ELECTION OF OFFICERS
PRESIDENT PRO TEMPORE

The President declared nominations to be open for the office of President Pro Tempore of the Senate.

REMARKS BY SENATOR DAY

Senator Day: "Thank you, Mr. President, and I can say ladies and gentlemen of the Senate, it is indeed an honor for me and a pleasure today to place in nomination for the office of President Pro Tempore a long time friend whose nomination really is a formality. I think that because of his integrity and ability and his dedicated service through the years that my good friend, Senator Al Henry, will serve as he has in the past as an excellent parliamentarian. He is judicious in his decisions and yet when we are down to the crunch around here he knows how to expedite the work and still be fair and personable while being firm in the process. And so it is a great deal of pleasure for me, Mr. President, to place before this body the name of Senator Al Henry."

REMARKS BY SENATOR HARRY LEWIS

Senator Lewis (Harry): "Mr. President and members of the Senate, I would very briefly like to second the nomination for a fine Senator who has a very unusual and very appropriate set of rules under which the Senate has operated successfully in the past. Al, I would like to second your nomination."

The nomination of Senator Henry was also seconded by Senator von Reichbauer and Senator Peterson.

MOTION

There being no further nominations, on motion of Senator Mardesich, the nominations were closed.

FIRST DAY, JANUARY 13, 1975

PRESIDENT'S PRIVILEGE

The President: "Mr. President, honored members of the Senate, ladies and gentlemen, the President wishes to remark to you, Al, it was a tough fight but we are glad you won. I have often had the opportunity to work with Al and have found over the years that for ability, loyalty, integrity, and all of the other wonderful attributes that are so desirous in a man or a woman, Al possesses all of them. Al, congratulations, best wishes, may the best things in life be yours."

REMARKS BY SENATOR HENRY

Senator Henry: "Thank you, judge, and thank you, John. I want to thank the members of the Senate for the confidence you have placed in me again for this office. I have enjoyed working here and if they do not louse up the rules too bad so that Henry's rules of order are ruled out, I think we will probably get along real good this session. I can say to you that even though I may be a member of the tired old guard that I have no osmosis in my gavel arm and I will administer as quickly and fairly as I have in the past. Thank you very much."

The committee of honor escorted Senator Henry to his seat in the Senate Chamber.

VICE PRESIDENT PRO TEMPORE

The President declared the nominations to be open for the office of Vice President Pro Tempore of the Senate.

REMARKS BY SENATOR SANDISON

Senator Sandison: "Mr. President, I place in nomination for the position of Vice President Pro Tempore Senator James Keefe. Senator Keefe is a long time member of this body as we all know. He is a man who has been very dedicated to Spokane, Spokane County, his state and to the democratic process that brought us all here and gave us our mandate for the next who knows how many days. He is a man of wit, a man of discretion, and a great guy to have around in any situation."

REMARKS BY SENATOR GUESS

Senator Guess: "Mr. President, it gives me a great deal of pleasure to second the nomination of Senator Keefe, the silver haired sage of the Third Legislative District. Over the years as legislation has been before the body and that particularly affects Spokane, Senator Keefe has always been a leader, one who was working for the best interests of our town, and I am happy that we are recognizing with this honor our most senior citizen in point of years of service. It is indeed a pleasure to second the nomination of Senator Keefe."

MOTION

There being no further nominations, on motion of Senator Peterson, the nominations were closed.

SECRETARY OF THE SENATE

The President declared the nominations to be open for the office of Secretary of the Senate.

REMARKS BY SENATOR BAILEY

Senator Bailey: "Mr. President and members of the Senate, it is a pleasure for me today to again nominate a man for Secretary of the Senate, a man that I have known for a long time, a man that outranks me in seniority, I think, in the legislature. Sid Snyder came to the session as an elevator operator and a bill clerk in the session of 1949. He was a bill room supervisor in 1951, became Assistant Chief Clerk of the House in 1957, and was Acting Chief Clerk of the House around 1965, then came to the Senate as the Secretary of the Senate on the death of Ward Bowden in 1969. Now Sid is a former constituent of mine. I say former because some pompous federal judge sitting in Seattle decided to let an idealistic theoretical university professor draw lines ignoring common sense and making it look good on a map. He now is a constituent of Gary Odegaard's. So we both claim Sid in Pacific County. We are very happy to present him to you. We think he is the fiftieth member of the Senate. He is a technician, I think that no one can dispute, and I do not think anyone can dispute the fairness that Sid has shown to every member of the Senate. It is indeed a pleasure for me to nominate Sid Snyder as Secretary of the Senate."
REMARKS BY SENATOR ODEGAARD

Senator Odegaard: "Mr. President and members of the Senate, I rise to second the nomination of Sid Snyder for the position of Secretary of the Senate. Senator Bailey has told you how he was in his district and now is in my district. It is a real pleasure to have him in my district. He has done a great job as Secretary of the Senate. He is a very talented person. He is also a good grocer out in the Long Beach area, and if anybody cannot get along with Sid Snyder I guess I would have to question that person."

REMARKS BY SENATOR MATSON

Senator Matson: "Mr. President, I rise to also second the nomination of Sid Snyder to demonstrate the esteem and confidence that those of us in the minority hold for Sid Snyder."

MOTION

There being no further nominations, on motion of Senator Mardesich, the nominations were closed.

ROLL CALL

The roll was called and Sidney R. Snyder was unanimously elected Secretary of the Senate by the following vote: Yeas, 49.

APPOINTMENT OF SPECIAL COMMITTEE

The President appointed Senators Goltz, McDermott, North and Matson to escort Sidney R. Snyder to the rostrum.

Justice Hamilton of the Washington State Supreme Court administered the oath of office to Sidney R. Snyder.

PRESIDENT'S PRIVILEGE

The President: "Ladies and gentlemen, the President wishes to once again thank you for electing Sid Snyder to this very important position. I am sure that you all realize that Sid is not only a source of strength and comfort, confidence to me but also to you because I believe that whereas Sid is young in age, young in heart, he nevertheless is perhaps the father confessor for all of us. Sid, congratulations and I am sure you realize from the expressions made by the Senators who spoke in your behalf the high opinion that we all hold for you and your staff. Now, won't you say a few words please."

REMARKS BY SIDNEY R. SNYDER

Mr. Snyder: "Thank you, Governor, Senators, Justice Hamilton. I certainly appreciate the vote of confidence, and any credit that I have received in the speeches here today really should go to my staff because they are the ones that perform the work and do the duties around here and we only hope that when the end of the session rolls around
that you are saying as many kind things then as you have today. Thank you.”

The committee of honor escorted Sidney R. Snyder from the Senate Chamber.

SERGEANT AT ARMS

The President declared nominations to be open for the office of Sergeant at Arms of the Senate.

REMARKS BY SENATOR HENRY

Senator Henry: “Mr. President and members of the Senate, since 1956 it has been my pleasure to place in nomination the name of our present Sergeant at Arms, Charles Johnson. I served with him in the House in ’51. He took on the thankless job in the House in ’55 of being Sergeant at Arms. He has since come over to be Sergeant at Arms in the Senate. I do not think there is any one of you that has not made a lot of demands on his time and as I say, it is a thankless job but he has done a good job at it. I suggest the name of Charles Johnson.”

REMARKS BY SENATOR KNOBLAUCH

Senator Knoblauch: “Mr. President and members of the Senate, since I first came to Olympia as a bill room clerk in 1939 I have met a lot of fine men in both Houses. I had the pleasure of serving with Charlie Johnson in the House in 1951 and I must say he has grown in stature since that time. Charlie is always friendly, anxious to help, and it is a pleasure to second the nomination of Charles Johnson as Sergeant at Arms.”

times quite arduous and difficult but Charles does a wonderful job for the members of the Senate.”

MESSAGE FROM THE GOVERNOR

GUBERNATORIAL APPOINTMENT

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON.
LADIES and GENTLEMEN:

I have the honor to submit the following appointment, subject to your confirmation:

Julia Butler Hansen, appointed January 1, 1975 for a term ending July 1, 1980, succeeding Harold Walsh as a member of the State Highway Commission.

Sincerely,

DANIEL J. EVANS
Governor.

MOTIONS

On motion of Senator Mardesich, the Senate commenced consideration of the appointment of Julia Butler Hansen to the State Highway Commission.

Senator Walgren moved the appointment of Julia Butler Hansen as a member of the State Highway Commission be confirmed.

REMARKS BY SENATOR WALGREN

Senator Walgren: Mr. President and members of the Senate, ordinarily a confirmation, of course, would be submitted to the appropriate standing committee for consideration. I am sure all of you are well aware that the Honorable Julia Butler Hansen has been a colleague of many of us here now serving in the Senate. She has, of course, a long and distinguished career and particularly in the area of highways and transportation. She, of course, has just recently completed a distinguished term of office as a member of the House of Representatives in the United States Congress and, of course, for many years served in the State House of Representatives where she served as chairman of the then Highways Committee. One of the things that I sometime want to ask her is just exactly how she was able to get — I think it is twelve votes for the members of the House and only eleven votes for the members of the Senate whenever we organized the Joint Committee on Transportation. That must be a very interesting story and I hope that sometime she will relate that to those of us who are interested and I can assure you that a number of us are.

"I asked earlier today whether or not there were any members of the Transportation and Utilities Committee that wanted to have the opportunity of interrogating Julia Butler Hansen and all declined, for reasons best known to them, I suspect. I know that all of you are looking forward to having her serve as a member of this very important body of state government and I certainly urge her confirmation tonight."

REMARKS BY SENATOR NEWSCHWANDER

Senator Newschwander: "Mr. President, I would like to rise, as a member of the minority here, to second the nomination of Julia Butler Hansen. She left the House the year that I started there and I have heard about her for fourteen years. She has a distinguished record as chairman of the Highway Committee for many years before I arrived in the House and I cannot think of anybody else who is more qualified to serve on this commission so I would like to second the nomination of Mrs. Hansen."

REMARKS BY SENATOR WASHINGTON

Senator Washington: "Mr. President and members of the Senate, I too want to second the appointment and nomination of Julia Butler Hansen. I served with her when she was chairman of the Highway Committee in the House and then for a number of years when she was still chairman of the Transportation Committee, the Highway Committee in the House. I was chairman here in the Senate, and we worked together very well and I know that she will really add to the stature of the commission. She has
got a real background, not only from the state level, but she was tremendously active in transportation problems in Congress. She will really handle that job and again I want to compliment the chairman of the Transportation Committee in bringing the appointment directly to the floor because I know of no other appointment of the Governor that we could more wholeheartedly all of us support."

**REMARKS BY SENATOR TALLEY**

Senator Talley: "I rise to second the nomination of Julia. I have known her all my political life and I learned some political strategy from her and I have got some scars to prove it. We especially feel in southwest Washington that she will look out for our interests against the inroads of Puget Sound, so I am happy to second the nomination."

**REMARKS BY SENATOR BAILEY**

Senator Bailey: "Mr. President, I just want to say a word that I am not under any conflict of interest tonight about Julia because that ceased in the first of the year. If anybody can bring back to the Highway Commission the leadership it needs and has not had for about ten years — the problem it is causing now with threats of being disbanded and things of that sort — I think that Julia is probably the one that can sink the pick into the seats of the rest of the members and I think that really if anything is wrong with the Highway Commission now, it is good for continuity of program. I do not want to see it abandoned. I know Julia was the author of the bill that established the Highway Commission. If anything is wrong with the Highway Commission, it is the fact that it has lost contact with the average citizen. It listens to the department. It comes in, it lays out the department's program. It does not have any contact with the average citizen to sell their highway program. They have gone on their merry way and kind of retreated behind a shell in the building over there, and I think that the rest of the Highway Commission, if nothing else is said about Julia, and she will be a great Commissioner, but the least that can be said is that the other four members are going to know that she is there."

**REMARKS BY SENATOR GUESS**

Senator Guess: "I would like to also add my word for the seconding and for the confirmation of Julia. I can remember in 1955 on one of the hearings where the Commission came to the city of Spokane. The Commission heard a problem about a road that the Indians were particularly anxious to have built in the northern part of the state, and the road has not been built yet, and I would hope that when Julia comes back she will remember that the Chief told her that he would like to have that built and that maybe this time we can get it built. It is a very short stretch of road up on the Canadian line that we never seem to get around to because of the priority, a way to get that road finished. Senator Bailey mentioned the fact that when Julia was there in the committee that the committee went around the state and they elicited the report. You not only had the formal part of the meeting but you were able to have a meeting and sit down and have dinner with the commission and it was a great treat to me at that time as a private citizen, before I got into the political field, to be able to sit and talk with them and find out the direction that they thought that the thing would go, and then they wanted to give and take with the citizens. And this is something that is needed. It is something that we have missed for a long time and I do not know of the same type of hearing having been held since she left the state. So it is very necessary and I think that Julia will do an outstanding job."

**APPOINTMENT OF JULIA BUTLER HANSEN**

The Secretary called the roll. The appointment was confirmed by the Senate by the following vote: Yeas, 47; excused, 2.

Excused: Senators Bottiger, Cunningham—2.

STATE OF THE STATE MESSAGE

The Governor: Mr. President, Mr. Speaker, ladies and gentlemen of the Legislature, members of the Court, State elected officials, and fellow citizens: Let me before beginning my formal remarks to this session of the legislature depart for a moment to recognize one who is seated in a place of honor at the front of the Chamber but who, this Wednesday of his own volition, steps down from public office. In 1965, January, we took the oath of office together, I as Governor, he as Secretary of State. During these past ten years he has served as a close colleague, a friend, a distinguished Secretary of State — fulfilling the constitutional and statutory duties of that office. But will be far long remembered by many citizens of this state who cannot speak for themselves, at least very loudly — the poor and the minorities, many of our young and the elderly — each of whom he has worked with closely in developing new legislation, new concepts, and in each case has advanced the cause of those who had little voice. I know I join with my colleagues in the legislature in wishing him the very best for future years, our thanks for a distinguished period of public service, and to you Secretary of State Lud Kramer, Godspeed.

I congratulate all of you who this morning took the oath of office for a new or a continuing term in this legislature. I remember vividly my own first day as a member of this House of Representatives and equally vivid the memories as ten years ago today when I stood in this place to be inaugurated as the sixteenth Governor of the State of Washington. Sometimes it’s a benefit to look back into history even if it is your own history, to reread that inaugural address of 1965 and in that address I stated that Washington is truly among the favored states. We have not suffered the silt and smog of overindustrialization. We have not felt the oppressive overcrowding of population. Neither have our urban centers been blighted at the core. Our land is fertile, our water abundant, our cities clean, our people well-educated, and our industry progressive. Ten years have passed and I believe so strongly that those sentiments are equally valid today.

We have emerged from the incredible turmoil of the last decade. Turmoil in which our cities throughout the land have been turned topsy-turvy. Turmoil in which the campuses of higher education of this nation have seen riots and disruption as never before. Years in which we finally woke up to the problems of protecting the natural environment of this nation. Years of a great and long lasting war which went on to the increasing distaste of American citizens. And now at the end of that decade, facing up to problems of inflation, problems of economic setback nationally which we have seldom faced before. And the ultimate recognition that we can no longer be an island unto ourselves but our nation is more interdependent with other nations than ever before and our state is more interdependent with other states than ever before.

We have emerged from that incredible ten years with a unique state whose physical characteristics are still relatively unspoiled. We, and I speak now as the citizens of this state as well as those who have served in this legislature and in the executive and judicial branches, we have been good stewards. We are a people who have demonstrated the character to meet adversity and who possess the spirit to face the future with enthusiasm and vitality.
Over this past decade Washington citizens demonstrated clearly their belief in a quality environment for themselves and for their children. They demonstrated that they believe in an equality of all citizens under law. That they would stretch out a helping hand to those in need. That they would support continuing, outstanding educational opportunity and that they would hold those in position of power accountable for our actions.

Let’s look shortly at the record of the past ten years: It is a record which was jointly constructed, jointly constructed by those who served at the state level as well as citizen leaders in each of our communities. In environmental quality, we established the nation’s first Department of Ecology and enacted comprehensive air and water pollution legislation, preserved our ocean beaches as recreational havens for increasing thousands of Washington citizens, passed a comprehensive shorelines protection act now being emulated throughout this nation, enacted tough oil spill and strip mining bills long before they were considered at the national level. In education the first four-year college in seventy years in this state was initiated, a college which already has national recognition for its unique and exciting educational concepts. We established during these past ten years a state community college system and have seen its enrollment virtually quadruple during that period. Public expenditures for education, common school education, has not kept pace with the needs but at the state level has more than doubled on the per pupil basis. We lead the nation in education for the handicapped. The death rate on our highways has been reduced by more than thirty percent. We approved an equal rights amendment and a tough public disclosure act, again among the first in the nation. We approved nearly $400 million of bonds for Washington Future and in doing so protected ourselves against the current economic downturn with the thousands of construction jobs in the of the next several years. We provided compensation for the victims of crime. We increased by more than six times production at our state fish hatcheries. Still not enough. We have kept polluting billboards from our scenic highways and we have authorized annual elections. Our warehouse-type institutions of yesterday are giving way to broadly based groups of community facilities offering new hopes to thousands of afflicted Washingtonians.

The roll call is much longer of accomplishments and we cannot now turn our backs on that legacy of excellence. We must not ignore the voice of our people expressed so many times in support of a better state. Our citizens do express belief and have many times in a system of representative democracy. But if we fail to act, they will and have seized leadership through the initiative and the referendum. No state in the nation has encouraged more citizen participation nor found a citizenry more willing, a citizenry more willing to devote more time and energy to public affairs. During the past year we have asked more explicitly for the views of our people to the goals of Alternatives for Washington. Now Alternatives for Washington doesn’t pretend to be an all encompassing sole source of wisdom in how we react to the needs of our citizens. Obviously the major responsibility for direction of this state through its laws and constitution lies in the hands of the men and women gathered in this chamber tonight. But none the less, through Alternatives for Washington and its statewide polls and the comprehensive views expressed by a broad and representative group of now almost 65,000 citizens, I believe we do now have a better understanding, a better understanding than ever before of what our people are saying and what they would like to see for themselves and for their families. Listen to them speak through a few of the thousands of personal letters which accompanied Alternatives for Washington questionnaires:

“Alternatives for Washington was a welcome experience for me for reasons that have been all too obvious for a very, very long time: We, the people, have been the listeners.”

“I think this method of getting the peoples’ opinion is the best we have had yet. It is very good and should be continued and expanded.”

An Auburn High School student who said she knew I wouldn’t read this which was a challenge I couldn’t pass up, said: “That I wouldn’t want our state to be like California.” Surprising the number of times that was repeated. And she also said something
we can all take to heart, "You old people are just messing up our beautiful state." She and her generation haven't had a chance yet.

Another one, "Too much of our beautiful landscape is being converted into junk food drive-ins, used car lots, shopping centers, and other commercial strip activities."

"I am very much in favor of planning for the future and am fully convinced this is the only way to preserve Washington, for preserve it we must."

"What we all would like is people caring more about each other's interests, and compromising more so that everyone has an equal chance — or as equal as each person's talents can handle." And a postscript to that note, a postscript which I suspect could be utilized by each of us a number of times: "And I don't know how you get that."

And a Port Angeles man wrote, "Pay more attention to what the people of the state think is best. Do what is best for our state and its population for I believe we have the best state and some of the best people in the world. Keep it a good and friendly place to live or visit."

Now those are not unique letters. They are representative of thousands which accompanied those questionnaires. Some others were letters of more fear and letters of individual concern. But they are letters from a people who spoke out strongly for a future of moderate and needed economic growth and even more moderate population growth. There is no more of the feeling here in our state that we must be first in population and each of our cities will be best only if it is biggest. They spoke very strongly, overwhelmingly for a top priority of protection of our natural environment and the conservation of our natural resources. They spoke loudly about the wealth of this state lying in its land and its people and our citizens urged the protection of our present agricultural and forest land base to preserve what we have so it could become the fundamental base for future economies, economies depending heavily on agricultural and forest products. But they said at the same time, let's rebuild our cities which too often have decayed and reinvigorate especially our smaller and medium-sized communities.

During these next ten years then, we have an opportunity, an opportunity to secure the long term future for ourselves and for our future generation. However, the next ten years begin with this next biennium. The policies we set and the bills we pass, the budget we adopt must be with the goals of the next generation in mind and not just the next election. As we face the legislative session now before us, again, the words of an inaugural of ten years ago represent clearly my position today as well. When I said then — "This administration believes steadfastly in the future; that our promise lies not in the past but before us. This administration will not shy away from new ideas for as we begin our deliberations here we can never fail to reckon with the opportunities of responsible change or with the requirements of changing responsibility..." Today's problems require fresh and positive solutions and this administration will do everything within its power and bear any burden necessary to assure that these solutions are offered to the people of the State of Washington.

Ten years ago I presented to this legislature a "Blueprint for Progress." This blueprint, concerned as it was with the state's needs of that time, was in large measure adopted in 1965 and by subsequent legislatures. I believe it is now time to lay out a new Blueprint for progress. A blueprint concerned with the needs of 1975 and the decade in front of us. Alternatives for Washington showed a great desire for added citizen participation, but there was also a deeply-felt and clearly and repetitively expressed dissatisfaction with the institutions of representative government.

There is no more serious threat to our society than an electorate which feels so frustrated by the governmental process that large numbers reject voting as an effective method of participation and who prefer that decisions be made by plebiscite rather than by their elected representatives. Some better method simply must be found to allow our citizens and elected representatives to work in partnership and in harmony on decisions which affect our future.

For this reason, I believe it urgent that the legislature provide the mechanism for the people to vote in 1975 on the question of a constitutional convention for our state. We could give ourselves no better bicentennial present than to reexamine our 86-year-old Constitution to see if, in fact, it is still responsive to today's needs.
I am not asking this legislature even to pass on the ultimate validity of that convention but merely to start the mechanism by passing a proposal which would allow the citizens of this state to vote on the issue of whether or not to embark on that constitutional convention in the elections of November, 1975. I believe it would be to the ultimate disinterest of this state and its citizens to celebrate the bicentennial year with as many people as possible involved in the question of searching each of our constitutional limitations and requirements and protections with a view toward writing a new Constitution to suit the needs of a space age and of a rapidly oncoming new century.

Pending a more general constitutional revision, I call for three specific amendments to our state's Constitution, in themselves a reflection of the need for more general revision. Amendments to allow assistance to students in private schools and to allow the use of the state's credit for pollution control and health care facilities, as well as for student loans and other useful purposes, would allow the carrying out of legislative mandates already created through passage of acts of the last several sessions. With the mid-term change in office, I believe it is now appropriate to seek the elimination of an elected basis of the office of Secretary of State. The functions of this office, the constitutional and statutory functions, can be and I believe should be appropriately combined with the licensing and regulatory functions now housed in the Department of Motor Vehicles and the Department of General Administration.

To build the Northwest lifestyle suggested so overwhelmingly by citizens through Alternatives for Washington some immediate actions should take priority. I support as the highest environmental legislation necessity that of providing a comprehensive land resource management program. And I pledge to work closely and continue to work closely with the legislature and with those representing local governments and citizen groups to achieve that important goal. And I hope this legislature will respond to that issue fast enough to beat the federal government to the punch. It seems to me that we need not respond only to federal mandate but should have the initiative and the courage to seek action prior to that mandate being laid upon us. I will also seek legislation in this area to preserve stretches of some of the finest, scenic, wild and recreation rivers existing anywhere in this nation. And within the next ten days I will seek the opportunity to deliver a special message to this legislature on energy, agriculture, and conservation. These three seemingly separate items have many common threads and the new proposals which will be made are proposals I believe to be exciting and necessary if we are to meet the increasing challenges of energy shortage and the rapidly increasing role of Washington as a national and even an international breadbasket to help feed a hungry world. New legislation will be sought both to meet emergencies of energy shortage as well as to provide more rapidly for additional sources of energy and ultimately food production.

Continued opportunity for our citizens demands continued excellence in education. Our budget, I believe, will maintain and even help enhance that already high degree of excellence. In addition, I will seek the designation of three of our state colleges as regional universities to reflect the reality of the offerings they now make.

And high on the list of citizens' concern regarding human needs, I will support proposals to modernize our parole system, to revise our juvenile court and criminal codes, and to establish a new judicial article for our Constitution. These proposals will help make justice in the state more even-handed and available more rapidly to all our citizens — a goal we ought to seek with the highest sense of urgency.

The escalating cost of medical care has helped bring financial catastrophe to too many Washington families. I propose to work closely with this legislature in the development of a catastrophic health care legislative package which would provide both for the medically indigent but also a backup protection for others of Washington citizens who do not qualify for public assistance medical care but who simply cannot handle without family catastrophe the problems of extended illness or serious accident. These are not easy measures. That is not an inexpensive package. But there is the possibility I believe, of initiating such legislation and in doing so perhaps even show to the Congress and to the rest of the nation that one state can take leadership uniquely and by themselves to provide better support for citizens needing that kind of help.
I will also seek legislation to allow the publishing of a formulary of prescription drugs which could allow the substitution of equal but lower cost drugs for many high priced name brands offered through prescription. This, in itself, could be of great benefit especially to the many elderly of our state who find the increasing cost of prescription drugs a serious incursion into their limited incomes.

The continuing work of government now is seldom dramatic but it is always open to additional efficiency. I will seek a new telecommunications division in the Department of General Administration to bring together all of the elements of communication within state government insofar as we can and in doing so, consolidate, strip out duplications, and save what we believe will be substantial sums of tax money. I will seek the authority to consolidate or, better yet, even eliminate unneeded state publications many of which are obsolete but still required by obsolete statutes. I will seek the consolidation of the administration of the six public pension systems in our state. I am not asking for a merger of the systems themselves or even a merger of the committees or commissions which run them, but merely the administrative merger of their day-to-day activities which, I believe, will save more than a third of a million dollars. I have mentioned already the seeking of the development of a Department of Records and Elections — all of these measures while dramatic are measures which can save state tax dollars. I will also seek something I believe is long overdue in this as well as many other states, a consolidated, simple state information service to provide each citizen free access to information about the complexities of government and quick referrals to those who can respond directly to their questions or their needs. Many more hundreds of times than you would expect people call the Governor's Office, not because they seek direct help from the Governor, but because they simply cannot find who it is in state government can respond to their needs.

While constitutional reform, energy, transportation, natural resources and the environment, human resources, education, justice, and the organization of government represent areas of specific legislation, it is unquestionably the budget for the 1975-77 biennium which represents perhaps our greatest challenge. The budget was finalized about the first of December of this year and presented formally to citizens of this state and to many of you on December 20. It is apparent that we are in a period nationally of rapid and drastic change. That rapid and drastic change will require us to keep constantly abreast of new needs, new requirements, and as a result new responses in terms of that budget. I expect to work closely with this legislature during the upcoming months to insure that when the budget of this state is finalized at the end of this session, it will be a budget that as closely as possible responds to the needs as we see them and the capabilities of our citizens as we then see them. The budget does propose major shifts in human resource programs. It provides additional support to maintain educational excellence and the continued expansion, the continued demand for education particularly in our community college system. It adequately funds for the first time in some years all of our state pension systems and it provides responsibly for salaries for public employees who have for too long been behind their colleagues in similar work outside of state government. The revenue necessary to support this budget does include a difficult and perhaps unpalatable increase in the business and occupation tax, but also a shift in our state sales tax system which would eliminate the sales tax on food and bring on the overall badly needed tax relief to nine out of ten Washington citizens and most importantly the most tax relief to those at the bottom end of the income scale.

In the process of preparing this budget additional areas of efficiency and economy were discovered and we will depend heavily on Washington's ongoing productivity program to help maintain a budget balance during the upcoming biennium. A budget balanced in the face of rapidly rising inflation, in the face of increasing economic uncertainty and the recognition that state government during a period of economic decline faces the dual challenge and the doubly difficult problem of lowering revenues while at the same time facing additional responsibilities for service particularly in the human welfare field.

I pledge then to work daily with you as we seek to build a budget and a legislative program which will best serve the needs of our citizens. While we all strive for a budget...
which is sufficient without resort to new taxation, we must never use that goal as an excuse, as an excuse for failing in our responsibility to those of our children who seek educational opportunity, to those of our elderly and infirm who simply cannot help themselves, for the young children who are afflicted with mental retardation and who desperately need the assistance that will give them the maximum opportunity, limited though it may be, for a useful life. We cannot use this goal as an excuse for failure to protect the unique environment which is our Washington heritage. In short, I believe it increasingly important in the face of economic uncertainty and the times in which we live that this legislature and each member of this legislature as well as each member of the administration seek to find that ultimate balance of revenue and expenditure which will do the best job not just for today but in securing the future for the next decade and beyond.

The initiatives presented in this state of the state message and in the budget represent a positive and affirmative and a hopeful view of the future. They are messages not of fear but of hope, not of weakness but of strength, not of pessimism but of optimism about this state's future. In times of national malaise the temptation is strong in some to do nothing, to instead succumb to our own fears and even to turn to that other Washington three thousand miles away for fiscal salvation. I believe we can and hope we will resist that temptation. For some others the temptation may be equally strong to seek partisan advantage for the next election rather than measuring the needs of our citizens for future generations. This temptation, too, I hope we can all resist.

During my eighteen years in public service in this state, I have discovered among our citizens a deep and an unusual reservoir of kindness and generosity toward their neighbors. We are a people whose instincts are humane and who by and large are motivated by high ideals. On occasion we may falter but fundamentally our people are strong. And those of us who have been elected to serve the people and who now embark on a new and fresh legislative session must always keep before us the general interest rather than the special interest; to support what we believe to be right rather than merely expedient; and to never, never underestimate the abilities and the concerns of the three and a half million citizens of this State of Washington.

These times do demand greatness and there is greatness inherent in this as well as past legislative bodies which I believe over the years have served far better than citizens have been willing to credit. But citizens today need desperately to regain confidence in their elected officials. Beginning today let us strive to earn that desperately needed confidence of our citizens. There could be no greater response to the challenge of America's third century soon to begin, than that we finish the second century on a note of optimism, on a dedication to our future rather than just our present and to the theme of regaining by earning the confidence of all citizens of this state and the government which represents them.

Thank you.

MOTION

On page 3, Rule 8, line 1, after "All [supplies]" and before "expenses" insert "necessary".

On page 3, Rule 8, line 3, after "signed" and before "by" insert for.

MOTION

Senator Francis moved adoption of the following amendment by Senators Mardesich, Bailey and Francis:

On page 5, Rule 17, strike the second paragraph of Rule 17 (Senate Resolutions) and insert:

"[Senate resolutions shall be acted upon in the same manner as motions. All senate floor resolutions shall be on the secretary's desk at least twenty-four hours prior to consideration.] Senate floor resolutions shall be acted upon in the same manner as motions. All senate floor resolutions shall be on the secretary's desk at least twenty-four hours prior to consideration. After the fiftieth day of the session, senate floor resolutions automatically shall be referred to the committee on rules."

POINT OF INQUIRY

Senator Lewis (Harry): "Will Senator Bailey yield to a question? Senator Bailey, I
would like to understand fully how you intend to handle Senate floor resolutions. Do you intend to handle them on a daily basis? Do you intend to let them accumulate into big piles? Is this going to be an orderly procedure which was our purpose in our meeting? Could you respond to that please?"

Senator Bailey: "Senator Lewis, I think there is an order of business for Senate resolutions and we should take them up every day, and it is the right of any member to call up a Senate resolution. It is also the right of any member to refer the resolution to a committee so we would have to deal with that as time went on, but if you are on the ball and get there for a Senate resolution at the order of business, I think we would consider them every day.

"I think we are trying to reform here. I agree with Senator Francis. We were trying to reform in the special committee on rules and we were not trying to take away the rights of any member on the floor. We were trying to protect the members on the floor from a vast number of — first, there is the 'hero' resolution which takes time and puts us in ridiculous spots sometimes. Secondly, there is the vast pile of resolutions in which we vote and we do not always know what we are voting on at the end of the session because there may be a hundred of them come in at once and we thought we would protect the members better by not having them out here just voting yea and nay and passing resolutions without study. It is an effort to reform and to help the members rather than to deprive them. I think Senator Francis's amendment does it, but we would intend not to pile these up but we cannot promise you that when we see a resolution which you put in that we do not want to meet that we might want to hold it over forever."

REMARKS BY SENATOR HARRY LEWIS

Senator Lewis (Harry): "From the minority standpoint this actually strengthens our position, in my judgment. If all resolutions went into Rules, of course, then the majority would have an additional handle whereas we would have the political advantage of having resolutions on the desk that we could consider, providing we got them in before the fiftieth day. This would also, as Senator Bailey said, permit the collection of resolutions which accumulate by the hundreds right at the tail end and provide responsibilities for interim work to be slipped through, in effect, by, as our practice has been, adopting resolutions in large bunches and heaps without fully understanding what is in them. So the change that the majority is suggesting here, from our viewpoint, would be one that I do not believe would hurt us. However, we have not had a chance, Senator Mardesich, Senator Bailey, to discuss this amendment in caucus and it really is the pleasure of our side, if you wanted to caucus on this, why we would like to know about it. I personally see no objection to this methodology. In fact, I think from the minority standpoint it is perhaps more constructive and it is a sharp reform from where we were last session."

Debate ensued.
The motion by Senator Francis carried and the amendment was adopted.

MOTION

Senator Grant moved adoption of the following amendment:
On page 17, Rule 65, (New Rule 63), on the last line of Rule 65, strike "elected" and insert "present".

POINT OF INQUIRY

Senator Rasmussen: "Senator Grant, you are striking or making the amendment to old rule 65 or new rule 63?"

Senator Grant: "I am only striking, Senator, the last word in new rule 63 which is 'elected' and inserting instead the word 'present'."

Senator Rasmussen: "Thank you."
MOTION
At 11:40 a.m., on motion of Senator Matson, the Senate was declared to be at ease. President Pro Tempore Henry called the Senate to order at 12:05 p.m. The Senate resumed consideration of the amendment by Senator Grant to the Senate Rules. Debate ensued. The motion by Senator Grant failed and the amendment was not adopted.

MOTION
Senator Rasmussen moved adoption of the following amendment: On page 17, strike all of Rule 66 (New Rule 64). Debate ensued. The motion by Senator Rasmussen carried and the amendment was adopted. The motion by Senator Mardesich carried and the resolution, as amended, was adopted.

NOTICE OF CONSIDERATION

NOTICE OF CONSIDERATION
Senator Scott served notice that on Wednesday, January 22, 1975 he would ask for consideration of a proposed rule change to Senate Rule 17.

MOTION
Senator Francis moved adoption of the following resolution:

SENATE RESOLUTION 1975-5
By Senators Fleming, Francis and Grant:
WHEREAS, We, the members of the Senate congregated here this fifteenth day of January to carry out the responsibilities delegated to us by the citizens of this state, reflect for a moment that there once was among us a man who, with the help of the Lord, set an example of spirit and conduct for all of us to emulate; and
WHEREAS, The Reverend Dr. Martin Luther King, Jr., was a God-fearing man whose life was devoted toward the betterment of the quality of life for the oppressed and the poor in America; and
WHEREAS, This man, a man of great compassion and understanding wrote while in jail "There are just laws and there are unjust laws. Any law that degrades the human personality is unjust"; and
WHEREAS, The Reverend Dr. King, a man who loved God and loved mankind, challenged injustices in our society and endured abuse so that he could devote his life to serving God and serving his people; and
WHEREAS, This Nobel laureate, this citizen of the world, gave hope to millions
by calling for the fulfillment of his dream, a dream depicting a world free of prejudice,
discrimination, slums, poverty, hunger, and disease; and

WHEREAS, This great American, champion of minorities and the oppressed, was
assassinated while espousing his principles of pacifism, an act which brought grief to
all of us;

NOW, THEREFORE, BE IT RESOLVED, That on this day, we, the Senate of the
State of Washington, pause in our endeavors to pay homage to one of America’s most
honorable and honored citizens, the Reverend Dr. Martin Luther King, Jr., in order to
call to the attention of the residents of this State Dr. King’s wisdom and accomplish­
ments and to rededicating ourselves to the pursuance of his principles of love and equality
for all;

BE IT FURTHER RESOLVED, That the Secretary of the Senate transmit a copy
of this resolution to his widow and members of his family.

REMARKS BY SENATOR FRANCIS

Senator Francis: “Mr. President and members of the Senate, Senator Fleming
wished to be here today and to move and speak to this resolution and could not because
he was in Seattle, and he asked me to do it, and I regard it as a great privilege. I think
that the resolution speaks for itself. I think that it is a good tradition that we have estab­
lished to remember Martin Luther King, Jr.’s birthday. He is one of the great men of
our history and an inspiration to me and I think an inspiration to many of you, both as
an apostle of non-violence, for many of the other things that he has done, but in particu­
lar, as it says in this resolution, because he was concerned about the oppressed. And I do
not think that we have to look to the color of anyone’s skin or anything else to look for
oppression. I think wherever we see injustice, wherever we see people pigeonholed on
account of some circumstance that they find themselves in life and being judged on
something other than themselves as human beings, that we find oppression. And I hope
that you will join with me in supporting this very fine resolution. Thank you.”

REMARKS BY SENATOR GRANT

Senator Grant: “I also consider it an honor to have the opportunity to co-sponsor
this resolution with Senator Fleming, who requested that I do so, and I would just like to
call to mind the inscription which is kind of the motto of this country that exists at the
base of the Statue of Liberty, I am told. I have not seen it. It goes: ‘Give me your tired,
your poor, the wretched refuse of your teeming shore,’ and on. I think that motto should
apply to peoples all over the world, not just to those Northern Europeans that settled in
our country at first, but also to the blacks, the browns, the yellow members of our so­
ciety, all people who are oppressed, wretched, poor, for whom we should provide an
opportunity in this country. And I think that Martin Luther King was one that exem­
plified this in his lifetime, the motto of our nation, and also should be honored, especially
for his work.”

The motion by Senator Francis carried and the resolution was adopted.

WE PAUSE FOR A MOMENT TO RECALL YOUR PEOPLE OF ISRAEL JOURNEYING FROM EGYPT UNDER THE LEADERSHIP OF MOSES WHEN THEY WERE ATTACKED BY A HOSTILE TRIBE IN THE DESERT. WHILE JOSHUA ENGAGED IN BATTLE WE READ IN EXODUS, CHAPTER XVII THAT MOSES REMAINED AWAY FROM THE BATTLE AREA WITH HIS HANDS RAISED IN PRAYER, AND AS LONG AS HE HELD HIS HANDS IN PRAYER THE ISRAELITES SUCCEEDED. At 10:50 a.m., the Senate retired to the House Chamber to meet in Joint Session for the purpose of hearing a message from Governor Daniel J. Evans.

JOINT SESSION

The Speaker assumed the Chair.
The Sergeant at Arms announced the arrival of the Senate at the bar of the House.
The Speaker instructed the Sergeants at Arms of the Senate and the House to escort the President of the Senate, John A. Cherberg and the President Pro Tempore of the Senate, Al Henry, to seats on the rostrum beside the Speaker.
The Speaker instructed the Sergeants at Arms of the Senate and the House to escort the Senators to seats within the House.
The President of the Senate presided.
The President of the Senate called the Joint Session to order.
The Secretary of the Senate called the roll and all members were present, except Senators Herr, Keefe, Odegaard and Rasmussen, who were excused.
The Clerk of the House called the roll and all members were present.
The President appointed the following committee to notify the Governor that the House and Senate were in Joint Session and to accompany him to the House Chamber: Senators Ridder, Jones and Knoblauch; Representatives Charette, Chatalas and Newhouse.
The President requested the following special committee to escort the elected state officials to seats within the House: Senators Bailey, Benitz and Woody; Representatives May, Gaspard and Pardini.
The President: “Honored members, ladies and gentlemen: The legislature is honored with the presence of a very renowned and illustrious visitor, the Honorable Soren Sommerfelt, Ambassador of Norway. Would Representatives Jastad, Jueling and Kilbury and Senators Walgren, Matson and Peterson please escort the Honorable Ambassador to the rostrum.”
The Sergeants at Arms of the Senate and House announced the arrival at the bar of the House of Governor Daniel J. Evans, and the President requested the special committee to escort him to a place on the rostrum.
The President: "Mr. Speaker, Governor Evans, Ambassador Sommerfelt, Reverend Father McLellan, ladies and gentlemen: We are honored this morning to have with us a world renowned diplomat. This occasion is of special historical significance and this is the first time that an ambassador of one of the world's finest democracies has appeared before the Joint Session of the Washington State Legislature. It has been 150 years since, in 1825, a small vessel set sail from Norway for the United States of America with 52 people aboard. Since that time there have been many wonderful citizens migrate from Norway to the United States, many of whom have had the very good judgment to come directly to the state of Washington. It is my honor to proudly present his Excellency, the Honorable Soren Sommerfelt, Ambassador of Norway."

Ambassador Sommerfelt: "Mr. President, Mr. Speaker, Governor: I'm not only greatly honored to be able to stand here before you today, but I'm also rather deeply moved. I can assure you that it is the first time such an honor has been bestowed upon me. As you mentioned, Mr. President, the main reason why I'm here in the state of Washington is that I attended an opening ceremony in Seattle for the celebration of the sesquicentennial of organized Norwegian immigration to the United States, and I find it symptomatic that the first ceremony of this kind should take place here in this state. For a long time the northern midwest was known as the stronghold of what has been called the Norwegian-American and many still think it is. The expression, the Norwegian-American, today obviously is much less appropriate since the great wave of Norwegian immigrants of the past have been constantly assimilated within your homeland. Nevertheless it is interesting to note that today the West Coast states have the greatest number of Americans of Norwegian stock. That's one reason why I find it symptomatic and appropriate that the first opening of the Sesquicentennial Jubilee should take place here. But at the same time, it's evident that this state is one of the states which nowadays attracts the greatest number of Norwegians. It is a witness of the dynamic development which takes place here, and is now a good reason for inaugurating the celebration here."

"The first Norwegian immigrants came mainly in quest of farmland, but the state of Washington offered them opportunities also in other fields that appealed to them, as in fishing, forestry, shipping and trading — and later on still other opportunities. Here existed a stronghold in reflecting the trend of modern society — scientific research now in Washington seems to be a particularly strong magnet. Then, of course, for a Norwegian coming out here, it is not difficult to find himself at home. I personally had the offer of trying out your cross-country skiing when I arrived here last Saturday. There are, in effect, many striking similarities between your state and Norway."

"I have a feeling that you are going to talk something about energy in this very room today, and I can assure you that no hour, no day goes by in my country without that particular problem being discussed. We are ourselves on the threshold of exploiting the petroleum resources on our part of the continental shelf off our coast, and this exploitation and the development of Norwegian industries related to off-shore drilling, have already created new links between my country and the United States. Norwegian subsidiaries of American oil companies are actually on the continental shelf. Norwegian enterprises are building drilling rigs, production platforms, supply ships, for American companies, among others, and of course we are using American equipment and still using financial resources from the United States. Other Norwegian companies have acquired interest in domestic U.S. oil companies, and so on. I think one particularly interesting feature is the fact that a small American oil community has settled in the same community in Norway, the very port from where the immigrant vessel, 'The Restoration,' left Norway 150 years ago, on the fourth of July, 1825. The celebration this year of the sesquicentennial will have started before that date, but on that date the departure of the first immigrant vessel will be restaged and another Norwegian sailing ship, a training ship for young sailors, known to you perhaps as a windjammer, will set sail for America. Among the calls this ship will make (unfortunately only on the East Coast) will be New York, where the Restoration landed on the ninth of October, 1825, after a trip of eight weeks. His Majesty King Olav will then just have arrived in New York to start his tour of approximately three weeks to the United States where he has been invited to visit the main areas where Americans of Norwegian stock live. He will,
TENTH DAY, JANUARY 22, 1975

I might say, of course, have included into his itinerary, Seattle. The details of the pro-
gram are still subject to his majesty's consent. This program could not have been worked
out without the support of the state of Washington. At present, the first successful cele-
bration of the sesquicentennial in this state and in other states is, I'm sure, thanks to the
already solid foundation upon which the Norwegian-American friendship rests.

"As I said, I'm deeply honored and deeply moved to have been able to express my
gratitude to you who are the elected representatives of the people of the State of Wash-
ington. I thank you." (Applause)

The President: "Thank you very much, Mr. Ambassador. Mr. Speaker, honored
members of the Senate and House, ladies and gentlemen: The President is glad to have
the pleasure and privilege of presenting to you His Excellency, the Honorable Daniel J.
Evans, Governor of the State of Washington."

ENERGY AND TRANSPORTATION MESSAGE

The Governor: "Mr. President, Mr. Speaker, Mr. Ambassador, ladies and gen-
tlemen of the Legislature, and my fellow citizens: For the second time in less than two
weeks I am here before this body to bring a message of importance. In this case a mes-
sage of particular importance to the future well-being of the citizens of our state. Energy
is talked about, and has been over the last couple of years, as few other subjects.
We meet here today in a time of international economic recession — international eco-
nomic recession influenced by factors unprecedented in modern history. The growing
world-wide demand for raw materials and basic resources coupled with supply shortages
have led to classic examples of price escalation as nations compete with each other for
scarce commodities. As our nation over the past generation led the world in a new in-
dustrial revolution, we quickly became major consumers of the world's raw materials.
Today the United States, with six percent of the world's population, uses over thirty per-
cent of the world's energy supplies. If all of the world's population were as demanding
of energy and other natural resources as our citizens, we would be consuming energy on
a world-wide basis at five times the present rate. And we would have long since faced up
to the chaos or the solution of our energy conundrum.

"We all face, then, a major shift in priorities, in consumption, and in our style of
life, if we are to have any hope of presenting to our children a lifetime of peace and of
potential prosperity. Our technology can help. Science and human ingenuity can lead to
responsible answers, but only — only if we collectively can give technology and the in-
genuity time to react to the rapidly developing crisis which envelops the industrialized
world.

"In the interim, conservation must be our constant companion. The alternatives
are mandatory conservation, mandatory conservation through rationing, rationing of
scarce goods or simply empty shelves. Price conservation, price conservation through
heavy and selective taxation, price conservation which too often falls most heavily on
those least able to cope, or voluntary conservation, a voluntary conservation which I am
still convinced could provide the needed slowdown in consumption if generally and
enthusiastically understood and supported by this nation's population. But we better
understand that whether by decree or by voluntary action, conservation in some fashion
must and will occur.

"The nation is beginning to respond. Recent reports we have received indicate that
while automobile sales in this nation for the first ten months of last year were down by
more than twenty percent, the sale of compact and high-gas-mileage automobiles was up
by more than twenty-one percent. I believe there is, at least in this state, a general re-
spect for the fifty-five mile an hour speed limit which in itself conserves vast critical oil
supplies. But these efforts must be expanded by constant attention to careful home heat-
ing, industrial conservation practices, better insulation, stronger recycling efforts and a
consistent personal determination to use the family automobile in a more rational and
even a more limited fashion. Now all of these are simple, mundane, but collectively
could be dramatic measures. Uniform adherence to these and similar acts could allow
this nation to reach the goal set by President Ford of reducing oil imports by one million barrels a day.

"Now that modest goal — that is a modest goal — represents a six percent reduction in current usage. A six percent reduction which must be achieved. A six percent reduction which is now argued over in the Congress and at the executive levels of our land, not as a goal, but only in how to achieve that goal. I believe it could far better be accomplished through voluntary support rather than by mandatory or expensive alternatives suggested by others.

"In an effort to lead in this goal, I am asking state government to reinstitute the conservation programs much as they were in existence during the electrical crisis of a year ago. I shall seek from this legislature a Resource Recovery Act — a Resource Recovery Act to set in motion major efforts toward recycling and reuse and even innovative new use of critical once-used materials. I will establish a council composed of the suppliers of various forms of energy to meet with me so that we can all work cooperatively in our efforts toward overall energy conservation while maintaining the broadest and strongest possible industrial and job base.

"We cannot afford during this period of energy shortage to see the increasingly critical and sometimes contradictory competition between energy suppliers each trying to obtain the maximum share of a dwindling market.

"I cannot overemphasize then the importance of conservation. Even though the reservoirs are now full and the gas stations are now pumping and our homes are still well heated, an energy crisis far more severe than that of last fall and last winter could loom over us. It is imperative that every citizen examine his and her priorities in the use and the consumption of energy. I believe it is far better for this crisis to be met by voluntary action of all citizens rather than the harsh, governmentally imposed mandates of rationing or heavy taxes. Washington citizens have demonstrated before that they care enough about their state and its future to respond to the crises of the past. And I am confident that we will do so again.

"If energy is in short supply throughout the world, so too, is food. Worldwide problems of hunger expand as populations of underdeveloped nations increase faster than the world's food supply. Although we see abundance all about us, hunger is not unknown even here in our state of Washington. One of our current challenges, certainly a challenge of this body during this session, is to insure that adequate food for the sustenance of life is available to all. Absolutely necessary to that goal is the production of sufficient food to meet the world's population. We, here in Washington, have a unique combination of water, weather and land to provide increasingly for our nation's food supply and for overseas export. Response to our Alternatives for Washington questionnaire and the polls indicate clearly a preference for a future Washington emphasizing agricultural development and the protection and the utilization of our unique land base. We can, during this legislative session, provide state leadership in promoting these goals.

"A critical element in agricultural production is water. Water, once thought to be abundant, may prove to be our most precious natural resource. And while we appear to have sufficient supplies for industrial and municipal and personal purposes, it is agriculture that represents again our greatest challenge. Irrigation of present farm lands now takes over two-thirds of the total consumptive water use in our state. And our limits on further irrigation may not be the limits on available land itself but rather on sufficient supplies of water.

"These facts and Washington's future development make diversion of Northwest waters to other river basins unthinkable. Not necessarily 'undoable,' but unthinkable. Our mandate then is to provide the necessary laws and to help insure adequate financing so that our full water potential here in our state is realized. One necessary element lies in cooperative action with our neighboring Northwest states. I urge you now to join with me in renewing negotiations for a suitable Columbia Basin Compact and to implement, this session, a special section of that compact, a fisheries compact, for the Columbia River which would add necessary Idaho and Indian interests to those existing participants of Oregon and Washington. I realize well from my own experience and those of
some of you still sitting in this body, the controversy in past years over a proposed Co-

dlumbia Basin Compact. I believe, or at least I hope, that some of those conflicts of the

past have been now mitigated and that the needs for cooperative action of the states in

the Northwest is now so great that renewed negotiations will be productive.

"I will also seek to continue our efforts through the Pacific Northwest Regional

Commission in meeting with the Bonneville Power Administration and ultimately with

our Canadian neighbors and certainly with the Bureau of Reclamation to help insure a

regional view, harnessed with a federal view, in the use of this great water resource.

"To initiate the next phase of land development, I have asked that twelve and a half

million dollars be set aside in the budget for matching necessary federal money to begin

construction on the Bacon Siphon and Tunnel, a critical key to the potential develop-

ment of over 500,000 acres of irrigable land. I will work closely with you and with our

fine congressional delegation, a powerful one I might add, in this effort. Upon comple-
tion of the Bacon Siphon and Tunnel, a Phase II program could begin then which would

bring 155,000 of that half million acres under irrigation in the reasonably near future.

"In other areas of Eastern Washington, it may be possible to assist in the develop-

dment of new lands through a proposed Irrigation Project Development Act. Interest-

ingly, this act is virtually a renewal of an act which was on our books for many, many

years and for some reason repealed a few years ago. Through this act the state could as-

sist in the development of areas not suitable for assistance through federal projects such

as the Bureau of Reclamation projects and those projects not subject or not open or fea-
sible for private development. I believe we should depend, however, to the extent we

can, on private development of farm acreage and on shared federal and state develop-

dment of remaining large projects.

"I shall ask for studies to be commenced immediately on the potential of full scale

combinations of nuclear plant development, utilizing the cooling waters for major irri-
gation purposes. Most groundwork has already been laid. Much experimentation has

been carried out. I believe there are at least a couple of potential areas where major

projects combining together power development and irrigation of farms could be insti-
tuted. All of these proposals emphasize the increasingly precious nature of our water

resource — a resource which by law and our Constitution is reserved to the people of

this state. It is a public resource which should have its value reflected in public benefits.

Custom and tradition have helped create a system of water rights which provide per-

petual and free rights to water on successful application.

"I believe there is more than a striking similarity between the water resources of

the public in this state and timber on our public lands. The contrast in income to the

public is equally striking. Last year timber sales brought more than a hundred million

dollars to state government for public purposes. Water — essentially nothing.

"I will ask this legislature, then, for a water rights permit system which will have the

effect first of ratifying all of the current applications and claims for water rights of less

than 5,000 gallons per day. We have been receiving applications over the past few years

under existing legislation. More than 180,000 have been submitted. This ratification of

all small claims would ratify more than 100,000 of those 180,000 applications. Sec-

ondly, for large, commercial and industrial and agricultural purposes, the establish-

ment of a system of long-term permits, but not perpetual water rights — long-term permits of

up to fifty years, long-term permits for periods that would allow full amortization of the

investment made by anyone in the development of water and its use on that land. I will

ask that a moderate charge be made for water issued under these permits so that some

revenue can accrue to the people of the state for the use of this valuable resource. And

let me reiterate that no charge should be made or legislatively authorized that could

harm or make impossible the economic use of land for production. I will further ask that

insofar as public benefits are provided by a potential user, such as opening lands to

hunting or the establishment of conservation projects, that these benefits be utilized as

an offset against any potential such water charge.

"The income from this proposal should be utilized in much the same fashion as in-

come from the management of our state lands. Twenty percent for continued manage-
ment of our water resources and eighty percent to help finance the further development of irrigation and water supply for agricultural and industrial purposes. This could allow our state to have a continuing source of revenue to help others in the development of these needed resources for the benefit of all. I emphasize most strongly that any such system should have a sufficient term to allow full amortization of investment to make the land productive and that any charge be well within the economic capacity of the proposed land use.

"The future of agriculture is a bright one for this state. New crop developments such as soybeans, wine grapes and other commodities will further diversify and intensify Washington's agriculture. I will ask the legislature to add to the budget I have already presented, extra financing for specialized agricultural research — particularly research designed to further increase the productivity and diversity of Washington farms. I shall ask our Departments of Commerce and Economic Development and Agriculture to act jointly on encouraging the integration of agriculture and food processing facilities. I shall ask for some additional resources for our economic assistance authority and an added emphasis from the Washington Futures bond issues to insure that necessary utilities and other ancillary facilities are provided to make the growth of food processing, an agriculturally-oriented industry, a reality in this state.

"Marketing of agricultural output is of equal importance to production itself. Both independently as a state, and jointly through the Pacific Northwest International Trade Council, I will continue to emphasize foreign markets and trade development. While basic agriculture in Washington is nearly a two billion dollar a year industry, we are just beginning to realize the potential which ultimately may represent our most important contribution to the nation's well-being.

"Closely related to the twin challenges then, of agricultural development and conservation, is that of energy and the expansion of our energy supply. I am grateful to our Energy Council and to the citizens who serve on it. They have presented a comprehensive report with specific proposals to me and to this legislature. This report is on your desks along with the current biennial report of the Department of Ecology on water resources. These documents deserve your close attention for they describe not only the problems facing us but also point the way toward rational solutions.

"Energy is a difficult and an elusive issue. Competition, pricing, supply and conservation are all interrelated and to many times contradictory. We must act to develop comprehensive energy policies to insure minimum economic disruptions, protection against devastating price increases, encouragement of further energy development and the preservation of our precious environmental quality. This legislative energy package, I believe, will help lead us to this ambitious goal.

"I ask first for the establishment of an energy office. It should be a small agency, directly reporting to the Governor and not a line department, not regulatory in nature, concentrating on the technical and research coordination necessary to aid energy decision-making. This energy office should have a citizen advisory committee to bring to it and to bring to state government the input of citizens of our state. I shall also ask that a small group of cabinet officers join with me as a policy-setting group insofar as executive policy is required.

"Fundamental energy policies, I believe, should and must be established by legislative act and carried out through executive action aided by this new energy office advised by a citizen council and appropriate cabinet officers.

"In order to carry out details, then, of an energy policy, I ask that the existing Thermal Power Plant Siting Council be expanded in function to become an energy siting council. This energy council would carry out the policy directions of the legislature and the executive. And it would react to applications for construction of major energy projects and energy corridors. This council should have as one of its prime responsibilities the collection of information, the assimilation of that information and the decision making as to applicants, so that we can minimize the lead time necessary between application and on-line production through new energy sources. In addition, I believe this council should assume one new responsibility and that is to help in the identification and in the potential preselection of sites for major energy-oriented projects.
The preselection of such sites could further shorten lead time and allow energy-producing entities to come on line earlier than otherwise we could expect. Such a council would neither supersede nor override necessary local or environmental controls.

"The disruption caused by energy shortages was demonstrated twice in the past year. In the electrical and the gasoline crises, emergency procedures were required. I believe that it is imperative that we pass standby emergency legislation. Legislation that would establish an emergency allocation committee of legislators and citizens to help give guidance during periods of acute energy shortage. I also ask that you more clearly define the authority for gubernatorial action when faced with catastrophic or immediate emergencies where the safety and health of our citizens is threatened and no time is available for committee or special legislative action.

"Again, I ask this legislature for a Department of Transportation as a major element in energy management and energy conservation. Over forty percent of the total petroleum usage in this state is transportation related. And thus at least that much of the solution to petroleum energy shortages must come through changes in transportation. The state must be involved in overall transportation planning and management. Now I heard, as you did, the President's message which has as a goal the reduction of a million barrels of oil consumption. Now whether it is done by rationing or price or involuntary conservation, I believe we all must predicate our assumptions for the next biennium on that reduced use and as a result reduced income from gasoline taxes.

"I recognize the precarious nature of the funding, then, for our highway system. And I pledge to work with this legislature and with each of you in the development of necessary and secure funding for both our highway system and for our growing mass transportation needs as energy shortages persist. This three part transportation package can aid immeasurably in our drive toward energy self sufficiency.

"Probably no greater environmental fear exists in the State of Washington than that of a major oil spill. Petroleum needs, however, will continue and during the course of the past year we have had dramatic indications from our Canadian neighbors that traditional supplies can no longer be depended upon. As Canadian sources via pipeline dwindle and disappear as I suggest they will, it is apparent that more crude oil necessarily must be supplied by sea. The alternative to that is a restriction and, ultimately, the closure of some existing refining capacities.

"A high priority, then, must be an oil transport and safety act. This proposal would, as a state policy, confine oil supertankers to the Straits of Juan de Fuca west of Port Angeles. Allowance would be made for continued supply of existing facilities by smaller tankers. An oil transfer authority would be established which could build and manage a single point oil transfer facility if such a facility was found both desirable and feasible. Delivery of oil supplies to a single point for further distribution by pipeline could minimize environmental hazards while providing the basis for necessary oil and perhaps even natural gas supplies. This site of transfer could, again, if desirable, ultimately be the site of a potential complex of associated industries. This proposed act would assess a four cent a barrel transfer tax on all oil imported by tanker in the state for the dual purposes of development of safety procedures and oil spill countermeasures. And I do not believe we have an adequate response available to us today for a major oil spill and we immediately and desperately need that kind of countermeasure availability. It will also provide revenue for the potential construction of a transfer facility if we desire one.

"We face an unprecedented combination of exterior influences on our economy and on our future development. A growing interdependence of nations and of states may frustrate us today, but ultimately could lead to long-term peaceful coexistence. Our generation has witnessed the dawn of an atomic age, man's first faltering steps into the solar system, and a desperate need for a new conservation ethic as we push the outer limits of world resource supply. This age we are now entering demands new economic and fiscal, as well as personal, responses if we are to build a secure future. The challenge before this legislature this year is to begin to establish a comprehensive growth policy and direction for the citizens of our state. To do all of that, it is necessary to encourage the development of Washington's great land and water resources for the benefit of our-
selves and our neighbors and to ensure that a cheap, clean, abundant energy supply is available to work as hard and as well for our children as it has done for our generation." (Applause)

In the second sentence of the amendment, after "of" and before "amendments" insert "substantive".

POINT OF INQUIRY

Senator Walgren: Would Senator Washington yield to a question? Is it your intent with this proposed amendment, that it would be up to the chairman to make the determin-
nation as to what is a 'substantive' amendment or is this subject to a vote of the committee to make a determination as to whether it is 'substantive' or not?

Senator Washington: "I think if the chairman were leaving out of the minutes those matters which were actually 'substantive' that the committee would probably be in a position to exercise some control and I think that with the chairmen and the committees we could certainly feel that you would not delete those amendments which really had debate and where there was disagreement."

Senator Walgren: "But in most cases it would be up to the chairman that would make this decision?"

Senator Washington: "I think it would, in most cases."

There being no objection, the amendment to the amendment by Senator Washington was withdrawn.

Further debate ensued.

The motion by Senator Day carried and the amendment, as amended, was laid upon the table.

Senator Washington moved adoption of the following amendment by Senators Washington, Wilson, Scott, Odegaard, Grant, Knoblauch, McDermott and von Reichbauer:

```
Amend Senate Rule 45, page 10, by adding the following section:

"SCHEDULING

It shall be the responsibility of the chairman to schedule measures for hearing and action by the committee: PROVIDED, HOWEVER, By a majority vote of the members of the entire committee any measure may be scheduled for hearing and/or action by the committee.""
```

**POINT OF INQUIRY**

Senator Fleming: "Senator Washington, would you yield to a question? Senator Washington, so I can be perfectly clear about what I am going to vote on, the amendment that you are proposing now, says 'It shall be the responsibility of the chairman to schedule measures for hearing and action by the committee,' and then it goes on, 'providing.' Now in the next amendment you are saying the several committees shall fully consider and take action on all measures referred to them. Now what I am trying to find out is, what are we trying to do here? In this next amendment you are saying we have to hear those measures anyway, and then in this amendment you are saying if we do not bring them up, the majority of the committee can vote them. Now are you talking about the time in scheduling or are you talking about considering the bills themselves? I am confused here. It looks like you do not need both of these."

Senator Washington: "I do not expect to get both of them."

Senator Fleming: "Would you believe one?" But in all seriousness though — you are serious, aren't you — but would you sort of unconfuse me?"

Senator Washington: "I will attempt to do that, Senator Fleming. Let us say this scheduling just sits by itself and what it says, that at some time the members of the committee feel that a bill is not getting proper consideration, that they can bring up the motion early in the session so that that bill has some chance of passage. The next rule, amendment number seven at the bottom of the page, merely follows what we have done in many cases in the past at the end of the session. In fact, we used to do it a lot. We do not do it so much anymore. But you did have an indefinite postponement so that you definitely took action on a bill. You cleared the calendar of the committee of deadwood.
At the present time we are allowing a lot of it just to continue to accumulate. So number seven is completely different from the amendment number six on scheduling."

Senator Fleming: "Well it appears that way to me, Senator Washington, but in reality it looks like you are trying to say you are not too much worried about whether we get action on the bill. You want to make sure that the majority of the members can tell the chairman when to hear those bills."

Senator Washington: "Number seven goes even further than that. Although there is no time limit it would just automatically, whether the rest of the Senators wanted the matter brought up for consideration or not, you would indefinitely postpone at least those bills that are sitting on your calendar and you want to get rid of. Incidentally, when number seven comes up I will move to strike the word 'fully' so that there be no question of what full consideration is."

MOTIONS

Senator Francis moved that further consideration of the amendment to Senate Rules adding a new section on "Scheduling" be postponed until January 27 or 28, 1975.

On motion of Senator Mardesich and specifically clarifying the motion by Senator Francis, further consideration on adding a new section to Senate Rules was ordered held until Tuesday, January 28, 1975. Absent or not voting: Senators Bottiger, Herr---2.

Excused: Senators Lewis (Harry), Woody---2.

MOTIONS

On motion of Senator Mardesich, Senate Bill No. 2097 was ordered held for the second reading calendar for Wednesday, January 19, 1975.

On motion of Senator Guess, Senate Bill No. 2090 was ordered placed at the beginning of the second reading calendar for Friday, January 31, 1975.

SECOND READING

SENATE BILL NO. 2006, by Senators Henry, Beck, Talley, Stortini, Lewis (Harry), Knoblauch, Benitz, Goltz and Wanamaker:

Creating a state department of veterans affairs.

MOTIONS

On motion of Senator Rasmussen, Substitute Senate Bill No. 2006 was substituted for Senate Bill No. 2006, and the substitute bill was placed on second reading and read the second time in full.

Senator Marsh moved adoption of the following amendment:

On page 4, line 2, after the period add the following:

"Such proposed rules and regulations shall be submitted by the department at the time of filing notice with the code reviser as required by RCW 34.04.025 to the respective legislative committees of the senate and of the house of representatives dealing with the subject of veteran affairs legislation."

POINT OF INQUIRY

Senator Bailey: "Would Senator Marsh yield? Senator Marsh, I think I know your reason but I would like to, for the record, have you state whether or not this is designated only for veterans in this case or do we intend to do this with all other boards and bureaus that come before the session?"

Senator Marsh: "This particular amendment only speaks to this bill and the new proposed Department of Veterans Affairs, but I would hope that this body would adopt a similar rule when we deal with other agencies. This particular amendment will not affect other agencies by itself, but I do hope we will adopt similar amendments to other bills going through that grant rule-making authority to an agency or department of government."

Debate ensued.

POINT OF INQUIRY

Senator Francis: "Would Senator Mardesich yield to a question? Senator Mardesich, I am reading this and it makes sense to me. I am just wondering if we need to provide a procedure or if that procedure is already dealt with elsewhere in the law by which
the agency would know how to file proposed rules and regulations or to submit them to the respective committee. In other words, what do they do to give it to the committee? Do they mail it to the last known address of the chairman or just how do they go about doing that and is that something that maybe we should have provided for?"

Senator Mardesich: "Mr. President, in response to that question, it would seem to me that submission to the Secretary of the Senate would be adequate and I do not know that that exchange here is a matter of record and it may well explain it. It probably would be more logical, however, to include language after the period there indicating that through the secretary of the Senate . . . ."

On motion of Senator Francis, the following amendment to the amendment by Senator Marsh was adopted:

After "legislation" and before the period on the last line of the Marsh amendment insert "through the offices of the secretary of the senate and chief clerk of the house of representatives".

The motion by Senator Marsh carried and the amendment, as amended, was adopted.

**MOTIONS**

On motion of Senator Lewis (R. H. "Bob"), Senator Jones was excused.

On motion of Senator Knoblauch, Senator Bottiger was excused.

On motion of Senator Rasmussen the rules were suspended, Engrossed Substitute Senate Bill No. 2006 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

**ROLL CALL**

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 2006, and the bill passed the Senate by the following vote: Yeas, 42; nays, 3; excused, 4.

Voting nay: Senators Bluechel, Murray, Scott—3.

Excused: Senators Bottiger, Jones, Lewis (Harry), Woody—4.

**ENGROSSED SUBSTITUTE SENATE BILL NO. 2006**, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

**CONSIDERATION OF AMENDMENTS TO SENATE RULES**

The Senate resumed consideration of the following amendment by Senators Washington, Wilson, Scott, Grant, Knoblauch, McDermott and von Reichbauer to the Senate Rules which had been moved for adoption by Senator Washington on Friday, January 17, 1975. At that time, further consideration of the amendment was ordered held to this day.

Amend Senate Rule 45, page 10, by adding the following section:

"**SCHEDULING**

It shall be the responsibility of the chairman to schedule measures for hearing and action by the committee: PROVIDED, HOWEVER, That by a majority vote of the members of the entire committee any measure may be scheduled for hearing and/or action by the committee."

Senator Washington moved adoption of the following amendment by Senators Washington and Francis to the amendment:

After the last word of the amendment and before the period, insert: "At a subsequent meeting of the committee."

Debate ensued.
POIN OF INQUIRY

Senator Fleming: “Would Senator Francis yield to a question? Senator Francis, am I to understand by this amendment that a subsequent meeting means any meeting after the one that you are presently presiding over and it does not mean the next succeeding meeting?”

Senator Francis: “Senator Fleming, in answer to your question, I would think that at a subsequent meeting would be — since the word 'scheduled' is in there, that the majority of the committee could determine which subsequent meeting it would be. It would not necessarily have to be the next one but would be whichever one they set. But they would schedule the action or hearing on that bill and the only restriction, and I think it is consistent with our notice provisions and the other provisions in the rules, is that they cannot schedule it at that meeting for that same meeting five minutes later.”

Senator Fleming: “Well, I just wanted to make that point clear because it could be misconstrued that the subsequent meeting could be any subsequent meeting that the chairman decided to hold this hearing and not when the committee itself determined.”

Senator Francis: “No, I think it is quite clear in the language of this that the majority members, when they schedule it, can schedule it for, for example, the next subsequent meeting.”

Further debate ensued.

MOTION

Senator Mardesich moved that the amendment by Senators Washington, Wilson, Scott, Grant, Knoblauch, McDermott and von Reichbauer and the amendment to the amendment by Senators Washington and Francis be laid upon the table.

Senator Washington demanded a roll call and the demand was sustained by Senators Francis, von Reichbauer, Knoblauch, Fleming, Grant, McDermott, Wilson, Ridder and Scott.

ROLL CALL

The Secretary called the roll and the amendments were laid upon the table by the following vote: Yeas, 26; nays, 20; excused, 3.

Excused: Senators Bottiger, Lewis (Harry), Woody—3.

The motion by Senator Mardesich carried and the amendments were laid upon the table.

PERSONAL PRIVILEGE

Senator Odegaard: “Mr. President, last week on another amendment to the rules having to do with keeping minutes of each committee hearing, one of the press members later asked myself why I had sponsored that amendment and then had voted against it along with Senator Bailey. I was gone, had to be gone for three days last week. When I came back I noticed my name on some of these amendments, including the one today, and I asked the sponsor how my name got on that, along with maybe some of the other Senators. The response was that some of us had signed some of these proposed amendments two or three years ago and so our names were picked up again and placed on these proposed amendments. My response was that some of us have wised up in the last two or three years and I had asked, requested, that my name be withdrawn from today’s amendment, and I think it was still read so I thought I would like to rise to clear that up. Thank you.”
PERSONAL PRIVILEGE

Senator Washington: "This was a mistake. Those names should have been withdrawn and certainly the statement by Senator Odegaard, and I believe it would also apply to Senator Bailey, is correct, that their names were supposed to have been withdrawn. It was an oversight on my part and it certainly is not their fault."

There being no objection, on motion of Senator Washington, the amendment to Rule 45, page 9 on the Secretary's desk was withdrawn.

Senator Scott moved adoption of the following amendment:
Amend the last section of Rule 17, page 5, to read as follows:

"SENATE RESOLUTIONS

Senate floor resolutions shall be acted upon in the same manner as motions. All senate floor resolutions shall be on the secretary's desk at least twenty-four hours prior to consideration. After the [fiftieth day of the session.] thirty-sixth day of the regular session, or after the tenth day of any subsequent session, senate floor resolutions automatically shall be referred to the committee on rules."

Debate ensued.

The motion by Senator Scott failed and the amendment was not adopted on a rising vote.

On motion of Senator Mardesich, the following amendment by Senators Bailey and Mardesich was adopted:

Add the following new Rule 64 on page 14, and renumber the remaining rules consecutively:

"PRINTING OF BILLS

Rule 64. The number of bills printed and reprinted shall be at the discretion of the secretary of the senate, with the approval of the facilities and operations committee."

MOTION

At 12:13 p.m., on motion of Senator Mardesich, the Senate adjourned until 11:00 a.m., Wednesday, January 29, 1975.

JOHN A. CHERBERG, President of the Senate.

SIDNEY R. SNYDER, Secretary of the Senate.
MOTION

MOTION

Debate ensued.

POINT OF INQUIRY
Senator Guess: "Would Senator Fleming yield? Senator Fleming, because this is an introduction, we do not have a bill book that we have this thing. Will you tell me just exactly what this bill will do? Does it have anything to do with House Bill 100? House Bill 100 is a means of getting around the decision of the supreme court and will provide bond financing for pollution control in industrial development."

Senator Fleming: "I think it would accomplish some of that but I do not think it is the same as House Bill 100."

Senator Guess: "Would Senator Washington answer?"
Senator Washington: "It would make clear from a constitutional point of view that House Bill 100 would be constitutional. In other words, it is a backup. A very prominent part of it is a backup to House Bill 100. Of course it was on a constitutional basis that the supreme court held that you could not use the bonding capacity of public agencies. It was a form of a loaning of credit. There is an attempt in House Bill 100 to get around that, but there is still some question in my mind whether or not that is going to accomplish it, and we probably are going to have to have a change in the Constitution if we are going to be able to continue. And actually the court decision that held that it was unconstitutional for us to utilize bonding capacity for environmental purposes also cast a strong pall on the right of port districts to issue revenue bonds. I feel that this is an important constitutional amendment. It relates to local government and should go to the Local Government Committee."

Senator Guess: "Mr. President, if I might ask Senator Washington one more question? Senator Washington, would SJR 105 permit the communities and the industrial development to pledge the faith and credit of the community or of the state. How would that bonding authority run there? In other words, what is the purpose of 105? Is it going to pledge the credit of the state?"
Senator Washington: "I think it would be possible, but the primary purpose, of course, is for local agencies, but I think also there could be the possibility of — under this amendment — for the pledging of the credit of the state. I think that is a very strong possibility."

Senator Guess: "Thank you, Senator Washington."

Further debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Would Senator Washington yield to a question? Senator Washington, in a recent issue of the Wall Street Journal widely quoted in the other newspapers, the port authority, several other authorities of the State of New York, are unable to meet the payments on their bonds, or very nearly unable, and they are going to in effect have to either delay them or not pay them at all. They are now coming to the State of New York asking for relief in the payment of these bonds and I think this is the question that Senator Guess was concerned with, that many, many people have bought these bonds that are hoping to be rescued by the State of New York because these authorities have issued far more than they can possibly pay for. Are you aware of that, Senator Washington?"

Senator Washington: "I know there is a situation such as that in the State of New York. I am not sure — is it the port authority? I have understood...

Senator Rasmussen: "Several of the authorities, numerous."

Senator Washington: "The major port authority, though, in New York, the New York Port Authority, is a very solvent institution. There may be some other ports in New York but I am not aware that the Port of New York is in financial difficulty."

Senator Rasmussen: "Other authorities are... Then, Senator Washington, would you not think that this would be of statewide concern rather than local concern?"

Senator Washington: "I think it does have some statewide concerns but I think the predominant concern is one of local government. I think almost any bill that we have before us has some statewide concern. I think if we started doing that, your committee would have virtually every bill. But I think the thrust of this bill is one mainly concerned about local government and for that reason I think that is where it should be. And I think that is where most of the expertise I think will be on these local types of issues. I am sure anyone — that there will be wide interest in this from almost every port district, from most of the industries who really want to see this move. And I think if you have a point of view, of course it would be expressed and considered in the Committee on Local Government."

Senator Rasmussen: "Thank you, Senator Washington."

Further debate ensued.

The President declared the question before the Senate to be the motion by Senator Rasmussen that the Committee on Local Government be relieved of consideration of Senate Joint Resolution No. 105 and the resolution be referred to the Committee on State Government.

The motion by Senator Rasmussen failed on a rising vote.

SENATE BILL NO. 2097, by Senators Woody, Gould, and Knoblauch (by State Parks and Recreation Committee request):
Changing period of enrollment and compensation for enrollees in the youth corps and reducing the time privately owned recreation areas developed by enrollees must be available to the public.

REPORT OF STANDING COMMITTEE

January 21, 1975.

SENATE BILL NO. 2097, changing period of enrollment and compensation for
enrollees in the youth corps and reducing the time privately owned recreation areas developed by enrollees must be available to the public (reported by Committee on Parks and Recreation):

MAJORITY recommendation: Do pass with the following amendment:
On page 1, line 29, after “that” and before “an” insert “up to”.
Signed by: Senators Knoblauch, Chairman; Bailey, Gould, Wanamaker.

The bill was read the second time by sections.
On motion of Senator Woody, the committee amendment was adopted.

POINT OF INQUIRY

Senator Mardesich: “Would Senator Woody yield? Senator Woody, I have taken a glance at Section 3. I gather that the people who are in the Youth Corps and the commission which runs the Youth Corps makes agreements with private parties providing that the Youth Corps may be used in the development of private park areas, recreation areas.”

Senator Woody: “That is correct.”

