to this tax preference.

Sec. 304. 2015 3rd sp.s. c 30 s 1 (uncodified) is amended to read as follows:

This section is the tax preference performance statement for the tax preference contained in section 2 ((
(1) The legislature categorizes this tax preference as one intended to provide tax relief for certain businesses or individuals, as indicated in RCW 82.32.808(2)(e).

(2) It is the legislature's specific public policy objective to provide tax relief to senior citizens, disabled persons, and veterans. The legislature recognizes that property taxes impose a substantial financial burden on those with fixed incomes and that property tax relief programs have considerable value in addressing this burden. It is the legislature's intent to increase the current statutory static income thresholds which were last modified in 2004.

(3) (The expansion of the items allowed to be deducted) This tax preference is meant to be permanent and, therefore, not subject to the ten-year expiration provision in RCW 82.32.805(1)(a).

NEW SECTION. Sec. 305. Nothing in section 204, chapter 5, Laws of 2015 3rd sp. sess. may be construed as affecting the taxable status in calendar year 2015 of any person with a substantial nexus with this state under RCW 82.04.067 any time on or after January 1, 2015, and before September 1, 2015, with respect to business and occupation taxes on apportionable activities as defined in RCW 82.04.460.

NEW SECTION. Sec. 306. Section 305 of this act applies retroactively for the period January 1, 2015, through December 31, 2015.

Part IV
Automated sales suppression devices and phantom-ware

Sec. 401. RCW 82.32.670 and 2013 c 309 s 3 are each amended to read as follows:

(1)(a) Automated sales suppression devices, phantom-ware, electronic cash registers or point of sale systems used with automated sales suppression devices or phantom-ware, and any property constituting proceeds traceable to any violation of RCW 82.32.290(4) are considered contraband and are subject to seizure and forfeiture.

(b) Property subject to forfeiture under (a) of this subsection (1) may be seized by any agent of the department authorized to assess or collect taxes, or law enforcement officer of this state, upon process issued by any superior court or district court having jurisdiction over the property. Seizure without process may be made if:

(i) The seizure is incident to an arrest or a search under a search warrant; or

(ii) The department or the law enforcement officer has probable cause to believe that the property was used or is intended to be used in violation of RCW 82.32.290(4) and exigent circumstances exist making procurement of a search warrant impracticable.

(2) Forfeiture authorized by this section is deemed to have commenced by the seizure. Notice of seizure must be given to the department if the seizure is made by a law enforcement officer without the presence of any agent of the department. The department must cause notice of the seizure and intended forfeiture to be served on the owner of the property seized, if known, and on any other person known by the department to have a right or interest in the seized property. Such service must be made within fifteen days following the seizure or the department's receipt of notification of the seizure. The notice may be served by any method authorized by law or court rule, by certified mail with return receipt requested, or electronically in accordance with RCW 82.32.135. Service by certified mail or electronic means is deemed complete upon mailing the notice, electronically sending the notice, or electronically notifying the person or persons entitled to the notice that the notice is available to be accessed by the person or persons, within the fifteen-day period following the seizure or the department's receipt of notification of the seizure.

(3) If no person notifies the department in writing of the person's claim of lawful ownership or right to lawful possession of the item or items seized within thirty days of the date of service of the notice of seizure and intended forfeiture, the item or items seized are deemed forfeited.

(4)(a) If any person notifies the department, in writing, of the person's
claim of lawful ownership or lawful right to possession of the item or items seized within thirty days of the date of service of the notice of seizure and intended forfeiture, the person or persons must be afforded a reasonable opportunity to be heard as to the claim. The hearing must be before the director or the director's designee. A hearing and any administrative or judicial review is governed by chapter 34.05 RCW. The burden of proof by a preponderance of the evidence is upon the person claiming to be the lawful owner or the person claiming to have the lawful right to possession of the item or items seized.

(b) The department must return the item or items to the claimant as soon as possible upon a determination that the claimant is the present lawful owner or is lawfully entitled to possession of the item or items seized.

(5) When property is sought to be forfeited on the ground that it constitutes proceeds traceable to a violation of RCW 82.32.290(4), the department must prove by a preponderance of the evidence that the property constitutes proceeds traceable to a violation of RCW 82.32.290(4).

(6)(a) When automated sales suppression devices or phantom-ware voluntarily surrendered to an agent of the department, or property forfeited under this section, other than proceeds traceable to a violation of RCW 82.32.290(4), is no longer required for evidentiary purposes, the department may:

(i) Destroy or have the property destroyed;

(ii) Retain the property for training or other official purposes; or

(iii) Loan or give the property to any law enforcement or tax administration agency of any state, political subdivision or municipal corporation of a state, or the United States for training or other official purposes. For purposes of this subsection (6)(a)(iii), "state" has the same meaning as in RCW 82.04.462.

(b) When proceeds traceable to a violation of RCW 82.32.290(4) forfeited under this section are no longer required for evidentiary purposes, they must be deposited into the general fund.

(7) The definitions in this subsection apply to this section:

(a) "Automated sales suppression device" means a software program that falsifies the electronic records of electronic cash registers or other point of sale systems, including transaction data and transaction reports. The term includes the software program, any device that carries the software program, or an internet link to the software program.

(b) "Electronic cash register" means a device that keeps a register or supporting documents through the means of an electronic device or computer system designed to record transaction data for the purpose of computing, compiling, or processing sales transaction data in whatever manner.

(c) "Phantom-ware" means a programming option that is hidden, preinstalled, or installed-at-a-later-time in the operating system of an electronic cash register or other point of sale device, or hard wired into the electronic cash register or other point of sale device, and that can be used to create a virtual second till or may eliminate or manipulate transaction reports that may or may not be preserved in digital formats to represent the true or manipulated record of transactions in the electronic cash register or other point of sale device.

(d) "Transaction data" means information about sales transactions, including items purchased by a customer, the price for each item, a taxability determination for each item, a segregated tax amount for each of the taxed items, the amount of cash or credit tendered, the net amount returned to the customer in change, the date and time of the purchase, the name, address, and identification number of the vendor, and the receipt or invoice number of the transaction.

(e) "Transaction reports" means a report that includes information associated with sales transactions, taxes collected, media totals, and discount voids at an electronic cash register that can be printed on cash register tape at the end of a day or shift, or a report documenting every action at an electronic cash register or other point of sale device and that is stored electronically.

The suspension of the surcharge under (a)(ii) of this subsection (3) takes effect on the later of the first day of October of any federal fiscal year for which the federal government appropriates at least two million dollars for participation in forest and fish report-related activities by federally recognized Indian tribes located within the geographical boundaries of the state of Washington, or the first day of a calendar month that is at least thirty days following the date that the office of financial management makes a certification to the department under subsection (5) of this section. The surcharge is imposed again on the first day of the following July.

If, by October 1st of any federal fiscal year, the office of financial management certifies to the department that the federal government has appropriated funds for participation in forest and fish report-related activities by federally recognized Indian tribes located within the geographical boundaries of the state of Washington but the amount of the appropriation is less than two million dollars, the department must adjust the surcharge in accordance with this subsection.

The department must adjust the surcharge by an amount that the department estimates will cause the amount of funds deposited into the forest and fish support account for the state fiscal year that begins July 1st and that includes the beginning of the federal fiscal year for which the federal appropriation is made, to be reduced by twice the amount of the federal appropriation for participation in forest and fish report-related activities by federally recognized Indian tribes located within the geographical boundaries of the state of Washington.

Any adjustment in the surcharge takes effect at the beginning of a calendar month that is at least thirty days after the date that the office of financial management makes the certification under subsection (5) of this section.

The surcharge is imposed again at the rate provided in subsection (1) of this section on the first day of the following state fiscal year unless the surcharge is suspended under subsection (3) of this section or adjusted for that fiscal year under this subsection.

Adjustments of the amount of the surcharge by the department are final and may not be used to challenge the validity of the surcharge imposed under this section.

The department must provide timely notice to affected taxpayers of the suspension of the surcharge or an adjustment of the surcharge.

The office of financial management must make the certification to the department as to the status of federal appropriations for tribal participation in forest and fish report-related activities.

Sec. 502. RCW 82.04.334 and 2010 1st sp.s. c 23 s 512 are each amended to read as follows:
This chapter does not apply to any sale of standing timber excluded from the definition of "sale" in RCW 82.45.010(3). The definitions in RCW 82.04.260(11) apply to this section.

Sec. 503. RCW 82.04.43391 and 2010 1st sp.s. c 23 s 112 are each amended to read as follows:

(1) In computing tax there may be deducted from the measure of tax interest and fees on loans secured by commercial aircraft primarily used to provide routine air service and owned by:

(a) An air carrier, as defined in RCW 82.42.010, which is primarily engaged in the business of providing passenger air service;

(b) An affiliate of such air carrier; or

(c) A parent entity for which such air carrier is an affiliate.

(2) The deduction authorized under this section is not available to any person who is physically present in this state as determined under RCW 82.04.067(6).

(3) For purposes of this section, the following definitions apply:

(a) "Affiliate" means a person is "affiliated," as defined in RCW 82.04.645, with another person; and

(b) "Commercial aircraft" means a commercial airplane as defined in RCW 82.32.550.

NEW SECTION. Sec. 504. RCW 82.04.4483 (Credit—Programming or manufacturing software in rural counties) and 2010 c 114 s 119 & 2004 c 25 s 1 are each repealed.

Sec. 505. RCW 82.32.030 and 2011 c 298 s 38 are each amended to read as follows:

(1) Except as provided in subsections (2) and (3) of this section, if any person engages in any business or performs any act upon which a tax is imposed by the preceding chapters, he or she must, under such rules as the department prescribes, apply for and obtain from the department a registration certificate. Such registration certificate is personal and nontransferable and is valid as long as the taxpayer continues in business and pays the tax accrued to the state. In case business is transacted at two or more separate places by one taxpayer, a separate registration certificate for each place at which business is transacted with the public is required. Each certificate must be numbered and must show the name, residence, and place and character of business of the taxpayer and such other information as the department of revenue deems necessary and must be posted in a conspicuous place at the place of business for which it is issued. Where a place of business of the taxpayer is changed, the taxpayer must return to the department the existing certificate, and a new certificate will be issued for the new place of business. No person required to be registered under this section may engage in any business taxable hereunder without first being so registered. The department, by rule, may provide for the issuance of certificates of registration to temporary places of business.

(2) Unless the person is a dealer as defined in RCW 9.41.010, registration under this section is not required if the following conditions are met:

(a) A person's value of products, gross proceeds of sales, or gross income of the business, from all business activities taxable under chapter 82.04 RCW, is less than twelve thousand dollars per year;

(b) The person's gross income of the business from all activities taxable under chapter 82.16 RCW is less than twelve thousand dollars per year;

(c) The person is not required to collect or pay to the department of revenue any other tax or fee that the department is authorized to collect; and

(d) The person is not otherwise required to obtain a license subject to the business license application procedure provided in chapter 19.02 RCW.

(3) All persons who agree to collect and remit sales and use tax to the department under the agreement must register through the central registration system authorized under the agreement. Persons required to register under subsection (1) of this section are not relieved of that requirement because of registration under this subsection (3).

(4) Persons registered under subsection (3) of this section who are not required to register under subsection (1) of this section and who are not otherwise subject to the requirements of chapter 19.02 RCW are not subject to the fees imposed by the department under the authority of RCW 19.02.075.
Sec. 506. RCW 84.34.108 and 2014 c 97 s 311 and 2014 c 58 s 28 are each reenacted and amended to read as follows:

(1) When land has once been classified under this chapter, a notation of the classification must be made each year upon the assessment and tax rolls and the land must be valued pursuant to RCW 84.34.060 or 84.34.065 until removal of all or a portion of the classification by the assessor upon occurrence of any of the following:

(a) Receipt of notice from the owner to remove all or a portion of the classification;

(b) Sale or transfer to an ownership, except a transfer that resulted from a default in loan payments made to or secured by a governmental agency that intends to or is required by law or regulation to resell the property for the same use as before, making all or a portion of the land exempt from ad valorem taxation;

(c) Sale or transfer of all or a portion of the land to a new owner, unless the new owner has signed a notice of classification continuance, except transfer to an owner who is an heir or devisee of a deceased owner or transfer by a transfer on death deed does not, by itself, result in removal of classification. The notice of continuance must be on a form prepared by the department. If the notice of continuance is not signed by the new owner and attached to the real estate excise tax affidavit, all additional taxes, applicable interest, and penalty calculated pursuant to subsection (4) of this section become due and payable by the seller or transferor at time of sale. The auditor may not accept an instrument of conveyance regarding classified land for filing or recording unless the new owner has signed a notice of continuance or the additional tax, applicable interest, and penalty has been paid, as evidenced by the real estate excise tax stamp affixed thereto by the treasurer. The seller, transferor, or new owner may appeal the removal to the county board of equalization in accordance with the provisions of RCW 84.40.038. The removal notice must explain the steps needed to appeal the removal decision, including when a notice of appeal must be filed, where the forms may be obtained, and how to contact the county board of equalization.

(2) Land may not be removed from classification because of:

(a) The creation, sale, or transfer of forestry riparian easements under RCW 76.13.120; or

(b) The creation, sale, or transfer of a fee interest or a conservation easement for the riparian open space program under RCW 76.09.040.

(3) Within thirty days after the removal of all or a portion of the land from current use classification under subsection (1) of this section, the assessor must notify the owner in writing, setting forth the reasons for the removal. The seller, transferor, or owner may appeal the removal to the county board of equalization in accordance with the provisions of RCW 84.40.038. The removal notice must explain the steps needed to appeal the removal decision, including when a notice of appeal must be filed, where the forms may be obtained, and how to contact the county board of equalization.

(4) Unless the removal is reversed on appeal, the assessor must revalue the affected land with reference to its true and fair value on January 1st of the year of removal from classification. Both the assessed valuation before and after the removal of classification must be listed and taxes must be allocated according to that part of the year to which each assessed valuation applies. Except as provided in subsection (6) of this section, an additional tax, applicable interest, and penalty must be imposed, which are due and payable to the treasurer thirty days after the owner is notified of the amount of the additional tax, applicable interest, and penalty. As soon as possible, the assessor must compute the amount of additional tax, applicable interest, and penalty and the treasurer must mail notice to the owner of the amount thereof and the date on which payment is
due. The amount of the additional tax, applicable interest, and penalty must be determined as follows:

(a) The amount of additional tax is equal to the difference between the property tax paid as "open space land," "farm and agricultural land," or "timberland" and the amount of property tax otherwise due and payable for the seven years last past had the land not been so classified;

(b) The amount of applicable interest is equal to the interest upon the amounts of the additional tax paid at the same statutory rate charged on delinquent property taxes from the dates on which the additional tax could have been paid without penalty if the land had been assessed at a value without regard to this chapter;

(c) The amount of the penalty is as provided in RCW 84.34.080. The penalty may not be imposed if the removal satisfies the conditions of RCW 84.34.070.

(5) Additional tax, applicable interest, and penalty become a lien on the land. The lien attaches at the time the land is removed from classification under this chapter and has priority to and must be fully paid and satisfied before any recognizance, mortgage, judgment, debt, obligation, or responsibility to or with which the land may become charged or liable. This lien may be foreclosed upon expiration of the same period after delinquency and in the same manner provided by law for foreclosure of liens for delinquent real property taxes as provided in RCW 84.64.050. Any additional tax unpaid on the due date is delinquent as of the due date. From the date of delinquency until paid, interest must be charged at the same rate applied by law to delinquent ad valorem property taxes.

(6) The additional tax, applicable interest, and penalty specified in subsection (4) of this section may not be imposed if the removal resulted solely from:

(a) Transfer to a government entity in exchange for other land located within the state of Washington;

(b)(i) A taking through the exercise of the power of eminent domain, or (ii) sale or transfer to an entity having the power of eminent domain in anticipation of the exercise of such power, said entity having manifested its intent in writing or by other official action;

(c) A natural disaster such as a flood, windstorm, earthquake, or other such calamity rather than by virtue of the act of the landowner changing the use of the property;

(d) Official action by an agency of the state of Washington or by the county or city within which the land is located which disallows the present use of the land;

(e) Transfer of land to a church when the land would qualify for exemption pursuant to RCW 84.36.020;

(f) Acquisition of property interests by state agencies or agencies or organizations qualified under RCW 84.34.210 and 64.04.130 for the purposes enumerated in those sections. At such time as these property interests are not used for the purposes enumerated in RCW 84.34.210 and 64.04.130 the additional tax specified in subsection (4) of this section must be imposed;

(g) Removal of land classified as farm and agricultural land under RCW 84.34.020(2)(f);

(h) Removal of land from classification after enactment of a statutory exemption that qualifies the land for exemption and receipt of notice from the owner to remove the land from classification;

(i) The creation, sale, or transfer of forestry riparian easements under RCW 76.13.120;

(j) The creation, sale, or transfer of a conservation easement of private forestlands within unconfined channel migration zones or containing critical habitat for threatened or endangered species under RCW 76.09.040;

(k) The sale or transfer of land within two years after the death of the owner of at least a fifty percent interest in the land if the land has been assessed and valued as classified forestland, designated as forestland under chapter 84.33 RCW, or classified under this chapter continuously since 1993. The date of death shown on a death certificate is the date used for the purposes of this subsection (6)(k); or

(1) The discovery that the land was classified under this chapter in error through no fault of the owner. For
purposes of this subsection (6)(1), "fault" means a knowingly false or misleading statement, or other act or omission not in good faith, that contributed to the approval of classification under this chapter or the failure of the assessor to remove the land from classification under this chapter.

(ii) For purposes of this subsection (6), the discovery that land was classified under this chapter in error through no fault of the owner is not the sole reason for removal of classification pursuant to subsection (1) of this section if an independent basis for removal exists. Examples of an independent basis for removal include the owner changing the use of the land or failing to meet any applicable income criteria required for classification under this chapter.

Sec. 507. RCW 84.41.041 and 2015 c 86 s 103 are each amended to read as follows:

(1) Each county assessor must cause taxable real property to be physically inspected and valued at least once every six years in accordance with RCW 84.41.030, and in accordance with a plan filed with and approved by the department of revenue. Such revaluation plan must provide that all taxable real property within a county must be revalued and these newly determined values placed on the assessment rolls each year. Property must be valued at one hundred percent of its true and fair value and assessed on the same basis, in accordance with RCW 84.40.030, unless specifically provided otherwise by law. ((During the intervals between each physical inspection of real property, the valuation of such property may be adjusted to its current true and fair value, such adjustments to be based upon appropriate statistical data. If the revaluation plan provides for physical inspection less frequently than once every four years,)) During the intervals between each physical Inspection of real property, the valuation of such property must be adjusted to its current true and fair value, such adjustments to be made once each year and to be based upon appropriate statistical data.

(2) The assessor may require property owners to submit pertinent data respecting taxable property in their control including data respecting any sale or purchase of said property within the past five years, the cost and characteristics of any improvement on the property and other facts necessary for appraisal of the property.

Sec. 508. RCW 82.04.280 and 2010 c 106 s 205 are each reenacted to read as follows:

(1) Upon every person engaging within this state in the business of: (a) Printing materials other than newspapers, and of publishing periodicals or magazines; (b) building, repairing or improving any street, place, road, highway, easement, right-of-way, mass public transportation terminal or parking facility, bridge, tunnel, or trestle which is owned by a municipal corporation or political subdivision of the state or by the United States and which is used or to be used, primarily for foot or vehicular traffic including mass transportation vehicles of any kind and including any readjustment, reconstruction or relocation of the facilities of any public, private or cooperatively owned utility or railroad in the course of such building, repairing or improving, the cost of which readjustment, reconstruction, or relocation, is the responsibility of the public authority whose street, place, road, highway, easement, right-of-way, mass public transportation terminal or parking facility, bridge, tunnel, or trestle is being built, repaired or improved; (c) extracting for hire or processing for hire, except persons taxable as extractors for hire or processors for hire under another section of this chapter; (d) operating a cold storage warehouse or storage warehouse, but not including the rental of cold storage lockers; (e) representing and performing services for fire or casualty insurance companies as an independent resident managing general agent licensed under the provisions of chapter 48.17 RCW; (f) radio and television broadcasting, excluding network, national and regional advertising computed as a standard deduction based on the national average thereof as annually reported by the federal communications commission, or in lieu thereof by itemization by the individual broadcasting station, and excluding that portion of revenue represented by the out-of-state audience computed as a ratio to the station's total audience as measured by the 100 micro-volt signal strength and delivery by wire, if any; (g) engaging in activities which bring a person within the definition of consumer contained in RCW 82.04.190(6); as to such persons, the amount of tax on such business is equal to the gross income of the business multiplied by the rate of 0.484 percent.
For the purposes of this section, the following definitions apply unless the context clearly requires otherwise.

(a) "Cold storage warehouse" means a storage warehouse used to store fresh and/or frozen perishable fruits or vegetables, meat, seafood, dairy products, or fowl, or any combination thereof, at a desired temperature to maintain the quality of the product for orderly marketing.

(b) "Storage warehouse" means a building or structure, or any part thereof, in which goods, wares, or merchandise are received for storage for compensation, except field warehouses, fruit warehouses, fruit packing plants, warehouses licensed under chapter 22.09 RCW, public garages storing automobiles, railroad freight sheds, docks and wharves, and "self-storage" or "mini storage" facilities whereby customers have direct access to individual storage areas by separate entrance. "Storage warehouse" does not include a building or structure, or that part of such building or structure, in which an activity taxable under RCW 82.04.272 is conducted.

(c) "Periodical or magazine" means a printed publication, other than a newspaper, issued regularly at stated intervals at least once every three months, including any supplement or special edition of the publication.

### Sec. 509

RCW 82.32.790 and 2010 c 114 s 201 and 2010 c 106 s 401 are each reenacted and amended to read as follows:

(b) For the purposes of this section:

(i) "Commercial operation" means the same as "commencement of commercial production" as used in RCW 82.08.965.

(ii) "Semiconductor microchip fabrication" means "manufacturing semiconductor microchips" as defined in RCW 82.04.426.

(iii) "Significant" means the combined investment of new buildings and new machinery and equipment in the buildings, at the commencement of commercial production, will be at least one billion dollars.

(2) The sections referenced in subsection (1) of this section take effect the first day of the month in which a contract for the construction of a significant semiconductor fabrication facility is signed, as determined by the director of the department of revenue.

(3) (a) The department of revenue must provide notice of the effective date of the sections referenced in subsection (1) of this section to affected taxpayers, the legislature, and others as deemed appropriate by the department.

(b) If, after making a determination that a contract has been signed and the sections referenced in subsection (1) of this section are effective, the department discovers that commencement of commercial production did not take place within three years of the date the contract was signed, the department must make a determination that chapter 149, Laws of 2003 is no longer effective, and all taxes that would have been otherwise due are deemed deferred taxes and are immediately assessed and payable from any person reporting tax under RCW 82.04.240(2) or claiming an exemption or credit under RCW 82.04.426, 82.04.448, 82.08.965, 82.12.965, 82.08.970, 82.12.970, or 84.36.645. The department is not authorized to make a second determination regarding the effective date of the sections referenced in subsection (1) of this section.

### New Section

Sec. 510. The following acts or parts of acts are each repealed:

(1) 2010 c 106 s 206;

(2) 2009 c 461 s 3;

(3) 2006 c 300 s 7; and

(4) 2003 c 149 s 4.

Sec. 511. RCW 35.102.130 and 2010 c 111 s 305 are each amended to read as follows:
A city that imposes a business and occupation tax must provide for the allocation and apportionment of a person's gross income, other than persons subject to the provisions of chapter 82.14A RCW, as follows:

(1) Gross income derived from all activities other than those taxed as service or royalties must be allocated to the location where the activity takes place.

(a) In the case of sales of tangible personal property, the activity takes place where delivery to the buyer occurs.

(b)(i) In the case of sales of digital products, the activity takes place where delivery to the buyer occurs. The delivery of digital products will be deemed to occur at:

(A) The seller's place of business if the purchaser receives the digital product at the seller's place of business;

(B) If not received at the seller's place of business, the location where the purchaser or the purchaser's donee, designated as such by the purchaser, receives the digital product, including the location indicated by instructions for delivery to the purchaser or donee, known to the seller;

(C) If the location where the purchaser or the purchaser's donee receives the digital product is not known, the purchaser's address maintained in the ordinary course of the seller's business when use of this address does not constitute bad faith;

(D) If no address for the purchaser is maintained in the ordinary course of the seller's business, the purchaser's address obtained during the consummation of the sale, including the address of a purchaser's payment instrument, if no other address is available, when use of this address does not constitute bad faith; and

(E) If no address for the purchaser is obtained during the consummation of the sale, the address where the digital good or digital code is first made available for transmission by the seller or the address from which the digital automated service or service described in RCW 82.04.050 (2)(g) or (6)((c))) (c) was provided, disregarding for these purposes any location that merely provided the digital transfer of the product sold.

(ii) If none of the methods in (b)(i) of this subsection (1) for determining where the delivery of digital products occurs are available after a good faith effort by the taxpayer to apply the methods provided in (b)(i)(A) through (E) of this subsection (1), then the city and the taxpayer may mutually agree to employ any other method to effectuate an equitable allocation of income from the sale of digital products. The taxpayer will be responsible for petitioning the city to use an alternative method under this subsection (1)(b)(ii). The city may employ an alternative method for allocating the income from the sale of digital products if the methods provided in (b)(i)(A) through (E) of this subsection (1) are not available and the taxpayer and the city are unable to mutually agree on an alternative method to effectuate an equitable allocation of income from the sale of digital products.

(iii) For purposes of this subsection (1)(b), the following definitions apply:

(A) "Digital automated services," "digital codes," and "digital goods" have the same meaning as in RCW 82.04.192;

(B) "Digital products" means digital goods, digital codes, digital automated services, and the services described in RCW 82.04.050 (2)(g) and (6)((c)) (c); and

(C) "Receive" has the same meaning as in RCW 82.32.730.

(c) If a business activity allocated under this subsection (1) takes place in more than one city and all cities impose a gross receipts tax, a credit must be allowed as provided in RCW 35.102.060; if not all of the cities impose a gross receipts tax, the affected cities must allow another credit or allocation system as they and the taxpayer agree.

(2) Gross income derived as royalties from the granting of intangible rights must be allocated to the commercial domicile of the taxpayer.

(3) Gross income derived from activities taxed as services shall be apportioned to a city by multiplying apportionable income by a fraction, the numerator of which is the payroll factor plus the service-income factor and the denominator of which is two.

(a) The payroll factor is a fraction, the numerator of which is the total amount paid in the city during the tax period by
the taxpayer for compensation and the denominator of which is the total compensation paid everywhere during the tax period. Compensation is paid in the city if:

(i) The individual is primarily assigned within the city;

(ii) The individual is not primarily assigned to any place of business for the tax period and the employee performs fifty percent or more of his or her service for the tax period in the city; or

(iii) The individual is not primarily assigned to any place of business for the tax period, the individual does not perform fifty percent or more of his or her service in any city, and the employee resides in the city.

(b) The service income factor is a fraction, the numerator of which is the total service income of the taxpayer in the city during the tax period, and the denominator of which is the total service income of the taxpayer everywhere during the tax period. Service income is in the city if:

(i) The customer location is in the city; or

(ii) The income-producing activity is performed in more than one location and a greater proportion of the service-income-producing activity is performed in the city than in any other location, based on costs of performance, and the taxpayer is not taxable at the customer location; or

(iii) The service-income-producing activity is performed within the city, and the taxpayer is not taxable in the customer location.

(c) If the allocation and apportionment provisions of this subsection do not fairly represent the extent of the taxpayer's business activity in the city or cities in which the taxpayer does business, the taxpayer may petition for or the tax administrators may jointly require, in respect to all or any part of the taxpayer's business activity, that one of the following methods be used jointly by the cities to allocate or apportion gross income, if reasonable:

(i) Separate accounting;

(ii) The use of a single factor;

(iii) The inclusion of one or more additional factors that will fairly represent the taxpayer's business activity in the city; or

(iv) The employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

(4) The definitions in this subsection apply throughout this section.

(a) "Apportionable income" means the gross income of the business taxable under the service classifications of a city's gross receipts tax, including income received from activities outside the city if the income would be taxable under the service classification if received from activities within the city, less any exemptions or deductions available.

(b) "Compensation" means wages, salaries, commissions, and any other form of remuneration paid to individuals for personal services that are or would be included in the individual's gross income under the federal internal revenue code.

(c) "Individual" means any individual who, under the usual common law rules applicable in determining the employer-employee relationship, has the status of an employee of that taxpayer.

(d) "Customer location" means the city or unincorporated area of a county where the majority of the contacts between the taxpayer and the customer take place.

(e) "Primarily assigned" means the business location of the taxpayer where the individual performs his or her duties.

(f) "Service-taxable income" or "service income" means gross income of the business subject to tax under either the service or royalty classification.

(g) "Tax period" means the calendar year during which tax liability is accrued. If taxes are reported by a taxpayer on a basis more frequent than once per year, taxpayers shall calculate the factors for the previous calendar year for reporting in the current calendar year and correct the reporting for the previous year when the factors are calculated for that year, but not later than the end of the first quarter of the following year.

(h) "Taxable in the customer location" means either that a taxpayer is subject to a gross receipts tax in the customer location for the privilege of doing business, or that the government where the customer is located has the authority to subject the taxpayer to gross receipts tax regardless of whether, in fact, the government does so.
Sec. 512. RCW 82.04.060 and 2015 c 169 s 2 are each amended to read as follows:

"Sale at wholesale" or "wholesale sale" means:

(1) Any sale, which is not a sale at retail, of:

(a) Tangible personal property;
(b) Services defined as a retail sale in RCW 82.04.050(2) (a) or (g);
(c) Activities defined as a retail sale in RCW 82.04.050(15);
(d) Prewritten computer software;
(e) Services described in RCW 82.04.050(6)((4)) (c);
(f) Extended warranties as defined in RCW 82.04.050(7);
(g) Competitive telephone service, ancillary services, or telecommunications service as those terms are defined in RCW 82.04.065; or
(h) Digital goods, digital codes, or digital automated services;

(2) Any charge made for labor and services rendered for persons who are not consumers, in respect to real or personal property, if such charge is expressly defined as a retail sale by RCW 82.04.050 when rendered to or for consumers. For the purposes of this subsection (2), "real or personal property" does not include any natural products named in RCW 82.04.100; and

(3) The sale of any service for resale, if the sale is excluded from the definition of "sale at retail" and "retail sale" in RCW 82.04.050(14).

Sec. 513. RCW 82.04.190 and 2015 c 169 s 3 are each amended to read as follows:

"Consumer" means the following:

(1) Any person who purchases, acquires, owns, holds, or uses any article of tangible personal property irrespective of the nature of the person's business and including, among others, without limiting the scope hereof, persons who install, repair, clean, alter, improve, construct, or decorate real or personal property of or for consumers other than for the purpose of:

(a) Resale as tangible personal property in the regular course of business;
(b) Incorporating such property as an ingredient or component of real or personal property when installing, repairing, cleaning, altering, imprinting, improving, constructing, or decorating such real or personal property of or for consumers;
(c) Consuming such property in producing for sale as a new article of tangible personal property or a new substance, of which such property becomes an ingredient or component or as a chemical used in processing, when the primary purpose of such chemical is to create a chemical reaction directly through contact with an ingredient of a new article being produced for sale;
(d) Consuming the property purchased in producing ferrosilicon which is subsequently used in producing magnesium for sale, if the primary purpose of such property is to create a chemical reaction directly through contact with an ingredient of ferrosilicon; or
(e) Satisfying the person's obligations under an extended warranty as defined in RCW 82.04.050(7), if such tangible personal property replaces or becomes an ingredient or component of property covered by the extended warranty without intervening use by such person;

However, licensing information not received from the license applicant or holder must not be so disclosed if the
director determines that such disclosure would compromise any investigation or litigation by any federal, state, or local government agency in connection with the civil or criminal liability of the license applicant, license holder, or another person, or that such disclosure would identify a confidential informant, or that such disclosure is contrary to any agreement entered into by the department that provides for the reciprocal exchange of information with other government agencies, which agreement requires confidentiality with respect to such information unless such information is required to be disclosed to the license applicant or license holder by the order of any court;

(k) Disclosing licensing information to the federal government for official purposes.

(4) Notwithstanding anything to the contrary in this section, a state agency or local government agency may disclose licensing information relating to a license issued on its behalf by the department pursuant to this chapter if the disclosure is authorized by another statute, local law, or administrative rule.

Part VIII

Background investigations

Sec. 801. RCW 82.01.060 and 2011 c 298 s 36 are each amended to read as follows:

The director of revenue, hereinafter in chapter 26, Laws of 1967 ex. sess. referred to as the director, through the department of revenue, hereinafter in chapter 26, Laws of 1967 ex. sess. referred to as the department, must:

(1) Assess and collect all taxes and administer all programs relating to taxes which are the responsibility of the tax commission at the time chapter 26, Laws of 1967 ex. sess. takes effect or which the legislature may hereafter make the responsibility of the director or of the department;

(2) Make, adopt and publish such rules as he or she may deem necessary or desirable to carry out the powers and duties imposed upon him or her or the department by the legislature. However, the director may not adopt rules after July 23, 1995, that are based solely on a section of law stating a statute's intent or purpose, on the enabling provisions of the statute establishing the agency, or on any combination of such provisions, for statutory authority to adopt any rule;

(3) Rules adopted by the tax commission before July 23, 1995, remain in force until such time as they may be revised or rescinded by the director;

(4) Provide by general regulations for an adequate system of departmental review of the actions of the department or of its officers and employees in the assessment or collection of taxes;

(5) Maintain a tax research section with sufficient technical, clerical and other employees to conduct constant observation and investigation of the effectiveness and adequacy of the revenue laws of this state and of the sister states in order to assist the governor, the legislature and the director in estimation of revenue, analysis of tax measures, and determination of the administrative feasibility of proposed tax legislation and allied problems;

(6) Recommend to the governor such amendments, changes in, and modifications of the revenue laws as seem proper and requisite to remedy injustice and irregularities in taxation, and to facilitate the assessment and collection of taxes in the most economical manner;

(7) Provide the opportunity for any person feeling aggrieved by any action taken against the person by the department in the administration of chapters 19.02, 19.80, and 59.30 RCW to request a review of the department's action. Such review may be conducted as a brief adjudicative proceeding under RCW 34.05.485 through 34.05.494;

(8) (a) Establish background investigation policies applicable to those current and prospective department employees and contractors that are or may be authorized by the department to access federal tax information. Such policies must require a criminal history record check through the Washington state patrol criminal identification system and through the federal bureau of investigation, at the expense of the department. The record check must include a fingerprint check using a complete Washington state criminal identification fingerprint card, which must be forwarded by the Washington state patrol to the federal bureau of investigation. The department's background investigation policies must also satisfy any specific background investigation standards established by the internal revenue service.

(b) Information received by the department pursuant to this subsection may be used only for the purposes of making, supporting, or defending decisions regarding the appointment, hiring, or retention of persons, or for complying with any requirements from the internal revenue service. Further dissemination or use of the information is prohibited, notwithstanding any other provision of law.

Part IX

Revising the date by which the department of revenue is required to provide estimates of the amount of public forestland that is available for timber harvesting

Sec. 901. RCW 84.33.089 and 2004 c 177 s 6 are each amended to read as follows:
(1) The department \((\text{shall})\) must estimate the number of acres of public forestland that are available for timber harvesting. The department \((\text{shall})\) must provide the estimates for each county and for each taxing district within each county by \((\text{October 1st})\) October 1st of each year except that the department may authorize a county, at the county’s option, to make its own estimates for public forestland in that county. In estimating the number of acres, the department \((\text{shall})\) must use the best available information to include public land comparable to private land that qualifies as forestland for assessment purposes and exclude other public lands. The department is not required to update the estimates unless improved information becomes available. The department of natural resources \((\text{shall})\) must assist the department with these determinations by providing any data and information in the possession of the department of natural resources on public forestlands, broken out by county and legal description, including a detailed map of each county showing the location of the described lands. The data and information \((\text{shall})\) must be provided to the department by July 15th of each year. In addition, the department may contract with other parties to provide data or assistance necessary to implement this section.

