## MOTION

Senator Binzer moved that the Senate proceed under Reed's Rules until such time as the Senate adopts its rules for this session.

The motion carried.
The Secretary read:

BEFORE THE STATE SENATE OF THE THIRTY-FIRST LEGISLATURE OF THE STATE OF WASHINGTON

S. CHRISTIAN ERICKSEN, Contestant,

CARL R. LINDSTROM, Contestee,

ELECTION CONTEST.

To: The Honorable State Senate of the Thirty-first Legislature of the State of Washington:

S. CHRISTIAN ERICKSEN, hereby contests the election of Carl R. Lindstrom as State Senator from the 27th Legislative District, and for his grounds of contest alleges:

I. That S. Christian Ericksen, the contestant, is a citizen of the United States and of the State of Washington, and at all times herein mentioned has been a resident of the 27th Legislative District of the State of Washington, and is a qualified elector therein, and qualified to hold the office of State Senator from said district.

II. That at the Primary Election held in this state on September 14, 1948, Carl R. Lindstrom, the contestee, was nominated as the democratic candidate for State Senator from the 27th Legislative District, and S. Christian Ericksen, the contestant, was nominated in the same election as the Republican candidate for State Senator from the same district.

III. That at the general election held in this state on the 2nd day of November, 1948, the said Carl R. Lindstrom was declared to be elected State Senator from the said 27th district.

IV. That this contest is made for the reason that the contestant is informed and believes, and therefore alleges the fact to be that the said Carl R. Lindstrom was not at the time of filing his declaration of candidacy, at the time of said primary election, or at the time of the said general election qualified to receive the nomination or election as State Senator from the said 27th District for the reason that he was not as required by Section VII, Article 2, of the State Constitution a qualified voter in the said 27th District.

V. In support of said contentions the contestant alleges that the said Carl R. Lindstrom for a considerable time prior to the filing of his declaration of candidacy was a resident of Pierce County in Legislative District No. 25, his address being Route 11, Box 82, Tacoma, Washington, being located on the Wallis Road; that at the time of filing his declaration of candidacy he alleged that he was a resident of Tacoma, Washington, giving his street address as 808 South Ainsworth Street, Tacoma 6, Washington; that petitioner is informed and believes, and therefore alleges that fact to be that the said Carl R. Lindstrom never resided on the said premises. In support thereof this contestant attaches hereto the affidavit of Nathan Way, subscribed and sworn to on December 20, 1948, stating that the affiant has lived at that address for more than one year, that he was personally acquainted with all the persons who have resided at the said address and that no person by the name of Carl R. Lindstrom has resided on the premises during said time, said affidavit being marked Exhibit "A" attached to the original hereof, and by reference made a part hereof.

VI. In further support of contestant's allegations there is attached hereto Exhibit "B," and by reference made a part hereof, an envelope mailed at Tacoma, Washington, on October 6, 1948, by the Washington Temperance Association, Inc. addressed to Mr. Carl Linstrom at 808 South Ainsworth, Tacoma 6, Washington, which was returned by the Post Address as not at that address. There is also attached thereto, marked Exhibit "C" an envelope from 1721 South 12th St., Tacoma, Washington, mailed in Tacoma on October 12, 1948, addressed to Mr. Carl R. Lindstrom, 808 South Ainsworth, Tacoma, Washington, which was returned as unclaimed, said envelopes, Exhibit "B" and "C" are by reference made a part of this petition.
VII.

That petitioner is informed and believes that during the time of the campaign the said Carl R. Lindstrom maintained an address at the Allyn Hotel, 726 St. Helens, Tacoma, Washington; that petitioner is informed and believes, and therefore alleges the fact to be that this was the purpose for receiving mail only and that the said Carl R. Lindstrom never had a room at the said hotel during the period prior to or during said election, which would give the said Carl R. Lindstrom an official residence in the said 27th Legislative District.

VIII.

That there is attached hereto, marked Exhibit "D" and by reference made a part of this petition, a letter from Harry F. Henson, Assistant Director of the Department of Licenses of the State of Washington, advising that Carl R. Lindstrom is licensed as a real estate salesman in Tacoma, Washington, his residence address being shown on his application for license as Route 11, Box 32, Tacoma, Washington.

Wherefore, this petitioner alleges that the said Carl R. Lindstrom was never a qualified voter in the 27th District for which he claims to have been elected a member of the State Senate of the State of Washington for the Thirty-first Legislative Session, and this petitioner therefore respectfully requests the Senate to make such investigation as it shall deem proper, and if it should ascertain that the said Carl R. Lindstrom was not a qualified voter in the said 27th Legislative District at the time he claims to have been elected a State Senator therefrom, that the said Honorable Senate refuse to seat the said Carl R. Lindstrom as a member of this Honorable Senate.

S. CHRISTIAN ERICKSEN,
Petitioner

S. CHRISTIAN ERICKSEN being first duly sworn on oath says: That he is the petitioner in the above entitled action; that he has read the foregoing Election Contest knows the contents thereof and believes the same to be true. S. CHRISTIAN ERICKSEN.

MOTION

Mr. Ford moved that the Petition of Contest be indefinitely postponed.

The Speaker recognized Senator Rosellini.

Senator Rosellini:

"Mr. Speaker: Speaking on the motion. This is a matter probably so ridiculous in my mind that it does not deserve an answer. It seems to me there have been some serious and unfounded accusations made upon a man who has long served the state as a public official which will require a few remarks to the accusations made here.

"In the first place, even assuming for the purpose of argument that the things set out in the petition were true, so what? Nothing could be done about it. I would like to point out that the contents of the petition are nothing but unmitigated lies. Otto Case contended that radio and newspaper advertisements published by Taylor contained false statements as to the true facts. However, he has since admitted that they were true but that he was not responsible for the acts of Jack Taylor. One thing he points out is the sale of timber at $517,000 above the appraised value that Otto Case himself had made on that timber. Then Otto Case tried to evade the responsibility by saying that the Land Commissioner had—that Otto Case had not appraised the timber himself but a timber cruiser, who was in the employ of Otto Case, had appraised it.

"Another point he raised, I think the members of the Senate who were here in 1941 will recall, was the fact that Otto Case had taken credit for co-sponsoring Senate Bill No. 299, which bill placed the Attorney General and the Superintendent of Public Instruction on the Land Board and gave to that Board added power that they never had before, to check the appraisal made by the Land Commissioner on school lands. I think, Mr. Speaker, that the people here who served in the 1941 session will recall, and the Senate Journal shows, that Jack Taylor did that.

"I do hope that you people and the public will pay no attention to the lies set forth in this petition, as the petition does not recite the true facts."

The Speaker recognized Senator McCutcheon.

Senator McCutcheon:

"Mr. Speaker, and members of the Joint Session: I regret to take exception at any time to what my good friend, Senator Rosellini, has said, but I realize in all political campaigns the people say things that are a little bit stretching the point, to say it mildly, but there should be care taken even in political campaigns to tell the truth.

"Speaking against the indefinite postponement, speaking a word for my good friend, Otto Case, he has been in public life a long time in the State of Washington and nobody has been able to point a finger at him. I do not like the statements made here, they are purely libelous—that he put up for sale 80 acres of replanted land for $800. This land had fine growing trees eventually worth $100,000. Replanting this land would cost $18 an acre. What sinister motive caused Otto to put this land up for sale? Did he know what he was doing? It is certainly libelous and I have been informed, wholly untrue.

"Otto Case is an old man and has had a very long public career and no one has ever questioned his honesty and integrity, and I think no one can successfully do so at any time."
The Speaker recognized Senator Miller:

"I know that Jack Taylor is innocent and I think he should hold his position."

Mr. Riley demanded the previous question and the demand was sustained.

The motion to indefinitely postpone the Petition of Contest of Otto Case was carried.

There being no objection, the Speaker announced he was about to sign the certificates of election of the following elective officials of the State of Washington:

Arthur B. Langlie ........................................ Governor
Victor A. Meyers .................................. Lieutenant Governor

MESSAGE OF GOVERNOR ARTHUR B. LANGLIE TO THE LEGISLATURE

Mr. President, Mr. Speaker, Members of the Thirty-first Legislature,
Ladies and Gentlemen:

Once again we are assembled to consider the complex affairs of state government. For the next two months it is our duty to advise with each other and actively cooperate for the purpose of developing all necessary and desirable legislation.

In the discharge of that duty on my part, I want to present to you today my appraisal of the problems we face and my recommendation for their solution. Those problems are indeed serious and their proper solution demands that we exercise the highest degree of intelligence, courage, and cooperation in the spirit of the public's best interest.

You are already familiar with these major issues. For months they have occupied prominent space in the public press. So intimately do they touch the lives of the people that they have been a daily subject of public discussion. Upon us, jointly, has been placed the responsibility of finding adequate and acceptable solutions. This requires our most diligent and unselfish attention.

I am convinced that our success in meeting these problems depends first of all upon the creation of a stable and harmonious relationship between the two houses of the legislature, and between the legislative and executive branches of government. We have all heard it said, both publicly and privately, that it is unfortunate that the state should face such a crisis as that which presently confronts us with its legislative and executive branches politically divided. There has been fear expressed that a political deadlock will develop, with the people left to suffer because we fail to act. We must not permit that fear to be confirmed.

Our conduct during the coming weeks will constitute an important test of the practical operation of state government at a time when the elective positions in that government are partly in the hands of one political party and partly in the hands of another. The situation is not unique and it is challenging rather than discouraging.

I am not so naive as to expect that members of the Democratic Party will suddenly fall in line with every idea and suggestion that I or other Republicans make. Nor do I anticipate that Republicans will always accept the proposals emanating from the opposite side of the House. But of this I am certain—we represent a united people; we support the same institutions; we swear a common allegiance; we pursue a mutual objective in terms of human liberty, health and happiness. It is true that we compete for public support of party principles—but we do this only within a field of political philosophy that is, in its entirety, acceptable to all our people. Whatever our procedural differences, I know we can and must unite here in doing a constructive job.

The two foremost practical problems which face us today are—how much will state government cost us these next two years; and—how are we going to pay for it? I recognize that these are issues which have political as well as economic significance. But they can be effectively discussed only after the full scope of our administrative, as well as financial problems, have been outlined. Accordingly, let us review the leading administrative and financial problems one by one.

SCHOOLS

The state has failed to maintain its position of national leadership in its most important field of service—the education of our children. Long one of the top three states in per-capita school expenditures and in educational facilities, Washington has dropped to tenth place in per-capita annual investment in education and even lower in point of facilities. This comparison, serious though its implications, does not begin to reflect the severity of the problem. School population has increased at a greatly accelerated rate since 1942. The birth rate in 1947 was more than twice that of 1940. Enrollment will continue to climb rapidly for several years to come. We must provide class rooms and teachers for these children and at the same time overcome the obsolescence and deterioration that have impaired our present facilities. This problem is beyond the capacity of local school districts to meet. We must help more than we ever have before.

I realize there are limits on the amount of expenditures our economy will support. I know, too, there are limits on the amount of work that can be undertaken in a given period of time. Mindful of these limitations I ask you to appropriate funds to education, on a matching, participating or direct-grant basis, sufficient to guarantee to our children adequate classroom and teaching facilities.

It is apparent to me, as I know it must be to you, that adequately to meet this
situation will of necessity entail the most extensive building program the state has yet undertaken. Despite our pressing and perplexing financial problems, this remains our primary duty. We must find a way.

PENSIONS

Another great problem before us is that of implementing Initiative 172, the Old Age Pension Measure. The people themselves, through the exercise of the legislative power reserved to them, have fixed new eligibility requirements and defined new standards of pension payments. Ours is the task of providing the funds necessary to accomplish this program, and of safeguarding the program from abuses.

I wish I could tell you how much money will be required to carry out the provisions of this new pension law. The cost of raising the grants of present recipients to the new level is readily and rather accurately ascertainable. It approximates $15,000,000 per biennium. The amount which will be needed to meet the new claims which will be filed under the broadened coverage approved by the voters, however, is a matter of great uncertainty. There is no completely dependable formula upon which to base an estimate. Any figure which we may now fix as the total amount needed must be regarded as tentative, and subject to substantial revision. Our problem is made more difficult because we have a dual responsibility. We must provide sufficient funds to carry out the mandate of the people in regard to pensions, yet we must also avoid budget excesses due to unnecessarily large appropriations.

It is to be hoped that before the end of this session we may have information available upon the basis of which a trustworthy estimate can be made of the amount likely to be required to meet our augmented pension program for the next two years. I extend to you the full cooperation of my office and of the Department of Social Security in seeking the most dependable figures possible.

POWER DEVELOPMENT

Another vital and perhaps equally serious problem, for it touches all the people directly, is the shortage of electric power. A few years ago, with the backing of the federal government, we undertook a large scale development of our vast water power resource. On the basis of what appeared to be an almost unlimited electric-energy potential at attractive rates, we challenged the East’s bid for industrial expansion. With ever-increasing momentum, the heavy industries of the East are turning their eyes to the West with our power potential as the enchanting lure. Already we are beginning to feel the impact of that industrial influx. We must intensify our preparation so that we may be in a position to take full advantage of our state’s natural destiny.

We can look forward to continuing rapid growth if we can fulfill our promise of adequate power. That promise, however, is at present in jeopardy. Our existing power production is over-subscribed. We are in critical need of additional generating capacity. Bound up with this problem is the necessity of fully developing our irrigation resources through efficient utilization of these same rivers and streams. Whereas most natural resources tend to become exhausted as they are developed or used, water power is wasted only when it is not developed and used. We must not be guilty of that waste.

I, therefore, urge you to give careful consideration to legislation that will facilitate or expedite the construction of new dams along the Columbia River and its tributaries, or which will provide for increased power and irrigation development, and flood control, at existing dam sites.

In this connection, I am thinking not alone of federal appropriations and national development of these resources. The long-term, overall project of developing our hydro-electric and irrigation resources, and controlling destructive flood waters, is intimately, and primarily, tied up with the progress and welfare of this state and the Pacific Northwest. We should not, therefore, be content to look alone to Washington, D. C. for leadership and material help, but should take stock of our own ability to promote the program, and the desirability of assuming leadership ourselves.

The first important step we should take in this direction is to examine, critically, any proposed federal legislation which would subject our power and irrigation resources to further national control instead of state or regional control; or any federal administrative policies or programs which would operate to drain off our resources or the fruits thereof for the benefit of other areas far away, to the detriment of this area where the resources are located.

A second step will be to consider state legislation which will provide the legal machinery for an even closer working relationship between public and private power
companies in the marketing of electric energy, with particular attention to conservation measures during periods of acute power shortage.

As a third constructive step in the direction of preserving the fullest possible measure of local control and leadership, we should give consideration to asking our neighboring states to join with us in a thorough study of the whole problem, and the formulation of a joint program designed to meet our mutual needs. Through such an undertaking, it may be found that the states of this region can assume ownership and control of some or all existing facilities, or those to be installed in the future, to the end that our own primary interests will best be served without sacrifice of the legitimate national interests which are also involved.

FORESTRY

For fifty years, the most important factor in the economy of the State of Washington has been its timber resource. To a certain extent these reserves have been depleted. Fortunately, because of the rapid growth of timber in our state we can, through prudent timber management, maintain ourselves as one of the great lumber and pulp-producing areas of the world. To do that we must, much more wisely than ever before, protect and manage this resource. We must be able to sustain a cooperative program between the state and the federal government, and between the state and the private owner. We must see to it that the very best forestry practices are followed in all our timber operations.

The lumber industry has been forward-looking and has already taken noteworthy steps toward rebuilding our timber reserves. Tree farms have been voluntarily developed, selective logging practices have been invoked and in many areas, sustained yield programs are being carried out.

After an exhaustive study of this problem, I submitted to the 1943 Legislature a forest conservation program designed to protect and reestablish our timber reserves. The major part of that program was never adopted. The evils of maladministration which it was designed to eliminate still remain to plague us and hamper the development of what can easily be the outstanding forestry development and conservation program in the nation. I am hopeful that one or more measures designed to set up a coordinated long-range forestry program may be introduced in this session of the Legislature. I would commend your earnest consideration of this very important matter.

PLANNING COUNCIL

I also ask that you recreate a State Planning Council. I know planning councils do some dreaming, some of their ideas are impractical, but the value which can proceed out of an interested group of citizens, thinking and talking together about our long-range problems, is immeasurable. It is not an expensive agency. In the past, the ideas evolved therein have been utilized by both the executive and legislative branches to great advantage for the state. As a sounding board for public ideas alone, it is more than worth the cost. I sincerely hope you will consider favorably this request.

PROGRESS COMMISSION

This state has demonstrated that a continuing promotional campaign attracts new industries and increased tourist travel. A substantial portion of our industrial expansion in recent years may fairly be credited to the work of the Progress Commission and its successor agencies. Tourist travel has become one of the state's leading sources of income by reason of a continuing advertising and promotion campaign. An even more intensive promotional campaign is needed. So important is this program that I believe it should be restored to independent status. I ask you to reconstitute the Progress Commission, that you vest in it all its former powers, withdrawing them from the Department of Conservation and Development, and that you appropriate to the Commission sufficient funds to make possible an adequate program of state promotion.

As a companion request, to make certain that our recreational facilities, our parks and playgrounds, are seen to best advantage by the traveling public, I ask that you revitalize our park program with an adequate appropriation, equitably distributed over all of our parks. We have something no other state can offer tourists during the summer months. Let us do justice to this great natural resource.

DISASTER RELIEF

Last Spring, several areas of our state were stricken by floods of unprecedented violence. Many of our citizens were killed. Hundreds were left homeless. Property
damage reached millions. Relief was slow in reaching victims. To minimize suffering and to protect life and property in the event of another such major disaster, I ask that you create a disaster relief fund and appropriate to it the sum of $2,500,000.

GRAND JURY

The portion of our state and national income which flows through governmental channels grows greater each year. So huge are these sums and so vast are the ramifications of spending agencies, that they of their own magnitude, invite graft and corruption in government. Concurrently, government has reached deeper and deeper into the field of business regulation to a point where evasions become exceedingly profitable, inviting unlawful practices and illegal relationships between private citizens and public officers. The economic and moral interest of the people is vitally involved in this problem. Conditions are such that I believe the people's ancient legal remedy against public corruption, the grand jury, should be made more accessible. I believe that our superior courts, one of our greatest guardians of public integrity, should be empowered to convene such a jury on its own motion at least once a year. Our present law enforcement procedures offer too few alternative courses in seeking redress against public crimes. Justice can be thwarted and the corruption continued when a key enforcement officer is himself a party to the wrongful act. I ask your favorable consideration of legislation giving effect to this recommendation.

