MESSAGE FROM THE SECRETARY OF STATE

STATE OF WASHINGTON
OFFICE OF THE SECRETARY OF STATE

TO THE HONORABLE, JOHN A. CHERBERG,
PRESIDENT OF THE SENATE,
THE LEGISLATURE OF THE STATE OF WASHINGTON
OLYMPIA, WASHINGTON
DEAR MR. PRESIDENT:

I, Ralph Munro, Secretary of the State of the State of Washington and custodian of the official seal of the State, do hereby certify that the attached copy of the proclamation of the Governor calling an extraordinary session of the Legislature of the State of Washington to convene on the 9th day of November, 1981, is a true, correct and complete copy of the original of said proclamation now on file in this office.

IN TESTIMONY WHEREOF, I have set my hand and affixed the seal of the State of Washington. Done at the Capitol at Olympia on the 6th day of November, 1981.

RALPH MUNRO
Secretary of State

(Seal of the State of Washington)
The state of Washington faces a financial crisis unprecedented in scope and depth. The short-term and long-term financial health of the state government, as well as those essential services that depend on a fiscally sound government, have been jeopardized by a national recession that acutely affects the state of Washington, by high inflation, by reductions in federal monies going to the states, and by a dramatic reduction in state revenues, which will not now meet even the severely reduced biennial budget enacted by the 1981 Regular Session. This financial crisis must be met by positive and timely action by the Washington State Legislature.

NOW, THEREFORE, I, John Spellman, Governor of the state of Washington, by virtue of the authority vested in me by Article II, Section 12 (Amendment 68), and Article III, Section 7, of the State Constitution, do hereby convene the Washington State Legislature in special (extraordinary) session for a period not exceeding 30 days in the capitol at Olympia, at 9:00 a.m., November 9, 1981. The session is convened for the purpose of enacting measures necessary to effect feasible state expenditure reductions, to provide additional state and local revenues, and to preserve public safety.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the state of Washington to be affixed at Olympia this 6th day of November, A. D., nineteen hundred and eighty-one.

JOHN SPELLMAN
Governor.

(Seal of the State of Washington)

BY THE GOVERNOR
RALPH MUNRO
Secretary of State.

GOVERNOR'S MESSAGE

Governor Spellman: "Governor Cherberg, Mr. Speaker, members of the Legislature, ladies and gentlemen: We come together today to head off catastrophe. I've called you into Special Session to meet an unprecedented challenge.

"Six months ago, when your last session ended, I congratulated you for responsibly meeting the challenges that you faced then. We cut back the growth of state government by $850 million. Since that last time we met, the state government has absorbed a further $400 million cut in federal revenue. If we had not met today, and if we fail to meet the clear and present danger that confronts us today, the result would be certain across-the-board catastrophe. The law dictates that unless we act in this special session, the ten percent cuts will stand and the courts still may conclude that those cuts must be twenty percent in all areas except the common schools. But cuts of that depth could be catastrophic and chaotic. If we fail to meet the present challenge, there will be no choice but to turn violent prisoners free on the streets. If we fail to meet the challenge, there will be no choice but to abandon more mentally ill to wander the sidewalks helplessly—those streets and sidewalks grow more crowded every day with the unemployed, the hapless victims of national recession. If we fail, access to higher education will be severely restricted. If we fail, we shall fundamentally weaken the basic education of every child in our state and that means throwing away our future. If we fail, the safety match that makes the difference between despair and hope for the genuinely needy, the poor, the aged, the handicapped and the dependent children will be ripped to shreds. We must not let that happen. It would set the state back half a century. Worse, it would jeopardize the fundamental institutions that we, the people of the State of Washington, have so carefully built and nurtured.

"Be it resolved, that we shall not fail. To succeed we must adopt a balanced program that maintains vital services while paring the desirable services. Those vital services that cannot sustain further cuts must be protected from disintegration by additional taxation.

"Now, none of us like the idea of increasing a single tax, and none of our constituents want to pay an unnecessary tax, but after we have already made substantial cuts in programs, the alternative to taxation is to abandon the state's historical commitment to those critical services that maintain domestic tranquility, that protect our quality of life and secure the opportunity of every Washingtonian to pursue happiness. We can abandon our heritage and put our state's future at great risk or we can increase taxes to the extent necessary to maintain those most vital services during a period of temporary recession.

"For me the choice is clear—I choose a fair tax increase—not catastrophe. I choose compassion, not chaos; I choose prisons and other institutions adequate to meet our needs. I choose quality education for our children. I choose economic development to fight recession. I choose to keep the safety nets in place. I choose to care. Throughout our history the people of the State of Washington have chose to care. In good times and in bad times, Washingtonians have courageously protected and assisted the most fragile members of our society. We have always helped the helpless.
"It will take courage to keep that faith, to do what must be done. The easy course is to point fingers of blame for our present down in inaction. The self-satisfying course is to let others cast the tough votes and sometimes unpopular votes, but that is not the history of the State of Washington or of its legislature.

"In our first meeting in these chambers, last January, we were faced with a mandate to cut the size of the growth of state government and we are succeeding. We face another mandate today. It will be decided within the next few weeks. The Legislature of this state now holds the social fabric of our society in its hands and it must decide whether to protect it or to allow it to unravel. When I new era of candor and cooperation between the executive and the legislative branches. I said that working together we can meet any challenge, and I am today even more committed to that pledge of cooperation. Let both branches of government, let both Houses of the Legislature, both sides of the aisle rededicate ourselves to working together with mutual respect, for the times and the people we serve demand no less. We must succeed in meeting this mandate of conscience and with God's help we shall."

The President of the Senate requested the special committee to escort Governor Spellman from the House to his office.

The President of the Senate requested the special committees to escort the Supreme Court Justices and State Elected Officials from the House Chamber.

On motion of Mr. Nelson (G.), the Joint Session was dissolved.

The President of the Senate returned the gavel to the Speaker.

The Speaker requested the Sergeants at Arms of the Senate and the House to escort President Cherberg, President Pro Tem Guess and Vice President Pro Tem Clarke and the Senators to the Senate Chamber.

COMMITTEE APPOINTMENT

The President announced the resignation of Senator McCaslin as Chairman and Member of the Committee on Agriculture.

MOTION
On motion of Senator Clarke, the appointment was confirmed.

SIGNED BY THE PRESIDENT
The President signed:
SENATE CONCURRENT RESOLUTION NO. 123.

MESSAGE FROM THE HOUSE
November 9, 1981.
Mr. President: The House has adopted: HOUSE CONCURRENT RESOLUTION NO. 31, and the same is herewith transmitted.

VITO T. CHIECHI, Chief Clerk.

FIRST READING OF HOUSE RESOLUTION
HOUSE CONCURRENT RESOLUTION NO. 31, by Senator Nelson (G.):
Carrying over bills from first extraordinary session.

MOTION
Senator Clarke moved the rules be suspended and House Concurrent Resolution No. 31 be advanced to second reading and read the second time in full.

POINT OF INQUIRY
Senator Bottiger: "Senator Clarke, I was brought a copy of this resolution earlier today and it was explained to me at that time that this is simply to avoid the expense of reprinting and reintroducing necessary bills, many of which were title onlys and items of that nature but I also received at least a suggestion, if not the assurance, that this isn't opening the session wide open, that we are not going to be talking about three-way and everything else. That these bills would go back to the house of origin where they would take their highest status which would be, in the case of three-way insurance, on third reading in the House. This is the resolution we have customarily passed to avoid that extra printing expense."

Senator Clarke: "Senator Bottiger, it is my impression that your statement is correct and that the matter of consideration would be something that would have to be acted upon separately. But the primary purpose is to permit the bills to be in such status that the committees, after this session, for instance, in anticipation of the January session, could continue to do such work as might be necessary."

POINT OF INQUIRY
Senator Goltz: "Senator Clarke, I think as a follow-up to Senator Bottiger's question, the way this resolution is drafted, it indicates that they will be reintroduced in the house wherein they originated. That would imply that we are reintroducing them on first reading and that they would not have the status that Senator Bottiger assumed that they would be retained at the highest point in the house of origin. If that is correct, I think we ought to really be sure either by your statement in the record or by revising or amending the concurrent resolution to make that clear."

Senator Clarke: "Senator Goltz, I believe that, that is taken care of in the concluding phrase ... that they are reintroduced in the house where they originated and are hereby accorded the same legislative status which they held upon the
adjournment Sine Die of the first extraordinary session of the forty-seventh Washington legislature . . . so I believe that takes care of the question you posed."

The motion by Senator Clarke carried. House Concurrent Resolution No. 31 was read the second time in full.

On motion of Senator Clarke, the rules were suspended, House Concurrent Resolution No. 31 was advanced to third reading, the second reading considered the third, and the resolution was adopted.

NOTICES GIVEN OF PROPOSED RULE CHANGES

Senator Vognild notified the Senate that he had placed a copy of Senate Resolution 1981—152 on the desk of each member. This is an amendment to the Senate rules and advised the Senate at the proper time will move for consideration.

Senator Bottiger notified the Senate that he had placed a copy of Senate Resolution 1981—151 on the desk of each member. This is an amendment to the Senate rules and advised the Senate at the proper time will move for consideration.

MOTION

At 10:53 a.m., on motion of Senator Clarke, the Senate adjourned until 1:00 p.m., Wednesday, November 11, 1981.

JOHN A. CHERBERG, President of the Senate.

REPORT OF STANDING COMMITTEE

SENATE BILL NO. 4374, relating to the budget (reported by Committee on Ways and Means):

MAJORITY recommendation: That Substitute Senate Bill No. 4374 be substituted therefor, and the substitute bill do pass.

Signed by: Senators Scott, Chairman; Bluechel, Deccio, Haley, Hayner, Jones, Lee, Pullen, Zimmerman.

MOTION

Senator Clarke moved the rules be suspended and Senate Bill No. 4374 be placed on the second reading calendar and read the second time in full.
PARLIAMENTARY INQUIRY

Senator Fleming: "Just for my information, I am not too sure, I don't recall. Was this bill substituted when it passed out of the Ways and Means Committee or was it sent out as an amended bill? I didn't recall that move."

REPLY BY THE PRESIDENT

President Cherberg: "If the bill gets to second reading, it will be substituted at that time, Senator."

There being no objection, the motion by Senator Clarke carried. Senate Bill No. 4374 was placed on second reading.

POINT OF INQUIRY

Senator McDermott: "Mr. President, I would like to ask Senator Scott a question about this substitute bill because the one that passed out of committee is not the one which is now on our desks. Mr. President, now that Senator Scott is on the floor — Senator Scott, we are looking at a sixth draft of the bill. The bill that we dealt with in committee was the fourth draft, and on page 21 there should be some language here relating to the Insurance Commissioner, limitations on consumer protection. The bill that passed out of committee limited his ability to deal with consumer protection items, and I see that language has been deleted but I remember distinctly that on a vote in the committee it was retained. So I wonder where that language is."

Senator Scott: "You and I remember similarly, Senator. The staff remembered differently, and so I am going to put up an amendment that should be on your desk any minute to confirm the committee's decision. The body would have to confirm it in any event. I recognize that was a communications gap and appreciate your bringing it forward. I think that is a good form way that we can address the problem."

MOTIONS

On motion of Senator Clarke, there being no objection, the Senate advanced to the sixth order of business.

On motion of Senator Clarke, Rule 51 was suspended in its entirety to consider Senate Bill No. 4374 and Substitute Senate Bill No. 4374.

REMARKS BY SENATOR HAYNER

Senator Hayner: "Mr. President and ladies and gentlemen of the Senate, we find ourselves on the cutting edge of a crisis. The crisis is clear. The state simply does not have the money necessary to pay its bills, and we are going to have to face reality. I don't believe there are very many people in this body nor in this state who believe that a 10.1 percent cut across the board is reality. The Republicans have worked very hard to come up with a bill that was realistic and still took care of the problems of the people of this state. You have not been a part of that by your own choice. We asked that many of you come to a meeting at which the staff and the Ways and Means Committee would explain all of the changes that were being made and the justifications therefore and you declined. We then asked leadership if they would meet with us to look at what the problems were and they declined. We then asked you to make some amendments, constructive amendments, in the Ways and Means Committee, to the bill. And you had only four amendments. We now are suggesting that this bill be considered as any other bill so that you may have the opportunity to join the process and that you may be recorded on every vote, and that you may take the responsibility as well."
"Today we want to stop the rhetoric and we want to go forward to serve the people of this state. We have a proposal before us, and when you vote to increase this budget, it is your responsibility also to vote for the taxes to make that possible. When you vote for the revisions, I think you have to look very carefully at what you are doing to the services to the people of this state, but you also have to be very aware of what we are doing to the taxpayers, the plight of the overburdened taxpayer, especially in this day and age when the economy is slumping and we know that these people are having a very difficult time making ends meet."

POINT OF ORDER

Senator Rasmussen: "Mr. President, the Senator has indicated that we are going to increase the budget. We are going to vote on various things, and I was just wondering what amendment that she would happen to be talking about. I don't know that we have any of them yet presented to the body."

RULING BY THE PRESIDENT

President Cherberg: "Senator, your point is well taken in that respect. The President felt that Senator Hayner perhaps was giving a . . . ."

Senator Hayner: "Mr. President, I am just urging the Democrats to join us in this process and to make a good investment in the future of this state."

President Cherberg: "That is what the President thought, Senator."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, I feel the necessity of a reply to Senator Hayner. It is true that there were some, within the last couple of days, some invitations to attend some meetings. It is also true that those were originally proposed to be held behind closed doors and we had some objection to that and recommended that they be held in the open. You finally agreed to that just, I believe, last Friday, to hold the meetings in the open where you then presented us with draft four for our staff to prepare amendments to. Now let's be practical.

"The problem that we have and we may have reached a point where we are starting to talk about this and starting to attempt to find the middle ground. It is too bad it didn't occur back around September 1 and that we have waited until now. We have had several suggestions that were offered as a solution to the problem we are in. One is that you start this bill in the House along with a tax revenue bill to go with it. Now there is a reason for that, a very clear reason, a very practical political reason. We are making a mistake here. We are going to send a bill over to the House which will be rewritten and sent back to us with a tax package which we then can take or leave.

"Now the people on this side of the aisle have quite a bit of experience down here and we understand the ping pong, and we are suggesting and I am suggesting again that it isn't going to work this way, because when you add these amendments you have no assurance whatsoever, and everyone here knows it, that that amendment will be in the final version. However, if the bill came from the House first and we wrote the last series of amendments and the House passed the tax package, then if you raised the level of spending or cut the amount of cuts, you would have with it the responsibility to raise the additional taxes. But you have decided to split the issue and you have created a box for yourselves and us that there is no out. You are having difficulty because some of the amendments that might produce a tax vote from me, I don't have any assurance they will be in there. And that is the predicament that we see you are in.

"Now we do welcome the fact that you are not going to use the committee of the whole. That was one suggestion that we made that is being taken. We will run
the amendments out here today. It is too bad and I wish again that we had had the
time and had the first draft or the fourth draft in time to prepare the amendments.
We have had staff working sixteen, seventeen hours a day since last Tuesday trying
to get our amendments in the right page, the right line, and making sure that the
figures match when they cross reference to page 23 from page 51.
"Now we are starting and it is good and we are going to sit here this evening —
I don't understand why we are doing it on Sunday unless everybody expects the
press to go home — but we will do it and we will cooperate and we will have con­
structive suggestions, hopefully not increasing the amount to a substantial degree of
the revenue to be raised."

SECOND READING

SENATE BILL NO. 4374, by Senator Scott:
Relating to the budget.

MOTION

Senator Scott moved that Substitute Senate Bill No. 4374 be substituted for
Senate Bill No. 4374 and the substitute bill be placed on second reading and read
the second time in full.

REMARKS BY SENATOR McDERMOTT

Senator McDermott: "Mr. President, I only want to state publicly that the pro­
cess we are doing here violates previous Senate procedure. When a bill passes out of
committee and votes have been taken, it should contain everything that was in the
committee. And this bill was changed, whether by accident or by design is unclear,
but we are accepting your statement that we will put that at some later point and I
hope that it is clear to everybody that this bill was changed between the time we
worked on it on Friday and the time it got to the floor on Sunday."

REMARKS BY SENATOR SCOTT

Senator Scott: "Senator McDermott, I made it clear that it was changed by
accident and not by design. I can't state more than that. Also that this body will
have the opportunity to clear up the technical amendment that was overlooked."
The motion by Senator Scott carried.

Senator Gaspard moved adoption of the following amendment by Senators
Moore, Williams and Wojahn:

On page 4, following line 27, add a new section to read as follows:
"NEW SECTION. Sec. 1. Unless specifically approved by two-thirds of the
membership of the Legislative Budget Committee, no funds appropriated herein
shall be expended for any remodeling, refurbishing, air conditioning, expansion, or
relocation of any office facility, office building, office space, department or division or
department director's headquarters unless the obligation for the expenditure was
fully and legally incurred before the effective date of this act."