(2) To accommodate the phase-in of the county forest excise tax on the harvest of timber from public lands as provided in RCW 84.33.051, the department \((\text{shall})\) must adjust its actual estimates of the number of acres of public forestland that are available for timber harvesting. The department \((\text{shall})\) must reduce its estimates for the following years by the following amounts:

(a) For calendar year 2005, 70 percent;
(b) For calendar year 2006, 62.5 percent;
(c) For calendar year 2007, 55 percent;
(d) For calendar year 2008, 47.5 percent;
(e) For calendar year 2009, 40 percent;
(f) For calendar year 2010, 32.5 percent;
(g) For calendar year 2011, 22.5 percent;
(h) For calendar year 2012, 15 percent;
(i) For calendar year 2013, 7.5 percent; and
(j) For calendar year 2014 and thereafter, the department \((\text{shall})\) may not reduce its estimates of the number of acres of public forestland that are available for timber harvesting.

Part X

NEW SECTION. Sec. 1001. A new section is added to chapter 84.08 RCW to read as follows:

(1) The department may provide electronically any assessment, notice, or other information that is subject to the confidentiality provisions of RCW 84.08.210 or 84.40.340, to any person authorized to receive the information.

(2) The department must use methods reasonably designed to protect information provided electronically as authorized in subsection (1) of this section from unauthorized disclosure. However, the provisions of this subsection (2) may be waived by a taxpayer. The waiver must be in writing and may be provided to the department electronically. A waiver continues until revoked in writing by the taxpayer. Such revocation may be provided to the department electronically in a manner provided or approved by the department.

ESSB 5777 Prime Sponsor, Committee on Commerce, Labor & Sports: Improving the business climate in this state by simplifying the administration of municipal general business licenses. Reported by Committee on Finance

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Business licensing service," "business licensing system," and "business license" have the same meaning as in RCW 19.02.020.

(2) "City" means a city, town, or code city.

(3) "Department" means the department of revenue.

(4) "General business license" means a license, not including a regulatory license or a temporary license, that a city requires all or most businesses to obtain to conduct business within that city.

(5) "Partner" means the relationship between a city and the department under which general business licenses are issued and renewed through the business licensing service in accordance with chapter 19.02 RCW.

(6) "Regulatory business license" means a license, other than a general business license, required for certain types of businesses that a city has determined warrants additional regulation, such as taxicab or other for-hire vehicle operators, adult entertainment businesses, amusement device operators, massage parlors, debt collectors, door-to-door sales persons, trade-show operators, and home-based businesses.

NEW SECTION. Sec. 2. (1) Except as otherwise provided in subsection (7) of this section, a city that requires a general business license of any person that engages in business activities within that city must partner with the department to have such license issued, and renewed if the city requires renewal, through the business licensing service in accordance with chapter 19.02 RCW.

(a) Except as otherwise provided in subsection (3) of this section, the department must phase in the issuance and renewal of general business licenses of cities that required a general business license as of July 1, 2017, and are not already partnering with the department, as follows:

(i) Between January 1, 2018, and December 31, 2021, the department must partner with at least six cities per year.

(ii) Between January 1, 2022, and December 31, 2027, the department must partner with the remaining cities.

(b) A city that imposes a general business license requirement and does not partner with the department as of January 1, 2018, may continue to issue and renew its general business licenses until the city partners with the department as provided in subsection (4) of this section.

(2)(a) A city that did not require a general business license as of July 1, 2017, but imposes a new general business license requirement after that date must advise the department in writing of its intent to do so at least ninety days before the requirement takes effect.

(b) If a city subject to (a) of this subsection (2) imposes a new general business license requirement after July 1, 2017, the department, in its sole discretion, may adjust resources to partner with the imposing city as of the date that the new general business licensing requirement takes effect. If the department cannot reallocate resources, the city may issue and renew its general business license until the department is able to partner with the city.

(3) The department may delay assuming the duties of issuing and renewing general business licenses beyond the dates provided in subsection (1)(a) of this section if:

(a) Insufficient funds are appropriated for this specific purpose;

(b) The department cannot ensure the business licensing system is adequately prepared to handle all general business licenses due to unforeseen circumstances;

(c) The department determines that a delay is necessary to ensure that the transition to mandatory department issuance and renewal of general business licenses is as seamless as possible; or

(d) The department receives a written notice from a city within sixty days of
the date that the city appears on the department's biennial partnership plan, which includes an explanation of the fiscal or technical challenges causing the city to delay joining the system. A delay under this subsection (3)(d) may be for no more than three years.

(4)(a) In consultation with affected cities and in accordance with the priorities established in subsection (5) of this section, the department must establish a biennial plan for partnering with cities to assume the issuance and renewal of general business licenses as required by this section. The plan must identify the cities that the department will partner with and the dates targeted for the department to assume the duties of issuing and renewing general business licenses.

(b) By January 1, 2018, and January 1st of each even-numbered year thereafter, the department must submit the partnering plan required in (a) of this subsection (4) to the governor; legislative fiscal committees; house local government committee; senate agriculture, water, trade and economic development committee; senate local government committee; affected cities; association of Washington cities; association of Washington business; national federation of independent business; and Washington retail association.

(c) The department may, in its sole discretion, alter the plan required in (a) of this subsection (4) with a minimum notice of thirty days to affected cities.

(5) When determining the plan to partner with cities for the issuance and renewal of general business licenses as required in subsection (4) of this section, cities that notified the department of their wish to partner with the department before January 1, 2017, must be allowed to partner before other cities.

(6) A city that partners with the department for the issuance and renewal of general business licenses through the business licensing service in accordance with chapter 19.02 RCW may not issue and renew those licenses.

(7) A city may decline to partner with the department for the issuance and renewal of a general business license as provided in subsection (1) of this section if the city participates in the online local business license and tax filing portal known as "FileLocal" as of July 1, 2020. For the purposes of this subsection (7), a city is considered to be a FileLocal participant as of the date that a business may access FileLocal for purposes of applying for or renewing that city's general business license and reporting and paying that city's local business and occupation taxes. A city that ceases participation in FileLocal after July 1, 2020, must partner with the department for the issuance and renewal of its general business license as provided in subsection (1) of this section.

(8) By January 1, 2019, and each January 1st thereafter through January 1, 2028, the department must submit a progress report to the legislature. The report required by this subsection must provide information about the progress of the department's efforts to partner with all cities that impose a general business license requirement and include:

(a) A list of cities that have partnered with the department as required in subsection (1) of this section;

(b) A list of cities that have not partnered with the department;

(c) A list of cities that are scheduled to partner with the department during the upcoming calendar year;

(d) A list of cities that have declined to partner with the department as provided in subsection (7) of this section;

(e) An explanation of lessons learned and any process efficiencies incorporated by the department;

(f) Any recommendations to further simplify the issuance and renewal of general business licenses by the department; and

(g) Any other information the department considers relevant.

NEW SECTION. Sec. 3. (1) A general business license that must be issued and renewed through the business licensing service in accordance with chapter 19.02 RCW is subject to the provisions of this section.

(2)(a) A city has broad authority to impose a fee structure as provided by RCW 35.22.280, 35.23.440, and 35A.82.020. However, any fee structure selected by a city must be within the department's technical ability to administer. The department has the sole discretion to determine if it can administer a city's fee structure.
(b) If the department is unable to administer a city's fee structure, the city must work with the department to adopt a fee structure that is administrable by the department. If a city fails to comply with this subsection (2)(b), it may not enforce its general business licensing requirements on any person until the effective date of a fee structure that is administrable by the department.

(3) A general business license may not be renewed more frequently than once per year except that the department may require a more frequent renewal date as may be necessary to synchronize the renewal date for the general business license with the business's business license expiration date.

(4) The business licensing system need not accommodate any monetary penalty imposed by a city for failing to obtain or renew a general business license. The penalty imposed in RCW 19.02.085 applies to general business licenses that are not renewed by their expiration date.

(5) The department may refuse to administer any provision of a city business license ordinance that is inconsistent with this chapter.

NEW SECTION. Sec. 4. The department is not authorized to enforce a city's licensing laws except to the extent of issuing or renewing a license in accordance with this chapter and chapter 19.02 RCW or refusing to issue a license due to an incomplete application, nonpayment of the appropriate fees as indicated by the license application or renewal application, or the nonpayment of any applicable penalty for late renewal.

NEW SECTION. Sec. 5. Cities whose general business licenses are issued through the business licensing system retain the authority to set license fees, provide exemptions and thresholds for these licenses, approve or deny license applicants, and take appropriate administrative actions against licensees.

NEW SECTION. Sec. 6. Cities may not require a person to obtain or renew a general business license unless the person engages in business within its respective city. For the purposes of this section, a person may not be considered to be engaging in business within a city unless the person is subject to the taxing jurisdiction of a city under the standards established for interstate commerce under the commerce clause of the United States Constitution.

NEW SECTION. Sec. 7. A general business license change enacted by a city whose general business license is issued through the business licensing system takes effect no sooner than seventy-five days after the department receives notice of the change if the change affects in any way who must obtain a license, who is exempt from obtaining a license, or the amount or method of determining any fee for the issuance or renewal of a license.

NEW SECTION. Sec. 8. (1)(a) The cities, working through the association of Washington cities, must form a model ordinance development committee made up of a representative sampling of cities that impose a general business license requirement. This committee must work through the association of Washington cities to adopt a model ordinance on general business license requirements by July 1, 2018. The model ordinance and subsequent amendments developed by the committee must be adopted using a process that includes opportunity for substantial input from business stakeholders and other members of the public. Input must be solicited from statewide business associations and from local chambers of commerce and downtown business associations in cities that require a person that conducts business in the city to obtain a general business license.

(b) The department, association of Washington cities, and municipal research and services center must post copies of, or links to, the model ordinance on their internet web sites. Additionally, a city that imposes a general business license requirement must make copies of its general business license ordinance or ordinances available for inspection and copying as provided in chapter 42.56 RCW.

(c) The definitions in the model ordinance may not be amended more frequently than once every four years, except that the model ordinance may be amended at any time to comply with changes in state law or court decisions. Any amendment to a mandatory provision of the model ordinance must be adopted with the same effective date by all cities.

(2) A city that imposes a general business license requirement must adopt the mandatory provisions of the model ordinance by January 1, 2019. The following provisions are mandatory:
(a) A definition of "engaging in business within the city" for purposes of delineating the circumstances under which a general business license is required;

(b) A uniform minimum licensing threshold under which a person would be relieved of the requirement to obtain a city's general business license. A city retains the authority to create a higher threshold for the requirement to obtain a general business license but must not deviate lower than the level required by the model ordinance.

(3)(a) A city may require a person that is under the uniform minimum licensing threshold as provided in subsection (2) of this section to obtain a city registration with no fee due to the city.

(b) A city that requires a city registration as provided in (a) of this subsection must partner with the department to have such registration issued through the business licensing service in accordance with chapter 19.02 RCW. This subsection (3)(b) does not apply to a city that is excluded from the requirement to partner with the department for the issuance and renewal of general business licenses as provided in section 2 of this act.

NEW SECTION.  Sec. 9. Cities that impose a general business license must adopt the mandatory provisions of the model ordinance as provided in section 8 of this act by January 1, 2019. A city that has not complied with the requirements of this section by January 1, 2019, may not enforce its general business licensing requirements on any person until the date that the mandatory provisions of the model ordinance take effect within the city.

NEW SECTION.  Sec. 10. Cities must coordinate with the association of Washington cities to submit a report to the governor; legislative fiscal committees; house local government committee; and the senate agriculture, water, trade and economic development committee by January 1, 2019. The report must:

(1) Provide information about the model ordinance adopted by the cities as required in section 8 of this act;

(2) Identify cities that have and have not adopted the mandatory provisions of the model ordinance; and

(3) Incorporate comments from statewide business organizations concerning the process and substance of the model ordinance. Statewide business organizations must be allowed thirty days to submit comments for inclusion in the report.

NEW SECTION.  Sec. 11. (1) The legislature directs cities, towns, and identified business organizations to partner in recommending changes to simplify the two factor apportionment formula provided in RCW 35.102.130.

(2)(a) The local business and occupation tax apportionment task force is established. The task force must consist of the following seven representatives:

(i) Three voting representatives selected by the association of Washington cities that are tax managers representing municipalities that impose a local business and occupation tax, including at least one jurisdiction that has performed an audit where apportionment errors were discovered.

(ii) Three voting representatives selected by the association of Washington business, including at least one tax practitioner or legal counsel with experience representing business clients during municipal audits that involved apportionment errors or disputes.

(iii) One nonvoting representative from the department.

(b) The task force may seek input or collaborate with other parties, as it deems necessary. The department must serve as the task force chair and must staff the task force.

(c) Beginning in the first month following the effective date of this section, the task force must meet no less frequently than once per month until it reports to the legislature as provided under subsection (3) of this section.

(3) By October 31, 2018, the task force established in subsection (2) of this section must prepare a report to the legislature to recommend changes to RCW 35.102.130 and related sections, as needed, to develop a method for assigning gross receipts to a local jurisdiction using a market-based model. The task force must focus on methods that rely on information typically available in commercial transaction receipts and captured by common business recordkeeping systems.
(4) The task force terminates January 1, 2019, unless legislation is enacted to extend such termination date.

NEW SECTION. Sec. 12. Sections 1 through 10 of this act constitute a new chapter in Title 35 RCW."

An order for initial detention under this section expires one hundred eighty days from issuance.

((8)) (9) Except as otherwise expressly stated in this chapter, all procedures must be followed as if the order had been entered under RCW 71.05.150. RCW 71.05.160 does not apply if detention was initiated under the process set forth in this section.

a written sworn statement describing the basis for the decision not to seek initial detention and a copy of all information material to the designated crisis responder's current decision.

(((4))) (5) Following the filing of the petition and before the court reaches a decision, any person, including a mental health professional, may submit a sworn declaration to the court in support of or in opposition to initial detention.

(((5))) (6) The court shall dismiss the petition at any time if it finds that a designated crisis responder has filed a petition for the person's initial detention under RCW 71.05.150 or 71.05.153 or that the person has voluntarily accepted appropriate treatment.

(((6))) (7) The court must issue a final ruling on the petition within five judicial days after it is filed. After reviewing all of the information provided to the court, the court may enter an order for initial detention if the court finds that: (a) There is probable cause to support a petition for detention; and (b) the person has refused or failed to accept appropriate evaluation and treatment voluntarily. The court shall transmit its final decision to the petitioner.

(((7))) (8) If the court enters an order for initial detention, it shall provide the order to the designated crisis responder agency (which shall execute the order without delay)) and issue a written order for apprehension of the person by a peace officer for delivery of the person to a facility or emergency room determined by the designated crisis responder. The designated crisis responder agency serving the jurisdiction of the court must collaborate and coordinate with law enforcement regarding apprehensions and detentions under this subsection, including sharing of information relating to risk and which would assist in locating the person. A person may not be detained to jail pursuant to a written order issued under this subsection. An order for detention under this section expires one hundred eighty days from issuance.

(((8))) (9) Except as otherwise expressly stated in this chapter, all procedures must be followed as if the order had been entered under RCW 71.05.150. RCW 71.05.160 does not apply if detention was initiated under the process set forth in this section.

(((9))) (10) For purposes of this section, "immediate family member" means a spouse, domestic partner, child, stepchild, parent, stepparent, grandparent, or sibling.

Sec. 3. RCW 71.05.203 and 2015 c 258 s 3 are each amended to read as follows:

(2) A designated mental health professional or designated mental health professional agency that receives a request for investigation for possible detention under this chapter must inquire whether the request comes from an immediate family member, guardian, or conservator who would be eligible to petition under RCW 71.05.201. If the designated mental health professional decides not to detain the person for evaluation and treatment under RCW 71.05.150 or 71.05.153 or forty-eight hours have elapsed since the request for investigation was received and the designated mental health professional has not taken action to have the person detained, the designated mental health professional or designated mental health professional agency must ((inform)) provide the immediate family member, guardian, or conservator who made the request for investigation with written information about the process to petition under RCW 71.05.201 and document the date on which the written information was provided to the immediate family member, guardian, or conservator.

(3) A designated mental health professional or designated mental health professional agency must, upon request, disclose the date of a designated mental health professional investigation under this chapter to an immediate family member, guardian, or conservator who made the request for investigation with written information about the process to petition for court review under RCW 71.05.201 and document the date on which the written information was provided to the immediate family member, guardian, or conservator.

Sec. 4. RCW 71.05.203 and 2016 sp.s. c 29 s 223 are each amended to read as follows:

(2) A designated crisis responder or designated crisis responder agency that receives a request for investigation for possible detention under this chapter must inquire whether the request comes from an immediate family member, guardian, or conservator who would be eligible to petition under RCW 71.05.201. If the designated crisis responder decides not to detain the person for evaluation and treatment under RCW 71.05.150 or 71.05.153 or forty-eight hours have elapsed since the request for investigation was received and the designated crisis responder has not taken action to have the person detained, the designated crisis responder or designated crisis responder agency must provide the immediate family member, guardian, or conservator who made the request for investigation with written information about the process to petition for court review under RCW 71.05.201 and document the date on which the written information was provided to the immediate family member, guardian, or conservator.

(3) A designated crisis responder or designated crisis responder agency must, upon request, disclose the date of a designated crisis responder investigation under this chapter to an immediate family member, guardian, or conservator of a person to assist in the preparation of a petition under RCW 71.05.201.

Part Two – Less Restrictive Alternative Revocations

Sec. 8. RCW 71.05.590 and 2015 c 250 s 13 are each amended to read as follows:

(1) Either an agency or facility designated to monitor or provide services under a less restrictive alternative order or conditional release order, or a designated mental health professional, may take action to enforce, modify, or revoke a less restrictive alternative order or conditional release order. The agency, facility, or designated mental health professional must determine that:

(a) The person is failing to adhere to the terms and conditions of the court order;

(b) Substantial deterioration in the person's functioning has occurred;

(c) There is evidence of substantial decompensation with a reasonable probability that the decompensation can be reversed by further evaluation, intervention, or treatment; or

(d) The person poses a likelihood of serious harm.

(2) Actions taken under this section must include a flexible range of responses of varying levels of intensity appropriate to the circumstances and consistent with the interests of the individual and the public in personal autonomy, safety, recovery, and compliance. Available actions may include, but are not limited to, any of the following:

(a) To counsel or advise the person as to their rights and responsibilities under the court order, and to offer appropriate incentives to motivate compliance;

(b) To increase the intensity of outpatient services provided to the person by increasing the frequency of contacts with the provider, referring the person for an assessment for assertive community services, or by other means;

(c) To request a court hearing for review and modification of the court order. The request must be made to the court with jurisdiction over the order and specify the circumstances that give rise to the request and what modification is being sought. The county prosecutor shall assist the agency or facility in requesting this hearing and issuing an appropriate summons to the person. This
subsection does not limit the inherent authority of a treatment provider to alter conditions of treatment for clinical reasons, and is intended to be used only when court intervention is necessary or advisable to secure the person’s compliance and prevent decompensation or deterioration;

(d)) To cause the person to be transported by a peace officer, designated mental health professional, or other means to the agency or facility monitoring or providing services under the court order, or to a triage facility, crisis stabilization unit, emergency department, or evaluation and treatment facility for up to twelve hours for the purpose of an evaluation to determine whether modification, revocation, or commitment proceedings are necessary and appropriate to stabilize the person and prevent decompensation, deterioration, or physical harm. Temporary detention for evaluation under this subsection is intended to occur only following a pattern of noncompliance or the failure of reasonable attempts at outreach and engagement, and may occur only when in the clinical judgment of a designated mental health professional or the professional person in charge of an agency or facility designated to monitor less restrictive alternative services temporary detention is appropriate. This subsection does not limit the ability or obligation to pursue revocation or modification procedures under ((subsection (4) of)) this section in appropriate circumstances; and

((d))) (d) To initiate revocation or modification procedures under ((subsection (4) of)) this section. This subsection does not limit the inherent authority of a treatment provider to alter conditions of treatment for clinical reasons, and is intended to be used only when court intervention is necessary or advisable to secure the person’s compliance and prevent decompensation or deterioration.

(3) The facility or agency designated to provide outpatient treatment shall notify the secretary or designated mental health professional when a person fails to adhere to terms and conditions of court ordered treatment or experiences substantial deterioration in his or her condition and, as a result, presents an increased likelihood of serious harm.

(4)(a) A designated mental health professional or the secretary may upon their own motion or notification by the facility or agency designated to provide outpatient care order a person subject to a court order under this section to be apprehended and taken into custody and temporary detention in an evaluation and treatment facility in or near the county in which he or she is receiving outpatient treatment, or initiate proceedings under ((subsection ())) subsection (((4))) (5) of this section without ordering the apprehension and detention of the person.

(b) A person detained under this subsection (4) must be held until such time, not exceeding five days, as a hearing can be scheduled to determine whether or not the person should be returned to the hospital or facility from which he or she had been detained. If the person is not detained, the hearing must be scheduled within five days of service on the person. The designated mental health professional or the secretary may modify or rescind the order at any time prior to commencement of the court hearing.

((((d))) (5)(a) The designated mental health professional or secretary shall notify the court that originally ordered commitment within two judicial days of a person’s detention and file a petition for revocation or modification and an order of apprehension and detention, if applicable, with the court of the county where the person is currently located or being detained. The designated mental health professional shall serve the person and their attorney, guardian, and conservator, if any. The person has the same rights with respect to notice, hearing, and counsel as in any involuntary treatment proceeding, except as specifically set forth in this section. There is no right to jury trial. The venue for proceedings regarding a petition for modification or revocation must be in the county in which the petition is filed. Notice of the filing must be provided to the court that originally ordered commitment, if different from the court where the petition for revocation or modification is filed, within two judicial days of the person’s detention.

)(((b))) (b) The issues for the court to determine are whether: (i) The person adhered to the terms and conditions of the court order; (ii) substantial deterioration in the person’s functioning has occurred; (iii) there is evidence of substantial decompensation with a reasonable probability that the
decompensation can be reversed by further inpatient treatment; or (iv) there is a likelihood of serious harm; and, if any of the above conditions apply, whether the court should reinstate or modify the person's less restrictive alternative or conditional release order or order the person's detention for inpatient treatment. The person may waive the court hearing and allow the court to enter a stipulated order upon the agreement of all parties. If the court orders detention for inpatient treatment, the treatment period may be for no longer than the period authorized in the original court order.

(4) Revocation proceedings under this subsection are not allowable if the current commitment is solely based on the person being in need of assisted outpatient mental health treatment. In order to obtain a court order for detention for inpatient treatment under this circumstance, a petition must be filed under RCW 71.05.150 or 71.05.153.

(5) In determining whether or not to take action under this section the designated mental health professional, agency, or facility must consider the factors specified under RCW 71.05.212 and the court must consider the factors specified under RCW 71.05.245 as they apply to the question of whether to enforce, modify, or revoke a court order for involuntary treatment.

Sec. 9. RCW 71.05.590 and 2016 sp.s. c 29 s 242 are each amended to read as follows:

(1) Either an agency or facility designated to monitor or provide services under a less restrictive alternative order or conditional release order, or a designated crisis responder, may take action to enforce, modify, or revoke a less restrictive alternative order or conditional release order. The agency, facility, or designated crisis responder must determine that:

(a) The person is failing to adhere to the terms and conditions of the court order;

(b) Substantial deterioration in the person’s functioning has occurred;

(c) There is evidence of substantial decompensation with a reasonable probability that the decompensation can be reversed by further evaluation, intervention, or treatment; or

(d) The person poses a likelihood of serious harm.

(2) Actions taken under this section must include a flexible range of responses of varying levels of intensity appropriate to the circumstances and consistent with the interests of the individual and the public in personal autonomy, safety, recovery, and compliance. Available actions may include, but are not limited to, any of the following:

(a) To counsel or advise the person as to their rights and responsibilities under the court order, and to offer appropriate incentives to motivate compliance;

(b) To increase the intensity of outpatient services provided to the person by increasing the frequency of contacts with the provider, referring the person for an assessment for assertive community services, or by other means;

(c) To request a court hearing for review and modification of the court order. The request must be made to the court with jurisdiction over the order and specify the circumstances that give rise to the request and what modification is being sought. The county prosecutor shall assist the agency or facility in requesting this hearing and issuing an appropriate summons to the person. This subsection does not limit the inherent authority of a treatment provider to alter conditions of treatment for clinical reasons, and is intended to be used only when court intervention is necessary or advisable to secure the person's compliance and prevent decompensation or deterioration;

(d) To cause the person to be transported by a peace officer, designated crisis responder, or other means to the agency or facility monitoring or providing services under the court order, or to a triage facility, crisis stabilization unit, emergency department, or to an evaluation and treatment facility if the person is committed for mental health treatment, or to a secure detoxification facility with available space or an approved substance use disorder treatment program with available space if the person is committed for substance use disorder treatment. The person may be detained at the facility for up to twelve hours for the purpose of an evaluation to determine whether modification, revocation, or commitment proceedings are necessary and appropriate to stabilize the person and
prevent decompensation, deterioration, or physical harm. Temporary detention for evaluation under this subsection is intended to occur only following a pattern of noncompliance or the failure of reasonable attempts at outreach and engagement, and may occur only when in the clinical judgment of a designated crisis responder or the professional person in charge of an agency or facility designated to monitor less restrictive alternative services temporary detention is appropriate. This subsection does not limit the ability or obligation to pursue revocation or modification procedures under ((subsection (4) of)) this section in appropriate circumstances; and

((e)) (d) To initiate revocation or modification procedures under ((subsection (4) of)) this section. This subsection does not limit the inherent authority of a treatment provider to alter conditions of treatment for clinical reasons, and is intended to be used only when court intervention is necessary or advisable to secure the person's compliance and prevent decompensation or deterioration.

(3) The facility or agency designated to provide outpatient treatment shall notify the secretary or designated crisis responder when a person fails to adhere to terms and conditions of court ordered treatment or experiences substantial deterioration in his or her condition and, as a result, presents an increased likelihood of serious harm.

(4)(a) A designated crisis responder or the secretary may upon their own motion or notification by the facility or agency designated to provide outpatient care order a person subject to a court order under this chapter to be apprehended and taken into custody and temporary detention in an evaluation and treatment facility in or near the county in which he or she is receiving outpatient treatment if the person is committed for mental health treatment, or, if the person is committed for substance use disorder treatment, in a secure detoxification facility or approved substance use disorder treatment program if either is available in or near the county in which he or she is receiving outpatient treatment and has adequate space. Proceedings under ((subsection (4) of)) subsection (((4))) of this section may be initiated without ordering the apprehension and detention of the person.

(b) A person detained under this subsection (4) must be held until such time, not exceeding five days, as a hearing can be scheduled to determine whether or not the person should be returned to the hospital or facility from which he or she had been released. If the person is not detained, the hearing must be scheduled within five days of service on the person. The designated crisis responder or the secretary may modify or rescind the order at any time prior to commencement of the court hearing.

((f)) (5)(a) The designated crisis responder or secretary shall ((notify the court that originally ordered commitment within two judicial days of a person's detention and)) file a petition for revocation ((petition)) or modification and an order of apprehension and detention, if applicable, with the court ((and)) of the county where the person is currently located or being detained. The designated crisis responder shall serve the person and their attorney, guardian, and conservator, if any. The person has the same rights with respect to notice, hearing, and counsel as in any involuntary treatment proceeding, except as specifically set forth in this section. There is no right to jury trial. The venue for proceedings ((regarding a petition for modification or revocation must be in)) is the county ((in which)) where the person is currently located or being detained. Notice of the filing must be provided to the court that originally ordered commitment, if different from the court where the petition for revocation or modification is filed, within two judicial days of the person's detention.

((g)) (b) The issues for the court to determine are whether: (i) The person adhered to the terms and conditions of the court order; (ii) substantial deterioration in the person's functioning has occurred; (iii) there is evidence of substantial decompensation with a reasonable probability that the decompensation can be reversed by further inpatient treatment; or (iv) there is a likelihood of serious harm; and, if any of the above conditions apply, whether the court should reinstate or modify the person's less restrictive alternative or conditional release order or order the person's detention for inpatient treatment. The person may waive the court hearing and allow the court to enter a stipulated order upon the agreement of all parties. If the court orders detention for inpatient treatment, the treatment period may be for no longer than the period authorized in the original court order. A
court may not issue an order to detain a person for inpatient treatment in a secure detoxification facility or approved substance use disorder treatment program under this subsection unless there is a secure detoxification facility or approved substance use disorder treatment program available and with adequate space for the person.

(c) Revocation proceedings under this subsection ((4)) (5) are not allowable if the current commitment is solely based on the person being in need of assisted outpatient mental health treatment. In order to obtain a court order for detention for inpatient treatment under this circumstance, a petition must be filed under RCW 71.05.150 or 71.05.153.

In determining whether or not to take action under this section the designated crisis responder, agency, or facility must consider the factors specified under RCW 71.05.212 and the court must consider the factors specified under RCW 71.05.245 as they apply to the question of whether to enforce, modify, or revoke a court order for involuntary treatment.

Sec. 10. RCW 71.05.590 and 2016 sp.s. c 29 s 243 are each amended to read as follows:

The designated mental health professional shall take serious consideration of observations and opinions by an examining emergency room physician((s)), advanced registered nurse practitioner, or physician assistant in determining whether detention under this chapter is appropriate. The designated mental health professional must document ((the)) his or her consultation with ((an examining emergency room physician)) this professional, ((including)) if the professional is available, or his or her review of the ((physician's)) professional's written observations or opinions regarding whether detention of the person is appropriate.

Sec. 12. RCW 71.05.154 and 2016 sp.s. c 29 s 214 are each amended to read as follows:

(A) If a person subject to evaluation under RCW 71.05.150 or 71.05.153 is located in an emergency room at the time of evaluation, the designated crisis responder conducting (an) the evaluation ((of a person under RCW 71.05.150 or 71.05.153 must consult with any examining emergency room physician regarding the physician's observations and opinions relating to the person's condition, and whether, in the view of the physician, detention is appropriate. Part Four – Evaluation and Petition by Chemical Dependency Professionals

Sec. 13. RCW 70.96A.140 and 2016 sp.s. c 29 s 102 are each amended to read as follows:

(1)(a) When a designated chemical dependency specialist receives information alleging that a person presents a likelihood of serious harm or is gravely disabled as a result of a substance use disorder, the designated chemical dependency specialist, after investigation and evaluation of the specific facts alleged and of the reliability and credibility of the information, may file a petition for commitment of such person with the superior court, district court, or in another court permitted by court rule. If a petition for commitment is not filed in the case of a minor, the parent, guardian, or custodian who has custody of the minor may seek review of that decision made by the designated chemical dependency specialist in superior or district court. The parent, guardian, or custodian shall file notice with the court and provide a copy of the designated chemical dependency specialist's report.

If the designated chemical dependency specialist finds that the initial needs of such person would be better served by placement within the mental health system, the person shall be referred to either a designated mental health professional or an evaluation and treatment facility as defined in RCW 71.05.020 or 71.34.020.

(b) If placement in a substance use disorder
treatment program is available and deemed appropriate, the petition shall allege that: The person is chemically dependent and presents a likelihood of serious harm or is gravely disabled by alcohol or drug addiction, or that the person has twice before in the preceding twelve months been admitted for withdrawal management, sobering services, or (chemical dependency) substance use disorder treatment pursuant to RCW 70.96A.110 or 70.96A.120, and is in need of a more sustained treatment program, or that the person ((is chemically dependent)) has a substance use disorder and has threatened, attempted, or inflicted physical harm on another and is likely to inflict physical harm on another unless committed. A refusal to undergo treatment, by itself, does not constitute evidence of lack of judgment as to the need for treatment.

(c) If involuntary detention is sought, the petition must state facts that support a finding of the grounds identified in (b) of this subsection and that there are no less restrictive alternatives to detention in the best interest of such person or others. The petition must state specifically that less restrictive alternative treatment was considered and specify why treatment less restrictive than detention is not appropriate. If an involuntary less restrictive alternative is sought, the petition must state facts that support a finding of the grounds for commitment identified in (b) of this subsection and set forth the proposed less restrictive alternative.

(d)(i) The petition must be signed by:

(A) ((Two physicians;)) One physician, physician assistant, or psychiatric advanced registered nurse practitioner; and

(B) ((One physician and a mental health professional;)

(C) One physician assistant and a mental health professional;

(D) One psychiatric advanced registered nurse practitioner and a mental health professional.

(ii) The persons signing the petition must have examined the person

(2) Upon filing the petition, the court shall fix a date for a hearing no less than two and no more than seven days after the date the petition was filed unless the person petitioned against is presently being detained in a program, pursuant to RCW 70.96A.120, 71.05.210, or 71.34.710, in which case the hearing shall be held within seventy-two hours of the filing of the petition((: PROVIDED, HOWEVER, That)). The ((above specified)) seventy-two hours shall be computed by excluding Saturdays, Sundays, and holidays((: PROVIDED FURTHER, That)). The court may, upon motion of the person whose commitment is sought, or upon motion of petitioner with written permission of the person whose commitment is sought, or his or her counsel and, upon good cause shown, extend the date for the hearing. A copy of the petition and of the notice of the hearing, including the date fixed by the court, shall be served ((by the designated chemical dependency specialist)) on the person whose commitment is sought, his or her next of kin, a parent or his or her legal guardian if he or she is a minor, and any other person the court believes advisable. A copy of the petition and certificate shall be delivered to each person notified.

(3) At the hearing the court shall hear all relevant testimony including, if possible, the testimony, which may be telephonic, of at least one licensed physician, psychiatric advanced registered nurse practitioner, physician assistant, or ((mental health professional)) designated chemical dependency specialist who has examined the person whose commitment is sought. Communications otherwise deemed privileged under the laws of this state are deemed to be waived in proceedings under this chapter when a court of competent jurisdiction in its discretion determines that the waiver is necessary to protect either the detained person or the public. The waiver of a privilege under this section is limited to records or testimony relevant to evaluation of the detained person for purposes of a proceeding under this chapter. Upon motion by the detained person, or on its own motion, the court shall examine a record or testimony sought by a petitioner to determine whether it is within the scope of the waiver.

The record maker shall not be required to testify in order to introduce medical, nursing, or psychological records of detained persons so long as the requirements of RCW 5.45.020 are met, except that portions of the record that contain opinions as to whether the
detained person (is chemically dependent) has a substance use disorder shall be deleted from the records unless the person offering the opinions is available for cross-examination. The person shall be present unless the court believes that his or her presence is likely to be injurious to him or her; in this event the court may deem it appropriate to appoint a guardian ad litem to represent him or her throughout the proceeding. If deemed advisable, the court may examine the person out of courtroom. If the person has refused to be examined by a licensed physician, psychiatric advanced registered nurse practitioner, physician assistant, or (mental health professional) designated chemical dependency specialist, he or she shall be given an opportunity to be examined by a court appointed licensed physician, psychiatric advanced registered nurse practitioner, physician assistant, or other professional person qualified to provide such services. If he or she refuses and there is sufficient evidence to believe that the allegations of the petition are true, or if the court believes that more medical evidence is necessary, the court may make a temporary order committing him or her to the department for a period of not more than five days for purposes of a diagnostic examination.

(4)(a) If, after hearing all relevant evidence, including the results of any diagnostic examination, the court finds that grounds for involuntary commitment have been established by a preponderance of the evidence and, after considering less restrictive alternatives to involuntary detention and treatment, finds that no such alternatives are in the best interest of the person or others, it shall make an order of commitment to an approved substance use disorder treatment program. It shall not order commitment of a person unless it determines that an approved substance use disorder treatment program is available and able to provide adequate and appropriate treatment for him or her. A copy of the less restrictive order must be given to the respondent, the designated chemical dependency specialist, and any program designated to provide less restrictive treatment. If the program designated to provide the less restrictive treatment is other than the program providing the initial involuntary treatment, the program so designated must agree in writing to assume such responsibility. The court may not order commitment of a person to a less restrictive course of treatment unless it determines that an approved substance use disorder treatment program is available and able to provide adequate and appropriate treatment for him or her.