LIQUOR CONTROL

The state has embarked on a new policy relating to the sale of intoxicating liquor. By vote of the people, premises open to the general public may now be licensed to sell liquor by the drink. This is a radical departure from past practice, and it presents many new administrative problems.

The number of these licenses is restricted and the competition for them will be acute and bitter. It is anticipated that operations under these licenses will be highly profitable, and this will stimulate political pressure and lead to conditions which breed political corruption. It will not only call for efficient and effective administration of high integrity, but also for public understanding and cooperation to make this system work.

Notwithstanding the state-wide majority received by the new measure, Initiative 171, it was strongly opposed in many communities. There will be numerous areas of local disagreement on the kind of licensing policy to be followed, the number and location of licensed premises, and the intensity of the enforcement program.

This administration is going to be extremely rigid in its enforcement of the law. It will be most strict in the enforcement to prevent violations involving minors and women. To this end, I believe the law should be strengthened by imposing upon the individual man and woman a greater responsibility for violations of liquor laws and regulations. Penalties should also be increased.

This administration will not attempt to vitiate Initiative 171 by administrative practice. It will make every effort to protect all rights conferred upon applicants and licensees under the act. It will undertake to carry out the provisions of the new law fully and enforce it rigidly and vigorously.

We must recognize, however, that the new policy constitutes a liberalization of the liquor law, and that it will intensify the liquor control problem. This will increase to a marked degree the need for additional licensing, supervision, inspection and enforcement services.

Before leaving this subject, let me emphasize one thing in connection with the licensing of establishments under the law. The Liquor Board will issue licenses only on the basis of merit. The attempt to gain preferred treatment through employment of special representatives at high fees, or through any other scheme to exert influence, will not be tolerated. Such maneuvers will be unavailing if discovered before the Board has acted, and will result in cancellation of licenses, if not discovered until afterwards.

Likewise, any attempt to gain protection from the fair and orderly enforcement of the law pertaining to the operation of establishments will be equally futile, and any attempt in this direction will, when discovered, react to the detriment of those seeking to circumvent the law.

We all recognize the possibility of rackets arising in connection with the liquor business, and I earnestly ask for the active cooperation of legislators, law enforcement officials, and the public generally, in eliminating these rackets completely and permanently.
HIGHWAYS

Washington, once one of the top states in highway development, no longer holds a position of highway leadership. I shall not attempt to explore for you the seriousness of the highway problem. A competent legislative committee has made so intensive a study of its many ramifications as to make any brief comments I might now make wholly superficial. That committee is in the process of reporting to you not only on our highway needs but upon a number of alternative plans of highway financing.

The program contemplated in the interim committee’s report will require the expenditure of huge sums of money annually over a long period. It will eventually require substantial increases in highway revenues. Before we initiate any such huge expenditures we should make certain our engineering is sound and our planning adequate. At present our state Highway Department, upon which we must depend for planning and engineering, is in dire need of revitalization. Before we can build roads we must build a highway organization. We must restore Highway Department morale. We need to make certain that present revenues are being utilized to maximum advantage.

I am confident that the people of this state share with your committee and with me the conviction that the building of an adequate highway system is not a mere expense but a sound investment. It is an investment which will pay for itself many times over in lowered upkeep, both on the highways themselves and on the vehicles which pass over them, as well as in the reduction of costly accidents. This is to say nothing of the saving of human lives—lower insurance rates—the comfort and convenience of the motorist and the attraction to the out-of-state visitor.

However, in view of the huge expenditures which such a program entails, I feel it only fair that we, as elected representatives of the people, should share with them our thinking on the various methods of financing. I urge, therefore, that before deciding upon one method of financing as against another, you invite the public to hearings and explore with them their desires as to how they would rather pay for their capital investment—whether on a pay-as-you-go basis or on a long-term funding program.

PUGET SOUND FERRY SERVICE

One of the critical issues facing the state is that of water transportation on Puget Sound. The economic and cultural development of the Olympic Peninsula and the island counties, one of our richest and more populous areas, is being jeopardized by the absence of adequate ferry service at fair and reasonable rates. Ferry users for years have protested against the services provided by the Puget Sound Navigation Company, sole ferry operators in the area, on the grounds of inadequate service and excessive rates. Continuing controversy between the public and the carrier, and between the carrier and the State Department of Transportation, culminated several months ago in the declared intent of the state to purchase and operate the ferry system through the agency of the Washington Toll Bridge Authority.

The accomplishment of that intention was forestalled last month by a Washington State Supreme Court decision holding that no authorization existed in law for the operation of a ferry system by the state in its own name or in the name of any of its agencies. Meanwhile, the ferry company has suspended operations in its own name and its certificate of public convenience and necessity has been cancelled. Such ferry service as is now being provided is rendered under a lease and charter arrangement, entered into with the ferry company by affected counties. Rates have been adjusted slightly, but they are still held to be excessive by ferry users. The period over which the present service may be extended is also uncertain.

The Supreme Court decision foreclosed any sound solution to the problem under existing law. A remedy can be provided only through legislative action and I urge you to give it your early attention.

Ferry operations generally have been jeopardized and rates forced upward because of unprofitable water hauls over routes which could be served best by bridges. It appears, therefore, that strategically-located bridges constitute one of the keys to the situation and a first step.

The second step is to clothe an agency of the state with the authority to acquire, by either purchase or condemnation, as the public interest dictates, and to operate and maintain, a ferry system. There is little or no hope that the entire area can be served adequately and at reasonable rates through the operation of a private carrier. But with the elimination of unprofitable routes through wise bridge construction, the operating problems may be so altered that a private company would be able to render
satisfactory service in the area remaining to be served by ferries. I believe that private enterprise should be permitted to function if it can meet the need as well or better than state operation. I believe with equal conviction, however, that the problem of the ferry users is so emergent that an enabling act should be passed, sufficiently broad in its scope to empower the state to meet any contingency.

It is imperative that we give the people of the Puget Sound area adequate ferry services, at the lowest possible rates, and that in the process, we make certain that in the event of state ferry operations, no one is enriched beyond the fair and true value of properties acquired.

OPERATING EFFICIENCY AND ECONOMY

The programs I have touched upon are indicative of the heavy financial demands being made upon the State Treasury, but they, by no means, reveal the full burden. When preliminary budget hearings opened, appropriation requests, including transfers, exceeded one billion dollars. It is immediately apparent that our economy cannot sustain expenditures of that magnitude.

In the printed budget which you will receive, the original requests have been substantially revised, but I am sure you will agree with me that further revisions must be made before the true budget can be realistically faced. Neither you nor I can know the full amount of appropriations required until we have opportunity to explore more fully the programs to which we have been committed.

Not only must we determine the extent of our commitments, but we must also bear in mind the amount of taxes which can be imposed without jeopardizing our economy. Before any adjustment or compromise between these opposing factors is developed, however, we must make certain that not a single unnecessary dollar is being spent for non-essential functions.

Among the economies I propose to institute is re-establishment of pre-audit: I am convinced that continuing controls over departmental spending with its resultant periodic re-evaluation of every service will result in a reversion of millions of dollars at the end of the biennium. I propose also to establish rigid controls over all state equipment. Transportation costs in the conduct of state business have reached alarming figures because of the absence of any centralized accounting. I shall re-institute the motor pool plan. I shall conduct a detailed study of all departments under my jurisdiction to determine wherein functions may be consolidated to produce reductions in the cost of governmental operations. I shall also undertake a re-evaluation of the services rendered in each department to the end that non-essential and border-line services requiring expenditure of public funds be eliminated.

These and other administrative programs will unquestionably result in very substantial savings in the cost of operating state government.

THE BUDGET

The most pressing financial problems which we face, however, are not attributable to the cost of operating the various departments and agencies. Accordingly these financial problems cannot be solved alone by making savings, however substantial, in those costs. The tremendous new demands now being made upon the State Treasury relate primarily to the augmented social security program voted by the people last November, and to the requirement that we promptly meet the urgent need for greatly increased school facilities. The additional moneys requested for these two purposes alone total more than $150,000,000. This sum is the equivalent of an increase of more than 25 per cent in the total of all appropriations for the current biennium, and represents more than an entire year's collections under the state's general revenue act.

We face the inescapable necessity of imposing new and additional taxes. In no other manner can we meet the financial responsibilities required by the augmented pension program voted by the people, and required to meet the obvious needs of education.

On the other hand, if we fail to examine each new tax proposal in the light of its impact on our economy—if we impose taxes to a point that they become recessive, we can set off a chain reaction that leads to unemployment and to economic chaos, not merely for state government, but for its people as a whole. Unless we exercise extreme care we can precipitate a condition even more serious than failure to meet these present commitments.

There is a relatively limited field for tax expansion now open to us. The income tax laws of 1929, '32 and '35 were declared unconstitutional by the State Supreme Court.
Efforts to amend the State Constitution by the legislative submission of referenda in 1935, '37 and '41 failed to secure the necessary public support for enactment. There has since been no indication that the public would view another re-submission of the question in any more favorable light. Even should it do so, no revenues could be collected under an income tax earlier than 1951 in the absence of a special session of the legislature.

Amendment 17 to the Constitution limits the aggregate levy on property to 40 mills. All of the revenues of this measure, with the exception of the proceeds of a 2 mill levy for institutions of higher learning, are assigned to the support of local government. Under such circumstances property offers no tax source of any material value to the state.

The only remaining field open is the excise tax and this field has already been crowded close to the maximum productivity that can be attained without serious injury to the economy.

We cannot impose any large tax on goods or services produced in this state that move in interstate commerce without destroying our ability to compete in national and world markets. If industry cannot compete, it cannot operate, and we would face continuously diminishing payrolls with a resultant decline in the sale of goods and services, upon which our state tax structure rests. There is only one foundation upon which we can rest our revenue burden, and that is upon the goods and services consumed or used within our boundaries. In short, we ourselves will have to absorb the full impact of additional governmental cost.

For the wage earner who is already caught in the vise of inflation this statement has grim significance. Washington already has one of the highest levels of state retail sales tax in the nation. Any additional excise taxes which strike at basic commodities will not only aggravate the workers’ already serious problem of meeting living costs, but will advance tax rates to a point where evasions and taxpayer-resistance will threaten our whole tax structure.

However insistent our revenue demands may be, they must yield to the even greater necessity of protecting the workers’ jobs, of maintaining a consumer-market in which goods will move with sufficient freedom to sustain the productivity of our present excise taxes. An increase in the business and occupation tax, if applied indiscriminately, would cripple interstate operations of most of our major industries, resulting in mass unemployment. A general increase in the retail sales tax would weigh heavily on the purchase of essential commodities by low-income earners and depress the market to a point where any revenue gains by reason of new taxes might be more than offset by losses in current tax revenue due to shrinking business volume.

For these compelling reasons, I do not at this time look with favor upon any general increase in the retail sales tax, or any substantial increase in the business and occupation tax. Instead, I believe that we should review our entire present tax structure and select, for new or increased sales, excise and privilege taxes, those special situations where increased revenue may be obtained without imposing excessive burdens or perpetuating inequities. I am convinced that, in this manner, we can produce additional tax revenue ranging from $75 to $100 million dollars for the biennium.

I have already formulated some specific suggestions along this line and I stand ready to submit them to the appropriate committees of the legislature. I am also desirous of working closely with both Houses of the Legislature throughout this session with the view of developing and enacting the least burdensome and most adequate tax program which we can devise.

CONCLUSION

The resolving of this difference between required expenditures, and expected income under the present tax structure, is a task to which all of us must devote our best efforts in the weeks immediately ahead. In meeting this responsibility we have this that is encouraging—we are seeking funds not to pay for past errors or for services previously rendered; but rather, we are seeking them for investment in the future welfare of our state and its people.

This, too, should give us courage—we are a resourceful and courageous people. However great our problems, we usually are able to find a way out. The definite limits of our obligation may not be sufficiently revealed to us in the short time we have available. We may find that this over-all budget problem is not one that can be fully solved in this present legislative session, but may require continuous study and re-examination over many months of the biennium. Whatever the eventuality,

REPORT OF SELECT COMMITTEE
WASHINGTON STATE LEGISLATIVE COUNCIL

Letter of Transmittal to Members of The 31st Legislature:
The first biennial report of the Washington State Legislative Council to the Legislature describes the principal activities of the biennium, and presents in summary form the recommendations of the Council for legislative action.
Recommendations of the Council are based on studies made by the special and standing subcommittees. The results of these studies, together with supporting documentation, are contained in the separate subcommittee reports. The attention of members of the Legislature is invited to these reports for a discussion of problems studied, the various administrative principles involved and the reasons for the conclusions and recommendations reached.

A second purpose of subcommittee reports has been to assemble information which will be of assistance to the Legislature in deciding major policy questions on which legislative action is anticipated. Fact-finding and the reporting of essential information quite apart from action recommendations, have been regarded as a major Council responsibility.

Finally, the officers of the Council desire to call to your attention the energy and perseverance with which the subcommittee chairman and all of the members carried out their respective assignments. This has been a heartening demonstration of patriotic public spirit which has risen far above partisanship and personal interest.

Respectfully,

CLINTON S. HARLEY, Chairman,

On motion of Senator Copeland, the reading of the journal of the previous day was dispensed with and it was approved.

President Meyers requested the indulgence of the Senate in order that he might present a very distinguished visitor.

The request was granted.

The President:

"Members of the Senate, it is my great privilege to present to you at this time the Very Reverend Dean McAllister, Regent of the State College at Pullman. I feel entirely incapable of presenting this distinguished visitor so I am going to ask the Reverend Frederick A. Schilling to do so."

The Reverend Frederick A. Schilling:

"Mr. President, Members of the Senate: The Speaker you are privileged to hear at this time is the Dean of the Episcopal Church of Spokane. For some time he has been President of the governing boards of universities and allied institutions, and under the auspices of this association during the year 1947 has made a personal survey of eighty-nine institutions of learning of our country, both publicly sustained institutions as well as private institutions. He just recently published a book entitled 'Inside the Campus.'"

The Reverend Dean McAllister:

"Mr. President, Members of the Senate: It is indeed a privilege to have an opportunity to speak to you briefly this morning about a few outstanding points that may have something to do with legislative action. This survey was made up of over one hundred state colleges and universities in the United States, and was financed privately as a public service. At the time this survey was undertaken there was no intention of publishing the findings; however as I went about, there was a constantly recurring demand that the findings be placed in such form as to be available not only to the institutions, but to legislatures throughout the United States."
Dean McAllister stated that the survey was unique in three respects: It was the first study undertaken by direct personal interview. Second, the study was unique in that eighty-nine institutions of higher learning were visited in the period of one year, and therefore the findings could be readily compared. Third, it was the first study ever undertaken from the viewpoint of a member of the governing board and not made by a professional educator, dedicated to some school of philosophy.

Dean McAllister added that they were trying to keep politics out of universities and colleges, and universities and colleges out of politics.

He stated:

"One Communist on our Board of State Institutions is one too many. Anyone who is trying to overthrow the government has no place in a public college or institution." (Applause.)

“They have no business to be interested in the teaching of our youth.” (Applause.)

He closed his remarks by saying that:

“As members of the State Senate you have great reason to be proud of the great contribution made by the state colleges and universities of the United States by the work of applied research, and scarcely a day passes that your life or mine is not made happier by one of these land-grant institutions.”

The Secretary read:

**COMMUNICATION**

WASHINGTON STATE SENATE
Thirty-first Legislative Session

Honorable President of the Senate, Washington State Senate,
Thirty-first Session, Olympia, Washington.

HONORABLE SIR:

I hereby tender my resignation as Senator from the Ninth District, effective as of twelve o'clock, noon, January 24, 1949.

Yours respectfully,

ERNEST C. HUNTLEY.
By Senator Binzer:

"Mr. President: It is with a great deal of regret that I shall move that the resignation of Senator Huntley be accepted."

Senator Cowen seconded the motion.

Senator Rosellini:

"It is also with regret I have heard that Senator Huntley is going to resign. Although I have disagreed with him many times, I have always found him a courteous gentleman who handled himself well, and I feel it is a distinct loss to the Senate and to the people of the State of Washington to lose him from the Senate."

Senator Dixon:

"I would like to concur in the remarks of Senator Rosellini; and I know the object of his resignation is for him to go further into the field of state government which will give him a greater opportunity to serve the people of the state. "I have served with him several sessions and have found him to be fair and impartial, and I hate to see him leave this body because he is a man who has served the State of Washington well. He has voted his convictions, and has been a very good Senator.

"Now I understand he is going to be taken into the Governor's cabinet, and up there he will have a greater opportunity to serve the people of the state; and knowing that, is the reason I want to agree with the rest of the Senators and allow him to resign to be of further service."

Senator Greive:

"I move that the rules be suspended and these tributes to Senator Huntley spread upon the journal."

Senator Cowen seconded the motion.

The motion carried.

The President declared the question to be on the motion by Senator Binzer that the resignation of Senator Huntley be accepted.

DEAR SIR,

You are hereby notified that you have been appointed to the office of State Senator, 9th district on the 24th day of January, 1949, on taking the oath of office on back hereof.

IN WITNESS WHEREOF, I have hereunto set my hand and seal this 22nd day of January, 1949.

KENNETH McNEILLY, County Auditor
and Ex-Officio Clerk of the Board of County Commissioners.

The President requested the Sergeant-at-Arms to escort the Associate Justice, Walter B. Beals, to a seat on the rostrum.

The Sergeant-at-Arms escorted Associate Justice Walter B. Beals to a seat beside the President.

The President directed the Sergeant-at-Arms to escort the Honorable Asa V. Clark to the bar of the Senate.

The Sergeant-at-Arms escorted the Honorable Asa V. Clark to the bar of the Senate.

The President:

"The Honorable Asa V. Clark has been duly appointed by the County Commissioners of Whitman County to fill the vacancy from the Ninth Senatorial District. His election has been certified to by the Secretary of State, and he is eligible to take the oath of office."
Walter B. Beals, Associate Justice of the Supreme Court of the State of Washington, thereupon administered the oath of office to the Honorable Asa V. Clark. (Applause.)

Senator Cowen:
"Mr. President, I think it fitting that we hear a few remarks from Senator Clark."

Senator Clark:
"Mr. President: I would like to assure this group that it is with the deepest humility that I accept this position, and I want to assure you I will strive to uphold the dignity and honor of this honorable Senate." (Applause.)

Senator McCutcheon:
"I don't know what the rule number is over there, but over here it is No. 40. We don't greet you as a newcomer, but as an old friend."

The President directed the Sergeant-at-Arms to escort Associate Justice Beals to the President's chambers.

Associate Justice Beals was escorted to the President's chambers by the Sergeant-at-Arms.

MOTION
On motion of Senator Clark, Rule 40 was suspended, and the members of the Senate were treated to cigars.