Renumber the remaining sections consecutively.

POINT OF INQUIRY

Senator Pullen: "Would this amendment prevent remodeling, for example, for
safety reasons? In other words, suppose the State Fire Marshal were to require some
remodeling, say to provide for a fire escape in certain buildings. Would this prohibit
remodeling for those particular reasons?"
Senator Gaspard: "I don't think it would at all, Senator. There is a safeguard here that it has to go before the Legislative Budget Committee if any expenditure is in doubt, whether it is legally or obligated to do so. So if there is any question we still have the Legislative Budget Committee to make that approval."

The motion by Senator Gaspard carried and the amendment was adopted.

Senator Gaspard moved adoption of the following amendment by Senators Gaspard, Bauer, Moore, Wojahn and Vognild:

On page 4, following line 27, insert a new section to read as follows:

"NEW SECTION. Sec. 1. Notwithstanding any other provision of law, no funds appropriated herein shall be expended for compensation or employee benefits for the position of deputy director unless such position existed in law prior to January 1, 1981."

Renumber the remaining sections consecutively.

POINT OF INQUIRY

Senator Scott: "Senator, does this affect any 'deputy director or are you aiming at a single department, and if it does, how do we accommodate a situation like DSHS has been through for the last six months in which over 200 administrators have gone out the door? It obviously affects different departments differently, and what if this were to be adopted, would it keep a given department from not filling a deputy director's position but simply putting the same duties under a person with a different title?"

Senator Gaspard: "To answer that, Senator Scott, I would say that this amendment applies to all government agencies in the state, and to say how it affects each department, I should say that it affects them equally. But as to a director trying to get out of the policy that we are setting here, I think that they understand that we are setting legislative intent and they have the management skills and capability to handle the situation, and if they can't, then I don't know why they are the director of their department."

Debate ensued.

POINT OF INQUIRY

Senator Hemstad: "Senator Fleming, I believe at the last session of the Legislature we created the new Department of Corrections. On the assumption there is a deputy director in that department, will it not follow that that person will have to be terminated?"

Senator Fleming: "It says if it was not — repeat that again?"

Senator Hemstad: "Does it not follow under the amendment that we are now considering that any deputy director in the Department of Corrections will have to be terminated?"

Senator Fleming: "Not necessarily so, because, one, you did have a complete department before and I am sure it is very conceivable you probably had more deputy directors in that entire department over there than you will have in the new Corrections versus the other, so that does not necessarily say that he would be limited as to what he could do. Secondly, this is the middle of November and we are proceeding on down the line, and I would suggest to you, Senator, if something is that detrimental to what that individual is putting together over there, that that could not be brought to our attention two months later, then I would suggest that he is doing something wrong anyway."

Further debate ensued.
President Cherberg: "The President wishes to remind the members of Rule 28 which will be enforced."

Senator Shinpoch demanded a roll call and the demand was sustained.

On motion of Senator Pullen, the following amendment to the amendment by Senators Gaspard, Bauer, Moore, Wojahn and Vognild was adopted:

On line 2, after "law," and before "no" insert: "except for the Department of Corrections."

Senator Craswell moved adoption of the following amendment to the amendment by Senators Gaspard, Bauer, Moore, Wojahn and Vognild:

Following "1981." strike the period and insert "except in the case of the departments of corrections and social and health services in which the date shall be July 1, 1981."

Debate ensued.

Senator Shinpoch demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Craswell to the amendment by Senators Gaspard, Bauer, Moore, Wojahn and Vognild.

ROLL CALL

The Secretary called the roll and the amendment to the amendment was not adopted by the following vote: Yeas, 9; nays, 40.

The President declared the question before the Senate to be the roll call, as requested by Senator Shinpoch and sustained earlier today, on the amendment by Senators Gaspard, Bauer, Moore, Wojahn and Vognild as amended by Senator Pullen.

ROLL CALL

The Secretary called the roll and the amendment, as amended, was adopted by the following vote: Yeas, 37; nays, 12.

Voting nay: Senators Benitz, Bluechel, Clarke, Fuller, Gould, Haley, Hemstad, Jones, McCaslin, Metcalf, Scott, Sellar—12.

Senator Hemstad moved adoption of the following amendment by Senators Hemstad, Gould and Pullen:

On page 10, beginning on line 20, strike all material down to and including "date: " on line 25.
POINT OF INQUIRY

Senator Bottiger: "Senator Hemstad, when I heard the action of the Ways and Means Committee in setting the level at twenty-five thousand, I thought it was too low too. I was worrying about recruitment and things within areas where we are not now actually competing with the private sector. And I had hoped that they had set it at thirty or thirty-five thousand which is really in the policy-making decision and that is not the competition that I was concerned about. My question is, would you consider an amendment instead of striking this, instead going to a higher figure as a compromise position?"

Senator Hemstad: "I myself would not support that. I think the same issue applies across the board. Persons with skills have options and will have incentives to leave state employment to go elsewhere, and for those kinds of reasons as well as simply the broad issue of treating everyone similarly, that would not be desirable in my opinion."

PARLIAMENTARY INQUIRY

Senator Bottiger: "Mr. President, we have a striking amendment to the language of the bill and I was wondering if the proper procedure for me to make an oral amendment, raising twenty-five thousand where it appears in two places to thirty-five thousand, how I would do this in the process we are in where we are now considering a striking amendment."

REPLY BY THE PRESIDENT

President Cherberg: "Such an amendment should have been presented prior to this but the President doesn't believe it would necessarily preclude your offering such an amendment."

Senator Bottiger: "At this point, Mr. President?"

President Cherberg: "Yes."

There being no objection, the amendment by Senators Hemstad and Gould will be considered at a later time.

Senator Bottiger moved adoption of the following amendment:

On page 10, lines 21, 23 and 24, strike "$25,000" and insert "$35,000."

Debate ensued.

POINT OF INQUIRY

Senator Jones: "I wonder if Senator Bottiger or whoever dreams up this amendment for you could answer my question. What is the dollar difference between twenty-five thousand and thirty-five thousand in terms of total state dollars? If you want to respond, pick up the mike. It is not really very funny. We are talking about millions. You used to get very worried about millions. Can you respond? Do you understand the question first? I am sorry if I didn't make it crystal clear."

Senator McDermott: "I understood syntactically what you were up to. Friday in the committee we made a proposal to more equitably distribute the money that the Governor put in the budget. What happened was that we rejected the spreading through the lower employees . . . "

Senator Jones: "I asked you a question and I would like the answer, not paraphrasing."

Senator McDermott: "The amount saved under the thirty-five thousand dollar proposal, as nearly as we could tell from the LEAP run, is approximately two to three million dollars. The Republican majority reduced it to twenty-five thousand without knowing a single thing about what they were doing. They had no figures, no
run. So you really ought to ask somebody on your side how it ever got to twenty-five. If you can give me the figure twenty-five, I can subtract it from three."

Senator Jones: "Senator, knowing that it was going lower didn't bother me so much, but when you are spending more it tends to bother me, and it was my understanding that those figures were not all that firm coming off the LEAP run. I really don't think we know what this amounts to."

Further debate ensued.

REMARKS BY SENATOR SCOTT

Senator Scott: "By way of information, Mr. President, the saving in the amendment as proposed at the twenty-five thousand dollars is four and one-half million, and since that amendment was proposed subsequent to the thirty-five thousand dollar limitation, there was no idea at that time what the effect of the amendment was either, Senator McDermott, but the effect is four and one-half million."

Further debate ensued.

The motion by Senator Bottiger carried and the amendment was adopted on a rising vote.

The Senate resumed consideration of the following amendment by Senators Hemstad, Gould and Pullen:

On page 10, beginning on line 20, strike all material down to and including "date:" on line 25.

The motion by Senator Hemstad failed and the amendment was not adopted on a rising vote.

Senator Hemstad moved adoption of the following amendment by Senators Hemstad and Gould:

On page 9, beginning on line 14, strike all of section 13 and insert the following:

"Sec. 13. Section 14, chapter 340, Laws of 1981 (uncodified) is amended to read as follows:

POINT OF ORDER

Senator Goltz: "It is my understanding that the motion that passed, the amended language in lines 20 through 25, that is, raising the amount from twenty-five to thirty-five would perhaps be struck. We have a second strike on that language with the motion now before us. Is that correct?"

RULING BY THE PRESIDENT

President Cherberg: "The amendment proposed by Senator Bottiger was adopted, was a perfecting amendment. The amendment proposed by Senator Hemstad is in order in the sense that an amendment to perfect is permitted first and then the body can decide for itself what they want to do."

Senator Goltz moved adoption of the following amendment to the amendment by Senators Hemstad and Gould:

On page 2, line 18 after the colon, insert:

"PROVIDED, That no raise effective February 1, 1983, shall increase any annual salary above $35,000 in which case the recipient shall receive only that portion of the raise which would increase the salary to no more than $35,000; PROVIDED FURTHER, That no employee making $35,000 or more per year on February 1, 1983, shall be eligible for the raise effective on that date:"

POINT OF ORDER

Senator Hayner: "Is that motion in order since we voted on an exact motion at the same time?"

RULING BY THE PRESIDENT

President Cherberg: "Yes, Senator, it is an amendment to the amendment. The oral amendment proposed by Senator Goltz is in order."

POINT OF ORDER

Senator Newhouse: "I would suggest that he is proposing an amendment to an amendment to an amendment."

RULING BY THE PRESIDENT

President Cherberg: "The oral amendment is an amendment to the Hemstad amendment."

Senator Goltz moved adoption of the following amendment to the amendment by Senators Hemstad and Gould:

On page 2 of the amendment, insert the amendment by Senator Bottiger changing from $25,000 to $35,000 which will be adding the material following "board)." and before the proviso.

PARLIAMENTARY INQUIRY

Senator Clarke: "A point of parliamentary inquiry. I don't know if this is the proper time to raise it, but I suggest that Senator Hemstad proposed a striking
amendment and that was delayed until Senator Bottiger's perfecting amendment could then be considered. The striking amendment was then put and defeated and, in effect, we have now a perfecting amendment which relates to the same portion that the same people proposed as a striking amendment, and therefore the perfecting amendment at this time is out of order."

**REMARKS BY SENATOR SHINPOCH**

Senator Shinpoch: "May I speak to Senator Clarke's statement? I believe that we held over not to strike the amendment but the amending amendment. Yes, we did, and I expect if you research the records you will find that what we held over was this amendment while it was perfected. It was added to, as I recall."

**REPLY BY THE PRESIDENT**

President Cherberg: "Senator Goltz's amendment is an amendment to the amendment proposed by Senator Hemstad which means it is an amendment to the amendment."

Debate ensued.

On motion of Senator Bottiger, the amendment by Senators Hemstad and Gould and the amendment to the amendment by Senator Goltz will be considered after five additional amendments are considered.

On motion of Senator Hemstad, the following amendment was adopted on a rising vote with the President voting aye:

- On page 14, line 18 strike "4,679,000" and insert "4,930,000"
- On motion of Senator Zimmerman, the following amendment was adopted:
  - On page 14, line 20, strike "4,716,000" and insert "4,967,000"
- On motion of Senator Zimmerman, the following amendments were considered and adopted simultaneously:
  - On page 14, line 34, strike "4,927,000" and insert "5,265,000"
  - On page 15, line 1, strike "7,500,000" and insert "7,838,000"
  - On page 15, line 23 after "positions" strike all material down to and including "legislature." on line 28 and insert:
    "(4) The total of all billings submitted to state agencies shall reflect a 10.1% reduction from the original budget preparation estimates submitted to the Ways and Means Committee of the Senate and House of Representatives in the 1981 regular session of the legislature. Such reduction shall be offset by an amount not to exceed $338,000 which reflects the impact of salary and insurance costs not provided to the Auditing Services Revolving Fund in the original budget."

Senator Bottiger moved adoption of the following amendment by Senators Bottiger and Bauer:

- On page 16, line 19, strike "3,866,000" and insert "3,209,000" and on line 23, after "following" strike "condition or limitation:" and insert "((condition or limitation:)) conditions or limitations: no funds shall be expended for purposes of chapter 335, Laws of 1981; nor the purchase or lease of data processing;

Debate ensued.

**POINT OF INQUIRY**

Senator Bottiger: "Would Senator Scott tell me when he signed the contract for the computer?"

Senator Scott: "I can't answer that, Senator, but I would gather it is for the training of individuals to operate the computer. The computer is in storage. It is prior to, well prior to today's date and prior to last week's date when this budget was put together."
Senator Bottiger: "Was it prior to, say, September 1 when we knew we were in financial problems?"

Senator Scott: "Senator, I get where you are going but I think that we can hardly expect every department of state government to go around and anticipate what we might like to take out of them in a budget reduction process. I would also point out that the Attorney General — first, that we made every one of the state officials toe the line on 10.1 percent. That includes the courts, you will see. They are down considerably. Mr. Eikenberry is the only one that has gone more than the 10.1 percent. I can't give you a more specific answer to the question because there is none, Senator."

Senator Bottiger: "Perhaps, Senator, you could ask one of your staff to find out the date. I am curious as to whether it was before the four percent or the ten percent."

Senator Scott: "I will be happy to."

POINT OF INQUIRY

Senator Talmadge: "Senator, is it your contention that the Attorney General's office has not implemented the process of engaging in the prosecution of criminals, has not implemented . . . "

Senator Scott: "I don't even know how you can reach the question, Senator. What I said was that Senate Bill 3640, which is the criminal prosecution unit that was the subject of considerable controversy out here on the floor, was not funded. It has nothing to do with the activities of the rest of the AG's office."

Senator Talmadge: "That really doesn't, I guess it really doesn't get to my question. My question was . . . "

Senator Scott: "The answer is no."

Senator Talmadge: "Mr. President and members of the Senate, I know for a fact that Mr. Eikenberry has in fact hired an investigator very recently and has hired an attorney to begin the process of working in that division. It kind of astounds me to hear Senator Scott say that this Senate bill was not implemented. It has been implemented in fact."

Senator Scott: "If he has in fact done that, my only point is that it cannot be from money that would be directly applied for the creation of a criminal prosecution unit because the bill passed but it was not funded. If it is being done, it is from elsewhere in his budget."

The motion by Senator Bottiger carried and the amendment was adopted.

Senator Shinpoch moved adoption of the following amendment by Senators Shinpoch and Lysen:

On page 17, following line 22, add a new subsection to read as follows: "(6) As a portion of the expenditure reductions contained herein, the office of financial management shall direct all agencies, departments and divisions of the executive branch and all independent advisory and regulatory boards, commissions and agencies to reduce by thirty percent their expenditures for travel and lodging: PROVIDED, That the reductions shall be ordered only with respect to moneys unexpended as of the effective date of this act and: PROVIDED FURTHER, That this reduction shall not apply to any institution in which travel or lodging expenditures are otherwise reduced according to the provision of this act."

Debate ensued.

POINT OF INQUIRY

Senator Wilson: "Senator Shinpoch, does this amendment apply to institutions of higher learning? I see agencies, departments and so on, and the executive branch, independent advisory and regulatory boards and commissions and so on. It would
appear to me, however, that independent institutions of higher learning are not included within the scope of your amendment. Could you enlighten us on that?"

Senator Shinpoch: "You are correct, Senator Wilson. The institutions of higher education are not intended, at least, to be included within this. The last proviso is to assure that — there was an amendment that was being talked about on higher education. It was to insure that if that did occur, that this could not be interpreted to be a double whammy."

Further debate ensued.

POINT OF INQUIRY

Senator Scott: "If the expenditures at Washington State are 78 percent federally paid, then how do you get a reduction from that budget equal to what you are asking of the other agencies? You can't get 30 and 78 and bring them down by a like amount."

Senator Shinpoch: "Senator Scott, the amendment doesn't say that you are going to cut all expenditures by 30 percent. It says it applies to the general fund of the state. We have no control over the federal. We don't appropriate that."

Senator Scott: "My point is, Senator, that if 78 percent of their budget is excluded, then there is no way we can take as much out of Washington State University's hide as we do out of the Court of Appeals."

PARLIAMENTARY INQUIRY

Senator Bauer: "I have an amendment coming up later that deals only with higher ed, and it calls for a 30 percent cut. Would the President advise me, should I discuss that question here now or wait for my amendment?"

REPLY BY THE PRESIDENT

President Cherberg: "The President believes, under the circumstances, that your amendment should wait until its turn."

Further debate ensued.