(5) A person committed to inpatient treatment under this section shall remain in the program for treatment for a period of fourteen days unless sooner discharged. A person committed to a less restrictive course of treatment under this section shall remain in the program of treatment for a period of ninety days unless sooner discharged. At the end of the fourteen-day period, or ninety-day period in the case of a less restrictive alternative to inpatient treatment, he or she shall be discharged automatically unless the program or the designated chemical dependency specialist, before expiration of the period, files a petition for his or her recommitment upon the grounds set forth in subsection (1) of this section for a further period of ninety days of inpatient treatment or ninety days of less restrictive alternative treatment unless sooner discharged. The petition for ninety-day inpatient or less restrictive alternative treatment must be filed with the clerk of the court at least three days before expiration of the fourteen-day period of intensive treatment.

If a petition for recommitment is not filed in the case of a minor, the parent, guardian, or custodian who has custody of the minor may seek review of that decision made by the designated chemical dependency specialist in superior or district court. The parent, guardian, or custodian shall file notice with the court and provide a copy of the treatment progress report.

If a person has been committed because he or she (is chemically dependent) has a substance use disorder and is likely to inflict physical harm on another, the program or designated chemical dependency specialist shall apply for recommitment if after examination it is determined that the likelihood still exists.
(6) Upon the filing of a petition for recommitment under subsection (5) of this section, the court shall fix a date for hearing no less than two and no more than seven days after the date the petition was filed. The court may, upon motion of the person whose commitment is sought and upon good cause shown, extend the date for the hearing. A copy of the petition and of the notice of hearing, including the date fixed by the court, shall be served by the treatment program on the person whose commitment is sought, his or her next of kin, the original petitioner under subsection (1) of this section if different from the petitioner for recommitment, one of his or her parents or his or her legal guardian if he or she is a minor, and his or her attorney and any other person the court believes advisable. At the hearing the court shall proceed as provided in subsections (3) and (4) of this section, except that the burden of proof upon a hearing for recommitment must be proof by clear, cogent, and convincing evidence.

(7) The approved substance use disorder treatment program shall provide for adequate and appropriate treatment of a person committed to its custody on an inpatient or outpatient basis. A person committed under this section may be transferred from one approved public treatment program to another if transfer is medically advisable.

(8) A person committed to a program for treatment shall be discharged at any time before the end of the period for which he or she has been committed and he or she shall be discharged by order of the court if either of the following conditions are met:

(a) In case of a person with a substance use disorder committed on the grounds of likelihood of infliction of physical harm upon himself, herself, or another, the likelihood no longer exists; or further treatment will not be likely to bring about significant improvement in the person's condition, or treatment is no longer adequate or appropriate.

(b) In case of a person with a substance use disorder committed on the grounds of the need of treatment and incapacity, that the incapacity no longer exists.

(9) The court shall inform the person whose commitment or recommitment is sought of his or her right to contest the application, be represented by counsel at every stage of any proceedings relating to his or her commitment and recommitment, and have counsel appointed by the court or provided by the court, if he or she wants the assistance of counsel and is unable to obtain counsel. If the court believes that the person needs the assistance of counsel, the court shall require, by appointment if necessary, counsel for him or her regardless of his or her wishes. The person shall, if he or she is financially able, bear the costs of such legal service; otherwise such legal service shall be at public expense. The person whose commitment or recommitment is sought shall be informed of his or her right to be examined by a licensed physician, psychiatric advanced registered nurse practitioner, physician assistant, designated chemical dependency specialist, or other professional person of his or her choice who is qualified to provide such services. If the person is unable to obtain a qualified person and requests an examination, the court shall employ a licensed physician, psychiatric advanced registered nurse practitioner, physician assistant, designated chemical dependency specialist, or other professional person to conduct an examination and testify on behalf of the person.

(10) A person committed under this chapter may at any time seek to be discharged from commitment by writ of habeas corpus in a court of competent jurisdiction.

(11) The venue for proceedings under this section is the county in which person to be committed resides or is present.

(12) When in the opinion of the professional person in charge of the program providing involuntary inpatient treatment under this chapter, the committed patient can be appropriately served by less restrictive treatment before expiration of the period of commitment, then the less restrictive care may be required as a condition for early release for a period which, when added to the initial treatment period, does not exceed the period of commitment. If the program designated to provide the less restrictive treatment is other than the program providing the initial involuntary treatment, the program so designated must agree in writing to assume such responsibility. A copy of the conditions for early release shall be given to the patient, the designated chemical
dependency specialist of original commitment, and the court of original commitment. The program designated to provide less restrictive care may modify the conditions for continued release when the modifications are in the best interests of the patient. If the program providing less restrictive care and the designated chemical dependency specialist determine that a conditionally released patient is failing to adhere to the terms and conditions of his or her release, or that substantial deterioration in the patient’s functioning has occurred, then the designated chemical dependency specialist shall notify the court of original commitment and request a hearing to be held no less than two and no more than seven days after the date of the request to determine whether or not the person should be returned to more restrictive care. The designated chemical dependency specialist shall file a petition with the court stating the facts substantiating the need for the hearing along with the treatment recommendations. The patient shall have the same rights with respect to notice, hearing, and counsel as for the original involuntary treatment proceedings. The issues to be determined at the hearing are whether the conditionally released patient did or did not adhere to the terms and conditions of his or her release to less restrictive care or that substantial deterioration of the patient’s functioning has occurred and whether the conditions of release should be modified or the person should be returned to a more restrictive program. The hearing may be waived by the patient and his or her counsel and his or her guardian or conservator, if any, but may not be waived unless all such persons agree to the waiver. Upon waiver, the person may be returned for involuntary treatment or continued on conditional release on the same or modified conditions. The grounds and procedures for revocation of less restrictive alternative treatment ordered by the court must be the same as those set forth in this section for less restrictive care arranged by an approved substance use disorder treatment program as a condition for early release.

Sec. 15. RCW 71.05.210 and 2016 sp.s. c 29 s 224 and 2016 c 155 s 2 are each reenacted and amended to read as follows:

(1) Each person involuntarily detained and accepted or admitted at an evaluation and treatment facility, secure detoxification facility, or approved substance use disorder treatment program:

(a) Shall, within twenty-four hours of his or her admission or acceptance at the facility, not counting time periods prior to medical clearance, be examined and evaluated by:

(i) One physician ((and a mental health professional)), physician assistant, or psychiatric advanced registered nurse practitioner; and

(ii) One ((physician assistant and a)) mental health professional((; or

(iii) One advanced registered nurse practitioner and a mental health)). If the person is detained for substance use disorder evaluation and treatment, the person may be examined by a chemical
dependency professional instead of a mental health professional; and

(b) Shall receive such treatment and care as his or her condition requires including treatment on an outpatient basis for the period that he or she is detained, except that, beginning twenty-four hours prior to a trial or hearing pursuant to RCW 71.05.215, 71.05.240, 71.05.310, 71.05.320, 71.05.590, or 71.05.217, the individual may refuse psychiatric medications, but may not refuse: (i) Any other medication previously prescribed by a person licensed under Title 18 RCW; or (ii) emergency lifesaving treatment, and the individual shall be informed at an appropriate time of his or her right of such refusal. The person shall be detained up to seventy-two hours, if, in the opinion of the professional person in charge of the facility, or his or her professional designee, the person presents a likelihood of serious harm, or is gravely disabled. A person who has been detained for seventy-two hours shall no later than the end of such period be released, unless referred for further care on a voluntary basis, or detained pursuant to court order for further treatment as provided in this chapter.

(2) If, after examination and evaluation, the mental health professional or chemical dependency professional and licensed physician, physician assistant, or psychiatric advanced registered nurse practitioner determine that the initial needs of the person, if detained to an evaluation and treatment facility, would be better served by placement in a substance use disorder treatment program, or, if detained to a secure detoxification facility or approved substance use disorder treatment program, would be better served in an evaluation and treatment facility then the person shall be referred to the more appropriate placement; however, a person may only be referred to a secure detoxification facility or approved substance use disorder treatment program if there is an available secure detoxification facility or approved substance use disorder treatment program with adequate space for the person.

(3) An evaluation and treatment center, secure detoxification facility, or approved substance use disorder treatment program admitting or accepting any person pursuant to this chapter whose physical condition reveals the need for hospitalization shall assure that such person is transferred to an appropriate hospital for evaluation or admission for treatment. Notice of such fact shall be given to the court, the designated attorney, and the designated crisis responder and the court shall order such continuance in proceedings under this chapter as may be necessary, but in no event may this continuance be more than fourteen days.

Sec. 16. RCW 71.05.210 and 2016 sp.s. c 29 s 225 are each amended to read as follows:

(1) Each person involuntarily detained and accepted or admitted at an evaluation and treatment facility, secure detoxification facility, or approved substance use disorder treatment program:

(a) Shall, within twenty-four hours of his or her admission or acceptance at the facility, not counting time periods prior to medical clearance, be examined and evaluated by:

(i) One physician (and a mental health professional), physician assistant, or psychiatric advanced registered nurse practitioner; and

(ii) One mental health professional (or

(iii) One advanced registered nurse practitioner and a mental health professional)). If the person is detained for substance use disorder evaluation and treatment, the person may be examined by a chemical dependency professional instead of a mental health professional; and

(b) Shall receive such treatment and care as his or her condition requires including treatment on an outpatient basis for the period that he or she is detained, except that, beginning twenty-four hours prior to a trial or hearing pursuant to RCW 71.05.215, 71.05.240, 71.05.310, 71.05.320, 71.05.590, or 71.05.217, the individual may refuse psychiatric medications, but may not refuse: (i) Any other medication previously prescribed by a person licensed under Title 18 RCW; or (ii) emergency lifesaving treatment, and the individual shall be informed at an appropriate time of his or her right of such refusal. The person shall be detained up to seventy-two hours, if, in the opinion of the professional person in charge of the facility, or his or her professional designee, the person presents a likelihood of serious harm, or is gravely disabled. A person who has been detained for seventy-two hours shall no
later than the end of such period be released, unless referred for further care on a voluntary basis, or detained pursuant to court order for further treatment as provided in this chapter.

(2) If, after examination and evaluation, the mental health professional or chemical dependency professional and licensed physician, physician assistant, or psychiatric advanced registered nurse practitioner determine that the initial needs of the person, if detained to an evaluation and treatment facility, would be better served by placement in a substance use disorder treatment facility, or, if detained to a secure detoxification facility or approved substance use disorder treatment program, would be better served in an evaluation and treatment facility, the person shall be referred to the more appropriate placement.

(3) An evaluation and treatment center, secure detoxification facility, or approved substance use disorder treatment program admitting or accepting any person pursuant to this chapter whose physical condition reveals the need for hospitalization shall assure that such person is transferred to an appropriate hospital for evaluation or admission for treatment. Notice of such fact shall be given to the court, the designated attorney, and the designated crisis responder and the court shall order such continuance in proceedings under this chapter as may be necessary, but in no event may this continuance be more than fourteen days.

Sec. 17. RCW 71.05.230 and 2016 sp.s. c 29 s 230, 2016 c 155 s 5, and 2016 c 45 s 1 are each reenacted and amended to read as follows:

A person detained or committed for seventy-two hour evaluation and treatment or for an outpatient evaluation for the purpose of filing a petition for a less restrictive alternative treatment order may be committed for not more than fourteen additional days of involuntary intensive treatment or ninety additional days of a less restrictive alternative to involuntary intensive treatment. A petition may only be filed if the following conditions are met:

(1) The professional staff of the agency or facility providing evaluation services has analyzed the person's condition and finds that the condition is caused by mental disorder or substance use disorder and results in a likelihood of serious harm, results in the person being gravely disabled, or results in the person being in need of assisted outpatient mental health treatment, and are prepared to testify those conditions are met; and

(2) The person has been advised of the need for voluntary treatment and the professional staff of the facility has evidence that he or she has not in good faith volunteered; and

(3) The agency or facility providing intensive treatment or which proposes to supervise the less restrictive alternative is certified to provide such treatment by the department; and

(4) The professional staff of the agency or facility or the designated crisis responder has filed a petition with the court for a fourteen day involuntary detention or a ninety day less restrictive alternative. The petition must be signed by:

(a) Two physicians, physician assistant, or psychiatric advanced registered nurse practitioner; and

(b) One physician, physician assistant, psychiatric advanced registered nurse practitioner, or mental health professional; or

(c) One physician assistant and a mental health professional; or

(d) One psychiatric advanced registered nurse practitioner and a mental health professional). If the petition is for substance use disorder treatment, the petition may be signed by a chemical dependency professional instead of a mental health professional. The persons signing the petition must have examined the person. If involuntary detention is sought the petition shall state facts that support the finding that such person, as a result of a mental disorder or substance use disorder, presents a likelihood of serious harm, or is gravely disabled and that there are no less restrictive alternatives to detention in the best interest of such person or others. The petition shall state specifically that less restrictive alternative treatment was considered and specify why treatment less restrictive than detention is not appropriate. If an involuntary less restrictive alternative is sought, the petition shall state facts that support the finding that such person, as a result of a mental disorder or as a result of a
substance use disorder, presents a likelihood of serious harm, is gravely disabled, or is in need of assisted outpatient mental health treatment, and shall set forth any recommendations for less restrictive alternative treatment services; and

(5) A copy of the petition has been served on the detained or committed person, his or her attorney and his or her guardian or conservator, if any, prior to the probable cause hearing; and

(6) The court at the time the petition was filed and before the probable cause hearing has appointed counsel to represent such person if no other counsel has appeared; and

(7) The petition reflects that the person was informed of the loss of firearm rights if involuntarily committed for mental health treatment; and

(8) At the conclusion of the initial commitment period, the professional staff of the agency or facility or the designated crisis responder may petition for an additional period of either ninety days of less restrictive alternative treatment or ninety days of involuntary intensive treatment as provided in RCW 71.05.290; and

(9) If the hospital or facility designated to provide less restrictive alternative treatment is other than the facility providing involuntary treatment, the outpatient facility so designated to provide less restrictive alternative treatment has agreed to assume such responsibility.

Sec. 18. RCW 71.05.290 and 2016 sp.s. c 29 s 235, 2016 c 155 s 6, and 2016 c 45 s 3 are each reenacted and amended to read as follows:

(1) At any time during a person's fourteen day intensive treatment period, the professional person in charge of a treatment facility or his or her professional designee or the designated crisis responder may petition the superior court for an order requiring such person to undergo an additional period of treatment. If less restrictive alternative treatment is sought, the petition shall set forth any recommendations for less restrictive alternative treatment services.

(3) If a person has been determined to be incompetent pursuant to RCW 10.77.086(4), then the professional person in charge of the treatment facility or his or her professional designee or the designated crisis responder may directly file a petition for one hundred eighty day treatment under RCW 71.05.280(3). Sec. 19. RCW 71.05.760 and 2016 sp.s. c 29 s 201 are each amended to read as follows:

(1)(a) By April 1, 2018, the department, by rule, must combine the functions of a designated mental health professional and designated chemical dependency specialist by establishing a designated crisis responder who is authorized to conduct investigations, detain persons up to seventy-two hours to the proper facility, and carry out the other functions identified in this chapter and chapter 71.34 RCW. (ii) Training must include chemical dependency training specific to the duties of a designated crisis responder, including diagnosis of substance abuse and dependence and assessment of risk associated with substance use.

(c) The department must develop a transition process for any person who has been designated as a designated mental health professional or a designated chemical dependency specialist before April 1, 2018, to be converted to a designated crisis responder. The behavioral health organizations shall provide training, as required by the department, to persons converting to designated crisis responders, which must include both mental health and chemical dependency training applicable to the designated crisis responder role.

(2)(a) The department must ensure that an additional sixteen-bed secure detoxification facility is operational by April 1st of each year beginning in 2020 until there is adequate capacity to meet the involuntary treatment requirements for substance use disorder clients.

The production, possession, delivery, distribution, and sale of marijuana in accordance with the provisions of this chapter and the rules adopted to implement and enforce it, by a validly licensed marijuana producer, shall not be a criminal or civil offense under Washington state law. Every marijuana producer's license shall be issued in the name of the applicant, shall specify the location at which the marijuana producer intends to operate, which must be within the state of Washington, and the holder thereof shall not allow any other person to use the license. The application fee for a marijuana producer's license shall be two hundred fifty dollars. The annual fee for issuance and renewal of a marijuana producer's license shall be one thousand dollars. (2) There shall be a marijuana processor's license to process, package, and label marijuana concentrates, useable marijuana, and marijuana-infused products for sale at wholesale to marijuana processors and marijuana retailers, regulated by the state liquor and cannabis
board and subject to annual renewal. The processing, packaging, possession, delivery, distribution, and sale of marijuana, useable marijuana, marijuana-infused products, and marijuana concentrates in accordance with the provisions of this chapter and chapter 69.51A RCW and the rules adopted to implement and enforce these chapters, by a validly licensed marijuana processor, shall not be a criminal or civil offense under Washington state law. Every marijuana processor's license shall be issued in the name of the applicant, shall specify the location at which the licensee intends to operate, which must be within the state of Washington, and the holder thereof shall not allow any other person to use the license. The application fee for a marijuana processor's license shall be two hundred fifty dollars. The annual fee for issuance and renewal of a marijuana processor's license shall be one thousand dollars. A separate license shall be required for each location at which a marijuana processor intends to process marijuana.

(3)(a) There shall be a marijuana retailer's license to sell marijuana concentrates, useable marijuana, and marijuana-infused products at retail in retail outlets, regulated by the state liquor and cannabis board and subject to annual renewal. The possession, delivery, distribution, and sale of marijuana concentrates, useable marijuana, and marijuana-infused products in accordance with the provisions of this chapter and the rules adopted to implement and enforce it, by a validly licensed marijuana retailer, shall not be a criminal or civil offense under Washington state law. Every marijuana retailer's license shall be issued in the name of the applicant, shall specify the location of the retail outlet the licensee intends to operate, which must be within the state of Washington, and the holder thereof shall not allow any other person to use the license. The application fee for a marijuana retailer's license shall be two hundred fifty dollars. The annual fee for issuance and renewal of a marijuana retailer's license shall be one thousand dollars. A separate license shall be required for each location at which a marijuana retailer intends to sell marijuana concentrates, useable marijuana, and marijuana-infused products.

(c)(i) A marijuana retailer's license is subject to forfeiture in accordance with rules adopted by the state liquor and cannabis board pursuant to this section.

(ii) The state liquor and cannabis board shall adopt rules to establish a license forfeiture process for a licensed marijuana retailer that is not fully operational and open to the public within a specified period from the date of license issuance, as established by the state liquor and cannabis board, subject to the following restrictions:

(A) No marijuana retailer's license may be subject to forfeiture within the first nine months of license issuance; and

(B) The state liquor and cannabis board must require license forfeiture on or before twenty-four calendar months of license issuance if a marijuana retailer is not fully operational and open to the public, unless the board determines that circumstances out of the licensee's control are preventing the licensee from becoming fully operational and that, in the board's discretion, the circumstances warrant extending the forfeiture period beyond twenty-four calendar months.

(iii) The state liquor and cannabis board has discretion in adopting rules under this subsection (3)(c).

(iv) This subsection (3)(c) applies to marijuana retailer's licenses issued before and after the effective date of this section. However, no license of a marijuana retailer that otherwise meets the conditions for license forfeiture established pursuant to this subsection (3)(c) may be subject to forfeiture within the first nine calendar months of the effective date of this section.

(v) The board may not require license forfeiture if the licensee has been incapable of opening a fully operational retail marijuana business due to actions by the city, town, or county with jurisdiction over the licensee that include any of the following:

(A) The adoption of a ban or moratorium that prohibits the opening of a retail marijuana business; or

(B) The adoption of an ordinance or regulation related to zoning, business licensing, land use, or other regulatory
measure that has the effect of preventing a licensee from receiving an occupancy permit from the jurisdiction or which otherwise prevents a licensed marijuana retailer from becoming operational.

Sec. 2. RCW 69.50.331 and 2015 2nd sp.s. c 4 s 301 are each amended to read as follows:

(1) For the purpose of considering any application for a license to produce, process, research, transport, or deliver marijuana, useable marijuana, marijuana concentrates, or marijuana-infused products subject to the regulations established under RCW 69.50.385, or sell marijuana, or for the renewal of a license to produce, process, research, transport, or deliver marijuana, useable marijuana, marijuana concentrates, or marijuana-infused products subject to the regulations established under RCW 69.50.385, or sell marijuana, the state liquor and cannabis board must conduct a comprehensive, fair, and impartial evaluation of the applications timely received. As part of the licensing application and renewal process, the board must review and report demographic data regarding the race, ethnic background, and gender of the applicants for the licenses authorized under this chapter.

(a) ((The state liquor and cannabis board must develop a competitive, merit-based application process that includes, at a minimum, the opportunity for an applicant to demonstrate experience and qualifications in the marijuana industry. The state liquor and cannabis board must give preference between competing applications in the licensing process to applicants that have the following experience and qualifications, in the following order of priority:

(i) First priority is given to applicants who:

(A) Applied to the state liquor and cannabis board for a marijuana retailer license prior to July 1, 2014;

(B) Operated or were employed by a collective garden before January 1, 2013;

(C) Have maintained a state business license and a municipal business license, as applicable in the relevant jurisdiction; and

(D) Have had a history of paying all applicable state taxes and fees;

(ii) Second priority must be given to applicants who:

(B) Have maintained a state business license and a municipal business license, as applicable in the relevant jurisdiction; and

(C) Have had a history of paying all applicable state taxes and fees; and

(iii) Third priority must be given to all other applicants who do not have the experience and qualifications identified in (a)(i) and (ii) of this subsection.

(b)) The state liquor and cannabis board may cause an inspection of the premises to be made, and may inquire into all matters in connection with the construction and operation of the premises. For the purpose of reviewing any application for a license and for considering the denial, suspension, revocation, or renewal or denial thereof, of any license, the state liquor and cannabis board may consider any prior criminal conduct of the applicant including an administrative violation history record with the state liquor and cannabis board and a criminal history record information check. The state liquor and cannabis board may submit the criminal history record information check to the Washington state patrol and to the identification division of the federal bureau of investigation in order that these agencies may search their records for prior arrests and convictions of the individual or individuals who filled out the forms. The state liquor and cannabis board must require fingerprinting of any applicant whose criminal history record information check is submitted to the federal bureau of investigation. The provisions of RCW 9.95.240 and of chapter 9.96A RCW do not apply to these cases. Subject to the provisions of this section, the state liquor and cannabis board may, in its discretion, grant or deny the renewal or license applied for. Denial may be based on, without limitation, the existence of chronic illegal activity documented in objections submitted pursuant to subsections (7)(c) and (10) of this section. Authority to approve an uncontested or unopposed license may be granted by the state liquor and cannabis board to any staff member the board designates in writing. Conditions for granting this authority must be adopted by rule.

((c))) (b) No license of any kind may be issued to:

one years;
(ii) A person doing business as a sole
proprietor who has not lawfully resided in
the state for at least six months prior to
applying to receive a license;

cooperative, association, nonprofit
corporation, or corporation unless formed
under the laws of this state, and unless
all of the members thereof are qualified
to obtain a license as provided in this
section; or
(iv) A person whose place of business
is conducted by a manager or agent, unless
the manager or agent possesses the same
qualifications required of the licensee.

(2)(a) The state liquor and cannabis
board may, in its discretion, subject to
the provisions of RCW 69.50.334, suspend
or cancel any license; and all protections
of the licensee from criminal or civil
sanctions under state law for producing,
processing, researching, or selling
marijuana, marijuana concentrates,
useable marijuana, or marijuana-infused
products thereunder must be suspended or
terminated, as the case may be.

(b) The state liquor and cannabis board
must immediately suspend the license of a
person who has been certified pursuant to
RCW 74.20A.320 by the department of social
and health services as a person who is not
in compliance with a support order. If the
person has continued to meet all other
requirements for reinstatement during the
suspension, reissuance of the license is
automatic upon the state liquor and
cannabis board's receipt of a release
issued by the department of social and
health services stating that the licensee
is in compliance with the order.

(c) The state liquor and cannabis board
may request the appointment of
administrative law judges under chapter
34.12 RCW who shall have power to
administer oaths, issue subpoenas for the
attendance of witnesses and the production
of papers, books, accounts, documents, and
testimony, examine witnesses, and to
receive testimony in any inquiry,
investigation, hearing, or proceeding in
any part of the state, under rules and
regulations the state liquor and cannabis
board may adopt.

(d) Witnesses must be allowed fees and
mileage each way to and from any inquiry,
investigation, hearing, or proceeding at
the rate authorized by RCW 34.05.446. Fees

(e) In case of disobedience of any
person to comply with the order of the
state liquor and cannabis board or a
subpoena issued by the state liquor and
cannabis board, or any of its members, or
administrative law judges, or on the
refusal of a witness to testify to any
matter regarding which he or she may be
lawfully interrogated, the judge of the
superior court of the county in which the
person resides, on application of any
member of the board or administrative law
judge, compels obedience by contempt
proceedings, as in the case of
disobedience of the requirements of a
subpoena issued from said court or a
refusal to testify therein.

(3) Upon receipt of notice of the
suspension or cancellation of a license,
the licensee must forthwith deliver up the
license to the state liquor and cannabis
board. Where the license has been
suspended only, the state liquor and
cannabis board must return the license to
the licensee at the expiration or
termination of the period of suspension.
The state liquor and cannabis board must
notify all other licensees in the county
where the subject licensee has its
premises of the suspension or cancellation
of the license; and no other licensee or
employee of another licensee may allow or
cause any marijuana, marijuana
concentrates, useable marijuana, or
marijuana-infused products to be delivered
to or for any person at the premises of
the subject licensee.

(4) Every license issued under this
chapter is subject to all conditions and
restrictions imposed by this chapter or by
rules adopted by the state liquor and
marijuana board to implement and enforce
this chapter. All conditions and
restrictions imposed by the state liquor
and cannabis board in the issuance of an
individual license must be listed on the
face of the individual license along with
the trade name, address, and expiration
date.

(5) Every licensee must post and keep
posted its license, or licenses, in a
conspicuous place on the premises.

(6) No licensee may employ any person
under the age of twenty-one years.

(7)(a) Before the state liquor and
marijuana board issues a new or renewed
license to an applicant it must give
notice of the application to the chief executive officer of the incorporated city or town, if the application is for a license within an incorporated city or town, or to the county legislative authority, if the application is for a license outside the boundaries of incorporated cities or towns, or to the tribal government if the application is for a license within Indian country, or to the port authority if the application for a license is located on property owned by a port authority.

(b) The incorporated city or town through the official or employee selected by it, the county legislative authority or the official or employee selected by it, the tribal government, or the port authority has the right to file with the state liquor and cannabis board within twenty days after the date of transmittal of the notice for applications, or at least thirty days prior to the expiration date for renewals, written objections against the applicant or against the premises for which the new or renewed license is asked. The state liquor and cannabis board may extend the time period for submitting written objections upon request from the authority notified by the state liquor and cannabis board.

(c) The written objections must include a statement of all facts upon which the objections are based, and in case written objections are filed, the city or town or county legislative authority may request, and the state liquor and cannabis board may in its discretion hold, a hearing subject to the applicable provisions of Title 34 RCW. If the state liquor and cannabis board makes an initial decision to deny a license or renewal based on the written objections of an incorporated city or town or county legislative authority, the applicant may request a hearing subject to the applicable provisions of Title 34 RCW. If a hearing is held at the request of the applicant, state liquor and cannabis board representatives must present and defend the state liquor and cannabis board's initial decision to deny a license or renewal.

(d) The state liquor and cannabis board may license premises located in compliance with the distance requirements set in an ordinance adopted under (b) or (c) of this subsection. Before issuing or renewing a research license for premises within one thousand feet but not less than one hundred feet of the facilities described in (a) of this subsection by enacting an ordinance authorizing such distance reduction, the board must ensure that the facility:

(i) Meets a security standard exceeding that which applies to marijuana producer, processor, or retailer licensees;

(ii) Is inaccessible to the public and no part of the operation of the facility is in view of the general public; and

(iii) Bears no advertising or signage indicating that it is a marijuana research facility.
(e) The state liquor and cannabis board may not issue a license for any premises within Indian country, as defined in 18 U.S.C. Sec. 1151, including any fee patent lands within the exterior boundaries of a reservation, without the consent of the federally recognized tribe associated with the reservation or Indian country.

(9) ((Subject to section 1601 of this act)) A city, town, or county may adopt an ordinance prohibiting a marijuana producer or marijuana processor from operating or locating a business within areas zoned primarily for residential use or rural use with a minimum lot size of five acres or smaller.

(10) In determining whether to grant or deny a license or renewal of any license, the state liquor and cannabis board must give substantial weight to objections from an incorporated city or town or county legislative authority based upon chronic illegal activity associated with the applicant's operations of the premises proposed to be licensed or the applicant's operation of any other licensed premises, or the conduct of the applicant's patrons inside or outside the licensed premises. "Chronic illegal activity" means (a) a pervasive pattern of activity that threatens the public health, safety, and welfare of the city, town, or county including, but not limited to, open container violations, assaults, disturbances, disorderly conduct, or other criminal law violations, or as documented in crime statistics, police reports, emergency medical response data, calls for service, field data, or similar records of a law enforcement agency for the city, town, county, or any other municipal corporation or any state agency; or (b) an unreasonably high number of citations for violations of RCW 46.61.502 associated with the applicant's or licensee's operation of any licensed premises as indicated by the reported statements given to law enforcement upon arrest.

Every marijuana research license must be issued in the name of the applicant, must specify the location at which the marijuana researcher intends to operate, which must be within the state of Washington, and the holder thereof may not allow any other person to use the license.

(7) The application fee for a marijuana research license is two hundred fifty dollars. The annual fee for issuance and renewal of a marijuana research license is one thousand dollars. The applicant must pay the cost of the review process directly to the scientific reviewer as designated by the liquor and cannabis board.

(8) The scientific reviewer shall review any reports made by marijuana research licensees under liquor and cannabis board rule and provide the liquor and cannabis board with its determination on whether the research project continues to meet research qualifications under this section.

(9) For the purposes of this section, "scientific reviewer" means an organization that convenes or contracts with persons who have the training and experience in research practice and research methodology to determine whether a project meets the criteria for a marijuana research license under this section and to review any reports submitted by marijuana research licensees under liquor and cannabis board rule. Sec. 9. RCW 15.120.020 and 2016 sp.s. c 11 s 3 are each amended to read as follows:

Except as otherwise provided in this chapter, industrial hemp is an agricultural product that may be grown, produced, possessed, processed, and exchanged in the state solely and exclusively as part of an industrial hemp research program supervised by the department. Processing any part of industrial hemp, except seed, as food, extract, oil, cake, concentrate, resin, or other preparation for topical use, oral consumption, or inhalation by humans is prohibited, unless the processing is both authorized by the department under section 10 of this act and in compliance with section 7606 of the federal agricultural act of 2014 (128 Stat. 649, 912; 7 U.S.C. Sec. 5940).

NEW SECTION. Sec. 10. A new section is added to chapter 15.120 RCW to read as follows:

(1) The department may allow a person holding an industrial hemp license authorizing the licensee to grow, produce, possess, or process industrial hemp to sell or transfer industrial hemp to a marijuana processor licensed under chapter 69.50 RCW and the rules adopted by the state liquor and cannabis board, for use by the marijuana processor.

However, such rules adopted by the state liquor and cannabis board or the department of health may not prohibit the processing or sale of any specific type of marijuana product because such specific type of marijuana product is
derived, in whole or in part, from industrial hemp.

(4) The department may adopt rules, in consultation with the state liquor and cannabis board, to implement this section.

NEW SECTION. Sec. 11. The legislature finds that protecting the state's children, youth, and young adults under the legal age to purchase and consume marijuana, by establishing limited restrictions on the advertising of marijuana and marijuana products, is necessary to assist the state's efforts to discourage and prevent underage consumption and the potential risks associated with underage consumption. The legislature finds that these restrictions assist the state in maintaining a strong and effective regulatory and enforcement system as specified by the federal government. The legislature finds this act leaves ample opportunities for licensed marijuana businesses to market their products to those who are of legal age to purchase them, without infringing on the free speech rights of business owners. Finally, the legislature finds that the state has a substantial and compelling interest in enacting this act aimed at protecting Washington's children, youth, and young adults.

The application for an original license shall include two complete sets of fingerprints to be forwarded to the Washington state patrol.

The license and application shall contain a warning substantially as follows:
CAUTION: Although state and local laws do not differ, federal law and state law on the possession of firearms differ. If you are prohibited by federal law from possessing a firearm, you may be prosecuted in federal court. A state license is not a defense to a federal prosecution.

The license shall contain a description of the major differences between state and federal law and an explanation of the fact that local laws and ordinances on firearms are preempted by state law and must be consistent with state law.

The application shall contain questions about the applicant's eligibility under RCW 9.41.040 and federal law to possess a pistol, the applicant's place of birth, and whether the applicant is a United States citizen. If the applicant is not a United States citizen, the applicant must provide the applicant's country of citizenship, United States issued alien number or admission number, and the basis on which the applicant claims to be exempt from federal prohibitions on firearm possession by aliens. The applicant shall not be required to produce a birth certificate or other evidence of citizenship. A person who is not a citizen of the United States shall, if applicable, meet the additional requirements of RCW 9.41.173 and produce proof of compliance with RCW 9.41.173 upon application. The license may be in triplicate or in a form to be prescribed by the department of licensing.

The original thereof shall be delivered to the licensee, the duplicate shall within seven days be sent to the director of licensing and the triplicate shall be preserved for six years, by the authority issuing the license.

The department of licensing shall make available to law enforcement and corrections agencies, in an on-line format, all information received under this subsection.

(5) The nonrefundable fee, paid upon application, for the original five-year license shall be thirty-six dollars plus additional charges imposed by the federal bureau of investigation that are passed on to the applicant. No other state or local branch or unit of government may impose any additional charges on the applicant for the issuance of the license.

The fee shall be distributed as follows:

(a) Fifteen dollars shall be paid to the state general fund;
(b) Four dollars shall be paid to the agency taking the fingerprints of the person licensed;
(c) Fourteen dollars shall be paid to the issuing authority for the purpose of enforcing this chapter; and
(d) Three dollars to the firearms range account in the general fund.

(6) The nonrefundable fee for the renewal of such license shall be thirty-two dollars. No other branch or unit of government may impose any additional charges on the applicant for the renewal of the license.

The renewal fee shall be distributed as follows:

(a) Fifteen dollars shall be paid to the state general fund;
(b) Fourteen dollars shall be paid to the issuing authority for the purpose of enforcing this chapter; and
(c) Three dollars to the firearms range account in the general fund.

(7) The nonrefundable fee for replacement of lost or damaged licenses is ten dollars to be paid to the issuing authority.

(8) Payment shall be by cash, check, or money order at the option of the applicant. Additional methods of payment may be allowed at the option of the issuing authority.

(9) If the licensee provides an email address at the time of application, the department of licensing must send notice of the license expiration to the licensee's email address within sixty days prior to the expiration of the license. A licensee may renew a license if the licensee applies for renewal within ninety days before or after the expiration date of the license. A license so renewed shall take effect on the expiration date of the prior license. A licensee renewing after the expiration date of the license must pay a late renewal penalty of ten dollars in addition to the renewal fee specified in subsection (6) of this section. The fee shall be distributed as follows:

(a) Three dollars shall be deposited in the state wildlife account and used exclusively first for the printing and distribution of a pamphlet on the legal limits of the use of firearms, firearms
safety, and the preemptive nature of state law, and subsequently the support of volunteer instructors in the basic firearms safety training program conducted by the department of fish and wildlife. The pamphlet shall be given to each applicant for a license; and

(b) Seven dollars shall be paid to the issuing authority for the purpose of enforcing this chapter.