The Secretary read:

MESSAGE FROM THE GOVERNOR
State of Washington, Executive Department, Olympia, January 21, 1949.

To the Honorable, The Senate of the State of Washington.
GENTLEMEN:
I have the honor to submit herewith the following appointment, subject to your confirmation:

STATE TAX COMMISSION

Respectfully submitted.
ARTHUR B. LANGLIE, Governor.

MOTION

Senator Binzer:
"I should like to move the immediate confirmation of the appointment of Ernest C. Huntley as a member of the State Tax Commission. We have just had his resignation, but we feel that he will be with us in perhaps an even better capacity than as a member of the Senate, so I am asking at this time the indulgence of the other side of the House to request their consent to the immediate confirmation of Senator Huntley's appointment."

Senator Cowen seconded the motion.

Senator Rogers:
"I would like to state that Senator Huntley has been a member on the Legislative Council of the Senate, where he worked faithfully and diligently and did an exceptionally fine job in that position. He has always been forthright, kind and considerate, and he has done a fine piece of work in the Senate; and I know on the Tax Commission he will do equally as well. For that reason I wish to second the motion for the immediate confirmation of his appointment to the Tax Commission."

EXPLANATION OF VOTE

Senator McCutcheon:
"I want to concur in everything that has been said about Senator Huntley as a member of this body. I have known him many years. However, I have been thinking this matter over and I only speak now to explain my vote on this confirmation. It is
with regret that I have to call the Senate's attention to the fact that Senate Bill No. 12 passed by both Houses at the last session made it impossible for any member of the Senate or House to be eligible for service in any position under the Executive Department, not by resigning but for the entire period for which he was elected. At that time I offered an amendment to restrict it to any office under the Governor. I knew when I offered it that I was striking my good friend, Senator Jackson, off the payroll. The bill was for the period for which you are elected. In other words, the provision is in the State Constitution that no Senator is eligible for appointment for the period for which he was elected. I am not going to say anything further. My feeling is as warm for Senator Huntley as any member on this floor. I want to be consistent in my voting."

The President declared the question to be on the motion by Senator Binzer to immediately confirm the appointment of Ernest C. Huntley to the State Tax Commission.

The Secretary called the roll, and the appointment of Ernest C. Huntley to the State Tax Commission was confirmed by the following vote: Yeas, 41; nays, 2; absent or not voting, 3.

Those voting yea were: Senators Binzer, Clark, Copeland, Cowen, Dahl, Davison, Dixon, Earlywine, Edwards, Flanagan, French, Ganders, Greive, Hall, Harley, Hutchinson, Jackson, Jones, Keefe, Kimball, Lee, Lindsay, Lindstrom, McDonald, McMullen, Morgan, Ostrander, Parker, Pearson, Robertson, Rogers, Rosellini, Roup, Sears, Schroeder, Shank, Tisdale, Todd, Westberg, Witten, Zednick—41.

Those voting nay were: Senators McCutcheon, Sapp—2.
Those absent or not voting were: Senators Happy, Miller, Rutter—3.

The President directed the Sergeant-at-Arms to escort former Senator Huntley, now a member of the State Tax Commission, to the rostrum.

Former Senator Huntley was escorted to the rostrum to a seat beside the President.

President Meyers:

"Senator Huntley, I want to say for the sake of having it recorded for posterity that I think you are the finest Senator I have ever had the pleasure of working with through my long experience as Lieutenant-Governor."

Senator Huntley:

"Mr. President, Members of the Senate: I want to say that this has been a tremendous decision for me to make. I leave the Senate with a lot of regrets. I have enjoyed working with you; and if it had not been that I felt I could be of more service to the State, I would not have resigned. If the Sergeant-at-Arms will wait on me, I will give you all a treat and suspend Rule 40." (Applause.)

The Sergeant-at-Arms thereupon waited on the former Senator Huntley, who treated the members of the Senate to cigars. (Applause.)

The Secretary read:

Tremble the rhododendron bells,
The rose-pink rhododendron bells.

Tall, slender trees of evergreen
That know the winds of Puget Sea,
And narrow leaves of satin's sheen,
And clusters of sweet mystery—
Mysterious rhododendron bells,
Rare crimson rhododendron bells.

O hearken—hush! And lean thy ear,
Tuned for an elfin melody,
And tell me now, dost thou not hear
Those voices of pink mystery?
Voices of silver throated bells,
Of breathing, rhododendron bells.

The President of the Senate requested the indulgence of the Senators in order to introduce a famous guest, and the request was granted.

President Meyers:

"May I present our Mayor, Ernest Mallory, who will introduce our famous guest from Canada." (Applause.)

Mayor Mallory:

"Mr. President, Honorable Members of the Senate: We have in our city today a guest from across the border—a good friend. He is here at our request to attend our Chamber of Commerce meeting last night and our guest for several days in the city. He comes from the southern part of Vancouver Island, from Cadboro Bay, Victoria. He is known as 'The Voice of the Canadian Navy,' having served in the Navy during the last war. May I present the Reverend William Hills."

The Reverend William Hills:

"Mr. President, Mr. Mayor, and Honorable Members of the Senate of the State of Washington: I have been given this unique privilege of appearing as a foreign subject on the rostrum of the State Senate, bearing greetings from British Columbia and offering to you one or two thoughts that may share acceptance in your heart. I have been rarely honored by such an opportunity as I have here.

"I am conscious that the province of British Columbia owes a great deal to the friendly attitude of this state. It seems to me the people of the Dominion of Canada and the United States are joined together in 1949 in the same kind of an enterprise as they found themselves joined in arms together in '39 right up to the end of the European struggle—the struggle for the freedom of their subjects goes on. (Applause.)

"You good people have already given to the world your bill of rights. It is written in your constitution."

He told briefly of his experience with the Canadian Navy during the war, of his frequent trips to the United States as an envoy of good will, and said that at some future time he might be located in the United States. (Applause.)

The request was granted, and the pages were escorted to the bar of the Senate by the Sergeant-at-Arms.

PRESENTATION OF GIFTS TO THE PAGES

Senator Zednick:

"Mr. President: It is my happy privilege at this time to represent Senator David Cowen of Spokane County. I think we are all familiar with the generosity of Senator Cowen. Many of us know a lot of the great philanthropies of Senator Cowen in his own
community. Few of us realize all that he has done for the people of his community and this state. He has even done something for members of this Senate.

"I remember about three sessions ago when Dr. Cowen presented each member of the Senate with a wonderful tie. We have all enjoyed the beneficence and generosity of Senator Cowen.

"Today he wants to express his appreciation to the pages of the Senate and has asked me to be his voice. He is giving each of you a very fine present. It is a wrist watch. I am sure he did not have it in mind to give you a watch to get you here on time. I am sure that under the guidance of our Sergeant-at-Arms you each are able to do that. But I am sure Senator Cowen may have had it in mind, incidentally, to get you to school on time, and also to impress upon you the value of time, the value of every moment, the necessity in your life of improving every shining hour, of making yourselves fine, upstanding citizens in the future by the use you make of every second, minute, hour and day in the year. I am sure it is to impress that upon you and to hope that you will wear these watches for many years of happy, successful lives." (Applause.)

The pages were each presented with a Bulova wrist watch, and it was announced that any pages not present at the time would receive theirs later. (Applause.)

The Secretary read:

**House Joint Memorial No. 8**, by Representative Henderson:
Relating to canals connecting Puget Sound, Grays Harbor, Willapa Harbor and the Columbia River.
Referred to the Committee on Commerce, Manufacturing and Transportation.

**House Joint Memorial No. 18**, by Representative Washington:
Relating to the creating of the Columbia Valley Authority.
Senator Rogers moved that the rules be suspended for the purpose of considering House Joint Memorial No. 18 in the Committee of the Whole.
Senator Binzer moved that the motion be laid on the table.

**POINT OF ORDER**
Senator Rogers:
"The motion to suspend the rules is undebatable."

The President:
"No, Senator, I think the motion to lay the motion to suspend the rules on the table is in order."

Senator Rogers:
"Mr. President, how can you lay on the table a motion which is undebatable?"

The President:
"No debate has been offered. We can have as many as eight or ten motions pending at the same time before the Senate. It is up to the Chair to determine the priority of
the various motions. If the Chair is correct that the motion to lay on the table the motion to suspend the rules is in order, then the Chair must put that motion first."

Senator Rosellini:
"Can you lay on the table a motion that is undebatable?"

The President:
"You can lay on the table any motion."

Senator Rosellini:
"You cannot lay any motion on the table that is undebatable. I think that is Senator Rogers point."

Senator Rogers:
"If I may refer to the rule, Rule 52 says: 'The Senate may at any time, by a vote of the majority of the members present, suspend the rules and orders of the Senate for the purpose of going into the Committee of the Whole for the consideration of any bill, memorial or resolution before the Senate.'"

The President:
"The Chair is proceeding under the established rule that the motion to lay on the table is of higher rank than the motion to suspend the rules. A motion to suspend the rules requires a two-thirds vote."

Senator Rogers:
"I refer you to Rule 52 which states 'a vote of a majority of members present.' That is the only motion by majority vote."

The President:
"It takes two-thirds majority to suspend the rules."

PARLIAMENTARY INQUIRY

Senator McCutcheon:
"What is before the Senate? May we have the memorial read?"

The Secretary read House Joint Memorial No. 18 in full.

The President:
"The motion to suspend the rules is an incidental motion which has priority over any motion to lay on the table. May I say the Chair was in error and that the motion to suspend the rules to go into the Committee of the Whole requires only a majority vote."

Senator Parker:
"They can do that when that particular bill, memorial or resolution is properly before the body. Unless we suspend Rule 61, it must be read on three different days and referred to the Committee on the first reading."

The President:
"They can go into the Committee of the Whole by majority vote to consider any memorial or bill."

Senator Rosellini:
"With reference to Senator Binzer's motion to lay on the table the motion by Senator Rogers, I feel that is out of order."

The President:
"I think we are in order now to suspend the rules for the purpose of going into the Committee of the Whole to consider this memorial."

Senator McCutchéon demanded a roll call on the motion and the demand was sustained by Senators Dixon, Tisdale, Lindstrom, Hutchinson, Ganders, Sapp, Todd, Rosellini, Rogers and Greive.
Senator Parker:

"How are you going to get around Rule 61 unless you suspend the rule? Under Rule 61, every bill shall be read on three several days unless the Senate deem it expedient to suspend this rule."

The President:

"The question is on the motion to suspend the rules and the Senate resolve itself into a Committee of the Whole to consider House Joint Memorial No. 18."

The Secretary called the roll on the motion, and the motion lost by the following vote: Yeas, 17; nays, 26; absent or not voting, 3.

"At this time I wish to request the indulgence of the Senate in order to present two distinguished visitors, one of whom has come a long way. A member of Parliament, he will be the principal speaker at the oratorical contest held today at 1:30 p. m. I have invited him to sit in with us this morning. I would like first to present the Honorable British Consul, of Seattle, Mr. Vaughan, who will present the distinguished visitor from London, England."

Mr. Vaughan:

"Mr. President, Members of the Senate: I am particularly pleased to be the British Consul stationed at Seattle; my district including the three Western states and Alaska, and to have this opportunity of being here today and watching something of your deliberations, and I am especially happy to be able to present to you a member of the British House of Commons, Mr. Ernest Marples, who represents the Conservative interests, to which seat he was elected in 1945.

"Mr. Marples is a distinguished younger member of the Conservative party, and I believe he is a man with a great future. He is a business man, and I think he represents a new interest in the Conservative party. I am happy to present Mr. Marples."
Mr. Marples:

"Mr. President and Members of the Senate: It is indeed an honor to be asked to speak to you today, as it is not often a member of the lower House in England is entitled to go into the upper House and say a few words. Not only should a young Conservative see America, but America should see a young Conservative.

"In England all political parties are quite united in a grim determination to be standing on our own feet by 1952. We want our own self-respect back and hope to be able to pay our way by that year.

"We are grateful for all the help you have given us; but quite frankly, Members of the Senate, the quicker we are able to stand on our own feet, the happier we will be.

"I wish to conclude by thanking you very much for the honor of being allowed to address you; to wish you success in your endeavors; and, in such a Chamber as this, wisdom for your deliberations. Thank you." (Applause.)

SPECIAL MESSAGE OF GOVERNOR ARTHUR B. LANGLIE TO THE LEGISLATURE

Mr. President, Mr. Speaker, Ladies and Gentlemen of the Legislature:

I have requested the privilege of appearing before you today in joint session because I feel the time has come when we must, in unison, face squarely, sincerely and in the interests of the people of this state, the financial dilemma which confronts us.

It is a responsibility which we have as elected representatives of a citizenry that has placed its faith in us. Never, to my knowledge, has a Legislature had a more serious or more perplexing problem. The obligation is one that should rest most heavily upon each and every one of us—you as the legislative—and I as the administrative officer. Meeting that obligation—and meet it we must—requires our most careful and considerate judgment without thought of partisan advantage. It is in that spirit I approach you today.

In this message I shall confine myself to the two major problems as I see them—first, the minimum needs of state government which must be met if we, as a growing state, are to make the progress to which we are entitled, and second, the financial problems presented by that objective.

As you all know, the four major demands upon state government today are:

1. Social security as presented to us by mandate of the people.
2. State aid to education due to conditions aggravated by an unprecedented population increase.
3. Adequate development of our highway system.
4. Maintenance of our public institutions.

AID TO THE AGED

It is true that many of us did not support Initiative 172. It is likewise true that many who did support it did not realize the possible abuses which were so cleverly drafted into it by those influences which have as their objective the destruction of our economy through the wrecking of our financial structure. The fact remains, however, that our people, not only through that initiative but every other means of expression available to them, have clearly indicated their desire to care adequately for our aged and their willingness to pay for it. That is a mandate which I do not care to avoid and which none of us has the right to ignore.
SCHOOLS

In the last few years, our population has been increasing at a rate in excess of 100,000 per year. This influx has taxed our school facilities far beyond capacity. If not another new family were to move into this state, the pre-school-age children already here will INCREASE our school population by 20,000 per year. Already we have children being taught in rented church rooms, Quonset huts, walled-off basement rooms and buildings which are recognized fire traps. This is not a problem that can be shrugged off lightly. It is a problem that you and I are called upon to face with courage and determination.

HIGHWAYS

There was a time when our highway system ranked with the best in the nation. I need not point out to your body how far that is from being true today. All you have to do is look at the excellent and comprehensive report of your own special interim committee on highways. The need is clear; the obligation is ours to meet.

PUBLIC INSTITUTIONS

Here again the population curve has not only caught up with us, but has so far outdistanced us that we find most deplorable conditions in institution after institution. Overcrowding does not even begin to describe the situation. I wish that each of you could have the opportunity of seeing first-hand some of the problems with which our institution heads are confronted. Perhaps you have noticed that the press has already taken cognizance of conditions and is focusing public attention on the overcrowding caused by space limitations. Need I repeat—this is our responsibility.

I am sure that you men and women recognize, as do I, that these are matters of major concern. We dare not let this Thirty-First Session of the Legislature come to a close without first having made provision for at least the minimum requirements which they present.

Once we have recognized these needs as responsibilities of government to its people in a developing, progressive state, we are confronted with the inevitable problem of determining the method which best will meet those needs on a realistic but not over-expansive basis.

May I call your attention to the fact that when the first budgets were presented for consideration they indicated demands of more than two hundred million dollars above anticipated revenues. This is to say nothing of the fact that the anticipated revenue figure had been inflated by more than $30,000,000. The first problem which confronted my administration was that of facing those budget figures realistically to determine which of them could be classified as excessive in the light of our financial dilemma.

The first step was an appraisal of the mandatory demands of Initiative 172. Of necessity, this had to be done on the basis of a limited experience record. By visualizing the areas of possible abuses and a determination to wipe them out through sound administrative practice and a tight check-rein, it was concluded that $47,000,000 could be cut from that budget.

BUDGET REQUESTS

The next step was a fine-tooth scrutiny of every departmental budget request. Here I directed every department head to roll back budget requests to at least the previous biennial requests. I have asked that every non-essential job be eliminated. Already this drastic slashing process is underway. You may be sure that through the effective use of pre-audit, every possible saving will be made even on these rolled-back budgets. As evidence of that, I refer you to the budget reversions under pre-audit of $47,702,256 in 1943 and $57,118,567 in 1945. Through drastic curtailment of estimates in every area of state government we were able to reduce the anticipated discrepancy between possible revenue and essential requirements to approximately $100 million. This was no easy task and to hold it to that level will require not only the strictest economy and the best possible administrative practice, but also the elimination of many borderline services to which many will perhaps object.

MINIMUM REQUIREMENT

I am convinced, after the most careful analysis that you, as legislators, and I, as the administrative officer, cannot fulfill our obligations without facing up to the necessity of this minimum requirement of $100 million in new revenue.

Disagreeable though it may be, we must, of necessity, have the courage to recog-
nize the facts as we face them today. I am as reluctant as anyone in this state to impose additional tax burdens on our people, particularly at a time when our economy shows signs of being harder pressed than it has been for many years.

It is regrettable that we are in this position and it need not have been so. Eight years ago, when our involvement in war seemed imminent, and during the years of that war, I foresaw that such a need as this would arise in the post-war era. Those were the days of an expanding economy and days when, by virtue of the war demands and the shortage of materials, we were unable to keep pace with our population increase. I accordingly embarked upon a program of setting aside reserves for the very needs which today are upon us.

REDUCED RESERVE

Four years ago, there was a surplus of about $75 million. That surplus, instead of having been dissipated in a wild spending spree, could very well, and should have been today in excess of $125 million. With such a reserve, we could now meet the demands which are upon us and which we dare not avoid nor evade. But unfortunately, this was not the case, and we find ourselves instead with a reserve of less than $25 million in the General Fund.

This leaves us only one alternative and that is, to face the problem squarely and determine in our best combined judgment where and from what source we can obtain the necessary revenue to carry on the minimum requirements of state government and meet the responsibilities and obligations which are clearly ours.

With the aid of our Tax Commission and tax experts from various parts of the state, I have explored carefully every possible source of revenue, with the thought in mind, that the final answer must be that source which would cause the least possible disruption of our business economy.

SALES TAX

I turned first to an exploration of an increase in the sales tax. Some favor increasing our sales tax from 3% to 5%. Such a step, I believe, would be disastrous to the economy of the state. It would be repressive to business. Out-of-state businesses would be encouraged to set up mail-order operations here in competition with our own established businesses. There would be evasions that we couldn't possibly police with 10 times the tax policing force we have now.

No state in the union has gone over 3% in its sales tax. If this state were to enact a 5% sales tax, it would be taking an economic gamble, staking the economy of the state on an experimental step that all other states have avoided.

