**NEW SECTION. Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES**

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) The health care authority, the health benefit exchange, the department of social and health services, the department of health, and the department of children, youth, and families shall work together within existing resources to establish the health and human services enterprise coalition (the coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction and federal funding guidance for projects that have cross-organizational or enterprise impact, including information technology projects that affect organizations within the coalition. By October 31, 2019, the

coalition must submit a report to the governor and the legislature that describes the coalition's plan for projects affecting the coalition organizations. The report must include any information technology projects impacting coalition organizations and, in collaboration with the office of the chief information officer, provide: (a) The status of any information technology projects currently being developed or implemented that affect the coalition; (b) funding needs of these current and future information technology projects; and (c) next steps for the coalition's information technology projects. The office of the chief information officer shall maintain a statewide perspective when collaborating with the coalition to ensure that the development of projects identified in this report are planned for in a manner that ensures the efficient use of state resources and maximizes federal financial participation. The work of the coalition is subject to the conditions, limitations, and review provided in section 719 of this act.

(1) The authority shall not accept or expend any federal funds received under a medicaid transformation waiver under healthier Washington except as described in subsections (2) and (3) of this section until specifically approved and appropriated by the legislature. To ensure compliance with legislative directive budget requirements and terms and conditions of the waiver, the authority shall implement the waiver and reporting requirements with

oversight from the office of financial management. The legislature finds that appropriate management of the innovation waiver requires better analytic capability, transparency, consistency, timeliness, accuracy, and lack of redundancy with other established measures and that the patient must be considered first and foremost in the implementation and execution of the demonstration waiver. In order to effectuate these goals, the authority shall: (a) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of other nationally established measures. The joint select committee on health care oversight will evaluate the measures chosen by the collaborative and the health technology assessment program for effectiveness and appropriateness; (b) develop a patient satisfaction survey with the goal to gather information about whether it was beneficial for the patient to use the center of excellence location in exchange for additional out-of-pocket savings; (c) ensure patients and health care providers have significant input into the implementation of the demonstration waiver, in order to ensure improved patient health outcomes; and (d) in cooperation with the department of social and health services, consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget, to the joint select committee on health care oversight prior to submitting waivers for federal approval. By federal standard, the medicaid transformation demonstration waiver shall not exceed the duration originally granted by the centers for medicare and medicaid services and any programs created or funded by this waiver do not create an entitlement. Beginning May 15, 2019, and continuing through December 15, 2019, by the 15th of each month, the director in consultation with the secretary shall report to the fiscal chair of the appropriate committees of the legislature in the manner and form requested the status of the medicaid transformation waiver, including any anticipated or proposed changes to accruals or expenditures.

(2) No more than \$305,659,000 of the general fund—federal appropriation and no more than \$157,284,000 of the general fund—local appropriation may be expended for transformation through accountable communities of health described in initiative 1 of the medicaid transformation demonstration wavier under healthier Washington, including preventing youth drug use, opioid prevention and treatment, and physical and behavioral health integration. Under this initiative, the authority shall take into account local input regarding community needs. In order to ensure transparency to the appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be authorized to access. The authority shall not increase general fund—state expenditures under this initiative. The director shall also report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees. By December 15, 2019, the authority in collaboration with each accountable community of health shall demonstrate how it will be self-sustaining by

the end of the demonstration waiver period, including sources of outside funding, and provide this reporting to the joint select committee on health care oversight. If by the third year of the demonstration waiver there are not measurable, improved patient outcomes and financial returns, the Washington state institute for public policy will conduct an audit of the accountable communities of health, in addition to the process set in place through the independent evaluation required by the agreement with centers for medicare and medicaid services.

(3) No more than \$79,829,000 of the general fund—federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its third party administrator. The authority and the department in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not increase general fund—state expenditures under this initiative. The director shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(4) Annually, no later than November 1st, the authority shall report to the governor and appropriate committees of the legislature: (a) Savings attributed to behavioral and physical integration in areas that are scheduled to integrate in the following calendar year, and (b) savings attributed to behavioral and physical health integration and the level of savings achieved in areas that have integrated behavioral and physical health.

(5) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(6) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(7) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination

of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(8) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(9) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(10) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(11) \$4,261,000 of the general fund—state appropriation for fiscal year 2020, \$4,261,000 of the general fund—state appropriation for fiscal year 2021, and \$8,522,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

(12) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(13) \$6,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

The health care authority shall submit reports to the governor and legislature by November 1, 2020, and by November 1, 2021, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2020 and fiscal year 2021, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2019-2021 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$537,000 of the general fund—state appropriation for fiscal year 2020 and \$522,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for state grants for the participating hospitals.

The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(17) The authority shall submit reports to the governor and the legislature by September 15, 2020, and no later than September 15, 2021, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

Appropriation	.....\$1,714,000
	TOTAL                    APPROPRIATION
	.....\$3,236,834,000

The appropriations in this section are subject to the following conditions and limitations:

(1) For the purposes of this section, "behavioral health entities" means managed care organizations and administrative services organizations in regions where the authority is purchasing medical and behavioral health services through fully integrated contracts pursuant to RCW 71.24.380, and behavioral health organizations in regions that have not yet transitioned to fully integrated managed care.

(2) Within the amounts appropriated in this section, funding is provided for implementation of the settlement agreement under *Trueblood, et al. v. Department of Social and Health Services, et al.*, United States District Court for the Western District of Washington, Cause No. 14-cv-01178-MJP. In addition to amounts provided solely for implementation of the settlement agreement, class members must have access to supports and services funded throughout this section for which they meet eligibility and medical necessity requirements. The authority must include language in contracts that requires regional behavioral health entities to develop and implement plans for improving access to timely and appropriate treatment for individuals with behavioral health needs and current or prior criminal justice involvement who are eligible for services under these contracts.

(3) \$15,605,000 of the general fund—state appropriation for fiscal year 2020, \$15,754,000 of the general fund—state appropriation for fiscal year 2021, and \$4,789,000 of the general fund—federal appropriation are provided solely for the phase-in of the settlement agreement under *Trueblood, et al. v. Department of Social and Health Services, et al.*, United States District Court for the Western District of Washington, Cause No. 14-cv-01178-MJP. The department, in collaboration with the health care authority and the criminal justice training commission, must implement the provisions of the settlement agreement pursuant to the timeline and implementation plan provided for under the settlement agreement. This includes

implementing provisions related to competency evaluations, competency restoration, crisis diversion and supports, education and training, and workforce development.

(4) \$8,777,000 of the general fund—state appropriation for fiscal year 2020, \$10,424,000 of the general fund—state appropriation for fiscal year 2021, and \$20,197,000 of the general fund—federal appropriation are provided solely for the authority and behavioral health entities to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health entities with PACT teams, the authority shall consider the differences between behavioral health entities in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The authority may allow behavioral health entities which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under subsection (7) of this section. The authority and behavioral health entities shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(5) From the general fund—state appropriations in this section, the authority shall assure that behavioral health entities reimburse the department of social and health services aging and long term support administration for the general fund—state cost of medicaid personal care services that enrolled behavioral health entity consumers use because of their psychiatric disability.

(6) \$3,520,000 of the general fund—federal appropriation is provided solely for the authority to maintain a pilot project to incorporate peer bridging staff into behavioral health regional teams that provide transitional services to individuals returning to their communities.

(7) \$81,930,000 of the general fund—state appropriation for fiscal year 2020 and \$81,930,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health entity spending must be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health entities proportionate to the fiscal year 2019 allocation of flexible nonmedicaid funds. The authority must include the following language in medicaid contracts with behavioral health entities unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(8) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health entities for children's long-term inpatient facility services.

(9) \$1,204,000 of the general fund—state appropriation for fiscal year 2020 and \$1,204,000 of the general fund—state appropriation for fiscal year 2021 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting one hundred eighty-day commitment hearings at the state psychiatric hospitals.

(10) Behavioral health entities may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health entities may use a portion of the state funds allocated in accordance with subsection (7) of this section to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(11) \$2,291,000 of the general fund—state appropriation for fiscal year 2020 and \$2,291,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The authority must collect information from the behavioral health entities on their plan for using these funds, the numbers of individuals served, and the types of services provided and submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1st of each year of the biennium.

(12) Within the amounts appropriated in this section, funding is provided for the authority to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(13) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization and administrative services organization contracts and include contract language that clearly states the requirements and limitations. The authority must monitor and ensure that behavioral health organization and administrative services organization reserves do not exceed maximum levels. The authority must monitor revenue and expenditure reports and must require a behavioral health organization or administrative services organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health organization or administrative services organization has failed to provide an adequate excess reserve corrective

action plan or is not complying with an approved plan, the authority must reduce payments to the entity in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the entity has come into substantial compliance with an approved excess reserve corrective action plan.

(14) During the 2019-2021 fiscal biennium, any amounts provided in this section that are used for case management services for pregnant and parenting women must be contracted directly between the authority and providers rather than through contracts with behavioral health organizations.

(15) Within the amounts appropriated in this section, the authority may contract with the University of Washington and community-based providers for the provision of the parent-child assistance program or other specialized chemical dependency case management providers for pregnant, post-partum, and parenting women. For all contractors: (a) Service and other outcome data must be provided to the authority by request; and (b) indirect charges for administering the program must not exceed ten percent of the total contract amount.

(16) \$3,500,000 of the general fund—federal appropriation (from the substance abuse prevention and treatment federal block grant) is provided solely for the continued funding of existing county drug and alcohol use prevention programs.

(17) Within the amounts provided in this section, behavioral health entities must provide outpatient chemical dependency treatment for offenders enrolled in the medicaid program who are supervised by the department of corrections pursuant to a term of community supervision. Contracts with behavioral health entities must require that behavioral health entities include in their provider network specialized expertise in the provision of manualized, evidence-based chemical dependency treatment services for offenders. The department of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. The authority must provide all necessary data, access, and reports to the department of corrections for all department of corrections offenders that receive medicaid paid services.

(18) The criminal justice treatment account—state appropriation is provided solely for treatment and treatment support services for offenders with a substance use disorder pursuant to RCW 71.24.580. The authority must offer counties the option to administer their share of the distributions provided for under RCW 71.24.580(5)(a). If a county is not interested in administering the funds, the authority shall contract with behavioral health entities to administer these funds consistent with the plans approved by local panels pursuant to RCW 71.24.580(5)(b). The authority must provide a report to the office of financial

management and the appropriate committees of the legislature which identifies the distribution of criminal justice treatment account funds by September 30, 2019.

(19) No more than \$27,844,000 of the general fund—federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the authority or its providers or third party administrator. The department and the authority in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not increase general fund—state expenditures under this initiative. The secretary in collaboration with the director of the authority shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The secretary in cooperation with the director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(20) \$6,858,000 of the general fund—state appropriation for fiscal year 2020, \$6,858,000 of the general fund—state appropriation for fiscal year 2021, and \$8,046,000 of the general fund—federal appropriation are provided solely to maintain new crisis triage or stabilization centers. Services in these facilities may include crisis stabilization and intervention, individual counseling, peer support, medication management, education, and referral assistance. The authority shall monitor each center's effectiveness at lowering the rate of state psychiatric hospital admissions.

(21) \$1,125,000 of the general fund—federal appropriation is provided solely for the authority to develop a memorandum of understanding with the department of health for implementation of chapter 297, Laws of 2017 (opioid treatment programs). The authority must use these amounts to reimburse the department of health for costs incurred through the implementation of the bill.

(22) \$6,655,000 of the general fund—state appropriation for fiscal year 2020, \$10,015,000 of the general fund—state appropriation for fiscal year 2021, and \$12,965,000 of the general fund—federal appropriation are provided solely for the operation of secure withdrawal management and stabilization facilities. The authority may not use any of these amounts for services in facilities that are subject to federal funding restrictions that apply to institutions for mental diseases, unless they have received a waiver that allows for full federal participation in these facilities. Within these amounts, funding is provided to increase the fee for service rate for these facilities up to \$650 per day. The authority must require in contracts with behavioral health entities that, beginning in calendar year 2020, they pay no lower than the fee for service rate. The authority must coordinate with regional behavioral health entities to identify and implement purchasing strategies or

regulatory changes that increase access to services for individuals with complex behavioral health needs at secure withdrawal management and stabilization facilities.

(23) \$23,090,000 of the general fund—state appropriation for fiscal year 2020, \$23,090,000 of the general fund—state appropriation for fiscal year 2021, and \$92,444,000 of the general fund—federal appropriation are provided solely to maintain the enhancement of community-based behavioral health services that was funded in fiscal year 2019. Twenty percent of the general fund—state appropriation amounts for each regional service area must be used to increase their nonmedicaid funding and the remainder must be used to increase medicaid rates above FY 2018 levels. Effective January 2020, the medicaid funding is intended to increase rates for behavioral health services provided by licensed and certified community behavioral health agencies as defined by the department of health. This funding must be allocated to the managed care organizations proportionate to their medicaid enrollees. The authority must require the managed care organizations to provide a report on their implementation of this funding. The authority must submit a report to the legislature by December 1, 2020, summarizing how this funding was used and provide information for future options of increasing behavioral health provider rates through directed payments. The report must identify different mechanisms for implementing directed payment for behavioral health providers including but not limited to minimum fee schedules, across the board percentage increases, and value-based payments. The report must provide a description of each of the mechanisms considered, the timeline that would be required for implementing the mechanism, and whether and how the mechanism is expected to have a differential impact on different providers. The report must also summarize the information provided by managed care organizations in implementing the funding provided under this section.

(24) \$27,917,000 of the general fund—state appropriation for fiscal year 2020, \$36,095,000 of the general fund—state appropriation for fiscal year 2021, and \$60,644,000 of the general fund—federal appropriation are provided solely for the department to contract with community hospitals or freestanding evaluation and treatment centers to provide long-term inpatient care beds as defined in RCW 71.24.025. Within these amounts, the authority must meet the requirements for reimbursing counties for the judicial services for patients being served in these settings in accordance with RCW 71.05.730. The authority must coordinate with the department of social and health services in developing the contract requirements, selecting contractors, and establishing processes for identifying patients that will be admitted to these facilities. Sufficient amounts are provided in fiscal year 2020 for the authority to reimburse community hospitals serving medicaid clients in long-term inpatient care beds as defined in RCW 71.24.025 at a rate of \$1,171 per day, or the hospital's current psychiatric inpatient per diem rate, whichever is higher. The rate paid to hospitals in this subsection cannot exceed one-hundred percent of the hospitals eligible costs based on their most recently completed medicare cost report. The authority in collaboration with the Washington state hospital association

must convene a work group to develop a methodology for reimbursing community hospitals serving these clients. In developing this methodology, the authority must account for cost structure differences between teaching hospitals and other hospital types. The authority must provide a report to the appropriate committees of the legislature by December 1, 2019. The report must:

(a) Describe the methodology developed by the work group;

(b) Identify cost differences between teaching hospitals and other hospital types;

(c) Provide options for incentivizing community hospitals to offer long-term inpatient care beds day beds including a rate recommendation;

(d) Identify the cost associated with any recommended changes in rates or rate setting methodology; and

(e) Outline an implementation plan.

(25) \$1,455,000 of the general fund—state appropriation for fiscal year 2020, \$1,401,000 of the general fund—state appropriation for fiscal year 2021, and \$3,210,000 of the general fund—federal appropriation are provided solely for the implementation of intensive behavioral health treatment facilities within the community behavioral health service system pursuant to Second Substitute House Bill No. 1394 (behavioral health facilities).

(11) The office of the state chief information officer may suspend or terminate a project at any time if it determines that the project is not meeting or not expected to meet anticipated performance and technology outcomes. Once suspension or termination occurs, the agency shall unallot any unused funding and shall not make any expenditure for the project without the approval of the office of financial management.

(4)(a) For the fiscal year beginning July 1, 2005, and each subsequent fiscal year, the state treasurer shall transfer eight million two hundred fifty thousand dollars from the general fund to the criminal justice treatment account, divided into four equal quarterly payments. For the fiscal year beginning July 1, 2006, and each subsequent fiscal year, the amount transferred shall be increased on an annual basis by the implicit price deflator as published by the federal bureau of labor statistics.

(b) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in (a) of this subsection to the department for the purposes of subsection (5) of this section.

(5) Moneys appropriated to the authority from the criminal justice treatment account shall be distributed as

specified in this subsection. The authority may retain up to three percent of the amount appropriated under subsection (4)(b) of this section for its administrative costs.

(a) Seventy percent of amounts appropriated to the authority from the account shall be distributed to counties pursuant to the distribution formula adopted under this section. The authority, in consultation with the department of corrections, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges' association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance use disorder treatment providers, and any other person deemed by the authority to be necessary, shall establish a fair and reasonable methodology for distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the authority from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. The authority shall appoint a panel of representatives from the Washington association of prosecuting attorneys, the Washington association of sheriffs and police chiefs, the superior court judges' association, the Washington state association of counties, the Washington defender's association or the Washington association of criminal defense lawyers, the department of corrections, the Washington state association of drug court professionals, and substance use disorder treatment providers. The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under this subsection. The panel shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The funds shall be used solely to provide approved alcohol and substance abuse treatment pursuant to RCW 71.24.560 and treatment support services. No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

(7) Counties are encouraged to consider regional agreements and submit regional plans for the efficient delivery of treatment under this section.

(8) Moneys allocated under this section shall be used to supplement, not supplant, other federal, state, and local funds used for substance abuse treatment.

(9) Counties must meet the criteria established in RCW 2.30.030(3).

