BOARD OF COUNTY COMMISSIONERS,

Attest: GEO. P. DUBUQUE,
County Auditor and Ex-Officio Clerk
of the Board of County Commissioners.

On motion of Senator Zednick the following Resolution was adopted.

The Secretary read:

Resolved, That Reed's Rules shall govern until the Senate adopts its permanent rules of the Senate for this session.

The Secretary read:

SENATE RESOLUTION

By Committee on Rules and Joint Rules:

Resolved, That the Rules of the Twenty-eighth session shall be the Rules of the Extraordinary Session of 1944, with the following amendment.

Rule 27 is hereby amended to read as follows:

After the final vote on any resolution or bill, before the adjournment of that day's session, and at such time only, any member who voted with the prevailing side may give notice of reconsideration. Such motion to reconsider shall be in order only under the order of motions of the day immediately following the day upon which such notice of reconsideration is given, and may be made by any member who voted with the prevailing side.

A motion to reconsider shall have precedence over every other motion, except a motion to adjourn; and when the Senate adjourns while a motion to reconsider is pending or before passing the order of motions, the right to move a reconsideration shall continue to the next day of sitting. On and after the fifty-seventh day of the session a motion to reconsider shall only be in order on the same day upon which notice of reconsideration is given and may be made at any time that day. Motions to reconsider a vote upon amendments to any pending question may be made and decided at once.

Senator Zednick moved that consideration of the Resolution be deferred until the afternoon session of the Senate.

The motion carried.

Senator Zednick moved the adoption of the following Resolution:

SENATE RESOLUTION

WHEREAS, This special session of the Washington State Legislature has been called for the specific purpose of enacting a war voters' measure, and

WHEREAS, There is no other emergency matter requiring legislation at this time, and

WHEREAS, It would cause unnecessary expense and would be detrimental to the war effort to prolong unduly this special session,

Now, Therefore, Be It Resolved, By the Senate of the State of Washington in legislative session assembled;

That no legislation be considered at this special session other than the war voters' measure and the necessary appropriation bills for the conduct of the special session.

Be It Further Resolved, That this resolution shall be a standing order of this Senate.

In answer to a question by Senator Schroeder, the President announced as follows:

"In my opinion, this resolution has no force at all, outside of publicity, and the reason I say that is because nobody can be bound. We are bound by Senate rules. Any Senator has a right to introduce a bill if he desires and when that bill is introduced that bill automatically goes to the proper committee."

On motion of Senator Rabbitt, it was ordered that his remarks made in connection with the Resolution be made a part of the record.

"The Honorable Senator from the 36th district, in stating in the resolution before us that we are faced with no emergency but the soldier vote bill, does not, I feel certain, mean to exclude the war emergency which confronts us all with problems to whose solution we must give our best endeavors.

"Until it is won, this war is an emergency for all of us. It is not an emergency for the federal government alone. Unless all agencies of government, federal, state and local, cooperate and contribute to the war effort to the fullest extent of their ability, the cost of war is increased and victory is imperiled.

"Our outmoded state constitution is inadequate to the demands of peace time. The Senator from the 36th district himself recognized this inadequacy when he introduced a resolution in the last session of the legislature to provide for a constitutional convention. Now he wishes to restrict the operation of government in time of emergency, the gravest of all emergencies, war for survival as a nation.

"Is this of concern to the federal government alone? Have we as a state done all we can to speed victory?

"A sub-committee of the House Naval Affairs Committee, a bi-partisan committee of 4 Republicans and 2 Democrats, visited this region last fall to determine how well prepared we are for the final victory push against Japan. This Committee, chaired by Congressman Izac, investigated conditions in the war congested areas of Seattle, Bremerton, Tacoma and Everett. They found we need more housing, transportation and recreational facilities. That police protection was inadequate and that our present system of garbage collection in the city of Seattle left us in danger of bubonic plague from rat infestation.

"This committee, composed of 4 Republicans and 2 Democrats wrote of state aid on these problems. I quote: 'The federal government is meeting its responsibility to these municipalities, but the State of Washington is not.'

"In February 5th issue of the Congressional Record, Congressman Izac presents figures showing that our great state is first in percentage revenue increase of all states but that it is 40th among the states in the percentage of state aid to local governments.

"These findings are not 'political curves' as has been charged by some. Nor is this committee a 'two-bit committee' as has likewise been charged. Composed of 4 Republicans and 2 Democrats, it is a sub-committee of the all vital naval affairs committee responsible for providing for our magnificent navy which is even now clearing the way to final victory. They were out here to see how well prepared we are to bring our enemies to an unconditional surrender.

There has been mention here today of the necessity of enacting soldier welfare legislation, of providing free tuition for our returning service men and women. This is the least we should do. But there will be fewer who will need rehabilitation, there will be more who will return and all of our boys and girls will be home sooner if we do not adjourn this legislature until we have enacted every piece of legislation that in any way speeds victory and contributes to lasting peace."

Senator Schroeder moved that the Resolution be indefinitely postponed.

The President announced that the question before the Senate is on the motion of Senator Schroeder that the Resolution be indefinitely postponed.

Senators Zednick, Warren, Huntley, Schroeder, Mohler, Miller and Wall demanded a roll call.

A roll call was ordered.

MESSAGE FROM THE HOUSE

A Committee from the House of Representatives, composed of Representatives Julia Butler Hansen, Mrs. Thomas E. Kehoe and Miss Ella Wintler, appeared at the door of the Senate and was escorted to the bar of the Senate and announced that the House was now in session and ready to do business. The message from the House was ordered received.

Senator Thomas moved the adoption of the following amendment to Senators Zednick's and Miller's Resolution:

Add new paragraph:

We understand that to allow the service man the vote is a benefit to politicians and that this resolution is in no way a benefit or aid to the ex-service man who may need re-habilitation. If this resolution is passed service men will receive no help until the next regular session.

Senator Warren moved that the amendment of Senator Thomas be laid on the table.

The motion carried.

The President announced that the question now before the Senate is on the motion of Senator Schroeder, that the Resolution of Senators Zednick and Miller be indefinitely postponed.

The President announced that the Resolution, having received the majority vote of the Senate, was declared adopted.

NOTICE TO RECONSIDER

Senator Rosellini gave notice that at the proper time tomorrow he would move to reconsider the vote by which the Resolution was passed by the Senate.

Senator Zednick moved that a reconsideration of the Resolution be had immediately.

The President announced that there is no provision made in the rules to give a day's notice for reconsideration and that a motion is now in order to reconsider immediately.

Olympia, March 23, 1943.

*To the Honorable, the Senate of the State of Washington
(Through the Secretary of State)*

I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 104, entitled:

"An Act licensing blasters in tunnels, quarries, railroads, caissons, subways, highways, buildings, ditches, and general construction excepting mining, open face quarries and magnesite operations; prescribing their qualifications and fees; establishing a board of examiners; creating a special fund; and providing penalties for violations of the provisions hereof."

This bill appears as a safety measure designed to reduce the hazards incident to conducting blasting operations in industry. From a review of the bill, its exclusions and its inconsistencies, and after receiving the record of the Department of Labor and Industries as to the incidents of hazard as evidenced by the reported accidents and claims over a period of the last several years, there appears to be no need for this legislation. Such accidents as have occurred, and they have been few in number, have been due to factors that would not have been obviated—even assuming an examining board had acted in licensing the people involved.

A bill such as this would add cost and red tape to construction work and in these days of labor shortage would create a hardship in rural areas where licensed blasters might not be obtainable.

This measure might also set a precedent for boards to examine and license many other trades and classifications of workmen where, though the tools of their trade do not appear to be so dangerous, actually involve workmen in many more injuries and in many instances greater hazard than the occupation covered in this bill.

The Federal Bureau of Mines and the State Patrol already have a very comprehensive plan of licensing powder users and the safety division of the Department of Labor and Industries has set up standards covering blasting in tunnels, quarries, and general construction and is now working on an extension of those standards to cover industry in general. These standards will be submitted to a general safety conference next month.

For the above stated reasons I believe the bill is unnecessary from the standpoint of safety, and that, considering all factors, it might prove more detrimental than beneficial.

For the above reasons, Senate Bill No. 104 is vetoed.

Respectfully submitted,

ARTHUR B. LANGLEY, Governor.

On motion of Senator Mohler, the message was ordered spread on the Journal and the bill referred to the Rules Committee.

The Secretary read:

MESSAGE FROM THE SECRETARY OF STATE

Department of State, Office of the Secretary,
Olympia, Washington.

*To the Secretary of the Senate, the Legislature of the State of Washington,
Olympia, Washington.*

SIR:

I herewith transmit certified copies of Senate Bills Nos. 200 and 298, being Chapters 285 and 239 of the 1943 Session Laws of the State of Washington, together with the original veto message in each instance attached thereto.

Very truly yours,

BELLE REEVES, Secretary of State.

State of Washington, Executive Department,
Olympia, March 23, 1943.

To the Honorable, the Senate of the State of Washington
(Through the Secretary of State)

I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval as to certain items, Senate Bill No. 200, entitled:

"An Act making appropriations for the purchase of land, construction of buildings and improvements at designated state institutions; for the payment of salaries of certain officers and employees of the state and for the operation, maintenance and other expenses of certain state institutions, departments and offices; for the relief of certain individuals, corporations, counties and municipalities; for refunds and for deficiencies and for emergencies, including deficiencies and appropriation of revolving funds, and for purposes specified in certain acts of Congress, and for miscellaneous purposes designated for the fiscal biennium beginning April 1, 1943, and ending March 31, 1945, except as otherwise provided; defining terms, limiting allowances and providing that this act shall take effect immediately."

I disapprove and veto the item "From the Blasters Examiners Fund, To carry out the provisions of Senate Bill No. 104 (Expenditures not to exceed receipts) \$10,000.00," for the reason that Senate Bill No. 104 has been vetoed and this appropriation, therefore, is unnecessary.

I disapprove and veto the item "Ida Bertelacchi, refund of monies escheated to permanent School Fund \$1,603.50," for the reason that this claim for refund was presented to the 1941 legislature and disallowed, and no further or different facts have been brought to light which would warrant reversal of this decision. The escheat of monies to the Permanent School Funds should not be set aside except for the most compelling reasons and no such reasons appear to exist in this case.

I disapprove and veto the item "International Typographical Union, refund of funds of the estate of William G. Evans escheated to the Permanent School Fund \$1,158.10," for the reason that approval thereof would be to give full legal effect to informal and unwitnessed written instruments purporting to bequeath personal property, contrary to the law of wills. Such a precedent might open the door to possible future abuses of our escheat statutes of which the Permanent School Funds are the prime beneficiary.

I disapprove and veto the item "J. S. Johnson, for services as bridge operator of Lake Washington bridge, August 6, 1940, to December 1, 1940 \$100.00" for the reason that the records of the highway department show that the amount due claimant is \$50.00 rather than \$100.00.

With the exception of the foregoing items, which are vetoed, the remainder of Senate Bill No. 200 is approved.

Respectfully submitted,

ARTHUR B. LANGLIE, Governor.

State of Washington, Executive Department,
Olympia, March 20, 1943.

To the Honorable, the Senate of the State of Washington
(Through the Secretary of State)

I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval as to section 2, Senate Bill No. 298, entitled:

"An Act relating to public highways; creating and establishing, describing and designating additions to the primary state highways of the State of Washington; eliminating certain secondary state highways from the secondary state highway system; amending sections 2, 3 and 12, chapter 207, Laws of 1937 (sections 6402-2, 6402-3 and 6402-12, Remington's Revised Statutes, Volume 7A); and declaring an emergency and that this act shall take effect April 1, 1943."

Section 2 of Senate Bill No. 298 establishes an extension of the Primary State Highway system for which no real need appears to exist at the present time.

For this reason, section 2 is vetoed and the remainder of the bill is approved.

Respectfully submitted,

ARTHUR B. LANGLIE, Governor.

Senator Orndorff moved that the veto messages be spread on the Journal and the bill referred to the Committee on Rules and Joint Rules.

The motion of Senator Orndorff carried.

The President of the Senate:

"Your Excellency, the members of the Senate and the House of Representatives are here assembled in Joint Session for the purpose of receiving your message."

"Ladies and Gentlemen, and Members of the Legislature: His Excellency, the Governor of the State of Washington." (Applause.)

"Mr. President, Mr. Speaker, Ladies and Gentlemen of the Legislature:

"These are busy times and I know full well with what difficulty you have answered my call to this Extraordinary Session of the Legislature. However, there are thousands of men and women from our state serving in the military forces who will find it difficult and, probably, impossible to cast their ballots in the coming state and national elections unless our election laws are amended in several particulars.

"It is for that reason, and no other, that I presumed upon your busy days to ask you to assemble here to discuss and to pass a measure designed to facilitate the voting privileges of those gallantly serving our country today.

"A committee of the legislature, appointed by Lieutenant Governor Meyers and Speaker Reilly, have reviewed this bill and given it general approval. Last week I sent to each of you copies of this legislation so that you might have an opportunity to review it and give such consideration to the measure as you saw fit prior to your arrival here.

"Slightly more than a year ago we met here to gear the State of Washington for the emergencies and exigencies of war, as well as to plan and build for the Peace to come. The appropriations, laws and policies adopted at that session of the legislature were such that we have been—and will to the conclusion of this biennium—be able to successfully meet all of the obligations and responsibilities of the state government without further action on the part of the legislature at this time, other than amending

our election laws. Such problems as have arisen on the state and local levels of government have come about not so much because of lack of funds, as because of lack of manpower, equipment, materials and priorities—in most instances matters beyond the control of either state or local government.

"The financial position of the State of Washington today is good. There is built up as of January 1, 1944, in the general fund a cash reserve of \$29,000,000. This amount, with such additions as are accruing, will be of real assistance to the State of Washington and to its subdivisions of government in meeting the pressing problems that will confront us when Victory has been finally achieved.

"It is just as sound for the state government, as it is for a family or an individual, to save some income at this time and put it away to meet future obligations. The amount of money thus far accumulated is not large, considering the difficulties that will face the state when the war is over. It is well, therefore, at this time that we conserve and accumulate such funds as we are able to save, if we are to avoid excessive tax burdens on the people of our state in the days ahead and if we wish to encourage the development and expansion of payrolls large and small in our commonwealth.

"Moreover, we will want fully to meet our obligations to those returning from military service to whom every chance for education, medical care, business opportunity and employment should be open. Increased expenditures in the field of education will be necessary. It must be borne in mind also that when the present conflict is over there will be added to our pension rolls under our present statutes some fifteen or twenty thousand aged over sixty-five years who will be entitled to pensions and other benefits. We will have additional responsibilities in the field of dependent children, unemployables on relief, medical, hospital and nursing care. It will be necessary to expand the facilities of the state for taking care of the mentally ill persons and retarded children—all necessary due to the increased population in the state. Outmoded and antiquated buildings will need to be replaced.

"You are, undoubtedly, aware of the cooperative program now being formulated throughout the state for meeting problems now developing and those that are anticipated as the war draws to a conclusion. A healthy financial condition in state and local governments will facilitate this program. I mention this to let you know that the reserves we have and now are accumulating are not in any sense of the word going to be adequate to fully assist in the problems ahead, if the state is going to do its part as far as sharing in postwar construction of needed facilities and improvements with the cities and counties of the state.

"Fortunately, cities, counties and school districts are now in the strongest financial position they have been in for more than a decade. It is not only good business for our state and its subdivisions to get out of debt and accumulate reserves, where possible, but it is a policy which if carried out by all of the states would strengthen tremendously our nation in meeting postwar problems, when state and local government must cease to look to Washington, D. C., for continual outpouring of funds raised by continuous expansion of the national debt.

"The people of the State of Washington, I feel sure, are anxious to see you deal with this problem of changing our election laws to meet the needs of our enlisted personnel in service. I feel that they will be appreciative of your prompt consideration of this matter and the deferral of other legislation until the next general session of the legislature."

The President of the Senate requested the Sergeant-at-Arms of the Senate to escort the special joint committee to the rostrum.

The special joint committee appeared before the bar of the House, and the President of the Senate requested the committee to escort His Excellency, Governor Arthur B. Langlie, to the Executive Offices.

The special joint committee escorted His Excellency, Governor Arthur B. Langlie, from the Chamber. (Applause.)

On motion of Senator Cowen, the Joint Session was dissolved.

The Speaker resumed the Chair, and requested the House members of the special joint committee, Representatives Cramer, Armstrong (H. C.) and Vane, to escort the President of the Senate and the Senators to the Senate Chamber.

The House members of the special joint committee appeared before the bar of the House and escorted the President of the Senate and the Senators from the House Chamber.

The Senate reconvened at 3:15 o'clock p. m., and on motion of Senator Zednick, the Senate recessed until 4:00 o'clock p. m.

The Senate reconvened at 4:00 o'clock p. m., President Meyers in the chair.

MESSAGE FROM THE GOVERNOR

State of Washington, Executive Department,
Olympia, February 28, 1944.

To the Honorable, the Senate and the House of Representatives of the State of Washington:

In compliance with the Provisions of Section 11 of Article III of the Constitution of the State of Washington, I have the honor to submit herewith a list of the commutations and pardons, granted since the date of the report to the Legislature of the 1943 Session.

The power of pardon has been exercised in four instances to remove the stigma of a criminal record from the names of persons who had become involved with the law many years ago and subsequently proved themselves to be good citizens. None of the four were imprisoned at the time the pardon was issued.

Under a program worked out by Selective Service and the Board of Prison Terms and Paroles, the power of commutation was exercised in behalf of twenty-two young men who had passed preliminary examinations to make them eligible for induction into military service.

Fourteen of these young men are now serving their country in the armed services. The other eight were unable to pass the induction station examinations. Under a stipulation required by the military these eight were allowed to remain at large under parole supervision. Three of them were found to have violated the terms of their release so their paroles were revoked.

Sentences commuted on May 18, 1943, to imprisonment in the Washington State Penitentiary for the term of four years and five months on Counts I and II, upon recommendation of the Board of Prison Terms and Paroles, and in order that he may be available for induction into the U. MESSAGE OF GOVERNOR ARTHUR B. LANGLEIE TO THE LEGISLATURE

Mr. President, Mr. Speaker, Ladies and Gentlemen of the Legislature, and my Fellow Citizens of Washington:

Once again we meet in the midst of universal crises that threatens the independence of every unconquered country, every house of worship and the liberty of every free human being everywhere. Glorious has been the record of achievement of our fighting forces. On the horizon there is clear and convincing evidence that their sacrifices are leading us to ultimate and complete victory.

Unmistakable as are the signs of that victory, the news of the moment makes it equally clear that we have a rough and rugged road yet to travel—the daily suffering of those who fight for our country is beyond comprehension.

Two hundred thousand sons and daughters of Washington have dropped their peacetime pursuits, left their homes and gone into the uniform of our country. Many thousands of them have already left our shores and more are going every day. With them have gone our love and our hopes. For them we pray that their victorious return may be safe and speedy. Our thoughts of them, our sense of loss at their leave taking, our gratitude for the sacrifices they are enduring dominates the thinking of all of us today. I know that you feel, as do I, that while they fight to preserve those traditions we all cherish, it is our duty to make constructive use of the freedom we treasure. Their courage and devotion to duty lays upon us an obligation to think wisely, act intelligently and to honor their sacrifices on the field of battle with unselfish and high purpose achievements here at home.

I am sure that in such a spirit and with that determination the twenty-ninth legislature of the State of Washington convenes. On the morrow you will have a new Governor. It is important to our state that the transition from one administration to the other be accomplished with as little disruption of services as possible. To that end

my department heads and I have sought to assist and cooperate with the incoming Governor.

In this message I do not presume to give advice to the Governor-elect, nor to intrude or inject myself into the realm of his obligations. Undoubtedly, he will submit for your consideration a program designed to advance the welfare of the State of Washington. At the same time I feel that you are entitled to have from me a brief review of your state government during these past four years and to hear such suggestions and recommendations as my experience as Governor dictates to me to be wise, sound and in the interest of the Commonwealth.

FINANCES

The State Treasury is in the best condition of any time within its history. Many of you will remember that in March, 1941, we had a deficit in our general fund of \$4,125,000. In all of the funds of the state—General, Motor Vehicle, Accident, Industrial Insurance and Medical Aid, as well as self-sustaining funds—there was a total of sixty-five million dollars in 1941.

Despite increased spending for schools and social security, despite higher wage levels and increased operating costs at our fifteen penal and charitable institutions, despite sharing of state revenues with cities and counties to aid them in meeting their war-time problems and improving their financial position,—there have been added to the sixty-five million of 1941 large sums in the last four years in preparation for post-war construction. Today, in all these funds including a surplus in the General fund of fifty-three million dollars, there is a total of one hundred seventy-one million dollars. By the end of the biennium this total will reach approximately one hundred and ninety-six million dollars, or an increase in four years in these funds of one hundred and thirty-one million dollars.

Attached to this message is a general statement of the balances in various funds in the state, as well as a statement of the investments made by the State Finance Committee.

This improved condition of the various funds of the state finances is due to three principal factors:

1. Expanded income by reason of the increased activities in the state.
2. A great deal of maintenance and new construction at state institutions—penal, charitable and educational—has, of necessity, been deferred for it has been impossible to do anything but the most emergent type of building because of limitations placed by the Federal government on construction of all kinds.
3. Substantial economies have been made in the operation of state government. Consolidation of duplicating efforts, better purchasing practices in many categories, a more effective supervision and maintenance of state-owned equipment of all types has resulted in substantial reduction of costs.

The pre-audit system invoked in 1941 has helped make possible a large reversion of funds which might otherwise have been expended, and furthermore, the number of employees on the pay roll of the administrative branch of state government has been reduced, releasing manpower for war industries.

The State Finance Committee, consisting of the Governor, the State Treasurer and the State Auditor, has made investments of the funds accumulated by the state in only the safest securities, while obtaining the maximum return to the state consistent with good investment policies. The course followed has been constructive and has returned real dividends to our state. It should be pursued in the future in order to give maximum safety to the people's funds. It should be noted that these investments are returning to the State of Washington income in an amount in excess of four million dollars annually.

STREAMLINING BUSINESS PRACTICES

One of the largest business operations in the state is your own state government. As such, it is entitled to the finest and highest type of business administration procurable. It has been the constant aim of your present administration to streamline its operation so that our people would have the best business structure consistent with efficient and prompt service.

AUTOMOBILE POOL

The use of state automotive equipment was quickly and effectively curtailed through the establishment of the Automobile Pool. A large share of the state-owned cars were placed under one department and made available—not to particular in-

dividuals—but to all state employees who had need for transportation on state business. As a result, state mileage was substantially reduced. It is estimated that some five million miles of travel was saved annually, with a corresponding reduction in gas consumption in these days of national shortage. This operation has drawn public commendation from the Office of Price Administration.

INSURANCE, SURETY BONDS, CONSOLIDATIONS

Similarly, sound business operation has been inaugurated throughout the various departments of state government. A casual investigation will quickly demonstrate savings running into millions of dollars. Some examples of which are—placing the purchase of surety bonds and insurance on a competitive bid basis, savings in excess of eighty thousand dollars have resulted—combining into a single system the radio operation of the Department of Highways and the State Patrol. This network has been so effective that it has been continually utilized by the military during the war, several of the stations actually being staffed by military personnel. Another fifty thousand dollars is annually saved through the combining of the weight control unit of the Department of Highways with the State Patrol. Substantial savings have been made through the centralization of all purchases in a soundly organized Purchasing Division.

PRE-AUDIT

Of great value has been a smoothly functioning system of pre-audit or budgetary control. Under this system, departments are required to make quarterly estimates of their expenditures and they in turn are given monthly statements as to the status of their respective control accounts. As was anticipated, the system has enabled department heads, through careful planning and control of expenditures, to operate within the appropriations and not incur deficiencies. Even under wartime conditions, with abnormal price increases, the system has accomplished remarkable results. In normal times its effectiveness will be even greater. I call your attention to the many large reversions of budget allotments made by departments under the control of this act. The close supervision which pre-audit makes mandatory has had much to do with these savings. While it is not the function of pre-audit to “run” any of the departments, it has nevertheless had the salutary effect of eliminating much non-essential spending.

You will have before you the budget estimates for the ensuing biennium. These estimates are more than ample for the operation of state government for the next two years. Recognizing the uncertainties of the times, department heads made allowances for contingent costs that many times will not arise. But under pre-audit, with careful supervision, there need be no wastage of funds. In the last two bienniums there have been substantial reversions—forty-four million dollars in 1943 and there will be in excess of fifty million dollars reverted on the current budget. Pre-audit should be extended to include all elective officials.

PERSONNEL

Salaries and wages were placed under the control of a Board of department heads to insure equality and uniform standards. All positions were examined and carefully analyzed on the basis of approved personnel practices. Uniform wage levels were established. Wages have been increased in keeping with the trend of living costs. Special emphasis has been placed on wages in the lower level brackets, resulting in a high degree of morale among state employees. There can only be the highest commendation for the manner in which they have cheerfully assumed the increased burdens which the war has placed upon every department.

In the face of these greatly accelerated demands and because of the establishment of sound business practices, the number of state employees has been decreased by approximately one thousand.

SCHOOLS

While responsibility in the field of education rests primarily in the State Superintendent of Public Instruction, great dependence must of course be placed in the cooperation of the Legislative and Executive branches of government. In this respect every assistance has been given to education. Through the maintenance of a stable tax program and rigid economies in other divisions, the schools are again not only receiving their full allotment of twenty-five cents per student day, but this assistance has actually risen to slightly over thirty-three cents.

The fact that our schools are adequately staffed in the face of tremendously increased enrollment and alluring financial opportunities in other fields of endeavor is

ample proof of the loyalty of our teaching profession. However, if we are to deserve this loyalty, we must set up adequate long-range incentives. A substantial contribution can be made in this direction by an improvement of the present inadequate teachers' retirement system.

There has been prepared for your consideration an actuarially sound teachers' retirement program designed to provide for an ultimate basic pension of one hundred dollars per month at retirement age and based on thirty years of service. I commend this legislation to your very earnest consideration and urge its passage.

SOCIAL SECURITY

Public welfare programs have occupied a great part of the attention of the state administration during the past four years. With ever-increasing diligence the needs of the dependent have been anticipated and have been met—with a studious avoidance of paternalistic interference and within the limitations of the state's financial structure.

Old age pensions have been steadily increased from \$22.80 per month to an average of approximately \$40.00 at the present time. The pension rolls have increased from forty thousand to a high of sixty-four thousand. Of this number, about fifteen thousand receive slightly less than forty dollars monthly, due to the fact that they have supplemental incomes.

With constantly shifting economic conditions it becomes evident that this figure, which stands with the highest of all the states of the Union, must nevertheless be increased to keep pace with the rapidly increasing cost of living. Our financial condition is such at this time that a well-balanced program can be entered into without placing future pension grants in jeopardy. I am, therefore, submitting to you a measure whereby payments can be increased to not less than fifty dollars per month.

Joint state and local planning has been developed through "Children in War-time Committees" to protect the welfare of children in war congested areas. Extension has been made of school facilities for the care of children of working mothers. There has been encouragement for the protection of the ever increasing numbers of children in agriculture and industry as well as stimulus to constructive law enforcement in behalf of children.

The high standard set for the care of dependent children has given the State of Washington the highest rank of any state in the nation. This effort should not only be continued but it should be intensified.

DEPARTMENT OF HEALTH

Tuberculosis Plan

Your State Department of Health, in collaboration with local health departments and organizations interested in the control of tuberculosis, has evolved a plan for the elimination of this dread disease in a twenty-year period. The plan is meeting with wide acclaim and is being submitted to you calling for state participation. I urge its serious consideration by your body.

When it is realized that deaths resulting from tuberculosis are constantly on the increase and that this disease ranks first as a cause of death in the age group of fifteen to forty-five, and also ranks first as a cause of death among all communicable diseases, it becomes apparent that any assistance which this state can give in its elimination will be highly acclaimed as a genuine contribution to the welfare of our people. Much work in discovering early cases through portable X-ray equipment has already been accomplished. Much more needs to be done, but an overall long-range plan must be carried out.