When a sales tax goes too high, people watch their buying more closely and tend to eliminate all but the most essential purchases. This leads inevitably to a declining sales curve, and business is hurt.

In addition, a sales tax places the burden on families with children. It strikes at essential purchases, such as for milk, bread and clothing. It hits unduly hard at the average wage-earner, and adds to the inequities of the tax load.

EXCISE TAXES

As another alternative, the possibilities of a series of excise taxes have been thoroughly explored. After careful study of these proposals, it is now apparent that taxes of this type would seriously cripple business, create unemployment and that they are certainly not the best answer to our problem. An increase in the business and occupation tax, for example, would place an inequitable burden on many businesses, particularly those of high volume and low margin of profit.

BOND ISSUE

A bond issue of $85 million has been proposed as another alternative. This, in my opinion, is not basically sound. It is merely an escape from realities. It is never good policy to borrow in good times, saddling ourselves with obligations that we would be many years retiring. Moreover, we have no assurance whatsoever that we would not have a recurring demand for another bond issue two years from now.

An $85 million bond issue would place a $3 million burden per biennium on the state in interest charges alone, to say nothing of amortization costs. Besides, it would put an additional $1 million load on our already overburdened counties for a special election, and would cost the state approximately $100,000 for advertising the election. It would involve unnecessary delay and would not provide the immediate answer
that our present situation demands. Such measure shows a complete lack of courage on our part and plays right into the hands of radicals and spenders and offers no real solution to the problem.

We have been putting off the payment of bills for public benefits and services so long that it actually seems that some people are convinced we can go on doing so forever. Well, it can't be done. The easy credit, easy spending days are over and if we expect to save this country from national socialism, we'd better stop deferring payment on present existing obligations and pay them as we go. When we do that, the people will not ask for services they are not willing to pay for. They will not condone waste, inefficiency and graft in public office, and they will not be led amiss by loud-mouthed demagogues who promise everything with no cost to the individual but who talk of some mythical soak-the-rich scheme that, no matter how impractical, sounds good—but only further jeopardizes public finance.

It has been suggested in some quarters that the Legislature appropriate what money there is and let it go at that. This, of course, is merely another escape method and does not even begin to meet the responsibilities for which we were elected. It would create statewide disruption of services to our people and entail needless suffering and hardship, thereby creating a state of utter confusion.

This would be the best way I know to play directly into the hands of the Communists. Their basic pattern is to create confusion in government, provide spending programs galore, but never make provision for money to pay for them.

There are three ways to promote Communism in this state:

1. To be a Communist and work at it.
2. To work along with them knowingly, thus aiding them in their programs.
3. Innocently and naively to assist them in reaching their objectives.

Let us not allow ourselves to be included in this third group by completely sidestepping our clear-cut responsibilities by letting the public continue to think there is some easy way of financing government without putting the burden on them.

### INCOME TAX

The income tax proposal now under consideration is, in my judgment, the only fair answer to our problem. The income tax which has been proposed would be a flat 2% on net income, with $1000 exemption for the husband and other $1000 for his wife.

This income tax has the advantage of a very definite ceiling: it cannot be higher than 2%, assuming the Supreme Court's interpretation to be that income is "property." Our 40-mill tax limitation law specifies that property can be taxed only at 50% of its value and that the rate cannot exceed 40 mills. This holds the income tax ceiling at 2%.

By its own terms, the income tax law would expire in two years. It is clearly an emergency measure and can be abandoned as soon as the emergent need has passed. It would have to be re-enacted to remain in force longer than the present emergency. Everyone would pay the same flat 2% on income. One of its most important advantages over all the other tax proposals is that it requires no payment unless, and only when the individual is making money. This feature is very important in the event we should find ourselves faced with a declining business curve.

It has not been easy for me to come to these conclusions. The very thought of imposing additional burdens upon our people has caused me the gravest concern.

It was only after a most painstaking study—after seeking the most competent advice available—analyzing the inescapable financial demands—searching my own conscience and seeking divine guidance that I have become convinced that this is the most logical answer in the light of our financial dilemma.

The Tax Commission, two members of which have served this state ably for twenty years, have wholeheartedly supported the proposal I am making to you.

Tax experts in our institutions of higher education believe it the most effective and equitable way to solve the present financial need.

I have yet to find anyone who has made a thorough study of our tax structure and related it to the present inescapable needs who is not willing to agree with me that this plan is the only logical solution in this emergency.

As I commend this proposal to you I am not asking you to take what is normally a fair share of the responsibility for its imposition, but rather I want you to know that I am willing to carry that responsibility myself with all of its implications.

I do this willingly rather than take the responsibility for the further development of disgraceful conditions in our schools and our institutions or our failure to meet our obligations to the aged of our state.
There are many who have told me that it is political suicide to make this particular proposal. Ladies and Gentlemen of the Legislature, this is an emergency and must be met with courage and foresight. There should be no place in our deliberations for talk of political expediency. The answer must be found in our hearts. (Applause).

The Speaker resumed the chair, and requested the special committee to escort His Excellency, Governor Arthur B. Langlie, and Lieutenant Governor Victor A. Meyers from the House Chamber.

Senator B. J. Dahl delivered the following eulogy on the life of Albert W. Anderson:

Albert W. Anderson was a native of Illinois. His father, a locomotive engineer, saw to it that Albert became acquainted with life in switch yards and roundhouse, learning the painting and finishing trade in an exacting school whose chief lesson—that nothing but perfect work can pass the test or be acceptable—was to remain with him through life. Anything to which he turned his hand, whether the writing of a letter or building a house, exhibited perfect workmanship.

A railroad strike, ending with dismissal of all workmen participating, was the cause of his father leaving Galesburg for the Pacific Coast. Albert, then nineteen years of age, came with him. Upon reaching Spokane in September, 1889, they were told of the great fire which had lately destroyed so much of the city, and remained to investigate chances for work. A story of northeastern Washington's wonderful climate and farming possibilities lured them north to Chewelah, then the end of Austin Corbin's new rail-road, the Spokane Falls and Northern. Both homesteaded in Stevens County and most of Mr. Anderson's life was spent there. On June 22, 1902, he married Frances Plowman, a school teacher of Frazee, Minn. That year he bought a sawmill, installed it on his ranch in Summit Valley, southwest of Addy, and operated it five years. While engaged in running the sawmill, the difficulties of getting supplies to the mill and lumber to market over the pioneer roads called his attention to the need of a constructive program, aiming toward permanence in road building. This could not be done by the pioneer rule of each settler hewing out the way to his neighbor's ranch, following the line of least resistance, up and down hills, over creeks and corduroys, detouring from mudholes in spring and fall, battling snow and ice in winter. He believed the state should aid in the project.

On this theory, Mr. Anderson became a candidate for the Senate in 1906, was elected, thought, talked and worked for a state program of road building through the sessions of 1907 and 1909. During the second term he was successful in obtaining an appropriation for survey and building of two miles of probably the first state-aided road in Stevens County. He was returned for two additional sessions. Grants in years following helped accomplish the completion of the Addy-Gifford Highway.

In 1908 he moved to Addy where he engaged in the merchandise business for the following twenty years. In 1924 the family moved to the ranch seven miles southeast of Addy and there Mr. Anderson spent the remainder of his life. He was active in the Grange, civic enterprises, better roads and improved rural communities. He was building up a herd of blooded Guernsey dairy cattle when death ended his career.

Mr. Anderson was born August 17, 1870 in Galesburg, Illinois, and died November 21, 1947 at his farm home.

He is survived by his widow, Frances; a son, Paul, of Addy; a daughter, Dorothy May, of Washington, D. C.; a sister, Minnie, of San Francisco; a brother, Edwin, of Klamath Falls, Oregon, and three grandchildren.

Representative Ralph A. Smith delivered the following eulogy on the life of Thomas C. Bloomer:

Thomas C. Bloomer, former member of the Legislature and prominent in the development of industries in southwestern Washington, had an unwavering faith in the future of the state and spread this progressive spirit of promotion wherever he resided.

He attended schools in Michigan and his business education included legal training. He moved west many years ago and engaged in the furniture business. He operated the Raymond Hotel for twenty-five years, thus acquiring a wide acquaintance. He sold this business a year ago and moved to Seaview to organize the Bloomer Cranberry Company at Ilwaco. In recent years he had acquired an extensive area of cranberry land and had for some time managed the Pacific Cranberry Exchange.

Mr. Bloomer, deeply interested in politics during his long residence in southwestern Washington, was elected on the Democratic ticket to serve in the Senate from the 19th District of Pacific and Grays Harbor Counties in both the sessions of 1937 and 1939.

He helped organize the Kiwanis Club of Raymond and later was affiliated with the same fraternity in the Ilwaco-Long Beach community. He was a member of the Raymond Chamber of Commerce, the Men's Club and an ardent supporter of the East Side Boys' Club of Portland, Oregon. In fraternal circles he belonged to the Redmen.

Mr. Bloomer was born in Jonesville, Michigan on July 5, 1883 and died November 7, 1948 in Seattle.
Survivors include his widow, Gertrude; two sisters, Mrs. Laura McDaniel, San Francisco, and Mrs. Mary Keenman, Portland, Oregon, a brother, Alfred Bloomer, Portland, Oregon.

Representative Andrew Winberg delivered the following eulogy on the life of Elmer E. Boner:

Death came August 8, 1947 to Elmer E. Boner, 76, pioneer Aberdeen attorney and former State Senator. He was born in Missouri in 1871.

Mr. Boner received his education in both public and private schools, including Franklin Academy and the University of Nebraska. Admitted to the bar in 1901, he located in Aberdeen and continually had been active in the civic life of city, county and state.

He was elected from Grays Harbor County to the State Senate for both the 1915 and 1917 sessions, serving as chairman of the Judiciary Committee and a member of the Educational Committee. During that time he worked closely with Henry Suzzallo, President of the University of Washington to aid the building program of that institution. One of Mr. Boner's most cherished possessions was a letter from President Suzzallo in appreciation for the long hours of work devoted to the welfare of the University.

One of the early advocates of public power for his area, Mr. Boner was attorney for the Grays Harbor Public Utility District for seven years, and on retiring last January was honored by the Northwest Public Power Association with an honorary life membership.

He was also a member of the state and county bar associations. Elks, Knights of Pythias and the Southwest Washington Public Utilities Association.

Boner, Red Cloud, Nebraska, William, Denver and Loren, Norton, Kansas; three sisters, Mrs. Viola Wilson, Kansas City, Missouri, Mrs. Leora Drury, Hibbings, Wyoming and Mrs. Cora Cassidy, Unionville, Missouri.

Representative George W. Kupka delivered the following eulogy on the life of Waldemar E. Bronson:

We pause a moment from our day's deliberations to record for future reference, the life and achievements of one who, too, worked here in the biennial business necessary that free government of state and nation shall remain strong.

Waldemar E. Bronson, early State Senator and Tacoma civic leader, moved to the Pacific Coast from Minnesota and was identified with the development of the northwest lumber industry. He was born in Wisconsin March 12, 1858, and died July 5, 1947 in his Tacoma home. He was 89.

As a young man he was associated with Griggs, Cooper and Company, a large mercantile firm in Minnesota. Railroads were building terminals on Puget Sound and opening new territory, and with many others he journeyed west. He was accompanied by Colonel C. W. Griggs, of the Minnesota firm, who later established the St. Paul and Tacoma Lumber Company. Mr. Bronson joined with the lumber concern as purchasing agent and store manager, a position he retained until retirement about fifteen years ago. He was one of the first presidents of the Tacoma Chamber of Commerce.

Always interested in precinct and county politics, Mr. Bronson faithfully held many minor assignments for the advancement of his party. In 1904 he filed for a place in the Senate from Pierce County and was elected. He served with distinction in the 1905 session.

He is survived by his widow, Lizzie M., a son, Lea Bronson, Tacoma, and two grandchildren; a third, a fighter pilot, was lost in the Pacific theatre action in 1945.

Senator Dale McMullen delivered the following eulogy on the life of Edward L. French:

The death of Edward L. French closed the career of a public official, who, as a legislator and agriculturalist, made notable contributions to county and state.

Mr. French, 86, was born August 19, 1860, in Ripley County, Kansas and died July 29, 1947 in Vancouver, Washington. He came to Clark County in 1894 from Minnesota and planted prune trees and was one of the earlier growers who developed drying processes.
Between 1909 and 1928, Mr. French served three terms from district, then the 23rd, as State Representative, and eight years as Senator. In his several sessions in both the Senate and House, Mr. French attended to the affairs of his district and state with diligence and distinction. He exerted a major influence in legislation necessary to construct the Interstate Bridge.

Under Governor Hart, Mr. French came into statewide prominence as the first state director of agriculture, under the administrative code, established in 1921.

In 1924 in a "Garrison" finish he lost the Republican gubernatorial nomination to Roland H. Hartley. Again in 1928, Mr. French entered the primary campaign for nomination as governor and was defeated.

Austere in his private life, Mr. French was generous and tolerant. He was a member of the Presbyterian Church and the Independent Order of Odd Fellows.

Surviving are a daughter, Mrs. Walter Zinn, of Vancouver, Washington, four grandchildren and seven great grandchildren.

Representative W. J. Beierlein delivered the following eulogy on the life of Walter J. Lunn:

Among those members of former years whose voices echoed through the corridors of the capitol, Walter J. Lunn, veteran of both the Senate and House, was a familiar figure session after session. Mr. Lunn was born in 1868 in Delaware County, New York and died May 19, 1947 in Auburn. He was 79.

Mr. Lunn came to Auburn in 1886 and engaged in contracting business. He erected the first hotel and the original depot for the Northern Pacific Railroad there. He was one of the organizers of the Auburn National Bank and member of the first board of directors.

It was but natural he would be vitally interested in politics both local and state. In 1910 he was elected to the House of Representatives serving in the 1911 session. He was returned to the 1915 assembly and continued through the 1921 session. Then in 1922, Mr. Lunn campaigned for a seat in the Senate, was elected and served consecutively through six terms, the final being the 1933 session.

At every session of the Legislature, as those here who knew him can testify, he sought diligently to remedy existing laws or to aid in new constructive measures. He was conservative in his politics, independent in his views, but generous and painstaking in his decisions for the benefit of his district or county.

Mr. Lunn was a member of King Solomon Lodge, No. 60, F. and A. M.

Besides his widow, Margaret, he is survived by two sons, Evan F. and Norman W., both of Seattle; two daughters, Mrs. Leo G. Richter, Seattle and Mrs. Owen R. Marriott, Fort Sam Houston, Texas; six grandchildren and four great grandchildren.

Senator Robert M. French delivered the following eulogy on the life of Judge Arthur McGuire:

"Not gold, but only men
Make a state and nation strong."

Towering high among the men of pioneer stature who have made outstanding and lasting contributions to the building of a greater State of Washington is a former legislator, Judge Arthur McGuire, who ably served as Senator for Douglas, Grant, Okanogan and Ferry Counties from 1913 to 1917, and whose passing occurred August 13, 1948 in Ellensburg.

A brief excerpt from Who's Who in the State of Washington (1940) testifies to a long and useful life filled with devotion to his home, his country and his God: "McGuire, Arthur, Judge Superior Court, Kittitas County; born in Delphi, Indiana, 1876; son of William H. and Mary McGuire; married Dorothy Jones; educated at Wabash College, Indiana Law School; LL.D.; Prosecuting Attorney, 45th Judicial District, Indiana 1902-03; practiced law, Waterville, Wash. 1905-15; practiced law Ellensburg 1915 until elevated to bench 1930; Prosecuting Attorney, Kittitas County 1917-21 and 1923-27; State Senator 1913-1917; President Chamber of Commerce; President, Kiwanis; President Kittitas County Red Cross; Member State Judicial Council; Lodges: Knights of Pythias, Elks, Masons, Methodist."

As a young attorney in Waterville, Judge McGuire served with distinction as a lawmaker in the State Senate, where he learned that law is a living thing, embodying the best impulses of man and deriving its ultimate sanction from God Himself. This gave him an excellent insight and background for his succeeding eighteen-year tenure on the bench. He was constantly and acutely aware of his responsibilities as a Superior
Court Judge and humble in the face of his powers and duties. Idealist, but conscious of the realities of the law, he was ever steadfast in the pursuit of the ideal. Washington is a better state because he lived.

Representative Grace Kelley delivered the following eulogy on the life of Frank L. Morgan:

Frank L. Morgan, former State Senator, was for many years a leading figure in Grays Harbor County and Democratic circles. He was always interested in precinct and district organization, and filled many of the offices necessary for successful elections.

Senator Morgan was suddenly stricken and died in his law office on the afternoon of September 4, 1947. He was born in Wayland, Illinois, May 18, 1872.

He was elected to the Senate in 1938, and served in the 1939 and 1941 sessions. Some of the committees of which he was a member were the Judiciary, Revenue and Taxation, Flood Control and Elections and Privileges. During these years he was also Democratic State Committeeman.

Senator Morgan came to Hoquiam in 1892, upon his graduation from the University of Oregon. He served in the Second Oregon Infantry Volunteers in the Spanish-American War, and was cited for gallantry while stationed in the Philippines.

He was deeply interested in the work of the Y. M. C. A. and the Baptist Church, and was a member of the Fraternal Order of Eagles.

Senator Morgan is survived by three daughters, Mrs. Robert M. Carlson of The Dalles, Oregon; Mrs. Helen Boardman of Los Angeles and Mrs. Frances Greene of Denver, Colorado, Mrs. Morgan having passed away twelve years ago.

Senator Ross W. Earlywine delivered the following eulogy on the life of George Murphy:

Ardent advocate of the Stevens Pass Highway, State Senator and Representative, George Murphy, pioneer of Snohomish County, was one of the best known and beloved citizens of Arlington.

Mr. Murphy was a Past President of the Washington State Pioneers' Association, an organizer of the Snohomish County Chamber of Commerce and its first presiding officer. He was an extensive land owner in that section of the county where he lived most of his life.

He was elected to the House of Representatives in 1918 and served in the session of 1919. Then in 1922 he was returned to the Senate for the 1923 assembly. He came back for three additional sessions. In all these years of membership in the Legislature he pleaded and fought for highways uniting Eastern Washington with the West Coast, especially through the Cascade Mountains via the Stevens Pass route. He lived to see the highway completed.

Mr. Murphy was born August 8, 1872 in Brockridge, Ontario, Canada, and died in Arlington November 25, 1947.

Survivors include his widow, three sons in Arlington, two brothers, one, Arthur Murphy of Seattle.

Representative Chet King delivered the following eulogy on the life of Fred Norman:

Fred Norman, Republican Congressman, for many sessions a member of both the Senate and House in the State Legislature, was born on a farm near Martinsville, Illinois March 21, 1882, and died in Washington, D. C., April 18, 1947. He was 67.