(10) Notwithstanding the requirements of subsections (1) through (9) of this section, the chief of police of the municipality or the sheriff of the county of the applicant's residence may issue a temporary emergency license for good cause pending review under subsection (1) of this section. However, a temporary emergency license issued under this subsection shall not exempt the holder of the license from any records check requirement. Temporary emergency licenses shall be easily distinguishable from regular licenses.

(11) A political subdivision of the state shall not modify the requirements of this section or chapter, nor may a political subdivision ask the applicant to voluntarily submit any information not required by this section.

(12) A person who knowingly makes a false statement regarding citizenship or identity on an application for a concealed pistol license is guilty of false swearing under RCW 9A.72.040. In addition to any other penalty provided for by law, the concealed pistol license of a person who knowingly makes a false statement shall be revoked, and the person shall be permanently ineligible for a concealed pistol license.

(13) A person may apply for a concealed pistol license:

(a) To the municipality or to the county in which the applicant resides if the applicant resides in a municipality;

(b) To the county in which the applicant resides if the applicant resides in an unincorporated area; or

(c) Anywhere in the state if the applicant is a nonresident.

(14) Any person who, as a member of the armed forces, including the national guard and armed forces reserves, is unable to renew his or her license under subsections (6) and (9) of this section because of the person's assignment, reassignment, or deployment for out-of-state military service may renew his or her license within ninety days after the person returns to this state from out-of-state military service, if the person provides the following to the issuing authority no later than ninety days after the person's date of discharge or assignment, reassignment, or deployment back to this state: (a) A copy of the person's original order designating the specific period of assignment, reassignment, or deployment for out-of-state military service, and (b) if appropriate, a copy of the person's discharge or amended or subsequent assignment, reassignment, or deployment order back to this state. A license so renewed under this subsection (14) shall take effect on the expiration date of the prior license. A licensee renewing after the expiration date of the license under this subsection (14) shall pay only the renewal fee specified in subsection (6) of this section and shall not be required to pay a late renewal penalty in addition to the renewal fee.

(C) Include convictions under RCW 46.61.5249 and 46.61.525, except that the abstract must report the convictions only as negligent driving without reference to whether they are for first or second degree negligent driving; and

((d)) (D) Exclude any deferred prosecution under RCW 10.05.060, except that if a person is removed from a deferred prosecution under RCW 10.05.090, the abstract must show the deferred prosecution as well as the removal.
(iii) Any policy of insurance may not be canceled, nonrenewed, denied, or have the rate increased on the basis of information regarding an accident included in the abstract of a driving record, unless the policyholder was determined to be at fault.

The fee for this service must be set at a level that will not result in a net revenue loss to the state. Any information provided under this subsection must be treated in the same manner and is subject to the same restrictions as driving record abstracts.

(f) Alcohol/drug assessment or treatment agencies. An abstract of the driving record maintained by the department covering the period of not more than the last five years may be furnished to an alcohol/drug assessment or treatment agency approved by the department of social and health services to which the named individual has applied or been assigned for evaluation or treatment, for purposes of assisting employees in making a determination as to what level of treatment, if any, is appropriate, except that the abstract must:

Sec. 101. RCW 28A.155.045 and 2007 c 354 s 3 are each amended to read as follows:

Beginning with the graduating class of 2008, students served under this chapter, who are not appropriately assessed by the high school Washington assessment system ((as defined in RCW 28A.655.061)) established in accordance with RCW 28A.655.070, even with accommodations, may ((earn a certificate of individual achievement. The certificate may be earned using multiple ways to)), through multiple options, demonstrate skills and abilities commensurate with their individual education programs. The determination of whether the high school assessment system is appropriate shall be made by the student's individual education program team. ((Except as provided in RCW 28A.655.0611, for these students, the certificate of individual achievement is required for graduation from a public high school, but need not be the only requirement for graduation.)) When measures other than the high school assessment system ((as defined in RCW 28A.655.061)) established in accordance with RCW 28A.655.070 are used, the measures shall be in agreement with the appropriate educational opportunity provided for the student as required by this chapter. The superintendent of public instruction shall develop the guidelines for determining which students should not be required to participate in the high school assessment system and which types of assessments are appropriate to use.

When measures other than the high school assessment system ((as defined in RCW 28A.655.0611)) established in accordance with RCW 28A.655.070 are used for high school graduation purposes, the student's high school transcript shall note whether that student ((has earned a certificate of individual achievement)) was assessed with alternative assessments.

Nothing in this section shall be construed to deny a student the right to participation in the high school assessment system ((as defined in RCW..."
28A.655.061, and, upon successfully meeting the high school standard, receipt of the certificate of academic achievement) established in accordance with RCW 28A.655.070.

Sec. 102. RCW 28A.155.170 and 2007 c 318 s 2 are each amended to read as follows:

(1) Beginning July 1, 2007, each school district that operates a high school shall establish a policy and procedures that permit any student who is receiving special education or related services under an individualized education program pursuant to state and federal law and who will continue to receive such services between the ages of eighteen and twenty-one to participate in the graduation ceremony and activities after four years of high school attendance with his or her age-appropriate peers and receive a certificate of attendance.

(2) Participation in a graduation ceremony and receipt of a certificate of attendance under this section does not preclude a student from continuing to receive special education and related services under an individualized education program beyond the graduation ceremony.

(3) A student's participation in a graduation ceremony and receipt of a certificate of attendance under this section shall not be construed as the student's receipt of (either:

(a) A high school diploma pursuant to RCW 28A.230.120((b) A certificate of individual achievement pursuant to RCW 28A.155.045)).

Sec. 103. RCW 28A.230.090 and 2016 c 162 s 2 are each amended to read as follows:

(b) (The certificate of academic achievement requirements under RCW 28A.655.061 or the certificate of individual achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation.}

(4) Any decision on whether a student has met the state board's high school graduation requirements for a high school and beyond plan shall remain at the local level. Effective with the graduating class of 2015, the state board of education may not establish a requirement for students to complete a culminating project for graduation.

The rules must include authorization for a school district to waive up to two credits for individual students based on unusual circumstances and in accordance with written policies that must be adopted by each board of directors of a school district that grants diplomas. The rules must also provide that the content of the third credit of mathematics and the content of the third credit of science may be chosen by the student based on the student's interests and high school and beyond plan with agreement of the student's parent or guardian or agreement of the school counselor or principal.

(ii) School districts may apply to the state board of education for a waiver to implement the career and college ready graduation requirement proposal beginning with the graduating class of 2020 or 2021 instead of the graduating class of 2019. In the application, a school district must describe why the waiver is being requested, the specific impediments preventing timely implementation, and efforts that will be taken to achieve implementation with the graduating class proposed under the waiver. (3) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school graduation, students who receive instruction in American sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(4) If requested by the student and his or her family, a student who has completed high school courses before attending high school shall be given high school credit which shall be applied to fulfilling high school graduation requirements if:

The superintendent shall establish clear definitions for the terms "credits" and "hours" so that school programs operating on the quarter, semester, or trimester system can be compared.

(2) The standardized high school transcript shall include a notation of whether the student has earned a certificate of individual achievement or a certificate of academic achievement.

(3) The standardized high school transcript may include a notation of whether the student has earned the Washington state seal of biliteracy established under RCW 28A.300.575.

The reading and writing assessments shall not be administered by the superintendent of public instruction or schools after the 2013-14 school year.

(ii) The high school assessments in English language arts and mathematics in (c)(i) of this subsection shall be used for ((the purposes of earning a certificate of academic achievement for high school graduation under the timeline established in RCW 28A.655.061 and for)) assessing student career and college readiness.

(((iii) During the transition period specified in RCW 28A.655.061, the superintendent of public instruction shall use test items and other resources from the consortium assessment to develop and administer a tenth grade high school English language arts assessment, an end-of-course mathematics assessment to assess the standards common to algebra I and integrated mathematics I, and an end-of-course mathematics assessment to assess the standards common to geometry and integrated mathematics II.))

(4) If the superintendent proposes any modification to the essential academic learning requirements or the statewide assessments, then the superintendent shall, upon request, provide opportunities for the education committees of the house of representatives and the senate to review the assessments and proposed modifications to the essential academic learning requirements before the modifications are adopted.

(5) The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not mastered the essential academic learning requirements at the appropriate periods in the student’s educational development.

(6) By September 2007, the results for reading and mathematics shall be reported in a format that will allow parents and teachers to determine the academic gain a student has acquired in those content areas from one school year to the next.

(7) To assist parents and teachers in their efforts to provide educational support to individual students, the superintendent of public instruction shall provide as much individual student performance information as possible within the constraints of the assessment system's item bank. (8) To the maximum extent possible, the superintendent shall integrate knowledge and skill areas in development of the assessments.

(9) Assessments for goals three and four of RCW 28A.150.210 shall be integrated in the essential academic learning requirements and assessments for goals one and two.

(10) The superintendent shall develop assessments that are directly related to the essential academic learning requirements, and are not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

(b) Ensure that test scores or annual academic progress assessments and immunization records, together with any other records that are kept relating to the instructional and educational activities provided, are forwarded to any other public or private school to which the child transfers. (c) Ensure that a standardized achievement test approved by the state board of education is administered annually to the child by a qualified individual or that an annual assessment of the student’s academic progress is written by a certificated person who is currently working in the field of education. The state board of education shall not require these children to meet the student learning goals(7) or master the essential academic learning requirements,
to take the assessments (or to obtain a

child is not making reasonable progress
consistent with his or her age or stage of
development, the parent shall make a good
faith effort to remedy any deficiency.

(2) Failure of a parent to comply with
the duties in this section shall be deemed
a failure of such parent's child to attend
school without valid justification under
RCW 28A.225.020. Parents who do comply
with the duties set forth in this section
shall be presumed to be providing home-
based instruction as set forth in RCW
28A.225.010(4).

Sec. 204. RCW 28A.305.130 and 2013 2nd
sp.s. c 22 s 7 are each amended to read as
follows:

The purpose of the state board of
education is to provide advocacy and
strategic oversight of public education;
implement a standards-based
accountability framework that creates a
unified system of increasing levels of
support for schools in order to improve
student academic achievement; provide
leadership in the creation of a system
that personalizes education for each
student and respects diverse cultures,
abilities, and learning styles; and
promote achievement of the goals of RCW
28A.150.210. In addition to any other
powers and duties as provided by law, the
state board of education shall:

(1) Hold regularly scheduled meetings
at such time and place within the state as
the board shall determine and may hold
such special meetings as may be deemed
necessary for the transaction of public
business;

(2) Form committees as necessary to
effectively and efficiently conduct the
work of the board;

(3) Seek advice from the public and
interested parties regarding the work of
the board;

(4) For purposes of statewide
accountability:

(a) Adopt and revise performance
improvement goals in reading, writing,
science, and mathematics, by subject and
grade level, once assessments in these
subjects are required statewide; academic
and technical skills, as appropriate, in
secondary career and technical education
programs; and student attendance, as the
board deems appropriate to improve student
learning. The goals shall be consistent
with student privacy protection provisions
of RCW 28A.655.090(7) and shall not
conflict with requirements contained in
Title I of the federal elementary and
secondary education act of 1965, or the
requirements of the Carl D. Perkins
vocational education act of 1998, each as
amended. The goals may be established for
all students, economically disadvantaged
students, limited English proficient
students, students with disabilities, and
students from disproportionately
academically underachieving racial and
ethnic backgrounds. The board may
establish school and school district goals
addressing high school graduation rates
and dropout reduction goals for students
in grades seven through twelve. The board
shall adopt the goals by rule. However,
before each goal is implemented, the board
shall present the goal to the education
committees of the house of representatives
and the senate for the committees' review
and comment in a time frame that will
permit the legislature to take statutory
action on the goal if such action is deemed
warranted by the legislature;

(b)(i) Identify the scores students
must achieve in order to meet the standard
on the statewide student assessment (and,
for high school students, to obtain a
certificate of academic achievement). The
board shall also determine student scores
that identify levels of student
performance below and beyond the standard.
(If the board shall consider the
incorporation of the standard error of
measurement into the decision regarding
the award of the certificate.) The board
shall also determine student scores that
identify levels of student performance below and beyond the standard. (The board shall consider the
incorporation of the standard error of
measurement into the decision regarding

levels in consultation with the
superintendent of public instruction and
after consideration of any recommendations
that may be developed by any advisory
committees that may be established for
this purpose.

(ii) (By the end of the 2014-15 school
year, establish the scores students must
achieve to meet the standard and earn a
certificate of academic achievement on the
tenth grade English language arts
assessment and the end-of-course
mathematics assessments developed in
accordance with RCW 28A.655.070 to be used
as the state transitions to high school assessments developed with a multistate consortium.

(iii) By the end of the 2014-15 school year, establish the scores students must achieve to meet the standard and earn a certificate of academic achievement on the high school English language arts assessment and the comprehensive mathematics assessment developed with a multistate consortium in accordance with RCW 28A.655.070. To determine the appropriate score, the state board shall review the transition experience of Washington students to the consortium-developed assessments, examine the student scores used in other states that are administering the consortium-developed assessments, and review the scores in other states that require passage of an eleventh grade assessment as a high school graduation requirement. The scores established by the state board of education for the purposes of earning a certificate of academic achievement and graduation from high school may be different from the scores used for the purpose of determining a student's career and college readiness.

(c) Annually review the assessment reporting system to ensure fairness, accuracy, timeliness, and equity of opportunity, especially with regard to schools with special circumstances and unique populations of students, and a recommendation to the superintendent of public instruction of any improvements needed to the system; and

(5) Accredit, subject to such accreditation standards and procedures as may be established by the state board of education, all private schools that apply for accreditation, and approve, subject to the provisions of RCW 28A.195.010, private schools carrying out a program for any or all of the grades kindergarten through twelve. However, no private school may be approved that operates a kindergarten program only and no private school shall be placed upon the list of accredited schools so long as secret societies are knowingly allowed to exist among its students by school officials;

(6) Articulate with the institutions of higher education, workforce representatives, and early learning policymakers and providers to coordinate and unify the work of the public school system;

(7) Hire an executive director and an administrative assistant to reside in the office of the superintendent of public instruction for administrative purposes. Any other personnel of the board shall be appointed as provided by RCW 28A.300.020. The board may delegate to the executive director by resolution such duties as deemed necessary to efficiently carry on the business of the board including, but not limited to, the authority to employ necessary personnel and the authority to enter into, amend, and terminate contracts on behalf of the board. The superintendent of public instruction and the office of financial management shall collaborate on required report content and format.

Sec. 302. RCW 28A.600.310 and 2015 c 202 s 4 are each amended to read as follows:

(1)(a) Eleventh and twelfth grade students or students who have not yet received the credits required for the
award of a high school diploma and are eligible to be in the eleventh or twelfth grades may apply to a participating institution of higher education to enroll in courses or programs offered by the institution of higher education.

(b) The course sections and programs offered as running start courses must also be open for registration to matriculated students at the participating institution of higher education and may not be a course consisting solely of high school students offered at a high school campus.

(c) A student receiving home-based instruction enrolling in a public high school for the sole purpose of participating in courses or programs offered by institutions of higher education shall not be counted by the school district in any required state or federal accountability reporting if the student’s parents or guardians filed a declaration of intent to provide home-based instruction and the student received home-based instruction during the school year before the school year in which the student intends to participate in courses or programs offered by the institution of higher education. Students receiving home-based instruction under chapter 28A.200 RCW and students attending private schools approved under chapter 28A.195 RCW shall not be required to meet the student learning goals (obtain a certificate of academic achievement or a certificate of individual achievement to graduate from high school) or to master the essential academic learning requirements. However, students are eligible to enroll in courses or programs in participating universities only if the board of directors of the student’s school district has decided to participate in the program. Participating institutions of higher education, in consultation with school districts, may establish admission standards for these students. If the institution of higher education accepts a secondary school pupil for enrollment under this section, the institution of higher education shall send written notice to the pupil and the pupil’s school district within ten days of acceptance. The notice shall indicate the course and hours of enrollment for that pupil.

(2)(a) In lieu of tuition and fees, as defined in RCW 28B.15.020 and 28B.15.041:

(i) Running start students shall pay to the community or technical college all other mandatory fees as established by each community or technical college and, in addition, the state board for community and technical colleges may authorize a fee of up to ten percent of tuition and fees as defined in RCW 28B.15.020 and 28B.15.041; and

(ii) All other institutions of higher education operating a running start program may charge running start students a fee of up to ten percent of tuition and fees as defined in RCW 28B.15.020 and 28B.15.041 in addition to technology fees.

(b) The fees charged under this subsection (2) shall be prorated based on credit load.

(c) Students may pay fees under this subsection with advanced college tuition payment program tuition units at a rate set by the advanced college tuition payment program governing body under chapter 28B.95 RCW.

(3)(a) The institutions of higher education must make available fee waivers for low-income running start students. Each institution must establish a written policy for the determination of low-income students before offering the fee waiver. A student shall be considered low income and eligible for a fee waiver upon proof that the student is currently qualified to receive free or reduced-price lunch. Acceptable documentation of low-income status may also include, but is not limited to, documentation that a student has been deemed eligible for free or reduced-price lunches in the last five years, or other criteria established in the institution’s policy.

(b) Institutions of higher education, in collaboration with relevant student associations, shall aim to have students who can benefit from fee waivers take advantage of these waivers. Institutions shall make every effort to communicate to students and their families the benefits of the waivers and provide assistance to students and their families on how to apply. Information about waivers shall, to the greatest extent possible, be incorporated into financial aid counseling, admission information, and individual billing statements. Institutions also shall, to the greatest extent possible, use all means of communication, including but not limited to web sites, online catalogues, admission and registration forms, mass email messaging, social media, and outside marketing to ensure that information about waivers is visible, compelling, and
reaches the maximum number of students and families that can benefit.

(4) The pupil’s school district shall transmit to the institution of higher education an amount per each full-time equivalent college student at statewide uniform rates for vocational and nonvocational students. The superintendent of public instruction shall separately calculate and allocate moneys appropriated for basic education under RCW 28A.150.260 to school districts for purposes of making such payments and for granting school districts seven percent thereof to offset program related costs. The calculations and allocations shall be based upon the estimated statewide annual average per full-time equivalent high school student allocations under RCW 28A.150.260, excluding small high school enhancements, and applicable rules adopted under chapter 34.05 RCW. The superintendent of public instruction, participating institutions of higher education, and the state board for community and technical colleges shall consult on the calculation and distribution of the funds. The funds received by the institution of higher education from the school district shall not be deemed tuition or operating fees and may be retained by the institution of higher education. A student enrolled under this subsection shall be counted for the purpose of meeting enrollment targets in accordance with terms and conditions specified in the omnibus appropriations act.

NEW SECTION. Sec. 303. A new section is added to chapter 28A.655 RCW to read as follows:

"Sec. 1. RCW 74.46.485 and 2011 1st sp.s. c 7 s 4 are each amended to read as follows:

(1) The legislature recognizes that staff and resources needed to adequately care for individuals with cognitive or behavioral impairments is not limited to support for activities of daily living. Therefore, the department shall:

(a) Employ the resource utilization group (III) IV case mix classification methodology. The department shall use the (forty-four) fifty-seven group index maximizing model for the resource utilization group (III) IV grouper version (5.10) MDS 3.05, but the department may revise or update the classification methodology to reflect advances or refinements in resident assessment or classification, subject to federal requirements. The department may adjust by no more than thirteen percent the case mix index for (any of the lowest ten) resource utilization group categories beginning with PA1 through (PE2) PB2 to any case mix index that aids in achieving the purpose and intent of RCW 74.39A.007 and cost-efficient care, excluding behaviors, and allowing for exceptions for limited placement options; and

(b) Implement minimum data set 3.0 under the authority of this section (and
The department must notify nursing home contractors twenty-eight days in advance the date of implementation of the minimum data set 3.0. In the notification, the department must identify for all semiannual rate settings following the date of minimum data set 3.0 implementation a previously established semiannual case mix adjustment established for the semiannual rate settings that will be used for semiannual case mix calculations in direct care until minimum data set 3.0 is fully implemented.

(2) The department is authorized to adjust upward the weights for resource utilization groups BA1-BB2 related to cognitive or behavioral health to ensure adequate access to appropriate levels of care.

(3) A default case mix group shall be established for cases in which the resident dies or is discharged for any purpose prior to completion of the resident's initial assessment. The default case mix group and case mix weight for these cases shall be designated by the department.

((3))) (4) A default case mix group may also be established for cases in which there is an untimely assessment for the resident. The default case mix group and case mix weight for these cases shall be designated by the department.

Sec. 2. RCW 74.46.561 and 2016 c 131 s 1 are each amended to read as follows:

(1) The legislature adopts a new system for establishing nursing home payment rates beginning July 1, 2016. Any payments to nursing homes for services provided after June 30, 2016, must be based on the new system. The new system must be designed in such a manner as to decrease administrative complexity associated with the payment methodology, reward nursing homes providing care for high acuity residents, incentivize quality care for residents of nursing homes, and establish minimum staffing standards for direct care.

(2) The new system must be based primarily on industry-wide costs, and have three main components: Direct care, indirect care, and capital.

(3) The direct care component must include the direct care and therapy care components of the previous system, along with food, laundry, and dietary services. Direct care must be paid at a fixed rate, based on one hundred percent or greater of statewide case mix neutral median costs, but shall be set so that a nursing home provider's direct care rate does not exceed one hundred eighteen percent of its base year's direct care allowable costs except if the provider is below the minimum staffing standard established in RCW 74.42.360(2). Direct care must be performance-adjusted for acuity every six months, using case mix principles. Direct care must be regionally adjusted using county wide wage index information available through the United States department of labor's bureau of labor statistics. There is no minimum occupancy for direct care. The direct care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(4) The indirect care component must include the elements of administrative expenses, maintenance costs, and housekeeping services from the previous system. A minimum occupancy assumption of ninety percent must be applied to indirect care. Indirect care must be paid at a fixed rate, based on ninety percent or greater of statewide median costs. The indirect care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(5) The capital component must use a fair market rental system to set a price per bed. The capital component must be adjusted for the age of the facility, and must use a minimum occupancy assumption of ninety percent.

(a) Beginning July 1, 2016, the fair rental rate allocation for each facility must be determined by multiplying the allowable nursing home square footage in (c) of this subsection by the RS means rental rate in (d) of this subsection and by the number of licensed beds yielding the gross unadjusted building value. An equipment allowance of ten percent must be added to the unadjusted building value. The sum of the unadjusted building value and equipment allowance must then be reduced by the average age of the facility as determined by (e) of this subsection using a depreciation rate of one and one-half percent. The depreciated building and equipment plus land valued at ten percent of the gross unadjusted building value before depreciation must then be multiplied by the rental rate at seven and one-half percent to yield an allowable
fair rental value for the land, building, and equipment.

(b) The fair rental value determined in (a) of this subsection must be divided by the greater of the actual total facility census from the prior full calendar year or imputed census based on the number of licensed beds at ninety percent occupancy.

(c) For the rate year beginning July 1, 2016, all facilities must be reimbursed using four hundred square feet. For the rate year beginning July 1, 2017, allowable nursing facility square footage must be determined using the total nursing facility square footage as reported on the medicaid cost reports submitted to the department in compliance with this chapter. The maximum allowable square feet per bed may not exceed four hundred fifty.

(d) Each facility must be paid at eighty-three percent or greater of the median nursing facility RS means construction index value per square foot for Washington state. The department may use updated RS means construction index information when more recent square footage data becomes available. The statewide value per square foot must be indexed based on facility zip code by multiplying the statewide value per square foot times the appropriate zip code based index. For the purpose of implementing this section, the value per square foot effective July 1, 2016, must be set so that the weighted average FRV [fair rental value] rate is not less than ten dollars and eighty cents ppd [per patient day]. The capital component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(e) The average age is the actual facility age reduced for significant renovations. Significant renovations are defined as those renovations that exceed two thousand dollars per bed in a calendar year as reported on the annual cost report submitted in accordance with this chapter. For the rate beginning July 1, 2016, the department shall use renovation data back to 1994 as submitted on facility cost reports. Beginning July 1, 2016, facility ages must be reduced in future years if the value of the renovation completed in any year exceeds two thousand dollars times the number of licensed beds. The cost of the renovation must be divided by the accumulated depreciation per bed in the year of the renovation to determine the equivalent number of new replacement beds. The new age for the facility is a weighted average with the replacement bed equivalents reflecting an age of zero and the existing licensed beds, minus the new bed equivalents, reflecting their age in the year of the renovation. At no time may the depreciated age be less than zero or greater than forty-four years.

(f) A nursing facility's capital component rate allocation must be rebased annually, effective July 1, 2016, in accordance with this section and this chapter.

(g) A quality incentive must be offered as a rate enhancement beginning July 1, 2016.

(a) An enhancement no larger than five percent and no less than one percent of the statewide average daily rate must be paid to facilities that meet or exceed the standard established for the quality incentive. All providers must have the opportunity to earn the full quality incentive payment.

(b) The quality incentive component must be determined by calculating an overall facility quality score composed of four to six quality measures. For fiscal year 2017 there shall be four quality measures, and for fiscal year 2018 there shall be six quality measures. Initially, the quality incentive component must be based on minimum data set quality measures for the percentage of long-stay residents who self-report moderate to severe pain, the percentage of high-risk long-stay residents with pressure ulcers, the percentage of long-stay residents experiencing one or more falls with major injury, and the percentage of long-stay residents with a urinary tract infection. Quality measures must be reviewed on an annual basis by a stakeholder work group established by the department. Upon review, quality measures may be added or changed. The department may risk adjust individual quality measures as it deems appropriate.

(c) The facility quality score must be point based, using at a minimum the facility's most recent available three-quarter average CMS [centers for medicare and medicaid services] quality data. Point thresholds for each quality measure must be established using the corresponding statistical values for the quality measure (QM) point determinants of eighty QM points, sixty QM points, forty QM points, and twenty QM points, identified in the most recent available five-star quality rating system technical user's guide.
(d) Facilities meeting or exceeding the highest performance threshold (top level) for a quality measure receive twenty-five points. Facilities meeting the second highest performance threshold receive twenty points. Facilities meeting the third level of performance threshold receive fifteen points. Facilities in the bottom performance threshold level receive no points. Points from all quality measures must then be summed into a single aggregate quality score for each facility.

(e) Facilities receiving an aggregate quality score of eighty percent of the overall available total score or higher must be placed in the highest tier (tier V), facilities receiving an aggregate score of between seventy and seventy-nine percent of the overall available total score must be placed in the second highest tier (tier IV), facilities receiving an aggregate score of between sixty and sixty-nine percent of the overall available total score must be placed in the third highest tier (tier III), facilities receiving an aggregate score of between fifty and fifty-nine percent of the overall available total score must be placed in the fourth highest tier (tier II), and facilities receiving less than fifty percent of the overall available total score must be placed in the lowest tier (tier I).

(f) The tier system must be used to determine the amount of each facility's per patient day quality incentive component. The per patient day quality incentive component for tier IV is seventy-five percent of the per patient day quality incentive component for tier V. The per patient day quality incentive component for tier III is fifty percent of the per patient day quality incentive component for tier V, and the per patient day quality incentive component for tier II is twenty-five percent of the per patient day quality incentive component for tier V. Facilities in tier I receive no quality incentive component.

(g) Tier system payments must be set in a manner that ensures that the entire biennial appropriation for the quality incentive program is allocated.

(h) Facilities with insufficient three-quarter average CMS [centers for medicare and medicaid services] quality data must be assigned to the tier corresponding to their five-star quality rating. Facilities with a five-star quality rating must be assigned to the highest tier (tier V) and facilities with a one-star quality rating must be assigned to the lowest tier (tier I). The use of a facility's five-star quality rating shall only occur in the case of insufficient CMS [centers for medicare and medicaid services] minimum data set information.

(i) The quality incentive rates must be adjusted semiannually on July 1 and January 1 of each year using, at a minimum, the most recent available three-quarter average CMS [centers for medicare and medicaid services] quality data.

(j) Beginning July 1, 2017, the percentage of short-stay residents who newly received an antipsychotic medication must be added as a quality measure. The department must determine the quality incentive thresholds for this quality measure in a manner consistent with those outlined in (b) through (h) of this subsection using the centers for medicare and medicaid services quality data.

(k) Beginning July 1, 2017, the percentage of direct care staff turnover must be added as a quality measure using the centers for medicare and medicaid services' payroll-based journal and nursing home facility payroll data. Turnover is defined as an employee departure. The department must determine the quality incentive thresholds for this quality measure using data from the centers for medicare and medicaid services' payroll-based journal, unless such data is not available, in which case the department shall use direct care staffing turnover data from the most recent medicaid cost report.

(7) Reimbursement of the safety net assessment imposed by chapter 74.48 RCW and paid in relation to medicaid residents must be continued.

(8) The direct care and indirect care components must be rebased in even-numbered years, beginning with rates paid on July 1, 2016. Rates paid on July 1, 2016, must be based on the 2014 calendar year cost report. On a percentage basis, after rebasing, the department must confirm that the statewide average daily rate has increased at least as much as the average rate of inflation, as determined by the skilled nursing facility market basket index published by the centers for medicare and medicaid services, or a comparable index. If after rebasing, the percentage increase to the statewide
average daily rate is less than the average rate of inflation for the same time period, the department is authorized to increase rates by the difference between the percentage increase after rebasing and the average rate of inflation.

(9) The direct care component provided in subsection (3) of this section is subject to the reconciliation and settlement process provided in RCW 74.46.022(6). Beginning July 1, 2016, pursuant to rules established by the department, funds that are received through the reconciliation and settlement process provided in RCW 74.46.022(6) must be used for technical assistance, specialized training, or an increase to the quality enhancement established in subsection (6) of this section. The legislature intends to review the utility of maintaining the reconciliation and settlement process under a price-based payment methodology, and may discontinue the reconciliation and settlement process after the 2017-2019 fiscal biennium.

(10) Compared to the rate in effect June 30, 2016, including all cost components and rate add-ons, no facility may receive a rate reduction of more than one percent on July 1, 2016, more than two percent on July 1, 2017, or more than five percent on July 1, 2018. To ensure that the appropriation for nursing homes remains cost neutral, the department is authorized to cap the rate increase for facilities in fiscal years 2017, 2018, and 2019.

NEW SECTION. Sec. 1. The legislature finds that a prioritized recommendation of the children's mental health work group, as reported in December 2016, is to reduce burdensome and duplicative paperwork requirements for providers of children's mental health services. This recommendation is consistent with the recommendations of the behavioral health workforce assessment of the workforce training and education coordinating board to reduce time-consuming documentation requirements and the behavioral and primary health regulatory alignment task force to streamline regulations and reduce the time spent responding to inefficient and excessive audits.

The legislature further finds that duplicative and overly prescriptive documentation and audit requirements negatively impact the adequacy of the provider network by reducing workforce morale and limiting the time available for patient care. Such requirements create costly barriers to the efficient provision of services for children and their families. The legislature also finds that current state regulations are often duplicative or conflicting with research-based models and other state-mandated treatment models intended to improve the quality of services and ensure positive outcomes. These barriers can be reduced while creating a greater emphasis on quality, outcomes, and safety.

The legislature further finds that social service specialists and other direct service staff with the children's administration who are serving children are encumbered by burdensome paperwork requirements which can interfere with the effective delivery of services.

Therefore, the legislature intends to require the department of social and health services to take steps to reduce paperwork, documentation, and audit requirements that are inefficient or
duplicative for social service specialists and other direct service staff with the children’s administration who serve children and for providers of mental health services to children and families, and to encourage the use of effective treatment models to improve the quality of services.

NEW SECTION. **Sec. 2.** A new section is added to chapter 71.24 RCW to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, the department must immediately perform a review of its rules, policies, and procedures related to the documentation requirements for behavioral health services and identify areas in which duplicative or inefficient documentation requirements can be eliminated or streamlined for providers. Rules adopted by the department relating to the provision of behavioral health services must:

(a) Limit prescriptive requirements for individual initial assessments to allow clinicians to exercise professional judgment to conduct age-appropriate, strength-based psychosocial assessments, including current needs and relevant history according to current best practices;

(b) By April 1, 2018, provide a single set of regulations for agencies to follow that provide mental health, substance use disorder, and co-occurring treatment services;

(c) Exempt providers from duplicative state documentation requirements when the provider is following documentation requirements of an evidence-based, research-based, or state-mandated program that provides adequate protection for patient safety; and

(d) Be clear and not unduly burdensome in order to maximize the time available for the provision of care.

(2) Subject to the availability of amounts appropriated for this specific purpose, audits conducted by the department relating to provision of behavioral health services must:

(a) Rely on a sampling methodology to conduct reviews of personnel files and clinical records based on written guidelines established by the department that are consistent with the standards of other licensing and accrediting bodies;

(b) Treat organizations with multiple locations as a single entity. The department must not require annual visits at all locations operated by a single entity when a sample of records may be reviewed from a centralized location;

(c) Share audit results with behavioral health organizations to assist with their review process and, when appropriate, take steps to coordinate and combine audit activities;

(d) Coordinate audit functions between the department and the department of health to combine audit activities into a single site visit and eliminate redundancies;

(e) Not require information to be provided in particular documents or locations when the same information is included or demonstrated elsewhere in the clinical file, except where required by federal law; and

(f) Ensure that audits involving manualized programs such as wraparound with intensive services or other evidence or research-based programs are conducted to the extent practicable by personnel familiar with the program model and in a manner consistent with the documentation requirements of the program.

NEW SECTION. **Sec. 3.** A new section is added to chapter 71.24 RCW to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, the health care authority must immediately perform a review of its rules, policies, and procedures related to the documentation requirements for behavioral health services. Rules adopted by the health care authority relating to the provision of behavioral health services must:

(a) Identify areas in which duplicative or inefficient documentation requirements can be eliminated or streamlined for providers;

(b) Limit prescriptive requirements for individual initial assessments to allow clinicians to exercise professional judgment to conduct age-appropriate, strength-based psychosocial assessments, including current needs and relevant history according to current best practices;

(c) By April 1, 2018, provide a single set of regulations for agencies to follow that provide mental health, substance use
disorder, and co-occurring treatment services;

(d) Exempt providers from duplicative state documentation requirements when the provider is following documentation requirements of an evidence-based, research-based, or state-mandated program that provides adequate protection for patient safety; and

(e) Be clear and not unduly burdensome in order to maximize the time available for the provision of care.

(2) Subject to the availability of amounts appropriated for this specific purpose, audits conducted by the health care authority relating to provision of behavioral health services must:

(a) Rely on a sampling methodology to conduct reviews of personnel files and clinical records based on written guidelines established by the health care authority that are consistent with the standards of other licensing and accrediting bodies;

(b) Treat organizations with multiple locations as a single entity. The health care authority must not require annual visits at all locations operated by a single entity when a sample of records may be reviewed from a centralized location;

(c) Share audit results with behavioral health organizations to assist with their review process and, when appropriate, take steps to coordinate and combine audit activities;

(d) Coordinate audit functions between the health care authority and the department of health to combine audit activities into a single site visit and eliminate redundancies;

(e) Not require information to be provided in particular documents or locations when the same information is included or demonstrated elsewhere in the clinical file, except where required by federal law; and

(f) Ensure that audits involving manualized programs such as wraparound with intensive services or other evidence or research-based programs are conducted to the extent practicable by personnel familiar with the program model and in a manner consistent with the documentation requirements of the program.

NEW SECTION. Sec. 4. (1) Subject to the availability of amounts appropriated for this specific purpose, the department of social and health services must immediately perform a review of casework documentation and paperwork requirements for social service specialists and other direct service staff with the children's administration who provide services to children. The review must identify areas in which duplicative or inefficient documentation and paperwork requirements can be eliminated or streamlined in order to allow social service specialists and other direct service staff with the children's administration to spend greater amounts of time and attention on direct services to children and their families. The department must complete the review by November 1, 2017. Upon completion of the review, the department must take immediate steps to amend department rules and procedures accordingly.