Senator Mardesich: “And what the law did previously was require that if such people were used in the development of private parks, then those areas would have to be available without charge to the public for a period of forty years.”

Senator Woody: “That is correct.”

Senator Mardesich: “I note that that forty years is changed to five years.”

Senator Woody: “That is correct.”

Senator Mardesich: “And let me pose, in view of your answers, a hypothetical question. If I were to pick up a choice area for recreational development and were to make an agreement with the commission to do extensive work, and I mean substantial dollars involved, substantial numbers of hours that would have been a cost to me, something in the neighborhood of hundreds of thousands of dollars, which such development could cost, why would you reduce that requirement to five years rather than use the approach that it might be some relation to the dollars involved or the hours involved or something of that sort?”

Senator Woody: “Well, in your hypothetical, are you assuming that you would not have to pay that hundreds of thousands of dollars under either program?”

Senator Mardesich: “I am assuming, at least I see nothing in Sections 1 through 3 that requires a pay back although I admit I just glanced at it.”

Senator Woody: “Yes. It is not in this bill but it is in the rest of the legislation and the rules of the Park Department. Anybody, either under forty years or five years, who wants their property developed must pay for the time, the payment — whether it be twenty-five dollars per week or whatever — for the children who are involved with it, plus the lead group, that is usually a mother and father lead group, plus the tools and equipment, all of the expenses that go into it, the person who owns the private property has to pay for all of that. The state cannot pay for any part of it, and it cannot be any match money from the federals either. So in your hypothetical, whether it be five years or forty years, the person who has the private property would have to expend all of the funds themselves. The reason that the Parks Department made the recommendation, this is their recommendation, from forty years to five years, is that they have not been able to entice any private property to go into this program. And at forty years it is clear that they would not be able to. Five years was just their suggestion and there were no objections to the committee.”

Senator Mardesich: “Was there any consideration whatsoever given to an alternative of pay back based on time or estimated expenditures at all?”

Senator Woody: “Since the person who is donating the property has to come up with one hundred percent of the expenses, all of the expenses. . . .”

Senator Mardesich: “But that is very minor in view of the actual per day cost of each person who is working there. What would he have to buy? The shovels, the tools? He could lease those at no great cost?”

Senator Woody: “All of the expenses would have to be paid. But past that you
would have to ask the rest of the questions of the committee chairman since this was a matter that went through last time without the discussion that you are asking, and during the most recent committee hearings I was not at the powerful Parks Committee hearings."

Senator Mardesich: "Mr. President, I note that the measure says on lines 19 and 20 of page 2 that this period shall be at least five years, and I gather from that that it might be in excess of five years. I would simply at final passage ask for you to respond to a question indicating that we think it might be wise for the commission to take into account the actual value of services rendered in determining the length of lease."

POINT OF INQUIRY

Senator Bailey: "Would Senator Woody yield? Senator Woody, I think probably this determination has to be made after the bill has passed, but I note that you pay up to twenty-five dollars a week. You provide room and board. And I am wondering how this conforms with the new national minimum wage hour act that we are suffering under now insofar as volunteer firemen go and things of that sort. When you provide room and board, it is my idea that you also put those people on duty something like twenty-four hours a day and I am wondering if you conform to the federal statute in such a way that you can get by with that. I am just curious to know how you meet this, because the volunteer fire departments in my area are suffering, as are the fire districts, over this very matter."

Senator Woody: "On November 21, 1974 I met with the Department of Interior who administers the YCC Program, and provides match money for this particular program. Mr. Pete Mowitt of the Department of Interior answered that particular question because I raised that at the time. The way it is handled is this: of the eight hour day program, six hours is considered work and two hours instruction, and in almost all of the grant application and programs that are set forth by the Parks Department they illustrate this clearly, that two hours is considered to be an instruction. Therefore, on the basis of that, the federal Department of Interior on their own YCC funds have made the determination that they are not subject either due to the six hour per day and the room and board to the new 1974 federal act, the Fair Labor Standards Act. I asked him that particular question. He said the federal YCC's were not and as long as we worked along the same lines, and we are, then we would not be subject to it. That was his answer for that same question."

MOTION

On motion of Senator Bottiger, Senate Bill No. 2097, together with the adopted committee amendment, was ordered held for further consideration on Thursday, January 30, 1975.

SECOND READING

SENATE BILL NO. 2127, by Senators Jolly and Benitz:
Expanding the definition of "construction project" for PUD purposes.
The bill was read the second time by sections.
On motion of Senator Walgren, the rules were suspended, Senate Bill No. 2127 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Woody: "Would Senator Jolly yield? I am reading the current code on 54.36.010 and, I understand, basically what it attempts to do in your bill merely strikes a portion out of the definitions section. But when you mention nuclear plants, by making this amendment that you are suggesting, striking 'hydroelectric', would that expand the authority of PUD's to construct nuclear plants?"
Senator Jolly: "No more than they have at the present time, no."
Senator Woody: "What further effect would this have if we struck 'hydroelectric'
insofar as the provisions of 54.36 permitting payments from PUD's to other taxing districts? Especially if PUD were to put in a nuclear plant?"

Senator Jolly: "The only effect it would have, Senator Woody, that I see is that under the present law they can only participate in these expenses if it is a hydroelectric plant. By striking the word 'hydroelectric', they could participate in the expenses if it is a nuclear plant or just an ordinary steam plant."

Senator Woody: "Are there any particular instances in this state where this is causing a problem now, and if so, is it related to steam plants or nuclear plants?"

Senator Jolly: "There is a problem that probably could be affected down here at the Satsop steam plant just south of us."

On page 1, section 1, line 12, after "Day," and before "the third" insert "the third Monday in January, being the anniversary of the birth of Martin Luther King, Jr.,;"

Debate ensued.

POINT OF ORDER

Senator Guess: "Mr. President, I have read the amendment. I have read the bill; and I now rise to raise the question of germaneness on the amendment. I believe that the amendment exceeds the scope and object of the bill."

REMARKS BY THE PRESIDENT

The President: "The President wishes to take sufficient time to research the point as
presented by Senator Guess and, with the permission of the Senate, would like to delay a decision on this matter until such time as thorough research has been accomplished."

PERSONAL PRIVILEGE
Senator Bottiger: "I would ask on behalf of the sponsors of Senate Bill No. 2149 that the press not confuse this with the horse bill that was killed in committee this morning."

MOTION
Senator Bailey moved adoption of the following resolution:

SENATE RESOLUTION 1975-8

By Senators Bailey, Matson and Mardesich:
WHEREAS, The salaries of judges, state elected officials, and legislators is a matter of vital concern to all of the citizens of the state of Washington; and
WHEREAS, The responsibility for the regulating of these salaries is delegated by the constitution, to the legislature; and
WHEREAS, Much has been publicized recently about the level of these salaries and the method of determining same; and
WHEREAS, The legislature has the duty to analyze this issue in its open forum as its members are representative of all citizens of the state; and
WHEREAS, Such an analysis can best be made by a select committee which is both representative and bipartisan in nature;

NOW, THEREFORE, BE IT RESOLVED, That the president of the senate appoint a six-member select committee composed of three members of the senate majority party and three members of the senate minority party, to study the salaries of the judges, state elected officials and legislators and the methods of adjusting same in the future, and report its recommendations to the legislature.

POINT OF INQUIRY

Senator Rasmussen: "Would Senator Bailey yield to a question? Senator Bailey, this merely says you report its recommendations to the legislature. Which legislature? The one ten years from now or this one? It does not give any specific time or legislature they should report to."

Senator Bailey: "Senator, we did not think it was necessary to put a date on it, since it did not go to the State Government Committee."

Senator Rasmussen: "Mr. President, could you advise the chairman of the State Government Committee if Senator Bailey would be impugning the motives of the members of the State Government Committee? It is not clear to me what he is hinting at."

Senator Bailey: "Not at all. It requires due deliberation and I am sure you give everything due deliberation, but we had in mind that they would go out very shortly and hold meetings and come back with recommendations prior to the time the budget was adopted, and it was hard to put a date on that budget. We might be here one hundred and seventy days; we might be here ninety."

Senator Rasmussen: "Thank you, Senator Bailey. We will not have to worry about that raise very soon then."

The motion by Senator Bailey carried and the resolution was adopted.

FOR WE WISH TO ACKNOWLEDGE YOU AS THE LORD OF ALL OF LIFE, NOT JUST A PART OF IT.

  Changing period of enrollment and compensation for enrollees in the youth corps and reducing the time privately owned recreation areas developed by enrollees must be available to the public.

The Senate resumed consideration of Senate Bill No. 2097 on second reading. On January 29, 1975 the committee amendment to page 1, line 29 was adopted.

On motion of Senator Woody, the rules were suspended, Engrossed Senate Bill No. 2097 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Wilson: "Would Senator Woody yield to a question? Could you tell me the reason for the rather dramatic reduction in the law from forty to five years?"

Senator Woody: "Yes, Senator. The reason is that forty years, the Park Department has made overtures to various owners of property that would be very good utilization for campgrounds and they found no takers. No one was going to submit their property to a forty year public use. And on that basis they were asking that it be reduced down from forty to five years. At least five years."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2097, and the bill passed the Senate by the following vote: Yeas, 48; nays, 1.

Voting nay: Senator Francis—1.

The Senate resumed consideration of Senate Bill No. 2011. On January 29, 1975, the committee amendment to page 2, line 12 was adopted. Senator Fleming moved adoption of the following amendment at that time:

On page 1, section 1, line 12, after “Day;” and before “the third” insert “the third Monday in January, being the anniversary of the birth of Martin Luther King, Jr.;”

Senator Guess raised a Point of Order on the amendment on the previous day and further consideration of the bill was ordered held for today pending a Ruling by the President.

RULING BY THE PRESIDENT

The President: “In determining a ruling on the point of order presented by Senator Guess, the President finds that Senate Bill No. 2011 is a measure conforming school holidays and state holidays. The measure neither adds to nor subtracts from the number of existing holidays, nor changes the purpose for which the holiday is declared.

“The amendment proposed by Senator Fleming, however, does create an additional holiday and therefore does increase the scope and object of the bill.

“The amendment was previously proposed on May 8, 1971 as mentioned by Senator Fleming. That amendment was to House Bill No. 863, which was a measure creating a new holiday to honor famous Americans, including Martin Luther King, and the amendment to that measure did not increase the scope and object of House Bill No. 863, and the President so ruled. The amendment was withdrawn by Senator Fleming on May 10, 1971 and not acted upon by the Senate.

“The Point of Order as presented by Senator Guess is well taken.”

The amendment proposed by Senator Fleming was ruled out of order.

On motion of Senator Murray, the following amendment by Senators Murray and Odegaard was adopted:

On page 1, line 24, after “taught” and before the period insert “: PROVIDED FURTHER, That these aforementioned holiday dates are the only dates which may be recognized for each noted occasion, notwithstanding differences with federal recognition of any other date(s)”

On motion of Senator Odegaard, the following committee amendment to the title was adopted:

In line 4 of the title before “declaring” strike “and”, and on line 5 after “emergency” and before the period insert “; and making an effective date”.

MOTION

On motion of Senator Odegaard the rules were suspended, Engrossed Senate Bill No. 2011 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2011, and the bill passed the Senate by the following vote: Yeas, 43; nays, 6.

SPECIAL ORDER OF BUSINESS

ENGROSSED HOUSE BILL NO. 31, by Representative Gallagher:
Authorizing class A counties to participate in urban renewal.

The time having arrived, the Senate resumed consideration of Engrossed House Bill No. 31 on third reading.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Would Senator Bottiger yield to a question? Senator Bottiger, what was your understanding that this particular legislation was going to be used for in our county?"

Senator Bottiger: "As I understand it, Senator Rasmussen, the sewer project out in the Parkland-Spanaway-Lakewood area is part of the federal matching money under this program, the federal matching money that is necessary, and as I understand it, this is the project that the commissioners have applied for and are stalled on."

Senator Rasmussen: "Thank you. With that understanding, it makes the bill a little more palatable."

Debate ensued.

POINT OF INQUIRY

Senator Talley: "Will Senator Rasmussen yield to a question? I think, Senator, while you and I were mayors of cities in Washington, the City of Tacoma under your mayorship, and your city manager, got more federal money for urban renewal than any city on the Pacific Coast. Isn't that true?"

Senator Rasmussen: "You are absolutely right. This was the greatest waste of money that I have seen in all my history as a public servant. I fought it at every step and we would be far better — in fact, let me say, Senator Talley, and I am glad you asked that question, the Secretary of the Treasury Simon has just requested of the Congress that they raise the federal debt by one hundred and four billion dollars. And the reason for it is because we have exceeded the federal debt which was set at four hundred and ninety-five billion. Now the financing of the federal debt at six hundred and four billion will be over sixty billion dollars a year, the carrying charges on the federal debt. Now if you think what you could do with sixty billion dollars to put people to work, it becomes a very serious question. What are we doing with our money? Spending it wisely or wasting it foolishly? And there can only be one answer. And I am very glad you asked me that question, Senator Talley. That was the greatest waste of the federal dollar that I have ever seen. And I am not condemning all federal projects. We do have many good projects; hospitals, roads, various other things, but some day we are going to have to take a very long look and the time is coming very close, as how we are wasting the federal dollars, and I cannot blame anyone but myself when I become a party to it by voting for the continuing waste."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Engrossed House Bill No. 31.
ROLL CALL

The Secretary called the roll and Engrossed House Bill No. 31 passed the Senate by the following vote: Yeas, 35; nays, 14.

MOTION

On motion of Senator Fleming, Engrossed House Bill No. 31 was ordered immediately transmitted to the House.

"ETERNAL GOD, WE COME IN PRAYER JUST NOW TO SEEK YOUR GUIDANCE AND WISDOM FOR THIS DAY'S DELIBERATIONS. AND WE ASK YOU TO GIVE EACH SENATOR NOT ONLY A SENSE OF THE WISHES OF THOSE CITIZENS WHO HE REPRESENTS, BUT ALSO AN UNDERSTANDING OF YOUR WILL, IN EACH VOTE CAST. MAY HUMAN WELFARE BE ABOVE POLITICAL PREFERENCE OR INDIVIDUAL SELF-SEEKING, WHICH MAKE A MOCKERY OF OUR BOASTINGS ABOUT DEMOCRACY. MAY OUR UNITY BE GREATER THAN OUR DIFFERENCES AS WE SEEK RECONCILIATION WITH EACH OTHER AND WITH YOU. THROUGH CHRIST WE PRAY. AMEN."

SECOND READING

SENATE BILL NO. 2041, by Senator Knoblauch:
Requiring counties to retain an easement or right to exercise and grant easements whenever a county road or any portion thereof is vacated.

REPORT OF STANDING COMMITTEE

January 24, 1975:

SENATE BILL NO. 2041, requiring counties to retain an easement or right to exercise and grant easements whenever a county road or any portion thereof is vacated (reported by Committee on Local Government):

MAJORITY recommendation: Do pass with the following amendments:
On page 1, line 7, after "body" and before "include" strike "shall" and insert "may".
On page 1, beginning on line 8, after "easement" and before "in" and on line 9, strike "or right to exercise and grant easements".
The bill was read the second time by sections.
On motion of Senator Fleming, the committee amendments were adopted.
Senator Fleming moved adoption of the following amendment by Senators Fleming and Mardesich:
On page 1, line 11, after "services" and before the period insert "which at the time the resolution is adopted are physically upon a portion of the land being vacated: PROVIDED, That the legislative body shall not convey such easement to any public utility or other entity or person but may convey a permit or franchise to a public utility to effectuate the intent of this section."

POINT OF INQUIRY

Senator Clarke: "Would the Senator yield? I have this possible concern here with the wording which says, 'which at the time the resolution is adopted are physically upon a portion of the land being vacated.' Now are there not situations where, for instance, there will be an existing utility easement for natural gas and the pipe has not as yet been put in and they will want to, in the future, as additional residences perhaps either get built or they want to convert over, they will want to install a new pipeline there. Now would not your wording prevent perpetually that from being done?"

Senator Fleming: "No, to my understanding of the amendment and the intent, that would not because they already have that existing situation and they would still be able to come in there. But the language is trying to make sure that if they did not have it, that they would not be granted anything in addition to that. The difference in this, and I checked this with the utility companies and they said the amendment was okay."

Senator Clarke: "Senator, then what is the meaning of the wording 'are physically upon a portion of the land being vacated'?"
Senator Fleming: “First of all, when you are vacating land, for instance, someone said — I know Senator Bailey was worried about it — how does the Highway Department operate under this situation? And the difference is what when the county comes down with that road, the two abutting pieces of land owned by private individuals, they do not own that land. They have that easement through there, that right-of-way. On the Highway Department, they usually own the land so they usually sell it and they do not vacate it. And so that is what we are trying to look at here. that if the utilities did not have an existing franchise at the time that this resolution was passed and they wanted to come in as a new, then they would have to deal, after the land was vacated, with the property owners.”

Senator Clarke: “The legislative intent would not be to prohibit the future installation of a gas pipeline which does not presently exist?”

REMARKS BY SENATOR MARDESICH

Senator Mardesich: “Mr. President, if I might address myself to the problem for just a moment, you will note that line 10 starts out ‘construction’ so I take it would include that. However, I would think there would be nothing wrong with an amendment to the amendment changing it so that it would read, ‘which at the time the resolution is adopted are authorized or’, which solves everybody’s problem.”

On motion of Senator Fleming, the following amendment to the amendment by Senators Fleming and Mardesich was adopted:

On line 2 of the amendment, after “adopted are” insert “authorized or”.

POINT OF INQUIRY

Senator Lewis (Harry): “Will Senator Fleming yield? Senator, in the next to the last line of your amendment, you are talking about the legislative body shall not convey the easement to any public utility or other entity or person. How restrictive is that, is what I am really asking you.”

Senator Fleming: “It is only restricted to what the bill is doing when the county decides to vacate a road in that area. And what they are saying is, we do not convey easement to utilities at the present time. They contract and they franchise, and an easement is a little, a step higher that you are granting that they have at the existing time.”

Senator Lewis (Harry): “Could that be interpreted to mean that the county could not convey an easement to a person? If you are vacating a road. . . .”

Senator Fleming: “They could not convey an easement. . . .”

Senator Lewis (Harry): “To a person.”

Senator Fleming: “To anyone, from my understanding, if it is not existing. We are talking about existing. After they vacate the road.”

Senator Mardesich: “If I might interject again, Senator, I think if you look to the lines 9 and 10 which relate to the construction, repair and maintenance of public utilities and services. I think they could still grant an easement to a private party for a private purpose but not with respect to a public.”

Senator Lewis (Harry): “Right. I understand that. That was the point of my question, for the record, to make sure that we did not change that present procedure which is now possible for them to do.”

Senator Fleming: “Right. Okay.”

Senator Lewis (Harry): “The answer is then Senator Fleming, as I understand it, that the counties could still convey to a person.”

Senator Fleming: “Yes, if it is not in relation to public utility.”

Senator Lewis (Harry): “Yes. Thank you.”

Senator Fleming: “It is.”

REMARKS BY SENATOR VAN HOLLEBEKE

Senator Van Hollebeke: “In regard to Senator Lewis’s question, I think the answer is they cannot grant an easement to a private party after the vacation. By virtue of vacating they are giving up title to the property. They perhaps never had title but they had
a right-of-way. Could go either way. If they had just the right-of-way or title to the prop-
erty, but in any case, once they vacate they will not be able to grant an easement to a
private party.

REMARKS BY SENATOR WOODY
Senator Woody: "To follow up on that, since the language uses 'county retains an
easement.' title to property is sort of like a bundle of sticks and this is just a few of the
sticks in the bundle is the easement. And at that point if there is a retention of an eas-
ement and Puget Sound Power and Light, which is a private organization, then wants to
construct a public utilities line across it, the county will have to charge a reasonable
amount for the usage. Otherwise, it will be an unconstitutional gift to a private organi-
zation."

REMARKS BY SENATOR FLEMING
Senator Fleming: "Senator Lewis, and it resorts back to what I indicated to Sen-
ator Clarke when I started off. Once it is vacated, then they would have to deal with the
two abutting pieces of property to that area and not with the county."
The motion by Senator Fleming carried and the amendment, as amended, was
adopted.
Senator Fleming moved adoption of the following amendment by Senators
Fleming and Mardesich:
On page 1, line 12, strike "mean" and before "every" insert "include utilities
owned, operated, or maintained by".

POINT OF INQUIRY
Senator Woody: "Senator Fleming, would you yield? For purposes of legislative
intent, is it or is it not the intent that there would be a charge by the county to a private
utility in the event that a private utility is the beneficiary of such an easement."
Senator Fleming: "Yes it would, because presently they franchise a contract for the
right to go in on that easement."
Senator Woody: "It is the legislative intent then, at least from your committee, that
there would be a charge for this."

MOTION
On motion of Senator Mardesich, Senate Bill No. 2041, together with the adopted
committee amendments and the amendment by Senators Fleming and Mardesich to
page 1, line 11, as amended, and the amendment by Senators Fleming and Mardesich to
page 1, line 12 which was moved for adoption, was ordered held for further considera-
tion on Monday, February 3, 1975.

SECOND READING
SENATE BILL NO. 2021, by Senators Fleming, Jolly, Talley, Lewis (R. H.
"Bob"), Murray, Ridder, Beck and Sellar (by request of Committee on Local Govern-
ment of the 43rd Legislature):
Allowing cities and counties to set building permit fees.
The bill was read the second time by sections.
On motion of Senator Fleming, the rules were suspended and Senate Bill No. 2021
was advanced to third reading, the second reading considered the third, and the bill was
placed on final passage.

POINT OF INQUIRY
Senator Bailey: "Would Senator Fleming yield? Senator Fleming, I should know
this but I would like to ask you if these fees pay for the cost of the building inspection?"
Senator Fleming: "From my understanding they do, and one of the things is that,
like in Seattle, if these fees were to be maintained as the building code mandated them,
then they would not be able to maintain their high standards of inspection."
Senator Bailey: "Senator Fleming, then if we allow cities and counties to reduce
the fees, does that mean that the state appropriation to maintain the building code will have to be increased out of the general fund or anything of that sort?"

Senator Fleming: "From my understanding of it, that was not indicated to me. It was indicated to me that these smaller counties would be able to maintain under the present situation but the fees that we have mandated in the bill were just a little too excessive."

Senator Bailey: "I am still seeking an answer to something else. If we allow cities and counties to lower the fees and they maybe do not raise enough to pay their inspector, is there any liability to the state to pick up out of those dedicated funds the additional cost of the inspector, or will it mean that the rest of the state has to raise the inspection fee in order to have sufficient money in the dedicated fund to pay for the necessary inspections?"

Senator Fleming: "From my understanding that is not the case but that does not preclude them, if that situation develops, from coming back to the legislature asking such."

MOTION

On motion of Senator Lewis (Harry), the rules were suspended and Senate Bill No. 2021 was returned to second reading.

Senator Lewis (Harry) served notice that he would, Monday, February 3, 1975, propose an amendment to Senate Bill No. 2021.

MOTION

On motion of Senator Mardesich, Senate Bill No. 2021 was ordered to hold its place on second reading for Monday, February 3, 1975.

MOTION

On motion of Senator Walgren, the Senate commenced consideration of the appointment of Frank W. Foley as a member of the Utilities and Transportation Commission.

REMARKS BY SENATOR MARSH

Senator Marsh: “Mr. President and fellow Senators, I would like to speak in favor of this confirmation. We all know Frank Foley here. He served sixteen years in this body as a State Senator. He is a capable attorney with considerable public law experience. He is a former Assistant Attorney General. I believe he will serve with credit on the Utilities and Transportation Commission. I certainly would urge each and every one of us to vote in favor of this confirmation.”

REMARKS BY SENATOR HARRY LEWIS

Senator Lewis (Harry): “Mr. President, I too would like to second the motion to confirm Senator Foley. Frank had a distinguished career in the Senate. He is a distinguished member of the community in Vancouver, is well recognized. He was replaced by Senator Marsh. He formerly held Senator Donohue’s position as chairman of Ways and Means. I think that both sides of the aisle would want to join with Senator Marsh in supporting Senator Foley. I am confident that he will do an exemplary job for the
people of the state and I think we should be very grateful that Frank Foley will give up a successful law practice and give his time for this vital position."

REMARKS BY SENATOR TALLEY

Senator Talley: "Mr. President, I would like to join in the remarks of Senator Marsh and Senator Lewis. I was elected to the Senate in 1956, the same time as Senator Foley was. I know him to be a very able, fair, and honest man and I think he will do us a fine job on the Commission."

REMARKS BY SENATOR WALGREN

Senator Walgren: "Also speaking in favor of the confirmation, the Utilities and Transportation Committee, of course, has close contact with the various members of the Commission. This is an extremely sensitive position in state government. It is one that sometimes goes somewhat unnoticed but as we are all aware, the Commission affects the daily lives of every one of us in the state of Washington when it comes time to be concerned about the setting of rates of our various public utilities. I have had the pleasure, as many of us have had, of serving with Frank Foley. We know him to be an extremely competent person with very, very high integrity, and this is extremely important in this particular position. I certainly urge unanimous support of his confirmation."

MOTION

On motion of Senator Walgren, the rules were suspended and the appointment of FRANK W. FOLEY as a member of the Utilities and Transportation Commission was confirmed.

Senator Guess: "Would Senator Francis yield? Senator Francis, last year we had a similar bill in and it did not move out of your committee. Could you trace the history of the bill and why it did not move?"

Senator Francis: "Senator Guess, it did not move because I did not like it, and I did not tell anybody I was going to give it a hearing. I did not schedule a hearing. I did not think it deserved a hearing last year. I have agreed to give a hearing this year and you are going to get fair treatment on it. I still hope that the majority of the members agree with me that it is an unnecessary coercion of individual behavior, but it is going to get a fair hearing. So that is the difference between last year and this year. And we also now have six laymen, a majority of laymen, on the Judiciary Committee. I think you are going to find a broad cross section of the community is reflected on the Judiciary Committee. I think you are not going to be unhappy with the reception that you get for your bill in that committee."

Senator Guess: "Senator Francis, you promise us that you will give us a fair hearing on it. Will we have an opportunity for the committee to vote on it?"

Senator Francis: "Absolutely, Senator. That is what I meant when I said I was not going to pocket veto it."

Further debate ensued.

The motion by Senator Rasmussen failed on a rising vote.

Senate Bill No. 2383 was referred to the Judiciary Committee.

POINT OF INQUIRY
Senator Wilson: "Will Senator Fleming yield, please? Senator Fleming, I think this is a bill in which such a group as the Association of Washington Counties would have a legitimate interest. My question is whether the Association has endorsed the amendment."

Senator Fleming: "From my understanding, I have not talked to the Association. The Association endorsed the bill. The Association was well aware of the amendment being introduced on the floor last week and so I would think that if they had some objections they would have contacted the chairman of the committee. I have not heard from them pro or con."

On motion of Senator Fleming, the rules were suspended. Senate Bill No. 2041 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Odegaard: "Would Senator Fleming yield to a question? Senator Fleming, I go along with the intent of this bill and think on the whole it is a good bill and the right approach. Senator Beck stated it very well, too. One concern, though, that I have is could it end up so that some counties would lower their fees to the point that all it becomes is a fee collecting bill and there would not be enough to cover the cost of a good inspection program. Is there anything to take care of that problem?"

Senator Fleming: "Senator Odegaard, as it relates to the state versus relating to the local government, we are hoping that they would be able to bring their standards up to a certain level and we are trying to — I guess the bill itself is trying to mandate eventually so all those counties come up to a certain level. I do not think any county would lower their fees to that point because they are basically responsible for it and there are no state dollars involved or no situation where they can come back to the state and get reimbursed. The only dollars involved in the statewide building code were for the Advisory Council and their travel and expenses. So it is all on a local level and we would hope that if that situation arose that those local officials would deal with that. But as I see it, I do not see that possibility."

POINT OF INQUIRY

Senator Morrison: "Would Senator Fleming yield to a question? Senator Fleming, I am concerned that the bill does not specify that the level of fees established, that those fees will necessarily go to support the inspection program you are speaking of. Do you know of any requirements that this would not become a revenue raising measure as far as local government was concerned?"

Senator Fleming: "Senator Morrison, I do not think so. I think that in the statewide building code itself and the requirements under that law delineate the kinds of things that would be involved in the program as a result of these revenues, so I do not think they could just use them for anything."
ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 2041, and the bill passed the Senate by the following vote: Yeas, 44; nays, 2; excused, 3.

The Color Guard, consisting of Pages Edith Colwell and John Blair, presented the Colors. Reverend Paul J. Beeman, pastor of First United Methodist Church of Olympia, offered the following prayer:

"O GOD, YOU WHO ARE THE CREATOR OF OUR MINDS AND THE SOURCE OF OUR VALUES, WE PRAY ON BEHALF OF THE MEMBERS OF THIS CHAMBER, THAT DURING THE HOURS OF THIS DAY EACH ONE MAY EXPERIENCE A NEW FLASH OF INSIGHT AND A NEW CLARITY OF THOUGHT. WE KNOW THAT THEIR CONSTITUENTS EXPECT THEM SOMEHOW TO HURL A LEGISLATIVE THUNDERBOLT WHICH WILL CREATE STRAIGHTER HIGHWAYS, STRONGER EDUCATION AND EXPANDED ASSISTANCE; AND THAT THEY WANT THESE PROVIDED BY FEWER STATE EMPLOYEES, ALL ON STABLE SALARIES, WITH LOWERED EXPENSES, AND IN THE FACE OF SHRINKING BUDGETS.

"HELP US, O GOD, NOT TO EXPECT THESE PUBLIC SERVANTS TO BE SUPER-HUMAN, OR TO ENACT THE IMPOSSIBLE. WE MAKE A MORE MODEST REQUEST, O GOD, THAT THEY MAY BE INSPIRED TODAY WITH AN OPEN-MINDED CLARITY OF INSIGHT, BORN OF QUIET DEVOTION, NURTURED IN PATIENT EXPERIENCE, AND FINALLY FULFILLED IN TODAY'S HEARINGS AND DISCUSSIONS, DEBATES AND COMPROMISES.

"WE PRAY THAT YOU WILL GIVE TO EACH MEMBER OF THIS CHAMBER TODAY THE DIVINE GIFT OF ONE UNEXPECTED INSIGHT LEADING TO A NEW SOLUTION, ONE NEW WAY OF HANDLING A PERVERSING PIECE OF LEGISLATION. HELP EACH ONE OF THEM TO KEEP THEIR MINDS OPEN TO YOUR GIFT. AND THEN HELP US ALL TO GIVE THANKS TO YOU, OUR CREATOR, FOR THE WORK ACCOMPLISHED AT THE END OF THE DAY. IN THE SPIRIT OF OUR MASTER WE PRAY. AMEN."

Senator Francis: "Would Senator Walgren yield to a question? Senator Walgren, I am looking at page 1 where your amendment is, and I am wondering what was the problem that your amendment adding bicycle safety to traffic safety addresses itself to. In particular, it would appear to me that traffic safety does indeed include bicycle safety in that anyone using the streets for transportation purposes, whether it is on a bicycle or whatever other mode of transportation, is involved with traffic and the traffic safety ought to cover that, both with regard to the automobile drivers being aware of bicycles on the street and vice versa. Has there been some problem where somebody has failed to interpret traffic safety that broadly?"

Senator Walgren: "I think, Senator Francis, that that is an interpretation that you and I could probably make and make very justifiably, that traffic safety does indeed include bicycle safety, but obviously from the debate that we have had thus far on the floor
there seems to be a real question as to whether or not bicycle safety is included. My purpose of the amendment is to insure that we are and will continue bicycle safety as part of traffic safety."

Further debate ensued.

**POINT OF INQUIRY**

Senator Woody: "Would Senator Guess yield? Senator Guess, in view of the fact that the statute clearly says that unless a student completes successfully a course in traffic safety education he cannot obtain his automobile driver's license until eighteen."

Senator Guess: "That is right."

Senator Woody: "How do you explain the corollary of that and that is if you allow bicycle safety in there that once a fellow completes his bicycle safety education course he can get a driver's license under eighteen?"

Senator Guess: "Senator Woody, I am trying to draw the corollary if you teach them proper safety when they are in the lower grades as they begin to ride bicycles, then they have a better chance of staying alive to the age of eighteen, at which time they will then make application for the driver's license. Now it is also a recognized fact that if you start in early to teach a youngster to take safe acts, then he will have a better chance of going on to complete the thing. In the safety education in the industrial field, for instance, we find that for every three hundred careless acts that an individual in a plant will commit, you will have a serious accident, a lost time injury. So it is those small things that build up. Now if we can instill into the youngster to start being safe at the early age, then he has a better chance of being safe later on in life when he begins to take the responsibility of driving an automobile."

Senator Woody: "With all due respect, Senator Guess, you did not answer the question that I asked of you."

Further debate ensued.

**POINT OF INQUIRY**

Senator Peterson: "Not to prolong the agony here, but would Senator Walgren yield? Senator, one thing that has not been brought out here, I think we have to recognize that there is going to be a fiscal impact and if we go into this program on bicycle safety, what do you envision on cost on the local level and how much of this is going to detract from the present funds of driver education?"

Senator Walgren: "There may very well be a fiscal impact, Senator Peterson, but as Senator Francis has pointed out, all we are doing is making our intent very clear here that traffic safety includes bicycle safety, too. And of course, as you well know, having sat in on the meetings of the Transportation Committee, the statistics are of course legend that the accident rate is increasing probably more dramatically as it relates to bicycles and the use of bicycles as opposed to utilization of the automobile. So to equate, it seems to me, an argument against the bicycle safety aspect on the basis of increased problems from the finances does not wash. I think that while there may be some increase, that nonetheless bicycle safety should be included.

Senator Peterson: "My point is, Senator Walgren, that we have many school districts in the state right now that are having difficulty in promoting and funding and operating their present driver ed program, and if we are envisioning a fleet of bicycles in each school district and an instructor on top of that to provide this, I can envision at least at the present time a considerable impact upon a driver ed program."

Senator Walgren: "One further response to this. Senator Woody has suggested that there should be a complete revamping of the traffic safety program and I might concur with his remarks with regard to that and I think we should continue to address ourselves to this question of financing a traffic safety program. This is a perennial problem before the committee, but that of course does not eliminate the need of taking care of the bicycle safety situation right here at this time."

**REMARKS BY SENATOR WOODY**

Senator Woody: "To answer Senator Peterson's question about the fiscal impact, the state of Washington auditor's audit for the fiscal year '74 showed that the disburse-
ment to school districts totaled four million one hundred and twenty-four thousand six hundred and fifty-two dollars and thirty cents, and for that same period of time the Superintendent of Public Instruction's cost and what he took out of it for the SPI's part of the overhead was two hundred and twenty-two thousand one hundred and sixty-three dollars and ten cents. There is absolutely no question but that if bicycle safety were added, the two hundred and twenty-two thousand, the SPI's portion, would have to increase. They would set up a bicycle safety section. And then the amounts going to school districts, the four million, would be reduced that much plus also it would have to be diverted into bicycle safety. I reiterate, Senator Walgren, that the first step ought to be revamping the whole driver education section rather than doing a piecemeal affair."

Further debate ensued.

The motion by Senator Walgren failed and the amendments were not adopted on a rising vote.

Senator Pullen moved adoption of the following amendment:

On page 2, beginning on line 17, strike all of new section 2 and insert:

"Section 2. Section 1, chapter 38, Laws of 1919 as last amended by section 28A.67.020, chapter 223, Laws of 1969 ex. sess. and RCW 28A.67.020 are each amended to read as follows:

No person, who is not a citizen of the United States of America, shall be permitted to teach in the common schools in this state: PROVIDED, That the superintendent of public instruction may grant to an alien a permit to teach in the common schools of this state if such teacher has all the other qualifications required by law. [has declared his intention of becoming a citizen of the United States of America and five years and six months have not expired since such declaration was made: PROVIDED FURTHER, That the superintendent of public instruction may grant to an alien whose qualifications have been approved by the state board of education a temporary permit to teach as an exchange teacher in the common schools of this state, irrespective of requirements respecting citizenship and oath of allegiance.] Before such alien shall be granted a temporary permit he shall be required to subscribe to an oath or affirmation in writing that [he is not a member of or affiliated with a communist or communist-sponsored organization or a fascist or fascist-sponsored organization] he does not advocate the unlawful and violent overthrow of the government of the United States or the state of Washington. The form of such oath or affirmation shall be prepared by the superintendent of public instruction. [All] the oath[s] or affirmation[s] subscribed as herein provided shall be filed in the office of the superintendent of public instruction and shall be there retained for a period of five years. Such permits shall at all times be subject to revocation by the superintendent of public instruction."

Debate ensued.

POINT OF INQUIRY

Senator Lewis (Harry): "Would Senator Woody yield to a question? Senator, this is more of a comment than a question, but as long as you took a quick look at this amendment, I wonder if you would take a quick look at the potential constitutionality of Senate Bill No. 2044 which is next on the calendar. As long as you are taking quick looks."

(No reply by Senator Woody).

Further debate ensued.

POINT OF ORDER

Senator Mardesich: "There is apparently something missing in the amendment, or the law as originally drafted is incorrect. If you look to the first paragraph and read it through and then go on to the stricken or deleted material, there is no sense in the former language unless there is an 'and' missing before 'has' or a comma or something, and I am just wondering whether this amendment has been properly drafted."

MOTION

Senator Lewis (Harry) moved that Senate Bill No. 2090 and the pending amendment be held for consideration following Senate Bill No. 2044.
RULING BY THE PRESIDENT

The President: "Senator Mardesich, in ruling upon your point of order, the Secretary has just checked the code and found that the amendment is not properly drafted and that a period has been substituted instead of a comma."

There being no objection, the motion by Senator Lewis (Harry) was withdrawn.

MOTION

On motion of Senator Walgren, the amendment by Senator Pullen was laid upon the table.

There being no objection, the remaining amendments by Senator Pullen on the Secretary's desk were withdrawn.

On motion of Senator Newschwander, the following amendment by Senators Newschwander and Clarke was adopted:

On page 2, beginning on line 31, strike all of section 5. Renumber the remaining section consecutively.

On motion of Senator Newschwander, the following amendment by Senators Newschwander and Clarke to the title was adopted:

On page 1, line 10 of the title, before "providing" insert "and" and after "penalties" strike "; and declaring an emergency".

On motion of Senator Stortini, the rules were suspended, Engrossed Senate Bill No. 2090 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Woody: "Would Senator Stortini yield? What was the real significance of striking 'under the division of curriculum and instruction' on page 1, lines 16 and 17?"

Senator Stortini: "The private industry that was brought in by SPI simply felt that this curriculum was too large to handle this, so as a result they set up a new division called the special services. As I said, this includes four or five different things now, including traffic safety."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2090, and the bill passed the Senate by the following vote: Yeas, 47; nays, 2.

Voting nay: Senators Pullen, Scott—2.

ENGROSSED SENATE BILL NO. 2090, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SENATE BILL NO. 2044, by Senators Rasmussen and Odegaard:
Regulating the creation and combination of agencies and departments by the executive.

The bill was read the second time by sections.

Senator Jones moved adoption of the following amendment by Senators Jones and Cunningham:

On page 1, section 2, line 7, strike "or combining".

POINT OF INQUIRY

Senator Francis: "Will Senator Jones yield to a question? Senator Jones, is it your
contention that the Governor now has the power to combine by executive order state agencies and departments, and if so, would you please state some examples of such authority?"

Senator Jones: "I believe that in past actions he has made — the combining of such agencies — I might have some difficulty coming up with an exact method at the moment but I can think of a number of perhaps task force, where he has used the expertise of certain individuals and blended them in with another group. I cannot come up with a specific at the moment but I do believe he has that power."

Senator Francis: "Senator Jones, assume that he does — for the moment assume that he has the power to combine state agencies and departments, would you think it would be desirable and appropriate for the executive to, say, combine the Department of Social and Health Services with the Department of Labor and Industries?"

Senator Jones: "Not at the moment, no."

Senator Francis: "Thank you very much."

Debate ensued.

MOTIONS

On motion of Senator Mardesich, the Senate advanced to the eighth order of business.

At 12:13 p.m., on motion of Senator Mardesich, the Senate adjourned until 11:00 a.m., Thursday, February 6, 1975.

JOHN A. CHERBERG, President of the Senate.

SIDNEY R. SNYDER, Secretary of the Senate.
TWENTY-FIFTH DAY, FEBRUARY 6, 1975.

TWENTY-FIFTH DAY

MORNING SESSION

Senate Chamber, Olympia, Thursday, February 6, 1975.

The Senate was called to order at 11:00 a.m. by President Cherberg. The Secretary called the roll and announced to the President that all Senators were present except Senator Woody. On motion of Senator Knoblauch, Senator Woody was excused.

The Color Guard, consisting of Pages Laurie Jones and David Ridder, presented the Colors. Reverend Paul J. Beeman, pastor of the First United Methodist Church of Olympia, offered the following prayer:

"O GOD, WHO HAS SET HUMANITY IN FAMILIES, AND GIVEN LOVING COMPANIONSHIP TO HUSBANDS AND WIVES, AND HAS GIVEN THEM RESPONSIBILITY FOR THEIR CHILDREN; WE COME TO YOU FIRST ON BEHALF OF THE SENATORS OF OUR STATE, PRAYING FOR DIVINE GIFTS OF CLARITY, AND WISDOM, FAIRNESS AND JUSTICE, TOLERANCE AND LOVE. LET THIS BE A GOOD DAY IN THEIR LIFE AND WORK.

"BUT WE COME REQUESTING SPECIAL DIVINE MERCIES FOR THOSE LOVED ONES OF THEIRS WHO MAY BE AT HOME; LONELY WIVES, OR Husbands, LEFT TO TEND RESPONSIBILITIES OF THE FAMILY AND LONGING FOR SOME TIME TOGETHER; CHILDREN, WHOSE GREATEST INTEREST IN SENATE ACTION MAY BE THE TIME OF ADJOURNMENT, WHICH WILL SEND A PARENT HOME TO THEM AGAIN. THESE LOVED ONES PAY TOO HIGH A PRICE FOR THE PUBLIC SERVICE OF THE SENATORS. GRANT THAT A SPECIAL AWARENESS MAY COME TODAY TO THE FAMILIES OF THOSE IN THIS ROOM, THAT THEY ARE LOVED AND APPRECIATED, AND REMEMBERED. BE ALSO WITH THOSE COLLEAGUES BACK HOME WHO ARE LEFT TO MANAGE THE OFFICE, OR RUN THE BUSINESS, AND KEEP THE BASIC INCOME INTACT. GIVE TO THEM THE COMPETENCE AND GUIDANCE AND STRENGTH, WHICH WILL FREE THESE SENATORS TO GIVE THEIR MAJOR ATTENTION TO LEGISLATIVE TASKS.

"FINALLY WE PRAY FOR ALL THOSE WHO SERVE THIS CHAMBER; THE ADMINISTRATIVE ASSISTANTS AND SECRETARIES, CLERKS AND GUARDS AND COOKS, PAGES, AND THE PRESIDENT AND OFFICERS OF THE SENATE. GRANT TO THEM ALL THE AWARENESS OF THE IMMENSE RESPONSIBILITY THEY HOLD FOR GOOD GOVERNMENT. GRANT THEM A SENSITIVITY TO THE EVER-PRESENT LOVE OF YOURS WHICH SURROUNDS THEM, AND ENRICHES US ALL. IN THE MASTER'S NAME. AMEN."

MOTION

On motion of Senator Mardesich, the reading of the journal of the previous day was dispensed with and it was approved.

PERSONAL PRIVILEGE

Senator Knoblauch: "I do not think that we want to overlook a couple of the Senators who gave their maiden speeches. They reminded me that they are very anxious to pay their penalties. I would like to say, Senator Cunningham and Senator Pullen, it is nice to have you with us in the Senate and, Senator Pullen, please do not mark my cigar 'harmful to your health.'"

PERSONAL PRIVILEGE

Senator Clarke: "My wife and I wish to express our deep appreciation to the President and the members of the Senate for the very nice bouquet of flowers sent to her in the hospital and I am happy to report that she is getting better."

POINT OF INQUIRY

Senator Peterson: "Will Senator Knoblauch yield? Senator Knoblauch, I do not know, we have a lot of new members in the Senate this year and one day I found an apple on my desk and then I got some bubble gum. Are you falling down on your job or can't you convince the new membership what their obligations are here?"

Senator Knoblauch: "Quite frankly, I thought that Senator Buffington did a real good job. The rule does not say you have to give a cigar that smokes, and I hope it was cheaper than the better kind, Mrs. Buffington. And the apples were terrific, Senator Benitz — oh, Senator Morrison was it? And any day you want to you can bring more apples in to us."

Regulating the creation and combination of agencies and departments by the executive.
The Senate resumed consideration of Senate Bill No. 2044 and the following amendment by Senators Jones and Cunningham which had been moved for adoption by Senator Jones on February 5, 1975:
On page 2, section 2, line 7, strike "or combining".
Debate ensued.

MOTION
Senator Washington moved that Senate Bill No. 2044 be re-referred to the Committee on State Government.
Debate ensued.

MOTION
Senator Day moved that the motion by Senator Washington to re-refer Senate Bill No. 2044 to the Committee on State Government be laid upon the table.
Senator Newschwander demanded a roll call and the demand was sustained by Senators Lewis (Harry), Clarke, Fleming, North, Gould, Jones, Murray, Wanamaker, Scott and Sellar.

ROLL CALL
The Secretary called the roll and the motion by Senator Day failed by the following vote: Yeas, 24; nays, 25.

POINT OF INQUIRY
Senator Francis: "Will Senator Lewis yield to a question? Senator Lewis, you
stated that there were cases in which the Governor had created a state agency, department or council, commission, task force or other executive organization which had cost the taxpayers nothing and which had done a great deal of good for the people of the state and I presume implicit in your comment that such organizations which have cost the taxpayers nothing would be prohibited by this bill without being acted upon by the legislature, and I would like you to itemize all of those agencies, departments, commissions, the task forces which you had in mind in that statement.”

Senator Lewis (Harry): “Senator Francis, rather than take the time of the Senate, I will have my secretary make a copy of the information I have and have it to you directly. I can give you several verbally, if you like.”

Senator Francis: “As many as you can think of.”

Senator Lewis (Harry): “All right. Most of the boards and commissions, as I indicated, that I have in front of me were created by the legislature.”

Senator Francis: “I am talking about gubernatorial task forces or commissions that were created by the Governor and did not cost the taxpayers a dime.”

Senator Lewis (Harry): “Fine. I have it here and will be glad to respond to that. The authority under the Governor's direction, the Salmon and Steelhead Council to operate in consultive capacity to the fish and game departments with regard to the management and utilization of Washington's salmon and steelhead resources, 1974 Executive Order EO 74-15, operating expenses zero. The North Cascade Task Force; the administering agency was the Planning and Community Affairs Agency; authority of the Governor’s direction to serve as a source of recommendations and to advise the agencies directly affected by development and use of the North Cascades area; zero operating expenses. A volunteer legislative task force under the Governor's direction, 1973, to examine the climate for voluntary action in Washington State and consider what legislation ought to be proposed, if any, where undesirable conditions are found, zero dollars operating expenses. A Wilderness Task Force under the Governor's direction in 1972 to determine and advise the Governor on possible state policies and recommendations regarding the U.S. Forest Service five thousand acre wilderness area inventory and their potential to study areas for wilderness classification. This was done in 1972 with zero operating expenses by the Governor. Governor's Affirmative Action Review Committee; 1972 Executive Order EO 72-07; administrating agency, the Department of Personnel under the executive order to review plans and monitor the progress of affirmative action programs in Washington State agencies; zero dollars cost to the people of the state. Governor’s Task Force on Commitment Law Reform through the Department of Social and Health Services; Governor's direction, 1970; to investigate the existing commitment laws and make recommendations in the form of legislation concerning needed changes; zero operating expenses.

“I think, Senator Francis, many of those statutes came to your committee and you considered we did have assistance by using this type of task force or committee which would clearly be prohibited under the bill.”

Senator Francis: “I appreciate your response, Senator Lewis, and if you have others then I would appreciate them in writing. I like what you are saying.”

Debate ensued.

REMARKS BY SENATOR HARRY LEWIS

Senator Lewis (Harry): “Speaking very briefly, Mr. President, I have definitions, Senator Francis, that I would like to include in that list that you gave me. I will get a copy for you and it will show you that the way the bill is written now, it not only partially but it fully and completely ties the Governor’s hands. And as a further argument for why the bill should go back, you recognize that if the Governor did create a commission, for example, Senator Rasmussen, on agriculture, that the way the bill came out of your committee, two members of the agricultural committee — could override and force him to dissolve. That is the way I read the bill and I really do not think there is any member of the Senate here that feels that way. You know, without making a long statement, we are State Senators and we have a very responsible job to do, and I have been proud to hold that office for what some think is too many years. On the other hand, the
executive office, the governor's office, is an office infinitely more powerful, infinitely more important to the people of the state than our office. And I think what we have attempted to do in the bill is to move ourselves into a power position as powerful as the executive, and I do not really believe that is our purpose. The fact that two members of this body could tie the governor's hands is not what I think the people of our districts sent us here to do. I would be glad to vote and support a modified bill that we could work together in putting together but we cannot do it on the floor, so I do urge you to support Senator Washington's motion."

Further debate ensued.

Senators Jones, Francis and Matson demanded the previous question and the demand was sustained.

Senator Newschwander demanded a roll call and the demand was sustained by Senators Clarke, Francis, Washington, Rasmussen, Fleming, von Reichbauer, Murray, Bluecheil and Lewis (Harry).

The President declared the question before the Senate to be the motion by Senator Washington that Senate Bill No. 2044 be re-referred to the Committee on State Government.

PARLIAMENTARY INQUIRY

Senator Peterson: "Was there a motion to adopt this amendment? I did not hear it."

REPLY BY THE PRESIDENT

The President; "The Secretary advises that the motion to adopt was made yesterday, Senator Peterson, and carried over until today."

PARLIAMENTARY INQUIRY

Senator Mardesich: "Mr. President, merely for a parliamentary point, the question is the adoption of the amendment striking the words 'or combining' on line 7, and that is what the issue is before us now."

REPLY BY THE PRESIDENT

The President: "That is correct, Senator Mardesich."

ROLL CALL

The Secretary called the roll and the motion by Senator Washington failed by the following vote: Yeas, 22; nays, 27.

Senators Mardesich, Francis and von Reichbauer demanded the previous question and the demand was sustained.

The President declared the question before the Senate to be the amendment by Senators Jones and Cunningham to Senate Bill No. 2044.

The motion by Senator Jones failed and the amendment by Senators Jones and Cunningham was not adopted.

Senator Pullen moved adoption of the following amendment:

On page 1, line 9, strike "or organization of any kind" and insert "office".

Debate ensued.

The motion by Senator Pullen failed and the amendment was not adopted.

There being no objection, the amendment by Senator Morrison to page 1, line 9, before "commission," insert "or" and following "commission," strike "task force, or organization of any kind," on the Secretary's desk, was withdrawn.
Senator Morrison moved adoption of the following amendment:
On page 1, line 9, after "or" insert "other permanent" and on line 14, after "other" insert "permanent".
Debate ensued.
The motion by Senator Morrison failed and the amendment was not adopted.
There being no objection, the amendments by Senator Jones to page 1, lines 8 and 9 and lines 13 through 15 on the Secretary's desk were withdrawn.
There being no objection, the amendment by Senator Pullen to page 2, section 2, line 10 on the Secretary's desk was withdrawn.

Senator Pullen moved adoption of the following amendment:
On page 1, line 10, strike the period and insert "and except as may be necessary to organize the staff of the office of the governor for the purpose of carrying out normal administrative activities."
Debate ensued.
The motion by Senator Pullen failed and the amendment was not adopted.

Senator Francis moved adoption of the following amendment:
On page 1, line 10, after "act" and before the period insert: "PROVIDED, That such prohibition shall not apply to any agency, department, board, council, commission, task force, or organization which is composed entirely of unpaid volunteers and operates at no cost to the taxpayers".
Debate ensued.

POINT OF INQUIRY
Senator Lewis (Harry): "Will Senator Francis yield to a question? Senator Francis, I see what you are trying to accomplish. The question I have is if the Governor asked a group of elderly people to come down and review potential statutes for a council on aging, for example, and they paid their own transportation from Spokane and Seattle, as I would understand would be required in your amendment, would they in addition have to pay for the portion of heat and light that they used while they were in the building discussing this with the Governor? Or would we assume that that would not be necessary?"
Senator Francis: "Senator Lewis, it is my understanding that heat and lights are being paid for anyway, therefore it would not add any cost to the taxpayer, I would think that that is not a problem. I thought of other ways of wording this such as simply saying that it operates entirely without any tax funding or something like that, I rejected it because I think this is plain and simple. It would operate without cost to the taxpayers.
It would be volunteers meeting together in a voluntary area and I think it is a matter of legislative history, since I am yielding to the question and it should appear in the journal. I want to make it very clear that that would not prohibit meeting in a public building."

POINT OF INQUIRY
Senator Morrison: "Would Senator Francis yield to another question? Senator Francis, when you are talking at no cost to the taxpayers, would this be just state taxes or would it also apply to local jurisdictions as well as those paying federal tax?"
Senator Francis: "Senator Morrison, my intention was that such boards, commissions, organizations, etc., as might be created by the stroke of the Governor's pen would not be funded in any way by any tax dollars from any jurisdiction or any subdivision of the state government. I do not mind if he can get hold of federal funds, although I have some objection to that, but I would say there that that is something that I do not think the State Legislature would wish to speak to. I think that if we are in our intention making it unfunded by tax dollars from within either state government or any sub-branch of state government, that we are getting at the problem that we have the ability to deal with."
The motion by Senator Francis carried and the amendment was adopted.
On motion of Senator Bottiger, the following amendment was adopted:
On page 1, section 2, line 23, following "shall" and before "refer" insert: "if the rules committees of the House of Representatives and that of the Senate each by ma-
Senator Grant moved adoption of the following amendment:

On page 1, line 27, after “by a” strike “two-thirds” and insert “majority” and on line 30 strike “more than one-third” and insert “a majority”.

Debate ensued.

POINT OF INQUIRY

Senator Lewis (Harry): “Would Senator Grant yield to a question? Senator Grant, I have a problem with your amendment. I recognize what you are trying to do and I support it, but looking at it with Senator Francis’s amendment and yours, what would be the situation where we had a federally required office such as the Drug Abuse Prevention Office, which is required by a federal statute, that the Governor is directed to set up such an office, or the Governor’s Committee on the Employment of Handicapped which was federally required; now with Senator Francis’s amendment, we could not spend any state funds on it. If three members of the agricultural committee, assuming that this issue was sent to them, objected to it? What position would that place the state of Washington in, in your judgment?”

Senator Grant: “I am not sure, Senator, that I can answer that question. I do not think that the amendment I have proposed addresses itself to that. It is simply an attempt, I think, to improve the situation relative to a very small minority of the legislature vetoing an action that the majority might feel would be appropriate. I really do not think that I am prepared to answer your question.”

REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: “Mr. President, in answer to Senator Lewis’s very sincere worries, Senator Bottiger in a previous amendment that we have adopted has taken care of that problem. That in the opinion of the Rules Committee of both the House and the Senate, if it is a very serious problem that needs immediate action, they are going to approve. I have no doubt. I am sure you do not have any doubt, you being on Rules Committee. I am not on Rules but I still have confidence in the Rules Committee. However, we do have every agency that you can possibly think of that is created right today, and there is no authority in this state for the Governor or anyone else to form a new agency because of a federal proposal. All they can do is say that they are going to fund some of the agencies we have at the present time, and the Governor would, I am sure, not request that. But if it should happen if you had an emergency, Senator Bottiger’s amendment would take very good care of it, so I urge you to support Senator Grant in his amendment which brings it back to the question of a majority, which is the way it should be.”

The motion by Senator Grant carried and the amendment was adopted.

MOTION

On motion of Senator Mardesich, the Senate advanced to the eighth order of business.

MOTION

At 12:33 p.m., on motion of Senator Mardesich, the Senate adjourned until 11:00 a.m., Friday, February 7, 1975.

"ETERNAL GOD, CREATOR OF ALL THINGS, WE THANK YOU FOR THE WORLD WHICH HAS BEEN CREATED FOR US THIS DAY. WE PRAY FOR THE MEN AND WOMEN WHO WORK IN THESE HALLS. THEY PERFORM THEIR TASKS IN THE ENVIRONMENT OF A CREATION THAT IS GOOD AND NEEDS TO BE PRESERVED AS WELL AS IN ONE THAT IS LACKING AND NEEDS TO BE COMPLETED. GIVE THEM A SENSE THAT THEY TOO, ARE A PART OF YOUR CREATIVE POWER. MAY THEY BE AWARE OF YOUR PRESENCE AS THEY SET THE STAGE FOR A NEW GENESIS AND ATTEMPT TO CREATE MEANINGFULNESS OUT OF THAT WHICH IS PRESENTLY VOID AND WITHOUT FORM. IN THE FACE OF OPPOSITION AND DIFFICULTY, ENABLE THEM TO REMAIN TRUE TO THEIR BASIC CONVICTIONS. WHEN THIS DAY IS DONE, WHEN THE MORNING AND EVENING IS OVER, ASSIST THEM TO LOOK AT THEIR CREATION WITH A SENSE OF PEACE. WE WANT THEM TO KNOW THE JOY AND THE PEACE THAT COMES WHEN THAT WHICH HAS BEEN ACCOMPLISHED IS INDEED LABELED AS BEING GOOD. WE PRAY IN CHRIST'S NAME. AMEN."

SENATE BILL NO. 2438, by Senator Bluechel:
An Act relating to land use planning; providing for the management thereof by
state and local governments; creating a new title in the Revised Code of Washington to be designated as Title 64A RCW; prescribing an effective date; and declaring an emergency.

MOTION

Senator Fleming moved that Senate Bill No. 2438 be referred to the Committee on Local Government. Debate ensued.

POINT OF INQUIRY

Senator Francis: "Will Senator Rasmussen yield to a question? Senator Rasmussen, if this bill is referred to your committee, are you going to hold a hearing on it?"

Senator Rasmussen: "Probably a number of hearings, Senator Francis."

Senator Francis: "And you are going to let it come to a vote of your committee members?"

Senator Rasmussen: "Yes."

Senator Francis: "All right. On that basis..."

Senator Rasmussen: "Senator Francis, I may say also that we have had a subcommittee of five chairmen that met during the interim and have worked on land use, and I think we are getting people more familiar with it all the time and probably will get a good bill."

Senator Francis: "Although I do not agree with all of Senator Bailey's reasoning, and especially since I think that counties encompass all of the land area in our state, it does include the same geographical area in local government as we do in state government, but after Senator Rasmussen's assurances that he is going to give the bill the same fair consideration that I am going to give his hitchhiking bill, why, I am glad to put it in that committee."

Further debate ensued.

POINT OF INQUIRY

Senator Lewis (Harry): "Will Senator Bluechel yield to a question? Are you on Local Government Committee?"

Senator Bluechel: "No, I am not."

Senator Lewis (Harry): "I see. Are you on State Government?"

Senator Bluechel: "No, I am not."

Further debate ensued.

POINT OF INQUIRY

Senator Fleming: "Would Senator Guess yield to a question? Senator Guess, would you mind reading, I think it is either the second or third paragraph that you failed to read in there where it told the true requirements of that bill for state government and local government and it mainly requires land use planning on the local government level."

Senator Guess: "Senator Fleming, the second paragraph says, 'The legislature declares it is a state policy'. The third paragraph, 'The Legislature declares it is essential for the regulation of land by local governments that shall implement the goals, objectives, and the policies and the programs for land use plans'."

Further debate ensued.

MOTION

Senator Bottiger moved that the motion by Senator Fleming be amended or a substitute motion made to refer Senate Bill No. 2438 to the Committee on Agriculture.

The President advised Senator Bottiger that the motion is of equal rank and under the Rules there is no provision for a substitute motion.

REMARKS BY SENATOR GUESS

Senator Guess: "Mr. President, I would like to, with Senator Fleming's permission, read a few more of these paragraphs in here. 'The Legislature declares that the continued

responsibility of the state government is to monitor all of the use of the lands of the state and to give preference for the long-term interest of all of the people of the state. 'To provide for the health, safety, and social and economic well-being of the people of this state.' 'The Legislature declares it is the continuing responsibility of the state government to provide information services and to promote the exchange of land use information among all levels of government.' So it is a state government — the brunt of the whole thing is state government control.'

Further debate ensued.

Senator Lewis (R. H. "Bob") demanded a roll call and the demand was sustained by Senators Murray, Bluechel, Washington, Bailey, Ridder, Herr, Fleming, von Reichbauer and Wanamaker.

MOTION
On motion of Senator Mardesich, Senate Bill No. 2044, as amended on February
6, 1975, was ordered held on the second reading calendar for Tuesday, February 11,
1975.

SECOND READING
SENNATE BILL NO. 2163, by Senators Bluechel, Washington and Benitz:
Designating petrified wood as the official state gem.
The bill was read the second time by sections.
On motion of Senator Mardesich, the rules were suspended, Senate Bill No. 2163
was advanced to third reading, the second reading considered the third, and the bill was
placed on final passage.
Debate ensued.

POINT OF INQUIRY
Senator Rasmussen: "Will Senator Washington yield to a question? Senator Wash-
WASHINGTON, you know, of course, this bill went through the State Government Committee?

Senator Washington: "Yes, I recognize that and I want to congratulate you on the very fine hearing you gave it."

Senator Rasmussen: "My question would relate to this. Do you suppose that the Ecology Committee that you are the chairman of would put this state in such a situation, would we become known as the petrified state if we adopted this bill?"

Senator Washington: "You have got to worry about that a little bit, but I think we are dynamic enough that we could not possibly get that appellation."

Senator Rasmussen: "I would hope not. I join in supporting the bill and making this petrified wood the gem. It is very beautiful. Just as long as your committee does not make us a petrified state,"

Senator Washington: "We will guard against that."

Senator Rasmussen: "Thank you."

POINT OF INQUIRY

Senator Bailey: "Would Senator Bluechel yield? Senator Bluechel, I am a little concerned about the land use bill which you succeeded in getting into life and into Senator Fleming's committee Friday. I want your assurance, before I vote on this, that the land use bill that you vote for will not be strict enough that you will tell these rock hounds they cannot even pick up a rock unless they have state permission."

Senator Bluechel: "I assure you that the land use bill is not meant to be a strict bill and will say nothing about petrified wood. In fact, in answer to Senator Rasmussen's question also, it will not petrify the state."

Further debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 2163, and the bill passed the Senate by the following vote: Yeas, 48; excused, 1.

Excused: Senator Wanamaker—1.

SENATE BILL NO. 2163, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SENATE BILL NO. 2079, by Senators Henry, Murray and Beck (by Department of Motor Vehicles request):

Facilitating the refund of erroneously paid camper and trailer tax.

The bill was read the second time by sections.

On motion of Senator Henry, Senate Bill No. 2079 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Francis: "Would Senator Henry yield? Senator Henry, I do not understand the bill, I guess. Is what you are saying that the Department of Motor Vehicles informs people of when they have overpaid and they need more time to be able to inform them? I had the impression that they find out on their own and they had ninety days to make a claim, but from what your statement was in support of the bill it sounds like they depend upon the Department of Motor Vehicles to tell them when they are overpaid and the department needs more time to get that information to them. Is that the way it works?"
Senator Henry: "I was not at the committee meeting when the bill was heard. Perhaps Senator Walgren can answer that question, Senator Bottiger?"

Senator Bottiger: "Mr. President and members of the Senate, Senator Francis, the time the error is usually discovered is when they get their license fee for the following year. Quite often they do not realize there is a mistake until it has gone through the computer to send out the bill the following year or they get it and find that they have overpaid, not only the previous year, but they are being billed for an overpayment that year. Under the old law there was nothing we could do about it and they had ninety days from the time they paid it to file their claim. The department has so many complaints like this that they came in and asked for thirty days after, in effect, a year and thirty days more to present the claim so that they could pay it."

Senator Francis: "Thank you very much, Senator Bottiger."

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 2079, and the bill passed the Senate by the following vote: Yeas, 48; excused, 1.

Excused: Senator Wanamaker—I.

SENATE BILL NO. 2079, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SENATE BILL NO. 2125, by Senators Donohue, Peterson and Matson:
Authorizing alteration of streams by riparian owners in cases of emergency.

MOTIONS

On motion of Senator Peterson, Substitute Senate Bill No. 2125 was substituted for Senate Bill No. 2125 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Donohue, the following amendment was adopted:
On page 1, delete the underlined material on lines 12 and 13.

On motion of Senator Peterson, Engrossed Substitute Senate Bill No. 2125 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Washington: "Will Senator Donohue yield? On line 17 of page 2 of the bill, it states that they will have the right to, the words 'restoring stream banks'. As I understand that, that would be to restore the bank as it was immediately preceding the natural occurrence that we are talking about."

Senator Donohue: "That is correct."

POINT OF INQUIRY

Senator Murray: "Will Senator Bluechel yield to a question? With the Donohue amendment, are we correct in assuming now that this bill will not interfere or change the Shorelines Management Act?"

Senator Bluechel: "Yes, I believe so. I asked that question of three separate entities; the Department of Ecology, the Governor's Office, and the Shorelines Hearing Board. And for the record, I would like to read a very short portion of their answer. This is from the Department of Ecology. 'It does not diminish the authority of the Shorelines
Act in that the language is similar to that contained in the Shorelines Act pertaining to development for which the requirement for a shorelines permit is waived. In practice it would be necessary to determine that a given proposal constituted an emergency under both the Shorelines Act and RCW 75.20.100 before it could proceed.'

"And from the Shoreline Hearing Board, written by Senator Gissberg, he states also that it does not interfere with the Shorelines Management Act but he says the Shorelines Management Act exempts from its permit requirements the following types of substantial development. And Item 3 in this letter is emergency construction necessary to protect property from damage by the elements. It would be necessary to obtain both permits but there are the exemptions and I believe under the final Shoreline master plans now being put together by the counties both the Department of Fisheries, Game, and the Department of Ecology are in the process of developing a system to solve the problem of emergency disasters to streams."

POINT OF INQUIRY

Senator Guess: "Would Senator Bluechel yield? Senator, do I understand you to say that you have to obtain a permit for the exemption? Is that what that ... ?"

Senator Bluechel: "This bill states that an oral permit will be given immediately upon request by the Department of Fisheries when an emergency exists, in order to correct that emergency. The Shorelines Management Act also needs a permit. They have a set of procedures that are too long to read that would constitute an emergency and under which a permit is granted. But in any emergency at the present time and under our existing state of law, both the Department of Fisheries and the Shorelines Management Act must grant a permit."

Senator Guess: "The thing that bothers me is that in order to get something through the Department of Ecology, I have been trying to get something through now since last June. I have not been able to do it yet. Do you suppose they could act any faster if there was an emergency?"

Senator Bluechel: "I do not think this bill pertains to that particular subject.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 2125, and the bill passed the Senate by the following vote: Yeas, 48; excused, 1. Voting yea: Senators Bailey, Beck, Benitz, Bluechel, Bottiger, Buffington, Clarke, Cunningham, Day, Donohue, Fleming, Francis, Goltz, Gould, Grant, Guess, Henry, Herr, Jolly, Jones, Keeffe, Knoblauch, Lewis (Harry), Lewis (R. H. "Bob"), Mardesich, Marsh, Matson, McDermott, Morrison, Murray, Newschwander, North, Odegaard, Peterson, Pullen, Rasmussen, Rider, Sandison, Scott, Sellar, Stortini, Talley, Van Hollecke, von Reichbauer, Walgren, Washington, Wilson, Woody—48.

Excused: Senator Wanamaker—1.

ENGROSSED SUBSTITUTE SENATE BILL NO. 2125, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

"OUR HEAVENLY FATHER, WE STAND IN THESE HALLS TO THANK YOU FOR THIS GREAT DAY. TO THANK YOU FOR OUR GREAT SAVIOR, JESUS CHRIST. TO THANK YOU FOR OUR GREAT COUNTRY, AMERICA. AS MANY PEOPLE PREPARE FOR SAINT VALENTINE'S DAY, HELP US TO REMEMBER THE REMARKABLE JESUS. HE CAME INTO A WORLD WHERE EVERYBODY THOUGHT THAT THE GREAT POWER WAS FORCE, ONLY TO TEACH AND TO SHOW THAT THE GREATEST POWER IS LOVE. MAY WE TODAY GIVE OURSELVES TO THE ONLY ONE WHO CAN RELEASE US INTO A GREAT LIFE. A LIFE OF LOVING YOU FIRST, LORD, THEN TO LOVE THOSE AROUND US. TO SERVE MANKIND WITH THE JOY THAT JESUS BROUGHT INTO THIS WORLD. INTO A DULL, DEFEATED, WEARY WORLD, HE HAS COME. WE ARE SO GRATEFUL, LORD, FOR THE SIMPLE, PRACTICAL, SENSIBLE, DOWN-TO-EARTH HUMAN-LIFE PRINCIPLES THAT JESUS TAUGHT. GRANT THAT WE MAY REALIZE THAT AS WE EMPLOY HIS ANSWERS, WE WILL ESTABLISH THE PERSONAL RELATIONS WHICH SO GREATLY ENRICH OUR LIVES, AND OUR WORLD. THIS IS NOT JUST A ROUTINE IN THE AGENDA OF THE DAY THAT WE GO THROUGH, LORD. WE TRULY ASK YOU NOW TO FILL OUR LIVES WITH YOUR WISDOM, POWER, AND LOVE, AND THEN HELP US TO TRANSMIT IT INTO ALL THE WORK AND RELATIONSHIPS OF THE DAY. THROUGH JESUS CHRIST OUR LORD. AMEN."

On motion of Senator Mardesich, the reading of the journal of the previous day was dispensed with and it was approved.

Senator Woody: "Would Senator Walgren yield? Senator Walgren, in your practice haven't you noticed that whenever you send something by certified mail, especially from a law office or from any place of any dignity, that it is routinely not picked up?"

Senator Walgren: "That does happen, yes."

Senator Woody: "Don't you think that really by requiring it to be certified mail that we are in effect perpetrating this and causing notice not to be received by these people and then they are committing a crime if they do not turn it in within the two days?"

Senator Walgren: "No."
The motion by Senator Walgren carried and the amendment was adopted on a rising vote. The President voted "aye".

Senator Walgren moved adoption of the committee amendment adding a new section 2.

**POINT OF INQUIRY**

Senator Newschwander: "Will Senator Walgren yield to a question? I heard you say it was appropriate for this bill to have an emergency clause. I would like to ask why the emergency or why is it appropriate? Are we going to put emergency clauses on all bills or our pet bills, or why the emergency?"

Senator Walgren: "Taking your questions in reverse order; no, no, and the reason it is appropriate is because the state happens to be losing a considerable amount of money at the present time for the fact that the bad checks are coming in in connection with this matter and we are just simply losing money."

The motion by Senator Walgren carried and the amendment was adopted.

Senator Henry moved adoption of the following amendment:

On line 10, after "cases" and before the period insert ": PROVIDED, That any bona fide purchaser for value of a motor vehicle shall not be liable or responsible for any unpaid license fees and that any transfer cannot be denied to any bona fide purchaser for value if a predecessor fails to pay any license fees due the state herein".

On motion of Senator Mardesich, the following amendment to the amendment by Senator Henry was adopted:

On line 4 of the Henry amendment, after "any" and before "unpaid" insert "prior".

The motion by Senator Henry carried and the amendment, as amended, was adopted.

**POINT OF INQUIRY**

Senator Mardesich: "I wonder if Senator Walgren would yield to a question? Senator Walgren, on line 21 it says that the person shall within two days, within two days, return the document in question. I am wondering why such a short time. It would probably take me two days even to find the registration certificates for my cars and if I were to drop it in the mail, the two days would have passed prior to the time that it was received in the department, and knowing some of those people, they might just decide that if it did not arrive right on the second day, I have had it, and I am wondering if you would object to making that six days or seven days or ten days or something other than two?"

Senator Walgren: "I don't think there is any objection. It is an arbitrary figure."

Senator Mardesich: "I just wonder if two days is simply enough time, with the mail..."

Senator Walgren: "Of course, it has the additional notice requirements as far as sending out, but six days, if that is what you suggest.

Senator Mardesich moved adoption of the following amendment:

On line 21, after "within" strike "two" and insert "ten".

**POINT OF INQUIRY**

Senator Henry: "I would like to have Senator Bottiger answer this question as to the amount of notice that they have already received prior to the fact that they get this final notice."

Senator Bottiger: "Mr. President and members of the Senate, so you understand, and I am not going to get into — there is no big thing about two days or ten days or whatever — but what we are talking about is a check being written, usually for the license tabs on your car or it could be for your driver's license or something else. That check is dishonored, it goes back to the county auditor in which it was written, he is required to send you notice that your check bounced. You get one notice from the bank that they were charging you two bucks or three bucks that your check bounced. It then goes to the state. They send you a notice that they have a defaulted check, and ask you to make it payable. Then you get another notice saying 'Surrender your license or we will send a State Patrol officer out to get it.' So I would estimate that probably ninety to one
hundred days have already gone by since you got the note from the bank saying your check bounced. So whether you want to give them eight more days or not is entirely up to the will of the body, but he has received plenty of notice that he wrote a bad check.”

POINT OF INQUIRY

Senator Wilson: “Would Senator Walgren yield please? I am addressing this question to you since you handled the certified mail amendment, and my question is, do you feel that section 2 as amended means two days after a certified letter is mailed or two days after it is received at the local post office or two days after the recipient has picked it up?”

Senator Walgren: “As Senator Mardesich has indicated and I think it is clear from the language on line 23 that before there is an actual notification that there has to be a picking up of the certified mail, so I would say after it has been picked up.”

Debate ensued.

The motion by Senator Mardesich carried and the amendment was adopted.

On motion of Senator Walgren, the committee amendment to the title was adopted.

On motion of Senator Walgren, Engrossed Senate Bill No. 2080 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

PERSONAL PRIVILEGE

Senator Guess: "Mr. President, I would like to speak on a point of personal privilege with the following words of tribute:

"Mr. President, my fellow Senators: This day is the day set aside to honor the memory of one of America's great Presidents — but I would beg to pay tribute first to three of our own colleagues — great legislators who preceded me, and two of whom occupied this very seat from which I am privileged to address you today.

"My mind's eye turns first to that foreign born one who had the love and affection of every man and woman who were his colleagues — kind, gentle, perceptive, and much more — artist, student, teacher, and father confessor to the uninitiated. Truly it can be said of Ernest Lennart he embodied all of the attributes of a true statesman. Trans-ported to America at an early age, largely self educated, he had a fierce love of America equaled only by his love of Abraham Lincoln — the man we honor today. I remember yet that first Lincoln Day speech that I heard from the back row — the timbre of his voice — the pure beauty of quotations — all from memory. You strained to hear the soft-spoken, eye-misting tribute, followed by heart stirring thundered praise as Ernie delivered his speech."
"Next, I cross that imaginary line said to divide the aisle. My heart takes me back to that silver-tongued, silver-haired orator, John McCutcheon. Truly those of us privileged to serve with Senator John knew what it was to serve with a man of principle. He never had to stop to think what was right or wrong about a bill. He knew — it mattered not of which party his opponent might be. He was as quick to point out the human foibles of those over there as he was of us over here. He was a man of all heart, a keen sense of humor and a sharp parliamentarian. I am proud to have served with a man like John McCutcheon.

"And next, I want to say thanks to a colleague just recently absent from these halls. I can remember in the tribute he was giving to Ernie Lennart and he said he wanted him to smell the roses while he was still alive. A man born of Kentucky stock who inherited his love for Lincoln from his father, and his father's father before him. A man of honor and integrity. The reverence he held for "Ole Abe" was an inspiration to me. Perry Woodall knew what it meant being a Republican — he knew what a price a man paid for holding tight to principle. I am humble as I stand today on the floor where he served his fellow man so well.

"But the one we honor possessed a rare ability to express his ideas and ideals, an ability yearned for by many, yet seldom approached.