Mr. Norman was a Representative in the 80th Congress at the time of his passing. He worked as a farm hand, in logging camps and in shipyards before becoming head of a wholesale and retail tobacco business.

He began his political career as a member of the Raymond City Council in 1916. In 1918 he entered the campaign and won a seat in the Legislature, serving in the House in the 1919 session and 1920 extraordinary session. He was urged to represent the party again in 1924 and was elected to the Senate serving in the 1925 session and 1925 extraordinary session. From then on he returned for many terms. He was a leader in legislative matters in the 1927, 1929, 1931 and 1933 sessions and the 1933 extraordinary session, and closed his career in the Legislature at the end of the 1935 assembly.

Aspiring to higher honors and due to the constant urging of the party, he was elected in 1942 as Representative from the state's Third District, serving in the 78th Congress and was returned again to the 80th.
In Congress he was interested and active in farm, labor and veterans' affairs and gave equally as devoted attention to urgent legislation in the state assemblies he attended. He was a member of the Shingle Weavers' Union and the United Brotherhood of Carpenters and Joiners; one term president of the A. F. L. Central Labor Council of Willapa Harbor.

Surviving are his widow, Alice Derry; a son, Howard A., and a daughter, Mrs. Evelyn Norman Carlson.

Senator John N. Todd delivered the following eulogy on the life of Edward B. Palmer:

Edward B. Palmer, prominent attorney, served with distinction in the State Legislature many years. He was born in Illinois in 1866 and died in his hunting lodge at Darrington, Snohomish County, September 1, 1948. He was 82.

Mr. Palmer moved to Seattle from Aulne, Kansas in 1892 and established a law practice. His initial entrance to the Legislature from King County was in 1899 as a member of the House, and served the one session. In 1905 and 1907 he was a member of the Senate. In 1909 the 37th District returned him for a single term in the House. Mr. Palmer then entered the 1914 campaign and won a seat in the Senate and was returned for a period of sessions, completing his final term in 1933.

With an experience so general and so valuable in legislative procedure, Mr. Palmer was instrumental in sponsoring many bills that eventually were written into the statutes. Through the 1933 session he was reputed to have set a record for the largest number of bills introduced by a Senator. Outstanding legislation urged by him during his political career included the Local Option Bill and the State Game Code Bill.

Mr. Palmer was a renowned and skilled hunter and intensely interested in wild life and the game resources of the state. In later life he made numerous journeys to distant countries in search of big game, and regaled his friends with his varied experiences in India while in tiger hunting expeditions.

Mr. Palmer was a member of St. John's Lodge, No. 9, F. and A. M.

A widower, he is survived by a sister, Mrs. E. M. Carney, and a nephew, Edwin P. Carney, both of Seattle.

He was active in Whitman County politics and as a member of the Senate through five sessions from 1921 to 1929 inclusive, aided legislation of benefit and interest to his section of the state and just as fervently supported measures for the good of statewide institutions.

He is survived by four daughters, Mrs. Albert Kulser, Chewelah, Washington, Miss Marguerite Wilmer, Pullman, Washington, Mrs. Boyd Schlaefer, Forks, Washington, Mrs. Eleanor Teters, Wenatchee, Washington; one brother, Bernard Wilmer, East Troy, Wisconsin; one sister, Mrs. Dan Spaight, East Troy, Wisconsin; six grandchildren and one great grandchild.

PARLIAMENTARY INQUIRY

MOTION

Senator Greive moved that the Senate be at ease for five minutes to permit Senator Dixon to prepare an amendment.

Senator Dixon seconded the motion.

The motion lost.

RULING BY THE PRESIDENT

The President:
"The President rules that no substitution can be made until the entire bill has been read the second time."

The bill was read the second time by sections.

On motion of Senator Binzer, seconded by Senator Lee, the committee amendment to Section 1 was adopted.

Senators Rosellini, Greive and McCutcheon submitted the following amendment to Section 1:

Amend Section 1, line 3 of the printed bill by striking everything after enacting clause and inserting in lieu thereof the following: "Chapter 178 of the Laws of 1935."

Senator Binzer:
"Point of Parliamentary inquiry. Is the amendment, as submitted, in the proper form?"

The President:
"That is the point we are trying to determine now. No amendment shall be considered by the Senate until it shall have been sent to the desk in writing and read by the Secretary."

Senator Rosellini:
"Writing includes printing."

Senator McCutcheon:
"I think the objection is not well taken. This is the finest printing, very legible, and is the same style as is used in the advance sheets of our laws. The purpose of our rule is it shall be in writing, not oral. It doesn't say handwriting or typewriting or printing."
Senator Greive:

"I want to point out you have allowed the Secretary to read a mimeographed amendment. It could hardly be fair that an amendment which is printed is out of order."

Senator Dixon:

"Point of order. I notice in the book there are several bills introduced by title only, then a blank sheet. It is entirely in order, in my opinion, that any amendment submitted in printed or typewritten form is in order. You permitted the very same thing this morning on the trade stimulator bill, a piece of printing cut out of another document and substituted.

Senator Davison:

"I will take issue with an amendment submitted by three Senators. I don't think there is any place in our rules to permit amendments to be submitted by three Senators."

Senator Rosellini:

"Senator Davison says he cannot find a place where it states an amendment can be submitted by three Senators. I wonder if he can find a place where it says it cannot be submitted by more than three Senators. If the Chair thinks it not in order, my name can be stricken. I think if the Chair wants to follow that ruling, it is going to set a tremendously bad precedent. I don't think anybody can seriously argue whether printing, typewriting or mimeographing is not writing."

Senator Greive:

"I will also be glad to have my name withdrawn. Mr. President, I read in the 1947 journal where you ruled an amendment could be submitted in any manner that was legible."

The President:

"I wonder how the Chair would have to rule if someone would submit an amendment that the Encyclopedia Britannica be read."

Senator Rosellini:

"We have a rule in the book that an amendment must be germane to the bill. This amendment deals with an income tax. There is no question but that it is germane. It is in writing, and there is no question but that it should be read."

Senator McCutcheon:

"This is germane. This is the exact question. This is the law that we are asking the Supreme Court to reverse itself on."

Senator Davison:

"Rule 62 does not say anything about the amendment being germane. Rule 62 does not allow any amendment which will change the scope of the bill."

POINT OF ORDER

Senator Schroeder:

"How do we know? We have not heard it read yet."

The President:

"The Chair has no way of knowing whether it is germane or whether it does change the scope of the bill. I cannot know without reading it. We do follow precedents. Senator Greive has referred to a ruling made in 1947, when a printed amendment of seven pages offered by Senator Zednick was held to be in order, then the Chair cannot very well reverse itself."

MOTION

Senator Tisdale moved that Senate Bill No. 236 be re-referred to the Committee on Revenue and Taxation.

Senator Greive seconded the motion.

Senator Binzer moved that the motion be laid on the table.
Senator Lee seconded the motion.

Senator Rosellini demanded a roll call, and the demand was sustained by Senators Jackson, Sapp, Tisdale, Greive, Lindstrom, Pearson and Ganders.

Those absent or not voting were: Senator Miller—1.

Senator Greive moved that Senate Bill No. 236 be re-referred to the Committee on Appropriations.

On motion of Senator Binzer, seconded by Senator Lee, the motion was laid on the table.

Senator Greive asked for a division, and the demand was sustained.

The motion was carried on a rising vote.

Senator Dixon moved that the bill be re-referred to the Committee on Public Morals.

The President:

"The Chair is going to have to rule that motion out of order, for the reason that it is strictly dilatory tactics. The Committee on Revenue and Taxation and the Committee on Appropriations were considered legitimate motions."

Senator Dixon moved that the bill be re-referred to the Committee on Judiciary.

The President:

"I think I shall have to rule that the motion to re-refer to the Judiciary Committee would be in order."

Senator Parker:

"I think it is quite apparent this is developing into a filibuster, and I think several years ago the Chair ruled we could not have filibusters in this body."

Senator Binzer moved that the motion to refer the bill to the Committee on Judiciary be laid on the table.

Senator Lee seconded the motion.

Senator Rosellini demanded a roll call, and the demand was sustained by Senators Tisdale, Lindstrom, Hutchinson, Greive, Keefe, Sapp, Jackson and McCutcheon.

Those absent or not voting were: Senator Miller—1.

The President Pro Tempore assumed the chair.

The Secretary proceeded to read the amendment.

Senator Zednick moved that further reading of the amendment be dispensed with and the reading clerk read the last line.

Senator Rosellini asked that the amendment be read in full, and stated:

"Certainly it has always been the practice and rule that every amendment must be read if requested by any Senator."

POINT OF ORDER

Senator Davison:

"I would like to have Senator Rosellini point out the rule which says we cannot dispense with the reading of an amendment. It simply requires a majority vote."

Senator Rogers:

"I move that we dispense with the reading of the amendment presented by Senator McCutcheon."

The motion lost.

The reading clerk read the amendment in full.

Senator McCutcheon moved the adoption of the amendment.

Senator Rosellini seconded the motion.

"The amendment now on the desk is part of the regulations regarding the Federal income tax. It changes the scope of the bill."

RULING BY THE CHAIR

The President:

"The Chair is going to rule the amendment out of order. It is not germane, changes the scope of the bill, is ineligible as an amendment, and is a regulation of the United States Government pertaining to taxes. In other words, you would be just as eligible to introduce a cook book as an amendment. The reading clerk will read only those portions that are germane."

"There has been a motion to re-refer, and the motion has been defeated."

RULING BY THE PRESIDENT

The President:

"The Chair is going to have to rule it is very obviously out of order for the reason that the various pages stricken and the sections that remain in the amendment in no way tie up with each other at all.

"The Chair is going to sustain the point of order raised by Senator Westberg on the ground that it is dilatory tactics that in the discretion of the Chair he has a right to object to."

POINT OF ORDER

Senator Parker:

"You cannot substitute a resolution for a bill. This resolution is a constitutional amendment."
RULING BY THE PRESIDENT

The President:

"The point of order raised by Senator Parker is well taken. This is obviously an amendment to the constitution, and is entirely out of order. The Chair is going to rule the amendment out of order on the ground it is not germane, and changes the scope of the bill."

RULING BY THE PRESIDENT

The President:

"The Chair is going to invoke the rule from now on, that all points of order will be settled without debate.

"The Chair ruled that the amendments already permitted to be read were in the proper form, but these amendments now before the Senate are not in the proper form."

“At this time I beg your indulgence to present to you and to the visitors in the gallery a very distinguished visitor. The very colorful and useful background she has enjoyed in her native country has been so unusual, that in presenting her to you I find it necessary to refer to a few notes I have made.

"Margaret Bondfield, first British woman to become a Cabinet Minister, is in this country on her eighth visit of all sections of the nation during the coming winter. In 1929 she was made Minister of Labor. She has served as Labor Advisor to the International Labor Conference at Geneva, and Ernest Bevin, when taking over the Ministry of Labor in the war-time Government, said that his work would not have been possible without the foundations laid by Margaret Bondfield.

"Her country in 1930 gave her an honorary degree of a Doctor of Law from the University of Bristol, receiving it from Winston Churchill, then Chancellor of the University. Recently she was made a Companion of Honor, a distinction she shares with Mr. Churchill. Today she is Chairman of the British Women's Group on Public Welfare and holds other key positions.

"Sponsored by the World Affairs Council and the English-Speaking Union of Tacoma, Margaret Bondfield will speak in Jones Hall, February the 23rd at 8:00 p. m. Her subject is 'British Labor Party and Its Structure'.
Honorable Margaret Bondfield:

"Mr. President and Members of the Senate: I feel a little overwhelmed at being given this opportunity to address you this morning. I have been watching your proceedings for some time and it has carried me back in memory to the time when I occupied the front bench in Parliament and was caught up in the economic blizzard and had to consider all kinds of things. We had to work through that period, and were then plunged into the second World War."

She dealt briefly with two experiments being made in England which are proving successful—one being the "endowment of childhood," to overcome the decrease in population; and the other, the recruiting of labor power, by appealing to the women of the country who have left the textile mills and factories as skilled workers, to return to their former occupations.

In conclusion she stated: "It is a great experience to come here to your country and meet those who are ready to pour out their help to Europe. That linking of the women who need help with the women who have that help to give, has strengthened the bonds of friendship apart from meeting necessities. I am thankful to report that while we are now turning the corner, we are in good health, good spirits, and our intention to get on solid ground is unescapable.

"While our politics differ somewhat from yours, the point is we can sometimes learn from each other by studying each other's method. We are glad to be working together in the international field, where there is no controversy, where all are working to build a new world, and where the future mothers won't be afraid that babies to be born will have to fight another war, and where all will achieve real progress in the arts of peace." (Applause.)

**REPORT OF SPECIAL COMMITTEE**

**WASHINGTON STATE SENATE**

(Investigating Report of the Joint Fact-Finding Committee on Un-American Activities)

**Mr. President:**

We, your Committee to which was referred the Report of the Joint Fact-Finding Committee on Un-American Activities established by the 30th Session of the Legislature under House Concurrent Resolution No. 10, having had the same under consideration, respectfully report back to the Senate as follows:

The achievements of the Joint Committee in exposing communists in the Washington State Old Age Pension Union, the Pacific Northwest Labor School, Seattle Repertory Playhouse, Building Service Employees' Union, Local 6, and the University of Washington, deserve our highest commendation. It is our view that we must continue to expose and isolate the communist infection wherever it may appear and, as a positive check, every encouragement should be given to all programs engaged in emphasizing the benefits the American way of life has brought to all of our citizens. Nowhere in the world, nor at no previous time in history has a people been so fortunate and so blessed, both with material comforts and personal liberties. Democracy has won two world-wars in a generation, yet today democracy is on the defensive in many lands. Peace is precarious, and men are already talking about a third world war. That war is not in the future, it has already begun; it is the battle of ideologies. The war of arms was fought with ships, tanks, planes and guns, and the battle line ran between nations.
The war of ideologies involves faiths, philosophies and systems of life, and the line runs through every heart, every home, every school, every farm and factory. In order that our state may continue to provide leadership in this fight, we recommend that the Joint Fact-Finding Committee on Un-American Activities be continued and adequately financed.

The Brookings Institution of Washington, D. C., in a study entitled: “Suggested Standards for Determining Un-American Activities”, offers valuable guides and we recommend the use of the definitions listed therein as follows:

“1. It is un-American for any individual or group by force, intimidation, deceit, fraud or bribery, to prevent or seek to prevent any person from exercising any right or privilege which cannot constitutionally be denied to him either by the federal government or by a state government.

“2. It is un-American for any individual to advocate, to conspire, or to attempt to bring about a change in the form of government in the United States without following the processes prescribed for that purpose by the Constitution of the United States and by the constitutions of the several states.

“3. It is un-American for any person secretly to conspire by any methods, constitutional or otherwise, to overthrow or attempt to overthrow a government of law and to substitute therefor a government vested with complete discretionary power.

“4. It is un-American for any person with the primary intent to advance the interests of a foreign nation or association to take action clearly and definitely against the interest of the United States, provided the interests of the United States have been properly formulated and declared by a duly authorized governmental agency proceeding in accordance with law. Receipt of compensation from any foreign nation or association or representatives thereof would create a presumption of primary intent.

“5. In time of war of threatened war, it is un-American for any person with the intent to interfere with the successful preparation for or prosecution of war or with the intent to give assistance to the enemy or to a non-belligerent neutral allied with or promoting the interests of that enemy or prospective enemy, publicly to advocate, or to conspire to promote the advocacy of, any doctrine that hampers the execution of policies already adopted by the nation through due process of law to carry on or prepare for war.”

Your committee recognizes that the procedures followed by the Joint Committee in conducting its hearings were designed to meet the special problems faced by fact-finding committees and that a considerable body of precedent for such procedures has been built up, both in the national Congress and by the Legislatures of the several states.

A fact-finding committee is not a tribunal, no one is on trial before it. Its function is to seek information relevant to its purpose and the substitution of procedures customarily followed in the courts for those that have been followed by fact-finding committees generally, if done without limitation could, in certain instances, deprive such committees of purpose, make them appear ridiculous, and render them impotent.

The distinction between fact-finding committees and judicial proceedings is, however, one that is not readily understood. Much of the achievement of the Joint Committee on Un-American Activities has been negatived in the public mind by the criticism that precious American safeguards have been violated. Whether or not these criticisms are valid, your committee faces the fact that in the minds of many serious, loyal and distinguished citizens this impression stands, and seems to have its focus in the right of a witness to have the benefit of legal counsel. Your committee therefore recommends that the agency charged with the responsibility for investigating Un-American activities follow the customary and established rules which have been adopted over a period of time for the governing of Legislative inquiries and investigations, and that the agency permit any witness summoned before it to be accompanied by counsel, such counsel to be allowed to attend and observe the hearing and advise the witness while under interrogation, but such counsel shall not be allowed to participate otherwise in the hearing, unless the agency in its discretion shall so determine.

Your committee recommends that no change be made in the present penalties for perjury before a Legislative Committee, for, in our view, the present sanctions are sufficiently severe. We concur in the recommendations of the Joint Fact-Finding Committee that the law relating to contempt before Legislative Committees be amended to include disorderly conduct of witnesses or of counsel which interferes with the orderly progress of a hearing.

With respect to the Joint Committee’s recommendations 11 and 12, we feel that if any future committee finds that the agencies presently responsible for the investigation
referred to in paragraphs 11 and 12 of the Joint Committee's report is not functioning adequately then, and in that case, such committee shall undertake its own investigation.

We concur in this report:

ASA V. CLARK,  
RODERICK A. LINDSAY,

HOWARD ROUP.

MESSAGES FROM THE GOVERNOR

State of Washington, Executive Department,
Olympia, March 4, 1949.

To the Honorable, The Senate
of the State of Washington

GENTLEMEN:

I have the honor to advise that the Governor has approved the following Senate Bills, entitled:

Senate Bill No. 9:

"An Act relating to the state government; authorizing the issuance of bonds against the Capitol Building Construction Fund for the completion of the Deschutes Basin; detailing the purposes for which the proceeds may be used; defining the powers of the state capitol committee in connection therewith; making appropriations and reappropriations; amending section 1, chapter 186, Laws of 1947; and declaring an emergency."

Senate Bill No. 25:

"An Act relating to the public health; providing for the establishment of combined city and county health departments in counties which have first-class cities of one hundred thousand population or more and ratifying formations and combinations of certain governmental units as city-county health departments and expenditures by counties, cities and towns in connection therewith."

Senate Bill No. 72:

"An Act relating to paid firemen in cities and towns and amending section 5, chapter 91, Laws of 1947, to provide a method for allocation of fire insurance premiums."