**Sec. 981.** RCW 76.04.610 and 2018 c 299 s 912 are each amended to read as follows:

(1)(a) If any owner of forestland within a forest protection zone neglects or fails to provide adequate fire protection as required by RCW 76.04.600, the department shall provide such protection and shall annually impose the following assessments on each parcel of such land: (i) A flat fee assessment of seventeen dollars and fifty cents; and (ii) twenty-seven cents on each acre exceeding fifty acres.

(b) Assessors may, at their option, collect the assessment on tax exempt lands. If the assessor elects not to collect the assessment, the department may bill the landowner directly.

(2) An owner who has paid assessments on two or more parcels, each containing fewer than fifty acres and each within the same county, may obtain the following refund:

(a) If all the parcels together contain less than fifty acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars and (ii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

(b) If all the parcels together contain fifty or more acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars, (ii) twenty-seven cents for each acre exceeding fifty acres, and (iii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

Applications for refunds shall be submitted to the department on a form prescribed by the department and in the same year in which the assessments were paid. The department may not provide refunds to applicants who do not provide verification that all assessments and property taxes on the property have been paid. Applications may be made by mail.

In addition to the procedures under this subsection, property owners with multiple parcels in a single county who qualify for a refund under this section may apply to the department on an application listing all the parcels owned in order to have the assessment computed on all parcels but billed to a single parcel. Property owners with the following number of parcels may apply to the department in the year indicated:

Year	Number of Parcels
2002	10 or more parcels
2003	8 or more parcels
2004 and thereafter	6 or more parcels

The department must compute the correct assessment and allocate one parcel in the county to use to collect the assessment. The county must then bill the forest fire protection assessment on that one allocated identified

parcel. The landowner is responsible for notifying the department of any changes in parcel ownership.

(3) Beginning January 1, 1991, under the administration and at the discretion of the department up to two hundred thousand dollars per year of this assessment shall be used in support of those rural fire districts assisting the department in fire protection services on forestlands.

(4) For the purpose of this chapter, the department may divide the forestlands of the state, or any part thereof, into districts, for fire protection and assessment purposes, may classify lands according to the character of timber prevailing, and the fire hazard existing, and place unprotected lands under the administration of the proper district. Amounts paid or contracted to be paid by the department for protection of forestlands from funds at its disposal shall be a lien upon the property protected, unless reimbursed by the owner within ten days after October 1st of the year in which they were incurred. The department shall be prepared to make statement thereof, upon request, to a forest owner whose own protection has not been previously approved as to its adequacy, the department shall report the same to the assessor of the county in which the property is situated. The assessor shall extend the amounts upon the tax rolls covering the property, and upon authorization from the department shall levy the forest protection assessment against the amounts of unimproved land as shown in each ownership on the county assessor's records. The assessor may then segregate on the records to provide that the improved land and improvements thereon carry the millage levy designed to support the rural fire protection districts as provided for in RCW 52.16.170.

(5) The amounts assessed shall be collected at the time, in the same manner, by the same procedure, and with the same penalties attached that general state and county taxes on the same property are collected, except that errors in assessments may be corrected at any time by the department certifying them to the treasurer of the county in which the land involved is situated. Assessments shall be known and designated as assessments of the year in which the amounts became reimbursable. Upon the collection of assessments the county treasurer shall place fifty cents of the total assessments paid on a parcel for fire protection into the county current expense fund to defray the costs of listing, billing, and collecting these assessments. The treasurer shall then transmit the balance to the department. Collections shall be applied against expenses incurred in carrying out the provisions of this section, including necessary and reasonable administrative costs incurred by the department in the enforcement of these provisions. The department may also expend sums collected from owners of forestlands or received from any other source for necessary administrative costs in connection with the enforcement of RCW 76.04.660. During the 2017-2019 ~~and 2019-2021~~ fiscal ~~(biennium)~~ biennia, the legislature may appropriate moneys from the account for department of natural resources wildfire response and forest health activities.

(6) When land against which forest protection assessments are outstanding is acquired for delinquent taxes and sold at public auction, the state shall have a prior lien on the proceeds of sale over and above the amount necessary to

satisfy the county's delinquent tax judgment. The county treasurer, in case the proceeds of sale exceed the amount of the delinquent tax judgment, shall immediately remit to the department the amount of the outstanding forest protection assessments.

(7) All nonfederal public bodies owning or administering forestland included in a forest protection zone shall pay the forest protection assessments provided in this section and the special forest fire suppression account assessments under RCW 76.04.630. The forest protection assessments and special forest fire suppression account assessments shall be payable by nonfederal public bodies from available funds within thirty days following receipt of the written notice from the department which is given after October 1st of the year in which the protection was provided. Unpaid assessments are not a lien against the nonfederal publicly owned land but shall constitute a debt by the nonfederal public body to the department and are subject to interest charges at the legal rate. ~~((During the 2011-2013 fiscal biennium, the forest fire protection assessment account may be appropriated to The Evergreen State College for analysis and recommendations to improve the efficiency and effectiveness of the state's mechanisms for funding fire prevention and suppression activities.))~~

(8) A public body, having failed to previously pay the forest protection assessments required of it by this section, which fails to suppress a fire on or originating from forestlands owned or administered by it, is liable for the costs of suppression incurred by the department or its agent and is not entitled to reimbursement of costs incurred by the public body in the suppression activities.

(9) The department may adopt rules to implement this section, including, but not limited to, rules on levying and collecting forest protection assessments.

(1) The county criminal justice assistance account is created in the state treasury. Beginning in fiscal year 2000, the state treasurer must transfer into the county criminal justice assistance account from the general fund the sum of twenty-three million two hundred thousand dollars divided into four equal deposits occurring on July 1, October 1, January 1, and April 1. For each fiscal year thereafter, the state treasurer must increase the total transfer by the fiscal growth factor, as defined in RCW 43.135.025, forecast for

(2) The moneys deposited in the county criminal justice assistance account for distribution under this section, less any moneys appropriated for purposes under subsections (4) and (5) of this section, must be distributed at such times as distributions are made under RCW 82.44.150 and on the relative basis of each county's funding factor as determined under this subsection.

(a) A county's funding factor is the sum of:

(i) The population of the county, divided by one thousand, and multiplied by two-tenths;

(ii) The crime rate of the county, multiplied by three-tenths; and

(iii) The annual number of criminal cases filed in the county superior court, for each one thousand in population, multiplied by five-tenths.

(ii) The crime rate of the county or city is the annual occurrence of specified criminal offenses, as calculated in the most recent annual report on crime in Washington state as published by the Washington association of sheriffs and police chiefs, for each one thousand in population;

(iii) The annual number of criminal cases filed in the county superior court must be determined by the most recent annual report of the courts of Washington, as published by the administrative office of the courts;

(iv) Distributions and eligibility for distributions in the 1989-1991 biennium must be based on 1988 figures for both the crime rate as described under (ii) of this subsection and the annual number of criminal cases that are filed as described under (iii) of this subsection. Future distributions must be based on the most recent figures for both the crime rate as described under (ii) of this subsection and the annual number of criminal cases that are filed as described under (iii) of this subsection.

(3) Moneys distributed under this section must be expended exclusively for criminal justice purposes and may not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil or juvenile justice system occurs, and which includes (a) domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020, and (b) during the 2001-2003 fiscal biennium, juvenile dispositional hearings relating to petitions for at-risk youth, truancy, and children in need of services. Calendar year 1989 actual operating expenditures for criminal justice purposes exclude the following: Expenditures for

extraordinary events not likely to reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures.

(4) Not more than five percent of the funds deposited to the county criminal justice assistance account may be available for appropriations for enhancements to the state patrol crime laboratory system and the continuing costs related to these enhancements. ~~(5) ((During the 2011-2013 fiscal biennium, the amount that would otherwise be transferred into the county criminal justice assistance account from the general fund under subsection (1) of this section must be reduced by 3.4 percent.~~

~~(6) During the 2013-2015 fiscal biennium, for the purposes of substance abuse and other programs for offenders, the legislature may appropriate from the county criminal justice assistance account such amounts as are in excess of the amounts necessary to fully meet the state's obligations to the counties and to the Washington state patrol. Excess amounts in this account are not the result of subsection (5) of this section.)) During the 2017-2019 fiscal biennium, the sum of one hundred fifty-three thousand dollars, and during the 2019-2021 fiscal biennium, the sum of five hundred ten thousand dollars, may be appropriated for the Washington state patrol to provide investigative assistance and report services to assist local law enforcement agencies to prosecute criminals. It is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.~~

**Sec. 992.** RCW 90.50A.090 and 2013 c 96 s 2 are each amended to read as follows:

(1) The water pollution control revolving administration account is created in the state treasury. All receipts from charges authorized in this section must be deposited in the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only in a manner consistent with this section.

(2) The department is authorized to assess administration charges as a portion of the debt service for loans issued under the water pollution control revolving fund created in RCW 90.50A.020. The sole purpose of assessing administration charges is to predictably and adequately fund the department's costs of administering the water pollution control revolving fund loan program, as identified in subsection (5) of this section. The department must assess administration charges on each water pollution control revolving fund loan at the point the loan enters repayment status, after July 28, 2013, and rule changes are adopted to implement the administration charge. Loans that are at an interest rate below the established administration charge rate are exempt from the administration charge.

(3) The water pollution control revolving administration account consists of:

(a) Any administration charge levied by the department in conjunction with administration of the water pollution control revolving fund; and

(b) Any other revenues derived from gifts, grants, or bequests pledged to the state for the purpose of administering the water pollution control revolving fund.

(4) The state treasurer may invest and reinvest moneys in the water pollution control revolving administration account in the manner provided by law. All earnings from such investment and reinvestment must be credited to the water pollution control revolving administration account.

In its submittal to the office of financial management, the department may:

(a) Find that the projected administration charge income is inadequate to fund the cost of administering the program, and that the rate of the charge must be increased. However, the administration charge may never exceed one percent on the declining principal loan balance;

(b) Find that the projected administration charge income exceeds what is needed to fund the cost of administering the program, and that the rate of the charge must be decreased;

(c) Find that there is an excess balance in the revolving administration account, and that the excess must be transferred to the water pollution control revolving fund to be used for loans; or

(d) Find that there is no need for any rate adjustments or balance transfers.

(8) At the point where the water pollution control revolving administration account adequately covers the program administration costs, the department may no longer use the federal administration allowance. If a federal capitalization grant is awarded after that point, all federal capitalization dollars must be used for making loans.

(9) By December 1, 2018, the department must submit to the appropriate legislative fiscal committees a report on implementation of the administration charge, including information on: The amount of income the administration charge has produced since its inception; the

uses and adequacy of the income for administrative costs; any excess balances that have been transferred to the water pollution control revolving fund; and any additional sources that the department is using for program administration.

**FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES**

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated

facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) In accordance with RCW 71.24.380, the health care authority and the department are authorized to purchase medical and behavioral health services through integrated contracts upon request of all of the county authorities in a regional service area to become an early adopter of fully integrated purchasing of medical and behavioral health services. The department may combine and transfer such amounts appropriated under sections 204, 208, and 213 of this act as may be necessary to fund early adopter contracts. The amount of medicaid funding transferred from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. The amount of non-medicaid funding transferred from sections 204 and

208 may not exceed the amount that would have been contracted with a behavioral health organization if the county authorities had not requested to become an early adopter of fully integrated purchasing. These limits do not apply to the amounts provided in section 204(1)(s) of this act. If any funding that this act provides solely for a specific purpose is transferred under this subsection, that funding must be used consistently with the provisions and conditions for which it was provided.

(8) In accordance with RCW 71.24.380, the department is authorized to purchase mental health and substance use disorder services through integrated contracts with behavioral health organizations. The department may combine and transfer such amounts appropriated under sections 204 and 208 of this act as may be necessary to finance these behavioral health organization contracts. If any funding that this act provides solely for a specific purpose is transferred under this subsection, that funding must be used consistently with the provisions and conditions for which it was provided.

(9)(a) The appropriations to the department of social and health services in this act must be expended for the programs and in the amounts specified in this act. However, after May 1, (~~2018~~) 2019, unless prohibited by this act, the department may transfer general fund—state appropriations for fiscal year (~~2018~~) 2019 among programs and subprograms after approval by the director of the office of financial management. However, the department may not transfer state appropriations that are provided solely for a specified purpose except as expressly provided in (b) through (d) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year (~~2018~~) 2019 caseload forecasts and utilization assumptions in the long-term care, developmental disabilities, (~~foster care, adoption support,~~) and public assistance programs, the department may transfer state appropriations that are provided solely for a specified purpose.

(c) Within the mental health program, the department may transfer appropriations that are provided solely for a specified purpose within and between subprograms as needed to fund actual expenditures through the end of fiscal year (~~2018~~) 2019.

(d) Within the developmental disabilities program, the department may transfer appropriations that are provided solely for a specified purpose within and between subprograms as needed to fund actual expenditures through the end of fiscal year (~~2018~~) 2019.

(e) The department may not transfer appropriations, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and

justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(10) The department and the department of children, youth, and families shall coordinate to ensure that both agencies have sufficient funding for allocated and nonallocated central services and, if necessary, must enter into an interagency agreement to ensure that funds are transferred to the agency that incurs costs. The agencies shall jointly report to the office of financial management the status of state fiscal year 2019 allocated and nonallocated central services costs and whether fund transfers were required.

(1) \$331,000 of the general fund—state appropriation for fiscal year 2018 and \$331,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for deposit in the county criminal justice assistance account for costs to the criminal justice system associated with the implementation of chapter 338, Laws of 1997 (juvenile code revisions). The amounts provided in this subsection are intended to provide funding for county adult court costs associated with the implementation of chapter 338, Laws of 1997 and shall be distributed in accordance with RCW 82.14.310.

(2) \$2,841,000 of the general fund—state appropriation for fiscal year 2018 and \$2,841,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for grants to county juvenile courts for the following juvenile justice programs identified by the Washington state institute for public policy (institute) in its report: "Inventory of Evidence-based, Research-based, and Promising Practices for Prevention and Intervention Services for Children and Juveniles in the Child Welfare,

Juvenile Justice, and Mental Health Systems." Additional funding for this purpose is provided through an interagency agreement with the health care authority. County juvenile courts shall apply to the juvenile rehabilitation administration for funding for program-specific participation and the administration shall provide grants to the courts consistent with the per-participant treatment costs identified by the institute.

(3) \$1,537,000 of the general fund—state appropriation for fiscal year 2018 and \$1,537,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for expansion of the following juvenile justice treatments and therapies in juvenile rehabilitation administration programs identified by the Washington state institute for public policy in its report: "Inventory of Evidence-based, Research-based, and Promising Practices for Prevention and Intervention Services for Children and Juveniles in the Child Welfare, Juvenile Justice, and Mental Health Systems." The administration may concentrate delivery of these treatments and therapies at a limited number of programs to deliver the treatments in a cost-effective manner.

(4)(a) \$6,198,000 of the general fund—state appropriation for fiscal year 2018 and \$6,198,000 of the general fund—state appropriation for fiscal year 2019 are provided solely to implement evidence- and research-based programs through community juvenile accountability grants, administration of the grants, and evaluations of programs funded by the grants. In addition to funding provided in this subsection, funding to implement alcohol and substance abuse treatment programs for locally committed offenders is provided through an interagency agreement with the health care authority.

(b) The juvenile rehabilitation administration shall administer a block grant to county juvenile courts for the purpose of serving youth as defined in RCW 13.40.510(4)(a) in the county juvenile justice system. Funds dedicated to the block grant include: Consolidated juvenile service (CJS) funds, community juvenile accountability act (CJAA) grants, chemical dependency/mental health disposition alternative (CDDA), and suspended disposition alternative (SDA). The juvenile rehabilitation administration shall follow the following formula and must prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program-eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative: (i) Thirty-seven and one-half percent for the at-risk population of youth ten to seventeen years old; (ii) fifteen percent for the assessment of low, moderate, and high-risk youth; (iii) twenty-five percent for evidence-based program participation; (iv) seventeen and one-half percent for minority populations; (v) three percent for the chemical dependency and mental health disposition alternative; and (vi) two percent for the suspended dispositional alternatives. Funding for the special sex offender disposition alternative (SSODA) shall not be included in the block grant, but allocated on the average daily population in juvenile courts. Funding for the evidence-based expansion grants shall be excluded from the block grant formula. Funds may be used

for promising practices when approved by the juvenile rehabilitation administration and juvenile courts, through the community juvenile accountability act committee, based on the criteria established in consultation with Washington state institute for public policy and the juvenile courts.

(c) If Second Substitute House Bill No. 1280 (referred and diverted youth) is enacted, then the administration must implement a stop-loss policy when allocating funding under (b) of this subsection in the 2017-2019 fiscal biennium. Under the stop-loss policy, funding formula changes may not result in a funding loss for any juvenile court of more than two percent from one year to the next. The committee in (d) of this subsection must establish a minimum base level of funding for juvenile courts with lower numbers of at-risk youth age 10 – 17. The administration must report to the legislature by December 1, 2018, about how funding is used for referred youth and the impact of that use on overall use of funding. If the bill is not enacted by July 31, 2017, this subsection is null and void.

(d) The juvenile rehabilitation administration and the juvenile courts shall establish a block grant funding formula oversight committee with equal representation from the juvenile rehabilitation administration and the juvenile courts. The purpose of this committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. The committee will be co-chaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the ability to change members of the committee as needed to achieve its purpose. The committee may make changes to the formula categories in (b) of this subsection if it determines the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost/benefit savings to the state, including long-term cost/benefit savings. The committee must also consider these outcomes in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(e) The juvenile courts and administrative office of the courts must collect and distribute information and provide access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. The juvenile rehabilitation administration and the juvenile courts must work collaboratively to develop program outcomes that reinforce the greatest cost/benefit to the state in the implementation of evidence-based practices and disposition alternatives.