"In letters, speeches, memoranda scribbled on the back of envelopes, scraps of paper, legislative acts and state papers, Lincoln left a record of himself more fascinating than any other American ever to live. He is today deeply imbedded as a part of this nation's conscience. His keen insight into government, his perception of a man, and man's inability to govern in crisis, was summed up when he said:

'While the people retain their virtue and their vigilance, no administration, by any extreme or wickedness or folly, can very seriously injure the government'.

"He must have been faced with preparing a budget when he so ably addressed himself to the question of benefits of government. He said:

'I shall go for all sharing the privileges of government, for those who assist in bearing its burdens'.

"The key to Lincoln's power, both as a statesman and as a man of letters, stems from one source. He never stopped growing in mental or moral stature. From early maturity to death he clung to the same principles and much the same ideas — and those principles and ideas continued to grow with the man, changing not in substance but in beauty of form. As a result, Lincoln emerged as a man of fundamental creed that expressed the responsibilities, the risks and rewards of the democratic way of life.

"In whatever he wrote or said he was always unpretentiously himself — always the self-taught lawyer. He examined every proposition thoroughly, and how it related to the patterns of human behavior, and finally as a man of ethics making a choice of right and wrong.

"What are the ideas and ideals that Lincoln bequeathed to us and to humanity as the tenets of a faith in Democracy? They are five:

"First, he believed in people as the greatest resource of a nation.

"Secondly, he believed in the right of the poor man, who through honest toil, had the right to better his lot in life.

"Third, he believed in education — that regardless of color of skin, or present environment, all people possessed the capacity to live fuller, richer lives if their innate abilities were cultivated.

"Fourth, he believed that reverence for laws should become a 'political religion'.

"Finally, he believed in the liberal tradition. He was always a spokesman for freedom of thought, speech, press, assembly and religion. The essence of Lincoln, both as a man of action and a man of letters, is in these five tenets of faith. He risked his political future upon the proposition that 'The people, under providence, will set all right'. I cannot refrain from saying, would that we had such faith.

"Lincoln’s strength in statement and action was in his clear moral understanding both of himself and of his age. He never claimed that his ideas were original, nor were they. His genius rested in perceiving that though he lived in a troubled world, his generation had not invented the devil.
"As a man of letters, Lincoln was influenced by his own group of heroes. He was moved by the political philosophy of Thomas Jefferson, who believed that the earth belonged always to the living generation, and who said, 'Nothing is unchangeable but the inherent and inalienable rights of man'. Lincoln was always a staunch political supporter of Henry Clay, whose speeches were read by Simon Bolivar to his armies fighting for freedom in South America.

"In knowing Lincoln as the man behind his words, one comes finally to the Holy Scriptures as the overpowering influence. He was a strangely mystical man, this Lincoln that we honor today. Of the Bible, he said 'All things most desirable for man's welfare, here and hereafter, are to be found portrayed in the Bible'.

"America has known great scholars — Thomas Jefferson, whom I have mentioned — Woodrow Wilson — Lincoln was the master of them all. He felt neither distinguished nor wise. Without pose or pretension, he once informed a biographer, 'It is a great piece of folly to attempt to make anything out of me or my early life. It can all be condensed into a single sentence, and that sentence you will find in Gray's elegy, 'The Short and Simple Annals of the Poor', 'That's my life and that's all you or anyone else can make of it.'

"It has been my honor to pay tribute to Abraham Lincoln and to my fellow Senators who served before me, like Lincoln, left their marks on the pages of time.

"Ladies and gentlemen, I ask that you join me in a moment of silence and introspection. Let each of us pray that we might be strong enough to carry on in the spirit of Lincoln and meet the challenge of our time."

The Senate observed a moment of silence.

PERSONAL PRIVILEGE

Senator Knoblauch: "Had not Senator Guess asked us to stand in silent memory, I was going to applaud his very fine speech. I think it is a wonderful tribute to you, Senator Guess."

PERSONAL PRIVILEGE

Senator Morrison: "Mr. President and ladies and gentlemen of the Senate, I also would like to join in a very brief tribute to Abraham Lincoln on this special day. I think as a President he was most loved because of his very simple and understandable life; the very humble beginnings, the birth in a log cabin, studying by lantern or candlelight. As a businessman, going bankrupt; as a candidate for the legislature, being defeated; the personal tragedies that filled his life make him a very human human being. I think his climb to the presidency is legendary but, most important, as President and Commander in Chief he presided and prayed through those years of the war that divided us as a nation, and then brought us back together again, as perhaps before that time we had never been together.

"I often think of what Abraham Lincoln would do today with some of the problems that we face as a people and here as a legislature. I know that his guiding light was some very deep and basic beliefs that he stayed with, and I think of one particularly in which he said, 'Let us have faith that right makes might, and in that faith let us to the end dare to do our duty as we understand it'.

"I think Abraham Lincoln would be most pleased not with our pauses to remember him on this special day, but by an acceptance and a demonstration of some of the very basic things in which he believed. And I lean back to that quote, 'Let us have faith that right makes might'. Sometimes we get that backward and say that might makes right. Could we then today accept some of these basic beliefs of Abraham Lincoln and apply them, and I am sure we would be pleased both inwardly with ourselves and acceptable to the people we represent. Thank you, Mr. President."

The bill was read the second time by sections.

On motion of Senator Fleming, the rules were suspended, Senate Bill No. 2074 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Woody: "Would Senator Fleming yield? I would like you to explain this a bit more to us — why revenue warrants and revenue bond anticipation warrants are really needed by sewer districts. What has been the problem in the past and why do we need it? It may very well be a very good program but I do not understand why they have been able to go along this long without this authority and now they need it."

Senator Fleming: "Senator Woody, I will let one of the experts on sewer districts answer that question but I will take a crack at it. One of the problems is that they found
themselves sometime when they initially start to have a bond issue, to get the start-up costs, the planning and all these other kinds of things, that their construction fund is zilch, and so they have not been able to do this, but from my understanding of the testimony, some of these sewer districts were doing it and did not have the authority to do it. And so the Attorney General indicated that they had better come and get the authority because they were doing things that they did not have the authority to. I think that is the case, but I think Senator Talley can address himself to that better.”

Senator Talley: “Senator Woody, I think our chairman has very well covered it. When you start a project after it has been authorized, you have some legal fees to pay, surveys and things like that, and this allows them to do it in a legal manner. All other public service commissions do have this power now. It has been an oversight, I think, by the State Auditor’s Department.”

Senator Rasmussen: "Mr. President, I have a matter to refer to the chairman of Higher Education. I received this in the mail yesterday and it says, 'University of Washington's waste paper salvage and recycling activity is expected to increase from the present twelve and one-half tons equaling two hundred and ten trees per month to two hundred and seventy tons to four thousand five hundred and ninety trees per month.' That is going up from twelve and one-half tons to two hundred and seventy tons. Maybe the chairman of the Higher Education Committee would take this report and take the appropriate steps to investigate the matter. We must save those trees but it is much better to save them before they get turned into paper.'"

WE THINK OF THE WORDS OF JESUS IN THIS MOMENT, 'THE THINGS WHICH ARE IMPOSSIBLE WITH MEN ARE POSSIBLE WITH GOD'. YOU HAVE FURTHER TOLD US, LORD, THAT 'IF THOU CANST BELIEVE, ALL THINGS ARE POSSIBLE TO HIM THAT BELIEVETH'. AND THEN AGAIN: 'IF YE HAVE FAITH AS A GRAIN OF MUSTARD SEED, YE SHALL SAY UNTO THIS MOUNTAIN, REMOVE HENCE TO YONDER PLACE, AND IT SHALL REMOVE, AND NOTHING SHALL BE IMPOSSIBLE UNTO YOU'. HELP US NOW, DEAR LORD, TO PRACTICE THE ASTONISHING POWER OF FAITH AND PRAYER SO THAT YOUR MIRACLES CAN HAPPEN IN AND THROUGH US. THIS LEGISLATURE FACES WEIGHTY DECISIONS DURING THIS SESSION. MAY EVERY ONE HERE OPEN THEMSELVES TO YOUR POWER AND STRENGTH SO THAT THE ALMOST UNBELIEVABLE RESULTS THAT JESUS PROMISED MIGHT BE A PART OF THEIR LIVES AND WORK. WE THANK YOU FOR YOUR LOVING INTEREST. CAST OUT OUR FEARS AND OUR DOUBTS AS WE EMBRACE THE ASTONISHING POWER OF FAITH AND PRAYER. THROUGH JESUS CHRIST OUR LORD. AMEN.”

SENATE BILL NO. 2242, by Senators Henry and Marsh:
Changing membership of Columbia River Gorge Commission, defining its duties, and describing area of the commission's jurisdiction.

REPORT OF STANDING COMMITTEE

February 3, 1975.

SENATE BILL NO. 2242, changing membership of Columbia River Gorge Commission, defining its duties, and describing area of the commission's jurisdiction (reported by Committee on State Government):
MAJORITY recommendation: Do pass with the following amendments:
On page 2, line 15, after "plan" and before "be" strike "shall" and insert "may then":
THIRTY-SECOND DAY, FEBRUARY 13, 1975 303

On page 3, line 32, after "and" and before "expenses" strike "substance" and insert "subsistence".
On page 4, line 7, after "services" and before "as" insert "from its existing personnel".

Signed by: Senators Rasmussen, Chairman; Buffington, Cunningham, Henry, Knoblauch, Wanamaker.

The bill was read the second time by sections.
On motion of Senator Rasmussen, the committee amendments were adopted.
On motion of Senator Henry, the following amendment was adopted:
On page 3, line 13, change "3" to "2".
Senator Henry moved adoption of the following amendment:
On page 3, starting with line 22, strike all language through line 28 and insert the following:
"The legislature further declares that all agencies of state and local government, shall, in their planning and management, give full consideration to the environmental protection and economic utilization of the Columbia River Gorge, and the best interests of the state and people in general, in conformity with the plan to be prepared pursuant to section 2 of this 1975 amendatory act."

POINT OF INQUIRY
Senator Lewis (Harry); "Would Senator Henry yield? Senator Henry, I do not really understand what the amendment does or the original language of the bill. Does it mean that agencies of state government are committed now to consideration of what plan would be adopted by the commission?"
Senator Henry: "Right. There was a meeting of practically all state agencies involved with the Governor's overseeing the thing and this is what they agreed that they would be able to draw expertise from the various state agencies; Department of Natural Resources, Fisheries, and so forth."
The motion by Senator Henry carried and the amendment was adopted.
On motion of Senator Henry, the following amendment was adopted:
On page 9, line 8 change "3" to "2".
On motion of Senator Henry, the rules were suspended, Engrossed Senate Bill No. 2242 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY
Senator Francis: "Will Senator Henry yield? Senator Henry, I maybe did not follow everything you were saying, although I tried, but I am trying to understand. Part of the thrust of this seems to be to change the direction of the purpose of the commission, which on line 29, the part that is stricken, said it was for protecting the recreational, scenic and historic areas. Now it says the scenic, historical and geological qualities of the gorge. We have taken recreational out of there, I guess, and I am just wondering, have we done that, and if so, why?"
Senator Henry: "No, it does not, and on page 3, section 4, I would guess about the lines 16 through 22 retains -- they are all spelled out very definitely what the advisory commission is going to work on. There are six points, I think, there."

ROLL CALL
The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2242, and the bill passed the Senate by the following vote: Yeas, 46; absent or not voting, 1; excused, 2.
Absent or not voting: Senator Bluechel—1.

ENGROSSED SENATE BILL NO. 2242, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

Proposing constitutional amendment permitting aid to students attending both public and private post-secondary institutions of higher education.

The resolution was read the second time in full.

Senator Scott moved adoption of the following amendment:

On page 2, line 13, after "attending" and before "public" insert "accredited".

Debate ensued.

There being no objection, the amendment by Senator Scott was withdrawn.

Debate ensued.

MOTION

Senator Fleming moved that Senate Joint Resolution No. 110 be held on the third reading calendar for Friday, February 14, 1975.

Debate ensued.

POINT OF ORDER

Senator Mardesich: "Mr. President, simply to speed up the process, the question is not the issue before us but the question of holding over."

RULING BY THE PRESIDENT

The President: "Senator Mardesich's point of order is well taken. The question before the Senate is the motion by Senator Fleming that Senate Joint Resolution No. 110 hold its place on second reading calendar for tomorrow."

Senator Sandison demanded a roll call and the demand was sustained by Senators Lewis (Harry), Bailey, Beck, Day, Talley, von Reichbauer, Van Hollebeke, Sellar and Stortini.

Debate ensued.

The President declared the question before the Senate to be the motion by Senator Fleming that Senate Joint Resolution No. 110 be held for the third reading calendar on Friday, February 14, 1974.

ROLL CALL

The Secretary called the roll and the motion by Senator Fleming failed by the following vote: Yeas, 16; nays, 30; absent or not voting, 1; excused, 2.

Voting yea: Senators Bottiger, Buffington, Fleming, Francis, Grant, Jones, Lewis (Harry), McDermott, Murray, Pullen, Ridder, Scott, Sellar, Walgren, Wanamaker, Wilson—16.

Absent or not voting: Senator Henry—1.

The President declared the question before the Senate to be the roll call on final passage of Senate Joint Resolution No. 110. Debate ensued.

MOTION
On motion of Senator Wanamaker, Senator Buffington was excused.

POINT OF INQUIRY
Senator Rasmussen: "Would Senator Francis yield to a question? Senator Francis, as I read new section, section 6 'notwithstanding the provisions of Article 1, section 2, Article IX, section 4, Article XIII, section 5, or any other section or article of the Constitution of the State of Washington' — now my question, Senator Francis, are we permitted to amend without specifically amending just one article of the Constitution or are we allowed, under our Constitution, to do as this proposed resolution says, amend several sections of the Constitution at one time?"

Senator Francis: "Senator Rasmussen, I am probably not your best expert, but I think it is a proper and appropriate function of the legislature to pass a constitutional amendment which modifies previous constitutional provisions without outright repealing them, and it could modify more than one section which is what this one purports to do. I may be wrong, but I personally do not see anything defective about the way this thing is drafted."

Senator Rasmussen: "Thank you. Time will tell."

Senator Bottiger: "Mr. President and members of the Senate, I think it is interesting, Senator Rasmussen, that one of the amendments that causes us the most problems in this state, the Seventeenth Amendment, starts out 'notwithstanding any other provision in this Constitution.' So I think that question has been answered. You can do what we are doing here. If anything, that is better than just saying 'notwithstanding anything else.'"

ROLL CALL
The Secretary called the roll on the final passage of Senate Joint Resolution No. 110, and the resolution passed the Senate by the following vote: Yeas, 38; nays, 3; excused, 3.

Excused: Senators Buffington, Guess, Lewis (R. H. "Bob")—3.

SENATE JOINT RESOLUTION NO. 110, having received the constitutional two-thirds majority, was declared passed.

MOTION
On motion of Senator Sandison, Senate Joint Resolution No. 110 was ordered immediately transmitted to the House.

APPOINTMENT OF SPECIAL COMMITTEE
The President announced the presence in the Senate Chamber of former State Senator John H. Stender who is presently Assistant Secretary of Labor for Occupational Safety and Health for the United States and appointed Senators Ridder, Matson, Lewis (Harry) and Stortini to escort the Honorable John H. Stender to the rostrum.

Senator Harry Lewis introduced the distinguished guest and with permission of the Senate, business was suspended to permit the honored guest to address the Senate.

The special committee escorted the Honorable John H. Stender from the Senate Chamber and the committee was discharged.
SECOND READING

HOUSE BILL NO. 100, by Representatives Luders, Newhouse, Charette, Pardini, Martinis, Kilbury, Berentson, Ceccarelli, Hansey, Laughlin, Wilson and Matthews:
Providing for bond financing of pollution control and industrial development.
The bill was read the second time by sections.
On motion of Senator Murray, the rules were suspended, House Bill No. 100 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.
Debate ensued.

POINT OF INQUIRY

Senator Washington: "Would Senator Murray yield to a question? Senator Murray, as you know, in the committee itself I was concerned about several factors in the bill. I was concerned particularly about the words 'other industrial development' which appeared on lines 8, 13, and 14 in section 5 of the bill and the words 'indirectly relating to pollution control facilities' appearing on line 13 of section 5. I want to be sure that these words will not broaden the coverage of the 1973 law. Now so that legislative intent may be put in the record, I ask the following specific question, is it intended that House Bill No. 100 in any way expands the definition of facility or facilities as set forth in RCW 70.95A.020 to include facilities which cannot now be financed by tax free revenue bonds under the provisions of Chapter 132 of the Laws of 1973?"

Senator Murray: "No."

MOTION

Senator Bailey moved that House Bill No. 100 be held at the beginning of the third reading calendar for Friday, February 14, 1975.
Debate ensued.
The motion by Senator Bailey carried. House Bill No. 100 was ordered placed at the beginning of the third reading calendar for Friday, February 14, 1975.

MOTION

At 12:30 p.m., on motion of Senator Mardesich, the Senate adjourned until 11:00 a.m., Friday, February 14, 1975.

JOHN A. CHERBERG, President of the Senate.

SIDNEY R. SNYDER, Secretary of the Senate.
THIRTY-THIRD DAY

MORNING SESSION

Senate Chamber, Olympia, Friday, February 14, 1975.

The Senate was called to order at 11:00 a.m., by President Pro Tempore Henry. The Secretary called the roll and announced to the President Pro Tempore that all Senators were present.

The Color Guard, consisting of Pages Mary Webb and John Mardesich, presented the Colors. Reverend Glen D. Cole, pastor of Evergreen Christian Center of Olympia, offered the following prayer:

“OUR HEAVENLY FATHER, IN A DAY WHEN HATE AND TROUBLE SEEM TO DOMINATE IN SO MANY AREAS, WE THANK YOU FOR THIS DAY WHEN THE GREAT GIFT OF LOVE IS EMPHASIZED. HELP US, LORD, TO LOVE YOU, EVEN AS THE FIRST COMMANDMENT SUGGESTS, THEN TO LOVE OUR NEIGHBORS AS WE LOVE OURSELVES. WE REMEMBER THE WORDS OF THAT GREAT LOVE CHAPTER IN THE BIBLE TODAY; ‘LOVE ENDURES LONG AND IS KIND; LOVE IS NOT JEALOUS; LOVE IS NOT OUT FOR DISPLAY; IT IS NOT CONCEITED OR UNMANNERLY; IT IS NEITHER SELF-SEEKING NOR IRRITABLE, NOR DOES IT TAKE ACCOUNT OF A WRONG THAT IS SUFFERED. IT TAKES NO PLEASURE IN INJUSTICE BUT SIDES HAPPILY WITH TRUTH. IT BEARS EVERYTHING IN SILENCE, HAS UNQUENCHABLE FAITH, HOPES UNDER ALL CIRCUMSTANCES, EN-DURES WITHOUT LIMIT. LOVE NEVER FAILS’. "O GOD, GIVE US YOUR LOVE TODAY THAT WE MAY SEE THE Ful-FILLMENT OF THIS GREAT PASSAGE. NOT ONLY IN OUR LIVES AND IN OUR RELATIONSHIPS, BUT THROUGHOUT THE WORLD. IN THE NAME OF CHRIST OUR LORD. AMEN.”

SENATE RESOLUTION 1975-12

By Senators Bailey and Mardesich.

BE IT RESOLVED, That Rule 56 of the Senate Rules of the Regular Session of the Forty-fourth Legislature be amended to read as follows:

"INTRODUCTION OF BILLS

RULE 56. All bills, joint resolutions and joint memorials introduced shall be endorsed with a statement of the title and the name of the member introducing the same. Not more than three senators may sponsor a bill, except committee bills which shall be in accordance with the joint rules of the senate and house: PROVIDED, HOWEVER, That any member desiring to introduce a bill, joint resolution or joint memorial shall file the same with the secretary of the senate by three o’clock in the afternoon of the day before the convening of the session at which said bill, joint resolution or joint memorial is to be introduced: PROVIDED FURTHER, That [on the thirty-fifth legislative day of the session the filing with the secretary of the senate will be extended to five o’clock in the evening; and that no bill, joint resolution or joint memorial is to be introduced which has not been in the hands of the secretary at the time above stated] all bills to be considered by the senate during the regular session shall be on the request list of the code reviser by 12:00 noon the 38th day and shall be read in on the fifth order of business no later than the fortieth legislative day.

After the [thirty-sixth]) fortieth day of the session no bill shall be introduced, except as the legislature shall direct by a vote of two-thirds of all the members elected to each house, said vote to be taken by yeas and nays and entered upon the journal, or unless the same be at a special session: PROVIDED, That the time limitation for introduction of bills shall not apply to substitute bills reported by standing committees for bills pending before such committees and general appropriation and revenue bills.

Members and members-elect to the senate may prefile bills with the secretary of the senate on any day commencing with the first Monday in December preceding any session year; or twenty days prior to any extraordinary session of the legislature. Such bills will be printed, distributed and prepared for introduction on the first legislative day: PROVIDED, HOWEVER, That no bill, joint memorial or joint resolution shall be filed by title and/or preamble only. (See also Rule 4)."

Debate ensued.

The motion by Senator Mardesich carried and the resolution was adopted.

MOTION

On motion of Senator Mardesich, the Senate returned to the fifth order of business.

INTRODUCTION AND FIRST READING

SENATE CONCURRENT RESOLUTION NO. 105, by Senators Bailey and Mardesich:

Adopting the Joint Rules of the Washington State Legislature.

On motion of Senator Mardesich, the rules were suspended and Senate Concurrent Resolution No. 105 was read the second time in full.

Senator Morrison moved adoption of the following amendment:

Amend Rule 26 by adding the following paragraph after paragraph three:

"Commencing with prefiling for the forty-fifth session of the legislature, provision may be made for dual sponsorship of bills, memorials, and resolutions, as directed by joint action of the rules committees of both houses. Such direction may include joint rules to encourage dual sponsorship and provide for a compatible bill numbering system."

Debate ensued.
THIRTY-THIRD DAY, FEBRUARY 14, 1975

POINT OF INQUIRY

Senator Bailey: "Would Senator Morrison yield? It is understood strictly that this is only a suggestion? It does not have to be conformed with?"

Senator Morrison: "Yes, that is correct. The language is that the provision may be made for the '77 session, depending upon action of the Joint Rules Committee. I think it is just an attempt — we are willing to look at some modification of the process. If, in fact, it is beneficial to all parties, then the Rules Committee would have the authority given to them now to adopt this proposal so it would fit for a prefiling for the Forty-fifth Session of the Legislature."

Senator Bailey: "With the idea that it is only a direction and not an order, I would support the amendment. However, the amendment to the Rules, I want to point out, Senator, that we did consider this at length two years ago and we ended up finding ourselves in joint sponsorship of bills that split up to the point that when a Senator introduced a bill he had to go to the House and find a House member to introduce the bill. And then the question was which committee it went to. Is the House going to tell the Senate where to refer the bill or is the Senate going to tell the House where to refer the bill? There is not much gained if we are going to different committees. The other thing, we have a book on House bills; we have a book on Senate bills. Are we going to have a third book on joint bills? There are so many technicalities here. As I say, I will go along with your proposal but it is not something that is entirely new to us. Probably the newest thing would be if you would come out and recommend a unicameral legislature. Then you would be talking about what you are getting at right now. We are glad to have you over here, but we do not want you to revolutionize the whole Senate overnight."

The motion by Senator Morrison carried and the amendment was adopted.

Senator Washington moved adoption of the following amendment by Senators Washington, von Reichbauer, Grant, Wilson, Knoblauch, Goltz and McDermott:

Amend Joint Rule 35 by adding the following:

"All meetings of any Conference or Free Conference Committee shall be open to the public; and at least one hour prior to the convening of any such meeting, notice thereof setting forth the time, place and subject matter of the meeting shall be posted in the Chamber of each house."

Debate ensued.

On motion of Senator Washington, the following oral amendment to the amendment was adopted:

After "Rule" and before "by" strike "35" and insert "33".

Senator Washington demanded a roll call on the amendment, as amended, and the demand was sustained by Senators von Reichbauer, Bailey, McDermott, Wilson, Goltz, Stortini, Beck, Ridder and Francis.

The Secretary called the roll and the motion by Senator Washington failed and the amendment, as amended, was not adopted by the following vote: Yeas, 13, nays, 36.

PERSONAL PRIVILEGE

Senator Mardesich: "I ordinarily would not rise to do this, but I feel it is necessary to protect the interests of every member of the Senate. It seems to me that the speech that Senator McDermott gave sounded very much like an announcement speech. I wondered if he has considered all the provisions of Initiative 276 prior to making that speech."

Senator McDermott: "I am familiar with Initiative 276."

EXPLANATION OF FAILURE TO VOTE

SENATE JOINT RESOLUTION NO. 110

Be it known that Senator Nancy Buffington elicited an excused absence for the Senate vote on Senate Joint Resolution No. 110, February 13, 1975.

Reason for the excused absence resulted in a short conference with Honorable Daniel J. Evans, Governor of the State of Washington. While awaiting the roll call on Senate Joint Resolution No. 110, it became imminent after delaying the Governor for some five minutes, that further discussion would ensue regarding Senate Joint Resolution No. 110. Thus, while honestly intending to return to the floor for the vote, it was to no avail.

For all intents and purposes, as a signed sponsor for Senate Joint Resolution No. 110, my vote would have been "aye".

(Signed) SENATOR NANCY BUFFINGTON.

MOTION

On motion of Senator Lewis (R. H. "Bob"), Senator Murray was excused.

SECOND READING

SENATE BILL NO. 2250, by Senators Francis and Clarke:

Making state laws and rules and regulations presently applicable to cities of 500,000 or more applicable to cities of 400,000 or more.

The bill was read the second time by sections.

Senator Newschwander moved adoption of the following amendment:

On page 5, strike all of section 7.

Renumber the remaining section consecutively.

Debate ensued.

The motion by Senator Newschwander carried and the amendment was adopted.

On motion of Senator Newschwander, the following amendment to the title was adopted:

On page 1, line 10 of the title, after "RCW" and before the period strike "; and declaring an emergency"

On motion of Senator Clarke, Engrossed Senate Bill No. 2250 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Wilson: "Would Senator Clarke yield to a question? This bill changes nothing in cities of populations under four hundred thousand?"

Senator Clarke: "No, Senator, it is quite certain, actually, that it applies only to the City of Seattle."
THIRTY-THIRD DAY, FEBRUARY 14, 1975

POINT OF INQUIRY

Senator Rasmussen: "Will Senator Clarke yield to a question? Senator Clarke, could you tell us, are they turning the lights out one by one or in groups?"

Senator Clarke: "Well, when we get down below five hundred thousand we will start turning them out one by one."

Senator Rasmussen: "And the second question, Senator Clarke, is this out-migration caused by Spellman's domed or undomed stadium?"

Senator Clarke: "One thing that is holding it down is some dragging of the feet in certain instances with respect to a little thing called I-90."

Debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2250, and the bill passed the Senate by the following vote: Yeas, 48; excused, 1.

Excused: Senator Murray—1.

ENGROSSED SENATE BILL NO. 2250, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SENATE BILL NO. 2116, by Senators Newschwander, Washington and von Reichbauer:

Providing for recovery of certain leave benefits upon returning to employment with school districts.

REPORT OF STANDING COMMITTEE

February 4, 1975.

SENATE BILL NO. 2116, providing for recovery of certain leave benefits upon returning to employment with school districts (reported by Committee on Education):

MAJORITY recommendation: Do pass with the following amendments:

On page 2, line 26, strike "(3)" and insert "(g)".

On page 2, line 28, before "When" insert "(3)".

Signed by: Senators Stortini, Chairman; Gould, McDermott, Murray, Newschwander, von Reichbauer.

The bill was read the second time by sections.

On motion of Senator Stortini, the committee amendments were considered and adopted simultaneously.

On motion of Senator Stortini, the rules were suspended, Engrossed Senate Bill No. 2116 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Grant: "Would Senator Newschwander yield to a question? Senator Newschwander, I am not clear. Does this provision also apply to classified employees in school districts as well as certificated employees?"

Senator Newschwander: "No, sir."
POINT OF INQUIRY

Senator Rasmussen: "Would Senator Newschwander yield? It is not clear to me in paragraph 8, Senator, 'leave accumulated by a person in the district prior to leaving said district.' Now it does not say for what reason they leave. Is it possible for a person to quit and then come back and then be credited?"

Senator Newschwander: "Most people quit when they take a few years off. They do not sign a contract. They can leave for any reason, but when they do come back, if they come back, then they would still be credited with the sick leave they did not take."

Senator Rasmussen: "That is a rather unusual provision in most labor contracts. Your purpose is very commendable, but I am not so sure that that is what you. . . ."

Senator Newschwander: "Most districts do reinstate it and some of them are negotiated and some of the boards just automatically do it. There are just a few boards that do not do it."

Senator Rasmussen: "I can understand when they leave temporarily on a leave granted, but when they quit, usually when you come back you have to earn that leave again in any labor force that I know of, so. . . ."

Senator Newschwander: "You run into another problem then in that you are going to have people that know they are leaving at the end of the school year and they have ten or twelve days coming; they are going to take those ten or twelve days if they know they are not going to get it if they come back in a few years."

WE THANK YOU FOR THOSE LEADERS AND CELEBRATE OUR PRIVILEGE OF HAVING BEEN THUS LED. WE THANK YOU FOR A LAND WITH DEMOCRATIC PRINCIPLES AND HIGH IDEALS. WE PRAY FORGIVENESS FOR EVERY ACT OF OURS WHICH HOLDS BACK THE FULFILLMENT OF OUR FOUNDERS’ DREAMS. WE PRAY FORGIVENESS FOR OUR SOMETIMES RIGID DEFENSE OF LIMITED UNDERSTANDING AND FOR THE SELFISHNESS WHICH ON OCCASION SLOWS THE PACE OF JUSTICE. APPOINTMENT OF SPECIAL COMMITTEE

President Pro Tempore Henry announced the presence in the office of the Lieutenant Governor, His Eminence Timothy Cardinal Manning and other guests and appointed Senators Cunningham, Mardesich, Grant and North to escort the honored guests to the Senate rostrum.

REMARKS BY PRESIDENT PRO TEMPORE HENRY

President Pro Tempore Henry: “Ladies and gentlemen of the Senate, it is my pleasure today to introduce some very distinguished guests. We have our Speaker Pro Temp of the House, John O’Brien; Father Treacy, who has been here with us many times be-
fore; the the Acting Governor of the State of Washington, John Cherberg; we have the assistant chaplain of Fort Lewis Renard Beaver; we have with us the Reverend Monsignor Clement Connolly of the Los Angeles Chancery; and our special guest today was born in County Cork, Ireland in 1909. He arrived in the United States in 1928. He studied for the priesthood in California, obtained his priesthood in June of 1934, pursued his graduate studies in Rome. He was consecrated the Auxiliary Bishop of Los Angeles on the 15th of October, 1946, appointed the Bishop of Fresno in October of '67, became the Archbishop of Los Angeles the 21st of January of 1970. He was elevated to the College of Cardinals and made Prince of the Church by His Holiness Pope Paul VI on the 5th of March, 1973. May I present to you His Eminence Timothy Cardinal Manning, Archbishop of Los Angeles. Cardinal Manning.”

REMARKS BY CARDINAL MANNING

Cardinal Manning: “Just a few weeks ago I was officiating at a church in Los Angeles and I had all my ecclesiastical robes on me, and as I was coming out there was a little youngster with his mother and when he saw me his eyes widened and he looked up at me and he said, ‘Are you real?’ I said, ‘Yes, do you want to come over and pinch me?’ And he did to be sure that I was real. I think that being a cardinal is probably one of the strange things one has to explain in the world today. There are ten of us in captivity in the United States, two on the west coast here and one in Chicago, St. Louis, Detroit, and the rest are on the east coast. And our position really boils down to a Senate of advisors to the Pope in the government of the Church and also the privilege of electing the successor to the Pope when he dies or resigns. I have not had that experience yet.

“We are very, very honored to have this opportunity of being in your presence today. In a long public life I have had many, many experiences in various parts of the world but this is the first time that I have ever had the joy and the privilege of appearing before a legislative body and we are grateful to those who arranged this and invited us, and we look with tremendous reverence on a body such as yours. I think that more and more in our country we must restore again the ancient and abiding respect which we have for the law and for its makers and for those who put it into execution, because there is a sanctity that no theory of church and separation of church and state can separate the reverence and the awe that must surround a legislator and the commitment which he has to follow justice and follow truth in the interests of peace. So that it is with a great sense of respect that I stand here before you and ask Almighty God, our Heavenly Father, to bless you and to guide you in all your judgments. Thank you.”

The committee of honor escorted the distinguished guests to the office of the Lieutenant Governor and the committee was discharged.

POINT OF INQUIRY

Senator Woody: "Would Senator Guess yield? Senator Guess, I was looking through this over the past several days and I have made several marks here and I understand that it is not proposed that there be any substantive changes in current law. Is that correct?"

Senator Guess: "That is correct."

Senator Woody: "If you would look at page 7 and explain this to me, Senator Guess. That relates to the hit and run and it adds 'or damage to other property' on line 21. The question that arises in my mind, is, who is the person supposed to give notice to as to damage other than to a vehicle?"

Senator Guess: "If it is at all possible, Senator, the man should, if he hits a house, for instance, he would not want to run off and leave the scene of the accident without informing the person who owns the house. If it is impossible for him to do so, then by writing a note to the individual and placing it on the property in a prominent place, I think it would serve the purpose."

Senator Woody: "The usual incidents that I have come across is hitting a power or telephone pole and there is a difference, of course, between power and telephone poles, and I always notify the wrong person on behalf of my clients. Who do you notify if you hit a telephone pole?"

Senator Guess: "When you file your accident report at the court house or at the city hall you can inform the proper authorities there and they will cooperate with you in finding the proper utility which to locate."

Senator Woody: "It is your statement then that it was the legislative intent of the Transportation Committee that the notification required be made within twenty-four hours to the police authority is sufficient notice?"

Senator Guess: "It is sufficient notice when you cannot locate the person whose property it is immediately."

Senator Woody: "As I understand it, Senator Guess, on page 25 of the bill, new section 44, we all understand what driving while under the influence is, but I understand that this new section does apply something of substantive nature, and I suppose this is a pedestrian under the influence."

Senator Guess: "Senator, would you give me that citation again?"

Senator Woody: "Page 25, starting line 32, which is new section 44. Basically, it is the intent that a pedestrian who is under the influence cannot use the road, and so that is what a pedestrian while under the influence."

Senator Guess: "That is correct."

Senator Woody: "I think Senator Mardesich raised this question before, on page 26, line 14, what is meant by a duly authorized temporary driveway?"

Senator Guess: "We have discussed this in committee and we learned that there are times during which construction is going on and a temporary driveway has to be created across the sidewalk, and this is a duly authorized temporary driveway when the building permit includes it, Senator. And you go down to the city hall to get a building permit to change your driveways or when the city is doing it, then they designate the temporary driveway and it is under this condition that we find the thing coming up."

Senator Woody: "Thank you, Senator Guess."

SENATE BILL NO. 2182, by Senator Woody:

Revising law on jury fees.

REPORT OF STANDING COMMITTEE

February 7, 1975.

SENATE BILL NO. 2182, revising law on jury fees (reported by Judiciary Committee):

MAJORITY recommendation: Do pass with the following amendments:
On page 1, line 20, after "dollars." add a new subsection to read as follows:

"(4) For preparing an abstract of judgment or verdict and transmitting such ab-
strict to the clerk of any other court, and for preparing and transmitting a certification that the lien of the judgment has ceased, a total fee of four dollars, to be collected from the party requesting the abstract of judgment or verdict, at the time the abstract is requested."

On motion of Senator Francis, the rules were suspended, Engrossed Senate Bill No. 2182 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Woody: "Would Senator Francis yield? Senator Francis, for legislative intent purposes, it was the intent of the Judiciary Committee that the jury fee be not refundable in that this particular Senate Bill No. 2182 if enacted into law would supersede any current court rules. Is that correct?"

Senator Francis: "That is correct, Senator Woody, and I might add in further response to that that there have been proposals to raise the fee for demanding a jury to a very high figure in order to help pay for that, and we felt that it was a better way to go to try to keep the fee at the same level to reduce all the paper work involved in refunding the approximately four-fifths of all of the jury fees that are now filed in the state and just let them go ahead and make the people that actually demand a jury pay in that way for a little more of their share of the jury system, and we thought that it would be less of a deterrent and we thought that raising the fees would tend to take away the opportunity to have a jury and this way was a better way to go on that."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2182, and the bill passed the Senate by the following vote: Yeas, 44; excused, 5.

ENGROSSED SENATE BILL NO. 2182, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MAJORITY recommendation: Do pass with the following amendment:

On motion of Senator Francis, the rules were suspended, Engrossed Senate Bill No. 2170 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Bottiger: "Would Senator Francis yield to a question? Senator Francis, so that we do not do the same thing to the horse rustling statute that the courts have interpreted we did to the car thieving statute, I understand it is two separate crimes; one, to steal a horse not covered by this section, but this statute is restricted to untying and sheooing away the horse or a team of another and it would be a lesser crime than horse stealing or rustling. Is that correct?"

Senator Francis: "Senator Bottiger, I do not know about that. We had not addressed ourselves to it and we did not have the information before us in the committee. This is the reason that we left this statute intact, because we had not known of any problems. I would say that it was certainly the intent of the committee that we not have two statutes, one a felony and one a misdemeanor, with regard to horses. And it was the intent of the committee that this one only deal with what you have described."

ROLL CALL
The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2215 and the bill passed the Senate by the following vote: Yeas, 45; excused, 4.
Voting yea: Senators Bailey, Beck, Benitz, Bluechel, Bottiger, Buffington, Clarke,

ENGROSSED SENATE BILL NO. 2215, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SENATE BILL NO. 2088, by Senators Talley and Peterson:
Requiring license for smelt dealers.

On motion of Senator Peterson, Substitute Senate Bill No. 2088 was substituted for Senate Bill No. 2088 and the substitute bill was placed on second reading and read the second time in full.

Senator Marsh moved adoption of the following amendment:
On page 2, lines 6 and 7, after "RCW 75.28.085" and before the period strike "or owners licensed pursuant to RCW 75.28.095".

Debate ensued.

Following remarks by Senator Talley, Senator Talley moved that the amendment by Senator Marsh be laid upon the table.

POINT OF ORDER

Senator Marsh: "Mr. President, he cannot do that after making a speech.

RULING BY PRESIDENT PRO TEMPORE HENRY

President Pro Tempore Henry: "Your point of order is well taken."

POINT OF ORDER

Senator Marsh: "There has been no intervening business.

RULING BY PRESIDENT PRO TEMPORE HENRY

President Pro Tempore Henry: "Your point is well taken."

POINT OF INQUIRY

Senator Bailey: "Senator Marsh, have you taken this up at all to discover what effect it would have on anyone—who it would affect?"

Senator Marsh: "Yes, Senator Bailey, I very carefully checked the statute and I found that there is only a fifty dollar charter boat license fee charged now and it seemed to me that to require them to pay an additional ten dollar smelt license would not be onerous. Furthermore, as Senator Talley says, this affects very few people because this is only the Columbia River and he says not too many people come up the Columbia River. Now if that is a fact then there is really no problem and I really think it is a good amendment and ought to be adopted and I think they can afford to pay the ten dollars in the commercial business of charter boat operating."

Senator Bailey: "Mr. President, I more or less agree with Senator Marsh except I think we should know what we are doing rather than guess at what we are doing; and I would really think that the charter boats in my area would not bother to go up the Columbia River to fish for smelt because it would be cheaper for you, instead of paying twenty dollars to fish for smelt, to go down there and put a net off the bank yourself. But I would like to really know the financial impact of this and the implications that I have or some other group of which I do not know and, as I say I do not think it bothers my people at all, but I just do not think we ought to vote on these things unless they have been looked into. That is the problem."

Debate ensued.
MOTION

Senator Talley moved that the amendment by Senator Marsh be laid upon the table.

POINT OF ORDER

Senator Marsh: "I raise the point of order. I did not hear anyone make a motion to table before making a speech and I think a speech was made, then the motion was made, and I insist on the point of order."

RULING BY PRESIDENT PRO TEMPORE HENRY

President Pro Tempore Henry: "You can insist, Senator, but you are out of order. Senator Talley's motion prevails."

President Pro Tempore Henry declared the question before the Senate to be the motion by Senator Talley that the amendment by Senator Marsh be laid upon the table. The motion by Senator Talley carried on a rising vote and the amendment by Senator Marsh was laid upon the table.

Senator Marsh moved adoption of the following amendment:

On page 2, line 30, following section 4, add a new section to read as follows:

"NEW SECTION. Sec. 5. (1) Every person who shall unlawfully harvest food fish or shellfish from the waters of the state of Washington and who has disposed of such food fish or shellfish prior to apprehension for such unlawful harvest shall be liable to the state in treble the value of the food fish or shellfish so harvested together with all court costs for such recovery, to be recovered in a civil action by the department of fisheries, and shall forfeit to the state all interest in any fishery product produced by said food fish or shellfish.

(2) In a civil action brought pursuant to subsection (1) of this section, proof that food fish or shellfish were taken unlawfully shall constitute prima facie evidence that the entire catch of which the unlawfully taken fish were a part was unlawfully taken and therefore subject the entire value of such catch to the treble damage provision."

Debate ensued.

The motion by Senator Marsh failed and the amendment was not adopted.

On motion of Senator Peterson, Substitute Senate Bill No. 2085 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Bottiger: "I wonder if Senator Peterson would yield to a question? Senator Peterson, the question that Senator Marsh brought up about the charter boat operators. Does this bill provide that if I have a charter boat license that I automatically then have a smelt license?"

Senator Peterson: "I think Senator Talley could probably address himself to that better than I could. The way I interpreted the bill it was strictly a problem that he has encountered on the Columbia River in his district and I do not think that the charter boat issue was even considered to be a problem."

Senator Talley: "Senator Bottiger, I do not think it does involve—there was no testimony to that effect at all. It provides for a two hundred dollar license for a man and his boat and a ten dollar license for anybody that helps him on that boat or dips smelt from the bank or the boat."

Senator Bottiger: "Senator Talley, Senator Marsh brought this matter up with his first amendment where he seeks to strike the reference to charter boat operators and he has given me here a xerox of the statute that says that you can get a charter boat license for fifty dollars. Now in the bill that we have before us it would appear that if you have one of those licenses you do not need a smelt license."

Senator Talley: "If you have a commercial license you still have to have a smelt license. That is in addition to any other fish license you have."

Senator Bottiger: "I am referring to page 2, line 6 and 7, which Senator Marsh has me convinced that that is not the case the way the bill is drafted."
Senator Talley: "I do not think so but if it is wrong we will research it and the House can correct it and we will be very glad to go along with it."

MOTION

On motion of Senator Bottiger, Substitute Senate Bill No. 2088 was ordered placed on the third reading calendar for Tuesday, February 18, 1975.

SECOND READING

SENATE BILL NO. 2385, by Senators Rasmussen, Sandison and Peterson:
Making certain changes in the laws relating to the Yacolt burn.
The bill was read the second time by sections.
On motion of Senator Lewis (Harry), the following amendment by Senators Lewis (Harry) and Mardesich was adopted:
On page 1, line 9, after "located in" strike "this" and insert "[this] the and after "area" insert "described in RCW 76.14.020".
On motion of Senator Peterson, the rules were suspended, Engrossed Senate Bill No. 2385 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

MOTION

Senator Lewis (Harry) moved that Engrossed Senate Bill No. 2385 be placed at the end of the second reading calendar, on third reading, for further consideration today.
Senator Guess moved that the motion by Senator Lewis (Harry) be amended to place Engrossed Senate Bill No. 2385 at the end of today's third reading calendar.
Debate ensued.
The motion by Senator Lewis (Harry) carried. Engrossed Senate Bill No. 2385 was placed at the end of today's second reading calendar on third reading.

SECOND READING

SENATE BILL NO. 2203, by Senators Peterson, Rasmussen and Lewis (Harry):
Requiring revocation of hunting license on conviction for certain violations against the game code.

REPORT OF STANDING COMMITTEE

January 30, 1975.

SENATE BILL NO. 2203, requiring revocation of hunting license on conviction for certain violations against the game code (reported by Committee on Natural Resources):

MAJORITY recommendation: Do pass with the following amendments:
On line 10, after "caribou" and before "or" insert "bear"
Signed by: Senators Peterson, Chairman; Beck, Bluechel, Grant, Pullen, Rasmussen, Sandison.
The bill was read the second time by sections.
On motion of Senator Peterson, the committee amendment was adopted.
Senator Pullen moved adoption of the following amendment:
On page 1, line 9, after "antelope," and before "mountain goat" insert "cougar,"

POINT OF INQUIRY

Senator Woody: "Would Senator Peterson yield? I do not recall, Senator, one way or the other. Is there a season on cougars right now?"
Senator Peterson: "Yes, there is now. There did not use to be."
Senator Woody: "Is it an endangered species, by chance?"
Senator Peterson: "It is not endangered yet. It is still on season."
Senator Woody: "Was there any discussion in committee about the insertion of cougar?"

Senator Peterson: "No, actually, there was not. We felt that we pretty well included — this bill is not new to the Senate. We passed this bill through this body, I think, on two different occasions with the five year restriction on licenses and it went to the House and then in the House's judgment they sent it back in a modified form with a two year restriction, and really the amendments that are being proposed here today are just to broaden the scope to include more, in fact we think now, all of the big game species in the state."

Senator Woody: "From the testimony that you received in committee and as chairman, would you approve or disapprove of the insertion of cougar within this bill?"

Senator Peterson: "I have no personal objection to it. It was not brought up as a committee matter but I do not think that the committee would have objected to it had it been proposed in committee."

The motion by Senator Pullen carried and the amendment was adopted.

Senator Lewis (Harry) moved adoption of the following amendment by Senators Lewis (Harry) and Peterson:

Strike all material after line 5 and insert:

"In addition to any other penalties provided by law, the director shall revoke the hunting license of any person who is convicted of violating RCW 77.16.020 or 77.16.030 relating to elk, moose, antelope, mountain goat, mountain sheep, caribou, bear or deer. Forfeiture of bail on two occasions during any five-year period for violations of RCW 77.16.020 or RCW 77.16.030 shall constitute the basis for a revocation under this section.

No hunting license shall thereafter be reissued to such person for a period of two years from the date of revocation unless the commission, after a hearing held at one of its regular meetings, authorizes the issuance of such license. Any person who has had his license revoked or has been denied reissuance pursuant to this section may appeal such decision as provided in chapter 34.04 RCW."

On motion of Senator Lewis (Harry), the following amendment to the amendment by Senators Lewis (Harry) and Peterson was adopted:

In the first paragraph of the amendment after "moose," and before "antelope" insert "cougar."

The motion by Senator Lewis (Harry) carried and the amendment, as amended, was adopted.

On motion of Senator Peterson, the rules were suspended, Engrossed Senate Bill No. 2203 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Woody: "Would Senator Peterson yield? I am looking at the amendatory language that was adopted by Senator Lewis's amendment which uses slightly different language, of course, but I am asking you basically, even under his language, if a person were to kill an elk, moose, antelope, basically the biggest problem is deer, let us say in some other state; Oregon, Montana, Idaho, during which period of time it is legal to kill there and are bringing it back, the entire carcass, to this state, they are in possession of deer, bear, sheep, whatever it might be. I know there has been a question raised in the past as to whether or not they would be in violation of any of our current game laws. Would you be able to establish legislative intent on that?"

Senator Peterson: "I can respond by saying that this has been considered before and if, for instance, you killed an antelope or a moose or whatever in Idaho and brought it back into this state, if you have the Idaho tag on it and the Idaho license it was necessary to procure that game under, there is nothing in the state statutes, there is nothing in this act intended that you should be held liable."
ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2203, and the bill passed the Senate by the following vote: Yeas, 45; excused, 4.

ENGROSSED SENATE BILL NO. 2203, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Mardesich, the Senate returned to the fifth order of business.

SECOND READING

SENATE BILL NO. 2268, by Senators Rasmussen, Scott and Bailey (by State Treasurer request):

Directing the investment of current state funds.

REPORT OF STANDING COMMITTEE

February 5, 1975.

SENATE BILL NO. 2268, directing the investment of current state funds (reported by Committee on State Government):

Recommendation: Do pass with the following amendment:

On page 1, line 12, after "reinvest" and before "such" insert "for a period not to exceed one year."

Signed by: Senators Rasmussen, Chairman; Buffington, Cunningham, Day, Henry, Knoblauch, Wanamaker.

The bill was read the second time by sections.

On motion of Senator Rasmussen, the committee amendment was not adopted.

Senator Cunningham moved that the following amendments be considered and adopted simultaneously:

On page 1, line 11, after "committee" and before "may" strike "as determined by the state treasurer,"

On page 1, line 14, after the colon insert:

"PROVIDED, That the investment and reinvestment authority of the state treasurer when acting without the consent of the state finance committee shall be limited to legally eligible investments which mature in a period of one hundred eighty days or less;"

Debate ensued.

POINT OF INQUIRY

Senator Lewis (Harry): "Will Senator Rasmussen yield to a question? Senator, if you would take a look at the bill, on line 11, I wonder if you could tell me what is intended by the new language, the words 'as determined by the State Treasurer.' Could you tell me what that means?"

Senator Rasmussen: "It means just exactly that, that the State Treasurer's office is presently handling these funds, that it is necessary that they move on them at the time when the allocations are made available, so it is continuing the practice but now saying that the determination will be made by them on a daily basis."

Senator Lewis (Harry): "Yes, I understand that. I am wondering whether the language, number one, is necessary. If it is necessary, does it include the determination of the amount of cash flow dollars to be invested? If it does that, does it have a broader meaning to mean the securities or bills that would be purchased; and thirdly, does it mean anything in addition to that or could it? The language bothers me, Senator, that is the reason I am asking the question, because Senator Cunningham suggests we strike it, and I wonder if you could explain that to me. I am a little fuzzy on it."

Senator Rasmussen: "I am very sorry about that, Senator Lewis. But it is necessary for the Treasurer to make the determination on the cash balances and what they have available. You remember that we provided that the state funds should earn all the interest possible. At one time, of course, they were in what you call 'call money' and they earned no interest. Now it is necessary to invest these daily; what is not needed for long term investments, what is also certain bond investments that are not being needed at the present time, but the cash flow is the thing that he has to handle daily, as we provided by law."
Senator Lewis (Harry): "Senator Rasmussen, if you look at line 10, you have given that authority. 'Whenever there is any fund or cash balance from the state treasury more than sufficient to meet the current expenditures properly payable therefor the State Treasurer or the State Finance Committee may invest or reinvest,' etc. Now I think that already gives it to him and I am not trying to nitpick but I wonder what the need for that language is when we already give it to him. Unless you can tell me specifically, it seems to me that Senator Cunningham has a point."

MOTION
On motion of Senator Mardesich, the question was divided.

REMARKS BY SENATOR WOODY
Senator Woody: "Senator Lewis, one of the things that presents a problem is that when it says the State Treasurer or the State Finance Committee, if you strike 'as determined by the State Treasurer' then on a daily cash basis as to who is going to invest in what and make the determination as to whether there are excessive cash balances daily is going to be divided between two entities; and one person is going to say this and then he is going to call up and find the other outfit a half an hour earlier did something else. So there has to be one body, either one or the other, to make that determination. You cannot say the State Treasurer or the State Finance Committee, period, because then neither one is going to know on a daily basis what the other has already done."

MOTIONS
On motion of Senator Lewis (Harry), Senate Bill No. 2268, together with the pending amendments by Senator Cunningham, was ordered placed at the end of today's second reading calendar.

On motion of Senator Herr, Senate Bill No. 2028 was ordered to hold its place on the second reading calendar for Wednesday, February 19, 1975.

Providing for bond financing of pollution control and industrial development.

MOTION

Senator Mardesich: "I move that House Bill No. 100 retain its place on tomorrow's second reading calendar."

REMARKS BY SENATOR MARDESICH

Senator Mardesich: "By way of explanation, there is an amendment on your desk now, proposed by Senator Washington, and has raised such question that I believe it would be advisable that the members check on the amendment and determine what it does prior to voting on this measure."

PARLIAMENTARY INQUIRY

Senator Lewis (Harry): "Did I understand that the bill is on third reading and it will be on third reading tomorrow? Is that correct?"
President Pro Tempore Henry: "That is correct."

PERSONAL PRIVILEGE

Senator Guess: "Mr. President, I think that we are unduly swayed in this particular action, that the bill deserves passage. The purpose of the bill will certainly be damaged if we do not go ahead and pass it. I recognize that Senator Mardesich is perfectly within the bounds to do this and let us look at it another day, but I have looked at the amendment and I see that it is an interjection of additional material and that if we seriously look at the bill and the purposes of the bill, then I think we ought to take as expeditious action tomorrow on passage of the bill without amendment as we can because this certainly has a definite bearing upon the economic ability of the various corporations in the state of Washington to meet the environmental demands and the cost of the environmental protections that we have mandated against them and I would like very much for us all to take a hard look at the delay in passing of the bill. I made some statements in the State Government Committee yesterday that at the present moment, using the Engineering News Record Survey of September and the other factors that I have been able to put together since coming to Olympia, that there are some six billion three hundred million dollars worth of work being held up in the state of Washington for environmental concern. We now have eleven point one percent unemployment factor. Just this morning on TV Mr. Meany and the Miami and the AFL-CIO convention cautioned the people there that if something did not happen, that the United States would be on — we would have at least ten percent unemployment. And using the historic relationship between the national unemployment factor and the Washington unemployment factor, I predict that the state of Washington will reach fourteen to fifteen percent unemployment unless something is done and done in a hurry by this session of the legislature in order that we change the environmental laws that we have on the books. I cannot understand why more of my colleagues are not worried about the conditions that are occurring, the slowdowns, the lack of ability on the part of management to put prime construction jobs under way and relieve the unemployment situation.

"To the best of my ability and the information that I have, the unemployment factor today in the construction industry has reached fifteen percent. In certain areas, I know in Senator Bailey’s area, that the unemployment factor is closer to twenty-five percent. By the dilatory manner in which we have gone about this and the way that we have fought this thing down the line, a bill that was accepted almost unanimously by the House, and we have had it before us now for over a week. I urge each of you to take a good hard look at the direction the state of Washington is going. I pointed out yesterday that the Fluor Corporation had some three hundred million dollars worth of work to subcontract. They wanted to put it into the state of Washington. They were unable to do so because after they got the equipment built they could not load it out. It required the dredging of about a fifteen foot channel in connection with a special pier that would have to be built. This work is now being done in Houston, Texas. It is less expensive for them to build the equipment in Texas, put it on the seagoing barges, take it down through the Panama Canal and take it all the way to Alaska. Gentlemen, if we do not watch, all of the oil that is being produced on the North Slope will bypass the state of Washington. I cannot urge upon you too strongly the gravity of the situation. I talked to some people out of Fairbanks on Thursday of last week and they told me in no uncertain terms that those people up there, the Alyeska and the other people on the oil-handling facilities are getting completely fed up with the state of Washington and the inability of the state of Washington to respond to the need of moving this material."

REMARKS BY SENATOR MARDESICH

Senator Mardesich: "Mr. President, ladies and gentlemen of the Senate, I have no argument with Senator Guess’s remarks with respect to the state of the economy, but I think those of us who were here when this bill was passed understood it to be a bill which allowed certain tax credit and financing rights by virtue of companies investing in facilities designed for pollution control. I do not think there is anyone that questions whether
that was the intent of the legislature. A question has been raised whether, in fact, the application of the measure has gone beyond the financing of pollution control facilities and in fact extended into facilities other than pollution control. If so, then we are giving a tax credit or benefit by virtue of the financing arrangement which was beyond the intent of this legislature. I am not sure that Senator Washington's amendment cures that problem. If it does, I would suggest it is a good amendment. If it does not, then I would suggest that the amendment be not adopted. But I do not think that in the name of trying to get a little more employment for people we should now give away the authority of this state, the credit of this state, to industry for other than what we intended it to be; namely, pollution control facilities. And I would suggest that if you want this bill to die, period, that you continue to push and not give us a chance to review this amendment."

Debate ensued.

POINT OF ORDER
Senator Lewis (Harry): "Mr. President, what is before the body now?"

REPLY BY PRESIDENT PRO TEMPORE HENRY
President Pro Tempore Henry: "The motion that the bill be held over until tomorrow."

Senator Lewis (Harry): "Your gavel did not strike?"
President Pro Tempore Henry: "No."

Further debate ensued.

The motion by Senator Mardesich carried. House Bill No. 100 was ordered to hold its place on the third reading calendar for Wednesday, February 19, 1975.

THIRD READING

ENGROSSED SENATE BILL NO. 2116, by Senators Newschwander, Washington and von Reichbauer:
Providing for recovery of certain leave benefits upon returning to employment with school districts.

MOTION

Senator Newschwander moved the rules be suspended and Engrossed Senate Bill No. 2116 be returned to second reading.

Debate ensued.

The motion by Senator Newschwander carried and Engrossed Senate Bill No. 2116 was returned to second reading.

Senator Newschwander moved adoption of the following amendment:
On page 2, line 23, after "person" insert "holding certification".

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Would Senator Stortini yield to a question? Senator Stortini, as chairman of the committee, is it your findings that the classified as against the certificated — which group has the most pregnancies?"

Senator Stortini: "I do not have any statistics on that. Let me just say that in teaching where we have forty-two thousand teachers, the majority are women. When we talk about classified, I believe it is thirty-five to forty percent that are women. Your lunch room help, your school bus drivers, and there are some female custodians. I do not have any statistics as to how many have been pregnant in the last few years."

Senator Rasmussen: "One further question, Senator Stortini. Evidently there are pregnancies in both groups then. I fail to understand why we should treat the groups differently, but I also fail to understand — the present bill does not say for pregnancy. It says a person that leaves, which is assuming that you are quitting the job. Now as I understand the pregnancy, the law specifies that they can get a leave of absence. But this is not a quit. And any person who quits in any job makes that determination that he leaves
whatever fringe benefits he has behind him other than pension benefits with which he
vests after a certain period of years. Now if some school districts are giving this accu­
mulated leave, they are in effect violating the Constitution because they have no right to
do that with what is presumably largely state funds. And I can understand Senator
Newschwander's concern where maybe thirty-five people are not getting this gift that is
being made to all the rest of the people who quit. I do not know, and Senator Grant is
very familiar with working agreements and I do not recall any that we had that give that.
Some by reason of retirement get twenty-five percent of their accumulated leave as
compensation at the end of their work service.”

Senator Stortini: “Senator, at the present time most school districts already credit
the leave and there has been no problem in the areas that you seem to be concerned
about.”

Debate ensued.

The motion by Senator Newschwander failed and the amendment was not adopted
on a rising vote.

On motion of Senator Mardesich, the rules were suspended, Engrossed Senate Bill
No. 2116 was advanced to third reading, the second reading considered the third, and
the bill was placed on final passage.

Debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No.
2116, and the bill failed to pass the Senate by the following vote: Yeas, 15; nays, 30;
absent or not voting, 1; excused, 3.

Voting yea: Senators Bailey, Francis, Goltz, Herr, Keefe, Lewis (Harry), Matson,
McDermott, Morrison, Murray, Newschwander, Stortini, Walgren, Wanamaker, Wash­
ington—15.

Voting nay: Senators Beck, Bluechel, Bottiger, Buffington, Clarke, Cunningham,
Fleming, Gould, Grant, Guess, Henry, Jolly, Jones, Knoblauch, Lewis (R. H. “Bob”),
Mardesich, Marsh, North, Odegaard, Peterson, Pullen, Rasmussen, Ridder, Sandison,

Absent or not voting: Senator Talley—1.

Excused: Senators Benitz, Day, Donohue—3.

ENGROSSED SENATE BILL NO. 2116, having failed to receive the constitu­
tional majority, was declared lost.

MOTIONS

On motion of Senator Mardesich, the Senate advanced to the eighth order of busi­
ness.

On motion of Senator Fleming, the Committee on Local Government was relieved
from further consideration of Engrossed House Bill No. 187.

On motion of Senator Fleming, Engrossed House Bill No. 187 was referred to the
Committee on Transportation and Utilities.

PERSONAL PRIVILEGE

Senator Fleming: “Mr. President, I asked the body last week to allow me to use the
chambers on February 25 for a land use planning hearing. I want to cancel that and ask
the body that permission at a later date. Many of the local government officials who
would be attending will be back in Washington, D.C. that week and so I will come back
to the body and ask for another date at a later time.”

I notice there is no emergency clause on this bill and there are some rather heavy rules being promulgated right now. I wonder if you would object if we backed this down to second reading and put an emergency clause on the bill?"

Senator Donohue: "Well, I have no objection but I doubt very much if it is necessary. I think that just the fact that we are moving on this bill, and if we pass this bill, will have the effect, hopefully, of in some of the agencies which are making the rules to slow them down. And I do not think that we need an emergency clause."

SPECIAL ORDER OF BUSINESS

THIRD READING

HOUSE BILL NO. 100, by Representatives Luders, Newhouse, Charette, Pardini, Martinis, Kilbury, Berentson, Ceccarelli, Hansey, Laughlin, Wilson and Matthews:
Providing for bond financing of pollution control and industrial development.
The time having arrived, the Senate commenced consideration of House Bill No. 100 on third reading.

MOTION

Senator Mardesich: "I move that House Bill No. 100 be returned to second reading for purposes of amendment."
President Pro Tempore Henry repeated the motion by Senator Mardesich.
Debate ensued.

POINT OF ORDER

Senator Washington: "The point of order being that this is not a suspension of the rules. We have done this a number of times already today, a simple motion to move back from the third order of business to — from third reading to second reading. There has to be a rule to be suspended, Mr. President. We sometimes are confused and we have gotten into a habit sometimes of feeling that we do have to have a suspension of the rules, although I know of no instance when we have had to do this in going back from third reading to second reading. There is a Rule 61 which says every bill shall be read on three separate days unless the Senate deems it expedient to suspend this rule. For this reason we suspend the rule when we move from the second reading to the third reading. Also because the Constitution requires that we have three readings, and we, however, are able to suspend the rule by considering the second reading the third. Now I have looked; there is absolutely no rule in our rules that says that it takes a suspension of the rules to move from one point on the calendar to another or to move from third reading to second reading. And if you are going to suspend a rule you have got to state the rule which you are going to suspend. And I have great respect for Henry's rules when we do not have a lot riding on it but at this point I believe that we do need — I would submit that there does need to be a suspension of the rule and the person who makes the motion to suspend or to object has to point out the rule which would require the suspension. And I have looked and I can find none. Now perhaps you have been able to find such a rule.”
Further debate ensued.
President Pro Tempore Henry: "If the President be allowed to make a comment, rules of order are to expedite business. I was trying to expedite business to avoid the explanation that Senator Washington was going to give, but inasmuch as it did not expedite business, I have no objection to returning to second reading, but I still think it takes a two-thirds majority to suspend the rules."

MOTIONS

On motion of Senator Mardesich, the Senate advanced to the eighth order of business.

At 12:36 p.m, on motion of Senator Mardesich, the Senate adjourned until 11:00 a.m., Friday, February 21, 1975.

On page 1, beginning on line 5, insert a new section as follows:

"Section 1. Section 1, chapter 33, Laws of 1969 ex. sess. and RCW 35.39.030 are each amended to read as follows:

(1) United States bonds;
(2) United States certificates of indebtedness;
(3) Bonds or warrants of this state;
(4) General obligation or utility revenue bonds or warrants of its own or of any other city or town in the state;
(5) Its own bonds or warrants of a local improvement district which are within the protection of the local improvement guaranty fund law; and
(6) In any other investments authorized by law for any other taxing districts."

Renumber the remaining sections consecutively.

On page 1, line 29, strike "or condemnation award"

Debate ensued.

POINT OF INQUIRY

Senator Wilson: "Will Senator Guess yield? One provision of the first amendment pertains to a city and town investing any portion of its inactive funds in bonds or warrants of an LID of any other city or town in the state, I do not see any immediate objection to that but wonder what the reason is for it and if you could give me an example as to one city investing surplus funds in the LID of another city."

Senator Guess: "Senator Wilson, I will have to be frank with you. That is in existing statutory language. How it occurred there I cannot tell you, but the only suggestion I can say is that using the old Chinese proverb, 'You scratch my back, I will scratch yours.' But it is there. We did not discuss taking it out and if you want to make a motion to do that, okay. But maybe Senator Fleming has some comments on that."

Senator Fleming: "Members of the Senate, to Senator Wilson, from my understanding, within the cities there are certain improvement districts, and when improvement districts are contiguous to each other they are allowed to invest the funds, commingle these funds, for the investment. But when they are not it has to be a single type situation, and I think that is the reason for that. I could stand corrected but I think that is the testimony that I recall in the committee."

Senator Rasmussen: "Senator Fleming is correct. You take Aberdeen-Hoquiam, Centralia-Chehalis, places like that may want to jointly—one local improvement district would be handling improvements but it would actually be in the other city's boundaries probably. So I think it is all right the way it is worded."
The motion by Senator Guess carried and the amendments were adopted.

On motion of Senator Guess, the following amendment to the title was adopted:

On page 1, line 1 of the title, after "towns;" insert "amending section 1, chapter 33, Laws of 1969 ex. sess. and RCW 35.39.030;"

Senator Day moved adoption of the following amendment:

On page 2, line 18, after "fund" strike "[prior to all other liens except taxes]" and insert "prior to all other liens except taxes".

Debate ensued.

POINT OF INQUIRY

Senator Lewis (Harry): "Would Senator Day yield to a question? Or somebody else maybe that could respond. How would this affect the position of a first lien security holder?"

Senator Day: "What this does, by striking this language is to strike the exemption placing the lien for service by a hospital, association, corporation, or individual pro-
viding care, they had a prior lien—prior to everything except taxes, and when you struck that out of there, then they did not have a prior lien against the fund for the services provided. And so I think it was an inadvertent. I think that after checking with the best lawyer, I think, in the place, Max Nicolai, and he was not sure but upon discussion with the other attorneys they came to the conclusion that it was wrong, that they should have left the original language in that section, and this correction takes care of that."

Senator Walgren moved adoption of the committee amendment.

POINT OF INQUIRY

Senator Fleming: "Would Senator Walgren yield to a question? Senator, I notice that this also permits the director to obtain license plates from sources other than the state penitentiary. Did they indicate some need, some preference, did they have something in mind?"

Senator Walgren: "Although this does not relate to the amendment, it relates to the bill itself, yes, their concern was that there was some surreptitious removal of the license plates that were being prepared at the state institutions and they wanted to have an alternative source to obtain these license plates to make sure that they got into the proper hands."

The motion by Senator Walgren carried and the committee amendment was adopted.

On motion of Senator Walgren, the rules were suspended, Engrossed Senate Bill No. 2078 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Day: "Would Senator Walgren yield? I noticed in the digest here that one
of the sections removes discretion from the director of motor vehicles to allow a person to secure a certificate of ownership on a travel trailer or a camper without securing a certificate of license, etc. I remember, Senator, we got into quite an involvement with campers here at one time, I am just wondering what that does to put us back into the bucket."

Senator Walgren: "I am not sure I understand your question, Senator Day."

Senator Day: "What this thing specifically does in relation to licenses and the mandating of licenses."

Senator Walgren: "I cannot recall specifically what the testimony was concerning that, Senator Day, but apparently there was some difficulty as to the discretion that had been granted in the past and the idea of this amendment is to tie this down and eliminate some of that discretion.

Senator Stortini: "Senator, it was the wish of the majority of the committee that the SPI office do this, that it should be a top priority, that if there is any time in the state when there needs to be developed more faith and confidence between the taxpayer out there and the school district itself, it is now; and as a result it should be a top priority of that office."

INVOCATION

by
Reverend Erich H. Sigmar
Messiah Lutheran Church, Auburn

“Eternal God, Father of all Mankind, we are poignantly reminded today that while in the midst of life we are in death. In this hour of memorial and tribute we gather before Thy loving kindness to acknowledge our gratitude for the great promises of the Lord of Life before the stark mystery of death. The incredible promise of the Lord of Life gives us hope, ‘I am the resurrection and the life, he who believes in Me, though he die, yet shall he live; and whoever lives and believes in Me shall never die.’ We are grateful today for the lives of these men and women in whose memory we gather — for their dedication to service, serving the people of their constituency in their day, in their way. Thou hast called us, Heavenly Father, to service in this, our day. May we hold high the torch of honorable service, knowing that when we serve the needs of people we do Thy will. And so Heavenly Father, as we gather in memory and in tribute, deal with us yet lest we forget. Amen.”

MEMORIAL TRIBUTE
by Representative William Paris

“We gather as one today in honor of those who have given of themselves in public service and have now stepped out of time into eternity. There is, quite naturally, grief, because of the physical separation; however, there is also assurance because of our intuitive faith and hope. We assemble today for a few fleeting moments, but the memories of our fellow servants will linger on for generations — their dedication, unselfish giving, often unknown to the masses, possibly to their families — it is respectfully acknowledged today. How true the immortal words of Jim Elliot, 'He is no fool who gives what he cannot keep to gain what he cannot lose.' May this provide not only comfort for the present, but hope for the future and pride in the inspirational memories that live on.”

FORTY-FOURTH DAY

MORNING SESSION

Senate Chamber, Olympia, Tuesday, February 25, 1975.

The Senate was called to order at 11:00 a.m. by President Cherberg. The Secretary
called the roll and announced to the President that all Senators were present.

The Color Guard, consisting of Pages Tanya Orlando and Tobey Fitch, presented
the Colors. Reverend Herbert B. McLellan, Priest in Residence of St. John’s Episcopal
Church of Olympia, offered the following prayer:

“ALMIGHTY GOD, WHO HAS GIVEN US THIS GOOD LAND FOR OUR
HERITAGE, WE HUMBLY BESeeCH YOU THAT WE MAY ALWAYS PROVE
Ourselves a People Mindful of Your Favor and Glad to Do
Your Will. Bless Our Land, Our State and Our Senators, With
HONORABLE INDUSTRY, SOUND LEARNING, AND PURE MANNERS. SAVE
US FROM VIOLENCE, DISCORD, AND CONFUSION; FROM PRIDE AND
ARROGANCY, AND FROM EVERY EVIL WAY. DEFEND OUR LIBERTIES,
AND FASHION INTO ONE UNITED PEOPLE THE MULTITUDES BROUGHT
HERE OUT OF MANY KINDREDS AND TONGUES. EMBUE WITH THE
SPIRIT OF WISDOM THOSE TO WHOM IN YOUR NAME WE ENTRUST THE
AUTHORITY OF GOVERNMENT, THAT THERE MAY BE JUSTICE AND
PEACE AT HOME AND THAT, THROUGH OBEDIENCE TO YOUR LAW, WE
MAY SHOW FORTH YOUR PRAISE AMONG THE NATIONS OF THE EARTH.
IN THE TIME OF PROSPERITY, FILL OUR HEARTS WITH THANKFULNESS,
AND IN THE DAY OF TROUBLE, SUFFER NOT OUR TRUST IN YOU TO
FAIL; ALL WHICH WE ASK THROUGH JESUS CHRIST OUR LORD. AMEN.”
On motion of Senator Mardesich, the reading of the journal of the previous day was dispensed with and it was approved.

The President: “Honored members of the Senate, Lieutenant Hooper, Mrs. Hooper, Mr. O’Brien, ladies and gentlemen, we are honored to have with us today a true patriot, Lieutenant Joe R. Hooper, who is the army’s most decorated veteran of the Viet Nam war; and the Honorable Robert O’Brien. Few people have responded so gallantly to the question, ‘What can I do for my country?’ Lieutenant Hooper has done it all. After graduation from high school this wonderful athlete joined the navy and served the nation as an aviation electrician for three years, mostly in the Far East. In 1959 Joe reenlisted in the army and became a specialist in guerilla warfare, serving in Korea, Japan, Hong Kong and Taiwan. This distinguished gentleman served with the 101st Airborne Division in Viet Nam during 1967 and 1968. He returned to Viet Nam during 1970 and 1971. In addition to many other individual and unit citations, Lieutenant Hooper has earned two Silver Stars, six Bronze Stars, eight Purple Hearts, and the Vietnamese Cross of Gallantry three times. Joe has been awarded the highest of all honors, the Medal of Honor. It is no surprise that Lieutenant Hooper earned this, the highest of all military honors, in assisting others to safety. Although seriously wounded himself, Lieutenant Hooper directed the evacuation of wounded and single-handedly stormed and destroyed three enemy bunkers in accomplishing his mission with utter disregard for his own safety. You have served your country in finest tradition, Lieutenant Hooper, and we would like to welcome you in the best tradition of the Washington State Senate.”

The President: “Honored and esteemed members of the Senate, Ladies and Gentlemen, this morning is one of those rare occasions when we have the opportunity to meet a person whose life has been dedicated to help his fellow man. The President at this time should like to respectfully request of Senator Knoblauch, Senator Washington, Senator Wanamaker, Senator Cunningham, Senator Sandison, Senator Beck, Senator Matson, and Senator Guess that you please act as a committee of honor to escort the Honorable Lieutenant Joe R. Hooper and the Honorable John O’Brien to the rostrum.”

The President: “And now, esteemed members of the Senate, the President at this time should like to present the Honorable Robert S. O’Brien, a dedicated public servant who has capably handled the important public affairs of Grant County and the state of Washington for the past twenty-four years. Bob served four consecutive terms as Grant County Treasurer and was the administering official on seven hundred and fifty million dollars worth of bonds for hydroelectric projects on the Columbia River. Of course, you are familiar with Mr. O’Brien’s wonderful record as State Treasurer. In addition to the many honors that Bob has received, his many talents have been recognized throughout the nation and we are fortunate to have Bob as part of Washington state’s government. In addition, I should point out that among Bob’s other duties, he is entrusted with the administration of the Viet Nam Veterans Bouns Act. It is a true honor to introduce the Honorable Robert S. O’Brien, our respected and esteemed treasurer, Mr. O’Brien.”

Mr. O’Brien: “Governor Cherberg, members of the Senate, guests, and certainly most of all Joe Hooper; as State Treasurer and administrator of the Viet Nam Veterans
Bonus Program, I wish to take this opportunity to commend the members of the Washington State Senate for taking time from their extremely busy schedule to honor one of our most outstanding citizens and as you have just heard, I do not know how you could ever equal the list of medals that Joe Hooper, the most highly decorated veteran of the Viet Nam conflict — and, Senator Washington, he comes from our county, Grant County, Moses Lake. I am deeply honored to present on behalf of the people of the state of Washington this token of appreciation which has been voted by our legislature. And in this envelope, Joe, and I wish you would stand here, it is certainly a small enough token of the esteem of the people of this state, but it is your bonus check that the people want you to have, and thank you so much.”

REMARKS BY LIEUTENANT HOOPER

Lieutenant Hooper: “Governor Cherberg, Honorable Treasurer, the Senate and guests, since receiving the Medal of Honor in 1969 I have been honored many, many times by many states and many countries, but I consider this the greatest honor because finally I have come home, and I am here to stay. Washington is going to be my home and no more traveling around the world. Seventeen years, and I have stayed in fifty-four foreign countries, out of the United States for a total of seventeen and one-half years. So it is good to be home. I would like to pass on a belated thank you for some of the members out there who took care of my folks and my guests when I was notified of the award ceremony back in Washington, D.C. I was out of the country and some Senators and Representatives went over. They rounded up my family and my brothers and sisters, thirty-five all together, and they got them back to Washington, D.C. to meet me and I know that was a big, big job.

It is quite an honor to receive this award from the state. However, Mr. O'Brien will be happy to know that because of my bad smoking habit it will be right back into the coffers shortly. Once again I want to thank you, and thank you for welcoming me here, and God bless you.”

PERSONAL PRIVILEGE

Senator Beck: “Mr. President and ladies and gentlemen of the Senate, you have just met this morning the recipient of one of the nation’s highest honors, the Congressional Medal of Honor. If I could have a point of personal privilege here, I would like to make just a few short comments about the Medal of Honor. You know, it was the late Don Billings, the great military hero, who once said that the greatest gift that God gave us as a nation is the liberty which we enjoy. These rights will only be enjoyed so long as each and every one of us are willing to fight and protect these rights. The first and oldest medal which the United States Government gives to our military heroes is the Military Order of the Purple Heart.