The plan contemplates attacking the problem from two major angles:

First: In the hospitalization of all known active cases—thus giving the individual maximum opportunity for regaining health, as well as protecting his family and the community from contagion.

Second: Through a newly developed inexpensive X-ray process the attack would be made on the locating of new cases. This new method of miniature chest X-ray film permits the screening of a large number of persons at a minimum cost. There is every assurance that the great majority of cases checked in the early stages will have a one hundred per cent chance of becoming completely cured.

This program will require state assistance. Not only is this a needed humanitarian program but will in the long run save the state money. The Department of Health recommends a state-wide building program consisting of seven hundred additional beds and the replacement of three hundred present beds in sub-standard institutions,

a total of one thousand new beds. I know of nothing which should have a more prominent place in our postwar program of development, nor one which would have such far-reaching beneficial effects upon the future of our citizens.

LIQUOR CONTROL BOARD

Legislative mandate, as expressed in the Steele Act, placed upon the administration a dual obligation. First, of maintaining adequate supplies of liquor to meet the demands of the people and, second, to set up and administer control of its distribution. This automatically places the state into a tremendously large business operation and one which requires of its administrators a high sense of moral obligation to the state and a high degree of business ability. The Liquor Control Board, as it is now constituted, has combined these ideals in an unusual degree. On the basis of these qualities and out of the storehouse of experience, they have improved upon a basically sound system to the point where this state's operation has become the envy of many states in the Union. Representatives from other states have asked for conferences to learn of our operations and carry back suggestions to their own states.

To ignore this enviable position and record of business-like administration and hurl this enterprise into the maelstrom of political manipulation would be nothing short of catastrophe. In fact, it would be regrettable, if any appreciable amount of the valuable time of this session were to be consumed in the discussion of any plan of throwing aside the safeguards of control when there are so many more vital and vastly more important issues facing you.

STATE PATROL

A signal contribution has been made to the war effort through the offices of your State Patrol. This organization of highly efficient, well-trained men, has smoothly and efficiently assimilated fourteen new and additional duties and has come to be depended upon implicitly by the military.

The radio network has become an integral part of the military operation. Its supervision over and handling of the highly important explosives operation in the state has been lauded many times by military officials.

Its administrative leaders are constantly abreast of every new development of highway safety and, through a very effective system of in-service training, these trends are promptly carried to every officer.

While the primary function of the State Patrol is concerned with the safety of our highways, the very nature of its duties makes it almost impossible to completely divorce its activities from some degree of law enforcement. It has been the fixed policy of this administration to make the services of this well trained force available to cities and counties. This availability, however, is made effective only upon the written request of the Mayor of a city or a Board of County Commissioners for a specified and limited job of law enforcement. Such a policy eliminates the danger of state interference with county or municipal law enforcement. At the same time its very presence acts as a deterrent to crime. In the few instances that it has been called into play, the requesting agency has expressed sincere gratitude. Because of the highly satisfactory result of this policy, I would urge its continuance.

By previous action of the legislature there has been established a merit system for the employees of this organization. The very existence of this assurance of uninterrupted employment has been the means of attracting to and holding high type personnel in the department at a time of attractive outside inducements. Three other state departments, Unemployment Compensation, Social Security and Health, are now under a merit system. All are proving beneficial and satisfactory. Consideration of the further extension of these forward steps would be most appropriate at this time.

LABOR AND INDUSTRIES

I particularly call your attention to the advances which have been made in the Department of Labor and Industries during this period. The funds of the department for Workmen's Compensation and Medical Aid to injured workmen have been brought to the soundest position they have been in since the department's inception. Particularly noteworthy is the fact that the sawmill and logging funds now have a sufficient reserve to meet all anticipated contingencies, whereas, in the past these classes have been subjected to special assessment because of depletion of the funds.

In addition to adequate reserves in each class, there has been built up a Catastrophe and Contingent Reserve Fund of \$3,315,000. There are, also, sufficient moneys over and above needed reserves to provide for what is known as a Second Injury Fund.

This fund will aid the reemployment of returning partially disabled service men and make it possible for employers to assume the additional hazards that go with aggravation of first injuries. A bill has been prepared to amend the law in this respect and, along with other legislation, a list of which is attached to this message, will be introduced for your consideration.

The Division of Women and Minors in Industry, which has been re-created by this administration, has supervised the infiltration of approximately one hundred thousand women into industry.

Special safety inspection of metal mines and quarries has been inaugurated and an expanded general industrial safety inspection program has been instituted. Better initial, expert medical treatment for injured workmen has been made possible. As a result of the employment of specially trained field adjusters, personal contact has been established with injured workmen in the various areas and satisfactory claim adjustments have resulted therefrom.

The department has assisted in increasing compensation awards and has followed a policy of liberalized claim payments to injured workmen wherein they have been conceded in all cases the benefit of all reasonable doubt.

DEPARTMENT OF AGRICULTURE

The state's Department of Agriculture has contributed many valuable programs to aid the farmer during these war years and, in aiding him, has thus aided the state and the nation.

When it became apparent that measures would have to be taken to deal with a great shortage of seasonal labor and alleviate the conditions threatening the loss of millions of dollars of crops, this department stepped into the breach and launched a huge recruitment program. Institutional inmates were called upon to assist the farmer. One-third of the state's employees registered for harvest work. These two groups contributed nearly a quarter of a million hours of labor. We were the first of all the states to use a large number of state employees working on their own time to assist the farmer. Since then many states have followed suit.

The department assumed responsibility for the inspection of all fruits and vegetables for the Army and Navy. For the fruit industry a very welcome pear psylla eradication program has been established. A state quarantine and propagation station for nursery stock has been located at Yakima. The Bang's disease program was carried on despite a great loss of veterinarians to essential military and war services.

Other forward steps included: The elimination of duplicate inspection of grain cars; an industry and farmer labor committee to act as a coordinating body between the various Federal agencies charged with the responsibility of farm labor recruitment and placement; and expanded research for special agricultural problems in various sections of the state.

WASHINGTON STATE GUARD

During the year of 1941 the Washington State Guard was established and the organization, administration, equipping and training of this state force of 152 officers and four thousand and sixteen enlisted men—located in cities where former National Guard armories were available, was carried out with dispatch and success. Throughout the period of this emergency the State Guard has steadily maintained a high peak of efficiency and readiness to meet and carry out its missions.

In order to afford the utmost security to all communities in the state and to provide maximum protection for the persons and property of all of our citizens, State Guard reserve companies were organized in fifty-one cities or communities of the state not provided with regular State Guard.

Effective cooperation of these volunteer units with all phases of military operation and the war effort in general has been invaluable and is deserving of the highest commendation. The sacrifice of these guardians of our safety has not been on a compensated basis because it was felt, both by the men and by the administration, that to have made it so would have been to discriminate against the thousands of volunteers in Civilian Defense and other phases of the war effort.

POSTWAR PROGRAM

Second in importance only to the war and the emergent problems now facing the state is the adequate preparation for the postwar period which lies ahead. Certainly, none can predict when ultimate victory will be ours, but neither will anyone deny that whether it comes this year or later, immediately in its wake will come a flood of

new problems, foremost among which will be that of the employment of the veterans who will return to us and the thousands of workers now within our state.

It must be realized that while the state can play a vital part in the solution of these problems—and is prepared to do so through the medium of public spending—it can in the final analysis do little more than cushion the shock between war-time employment and peace-time conversion. It is my belief that government, industry and labor share joint obligations in this connection. Jointly we must plan and organize so that our people will have the assurance of security and the opportunity to work at adequate wages.

I am happy to say that the state is ready to meet its share of this joint obligation. Already plans for a gigantic postwar construction program are complete. Plans are already in blue-print on many millions of dollars worth of needed public improvements at our institutions, on our highways, in our game and fisheries divisions, for our natural resources and for our schools and higher institutions of learning.

For the past two years a greatly expanded and stimulated program of research has been undertaken into every possible avenue of potential postwar employment. The finest scientists from our educational institutions have given unstintingly of their time and energy to the end that no possibilities would be overlooked. Many valuable programs have resulted from this research, each of which lends assurance to new and developing payroll-building industries for the future.

Your state administration has fostered the creation of Post Victory Committees in most of the communities of the state. Encouraging are the reports which reach us daily of the prospects that are being developed for the creation of new payrolls.

WASHINGTON STATE WORLD COMMERCE COMMISSION

International trade has always been important to the economy of our state. On December 15, 1943, believing that the time had come to make plans that would assure us of our fair share of the expected postwar increase in world trade, I invited leaders of business, industry, agriculture, labor, government and education from all parts of the state to meet and discuss the possibilities of postwar trade through Pacific Northwest ports. Despite wartime difficulties, more than a hundred citizens met in Seattle and agreed without a dissenting voice that an organization should be established for the purpose of enlarging our world trade. They also pledged co-operation to such an organization. A second meeting was called at Tacoma on March 29, 1944, at which the delegates urged the prompt formation of the Washington State World Commerce Commission and, pursuant to their resolutions adopted at that time, a state-wide organization of fifty members was perfected.

Subsequently the Commission adopted a constitution and elected an Executive Committee. On November 1, 1944, an office was opened in Seattle with an Executive Secretary in charge.

The Commission is now working on basic problems. Four standing committees—Transportation, National Policy, Research, and Public Relations—are considering among other matters the proposed commerce treaty between the United States and China; methods of securing fair treatment for American manufactured products abroad; transportation rates; securing adequate shipping for the state; and the desirability of establishing a foreign-trade zone in the state. A directory of all foreign-trade interests in the state is being compiled; and action is being taken to publicize the Commission throughout the important markets of the world. Its possibilities for aid to labor, capital, agriculture and business are unlimited.

Increased trade will mean more domestic business and more jobs; it will help to make full employment and full utilization of our agricultural and industrial plants which have consistently produced in excess of domestic market needs.

The work of this Commission has been financed from funds of the Progress Commission thus far. Either that procedure should be continued, or budget allowances made directly to the Washington State World Commerce Commission.

STATE INSTITUTIONS

Continuing thought and attention has been given to the improvement of your fifteen state institutions. Following the pattern and policies established by an experienced institutional administrator of national renown, who worked with us for two and one-half years, the operations of these institutions have been made uniform and highly efficient. The administration has been centralized and each phase placed under the direction of experts in a specialized field. In this category we have employed a supervising farm manager, a food manager, supervising field worker, and a supervising

engineer, all working under one administrative head but directing the operations at all institutions. No longer is each institution obliged to go its own way with resulting confusion and loss to the state. This reorganization has enabled closer supervision and closer cooperation between the state's institutions. Practices which were found to be beneficial in one institution were quickly put into effect in others where similar benefit could be realized.

Expert assistance has been received from our institutions of higher learning. First, in the establishment of a scientific farming program; and, second, in a complete survey of the social work problems involved at these institutions.

Several honor camps have been established where projects valuable to the state and the war effort are carried on. Not only do they provide much needed materials, but they are extremely valuable in maintaining the morale of the inmates and assisting in their ultimate rehabilitation.

BUILDING PROGRAM FOR CHARITABLE, PENAL AND EDUCATIONAL INSTITUTIONS

Manpower and material shortages have prevented much urgently needed new construction for our institutions. Yet repairs and maintenance have been continued and some new construction has been accomplished. As an example, at the Western State Hospital, a two hundred and eighty bed ward-building for senile patients has been completed.

Plans are now well under way, with funds ready and available, for a postwar improvement program costing in excess of ten million dollars at those institutions.

FISHERIES AND GAME EXPANSION

As you are undoubtedly aware, many of the far-reaching constructive programs of both the Fisheries Department and the State Game Commission have been held in abeyance in deference to the furtherance of the war effort. In spite of these handicaps both departments have maintained a high degree of efficiency and at the same time have laid the groundwork for a postwar development which will have far-reaching effects in the building of new industry and the development of our natural recreational advantages.

The State Game Commission as a result of its necessarily deferred program now has a reserve of one million, two hundred thousand dollars. It will be used for the expansion of game and fish propagation immediately following the lifting of war-time restrictions. Already plans and specifications have been drawn for the erection of new hatcheries and the establishment of game propagation farms. Several of the sites have already been purchased so that work can be started immediately.

This reserve fund, together with anticipated revenues from licenses, will assure a nearly three million dollar expansion program and place this state in the forefront of the states of the Union as an outstanding fishing and hunting area. Fairmindedness dictates that inasmuch as these funds have accrued from licenses paid by the sportsmen, they should necessarily be expended in furthering the interests of sportsmen's programs.

FORESTRY PROGRAM

The Division of Forestry in the Department of Conservation and Development will submit for your consideration a very comprehensive plan for the perpetuation of the state's timber resource. The preliminary plan suggests the expenditure of approximately two million dollars. I commend the plan to your earnest consideration.

No single influence has had so great an effect upon the development of the State of Washington as has our timber resource. Lumbering, and its allied enterprises, have been almost synonymous with the growth of our state. With each passing year there is increasing cause for alarm over the waning prospects of this great industry. Very recently we have seen announcement made in our sister state of Oregon that its third largest industrial plant will cease operation within the next two years due to depletion of its timber resources. These are ominous signs with far-reaching portent and to ignore them is not only unwise but disastrous.

As you are aware, I have twice submitted to your body a program of legislation setting up long-range administrative policies covering a forestry program for this state. Important as is a wise use of our forest resources to the welfare of the state, it becomes imperative that they be administered effectively and safeguarded with the greatest diligence.

As I have before pointed out, the control of our 22,000,000 acres of timber lands owned by the state is now vested in five different boards and commissions. This

division of authority leads inevitably to a disintegration of responsibility and consequent confusion. Sound conservation policies are left to chance or handicapped by a lack of governmental cooperation. It is not wise that we sit idly by without giving adequate direction and leadership in the preservation of this, our greatest resource. There is a great need for centralization in one authority for the administration of our forest problems.

Through administrative action we have set in motion programs leading to greater protection of our forests, both in preservation and curtailment of annual fire losses. These have been made effective despite the manpower shortage, and I am pleased to report that our fire losses have reached their lowest annual loss levels. Efforts along this line, though pleasing and effective, have been hampered by the lack of centralization of authority to which I have referred.

Programs have been set in motion for reforestation. The expansion of tree farms and sound forest measures have been greatly stimulated. Again, however, I commend to your earnest consideration such measures as will develop sound, long-range policies in fire protection, cutting practices, reforestation and development of sustained yield units.

In speaking of fire protection, may I call to your attention the tremendous importance of extension of such protection in the cities and towns as well as in the forests. This important service should be strengthened in every possible way. There has been an excellent response on the part of both professional fire fighters and volunteer firemen during this war period. The training which has been received by these volunteers is extremely valuable and a continuation of such training should be encouraged in every way possible.

HIGHWAY DEPT. IMPROVEMENT PROGRAMS

Necessarily, the improvement programs of the Department of Highways have been greatly curtailed as a result of the war with its concurrent problems of manpower shortage and material restrictions. Despite this and the increased burdens of war transportation on our highways, the system has been kept in good repair and thirty-eight million dollars of new work has been completed. A postwar program of necessary projects to cost eighty million dollars has been prepared. Plans are already in the draft stage for approximately fifty-five million dollars of this program. Ten million dollars of it is in a state to permit the calling of bids at this moment. On another fourteen million dollars, plans and specifications are now ready. Likewise the Department of Highways is working closely with cities and counties in the preparation of postwar projects many of which are now ready for actual work. It is estimated that an approximate forty-five million dollars worth of street and highway improvements will be undertaken immediately following the war. Complete detail of the highway improvement projects will be submitted to you for your study and approval.

TACOMA NARROWS BRIDGE

By virtue of an extremely advantageous insurance settlement on the old Narrows Bridge, which fell a victim to the elements, we are able to include in our postwar projects the construction of a new and finer bridge at this strategic location. Already we have the basic foundation and piers upon which to start. Engineering and planning are now virtually complete and there is no reason why work on a new eight million dollar structure cannot be started soon after the close of the war.

Through the cooperation of the Pierce County Commissioners, we have been able to remove the last possible financial obstacle to the low-cost financing of a new bridge and a speedy recreation of this vital connecting link. An agreement has been reached whereby Pierce County will delay claim for payment of \$328,000 until such time as the income from the bridge will retire all other obligations of the new structure.

That this agreement may have full legal sanction and all doubt be removed from the minds of prospective bond purchasers, it has been deemed advisable to seek legislative approval of the entire transaction. Appropriate legislation has been prepared and will be submitted to you in due course. I urge its passage to the end that bonds on the new bridge can be placed at the lowest possible rate of interest.

AVIATION

The impetus given by the war has advanced the conquest of the air by at least ten years. Thus is foreshadowed a great activity in this field immediately in the postwar

era. We, as a state, must be prepared to assume our rightful position in the vanguard of leadership.

More than a year ago I appointed a state-wide Aviation Advisory Committee. This committee has made an exhaustive study of the problem in all of its ramifications. Based upon those studies I am now prepared to make specific recommendations to your body and urge their careful consideration to the end that we may be enabled to take full advantage of the opportunities which this expanding industry will afford.

By its very nature, aviation calls for a high degree of Federal regulation and control and the state should not attempt to duplicate those features which are interstate in character.

Because of the necessarily close cooperation between the State and Federal agencies, it is essential that there be an official State Aviation authority through which participation can flow. Legislation will be presented to you for the creation of a non-salaried Aviation Commission. It should be pointed out that this legislation, for the sake of uniformity, is similar in nature to that being adopted by many other states.

The measure provides a vehicle by which aid can be given to cities and counties in the creating of much needed additional small airports, at the same time setting up safeguards against the construction of unnecessary fields. Because of the uncertainty of plans of the Federal government in the provision of matching funds for airport construction, the measure is so designed to allow the state to proceed in this development without waiting for Federal decision.

Also submitted for your consideration are two additional measures, one calling for uniform airport zoning, and the other—known as the Airports Act—providing machinery for securing airport sites.

VETERANS

Already we are seeing the beginning of what, to me, is our major postwar responsibility. With each passing day more and more of our gallant fighting men are returning to their homes. They need and deserve the greatest aid we can give them in their fight for rehabilitation and absorption into normal civilian pursuits. Nothing that can be done in this legislative session—or ever—can repay these men for the service they are giving to us now. Nothing we can do will fully erase from their minds and their hearts the scars which a brutal and unrelenting war will have placed upon them.

I am aware of the benefits which will be theirs under the G. I. Bill of Rights and there is no need that there be any duplication of effort. There is need for state participation, however, and for added benefits which the state can well give.

With this in mind, I have been working with representative leaders of established veterans' organizations for the past year.

As a result of these collaborations, there has been evolved legislation which will be submitted to you, calling for the creation of a non-salaried Commission of Veterans' Affairs. It is so designed to give representation to all organizations of veterans and to prevent it from being subject to the vagaries of political fortune. In urging upon you its serious consideration, I would reiterate that this measure is the result of a year's study and the amalgamation of the combined thinking and desires of all of our existing veterans' organizations.

The greatest aid, of course, that can be given to veterans is to maintain here at home the conditions of freedom and opportunity which all Americans hope may some day extend throughout the world. Well managed agencies of government, sound plans for maintaining high levels of employment in private industries, educational opportunities and the finest medical facilities possible to assist in adjusting our returning veterans, are essentials of doing an adequate postwar job.

Our efforts must be concentrated on the development of those high ideals which will erase from their minds the destruction and moral debilitation of war and provide the avenue of approach to the finer concepts of living in a peaceful society.

In laying plans for the accomplishments of those objectives let us profit by the experience of the past so that we will not slip into a period of unemployment, lowered moral standards and a breakdown of the American home. To that end your state has been directing its plans with all the energy and zeal at its command.

In order that you in your deliberations may have the full benefit of that effort, I am attaching to this message a list of proposals, including recommended appropriations, which will help in meeting the inevitable postwar adjustments. Also attached

is a list of recommended legislation designed to accomplish those objectives. These will be introduced for your study and consideration.

I leave the office of Governor with gratitude in my heart for the privilege and honor of having been able thus to serve you and the people of the State of Washington. I carry with me a deep and abiding faith in the soundness of the principles of our government and the instrumentalities by which it is served.

Our great state has never wavered in its forward march of progress and I have abundant faith that you, in your deliberations, will chart a course which will help carry her on to future success.

Poised as we are in the opening days of this session between changing administrations, may we not find courage and unity through the matchless record of our heroic sons. Is it not fitting that we should strive to emulate their devotion and sacrifice? On battlefronts all over the world they are fighting and dying courageously for freedom; let us muster our noblest purposes for its preservation here at home. We cannot do more—we must not do less.

That we may have the strength and courage to meet the challenges, let us turn for Divine guidance to the Creator of all mankind and together build an ever greater State of Washington.

A REPORT OF FIREMEN'S INTERIM COMMITTEE ON SENATE BILL NO. 267

Seattle, Wash., Jan. 6, 1945.

To the Honorable, The President of the State Senate, and Speaker of the House of Representatives, Olympia, Washington.

We, your Interim Committee, appointed in compliance with Senate Bill No. 267, which provided for a Committee of nine, composed of one member of the Senate, one member of the House, four active firemen, one retired fireman, and two private citizens, to study the present Firemen's Pension law as to its sufficiency or insufficiency and make recommendations concerning same, or the establishment of a new system, and what, if anything, should be done with the existing system, and to report back to you the first week of the 1945 Legislature, report as follows:

The Committee was organized on the 13th day of June, 1943, at Seattle, Washington, after which date the Committee visited the following cities: Spokane, Yakima, Tacoma, Olympia, Everett, Bellingham, Aberdeen, Hoquiam, and Seattle, and had meetings with the firemen of the departments of these cities as to what, if anything, should be done with our present law and how they thought their pension system could be salvaged. The Committee, after these repeated meetings, went into executive sessions as a whole, and held sub-committee meetings of the Committee at Seattle, and eventually decided that in so far as the present law is concerned it could not be amended effectively and should therefore be repealed. The Secretary therefore was instructed to hire an Actuary and an Attorney to assist in drafting a new bill embodying many of the features of the present law, and also including several clauses for those men who are eligible for retirement, and those who are already drawing benefits under the present law.

The Committee thoroughly investigated pension systems in operation all over the United States and met with the Executive Secretary of the International Association of Fire Fighters, and had the benefit of his experiences in various Legislatures throughout the United States on Firemen's Pension legislation; also had meetings with the Municipal League of Seattle, and the State Association of Fire Fighters in Spokane, Yakima and Seattle. As a result of our studies, your Committee recommend that the present pension law be repealed and that a new law be enacted.

We will have a bill containing the provision for such proposed law to present to your honorable bodies when our Actuary has completed his work—within the next two or three weeks.

Respectfully yours,
 SENATOR VICTOR ZEDNICK,
 Senator Victor Zednick, Chairman,
 JOHN A. BUCK,
 John A. Buck, Executive Secretary.

The President announced that the report would be received and placed on general file.

*Hon. Victor A. Meyers, Lieutenant Governor,
State of Washington, Olympia, Washington, U. S. A.*

DEAR VIC AND SENATORS:

The snow and ice here today reminded me of the last Session—and I expect you will be in a new one when this arrives.

First let me congratulate you and all the others serving in state office—on the election. I know you will attack the problems facing the Session and the State with sincerity and intelligence. Possibly this Session will be of grave importance—for we are fighting the most desperate battles of the war—and because you must plan for the peace which shall be won prior to another session. We here, you see, have never shared the optimism reflected in American newspapers. I thought I had seen tough going in Africa and Italy and certainly in Normandy—but we are now at an all-high peak. Germany has opposed us with a good army all the way thru, but now it is a fanatical, desperate army which has lost all sense of honor and principle, and fights any way it can to win its brief respite. One could paint pages of horrors, but you get that by paper and radio.

I hope you, and the Senate, will think of us over here in the light of common, cross-section Americans who are doing our best to preserve and guarantee the right to live in a world of opportunity, free from tyrants and free to pursue our individual courses. We want aid for those of us who come home too ill in mind or body to earn a livelihood. We want an opportunity to earn our own way for the rest of us. We don't want an unworkable and arbitrary pension system that will burden the taxpayers and make them feel that we return as a burden to our country.

Plan a bigger and better Washington to receive us. See that our State produces everything the war effort requires now, and converts quickly to normal trade so that our strength may be absorbed into the employment rolls.

We shall return to you, a little harder, a little older, with a few scars on body and mind. We shall know that the world is too small for us to shut our eyes to any nation's problems. We shall ask for an awakened America, alive to world issues. We

shall demand an America willing to accept and assert world responsibilities. I am confident the Senate shares this view, and will reflect it in the measures it brings forth.
To all of you, my very best.

Sincerely,

SHIRLEY R. MARSH.

Senator Dawson moved that the unanimous consent of the Senate be granted and that the letter of Shirley R. Marsh be spread upon the Senate Journal.

The motion carried.

The Secretary read:

January 8, 1945.

Honorable Victor A. Meyers, President of the Senate, Olympia, Washington.

DEAR SIR:

In the interests of the public service and to aid the Senate in its work, I have the pleasure to offer, without charge, eight copies of Pierce's 1943 Code, annotated to December 1, 1944:

- 1 copy for the President's desk
- 1 copy for the Press table
- 1 copy to each of the six attorneys of the Senate

The attorneys of the Legislature have the responsibility to see that new laws conform to existing laws, are efficacious and valid. It is preposterous to expect them to perform this duty without a copy of existing laws at hand for ready reference, checking, verification, and even possible floor amendments.

The Legislature of 1941 passed two acts amending the same section of the school law. Litigation ensued, and the Supreme Court declared one act invalid, necessitating a third act of the 1943 session curing the defect. Likewise, in the 1943 session there were two acts amending the same section of the Highway Code.

Confusion in citation is a prolific source of error. Cite the Code as authorized by the Laws of 1941, Chapter 149, section 4. Have committee clerks annotate the code sections with bills by number proposed and passed, and this source of error will be eliminated.

Thank the State Printer for stamping the members' names on the books.

Respectfully submitted,
FRANK PIERCE.

Senator Rosellini moved that the Secretary of the Senate be instructed to express the thanks of the Senate to Mr. Pierce for the gift of the Codes. The motion carried.

The Secretary read:

SENATE JOINT RESOLUTION NO. 3

By Senators Beck and Thomas: Relating to the approval and ratification, or rejection, of an amendment to section 1, Article VI, of the Constitution of the State of Washington.

PUBLIC ADMINISTRATION SERVICE

1313 East Sixtieth Street, Chicago, 37, Illinois

January 1, 1945.

*The Honorable Members, The Legislature, State of Washington,
Olympia, Washington.*

GENTLEMEN:

Transmitted herewith is the report of our survey, together with our findings, conclusions, and recommendations relating to the distribution of motor fuel tax funds among the counties of the state of Washington.

The primary objective of this study was to determine, on the basis of relative road fund need, for each of the 39 counties of the state its equitable share of the total state motor fuel tax funds available to the counties as a whole.

The survey was based in considerable part on information derived from the records of the highway planning survey division of the State Highway Department, and those of other state agencies and local units of government. Information not available in public records was procured by the questionnaire method and extensive general research. All these basic data were supplemented and in so far as practicable, verified by field visits to the officials in the various counties. Particular emphasis on field visits was given with respect to a determination of the relative needs of counties for road funds, a determination which was based in part on information derived from statistical and financial research and in part through several months extensive field inspection of typical roads in all counties.

Questions rising out of the distribution of state collected motor fuel tax revenues among counties for road purposes have been the subject of heated controversy for many years. In order to provide a complete and objective background for sound conclusions, all elements which showed promise of being relevant to the problem were explored and are discussed in this report for the information of members of the Legislature of the State of Washington and other interested officials and citizens.

A concise history of highways and related problems of financing has been included to provide a suitable background for the objective analysis of data and an understanding of how current problems of highway financing have developed. The relationship of county roads to Washington economic, cultural, and community development has been examined as an integral part of the problem of county road fund needs. The overall system of financing state and local government in Washington is treated generally to provide a basis for a more detailed discussion of the problem of financing highways as one of the many governmental services. Factors commonly used by other states in the distribution of motor fuel tax revenues have been reviewed and appraised with respect to their general validity and appropriateness for use in the State of Washington. A detailed analysis of all county road systems and their use and of county road construction and maintenance costs was necessary to discover and appraise the influence of variations on the relative needs of counties for road funds. Analyses of all these data and other relevant factors, supplemented by the actual inspection of many roads in all counties, led to the conclusions which provide the basis for the recommended formula. Because of the voluminousness of material, wherever practicable large graphs, charts, and tabulations have been gathered in an appendix to facilitate reading of the report without eliminating information which may be of future use to state and local officials exploring further these or related problems.