(2) This section expires December 31, 2018.

NEW SECTION. Sec. 5. Section 2 of this act takes effect only if neither Substitute House Bill No. 1388 (including any later amendments or substitutes) nor Substitute Senate Bill No. 5259 (including any later amendments or substitutes) is signed into law by the governor by the effective date of this section.

NEW SECTION. Sec. 6. Section 3 of this act takes effect only if Substitute House Bill No. 1388 (including any later amendments or substitutes) or Substitute Senate Bill No. 5259 (including any later amendments or substitutes) is signed into law by the governor by the effective date of this section."

SSB 5779
Prime Sponsor, Committee on Human Services, Mental Health & Housing: Concerning behavioral health integration in primary care. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. Health transformation in Washington state requires a multifaceted approach to implement sustainable solutions for the integration of behavioral and physical health. Effective integration requires a holistic approach and cannot be limited to one strategy or model. Bidirectional integration of primary care and behavioral health is a foundational strategy to reduce health disparities and provide better care coordination for patients regardless of where they choose to receive care.

An important component to health care integration supported both by research and experience in Washington is primary care behavioral health, a model in which behavioral health providers, sometimes called behavioral health consultants, are fully integrated in primary care. The primary care behavioral health model originated more than two decades ago, has become standard practice nationally in patient centered medical homes, and has been endorsed as a viable integration strategy by Washington’s Dr. Robert J. Bree Collaborative.

Primary care settings are a gateway for many individuals with behavioral health and primary care needs. An estimated one in four primary care patients have an identifiable behavioral health need and as many as seventy percent of primary care visits are impacted by a psychosocial component. A behavioral health consultant engages primary care patients and their caregivers on the same day as a medical visit, often in the same exam room. This warm hand-off approach fosters coordinated whole-person care, increases access to behavioral health services, and reduces stigma and cultural barriers in a cost-effective manner. Patients are provided evidence-based brief interventions and skills training, with more severe needs being effectively engaged, assessed, and referred to appropriate specialized care.

While the benefits of primary care behavioral health are not restricted to children, the primary care behavioral health model also provides a unique opportunity to engage children who have a strong relationship with primary care and identify problems early, and assure healthy development. Investment in primary care behavioral health creates opportunities for prevention and early detection that pay dividends throughout the life cycle.

The legislature also recognizes that for individuals with more complex behavioral health disorders, there are tremendous barriers to accessing primary care. Whole-person care in behavioral health is an evidence-based model for integrating primary care into behavioral health settings where these patients already receive care. Health disparities among people with behavioral health disorders have been well-documented for decades. People with serious mental illness or substance use disorders
continue to experience multiple chronic health conditions and dramatically reduced life expectancy while also constituting one of the highest-cost and highest-risk populations. Two-thirds of premature deaths are due to preventable or treatable medical conditions such as cardiovascular, pulmonary, and infectious diseases, and forty-four percent of all cigarettes consumed nationally are smoked by people with serious mental illness.

The whole-person care in behavioral health model allows behavioral health providers to take responsibility for managing the full array of physical health needs, providing routine basic health screening, and ensuring integrated primary care by actively coordinating with or providing on-site primary care services.

Providers in Washington need guidance on how to effectively implement bidirectional integration models in a manner that is also financially sustainable. Payment methodologies must be scrutinized to remove nonessential restrictions and limitations that restrict the scope of practice of behavioral health professionals, impede same-day billing for behavioral health and primary care services, abet billing errors, and stymie innovation that supports wellness and health integration.

NEW SECTION. Sec. 2. A new section is added to chapter 74.09 RCW to read as follows:

(1) By August 1, 2017, the authority must complete a review of payment codes available to health plans and providers related to primary care and behavioral health. The review must include adjustments to payment rules if needed to facilitate bidirectional integration. The review must involve stakeholders and include consideration of the following principles to the extent allowed by federal law:

(a) Payment rules must allow professionals to operate within the full scope of their practice;

(b) Payment rules should allow medically necessary behavioral health services for covered patients to be provided in any setting;

(c) Payment rules should allow medically necessary primary care services for covered patients to be provided in any setting;

(d) Payment rules and provider communications related to payment should facilitate integration of physical and behavioral health services through multifaceted models, including primary care behavioral health, whole-person care in behavioral health, collaborative care, and other models;

(e) Payment rules should be designed liberally to encourage innovation and ease future transitions to more integrated models of payment and more integrated models of care;

(f) Payment rules should allow health and behavior codes to be reimbursed for all patients in primary care settings as provided by any licensed behavioral health professional operating within their scope of practice, including but not limited to psychiatrists, psychologists, psychiatric advanced registered nurse professionals, physician assistants working with a supervising psychiatrist, psychiatric nurses, mental health counselors, social workers, chemical dependency professionals, chemical dependency professional trainees, marriage and family therapists, and mental health counselor associates under the supervision of a licensed clinician;

(g) Payment rules should allow health and behavior codes to be reimbursed for all patients in behavioral health settings as provided by any licensed health care provider within the provider's scope of practice;

(h) Payment rules which limit same-day billing for providers using the same provider number, require prior authorization for low-level or routine behavioral health care, or prohibit payment when the patient is not present should be implemented only when consistent with national coding conventions and consonant with accepted best practices in the field.

(2) Concurrent with the review described in subsection (1) of this section, the authority must create matrices listing the following codes available for provider payment through medical assistance programs: All behavioral health-related codes; and all physical health-related codes available for payment when provided in licensed behavioral health agencies. The authority must clearly explain applicable payment rules in order to increase awareness among providers, standardize billing practices, and reduce common and avoidable billing errors.
errors. The authority must disseminate this information in a manner calculated to maximally reach all relevant plans and providers. The authority must update the provider billing guide to maintain consistency of information.

(3) The authority must inform the governor and relevant committees of the legislature by letter of the steps taken pursuant to this section and results achieved once the work has been completed.

NEW SECTION. Sec. 3. A new section is added to chapter 74.09 RCW to read as follows:

(1) By August 1, 2017, the authority must complete a review of payment codes available to health plans and providers related to primary care and behavioral health. NEW SECTION. Sec. 4. A new section is added to chapter 74.09 RCW to read as follows:

(1) For children who are eligible for medical assistance and who have been identified as requiring mental health treatment, the authority must oversee the coordination of resources and services through (a) the managed health care system as defined in RCW 74.09.325 and (b) tribal organizations providing health care
services. The authority must ensure the child receives treatment and appropriate care based on their assessed needs, regardless of whether the referral occurred through primary care, school-based services, or another practitioner.

(2) The authority must require each managed health care system as defined in RCW 74.09.325 and each behavioral health organization to develop and maintain adequate capacity to facilitate child mental health treatment services in the community or transfers to a behavioral health organization, depending on the level of required care. Managed health care systems and behavioral health organizations must:

(a) Follow up with individuals to ensure an appointment has been secured;

(b) Coordinate with and report back to primary care provider offices on individual treatment plans and medication management, in accordance with patient confidentiality laws;

(c) Provide information to health plan members and primary care providers about the behavioral health resource line available twenty-four hours a day, seven days a week; and

(d) Maintain an accurate list of providers contracted to provide mental health services to children and youth. The list must contain current information regarding the providers' availability to provide services. The current list must be made available to health plan members and primary care providers.

(1) The state department of transportation and the local authorities are authorized to reserve all or any portion of any highway under their respective jurisdictions, including any designated lane or ramp, for the exclusive or preferential use of one or more of the following: (a) Public transportation vehicles; (b) motorcycles; (c) private motor vehicles carrying no fewer than a specified number of passengers; or (d) the following private transportation provider vehicles if the vehicle has the capacity to carry eight or more passengers, regardless of the number of passengers in the vehicle, and if such use does not interfere with the efficiency, reliability, and safety of public transportation operations: (i) Auto transportation company vehicles regulated under chapter 81.68 RCW; (ii) passenger charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; (iii) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and (iv) private employer transportation service vehicles, when such limitation will increase the efficient utilization of the highway or will aid in the conservation of energy resources.

(2) Any transit-only lanes that allow other vehicles to access abutting businesses that are authorized pursuant to subsection (1) of this section may not be authorized for the use of private transportation provider vehicles as described under subsection (1) of this section.

(3) The state department of transportation and the local authorities authorized to reserve all or any portion of any highway under their respective jurisdictions, for exclusive or preferential use, may prohibit the use of a high occupancy vehicle lane by the following private transportation provider vehicles: (a) Auto transportation company vehicles regulated under chapter 81.68 RCW; (b) passenger charter carrier vehicles regulated under chapter 81.70 RCW, and marked or unmarked limousines and stretch sport utility vehicles as defined under department of licensing rules; (c) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and (d) private employer transportation service vehicles, when the average transit speed in the high occupancy vehicle lane falls to meet department of transportation standards and falls below forty-five miles per hour at least ninety percent of the time during the peak hours, as determined by the department of transportation or the local authority, whichever operates the facility.

(4) Regulations authorizing such exclusive or preferential use of a highway facility may be declared to be effective
at all times or at specified times of day or on specified days. Violation of a restriction of highway usage prescribed by the appropriate authority under this section is a traffic infraction.

(5) Local authorities are encouraged to establish a process for private transportation providers, as described under subsections (1) and (3) of this section, to apply for the use of public transportation facilities reserved for the exclusive or preferential use of public transportation vehicles. The application and review processes should be uniform and should provide for an expeditious response by the local authority. Whenever practicable, local authorities should enter into agreements with such private transportation providers to allow for the reasonable use of these facilities.

(6) When the department of transportation reserves a portion of a highway based on the number of passengers in a vehicle, private, for hire vehicles regulated under chapter 81.72 RCW that have been specially manufactured, designed, or modified for the transportation of a person who has a mobility disability and uses a wheelchair or other assistive device, must be authorized to use the reserved portion of the highway regardless of the number of passengers in the vehicle or the passenger-carrying capacity of the vehicle.

(7) For the purposes of this section, “private employer transportation service” means regularly scheduled, fixed-route transportation service that is similarly marked or identified to display the business name or logo on the driver and passenger sides of the vehicle, meets the annual certification requirements of the department of transportation, and is offered by an employer for the benefit of its employees.

Sec. 3. RCW 47.52.025 and 2013 c 26 s 3 are each amended to read as follows:

(1) Highway authorities of the state, counties, and incorporated cities and towns, in addition to the specific powers granted in this chapter, shall also have, and may exercise, relative to limited access facilities, any and all additional authority, now or hereafter vested in them relative to highways or streets within their respective jurisdictions, and may regulate, restrict, or prohibit the use of such limited access facilities by various classes of vehicles or traffic. Such highway authorities may reserve any limited access facility or portions thereof, including designated lanes or ramps for the exclusive or preferential use of (a) public transportation vehicles, (b) privately owned buses, (c) motorcycles, (d) private motor vehicles carrying not less than a specified number of passengers, or (e) the following private transportation provider vehicles if the vehicle has the capacity to carry eight or more passengers, regardless of the number of passengers in the vehicle, and if such use does not interfere with the efficiency, reliability, and safety of public transportation operations: (i) Auto transportation company vehicles regulated under chapter 81.68 RCW; (ii) passenger charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; (iii) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and (iv) private employer transportation service vehicles, when such limitation will increase the efficient utilization of the highway facility or will aid in the conservation of energy resources. Regulations authorizing such exclusive or preferential use of a highway facility may be declared to be effective at all time or at specified times of day or on specified days.

least ninety percent of the time during the peak hours for two consecutive months.

(4) (a) Local authorities are encouraged to establish a process for private transportation providers, described under subsections (1) and (3) of this section, to apply for the use of limited access facilities that are reserved for the exclusive or preferential use of public transportation vehicles.

(b) The process must provide a list of facilities that the local authority determines to be unavailable for use by the private transportation provider and must provide the criteria used to reach that determination.

(c) The application and review processes must be uniform and should provide for an expeditious response by the authority.

(5) When the department reserves a portion of a limited access facility based on the number of passengers in a vehicle, private, for hire vehicles regulated under chapter 81.72 RCW that have been specially manufactured, designed, or modified for the transportation of a person who has a mobility disability and uses a wheelchair or other assistive device must be authorized to use the reserved portion of the limited access facility regardless of the number of passengers in the vehicle or the passenger-carrying capacity of the vehicle.

The voter must be provided information on how to ascertain whether the provisional ballot was counted and, if applicable, the reason why the vote was not counted.

(9) Any voter may take printed or written material into the voting device to assist in casting his or her vote. The voter shall not use this material to electioneer and shall remove it when he or she leaves the voting center."
(10) If any voter states that he or she is unable to cast his or her votes due to a disability, the voter may designate a person of his or her choice, or two election officers, to enter the voting booth and record the votes as he or she directs.

(11) No voter is entitled to vote more than once at a primary, special election, or general election. If a voter incorrectly marks a ballot, he or she may be issued a replacement ballot.

(12) A voter who has already returned a ballot but requests to vote at a voting center shall be issued a provisional ballot. The canvassing board shall not count the provisional ballot if it finds that the voter has also voted a regular ballot in that primary, special election, or general election.

(13) The county auditor must prevent overflow of each ballot drop box to allow a voter to deposit his or her ballot securely. Ballots must be removed from a ballot drop box by at least two people, with a record kept of the date and time ballots were removed, and the names of people removing them. Ballots from drop boxes must be returned to the counting center in secured transport containers. A copy of the record must be placed in the container, and one copy must be transported with the ballots to the counting center, where the seal number must be verified by the county auditor or a designated representative. All ballot drop boxes must be secured at 8:00 p.m. on the day of the primary, special election, or general election.

(15) For each primary, special election, and general election, the county auditor may provide election services at locations in addition to the voting center. The county auditor has discretion to establish which services will be provided at the additional locations, and which days and hours the locations will be open. The county auditor must establish a minimum of one ballot drop box per fifteen thousand registered voters in the county with preference given to establishing a minimum of one ballot drop box in each city, town, and census-designated place with a post office in the county. The county auditor is authorized to place a ballot drop box at any public school, public library, or fire station.

NEW SECTION. Sec. 2. A new section is added to chapter 29A.40 RCW to read as follows:

(1) The state is responsible for the cost of obtaining, siting, maintaining, and operating ballot drop boxes for all elections. The county auditor must certify the cost and file expense claims to the office of the secretary of state.

(2) Each county auditor must submit a request with the office of the secretary of state by December 1st for any new ballot drop boxes the county is requesting for the following year. The secretary of state may agree to reimburse the county for the costs of providing any new ballot drop boxes or contract with a third party to fulfill all or some of the counties' requests.

(3) The secretary of state must include in his or her budget requests sufficient funds to carry out this section. Payments for ballot drop box costs must be from appropriations specifically provided by law for that purpose.

Representative Cody moved the adoption of the striking amendment (444):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the process for approval of investigational drugs, biological products, and devices in the United States protects future patients from premature, ineffective, and unsafe medications and treatments over time, but the process often takes many years. Patients who have a terminal illness do not have the luxury of waiting until an investigational drug, biological product, or device receives final approval from the United States food and drug administration. The legislature further finds that patients who have a terminal illness should be permitted to pursue the preservation of their own lives by accessing available investigational drugs, biological products, and devices. The use of available investigational drugs, biological products, and devices is a decision that should be made by the patient with a terminal illness in consultation with the patient's health care provider so that the decision to use an investigational drug, biological product, or device is made with full awareness of the potential risks, benefits, and consequences to the patient and the patient's family.

The legislature, therefore, intends to allow terminally ill patients to use potentially lifesaving investigational drugs, biological products, and devices.

NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

1. "Eligible patient" means an individual who meets the requirements of section 4 of this act.

2. "Health care facility" means a clinic, nursing home, laboratory, office, or similar place where a health care provider provides health care to patients.

3. "Hospital" means a health care institution licensed under chapter 70.41, 71.12, or 72.23 RCW.

On page 8, line 12 of the striking amendment, after "relic" insert "j or"

(j) The sale or transfer of a firearm where the seller or transferor and the purchaser or transferee both possess a valid concealed pistol license"

POINT OF ORDER

Representative Tarleton requested a scope and object ruling on amendment (439) to the committee striking amendment to ESSB 5552.

SPEAKER’S RULING

Mr. Speaker (Representative Lovick presiding): ESSB 5552 has a specific and narrow title:

"An act relating to background checks for firearms sales or transfers, but only with respect to clarifying that the term firearm does not include flare guns and construction tools, clarifying that the term transfer does not include transfers between an entity and its employee or agents for lawful purposes in the ordinary course of business, defining licensed collector and curio or relic, expanding the family member exemption to include loans and parents-in-law and siblings-in-law, providing an exemption for temporary transfers for the purpose of preventing suicide or self-inflicted great bodily harm, providing an exemption for licensed collectors when the firearm is a curio or relic, and providing an exemption for temporary transfers where the transferee and the firearm are in the presence of the transferor."

Amendment 439 exempts from background check requirements the sale or transfer of a firearm where both the seller or transferor and the purchaser or transferee possess a valid concealed pistol license.

The Speaker finds and rules that the amendment is outside the scope of the bill as defined by its title. The point of order is well taken.

Amendment (439) was not adopted.

The committee striking amendment was not adopted.

Amendment (438) was ruled out of order.

POINT OF PARLIAMENTARY INQUIRY

"Sec. 1. RCW 43.155.010 and 1996 c 168 s 1 are each amended to read as follows:

The legislature finds that there exists in the state of Washington over four billion dollars worth of critical projects for the planning, acquisition, construction, repair, replacement, rehabilitation, or improvement of streets and roads, bridges, water systems, and storm and sanitary sewage systems. The December, 1983 Washington state public works report prepared by the planning and community affairs agency documented that local governments expect to be capable of financing over two billion dollars worth of the costs of those critical projects but will not be able to fund nearly half of the documented needs.

The legislature further finds that Washington's local governments have unmet financial needs for solid waste disposal, including recycling, and encourages the board to make an equitable geographic distribution of the funds.

It is the policy of the state of Washington to encourage self-reliance by local governments in meeting their public works needs and to assist in the financing of critical public works projects by making loans, grants, financing guarantees, and technical assistance available to local governments for these projects.
Sec. 2. RCW 43.155.020 and 2009 c 565 s 33 are each amended to read as follows:

(5) Adopt rules under chapter 34.05 RCW as necessary to carry out the purposes of this chapter;

(6) Do all acts and things necessary or convenient to carry out the powers expressly granted or implied under this chapter.

Sec. 5. RCW 43.155.050 and 2015 3rd sp.s. c 4 s 959 and 2015 3rd sp.s. c 3 s 7032 are each reenacted and amended to read as follows:

The public works assistance account is hereby established in the state treasury. Money may be placed in the public works assistance account from the proceeds of bonds when authorized by the legislature or from any other lawful source. Money in the public works assistance account shall be used to make loans and grants and to give financial guarantees to local governments for public works projects. Money in the account may also be appropriated to provide for state match requirements under federal law for projects and activities conducted and financed by the board under the drinking water assistance account. Not more than twenty percent of the biennial capital budget appropriation to the public works board from this account may be expended or obligated for preconstruction loans and grants, emergency loans and grants, or loans and grants for capital facility planning under this chapter. Not more than ten percent of the biennial capital budget appropriation may be expended for emergency loans and not more than one percent of the biennial capital budget appropriation may be expended for capital facility planning loans.)
more than ten percent of the biennial capital budget appropriation to the public works board from this account may be expended or obligated as grants for preconstruction, emergency, capital facility planning, and construction projects. During the 2015-2017 fiscal biennium, the legislature may transfer from the public works assistance account to the general fund, the water pollution control revolving account, and the drinking water assistance account such amounts as reflect the excess fund balance of the account. ((During the 2013-2015 fiscal biennium, the legislature may transfer from the public works assistance account to the education legacy trust account such amounts as specified by the legislature.)) During the 2015-2017 fiscal biennium, the legislature may appropriate moneys from the account for activities related to the growth management act and the voluntary stewardship program. During the 2015-2017 fiscal biennium, the legislature may transfer from the public works assistance account to the state general fund such amounts as specified by the legislature. ((In the 2017-2019 fiscal biennium the legislature intends to allocate seventy-three million dollars of future loan repayments paid into the public works assistance account to support basic education.))

Sec. 6. RCW 43.155.060 and 1988 c 93 s 2 are each amended to read as follows:

((1) In order to aid the financing of public works projects, the board may:))) (a) Make (low-interest or interest-free) loans or grants to local governments from the public works assistance account or other funds and accounts for the purpose of assisting local governments in financing public works projects. (The board may require such terms and conditions and may charge such rates of interest on its loans as it deems necessary or convenient to carry out the purposes of this chapter.) Money received from local governments in repayment of loans made under this section shall be paid into the public works assistance account for uses consistent with this chapter. ((b) Pledge money in the public works assistance account, or money to be received by the public works assistance account, to the repayment of all or a portion of the principal of or interest on obligations issued by local governments to finance public works projects. The board shall not pledge any amount greater than the sum of money in the public works assistance account plus money to be received from the payment of the debt service on loans made from that account, nor shall the board pledge the faith and credit or the taxing power of the state or any agency or subdivision thereof to the repayment of obligations issued by any local government.)))

((2)) (c) Create such subaccounts in the public works assistance account as the board deems necessary to carry out the purposes of this chapter.

((2))) (d) Provide a method for the allocation of loans, grants, and financing guarantees and the provision of technical assistance under this chapter.

2(a) When establishing interest rates for loan programs authorized in this chapter for projects which are supported by a rate base of at least fifty thousand equivalent residential units, the board must base interest rates on the average daily market interest rate for tax-exempt municipal bonds as published in the bond buyer's index for the period from sixty to thirty days before the start of the application cycle.

(b) For projects with a repayment period between five and twenty years, the rate must be fifty percent of the market rate.

(c) For projects with a repayment period under five years, the rate must be twenty-five percent of the market rate.

(d) For any year in which the average daily market interest rate for tax-exempt municipal bonds for the period from sixty to thirty days before the start of an application cycle is nine percent or greater, the board may cap interest rates at four percent for projects with a repayment period between five and twenty years and at two percent for projects with a repayment period under five years.

(e) The board may also provide reduced interest rates, extended repayment periods, or grants for projects that meet financial hardship criteria as measured by the affordability index or similar standard measure of financial hardship. The board may provide reduced interest rates, extended repayment periods, or grants for projects that are supported by a rate base of less than fifty thousand equivalent residential units.
(3) All local public works projects aided in whole or in part under the provisions of this chapter shall be put out for competitive bids, except for emergency public works under RCW 43.155.065 for which the recipient jurisdiction shall comply with this requirement to the extent feasible and practicable. The competitive bids called for shall be administered in the same manner as all other public works projects put out for competitive bidding by the local governmental entity aided under this chapter.

Sec. 7. RCW 43.155.065 and 2001 c 131 s 3 are each amended to read as follows:

The board may make low-interest or interest-free loans or grants to local governments for emergency public works projects. Emergency public works projects shall include the construction, repair, reconstruction, replacement, rehabilitation, or improvement of a public water system that is in violation of health and safety standards and is being operated by a local government on a temporary basis. The loans or grants may be used to help fund all or part of an emergency public works project less any reimbursement from any of the following sources: (1) Federal disaster or emergency funds, including funds from the federal emergency management agency; (2) state disaster or emergency funds; (3) insurance settlements; or (4) litigation.

Sec. 8. RCW 43.155.068 and 2001 c 131 s 4 are each amended to read as follows:

(1) The board may make (low-interest or interest-free) loans or grants to local governments for preconstruction activities on public works projects before the legislature approves the construction phase of the project. Preconstruction activities include design, engineering, bid-document preparation, environmental studies, right-of-way acquisition, value planning, and other preliminary phases of public works projects as determined by the board. The purpose of the loans and grants authorized in this section is to accelerate the completion of public works projects by allowing preconstruction activities to be performed before the approval of the construction phase of the project by the legislature.

(2) Projects receiving loans or grants for preconstruction activities under this section must be evaluated using the priority process and factors in RCW 43.155.070(((4)))). The receipt of a loan or grant for preconstruction activities does not ensure the receipt of a construction loan or grant for the project under this chapter. Construction loans or grants for projects receiving a loan or grant for preconstruction activities under this section are subject to legislative approval under RCW 43.155.070 (((4) and (5))) (7). The board shall adopt a single application process for local governments seeking both a loan or grant for preconstruction activities under this section and a construction loan for the project.

Sec. 9. RCW 43.155.070 and 2015 3rd sp.s. c 3 s 7033 are each amended to read as follows:

(1) To qualify for financial assistance under this chapter the board must determine that a local government meets all of the following conditions:

(a) The city or county must be imposing a tax under chapter 82.46 RCW at a rate of at least one-quarter of one percent;

(b) The local government must have developed a capital facility plan; and

(c) The local government must be using all local revenue sources which are reasonably available for funding public works, taking into consideration local employment and economic factors.

(2) Except where necessary to address a public health need or substantial environmental degradation, a county, city, or town planning under RCW 36.70A.040 may not receive financial assistance under this chapter unless it has adopted a comprehensive plan, including a capital facilities plan element, and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 to adopt a comprehensive plan or development regulations before requesting or receiving financial assistance under this chapter if such request is made before the expiration of the time periods specified in RCW 36.70A.040. A county, city, or town planning under RCW 36.70A.040 that has not adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.040 may apply for and receive financial assistance under this chapter if the comprehensive plan and development regulations are adopted as required by
RCW 36.70A.040 before executing a contractual agreement for financial assistance with the board.

(3) In considering awarding financial assistance for public facilities to special districts requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, the board must consider whether the county, city, or town planning under RCW 36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a comprehensive plan and development regulations as required by RCW 36.70A.040.

(4) (The board must develop a priority process for public works projects as provided in this section. The intent of the priority process is to maximize the value of public works projects accomplished with assistance under this chapter. The board must attempt to assure a geographical balance in assigning priorities to projects. The board must consider at least the following factors in assigning a priority to a project:

(a) Whether the local government receiving assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;

(b) Except as otherwise conditioned by RCW 43.155.110, whether the entity receiving assistance is a Puget Sound partner, as defined in RCW 90.71.010;

(c) Whether the project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310;

(d) Whether the project is critical in nature and would affect the health and safety of a great number of citizens;

(e) Whether the applicant's permitting process has been certified as streamlined by the office of regulatory assistance;

(f) Whether the applicant has developed and adhered to guidelines regarding its permitting process for those applying for development permits consistent with section 1(27), chapter 231, Laws of 2007;

(g) The cost of the project compared to the size of the local government and amount of loan money available;

(h) The number of communities served by or funding the project;

(i) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(j) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards, including the cost of extending existing service to such a system;

(k) Except as otherwise conditioned by RCW 43.155.120, and effective one calendar year following the development of model evergreen community management plans and ordinances under RCW 35.105.050, whether the entity receiving assistance has been recognized, and what grade of recognition was received, in the evergreen community recognition program created in RCW 35.105.030;

(l) The relative benefit of the project to the community, considering the present level of economic activity in the community and the existing local capacity to increase local economic activity in communities that have low economic growth; and

(m) Other criteria that the board considers advisable.

(5) For the 2015-2017 fiscal biennium, in place of the criteria, ranking, and submission processes for construction loan lists provided in subsections (4) and (7) of this section:

(a) The board must develop a process ((for numerically ranking)) to prioritize applications ((for construction)) and funding of loans and grants for public works projects submitted by local governments. The board must consider, at a minimum and in any order, the following factors in prioritizing projects:

(i) Whether the project is critical in nature and would affect the health and safety of many people;

(ii) The extent to which the project leverages ((nonstate)) other funds;

(iii) The extent to which the project is ready to proceed to construction;

(iv) Whether the project is located in an area of high unemployment, compared to the average state unemployment;
(v) Whether the project promotes the sustainable use of resources and environmental quality, as applicable;
(vi) Whether the project consolidates or regionalizes systems;
(vii) Whether the project encourages economic development through mixed-use and mixed income development consistent with chapter 36.70A RCW;
(viii) Whether the system is being well-managed in the present and for long-term sustainability;
(ix) Achieving equitable distribution of funds by geography and population;
(x) The extent to which the project meets the following state policy objectives:
(A) Efficient use of state resources;
(B) Preservation and enhancement of health and safety;
(C) Abatement of pollution and protection of the environment;
(D) Creation of new, family-wage jobs, and avoidance of shifting existing jobs from one Washington state community to another;
(E) Fostering economic development consistent with chapter 36.70A RCW;
(F) Efficiency in delivery of goods and services (public transit) and transportation; and
(G) Avoidance of additional costs to state and local governments that adversely impact local residents and small businesses; and
(H) Reduction of the overall cost of public infrastructure;
(xi) Whether the applicant sought or is seeking funding for the project from other sources; and
(xii) Other criteria that the board considers necessary to achieve the purposes of this chapter.

(b) Before (November) September 1, (2016) 2018, and each year thereafter, the board must develop and submit a report regarding the construction loans and grants to the office of financial management and appropriate fiscal committees of the senate and house of representatives (a ranked list of qualified public works projects which have been evaluated by the board and are recommended for funding by the legislature). The report must include:
(i) The total number of applications and amount of funding requested for public works projects;
(ii) A list and description of projects approved in the preceding fiscal year with project scores against the board’s prioritization criteria;
(iii) The total amount of loan and grants disbursements made from the public works assistance account in the preceding fiscal year;
(iv) The total amount of loan repayments in the preceding fiscal year for outstanding loans from the public works assistance account;
(v) The total amount of loan repayments due for outstanding loans for each fiscal year over the following ten-year period; and
(vi) The total amount of funds obligated and timing of when the funds were obligated in the preceding fiscal year.

(c) The maximum amount of funding that the board may (recommend) provide for any jurisdiction is ten million dollars per biennium. (For each project on the ranked list, as well as for eligible projects not recommended for funding, the board must document the numerical ranking that was assigned.

((7))) (5) Existing debt or financial obligations of local governments may not be refinanced under this chapter. Each local government applicant must provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(((7))) (6) Before (November) September 1st of each (even-numbered) year, the board must develop and submit to the appropriate fiscal committees of the senate and house of representatives a description of the loans and grants made under RCW 43.155.065((1))) and 43.155.068((,)), and subsection (10) of this section during the preceding fiscal year and a prioritized list of projects which are recommended for funding by the legislature, including one copy to the staff of each of the committees. The list must include, but not be limited to, a description of each project and recommended financing, the terms and

(7)
conditions of the loan or financial guarantee, the local government jurisdiction and unemployment rate, demonstration of the jurisdiction's critical need for the project, and documentation of local funds being used to finance the public works project. The list must also include measures of fiscal capacity for each jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes, real estate excise taxes, property taxes, and charges for or taxes on sewerage, water, garbage, and other utilities).

((8))) (7) The board may not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds to the board for ((a specific list of)) the purpose of funding public works projects under this chapter. ((The legislature may remove projects from the list recommended by the board. The legislature may not change the order of the priorities recommended for funding by the board.))

(9) Subsection (8) of this section does not apply to loans made under RCW 43.155.065, 43.155.068, and subsection (10) of this section.

(10) Loans made for the purpose of capital facilities plans are exempted from subsection (8) of this section.

((11))) (8) To qualify for loans, grants, or pledges for solid waste or recycling facilities under this chapter, a city or county must demonstrate that the solid waste or recycling facility is consistent with and necessary to implement the comprehensive solid waste management plan adopted by the city or county under chapter 70.95 RCW.

((12))) (9) After January 1, 2010, any project designed to address the effects of storm water or wastewater on Puget Sound may be funded under this section only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

((13)) During the 2015-2017 fiscal biennium,)) (10) For projects involving repair, replacement, or improvement of a wastewater treatment plant or other public works facility for which an investment grade efficiency audit is reasonably obtainable, the public works board must require as a contract condition that the project sponsor undertake an investment grade efficiency audit. The project sponsor may finance the costs of the audit as part of its public works assistance account program loan or grant.

((14))) (a) For public works assistance account application rounds conducted during the 2015-2017 fiscal biennium,)) (11) The board must implement policies and procedures designed to maximize local government ((consideration of)) other funds to finance local infrastructure ((including, but not limited to, drinking water and clean water state revolving funds operated by the state departments of health and ecology. Projects that are eligible for the drinking water and clean water state revolving funds may receive public works board preconstruction loans. Projects that are eligible for the drinking water and clean water state revolving funds are not eligible for public works board construction loans. For purposes of this subsection "eligible for drinking water and clean water state revolving funds" means:

(i) Projects that have applied to the state revolving funds and are awaiting a funding decision;

(ii) Projects that have been rejected for funding solely due to not meeting readiness requirements; and

(iii) Projects that have not applied but would likely be eligible if the project applied and met the project readiness requirements.

(b) For all construction loan projects proposed to the legislature for funding during the 2015-2017 fiscal biennium, the board must base interest rates on the average daily market interest rate for tax-exempt municipal bonds as published in the bond buyer's index for the period from sixty to thirty days before the start of the application cycle. For projects with a repayment period between five and twenty years, the rate must be sixty percent of the market rate. For projects with a repayment period under five years, the rate must be thirty percent of the market rate. The board must also provide reduced interest rates, extended repayment periods, or forgivable principal loans for projects that meet financial hardship criteria as measured by the affordability index or similar standard measure of financial hardship).
Sec. 10.  RCW 43.155.075 and 2001 c 227 s 10 are each amended to read as follows:

In providing loans and grants for public works projects, the board shall require recipients to incorporate the environmental benefits of the project into their applications, and the board shall utilize the statement of environmental benefits in its prioritization and selection process, when applicable. For projects funded under this chapter, the board may require a local government to have sustainable asset management best practices in place; provide a long-term financial plan for loan repayments in place; and undergo value planning at the predesign project stage, where the greatest productivity gains and cost savings can be found. The board shall also develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the loan and grant program. To the extent possible, the department should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270. The board shall consult with affected interest groups in implementing this section.

NEW SECTION.  Sec. 11.  (1) An interagency, multijurisdictional system improvement team must identify, implement, and report on system improvements that achieve the designated outcomes, including:

(a) Projects that maximize value, minimize overall costs and disturbance to the community, and ensure long-term durability and resilience;

(b) Projects that are designed to meet the unique needs of each community, rather than the needs of particular funding programs;

(c) Project designs that maximize long-term value by fully considering and responding to anticipated long-term environmental, technological, economic and population changes;

(d) The flexibility to innovate, including utilizing natural systems, addressing multiple regulatory drivers, and forming regional partnerships;

(e) The ability to plan and collaborate across programs and jurisdictions so that different investments are packaged to be complementary, timely, and responsive to economic and community opportunities;

(f) The needed capacity for communities, appropriate to their unique financial, planning, and management capacities, so they can design, finance, and build projects that best meet their long-term needs and minimize costs;

(g) Optimal use and leveraging of federal and private infrastructure dollars; and

(h) Mechanisms to ensure periodic, system-wide review and ongoing achievement of the designated outcomes.

(2) The system improvement team must consist of representatives of state infrastructure programs that provide funding for drinking water, wastewater, and storm water programs, including but not limited to representatives from the department of ecology, department of health, and the department of commerce. The system improvement team may invite representatives of other infrastructure programs, such as transportation and energy, as needed in order to achieve efficiency, minimize costs, and maximize value across infrastructure programs. The system improvement team shall also consist of representatives of users of those programs, representatives of infrastructure project builders, and other parties the system improvement team determines would contribute to achieving the desired outcomes, including but not limited to representatives from a state association of cities, a state association of counties, a state association of public utility districts, a state association of water and sewer districts, a state association of general contractors, and a state organization representing building trades. A representative from the department of ecology, department of health, and department of commerce shall facilitate the work of the system improvement team.

(3) The system improvement team must focus on achieving the designated outcomes within existing program structures and authorities. The system improvement team shall use lean practices to achieve the designated outcomes.