Not quite as old but much more meaningful is this Congressional Medal of Honor which you see hanging around Lieutenant Hooper’s neck. This was first awarded and came into being on December 21, 1861, when President Lincoln affixed his signature to a bill offered by Senator Grimm in the United States Senate. Senator Grimm was from the state of Iowa. It is awarded usually by the Congress itself or the President in the name of the Congress to those selected by the Department of Defense who, while in combat, have performed acts of valor and deeds of personal bravery or self-sacrifice above and beyond the call of duty.

The Bronze Star which you see dangling from his neck there, hanging by an anchor for those who received it in the Navy, and from the talons of an eagle for those from the Army, and from a shield for those in the Air Force, is held together with a ribbon of blue silk with stars. It is surrounded by enamel, a green enamel wreath. It is wreathed in enamel there.
"These heroes decorated by the Medal of Honor, many of them posthumously, have done far more than their share. It is only fitting that our generation perpetuate the heritage which that medal you see on his neck there stands for. Joe, on behalf of those of us of the military who know what the Medal of Honor is, congratulations. We certainly owe you a debt of gratitude for the services which you have rendered to your country. Thank you so much on behalf of the people and the veterans who know what that means."

Lieutenant Hooper was presented a Life Membership in Amvets by Mr. Hoye, a member of that organization.

The honored guest was escorted from the Senate Chamber and the committee was discharged.

Excused: Senator Clarke—1.

ENGROSSED SENATE BILL NO. 2205, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.
HOUSE BILL NO. 100, by Representatives Luders, Newhouse, Charette, Pardini, Martinis, Kilbury, Berentson, Ceccarelli, Hansey, Laughlin, Wilson and Matthews:
Providing for bond financing of pollution control and industrial development.

The time having arrived, the Senate resumed consideration of House Bill No. 100, and the following amendment moved for adoption by Senator Lewis (Harry) on February 25, 1975:

On page 3, line 29, after "state." add a new subsection as follows:

"(5) The proceeds from any bonds issued under this chapter shall be used only for purposes qualifying under Section 103(c)(4)(f) of the Internal Revenue Code of 1954, as amended."

Debate ensued.

The motion by Senator Lewis (Harry) carried and the amendment was adopted.

Senator Washington moved adoption of the following amendment:

On page 2, section 1, beginning on line 10, strike all the matter down to and including the period on line 11 and insert "[This chapter shall be liberally construed to accomplish the intentions expressed in this section.]"

Debate ensued.

POINT OF INQUIRY

Senator Day: "Will Senator Washington yield? Senator Washington, actually, as I read this amendment that mandates that the chapter shall be liberally construed, if we wipe that out of there, isn't it true that they can still liberally construe it if they wish to?"

Senator Washington: "Yes, they could, but if they got it into court they would not have any statutory backing up for their liberal construction. In other words, the use of liberal construction along with the broad term 'in furtherance of' again is part of what is allowing, for instance, what happened at the Weyerhaeuser plant in Longview where you are able to not only get paid for actual pollution control equipment but the underlying boiler which was necessary in any case to operate the plant. And as they pointed out, liberally construed 'in furtherance of' just opens it up wide to where they do not have any basis on which to turn anything down."

On motion of Senator Talley, the amendment by Senator Washington was laid upon the table on a rising vote.

Senator Washington moved adoption of the following amendment:

On page 2, following section 1, beginning on line 11, add a section as follows:

"Sec. 2. Section 3, chapter 132, Laws of 1973 and RCW 70.95A.020 are each amended to read as follows:

As used in this chapter, unless the context otherwise requires:
(1) "Municipality" shall mean any city, town, county, or port district in the state;
(2) ["Facility" or "facilities" shall mean any land, building, structure, machinery, system, fixture, appurtenance, equipment or any combination thereof, or any interest therein, and all real and personal properties deemed necessary in connection therewith whether or not now in existence, which is used or to be used by any person, corporation or municipality in furtherance of the purpose of abating, controlling or preventing pollution;]
(3) "Pollution" shall mean any form of environmental pollution, including but not limited to water pollution, air pollution, land pollution, solid waste disposal, thermal pollution, radiation contamination, or noise pollution] "Pollution control facilities" or "facilities" means any land, building or other improvement, appurtenance, fixture, item of machinery or equipment, and all other real and personal property, whether or not in existence or under construction at the time the bonds are issued, which are to be used for the purpose of abating, controlling or preventing, altering, disposing or storing of solid waste, thermal, atmospheric or water pollutants, contaminants, or products therefrom. Any such property or portion thereof which is used partly for pollution control purposes and partly for other purposes is a pollution control facility only to the extent
that such item of property or portion thereof is attributable to pollution control pur-
poses and not to other purposes;

[(4)] (3) "Governing body" shall mean the body or bodies in which the legislative
powers of the municipality are vested;

[(5)] (4) "Mortgage" shall mean a mortgage or a mortgage and deed of trust or
other security device; and

[(6)] (5) "Department" shall mean the state department of ecology."

Renumber the remaining sections consecutively.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Would Senator Lewis yield to a question? Senator Lewis, I like that statement you made that Senator Washington is putting an extra diaper on. Do you know what they put an extra diaper on some babies for?"

Senator Lewis (Harry): "I do not feel qualified to answer that question."

Senator Rasmussen: "I was going to tell Senator Lewis and I hoped he would tell me that they put that extra diaper on the baby for is to prevent leakage, and that is just exactly what Senator Washington is proposing his amendment for, to prevent a leakage of about six and one-half million dollars. I know that Senator Lewis is aware of the companies that are going to benefit by this leakage. And your diaper statement was very correct. It is needed and I would support Senator Washington. I think that you are all agreed on the purpose. Senator Washington has made it very clear that it is needed and we should support the Chairman of the Ecology Committee who has worked long and faithfully on this job and admits he made a mistake in ever letting the bill out of his committee without the proper diapers on it. So let us support Senator Washington in this amendment. It will be a good bill that we can all vote for."

Further debate ensued.

Senator Talley moved that the amendment by Senator Washington be laid upon the table.

PARLIAMENTARY INQUIRY

Senator Washington: "Does the maker of the motion have the right to answer some questions and close debate?"

REPLY BY PRESIDENT PRO TEMPORE HENRY

President Pro Tempore Henry: "No."

On motion of Senator Washington, the rules were suspended and Senator Washington was permitted to answer remarks made during previous debate.

POINT OF INQUIRY

Senator Francis: "Will Senator Lewis yield to a question? Senator Lewis, looking at your amendment which I have to consider as a possible alternative to this one in deciding whether or not I am going to vote on this one or which way I am going to vote on this one, it refers to a section of the Internal Revenue Code of 1954 as amended. Is it your intention that our law, if we adopt your amendment, incorporate future amendments to the Internal Revenue Code or are you just using that as a reference to the Internal Revenue Code as it now stands?"

Senator Lewis (Harry): "It was my intent in looking at the code, Senator Francis, Section 103(c)(4)(f) fits exactly the purpose that I felt the Senate was trying to accomplish. The further definition as I placed on your desk, Senator Francis, this sheet of paper here."

Senator Francis: "I have that."

Senator Lewis (Harry): "I think it achieves the purpose that we are trying to accomplish and I looked at it singularly in that fashion."

Senator Francis: "The question I asked is, are you trying to incorporate future amendments?"
Senator Lewis (Harry): "No, I am not."
Senator Francis: "Okay. Just as it is now."
Senator Lewis (Harry): "I am trying to define it as it is described now."

Senator Washington demanded a roll call and the demand was sustained by Senators Ridder, Woody, Rasmussen, Herr, McDermott, Grant, Peterson, Knoblauch and Walgren.

ROLL CALL

The Secretary called the roll and the amendment by Senator Washington to page 2, line 22 adding a new section failed by the following vote: Yeas, 17; nays, 30; absent or not voting, 1, excused, 1.

Excused: Senator Clarke—1.

Senator Washington moved adoption of the following amendment:

On page 4, beginning on line 17, insert the following:

"NEW SECTION. Sec. . . . . There is added to chapter 132, Laws of 1973 and to chapter 70.95A RCW a new section to read as follows:

The department of ecology shall determine that any item of property forming part of an industrial, commercial, manufacturing, electric generating or other building or group of buildings which is used partly for pollution control purposes and partly for other purposes is a pollution control facility to the extent that such item of property is to be used for pollution control purposes and not for other purposes; in making such determination the department shall consider the incremental cost of such item of property attributable solely to pollution control purposes. This section shall not be construed as modifying the provisions of RCW 82.34.030; chapter 70.94 RCW; or chapter 90.48 RCW.

NEW SECTION. Sec. . . . . There is added to chapter 54, Laws of 1972 ex. sess. and to chapter 53.08 RCW a new section to read as follows:

The department of ecology shall determine that any item of property forming part of an industrial, commercial, manufacturing, electric generating or other building or group of buildings which is used partly for pollution control purposes and partly for other purposes is a pollution control facility to the extent that such item of property is attributable to pollution control purposes and not to other purposes; in making such determination the department shall consider the incremental cost of such item of property attributable solely to pollution control purposes. This section shall not be construed as modifying the provisions of RCW 82.34.030; chapter 70.94 RCW; or chapter 90.48 RCW.

NEW SECTION. Sec. . . . . Section 11, chapter 132, Laws of 1973 and RCW 70.95A.100 are each hereby repealed."

Renumber the remaining sections consecutively.

On motion of Senator Washington, the following amendment to the amendment was adopted:

On line 16 of the Washington amendment to page 4, line 17, strike "solely" and insert "primarily" and on the last line of the following section strike "solely" and insert "primarily".

Senator Talley moved that the amendment by Senator Washington, as amended, be laid upon the table.

Senator Washington demanded a roll call. The demand was not sustained.

The motion by Senator Talley carried and the amendment, as amended, by Senator Washington was laid upon the table on a rising vote.

On motion of Senator Mardesich, the rules were suspended, House Bill No. 100, as
amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of House Bill No. 100, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 37; nays, 11; excused, 1.

Excused: Senator Clarke—1.

HOUSE BILL NO. 100, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Talley, House Bill No. 100, as amended by the Senate, was ordered immediately transmitted to the House.

PERSONAL PRIVILEGE

Senator Lewis (R. H. "Bob"): "Senator Washington brought up some rather interesting points in his conversation today, including the habit that we sometimes have of directing agencies and departments to construe liberally and I would like to say I would help him construe conservatively in the future."

REMARKS BY SENATOR BAILEY

Senator Bailey: "Mr. President, I was just rising to object to that type of personal privilege. Personal privilege, I think, is something that goes in the record that affects somebody personally and if we start that, arguing a bill after it is voted on, I think we are starting a bad practice for the record.

REPLY BY PRESIDENT PRO TEMPORE HENRY

President Pro Tempore Henry: "Your point is well taken."

"The legislature further declares that an annual Reno night conducted by a bona fide charitable or nonprofit organization shall not constitute any form of gambling or lottery and shall not be subject to the provisions of this chapter or any rules or regulations adopted hereunder."

Debate ensued.

POINT OF ORDER

Senator Mardesich: "Mr. President, I raise the question of scope and object on the basis that the bill pertains to the question of fishing derbies and this is an extension to an entirely different matter, and I do that keeping in mind that Senator Francis has indicated that the main subject of this amendment is before Rules Committee now."

RULING BY PRESIDENT PRO TEMPORE HENRY

SENATE BILL NO. 2381, providing for annual review for cancellation of voters but allowing vote in last presidential election to be deemed vote within preceding thirty months (reported by Committee on Constitution and Elections):

MAJORITY recommendation: Do pass with the following amendment:

On page 1, line 23, after "section" and before the period insert ": PROVIDED FURTHER, That in the event the county auditor has reason to believe that any registered voter no longer resides in the county he is authorized to send, by certified mail, a notice of pending cancellation to the address contained in the registration records for that voter. If the notice is returned as undeliverable or no response is received within thirty days of the date of mailing such cancellation notice, the county auditor shall remove such voter's name from the registration lists of that county at the next succeeding record examination provided for in this section"

Signed by: Senators Beck, Chairman; Lewis (R. H. "Bob"), Pullen, Stortini, Washington.

The bill was read the second time by sections.

Senator Beck moved that the committee amendment not be adopted.

Senator Lewis (R. H. "Bob") moved that the committee amendment be adopted.

Debate ensued.

The President declared the positive motion by Senator Lewis (R. H. "Bob") that the committee amendment be adopted was before the Senate.

The motion by Senator Lewis (R. H. "Bob") failed and the amendment was not adopted.

On motion of Senator Beck, the following amendments were adopted:
Add two new sections following section 1 as follows:
"Sec. 2. Section 29.10.120, chapter 9, Laws of 1965 as amended by section 33, chapter 202, Laws of 1971 ex. sess. and RCW 29.10.120 are each amended to read as follows:
On or before August 1st of [the odd-numbered] each year, each county auditor shall execute a sworn statement and file same with the secretary of state within ten days after date of execution. Said statement shall be furnished by the office of secretary of state and shall be in substantially the following form:
State of Washington )
) ss.
County of ............ 
)
I, ........ , do solemnly swear that I have caused to be examined the permanent voting record of each registered voter under my jurisdiction and have canceled those registrations of said voters who have failed to cast a ballot at any election held during the thirty month period immediately prior to the first day of April of this year as provided by law.

Further, the number of said cancellations totaled .......... A notice has been mailed to each elector concerned and the office of the secretary has been notified of said cancellations as reported on Permanent Registration Form No. 8.

... ........................................ Title

Subscribed and sworn to.

NEW SECTION. Sec. 3. If any provision of this 1975 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected."

On motion of Senator Beck, the following amendment to the title was adopted:
On line 1 of the title after "elections;" insert "creating a new section; amending section 29.10.120, chapter 9, Laws of 1965 as amended by section 33, chapter 202, Laws of 1971 ex. sess. and RCW 29.10.120;"

On motion of Senator Beck, the rules were suspended, Engrossed Senate Bill No. 2381 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Grant: "Would Senator Beck yield to a question? Senator Beck, as I read it now, since the committee amendment has not been adopted, all the bill does is require or mandate that the county auditors purge the lists annually rather than biennially. Do you have a fiscal note on this bill, the cost that will be required to counties in order to accomplish this?"

Senator Beck: "No, there has been no fiscal study or impact made. All of the auditors in the state wanted this bill and so did the Superintendent of Elections in the Secretary of State. Obviously, the cost is going to be more to the election officials by having all this deadwood in the registration files. I might cite right here in my own particular district there was — when it comes election time, the election official has to have thirty-six thousand ballots printed that are ready for anyone who walks in to vote, and if there are only nineteen thousand there you have almost doubled the number of ballots that he has to have on hand, not to mention all the costs to those people who are sending out even the voters pamphlet. It is an additional burden. There is almost one-half of the voters pamphlets that could be saved; the printing and distributing of all those voters pamphlets. The cost is so far less than leaving all this deadwood in there. It is a good bill."

Further debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2381, and the bill passed the Senate by the following vote: Yeas, 29; nays, 18; excused, 2.

ENGROSSED SENATE BILL NO. 2381, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SENATE BILL NO. 2271, by Senators Donohue, Newschwander, Sandison, Matson and Washington (by Superintendent of Public Instruction request):

Authorizing increased state matching funds for school construction.

REPORT OF STANDING COMMITTEE

February 14, 1975.

SENATE BILL NO. 2271, authorizing increased state matching funds for school construction (reported by Committee on Ways and Means):

MAJORITY recommendation: Do pass with the following amendments:

On page 1, line 16, after "of" and before "acquiring" strike "preliminary planning".

On page 1, beginning on line 25, after "formula" strike "which may include the full cost incurred by the school districts for preliminary planning".

On page 3, add a new section to read as follows:

"NEW SECTION. Sec. 2. This 1975 amendatory act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1975."

On page 1, line 4 of the title, after "28A.47.803" and before the period insert "declaring an emergency and making an effective date".

Signed by: Senators Donohue, Chairman; Odegaard, Vice Chairman; Wilson, Second Vice Chairman; Bailey, Jones, Lewis (Harry), Marsh, Murray, Newschwander, Rasmussen, Scott.

The bill was read the second time by sections.

On motion of Senator Donohue, the committee amendments to page 1, lines 16 and 25, were considered and adopted simultaneously.

On motion of Senator Donohue, the committee amendment on page 3, adding a new section, was adopted.

On motion of Senator Donohue, the committee amendment to the title was adopted.

On motion of Senator Donohue, the rules were suspended, Engrossed Senate Bill No. 2271 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Francis: "Will Senator Donohue yield to a question? Senator Donohue, I just want to make sure I understand this. The bill, as I see it now, outside of an emergency clause only changes two words. It strikes 'two' and inserts 'three' in two places, and by doing that — I guess what I am asking for is an explanation. Do I understand from what you just said that by striking the 'two' and inserting a 'three' we have raised the matching funds from thirty-three and one-third percent to fifty percent? In other words, we have made a fifty percent increase in the amount of matching funds?"

Senator Donohue: "The present matching fund is thirty-three percent. This will raise it up so that it is fifty percent."

Senator Donohue: "To fifty percent which would be one hundred and fifty percent over what we are now giving, or a fifty percent increase. So two to three would do that. Is that what you are saying?"

Senator Donohue: "That is correct."

POINT OF INQUIRY

Senator Odegaard: "Mr. President, would Senator Donohue yield to a question? Senator Donohue, you know many of us have a concern of the possible duplication of
vocational facilities in the future. I would like to ask of you, to have in the record, if any of these funds are intended by the SPI to be used for skill centers in the future?"

Senator Donohue: "Senator Odegaard, this question was asked at the Ways and Means Committee hearing and the person there from the SPI, and I have a letter in my office which assures us that this will not be used for skill center construction."

POINT OF INQUIRY

Senator Lewis (Harry): "Will Senator Donohue yield? Senator Donohue, in your answer to Senator Francis, I was not quite sure what you said. Did you say it was an increase in the amount of dollars? Does it not have to do with the number of pupils and the increase in the valuations and an adjustment in the formula to provide those dollars? Can you clarify that answer to Senator Francis? It appeared to me that it might have been somewhat misleading."

Senator Donohue: "Senator Lewis, the present law and the present distribution, there is a thirty-three percent state match available to local school districts out of the common school construction fund. When we pass this bill it will allow the Superintendent of Public Instruction to match as high as fifty percent of construction which would free, as I said, about twenty-three point five million dollars out of the common school construction fund."

Senator Lewis (Harry): "I think that does it. In actual practice it will not raise that amount, though, for each district. It may raise as much as seventeen to sixty percent, depending on the situation."

Senator Donohue: "That is correct."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2271, and the bill passed the Senate by the following vote: Yeas, 47; excused, 2.

ENGROSSED SENATE BILL NO. 2271, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SENATE BILL NO. 2397, by Senators Newschwander, Matson and Peterson:

Permitting credit card purchases of liquor at state liquor stores.

The bill was read the second time by sections.

Senator Pullen moved adoption of the following amendment:

On page 2, line 2, strike the period and insert "; AND FURTHER PROVIDED, Before an employee in a state liquor store or agency delivers the liquor to a purchaser using a credit card, the employee shall affix to each bottle or case a label bearing the message: CAUTION. The consumption of alcoholic beverages may be hazardous to your health and to the health of others."

Debate ensued.

POINT OF ORDER

Senator Talley: "Neither speaking for or against the amendment, but I do think it enlarges the scope and object."

At 12:10 p.m., the President declared the Senate to be at ease.

The President called the Senate to order at 12:24 p.m.

RULING BY THE PRESIDENT

The President: "The President, in ruling upon the point of order as presented by Senator Talley, finds that Senate Bill No. 2397 is a measure permitting credit card purchases of liquor at state liquor stores. The amendment proposed by Senator Pullen, however, requires labels to be attached to bottles and/or cases of liquor, giving the purchaser the warning that the consumption of the contents may be hazardous to oneself and that of others. The amendment does not consider the cost impact of such a procedure and thus the amendment does increase the scope and object of the bill. The point as presented by Senator Talley is well taken."

The amendment by Senator Pullen was ruled out of order.

PERSONAL PRIVILEGE

Senator Lewis (Harry): "Members of the Senate, I would just like to draw your attention to the ruling that the President made which I think was a right and proper ruling under our rules in the Senate. I would also like to remind you that in the House the question of scope and object is of much broader form and in fact, really, there is not the scope and object rule in the House, and while it has distinct advantages for us here, I raise the question of privilege for the reason that I want to point out that we are almost at the point in the Senate where we cannot amend legislation, not through the fault of the President or rulings of the President, who is adhering to our rules, but I think we should carefully consider this matter. Senator Mardesich has spoken to the same thing in the past. We are almost at a position where it is impossible to make any kind of substantive amendments at all on bills before the Senate. Perhaps this is what we want; perhaps it is not; but I think we should be aware of it and that this ruling presented by the Senate is very descriptive of the position that the Senate is in as far as scope and object on amendments."
POINT OF ORDER

Senator Bailey: "My point of order is that we have nothing before the Senate unless someone wants to appeal the decision of the Chair, and I move we proceed to waste more time on this very wasteful bill."

Senator Knoblauch moved adoption of the following amendment:

On page 2, line 2, insert the following new section:

"NEW SECTION. Sec. ... This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately."

Debate ensued.

The motion by Senator Knoblauch failed and the amendment was not adopted.

On motion of Senator Newschwander, the rules were suspended, Senate Bill No. 2397 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

MOTION

On motion of Senator Knoblauch, Senator Fleming was excused.

Further debate ensued.

MOTIONS

On motion of Senator Francis, Senate Bill No. 2230 was ordered placed at the beginning of the second reading calendar for Monday, March 3, 1975.

On motion of Senator Mardesich, Senate Bill No. 2276 was re-referred to the Committee on Rules.
SECOND READING

SENATE BILL NO. 2233, by Senators Marsh, Francis and Clarke:
Amending laws relating to dissolution of marriage.

REPORT OF STANDING COMMITTEE
February 14, 1975.

SENATE BILL NO. 2233, amending laws relating to dissolution of marriage (reported by Judiciary Committee):

MAJORITY recommendation: Do pass with the following amendment:
On page 4, line 10 after "marriage" strike all matter down through "entered," on line 12 and on line 13 after "residing," and before "or" insert "or in the court in which said final order, judgment, or decree was entered,"

Signed by: Senators Francis, Chairman; Bottiger, Buffington, Clarke, Fleming, Jones, Marsh, Scott, Van Hollebeke, Woody.
The bill was read the second time by sections.
On motion of Senator Marsh, the committee amendment was adopted.
On motion of Senator Marsh, the rules were suspended, Engrossed Senate Bill No. 2233 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Walgren: "Will Senator Marsh yield to a question? Senator Marsh, the current law relating to jurisdiction for commencement of an action requires that the action be commenced in the county wherein the defendant resides. One of the problems in the dissolution statute is that in past practice we were able to commence an action where the defendant resided or where the plaintiff resided, and of course where there are minor children involved it might be very important that that action do commence where the plaintiff resides. Has that been clarified in this particular bill?"

Senator Marsh: "No, it has not. As far as venue is concerned, this act provides that you can bring such action in the court in which said final order, judgment or decree was entered, and that is on page 4 of the bill, Senator Walgren, lines 11 and 12; or where the minor children are then residing; or in the county where the parents or other person who has the care, custody or control of such children is then residing. The change as far as venue is concerned simply points out that you can bring it where the final order, judgment or decree was entered. But we have not made any change in the existing act as far as bringing it where the minor children are residing or where the other person who has the care, custody or control of the child is residing."

Senator Walgren: "Senator Marsh, was that particular question addressed at the time this bill was considered?"

Senator Marsh: "There was some discussion among attorneys. It was not discussed to my knowledge in the committee. I know there was some discussion outside of committee and the decision was made not to attempt to change it."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2233, and the bill passed the Senate by the following vote: Yeas, 43; excused, 6.

Majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SENATE BILL NO. 2048, by Senators Knoblauch, Wanamaker, Bailey, Jones and Beck (by request of Committee on Parks and Recreation of the Forty-third Legislature): Revising laws on boating.

MOTIONS

On motion of Senator Knoblauch, Second Substitute Senate Bill No. 2048 was substituted for Senate Bill No. 2048 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Wanamaker, the following amendments were adopted:

On page 7, line 30, after "time" and before the comma insert "under this chapter".

On page 9, beginning on line 18, after "fee" strike all the matter down to but not including the semicolon on line 19.

On page 9, line 21, after "property" insert "taxes".

Senator Wilson moved adoption of the following amendment:

On page 7, line 21, after "council" and before the period insert: "PROVIDED, HOWEVER, That twenty-five percent of all fees collected in the boating safety account and deposited with the state treasurer in that account shall be distributed by the Washington marine council to local law enforcement agencies for the enforcement of rules and regulations relating to boating safety laws".

POINT OF INQUIRY

Senator Day: "Will Senator Wilson yield to a question? Senator Wilson, you allude in your amendment to local law enforcement agencies. Now is that defined in the act, because I can see the city of Spokane getting a chunk of the money and the county sheriff's office is the one that gets the job. Should not that properly say 'to the county sheriffs or other proper county authorities' or something rather than local law enforcement agencies?"

Senator Wilson: "Senator Day, you may have a valid point, although it was not my intention to tie the commission down any more than is necessary and it would seem to me that if the allocation of a proportion of the funds were mandated, I would simply have reason to believe that the commission would allocate those monies in as sensible and logical a way as it could determine."

Senator Day: "Mr. President and Senator Wilson and members, the way I read this, it says 'in that account shall be distributed by the Washington Marine Council to local law enforcement agencies for the enforcement,' etc. Now it would appear to me that if some local law enforcement agency did not get their share and they could prove there was one boat in the city of Spokane that they should inspect or something or that the Spokane River, which has a couple of boats on it, needs policing, that they probably could come in and demand their share of the revenue, and I would think that would be improper because I know that at least ninety-five percent of this in our county will be left up to the sheriff's office."

MOTION

Senator Rasmussen moved that further consideration of Second Substitute Senate Bill No. 2048, together with the adopted amendments and the pending amendment by Senator Wilson, be held for Monday, March 3, 1975.

POINT OF ORDER

Senator Bailey: "It is not quite proper in a motion like this to get up and argue all portions of the bill, especially when you are against the bill and do not want to face the fact that a sponsor of the bill has not even spoken yet and could answer some of these questions properly put, probably. But I think this committee has worked a long time. I
have not been on it, but they have worked a long, long time, over three or four years, and had testimony from all these people and if we are going to have argument on the bill, I think it is perfectly proper and perfectly in order then to call on Senator Wanamaker or someone who knows what the bill is about, because it has been before us for about six or seven years."

RULING BY THE PRESIDENT

The President: "Senator Bailey's point of order is well taken. Senator Rasmussen, would you please confine your remarks to the motion."

POINT OF INQUIRY

Senator Rasmussen: "Senator Bailey, would you yield to a question please on your — the President has already rendered your point of order, but I have a question that I would like to ask you if you would yield."

Senator Bailey refused to yield.

Senator Rasmussen: "It is very obvious, Mr. President, that Senator Bailey has leaped to the conclusion and has not read the bill and that is all that I would like to take a look at."

Debate ensued.

The President declared the question before the Senate to be the motion by Senator Rasmussen that further consideration of Second Substitute Senate Bill No. 2048 be held for Monday, March 3, 1975.

The motion by Senator Rasmussen failed on a rising vote.

POINT OF INQUIRY

Senator Francis: "Will Senator Knoblauch yield to a question?"

Senator Knoblauch: "I will with the understanding that if it is a technical question I am going to refer to Senator Wanamaker."

Senator Francis: "Senator Knoblauch, the mail that I get which is opposed to this bill tells me that this bill is going to somehow or other reduce the cost or the taxes paid by boat owners, and I just want to know if that is true. I mean, I do not understand much of this bill, but I want to know whether this is letting boat owners off the hook as far as carrying a proportionate share of the taxes, or are they going to be paying more or less?"

Senator Wanamaker: "Mr. President, are we still working on Senator Wilson's amendment or . . . ?"

REPLY BY THE PRESIDENT

The President: "The question is the adoption of the amendment proposed by Senator Wilson."

Senator Wanamaker: "Are we still talking about his amendment?"

The President: "Yes, Senator."

Senator Wanamaker: "Are you talking on the amendment then, or the bill?"

Senator Francis: "I think that my question is relevant to the amendment, Senator Wanamaker. Are you offering to answer the question?"

Senator Wanamaker: "Yes. The problems we have had with boating bills in the past, and as you know, they have been around here for many years, is that we have tried to put together a tax bill and run it under the guise of a boating safety bill. This we tried to run as a boating safety bill. As you notice in there, the tax on these boats is very minimal and our feeling was that this is the way we should go with this bill. If you want a tax bill, that should be a separate issue. And if you want to tax boats, then you should run a tax bill on boats and run it separate, not in connection."

Senator Francis: "Senator Wanamaker, that was not my question. I was not asking whether we should tax or not. I am asking whether this bill will result in reducing the amount of taxes paid by boat owners."

Senator Wanamaker: "No, it will not, because — in a way it will, yes, because they should be paying a personal property tax now. It is on the books that they pay a personal property tax, which in many counties is too cumbersome, and they are not collecting.
This puts it under a different concept, a different form, and therefore everybody will be paying their titling fee and registration fee."

Senator Francis: "Are you saying then that this ends that personal property tax, substitutes a registration, and that you do not know whether or not that registration is going to be equal to, or more than, what they have been paying as a personal property tax?"

Senator Wanamaker: "We cannot get a figure on it because we cannot get a figure from revenue as to what counties are doing. That is right. We do not know because nobody knows how many boats there actually are in the state of Washington."

Senator Wanamaker: "We have tried, Senator Francis, to get it, and I think Senator Donohue has run it through Ways and Means and through the Revenue Department, and I see he is off the floor now, but he could probably give you the information as to what the revenue impact is, as near as we can come."

Senator Bottiger: "Senator Wanamaker, maybe I can rephrase that question. As I understand this bill, if this bill passes and becomes law and you pay your registration fee under this bill, you are then exempt from the existing personal property tax. Is that correct?"

Senator Wanamaker: "That is right."

Senator Walgren: "Will Senator Knoblauch yield to a question please? Senator Knoblauch, I note on the material that was handed out to all of us this morning that there are a number of letters that are in support of the bill as it has been set forth. The Ellensburg Boat Club has indicated its support."

Senator Clarke: "I think we should dispose of the pending amendment."

Senator Rasmussen: "Mr. President, I would like to ask somebody a question. Senator Clarke, Senator Wanamaker, would you yield? I had a chance while the debate was going on to take a look at this Section 16, 'Any person convicted of violation of Section 14 of this act shall be punished by a fine of not less than fifty nor more than five hundred dollars or imprisonment not to exceed six months or both.'"

Senator Rasmussen: "Mr. President, I do not understand his unseemly hurry for the reason that Senator Wilson has a very appropriate amendment that he has offered which is saying that twenty-five percent of the funds-collected should go back to the local source for the enforcement. For Senator Clarke's information, my question to Senator Clarke and he refused to take it and fielded it to Senator Wanamaker was: under this enforcement section you are charging the local enforcement people with preparing the case and subjecting this violator of Section 2 to up to a five hundred dollar fine. Now if you are going to make the local enforcement people do something like this, but I would call your attention to Section 14 where you are directing — Senator Clarke, if you..."
would give me time I would call your attention to this. 'The operator of a vessel including one otherwise exempted involved in a collision, accident or other casualty to the extent he can do so without serious injury to his own vessel or person shall render all practical and necessary assistance to persons affected.' It is going to take a determination of somebody that whether or not he can do this. And if he does not do it, he is going to be subject to a five hundred dollar fine. There are a number of questions that, Senator Wanamaker, could you answer that? And why do you object to the money going back to the local source that is going to have to do all the enforcing? Senator Clarke, you already yielded to Senator Wanamaker."

Senator Clarke: "I was going to attempt to answer."

Senator Wanamaker: "I will yield to Senator Clarke now."

Senator Rasmussen: "You fellows are making me dizzy. I just want to know what is in the bill."

Senator Clarke: "Very well, Senator. I will attempt to answer your question. I think that the point that you are making relates to general enforcement of criminal provisions which have always been the obligation of the proper enforcement officers. Now, every time we create, in effect, in the criminal code a new type of crime, we do not then endeavor to in effect in that act provide for some specific method of funding enforcement. I think we have a right to feel that when we are funding our enforcement officers we are funding them generally to enforce such laws as we may pass here. So I do not have the concern that you do. I will say, however, and I said in my previous remarks with respect to Senator Wilson's amendment, that it is probably intended, as a matter of fact, the bill specifically states that a portion of this fund shall be used for local law enforcement. And it allows and directs the commission to in effect utilize the funds and allocate them for that purpose. So I think that your questions are well taken care of in the bill, Senator."

Senator Rasmussen: "Thank you, Senator Clarke."

Further debate ensued.

POINT OF INQUIRY

Senator Morrison: "Would Senator Wanamaker yield to a question? Senator Wanamaker, is it possible that under the bill as it is before us, even without the Wilson amendment, that more than twenty-five percent might be distributed in some counties? We have some particular problems in Eastern Washington with this where we might in fact need over one hundred percent of the money raised in that particular county for law enforcement agencies within the county."

Senator Wanamaker: "As the bill is now, yes, it is up to the Council to put the money where the need is and they could put the hundred percent over there if the need was there and they so determined."

Further debate ensued.

Senator Morrison moved adoption of the following amendment to the amendment by Senator Wilson:

On the first line of the amendment before "twenty-five" insert "at least".

Debate ensued.

Senators Knoblauch, Talley and Bailey demanded the previous question, and the demand was sustained.

The President declared the question before the Senate to be the amendment by Senator Morrison to the amendment by Senator Wilson.

The motion by Senator Morrison failed and the amendment to the amendment was not adopted.

The President declared the question before the Senate to be the amendment by Senator Wilson.

Debate ensued.

POINT OF INQUIRY

Senator Woody: "Will Senator Wanamaker yield? I was going to ask a question. Before I can determine whether or not twenty-five percent can be taken legitimately from these funds, before I can determine whether or not there is sufficient money in the
fund in order to take twenty-five percent of it for those purposes, I have to know first how much money is anticipated will be brought in annually under this registration system. Second, what the administration costs are so that I can subtract the latter from the former."

Senator Wanamaker: "First you must realize, Senator Woody, that we cannot give you an exact figure because we do not know exactly how many boats there are in the state. As near as we could anticipate and as near as Revenue could figure that it would take in approximately a million and a half dollars annually. Out of this, and we got our figures on the operation of the Council and so forth out of Oregon where they already have a boating safety law and a commission set up, that it would cost somewhere from three to five hundred thousand to operate it. The balance would be going into boating safety law enforcement and those activities."

Senator Woody: "Then I can assume from those figures, a million five hundred in and maybe five hundred thousand out, that there could be twenty-five percent of the million five available for the purposes that Senator Wilson suggests in his amendment?"

Senator Wanamaker: "There could be, but you are tying it, that twenty-five percent, and at the discretion of the Council they could give the full million if it was necessary to give it in there. So I think that it is foolish and I think we should leave it up to the Council to make that determination."

Debate ensued.

POINT OF INQUIRY

Senator Woody: "Would Senator Wilson yield? The second concern I have, and I have to ask you this question because you are the proponent of the amendment, and that is: Of the three hundred and seventy-five thousand which is, of course, the assumption figure that amounts to twenty-five percent of one million five hundred, how do we determine which local enforcement agencies get how much? Are we going to do it on the basis of per capita distribution or a first come first served, or what?"

Senator Wilson: "In reply to your question, the amendment specifically does not include a formula for allocation so that the commission could enjoy the widest possible or complete discretion in how the law enforcement money would be used. I would like to point out that the act as it stands without this amendment includes an optional use of a portion of the funds for law enforcement and it does not set forth a formula in the act as to how much has to go to which counties. Nor does the amendment. In other words, with respect to what Senator Day was talking about as well as yourself, there are no specific directions or mandates regarding the allocation of law enforcement funding in the bill without the amendment any more than there would be in the bill with the amendment."

Senator Woody: "Thank you, Senator Wilson. That is the first time I have seen a legislator from Omak helping King County."

The motion by Senator Wilson failed and the amendment was not adopted on a rising vote.

POINT OF INQUIRY

Senator Mardesich: "I wonder if Senator Wanamaker would yield to a question? Senator Wanamaker, I am gathering from a rapid reading of this measure that it applies to all vessels operated in the waters of the state, whether documented by federal law or not, provided they are in this state's waters for in excess of ninety days. Am I correct in that assumption?"

Senator Wanamaker: "That is right."

Senator Mardesich: "Would that then mean that in addition to the federal registration in complying with the federal law the commercial vessels would have to comply with the rules and regulations of this board or commission?"

Senator Wanamaker: "They would be registered. However, they would not be titled because they are already titled under their federal documentation."

Senator Mardesich: "Would they have to comply with the rules and regulations adopted by this board then?"
Senator Wanamaker: "They would, but that would also be in compliance with the Coast Guard rules and in compliance with the boating safety act, the federal act of 1971."

Senator Mardesich: "I understand that, but with respect to operations of commercial vessels, what type of regulations would they be authorized to make?"

Senator Wanamaker: "I do not think it would make a bit of difference because they would still, and it is also in the bill that the Council would have to be in conformity with the federal regulations."

Senator Mardesich: "With respect to safety. But I am asking about the operation as distinguished from safety."

Senator Wanamaker: "Personally, I can see no difference, Senator, but I. . . ."

Senator Mardesich: "I look to page 4, line 25 where it provides that no local authority shall enact any regulation governing the equipment of vessels, their licensing and so on, but it does not say that they cannot make rules and regulations with respect to the operation. And there is a very distinct difference between operation and safety regulations. What if this board decides that no commercial fishing vessel shall fish within one mile of the shores of the land outside of its jurisdiction?"

Senator Wanamaker: "I think that is a good question and that is why this section was put in there. It was not put in there in reference to fishing vessels because we have it down there, 'approval of the council'. The reason for this being put in was that in some lakes in Eastern Washington, the smaller lakes, the county wants to regulate the speed."

Senator Mardesich: "I understand all that."

Senator Wanamaker: "... they would not have that authority."

Senator Mardesich: "Where is the prohibition against such authority? It says further that the Council, among its duties, on page 6, line 19, shall prepare, adopt, administer, among other things, for the enhancement of boating, recreational boating. They may do such things for the enhancement of recreational boating as they deem fit. Now, that could involve 'the operation' of vessels. Take the San Juan Islands, within one mile of the shores of the lands of San Juan County. If the people in San Juan County or this board decided that they did not want commercial fishing within one mile of the shores of the San Juan Islands, you would destroy the commercial fishery of the state. . . . are supposed to do things necessary to enhance recreational boating and they might deem that that is a suitable method or a suitable adjunct or a suitable benefit of recreational boating."

Senator Wanamaker: "Well, it certainly was not the intent of this bill to get into the. . . ."

Senator Mardesich: "I am sure it was not."

Senator Wanamaker: "If you can propose an amendment to exempt fishing boats out of there, I would certainly be willing to accept it."

Senator Mardesich: "I am sure it was not, but then at the same time I thought that is what they might have in mind and I looked to Section 7, the Council, so I thought well maybe we have some representation there and I note that there is not one commercial vessel owner on this commission. What would be the representation of the commercial fishery which has over three thousand vessels in the waters of the state with respect to this bill?"

Senator Wanamaker: "There would be no objection. It is just simply one of those things that did not come up at our hearings and we were dealing solely in recreational boating. We were not getting into the fishing industry and so if there is a question on that, it was inadvertent, actually not thought of at our hearing."

Senator Mardesich: "I am not even so sure that they could not go so far as to regulate the fishing within the waters of the state, in conflict perhaps with the Department of Fisheries, but nevertheless, what is the prohibition?"

Senator Wanamaker: "The prohibition, as we understood it when we were drawing up the bill, was that we were dealing solely in recreational boating, not in commercial."

Senator Mardesich: "I understand that, Senator Wanamaker, but I see no restrictions with respect to operation of such commercial fishing vessels."

Debate ensued.
FORTY-EIGHTH DAY, MARCH 1, 1975

POINT OF INQUIRY

Senator Marsh: "Mr. President, I wonder if this would be a proper time to ask Senator Wanamaker if he would yield to two questions about the bill because they might develop possible amendments. Senator Wanamaker, what section of the bill requires a boat owner to annually register and to pay an annual registration fee? I see in Section 12 a schedule of annual registration fees, but I do not see any section in the bill that requires the boat owner to annually register and to pay. It just says if he pays, he shall pay the following rates."

Senator Wanamaker: "I do not know exactly which section that is in that they pay an annual fee, but I am sure it is in here, Senator. You would have to give me a chance to look for it."

Senator Marsh: "I wonder if there is anyone else who is familiar with the bill who can point to that section."

Senator Clarke: "Mr. President, responding, I cannot point to the section but I do call your attention to the general provision, Section 4 on page 3 which in effect says it is unlawful to operate any vessel without a current registration number, so that unless they had a current registration number for which they would, of course, have to pay the annual fee, it would be unlawful to operate the vessel."

Senator Marsh: "Section 4, of course, does not say that they have to pay an annual registration fee and that is my point. Nowhere in the bill, and I have read it about three times now, can I find any language which requires the boat owner to annually register and to annually pay. Section 4 says you cannot operate without certificate of number, but it does not require you to register. It does not require you to pay."

POINT OF INQUIRY

Senator Marsh: "Senator Wanamaker, I have a second question. Where in the bill are rowboats exempted from paying a registration fee if anybody is required to pay registration fees? I look at Section 12 which sets up the rate structure and subsection (1) which appears to be most pertinent says 'vessels under twenty feet in length having propulsion machinery of less than five horsepower.' I submit that a rowboat is a vessel under twenty feet that has propulsion of less than five horsepower, and unless you can point to some specific exemption, I think rowboats would fall under that section and have to pay a fee if anybody is required to pay fees."

Senator Wanamaker: "Under the exemption section, Senator, it says that boats under twenty feet without power are exempt from the act."

Senator Marsh: "Would you give me page and line please?"

Senator Wanamaker: "It is on page 4, subsection (6) 'under twenty feet in length without any propulsion machinery' which is in the exemption section."

Senator Marsh: "Senator Wanamaker, as I read that, subsection (5) merely exempts you from having a certificate of number. It does not exempt you from paying a registration fee."

Senator Wanamaker: "You have to pay the registration fee to have your certificate of number."

Senator Marsh: "That is not stated anywhere in the bill, unless you can show me the language."

Senator Wanamaker: "On Section 12, the annual registration fee for vessels under this act shall be as follows:" "

Senator Marsh: "I understand that. That gets to my first question. What in the act requires you to pay an annual registration fee? This merely sets up the schedule of rates. It does not require you to pay it. It does not say anywhere, 'An owner of a boat shall annually pay a registration fee.'"

Senator Wanamaker: "Well, it says, Section 12, 'the annual registration fee'. It would not be annual if it was not to be every year."

Senator Marsh: "I really think there is something missing. There should be some compulsion somewhere, if that is your intention, to require the payment of a fee."

Senator Clarke: "I think, Senator, you will find the reason it is worded that way is
that there is no requirement that you pay the fee unless you operate the vessel. You see, there is a prohibition that I cited you previously against operating a vessel without having paid the fee. Then there is a provision as to how much the annual fee will cost you. However, if you elect not to pay this fee, I think it is quite true that if you want to put your boat in storage and leave it there for a year or two, then you do not have to pay the fee. I think that in reality is the answer to the question that you are asking."

Senator Marsh: "Mr. President, if I might respond, if I were a boat owner and I went down and asked for a certificate of number and someone asked me to pay an annual registration fee, I would ask him to point to the section of the law that required me to pay the annual registration fee. And again I say, show me the language in the law that requires me to pay an annual registration fee if I want to operate a boat."

POINT OF ORDER

Senator Bailey: "Mr. President, this is not in order. I raise the point of order that if it is not in there, Senator, you should submit an amendment to put it in there. To argue about something that is not in the bill when it is not even before us is out of order."

RULING BY THE PRESIDENT

The President: "Senator Bailey's point is well taken."

MOTION

Senator Marsh moved that further consideration of Second Substitute Senate Bill No. 2048, together with the adopted amendments, be held for Monday, March 3, 1975. Debate ensued.

The motion by Senator Marsh carried. Second Substitute Senate Bill No. 2048, as amended, was ordered placed on the second reading calendar for Monday, March 3, 1975.

SECOND READING

SENATE BILL NO. 2072, by Senators Bottiger, Scott and Woody:
Authorizing recording of communications in certain situations.

REPORT OF STANDING COMMITTEE

February 18, 1975.

SENATE BILL NO. 2072, authorizing recording of communications in certain situations (reported by Judiciary Committee):

MAJORITY recommendation: Do pass with the following amendments:
Beginning on page 2, line 11, strike the remainder of the bill.
In line 1 of the title, after "conversations;" insert "and" and in line 3 after "9.73.030" strike the remainder of the title down through "62A.2-209" on line 8.
Signed by: Senators Bottiger, Buffington, Clarke, Jones, Scott, Van Hollebeke.
The bill was read the second time by sections.
On motion of Senator Francis, the committee amendment was adopted.
Senator Bottiger moved adoption of the following amendment:
On page 1, line 29, after "conversation" strike "will" and insert "is about to" and after "transmitted" and before the period insert ": PROVIDED, That if the conversation is to be recorded that said announcement shall also be recorded".

POINT OF INQUIRY

Senator Lewis (Harry): "Would Senator Bottiger yield? Senator Bottiger, is it your understanding that the language on line 26, including your amendment and that entire underlined language as amended would then require that the announcement that the conversation is to be recorded would be made prior to the recording of the conversation?"

Senator Bottiger: "That is my understanding, Senator Lewis. If I could use an example, if you and I were having a conference and I punched a button and said,
'Harry, I think we ought to tape this,' and that announcement appears on the tape recording, then if the conversation continued it would be implied I had your consent.”

Senator Lewis (Harry): “What I am trying to get to is, this would not have effect if you announced that it was to be recorded after the conversation was recorded. Is that clear?”

Senator Bottiger: “Yes, that is clear.”

POINT OF INQUIRY

Senator Sandison: “Will Senator Bottiger yield to a question? I am not completely clear because I do not know what the federal communication act is. If the telephone company was doing this, because they are in interstate commerce, does that affect this at all or are they exempt from this portion?”

Senator Bottiger: “Senator Sandison, my understanding is that this amendment will bring our law into compliance with the federal law which does not require consent, only requires knowledge that the conversation is being recorded.”

Senator Sandison: “Okay.”

The motion by Senator Bottiger carried and the amendment was adopted.

On motion of Senator Bottiger, the committee amendment to the title was adopted.

On motion of Senator Bottiger, the rules were suspended, Engrossed Senate Bill No. 2072 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Woody: “Would Senator Bottiger yield? I want to establish legislative intent for something that Senator Van Hollebeke just raised with me and I am thinking back to that case in Seattle where the fellow had a tape recording device on his person when he was terminated. That recording, as I recall, was admitted into evidence?”

Senator Bottiger: “Yes.”

Senator Woody: “Is it your legislative intent or was it the intent of either you as the sponsor or the committee in determining this, that in the event a tape recording was made by a person in a situation such as that and did not obtain the consent either under the existing law or by your amendment that that would not be admissible into evidence?”

Senator Bottiger: “I do not have any intent to affect that court decision on the admissibility in any way. I am not quite sure how it was admissible, but it is not the intent of this bill to change or modify that ruling.”

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2072, and the bill passed the Senate by the following vote: Yeas, 40; nays, 3; excused, 6.

ENGROSSED SENATE BILL NO. 2072, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SENATE BILL NO. 2026, by Senators Walgren, Beck, Jones, Talley and Goltz: Exempting inventory of sheltered workshops from property taxation.
The bill was read the second time by sections.

On motion of Senator Walgren, the rules were suspended, Senate Bill No. 2026 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 2026, and the bill passed the Senate by the following vote: Yeas, 43; excused, 6.

SENATE BILL NO. 2026, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

POINT OF INQUIRY

Senator Lewis (Harry): “I wonder if Senator Walgren would yield to a question? Senator Walgren, I have been reading and re-reading this language in Senate Bill No. 2026, and I want to pose a theoretical question for you as to what the language would mean.”

MOTION FOR RECONSIDERATION

Having voted on the prevailing side, Senator Bottiger moved that the Senate do now reconsider the vote by which Senate Bill No. 2026 passed the Senate.

POINT OF ORDER

Senator Marsh: “Isn’t there an easier way to do this simply by suspending the rules and asking that the question be inserted in the Journal and the answer?”

RULING BY THE PRESIDENT

The President: “Senator Marsh’s point is well taken.”

Senator Bottiger: “I withdraw my motion.”

The President: “If there are no objections, the motion to reconsider is withdrawn. If there are no objections, the question and the answer will be recorded in the Journal.”

POINT OF INQUIRY

Senator Lewis (Harry): “Senator Walgren, under the terms of Senate Bill No. 2026 just passed by the Senate, I am wondering how the language would be interpreted under legislative intent under the following situation. Assume that I were to purchase a million board feet of lumber and have it shipped to a sheltered workshop for manufacture or work to be done with that lumber under a contract or for another purpose for my interest; could that inventory of lumber held by the sheltered workshop be included under the terms of Senate Bill No. 2026?”

Senator Walgren: “It would be my intent, and I would trust the intent of the legislature, that it would not be exempt.”

POINT OF INQUIRY

Senator Bottiger: “Mr. President, under the same suspension, I would like to ask Senator Woody to yield to a question. Senator Woody, under the provisions of this bill, would it be your interpretation of the intent of the legislature that someone could purchase a piece of expensive machinery in the name of a sheltered workshop and then enter into a lease-back arrangement with that sheltered workshop in order to escape the inventory and personal property tax on that machinery?”
Senator Woody: "It would be my understanding that it would not, but in order to establish legislative intent and since I am not the sponsor and was not on the committee, I think that Senator Walgren ought to answer that."

Senator Walgren: "Responding to Senator Bottiger’s question, it is my intent as the sponsor, and I would believe the intent of the legislature, that there would be no escape of the taxation in that circumstance."

SECOND READING
SENATE BILL NO. 2070, by Senators Francis, von Reichbauer and Ridder (by Department of Labor and Industries request):
Revising regulations and payments to victims of crimes.

REPORT OF STANDING COMMITTEE
February 12, 1975.

SENATE BILL NO. 2070, revising regulations and payments to victims of crimes (reported by Judiciary Committee):
MAJORITY recommendation: Do pass with the following amendments:
On page 2, line 24, after "who" and before "lives" strike "lives in this state and intends to do so indefinitely." and insert "has been in this state for thirty days or has clearly signified an intent to remain in this state for at least thirty days."
On page 3, line 35, after "of the spouse of" and before "the victim" insert "or sibling of the spouse of".
Signed by: Senators Francis, Chairman; Bottiger, Clarke, Jones, Van Hollebeke, Woody.
The bill was read the second time by sections.
Senator Francis moved adoption of the committee amendment to page 2.

POINT OF INQUIRY
Senator Wilson: "Will Senator Francis yield? Senator, it occurs to me that this does broaden the scope of the coverage, at least by a little bit, which in turn raises the question of the fiscal impact of this program as it has been developing since it was originally passed, and also the question as to whether any sort of fiscal impact specifically can be assigned to this amendment."
Senator Francis: "It is my recollection — committee members could correct me — there was only one or two out of hundreds of applications where there was any question about being a resident. So that I do not see any fiscal impact. Instead, it was regarded by the committee, and this amendment was not offered by me but by another member of the committee and I do not recall who right now, but the feeling of the entire committee was that it would just be easier to determine, that we would not have to go into somebody’s state of mind as to whether or not they intend to make this their home for the rest of their life but simply that they are here for a period longer than what we would regard as an ordinary vacation. And this was, in other words, to go into it any more than that created nothing but administrative problems. And I can tell you from having worked with the out-of-state tuition problem that at the various colleges and universities they have a lot of trouble getting at a question of intent as to whether someone intends to stay in this state after they graduate and so forth, too. So we just decided we would not make the Department of Labor and Industries go through that kind of administrative hassle. I do not see a fiscal impact to it at all."

POINT OF INQUIRY
Senator Rasmussen: "Will Senator Francis yield? Senator Francis, this is not directly related to this amendment. Do you have a definition of 'gainfully employed'? Could I ask, unless a person was gainfully employed at the particular time that the crime was committed, would his family be prohibited from receiving benefits under this act?"
FIFTIETH DAY, MARCH 3, 1975

Senator Francis: "That gets into the whole area of what kinds of compensation are available. It is very similar to a workmen's compensation schedule and when you are talking about receiving a percentage of what your wages have been, then you have to refer back to the gainful employment part of it. But there are a number of places throughout the act where gainful employment is a key phrase. And I think that Senator Woody may have more that he could respond with on that question."

Senator Woody: "Yes, Senator Rasmussen, on page 5, on line 12 you will see the language 'was not gainfully employed' and below you will see a certain schedule, because you have to take into consideration not only the spouse but siblings and children for a schedule to a person who, at the time he was injured, was not employed but may have been the day before. That was a question that was raised in committee because we did not want to treat that sort of person unfairly. And there is a schedule below the line 12 as to those payments as to those persons who were not gainfully employed at the time of the criminal act."

The motion by Senator Francis carried and the committee amendment to page 2 was adopted.

On motion of Senator Francis, the committee amendment to page 3 was adopted.

On motion of Senator Francis, the rules were suspended, Engrossed Senate Bill No. 2070 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Wilson: "Will Senator Francis yield? I imagine the proliferation of my questions is due to the fact that I have been among the absent for two years and do not know how this bill is working out. I am interested in what fiscal impact this program has had, about how many claims you are receiving, about how many of those are being granted, and what the total effect of the amendments in this bill will have on the program."

Senator Francis: "Senator Wilson, I cannot answer all of those questions. I am not on Ways and Means. There are a number of things that are before Ways and Means. For example, we provided in the bill for retroactive benefits to people who had already been victims of crime. They have filed their applications. It is my recollection there are around four hundred of them and that around three hundred or two hundred and fifty have been recommended for approval. That will be up to the Ways and Means Committee and to this body as a whole ultimately as to what is done with those claims. They have all been processed. The other ones coming in I do not know the numbers. We were concerned with what was going to happen on the retroactive end of things. All of that will be decided later. In other words, this is a matter of structuring the act. As far as what kind of funding and so forth, I do not know that this has any fiscal impact. I could stand being corrected on that, but as far as I know this was to resolve certain ambiguities and certain questions, and as far as which way it cuts, it looked to us from all of the testimony which we received that it evened up, that it would include some people in and it would exclude other people that would now be in."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2070, and the bill passed the Senate by the following vote: Yeas, 41; excused, 8.

ENGROSSED SENATE BILL NO. 2070, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

February 26, 1975.

SENATE BILL NO. 2434, permitting the state finance committee to invest in paper secured by the sale or lease of equipment of a corporation located in the state (reported by Committee on State Government):

MAJORITY recommendation: Do pass with the following amendments:

On page 5, line 16, insert the following subsection:

“(15) Any obligation, equipment trust certificate, or interest in any obligation arising out of any transaction involving the sale of any equipment by, or the lease of any equipment from, any corporation engaged in the business of transportation or manufacturing, with its principal place of business located in Washington State, or by or from any wholly-owned subsidiary of any such corporation, provided that either (a) the obligation shall be secured by ownership of the equipment or by a first mortgage or other security interest creating a first lien on such equipment or (b) the obligation shall be guaranteed by the United States government or any agency or instrumentality thereof or by a foreign government or any agency or instrumentality thereof or by any province of Canada.”

On page 5, line 22, strike the entire subsection.

REPORT OF STANDING COMMITTEE

February 7, 1975.

SENATE BILL NO. 2171, imposing fine and jail for willful failure to appear before superior court after release on bail or personal recognizance (reported by Judiciary Committee):

MAJORITY recommendation: Do pass with the following amendment:

On line 9 after "any" strike "superior" and on line 14 after "than" strike "ten" and insert "five" and on line 16 after "charged" add "or if there has been no charge, the offense for which the person was arrested".

Signed by: Senators Francis, Chairman; Buffington, Clarke, Fleming, Jones, Marsh, Scott, Van Hollebeke.

The bill was read the second time by sections.

On motion of Senator Clarke, the committee amendment was adopted.

Senator Clarke moved adoption of the following amendment by Senators Clarke and Francis:

On line 16, after "charge" and before the period insert ": PROVIDED, That in cases where a bail forfeiture is allowed as a final disposition, this section shall not apply".

Debate ensued.

POINT OF INQUIRY

Senator Woody: "Would Senator Clarke yield? Senator Clarke, I have two questions. Number one, your provision says that in cases where a bail forfeiture is allowed. What do you mean by allowed? By whom? Is there a standard? I do not mean to get you in a box on this. Do you know of a standard rule either set forth by statute or the Supreme Court as to when bail forfeiture is allowed?"

Senator Clarke: "Yes, Senator Woody. The rule T-203 of the rules for courts of limited jurisdiction as promulgated by the Supreme Court makes provision for, in effect, the setting of bail schedules and, in effect, for the forfeiture of such bail in lieu of an appearance. And it also, however, sets forth in the same rule, cases where there is a mandatory court appearance and where, for instance, this exemption would not apply and these, for instance, would relate to things such as reckless driving, hit and run, wrong way on a freeway. Now examples of the cases where bail forfeitures are permitted are things such as speeding, failure to stop at a sign, failure to yield right-of-way, following too close, failure to signal, defective equipment, things of that nature. In other words, this is sufficiently spelled out in the rules so I think there would be no difficulty in making the determination."

Senator Woody: "As I understand it, Senator Clarke, a further question to you, the limitations in that rule that you cited are not exclusive. The district court or superior court judge may also say that certain matters that are not listed in that rule are not forfeitable items. I know some judges are saying, for example, that possession of intoxicating liquor by people under twenty-one, they are not allowing those to be forfeitable even though they are not covered. Were you aware of this, or has that been determined elsewhere?"

Senator Clarke: "It was the intent of the amendment, in reality, and the reason why the wording of the amendment is so broad is, I think, to cover exactly such situations that you are referring to. That is, if under either the supreme court rule or a rule adopted by a local court, bail forfeiture would not be permitted, then the amendment would not apply. So I would assume that that would take care of your situation."

Senator Woody: "Yes, Senator Clarke. Finally, what would happen if your amendment were to be adopted and a person were charged in a case where bail forfeiture is
allowed by the court rule and yet he is released on personal recognizance. I would inter-
pret your amendment to result in a situation that a person who is released on his per-
sonal recognizance would not then be guilty of a crime of not showing up, of jumping
bail, so to speak."

Senator Clarke: "If this were a situation where bail forfeiture were permitted, I
think perhaps you are correct, but I think that in order to cover the majority of the situa-
tions that this is about as close as we can come with an all-inclusive amendment."

Senator Woody: "The only reason I ask you that particular question is that there is
a growing trend, especially in district court, to not require bail. I think it is working
very well. Personal recognizance is being granted to almost anybody on a traffic charge
because it is found that the only result of bail being put up was to create a market for
bail bondsmen, and if that trend continues to greatly expand the use of personal recog-
nizance affidavits, then by your amendment you would really take out any further in-
centive to keep a person from jumping his personal recognizance bond."

Senator Clarke: "Senator Woody, I would merely point out that that situation
would exist under the law as it presently is. So what we are doing here by creating this as
an additional crime is making a completely new enactment so that we certainly are not
taking away from any enforcement that presently exists. Perhaps we have not gone quite
far enough under the circumstances which you suggest, but I think those are being pretty
well taken care of under the law as to those relatively minor offenses."

Debate ensued.

There being no objection, the amendment by Senators Clark and Francis was with-
drawn.

On motion of Senator Francis, the rules were suspended, Engrossed Senate Bill
No. 2171 was advanced to third reading, the second reading considered the third, and
the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No.
2171, and the bill passed the Senate by the following vote: Yeas, 42; nays, 2; absent or
not voting, 1; excused, 4.

Voting yea: Senators Beck, Benitz, Bluechel, Bottiger, Clarke, Cunningham, Dono-
hue, Fleming, Francis, Goltz, Gould, Grant, Henry, Herr, Jolly, Jones, Knoblauch,

Murray, North, Odegaard, Peterson, Pullen, Rasmussen, Ridder, Sandison, Scott, SELL-
ar, Stortini, Talley, Van Hollebeke, von Reichbauer, Walgren, Wanamaker, Wilson,

ENGROSSED SENATE BILL NO. 2171, having received the constitutional ma-
iority, was declared passed. There being no objection, the title of the bill was ordered to
stand as the title of the act.

MOTION

On motion of Senator Mardesich, the Senate commenced consideration of Senate
Bill No. 2241.

SECOND READING

SENATE BILL NO. 2241, by Senators Ridder, Marsh and Matson:

Authorizing resumption of payments to a widow of a workman after remarriage
has terminated.

MOTIONS

On motion of Senator Ridder, Substitute Senate Bill No. 2241 was substituted for
Senate Bill No. 2241, and the substitute bill was placed on second reading and read the
second time in full.
Senator Lewis (Harry) moved adoption of the following amendment:
On page 4, line 20, after "[twenty-one]" strike "twenty-five" and insert "twenty-two".

Debate ensued.
The motion by Senator Lewis (Harry) carried and the amendment was adopted.

Senator Morrison moved adoption of the following amendment by Senators Lewis (Harry) and Morrison:
On page 3, line 9, strike "have an option of" and insert "make a binding election as follows;"

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Mr. President and members of the Senate, the question I have for Senator Ridder is this. Suppose I am contemplating remarriage and I make the election as proposed by Senator Morrison there, binding, I am not going to take the cash settlement. Would not that just, in effect, right at the start cast a cloud on that marriage, if she is holding an option open that the marriage is not going to continue? Anyway they marry, there are children probably in the family. Now, by making this election to leave the door open so she can come back in on the pension — I think it would be a bad start to a marriage."

Senator Ridder: "Senator Rasmussen, you have stated some of the very reasons why we are advocating that the option be open. In some places this particular payment is referred to as a dowry payment and in fact there have been problems sometimes with perhaps hasty marriages when that seventy-five hundred dollars looks pretty good to a prospective bridegroom. So the thought is that the security of those monthly payments is something that a prospective bride or bridegroom might hesitate to give up, and to embark upon a remarriage which might be under somewhat less stable circumstances than those that are established at perhaps an earlier period in life, that is that marriages later in life sometimes are between people who have some adverse circumstances to deal with, that is, previous marriages perhaps on the part of one of the partners — obviously on the part of one of the partners. Perhaps there have been binding family obligations which have led someone to establish habits which are not conducive to two-part harmony, shall we say."

Senator Rasmussen: "The purpose of the bill is very commendable. I am not sure that we are getting at it in the right way and I am not sure whether Senator Morrison's amendment helps or hurts the bill."

Senator Ridder: "I am not sure either. I cannot speak to the merits of that amendment."

Further debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "I would like to ask Senator Woody a question. He and Senator Bottiger seem to know more about this bill. Supposing that this woman tells her husband-to-be, and it could go either way under these industrial insurances but mostly it is the woman, and she says, 'I am not going to take this seventy-five hundred lump sum dowry because I am suspicious that we won't stick together.' That is not going to help the proposed marriage."

Senator Woody: "I am not an expert on what helps marriages. But you are right."

Senator Rasmussen: "Now, in the case that she elects, how is she going to pay the money back?"

Senator Woody: "If she intends to pay the money back she will just have to. . . ."

Senator Rasmussen: "Under Senator Morrison's why there is no way."

Senator Woody: "No, there is not. It is a binding election. It is done, accomplished."

Senator Rasmussen: "There should be a better way of handling this problem and I do not think this bill does it."
POINT OF INQUIRY

Senator Lewis (Harry): "Will Senator Woody yield? Senator Woody, under (i) it says he or she shall receive once and for all. The question that bothered us was, number one, you are talking about an option and then you are saying shall receive once and for all, and I think those two are in conflict and that was the reason for the amendment. I can see somebody perhaps who is married for twenty-five years for a second time and this thing would all be in limbo. At that point, without the amendment, could she repay the seventy-five hundred dollars and start on a pension? Is that the inference? I just think the language is unclear and I think perhaps the attorneys here could look at it. Attorneys raised the question. We are having the same problem with attorneys we have always had."

Senator Woody: "Which question did you want me to answer, the latter or the former? I understand what you are saying so far as the language on line 10 through 14 is concerned. If the option language stays in rather than the amendment and somebody exercises an option, it is once and for all. She or he has the seventy-five hundred dollars and that is it. Once you exercise an option you have triggered the mechanism for the contract and you cannot go backwards on it. You cannot rescind it. However, what I was addressing myself to was that the language as it is right now would create an option at the date of the remarriage. There is no closing date in which you must exercise the option. Senator Morrison's amendment would say that at the date of the remarriage the surviving spouse must make an election, a binding election. Must make it at that time and cannot wait one year, two years, five years or ten years to make that election."

Further debate ensued.

POINT OF INQUIRY

Senator Mardesich: "Would Senator Marsh yield to a question? Senator Marsh, I am completely unfamiliar with the operation of this act. Do I gather that if an election is not made that the monthly payments could then be drawn and then at some later time they could make the election to draw the seventy-five hundred, because I see nowhere in that page, at least on that page, a proviso that the monthly payments would be deducted from the lump sum if the election were made later? Could a person continue to draw monthly payments and make the lump sum option later and draw the full seventy-five hundred after having received the monthly payments?"

Senator Marsh: "No, I think if you decided to continue receiving the monthly payments, then you would have precluded the other option."

Senator Mardesich: "It does not say that though. That is the point I am raising."

Senator Marsh: "I see your problem and I think perhaps we ought to take some additional time. I would ask that it be put down a couple of bills."

MOTIONS

On motion of Senator Mardesich, Substitute Senate Bill No. 2241, as amended, together with the pending amendment by Senators Lewis (Harry) and Morrison, was made a special order of business following the special order of business Senate Bill No. 2423 today.

PERSONAL PRIVILEGE

Senator Bottiger: "I may have confused the issue. I have been lobbied on a House bill that has a pay back of this pension of the election to get back into the monthly payments and I just presumed that was in this bill. I am satisfied now that — if I have confused anybody by the idea of once you take the seventy-five hundred dollars, paying it back to get back on, I apologize. I understand it is not in this bill."

MOTION

On motion of Senator Mardesich, the Senate commenced consideration of Senate Bill No. 2110.
SECOND READING

second time in full.

On motion of Senator Walgren, the rules were suspended, Substitute Senate Bill
No. 2110 was advanced to third reading, the second reading considered the third, and
the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Woody: “I have people working on these things as fast as they come up. A
note that I got very quickly right now indicates, Senator Walgren, could you yield?
Does it require a bicycle to get a license? Under Sections 90 to 93? A person operating
a bicycle?”

Senator Walgren: “Section 93?”

Senator Woody: “90 to 93.”

Senator Walgren: “It appears so, but I should also say, Senator Woody, that this is
not substantive law at all. It will not become substantive law unless adopted by the local
jurisdiction.”

Senator Woody: “But even so, I know how model acts go. You tend to adopt sec­
tions one through terminal and if we are trying to get some drunks out of their cars and
on bicycles I suppose they would be able — is this a special license? A license and a li­
cense plate? It says ‘bicycle has been licensed.’ Does this not apply to the person but
rather to the. . . .”

FIFTIETH DAY, MARCH 3, 1975

MOTION
On motion of Senator Mardesich, the Senate commenced consideration of Senate Bill No. 2235.

SECOND READING
SENATE BILL NO. 2235, by Senators Talley, Jolly and Sellar:
Allowing certain public utility districts to acquire, construct, operate and add to sewage and sanitation systems.

MOTIONS
On motion of Senator Fleming, Substitute Senate Bill No. 2235 was substituted for Senate Bill No. 2235, and the substitute bill was placed on second reading and read the second time in full.

Senator Woody moved adoption of the following amendment:
On page 1, line 6, after “river,” insert “and Snohomish County”.

On motion of Senator Wilson, the following amendment to the amendment by Senator Woody was adopted:
Amend the Woody amendment as follows: after “and” and before “Snohomish” insert “in”.

Debate ensued.

POINT OF INQUIRY
Senator Fleming: “I would like to ask Senator Woody to yield to a question. Senator Woody, I was busy discussing the amendments on the bill and, did you indicate that the Snohomish County officials were interested in this type of arrangement?”

Senator Woody: “Yes, of course. Last year we approached this same problem and the Public Utilities District in Snohomish County and the Snohomish County Commissioners were inquiring of us as to what sort of legislation we could think of that would permit the PUD, and we wanted the PUD rather than the county itself, or creating another METRO, to have the authority to put in sewer lines in areas in a manner that we would not have to go and up the LID route. This would really do it and do it for those counties along the Columbia and if you adopt my amendment, will do it for Snohomish County as well.”

Senator Fleming: “Thank you.”

Further debate ensued.

POINT OF INQUIRY
Senator Bailey: “I want to ask a question of Senator Talley. It relates to this bill and to the amendment too, I think, and that is, if a PUD in any of these counties decides to take on a sewer district, they are usually not county-wide, they would be only sectionals, and then is approved by the county commissioners, they could organize that district without a vote of the people?”

Senator Talley: “Are you speaking of existing districts?”

Senator Bailey: “Yes.”

Senator Talley: “We have an amendment by Senator Sellar which we think will cover that point. 'With the approval of a majority of the qualified voters within any existing sewer district.' ”

Senator Bailey: “Further question then. If that amendment is adopted, that will change some part of it. However, what happens to the existing sewer districts? Can the PUD take those over and assume their obligations?”

Senator Talley: “I cannot answer your question. I would assume, Senator Bailey, that the obligation of the district would have to be negotiated or settled some way. I do not know.”

Senator Bailey: “Then the third question is this. If the PUD takes over or starts a sewer district, can it use any of its public power funds for that sewer district? In other words, can the whole county get saddled with higher electric rates because this district decides to furnish sewerage to one little part of the county? If that could be written into
the bill that they would have to start a self-sustaining district in which no funds could be
intermingled, I would be heartily in favor of the bill, but I think that has to be in there.”

Senator Talley: “Senator Bailey, we have no thought of obligating the rest of the
county for any sewer district. The only thought about the PUD getting into the sewer
business was that their bonding abilities are far superior to what the counties are and
they could spread these payments out over a longer period of time and that way they
could keep the rate down until the area grew and they got enough customers on it to
make it self-sustaining.”

Further debate ensued.

POINT OF INQUIRY

Senator Bluechel: “Would Senator Woody yield to a question, please? Senator
Woody, could you tell me if Referendum 26 funds are applicable to PUD’s as well as
cities and counties under the statute we have — matching funds?”

Senator Woody: “I cannot answer that question.”

Senator Bluechel: “I would think that this would have a great deal of bearing as to
the usability of the amendment because most sewer districts are going to require the
seventy-five percent match for treatment plants and trunk lines that the federal govern­
ment supplies under our Referendum 26 plus the state fifteen percent. This makes it
possible, actually determines the question of whether the district will go in or not.”

Senator Woody: “I can answer that part of the question and my answer there is,
what you are talking about is not something that goes to my amendment but rather to
the bill. The bill itself talks about any county bordering the Columbia River and I am
adding Snohomish County. Your question is relating to the counties, including Snoho­
mish County, that it might cover.”

On motion of Senator Woody, the following amendment to the amendment by
Senator Woody was adopted:

Amend the Woody amendment as follows: rewrite to read as follows: before “any”
insert “Snohomish county and”.

The motion by Senator Woody carried and the amendment, as amended, was
adopted.

Senator Sellar moved adoption of the following amendment:

On page 1, line 7, after “acquire” and before the comma insert “with the approval
of a majority of the qualified voters within any existing sewer district”.

POINT OF INQUIRY

Senator Lewis (Harry): “Will Senator Sellar yield? Do I understand your amend­
ment that on any acquisition of a sewer district that for that purpose they must have a
majority vote of the qualified voters within the sewer district that the PUD would be
acquiring?”

Senator Sellar: “That is correct.”

Senator Lewis (Harry): “Why did you not include ‘add to sewage systems’? In other
words, could the PUD then add to an existing sewage system, as I read your amend­
ment, without the authority of the voters within that existing sewer system?”

Senator Sellar: “I believe they could, Senator Lewis, and the reason for that is, of
course, because of the sewage treatment plants. I really cannot see why we should really
have a vote to hook onto the existing sewage treatment plant if they can work out with
the county legislative authority, if they own the treatment and whoever does, some type
of contractual arrangement to use the treatment plant. I really cannot see why we should­
bring a vote of the people into that.”

Debate ensued.

Senator Bailey moved adoption of the following amendment to the amendment by
Senator Sellar:

Amend the Sellar amendment as follows: after “existing” insert “or proposed”.

Debate ensued.

The motion by Senator Bailey carried and the amendment to the amendment was
adopted.
The motion by Senator Sellar carried and the amendment, as amended, was adopted.

MOTION

Senator Bailey moved that Substitute Senate Bill No. 2235, as amended, be held for further consideration following the special order of business, Senate Bill No. 2423.

PARLIAMENTARY INQUIRY

Senator Bailey: "Mr. President, an inquiry then. If we are proceeding on this and have already started action, I presume that four o'clock is not necessarily the deadline."

REPLY BY THE PRESIDENT

The President: "The President has always believed that any bill being considered by the Senate at four o'clock, that the Senate should complete its consideration of the measure."

MOTION

On motion of Senator Talley, Substitute Senate Bill No. 2235, as amended, was made a special order of business on second reading at 3:55 p.m. today.

MOTION

On motion of Senator Mardesich, the Senate commenced consideration of Senate Bill No. 2055.

SECOND READING

SENATE BILL NO. 2055, by Senators Henry and Murray:

Recovering attorney's fees in cases of illegal odometer replacement.

On motion of Senator Francis, the rules were suspended, Senate Bill No. 2055 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Woody: "Would Senator Henry yield? You and I discussed the repealer. Unless somebody read the repealer or the digest they would not realize that the repealer of the section that permits a dealer to disconnect the odometer when he is going to a neighborhood dealer to switch cars so he can make a sale. As long as he tells the officer this so they do not run up mileage on the odometer that would take away from the warranty, as long as he tells the purchaser, 'Look, I brought this in from Portland because we switched cars, we could get you a purple car with a pink interior,' then it is all right. Is that correct?"

Senator Henry: "For the record, Senator Woody, that is correct."

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 2055, and the bill passed the Senate by the following vote: Yeas, 45; excused, 4.

SENATE BILL NO. 2055, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.
MOTION
On motion of Senator Mardesich, the Senate commenced consideration of Senate Bill No. 2343.

SECOND READING
SENATE BILL NO. 2343, by Senators Beck, Walgren and Stortini:
Requiring accident reports for bicyclists.

REPORT OF STANDING COMMITTEE February 18, 1975.

SENATE BILL NO. 2343, requiring accident reports for bicyclists (reported by Committee on Transportation and Utilities):
MAJORITY recommendation: Do pass with the following amendment:
On line 21 after “Sections” and before “2,” strike “1,”
Signed by: Senators Walgren, Chairman; Beck, Bluechel, Bottiger, Guess, Jolly, Knoblauch, Morrison, Sellar, Wanamaker.
The bill was read the second time by sections.
On motion of Senator Walgren, the committee amendment was adopted.
On motion of Senator Walgren, the rules were suspended, Engrossed Senate Bill No. 2343 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.
Debate ensued.

POINT OF INQUIRY
Senator Day: “Would Senator Beck yield? Senator Beck, the way I read Section 2 here, if one of my under-age children is riding a bike, falls down on the gravel, gets some gravel in his knee, you have to take him to the doctor to get the gravel out, that is a reportable accident?”
Senator Beck: “Yes, we want to find out just how many people are being hurt with bicycles and how badly they are being hurt and what the state can do. This will give us a clue as to what we can do. This is not in any way to jeopardize or harass anyone who rides a bicycle, just an attempt to find out where the accidents are happening and what we can do about it.”
Senator Day: “Senator Beck, continuing, would not it be better if this were amended so that if the bicyclist were involved in an accident with another bicycle or with another vehicle rather that then would be reportable? Otherwise they are just going to clutter up these files with a lot of reports that are really pretty meaningless, it would seem to me.”
Senator Beck: “We have certain kinds of culverts and drainage systems and our storm sewers where kids riding bicycles will run over these things and their wheels get caught. We would like to find out anything that is causing an accident. There are lots of things that could happen there, Senator Day. I do not believe that this is imposing any undue hardship to go down and the parent report if a child has had an accident and what happened.”
Further debate ensued.