Senator Shinpoch moved adoption of the following amendment to the amendment by Senators Shinpoch and Lysen:

On line 7, following "expenditures" insert "from state general fund sources"

POINT OF INQUIRY

Senator Benitz: "Senator Shinpoch, if I remember correctly, some of those commission moneys and others were taken by this Legislature and placed in the general fund on a kind of a borrowed schedule. I think you must be aware of that. I can't quote offhand, but I wish you would elaborate on that so we are sure we are not running into trouble here."

Senator Shinpoch: "To answer your question, not while I chaired the Appropriations Committee we didn't do that. Now what you people in your innovative financing last year may have done, I can't speak to that. It certainly never happened while I was chairing the Appropriations Committee."

The motion by Senator Shinpoch carried and the amendment to the amendment was adopted.

The President declared the question before the Senate to be the amendment by Senators Shinpoch and Lysen as amended by Senator Shinpoch.

Senator Bluechel demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senators Shinpoch and Lysen as amended by Senator Shinpoch.

The Secretary called the roll and the amendment, as amended, was not adopted by the following vote: Yeas, 23; nays, 26.

Senator Scott moved adoption of the following amendment:

Debate ensued.

The motion by Senator Scott failed and the amendment was not adopted.

Senator Wilson moved adoption of the following amendment by Senators Wilson, Bauer, Hughes, Wojahn, Talmadge and Vognild:
On page 27, line 32, after "act." strike all the language down to and including "implementation." and insert "((Within the specific limitations in this act, the department of social and health services may modify allotments after the initial three months of the biennium with the approval of the office of financial management in consultation with the committees on ways and means of the senate and house of representatives. PROVIDED, That such allotment modifications may include transfers within programs only in sections 48, 49, 50, and 51 of this act to the extent that the director of financial management, after a ten day prior notification to the committees on ways and means of the senate and house of representatives, shall attest to the critical nature of the modification.))"

Debate ensued.

Senator Wilson demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senators Wilson, Bauer, Hughes, Wojahn, Talmadge and Vognild:

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 23; nays, 26.

Voting nay: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee,
SEVENTH DAY, NOVEMBER 15, 1981

McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, Talley, von Reichbauer, Zimmerman—26.

MOTION

At 9:05 p.m., Senator Vognild moved the Senate adjourn until 9:00 a.m., Monday, November 16, 1981.

Senator Jones demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the motion by Senator Vognild that the Senate adjourn until 9:00 a.m., Monday, November 16, 1981.

ROLL CALL

The Secretary called the roll and the motion failed the following vote: Yeas, 24; nays, 25.

Voting nay: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer, Zimmerman—25.

PERSONAL PRIVILEGE

Senator Vognild: "We went through this type of process last year. It landed several staff people, I am told, and at least one and I understand more Senators in the hospital. Because of that, I had asked for a rule change. It was not considered. You have boxed me in. If I leave this floor right now, as every instinct in me tells me to do, then I leave the 38th District without representation and I don't think that is quite right so I won't. If I stay on this floor, then I jeopardize my own health and help some of the rest of you jeopardize your health and certainly your staff's health. So now what do I do? Well, I guess what I do is I stay here. I help you to develop what probably will turn out to be another piece of poor legislation, the same as we did last time at three and four o'clock in the morning. I was just told a little while ago that we are not going to work all night. If we are not going to work all night, we are not going to finish this document, and if we are not going to finish this document, then what are we doing here on the floor Sunday night at nine o'clock? I don't understand. I personally do not like it and I think it is a big mistake."

Senator Hurley moved adoption of the following amendment by Senators Hurley and Hughes:

On page 29, following line 6, insert:

"(5) The department of social and health services shall provide no funding for medical care services where the purpose of such services is to obtain an abortion, induced miscarriage, or induced premature birth, except where such procedure is necessary for the preservation of the life of the woman seeking such treatment, or except an induced premature birth intended to produce a live, viable child and such procedure is necessary for the health of the mother or her unborn child."

Senator Haley moved the amendment by Senators Hurley and Hughes be laid upon the table.

Debate ensued.

**SECOND READING**

SUBSTITUTE SENATE BILL NO. 4374, by Committee on Ways and Means (originally sponsored by Senator Scott):

1981–83 appropriations modified.
The Senate resumed consideration of Substitute Senate Bill No. 4374, as amended. On November 15, 1981, the Senate commenced consideration of Senate Bill No. 4374.

Senator Metcalf moved the following amendments be considered and adopted simultaneously:

On page 30, line 25 after the semi-colon strike "and" and insert "((and))".
On page 30, line 27 after "center" strike the period and insert "; and
(ix) Tobacco products shall not be provided to inmates who have not earned such products."

PARLIAMENTARY INQUIRY

Senator McDermott: "Mr. President, we dealt last night with a large amendment on corrections in which we dealt with the question of tobacco products, that they not be given free to prisoners. Now we are dealing with only a part of that larger amendment last night, and I would like your parliamentary ruling on whether or not that is an appropriate way to deal with these issues."

REPLY BY THE PRESIDENT

President Cherberg: "Senator McDermott, in replying to your question, Reed's Rule 143, motion to strike on page 87 covers the situation. The President believes that the two amendments are in order."

Debate ensued.

POINT OF INQUIRY

Senator Fleming: "Senator, just glancing at this and not putting it in the right perspective in the bill, it appears that you are indicating here that one could not even receive cigarettes from outside that would be given or brought to them by relatives or whatever it is, the way that is read, or tobacco companies or whatever, you know, and I am just wondering, is that your intent?"

Senator Metcalf: "Thank you very much, Senator Fleming. I am glad that you noticed that. I didn't think of that and in order to get it into the record, we are referring to tobacco products that have been paid for by the state. If they are sent as gifts or whatever, I would see that this would not restrict it."

POINT OF INQUIRY

Senator Talley: "Senator Metcalf, you and I have seen lots of people try to stop smoking and it seems to be very rough. Would you be amenable to an amendment that says they would be cut down ten percent a month?"

Senator Metcalf: "Would you repeat your question?"

Senator Talley: "Cut down the amount of tobacco they get by ten percent a month."

Senator Metcalf: "I am a nonsmoker and that sounds real good to me, but I would hesitate to impose that on the Department. I think this kind of thing I would like to leave in the hands of the Department."

POINT OF INQUIRY

Senator Wilson: "Setting aside the question of pride of authorship, would you not feel that — is it possible that the wording in Senator Hurley's amendment which follows is clearer and eliminates the necessity to try to rely on legislative intent?"

Senator Metcalf: "This was discussed. The discussion that I heard of this was that, and I told Senator Hurley that I would support her amendment, but I heard
some discussion as far as flexibility to the Department that as incentive the earning is better wording than the other one which specifically says that no general fund moneys can be expended. Now that was the discussion that I heard and that is why I had my amendments prepared in this way. I have no pride of authorship.

Senator Wilson: "I just suspect, Senator, that a combination of your wording and Senator Hurley's would probably do the best job in this area."

MOTIONS

On motion of Senator Fleming, further consideration of the amendments proposed by Senator Metcalf was ordered held following consideration of the next two amendments.

On motion of Senator Fleming, an amendment by Senator Hurley to page 30, line 27 was ordered held.

On page 39, line 24, strike "299,620,000" and insert "308,343,000" and on line 26, strike "310,115,000" and insert "319,330,000" and on line 28, strike "609,735,000" and insert "627,673,000"

Debate ensued.

POINT OF INQUIRY

Senator Gould: "This is just really a matter of clarification of the amendment, Senator. I don't understand the vendor increase burial part of the amendment. Would you explain that?"

Senator McDermott: "In going through the budget, one of the things that struck us was the fact that we gave increases to all vendors. We gave eleven plus percent increase to doctors; we gave increases to everybody including funeral directors at the same time that we were not only not going to give an increase in income maintenance, we were going to drop them down. It seems fair to me to not give a vendor rate increase to funeral directors at the time that you were not even giving anything to people who needed to eat to stay alive, so we reduced the vendor increase to funeral directors. We did not give them the second year increase."

Senator Gould: "If I may, Mr. President, follow on that, I understand that the budget document we have in front of us does decrease all vendor rates proportionally, and I wonder if the Senator would be willing to separate the issue so that when we deal with vendor rates we are dealing with them equitably in all areas?"

Senator McDermott: "If I could get your vote, I would do almost anything. I don't know a simple way. I will have to talk to staff, but if you would like I will set the amendment down and split it out for you."
MOTION

On motion of Senator McDermott, further consideration of the amendments by Senators McDermott and Fleming was ordered held following consideration of the next two amendments.

The Senate resumed consideration of the following amendments by Senator Metcalf moved for adoption earlier today:

On page 30, line 25 after the semi-colon strike "and" and insert "((and))".

On page 30, line 27 after "center" strike the period and insert "; and

(ix) Tobacco products shall not be provided to inmates who have not earned such products."

Debate ensued.

POINT OF INQUIRY

Senator Fleming: "I didn't quite understand you. Did you indicate that the new Secretary plans to put in operation a rule that says that he will no longer furnish free cigarettes or cigarettes that are earned to the worker inmates in our adult corrections?"

Senator Deccio: "It is my understanding, Senator Fleming, that he intends to adopt the policy where those who work or pay for tobacco will be able to get it on that basis but there will be no further free tobacco made available. That is my understanding."

Senator Fleming: "Okay, I guess the question I would have — okay."

POINT OF INQUIRY

Senator Goltz: "You used the word 'earned' in the amendment and to earn something could mean that they could receive them as a reward for having been on good behavior, for example, or they could earn them by working and receiving, as it were, small amounts of wages for their work and pay for them from that source. Does the word 'earn' here have more than the one meaning, to earn money?"

Senator Metcalf: "In answer to your question, Senator, the word does have more than the meaning of just specifically money. It could be privileges or incentive but it has to be definitely earned. No more free."

Further debate ensued.

POINT OF INQUIRY

Senator McDermott: "I have trouble understanding what you have really accomplished by this. Do you think you have saved money for the state, or precisely what it is. It says 'tobacco products shall not be provided to inmates who have not earned such products.' Does that mean the state can't sell tobacco to inmates who have money from other sources, or do they — how do you earn the products? I mean, do they pay you and tax the cigarettes? I am unclear as to what you are trying to do here. It was much clearer in Senator Hurley's amendment where we just said we are not going to buy cigarettes and hand them out. I could understand that, but the earning question confuses me."

Senator Metcalf: "Senator McDermott, I thought that Senator Bottiger went through it and explained it very well. They can buy cigarettes. The cigarettes will no longer — here is what it means. It means that cigarettes will no longer be distributed just totally free in the institutions. They will have to be earned, they will have to pay cash for them or they could, I suppose, be earned as incentives or reward for particular work that they do, but no longer provided free cigarettes. That is the bottom line."
Senator McDermott: "What this says is it shall not be provided to an inmate who has not earned, so that means if somebody just sits in their cell but has money, they have not earned them so they won't have any smokes. They have got to go out and work and earn money in order to have earned them. Unless you tell me it says other than this, I am going to vote against this amendment. I don't think the state — I mean, we need the cigarette money, lord knows. That is the best tax we have, but I don't think the state ought to be providing free, but this language says that if somebody has the money they can't buy them, and I think that is not what you intend and I think for that reason we ought to vote the amendment down."

**REMARKS BY SENATOR HEMSTAD**

Senator Hemstad: "In response to Senator McDermott, I think his reading of the wording is simply too literal. It is clear from the questions and answers on the floor here as to what the purpose and intent of the Metcalf amendment is, so when the term 'provided' is used, it would mean provided by the Department as part of their program. An inmate who has resources of his own surely could still be able to buy cigarettes. So this is in the context of the Department's program that they cannot be given away freely to the inmates. They have to be given to the inmates only in the context of having earned them as part of the program."

**POINT OF INQUIRY**

Senator Wojahn: "Senator Metcalf, I would like to suggest that perhaps this could be reworded to make it a little more clear by stating that, adding the word 'free' after 'provided' and strike the words 'who have not earned such products' so it would read: 'tobacco products shall not be provided free to inmates.'"

Senator Metcalf: "Senator, that is the way I had it written originally and submitted, if you remember, and then I submitted the corrected copy because there was objection to that. I personally think that this wording is satisfactory. I think it will do what we want and I just don't think it is worth as much time as we are taking on it."

The motion by Senator Metcalf carried and the amendments were adopted on a rising vote.

There being no objection, on motion of Senator Hurley, an amendment by Senator Hurley to page 30, line 27 was withdrawn.

There being no objection, on motion of Senator McDermott, the amendments by Senators McDermott, Charnley and Fleming to page 41, lines 31 and 33; page 42, line 1, on the desk of the Secretary of the Senate, were withdrawn.

Senator Ridder moved adoption of the following amendment by Senators Ridder, Fleming, Shinpoch, McDermott, Goltz, Talley, Bauer, Lysen, Moore, Williams, Charnley, Wojahn, Gaspard and Talmadge:

On page 41, line 31 strike "130,735,000" and insert: "135,235,000" and on page 42, line 1, strike "191,850,000" and insert: "196,350,000" and on page 42, line 4, strike "41,368,000" and insert: "45,868,000"

Debate ensued.
POINT OF INQUIRY

Senator Deccio: "Senator Ridder, nobody wishes more than I that the people who are falling through the cracks and not being taken care of should be taken care of. Can you tell me exactly at what level that this money is going to be used for for those persons who we have talked about today who are not being taken care of?"

Senator Ridder: "You mean all those over $281 a month? In income?"

Senator Deccio: "That is what I am asking you, those who fall through the cracks, at what level will this four and one-half million dollars be spent? I guess the reason I am asking you this question, I am going to vote for this amendment but before I do I want to know specifically where this money is going to go and we forget the emotional flame fanning that went on today. Let's be realistic. Exactly where is this money going to go?"

Senator Ridder: "I am sorry but I can't tell you, for the reason that we have been defeated in our efforts to be very explicit in the appropriations that we have put in. We have granted the Secretary unlimited transfer authority. It is the intention that it go to supply contracted chore services for people who are now not receiving them but are at risk of hospitalization and nursing home care simply for the lack of some hours of chore service assistance. I am not sure that gets at your question, but the income limit level is $281 a month."

POINT OF INQUIRY

Senator Deccio: "Mr. President, in order for Senator McDermott's remarks to be written into the record, I would like to go on record as asking him the same question."

Senator McDermott: "In answer to your question, Senator Deccio, the money is being put into contract services which the departmental director, Mr. Gibbs, can dispense on an exception to policy basis or on the basis of extending the hours. Presently they have had to limit the hours because of budget reduction. They could then give more to somebody in need or they could take other people who are eligible but for whom there has not presently been money, and they could give it to those people. So it would be really in three categories that this could be distributed. It does not change the income eligibility which is, as Senator Ridder says, thirty percent of the median income, which is $281 a month."

Senator Talmadge demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Ridder and others.

ROLL CALL

Debate ensued.

POINT OF INQUIRY
Senator Hughes: "Senator Scott, I wish I had the confidence you have in the Department and its ability to make sound judgments. I am wondering why this was in the budget last time if it wasn't of such an essential nature, why it was singled out and placed in there and now suddenly it isn't."
Senator Scott: "It was in there before because we had more money, Senator."
Senator Hughes: "All right. We have created some money by the elimination of one of the 'important' items left in that budget that the Department decided on was the cigarette money for prisoners, or for the deputy directors for DSHS. I really
wonder if we can really balance those with possibly finding a solution to something that really causes such untold hardship to people."

The President declared the question before the Senate to be the roll call on the amendment by Senator Hughes.

REMARKS BY SENATOR HUGHES

Senator Hughes: "I think this body has made a mistake in its last action, but so be it. One thing I would like to clarify and that is the implication was that the corporate welfare would end as a result of the first two amendments. That simply isn't the case. All we ask is that the corporate welfare take its 10.1 percent cut like all the other agencies, so you can rest assured that we not only have that but we have an additional 4.5 million now."

On motion of Senator Zimmerman, the following amendments were considered and adopted simultaneously:
1. On page 63, line 27 after ")") and before "1,997,000" insert "a maximum of"

3. On page 67, line 33 strike "For the 1981–83 school year,"
4. On page 69, after line 15 strike all new material down to and including the period on line 2 of page 70 and renumber all sections accordingly.
5. On page 70, line 5 strike "and subsections (5) (a) and (c)"
6. On page 70, line 10 strike "and (5) (b)"
7. On page 70, line 14 strike "For the 1981–82 school year,"
8. On page 70, after line 28 strike all new material down to and including line 34 and renumber all subsections accordingly.

Debate ensued.

POINT OF INQUIRY

Senator Bottiger: "Senator Zimmerman, one of my fellow Senators from Pierce County has been advocating that we mandate consolidation of a lot of these small districts. I am just wondering if we add this money, would they be less inclined to consolidate or more inclined?"