(4) The system improvement team shall provide briefings as requested to the public works board on the current state of infrastructure programs to build an understanding of the infrastructure
investment program landscape and the interplay of its component parts.

(5) If the system improvement team encounters statutory or regulatory barriers to system improvements, the system improvement team must inform the public works board and consult on possible solutions. When achieving the designated outcomes would be best served through changes in program structures or authorities, the system improvement team must report those findings to the public works board.

(6) This section expires June 30, 2021.

NEW SECTION. Sec. 12. The public works board, in consultation with stakeholders, including the system improvement team and financing experts, must evaluate and report on other financing approaches that could be established to provide access to financing for local governments who have trouble accessing the existing private credit market at reasonable rates for infrastructure. The public works board must submit the report to the appropriate fiscal committees of the senate and house of representatives and the office of financial management by December 1, 2018."

SENATE BILL NO. 5581, by Senators Angel and Mullet

Authorizing public hospital districts to participate in self-insurance risk pools with nonprofit hospitals.

The bill was read the second time.

Representative Santos moved the adoption of amendment (502):

"NEW SECTION. Sec. 1. This chapter is intended to provide authority for two or more public benefit hospital entities to participate in a joint self-insurance program covering property or liability risks. This chapter provides public benefit hospital entities with the exclusive source of authority to jointly self-insure property and liability risks,"
jointly purchase insurance or reinsurance, and to contract for risk management, claims, and administrative services with other public benefit hospital entities, except as otherwise provided in this chapter. This chapter must be liberally construed to grant public benefit hospital entities maximum flexibility in jointly self-insuring to the extent the self-insurance programs are operated in a safe and sound manner. This chapter is intended to require prior approval for the establishment of every joint self-insurance program. In addition, this chapter is intended to require every joint self-insurance program for public benefit hospital entities established under this chapter to notify the state of the existence of the program and to comply with the regulatory and statutory standards governing the management and operation of the programs as provided in this chapter. This chapter is not intended to authorize or regulate self-insurance of unemployment compensation under chapter 50.44 RCW or industrial insurance under chapter 51.14 RCW.

NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Hospital services" means clinically related (i.e., preventive, diagnostic, curative, rehabilitative, or palliative) services provided in a hospital setting.

(2) "Property and liability risks" include the risk of property damage or loss sustained by a public benefit hospital entity and the risk of claims arising from the tortious or negligent conduct or any error or omission of the entity, its officers, employees, agents, or volunteers as a result of which a claim may be made against the entity.

(3) "Public benefit hospital entity" means any of the following:

(a) A public hospital district organized under the laws of this state or another state and any agency or instrumentality of a public hospital district including, but not limited to, a legal entity created to conduct a joint self-insurance program for public hospital districts that is operating in accordance with chapter 48.62 RCW; or

(b) A nonprofit corporation, whether organized under the laws of this state or another state, that meets the following requirements:

(i) The nonprofit corporation operates one or more hospitals each of which is licensed for three hundred sixty or fewer beds by the department of health pursuant to chapter 70.41 RCW; and

(ii) The nonprofit corporation is engaged in providing hospital services.

(4) "Self-insurance" means a formal program of advance funding and management of entity financial exposure to a risk of loss that is not transferred through the purchase of an insurance policy or contract.

(5) "State risk manager" means the risk manager of the office of risk management within the department of enterprise services.

NEW SECTION. Sec. 3. (1) The governing body of a public benefit hospital entity may join or form a self-insurance program together with one or more other public benefit hospital entities, and may jointly purchase insurance or reinsurance with one or more other public benefit hospital entities for property and liability risks only as permitted under this chapter. Public benefit hospital entities may contract for or hire personnel to provide risk management, claims, and administrative services in accordance with this chapter.

(2) The agreement to form a joint self-insurance program may include the organization of a separate legal or administrative entity with powers delegated to the entity.

(3) If provided for in the organizational documents, a joint self-insurance program may, in conformance with this chapter:

(a) Contract or otherwise provide for risk management and loss control services;

(b) Contract or otherwise provide legal counsel for the defense of claims and other legal services;

(c) Consult with the state insurance commissioner and the state risk manager;

(d) Jointly purchase insurance and reinsurance coverage in a form and amount as provided for in the organizational documents;

(e) Obligate the program's participants to pledge revenues or contribute money to secure the obligations or pay the expenses of the program, including the establishment of a reserve or fund for coverage; and
(f) Possess any other powers and perform all other functions reasonably necessary to carry out the purposes of this chapter.

(4) Every joint self-insurance program governed by this chapter must appoint the state risk manager as its attorney to receive service of, and upon whom must be served, all legal process issued against the program in this state upon causes of action arising in this state.

(a) Service upon the state risk manager as attorney constitutes service upon the program. Service upon joint self-insurance programs subject to this chapter may only occur by service upon the state risk manager. At the time of service, the plaintiff shall pay to the state risk manager a fee to be set by the state risk manager, taxable as costs in the action.

(b) With the initial filing for approval with the state risk manager, each joint self-insurance program must designate by name and address the person to whom the state risk manager must forward legal process that is served upon him or her. The joint self-insurance program may change this person by filing a new designation.

(c) The appointment of the state risk manager as attorney is irrevocable, binds any successor in interest or to the assets or liabilities of the joint self-insurance program, and remains in effect as long as there is in force in this state any contract made by the joint self-insurance program or liabilities or duties arising from the contract.

(d) The state risk manager shall keep a record of the day and hour of service upon him or her of all legal process. A copy of the process, by registered mail with return receipt requested, must be sent by the state risk manager to the person designated to receive legal process by the joint self-insurance program in its most recent designation filed with the state risk manager. Proceedings must not commence against the joint self-insurance program, and the program must not be required to appear, plead, or answer, until the expiration of forty days after the date of service upon the state risk manager.

NEW SECTION. Sec. 4. This chapter does not apply to a public benefit hospital entity that:

(1) Individually self-insures for property and liability risks; or

(2) Participates in a risk pooling arrangement, including a risk retention group or a risk purchasing group, regulated under chapter 48.92 RCW, is a captive insurer authorized in its state of domicile, or participates in a local government risk pool formed under chapter 48.62 RCW.

NEW SECTION. Sec. 5. The state risk manager shall adopt rules governing the management and operation of joint self-insurance programs for public benefit hospital entities that cover property or liability risks. All rules must be appropriate for the type of program and class of risk covered. The state risk manager's rules must include:

(1) Standards for the management, operation, and solvency of joint self-insurance programs, including the necessity and frequency of actuarial analyses and claims audits;

(2) Standards for claims management procedures;

(3) Standards for contracts between joint self-insurance programs and private businesses, including standards for contracts between third-party administrators and programs; and

(4) Standards that preclude public hospital districts or other public entities participating in the joint self-insurance program from subsidizing, regardless of the form of subsidy, public benefit hospital entities that are not public hospital districts or public entities. These standards do not apply to the consideration attributable to the ownership interest of a public hospital district or other public entity in a separate legal or administrative entity organized with respect to the program.

NEW SECTION. Sec. 6. Before the establishment of a joint self-insurance program covering property or liability risks by public benefit hospital entities, the entities must obtain the approval of the state risk manager. The entities proposing the creation of a joint self-insurance program requiring prior approval shall submit a plan of management and operation to the state risk manager that provides at least the following information:

(1) The risk or risks to be covered, including any coverage definitions, terms, conditions, and limitations;
The amount and method of funding the covered risks, including the initial capital and proposed rates and projected premiums;

The agreements with participants in the program defining the responsibilities and benefits of each participant and management;

The proposed accounting, depositing, and investment practices of the program;

The proposed time when actuarial analysis will be first conducted and the frequency of future actuarial analysis;

A designation of the individual to whom service of process must be forwarded by the state risk manager on behalf of the program;

All contracts between the program and private persons providing risk management, claims, or other administrative services;

A professional analysis of the feasibility of the creation and maintenance of the program;

A legal determination of the potential federal and state tax liabilities of the program; and

Any other information required by rule of the state risk manager that is necessary to determine the probable financial and management success of the program or that is necessary to determine compliance with this chapter.

NEW SECTION. Sec. 7. A public benefit hospital entity may participate in a joint self-insurance program covering property or liability risks with similar public benefit hospital entities from other states if the program satisfies the following requirements:

An ownership interest in the program is limited to some or all of the public benefit hospital entities of this state and public benefit hospital entities of other states that are provided insurance by the program;

The participating public benefit hospital entities of this state and other states shall elect a board of directors to manage the program, a majority of whom must be affiliated with one or more of the participating public benefit hospital entities;

The program must provide coverage through the delivery to each participating public benefit hospital entity of one or more written policies affecting insurance of covered risks;

The program must be financed, including the payment of premiums and the contribution of initial capital, in accordance with the plan of management and operation submitted to the state risk manager in accordance with this chapter;

The financial statements of the program must be audited annually by the certified public accountants for the program, and these audited financial statements must be delivered to the state risk manager not more than one hundred twenty days after the end of each fiscal year of the program;

The investments of the program must be initiated only with financial institutions or broker-dealers, or both, doing business in those states in which participating public benefit hospital entities are located, and these investments must be audited annually by the certified public accountants for the program;

The treasurer of a multistate joint self-insurance program must be designated by resolution of the program and the treasurer must be located in the state of one of the participating entities;

The participating entities may have no contingent liabilities for covered claims, other than liabilities for unpaid premiums, retrospective premiums, or assessments, if assets of the program are insufficient to cover the program's liabilities; and

The program must obtain approval from the state risk manager in accordance with this chapter and must remain in compliance with this chapter, except if provided otherwise under this section.

NEW SECTION. Sec. 8. (1) Within one hundred twenty days of receipt of a plan
of management and operation, the state risk manager shall either approve or disapprove of the formation of the joint self-insurance program after reviewing the plan to determine whether the proposed program complies with this chapter and all rules adopted in accordance with this chapter.

(2) If the state risk manager denies a request for approval, the state risk manager shall specify in detail the reasons for denial and the manner in which the program fails to meet the requirements of this chapter or any rules adopted in accordance with this chapter.

(3) If the state risk manager determines that a joint self-insurance program covering property or liability risks is in violation of this chapter or is operating in an unsafe financial condition, the state risk manager may issue and serve upon the program an order to cease and desist from the violation or practice.

(a) The state risk manager shall deliver the order to the appropriate entity or entities directly or mail it to the appropriate entity or entities by certified mail with return receipt requested.

(b) If the program violates the order or has not taken steps to comply with the order after the expiration of twenty days after the cease and desist order has been received by the program, the program is deemed to be operating in violation of this chapter, and the state risk manager shall notify the attorney general of the violation.

(c) After hearing or with the consent of a program governed under this chapter and in addition to or in lieu of a continuation of the cease and desist order, the state risk manager may levy a fine upon the program in an amount not less than three hundred dollars and not more than ten thousand dollars. The order levying the fine must specify the period within which the fine must be fully paid. The period within which the fine must be paid must not be less than fifteen and no more than thirty days from the date of the order. Upon failure to pay the fine when due, the state risk manager shall request the attorney general to bring a civil action on the state risk manager's behalf to collect the fine. The state risk manager shall pay any fine collected to the state treasurer for the account of the general fund.

(4) Each joint self-insurance program approved by the state risk manager shall annually file a report with the state risk manager providing:

(a) Details of any changes in the articles of incorporation, bylaws, charter, or trust agreement or other agreement among the participating public benefit hospital entities;

(b) Copies of all the insurance coverage documents;

(c) A description of the program structure, including participants' retention, program retention, and excess insurance limits and attachment point;

(d) An actuarial analysis;

(e) A list of contractors and service providers;

(f) The financial and loss experience of the program; and

(g) Other information as required by rule of the state risk manager.

(5) A joint self-insurance program requiring the state risk manager's approval may not engage in an act or practice that in any respect significantly differs from the management and operation plan that formed the basis for the state risk manager's approval of the program unless the program first notifies the state risk manager in writing and obtains the state risk manager's approval. The state risk manager shall approve or disapprove the proposed change within sixty days of receipt of the notice. If the state risk manager denies a requested change, the state risk manager shall specify in detail the reasons for the denial and the manner in which the program would fail to meet the requirements of this chapter or any rules adopted in accordance with this chapter.

NEW SECTION. Sec. 9. (1) A joint self-insurance program may by resolution of the program designate a person having experience with investments or financial matters as treasurer of the program. The program must require a bond obtained from a surety company in an amount and under the terms and conditions that the program finds will protect against loss arising from mismanagement or malfeasance in investing and managing program funds. The program may pay the premium on the bond.

(2) All interest and earnings collected on joint self-insurance program funds belong to the program and must be
deposited to the program’s credit in the proper program account.

NEW SECTION. Sec. 10. (1) An employee or official of a participating public benefit hospital entity in a joint self-insurance program may not directly or indirectly receive anything of value for services rendered in connection with the operation and management of a self-insurance program other than the salary and benefits provided by his or her employer or the reimbursement of expenses reasonably incurred in furtherance of the operation or management of the program. An employee or official of a participating public benefit hospital entity in a joint self-insurance program may not accept or solicit anything of value for personal benefit or for the benefit of others under circumstances in which it can be reasonably inferred that the employee’s or official’s independence of judgment is impaired with respect to the management and operation of the program.

(2) RCW 48.30.140, 48.30.150, and 48.30.157 apply to the use of insurance producers by a joint self-insurance program.

(2) The costs of subsequent reviews and investigations must be charged to the joint self-insurance program being reviewed or investigated in accordance with the actual time and expenses incurred in the review or investigation.

(3) Any program failing to remit its assessment when due is subject to denial of permission to operate or to a cease and desist order until the assessment is paid.

NEW SECTION. Sec. 13. (1) Any person who files reports or furnishes other information required under this title, required by the state risk manager under the authority granted under this title, or which is useful to the state risk manager in the administration of this title, is immune from liability in any civil action or suit arising from the filing of any such report or furnishing such information to the state risk manager, unless actual malice, fraud, or bad faith is shown.

"Sec. 4. RCW 46.20.202 and 2016 c 32 s 2 are each amended to read as follows:

(1) The department may enter into a memorandum of understanding with any federal agency for the purposes of facilitating the crossing of the border between the state of Washington and the Canadian province of British Columbia.

(2) The department may enter into an agreement with the Canadian province of British Columbia for the purposes of implementing a border-crossing initiative.

(3)(a) The department may issue an enhanced driver's license or identicard for the purposes of crossing the border between the state of Washington and the Canadian province of British Columbia to an applicant who provides the department with proof of: United States citizenship, identity, and state residency. The department shall continue to offer a standard driver's license and identicard. If the department chooses to issue an enhanced driver's license, the department must allow each applicant to choose between a standard driver's license or identicard, or an enhanced driver's license or identicard.

(b) The department shall implement a one-to-many biometric matching system for the enhanced driver's license or identicard. An applicant for an enhanced driver's license or identicard shall submit a biometric identifier as designated by the department. The biometric identifier must be used solely for the purpose of verifying the identity of the holders and for any purpose set out in RCW 46.20.037. Applicants are required to sign a declaration acknowledging their understanding of the one-to-many biometric match.

(c) The enhanced driver's license or identicard must include reasonable security measures to protect the privacy of Washington state residents, including reasonable safeguards to protect against unauthorized disclosure of data about Washington state residents. If the enhanced driver's license or identicard includes a radio frequency identification chip, or similar technology, the department shall ensure that the technology is encrypted or otherwise secure from unauthorized data access.

(d) The requirements of this subsection are in addition to the requirements otherwise imposed on applicants for a driver's license or identicard. The department shall adopt such rules as necessary to meet the requirements of this subsection. From time to time the department shall review technological innovations related to the security of identity cards and amend the rules related
to enhanced driver's licenses and
identicards as the director deems
consistent with this section and
appropriate to protect the privacy of
Washington state residents.

(e) Notwithstanding RCW 46.20.118, the
department may make images associated with
enhanced drivers' licenses or identicards
from the negative file available to United
States customs and border agents for the
purposes of verifying identity.

(4) (a) Between July 15, 2015, and
June 30, 2016, the fee for an enhanced
driver's license or enhanced identicard is
eighteen dollars, which is in addition to
the fees for any regular driver's license
or identicard. If the enhanced driver's
license or enhanced identicard is issued,
renewed, or extended for a period other
than six years, the fee for each class is
dollars for each year that the
enhanced driver's license or enhanced
identicard is issued, renewed, or
extended.

(b) Beginning (July 1, 2016) on the
effective date of this section, the total
issuance fees for an enhanced
driver's license or enhanced identicard
must equal the total issuance fees for the issuance
of a regular driver's license or regular
identicard. If the enhanced driver's
license or enhanced identicard is issued,
renewed, or extended, the fee for each class is
dollars for each year that the
enhanced driver's license or enhanced
identicard is issued, renewed, or
extended.

(5) The enhanced driver's license and
enhanced identicard fee under this section
must be deposited into the highway safety
fund unless prior to July 1, 2023, the
actions described in (a) or (b) of this
subsection occur, in which case the
portion of the revenue that is the result of the fee increased in section 209,
chapter 44, Laws of 2015 3rd sp. sess.
addressed by RCW 46.68.395.

(a) Any state agency files a notice of
rule making under chapter 34.05 RCW for a
rule regarding a fuel standard based upon or
defined by the carbon intensity of
fuel, including a low carbon fuel standard
or clean fuel standard.

(b) Any state agency otherwise enacts, adopts, orders, or in any way implements
a fuel standard based upon or defined by the carbon intensity of fuel, including a
low carbon fuel standard or clean fuel standard.

(c) Nothing in this subsection acknowledges, establishes, or creates
legal authority for the department of
ecology or any other state agency to
enact, adopt, order, or in any way
implement a fuel standard based upon or
defined by the carbon intensity of fuel,
including a low carbon fuel standard or clean fuel standard.)"

It is the intent of the legislature that all persons who may be in harm's way in an emergency are informed of their peril, and informed of appropriate actions they should take to protect themselves and their families.

NEW SECTION. Sec. 2. A new section is added to chapter 38.52 RCW to read as follows:

"Search and rescue" means the acts of searching for, rescuing, or recovering by means of ground, marine, or air activity any person who becomes lost, injured, or is killed while outdoors or as a result of a natural, technological, or human caused disaster, including instances involving searches for downed aircraft when ground personnel are used. Nothing in this section shall affect appropriate activity by the department of transportation under chapter 47.68 RCW.

Sec. 4. RCW 38.52.070 and 1997 c 49 s 4 are each amended to read as follows:

(1) Each political subdivision of this state is hereby authorized and directed to establish a local organization or to be a member of a joint local organization for emergency management in accordance with the state comprehensive emergency management plan and program: PROVIDED, That a political subdivision proposing such establishment shall submit its plan and program for emergency management to the state director and secure his or her recommendations thereon, and verification of consistency with the state comprehensive emergency management plan, in order that the plan of the local organization for emergency management may be coordinated with the plan and program of the state. Local comprehensive emergency management plans must specify the use of the incident command system for multiagency/multijurisdiction operations. No political subdivision may be required to include in its plan provisions for the emergency evacuation or relocation of residents in anticipation of nuclear attack. If the director's recommendations are adverse to the plan as submitted, and, if the local organization does not agree to the director's recommendations for modification to the proposal, the matter shall be referred to the council for final action. The director may authorize two or more political subdivisions to join in the establishment and operation of a joint local organization for emergency management as circumstances may warrant, in which case each political subdivision shall contribute to the cost of emergency management upon such fair and equitable basis as may be determined upon by the executive heads of the constituent subdivisions. If in any case the executive heads cannot agree upon the proper division of cost the matter shall be referred to the council for arbitration and its decision shall be final. When two or more political subdivisions join in the establishment and operation of a joint local organization for emergency management each shall pay its share of the cost into a special pooled fund to be administered by the treasurer of the most populous subdivision, which fund shall be known as the . . . . . . emergency management fund. Each local organization or joint local organization for emergency management shall have a director who shall be appointed by the executive head of the political subdivision, and who shall have direct responsibility for the organization, administration and operation of such local organization for emergency management, subject to the direction and control of such executive officer or officers. In the case of a joint local organization for emergency management, the director shall be appointed by the joint action of the executive heads of the constituent political subdivisions. Each local organization or joint local organization for emergency management shall perform emergency management functions within the territorial limits of the political subdivision within which it is organized, and, in addition, shall conduct such functions outside of such territorial limits as may be required pursuant to the provisions of this chapter.

(2) In carrying out the provisions of this chapter each political subdivision, in which any disaster as described in RCW 38.52.020 occurs, shall have the power to enter into contracts and incur obligations necessary to combat such disaster, protecting the health and safety of persons and property, and providing emergency assistance to the victims of such disaster. Each political subdivision is authorized to exercise the powers vested under this section in the light of the exigencies of an extreme emergency situation without regard to time-consuming procedures and formalities prescribed by law (excepting mandatory constitutional requirements), including, but not limited
to, budget law limitations, requirements of competitive bidding and publication of notices, provisions pertaining to the performance of public work, entering into contracts, the incurring of obligations, the employment of temporary workers, the purchase of supplies and materials, the levying of taxes, and the appropriation and expenditures of public funds.

(3)(a) Each local organization or joint local organization for emergency management that produces a local comprehensive emergency management plan must include a communication plan for notifying significant population segments of life safety information during an emergency. Local organizations and joint local organizations are encouraged to consult with affected community organizations in the development of the communication plans.

(i) In developing communication plans, local organizations and joint organizations should consider, as part of their determination of the extent of the obligation to provide emergency notification to significant population segments, the following factors: The number or proportion of the limited English proficiency persons eligible to be served or likely to be encountered; the frequency with which limited English proficiency individuals come in contact with the emergency notification; the nature and importance of the emergency notification, service, or program to people's lives; and the resources available to the political subdivision to provide emergency notifications.

(ii) "Significant population segment" means, for the purposes of this subsection (3), each limited English proficiency language group that constitutes five percent or one thousand residents, whichever is less, of the population of persons eligible to be served or likely to be affected within a city, town, or county. The office of financial management forecasting division's limited English proficiency population estimates are the demographic data set for determining eligible limited English proficiency language groups.

(b) Local organizations and joint local organizations must submit the plans produced under (a) of this subsection to the Washington military department emergency management division. An initial communication plan must be submitted with the local organization or joint local organization's next local emergency management plan update following the effective date of this section, and subsequent plans must be reviewed in accordance with the director's schedule.

(c) Beginning on December 1, 2019, the Washington military department emergency management division must submit a report every five years to the relevant committees of the legislature containing the communication plans produced under (a) of this subsection.

Addressing the need for veterans' services.

The bill was read the second time.

Representative Reeves moved the adoption of the striking amendment (530):
Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that:

(1) Veterans are national heroes who have made great sacrifices in their lives for the protection of our nation;

(2) Due to the relatively high number of military installations in our state, as well as the standard of living in our state, many veterans choose to live in Washington;

(3) Many veterans have a need for support services, including peer-to-peer counseling services. Some veterans need to talk about their experiences with combat, deployment, or other situations experienced during their time in the military. Often, there is no person better prepared to speak with a veteran about his or her experiences than another veteran;

(4) In 2009, the state of Texas created an award winning peer-to-peer counseling network, called the military veteran peer network. On a voluntary basis, veterans elect to receive specialized training about the facilitation of group counseling sessions. After receiving their training, the volunteers create peer-to-peer support groups in their local communities;

(5) Veterans living in Washington would benefit from a program that is similar to the military veteran peer network.

Sec. 2. RCW 43.60A.100 and 1991 c 55 s 1 are each amended to read as follows:

The department of veterans affairs, to the extent funds are made available, shall: (1) Contract with professional counseling specialists to provide a range of direct treatment services to (combat-affected state veterans and to those national guard and reservists who served in the Middle East, and their family members; (2) provide additional treatment services to Washington state Vietnam veterans for posttraumatic stress disorder, particularly for those veterans whose posttraumatic stress disorder has intensified or initially emerged due to combat in the Middle East; (3) provide an educational program designed to train primary care professionals, such as behavioral health professionals, about the effects of combat-related stress and trauma; (4) provide informational and counseling services for the purpose of establishing and fostering peer-support networks throughout the state for families of deployed members of the reserves and the Washington national guard; (5) provide for veterans' families, a referral network of community mental health providers who are skilled in treating deployment stress, combat stress, and posttraumatic stress; and (6) offer training and support for volunteers interested in providing peer-to-peer support to other veterans.

NEW SECTION. Sec. 3. The legislature finds that:

(1) Washington state provides a stated preference for hiring veterans and provides a scoring preference for hiring and promotional opportunities to veterans in the form of enhanced test scores;

(2) Few agencies outside of law enforcement use tests in hiring or promotion;

(3) Veterans have experience that is broader than law enforcement and the state can benefit by recruiting people with this experience;

(4) Veterans leave service with experience in transportation, teaching and education, logistics, computer technology, health care, media and communications, construction and engineering, and administrative support;

(5) Many state agencies and other public employers are struggling to fill and retain employees in key positions;

(6) Many public and private employers have developed veteran hiring and recruitment programs that take advantage of the broad experience that veterans bring to the job market.

NEW SECTION. Sec. 4. A new section is added to chapter 43.41 RCW to read as follows:

(1) The office shall develop a military recruitment program that targets veterans and gives them credit for their knowledge, skills, and leadership abilities. In developing the program, the office shall consult with the department of enterprise services, department of veteran affairs, the state military transition council, the veterans employee resource group, and other interested stakeholders. Program development must include, but is not limited to, identifying: (a) Public and private military recruitment programs and ways those programs can be used in Washington; (b) similar military and state job classes and develop a system to provide veterans with experience credit
NEW SECTION, Sec. 5. A new section is added to chapter 43.60A RCW to read as follows:

By December 31, 2018, the department of veterans affairs must submit a report to the legislature on the veteran peer-to-peer training and support program authorized in section 2 of this act to determine the effectiveness of the program in meeting the needs of veterans in the state. The report must include the number of veterans receiving peer-to-peer support and the location of such support services; the number of veterans trained through the program to provide peer-to-peer support; and the types of training and support services provided by the program. The report must also include an analysis of peer-to-peer training and support programs developed by other states, as well as in the private and nonprofit sectors, in order to evaluate best practices for implementing and managing the veteran peer-to-peer training and support program authorized in section 2 of this act."

Representative Maycumber moved the adoption of the striking amendment (539):

Strike everything after the enacting clause and insert the following:

“NEW SECTION. Sec. 1. This act may be known and cited as the economic revitalization act.

Sec. 2. RCW 36.70A.070 and 2015 c 241 s 2 are each amended to read as follows:

The comprehensive plan of a county or city that is required or chooses to plan under RCW 36.70A.040 shall consist of a map or maps, and descriptive text covering objectives, principles, and standards used to develop the comprehensive plan. The plan shall be an internally consistent document and all elements shall be consistent with the future land use map. A comprehensive plan shall be adopted and amended with public participation as provided in RCW 36.70A.140. Each comprehensive plan shall include a plan, scheme, or design for each of the following:

(1) A land use element designating the proposed general distribution and general
location and extent of the uses of land, where appropriate, for agriculture, timber production, housing, commerce, industry, recreation, open spaces, general aviation airports, public utilities, public facilities, and other land uses. The land use element shall include population densities, building intensities, and estimates of future population growth. The land use element shall provide for protection of the quality and quantity of groundwater used for public water supplies. Wherever possible, the land use element should consider utilizing urban planning approaches that promote physical activity. Where applicable, the land use element shall review drainage, flooding, and storm water run-off in the area and nearby jurisdictions and provide guidance for corrective actions to mitigate or cleanse those discharges that pollute waters of the state, including Puget Sound or waters entering Puget Sound.

(2) A housing element ensuring the vitality and character of established residential neighborhoods that: (a) Includes an inventory and analysis of existing and projected housing needs that identifies the number of housing units necessary to manage projected growth; (b) includes a statement of goals, policies, objectives, and mandatory provisions for the preservation, improvement, and development of housing, including single-family residences; (c) identifies sufficient land for housing, including, but not limited to, government-assisted housing, housing for low-income families, manufactured housing, multifamily housing, and group homes and foster care facilities; and (d) makes adequate provisions for existing and projected needs of all economic segments of the community.

(3) A capital facilities plan element consisting of: (a) An inventory of existing capital facilities owned by public entities, showing the locations and capacities of the capital facilities; (b) a forecast of the future needs for such capital facilities; (c) the proposed locations and capacities of expanded or new capital facilities; (d) at least a six-year plan that will finance such capital facilities within projected funding capacities and clearly identifies sources of public money for such purposes; and (e) a requirement to reassess the land use element if probable funding falls short of meeting existing needs and to ensure that the land use element, capital facilities plan element, and financing plan within the capital facilities plan element are coordinated and consistent. Park and recreation facilities shall be included in the capital facilities plan element.

(4) A utilities element consisting of the general location, proposed location, and capacity of all existing and proposed utilities, including, but not limited to, electrical lines, telecommunication lines, and natural gas lines.

(5) Rural element. Counties shall include a rural element including lands that are not designated for urban growth, agriculture, forest, or mineral resources. The following provisions shall apply to the rural element:

(a) Growth management act goals and local circumstances. Because circumstances vary from county to county, in establishing patterns of rural densities and uses, a county may consider local circumstances, but shall develop a written record explaining how the rural element harmonizes the planning goals in RCW 36.70A.020 and meets the requirements of this chapter.

(b) Rural development. The rural element shall permit rural development, forestry, and agriculture in rural areas. The rural element shall provide for a variety of rural densities, uses, essential public facilities, and rural governmental services needed to serve the permitted densities and uses. To achieve a variety of rural densities and uses, counties may provide for clustering, density transfer, design guidelines, conservation easements, and other innovative techniques that will accommodate appropriate rural economic advancement, densities, and uses that are not characterized by urban growth and that are consistent with rural character.

(c) Measures governing rural development. The rural element shall include measures that apply to rural development and protect the rural character of the area, as established by the county, by:

(i) Containing or otherwise controlling rural development;

(ii) Assuring visual compatibility of rural development with the surrounding rural area;

(iii) Reducing the inappropriate conversion of undeveloped land into
sprawling, low-density development in the rural area;

(iv) Protecting critical areas, as provided in RCW 36.70A.060, and surface water and groundwater resources; and

(v) Protecting against conflicts with the use of agricultural, forest, and mineral resource lands designated under RCW 36.70A.170.

(d) Limited areas of more intensive rural development. Subject to the requirements of this subsection and except as otherwise specifically provided in this subsection (5)(d), the rural element may allow for limited areas of more intensive rural development, including necessary public facilities and public services to serve the limited area as follows:

(i) Rural development consisting of the infill, development, or redevelopment of existing commercial, industrial, residential, or mixed-use areas, whether characterized as shoreline development, villages, hamlets, rural activity centers, or crossroads developments.

(A) A commercial, industrial, residential, shoreline, or mixed-use area are subject to the requirements of (d)(iv) of this subsection, but are not subject to the requirements of (c)(ii) and (iii) of this subsection.

(B) Any development or redevelopment other than an industrial area or an industrial use within a mixed-use area or an industrial area under this subsection (5)(d)(i) must be principally designed to serve the existing and projected rural population.

(C) Any development or redevelopment in terms of building size, scale, use, or intensity shall be consistent with the character of the existing areas. Development and redevelopment may include changes in use from vacant land or a previously existing use so long as the new use conforms to the requirements of this subsection (5);

(ii) The intensification of development on lots containing, or new development of, small-scale recreational or tourist uses, including commercial facilities to serve those recreational or tourist uses, that rely on a rural location and setting, but that do not include new residential development. A small-scale recreation or tourist use is not required to be principally designed to serve the existing and projected rural population. Public services and public facilities shall be limited to those necessary to serve the recreation or tourist use and shall be provided in a manner that does not permit low-density sprawl;

(iii) The intensification of development on lots containing isolated nonresidential uses or new development of isolated cottage industries and isolated small-scale businesses that are not principally designed to serve the existing and projected rural population and nonresidential uses, but do provide job opportunities for rural residents. Rural counties may allow the expansion of small-scale businesses as long as those small-scale businesses conform with the rural character of the area as defined by the local government according to RCW 36.70A.030(15). Rural counties may also allow new small-scale businesses to utilize a site previously occupied by an existing business as long as the new small-scale business conforms to the rural character of the area as defined by the local government according to RCW 36.70A.030(15). Public services and public facilities shall be limited to those necessary to serve the isolated nonresidential use and shall be provided in a manner that does not permit low-density sprawl;

(iv) A county shall adopt measures to minimize and contain the existing areas or uses of more intensive rural development, as appropriate, authorized under this subsection. Lands included in such existing areas or uses shall not extend beyond the logical outer boundary of the existing area or use, thereby allowing a new pattern of low-density sprawl. Existing areas are those that are clearly identifiable and contained and where there is a logical boundary delineated predominately by the built environment, but that may also include undeveloped lands if limited as provided in this subsection. The county shall establish the logical outer boundary of an area of more intensive rural development. In establishing the logical outer boundary, the county shall address (A) the need to preserve the character of existing natural neighborhoods and communities, (B) physical boundaries, such as bodies of water, streets and highways, and land forms and contours, (C) the prevention of abnormally irregular boundaries, and (D) the ability to provide public facilities and public services in a manner that does not permit low-density sprawl;
(v) For purposes of (d) of this subsection, an existing area or existing use is one that was in existence:

(A) On July 1, 1990, in a county that was initially required to plan under all of the provisions of this chapter;

(B) On the date the county adopted a resolution under RCW 36.70A.040(2), in a county that is planning under all of the provisions of this chapter under RCW 36.70A.040(2); or

(C) On the date the office of financial management certifies the county's population as provided in RCW 36.70A.040(5), in a county that is planning under all of the provisions of this chapter pursuant to RCW 36.70A.040(5).

(e) Exception. This subsection shall not be interpreted to permit in the rural area a major industrial development or a master planned resort unless otherwise specifically permitted under RCW 36.70A.360 and 36.70A.365.

(f) A transportation element that implements, and is consistent with, the land use element.

(a) The transportation element shall include the following subelements:

(i) Land use assumptions used in estimating travel;

(ii) Estimated traffic impacts to state-owned transportation facilities resulting from land use assumptions to assist the department of transportation in monitoring the performance of state facilities, to plan improvements for the facilities, and to assess the impact of land-use decisions on state-owned transportation facilities;

(iii) Facilities and services needs, including:

(A) An inventory of air, water, and ground transportation facilities and services, including transit alignments and general aviation airport facilities, to define existing capital facilities and travel levels as a basis for future planning. This inventory must include state-owned transportation facilities within the city or county's jurisdictional boundaries;

(B) Level of service standards for all locally owned arterials and transit routes to serve as a gauge to judge performance of the system. These standards should be regionally coordinated;

(C) For state-owned transportation facilities, level of service standards for highways, as prescribed in chapters 47.06 and 47.80 RCW, to gauge the performance of the system. The purposes of reflecting level of service standards for state highways in the local comprehensive plan are to monitor the performance of the system, to evaluate improvement strategies, and to facilitate coordination between the county's or city's six-year street, road, or transit program and the office of financial management's ten-year investment program. The concurrency requirements of (b) of this subsection do not apply to transportation facilities and services of statewide significance except for counties consisting of islands whose only connection to the mainland are state highways or ferry routes. In these island counties, state highways and ferry route capacity must be a factor in meeting the concurrency requirements in (b) of this subsection;

(D) Specific actions and requirements for bringing into compliance locally owned transportation facilities or services that are below an established level of service standard;

(E) Forecasts of traffic for at least ten years based on the adopted land use plan to provide information on the location, timing, and capacity needs of future growth;

(F) Identification of state and local system needs to meet current and future demands. Identified needs on state-owned transportation facilities must be consistent with the statewide multimodal transportation plan required under chapter 47.06 RCW;

(iv) Finance, including:

(A) An analysis of funding capability to judge needs against probable funding resources;

(B) A multiyear financing plan based on the needs identified in the comprehensive plan, the appropriate parts of which shall serve as the basis for the six-year street, road, or transit program required by RCW 35.77.010 for cities, RCW 36.81.121 for counties, and RCW 35.58.2795 for public transportation systems. The multiyear financing plan should be coordinated with the ten-year investment program developed by the office of financial management as required by RCW 47.05.030;
(C) If probable funding falls short of meeting identified needs, a discussion of how additional funding will be raised, or how land use assumptions will be reassessed to ensure that level of service standards will be met;

(v) Intergovernmental coordination efforts, including an assessment of the impacts of the transportation plan and land use assumptions on the transportation systems of adjacent jurisdictions;

(vi) Demand-management strategies;

(vii) Pedestrian and bicycle component to include collaborative efforts to identify and designate planned improvements for pedestrian and bicycle facilities and corridors that address and encourage enhanced community access and promote healthy lifestyles.