(5) \$98,000 of the general fund—state appropriation for fiscal year 2018 and \$98,000 of the general fund—state appropriation for fiscal year 2019 are provided solely to the juvenile block grant funding formula oversight committee described in subsection (4)(d) of this section to contract with research entities to: (a) Assist juvenile justice programs identified as promising practices or research-based in undergoing the research necessary to demonstrate that the program is evidence-based; and (b) establish an annual, county-level evaluation of existing evidence-based juvenile justice programs.

(6) \$557,000 of the general fund—state appropriation for fiscal year 2018 and \$557,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for funding of the teamchild project.

(7) \$283,000 of the general fund—state appropriation for fiscal year 2018 and \$283,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for the juvenile detention alternatives initiative.

(8) \$500,000 of the general fund—state appropriation for fiscal year 2018 and \$500,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for a grant program focused on criminal street gang prevention and intervention. The juvenile rehabilitation administration may award grants under this subsection. The juvenile rehabilitation administration shall give priority to applicants who have demonstrated the greatest problems with criminal street gangs. Applicants composed of, at a minimum, one or more local governmental entities and one or more nonprofit, nongovernmental organizations that have a documented history of creating and administering effective criminal street gang prevention and intervention programs may apply for funding under this subsection. Each entity receiving funds must report to the juvenile rehabilitation administration on the number and types of youth served, the services provided, and the impact of those services on the youth and the community.

(9) The juvenile rehabilitation institutions may use funding appropriated in this subsection to purchase goods and supplies through hospital group purchasing organizations when it is cost-effective to do so.

(10) \$75,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for the department to coordinate the examination of data associated with juvenile gang and firearm offenses. The review of data must include information from the administrative office of the courts, the office of the superintendent of public instruction, the office of financial management—education research data center, the Washington association of sheriffs and police chiefs, the caseload forecast council, and the department of corrections. For the purpose of carrying out the data review, named organizations are authorized to share data to include details of criminal arrest and conviction data. The department shall report to the governor and the appropriate legislative committees by February 1, 2018, with any recommendations for public policy that increases public safety.

(12) \$75,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for the implementation of Engrossed Second Substitute Senate Bill No. 6160 (exclusive adult jurisdiction). ~~((If the bill is not enacted by June 30, 2018, the amount provided in this subsection shall lapse.))~~

Sec. 1103. 2018 c 299 s 204 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES—MENTAL HEALTH PROGRAM**

(1) COMMUNITY SERVICES/BEHAVIORAL HEALTH ORGANIZATIONS

General Fund—State Appropriation (FY 2018)	\$381,760,000
General Fund—Federal Appropriation .....	\$481,439,000
General Fund—Private/Local Appropriation .....	\$8,932,000
Dedicated Marijuana Account—State Appropriation (FY 2018) .....	\$3,684,000
Pension Funding Stabilization Account—State Appropriation .....	\$39,000
<b>TOTAL</b>	<b>APPROPRIATION</b>
.....	\$875,854,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) For the purposes of this subsection, amounts provided for behavioral health organizations shall also be available for the health care authority to contract with entities that assume the responsibilities of behavioral health organizations in regions in which the health care authority is purchasing medical and behavioral health services through fully integrated contracts pursuant to RCW 71.24.380.

(b) \$6,590,000 of the general fund—state appropriation for fiscal year 2018 and \$3,810,000 of the general fund—federal appropriation are provided solely for the department and behavioral health organizations to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health organizations with PACT teams, the department shall consider the differences between behavioral health organizations in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow behavioral health organizations which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under (f) of this subsection. The department and behavioral health organizations shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) From the general fund—state appropriations in this subsection, the department shall assure that behavioral health organizations reimburse the department of social and health services aging and long term support administration for the general fund—state cost of medicaid personal care services that enrolled behavioral health organization consumers use because of their psychiatric disability.

(d) \$1,760,000 of the general fund—federal appropriation is provided solely for the department to maintain a pilot project to put peer bridging staff into each behavioral health organization as part of the state psychiatric liaison teams to promote continuity of service as individuals return to their communities. The department must collect data and submit a report to the office of financial management and the appropriate committees of the legislature on the impact of peer staff on state hospital discharges and community placements by December 1, 2017.

(e) \$11,405,000 of the general fund—state appropriation for fiscal year 2018 is provided solely to assist behavioral health organizations with the costs of providing services to medicaid clients receiving services in psychiatric facilities classified as institutions of mental diseases. The department must distribute these amounts proportionate to the number of bed days for medicaid clients in institutions for mental diseases that were excluded from behavioral health organization fiscal year 2018 capitation rates because they exceeded the amounts allowed under federal regulations. The department must also use these amounts to directly pay for costs that are ineligible for medicaid reimbursement in institutions of mental disease facilities for American Indian and Alaska Natives who opt to receive behavioral health services on a fee for service basis. The amounts used for these individuals must be reduced from the allocation of the behavioral health organization where the individual resides. If a behavioral health organization receives more funding through this subsection than is needed to pay for the cost of their medicaid clients in institutions for mental diseases, they must use the remainder of the amounts to provide other services not covered under the medicaid program. The department must apply for a waiver from the center for medicaid and medicare services to allow for the full cost of stays in institutions of mental diseases to be included in fiscal year 2019 behavioral health organization capitation rates. The department may tailor the fiscal year 2019 waiver to specific populations for which the center for medicaid and medicare services has indicated they are likely to approve and work to further expand the waiver to other populations in fiscal year 2020. The department must submit a report on the status of the waiver to the office of financial management and the appropriate committees of the legislature by December 1, 2017.

(f) \$81,930,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health organization spending shall be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health organizations proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The department must include the following language in medicaid contracts with behavioral health organizations unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may

voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(g) The department is authorized to continue to contract directly, rather than through contracts with behavioral health organizations for children's long-term inpatient facility services.

(h) \$1,125,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for the Spokane county behavioral health organization to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(A) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(B) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(C) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(D) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane county behavioral health organization shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(i) \$1,204,000 of the general fund—state appropriation for fiscal year 2018 is provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(j) Behavioral health organizations may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (f) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(k) \$2,291,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The department must collect information from the behavioral health organizations on their plan for using these funds, the numbers of individuals served, and the types

of services provided and submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1st of each year of the biennium.

(l) Within the amounts appropriated in this section, funding is provided for the department to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(m) The department must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization contracts and insert contract language that clearly states the requirements and limitations. The department must monitor and ensure that behavioral health organization reserves do not exceed maximum levels. The department must monitor behavioral health organization revenue and expenditure reports and must require a behavioral health organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The department must review and approve such plans and monitor to ensure compliance. If the department determines that a behavioral health organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the department must reduce payments to the behavioral health organization in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the department determines that the behavioral health organization has come into substantial compliance with an approved excess reserve corrective action plan.

(n) \$2,309,000 of the general fund—state appropriation for fiscal year 2018 and \$2,169,000 of the general fund—federal appropriation are provided solely for the department to increase rates for community hospitals that provide a minimum of 200 medicaid psychiatric inpatient days. The department must increase both medicaid and nonmedicaid psychiatric per-diem reimbursement rates for these providers within these amounts. The amounts in this subsection include funding for additional hold harmless payments resulting from the rate increase. The department shall prioritize increases for hospitals not currently paid based on provider specific costs using a similar methodology used to set rate for existing inpatient facilities and the latest available cost report information. Rate increases for providers must be set so as not to exceed the amounts provided within this subsection. The rate increase related to nonmedicaid clients must be done to maintain the provider at the same percentage as currently required under WAC 182-550-4800.

(o) \$100,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for the department to collaborate with tribal governments and develop a plan for establishing an evaluation and treatment facility that will specialize in providing care specifically to the American Indian and Alaska Native population. The plan must include options for maximizing federal participation and, ensure that utilization will be based on medical

necessity, and identify a specific geographic location where a tribal evaluation and treatment facility will be built.

(p) \$1,466,000 of the general fund—state appropriation for fiscal year 2018 and \$1,663,000 of the general fund—federal appropriation are provided solely for the department to contract with community hospitals or freestanding evaluation and treatment centers to provide up to forty-eight long-term inpatient care beds as defined in RCW 71.24.025. The department must seek proposals and contract directly for these services rather than contracting through behavioral health organizations. The department must coordinate with the department of social and health services in developing the contract requirements, selecting contractors, and establishing processes for identifying patients that will be admitted to these facilities. The department must not use any of the amounts provided under this subsection for contracts with facilities that are subject to federal funding restrictions that apply to institutions of mental diseases, unless they have received a waiver that allows for full federal participation in these facilities.

(q) \$4,983,000 of the general fund—state appropriation for fiscal year 2018 and \$10,849,000 of the general fund—federal appropriation are provided solely for the department to increase medicaid capitation payments for behavioral health organizations. The department must work with the actuaries responsible for certifying behavioral health capitation rates to adjust average salary assumptions in order to implement this increase. In developing further updates for medicaid managed care rates for behavioral health services, the department must include and make available all applicable documents and analysis to legislative staff from the fiscal committees throughout the process. The department must require the actuaries to develop and submit rate ranges for each behavioral health organization prior to certification of specific rates.

(r) The number of beds allocated for use by behavioral health organizations at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by behavioral health organizations at western state hospital shall be 557 per day. In fiscal year 2019, the department must reduce the number of beds allocated for use by behavioral health organizations at western state hospital by 30 beds to allow for the repurposing of a civil ward at western state hospital to provide forensic services. The contracted beds provided under (p) of this subsection shall be allocated to the behavioral health organizations in lieu of beds at the state hospitals and be incorporated in their allocation of state hospital patient days of care for the purposes of calculating reimbursements pursuant to RCW 71.24.310. It is the intent of the legislature to continue the policy of expanding community based alternatives for long term civil commitment services that allow for state hospital beds to be prioritized for forensic patients.

(s) \$11,405,000 of the general fund—state appropriation for fiscal year 2018 and \$8,840,000 of the general fund—federal appropriation are provided solely to maintain enhancements of community mental health services. The department must contract these funds for the operation of community programs in which the department determines there is a need for capacity that allows

individuals to be diverted or transitioned from the state hospitals including but not limited to: (i) Community hospital or free standing evaluation and treatment services providing short-term detention and commitment services under the involuntary treatment act to be located in the geographic areas of the King behavioral health organization, the Spokane behavioral health organization outside of Spokane county, and the Thurston Mason behavioral health organization; (ii) one new full program of an assertive community treatment team in the King behavioral health organization and two new half programs of assertive community treatment teams in the Spokane behavioral health organization and the Pierce behavioral health organization; and (iii) three new recovery support services programs in the Great Rivers behavioral health organization, the greater Columbia behavioral health organization, and the north sound behavioral health organization. In contracting for community evaluation and treatment services, the department may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the department is unable to come to a contract agreement with a designated behavioral health organization for any of the services identified above, it may consider contracting for that service in another region that has the need for such service.

(t) \$200,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for clubhouse programs. The department must develop options and cost estimates for implementation of clubhouse programs statewide through a medicaid state plan amendment or a medicaid waiver and submit a report to the office of financial management and the appropriate committees of the legislature by December 1, 2018.

(u) \$212,000 of the general fund—state appropriation for fiscal year 2018 is provided solely to fund one pilot project in Pierce county and one in Yakima county to promote increased utilization of assisted outpatient treatment programs. The department shall require two behavioral health organizations to contract with local government to establish the necessary infrastructure for the programs. The department, in collaboration with the health care authority, shall provide a report by October 15, 2018, to the office of financial management and the appropriate fiscal and policy committees of the legislature to include the number of individuals served, outcomes to include reduced use of inpatient treatment and state hospital stays, and recommendations for further implementation based on lessons learned and best practices identified by the pilot projects.

(v) The department, in collaboration with the health care authority, shall work to ensure that a single platform provider credentialing system is implemented. The authority and department shall ensure that appropriate cost offsets and cost avoidance are assumed for reduced staff time required for provider credentialing activity and reductions in improper billing activity when implementing provider credentialing systems.

(w) No more than \$6,464,000 of the general fund—federal appropriation may be expended for supported housing and employment services described in initiative 3a

and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the department and the health care authority shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its providers or third party administrator. The department and the authority in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The department shall not increase general fund—state expenditures under this initiative. The secretary in collaboration with the director of the authority shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The secretary in cooperation with the director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(f) Community residential cost reports that are submitted by or on behalf of contracted agency providers are required to include information about agency staffing including health insurance, wages, number of positions, and turnover.

These services are intended to provide families and caregivers with a break in caregiving, the opportunity for behavioral stabilization of the child, and the ability to partner with the

state in the development of an individualized service plan that allows the child to remain in his or her family home. The department must provide the legislature with a respite utilization report in January of each year that provides information about the number of children who have used enhanced respite in the preceding year, as well as the location and number of days per month that each respite bed was occupied.

If specialized training is necessary to meet the needs of a client before he or she

enters a community placement, then the person centered service plan must also identify and authorize this training.

(iii) When reviewing placement options, the department must consider the safety of other residents, as well as the safety of staff, in a facility. An initial evaluation of each placement, including any documented safety concerns, must occur within thirty days of a client leaving one of the state psychiatric hospitals and entering one of the community placement options described in (j)(i) of this subsection. At a minimum, the department must perform two additional evaluations of each placement during the first year that a client has lived in the facility.

(iv) During fiscal year 2018, in a presentation to the select committee on quality improvement in state hospitals, the department must describe the process of fielding and subsequently investigating complaints of abuse, neglect, and exploitation within the community alternative placement options described in (j)(i) of this subsection. The health care authority shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The health care authority may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. The appropriations to the health care authority in this act shall be expended for the programs and in the amounts specified in this act. The director of the office of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification must include a narrative explanation and justification of changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications and transfers.

The appropriations in this section are subject to the following conditions and limitations:

(a) \$268,117,000 of the general fund—state appropriation for fiscal year 2018 and \$264,704,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for the authority to implement a single, standard medicaid preferred drug list to be used by all contracted medicaid managed health care systems, on or before January 1, 2018. The preferred drug list shall be developed in consultation with all contracted managed health care systems and the state pharmacy and therapeutics committee or drug utilization review board and shall further the goals and objectives of the medicaid program. The list shall be designed to maximize federal rebates and supplemental rebates and ensure access to clinically effective and appropriate drug therapies under each class. Entities eligible for 340B drug pricing shall continue to operate under their current pricing agreement, unless otherwise required by federal laws or regulations. The authority may utilize external consultants with expertise in evidence-based drug class reviews, pharmacy benefit management, and purchasing to assist with the completion of this development and implementation. The authority shall require each managed care organization that has contracted with the authority to provide care to medicaid beneficiaries to use the established preferred drug list; and shall prohibit each managed care organization and any of its agents from negotiating or collecting rebates for any medications listed in the state's medicaid single preferred drug list whether preferred or nonpreferred. To assist in the implementation of the single preferred drug list, contracted medicaid managed health care systems shall provide the authority drug-specific financial information in a format and frequency determined by the authority to include the actual amounts paid to pharmacies for prescription drugs dispensed to covered individuals compared to the cost invoiced to the health plan and individual rebates collected for prescription drugs dispensed to medicaid members. Information disclosed to the authority by the manufacturer pursuant to this provision

shall only be used for the purposes of developing and implementing a single, standard state preferred drug list in accordance with this provision. The authority, medicaid managed care organizations, and all other parties shall maintain the confidentiality of drug-specific financial and other proprietary information and such information shall not be subject to the Washington public records act. The authority shall provide a report to the governor and appropriate committees of the legislature by November 15, 2018, and by November 15, 2019, including a comparison of the amount spent in the previous two fiscal years to expenditures under the new system by, at a minimum, fund source, total expenditure, drug class, and top twenty-five drugs. The data provided to the authority shall be aggregated in any report by the authority, the legislature, or the office of financial management so as not to disclose the proprietary or confidential drug-specific information, or the proprietary or confidential information that directly or indirectly identifies financial information linked to a single manufacturer. It is the intent of the legislature to revisit this policy in subsequent biennia to determine whether it is in the best interest of the state.

(b) \$113,356,000 of the general fund—state appropriation for fiscal year 2018 and \$140,578,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for managed care capitation payments.

(c) \$122,244,000 of the general fund—state appropriation for fiscal year 2018 and ~~(\$116,038,000)~~ \$96,640,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for ~~((the authority through the competitive procurement process, to contract with licensed dental health plans or managed health care plans on a prepaid or fixed sum risk basis to provide carved-out managed dental care services on a statewide basis that will result in greater efficiency and will facilitate better access and oral health outcomes for medicaid enrollees. Except in areas where only a single plan is available, the authority must contract with at least two plans. The authority shall include in the contracts: (i) Quarterly reporting requirements to include medicaid utilization and encounter data by current dental technology (CDT) code; (ii) a direction to increase the dental provider network; (iii) a commitment to retain innovative programs that improve access and care such as the access to baby and child dentistry program; (iv) a program to reduce emergency room use for dental purposes; (v) a requirement to ensure that dental care is being coordinated with the primary care provider of the patient to ensure integrated care; (vi) a provision that no less than eighty five percent of the contracting fee be used to directly offset the cost of providing direct patient care as opposed to administrative costs; and (vii) a provision to ensure the contracting fee shall be sufficient to compensate county health departments and federally qualified health centers for dental patient care. The plan(s) awarded this contract must absorb all start-up costs associated with moving the program from fee for service to managed care and shall commit to achieving an overall savings to the program based on 2016 fee for service experience. In order to comply with state insurance underwriting standards, the authority shall ensure that savings offered by dental plans are actuarially sound. Starting January 31, 2019, and every year~~

~~thereafter through December 2024, the authority shall submit an annual report to the governor and the appropriate committees of the legislature detailing how the contracted entities have met the requirements of the contract. The report shall include specific information to include utilization, how the contracted entities have increased their dental provider networks, how the emergency room use for dental purposes has been reduced, and how dental care has been integrated with patients' primary care providers. If after the end of five years the data reported does not demonstrate sufficient progress to address the stated contracted goals, the legislature will reevaluate whether carved out dental managed care needs to be replaced with a different delivery model. The authority is authorized to seek any necessary state plan amendments or federal waivers to implement this subsection. Additional dental program savings achieved by the plans beyond those assumed in the 2017-2019 omnibus appropriations act will be used to increase dental provider reimbursement rates. By October 30, 2018, the authority shall report to the governor and the appropriate committees of the legislature anticipated savings related to reduction in dental emergency department visits and utilization once managed care dental coverage begins))~~ fee-for-service dental services. The authority must provide these services through fee-for-service and may not proceed with either a carved-out or carved-in managed care dental option. Any contracts that have been procured or that are in the process of being procured shall not be entered into or implemented.