The field work of the study was begun in August, 1943, and completed in September, 1944. The project was conducted under the immediate supervision of Donald C. Wagner. Other Public Administration Service staff members participating in the work were William H. Sherman, Robert D. Heitsch, Frank Pieper, and David S. Arnold. The report was edited and prepared for publication by Farrell G. H. Symons, chief of Publications Division of Public Administration Service. Special consultants included Thomas H. Cutler, state highway engineer for the State of Kentucky, William E. O'Brien, formerly chairman of the Wisconsin State Highway Commission, and George H. Watson, acting director of the Federation of Tax Administrators.

We wish to express our appreciation for the cooperation of state, county, and other officials in providing requested data and to the Interim Committee for its part in facilitating the study.

Yours very truly,

H. G. POPE, *Executive Director.*

MR. PRESIDENT:

We, your Committee on Medicine and Dentistry, to whom was referred Senate Bill No. 6, entitled: "An Act relating to higher education, establishing a medical and dental school and providing for the operation and maintenance of schools of medicine and dentistry at the University of Washington, declaring the purpose thereof, making an appropriation therefor, and declaring an emergency," have had the same under consideration, and we respectfully report the same back to the Senate with the recommendation that it do pass.

DONALD BLACK, M.D., *Chairman.*

We concur in this report: David C. Cowen, Harry Wall, Howard S. Bargreen, Henry Copeland, Ted F. Schroeder, Thos. H. Bienz, Kevin Henehan, J. R. Binyon, Paul G. Thomas, Thos. R. Waters, W. R. Orndorff, Ernest C. Huntley, B. J. Dahl.

On motion of Senator Rosellini, Senate Bill No. 6 was re-referred to the Committee on Appropriations.

The Secretary read:

**REPORT OF THE LEGISLATIVE GAME DAMAGE
INTERIM INVESTIGATING COMMITTEE**

Authorized by Senate Bill No. 300, 1943 Session of the Legislature

Olympia, Washington, January 17, 1945.

*To the Honorable The Senate and the House of Representatives
of the State of Washington*

We, your Interim Committee, appointed in compliance with Senate Bill No. 300 which provided for this committee of six, composed of three members of the Senate and three members of the House of Representatives to investigate claims for damages by game to farmers in different parts of the State, and also to consider ways and means of preventing further damage by game and to make recommendations to the Legislature, have met in various parts of the State during the past two years, have interviewed claimants for damages, have inspected farms and orchards that have been damaged, have conducted hearings and have checked and inspected the effect and result of the controlled hunting seasons and in general have made a complete and comprehensive study of these problems.

And after careful consideration of these matters, we, your Interim Committee, respectfully report to the Senate and House of Representatives with the following recommendations:

1. That the State Game Department endeavor to prevent and control damage by game to farmers. This is now being attempted by the Game Department by fencing out the game where farms are located in the center of game areas and also by fencing in the game on the borders of game areas to keep game from trespassing farms. Most of the farmers interviewed were agreed that this method of control was more or less successful. In some areas the Game Department has completely fenced farms to keep the deer out and in other areas such as the Cowiche and Tieton Areas in Yakima County fences have been built to keep the elk back in the hills. We believe this method of control will eliminate much of the damage trouble.
2. It is the recommendation of this committee that the controlled hunting has been a success during the last two years in taking out the excess game animals in certain areas of the State where damage to the farmers has been excessive. It is the further opinion of the committee that controlled hunting as conducted by the State Game Department has been more or less successful and that the practice should be continued. Certain groups are claiming that the take of game has been more than necessary in the controlled hunting areas, but the committee has not found this to be true.
3. The committee recommends that claims for damages by game to farms should be handled in the same manner as all other claims against the State of Washington and that the Game Department should not be set up as a special court in equity to either approve or disapprove such claims. In other words, claims for damages by game should be presented to the Legislature in the form of relief bills.
4. It is further recommended that the official headquarters of the State Game Commission, including the office of the Director of Game, be in Olympia, the Capital of the State, rather than in Seattle.
5. We, your committee, to stimulate cooperation between all factions interested in the game problems in the State of Washington and to more fully put into effect the desires of the Governor for a greater and more complete game program, recommend that the present statutes be amended to provide that the Governor may appoint the members of the State Game Commission in the same manner and under the same conditions as he now appoints all other administrative heads.
6. In view of the change of administration and a possible change in the personnel of the State Game Commission, and also considering that methods to control game damage in the State of Washington have not been completely effected,

it is recommended that a Legislative Game Damage Interim Investigating Committee be continued for the next two years.

Respectfully submitted,

Senate Members

ROBERT R. RAY, *Chairman*
E. J. FLANAGAN
HOWARD S. BARGREEN.

House Members

EDWARD F. REILLY
FRED J. MARTIN

The Secretary read:

MESSAGE FROM THE GOVERNOR

January 30, 1945.

*To the Honorable Senate of Washington,
Legislative Building, Olympia, Washington.*

LADIES AND GENTLEMEN:

I believe that legislation should be immediately enacted for our veterans. It is a matter of the greatest urgency. There are approximately two hundred thousand men and women from this state in the armed forces. They are protecting us magnificently on the battle front. We must protect them on the home front. We must not and shall not fail them. They are returning daily and in substantial numbers. Many are disabled. Their present and future well-being requires that we act now.

The legislation should be flexible so as to meet all possible conditions. It should be comprehensive enough to assure cooperation with the federal program and to supplement that program where needful.

It has been suggested that we should establish a commission composed of members of existing veterans' organizations, who would control the state veterans department. However, we must remember that our returning veterans may form new and different types of veterans' groups as they did after the last war. There is now no way of predicting what new organizations may be formed. A failure to recognize new veterans' groups might cause them to turn into justifiably dissatisfied pressure groups. Such a result would create a condition which would be adverse to both the veterans and the state.

In order to give the widest possible flexibility and to fix responsibility, the bill I am proposing creates a state veterans department headed by a director appointed by the Governor with the consent of the Senate. An advisory committee consisting of one member of each existing and any future nationally chartered veterans' organizations is established. Under these provisions we can act to meet all future developments,

both as to the scope of the activities of the department and the recognition of possible new groups.

While it is recognized there is already need for assistance to veterans who are now returning to civilian life, we cannot at this time foresee the full scope of the problem which will arise with the cessation of war.

The purpose of this proposed legislation is to place the State of Washington in a position to cooperate with and supplement the federal program in any manner found necessary during the next two years without calling a special session of the legislature.

It is intended that this shall in no way conflict with federal enactments or duplicate the work of the national veterans' administration.

Likewise, while a state veterans department will be established to deal with immediate problems it shall be expanded only as required by the needs of returning veterans and the expenditure of the funds appropriated shall be gauged according to actual need.

I further recommend that the appropriation for this purpose be two million dollars. While it may not prove necessary to expend the entire amount, this appropriation should be adequate to meet all future contingencies for the next two years.

Respectfully submitted,
MON C. WALLGREN, *Governor*.

There being no objection, the Message from the Governor was referred to the Committee on Military, Naval and Veterans Affairs.

The President:

"The Sergeant-at-Arms will escort the gentleman to the rostrum."

The Sergeant-at-Arms escorted to the rostrum Reuben Knoblauch.

The President:

"Members of the Senate, I think an introduction is unnecessary because as the Senator from Pierce has already stated, this gentleman is a former employee of the Senate and we are glad and happy to have you back with us today. If you would care to say a few words we would appreciate it very much."

Mr. Knoblauch:

"Mr. President, ladies and gentlemen of the Senate and Senator Jackson and Senator Bienz:

"You fellows are in the wrong branch of the service, I will tell you that.

"It is very nice to come home. I spent twenty-five months over seas. In that time I traveled over twenty-two thousand miles. I have been to Australia and New Guinea and took part in the invasion of the Philippines. The only action I ever saw was in action in the Philippines and in those three weeks I saw what the boys over there were going through. I want to tell you folks you can't do too much for the boys who are in the service that have returned. Not because I have returned; I am referring to the boys that are at the front. They are doing a wonderful job and they are up there to win this war.

"I am interested in the State of Washington. I have seen the boys at the front that have come to the army and navy and I am proud to come back to Washington. My home is in Sumner, not Puyallup. When I came home I had in mind to do something for the boys back there. My first idea was to have an investigation made in Pierce County to find out if we had a blood bank going over to the Philippines and to New Guinea. The boys are giving their blood over there and I can think of nothing better than for the State of Washington to give us support for a blood bank in the State and thereby save the lives of the boys over there.

"I arrived home about two weeks ago at six o'clock and at eight o'clock I was invited to speak to a committee in Sumner which organization had sworn against the return of the Japs to the Pacific Coast. I was very anxious to go there and was extremely pleased when the Governor came out a short time ago against the return of the Japs to the Pacific Coast.

"Perhaps you would like to know what the boys in camp would like to have. The first and best thing they can get is mail. Not "V" mail; they like these long letters and you might ask them to request packages. It is nice to get a package. It don't last long. If you get a package, about fifty G. I's. swarm around you and it is gone in five minutes. We sit in camp and look over the Ladies Home Journal and the Womens Home Companion and we disapprove of these nice big steaks setting on the plates. My ambition was, when I got home, to get all the steak and chicken that I could eat. I am so full of chicken I think I could sprout wings and fly away. The boys over seas are interested in what is going to happen to them after the war and the main thing they want, and the right they have, is a job. I am glad the Government is doing so much to help those boys who are going to return from foreign service.

"I have seen the time when I was in the Philippines, when I saw my first action and I want to tell you that there is nobody that doesn't get scared. Most of the time in the Philippines, when I was there, it rained. We couldn't jump in our fox holes when the Japs came over. We had to hide behind a cocao nut three or lay flat on the ground and one night I got up thirty times and laid on the ground when the Japs came over. If you can get in a fox hole you take a chance of drowning but I just want to impress on you to do all you can for the boys that are over seas. You just can't do too much. You know what they are going through in the Philippines and they are up to their necks in snow in other places and that is the message I wanted to bring home.

"I had a job in the bill room in '39 and '41 sessions and sometime I have thought of running from the Twenty-fifth district for the House. That is my ambition. I don't know whether I will make it or not. Uncle Sam sent me a letter one time that said "Greetings" and until the war ends me and the other young fellows are busy and it is up to you people at home to keep up the good work and do all you can to get this war finished so us fellows can get home." (Applause.)

Senator Binyon:

"I might say for the Sergeant's benefit that there has been a blood bank started by Emil Sicks of Seattle and some of us like myself are contributors. They are well under way."

Senator Mohler assumed the chair.

Committee announcements were read by the Secretary.

At 12:28 o'clock p. m., on motion of Senator Rosellini, the Senate adjourned until 12:00 o'clock noon tomorrow.

MESSAGE FROM THE GOVERNOR

Office of the Governor.

January 31, 1945.

To the Honorable Senate of Washington,
Legislative Building, Olympia, Washington.

LADIES AND GENTLEMEN:

We have a very odd liquor situation in this state. We tell the average citizen that if he wants a drink he must buy a whole bottle. To the comparatively few who belong to clubs we say that they may buy both by the drink and by the bottle. On the other hand we say to the tourist and visitor that he can buy neither a drink nor a bottle. Here is class discrimination in its baldest form. Several undesirable results follow.

The visitor must and does use devious methods to procure a drink. He is forced into traffic with bootleggers, who exist because of the visitor's need. By so encouraging bootlegging, we foster lawlessness, and illegitimate sales to juveniles causing varying degrees of juvenile delinquency.

As I pointed out in my inaugural message, we must capitalize on our tremendous recreational and tourist values. This state can, and should be, one of the greatest playgrounds for vacationists in the Nation. To fully accomplish this we must offer our guests all the hospitality possible. Since we compete for their favor with other states we should consider the privileges they offer guests. Two third of the states in the Union allow sale of liquor by the drink. These include the so called conservative states such as Maine, Vermont, New Hampshire, Massachusetts and others. Included also are almost all of the states noted for their tourist appeal. We must remember that it has become the custom to buy liquor by the drink. Visitors are accustomed to the privilege and expect it. Yet we welcome them by forbidding them to buy a drink or a bottle. Under our present law I doubt that after the war we can compete at all in attracting National conventions or hope to successfully attract the maximum of tourist travel under these circumstances. I have seen liquor by the drink laws operate in San Francisco, Los Angeles, New Orleans, Baltimore, New York and Washington, D. C. All are widely known as tourist centers. I believe they have less drunkenness and less bootlegging than our own state.

Washington, D. C., permits the sale of liquor by the drink under laws similar to those I propose. Their laws were carefully framed by men in Congress from all parts of the Nation. I believe they offer the best consensus of opinion on the subject today—and they work well.

Our present provisions forcing people to buy liquor by the bottle have caused us to rank among the top five states as consuming the most liquor per capita in the whole country. As a result we have much drunkenness. We find bottle drinking in hotels, cars, doorways, and alleys. Because they are forced to do so people surreptitiously carry their bottles with them as they did in Prohibition days. The whole situation here is analogous in many ways to conditions existing during Prohibition—conditions we voted against years ago.

The measure I am forwarding to the House of Representatives provides that liquor can be sold by the drink only in hotels, restaurants and clubs which are located within the limits of incorporated cities and towns. Included also is the right to sell by the drink on trains and dining places on boats.

Before any such licenses can be issued in any such city or town, the particular municipality involved must authorize the issuance of such license by a majority of the people. If they should authorize such sale and later decide that a vote should be had to rescind the right, the proposed bill provides for an election to vote on such a rescission. These local option features should satisfy any sections that may consider themselves opposed to allowing sales of liquor by the drink. In no event are sales allowed in residential districts nor in any area outside any incorporated city or town. Another safeguard is that any city or town allowing such sales can establish zones within its limits in which such sales shall not occur. As a final precaution, the issuance of each particular license is within the discretion of the Liquor Control Board. The Board must be satisfied that the place seeking to sell by the drink is a proper one, and that the license is sought by reputable and reliable persons.

The proposed measure also provides that if any licensee is found to serve liquor to a minor or any intoxicated person, the license shall be cancelled and the holder of such cancelled license will be forever barred from having any interest whatever in a new license. The proceeds from the \$1,000 annual license fees go for the benefit of the state veterans department which I have proposed. It might be noted that we will need a new source of revenue to assure that our returning veterans are properly provided for.

In my opinion the bill abolishes existing indefensible inequities and discriminations. The local option features will assure the expression of local opinion and will guarantee satisfactory local handling. I believe it will discourage bootlegging and will reduce per capita drinking. Enforcement and supervision will be easier. We will be placed in a better position to encourage the enormously valuable tourist and vacationist travel. The stringent forfeiture provisions of the bill will assure proper management of each licensed place.

As governor of this state I shall insist upon strict enforcement to guard against abuse of the privileges granted. I believe that the enforcement of this proposed bill will be of great benefit to the people of the state.

Respectfully submitted,

MON C. WALLGREN, *Governor.*

The President Pro Tempore announced that the Message from the Governor would be received and referred to the Committee on Liquor Control.

Senator Reardon announced that he would like to inquire of Senator Bargreen, Chairman of the Liquor Control Committee, whether or not the Committee intended to consider the message.

Senator Bargreen announced that the message would probably not be considered until such time as the bill was received from the House of Representatives.

Senator Reardon moved that the Committee on Liquor Control be ordered to consider the Executive request from the Governor.

Senator Bargreen moved that the motion of Senator Reardon be laid on the table.

Senator Ray raised a point of order that the matter now being discussed was out of order.

The President Pro Tempore ruled that the matter was out of order.

"Mr. President, I would like to make an inquiry. Some days ago, possibly some weeks ago, the Governor sent in a list of the appointments to the various colleges, the University of Washington, as well as to other State departmental positions. I was wondering what action the Rules Committee has taken on those appointments and if they intend to refer them to the proper committees?"

The President:

"That has been done, Senator Reardon, and they have been referred to the proper committees already and we are waiting for the report from Senator Dixon, Chairman of the Education Committee as to the confirmation of the Governor's appointments."

The President signed House Concurrent Resolution No. 5.

The President:

"The Chair can't help feeling rather curious about all the decorations on the desks of the Senators on this side of the Senate here. Who is the spokesman that can explain this to some of us other people?"

Senator Dawson:

"Mr. Chairman, if I may have the indulgence of the Senate, some pale faced friend has recognized the Senators on this side of the Chamber and we ask your indulgence while we make the proper ceremonial acknowledgment."

Senator Dawson called out "Attention" and all Republican Senators stood. Proper ceremonies were conducted.

Senator Zednick:

"I think, Mr. President, acknowledgment should be made as to who our fine pale faced friend is and that is no other than our good Senator, Doctor Cowen of Spokane County, who is more or less in sympathy with the Cherokee tribe."

The President:

"I know, Doctor Cowen, that this is very embarrassing to you. Now what have you to say in defense?"

Senator Cowen:

"I just felt sorry for the Republican Block, not having received any committee chairmanships. I thought by planting a little tree on their desks it would really console them and we have only about thirty-five days left in this session and I thought the little fragrance oozing out of that plant might do them good for the balance of the session."

The President:

"Saying it with flowers is a common expression but I didn't know you could win them with flowers."

"Senator McCutcheon, what have you to say?"

Senator McCutcheon:

"Mr. President, and members of the Senate, I didn't know what the flowers were for, whether it was a final contribution to the Republican party or whether it had to do with the session."

Senator Zednick:

"Senator Reardon also has a plant. I think he should acknowledge the fact that he is now a member of the Republican minority."

Senator Reardon:

"Having been on the sick list, I thought it was a build up to my morale, although I realized that it was the reputation of the members of the Senate in the past to see that minorities are protected. I am very happy to have this consideration shown by Senator Cowen. I realize that quite frequently, especially at the beginning of the session, he takes this means of embarrassing the members of the Senate but he is one of them and I expect sometime during the session I will have to return these flowers in some way or another, probably not with flowers."

The President:

"I wonder if one of our distinguished visitors from Oregon would care to say a word on behalf of the delegation. We would be glad to hear from you."

Remarks were made by various members of the Legislative Committee from the State of Oregon.

Committee announcements were read by the Secretary.

Senator Mohler, President Pro Tempore, assumed the chair.

MESSAGE FROM THE GOVERNOR

State of Washington, Executive Department,
Olympia, February 6, 1945.

MON C. WALLGREN
Governor

To the Honorable Senate of the State of Washington, Legislative Building,
Olympia, Washington.

LADIES AND GENTLEMEN:

In my statement of January 25, 1945, accompanying my proposal submitted to the House of Representatives concerning grants to senior citizens, I pointed out that certain of these provisions must have the approval of the Federal Board of Social Security. Since the submission of that bill, which is House Bill No. 136, I have continued my studies, as well as consultations with the Federal Agency and representatives of pension groups.

While the Federal Board could not see its way clear under existing federal requirements to authorize the provisions mentioned, we have been able to formulate a new bill which will accomplish our objectives and broaden further the rights of our senior citizens. This proposal has the unqualified approval of the Federal Board.

I am, therefore, submitting this new measure as a proposed substitute for House Bill No. 136.

Under existing law our senior citizens cannot receive gifts in cash or kind in excess of one hundred dollars (\$100) without their grant being reduced. The proposed bill eliminates the arbitrary one hundred dollar (\$100) figure and the test made of any gift is whether it materially affects the recipient's income.

The proposal also guarantees a state wide uniform minimum of fifty dollars (\$50) per month to each eligible senior citizen from and after May 1, 1945. The effective date of the increase has been established in advance in order that necessary administrative adjustments required by the bill can be made.

Provision is also made for taking living cost changes into consideration in defining need, which in my opinion is important because it allows flexibility under any given existing economic condition.

Another feature is that senior citizens residing in county hospitals will be entitled to a grant to meet their needs of a personal and incidental character.

Under its terms senior citizens retain their right to casual and non-recurring earnings. Also retained is their right, on the basis of need as determined by the department, to supplement their grant from regular earnings.

I believe the proposed substitute bill is the best one possible under all the circumstances. I, therefore, recommend its passage.

Respectfully submitted,

MON C. WALLGREN, Governor.

The Secretary read:

MESSAGE FROM THE GOVERNOR

State of Washington, Executive Department,
Olympia, February 7, 1945.

To the Honorable, the Senate of the State of Washington

LADIES AND GENTLEMEN:

I am submitting for your consideration a bill on the vitally important subject of unemployment and disability compensation. While doing all we can to prosecute the war we must also do those things necessary to prepare for the peace. We must assume that a period of temporary unemployment may accompany our transition from war to peace. To provide for more adequate coverage and larger benefits under our state unemployment insurance system is to protect the working man, as well as business, from undue hardship during any such period.

The proposed bill increases both the weekly payments as well as the periods during which such increased payments are to be made, as well as adding sickness and disability payments. The present weekly payments vary from \$7.00 to \$15.00. I recommend the payments be raised to a weekly minimum of \$10.00, and a weekly maximum of \$25.00. Under existing law the insurance is payable over periods ranging from 7 to 16 weeks. I believe these periods should be increased to a minimum of 12 weeks and a maximum of 26 weeks. Such action is in line with the general increase in the wage scale and should tend to reduce any future problems of the wage earner which may result from unemployment.

The measure proposed is a complete recoding of the unemployment compensation act. This is in response to the action of the 1943 Legislature providing for recoding of all state statutes to accomplish uniformity of state laws, to make amendment easier, and to make the laws more easily understood.

In my opinion the unemployment insurance program should be expanded to include those who become unemployed because of illness or non-industrial disability. For many years the law has limited its protection to those who are "able and available" for work, overlooking those unable to work by reason of illness or non-industrial accident.

The man or woman who is unemployed because of sickness or disability is usually more seriously in need of insurance protection than those who are able bodied.

Within the next few years, or perhaps sooner, the importance of the changes suggested will be widely appreciated. We must act now to assure as far as possible that the drastic unemployment hardships of the past will not recur. Our insurance program is self-sustaining and the payments under it are a matter of right, not of charity. The proposals are financially and economically sound. They are important. I know they will receive your most careful consideration.

Respectfully submitted,
MON C. WALLGREN, *Governor.*

SEATTLE CHAMBER OF COMMERCE
215 Columbia Street
Main 5060
Seattle 4, Washington
February 7, 1945.

*Mr. Jess Fletcher, Chairman,
Seattle Council of American Soviet Friendship,
6142 Arcade Building, Seattle 1, Washington.*

DEAR JESS: You will be interested to learn that our Board of Trustees yesterday unanimously adopted the recommendation of the Chamber's Foreign Trade Committee that we take such steps as necessary to secure the early re-establishment of a Soviet Consulate in this City.

The Manager of our Foreign Trade Department, Harry O. Mitchell, has made known to the local offices of the Soviet Government Purchasing Commission the Chamber's interest in this matter and has been assured of the cooperation of this agency by Messrs. N. J. Bezroukov and N. B. Velikotsky, who are in charge of the Seattle office.

It would add weight to the Chamber's efforts in this direction if the State Legislature could be persuaded to pass an Act memorializing the Secretary of State to make appropriate recommendations to His Excellency, Andrei A. Gromyko, Ambassador Extraordinary and Plenipotentiary of the Union of Soviet Socialist Republics in respect to the establishment of a Soviet Consulate at Seattle.

I am enclosing a draft for such a memorial which presents arguments in support of this proposal.

Your own assistance and cooperation will be much appreciated by the Seattle Chamber of Commerce.

Yours very truly,

CHRISTY THOMAS,

Executive Vice President.

Senator Reardon:

"Mr. President, I would like to know whether this is introduced under a suspension of the rules. If it is a Joint Memorial, both Houses would have to join."

The President:

"This is not a joint memorial. It is a Resolution. The Secretary will read."

Senator Reardon:

"I understand you are asking the House to concur in it, is that it?"

The Secretary read.

Senator Binyon moved the adoption of the Resolution.

Senator Zednick:

"Why don't you make this in the form of a regular memorial to be joined in by both the House and the Senate? I have no objection to it but why make it a Senate Resolution? I think it would have more weight if it were made in the form of a regular Memorial in which the House and the Senate both concur."

The President:

"The point raised by Senator Reardon and the suggestion made by Senator Zednick, I think are worth considering. I think the form is bad and it should be introduced as a Joint Memorial. There is no reason why you can't introduce it as a Joint Memorial, although it has been read."

Senator Zednick:

"If it is introduced as a Memorial I would be willing to move the suspension of the Rules and make it a Joint Memorial."

The President:

"Do you make the motion to suspend the rules?"

Senator Zednick:

"Yes, I will make the motion that the rules be suspended and that the Joint Memorial of the Senate and the House be placed on final passage."

The President announced that the question now before the Senate is on the motion of Senator Zednick, that the rules be suspended and that the Joint Memorial, to be known as Senate Joint Memorial No. 3, be placed on final passage.

The motion of Senator Zednick carried.

The Secretary read:

Memorial Address.....Senator Lady Willie Forbus

"MR. PRESIDENT, MR. SPEAKER, MEMBERS OF THE LEGISLATURE, LADIES AND GENTLEMEN:

"This hour is indeed well chosen. While the mountains and the oceans of the world echo the whirr and roar of wings and the din of cannon, and this Nation is in its agony, and tragedy stalks through the land and into the firesides of all our families, we take a respite to escape into the serene region of contemplation.

"For, today we meet with two-fold purpose: To do homage to the memory of a Great Liberator and Man of the People, and to pause in reverent memory of those among this Body who have passed out of our lives into the Great Beyond.

"In the Halls of this Nation three-quarters of a century ago, the Great Emancipator espoused a cause to set men free, to protect man against the greed and exploitation of his fellow. That cause bore a bitter fruit. It brought, first, a house divided, and then War,—War between brother and brother, between father and son. It threatened the destruction of a new republic at a time when it was yet forging its pattern and fashioning ideals destined to become the guiding light of all civilization.

"Victor of a hundred battles during four tragic years, Abraham Lincoln lies today as dust. As he was called to sacrifice the lives of his people to preserve their inalienable rights, just so he, in turn, became a sacrifice. He stands before us this Memorial Day a living, powerful influence, directing the thought and setting an undeviating course toward the principles of true democracy written in his blood and the blood of our forefathers.

"My friends, service in any lawmaking body commands moral strength and lofty ideals. The business of statesmanship becomes wizened and sordid where there are no heights to scale. For Democracy is founded upon ideals. When those ideals lose their power over the minds and hearts of men, Democracy will come to an end.

"The wisest and best men may differ most sharply in applying what seems the simplest and clearest principles of morals and duty in the conduct of government. But,

the important factor is NOT that good men shall abate their zeal for righteousness or progress,—BUT only that they should abate the bitterness of their judgments of others with whom they differ.

* * * * *

"Since last this assemblage convened, many of our members have been laid to rest. The voice of at least one of these men was heard in these Halls as long ago as 1895, and still another in 1899; and several of them served the State at the turn of the Century.

"Two years ago, in the corridors and committee rooms of this Capitol, there moved among us many of our brethren and co-workers, each contributing, according to his own light, the utmost of his capabilities, and each striving to maintain the principles laid down by the immortal Lincoln.

"If either of them failed, it was the frailty that is common to all humans, and not the avarice or greed or corruption thoughtlessly attributed to them by others.

"So, today, as we stand in commemoration of these fine men, who have for over half a century have mingled their voices and ideals with ours, we bow in compassion and deep gratitude for their service and vision; and we acknowledge with all humility their contribution toward a design of living which challenges this war-torn world and offers a plan of everlasting peace.

Surviving are his widow, Mrs. Alice E. Adamson, of 3218 Rockefeller Avenue; two sisters, Mrs. Hannah Holloway of Winchester, Indiana, and Mrs. Edith Culp of Mason City, Illinois, and a number of nephews and nieces.