(b) After adoption of the comprehensive plan by jurisdictions required to plan or who choose to plan under RCW 36.70A.040, local jurisdictions must adopt and enforce ordinances which prohibit development approval if the development causes the level of service on a locally owned transportation facility to decline below the standards adopted in the transportation element of the comprehensive plan, unless transportation improvements or strategies to accommodate the impacts of development are made concurrent with the development. These strategies may include increased public transportation service, ride-sharing programs, demand management, and other transportation systems management strategies. For the purposes of this subsection (6), "concurrent with the development" means that improvements or strategies are in place at the time of development, or that a financial commitment is in place to complete the improvements or strategies within six years. If the collection of impact fees is delayed under RCW 82.02.050(3), the six-year period required by this subsection (6)(b) must begin after full payment of all impact fees is due to the county or city.

(c) The transportation element described in this subsection (6), the six-year plans required by RCW 35.77.010 for cities, RCW 36.81.121 for counties, and RCW 35.58.2795 for public transportation systems, and the ten-year investment program required by RCW 47.05.030 for the state, must be consistent.

(7) An economic development element establishing local goals, policies, objectives, and provisions for economic growth and vitality and a high quality of life. The element ((shall)) may include((a) A summary of the local economy such as population, employment, payroll, sectors, businesses, units, and other information as appropriate; (b) A summary of the strengths and weaknesses of the local economy defined as the commercial and industrial sectors and supporting factors such as land use, transportation, utilities, education, workforce, housing, and natural/cultural resources; and (c) An identification of policies, programs, and projects to foster economic growth and development and to address future needs)) the provisions in section 3 of this act.

A city that has chosen to be a residential community is exempt from the economic development element requirement of this subsection.

(8) A park and recreation element that implements, and is consistent with, the capital facilities plan element as it relates to park and recreation facilities. The element shall include: (a) Estimates of park and recreation demand for at least a ten-year period; (b) an evaluation of facilities and service needs; and (c) an evaluation of intergovernmental coordination opportunities to provide regional approaches for meeting park and recreational demand.

(9) It is the intent that new or amended elements required after January 1, 2002, be adopted concurrent with the scheduled update provided in RCW 36.70A.130. Requirements to incorporate any such new or amended elements shall be null and void until funds sufficient to cover applicable local government costs are appropriated and distributed by the state at least two years before local government must update comprehensive plans as required in RCW 36.70A.130.

NEW SECTION. Sec. 3. A new section is added to chapter 36.70A RCW to read as follows:

(1) The economic development element required by RCW 36.70A.070(7) may include the following:

(a) A summary of the local economy, such as population, employment, payroll, sectors, businesses, sales, and other information as appropriate;

(b) A summary of the strengths and weaknesses of the local economy, which may include the commercial, industrial, manufacturing, natural resource, and other locally significant economic sectors and
supporting factors such as land use, transportation, utilities, education, workforce, housing, and natural/cultural resources;

(c) An identification of policies, programs, and projects to foster economic growth and development and to address future needs;

(d) Policies to promote increases in family, individual, and business incomes;

(e) An examination of whether sites planned for economic development have adequate public facilities and services, and, as appropriate, a plan for any needed public facilities and services;

(f) Policies to encourage access to education and training for family wage jobs; and

(g) Policies and opportunities to address economic development including existing industries and businesses, value added manufacturing of locally produced natural resources, and the use of locally produced energy and other natural resources.

(2) Each county and city planning under this chapter is encouraged to adopt comprehensive plans and development regulations that promote economic development in urban and rural areas, and evaluate economic performance in the jurisdiction in the time since the most recent update to the comprehensive plan. Each county and city planning under this chapter may make findings regarding the economic condition of the jurisdiction. If there is stagnation or economic deterioration during the period of time since the most recent update to the comprehensive plan, the comprehensive plan and development regulations may be modified to increase economic development opportunities.

(3)(a) Counties with a population of less than seventy-five thousand as of January 1, 2014, as determined by the office of financial management and published on April 1, 2016, that are planning under this chapter, and the cities within those counties, that are experiencing economic deterioration, the growth management hearings board and courts shall afford deference to local development choices that make economic development a priority, consistent with the presumption of validity required under RCW 36.70A.320."

Concerning the capital budget.

Strike everything after the enacting clause and insert the following:

"NEW SECTION.  Sec. 1.  (1) A capital budget is hereby adopted and, subject to the provisions set forth in this act, the several dollar amounts hereinafter specified, or so much thereof as shall be sufficient to accomplish the purposes designated, are hereby appropriated and authorized to be incurred for capital projects during the period beginning with the effective date of this act and ending June 30, 2019, out of the several funds specified in this act.

(2) The definitions in this subsection apply throughout this act unless the context clearly requires otherwise.

(a) "Fiscal year 2018" or "FY 2018" means the period beginning July 1, 2017, and ending June 30, 2018.

(b) "Fiscal year 2019" or "FY 2019" means the period beginning July 1, 2018, and ending June 30, 2019.

(c) "Lapse" or "revert" means the amount shall return to an unappropriated status.

(d) "Provided solely" means the specified amount may be spent only for the specified purpose.

(3) Unless otherwise specifically authorized in this act, any portion of an amount provided solely for a specified purpose that is not expended subject to the specified conditions and limitations to fulfill the specified purpose shall lapse.

(4) The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2019-2021 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent not to provide funding for the project or program in the future.

(5) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2017, from previous biennial appropriations for each project.

2017-19 Housing Trust Fund Program (30000872)

The appropriations in this section are subject to the following conditions and limitations:

(1) $64,000,000 of the state taxable building construction account—state appropriation, $38,000,000 of the state building construction account—state appropriation, and $4,370,000 of the Washington housing trust account—state appropriation are provided solely for affordable housing and preservation of affordable housing. Of the amounts in this subsection:

(a) $24,370,000 is provided solely for housing projects that provide supportive housing and case-management services to persons with chronic mental illness. The department must prioritize low-income supportive housing unit proposals that provide services or include a partner community behavioral health treatment provider;

(b) $10,000,000 is provided solely for housing preservation grants to be awarded competitively. The grants may be provided for major building improvements, preservation, and system replacements, necessary for the existing housing trust fund portfolio to maintain long-term viability. The department must require that a capital needs assessment is performed to estimate the cost of the preservation project at contract execution. Funds may not be used to add or expand the capacity of the property. To receive grants, housing projects must meet the following requirements:

(i) The property is more than fifteen years old;

(ii) At least 50 percent of the housing units are occupied by families and individuals at or below 30 percent area median income.

(iii) The improvements will result in reduction of operating or utilities costs, or both; and

(iv) Other criteria that the department considers necessary to achieve the purpose of this program.

(c) $5,000,000 is provided solely for housing projects that benefit people at or below 80 percent of the area median income who have been displaced by a natural disaster declared by the governor, including people who have been displaced within the last two biennia.

(d) $1,000,000 of the Washington housing trust account—state appropriation is provided solely for the department to work with the communities of concern commission to focus on creating capital assets that will help reduce poverty and build stronger and more sustainable communities using the communities’ cultural understanding and vision. The funding must be used for predevelopment costs for capital projects identified by the commission and for other activities to assist communities in developing capacity to create community-owned capital assets.

(e) $10,098,000 is provided solely for the following list of housing projects:

(i) 10 percent is provided solely for housing projects that benefit veterans;

(ii) 10 percent is provided solely for housing projects that benefit homeownership;

(iii) 5 percent is provided solely for housing projects that benefit people with developmental disabilities;

(iv) 5 percent is provided solely for grants for high quality low-income housing projects that quickly move people from homelessness into secure housing and are significantly less expensive to construct than traditional housing. In awarding grants, the department must prioritize projects that:

(A) Provide permanent, high-quality housing or safe, lockable temporary shelter structures that provide significantly greater safety and security than tents;

(B) Serve chronically homeless adults or people being discharged from inpatient mental health or addiction treatment;

(C) Offer a community setting that supports residents’ transition to stability and self-determination; and

(D) Site the housing on under-utilized public land; and

(2) In soliciting and evaluating proposals, awarding contracts, and monitoring projects under this section, the department must:

(a) Ensure that competitive processes, rather than sole source contracting processes, are used to select all projects, except as otherwise noted in this section; and

(b) Conduct due diligence activities associated with the use of public funds including, but not limited to, oversight of the project selection process, project monitoring and ensuring that all applications and contracts fully comply with all applicable laws including disclosure and conflict of interest statutes.

(3)(a) Pursuant to chapter 42.52 RCW, the ethics in public service act, the department must require a project applicant to identify in application materials any state of Washington employees or former state employees employed by the firm or on the firm's governing board during the past twenty-four months. Application materials must identify the individual by name, the agency previously or currently employing the individual, job title or position held, and separation date. If it is determined by the department that a conflict of interest exists, the applicant may be disqualified from further consideration for award of funding.

(b) If the department finds, after due notice and examination, that there is a violation of chapter 42.52 RCW, or any similar statute involving a grantee who received funding under this section, either in procuring or performing under the grant, the department in its sole discretion may terminate the funding grant.

In development of the application criteria, the department shall, to the extent possible, allow smaller utilities or consortia of small utilities to apply for funding.

(c) Applications for grants must disclose all sources of public funds invested in a project.

(6) $13,000,000 of the state building construction account is provided solely for grants to demonstrate new approaches to electrification of transportation systems.

(a) Projects must be implemented by local governments, or by public and private electrical utilities that serve retail customers in the state. (b) The department shall consult and coordinate with the University of Washington, Washington State University, the Pacific Northwest national laboratory and other clean energy organizations to design the grant program unless the organization prefers to compete for the grants. If the organization prefers to receive grants from the program they may not participate in the consultant process determining how the grant process is structured. The program shall offer matching funds for competitively selected clean energy projects, including but not limited to: Solar technologies, advanced bioenergy and biofuels, development of new earth abundant materials or lightweight materials, advanced energy storage, battery components recycling, and new renewable energy and energy efficiency technologies. Criteria for the grant program must include life cycle cost analysis for projects that are part of the competitive process.
(8)(a) $8,000,000 is provided solely for scientific instruments to help accelerate research in advanced materials at the proposed science laboratories infrastructure facility at the Pacific Northwest national laboratory. These state funds are contingent on securing federal funds for the new facility, and are provided as match to the federal funding. The instruments will support researchers at the bioproducts sciences and engineering laboratory, the joint center for deployment research in earth abundant materials, the center for advanced materials and clean energy technology, and other energy and materials collaborations with the University of Washington and Washington State University.

(b) If by December 30, 2017, federal funding is not secured, the funds in this subsection (8) may be used for a pilot project by the Pacific Northwest national laboratory to use demand side management and analyze electricity use by the Washington state penitentiary. The department of corrections must make any electric utility record at the Washington state penitentiary available. Based on this analysis, a report must be provided to fiscal committees of the legislature by January 15, 2018.

(d) At least 25 percent of the total allocation of a project shall be provided solely for projects that provide direct benefits to low-income residents or communities. The department must attempt to prioritize an equal geographic distribution.

(e) Priority must be given to major components made in Washington.

Energy Efficiency and Solar Grants (30000882)

The appropriation in this section is subject to the following conditions and limitations:

(1)(a) $6,675,000 for fiscal year 2018 and $6,675,000 for fiscal year 2019 is provided solely for grants to be awarded in competitive rounds to local agencies, public higher education institutions, school districts, and state agencies for operational cost savings improvements to facilities and related projects that result in energy and operational cost savings.

(b) At least twenty percent of each competitive grant round must be awarded to small cities or towns with a population of five thousand or fewer residents.

(c) In each competitive round, the higher the leverage ratio of nonstate funding sources to state grant and the higher the energy savings, the higher the project ranking.

(d) For school district applicants, priority consideration must be given to school districts that demonstrate improved health and safety through: (i) Reduced exposure to polychlorinated biphenyl; or (ii) replacing outdated heating systems that use oil or propane as fuel sources as identified by the Washington State University extension energy program. Priority consideration must be given to applicants that have not received grant awards for this purpose in prior biennia.

(2) $1,750,000 is provided solely for grants to be awarded in competitive rounds to local agencies, public higher education institutions, school districts, and state agencies for projects that involve the purchase and installation of solar energy systems, including solar modules and
in inverters, with a preference for products manufactured in Washington.

(3) $1,400,000 is provided solely for energy efficiency improvements to minor works and stand-alone projects at state-owned facilities that repair or replace existing building systems including, but not limited to HVAC, lighting, insulation, windows, and other mechanical systems. Eligibility for this funding is dependent on an analysis using the office of financial management’s life-cycle cost tool that compares project design alternatives for initial and long-term cost-effectiveness. Assuming a reasonable return on investment, the cost to improve the project’s energy efficiency compared to the original project request will be added to the project appropriation after construction bids are received. The department of commerce shall coordinate with the office of financial management to develop a process for project submittal, review, approval criteria, tracking project budget adjustments, and performance measures.

(4) $500,000 is provided solely for resource conservation managers in the department of enterprise services to coordinate with state agencies and school districts to assess and adjust existing building systems and operations to optimize the efficiency in use of energy and other resources in state-owned facilities. The department of commerce will oversee an interagency agreement with the department of enterprise services to fund the resource conservation managers.

(5) The department shall develop metrics that indicate the performance of energy efficiency efforts and provide a report of the metrics, including at a minimum the current energy used by the building, the energy use after efficiencies are completed, and cost of energy saved. The report must include these metrics from other states.

CERB Administered Broadband Infrastructure (91000943)

The appropriation in this section is subject to the following conditions and limitations: During the 2017-2019 fiscal biennium, the community economic revitalization board may make grants and loans to local governments and federally recognized tribes to build infrastructure to provide high-speed, open-access broadband service, to rural and underserved communities, for the purpose of economic development.

(1) "Local governments" means cities, towns, counties, municipal corporations, public port districts, quasi-municipal corporations, and special purpose districts.

(2) "Broadband" means networks of deployed telecommunications equipment and technologies necessary to provide high-speed Internet access and other advanced telecommunications services.

(3) The board is authorized to make rural broadband loans to local governments and to federally recognized Indian tribes for the purposes of financing the cost to build infrastructure to provide high-speed, open-access broadband service, to rural and underserved communities, for the purpose of economic development. Grants may also be authorized for purposes designated in this chapter, but only when, and to the extent that, a loan is not reasonably possible, given the limited resources of the local government or the federally recognized Indian tribe, and subject to a finding by the board that financial circumstances require grant assistance to enable the project to move forward. However, no more than 25 percent of all financial assistance approved by the board in any biennium may consist of grants to local governments and federally recognized Indian tribes.

(4) Application for funding must be made in the form and manner as the board may prescribe. In making grants or loans the board must conform to the following requirements:

(a) The board may not provide financial assistance:

(i) For a project the primary purpose of which is to facilitate or promote a retail shopping development or expansion.

(ii) For any project that evidence exists would result in a development or expansion that would displace existing jobs in any other community in the state.

(iii) For a project the primary purpose of which is to facilitate or promote gambling.

(iv) For a project located outside the jurisdiction of the applicant local government or federally recognized Indian tribe.

(v) For equipment or facilities which would enable a public entity to provide retail telecommunications services or services that the entity is not authorized by statute to provide.
(vi) For the deployment of publicly-owned telecommunication network infrastructure ("backbone") solely for the sake of creating competitive, publicly-owned telecommunication network infrastructure.

(b) The board may provide financial assistance only:

(i) For projects demonstrating convincing evidence that a specific private development or expansion is ready to occur and will occur only if the public facility improvement is made that:

(A) Results in the creation of significant private sector jobs or significant private sector capital investment as determined by the board;

(B) Will improve the opportunities for the successful maintenance, establishment, or expansion of industrial or commercial plants or will otherwise assist in the creation or retention of long-term economic opportunities; and

(C) Is located in a rural community as defined by the board, or a rural county; or

(ii) For a project that does not meet the requirements of (b)(i) of this subsection but is a project that:

(A) Results in the creation of significant private sector jobs or significant private sector capital investment as determined by the board;

(B) Is part of a local economic development plan consistent with applicable state planning requirements;

(C) Can demonstrate project feasibility using standard economic principles; and

(D) Is located in a rural community as defined by the board, or a rural county;

(c) The board must develop guidelines for local participation and allowable match and activities.

(d) An application must demonstrate local match and local participation, in accordance with guidelines developed by the board.

(e) An application must be approved by the local government and supported by the local associate development organization or local workforce development council or approved by the governing body of the federally recognized Indian tribe.

(f) The board may allow de minimis general system improvements to be funded if they are critically linked to the viability of the project.

(g) An application must demonstrate convincing evidence that the median hourly wage of the private sector jobs created after the project is completed will exceed the countywide median hourly wage.

(h) The board must prioritize each proposed project according to:

(i) The relative benefits provided to the community by the jobs the project would create, not just the total number of jobs it would create after the project is completed, but also giving consideration to the unemployment rate in the area in which the jobs would be located;

(ii) The rate of return of the state's investment, including, but not limited to, the leveraging of private sector investment, anticipated job creation and retention, and expected increases in state and local tax revenues associated with the project;

(iii) Whether the proposed project offers a health insurance plan for employees that includes an option for dependents of employees;

(iv) Whether the public facility investment will increase existing capacity necessary to accommodate projected population and employment growth in a manner that supports infill and redevelopment of existing urban or industrial areas that are served by adequate public facilities. Projects should maximize the use of existing infrastructure and provide for adequate funding of necessary transportation improvements;

(v) Whether the applicant's permitting process has been certified as streamlined by the office of regulatory assistance; and

(vi) Whether the applicant has developed and adhered to guidelines regarding its permitting process for those applying for development permits consistent with section 1(2), chapter 231, Laws of 2007.

(i) A responsible official of the local government or the federally recognized Indian tribe must be present during board deliberations and provide information that the board requests.

(5) Before any financial assistance application is approved, the local government or the federally recognized
Indian tribe seeking the assistance must demonstrate to the community economic revitalization board that no other timely source of funding is available to it at costs reasonably similar to financing available from the community economic revitalization board.

VW Settlement Funded Projects (40000018)
The appropriation in this section is subject to the following conditions and limitations:

(1) The legislature finds that it is appropriate to provide a framework for the administration of mitigation funds provided to the state as a beneficiary under the terms of the consent decrees entered into by the United States, Volkswagen AG, and other participating parties that settle emissions-related claims for 2.0 and 3.0 liter diesel vehicles of certain models and years. The legislature deems the department of ecology the responsible agency for the administration and expenditure of funds provided by the trustee under the terms of the consent decrees, including the development of a mitigation plan to guide the use of the funds, whether or not the department receives funds directly for projects included in the plan.

(2) The mitigation plan and the stewardship of project implementation must adhere to the following guidelines:

(a) Consideration must be given to investments in areas where public health is most impacted by nitrogen oxides pollution, and especially in areas where disadvantaged communities reside;

(b) Investments must fund, to the extent possible: (i) Projects that have not been funded or implemented by or before June 30, 2017, to mitigate nitrogen oxides pollution; and (ii) projects that do not replace projects and activities that were funded on or before June 30, 2017, for implementation after that date, to address such pollution by achieving an identical or substantially similar objective;

(c) Investments in clean vehicles or clean engine replacements must be shown to be cost-effective and, for the purposes of leveraging funding, may not exceed the incremental cost of the clean vehicle or clean engine replacement, relative to the cost of a similar conventionally fueled vehicle or conventionally fueled engine replacement;

(d) Consideration must be given to investments in projects that employ a range of fueling technologies and emissions reduction technologies; and

(e) Priority must be given to projects that have the highest benefit-cost ratios, in terms of the amount of nitrogen oxides emissions reduced per dollar invested.

(3) Funding must be allocated to eligible projects under the terms of the consent decrees in the following manner:

(a)(i) No more than thirty percent of funding provided for commercial vehicle class four through eight transit buses;

(ii) No more than twenty percent of funding provided for commercial vehicle class four through eight school and shuttle buses;

(iii) No more than twenty percent of funding provided for (A) commercial vehicle class eight local freight trucks and port drayage trucks and (B) commercial...
vehicle class four through seven local freight trucks;

(iv) No more than fifteen percent of funding provided for light duty, zero emission vehicle supply equipment;

(v) No more than thirty percent of funding provided for nonfederal matching funds for projects eligible under the diesel emission reduction act option; and

(vi) No more than ten percent of funding provided for other mitigation actions that are eligible under the consent decrees but not otherwise specified under this subsection (3)(a).

(b) Projects that receive funding under (a)(iii) of this subsection (3) and ocean-going vessels shorepower projects that receive funding under (a)(vi) of this subsection (3) must include electric technologies, if practicable.

(4)(a)(i) For the purposes of administering subsections (3)(a)(i), (iii), and (iv) of this section, and, as needed, subsection (3)(a)(vi) of this section, the department of ecology shall enter into an interagency agreement with the department of transportation. The department of transportation shall be responsible for proposing candidate projects under these subsections, for working with the department of ecology to determine their benefit-cost ratios under subsection (2)(e) of this section, and for prioritizing these candidate projects accordingly. The department of ecology shall work collaboratively with the department of transportation to develop and implement the elements of the mitigation plan that address these categories of projects.

(ii) In meeting its requirements under (a)(i) of this subsection (4), the department of transportation shall consider plans approved under the consent decrees governing zero emission vehicle infrastructure development identified in subsection (1) of this section, making reasonable efforts to select candidate projects that are complementary to those plans. The department of transportation shall also consider and utilize, where appropriate and to the extent possible, the following existing programs for alternative fuels and zero emission vehicles:

(A) The department of transportation's electric vehicle infrastructure bank program;

(B) The state alternative fuel commercial vehicle tax credit;

(C) The state sales and use tax exemption for clean vehicles; and

(D) Public transportation grant programs administered by the department of transportation.

(iii) To guide the department of transportation in meeting its responsibilities under (a)(i) of this subsection (4) during the 2017-2019 fiscal biennium, a steering committee is established, consisting of: The chairs and the ranking minority members of the house of representatives and senate transportation committees, or their designees; the director of the department of ecology; and the secretary of transportation or his or her designee. The steering committee must meet as needed to support the department of transportation's contribution to the elements of the mitigation plan that address the categories of projects referenced in (a)(i) of this subsection (4). Staff support must be provided by the joint transportation committee and nonpartisan committee staff of the house of representatives and senate transportation committees. The department of transportation staff must provide technical support, as needed.

(b) For the purposes of administering subsection (3)(a)(ii) of this section, including the development of the mitigation plan, the department of ecology shall enter into an interagency agreement with the office of the superintendent of public instruction.

(1) The appropriation is provided solely to the department of natural resources to transfer from trust status certain trust lands of statewide significance deemed appropriate for state parks, fish and wildlife habitats, natural area preserves, natural resources conservation areas, department of natural resources community forest open spaces, or recreation purposes. The approved property for transfer is identified in the LEAP capital document no. 2017-2H, developed April 5, 2017.

(2) Property transferred under this section must be appraised and transferred at fair market value. By September 30, 2018, the department must deposit in the common school construction account the portion of the appropriation in this section that represents the estimated value of the timber on the transferred properties. This transfer must be made in the same manner as timber revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040. The portion of the appropriation in this section that represents the value of the land transferred must be deposited in the natural resources real property replacement account.

(3) All reasonable costs incurred by the department to implement this section are authorized to be paid out of the appropriations. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs, and may not exceed one and nine-tenths percent of the appropriation.

(4) By June 30, 2018, land within the common school trust shall be exchanged for land of equal value held for other trust beneficiaries of the property identified in subsection (1) of this section.

For emergency repair grants only, an emergency declaration must be signed by the school district board of directors and submitted to the superintendent of public instruction for consideration. The emergency declaration must include a description of the imminent health and safety hazard, the possible cause, the proposed scope of emergency repair work and related cost estimate, and identification of local funding to be applied to the project. Grants of emergency repair moneys must be conditioned upon the written commitment and plan of the school district board of directors to repay the grant with any insurance payments or other judgments that may be awarded, if applicable.

2. $3,000,000 of the state building construction account—state appropriation is provided solely for urgent repair grants to address non-reoccurring urgent small repair projects at K-12 public schools, excluding skill centers, that could impact the health and safety of students and staff if not completed, and this is the maximum amount that may be spent for this purpose. The office of the superintendent of public instruction, after consulting with maintenance and operations administrators of school districts, shall develop criteria and assurances for providing funding for specific projects through a competitive grant program. The criteria and assurances must include, but are not limited to, the following: (a) Limiting school districts to one grant, not to exceed $200,000, per three-year period; (b) prioritizing applications based on limited school district financial resources for the project; and (c) requiring any district receiving funding provided in this section to demonstrate a consistent commitment to addressing school facility needs. The grant applications must include a comprehensive description of the health and safety issues to be addressed, a detailed description of the remedy including a detailed cost estimate of the repair or replacement work to be performed, and identification of local funding, if any, which will be applied to the project. Grants may be used for, but are not limited to: Repair or replacement of failing building systems; abatement of potentially hazardous materials; and safety-related structural improvements.

3. $1,000,000 of the state building construction account—state appropriation is provided solely for equal access grants for facility repairs and alterations at K-12 public schools, including skills centers, to improve compliance with the Americans with disabilities act and individuals with disabilities education act, and this is the maximum amount that may be spent for this purpose. The superintendent of public instruction shall develop criteria and assurances for providing funding for specific projects through a competitive grant program. The criteria and assurances must include, but are not limited to, the following: (a) Limiting districts to one grant, not to exceed $100,000, per three-year period; (b) prioritizing applications based on limited school district financial resources for the project; and (c) requiring recipient districts to demonstrate a consistent commitment to addressing school facility needs. The
grant applications must include a description of the Americans with disabilities act or individuals with disabilities education act compliance deficiency, a comprehensive description of the facility accessibility issues to be addressed, a detailed description of the remedy including a detailed cost estimate of the repair or replacement work to be performed, and identification of local funding, if any, which will be applied to the project. Priority for grant funding must be given to school districts that demonstrate a lack of capital resources to address the compliance deficiencies outlined in the grant application.

NEW SECTION. Sec. 7003. To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act in excess of $5,000,000, or $10,000,000 for higher education institutions, may not be expended or encumbered until the office of financial management has reviewed and approved the agency’s predesign. The predesign document must include, but not be limited to, program, site, and cost analysis, and an analysis of the life-cycle costs of the alternatives explored, in accordance with the predesign manual adopted by the office of financial management. The results of life-cycle cost analysis must be a primary consideration in the selection of a building design. Construction may proceed only upon providing to the office of financial management the life-cycle costs. To improve monitoring of major construction projects, progress reports must be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports must be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

NEW SECTION. Sec. 7004. (1) The legislature finds that use of life-cycle cost analysis will aid public entities, architects, engineers, and contractors in making design and construction decisions that positively impact both the initial construction cost and the ongoing operating and maintenance cost of a project. To ensure that the total cost of a project is accounted for and the most reasonable and cost efficient design is used, agencies shall develop life-cycle costs for any construction project over $10,000,000. The life-cycle costs must represent the present value sum of capital costs, installation costs, operating costs, and maintenance costs over the life expectancy of the project. The legislature further finds the most effective approach to the life-cycle cost analysis is to integrate it into the early part of the design process.

(2) Agencies shall develop a minimum of three project alternatives for use in the
life-cycle cost analysis. These alternatives must be both distinctly different and viable solutions to the issue being addressed. The chosen alternative must be the most reasonable and cost-effective solution. A brief description of each project alternative and why it was chosen must be included in the life-cycle cost analysis section of the predesign.

(3) The office of financial management shall: (a) Make available a life-cycle cost model to be used for analysis; (b) in consultation with the department of enterprise services, provide assistance in using the life-cycle cost model; and (c) update the life-cycle cost model annually including assumptions for inflation rates, discount rates, and energy rates.

(4) Agencies shall consider architectural and engineering firms' and general contractors' experience using life-cycle costs, operating costs, and energy efficiency measures when selecting an architectural and engineering firm, or when selecting contractors using alternative contracting methods.

NEW SECTION. Sec. 7005. To improve monitoring of major construction projects, progress reports must be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports must be submitted on July 1st and December 31st each year in a format to be determined by the office of financial management.

NEW SECTION. Sec. 7006. (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management and in compliance with RCW 43.88.110. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110.

(2) Each project is defined as proposed in the legislative budget notes or in the governor's budget document.

NEW SECTION. Sec. 7007. (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) A report of any transfer effected under this section, except emergency projects or any transfer under $250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

(5) The transfer authority granted in this section does not apply to appropriations for projects for the state parks and recreation commission. Appropriations for commission projects may be spent only for the specified projects, and funding may not be transferred from one commission project to another or from other sources to a commission project.

NEW SECTION. Sec. 7008. (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is
the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to:
(a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

NEW SECTION. Sec. 7009. (1) Any building project that receives over $10,000,000 in funding from the capital budget must be built to sustainable standards. "Sustainable building" means a building that integrates and optimizes all major high-performance building attributes, including energy efficiency, durability, life-cycle performance, and occupant productivity. The following design and construction attributes must be integrated into the building project:

(a) Employ integrated design principles: Use a collaborative, integrated planning and design process that initiates and maintains an integrated project team in all stages of a project's planning and delivery. Establish performance goals for siting, energy, water, materials, and indoor environmental quality along with other comprehensive design goals and ensures incorporation of these goals throughout the design and life-cycle of the building. Considers all stages of the building's life-cycle, including deconstruction.

(b) Commissioning: Employ commissioning practices tailored to the size and complexity of the building and its system components in order to verify performance of building components and systems and help ensure that design requirements are met. This should include an experienced commissioning provider, inclusion of commissioning requirements in construction documents, a commissioning plan, verification of the installation and performance of systems to be commissioned, and a commissioning report.

(c) Optimize energy performance: Establish a whole building performance target that takes into account the intended use, occupancy, operations, plug loads, other energy demands, and design to earn the ENERGY STAR targets for new construction and major renovation where applicable. For new construction target low energy use index. For major renovations, reduce the energy use by fifty percent below prerenovations baseline.

(d) On-site renewable energy: Meet at least thirty percent of the hot water demand through the installation of solar hot water heaters, when life-cycle cost effective. Implement renewable energy generation projects on agency property for agency use, when life-cycle cost effective.

(e) Measurement and verification: Install building level electricity meters in new major construction and renovation projects to track and continuously optimize performance. Include equivalent meters for natural gas and steam, when natural gas and steam are used. Install dashboards inside buildings to display and incentivize occupants on energy use.

(f) Benchmarking: Compare actual performance data from the first year of operation with the energy design target. Verify that the building performance meets or exceeds the design target. For other building and space types, use an equivalent benchmarking tool for laboratory buildings. Web-based data collection and dashboards must also be provided.

NEW SECTION. Sec. 7010. State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.

NEW SECTION. Sec. 7011. Executive Order No. 05-05, archaeological and cultural resources, was issued effective November 10, 2005. Agencies shall comply
with the requirements set forth in this executive order.

**NEW SECTION. Sec. 7012.** FOR THE ARTS COMMISSION—ART WORK ALLOWANCE. (1) One-half of one percent of moneys appropriated in this act for original construction of school plant facilities is provided solely for the purposes of RCW 28A.335.210.

Art allocations not expended within the ensuing two biennia will lapse. The commission may use up to $150,000 of this amount to conserve or maintain existing pieces in the state art collection pursuant to RCW 28A.335.210.

(5) The executive director of the arts commission shall appoint a study group to review the operations of the one-half of one percent for works of art purchased or commissioned as required by RCW 28A.335.210, 28B.10.027, and 43.17.200. The findings of the review must be reported annually to the office of financial management and the fiscal committees of the legislature by September 15th. (2) For projects funded in the 2015-2017 capital budget and the 2017-2019 capital budget, an institution of higher education, working with the Washington arts commission, may expend up to ten percent of the projected art allocation for a project during the design phase in order to select an artist and design art to be integrated in the building design. The one-half of one percent to be expended by the Washington arts commission must be adjusted downward by the amount expended by a university or college during the design phase of the capital project.

(3) The works of art may be placed on public lands of institutions of higher education, integral to or attached to a public building or structure of institutions of higher education, detached within or outside a public building or structure of institutions of higher education, part of a portable exhibition or collection, part of a temporary exhibition, or loaned or exhibited in other public facilities.

Sec. 7015.** If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with funds available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate ways and means committee and the house of representatives capital budget committee.
NEW SECTION. Sec. 7016. (1) Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

(2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

NEW SECTION. Sec. 7017. NONTAXABLE AND TAXABLE BOND PROCEEDS. Portions of the appropriation authority granted by this act from the state building construction account, or any other account receiving bond proceeds, may be transferred to the state taxable building construction account as deemed necessary by the state finance committee to comply with the federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds. Portions of the general obligation bond proceeds authorized by chapter . . . , Laws of 2017 (Substitute House Bill No. 1080, the general obligation bond bill) for deposit into the state taxable building construction account that are in excess of amounts required to comply with the federal internal revenue service rules and regulations shall be deposited into the state building construction account. (A) Facilities on the department's hazardous sites list with a high hazard ranking for which there is an approved remedial action work plan or an equivalent document under federal cleanup law;

(B) Brownfield properties within a redevelopment opportunity zone if the local government is a prospective purchaser of the property and there is a department-approved remedial action work plan or equivalent document under the federal cleanup law;

(iii) Storm water pollution source projects that: (A) Work in conjunction with a remedial action; (B) protect completed remedial actions against
recontamination; or (C) prevent hazardous clean-up sites;

(iv) Hazardous waste plans and programs under chapter 70.105 RCW;

(v) Solid waste plans and programs under chapters 70.95, 70.95C, 70.95I, and 70.105 RCW;

(vi) Petroleum-based plastic or expanded polystyrene foam debris cleanup activities in fresh or marine waters; and

(vii) Appropriations to the state toxics control account or the environmental legacy stewardship account created in RCW 70.105D.170, if the legislature determines that priorities for spending exceed available funds in those accounts.

(b) Funds for plans and programs must be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW.

(c) During the 2013-2015 fiscal biennium, the local toxics control account may also be used for local government storm water planning and implementation activities.

(d) During the 2013-2015 fiscal biennium, the legislature may transfer from the local toxics control account to the state general fund, such amounts as reflect the excess fund balance in the account.