(d) \$1,505,087,000 of the general fund—state appropriation for fiscal year 2018 and \$1,538,030,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for medicaid services and the medicaid program. However, the authority shall not accept or expend any federal funds received under a medicaid transformation waiver under healthier Washington except as described in (e) and (f) of this subsection until specifically approved and appropriated by the legislature. To ensure compliance with legislative directive budget requirements and terms and conditions of the waiver, the authority shall implement the waiver and reporting requirements with oversight from the office of financial management. The legislature finds that appropriate management of the innovation waiver requires better analytic capability, transparency, consistency, timeliness, accuracy, and lack of redundancy with other established measures and that the patient must be considered first and foremost in the implementation and execution of the demonstration waiver. In order to effectuate these goals, the authority shall: (i) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of other nationally established measures. The joint select committee on health care oversight will evaluate the measures chosen by the collaborative and the health technology assessment program for effectiveness and appropriateness; (ii) develop a patient satisfaction survey with the goal to gather information about whether it was beneficial for the patient to use the center of excellence location in exchange for additional out-of-pocket savings; (iii) ensure patients and health care providers have significant input into the implementation of the demonstration waiver, in order to ensure improved patient health outcomes; and (iv) in

cooperation with the department of social and health services, consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget, to the joint select committee on health care oversight prior to submitting waivers for federal approval. By federal standard, the medicaid transformation demonstration waiver shall not exceed the duration originally granted by the centers for medicare and medicaid services and any programs created or funded by this waiver do not create an entitlement. Beginning May 15, 2019, and continuing through December 15, 2019, by the 15th of each month, the director in consultation with the secretary shall report to the fiscal chair of the appropriate committees of the legislature in the manner and form requested the status of the medicaid transformation waiver, including any anticipated or proposed changes to accruals or expenditures.

(e) No more than \$486,683,000 of the general fund—federal appropriation and no more than \$129,103,000 of the general fund—local appropriation may be expended for transformation through accountable communities of health described in initiative 1 of the medicaid transformation demonstration waiver under healthier Washington, including preventing youth drug use, opioid prevention and treatment, and physical and behavioral health integration. Under this initiative, the authority shall take into account local input regarding community needs. In order to ensure transparency to the appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be authorized to access. The authority shall not increase general fund—state expenditures under this initiative. The director shall report to the joint select committee on health care oversight no less than quarterly, and include details for each accountable community of health, on the financial status and measurable health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees. By December 15, 2019, the authority in collaboration with each accountable community of health shall demonstrate how it will be self-sustaining by the end of the demonstration waiver period, including sources of outside funding, and provide this reporting to the joint select committee on health care oversight. If by the third year of the demonstration waiver there are not measurable, improved patient outcomes and financial returns, the Washington state institute for public policy will conduct an audit of the accountable communities of health, in addition to the process set in place through the independent evaluation required by the agreement with centers for medicare and medicaid services. Prior to the 2018 legislative session, the human services, health care, and judiciary committees of the legislature will convene a joint work session to review models in the delivery system and the impacts on medical liability. The work sessions should include integrated delivery models with multiple health care providers and medical malpractice insurance carriers.

(f) No more than \$38,425,000 of the general fund—federal appropriation may be expended for supported

housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its third party administrator. The authority and the department in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not increase general fund—state expenditures under this initiative. The director shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(g) No later than November 1, 2018, and each year thereafter, the authority shall report to the governor and appropriate committees of the legislature: (i) Savings attributed to behavioral and physical integration in areas that are scheduled to integrate in the following calendar year, and (ii) savings attributed to behavioral and physical health integration and the level of savings achieved in areas that have integrated behavioral and physical health.

(h) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(i) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(j) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(k) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(l) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(m) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(n) \$4,261,000 of the general fund—state appropriation for fiscal year 2018, \$4,261,000 of the general fund—state appropriation for fiscal year 2019, and \$8,522,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

(o) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(p) \$6,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(q) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2017-2019 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2017, and by November 1, 2018, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2018 and fiscal year 2019, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable

hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (i) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2017-2019 biennial operating appropriations act and in effect on July 1, 2015, (ii) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (iii) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2017-2019 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$359,000 of the general fund—state appropriation for fiscal year 2018 and (~~(\$361,000)~~) \$553,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for state grants for the participating hospitals.

(s) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a

mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(t) The authority shall submit reports to the governor and the legislature by September 15, 2018, and no later than September 15, 2019, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

(u) Managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

(v) Sufficient amounts are appropriated in this section for the authority to provide an adult dental benefit.

(w) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(x) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

(y) \$90,000 of the general fund—state appropriation for fiscal year 2018, \$90,000 of the general fund—state appropriation for fiscal year 2019, and \$180,000 of the general fund—federal appropriation are provided solely to continue operation by a nonprofit organization of a toll-free hotline that assists families to learn about and enroll in the apple health for kids program.

(z) The appropriations in this section reflect savings and efficiencies by transferring children receiving medical care provided through fee-for-service to medical care provided through managed care.

(aa) Within the amounts appropriated in this section, the authority shall reimburse for primary care services provided by naturopathic physicians.

(bb) Within the amounts appropriated in this section, the authority shall continue to provide coverage for pregnant teens that qualify under existing pregnancy medical programs, but whose eligibility for pregnancy related services would otherwise end due to the application of the new modified adjusted gross income eligibility standard.

(cc) Sufficient amounts are appropriated in this section to remove the mental health visit limit and to provide the shingles vaccine and screening, brief intervention, and referral to treatment benefits that are available in the medicaid alternative benefit plan in the classic medicaid benefit plan.

(dd) The authority shall use revenue appropriated from the dedicated marijuana fund for contracts with community health centers under RCW 69.50.540 in lieu of general fund—state payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(ee) \$127,000 of the general fund—state appropriation for fiscal year 2018 and \$1,144,000 of the general fund—federal appropriation are provided solely to the ProviderOne provider overtime project and are subject to the conditions, limitations, and review provided in section 724 of this act.

(ff) \$175,000 of the general fund—state appropriation for fiscal year 2018 and \$825,000 of the general fund—federal appropriation are provided solely to the ProviderOne CORE operating rules project and are subject to the conditions, limitations, and review provided in section 724 of this act.

(gg) \$1,483,000 of the general fund—state appropriation for fiscal year 2018, \$1,594,000 of the general fund—state appropriation for fiscal year 2019, and \$1,509,000 of the general fund—federal appropriation are provided for a rate increase effective July 1, 2018, and for performance payments to reward successful beneficiary engagement in the health homes program for fee-for-service enrollees and these are the maximum amounts in each fiscal year the authority may expend for this purpose.

(hh) \$450,000 of the general fund—state appropriation for fiscal year 2018, \$450,000 of the general fund—state appropriation for fiscal year 2019, and \$1,058,000 of the general fund—federal appropriation are provided solely for the authority to hire ten nurse case managers to coordinate medically assisted treatment and movements to medical homes for those being treated for opioid use disorder. Nurses shall be located in areas and provider settings with the highest concentration of opioid use disorder patients.

(ii) Sufficient amounts are appropriated in this section for the authority to provide a collaborative care benefit beginning July 1, 2017.

(jj) The authority and the department of social and health services shall convene a work group consisting of representatives of skilled nursing facilities, adult family homes, assisted living facilities, managers of in-home long-term care, hospitals, and managed health care systems. The work group shall identify barriers that may prevent skilled nursing facilities from accepting and admitting clients from acute care hospitals in a timely and appropriate manner. The work group shall consider what additional resources are needed to allow for faster transfers of enrollees, including those with complex needs. By December 1, 2017, the

authority shall report the work group's findings to the governor and the appropriate committees of the legislature.

(kk) Within the amounts appropriated within this section, the authority shall implement the plan to show how improved access to home health nursing reduces potentially preventable readmissions, increases access to care, reduces hospital length of stay, and prevents overall hospital admissions for clients receiving private duty nursing, medically intensive care, or home health benefits as described in their report to the legislature dated December 15, 2016, entitled home health nursing. The authority shall report to the governor and appropriate committees of the legislature by December 31, 2017, information regarding the effect of the ten dollar rate increases for skilled nursing care delivered via private duty nursing or home health nursing, and how the rate changes impacted the utilization and cost of emergency room visits, reduced the length of stay for initial hospital admissions, and reduced utilization and costs of preventable hospital readmissions. The report will quantify potential cost saving opportunities that may exist through improved access to private duty and home health nursing statewide.

(ll) Within the amounts appropriated within this section, beginning July 1, 2017, the authority must increase facility fees to birth centers to the amount listed on page two of their report to the legislature dated October 15, 2016, entitled reimbursement for births performed at birth centers. This increased rate is applicable in both a fee for service setting and is the minimum allowable rate in a managed care setting. The authority shall report to the governor and appropriate committees of the legislature by October 15, 2018, updated information regarding access to care, improvements to the Cesarean section rate, and savings outcomes for utilizing birth centers as an alternative to hospitals.

(mm) Beginning no later than January 1, 2018, for any service eligible under the medicaid state plan for encounter payments, managed care organizations at the request of a rural health clinic shall pay the full published encounter rate directly to the clinic. (j) Behavioral health organizations may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (f) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(k) \$2,291,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. authority must monitor behavioral health organization revenue and expenditure reports and must require a behavioral health organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the behavioral health organization in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the behavioral health organization has come into substantial compliance with an approved excess reserve corrective action plan.

The authority must increase both medicaid and nonmedicaid psychiatric per-diem reimbursement rates for these providers within these amounts. The amounts in this subsection include funding for additional hold harmless payments resulting from the rate increase. The authority shall prioritize increases for hospitals not currently paid based on provider specific costs using a similar methodology used to set rates for existing inpatient facilities and the latest available cost report information. The authority must also use these amounts to directly pay for costs that are ineligible for medicaid reimbursement in institutions of mental disease facilities for American Indian and Alaska Natives who opt to receive behavioral health services on a fee-for-service basis. The amounts used for these individuals must be reduced from the allocation of the behavioral health organization where the individual resides. These amounts must be distributed proportionate to the population of each regional area covered. The maximum amount allowed per region is \$3,175 per 1,000 residents. These amounts must be used to provide a reserve for nonmedicaid services in the region and to stabilize the new crisis services system. The authority must require all behavioral health organizations transitioning to full integration to either spend down or return all reserves in accordance with contract requirements and federal and state law. Behavioral health organization reserves may not be used to pay for services to be provided beyond the end of a behavioral health organization's contract or for start-up costs in full integration regions. The authority must ensure that any increases in expenditures in behavioral health reserve spend-down plans are required for the operation of services during the contract period and do not result in overpayment to providers.

(ss) \$806,000 of the general fund—federal appropriation is provided solely for the authority to develop a peer support program for individuals with substance use disorders. (ii) The authority must also explore and report on options for fully leveraging the state's share of federal medicaid disproportionate share funding allowed for institutions of mental diseases, including but not limited to: (A) Prioritizing the use of this funding for forensic patients and those civilly committed pursuant to dismissal of a felony charge; (B) obtaining an institution for mental diseases—disproportionate share hospital waiver to allow for regular medicaid federal financial participation to be used at the state hospitals; and (C) shifting some of the state's current disproportionate share funding used at the state hospitals to community-based institutions for mental diseases to reduce the state cost of patients for whom regular federal medicaid match is not allowed.

The authority must contract with the actuaries responsible for certifying state behavioral health capitation rates to develop estimates for the cost of implementing each of these services. The estimates must identify the cost of implementing each service statewide, the estimated state and federal medicaid cost, and any estimated offset in state non-medicaid spending. **NEW SECTION. Sec. 102.** (1)(a) There is levied and collected a tax upon the sale, use, consumption, handling, possession, or distribution of all vapor products in this state as follows:

(i) All vapor products other than those taxed under (a)(ii) of this subsection are taxed at a rate equal to twenty-seven cents per milliliter of solution, regardless of whether it contains nicotine, and a proportionate tax at the like rate on all fractional parts of a milliliter thereof.

(ii) Any accessible container of solution, regardless of whether it contains nicotine, that is greater than five

milliliters, is taxed at a rate equal to nine cents per milliliter of solution and a proportionate tax at the like rate on all fractional parts of a milliliter thereof.

(b) The tax in this section must be imposed based on the volume of the solution as listed by the manufacturer.

(2)(a) The tax under this section must be collected at the time the distributor: (i) Brings, or causes to be brought, into this state from without the state vapor products for sale; (ii) makes, manufactures, fabricates, or stores vapor products in this state for sale in this state; (iii) ships or transports vapor products to retailers or consumers in this state; or (iv) handles for sale any vapor products that are within this state but upon which tax has not been imposed.

(b) The tax imposed under this section must also be collected by the department from the consumer of vapor products where the tax imposed under this section was not paid by the distributor on such vapor products.

(3)(a) The moneys collected under this section must be deposited as follows:

(i) Fifty percent into the Andy Hill cancer research endowment fund match transfer account created in RCW 43.348.080; and

(ii) Fifty percent into the foundational public health services account created in section 103 of this act.

(b) The funding provided under this subsection is intended to supplement and not supplant general fund investments in cancer research and foundational public health services.

**NEW SECTION. Sec. 103.** The foundational public health services account is created in the state treasury. Half of all of the moneys collected from the tax imposed on vapor products under RCW 66.44.010 must be deposited into the account. Moneys in the account may be spent only after appropriation. Moneys in the account are to be used for the following purposes:

(1) To fund foundational health services. In the 2019-2021 biennium, at least twelve million dollars of the funds deposited into the account must be appropriated for this purpose. Beginning in the 2021-2023 biennium, fifty percent of the funds deposited into the account, but not less than twelve million dollars each biennium, are to be used for this purpose;

(2) To fund tobacco, vapor product, and nicotine control and prevention, and other substance use prevention and education. Beginning in the 2021-2023 biennium, seventeen percent of the funds deposited into the account are to be used for this purpose;

(3) To support increased access and training of public health professionals at public health programs at accredited public institutions of higher education in Washington. Beginning in the 2021-2023 biennium, five percent of the funds deposited into the account are to be used for this purpose;

(4) To fund enforcement by the state liquor and cannabis board of the provisions of this chapter to prevent

sales of vapor products to minors and related provisions for control of marketing and product safety, provided that no more than eight percent of the funds deposited into the account may be appropriated for these enforcement purposes.

**NEW SECTION. Sec. 104.** It is the intent and purpose of this chapter to levy a tax on all vapor products sold, used, consumed, handled, possessed, or distributed within this state. It is the further intent and purpose of this chapter to impose the tax only once on all vapor products in this state. Nothing in this chapter may be construed to exempt any person taxable under any other law or under any other tax imposed under this title.

**NEW SECTION. Sec. 105.** The tax imposed by section 102 of this act does not apply with respect to any vapor products which under the Constitution and laws of the United States may not be made the subject of taxation by this state.

**NEW SECTION. Sec. 106.** (1) Every distributor must keep at each place of business complete and accurate records for that place of business, including itemized invoices, of vapor products held, purchased, manufactured, brought in or caused to be brought in from without the state, or shipped or transported to retailers in this state, and of all sales of vapor products made.

(2) These records must show the names and addresses of purchasers, the inventory of all vapor products, and other pertinent papers and documents relating to the purchase, sale, or disposition of vapor products. All invoices and other records required by this section to be kept must be preserved for a period of five years from the date of the invoices or other documents or the date of the entries appearing in the records.

(3) At any time during usual business hours the department, board, or its duly authorized agents or employees may enter any place of business of a distributor, without a search warrant, and inspect the premises, the records required to be kept under this chapter, and the vapor products contained therein, to determine whether or not all the provisions of this chapter are being fully complied with. If the department, board, or any of its agents or employees are denied free access or are hindered or interfered with in making such examination, the registration certificate issued under RCW 82.32.030 of the distributor at such premises are subject to revocation by the department, and any licenses issued under chapter 70.345, 82.26, or 82.24 RCW are subject to suspension or revocation by the board.

**NEW SECTION. Sec. 107.** Every person required to be licensed under chapter 70.345 RCW who sells vapor products to persons other than the ultimate consumer must render with each sale itemized invoices showing the seller's name and address, the purchaser's name and address, the date of sale, and all prices. The person must preserve legible copies of all such invoices for five years from the date of sale.

**NEW SECTION. Sec. 108.** (1) Every retailer must procure itemized invoices of all vapor products purchased.

The invoices must show the seller's name and address, the date of purchase, and all prices and discounts.

(2) The retailer must keep at each retail outlet copies of complete, accurate, and legible invoices for that retail outlet or place of business. All invoices required to be kept under this section must be preserved for five years from the date of purchase.