Senator Zimmerman: "The passage of this amendment with the four million four hundred and seventy-three thousand dollars would probably postpone certain consolidation. My personal feeling is that there are ways in which districts can cooperate, can get some of the benefits, what we would say benefits of cooperation, but still be able to retain their individual identity, and I would particularly say this is an anti-consolidation amendment but with good reasons why."

The motion by Senator Zimmerman carried and the amendments were adopted.

Senator Gaspard moved the following amendments be considered and adopted simultaneously:
1. On page 66, line 28 strike "2,596,728,000" and insert "2,607,339,000"
2. On page 66, line 34 strike "2,600,728,000" and insert "2,611,339,000"
3. On page 72, following line 12, add a new subsection to read as follows:

"(13) No cash balances or cash reserves of any school district may be confiscated by the state nor used as a local revenue deduction when apportionment funds from this section are distributed to school districts."

Senator Lee moved adoption of the following amendment to the amendment by Senator Gaspard:

"In the last line of the last amendment before the period following "district", insert "unless state law shall provide for repayment with interest"

Debate ensued.
Senator Wilson: "Senator, we have a real nice, small, hardworking, industrious, conservative school district up in Ferry County at Curlew. Could you tell me how much of Curlew's money might evaporate as a result of the proposal before us?"

Senator McDermott: "The confiscation amount appears to be one hundred and eighty-five thousand dollars."

Senator Wilson: "Well that does it."

Debate ensued.

Senator Woody: "One of the smallest school districts in the Thirty-ninth Legislative District is Index. Do you have the figures for Index?"

Senator Lee: "I think we are supposed to be debating the oral amendment which is whether or not we should have the statement of whether state law should provide for repayment. Now the questions were very appropriate, I think, for the main motion."

President Cherberg: "Senator Lee's point is well taken. The question before the Senate is the amendment to the amendment which states, 'unless state law shall provide for payment with interest.'"

Senator Lysen: "Senator Lee and I represent the Highline School District and I understand they don't have any money left over in the cash balance, so how could we borrow any money from the Highline School District to help the state?"

Senator McDermott: "Well, Senator, for those districts that haven't been such good, prudent managers, this won't affect them at all. Only the districts who have been good prudent managers will have any effect."

Senator Lysen: "That is a real relief, Senator McDermott."

Senator Rasmussen: "On a point of order as raised by Senator Lee, she has by her amendment said that the state would borrow and pay back with interest. I think that when they are asking the question on how much money the state is going to borrow and pay back with interest it is very pertinent to the point and I think her point of order is not well taken. If I was going to borrow some money, I would want to know what the amount is, and this is what Senator McDermott was giving."

President Cherberg: "Senator, the President believes Senator Lee's point was that the amendment to the amendment was the topic of discussion. So the President would have to agree that Senator Lee was right and you are right also, in the President's opinion."

Further debate ensued.

Senator Bottiger demanded a roll call and the demand was sustained. The President declared the question before the Senate to be the roll call on the amendment by Senator Lee to the amendment by Senator Gaspard.
ROLL CALL

The Secretary called the roll and the amendment to the amendment was not adopted by the following vote: Yeas, 19; nays, 29; excused, 1.

Voting yea: Senators Benitz, Bluechel, Clarke, Deccio, Fuller, Gallagher, Guess, Haley, Hayner, Jones, Kiskaddon, Lee, Metcalf, Newhouse, Patterson, Quigg, Scott, Sellar, von Reichbauer—19.

Excused: Senator Conner—I.

The President declared the question before the Senate to be the amendments by Senator Gaspard.

Senator Bottiger demanded a roll call and the demand was sustained. Debate ensued.

POINT OF INQUIRY

Senator Woody: "Senator McDermott, I have as many very small school districts in my legislative district as I do students served by large districts. I guess the students in the small school districts are about fifty percent of my population and the students in the large districts are about fifty percent, but it is the smaller school districts that I have been most concerned about traditionally because they are the ones that have great difficulty in passing levies and in putting together a really quality education program. Senator McDermott, can I ask you, is Index affected by this rob?"

Senator McDermott: "Senator Woody, in consulting this list, Index would lose nineteen hundred and fifty-two dollars. They are one of the lesser losers, but clearly they do lose."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the amendments by Senator Gaspard.

ROLL CALL

The Secretary called the roll and the amendments were adopted by the following vote: Yeas, 46; absent or not voting, 2; excused, 1.

On motion of Senator McDermott, there being no objection, the amendments by Senators McDermott, Wilson, Bauer, Hansen, Goltz, Peterson and Hughes, on the desk of the Secretary of the Senate, were withdrawn.
On motion of Senator Bluechel, there being no objection, an amendment to page 61, beginning on line 21 that was moved for adoption earlier today and held for later consideration, was withdrawn.

On motion of Senator Bluechel, the following amendments by Senators Wojahn and Bluechel were considered and adopted simultaneously:

- On page 60, line 8, strike "25,079,000" and insert "25,019,000".
- On page 61, line 21, after "(9)" strike all the material down to and including "condition" on line 23 and insert "$36,000 of this general fund — state appropriation is provided solely to provide minimal heat, air circulation, water and maintenance necessary to prevent the deterioration of the St. Edwards facility".

Senator Newhouse moved adoption of the following amendment by Senators Newhouse, Shinpoch, Benitz and Hansen:

- On page 70, section 72, following line 34 insert: "It is the intent of the legislature where a reduction of employees occurs pursuant to a reallocation of funds as determined by this 1981 amendatory act, that the proportion between certified and classified employees shall be in the same ratio as set forth by the allocation formula in this section"

Debate ensued.

Senator Hughes demanded a roll call and the demand was sustained.

**POINT OF INQUIRY**

Senator Bauer: "Mr. President and members of the Senate, I think Senator Shinpoch raises another pertinent question here that we ought to ponder on for a moment, and he may be correct in that this is a provision that drives dollars out to the school districts and does not determine whether or not that school district shall have X number of certificated personnel and X number of classified and any ratio thereof. In that case then, what we are really saying is that maybe this is the way that we can change the way we drive dollars out to the school districts, and each time we make a termination we are going to drive more dollars out for certificated personnel, we have to drive an equal number of dollars out for classified personnel and thereby giving the Legislature a chance to get off the hook of funding all of the certificated personnel out there by funding classified personnel that may be aides, as opposed to certificated personnel. So if that be the case, Senator Shinpoch, it would give the Legislature an opportunity to drive dollars out, less dollars out, by determining that we will somehow equalize by some kind of ratio the number of classified to the number of certificated. You might want to respond to that, Senator Shinpoch."

Senator Shinpoch: "Yes, I would like to respond to that. To begin with, you are correct and all we are doing is driving dollars but to drive them separately you would have to change the statutory law. You could not do it in this document. You can't change the manner in which we distribute those dollars and they are on a proportionate basis, not on an equal basis. You are well aware of that. They are sixteen and two-thirds per thousand versus fifty per thousand. So, yes, but you would have to go back and change the statutory law to do that. You could not do it out of here."

The President declared the question before the Senate to be the roll call on the amendment by Senators Newhouse, Shinpoch, Benitz and Hansen.

**ROLL CALL**

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 24; nays, 24; excused, 1. The President voted "no".

Voting yea: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Guess, Haley, Hansen, Hayner, Jones, Lee, McCaslin, Metcalf,

POINT OF INQUIRY

Senator McDermott: "Senator Lee, would you point out the error in the amendment?"

Senator Lee: "The one error that I did mention to you was the deletion of the language for the non–high high school districts which . . . ."

Senator McDermott: "Where is that? Could you give me the location?"

Senator Lee: "I think I can. While I am looking for it, let me fill in some . . . ."

Senator McDermott: "I would like you to find the error before you go on any further because I think I know my amendment."

Senator Lee: "I am sure that you do feel confident in what you have, and I think that is part of the problem, so many different pages and different sizes."

Senator McDermott: "Senator Lee, my question was, can you point out the error in the amendment."

Senator Lee: "Did you make a request to have it set down, was that what your request was?"

Senator McDermott: "No, I don't think there is any real need to because—in fact, Mr. President, I don't think there is an error in here, Senator Lee, and I would like to point out if we want to go through this, if you look on the first page, (3) is stricken. That is the small school factor. If you go to the second page you will see that we have, in (b) for 1982–83 school district, increased the vocational ed requirement. There is no change on the third page. On the fourth page we have put in
money for the enrollment decline. Number 11 says 'any contract in force on the effective date shall continue in effect,' and number 12 says no cash balances may be used. Now I fail to see where you think the error is. If you can point it out to me maybe we can set it down, but otherwise I think there is no error here. What I said is in here is here."

On motion of Senator McDermott, there being no objection, the amendment was ordered held for consideration following the next two amendments.

On motion of Senator Gaspard, there being no objection, an amendment to page 72, line 12, on the desk of the Secretary of the Senate, was withdrawn.

Senator McDermott moved adoption of the following amendment by Senators McDermott and Fleming:

Senator Hemstad demanded a roll call and the demand was sustained.
Senator McDermott: "Mr. President, so it is clear to everybody, the amendment—this is a point of parliamentary inquiry. What amendment are we voting on?"

President Cherberg: "You are voting upon an amendment presented by Senator Kiskaddon, on several amendments."

Senator McDermott: "Yes, but my amendment is different than his, having the thirty-five thousand dollar lid in it."

President Cherberg: "Your amendment strikes the entire section. Senator Kiskaddon's amendment is a perfecting amendment."

Senator McDermott: "Mr. President, then mine still can be considered after his?"

President Cherberg: "Yes, Senator McDermott."

The President declared the question before the Senate to be the roll call on the amendments by Senators Kiskaddon, Hemstad and Gould.

**POINT OF INQUIRY**

Senator Lee: "The question relates to the fact that, of course, you are striking all of existing Section 73, and (9) on that was one of the items that was in fact requested by local school districts. You may recall that we instructed that beginning July 1, 1981, that auditors would be checking the various staff mix factors so that when we go into the following year we will have a correct staff mix factor that everyone can agree has been carefully checked, because there have been complaints from school districts that what the SPI shows for them or what we have in our LEAP factor is not necessarily exactly what is out there in the district.

"Now the problem that arises is if the auditor, or particularly an auditor who is particularly interested is checking and he finds a minor error, they can be fined for it. And the language that we had in there and that you leave out would allow that as long as the bottom line was okay, that they would not be fined for minor errors that were internally found within that audit. I just wondered why that was left out?"

Senator McDermott: "Senator Lee, if you want to offer it as a friendly oral amendment, I am certainly willing to accept it. I would point out for you, had it not been for House Bill 166, these problems never would have occurred. We would not have had districts that are being threatened because they could not figure out LEAP document two or three or six or whatever. All the problems that were created in the last session by your school finance formula have created problems for small districts, and I would gladly accept (9) as a friendly amendment to this amendment."

Senator Lee moved adoption of the following amendment to the amendment by Senators McDermott and Fleming:

On page 3, following subsection "(9)" insert a new subsection as follows:

"(10) A district shall not be in violation of this section or chapter 16, Laws of 1981, as a result of corrections to the reported staff mix data in the 1980–81 or 1981–82 school year as long as the average salary for the 1981–82 school year does not exceed the average salary that would have been generated through consistent application of the incorrect base salary and staff mix in the 1981–82 school year."

Renumber the remaining subsection accordingly.

Debate ensued.

The motion by Senator Lee carried and the amendment to the amendment by Senators McDermott and Fleming was adopted.

The President declared the question before the Senate to be the amendment by Senators McDermott and Fleming as amended by Senator Lee.

Debate ensued.

**POINT OF INQUIRY**

Senator Bauer: "Would Senator McDermott yield to a question? Earlier, we turned down an amendment that would make the slide from March to January for a savings of about—or an additional cost of about ten million dollars. How much will this slide cost?"

Senator McDermott: "Actually, the first one was about fifteen million. Excuse me, ten. This one will save about fifteen, and the difference is primarily in the area of the thirty-five thousand dollar lid which is in this which is not in the other amendment, so it is actually a more conservative amendment."
Senator Bauer: "So in other words, I opposed the other amendment and I am going to support this amendment because we are going to save the state five million dollars, and that is coming by way of putting a lid on thirty-five dollar cap salary lid. And that is like saying that we do have a Superintendent in the state of Washington who makes seventy-three thousand dollars, and we are saying at a time when we are in a financial crunch in this state and we are literally taking food out of the mouths of babies and we are literally turning back a whole bunch of education policy, or attempting to, that we established earlier, in the last ten years, to help correct some inequities in providing a good remediation program for boys and girls in this state and making a considerable change in other educational policy through this budget because these are hard times. Well, then I think it is reasonable that we put a lid on thirty-five thousand dollar salaries for a savings of five million dollars which we can use to do a better job for little kids in the classroom. I urge your support of this amendment."

Further debate ensued.

POINT OF INQUIRY

Senator Vognild: "Senator, we are talking about balancing the budget on the backs of the people and everybody should do their part to balance it. Referring to the budget bill which is now of this state, how does this compare in costs?"

Senator McDermott: "I need three walnut shells probably to explain it exactly. We gave a salary increase to school teachers on the first of September. The Governor made a proposal to slide the salary increase four months into the future to the first of February. I guess that is four months. No, I must make it five. To the first of the year. That would be a four month slide. The Republicans, in order to 'save more money' slid it another two months into 1983. What we are doing is bringing it back to the proposal that the Governor made which I think was an adequate one. The only addition is that we are adding a lid of thirty-five thousand, which will save three and one-half million dollars more than the Governor saved in his proposal to us. And I think that is the best way. The Governor made, I think, a proposal which is reasonable in this area and we ought to support the Governor in this."

Further debate ensued.

POINT OF INQUIRY

Senator Lee: "This is specifically relating to what is (3) on the McDermott amendment where the figure that previously had been appropriated to school districts, the twenty-four million nine is crossed out, reduced by approximately ten percent to twenty-two million four. Now even though you have got something back here that says 'make internal corrections' it doesn't say that you replace them the way it was. There is no . . . ."

Senator Bottiger: "Is that a question or a speech?"

Senator Lee: "The question is, do you see that as I do, as a reduction in the amount of money the state is going to pay school districts for this school year?"

Senator Bottiger: "I yield to Senator McDermott."

Senator McDermott: "Senator Lee, Senator Scott and I had a long discussion last night about what the proper figure in this amendment should be. Staff has been discussing it backwards and forwards for nearly two days. It is clear that we intend to make a two month slide backward from six to four and make appropriate internal corrections inside this bill.

"Now the thing that is critical here, if you are correct and I don't think you are correct, but if you are, the thing that is missing is that this never had any public testimony with the Superintendent of Public Instruction to come and look at this amendment or to look at your bill. Your bill has never been commented on by the
Superintendent of Public Instruction or his budget officer. There are several ways that you can do this. I talked to Terry McCarthy this afternoon. It depends on when you decide to pay those school districts their money. Even though it is appropriated in this biennium, you don't necessarily have to give them all the money in this biennium because their school year goes into the next biennium. And when you start into this area, to be amending like this, as far as I am concerned, without public testimony from the people who have to administer it, when Senator Scott's staff and our staff can't agree, we at least ought to have an arbiter from SPI come in and talk. I am perfectly willing to go back to Ways and Means. I suspect we will probably spend some time in Ways and Means on this."

Further debate ensued.

Senator Bottiger demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senators McDermott and Fleming as amended by Senator Lee.

ROLL CALL

The Secretary called the roll and the amendment, as amended, was adopted by the following vote: Yeas, 26; nays, 22; excused, 1.

Voting nay: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Guess, Haley, Hayner, Hurley, Jones, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, Zimmerman—22.

Excused: Senator Conner—1.

Senator Wojahn moved adoption of the following amendment:

On page 76, line 20, strike all of section 75.

Debate ensued.

POINT OF INQUIRY

Senator Goltz: "Senator Scott, in arriving at these new enrollment figures, was any evidence or any testimony given that would have substantiated the estimates here in this bill by any of the vocational-technical institutes?"

Senator Scott: "The enrollment estimates for the voc-tech institutes have never been challenged, at least with me. Now maybe some other members have had contact with these schools on this basis. The community college figures have been in question."

Senator Goltz: "I even wonder, Senator Scott, if the members of the vocational-technical institutes are aware of this particular provision in the bill. It seems to me that what we have here is, again, an arbitrary reduction in order to cut dollars from the budget, and if these are policies to deny students the opportunity, then I certainly think we ought to support Senator Wojahn's amendment. If these are figures which have been derived because students have declined to come to the vocational-technical institutes and there are empty seats and there is no way to fill them, then I think we ought to support the bill. But the knowledge that I have, at least of one vocational-technical institute in Bellingham, is that there is great demand and as the unemployment figures grow, the demand grows. And it seems very shortsighted to deny opportunity at the very time when people need it most. So I think we should support Senator Wojahn's amendment."