Very truly yours,
H. P. EVEREST,
Assistant to the Governor.

State of Washington, Executive Department,
Olympia, March 4, 1949.

To the Honorable, The Senate
of the State of Washington

GENTLEMEN:

I am returning herewith, without my approval, Substitute Senate Bill No. 21, entitled:

"An Act relating to strawberries, red raspberries, black raspberries, blackberries, loganberries, boysenberries, youngberries, and similar hybrids, and by-products thereof; declaring the public policy of this state be to promote the production, consumption and sale of small fruits by providing for horticultural, economic and market research and publicity, advertising and sales promotion campaigns to increase the consumption of Washington small fruits; levying an assessment and providing for its collection; creating a small fruit commission and vesting in it the administration of this act; providing for the powers, duties and authority of said commission; providing penalties for violation of this act, and declaring an emergency."

This act, by setting up a special commission for a specific industry, merely adds to the difficulties of state government by increasing its decentralization.

It utilizes the machinery of the state to enforce mandatory assessments and regulations against growers and, in many cases, against their will and for programs in which they have had no part in formulating and to which they do not subscribe.

The objectives of this act are based upon a false conception of the functions of government. They place upon it the obligation of policing the collection of funds for trade
promotion programs which have through the years and should now be subject to voluntary and cooperative action of the industry.

Assistance and support for such voluntary programs are readily available to the industry through the existing facilities of the Department of Agriculture.

For these reasons this act is vetoed.

Respectfully submitted,

ARTHUR B. LANGIE, Governor.

Senator Dixon moved that Substitute Senate Bill No. 21 be passed, notwithstanding the veto of the Governor.

Senator Greive seconded the motion.

Senator Binzer moved as a substitute motion that the veto of the Governor be sustained.

POINT OF ORDER

Senator Rosellini raised the point of order that the affirmative motion should be put first.

RULING BY THE PRESIDENT

The President ruled the point of order well taken.

Senator Parker moved that the veto message of the Governor be referred to the Committee on Rules and Joint Rules.

The President:

"A vote must be taken by 'ayes' and 'nays'. This is a question that cannot be referred. A motion to concur or not concur has precedence over a motion to re-refer."

Senator Parker moved that the Governor's veto message on Substitute Senate Bill No. 21 be made a special order of business.

The President put the question:

"Shall Substitute Senate Bill No. 21 become law, notwithstanding the veto of the Governor?"

The Secretary called the roll on the motion by Senator Dixon, and the motion lost by the following vote: Yeas, 20; nays, 24; absent or not voting, 2.

Those voting yea were: Senators Cowen, Dixon, Edwards, Ganders, Greive, Happy, Hutchinson, Jackson, Keefe, Lindsay, Lindstrom, Pearson, Rogers, Rosellini, Roup, Sapp, Schroeder, Tisdale, Todd—20.

Those voting nay were: Senators Binzer, Clark, Copeland, Dahl, Davison, Earlywine, French, Hall, Harley, Jones, Kimball, Lee, McDonald, McMullen, Morgan, Ostrander, Parker, Robertson, Rutter, Sears, Shank, Westberg, Witt, Zednick—24.

Those absent or not voting were: Senators McCutcheon, Miller—2.

The bill, having failed to receive the necessary two-thirds majority of the Senate, was declared lost.

The Secretary read:

POINT OF ORDER

Senator McCutcheon:
"I raise the point of order that Senator Davison's amendment is not germane."

18—S
RULING BY THE PRESIDENT

The President:
"Senator, the Chair cannot sustain your point of order at this time. If the point of order had been raised when the amendment was presented, the Chair might have sustained your point of order. Since there was no point of order raised then, the President will have to assume the amendment is germane. In as much as there has been this discussion on the amendment, and an attempt made to amend it, the Chair must rule it is germane."

POINT OF ORDER

Senator Zednick read from Section 38, of Article II of the Constitution:
"No amendment to any bill shall be allowed which shall change the scope and object of the bill."

POINT OF ORDER

Senator Pearson:
"Does the title of the bill pertain to national forest or state forest reservations?"

The President:
"Senator, I cannot answer your question."

Senator McCutcheon stated he could answer it.

POINT OF ORDER

Senator Parker:
"The Chair has ruled the amendment was germane, and there has been no appeal taken."

The President:
"I think this is a matter of sufficient importance where there should be a vote of the Senate."

APPEAL FROM DECISION OF THE CHAIR

Senators McCutcheon, Rogers and Dixon appealed from the decision of the Chair in ruling the subject matter of the amendment to House Bill No. 28 is germane.

The President Pro Tempore assumed the chair.

POINT OF ORDER

Senator Lindsay:
"How could this amendment be ruled on before the amendments were read or argued?"

The President Pro Tempore:
"The President of the Senate has requested a fifteen-minute recess for the purpose of conferring on the rules."

On motion of Senator Zednick, seconded by Senator Davison, the request of the President was granted and the Senate was declared at recess for fifteen minutes.

The President called the Senate to order at 4:20 p. m., still under the Call of the Senate.

RULING BY THE CHAIR

The President:
"The Chair has an announcement to make, in view of the discussion that was held on the appeal from the decision of the Chair. The Chair has had an opportunity to review the rules and to confer with members of the Committee on Rules and Joint Rules on the rules."
"Rule 62 is very clear when it says, 'No amendment to any bill shall be allowed which shall change the scope and object of the bill.' There have been precedents established when the amendment to be submitted did change the scope of the bill. On the other hand, we have precedents, when the income tax measure was considered where the Chair ruled a half-dozen amendments out of order for the reason they were not germane.

"Furthermore, consulting Hind's Precedents, there are some forty-one pages given over entirely to the question of whether or not amendments are germane to the original bill. (Volume 5, Section 5869). This particular bill deals with immigration. An amendment limiting immigration generally was held not to be germane to a proposition to prevent immigration of Chinese. A proposition to prohibit the employment of Chinese on American vessels was held not to be germane to a bill to prevent their coming into the United States. So you can see there is a very fine line drawn on all these points of parliamentary procedure.

"Here is another one: to a proposition to give an extra month's pay to the officers and employees of the House of Representatives, an amendment to include the clerks of the members was held not to be germane. There are some forty-one pages in Hind's Precedents relating to this.

"In view of this, the Chair is compelled to reverse its original ruling, having had an opportunity to confer with the Committee on Rules and Joint Rules and to look up the precedents.

"I hereby reverse my ruling and sustain the point of order that the amendment originally submitted is not germane to the bill."

Senator Davison:

"In deference to the Chair and his ruling, I would like to withdraw the amendment at this time."

Senator Lee moved that the Senate proceed with the calendar of the day. Senators Binzer, Lee and Morgan moved the previous question, and the demand was sustained.

On motion of Senator Rogers, seconded by Senator Lee, the rules were suspended and House Bill No. 28 was advanced to third reading.

House Bill No. 264:

The Secretary read:

REPORT OF STANDING COMMITTEE

Senate Chamber,

Mr. President:

We, your Committee on Judiciary, to whom was referred House Bill No. 264, entitled: "An Act providing for the investigation of activities reported to be dangerous to the public safety or security," have had the same under consideration, and we respectfully report the same back to the Senate with the recommendation that it do pass with the following amendments:

Amend the bill by striking everything after the enacting clause and inserting in lieu thereof the following:

"Section 1. These are times of public danger; subversive persons and groups are endangering our domestic unity, so as to leave us unprepared to meet aggression, and under cover of the protection afforded by the bill of rights these persons and groups seek to destroy our liberties and freedom by force, threats and sabotage, and to subject us to the domination of foreign powers; legislation to meet the problem can best be based on a thorough and impartial investigation.

"Sec. 2. There is hereby created an interim Legislative Fact-finding Committee on Un-American Activities in the State of Washington which shall investigate, ascertain, col-
late and appraise all facts concerning individuals, groups or organizations whose activities
are such as to indicate a purpose to foment internal strife, discord and dissension;
infiltrate and undermine the stability of our American institutions; confuse and mislead
the people, and impede the normal progress of our state and nation either in a war
time or a peace time economy.

"Sec. 3. In addition to other duties imposed upon the committee, the committee
shall investigate the activities of groups and organizations whose membership includes
persons who are communists, or any other organization known or suspected to be
dominated or controlled by a foreign power, which activities affect the conduct of this
state, the functioning of any state agency, unemployment relief and other forms of
public assistance, educational institutions of this state supported in whole or in part
by state funds, or any political program.

"Sec. 4. The committee shall consist of four members of the House of Representa­
tives, appointed by the speaker thereof and three members of the Senate appointed
by the president thereof and they shall be subject to confirmation of their respective
bodies. The president of the Senate shall appoint the chairman of the board.

"Sec. 5. The committee hereby created in exercising the powers and performing
the functions vested in it by this act shall have all powers necessary or convenient
to accomplish the objects and purposes of this act; including but not limited to the
following duties and powers:

"(1) To employ and fix the compensation of a secretary and such clerical, legal,
expert and technical assistants as it may deem necessary, and to lease, rent or buy
such supplies and facilities as may be required;

"(2) The chairman shall have authority to create subcommittees from its mem­
bership, assigning to the subcommittee any study, inquiry, investigation or hearing
which the committee itself has authority to undertake or hold, and the subcommittee
for the purpose of this assignment shall have and exercise all of the powers conferred
upon the committee limited by the express terms of the resolution or resolutions of
the latter defining the powers and duties of the subcommittee, which powers may be
withdrawn or terminated at any time by the committee;

"(3) To adopt and from time to time amend such rules governing its procedure
(including the fixing of its own quorum and the number of votes necessary to take
action on any matter) as may to it appear appropriate;

"(4) To contract with such other agencies, public or private, as it deems necessary
for the rendition and affording of such services, facilities, studies and reports to the
committee as will best assist it to carry out the purposes for which it is created;

"(5) To hold public hearings at any place in the state at which hearings the people
are to have an opportunity to present their views to the committee;

"(6) To make a complete study, survey and investigation of every phase of the
subject of this act, including but not limited to the operation, effect, administration, en­
forcement, and needed revision of any and all laws in anywise bearing upon or relating
to the subject of this act;

"(7) To meet at any and all places in this state, in public or executive session;

"(8) To act during this session of the legislature, including any recess hereof, and
after final adjournment hereof until commencement of the Thirty-second legislature;

"(9) To file a report with the Thirty-second legislature;

"(10) To summon and subpoena witnesses, require the production of papers, books,
accounts, reports, documents, and records of every kind and description; to issue
subpoenas and to take all necessary means to compel the appearance of witnesses and
procure testimony; to pay fees and traveling expenses of witnesses to insure their
attendance, if necessary; to procure from any court having jurisdiction, upon complaint
showing probable cause to believe that pertinent evidence is being concealed or withheld
from the committee, a search warrant and cause a search to be made therefor;

"(11) To cooperate with and secure the cooperation of county, city and other local
enforcement agencies in investigating any matter within the scope of this act, and to
direct the sheriff of any county to serve subpoenas, orders, and other process issued
by the committee;

"(12) To do any and all other things necessary or convenient to enable it fully
and adequately to exercise its powers, perform its duties, and accomplish the objects
and purposes of this act; and in case of disobedience on the part of any witness to
comply with any subpoena issued by the committee or on the refusal of any person
to testify regarding any matter on which he may be lawfully interrogated, the superior
court of any county, or the judge thereof, on application of the committee shall compel
compliance by proceedings for contempt, as in the case of disobedience of the require-
ments of a subpoena issued from such court or a refusal to testify therein;

"(13) Any witness who shall refuse or neglect, without lawful excuse, to attend
before the committee, or who shall wilfully refuse to be sworn or to affirm or to answer
any material or proper question, or to produce, upon reasonable notice, any material
or proper books, papers or documents in his possession or under his control, shall be
guilty of a gross misdemeanor.

"Sec. 6. The committee and any of its members, and any representative of the
committee thereunto authorized by the committee or by its chairman, is authorized
and empowered to administer oaths.

"Sec. 7. Every department, commission, board, agency, officer and employee of the
state government, including the attorney general, and their subordinates, and of any
political subdivision, county, city or public district of or in this state shall furnish
the committee and any subcommittee, upon request, any and all such assistance, and
information, records and documents as the committee or subcommittee deems proper
for the accomplishment of the purpose for which the committee is created.

"Sec. 8. The state patrol and all officers and members thereof shall furnish such
assistance to the committee as the chairman may direct.

"Sec. 9. The members appointed to the Legislative Fact-finding Committee on
Un-American Activities shall be reimbursed for their expenses incurred while attending
sessions of the committee or subcommittee to the extent of fifteen dollars ($15) per day
plus five cents (5¢) per mile in going to and coming from meetings or hearings of the
committee or subcommittee, the same to be paid upon their individual vouchers,
approved by the chairman of the committee.

"Sec. 10. There is hereby appropriated from the general fund for the biennium
ending March 31, 1951, to the committee herein the sum of one hundred thousand
dollars ($100,000), or so much thereof as may be necessary, to carry out the provisions
of this act.

"Sec. 11. This act is necessary for the immediate preservation of the public peace,
health and safety, support of the state government and its existing public institutions,
and shall take effect immediately."

Amend the title by striking the whole thereof and inserting in lieu the following:

"An Act creating an Interim Legislative Fact-finding Committee on Un-American
Activities; prescribing its powers and duties; providing for the conduct of investigations,
subpoena of witnesses, penalties for violation hereof, and reporting thereon; making
an appropriation; and declaring an emergency." Corwin Philip Shank, Chairman.

HOUSE AMENDMENTS TO ENGROSSED SENATE BILL NO. 186

MR. PRESIDENT:

The House has passed Engrossed Senate Bill No. 186 with the following amendments:

Amend the title, in line 1 of the title of the engrossed bill, being line 1 of the title of the printed bill, after the word "racing" and before the semicolon (;) insert the following: "and standard bred greyhound dog racing"

Amend section 1, line 14 of the engrossed bill, after the word "or" and before the word "quarter" strike the following: "or standard bred and harness" and insert in lieu thereof the words "standard bred and harness or" the same being line 4 of the Senate amendment by Senator Flanagan to line 8 of the printed bill.

Amend the bill by adding thereto three new subsections immediately following section 3 to be known as (a), (b) and (c), to read as follows: "(a) The Washington horse racing commission is authorized to license, regulate and supervise greyhound dog racing meets in the same manner and under the same rules applicable to horse racing meets under Chapter 55, Laws of 1933, as now or hereafter amended. (b) The greyhound dog racing licenses authorized by the Washington horse racing commission under the provisions of this act shall pay the same fees, be subject to the same penalties and in all respects be governed by the laws and rules relating to horse racing licensees under Chapter 55, Laws of 1933, as now or hereafter amended. (c) The Washington horse racing commission shall exercise the same powers and be charged with the same duties with respect to greyhound dog racing, and make the same disposition of funds received in respect thereto as provided by Chapter 55, Laws of 1933, as now or hereafter amended."

Amend section 4 by striking the whole thereof.

and the same is herewith transmitted. S. R. HOLCOMB, Chief Clerk.

POINT OF ORDER

Senator Zednick:

"I rise to a point of order, my contention being that the Senate cannot consider this amendment because of the fact that it is not germane to the original bill and enlarges the scope of the act. The title relating to horse racing—an entirely different subject than that raised in this bill—enlarges the scope. I could quote you from Hind's Precedents, as you quoted to us, but I am sure that will not be necessary in view of the precedents already set in this particular Senate."

POINT OF ORDER

Senator Greive:

"Point of order. In this particular case I think the decision should not be made by the Chair. The decision has already been made in the House."
Senator Zednick:

"The decision made in the House is not binding on the Senate. Because the House did not see it over there, is certainly no excuse for us to violate the Constitution. This amendment certainly enlarges the scope of this act."

Senator Dixon:

"This is a pure technicality and we should not kill the bill because of the title."

RULING BY THE CHAIR

President Meyers:

"The Chair is going to rule that inasmuch as the Speaker has seen fit to recognize the amendment as being germane, the only thing now is to concur or not to concur in the House amendment."

MOTION

Senator Binzer moved that Engrossed Senate Bill No. 186 be indefinitely postponed.

RULING BY THE CHAIR

The Chair ruled the motion out of order.

The Chair:

"We either concur or do not concur."

POINT OF ORDER

Senator Zednick:

"A motion to indefinitely postpone is always in order."

RULING BY THE CHAIR

President Meyers:

"This is a Senate bill which has been amended in the House. The House has rights; and if the Senate does not concur and asks the House to recede, the House can still recede and bring the bill back to the Senate. There are only two motions that can be made—one to concur or one not to concur."

APPEAL FROM DECISION OF CHAIR

Senator Zednick appealed from the decision of the Chair, but the appeal was not sustained.

POINT OF ORDER

Senator Zednick:

"I have followed procedure four sessions in the House and five sessions in the Senate and I have never seen this kind of a ruling made. You can indefinitely postpone a bill any time you have jurisdiction of a bill."

RULING BY THE PRESIDENT

The President:

"Senator, I dislike to disagree with your point of order, but the Chair's interpretation of that rule to indefinitely postpone is that this can be done on first, second or third reading."

MOTION

Senator Greive moved that the Senate do concur in the House amendment to Engrossed Senate Bill No. 186.

Senator Dixon seconded the motion.

The motion lost.

MOTION

On motion of Senator Binzer, seconded by Senator Westberg, the Senate refused to concur in the House amendments and asked the House to recede therefrom.

The President Pro Tempore assumed the chair.
PERSONAL PRIVILEGE

Senator Shank moved to suspend Rule 40 on behalf of the Public Accountants of the State.

**POINT OF ORDER**

**RULING BY THE CHAIR**

The President:

“The motion to concur is of the highest rank, and the motion not to concur is the second rank. Reed’s Rule 247, page 186, lists the five motions in order.”

Senator Zednick:

“That is very true, and the motion before the Senate is to concur.”
The President:

"The Chair is going to maintain the same position he has maintained when there is a question on his ruling. There are two motions which may be made at this time—to concur or not to concur. The Chair puts the affirmative motion first. If that is lost, then the motion that the Senate do not concur and the House be asked to recede, will be put."

Senators Parker, Binzer and Lee demanded the previous question.

POINT OF ORDER

Senator Edwards:

"Mr. President, I have the floor—"

RULING BY THE CHAIR

"Senator Edwards was on the floor and was recognized before Senator Parker."

Senator Edwards was allowed to finish his speech.

The President declared the question to be on the motion by Senator Rosellini that the Senate do concur.

"If that is decided in the negative, then it will be in order to move that the Senate do not concur."

PARLIAMENTARY INQUIRY

Senator Davison:

"Mr. President, would you like to rule on whether this amendment is germane?"

