The Acting Secretary called the roll, all members being present.

The newly elected members of the Senate were sworn in by Joseph A. Mallery, Chief Justice of the Supreme Court of the State of Washington.

The President requested the Sergeant-at-Arms to escort Chief Justice Mallery to the President's Chambers.

**MOTION**

Senator Wall moved that the following rules be adopted as the Senate rules for this session.

The Secretary read:

**RULES OF THE SENATE**

Rule 1. The president shall call the senate to order each day of sitting at 10 o'clock a. m., unless the senate shall have adjourned to some other hour.
QUORUM

Rule 2. A majority of all members elected to the senate shall be necessary to constitute a quorum to do business: Provided, That less than a quorum may adjourn from day to day until a quorum can be had.

DUTIES OF THE PRESIDENT

Rule 3. The president shall take the chair and call the senate to order precisely at the hour appointed for meeting, and, if a quorum be present, shall cause the journal of the preceding day to be read. He shall preserve order and decorum, and in case of any disturbance or disorderly conduct within the chamber, shall order the sergeant-at-arms to suppress the same, and may order the arrest of any person creating any disturbance within the senate chamber. He may speak to points of order in preference to members, arising from his seat for that purpose, and shall decide all questions of order without debate, subject to an appeal to the senate by any three members, on which appeal no member shall speak more than once without leave of the senate. He shall have charge of and see that all officers, attaches and clerks perform their respective duties, and shall, in open session, sign all acts, addresses and joint resolutions. He shall sign all writs, warrants and subpoenas issued by order of the senate, all of which shall be attested by the secretary. He shall have general control of the senate chamber and lobby, and have the right to name any senator to perform the duties of the chair, but such substitution shall not extend beyond an adjournment, nor authorize the senator so substituted to sign any document requiring the signature of the president.

PRESIDENT PRO TEMPORE

Rule 4. Upon the organization of the senate the members shall select one of their number as president pro tempore, who shall have all the power and authority, and who shall discharge all the duties of the lieutenant-governor, acting as president during his absence or inability to discharge the duties of his office.

In the event that the lieutenant-governor is acting as governor the senate shall also elect one of its members temporary president, who in the absence or disability of the president elected by the senate, shall have all the power and authority and who shall discharge the duties of such president.

Rule 8. The several committees shall fully consider all measures referred to them, and the Committee on Claims and Auditing shall carefully consider all items of expenditure ordered or contracted on the part of the senate or any of its employees, and report upon the same prior to the voucher being signed by the president and secretary of the senate authorizing the payment thereof.

The committees shall acquaint themselves with the interest of the state specially represented by the committee, and from time to time present such bills and reports as in their judgment will advance the interests and promote the welfare of the people of the state.

The Committee on Rules and Joint Rules shall have charge of the daily calendar of the senate and shall direct the secretary the order in which the business of the senate shall be transacted: Provided, however, That by a vote of the majority of the senate any bills may be advanced to any place on the calendar, and any bill may be withdrawn from the committee by a like majority of the senate and placed upon the calendar in such position as may be ordered. No committee shall sit during the daily session of the senate unless by special leave.

COMMITTEE REPORTS

Rule 9. All reports of committees shall be signed by such members thereof as concur therein, and the report, with the names of the signers thereof, shall be read by the secretary, or at the secretary's desk by the member making the report, without a motion, unless the reading be dispensed with by the senate. The members of the committee not concurring in the majority report may prepare a written minority report, sign and present the same to the senate, and both majority and minority reports shall in all cases be spread in full upon the journal.

In all cases where a bill is reported back with proposed amendment, the bill and report shall go to general file without action on the report, unless by a suspension of this rule by two-thirds vote the senate shall otherwise order. The secretary shall appoint, subject to the approval of the senate, all other senate employees; and the hours of duty and assignments of all senate employees shall be under his directions and instructions, and they may be dismissed by him at his discretion.

COMMITTEE OF THE WHOLE

Rule 11. The body of the bill shall not be defaced or interlined, but all amendments (noting the page and line) shall be duly entered by the secretary on a separate paper as the same shall be agreed to by the committee, and so reported to the senate for action.

RULES IN THE COMMITTEE OF THE WHOLE

Rule 12. The rules of the senate shall apply to proceedings in committee of the whole, except that the previous question shall not be ordered nor the ayes and nays demanded, but the committee may limit the number of times that any member may speak at any stage of the proceedings during its sitting.

MESSAGES RECEIVED

Rule 13. Messages may be received by the president while the committee of the whole is sitting; in which case the president shall resume the chair; receive the message, and vacate the chair, in favor of the chairman of the committee.

Rule 20. Every bill shall receive three readings previous to its passage. The president shall give notice at each, whether it be the first, second or third readings. The first and second readings may, by consent of the majority of the senate, be on the same day, and may be by title only. The third reading of every bill shall be by sections and upon its final passage, the vote must be taken by yeas and nays, the names of the senator's voting for and against the same to be entered upon the journal, and the majority of the members elected to the senate must be recorded thereon as voting in its favor to secure its passage by the senate.

Rule 27. After the final vote on any resolution or bill, before the adjournment of that day's session, and at such time only, any member who voted with the prevailing side may give notice of reconsideration. Such motion to reconsider shall be in order only under the order of motions of the day immediately following the day upon which such notice of reconsideration is given, and may be made by any member who voted with the prevailing side.

A motion to reconsider shall have precedence over every other motion, except a motion to adjourn; and when the senate adjourns while a motion to reconsider is pending or before passing the order of motions, the right to move a reconsideration shall continue to the next day of sitting. Rule 46. If any senator in speaking, or otherwise, transgresses the rules of the senate, the president shall, or any senator may, call him to order, and when a senator shall be so called to order he shall resume his seat and not proceed without leave of the senate, which leave, if granted, shall be upon motion "that he be allowed to proceed in order," when, if carried, he shall confine himself to the question under consideration.

POINTS OF ORDER

Rule 47. Every decision of points of order by the president shall be subject to appeal, and no discussion of a question of order shall be allowed except on appeal of three senators, and in all cases of appeal the question shall be, "Shall the decision of the chair stand as the judgment of the senate?"

BREACH OF DECORUM

Rule 48. In cases of breach of decorum or propriety, any senator, officer or other person shall be liable to such censure or punishment as the senate may deem proper, and if any senator be called to order for offensive or indecorous language or conduct, the person calling him to order shall report the language excepted to which shall be taken down or noted at the secretary's desk, and no member shall be held to answer for any language used upon the floor of the senate if business has intervened before exception to the language was thus taken and noted.

RECOGNITION BY THE PRESIDENT

Rule 49. When two or more senators rise at the same time to address the chair, the president shall name the one who shall speak first, giving preference, when practicable, to the mover or introducer of the subject under consideration.

OPENING AND CLOSING DEBATE

Rule 50. The author of a bill, motion or resolution shall have the privilege of opening and closing debate upon the same, unless the previous question has been moved and sustained.

Rule 51. Any senator or senators may protest against the action of the senate upon any question, and have such protest entered upon the journal.

QUESTION OF PRIVILEGE

CALL OF THE SENATE

Rule 54. A call of the senate may be moved by three senators, whose names shall be entered upon the journal, and if carried by a majority of all present the secretary shall call the roll and note the absentees, after which the names of the absentees shall again be called. The doors shall then be closed and the sergeant-at-arms directed to take into custody all who may be absent without leave, and all the senators so taken into custody shall be presented at the bar of the senate for such action as the senate may deem proper.

ABSENCE DURING ROLL CALL

except when within the bar of the senate, or upon any question in which he is in any way personally or directly interested, or be allowed to explain his vote or discuss the question while the yeas and nays are being called, or change his vote after the result has been announced.

ANNOUNCEMENT OF VOTE
Rule 57. The announcement of all votes shall be made by the president, and the announcement of the result of any vote shall not be postponed.

WITNESSES BEFORE THE SENATE

MESSAGE FROM THE GOVERNOR

State of Washington, Executive Department,
March 19, 1945.

To the Honorable, The Senate of the State of Washington:
(Through the Secretary of State)

LADIES AND GENTLEMEN:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to Section 2, Senate Bill No. 118, entitled:

"An Act relating to State highways through incorporated cities and towns; and amending Section 61, Chapter 187, Laws of 1937 (Section 6450-61, Remington's Revised Statutes) to provide for expenditures of State funds on such highways; authorizing the construction of a bridge across Port Washington Narrows between Bremerton and the Manette Peninsula; making an appropriation; and declaring an emergency."
The first section of the bill contains amendatory matter which permits the Director of Highways to expend state funds for construction, maintenance and acquisition of rights of way of streets running through cities and towns which form a part of the route of any primary or secondary state highway. I approve of the objective sought under this section.

The second section would authorize the Director of Highways to construct a bridge across Port Washington Narrows connecting Primary State Highway No. 21 near Bremerton with Secondary State Highway No. 21B on the Manette Peninsula, and requires the bridge to become, and be maintained as, part of the state highway system. The appropriation therefor is $750,000 to be used with any federal matching funds which may become available in the future. We have no assurance a federal grant will be made for this purpose.

Any necessity for construction of the bridge has been created largely, if not entirely, by war activities established by the United States. Under these circumstances, it is my opinion the federal government should take the lead in this project.

In the event a federal grant is offered later, it is my view that the state should then provide funds of approximately 25% to 30% of the cost of the bridge. I believe this would be a fair proportion of the state's responsibility.

Section 3 of the bill provides that it shall take effect immediately.

For the reasons stated I have vetoed Section 2 of Senate Bill No. 118, and approved the remainder.

Respectfully submitted,

MoN C. WALLGREN, Governor.

The Secretary read:

MESSAGE FROM THE GOVERNOR
State of Washington, Executive Department,
March 13, 1945.

To the Honorable, The Senate of the State of Washington:
(Through the Secretary of State)

LADIES AND GENTLEMEN:
I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval as to section 24, Substitute Senate Bill No. 183, entitled:

"An Act providing for relief from unemployment, a disability study, and declaring public policy; defining terms; establishing the office of Unemployment Compensation and Placement; providing for officers and their powers and duties; providing for contributions, funds, claims, the receipt of moneys, reciprocal arrangements, and cooperation with states and governments; accepting provisions of certain Federal enactments; declaring an emergency and fixing the effective date of this act; and repealing certain acts and parts of acts."

I consider the bill vital to the welfare of our working men and women. However, I am impelled to veto section 24 for the reasons given below.

In considering the term "employment" as used in the act our Supreme Court has quite properly given it a liberal construction. In a series of seven cases the court, in support of the theory of broad social coverage, has held rightly that many individuals come within the scope of the act who would be excluded if "employment" were to be given its restrictive common law meaning.

This liberal interpretation, sustained so long by our Supreme Court, is in accord with modern trends, the intent of national social security legislation, the pronouncements of recent decisions of the United States Supreme Court and other federal and state courts.

A liberal concept of all social legislation is, in my opinion, necessary to our rapidly approaching postwar economy and an integral part of the program stressed in my inaugural message.

The present bill is a recodification of the Unemployment Compensation Act in order to clear the act of all language which may have been thought to carry any inference that the common law master and servant relationship was intended by any of its provisions. With this thought in mind section 11 of the bill as originally proposed was amended with my approval and the unanimous action of the Senate and the House of Representatives in order that the term "employment" might be more clearly defined to exclude any possibility of reversion to a common law connotation.

Section 24 of the Bill is restrictive. It would exclude three special classes of commission agents. It would seem that if any of those working on a commission basis are to be excluded, then all should be excluded, not merely special classes. It is my opinion that the future will clearly demonstrate that those engaged on a commission basis should be brought within the broad liberal benefits accorded by the act.

For the reasons stated section 24 is vetoed and the remainder of the bill is approved.

Respectfully submitted,
MON C. WALLGREN, GOVERNOR.

Senator Zednick moved that section 24 of Substitute Senate Bill No. 183 of the 1945 session of the legislature be passed notwithstanding the veto of the Governor.

Senator Dixon requested that the Secretary read Section 24.

The Secretary read.

Remarks were made by Senator Orndorff in favor of the bill.
Senator Beck inquired whether or not there is a rule of the Senate that anyone having any interest in a bill must declare it and that he cannot vote if such interest be shown.

The President announced that the Senate has such a rule.

Senator Beck stated that there is one person and maybe two or three more that he thought were interested and that in all fairness and parliamentary procedure he thought they should declare themselves not able to vote.

Senator Orndorff stated that for the information of the Senator, he would say that he did not work on a commission basis.

Senator Lee announced that he had no interest in the bill whatever.

The President announced that the question before the Senate is, shall Section 24 of Senate Bill No. 183 (Twenty-Ninth Legislature) be passed and become law notwithstanding the veto of the Governor.

The bill is on final passage.

The Secretary called the roll on the passage of Section 24 of Senate Bill No. 183 of the 1945 legislative session over the veto of the Governor, and the motion of Senator Zednick carried by the following vote: Yeas, 33; nays, 12; absent or not voting, 1.

MESSAGE FROM THE GOVERNOR
State of Washington, Executive Department,
March 16, 1945.

To the Honorable, The Senate of the State of Washington:
(Through the Secretary of State)

LADIES AND GENTLEMEN:
I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 179, entitled:

"An Act relating to the formation of cemetery districts; prescribing procedure therefor; defining the powers and duties of such districts and their governing officers; prescribing powers and duties of certain county officers in relation thereto, and authorizing the levy of taxes."

In my opinion this bill, although commendable in purpose, will place an undue tax burden upon the districts which are created. There would also be a duplication of services.

For these reasons, I have vetoed Senate Bill No. 179.

Respectfully submitted,
MON C. WALLGREN, GOVERNOR.

The task of thoroughly and fairly inquiring into the work of all the various agencies affecting game in the State of Washington is a tremendous one.

The results of all these findings are a part of this report. The report presents a picture of the findings of this committee and the needs of the game department in Washington and merits careful study by all those charged with originating and administering programs relating to game and game fish in the state of Washington.

Respectfully,

Robert F. Waldron, Chairman
Thos. H. Bienz, Secretary
Earl S. Coe
E. J. Flanagan
Robert M. French
Dr. U. S. Ford

Senator Bienz moved that Chapter 3 of the report be read in full.

Senator Zednick announced for the information of the Senators that Chapter 3 of the report carries all of the recommendations, and that the balance is factual.

The President announced, there being no objection, the Secretary would read Chapter 3 of the report.

The Secretary read:

CHAPTER THREE
(Recommended Legislation)

The Committee in making its studies of the game system of the state of Washington feels that in many cases improved types of legislation would be of material benefit to the present management and the following recommended types of legislation have been arrived at after considerable deliberation by all members of the Committee, with particular attention being given to the value which they will have in furthering the game program of the state.

1. New Game Code: It is recommended that a new game code be drafted and enacted by the Legislature and that it be known as the Game Code of the State of Washington; that it do away with irregularities, repetition, and deficiencies existing in the present game code. It is our feeling that this is highly necessary for the reason that the last game code was drafted in the year 1937, and in some cases is based on laws dating back for more than thirty years. In the opinion of the members of the Committee an enactment of a new game code is not only highly desirable but extremely necessary.

2. Proposed License Increase: Members of the Interim Committee have been particularly interested in the reaction of sportsmen throughout the state to the proposal that the fees presently charged on resident county and state hunting and fishing licenses be increased, primarily for the purpose of enabling the State Game Department to embark upon a program of land acquisition which would provide the people of the state with public hunting and fishing areas, right-of-way areas to lakes and streams, as well as providing badly needed game habitat lands upon which the natural propagation of game could be stressed to a considerably greater degree than is possible at the present time. This proposal originated with the Washington State Sports Council and bears the almost unanimous approval of nearly all sports clubs in the state. At meetings held by the Interim Committee there seemed little opposition to such an increase after the purposes and results which could be reasonably expected from a program of this nature were explained. It is therefore recommended that legislation be enacted increasing the fees presently charged for a resident county hunting and fishing license from $1.50 to $2.50; that the fee presently charged for a resident state hunting and fishing license be increased from $3.00 to $5.00; that the fee presently charged for a state non-resident fishing license be increased from $5.00 to $7.50; that the fee charged for a county non-resident fishing license be increased from $3.00 to $5.00, or as an alternative, that the county non-resident fishing license be abolished in as much as the state now has a non-resident fishing license sold at a price of $1.50, which entitles a non-resident to ten days continuous fishing; and that the legislation establishing such increases in license fees provide that 20% of all funds received from the sale of resident county and state hunting and fishing licenses be set aside as a land acquisition fund for the purpose of purchasing on a state-wide basis public hunting and fishing areas, access areas and game habitat areas; that such portion of this fund as the Game Commission may deem advisable shall be permitted to be used for the development of such lands for recreational and game purposes.

3. Land Acquisition Program: It is recommended that legislation be enacted enabling the Game Department to enter into such a land acquisition program for the purpose of acquiring public hunting and fishing areas, access areas and game habitat areas and for the development of these areas, it being the understanding of the Committee that under existing laws the Game Department does not have such powers even though funds were made available to them.

It has been recommended by sportsmen that such legislation be passed requiring the State Game Department to pay taxes upon such lands with the exception of game bird farms and fish hatcheries in the amount of 5¢ per acre; that 3¢ of the recommended 5¢ amount shall be paid to the county treasurer of the county in which the land is located and that 2¢ be paid to the state school fund. It is believed that this is only
just and equitable and that game lands should pay their fair share of the tax burden. Members of the Committee are not convinced that taxes of this nature would be wise.

4. Skagit Flat Area: It is recommended that legislation be enacted which will enable the State Game Department to purchase lands, suitable as a water-fowl refuge in an area to be agreed upon by representatives of the Game Commission and representatives of the U. S. Fish and Wildlife Service, and to thereafter exchange these lands on a dollar for dollar basis for the lands presently owned by the U. S. Fish and Wildlife Service in the Skagit Flat area of Skagit county. The Skagit Flat would thereafter be held a public shooting grounds and be developed as such. It is recommended that an appropriation of $60,000 be made from the State Game Fund to carry out this transaction.

5. State Leased Lands: It is recommended that legislation be enacted which would provide that all future leases of state-owned lands for grazing or other purposes, carry a provision requiring such lands to be made available to the public for purposes of hunting and fishing, unless the area is closed to public entry because of fire hazard. It has been brought out at a number of meetings that the state now leases large tracts of lands to private individuals primarily for grazing purposes and that in some cases such lands have been held as almost private hunting clubs by individuals holding these leases. Inasmuch as these lands are the property of the people of the state as a whole and inasmuch as they are leased only for a specific purpose, it is believed just and equitable that they should be made available to the general public for purposes of hunting and fishing.

6. Lake Crescent Hatchery Transfer: The State Game Department is the owner of the Lake Crescent hatchery, an old type trout hatchery located on Lake Crescent in Clallam county. This hatchery is now within the boundaries of the Olympic National Park. It is recommended that legislation be enacted which would permit the Director of Game to transfer this hatchery at no charge, or at the most, a charge of $1.00, to the National Park Service and that such transfer require that the National Park Service operate the Lake Crescent hatchery as a trout hatchery for the purpose of stocking the lakes and streams within the Olympic National Park. Inasmuch as this hatchery is of no value to the State Game Department in its present location and could conceivably be of some value in restocking the waters of the Olympic National Park, which would be of direct benefit to the people of the state as a whole, it is deemed that legislation of this type would serve the public interest of the people of the state.