Senator Scott: "Of course, we don't need to trim anywhere in this budget, Senator, other than that is what the people tell us in polls that they are looking for
before they are willing to accept tax increases, and we could tax the full amount to make up the budget gap, but what would your chances of a referendum be?"

Senator Goltz: "I defy anybody on this floor to show me a poll taken by the people of the state of Washington that says that we should cut vocational–technical institutes. I defy you. I don't think that has ever been true, that the public has not supported vocational–technical institutes."

Senator Scott: "I wasn't suggesting that, Senator. I said that the polls taken by KIRO, the WEA and a private poll all indicate that the public looks for us to do as much trimming as possible before we do any considering of taxes, and the only tax they are really willing to consider is the sales tax. I think that if the figures as to enrollments in these schools, and I wasn't challenging them one way or another, were wrong, the figures we are using, in the eyes of the Superintendent, they certainly would have come to you in Bellingham and Senator Bluechel in Kirkland and Senator Wojahn and Dr. Haley in Tacoma. We have heard no challenges."

POINT OF INQUIRY

Senator Hughes: "Senator Scott, I agree with you. I think the people are looking for us to cut and I am wondering if you believe that the people would like us to cut in the area of corporate welfare as well, because I know we rejected one today but we are going to offer you some more later on."

(No reply by Senator Scott)

Senator Wojahn demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Wojahn.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 22; nays, 26; excused, 1.

Excused: Senator Conner—1.

Senator Metcalf moved adoption of the following amendment:

On page 76, after line 19, insert the following subsection:

POINT OF INQUIRY

Senator Lee: "I would like to ask you whether or not you wish to amend the section, this (6) (a) and (b) on page 70 which still leaves the old figure for non-employee related costs?"

Senator McDermott: "It is my intention that the 10.278 million dollars be used for the non-employee related cost distribution element in the school apportionment formula. If the amendment goes on page 70 as you suggest, that is where we ought to put it, but I think the intention is very clear for the Superintendent of Public Instruction in his use of this money."

Further debate ensued.

Senator McDermott demanded a roll call and the demand was sustained.

POINT OF INQUIRY

Senator Gould: "May I just ask a matter for clarification, and it is not an argument. It is just to clarify the numbers that are here? Senator McDermott, am I mistaken in reading this as two billion, five hundred ninety-six million seven hundred and twenty-eight thousand dollars? Do you have your decimal in the wrong place perhaps?"

Senator McDermott: "No, Senator Gould, we spend a lot of money on public schools."

Senator Gould: "Okay, this is the total appropriation then that you are talking about, not the . . . ."

Senator McDermott: "That is the total appropriation which is going up by 10.2 million dollars."

Senator Gould: "I think it is the hour that has gotten to me. Thank you."

The President declared the question before the Senate to be the roll call on the amendment by Senator McDermott.

Senator Ridder demanded a roll call and the demand was sustained.

POINT OF INQUIRY

Senator Bauer: "Senator Gaspard, if we pass this amendment is that a possibility that there will be more money in the program for remediation?"

Senator Gaspard: "Senator Bauer, I think it would probably be appropriately stated that there will be less cuts in programs like remediation, because when we looked at the budget last spring when we factor out the special education funds, that left twenty-two million dollars for the other block grants, and the current level of spending was about thirty-two million. Now as I understand Senator Kiskaddon's amendment, he is restoring a ten percent cut now from that block grant total for other programs such as remediation, that twenty-two million dollar level. So I understand that a lot of school districts have already eliminated the remediation program. So we are not adding any more funds to remediation. We are just trying to cut less from already that low level."

Senator Bauer: "Thank you, Senator Gaspard. If I understand this right then, in taking remediation separate from the other categorical funds, the bilingual and the other programs in that block, that in 1979–81 we funded twelve million dollars alone for remediation. Then in 1981–83 biennium last spring we converted this into a block grant and put it in with special education, bilingual, remediation, gifted and all those other programs, and we hardly funded those at a level that would take care of the special education, so many school districts then dropped their remediation program, and I have seen a list of a number of them that have dropped the remediation program entirely, dropped the gifted program, dropped the bilingual program, and then now if we do not pass this amendment we are going back and cutting into that block grant amount and probably lose the rest of the school districts in the state that have intact a little bit of remediation as some do or gifted or bilingual.

"So this amendment if it passes will stop the deterioration of some of those very, very basic categorical funding areas where school districts are trying to pick up the kids that have special problems and keep them from getting into more serious trouble in their education mode. Is that correct, Senator Gaspard?"

Senator Gaspard: "It will stop further deterioration."

Further debate ensued.
The President declared the question before the Senate to be the roll call on the amendments by Senator Kiskaddon.

ROLL CALL

The Secretary called the roll and the amendments were adopted by the following vote: Yeas, 25; nays, 22; excused, 2.

Senator Scott moved adoption of the following amendment by Senators Scott and Patterson:

On page 81, line 16 strike "351,832,000" and insert "378,679,000"

POINT OF INQUIRY

Senator Goltz: "In light of the action which this body took last night on the vocational-technical institutes, is the same treatment being given to the community colleges as was given to the vocational-technical institutes last night? Is this the same, the basis?"

Senator Scott: "The voc-tech institutes were reduced four percent. We are here reducing the community colleges 4.7 percent. I was just going to say to Senator Goltz; there is a rough parity although we all know the funding formula is a little bit different. The percentage cut is greater in the community colleges."

POINT OF INQUIRY

Senator Wojahn: "Would you give me the exact dollar amount of the amendment that we are passing right now?"

Senator Scott: "The amendment we just passed on page 81, line 13, raises the amount from three hundred and fifty-one million five hundred and sixty-one thousand to three hundred and seventy-eight million four hundred and eight thousand. The amendment we are now considering on page 81, line 16, makes the same change at the bottom of that section."

Senator Wojahn: "Would you state that in dollars. I was looking at the wrong amendment here."

Senator Scott: "Three hundred and fifty-one million dollars, eight hundred...

Senator Wojahn: "No, would you state the difference, please. How much of the cuts are we restoring here in dollars?"
Senator Scott: "There is a little less than twenty-seven million dollar difference."

Senator Wojahn: "So we are adding twenty-seven million dollars. Is that correct?"

Senator Scott: "That is correct."

The motion by Senator Scott carried and the amendment was adopted.

Senator Scott moved the following amendments by Senators Scott and Patterson be considered and adopted simultaneously:

On page 82, line 4 strike "278,450,000" and insert "280,102,000"
On page 82, line 10 strike "335,859,000" and insert "337,511,000"

PARLIAMENTARY INQUIRY

Senator McDermott: "Mr. President, I have an amendment here that puts more money back into the University of Washington than Senator Scott's and therefore has a higher appropriation level for the University. In which order will they be considered or should they be considered?"

REPLY BY THE PRESIDENT

President Cherberg: "The higher figure of the two should be the one considered first."

The amendments by Senators Scott and Patterson were held for consideration at a later time.

Senator Bottiger moved adoption of the following amendment by Senators Bottiger, Bauer, Lysen, Moore, Charnley, Fleming, Talmadge and Hughes:

On page 81, after line 33, insert "(3) In making reductions in funds, no reductions shall be made affecting tuition waivers for the parenting education program."

Debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator Scott, Senator Bottiger had a question about how much this particular tuition waiver costs in this budget. Do you have any idea what this tuition waiver program actually costs in this budget?"

Senator Scott: "I can't quote you the figures this morning, Senator. I can get staff, which is off the floor, to give them to you within five minutes. It is not an enormous figure in the overall figure that was just quoted a moment ago for the community college system, the three hundred and fifty-one million dollars. It is a question of where, if you have got to make reductions, they should be made, either in the central academic programs or in desirable but comparatively peripheral courses, operations such as this."

Senator Talmadge: "Thank you, Senator."

Further debate ensued.

Senator Talmadge demanded a roll call and the demand was sustained.

Further debate ensued.

The President declared the question before the Senate to be the roll call on the amendment by Senators Bottiger, Bauer, Lysen, Moore, Charnley, Fleming, Talmadge and Hughes.

Debate ensued.

The motion by Senator McDermott failed and the amendments were not adopted.

The following amendments by Senators Scott and Patterson had been moved for adoption earlier and were held to first consider the amendments proposed by Senator McDermott to page 82, lines 4 and 10.

- On page 82, line 4 strike "278,450,000" and insert "280,102,000"

- On page 82, line 25, after "condition" insert "s" and after "limitation" insert "s"
- On page 82, line 27, after "center." insert "In making reductions, the university shall reduce by thirty percent the amount of state general fund moneys allocated to travel."

On page 83, after line 2, insert "The appropriations in this section are subject to the following condition or limitation: In making reductions, the university shall reduce by thirty percent the amount of state general fund moneys allocated to travel."

On page 83, after line 11, insert "The appropriations in this section are subject to the following condition or limitation: In making reductions, the university shall reduce by thirty percent the amount of state general fund moneys allocated for travel."

Senator Wilson moved adoption of the following amendment to the amendments by Senators Bauer, Lysen and Fleming:

- On page 82, line 27, following "travel" insert ": PROVIDED, That no reduction in the state general fund moneys allocated to the Cooperative Extension Service program for travel shall be reduced"

Debate ensued.
POINT OF INQUIRY

Senator Fleming: "Senator Wilson, by this amendment I would assume that you feel thoroughly confident as to what you know about these programs and the travel that is involved around these programs, that this is a program that in your opinion would not have unnecessary traveling or have the kind of traveling that they too could not reduce some of it."

Senator Wilson: "Senator Fleming, with respect to the overall amendment, I have the utmost . . ."

Senator Fleming: "No, I am talking about your extension services that you are amending out. I am saying you are fairly confident that this type of program that have these extension services to the counties, what you are trying to exclude from travel, these extension services, you are fairly confident that the amount of traveling that they do within this program is necessary and there would not be additional traveling in there that they could cut out?"

Senator Wilson: "Yes, Senator, I guess I would say that on the basis of having lived for thirty years in rural areas in Eastern Washington and observing county agents functioning, and to function very little value is attached to them if they are sitting in their offices. To function they are out talking with the farmers, visiting farms and this sort of thing."

Senator Fleming: "Senator Wilson, with that explanation, I appreciate that, and getting that explanation that I am going to support Senator Wilson's amendment because I would just like to point out to the members of this floor, when someone from the rural area has a very pertinent problem and they have information regarding that problem that we here in the Legislature and we on the west side of the mountains should understand, I want them to understand that I am willing to listen and go along with them, and I hope in the future when I have a problem in urban Seattle that I live with, that you are not aware of and you don't have the expertise that I do, that you will listen to me too."

Debate ensued.

On motion of Senator Bauer, there being no objection, the amendments, and the amendment to the amendments, were held for later consideration.

Senator McDermott moved the following amendments be considered and adopted simultaneously:

On page 82, line 18, strike "172,832,000" and insert "178,012,000".
On page 82, line 21, strike "((14,000,000)) 18,200,000" and insert the stricken language.
On page 82, line 23, strike "191,032,000" and insert "192,012,000".

Debate ensued.

POINT OF INQUIRY

Senator Goltz: "As I look at the statement connected with the amendment, there is a paragraph labeled 'Effects' and it says in this note that the cut is seven point three percent, and I am wondering how that figure is in this explanation instead of the four point seven."

Senator Scott: "Since we haven't suggested no more than four point seven, the Governor originally suggested four point five, I have to assume that that is additive of the revenue raisers that were incorporated in the Governor's proposal. Maybe Dr. McDermott can tell you how they arrived at it."

Senator Goltz: "A second question. It has to do with the second part of that statement. Why is it that in certain cases additional funds from the projects, capital projects account has been included in the operating budget and is there any equity in the way that was done?"
Senator Scott: "The institutions have been treated the same, Senator Goltz. The aggregate of the building account funds that are available for operating purposes are six million dollars, and there is again no distinction between the institutions except that obviously each of them had a different amount in their building fund. They have all been drawn down at the same level."

Senator Goltz: "That is the Woody Allen approach again. You are going to take the money and run."

Senator Scott: "Let me phrase it another way then, Senator. They have all been drawn down the same level. Yes, they did have different amounts in their building accounts."

Senator Goltz: "It seems to me that that in itself is a very unequal treatment then. I would suggest that that should not be allowed to happen in the name of equity."

Senator Scott: "Well, you will remember that when we first took this approach, which was in the prior biennial budget at the suggestion of the Governor, the University of Washington had the great bulk of the local account moneys because of the METRO tract. If you are pointing, for instance to Western's position in this, it is true that there are different levels of balances in each institution, but I don't know how you correct that. We are looking for dollars that can be on a legal and legitimate basis put in on the operating side and to date the two universities have lost the greater amount of dollars as a result of the actions we have already taken."

REMARKS BY SENATOR McDERMOTT

Senator McDermott: "In answer to Senator Goltz's question about where those figures came below my amendment of seven point three percent, the Republican budget that came out of the Ways and Means had a seven point three percent cut built into it. I am bringing it up to four point five percent cut. What Senator Scott is saying, if you turn this amendment down and go for his, you will only make a four point seven percent cut. So the difference between my amendment and Senator Scott's amendment is point two percent."

Senator McDermott demanded a roll call and the demand was sustained. The President declared the question before the Senate to be the roll call on the amendments by Senator McDermott.

In the amendment by Senator Goltz on line 6, after "issue" strike all material through "dollars".

POINT OF INQUIRY

Senator Goltz: "The reason for the amount in the original amendment is to establish the standard or the threshold at which the state's appropriation would be eligible for expenditure, and I guess eliminating that, leaving it completely open and simply leaving it as a portion, I would like to know if you can give me an idea for the record, what would that portion likely be? Is there any level that is thought of as being the portion of the local community for this project?"

Senator Benitz: "Senator Goltz and members, that is very much under discussion now. I think it is generally agreed that it could not be the amount that was turned down by the lack of the sixty percent majority, so that it would have to be somewhat less; and further, there are other areas of participation, both public and private. The Energy Fair at this point is kind of in certain places. We have a coliseum as one part of it. That is what this was all about. We have the federal government, where they may be. We have Bonneville Power Administration with where they may be, and so there are a lot of pieces to put together. And at this point to restrict this to say 'not less than so many dollars' might put us on a terrible spot and I would hope that you could agree to the oral amendment."

POINT OF INQUIRY

Senator Woody: "Senator Benitz, what was the amount that was turned down?"

Senator Benitz: "The amount that was turned down was almost identical to what you have here, seven point six. And I should explain further that early on it was decided by a group of people who wanted to join very strongly and have an ice rink and other things that would have put it up almost ten million and I believe that wisely was taken out. The point I am trying to make is that we are trying to pick and choose a program that will be highly successful at the least amount of money, and we really shouldn't be tied to an amount here that has to be not less than."
Senator Woody: "Senator Benitz, to continue, are we saying then, are we agreeing that there is no definition in statute of the language 'which are a local responsibility'? If there is no definition of what that amount should be by percentage, then why not take that language out also unless we can agree now on what that figure might reasonably be?"

Senator Benitz: "It would be permissible but I think it would weaken our position. I believe we do want to keep local responsibility in there. I think it is generally agreed at this point by the Energy Fair '83 people and the other parts of the community there is a tremendous local responsibility and I want to keep that in there."

Further debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator, in the course of remarks of Senator Williams, he indicated that somebody from your area was going to come back to the Legislature, somebody from Energy Fair '83, and request an additional appropriation from the Legislature of four point five million dollars or some figure thereabouts. Could you indicate to us categorically out here on the floor that that is or is not going to be the case?"

Senator Benitz: "I do not know if that is going to be the case. I have not been a party to that."

Senator Talmadge: "Thank you, Senator."

Further debate ensued.

The President Wilson demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Benitz to the amendment by Senator Goltz.

ROLL CALL

The Secretary called the roll and the amendment to the amendment was adopted by the following vote: Yeas, 25; nays, 22; excused, 2.

Excused: Senators Rasmussen, Talley—2.

The President declared the question before the Senate to be the amendment by Senator Goltz, as amended by Senator Benitz.

Debate ensued.

POINT OF INQUIRY

Senator Bottiger: "Senator Benitz, I am concerned that that four point five million dollars in this budget for tourist promotion isn't already the four point five million dollars to finance the Energy Fair. That money isn't going to go there to meet this commitment that was talked about in the paper, is it?

Senator Benitz: "I wish that were an easy solution, but that four and one-half million will go for tourism. I am quite convinced that our Governor has decided that is for tourism and as far as I am concerned, that is where it will go."

The motion by Senator Goltz carried and the amendment, as amended, was adopted.

Senator Williams moved adoption of the following amendment by Senators Williams, Bauer, Lysen, Hughes, Charnley, Wojahn and Vognild:
On page 92, line 18, strike all of sections 100 and renumber the remaining sections consecutively and on page 97, following line 10, add a new section to read as follows:

"NEW SECTION. Sec. 110. Section 2, chapter 69, Laws of 1981 (uncodified) is hereby repealed.