The President:

"The Chair has already ruled this amendment has been offered in the House. The Chair is certainly not going to overrule the Speaker."

Senator Zednick:

"Maybe the Speaker did not rule on it. Maybe the question was never raised. The same thing may be true here. There is nothing sacred about a House amendment."

The President:

"What record do I have as to whether the Speaker has ruled on it and found it germane?"

Senator Zednick:

"His ruling governs the House. Just because he might make a wrong ruling is no reason we should."

The President:

"That's right."

POINT OF ORDER

Senator Parker:

"The previous question has been asked for about three times."

The President put the question, that the Senate do concur.

Senator Rosellini demanded a roll call, and the demand was sustained by Senators Todd, Sapp, Greive, Keefe, Lindsay, Tisdale, Lindstrom and Hutchinson.

By Senator Roup:

_Be It Resolved_, By the Senate of the State of Washington, in Legislative Session Assembled:

WHEREAS, Foot and mouth disease has been diagnosed in Mexico and threatens the livestock industry of the United States directly as well as by its secondary effects upon the national economy; and

WHEREAS, The Federal Government in cooperation with the Mexican Government is desperately trying to control and eradicate the aforesaid disease; and

WHEREAS, It is planned to establish an animal disease research laboratory in compliance with the laws of the United States; and

Brannan, Secretary of Agriculture of the United States, and the Honorable B. T. Simms, Chief of the Bureau of Animal Industry in the Department of Agriculture of the United States, that they cause to be established, operated and maintained an animal disease research laboratory on a suitable island in Puget Sound in the State of Washington;

WHEREAS, This program of "Youth and Government" is designed to prepare youth for leadership in the American democratic process through training and experience in public affairs and is a highly commendable endeavor;

_Now, Therefore, Be It Resolved_, By the Senate of the State of Washington in Legislative Session Assembled: That the Senate chamber and committee rooms be made available to the said Area Board of the Pacific Northwest Area Council of YMCAs for the conduct of a "Youth and Government" program for a period of not to exceed three days during any one calendar year, the exact dates to be determined upon by the Council, Lieutenant-Governor or President Pro Tempore and Secretary of the Senate.

On motion of Senator Davison, Seconded by Senator Dahl, the resolution was adopted.
MR. PRESIDENT:

We, your Committee appointed to investigate certain matters incident to the purchase of the Longview Toll Bridge by the Washington Toll Bridge Authority, said matters being more specifically defined in the Senate Resolution Pertaining to the Purchase of the Longview Bridge, submit the following report:

HISTORY OF THE BRIDGE

The Columbia River-Longview Bridge was opened for traffic May 30, 1930, operating at a substantial loss until re-organized in Federal Court on October 19, 1936, under Section 77-B of the Federal Bankruptcy Act. Thereafter, and until purchased by the Washington Toll Bridge Authority on December 16, 1947, it was owned and operated by a corporation known as the Longview Bridge Company, with Ben B. Ehrlichman, President. Ben B. Ehrlichman on said date and at all times subsequent thereto has also been the President of Drumheller, Ehrlichman Company, or the Pacific Northwest Company, investment brokers of Seattle, Washington.

From the date said bridge was opened to traffic in 1930 until re-organized in 1936, it operated at a total loss of $2,449,323.16, continuing to show an operating loss until September 30, 1939, of $6,783.80, making a total operating loss as of that date of $2,456,106.96.

The financial statement of the Longview Bridge Company as of September 30, 1947, seventy-seven days before title was acquired by the Washington Toll Bridge Authority, shows a surplus of $311,692.07 which, with the sum of $119,233.40 previously paid in dividends, amounts to $430,925.47 and represents operating profit from September 30, 1939 to September 30, 1947.

The average annual gross tolls of the bridge for the years 1945, 1946, and 1947 was $247,543.22. The gross toll in 1948 was $372,823.26, of which $77,681.54 was excess toll revenue in the months of May, June and July 1948, compared with the same months of the year 1947 and was directly due to the flood stopping all traffic at Vancouver, Washington and rerouting same to Longview, Washington by way of Rainier, Oregon. The gross toll revenue for January and February, 1948, was $38,195.90, and the toll revenue for January and February 1949 amounts to $47,644.02.

EVENTS LEADING UP TO PURCHASE

Three state highway engineers examined the Longview Bridge in 1944 at the request of Ben B. Ehrlichman, President of the Longview Bridge Company, for recommendations for extending the useful life of the approaches by repairs, and in their findings in their report dated August 1944, among other things, said: "We believe that they (referring to the bridge approaches) are in a critical condition with respect to their ability to carry maximum loads."

Little or no activity is noted in the trading of Longview Bridge Company shares just prior to the 1944 election. In March of 1945, however, House Bill No. 343, authorizing the Washington Toll Bridge Authority to purchase and operate any toll bridge connecting any legally designated state highway, was passed and trading in the shares of said Company immediately became active, the market price moving from $1.05 per share in November of 1944 to $4.00 per share in March of 1945. Further increased activity in said shares is noted in April of 1946, and in May of said year there were filed with the Authority six letters from Chambers of Commerce, one newspaper, labor organizations and industrial interests in the Longview-Kelso area requesting that the Authority purchase the bridge. Immediately thereafter the stock shot up from $4.50 per share until it reached $8.00 per share in June of 1946.

An analysis of shareholders' ledger accounts as of February 1949 shows that of 298,106 issued and outstanding shares, approximately 51,000 shares remained in names of those entitled to receive them in the reorganization proceedings in Federal Court in

the year 1936, thus indicating that trading in the shares removed 247,000 shares from the original ownerships of which total over 100,000 shares were traded in the years 1945, 1946 and 1947.

At the request of Governor Mon C. Wallgren, Chairman of the Authority, officers of the Longview Toll Bridge Company, together with George W. Marshall, of Foster & Marshall, stockbrokers of Seattle, Washington, met with the Authority in the office of the Governor on June 18, 1946, to discuss the advisability of the Washington Toll Bridge Authority buying the Longview Bridge.

On June 18, 1946, the Authority instructed Mr. Shain, Director of Highways, to make investigations, studies and surveys to arrive at a price which might be offered by the Authority for the Longview Bridge, "that would reasonably assure a sound business investment." * Pursuant to instructions, Mr. Shain reported at the meeting of the Authority on November 22, 1946, suggesting a purchase price of $1,250,000, and $1,450,000 for reconstruction.

Thereafter, and on November 30, 1946, Foster & Marshall entered into a discussion with the Washington Toll Bridge Authority regarding a probable bond issue, and on February 6, 1947, Foster & Marshall submitted a statement suggesting a price of $2,250,000 for said bridge, based on a thirty-year bond issue. The first time the minutes of the Authority mention a sale price of $2,250,000 was July 9, 1947, said price being exactly $1,000,000 higher than the price mentioned by Mr. Shain in his letter of 1946.

Between February 6, 1947 and July 9, 1947 the Highway Department made at least two studies of the estimated revenues and operating costs of the bridge, both of which were based upon an assumed purchase price of $2,250,000 and an expenditure of $1,400,000 for reconstruction. On July 9, 1947, the Authority adopted a resolution reciting that "at a purchase price of not to exceed $2,250,000 the toll receipts would liquidate the cost of the bridge and pay necessary repairs and operating charges" within a thirty year period. The resolution invited the Longview Bridge Company to make to the Authority a firm offer for the sale of the bridge. On July 10, 1947, a copy of said resolution, including the recital, was sent to the bridge company.

Thereafter, and on September 5, 1947, the Longview Bridge Company made an offer to the Washington Toll Bridge Authority for the sale of said bridge in the sum of $2,250,000, which offer was accepted by the Authority on September 11, 1947. An issue of bonds for said purchase, and said repairs, in the sum of $3,650,000 was first advertised September 22, 24, and 26, 1947, bids to be opened September 29, 1947. Only one bid was received and it was rejected by the Authority.

Immediately thereafter a bond issue in like amount was again advertised, bids to be opened November 17, 1947. Again only one bid was received, and it by the former bidder, said bid carrying a higher rate of interest than the previous bid. This bid was accepted and the Authority authorized the issuance and sale of $1,400,000 for bonds for reconstruction purposes and $2,250,000 of the bonds for the purchase of said bridge. Of the funds thus obtained $106,027.89 has been disbursed from the construction fund and the reconstruction has not commenced as of this date. The Attorney General, in a letter dated March 1, 1949, to the Chairman of this Committee, held that $36,204.06 disbursed from the construction fund should be returned to said fund by the operating revenue fund, and was in doubt about certain other items.

An estimate, under date of January 31, 1949, by Mr. O. R. Dinsmore, present Director of Highways, concerning the cost of reconstruction, states that additional funds in the amount of $633,427.89 would be necessary for essential reconstruction and extraordinary maintenance of the bridge property. Said sum of $633,427.89 is over and above the funds the Washington Toll Bridge Authority have on hand for said purpose. He further stated in said report that, based on the present estimate of revenue for the retirement of bonds, that at the end of thirty years there will remain approximately $100,000 worth of bonds for which additional funds will be required at that time. The acquisition of the bridge by the Washington Toll Bridge Authority has resulted in a loss in taxes to the State of Washington of approximately $12,000 per annum, and that portion formerly paid Oregon by the Bridge Company now is payable by the Washington Toll Bridge Authority. Federal Income Tax formerly paid by the Longview Bridge Company is also lost to the Federal Government. Property taxes due the State of Oregon have been increased from approximately $12,000 per annum in 1947 to $34,029.23 for the year 1948, now payable by the Toll Bridge Authority, and are bearing 8% interest until paid.

COMMENTS

This report cannot be construed as a finding of guilt or of innocence on the part of any public officers or private individuals who participated in this transaction. Our information comes chiefly from the records of the Toll Bridge Authority. Mr. Ehrlichman, now one of the liquidating trustees of the Longview Bridge Company, offered to make available to the Committee any records or other information desired. We did examine the records of the transfers of the stock of the Longview Bridge Company, which were all of the company’s records that the Committee requested or had time to consider. We did not examine any witnesses or take any testimony due to the fact that the Committee could not take the time to do so during the Legislative Session.

Subject to the foregoing qualifications, we have arrived at the following conclusions:

1. The agitation for the bridge purchase, from organizations and individuals in the Longview-Kelso area, was primarily based upon the contention that toll charges were excessive, and upon the assumption that State ownership would result in either reducing the tolls or making the bridge toll-free within a short period. On the terms made, the purchase will require that tolls be maintained at the present rate for at least fifteen years, on the most optimistic estimates, and perhaps in excess of thirty years, according to Mr. Dinsmore’s report. The maximum useful life of the bridge does not exceed thirty years so that by the time the bridge is paid for its entire useful life may well be exhausted.

In spite of the fact that from February 1947 until September 1947 all records indicate that the purchase would be made at a price of $2,250,000, the Toll Bridge Authority files do not disclose that any independent appraisal, counter-offer, survey, or study of the bridge properties or its revenues was made. The only studies related to the subject, made in the summer and fall of 1946 and in the spring of 1947, were based upon an attempt to determine the amount of bonds that the bridge could support without reduction of toll rates, and no consideration was given, so far as the record shows, of either replacement cost, depreciated value, or any other appraisal of the property itself.

It is the considered opinion of the Committee that the Toll Bridge Authority in concluding this transaction largely ignored its obligation to protect the interests of the patrons of the bridge who were expected to pay the cost, and whose rights were entitled to fully as much consideration as the rights of other taxpayers or citizens. It now appears from Mr. Dinsmore’s report of January 31, 1949, that not only will the tolls not be reduced but that they must be sharply increased if the contemplated essential reconstruction of the bridge approaches is to be accomplished.

In this connection it is the opinion of the Committee that persons dealing with public funds or public agencies, whether they be private individuals or public officials, should be expected to maintain a higher standard of conduct and sense of responsibility than are private individuals dealing with each other at arms length and in the open market.

2. The increase in activity in the shares of capital stock of the Longview Bridge Company in November 1944 is subject to the interpretation that the election of Governor Mon C. Wallgren measurably improved the prospects of a sale of the bridge to the State, and further, that this information was available to individuals intimately familiar with the situation. The market price of the stock in November of 1944 was around $1.00 per share. After the passage of the enabling Legislation, the price moved up to over $4.00 a share (an increase of 400% in a four-months period). The purchase price will pay to the stockholders of the bridge company a total of approximately $8.50 per share.

Certain individuals serving on the Board of Directors or employees of the United National Corporation and Drumheller-Ehrlichman Company owned and controlled, on December 31, 1944, a total of 75,662 shares of Longview Bridge Company Class A stock.

RECOMMENDATIONS

Since the bond issue is not a legal or moral obligation involving the credit of the State of Washington, and the bond resolution of the Toll Bridge Authority so states, we recommend:

1. That the Longview Bridge not be made a part of the primary highway system of the State of Washington, and

2. That the State of Washington do not obligate itself for any State funds to be used on this bridge for any purpose, and
3. That all the facts incident to the purchase of the Longview Toll Bridge be made a subject of inquiry by the Governor through any appropriate agency he may select, if he believes such inquiry justified.

We concur in this report: (Signed) JOHN H. HAPPY, Chairman, JACK H. ROGERS, ALFRED J. WESTBERG.

MOTION

Senator Rosellini moved that action on the report of the Longview Bridge Investigating Committee be deferred until such time as the Senate has an opportunity to look at the printed report on their desk.

Senator Rogers seconded the motion.

The motion carried.

REPORT OF CONFERENCE COMMITTEE

MR. PRESIDENT:

We, of your Conference Committee, to whom was referred Engrossed House Bill No. 543, entitled: "An Act relating to elections and voting; providing for methods of determining party nominees in certain cases, and amending section 24, Chapter 163, Laws of 1919, as last amended by section 1, Chapter 21, Laws of 1933," have had the same under consideration, and we are unable to agree and ask for the powers of Free Conference.

Senate Members

JOHN T. MCCUTCHEON

House Members
G. FRANK RHOADES
MICHAEL J. GALLAGHER
A. L. RASMUSSEN

MOTION

Senator Binzer moved that the report of the Conference Committee be spread upon the journal, and that the Senate recede from its amendments and pass the bill as passed by the House.

POINT OF ORDER

Senator Rosellini:
"Mr. President, I don't think that can be done. This is a bill that at the present time belongs to both Houses, and it seems to me the only thing we can do is to give the committee the powers of Free Conference and act in conjunction with the House. I don't think either House can take independent action on it."

Senator Zednick:
"Referring to Rule 251, page 187, of Reed's Rules relating to disagreement between the two Houses: 'The motion to recede is proper where the House has previously non-concurred, and, upon the question again coming up, desires to recede from that position.

'For example, when a bill has passed one House and been returned with an amendment, which is non-concurred in, and the amending House sends it back, insisting on the amendment, and the originating House on reflection concludes to adopt the amendment, the proper course is to recede.'

'I think this motion is entirely in order, Mr. President and Members of the Senate. I signed the Conference Committee report requesting powers of Free Conference. Frankly, I don't believe if we have that power we can ever agree. I know I am very strong for the provision the House put in concerning a person who has filed on one ticket not jumping over to the other party and filing on the other ticket at the next general election."

POINT OF ORDER

Senator Rosellini:
"Is the Senator speaking on the Point of Order or on the bill?"
ANNOUNCEMENT BY THE PRESIDENT

The President:
"The President is going to declare that the Senate be at ease for fifteen minutes, and I am calling a meeting of the Rules Committee to confer on the rules."

POINT OF ORDER

Senator Dixon:
"Senator Binzer's motion is a reconsideration of the action taken by the Senate the other day, and our rules call for reconsideration on the same day."

POINT OF ORDER

Senator Zednick:
"When either House in the Legislature are in disagreement, then provision is made for a Conference or Free Conference Committee. It does belong to both Houses. Now if we recede from our amendment, that is where we are all in agreement. That's why this motion is in order at this time."

The President:
"That is before a Conference Committee is appointed."

The President declared the Senate to be at ease for fifteen minutes.

The President of the Senate called the Senate to order at 2:15 p.m.

MOTION

Senator Binzer:
"I rise for the purpose of withdrawing the motion I made before the recess. I withdraw the motion that I previously made, which has been considered by the Rules Committee, and I move that the committee be discharged and the Senate recede from its amendments."

Senator Parker seconded the motion.

Senator Rosellini spoke against the motion.

Senator Dixon quoted from Joint Rule 4:
"In every case of difference between the two houses, upon any subject of legislation, either House may request a conference and appoint a committee of three for that purpose, and the other House also shall appoint a like committee to confer. Every report of a committee of conference shall be read through in each House before a vote is taken on the same."

PARLIAMENTARY INQUIRY

Senator Schroeder:
"If the House refuses to concur in this matter and refuses to discharge their committee we would have to appoint another committee."

The President declared the question to be on the motion that the Senate Conference Committee on House Bill No. 543 be discharged and that the Senate recede from its own amendments to that bill.

Division was called for, and the motion carried on a rising vote.

POINT OF ORDER

Senator Schroeder:
"The bill cannot be before this Senate now because the House has not discharged its Conference Committee."

Senator Westberg:
"The Conference Committee was appointed because of the amendments by the Senate. We have now receded from the amendments."
Senator Rosellini:

"The bill was turned over to the Conference Committee, three members from the Senate and three from the House. That bill is not the property of the Senate or House until that committee has been discharged. Now half of it has been discharged, but we must wait for action from the House before we can take any action on the bill itself."

RULING BY THE PRESIDENT

"Your point is well taken. I am going to maintain that point of order well taken."

The Secretary read:

SENATE RESOLUTION

By Senators Greive and Rutter:

WHEREAS, There is deep concern about the intention of the Atomic Energy Commission of the United States to condemn the Wahluke Slope, which is situated in Grant and Franklin Counties, in the State of Washington, and constitutes some of the best farm land in the entire Columbia River Basin; and

WHEREAS, The land sought to be condemned represents about 30% of the potential productivity of the entire Columbia River Project and has the longest growing season of any land in the State of Washington; and

WHEREAS, If this land is taken the State will lose about $30,000,000.00 annually in new wealth, which will entail a loss of many millions of dollars in taxes badly needed by the State; and

WHEREAS, The reason given for condemnation of this property is to protect the health of the farmers residing and to reside on this property; and

WHEREAS, This does not make sense for the reason that under the law and regulations of the Columbia Basin Project, there will be only about 2,000 farms on the Wahluke Slope to be occupied and used by about 2,000 families, or about 10,000 people, whose health would be involved; and

WHEREAS, The cities of Pasco and Richland, Washington, and the 20,000 people now employed at the Atomic Energy Plant near Richland, or an approximate total of 100,000 people, will be as close or closer to the Plant than will the residents of the land in question; and

WHEREAS, The Atomic Energy Commission, upon hiring people to work in the Plant, assures them that working in or near the Plant will not be injurious to their health; and

WHEREAS, The taking of this land will also deprive approximately 2,000 War Veterans of an opportunity for a farm and being able to make a good living on some of the richest farm land in the United States.