(3) At any time during usual business hours the department, board, or its duly authorized agents or employees may enter any retail outlet without a search warrant, and inspect the premises for invoices required to be kept under this section and the vapor products contained in the retail outlet, to determine whether or not all the provisions of this chapter are being fully complied with. If the department, board, or any of its agents or employees are denied free access or are hindered or interfered with in making the inspection, the registration certificate issued under RCW 82.32.030 of the retailer at the premises is subject to revocation by the department, and any licenses issued under chapter 70.345, 82.26, or 82.24 RCW are subject to suspension or revocation by the board.

**NEW SECTION. Sec. 109.** (1)(a) Where vapor products upon which the tax imposed by this chapter has been reported and paid are shipped or transported outside this state by the distributor to a person engaged in the business of selling vapor products, to be sold by that person, or are returned to the manufacturer by the distributor or destroyed by the distributor, or are sold by the distributor to the United States or any of its agencies or instrumentalities, or are sold by the distributor to any Indian tribal organization, credit of such tax may be made to the distributor in accordance with rules prescribed by the department.

(b) For purposes of this subsection (1), the following definitions apply:

(i) "Indian distributor" means a federally recognized Indian tribe or tribal entity that would otherwise meet the definition of "distributor" under section 101 of this act, if federally recognized Indian tribes and tribal entities were not excluded from the definition of "person" in section 101 of this act.

(ii) "Indian retailer" means a federally recognized Indian tribe or tribal entity that would otherwise meet the definition of "retailer" under section 101 of this act, if federally recognized Indian tribes and tribal entities were not excluded from the definition of "person" in section 101 of this act.

(iii) "Indian tribal organization" means a federally recognized Indian tribe, or tribal entity, and includes an Indian distributor or retailer that is owned by an Indian who is an enrolled tribal member conducting business under tribal license or similar tribal approval within Indian country.

(2) Credit allowed under this section must be determined based on the tax rate in effect for the period for which the tax imposed by this chapter, for which a credit is sought, was paid.

**NEW SECTION. Sec. 110.** All of the provisions contained in chapter 82.32 RCW not inconsistent with the provisions of this chapter have full force and application with respect to taxes imposed under the provisions of this chapter.

**NEW SECTION. Sec. 111.** The department must authorize, as duly authorized agents, enforcement officers of the board to enforce provisions of this chapter. These officers are not employees of the department.

**NEW SECTION. Sec. 112.** (1) The department may by rule establish the invoice detail required under section 106 of this act for a distributor and for those invoices required to be provided to retailers under section 108 of this act.

(2) If a retailer fails to keep invoices as required under section 108 of this act, the retailer is liable for the tax owed on any uninvoiced vapor products but not penalties and interest, except as provided in subsection (3) of this section.

(3) If the department finds that the nonpayment of tax by the retailer was willful or if in the case of a second or plural nonpayment of tax by the retailer, penalties and interest must be assessed in accordance with chapter 82.32 RCW.

**NEW SECTION. Sec. 113.** (1) No person may transport or cause to be transported in this state vapor products for sale other than: (a) A licensed distributor under chapter 70.345 RCW, or a manufacturer's representative authorized to sell or distribute vapor products in this state under chapter 70.345 RCW; (b) a licensed retailer under chapter 70.345 RCW; (c) a seller with a valid delivery sale license under chapter 70.345 RCW; or (d) a person who has given notice to the board in advance of the commencement of transportation.

(2) When transporting vapor products for sale, the person must have in his or her actual possession, or cause to have in the actual possession of those persons transporting such vapor products on his or her behalf, invoices or delivery tickets for the vapor products, which must show the true name and address of the consignor or seller, the true name and address of the consignee or purchaser, and the quantity and brands of the vapor products being transported.

(3) In any case where the department or the board, or any peace officer of the state, has knowledge or reasonable grounds to believe that any vehicle is transporting vapor products in violation of this section, the department, board, or peace officer is authorized to stop the vehicle and to inspect it for contraband vapor products.

(4) This section does not apply to a motor carrier or freight forwarder as defined in Title 49 U.S.C. Sec. 13102 or an air carrier as defined in Title 49 U.S.C. Sec. 40102.

**NEW SECTION. Sec. 114.** The board must compile and maintain a current record of the names of all distributors, retailers, and delivery sales licenses under chapter 70.345 RCW and the status of their license or licenses. The information must be updated on a monthly basis and published on the board's official internet web site.

This information is not subject to the confidentiality provisions of RCW 82.32.330 and must be disclosed to manufacturers, distributors, retailers, and the general public upon request.

**NEW SECTION. Sec. 115.** (1) No person engaged in or conducting business as a distributor or retailer in this state may:

(a) Make, use, or present or exhibit to the department or the board any invoice for any of the vapor products taxed under this chapter that bears an untrue date or falsely states the nature or quantity of the goods invoiced; or

(b) Fail to produce on demand of the department or the board all invoices of all the vapor products taxed under this chapter within five years prior to such demand unless the person can show by satisfactory proof that the nonproduction of the invoices was due to causes beyond the person's control.

(2)(a) No person, other than a licensed distributor, retailer or delivery sales licensee, or manufacturer's representative, may transport vapor products for sale in this state for which the taxes imposed under this chapter have not been paid unless:

(i) Notice of the transportation has been given as required under section 113 of this act;

(ii) The person transporting the vapor products actually possesses invoices or delivery tickets showing the true name and address of the consignor or seller, the true name and address of the consignee or purchaser, and the quantity and brands of vapor products being transported; and

(iii) The vapor products are consigned to or purchased by a person in this state who is licensed under chapter 70.345 RCW.

(b) A violation of this subsection (2) is a gross misdemeanor.

(3) Any person licensed under chapter 70.345 RCW as a distributor, and any person licensed under chapter 70.345 RCW as a retailer, may not operate in any other capacity unless the additional appropriate license is first secured, except as otherwise provided by law. A violation of this subsection (3) is a misdemeanor.

(4) The penalties provided in this section are in addition to any other penalties provided by law for violating the provisions of this chapter or the rules adopted under this chapter.

(5) This section does not apply to a motor carrier or freight forwarder as defined in Title 49 U.S.C. Sec. 13102 or an air carrier as defined in Title 49 U.S.C. Sec. 40102.

**NEW SECTION. Sec. 116.** (1) A retailer that obtains vapor products from an unlicensed distributor or any other person that is not licensed under chapter 70.345 RCW must be licensed both as a retailer and a distributor and is liable for the tax imposed under section 102 of this act with respect to the vapor products acquired from the unlicensed person that are held for sale, handling, or distribution in this state. For the purposes of this subsection, "person" includes

both persons defined in this act and any person immune from state taxation, such as the United States or its instrumentalities, and federally recognized Indian tribes and enrolled tribal members, conducting business within Indian country.

(2) Every distributor licensed under chapter 70.345 RCW may sell vapor products to retailers located in Washington only if the retailer has a current retailer's license under chapter 70.345 RCW.

**NEW SECTION. Sec. 117.** A manufacturer that has manufacturer's representatives who sell or distribute the manufacturer's vapor products in this state must provide the board a list of the names and addresses of all such representatives and must ensure that the list provided to the board is kept current. A manufacturer's representative is not authorized to distribute or sell vapor products in this state unless the manufacturer that hired the representative has a valid distributor's license under chapter 70.345 RCW and that manufacturer provides the board a current list of all of its manufacturer's representatives as required by this section. A manufacturer's representative must carry a copy of the distributor's license of the manufacturer that hired the representative at all times when selling or distributing the manufacturer's vapor products.

**NEW SECTION. Sec. 118.** (1) Any vapor products in the possession of a person selling vapor products in this state acting as a distributor or retailer and who is not licensed as required under chapter 70.345 RCW, or a person who is selling vapor products in violation of RCW 82.24.550(6), may be seized without a warrant by any agent of the department, agent of the board, or law enforcement officer of this state. Any vapor products seized under this subsection are deemed forfeited.

(2) Any vapor products in the possession of a person who is not a licensed distributor, delivery seller, manufacturer's representative, or retailer and who transports vapor products for sale without having provided notice to the board required under section 113 of this act, or without invoices or delivery tickets showing the true name and address of the consignor or seller, the true name and address of the consignee or purchaser, and the quantity and brands of vapor products being transported may be seized and are subject to forfeiture.

(3) All conveyances, including aircraft, vehicles, or vessels that are used, or intended for use to transport, or in any manner to facilitate the transportation, for the purpose of sale or receipt of vapor products under subsection (2) of this section, may be seized and are subject to forfeiture except:

(a) A conveyance used by any person as a common or contract carrier having in actual possession invoices or delivery tickets showing the true name and address of the consignor or seller, the true name of the consignee or purchaser, and the quantity and brands of the vapor products transported, unless it appears that the owner or other person in charge of the conveyance is a consenting party or privy to a violation of this chapter;

(b) A conveyance subject to forfeiture under this section by reason of any act or omission of which the owner

establishes to have been committed or omitted without his or her knowledge or consent; or

(c) A conveyance encumbered by a bona fide security interest if the secured party neither had knowledge of nor consented to the act or omission.

(4) Property subject to forfeiture under subsections (2) and (3) of this section may be seized by any agent of the department, the board, or law enforcement officer of this state upon process issued by any superior court or district court having jurisdiction over the property. Seizure without process may be made if:

(a) The seizure is incident to an arrest or a search warrant or an inspection under an administrative inspection warrant; or

(b) The department, board, or law enforcement officer has probable cause to believe that the property was used or is intended to be used in violation of this chapter and exigent circumstances exist making procurement of a search warrant impracticable.

(5) This section may not be construed to require the seizure of vapor products if the department's agent, board's agent, or law enforcement officer reasonably believes that the vapor products are possessed for personal consumption by the person in possession of the vapor products.

(6) Any vapor products seized by a law enforcement officer must be turned over to the board as soon as practicable.

(7) This section does not apply to a motor carrier or freight forwarder as defined in Title 49 U.S.C. Sec. 13102 or an air carrier as defined in Title 49 U.S.C. Sec. 40102.

**NEW SECTION. Sec. 119.** (1) In all cases of seizure of any vapor products made subject to forfeiture under this chapter, the department or board must proceed as provided in RCW 82.24.135.

(2) When vapor products are forfeited under this chapter, the department or board may:

(a) Retain the property for official use or upon application by any law enforcement agency of this state, another state, or the District of Columbia, or of the United States for the exclusive use of enforcing this chapter or the laws of any other state or the District of Columbia or of the United States; or

(b) Sell the vapor products at public auction to the highest bidder after due advertisement. Before delivering any of the goods to the successful bidder, the department or board must require the purchaser to pay the proper amount of any tax due. The proceeds of the sale must be first applied to the payment of all proper expenses of any investigation leading to the seizure and of the proceedings for forfeiture and sale, including expenses of seizure, maintenance of custody, advertising, and court costs. The balance of the proceeds and all money must be deposited in the general fund of the state. Proper expenses of investigation include costs incurred by any law enforcement agency or any federal, state, or local agency.

(3) The department or the board may return any property seized under the provisions of this chapter when it is shown that there was no intention to violate the provisions of this chapter. When any property is returned under this section, the department or the board may return the property to the parties from whom they were seized if and when such parties have paid the proper amount of tax due under this chapter.

**NEW SECTION. Sec. 120.** When the department or the board has good reason to believe that any of the vapor products taxed under this chapter are being kept, sold, offered for sale, or given away in violation of the provisions of this chapter, it may make affidavit of facts describing the place or thing to be searched, before any judge of any court in this state, and the judge must issue a search warrant directed to the sheriff, any deputy, police officer, or duly authorized agent of the department or the board commanding him or her diligently to search any building, room in a building, place, or vehicle as may be designated in the affidavit and search warrant, and to seize the vapor products and hold them until disposed of by law.

**NEW SECTION. Sec. 121.** (1)(a) Where vapor products upon which the tax imposed by this chapter has been reported and paid are shipped or transported outside this state by the distributor to a person engaged in the business of selling vapor products, to be sold by that person, or are returned to the manufacturer by the distributor or destroyed by the distributor, or are sold by the distributor to the United States or any of its agencies or instrumentalities, or are sold by the distributor to any Indian tribal organization, credit of such tax may be made to the distributor in accordance with rules prescribed by the department.

(b) For purposes of this subsection (1), the following definitions apply:

(i) "Indian distributor" means a federally recognized Indian tribe or tribal entity that would otherwise meet the definition of "distributor" under section 101 of this act, if federally recognized Indian tribes and tribal entities were not excluded from the definition of "person" in section 101 of this act.

(ii) "Indian retailer" means a federally recognized Indian tribe or tribal entity that would otherwise meet the definition of "retailer" under section 101 of this act, if federally recognized Indian tribes and tribal entities were not excluded from the definition of "person" in section 101 of this act.

(iii) "Indian tribal organization" means a federally recognized Indian tribe, or tribal entity, and includes an Indian distributor or retailer that is owned by an Indian who is an enrolled tribal member conducting business under tribal license or similar tribal approval within Indian country.

(2) Credit allowed under this section must be determined based on the tax rate in effect for the period for which the tax imposed by this chapter, for which a credit is sought, was paid.

**NEW SECTION. Sec. 122.** (1) Preexisting inventories of vapor products are subject to the tax imposed in section 102 of this act. All retailers and other distributors must report the tax due under section 102 of this act on preexisting inventories of vapor products on a form, as prescribed by the department, on or before October 31, 2019, and the tax due on such preexisting inventories must be paid on or before January 31, 2020.

(2) Reports under subsection (1) of this section not filed with the department by October 31, 2019, are subject to a late filing penalty equal to the greater of two hundred fifty dollars or ten percent of the tax due under section 102 of this act on the taxpayer's preexisting inventories.

(3) The department must notify the taxpayer of the amount of tax due under section 102 of this act on preexisting inventories, which is subject to applicable penalties under RCW 82.32.090 (2) through (7) if unpaid after January 31, 2020. Amounts due in accordance with this section are not considered to be substantially underpaid for the purposes of RCW 82.32.090(2).

(4) Interest, at the rate provided in RCW 82.32.050(2), must be computed daily beginning February 1, 2020, on any remaining tax due under section 102 of this act on preexisting inventories until paid.

(5) A retailer required to comply with subsection (1) of this section is not required to obtain a distributor license as otherwise required under chapter 70.345 RCW as long as the retailer:

(a) Does not sell vapor products other than to ultimate consumers; and

(b) Does not meet the definition of "distributor" in section 101 of this act other than with respect to the sale of that retailer's preexisting inventory of vapor products.

(6) Taxes may not be collected under section 102 of this act from consumers with respect to any vapor products acquired before the effective date of this section.

(7) For purposes of this section, "preexisting inventory" means an inventory of vapor products located in this state as of the moment that section 102 of this act takes effect and held by a distributor for sale, handling, or distribution in this state.

**Sec. 203.** RCW 82.24.510 and 2013 c 144 s 50 are each amended to read as follows:

(1) The licenses issuable under this chapter are as follows:

(a) A wholesaler's license.

(b) A retailer's license.

(2) Application for the licenses must be made through the business licensing system under chapter 19.02 RCW. The board must adopt rules regarding the regulation of the licenses. The board may refrain from the issuance of any license under this chapter if the board has reasonable cause to believe that the applicant has willfully withheld information requested for the purpose of determining the eligibility of the applicant to receive a license, or if the board has reasonable cause to believe that information submitted in the application is false or misleading or is not made in good faith. In addition, for the purpose of reviewing an application for a wholesaler's license or retailer's license and for considering the denial, suspension, or revocation of any such license, the board may consider any prior criminal conduct of the applicant, including an administrative violation history record with the board and a criminal history record information check within the previous five years, in any state, tribal, or federal jurisdiction in the United States, its territories, or possessions, and the provisions of RCW 9.95.240 and chapter 9.96A RCW do not apply to such cases. The board may, in its discretion, grant or refuse the wholesaler's license or retailer's license, subject to the provisions of RCW 82.24.550.

(3) No person may qualify for a wholesaler's license or a retailer's license under this section without first undergoing a criminal background check. The background check must be performed by the board and must disclose any criminal conduct within the previous five years in any state, tribal, or federal jurisdiction in the United States, its territories, or possessions. A person who possesses a valid license on July 22, 2001, is subject to this subsection and subsection (2) of this section beginning on the date of the person's business license expiration under chapter 19.02 RCW, and thereafter. If the applicant or licensee also has a license issued under chapter 66.24 (~~or~~), 82.26, or 70.345 RCW, the background check done under the authority of chapter 66.24 (~~or~~), 82.26, or 70.345 RCW satisfies the requirements of this section.

(4) Each such license expires on the business license expiration date, and each such license must be continued annually if the licensee has paid the required fee and complied with all the provisions of this chapter and the rules of the board made pursuant thereto.

(5) Each license and any other evidence of the license that the board requires must be exhibited in each place of business for which it is issued and in the manner required for the display of a business license.

**Sec. 204.** RCW 82.24.550 and 2015 c 86 s 307 are each amended to read as follows:

(1) The board must enforce the provisions of this chapter. The board may adopt, amend, and repeal rules necessary to enforce the provisions of this chapter.

(2) The department may adopt, amend, and repeal rules necessary to administer the provisions of this chapter. The board may revoke or suspend the license or permit of any wholesale or retail cigarette dealer in the state upon sufficient cause appearing of the violation of this chapter or upon the failure of such licensee to comply with any of the provisions of this chapter.

(3) A license may not be suspended or revoked except upon notice to the licensee and after a hearing as prescribed by the board. The board, upon finding that the licensee has failed to comply with any provision of this chapter or any rule adopted under this chapter, must, in the case of the first offense, suspend the license or licenses of the licensee for a period of not less than thirty consecutive business days, and, in the case of a second or further offense, must suspend the license or licenses for a period of not less than ninety consecutive business days nor more than twelve months, and, in the event the board finds the licensee has been guilty of willful and persistent violations, it may revoke the license or licenses.