7. Local Irrigation Assessments: It is recommended that legislation be enacted providing that all claims for payment of local assessments be submitted to the office of the Commissioner of Public Lands and that after he has determined that such claims are just claims against the state, that he be authorized to make payment on or before the first day of every calendar year.

Section 8129 of Remington's Revised Statutes presently specifies that irrigation and drainage and other local assessments for which the state is liable can only be paid by legislative action every two years. The laws governing most irrigation and drainage districts either specify that the annual charges will be pro-rated and made payable in advance of the delivery of service, or in the alternative, shall be paid annually, and if not paid at least annually, service will be discontinued. This law has provided a considerable obstacle to the program of the State Game Department and could conceivably, particularly if the Department embarked upon a land acquisition program, cause a serious disruption of the program. The Department in many cases is liable for irrigation and water assessments and charges of a similar nature assessed by local irrigation and drainage districts and because of its inability, under existing laws, to make such payments when due, has at times been seriously threatened with a discontinuance of service.

8. Navigable Lakes and Streams: It is recommended that legislation be enacted stating that the waters of any lakes or streams which were meandered during the original survey are to be considered navigable waters and that the beds of the navigable waters of the state of Washington not now in private ownership shall remain in the ownership of the state for public use. It is generally considered that the beds of lakes and streams meandered at the time of original governmental survey are the property of the state of Washington, however, in several cases it has been judged by the courts that such lakes and streams are non-navigable and the land under the water is the property of the abutting landowner. It is believed that a legislative definition defining what are to be considered navigable waters would be of material assistance in avoiding such situations in the future.

9. State Lands to be Maintained as Game Lands: It is recommended that legislation be enacted providing that the State Land Code be amended so as to specify that upon
the certification of the Director of Game, with the approval of the State Game Commission, that certain described lands now in the ownership of the state are held as state game lands. The Commissioner of Public Lands shall be directed to grant no further leases to private parties on such lands nor shall such lands be sold without the written approval of the Director of Game with the exception of such timber or mineral resources as shall be authorized by the Director of Game. The management of these lands to be transferred to the Department of Game.

Under the Federal Aid and Wildlife Restoration program the State Game Department has purchased approximately 52,000 acres of land to be used as big game winter range. This is divided between the Tucannon winter range in Columbia and Garfield counties, the Sinlahekin winter range in Okanogan county, the Methow winter range in Okanogan county, the Oak Creek winter range in Yakima county, and the antelope range in Kittitas county. Within the boundaries of the first four of these refuges is a varying acreage of state land. Such lands should be managed as game lands and should not be leased or sold as their location within the boundaries of these refuges makes it imperative that they be managed from a game standpoint. In addition, at various points over the state and particularly within the Columbia Basin Project, which promises to be one of the major game areas of the state, there are other pieces of state land which are vitally needed by the State Game Department for the use, protection and management of game resources located thereon. It is believed that certification of any lands such as these would prove invaluable in maintaining good populations of game animals, game birds and game fish within these areas.

10. Director's Salary: It is recommended that legislation be enacted providing that the Director of Game may be paid a salary not in excess of $7,500 per year. Present laws limit the salary of the Director to the sum of $6,000 annually. Salaries paid directors generally throughout the United States are reported to vary from approximately $4,000 to $15,000 per year. It is believed that the salary of $7,500 per year is a fair and equitable salary and commensurate with the duties which the position requires. As an illustration, it is reported that the Director of the California Fish and Game Commission presently receives a salary of $8,500 per year.

11. Retirement Fund: It is recommended that legislation be enacted providing for a retirement system for employees of the State Game Department. It is desirable that the state attract to the Game Department the highest type of personnel obtainable and it would appear that the Washington Game Department is particularly favored in this respect, numbering approximately 50 college graduates in game and fisheries work among its personnel. The average length of service of employees in the Department is considerably more than 10 years and in some instances, runs in excess of 30 years. Salaries paid these men have never been large. It is, therefore, believed that much could be gained from adopting a retirement system which would assure these people security in years to come.

12. Game Damage Claims: It is recommended that the Legislature discourage the payment of game damage claims; that in its stead there be substituted a broadened and enlarged program of game damage prevention revolving around a system of fencing, controlled seasons, and the issuance of special permits to kill depredating deer and elk. It is believed by the members of the Committee that the system of game damage payments is not wise and that it can be compared to a snowball which constantly grows larger and provides no permanent solution to the problem. Very few states have adopted such a system and generally, those which have adopted them have found them to be an excessive and troublesome burden. It is further believed in regard to payment of game damage claims that Section 2, Chapter 237, Session Laws 1943, should be amended to provide that upon written notice by the Game Department, a person presenting a damage claim must comply with the terms of notice to enter into a fencing contract or he shall be barred from collecting any future damage claims.

13. Management of Game Lands: It is recommended that legislation be enacted amending and modifying existing laws and enabling the Game Commission to purchase, sell and manage game lands, hatchery sites, game farm sites, and public hunting and fishing areas. Management, purchase and sale of this type are now in conflict with existing state laws, particularly with reference to the powers of the State Land Commission. It is believed that the Game Department, inasmuch as it operates on its own monies and sets up a separate and distinct type of program, should be permitted to handle matters of this type.

14. Department Offices: It is recommended that legislation be enacted repealing the law passed during the 1945 session of the Legislature requiring that the central
office of the State Game Department be maintained at Olympia and that the Game, Commission be permitted to establish offices where it sees fit.

15. Acquire Headquarters Building: It is recommended that an appropriation be made from the State Game Funds which would permit the State Game Department to purchase or construct a suitable headquarters building. Such building should contain not only the general offices of the State Game Department, but also provide for adequate types of storage facilities, warehouse facilities and garage facilities. It is believed by members of the Committee that the amount of money now being paid by the Game Department for rentals of all types, which includes warehouse facilities, storage and office facilities in the city of Seattle, exceeds $1,500 per month and that such a building could easily pay for itself and would not only be economical but would provide a considerably greater degree of efficiency than now exists. The state of Oregon has located such a building in the city of Portland and it has proven to be very satisfactory.

The President announced that the report would be received and referred to the Committee on Game and Game Fish.

Senator Bienz explained to the Senate the purpose of the proposed game bill contained in the report of the Select Committee.

Senator Copeland assumed the chair.

The Secretary read:

MESSAGE FROM THE HOUSE
House of Representatives,
Mr. President:
The House has passed House Bill No. 77 (twenty-ninth Legislature) notwithstanding the veto of the Governor, and the same is herewith transmitted.

S. R. Holcomb, Chief Clerk.

Senator Zednick suggested that the veto message of the Governor be read.

The Secretary read:

MESSAGE FROM THE GOVERNOR
State of Washington, Executive Department,
March 19, 1947.
To the Honorable, The House of Representatives of the
State of Washington.
(Through the Secretary of State)
LADIES AND GENTLEMEN:
I am filing herewith, to be transmitted to the House of Representatives of the State of Washington at the next session of the Legislature, without my approval, House Bill No. 77, entitled:

"An Act relating to the Assignment of Accounts Receivable without requiring notice to the debtors thereon, providing for the filing of notice of assignment, and prescribing the rights of parties with respect to such assignments."

The bill would set up detailed regulations concerning the assignment of accounts receivable, and has features which I believe are undesirable at this time. Approval of the bill would require added clerical personnel in the office of the Secretary of State, which would be difficult to obtain under present conditions.

For these reasons, I have vetoed House Bill No. 77.

Respectfully submitted,
MON C. WALLGREN, Governor.

Senator Zednick moved that House Bill No. 77 (Twenty-ninth Legislature) be passed, notwithstanding the veto of the Governor.

The President announced that the question before the Senate is on the motion of Senator Zednick that House Bill No. 77 be passed, notwithstanding the veto of the Governor.

REPORT OF SELECT COMMITTEES

The report of the Washington State Senate Interim Committee on Agriculture consisting of a summary of the agricultural industry of the state and of publicly supported institutions affecting that industry, together with recommendations for changes and a longtime development, was submitted for the consideration of the Senate.

Senator Roup, on behalf of his committee, spoke concerning the report, and moved that the recommendations contained in the report from pages 63 to 69 be read.
The President announced, there being no objection, the Secretary would read.

The Secretary read:

**RECOMMENDATIONS**

Washington always has been an agricultural state. Recent years have seen an increase in industrialization and this trend will probably continue. However, it will be many years before industry in Washington can take over the basic position now held by agriculture.

The 1945 figures show that the value of the 25 leading farm crops in the state that year was $477,697,000. This actual dollar value would be far higher if the value of all businesses dependent on agriculture for success could be added. It is estimated that within the next few years more than $50,000,000 yearly will be added to the value of farm products in the state through the Columbia Basin development.

This tremendous agricultural value makes it imperative that any legislative actions be taken with their effect on agriculture in mind. Continued and increased support of state institutions contributing to the welfare of the farm and farm family is a primary obligation of the legislature.

The Senate Interim Agriculture Committee has the following recommendations to make to the legislature on the basis of its study and the facts presented in this report:

1. This committee was established by the legislature to investigate carefully those agencies and institutions of the state, supported by state funds and dealing with agriculture, including the State College of Washington and the State Department of Agriculture.

   The committee recognizes that the present system has been developed along three major lines—regulation; research; and education and information. The committee recommends that in developing the long-time program for agricultural service to the people of the state, these three lines be carefully followed to avoid duplication of effort and consequent loss of efficiency. Any tendency of any particular agency or institution to move out of its defined field should be carefully checked in the interests of the general welfare. The State Department of Agriculture was established to handle regulation and enforcement; the Experiment Stations of the State College have been designated to handle all agricultural research; the College of Agriculture for training of young men and women; and the Extension Service of the State College assigned the field of handling informational service for both the College and the U. S. Department of Agriculture.

2. The inspection services and regulatory functions of the State Department of Agriculture provide a safeguard in many ways, not only to farmers but to all citizens of the state. The full efficiency of these services is being hampered by lack of proper and sufficient personnel and equipment. These services need to be expanded in certain fields and additional equipment provided.

   The present laws and regulations on tuberculosis, Brucellosis, and mastitis control in dairy cattle should be continued with additional funds for increased inspection service and indemnity payments. Additional work is also needed in other livestock and poultry disease control fields.

3. It appears that the present laws for milk inspection adequately provide for the State Department of Agriculture to handle this work. The State Department of Agriculture should act under these laws to coordinate and integrate inspection work to eliminate present duplication. The State Department of Agriculture should be recognized as the agency primarily concerned with this problem and the inspection service should be uniform throughout the state without the necessity for duplicate inspections by various cities and other groups.

4. Weeds are one of the most serious problems facing agriculture in the State of Washington. In the irrigated areas this is the most serious problem facing farmers at the present time. If conditions continue as at present, the success of the Columbia Basin Irrigation program may well be threatened by the weed problem. There are few serious perennial noxious weeds in the Columbia Basin area at present, but experience shows that when irrigator water is applied to the land without adequate precautions, the land will become heavily infested within a relatively short period of time.

   In the non-irrigated eastern part of Washington, the weed problem is second only to soil erosion as a source of loss to agriculture. In parts of this area, such as in the southeastern counties of the state and in the northern counties, the loss from weeds far exceeds that from any other source and in certain parts of the area it is probably
greater than all other losses combined. This loss is so great in this area as to force abandonment of farm lands in years of normal or sub-normal prices.

Present weed district and weed extermination area laws appear adequate with certain minor changes in wording for clarification. The great need in this field is for more education, more information, and stricter enforcement.

The State Director of Agriculture should increase his efforts to employ a competent weed supervisor to devote full time to this work. This State Supervisor should become thoroughly acquainted with all weed problems of the state, promote the formation of new districts, coordinate the activities of all districts, and work closely with the State College in informational programs.

Weed Specialists should be employed by the Extension Service of the State College of Washington to work in connection with the Extension Agronomist and the State Weed Supervisor in developing educational work on weed control.

Noxious weed tolerances in pure seed laws should be kept to an absolute minimum. The primary responsibility for making available pure seed without noxious weed seed pollution rests on farm cooperatives. It is hoped that this problem can be handled through the seed organizations, in cooperation with the State Department of Agriculture and the State College, without the necessity of further legislation.

Each state department which owns land should budget funds to control noxious weeds on these lands. The State Department of Agriculture should be given authority to prescribe weed control measures for all state-owned lands.

Funds should be provided for a full-time man in weed research at each of the Branch Experiment Stations of the State College and at the Main Station in Pullman. This expanded research program should include increased work on growth habits of weeds and investigation of all control measures.

Additional courses in weeds and weed control should be offered by the College of Agriculture of the State College of Washington.

Funds should be provided from state sources to pay a part of the salary of the county weed district supervisors to allow for greater coordination and control of the work throughout the state. This work should be supervised by the State Department of Agriculture.

This committee believes a reasonably longtime state weed program should be developed and suggests a five year period. The committee believes that the basis of any program in the next five years must be research, education, and the setting up of a weed district in each county. To start out at this time with a program that would put people in jail for not controlling weeds, levy fines on them, etc., would be unsound, impracticable, and would retard rather than advance effective weed control. Any effective program must be based on the cooperation of the people of the state.

5. The problem of soil conservation is becoming increasingly serious throughout the state.

The present Soil Conservation District Law appears adequate with a few minor changes and clarification of wording. The 37 districts now in operation in the state should be encouraged in every way to develop a longtime program and given all possible aid in carrying it out.

Certain changes in the state law may be needed to permit organized Soil Conservation Districts to obtain the use of county-owned machinery where essentially needed in their operations.

6. The Board of Regents of the State College of Washington is to be commended on the establishment of the Institute of Agricultural Sciences at that institution. This Institute brings together all various parts of the College affecting agriculture into one unit for the purposes of administration and coordination. This centralization results in decreasing duplication and using all funds and personnel to the best advantage.

7. The State College of Washington is at the present time undergoing a period of expansion unprecedented in its recent history. This expansion makes it necessary for the College to have additional new buildings, additional equipment, and increases in both size and quality of faculty. A definite plan for this expansion has been developed by the Board of Regents. A copy of the proposed physical expansion of the college campus is a part of this report. It is recommended that this planned program be followed and supported by the legislature.

8. The College of Agriculture at the State College appears to be understaffed and to lack adequate equipment and buildings to meet present conditions. Careful consideration should be given to the requests of this division for funds to enlarge its facilities to offer agricultural education to the boys and girls of the state as an important step toward solving problems of the future.
9. The present system of agricultural experiment stations of the State College appears adequate from the point of geographical location and number to serve the state at present. Any request for additional new stations should be referred to the Board of Regents for careful study.

It is recommended that additional land be secured for the Main Station at Pullman and for the Western Washington Experiment Station at Puyallup, and that the building and staff of these stations be expanded to permit them to deal with the problems of the state. Certain expansions in facilities at the Irrigation Branch Station at Prosser and the Tree Fruit Branch Station at Wenatchee are also needed.

10. Recent increases in the staff of the Agricultural Extension Service of the State College have enabled it to more adequately serve farm families of the state. Additional personnel is needed, however, in both county and home agents and in members of the subject matter specialist staff.

This expansion, to date, has been largely made possible through Federal funds and county support. Boards of County Commissioners throughout the state are to be commended for the support they have given the Extension Service in their areas. It is recommended that the state assume its share of the load by supplying funds to at least equal the Federal appropriations allocated to this state for Extension Service work.

11. The work of the Dairy Products Commission and the Apple Advertising Commission has been effective in promoting the use of these products and in obtaining needed research on problems affecting the industries. It is recommended that other agricultural industries seriously consider the organization of similar commissions to carry on their work of advertising and research. These activities should be carried on in cooperation with existing state agencies.

12. The work of the Soil Conservation Service, the Production Marketing Administration, the Forest Service, and other Federal agencies in the state, has been effective in achieving results in governmental programs.

13. The State Department of Vocational Education is filling a definite need in its agricultural training program through the high schools of the state. It is recommended that this program be expanded so that more farm boys may have the benefit of this class-room training.

14. The work of the Bureau of Entomology and Plant Quarantine in cooperation with the State College and the State Department of Agriculture has been effective and valuable in controlling the outbreaks of pear psylla and wheat stem rust. Funds for this work should be continued as long as needed. Other similar outbreaks are certain to occur in the future and should be dealt with promptly.

15. The state's brand inspection laws need strengthening to make enforcement more efficient and prevent movement of diseased or quarantined animals into or about the state. The problem of itinerant truckers and effective regulation of this mode of transportation needs careful study and possible legislation.

16. Farmer-owned and operated cooperatives are one of the principal reasons why poultry, turkeys, eggs, dairy products, fruit, berries, and grain from this state are marketed throughout the world. The high quality packs put up by farm cooperatives and the farsighted sales promotion and merchandising programs developed and maintained by these organizations make it possible for many Washington products to be shipped across the continent in competition with nearby production and still return a fair price to the Washington farmer. The legislature should weigh carefully any proposals to amend state laws governing farmer-cooperatives to be sure that nothing is done to weaken this institution which is rendering such valuable economic service to the farmers of this state and to the general public as well.

17. Farm boys and girls over 14 should be permitted to continue to secure, under examination, restricted driver's licenses for farm hauling in their immediate neighborhood and should not be restricted from aiding in planting, cultivating, harvesting, grading, packaging, and marketing farm products by any law or departmental regulation having the effect of law.

18. The high mountains, narrow valleys, and proximity to tidewater of Western Washington renders this area periodically subject to disastrous floods. Drainage problems also exist in every county of this area.

There should be more work on developing practical drainage and flood control programs for these Western Washington affected areas and for other sections of the state where similar conditions exist.

19. The approximate 40,000 farm units in the state, with less than 15 cleared or tillable acres, constitute one of the state's most serious economic and social problems.
It is not possible for many of these farmers to make a satisfactory living on this small acreage. It is recommended that the Agricultural Extension Service of the State College add a number of men to its Western Washington staff to advise these farmers on land clearing, this work to be carried out on those farms whose land classification shows they are capable of satisfactorily supporting agricultural enterprise.

20. Columbia Basin Irrigation Project—During the next several years, the development of the Columbia Basin Project will bring vast new farm wealth to the State of Washington. It is estimated that, when fully developed, the project will add more than 1,000,000 acres of generally fertile land suitable for irrigation to the present irrigated total of 600,000 acres in this state. It is expected to provide 15,000 to 20,000 family-sized farms and numerous part-time farms. The farm population of the project at its full development is expected to reach 100,000 persons with probably another 100,000 non-farm but associated people.

The total income of farmers and businessmen dependent on farm activities is estimated at about $83,000,000 by the Corps of Engineers of the Columbia Basin and minor tributaries. Approximately $51,000,000 of this amount would constitute farmer income with the remainder being the income of local interests other than farming, the income of local manufacturers of farm products, and of local transportation systems, etc. These are pre-war estimates.

Taxable values in excess of a quarter of a billion dollars will be created by the development of the Columbia Basin Project. A Bureau of Reclamation Study indicates that the value of the land, now for the most part waste and appraised at only $10,790,582, will be increased to about $133,000,000 through irrigation. Again, these are pre-war figures.