The Committee on Memorials delivered the following eulogy on the life of Daniel Wallace Barclay:

Daniel Wallace Barclay was born in Linn County, Missouri, on January 27, 1871, and died on April 9, 1944. He was married to Katherine Vallier at Milan, Missouri, on July 12, 1893. To this union was born four children: William M., Chehalls, Wash.; Homer W., Burlington, Wash.; Condon V., Sedro-Woolley, Wash., and Gladys N. Anderson, Mount Vernon, Wash. He was engaged in farming in the East and in February, 1902, moved with the two older children to the Palouse country. He farmed there until 1908. The family then moved to Moscow, Idaho, where he started in the auctioneering business. In 1913, the family again moved to Walla Walla. Here he continued the auctioneering business and became interested in pure bred cattle. In 1920 he was instrumental in organizing the Walla Walla Farm Bureau. He also was the organizer of the Walla Walla Dairymen's Association. He served as its President from the time of its organization until he moved to Skagit County in 1928.

He was elected to the State Senate in 1925, from the 12th District, and served in this capacity until his moving to the West Coast. He was on the Appropriation, Agriculture, and other Committees during his term.

When he moved to Skagit County, he purchased and established Chuckanut Farms, where he bred and owned one of the outstanding herds of pure bred Guernsey cattle in the United States. He had several world record cows and a number of class leaders.

He was instrumental in organizing the Skagit County Guernsey Association, serving as its President several terms. He also pioneered the founding of the Washington State Guernsey Association and was its president at the time of his death. Mr. Barclay was recognized by the American Guernsey Cattle Club, as one of the best judges of dairy cattle in the United States. He was known as the "Daddy of Guernsey cattle in the Northwest."

He served on the Executive Committee of the Washington Taxpayers League for a number of years. He was on the school budget committee of Skagit County most of his residence in the county.

Mr. Barclay was always interested in all civic affairs and worked for the betterment of his community.

Representative J. K. Van Buskirk delivered the following eulogy on the life of Frank Grant Barnes:

Frank Grant Barnes was born in Gentry County, Minnesota, September 24, 1869, and passed away in August, 1943. He received his education in schools in many states, but graduated from the Academy in Eureka, California, also from business college. He traveled extensively, working in different parts of the country, finally settling at Silver Lake, Washington, where he entered the logging industry, also being a partner in a shingle mill. He was a stockholder in the Silver Lake Railway & Lumber Company, but sold his holdings in 1918 and moved to Longview, Washington, where he lived for many years.

Mr. Barnes was a man of wide and varied interests. He was a member of the school board, held the position of Postmaster for twenty-seven years, and was one of the County Commissioners from 1903 to 1906. He was elected to the Senate of the State of Washington in 1916, and served in that capacity every session, including the Extraordinary sessions, through the session of 1935.

Mr. Barnes secured the land which is the present site of the city of Longview.

Mr. Barnes married Eleanor Dahlman, a member of one of the pioneer families of Silver Lake, and to them five children were born.

Representative Frank B. Malloy delivered the following eulogy on the life of W. A. Bolinger:

W. A. Bolinger died at his home at Methow, Okanogan County, on the 20th day of April, 1944. He was eighty years of age at the time of his death. He was born at Fayetteville, Arkansas, and came to the State of Washington in the year of 1889.

Mr. Bolinger was always interested and active in public affairs and in the development of his county and the State of Washington. He was one of the fourteen men who, in 1899, under the leadership of the late Samuel Hill, met in Spokane and organized the Washington State Good Roads Association. He became a charter member, and remained actively interested in the association until the time of his death. Of the fourteen who formed this association, only three are now living. Mr. Bolinger was active in the Stevens Pass Association, and was a past president of this association.

Mr. Bolinger served as a Representative in the Washington State Legislature in the sessions of 1905 and 1909, and also in the special session of 1909. He was also a member of the Washington State Senate for the term of 1919 and the 1920 Extraordinary Session.

Senator Albert Rosellini delivered the following eulogy on the life of Judge Charles E. Claypool:

Judge Charles Ethelbert Claypool, pioneer Washington jurist, died March 22, 1944, in a Seattle hospital after a brief illness.

Judge Claypool, lawyer, Alaska Court Commissioner, and gifted public speaker, saw the City of Seattle emerge from a hustling sawmill town to the status of a world port—the gateway to Alaska and to the far East. Although he was known as a master of pathos, it is likely that he will be remembered best for his services in saving many families from domestic disaster in the Court of Domestic Relations, over which he presided.

Born at Crown Point, Indiana, December 7, 1861, Judge Claypool came to Washington in 1887, and was admitted to the territorial bar a year later. It was common, in that early period of Washington's history, for any young man with talent for public speaking, and especially if he happened to come from Indiana, immediately to become active in politics. The tendency of natives of the Hoosier state to engage in politics

was almost proverbial and it was true in the case of young Mr. Claypool. Originally Judge Claypool came to Washington to join his uncle, in the practice of law in Tacoma, Washington. It was through that association that he became a partner of the late Francis W. Cushman, and the late Edward E. Cushman and James A. Haight of Seattle.

Judge Claypool served as deputy prosecuting attorney of Pierce County from 1889 to 1892. He served in the Legislature of the State of Washington as Senator from 1891 to 1893.

From 1897 to 1900, Judge Claypool served as assistant United States Attorney under the late William R. Gay. When the golden North beckoned, he accepted the position of Court-Commissioner at Circle City. He served, also, at Fairbanks during the height of the Alaska Gold rush. Returning to the United States in 1910, Judge Claypool settled in Olympia, Washington. In 1913 and 1914, he served as Superior Judge of the district composed of Thurston and Mason Counties. When Judge Claypool was named justice of the peace in Seattle November 13, 1928, he succeeded Chester A. Batchelor, who had been elected to the Superior Court.

Judge Claypool was well known for his quaint humor. His trim, erect figure and soldierly bearing was familiar to thousands. He served two years in the Washington National Guard. He was a 32nd degree Mason, and a member of the Shrine, the B. P. O. E., and the F. O. E. and the Sons of the Revolution. He was a member of the Episcopal Church and a life-long Republican.

The following eulogy on the life of John C. Crawford is from the Golden-dale Sentinel, October 12, 1933:

The death of John C. Crawford, of Northdalles, occurred early Monday morning, October 9, 1933, following a comparatively short illness. He was 66 years of age. Mr. Crawford has for years been interested in politics and civic activities, having served his district as both State Representative and State Senator. He lived for years on the home farm near Northdalles, always working for the development and betterment of his community and district. He was one of the early workers for the completion of the North Bank highway, and some of his early efforts were responsible for the work being as far advanced as it is at present. Mr. Crawford was a Mason, belonging to several organizations of the order, including the Shrine.

Mr. Crawford was born March 17, 1867, at Susenville, California. Surviving him are his wife, Mary; two sons, M. M. Crawford, of Northdalles, and M. H. Crawford of Golden-dale; one sister, Mrs. Frank Saxton, Blockhouse, Washington.

Senator John T. McCutcheon delivered the following eulogy on the life of Walter Scott Davis:

Walter Scott Davis was born near North Salem, Indiana, December 29th, 1866, and died on June 17th, 1943. With his passing the state and nation lost a valuable contributor to the cause of education and higher learning, as he was particularly well prepared to assist in any program toward that end. The list of educational institutions he was a graduate from, and attended, is imposing. His years spent as a teacher in some of the best schools well fitted him for the part he played in society.

Mr. Davis graduated from De Pau University in 1889; from Cornell University in 1892; Student in History in the University of Leipzig, Germany, in 1892; had a Fellowship in History in the University of Chicago in 1894 to 1896. He was an instructor of history and civil government in the Richmond, Indiana, High School in 1897-1907.

Mr. Davis came to the State of Washington in 1907 and the following are some of his activities: Editor of Volume 2 of the Washington State Historical Society publications; member of the board of trustees of the Washington Children's Home Finding Society; vice-president and member of the board of directors of the Central Bank of Tacoma; Professor of History and Government in the College of Puget Sound and was a member of the Tacoma Metropolitan Park Board.

Mr. Davis served for many years as a State Senator in the Washington State Legislature, beginning with the 1913 session, continuously through the 1927 session.

Mr. Davis belonged to the F. & A. M., No. 22; the Delta Kappa Epsilon Fraternity. He was a "Roosevelt" Republican, and belonged to the Methodist Church.

Senator Harry Wall delivered the following eulogy on the life of John H. Ferryman:

The death in December, 1944, of John H. Ferryman of Wenatchee, removed from the

political scene one of the most picturesque figures in the political life of the State of Washington.

He first came to the state legislature in 1917, served again in 1919 and the extraordinary session of 1920. Thirteen years later he returned to the Senate and served in the regular sessions of 1933, 1935, 1937 and 1939 and the extraordinary session of 1933. Senator Ferryman is best remembered for his services in the 1930s when he was one of the unquestioned leaders of his party in the Senate. He was an able public speaker and often attracted a large gallery attendance when it was known he was to speak on some question which required his taking the floor. He was an accomplished elocutionist and on numerous occasions, during the closing days of a session, he would be called to the rostrum to entertain, when the Senate was temporarily at ease.

Senator Ferryman was one of the most fearless of men. While at times he appeared to be nervous and greatly upset over some pending measure, this was a false impression. He always had command of a situation and if he appeared to be searching for the proper words, it was only because he wanted to add emphasis to what he was saying. Senator Ferryman was a follower of Jefferson, and expressed his love for the common people by pleading their cause. It was during his later years of service that social legislation was being considered, and Senator Ferryman was happy to join his efforts with those of his friends sponsoring this cause. He was a kindly gentleman, and most courteous in his senatorial duties. Senator Ferryman was a resident of the State of Washington for nearly fifty years. He served as local agent for the Great Northern Railway at Wenatchee for a number of years, later developing and operating a large orchard.

Like all pioneers, Senator Ferryman exemplified the characteristics of those courageous Americans. He lived to see not only the valley which he loved, but the state which he honorably served so many years, forge to the front as one of the leading states in the nation.

Senator Donald Black delivered the following eulogy on the life of Joseph L. Keeler:

Joseph L. Keeler, Olympic peninsula pioneer and Sequim's most prominent citizen, died suddenly at Everett, while visiting friends, December 15, 1944. He had been ill in a Seattle hospital and had gone to Everett to recuperate.

Born October 7, 1873, at Clay Center, Kansas, Mr. Keeler came to Port Townsend in 1889. He left Port Townsend in 1897 for the Klondike and with Mrs. Keeler and their young son, Hammond, came to Sequim in 1902, and had lived there since. He operated a hotel at Sequim for over twenty years. He secured the incorporation of the city, established the first telephone, electric power and water systems and the town's first bakery.

Mr. Keeler was a life-long Democrat, and a power in the councils of that party in the State. He served two sessions as State Senator, 1937-1939, and was a county commissioner for one term. He was also a member of many committees concerned with state and county affairs.

In recent years, Mr. Keeler engaged in real estate and insurance business. He also operated a farm near Sequim. He was an extensive owner of land and currently was establishing new land clearing projects. Mr. Keeler was acting in advisory capacity for proposed legislation to subsidize the clearing of land for returning service men.

Few people have had the romantic and useful career of Mr. Keeler. As a young man, he mushed overland through northern Canada on the Klondike gold rush of 1897 and earned the respect of sourdoughs who nicknamed him "The Yellow Kid" from the color he wore in scores of camps in Klondike and Alaska. Mr. Keeler made two trips to the northland and had many thrilling experiences in Dawson, on the creeks and other camps. His stories of the Klondike reflected some of his happiest memories.

After his return from the Klondike and settlement in the then small village of Sequim forty-two years ago, Mr. Keeler's career has been so varied and useful, that to chronicle it would be to tell the history of the east end of Clallam County. He had so many interests that his friends often wondered how he accomplished all the things he did.

Mr. Keeler was a member of Naval Lodge of Elks and the Sequim Rotary Club. He leaves surviving him his widow, Mrs. J. L. Keeler; a son, Hammond Keeler; a granddaughter, Carol Jane Keeler, all of Sequim; a grandson, Jack Keeler, in the United States Navy; and a sister, Mrs. Maggie Robinson, of Chimacum, Washington.

Senator Victor A. Zednick delivered the following eulogy on the life of Ritchey M. Kinnear:

Ritchey Means Kinnear was an outstanding member of the State Senate during the sessions of 1903 and 1905. The son of John R. Kinnear, a member of the State Constitutional Convention, after whose brother Kinnear Park on Queen Anne Hill was named, Ritchey Kinnear inherited a keen interest in public affairs.

Before his election to the State Senate, and for many years afterwards until his death April 4, 1943, Senator Kinnear was active in public affairs of Seattle, King County and the State of Washington.

He was born in Paxton, Illinois, January 18, 1870, and with his family arrived in Seattle in 1881. Later he returned to Illinois but came back to Seattle to live in 1883. He attended the Territorial University, located where the present White-Henry-Stuart Building now stands, and also was a student at Northwestern University at Evanston, Illinois.

He engaged in the real estate business, as a member of the firm of Kinnear & Paul. He was liked by everyone who knew him. His friends often said that the reason for his popularity was that he was always interested in what his associates had to say on any question. He was active in philanthropic work, was generous in the extreme, and was kind to old people and those who were down and out. He was regarded by all who knew him as a big-hearted, generous, companionable and gracious man, always valued as a sincere friend.

Senator Kinnear's record in the Legislature was constructive and a credit to the Queen Anne District. He was a cousin of State Representative Roy J. Kinnear, who is now one of the outstanding members of the State House of Representatives.

In the passing of Senator Kinnear on April 4, 1943, Seattle and the State of Washington lost a public spirited citizen, who had helped materially for many years in building a greater Seattle and a greater Washington.

Senator W. C. Dawson delivered the following eulogy on the life of George Albert Lovejoy:

George Albert Lovejoy was born at Central City, Merrick County, Nebraska, on July 30, 1879, and died on March 2, 1944.

Mr. Lovejoy received his education in public schools near his birthplace, and attended Central City High School. He began his active career in the Idaho mines, where he was employed from 1899 to 1902, and for a year thereafter was manager for a hotel at Wardner, Idaho. In 1903 he settled in Spokane, Washington, where he engaged in various enterprises, beginning with a photographic store and managing life insurance agencies for different companies. He was active in civic work, helping to organize for the purpose of building the city of Spokane. He lived in Spokane until 1911, when he moved to Portland, Oregon, coming to Seattle, Washington, in 1927, where he has resided since. While Mr. Lovejoy's principle interest was in the insurance field, he was also interested in other lines, among which were the Alaska Coke and Coal Company, was president of the California Pacific Oil Company and was a member of the board of directors of numerous other companies, among which was the State Bank of Portland.

Mr. Lovejoy was active in politics, being a Democrat since early youth. In 1916 he was sent as a delegate to the Democratic National Convention held in St. Louis, and was a member of the committee chosen to notify Woodrow Wilson of his renomination. He served as a Representative to the Oregon State Legislature in the 1923 Session. After he came to Seattle, he continued with his interest in political affairs, and was elected to serve in the Senate of the Washington State Legislature in 1933, also in the 1933 extraordinary session. He served the State in that capacity through the 1941 session.

Senator Lovejoy was active in all forms of fraternal organizations, being a member of the Masons, having taken both York and Scottish Rites; and was a member of Nile Temple, Ancient Arabic Order Nobles of the Mystic Shrine, of Seattle. He has belonged to both the Elks and Odd Fellows. For a time he was International Vice-President of the Kiwanis Club.

With the passing of George Albert Lovejoy the State and his community suffered a great loss, as he was always ready to help in any way he could to bring about anything that would help build his city, state and nation.

Senator Michael J. Gallagher delivered the following eulogy on the life of Robert T. McDonald:

State Senator Robert T. McDonald, a resident of Seattle for 54 years, who was one of the state's leading historians and an active civic leader, died November 21, 1944, after a brief illness. Funeral services were held in the chapel of Arthur A. Wright and Son.

With him at the time of his death were his twin brother, Ralph B. McDonald, with whom he lived at 5712 E. Green Lake Way—in which district the family home had been ever since 1890, when there was only eight houses in the entire Green Lake community; another brother, Superior Judge Donald A. McDonald, and a sister, Mrs. William E. Sander.

Born in The Dalles, Oregon, May 8, 1887, Senator McDonald was brought to Seattle as a child of three. He was graduated from Broadway High School and then attended the University of Washington, where he was a member of Sigma Nu fraternity. His father was the late F. A. McDonald, president of the Seattle school board when he died.

During the first World War, Senator McDonald was paymaster on a merchant seaman's training ship. He was in the real estate business for years and was operating a general insurance agency in the Empire Building at the time of his death.

He was first elected to the lower house of the legislature as a Democrat from the 45th District in 1935. He was elected to the state Senate from the same district in 1939 and had one more session to serve before his term expired.

He was a member of the speakers' bureau of the Office of Civilian Defense and was recently reelected president of the Friends of the Seattle Public Library.

Senator Victor Zednick supplemented Senator Gallagher's remarks with the following eulogy on the life of Senator Robert T. McDonald:

Robert Thompson McDonald, a pioneer, a member of this Senate, and a distinguished citizen of Seattle, has passed beyond the hearing of the bitter voice of envy or the soothing tongue of flattery, and his life is now a blessed memory.

I deem myself fortunate in having had the friendship of Senator McDonald for over forty years. I knew him in our college days, and our friendship continued to the day of his death. He had a heart of gold that was filled with love for all humanity. His uniform good nature, courtesy and kindness won for him a host of friends. He died when his life's tide was at the full, and in the hour when he was in the meridian of his strength. Death has indeed found a shining mark. Life is a mystery and death an enigma. Comforted by a devoted family of brothers and sisters, with faith unshaken, hope abiding, and with trust supreme, he yielded to his long sleep, confident of an awakening, according to the Father's promise.

He has reached his journey's end. The book of his life is closed. What nobler epitaph can any man have than this: "That having served his generation, by the will of God he fell asleep." A useful and a patriotic citizen has fallen. As the soft winds sigh over the green grass above his grave, may they sing a requiem, whispering tenderly that now that the fever and troubles of his life are over and his work is done, the Lord of Mercy may grant him a safe lodging and a holy rest, and peace at the last.

Senator Clyde V. Tisdale delivered the following eulogy on the life of Henry S. McGowan:

Henry Silas McGowan died January 20, 1945. A native of the community established by his father and which bears his name, having been born in McGowan, June 24, 1866. Mr. McGowan had made his home there during his entire lifetime. He received his education in Portland and early in his youth became interested in the canning industry which his father, the late P. J. McGowan, established in 1861.

Mr. McGowan was active for a number of years in the Washington state legislature, having served with the legislature for two years, first in 1907 and again in 1909, also the 1909 extraordinary session. He was particularly active in securing legislation affecting the Washington fisheries.

Mr. McGowan was married September 19, 1894, to Mable Catherine Zigler, they having celebrated their 50th wedding anniversary last fall. He was president of the P. J. McGowan & Sons cannery.

Surviving Mr. McGowan are his widow, Mrs. Mable Catherine McGowan; two daughters, Mrs. Leonora M. Gile of Chinook and Mrs. Catherine Garvin of Spokane; and by two granddaughters, Mary and Jane Garvin, also of Spokane. A nephew, John McGowan, was associated with him in the cannery until going into the Navy.

Funeral services were held January 24, 1945, at the McGowan Catholic Church, which was built by P. J. McGowan, and burial was at Mt. Calvery cemetery in Portland, Oregon.

Representative Harry J. Martin delivered the following eulogy on the life of Judson W. Shorett:

It was my very great privilege and pleasure to have been intimately associated with the late Senator Judson Shorett, both personally and politically, for many years. I knew him as a conscientious, hard-working citizen and public servant.

Mr. Shorett was born on Lincoln's birthday anniversary, February 12, 1876, at Harlin County, Iowa. He attended the public schools and the University of Iowa. Before coming to Seattle in 1902, he taught school in his native state. Following his admission to the Bar in the State of Washington, Mr. Shorett formed a law partnership with W. G. McLaren in the city of Everett. While practicing his chosen profession in that city, he volunteered his services as Athletic Coach in the Everett High School, and had among the students two of Washington's outstanding citizens; namely United States District Judge Lloyd L. Black, and Mon C. Wallgren, present Governor of the State of Washington.

After several years successful law practice in Everett, Mr. Shorett, established himself in Seattle as a member of the law firm of Shorett, Shorett and Taylor. He continued in such successful private practice until Federal Judges Bowen, Black and Leavy named him clerk of the United States District Court for the Western District of Washington.

"Jud" as he was affectionately known to his legion of friends, irrespective of party, class, or creed, was an uncompromising Democrat in National politics. He revealed his sturdy character, his respect and affection for all men, and his diligent and intelligent attention to each problem presented to him; a lifelong Democrat, he believed in our institutions, realized that the quality of government is but a reflection of the character of those individuals who maintain and operate it, and he gave liberally of his time and ability to insure its success.

He was a delegate to the Democratic Convention in the City of Baltimore in 1912, which nominated Woodrow Wilson for President. He was also a delegate to the 1932 Democratic Convention in Chicago and took an active part in bringing about the nomination of Franklin D. Roosevelt as Democratic Standard Bearer.

Mr. Shorett was one of the founders of the Washington Men's Democratic Club, and the Young Men's Democratic Club of King County. He was appointed a member of the House of Representatives and served in the special session of the Washington State Legislature in 1933, and in 1934 was elected as state senator from the 37th Legislative District and served continuously through the 1941 session.

Surviving relatives include his widow, four sons, Lloyd W., who is prosecuting attorney for King County; Paul, Richard and John; also two brothers, John B. Shorett, pioneer attorney and veteran member of the Seattle school board; and Brace, a member of the staff of the Seattle City Comptroller.

In the sad and untimely passing of Senator Judson W. Shorett the family has sustained the loss of a devoted father and husband, the State of Washington a faithful public servant and the Democratic Party one of its ablest and respected leaders.

Senator Victor A. Zednick delivered the following eulogy on the life of Howard D. Taylor:

Howard D. Taylor was a member of the House of Representatives during the sessions of 1907, 1909, 1911 and 1913, serving during the last two sessions as Speaker of the House. During the sessions of 1915 and 1917, he was a member and leader in the State Senate. Up to 1913, he was the first member who had ever had the honor of being Speaker of the House in two successive Legislatures. A master of parliamentary procedure, he handled the business of the House with fairness and dispatch. Impatient of wasteful methods in legislation as in business, he was sometimes accused of being "Czar" of the House, but because he never "played to the galleries" himself, he had little time for those who did use the legislative halls for such purposes.

In the Senate, he quickly moved into a position of leadership on account of his ability on the floor and his knowledge of parliamentary law and legislative practice and procedure. Quiet in manner but determined in all matters of principle, he was never inclined to "trim" on questions of public policy, and his record stands clearly as one of conscientious work during the six sessions of the Legislature of which he was a member.

Mr. Taylor was born in Iowa in 1878. Coming west, he went into the lumber business and for many years was manager of the Page Lumber Co., at Eagle Gorge, King County. An able business man, he always stood for business principles in government and believed that the public which pays the bills of government should be protected from freak and extravagant legislation.

Elected as a Republican from the 30th District in King County, Mr. Taylor contributed much to the up-building of the State through his conscientious work in the legislative halls. In his passing, the State of Washington lost an outstanding citizen.

Senator Virgil A. Warren delivered the following eulogy on the life of Charles H. Voss:

Charles H. Voss was born in Minnesota in 1876, and died December 26, 1944. He had lived in Spokane forty years.

Mr. Voss engaged in the Real Estate & Investment business for many years. He had been partners with his brother, who passed away several years ago.

Mr. Voss was a Republican and served in the Washington Legislature, first as a Representative in the 1923, 1925 and 1925 extraordinary sessions, and as a State Senator in the sessions of 1931 and 1933 as well as the 1933 extraordinary session.

He was a 33rd degree Mason. Surviving him is a sister, Mrs. Minnie Barth of Portland, Oregon.

Senator J. R. Binyon delivered the following eulogy on the life of William Wallace Wilshire:

William Wallace Wilshire was born in Port Byron, Ill., and died at his home in Seattle on March 22, 1944.

Mr. Wilshire was educated in the public schools of Little Rock, Arkansas; attended the University of Michigan and later took his degree at the Columbian Law School, now George Washington University at Washington, D. C. He began his career as a law clerk in the United States General Land Office and was admitted to the bar in 1885. He later was elected to the United States Congress from Arkansas.

In 1890, Mr. Wilshire came to Seattle, and entered general law practice, but soon after interested himself in politics. He served as prosecuting attorney for King County from 1895 to 1897 and served in the Washington Legislature as Senator from 1899 through 1901.

Mr. Wilshire was organizer and member of the board of trustees of the Seattle Commercial Club, and served as its president in 1912. He was a member of Lafayette Lodge No. 241, F. & A. M., and celebrated his golden jubilee membership in the fraternity in 1942, when he received the Masonic Veterans Jewel and a 50-year certificate. He was a member of the Plymouth Congregational Church.

Surviving him are his widow, Mrs. Fannie Wilshire, Seattle; two nieces, Mrs. A. J. Schafhirt, Washington, D. C., and Mrs. Edwin Thomas, Miami Beach, Fla.; two nephews, R. W. Rightse, Little Rock, Ark.; and Charles L. Kelsey, Cincinnati, Ohio.

At 2:40 o'clock p. m., the Senate reconvened, President Meyers in the chair.

At 2:42 o'clock p. m., on motion of Senator Rosellini, the Senate adjourned until 12:00 o'clock noon tomorrow.

REPORT OF STANDING COMMITTEE

Senate Chamber,
Olympia, Wash., February 8, 1945.

MR. PRESIDENT:

We, your Committee on Military, Naval and Veterans' Affairs, to whom was referred Senate Joint Resolution No. 8, entitled: "A Senate Joint Resolution providing for Federal recognition, support and maintenance of National Guard and/or organized State Militia," have had the same under consideration, and we respectfully report the same back to the Senate with the recommendation that it do pass.

On motion of Senator Reardon, the report of the committee was received and the resolution was read the third time.

Senator Rabbitt:

"Mr. President, I move that the Sergeant-at-Arms escort Congressman Hugh DeLacey, who is now in the lobby of the Senate Chamber, to the rostrum."

The Sergeant-at-Arms escorted Congressman DeLacey to the rostrum.

The President:

"Members of the Senate, it is my very great pleasure and honor to present to you the Honorable Hugh DeLacey, Congressman from the First District. We are glad to have you with us and if you care to say a few words we would be glad to hear from you."

Congressman DeLacey:

"Thank you, Mr. Lieutenant Governor, and members of this body. I am certainly glad to have the chance to come down here and see some of this excellent work which we hear so much about in Washington, D. C. The Legislature, this time, appears to be distinguishing itself in the consideration of useful work and harmony as much as some thought it distinguished itself in the opposite direction in times past.

"I never thought I would live to see the day that an outstanding piece of legislation like the pension bill that has been drawn and passed in the lower House unani- mously would come about. There is something at work in Olympia which we would do well to copy and follow back in Washington. Certainly some of the things that I would like to see done there do not meet any such standards or any such unanimity as the lower body did on this one. I don't speak of the present status of that bill in the Senate. It is just an observation that has impressed me so highly in the quality of the work that has been done down here.

"Many of the members of Congress, of course, have come through exactly the same steps that you people are engaged in. The Speaker of the House—really a wonderful man—Sam Rayburn was Speaker of the Lower House in Texas. He has been there thirty-two years and I tell you it makes a man feel—well he almost feels a lump in his

throat when he thinks about these institutions of our Government that have gone on so continuously. I was two years old when Rayburn was first elected a member of the House of Representatives. He has been serving his country back there, putting through some of the finest legislation that this country has had. It was his committee that brought out the great Securities Exchange Act, some of that basic legislation that nobody wants changed no matter what his public view on other matters is. It was brought out by Rayburn and his committee, fought through the House and put on the books after due action by the other body and the signature of the President. Men like him and men like you, who have served here so many years, a good share of you, like our Lieutenant Governor, who seems to enjoy the distinction of being able to keep his job as long as he wants it, are responsible for carrying our Government through a long and continuous period, a living organism that has served the people's interests.

"I am mighty happy to be down here today on a Naval Affairs Committee that was brought out to the coast. I am on important business for the Navy in the country and I was able to get a few days to come up and visit my friends in Seattle and to look into a few matters that constituents have called my attention to.