(4) Any licenses issued under chapter 82.26 or 70.345 RCW to a person whose license or licenses have been suspended or revoked under this section must also be suspended or revoked during the period of suspension or revocation under this section.

(5) Any person whose license or licenses have been revoked under this section may reapply to the board at the expiration of one year from the date of revocation of the license or licenses. The license or licenses may be approved by the board if it appears to the satisfaction of the board that the licensee will comply with the provisions of this chapter and the rules adopted under this chapter.

(6) A person whose license has been suspended or revoked may not sell cigarettes, vapor products, or tobacco products or permit cigarettes, vapor products, or tobacco products to be sold during the period of such suspension or revocation on the premises occupied by the person or upon other premises controlled by the person or others or in any other manner or form whatever.

(7) Any determination and order by the board, and any order of suspension or revocation by the board of the license or licenses issued under this chapter, or refusal to reinstate a license or licenses after revocation is reviewable by an appeal to the superior court of Thurston county. The superior court must review the order or ruling of the board and may hear the matter de novo, having due regard to the provisions of this chapter and the duties imposed upon the board.

(8) If the board makes an initial decision to deny a license or renewal, or suspend or revoke a license, the applicant may request a hearing subject to the applicable provisions under Title 34 RCW.

(9) For purposes of this section~~(s)~~:

(a) "Tobacco products" has the same meaning as provided in RCW 82.26.010; and

(b) "Vapor products" has the same meaning as provided in section 101 of this act.

**Sec. 205.** RCW 82.26.060 and 2009 c 154 s 3 are each amended to read as follows:

(1) Every distributor ~~((shall))~~ must keep at each place of business complete and accurate records for that place of business, including itemized invoices, of tobacco products held, purchased, manufactured, brought in or caused to be brought in from without the state, or shipped or transported to retailers in this state, and of all sales of tobacco products made.

(2) These records ~~((shall))~~ must show the names and addresses of purchasers, the inventory of all tobacco products, and other pertinent papers and documents relating to the purchase, sale, or disposition of tobacco products. All invoices and other records required by this section to be kept ~~((shall))~~ must be preserved for a period of five years from the date of the invoices or other documents or the date of the entries appearing in the records.

(3) At any time during usual business hours the department, board, or its duly authorized agents or employees, may enter any place of business of a distributor, without a search warrant, and inspect the premises, and the records required to be kept under this chapter, and the tobacco products contained therein, to determine whether or not all the provisions of this chapter are being fully complied with. If the department, board, or any of its agents or employees, are denied free access or are hindered or interfered with in making such examination, the registration certificate issued under RCW 82.32.030 of the distributor at such premises ~~((shall be))~~ is subject to revocation, and any licenses issued under this chapter or chapter 82.24 or 70.345 RCW are subject to suspension or revocation, by the department or board.

**Sec. 206.** RCW 82.26.080 and 2005 c 180 s 5 are each amended to read as follows:

(3) At any time during usual business hours the department, board, or its duly authorized agents or employees may enter any retail outlet without a search warrant, and inspect the premises for invoices required to be kept under this section and the tobacco products contained in the retail outlet, to determine whether or not all the provisions of this chapter are being fully complied with. If the department, board, or any of its agents or employees, are

denied free access or are hindered or interfered with in making the inspection, the registration certificate issued under RCW 82.32.030 of the retailer at the premises is subject to revocation, and any licenses issued under this chapter or chapter 82.24 or 70.345 RCW are subject to suspension or revocation by the department.

**Sec. 207.** RCW 82.26.150 and 2013 c 144 s 52 are each amended to read as follows:

(1) The licenses issuable by the board under this chapter are as follows:

- (a) A distributor's license; and
- (b) A retailer's license.

(2) Application for the licenses must be made through the business licensing system under chapter 19.02 RCW. The board may adopt rules regarding the regulation of the licenses. The board may refuse to issue any license under this chapter if the board has reasonable cause to believe that the applicant has willfully withheld information requested for the purpose of determining the eligibility of the applicant to receive a license, or if the board has reasonable cause to believe that information submitted in the application is false or misleading or is not made in good faith. In addition, for the purpose of reviewing an application for a distributor's license or retailer's license and for considering the denial, suspension, or revocation of any such license, the board may consider criminal conduct of the applicant, including an administrative violation history record with the board and a criminal history record information check within the previous five years, in any state, tribal, or federal jurisdiction in the United States, its territories, or possessions, and the provisions of RCW 9.95.240 and chapter 9.96A RCW do not apply to such cases. The board may, in its discretion, issue or refuse to issue the distributor's license or retailer's license, subject to the provisions of RCW 82.26.220.

(3) No person may qualify for a distributor's license or a retailer's license under this section without first undergoing a criminal background check. The background check must be performed by the board and must disclose any criminal conduct within the previous five years in any state, tribal, or federal jurisdiction in the United States, its territories, or possessions. If the applicant or licensee also has a license issued under chapter 66.24 ~~((or))~~, 82.24, or 70.345 RCW, the background check done under the authority of chapter 66.24, 70.345, or 82.24 RCW satisfies the requirements of this section.

(4) Each license issued under this chapter expires on the business license expiration date. The license must be continued annually if the licensee has paid the required fee and complied with all the provisions of this chapter and the rules of the board adopted pursuant to this chapter.

(5) Each license and any other evidence of the license required under this chapter must be exhibited in each place of business for which it is issued and in the manner required for the display of a business license.

**Sec. 208.** RCW 82.26.220 and 2015 c 86 s 308 are each amended to read as follows:

(1) The board must enforce this chapter. The board may adopt, amend, and repeal rules necessary to enforce this chapter.

(2) The department may adopt, amend, and repeal rules necessary to administer this chapter. The board may revoke or suspend the distributor's or retailer's license of any distributor or retailer of tobacco products in the state upon sufficient cause showing a violation of this chapter or upon the failure of the licensee to comply with any of the rules adopted under it.

(3) A license may not be suspended or revoked except upon notice to the licensee and after a hearing as prescribed by the board. The board, upon finding that the licensee has failed to comply with any provision of this chapter or of any rule adopted under it, must, in the case of the first offense, suspend the license or licenses of the licensee for a period of not less than thirty consecutive business days, and in the case of a second or further offense, suspend the license or licenses for a period of not less than ninety consecutive business days but not more than twelve months, and in the event the board finds the licensee has been guilty of willful and persistent violations, it may revoke the license or licenses.

(4) Any licenses issued under chapter 82.24 or 70.345 RCW to a person whose license or licenses have been suspended or revoked under this section must also be suspended or revoked during the period of suspension or revocation under this section.

(5) Any person whose license or licenses have been revoked under this section may reapply to the board at the expiration of one year of the license or licenses. The license or licenses may be approved by the board if it appears to the satisfaction of the board that the licensee will comply with the provisions of this chapter and the rules adopted under it.

(6) A person whose license has been suspended or revoked may not sell tobacco products, vapor products, or cigarettes or permit tobacco products, vapor products, or cigarettes to be sold during the period of suspension or revocation on the premises occupied by the person or upon other premises controlled by the person or others or in any other manner or form.

(7) Any determination and order by the board, and any order of suspension or revocation by the board of the license or licenses issued under this chapter, or refusal to reinstate a license or licenses after revocation is reviewable by an appeal to the superior court of Thurston county. The superior court must review the order or ruling of the board and may hear the matter de novo, having due regard to the provisions of this chapter and the duties imposed upon the board.

(8) If the board makes an initial decision to deny a license or renewal, or suspend or revoke a license, the applicant may request a hearing subject to the applicable provisions under Title 34 RCW.

(4) The department ~~((shall)) must~~ exercise general supervision of the collection of taxes and, in the discharge of such duty, may institute and prosecute such suits or proceedings in the courts as may be necessary and proper.

### Part III

#### Tribal Compacting

**Sec. 301.** RCW 43.06.450 and 2001 c 235 s 1 are each amended to read as follows:

The legislature intends to further the government-to-government relationship between the state of Washington and Indians in the state of Washington by authorizing the governor to enter into contracts concerning the sale of cigarettes and vapor products. The legislature finds that these cigarette tax and vapor product tax contracts will provide a means to promote economic development, provide needed revenues for tribal governments and Indian persons, and enhance enforcement of the state's cigarette tax ~~((law))~~ and vapor product tax, ultimately saving the state money and reducing conflict. In addition, it is the intent of the legislature that the negotiations and the ensuing contracts ~~((shall))~~ have no impact on the state's share of the proceeds under the master settlement agreement entered into on November 23, 1998, by the state. Chapter 235, Laws of 2001 ~~((does))~~ and this act do not constitute a grant of taxing authority to any Indian tribe nor ~~((does it))~~ do they provide precedent for the taxation of non-Indians on fee land.

NEW SECTION. **Sec. 302.** A new section is added to chapter 43.06 RCW to read as follows:

(1) The governor may enter into vapor product tax contracts concerning the sale of vapor products. All vapor product tax contracts must meet the requirements for vapor product tax contracts under this section.

(2) Vapor product tax contracts must be in regard to retail sales in which Indian retailers make delivery and physical transfer of possession of the vapor products from the seller to the buyer within Indian country, and are not in regard to transactions by non-Indian retailers. In addition, contracts may address the legal age of sale for vapor products pursuant to section 11, chapter 15, Laws of 2019.

(3) A vapor product tax contract with a tribe must provide for a tribal vapor product tax in lieu of all state vapor product taxes and state and local sales and use taxes on sales of vapor products in Indian country by Indian retailers. The tribe may allow an exemption for sales to tribal members.

(4) Vapor product tax contracts must provide that retailers must purchase vapor products only from:

(a) Wholesalers or manufacturers licensed to do business in the state of Washington;

(b) Out-of-state wholesalers or manufacturers who, although not licensed to do business in the state of Washington, agree to comply with the terms of the vapor product tax contract, are certified to the state as having so agreed, and do in fact so comply. However, the state may in its sole discretion exercise its administrative and enforcement powers over such wholesalers or manufacturers to the extent permitted by law;

(c) A tribal wholesaler that purchases only from a wholesaler or manufacturer described in (a), (b), or (d) of this subsection; and

(d) A tribal manufacturer.

(5) Vapor product tax contracts must be for renewable periods of no more than eight years.

(6) Vapor product tax contracts must include provisions for compliance, such as transport and notice requirements, inspection procedures, recordkeeping, and audit requirements.

(7) Tax revenue retained by a tribe must be used for essential government services. Use of tax revenue for subsidization of vapor products and food retailers is prohibited.

(8) The vapor product tax contract may include provisions to resolve disputes using a nonjudicial process, such as mediation.

(9) The governor may delegate the power to negotiate vapor product tax contracts to the department of revenue. The department of revenue must consult with the liquor and cannabis board during the negotiations.

(10) Information received by the state or open to state review under the terms of a contract is subject to the provisions of RCW 82.32.330.

(11) It is the intent of the legislature that the liquor and cannabis board and the department of revenue continue the division of duties and shared authority under chapter 82.-- RCW (the new chapter created in section 408 of this act) and therefore the liquor and cannabis board is responsible for enforcement activities that come under the terms of chapter 82.--- RCW (the new chapter created in section 408 of this act).

(12) Each vapor product tax contract must include a procedure for notifying the other party that a violation has occurred, a procedure for establishing whether a violation has in fact occurred, an opportunity to correct such violation, and a provision providing for termination of the contract should the violation fail to be resolved through this process, such termination subject to mediation should the terms of the contract so allow. A contract must provide for termination of the contract if resolution of a dispute does not occur within twenty-four months from the time notification of a violation has occurred. Intervening violations do not extend this time period. In addition, the contract must include provisions delineating the respective roles and responsibilities of the tribe, the department of revenue, and the liquor and cannabis board.

(13) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Essential government services" means services such as tribal administration, public facilities, fire, police, public health, education, job services, sewer, water, environmental and land use, transportation, utility services, and economic development.

(b) "Indian country" has the same meaning as provided in RCW 82.24.010.

(c) "Indian retailer" or "retailer" means:

(i) A retailer wholly owned and operated by an Indian tribe;

(ii) A business wholly owned and operated by a tribal member and licensed by the tribe; or

(iii) A business owned and operated by the Indian person or persons in whose name the land is held in trust.

(d) "Indian tribe" or "tribe" means a federally recognized Indian tribe located within the geographical boundaries of the state of Washington.

(e) "Vapor products" has the same meaning as provided in section 101 of this act.

**NEW SECTION. Sec. 303.** A new section is added to chapter 43.06 RCW to read as follows:

(1) The governor is authorized to enter into vapor product tax contracts with federally recognized Indian tribes located within the geographical boundaries of the state of Washington. Each contract adopted under this section must provide that the tribal vapor product tax rate be one hundred percent of the state vapor product tax and state and local sales and use taxes. The tribal vapor product tax is in lieu of the state vapor product tax and state and local sales and use taxes, as provided in section 302(3) of this act.

(2) A vapor product tax contract under this section is subject to section 302 of this act and is separate from a cigarette tax contract subject to RCW 43.06.455 or 43.06.466.

**NEW SECTION. Sec. 304.** A new section is added to chapter 43.06 RCW to read as follows:

(1) The governor may enter into a vapor product tax agreement with the Puyallup Tribe of Indians concerning the sale of vapor products, subject to the limitations in this section. The legislature intends to address the uniqueness of the Puyallup Indian reservation and its selling environment through pricing and compliance strategies, rather than through the imposition of equivalent taxes. The governor may delegate the authority to negotiate a vapor product tax agreement with the Puyallup Tribe to the department of revenue. The department of revenue must consult with the liquor and cannabis board during the negotiations. An agreement under this section is separate from an agreement under RCW 43.06.465.

(2) Any agreement must require the tribe to impose a tribal vapor product tax with a tax rate that is ninety percent of the state vapor product tax. This tribal tax is in lieu of the combined state and local sales and use taxes and the state vapor product tax, and as such these state taxes are not imposed during the term of the agreement on any transaction governed by the agreement. The tribal vapor product tax must increase or decrease at the time of any increase or decrease in the state vapor product tax so as to remain at a level that is ninety percent of the rate of the state vapor product tax.

(3) The agreement must include a provision requiring the tribe to transmit thirty percent of the tribal tax revenue on all vapor products sales to the state. The funds must be transmitted to the state treasurer on a quarterly basis for deposit by the state treasurer into the general fund. The remaining tribal tax revenue must be used for essential

government services, as that term is defined in section 302 of this act.

(4) The agreement is limited to retail sales in which Indian retailers make delivery and physical transfer of possession of the vapor products from the seller to the buyer within Indian country, and are not in regard to transactions by non-Indian retailers. In addition, agreements may address the legal age of sale for vapor products pursuant to section 11, chapter 15, Laws of 2019.

(5)(a) The agreement must include a provision to price and sell the vapor products so that the retail selling price is not less than the price paid by the retailer for the vapor products.

(b) The tribal tax is in addition to the retail selling price.

(c) The agreement must include a provision to assure the price paid to the retailer includes the tribal tax.

(d) If the tribe is acting as a distributor to tribal retailers, the retail selling price must not be less than the price the tribe paid for such vapor products plus the tribal tax.

(6)(a) The agreement must include provisions regarding enforcement and compliance by the tribe in regard to enrolled tribal members who sell vapor products and must describe the individual and joint responsibilities of the tribe, the department of revenue, and the liquor and cannabis board.

(b) The agreement must include provisions for tax administration and compliance, such as transport and notice requirements, inspection procedures, recordkeeping, and audit requirements.

(c) The agreement must include provisions for sharing of information among the tribe, the department of revenue, and the liquor and cannabis board.

(7) The agreement must provide that retailers must purchase vapor products only from distributors or manufacturers licensed to do business in the state of Washington.

(8) The agreement must be for a renewable period of no more than eight years.

(9) The agreement must include provisions to resolve disputes using a nonjudicial process, such as mediation, and must include a dispute resolution protocol. The protocol must include a procedure for notifying the other party that a violation has occurred, a procedure for establishing whether a violation has in fact occurred, an opportunity to correct such violation, and a provision providing for termination of the agreement should the violation fail to be resolved through this process, such termination subject to mediation should the terms of the agreement so allow. An agreement must provide for termination of the agreement if resolution of a dispute does not occur within twenty-four months from the time notification of a violation has occurred. Intervening violations do not extend this time period.

(10) Information received by the state or open to state review under the terms of an agreement is subject to RCW 82.32.330.

(11) It is the intent of the legislature that the liquor and cannabis board and the department of revenue continue the division of duties and shared authority under chapter 82.-- RCW (the new chapter created in section 408 of this act).

(12) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Indian country" has the same meaning as provided in RCW 82.24.010.

(b) "Indian retailer" or "retailer" means:

(i) A retailer wholly owned and operated by an Indian tribe; or

STATE OF WASHINGTON  
**OFFICE OF THE GOVERNOR**  
*P.O. Box 40002 • Olympia, Washington 98504-0002 • (360) 902-4111 • [www.governor.wa.gov](http://www.governor.wa.gov)*

May 21, 2019

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 1029(5), 1043(3), 1082(2), 1083(2), 1091(2), 3102, and 7019, Substitute House Bill No. 1102 entitled:

“AN ACT Relating to the capital budget.”