Renumber the remaining sections consecutively.

Debate ensued.

POINT OF INQUIRY

Senator Gallaghan: "I am aware and I think you are too that here recently we appropriated money for the Pantages Theater downtown that you and I both—should we then stop them from raising money to promote the Pantages? It seems to me that we are getting into a whole rat's nest of these types of operations. Are you aware of how much money that was that we . . . ?"

Senator Wojahn: "I am very aware of how much money it was, Senator Gallaghan. I am also aware that we were not facing a one plus billion dollar deficit in state funding at the time. I am also aware that there was a promise of economic development funds which has come through. There was a promise of city support which has come through. There was a promise of citizen participation of one point five million that we have now reached. There was community support, there was federal support, there was City of Tacoma support. They had already acquired the building. They had paid for the preliminary plans and they had hired an architect. They were on their way. Otherwise, I would not. If you will remember, I have never, never supported the philosophy of a world's fair for Tacoma until we were building motels, etc. to support it, and until we are, you won't see me asking for one. Then I probably will. As the second largest county in the state, I think that Tacoma should be ready in the very near future, but we do not have hotels, we do not have accommodations, and we do not ask for it."

Senator Gallaghan: "But we do have it."

Senator Wojahn: "Beg pardon?"

Senator Gallaghan: "We do have the money . . . for the Pantages?"

Senator Wojahn: "It was voted through three years ago when there was no economic problem that we are facing now. I am suggesting that we not use this money now when we need it for state programs that we are not funding."

Senator Gallaghan: "You have answered my question. Thank you."

Further debate ensued.

Senator Williams demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senators Williams, Bauer, Lysen, Hughes, Charnley, Wojahn and Vognild.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 21; nays, 25; absent or not voting, 1; excused, 2.

Excused: Senators Rasmussen, Talley—2.
Senator Sellar moved adoption of the following amendment by Senators Sellar, McCaslin and Hansen:

POINT OF INQUIRY

Senator McCaslin: "Senator Zimmerman, who I respect very much, he is the gray haired gentleman in front of me here with dark glasses, pointed out the terrific values we are getting in the bridges. For instance, he mentioned the bridge worth two million dollars and, of course, I can see horses riding over that bridge, and repairing the rest of the bridges, of course, so the other horses can ride over those bridges.

"Now to go over to Senator Bottiger, the esteemed attorney on the other side, he tells us that we are keeping score on what we are cutting and what we are adding and says neither side can take credit for this three and one-half million dollars. So now I come to the point of asking you to yield. In your opinion, and I value your opinion very much, Senator Sellar, could you tell this esteemed body what you estimate it will cost in the future to maintain this trail for any purpose they might have in mind?"

Senator Sellar: "Senator McCaslin, I wish I could give you a figure on that. I really obviously can't because I don't know—I have kind of had a twist out here today. The money was appropriated for a recreational trail and now I find Senator Guess and even Senator Hemstad agreeing, saying oh, no, we don't really have to use it for that. We can put a coal slurry pipeline through there if we want to. We can get around the intent of the appropriation for recreation if in fact we want to do that. And I find that objectionable because we are not even talking to the people that are involved, the landowners, about whether they want a coal slurry line through their property. So I find a whole new twist out here today and I wish I could tell you, Senator McCaslin, what the cost of the liability, what the cost of the development, if it is a recreational trail, what it will cost to put up fences, to pick up garbage. I don't know. I can't answer that. The only thing I can say to you is, Senator Fleming, who is off the floor for just a minute has said many times here on the floor that you can pay me now or you can pay me later. I think this one is you can pay now and you can pay later also."

Senator McCaslin: "Thank you, Senator Sellar. Since you can't come up with a figure, some of the figures I have heard for building fences, picking up garbage, tearing up the old ties, maintaining the trail, let's take a figure of ten million. And many people here on this floor have thrown figures all over, so please accept that figure. Now that we have established the figure, I would like to notify Senator Bottiger that we just saved ten million dollars of the state's money."

Further debate ensued.
Senator Sellar demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the amendment by Senators Sellar, McCaslin and Hansen.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 22; nays, 25; excused, 2.

Excused: Senators Rasmussen, Talley—2.

On motion of Senator Bottiger, there being no objection, an amendment to page 97, line 10, on the desk of the Secretary of the Senate, was withdrawn.

Senator Deccio moved adoption of the following amendment following the adopted Gaspard amendment:

On page 4, following line 27 after "law", insert:
"except for the Department of Social and Health Services"

POINT OF INQUIRY

Senator Bottiger: "In adopting this amendment it has been represented to us that there is one deputy director in the Department of Social and Health Services that was already hired, is on the job and is doing a good job and I think we all agree that we ought to make an exception to the deputy director rule for him, but we are not talking about a blank check for Social and Health Services to hire a whole bunch of new deputy directors."

Senator Deccio: "That is correct, Senator Bottiger. This is being offered for one individual who has already been hired. That is correct."

Debate ensued.

Senator Guess moved adoption of the following amendment to the amendment by Senator Deccio:

In the Deccio amendment, following "Services" and before the period, insert "and Department of Game"

Debate ensued.

Senator Talmadge demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Guess to the amendment by Senator Deccio.

ROLL CALL

Excused: Senators Rasmussen, Talley—2.
The President declared the question before the Senate to be the amendment by Senator Deccio.

The motion by Senator Deccio carried and the amendment was adopted.

On motion of Senator Shinpoch, the following amendment was adopted:

On motion of Senator Goltz, the following amendments by Senator Goltz were considered and adopted simultaneously:

On page 81, following line 33 insert "(3) In making reductions the board shall reduce by thirty per cent the amount of state general fund moneys allocated to travel."

On page 84, following line 6, insert "In making reductions the council shall reduce by thirty per cent the amount of state general fund allocated to travel."

Senator Hurley moved the following amendments be considered and adopted simultaneously:

On page 82, following line 33, insert a new subsection to read as follows:

(6) In making reductions in state general fund moneys pursuant to this section, the Board shall reduce by thirty percent the general funds expended for lobbying the legislature, members of the legislature and lobbying-related activities.

On page 83, following line 26, add a new subsection to read as follows:

"NEW SECTION. Sec. 88. In making reductions in state general fund mon­eys, pursuant to sections 82, 83, 84, 85, 86 and 87 of this act, the universities and college shall reduce by thirty percent the general funds expended for lobbying the legislature, members of the legislature and lobbying-related activities."

Renumber the remaining sections consecutively.

On page 84, following line 6, add a new subsection to read as follows:

"(1) In making reductions in state general fund moneys pursuant to this sec­tion, the council shall reduce by thirty percent the general funds expended for lob­bying the legislature, members of the legislature and lobbying-related activities."

POINT OF INQUIRY

Senator Guess: "Senator Hurley, I am trying to find how, since we do not in Sections 82, 83, 84, 85, 86 or 87 provide for a lobbying line item, how are we going to determine and how could you determine whether or not they were complying with the amendment."

Senator Hurley: "I am sure that it is almost impossible to separate those dollars out, but I think that a direction by this legislature to cut those activities would certainly be complied with. Even though there isn't any line item, there isn't any dollar amount, we know those activities go on. We certainly could tell the difference if they weren't here quite that much."

Senator Guess: "You know, I am reminded of the time that Vice President Agnew was out here and announced very proudly that the federal government was going to institute a new program of federal revenue sharing. And I don't know whether the Lieutenant Governor remembers or not but I asked the question and he pretty quickly squelched me. I asked Mr. Agnew, Vice President, how were they going to share zero. Now I ask you, how in the world would you limit thirty percent of something that is not expressed in the budget? This is an act of, in my opinion, an act of futility. Yes, I believe that there should be efficiency. I believe that the repre­sentatives of the universities do use, their time properly. I have never been asked by a single representative, either WSU, the University of Washington or Eastern Washington University, to do an item or to comply with a wish of theirs that I did not think was reasonable. Now I have the greatest of faith in the administration of our colleges, and I believe that this is unnecessarily burdening the statutes of the state of Washington for an effort that would best be stated in a resolution, a floor
resolution, and asking them to cut down and to use as few trips as possible. It would have the same effect."

Senator Hurley: "To reply, if I may, to Senator Guess, oftentimes items of policy, what we would like to have as our policy, a direction of policy, and as far as Senator Guess' faith in the officials from institutions of higher learning, I have faith in them too. And I have faith if we come and say in this budget, cut out the items that you have down here, you are showing up a little bit too much, it looks like you are a little bit overeager, maybe you are making statements on things that are a little bit self-serving, why—especially after the talk on this Senate floor, I should think that they would get the idea right away. So I think a statement of policy is perfectly proper in this instance."

The motion by Senator Hurley failed and the amendments were not adopted.

Senator Hurley moved adoption of the following amendment by Senator Hurley and Hughes:

On page 83, following line 26, add a new section to read as follows:

"NEW SECTION. Sec. 88. In making reductions in state general fund mon­
ey, pursuant to sections 82, 83, 84, 85, 86 and 87 of this act, the universities and college shall reduce by fifty percent the general fund moneys expended for sabbati­cal leaves."

Renumber the remaining sections consecutively.

Debate ensued.

Senator Hurley demanded a roll call and the demand was sustained.

Further debate ensued.

The President declared the question before the Senate to be the roll call on the amendment by Senators Hurley and Hughes.

ROLL CALL

ing his point of view and that of the Puget Sound Gillnetters before the Legislature,
Executive agencies and the courts; and

WHEREAS, Phil Sutherland was a compassionate man, professionally and
personally, whose humor and independence were well respected by those who knew
and worked with him inside and outside of government; and

fellow fishermen, and yet took the time to spend many hours working with the youth

important it is to have self-respect and confidence in dealing with government and in
sticking to one's principles; and

he had for over thirty years, lost his life at sea on Tuesday, November 3rd, 1981;

Washington State Senate, That our sincere condolences are given to Mrs. Loreen
Sutherland, the Sutherland children, and other family members over their loss; and
BE IT FURTHER RESOLVED, That the Secretary of the Senate is hereby directed to forward a certified copy of this resolution to Mrs. Sutherland as a gesture of the loss which is also felt within the halls of the Legislature.

REMARKS MADE DURING
THE ADOPTION OF
SENATE RESOLUTION 1981–155
REMARKS BY SENATOR PETERSON

Senator Peterson: "Mr. President and members of the Senate, I am sure most if not all of you have probably come in contact at one time or another in the legislative arena. Phil appeared before the Natural Resources Committee in the years that I chaired it on numerous occasions. He was a very dedicated, sincere individual, and while we didn't always agree in philosophy on areas that he represented, he was always fair and open minded in the way he presented his case. I am in deep sympathy with his family. Phil worked awfully hard at his job, his profession, even to the extent in the early days of the Boldt decision he subjected himself and served a certain period of time in jail, upholding his philosophy and the rights of the fishermen. I move the adoption of the resolution."

REMARKS BY SENATOR GUESS

Senator Guess: "Mr. President, having been from the east side of the state and not knowing a gillnetter from a purse seiner all these years, Phil undertook to educate me and I am not sure that he was successful; but he did point out the problems that the fisherman has and I certainly had the greatest empathy for the point of view that he brought. It is with rare exception that I find people that are as dedicated to the pursuit in life that I found that Phil had, and it was certainly a blow to lose him and to know that we will not be privileged to see him in and out of the chambers and the halls here from time to time, and I too want to express my sympathy for his family."

REMARKS BY SENATOR LYSEN

Senator Lysen: "I would like to add my voice to this resolution. I had the pleasure of offering Phil Sutherland's amendments in the last session on the ocean ranching bill. Phil sat in my office for most of a week or more than a week, ten days, as we drew them up and served within the wings in giving me the amendments, and I had a lot of respect for that man. He was a true rugged individualist. He thought he was a member of your party. I thought he probably should have been a Democrat, but in any event he really was a fine man who I got to know in the course of my interest in the salmon industry, and I had the honor of attending his funeral and it was a real tribute to that man and what he stood for. He was the kind of man that I think really makes us pause a minute. There are not many people like that left. It seems like in modern technology and society we produce sort of the mass urban man, but the true rugged individualist like Phil Sutherland really makes a contribution. He made it here and it was a real honor for me to work with him and to offer his amendments on the floor of this Senate."

REMARKS BY SENATOR GALLAGHAN

Senator Gallaghan: "I would like to say amen to that myself, having been very close to Phil Sutherland over the years, working in the industry and the Department of Fisheries. Although we had tremendous differences in some areas, you could always depend on where the man came from. It is a true tribute to a true American. Bless him forever."

REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "Mr. President, I too would like to join, having known Phil for many years, knowing his dedication to the people he represented, and to point out that he was representative of a very hazardous industry that spend their life out there producing food for the nation and foreign nations alike. Phil was just an
example, an experienced fisherman, yet he was killed in plying his trade. Many others have gone down in this industry supplying the needs of our nation. But Phil was dedicated, particularly dedicated. You don’t find very many people these days that will express their convictions to the point where they are willing to put themselves in jeopardy of going to jail and as he did, it wasn’t a violation; it was a deliberate display of showing how he thought the law was wrong and in trying to get it changed. Even though he has passed on, let us hope that the law will be changed so this will once again be a nation where everybody is equal instead of special privileges for some.”

There being no objection, the Senate returned to the third order of business.

MESSAGE FROM THE GOVERNOR
REPORT OF PARDON
RICHARD E. ANDERSON

Office of the Governor, November 12, 1981.

TO THE HONORABLE, THE SENATE AND THE HOUSE
OF REPRESENTATIVES OF THE STATE OF WASHINGTON.

LADIES AND GENTLEMEN:

In compliance with the provisions of Section 11 of Article III of the Constitution of the state of Washington, I have the honor to submit herewith my report of the pardon of Mr. Richard E. Anderson, which has been granted since the adjournment of the First Extraordinary Session of the Forty-Seventh Regular Session of the Legislature.

Richard E. Anderson was found guilty of indecent liberties on January 27, 1948 in the Superior Court of Snohomish County, Washington, Cause Number 817. He then spent approximately eight months in the State Reformatory at Monroe and in Sedro-Woolley State Hospital before being paroled. Since 1952, Mr. Anderson has worked for the American-Canadian Stratigraphic Service Company, where he is now Senior Geologist. In 1968, Mr. Anderson became a Canadian citizen. So long as his conviction stands, he cannot obtain a visa to work for his company in the United States, which would be advantageous to him and his company. On June 23, 1981 the Snohomish County Superior Court, on motion of a Snohomish County Deputy Prosecuting Attorney, "dismissed" the information filed in Cause Number 817 against Mr. Anderson. This dismissal, however, was not sufficient to clear the way for obtaining a visa.

The passage of 33 years since Mr. Anderson was convicted, his many years of productive work, and his justifiable reasons for wanting to work in the United States all indicate that a pardon of Mr. Anderson is in the interests of justice.

On November 10, 1981, Richard E. Anderson was pardoned from the judgment and sentence of indecent liberties (Cause Number ‘817) entered on January 27, 1948, by the Superior Court of the state of Washington for Snohomish County.

Respectfully submitted,

JOHN SPELLMAN
Governor

MOTION

On motion of Senator Ridder, Senator Goltz was excused.

POINT OF INQUIRY

Senator Hurley: "I wonder what advice you would give me in a practical situation. My daughter has a small checking account, I guess, that she left at a Spokane bank when she moved to Seattle. She knows the money is there. It is kind of like having it socked away. She would use it when she needs it. It is collecting interest but not very much, and she hasn't had any communication about it. Should I call her and say, please either write to them or take your money out of the bank? It has been there for about five or six years."

Senator Scott: "Senator Hurley, your daughter won't lose her money. First of all, she would have to have zero activity in it for five years. Secondly, she would have to be lost as far as the bank was concerned."

Senator Hurley: "Will they try to find her?"

Senator Scott: "They will tell you. They will say, what do you want to do with your account. Secondly, these are for individuals that have disappeared from sight. And thirdly, even after the five year period and if they couldn't find her, the money would still be hers if claimed. It is transferred to the state and the law of statutes isn't cut off."

Senator Hurley: "All right. Thanks a lot."

POINT OF INQUIRY

Senator Wilson: "Senator, the Digest says no revenue, but you mentioned considerable amount of revenue. Could you tell me more specifically what good things this bill is expected to do for the general fund over what period of time?"

Senator Scott: "Senator Wilson, the revenue is generated not because there are more people out there losing track of their intangibles or because, at least before next winter we will be able to do a better job of auditing and finding out what is happening, but rather by reduction of the time periods, the point at which, those
deposits and accounts can be officially put in the state's care and earn us interest and become part of our cash flow as opposed to sitting in a savings account in a bank and that institution earning the interest on it. So our gain has to do with the reduction in the time period before which you can transfer the money to the state."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute House Bill No. 766, and the bill passed the Senate by the following vote: Yeas, 45; nays, 2; excused, 2.