"I think this is a great privilege, to stand here and see you Senators at work. You have to do your work in sixty days. We take two years and sometimes it doesn't get done then. Thank you very much." (Applause.)

The Secretary called the roll on the final passage of Senate Joint Resolution No. 8, and it passed the Senate by the following vote:

Those voting yea were: Senators Bargreen, Beck, Bienz, Binyon, Black, Coe, Copeland, Cowen, Dahl, Davison, Dawson, Dixon, Edwards, Flanagan, Forbus, Gallagher, Hanson, Henehan, Huntley, Jackson, Kohlhase, Lee, McCutcheon, Miller, Mohler, Morgan, Neal, Olson, Orndorff, Parker, Rabbitt, Ray, Reardon, Robertson, Rogers, Rosellini, Roup, Sapp, Schroeder, Thomas, Tisdale, Todd, Wall, Warren, Waters, Zednick—46.

The resolution, having received the constitutional majority, was declared passed.

Senate Bill No. 82:

The Secretary read:

"Members of the Senate, it is my pleasure to introduce to you at this time His Majesty's representative and British Consul, the Honorable Gerald E. Stockley, who is stationed in Seattle. He was formerly stationed in China and we would be glad to have you say a word or two, if you feel so inclined."

Mr. Stockley:

"Mr. President and Members of the Senate, it is a very great privilege and pleasure to be introduced in this way. I have long intended to pay my official respects to the Governor, who has pleased to receive me this afternoon, which gave me the opportunity of arriving in this city a little earlier and to pay my respects to the Governor and yourselves. I came to this country, which is my very first visit, directly from England, where I spent a few months on short leave from China. My previous experiences have been mainly spent in that country. China is very much in the minds and thoughts of all of us today. China is one of the big four nations engaged in this war and consideration of China in future, in the Pacific and in the world in general is a very vital one and in that matter your country and mine are also vitally concerned. In that respect and also because I directly represent Great Britain in the State of Washington and adjacent states, I would simply like to say that it is my first duty in the United States and I am very glad to have the opportunity of coming here.

"I realize that every Britisher in public service should spend part of his service in the United States. If he doesn't his education is not complete. I would have wished to have the chance of coming here earlier in my career but my service has been mainly in China, but, better late than never. Why is that the case? I believe that it is the case that Americans, those Americans who have been in England recently in connection with the war, either as transients or as residents are, I hope, getting equal benefits out of the fact of visiting my country and my people for the first time, as I most certainly have from visiting yours and the message which I would like to give all of you honorable gentlemen is simply this: That it behooves us all at this time to study very carefully the facts of cases.

"I maintain that the future happiness and prosperity of the world is essentially bound up with friendly relations and essential understandings between the United States of America and Great Britain. That comes from our future dealings with China and Russia and all the other nations of the world but the most likely is the essential friendship between America and Britain and if it is to last and mean anything it must be based on real knowledge and understanding. The fact that I am in residence in your country gives me an opportunity of learning about your people and your country, which I have not had before, and I am sure that your people in my country have that same opportunity and we are both the better for it and I feel sure that those benefits will be lasting and will mean a better world in the future. It is my very great pleasure of having this opportunity and I do appreciate the privilege."

(Applause.)

Senator Rosellini moved that the motion of Senator Parker be laid on the table.

Senator Rabbitt raised a point of order that two Senators on either side of the question had been permitted to proceed out of order and that now the third Senator is proceeding to do so.

The Chair ruled that in the motion to refer it was necessary, in his opinion, to go into the merits of the bill and that the Chair would permit Senator McCutcheon, the speaker, to proceed.

Senator Parker stated that he had understood the President to say that amendments could be offered after the bill was reported out; that he had had no chance to introduce the amendment.

The President announced as follows:

"Senator, it is very obvious to the Chair, who has the discretion over dilatory matters, it is obvious to the Chair that there has been one amendment after another submitted and there must be an end to it. There was a motion for the previous question and he amendment was not offered in the Committee of the Whole after section 9 was read. Amendments must be read after each section unless there was a suspension of the rules. The Chair will put the motion under a suspension of the rules."

Senator Jackson moved that the amendment be laid on the table.

Senator Neal raised a point of order that the Chair had announced that the motion had to be made under a suspension of the rules before the motion could be put before the Senate and that the rules have not been suspended.

The President stated that Senator Parker was absolutely correct in his amendment and that the question before the Senate is the adoption of the amendment.

MESSAGES FROM THE GOVERNOR

State of Washington, Executive Department,
Olympia, February 20, 1945.

To the Honorable, The Senate of the State of Washington:

LADIES AND GENTLEMEN:

There is pending before each branch of the Legislature a joint resolution relating to calling a convention to revise or amend the constitution.

As I stated in my inaugural message, I believe there is a serious and pressing need to take immediate steps toward modernizing our constitution.

You are familiar with the numerous problems and inequities presented by many of its present provisions.

It is my hope and recommendation that the Legislature will take the action necessary to the calling of such a convention.

Sincerely yours,

MON C. WALLGREN, *Governor.*

State of Washington, Executive Department,
Olympia, February 20, 1945.

To the Honorable Senate of the State of Washington, Legislative Building, Olympia, Washington:

LADIES AND GENTLEMEN:

I believe that the best interests of the state will be served by centralizing all the functions relating to sales of state owned timber, forest policy and reforestation. At present these functions are scattered making co-ordination extremely difficult, if not impossible.

Under the provisions of the bill I am submitting to the House of Representatives, the supervisor of forestry is vested with all state functions concerning forest policy, reforestation, and proceedings preliminary to timber sales.

A Timber Resources Board is also created which must approve any sale of state

timber. In order to insure that the sales price is fair, the Board has the power to independently determine the value of the timber sought to be purchased.

Aside from the important and much needed centralization features I have mentioned, the bill leaves undisturbed all of the other numerous powers and duties of the agencies involved.

I believe that the enactment of the proposed measure will be a great stride toward greater efficiency in our timber management and sales.

Respectfully submitted,
 MON C. WALLGREN, *Governor.*

State of Washington, Executive Department,
 Olympia, February 21, 1945.

To the Honorable Senate of the State of Washington, Legislative Building, Olympia, Washington:

LADIES AND GENTLEMEN:

All of us want to provide our children with the finest education and facilities that the state can afford.

Toward that end we have been appropriating considerable and increasing sums of money each biennium. The appropriation this year, exclusive of teachers' retirement, will undoubtedly be the largest in the history of the state. We must be sure that each dollar so spent will bring us the utmost return in education.

I believe the time has come when it is highly desirable to have a complete survey of our educational system made by recognized authorities to insure that each dollar spent will bring us the greatest possible value. Other states have done so with signal success.

The bill I am submitting to the House of Representatives provides for such a survey. I am sure it will receive your careful consideration.

Respectfully submitted,
 MON C. WALLGREN, *Governor.*

LADIES AND GENTLEMEN:

For some time comment has been heard as to whether or not some of the county's appraisals of property for tax purposes properly reflect true values and conditions.

Studies by the Tax Commission indicate that in many instances assessed values are too low when compared with real values.

When such a condition exists two significant results occur.

First, the tax revenues of the county are kept below the level of the revenue needs of the county and its political subdivisions. This brings demands on the state to supply the difference between their tax income and their needs.

Secondly, the mandate of the constitution that all taxes should be uniform is not met, resulting in inequities between tax payers.

The proposed bill I am submitting to the House of Representatives provides that where the state allocates funds to any local taxing body, such allocation shall be made in the proportion that the ratio of assessed values bears to the true value of the property located in the county in which the taxing body is located. In order to allow time for the correction of any present assessment inequities, the provisions of the bill do not become effective until 1947.

If adequate assessments based on true values is accomplished throughout the state each county will bear its fair share of taxation, uniformity will be achieved and savings in state aid grants should result.

In my opinion, the enactment of this bill should provide an incentive to all counties to accomplish these purposes which will be beneficial to the State as a whole.

Respectfully submitted,

MON C. WALLGREN, *Governor.*

Senator Bargreen assumed the chair.

Those voting yea were: Senators Bargreen, Binyon, Black, Cowen, Dixon, Edwards, Forbus, Hanson, Jackson, Kohlhase, McCutcheon, Mohler, Olson, Parker, Rabbitt, Rosellini, Schroeder, Tisdale, Todd, Waters, Zednick—21.

If a majority of the Senate wishes to proceed or wants to proceed, in order to do so it must excuse those who would be called upon to vote, and I am satisfied Senator Rosellini certainly must know that the Senate, by demanding a Call of the Senate, does not necessarily mean that they are going to call in the absentees, but you will determine if those Senators can be present and if they can't be present, the Senate will excuse them."

President Meyers assumed the chair.

The President announced that the Sergeant-at-Arms had informed him that the absentee Senators would be present in a couple of minutes.

The President announced that it had been.

Senator Orndorff raised the point of order that the motion itself had never been put.

Senator Rabbitt:

"Then, Mr. President, if the Chair makes a decision on any motion regardless of what might be in any book of rules and he is sustained on an appeal, he is sustained in his motion; that is it, is it not?"

The President announced that he believed that was correct.

Senator Neal moved that the Senate proceed under the Call of the Senate and that the two absent members be excused.

MESSAGE FROM THE GOVERNOR

State of Washington, Executive Department,
Olympia, February 23, 1945.

To the Honorable, The Senate of the State of Washington, Legislative Building, Olympia, Washington:

LADIES AND GENTLEMEN:

The federal Surplus Property Act gives priorities to the states and their political sub-divisions in the purchase of surplus property.

Those states that are the best prepared to take full advantage of the privileges granted will be in the most favored position to obtain the greatest benefits. It is expected that property of every description will be offered for sale. From the experiences in such sales during the last war it is reasonable to expect that much of this property will be offered in large lots. It is likely that in many instances the lots offered will be too large for purchase by a single political division acting alone. The purchase of needed property may be lost because the political unit may not have funds available for purchase at the time the goods are offered. To leave political sub-divisions and the state to purchase independently and compete with each other will result in confusion and needless loss of purchasing power.

The bill I am submitting for your consideration authorizes the division of purchasing to act as the buying agent in acquiring or leasing surplus property. Under this measure that division will act not only for the state but for all political sub-divisions.

A primary source for information as to available goods and unifying the purchasing for the needs of the entire state is thus created.

I believe the measure is of major importance and may well set a pattern for the remainder of the states in the union to follow in creating an agency which can act quickly and to the greatest advantage in securing such surplus commodities not only for the state but for all political sub-divisions as well.

Respectfully submitted,
MON C. WALLGREN,
Governor.

President Meyers assumed the chair.

MESSAGE OF GOVERNOR MON C. WALLGREN TO THE LEGISLATURE

"LADIES AND GENTLEMEN:

"My survey and investigation of the departments of the state has shown that there is immediate need for action by this legislature in the field of public utilities. In 1921 the division of highways was a part of what is now the department of public service. With the increase of the duties concerning highways it became impossible for one man to handle transportation, public utilities and highways. Consequently the division of highways was removed and made into a separate department with its own director. Under the existing system a single director now has the burden of supervising the following types of utilities: Electric companies; gas companies; water companies; telephone companies; telegraph companies; railroads; street cars; express companies; sleeping car companies; private toll bridge companies; certified and non-certified boats; docks; wharfs; busses; warehouses and trucks. It is obvious that this is too much for any one director.

"Contrast this situation with the action taken by the federal government in separately centralizing highly specialized functions into several agencies. Presently under federal law all problems relating to transportation are in the interstate commerce commission. Problems relating to electric power are under the federal power commission. This sensible segregation of authority was an outgrowth of the same problem we now face in this state, which creates a difficult and unworkable condition. Under our present system the director of the department of public service appoints two assistants, both finally responsible to the director alone. One supervises the division of transportation, the other supervises service utilities. Neither assistant has any final authority over his division because all questions of policy and action must be referred to and finally determined by the director himself. The result is that the final word on the very numerous and intricate problems of each of the companies I have mentioned is in one man who, by the very nature of the numerous and complex problems involved, cannot be an expert in all those fields.

"The department of public service exists for the sole purpose of regulating private utilities so that the public can get the advantage of the lowest possible rate consistent with a fair return on the investment of the utilities involved. For the purpose of regulation the utilities pay a certain percentage of their gross income for such regulation. We now have in a fund for this purpose for public utilities alone the sum of \$153,000. This money should have been used for the protection of the public through rate investigations. Because one man was trying to do all the work connected with the large number of fields I have mentioned, the money was not used for that purpose.

"The provisions of section 92, chapter 117, Laws of 1911, directed that a valuation of all of the property of every public service company in the state should be ascertained as early as possible. In 1933 the legislature again and more explicitly gave the same mandate. For a time evaluation proceedings were conducted. Some few of which were eventually concluded, but in 1936 the remaining proceedings were either dismissed or abandoned. I find from the department's own reports that the properties of the two largest electric companies of this state have never been evaluated for the purpose of determining what the fair rate should be. Consequently, no rate base has ever been established and no proper consumer rate has ever been fixed. I find further that the valuation and investigation of the largest electrical company in the state instituted in 1934 was, for some unknown reason, abandoned.

"In 1933 and 1934 the department instituted rate service and valuation proceedings against the telephone company, but again these proceedings were abandoned in 1935. In 1938 the Pacific Telephone and Telegraph Company filed new rates which would have resulted in rate increases of one and one-third millions of dollars per year. In 1939 the department instituted another proceeding which is still continuing but to date substantially nothing has been accomplished. The net result is that during the entire eleven year period mentioned the matter of telephone rates has never been settled.

"The proposed bill I am submitting would create a director of transportation who would have the single responsibility of fully and fairly regulating transportation only, and to create a director of utilities to be responsible for fully and fairly regulating all of the other utilities such as telephone, telegraph, water, gas and power companies. Such centralized and independent segregation will simplify and reduce the complex problems which are inherent in the regulation of utilities. The more we simplify the better we can understand it, and thus do a better job.

"In my inaugural address I promised that I would do everything possible to secure lower freight rates for this state. There is now before the interstate commerce commission a proceeding for the purpose of equalizing the difference between eastern and southern freight rates. A similar disparity exists between eastern and western freight rates. I firmly believe that a separate department of transportation, such as I propose, which will be devoted wholly to transportation problems can more efficiently function in trying to remove this discriminatory disparity. Here again we have available for use a fund of \$22,000 for the purpose of railroad regulation which should have been and must be used for the protection of the public.

"I have always advocated, and will continue to advocate a consolidation of the functions of state government where needed for efficiency and the abolition of useless commissions and boards. This is one case in which I must recommend expansion for efficiency.

"The revenue which maintains the department of public service does not and never has come from taxes collected from the people, nor does it come from the general fund of the state. The revenue is derived from a direct tax on the gross return of the industries supposed to be regulated by the department, and is for the purpose of protecting the people who ultimately pay the bill.

"My purpose in making this proposal is not to drive private utilities from the state, but to see that the public is not overcharged by the use of arbitrary rates, and to try to provide industries in this state with the lowest possible rates for telephone, freight and power. These are the things we should and must accomplish.

"If the legislature concurs in my proposal to create a separate department of transportation and a separate department of public utilities, I intend to see to it that the revenue derived from the utilities is spent for the purpose for which it was intended, that is for the proper regulation of the industries involved, so that both the public and those industries are fairly and impartially treated. I propose to appoint experts to direct these two highly specialized departments, who can speak with au-

thority and on a basis of equality with the high grade experts employed by the industries regulated.

"I believe that this proposal is of the greatest importance to the state, and I know that you will give it your most careful consideration." (Applause.)

At the close of the Governor's message, the President asked the special committee appointed to escort the Governor out of the House Chamber and to the Governor's Chambers.

Senator Reardon raised a point of order and stated that he wished the Chair would rule on the violation of Rule Eight.

Senator Thomas demanded a Call of the Senate.

On motion of Senator Bargreen, Senator Jackson was excused.

Senator Reardon requested that the committee report be re-read. The Secretary read the committee report.

The President stated that the question before the Senate is the adoption of the committee report and that he had heard no motion made.

Senator Davison stated that he had understood that the motion now before the Senate was to re-refer the bill to the Committee on Social Security and Charitable Institutions.

The President announced that was correct.

Senator Davison inquired whether in case that motion was carried, it would be in order to have the proposed Substitute Senate Bill No. 183 printed so that the delay in printing would not necessarily be a consideration in this matter.

The President announced, "That is right. The question before the Senate is the adoption of the committee report. No committee can substitute one bill for another without the consent of the Senate either by adoption or rejection and when that is decided upon, if you want to put it that way, you can. The Senate will probably raise the question that it takes a two-thirds vote to suspend the rules and that a bill reported out of committee must go to General File unless there is a suspension of the rules by a two-thirds vote. The question before the Senate is the adoption of the committee report. The committee recommends that such and such a bill be substituted and the committee cannot do that without a majority vote of the Senate."

Senator Warren stated that with the consent of the Senate, he would withdraw his motion.

Senator Rosellini, supported by Senators Dixon and Bargreen, demanded the previous question.

Senator Warren stated that he withdrew his motion, but that he had no right to withdraw it without the consent of his second.

The President announced that he had heard no objection, and that there was no question that he had withdrawn his motion.

The Chair announced that he would very gladly put the motion, but again called attention to the fact that it requires a two-thirds vote on the motion.

The President announced that the question before the Senate is, shall the demand for the previous question be sustained.

The demand for the previous question was sustained.

CALL OF THE SENATE

The President announced that he would now put the question. The question before the Senate is that Senate Bill No. 183 be re-referred to the Committee on Social Security and Charitable Institutions.

Senator Neal raised a point of order that the previous question had been called for.

The President announced that he would sustain the point of order.

Senator Dixon moved that the report of the committee be accepted.

The President announced that he would put the motion to re-refer first, and that it would take a two-thirds vote, and that the next question is the adoption or rejection of the committee report, and that is all here is before the Senate.

The President announced that the question now before the Senate is the motion that Senate Bill No. 183 be re-referred to the Committee on Social Security and Charitable Institutions.

FIFTY-FIRST DAY

MORNING SESSION

SENATE CHAMBER,
OLYMPIA, WASH., Tuesday, February 27, 1945.

The Senate was called to order at 11:00 o'clock, a. m., by President Victor A. Meyers.

The Clerk called the roll and announced to the President that all Senators were present.

Reverend Paul H. Ashby, D.D., minister of the Methodist Church of Olympia, offered prayer.

On motion of Senator Mohler, the reading of the Journal of the previous day was dispensed with and it was approved.

Senator Reardon moved that the Senate do now reconsider the vote by which Senate Bill No. 57 passed the Senate yesterday.

Senator Mohler raised a question of consideration.

The President announced that the question before the Senate is the motion to reconsider, and Senator Mohler has raised a question of consideration.

The question of consideration is in order at this time.

Senator Reardon inquired whether that was the ruling of the Chair.

The President stated:

"Yes, Senator. In other words, the Senate may decide at any time to use its prerogative as to whether or not they wish to reconsider any matter before the Senate. Senator Mohler has raised a question of consideration. The motion was to reconsider the vote and the question of consideration is whether or not the Senate wishes to consider that matter at this time."

The Chair announced that he would put the question on the motion to reconsider the vote: that a vote "yea" means that the Senate does not wish to consider, and a vote "nay" means they wish to consider the matter before the Senate at this time. The Chair stated:

"In other words, the Senator does not wish to consider the matter and he is asking to be sustained or rejected by a majority of the Senate. If the 'yeas' prevail, the Senate does not wish to consider the matter of reconsideration."

The motion to reconsider was declared lost.

The motion of Senator Rosellini for a call of the Senate was not sustained by a vote of 19 to 22.

The President declared the demand for a call of the Senate lost.

The President:

"Before we continue with this matter, it has been called to the attention of the Chair the matter of a ruling just made on the motion to reconsider. The Senate Rules and Reed's Rules of Order are in conflict on this particular rule, and the Chair is going to have to reverse itself in view of the information just handed to him in connection with Rule 27, which is quite plain in the Senate book and provides that a motion to reconsider shall have precedence over all other motions except a motion to adjourn. That is contrary to the rule in Reed's, and the Chair was in error in entertaining the motion."

The President announced that the Senate would refer back to the first motion made by Senator Reardon.

Senator Ray moved that the motion of Senator Reardon be laid on the table.

The motion of Senator Ray was declared out of order.

Senator Rosellini, supported by Senators Bargreen and Mohler, demanded the previous question.

The President announced:

"That motion is in order. You rather asked for this, Senator Reardon, when you said just before we closed yesterday that you would keep the Senate here all day, if necessary. The Chair has ruled that the motion for the previous question is in order."

Senator Reardon stated:

"Since you were fair in the other matter, I think you should be in this. I had the floor, and Senator Rabbitt could not take me off the floor, because I had the floor."

The President announced that he would put the question, shall the demand for the previous question be sustained.

The demand for the previous question was sustained.

A division was ordered.

The Secretary read:

REPORTS OF STANDING COMMITTEE

Senate Chamber,
Olympia, Wash., February 22, 1945.

MR. PRESIDENT:

We, a majority of your Committee on Judiciary, to whom was referred Senate Bill No. 141, entitled: "An Act requiring compulsory motor vehicle liability insurance and establishing a Motor Vehicle Liability Fund; and providing for the administration thereof; prescribing the duties of certain officers; and prescribing penalties," have had the same under consideration, and we respectfully report the same back to the Senate with the recommendation that it do pass, with the following amendments:

Amend the bill by striking everything after the enacting clause and insert in lieu thereof the following:

"Section 1. The automobile has become a dangerous instrumentality to the life of the operator, guest and pedestrian. Injuries and deaths are increasing and many innocent sufferers are unable to obtain compensation from those who negligently operate such vehicles, due to their financial irresponsibility. To remedy this situation the legislature deems it necessary to provide a method of compulsory compensation therefor. For the protection and welfare of the people in this state the legislature, in the exercise of its police power, enacts the following provisions.

"Sec. 2. There is established a Motor Vehicle Liability Fund to be administered by the state without liability on the part of the state beyond the amount of the fund, for the purpose of providing compensation to persons suffering injury, damage or death due to the negligent operation of motor vehicles.

"Sec. 3. The State Treasurer shall be the ex-officio treasurer and the custodian of the Motor Vehicle Liability Fund, but all other matters relating thereto shall be under the supervision of the Director of Licenses, hereinafter called the director.

"Sec. 4. Commencing December 1, 1945, every applicant for a motor vehicle license shall pay at the time that he applies for a motor vehicle license, in addition to all other fees as now required by law, the sum of five dollars and twenty-five cents (\$5.25) as a premium payment for liability and property damage, twenty-five cents (25¢) of which shall go to pay the cost of administering the provisions of this act. The director, to whom the money shall be paid, shall turn over the money so collected to the State Treasurer to be set apart in the Motor Vehicle Liability Fund, excepting that portion paid for administration which he shall place in a special fund and use for such purpose. No motor vehicle license shall be granted unless the premium payment fee is paid: *Provided*, That this act shall not apply to for hire cars, common carriers or publicly owned vehicles or to any applicant who has filed with his application a motor vehicle liability and property damage insurance policy issued by a company authorized to do business in this state, in an amount of not less than five thousand dollars (\$5,000) for any recovery by one person and at least ten thousand dollars (\$10,000) for any recovery by two (2) or more persons arising out of one accident by reason of one act of negligence. Each such policy shall be kept in full force and effect or the license of the motor vehicle covered thereby shall be suspended by the director until the insured has complied with the terms of this act, and the director shall immediately notify the insured of such suspension.

"Sec. 5. Every person who obtains a judgment in this state against another for damages or death sustained by reason of the negligent operation of a motor vehicle and is unable to collect the full amount of same from a defendant for the reason that such defendant does not own sufficient property from which said judgment can be satisfied, upon a reasonable showing of such fact to the director, shall be entitled to share in the compensation fund herein provided for the difference between whatever amount he is able to collect thereon, and the full amount of such judgment, not exceeding, however, the sum of five thousand dollars (\$5,000) for any one judgment creditor or ten thousand dollars (\$10,000) for two (2) or more judgment creditors. If the sum of ten thousand dollars (\$10,000) be insufficient to pay said judgment creditors the uncollected amounts of their judgments in full, said sum shall be prorated among them according to the amounts of their several recoveries. The State Treasurer, on order of the director, shall pay such uncollected sum or sums or prorated amount from the Motor Vehicle Liability Fund, and thereupon the State of Washington shall become subrogated to such judgment or judgments to the full extent of whatever amount is so paid thereon from said fund.

"Sec. 6. No default of consent judgment shall be entered against any person insured in the Motor Vehicle Liability Fund without prior service of notice thereof upon the director and he shall have twenty (20) days after service thereof in which to intervene in the cause if he finds any evidence of collusion between the parties or believes there is a valid defense to the action, but this provision shall not apply to actions against persons who have deposited with the director the insurance policy provided for in section 4 hereof.

"Sec. 7. The State Treasurer may invest not to exceed sixty per cent (60%) of the money in the Motor Vehicle Liability Fund in bonds of the United States or in bonds of the State of Washington. The interest received shall be placed to the credit of such fund.

"Sec. 8. Any person who shall operate a motor vehicle without complying with the provisions of this act shall be guilty of a gross misdemeanor. In the event that any person shall be barred by law from operating a motor vehicle, he shall not be entitled to any refund of the premium payment made by him.

"Sec. 9. (a) There is hereby appropriated for the current biennium from the Motor Vehicle Liability Fund to the Department of Licenses the sum of \$1,500,000, or so much thereof as may be necessary, for the payment of any judgment or judgments for which said fund is liable: *Provided, however*, That the expenditure from this fund shall not at any time exceed the receipts thereof.

"(b) There is hereby appropriated for the current biennium to the Department of Licenses from the twenty-five cent (25¢) fees retained by the Director of Licenses for

administrative purposes the sum of \$150,000, or so much thereof as may be necessary for salaries, wages and operations in the administration of this act, but at no time shall the appropriation exceed the receipts thereof.

"Sec. 10. This act shall be liberally construed. If any section or part of any section of this act is held unconstitutional, it shall not affect the remainder of the act."

Amend the title to read as follows:

"An Act relating to motor vehicle licenses and establishing a Motor Vehicle Liability Fund; and providing for the administration thereof; and making an appropriation therefor; prescribing the duties of certain officers; and prescribing penalties."

MESSAGE FROM THE GOVERNOR

State of Washington, Executive Department,
Olympia, February 27, 1945.

*To the Honorable Senate of the State of Washington, Legislative Building,
Olympia, Washington:*

LADIES AND GENTLEMEN:

On February 7, 1945, I transmitted a proposed Unemployment and Compensation measure which also embraced state-wide disability insurance for those who become unemployed because of illness or through non-industrial disability. This measure became Senate Bill No. 183.

Since its reference to your Committee on Social Security it has become evident that the disability provisions should be segregated from the increased benefits under the unemployment compensation sections in order to permit full legislative approval of each program. With my approval Substitute Senate Bill No. 183 has been proposed which retains all the features of the original bill except those pertaining to the disability provisions.

I have proposed the original disability provisions as a separate bill which is Senate Bill No. 362, in order to afford the opportunity for legislative consideration of its provisions separately from those relating to unemployment compensation.

I request your full consideration of each of these measures.

Respectfully submitted,

MON C. WALLGREN, Governor.

The President announced that at this time the Senate would resume consideration of Senate Bill No. 141, which is before the Senate.

Senator Mohler moved that Senate Bill No. 141 be made a special order of business for 11:00 o'clock on the next working day.

Senator Warren moved that the motion of Senator Mohler be laid on the table.

The President announced the question before the Senate is the motion to lay Senator Mohler's motion on the table.

A voice vote was taken, and the Chair announced that he was in doubt.

A standing vote was taken, and the motion to lay on the table failed to carry by a vote of 15 to 23.

Senator Rosellini, supported by Senators Rabbitt and Mohler, demanded the previous question.

The President announced that the question before the Senate is the motion to make Senate Bill No. 141 a special order of business tomorrow at 11:00 o'clock.

Senator Warren, supported by Senators Zednick, Wall, Copeland, Lee, McCutcheon, Dawson and Dahl, demanded a roll call.