**Section 1029(5), page 17, Department of Commerce, 2019-21 Housing Trust Fund Program (40000036)**

I commend the Legislature for the capital budget appropriation of \$175 million for the Housing Trust Fund program. This vital funding will help preserve and build affordable units to address our state’s housing crisis. I share the concern that some projects serving those most in need lack sufficient funding streams to support long-term operations and services. However, Section 1029(5) directs Commerce to prioritize loan deferment for nearly all projects funded by the Housing Trust Fund. This proviso does not recognize that most of these projects serve a mix of households, including many that pay rent. Loan repayments from developers who receive rental income are reinvested in future Housing Trust Fund projects. I am directing the department to work with stakeholders and legislators to develop a fair and transparent policy for loan repayments, with the goal of ensuring the long-term viability of the state’s affordable housing investments. For these reasons, I have vetoed Section 1029(5).

**Section 1043(3), page 45, Department of Commerce, Washington Broadband Program (40000117)**

I appreciate the bipartisan effort to pass the Washington state broadband service bill (Second Substitute Senate Bill 5511) to expand affordable, resilient broadband service. The bill lays out the roles and responsibilities of the agencies involved, including the Governor’s statewide broadband office, Public Works Board (PWB), Community Economic Revitalization Board (CERB), Department of Commerce, and Utilities and Transportation Commission (UTC). However, Section 1043(3) contains language requiring the PWB to collaborate with CERB to implement the funding provided in the Universal Communications Services Account. This account funds the state universal communications services program administered by the UTC, and by statute only the UTC may authorize expenditures from the account. For this reason, I have vetoed Section 1043(3).

**Section 1082(2), page 63, Department of Enterprise Services, Roof Replacement – Cherberg and Insurance Buildings (40000032)**

This appropriation is for the replacement and construction of the Insurance and Cherberg Building roofs. This amount assumes cost savings by completing both roofs at the same time. Section 1082(2) limits the ability to complete this project by requiring the completion of the Cherberg Building roof before beginning work on the Insurance Building. For this reason, I have vetoed Section 1082(2).

**Section 1083(2), pages 63-64, Department of Enterprise Services, Legislative Building Exterior Preservation Cleaning (40000033)**

This reappropriation is for cleaning the exterior of the Legislative Building and to make various repairs. Section 1083(2) sets unrealistic expectations for what the department will be able to complete within the amount appropriated. For this reason, I have vetoed Section 1083(2). However, the department will continue the cleaning and repair work with the funding provided.

**Section 1091(2), pages 66-67, Department of Enterprise Services, Legislative Building Cleaning (92000028)**

This appropriation is for cleaning the exterior of Capitol Campus buildings, beginning with the Insurance Building. Section 1091(2) sets unrealistic expectations for what the department will be able to complete within the amount appropriated. For this reason, I have vetoed Section 1091(2). However, the department will continue the cleaning and repair work with the funding provided.

**Section 3102, page 140, Department of Ecology, Port of Port Angeles Stormwater (91000358)**

The appropriation in Section 3102 is duplicative of Section 129 of the 2019-21 operating budget (Engrossed Substitute House Bill 1109). For this reason, I have vetoed Section 3102.

**Section 7019, pages 315-316, Review of Hazardous Substance Tax**

This section directs the Department of Ecology, in consultation with the Department of Revenue and the Department of Transportation, to review the enforcement of the application of the hazardous substance tax to aviation fuels and submit recommendations to the appropriate legislative committees for the application of all state and local taxes to these fuels. The budget did not include funding for this effort and the cost of this work cannot be absorbed. However, I am directing the Office of Financial Management to collaborate with these agencies to examine revenue and expenditure data in light of any relevant federal regulations. For these reasons, I have vetoed Section 7019.

For these reasons I have vetoed Sections 1029(5), 1043(3), 1082(2), 1083(2), 1091(2), 3102, and 7019 of Substitute House Bill No. 1102.

With the exception of Sections 1029(5), 1043(3), 1082(2), 1083(2), 1091(2), 3102, and 7019, Substitute House Bill No. 1102 is approved.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read "Jay Inslee", is written over a light gray rectangular background.

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 103(2); 127(13); 129(37); 129(43); 129(73); 131(12); 131(13); 144(3); 144(5); 147, page 67, lines 3-8; 203(1)(m); 203(1)(v); 203(1)(x); 204(30); 204(34); 205(1)(d)(ii); 212(6); 222(1)(a); 222(3)(c); 302(10); 302(30); 306(4); 308(22); 309(15); 401(3); 601(9); 613(3); 723; 1005, page 464, lines 11-13; 1020; 1118(3), page 649, lines 12-13; 1118(4), page 656, lines 16-17; and 1702, page 801, lines 28-30, Engrossed Substitute House Bill No. 1109 entitled:

“AN ACT Relating to fiscal matters.”

**Section 103(2), page 3, Joint Legislative Audit and Review Committee, Study**

This section provides \$19,000 from the Performance Audits of Government Account solely for implementation of Engrossed Third Substitute House Bill 1324. This funding was provided for an earlier version of the bill that required JLARC to complete a study. The final bill does not require a JLARC study. For this reason, I have vetoed Section 103(2).

**Section 129(43), page 36, Department of Commerce, Biorefinery Feasibility Study**

This section provides \$300,000 General Fund–State to contract with the University of Washington for a feasibility study to construct a biorefinery in southwest Washington. This section duplicates funding provided to the University of Washington in Section 606(1)(nn) for this same purpose. For this reason, I have vetoed Section 129(43).

**Section 129(73), page 44, Department of Commerce, Engrossed Substitute Senate Bill 5600, Residential Tenants**

This section states that the appropriations for the Department of Commerce include sufficient funding for implementation of Engrossed Substitute Senate Bill 5600 (ESSB 5600). ESSB 5600 is null and void if specific funding is not provided in the capital or operating appropriations bills. Funding was provided in Section 1065 of Substitute House Bill 1102 (the 2019-21 capital budget) specifically for implementation of ESSB 5600, which satisfies the null and void clause in the bill. For this reason, I have vetoed Section 129(73).

**Section 131(12), pages 48-49, Office of Financial Management, Facilities Data Reporting**

The Office of Financial Management’s (OFM) current lease tracking database, the Facilities Portfolio Management Tool (FPMT), does not have the capacity to provide all of the fund source

data required by Section 131(12). Funding for modifications to FPMT provided in Section 131(11) will enable OFM to meet the data collection requirements of Section 131(12) by June 2021 without requiring 68 agencies with 1,108 leases to do burdensome manual data extraction and input. For this reason, I have vetoed Section 131(12).

**Section 131(13), page 49, Office of Financial Management, Higher Education Accounting Standards**

This section requires the Office of Financial Management to create appropriation standards and procedures to allow institutions of higher education to report additional revenue, spending and allotment information to the state's accounting system. This section relates to Section 601(9), which prohibits General Fund transfers to reimburse major expenses, such as employee payroll. This prohibition would cause a significant state accounting challenge. Because this would create a significant workload for the OFM Statewide Accounting office, and no funding was provided to perform these activities, I have vetoed Section 131(13).

**Section 203(1)(m), page 91, Department of Social and Health Services – Developmental Disabilities Program, Reports on Community Transitions from Residential Habilitation Centers**

This section directs the Department of Social and Health Services – Developmental Disabilities Program to report to the governor and the Legislature on the feasibility of adding enhanced service facilities to Medicaid waivers and specific barriers to doing so and to make policy recommendations to improve community placements for residents who wish to transition from residential habilitation centers. Much of this information was already addressed in a report submitted to the Legislature by the Ruckelshaus work group last December. In addition, no funding was provided to perform these activities. Because of these reasons, I have vetoed Section 203(1)(m).

**Section 203(1)(v), page 93, Department of Social and Health Services – Developmental Disabilities Program, Reports on Services for Clients and Families in Rural Areas**

This section directs the Department of Social and Health Services – Developmental Disabilities Program to report to the Legislature on policies to maximize service delivery and increase client flexibility to self-direct service in rural areas. Because no funding was provided to perform these activities, I have vetoed Section 203(1)(v).

**Section 204(30), page 107, Department of Social and Health Services – Aging and Adult Services Program, Work Group on Pediatric Skilled Nursing Facilities**

This section directs the Department of Social and Health Services – Aging and Adult Services Program to form a work group and report to the governor and the Legislature on policies to allow a pediatric skilled nursing facility to temporarily admit medically fragile children with complex medical conditions. Because no funding was provided to perform these activities, I have vetoed Section 204(30).

**Section 205(1)(d)(ii), page 110, Department of Social and Health Services – Economic Services Administration, Working Connections Child Care Quality Control**

This section requires the Department of Social and Health Services (DSHS) – Economic Services Administration to ensure quality control measures for the Working Connections Child Care (WCCC) program within existing appropriations. This directive conflicts with House Bill 2816

(Chapter 52, Laws of 2018) that transfers all powers, duties, and functions of the WCCC program from DSHS to the Department of Children, Youth, and Families (DCYF), effective July 1, 2019. To support the transition of the WCCC program, I have vetoed this section and am directing DCYF to conduct quality control activities for the WCCC program within existing appropriations. Quality control measures must focus on the WCCC eligibility criteria, including but not limited to, participation in work or other approved activities, household composition, and the maximum number of subsidized child care hours authorized. I am also directing DSHS to ensure DCYF has access to the information technology systems necessary to perform WCCC quality control activities. For these reasons, I have vetoed Section 205(1)(d)(ii).

**Section 212(6), page 138, Health Care Authority, Public Employees Benefits Board, Report on Benefit Options**

This section requires, but does not fund, another report on Medicare-eligible retiree medical coverage. The Health Care Authority has already completed an essentially identical study. My budget proposal included \$1.5 million to move forward in providing an additional insurance option for these retirees. Another study would be duplicative and delay a solution to increasingly expensive health insurance for retirees. I am directing the Health Care Authority, working with the Public Employees Benefits Board, to continue development of one or more retiree benefit choices that may be less expensive and better leverage federal funding. For these reasons, I have vetoed Section 212 (6).

**Section 601(9), page 317, Institutions of Higher Education, Accounting Standards and Reporting**

This section requires institutions of higher education to report to the state accounting system in accordance with new standards and procedures created under Section 131(13) and prohibits the institutions from using standard accounting practices to transfer funding from the General Fund to other accounts, beginning July 1, 2020. No funding was provided for the Office of Financial Management to develop new accounting standards for higher education institutions under Section 131(13). Additionally, the prohibition on General Fund transfers is limited to these institutions and would not allow the General Fund to reimburse major expenditures, such as employee payroll. For these reasons, I have vetoed Section 601(9).

**Section 613(3), page 346, Student Achievement Council, State Need Grant Awards**

This section ties State Need Grant award amounts for private four-year not-for-profit institutions to the average grant award for public research universities, estimated to be \$10,606 per FTE student in the 2019-20 academic year. This proviso conflicts with Engrossed Second Substitute House Bill 2158 (E2SHB 2158), Section 21(5)(b), that sets grant awards at \$9,739 per FTE student in the 2019-20 academic year and allows the amount to increase by a tuition growth factor each year thereafter. As a substantive bill, the setting of the grant awards in E2SHB 2158 should prevail. For this reason, I have vetoed Section 613(3).

**Section 723, pages 370-371, Office of Financial Management, Agency Efficiencies**

This section requires indiscriminate reductions in agency budgets. These spending reductions do not reflect any real savings or efficiencies. They are simply arbitrary budget cuts, which hinder the ability of agencies to perform the responsibilities with which the Legislature has tasked them and to fulfill their missions to serve Washingtonians. For this reason, I have vetoed Section 723.

**Section 1005, page 464, lines 11-13, Office of the Governor, Economic Development Strategic Reserve Account-State Appropriation**

This section reduces the Economic Development Strategic Reserve Account appropriation by \$2.0 million in the 2019 supplemental budget. This reduction limits the state's ability to issue grants for key economic investments specifically for recruiting and retaining businesses. Furthermore, the state would be required to rescind several grant awards that have already been announced if this reduction were to occur. For these reasons, I have vetoed Section 1005, page 464, lines 11-13.

**Section 1020, pages 507-509, Consolidated Technical Services, Proviso Exceeds Appropriation**

Section 1020 amends two existing proviso amounts to match the total appropriation without regard to a third proviso that must also be covered by the total appropriation. The changes to these two provisos result in these three provisos having appropriations greater than the total amount appropriated from the account. For this reason, I have vetoed Section 1020.

**Section 1118(3), page 649, lines 12-13, Department of Children, Youth and Families, Children and Families Services Program, General Fund-State Appropriation**

The 2019 supplemental appropriation from the General Fund-State for the Children and Families Services Program was reduced by \$1,126,000. Additional spending authority may be necessary to cover rising costs due to parent and child visits and central service expenditures. I have vetoed this reduction to maintain the original spending authority. I am directing the Office of Financial Management to retain the entire \$1,126,000 in unallotted status and that the additional authority only be used if necessary to close fiscal year 2019, with approval from the director of the Office of Financial Management. For this reason, I have vetoed Section 1118(3), page 649, lines 12-13.

**Section 1118(4), page 656, lines 16-17, Department of Children, Youth and Families, Early Learning Program, General Fund-State Appropriation**

The 2019 supplemental appropriation from the General Fund-State for the Early Learning Program was reduced by \$1,481,000. Additional spending authority may be necessary to cover rising costs due to parent and child visits and central service expenditures. I have vetoed this reduction to maintain the original spending authority. I am directing the Office of Financial Management to retain the entire \$1,481,000 in unallotted status and that the additional authority only be used if necessary to close fiscal year 2019, with approval from the director of the Office of Financial Management. For this reason, I have vetoed Section 1118(4), page 656, lines 16-17.

**Section 1702, page 801, lines 28 through 30, Treasurer's Transfers, State Toxics Control Account to State General Fund**

This section transfers \$38,000,000 from the State Toxics Control Account to the State General Fund by the end of fiscal year 2019. When combined with appropriations specified in the 2019-21 operating budget, this transfer contributes to a projected negative balance in the new Model Toxics Control Operating Account created in Engrossed Substitute Senate Bill 5993. As a result, we would not be able to ensure a positive balance in the new account. For this reason, I have vetoed Section 1702, lines 28-30.

**Section 302(30), page 222, Department of Ecology; Section 306(4), page 227, State Conservation Commission; Section 308(22), page 238, Department of Natural Resources; and Section 309(15), page 243, Department of Agriculture**

These four sections provided appropriations to implement Second Substitute House Bill 1579 (2SHB 1579) Section 13 (Chinook Abundance). Previously, I vetoed Section 13 of 2SHB 1579; therefore, the funding to implement this work is no longer necessary. As a result, I have vetoed Sections 302(30), 306(4), 308(22), and 309(15) to reflect my partial veto of 2SHB 1579.

I have vetoed the following sections related to bills that did not pass the Legislature resulting in the lapse of funding. My veto of these sections will serve to clean up these unnecessary sections of the bill.

Section 127(13), page 23, Office of the Attorney General, E2SSB 5740, Retirement Savings Program

Section 129(37), page 34, Department of Commerce, E2SHB 1110, Greenhouse Gas/Transportation Fuels.

Section 144(3), page 62, Utilities and Transportation Commission, ESHB 1332, Energy Site Evaluation Council.

Section 144(5), page 62, Utilities and Transportation Commission, HB1841, Crew Size on Certain Trains.

Section 147, page 67, lines 3-8, Board for Volunteer Firefighters, EHB 1912, Pension Benefits and Contributions.

Section 203(1)(x), page 93, Department of Social and Health Services Developmental Disabilities Program, SHB 1023, Adult Family Homes/8 beds.

Section 204(34), page 107, Department of Social and Health Services Aging and Adult Services Program, SHB 1023, Adult Family Homes/8 beds.

Section 222(1)(a), page 185, Department of Corrections, SSB 5876, DOC Gender Trauma Work Group.

Section 222(3)(c), page 189, Department of Corrections, E2SSB 5291, Confinement Alternatives/Children.

Section 302(10), page 219, Department of Ecology, ESSB 5323, Plastic Bags.

Section 401(3), page 245, Department of Licensing, ESB 5616, Manicuring for Diabetics

For these reasons I have vetoed Sections 103(2); 127(13); 129(37); 129(43); 129(73); 131(12); 131(13); 144(3); 144(5); 147, page 67, lines 3-8; 203(1)(m); 203(1)(v); 203(1)(x); 204(30); 204(34); 205(1)(d)(ii); 212(6); 222(1)(a); 222(3)(c); 302(10); 302(30); 306(4); 308(22); 309(15); 401(3); 601(9); 613(3); 723; 1005, page 464, lines 11-13; 1020; 1118(3), page 649, lines 12-13; 1118(4), page 656, lines 16-17; and 1702, page 801, lines 28-30 of Engrossed Substitute House Bill No. 1109.

With the exception of Sections 103(2); 127(13); 129(37); 129(43); 129(73); 131(12); 131(13); 144(3); 144(5); 147, page 67, lines 3-8; 203(1)(m); 203(1)(v); 203(1)(x); 204(30); 204(34); 205(1)(d)(ii); 212(6); 222(1)(a); 222(3)(c); 302(10); 302(30); 306(4); 308(22); 309(15); 401(3); 601(9); 613(3); 723; 1005, page 464, lines 11-13; 1020; 1118(3), page 649, lines 12-13; 1118(4), page 656, lines 16-17; and 1702, page 801, lines 28-30, Engrossed Substitute House Bill No. 1109 is approved.

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 213, Engrossed Second Substitute House Bill No. 1139 entitled:

“AN ACT Relating to expanding the current and future educator workforce supply through evidence-based strategies to improve and incentivize the recruitment and retention of highly effective educators, especially in high-need subject, grade-level, and geographic areas, and to establish a cohesive continuum of high quality professional learning from preparation programs to job embedded induction, mentoring, collaboration, and other professional development opportunities.”