The new farmers and businessmen on the Columbia Basin Project may be expected to contribute between $1,000,000 and $1,250,000 in real and personal property taxes each year. According to pre-war estimates of the Columbia Basin Commission, the settlement of the project would, through increased population and wealth, provide annual Federal income tax payments totalling $10,000,000.

Alfalfa, other hay crops, and pasture are expected to occupy about two-thirds of the irrigable land with small grains, other field crops, fruit, and truck crops taking the remainder. Dairy cattle are expected to be the predominating type of livestock, with beef cattle, sheep, hogs, and poultry also to be of considerable importance.

The annual gross value of crop production of the Columbia Basin is estimated at approximately $37,000,000 and that of livestock at about $27,000,000. The estimated total value of farm production is placed well upwards of $50,000,000 annually.

The project lies principally in Grant, Adams, and Franklin counties. With this increase in farm wealth will come an increase in farm problems. The demand for services of the State Department of Agriculture, the State College of Washington, and other institutions will increase rapidly. These institutions are now attempting to anticipate this demand and prepare in advance the answers to as many of the problems that are sure to arise as possible.

The legislature should keep informed of all phases of this development. The legislature must recognize the fact that the state must cooperate with Federal and county governments in this development.

21. It appears that there are now a number of slaughterhouses in the state operating without adequate supervision and inspection. This situation is a menace to the health of the general public of the state and a serious problem to the livestock industry. Present laws and regulations regarding inspection of meat offered for sale for human consumption should be carefully examined and strengthened where necessary.

22. The State of Washington is particularly fortunate in having an active farm press and farm radio service. These services provide farm people not only an avenue for receiving information but an outlet for their opinions. The relationships of the Extension Service of the State College as the informational and educational arm of the agricultural phases of the State College and of the United States Department of Agriculture with the farm press and radio is commended, and it is recommended that these relationships and services be continued and expanded.

The farm organizations of the state are active in dealing with the problems of agriculture and attempting to achieve the best possible solution for farm families. The existence of this active farm press and radio, and farm organization setup is a continuing incentive to all tax-supported agencies dealing with agriculture to do their jobs in the best way possible.
Farm organizations and the farm press have been of invaluable help to this committee in preparing this report and these recommendations. This committee wishes to express its official appreciation for this help.

RESOLUTION OF THANKS

In behalf of mother, myself and other members of my family, I wish to express our heartfelt thanks to the members of the Senate of the State of Washington for the un-

MOTION

On motion of Senator Reardon, the reports of the committee were received.

**QUESTION OF CONSIDERATION**

Senator Greive raised a question of consideration.

The Chair announced that a question of consideration has been raised. The
question before the Senate is, shall the main question be put.

Senator Reardon, supported by Senators Lee, Rutter, Orndorff, Dahl,
Huntley, Davison and Cowen, demanded a roll call.

Senator Davison, supported by Senators Wall, Zednick and Robertson,
demanded a Call of the Senate.

The Chair announced that the question before the Senate is, shall the
demand for a Call of the Senate be sustained.

The demand for a Call of the Senate was sustained.

The Secretary called the roll and announced all Senators present except
Senators Jackson and Roup; Senators Bienz and Mohler excused.

President Meyers assumed the chair.

Senator Miller moved that the Senate proceed subject to roll call.

The President declared the motion of Senator Miller out of order and
stated that the Senate would be compelled to wait until the absent Senators
arrived.

Senator Westberg inquired if the President would explain the effect of a
vote yea.

The President stated as follows:

"According to the rule, a vote yea means nay. If you don't want to consider a bill,
you vote yea. That is according to the old rule. We have agreed in the Rules Com-
mittee, however, that the Chair will put the motion in the affirmative; that if you do
want to consider, you will vote yea. If you don't wish to consider, you will vote nay."

Senator Greive inquired whether the Rules Committee can change the
rules without the consent of the Senate under the rules which the Senate
operates.

The President announced that the Chair puts the question and puts it so
that it is decided affirmatively; that the Chair has that privilege.

Senator Greive inquired whether that ruling was in agreement with Reed's
Rules.

Senator Zednick requested permission of the President to answer the ques-
tion of Senator Greive.

Permission was granted by the President.

Senator Zednick stated as follows:

"It is provided in the body of the rules that the question shall be put in the negative
as the presiding officer just stated, but if you will look in the back of Reed's Rules, it is
just the opposite of what it is in the body of Reed's Rules. Therefore, it was decided
according to Reed's Rules under which the Senate operates when our own rules do not
cover the question, that either procedure would be right and it was felt that to follow
the form in the back of Reed's Rules would be less confusing than to put it the other
way. Either one is correct."

Senator Greive inquired of Senator Zednick whether he would yield to a
question.

Senator Zednick stated that he would yield.
Senator Greive inquired:

"Senator Zednick, is it the usual procedure for the Rules Committee to change the rules under which the Senate operates?"

Senator Orndorff raised a point of order that the Chair has ruled and if Senator Greive does not like it, he can appeal from the decision of the Chair.

The President announced that he would put the question in the way that it is more easy to understand; that a question of consideration has been raised several times at this session.

Senator Davison moved that the question of consideration be tabled without taking with it the main motion.

The President announced that the question before the Senate is the question of consideration and that the motion of Senator Davison to table the question of consideration is out of order.

The Secretary announced all Senators present.

The President announced that the matter before the Senate is the question of consideration; that a vote yea means that the Senate does wish to consider the matter before it, and a vote nay means that the Senate does not wish to consider the matter before it.

Senator Reardon stated that on that motion he had demanded a roll call.

Senator Parker arose on a point of parliamentary inquiry and inquired of the President if the question of consideration is sustained and the Senate votes yea to consider the bill, whether that kills the bill for the rest of the session.

The President declared that was not the rule; that a question of consideration can be reconsidered and that he presumed that notice would have to be given the same as on the final passage of a bill.

Senator Parker inquired whether it would have the same effect as a motion to indefinitely postpone.

The President stated that he did not think that was the rule; that a question of consideration is more or less a determination of whether or not the Senate wishes to consider a bill at this time; that he did not think that it had the effect of killing the bill entirely.

The President announced that the matter before the Senate is the question of consideration of Senate Bill No. 63.

The Secretary called the roll and the question of consideration of Senate Bill No. 63 was declared carried by the following vote: Yeas, 30; nays, 14; absent or not voting, 2.

Those voting yea were: Senators Binzer, Copeland, Cowen, Dahl, Davison, Earlywine, Flanagan, Happy, Harley, Huntley, Kimball, Lee, McCutcheon, McDonald, Miller, Morgan, Orndorff, Ostrander, Parker, Reardon, Robertson, Rogers, Roup, Rutter, Schroeder, Shank, Wall, Westberg, Witten, Zednick—30.

Those voting nay were: Senators Beck, Black, Coe, Dixon, Edwards, Greive, Jackson, Kohlhase, Olson, Ray, Rosellini, Sapp, Tisdale, Todd—14.

Those absent or not voting were: Senators Bienz, Mohler—2.

Senate Bill No. 63 was read the third time.

Senator Zednick assumed the chair.

Senator Reardon moved the adoption of the committee amendment.

A voice vote was taken and the committee amendment was adopted.

The President Pro Tempore announced that the question now before the Senate is the final passage of Senate Bill No. 63, as amended.

Senators Orndorff, Reardon and Cowen, demanded the previous question.
The President Pro Tempore announced the question now before the Senate is, shall the main question be now put?

The demand for the previous question was sustained.

The Secretary called the roll on the final passage of Senate Bill No. 63, as amended, and it passed the Senate by the following vote: Yeas, 31; nays, 13; absent or not voting, 2.

Those voting yea were: Senators Beck, Binzer, Coe, Copeland, Cowen, Dahl, Davison, Earlywine, Edwards, Flanagan, Happy, Harley, Huntley, Kimball, Lee, Miller, Morgan, Orndorff, Ostrander, Parker, Reardon, Robertson, Rogers, Roup, Rutter, Schroeder, Shank, Wall, Westberg, Witten, Zednick—31.

Those voting nay were: Senators Black, Dixon, Grieve, Jackson, Kohlhase, McCutcheon, McDonald, Olson, Ray, Rosellini, Sapp, Tisdale, Todd—13.

Those absent or not voting were: Senators Bienz, Mohler—2.

The bill, having received the constitutional majority, was declared passed.

There being no objection, the title of the bill was ordered to stand as the title of the act.

Senator Beck changed his vote from nay to yea and gave notice that at the proper time tomorrow, he would move to reconsider the vote by which Senate Bill No. 63 passed the Senate.

On motion of Senator Wall, the Call of the Senate was dispensed with.

EXPLANATION OF VOTE

Senator Olson started to explain his vote on Senate Bill No. 63.

Senator Orndorff raised a point of order that if Senator Olson wishes to explain his vote, he can have his remarks extended on the record, and that he would so move.

The motion carried.

The Chair announced that the question before the Senate is the motion to permit Senator Olson to have his remarks extended and be entered upon the journal.

Senator Rosellini raised a point of order that Senator Olson had the floor when the Chair recognized Senator Orndorff, and that as a matter of courtesy and practice, Senator Olson should have been permitted to proceed.

Senator Orndorff stated that he had a right to make a point of order during anyone's speech.

The President Pro Tempore held the point of order well taken and that as a precedent it had been customary in his experience for a Senator to arise and ask consent, which is usually granted, to have his explanation of his vote entered upon the journal, because the bill has passed and the Senate is now proceeding with the next order of business.

Senator Olson stated that he had not relinquished the floor at the time the Chair took into consideration Senator Orndorff's motion.

The President Pro Tempore announced that he was of the opinion that Senator Olson had relinquished the floor but that he would have the right to have his explanation entered upon the journal, which is customary.

**ANNOUNCEMENT BY THE CHAIR**

The President Pro Tempore announced as follows:

"I would like to call the attention of the Senate to the fact that Section 32, of Article 2, of the Constitution reads as follows:

"'Laws, How Signed—No bill shall become a law until the same shall have been signed by the presiding officer of each of the two houses in open session, and under such rules as the legislature shall prescribe.'

"Pursuant to that the legislature has prescribed in its Rule 4:

"'President Pro Tem. Upon the organization of the Senate the members shall select one of their number as President Pro Tem., who shall have all the power and authority, and who shall discharge all the duties of the Lieutenant-Governor, acting as President during his absence or inability to discharge the duties of his office.

"'In the event that the Lieutenant-Governor is acting as Governor the Senate shall also elect one of its members temporary President, who in the absence or disability of the President elected by the Senate, shall have all the power and authority and who shall discharge the duties of such President.'

"I am informed that the Lieutenant-Governor, the regular presiding officer of the Senate and President of the Senate, is not in Olympia; that he is over at Dry Falls.
My attention was called to that by his Secretary this morning, and I believe, so as not to hold up this legislation, that the presiding officer has the authority under the Constitution and the Rules of the Senate to sign its Resolutions, Memorials and Bills. If anyone here has any doubt about that authority, I would be glad to hear it, but it seems to me that is quite clear and I might cite this as a precedent. A number of years ago when Governor Ernest Lister passed away, Lieutenant-Governor Hart became Governor and then the President Pro Temp. of the Senate, P. H. Carlyon, elected to perform the functions of his office and signed the bills, and with that understanding, the presiding officer will sign them.”

Senator Parker assumed the chair.

MESSAGE FROM THE GOVERNOR

State of Washington, Executive Department,
Olympia, March 19, 1945.

To the Honorable, The House of Representatives of the State of Washington.

(Through the Secretary of State)

LADIES AND GENTLEMEN:

I am filing herewith, to be transmitted to the House of Representatives at the next session of the Legislature, without my approval as to section 91, House Bill No. 406, entitled:

"An Act prohibiting adulteration, misbranding, and false advertising of food, drugs, devices, and cosmetics; providing for the registration of certain food, drugs, devices, and cosmetics, and repealing chapter 168, Laws of 1917, and chapter 211, Laws of 1907 as amended by chapter 36, Laws of 1923 (section 6137 to section 6139, inclusive, section 6144 to section 6154, inclusive, Remington's Revised Statutes; section 2535 to section 2548, inclusive, Pierce's Code)."

The bill is designed to protect the public from adulteration, misbranding and false advertising of food, drugs and cosmetics in intrastate commerce. I believe that the public will greatly benefit by the protection afforded by the bill.

The bill places the enforcement responsibility upon the Director of Agriculture except as to drugs and cosmetics. As to those commodities, section 91 of the bill would make the Washington State Board of Pharmacy the enforcement agent.

In my opinion the responsibility of the enforcement of the entire act should be under one head and should not be segregated as provided in section 91. I have, therefore, vetoed section 91 of House Bill No. 406 and approved the remainder of the bill, which will result in the entire act being under the supervision of the Director of Agriculture.

Respectfully submitted,

MON C. WALLGREN, Governor.

Section 91 of House Bill No. 406 (1945 Session):

Sec. 91. The authority to promulgate regulations for the efficient enforcement of this act is hereby vested in the director: Provided, however, That the director shall designate the Washington State Board of Pharmacy to carry out all of the provisions of this act pertaining to drugs and cosmetics, with authority to promulgate regulations for the efficient enforcement thereof.

VIRGIL R. LEE, Chairman.

On motion of Senator Lee, the report of the committee was received.

On motion of Senator Lee, the Senate resolved itself into a Committee of the Whole to consider Senate Bill No. 47, Senator Zednick in the chair.

COMMITTEE OF THE WHOLE

The President resumed the chair.

The bill, having been considered in the Committee on the Whole, Senator Zednick in the chair, was reported back to the Senate with the recommendation that it do pass, as amended.

On motion of Senator Zednick, the report of the committee was adopted.

On motion of Senator Miller, the committee amendments read in the Committee of the Whole were adopted.

Senator Miller moved that the reading of Senate Bill No. 47 had in the Committee on the Whole be considered the third reading, and that the bill be placed on final passage.

The President announced that the question before the Senate is the motion of Senator Miller that the reading of Senate Bill No. 47 had in the Committee of the Whole be considered the third reading, and that the bill be placed on final passage.

Senator Rosellini raised a point of parliamentary inquiry, whether the motion of Senator Miller would not require a suspension of the rules.

Senator Beck stated that the bill had never been read and insisted that the bill be read.

The President stated that Rule 65 relates to the suspension of the rules which applies to all rules except the third reading of bills, which cannot be suspended.

Senator Miller stated that there was no disposition on his part to deprive the Senate of the pleasure of having the bill read; that his motion was that
the reading had in the Committee of the Whole be considered the third reading, which is eminently a proper motion, and which he would now repeat.

Senator Reardon stated that he thought the Senator meant that the rules be suspended.

The President inquired as follows:

"May I inquire—the President does not preside in the Committee of the Whole—am I right in assuming that the statement was made that the Committee of the Whole is considered like any standing committee of the Senate?"

Senator Zednick announced that was correct.

The President inquired:

"Then a motion that the reading of a bill in the Agriculture Committee or the Appropriations Committee—would that be proper that a motion be made that the reading had in that committee be considered the third reading and that the bill be placed on final passage?"

Senator Miller stated:

"If all members of the Senate were present at that Agriculture committee meeting, it would certainly be very proper to make a motion that he just made in the Committee of the Whole."

Senator Reardon stated that he would remind the Senator that a committee cannot pass anything.

Senator Miller moved that the rules be suspended and that the reading of Senate Bill No. 47 had in the Committee of the Whole be considered the third reading and the bill placed on final passage.

The President ruled as follows:

"In the past we have considered the bills in the Committee of the Whole and the Chair puts the motion if there is no objection the reading of the bill in the Committee of the Whole be considered the third reading of the bill and the bill be placed on final passage. Inasmuch as there has been an objection and the bill has not been read the rule has always been that any Senator has a right to have the bill read. That has been a standing rule so far as I know of the Senate. The rule is very clear and it says, that portion of Rule 20, which pertains to the third reading of a bill that the rule cannot be suspended and we have another motion that we suspend the rules and obviously you cannot say that you cannot suspend the rules and then attempt to suspend them."

Senator Westberg announced that he would appeal from the ruling of the Chair.

Senator Reardon stated that the President has the right to turn the gavel over to someone else.

The President announced that the question before the Senate is, shall the ruling of the Chair be sustained by a majority of the members of the Senate.

"**Mr. President, Mr. Speaker, Members of the Legislature, Ladies and Gentlemen:**

"We assemble here to honor the memory of those men and women who once served as we now serve and who have passed beyond during the last two years. Although holding different current political beliefs, they served their people, their state and their country in the best and finest tradition of free constitutional government.

"For thousands of years, throughout the history of civilization, men have fought insurmountable adversities, hungered without security, labored and died that liberty might be a reality for other generations to come. Liberty for the individual has ever constituted civilization's great dream. By this, I mean the privilege of any man to say to any other man, 'I am equal with you,' and the responsibility of each man to add, 'And you are equal with me.'

"On the New England coast some three centuries ago, brave men commenced to build a new life dedicated to the rights and liberties of the individual human being. As the years went by, others, eyes fixed upon the same guiding light, imbued with restless energy, created this nation of ours and then drove onward across the continent to extend its boundaries to the shores of the Pacific, and to the great Northwest.

"The pioneers who made this country were not driven by laws but were inspired by an inward force. As Kipling said,

"'... A voice, as bad as conscience, rang interminable changes

On one everlasting whisper day and night repeated—so:

Something hidden. Go and find it. Go and look behind the ranges—

Something lost behind the ranges. Lost and waiting for you. Go!'

"One of America's great churchmen has added: 'So they ventured into unknown lands and carved great states out of the wilderness, driven by an inward call to their courage and their faith. To be sure, it took law to civilize the frontier, but we Americans do not want to lose that other element of personal initiative out of this country.'

"At this time in the history of the world we have reached the so-called atomic age. The promise and peril that results from the control of this power are limitless. Imagination boggles and breaks down trying to grasp what has happened to us. Even science today is frightened at its own discovery.

"The point that needs emphasis is just this: Neither scientific accomplishment nor any code of laws that we here, or the law makers in Congress, may enact, can save our generation.

"We of this generation stand on the verge of an era that may well see the death of our civilization. The atomic bomb, however, would only be a dramatic instrument toward this end. In solving the problems of the day, the test of success or failure is
found in the spirits of men. 'If civilization dies, this occurs in the death of the forces that make men creative and loyal and right and strong within.'

"Professor Collingwood of Oxford, speaking of our own times, writes: 'Civilizations die as they are born, not with waving of flags or the noise of machine guns in the streets, but in the dark, in a stillness, when no one is aware of it. It never gets in the papers. Long afterward a few people, looking back, begin to see that it has happened.' I wonder if that is happening to us now?

"Without question we are a powerful nation today, but where do we go from here? We have disclosed our power economically. We have shown our power politically. We have proven our power militarily. But do we still possess that spirit and faith that has inspired Americans before us to win through other difficult times? Democratic institutions are dynamic institutions and require the constant and jealous activity of the individual citizens in their behalf.

"We live in a world that has the knowledge and power to create wealth, preserve life and promote human welfare on a scale never before possible.