A roll call was ordered.

The Secretary started to call the roll.

Senator Warren stated that he would like to call the attention of the Senate to the fact that the Senate is under the call of the Senate.

Senator Beck moved that Senator Henehan be excused.

The motion of Senator Beck was declared out of order.

Senator Warren moved to lay the motion of Senator Mohler on the table.

The President announced that Senator Warren could not make a motion under roll call.

Senator Warren stated that he had made a motion before, to lay the motion on the table, and the Senate took the vote with an absent Senator.

Senator Henehan announced himself present.

The President announced that he was confused: that there were two motions, one that it be made a special order of business, the other that that motion be laid on the table. The motion to lay on the table did not carry, so that the question before the Senate at this time is whether the consideration of Senate Bill No. 141 shall be made a special order of business for 11:00 o'clock tomorrow morning.

Senator Henehan announced that he voted nay.

The Secretary finished calling the roll, and the motion of Senator Mohler that Senate Bill No. 141 be made a special order of business for tomorrow at 11:00 o'clock carried by the following vote:

Those voting yea were: Senators Bargreen, Beck, Bienz, Binyon, Black, Coe, Cowen, Dixon, Edwards, Forbus, Gallagher, Hanson, Jackson, Kohlhase, Miller, Mohler, Neal, Olson, Rabbitt, Rosellini, Schroeder, Thomas, Tisdale, Todd, Waters—25.

JACK GORRE,

Assistant to the Governor.

Senator Thomas:

"Mr. President, I want to call the Senators' attention to some very important business, some business that I am sure they are interested in. This afternoon after adjournment at 2:30 o'clock, the Committee on Banks and Financial Institutions was called. The Chairman did not show up. When we began to study the bills and made a motion that Senator Huntley be the Chairman for the meeting, we reported out House Bill No. 401 with a pass and do not pass recommendation. We reported out House Bill No. 403 with a complete do pass recommendation, and when we asked the Secretary for the bills themselves, they were not there. We were told that Senator Henehan had them in his pocket and would not deliver them. We have the reports here, Mr. President, and we demand these bills be attached thereto and reported tonight from the Committee."

Senator Henehan:

"I am very glad, Mr. President, to have heard the Senator from West Seattle speak, since I have been waiting for this, because 401 and 403, House Bills, represent one of the biggest, stinkingest pieces of legislation that ever came through the Legislature of the State of Washington. I wasn't there, it is true, and I cancelled the meeting because most of the people couldn't be there, so I was not at the Committee meeting. I was very ready to call another meeting, and if the Senate wants proof of what I say, which I don't think I should say on the Senate floor, I would like to give them a little idea of what has been going on. I would rather, as a Senatorial privilege to the other people and not to myself, have a real meeting where there is really a quorum and determine who put the bills on originally, a meeting where we can bring the whole thing out. I don't care whether it is over the radio or through the newspapers. I am going to break the thing wide open. I am sick and tired of running around trying to get these people into a Committee meeting where I could explain what the real purpose of the bill is. I will rest on my Senatorial privilege and I will answer Senator Thomas if he wants to come to my Committee meeting in ten minutes and everybody on the Committee meet, and I will be glad to reply. I will be very glad to have a Banks and Financial Institutions meeting immediately after recess or whenever it may occur."

Senator Thomas moved that Senator Henehan now be divested of those two bills that he had in his pocket.

Senator Zednick stated that he would like to say in defense of Senator Henehan that he told him there would be a meeting at 2:30 and that Senator Zednick told him that he couldn't be at the meeting, and he probably found that a quorum couldn't be there.

Senator Rosellini stated that he did not know exactly what this was all about, but he did know that this meeting was called for 3:00 o'clock this afternoon and that eleven members of the fifteen members of the committee were present; that Senator Henehan, Chairman, was not there, and that it was at his suggestion that an acting Chairman was elected, which happened to be Senator Huntley; that consideration was given to those two bills; that the sponsor of the bills was there before the committee and explained the bills, and the committee gave consideration to those bills, and there was one bill passed out unanimously and that there was another bill reported

out with a split recommendation. He further stated that it was getting late in the Session and that it seemed to him that the bills should be processed and that they should be delivered and the bills sent to general file.

Senator Binyon moved that the Senate recess at this time until the Committee on Banks and Financial Institutions may have a meeting.

President Meyers assumed the chair.

The President announced that the question before the Senate was that the Senate recess for fifteen minutes.

Senator Schroeder announced that he would make a substitute motion. He understood the Senate intended adjourning at a reasonable time tonight, and he was of the opinion that at the time the Senate adjourns, the committee could go in session and fight it out all night if they wanted to, but that he did not think the Senate should be tied up at this time.

Senator Zednick announced that he did make a motion that this Committee be given leave to sit as soon as the Senate started on the third reading of bills.

The President announced that he would put the motion: that the Committee be given leave to sit as a committee and consider whatever matters they have before them.

Senator Rosellini stated that as a matter of precedent, he was not particularly against this motion, but as a matter of form he was against the motion, and he thought the committee chairman should be instructed to deliver the bills to the Secretary so that the committee reports could be attached to the same and the bills, together with the reports, referred to general file.

The President announced that he was trying to proceed in order, and stated:

"We have a motion to recess and I understand the Senator who is chairman of the Committee desires to call a meeting of his Committee. That is something entirely within your own right to do, whether you do it or not. Then I understand we have a motion that the Committee be discharged from further consideration of these bills. I will put the motion, that the Senate do now recess for fifteen minutes."

The motion failed to carry.

Senator Zednick stated that he would now renew his motion, that the committee be privileged to sit when the Senate started the third reading of bills.

Senator Rosellini raised a point of order that the Senate should have the previous question, that Senator Henehan be instructed to deliver the bills to the committee so that the reports may be attached thereto.

Senator Thomas stated that the act of the chairman of the Committee on Banks and Financial Institutions a reprehensible act and that he renewed his motion that Senator Henehan be ordered to deliver the bills in question to the Secretary.

Senator Rabbitt demanded the previous question.

Senator Dawson moved that the Senate recess for twenty minutes.

Senator Henehan moved that the Senate now adjourn until 10:00 o'clock tomorrow morning.

The President stated the question before the Senate is that the Senate now adjourn until 10:00 o'clock tomorrow morning.

The motion to adjourn failed to carry.

The President announced that the question before the Senate is the motion that the Senate do now recess for twenty minutes.

Senator Rabbitt stated that the demand for the previous question was on Senator Thomas's motion that Senator Henehan deliver custody of the bills.

The Chair announced that the motion to recess has precedence over that motion. The motion now is that the Senate recess for twenty minutes.

The motion to recess failed to carry.

Senator Robertson demanded a division.

A division was ordered.

A standing vote was taken, and the motion to recess failed to carry by a vote of 23 to 21.

The Chair announced the question now before the Senate is on the motion that Senator Henehan be required to deliver the bills in connection with the Committee reports at the Secretary's desk.

Senator Zednick stated that he wondered if Senator Henehan would be willing to give the bills to the Secretary without the necessity of a motion, if he has them.

The President announced that he would put the motion that Senator Henehan be required to deliver the bills.

The motion to require Senator Henehan to deliver the bills to the Secretary carried.

The President announced that the Sergeant-at-Arms was instructed to compel Senator Henehan to comply with the wishes of the majority of the Senate.

The President stated that the Senate would continue with the reading of the Governor's Messages.

The Secretary read:

MESSAGE FROM THE GOVERNOR

State of Washington, Executive Department,
Olympia, March 5, 1945.

To the Honorable, The Senate of the State of Washington:

LADIES AND GENTLEMEN:

I am returning to you without my approval as to Section 2, Senate Bill No. 13, entitled:

"An Act relating to the acknowledgment of instruments, the attestation of documents, the administration of oaths and affirmations, the execution of depositions and affidavits, and other notarial acts, heretofore or hereafter taken before any commissioned officer of the armed forces of the United States, and providing that such instruments and documents executed by any person who is a member of or actually present with the armed forces of the United States or is outside the United States for certain purposes, shall be legal, valid and binding; providing for the form of the instrument or document and what proof shall be sufficient of the authority of such commissioned officer so to act; repealing chapter 47, Laws of 1943, and declaring an emergency."

Section 2 specifically repeals chapter 47, Laws of 1943, which law was apparently intended to cover somewhat the same grounds as Senate Bill No. 13. I believe that the repeal of chapter 47, Laws of 1943 might invalidate instruments executed in good faith under the provisions of chapter 47, Laws of 1943.

For these reasons Section 2 is vetoed and the remainder of the bill is approved.

Respectfully submitted,

MON C. WALLGREN, Governor.

On motion of Senator Mohler, the veto message of the Governor was referred to the Committee on Rules and Joint Rules.

The Secretary read:

Senate Bill No. 290; also
Senate Bill No. 297; also
Senate Bill No. 371, and the same are herewith transmitted.

S. R. HOLCOMB, *Chief Clerk.*

The President:

"I have been informed by the Sergeant-at-Arms that the Senator has refused to deliver the bills. I might say for the benefit of the Senator that any bill introduced is not the property of any chairman or any committee. It belongs to the Senate as a whole. By the majority vote of the Senate they have commanded the Senator to return the bills along with the Committee reports, and I am going to take a five-minute recess to see what action can be taken, if necessary, either to expel the member or to enforce the demand of the Senate, which was upheld in this case by a mandate vote."

Senator Henehan:

"I would like to report that when the bills were considered, my Committee clerk was not on duty and another Committee clerk was referred to me to act on the Committee. As a result, at the present time I don't know how you are going to get the bills, because I may not know where they are."

The President:

"The Senate will be at ease for five minutes until we find out the proper procedure with reference to these bills."

The Senate was declared at ease for five minutes.

The Senate was called to order by President Meyers.

The President announced that the Chair wished to advise that the two bills in question, together with the Committee reports, are now in the hands of the Secretary.

Senator Mohler moved that any other bills now in the Committee on Banks and Financial Institutions be re-referred to the Committee on Rules and Joint Rules.

Senator Forbus moved as a substitute motion that Senator Henehan, as Chairman of the Committee on Banks and Financial Institutions, be discharged from any further consideration of bills now in his possession, and that all bills coming to this body from now on be referred to the Committee on Rules and Joint Rules instead of to the Committee on Banks and Financial Institutions.

The Chair announced that he could not hold that motion in order: that in the first place, it would be only proper to refer to each bill separately and not by a blanket motion.

Senator Henehan moved that, inasmuch as about half of the bills coming to the Committee on Banks and Financial Institutions have gone to the Committee on Judiciary instead of to the Committee on Banks and Financial Institutions, he would move to refer all bills in the Committee on Banks and Financial Institutions to the Committee on Judiciary.

The President:

"The Chair sees no necessity of carrying on the controversy further. All the bills are the property of all the Senate, not of any individual member or any individual committee chairman, and by proper majority vote they mandated and instructed the chairman to do certain things, which were carried out, and I think there is nothing further before the Senate at this time."

The Senate referred back to the second order of business for the purpose of receiving reports of standing committees.

The Secretary read:

REPORTS OF STANDING COMMITTEES

The Chair announced that the question before the Senate is the motion that the Senate do not concur in the House amendments.

The Chair announced that although the bill did show a consideration in the Committee of the Whole, if there was no objection at this time, the Senate would resolve itself into a Committee of the Whole for the purpose of considering the bill.

Senator Zednick raised a point of order:

"If the Senate goes into the Committee of the Whole, how can the Senate concur or not concur in the House amendments on the Message from the House? If the Senate does not concur, the Senate does not change the appropriation at all. The Senate has already voted the appropriation out of the Committee of the Whole, and if the Senate goes into a Committee of the Whole, the Senate cannot act on the Message from the House."

Senator Reardon inquired what would be the situation if the Senate did concur.

Senator Zednick announced that then the Senate could go into the Committee of the Whole to change the amount of the appropriation.

The Secretary read:

MESSAGE FROM THE GOVERNOR

March 7, 1945.

Office of Governor.

To The Honorable House of Representatives, Legislative Building, Olympia,
Washington:

LADIES AND GENTLEMEN:

Education is fundamental of civilization. Our children must be given the finest education we can afford. Our teachers must have adequate salaries.

While keeping these concepts in mind, it is apparent that friends of the schools and the public have shown concern over the large increases in school appropriations each biennium.

The appropriation for the 1943-1945 biennium was \$45,600,000. For this biennium an appropriation of \$65,000,000 has been requested with a suggestion that an additional \$3,000,000 is desirable. This would make a total of \$68,000,000—an increase over the last two years of \$22,000,000.

It must be borne in mind that these large school appropriations are financed through the sales tax, directly affecting the living costs of every man and woman. For years the schools were supported through local district taxes. But today we find that local taxes cover only a very minor part of their costs.

We now face two fundamental problems. The first is whether our greatly inflated income is to be used as a base for calculating future spending. It is clear that it must not. To do so would severely and perhaps irreparably damage the school system when our income drops. This must be avoided in schools and all other departments of government.

The second problem is to determine where our school dollar is going and whether it is being spent effectively and efficiently. This will require study and an analysis of our entire educational structure.

I am now of the opinion that during the next biennium our schools can operate efficiently and maintain the proposed schedule of salary increases for less than \$65,000,000. This can be determined only by the educational survey I have proposed.

Pending this study, I believe that we should guard against the possibility of any child, teacher or school district being adversely affected. I also believe the appropriation should be subject to limitations so that if the need for funds has been overestimated, or our school population declines, appropriate action can be taken.

To that end I propose that the school appropriation be restored to \$65,000,000, but with the following provision placed in the Senate Appropriation Bill No. 315:

"Provided that during the period beginning July 1, 1946, the Governor may direct the State Treasurer to omit or reduce any transfers from the General Fund to the Current State School Fund by such amounts as may be determined by him to be unnecessary for efficient operations of schools, and in such event, the above appropriation shall be reduced accordingly. Provided further that the Governor shall notify school districts of his intention to restrict any such transfers not later than April 1, 1946."

This method will leave the school program unchanged for the ensuing school year, give this administration a year in which to analyze the situation, preserve the factor system, and give opportunity for state-wide school savings where desirable.

Under this proposal no amendment of Substitute House Bill No. 176 would be necessary.

I ask that you give this important matter your most earnest consideration.

Respectfully submitted,

MON C. WALLGREN, Governor.

Senator Reardon moved that the Governor's Message be mimeographed and placed on the desk of each Senator in order that the Senators may have the benefit of the Governor's recommendations.

The motion carried.

Senator Davison moved that action on Engrossed Senate Bill No. 315 be deferred until Senator Edwards is present to explain the budget.

The President ordered Senator Edwards brought in at this time.

Senator Warren moved that action on Engrossed Senate Bill No. 315 be deferred until the Senators have had an opportunity to look over the amended budget.

Senator Bienz stated that he was sure that Senator Edwards could give the Senators the information at this time and he thought the Senate should go to work on the bill now.

The Chair announced that the question before the Senate is that the Senate defer action for about thirty minutes.

Senator Edwards announced that he could explain the items at this time and that the Senate should go ahead and get through with it.

Senator Warren withdrew his motion.

The Chair announced, there being no objection, the Senate would now resolve itself into a Committee of the Whole for the purpose of considering Engrossed Senate Bill No. 315.

On motion of Senator Edwards, the Senate resolved itself into a Committee of the Whole to consider Engrossed Senate Bill No. 315.

COMMITTEE OF THE WHOLE

The bill was considered in the Committee of the Whole, Senator Bargreen in the chair, and reported back to the Senate with the recommendation that the Senate do concur in the House amendments.

Senator Bargreen moved that the report of the committee be adopted.

The Chair announced that the question before the Senate is that the report of the Committee of the Whole be adopted.

Senator Neal, supported by Senators Rabbitt and Binyon demanded the previous question.

The Chair announced the question before the Senate is, shall the demand for the previous question be sustained.

The Secretary called the roll and the report of the Committee of the Whole was adopted by the following vote:

Those voting yea were: Senators Bargreen, Beck, Binyon, Black, Coe, Davison, Dixon, Edwards, Forbus, Gallagher, Hanson, Huntley, Jackson, Kohlhase, Mohler, Neal, Olson, Rabbitt, Ray, Rosellini, Roup, Thomas, Tisdale, Todd—24.

Senator Rabbitt raised a point of order that the motion refers to a bill that is not before the Senate and upon which the Senate can take no action; that the only part of the motion that could be considered is that the Senate defer action on Engrossed Senate Bill No. 315, and the proper action on that would be that Engrossed Senate Bill No. 315, be postponed to a time certain; that for the reasons stated the motion of Senator Bienz is out of order.

The Chair announced that a point of order had been raised and ruled that the point of order was well taken, for the reason that two different bills are included in the motion and there is only one bill before the Senate.

The Chair announced the question before the Senate is the final passage of Engrossed Senate Bill No. 315.

Senator Zednick raised a point of order that just because the Senate has adopted the report of the Committee of the Whole that does not mean that the Senate is adopting the motion to concur and that he would move at this time that the Senate do not concur in the House amendment to Engrossed Senate Bill No. 315.

Senator Dixon raised a point of order that the Senate had a roll call vote on that same proposition and the Senate did concur in the House amendment.

Senator Davison moved that the vote by which the report of the committee was adopted be reconsidered.

Senator Rabbitt raised a point of order that he had been recognized for the purpose of making a motion and that he wished to speak on the motion and must be recognized again.

Senator Davison stated that he was speaking on the motion.

President Meyers assumed the chair.

Senator Wall, supported by Senators Dixon and Ray demanded the previous question.

The demand for the previous question was sustained.

The President announced that the question before the Senate is that the Senate do now reconsider the vote by which the report of the committee was adopted.

(d) (1) When the total disability is only temporary, the schedule of payments contained in paragraphs (1), (2) and (3) of the foregoing subdivision (b) shall apply, so long as the total disability shall continue * * * * . * * * *

Should a workman suffer a temporary total disability, and should his employer, at the time of his injury, continue to pay him the wages which he was earning at the time of such injury, such injured workman shall not receive any payment provided herein from the accident fund during the period his employer shall so pay such wages.

* * * * (2) As soon as recovery is so complete that the present earning power of the workman, at any kind of work, is restored to that existing at the time of the occurrence of the injury, the payments shall cease. If and so long as the present earning power is only partially restored, the payments shall continue in the proportion which the new earning power shall bear to the old. No compensation shall be payable out of the accident fund unless the loss of earning power shall exceed five per cent.

No payment shall be made to or for a natural child of a deceased workman, and at the same time, as the step-child of a deceased workman.

(e) There is hereby created in the office of the State Treasurer a fund to be known and designated as the reserve fund out of which shall be made the payments specified in this section for all cases of death or permanent total disability including future payments to be made for the cases of that character which have heretofore arisen. Into the reserve fund there shall be forthwith placed all unexpended funds, in cash or invested, heretofore set aside for cases requiring a reserve. For every case resulting in death or permanent total disability hereafter arising it shall be the duty of the Department to make transfer on their books from the accident fund of the proper class to the reserve fund a sum of money for that case equal to the estimated present cash value of the monthly payments provided for it, to be calculated upon the basis of an annuity covering the payments in this section provided to be made for the case. Such annuities shall be based upon tables to be prepared for that purpose by the State Insurance Commissioner and by him furnished to the State Treasurer, calculated upon standard mortality tables with an interest assumption of three (3) per cent per annum.

The department shall notify the State Treasurer from time to time of such transfers as a whole and the State Treasurer shall invest the reserve in either state capital

building bonds issued to take up capitol building warrants now outstanding, or in the class of securities provided by law for the investment of the permanent school fund, and the interest or other earnings of the reserve fund shall become part of the reserve fund itself. The Department shall on October 1st of each year, apportion the interest or other earnings of the reserve fund as certified to it by the State Treasurer, to the various class reserve funds according to the average class balance for the preceding year. As soon as possible after October 1st of each year, beginning in the year 1927, the State Insurance Commissioner shall expert the reserve fund of each class to ascertain its standing as of October 1st of that year, and the relation of its outstanding annuities at their then value to the cash on hand or at interest belonging to that fund. He shall promptly report the result of his examination to the Department and to the State Treasurer in writing not later than December 31st, following. If the report shows that there was on said October 1st, in the reserve fund of any class in cash or at interest a greater sum than the then annuity value of the outstanding pension obligations of that class, the surplus shall be forthwith turned over to the accident fund of that class, but if the report shows the contrary condition of any class reserve, the deficiency shall be forthwith made good out of the accident fund of that class. The State Treasurer shall keep accurate accounts of the reserve fund and the investment and earnings thereof, to the end that the total reserve funds shall at all times, as near as may be, be properly and fully invested, and to meet current demands for pension or lump sum payments may, if necessary, make temporary loans to the reserve fund out of the accident fund for that class, repaying same from the earnings of that reserve fund or from collections of its investments, or, if necessary, sales of the same.

(f) Permanent partial disability means the loss of either one foot, one leg, one hand, one arm, one eye, one or more fingers, one or more toes, any dislocation where ligaments were severed where repair is not complete, or any other injury known in surgery to be permanent partial disability. For the permanent partial disabilities here specifically described, the injured workman shall receive compensation as follows:

Compensation for any other permanent partial disability shall be in the proportion which the extent of such other disability shall bear to that above specified, which most closely resembles and approximates in degree of disability such other disability, but not in any case to exceed the sum of * * * * *four thousand five hundred dollars (\$4,500.00)*: *Provided*, That for disability to a member not involving amputation, not more than three-fourths (¾) of the foregoing respective specified sums shall be paid: *Provided, further*, That payment for any injury to minor hand or arm or any part thereof, shall not exceed ninety-five (95) per centum of the amounts hereinbefore enumerated.

If the injured workman be under the age of twenty-one years and unmarried, the parents or parent shall also receive a lump sum payment equal to ten per cent of the amount awarded to the minor workman.

(g) Should a further accident occur to a workman who has been previously the recipient of a lump sum payment under this act, his future compensation shall be adjudged according to the other provisions of this section and with regard to the combined effect of his injuries and his past receipt of money under this act.

Should a workman receive an injury to a member or part of his body already from whatever cause permanently partially disabled, resulting in the amputation thereof or in an aggravation or increase in such permanent partial disability but not resulting in the permanent total disability of such workman, his compensation for such permanent partial disability shall be adjudged with regard to the previous disability of the injured member or part and the degree or extent of the aggravation or increase of disability thereof.

Should any further accident result in the permanent total disability of such injured workman, he shall receive the pension to which he would be entitled notwithstanding the payment of a lump sum for his prior injury.

(h) If the aggravation, diminution, or termination of disability takes place or be discovered after the rate of compensation shall have been established or compensation terminated, in any case the Director of Labor and Industries, through and by means of the Division of Industrial Insurance, may, upon the application of the beneficiary, made within five years after the establishment or termination of such compensation, or upon his own motion, readjust for further application the rate of compensation in accordance with the rules in this section provided for the same, or in a proper case terminate the payment: *Provided*, Any such applicant whose compensation has heretofore been established or terminated shall have five (5) years from the taking effect of this act within which to apply for such readjustment.

No act done or ordered to be done by the Director of Labor and Industries or the Department of Industrial Insurance, prior to the signing and filing in the matter of a written order for such readjustment, shall be ground for such readjustment: *Provided, however*, That if within the time limit for taking an appeal from an order closing a claim, the Department shall order the submission of further evidence or the investigation of any further fact, the time for appeal from such order closing the claim shall be extended until the applicant shall have been advised in writing of the final order of the Department in the matter.

A wife who has lived separate and apart from her husband for the period of two years and who has not, during that time, received, or attempted by process of law to collect, funds for her support or maintenance, shall be deemed living in a state of abandonment.

(j) If a beneficiary shall reside or remove out of the State, the Department may, in its discretion, with the written consent of the beneficiary, convert any monthly payments provided for such cases into a lump sum payment not in any case to exceed the value of the annuity then remaining, to be fixed and certified by the State Insurance Commissioner, but in no case to exceed the sum of * * * * *six thousand two hundred fifty dollars (\$6,250.00)*

(k) No workman injured after June 30th, 1923, shall receive or be entitled to receive compensation out of the accident fund for or during the day on which injury was received or the three days following the same.

(l) If it be determined by the Department of Labor and Industries that an injured workman had, at the time of his injury, a pre-existing disease and that such disease delays or prevents complete recovery from such injury, the said Department shall ascertain, as nearly as possible, the period over which the injury would have caused disability were it not for the diseased condition and/or the extent of permanent partial disability which the injury would have caused were it not for the disease, and award compensation only * * * * *therefor*.

Sec. 2. Section 7, chapter 74, Laws of 1911, as last amended by section 2, chapter 209, Laws of 1941 (section 7681, Rem. Supp. 1941), is amended to read as follows:

Section * * * * 7. In case of death or permanent total disability the monthly payment provided may be converted, in whole or in part, into a lump sum payment, not in any case to exceed * * * * *six thousand two hundred fifty dollars (\$6,250.00)*, equal or proportionate as the case may be to the value of the annuity then remaining, to be fixed and certified by the State Insurance Commissioner, in which event the monthly payment shall cease in whole or in part accordingly or proportionately. Such conversions may only be made after the happening of the injury and upon the written application of the beneficiary (in the case of minor children the application may be either parent) to the Department, and shall rest in the discretion of the Department. Within the rule aforesaid the amount and value of the lump sum payment may be agreed upon between the Department and beneficiary. In the event any payment shall be due to an alien residing in a foreign country, the Department may settle the same by making a lump sum payment in such amount as may be agreed to by such alien, not to exceed 50% of the value of the annuity then remaining.

Nothing herein contained shall preclude the Department from making, and authority is hereby given it to make, on its own motion, lump sum payments equal or proportionate, as the case may be, to the value of the annuity then remaining, in full satisfaction of claims due to dependents.

GENERAL FILE

House Bill No. 385:

The Secretary read:

REPORT OF STANDING COMMITTEE

Senate Chamber,
Olympia, Wash., March 5, 1945.

MR. PRESIDENT:

We, your Committee on Revenue and Taxation, to whom was referred House Bill No. 385, entitled: "An Act relating to taxation; repealing chapter 54, Laws of 1907, as amended by sections 26 to 32, inclusive, chapter 206, Laws of 1939 (sections 11180 to 11187, inclusive, Remington's Revised Statutes), which provided for an excise or privilege tax payable by express companies; and designating the taxes to which this act shall apply," have had the same under consideration, and we respectfully report the same back to the Senate with the recommendation that it do pass.

W. R. ORNDORFF, *Chairman.*

We concur in this report: E. J. Flanagan, Virgil R. Lee, Kevin Henehan, D. C. Cowen, John T. McCutcheon.

On motion of Senator Orndorff, the report of the committee was received and the bill was read the third time.

Senator Bienz moved the adoption of the following amendment:

Amend the bill by adding two new sections to be known as Sec. 3 and Sec. 4, respectively, which shall follow immediately after Sec. 2 thereof, and shall read as follows:

"Sec. 3. Section 1, chapter 226, Laws of 1941, is amended to read as follows:

"Section 1. The electors of each township shall have power, at their annual township meeting to vote to raise such sums of money * * * * as they deem necessary, not to exceed * * * * two (2) mills, in any township having a population of less than five thousand (5,000) inhabitants as shown by the last official United States Census, and not to exceed five (5) mills, in any township having a population of five thousand (5,000) or more inhabitants, as shown by the same census on the assessed value of the taxable real and personal property in the township, according to the last previous assessment made * * * * for town charges which shall include charges for the purchase, repair, maintenance and operation of snow plows or snow removing equipment * * * * , appliances for the prevention of highway dust and debris, and highway lighting, all in cooperation with the state and county authorities, and that for all other township charges authorized by law. The levies herein authorized shall be independent, and not a part, of any tax levy authorized by law for any other form of district or organization."

"Sec. 4. Section 8, chapter 13, Laws of 1923 (section 11445, Remington's Revised Statutes) is hereby repealed."

Senator Orndorff moved that the amendment be laid on the table.

Senator Dixon raised a point of order that House Bill No. 313 has been definitely considered during this legislative session and cannot come up again.

Senator McCutcheon stated that he had the floor and had been recognized.

The Chair announced that a question of consideration can only be raised at the time the motion is made and not after debate has started.