Voting nay: Senators Lysen, Pullen—2.

Excused: Senators Charnley, Goltz—2.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 766, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

POINT OF INQUIRY

Senator Bottiger: "Senator Scott, the mayors and the council members and the people from local government have been down here urging some action on a Governor's executive request bill, Senate Bill 4421, and I haven't heard there is any scheduled hearings or any opportunity for them to present their views to tell you the plight that they are having, and I noticed in the paper that we have cut mental health. Senator Quigg and I debated this about a program to cut state programs for things like mental health and dump them on county government and no money to pay for them, and the counties and cities are down here complaining that that is what is happening and they are asking for a hearing on their measure, and I am wondering when we are going to have an opportunity to have that addressed."

Senator Scott: "I suppose there are as many feelings about that proposal as there are Senators. Speaking from where I come from, the county of King is better off than almost any government you would like to name in the state of Washington. The city of Seattle may have as much a philosophical as a fiscal problem in that a number of us met with the Mayor for a couple of hours a month ago before coming down here, and if some of the things that did come out of our budget on the first round now came out of his, there would be no gap. Their solution in Seattle on the first round was to, had a ten percent gap the way we did, was to cut two and tax eight. And we did the reverse. Grantedly there are other governments in the state of Washington, local governments, that are in somewhat more difficult shape. There has been no schedule ahead for hearings in the committee because we have been dealing exclusively with the budget.

"Now with these revenue measures, there are three bills scheduled that are, I guess would be described as reform bills, for tomorrow morning. There is a major social and health services bill scheduled for Tuesday morning, and for Monday morning we are going to deal with the EAA, and after that time, Senator, presuming we are successful in getting the budget off the floor, I will try and be more definitive."

Senator Bottiger: "I would urge you, Senator, to do so because some of the revenue projections that we are now getting, and they are getting worse and worse,
are also the same taxes, the same identical taxes, that our counties and cities depend on and they are going down as well."

**REMARKS BY SENATOR HAYNER**

Senator Hayner: "Mr. President and ladies and gentlemen of the Senate, I should like also to address myself to that question. This is a very short session. We were called here for the specific purpose of trying to settle the financial problems of the state. We are fully aware that the cities and counties also have problems and we are very sympathetic to those. However, I think our priorities are to take care of the state problems now. I can guarantee you that if we do not get to the problem of local option taxes this session, which is very doubtful, because of the parameters of it, we will get to that issue in January."

There being no objection the Senate returned to the fourth order of business.

MAJORITY recommendation: Do pass with the following amendment:

Signed by: Senators Scott, Chairman; Craswell, Vice Chairman; Bauer, Bluechel, Deccio, Gaspard, Hayner, Jones, Lee, Ridder, Zimmerman.

The bill was read the second time by sections.

On motion of Senator Scott, the committee amendment was adopted.

On motion of Senator Scott, the rules were suspended, Engrossed Substitute House Bill No. 773, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Talley: "Senator Scott, is there anything in this bill that would provide an extension of the time that a logger has to log this timber? Some of these loggers have bought timber and the market has gone down so bad they don't want to log it and they are waiting for the market to come up. Some of them have asked for an extension. Is there anything in this legislation that allows that?"

Senator Scott: "There is a provision in either rule or law now, Senator Talley, that allows a person that does not want to log on the agreed-upon schedule to get an extension. There is a minor penalty that goes along with that. After that extension is up, eventually they have to either opt to cut, start cutting, or give up their ten percent deposit, one or the other."

Senator Talley: "Thank you."

POINT OF INQUIRY

Senator Bottiger: "Senator Scott, I am afraid I don't consider that a direct answer. Is there anything in this bill that changes any of that in any way?"
Senator Scott: "No."

POINT OF INQUIRY

Senator Woody: "Senator Scott, I am not familiar with the bill. Somebody that I asked a short while ago about this bill indicated that Mr. Boyle had said that these same changes could be made with administrative rule. Is that right, or must we have legislation to effect your intent?"

Senator Scott: "The answer is yes and no. Commissioner Boyle bid, if you will, was willing to give us a letter to put eighty percent of the money in the treasury proper. This would be a temporary thing on a biennial basis and you would still have the problem of having local funds outside the treasury, not appropriated, unidentified as to their amount and to their use. So this is good management on the long term. That is why we are making it statutory."

POINT OF INQUIRY

Senator Peterson: "Senator, it is my understanding that the federal government, the Forest Service, has provided extensions without penalty on sales off of federal lands. As you indicated in your previous remarks, the purchaser of private timber or state timber in this state could get an extension with a surcharge, so to speak, or a penalty or a slight penalty or whatever it might be. However, to the best of my knowledge if, in fact, the purchaser buys the timber and then is not able to log it at its market value when the extension is up, then he relinquishes, he drops his ten percent down payment that he has made to the state.

"All right, then if he relinquishes with the ten percent penalty, then it goes back to the state, the state puts it up for rebid, and any differential in that bid, if the timber is sold for more than the purchaser paid for it, the purchaser picks up the balance. The original purchaser has to pick up the difference in valuation of that sale plus his ten percent penalty. And I am not sure but I think this would be an appropriate time and place, if we are amending this legislation, to go back and at least get to the federal level for our own people that are purchasing timber off the state lands."

Senator Scott: "What you say, Senator, is correct. There is pressure from the timber industry in Congress to in effect allow purchasers of contracts to be relieved of those contracts under conditions like we now have. It is well to remember, as I am sure you know, that contracting and logging timber is essentially a speculative business. There were some that did it five years ago in the state that were cutting it and contracting at sixty-nine dollars a thousand and they sold the timber at one hundred and thirteen, and now it is headed the other way. That is a very risky proposition and I would agree that that proviso that you described needs another look."

Senator Peterson: "Would it not be appropriate, Senator Scott, to at least hold this bill up in time to get an amendment prepared to at least get us on the same basis as the feds? It wouldn't affect the context of the bill. It wouldn't have any affect on that but it . . ."

Senator Scott: "I understand that. Senator, I would have to ask Senator Hayner what her pleasure is, but I am very surprised, if the issue were a burning one that some of the — Bob Austin was there this morning from the private Small Forestry Association, that someone wouldn't have brought that up or the Commissioner wouldn't have brought it up. It is apparently not a burning issue with them."

Senator Peterson: "It may not be to the Association but to my knowledge there were eight or ten sales that were relinquished in the last deadline and I am sure it was a burning issue with those eight or ten contract loggers that had to lose their livelihood, and I think this would be an appropriate time and an appropriate place to
at least conform with the feds and we could do it in this bill with very little time loss."

Senator Scott: "I have to follow Senator Hayner's lead in this respect, and she says that this is a fiscal matter, which it is, and that we would be happy to cooperate with you come January in doing that."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President and members of the Senate, I obviously represent, like Senator Peterson does, a rural logging area, and my biggest problem, Senator Peterson, is the constitutional prohibition against gifts; and relieving somebody of a contract penalty has been ruled as a gift. I am not sure we could do it but in January perhaps we could get an Attorney General's opinion and see if we might provide some relief for these people."

POINT OF INQUIRY

Senator Talmadge: "Senator Scott, I don't want to belabor this but there was a concern expressed that the state was handling these moneys in the same fashion that an escrow agent would handle money for people who were purchasing the timber lands. Could you please explain to me and the members on this side the implications for the state if we abrogate what are ordinarily the principles by which an escrow agent operates?"

Senator Scott: "The money generated in the suspense account is a ten percent deposit as opposed to a prepayment. A deposit at the time the contract is made. The only situation under which a portion of that money would have to be used is if the value and amount of board feet that came out of the woods proved to be greater than was estimated and there had to be, in the end, a reconciling with the contractor and an adjustment made. That has never happened. That money would still be due back to that contractor out of the general fund just as it is paid out now by the Land Commissioner, and so there is no change in that respect. The difference is the money is now in the treasury and can be used in our cash flow problem. If that were to happen, scale volume and value of the logs coming out of the woods was greater than the contract, there had to be an end adjustment, they would be paid."

Senator Talmadge: "Thank you, Senator."

POINT OF INQUIRY

Senator Wilson: "Did any logging interests have any objection to this bill when it was...?"

Senator Scott: "No, Senator, they didn't. Bob Austin came in and talked for the small private foresters this morning, spoke to the corrections needed in the technical amendment that you adopted, and we have corrected those technical problems that existed in the House. There was no other criticism of the bill."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute House Bill No. 773, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 46; absent or not voting, 1; excused, 2.

Absent or not voting: Senator Deccio—1.
Excused: Senators Charnley, Williams—2.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 773, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SENATE CONCURRENT RESOLUTION NO. 126, by Senators Quigg, Talley, Hemstad, Zimmerman and Gallagher:
Establishing a select committee on Mt. St. Helens disaster relief.
The resolution was read the second time in full.
On motion of Senator Quigg, the rules were suspended, Senate Concurrent Resolution No. 126 was advanced to third reading, the second reading considered the third, and the resolution was placed on final passage.

POINT OF INQUIRY

Senator Vognild: "Senator, looking at the makeup of this commission and having discussed this before on the floor of the Senate, would I have your assurance that the intent here is that the five members of the Senate, at least, be appointed in some proportion to both sides of the aisle?"

Senator Quigg: "That is correct, Senator Vognild."

POINT OF INQUIRY

Senator Deccio: "I think that probably the representation isn't quite correct on this bill because I think Senator Hansen and Senator Deccio probably shared as much of the misery as anyone else. I think we may not get on the sponsorship or on the commission but could you at least guarantee us if that thing blows again it is going to go in another direction?"

Senator Quigg: "For the time being we will leave that up to Congressman Bonker."

ROLL CALL

The Secretary called the roll on the final passage of Senate Concurrent Resolution No. 126, and the resolution passed the Senate by the following vote: Yeas, 47; excused, 2.

Excused: Senators Charnley, Williams—2.

SENATE CONCURRENT RESOLUTION NO. 126, having received the constitutional majority, was declared passed.

MOTIONS

On motion of Senator Clarke, the Senate advanced to the eighth order of business.

Senator Clarke moved the Committee on Ways and Means be relieved from further consideration of Senate Bill No. 4421.
Senator Clarke deferred to Senator Zimmerman to explain the reasons for relieving the Committee on Ways and Means of Senate Bill No. 4421. There being no objection, the motion by Senator Clarke carried. On motion of Senator Clarke, Senate Bill No. 4421 was rereferred to the Committee on Local Government.

Senator Ridder moved the Committee on Ways and Means be relieved from further consideration of Senate Bill No. 4444. There being no objection, the motion by Senator Ridder carried. On motion of Senator Ridder, Senate Bill No. 4444 was rereferred to the Judiciary Committee.

Senator Clarke moved the Committee on Education be relieved from further consideration of Senate Bill No. 4383.

**POINT OF INQUIRY**

Senator Bottiger: "Mr. President, I am a little bit unaware of why we are doing this. Why doesn't the Committee report it out with a recommendation that it go to Ways and Means? Is the chairman of the Committee in concurrence with this motion? We held one hearing and at the request of the chairman and his suggestion that we get further information and study it, we held it over until Monday and now you are taking it away from him."

Senator Hayner: "He has had several hearings on this bill—no, there was more than one—how many—two hearings on the bill and it does have to go to Ways and Means because it certainly has a fiscal impact. We could go that route and I am sorry I didn't discuss it with you but this was just to expedite it, actually."

Debate ensued.

**POINT OF INQUIRY**

Senator Ridder: "Question, and I am not sure whether—will Senator Kiskaddon yield? I suspect he stepped on a rusty nail in the woodshed. Senator Hayner? All I want is a point of information. What I want to know is—and I seem to be hearing that this did not follow the normal course, Senator Scott spoke to that, of going to the substantive committee where it would be voted out as a Do Pass before going to the Ways and Means Committee. Am I accurate that it has not achieved that desirable goal?"

(Senator Kiskaddon declined to yield)

Senator Hayner: "Mr. President and ladies and gentlemen of the Senate, I think you are making a mountain out of a molehill. This bill was—we talked about putting it in Ways and Means first. The Ways and Means Committee has been overloaded to this point because of all of this material that has been coming through, the budget and all of the rest. We have had two hearings in the Education Committee. We are trying to move it into Ways and Means now so that we can consider the fiscal impact which it has a very definite fiscal impact, not only on the state but on local school districts. So I don't think there is anything strange about this at all. We are trying to expedite the process. If you want to slow it down, so be it."

Further debate ensued.

**POINT OF INQUIRY**

Senator Fleming: "Just briefly, I would like for the real Bill Kiskaddon to stand up and tell us whether this is a mountain or a molehill."

Senator Kiskaddon: "Mr. President and ladies and gentlemen, I believe that considering the length of the session and where we are, this is definitely a molehill."

Senator Ridder demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the motion by Senator Clarke that the Committee on Education be relieved from further consideration of Senate Bill No. 4383.

ROLL CALL

The Secretary called the roll and the motion carried by the following vote: Yeas 25; nays, 24.

Voting yea: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer, Zimmerman—25.

The Committee on Education was relieved from further consideration of Senate Bill No. 4383.

On motion of Senator Clarke, Senate Bill No. 4383 was rereferred to the Committee on Ways and Means.

November 18, 1981.

SECOND SUBSTITUTE HOUSE BILL NO. 557, prohibiting transfer of assets for the purpose of qualifying for medical assistance benefits (reported by Committee on Social and Health Services):

MAJORITY recommendation: Do pass with the following amendments:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Section 1. There is added to chapter 74.09 RCW a new section to read as follows:

A person is ineligible for medical assistance or the limited casualty program for the medically needy for a period determined under section 2 of this act if the person knowingly and wilfully assigns or transfers cash or other resources at less than fair market value after the effective date of this act for the purpose of qualifying or continuing to qualify for such medical care within two years preceding the date of application for such care: PROVIDED, That for the purpose of qualifying for such care and notwithstanding the provisions of chapter 26.16 RCW, this section shall not prohibit the voluntary transfer or assignment between spouses.

NEW SECTION. Sec. 2. There is added to chapter 74.09 RCW a new section to read as follows:

(1) If the uncompensated fair market value of the resources assigned or transferred is:

(a) Twelve thousand dollars or less, the period of ineligibility shall be prorated up to twelve months from the date of transfer;
(b) More than twelve thousand dollars but less than thirty thousand dollars, the period of ineligibility shall be prorated up to twenty-four months;
(c) More than thirty thousand dollars but less than fifty thousand dollars, the period of ineligibility shall be prorated up to thirty-six months;
(d) More than fifty thousand dollars, the period of ineligibility shall be forty-eight months.

NEW SECTION. Sec. 3. There is added to chapter 74.09 RCW a new section to read as follows:

In cases where applicants for or recipients of medical assistance or the limited casualty program for the medically needy have been found by the department to be ineligible because of the knowing and wilful transfer of cash or resources at less than fair market value, the department shall establish procedures by rule allowing applicants or recipients to rebut the finding that the transfer was made for the purpose of qualifying for or continuing to qualify for such medical care. The prevailing party in such an action shall be awarded reasonable attorney fees.

NEW SECTION. Sec. 4. There is added to chapter 74.09 RCW a new section to read as follows:

(1) Any person who knowingly and wilfully receives cash or resources transferred or assigned for less than fair market value after the effective date of this act to enable an applicant or recipient to qualify for assistance under RCW 74.09.510 or 74.09.700 is guilty of a gross misdemeanor.
(2) Any person who knowingly and wilfully receives cash or resources transferred or assigned for less than fair market value is liable for a civil penalty equal to the uncompensated value of the cash or resources transferred or assigned at less than fair market value. The civil penalty shall not exceed the cost of assistance rendered by the department to an applicant or recipient. The person may rebut the presumption that the transfer or assignment was made for the purpose of enabling the applicant or recipient to qualify or continue to qualify for assistance. The prevailing party in such an action shall be awarded reasonable attorney fees.

(3) Any moneys collected under this section shall be deposited in the revolving fund which is hereby created. This revolving fund shall consist of all fees collected under this section and any moneys appropriated to it by law. The state treasurer shall be the custodian of the revolving fund. Disbursements from the revolving fund shall be on authorization of the secretary or the secretary’s designee. In order to maintain an effective expenditure and revenue control, the revolving fund shall be subject in all respects to chapter 43.88 RCW, but no appropriation is required to permit expenditures and payment of obligations from the fund.