POINT OF INQUIRY
Senator Sandison: “Will Senator Beck yield to a question? Senator Beck, I was wondering, if a small child on a grade school ground had a bicycle accident and went to the school nurse, would that be professional medical treatment? And that is the rule in most grade schools.”
Senator Beck: “Senator Sandison, I am not trained as a legal mind. Any legal opinion I give you is worth just what you are paying for it, and that is absolutely nothing. I do not know. I do know that this is an attempt to get some statistics. It was recommended to us by about a seventy-five person advisory committee of people who ride bicycles all over the state. This requires you to make a report just as if you had had an accident with an automobile. I doubt if any little minor accident like that would be
FIFTIETH DAY, MARCH 3, 1975

required to be reported. The school, I think, would use their good judgment of that. But as I say, I am not a legal mind, Senator Sandison. My advice to you is worth just what you pay for it.”

POINT OF INQUIRY

Senator Van Hollebeke: “Would Senator Beck yield to a question? Senator Beck, requires that they meet the provisions of Title 46.52’. Does that title make this a crime to not report this? I am pretty concerned. For instance, if you had nine children, I cannot keep track of all the bicycle accidents they get into. What if it requires a tetanus shot? I am editorializing while I am questioning.”

Senator Beck: “Senator Van Hollebeke, I do not think you have anything to worry about. You know, that particular chapter of the code refers to suspending of the license. You do not have to have a license to run a bicycle and it specifically excludes that provision.”

Senator Van Hollebeke: “Isn’t there a criminal penalty involved though, Senator? I am pretty concerned about this.”

Senator Beck: “No, there is no criminal penalty involved as to my knowledge.”

POINT OF INQUIRY

Senator Cunningham: “Would Senator Francis yield to a question please? Senator Francis, could you tell me what the penalties are if you are operating a motor vehicle and fail to file the accident report in the event that you are unfortunate enough to have an accident?”

Senator Francis: “Senator Cunningham, I do not have that provision of the RCW here. I was curious about it myself. Ordinarily, if you require the doing of an act, there would be a misdemeanor penalty going along with it if there is no penalty specified. I would assume that it would be at least a misdemeanor here. Senator Walgren may know better as far as what the financial responsibility law requirements are. I am pretty sure it is a misdemeanor there, too.”

Further debate ensued.

MOTIONS

On motion of Senator Marsh, the rules were suspended and Engrossed Senate Bill No. 2343 was returned to second reading.

Senator Marsh moved adoption of the following amendment:

On line 12, after “treatment” and before the comma insert “estimated to cost more than one hundred dollars”.

Debate ensued.

The motion by Senator Marsh carried and the amendment was adopted on a rising vote.

Senator Newschwander moved adoption of the following amendment by Senators Francis and Newschwander:

Beginning on line 23, strike all of section 5.

Debate ensued.

POINT OF INQUIRY

Senator Francis: “Will Senator Bottiger yield to a question? Senator Bottiger, when we write an emergency clause and then attach a specific date to it rather than saying ‘immediately,’ what happens to the right of referendum?”

Senator Bottiger: “Senator Francis, you are asking me for a top of the head answer. I would presume that if you wanted a referendum you would immediately file an action in court saying that this July 1 date would cut off your right of referendum. The court would look at that and say no, that is not what they had in mind and would give you your right of referendum. Now that is what I think would happen. Our problem is, how do we make an act effective on a specific date. If you would like to amend that July 1 to January 1, 1976, I would have no objection. What I am asking for is a specific start date for the statistical information.”

Debate ensued.
Senator Clarke: "Would Senator Bottiger yield? Senator, since we are now in a constitutional session, when would this bill become effective without the emergency clause?"

Senator Bottiger: "Senator Clarke, presuming that the House passed it and the Governor signed it, it would become effective ninety days from the end of the session which would be some time in May."

Senator Clarke: "Prior, in any event, to July 1."

Senator Bottiger: "That is correct."

Senator Clarke: "It seems to me that we are being entirely inconsistent with this type of language and if you want to accomplish the July 1 date, I would suggest that you strike the emergency provisions and simply make a definite declaration that the effective date shall be July 1. Otherwise I think we are in a completely inconsistent situation in having said that it is an emergency and then putting a date later."

Senator Bottiger: "Of course, Senator Clarke, the answer to that is, what if the bill passed more likely than not some time early in the special session and the effective date would have been July 3? Then we have a whole group of incomplete statistics for that period."

Senator Clarke: "My answer to that, Senator, would be if that is done it would have to be repassed in the special session anyway and should then be taken care of."

MOTION

On motion of Senator Mardesich, the Senate commenced consideration of the special order of business.

SPECIAL ORDER OF BUSINESS
SECOND READING

SUBSTITUTE SENATE BILL NO. 2423, by Committee on State Government): Prescribing changes in requirements for manufacture, sale, dispensing and possession of alcoholic beverages.

The time having arrived, the Senate resumed consideration of Substitute Senate Bill No. 2423, as amended previously today, and an amendment by Senator Buffington, moved for adoption by Senator Lewis (Harry). There being no objection, on motion of Senator Rasmussen, the amendment by Senator Buffington was laid upon the table.

On motion of Senator Rasmussen, the rules were suspended, Engrossed Substitute Senate Bill No. 2423 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Matson: "Would Senator Rasmussen yield to a question? I noticed in, I think it is in Section 2, and also in Section 10, there appears to be some revenue impact in those two sections. Do you have any idea what they are?"

Senator Rasmussen: "Senator Matson, no, there is a very little, probably none. Section 2 makes it possible for people entering Washington from outside the United States to bring liquor into the state for their personal or household use upon the payment of the state markup in taxes. At the present, they are authorized to bring in only the amount the United States permits duty free, one quart per adult in most cases. Military personnel and civilians returning from overseas often have three or four bottles, but under present law there is no legal way for them to bring in more than one bottle. That is the intent of that amendment. The money would go into the Liquor Board the same as it does at the present time on their markup and their profit."
MOTION

Senator Matson moved that Engrossed Substitute Senate Bill No. 2423 be referred to the Committee on Ways and Means.

Debate ensued.

POINT OF INQUIRY

Senator Ridder: "Will Senator Francis yield? You mentioned that we would allow people to bring in liquor from out of state? My understanding from the resume is that it is out of country. Am I right or wrong?"

Senator Day: "Mr. President, in answer to Senator Ridder's question, the federal government already regulates the bringing in of alcoholic beverages. I guess they will allow you one bottle and then you have to do certain things to bring in more. What this particular section will do is, let us say that I lived in Illinois and I wanted to move to the state of Washington and I had a big wine collection. I wanted to bring that wine collection to the state of Washington. I could do so and do so legally by applying to the Board, telling them how much I had and paying the taxes applicable to that particular amount of wine. So that is really where the plus impact is going to come, and it could also allow the department some additional latitude in catching people bringing in illicit booze. But the thing is that the impact is not going to be a negative impact. It is going to be a slight positive impact and most of that is going to be on a volunteer basis. I cannot see that there is any reason for this bill to go to Ways and Means."

Senator Marsh: "Mr. President, ladies and gentlemen, with all due respect to Senator Day, I would call attention to the bottom of page 2, line 32, and that language reads, 'A person twenty-one years of age or over may bring into the state from without the United States, from without the Unites States, and then the amendatory language that Senator Ridder is referring to which follows that is on top of page 3; it says, 'Such entry of alcoholic beverages in a reasonable amount in excess of that herein provided may be authorized by the Board upon payment of an equivalent markup and tax as would be applicable to the purchase of the same or similar liquor at retail from the state liquor store. So it does apply to out of state, out of country; from without the United States.'"

Further debate ensued.

The motion by Senator Matson failed.

The President declared the question before the Senate to be the roll call on final passage of Engrossed Substitute Senate Bill No. 2423.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 2423, and the bill passed the Senate by the following vote: Yeas, 39; nays, 6; excused, 4.

Voting nay: Senators Jones, Lewis (Harry), Matson, McDermott, Pullen, Sellar—6.

ENGROSSED SUBSTITUTE SENATE BILL NO. 2423, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Mardesich, the Senate commenced consideration of the special order of business, Substitute Senate Bill No. 2241, as amended.
SPECIAL ORDER OF BUSINESS
SECOND READING

SUBSTITUTE SENATE BILL NO. 2241, by Committee on Labor:
Authorizing resumption of payments to a widow of a workman after remarriage has terminated.

The time having arrived, the Senate resumed consideration of Substitute Senate Bill No. 2241 on second reading. Earlier today an amendment by Senator Lewis (Harry) was adopted and the following amendment by Senators Lewis (Harry) and Morrison had been moved for adoption by Senator Morrison:

On page 3, line 9, strike "have an option of" and insert "make a binding election as follows:"

Debate ensued.

MOTION

On motion of Senator Lewis (R. H. "Bob"), Senators Gould and Matson were excused.

Further debate ensued.

POINT OF INQUIRY

Senator Lewis (Harry): "I wonder if Senator Marsh or Senator Mardesich would respond to a question? Supposing that there was to be a dissolution of a marriage five years after the second marriage in this case and the option had not been exercised. Maybe this bears or does not bear, but there is a possibility that it might bear on the bill — on a potential alimony payment in the divorce proceedings, if this option had not been exercised in any way by a woman, what effect, if any, would that have upon alimony payments forthcoming in the divorce proceedings of the second marriage, and would this not tend to make that situation difficult? I do not know whether that is a valid point or not, but it just occurs to me that it could, by leaving things wide open, complicate a situation. I could see where perhaps a woman would have that option and maybe that option would not be admissible in court in the divorce proceedings and a year later she decides after her alimony runs out, she has maximized her alimony for that period of time, she would then exercise the option and take either the seventy-five hundred dollars or a portion of it or take monthly payments. It seems to me that we should have a response to that as it might bear on the bill."

Senator Marsh: "Senator Lewis, I think the judge making the decision on the decree of dissolution would want to consider all the assets of both parties, and certainly if she had an unexercised option this would be one of her assets that the judge could take into consideration in making whatever award of alimony or — we do not call it that anymore. We call it separate maintenance but making an award of separate maintenance if he so desired."

Debate ensued.

POINT OF INQUIRY

Senator Mardesich: "Would Senator Ridder yield? Senator Ridder, I still have not in my mind clarified whether a woman could, under subsection . . . ."

Senator Ridder: "Even a man, Senator."

Senator Mardesich: "Or a man. Usually we do not last that long. But whether a woman could draw the monthly and then later make an election to draw the bulk payment without the monthly being applied as a credit against the bulk payment. I see nothing in that language that would prohibit her from drawing it."

Senator Ridder: "I think you are right."

Senator Mardesich: "Is there an amendment?"

Senator Ridder: "In our pre-lunch discussion that was brought to my attention and we have, among that substantial series that Senator Morrison referred to, several amendments which are aimed at clarifying the status of that so that the intent would be as I stated it once before. I reiterate, I do not believe that Senator Morrison's amendment would add to the clarity of the bill and I think it would be about time we called for the question on that amendment."
The motion by Senator Morrison failed and the amendment was not adopted. On motion of Senator Ridder, the following amendment was adopted:

On page 3, line 8, after “before” and before “and” insert “, but the monthly payments to such surviving spouse shall cease at the end of the month during which remarriage occurs.”

Senator Ridder moved adoption of the following amendments simultaneously:

On page 3, line 12, after “lesser” strike “, and the monthly payments to such surviving spouse shall cease at the end of the month in which remarriage occurs”.

On page 3, line 18, after “bar” strike the remainder of the paragraph and insert: “him or her from exercising the option granted in subsection (2)(i) of this section during the life of the remarriage and shall not prevent subsequent monthly payments to him or to her if the remarriage has been terminated by death or has been dissolved by valid court decree provided he or she has not previously accepted the lump sum payment provided in this section.”

POINT OF INQUIRY

Senator Rasmussen: “I did not get that explanation clearly, Senator Ridder.”

Senator Ridder: “In the original language of the substitute bill, Senator, there was an option provided for payment of the deferred lump sum upon the termination of the second marriage but there was no provision, no language which provided for that payment under other circumstances than the termination of the marriage. In other words, the money had been withheld and had not been accepted but it is not intended to be an insurance policy, specifically, against the termination of a second marriage.”

Senator Rasmussen: “Mr. President, another question of Senator Ridder, if I may. In the next paragraph down you also speak of a termination of marriage by the death or dissolution — shall be the date of the death or dissolution. Is it also your intention that the party gets married and upon the death of the other party that the monthly payments or the lump sum would become available?”

Senator Ridder: “Yes, that is the intent of the bill.”

Senator Rasmussen: “It is my understanding, and of course the way it is now, if a person marries they immediately get the lump sum dowry, marriage payment, and then any benefits that this party would accrue would come from whatever benefits were available by the death of the other party. I am trying to keep separate male and female so it could go either way. Let us take the woman then, a person, an Ms. or something, gets married and then her husband dies. Now one husband has died and she is entitled to the benefits on the first husband’s death. And now you are meaning if the second husband dies she can go back on the benefits of the first husband and also participate in the benefits of the second husband?”

Senator Ridder: “Not also. This language. . . .”

Senator Rasmussen: “Well, this is what this would say.”

Senator Ridder: “I hope not because we were hoping to eliminate any prospect of any double dip.”

Senator Rasmussen: “That is the way I read it.”

Senator Ridder: “It was our intention that there be language in the bill that there would in no case be an opportunity to draw benefits on more than one account.”

Senator Rasmussen: “Could call it the double dip.”

Senator Ridder: “No, we tried to insure against that.”

Senator Grant moved adoption of the following amendment to the amendment by Senator Ridder:

Following the Senator Ridder amendments on page 3 and following the words “provided in this section” at the end of the third of Senator Ridder’s amendments, insert the following proviso: “: PROVIDED, HOWEVER, That if the surviving spouse during the remarriage should die without having previously received the lump sum payment provided herein his or her estate shall be entitled to receive the sum of seventy five hundred dollars or a sum equal to the monthly payments for twenty-four months, whichever is the greater”.

Debate ensued.
MOTION
On motion of Senator Mardesich, Substitute Senate Bill No. 2241 was re-referred to the Committee on Labor.

SECOND READING
SENATE BILL NO. 2329, by Senators Bottiger, Gould, Van Hollebeke and Morrison:
Exempting PTA carnivals and certain Reno nights from gambling laws.
The bill was read the second time by sections.
Senator Woody moved adoption of the following amendment:
On page 4, line 11, after "preventing the same." strike the material down through the period on line 17.
Debate ensued.
The motion by Senator Woody failed and the amendment was not adopted.
Senator Pullen moved adoption of the following amendments by Senators Pullen and Cunningham simultaneously:
On page 2, beginning with line 8, strike all the matter down through the period on line 12.
On page 5, line 11, after "association" strike all the matter down through "organization," on line 13.
On page 11, line 16, strike all of subsection (23).
Debate ensued.

POINT OF INQUIRY
Senator Pullen: "Would Senator Bottiger yield to a question? Could you give me a few examples of some of the amusement games and contests of chance which could be considered under the definition of Reno night?"
Senator Bottiger: "How about stud poker? Out at the grange that I attend you buy so many chips. We have a twenty dollar limit. You cannot spend any more than that for chips. At the end of the evening these chips are numbered and you go in and trade them in for prizes. You cannot get money back. We play all kinds of things out there."

POINT OF INQUIRY
Senator Talley: "Will Senator Bottiger yield to a question? What grange do you belong to?"
Senator Bottiger: "The fifth amendment."

POINT OF INQUIRY
Senator Lewis (R. H. "Bob"): "Would Senator Bottiger yield? Senator Bottiger, I am very serious about this. When you say, you know, you have a twenty dollar limit at your grange, but is there anything that would prohibit a larger limit?"
Senator Bottiger: "There is a five thousand dollar maximum that they can proceed as the total out of. No, I guess that theoretically you could have a larger limit than that. It is designed to limit within the hands of the people that would run those things. Remember who can run them. Now granted, maybe the food bank in Seattle might run a limit where you could buy one hundred dollars to get in, but they could only make five thousand in an evening."
Senator Lewis (R. H. "Bob"): "Would a crap game be considered a contest of chance?"
Senator Bottiger: "Oh yes, roulette and all the rest of those. . . ."
Senator Lewis (R. H. "Bob"): "I expected the answer would be yes, but now let me ask this. Do I understand that this law is written in such a manner that those participants who are winners can take only merchandise? In other words, can we have a crap game and have a five thousand dollar limit under this bill?"
Senator Bottiger: "I would say that you probably could, yes."
Further debate ensued.
POINT OF INQUIRY

Senator Lewis (R. H. "Bob"): "Senator Bottiger, maybe I did not make myself clear, but I understand the House or the sponsoring nonprofit organization can only make five thousand dollars a year, but could I as a participant walk into this contest of chance and win or lose personally five thousand dollars?"

Senator Bottiger: "I guess you could. The only other alternative would be to restrict the prizes to merchandise. But that would knock out an awful lot of the things like fishing derbies. If you remember, Senator Walgren asked that we not amend in the city fishing derby where you give cash prizes to it."

POINT OF INQUIRY

Senator Rasmussen: "Would Senator Bottiger yield to a further question? I told Senator Mardesich this would not take long. Senator Bottiger, does this also provide for the master license for carnivals? Is this the bill that the Gambling Commission submitted?"

Senator Bottiger: "No. This is a bill that was drafted at the request of the PTA's and some of the rural organizations I mentioned, submitted to the Republican caucus attorney who was the expert last time in drafting legislation and told him to draft it narrowly so that we could have a chance of getting by the Governor's office in this restricted area."

Senator Rasmussen: "Senator Bottiger, at the time the Gambling Commission was before the State Government Committee, they informed us that they did have a bill prepared and it was in the House Commerce Committee and they brought a copy of the bill down to the State Government Committee. It covered all of the areas you are talking about and I think two or three more, and was drafted by the Gambling Commission. It possibly is a better bill."

Senator Bottiger: "Senator Rasmussen, what I understand — that is to permit them to go out and hire carnival operators to come in and conduct these carnivals. We are talking about the people-doing-it-themselves-type nights."

The motion by Senator Pullen failed and the amendments were not adopted.

Senator Bottiger moved adoption of the following amendment:

On page 11, line 4, after "students" insert "or any combination thereof;"

POINT OF INQUIRY

Senator Francis: "Would Senator Bottiger yield? Senator Bottiger, under your amendment, if one particularly active and cooperative teacher decided to form an organization and give it a name by joining with one other person, namely, a parent, and decided to do that separately with each of nine other parents, thereby forming ten different organizations, would each of those ten different organizations have a right to put on an annual fund raiser under this amendment?"

Senator Bottiger: "Senator Mardesich said you are talking about special levy elimination. You will notice that they could, but the entire proceeds of that would have to be used to pay for the private or public school K through 12 program. So it would be restricted. What we were thinking about is the varsity night. Would the faculty and the students be able to put on athletic varsity night and have a raffle to raise funds for that purpose, and the answer would be yes."

On motion of Senator Scott, the following amendment to the amendment by Senator Bottiger was adopted:

Amend the Bottiger amendment to page 11, line 4 as follows: Before "or" insert "or any combination thereof;"

The motion by Senator Bottiger carried and the amendment, as amended, was adopted.

On motion of Senator Bottiger, the rules were suspended, Engrossed Senate Bill No. 2329 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

Authorizing fees for optional noncredit extracurricular events of school districts and providing for their disposition.

The bill was read the second time by sections.

On motion of Senator Gould, the following amendment by Senators Gould and Stortini was adopted:

On page 1, after line 20, add a new section as follows: "Sec. 2. Section 1, chapter 52, Laws of 1973 and RCW 28A.58.115 are each amended to read as follows:

As used in this section, an "associated student body" means the formal organization of the students of a school formed with the approval of and regulation by the board of directors of the school district in conformity to the rules and regulations promulgated by the superintendent of public instruction.

The superintendent of public instruction, after consultation with appropriate school organizations and students, shall promulgate rules and regulations to designate the powers and responsibilities of the boards of directors of the school districts of the state of Washington in developing efficient administration, management, and control of [moneys,] records, and reports of the associated student bodies organized in the public schools of the state."

On motion of Senator Stortini, the following amendment by Senators Gould and Stortini to the title was adopted:

On line 1 of the title, after "events;" strike "and" and on line 3 of the title, after "RCW" and before the period, add "; and amending section 1, chapter 52, Laws of 1973 and RCW 28A.58.115."

On motion of Senator Stortini, the rules were suspended, Engrossed Senate Bill No. 2210 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2210, and the bill passed the Senate by the following vote: Yeas, 42; nays, 1; absent or not voting, 1; excused, 5.

Voting yea: Senators Bailey, Beck, Benitz, Bluechel, Bottiger, Clarke, Cunningham, Day, Donohue, Fleming, Francis, Goltz, Gould, Grant, Henry, Herr, Jolly, Jones, Knoblauch, Lewis (Harry), Lewis (R. H. "Bob"), Mardesich, Marsh, McDermott,

Absent or not voting: Senator Pullen—1.

ENGROSSED SENATE BILL NO. 2210, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Mardesich, the Senate commenced consideration of the special order of business, Substitute Senate Bill No. 2235.

SPECIAL ORDER OF BUSINESS
SECOND READING

SUBSTITUTE SENATE BILL NO. 2235, by Committee on Local Government:
Allowing certain public utility districts to acquire, construct, operate and add to sewage and sanitation systems.

The time having arrived, the Senate resumed consideration of Substitute Senate Bill No. 2235 on second reading as amended earlier today.

Senator Lewis (Harry) moved adoption of the following amendment:
On page 1, line 7, after "add to" and before "sewage" insert "with the approval of a majority of the qualified voters within any existing sewer district".

POINT OF INQUIRY

Senator Talley: "Would Senator Lewis yield please? Senator Lewis, if I understand your remarks, you are saying that if a sewer district exists and the PUD's are asked to take it over, the majority of the people living in that district must vote for the acquisition by the PUD?"

Senator Lewis (Harry): "Yes. Senator Sellar's amendment was the identical amendment. It came after the word 'acquire'. In other words, you would have to acquire with the approval of the majority of the qualified voters within the existing sewer district. I felt that the construction, operation, and particularly the 'add to.' If you want to add to an existing district under the PUD's, the people within that sewer district should approve it."

Senator Talley: "If I understand you correctly then, it is your intent just those people within an existing district who might be taken over by the PUD?"

Senator Lewis (Harry): "Within the sewer district, in this amendment, yes. I have another amendment that covers the entire district which will be next."

POINT OF INQUIRY

Senator Cunningham: "Would Senator Lewis yield to a question? On this 'with the approval of the majority of qualified voters,' that is different from the way sewer districts are put together now in that the vote is proportionate to the acreage involved, is it not?"

Senator Lewis (Harry): "Yes."

Senator Cunningham: "So this is a change from that?"

Senator Lewis (Harry): "Senator Cunningham, yes, what we are talking about is a sewer district that is already in effect under other statutes. This bill deals with the PUD acquiring such a sewer district or adding to such a sewer district, and I think it is a major change having the PUD come in, and so I felt that it should be a majority of voters within the sewer district. This is the identical amendment that Senator Sellar presented and was approved by the Senate here prior to moving the bill down, when he said, using the same language, that a majority of the qualified voters within any existing sewer district must approve the acquisition of that sewer district by the PUD. This
amendment that I proposed is identical to that and says that if you add on or construct, it broadens it to include all of those items on Section 7."

Senator Cunningham: "Mr. President, to continue with a question to Senator Lewis, at present now you can be in a sewer district, yet you can participate in the annexation of an additional sewer district and there your vote is again proportionate to your square footage, not to the one man one vote. Would this amendment have any impact on that?"

Senator Lewis (Harry): "No."
Senator Cunningham: "Thank you."
Debate ensued.

MOTION
Senator Fleming moved that Substitute Senate Bill No. 2235 be re-referred to the Committee on Local Government.

POINT OF ORDER
Senator Rasmussen: "He made a speech and then attempts to make a motion."

MOTION
Senator Day moved that Substitute Senate Bill No. 2235 be referred to the Committee on Social and Health Services.

RULING BY THE PRESIDENT
The President: "Senator Rasmussen's point was well taken."
Debate ensued.
The motion by Senator Day failed.

MOTION
On motion of Senator Fleming, Substitute Senate Bill No. 2235 was re-referred to the Committee on Local Government.

SECOND READING
SENATE BILL NO. 2343, by Senators Beck, Walgren and Stortini:
Requiring accident reports for bicyclists.
The Senate resumed consideration of Senate Bill No. 2343 as amended earlier today. The following amendment by Senators Newschwander and Francis had been moved for adoption:
Beginning on line 23, strike all of Section 5.
Debate ensued.
The motion by Senator Newschwander carried and the amendment was adopted.
On motion of Senator Beck, the following amendment was adopted:
On line 23, insert a new section 5 as follows:
"NEW SECTION. Sec. 5. This amendatory act shall be effective July 1, 1975."
Senator Walgren moved adoption of the following amendment:
On line 18, before "RCW 46.52.035" insert "RCW 46.52.020".
On motion of Senator Walgren, the following amendment to the amendment was adopted:
After "RCW 46.52.020" insert "and".
The motion by Senator Walgren carried and the amendment, as amended, was adopted.
On motion of Senator Beck, the following amendment to the title was adopted:
On line 2 of the title, after "RCW;" insert "and" and after "date" insert a period and strike the remainder of the sentence.
On motion of Senator Beck, the rules were suspended, Engrossed Senate Bill No. 2343 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.
POINT OF INQUIRY

Senator Cunningham: "Will Senator Beck yield to a question? Senator Beck, we chatted a minute ago. Would this by definition under the word 'bicycle' include tricycles?"

Senator Beck: "I would imagine it would."

Senator Cunningham: "Thank you."

Senator Beck: "The word 'bicycle' does not mean the same as a tricycle, but the object of the bill is to gather facts pertaining to these children who are having problems on the highways. Here is my favorite constitutional lawyer. Maybe he will disagree with me."

Senator Bottiger: "Senator Cunningham, if it has a sixteen inch wheel. It pertains to that. Definition of bicycle in that bill we passed last week."

Senator Cunningham: "Mr. President, I do not know how to do this, but we have a lot of bicycles that do not have sixteen inches in a wheel. And in all seriousness, Senator Bottiger, I would wonder if the definition is that narrow in that a lot of senior citizens are riding what is sold to them as a tricycle and a lot of us ride them with smaller wheels."

Senator Bottiger: "Senator Cunningham, this is a series of bills, as I mentioned before, and the bills defining bicycles and making them subject to rules of the road which went through here a couple of days ago contained a definition of what a bicycle was, and it is a sixteen inch or bigger — is that right? Sixteen inch or bigger wheel within the definition that we are talking about here?"

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2343, and the bill passed the Senate by the following vote: Yeas, 28; nays, 15; absent or not voting, 1; excused, 5.

Absent or not voting: Senator Fleming—1.

ENGROSSED SENATE BILL NO. 2343, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

SECOND READING

SECOND SUBSTITUTE SENATE BILL NO. 2048, by Committee on Parks and Recreation):

On motion of Senator Peterson, the following amendment was adopted:

On page 4, line 31, after "regulations" insert "pertaining to safe boating".

Senator Mardesich moved adoption of the following amendment:

On page 6, line 33, insert the following new section:

"NEW SECTION. Sec. 9. Neither the Washington state marine council created by this act nor any local authority shall enact or enforce any regulation, ordinance, rule, or law with respect to the operation of vessels licensed for commercial fishing in conflict with the rules and regulations of the Washington state department of fisheries under Title 75 RCW."

Renumber the remaining sections consecutively.

Debate ensued.

The motion by Senator Mardesich carried and the amendment was adopted.

Senator Wanamaker moved adoption of the following amendment:

On page 9, line 4, after "Sec. 12." strike the balance of line 4 and all of line 5, and insert "It shall be unlawful for any person to operate a vessel on the waters of the state of Washington without having aboard evidence of having paid the following fee:"

On motion of Senator Marsh, the following amendment to the amendment by Senator Wanamaker was adopted:

Amend the Wanamaker amendment to page 9, line 4, as follows:

"It shall be unlawful for any person to operate a vessel on the waters of the state of Washington without having aboard evidence of having paid the following fee:"

On motion of Senator Marsh, the following amendment to the amendment by Senator Wanamaker was adopted:

After "fee" and before the colon on the last line of the amendment, insert "if applicable".

The motion by Senator Wanamaker carried and the amendment, as amended, was adopted.

Debate ensued.

Senator Marsh moved adoption of the following amendment:

On page 9, following line 5, insert the following:

"(1) Vessels under twenty feet in length without any motor propulsion machinery shall be exempt from the annual registration fee;"

Renumber the following subsections.

POINT OF INQUIRY

Senator Newschwander: "I wonder if Senator Marsh will yield to a question? What happens if I have a rowboat under twenty feet and I rent it and somebody puts a motor on it? Then who is liable for any action?"

Senator Marsh: "Senator Wanamaker's amendment which we just adopted said, 'It shall be unlawful for any person to operate a vessel on the waters of the state of Washington without having aboard evidence of having paid the following fee.' Now it says 'any person' so the person who put it on would be the culpable party and would be the liable party and would have to pay the fine, in my opinion."

POINT OF INQUIRY

Senator Lewis (Harry): "I wonder if Senator Marsh or Senator Wanamaker would yield to a question? Do I understand it, and my understanding may be incorrect, right now vessels under twenty feet are excluded from the act. Is that correct?"

Senator Wanamaker: "Yes, sir, they are."

Senator Marsh: "My understanding is different, Senator Lewis."

Senator Lewis (Harry): "Now suppose you put a half horse electric motor on a canoe or a rowboat. Are they out of the act now? What I am concerned about is that your amendment, when you include the word 'propulsion' in it, you may in effect be including something that is not already in the act. Can you straighten this out, Senator Wanamaker?"

Senator Wanamaker: "Yes, on page 2, line 10, subsection (3) which defines powered vessels, 'means any motorboat, auxiliary sailboat or other designed in whole or in part for the conveyance and propelled by inboard or outboard combustion, steam or electric machinery.' That is the definition of what is considered as a powered boat. Then
you go over to the page which is in the exemptions that exempts boats under twenty feet without power machinery. So it is already exempt.

Senator Marsh: "Mr. President, referring to page 4, line 12; is the exemption that Senator Wanamaker has referred to which says, 'under twenty feet in length and without any propulsion machinery.' Now that merely exempts you from Section 4 of the bill which says you must get a certificate of number. It does not exempt you from the provisions of the act and it does not exempt you from Section 12 and that is my point and that is why you have got to have it in Section 12, and that is why I am offering this amendment."

POINT OF INQUIRY

Senator Talley: "I wonder if Senator Wanamaker would yield? Senator Wanamaker, I am very concerned about this. If a man had a little twelve foot aluminum skiff that he took out fishing and carried on the top of his car or his trailer, it is light, they weigh about sixty to eighty pounds, the minute he put an engine on there, an outboard on it, he would come under the act, wouldn't he? He would have to register that thing?"

Senator Wanamaker: "Yes, he would, but he also would have to do it right now, Senator Talley, under the 1971 act of the federal and also under the Coast Guard. We tried to take that out and exempt those and we ran head on into the Coast Guard, who immediately got on us and told us we had to put it in."

Senator Talley: "With this then any inland lake then where the Coast Guard do not have any inspection (sic), now they are under it, right?"

Senator Wanamaker: "They do come under the act, yes, as we have it and as we had to put it back in. We had it in the bill at one time."

Senator Talley: "Then you would agree that when we had this house trailer act that gave us so much trouble and everybody that has a little skiff and goes fishing gets picked up, then we will be back here in two years and we will have more trouble than we ever had in our lives."

Senator Wanamaker: "Not only that, but he is going to have trouble anyhow because the Coast Guard or the federal act is going to get him. That is our problem."

The motion by Senator Marsh carried and the amendment was adopted.

Senator Bottiger moved adoption of the following amendment by Senators Bottiger and Rasmussen:

On page 10, beginning on line 34, strike all of subsection (2). Renumber remaining subsection.

Debate ensued.

The motion by Senator Bottiger failed and the amendment was not adopted on a rising vote.

Senator Wanamaker moved adoption of the following amendment:

On page 11, lines 26 and 34, after "section" strike "14" and insert "15".

POINT OF INQUIRY

Senator Woody: "Would Senator Wanamaker yield? The language says 14, subparagraph (2). Is that 15 subparagraph (2) or just 15 now?"

Senator Wanamaker: "It should read Section 15."

On motion of Senator Mardesich, the following amendment to the amendment by Senator Wanamaker was adopted:

On line 2 of the amendment to page 11, lines 26 and 34, after "14" insert "(2)".

The motion by Senator Wanamaker carried and the amendment, as amended, was adopted.

Senator Van Hollebeke moved adoption of the following amendment:

On page 12, beginning on line 6, strike all of Section 17. Renumber remaining sections.

Debate ensued.

POINT OF INQUIRY

Senator Lewis (Harry): "Would Senator Knoblauch yield to a question? Senator
Knoblauch, I have a twenty-eight foot sailboat that will sail about twelve knots and it
weighs about five tons and it takes a tremendous skill to operate safely in high winds.
Why did you provide for training only for minors under sixteen for powered vessels and
not for sailboats? It seems to me that you discriminated here quite sharply and I am
wondering what the reason was."

Senator Knoblauch: "Senator, I am going to have to admit that I do not know the
answer and I am going to ask Senator Wanamaker if he does."

Senator Clarke: "I did not participate, but I can assume that when you are talking
about the probability of inflicting danger upon others, obviously the main hazard has to
do with the operation of these very high speed hot rods. Now a sailboater, and I would
agree with Senator Lewis, who is not well trained can probably cause substantial
damage to himself, but it is extremely rare. You do not find swimmers swimming out
there in the kind of a wind he is talking about, to get run over, and sailboats have the
right-of-way anyway. So rather than prolong the debate, I think the bill was well con­
ceived and I would join in urging that you defeat the present proposed striking of that
wording."

Debate ensued.

The motion by Senator Van Hollebeke failed and the amendment was not adopted.

POINT OF INQUIRY

Senator Mardesich: "I wonder if Senator Wanamaker would yield to a question?
Senator Wanamaker, looking to page 10, section 14, this was the section which we have
already been speaking about, when you are in a collision you have to do certain things,
stop to give aid and so on and so forth, including on line 7, on page 11, the operator has
to give a report of any such marine accident. Now on line 25 on page 10, it says 'in­
volved in a collision, accident or other casualty,' and it does not specify how those items
are defined. A collision, I assume, could be where one boat bounces up against another
and that happens about every time you dock a boat. I am wondering whether after the
word 'casualty' on line 25 we should not have some language that might read, 'where
apparent damage or injury is sustained,' and I wonder whether that same language
should not go on line 8 on page 11 after the words, 'a marine accident' because other­
wise it would seem that you would have to report every touching rather than any acci­
dent where there was actual damage or apparent damage or injury sustained."

Senator Wanamaker: "We certainly would not object to any such language. How­
ever, I would say maybe we had ought to put a dollar amount in there then so there
would be some guidelines as to how serious it had to be before they had to go report it.

Senator Mardesich: "At least we should put something. I do not know about the
dollar amount. I do not know how you put a dollar amount if you bumped into a
person. Ask him if he is hurting twenty-five dollars worth, I guess. But nevertheless I
think we should, and Mr. President, if there are no further amendments on the desk I
would offer these two oral amendments."

Senator Mardesich moved adoption of the following amendments to be considered
simultaneously:

On page 10, line 25, after "casualty" insert "when apparent damages or injuries are
sustained".

On page 11, line 8, after "accident" insert "when apparent damages or injuries are
sustained".

POINT OF INQUIRY

Senator Talley: "Would Senator Mardesich yield to a question? How are you going
to word 'apparent damage'? Most of the time your damage to a boat is under water. It is
not apparent."

Senator Mardesich: "Well, if you bumped into the boat I assume that some damage
would show. If the planking is stowed, that would be obvious. If there was a hole in the
hull, that would be obvious. If there was something bent or broken, that would be ob­
vious. But at least there would have to be some evidence of damage. Or I suppose if you
bumped up against some fellow who was particularly concerned about his vessel, I
know I run into people like that, if you just lie up against them lightly they get excited. And I would assume then he would cite you for failure to report.’”

The motion by Senator Mardesich carried and the amendments were adopted.

On motion of Senator Marsh, the following amendment was adopted:

On page 9, line 17, strike all of subsection (5) and renumber remaining subsections consecutively.

On motion of Senator Knoblauch, the rules were suspended, Second Substitute Senate Bill No. 2048 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Walgren: “Would Senator Wanamaker yield to a question please? This is the question I was attempting to ask the other day, Senator Wanamaker. I note that in the material that was left on our desks there are a number of endorsements from various boating clubs throughout the state of Washington. My concern is, what contact was made with the non-organized boaters, specifically those small boats that are engaged in sport salmon fishing, for instance, in our particular areas, where the usual size of the boat would be something in the neighborhood of about fifteen feet, perhaps, and maybe a forty horse outboard motor and thereby be required to pay about ten dollars registration fee, what contact was made with them?”

Senator Wanamaker: “There was a great deal of contact made with them, Senator Walgren, in that we worked with the Sportsmen’s Council. After we came down to session, in fact, and went over this bill which we hoped at that time was the last time, which it was not, we kept them informed completely all through the process of writing up this bill. At that time we sent out over four hundred copies of the bill telling them what it was and we sent it to sportsmen’s clubs and sports groups, to yacht clubs, all over the state. And if they were not informed I do not know why, because we certainly put forth the effort. That was one of the big things that we did with this particular bill in that we went out to inform the boaters as to what we were trying to do. In the first place, if they wanted it. They said they did and wanted to work with us in order to bring about a boating bill. So I would say that they have been very well informed all through the process of making this bill. If they were not, it certainly was not our fault that they did not get it because we tried and I am sure they did.”

Further debate ensued.

POINT OF INQUIRY

Senator Rasmussen: “I would like to ask Senator Wanamaker a question if he would yield. Senator Wanamaker, as Senator Murray so often says, let us put this in perspective and he gets me all confused. I just got one of his explanations here on the pension bill and I really do not — but, my boat is a sixteen footer. I was concerned when I heard Senator Walgren speak of this fifteen boat out there that goes out fishing. Senator Clarke’s boat is forty feet. So as I understand it, I would have to register every year with my boat.”

Senator Wanamaker: “If you have a motor on it.”

Senator Rasmussen: “Yes, we are assuming they both have motors. With this, what is the difference between the cost — under the Coast Guard at the present time, as I understand, you only have to register every three years and the cost is how much?”

Senator Wanamaker: “As I understand it, six dollars.”

Senator Rasmussen: “Six dollars. All right. That takes me for three years. Under this bill what would it cost?”

Senator Wanamaker: “Your sixteen foot boat with a motor on it, you would title it once; one time it will be titled for two dollars, titled similar to your car title.”

Senator Rasmussen: “Then your annual registration fee on your boat would be ten dollars. Each year I would pay ten dollars or a total of thirty dollars for the same thing that I can get from the Coast Guard now for six dollars.”

Senator Wanamaker: “That is if you do not pay your personal property tax. If you are getting out of that why then you are cheating the law.”
Senator Rasmussen: "Assuming that I paid the personal property tax and it would amount to five dollars a year because it is a very inexpensive boat, you can poke your finger through it any place and they do not value them very highly. Then let us move over to Senator Clarke's forty foot boat and at the present time — well, some other forty foot boat, then if Senator Clarke sank his — how much would it cost for that boat? Forty foot, we will assume."

Senator Wanamaker: "I do not know how big a boat he has."

Senator Rasmussen: "It is a little bit bigger, but I am being modest."

Senator Wanamaker: "It would be ten dollars plus a dollar a foot over twenty feet."

Senator Rasmussen: "So it would only cost him thirty dollars."

Senator Wanamaker: "If it is a forty foot boat."

Senator Rasmussen: "Somehow or other, I think, Senator Wanamaker, you rang the full astern bell. It does not seem that this has very much balance at all as far as cost is concerned, and I was right on the point of voting for it. I am glad I am not going to now."

Further debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Second Substitute Senate Bill No. 2048, and the bill failed to pass the Senate by the following vote: Yeas, 22; nays, 23; excused, 4.

ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 2048, having failed to receive the constitutional majority, was declared lost.

MOTION FOR RECONSIDERATION

Having voted on the prevailing side, Senator Lewis (Harry) moved that the Senate immediately reconsider the vote by which Engrossed Second Substitute Senate Bill No. 2048 failed to pass the Senate.

PARLIAMENTARY INQUIRY

Senator Bailey: "Mr. President, we would like to reconsider and put it back in committee, but I have to ask the question, do we have to vote on reconsideration before we make a motion to put it back in committee?"

Senator Lewis (Harry): "Mr. President, it would seem to me that we have disposed of the bill and unless we vote to reconsider, it is not before us; and my purpose in moving to reconsider was to bring the bill back before the body."

Senator Bailey: "Mr. President, the only reason I raise this is that there is an awful lot of work gone in on this bill and I think there are some members absent and it was not a matter of going down to resounding defeat or anything like that. If we could get a motion to reconsider and get the bill properly before us, I would then move to refer it to committee, but I wanted to explain that so that you would not be facing a vote today."

PARLIAMENTARY INQUIRY

Senator Rasmussen: "Isn't it possible to rejuvenate this bill in the special session if anybody wants it rejuvenated?"

REPLY BY THE PRESIDENT

The President: "Depending on the closing resolution, Senator, it is possible. That is, if the motion to reconsider is acted upon favorably by the Senate."
FIFTIETH DAY, MARCH 3, 1975

PARLIAMENTARY INQUIRY
Senator Mardesich: "A vote no at this moment succeeding or carrying a majority would lay this issue to rest?"

REPLY BY THE PRESIDENT
The President: "It would defeat the bill, in essence, Senator Mardesich."
The motion by Senator Lewis (Harry) that the Senate immediately reconsider the vote by which Engrossed Second Substitute Senate Bill No. 2048 failed to pass the Senate carried on a rising vote.

MOTION
Senator Bailey moved that Engrossed Second Substitute Senate Bill No. 2048 be returned to the Committee on Parks and Recreation.

POINT OF ORDER
Senator Cunningham: "According to the rules, it is my understanding that a motion to reconsider is a privileged rule and does not give way to incidental motions under which a motion to suspend the rules and return to committee would fall."

RULING BY THE PRESIDENT
The President: "Senator, when the Senate acted favorably upon the motion to reconsider, the bill returned on final passage before the body and it is up to the body to decide what they wish to do with the bill. If they wish to refer it to the committee, they may do so. If they wish to take a vote, they may do so."
Debate ensued.

REMARKS BY THE PRESIDENT
The President: "Simply put, the measure, once the Senate acted favorably upon the motion to reconsider, the bill was before the Senate on final passage."
The motion by Senator Bailey carried. Engrossed Substitute Senate Bill No. 2048 was returned to the Committee on Parks and Recreation.

POINT OF INQUIRY
Senator Jolly: "Would Senator Mardesich yield? My committee meets only on Friday mornings. Is that too late, Senator Mardesich, to pass out bills?"
Senator Mardesich: "You have until ten a.m. or eleven, whichever time we come in, to have them brought to the floor and for reading in Friday morning."
Senator Jolly: "Thank you."

POINT OF INQUIRY
Senator Rasmussen: "Would Senator Mardesich yield to a further question? Our leader, I have scheduled a meeting of the State Government Committee, not as powerful as Parks, but it is scheduled for Wednesdays and Fridays. Now here is the problem. Last week we cancelled out State Government meeting on Friday and Monday, today. We do have a number of bills that some people may be interested in. The Chairman likes to oblige. Would not it be possible for us to go ahead with our meetings that are all scheduled and hold a night session on Friday evening when there are no meetings scheduled?"
Senator Mardesich: "The only problem with that, Senator Rasmussen, is that would require a weekend session."
Senator Rasmussen: "It will improve our image."
Senator Mardesich: "I am afraid there is not too much we are able to do about that, Senator Rasmussen."
Senator Rasmussen: "What I was trying to find out is that all the committees are scheduled now for the rest of this week and it throws them off."
Senator Mardesich: "There is this action you might take. A hearing on that bill and getting it into Rules would have it in Rules for the next session so that you will not have wasted your time that Friday evening if you do have a meeting."
Senator Rasmussen: "Mr. President, could you advise Senator Mardesich which bills we will be considering at what time when the next session is called, if there is one?"
Senator Mardesich: "I had some hopes that the Governor might not call a special session, but I am afraid he will."
Senator Rasmussen: "We will consider all bills then?"
Senator Mardesich: "We will be considering those measures which have been introduced, yes."

POINT OF INQUIRY
Senator Lewis (Harry): "I wonder if the majority leader would yield to a question? Senator Mardesich, there are a number of people who are concerned about the supplemental budget and some of the items that are in it. I realize we have a lot of pressing matters before us, but I wonder if you could let us know when you plan to consider the supplemental budget, or at least start hearings on that bill."
Senator Mardesich: "It is, of course, a matter for the chairman of the Ways and Means to make the determination as to — I would assume that he plans to have some meetings with respect to the supplemental. I would assume also that he intends to be very deliberative, from what I have heard him say and read in the papers. I have no objection to the Senate being a deliberative body."
Senator Lewis (Harry): "Perhaps the chairman of Ways and Means would then care to respond to this. Senator Donohue, the supplemental budget has been over from the House a number of days. We are anxious — I would just like to know when you plan to start hearing it."
Senator Donohue: "Mr. President, in answer to you, Senator Lewis, the supplemental budget has been before this body. It came to this chamber on Friday last. The House had the budget before them for approximately six weeks. Like Senator Rasmussen, the Ways and Means Committee is deliberating and we intend to move forward in our deliberative way and we will be considering the supplemental in hearings. There are no meetings scheduled as yet, as you well know, Senator. We have a five-day schedule that we are trying to adhere to and so it probably will not occur this coming week, but probably next week. Some time next week, Senator."

MOTION
On motion of Senator Mardesich, the Senate returned to the fourth order of business.

THE FRUITS OF THE fields AND TREES REVEAL THE MYSTERIES OF YOUR EXPANSIVE MIND FROM THE FIBROUS SWEETNESS OF THE PEAR TO THE TART JUICES OF THE YELLOW AND PINK GRAPEFRUIT, FROM THE DELICIOUS CRISPNESS OF THE RUBY COLORED APPLE TO SMOOTH, RICH GREEN OF THE AVOCADO. HOW YOU HAVE TOUCHED THE EARTH WITH THESE VARIETIES AND YET THE MEDLEY OF DIFFERENCES IS MUSIC TO OUR TASTES AND JOY TO OUR HEARTS. WE, TOO, LORD COME FROM DIFFERENT PLACES, COLORED WITH HUES OF DIFFERENT ETHNIC ORIGINS, SOME ENGLISH, SOME AFRICAN, SOME CHINESE, SOME POLISH, SOME GERMAN, SOME LATIN AMERICAN. WE COME ENRICHED BY DIFFERENT PATHS OF EXPERIENCE; IN LAW, IN BUSINESS, IN TEACHING, IN OUR DIFFERENT FAMILY TRADITIONS AND STYLES. Senators Walgren, Bottiger and Jolly demanded a Call of the Senate. A call of the Senate was ordered.

CALL OF THE SENATE

The Sergeant at Arms locked the doors of the Senate Chamber. The Secretary called the roll on the Call of the Senate, all members being present except Senator Herr, who had been previously excused.

MOTION

On motion of Senator Walgren, the Senate proceeded under the Call of the Senate.
SECOND READING

SUBSTITUTE SENATE BILL NO. 2159, by Committee on Transportation and Utilities (originally sponsored by Senators Walgren and Bottiger):

Pertaining to motor vehicle fuel taxes.

The Senate resumed consideration of Substitute Senate Bill No. 2159, as amended by Senator Marsh prior to the noon recess.

On motion of Senator Marsh, the following amendment to the title was adopted:

In line 16 of the title after "adding" strike "a" and on line 17 strike "section" and insert "sections".

On motion of Senator Walgren, the rules were suspended, Engrossed Substitute Senate Bill No. 2159 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Morrison: "Would Senator Walgren yield to a question? Senator Walgren, I am not quite used to the procedure that we are following here in that we are voting supposedly for a tax source before we have had a chance to really look in detail at the budget that would be supported by that tax. I would like to have your assurance, for the record, first of all that in the proposed budget there will be a reduction in the number of Department of Highway employees, that funding will be to maintain existing roads, and that the other funds derived from this gas tax increase will be used to match federal funds at not less than a twenty-five seventy-five ratio."

Senator Walgren: "Taking your questions in reverse order, yes, the purpose of the bill is to provide that matching funding and as has been pointed out in the various committee hearings that we have had, even with the passage of this bill we are going to be somewhat short with regard to the Highway Commission's proposed program.

Secondly, even with the passage of this bill, we will continue to reduce the staff of the Highway Department. The staff is down nearly nine hundred since fiscal year 1971. Additional decreases are programmed at about a twelve percent reduction or five hundred and eighteen people under the Highway Commission's proposal.

"Your last question, yes, there are some projects that by a stretch of the imagination I suppose that you could say are new programs or new highways that are involved that will require additional funding beyond this bill that we are talking about now. This bill will provide simply the maintenance of our existing rather substantial investment that we have in the highway system."

Debate ensued.

POINT OF INQUIRY

Senator Newschwander: "Mr. President, I wonder if Senator Walgren will yield? I have heard time and time again, I heard you say we only had twenty or twenty-one million dollars for new construction. Where is the omnibus highway budget? Have you had any hearings on that so that we definitely know that this money is needed?"

Senator Walgren: "If you are talking about the budget bill for the Highway Department, that is in preparation on the House side, which is the tradition. We prepared the budget last time. One thing about this particular bill is for the first time, I think, we will be able to aim at a target of expenditures and be able to make a determination and really see where the money is going and be able to either provide for it or not provide for it, and have the Highway Department operate accordingly. I expect that that bill will be over here in the next few weeks."

Senator Newschwander: "The thing that bothers me is that I can think back to 1967 when I was in the House, we raised the sales tax two-tenths of one percent, raised forty million dollars they said that we needed to balance the budget. When I came back two years later, we had a surplus of over the forty million dollars. And I feel kind of ridiculous today standing here and voting for a tax measure when I am not positive that there might not be other means to finance the crunch you are in. And so, nobody else has stood up here and had any opposition to this, so I am going to vote no until I see something different on this measure."
Senator Walgren: "Senator Newschwander, one of the unique aspects of this particular bill is the variability of it and the fact that if the expenditures are not needed, then there is no necessity of raising the tax. As a matter of fact, if we have a situation where we have additional funds that we did not think we were going to have, a windfall for instance, then the tax can go down and I would suggest to you that this is going to be one of the very few times where we provide that the tax can go down automatically rather than just keep going up."

Senator Newschwander: "Just one short comment. I have never seen this body reduce a tax at any time. I do not believe the Highway Department will leave the tax where it is if it is available to them."

Further debate ensued.

The resolution was read the second time in full.

On motion of Senator Stortini, the rules were suspended, Engrossed House Joint Resolution No. 19 was advanced to third reading, the second reading considered the third, and the resolution was placed on final passage.

POINT OF INQUIRY

Senator Woody: "Would Senator Grant yield? Senator Grant, what was the significance in the committee hearings on this measure for the selection of the word 'for' on lines 11 and 12 where it says 'for students' instead of the word 'to'?"

Senator Grant: "Senator Woody, I am not a member of the committee. I sat in on the meetings of the committee and I understand from the press that I was recorded as abstaining. Well, I am not even a committee member. This issue was raised in the committee and I think for the purpose of legislative intent, the question should be answered. To satisfy a large religious group in the state that raised the question. The intent of the constitutional amendment, as it was explained, is to permit to the extent permitted by the Constitution of the United States, in other words, to make this constitutional amendment conform to the constitutional amendment of the United States; make it no broader than that. Of course it could not be. But not to narrow it so that our State Supreme Court could be more restrictive than the United States Supreme Court has already been. And in our State Constitution, in Article XI, Section 1, Article VIII, Section 5, and Article IX, Section 4, these articles and sections allow for a very restrictive view of this issue, including the forbidding of direct assistance to the students that would result in indirect aid to the schools. The substitution of 'to' for 'for' would still allow the State Supreme Court to invalidate any student assistance package on the basis of indirect assistance to the schools. Therefore, it was felt that if the legislature, in its wisdom, gave aid to these students in ancillary services, as an example, or in textbooks, that that could be construed by our State Supreme Court as indirect aid to the schools and could be stricken down by the State Supreme Court on that basis because of other constitutional provisions. That is why the word 'for' rather than the word 'to'."

POINT OF INQUIRY

Senator Benitz: "Will Senator Stortini yield to a question? Senator Stortini, I note that in line 9 the word is used, 'and notwithstanding any other provision'. Does this appear in any place else in our State Constitution?"

Senator Stortini: "I believe it does. Senator Beck, do you have the exact place?"

Senator Beck: "Yes, Section 7 starts out, 'Notwithstanding any other provisions of this Constitution. Article Seven.'"

Senator Benitz: "Mr. President and members of the Senate, I think the more times that word appears the more probability we are going to have real problems and could precipitate a constitutional convention which I do not believe that we need. I think it is not good language."

MOTION

On motion of Senator Lewis (R. H. "Bob"), Senator Matson was excused.

SECOND READING

ENGROSSED HOUSE BILL NO. 17, by Representatives Jastad and Kalich:
Providing law libraries for seventh and eighth class counties.

REPORT OF STANDING COMMITTEE

March 4, 1975.

ENGROSSED HOUSE BILL NO. 17, providing law libraries for seventh and eighth class counties (reported by Committee on Local Government):
MAJORITY recommendation: Do pass with the following amendments:
On page 1, strike everything after the enacting clause and insert the following:
"NEW SECTION. Section 1. There is added to chapter 27.24 RCW a new section to read as follows:
In each county of the seventh and eighth class, there may be a county law library which shall be governed and maintained by the prosecuting attorney who shall also serve as trustee of such library without additional salary or other compensation.
The use of the county law library shall be free to the judges of the state, to state and county officials, and to members of the bar, and to such others as the prosecuting attorney may by rule provide.
Sec. 2. Section 3, chapter 94, Laws of 1925 ex. sess. as last amended by section 3, chapter 249, Laws of 1953 and RCW 27.24.090 are each amended to read as follows:

The collection of the fees directed in RCW 27.24.070 shall be discontinued whenever the board of trustees of a county library or the prosecuting attorney, as the case may be, files with the county clerk and clerks of the justice courts a written resolution to the effect that the county library fund in its county is sufficient for all present needs, which resolution shall remain effective until it is later rescinded. Upon its rescission, the county clerk and clerks of the justice courts shall resume the collection of such fees.

On line 2 of the title, after "libraries;" strike the matter down to and including "RCW 27.24.063;" and insert "amending section 3, chapter 94, Laws of 1925 ex. sess. as last amended by section 3, chapter 249, Laws of 1953 and RCW 27.24.090;"

The bill was read the second time by sections.

Senator Fleming moved adoption of the committee amendment.

POINT OF INQUIRY

Senator Woody: "Would Senator Fleming yield? In the committee discussion, was there any concern or any discussion about the language 'and to such other persons as the prosecuting attorney may by rule provide'? My question there is, since these are public funds buying public property, to wit, the library itself, could the prosecuting attorney adopt a rule that said that no one but state and county officials, members of the bar, and judges could use the library?"

Senator Fleming: "There was discussion on this very point, Senator Woody, and from our understanding in the statute, it indicates free law libraries in all other counties and we were trying to relate it to this. The reason for that language, it is in the language for the fifth, sixth, seventh, eighth counties, but some of these offices would be, for instance, like a prosecuting attorney such as this that would be maintaining the law library, the library might be so small that at certain given times you could not have thirty or forty or fifty or sixty people in that law library, so this would just give some leeway where the public would have free access to it, but it would not be a burdensome situation on the prosecuting attorney in a small county."

On motion of Senator Fleming, the rules were suspended, Engrossed House Bill No. 17, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed House Bill No. 17, as amended by the Senate, and the bill passed the Senate by the following vote: Yea, 46; excused, 3.

Excused: Senators Herr, Jones, Matson—3.

MAJORITY recommendation: Do pass with the following amendments:
On page 1, line 7, after "transporting" insert ", not for compensation,"
On page 1, line 8, after "for" insert "emergency".
Signed by: Senators Day, Chairman; von Reichbauer, Vice Chairman; Buffington, Cunningham, Goltz, Gould, McDermott, North, Ridder, Van Hollebeke.
The bill was read the second time by sections.

On motion of Senator Mardesich, the following amendment was adopted:
On page 2, line 2, after "other than" insert "in".

POINT OF INQUIRY

Senator Wilson: "Would Senator Day yield to a question? Was the word 'gratuitously' substituted for the original language of the amendment?"

Senator Day: "No, it was not. We inserted it so it now reads, 'any person' on line 6 'who in good faith and not for compensation renders emergency care at the scene,' etc."

On motion of Senator Day, the rules were suspended, House Bill No. 48, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of House Bill No. 48, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 48; nays, 1.

SECOND READING

Authorizing the department of natural resources to grant cutting permits for firewood for timber on state lands.

The bill was read the second time by sections.

Senator Newschwander moved adoption of the following amendment:

On page 2, line 13, strike all of new section 4.

Debate ensued.

The motion by Senator Newschwander failed and the amendment was not adopted.

On motion of Senator Peterson, the rules were suspended, Engrossed House Bill No. 124 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Francis: "Will Senator Peterson yield to a question? Just a small one. I wondered what the reasoning was behind the change from twelve cords down to six cords of wood limitation."

Senator Peterson: "The experience has been that the average homeowner seldom has utilized the twelve cord maximum that previously was allowed, in which case if he did he was probably doing it commercially. Six cords seems to be an ample figure for any average homeowner."

Senator Francis: "And then am I correct in understanding that this section that applies in is restricted simply to the personal use of the people who cut the wood?"

Senator Peterson: "That is right. It is personal use only."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed House Bill No. 124, and the bill passed the Senate by the following vote: Yeas, 49.

The bill was read the second time by sections.

On motion of Senator Francis, the rules were suspended, House Bill No. 142 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Walgren: "Would Senator Francis yield to a question please? Senator Francis, can you tell me how much this is going to cost in additional cost to the state?"

Senator Francis: "Senator Walgren, I would say it will cost under five hundred dollars a year. That was our view of it in committee. They already are preparing the written decision and order. They make two copies already. This will require up to a possible four copies instead of two copies of an order in an administrative ruling."
Senator Walgren: "And also, is this just those adverse decisions that are written?"

Senator Francis: "I am talking now about RCW 34.04.120. It says that every decision and order adverse to a party rendered by an agency in a contested case shall be in writing and shall be accompanied by findings."

ROLL CALL

The Secretary called the roll on the final passage of House Bill No. 142, and the bill passed the Senate by the following vote: Yeas, 49.

HOUSE BILL NO. 142, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SECOND READING

SUBSTITUTE HOUSE BILL NO. 132, by Committee on Natural Resources (originally sponsored by Representatives Martinis, Bauer, Hansey, Bausch, Kilbury, Conner, Matthews, Whiteside, Bond, Moreau, Clemente, Schumaker, Gaines, Laughlin, McCormick and McKibbin):
Extending the use of personalized license plates to vehicles other than cars.

REPORT OF STANDING COMMITTEE

February 26, 1975.

SUBSTITUTE HOUSE BILL NO. 132, extending the use of personalized license plates to vehicles other than cars (reported by Committee on Natural Resources):

MAJORITY recommendation: Do pass with the following amendment:
On page 2, line 21, after "dollars" and before the period insert the following ":"
PROVIDED, That any person who purchased personalized license plates containing three letters and three digits on or between the dates of August 9, 1971, and November 6, 1973, shall not be required to pay the additional annual renewal fee of twenty dollars commencing with the year 1976”.

Signed by: Senators Peterson, Chairman; Beck, Lewis (Harry), Pullen, Rasmussen, Sandison, Talley.

The bill was read the second time by sections.

On motion of Senator Peterson, the committee amendment was adopted.

POINT OF INQUIRY

Senator Mardesich: “I wonder if one of the proponents of this measure or someone who is familiar with it would yield to a question.”

Senator Peterson: “With the amendment?”

Senator Mardesich: “No, the bill itself. My question, I look to Section 2 which I gather is part of the authorizing portion of the measure. It says ‘any person who is the registered owner of passenger motor vehicle not for hire’, so I assume this underlined — for one, that is an exclusion, ‘not for hire’ so a ‘truck not powered by diesel fuel’, that is partially exclusionary and partially inclusionary; ‘a trailer, a camper, a private bus or a motorcycle registered,’ and so on. Then it goes down to line 26 and thereon it says, ‘who makes application for original registration or renewal registration of such vehicle or camper.’ Why do they put the ‘or camper’ in there on line 27 and not the ‘a truck not powered by diesel fuel, a trailer, a private bus or a motorcycle’? It seems to me that it is somewhat contradictory, but I may be in error. It may be that you are only authorizing the use of such licenses for campers by this language, but I am not certain that is what it does.”

Senator Peterson: “I think that is the answer. A camper is not a vehicle. I do not know. The language could be in error, but it has pretty well been worked through, Senator.”

On motion of Senator Peterson, the following amendment to the title was adopted: On page 1, line 10, after “77.12.175” insert “; and providing penalties”.

On motion of Senator Peterson, the rules were suspended, Substitute House Bill No. 132, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Donohue: “Would Senator Peterson yield? Senator Peterson, I remember when this bill was passed and I remember the request from the Game Department in reference to the dollar amounts they thought this was going to bring in. And if I remember correctly, they had a request in the budget at that time for about four hundred thousand dollars, and I am not sure what the figure was but we cut it back something like one hundred and twenty or something like that which we thought was more reasonable. My question to you is, do you happen to know how many of these license plates they did sell or the total amount of dollars that they brought in?”

Senator Peterson: “Senator, I do not have my computer with me to compute the dollar amount, but I do have the number of vehicles. Since the bill was enacted there have been twenty-seven hundred and fifty-seven licenses sold up to date. It has not generated the revenue that the department had anticipated nor the legislature at that particular time. However, by broadening the scope a little bit with this bill and the fact that as people drive down the highways and see more personalized license plates, they are generating interest and we expect it to increase.”

POINT OF INQUIRY

Senator Stortini: “Will Senator Peterson yield to a question? Senator, I am looking at page 2, lines 17 and 18, in reference to the 1973 Law. It says, ‘the applicant shall be charged a fee of thirty dollars.’ I have a personalized license plate and I was wondering
if you knew why we have to pay more than thirty dollars, and I am sure I am speaking for the other twenty-seven hundred too. When I purchased mine, I believe he said that there would be a two dollar and fifty cent administrative cost."

Senator Peterson: "Senator Stortini, I really cannot address myself to your question. I just became aware of this this morning. It was not aired in committee. If there are fees being charged that were not authorized in the original bill, and this does not address itself to that, it addresses to the present language, but I think perhaps we should look at that from the Department of Motor Vehicles or whoever is responsible; but I did not become aware of this additional charge until just this morning and I did not have time to look it up."

Senator Lewis (Harry): "Mr. President, responding to Senator Stortini's question, I believe as I recall the original bill that the purpose of the bill was really fund raising to try to provide a device for the protection of endangered species, and so the fee is a substantial one and that was the intent originally. It was the hope, as the sponsors of the measure propounded on the floor, that those people who were interested, those environmentalists who were dedicated to the preservation of endangered species, that they would then support such a bill. It appears that not many environmentalists are really interested, at least there are only twenty-seven hundred, apparently, in the state who seem to care about the titmouse and some of the other bugs and birds that the sponsors mentioned originally. So I think that the thirty dollars really is the intent of the legislation."

Senator Stortini: "I understand this, Senator Lewis. My only question was, the law says thirty dollars. Why is it more than that?"

Senator Peterson: "I think it is a good question. I think it is a valid question, and I am sorry I do not have the answer, but I think we can get the answer and if DMV is superimposing a fee that the legislature has not authorized, I think we had better look at it, Senator."

POINT OF INQUIRY

Senator Bailey: "Would Senator Peterson yield? The thing that concerns me, if we are changing this; my memory is, but I have no law book to show it, was not this an initiative or a referendum passed by the people in the election? If we are changing it, we are probably changing something that the people voted for or may not have voted for last year or the year before with the change of fee, and the thing that concerns me — I know you will have the two-thirds vote if you pass it, but you would need a two-thirds vote. It would take it until next year."

Senator Peterson: "My memory does not go back that far. I remember overriding the Governor's veto on this, but I do not think it was a referendum as far as personalized license plates, was it?"

Senator Bailey: "I thought we referred it to the people. I think we passed it. We could not override the veto so we referred it to the people, and the point I am asking is the same one Senator Stortini is, and that is, if you are raising something over what the people had voted, then I think we ought to look at it with that in view; that they may have voted for it that way but may not have voted for it with the increase in cost."

Senator Peterson: "I think the remarks are well taken, and for the record, if we have to come back, Mr. President and members of the Senate, we will address ourselves to that problem."

Debate ensued.

POINT OF INQUIRY

Senator Murray: "Will Senator Peterson yield to a question please? What is the actual fiscal impact? Does the Senate amendment cancel the fee for those who have personalized license plates in the future?"

Senator Peterson: "No, what it does, Senator Rasmussen could probably address himself to this more than anybody, but we did have prior to the enactment of the personalized license bill, you could have bought a personalized license plate then, and this has no revenue impact at all. Absolutely no fiscal impact."
Senator Murray: "I am correct then that the continuing ongoing income from personalized license plates for the benefit of preservation of endangered species will continue?"

Senator Peterson: "Yes, that is right."

ROLL CALL

The Secretary called the roll on the final passage of Substitute House Bill No. 132, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 49. With this clarification, the amendment to page 2, line 36 and to page 3, beginning on line 1, as orally stated by Senator Van Hollebeke, was adopted.

Debate ensued.

Senator Mardesich moved adoption of the following amendment:

POINT OF INQUIRY

Senator Marsh: "Senator Mardesich, are you striking then from line 18 on page 2 through line 5 on page 3?"

Senator Mardesich: "Then there would be no amendment in the law with respect to that section. It would remain as it is. It would still be on the books."

The motion by Senator Mardesich carried and the amendment was adopted.

On motion of Senator Day, the following amendment by Senator Mardesich to the title was adopted:

On page 1, beginning on line 4 of the title strike all the material down through "RCW 18.32.120;" on line 5.

We pause to seek your guidance, to touch your wisdom in these days of uncertainty and discord for we know that in the ultimate analysis we are responsible and accountable to you and you alone. Search our hearts so that we might not lie to ourselves, but act with integrity and truth. TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON.

MESSAGE FROM THE GOVERNOR

Office of the Governor, March 6, 1975.

LADIES AND GENTLEMEN:

On this date I have approved HOUSE BILL NO. 100, entitled:

"An Act relating to revenue financing for pollution control and industrial development."

I am, however, increasingly fearful of the potential consequences of overextending the use of tax exempt revenue financing. The national trend toward such financing will, in my opinion, cause Congress to reexamine the whole area of tax exempt governmental bonds, and there is little doubt in my mind that the present opportunities in these bonds will be drastically restricted in the near future. To avoid this from occurring, state and local governments must exercise considerable prudence and caution in approving tax exempt revenue financing. And while I do not pass judgment on the bond financing which House Bill No. 100 deals with, I do urge the Legislature to scrutinize in the strictest manner future proposals to determine whether the standards set by the Internal Revenue Code are met.

I wish further to point out that even though I have approved House Bill No. 100, I
do not believe the Legislature should attempt to influence the outcome of a pending decision in the State Supreme Court in this manner, and I seriously doubt whether the legislation will persuade the court one way or another.

Sincerely,

DANIEL J. EVANS
Governor.

The state of Washington, whether acting in its governmental or proprietary capacity, shall be liable for damages arising out of its tortious conduct to the same extent as if it were a private person or corporation: PROVIDED, The state shall not be liable on any claims for indemnity or contribution unless such right of indemnity or contribution arises solely out of an express written contract executed by an officer or employee of the state having express statutory authority to enter into such an indemnity or contribution agreement on behalf of the state.

Sec. 15. Section 7, chapter 159, Laws of 1963 as amended by section 1, chapter 140, Laws of 1969 and RCW 4.92.130 are each amended to read as follows:

A tort claims revolving fund in the custody of the treasurer is hereby created to be used solely and exclusively for the payment of claims against the state arising out of tortious conduct and against its officers and employees for whom the defense of the claim was authorized under section 2 of this 1975 amendatory act. No money shall be paid from the tort claims revolving fund unless all proceeds available to the claimant from any valid and collectible liability insurance shall have been exhausted first and unless:

(1) The claim shall have been reduced to final judgment in a court of competent jurisdiction; or
(2) The claim has been approved for payment in accordance with RCW 4.92.140 as herein or hereafter amended.

Sec. 16. Section 8, chapter 159, Laws of 1963 and RCW 4.92.140 are each amended to read as follows:

The head or governing body of any agency or department of state government, with the approval of the attorney general, may consider, ascertain, adjust, determine, compromise and settle any claim arising out of tortious conduct or under and pursuant to 42 U.S.C. Sec. 1981 et seq. for which the state of Washington or any of its officers or employees would be liable in law for money damages of [five] twenty-five hundred dollars or less. The acceptance by the claimant of any such award, compromise or settlement shall be final and conclusive on the claimant; and upon the state of Washington, unless procured by fraud, and shall constitute a complete release of any claim against
the state of Washington or its affected officer or employee. A request for administrative settlement shall not preclude a claimant from filing a court action pending administrative determination, limit the amount recoverable in such a suit or constitute an admission against interest of either the claimant or the state.

Sec. 17. Section 9, chapter 159, Laws of 1963 and RCW 4.92.150 are each amended to read as follows:

After commencement of an action in [superior court] a court of competent jurisdiction upon a claim against the state, or any of its officers or employees arising out of tortious conduct or pursuant to 42 U.S.C. Sec. 1981 et seq., the attorney general, with the approval of the court, following such testimony as the court may require, may compromise and settle the same and stipulate for judgment against the state, the affected officer or employee.

Sec. 18. Section 10, chapter 159, Laws of 1963 as amended by section 2, chapter 140, Laws of 1969 and RCW 4.92.160 are each amended to read as follows:

Payment of claims and judgments arising out of tortious conduct or pursuant to 42 U.S.C. Sec. 1981 et seq. shall not be made by any agency or department of state government with the exception of the budget director, and he shall authorize and direct the payment of moneys only from the tort claims revolving fund whenever:

1. The head or governing body of any agency or department of state certifies to him that a claim has been settled under authority of RCW 4.92.140 as herein or hereafter amended; or

2. The clerk of court has made and forwarded a certified copy of a final judgment in a court of competent jurisdiction and the attorney general certifies that the judgment is final and was entered in an action on a claim arising out of tortious conduct under and pursuant to 42 U.S.C. Sec. 1981 et seq. Payment of a judgment shall be made to the clerk of the court for the benefit of the judgment creditors. Upon receipt of payment, the clerk shall satisfy the judgment against the state.

Sec. 19. Section 11, chapter 159, Laws of 1963 as amended by section 3, chapter 140, Laws of 1969 and RCW 4.92.170 are each amended to read as follows:

Liability for and payment of claims arising out of tortious conduct or pursuant to 42 U.S.C. Sec. 1981 et seq. is declared to be a proper charge as part of the normal cost of operating the various agencies and departments of state government whose operations and activities give rise to the liability and a lawful charge against moneys appropriated or available to such agencies and departments.

Within any agency or department the charge shall be apportioned among such appropriated and other available moneys in the same proportion that the moneys finance the activity causing liability. Whenever the operations and activities of more than one agency or department combine to give rise to a single liability, the budget director shall determine the comparative responsibility of each agency or department for the liability.

State agencies over which the budget director has authority to revise allotments under chapter 43.88 RCW shall make reimbursement to the tort claims revolving fund for any payment made from it for the benefit of such agencies. The budget director is authorized and directed to transfer or order the transfer to the revolving fund, from moneys available or appropriated to such agencies, that sum of money which is a proper charge against them. Such amounts may be expended for the purposes for which the tort claims revolving fund was created by RCW 4.92.130 as herein or hereafter amended without further or additional appropriation: PROVIDED, That in any case where reimbursement would seriously disrupt or prevent substantial performance of the operations or activities of the state agency, the budget director may relieve the agency of all or a portion of the obligation to make reimbursement.

The budget director shall report to the legislature, for any biennial period, on the status of the tort claims revolving fund, all payments made therefrom, all reimbursements made thereto, and the identity of agencies and departments of state government whose operations and activities give rise to liability, including those agencies and departments over which he does not have authority to revise allotments under chapter 43.88 RCW.

The budget director may authorize agencies, in accordance with chapter 41.05
RCW to the extent that it is applicable, to purchase insurance to protect and hold personally harmless any officer or employee of the state, or any classes of such officers or employees or for other persons performing services for the state, whether by contract or otherwise, from any action, claim, or proceeding for damages arising out of the performance of duties for, employment with, or the performance of services on behalf of the state and to hold him harmless from any expenses connected with the defense, settlement or monetary judgment from such actions.

The budget director shall adopt rules and regulations governing the procedures to be followed in making payment from the tort claims revolving fund, in reimbursing the revolving fund and in relieving an agency of its obligation to reimburse.

NEW SECTION. Sec. 20. There is added to chapter 4.92 RCW a new section to read as follows:

Whenever a state officer or employee is charged with a criminal offense arising out of the performance of an official act which was fully in conformity with established written rules, policies, and guidelines of the state or state agency, the employing agency may request the attorney general to defend the officer or employee. If the agency finds, and the attorney general concurs, that the officer's or employee's conduct was fully in accordance with established written rules, policies, and guidelines of the state or a state agency and the act performed was within the scope of employment, then the request shall be granted and the costs of defense shall be paid by the requesting agency: PROVIDED, HOWEVER, If the agency head is the person charged, then approval must be obtained from both the attorney general and the state auditor.

NEW SECTION. Sec. 21. This 1975 amendatory act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing institutions, and shall take effect immediately."

On page 13, line 20 before “The” strike “Sec. 14.” and insert “NEW SECTION. Sec. 22.”

In line 18 of the title after “50.16.020;” and before “adding” insert “adding a new section to chapter 4.92 RCW;”

In line 20 of the title after “RCW 43.17.080;” and before “repealing” strike “and”. In line 21 of the title after “RCW 43.17.090” and before the period, insert “; and declaring an emergency”.

Signed by: Senators Rasmussen, Chairman; Buffington, Day, Knoblauch, Wannemaker.

The bill was read the second time by sections.

Senator Rasmussen moved adoption of the committee amendment to page 1.

POINT OF INQUIRY

Senator Woody: “Will Senator Rasmussen yield? I have read this particular amendment and I do not think there is much question, but for purposes of legislative intent, is it intended at all by that amendment that the Attorney General defend any criminal action?”

Senator Rasmussen: “No.”

The motion by Senator Rasmussen carried and the committee amendment to page 1 was adopted.

On motion of Senator Rasmussen, the committee amendment to page 13 adding new sections was adopted.
POINT OF INQUIRY

Senator Cunningham: "Would Senator Rasmussen yield to a question? Would you just repeat your last statement for me? Did you say criminal?"

Senator Rasmussen: "Provides that if a state officer or employee is charged in a criminal action, the employee shall be defended by the Attorney General if his action was within the state or agency rules and guidelines and the scope of his employment. This is within the scope of his employment, Senator, not criminal outside of the scope of his employment. He could be charged with a criminal act within the scope of his employment."

Senator Cunningham: "Senator Rasmussen, as you know, I have been wrestling with this one myself. When the amendment was put on in committee I started to have some questions and I still have some questions with this. Something does not seem logical for a person in that this also addresses his failure to perform his duties. Something just seems wrong for the state to automatically defend any employee because he has failed to do his job, and if anybody can answer this one for me, I tried to bring it up in the caucus. I wish I were an attorney on something like this. I have a reservation. I guess I am basically suspicious."