Senator Rosellini stated that debate had not been started.

The Chair ruled that House Bill No. 313 is not before the Senate and that if the Senators cared to talk on the motion to suspend the rules with no reference to the bill, that could be done, otherwise he would rule the motion of Senator McCutcheon out of order.

Senator Reardon stated:

"I realize that the Chair intends and wants the rules to be followed. I simply want to say from what little I know about the rules that the gentleman is entirely within his rights. He is not transgressing on any rule. He moved to suspend the rules for the purpose of doing a certain thing and he has the right to tell the Senate what he intends to do."

Senator Zednick raised a point of order that a motion to suspend the rules wouldn't mean anything; that it would have to be to suspend the rules for a certain purpose.

Senators Rosellini, Binyon and Ray demanded the previous question.

The demand for the previous question was sustained.

The Chair announced, that the question now before the Senate is the motion that the rules be suspended; the question before the Senate now is on the motion that all rules be suspended, and it will take a two-thirds vote to suspend the rules.

Senator Warren, supported by Senators Wall, Copeland, McCutcheon, Lee, Robertson, Parker and Reardon demanded a roll call.

A roll call was ordered.

On motion of Senator Warren, the two absent Senators were excused.

Supp. 1941).

Be It Enacted by the Legislature of the State of Washington:

Section 1. Section 5, chapter 74, Laws of 1911, as last amended by section 1, chapter 209, Laws of 1941 (section 7679, Rem. Supp. 1941), is amended to read as follows:

Section * * * * 5. Each workman who shall be injured in the course of his employment, or his family or dependents in case of death of the workman, shall receive out of the accident fund compensation in accordance with the following schedule, and, except as in this Act otherwise provided, such payment shall be in lieu of any and all rights of action whatsoever against any person whomsoever.

COMPENSATION SCHEDULE

tually received by such dependent from the workman during the twelve months next preceding the occurrence of the injury, but the total payment to all dependents in any case shall not exceed * * * * *sixty-two dollars and fifty cents (\$62.50)* per month. If any dependent is under the age eighteen years at the time of the occurrence of the injury, the payment to such dependent shall cease when such dependent shall reach the age of eighteen years. The payment to any dependent shall cease if and when, under the same circumstances, the necessity creating the dependency would have ceased if the injury had not happened.

If the workman is under the age of twenty-one years and unmarried at the time of his death, the parents or parent of the workman shall receive * * * * *thirty-one dollars and twenty-five cents (\$31.25)* per month for each month after his death until the time at which he would have arrived at the age of twenty-one years.

(b) Permanent total disability means loss of both legs, or arms, of one leg and one arm, total loss of eyesight, paralysis or other condition permanently incapacitating the workman from performing any work at any gainful occupation.

When permanent total disability results from the injury, the workman shall receive monthly during the period of such disability: (1) If unmarried at the time of the injury, the sum of * * * * *sixty-two dollars and fifty cents (\$62.50)*.

Upon remarriage the payments on account of the child or children shall continue as before to such child or children.

An invalid child while being supported and cared for in a state institution shall not receive compensation under this Act. If an injured workman, or the surviving spouse of an injured workman shall not have the custody of a minor child for, or on account of, whom payments are required to be made under this section, such payment or payments shall be made to the person having the lawful custody of such minor child.

(d) (1) When the total disability is only temporary, the schedule of payments contained in paragraphs (1), (2) and (3) of the foregoing subdivision (b) shall apply, so long as the total disability shall continue * * * * . * * * *

Should a workman suffer a temporary total disability, and should his employer, at the time of his injury, continue to pay him the wages which he was earning at the time of such injury, such injured workman shall not receive any payment provided herein from the accident fund during the period his employer shall so pay such wages.

* * * * (2) As soon as recovery is so complete that the present earning power of the workman, at any kind of work, is restored to that existing at the time of the occurrence of the injury, the payments shall cease. If and so long as the present earning power is only partially restored, the payments shall continue in the proportion which the new earning power shall bear to the old. No compensation shall be payable out of the accident fund unless the loss of earning power shall exceed five per cent.

No payment shall be made to or for a natural child of a deceased workman, and at the same time, as the step-child of a deceased workman.

(e) There is hereby created in the office of the State Treasurer a fund to be known and designated as the reserve fund out of which shall be made the payments specified in this section for all cases of death or permanent total disability including future payments to be made for the cases of that character which have heretofore arisen. Into the reserve fund there shall be forthwith placed all unexpended funds, in cash or invested, heretofore set aside for cases requiring a reserve. For every case resulting in death or permanent total disability hereafter arising it shall be the duty of the Department to make transfer on their books from the accident fund of the proper class to the reserve fund a sum of money for that case equal to the estimated present cash value of the monthly payments provided for it, to be calculated upon the basis of an annuity covering the payments in this section provided to be made for the case. Such annuities shall be based upon tables to be prepared for that purpose by the State Insurance Commissioner and by him furnished to the State Treasurer, calculated upon standard mortality tables with an interest assumption of three (3) per cent per annum.

The department shall notify the State Treasurer from time to time of such transfers as a whole and the State Treasurer shall invest the reserve in either state capitol building bonds issued to take up capitol building warrants now outstanding, or in the class of securities provided by law for the investment of the permanent school fund, and the interest or other earnings of the reserve fund shall become part of the reserve fund itself. The Department shall on October 1st of each year, apportion the interest or other earnings of the reserve fund as certified to it by the State Treasurer, to the various class reserve funds according to the average class balance for the preceding year. As soon as possible after October 1st of each year, beginning in the year 1927, the State Insurance Commissioner shall expert the reserve fund of each class to ascertain its standing as of October 1st of that year, and the relation of its outstanding annuities at their then value to the cash on hand or at interest belonging to that fund. He shall promptly report the result of his examination to the Department and to the State Treasurer in writing not later than December 31st, following. If the report shows that there was on said October 1st, in the reserve fund of any class in cash or at interest a greater sum than the then annuity value of the outstanding pension obligations of that class, the surplus shall be forthwith turned over to the accident fund of that class, but if the report shows the contrary condition of any class reserve, the deficiency shall be forthwith made good out of the accident fund of that class. The State Treasurer shall keep accurate accounts of the reserve fund and the investment and earnings thereof, to the end that the total reserve funds shall at all times, as near as may be, be properly and fully invested, and to meet current demands for pension or lump sum payments may, if necessary, make temporary loans to the reserve fund out of the accident fund for that class, repaying same from the earnings of that reserve fund or from collections of its investments, or, if necessary, sales of the same.

(f) Permanent partial disability means the loss of either one foot, one leg, one hand, one arm, one eye, one or more fingers, one or more toes, any dislocation where ligaments were severed where repair is not complete, or any other injury known in surgery to be permanent partial disability. For the permanent partial disabilities here specifically described, the injured workman shall receive compensation as follows:

If the injured workman be under the age of twenty-one years and unmarried, the parents or parent shall also receive a lump sum payment equal to ten per cent of the amount awarded to the minor workman.

(g) Should a further accident occur to a workman who has been previously the recipient of a lump sum payment under this act, his future compensation shall be adjudged according to the other provisions of this section and with regard to the combined effect of his injuries and his past receipt of money under this act.

Should a workman receive an injury to a member or part of his body already from whatever cause permanently partially disabled, resulting in the amputation thereof or in an aggravation or increase in such permanent partial disability but not resulting in the permanent total disability of such workman, his compensation for such permanent partial disability shall be adjudged with regard to the previous disability of the injured member or part and the degree or extent of the aggravation or increase of disability thereof.

Should any further accident result in the permanent total disability of such injured workman, he shall receive the pension to which he would be entitled notwithstanding the payment of a lump sum for his prior injury.

(h) If aggravation, diminution, or termination of disability takes place or be discovered after the rate of compensation shall have been established or compensation terminated, in any case the Director of Labor and Industries, through and by means of the Division of Industrial Insurance, may, upon the application of the beneficiary,

made within five years after the establishment or termination of such compensation, or upon his own motion, readjust for further application the rate of compensation in accordance with the rules in this section provided for the same, or in a proper case terminate the payment: *Provided*, Any such applicant whose compensation has heretofore been established or terminated shall have five (5) years from the taking effect of this act within which to apply for such readjustment.

No act done or ordered to be done by the Director of Labor and Industries or the Department of Industrial Insurance, prior to the signing and filing in the matter of a written order for such readjustment, shall be ground for such readjustment: *Provided, however*, That if within the time limit for taking an appeal from an order closing a claim, the Department shall order the submission of further evidence or the investigation of any further fact, the time for appeal from such order closing the claim shall be extended until the applicant shall have been advised in writing of the final order of the Department in the matter.

(i) A husband or wife of an injured workman, living in a state of abandonment for more than one year at the time of the injury or subsequently, shall not be a beneficiary under this act. A wife who has lived separate and apart from her husband for the period of two years and who has not, during that time, received, or attempted by process of law to collect, funds for her support or maintenance, shall be deemed living in a state of abandonment.

(j) If a beneficiary shall reside or remove out of the State, the Department may, in its discretion, with the written consent of the beneficiary, convert any monthly payments provided for such cases into a lump sum payment not in any case to exceed the value of the annuity then remaining, to be fixed and certified by the State Insurance Commissioner, but in no case to exceed the sum of * * * *six thousand two hundred fifty dollars (\$6,250.00)*.

(k) No workman injured after June 30th, 1923, shall receive or be entitled to receive compensation out of the accident fund for or during the day on which injury was received or the three days following the same.

(l) If it be determined by the Department of Labor and Industries that an injured workman had, at the time of his injury, a pre-existing disease and that such disease delays or prevents complete recovery from such injury, the said Department shall ascertain, as nearly as possible, the period over which the injury would have caused disability were it not for the diseased condition and/or the extent of permanent partial disability which the injury would have caused were it not for the disease, and award compensation only * * * *therefor*.

Sec. 2. Section 7, chapter 74, Laws of 1911, as last amended by section 2, chapter 209, Laws of 1941 (section 7681, Rem. Supp. 1941), is amended to read as follows:

Section * * * * 7. In case of death or permanent total disability the monthly payment provided may be converted, in whole or in part, into a lump sum payment, not in any case to exceed * * * * *six thousand two hundred fifty dollars (\$6,250.00)*, equal or proportionate as the case may be to the value of the annuity then remaining, to be fixed and certified by the State Insurance Commissioner, in which event the monthly payment shall cease in whole or in part accordingly or proportionately. Such conversions may only be made after the happening of the injury and upon the written application of the beneficiary (in the case of minor children the application may be either parent) to the Department, and shall rest in the discretion of the Department. Within the rule aforesaid the amount and value of the lump sum payment may be agreed upon between the Department and beneficiary. In the event any payment shall be due to an alien residing in a foreign country, the Department may settle the same by making a lump sum payment in such amount as may be agreed to by such alien, not to exceed 50% of the value of the annuity then remaining.

Nothing herein contained shall preclude the Department from making, and authority is hereby given it to make, on its own motion, lump sum payments equal or proportionate, as the case may be, to the value of the annuity then remaining, in full satisfaction of claims due to dependents.

"Sec. 3. Within the contemplation of this act, 'occupational disease' means such disease, infection or allergic condition as proximately results from extrahazardous employment, irrespective of whether such occupational disease is peculiar to the occupation or whether a harmful condition to which all workmen in the occupation are continually exposed is constantly present. Payments in compensation for occupational disease may be made in the manner and from the same funds as payments for injury."

"Sec. 4. The increases in awards herein provided shall apply only to disabilities from injuries occurring or arising from and after the effective date of this act, but nothing herein contained shall be construed as repealing or impairing any existing rights with respect to any disability resulting from any injury which has occurred prior thereto."

Senator Zednick requested that Senate Concurrent Resolution No. 4, relating to the introduction of a bill be read.

Senator Thomas raised a question of consideration.

The Chair announced that a question of consideration has been raised.

The question before the Senate is whether or not the Senate wants to hear the resolution; that is the matter before the Senate and it is not debatable. The question is, whether the Senate wishes to consider Senate Concurrent Resolution No. 4 or not.

Senator Zednick, supported by Senators Reardon, Warren, Wall, Copeland, Robertson, Flanagan and Davison, demanded a roll call.

A roll call was ordered.

The Secretary called the roll and the question of consideration was sustained by the following vote:

Those voting yea were: Senators Bargreen, Beck, Binyon, Black, Coe, Cowen, Dixon, Edwards, Forbus, Gallagher, Hanson, Jackson, Kohlhase, Mohler, Neal, Olson, Rabbitt, Ray, Rosellini, Roup, Sapp, Thomas, Tisdale, Todd, Waters—25.

Those voting nay were: Senators Bienz, Copeland, Dahl, Davison, Dawson, Flanagan, Henehan, Huntley, Lee, McCutcheon, Miller, Morgan, Orndorff, Parker, Reardon, Robertson, Rogers, Schroeder, Wall, Warren, Zednick—21.

The President announced that the question of consideration had been sustained.

Senator Parker requested permission to file a protest.

The President ruled that the following protest would not be read but would be placed in the Journal.

WRITTEN PROTEST

Pursuant to rule No. 51 of the Senate Rules, we—the undersigned—file a protest to be entered upon the Journal, as provided in said rule, against the action of a majority of the Senate in refusing to consider House Bill No. 313 and the amendments which we offered thereto, which amendments would have increased compensation awards to injured workmen by 25%. We believe that the majority of the Senate, in refusing to consider this bill and the amendments thereto for the benefit of injured workmen, placed political considerations above the welfare of the working-men of the State of Washington.

March 8, 1945.

JACK H. ROGERS

LESTER T. PARKER

Senator Rabbitt moved that the Senate proceed in order.

Senator Mohler stated:

"Perhaps a Resolution is not in order, but I believe a few remarks are in order in commenting on the Chairman of one of our committees. He has, in this session, done an outstanding job. He has been chairman of a large committee. He has worked day and night, when many of us were out enjoying something else. I would like at this time to have Senator Edwards given a rising vote of thanks for the work that he has done."

A rising vote of thanks was given to Senator Edwards.

Senator Zednick announced that he would like to make a similar motion as to the Chairman of the Judiciary Committee. Senator Zednick further stated that he thought that Senator Lady Willie Forbus should be commended for her work on that committee.

A rising vote of thanks was given to Senator Lady Willie Forbus.

Senator Reardon moved that the rules be suspended and the Senate refer back to the second order of business.

The motion carried.

Senator Reardon:

"As Chairman of the Committee on Engrossed and Enrolled Bills, Senators Rogers and Dahl, both gentlemen, please rise."

Senators Rogers and Dahl rose.

Senator Reardon:

"I want to extend to them, Mr. President, on behalf of the members of the Senate, my compliments for their integrity and their efficiency. We have just completed, Senator Rogers and myself, and I assume that Senator Dahl and either Senator Rogers or myself, will complete reading a few more enrolled bills. I do this for one purpose: I want to compliment the Secretary and possibly the employment committee of the Senate, on the help that has done the engrossing and enrolling work, which after all, Mr. President, as you know, is highly important. After all, a 'shall' or a 'may' may make a considerable difference and I think we have put the commas where they belong and the periods where they belong. I have always tried to be sincere in this work. After all, these are the laws that go to the Secretary of State's office and I don't like to see any horseplay; you can have it out here or have it in the House, but let's see what the record is before we send it to the Governor. I think the Work Room has done one swell job." (Applause.)

Senator Dawson:

"I again rise and I find myself unable to give any commendation to any of the Chairmen of these committees."

The Secretary read:

AND WHEREAS, The investigations of the Joint House and Senate Special Committee of four (4) State penal institutions has brought to light many facts, or alleged facts, and many irregularities, or alleged irregularities, which should be investigated further, and it is evident that such irregularities as exist may go on for an indefinite period with no check because of lack of adequate supervision;

AND WHEREAS, The limited investigations that have been made reveal that many changes could be brought about within the institutions which are in line with modern scientific methods of handling youthful offenders as well as older criminals and also for handling the mentally abnormal patients, and it seems apparent that the handling

of parolees is seriously handicapped by a small staff, and in some instances, untrained parole officers;

AND WHEREAS, Such investigation as has been made indicates the necessity for a complete investigation of conditions at all such institutions in order that the 1947 Session of the Legislature may have before it a report of the same, together with suggestions for betterment and improvement;

Now, Therefore, Be It Resolved, That the President of the Senate is empowered to appoint three (3) Senate members who are hereby authorized and empowered to investigate, as a Committee, conditions at the State Charitable, Penal and Reformatory institutions, and make a report of the same, with its recommendations for betterments and improvements, to the 1947 Session of the Legislature, not later than during its first week of Session;

Senator Mohler, President Pro Tempore, assumed the chair.

Senators Henehan, Reardon and Schroeder demanded the previous question.

The Chair announced that the question before the Senate is the adoption of the report of the Free Conference Committee on Engrossed House Bill No. 341.

Senator Zednick stated that his motion before the Senate was that the report of the Free Conference Committee be not adopted.

The Chair announced that there was another motion, that the report of the Free Conference Committee be adopted.

Senator Wall, supported by Senators Warren, Reardon, Lee, Davison, Dawson, McCutcheon and Orndorff, demanded a roll call.

The demand for a roll call was sustained.

The Chair announced that the question before the Senate is the adoption of the report of the Free Conference Committee.

The President Pro Tempore further stated that a question had been raised as to what effect the voting on the report of the Free Conference Committee would have. The President Pro Tempore further stated that it was the ruling of the Chair that if the report of the Free Conference Committee was not adopted, it would kill the bill.

The President Pro Tempore announced that a demand for the previous question had been made and the demand sustained. The question before the Senate is the motion for the previous question.

The motion carried.

Senator Zednick stated that he understood the question is that the Senate do adopt the report of the Free Conference Committee, and that he had moved that the Senate do not adopt the report.

Senator Reardon stated that he did not agree with the ruling of the Chair and appealed therefrom.

President Meyers assumed the chair.

The President announced the question now before the Senate is, shall the ruling of the Chair be sustained.

Senator Rosellini inquired whether the ruling of the Chair had been sustained.

The Chair ruled that an appeal must be taken by three Senators from the decision of the Chair.

Senator Zednick stated that he hoped that an appeal would not be taken for the reason that he was not positive in his statement.

Senator Reardon announced that under the Joint Rules, the Senate has a right to correct whatever is in order before a mistake is made.

Senator Mohler announced that his ruling was based upon the fact that this was the unanimous report of a properly authorized Free Conference Committee, and that he failed to see anything in the Joint Rules on conference committees where a different ruling than the ruling he had made from the Chair could be made. Senator Mohler further stated that it was just a matter of ruling as he saw the rules in the book, and that as far as he was concerned, if the rule could be interpreted differently, he would be happy to do so, but that as long as a Free Conference Committee came in with a unanimous report on the bill, he saw no other way that he could rule.

Senator Dixon stated that the previous question had been called for on the acceptance or rejection of the report and that that motion was put, and inquired whether the Senate was now up to the final passage of the bill.

The President announced that that was correct.

Senator Dixon stated that the Senate should then pass on the bill.

The President announced that there is a question before the Senate.

The President announced that he would put the question on the appeal from the decision of the Presiding Officer.

Senator Reardon stated he thought that Senator Mohler knew that there was nothing personal in his appeal.

Senator Zednick inquired whether the President agreed with the ruling of Senator Mohler.

The President announced:

"Absolutely. The question before the Senate is, shall the ruling of the Chair be sustained."

Senator Reardon demanded a roll call.

The demand for the roll call was not sustained.

Senator Parker stated that he understood the question now before the Senate is the adoption of the report of the Free Conference Committee.

The Chair announced that was correct.

The President:

"In a case where a conference committee can agree, there must be a unanimous report, and in a case where they cannot agree, they may come in and a new committee would have to be appointed. It is in the hands of the Conference Committee and until they bring in a unanimous report, if they fail to agree, they can come in and request that they be discharged and another committee appointed."

Senator Zednick inquired what would be the effect if Senator Lee withdrew his signature.

The Chair announced that that was something else, and that that question was not before the Senate at this time.

The President announced the question before the Senate now is, shall the ruling of the Chair be sustained.

The ruling of the Chair was sustained.

Senator Mohler assumed the chair.

The Chair stated that the previous question had been demanded and the demand sustained. The question now before the Senate is the adoption of the report of the Free Conference Committee.

Senator Dixon requested the unanimous consent of the Senate and that he be given two minutes to talk on the bill.

Senator Zednick stated that he would have no objection providing that anyone who differed with him would be given two minutes to discuss the bill.

Senator Wall stated that the previous question had been asked for.

The Chair announced that the question before the Senate is the adoption of the report of the Free Conference Committee.

The Secretary was instructed to call the roll.

The Secretary called the roll on the adoption of the report of the Free Conference Committee on Engrossed House Bill No. 341, and it was adopted by the following vote:

Those voting yea were: Senators Bargreen, Beck, Binyon, Black, Coe, Dixon, Edwards, Forbus, Gallagher, Kohlhase, Mohler, Neal, Olson, Rabbitt, Ray, Rosellini, Roup, Thomas, Tisdale, Todd, Waters—21.

Those voting nay were: Senators Copeland, Davison, Dawson, Hanson, Henehan, Huntley, Jackson, Lee, McCutcheon, Miller, Morgan, Orndorff, Parker, Reardon, Robertson, Rogers, Schroeder, Wall, Warren, Zednick—20.

Those absent or not voting were: Senators Bienz, Cowen, Dahl, Flanagan, Sapp—5.

The Chair announced that the question now before the Senate is the final passage of Engrossed House Bill No. 341.

Senator Zednick stated that the Senate was now on the final passage of the bill unless it included in it material that was not in it when it was first passed

by the Senate, and that this made an entirely different bill. He hoped the Senate would vote against the whole thing.

Senators Wall, Davison and Lee demanded the previous question.

Senator Neal moved that the chairman of the Committee on Education and Libraries be given a chance to clarify the bill.

The Chair announced that the previous question had been demanded and the question now before the Senate is, shall the demand for the previous question be sustained.

The demand for the previous question was sustained.

The Chair announced that the question is the final passage of Engrossed House Bill No. 341, as amended.

The Secretary started to call the roll.

Senators Edwards, Rabbitt and Ray demanded a call of the Senate.

The Chair announced the question before the Senate is, shall the demand for a call of the Senate be sustained.

Senator Davison moved that the rules be suspended and that the Chair be allowed to appoint a new conference committee.

Senator Rabbitt raised a point of order that a roll call can only be interrupted for a call of the Senate.

The Chair declared the point of order well taken.

Senator Ray moved the previous question.

Senator Orndorff moved that the Senate proceed with the roll call.

Senator Neal moved that the Senate proceed in order.

Senator Wall moved that the Senate recess for fifteen minutes.

Senator Rabbitt stated that the Senate was in the midst of a roll call and must proceed.

Senator Wall moved that the Senate proceed in order.

The Chair announced that the Senate would be at ease, subject to the call of the Chair.

The Senate was called to order by President Meyers.

The President signed: House Bill No. 43, also

House Bill No. 174, also

House Bill No. 222, also

House Bill No. 335, also

House Bill No. 403, also

House Bill No. 272, also

House Bill No. 338, also

House Bill No. 401, also

House Bill No. 480, also

House Joint Resolution No. 13.

The President:

"With reference to the ruling in connection with the controversy before the Senate a moment ago and the ruling of the Chair, perhaps some of the members misunderstood,

but the Chair ruled that if the Conference Committee report is voted down, it takes the bill and everything with it. However, there has been called to my attention, where precedent has been established in the House, and after further consulting of Reed's Rules, it has been found that when a conference committee report is turned down, the Chair will instruct the Conference Committee to hold further conferences until such time as the Conference Committee report will be accepted by the Senate. If that report is not accepted, then a new committee can be appointed in the event they cannot agree. So, to bring this matter properly before the Senate again—inquiry was made as to just what could be done, sort of a parliamentary inquiry. The only thing that could be done was to reconsider the vote by which the Conference Committee report was adopted. If that motion carried, then in the event the Conference Committee report was not adopted by a majority of the Senate, then the Committee again would be required to have further conferences until such a time as they bring in a report that a majority of the Senate are willing to adopt."

Senator Zednick stated that the Senate had already voted on that, and the report of the Free Conference Committee was rejected.

The President stated that he had understood that it was adopted.

Senator Zednick inquired whether he would be in order to move that a new conference committee be appointed.

The Chair announced that the motion would not be proper; that the question would be to reconsider the vote by which the report of the Free Conference Committee was adopted.

Senator Parker moved that the Senate do reconsider the vote by which the report of the committee was adopted.

Senator Rabbitt raised a point of order that Senator Parker could not make that motion, he not having voted on the prevailing side.

Senator Zednick stated that he thought some one who had voted on the prevailing side should move to reconsider, as he was sure the Senate did not wish to kill the bill.

Senator Edwards moved to reconsider the vote by which the report of the Free Conference Committee was adopted.

Senator Rabbitt moved that the rules be suspended in order that the Senate might reconsider the vote, because the roll call had been interrupted.

Senator Black stated that the Secretary was calling the roll on final passage when the roll call was interrupted.

Senator Neal raised a point of order that the roll call was interrupted only at the suggestion for a call of the Senate and for no other reason.

The President stated that he would not sustain the point of order.

The President further stated:

"In these last days we have a rule that a roll call may be interrupted. The motion for a Call of the Senate was never put and never was sustained. I think a majority, if they wish to reconsider, should have the privilege."

Senator Rabbitt:

"Regardless of the Call of the Senate? We were in the midst of a roll call and I made a motion to suspend the rules and make this perfectly proper. I have no objection to a suspension of the rules to carry out what these people seem to want to have done. If it is to be done properly, we will have to suspend the rules."

The President stated that he had ruled it does not require a suspension of the rules to move for reconsideration.

Senator Rabbitt moved that that statement of the President go into the Journal.

The President announced that the question before the Senate is that the Senate reconsider the vote by which the report of the Free Conference Committee on Engrossed House Bill No. 341 was adopted.

The motion to reconsider failed to carry.

Senator Warren, supported by Senators Zednick, Davison, Parker, Lee, Jackson, Reardon and Dawson, demanded a roll call.

A roll call was ordered.

The President announced that a roll call had been demanded on the motion to reconsider and that the demand for a roll call had been sustained.

The Secretary was instructed to call the roll on the motion to reconsider.

The Secretary called the roll, and the motion to reconsider the report of the Free Conference Committee on Engrossed House Bill No. 341 carried by the following vote:

Those voting yea were: Senators Bargreen, Binyon, Black, Coe, Copeland, Davison, Dawson, Dixon, Edwards, Forbus, Hanson, Henehan, Huntley, Jackson, Kohlhase, Lee, McCutcheon, Morgan, Neal, Parker, Rogers, Roup, Schroeder, Tisdale, Todd, Warren, Waters, Zednick—28.

Those voting nay were: Senators Mohler, Olson, Orndorff, Rabbitt, Ray, Robertson, Rosellini, Thomas, Wall—9.

Those absent or not voting were: Senators Beck, Bienz, Cowen, Dahl, Flanagan, Gallagher, Miller, Reardon, Sapp—9.

The President announced that the question now before the Senate is the adoption or rejection of the report of the Free Conference Committee on Engrossed House Bill No. 341.

Senator Lee moved that the report be not adopted.

The President announced that the question before the Senate is the motion of Senator Lee that the report of the Free Conference Committee be not adopted.

The motion carried.

The President announced that he would ask the committee to have a further conference and bring in a report.

Senator Orndorff stated that he had plans to leave and moved that he be excused.

The motion carried.

Senator Rabbitt stated:

"I also ask leave to withdraw for the same reason. It is impossible to come to any agreement, especially with a person who backs up on his agreement. It is certain this Committee could not agree."

The President stated that he had before him the protest of Senator McCutcheon which the Senator had asked to be entered in the Journal under Rule 51.

Protest by Senator McCutcheon:

PROTEST TO BE ENTERED UPON THE SENATE JOURNAL RE. HOUSE BILL NO. 313 IN ACCORDANCE WITH RULE 51

In the 1945 session of the legislature, the employers of the State of Washington were ready and willing to concede almost every demand of labor, both reasonable and unreasonable, with the exception that they desired to retain the merit rating system whereby an employer could reduce in a measure his contribution to the Workmen's Compensation Act by installing safety devices and protecting his workmen against accident.