Section 213 provides conflicting direction to three state agencies (the Professional Educator Standards Board, the Washington Student Achievement Council and the Office of the Superintendent of Public Instruction) regarding financial aid program implementation, participant selection and identification of educator shortages. The section also conflicts with direction in other sections of the bill and is superfluous to implementation of the programs in the bill.

For these reasons I have vetoed Section 213 of Engrossed Second Substitute House Bill No. 1139.

With the exception of Section 213, Engrossed Second Substitute House Bill No. 1139 is approved.

Respectfully submitted,

May 21, 2019

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 208(5); 208(7); 208(9); 208(12); 208(15); 208(16); 208(17); 208(24); 208(27); 208(28); 208(29); 220, page 42, line 23; page 42, line 38 beginning with "Fuel" through line 39 ending with "process."; page 43, line 3 beginning with "Fuel" through line 4 ending with "process."; page 43, line 15 beginning with "Fuel" through line 16 ending with "process."; page 44, line 10 beginning with "Fuel" through line 11 ending with "process."; page 44, line 31 beginning with "Fuel" through line 32 ending with "process."; page 46, line 5; 304(2); 306(17); 905, page 169, lines 36-38; page 170, lines 18-20; 905(14); 908, page 184, lines 10-12; and 908(1), Engrossed Substitute House Bill No. 1160 entitled:

“AN ACT Relating to transportation funding and appropriations.”

**Sections 208(5), pages 17-18; 208(7), page 18; 208(15), pages 19-20; 208(16), page 20; 208(17), pages 20-21; 208(27), page 22; and 208(28), pages 22-23, Department of Licensing, Unfunded Studies**

The Department of Licensing was tasked with forming several unfunded work groups and conducting studies, while also taking significant budget cuts. The department will not be able to complete all of the directives it has been assigned without additional funding. I am directing the department to undertake these efforts as much as it can within existing resources, prioritizing the work groups that assist active-duty and former military members. For this reason, I have vetoed Sections 208(5), 208(7), 208(15), 208(16), 208(17), 208(27) and 208(28).

**Section 304(2), pages 55-56, Transportation Improvement Board, Programmatic Allotments**

This section requires the Transportation Improvement Board (TIB) to allot its appropriations by certain programs and to not deviate without legislative consultation. This removes the TIB's authority, which is established in statute, to set its internal program levels. While the Legislature has the authority to appropriate funds, the executive branch has the statutory authority to allot the funds. For these reasons, I have vetoed Section 304(2).

**Section 306(17), page 62, Department of Transportation, Highway Improvements, New Rhodes Lake Road Project**

This section requires the Washington State Department of Transportation (WSDOT) to support, review, and approve improvements and right-of-way plans following the preferred and recommended alternative of Pierce County's supplemental environmental impact statement for this

project, which is a traffic signal. WSDOT conducted an intersection control evaluation process with stakeholders and determined that a roundabout provides the safest and most efficient results for this intersection. WSDOT is the approving authority for intersection control on highways such as State Route 162, and as such, the proviso language conflicts with WSDOT's stewardship of SR 162. For these reasons, I have vetoed Section 306(17).

**Section 905, page 169, lines 36-38; page 170, lines 18-20; and Section 905(14), pages 172-173, Department of Transportation, Transportation Partnership Account-State Appropriation, Nickel Account-State Appropriation, and I-405/Kirkland Vicinity Project Delivery**

The supplemental budget provides appropriations to the Interstate 405/Kirkland stage 2 project that are lower than expected expenditures and would result in a shortfall of approximately \$35 million in the Highway Construction program. For this reason, I have vetoed the supplemental Transportation Partnership Account-State appropriation, the supplemental Nickel Account-State appropriation, and the project proviso in order to increase the appropriation levels. I am directing WSDOT to spend within the appropriation provided by the Legislature, but including the \$35 million necessary for the I-405 Kirkland stage 2 project. For these reasons, I have vetoed Section 905, page 169, lines 36-38; page 170, lines 18-20; and Section 905(14).

**Section 908, page 184, lines 10-12, and Section 908(1), page 184, Department of Transportation, Puget Sound Capital Construction Account-State Appropriation, Washington State Ferries Construction Program**

The supplemental budget removed the ferry dispatch system replacement project, of which \$600,000 had already been spent. The appropriation of \$600,000 was also removed. Thus, the appropriation level in the Puget Sound Capital Construction account is below what is needed to fund the capital project list in the ferry program. For this reason I have vetoed the supplemental Puget Sound Capital Construction Account-State appropriation and the capital project list, thereby restoring it to previous levels. I am directing WSDOT to spend within the appropriation and capital project list provided by the Legislature, but including the \$600,000 that was removed. For these reasons, I have vetoed Section 908, page 184, lines 10-12, and Section 908(1).

**Section 220, page 42, line 23; page 42, line 38 beginning with "Fuel" through line 39 ending with "process."; page 43, line 3 beginning with "Fuel" through line 4 ending with "process."; page 43, line 15 beginning with "Fuel" through line 16 ending with "process."; page 44, line 10 beginning with "Fuel" through line 11 ending with "process."; page 44, line 31 beginning with "Fuel" through line 32 ending with "process."; and page 46, line 5**

Section 220 includes the following sentence in six provisos: "Fuel type may not be a factor in the grant selection process." This requirement is contrary to, and in direct conflict with, the statutory mandates in RCW 47.66.040 and 47.66.030 that direct WSDOT to consider, among other criteria, energy efficiency issues, and federal and state air quality requirements in selecting programs and projects. In addition, this requirement also conflicts with, or at best substantially impairs, the statutory mandate for the state and for local government subdivisions to transition to zero emission vehicles as articulated in RCW 43.19.648.

The sentence at issue is a policy change — that is, an amendment — to existing statutory requirements. As such, the sentence violates Article II, Section 37, by amending those statutes indirectly and failing to set those statutes forth in full. It also places WSDOT and others in the untenable position of being forced to violate one state law in order to comply with another.

It is well established that the governor's veto powers in Article III, Section 12 of the Washington State Constitution extend to appropriation items and full subsections or provisos in an appropriation bill. It is also well established that our courts will intervene to prevent obvious circumvention of the veto power by the Legislature or equally obvious manipulation of that power by the governor. The addition of this sentence within these provisos constrains my ability to exercise the constitutionally authorized veto powers.

While my veto authority is generally limited to subsections or appropriation items in an appropriation bill, in this very rare and unusual circumstance I have no choice but to veto a single sentence in several subsections to prevent a constitutional violation and to prevent a forced violation of state law.

For these reasons, I have vetoed Section 220, page 42, line 23, page 42, line 38 beginning with "Fuel" through line 39 ending with "process.," page 43, line 3 beginning with "Fuel" through line 4 ending with "process.," page 43, line 15 beginning with "Fuel" through line 16 ending with "process.," page 44, line 10 beginning with "Fuel" through line 11 ending with "process.," page 44, line 31 beginning with "Fuel" through line 32 ending with "process", and page 46, line 5.

I have vetoed the following sections related to bills that did not pass the Legislature, resulting in the lapse of funding. My veto of these sections will serve to clean up these unnecessary sections of the bill.

Section 208(9), pages 18-19, Department of Licensing, SSB 5694, Commercial Beekeeper Drivers

Section 208(12), page 19, Department of Licensing, SSB 5591, Stolen Vehicle Check Fee

Section 208(24), page 22, Department of Licensing, HB 1255, Patches Pal License Plate

Section 208(29), page 23, Department of Licensing, ESHB 1504, Impaired Driving

For these reasons I have vetoed Sections 208(5); 208(7); 208(9); 208(12); 208(15); 208(16); 208(17); 208(24); 208(27); 208(28); 208(29); 220, page 42, line 23; page 42, line 38 beginning with "Fuel" through line 39 ending with "process.,"; page 43, line 3 beginning with "Fuel" through line 4 ending with "process.,"; page 43, line 15 beginning with "Fuel" through line 16 ending with "process.,"; page 44, line 10 beginning with "Fuel" through line 11 ending with "process.,"; page 44, line 31 beginning with "Fuel" through line 32 ending with "process"; page 46, line 5; 304(2); 306(17); 905, page 169, lines 36-38; page 170, lines 18-20; 905(14); 908, page 184, lines 10-12; and 908(1) of Engrossed Substitute House Bill No. 1160.

With the exception of Sections 208(5); 208(7); 208(9); 208(12); 208(15); 208(16); 208(17); 208(24); 208(27); 208(28); 208(29); 220, page 42, line 23; page 42, line 38 beginning with "Fuel" through line 39 ending with "process.,"; page 43, line 3 beginning with "Fuel" through line 4 ending with "process.,"; page 43, line 15 beginning with "Fuel" through line 16 ending with "process.,"; page 44, line 10 beginning with "Fuel" through line 11 ending with "process.,"; page 44, line 31 beginning with "Fuel" through line 32 ending with "process"; page 46, line 5; 304(2); 306(17); 905, page 169, lines 36-38; page 170, lines 18-20; 905(14); 908, page 184, lines 10-12; and 908(1), Engrossed Substitute House Bill No. 1160 is approved.

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 7 and 41, Substitute House Bill No. 1195 entitled:

“AN ACT Relating to the efficient administration of campaign finance and public disclosure reporting and enforcement.”

This legislation was requested by the Public Disclosure Commission and builds on the important work the Legislature did in 2018 with the passage of ESHB 2938.

However, I am concerned with the language in Section 7(13)(b) that prohibits the agency from making Personal Financial Affairs Statements (“F-1” forms) filed by elected officials accessible online. Because these forms must be provided to anyone who makes a public records request, this prohibition against online access only serves to create an unnecessary barrier to information that the public is entitled to have.

While I recognize that making some personal financial information available online may create discomfort, it is my understanding that the Commission currently has the authority to decide whether or not to make F-1 forms available online.

I also understand that the Commission has already embarked on a process to work closely with the Legislature and other interested parties over the interim to consider the privacy interests implicated in certain types of information and the compelling public interest in access to financial data of public officials. In particular, I respectfully request that the Commission evaluate whether the existing statutory requirements for what must be reported in F-1s should be updated and also consider possible alternatives for non-elected, professional legislative staff.

Finally, Section 41 of the bill includes a reference to RCW 42.17A.775(5), which was amended in earlier drafts of this legislation to alter the process by which a successful citizen action plaintiff could be reimbursed. Language creating that new process was removed from the final version of the bill, but the reference in Section 41 was inadvertently retained. In order to avoid creating a conflict in law, and to avoid confusion over the process by which a plaintiff may be reimbursed for reasonable attorney's fees and costs, it is necessary to veto Section 41.

For these reasons I have vetoed Sections 7 and 41 of Substitute House Bill No. 1195.

With the exception of Sections 7 and 41, Substitute House Bill No. 1195 is approved.

Respectfully submitted,

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 1, Engrossed House Bill No. 1219 entitled:

“AN ACT Relating to providing cities and counties authority to use real estate excise taxes to support affordable housing and homelessness projects.”

*We are indeed facing a severe housing shortage in this state and across our nation, and I strongly support this bill. Some towns have already used this increased flexibility in the use of Real Estate Excises Taxes to provide critical shelters and services for families. Extending the timeline for the use of these funds provides cities and counties one of the tools necessary to plan for, acquire, and construct additional shelters and affordable housing in their communities.*

*However, I am concerned that the language in Section 1, the intent section, could be construed to imply that the use of the Real Estate Excise Tax is sufficient for every community to develop affordable housing and prevent people from entering homelessness. Much more work needs to be done in the areas of zoning and permitting; infrastructure development fees; tax incentives for affordable housing development; and innovative approaches to increase density, improve efficiency and reduce costs. I will work with interested members of the legislature on developing a comprehensive package of tools to help cities and counties adequately address these housing shortages.*

For these reasons I have vetoed Section 1 of Engrossed House Bill No. 1219.

With the exception of Section 1, Engrossed House Bill No. 1219 is approved.

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 2 and 7, Engrossed Third Substitute House Bill No. 1324 entitled:

“AN ACT Relating to creating the Washington rural development and opportunity zone act.”

This bill is critical for forest and fish programs and provides additional funding for tribal programs. However, Section 2, which requires the Washington State Institute for Public Policy to conduct a fifty state review on programs that incentivize job creation and private investment in rural and distressed communities, was not funded in the budget. In addition, Section 7, the null and void clause, would void the entire bill if full funding is not provided. Because this bill is critical, I want the remainder of the bill to go into effect even if no funding is provided for some of its provisions.

For these reasons I have vetoed Sections 2 and 7 of Engrossed Third Substitute House Bill No. 1324.

With the exception of Sections 2 and 7, Engrossed Third Substitute House Bill No. 1324 is approved.

Respectfully submitted,

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 12, Engrossed Second Substitute House Bill No. 1391 entitled:

“AN ACT Relating to implementing improvements to the early achievers program as reviewed and recommended by the joint select committee on the early achievers program.”

The purpose of Section 12, which directs the Department of Children, Youth and Families (DCYF) to create a workgroup to study the cost of child care regulations, overlaps with the work of the Child Care Collaborative Task Force in HB 1344. In order to streamline efforts and also avoid duplicative efforts, I am directing the Department of Commerce and DCYF to ensure that purpose of Section 12 is incorporated into the work of the HB 1344 Task Force.

For these reasons I have vetoed Section 12 of Engrossed Second Substitute House Bill No. 1391.

With the exception of Section 12, Engrossed Second Substitute House Bill No. 1391 is approved.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read "Jay Inslee".

May 8, 2019

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 13 and 8(1)(a), Second Substitute House Bill No. 1579 entitled:

“AN ACT Relating to implementing recommendations of the southern resident killer whale task force related to increasing chinook abundance.”

This bill implements recommendations of the Southern Resident orca task force (task force) related to increasing chinook abundance.

Current laws and protections are not sufficient. Salmon populations continue to decline putting our beloved orca at risk.

This bill provides the long needed tools to protect salmon habitat when development permits are issued along our marine and freshwater shoreline. Strengthening the hydraulic code will help ensure development projects that affect salmon and their habitats do no harm.

However, I am vetoing Section 13, which would require certain state agencies and local governments to identify river management demonstration projects in Whatcom, Snohomish, and Grays Harbor counties, because it is not a recommendation of the task force. As such, it is outside of both the title and scope of the bill, in violation of Article 2, Sections 19 and 38 of our constitution. Section 13 is unrelated, unnecessary and an unfortunate addition to this important bill about salmon and orca habitat and recovery.

In addition, I am also vetoing Section 8(1)(a), which establishes maximum civil penalty amounts for violations of Chapter 77.55 RCW (Construction Projects in State Waters). Consistent with the task force's recommendations, the original bill established a maximum civil penalty of up to ten thousand dollars for each violation. When the Legislature amended the bill to add Section 13, it simultaneously amended Section 8 and tied the original civil penalty amount to passage of Section 13. It did so by reducing the maximum civil penalty to "up to one hundred dollars" if Section 13 is not enacted by June 30, 2019. By making the original civil penalty amount contingent on passage of an unconstitutional section of the bill, the Legislature further compounded the constitutional violation. In addition, by structuring the contingency language within a subsection of Section 8, the Legislature intentionally attempted to circumvent and impede my veto authority by entangling an unrelated and unconstitutional provision within a recommendation of the task force. In vetoing this subsection, I direct the department to continue to use its authority to secure the effect of the statute, to establish a maximum civil penalty not to exceed the penalty amount established in the original

bill, and to use its rulemaking authority to support these efforts as needed.

I understand the concerns of landowners who are living and working in floodplains and the need for better approaches to protecting their property. We also need to find balance to provide habitat for salmon to spawn and grow if we want to save our orcas. We already have important programs in place to address ecosystem based river management. Watershed solutions should come from local efforts and I encourage people living in these communities to work collaboratively, with their neighbors, local governments, salmon recovery and agricultural preservation organizations to fund effective local solutions.

For these reasons I have vetoed Sections 13 and 8(1)(a) of Second Substitute House Bill No. 1579.

With the exception of Sections 13 and 8(1)(a), Second Substitute House Bill No. 1579 is approved.

Respectfully submitted,

Jay Inslee

May 10, 2019

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 1 and 4, Engrossed House Bill No. 1638 entitled:

“AN ACT Relating to promoting immunity against vaccine preventable diseases.”

Section 1 authorizes an exemption for proof of immunity based on an antibody test called a titer test. This provision is written too broadly because it applies to all vaccines, not just to Measles, Mumps, and Rubella (or MMR) and other conditions in which an antibody test is reliable. In addition, the Board of Health already allows the use of an antibody test for those vaccines in which the test is reliable, like MMR, so this provision is also unnecessary.

Section 4 contains a rulemaking clause that is unnecessary. Current law already permits the state Board of Health to perform these rulemaking functions, not the Department of Health as this section provides.

These minor changes will not disturb the substance of the bill.

For these reasons I have vetoed Sections 1 and 4 of Engrossed House Bill No. 1638.

With the exception of Sections 1 and 4, Engrossed House Bill No. 1638 is approved.

April 24, 2019

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, House Bill No. 1866 entitled:

“AN ACT Relating to professional development requirements for child day care centers.”

This bill was intended to delay the effective date of the newly revised Washington Administrative Code (WAC) on general staff qualifications and professional development requirements for early learning professionals in child care centers. I agree with and support this intended purpose. However, the legislation before me would prevent the Department of Children, Youth, and Families from adopting and implementing any changes to professional development requirements until August 1, 2024. As a result, the language of the bill potentially puts Washington in conflict with future federal professional standards that may be required in order to receive federal funds. Therefore, I am vetoing HB 1866, but I am also issuing a formal directive to the Department of Children, Youth, and Families to provide center directors and assistant directors with at least 5 years to comply with the new professional development rules in WAC 110-300-0100.

For these reasons I have vetoed House Bill No. 1866 in its entirety.

Respectfully submitted,