Senator Rasmussen: "Senator Cunningham, it requires both the agency head and the Attorney General must agree that the action was within the required conditions. It is not an automatic defense. They must review the case and the actions of the employee and then make the decision as to whether or not it was within the scope of his employment. Now I could point out here this was submitted to the committee by Tom Garlington for the Highway Commission and he states, addressed to me: 'You previously invited my comments with respect to the proposed amendment offered by the Attorney General to House Bill No. 106. I am attaching hereto a copy of the summons and the complaint in which plaintiff was injured in an automobile accident, is suing George Andrews, four members of the Highway Commission, and former Highway Commissioner Harold Walsh as a result of the injuries sustained near Snoqualmie Pass, and they are suing on the basis that there was no guardrail, that the car was going seventy miles an hour and there were no speed restrictions, even though there was ice on the highway.' This is the purpose, so that you will be able to offer the defense. Now why there wasn't a guardrail, I do not know. Large stretches of that mountain highway do not have guardrails, of course."

Senator Sellar: "That is two hundred and fifty dollars or up to ninety days."

Senator Donohue: "Two hundred and fifty dollars or ninety days in jail?"

Senator Sellar: "Yes, that is the maximum penalty."

Senator Donohue: "Senator, has this been checked with the Cattlemen's Association? Do they approve of lifting this?"

Senator Sellar: "There were several cattlemen who did speak in favor of this bill when it was in the House. I am sure some of them do and some of them do not, but there are a number who did speak in favor of it. There was one case where a farmer did bring in some cattle into another area. He willfully allowed them to really graze on wheat land and he was arrested three times for it and he forfeited two dollars each time."

Senator Donohue: "I can understand this, but I am thinking about things that are accidental, perhaps. For instance, what if a fence is down due to weather? What if there are stray cattle or they stampede; they run through a fence and so forth? Is there any provision in the bill now that would protect the owner of that livestock under this provision?"
Senator Sellar: "The only thing, Senator, that the ruling would have to be that the rancher willfully allowed these cattle to stray. I queried the Douglas County prosecuting attorney on this and gave him the example of a hunter or something like that opening a gate and leaving it open and so forth, and he said that that would not apply to that case."

POINT OF INQUIRY

Senator Rasmussen: "Will Senator Day yield to a question? Senator Day, this is purely a technical question. I note that you struck 'director' and you inserted 'secretary.' Before the Ways and Means the other day I asked the question because I was informed they changed their title about five months ago to director. Have you any knowledge of that?"

Senator Day: "No, it is still Secretary of the Department of Social and Health Services, as far as I know. All we are doing is bringing this particular portion of the statute into conformity."

Senator Rasmussen: "Well, the party in question was Mr. Jamero, and he said they had changed their names to directors rather than secretaries because his children thought he was running a typewriter under the title of secretary and that is why they changed back to director about five months ago. It is immaterial, I presume."

Senator Odegaard: "What that change was, Senator Rasmussen, was that the overall secretaries of the department would still be secretaries, but the directors would take the place of assistant secretaries."

REPORT OF STANDING COMMITTEE
March 5, 1975.
ENGROSSED HOUSE BILL NO. 410, authorizing port and public utility districts to pay costs of defense for officers and employees in actions arising out of performance of their duties (reported by Committee on Local Government):
MAJORITY recommendation: Do pass with the following amendments:
On page 1, line 7, after "any" and before "officer" insert "person who is or was an".
On page 1, line 14, after "judgment" insert "or settlement".
On page 1, line 21, after "any" and before "officer" insert "person who is or was an".
On page 1, line 29, after "judgment" insert "or settlement".
Signed by: Senators Fleming, Chairman; Jolly, Lewis, (R.H. "Bob"), North, Sellar, Talley.
The bill was read the second time by sections.
Senator Fleming moved adoption of the committee amendment to page 1, line 7.

POINT OF INQUIRY
Senator Guess: "Would Senator Fleming yield? Senator Fleming, in the newspapers there is a problem of an officer of the Port of Seattle. Will this have anything to do with the charges or the alleged misactivities by that gentleman?"
Senator Fleming: "I think it would have something to do with any official if they were acting in good faith. Some of the things that I have read in the alleged situation in the papers is alleging that something was done not in good faith. They could not cover anybody that did anything that was not in good faith in the performance of their duties."
Senator Guess: "Thank you."
The motion by Senator Fleming carried and the committee amendment to page 1, line 7 was adopted.

On motion of Senator Fleming, the remaining committee amendments were adopted.

POINT OF INQUIRY
Senator Washington: "Would Senator Fleming yield to a question before we get on? The way this bill is now written, would criminal actions be defended?"
Senator Fleming: "Senator Washington, this is just merely to do with civil actions, as I understand it. Any actions that are taken or actions of officers while they are in office, if they were acting in good faith as a result of their duties, then this would cover their actions. Now if they are found that they are guilty and they did not act in good faith, they would not be covered and the court or the city or whoever it was at that point in time would withdraw their support and the individual would be on their own to defend themselves. It would only cover them when they were acting in good faith in the performance, purported performance or failure of performance in good faith."

Senator Washington: "Senator Fleming, another question. How is the good faith going to be determined except in the trial which is being defended at public expense?"

Senator Fleming: "In that case, then the individual that was being defended, if it was found that they did not act in good faith, then they would be responsible to pay back to that local body, they would be responsible for those expenses."

**MOTIONS**

On motion of Senator Washington, Engrossed House Bill No. 410, as amended, was ordered placed at the end of today's second reading calendar.

On motion of Senator Mardesich, Engrossed House Bill No. 537 was ordered placed at the end of today's second reading calendar.

On motion of Senator Lewis (Harry), Engrossed House Bill No. 138 was ordered placed at the end of today's second reading calendar.

At 10:50 a.m., on motion of Senator Bailey, the Senate recessed until 11:58 a.m.

**SECOND MORNING SESSION**

The President called the Senate to order at 11:58 a.m.

**SIGNED BY THE PRESIDENT**

The President signed:
- SENATE BILL NO. 2128,
- SENATE BILL NO. 2147,
- SENATE BILL NO. 2177,
- SENATE BILL NO. 2220,
- SENATE BILL NO. 2250,
- SENATE BILL NO. 2266.

**SECOND READING**

ENGROSSED HOUSE BILL NO. 316, by Representatives Sommers, O'Brien and Leckenby (by State Treasurer request):
- Placing five year statute of limitations on claims against state for state warrants and permitting destruction of redeemed warrants after six years.
- The bill was read the second time by sections.
- On motion of Senator Rasmussen, the rules were suspended. Engrossed House Bill No. 316 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

**POINT OF INQUIRY**

Senator Clarke: "Will Senator Rasmussen yield? Senator Rasmussen, this relates, says 'No action shall be commenced against the state on account of any state warrant appearing to have been redeemed.' Now I am concerned about the phrase 'appearing to have been redeemed.' As far as I can ascertain, that is not a word of art and can you state what the intent is with respect to a warrant appearing to have been redeemed or what a warrant appearing to have been redeemed is?"
Senator Rasmussen: "What line are you on, Senator?"
Senator Clarke: "Line 7. That is in our black book here, line 7."
Senator Rasmussen: "Well, 'appearing to have been redeemed,' unless the claim has been presented and filed with the State Treasurer within six years of the date of issuance of such warrant. They would file a claim."
Senator Clarke: "That still does not tell me what you mean by a warrant that appears to have been redeemed. I am assuming that probably you mean a warrant that has been signed and the record shows that it has been paid. Am I correct in that assumption?"
Senator Rasmussen: "I would presume that you are right. And it might have been signed by the wrong person but it would appear to have been redeemed. Then if a person claimed that that was lost and that he did not sign it, he would have to come in within the six year period."
Senator Clarke: "So this would relate then only to instances where a warrant apparently has been paid and then someone subsequently would come in on an identical claim to recover the same money. And what you are saying is that that type of claim must be brought within five years?"
Senator Rasmussen: "Within six years."
Senator Clarke: "Six years instead of five. Thank you."

SECOND READING

ENGROSSED HOUSE BILL NO. 106, by Representatives Chatalas, Curtis, Shinpoch, Polk, Bagnariol and North (by Legislative Budget Committee request):
Abolishing the state administrative board.
The Senate resumed consideration of Engrossed House Bill No. 106. The committee amendments were adopted on March 7, 1975.
On motion of Senator Woody, the Senate moved to reconsider the adoption of the committee amendments.
Senator Marsh moved adoption of the following amendment to the committee amendment:
Amend the State Government Committee amendment to page 13 as follows: On page 4 of the amendment, strike new section 20. Renumber the remaining section.

PARLIAMENTARY INQUIRY

Senator Clarke: "Now speaking about the Senate committee amendment on page 13, the entire amendment and this is an amendment to the amendment? Section 20 only? Have we already acted on the rest of the other committee amendments on page 13, Section 14?"

REPLY BY THE PRESIDENT

The President: "This is an amendment to the amendment, Senator Clarke."
Senator Clarke: "Which would be to this entire amendment?"

POINT OF ORDER

Senator Clarke: "Mr. President, if it is in order, I would like at this time to raise a point of order that the entire amendment increases the scope and object of the bill and I would like to speak on that point, if it is in order.
"The Senate amendment as presently proposed relates to the federal tort claims act and entirely changes the scope of the federal tort claims act. The bill as originally introduced had nothing whatsoever to do with the federal tort claims act and if you will read the scope of this entire amendment it injects a completely new subject which should be separately considered, and it has very significant effect upon the tort claims act. I am referring particularly to the amendment to Section 14 which adds to the tort claims act a proviso which removes completely from the tort claims act certain rather vague categories that I think could have a significance far beyond the original scope of the bill."

REPLY BY THE PRESIDENT

The President: "The President believes that this point presented by Senator Clarke is of such magnitude that it is going to take considerable study and the President . . . ."

MOTION

On motion of Senator Rasmussen, Engrossed House Bill No. 106 was made a special order of business for 3:55 p.m. today.

SECOND READING

ENGROSSED HOUSE BILL NO. 131, by Representatives Bauer, Hendricks, Fortson, Laughlin and McKibbin:
Requiring only that a school district make reasonable effort to maintain minimum term of school required by law in lieu of dissolution of such district.

The bill was read the second time by sections.

On motion of Senator Bottiger, the following amendment was adopted:

On page 1, line 21, after the proviso added by the Lewis, H./Mardesich amendment insert the following proviso: "PROVIDED FURTHER, That school districts operating on a year around plan commonly known as 45-15 shall by the adoption of such a plan be deemed to be making a "reasonable effort".

There being no objection, the two amendments by Senator Bottiger on the Secretary's desk were withdrawn.

Senator Mardesich moved adoption of the following amendment:

On page 1, line 21, after "that year" and before the period insert "PROVIDED FURTHER, That any school district failing to maintain the minimum term of school required by law due to a strike or work stoppage by any of its employees shall not pay to any employee engaged in such strike or work stoppage compensation for any school days during which they were not engaged in their usual contractual duties and shall report within thirty days after the cessation of such strike or work stoppage the names of the certificated employees involved and the compensation so forfeited by such employees, which money shall thereafter be deducted by the superintendent from any state aid distributed to such school districts under chapter 28A.48 RCW: AND PROVIDED FURTHER, That if such school district is able to operate without loss of school days through the employment of substitute personnel during any such strike or work stoppage, or through the subsequent make-up of time lost, they shall not be subject to any deduction of funds by the superintendent under this section".

Senator Grant moved adoption of the following amendment to the amendment by Senator Mardesich:

Strike the second proviso in the Mardesich amendment to page 1, line 21.

Debate ensued.

There being no objection, the amendment by Senator Grant to the amendment by Senator Mardesich was withdrawn.

Senator Grant moved adoption of the following amendment to the amendment by Senator Mardesich:

On line 18 of the Mardesich amendment to page 1, line 21, strike "through the employment of substitute personnel during any such strike or work stoppage or".

POINT OF INQUIRY

Senator Guess: "Would Senator Mardesich yield? Senator Mardesich, as I read the language now, 'that if such school district is able to operate without loss of school days,' now we have already said up above that any school district failing to maintain the minimum of school required by law through a work stoppage, so that is a contradiction there."

Senator Mardesich: "I think the distinction is that this pertains to the funding question whereas the other pertains to the question of whether or not the school district should be — whatever it is called — decertified or whatever, eliminated. That is what the gist of the bill is, but this pertains rather to the funding problem of schools."

Senator Guess: "Thank you."

Debate ensued.

POINT OF INQUIRY

Senator Odegaard: "Senator Mardesich, would you yield to a question? In your amendment, 'have the employment of substitute personnel,' do you mean certificated substitute personnel?"

Senator Mardesich: "I would think that would be inherent since no other personnel may be used for instruction and I think with response to your question of the ratio, that is a function of the State Board. I think that question should be resolved within the State Board. My answer is yes with respect to certificated personnel and what I am saying with respect to the other point is I think that we should not answer that question here."
That should be answered before the State Board as to whether the ratio of sixty is a proper one, and I think it is not. I do not think that is a proper ratio.”

Senator Odegaard: "I guess then what I am saying is I question the decision of the State Board of Education that say that one teacher can handle and do a good job with sixty children and I would hope whatever happens here that they would look at that again."

POINT OF ORDER

Senator Stortini: “I believe this amendment broadens the scope and object of the bill.”

The President: “The oral amendment, Senator?”

Senator Stortini: “The entire amendment.”

The President declared the Senate to be at ease.

The President called the Senate to order.

RULING BY THE PRESIDENT

March 10, 1975.

The President: “In ruling on the point of order as presented by Senator Stortini, the President finds that Engrossed House Bill No. 131 is a measure to prevent the school districts from being dissolved if a reasonable effort has been made to maintain the minimum term of the school required by the law.

The amendment proposed by Senator Mardesich, however, pertains to the salary of striking school district employees and adjustments made in state-aid contributions pursuant to RCW 28A.48 and, therefore, the amendment does change the scope and object of the bill, and the point of order as raised by Senator Stortini is well taken.”

The amendment by Senator Mardesich was ruled out of order.

Senator Lewis (Harry) moved adoption of the following amendment by Senators Lewis (Harry) and Mardesich:

On page 1, line 21, after "year" and before the period insert ":PROVIDED FURTHER, That in the event any school district has suffered any interruption in its normal school calendar due to a strike or other work stoppage or slowdown by any of its employees such district shall not be subject to the requirements of this section or any other provision of Title 28A. RCW pertaining to minimum number of days in any school year"

POINT OF ORDER

Senator Grant: “I would suggest and would agree with Senator Stortini that this amendment also broadens the scope and object of this measure and should be ruled out of order.”

Debate ensued.

RULING BY THE PRESIDENT

The President: “The President believes that the remarks as presented by Senator Harry Lewis are well taken and that in a sense this amendment may better describe the purpose of the bill than the bill itself. Therefore, the President believes that the amendment is within the scope and object of the bill.”

The motion by Senator Lewis (Harry) carried and the amendment was adopted.

Senator Mardesich moved adoption of the following amendment:

On page 2, line 21, strike “15” and insert “30”

Debate ensued.

POINT OF INQUIRY

Senator Mardesich: “I would like Senator Henry to respond. Does he believe that there is any problem with the extension to the thirtieth then? I suppose in light of Senator Lewis's and my amendment it may not be consequential.”

Senator Henry: “I will have to go along with Senator Stortini because I am not a teacher. I do not know what they do in driver's ed and summer school and all that sort of
thing, but I do not think it is necessary there now with the Mardesich-Lewis amendment that you adopted. I do not think you need the extension."

There being no objection, the amendment by Senator Mardesich was withdrawn.

On motion of Senator Stortini, the rules were suspended, Engrossed House Bill No. 131, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed House Bill No. 131, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 47; nays, 2.

ENGROSSED HOUSE BILL NO. 131, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

THIRD READING

HOUSE BILL NO. 63, by Representative Tilly:
Increased penalty for violation of stock restricted area statutes.

POINT OF INQUIRY

Senator Wilson: "Would Senator Sellar yield to a well phrased question? Senator Sellar, this bill increases penalties for violations of certain matters related to livestock grazing where they should not in stock restricted areas. One section of the existing law pertaining to stock restricted areas, namely, 16.24.065, states in part, 'No person owning or in control of any livestock shall willfully or negligently allow such livestock to run at large in any stock restricted area.' My question is whether you would feel that that phraseology which I have just quoted and which is part of existing law would also apply to House Bill 63 which we are now considering?"

Senator Sellar: "Yes, Senator Wilson, it is the intent that House Bill 63 would apply to that section."

The President declared the question before the Senate to be the roll call on final passage of House Bill No. 63.

ROLL CALL

The Secretary called the roll on the final passage of House Bill No. 63 and the bill passed the Senate by the following vote: Yeas, 48; absent or not voting, 1.

Absent or not voting: Senator Guess--1.

HOUSE BILL NO. 63, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

There being no objection, the Senate returned to the sixth order of business.
SECOND READING

HOUSE BILL NO. 123, by Representatives Martinis, Bausch, Clemente, Hansey, Whiteside, Kilbury, Conner, Hurley (George), Smith (Rick), Bond, Moreau and Hendricks (by Department of Game request):
Imposing a penalty assessment on game law violations.
The Senate resumed consideration of House Bill No. 123 and the committee amendment moved for adoption earlier today.
On motion of Senator Francis, the following amendment to the committee amendment was adopted:
Amend the Natural Resources Committee amendment to page 1, line 11 as follows: After “department of game for the” strike the remainder of the amendment and insert “purposes set forth in RCW 77.12.010.”
The committee amendment, as amended, was adopted.
On motion of Senator Peterson the rules were suspended, House Bill No. 123, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.
Debate ensued.

ROLL CALL
The Secretary called the roll on the final passage of House Bill No. 123, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 37; nays, 12.
HOUSE BILL NO. 123, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTIONS
On motion of Senator Washington, Engrossed House Bill No. 410 was made a special order of business for 3:40 p.m. today.
On motion of Senator Knoblauch, Senator Donohue was excused.

SECOND READING
ENGROSSED HOUSE BILL NO. 537, by Representatives Bender, Haley and King (by Superintendent of Public Instruction request):
Authorizing school districts to delegate their authority for investment of certain school funds not immediately needed.
The bill was read the second time by sections.
Senator Mardesich moved adoption of the following amendment:
On page 1, line 9, strike all of the material down to and including “be” on line 14 and insert “Any common school district board of directors is”.

POINT OF INQUIRY
Senator Lewis (Harry): “Would Senator Mardesich yield? Senator Mardesich, it is my understanding that some of the third class and second class school districts are using the intermediate school districts as an investment or delegating this authority or from a practical standpoint, the intermediate school districts are handling this for them. How would this amendment affect that situation, or perhaps you could respond to the validity of my question?”
Senator Mardesich: "That is true. There is another bill which changes that school district question, but ignoring that bill for the moment, I think that merely this would allow the school board to delegate to an employee the authority to contact the county treasurer and say, 'We want these particular funds invested.' Now it may go a step further to broaden the present investing authority, which I think runs primarily to building fund accounts, to other accounts. That I am unclear. But at least it would in affect allow the school board to say to an employee or to the intermediate school district, 'You will direct the treasurer to invest these funds as they become available, whether or not the board is in session.'"

The motion by Senator Mardesich carried and the amendment was adopted.

On motion of Senator Mardesich, the following amendment was adopted:

On page 1, line 17, strike "such funds" and insert "funds described in RCW 28A.58.435 and 28A.58.440 and funds".

Debate ensued.

POINT OF INQUIRY

Senator Bailey: "A question of Senator Mardesich. Would that power you give to the directors to designate someone else, would that include an ISD representative?"

Senator Mardesich: "Yes, it does. That is on line 16."

Senator Bailey: "That does not bother the ISD?"

Senator Mardesich: "No, it allows them to give the authority either to an employee or to the intermediate school district."

POINT OF INQUIRY

Senator Odegaard: "Will Senator Mardesich yield? I was trying to figure out here why the amendment says 'including (b) on lines 13 and 14.' I only find a (b) in line 14."

Senator Mardesich: "This one must be confused with the other one then. I did not read it. It is supposed to read: You strike lines 9, 10, 11, 12, 13 and 14 down through and including the words 'board of directors shall also be' and then you would leave 'empowered to direct.' You would insert in lieu of the language stricken the following language: 'Any common school district board of directors is empowered to direct and authorize.' Are you with me. You guys on Rules brought this question up and now I am taking all the beating."

Debate ensued.

On motion of Senator Stortini the rules were suspended, Engrossed House Bill No. 537, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary call the roll on the final passage of Engrossed House Bill No. 537, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 46; absent or not voting, 2; excused, 1.

Absent or not voting: Senators Fleming, Lewis (Harry)—2.

Excused: Senator Donohue—1.

ENGROSGED HOUSE BILL NO. 537, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

ENGROSGED HOUSE BILL NO. 138, by Representatives Clemente, Brown and Warnke (by Superintendent of Public Instruction request):
Including third class school districts within second class school district category and
enlarging scope of first class district classification.
The bill was read the second time by sections.
On motion of Senator Stortini, the rules were suspended, Engrossed House Bill
No. 138 was advanced to third reading, the second reading considered the third, and the
bill was placed on final passage.

POINT OF INQUIRY

Senator Wilson: “Would Senator Stortini yield please? Senator Stortini, it is my
understanding with respect to third class school districts that this bill changes their classi-
fication to a second class district and in certain areas grants them greater flexibility with
respect to their operation but that nothing in this bill moves in the direction of compel-
ing a consolidation of these school districts. Is that correct?”
Senator Stortini: “Yes, that is correct.”

POINT OF INQUIRY

Senator Odegaard: “Would Senator Stortini yield to a question? Senator Stortini,
as I understand it, there are certain responsibilities that first class school districts have
now that second class school districts do not have. For example, first class districts can
write their own warrants and the second class has to go through the county treasurer’s
office, and there are other examples of that. By passage of this bill, will that mean some
second class districts will now become first class districts and are they ready to pick up
these additional responsibilities that they might not have presently?”
Senator Stortini: “Yes, there are a number of second class districts, Senator, that
have a population much greater than first class. They will then be put into the first class
and assume those responsibilities, just as the third class districts that will now become
second class districts will assume the responsibility of the second class district.”

POINT OF INQUIRY

Wilson’s question about possible forced consolidation. Carry that one step further. Does
this bill in any way intend to affect non-high districts on any of the districts going from third to
second class or second to first, any financial impact?”
Senator Stortini: “No, it does not. In fact, at the present time . . . .”
Senator Bailey: “I just want to know if it is the intention of the bill.”
Senator Stortini: “No it is not the intent of the bill.”

POINT OF INQUIRY

this impose any additional financial burdens on any of the districts going from third to
second class or second to first, any financial impact?”
Senator Stortini: “That was the first question I asked at our hearing and I was told
no, there is no fiscal impact or financial burden to the third class district going into
second.”

POINT OF INQUIRY

Senator Lewis (Harry): “Will Senator Odegaard yield? Senator Odegaard, in the
small districts many times the superintendent is appointed as a lay person, is one who
does not necessarily have the credentials of the superintendent of a first class district.
Will this bill affect that at all or require the hiring of additional people? I think there is
some ambiguity here. I wonder if you could clarify it?”
Senator Odegaard: “As you know, Senator Lewis, I had the same concern and re-
searched this over lunch period, and we found another RCW, 28A.01.100 which states
that the superintendent of a school district, if there be no such superintendent, shall
mean such other administrative or certificated employee as the school district board of
directors shall so designate. So I believe this other section would take care of that
problem.”
ROLL CALL

The Secretary called the roll on the final passage of Engrossed House Bill No. 138, and the bill passed the Senate by the following vote: Yeas, 48; excused, 1.

Excused: Senator Donohue—1.

Providing an anatomical gift form on each driver's license.

The bill was read the second time by sections.

On motion of Senator Day the rules were suspended, Engrossed Substitute House Bill No. 395 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute House Bill No. 395, and the bill passed the Senate by the following vote: Yeas, 48; excused, 1.

Excused: Senator Donohue—1.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 395, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SPECIAL ORDER OF BUSINESS

SECOND READING

ENGROSSED HOUSE BILL NO. 410, by Representative Charette:

Authorizing port and public utility districts to pay costs of defense for officers and employees in actions arising out of performance of their duties.

The time having arrived, the Senate resumed consideration Engrossed House Bill No. 410. The committee amendments were adopted earlier today.

Senator Woody moved adoption of the following amendments simultaneously:

On page 1, line 6, after "any" and before "action" insert "civil".

On page 1, line 20, after "any" and before "action" insert "civil".

Debate ensued.

The motion by Senator Woody failed and the amendments were not adopted on a rising vote.

On motion of Senator Fleming the rules were suspended, Engrossed House Bill No. 410, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.
ROLL CALL

The Secretary called the roll on the final passage of Engrossed House Bill No. 410, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 36; nays, 11; absent or not voting, 1; excused, 1.

SPECIAL ORDER OF BUSINESS
SECOND READING

ENGROSSED HOUSE BILL NO. 106, by Representatives Chatalas, Curtis, Shinpoch, Polk, Bagnariol and North (by Legislative Budget Committee request):
Abolishing the state administrative board.

The time having arrived, the Senate resumed consideration of Engrossed House Bill No. 106 and the point of order by Senator Clarke on the committee amendment and the amendment following to the amendment by Senator Marsh:
Amend the State Government Committee amendment to page 13 as follows:
On page 4 of the amendment, strike new section 20. Renumber the remaining section.

RULING BY THE PRESIDENT

The President: "Senator Clarke has presented the point of order that the proposed amendment changed the scope and object of the bill. The President finds that Engrossed House Bill No. 106 eliminates the administrative board, transfers its duties to other agency, and provides for the defense of state employees and officials in civil actions. The amendment proposed by the State Government Committee increases the situations in which the state employees and officials would be defended and in addition thereto, the proposed amendment eliminates subrogation claims against the state, authorizes settlements without suits being filed in a larger amount than permitted by existing law, and gives the budget director joint control for acquiring liability insurance. The State Government Committee amendment therefore does change the scope and object of the bill and the point of order is well taken."

The committee amendment to page 13 was ruled out of order.

Debate ensued.

PARLIAMENTARY INQUIRY

Senator Cunningham: "In that the part of that amendment also began on page 1, does your ruling take that with it also? I hope."

MOTION

Senator Rasmussen moved that Engrossed House Bill No. 106 be returned to the Committee on State Government.

Debate ensued.

The motion by Senator Rasmussen failed.

REPLY BY THE PRESIDENT

The President: "Senator Cunningham, in reply to your inquiry, the President's ruling pertained to the amendment on page 13, not on page 1."
POINT OF ORDER
Senator Cunningham: “Mr. President, then I would ask for a ruling on the scope and object of the amendments on page 1 in that they cover similar if not the same as those covered on page 13, dealing with insurance and liability and the right to defend, etc.”

POINT OF ORDER
Senator Day: “Did not we have a cut off time of four o’clock? Didn’t we begin to consider this bill after four p.m.”

REMARKS BY THE PRESIDENT
The President: “Were you referring to daylight time, Senator Day?”

RULING BY THE PRESIDENT
The President: “In ruling on the point of order as presented by Senator Cunningham, the President finds that Engrossed House Bill No. 106 eliminates the administrative board, transfers its duties to other agencies and provides for the defense of state employees and officials in civil actions.

The amendment proposed by the State Government Committee, on page 1, increases the situations in which the state employees and officials would be defended.

The State Government Committee amendment, therefore, does change the scope and object of the bill and the point of order is well taken.”

The committee amendment to page 1 was ruled out of order.

MOTIONS
On motion of Senator Mardesich, the committee amendments to the title were not adopted.

On motion of Senator Mardesich the rules were suspended, Engrossed House Bill No. 106 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

WE PRAY THAT THE TEDIUM OF COMMITTEE HEARINGS AND THE HARD WORK OF PLANNING FOR NEW RESOURCES IN A CLAIM ALREADY OVERWORKED MAY BE BROKEN BY MOMENTS OF HUMOR AND BRIGHTENED BY THE TOUCH OF OLD AND NEW FRIENDSHIPS. DONALD R. WILSON, Assistant Chief Clerk.

MOTION
Senator Washington moved that the Senate do concur in the House amendments to Engrossed Senate Bill No. 2105.
Debate ensued.

POINT OF INQUIRY
Senator Guess: "Will Senator Washington yield? Senator Washington, I would only like your assurance that the bill will pass. We have had so much problem in the last few years in getting this type of legislation through that I am willing to settle for getting it passed in the wrong place if necessary."
Senator Washington: "All I can say is that it did come up in the House committee. It was stated in the committee that there was another bill pending. And I do want to point out that the major thrust of uniform laws relates to the movement of vehicles, so that it has a strong impact on driver safety and the cutting down of accidents. This particular amendment relating only to the definition of a bicycle does not affect the movement of vehicles and for that reason I would hate to have to send this back to the House, have the chance of having to go through conference."

POINT OF INQUIRY
Senator Woody: "Would Senator Washington yield? I understand your argument as to bicycles but the second amendment is on page 24 which strikes out two subsections, one of which says "would provide that no person shall operate a motorcycle while carrying packages, etc. which prevents him from keeping both hands on the handle bars," and the second one says that "No operator shall ride in a position that will interfere with the operation or control of the motorcycle." Why should we take those provisions out?"
Senator Washington: "I think, again, that in the operation of a vehicle, the main thing that we are concerned with in this particular bill with the uniform traffic laws is to be able to have each person who comes into the state operate his vehicle in much the same way, particularly as it relates to rules of the road. Now this particular one, I think, it is one that we could argue on. It is one that they argued on at considerable length of
time in the House committee. I was there. Whether or not you can operate a motorcycle with one hand. There was much talk that although it is against the law to operate an automobile with one hand, that we frequently do it. Many of the motorcycles, you do not have proper carrying space and that there may be conditions where you should be able to drive with one hand. I think this again is another element that could be covered. I think it is such a minor change in the entire bill, the import of the bill, that it is not worth us making an argument on. I would prefer that we would accept this, work maybe for a change in the future."

**MOTION**

On motion of Senator Woody, the question was divided.

The President declared the question before the Senate is the motion by Senator Washington that the Senate concur in the House amendment to the title and the amendment to page 4.

MESSAGE FROM THE HOUSE

March 10, 1975

Mr. President: The House has passed ENGROSSED SENATE BILL NO. 2141 with the following amendment:

On page 1, line 15, after the period, add a new sentence as follows: "For the purposes of this act, the Department shall impose no conditions upon parents or guardians specifying the number of weekends such persons shall take custody of deaf and blind students."

and the same is herewith transmitted.

DONALD R. WILSON, Assistant Chief Clerk.

MOTION

Senator Day moved that the Senate do concur in the House amendment to Engrossed Senate Bill No. 2141.

POINT OF INQUIRY

Senator Talley: "Would Senator Day yield? What if the child is sick, in their opinion, and should not be transferred? Under this amendment they would not have anything to say about it, would they?"

Senator Day: "No, all this does is preclude the department from imposing conditions upon the parents or guardians relative to weekend travel. Now the bill addresses itself to allowing them to go home on a weekend because we did a study of the thing and found out that it costs the state—it was a washout on cost—that if they went home the transportation costs just about were equal across the board to keeping the students at the school."

Senator Talley: "The amendment reads, though, 'For the purposes of this act the department shall impose no conditions.'

Senator Day: "That is relative to the number of weekends that they shall take custody of them. In other words, they cannot mandate that on a specific weekend the child has to go home. And it could be that at home there could be some conditions—Representative King, I understand, had a situation where it would actually work a hardship if the child came home on a particular weekend during the month and he felt that this should be in here to preclude the department mandating that this take place."

POINT OF INQUIRY

Senator Mardesich: "Would Senator Day yield? Senator Day, it was my understanding that this act would result in the savings or at least a no expense item by virtue of the fact that the travel would be offset by the fact that you had a lesser requirement for staff."

Senator Day: "Right."

Senator Mardesich: "Now under this amendment, it is going to be possible that half the parents refuse to have them come home on a particular weekend and half are going to want them to go home. And so you are going to have half traveling and all the staff there to take care of the other half and we are going to be a little out of pocket rather than the push situation."

Senator Day: "No, it is anticipated that this amendment is not going to have that kind of an impact. For one thing, if they were to stay, if half the students were to stay,
which I would seriously doubt that that would happen, why they would only have about half or less of the staff there. That is at least the intent of this and that follows relative to the entire staff, Senator Newchwander.”

The motion by Senator Day carried and the Senate concurred in the House amendment to Engrossed Senate Bill No. 2141.

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2141, as amended by the House, and the bill passed the Senate by the following vote:

Renumber the remaining sections consecutively, and the same is herewith transmitted.

DONALD R. WILSON, Assistant Chief Clerk.

MOTION

Senator Francis moved that the Senate do concur in the House amendments to Engrossed Senate Bill No. 2233.

POINT OF INQUIRY

Senator Bottiger: "Would Senator Francis yield to a question? Senator Francis, it has been on occasion the custom where someone was not particularly desirous of having the local newspaper pick up that divorce action, in our case in Pierce County, we always went to Lewis County because it was very quiet down there. I am afraid that our putting this language in is going to express legislative intent that we have to file in the county of residence."

Senator Francis: "Senator Bottiger, I am glad you asked that question. The word 'may' was very intentionally used here. It does not say 'such proceedings shall be filed there'. It intentionally leaves open the rest of the RCW as far as venue for actions. It simply adds something to dissolutions that does not exist in other cases and that is that you can also file it in the county where the petitioner resides."

The motion by Senator Francis carried and the Senate concurred in the House amendments to Engrossed Senate Bill No. 2233.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2233, as amended by the House, and the bill passed the Senate by the following vote:

On page 2, line 30 of the engrossed bill, being the senate amendment to page 2, line 29, after "liquor" insert "controlled substance," and the same is herewith transmitted.

DONALD R. WILSON, Assistant Chief Clerk.

MOTION

Senator Francis moved that the Senate concur in the House amendment to Engrossed Senate Bill No. 2205.
POINT OF INQUIRY

Senator Talley: "Will Senator Francis yield? What is the difference between drugs and controlled substance?"

Senator Francis: "The thinking of the House committee was that drugs are listed in some places but that does not include all controlled substances. I think that we are safe here they do overlap, there is no question about it, but they are not precisely the same. The lists are not the same. I think the important thing is that in connection with any of those it is in violation of state law or county or city or town ordinance so that it is only those things that are prohibited that would apply."

The motion by Senator Francis carried and the Senate concurred in the House amendment to Engrossed Senate Bill No. 2205.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2205, as amended by the House, and the bill passed the Senate by the following vote: Yeas, 46; nays, 2; absent or not voting, 1.

On motion of Senator Walgren, the Senate concurred in the House amendment to Engrossed Senate Bill No. 2350.

POINT OF INQUIRY

Senator Cunningham: "I wonder if Senator Walgren would yield to a question? Senator Walgren, as you know I have had some concerns on this bill. Now this bill will put certain bicycles and tricycles under the present RCW 46.61?"

Senator Walgren: "That is correct as to the extent that bicycles are operated as they are operated upon the public roads, public streets, public highways, and for purposes of transportation."

Senator Cunningham: "Senator Walgren, how about under the rules of the road it now specifically prohibits coasting. Yes, there 46.61.630."

MOTION

At 11:15 a.m., on motion of Senator Mardesich, the Senate recessed until 1:30 p.m.

AFTERNOON SESSION

The President called the Senate to order at 1:30 p.m.

The Senate resumed consideration of the House Message on Engrossed Senate Bill No. 2350.

MOTION

On motion of Senator Walgren, Engrossed Senate Bill No. 2350, together with the House Message, was re-referred to the Committee on Rules.

MESSAGE FROM THE HOUSE

March 10, 1975.

Mr. President: The House has passed ENGROSSED SENATE BILL NO. 2082 with the following amendment:

On page 1, line 17 of the engrossed bill, being the last line of the Senate amendment, after "service" insert "during such time that no private ambulance service operates in the district", and the same is herewith transmitted.

DONALD R. WILSON, Assistant Chief Clerk.

MOTION

Senator Fleming moved that the Senate do concur in the House amendment to Engrossed Senate Bill No. 2082.

POINT OF INQUIRY

Senator Wilson: "Would Senator Fleming yield? You mentioned that this amendment was desirable from the standpoint of Kitsap County. With respect to all the other counties in the state, does this amendment have any particular effect? And my second question is, do the rural fire districts which were endorsing this bill have any concern with the amendment?"
Senator Fleming: “Senator Wilson, the rural fire districts, some of them, do not have any concern with the amendment itself. It is merely dealing with those areas where there is no ambulance service at the present time and those fire districts extending out to give that service. One of the areas that the rural fire districts have a concern is in the intent of the legislation, I think, and I think it will be addressed at a later time before we pass the bill.”

POINT OF INQUIRY

Senator Talley: “Would Senator Fleming yield? Senator Fleming, I would like to have it clarified a little more as to that word ‘districts’ in there. Now a fire district can be in a completely rural area but there can still be an ambulance serving that area. How would that work out?”

Senator Fleming: “Ask the question again. I am sorry.”

Senator Talley: “The word ‘districts’ kind of makes me think. We have fire districts and adjacent to a fire district there may be a good ambulance service. What would this word ‘district’ mean then?”

Senator Fleming: “Maybe Senator Walgren might want to address himself to that since it was his earlier concern, or even Senator Murray do you want to address yourself to that?”

Senator Murray: “Senator Talley, I think we need to start back with the basic bill possibly. This would take care of those situations in which the volunteer fire service is taking care of two different things. One is the aid car service and the other is the ambulance service. Now the particular amendment that was involved applied to those areas where there was no ambulance service whatsoever. No private ambulance service, so that the volunteer fire districts have assumed that and have had the people pay for it by special levy. Now the amendment that was involved in the House says that in those situations where there is no private ambulance company operating they can void the entire fee because it is already paid for by the special levy. In case a private ambulance company comes in and wants to operate, then the option would be for the fire district to not ask for the special levy. So this just takes care of those circumstances in which there is a fire district that operates an ambulance service and is funded by a special levy. And the reason it is funded by a special levy is because there is no private ambulance company that wants to operate in that area.”

Senator Talley: “Another question for Senator Murray. I understood during the testimony that Whatcom County had an ambulance service but it was completely unsatisfactory and people were very unhappy with it so they formed a district and operate their own ambulances now. But under this bill they could not do it then, could they?”

Senator Murray: “The fire districts still can operate an ambulance if the fire commissioners determine how they want to handle it. This merely says they have to do that, make that determination. The fire district still has control over what they do.”

Senator Talley: “But they cannot start one in a district that has an ambulance service, the way I read this amendment.”

Senator Murray: “They can start one but they would have to charge for it.”

MOTION

On motion of Senator Mardesich, the House Message on Engrossed Senate Bill No. 2082, together with the motion by Senator Fleming that the Senate do concur in the House amendment, held its place on the concurrence calendar for Wednesday, March 12, 1975.

MOTION

Senator Henry moved adoption of the following resolution:

SENATE RESOLUTION 1975-15

By Senator Henry:

WHEREAS, During January 1973, the Viet Nam Cease-Fire Agreement was signed in Paris; and
WHEREAS, The provisions of that agreement called for the return of American prisoners of war and an accounting of the men missing in action by the Republic of North Viet Nam; and
WHEREAS, Today, almost two years later, the fate of thirteen hundred of our prisoners or men missing in Viet Nam, Laos, Cambodia or China remains unknown; and
WHEREAS, There is no evidence that the Communists intend to comply with the provisions of requiring a return of all prisoners or requiring an accounting of the men missing in action, and requiring the return of the remains of those who died on foreign soil; and
WHEREAS, VIVA (Voices in Vital America) and the National League of Families have undertaken the task of bringing to focus attention on the plight of our prisoners of war and those missing in action; and
WHEREAS, The focus of our endeavors must be a complete rededication for freedom:
NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF WASHINGTON, That we do hereby proclaim our full support of the efforts of the families and friends of the American Prisoners of War and Missing in Action in Southeast Asia, and call upon all citizens to support their cause and help to bring their fate to the attention of America and the world at large.

On motion of Senator Henry, the following amendment to the resolution was adopted:

BE IT FURTHER RESOLVED, That copies of this resolution be transmitted by the Secretary of the Senate to the Honorable Gerald R. Ford, President of the United States, to the President of the United States Senate, to the Speaker of the United States House of Representatives, and to each member of Congress from the State of Washington.

The motion by Senator Henry carried and the resolution, as amended, was unanimously adopted.

MOTIONS

On motion of Senator Mardesich, all members of the Senate were added as sponsors to Senate Resolution 1975-16.

Senator Lewis (Harry) moved adoption of the following resolution:

SENATE RESOLUTION 1975-16

By Senators Lewis (Harry), Bailey, Beck, Benitz, Bluechel, Bottiger, Buffington, Clarke, Cunningham, Day, Donohue, Fleming, Francis, Goltz, Gould, Grant, Guess, Henry, Herr, Jolly, Jones, Keefe, Knoblauch, Lewis (R. H. "Bob"), Mardesich, Marsh, Matson, McDermott, Morrison, Murray, Newschwander, North, Odegaard, Peterson, Pullen, Rasmussen, Riddler, Sandison, Scott, Sellar, Stortini, Talley, Van Hollebeke, von Reichbauer, Walgren, Wanamaker, Washington, Wilson and Woody:

WHEREAS, Inflation in the United States and the state of Washington has increased dramatically in the past year; and
WHEREAS, Taxes and other charges for government services have risen at rates and proportions equal to or exceeding the rate of inflation; and
WHEREAS, The elderly and other persons on fixed incomes are faced with radically decreased purchasing power as a result of the above; and
WHEREAS, The legislature, always desirous of finding solutions to the problems of the elderly and those on fixed incomes while maintaining state services, finds it difficult or impossible to accomplish that task on a piecemeal, bill by bill basis;

NOW, THEREFORE, BE IT RESOLVED, By the Senate of the state of Washington in legislative session assembled, that a special committee of the Senate be created to deal with the problems of the elderly and those on fixed incomes as those problems are presented during the course of this 44th Legislative Session; and
BE IT FURTHER RESOLVED, That this bipartisan committee shall be composed of six senators with the chairman appointed by the Lieutenant Governor; and

BE IT FURTHER RESOLVED AND AUTHORIZED, That this bipartisan committee work with the Ways and Means Committee, among others, to review and recommend legislative solutions to the problems outlined.

POINT OF INQUIRY

Senator Rasmussen: "Will Senator Lewis yield? What are your intentions, Senator Lewis? To slow up the aging process for the members of the Senate by this resolution? To increase our salaries? The reason I ask this is not being facetious. We have a Council on Aging now. We have numerous branches, and whether you want to make us one of the members of the Council on Aging as a Senate group?"

Senator Lewis (Harry): "No. Senator Rasmussen, what I am proposing is that—and some of us, granted, Senator Rasmussen, are closer to the problem than others of us—but what I am really proposing is that the Senate deal with the problem specifically. We have had a Council on Aging. We have had all kinds of councils and other studies. The Secretary of State studied this problem. But I am suggesting that within the body of the Senate and, hopefully, the House of Representatives, that we will recognize that this is not just a minor thing that can be added to a committee such as Senator Day handles, and Senator Day has done an excellent job in dealing with problems of the aged. Senator Donohue meets problems of the aged in his committee. But it seems to me that we are piecemealing this thing and so I am suggesting, and the resolution suggests, that we have a committee whose responsibility is looking at, studying, and understanding and providing a meeting ground for that group of people in our state. I hope that answers your question."

Senator Rasmussen: "Thank you, Senator. You have a very high-minded purpose but from all of the people in my category and those of you who are approaching that category, the main wish that I find is, 'Good Lord, if you can get government off of my back. It is getting too expensive for me to even grow old.' And if this new commission or council or whatever you are proposing would do that it would be very meritorious but I am not so sure. Usually it ends up costing we elderly much more money just to get old. So, Mr. President, if I should abstain from voting it is because I have a conflict of interest."

The President: "You mean you ride the bus for a dime, Senator Rasmussen?"

Senator Rasmussen: "Seeing as this is a voice vote, it will probably be a very weak one."

The motion by Senator Lewis (Harry) carried and the resolution was adopted.

MOTION

On motion of Senator Matson, the following resolution was adopted:

SENATE RESOLUTION 1975-17

By Senators Matson and Bailey:

WHEREAS, The state organization of the Young Men's Christian Association has conducted a Youth Legislature during the past several years for which the use of the Senate and House Chambers for this purpose has been granted; and

WHEREAS, These Youth Legislatures have been most successful and educational to all participating therein; and

WHEREAS, It is the desire of the Legislature of the State of Washington to encourage the interests of our youth in legislative matters and in the proceedings of the Legislature;

NOW, THEREFORE, BE IT RESOLVED, By the Senate of the State of Washington, that the use of the Senate Chamber and the committee rooms be granted to the state organization of the Young Men's Christian Association for the Youth Legislature to be held in Olympia in 1975 and 1976.

On motion of Senator Donohue, the rules were suspended, Engrossed Substitute House Bill No. 111 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Matson: “Would Senator Donohue yield to a question? Senator Donohue, as Senator Newschwander has indicated, there are a number of us over here that would like to support you on the budget and probably will do so. I am sure as in the case in your caucus and in our caucus there has been a great deal of concern over potentially putting ourselves in the position of mandating a tax increase. Is there anything in this supplemental budget that you would consider as mandating a tax increase?”

Senator Donohue: “The answer is no.”

Senator Matson: “Let me ask one more question. If we were to carry this same level and same philosophy, same level of salaries and same philosophy of expenditures through the biennial budget, would you consider there would be anything in that that would mandate a tax increase?”

Senator Donohue: “I think that if we carry the same level from the supplemental into the biennial budget as we are now going to vote on, that it would indicate that we can in fact, with your help, Senator, and some of your people on that side of the aisle, go home with a good budget, responsible without a tax increase.”

Senators Keefe, Rasmussen and Lewis (Harry) demanded the previous question and the demand was sustained.

The President declared the question before the Senate to be the roll call on Engrossed Substitute House Bill No. 111, as amended by the Senate.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute House
Bill No. 111, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 37; nays, 11; excused, 1.

Voting nay: Senators Benitz, Bluechel, Cunningham, Grant, Jones, Lewis (R. H. “Bob”), Morrison, Murray, Newschwander, Sellar, von Reichbauer—11.

EXPLANATION OF VOTE ON ENGROSSED SUBSTITUTE HOUSE BILL NO. 111

March 11, 1975

I would like to have entered in the Journal my reason for voting “No” on ESHB 111, the supplemental budget bill, which was passed by the Senate on March 12, 1975. I cast a “No” vote in order to be appointed to a conference committee on the bill if such a need were to arise. This was my only reason for voting “No”. I was in favor of the budget; however, in order to serve on any conference committee that could possibly be appointed, it was necessary for me to vote “No”.

Signed by: Senator Charles E. Newschwander.

REMARKS BY THE PRESIDENT

The President: “Ladies and Gentlemen of the Senate, with the approval of the Senate, the President should at this time like to commend Senator Donohue upon the highly capable and dignified manner in which you have managed a tough job under the most difficult circumstances. The President further believes it is also appropriate to compliment the members of the Senate upon their greatly improved decorum and to your dedication to your responsibilities and duties. Thank you.”

MOTIONS

On motion of Senator Mardesich, the Senate dispensed with the Call of the Senate. At 7:28 p.m., on motion of Senator Mardesich, the Senate adjourned until 11:30 a.m., Wednesday, March 12, 1975.

On page 1, line 17 of the engrossed bill, being the last line of the Senate amendment, after "service" insert "during such time that no private ambulance service operates in the district," and the same is herewith transmitted.

DONALD R. WILSON, Assistant Chief Clerk.

The Senate resumed consideration of the House Message on Engrossed Senate Bill No. 2082 and the motion on March 11, 1975 by Senator Fleming that the Senate do concur in the House amendment.
Senator Bluechel: "Mr. President, to establish legislative intent under Section 2 of Senate Bill 2082 which reads as follows: 'Any fire protection district which provides ambulance service pursuant to RCW 52.08.030 shall pursuant to a resolution establish and collect charges for such services in order to reimburse the district for all costs of providing such services,' My question is, and I ask this of Senator Fleming if he will yield? My question is, how are these costs determined and who makes this determination?

Senator Fleming: "Mr. President and members of the Senate, Senator Bluechel, that is a very good question and that was one of the areas that there was some concern in. As far as the bill as drafted and the intent of the bill, it is the intention that the fire commissioner district shall set the fee based on their evaluation and their determination of the cost to the fire district, so it would be the fire commissioners that would set the fee."

MESSAGE FROM THE GOVERNOR

March 13, 1975.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON

LADIES AND GENTLEMEN:

I have the honor to forward to you a copy of the Proclamation by Governor Evans calling a special session.

Sincerely,

CHI-DOOH LI
Legal Counsel.

PROCLAMATION BY THE GOVERNOR

In accordance with the constitutional limitation in Article II, section 12 on the duration of legislative sessions, the 44th session of the Washington State Legislature will be adjourned on March 13, 1975, the sixtieth day of the session. It has become more apparent than ever that the 60-day limit to regular sessions of the legislature does not allow sufficient consideration of the problems our state faces today, and the legislature can no longer look on adjournment after 60 days as a realistic goal.

Final action on the major issues involving essential needs of our citizens is not forthcoming before the end of the regular session, and in recognition thereof I intend to call the legislature to convene in extraordinary session immediately following adjournment of the regular session. I trust the legislature, once convened, will take needed action on critical legislation in the areas of constitutional reform, transportation, energy, natural resources, human resources, law and justice, education, and governmental improvement.

NOW, THEREFORE, I, Daniel J. Evans, Governor of the State of Washington, by virtue of the authority vested in me by the Constitution, do hereby convene the Legislature of the State of Washington in extraordinary session in the Capitol at Olympia on the 14th day of March, A.D. 1975, at the hour of nine o'clock a.m., for the purposes stated herein.
IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the State of Washington to be affixed at Olympia, this 12th day of March, A. D. Nineteen Hundred and Seventy-Five.

DANIEL J. EVANS
Governor of Washington.

BY THE GOVERNOR:
Bruce K. Chapman
Secretary of State.

MESSAGE FROM THE HOUSE

March 12, 1975.

Mr. President: The House refuses to recede from House amendments to SENATE BILL NO. 2079 and once again asks the Senate to concur in House amendments and the same is herewith transmitted.

DEAN R. FOSTER, Chief Clerk.

MOTION

On motion of Senator Waigren, the Senate refused to concur in the House amendments to Senate Bill No. 2079 and asks the House for a conference thereon.

APPOINTMENT OF CONFERENCE COMMITTEE

The President appointed as members of the Conference Committee on Senate Bill No. 2079 and the House amendments thereto: Senators Henry, Murray and Beck.

MOTION

On motion of Senator Waigren, the Conference Committee appointments were confirmed.

MESSAGE FROM THE HOUSE

March 12, 1975.

Mr. President: The House refuses to concur in the Senate amendment to HOUSE BILL NO. 189 on page 1, line 26, and asks the Senate to recede therefrom and the same is herewith transmitted.

DEAN R. FOSTER, Chief Clerk.

MOTION

Senator Fleming moved that the Senate do recede from the Senate amendment to House Bill No. 189 on page 1, line 26 and pass the bill without the Senate amendment.

POINT OF INQUIRY

Senator Lewis (Harry): "Will Senator Fleming yield? Can you explain the situation a little bit?"

Senator Fleming: "Yes, I will, Senator Lewis. Unfortunately, I was not here on the day that we adopted this amendment. Senator Woody did try to put my side of the issue to the body. We discussed it with the prime sponsors over in the House, the people that would be affected by it. We discussed it with Senator Woody, and in view of the fact that we had done this in other areas and so forth, we felt as though this was the right way to go and there was nothing that we should be bickering about."

Senator Woody: "To further answer your question, this is the thirteen cents a mile limitation. As you know through the Legislative Budget Committee, we are trying to make it uniform by all governmentpeople, whether they be the employer or the employee, and put a maximum on it. The LBC has done quite a study. But Senator Herr has convinced me that since we have erroneously allowed others to do this sort of thing we might as well continue with the error."
POINT OF INQUIRY

Senator Lewis (Harry): "Mr. President, that kind of logic just strikes at the heart of irrationality as far as I am concerned, Senator Woody. You know what you are saying is, because we have propounded one felony, therefore it is rational that we just continue down the same merry road. And what this bill does is it provides an open end basis for travel expense. The only restriction it is in water districts. I suppose the bill is not that heavy but I have great difficulty understanding the reasoning. Now I had an identical amendment that I thought perhaps was maybe drafted a little better than yours, but your amendment hung and I was glad to support that and I listened to your persuasive arguments in speaking for your amendment and I felt that you were right. I recall Senator Woody, you said that merely because we have not done this everywhere else does not mean that this is not the proper way and the thirteen cents a mile is what state employees are getting in other areas and there is no reason that a water commissioner should get more mileage than other people who are driving for public agencies in the state. I remember those arguments that you presented, Senator Woody, and I do not understand how your position can change. Are you saying that your amendment is not correct? Are you saying that it is not deserving? Are you saying that they should have special treatment above other state employees? These are the things that I do not understand and I certainly would appreciate the prime sponsor of the amendment explaining why he changed his mind."

Senator Woody: "Everything that you have said so far is true and accurate. Our mutual reasoning at the outset was true. It remains true. My only position in not running away but backing off, so to speak, was because it is not a very big thing and apparently the House is awfully excited about this sort of thing."

POINT OF INQUIRY

Senator Rasmussen: "Senator Woody, would you yield to a further question? Senator Woody, when you were young, did your parents ever read you the story about the little Dutch boy that held his finger in the hole in the dike and saved the whole of Holland?"

Senator Woody: "I read that story myself."

Senator Rasmussen: "Well then, Senator Woody, would you liken this situation of the amendment to that little boy with his finger in the dike, saving the whole state of Washington."

Senator Woody: "I am sorry, Senator Herr, but I am going to have to switch."

Senator Rasmussen: "Mr. President, we have apparently found out who pulled the finger out of the dike."

Debate ensued.

POINT OF INQUIRY

Senator Lewis (Harry): "Would Senator Woody yield to a question? Senator Woody, in remembering your amendment, did it not refer to an RCW that provided the setting of a standard and provide for increases in mileage as developed by OPP&FM or the state? Your amendment did not restrict it to thirteen cents, what I am saying, as I understood the amendment, the amendment had the flexibility of adjustment as determined by the state and I think that was correct."

Senator Woody: "The amendment had the reference of RCW 43.03.060, I believe, and I would have to look up that again to see whether it allows for an increase by OPP&FM if the study were to show that the cost increased substantially. I might note that some of the extreme examples that are used is traveling from Olympia to Spokane and back and if you do not do it by automobile but do it by air that you cannot do it for thirteen cents a mile. Two hundred and fifty miles, I think Senator Walgren was able to demonstrate to us that most cars get about twelve miles to the gallon. They would spend about twelve dollars on a one way trip for gasoline and be able to bill thirty-two dollars and fifty cents at thirteen cents a mile."

Senator Lewis (Harry): "Thank you, Senator Woody."

The motion by Senator Fleming failed on a rising vote.
On motion of Senator Lewis (Harry), the Senate adhered to its position on House Bill No. 189 and the Senate amendment thereto and again asks the House to concur.

The President signed:
SENATE BILL NO. 2080,
SENATE BILL NO. 2082.

On motion of Senator Sandison, Gubernatorial Appointment No. 119, Catherine Hunter as a member of the Board of Trustees of Central Washington State College, was re-referred to the Committee on Rules.

At 12:00 noon, on motion of Senator Walgren, the Senate recessed until 1:30 p.m.

The President called the Senate to order at 1:30 p.m.

Mr. President: The Speaker has signed:
HOUSE BILL NO. 18,

MESSAGE FROM THE SECRETARY OF STATE

Office of the Secretary, January 14, 1975.

THE HONORABLE, THE PRESIDENT OF THE SENATE,
THE LEGISLATURE OF THE STATE OF WASHINGTON,
OLYMPIA, WASHINGTON

MR. PRESIDENT:

I, Bruce K. Chapman, Secretary of State of the state of Washington and custodian of the official seal of the State, do hereby certify that I have compared the attached copy of the proclamation of the Governor calling an extraordinary session of the Legislature of the state of Washington to convene on the 14th day of March, 1975, with the original of said proclamation now on file in this office and find the same to be a full, true and correct copy of said original, and the whole thereof, together with all official endorsements thereon.
IN TESTIMONY WHEREOF, I have set my hand and affixed the seal of the state of Washington. Done at the Capitol at Olympia on the 13th day of March, 1975.

BRUCE K. CHAPMAN
Secretary of State.

Seal of the State of Washington

PROCLAMATION BY THE GOVERNOR

In accordance with the constitutional limitation in Article II, section 12 on the duration of legislative sessions, the 44th session of the Washington State Legislature will be adjourned on March 13, 1975, the sixtieth day of the session. It has become more apparent than ever that the 60-day limit to regular sessions of the legislature does not allow sufficient consideration of the problems our state faces today, and the legislature can no longer look on adjournment after 60 days as a realistic goal.

Final action on the major issues involving essential needs of our citizens is not forthcoming before the end of the regular session, and in recognition thereof I intend to call the legislature to convene in extraordinary session immediately following adjournment of the regular session. I trust the legislature, once convened, will take needed action on critical legislation in the areas of constitutional reform, transportation, energy, natural resources, human resources, law and justice, education, and governmental improvement.

NOW, THEREFORE, I, Daniel J. Evans, Governor of the State of Washington, by virtue of the authority vested in me by the Constitution, do hereby convene the Legislature of the State of Washington in extraordinary session in the Capitol at Olympia on the 14th day of March, A.D. 1975, at the hour of nine o'clock a.m., for the purposes stated herein.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the State of Washington to be affixed at Olympia, this 12th day of March, A.D. Nineteen Hundred and Seventy-Five.

BY THE GOVERNOR:
DANIEL J. EVANS
Governor of Washington.

The following prayer was offered by The Most Reverend Thomas A. Connolly, D.D., J.C.D., Archbishop of Seattle:

ACHIEVE THE CHERISHED GOAL, AN AMERICA IN WHICH ALL PEOPLE, REGARDLESS OF RACE, COLOR, CREED OR NATIONAL ORIGIN, MAY HAVE THE OPPORTUNITY TO LIVE IN PEACE AND HAPPINESS. GIVE US, WE PRAY THEE, AN EXACT UNDERSTANDING OF SOCIAL AND CIVIC UNITY AND HUMAN SOLIDARITY. LET US NOT FORGET THAT ALL MEN ARE ONE IN THEIR CREATION, IN THEIR REDEMPTION, AND IN THEIR SUBLIME DESTINY. INSPIRE IN US, O HOLY SPIRIT, AND IN ALL THE CITIZENS OF OUR DEARLY BELOVED LAND A LIFE OF PRACTICAL LOYALTY TO THE TRADITIONAL IDEAL; IN ESSENTIAL THINGS, UNITY; IN NONESSENTIAL THINGS, LIBERTY; IN ALL THINGS CHARITY. MAKE US AND KEEP US ALL HUMAN INSTRUMENTS OF THY WILL AND THY PEACE. AND MAY THE HIGH PURPOSE OF OUR ENDEAVORS SERVE TO DRAW US EVER CLOSER TO THEE, OUR FIRST BEGINNING AND OUR LAST END. Senator Bailey moved adoption of the following resolution:

SENATE RESOLUTION 1975-21

WHEREAS, Archbishop Thomas A. Connolly epitomizes those religious leaders, who, from the earliest pioneer days, have identified themselves with the exploration, settlement and development in the territory we now proudly call the state of Washington; and

WHEREAS, Archbishop Connolly has not only provided the strength and faith of his own particular religious persuasion, but has also actively promoted issues and causes espousing responsible citizenship, good government and enlightened legislation; and

WHEREAS, For the past 27 years, Archbishop Connolly has served as the religious leader in Western Washington for the Catholic community now consisting of nearly 350,000 members; and

WHEREAS, The dynamic leadership which Archbishop Connolly displayed in the building and the betterment of the Archdiocese of Seattle, ran parallel to the courageous role which he assumed in the on-going struggle against poverty, racism and bigotry; and

WHEREAS, Without regard to the source, Archbishop Connolly constantly responded to urgent appeals and vigorously promoted issues involving moral principles and met each challenge with a vision and determination that has resulted in a precious heritage of educational, social and religious institutions for all of the citizenry in Western Washington;

NOW, THEREFORE BE IT RESOLVED, That the members of the Senate do hereby indicate their respect for the nearly 49 years which Archbishop Connolly has spent as a Catholic priest, acknowledge his many accomplishments as a bishop for 36 years and are grateful for the 27 years of his forceful, provocative and inspirational leadership in Western Washington;

BE IT FURTHER RESOLVED, That the members of the Senate do hereby extend to His Excellency, Archbishop Thomas A. Connolly, congratulations on this occasion of
his well-earned retirement and wish him the happiness in the future which he so richly deserves.

BE IT FURTHER RESOLVED, That copies of this resolution shall be sent to Archbishop Connolly and to the Archdiocese of Seattle.

REMARKS BY SENATOR KNOBLAUCH

Senator Knoblauch: "Mr. President and members of the Senate, our distinguished Guests, Archbishop Connolly. Pastors and ladies and gentlemen, I had not planned any speech this morning but for me today is a very special day because we have with us the man whom we Catholics call the shepherd of the Diocese of Seattle. I remember when Archbishop Connolly came to the diocese twenty-seven years ago from the city he loved, San Francisco, and I remember him saying how hard it was to leave San Fransisco and how wonderful it was to come to the great Pacific Northwest. Archbishop Connolly, you have been a priest now for almost forty-nine years in the service of our God and our Church. The people of Western Washington will always remember the many good deeds that you have done for our diocese and our people. You have never been afraid to take a stand in things that you thought were right. You fought for the people of the state who were members of organized labor. You opposed the right to work law. You stood for everything good as far as the people of Washington State are concerned. And now you are going to retire. Well, Archbishop, I am looking forward to it too, but just a couple of more years. And I only hope that you can find that favorite fishing spot that they talked about out on Puget Sound and that you will be with us for a long time to come. I am a member of St. Andrew's parish in Sumner and I have followed your career as the Archbishop of Seattle. We go from an Irishman, Archbishop Connolly, to Hunthausen, and I have the name Knoblauch. So I assume that someday we are going to have Archbishop Hunthausen on the rostrum saying the prayer. I simply wanted to say that all of us in the State Senate want to wish you everything well and to thank you for a job well done. It hate to see you go, Archbishop Connolly, but you have earned the right for a good rest. God bless you with many more years of success and happiness."

The motion by Senator Bailey carried and the resolution was adopted.

REMARKS BY THE PRESIDENT

The President: "Your Excellency, Archbishop Connelly."

REMARKS BY ARCHBISHOP CONNOLLY

Archbishop Connolly: "Mr. President, members of the State Senate, I wish to thank each and every one of you for this beautiful scroll and for the sentiments expressed therein. And I wish to thank you in addition for the splendid spirit of cooperation and helpfulness that you have always afforded me in our relationships, a relationship that was entirely devoid of anything in the way of bigotry or bias or prejudice, a relationship founded on the true principles of Americanism. And I am very grateful to you for the happy relationship that we have enjoyed over my twenty-seven years up here in God's country. I remember when I was promoted to Seattle some twenty-seven years ago, a lot of my clerical friends in San Francisco envied me in coming to Puget Sound where they said that they had heard that you have to knock the salmon over the head with an oar to keep them from jumping into the boat. Well, I mooched up and down Puget Sound for six months before I even saw a salmon and I was beginning to think that this was just chamber of commerce propaganda. But then over at Possession Point on my forty-eighth birthday in October of 1948 I caught five salmon, which at that time was the limit, and from then on I forgot all about San Francisco.

"I was very fortunate in coming to the Diocese of Seattle in those days to find a group of priests who were outstanding in their loyalty and their zeal. A group of people who were generous hearted and self-sacrificing. And they marched along with me over these twenty-seven years to promote the interests of the church and to engage in a building program that resulted in the construction of some three hundred parish facilities in the way of schools and churches and rectories and convents and auditoriums and gymnasiums, with the result that in coming in to Seattle on May 22, my illustrious suc-
cessor, Bishop Hunthausen of Helena, will not find a great deal to do along these lines. So I am very happy to state that I enjoyed my twenty-seven years up here in the great northwest and I look forward to a retirement that will be restful and I hope fruitful. Thank you and God be with you."

REMARKS BY SENATOR FLEMING

Senator Fleming: "Mr. President and members of the Senate, Archbishop Connolly, I think that in view of what has been said here today I would be remiss if I did not add just a couple words to it. Recognizing the fact that the cathedral is in the thirty-seventh district, and recognizing many of the most worthy causes which you have stood for in the past, stood when it appeared that the room was so empty but all too many times when the room feels empty there is a lot more in that room. The room is much more full with hearts and beliefs than we might understand at that particular time. It feels awful lonely. And I think that all the people of the state of Washington and of the United States will miss you but I think most of all, the district that has such a cross section as the district which I represent, I think those people and the issues that they have fought for in the past in which you have stood out front will miss you most of all. Thank you, thank you, thank you."

REMARKS BY THE PRESIDENT

The President: "Thank you, Senator Knoblauch and thank you, Senator Fleming, and Your Excellency, the members of the Senate, the ladies and gentlemen present in the gallery today are indeed fortunate to have you here and we are very grateful that you came to spend some time with us. The President should like to present the Archbishop's right hand man at the Chancellery, Monsignor Doogan, and our friendly neighbor to the north, Father Matthew. The Archbishop is going to spend some time with us on the rostrum in order that he might keep his eye on a couple of you. If you do not mind, we will resume business at this time."

MOTIONS

On motion of Senator Mardesich, the reading of the journal of the previous day was dispensed with and it was approved.

On motion of Senator Mardesich, the Senate returned to the fourth order of business.

Increasing fees for service in process.

POINT OF INQUIRY
Senator Woody: “Would Senator Francis yield? For clarification, where it says on page 1, line 7, ‘and return;‘ is there one charge for service of the summons and complaint or two charges, that is a second charge charged with the return?”

Senator Francis: “Senator Woody, there is one charge and it should be one charge only, and the law is not intended to allow for a doubling up on that charge.”
Debate ensued.

ROLL CALL
The Secretary called the roll on the final passage of Senate Bill No. 2071, and the bill passed the Senate by the following vote: Yeas, 48; absent or not voting, 1.

SECOND READING

SENATE BILL NO. 2731, by Senators Lewis (Harry), and Peterson:
Providing for training in trapping before license is issued.

REPORT OF STANDING COMMITTEE

March 6, 1975.

SENATE BILL NO. 2731, providing for training in trapping before license is issued (reported by Committee on Natural Resources):

MAJORITY recommendation: Do pass with the following amendment:

On page 1, line 12, after "commission" and before "establish" strike "is authorized to" and insert "shall".

Signed by: Senators Peterson, Chairman; Beck, Bluechel, Lewis (Harry), Sandison, Talley

The bill was read the second time by sections.
Senator Peterson moved adoption of the committee amendment.

POINT OF INQUIRY

Senator Odegaard: "Would Senator Peterson yield? Senator Peterson, with the amendment which would make it mandatory, who is to pay for the training program?"

Senator Peterson: "The fiscal impact as indicated in committee would be very minimal. The department indicated that their field personnel, in cooperation with the existing trappers associations throughout the state would provide the training."

Senator Odegaard: "It would come entirely out of the game funds, would it not?"

Senator Peterson: "It would be administered by the Game Department in cooperation with the existing trapping organizations, yes."

POINT OF INQUIRY

Senator Donohue: "Would Senator Peterson yield? If we adopt this amendment which would mandate that they do establish a program—I am thinking about, for instance, in my community I do not think that we have any trapping organization or humane society or anything like that. We do have a firearms safety group that works with youngsters prior to their receiving a hunting license. Now are we to assume that the Game Department perhaps would authorize or train one of those people and they would do the training of these young people? Is that what we are talking about?"

Senator Peterson: "Basically, I guess it gets down to that question in areas where they do not have an organized trappers organization or trappers in the vicinity that would participate in this program, then if we put this amendment on it would obviously obligate the department to in effect train their personnel if they did not have personnel to perform the functions."

Senator Donohue: "Either that or the Game Department, their representative, would probably be available and would do the job themselves. . . ."

Senator Peterson: "They would have to."
FIFTH DAY, MARCH 18, 1975

POINT OF INQUIRY

Senator Talley: "Would Senator Peterson yield to a question? Senator Peterson, under this bill now, would I be allowed to trap rats, mice and moles? I know I need some training in trapping moles. I do not have much luck at it."

Senator Peterson: "Senator Talley, in answer to your question, actually the animals that are allowed to be trapped are already spelled out in statute and it would not affect moles, mice, rats, etc."

POINT OF INQUIRY

Senator Wilson: "Will Senator Peterson yield please? Senator, could you please tell me what the Game Department's position was on this bill as evidenced in testimony before your committee?"

Senator Peterson: "They had no particular objection to the measure. Their testimony to the committee indicated that they thought that with very minimal expense they could administer it and they did not testify against the bill."

Senator Wilson: "Did they indicate that they felt there was a real need for this bill? Will Senator Lewis yield?"

Senator Lewis (Harry): "Yes, Senator Wilson, I am sorry, I did not hear your question."

Senator Wilson: "I asked Senator Peterson if the Game Department has indicated it feels there is a real need for this bill?"

Senator Lewis (Harry): "Yes, they have, Senator Wilson, I presented this idea to the Game Commission in Vancouver last summer. They were very enthusiastic about it and have checked it out and they fully support it, as well as the trappers organizations are supporting this legislation."

The motion by Senator Peterson failed and the committee amendment was not adopted on a rising vote.

Senator Rasmussen moved adoption of the following amendment by Senators Rasmussen and Lewis (Harry):

On page 1, line 14, after "techniques" and before the comma, insert "including the use of trapping devices designed to painlessly capture or instantaneously kill"

POINT OF INQUIRY

Senator Talley: "Will Senator Rasmussen yield? The use of these traps is not mandatory; they just teach them to use them if they want to?"

Senator Rasmussen: "This is correct."

The motion by Senator Rasmussen carried and the amendment was adopted.

MOTION

Senator Francis moved that Senate Bill No. 2731, as amended, be held on the second reading calendar for Wednesday, March 19, 1975.

The Senate was called to order at 10:15 a.m. by President Cherberg. The Secretary called the roll and announced to the President that all Senators were present except Senators Rasmussen and Ridder. There being no objection, Senators Rasmussen and Ridder were excused.

MOTION
At 10:25 a.m., on motion of Senator Bailey, the Senate recessed until 11:08 a.m.

SECOND MORNING SESSION
The President called the Senate to order at 11:08 a.m.

SECOND READING
SENATE BILL NO. 2731, by Senators Lewis (Harry), and Peterson:
Providing for training in trapping before license is issued.
The Senate resumed consideration of Senate Bill No. 2731 as amended Tuesday, March 18, 1975.
On motion of Senator Lewis (Harry), the rules were suspended, Engrossed Senate Bill No. 2731 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY
Senator Woody: "Would Senator Lewis yield? I understand, and I am not sure, was there an amendment put in limiting this only to commercial trapping or not?"
Senator Lewis (Harry): "No, there was not, Senator Woody."
Senator Woody: "I have examined the statutes and perhaps you can elucidate. When they talk about fur bearing it is not described anywhere in the chapter as to what fur bearing means. I know a few of us had a question, a few of us chicken ranchers, Senator Bottiger and Senator Grant and I seem to have a few chickens running around, and if you set a trap for something that is attending to your chickens and you catch an animal that has fur on it, what happens?"
Senator Lewis (Harry): "Senator Woody, that situation presently occurs and this bill has nothing to do with that situation. Right now you are required to have a trapping license in order to trap, and the statute will not change that situation at all as I understand it."
Senator Woody: "Is it not true that I will have to take training to get it since I do not have a license right now, and if I want to get that trappers license to trap a varmint that is after my chickens?"
Senator Lewis (Harry): "Anybody that presently has a trappers license is not required to do that. Senator Woody, if you decide that you want to start trapping you have not been trapping in the past, then that situation would occur and I think that makes a lot of sense, depending on the kind of trapping that you are going to do, whether it is your son that you decide to let set a trap somewhere. You can catch a cat or you can catch a dog. You can set the trap improperly and hurt yourself, and that was the intent of the legislation that was before us. But the present statute provides for that situation and this does not change that at all. What we are primarily trying to get to are the young
people who are going to start trapping for the first time, to teach them safe trapping techniques. And the best comparison I can give you is that at the present time before your son or before you go out and hunt, you have to have a training program for hunting before you take a rifle out in the woods or your son can, and this merely follows along that same line. They are both very important features and I might additionally add that the trapping association as well as the Game Department and Game Commission are all in full support of this.”

POINT OF INQUIRY

Senator Donohue: “Would Senator Lewis yield? Senator Lewis, I am thinking back to the last session when a similar bill, and looking to the amendment, my question is, is it your intent to perhaps use this measure if the vehicle goes out and comes back with a little change in language to mandate that existing traps that are used today can no longer be used but only those new ones that are supposed to be painless, etc.? Remember the little bill, Senator?”

Senator Lewis (Harry): “Yes, I recall that bill very well, Senator Donohue. That is not my intent. For your information, the Game Department has, on its own volition, made decisions in various trapping areas. For example, they have required that traps be visited every forty-eight hours. The Game Commission made that move last summer. I am talking about instant kill type traps, for example, in trapping beaver and muskrat — they have prescribed methodology and they have prescribed the use of a conibear trap in certain areas. In actual fact, the Game Department could go ahead and instigate this kind of procedure without legislation. They have that authority right now. But I felt in discussing it with them that they should do it out in front and out in the open and they agree. There is no intent to use this as a vehicle for any other purpose except for precisely what the bill says.”

Debate ensued.

POINT OF INQUIRY

Senator Cunningham: “Would Senator Lewis yield to another question? Senator Lewis, I have read this bill once and I thought I understood it, but after you explained something to Senator Woody I got more confused. You say that a person under seventeen, in order to set a trap, has to have a license? And the license has to be preceded on training? Or he has to have a certificate showing that he has completed a course of instruction?”

Senator Lewis (Harry): “Right now, in order to trap fur bearing animals, which is what we are talking about, you have to have a trapping license. That is the present situation.”

Senator Cunningham: “My question is, I can understand about a trapping license. What I am concerned about is here when it says all persons seventeen years or younger have to have a certificate showing they know how to set a trap. A lot of kids set traps for gophers. I do not see anything in here that excludes that. I just want to make sure that they are . . . .”

Senator Lewis (Harry): “They are excluded and this is not included — we are talking about, Senator Woody, Senator Cunningham, the licensing by the Game Department now. We are not talking about gophers and mice. We are talking about the Game Department licensing trappers, which they presently do. You have to have a permit now in order to trap. Now we are not talking about trapping gophers and mice. They do not issue trapping permits and licenses to trap. But we are saying that when a young boy decides to go out and trap or an adult starting to trap for the first time, that he would go through a training program. And what would the training program be? It just does not mean, Senator Woody, a separate commission. What it means is that the Game Commission would work with the trapping association and the agencies that you see listed in the bill, humane or animal associations or trapping associations or the firearms safety group, and they would develop a simple program to teach safe, humane trapping methods. The only difference that we are talking about is that they would have some instruction. This would be done primarily by the trappers themselves in the state, so that
the fellow that trained you, Senator Woody, would probably train other handsome young men in how to trap. The purpose I think is a right one and I think we have debated it long enough. I hope we can bring it to a vote now and pass the bill.”

**POINT OF INQUIRY**

Senator Bailey: “Will Senator Lewis yield? How many trappers licenses do we have at this time?”

Senator Lewis (Harry): “We have about twelve hundred licenses right now in the state of Washington.”

Senator Bailey: “And how many new trappers licenses every year are issued?”

Senator Lewis (Harry): “About six hundred a year, as I understand it, to the best of my recollection, Senator Bailey. There is a big turnover of people going in and out.”

Further debate ensued.

**MOTIONS**

On motion of Senator Mardesich, Engrossed Senate Bill No. 2731 was ordered placed on the third reading calendar for Thursday, March 20, 1975.