"Carl Becker has pointed out that making a new and better world is something that is, or should be, always going on. In the present state of affairs the task is far more complex and, thus, far more difficult than it has been for some centuries past. Our advantage is that we have more knowledge and more power for doing what needs to be done.

"To work tirelessly that free government shall remain strong, and then to have our efforts succeed, is the certain way to create faith. It is for us, in positions of public trust, to so conduct ourselves that by our actions, as well as by our words, we confirm in the minds of the people their faith in the spirit and in the reality of a free self-governed people. This is essential to a great and enduring nation of free men.

"If we will clearly set our goal to preserve our inheritance from destruction as did those who preserved it for us, making such additions to the accumulated store of knowledge and wisdom as our generation is capable of producing, applying our intelligence and our efforts and services sincerely to this end, we shall have done our share and in that manner vindicated the dead and provided hope for the living.

"We can pay the men we honor here no finer tribute than to dedicate ourselves to the principles and purpose that was theirs—make their faith in free constitutional government our faith—their purpose to protect it and assure its continued success our purpose. We live in a time of testing. God grant that we shall remain worthy of our trust."

Senator Victor Zednick delivered the following eulogy on the life of Dr. Philip H. Carlyon:

Creator of our present pay-as-you-go highway system and more responsible than any other one legislator for the State's Capitol Building arrangement, former Senator P. H. Carlyon, for a great many years, was a most influential factor in the development of the State of Washington. Every time I look at our magnificent State Capitol Building, I regard it as a monument to him.

Philip Henry Carlyon, D.D.S., who was born in Union Grove, Wisconsin, January 6, 1863, and died in Olympia, November 26, 1946, served as a member of the State Legislature for twenty years. Prior to this time he had served as Mayor of Olympia. He was State Representative in the sessions of 1907, 1909 and 1911, and State Senator during the sessions of 1913 to 1927, both inclusive. As a member of the House with him in 1911, and Secretary of the Senate during five of the terms of his service, I was in a position to observe Senator Carlyon's extraordinary ability and devotion to the State's best interests, and his capacity for untiring endeavor.

Among the outstanding legislation for which he was responsible were the bills for the construction of the State Capitol Building, the Temple of Justice, the Insurance Building and the Highway Building on the Capitol grounds, and the Carlyon Highway Code. He promoted the Port of Olympia, assuring rail connections for Olympia with the Great Northern, Northern Pacific and Union Pacific Railroads.
Dr. Carylon was educated in the public schools of Wisconsin, graduated from the Philadelphia Dental College in 1884, and came to Washington that same year, practicing dentistry in Olympia for thirty years thereafter. He was a member of the Benevolent and Protective Order of Elks and the Knights of Pythias.

He is survived by his widow, Edna Rogers Carlyon, a brother, Fred W. Carlyon, of Olympia, a sister, Mrs. Anna Vaughan, of California, and a nephew, Loren Hinton, residing in Olympia.

Senator J. H. Rogers delivered the following eulogy on the life of Richard W. Condon:

Richard W. Condon, a member of the State Senate, representing Kitsap, Mason and Island Counties from 1905 to 1908 and from 1925 to 1931, died in Seattle on August 27, 1946. He was 78 years of age at the time of his death.

Mr. Condon was born in Port Gamble, Washington, the son of John S. Condon and Catherine O'Callaghan Condon, Pacific Northwest pioneers. He was the brother of the late John T. Condon, founder and first Dean of the University of Washington Law School. He resided in Port Gamble until 1944, when he moved to Seattle. Mr. Condon entered the employ of the Puget Mill Company when he was 17 years old and was identified with that company throughout his active business life. For over half a century he played a large part in the industrial and political development of the State.

He was Republican National Committeeman for Washington from 1928 to 1932, served later as Secretary of the Republican State Committee and represented the State as delegate to a number of National Republican Conventions. He was a member of the Alaska-Yukon-Pacific Exposition Commission in 1908 and 1909. For many years prior to his death he had been identified with the Pacific Lumber Inspection Bureau, and at the time of his death was Treasurer of that organization.

"Dick" Condon, as he was known to his many friends, served his nation, state and community faithfully and with distinction. He was a man of granite courage, of deep devotion to principle and of the most intense loyalty to friends in whom he had confidence, and to causes in which he believed.

Representative Herbert M. Hamblen, Speaker of the House, delivered the following eulogy on the life of Will G. Graves:

Will G. Graves, former State Senator, died in the city of Spokane, Washington, February 14, 1945. Thus was taken one of the best known lawyers and outstanding citizens of this State.

Mr. Graves was born on the 18th day of May, 1866, in the State of Illinois. His family record contains many names of prominent citizens, extending from the year 1608, when the good old ship Mary and William landed at Jamestown. Mr. Graves spent the first twenty-three years of his life in the State of Illinois, and his experience and advantages were those which usually fall to a boy living on a farm.

He came to the State of Washington in the year 1889, and first went to Ellensburg, where he studied law in the office of his brother, Carroll Graves, later a Superior Court Judge, and after being admitted to the practice of law in the State of Washington came to Spokane in 1896, and entered into partnership with his brother, Frank H. Graves, which association continued until his death. From the time he entered the practice he showed outstanding legal ability, and as a result for many years held a prominent place in the profession as one of the leading lawyers of the northwest.

Aside from his profession his most important work was in the field of legislation. Something of his personal popularity and the confidence reposed in him are indicated in the fact that, though a Democrat, in 1902 in a strong Republican district, the 6th, he was elected to the State Senate, and again elected for a second 4-year term, serving until 1911. During the first two sessions of his service he was Chairman of the Committee on Constitution and Constitutional Revision, and later was made Chairman of the Judiciary Committee of the Senate, in which connection he rendered valuable service to the State.

Mr. Graves sponsored the act which increased the number of Supreme Court Judges from five to nine. He worked incessantly while in the Senate to better legal procedure in the state and to improve the administration of justice in our courts. In matters coming before the legislature he had very little thought for party advancement, but always considered the proposed legislation from the standpoint of its benefit to the citizens of the state. During the last years of his practice he gave special attention to cases on appeal before the Supreme Court, and no lawyer received from that body more
careful attention and greater consideration. His briefs were masterpieces of logic and expression.

He was a man simple in his tastes, cordial in his manner, warm in his friendships and wise in counsel. By those who knew him and had the privilege of associating with him he will long be remembered as a man of great ability and high ideals.

Senator Ernest C. Huntley delivered the following eulogy on the life of Oliver Hall:

Oliver Hall, son of a wagonmaker was born in Lawrence County, New York, February 17, 1852 and was called by death November 27, 1946, aged 94 years. During the Civil War, Oliver was too young for service, but his father and two older brothers served with a Wisconsin regiment, and in 1865 they moved to Mankato, Minnesota.

The family came to Washington Territory in 1876. With his father Oliver started the first wagonmaking shop in Washington Territory north of the Snake river, and soon expanded it to the manufacture of wooden pumps and coffins. After the railroads came into the northwest they shipped the first carload of pumps and sleighs ever sent over the Northern Pacific Railway in Washington Territory.

Oliver's father died in 1880, but Oliver continued the business, and also entered the undertaking business. He sold this business to L. L. Bruning of Colfax in 1911. He had a very notable career as State Senator, being first elected in 1896. He continued as State Senator from Whitman County from that time until the Democratic landslide of 1932, with the exception of two terms, between 1902 and 1910. Whenever Senator Hall would arise to speak the audience listened, because they knew full well he spoke with knowledge and sincerity.

Probably no man in the State of Washington knew more or worked more diligently than did Senator Hall during all those years on Roads and Bridges committee, of which committee he was chairman for a great many years. He first became interested in good roads at the age of 21 when appointed road supervisor of his home town in Minnesota. After the 1932 election Senator Hall retired to his 100-acre farm near Colfax until called by death, and will long be remembered as the Father of Good Roads in the State of Washington.

Senator Hall was a member of the Masonic Lodge for over 70 years; of the Knights of Pythias for 67 years and served A. O. U. W. as grand master and supreme representative, and was past patron of the Order of Eastern Star. For many years the Colfax Knights of Pythias honored Mr. Hall on his birthday anniversary with parties. He left surviving him one brother, Elmer Hall, of Spokane and several nephews and nieces.

Senator H. N. Jackson delivered the following eulogy on the life of Dr. Peder Jensen:

Taps—for another fine American citizen and servant of the people.

Peder Jensen was born in Copenhagen, Denmark, in 1868, and departed this life in Tacoma, Washington, September 30, 1945. He came to America in 1883. On the steamer coming over he met Miss Agnes Anderson who was enroute from Norway. Within one year they were united in marriage. They settled in Fern Hill, now a part of Tacoma, in 1889. He was one of the early postmasters of Fern Hill; active in organizing Fern Hill Lodge of Masons, also of the Poppy Drive used by veterans to raise funds for hospitalized ex-soldiers.

Having received the necessary degree, Dr. Jensen participated in World War I as a member of the Medical Corps. At one time he had a drug store at Fern Hill but his store burned and he then went into the same business at 7th and Commerce Streets, in Tacoma, and was also a manufacturer of drugs.

His estate comprised about two square blocks, at South 82nd and G Streets and his widow, now 78 years of age, still resides in the family home.

Dr. Jensen was a great lover of nature, and his estate is still covered with large fir trees in their virgin state and beauty.

When in need of advice, his many friends frequently called upon Dr. Jensen, who commanded the confidence, love and respect of all who knew him. Although an ardent Democrat, in a district usually Republican, he was elected State Senator, and served with credit to himself and his constituents in the sessions of 1911 and 1913.

Dr. Jensen left surviving his widow, four children and three grandchildren.
Little can we afford to bid farewell to such outstanding citizens as Dr. Jensen; however, such choice is not ours to make and we've but to say: "Well done our good and faithful servant."

Senator B. J. Dahl delivered the following eulogy on the life of Colin Riley McMillan:

Colin Riley McMillan was born on a farm near Cedarville, Ohio, January 23, 1858, and passed to his reward on his farm near Colville, Washington, July 26, 1945. He was the son of Hugh and Rachel McMillan, natives of South Carolina.

After attaining young manhood he spent some time in Illinois and Colorado before coming to the Colville Valley in 1884, where he filed on a homestead.

A Democrat by birth and tradition he was always high in the counsels of his party. He served his county in the Territorial Legislature of 1887 and 1888. He was a pioneer county sheriff in Stevens County, from 1893 to 1897. In 1914 he was elected State Senator and served in that capacity during the sessions of 1915 and 1917. His son, David E. McMillan, was State Senator from the same district during the sessions of 1935, 1937, 1939 and 1941.

Mr. McMillan was a sturdy individualist of the old school, thoroughly aware of the dangers of centralized paternalistic government, and had much to do with the upbuilding of this State. He acquired large farm holdings south of Colville, of some 1800 acres of land, and his son, David E., now resides on the McMillan home place.

Mr. McMillan left surviving, in addition to his son, David E., two other sons, Hugh D., of Houston, Texas, and William McMillan, of Chicago; and two daughters, Mrs. Alice Wilson of Spencer, Iowa, and Miss Rachel McMillan, of Saginaw, Michigan.

Senator Charles J. McDonald delivered the following eulogy on the life of William H. Moore.

William Hickman Moore was born in St. Louis, Missouri, in 1861, son of George W. and Mathilda Boone (Wilson) Moore, and died in Seattle, Washington, March 13, 1946, at the age of 84 years.

He attended the public school at Shelbyville, Kentucky, and taught in that school for two years. He graduated from the University of Kentucky, in 1885 with the degree of B.A. Thence he went to the University of Michigan, where he won his law degree in 1888. Shortly thereafter, in the same year, he came to Seattle, Washington, to practice his profession.

In 1897 he was elected as Judge of the Superior Court in and for King County, serving until 1901. Judge Moore’s decisions, based squarely on his comprehensive knowledge of the fundamentals of the law, won for him the respect and esteem of the bar.

In 1902 Judge Moore was elected as State Senator from the 34th district, and served with distinction during the sessions of 1903 and 1905. In 1906 Judge Moore became Mayor of the City of Seattle, in which capacity he served for two years, then retired to private practice of his profession. In 1914 he was a member of the City Charter Committee, and served as its President. In 1918 he was elected a member of Seattle City Council, and served in this capacity until 1922. In 1924 he was again elected a member of the City Council, and served until 1930.

Judge Moore was a member of the Pioneer Association of Washington, and did much toward the upbuilding of this State; in fact in every position he served, he fulfilled his duties with marked success. He was indeed a good executive, a humanitarian, and an advocate of public ownership, who left the world better than he found it.

He is survived by his widow, Edith (Baker) Moore, and a son, Vincent Moore of Friday Harbor, Washington.

Representative O. R. Schumann delivered the following eulogy on the life of Henry H. Wende:

Henry H. Wende, who was elected to the Washington State Senate from Yakima County as a Democrat in 1912, and served in the Sessions of 1913 and 1915, died at Yakima, July 12, 1945, after a short illness. He was born in Erie County, N. Y., July 28, 1870, of German parentage and inherited many of the best traits of the German people. He attended local schools until he was 18 and then became a clerk in a railroad office. In September, 1894, he entered the Law School of the University of Michigan, from which he was graduated in 1896 with the degree of B.L. He then returned to Buffalo.
and served as a clerk in a law office until 1898 when he became clerk of the Supreme Court of Erie County. In April, 1902, he came to Yakima County to practice his profession, and shortly afterward opened an office in Sunnyside, then a religious settlement. Notwithstanding he was not a church man or even religious in any formal sense, he rapidly made a wide circle of friends in the community. He quickly became City Attorney and then Mayor. In 1906 in the Republican stronghold of Yakima County he was elected Prosecuting Attorney and moved to Yakima shortly afterward continuing to reside there until his death. His faithful observance of his campaign pledges and efficient conduct of the duties of that office extended his acquaintance throughout the County so that when he became a candidate for the Senate his election was a foregone conclusion.

As in everything else he did he gave his constituents faithful service in the discharge of his duties as a legislator, although he never lost sight of the fact that he was acting for the whole people of the State as well as those of his own district. The same qualities which had earned him lasting and wide-spread popularity in Yakima County made him a wide circle of friends throughout the State from the contacts made in the discharge of his legislative duties.

His genial and friendly nature found expression in a continuous flow of rough-and-ready banter which originated in a keen sense of humor. He always saw the humorous side of everything. There was nothing refined about his humor, but it was usually well received and, combined with his excellent memory for names and faces and entire absence of ostentation, was an asset of such great political value that he could easily have been elected to most any office within the gift of the people, to which he aspired.

When the time came when it was necessary for him to decide whether or not he would seek re-election he realized that it was necessary for him to make a choice as to which side of his nature would be given expression. He enjoyed public life and service as few men did, but he had several other characteristics which finally turned the scales in favor of private life. He was strongly conservative by nature and saw that the trend of political events was moving toward radicalism with which he was not in sympathy. He was also accumulative and wanted to build up a competence and believed there was little opportunity for this in political life for a man of integrity. He was also a lover of home life and nature and realized that one to whom public office was really a public trust, would be prevented from enjoying those things by the numerous distractions of public life. He was of a very independent nature and disliked the idea of seeking popular favor by yielding his views to curry such favor. He therefore chose to practice law rather than to help make law and never regretted his decision. He applied himself to private practice assiduously, and his genial nature, rough-and-ready wit, excellent memory for names and faces, reputation for rugged honesty and dependability gained him a host of friends and clients of all kinds and built him a very lucrative practice, especially in probate work, which enabled him to satisfy his remaining ambitions.

Notwithstanding his retirement from active participation in politics, he still retained his interest in the affairs of his party until Mr. Roosevelt came into power through the agency of the New Deal. He accepted the Roosevelt promises at their face value, but when it became evident to him that those promises were not to be kept, he concluded the New Deal was a "wolf in sheep's clothing" and that Mr. Roosevelt was "a man who stole the livery of the court of Heaven to serve the Devil in" and thereafter ceased to take any active interest in party affairs.

Few men in his community enjoyed to an equal extent the good will and good opinion of the populace, and no member of the local bar was more highly esteemed by the members of his profession. His memory will long be cherished by those who were so fortunate as to be numbered among his acquaintances.

Senator Victor Zednick delivered the following eulogy on the life of William Wray:

A capable attorney and successful business man, former State Senator William Wray was also a most able Legislator. As State Representative in the sessions of 1911 and 1913 and State Senator from 1915 to 1931, inclusive, Senator Wray served as Chairman of the Judiciary Committee in the House and Chairman of the Appropriations Committee in the Senate. During his long legislative career, he also held a number of other important Chairmanships, including that of the Insurance Committee. In both branches of the Legislature his influence was felt. Ever an advocate of good government, he worked and voted for measures in the interest of all the people.
I had the honor of numbering Senator Wray among my most intimate friends. He and I were first elected to the Legislature together in 1910 and represented the same District in the House. During five of his sessions as State Senator I had an opportunity to observe his diligence and industry, being Secretary of the Senate during that period. He was especially interested in social legislation, including old age pensions, mothers' pensions and minimum wages for women.

Senator Wray was born in Darlington, England, September 28, 1876 and died in Walla Walla, Washington, June 8, 1946. He resided with his parents in Little Rock, Arkansas before coming to Seattle, where he lived for 54 years. He was a graduate of the old Seattle High School and of the University of Washington in the class of 1897, and after studying law in the office of the late Harold Preston, was admitted to the Bar in 1901. He was a charter member of the Young Men's Republican Club of King County. At the age of 14 he lost an arm in a hunting accident, but disregarding this handicap became one of the State's most prominent citizens. He was Past Noble Grand of Lake Washington Lodge, Independent Order of Odd Fellows, and a member of the Benevolent and Protective Order of Elks, and the Modern Woodmen of America. He belonged to the Episcopal Church. At one time he was an officer of the Petro Paint Company of Seattle.

He is survived by a daughter, Mrs. Grace Reinking of Seattle; a brother, J. G. Wray of Seattle; a sister, Mrs. Robert W. Fleming of Seattle; a granddaughter, Mrs. Robert Hodges of Ellensburg; a grandson, Capt. Wm. Wray Whalen, who served in the Army Air Forces during World War II, and two great grandchildren.

In his passing, the State of Washington lost an outstanding citizen whose contributions added materially to the industrial, economic and social development of Seattle and the State.

Senate Bill No. 157:

The Secretary read:

REPORT OF SELECT COMMITTEE
REPORT OF THE WASHINGTON TOLL BRIDGE INVESTIGATING COMMITTEES

Mr. President, Mr. Speaker:
We, of the Toll Bridge Investigating Committees, appointed by separate resolutions in the House and Senate but acting together, present the following report:
The purpose was to investigate complaints concerning the financing and retirement of the bonded indebtedness of the Lake Washington Toll Bridge.
Numerous complaints have been made by private individuals and in the press that the financing operations since the building of the bridge have not been conducted in a manner best suited to the interests of the users of the bridge or the public in general. Your committees believed it wise to secure a complete but simple statement of receipts and disbursements of the entire operation since its inception and, therefore, secured the service of a competent accountant for that purpose. Necessarily, our very limited time prevented anything like a complete audit of the books but it is our opinion that we have secured a statement which correctly reflects all receipts and disbursements. This statement is attached hereto, is marked "Schedule A", and by such reference is incorporated in this report.
Your committee also reviewed the various refunding operations and attached as "Schedule B" is a review of these operations. This schedule shows the potential saving
of interest to the state and shows that the operation has been carried on with a minimum of expense to the bridge fund. It appears that the last refunding operation in itself would not have been worthwhile but we have to take into consideration the accompanying savings in the so-called insurance fund in order to justify this last operation. The technical result of the refunding operations appear in "Schedule C" attached hereto.