(e) To expedite cleanups throughout the state, the department may use the following strategies when providing grants to local governments under this subsection:

(i) Enter into an extended grant agreement with a local government conducting remedial actions at a facility where those actions extend over multiple biennia and the total eligible cost of those actions exceeds twenty million dollars. The agreement is subject to the following limitations:

(A) The initial duration of such an agreement may not exceed ten years. The department may extend the duration of such an agreement upon finding substantial progress has been made on remedial actions at the facility;

(B) Extended grant agreements may not exceed fifty percent of the total eligible remedial action costs at the facility; and

(C) The department may not allocate future funding to an extended grant agreement unless the local government has demonstrated to the department that funds awarded under the agreement during the previous biennium have been substantially expended or contracts have been entered into to substantially expend the funds;

(ii) Enter into a grant agreement with a local government conducting a remedial action that provides for periodic reimbursement of remedial action costs as they are incurred as established in the agreement;

(iii) Enter into a grant agreement with a local government prior to it acquiring a property or obtaining necessary access to conduct remedial actions, provided the agreement is conditioned upon the local government acquiring the property or obtaining the access in accordance with a schedule specified in the agreement;

(iv) Provide integrated planning grants to local governments to fund studies necessary to facilitate remedial actions at brownfield properties and adaptive reuse of properties following remediation. Eligible activities include, but are not limited to: Environmental site assessments; remedial investigations; health assessments; feasibility studies; site planning; community involvement; land use and regulatory analyses; building and infrastructure assessments; economic and fiscal analyses; and any environmental analyses under chapter 43.21C RCW;

(v) Provide grants to local governments for remedial actions related to area-wide groundwater contamination. To receive the funding, the local government does not need to be a potentially liable person or be required to seek reimbursement of grant funds from a potentially liable person;

(vi) The director may alter grant matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational opportunities, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of
brownfield property under RCW 70.105D.040(5) that would not otherwise occur;

(vii) When pending grant applications under (e)(iv) and (v) of this subsection exceed the amount of funds available, designated redevelopment opportunity zones must receive priority for distribution of available funds.

(f) To expedite multiparty clean-up efforts, the department may purchase remedial action cost-cap insurance. For the 2013-2015 fiscal biennium, moneys in the local toxics control account may be spent on projects in sections 3024, 3035, 3036, and 3059, chapter 19, Laws of 2013 2nd sp. sess.

(5) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(6) No moneys deposited into either the state or local toxics control account may be used for: Natural disasters where there is no hazardous substance contamination; high performance buildings; solid waste incinerator facility feasibility studies, construction, maintenance, or operation; or after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. However, this subsection does not prevent an appropriation from the state toxics control account to the department of revenue to enforce compliance with the hazardous substance tax imposed in chapter 82.21 RCW.

(7) Except during ((the 2011-2013 and)) the 2015-2017 and the 2017-2019 fiscal biennia, one percent of the moneys collected under RCW 82.21.030 shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state’s solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation that are not expended at the close of any biennium revert to the state toxics control account.

(8) The department shall adopt rules for grant or loan issuance and performance. To accelerate both remedial action and economic recovery, the department may expedite the adoption of rules necessary to implement chapter 1, Laws of 2013 2nd sp. sess. using the expedited procedures in RCW 34.05.353. The department shall initiate the award of financial assistance by August 1, 2013. To ensure the adoption of rules will not delay financial assistance, the department may administer the award of financial assistance through interpretive guidance pending the adoption of rules through July 1, 2014.

(9) Except as provided under subsection (3)(k) and (q) of this section, nothing in chapter 1, Laws of 2013 2nd sp. sess. affects the ability of a potentially liable person to receive public funding.

(10) During the 2015-2017 fiscal biennium the local toxics control account may also be used for the centennial clean water program and for the storm water financial assistance program administered by the department of ecology.

(11) During the 2017-2019 biennium the state toxics control account, the local toxics control account, and the environmental legacy stewardship account may be used for interchangeable purposes and funds may be transferred between accounts to accomplish those purposes.

Sec. 7027. RCW 79A.15.030 and 2016 c 149 s 3 are each amended to read as follows:

(1) Moneys appropriated prior to July 1, 2016, for this chapter shall be divided as follows:

(a) Appropriations for a biennium of forty million dollars or less must be allocated equally between the habitat conservation account and the outdoor recreation account.

(b) If appropriations for a biennium total more than forty million dollars, the money must be allocated as follows: (i) Twenty million dollars to the habitat conservation account and twenty million dollars to the outdoor recreation account; (ii) any amount over forty million dollars up to fifty million dollars shall be allocated as follows: (A) Ten percent to the habitat conservation account; (B) ten
percent to the outdoor recreation account; (C) forty percent to the riparian protection account; and (D) forty percent to the farmlands preservation account; and (iii) any amounts over fifty million dollars must be allocated as follows: (A) Thirty percent to the habitat conservation account; (B) thirty percent to the outdoor recreation account; (C) thirty percent to the riparian protection account; and (D) ten percent to the farmlands preservation account.

(2) Beginning July 1, 2016, moneys appropriated for this chapter must be allocated as follows: (a) Forty-five percent to the habitat conservation account; (b) forty-five percent to the outdoor recreation account; and (c) ten percent to the farm and forest account. However, for the 2017-2019 biennium, moneys appropriated for this chapter must be allocated as specified in section 3183 of this act.

(3) Moneys deposited in these accounts shall be invested as authorized for other state funds, and any earnings on them shall be credited to the respective account.

(4) All moneys deposited in the habitat conservation, outdoor recreation, and farm and forest accounts shall be allocated as provided under RCW 79A.15.040, 79A.15.050, and 79A.15.130 as grants to state or local agencies or nonprofit nature conservancies for acquisition, development, and renovation within the jurisdiction of those agencies, subject to legislative appropriation. The board may use or permit the use of any funds appropriated for this chapter as matching funds where federal, local, or other funds are made available for projects within the purposes of this chapter. Moneys appropriated to these accounts that are not obligated to a specific project may be used to fund projects from lists of alternate projects from the same account in biennia succeeding the biennium in which the moneys were originally appropriated.

(5) Projects receiving grants for development, recreational access, or fee simple acquisition of land under this chapter must be accessible for public recreation and outdoor education unless the board specifically approves limiting public access in order to protect sensitive species, water quality, or public safety.

(6) The board may make grants to an eligible project from the habitat conservation, outdoor recreation, and farm and forest accounts and any one or more of the applicable categories under such accounts described in RCW 79A.15.040, 79A.15.050, and 79A.15.130.

(7) The board may accept private donations to the habitat conservation account, the outdoor recreation account, and the farm and forest account for the purposes specified in this chapter.

(8) The board may retain a portion of the funds appropriated for this chapter for its office for the administration of the programs and purposes specified in this chapter. The portion of the funds retained for administration may not exceed: (a) The actual administration costs averaged over the previous five biennia as a percentage of the legislature's new appropriation for this chapter; or (b) the amount specified in the appropriation, if any. Each biennium the percentage specified under (a) of this subsection must be approved by the office of financial management and submitted along with the prioritized lists of projects to be funded in RCW 79A.15.060, 79A.15.070, and 79A.15.130.

(9) Habitat and recreation land and facilities acquired or developed with moneys appropriated for this chapter may not, without prior approval of the board, be converted to a use other than that for which funds were originally approved. The board shall adopt rules and procedures governing the approval of such a conversion.

Sec. 7028. RCW 79A.15.050 and 2016 c 149 s 5 are each amended to read as follows:

(1) Moneys appropriated prior to July 1, 2016, for this chapter to the outdoor recreation account shall be distributed in the following way:

(a) Not less than thirty percent to the state parks and recreation commission for the acquisition and development of state parks, with at least fifty percent of the money for acquisition costs;

(b) Not less than thirty percent for the acquisition, development, and renovation of local parks, with at least fifty percent of this money for acquisition costs;

(c) Not less than twenty percent for the acquisition, renovation, or development of trails;
(d) Not less than fifteen percent for the acquisition, renovation, or development of water access sites, with at least seventy-five percent of this money for acquisition costs; and

(2) Moneys appropriated beginning July 1, 2016, for this chapter to the outdoor recreation account shall be distributed in the following way:

(a) Not less than thirty percent to the state parks and recreation commission for the acquisition and development of state parks, with at least forty percent but no more than fifty percent of the money for acquisition costs;

(e) Not less than ten percent or three million dollars, whichever is less, for development and renovation projects on state recreation lands. Any amount above three million dollars must be distributed for the purposes of (d) of this subsection.

(3)(a) In distributing these funds, the board retains discretion to meet the most pressing needs for state and local parks, trails, and water access sites, and is not required to meet the percentages described in subsections (1) and (2) of this section in any one biennium. However, for the 2017-2019 biennium, moneys appropriated for this chapter must be allocated as specified in section 3183 of this act.

(b) If not enough project applications are submitted in a category within the outdoor recreation account to meet the percentages described in subsections (1) and (2) of this section in any biennium, the board retains discretion to distribute any remaining funds to the other categories within the account.

(4) Only the state parks and recreation commission may apply for acquisition and development funds for state parks under subsections (1)(a) and (2)(a) of this section.

(5) Only local agencies may apply for acquisition, development, or renovation funds for local parks under subsections (1)(b) and (2)(b) of this section.

Sec. 7029. RCW 79A.15.130 and 2016 c 149 s 10 are each amended to read as follows:

(1) The farm and forest account is established in the state treasury. The board will administer the account in accordance with chapter 79A.25 RCW and this chapter, and hold it separate and apart from all other money, funds, and accounts of the board. Moneys appropriated for this chapter to the farm and forest account must be distributed for the acquisition and preservation of farmlands and forestlands in order to maintain the opportunity for agricultural and forest management activity upon these lands.

(2) Moneys appropriated beginning July 1, 2016, for this chapter shall be divided as follows:

(a) Not less than ninety percent for the acquisition and preservation of farmlands.

(b) Not less than ten percent for the acquisition and preservation of forestlands.

(c) However, for the 2017-2019 biennium, moneys appropriated for this chapter must be allocated as specified in section 3183 of this act.
Moneys appropriated for this chapter to the farm and forest account may be distributed for: (a) The acquisition of a less than fee simple interest in farmlands or forestland, such as a conservation easement or lease; (b) the enhancement or restoration of ecological functions on those properties; or (c) both. In order for a farmland or forestland preservation grant to provide for an environmental enhancement or restoration project, the project must include the acquisition of a real property interest.

Cities, counties, nonprofit nature conservancies, and the conservation commission may apply for acquisition and enhancement or restoration funds for farmland or forestland preservation projects within their jurisdictions under subsection (1) of this section.

The board may adopt rules establishing acquisition and enhancement or restoration policies and priorities for distributions from the farm and forest account.

The acquisition of a property interest in a project under this section does not provide a right of access to the property by the public unless explicitly provided for in a conservation easement or other form of deed restriction.

Except as provided in RCW 79A.15.030(8), moneys appropriated for this section may not be used by the board to fund staff positions or other overhead expenses, or by cities, counties, nonprofit nature conservancies, or the conservation commission to fund operation or maintenance of areas acquired under this chapter.

Moneys appropriated for this section may be used by grant recipients for costs incidental to restoration and acquisition, including, but not limited to, surveying expenses, fencing, noxious weed control, and signing.

The board may not approve a local project where the local agency's or nonprofit nature conservancies' share is less than the amount to be awarded from the farm and forest account. In-kind contributions, including contributions of a real property interest in land, may be used to satisfy the local agency's or nonprofit nature conservancies' share.

In determining the acquisition priorities for farmland projects, the board must consider, at a minimum, the following criteria:

(a) Community support for the project;

(b) A recommendation as part of a limiting factors or critical pathways analysis, a watershed plan or habitat conservation plan, or a coordinated regionwide prioritization effort;

(c) The likelihood of the conversion of the site to nonagricultural or more highly developed usage;

(d) Consistency with a local land use plan, or a regional or statewide recreational or resource plan. The projects that assist in the implementation of local shoreline master plans updated according to RCW 90.58.080 or local comprehensive plans updated according to RCW 36.70A.130 must be highly considered in the process;

(e) Benefits to salmonids;

(f) Benefits to other fish and wildlife habitat;

(g) Integration with recovery efforts for endangered, threatened, or sensitive species;

(h) The viability of the site for continued agricultural production, including, but not limited to:

(i) Soil types;

(ii) On-site production and support facilities such as barns, irrigation systems, crop processing and storage facilities, wells, housing, livestock sheds, and other farming infrastructure;

(iii) Suitability for producing different types or varieties of crops;

(iv) Farm-to-market access;

(v) Water availability; and

(i) Other community values provided by the property when used as agricultural land, including, but not limited to:

(ii) Viewshed;

(iii) Aquifer recharge;

(iv) Occasional or periodic collector for storm water runoff;

(v) Agricultural sector job creation;

(vi) Migratory bird habitat and forage area; and

(vi) Educational and curriculum potential.
(11) In allotting funds for environmental enhancement or restoration projects, the board will require the projects to meet the following criteria:

(a) Enhancement or restoration projects must further the ecological functions of the farmlands;

(b) The projects, such as fencing, bridging watercourses, replanting native vegetation, replacing culverts, clearing of waterways, etc., must be less than fifty percent of the acquisition cost of the project including any in-kind contribution by any party;

(c) The projects should be based on accepted methods of achieving beneficial enhancement or restoration results; and

(d) The projects should enhance the viability of the preserved farmland to provide agricultural production while conforming to any legal requirements for habitat protection.

(12) In determining the acquisition priorities for forestland projects, the board must consider, at a minimum, the following criteria:

(a) Community support for the project;

(b) A recommendation as part of a limiting factors or critical pathways analysis, a watershed plan or habitat conservation plan, or a coordinated regionwide prioritization effort;

(c) The likelihood of conversion of the site to nontimber or more highly developed use;

(d) Consistency with a local land use plan, or a regional or statewide recreational or resource plan. The projects that assist in the implementation of local shoreline master plans updated according to RCW 90.58.080 or local comprehensive plans updated according to RCW 36.70A.130 must be highly considered in the process;

(e) Multiple benefits of the project;

(f) Project attributes, including but not limited to:
   (i) Clean air and water;
   (ii) Storm water management;
   (iii) Wildlife habitat; and
   (iv) Potential for carbon sequestration.

(13) In allotting funds for environmental enhancement or restoration projects, the board must require the projects to meet the following criteria:

(a) Enhancement or restoration projects must further the ecological functions of the forestlands;

(b) The projects, such as fencing, bridging watercourses, replanting native vegetation, replacing culverts, etc., must be less than fifty percent of the acquisition cost of the project including any in-kind contribution by any party;

(c) The projects should be based on accepted methods of achieving beneficial enhancement or restoration results;

(d) The projects should enhance the viability of the preserved forestland to provide timber production while conforming to any legal requirements for habitat protection.

(14) Before November 1st of each even-numbered year, the board will recommend to the governor a prioritized list of all projects to be funded under this section. The governor may remove projects from the list recommended by the board and must submit this amended list in the capital budget request to the legislature. The list must include, but not be limited to, a description of each project and any particular match requirement.

NEW SECTION. Sec. 7030. (1) Funds appropriated in this act for minor works may not be allotted until final project lists are submitted to the office of financial management. Revisions to the project lists are allowed for projects not anticipated at the time of budget development but must be submitted to the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee for review and comment and must include an explanation of variances from the prior lists before funds may be expended on the revisions. Any project list revisions must be approved by the office of financial management before funds may be expended from the minor works appropriation.

(2)(a) Minor works project lists are single line appropriations that include multiple projects of a similar nature and that are valued between $25,000 and $1,000,000 each, with the exception of higher education minor works projects that may be valued up to $2,000,000. All projects must meet the criteria included in this subsection (2)(a). These projects should be completed within two years of
the appropriation with the funding provided. Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed $1,000,000, or $2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the minor works categories.

(b) Minor works appropriations may not be used for the following: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; movable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; rolling stock; computers; or to supplement funding for projects with funding shortfalls unless expressly authorized. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(c) Minor works preservation projects may include program improvements of no more than twenty-five percent of the individual minor works preservation project cost.

(d) This section does not apply to sections 3134 through 3136 of this act.

POINT OF ORDER

Representative Tarleton requested a scope and object ruling on amendment (534) to House Bill No. 2201.

SPEAKER''S RULING

Mr. Speaker (Representative Orwall presiding): The title of House Bill 2201 is lengthy but includes language limiting the scope of the bill to creation of "a market value adjustment program to provide a credit" for certain taxes authorized by the voters in 2016 "in a manner that limits the delay of the voter approved 2016 plan".

In addition to a credit, the amendment both changes the administration of the valuation schedule used to determine those taxes, and would have the effect of delaying the voter approved projects.

The Speaker therefore finds and rules that the amendment is beyond the scope of the bill as defined by its title.

The point of order is well taken.

Representative Harmsworth moved the adoption of amendment (542):

Strike everything after the enacting clause and insert the following:
"NEW SECTION. Sec. 1. A new section is added to chapter 82.44 RCW to read as follows:

If the department enters into a contract with a regional transit authority for the collection of a motor vehicle excise tax authorized in RCW 81.104.160(1), and after the regional transit authority implements a market value adjustment program as directed in section 2 of this act, the department must clearly indicate, when notifying taxpayers of the expected tax due and when collecting the tax: The amount of tax owed under current law, the amount of any credit applied, and the net result.

NEW SECTION. Sec. 2. A new section is added to chapter 81.112 RCW to read as follows:

(1) A regional transit authority that includes portions of a county with a population of more than one million five hundred thousand and that imposes a motor vehicle excise tax under RCW 81.104.160(1) must establish a market value adjustment program to be implemented by December 31, 2017.

(2) Under the market value adjustment program, the authority must provide a credit against the motor vehicle excise tax due in an amount equal to two times the difference between the tax due calculated using the vehicle valuation schedule in chapter 82.44 RCW as it existed on January 1, 1996, and the tax otherwise due calculated using the vehicle valuation schedule in RCW 82.44.035, if the resulting difference is positive. The net result of the amount of tax owed under current law and the amount of any credit applied must not exceed five-tenths of one percent of the value of the vehicle. The credit applies only to the motor vehicle excise tax authorized in RCW 81.104.160(1).

(3) The program may be funded by any resources available to the authority including, but not limited to:

(a) Unrestricted tax proceeds or other revenues; and

(b) Savings from the delivery of projects.

(4) The program must be retroactive to the date that the authority first imposed the tax under RCW 81.104.160(1).

(5)(a) The program must be implemented in a manner that allows the delivery of the system and financing plan approved by the authority's voters in 2016 to the extent practicable. Building on past and ongoing cost-savings efforts, the agency must continue to evaluate measures that may be needed to reduce costs. These measures include, but are not limited to:

(i) Designing projects using the principles of practical design, as described for use by the department of transportation under RCW 47.01.480;

(ii) Efficiencies realized in coordinating and integrating activities with other transit agencies and local governments, including through shared maintenance and operations, joint procurement, joint marketing, joint customer services, and joint capital projects; and

(iii) Revising project contingency budgets, if practicable.

(b) If, when implementing the program, the authority is not able to deliver projects according to the system and financing plan approved by the authority's voters in 2016, the authority must identify savings and cost reductions in the following priority order: First, from light rail projects; second, from transit bus-related projects; third, from commuter rail projects; and fourth, from parking facility projects.

(6) Until the plan has been completed, the authority must submit an annual report to the transportation committees of the legislature by December 31st of each year on the status of the delivery of the plan. The report must include detail on the extent to and manner in which the authority has used cost savings to maintain the delivery of the plan as approved by the voters.

Sec. 3. RCW 82.44.035 and 2010 c 161 s 910 are each amended to read as follows:

(1) For the purpose of determining any locally imposed motor vehicle excise tax, the value of a truck or trailer ((shall be)) is the latest purchase price of the vehicle, excluding applicable federal excise taxes, state and local sales or use taxes, transportation or shipping costs, or preparatory or delivery costs, multiplied by the following percentage based on year of service of the vehicle since last sale. (11) Within existing resources, during the regular sessions of the legislature, the department of transportation shall participate in work sessions, before the transportation committees of the house of representatives and senate, on the Alaskan Way viaduct replacement project. These work sessions must include a report on current progress of the project, timelines for completion, outstanding claims, the financial status of the project, and any other information necessary for the legislature to maintain appropriate oversight of the project. (13) $28,101,000 of the transportation partnership account—state appropriation and $10,956,000 of the transportation 2003 account (nickel account)—state appropriation are provided solely for the I-405/Kirkland Vicinity Stage 2 - Widening project (8BI1002). This project must be completed as soon as practicable as a design-build project. Any future savings on this project or other Interstate 405 corridor projects must stay on the Interstate 405 corridor and be made available to either the I-405/SR 167 Interchange - Direct Connector project (140504C) or the I-405 Renton to Bellevue project in the 2017-2019 fiscal biennium. The transportation partnership account—state appropriation in this subsection includes funding to begin preliminary engineering for adding capacity on Interstate 405 between state route number 522 and Interstate 5.

(14)(a) The SR 520 Bridge Replacement and HOV project (8BI1003) is supported over time from multiple sources, including a $300,000,000 TIFIA loan, $924,615,000 in Garvee bonds, toll revenues, state bonds, interest earnings, and other miscellaneous sources.

(b) $44,311,000 of the transportation partnership account—state appropriation is provided solely for the SR 520 Bridge Replacement and HOV project (8BI1003).

(c) When developing the financial plan for the project, the department shall assume that all maintenance and operation costs for the new facility are to be covered by tolls collected on the toll facility and not by the motor vehicle account.

(15) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's 2018 budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(16) $49,014,000 of the motor vehicle account—federal appropriation and $6,800,000 of the motor vehicle account—state appropriation are provided solely
for fish passage barrier and chronic deficiency improvements (ORI4001).

(17) Any advisory group that the department convenes during the 2017-2019 fiscal biennium must consider the interests of the entire state of Washington.

(18) It is the intent of the legislature that for the I-5 JBLM Corridor Improvements project (M00100R), the department shall actively pursue $50,000,000 in federal funds to pay for this project to supplant state funds in the future. $50,000,000 in connecting Washington account funding must be held in unallotted status during the 2021-2023 fiscal biennium. These funds may only be used after the department has provided notice to the office of financial management that it has exhausted all efforts to secure federal funds from the federal highway administration and the department of defense.

(19) $93,500,000 of the connecting Washington account—state appropriation is provided solely for the SR 167/SR 509 Puget Sound Gateway project (M00600R). Any savings on the project must stay on the Puget Sound gateway corridor.

(20)(a) In making budget allocations to the Puget Sound gateway project, the department shall implement the project's construction as a single corridor investment. The department shall develop a coordinated corridor construction and implementation plan for state route number 167 and state route number 509 in collaboration with affected stakeholders. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

(b) The secretary of transportation must develop a memorandum of understanding with local project stakeholders that identifies a schedule for stakeholders to provide local matching funds for the Puget Sound gateway project. Criteria for eligibility of local match includes matching funds and equivalent in-kind contributions including, but not limited to, land donations. The memorandum of understanding must be finalized by January 1, 2018. The department must submit a copy of the memorandum of understanding to the transportation committees of the legislature and report regularly on the status of local match funding.

(21) It is the intent of the legislature that, for the I-5/North Lewis County Interchange project (L2000204), the department develop and design the project with the objective of significantly improving access to the industrially zoned properties in north Lewis county. The design must consider the county's process of investigating alternatives to improve such access from Interstate 5 that began in March 2015.

(22) $600,000 of the motor vehicle account—state appropriation is provided solely for the department to complete an interchange justification report (IJR) for the U.S. 2 trestle (L1000158), covering the state route number 204 and 20th Street interchanges at the end of the westbound structure.

(a) The department shall develop the IJR in close collaboration with affected local jurisdictions, including Snohomish county and the cities of Everett, Lake Stevens, Marysville, Snohomish, and Monroe.

(b) Within the amount provided for the IJR, the department must address public outreach and the overall operational approval of the IJR.

(c) The department shall complete the IJR and submit the final report to the governor and the transportation committees of the legislature by July 1, 2018.

(23)(a) The legislature recognizes that the city of Mercer Island has unique access issues that require the use of Interstate 90 to leave the island and that this access may be affected by the I-90/Two-Way Transit and HOV Improvements project. One of the most heavily traveled on-ramps from Mercer Island to the westbound Interstate 90 general purpose lanes is from Island Crest Way. The department must continue to consult with the city of Mercer Island and the other signatories to the 1976 memorandum of agreement to preserve access provided to Mercer Island by the Island Crest Way on-ramp, and thus grandfather-in the current use of the on-ramp for both high occupancy vehicles as well as vehicles seeking to access the general purpose lanes of Interstate 90. The department must consider all reasonable access solutions, including allowing all vehicles to use the Island Crest Way on-ramp to access the new high occupancy vehicle lane with a reasonable and safe distance provided for
single-occupancy vehicles to merge into the general purpose lanes. A final access solution must consider all safety, operational, and enforcement requirements, not benefit one group of commuters at the expense of another group, and meet applicable requirements of state and federal law.

(b) The department may not close or restrict, in any way, the westbound on-ramp from Island Crest Way to the current westbound Interstate 90 general purpose lanes until a mutually acceptable final access solution has been reached.

(24) $2,000,000 of the Interstate 405 express toll lanes operations account—state appropriation is provided solely for the I-405 NB Hard Shoulder Running – SR 527 to I-5 project (L1000163).

(25) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Before the department's switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2019, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

IMPLEMENTING PROVISIONS

NEW SECTION. Sec. 601. FUND TRANSFERS

(1) The 2005 transportation partnership projects or improvements and 2015 connecting Washington projects or improvements are listed in the LEAP Transportation Document 2017-1 as developed March 25, 2017, which consists of a list of specific projects by fund source and amount over a sixteen-year period. Current fiscal biennium funding for each project is a line-item appropriation, while the outer year funding allocations represent a sixteen-year plan. The department of transportation is expected to use the flexibility provided in this section to assist in the delivery and completion of all transportation partnership account and connecting Washington account projects on the LEAP transportation documents referenced in this act. For the 2017-2019 project appropriations, unless otherwise provided in this act, the director of the office of financial management may authorize a transfer of appropriation authority funds between projects funded with transportation partnership account appropriations or connecting Washington account appropriations to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

(a) Transfers may only be made within each specific fund source referenced on the respective project list;

(b) Transfers from a project may not be made as a result of the reduction of the scope of a project or be made to support increases in the scope of a project;

(c) Transfers from a project may be made if the funds appropriated to the project are in excess of the amount needed in the current fiscal biennium;

(d) Transfers may not occur for projects not identified on the applicable project list;

(e) Transfers may not be made while the legislature is in session;

(f) Transfers to a project may not be made with funds designated as attributable to practical design savings as described in RCW 47.01.480;

(g) Each transfer between projects may only occur if the director of the office of financial management finds that any resulting change will not hinder the completion of the projects as approved by the legislature. Until the legislature reconvenes to consider the 2018 supplemental omnibus transportation appropriations act, any unexpended 2015-2017 appropriation balance as approved by the office of financial management, in consultation with the legislative staff of the house of representatives and senate transportation committees, may be considered when transferring funds between projects; and

(i) Transfers between projects may be made by the department of transportation without the formal written approval provided under this subsection (1), provided that the transfer amount does not exceed two hundred fifty thousand dollars or ten percent of the total project, whichever is less. These transfers must be reported quarterly to the director of the office of financial management and the chairs of the house of representatives and senate transportation committees.

(2) The department of transportation must submit quarterly all transfers authorized under this section in the transportation executive information system. The office of financial management must maintain a legislative baseline project list identified in the LEAP transportation documents referenced in this act, and update that project list with all authorized transfers under this section.

(3) At the time the department submits a request to transfer funds under this section, a copy of the request must be submitted to the transportation committees of the legislature.
(4) Before approval, the office of financial management shall work with legislative staff of the house of representatives and senate transportation committees to review the requested transfers in a timely manner.

(5) No fewer than ten days after the receipt of a project transfer request, the director of the office of financial management must provide written notification to the department of any decision regarding project transfers, with copies submitted to the transportation committees of the legislature.

(6) The department must submit annually as part of its budget submittal a report detailing all transfers made pursuant to this section.

(b) Identifies, for each project, the amount of cost savings or increases in funding that have been identified as compared to the 2015 enacted omnibus transportation appropriations act.

(2) As part of the agency request for capital programs, the department shall load reappropriations separately from funds that were assumed to be required for the 2017-2019 fiscal biennium into budgeting systems.

Sec. 606. 1 (1) By November 15, 2017, and annually thereafter, the department of transportation must report on amounts expended to benefit transit, bicycle, or pedestrian elements within all connecting Washington projects in programs I, P, and Z identified in LEAP Transportation Document 2017-2 ALL PROJECTS as developed March 25, 2017. The report must address each modal category separately and identify if eighteenth amendment protected funds have been used and, if not, the source of funding.

(2) To facilitate the report in subsection (1) of this section, the department of transportation must require that all bids on connecting Washington projects include an estimate on the cost to implement any transit, bicycle, or pedestrian project elements.

NEW SECTION. Sec. 607. PROJECT SCOPE CHANGES

(1) The legislature finds that in the course of efficiently delivering connecting Washington projects, it is necessary to create a process for the department of transportation to request and receive approval of practical design-
related project scope changes while the legislature is not in session. During the 2017-2019 fiscal biennium, the director of the office of financial management may approve project scope change requests to connecting Washington projects in the highway improvements program, provided that the requests meet the criteria outlined in RCW 47.01.480 and are subject to the limitations in this section.

(3) Before approval, the office of financial management shall work with legislative staff of the house of representatives and senate transportation committees to review the requested project scope changes.

(4) No fewer than ten days after the receipt of a scope change request, the director of the office of financial management must provide written notification to the department of any decision regarding project scope changes, with copies submitted to the transportation committees of the legislature.

NEW SECTION. Sec. 701. INFORMATION TECHNOLOGY PROJECTS

(1) All appropriations for designated information technology projects in this act must be placed in unallotted status and must not be expended before the office of the chief information officer certifies that the project complies with state information technology and security policy and strategies. The office of the chief information officer must evaluate the project at the appropriate stages. The office of the chief information officer must notify the office of financial management and the legislative fiscal committees each time it certifies a project is ready to proceed with the next stage. Appropriations may then be allotted for that certified phase only.

(2) The chief information officer may suspend or terminate a project at any time if the chief information officer determines that the project is not meeting or not expected to meet anticipated performance and technology outcomes. Once suspension or termination occurs, the agency shall not make additional expenditures on the project without approval of the chief information officer.

The following projects are subject to the conditions, limitations, and review provided in this section: Department of Transportation - Labor System Replacement, Department of Transportation - Ferry Network System Support, Department of Transportation - Land Mobile Radio System Replacement, and Department of Transportation - New CSC System and Operator.

Expenditures made by an agency for one of the indicated purposes before the issue date of the authorized financial contract and any certificates of participation therein are intended to be reimbursed from proceeds of the financial contract and any certificates of participation therein. The department of transportation may enter into a financing contract up to $14,600,000 plus financing expenses and required reserves using certificates of participation under chapter 39.94 RCW for energy efficiency upgrades at department-owned buildings.

The legislature deems the department of ecology the responsible agency for the administration and expenditure of funds provided by the trustee under the terms of the consent decrees, including the development of a mitigation plan to guide the use of the funds, whether or not the department receives funds directly for projects included in the plan.

(2) The mitigation plan and the stewardship of project implementation must adhere to the following guidelines:

(a) Consideration must be given to investments in areas where public health is most impacted by nitrogen oxides pollution, and especially in areas where disadvantaged communities reside;

(b) Investments must fund, to the extent possible: (i) Projects that have not been funded or implemented by June 30, 2017, to mitigate nitrogen oxides pollution; and (ii) projects that do not replace projects and activities that were funded on or before June 30, 2017, for implementation after that date, to address such pollution by achieving an identical or substantially similar objective;

(c) Investments in clean vehicles or clean engine replacements must be shown to be cost-effective and, for the purposes of leveraging funding, may not exceed the incremental cost of the clean vehicle or clean engine replacement, relative to the cost of a similar conventionally fueled vehicle or conventionally fueled engine replacement;

(d) Consideration must be given to investments in projects that employ a range of fueling technologies and emissions reduction technologies; and

(e) Priority must be given to projects that have the highest benefit-cost ratios, in terms of the amount of nitrogen oxides emissions reduced per dollar invested.

(3) Funding must be allocated to eligible projects under the terms of the consent decrees in the following manner:

(a)(i) No more than thirty percent of funding provided for commercial vehicle class four through eight transit buses;

(ii) No more than twenty percent of funding provided for commercial vehicle class four through eight school and shuttle buses;

(iii) No more than twenty percent of funding provided for (A) commercial vehicle class eight local freight trucks and port drayage trucks and (B) commercial vehicle class four through seven local freight trucks;

(iv) No more than fifteen percent of funding provided for light duty, zero emission vehicle supply equipment;

(v) No more than thirty percent of funding provided for nonfederal matching funds for projects eligible under the diesel emission reduction act option; and

(vi) No more than ten percent of funding provided for other mitigation actions that are eligible under the consent decrees but not otherwise specified under this subsection (3)(a).

(b) Projects that receive funding under subsection (3)(a)(iii) of this section and ocean-going vessels shorepower projects that receive funding under subsection (3)(a)(vi) of this section must include electric technologies, if practicable.

(4)(a)(i) For the purposes of administering subsection (3)(a)(i), (iii), (iv), and, as needed, (vi) of this section, the department of ecology shall enter into an interagency agreement with the department of transportation. The department of transportation is responsible for proposing candidate projects under these subsections, for working with the department of ecology to determine its benefit-cost ratios under
subsection (2)(e) of this section, and for prioritizing these candidate projects accordingly. The department of ecology shall work collaboratively with the department of transportation to develop and implement the elements of the mitigation plan that address these categories of projects.

(ii) In meeting its requirements under (a)(i) of this subsection, the department of transportation shall consider plans approved under the consent decrees governing zero emission vehicle infrastructure development identified in subsection (1) of this section, making reasonable efforts to select candidate projects that are complementary to those plans. The department of transportation shall also consider and utilize, where appropriate and to the extent possible, the following existing programs for alternative fuels and zero emission vehicles:

(A) The department of transportation's electric vehicle infrastructure bank program;

(B) The state alternative fuel commercial vehicle tax credit;

(C) The state sales and use tax exemption for clean vehicles; and

(D) Public transportation grant programs administered by the department of transportation.

(iii) To guide the department of transportation in meeting its responsibilities under (a)(i) of this subsection during the 2017-2019 fiscal biennium, a steering committee is established, consisting of: The chairs and ranking minority members of the house of representatives and senate transportation committees, or their designees; the director of the department of ecology; and the secretary of transportation or his or her designee. The steering committee must meet as needed to support the department of transportation's contribution to the elements of the mitigation plan that address the categories of projects referenced in subsection (3)(a)(i), (iii), (iv), and (vi) of this section. Staff support must be provided by the joint transportation committee and nonpartisan committee staff of the house of representatives and senate transportation committees. The department of transportation staff must provide technical support, as needed.

(b) For the purposes of administering subsection (3)(a)(ii) of this section, including the development of the mitigation plan, the department of ecology shall enter into an interagency agreement with the office of the superintendent of public instruction. The superintendent, in consultation with the director of the department of ecology, is authorized to establish a grant program for the purposes of providing funding to school districts for school bus-related projects. Pursuant to the guidelines in subsection (2)(c) of this section, funding may be provided for only the incremental costs of projects above the costs of standard school bus or school bus engine replacement under current school bus depreciation funding requirements. Any grant funding provided under this subsection is temporary in nature and is for enhancements outside the basic education program.

(c) The department of ecology shall complete development of the mitigation plan according to the timeline required by the trustee. The department of ecology must submit the mitigation plan to the appropriate committees of the legislature, as well as benefit-cost information for projects pursuant to the guideline under subsection (2)(e) of this section, on the same day that the plan is submitted to the trustee.

(5) To the extent this section conflicts with the consent decrees, the consent decrees supersede it.

(6) The department of ecology may modify the mitigation plan as needed to comply with trustee requirements, including to the extent these modifications conflict with this section. In making any adjustments, the department of ecology shall consult with the department of transportation and the office of the superintendent of public instruction and provide notice to the steering committee of any significant changes to the plan submitted.

(7) For the purposes of this section:

(a) "Project" means an eligible mitigation action under the terms of the consent decrees entered into by the United States, Volkswagen AG, and other participating parties that settle emissions-related claims for 2.0 and 3.0 liter diesel vehicles of certain models and years.

(b) "Trustee" means the entity selected under the terms of the consent decrees to administer the disbursement of funds to
eligible projects for the purposes of mitigating nitrogen oxides emission pollution.