On motion of Senator Mardesich, Senate Bill No. 2403 was placed at the end of today’s second reading calendar.

**SECOND READING**

**SENATE BILL NO. 2251, by Senators Grant and Washington:**

Requiring financial disclosure by appointed officials.

**MOTION**

On motion of Senator Beck, Substitute Senate Bill No. 2251 was substituted for Senate Bill No. 2251 and the substitute bill was placed on second reading and read the second time in full.

There being no objection, the following amendments by Senators Lewis (R. H. “Bob”) and Lewis (Harry) were moved for adoption and considered simultaneously by Senator Lewis (R. H. “Bob”):

- On page 1, line 11, strike “state board for community college education,”
- On page 1, lines 17-18 beginning with “University” strike all material down to and including “regents,” on line 18.
- On page 2, lines 18-21 beginning with “Central” strike all material down to and including “trustees,” on line 21.

**POINT OF INQUIRY**

Senator Lewis (Harry): “Would Senator Washington yield to a question? Senator Washington, there are some employees working for the State Finance Committee who invest as much as three hundred million dollars, sixty million dollars at a crack, of state money that belongs to pension boards, for example, on which retired people throughout the state are relying. Are they covered in this bill? Are those individual employees who are making the investments every day?”

Senator Washington: “No, they are not. Actually, I would like to say I do not think there would be a great deal of objection if someone wanted to add such an amendment. I know this was brought up in caucus and I would say that perhaps when we start getting down to sub-agency heads . . . we were merely at this point covering the top bracket. I think the next approach should be to move with some particularity as you are suggesting.

The appointed officials of the Pension Commission, for instance. Very possibly the chief official in the Highway Department relating to the purchase of right of way. Perhaps the head person under the Department of Administration relating to letting contracts for buildings on the campus.”

Senator Lewis (Harry): “How about purchasing agents?”

Senator Washington: “Purchasing agents. But all we did here to start off with was to have the top agency heads of these departments, and certainly you have hit a point. I
think later on we should do that and I certainly, if someone had some amendments and wanted to move further in that direction, I would certainly have no objection.”

Debate ensued.

Senators Beck, von Reichbauer and Lewis (R. H. “Bob”) demanded the previous question and the demand was sustained.

The President declared the question before the Senate to be the motion by Senator Lewis (R. H. “Bob”) that the amendments to page 1, lines 11, 17-18 and 18-21 be adopted simultaneously.

The motion failed and the amendments were not adopted on a rising vote.

On motion of Senator Washington, the following amendment by Senators Washington and Grant was adopted:

On page 1, line 22, after “commission,” and before “shall” insert “and each chief executive officer of the various state boards, authorities, commissions, councils, and other political agencies enumerated in this section in addition to those specified in RCW 43.17.020”

On motion of Senator Beck, the rules were suspended, Engrossed Substitute Senate Bill No. 2251 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Morrison: “Would Senator Washington yield to a question? The amendment that was just adopted by the body adds all chief executive officers not specified in the specific RCW which is also referred to earlier in the same sentence. Is there a definition anywhere within the act of chief executive officers?”

Senator Washington: “I do not believe there is such a definition but I believe in this context that there would be no question who the chief executive officer would be. Now incidentally, there where it provides, ‘except in addition to those specified in RCW 43.17.020,’ in that case 43.17.020 names all of the basic of the major code heads. It also in that case names the Director of Highways and the Director of Game. For that reason that wording is there. The other wording, of course, would cover the chief executive officer of the Data Processing Authority, Forest Practices Board, Gambling Commission, Game Commission, Council on Higher Education, Higher Education Personnel Board, State Highway Commission, Racing Commission, Liquor Control Board, Personnel Board, Public Disclosure Commission. In other words, you have the chief executive officer of that commission is Mr. Johnson, who has been hired to perform that duty. I do not believe there needs to be a specific definition. I think general terminology would cover it.”

Senator Morrison: “Senator Washington, then my presumption that when you say ‘all chief executive officers not specified in a certain RCW reference’ that you believe that you are not covering anyone in any walk of life that might be defined as a chief executive?”

Senator Washington: “No, we are covering only those agencies that were set forth here. We are covering the State Board for Community College Education, the Data Processing Authority, the Forest Practices Board, and the other boards enumerated in this particular bill.”

Senator Morrison: “I do not see that reference though, Senator.”

Senator Washington: “It says, ‘and other political agencies enumerated in this section.’ In other words, it relates to all of those enumerated in the section. This amendment was drafted by Mr. Nicolai and I am sure it is tied down to cover only those persons enumerated in this section.”

POINT OF INQUIRY

Senator Matson: “Would Senator Washington yield to a further question? How many people do we scoop up in this last amendment?”

Senator Washington: “Fifteen.”

Senator Matson: “That is exactly what it is. fifteen?”
Senator Washington: "Fifteen. It is every agency enumerated from line 11 to line 21 except the Game Commission and the Highway Commission which were covered in line 8 where it specifies RCW 43.17.020."

POINT OF INQUIRY

Senator Lewis (Harry): "Will Senator Washington yield? Senator Washington, one of the most influential groups of people in the state in forming policy and influencing legislation or activities of boards and commissions, I think we all recognize here on the floor of the Senate, are newspapers, writers, publishers, and so forth. We have seen evidence in the papers recently of positions taken by reporters on the wine bill, for example, that is residing in committee here, in speaking out against that, for whatever effect it might have. I just use that as one example. There was an example that Senator Henry pointed out to me a number of years ago on a dog racing bill where newspapers have had substantial influence, and of course we recognize that they have influence in most areas. Why didn't you include in any of your amendments or in the bill such activity and such an influential group?"

Senator Washington: "I think there will be a number of influential groups that we do not cover. There are many quasi-public groups that take positions on a number of issues. I suppose we could go on almost ad infinitum but what we are attempting to do is to keep it within some manageable bounds within the ranks of elected public officials and those who have the direct responsibility for voting and allocating funds, making official final decisions which affect the public interest. There are the newspaper people, say the state president of Common Cause or the chairman of the Association of Washington Industries, any other group of agencies exercise a considerable amount of influence. We have not seen fit to go that far."

Debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 2251, and the bill passed the Senate by the following vote: Yeas, 27; nays, 22.

Voting nay: Senators Benitz, Bluechel, Buffington, Clarke, Francis, Goltz, Gould, Guess, Jones, Keefe, Knoblauch, Lewis (Harry), Lewis (R. H. "Bob"), Matson, Mc Dermott, Morrison, Murray, Newschwander, North, Pullen, Sellar, Wanamaker—22.

ENGROSSED SUBSTITUTE SENATE BILL NO. 2251, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Mardesich, Engrossed Substitute Senate Bill No. 2251 was ordered immediately transmitted to the House.

MOTION

On motion of Senator Mardesich, the Senate commenced consideration of Senate Bill No. 2463.

SECOND READING

SENATE BILL NO. 2463, by Senators Sandison, Newschwander, Stortini, Odegaard, Guess and Donohue (by Senate Select Committee on Vocational Education request):

Relating to vocational education.

MOTION

On motion of Senator Sandison, Substitute Senate Bill No. 2463 was substituted
for Senate Bill No. 2463 and the substitute bill was placed on second reading and read the second time in full.

POINT OF ORDER

Senator von Reichbauer: "I move to raise scope and object on Substitute Senate Bill 2463. Mr. President, Senate Bill 2463 was filed as title only as: 'An Act relating to vocational education.' Only vocational education was covered by that title. The only text of SB 2463 reads as follows:

NEW SECTION. Section 1. Vocational education is essential to the prosperity of this state.

II. The Substitute Senate Bill 2463 goes far beyond the subject matter of vocational education in covering high school diplomas, adult education, community schools, and community services.

III. Section 11, page 7 authorizes the SPI 'to contract with community colleges to provide adult high school completion programs . . . . (to) fulfill the purposes to secondary education . . . .'

The statutory references apply to high school completion for military personnel and community college authority to issue high school certificates.

IV. Section 7, page 6 refers to non-credit community service programs. RCW 28B.50.020 paragraph (2), clearly shows that community services are something different than occupational education.

V. Section 7, page 6 also refers to RCW 28A.58.247. That statute defines community education as including instructional, recreational and/or service programs. In no way is vocational education included in the concept of community education, community schools, or community services."

Debate ensued.

RULING BY THE PRESIDENT

The President: "The President in ruling upon the point of order presented by Senator von Reichbauer, the President does not believe that Rule 60 covers this particular situation but even if it did and the point were well taken, the point of order is not timely as the Senate has already acted favorably upon the motion by Senator Sandison to substitute Substitute Senate Bill 2463 for Senate Bill No. 2463. Therefore, the point is not well taken."

Senator Bottiger moved adoption of the following amendment:

On page 2, line 24, before the period, insert: "Provided, that the term postsecondary education shall not be applicable to vocational-technical institutes or other technical schools under the constitutional supervisory authority of the superintendent of public instruction"

Debate ensued.

The motion by Senator Bottiger failed and the amendment was not adopted.

Senator Bottiger moved adoption of the following amendment:

On page 4, line 23, after "secondary education" and before "constitutionally the" strike "is" and insert "and technical education, including specialized area vocational-technical institutes, are"

Debate ensued.

The motion by Senator Bottiger failed and the amendment was not adopted.

Senator Bottiger moved adoption of the following amendment:

On page 5, after line 16, insert the following:

"(4) Vocational-technical institutes. Notwithstanding the provisions of this act or any law to the contrary, existing vocational-technical institutes operating within the common school system shall continue to function therein."

Debate ensued.

POINT OF INQUIRY

Senator Henry: "Will Senator Sandison yield to a question? Senator Sandison, in my district in Skamania County we have had a very successful vocational education program in connection with the Stevenson High School. Senator Mardesich indicated to
me that he thought that that was covered in this bill, that they could continue to do so. The community college, Clark College, when we passed the community college bill, said that they would not interfere with that program and they have kept their word. Now under the terms of this bill without the Bottiger amendment, is the Stevenson High School program protected?"

Senator Sandison: "Assuming that they still have a detente between the two institutions and that there is no feeling in the community that it should be moved, I would say no, there would be no dispute, and I would assume that things would go on as they do now."

**POINT OF INQUIRY**

Senator Bottiger: "May I ask Senator Sandison to yield to a question? Senator Sandison, I traveled to Grandview to sit in on the hearing there where a vocational-technical institute operated by the Grandview School District was being gobbled up by Yakima. Would I presume that without a grandfather clause this could happen in Senator Henry's area as well?"

Senator Sandison: "No, I do not think it will. You know . . . ."

Senator Bottiger: "It could . . . ."

Senator Sandison: "No, if you will allow me to answer, Senator Bottiger, eighty-five percent or ninety percent of the problems between voc-tech and community colleges have been amicably settled. They settle and everything. There are just a few things that, and that was one of them, that there was any kind of a difficulty on. I think the problem about your amendment is that we are doing the same thing that we have done before. We set something in concrete. It may well be that as time goes on they will want to change the type of voc-tech education. They may want to change the voc-tech institutes. There may well come from within voc-tech institutes and their big supporters. And I think we are setting up a commission. We would hope that the people on this commission would have enough interest and would certainly be involved as members of labor and of business and that they would appoint the best director they could find so they would keep abreast of these things and not keep putting them into a concrete straitjacket so we never change."

The motion by Senator Bottiger failed and the amendment was not adopted on a rising vote.

On motion of Senator Bottiger, there being no objection, the remaining amendments by Senator Bottiger on the Secretary's desk were withdrawn.

On motion of Senator Sandison, the following amendment by Senators Sandison, Newschwander and Stortini was adopted:

On page 5, line 11, before "audits" strike "performance" and insert "compliance"
On motion of Senator Goltz, the following amendment was adopted:

On page 7, line 20, after "system" and before "continue" strike "may" and insert "shall"

On motion of Senator Sandison, the following amendment by Senators Sandison, Newschwander and Stortini was adopted:

On page 9, line 30, before "28B.50.230" insert "28B.50.221;"

On motion of Senator Sandison, the rules were suspended, Engrossed Substitute Senate Bill No. 2463 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

**POINT OF INQUIRY**

Senator Newschwander: "Mr. President, would Senator Sandison yield for a question?"

Senator Sandison: "Yes, I yield."

Senator Newschwander: Senator Sandison, we have had an inquiry from the Office of Education and for the record I would like to ask: During the negotiations of the Select Committee was it understood that the "state plan" as called for by section 2(5) on page 2 is not meant to be restricted only to federal requirements but to be in fact the overall state plan for vocational education?"
Senator Sandison: "That is clearly the intention of the Select Committee's recommendations.

"The report of the Select Committee, which was distributed to each member of the Senate, stresses the intent to have, to the degree possible, local coordination and cooperation between the common school and community college districts, but within an overall state plan. Most specifically, I would like to quote from the Report on page 7: '... Therefore, the Select Committee was not motivated in its recommendations to establish a Commission for Vocational Education simply in order for the state to qualify for the receipt of federal funds ... The secondary purpose of the Commission is to initially establish a state plan for vocational education which is in the best interests of vocational and occupational training needs of the state. Corollary to that responsibility for plan development is performance auditing to insure that the systems are responding to the general policies of the state plan. And in order to do so, the Commission must be armed with sufficient authority and statutory guidance to make policy determinations when necessary, either for evaluating proposals to modify the state vocational educational plan or for resolving disputes arising therefrom ...'."

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Will Senator Sandison yield to a question? Senator, you mention there were forty-eight employees, Superintendent of Public Instruction? Is that division going to be abolished?"

Senator Sandison: "No, they will not. I would assume that if there is more vocational education being created for about the same buck, I suppose they may even enlarge a little bit. No, it would not be abolished. They will still administer vocational education in the K through 12 program."

Senator Rasmussen: "What about the Coordinating Council For Vocational Education?"

Senator Sandison: "The Coordinating Council will be abolished and this will be the Commission for Higher Education."

Senator Rasmussen: "Now this new commission that you are forming, they will have no employees? It will be just the appointees?"

Senator Sandison: "They will replace a Coordinating Council that has one hundred and ninety-four employees, and Lee Buffington from OPP & FM who is sitting in on this said that this new commission on vocation education should be able to do it and he said, just roughly, fifteen man years."

Senator Rasmussen: "They will be limited?"

Senator Sandison: "Yes."

Senator Rasmussen: "I am not an enthusiastic supporter of creating new commissions."

Senator Sandison: "No, we are not creating one; we are replacing one. Remember, under the federal law we have to have a separate agency from either SPI or the Community College to receive federal money, so we would have had to have a separate one anyway. This does this, along with the other job."

Senator Rasmussen: "Yes, you bring up a very vital point. Sometime, somewhere, somehow, our Congressmen and Senators must get a grain of brains and say that they can send that check out without sending a hundred people to carry it. And this is one of the sad parts that we have with our federal dollars coming back to us. It only takes one person to send it but it takes a hundred of them to get it back and then that hundred needs a hundred more so they can all become supervisors and then we have Parkinson's Law working good."

Senator Sandison: "You are one hundred percent right. Senator."

Senator Rasmussen: "Thank you."

Further debate ensued.

POINT OF INQUIRY

Senator Stortini: "Mr. President, I rise not with a heavy heart but a very sore
throat. First, Senator Newschwander, would you yield to a question? I understand in the bill before us we are drawing a line of responsibility based on the function of secondary and post-secondary education for both the Superintendent of Public Instruction and, of course, the State Board for Community College Education, with the idea that the SPI office would have that from K through 12 and the Community College system would then have the post-secondary system. Is that not correct?"

Senator Newschwander: "That is correct."

Senator Stortini: "Then, Senator, I turn to section 7. Was it intended that the same jurisdictional responsibility be utilized as far as community schools and community service programs are concerned?"

Senator Newschwander: "As the committee well knows, we discussed this community school again for some time, had many suggestions. Our intent in this bill that the community schools will remain under the SPI's office. I called them, when I went to night school, but they shall continue as long as they are noncredit and not put on at state expense."

Senator Stortini: "Thank you, Senator Newschwander."

Further debate ensued.

TRULY OUR CUP RUNS OVER WITH THE BOUNTY OF GOD—OUR LIVES, OUR LIBERTIES, AND OUR LOVED ONES: OUR GOODLY HERITAGE OF A GOOD LAND AND OUR SPIRITUAL HERITAGE: OUR VISIONS AND TASKS AND PROSPECTS WHICH ARE AS BRIGHT AS YOUR PROMISES. FOR ALL THIS AND MUCH MORE, WE WOULD NOW HUMBLY GIVE THANKS AND TAKE COURAGE AND CARRY ON. DELIVER US FROM BOTH CRIPPLING DESPAIR AND UNREALISTIC OPTIMISM. AMEN."

Changing certain laws relating to the guardianship of incompetents.

MOTIONS

On motion of Senator Marsh, the rules were suspended, Substitute Senate Bill No. 2086 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.
Senator Bottiger: "Would Senator Marsh yield to a question? Senator Marsh, so far the discussion has turned around the estate of the person but there are also guardianships of the person itself, in those cases where an incompetent may need some help or be subject to some control as to his activities. Does this bill also provide for limited guardianships of the person of the incompetent?"

Senator Marsh: "Yes, it does, Senator Bottiger, page 3 of the bill, line 3 says, 'The superior court for each county shall have the power to appoint limited guardians for the persons and estates or either thereof of disabled persons,' so the answer is yes."

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 2086, and the bill passed the Senate by the following vote: Yeas, 49.

SUBSTITUTE SENATE BILL NO. 2086, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

PERSONAL PRIVILEGE

Senator Lewis (Harry): "Mr. President and members of the Senate, I had circulated on your desks a copy of an article that appeared in the paper this morning to make sure that you had an opportunity to read it. While I recognize that the columnist was opposing the idea of capital punishment, his comparison of those who might support such an idea and the innuendo cast perhaps may raise some questions about whether a Senator might possibly end with some appropriations moneys in his pocket. If Mr. Anderson was doing more than just applying imagination in comparison to the capital punishment issue, I would hope that he would advise us down here and that perhaps the Judiciary Committee could take a look or the Ethics Committee or whatever might be necessary, but I wanted to be sure that all members of the Senate saw this article which was passed around on your desks."

PERSONAL PRIVILEGE

Senator Francis: "Mr. President and members of the Senate, I am rising with regard to the same article that Senator Lewis was talking about, and I have read Rick Anderson's column for a long time and I am very disappointed because I think that this article states some things, or asserts some things, or insinuates some things that are going to greatly hurt his credibility. I have thought in the past that Mr. Anderson was very, very effective. I thought that when he did straight reporting he was as good as anyone in the profession and by straight reporting sometimes demonstrated the absolute ridiculousness, for instance, of some law enforcement approaches to massage parlors, for example, and some other of the ridiculous things that our society does, but he did it by straight reporting the facts in detail and in precise chronological way, and it was extremely effective. To turn to this general fad, and it is a very disappointing and childish fad, I think, to always flog the legislature, to always make up every possible kind of conjectural immoral behavior on the part of the legislature, which seems to be some sort of organic body in the writings of these people, just reduces Mr. Anderson to the level of so many other persons who treat the legislature in the same way; and this fad, of course, has been going on for as long as I have been here. I guess it probably will never end, that if we cannot think of anything else to say we say something nasty about the legislature without regard to the slightest possibility as to whether or not it may be true or related to any fact, either historical or otherwise."
PERSONAL PRIVILEGE

Senator Peterson: "Mr. President and members of the Senate, in light of Senator Lewis's and Senator Francis's remarks, I think that perhaps maybe the PI editor and Mike Layton and Shelby Scates should take notice and maybe get a message."

MOTION

On motion of Senator Guess, Senate Bill No. 2461 was ordered held on the second reading calendar for Friday, March 21, 1975.

SECOND READING

SENATE BILL NO. 2117, by Senators Walgren, Beck and Guess (by Department of Highways request):

Providing for the execution of conveyances by the director of the department of highways.

The bill was read the second time by sections.

Senator Wilson moved adoption of the following amendment:

On page 1, line 25, after "so" and before the period insert "Provided, that whenever the commission finds that it is in the public interest to sell such property to an abutting private owner and there are two or more abutting owners, the commission shall sell the same only by public auction unless every abutting owner but one signs a statement signifying he does not intend to bid on or purchase such property".

POINT OF INQUIRY

Senator Bailey: "Would Senator Wilson yield? Senator Wilson, I judge you are dealing mainly with highway rights of way that have been abandoned? I suppose there are some occasionally lost or something like that, but on a highway right of way that is abandoned, why shouldn't they pursue a practice followed in abandoning a street or an alley in a plotted area where they would give some consideration, rather than writing this into law, some consideration to giving the two abutting property owners the right to get together and agree upon the division of that? You abandon a street or an alley, the abutting property owner gets to the middle of that street or alley on both sides of the street where in this case, it would seem to me I recently had a case like this before the commission and there were two different property owners on each side. The land was taken away from one years ago but since then they had sold to separate ownerships. Now it would seem more just if they had not written this into the law and that they could negotiate, rather than putting it up at an auction, put the two property owners into a position of purchasing right to the center line."

Senator Wilson: "You are suggesting that the two abutting property owners might reach agreement with the department where each of them would acquire half of it?"

Senator Bailey: "They would have the prior right. My point, Senator Wilson, is this, that if you write it into the law the department cannot do that, even though they probably are doing it."

Senator Wilson: "Did you wish to comment on that, Senator Woody?"

Senator Woody: "I yield to the question. There is currently a statute that deals with county roads and city roads. It is a five year statute that says if a county or a city road is not open for a five year period of time, then the abutting landowners may petition the city or county to have that property disposed to them to the center of the city or county road. Years ago, as you may recall, in the city of Seattle they were charging the abutting owners for the land. There was a Supreme Court case that said you cannot do that so that they have to give it to them for free. But as I recall, there is no statute on state highways that is similar to that. That is just my recollection."

MOTIONS

On motion of Senator Wilson, Senate Bill No. 2117, together with the pending
amendment by Senator Wilson, was ordered held for further consideration on the second reading calendar for Friday, March 21, 1975.

On motion of Senator Mardesich, the following Senate bills were ordered held and placed on the second reading calendar in the following order on Friday, March 21, 1975: 2093, 2230, 2092, 2313, 2314 and 2198.

SECOND READING

SENATE BILL NO. 2616, by Senators Wilson, Newschwander and Day:
Requiring notice and a hearing before an exchange of state land.

MOTIONS

On motion of Senator Wilson, Substitute Senate Bill No. 2616 was substituted for Senate Bill No. 2616 and the substitute bill was placed on second reading and read the second time in full.

Senator Wilson moved the following amendments be considered and adopted simultaneously:

On page 1, line 26, after "proposal." insert "Any agreement entered into in violation of this section shall be null and void."

On page 2, line 17, after "proposal." insert "Any agreement entered into in violation of this section shall be null and void."

On page 3, line 2, after "proposal." insert "Any agreement entered into in violation of this section shall be null and void."

POINT OF INQUIRY

Senator Cunningham: "Would Senator Wilson yield to a question? Senator Wilson, I was pleased to read in Section 2 about the summary of testimony. However, you made one statement, saying that the testimony would be presented before the project or the exchange was approved. Just to clarify the intent, this is not a hearing just in futility? It can have input to the board so that they are not bound to approve?"

Senator Wilson: "No, what would happen is this meeting would be held in the local area where the public land is situated and testimony would be taken, and what I would assume would be a fair, accurate and concise testimony of the summary would be presented to the Board of Natural Resources, the State Parks Commission, or whichever group was going to make a final determination on the exchange. However, during the course of the hearing that is held in the local area, it is contemplated that those people would be made aware of when and where the board making the final determination would be holding its meeting to give final action on the proposed exchange, so that people who were still concerned about the exchange would then have every opportunity to actually appear before the board that would give final approval to the exchange and reiterate their sentiments face to face with the proper officials if they desire to do so."

Debate ensued.

POINT OF INQUIRY

Senator Lewis (Harry): "Would Senator Wilson yield to a question? Senator Wilson, I notice in line 13 on page 1 and on line 6 on page 2 and line 27 on page 2 it referred to display advertising form. It does not describe the size of the display ad. Display ads can be quite costly. I would like to propose a verbal amendment to add the words 'of reasonable size' in those three places, unless you can show me a reason why I should not, if you have any objection."

Senator Wilson: "Senator Lewis, I have no objection to that amendment. This matter was discussed thoroughly with the DNR and the State Parks Commission during the development of this bill. And it was agreed that at least a common sense approach and one in harmony with the spirit of the bill would dictate an ad of sufficient size that it would attract some attention and not be entirely overlooked. It was my thought, though, that when we started to discuss specific sizes, two column by five or three by ten or so on, that it might be just as well to let the act operate for a year, keep track of it, and see
if the departments in truth are making a good and defensible effort to bring these proposed exchanges to the attention of the public."

The motion by Senator Wilson carried and the amendments were adopted.

Senator Lewis (Harry) moved the following amendments be considered and adopted simultaneously:

On page 1, line 15, after "notice" insert "of reasonable size".
On page 2, line 6, after "notice" insert "of reasonable size".
On page 2, line 27, after "notice" insert "of reasonable size".

POINT OF INQUIRY

Senator Rasmussen: "Will Senator Lewis yield to a question? Senator Lewis, would you define a reasonable size?"

Senator Lewis (Harry): "I would describe that, Senator Rasmussen, as perhaps the considered judgment of a former mayor of the city of Tacoma would satisfy me."

Debate ensued.

The motion by Senator Lewis (Harry) carried and the amendments were adopted.

MOTIONS

On motion of Senator Knoblauch, Senator Donohue was excused.

On motion of Senator Wilson, the rules were suspended, Engrossed Substitute Senate Bill No. 2616 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

REMARKS BY SENATOR WILSON

Senator Wilson: "Mr. President and members of the Senate, I think the measure has been adequately explained and I hope there are enough votes in the chamber to pass it without mine or Senator Murray's, since this does have a distinguishable though very slight effect on newspaper revenues we feel it would be more appropriate if we did not vote on this measure. I would answer any questions if there are any more, and otherwise hope you will all do the right thing by this outstanding piece of proposed legislation."

REMARKS BY SENATOR MARDESICH

Senator Mardesich: "Mr. President, I gather that Senator Wilson was asking to be excused from this roll call and would prefer that the Senator does vote. He is a member of a class. If he is affected by newspaper rates, it is only to the same degree as other newspapers are. This bill does nothing for him specifically one way or the other as distinguished from other newspapers and to rule otherwise with respect to his request would open the door to many members attempting to avoid votes."

REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "Mr. President, Senator Wilson was far too modest and I think he should vote on this bill because he was one of the chief sponsors and it is an excellent piece of legislation. All the departments that appeared before the committee agreed with this legislation. It would serve a very good purpose in alerting the public to when certain properties were going to be exchanged for other properties. And Senator Wilson, you should vote on your legislation which is a very good piece of legislation."

REMARKS BY SENATOR WILSON

Senator Wilson: "Mr. President, I am not asking to be excused. I recognize that what Senator Mardesich said is true but I just feel easier not voting on bills of this nature and if I am carried as absent or however I will be carried, why that is fine with me."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 2616, and the bill passed the Senate by the following vote: Yeas, 46; absent or not voting, 2; excused, 1.

Voting yea: Senators Bailey, Beck, Benitz, Bluechel, Bottiger, Buffington, Clarke, Cunningham, Day, Fleming, Francis, Goltz, Gould, Grant, Guess, Henry, Herr, Jolly,
JOURNAL OF THE SENATE

The President announced the presence in the Senate Chamber of the Apple Blossom Royalty from Wenatchee and appointed Senators Sellar, Morrison, Washington, Wilson, Matson and Jolly as a committee of honor to escort the guests to the Senate rostrum.

The President turned the gavel over to Senator Sellar who introduced Queen Theresa Adams and Princesses Debbie Sorrentino and Kathy MacDonald. With permission of the Senate, business was suspended to permit Queen Theresa to address the Senate.

Senator Sellar returned the gavel to President Cherberg and the guests were escorted from the Senate Chamber.

The committee was discharged.

SECOND READING

SENATE BILL NO. 2047, by Senator Day: Requiring the preservation of hospital treatment records.

The bill was read the second time by sections.

On motion of Senator Day, the following amendments were adopted:

On page 1, line 7, after "all" insert "medical".

On page 1, line 17, before "records" insert "medical".

On motion of Senator Day, the rules were suspended, Engrossed Senate Bill No. 2047 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Newschwander: "Will Senator Day yield? I have just a few qualms about this bill. What bothers me is that last paragraph: 'The Board shall by regulation define the type of records and the information requested.' I would hope that you and your committee will watch the regulations that the board of health or — will you watch the regulations that they adopt, because from past history you know what the board of health has done to nursing home regulations, hospital regulations, child care and so on and so forth? I hope it is not the intent that this is going to make it much more burdensome for hospitals to keep their records like you state."

Senator Day: "No, the intent is just the opposite and I can assure you that the committee will in fact take a real good look at the rules that are adopted."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2047, and the bill passed the Senate by the following vote: Yeas, 47; absent or not voting, 1; excused, 1.

Voting yea: Senators Bailey, Beck, Benitz, Bluechel, Bottiger, Buffington, Clarke, Cunningham, Day, Fleming, Francis, Goltz, Gould, Grant, Guess, Herr, Jolly, Jones, Keefe, Knoblauch, Lewis (Harry), Lewis (R. H. "Bob"), Mardesich, Marsh, Matson,

Absent or not voting: Senator Henry—1.

Excused: Senator Donohue—1.

ENGROSSED SENATE BILL NO. 2047, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SENATE BILL NO. 2422, by Senator Rasmussen:

Extending use of special parking permits for handicapped persons.

The bill was read the second time by sections.

On motion of Senator Day, the following amendments were considered and adopted simultaneously:

On page 1, line 10, after "he" insert "or she", and after "his" insert "or her".

On page 2, line 3, after "his" insert "or her".

On motion of Senator Day, the rules were suspended. Engrossed Senate Bill No. 2422 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Woody: "Would Senator Day yield? For legislative intent purposes. Senator Day, the use of the verb in the present tense of 'being used' on line 17, page 1, and 'being used' on line 6, page 2, does that mean that the vehicle must be under current use rather than permitting a person to permanently park a vehicle on the curb?"

Senator Day: "I think that what that means is at the time it is being used specifically for the transport of such a person. And I would also note that on line 29 you will see that improper use constitutes not a misdemeanor but a gross misdemeanor. In other words, if someone who was not authorized to use such a card used it to park, it is a gross misdemeanor for improper use of the card."

Senator Woody: "I am glad you pointed that out. A gross misdemeanor. Was there discussion in committee as to why to make this sort of thing a gross misdemeanor? That is up to a year . . . ."

Senator Day: "Senator, this is existing statute. The only amendment to line 29 is to change it from decal to card."

Senator Woody: "I understand it is existing. We have a lot of existing laws that are not good. Was that addressed of itself in the committee?"

Senator Day: "No, it was not, because of the fact that it was existing language. I do feel though that it was felt at the time that this was enacted, and I was here at the time, that we wanted to give this special privilege to persons so handicapped but we wanted to be certain that the privilege was not abused by someone who was not authorized to use such special parking privileges, and that is the reason it was made a gross misdemeanor."

Further debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2422, and the bill passed the Senate by the following vote: Yeas, 46; nays, 2; excused, 1.

Voting nay: Senators Pullen, Scott—2.
Excused: Senator Donohue—1.

ENGROSSED SENATE BILL NO. 2422, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION
On motion of Senator Guess, consideration of Senate Bill No. 2530 was ordered held following Senate Bill No. 2633.

Memorializing Congress to exempt duck hunting from requirements of federal environmental policy act.
The memorial was read the second time in full.
On motion of Senator Sandison, the rules were suspended, Senate Joint Memorial No. 110 was advanced to third reading, the second reading considered the third, and the memorial was placed on final passage.

ROLL CALL
The Secretary called the roll on the final passage of Senate Joint Memorial No. 110, and the memorial passed the Senate by the following vote: Yeas, 46; nays, 2; excused, 1.

Voting nay: Senators Fleming, Lewis (Harry)—2.
Excused: Senator Donohue—1.
SENATE JOINT MEMORIAL NO. 110, having received the constitutional majority, was declared passed.

SECOND READING
SENATE BILL NO. 2633, by Senators Woody and Stortini:
Directing state board of education to authorize high school credits for persons accepted into the national guard high school career training.
The bill was read the second time by sections.

POINT OF INQUIRY
Senator Mardesich: "I wonder if Senator Stortini would yield? Senator Stortini, I note on lines 11 through 14 that persons enrolled in these National Guard programs would count toward the receipt of state apportionment funds so far as the school district is concerned, provided of course that the school maintains contact with such student and evaluates his program and progress. I wonder if it is necessary that they receive the full apportionment formula or would it not be more reasonable that they receive only a part thereof?"

Senator Stortini: "Senator, first of all, a student in order to qualify for credit through the National Guard has to meet all the required courses within that curriculum, such as social studies and English, etc., whatever the state qualifications are."
Senator Mardesich: "My point is, he would be learning that outside of the school system. There would be very little expense to the school system in merely evaluating his program."

Senator Stortini: "That is the purpose for this legislation. This last year we are talking about fifteen students that would be in this category."

Senator Mardesich: "If I were a school district I would send them all off to the National Guard and sit back and draw my apportionment formula."

Senator Stortini: "I do not think that is the intent plus . . . ."

Senator Mardesich: "I know that is not the intent. I am just pointing . . . ."

Senator Stortini: "The National Guard is not able to take that many students. But yet this is the purpose. . . ."

Senator Mardesich: "What I am really asking is why it would not be more reasonable to allocate, say one quarter of the apportionment formula?"

Senator Woody: "In answer to that question, you would be set in the same position that we are right now when, for example, one of the larger school districts in the state of Washington who is going out in this on a voluntary program. What they are doing, basically, is sending only those students who are dropouts because they are going to lose that money anyway. What the National Guard is trying to do is get in some really competent type people rather than back when I joined when I was fifteen they had to teach us how to put on our uniforms one foot at a time, and they would rather get some competent high school kids in there and this is the only way to do it. I might add that there are very minimal numbers that they can take in under this program. Right now it is a volunteer program. They have been able to take in fifteen. They estimate that if they really got excited about it they might get as many as sixty or seventy."

On motion of Senator Stortini, the rules were suspended, Senate Bill No. 2633 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 2633, and the bill passed the Senate by the following vote: Yeas, 47; absent or not voting, 1; excused, 1.

Absent or not voting: Senator Sellar—1.

Excused: Senator Donohue—1.

SECOND READING

SENATE BILL NO. 2530, by Senator Walgren:
Relating to highways.

March 6, 1975.

SENATE BILL NO. 2530, relating to highways (reported by Committee on Transportation and Utilities):

MAJORITY recommendation: Do pass with the following amendments:

On page 1, line 3 after "Section 1." strike all the material down to and including "1975." on line 4 and insert: "There is hereby appropriated from the motor vehicle fund
to the Washington state highway commission, for the biennium ending June 30, 1975, the sum of $265,000, or so much thereof as may be necessary for the completion of the existing construction contract on the parkway connection to the Evergreen State College campus as provided in section 3, chapter 174, Laws of 1973 1st ex. sess.

"NEW SECTION. Sec. 2. There is hereby appropriated from the motor vehicle fund to the Washington state highway commission for the biennium ending June 30, 1975 the sum of $11,500 or so much thereof as may be necessary to continue the agreement, in accordance with the provisions of RCW 47.56.720, between Wahkiakum county and the state highway commission for the operation and maintenance of the Puget Island ferry.

"NEW SECTION. Sec. 3. This act is necessary for the immediate preservation of the public peace, health and safety, the support of the state government and its existing public institutions, and shall take effect immediately."

On page 1, line 1 of the title after "highways" strike the period and insert "; making supplemental appropriations; and declaring an emergency."

Signed by: Senators Walgren, Chairman; Beck, Benitz, Bluechel, Bottiger, Guess, Jolly, Lewis (R. H. "Bob"), Morrison, Peterson, Wanamaker.

The bill was read the second time by sections.

Senator Guess moved adoption of the following amendment to the committee amendment:

There is hereby appropriated from the motor vehicle fund to the Washington State highway commission for the biennium ending June 30, 1975 the sum of $103,000 or so much thereof as be necessary for the purpose of constructing an off-ramp from highway I-90 to Lindeke Street in order to serve Spokane Falls Community College."

Renumber the remaining section consecutively.

Debate ensued.

There being no objection, the amendment by Senator Guess to the committee amendment was withdrawn.

POINT OF INQUIRY

Senator Rasmussen: "Would Senator Walgren yield to a question? Senator Walgren, this was one of those bills that had a lot in it when it started out. It does not have much in it now. What I am wondering is, and you give a partial explanation, why is it so important that we complete this road out to Evergreen College? They tell me that that is very sparsely used, that they are mostly hikers out there and mountain climbers and they do not really use automobiles very much and they are very much opposed to it from the environmental standpoint. But there is a very important issue that you have not put in this bill when you filled in after the title. That is the Tacoma spur which one hundred and fifty thousand cars a day use. They have to use it as a matter of commerce in and out of the town and I would think that something should be in there in regard to that. I did have too short a notice in order to prepare an amendment like Senator Guess, but I would think it is something that should be given consideration. Could you tell us anything about that and why it was overlooked?"

Senator Walgren: "Senator Rasmussen, this was one of those bills that had a lot in it when it started out. It does not have much in it now. What I am wondering is, and you give a partial explanation, why is it so important that we complete this road out to Evergreen College? They tell me that that is very sparsely used, that they are mostly hikers out there and mountain climbers and they do not really use automobiles very much and they are very much opposed to it from the environmental standpoint. But there is a very important issue that you have not put in this bill when you filled in after the title. That is the Tacoma spur which one hundred and fifty thousand cars a day use. They have to use it as a matter of commerce in and out of the town and I would think that something should be in there in regard to that. I did have too short a notice in order to prepare an amendment like Senator Guess, but I would think it is something that should be given consideration. Could you tell us anything about that and why it was overlooked?"

Senator Walgren: "Senator Rasmussen, first let me assure you that this was not a lengthy bill when it started out. It was a title only bill and we, as I indicated, put in two sections here that we felt were emergent situations as far as obligations that are now pending. The Evergreen Parkway, we have a contract in process at the present time. If we do not make this appropriation, that contractor will stop work; the project will be about half finished; it will constitute a safety problem for the highway out there; we will have the problem of starting up the contract again when appropriations are made during the regular biennium. Thirdly, I agree with you with regard to those other projects that you mentioned. Those are very meritorious and as a matter of fact, if I was making a determination as to what should be built and which project should be commenced, I can
think of no better project than that Tacoma spur and I can think of no better project than that SR 16 project running from Tacoma to Bremerton, and let me assure you that during the appropriation process that we will be going through here very shortly, both of these projects will be getting very careful consideration.”

Senator Rasmussen: “Thank you, Senator.”

POINT OF INQUIRY

Senator Morrison: “Would Senator Walgren yield to a question please? Senator Walgren, in discussing this in your Transportation Committee, we found that particularly in the case of the Puget Island Ferry which we are subsidizing and have for a number of years and I can understand the reasons why, part of the main traffic on that particular ferry is to an aluminum mill that operates in Oregon and that while these are Washington citizens, of course, that are working there, Oregon is collecting income tax on their incomes and they are undoubtedly buying their groceries while they are over there. Also, I presume that this ferry travels both ways and find that Oregon in no way participates in this. I guess the question is this: Is there any way as we proceed to continue to subsidize this ferry through the years that we could force Wahkiakum County to consideration of raising the fares? They have not been raised for a number of years. And also to encourage them to proceed with negotiations with the state of Oregon on sharing some portion of the cost?”

Senator Walgren: “Senator Morrison, I think this is a very good idea and you are correct, this was under discussion in the committee and I know that Senator Peterson, as the subcommittee chairman of toll facilities, has given consideration to this too. I think that one of the items that will appear in the study bill that traditionally comes through the legislature relating to highway matters will include a section therein requesting investigation into the question as to having contributions from the state of Oregon or from the particular county that might be involved down in Oregon. I think we should pursue that and we should insure that that does appear in the study bill.”

Senator Morrison: “Thank you.”

Debate ensued.

MOTIONS

On motion of Senator Knoblauch, Senator Stortini was excused.

Senator Lewis (Harry) moved that Senate Bill No. 2530, together with the pending committee amendment, be held for further consideration on Friday, March 21, 1975.

POINT OF INQUIRY

Senator Walgren: “I would just like to ask Senator Lewis what the reason for the holding of the bill is.”

Senator Lewis (Harry): “There have been some questions from some of the newer members of the Senate and I just did not want to have them voting without being sure what they are voting on, Senator. As a courtesy to them I asked that it be held over.”

Senator Walgren: “I would be happy to answer any questions that any of the newer members might have with regard to the measure and handle it that way.”

Debate ensued.

There being no objection, the motion by Senator Lewis (Harry) to hold Senate Bill No. 2530 for further consideration on Friday, March 21, 1975 was withdrawn.

The motion by Senator Walgren carried and the committee amendment was adopted.

On motion of Senator Walgren, the committee amendment to the title was adopted.

On motion of Senator Walgren the rules were suspended, Engrossed Senate Bill No. 2530 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Excused: Senator Stortini—1.

ENGROSSED SENATE BILL NO. 2530, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

PERSONAL PRIVILEGE

Senator Rasmussen: "About two days ago, three days ago, I gave a page an old school composition book with a green cover that was sent to be by a lady from Tacoma and contained newspaper clippings about the city of Tacoma. Inadvertently the page must have taken it to some other office and if any of the Senators see an old green composition book, would they please forward it to my office? I am rather embarrassed by it. I was just going to have it copied until I had time to read it and now I have lost it."

MOTION

At 12:17 p.m., on motion of Senator Mardesich, the Senate adjourned until 10:15 a.m., Friday, March 21, 1975.

"WINTER IS PAST, SWEET SPRING IS COME AT LAST, IS COME AT LAST. SING, CREATURES SING, ANGELS AND MEN AND BIRDS, AND EVERYTHING. HOW GREAT THOU ART O GOD, WHO CANST DRAW FLOWERS OUT OF BARREN WINTER TREES AND CANST EVEN DRAW TWO ANGRY PEOPLE TOGETHER AND MAKE THEM ONE — THROUGH FORGIVENESS. HOW GREAT THOU ART; DROP THY STILL DEWS OF QUIETNESS, 'TIL ALL OUR STRIVINGS CEASE; TAKE FROM OUR SOULS THE STRAIN AND STRESS AND LET OUR ORDERED LIVES CONFESS THE BEAUTY OF THY PEACE. YES, OUR FATHER, ON THIS FIRST DAY OF SPRING, GRANT US THY PEACE. On motion of Senator Marsh, the rules were suspended and Engrossed Senate Bill No. 2731 was returned to second reading.
Senator Marsh moved adoption of the following amendment:
On page 1, line 11, following "techniques" and before the period insert: "PROVIDED, HOWEVER, That in lieu of requiring the completion of a course of instruction in humane, safe and proper trapping techniques a trapping license shall be issued to any person who shall pass an examination given by the commission which establishes that such applicant has the requisite knowledge concerning humane, safe and proper trapping techniques"

POINT OF INQUIRY
Senator Francis: "Would Senator Marsh yield? Senator Marsh, you said 'safe, sane, and humane.' Is the word 'sane' in the amendment?"
Senator Marsh: "No, the amendment reads, 'humane, safe, and proper trapping techniques.'"
Senator Francis: "Thank you very much."
The motion by Senator Marsh carried and the amendment was adopted.

POINT OF INQUIRY
Senator Bottiger: "Would Senator Lewis yield to a question? Senator Lewis, after our discussion yesterday about what happens to the person simply trying to protect his own livestock by trapping, shall we say invaders, on his property. I was visited by a representative of the Game Department who found a statute that answered my question and I wanted to put that in the record. Would I as a rancher be violating any statute if I put out traps to catch animals that were attacking my livestock?"
Senator Lewis (Harry): "Senator Bottiger, the answer to that question is no, and I refer you to the reference 77.16.230 which deals precisely with that situation and handles it to your satisfaction."
ROLL CALL

The Secretary called the roll on the final passage of Reengrossed Senate Bill No. 2731, and the bill passed the Senate by the following vote: Yeas, 28; nays, 18; absent or not voting, 1; excused, 2.

MOTION

On motion of Senator Bailey, Senate Bill No. 2650 was ordered to hold its place on the second reading calendar for Tuesday, March 25, 1975.

There being no objection, the Senate returned to the sixth order of business.

SECOND READING

SENATE BILL NO. 2461, by Senators Guess, Benitz, and Wilson (by Executive request):
Revising law on withdrawal of public ground water.

REPORT OF STANDING COMMITTEE
February 21, 1975.

SENATE BILL NO. 2461, revising law on withdrawal of public ground water (reported by Committee on Ecology):
Recommendation: Do pass with the following amendment:
On page 1, line 14, after "granted by" and before "as herein" strike "him" and insert "[him] the department",
Signed by: Senators Washington, Chairman; Donohue, Goltz, Guess, Murray, North, Sandison.

The bill was read the second time by sections.
On motion of Senator Washington, the committee amendment was adopted.
Senator Woody moved adoption of the following amendments:
On page 1, line 18, after "exceeding" strike "five" and insert "twenty"
On page 1, line 19, after "exceeding" strike "five" and insert "twenty"
Debate ensued.

POINT OF INQUIRY

Senator Benitz: "Would Senator Woody yield to a question? Does this change the existing registration of which the many thousands have registered now under the five thousand gallons a day? Does it automatically raise those to the twenty thousand gallons a day with your amendment?"

Senator Woody: "No, it does not because that registration is under RCW 90.14.041. That merely says that they have to file the claims within a particular period of time. It does not say how much water that claim would be for. I have another amendment that deals with that."

Senator Benitz: "Thank you, Senator Woody. That to me is the biggest problem with this. Those that have tried to live within the law and registered their well under the
five thousand gallon now find themselves, if we pass this, at extreme disadvantage. They are really being penalized for trying to be law abiding citizens, and I think if we are going to make the correction I would like to see it up as high as we think is right, based on Senator Washington's words, but I do not think it is fair to do this for those that have not complied."

Further debate ensued.

PARLIAMENTARY INQUIRY

Senator Clarke: "I have an amendment up here which would change the five to twenty west of the Cascade Range. If this amendment loses, I assume I will still be in order for that amendment?"

REPLY BY THE PRESIDENT

The President: "Yes, Senator."

POINT OF INQUIRY

Senator Rasmussen: "Would Senator Murray yield to a question? Senator Murray, you indicated that the reason for this was that they wanted to know how much water you were taking. If I had a fifty thousand gallon per hour pump and I only run it for one hour I would take only fifty thousand gallons out of the well. If I run it for twenty-four hours it would be considerably more, wouldn't it?"

Senator Murray: "Your mathematics is correct, yes."

Senator Rasmussen: "I just wondered how you arrived at the fact that they could tell how much water you took out of the well. They could tell you what the capacity of your well was if you run it for twenty-four hours but they would not be able to tell directly how much water you took out of the well."

Senator Murray: "My understanding is you apply for a permit for the amount of water you want if it is in excess of five thousand gallons a day on a daily basis."

Senator Rasmussen: "And I just did want to point out that I do not know how much water Senator Murray uses but the water that they use on Queen Anne Hill we are very directly concerned with because the Cedar River sometimes gets so low that they tell the fish not to drink as they go upstream to spawn. And it is a very vital concern of us that are concerned with our fisheries resources. And I am inclined to support the Woody amendment. I hate to see Senator Donohue be illegal when he is sprinkling his lawn and it sounds to me like it would be a good amendment and I am very sorry that Senator Washington does not know what it is all about. But Senator Donohue will talk to you privately. It will take too much time here."

Further debate ensued.

POINT OF INQUIRY

Senator Mardesich: "Mr. President, I wonder if Senator Washington, who seems to be somewhat familiar with the measure, or Senator Bottiger, who also seems to be somewhat familiar, would help me out a little in the reading of this measure. I look to the beginning of the language on line 9, page 1. What this bill provides, starting there, is 'that there shall be no withdrawal begun,' and down on to 'unless there be a permit granted,' and then they list the exceptions beginning on line 14. On line 14 it says, 'except however that any withdrawal of public waters for stock watering purposes or for the watering of a lawn—that is conjunctive—'or of a noncommercial garden not exceeding one-half acre or for single or a group domestic uses in an amount not exceeding five thousand gallons a day or for an industrial purpose in an amount not exceeding five thousand gallons a day.' It seems to me as I read that that there is no restriction for public use of those public waters under this exception for stock watering purposes or for the watering of a lawn or for a noncommercial garden not exceeding one-half acre in size, and if the five thousand gallons limitation applies to single or domestic uses or to an industrial use, and I am completely lost by the amendment; and then I become even more befuddled when I read on and look to section 2 and all this says—apparently it is trying to legalize someone along the line. Section 2 says 'All withdrawals of public ground water between July 1974 and the effective date of this act which are within the
exemption shall in effect be legal.' Now if they are within the exemption, why should there be the necessity of legalizing them? Anyone respond to that? We are arguing about a lawn and as I read it there is no limitation. We are arguing about stock; there is no limitation. I am wondering now why the bill is even here. Mr. President, somewhat out of order, I move this measure be set over until Monday or perhaps Tuesday, Tuesday morning's calendar."

The President: "The President will put your motion in just a moment, Senator. Senator Guess?"

Senator Guess: "I would like to answer Senator Mardesich. The problem arose and the reason that I signed on it was because of the fact that those people who failed to file by July 1, 1974 were precluded from filing, although they might have been water users as in one instance in my district, Senator Mardesich, since 1921. And I think that that was what I had hopefully—that where Section 2, 'All withdrawals of public waters between July 1, 1974, and the effective date of this act which are within the exemption of .050'—that is the yard—'and not subject to a claim filed with the Department of Ecology prior to July 1 shall have a right to withdraw ground waters with a priority date of the first withdrawal on or after July 1, 1974.'"

Senator Mardesich: "Then perhaps Senator Guess would yield again. I gather that the priority is running from lines 24 through 30 and so on, would run to the exemptions then?"

Senator Guess: "Yes, sir."

Senator Mardesich: "You mean then it becomes a question of whether you even have a right to use the five thousand for watering of cattle simply because someone else has a prior right to water their lawn?"

Senator Guess: "Senator, this is not—well, maybe you had better set it over then."

Senator Mardesich: "I repeat my motion."

POINT OF INQUIRY

Senator Woody: "Would Senator Guess yield? Senator Guess, addressing your attention to page 3, New Section 4—that is number 221 in your white book. We are looking at New Section 4, that is 222 where it permits the department to contract or enter into agreement, which appears to be different from a contract, with a private agency or individual to perform the duties. Is it your intent or was it the intent of the committee that this in any way avoid the requirement for filing personal service contracts with the LBC?"

Senator Guess: "No, sir, in no way."

Senator Woody: What sort of a need is there to have private individuals or agencies perform this work? Was there any testimony in that area?"

Senator Guess: "Yes, there was. There are certain areas that when they need to go in in a big hurry, if the capability exceeds that which the department has. For instance, they will have two survey parties, two parties for doing this thing, and if somebody were to go into an area where no land surveying had been done and the proper net was not there, then they would be able to contract on a short-term basis for one or two extra survey parties in order to get the work done in sufficient time."

Senator Woody: "Do you know whether there is a request in budget for additional FTE's by the Department of Natural Resources for this task?"

Senator Guess: "There is not right now."

Senator Woody: "Thank you."

POINT OF INQUIRY

Senator Lewis (Harry): "Will Senator Guess yield? Senator Guess, on page 3 of the bill you are talking about establishing and extend the horizontal control system, and then Senator Woody's question as relating to Section 4, it would appear to me that the bill mandates the department to go ahead and do this work."

Senator Guess: "It does."

Senator Lewis (Harry): "If it does that which you say it does, then what is the cost of this and how will it be funded?"

Senator Guess: "It will be funded by a two dollar fee, look in Section 12, you see that all conveyances—a fee of two dollars shall be charged for each county or corridor over and above any other fees required by law as the condition precedent to recording of any instrument conveying real property or any interest therein. Such fees so received shall be forwarded monthly to the State Treasurer. The fees so forwarded shall be deposited in a survey and maps account of the general fund which fund is hereby permanently established for the use of the department to perform the purposes of the bill."

Senator Lewis (Harry): "So it is clear that that section, that no other funds other than that two dollar fee would be used other than other funds which might normally accrue to that department, that agency of Natural Resources?"

Senator Guess: "That is correct, that is right."

POINT OF INQUIRY

Senator Knoblauch: "Would Senator Pullen yield to a question? Senator Pullen, for us non-lawyers, would you explain a class A felony?"

Senator Pullen: "In explaining it I can only say that the entire criminal code that we have before us, which consists of about six different bills, has class A felonies listed throughout the six bills, and these class A felonies are the ones that generally are applied only to the very serious crimes like robbery, assault, first degree arson, first degree kidnapping, the kind of crimes where individuals can be very seriously injured. It is these kinds of crimes that I think we need a serious penalty so that we can provide some degree of protection for society."

The motion by Senator Lewis (R. H. "Bob") carried and the amendment to the amendment by Senators Pullen and Benitz was adopted.

The President declared the question before the Senate to be adoption of the amendment by Senators Pullen and Benitz as amended by Senator Lewis (R. H. "Bob").

POINT OF INQUIRY

Senator Bottiger: "Would Senator Pullen yield to a question? Senator Pullen, and this proposal, of course, has not had a hearing before the committee; it is a subject matter of considerable concern and I as one who have supported mandatory five year penalties for conviction of a crime involving a firearm, a five year mandatory penalty for sale of narcotics, am not anti the proposal of no suspension of certain sentences, but I am wondering what kind of research you have made into what is called a class A felony in the rest of these statutes; and if you have looked at any of the problems of people who have been technically guilty in a crime of passion, say, of murdering their wife or their husband, something that happens only once and which history tells us will not happen again, is not a part of any criminal mind; have you looked into the statutes in all the rest of this criminal code to see what we are adopting — a no suspension, no deferral, no parole, no job release, no anything, in your amendment?"

Senator Pullen: "The answer to your question is yes, I have looked through all the six parts of the criminal code that are now before us, and I could not find any class A felony crime that I did not feel would require at least a three year minimum, or six years — now it is down to three years — minimum mandatory sentence to provide
some measure of protection for society. All the class A felonies that I could find were of such a serious nature that I could not conceive of any circumstances in which the person should be freed prior to the six year, now amended down to three year, period of confinement. And I am quite sympathetic to what you say, too. I do not feel that we should be letting the extenuating circumstances not to be considered and I think we should also consider extenuating circumstances but that is why we have, I think, class B and class C felonies included in here. Only for the class A felonies I think that we need a minimum mandatory sentence.”

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: “Would Senator Woody yield to a question? Senator Woody, for a class A felony, I am reading New Section 9A on page 17, it provides for imprisonment in a state correctional institution for a maximum term fixed by the court of not less than twenty years. So apparently a class A felony is considered a very serious—I was wondering why you are objecting to three years?”

Senator Woody: “You do not mistake ‘not less than three years’ with the terminology of ‘not more than twenty.’ ‘Not more than twenty’ is the current technique of sentencing under our existing law and a board of prison terms and parole sets the actual minimum term.”

Senator Rasmussen: “I think this is what the problem—and then it goes on down—class B provides for a maximum term of ten years, and class C for not more than five years.”

Senator Woody: “Sort of like papa bear, mama bear, and baby bear, without identifying them.”

Senator Rasmussen: “I think that the problem that Senator Pullen is attempting to get at is really not a joking matter. That they are releasing these people on a basis that they have rehabilitated them or work release. They have committed a serious crime and he is attempting only to see that they get put in the institutions long enough so that they realize the seriousness of the crime. At the present time they are being released. We have a million dollar lawsuit filed now for the two girls who were murdered. People are being released from prison; they are murdering, maiming, and so what does the court say then? ‘Well, it is too bad but we are attempting to rehabilitate the person.’ Those that are gone cannot be rehabilitated and they were innocent in the first place. I really think that Senator Pullen has a good amendment which will say, ‘If you commit a class A felony, which is a serious crime, then you are going to at least have three years to think about it.’ And this would not include those cases of passion that Senator Bottiger was talking about. Then, while you are on your feet, Senator, and mulling that one over...”

Senator Woody: “I have mulled it long enough.”

Senator Rasmussen: “On page 16, New Section, on line 13.”

Senator Woody: “I am trying to keep notes.”

Senator Rasmussen: “Intoxication—‘no act committed by a person while in a state of voluntary intoxication.’ What would be a case of involuntary intoxication?”

Senator Woody: “Are those the only two question? Let me answer the first one first. I am not here to defend the system that currently is in existence and it is not a judicial problem. It is a problem of how not only the parole board but the department is handling these people once they are committed, and I fully agree with you that the current system is not valid, is not working; and I understand that Senator Francis is working hard, along with Senator Day, to reform some of this. We will see some of those bills later. And when those bills come along, including the reform of the parole board. I will be working with you to reform the system.

“Number two, intoxication, involuntary intoxication, how does that occur?”

Senator Rasmussen: “I can understand voluntary intoxication, a person takes a chance on that. What is an involuntary?”

Senator Woody: “I am not much of an expert, if there is, and I do not suspect that Senator Bottiger is, but solely as a professional viewpoint he may have the answer.”

Senator Bottiger: “It is very simply that somebody forced you to drink the liquor...”
and, Senator Rasmussen, that has happened many times. In addition, you may be shot with a drug. You involuntarily are submitted to a drug. Somebody gives you a shot you do not want to take."

Senator Rasmussen: "That is not considered intoxication."
Senator Bottiger: "I think it is, Senator. It is the use of alcohol or drugs."
Senator Rasmussen: "That was not really the third question."

Further debate ensued.

There being no objection, the Senate returned to the fifth order of business.

TWELFTH DAY

MORNING SESSION

Senate Chamber, Olympia, Tuesday, March 25, 1975.

The Senate was called to order at 10:15 a.m. by President Cherberg. The Secretary called the roll and announced to the President that all Senators were present except Senator Lewis (Harry).

The Color Guard, consisting of Pages Gale Ayers and Steven Sandholm, presented the Colors. Father Dennis Robb, assistant pastor of St. Michael's Church of Olympia, offered the following quotation from Robert Kennedy:

"THE FUTURE DOES NOT BELONG TO THOSE WHO ARE CONTENT WITH TODAY, APATHETIC TOWARD COMMON PROBLEMS AND THEIR FELLOW MAN ALIKE, TIMID AND FEARFUL IN THE FACE OF NEW IDEAS AND BOLD PROJECTS. RATHER IT WILL BELONG TO THOSE WHO CAN BLEND VISION, REASON AND COURAGE IN A PERSONAL COMMITMENT TO THE IDEALS AND GREAT ENTERPRISES OF AMERICAN SOCIETY.

"OUR FUTURE MAY LIVE BEYOND OUR VISION, BUT IS NOT COMPLETELY BEYOND OUR CONTROL. IT IS THE SHAPING IMPULSE OF AMERICA THAT NEITHER FATE NOR NATURE NOR THE IRRESISTIBLE TIDES OF HISTORY, BUT THE WORK OF OUR OWN HANDS, MATCHED TO REASON AND PRINCIPLE, THAT WILL DETERMINE OUR DESTINY. THERE IS PRIDE IN THAT, EVEN ARROGANCE, BUT THERE IS ALSO EXPERIENCE AND TRUTH. IN ANY EVENT, IT IS THE ONLY WAY WE CAN LIVE.'

"Let us pray:

"FATHER IT IS IN YOU AND THROUGH YOU THAT WE CAN APPROACH THE TASKS YOU SET BEFORE US WITH VISION, REASON AND COURAGE. STRENGTHEN OUR COMMITMENT TO YOU AND TO ALL OF MANKIND THAT WE MIGHT GIVE YOU GLORY. AMEN."

PARLIAMENTARY INQUIRY

Senator Bailey: "What happens to a bill that is on the desk? Will it be, before it is brought off the desk, put in writing on our desks before it is referred to another committee? My point is that these bills that are held on the desk, I want to see them printed, on my desk, before there is any action taken on them like we do this sheet. I do not want to have a couple of bills taken up and referred without deliberation of the body."

REPLY BY THE PRESIDENT

The President: "They would in all likelihood be considered on the fourth order of business tomorrow and evidently will be on such a list, Senator."

MOTION

On motion of Senator Mardesich, the rules were suspended and Senate Bill No. 2956 and Senate Bill No. 2962 were ordered held for introduction and first reading on Wednesday, March 26, 1975.

PARLIAMENTARY INQUIRY

Senator Mardesich: "Our rules provide that these bills be read in today. I did move that the rules be suspended. However, I think that the President should indicate whether or not he would honor the motion for commitment tomorrow without a suspension."

REPLY BY THE PRESIDENT

The President: "Senator Mardesich, with your consent and that of the other members, the President should like very much to have the opportunity to research the concurrent resolution covering this particular situation before rendering a decision. The Senate will be in session for some time and perhaps before adjournment today the President can give you a definite answer."

Senator Mardesich: "All right, Mr. President. Then the bills would merely be held on the desk pending decision?"

The President: "Yes, sir."

MOTIONS

On motion of Senator Bailey, Senate Bill No. 2650 was ordered to hold its place on the second reading calendar for Friday, March 28, 1975.

On motion Senator Mardesich, the Senate resumed consideration of Substitute Senate Bill No. 2093.
SECOND READING
SUBSTITUTE SENATE BILL NO. 2093, by Senators Clarke, Keefe and Jones:
Enacting general provisions of a new criminal code.
The Senate resumed consideration of Substitute Senate Bill No. 2093. On Monday, March 24, 1975 the following amendment by Senators Pullen and Benitz was moved for adoption by Senator Pullen:
On page 17, line 9, after “fine” and before the semicolon insert: “: PROVIDED, That every person convicted of a Class A felony shall be confined for a minimum of six years within a state correctional institution and it is the intent of the legislature that while a judge may impose a term greater than the minimum six-year period of confinement he shall never suspend, defer, or commute such six-year period of minimum confinement: PROVIDED FURTHER, That the board of prison terms and paroles shall have authority to set a period of confinement greater than six years but shall never reduce the minimum six-year period of confinement nor shall the board release the convicted person as a result of any type of automatic good time calculation nor shall the department of social and health services permit the convicted person to participate in any work release program or furlough program”.
On Monday, March 24, 1975, the following amendment by Senator Lewis (R.H. “Bob”) to the amendment by Senators Pullen and Benitz was adopted:
Strike all references in the amendment to “six year(s)” and insert “three year(s)”
Debate ensued.

POINT OF INQUIRY
Senator Washington: “Would Senator Francis yield to a question? Will there be a position later on in these bills to give consideration to some minimum sentences?”
Senator Francis: “We will have at least one criminal penalty bill coming and that is the death sentence bill. We could put out other bills relating to sentencing and relating to corrections. You know, the Governor’s advisory task force on corrections finally has finalized their bill and I do not know anybody who was willing to sponsor it. And this was the one that had the dangerous offender provision and all the rest in it. I do not know if we can get to that problem this session, and that gets us in an area, among other things, where there is some disagreement between myself and Senator Day because we are not defining crimes. We are saying, ‘What do you do with somebody after we determine that they have committed a crime?’ And whether that even belongs as a part of corrections in Social and Health Services or whether it is part of Judiciary, I think either committee could put something out, in addition to which I am sure that the State Government Committee could put out a bill on that subject. I cannot promise you anything other than that I will do my best to get a capital punishment bill to the floor. Other than that, I do not know if we are going to be able to deal with that problem this session.”
Senator Washington: “Senator Francis, I agree with you that in a very technical bill I am reluctant to vote for floor amendments, but I also have the feeling that we do need to move into the area of some minimum sentences as well as maximum sentences. Not that we have to have every crime of a certain kind having a specific sentence, but I think we have gone too far the other way. I think we do have to start moving back at least to some semblance of the minimum sentence and I would hope that sometime during the session we are able to address it. But again, could you give us some indication of maybe where we might be able to handle that during this session?”
Senator Francis: “Yes, we will be having a hearing Tuesday on capital punishment. I think it would not be inappropriate at that time, since that is an aspect of determining sentence and determining what do you do with someone who has committed a crime, to have additional sections put on there in connection with minimum sentences. I do not think that would be inappropriate. There are also other bills in the legislature now dealing with minimum sentences and I do not know whether any of them are in Rules yet. I would agree with you that we ought to get at this problem, and the problem is it does not fit here, and when you start trying to decide your whole philosophy of sentencing in connection with defining a crime, I think you are coming into serious prob-
lem. I do not object to floor amendments as such, just that this particular floor amend- 
ment does not fit here."

Senator Washington: "Thank you."

Senator Francis: "Mr. President and members of the Senate, I overlooked some- 
thing and a note was handed to me. In further response to Senator Washington's ques-
tion, we have held one hearing and we have an action session coming up Friday on the 
parole board reorganization act; and at that time, in connection with what the powers of 
the parole board are, we have an excellent opportunity to look at the question of min-
imum sentences and what kinds of minimums they can set. I was addressing this specifi-
cally to you, Senator Pullen. I am not asking you a question. I just want you to know 
that this Friday we have the parole board reorganization act before us. The problem, at 
least as some people see it, is that there is too much discretion in the parole board as to 
such things as setting minimum sentences, as to waiving minimum sentences, and so 
forth. So that the correct answer to Senator Washington's question is that the Judiciary 
Committee will be working on a bill which has this very issue before it this Friday. It 
will be an action session, and I would certainly invite you to be there. Regardless of 
what we do, there will be an opportunity for floor amendments and I think you will find 
when you are studying the parole board reorganization act that those floor amendments 
are very appropriate for discussion at that time in connection with that bill."

Further debate ensued.

POINT OF INQUIRY

Senator Lewis (R. H. "Bob"): "Would Senator Van Hollebeke yield please? Sen-
ator Van Hollebeke, you mentioned that in the event of a terminal prisoner that he 
would not be able to be released. Wouldn't he still be, under those circumstances, eli-
gible for a pardon if this amendment were to pass? If he was terminal?"

Senator Van Hollebeke: "I think he would always be eligible for a pardon. I think 
the Governor always has that right, the power."

Further debate ensued.

POINT OF INQUIRY

Senator Odegaard: "Would Senator Francis yield? Senator Francis, you stated that 
you did not think this was the bill to establish minimum sentences, that that should come 
in another bill if that is what we were to do. Since this does establish maximum sen-
tences, however, what is the rationale that this should set out maximums and not mini-
mums?"

Senator Francis: "Senator Odegaard, what I am stating, and by the way, what I am 
stating is merely restating what the official position of the Prosecuting Attorneys Asso-
ciation and the Bar Association is on this, is that when you state what the maximum pos-
sible penalty is for a particular crime, that is part of how you define the crime. When 
you are stating a minimum penalty, what you are doing is saying how much time will be 
served and that is making a decision more than just defining what a crime is. That is 
going on to the question of how do we deal with criminals and what is the best way to do 
it. And as I said before, I think that there is a great deal of merit to what Senator Bob 
Lewis says, for example, that the idea of individualized 'treatment' of offenders had 
been in many respects a failure and maybe we ought to move away from that but we are 
getting into a very, very large area when we start making up our mind, in connection 
with defining crimes, what kind of minimum sentences we are going to set. So it is very 
different. We are getting into the whole area of corrections and what is going to be an 
effective way of cutting down recidivism, of deterring others, of changing the behavior 
of particular individuals, and of protecting society; and this just is not the place to do it. 
You define a crime by stating the maximum term. We have a whole body of law on our 
statutes right now as far as what we work with within that, including what kind of sen-
tences the state Department of Institutions is going to set. To change all that changes the 
whole body of law which I think merits a great deal more debate than we have had here. 
All I am asking is that you vote 'no' on adding that to this particular bill."

Further debate ensued.
The motion by Senator Pullen failed and the amendment, as amended, was not adopted on a rising vote.

On motion of Senator Mardesich the rules were suspended, Substitute Senate Bill No. 2093 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 2093, and the bill passed the Senate by the following vote: Yeas, 45; nays, 3; excused, 1.

Voting nay: Senators Benitz, Pullen, Rasmussen—3.

Excused: Senator Lewis (Harry)—1.

SUBSTITUTE SENATE BILL NO. 2093, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Mardesich, the Senate resumed consideration of Senate Bill No. 2461.

SECOND READING

SENATE BILL NO. 2461, by Senator Guess, Benitz and Wilson (by Executive request):

Revising law on withdrawal on public ground water.

The Senate resumed consideration of Senate Bill No. 2461. The committee amendments were adopted on Friday, March 21, 1975 and the following amendments were moved for adoption simultaneously by Senator Woody on that day:

- On page 1, line 18, after “exceeding” strike “five” and insert “twenty”
- On page 1, line 19, after “exceeding” strike “five” and insert “twenty”

POINT OF INQUIRY

Senator Woody: “Would Senator Washington yield? In your committee hearings with the Committee on Ecology and with your discussions with the Department of Ecology, were you able to determine whether or not stock watering, watering of the lawn, and noncommercial garden purposes not exceeding one-half acre were limited to a gallonage per day?”

Senator Washington: “No; there is the exception that without a permit you may utilize water for stock watering purposes, for watering a lawn or noncommercial garden not exceeding one-half acre. And then comes the five thousand limitation for single or group domestic uses in an amount not exceeding five thousand gallons per day.”

Senator Woody: “Thank you, Senator Washington.”

There being no objection, the amendments by Senator Woody to page 1, lines 18 and 19 were withdrawn. The amendments by Senator Woody to page 2, lines 7 and 11 on the Secretary’s desk were withdrawn.

Senator Clarke moved adoption of the following amendment:

- On page 1, line 21, after “section” strike the comma and insert “[,]: PROVIDED, HOWEVER, That this five thousand gallon limit shall be increased to twenty thousand gallons for that portion of the state lying westerly of the Cascade range.”

Senator Clarke moved adoption of the following amendment to the amendment:

- On the third line of the Clarke amendment to page 1, line 21, strike “twenty” and insert “ten”

Debate ensued.
POINT OF INQUIRY

Senator Day: "Would Senator Clarke yield? Senator Clarke, would you object to changing that to 'Rocky Mountain Range'?"

Senator Clarke: "My only objection would be that I think I might engender quite a little more opposition to the amendment if that were done."

Debate ensued.

POINT OF INQUIRY

Senator Benitz: "Will Senator Clarke yield to a question? Senator Clarke, the intent of this act as I understand it was to get at the people who did not register under the original act, and many hundreds of thousands did file under the five thousand gallon limitation. Many have not, and this is an attempt to make it simpler to bring them in. Would we be penalizing those that have complied with the law by simply giving ten thousand gallons to some of those who did not register under the previous law?"

Senator Clarke: "I do not believe so because you could go ahead and have your registry. Actually, your registry has nothing to do, if I understand it correctly, with the permit system. You can register your claim and then if you are going to use more than ten thousand then you have to get a permit; but my understanding is that the registry and the permit are two entirely separate things. Now what my amendment is reality seeks to achieve are situations where many people have been drawing water from a completely limitless supply, really, where it makes no difference to anyone that they are drawing that. And frankly, they have not gone to the trouble of seeking a permit and as a result of that, any time they run over five thousand gallons they are breaking the law. And I think it is unrealistic to require these people to apply for a permit to prevent being in the guise of lawbreakers. In reality, what I am saying in substance is that the difference between the five and ten thousand gallons is such that if you are going to use water at all you are almost always going to be using more than five thousand gallons because, as was pointed out earlier, one or two lawn sprinklers will take care of that situation. So I do not think you are hurting anybody in reality by simply increasing from five to ten; and in Senator Bottiger's situation, I do not think you could even identify, as it were, the effect of one well upon another on this rather minimal increase, but it would have a very substantial effect on the number of people that would become involved, because the users in the category between five and ten, I think you will find, are quite substantial in number. So that is the purpose."

POINT OF INQUIRY

Senator Rasmussen: "Would Senator Washington yield? Senator Washington, did you make the statement that you can, for stock watering purposes, for garden and for lawn, draw any amount of water?"

Senator Washington: "For a lawn or garden not exceeding one-half acre."

Senator Rasmussen: "Not commercial?"

Senator Washington: "No. Without registration."

Senator Rasmussen: "This is without registration?"

Senator Washington: "This is without registration."

Senator Rasmussen: "After this act is passed?"

Senator Washington: "Mainly what this act will do will allow you to file and secure a priority. At the present time all those who filed under the last registration act do have a priority. But that is only those who filed up to June 30, 1975. Every one is covered up to that point who filed a registration. Now those who file in the future will be able to, or those who drill a well in the future will be able to drill the well but if they want to have a showing of priority they have to give a notice to the Department of Ecology and that is the purpose of this particular act. So you would still be able, by giving notice, to continue with your stock watering. You would still be able to continue with a small garden or your lawn less than half an acre and your domestic well, for the use of the home, either single or multiple, could not be over five thousand gallons."

Senator Rasmussen: "You can exceed five thousand gallons for watering your own stock and your own lawn and your own half acre garden."

Senator Washington: "Right."
Senator Rasmussen: "Senator Mardesich tells me not after this act. I am going to let Senator Mardesich have the floor and get this point clarified. Thank you."

Senator Mardesich: "I would agree that you have the exemptions provided on lines 14 through 21. However, after this law is passed then you jump down to line 24: 'After the effective date of this act, the right to withdraw public ground waters not exceeding such limited amounts,' and that applies to the exemption, then you must apply and if you fail to apply you can quit watering your lawn or quit giving any water to your cattle. That is the way I read this."

Senator Washington: "You may not want to secure a priority. You can continue as you have in the past to take the water as under the exemptions, for stock watering, for noncommercial garden, for a lawn, and I will say this . . . . There is one possible complication and where there has been a difference of interpretation, I talked to Charlie Roe and I have an amendment to take care of that over on line 7 of page 2. Some have argued because on line 7 there is a limitation of five thousand gallons, that that five thousand gallons may be applied back in an attempt to say that stock watering, watering the garden, watering the lawn, would all be under the five thousand. He suggested an amendment so what I am going to do is strike out 'not exceeding five thousand gallons per day' and insert 'as exempted under this section' and that takes away any possible misconstruction. The amounts of water are conjunctive and are not all lumped together."

POINT OF INQUIRY

Senator Mardesich: "Would Senator Washington yield? Do you not admit that after the passage of this law everyone would have to file, even those people who have the exemptions?"

Senator Washington: "No, you do not have to file. This is only if you wish to . . . ."

Senator Mardesich: "To have a priority,"

Senator Washington: "If you wish to establish a priority."

Senator Mardesich: "Then in effect you are going to have to file."

Senator Washington: "It is only a notice. 'After the effective date of this 1975 amendatory act a right to withdraw public ground waters not exceeding such limited amount for such purposes may be established with a priority.' Beyond that you never had to establish it. You just drilled your well and you could continue. If you want to continue and worry that at some time there may be a lawsuit and someone else may get higher priority than you are, drill a new well, take out water and do not be concerned about it, but if you want to establish a priority you just notify the Department of Ecology under this section and you will not only be getting your water but you will be establishing a priority."

Senator Mardesich: "That is my point though. I am wondering why we have to establish priorities for these basic purposes."

Senator Washington: "The reason why, if after you have established and have drilled your well, you may get into a situation like in the Odessa area where the water table is lower. The water is not available. Then it is those who have a priority who will be able to continue with their wells and those without a priority may have the amount of water that they can take reduced."

Senator Mardesich: "My point is, Senator Washington, that a person who fails, overlooks that they should file, he has a right to water his cattle today. If he fails to file then all the other people have the priorities, they may run a pulp mill using twenty million gallons a day. That man is first before you get to water your cattle if you fail to file."

Senator Washington: "This is true. What has already happened is that we passed the registration law and all of the thousands of people who filed under that registration law now have established their priority. When you filed you have established a priority. Now then, if you wish to have a priority and not just continue to draw your water as you have in the past, this just gives you an additional right so that you can now have the same right as those thousands of people who have already filed and established their priority."

Senator Mardesich: "I would like to point out, and here is the distinction, the fact is
that if I were excluded from the requirement of filing, then I am number one priority. The law did not require me to file, and I have with the very fact of exclusion, established the number one priority. The people with the priorities come behind me since I was not required to file. That is the way I read it. Now you are going to take all that right away. And I suppose people read English differently than I do. I do not know."