The so-called insurance fund has been a subject of considerable discussion and criticism but it is the establishment of this fund which is the only justification for the last refunding operation. It must be remembered that all tolls go to reduce the bonded indebtedness on the bridge. All costs of collection of tolls and bridge maintenance come out of the highway fund so that if the last refunding operation is to be justified, we must consider the overall saving to the combined toll bridge and highway funds. The bridge fund by itself shows slight benefit as a result of this operation, the chief benefit being to the highway fund. Although there may be some doubt as to the right of the Toll Bridge Authority to establish this fund, it must be said that the refunding operation was approved by the Attorney-General of the state. Likewise, an opinion on the legality of the issue of the bonds was furnished by a responsible firm of attorneys. The indenture setting up the last refunding operation permitted the insurance fund. The Toll Bridge Authority at least had competent advice as to the right to set up this fund.

The purpose of the fund was to effect a reduction in the insurance premium. This was accomplished. The fund was set aside to apply on the last million dollars of indebtedness. It is invested in 2½% United States bonds and when the bonded indebtedness is reduced to a sum equal to the insurance fund plus accumulated interest, the fund will be used to pay off the balance of the debt. There is no reason to believe that this will not be done at that time. There is one point in connection with this insurance operation which might be criticized. In the event of an actual loss on the bridge up to a million dollars, the fund itself would pay the loss with the resulting loss to the state. This point was considered by the Authority and it was felt that the chance of loss was so slight that the saving in premium would justify the chance that was being taken. This is a matter of judgment and substantial arguments can be presented for and against this position.

As to the reduction of tolls on the bridge, the indenture provides that the tolls will be maintained at the then existing levels so that a reduction is not possible without the bondholders' consent. If the present income continues, the bridge should be toll free in 1951.

In investigating the numerous complaints we feel that the Toll Bridge Authority might be criticized more for its failure to keep the public informed in such a manner that the ordinary layman unfamiliar with financing procedure would understand what was going on. Likewise, the Authority might have explained the complaints and inquiries in a more enlightening manner.

It is our recommendation that in the future the Authority through its proper public relations officers, promptly and in a friendly and cooperative manner, answer any and all inquiries made to it to the end that there will be no further recurrence of present uncertainties and misunderstandings.

It is further recommended that all tolls be promptly applied in accordance with good financial procedure to a reduction of the bonded debt so that the bridge may become toll free at the very earliest moment.

Our report is necessarily brief because of the time allowed to investigate the bridge operations. Some evidence had been presented that the insurance costs should have been borne originally by the bridge fund rather than the highway fund. We recommend that the newly established legislative council investigate this phase of the operation and also that it investigate any further complaints in connection with the bridge operation that is brought to its attention.

Respectfully submitted,

WASHINGTON TOLL BRIDGE INVESTIGATING COMMITTEES.

d. "Participant" means a doctor or hospital who or which has contracted in writing with a health care service contractor to accept payment from such contractor for any health care services rendered to a person who has previously paid such contractor for such services.

"Sec. 2. Any health care service contractor may enter into agreements with persons or groups of persons which require prepayment for health care services by such persons in consideration of such health care service contractor providing one or more health care services to such persons and such activity shall not be subject to the laws relating to insurance if the health care services are rendered by the health care service contractor or by a participant, or by a doctor or hospital designated by such health care service contractor or participant.

Sec. 3. If any of the health care services which are promised in any such agreement are not to be performed by the health care service contractor, or a participant, or a doctor or hospital designated by either of them, such activity shall not be subject to the laws relating to insurance, but such agreement shall contain provision for reimbursement or indemnity of the persons paying for such services, which agreement shall either be underwritten by an insurance company authorized to write accident, health and disability insurance in the State of Washington or guaranteed by a surety company authorized to do business in this state, or guaranteed by a deposit of cash with the insurance commissioner, as hereinafter provided. ment for health care services. Such cash deposit shall be held in trust by the insur­
ance commissioner and shall be for the benefit of the persons who have paid for or

administration of this act which may include, but shall not be limited to regulations
concerning the maintenance of adequate insurance, bonds, or cash deposits, informa­
tion required of registrants, and methods of expediting speedy and fair payments to
claimants.

MESSAGES FROM THE GOVERNOR

State of Washington, Executive Department.
Olympia, March 6, 1947.

To the Honorable, The Senate of the State of Washington

GENTLEMEN:

I have the honor to advise that the Governor has approved the following Senate Bill, entitled:

Senate Bill No. 66:

"An Act making an appropriation allocated to the division of progress and industry development of the department of conservation and development for the purpose of advertising the state of Washington for the year 1947 in national periodicals and by pamphlet distribution, and declaring an emergency."

Very truly yours,

JACK GORRIE,
Assistant to the Governor.

State of Washington, Executive Department.
Olympia, March 6, 1947.

To the Honorable, The Senate of the State of Washington

GENTLEMEN:

I am filing herewith, without my approval, Senate Bill No. 95, entitled:

"An Act relating to industrial insurance, medical aid to, and safety standards for workmen engaged in extra hazardous employment; creating a board to be known as The Industrial Insurance Appeal Board and providing for appeal therefrom; regulating fee of attorney for claimant; making an appropriation for carrying out the provisions of this act; and repealing section 20, chapter 74, Laws of 1911, as last amended by section 1, chapter 280, Laws of 1943; section 1, chapter 116, Laws of 1931; section 1, chapter 184, Laws of 1939 (secs. 7697, 7697-1 and -2, Rem. Rev. Stat.; secs. 764-1, -3, -7, PPC)."

The bill abolishes the existing fundamental American right of trial by jury in actions involving the vital matter of what awards should be granted to workmen injured or killed in industry.

Trial by jury is one of the most cherished bulwarks of the American judicial system. In this instance, the right to a jury trial is an important and salutary safeguard against errors or prejudice by an administrative board. It protects employers and employees alike. A departure from such fundamental rights requires the gravest consideration and is justifiable only where all persons who may be affected by such a change are so clearly united as to leave no doubt that such a course is desired, after they have had the opportunity for the freest discussion of all phases of the question and the most mature consideration of the consequences. Such a clear, unified demand for this bill has not been heard.

Since it affects such a large segment of our people, it is my view that the abolition of the right to trial by jury should be accomplished only by a vote of the people on the question.

The bill is likewise inconsistent. While abolishing the right of workmen to trial by jury, it expressly grants employers such right in actions to determine whether the employer shall pay a penalty provided by existing law for refusing to submit his records for inspection by the Department of Labor. It is difficult to perceive why employers are granted the right to a jury trial in connection with an action for a small
penalty and yet is denied to workmen and their dependents on awards for injuries which affect the entire economic future of the injured worker and his family.

The bill also prevents the appellate court from considering any questions of fact and restricts the appeal to questions of law. Such a course deprives the worker of all safeguards against errors of the board in making its findings fact. They become conclusive. To so attribute infallibility to the board could be most prejudicial to both the employer and employee.

Under the bill, the Governor is required to select the three members of the board, respectively, from lists of nominees submitted to him by the supreme court, a recognized statewide organization of employers and by a statewide organization of labor. Aside from the practical difficulties involved in being certain that the lists are submitted, in the last two categories, from legally proper sources, the restrictive and novel method of nomination is an undesirable encroachment upon the responsibility of the chief executive to appoint those he thinks best qualified for the various positions.

Proponents of the bill assert that excessive fees have been earned by attorneys representing claimants. If that is true it can be remedied by other measures which do not encroach upon the right of trial by jury.

It has been widely reported that some Senate leaders have threatened that increased payments to injured workmen provided in House Bills 188 and 189 will not be granted unless I allow Senate Bill No. 95 to become law. It is rumored they have used this threat to try to force labor to accept this bill which would sacrifice the injured worker's existing right to a trial by jury in pressing claims for injuries.

It is inconceivable to me that any members of the Legislature are seeking to bargain with the very vital rights of the workers involved. I am not and will not be a party to any such bargain. Bills should be passed and approved or vetoed upon their individual merits.

I trust that what I have been told about such bargaining is not true. If it is, such tactics cannot be too strongly condemned.

The future may throw light on whether the report has any foundation in truth.

For these reasons, I have vetoed Senate Bill No. 95.

Respectfully submitted,
MON C. WALLGREN,
Governor.

The President announced that Senator Rosellini had that right.

EXPLANATION OF VOTE

In explanation of my vote on Substitute House Bills Nos. 396 and 397, one of the main reasons I voted against these bills is the method used by the sponsors to contravene the Constitution.

As first written these bills contained no appropriation. They are not appropriation bills. They are simply bills amending our Social Security statutes. The appropriations for the various divisions of Social Security have in the past been carried in the omnibus budget bill where they belong. But then the sponsors of these bills brought in substitute bills, the purpose of which was to seek to justify an emergency clause by putting appropriations in the bills. This was done after talk of subjecting these measures to referendum had arisen.
Clearly then the purpose of putting appropriations in these bills was to avoid a referendum on them.

But then the sponsors decided, evidently, that the Supreme Court might decide that the emergency clause was applicable only to the sections containing the appropriations, so a second device was resorted to. The appropriations were amended out of the separate sections containing them and inserted between commas in another section of the bill. By this second device the sponsors attempt also to contravene a veto, to prevent the Governor from vetoing all other sections of the bills except the appropriation sections. Now there are no separate appropriation sections.

Further evidence that there is no justifiable reason for putting appropriations into these bills is the fact that though chapter 80, Laws of 1945 is repealed by Substitute House Bill No. 397, and though chapter 80, session laws of 1945 defines the rights of the recipients of blind and dependent children grants, the appropriations for these two categories of grants are contained in the omnibus budget appropriation bill.

It is therefor clear that the proponents of these measures by the above devices seek to deny the people of this state, as well as the Governor, their Constitutional rights.

The basic provisions of our social security laws which these bills repeal or change were enacted by a vote of the people of this state through Initiative 141 in 1940. They should not be repealed or so drastically changed without a vote of the people of this state. This fundamental right the majority in this Legislature seeks by device and trickery to deny the citizens of the State of Washington.

MESSAGE FROM THE GOVERNOR
State of Washington, Executive Department,

To the Honorable, The Senate of the State of Washington.

GENTLEMEN:

I am returning to you, without my approval, Senate Bill No. 12, entitled:
"An Act relating to members of the Legislature; declaring their ineligibility to certain public positions, offices and employments; and providing criminal penalties."

The bill prevents any member of the Legislature, during his term of office, from being appointed to act, or employed, in any capacity in any of the departments under the Governor. Presumably, the bill is designed to prevent any member of the Legislature from being influenced by the Governor while a legislator.

If such a principle is to be enacted into law, it should not be restricted to the departments under the Governor but should prohibit the employment of legislators by all elective officials and all political sub-divisions of the state.

Cities, counties, school districts, and all elective officials are constantly seeking state legislation and grants for various purposes. Pressure by them upon legislators employed by any elective official or political sub-division can be just as effective as pressure from any other departmental source.

If employment of a legislator by a specific branch of government is unwholesome, such employment by all branches of government, both state and local, is equally undesirable.

It should also be pointed out that for years past the Governors of both political parties have appointed and employed various legislators to act in various offices of the state government because of the experience they gained in the Legislature and they have performed excellent and creditable work. This act would deprive the state government of the services of men, and women who have gained invaluable experience through their service as legislators.

The bill is also discriminatory in that legislators are told they may be employed by any branch of state or local government except those directly under the Governor, and all branches of state and local governments except those departments directly under the Governor are told they may employ legislators. Such a result is clearly unjust and inconsistent.

The definition in the bill of appointment to, and employment in, any executive department is limited strictly to the various departments under the Governor only. This conflicts with the constitutional definition of executive department contained in Article III, section 1, which states that the executive department shall consist of the Governor, Lieutenant-Governor, Secretary of State, Treasurer, Auditor, Attorney General, Superintendent of Public Instruction and the Commissioner of Public Lands.

For the reasons mentioned, I have vetoed Senate Bill No. 12.

Respectfully submitted,
MON C. WALLGREN, Governor.

On motion of Senator Rogers, it was ordered that the message, together with the bill, be referred to the Committee on Rules and Joint Rules.

The Secretary read:

**REPORT OF STANDING COMMITTEE**

Senate Chamber.

**MR. PRESIDENT:**

We, your Committee on Education, to whom was referred Substitute House Bill No. 105, entitled: "An Act relating to education; providing for support of the common schools and transportation of children to schools; establishing procedures therefor; amending section 5, chapter 141, Laws of 1945 (section 4940-5, Remington's Revised Statutes, Supplement, also Pierce's Perpetual Code 889-18 (37); and amending section 3, chapter 28, Laws of 1933, as last amended by section 12, chapter 141, Laws of 1945 (section 4719, Remington's Revised Statutes, Supplement, also Pierce's Perpetual Code 891-19)," have had the same under consideration, and we respectfully report the same back to the Senate with the recommendation that it do pass, with the following amendments:

Amend the bill by striking all matter after the enacting clause and inserting in lieu thereof the following:

"Section 1. It is the intent and purpose of this act (a) to incorporate into a single, permanent, school district organization law all essential provisions governing the formation and establishment of new school districts, the alteration of the boundaries of existing districts, and the adjustment of the assets and liabilities of school districts when changes are made as aforesaid, and in so doing to replace the inadequate and restrictive old acts and parts of acts governing such changes and adjustments; and (b) to establish methods and procedures whereby the aforesaid changes in the school district system may be brought about by the people concerned and affected, all to the end that the territorial organization of school districts may be more readily adapted to the needs of the changing economic pattern and educational program in the state; that existing disparities among school districts in ability to provide current and capital outlay funds may be reduced and the educational opportunities of children thereby enhanced; and that a wiser use of public funds may be secured through improvement in the school district system.

"Sec. 2. The following terms, wherever used in this act, shall have the meaning as in this section ascribed to them, unless where used the context thereof shall clearly indicate to the contrary:

"(a) 'Change in the organization and extent of school districts' shall mean the formation and establishment of new school districts and/or the dissolution of existing school districts and/or the alteration of the boundaries of existing school districts.

"(b) 'State Board' and 'County Committee' shall mean respectively the State Board of Education and the County Committee on school district organization, respectively, created by this act.

"(c) 'School district' shall mean the territory under the jurisdiction of a single governing board hereinafter in this act designated and referred to as the board of directors.

"(d) 'Heretofore' and 'hereafter' shall mean, respectively, prior to and subsequent to the date this act takes effect.

"Sec. 3. A school district shall be organized in form and manner as hereinafter provided, and shall be known as ____________________________ (insert here the name of the district) School District No. ____________________________ County, State of Washington: Provided, That all school districts now existing as shown by the records of the county superintendent are hereby recognized as legally organized districts.

"Sec. 4. A new school district may be formed comprising contiguous territory lying in a single county or in two (2) or more counties. Such new district may comprise two (2) or more whole school districts and/or a part of one (1) or more school
districts and/or territory which is not a part of any school district. The boundaries of existing school districts may be altered (a) by the transfer of territory from one district to another district, or (b) by the annexation to a district of a part or all of one (1) or more other districts or of territory which is not a part of any school district: Provided, That such territory shall be contiguous to the district to which it is transferred or annexed. Territory may be transferred or annexed to an existing school district without regard to county boundaries.

"Sec. 5. Each incorporated city in the state shall be comprised in one (1) school district: Provided, That nothing in this section shall be so construed as (a) to prevent the extension of the boundaries of a school district beyond the limits of the city contained therein, or (b) to prevent the inclusion of two (2) or more incorporated cities in a single school district, or (c) to change or disturb the boundaries of any school district organized prior to the incorporation of any city, except in case of the extension of the limits of a city beyond the boundaries of the school district in which it is situated, or the incorporation of a city containing territory lying in two (2) or more school districts organized prior to the incorporation of such city, or the uniting of two (2) or more cities not located in the same school district. In case all or any part of a school district is included in an incorporated city through the extension of the limits of such city in the manner provided by law, the county superintendent (a) shall declare the territory so included to be a part of the school district containing the city, and (b) shall, whenever a part of a district so included contains the schoolhouse of the district, present to the county committee hereinafter in this act provided for a proposal for the disposition of the remaining territory of the district; and in case of the incorporation of a city containing territory lying in two (2) or more school districts or of the uniting of two (2) or more cities not located in the same school district in the manner provided by law, the county superintendent (a) shall order and declare to be established in each such case a single school district comprising all of the school districts involved, and (b) shall designate each such district by name and by a number different from that of any component thereof or of any other district in existence in the county: Provided, That the county superintendent may, if he deems such action advisable, fix as the effective date of the aforesaid declaration or order the first day of July next succeeding the date of the extension of the limits of the city or of the incorporation of the city or of the uniting of the two cities, as the case may be.

"Sec. 6. A school district shall constitute a body corporate and shall possess all the usual powers of a corporation for public purposes, and in that name and style may sue and be sued, may purchase, hold, and sell personal property and real estate, and enter into such obligations as are authorized by law. The board of directors of the school district shall have exclusive control of all school buildings and other property, real or personal, owned by the district.

"Sec. 7. The fact of the issuance of bonds by a school district, heretofore or hereafter, shall not prevent changes in the organization and extent of school districts, regardless of whether or not such bonds or any part thereof are outstanding at the time. In case of any such change (a) the bonded indebtedness outstanding against any school district involved in or affected by such change shall be adjusted equitably among the old school districts and the new district or districts, if any, involved or affected; and (b) the property and other assets and the liabilities other than bonded indebtedness of any school district involved in or affected by any such change shall also be adjusted in the manner and to the effect hereinafter in this section provided for, except when all the territory of an old school district is included in a new school district or is annexed to a single existing district, in which event the title to the property and other assets and the liabilities other than bonded indebtedness of such old district shall vest in and become the assets and liabilities of the new district or of the existing district as the case may be.

"Sec. 8. Each school district involved in or affected by any change heretofore or hereafter made in the organization and extent of school districts shall retain its corporate existence in so far as is necessary for the purpose until the bonded indebtedness outstanding against it on and after the effective date of said change has been paid in full: Provided, That nothing in this section shall be so construed as to prevent, after the aforesaid effective date, such adjustments of bonded indebtedness as are provided for in this act. The county commissioners shall have the power and it shall be their duty to provide by appropriate levies on the taxable property of each school district for the payment of the bonded indebtedness outstanding against it after any of the aforesaid changes and/or adjustments have been effected. In case any such changes or adjustments involve a joint school district, the tax levy for the pay-
ment of any bonded indebtedness outstanding against such joint district after said changes or adjustments are effected shall be made and the proceeds thereof shall be transmitted, credited, and paid out in conformity with the provisions of law applicable to the payment of the bonded indebtedness of joint school districts heretofore established.