Now Therefore Be It Resolved, By the Senate of the State of Washington in thirty-first legislative session assembled that this highly important matter to the people of the State of Washington and the Wahluke Slope Landowners’ Association receive immediate attention and that the effort to condemn this property be stopped in order that the Bureau of Reclamation may proceed with canals and ditches now in process of construction to bring this property in a proper state of productivity as soon as possible as heretofore planned: and

Be It Further Resolved, That copies of this resolution be immediately transmitted to the Honorable, the President of the United States, the Secretary of the United States Senate, the Clerk of the United States House of Representatives and to each member of the Washington congressional delegation.

On motion of Senator Greive, seconded by Senator Rutter, the rules were suspended and the resolution was advanced to third reading and final passage.

SENATE RESOLUTION

By Senators Zednick and Davison:

WHEREAS, Certain real property in the heart of the business district in Seattle, familiarly known as the Metropolitan Tract, has for many years been owned by the University of Washington; and

WHEREAS, Said tract has long been held under lease by the Metropolitan Building Company, a private corporation, and occupied by several large office and other buildings; and

WHEREAS, Said Metropolitan Building Company has paid tremendous amounts to the federal government by way of income taxes; and

WHEREAS, The aforesaid lease will expire by its terms on November 1, 1954; and

WHEREAS, Public controversy has arisen on the question whether such lease should be renewed by the University or not, such controversy stemming from the fact that the operation of the buildings aforesaid by the University, rather than by a private corporation, would obviate the payment of federal income taxes, and to such extent would result in greater income to the University; and

WHEREAS, The welfare of the State of Washington in this critical period would be materially advanced by a federal grant to said University in the amount of the income taxes above mentioned; and

WHEREAS, Such a grant, while tending to abate the public controversy within the State of Washington, would unquestionably conduce to a promotion of the federal weal by providing additional revenue for higher education

Now, Therefore, Be It Resolved, By the Senate of the State of Washington in the thirty-first regular legislative session assembled, that the Congress of the United States be requested by appropriate legislation to provide for a grant to the University of Washington for university purposes in the amount of the federal income taxes hereafter paid to the national government by the Metropolitan Building Company, aforesaid, and for the payment to said University for the same purposes of such amounts as may in future be received by the national government by way of income taxes from said Metropolitan Building Company; and

Be It Further Resolved, That copies of this Resolution be immediately transmitted to the Honorable, the President of the United States, the Secretary of the United States Senate, the Clerk of the United States House of Representatives and to each member of the Washington Congressional delegation.

Senator Zednick moved the adoption of the resolution.

The President:

"No action is necessary. Any Senator has a right to enter a protest and have it spread on the journal."

PROTEST OF LONGVIEW BRIDGE INVESTIGATION COMMITTEE REPORT

We, the undersigned members of the Washington State Senate, protest the adoption by this body of the politically inspired report of the Longview Bridge Investigation Committee of March 10, 1949. We do so because we feel it serves no constructive purpose and is a partisan attempt to defeat the former Governor of this state, Mon C. Wallgren, for the post of Chairman of the National Defense Resources Board, to which he has been nominated by the President of these United States. Since Senator Westberg, the author of this report, has publicly stated on this floor that nothing in this report can be construed as an indictment of Mr. Wallgren's public or private conduct in this regard, in all fairness to this honorable gentleman, we feel that our position as members of this body should be transmitted for his use in explaining the motives for this unwarranted attack if and when it is made by his opponents on the floor of the United States Senate.

PERSONAL PRIVILEGE

Senator Rosellini requested that his remarks be spread on the journal.

The request was granted.

Senator Rosellini:

'T wish to protest the inspired campaign in the press to make Initiative 172 the scapegoat for the apparent state deficit. The increased cost in social security is no more responsible for this deficit than any other increased governmental cost. In particular, I wish to point out that twenty-seven per cent of the additional sixty million dollars which the Harley budget proposes for social security for the coming biennium
is accounted for by Federal matching funds, a sum in excess of fifteen million dollars. Increased unemployment is largely responsible for the increased cost of aid to dependent children and general assistance, and cannot be attributed to Initiative 172.

"The increase in our population, together with an increase in the percentage of people who reach and live beyond the age of sixty-five, and not 172 is responsible for an accelerating number of people becoming eligible for old age assistance. Had 172 not passed, it would still have been necessary for this Legislature to have appropriated more for social security than is called for in the Harley budget, to meet our social security responsibilities.

"Attempts to use 172 as a scapegoat for our budget problems is a smoke screen, whose purpose is to hide the fact that everything today costs more money and that the people themselves have demanded of government more services than formerly, and that it is the Legislature's responsibility to meet these demands."

SIXTIETH DAY, MARCH 10, 1949

MESSAGE FROM THE HOUSE

House of Representatives,

Mr. President:
The Speaker has signed: Re-Enrolled Senate Bill No. 164, and the same is herewith transmitted.
S. R. Holcomb, Chief Clerk.

MOTION

On motion of Senator Binzer, the Senate was declared at recess subject to the call of the chair.

The President called the Senate to order.
The President:
"Members of the Senate: We have two very distinguished visitors, and I desire to ask at this time that the Sergeant-at-Arms escort them to the rostrum."

The Sergeant-at-Arms thereupon escorted the distinguished visitors to seats upon the rostrum.

President Meyers:
"Members of the Senate: I am very happy and proud indeed to present a man who is very well known to all of us. He is in Olympia as a guest of the Governor today, and I asked him to come up to the Senate and be introduced—Major General Lewis B. Hershey, Director of Selective Service, Mrs. Hershey, and former member of the House, Commander Chester J. Chastek, U. S. N. R." (Applause)

General Hershey:
"Mr. President, Members of the Senate: I cannot tell you how flattered I am to stand before a legislative body of a state of these United States. But even if I had been accustomed to it, I am quite sure I would be overawed in such surroundings. You not only have the beauty of Nature on the outside, but you have transplanted it very well in this marvelous Senate.

"I suppose Mrs. Hershey would say I never try to say anything without trying to make myself a part of my audience. But we do happen to have a son, now in the Marine Corps, born in the State of Washington, and our only grandchild was born in the State of Washington. So we do have some ties up here and are rather proud of the year spent in Fort Lewis quite a while ago.

"I cannot miss an opportunity to thank the State of Washington for sterling service during the late unpleasantness on our board. It produced some sixteen million men by invitation and actual induction. But it did demonstrate that the American people will expect, on the community and state levels, to do the most serious things that have to be done.

"I do want to express my appreciation to the State and especially the members of the local boards. I am very happy to have a former Member of the House here in the capacity of State Director of Selective Service, and we hope we shall never be more active than we are now. It is like good insurance. As Milton has said, 'They also serve who only stand and wait.' If we can avoid war by being prepared by Selective Service, I hope we may never have to use it.

"It is indeed a privilege to be here, and I want to thank the presiding officer and you, the members, for having permitted me to be here in the sovereign State of Washington." (Applause)

WHEREAS, said bills, as amended, provide for the creation of a Legislative Fact-finding Committee on Un-American, subversive and disloyal activities in the State of Washington, and

WHEREAS, the Senate believes that these are times of public danger; subversive persons and groups are endangering our domestic unity, so as to leave us unprepared to meet aggression, and under cover of the protection afforded by the Bill of Rights these persons and groups seek to destroy our liberties and our freedom by force, threats and sabotage, and to subject us to the domination of foreign powers, and

WHEREAS, the Thirty-first Session of the Legislature created a committee for the investigation of Un-American activities, which committee did conduct investigations during the interim between the Thirtieth and Thirty-first Sessions of the Legislature,
which investigation resulted in disclosures of wide-spread Un-American activities in
the State of Washington, particularly at the University of Washington, which resulted
in the dismissal of three members of the faculty of the University of Washington, and
the probation of other members of said faculty, because of their disloyal and subversive
activities, and which investigation brought before the public the menace of communism,
subversive and disloyal activities within the boundaries of the State of Washington, and
WHEREAS, the menace of communism, disloyal and subversive activities still exist
in the State of Washington and the United States of America and should be thoroughly
exposed and the only feasible way of investigating and exposing such activities is by
an investigation of a committee of the Washington State Legislature having authority
to thoroughly investigate and expose such activities:

Now, Therefore, Be It Resolved, That there is hereby created a Senate Fact-finding
Committee on Un-American, Disloyal and Subversive Activities in the State of Wash­
ington, which shall investigate, ascertain, collate and appraise all facts concerning
individuals, groups or organizations whose activities are such as to indicate a purpose
to foment internal strife, discord and dissension; infiltrate and undermine the stability

Be It Further Resolved, That in addition to other duties imposed upon the committee,
the committee shall investigate the activities of groups and organizations whose mem­
bership includes persons who are communists, or any other organization known or
suspected to be dominated or controlled by a foreign power, which activities affect
the conduct of this state, the functioning of any state agency, educational institutions
of this state supported in whole or in part by state funds; and

Be It Further Resolved, That the committee shall consist of five members of the
Senate appointed by the President thereof, subject to confirmation of the Senate; said
committee to elect its own chairman; and

Be It Further Resolved, That the committee hereby created in exercising the powers
and performing the functions vested in it by this resolution shall have: (I) All the

Substitute Senate Bill No. 21

March 4, 1949.

To the Honorable
The Senate of the State of Washington.

Gentlemen:

I am returning herewith, without my approval, Substitute Senate Bill No. 21, entitled:

"An Act Relating to strawberries, red raspberries, black raspberries, blackberries, loganberries, boysenberries, youngberries, and similar hybrids, currants, gooseberries, and by-products thereof; declaring the public policy of this state be to promote the production, consumption and sale of small fruits by providing for horticultural, economic and market research and publicity, advertising and sales promotion campaigns to increase the consumption of Washington small fruits; levying an assessment and providing for its collection; creating a small fruit commission and vesting in it the administration of this act; providing for the powers, duties and authority of said commission; providing penalties for violation of this act, and declaring an emergency."

This act, by setting up a special commission for a specific industry, merely adds to the difficulties of state Government by increasing its decentralization.

It utilizes the machinery of the state to enforce mandatory assessments and regulations against growers and, in many cases, against their will and for programs in which they have had no part in formulating and to which they do not subscribe.

The objectives of this act are based upon a false conception of the functions of government. They place upon it the obligation of policing the collection of funds for trade promotion programs which have through the years and should now be subject to voluntary and cooperative action of the industry.

Assistance and support for such voluntary programs are readily available to the industry through the existing facilities of the Department of Agriculture.

For these reasons this act is vetoed.

Respectfully submitted,

(Signed) ARTHUR B. LANGLIE,
Governor.

Senate Bill No. 164

March 21, 1949.

To the Honorable
The Senate of the State of Washington.

(Through the Secretary of State.)

Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislature, without my approval as to section 34, Senate Bill No. 164, entitled:

"An Act Relating to unemployment compensation; providing for experience rating credit; providing for relief from unemployment caused
by sickness, accident, or injury; providing for benefits, contributions, funds, and the receipt of monies; amending chapter 35, Laws of 1945; repealing sections 108, 109 and 136 to 179, inclusive, chapter 35, Laws of 1945, and chapter 50, Laws of 1947; making an appropriation; declaring an emergency and providing effective dates.'

Section 34 declares that "An Emergency exists and this act is necessary for the preservation of the public peace, health, safety and welfare, and the provisions of sections 6 to 33, inclusive, shall take effect on the first day of April, 1949."

I can see no reason why this bill should take effect at any date other than ninety days after the adjournment of the legislature as provided for in the constitution. Under this bill deductions for disability compensation do not begin until July 1, 1949 and benefits are not payable until January 1, 1950, and it appears to me that the Employment Security Department, with or without the emergency clause, will have sufficient time to set up the necessary machinery for the administration of the provisions of the bill.

I am further prompted in this decision by the fact that, if section 34 is not vetoed, the people of the state will be deprived of the opportunity, if they so desire, to petition for a referendum of the bill. It is my belief that the provisions of this bill are so important and of such far reaching effect upon the rank and file of our people that it would be unwise to close the door to a popular vote on the measure if it should be desired.

For these reasons, section 34 is vetoed and the remainder of the bill is approved.

Respectfully submitted,
(Signed) ARTHUR B. LANGLIE,
Governor.

Senate Bill No. 165

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislature, without my approval, Senate Bill No. 165, entitled:

"An Act Creating a division of livestock identification in the department of agriculture; creating a state brand board; providing for the appointment, compensation, powers and duties of certain officers; and amending section 83, chapter 7, Laws of 1921."

While the objects sought to be accomplished by this bill are no doubt desirable in the interest of preventing cattle theft, the bill is so drafted as to create considerable doubt concerning the general powers and duties of the state director of agriculture, not only with respect to the new "division of livestock identification," but also with respect to his powers and duties as to the entire department of agriculture.

Section 1 of the bill amends section 83, chapter 7, Laws of 1921, by adding a division to be known as "the division of livestock identification," but, in so
doing, the drafters of the bill omitted the language of the 1921 act providing that "the director of agriculture shall have charge and general supervision of the department."

The bill in its other sections provides for the appointment by the director of a "state brand board" which board is directed to establish rules and regulations, prescribe policies for procedure and generally supervise and control the operation of the division. The board is directed to appoint a chief brand inspector and fix his salary, thus effectively removing from the director control and supervision over the new division of livestock identification. The bill further casts upon this chief brand inspector a number of existing duties which are now vested in the department's division of dairy and livestock.

The whole tenor of the bill is such that I cannot approve it in its present form. It undertakes to amend or repeal certain portions of the present law without directly saying so, and apparently attempts to establish a new and, to all intents and purposes, independent department within the department of agriculture.

Another defect in the bill is that it provides that the chief brand inspector shall employ and fix the compensation of necessary assistants and clerical help "within the limits of the funds collected under the provisions of this act as inspection fees" and nowhere in the bill is there any provision for the collection of any inspection fees.

For these reasons Senate Bill No. 165 is vetoed.

Respectfully submitted,

(Signed) ARTHUR B. LANGLIE, Governor.

Senate Bill No. 167

March 21, 1949.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislature, without my approval, Senate Bill No. 167, entitled:

"An Act Relating to the office of lieutenant governor; amending section 1, chapter 118, Laws of 1919; and declaring an emergency."

This bill increases the per diem expense allowance of the Lieutenant Governor from ten to fifty dollars, while acting as Governor. Subsequent to the passage of this bill the legislature increased the salary of the Lieutenant Governor to $6,000 per year.

According to available information this combination of duplicatory salary payments would make the office of Lieutenant Governor in this state the highest paid part time position of its kind in the United States. Moreover, it would make his compensation in relation to services rendered out of all proportion to the income received by other elective state officials.

The situation might well be the grounds for proposals in the future by other elective officials for a rescaling of their salaries, with attendant legislative turmoil.
I am also aware that when the Secretary of State is called upon to perform the duties of Governor he does not receive extra compensation. Therefore I do not believe that the five hundred per cent increase in the per diem expense of the Lieutenant Governor is justified.

For these reasons Senate Bill No. 167 is vetoed.

Respectfully submitted,

(Signed) ARTHUR B. LANGLIE,
Governor.

Senate Bill No. 250

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Gentlemen:

I am filing herewith, to be transmitted to the Senate of the State of Washington at the next session of the Legislature, without my approval as to section 1, Senate Bill No. 250, entitled:

"An Act Relating to motor vehicles; the operators' fees thereof; and to motor vehicle fuel and the tax thereon; prescribing penalties; amending section 17, chapter 58, Laws of 1933, as last amended by section 4, chapter 84, Laws of 1943; and amending section 19, chapter 58, Laws of 1933, and section 32, chapter 188, Laws of 1937, as last amended by section 9, chapter 164, Laws of 1947."

The passage of this bill presents the possibility of serious conflict between statutes because section 1 of this bill amends section 17, chapter 58, Laws of 1933 as last amended by section 4, chapter 84, Laws of 1943; and amending section 19, chapter 58, Laws of 1933, and section 32, chapter 188, Laws of 1937, as last amended by section 9, chapter 164, Laws of 1947. With the approval of this bill the question might well arise as to which amendment controls.

In order to avoid such conflict it is necessary that section 1 be vetoed. For this reason section 1 is vetoed and the remainder of the bill is approved.

Respectfully submitted,

(Signed) ARTHUR B. LANGLIE,
Governor.

Senate Bill No. 270

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to certain items, Substitute Senate Bill No. 270, entitled:

"An Act Making appropriations and reappropriations for the payment of salaries of certain officers and employees of the state and for the operation, maintenance and other expenses of certain state institutions, departments and offices, for the purchase, condemnation and improve-
lement of land, the construction of buildings and improvements for the various state institutions designated and mentioned, and for emergencies, and for refunds, and for the relief of certain individuals, corporations, counties and municipalities, and for transfers, and for deficiencies, and for appropriation of revolving funds, and for sundry civil expenses of the state government, and for public assistance, and for purposes specified in certain acts of Congress, and for miscellaneous purposes, for the fiscal biennium beginning April 1, 1949, and ending March 31, 1951, except as otherwise provided, defining terms, limiting allowances and payments, prescribing penalties, and declaring that this act shall take effect immediately."

I disapprove and veto the items "Corporation Field Examiner, Salary and Expenses $13,620.00" and "To carry out the provisions of House Bill No. 305: Salaries, Wages and Operations $18,000.00" for the reason that in my opinion sufficient funds have been provided in the regular appropriations for the Secretary of State to carry on these functions.

I disapprove and veto the item "Maryland Casualty Company, assignee of G. R. Kirk, in settlement of judgment, Mason County Superior Court No. 4622 $1,241.98" for the reason that in my opinion this judgment should be paid from the State Forest Development Fund and Kitsap County which received the funds involved.

I disapprove and veto the item "From the Accident Fund. Albert Zimprick, compensation for injury received while engaged in extrahazardous employment $4,000.00" for the reason that our Supreme Court has decided that the Legislature is without authority to appropriate for a claim of this nature from the Accident Fund.

I disapprove and veto the item "For the purpose of paying the expenses of the Thirty-first Legislature of the State of Washington $50,000.00" for the reason that I am informed there is sufficient balance remaining from the appropriation by chapter 1, Laws of 1949, to meet all legislative expenses until the next session of the Legislature.

With the exception of the foregoing items, which are vetoed, the remainder of Substitute Senate Bill No. 270 is approved.

Respectfully submitted,

(Signed) ARTHUR B. LANGLIE,
Governor.