This was the golden opportunity for labor to obtain from the employer the greatest concessions ever offered in the history of the State of Washington. Labor could have obtained not only a 25% flat increase across the board in payments to the injured workman under the Workmen's Compensation Act, and to his widow and children, but also—most important—could have included under the act those thousands of workers who are suffering from occupational disease. These broad and most liberal provisions were repeatedly offered by the Republican-Democratic coalition to the majority during the debate in the State Senate, in order to effect a compromise.

However, the majority, guided by some evil genius, were determined to obtain all or nothing. When they found that they could not scrap the merit rating system, they chose to deprive labor of all these immediate benefits. They could have taken the benefits now and have presented the issue of merit rating later which they must do in any event, but they stubbornly refused. They were unmoved by the fact that they were depriving labor of millions of dollars per year in immediate benefits. They wished to make this an issue on which to ride back into power in 1946 and have so publicly stated.

The tragedy of it all is that thousands of victims of occupational disease and injury and their families must suffer as a result and for at least two years they will not have even an opportunity to try to obtain the benefits which should in all fairness have been given them now. The majority has deliberately sold the injured workman down the river. It was a cruel and cowardly act not struck at any member of the legislature

but against labor itself, and the responsibility for it should rest squarely on the minds and consciences of the leaders of the Joint Labor Lobby who dominated the majority.

The President announced the question before the Senate is the motion to reconsider the vote by which Engrossed Senate Bill No. 96 passed the Senate.

Senator Zednick stated that the President's inquiry was whether they had agreed or not.

Senator Rabbitt raised a point of order and referred the Senate to Reed's Rules of Order.

The President stated that he would declare the Senate at ease for five minutes in order that he might confer on the rules.

The Senate was called to order by President Meyers.

The President inquired of Senator Rabbitt what his point of order was.

Senator Rabbitt stated that the point of order he raised was that a conference committee report must be accepted or rejected as it stands.

The President announced that the point of order was well taken and stated:

"In other words, the ruling of the Chair where he stated he was in error, if the majority refused to accept the Conference Committee report, the entire bill would be lost, we find was not a correct ruling and it was changed. Now with reference to this

report, it must be accepted or rejected by a majority. If it is rejected, someone can ask that the Committee be discharged and a new committee be appointed."

The President stated further:

"The report must be a unanimous report. If they cannot agree, then, in that case, the Committee may be discharged on motion or upon a request of the members of the Committee themselves, saying that they cannot agree and asking that they be discharged. I understand in this particular case that the three members have withdrawn from the Committee. It was not done while I was here, but is that correct or not?"

Senator Zednick moved that the Free Conference Committee be discharged and a new committee appointed.

The President announced that the question before the Senate is the motion that the Free Conference Committee be discharged and a new committee appointed.

The motion carried.

The President announced that he would appoint as a Free Conference Committee on Engrossed House Bill No. 341, Senators Bargreen, Coe and Davison.

GOVERNOR'S MESSAGES ON SENATE BILLS VETOED

Senate Bill No. 45

March 17, 1945.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 45, entitled:

“An Act Abolishing the requirement for claims to be acknowledged by a notary public where the services or materials are furnished to any branch of government.”

The purposes of this bill are achieved in House Bill No. 250, which has passed the Legislature and received my executive approval.

For this reason, Senate Bill No. 45 is vetoed.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 97

March 16, 1945.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 97, entitled:

“An Act Relating to elections and voting in time of war, amending chapter 4, Laws Extraordinary Session, 1944, by adding a new section, to be known as section 29, relating to laws in effect and hours of voting.”

The provisions contained in the bill are embodied in section 4 of House Bill No. 151, which has passed the Legislature and received my approval.

For the above reason, Senate Bill No. 97 is vetoed.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 148

March 19, 1945.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 148, entitled:

“An Act Relating to public highways, establishing secondary state

highways as branches of Primary State Highway No. 3; and amending section 4, chapter 207, Laws of 1937 (section 6402-4, Remington's Revised Statutes)."

The bill provides for a secondary state highway from Dishman to Mica. Until the war ends, no one can reasonably foresee where roads should be located because the inevitable post war shifts of population will establish new channels of traffic. These roads must then be built as the need develops.

For these reasons, I have vetoed Senate Bill No. 148.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 161

March 16, 1945.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington, at the next session of the Legislature, without my approval, Senate Bill No. 161, entitled:

"An Act Relating to costs in actions; providing for the allowance of costs against the state, and any of its political subdivisions or administrative agencies; and amending section 522, Code of 1881 (section 491, Remington's Revised Statutes)."

This act although commendable in purpose subjects the state to costs in an untold number of cases in which the state has no material or pecuniary interest but in which the state is a necessary party defendant.

Therefore, I find that Senate Bill No. 161 will work an undue financial hardship upon the State of Washington and for that reason I have vetoed Senate Bill No. 161.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 166

March 19, 1945.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 166, entitled:

"An Act Providing for the regulation and supervision of the issuance and sale of certain securities to prevent fraud in the sale thereof; providing for the issuance of permits to sell securities by the Director of Licenses; and amending section 3, chapter 69, Laws of 1923, as

amended by section 1, chapter 231, Laws of 1943 (section 5853-3, Remington's Revised Statutes); and adding a new section to chapter 231, Laws of 1943, to be known as 1A."

Existing law provides that before any company shall sell, offer for sale, negotiate for the sale of, or take subscriptions for any security of its own issue that it must first apply for and secure a permit from the Director of Licenses authorizing it to do so.

The amendments incorporated in this bill would allow certain stock offerings to be made without such a permit.

I am of the opinion that existing law offers better protection to the public in the sale of securities and I have therefore vetoed Senate Bill No. 166.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 169

March 17, 1945.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 169, entitled:

"An Act Providing for a civil proceeding against sexual psychopathic persons and relating to psychiatrist's examination, treatment, commitment and detention of criminal sexual, psychopathic persons, and dealing with the supervision of sex criminals upon parole and/or after termination of sentence to prevent recidivism."

This bill is designed to provide special treatment for sex offenders. I am cognizant of the complex problems involved. The bill makes it mandatory to retain psychiatrists in every county. In my opinion, such a requirement cannot be met because of the limited number of psychiatrists available.

The bill provides for periodic hearings as to whether or not any criminal sex offender is unsafe to be at large. These hearings are before a judge without a jury. The court can, at any such hearing, commit the sex offender to confinement for unlimited periods of time. This method, in my opinion, is inconsistent with existing American procedures followed in conducting hearings for the insane, feeble minded and criminals. The effect would be a deprivation of liberty without due process of law.

The bill further provides that the accused shall have the right to counsel and one psychiatrist, but allows the state two psychiatrists. Unjust commitments might result because as yet psychiatrists and neurologists are not able to define who is or is not a sexually psychopathic person.

For the reasons stated, Senate Bill No. 169 is vetoed.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 173

March 17, 1945.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington, at the next session of the Legislature, without my approval, Senate Bill No. 173, entitled:

“An Act Providing for the levy of assessments on capital stock of certain corporations and for the sale of such stock for nonpayment of delinquent assessments, and amending sections 14 and 16, chapter 185, Laws of 1933 (sections 3803-14 and 3803-16, Remington's Revised Statutes), and adding thereto a new section.”

The new amendments embraced in the bill would allow corporations to levy assessments on fully paid stock. If the stock owner did not or could not pay the assessment, his stock would be sold by the corporation.

The Uniform Business Corporations Act presently forbids assessments. I do not believe the change is in the interest of the public.

For this reason, I am forced to veto Senate Bill No. 173.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 179

March 16, 1945.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 179, entitled:

“An Act Relating to the formation of cemetery districts; prescribing procedure therefor; defining the powers and duties of such districts and their governing officers; prescribing powers and duties of certain county officers in relation thereto, and authorizing the levy of taxes.”

In my opinion this bill, although commendable in purpose, will place an undue tax burden upon the districts which are created. There would also be a duplication of services.

For these reasons, I have vetoed Senate Bill No. 179.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 206

March 20, 1945.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislature, without my approval, Senate Bill No. 206, entitled:

“An Act Relating to extra-hazardous employments and to the compensation and remedies of workmen injured therein, and of their dependents and beneficiaries in case of death; amending section 2, chapter 74, Laws of 1911, as last amended by section 1, chapter 210, Laws of 1943 (7674 Rem. Supp. 1943); and declaring an emergency.”

The bill would amend the Workmen's Compensation Act by including new classes of employees. While the objectives of the bill are highly meritorious, I am advised that one hundred additional employees would be required to properly administer the new provisions.

Due to manpower shortage, a great many of the state departments are already understaffed. Because of the difficulty in obtaining new personnel, there is serious doubt that qualified personnel could be obtained.

Substitute House Bill No. 550, the supplemental budget bill, appropriates the sum of \$630,000 from the Accident Fund to the Department of Labor and Industries for salaries, wages and operations for the administration of the new classes included. This fund has been in existence for many years for the purpose of paying claims and awards to injured workmen, and its source is from premiums paid by employers whose employees are now engaged in extra-hazardous occupations. The state contributes no money to the fund.

To approve the bill and such supplemental appropriation would mean that the costs of the Department of Labor and Industries incurred in administering the newly included extrahazardous classes of employment would come from and deplete the fund heretofore used only for the payment of claims and awards. There is serious doubt concerning the legality of the appropriation. Apart from that question, however, I believe this appropriation is wrong in principle. Should the appropriation be approved and the court find it to be invalid, the Department of Labor and Industries would be seriously crippled in administering the provisions of the bill.

Efficient administration is essential to the welfare of the employees involved. In my opinion, to approve the bill and the appropriation, in the light of the factors I have mentioned, would be an injustice to such employees, their employers, and the Department of Labor and Industries.

For these reasons, I have vetoed Senate Bill No. 206 in its entirety.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 207

March 19, 1945.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 207, entitled:

"An Act Relating to a firemen's relief and pension system under state supervision; creating a firemen's relief and pension fund and providing for the maintenance and distribution thereof; creating a board of trustees and defining their duties; repealing chapter 50, Laws of 1909, chapter 86, Laws of 1929, and chapter 39, Laws of 1935 (section 9559 to 9578, inclusive, Remington's Revised Statutes), and all other acts or parts of acts in conflict herewith; making an appropriation; and declaring an emergency."

A new Firemen's Relief and Pension System is provided for in the bill. While the responsibility for these municipal employees is primarily local, the bill creates a State Board of Trustees consisting of the Governor, Auditor and Treasurer of the state, which is required to meet monthly to pass upon all claims against the pension fund. A very considerable amount of time would necessarily be consumed. These officers are already members of many other state boards dealing only with state problems and have numerous other duties. The creation of a board of state officers to control and pass on purely local matters is a step that requires reflection. Local control is surrendered to the state. While it may be advisable where the state is constantly contributing large sums, I do not believe it is appropriate in this instance.

There is also a serious conflict of opinion among the firemen as to whether the bill adequately solves their pension problems. The matter is of such importance that it is desirable to have the beneficiaries in substantial agreement. Likewise, the measure impairs existing rights of some of the firemen who have contributed to the existing fund which would be superseded under the terms of the bill.

No one questions that firemen, who give such a great measure of public service in a very hazardous occupation, are entitled to sufficient pensions. I am convinced, however, that before new comprehensive legislation is passed on this subject, a thorough study should be made of the entire subject.

I am confident a new bill can be drafted for consideration at the next session of the Legislature which will satisfy the firemen, the municipalities and the public.

For the reasons mentioned, I have, with great reluctance, vetoed Senate Bill No. 207.

I earnestly urge that all those interested should immediately start drafting proposed legislation which will meet the conditions I have mentioned.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 248

March 19, 1945.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 248, entitled:

"An Act Making an appropriation for a survey for a certain road connecting Secondary State Highway No. 12D with Secondary State Highway No. 1P."

The bill appropriates the sum of \$10,000 from the Motor Vehicle Fund for the purpose of making a survey in order to construct a road from the northeast terminus of Secondary State Highway No. 12D by the most feasible and practical route to connect with Secondary State Highway No. 1P in the vicinity of Ryderwood.

It is my opinion that the survey falls into the category of post-war work. Until the war ends no one can reasonably determine where roads should be located because of post-war shifts in population and the consequent effect upon the flow of traffic.

Due to the war, the Highway Department has not the personnel available to make the survey.

I have, therefore, vetoed Senate Bill No. 248.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Substitute Senate Bill No. 249

March 17, 1945.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislature, without my approval, Substitute Senate Bill No. 249, entitled:

"An Act Making an appropriation of forty thousand dollars to enable the University of Washington and the State College of Washington to maintain courses in practical mining."

This bill makes two appropriations, one for \$20,000 to the University of Washington, and a like sum to the State College of Washington to provide special courses in practical prospecting under the Schools of Mines.

Senate Bill No. 315 appropriates \$18,000 to the University of Washington for the same purpose. There is also an appropriation of \$168,000 to the State College of Washington which includes within it an adequate amount for such special course.

To approve Substitute Senate Bill No. 249 would result in almost doubling the appropriations to each of the schools for the practical prospecting courses. For these reasons, I have vetoed Substitute Senate Bill No. 249.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 285

March 19, 1945.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, for transmission to the Senate of the State of Washington at the next session of the Legislature, without my approval, Senate Bill No. 285, entitled:

"An Act Relating to ferries; authorizing the Director of Highways to operate, or supervise or subsidize the operation of, a ferry system between Bellingham and the San Juan Islands and a ferry system between Sixth Avenue in the City of Tacoma and Fox Island; and making appropriations."

The bill authorizes the Director of Highways to establish and maintain, or operate, or subsidize the operation of, two separate ferry systems.

One ferry system authorized would be between Bellingham and the San Juan Islands. The other ferry system would operate between Tacoma and Fox Island.

Neither of the ferry systems authorized would connect with any state roads on the islands involved, and the bill does not establish the routes traveled by the ferries as public highways.

For the reasons stated, I have vetoed Senate Bill No. 285.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 296

March 16, 1945.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 296, entitled:

"An Act Directing the State College of Washington to make certain investigations and research and providing an appropriation."

At present, research is being made by the Apple Advertising Commission, to find a suitable substitute for fruit containers. The Commission has the funds to make the research and can get assistance from manufacturers.

Likewise, the Legislature has appropriated other sums to Washington State College for research which are ample to attain the objectives of this bill.

For the above reasons, Senate Bill No. 296 is vetoed.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 344

March 19, 1945.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 344, entitled:

“An Act Relating to public highways; creating and establishing, describing and designating additions to the Primary State Highways of the State of Washington; and amending section 3, chapter 207, Laws of 1937, as amended by section 7, chapter 239, Laws of 1943 (section 6402-3, Remington’s Revised Statutes).”

The bill provides for the establishment of a secondary state highway from Bothell to Everett.

Until the war ends, no one can reasonably foresee where roads should be located because the inevitable post war shifts of population will establish new channels of traffic. These roads must then be built as the need develops.

For these reasons, I have vetoed Senate Bill No. 344.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 351

March 19, 1945.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 351, entitled:

“An Act Relating to public highways; establishing a branch of Primary State Highway No. 2 between Waterville, Grand Coulee and Wilbur; and amending section 2, chapter 190, Laws of 1937, as amended by section 1, chapter 5, Laws of 1939 (section 6401-2, Remington’s Revised Statutes).”

The bill would provide a primary state highway from Waterville to Grand Coulee, via Leahy.

Until the war ends, no one can reasonably foresee where roads should be located because the inevitable post war shifts of population will establish new

channels of traffic. These roads must then be built as the need develops.
For these reasons, I have vetoed Senate Bill No. 351.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 352

March 19, 1945.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 352, entitled:

"An Act Relating to public highways; establishing a state highway from the City of Mansfield in Douglas County, westerly to a connection with Secondary State Highway No. 10-D in the vicinity of Chelan Station; and amending section 11, chapter 207, Laws of 1937 (section 6402-11, Remington's Revised Statutes)."

The bill would establish a state highway from Mansfield to a connection with Secondary State Highway No. 10-D near Chelan Station.

Until the war ends, no one can reasonably foresee where roads should be located because the inevitable post war shifts of population will establish new channels of traffic. These roads must then be built as the need develops.

For these reasons, I have vetoed Senate Bill No. 352.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 375

March 19, 1945.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislation, without my approval, Senate Bill No. 375, entitled:

"An Act Relating to public highways; classifying public highways outside incorporated cities and towns; establishing, designating, and describing primary and secondary state highways as branches of primary state highways of this state; defining the powers and duties of certain public officers with respect thereto; providing for application of laws, rules and regulations of vehicles thereof; repealing acts and parts of acts in conflict; and providing for constitutionality; and making an appropriation."

The bill would create a new state primary and secondary road system which would change the existing state roadway plan by adding a number of new roads and eliminating others.

I am of the opinion that upon the cessation of hostilities there will be considerable population changes, and the flow of traffic will be vitally affected. To change the existing highway system now would be premature action which might result in the expenditure of large sums not warranted by the rapidly approaching post war changes.

In addition to creating a new highway plan, the bill makes an appropriation for mine-to-market roads in the amount of \$300,000 to carry out the provisions of Senate Bill No. 320, which the Legislature has passed, and which I have approved. Funds for these vital roads can be provided under Substitute House Bill No. 156 which the Legislature has passed, and which I have approved.

For these reasons, I have vetoed Senate Bill No. 375 in its entirety.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

GOVERNOR'S MESSAGES ON SENATE BILLS, PARTIALLY VETOED

Senate Bill No. 13

March 5, 1945.

To the Honorable

The Senate of the State of Washington.

Ladies and Gentlemen:

I am returning to you without my approval as to Section 2, Senate Bill No. 13, entitled:

“An Act Relating to the acknowledgment of instruments, the attestation of documents, the administration of oaths and affirmations, the execution of depositions and affidavits, and other notarial acts, heretofore or hereafter taken before any commissioned officer of the armed forces of the United States, and providing that such instruments and documents executed by any person who is a member of or actually present with the armed forces of the United States or is outside the United States for certain purposes, shall be legal, valid and binding; providing for the form of the instrument or document and what proof shall be sufficient of the authority of such commissioned officer so to act; repealing chapter 47, Laws of 1943, and declaring an emergency.”

Section 2 specifically repeals chapter 47, Laws of 1943 which law was apparently intended to cover somewhat the same grounds as Senate Bill No. 13. I believe that the repeal of chapter 47, Laws of 1943 might invalidate instruments executed in good faith under the provisions of chapter 47, Laws of 1943.

For these reasons Section 2 is vetoed and the remainder of the bill is approved.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 100

March 19, 1945.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislature, without my approval as to section 3, Senate Bill No. 100, entitled:

"An Act Relating to higher education; authorizing the expansion of the work in light metals and the construction of a foundry and a mining, physical, technological building and fabrication shop at the State College of Washington; and appropriating money therefor."

The first section of the bill authorizes the Regents of the State College of Washington to establish facilities for instruction and research in mining, and in light metals, including magnesium and aluminum. The second section provides an appropriation of \$500,000 therefor. I am thoroughly in accord with these sections of the bill.

Section 3 of the bill appropriates the sum of \$1,250,000 to that college for post war buildings in which to operate industrial research work. In my opinion there is no reason to believe that the money can be expended during the coming biennium, due to the war, shortage of material and labor. Should events develop so that such construction can go forward, funds for the purpose can be made available through Substitute House Bill No. 156, which provides \$70,000,000 for post war work.

For the reasons stated, I have vetoed section 3 of Senate Bill No. 100 and approved the remainder.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 118

March 19, 1945.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to section 2, Senate Bill No. 118, entitled:

"An Act Relating to State highways through incorporated cities and towns; and amending Section 61, Chapter 187, Laws of 1937 (section 6450-61, Remington's Revised Statutes) to provide for expenditures of State funds on such highways; authorizing the construction of a bridge across Port Washington Narrows between Bremerton and the Manette Peninsula; making an appropriation; and declaring an emergency."

The first section of the bill contains amendatory matter which permits the Director of Highways to expend state funds for construction, maintenance

and acquisition of rights of way of streets running through cities and towns which form a part of the route of any primary or secondary state highway. I approve of the objective sought under this section.

The second section would authorize the Director of Highways to construct a bridge across Port Washington Narrows connecting Primary State Highway No. 21 near Bremerton with Secondary State Highway No. 21B on the Manette Peninsula, and requires the bridge to become, and be maintained as, part of the state highway system. The appropriation therefor is \$750,000 to be used with any federal matching funds which may become available in the future. We have no assurance a federal grant will be made for this purpose.

Any necessity for construction of the bridge has been created largely, if not entirely, by war activities established by the United States. Under these circumstances, it is my opinion the federal government should take the lead in this project.

In the event a federal grant is offered later, it is my view that the state should then provide funds of approximately 25% to 30% of the cost of the bridge. I believe this would be a fair proportion of the state's responsibility.

Section 3 of the bill provides that it shall take effect immediately.

For the reasons stated I have vetoed section 2 of Senate Bill No. 118, and approved the remainder.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Substitute Senate Bill No. 183

March 13, 1945.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to section 24, Substitute Senate Bill No. 183, entitled:

“An Act Providing for relief from unemployment, a disability study, and declaring public policy; defining terms; establishing the Office of Unemployment Compensation and Placement; providing for officers and their powers and duties; providing for contributions, funds, claims, the receipt of moneys, reciprocal arrangements, and cooperation with states and governments; accepting provisions of certain Federal enactments; declaring an emergency and fixing the effective date of this act; and repealing certain acts and parts of acts.”

I consider the bill vital to the welfare of our working men and women. However, I am impelled to veto section 24 for the reasons given below.

In considering the term “employment” as used in the act our Supreme Court has quite properly given it a liberal construction. In a series of seven cases the court, in support of the theory of broad social coverage, has held rightly that many individuals come within the scope of the act who would be excluded if “employment” were to be given its restrictive common law meaning.

This liberal interpretation, sustained so long by our Supreme Court, is in accord with modern trends, the intent of national social security legislation, the pronouncements of recent decisions of the United States Supreme Court and other federal and state courts.

A liberal concept of all social legislation is, in my opinion, necessary to our rapidly approaching post war economy and an integral part of the program stressed in my inaugural message.

The present bill is a recodification of the Unemployment Compensation Act in order to clear the act of all language which may have been thought to carry any inference that the common law master and servant relationship was intended by any of its provisions. With this thought in mind section 11 of the bill as originally proposed was amended with my approval and the unanimous action of the Senate and the House of Representatives in order that the term "employment" might be more clearly defined to exclude any possibility of reversion to a common law connotation.

Section 24 of the bill is restrictive. It would exclude three special classes of commission agents. It would seem that if any of those working on a commission basis are to be excluded, then all should be excluded, not merely special classes. It is my opinion that the future will clearly demonstrate that those engaged on a commission basis should be brought within the broad liberal benefits accorded by the act.

For the reasons stated section 24 is vetoed and the remainder of the bill is approved.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 241

March 19, 1945.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to section 9, Senate Bill No. 241, entitled:

"An Act Relating to airports; creating office and fixing the duties of Director of Aeronautics and State Aeronautics Advisory Committee; providing for the acquisition of property for airport purposes and appropriating monies therefor."

The bill provides for a Director of Aeronautics and a State Aeronautics Advisory Committee so that the state may be prepared to act in anticipation of a comprehensive post-war period of aviation development. The objectives of the bill are highly commendable.

I am of the opinion, however, that while the machinery is needed, there is no necessity for the Director and the Advisory Committee to function at the present time. Likewise, there are no available federal matching funds. Furthermore, intrastate air traffic has not yet developed to a point where expenditures would be justified.

For these reasons I am vetoing section 9 of the bill which appropriates the sum of \$200,000.

Should the situation within the state reasonably require the Director and the Advisory Committee to function, money can be made available from other existing funds.

I have, therefore, vetoed section 9 of Senate Bill No. 241 and approved the remainder of the bill.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 315

March 20, 1945.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislature, without my approval of certain items, Senate Bill No. 315, entitled:

"An Act Making appropriations for the payment of salaries of certain officers and employees of the state and for the operation, maintenance and other expenses of certain state institutions, departments and offices, for the purchase, condemnation and improvement of land, the construction of buildings and improvements for the various state institutions designated and mentioned, and for emergencies, and for refunds, and for sundry civil expenses of the state government, and for public assistance, and for purposes specified in certain acts of Congress, and for miscellaneous purposes, for the fiscal biennium beginning April 1, 1945, and ending March 31, 1947, except as otherwise provided, and declaring that this act shall take effect immediately."

I disapprove and veto the items "FOR THE COMMISSIONER OF PUBLIC LANDS: Salaries and Wages \$253,512.00; Operations \$76,319.10; Total \$329,831.10" for the reason that with the approval of Senate Bill No. 289 these appropriations will not be necessary, and the supplemental appropriations act includes appropriations totaling \$202,175.00 for carrying out the duties of the Commissioner of Public Lands.

I disapprove and veto the item "FOR THE CODE REVISION AND RE-COMPILATION COMMITTEE: Salaries, Wages and Operations \$36,000.00" for the reason that House Bill No. 276, already approved, includes an appropriation for this purpose.

I disapprove and veto the items "FOR THE BOARD OF STATE LAND COMMISSIONERS: Salaries and Wages \$49,680.00; Operations \$22,527.00; Total \$72,207.00" for the reason that with the approval of Senate Bill No. 289 these appropriations will be unnecessary.

I disapprove and veto the items "FOR THE STATE CAPITOL COMMITTEE: Salaries and Wages \$29,160.00; Operations \$10,867.50; Total \$40,027.50" for the reason that with the approval of Senate Bill No. 289 these appropriations will be unnecessary.

I disapprove and veto the items "FOR THE STATE FOREST BOARD: Salaries and Wages \$30,276.00; Operations \$12,600.00; Total \$42,876.00" for the reason that with the approval of Senate Bill No. 289 these appropriations will be unnecessary.

I disapprove and veto the item "Rodent Control: Salaries, Wages and Operations \$30,960.00" for the reason that there is no need for a separate appropriation for this purpose. This work can be performed under appropriations otherwise provided for the Department of Health.

I disapprove and veto the item "FROM THE GENERAL FUND. Arboretum Capital Outlays and Major Repairs \$31,500.00" for the reason that sufficient funds have been provided for the University of Washington to carry on the work of the Arboretum during the coming biennium.

With the exception of the foregoing items which are vetoed, the remainder of Senate Bill No. 315 is approved.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Substitute Senate Bill No. 368

March 20, 1945.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislature, without my approval of certain items, Substitute Senate Bill No. 368, entitled:

"An Act Making appropriations for the payment of salaries of certain officers and employees of the state and for the operation, maintenance and other expenses of certain state institutions, departments and offices, for the purchase, condemnation and improvement of land, for the purchase and/or construction of buildings and improvements for the various state institutions designated and mentioned, designating certain projects when authorized by law, and for miscellaneous purposes for the fiscal biennium beginning April 1, 1945, and ending March 31, 1947, except as otherwise provided."

I disapprove and veto the item "Operations \$5,000.00" for the reason that sufficient funds have been provided elsewhere for the operation of the Division of Parole, Transportation and Deportation.

I disapprove and veto the item "FOR THE DEPARTMENT OF GAME: For the purpose of constructing a fish hatchery on the Dungeness River in Clallam County to artificially propagate game fish \$100,000.00" for the reason that other appropriations to the Department of Game for capital outlay purposes are sufficient to carry out the necessary construction program of this department.

I disapprove and veto the item "FROM THE UNIVERSITY OF WASHINGTON FUND. FOR THE UNIVERSITY OF WASHINGTON: Salaries,

Wages and Operations \$364,130.00" for the reason that sufficient appropriations have been made elsewhere for carrying on the operations of the University of Washington.

I disapprove and veto the item "FOR THE UNIVERSITY OF WASHINGTON: For Capital Outlays, Major Repairs and Betterments: Construction of new music building \$600,000.00" for the reason that appropriations made elsewhere for construction of new buildings are sufficient to carry out the building needs of the University of Washington.

With the exception of the foregoing items which are vetoed, the remainder of Substitute Senate Bill No. 368 is approved.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.