"Sec. 9. Any school district in the state having a population in excess of ten thousand (10,000), as shown by any regular or special census or by any other evidence acceptable to the county superintendent, shall be a school district of the first class. Any other school district maintaining a fully accredited high school or containing a city of the third class or of the fourth class or an area of one (1) square mile having a population of at least three hundred (300) shall be a school district of the second class. All other school districts shall be school districts of the third class. Whenever the county superintendent finds that the classification of a school district should be changed, he shall make an order in conformity with his findings and alter the records of his office accordingly. Thereafter the board of directors of the district shall organize in the manner provided by law for the organization of the board of a district of the class to which said district then belongs.

"Sec. 10. The governing board of a school district shall be known as the board of directors of the district. Unless otherwise specifically provided by this act or by other provisions of law, members of a board of directors shall be elected by ballot by the qualified electors of the school district and shall hold office for a term of three (3) years and until their successors are elected and qualified. In case a member or members of a board of directors are to be elected to fill an unexpired term or terms, the ballot shall specify the term for which each such member is to be elected. The board of directors of a school district of the first class or of a school district of the second class shall consist of five (5) members. The board of directors of a school district of the third class shall consist of three (3) members.

"Sec. 11. There is hereby created in each county a committee which shall be known as the county committee on school district organization, which committee shall be composed of not less than five (5) nor more than nine (9) representative citizens of the county, the number in each county to be determined by the persons hereinafter charged with the duty of electing the members of the committee. Neither the county superintendent nor an employee of a school district shall be a member of the county committee. The members of the county committee shall be elected by the county superintendent and the members of the board of directors of the school districts of the county at a meeting which the county superintendent shall call for the purpose. At least one (1) member of the county committee shall be elected from among the residents of each county commissioner's district in the county; and, as nearly as possible, an equal number of members shall be elected from among the residents of each class of school district (first, second, or third class) in the county. No member of a county committee shall continue to serve thereon if he ceases to be a resident of the county or if he is absent from three (3) consecutive meetings of the committee without an excuse acceptable to the committee. Vacancies in the membership of the county committee shall be filled by the persons charged with the duty of electing the members of the committee: Provided, That the committee may fill vacancies in its membership pending the calling of a meeting of said persons for this purpose by the county superintendent. The terms of members of the county committee shall be for five (5) years and until their successors are elected: Provided, That the terms of the members first elected shall be determined by lot to the end that as nearly as possible thereafter one-fifth (\(\frac{1}{5}\)) of the members shall be elected annually. Members of the county committee shall serve without compensation but shall be reimbursed for expenses necessarily incurred in the performance of their duties.

"Sec. 12. The county committee shall organize by electing from its membership a chairman and a vice-chairman. The county superintendent shall be the secretary of the committee. Meetings of the committee shall be held upon call of the chairman or of a majority of the members thereof. A majority of the committee shall constitute a quorum.

"Sec. 13. The powers and duties of the county committee shall be:

"(1) to initiate, on its own motion and whenever it deems such action advisable, proposals for changes in the organization and extent of school districts in the county; and to receive, consider, and revise, whenever in its judgment revision is advisable, proposals initiated by petition or presented to the committee by the county superintendent as provided for in this act; and to prepare and submit to the State Board any of the

“(8) To prepare and submit to the Superintendent of Public Instruction, upon request of said officer, a report and recommendations respecting the urgency of need for school plant facilities, the kind and extent of the facilities required, and the development of improved local school administrative units and attendance areas in the case of school districts that seek state assistance in providing school plant facilities.

“Sec. 14. The powers and duties of the State Board with respect to this act shall be:

(1) To aid county committees in the performance of their duties by furnishing them with plans of procedure, standards, data, maps, forms and other necessary materials and with services essential to a study and understanding of the problems of school district organization in the county.

(2) To receive, file, and examine the proposals and the maps, reports, records, and other materials relating thereto submitted by county committees in the discharge of their duties as prescribed in this act; to advise county committees in writing on the question of whether or not such proposals provide for satisfactory improvement in the school district system of the counties and the state and for an equitable adjustment of the assets and liabilities of the districts involved or affected; and to assist county committees in the revision of the aforesaid proposals when so requested by such committees.

“Sec. 15. For the purpose of forming a new school district, a petition in writing may be presented to the county superintendent, in his capacity as secretary of the county committee, signed either by five (5) heads of families or by a majority of the heads of families residing (a) in each whole district and in each part of a district proposed to be included in any single new district, or (b) in the territory of a proposed new district which comprises a part only of one (1) or more districts. The aforesaid petition shall state the name and number of each district involved in or affected by the proposal to form the new district and shall describe the boundaries of the proposed new district.

“Sec. 16. For the purpose of transferring territory from one school district to another district, a petition in writing may be presented to the county superintendent, in his capacity as secretary of the county committee, signed by a majority of the heads of families residing in the territory proposed to be transferred, or by the board of directors of one (1) of the districts affected by a proposed transfer of territory if there be no family resident in the territory; which petition shall state the name and number of each district affected, describe the boundaries of the territory proposed to be transferred, and state the reasons for desiring said change and the number of children of school age, if any, residing in the territory: Provided, That the county superintendent may, without being petitioned to do so, present to the county committee a proposal for the transfer from one school district to another of any territory in which no children of school age reside.

“Sec. 17. Whenever all or any part of a school district in which no accredited high school is maintained is bounded on three (3) or more sides by a school district in which an accredited high school is situated and maintained, the county superintendent shall report said fact to the county committee, which committee shall consider the question of the annexation to the aforesaid high school district of the territory so bounded.

“Sec. 18. In case any school district shall have an average daily attendance of fewer than five (5) pupils or shall not have maintained, during the last preceding school year at least the minimum term of school required by law, the county superintendent shall report said fact to the county committee, which committee shall give consideration to the question of the dissolution of the school district and the annexation of the territory thereof to some other district or districts. In case any territory is not a part of any school district, the county superintendent shall present to the county committee a proposal for the annexation of said territory to some contiguous district or districts.

“Sec. 19. Upon receipt and consideration by the county committee of such statement from the State Board as is required in section 14, subsection 2, of this act, the committee shall take action respecting the disposition of the proposed changes and proposed terms of adjustment dealt with therein. Upon approval by the county committee of any proposed changes or terms of adjustment, the county superintendent shall make an order establishing such approved changes and terms of adjustment as do not concern a proposal to form a new school district and/or a proposal for adjustment of bonded indebted-

county committee may make such revisions therein as it deems advisable and submit

the revised proposal or proposals to the State Board. Thereafter such revised proposal

or proposals shall be subject to the provisions and procedural requirements of this act

three (3) directors constitute the board of any such old district, two (2) additional

directors shall be appointed for the new district in the manner provided by law for

filling a vacancy on the board of a district of the class to which such new district belongs.
The additional directors so appointed shall serve until the next annual school election in

the district and until their successors are elected and qualified, at which election three (3) directors shall be elected, one (1) for a term of one (1) year, one (1) for two (2) years, and one (1) for three (3) years. Upon the establishment of a new school district includes two (2) or more old districts each of which contains a city having a population of more than seven thousand (7,000), all of the directors of the aforesaid old districts shall constitute the board of directors of the new district until the next annual school election in said district and until their successors are elected and qualified, at which election there shall be elected five (5) directors, one (1) for a term of one (1) year, two (2) for two (2) years, and two (2) for three (3) years. In case any new school district established through the incorporation of a city or through the uniting of two or more cities, pursuant to the provisions of section five (5) of this act, contains a city having a population of more than seven thousand (7,000), all of the directors of the old districts included in the new district so established shall constitute the board of directors of the new district and shall serve until the next annual school election in the district and until their successors are elected and qualified. At such election there shall be elected five (5) directors, one (1) for a term of one (1) year, two (2) for two (2) years, and two (2) for three (3) years.

"Sec. 24. The directors of the old school districts who reside within the limits of a new school district that is divided into directors' districts in conformity with the provisions of this act shall meet at the call of the county superintendent and elect from among their number five (5) directors for the new district no two (2) of whom shall be residents of the same school director's district: Provided, That if one (1) or more of the directors' districts of said new school district has no such director residing therein, the county superintendent shall appoint the number of additional directors required to constitute a board of five (5) directors for the school district, no two (2) of whom shall be residents of the same school director's district. Upon the establishment of a new school district of the third class, the directors of the old school districts who reside within the limits of the new district shall meet at the call of the county superintendent and elect from among their number three (3) directors for said new district: Provided, That if fewer than three (3) such directors reside in such new school district, they shall become directors of said district, and the county superintendent shall appoint the number of additional directors required to constitute a board of three (3) directors for the district. Each board of directors constituted as provided for in this section shall proceed at once to organize in the manner prescribed by law and thereafter shall have all of the powers and authority conferred by law upon boards of directors of other districts of the same class until the next annual school election in the district and until their successors are elected and qualified. At such election there shall be elected the number of directors (either five (5) directors or three (3) directors) heretofore in this section required to constitute the board of the district. When five (5) directors constitute the board, one (1) shall be elected from among the residents of each of the five (5) directors' districts of the school district by the electors of the entire school district, one (1) such director for a term of one (1) year, two (2) for two (2) years, and two (2) for three (3) years; when three (3) directors constitute the board, they shall be elected at large by the electors of the school district, one (1) for a term of one (1) year, one (1) for two (2) years, and one (1) for three (3) years.

"Sec. 25. Any school district composed of territory lying in more than one (1) county shall be known as a joint school district, and shall be designated by a separate number for each county in which any part of its territory may lie.

"Sec. 26. The duties herein imposed upon and required to be performed by a county committee or by a county superintendent in connection with a change in the organization and extent of school districts and/or with the adjustment of the assets and liabilities of school districts and with all matters related to such change or adjustment whenever territory lying in a single county is involved shall be performed jointly by the county committees or by the county superintendents of the several counties whenever territory lying in more than one (1) county is involved: Provided, That a county committee may designate three (3) of its members, or two (2) of its members and the county superintendent, as a subcommittee to serve in lieu of the whole committee, but action by a subcommittee shall not be binding unless approved by the whole committee of the county. Proposals for changes in the organization and extent of school districts and proposed terms of adjustment of assets and liabilities thus prepared and approved shall be submitted to the State Board of Education by the county committee of the county in which is situated the high school of the proposed new district or of the established district proposed to be enlarged, or (b) in case no high school district is involved in the proposed change, by the county
committee of the county in which the schoolhouse of the district is situated, or (c) if there be no schoolhouse in the district or more than one (1) schoolhouse, by the county committee of the county in which is located the part of the district having the largest number of children of school age residing therein.

"Sec. 27. For all purposes essential to the maintenance, operation, and administration of the schools of a district, including the apportionment of current state and county school funds, a joint school district shall be considered as belonging to the county in which the high school of said district is situated, or in case no high school is operated by the district, to the county in which is situated the schoolhouse of the district or the school with the largest attendance, if there be more than one (1) schoolhouse. If there is no schoolhouse in the joint district, said district shall then be considered as belonging to the county in which is located that part of the district having the largest number of children of school age residing therein.

"Sec. 28. Every director or clerk of a joint school district shall, on assuming the duties of his office, file his certificate of election or appointment, his oath of office or certified copies thereof, and his signature with the county superintendent of the county to which said district belongs, which signature shall be placed on file with the county auditor of said county by the county superintendent. A vacancy in the office of director of a joint district of the second or third class shall be filled by joint action of the county superintendents of the counties in which the territory of said joint district lies. In a joint district of the first class, such vacancy shall be filled in the manner provided by law for filling vacancies in districts of the first class.

"Sec. 29. A joint school district and the officers thereof shall, unless otherwise provided by law, possess all the powers and be subject to all of the duties vested in or imposed upon other school districts of the same class and upon the officers thereof. Whenever the laws relating to school districts shall provide for any action by a county officer, such action, if required to be performed in behalf of a joint school district, shall, unless otherwise provided by law, be performed by the proper officer of the county to which the joint district belongs.

"Sec. 30. It shall be the duty of the assessor of each county a part of which is included within a joint school district to certify annually to the auditor of his county and to the auditor of the county to which the joint district belongs, for the board of county commissioners thereof, the aggregate assessed valuation of all taxable property in his county situated in such joint school district, as the same appears from the last assessment roll of his county.

"Sec. 31. The amount of tax to be levied upon the taxable property of that part of a joint school district lying in one county shall be in such ratio to the whole amount levied upon the property in the entire joint district as the assessed valuation of the property lying in such county bears to the assessed valuation of the property in the entire joint district. After the budget of a joint school district has been prepared in the manner provided by law, the county superintendent of the county to which the joint district belongs shall, after deducting estimated receipts from sources other than district taxation, apportion to each county in which the territory of the joint district lies its proportionate share of the estimated expenditures of such joint district, which apportionment shall be made upon the same basis as is herein provided for the apportionment of tax levies. He shall then forward to the county auditor of his county and to the county superintendent and the county auditor of each other county, for the board of county commissioners thereof, a certificate setting forth the sum apportioned to that county, together with copies of the certificates forwarded by him to the aforesaid officers of other counties.

"Sec. 32. Upon receipt of the aforesaid certificate, it shall be the duty of the board of county commissioners of each county to levy on all taxable property of that part of the joint school district which lies within the county a tax sufficient to raise the amount necessary to meet the county's proportionate share of the estimated expenditures of the joint district, as shown by the aforesaid certificate of the county superintendent. Such taxes shall be levied and collected in the same manner as other taxes are levied and collected, and the proceeds thereof shall be forwarded quarterly by the treasurer of each county, other than the county to which the joint district belongs, to the treasurer of the county to which such district belongs and shall be placed to the credit of said district. The treasurer of the county to which a joint school district belongs is hereby declared to be the treasurer of such district.

"Sec. 33. If, on the date this act takes effect or at any time thereafter, three (3) directors constitute the board of directors of any school district for which a board of five (5) directors is required by law, except a district required by this act to be divided into school directors' districts, the three (3) directors of such school district
shall continue to serve for the terms for which they were elected; two (2) additional directors shall be appointed for the district in the manner provided by law for filling a vacancy on the board of other districts of the same class; and the aforesaid five (5) directors shall thereafter constitute the board of directors of the district. The additional directors so appointed shall serve until the next annual school election in the district and until their successors are elected and qualified, at which election three (3) directors shall be elected, one (1) for a term of one (1) year, one (1) for two (2) years, and one (1) for three (3) years.

"Sec. 34. Whenever any school district in existence on the date this act takes effect is divided into school directors' districts by the county committee in the discharge of its duties under said act, the directors thereof shall continue to serve for the terms for which they were elected, unless two (2) or more such directors reside in the same director's district, in which event the director who shall continue to serve shall be determined by lot. The county superintendent shall then appoint the number of additional directors required to constitute a board of five (5) directors for the school district, no two (2) of whom shall be residents of the same director's district. The additional directors so appointed shall serve until the next annual school election in the district and until their successors are elected and qualified, at which election three (3) directors shall be elected for one (1), two (2), and three (3) years, respectively, and, if necessary, additional directors for the unexpired terms, if any, of directors who were removed as such by virtue of the determination by lot provided for in this section.

"Sec. 35. In case a school district has heretofore been divided into five (5) school directors' districts in conformity with the requirements of law in effect prior to the date this act takes effect, the residents of each such director's district by the electors of the entire school district, as the terms of the present incumbents expire, except in case such school district is a district of the third class in which event (a) three (3) of the incumbent directors, selected by lot in such manner that the terms of no two (2) of them will expire simultaneously, shall constitute the board of district and shall continue to serve for the terms for which they were elected; (b) school directors' districts shall cease to exist; and (c) at the next annual school election in said district and annually thereafter, one (1) director shall be elected at large by the electors of the district.

"Sec. 36. The boards of directors of the several school districts that have heretofore been united to form a union high school district shall constitute the board of directors of such union high school district: Provided, That in a union high school district comprising three (3) or more school districts, the board of directors thereof shall be composed of the chairmen of the several boards of directors of the districts comprised in such union high school district. Any claimant, employer or other person aggrieved by any such order, decision or award must, before he appeals to the courts, serve upon the director of labor and industries, by mail or personally, within sixty days from the day on which such copy of such order, decision or award was communicated to the applicant, a notice of appeal to the Board of Industrial Insurance Appeals, hereinafter called the 'board'. Such notice shall set forth in full detail the grounds upon which the applicant considers such order, decision or award is unjust or unlawful, and shall include every issue to be considered by the board, and it must contain a detailed statement of facts upon which such claimant, employer or other person relies in support thereof. The * * * * board shall cause all oral testimony to be stenographically reported and thereafter transcribed, and when transcribed the same, with all depositions, shall be filed in, and remain a part of, the record on the * * * * appeal. Such * * * * hearings on appeal to the board may be conducted by one or more of * * * * its members, * * * * and depositions may be taken by a person duly commissioned for the purpose by the board, but the record on * * * * appeal shall be considered by all of the members of * * * * the board and the decision of a majority of * * * * the members shall be the decision of * * * * the board, and upon such decision being rendered all parties to said * * * * appeal shall be given written notice thereof by the * * * * board.

"An * * * * appeal shall be deemed to have been denied by the * * * * board unless it shall have been acted upon within thirty days from the date of service: Provided, however, that the * * * * board may in its discretion, extend the time within which it may act upon such * * * * appeal not exceeding thirty days.

All recoveries under this section shall be distributed between the county, state and Federal governments in the proportion they have respectively contributed to the payments made to such recipient. The director is authorized to settle, compromise, adjust or release the state's claim on any property.

MOTIONS

Senator Wall moved that the Senate refuse to concur in the House amendments to Engrossed Senate Bill No. 291.

The President declared that if the Senate was going to take up the amendments item by item, there was one amendment read before and he ordered that the Secretary read the first amendment made by the House.

Senator Wall moved that the Senate refuse to concur in the first House amendment to Engrossed Senate Bill No. 291 in section 2, page 3, line 29 of the engrossed bill.

The President stated that the question before the Senate is the motion that the Senate do not concur in the amendment just read.

Senator Dixon moved that the Senate do concur in the first amendment relating to state parks.

The Chair announced that the question before the Senate is the motion that the Senate do concur in the amendment to Engrossed Senate Bill No. 291 in section 2, page 3, line 29 of the engrossed bill.

Senator McCutcheon raised a point of order.

The President announced that the motion before the Senate would be that the Senate do not concur and that the House be asked to recede therefrom, but that the question now before the Senate is the motion of Senator Dixon that the Senate do concur.

Senator Lee stated that he wanted to concur in the remarks of Senator Reardon.
The Chair announced that it has been held that the affirmative motion takes precedence over a negative motion, and on that basis Senator Dixon has the floor.

Senator Dixon stated that he wished to take them up amendment by amendment.

Senator Dixon stated that his motion now is that the Senate do concur in the first amendment.

The Chair announced that the question now before the Senate is the motion of Senator Dixon that the Senate do concur in the first House amendment to Engrossed Senate Bill No. 291.

A voice vote was taken, and the motion of Senator Dixon failed to carry.

Senator Harley moved that the Senate do not concur in the first amendment to Engrossed Senate Bill No. 291, and that the House be asked to recede therefrom.