MOTION

On motion of Senator Woody, Senate Bill No. 2461 was re-referred to the Committee on Ecology.

MOTION

On motion of Senator Mardesich, the Senate returned to the third order of business.

MESSAGE FROM THE GOVERNOR

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON.

LADIES AND GENTLEMEN:

I am returning herewith without my approval Engrossed Senate Bill No. 2011 entitled:

"An Act relating to school holidays."

This bill requires that public schools observe as holidays Memorial Day on the 30th day of May and Veterans' Day on the 11th day of November. The change would conform these two school holidays with those observed by state employees, which are already at variance with the federal holidays by reason of Chapter I, Laws of Washington 1973, 2nd Ex. Sess. passed by the Legislature over my veto.

The 1973 enactment resulted in enormous confusion and disruption both because of the uncertainty by the public over which holiday applied and because federal offices, schools, and private firms closed on one day while state and local offices and some private firms closed on another day. Notwithstanding this bill, which would remove some of the confusion as to school holidays, a great deal of confusion would still exist because federal offices and the great majority of private firms would close for these holidays on different days. In addition, there would be four days out of the year when federal and private offices would be unable to conduct business with state and local offices. This disruption is wholly unwarranted.

The fact that a holiday is celebrated on a different day than has traditionally been the case does not detract from the meaning of that holiday in the minds of the people. Such is the case with three other major holidays: Thanksgiving Day, Labor Day, and the anniversary of the birth of George Washington. One possible exception would be November 11, which is recognized both as Veterans' Day and the date of admission of our state into the union, and as such has a unique significance which might warrant nonconformity with the federal holiday. In all other cases, I believe the overriding consideration should be conformity between state and federal holidays to prevent frustration and disruption, both to employers and employees.

For these reasons, I have determined to veto Engrossed Senate Bill No. 2011.

Respectfully submitted,

DANIEL J. EVANS
Governor.

MOTION

Senator Odegaard moved that the Senate do pass Engrossed Senate Bill No. 2011 notwithstanding the Governor's veto.

Debate ensued.
POINT OF INQUIRY

Senator Bluechel: "Would Senator Odegaard yield to a question? Senator Odegaard, you said there were forty-four states that had changed Veterans' Day back to its original date. Can you tell me how many states have changed Memorial Day back to its original date?"

Senator Odegaard: "Senator Bluechel, no, I do not have that figure on Memorial Day."

Senator Bluechel: "Senator Odegaard, as I understand it, only seven. This is the information I received yesterday. Only seven states have changed Memorial Day back to its original date and, agreeing with Senator Murray that the majority of people are not state employees and that most people would probably desire a three day holiday in the springtime or early summer, the schools are the ones that make or break whether or not it is a major holiday, so I would say irrespective of the fact that Congress may change Veterans' Day back to a specific date, I would say that for the majority of the people in the state they would probably prefer to have a three day Memorial Day holiday which will be the case if we do not override the veto, and so I therefore urge you not to override it."

Further debate ensued.

The President declared the question before the Senate to be the motion by Senator Odegaard that the Senate do pass Engrossed Senate Bill No. 2011 notwithstanding the Governor's veto.

ROLL CALL

The Secretary called the roll and Engrossed Senate Bill No. 2011 passed the Senate, notwithstanding the Governor's veto, by the following vote: Yeas, 34; nays, 14; excused, 1.

Excused: Senator Lewis (Harry)—1.

ENGROSSED SENATE BILL NO. 2011 having received the constitutional two-thirds majority, was declared passed notwithstanding the Governor's veto. There being no objection, the title of the bill was ordered to stand as the title of the act.

QUESTION OF CONSIDERATION

Senator Bluechel raised the question of consideration on the amendment by Senators Newschwander, Rasmussen, Guess and Stortini.

POINT OF ORDER

Senator Day: "It would appear that Senator Newschwander's amendment strikes the portion of the bill that my amendment would amend. Maybe mine should be considered first."
TWELFTH DAY, MARCH 25, 1975 737

RULING BY THE PRESIDENT

The President: "Senator Day's remarks are well taken. The Senate will consider the amendment by Senator Day."

Senator Day moved adoption of the following amendment:

On page 12, line 11, after "imprisonment" and before the period, insert "; PROVIDED, That if the crime of murder in the first degree be for the murder of a law enforcement officer or a fireman, in performance of their duties, for the murder of a guard at a penal institution, or a murder committed during the perpetration of the crime of carnal knowledge, any person so found guilty shall be punished by the mandatory sentence of death. Once a person is found guilty of murder in the first degree under these circumstances, neither the court nor the jury shall have any discretion in suspending or deferring the imposition or execution of the sentence of death. Such sentence shall be automatic upon any conviction of first degree murder. The death sentence shall take place at the state penitentiary under the direction of and pursuant to arrangements made by the superintendent thereof"

QUESTION OF CONSIDERATION

Senator Bluechel raised the question of consideration on the amendment by Senator Day.

MOTION

Senator Guess moved that the rules be suspended and Senator Day be permitted to discuss his motion.

PARLIAMENTARY INQUIRY

Senator Bluechel: "Is it possible to override the question of consideration by a suspension of rules?"

Senator Guess: "To answer the Senator's question by reference to a decision which was made on this floor in 1965, Mr. President, I would like to answer Senator Bluechel's question to you by citing a decision that was made by the Chair in 1965 when a point of consideration was raised by a Senator on this floor of another Senator and Senator Greive moved that the rules be suspended and that the mover of the motion be permitted to make a motion and to discuss that motion before the vote was taken."

Senator Bluechel: "I would refer to Rule 110 in answer to Senator Guess's objection to that point, and it states in Reed's Rule 110 that upon the asking of the question of consideration, 'Thereupon, without debate, the assembly divides upon the question of consideration. If decided in the negative, the main question remains as if it had not been brought up; if decided in the affirmative, the business then proceeds.'"

Senator Guess: "That still does not answer the question though. I think that the body can do anything it wishes by the suspension of the rules. And if you listen to Reed's Rule 110 that Senator Bluechel just read, this would not entertain a suspension of the rules, and yet the body can suspend the rules any time they wish."

Debate ensued.

RULING BY THE PRESIDENT

The President: "Senator Guess, in ruling upon your motion, the President finds your remarks well taken. Rule 28 states: 'Adoption of permanent rules may be by simple majority without notice, but a rule or order may be temporarily suspended for a special purpose by a vote of two-thirds of the members present.'"

The motion by Senator Guess carried and under suspension of the rules Senator Day was permitted to explain his amendment.

PARLIAMENTARY INQUIRY

Senator Francis: "Does the motion on suspension of the rules include debate on Senator Day's amendment?"
REPLY BY THE PRESIDENT

The President: "The President believes that your remarks are correct, Senator Francis."

Debate ensued.

POINT OF INQUIRY

Senator Woody: "Would Senator Francis yield? Under the proposed new bill that we will be discussing within the next week, is there a definition of carnal knowledge?"

Senator Francis: "Two of the proposed rape bills would replace the present carnal knowledge statute with a statutory rape statute and call it that. However, 2198 as amended by the Judiciary Committee which is, I believe, on the calendar, simply leaves the present carnal knowledge statute intact the way it is and does not get involved with that in connection with trying to resolve the problems of victims of rape."

REMARKS BY THE PRESIDENT

The President: "The question of consideration has been raised by Senator Bluechel upon the motion to adopt the amendment proposed by Senator Day. The President wishes to explain that a vote "aye" will permit consideration of the proposed amendment. A vote "no" will refuse consideration of the question. As many as are in favor of the question of consideration will say aye. As many as are opposed will say no. The motion is carried. The Senate will proceed with the consideration of the question."

The President declared the question before the Senate to be adoption of the amendment by Senator Day.

Senator Day moved adoption of the following amendment to the amendment:

Amend the Day amendment to page 12, line 11, as follows:

On line 7 of the amendment, strike "during the perpetration of" and insert "in conjunction with" and on line 8, after "crime of" strike "carnal knowledge" and insert "rape"

POINT OF INQUIRY

Senator Bottiger: "Would Senator Day yield to a question? Senator Day, I am not sure whether I am asking this at the right time but I am comparing your amendment to Senator Newschwander's amendment and his amendment was the measure that, I believe, passed the Senate last time. At least I recall, I think that is the one I voted for. The problem in your amendment is, you do not pick up the hired assassin."

Senator Day: "There are a number of things that are not picked up in here. I believe that, as I said, capital punishment is a very serious thing and I wanted this to be as confined as possible and yet as effective as possible."

Senator Bottiger: "Now we have under consideration the question of rape between married people and if a family got into a real good fight and ended up with the death of one of them shortly after a more pleasant relationship or another relationship, we could have a mandatory death sentence in a crime of passion."

Senator Day: "Would that be first degree murder?"

Senator Bottiger: "It would be first degree murder after, I guess, a question of rape had occurred under the amendment Senator Clarke is trying to solve. I am always afraid of these things out on the floor because there is so much else that they turn on. Your statute now is straight rape, or your proposed amendment is straight rape?"

Senator Day: "No, it says, if you read the entire section now: 'Any person convicted of the crime of murder in the first degree' is in the section, and after 'imprisonment' we are adding: 'Provided that the crime of murder in the first degree be the murder of a law enforcement officer or a fireman in the performance of their duties' and then we go on down here. So it was my intention here that this only be considered where there was premeditation and the crime was murder in the first degree."

The motion by Senator Day carried and the amendment to the amendment was adopted.

The President declared the question before the Senate to be adoption of the amendment by Senator Day as amended.

Debate ensued.
There being no objection, the amendment by Senator Day, as amended, was withdrawn.

The President declared the question before the Senate to be the Question of Consideration on the amendment by Senators Newschwander, Rasmussen, Guess and Stortini.

There being no objection, the Question of Consideration by Senator Bluechel was withdrawn.

The President declared the question before the Senate to be consideration of the amendment by Senators Newschwander, Rasmussen, Guess and Stortini moved for adoption earlier today.

Debate ensued.

POINT OF INQUIRY

Senator Knoblauch: "Would Senator Newschwander yield to a question? As a layman, Senator Newschwander, I am wondering why you want to have specific items mentioned in your referendum? Why do we leave out murders in the first degree like the girls that were killed up at Lake Sammamish? What is the difference between killing an officer on duty and some other innocent person? Why don't we just put the whole thing in your referendum? I do not understand why we do not cover everything."

Senator Newschwander: "When we consulted bill drafting and our attorneys, we were concerned with the United States Supreme Court so we tried to come up with a simple bill that we thought constitutionally would be ruled our way if it went back to court. But my main objective, like I said before, is at least get a measure before the people. Let them pass on it and then in the years to come let this legislative body review. There are many other more heinous crimes than I have mentioned here that could be included and that would be for the body in the future to make the decision, but my main thing is the constitutionality of this bill."

Senator McDermott moved adoption of the following amendment to the amendment by Senators Newschwander, Rasmussen, Guess and Stortini:

Amend the Newschwander amendment to page 11, line 14 as follows:

On the sixth line of subsection (2) after "place" and before "at" insert "publicly"

Debate ensued.

The motion by Senator McDermott failed and the amendment to the amendment was not adopted.

Senator Mardesich moved adoption of the following amendment to the amendment by Senators Newschwander, Rasmussen, Guess and Stortini:

Amend the Newschwander amendment to page 11, line 14, as follows:

Strike all of subsection (1) (b), and reletter the remaining subsections as (b), (c), (d) and (e).

Debate ensued.

There being no objection, the amendment by Senator Mardesich to the amendment was withdrawn.

MOTION

On motion of Senator Mardesich, the Senate advanced to the eighth order of business.

REPLY BY THE PRESIDENT

The President: "The President wishes to reply to your earlier inquiry. In parliamentary reply to Senator Mardesich's inquiry, Senate Concurrent Resolution 109 provides that measures shall be read in no later than Tuesday, March 25, the twelfth legislative day. Rule 59 of the Senate Rules provides that after the first reading bills shall be referred to an appropriate standing committee. The President believes it advisable to return to the fourth order of business. If there are no objections the Senate will return to the fourth order of business. At that time the two measures will be read in and, inasmuch as they will be before the Senate for disposition, a motion to hold the measure over after first reading for a period of time before referral to a standing committee is in order."

There being no objection, the Senate returned to the fourth order of business.

MOTION

On motion of Senator Mardesich, the Senate resumed consideration of Substitute Senate Bill No. 2092.

SECOND READING

SUBSTITUTE SENATE BILL NO. 2092, by Judiciary Committee (originally sponsored by Senators Francis, Woody and Jones):

Enacting a new criminal code for crime against persons.

The Senate resumed consideration of Substitute Senate Bill No. 2092 and an amendment beginning on page 11 by Senators Newschwander, Rasmussen, Guess and Stortini which was moved for adoption by Senator Newschwander on Tuesday, March 25, 1975:

On motion of Senator Day, the following amendment to the amendment by Senators Newschwander, Rasmussen, Guess and Stortini was adopted:
Following subsection (f) insert a new subsection as follows:

“(g) The defendant had committed the crime of murder during or in conjunction with the crime of carnal knowledge or rape.”

The President declared the question before the Senate to be adoption of the amendment by Senators Newschwander, Rasmussen, Guess and Stortini, as amended. Debate ensued.

Senator Goltz moved adoption of the following amendment to the amendment by Senators Newschwander, Rasmussen, Guess and Stortini:

Strike all of subsection (2) and insert:

“(2) Thou shall not kill, even as a punishment for murder in the first degree.”

Further debate ensued.

POINT OF INQUIRY

Senator Knoblauch: “If I may, I would like to ask Senator Francis if he would yield to a question. Senator Francis, if this amendment passes, and you have pointed out that it is not well written, if this amendment passes the Senate, do you then expect to have a hearing in your committee on the present bill that you mentioned and bring a proper measure to the floor of the Senate?”

Senator Francis: “Senator Knoblauch, I had thought about that. It seems to me that the best course of action would be to go ahead and have the hearing that is already scheduled anyway and I have no reason to cancel it. I do not see any reason why I would, no matter which way this bill or this amendment goes.”

Senator Knoblauch: “Senator Francis, would you again repeat your statement a moment ago about the present amendment, what you thought was wrong with the present amendment.”

Senator Francis: “Senator Knoblauch, the only thing I pointed out is that it does not say who does the killing, what relation that is to the person being guilty of murder. I did not go into any other aspects of it other than the first two lines there which I think are not well worded, in fact, not adequately worded. I did not mean to suggest that the rest of it would be unconstitutional because I have not had a chance to make that kind of an analysis.”

Further debate ensued.

The motion by Senator Goltz failed and the amendment to the amendment was not adopted.

Senator Newschwander demanded a roll call and the demand was sustained by Senators Herr, Talley, Sandison, Donohue, Francis, Van Hollebeke, Bailey, Rasmussen and Jones.

Further debate ensued.

President Pro Tempore Henry declared the question before the Senate to be roll call on the amendment by Senators Newschwander, Rasmussen, Guess and Stortini as amended by Senator Day.

ROLL CALL

The Secretary called the roll and the amendment, as amended, was not adopted by the following vote: Yeas, 17, nays, 32.

STATEMENT FOR SENATE RECORD
BY SENATOR GEORGE W. SCOTT
ON NEWSCHWANDER AMENDMENT TO SB 2092,
REINSTITUTING CAPITAL PUNISHMENT

The amendment was improperly drafted and did not cover many situations that
may be classified as murder in the first degree. Further, in order to escape a gubernatorial veto, a referendum had to be attached to an important modernization of a larger portion of the criminal code.

The amendment, therefore, constitutes an improper motion, an aberration of the legislative process, done without benefit of committee inspection. For these reasons I voted "no," despite the fact that I feel capital punishment is called for.

Senator Pullen moved adoption of the following amendment:

On page 12, line 11, after "imprisonment" and before the period insert:

": PROVIDED, That any person sentenced under this section shall not have the term of life imprisonment suspended, deferred, or commuted by any judicial officer: PROVIDED FURTHER, That the board of prison terms and paroles shall never reduce the period of confinement nor shall the board release the convicted person as a result of any type of automatic good time calculation nor shall the department of social and health services permit the convicted person to participate in any work release program or furlough program".

Debate ensued.

The motion by Senator Pullen failed and the amendment was not adopted on a rising vote.

Senator Cunningham moved adoption of the following amendment by Senators Cunningham, Day and Keeffe:

On page 17, line 1, after "age of" strike "sixteen" and insert "eighteen"

Debate ensued.

The motion by Senator Cunningham carried and the amendment was adopted.

On motion of Senator Francis, the rules were suspended, Engrossed Substitute Senate Bill No. 2092 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Fleming: "Would Senator Francis yield to a question? Senator Francis, recognizing that you would be more of an expert in this area than I, I am wondering. You indicated that in the area of use of force, little or no change has been made under the present law. My question would be, under the use of force when justified it says, 'The use, attempt or offer to use force upon or toward the person of another shall not be unlawful in the following cases: (1) wherever necessarily used by a police officer in the performance of a legal duty or a person assisting him and acting under his direction.' Now under this code that we are adopting here today, would there be any difference or any different remedy or any different course of action that could or could not be taken in the example, as the case that they are having in Seattle now, where the police stopped an individual because he was, I guess, a suspect, someone that they thought had stolen a car or whatever. I do not know the necessary details but the end result was that the policeman killed the young man and the policeman had indicated that he thought he saw something shining in the young man's hand or whatever. I do not know those details, but the young man was shot, from my understanding, in the back of the head, and it might not show that the police officer was defending his life or was in danger or whatever it is. Would the law now, as you are proposing it, do anything as a course of action of the parents who would be trying to get to the policeman for recklessly or whatever using his weapon?"

Senator Francis: "Senator Fleming, whatever we do we will not change what may or may not exist as a cause of action, because the right of the parties there were fixed as of the time the event occurred. If a similar situation came up in the future, let me point out that both (1) and (2) on page 8 say 'whenever necessarily used.' Now that is a very strict standard. That does not mean whenever he reasonably thought it was necessary. That is not a subjective standard, it is an objective standard. It goes to the jury on the question, not of whether it was reasonable for him to think it was necessary to use that deadly force, but whether it actually was necessary. So he has a great deal of risk that he
is undertaking any time he undertakes to use that kind of force. He has to be able to later prove by hindsight that it was necessary and that the person he was arresting had committed the felony. And those are very tough standards to meet.”

Further debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 2092, and the bill passed the Senate by the following vote: Yeas, 46; nays, 3.

Voting nay: Senators Newschwander, Pullen, von Reichbauer—3.

ENGROSSED SUBSTITUTE SENATE BILL NO. 2092, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Mardesich, the Senate commenced consideration of Senate Bill No. 2313.

SECOND READING

SENATE BILL NO. 2313, by Senators Morrison and Jones:

Enacting a new criminal code relating to victimless crimes.

MOTIONS

On motion of Senator Francis, Substitute Senate Bill No. 2313 was substituted for Senate Bill No. 2313 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Francis, the rules were suspended, Substitute Senate Bill No. 2313 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

MOTION

On motion of Senator Bailey, the Senate was declared to be at ease.

President Pro Tempore Henry called the Senate to order.

The Senate resumed consideration of Substitute Senate Bill No. 2313 on third reading.

POINT OF INQUIRY

Senator Cunningham: “Would Senator Francis yield to a question? Senator Francis, one thing I would like to ask, on page 7 of the bill you refer several times to sexual conduct. In that I cannot find that specific phrase defined anywhere in the act. I simply would like to ask what the definition is of sexual conduct as referred to specifically in this bill, Substitute Senate Bill 2313?”

Senator Francis: “That is a good question, Senator, and it has been defined by case law to include not only sexual intercourse but other kinds of acts which generally result in a sexual climax and the definition probably had best be left to continue to expand by case law, because otherwise, and this is assuming that you agree with the policy behind this bill which is that prostitution is an evil which should be stamped out, because this bill clearly clamps down on prostitution. And if you more narrowly define sexual conduct, I think you will find that there will be someone creative and ingenious enough to find a way around it every time. And this has been kind of the long continuing problem of prostitution cropping up in new guises all the time and so forth, so that I would think that case by case development of the definition would probably be appropriate for this particular criminal conduct.”
Senator Cunningham: "To continue with a question to Senator Francis: Senator Francis, I have already said I think the package is fine but what I am concerned about is here a person is going to be guilty of a misdemeanor simply to agree, and I think the definition is just too broad and I am wondering, you know, different strokes for different folks. I do not think we want to run the police into the ground on this thing. Now if you are trying to say, define sexual conduct as intercourse, then I do not know why you do not do it in the bill although I see you are not the prime sponsor on the bill, it is out of your committee, and give these people some hard facts to work with and not be this general. I still want to know why you will not define in the bill."

Senator Francis: "Senator Cunningham, again, I certainly am not speaking for myself when I am trying to tell you how the bill got to where it is. I personally would advocate the decriminalization of prostitution and have consistently advocated the decriminalization of prostitution. In Seattle it is estimated that the police department spends a million dollars a year working on trying to entrap people who have engaged in conduct otherwise legal but where there is financial remuneration in one direction or another and therefore we classify it as illegal. I think it is silly to waste our time trying to tell people they cannot spend their money in this area but that is the considered judgment, at least of the Judiciary Committee, and my job is to explain what we are doing here. Now if you accept the premise that we have to, through the use of law, enforce the prohibition against people passing money back and forth in connection with sexuality, then you have to look at the difficult problem that law enforcement has. For example, Lynnwood recently not only outlawed, they had long since outlawed body painting studios. They then passed an ordinance outlawing sauna parlors and dating bureaus, and they had some evidence that people who were putting together dating bureaus and escort services were merely using this as a means where men could meet women and then things might progress further and apparently some of the proprietors, at least they suspected, had exactly that in mind, that this would be another front for prostitution. I can name you several other kinds of apparently legitimate business operations that the police have gone into and have at least developed some evidence that they in some way or another involve an exchange of money for sexual conduct of some nature. And so the law enforcement people that we are handing the very tough job of policing, and it is a tough job because the people involved, you know, since there is no victim, are not reporting it, so you have to go get some kind of James Bond type to infiltrate the operation and come up with a big 'aha' and say 'Look at there, I got you.' And because of that it is very, very tough to enforce. This proposal here would definitely tighten up the law against prostitution and make it easier to enforce."

POINT OF INQUIRY

Senator Lewis (Harry): "Will Senator Francis yield? Senator Francis, I am concerned particularly about the prostitution section and you mentioned entrapment and I am concerned about the entrapment possibilities. Supposing a female Seattle police officer were to get into a discussion with another person with some kind of an understanding, no matter how vague, that there was to be some type of sexual conduct which is undefined in this statute and you say relies upon case law. Could that Seattle police officer arrest that person and would this not be entrapment? Is that situation a real possibility if this bill passes?"

Senator Francis: "In response to Senator Lewis's question I refer you to Section 9A.16.070 of Substitute Senate Bill 2093 which we have already passed, and that section defines entrapment, saying that in any prosecution for a crime is the defense that '(a) the criminal design originated in the mind of law enforcement officials or any person acting under the direction' and (b) 'the actor was lured or induced to commit a crime which the actor had not otherwise intended to commit.' and then it goes on to say the defense of entrapment is not established by a showing only that law enforcement officials merely afforded the actor an opportunity to commit a crime. Basically, that definition of entrapment, I think, fits your situation. If someone is literally enticed into doing something they had not given a thought to doing, probably entrapment would be there. but if they afford someone who already intends to engage in this act, if they afford them the
opportunity, that is not and never has been entrapment. And I do not think that the change in our definitions here would change what constitutes entrapment except to the extent that, if anything, it might broaden some of the activities you could be entrapped into. I especially should point out that for promoting prostitution or even for supplying a place knowingly and without taking any action against it, supplying a place for prostitution, and you know there was a recent TV documentary on that. Some of the people who profit in that respect. The bill itself is designed to get at a lot of related and collateral activities in addition to the direct act of prostitution itself."

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 2313 and the bill failed to pass the Senate by the following vote: Yeas 19; nays, 29; absent or not voting, 1.

Voting yea: Senators Bailey, Bottiger, Clarke, Cunningham, Francis, Goltz, Gould, Grant, Guess, Herr, Jolly, Jones, McDermott, Murray, North, Peterson, Ridder, Sandison, Scott—19.

SUBSTITUTE SENATE BILL NO. 2313, having failed to receive the constitutional majority, was declared lost.

NOTICE OF RECONSIDERATION

Having voted on the prevailing side, Senator Bluechel served notice that he would, on the next working day, move for reconsideration of the vote by which Substitute Senate Bill No. 2313 failed to pass the Senate.

MOTIONS

On motion of Senator Mardesich, the Senate advanced to the eighth order of business.

On motion of Senator Rasmussen, the Committee on State Government was relieved from further consideration of Senate Bill No. 2933.

On motion of Senator Rasmussen, Senate Bill No. 2933 was referred to the Committee on Social and Health Services.

At 12:56 p.m., on motion of Senator Mardesich, the Senate adjourned until 10:15 a.m., Thursday, March 27, 1975.

JOHN A. CHERBERG, President of the Senate.

SIDNEY R. SNYDER, Secretary of the Senate.
FOURTEENTH DAY, MARCH 27, 1975

MORNING SESSION

Senate Chamber, Olympia, Thursday, March 27, 1975.

The Senate was called to order at 10:15 a.m. by President Cherberg. The Secretary called the roll and announced to the President that all Senators were present.

The Color Guard, consisting of Pages Jo Ann Ayers and Bradley Jones, presented the Colors. Father William Treacy, pastor of St. Michael's Church of Olympia, offered the following prayer:

"ALMIGHTY GOD TODAY IS PASSOVER, A FEAST OF HOPE AND DELIVERANCE. GREED AND SELFISHNESS LED THE EGYPTIANS TO TURN FROM BEING FRIENDLY HOSTS TO BEING EXPLOITERS OF THE PEOPLE OF ISRAEL, FORCING THEM TO BE HEWERS OF WOOD AND DRAWERS OF WATER. IN YOUR COMPASSION YOU DELIVERED THE PEOPLE OF ISRAEL FROM BONDAGE.

"WE PRAY TODAY TO BE DELIVERED FROM THE SELFISHNESS THAT CAN SEE OTHERS IN OUR SOCIETY IN GRAVE NEED AND WE ARE UNWILLING TO MAKE PERSONAL SACRIFICE TO HELP. LEAD US, LORD, TO THE PROMISED LAND WHERE NEIGHBOR WILL NOT SEEK TO EXPLOIT NEIGHBOR, OR PUT A STUMBLING BLOCK OF NEGLECT OR INADEQUATE INCOME IN THE PATH OF THE OLD AND SICK.

"LEAD US TO THE PROMISED LAND WHERE THE NEIGHBOR IN NEED IS HELPED BY HIS NEIGHBOR AND WHERE PEOPLE THINK OF THE NEEDS OF OTHERS BEFORE THEIR OWN. AMEN."

MESSAGE FROM THE HOUSE
March 26, 1975.

Mr. President: The House has passed ENGROSSED SENATE BILL NO. 2268, with the following amendment:
On page 1, beginning on line 8 strike all material down to and including “finance committee;” on line 20 and insert the following:
“Whenever there is in any fund or in cash balances in the state treasury more than sufficient to meet the current expenditures properly payable therefrom, the state finance committee, or upon authorization from the state finance committee then the state treasurer, may invest or reinvest such portion of such funds or balances as the state treasurer deems expedient in the following defined securities or classes of investments: PROVIDED, That the state treasurer shall provide a monthly report of such investments and reinvestments to the state finance committee;” and the same is herewith transmitted.

DONALD R. WILSON, Assistant Chief Clerk.

MOTION
On motion of Senator Lewis (Harry), further consideration of the House Message on Engrossed Senate Bill No. 2268 was delayed following caucus.
MOTION

On motion of Senator Mardesich, the Senate commenced consideration of Senate Bill No. 2183.

SECOND READING

SENATE BILL NO. 2183, by Senator Day (by Department of Motor Vehicles request):

Providing for the establishment of fees for businesses and professions.

MOTIONS

On motion of Senator Day, Substitute Senate Bill No. 2183 was substituted for Senate Bill No. 2183 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Day, the rules were suspended, Substitute Senate Bill No. 2183 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Lewis (Harry): "Would Senator Day yield to a question? Senator Day, I understood this bill was just a change in fees for various groups, businesses and professions. The problem I have is on page 21 where we have had a requirement that persons practicing the chiropractic shall, as a prerequisite to the renewal of license, be required to show proof of attendance at training programs, as I understand it, symposiums, and I note that on line 15 you provide that the chiropractic board may for good cause waive such attendance; and I am wondering, why is it that we require annual training and at the same time waive the necessity for that attendance? I know of no other profession that does this and I am wondering why the distinction for the chiropractic?"

Senator Day: "The first thing is that we were the first profession to require such additional training for license renewal in addition to a fee. In the last session of the legislature we did upgrade our act. We incorporated some of the Washington Administrative Code into the act and inadvertently the portion of the rules which preceding that had allowed the board to waive this for good cause shown was left out. Consequently, it is illegal for them, under any circumstance, to waive that requirement. Now we did have one young man, for example, that came out here and got his license and then returned to one of the colleges as a teacher for two years. During that time he had to run someplace and take an educational symposium, and this will allow the board only in specific circumstances where good cause is shown to have the discretion to waive this particular requirement. I think that is a good amendment."

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 2183, and the bill passed the Senate by the following vote: Yeas, 48; nays, 1.

SUBSTITUTE SENATE BILL NO. 2183, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

On motion of Senator Lewis (R. H. “Bob”), the rules were suspended, Senate Bill No. 2208 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Bottiger: “Would Senator Lewis yield to a question? Senator Lewis, this is a serious bill. I think it is directed to a serious problem.”
Senator Lewis (R. H. “Bob”): “That is true.”
Senator Bottiger: “And I am terribly concerned that someone does not point out, and I will do it in the form of a question: Can these institutions give liquor away to somebody else; can they sell it; does the bill provide protection that this is used actually in treatment only?”
Senator Lewis (R. H. “Bob”): “It is my belief that at the hearing the committee did raise these questions and it was satisfactorily answered that this is for the purposes intended only, for the withdrawal purposes and cure of the patients in the hospitals, and the Liquor Board did concur that this would be a good bill.”

POINT OF INQUIRY

Senator Rasmussen: “Would Senator Lewis yield to a question? Senator Lewis, does this limit it to those places approved by the Liquor Board?”
Senator Lewis (R. H. “Bob”): “Those that are approved by the Liquor Board. Yes, sir.”
Senator Rasmussen: “I understand there is quite a large number of groups getting into this, now that the alcoholic funds are available.”
Senator Lewis (R. H. “Bob”): “This is limited to those that are approved by the Liquor Board.”
Senator Rasmussen: “Thank you.”

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 2208, and the bill passed the Senate by the following vote: Yeas, 47; nays, 2.

OUR JEWISH-CHRISTIAN FAITH REMINDS US THAT EACH OF US IN YOUR EYES IS AN ETERNAL FLAME DESTINED TO BURN FOREVER. GIVE US AN APPRECIATION OF OUR OWN WORTH WHICH WILL MAKE IT POSSIBLE TO RECOGNIZE THE WORTH OF OTHERS. AS HUNGER AND WAR THREATEN THE ETERNAL FLAME IN THE LIFE OF OTHERS, HELP US TO DO OUR PART TO SEE THAT ALL CAN ENJOY THE GIFT OF LIFE.

"AS MILLIONS AROUND THE WORLD RECALL THE DEATH OF JESUS TODAY, WE PRAY THAT YOU WOULD NOT ALLOW US TO WASH OUR HANDS AS PILATE DID AND ASSUME NO RESPONSIBILITY FOR THE HUNGER AND SUFFERING IN THE WORLD. DEEPEN OUR UNDERSTANDING OF THE WORDS OF HIM WE HONOR TODAY WHEN HE SAID, 'WHAT YOU DO FOR THE LEAST OF MY BRETHREN YOU DO FOR ME'."

Mr. President: The House has passed SENATE BILL NO. 2026 with the following amendment:

On page 1, line 12, after "inventory" strike "held" and insert "owned", and the same is herewith transmitted.

DEAN R. FOSTER, Chief Clerk.
MOTION

Senator Walgren moved that the Senate do concur in the House amendment to Senate Bill No. 2026.

POINT OF INQUIRY

Senator Guess: "Would Senator Walgren yield? Senator Walgren, I am wondering what this would do in the instance where Northwest Airlines furnishes the headsets that the people listen to and the sheltered workshop sterilizes these and repackages them in the plastic bags and they do thousands of these things. Now is there going to be a tax on this, although it is owned by Northwest Airlines?"

Senator Walgren: "The bill as it would be passed now would say 'inventory owned by the sheltered workshop.' As we know, the Department of Revenue has, by its own revenue rulings, at least on one occasion it tried to apply the tax, that this was reversed by the tax appeals body. I think from a technical standpoint that the tax might possibly be applied but I rather doubt that it would be in this case."

Senator Guess: "Thank you very much."

Senator Talley: "Mr. President, we have the same problem at home. The port ships to the sheltered workshop many cases of damaged goods which they repackage but we do not in any way consider that they own these goods. They are just repackaging for the customer. They have no ownership of that property at all."

POINT OF INQUIRY

Senator Lewis (Harry): "Will Senator Walgren yield? Senator Walgren, for clarification, I have moved into our sheltered workshop, in an attempt to provide some work for them, material from my plant which they have sharpened; for example, stakes, which they have cut to length and then returned to me. Under this bill I would understand that that inventory would be my inventory and therefore would not be a consideration of the legislation. Is that correct?"

Senator Walgren: "That is correct."

The motion by Senator Walgren carried and the Senate concurred in the House amendment to Senate Bill No. 2026.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 2026, as amended by the House, and the bill passed the Senate by the following vote: Yeas, 48; absent or not voting, 1.

Absent or not voting: Senator Jones—1.

SENATE BILL NO. 2026, as amended by the House, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

(iii) The value of any other instrument that creates, releases, discharges, or otherwise affects any valuable legal right, privilege, or obligation shall be deemed the greatest amount of economic loss which the owner of the instrument might reasonably suffer by virtue of the loss of the instrument.

(c) Whenever any series of transactions which constitute theft, would, when considered separately, constitute theft in the third degree because of value, and said series of transactions are a part of a common scheme or plan, then the transactions may be aggregated in one count and the sum of the value of all said transactions shall be the value considered in determining the degree of theft involved.

(d) Whenever any person is charged with possessing stolen property and such person has unlawfully in his possession at the same time the stolen property of more than one person, then the stolen property possessed may be aggregated in one count and the sum of the value of all said stolen property shall be the value considered in determining the degree of theft involved.

The word "credit" as used herein shall be construed to mean an arrangement or understanding with the bank or other depository for the payment of such check or draft, and the uttering or delivery of such a check or draft to another person without such fund or credit to meet the same shall be prima facie evidence of an intent to defraud.

able time after a notice in writing proved to have been duly mailed by registered or certified mail with return receipt requested addressed to the last known address of the person who rented or leased the motor vehicle, or piece of machinery or equipment, shall be presumed to have intended to deprive or defraud the owner thereof within the meaning of section 9A.56.020 defining the crime of theft. This presumption may be rebutted by evidence raising a reasonable inference that the failure to return the vehicle or piece of machinery or equipment was not with the intent to defraud or otherwise deprive the owner of his property.

(2) In any prosecution under this section based on a threat to accuse any person of a crime or cause criminal charges to be instituted against any person, it is a defense that the actor reasonably believed the threatened criminal charge to be true and that his sole purpose was to compel or induce the person threatened to take reasonable action to make good the wrong which was the subject of such threatened criminal charge.

(3) When a person not an issuer or agent thereof has in his possession or under his control stolen credit cards issued in the names of two or more persons, he shall be presumed to know that they are stolen. This presumption may be rebutted by evidence raising a reasonable inference that the possession of such stolen credit cards was without knowledge that they were stolen.

NEW SECTION. Sec. 9A.92.900. LEGISLATIVE DIRECTION FOR CODIFICATION. The provisions of this act shall constitute a new Title in the Revised Code of Washington to be designated as Title 9A RCW.

On motion of Senator Benitz, the following amendments by Senators Benitz and Jolly and Senators Benitz and Donohue to the amendment by Senator Francis were considered and adopted simultaneously:

On page 6, line 36 of the amendment, after "breaking" insert "or agricultural or industrial sabotage".

"(2) Unlawful issuance of a bank check in an amount greater than one hundred dollars is a class C felony.

(3) Unlawful issuance of a bank check in an amount of one hundred dollars or less is a gross misdemeanor."

POINT OF INQUIRY

Senator Woody: "Would Senator Francis yield? What are the dollar breakdowns of our class felonies right now for stealing, and is one hundred dollars consistent with that?"

Senator Francis: "Yes, Senator Woody, that is consistent. The bill as introduced to us, suggested to us by the Bar Association and the prosecutors, would have made two hundred and fifty dollars the dividing line but the committee's action brought that back down to one hundred dollars. Of course, the present level is seventy-five. So what Senator Lewis has done here is consistent with the theft section."

The motion by Senator Lewis (Harry) carried and the amendment to the amendment by Senator Francis was adopted.

The motion by Senator Francis carried and the amendment, as amended, was adopted.

There being no objection, the Senate reconsidered adoption of the amendment by Senator Francis, as amended.

On motion of Senator Francis, the following amendment to the amendment by Senator Francis was adopted:

MOTION

Senator Woody moved that further consideration of Senate Bill No. 2230 as amended, be held following consideration of Senate Bill No. 2314.

POINT OF INQUIRY

Senator Washington: "Would Senator Woody yield? Would you state again the page and line where your amendment is proposed?"

Senator Woody: "Yes, very quickly marking it up, and I will have the written amendment on your desk shortly. On page 15 of the Senator Francis floor amendment, on line 10 it says 'one hundred dollars'. My amendment will be 'two hundred and fifty.' Line 22 where it says 'one hundred dollars', that should be 'two hundred and fifty', and on the Senator Harry Lewis amendment on bank checks, the amount should be on both (2) and (3) changed to two hundred and fifty dollars."

The motion by Senator Woody carried. Senate Bill No. 2230, as amended, was placed on today's second reading calendar following Senate Bill No. 2314.

MOTION

On motion of Senator Mardesich, the Senate advanced to the eighth order of business.

MOTIONS

On motion of Senator Francis, the rules were suspended and Substitute Senate Bill No. 2313 was returned to second reading.

On motion of Senator Francis, Substitute Senate Bill No. 2313 was ordered placed at the beginning of the second reading calendar for Tuesday, April 1, 1975.

There being no objection, the Senate returned to the sixth order of business.

Enacting a new criminal code relating to crimes against property.

The motion by Senator Woody carried.

Senator Woody moved adoption of the following amendment by Senators Woody, Grant and Van Hollebeke to the amendment by Senator Francis:

On page 15, line 10, strike "one hundred" and insert "two hundred fifty"

Debate ensued.
POINT OF INQUIRY

Senator Rasmussen: "Would Senator Francis yield to a question? Senator Francis, this up to the two hundred and fifty dollars as Senator Woody proposes, this would be a gross misdemeanor. What is the maximum under the gross misdemeanor?"

Senator Francis: "The maximum as now would be one year basically, in the county jail and a fine, I forget the exact amount."

Senator Rasmussen: "Then as you would suggest classing it as a felony, what would the judge be able to give the person?"

Senator Francis: "The judge could then commit them to the Department of Institutions and under our current law they would stay there for as long as they need to, or as long as their term is set. I would have to refer to the class of felonies involved and I believe that is a class C felony."

Senator Rasmussen: "Class C, right."

Senator Francis: "So we look back to the statute that we passed here the other day. I think it is not more than five year provision is my recollection for class C felonies. I might add also that when you have a felony, in addition to being able to go to the Department of Institutions instead of just the county jail, that as far as law enforcement is concerned, as far as the police resources that are available to attempt to apprehend these individuals, a lot more is available when it is a felony they are going after."

Senator Rasmussen: "One more question, Senator, as a felony, would it require trial in superior court?"

Senator Francis: "Basically, that is a superior court trial matter, yes."

Senator Rasmussen: "Thank you."

Further debate ensued.

Senator Marsh demanded a roll call and the demand was sustained by Senators Francis, Rasmussen, von Reichbauer, Washington, Clarke, Newschwander, Sellar, Buffington, North and Gould.

ROLL CALL

The Secretary called the roll and the amendment by Senators Woody, Grant and Van Hollebeke to the amendment by Senator Francis was not adopted by the following vote: Yeas, 14; nays, 35.

The motion by Senator Francis carried and the amendment, as amended, was adopted.

On motion of Senator Francis, the rules were suspended, Engrossed Senate Bill No. 2230 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2230, and the bill passed the Senate by the following vote: Yeas, 46; nays, 3.

March 18, 1975.

SENATE BILL NO. 2607, revising priorities for state highway improvements (reported by Committee on Transportation and Utilities):

MAJORITY recommendation: Do pass with the following amendments:

On page 1, line 20 after "section," and before "fourteen" insert "based upon needs for the ensuing".

On page 4, line 31 after "criteria" and before the semicolon insert "(not necessarily in order of importance)".

Senator Grant moved adoption of the following amendment by Senators Grant, Van Hollebeke and Jones:

On page 8, following section 6, add a new section to read as follows:

"Sec. 7. Section 1, chapter 5, Laws of 1973 and RCW 46.20.391 are each amended to read as follows:

(1) A person is eligible to petition for an occupational driver's license if he has been convicted of an offense relating to motor vehicles, other than negligent homicide or manslaughter, for which suspension or revocation of his driver's license is mandatory, including suspensions or revocations pursuant to RCW 46.20.308: PROVIDED, That notwithstanding the provisions of RCW 46.20.270, if such person declares at the time of conviction his intent to so petition, the court may stay the effect of such mandatory suspension or revocation for a period not to exceed thirty days to allow the making of such petition.

(2) A petitioner for an occupational driver's license is eligible to receive such license only if:

(a) Within one year immediately preceding the present conviction he has not been convicted of any offense relating to motor vehicles for which suspension or revocation of a driver's license is mandatory; and

(b) He is engaged in an occupation or trade which makes it essential that he operate a motor vehicle; and

(c) He files satisfactory proof of financial responsibility pursuant to chapter 46.29 RCW.

(3) A petitioner for an occupational driver's license must file a verified petition on a form provided by the director, who shall issue such form upon receipt of the prescribed fee if petitioner is eligible under the requirements of subsections (1) and (2)(a) and (2)(c) of this section. Petitioner must set forth in detail in such petition his need for operating a motor vehicle and may file such petition with any judge in a court of record, justice court, or municipal court having criminal jurisdiction in the county of the petitioner's residence or shall file with the department in the case of a suspension or revocation under RCW 46.20.308.

If [such] the petitioner is qualified under the provisions of subsection (2)(b) of this section, and if the judge to whom petition was made or the director in the case of a suspension or revocation under RCW 46.20.308 believes such petition should be granted, [such] the judge may order the director to issue an occupational driver's license to [such] the petitioner or the director may issue an occupational driver's license to the petitioner in the case of a suspension or revocation under RCW 46.20.308: PROVIDED, That an occupational driver's license may be issued for a period of not more than one year, and shall permit the operation of a motor vehicle not to exceed twelve hours per day and then only when such operation is essential to the licensee's occupation or trade: PROVIDED FURTHER, That [such] the order of the judge or the director shall be on a form provided by the director, and shall contain definite restrictions as to hours of the day, days of the week, type of occupation, and areas or routes of travel to be permitted under such license and such other conditions as the judge or the director granting the same deems appropriate.

A copy of the order and of the petition shall be sent to the director by the court. The order shall be given to the petitioner and shall serve as his occupational license until the petitioner receives the license issued by the director: PROVIDED, That the director
shall not be required to issue such license if the petitioner's mandatory suspension or revocation is for sixty days or less.

(4) If the convicting judge granted a stay of effect as provided in subsection (1) of this section, then at the time the judge to whom petition was made issues the order he shall collect the petitioner's driver's license in the same manner as is specified in RCW 46.20.270, and at such time also the conviction shall take full effect.

(5) The director shall cancel an occupational driver's license upon receipt of notice that the holder thereof has been convicted of operating a motor vehicle in violation of its restrictions, or of an offense which pursuant to chapter 46.20 RCW would warrant suspension or revocation of a regular driver's license. Such cancellation shall be effective as of the date of such conviction, and shall continue with the same force and effect as any suspension or revocation under this title."

Renumber the remaining sections consecutively.

Debate ensued.

POINT OF ORDER

Senator Francis: "Mr. President, I raise the question of scope and object with regard to this amendment. Speaking to the point, I do have to note first that the comment from this side of the aisle was that the President pointed out that this is Senator Grant's second term. He did not point out anything with regard to it being his final term.

"I read this bill, Mr. President and members of the Senate, and speaking to Mr. President, as relating mainly to the problem that has been created by the decriminalization of drunkenness and public drunkenness and because of that we have to find a means to get at the problem of the drunken driver that is not observed in the process of drunk driving, and this bill really does two things. It makes it possible to arrest those people and it makes it possible to gather evidence in certain cases. It does not speak a thing about what happens once they have been determined to be guilty of anything. It has nothing to do with availability of driver's licenses. It has nothing to do with occupational permits. The amendment put up by Senator Grant is completely unrelated to the bill and beyond the scope and object of the bill."

Further consideration of the amendment by Senators Grant, Van Hollebeke and Jones, together with the point of order as raised on the amendment by Senator Francis, was ordered held for Monday, March 31, 1975.

SECOND READING

SENATE BILL NO. 2226, by Senators Francis, Woody and Clarke:
Requiring state to pay costs and fees of indigent appeals.

REPORT OF STANDING COMMITTEE

February 14, 1975.

SENATE BILL NO. 2226, requiring state to pay costs and fees of indigent appeals (reported by Judiciary Committee):

MAJORITY recommendation: Do pass with the following amendment:

On page 1, line 25 after "when" insert "from and after December 20, 1973".

Signed by: Senators Francis, Chairman; Buffington, Fleming, Jones, Scott, Van Hollebeke, Woody.

The bill was read the second time by sections.

On motion of Senator Francis, the committee amendment was adopted.

On page 1, line 13, after "reporter" and before "shall" insert "and clerk of the court".

On page 1, line 17, after "reporter" and before "for" insert "and clerk of the court".

On motion of Senator Francis, the rules were suspended, Engrossed Senate Bill No. 2226 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Donohue: "Will Senator Francis yield? I note in here that the state is supposed to pay these costs. Do you have a fiscal note on this? We are trying to run one down right now and in fact it is on its way."

Senator Francis: "It is a very confusing situation. There have not been very many cases, civil cases, in which it has been held that an indigent had a right to have those transcripts paid for. I believe we are in the area of under five thousand dollars, Senator. In fact, quite interestingly, the main opposition to this bill of the Judicial Council was from the then Chief Justice Hale who did not want to ever grant any of these, and I would say that if his philosophy prevails in the State Supreme Court, you will find that the number of these is greatly reduced, like down to none. So I do not think that we can predict it except to say that I am sure that it will be under five thousand dollars for the biennium."

Senator Donohue: "Senator Francis, the figure is fourteen thousand for a two year period and I want you to know that we are aware of this."

Senator Francis: "Senator, I would dispute that figure. I disagree with it and I do not buy it. I have heard it and I do not buy it."

Senator Donohue: "Well, until we have proof I will buy it, and we will remember that figure upstairs."
ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2226, and the bill passed the Senate by the following vote: Yeas, 48; nays, 1.

ENGROSSED SENATE BILL NO. 2226, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

PERSONAL PRIVILEGE

Senator Grant: "Lieutenant Governor John Andrew Cherberg, I understand you are serving your tenth session as President of the Senate and as Ex Officio Chairman of the Senate Rules Committee, and I am sure this will not be your last session, unless of course you aspire to a higher office and are elected. I understand too that you were first elected Lieutenant Governor in 1956 and you have been reelected in 1960, 1964, 1968, and 1972. You were born, I understand, in Pensacola, Florida, and received a life teaching diploma from the University of Washington in 1934, the year of my birth. Formerly you were a school teacher and head football coach at the University of Washington prior to your election. I am not sure how many children you have, you and your lovely wife, Betty. The record would indicate there are three children in your family. I would like, under a point of personal privilege, to wish you and the other members of the Senate a very happy Easter."

WE PAUSE TO INVOKE YOUR BLESSING UPON OUR STATE SENATE. GRANT TO THESE GOVERNMENTAL LEADERS A SENSE OF YOUR PRESENCE IN THEIR LIVES. "WE CONCLUDE THIS TIME OF DEVOTION BY SAYING, 'THANK YOU, LORD! YOU ARE SO GOOD TO US, AND WE ARE SO UNDESERVING. MAY OUT OF OUR THANKFULNESS WE BECOME MORE USEFUL TO YOU, AND TO THE CITIZENRY THAT WE SERVE. WE MAKE THIS PRAYER IN JESUS' NAME. AMEN."

At 11:13 a.m., on motion of Senator Mardesich, the Senate recessed until 12:00 noon.

NOON SESSION

The President called the Senate to order at 12:00 noon.
The President declared the Senate to be at ease.

AFTERNOON SESSION

The President called the Senate to order at 12:32 p.m.
MOTION

On motion of Senator Mardesich, the Senate resumed consideration of Senate Bill No. 2607, as amended.

SECOND READING

SENATE BILL NO. 2607, by Senators Walgren and Guess (by Department of Highways request):
Revise priorities for state highway improvements.

The Senate resumed consideration of Senate Bill No. 2607, as amended on Friday, March 28, 1975.

On motion of Senator Bottiger, the rules were suspended, Engrossed Senate Bill No. 2607 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Washington: "Would Senator Bottiger yield to a question? Senator Bottiger, referring to New Section 4 on page 4, starting on line 10 and specifically directing your attention to subparagraph (4) starting on line 29, then in reference to the items (a), (b), (c), (d), and (e); now it is my understanding from your statement that there is no priority of importance to be attributed to the fact that, for instance, relating to (a) 'its structural ability to carry loads imposed upon it', that that has no greater priority or importance than the other items following it as (b), (c), (d) and (e)."

Senator Bottiger: "Senator Washington, the committee specifically asked the Highway Department that question. Their representative testified that it did not. To make it ultimately clear, we adopted the amendment and this body has adopted the amendment on page 4, line 31 stating 'not necessarily in the order of importance.' A further amendment requires them to report to us any deviation from the priority array and it is at least my intent to recommend to the Joint Committee on Transportation that we closely monitor these things to see that that is in fact the case. I do not believe that safety should be ranked as low as it should even with that language in there, and the department has assured me that accident reports, fatal accident reports, weigh heavily in establishing the array and they are not ranked in order of importance."

Senator Washington: "Thank you very much."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2607, and the bill passed the Senate by the following vote: Yeas, 49.

ENGROSSED SENATE BILL NO. 2607, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

On motion of Senator Mardesich, the Senate resumed consideration of Senate Bill No. 2403, as amended.

SECOND READING

SENATE BILL NO. 2403, by Senators Jones, Francis and Wanamaker:
Providing arrest procedures for specified traffic offenses.

The Senate resumed consideration of Senate Bill No. 2403. The committee amendments were adopted on Monday, March 24, 1975. On Friday, March 28, 1975 a Point of Order was raised by Senator Francis on an amendment proposed by Senators Grant,
Van Hollebeke and Jones. The bill was held on that day for a Ruling by the President on the Point of Order.

RULING BY THE PRESIDENT

The President: "The President, in ruling on the point of order as raised by Senator Francis, the President finds that Senate Bill No. 2403 is a measure permitting police officers to make arrests for certain offenses not committed in the officer's presence, and makes changes in the law with regard to negligent homicide and the laws with regard to drugs while operating a motor vehicle.

"The amendment proposed by Senators Grant, Van Hollebeke and Jones, however, permits the right of an individual to seek an occupational driving permit under certain circumstances, if the individual has lost his driving privilege because of a refusal to take a Breathalyzer test.

"The subject matter of the proposed amendment has passed this legislature previously and was vetoed by the Governor. The proposed amendment does increase the scope and object of the bill. The point of order, therefore, is well taken."

The amendment by Senators Grant, Van Hollebeke and Jones was ruled out of order.

On motion of Senator Jones, the following amendment was adopted:

On page 6, line 16, after "drugs" strike the comma and insert "as provided in".

There being no objection, the amendment by Senator Pullen to page 6, line 22 on the Secretary's desk, was withdrawn.

On motion of Senator Francis, the committee amendment to the title was adopted.

On motion of Senator Francis, the rules were suspended, Engrossed Senate Bill No. 2403 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2403, and the bill passed the Senate by the following vote: Yeas, 43; nays, 6.

ENGROSSED SENATE BILL NO. 2403, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Mardesich, the Senate commenced consideration of Substitute House Bill No. 208.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 208, by House Judiciary Committee (originally sponsored by Representatives Seeberger, McKibbin, Knowles, Smith (Rick), Becker, Sherman and Shinpoch):

Revising laws relating to rape.

REPORT OF STANDING COMMITTEE

March 26, 1975.

SUBSTITUTE HOUSE BILL NO. 208, revising laws relating to rape (reported by Judiciary Committee):
MAJORITY recommendation: Do pass with the following amendments:

On page 2, beginning on line 3, strike all the matter down through "spouse." on line 7.

On page 2, line 29, strike the remainder of the material down through "offense." on page 3, line 1, and insert the following:

"(2) Evidence of the victim's past sexual behavior including but not limited to the victim's marital history, divorce history, or general reputation for promiscuity, non-chastity, or sexual mores contrary to community standards is inadmissible on the issue of credibility and is inadmissible to prove the victim's consent except as provided in subsection (3) of this section, but when the perpetrator and the victim have engaged in sexual intercourse with each other in the past, and when the past behavior is material to the issue of consent, evidence concerning the past behavior between the perpetrator and the victim may be admissible on the issue of consent to the offense.

(3) In any prosecution for the crime of rape or for an attempt to commit, or an assault with the intent to commit any such crime evidence of the victim's past sexual behavior including but not limited to the victim's marital behavior, divorce history, or general reputation for promiscuity, non-chastity, or sexual mores contrary to community standards is not admissible if offered to attack the credibility of the victim and is admissible on the issue of consent only pursuant to the following procedure:

(a) A written pre-trial motion shall be made by the defendant to the court and prosecutor stating that the defense has an offer of proof of the relevancy of evidence of the past sexual behavior of the victim proposed to be presented and its relevancy on the issue of the consent of the victim.

(b) The written motion shall be accompanied by an affidavit or affidavits in which the offer of proof shall be stated.

(c) If the court finds that the offer of proof is sufficient, the court shall order a hearing out of the presence of the jury, if any, and the hearing shall be closed except to the necessary witnesses, the defendant, counsel, and those who have a direct interest in the case or in the work of the court.

(d) At the conclusion of the hearing, if the court finds that the evidence proposed to be offered by the defendant regarding the past sexual behavior of the victim is relevant to the issue of the victim's consent; is not inadmissible because its probative value is substantially outweighed by the probability that its admission will create a substantial danger of undue prejudice; and that its exclusion would result in denial of substantial justice to the defendant; the court shall make an order stating what evidence may be introduced by the defendant, which order may include the nature of the questions to be permitted. The defendant may then offer evidence pursuant to the order of the court.

(4) Nothing in this section shall be construed to prohibit cross examination of the victim on the issue of past sexual behavior when the prosecution presents evidence in its case in chief tending to prove the nature of the victim's past sexual behavior, but the court may require a hearing pursuant to subsection (3) of this section concerning such evidence.

Signed by: Senators Francis, Chairman; Buffington, Clarke, Jones, Marsh, Scott.

The bill was read the second time by sections.

On motion of Senator Francis, the committee amendments to page 2, beginning on line 3 and page 2, line 29 were considered and moved for adoption simultaneously.

Debate ensued.

POINT OF INQUIRY

Senator Van Hollebeke: "Would Senator Francis yield? Senator, several times you referred to protection to the prosecutrix on referring to or questioning her on her past sexual mores. I cannot find the bill here quickly. She is also protected against present sexual habits. Is that correct?"

Senator Francis: "There is nothing that I see in the bill about that, no. We are talking about past sexual times — marital history, divorce history, and so forth. We are not talking about present sexual habits and rather than say 'prosecutrix' or 'the woman' I would refer to maybe the rapee, but this is designed to protect men as well as women
from rape and I am sure you were there during the hearings and you know of testimony regarding several instances of rape of males."

Senator Van Hollebeke: "But 'past' in this case would refer to anything happening prior to the alleged crime, past sexual conduct?"

Senator Francis: "I think that is what it would have to mean."

MOTIONS

On motion of Senator Mardesich, Substitute House Bill No. 208, together with the committee amendments, was ordered held subject to a Call from the Floor.

On motion of Senator Mardesich, the Senate returned to the fourth order of business to resume consideration of the following House Message held from March 27, 1975.

MESSAGE FROM THE HOUSE

March 26, 1975.

Mr. President: The House has passed ENGROSSED SENATE BILL NO. 2268, with the following amendment:

On page 1, beginning on line 8 strike all material down to and including "finance committee;" on line 20 and insert the following:

"Whenever there is in any fund or in cash balances in the state treasury more than sufficient to meet the current expenditures properly payable therefrom, the state finance committee, or upon authorization from the state finance committee then the state treasurer, may invest or reinvest such portion of such funds or balances as the state treasurer deems expedient in the following defined securities or classes of investments: PROVIDED, That the state treasurer shall provide a monthly report of such investments and reinvestments to the state finance committee;" and the same is herewith transmitted.

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 2268, as amended by the House, and the bill passed the Senate by the following vote: Yeas, 48; nays, 1.

Voting nay: Senator McDermott—1.

ENGROSSED SENATE BILL NO. 2268, as amended by the House, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MESSAGE FROM THE HOUSE

March 18, 1975.

Mr. President: The House refuses to recede from House amendments to SENATE BILL NO. 2079 and once again asks the Senate to concur in House amendments, and the same is herewith transmitted.

DONALD R. WILSON, Assistant Chief Clerk.
MOTION

On motion of Senator Mardesich, the Senate adhered to its position and refused to concur in the House amendments to Senate Bill No. 2079, and asks the House to recede therefrom.

MOTION

On motion of Senator Mardesich, the Senate resumed consideration of Substitute House Bill No. 208.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 208, by House Judiciary Committee (originally sponsored by Representatives Seeberger, McKibbin, Knowles, Smith (Rick), Becker, Sherman and Shimpoch):

Revising laws relating to rape.

The Senate resumed consideration of Substitute House Bill No. 208. The committee amendments were moved for adoption earlier today by Senator Francis.

The motion by Senator Francis carried and the committee amendments were adopted simultaneously.

POINT OF INQUIRY

Senator Rasmussen: "Will Senator Francis yield to a question? Senator Francis, in Section 7, that still remains in the bill that is on page 4?"

Senator Francis: "Yes."

Senator Rasmussen: "And that Section 7, subparagraph (1), a person over thirteen years of age is guilty of statutory rape in the first degree when a person engages in sexual intercourse with another person who is less than eleven years old. That is quite a severe penalty, Senator, for a thirteen year old who probably does not know how to read the law or have the law explained to him. What would be the reason for having that severe penalty in this bill?"

Senator Francis: "Senator Rasmussen, I do not want to get into it too much because I am not necessarily for having such a low age for the perpetrator, but the idea behind it and behind the advocates of that is that statutory rape, which is now in our law as carnal knowledge, is something quite different from rape and the idea is that it is a matter of taking advantage of one person by another person of superior intelligence, of greater experience, and so forth, so you have here someone who is ten years of age or under, who in almost every case will not yet have reached puberty; and the idea is that they are being taken advantage of by someone thirteen years of age or over, which is someone who has reached puberty and who is at least three years older than the victim. Now in the other sections I have no problem with it. I do think that is an improvement over saying anyone who has sexual relations with someone under ten, which is the way that it originally came to us, would be guilty, because that could mean that a fellow ten years old who is engaged in sexual experimentation with them would be guilty of rape and of course it would be handled in juvenile court, just as this would be. I should add there that that includes everybody over the age of thirteen, including twenty-one and twenty-five year olds and on up and that, of course, anyone under age eighteen will be dealt with in a different way than being charged with the felony. They would be taken down to juvenile court."

Senator Rasmussen: "I note over on page 5, Senator Francis, a person over sixteen years of age is guilty of statutory rape in the second degree. Now you are taking a person who is sixteen years of age and they would be guilty of statutory rape in the second degree where the person thirteen years of age would be guilty of statutory rape in the first degree and there is..."

Senator Francis: "Read the rest of that, Senator Rasmussen. The point there again is that it is the age of the victim that is the most important and they are between the ages of eleven and fourteen there is the age of the victim. And then for third degree it is someone who is over fourteen but less than sixteen. So the age of the victim is the most
important. The only reason the age of the perpetrator is in there is to make it clear that the perpetrator, in order to be guilty, has to be sufficiently older than the victim that there is some advantage-taking involved. And that was the reasoning behind what the House did with the bill in that area. We have not proposed to change it because it represents a substantial improvement over our present law where you do not have to even be older than your victim to be guilty."

Senator Rasmussen: "Thank you, Senator Francis."
Senator Rasmussen moved adoption of the following amendment:
On page 4, line 27, strike "thirteen" and insert "sixteen".
Further debate ensued.
The motion by Senator Rasmussen failed and the amendment was not adopted.
Senator Gould moved adoption of the following amendment by Senators Gould and Cunningham:
On page 5, line 14, strike "sixteen" and insert "eighteen".
The motion by Senator Gould failed and the amendment was not adopted on a rising vote.
Senator Pullen moved adoption of the following amendment:
On page 3, line 33 strike the period and insert: ": PROVIDED, That every person convicted of rape in the first degree shall be confined for a minimum of three years: PROVIDED FURTHER, That the board of prison terms and paroles shall have authority to set a period of confinement greater than three years but shall never reduce the minimum three-year period of confinement nor shall the board release the convicted person as a result of any type of automatic good time calculation nor shall the department of social and health services permit the convicted person to participate in any work release program or furlough program."

The President declared the question before the Senate to be the motion by Senator Day that Substitute House Bill No. 246 be referred to the Committee on Social and Health Services.

POINT OF INQUIRY

Senator Woody: "Mr. President, would Senator Francis yield? Would you read the title?"

Senator Francis: "It says, 'An act relating to civil procedure and adding a new section to Chapter 4.24 RCW.'"

Senator Woody: "Thank you. It is my recollection, Senator Francis, and I could stand corrected, that the Supreme Court has ruled on our comparative negligence statute that when the title contains the word 'procedure' it has a retroactive effect. Retroactive. That means that if that were to pass in its present form, unless the Judiciary Committee were to change the title, all current injuries that have occurred going back many, many years would be subject to the retroactive effect of that act."

The motion by Senator Day carried on a rising vote. Substitute House Bill No. 246 was referred to the Committee on Social and Health Services.

Revising laws relating to rape.

The Senate resumed consideration of Substitute House Bill No. 208.

ROLL CALL

SECOND READING

SENATE BILL NO. 2765, by Senator Mardesich:

Relating to public pensions.

MOTIONS

On motion of Senator Mardesich, Substitute Senate Bill No. 2765 was substituted for Senate Bill No. 2765, and the substitute bill was placed on second reading and read the second time in full.

Senator Bailey moved adoption of the following amendment:

Beginning on page 1, line 29, strike all of the material down to and including the period on page 2, line 5.

Debate ensued.

POINT OF INQUIRY

Senator Odegaard: "Would Senator Clarke yield? Senator Clarke, would you consider in this bill for the future employees who would come under this new system, would you consider their benefits a deferred compensation, and if so, even though the wording is in the bill that adjustments could be made downward, could you predict what the
court might say to that? Whether it would be constitutional or not for us to adjust benefits downward?"

Senator Clarke: "All I can give you, of course, is my own personal opinion, and I think that if you make a contract which says that you have the right to adjust either upward or downward and the employee comes to work with the knowledge of that reserved right, that it is constitutional for the state or for any employer to reserve that particular right. In other words, the reason, as I understand it, that the Supreme Court as to the present system said that there could be no revision downward, because there was a contract to pay a specified amount. This bill does not contract to pay a specified amount, but specifically reserves the right to adjust."

Debate ensued.

Senator Woody: "In further answer, Senator Odegaard, to your question, the Supreme Court case that initially advanced this theory, this contract theory, said that we could not adversely affect future benefits with one exception. That exception in the case says that if the fiscal integrity of the system necessitated it, then we could. The problem that we are faced with, of course, is proving that. It would be a problem of proof in court, but assuming you can prove that the fiscal integrity of the system necessitated it, then the Supreme Court said notwithstanding the contract theory you could adversely affect the benefits of existing employees."

Further debate ensued.

Senator Bailey demanded a roll call and the demand was sustained by Senators McDermott, Rasmussen, Stortini, Knoblauch, Fleming, Goltz, Wilson, Odegaard and Grant.

The President declared the question before the Senate to be the roll call on the amendment by Senator Bailey.

ROLL CALL

The Secretary called the roll and the amendment by Senator Bailey was not adopted by the following vote: Yeas, 22; nays, 27.

Senator Rasmussen moved adoption of the following amendment:

On page 10, line 11, after "retirement" and before the period insert: "PROVIED, That an eligible member of Group II shall be entitled to 2.4 percent of final average salary for each year of service credit".

Debate ensued.

The motion by Senator Rasmussen failed and the amendment was not adopted.

Senator Francis moved adoption of the following amendment:

On page 10, section 10, line 16 beginning with "(3) If" strike the whole of subsection (3).

Debate ensued.

The motion by Senator Francis failed and the amendment was not adopted.

Senator Murray moved adoption of the following amendment:

On page 11, line 4 after "one" and before "percent" insert "half of one".

Debate ensued.

The motion by Senator Murray failed and the amendment was not adopted.

Senator Rasmussen moved that the following amendments be considered and adopted simultaneously:

On page 13, line 33, after "a" and before "member" insert "Group I".

On page 13, line 34, after "fifty-five" and before "dies" insert "or a Group II member with at least ten years service".

Debate ensued.
POINT OF INQUIRY

Senator Rasmussen: “Would Senator Scott yield to a question? Senator Scott, you mentioned that this would entail a considerable cost. Do you have figures on that?”

Senator Scott: “I honestly do not, Senator, because we have not seen your amendment until we came out on the floor this afternoon, but I refer you to the costs that have resulted from comparable benefits in the LEFF system that have pushed up the unfunded liability of that system in excess of two hundred and fifty percent in the last four years.”

Senator Rasmussen: “I would say, Senator Scott, that you probably are reaching there, that you have no figures to back you up, but I would call the body’s attention and also Senator Woody, if he would read Section 14, ‘Nonservice Connected Death Benefit. If a member with at least ten years service credit dies as a result of an injury or disease for which industrial insurance compensation is not payable, a lump sum of ten thousand dollars shall be paid to the member’s surviving spouse and/or minor children.’ Now the amendment in subsection (2) would go on to read and it requires, ‘If a Group I member with at least ten years service credit who has obtained age of fifty-five or a Group II member with at least ten years of service dies as a result of injury or disease for which industrial insurance compensation is not payable, the member’s surviving spouse and/or minor children may elect . . . .’ and this is all this is doing. It actually would probably save money. And it goes on to read on the next page, ‘may elect to receive the joint and survivors allowance computed pursuant to the provisions of section 15 (2)(b) of this 1975 amendatory act.’ I do not see any cost figure in there at all of increasing the cost. You are just extending the benefits to a person who is not covered with industrial insurance that they would get under industrial insurance. I urge your support for the amendment.”

The motion by Senator Rasmussen failed and the amendments were not adopted.

Senator Grant moved that the following amendments be considered and adopted simultaneously:

On page 14, line 34, after “(I)” and before “The” insert “(a).”
On page 14, line 35, after “member,” and before “at” insert “if a Group I member.”
On page 15, line 1, after “injury” delete the period and insert “; (b) for a Group II member, the disability allowance shall cease when it is determined that the member has sufficiently recovered to perform the duties of the position or rank from which he was retired. At such time he shall be returned to duty in the same civil service rank, if any, he held at the time of retirement, or, at his request in such other like or lesser rank as may be or become open and available. In no event shall a Group II member be restored to duty at a salary or rate of pay less than the current salary attached to the rank or position he held at the time of his retirement for disability.”
On page 15, line 2 beginning with “(2)” strike the whole of subsection (2), and renumber the remaining section.

Debate ensued.

The motion by Senator Grant failed and the amendments were not adopted.

Senator Scott moved that the following amendments by Senators Marsh and Scott be considered and adopted simultaneously:

On page 18, beginning on line 29, strike all material beginning with “one-half” down through the period on page 20, line 1.
On page 20, beginning on line 31, strike all material beginning with “One-fourth” down through the period on page 21, line 12.

PARLIAMENTARY INQUIRY

Senator Murray: “I have two amendments which affect the same section and treat the same subject matter. If we proceed with the amendments before us, would mine still be available for consideration?”
REPLY BY THE PRESIDENT

The President: "The President believes that your amendments would be in order, Senator Murray."

Debate ensued.

The motion by Senator Scott carried and the amendments were adopted.

Senator Murray moved adoption of the following amendment:

On line 23 strike all material through line 5, page 20 and insert: "An employer of a Group I member shall contribute an amount equal to 3 percent of the salary of each such member to the Washington State Retirement System for the current costs of such system; and in addition, the state shall contribute for appropriate members an amount equal to 4.27 percent of salary to the Teachers Retirement System, 18.59 percent to the Judges Retirement System, and 3 percent to the Public Employees Retirement System, the Seattle Retirement System, the Tacoma Retirement System and the Spokane Retirement System."

Debate ensued.

POINT OF INQUIRY

Senator Scott: "Would Senator Murray yield? In reference to PERS here, you mention a three percent in addition to go to unfunded liability. How is it then that, if my understanding is correct, the PERS is currently paying in one point seven percent for that purpose and Mr. Bleakney is actuary for the system. Maybe that deserves some explaining, too."

Senator Murray: "I am glad you asked that question. The one objection that was stated, or one of the objections that was stated in the report from the company in New York was that we were using a rolling forty method of amortizing the PERS system, which means that really we are paying it off over about eighty years at one point seven percent. I left it at three percent to take care of that factor. The three percent will put us approximately on a forty year payout rather than an eighty year payout, which was the recommendation that came from the New York firm."

Further debate ensued.

The motion by Senator Murray failed and the amendment was not adopted.

Senator Murray moved adoption of the following amendment:

On page 20, beginning on line 28 strike all material through line 24 on page 21 and insert: "An employer of a Group II member shall contribute an amount equal to 12 percent of salary to the Washington State Retirement System for the current costs of such system; and, in addition, there shall be paid from the General Fund of the state of Washington to the Law Enforcement Officers and Fire Fighters Retirement Fund an amount equal to 19.55 percent of salary and to the State Patrol Retirement System an amount equal to 6.60 percent of salary of appropriate personnel."

Debate ensued.

The motion by Senator Murray failed and the amendment was not adopted.

Senator Rasmussen moved adoption of the following amendment:

On page 23, beginning on line 4, strike all of sections 28 and 29 and substitute the following:

"NEW SECTION. Sec. 28.

(1) The retirement board shall consist of eleven members, as follows: The lieutenant governor, who shall be chairman, the insurance commissioner, the state treasurer, the superintendent of public instruction, two members appointed by the governor, one member who is an elected city or county official appointed by both the association of Washington cities and the Washington state association of counties, and four elected representatives who shall be members of the retirement system and each of whom shall be elected by active members in their classification for a term of three years.

(2) The active members of the system shall be divided into four classifications for purposes of board representation as follows: Classification A shall consist of all employees of state government; classification B shall consist of all group I employees of political subdivisions who are not active teachers; classification D shall consist of all employees who are active teachers; classification D shall consist of all group II em-
ployees. Each member shall have the right to vote only for an employee representative from his respective classification. The initial employee representatives to the board shall be elected by the members of the Washington state retirement system in an election to be held no earlier than April 15, 1976 and completed not later than July 15, 1976. Until such first election is held, the other members of the board shall be empowered to govern the system, however, four favorable votes shall be necessary before a decision of the board may become effective.

For each subsequent election, any active member desiring to become a candidate to represent active members in his classification may during the first two weeks of April of the year in which the vacancy in the classification occurs, file with the director of the system a typewritten statement that he desires to be a candidate for the board. The letter supporting his candidacy must be signed by at least twenty members of the retirement system in his classification. The election shall be conducted under the supervision of the retirement board pursuant to such rules as the board shall prescribe, but shall be so conducted that the voting shall be secret and the ballots may be returned by mail. Ballots in order to be counted shall be received by the director not later than the second Monday in June. The board shall thereupon proceed to count the ballots and shall declare elected the candidate receiving the highest number of votes. The terms of all elected representatives shall commence on the first day of July following their election.

(3) The governor shall appoint two members, only one of whom may be a member of the retirement system. These members shall serve a two-year term, except that the original term of one of the first appointees, as designated by the governor, shall be one year.

NEW SECTION. Sec. 29.

(1) Any vacancy occurring by reason of resignation, death or disability ninety days or more before the expiration of the term of any employee representative of the retirement board shall be filled by appointment by the other members of the retirement board. The person appointed shall be a member of the same classification as was the employee representative to whose position he is appointed. The employee representative thus appointed shall serve until the vacancy is filled by the election of a member of the same classification.

(2) Any vacancy occurring by reason of resignation, death, or disability of a member of the retirement board who was appointed by the governor shall be filled by appointment by the governor.

(3) Any employee representative or appointed member of the retirement board who fails to attend the scheduled meetings of the retirement board for three consecutive months or longer, without valid excuse, shall be considered as having resigned from board membership and the retirement board shall declare his office vacated as of the adoption of a proper resolution, and proceed to fill the vacancy as herein provided.“

Renumber the remaining sections accordingly.

On motion of Senator Rasmussen, the following amendment to the amendment was adopted:

Amend the Rasmussen amendment to page 23, adding new sections 28 and 29 as follows:

On line 6 of subsection (2), after “classification” strike “D” and insert “C”.

Debate ensued.

On motion of Senator Mardesich, the rules were suspended, Engrossed Substitute Senate Bill No. 2765 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Will Senator Odegaard yield to a question? Senator Odegaard, I have reviewed your page 18 on which you say and I will just read from it briefly, 'An employer of a Group I member shall contribute an amount equal to six percent of such member's monthly salary. For certificated employees of local school districts the state shall contribute an amount equal to six percent of such member's salary which shall be paid to the superintendent of public instruction for distribution to the local school districts.' Now, Senator, do you think that that answers the problem?"

Senator Odegaard: "Senator Rasmussen, from my questions on this, from work with the staff and members of the Select Committee, they assured me that it did.'

Senator Rasmussen: "Senator Odegaard, I would like to point out, I have in my hand here all the pension systems and the current pension system requests. This is from PERS, Teachers, LEFF, and so forth. For the teachers the request is one hundred and forty-five million dollars. The Governor's request is one hundred and one million dollars. So there is some forty-four million dollars difference in what the Governor is requesting in order to adequately fund the present Teachers. Now when the legislature makes the appropriation to the schools, to the school superintendent for distribution to the local school districts, this amount of pension money will also be included in, presumably, the pupil allocation. So the total in millions of dollars will be X number of millions of dollars. We have not adequately funded our schools at the present time. How are we going to put this extra money in and be allocated to the local districts and be sure that it is going to come back into the pension fund when the Governor at the present time is not requesting enough? That has been the problem all along, that we have not put the millions of dollars needed to keep our systems sound except for the PERS."

Senator Odegaard: "Senator Rasmussen, you brought up or mentioned that it would be given, I believe that is what you meant, the per pupil guarantee and this is a concern of mine too that this might not be done, because if it did it might mean that districts with the higher valuation, because of the way the guarantee works, would receive lesser funds to pay the employer contribution for the certificated employees. And what it means, it would be given to the SPI for distribution to the local school districts but outside the guarantee level, so that all the costs would be paid but not as pertaining to the per pupil support. So I do not see particularly any reason or any problems and the classified employees costs are picked up by the local school districts now. Maybe that is the difference in your figures, and they would continue to be picked up by the local school districts."