A voice vote was taken, and the motion of Senator Harley carried.

Senator Harley stated that his motion was that the Senate do not concur in the House amendments.

The Chair announced that it was not made clear at the time.

Senator Wall stated that he thought the Senate should go through the amendments, item by item.

Senator Reardon raised a point of order that the suggestion of Senator Wall had been rejected; that the Senate has already adopted what they consider the procedure should be and it has been moved and seconded—Senator Harley made the motion—that the Senate do not concur and that the Senate does not accept these amendments and asks the House to recede.

The Chair ruled the point of order well taken.

Senator Schroeder stated that was not what the Senate was doing; that it was announced from the Chair that the amendments would be read one at a time.

The President announced that he would put the motion again; that the question is on the motion of Senator Harley that the Senate do not concur in the House amendments and asks the House to recede therefrom.

A voice vote was taken, and the motion of Senator Harley was declared carried.

MOTION

On motion of Senator Bienz, it was ordered that the Message be received, spread upon the Journal, and referred to the Committee on Rules and Joint Rules.

State of Washington, Executive Department, Olympia, March 12, 1947.

To the Honorable, the Senate of the State of Washington.

GENTLEMEN:

I am filing herewith, without my approval as to Section 4, Senate Bill No. 22, entitled:

"An Act relating to irrigation districts; directing irrigation district directors jointly to prepare annual reports on irrigation district operations and authorizing the designation of the State Association of Washington Irrigation Districts, as a co-ordinating agency in the execution of this act; permitting irrigation districts to reimburse the association for services so rendered; and authorizing the directors to attend inter-irrigation district meetings."

Section 4 would allow any State Association of Washington Irrigation Districts to affiliate with other reclamation organizations and agencies in the state, even though the other reclamation organizations and agencies may not be primarily concerned, or only incidentally concerned, with irrigation. Authorizing such affiliations might result in the other agencies and reclamation organizations indirectly controlling the policies and program of the Association of Irrigation Districts with adverse results.

For this reason, I have vetoed Section 4 and approved the remainder of the bill.

Respectfully submitted,

MON. C. WALLGREN, Governor.

MOTION

On motion of Senator Bienz, it was ordered that the Message be received, spread upon the Journal, and referred to the Committee on Rules and Joint Rules.

State of Washington, Executive Department, Olympia, March 12, 1947.

To the Honorable, the Senate of the State of Washington.

GENTLEMEN:

I am filing herewith, without my approval, Senate Bill No. 139, entitled:

"An Act granting to any citizen and taxpayer of the State of Washington the right to prosecute certain actions."

The bill permits any or all citizen taxpayers to question, for any reason whatsoever, the disposition of any of the state's funds or the pledging of the credit of the state and to bring legal action to have the courts decide whether the citizen's view is right or wrong.

Ever since statehood, the courts have held that citizens were not permitted to take such a course upon the ground that sound public policy will not permit any number of volunteers who may, rightfully or wrongfully, interpret the laws differently from the interpretations of the elective officers of the state, and to thus paralyze for a time every or any branch of state government. On this point, the Honorable Smith Troy, the Attorney General, in his letter to me recommending that this bill be vetoed, aptly says:

"On the face of it, that bill would seem to be eminently proper, since it is directed entirely at 'illegal' activities. Actually, however, it would have the effect of nullifying
to an unjustifiable extreme a fundamental principal of governmental administration which has been affirmed and reaffirmed by our courts in an unbroken line of decisions from Jones vs. Reed, 3 Wash. 58, decided in 1891, to Sasse vs. King County, 196 Wash. 242, decided in 1938, for the reason that it is based upon sound principles of public policy."

The Attorney General has always been charged with the duty now sought to be conferred on all citizens.

The policy is a sound and deep rooted one. No valid reason has been advanced for now departing from it, nor has any suggestion been made that the Attorney General or any of his predecessors, or any other officer of state, has neglected to protect the state when there is any substantial legal question involved.

The bill likewise contains no safeguard against actions brought without any reasonable basis. No check whatsoever is imposed against suits being brought for any variety of motives or causes. To allow any state function to be paralyzed at the mere unchecked whim of any individual could result in clogging the courts with actions without any substantial foundation, and force the Attorney General to defend each of them at the expense of the public.

For the reasons mentioned, I have vetoed Senate Bill No. 139.

Respectfully submitted,

MON. C. WALLGREN, Governor.

MOTION

On motion of Senator Bienz, it was ordered that the Message be received, spread upon the Journal, and referred to the Committee on Rules and Joint Rules.

I would like our Acting Secretary, Herb Sieler, to make a statement at this time."

Herbert H. Sieler spoke as follows:

"Mr. President and Members of the Senate:

"The Sunday session which we have just concluded has a historical significance, in that it is the longest Sunday session ever occupied by any Legislature. There is another historical Sunday to which I wish to call your attention.

"Two decades ago—exactly twenty years to this same Sunday—the Legislature moved from the old State House to this, the present magnificent structure. It had been the hope of the members of the Twentieth Legislative Session to transact their business in these legislative halls. Notwithstanding that work was rushed, we were unable to move into these chambers until the Sunday of twenty years ago.

"It had been planned to walk in a body from the Old Capitol Building to these chambers. But nature was against us. However, all records were moved on that day. The following morning a Joint Session was held in the Senate Chamber, being the only Joint Session ever held so far in this Chamber.

"Honorable Roland H. Hartley was Governor during that time. W. Lon Johnson, of Colville, was Lieutenant-Governor. Ralph W. Knapp, now Vice President of the Washington Mutual Savings Bank of Seattle, was Speaker; and others who were present on that date and who are present today are: Senator Victor Zednick, who was Secretary of the Senate; I was the Assistant Secretary; Mr. A. J. Sharkey, your present Secretary, was Assignment Clerk; and Miss Agnes Barchus, your Assistant Secretary, was Minute Clerk of the House. Mr. A. W. Calder, of Vancouver, Washington, was Chief Clerk of the House.

"As we look back over the years we find how extensively our State government has grown. At the time of moving into this building, practically the entire State government was housed in the old Capitol Building; and today we have these beautiful buildings, of which we and all the people of the State of Washington can be proud."

Senator Rosellini announced that he would like to have entered in the Journal two short written statements explaining votes on Senate Bill No. 291 and House Concurrent Resolution No. 10.

The Chair announced, if there was no objection, the protest would be entered.

EXPLANATION OF VOTES

We are herewith filing our explanation of our vote on Senate Bill No. 291. We voted for the same because we had no alternative inasmuch as it carried operational appropriations which were necessary. We do, however, wish to enter a protest on the same for the reason that the bill as drawn and presented to us by the Free Conference Committee, is an arbitrary attempt by the Republican majority to balance the budget at all costs and without regard to the proper and reasonable appropriation requests by the different governmental agencies to carry out their administrative duties as provided by law. This budget has inadequately provided for many departments and functions of the State Government, including such vital things as education programs, parks and playgrounds, libraries, the Department of Transportation, and many others, as has been pointed out in arguments on the Floor.

It is our conclusion that the Republican Party has played politics with this bill, and that they have deliberately cut out of this appropriation bill items for different departments which will result in a serious curtailment of services to the public and which the Republican majority hopes will cast a reflection upon the Democratic Administration of the State of Washington.

EXPLANATION OF VOTES

In explanation of my vote for House Concurrent Resolution No. 10, I voted for the resolution because we felt that the attacks it contains against the Constitutional rights of our citizens should be thoroughly exposed through the subsequent actions of its sponsors.

A further study of the unprecedented powers granted this Committee, even to the point of search and seizure, have convinced us that the harm that could be done our democratic way of life by the actions of a Committee which includes in its membership a man who on the floor of the Senate said he was in favor of summary powers of execution, have caused us to reconsider our vote. Had we the opportunity to vote for reconsideration of House Concurrent Resolution No. 10 at this time, we would do so, but since the rules of the Senate prevent such action at this time, we ask that our opposition to House Concurrent Resolution No. 10 be recorded in the Journal.

GOVERNOR'S MESSAGES ON SENATE BILLS VETOED

Senate Bill No. 7

March 22, 1947.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 7, entitled:

"An Act Providing for the establishment of park districts outside of cities and towns; prescribing the procedure for its government and operations; defining its powers and duties; providing for the levy and collection of taxes and assessments against the lands within the districts; authorizing the issuance and disposal of district warrants; establishing certain authorities for the state parks committee; and prescribing penalties."

It has not been made clear to the Executive Department that there is any general demand for a bill with implications as far-reaching as those contained in Senate Bill No. 7. Since the adjournment of the Legislature considerable opposition has developed, both from farm groups and those interested in recreational problems. Its provisions authorize the establishing of park districts by metes and bounds outside of cities and towns and provides for the levy of a 4-mill tax against all property included within such park district. The park districts set up under the provisions of this bill also provide for the issuance and sale of coupon warrants for certain purposes. The provisions of this bill will necessarily result in increasing tax burdens upon rural taxpayers within such park districts.

I am wholeheartedly in accord with the general desirability of offering to the people of this state adequate opportunity for recreation. This bill is too restrictive in scope and too expensive for the few people who would be benefited. Planning on not less than a county-wide basis is necessary and desirable to bring recreational facilities to rural residents of this state. Less than full county support will not bring adequate funds for long range planning and competent supervision.

I believe that further consideration should be given to the problem of furnishing adequate recreational facilities to those elements of our population which do not now have them available. I feel certain that further consideration will bring about a more comprehensive, more desirable and less burdensome plan.

For these reasons Senate Bill No. 7 is vetoed.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.
Senate Bill No. 10

February 18, 1947.

To the Honorable
The Senate of the State of Washington.

Gentlemen:
This is to advise you that the Governor has transmitted to the Secretary of State, Senate Bill No. 10 entitled:

"An Act Relating to the powers of port districts; amending section 7 of chapter 92 of the Laws of 1911, as last amended by section 7 of chapter 62 of the Laws of 1913 (Remington's Revised Statutes 9695, Pierce's Perpetual Code 777-25); and adding a new section to chapter 92, Laws of 1911."

without attaching his signature thereto.

Very truly yours,
(Signed) JACK GORRIE,
Assistant to the Governor.

Senate Bill No. 12

March 8, 1947.

To the Honorable
The Senate of the State of Washington.

Gentlemen:
I am returning to you, without my approval, Senate Bill No. 12, entitled:

"An Act Relating to members of the Legislature; declaring their ineligibility to certain public positions, offices and employments; and providing criminal penalties."

The bill prevents any member of the Legislature, during his term of office, from being appointed to act, or employed, in any capacity in any of the departments under the Governor. Presumably, the bill is designed to prevent any member of the Legislature from being influenced by the Governor while a legislator.

If such a principle is to be enacted into law, it should not be restricted to the departments under the Governor but should prohibit the employment of legislators by all elective officials and all political sub-divisions of the state. Cities, counties, school districts, and all elective officials are constantly seeking state legislation and grants for various purposes. Pressure by them upon legislators employed by any elective official or political sub-division can be just as effective as pressure from any other departmental source.

If employment of a legislator by a specific branch of government is unwholesome, such employment by all branches of government, both state and local, is equally undesirable.

It should also be pointed out that for years past the Governors of both political parties have appointed and employed various legislators to act in various offices of the state government because of the experience they gained in the Legislature and they have performed excellent and creditable work. This act would deprive the state government of the services of the men and women who have gained invaluable experience through their service as legislators.
The bill is also discriminatory in that legislators are told they may be employed by any branch of state or local government except those directly under the Governor, and all branches of state and local governments except those departments directly under the Governor are told they may employ legislators. Such a result is clearly unjust and inconsistent.

The definition in the bill of appointment to, and employment in, any executive department is limited strictly to the various departments under the Governor only. This conflicts with the constitutional definition of executive department contained in Article III, section 1, which states that the executive department shall consist of the Governor, Lieutenant-Governor, Secretary of State, Treasurer, Auditor, Attorney General, Superintendent of Public Instruction and the Commissioner of Public Lands.

For the reasons mentioned, I have vetoed Senate Bill No. 12.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 22

March 12, 1947.

To the Honorable
The Senate of the State of Washington.

Gentlemen:

I am filing herewith, without my approval as to Section 4, Senate Bill No. 22, entitled:

"An Act Relating to irrigation districts; directing irrigation district directors jointly to prepare annual reports on irrigation district operations and authorizing the designation of the State Association of Washington Irrigation Districts, as a co-ordinating agency in the execution of this act; permitting irrigation districts to reimburse the association for services so rendered; and authorizing the directors to attend inter-irrigation district meetings."

Section 4 would allow any State Association of Washington Irrigation districts to affiliate with other reclamation organizations and agencies in the state, even though the other reclamation organizations and agencies may not be primarily concerned, or only incidentally concerned, with irrigation. Authorizing such affiliations might result in the other agencies and reclamation organizations indirectly controlling the policies and program of the Association of Irrigation Districts with adverse results.

For this reason, I have vetoed Section 4 and approved the remainder of the bill.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.
Senate Bill No. 57

To the Honorable
The Senate of the State of Washington.

(Through the Secretary of State.)

Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to subsection 3 of section 1, Senate Bill No. 57, entitled:

Subsection 3 of section 1 of the bill provides as follows:

"3. Any member of the board may be removed for inefficiency, malfeasance or misfeasance in office, upon specific written charges filed by the governor, who shall transmit such written charges to the member accused and to the chief justice of the supreme court. The chief justice shall thereupon designate a tribunal composed of three judges of the superior court to hear and adjudicate the charges. Such tribunal shall fix the time of the hearing, which shall be public, and the procedure for the hearing, and the decision of such tribunal shall be final and not subject to review by the supreme court. Removal of any member of the board by the tribunal shall disqualify such member for reappointment."

However, section 1 of the bill only amends section 64 of chapter 62 of the Laws of 1933, Extraordinary Session, as last amended by section 2 of chapter 208 of the Laws of 1945. This section, as last amended in 1945, does not relate in any way to the appointment, removal or tenure of the Board. Appointment and tenure of the Board is set forth in section 63 of chapter 62 of the Laws of 1933, Extraordinary Session, as last amended in section 1 of chapter 208 of the Laws of 1945. That section provides as follows:

"Section 1. Section 63 of chapter 62 of the Laws of 1933, Extraordinary Session, as last amended by section 1 of chapter 225 of the Laws of 1937 (section 7306-63 of Remington's Revised Statutes, Supplement, also Pierce's Perpetual Code (678-11), is amended to read as follows:

"Section 63. There shall be a Board, known as the 'Washington State Liquor Control Board,' consisting of three members, to be appointed by the Governor with the consent of the Senate and hold office at the pleasure of the Governor, who shall each be paid an annual salary, to be fixed by the Governor, not to exceed $7,500.00. The Governor may, in his discretion appoint one of the members as chairman of the Board, and a majority of the members shall constitute a quorum of the Board."

The bill leaves this provision in full force and effect, since it is not repealed nor amended. To allow subsection 3 of section 1 of the bill to become law would be to have two conflicting statutes on the same subject.
What the Legislature intended is therefore a matter of conjecture and not at all clear.

The meaning of legislation should and must not be left to speculation. To do so requires recourse to the courts to determine what the Legislature intended. Such a course is wholly unnecessary, since the Legislature will be in session in 1949, when the term provisions of subsection 1 of section 1 of the bill become effective and it can then express its meaning clearly and resolve all doubts as to its precise intention.

I note that in 1934 Governor Martin vetoed a subsection identical with subsection 3 of section 1 of this bill.

For the reasons mentioned, I am vetoing subsection 3 of section 1 of Senate Bill No. 57 and approving the remainder of the bill.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 95

To the Honorable
The Senate of the State of Washington.

Gentlemen:

I am filing herewith, without my approval, Senate Bill No. 95, entitled:

"An Act Relating to industrial insurance, medical aid to, and safety standards for workmen engaged in extra hazardous employment; creating a board to be known as The Industrial Insurance Appeal Board and providing for appeal therefrom; regulating fee of attorney for claimant; making an appropriation for carrying out the provisions of this act; and repealing section 20, chapter 74, Laws of 1911, as last amended by section 1, chapter 280, Laws of 1943; section 1, chapter 116, Laws of 1931; section 1, chapter 184, Laws of 1939 (secs. 7697, 7697-1 and -2, Rem. Rev. Stat.; secs. 704-1, -3, -7, PPC)."

The bill abolishes the existing fundamental American right of trial by jury in actions involving the vital matter of what awards should be granted to workmen injured or killed in industry.

Trial by jury is one of the most cherished bulwarks of the American judicial system. In this instance, the right to a jury trial is an important and salutary safeguard against errors or prejudice by an administrative board. It protects employers and employees alike. A departure from such fundamental rights requires the gravest consideration and is justifiable only where all persons who may be affected by such a change are so clearly united as to leave no doubt that such a course is desired, after they have had the opportunity for the freest discussion of all phases of the question and the most mature consideration of the consequences. Such a clear, unified demand for this bill has not been heard.

Since it affects such a large segment of our people, it is my view that the abolition of the right to trial by jury should be accomplished only by a vote of the people on the question.

The bill is likewise inconsistent. While abolishing the right of workmen to trial by jury, it expressly grants employers such right in actions to deter-
mine whether the employer shall pay a penalty provided by existing law for refusing to submit his records for inspection by the Department of Labor. It is difficult to perceive why employers are granted the right to a jury trial in connection with an action for a small penalty and yet is denied to workmen and their dependents on awards for injuries which affect the entire economic future of the injured worker and his family.

The bill also prevents the appellate court from considering any questions of fact and restricts the appeal to questions of law. Such a course deprives the worker of all safeguards against errors of the board in making its findings fact. They become conclusive. To so attribute infallibility to the board could be most prejudicial to both the employer and employee.

Under the bill, the Governor is required to select the three members of the board, respectively, from lists of nominees submitted to him by the supreme court, a recognized statewide organization of employers and by a statewide organization of labor. Aside from the practical difficulties involved in being certain that the lists are submitted, in the last two categories, from legally proper sources, the restrictive and novel method of nomination is an undesirable encroachment upon the responsibility of the chief executive to appoint those he thinks best qualified for the various positions.

Proponents of the bill assert that excessive fees have been earned by attorneys representing claimants. If that is true it can be remedied by other measures which do not encroach upon the right of trial by jury.

It has been widely reported that some Senate leaders have threatened that increased payments to injured workmen provided in House Bills 188 and 189 will not be granted unless I allow Senate Bill No. 95 to become law. It is rumored they have used this threat to try to force labor to accept this bill which would sacrifice the injured worker's existing right to a trial by jury in pressing claims for injuries.

It is inconceivable to me that any members of the Legislature are seeking to bargain with the very vital rights of the workers involved. I am not and will not be a party to any such bargain. Bills should be passed and approved or vetoed upon their individual merits.

I trust that what I have been told about such bargaining is not true. If it is, such tactics cannot be too strongly condemned.

The future may throw light on whether the report has any foundation in truth.

For these reasons, I have vetoed Senate Bill No. 95.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.
Senate Bill No. 139

To the Honorable
The Senate of the State of Washington.

March 12, 1947.

Gentlemen:

I am filing herewith, without my approval, Senate Bill No. 139, entitled:

"An Act Granting to any citizen and taxpayer of the State of Washington the right to prosecute certain actions."

The bill permits any or all citizen taxpayers to question, for any reason whatsoever, the disposition of any of the state's funds or the pledging of the credit of the state and to bring legal action to have the courts decide whether the citizen's view is right or wrong.

Ever since statehood, the courts have held that citizens were not permitted to take such a course upon the ground that sound public policy will not permit any number of volunteers who may, rightfully or wrongfully, interpret the laws differently from the interpretations of the elective officers of the state, and to thus paralyze for a time every or any branch of state government. On this point, the Honorable Smith Troy, the Attorney General, in his letter to me recommending that this bill be vetoed, aptly says:

"On the face of it, that bill would seem to be eminently proper, since it is directed entirely at 'illegal' activities. Actually, however, it would have the effect of nullifying to an unjustifiable extreme a fundamental principle of governmental administration which has been affirmed and reaffirmed by our courts in an unbroken line of decisions from Jones v. Reed, 3 Wash. 58, decided in 1891, to Sasse v. King County, 196 Wash. 242, decided in 1938, for the reason that it is based upon sound principles of public policy."

The Attorney General has always been charged with the duty now sought to be conferred on all citizens.

The policy is a sound and deep rooted one. No valid reason has been advanced for now departing from it, nor has any suggestion been made that the Attorney General or any of his predecessors, or any other officer of state, has neglected to protect the state when there is any substantial legal question involved.

The bill likewise contains no safeguard against actions brought without any reasonable basis. No check whatsoever is imposed against suits being brought for any variety of motives or causes. To allow any state function to be paralyzed at the mere unchecked whim of any individual could result in clogging the courts with actions without any substantial foundation, and force the Attorney General, to defend each of them at the expense of the public.

For the reasons mentioned, I have vetoed Senate Bill No. 139.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.
Senate Bill No. 150

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Gentlemen:
I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislature, without my approval, Senate Bill No. 150, entitled:

"An Act Relating to state lands; authorizing the sale and conveyance of a portion of the land owned by the state in Walla Walla county."

Section 1 authorizes certain designated persons or corporations to purchase all or any part of a tract of land in Walla Walla County. The land sought to be purchased lies immediately south of the railroad right of way and is a part of the plat of land belonging to the Washington State Penitentiary. The act also provides a modus operandi by which the land would be appraised, sold, and conveyed, from the State of Washington.

Section 2 provides that the proceeds of the sale shall be reinvested in real estate for the use of the State Penitentiary.

The land described in section 1 is a part of the land now used by the State Penitentiary and has situated thereon the artesian well which is used for irrigation purposes at the penitentiary. A portion of the tract is now used for a garden tract by the penitentiary. Since the property is now being actually used for a function in connection with state government, I cannot believe that a sale of such property at this time would be advantageous.

For these reasons, Senate Bill No. 150 is vetoed.

Respectfully submitted,
(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 153

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Gentlemen:
I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to sections 6, 7, 9, 10 and 12, Senate Bill No. 153, entitled:

"An Act Relating to state government and prescribing the powers and duties of state officers and employees with respect to audit, pre-audit, the control of expenditures and encumbrances under appropriations and the making of financial reports; creating the office of director of budget and providing for the powers, duties, method of appointment, and compensation of the director of budget; abolishing the division of budget, accounts and control and the office of supervisor of
budget, accounts and control in the department of finance, budget and business and transferring their powers and duties to the director of budget; changing the name of the department of finance, budget and business to the department of public institutions; amending sections 3, 6, 8, 9, 11, and 13, chapter 196, Laws of 1941 (secs. 11018-3, -6, -8, -9, -11, and -12, Rem. Rev. Stat.; secs. 945-53, -59, -63, -65, -69, and -71, PPC); amending section 37a, chapter 7, Laws of 1921, as enacted by section 12, chapter 196, Laws of 1941 (sec. 10795-1, Rem. Rev. Stat.; sec. 233-47, PPC), and renumbering it section 37-1; repealing chapter 234, Laws of 1945; providing penalties, and declaring an emergency."

Section 6 of the bill would give the Governor financial control and supervision over all elective officials. I believe that all elective officials should have the control and supervision of their own finances. They are elected by, and are responsible to, the people for all of their policies and acts. In my opinion, to restrict control over their own finances is an unwarranted encroachment upon and interference with the powers and duties of elective officials.

Section 7 places all elective officials under the pre-audit system under the Director of Budget. It is subject to the same objections made above regarding section 6.

Section 9 would require monthly report on all funds not subject to appropriation from the State Treasury. There are a large number of such funds and to carry out this mandate would result in a very considerable expense to the state without any apparent advantage. The State Auditor, under existing law, audits such funds at appropriate intervals. No need for such monthly reports is evident.

The new matter in section 10 creates a complete duplication of all work with respect to purchasing and could seriously delay purchases.

Section 12 would make it a gross misdemeanor for any state officer or employee to incur obligations or make expenditures in excess of appropriations. This provision is extremely harsh when it is realized that the criminal penalty would apply even though it occurred through oversight or inadvertence. It also conflicts with the existing rule that where a statute imposes mandatory duties upon an officer, such duties must be performed even though no appropriation is available therefor. This section of the bill would place state officers in the paradoxical position with one statute requiring him to perform certain mandatory duties, even though the appropriation is insufficient, and with this section making it a crime to proceed to do so.

For these reasons, I have vetoed sections 6, 7, 9, 10 and 12 of Senate Bill No. 153 and approved the remainder.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.
Senate Bill No. 158

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

March 21, 1947.

Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 158, entitled:

"An Act Relating to the revocation and suspension of licenses to practice medicine and surgery; defining unprofessional conduct; creating a Medical Disciplinary Board to hear and determine charges of unprofessional conduct; establishing the procedure for the conduct of hearings by the board; empowering the board to issue certificates of revocation or suspension of licenses to practice medicine or surgery; providing for judicial review of the action of said board; providing for the necessary expenses of the board; providing for hearings on and judicial review of refusals to issue licenses to practice medicine or surgery; making an appropriation; and amending section 11, chapter 192, Laws of 1909 as amended by section 7, chapter 13, Laws of 1919 (sec. 10014, Rem. Rev. Stat.; sec. 734-23, PPC); repealing section 12 and 13, chapter 192, Laws of 1909 (secs. 10016 and 10017, Rem. Rev. Stat.; secs. 734-27, and -29, PPC), and chapter 65, Laws of 1915 (sec. 10015, Rem. Rev. Stat.; sec. 734-25, PPC)."

The bill sets up a Medical Disciplinary Board of 13 members. Six of the members of the Board must be chosen from a panel of twelve persons nominated by the Washington State Medical Association and one member must be chosen by the Governor from each of the six Congressional districts. The President of the State Medical Association serves as the thirteenth member.

In my action on other bills of the Thirtieth Legislature I have indicated my strong disapproval of any bill which unnecessarily restricts the appointive power of the Chief Executive. So long as under our system of law the Executive Department is responsible to the electorate for all of the acts of his appointive officials, he should be given wide latitude in selecting the persons for whose acts he is accountable to the public. Had section 4 of the bill provided that the Chief Executive should select any given number of doctors licensed to practice medicine and surgery under the laws of this state I should not have had any objection to the manner of appointment which I now have with respect to this bill.

Section 14 of the act provides that findings of the Board with respect to the revocation or suspension of licenses shall be final and conclusive. It further provides that any review of the record by the superior court shall extend only to determining whether or not the findings of the Board are supported by substantial evidence and determining whether or not the proceedings or findings were so erroneous as a matter of law or in violation of due process of law as to be arbitrary or capricious. Such sweeping powers are very infrequently if ever granted to disciplinary boards. I believe the provisions are too broad and that they might be subject to abuse should they ever be placed in unwise hands.
To veto the above mentioned sections of the bill and approve the remainder would destroy the act.

For these reasons, I have vetoed Senate Bill No. 158 in its entirety.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

**Senate Bill No. 181**

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislature, without my approval, Senate Bill No. 181, entitled:

The present statute makes it a felony for any person to commit indecent or obscene exposure of his person within the view of any person, regardless of age. The amendment contained in the bill would make such an act a felony only if committed within the view of a child under fifteen years of age. It is my feeling that we should not make lesser crimes out of offenses of this character.

For this reason, Senate Bill No. 181 is vetoed.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

**Senate Bill No. 185**

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislature, without my approval, Senate Bill No. 185, entitled:

"An Act Relating to public highways and the maintenance of mine to market roads, amending section 7, chapter 175, Laws of 1939 as amended by section 6, chapter 222, Laws of 1945 (sec. 6450-25g, Rem. Rev. Stat.; sec. 615-13, PFC)."

Senate Bill No. 185 attempts to authorize County Commissioners to adopt resolutions leaving the maintenance of mine to market roads in the hands
of mine owners who will maintain such roads at their expense, and to ab­solve the county from all claims arising out of, or connected with the private operation of such roads. I seriously doubt that any county may make any arrangement under which the county's rights and duties as to roads are turned over to private individuals. If this bill becomes a law it will en­danger Federal aid on highway work.

For these reasons, Senate Bill No. 185 is vetoed.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 194

March 21, 1947.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to section 40, Senate Bill No. 194, entitled:

"An Act Relating to and providing for the protection, propagation, purchase, importation, domestication, and distribution of wild animals, wild birds and game fish, and the hunting or fishing therefor; creat­ing certain offices and defining the regulatory powers and duties of the state game commission and the director of game; providing for the acquisition and management of lands by the state game commission for game animal, game bird and game fish purposes, including public hunting and fishing areas and for the licensing of hunters, fishermen, trappers, fur-dealers and taxidermists; defining unlawful acts; pres­cribing penalties and repealing certain acts."

Section 40 relates to the public display and to the offering of prizes for such display of game. The bill as introduced contained provisions which were eliminated by the Legislature, so that now section 40 is unacceptable to the Director of Game and to the Washington State Sportsmen's Council, who have both requested that section 40 be vetoed.

I believe that the State Game Commission should have the power to make reasonable rules and regulations regarding such displays and the offering of prizes.

For this reason, I have vetoed section 40 of Senate Bill No. 194 and approved the remainder.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.
Senate Bill No. 216

To the Honorable
The Senate of the State of Washington.

(Through the Secretary of State.)

Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislature, without my approval, Senate Bill No. 216, entitled:

The bill provides for the licensing of hospitals and related institutions, establishes a State Hospital Board, and repeals certain existing laws. The bill provides that various societies and associations shall nominate a designated number of persons from which list the Governor shall appoint a certain designated number of members of the State Hospital Board created by the bill. The bill further provides that such appointees shall nominate four (4) laymen and that the Governor shall appoint two (2) persons, from such lists, all as members of such board. The bill further provides that the Medical Director of the State Department of Social Security and the State Director of Health shall be members of the board ex officio, but without any vote.

I am opposed to any legislation which creates a state board and then, in the body of the act, provides for the nomination of a list of several persons from which list the Governor shall make the appointments. I have already expressed my views on this method of appointment of state boards at length in other veto messages and will not extend my views here. Sufficient to say that it would appear that the state board, by the bill, would not properly represent the consumer of hospital services for whom such a service is primarily designed.

It would further appear that the bill is so framed that the State of Washington would probably be prohibited by federal law from accepting any federal funds, under this bill. Under existing law, the State Department of Health has been designated by the Governor as the proper agency to accept such federal funds, and such existing plan is apparently working out advantageously.

This bill creates one more new state agency, with duplicating personnel requiring additional office space and many other incidental expenses in connection with the administration of the program created by the bill.

While I believe that it is highly desirable to have an over-all hospital and related institution licensing law on the statute books, nevertheless I feel that this bill does not in any way fulfill the requirements of the state in this regard.

For these reasons, I have vetoed Senate Bill No. 216.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

March 22, 1947.
Senate Bill No. 240  
March 22, 1947.

To the Honorable  
The Senate of the State of Washington.  
(Through the Secretary of State.)

Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to sections 2, 3, 4, 5 and 6, Senate Bill No. 240, entitled:

"An Act Relating to extra-hazardous employments and to the compensation and remedies of workmen injured therein, and of their dependents and beneficiaries in case of death; creating the Board of Industrial Appeals; defining its functions; amending section 2, chapter 74; Laws of 1911, as last amended by section 1, chapter 210, Laws of 1943 (section 7674, Rem. Supp. 1943), and amending section 20, chapter 74, Laws of 1911, as last amended by section 1, chapter 90, Laws of 1931 (sec. 7697, Rem. Rev. Stat.; sec. 704-1, PPC), and making an appropriation."

The sections mentioned, in general, create a Board of Industrial Insurance Appeals, define their duties and powers, and the rights of workmen and employers to appeal to such Board and from its decisions. The existing joint board of the Department of Labor and Industries is abolished. These sections are substantially the same as like sections in Senate Bill No. 95 which was vetoed by me on March 6, 1947, except that the right to trial by jury is retained. After I had vetoed similar sections in Senate Bill No. 95, the bill under consideration was amended to include sections 2, 3, 4, 5, and 6.

Included among the objectionable features of these sections is the requirement that the three members of the board must be selected, respectively, from lists of nominees submitted to the Governor by the supreme court, a recognized statewide organization of employers and a statewide organization of labor representing a cross section of the organized labor of the state. My objection to this identical mode of nomination is pointed out in my veto message concerning Senate Bill No. 95. In addition, the requirement that the supreme court shall furnish a list of nominees is at variance with our concepts of a complete separation of the judicial, the legislative and the executive branches of government, since the supreme court would be called upon to review decisions of a board of which one member would be a nominee of the court.

For the reasons mentioned, I have vetoed sections 2, 3, 4, 5 and 6 of Senate Bill No. 240 and approved the remainder of the bill.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.
Senate Bill No. 290

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Gentlemen:
I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to a certain item, Senate Bill No. 290, entitled:

"An Act Making appropriations and reappropriations for the purchase, condemnation and improvement of land, construction of buildings and improvements at designated state institutions; for the payment of salaries of certain officers and employees of the state and for the operation, maintenance and other expenses of certain state institutions, departments and offices; for the relief of certain individuals, corporations, counties and municipalities; for refunds and for deficiencies and for emergencies, and for appropriation of revolving funds, and for purposes specified in certain acts of Congress, and for miscellaneous purposes designated for the fiscal biennium beginning April 1, 1947, and ending March 31, 1949, except as otherwise provided; defining terms, limiting allowances and payments, and declaring that this act shall take effect immediately."

I disapprove and veto the item, "JOHN W. MALONEY, architectural services rendered the Department of Finance, Budget and Business in previous biennium covering buildings at the State Penitentiary, $25,133.40." While the claimant is no doubt entitled to compensation, the amount has not been liquidated and in my judgment the amount of appropriation is excessive.

With the exception of the foregoing item which is vetoed, the remainder of Senate Bill No. 290 is approved.

Respectfully submitted,
(Signed) MON C. WALLGREN,
Governor.

Senate Bill No. 291

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Gentlemen:
I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislature, without my approval as to a certain item, Senate Bill No. 291, entitled:

"An Act Making appropriations and reappropriations for the purchase, condemnation and improvement of land, construction of buildings and improvements at designated state institutions; for the payment of salaries of certain officers and employees of the state and for the operation, maintenance and other expenses of certain state institutions, departments and offices; for the relief of certain individuals, corpora-
tions, counties and municipalities; for refunds and for deficiencies, and for purposes specified in certain acts of Congress, and for miscellaneous purposes designated for the fiscal biennium beginning April 1, 1947, and ending March 31, 1949, except as otherwise provided; defining terms, limiting allowances and payments, and declaring that this act shall take effect immediately."

I disapprove and veto the item "FROM THE HIGHWAY SAFETY FUND. To carry out the provisions of House Bill No. 283: Salaries, Wages and Operations.................. $75,000.00." for the reason that I have heretofore vetoed House Bill No. 283 and there is no need for this appropriation.

With the exception of the foregoing item which is vetoed, the remainder of Senate Bill No. 291 is approved.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

**Senate Bill No. 309**

March 21, 1947.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislature, without my approval, Senate Bill No. 309, entitled:

"An Act Relating to the cooperative management of state lands with natural forest and private timber lands in a sustained yield management unit, and amending chapter 130, Laws of 1939 (secs. 7879-11 to -17, incl., Rem. Rev. Stat.; secs. 940-155 to 167, incl., PPC) by adding a new section thereto to be known as section 8."

This bill is apparently intended to authorize a state agency handling the sale of state timber, in certain instances, to designate the community or communities where such timber shall be milled or processed.

Existing law requires that state owned timber be advertised for public sale and sold to the highest bidder. While I have always believed and still believe that the modus operandi of state timber sales should be improved, I cannot believe that this bill is either workable or in the best interests of the State of Washington.

For these reasons, Senate Bill No. 309 is vetoed.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.
Senate Bill No. 310

To the Honorable
The Senate of the State of Washington.

(Through the Secretary of State.)

Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 310, entitled:

"An Act Relating to actions upon a liability created by statute, other than a penalty or forfeiture; and limiting the time within which such actions may be commenced."

The bill would bar all actions upon any liability created by statute, other than penalties or forfeitures, unless commenced within one year after the cause of action has accrued. Such a restriction could have far reaching effects upon many different kinds of actions, based upon purely statutory remedies.

A basic change in our existing statutes of limitations should be carefully studied by the bar of the state and the Judicial Council before being allowed to become a law, so that its full effect can be carefully analyzed. Such a careful study has not occurred as the bill is not sponsored by the Bar Association nor the Judicial Council.

For the reasons mentioned, I have vetoed Senate Bill No. 310.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.

March 22, 1947.

Senate Bill No. 347

To the Honorable
The Senate of the State of Washington.

(Through the Secretary of State.)

Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislature, without my approval, Senate Bill No. 347, entitled:

"An Act Relating to taxation; imposing a tax with respect to the sale, use or distribution of punch boards, pull boards or trade stimulators; licensing distributors thereof; providing for the collection and enforcement of the licenses and taxes imposed; making an appropriation therefor, and declaring an emergency whereby the act is to take effect immediately."

The bill proposes a tax in respect to the sale, use and distribution of punch boards, which for the purposes of this act are called "trade stimulators." Section 3 of the act provides that any person engaging in the business of distributing punch boards shall obtain from the tax commission upon the payment of a fee of fifty dollars ($50), "a license to engage in such business."

The act furthermore lays down comprehensive rules and regulations for the enforcement of the 5% tax imposed by the bill on punch boards. This bill
may be construed as a legalizing and licensing of punch boards, which are purely and simply gambling devices, particularly attractive to minors. They also attract the patronage of many adults who can ill-afford to indulge in such gambling. Since becoming Governor of this state, I have never sponsored nor originally approved a bill which would directly or indirectly sanction the use of gambling devices. I do not propose to do so now.

I am fully aware of the fact that the state is in urgent need of revenue, but I do not believe that we are in such dire need of revenue that we must legalize an undoubtedly questionable business. Until such time as the courts shall hold that punch boards are not gambling devices, I feel that the state should not grant direct licenses or implied protection.

For these reasons, Senate Bill No. 347 is vetoed in its entirety.

Respectfully submitted,

(Signed) MON C. WALLGREN,
Governor.