Sec. 5. Section 4, chapter 30, Laws of 1967 ex. sess. as last amended by section 20, chapter 6, Laws of 1981 1st ex. sess. and RCW 74.09.510 are each amended to read as follows:

(b) A patient deductible not to exceed one-half the payment the department makes for the first day's stay for inpatient hospital care, shall be included for the medically needy component of the program;

(c) Persons who are medically indigent and are not eligible for a federal aid program shall satisfy a deductible of not less than one thousand five hundred dollars in any twelve-month period;

(d) Medical care services provided to the medically indigent and received no more than seven days prior to the date of application shall be retroactively certified and approved for payment on behalf of a person who was otherwise eligible at the time the medical services were furnished: PROVIDED, That eligible persons who fail to apply within the seven-day time period for medical reasons or other good cause may be retroactively certified and approved for payment.

NEW SECTION. Sec. 8. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 9. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately."

Signed by: Senators Deccio, Chairman; Craswell, Kiskaddon, McCaslin, Metcalf, Rasmussen.

The bill was read the second time by sections.

Senator Deccio moved adoption of the committee amendment.

Senator Talmadge moved adoption of the following amendment to the committee amendment:

On page 1 of the amendment, after line 31 strike everything down to and including "hardship." on page 2, line 23 and insert the following:

"(1) If the uncompensated fair market value of the resources assigned or transferred is:

(a) Twelve thousand dollars or less, the period of ineligibility shall be prorated up to twelve months from the date of transfer;
(b) More than twelve thousand dollars, the period of ineligibility shall be pro-rated up to twenty-four months;

(2) The department may waive a period of ineligibility if the department determines that the application of the period of ineligibility will cause undue hardship."

Senator Clarke demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Talmadge to the committee amendment.

ROLL CALL

The Secretary called the roll and the amendment to the amendment was not adopted by the following vote: Yeas, 22; nays, 25; excused, 2.

Voting nay: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallaghan, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer, Zimmerman—25.

Excused: Senators Fleming, Gaspard—2.

Senator Talmadge moved adoption of the following amendment to the committee amendment:

On page 2 of the amendment, after line 26 strike everything down to and including "fees." on page 3, line 5 and insert the following:

"The department, by rule, shall adopt procedures to provide due process for applicants or recipients found not to qualify for medical assistance or the limited casualty program for the medically needy. At any hearing the department shall prove by a preponderance of the evidence that the person knowingly and wilfully assigned or transferred cash or other resources at less than fair market value for the purpose of qualifying or continuing to qualify for the benefits or care. The prevailing party in such an action shall be awarded reasonable attorney fees."

Debate ensued.

POINT OF INQUIRY

Senator Kiskaddon: "Senator Talmadge, unfortunately I am not a lawyer and 'rebuttablly presumed to be guilty' means nothing to me. Could you explain to me what that really means?"

Senator Talmadge: "A rebuttable presumption means that the fact is true unless somebody shows to the contrary. In other words, that older person is guilty of knowingly and wilfully transferring the asset for less than fair market value unless they can show in the hearing to the contrary."

Further debate ensued.

POINT OF INQUIRY

Senator Hemstad: "Senator Talmadge, I am still trying to get clear in my mind the distinction between your amendment and the one from the committee. If there is a generational transfer within the four-year period, say to a son or a daughter, may that son or daughter be able to be pursued to recover the cost of the medical care even if the transfer is not made knowingly and wilfully to avoid payment by the donor?"

Senator Talmadge: "Senator, I would say yes. Later on in the bill there is a section that provides a criminal penalty and a civil sanction for those individuals who receive property with the understanding that it is divested in order to qualify
Senator Hemstad: "So does it follow that the state would be made whole for the costs of care if they were able to pursue and obtain access to the asset that had been transferred?"

Senator Talmadge: "If they can find the person to whom the assets have been transferred, yes. And there is a problem in reality that a lot of these people cannot be found, but if they can find the person, yes, they will. The problem is the older person that has actually done the transferring of the assets is then left holding the bag with ineligibility for nursing home care and also for the eligibility for the limited casualty program."

Senator Hemstad: "Thank you."

Further debate ensued.

POINT OF INQUIRY

Senator Hughes: "Senator Talmadge, in listening to Senator Shinpoch discuss the shift of the burden of proof, I guess I am a little concerned that the possibility exists we are now abandoning the traditional English law principles of burden of proof and almost moving into the French system of proof where the individual has that responsibility placed upon him. Are we looking at denying needed services to senior citizens because they may or may not be able to meet the burden of proof that has now been shifted from the Department to them? Is that the effect if your amendment is not adopted?"

Senator Talmadge: "Senator, I believe that that would be the impact, and I believe that is the reason the senior citizens’ lobby has been so very concerned about this bill and so very concerned about this particular section."

Further debate ensued.

POINT OF INQUIRY

Senator Hurley: "Senator Talmadge, it seems to me that your last sentence saying that the prevailing party should be awarded their attorney fees, it seems to me this should be so only if the individual is the prevailing party. It seems to me that the state is already, their attorneys and all of their many assistants and specialists and things like this, that only the individual should. Do you think that should be a correction?"

Senator Talmadge: "Senator, I would consider that a friendly amendment to the amendment to the amendment."

Senator Hurley: "I don't think that is possible, is it? How do you think I could accomplish that?"

POINT OF INQUIRY

Senator McDermott: "Senator Talmadge, if there was a wheat farmer who had ten thousand acres and he gave his farm to his son. His son came to him and said, 'Dad, you are seventy-five and I think it is too late. We ought to be passing on the farm here and you ought to retire and move into town,' and he gave that farm to his son and then got something, some disease or whatever and needed public assistance for some reason because he ran out of money. Would he be presumed guilty under this law?"

Senator Talmadge: "Yes."
POINT OF INQUIRY

Senator Wilson: "Senator Talmadge, I guess we are kind of passing over Senator Hurley's point, but as far as I can see under the present wording of your amendment, if the state takes after the elderly person and if it succeeds in proving what took place, it can also go after some attorney fees which the elderly person might or might not be able to come up with. Although this amounts to the three amendments that can't be done, I don't think it is a point we should just slip by and it would seem to me if you would withdraw your amendment and put in one that corrects this point we would be doing a better job."

Senator Talmadge: "In response to Senator Wilson's remarks, if we could set the bill down one bill I would be happy to withdraw my amendment and prepare an amendment that would do exactly that."

MOTIONS

On motion of Senator Jones, Second Substitute House Bill No. 557, together with the committee amendments and the pending amendment to the committee amendment, was ordered held for consideration later today.

On motion of Senator Clarke, Substitute House Bill No. 760 and Substitute House Bill No. 774 were ordered held on the second reading calendar for Monday, November 23, 1981.

SECOND READING

ENGROSSED HOUSE BILL NO. 780, by House Committee on Labor and Economic Development and Representative Sanders (by Governor Spellman request):

Modifying provisions relating to the state trade fair fund.

REPORT OF STANDING COMMITTEE

ENGROSSED HOUSE BILL NO. 780, modifying provisions relating to the state trade fair fund (reported by Committee on Commerce and Labor):

MAJORITY recommendation: Do pass with the following amendment:

Strike everything after the enacting clause and insert the following:

"Section 1. Section 2, chapter 93, Laws of 1972 ex. sess. as amended by section 8, chapter 292, Laws of 1975 1st ex. sess. and RCW 43.31.832 are each amended to read as follows:

In addition to the sum transferred in RCW 43.31.831, additional funds determined to be surplus funds by the director of the department of commerce and economic development may be transferred from the state (international) trade fair fund to the general fund upon the recommendation of the director of the department of commerce and economic development and the state treasurer: PROVIDED, That notwithstanding any provision of law to the contrary, the director may also elect to expend all or part of such surplus on the department of commerce and economic development foreign trade related activities, including, but not limited to, promotion of investment pursuant to RCW 43.31.060, tourism pursuant to RCW 43.31.050, and foreign trade pursuant to RCW 43.31.350 through 43.31.370."

Signed by: Senators Quigg, Chairman; Jones, Newhouse, Sellar.

The bill was read the second time by sections.

Senator Quigg moved adoption of the committee amendment.
Senator Pullen: "I am reading the Senate committee amendment and I see a great deal of talk here on the floor and I have heard the talk in caucuses about foreign trade. However, I notice the Senate committee amendment also refers to tourism. What kind of tourism are we talking about there? Would it just be international tourism or are we talking about interstate tourism or what kind?"

Senator Quigg: "Senator Pullen, the matter before us on this bill would be international tourism which is a very substantial part of the potential tourist trade for the state of Washington, particularly as it relates to the Western Pacific nations."

Senator Pullen: "So it is the intent of this amendment to be applied to international tourism but not interstate tourism?"

Senator Quigg: "Well, Senator, I imagine if there was a tourist in Tokyo that dropped by the Washington State office there and found out about the wondrous tourist opportunities of our state and came here, we would then benefit from an intra or at least a non-international tourist coming our way. It is difficult to screen them, but the intent of this would be for international tourism which is a vast market and one that the state of Washington and its citizens could benefit greatly from developing."

Debate ensued.

Senator Hurley: "Senator McDermott, you may have some figures that were in my mind when we had a very sketchy meeting on this bill. It was sort of a hurry up and I wasn't able to answer all the questions, and since then I have thought of a few more, and I wondered what percentage of the horse racing revenue that I know is allocated to the state trades fund, what percentage is that?"

Senator McDermott: "Senator Hurley, I don't know. I also had some questions today. This bill was not referred to Ways and Means. I went and got our copy of the OFM publication for the Commerce and Economic Development Department. I looked up the state trade fair fund. The money for that comes from the Horse Racing Commission. It said it was on page 185 and I looked through this OFM document and there is no page 185 in here, so I don't suppose anybody knows since apparently the Commerce and Economic Development Department didn't put a budget out for them. I do not know the percentage and I think it really ought to be referred to Ways and Means so we know exactly what we are doing."

Senator Hurley: "Mr. President, if I could ask my other questions, because if it is then referred to Ways and Means, I think the answers to these questions are necessary before we decide on the amendment. I would like to know how much is in the fund at present because it only mentions surplus, and what happens to that money, where does it go if it is not used for the state trade fair? Would that be going to the general fund or not?"

Senator Newhouse: "Mr. President, ladies and gentlemen, I don't know that my answers are authoritative, Senator Hurley, but sixteen percent of the revenue at the horse races goes to the state. One percent of that, you may recall, is reserved for Washington bred horses and the other is divided for the track and for the purses, and three percent of that which goes to the state goes to the state trade fair fund. That is not three percent of one hundred percent but three percent of the part that goes to the state, and this would amount to in a year somewhere near a half a million dollars, and of that amount, I think, one hundred and forty thousand, I am
about right, is committed to purposes at, as I recall, Washington State and the University of Washington for certain research, things like that."

REMARKS BY SENATOR HURLEY

Senator Hurley: "I would just like to respond to Senator Newhouse. I really don't like to use approximate figures, but if there should be a half a million at present, I don't think it is too much to ask those who would benefit by this establishment of the office overseas of a state trade fair. I don't think that those who benefit should complain about adding an equal amount in order to support this activity. I think that the trickle-down theory is one that is pretty obvious here. There were comments made in committee that it would then help the economy, it would then help the sales tax, help a few things, but those who have benefited directly by selling their products and their produce overseas, I think they should participate."

REMARKS BY SENATOR MOORE

Senator Moore: "Mr. President, fellow members, partially answering Senator Hurley's question on this, it is my understanding that basically these overseas offices that we would have would be to secure capital rather than or in addition to selling products and general promotion and this is a capital poor state and we need foreign investments to help create additional jobs. And I consider it not a corporate welfare bill at all. I think that it helps the economy by creating jobs which in turn help the taxpayers. Thank you."

POINT OF INQUIRY

Senator Shinpoch: "Mr. President, would Senator Quigg yield to a question? Mine is much simpler than some of the others. How much money is involved?"

Senator Quigg: "Senator, the fiscal note indicated three hundred and forty thousand dollars. I believe that was three hundred and forty thousand dollars for this biennium."

Senator Shinpoch: "Thank you, Senator."

Further debate ensued.

POINT OF INQUIRY

Senator Metcalf: "Senator Quigg, I told you previously that I would vote for this amendment and it is my fault, I apologize. I hadn't read it. Now I read that—I was speaking in terms of tourism and foreign trade, but I see on line 32 of the amendment we are talking also about the promotion of investments pursuant to RCW. Can you tell me, what do we mean by that? What is promotion of investment, includes what?

Senator Quigg: "Senator Metcalf, the remarks of Senator Moore on this point, I think, would be well taken. The Western Pacific nations are the ones that would be the first to be targeted by this activity and those nations look to the state of Washington as an opportunity for investment, for capital investments to provide jobs in the state of Washington and of course the state, as we well know, is right around sixth in the nation in unemployment right now. So one of the important things those folks have to have before they make investments is information, to know about what the state of Washington provides for them in terms of raw materials and labor and energy and all of the other, and logistical connections to the rest of this nation and that is the kind of information this office can provide so that investment could then be directed to our state, so that is the role that this office would play as far as the investment side of the bill is concerned."
Senator Metcalf: "Thank you, Senator Quigg."

Further debate ensued.

Senator Pullen moved adoption of the following amendment to the committee amendment:

On lines 33 and 34 of the committee amendment, strike ", tourism pursuant to RCW 43.31.050."

POINT OF INQUIRY

Senator Woody: "Mr. President, I would like to ask either Senator Quigg or Senator Vognild or both to respond to a concern I have about this amendment. I notice on line 28 it says that the moneys may be spent by the Department of Commerce and Economic Development for foreign trade related activities including and not limited to promotion, tourism, foreign trade and so on, and my concern is, what are we including in this broad area of 'but not limited to'?"

Senator Quigg: "Senator Woody, the Department of Commerce and Economic Development's activities as it relates to foreign trade are, of course, carried out not only in the state of Washington but should this pass, it could be carried out overseas as well, but I think that the matter of trade, tourism and investment is one that the funds of the Department can be directed to on a regular basis and they do it throughout their spectrum of activities. I imagine that when they are over here informing the legislature on a matter like this, it could be considered somewhat outside the scope, possibly, of some of the items cited right there, but nonetheless they are still working on the expansion and development of trade, tourism and investment.

"So I think that that is the kind of broad language we see these folks getting regularly because we know when we try to direct them on a day-to-day basis it doesn't work very well. I think for that reason we should provide the Department with that kind of broad language so that they can be as effective as other states in doing this kind of competitive work to see that that investment trade and tourism come to our state. So that provides them that broad latitude."

REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "Senator Quigg, I don't think your explanation was just accurate that you gave to Senator Woody.

"If I might refer you to the line starting on 24, 'Provided, that notwithstanding any provisions of law to the contrary the Director may also elect to spend all or part of such surplus on his Department of Commerce and Economic Development foreign trade related activities.' Notwithstanding any other law that we have on the books. The law that says that you shall not host and the law that says that you shall not waste money, and all the numerous things that we have and the fact that with this type of an amendment it is very handy because the auditor has nothing to hang his hat on. All the Department of Commerce has to say is, well, the Legislature passed a law that says notwithstanding any other laws that we have on the books, we can spend the money in any way that we want to. That is for Senator Woody's information. That is not what you said, but when you strike all the laws off the books then in a freewheeling society they can spend their money any way they want to. Even you can't complain about it after it is spent and the auditor has nothing at all that he can hang his hat on, so I would urge you to take another look at the words that are in there and see if that is exactly what you want to espouse."

"I don't think even Congressman Bonker would espouse that, and I understand you are figuring on running against Congressman Bonker and he might use that in a campaign. Senator Quigg wants to throw money around notwithstanding any laws that we have had for years and years. Maybe that is what you want, Senator Quigg."
I don't know. I would prefer that you vote against this amendment and indicate you have some concern for the people's money."

The motion by Senator Pullen failed and the amendment to the committee amendment was not adopted.

Senator Woody moved adoption of the following amendment by Senators Woody and Metcalf to the committee amendment:

On page 1, line 27 of the committee amendment, after "expend" strike "all or part" and insert "up to $1,000,000"

The motion by Senator Woody carried and the amendment to the committee amendment was adopted.

Senator Metcalf moved adoption of the following amendment to the committee amendment:

On page 1, line 32, strike line 32 and "RCW 43.31.060"

Debate ensued.

The motion by Senator Metcalf failed and the amendment to the committee amendment was not adopted.

On motion of Senator Rasmussen, the following amendment to the committee amendment was adopted:

Beginning on line 25 of the amendment, strike all material through "contrary," on line 26

Senator Woody moved adoption of the following amendment to the committee amendment:

On page 1, line 31, strike "including but not limited to" and insert "of,"

Debate ensued.

Senator Woody demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Woody to the committee amendment.

ROLL CALL

The Secretary called the roll and the amendment to the committee amendment was not adopted by the following vote: Yeas, 20; nays, 27; excused, 2.

Voting nay: Senators Benitz, Bluechel, Clarke, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hansen, Hayner, Hemstad, Jones, Kiskaddon, Lee, Lysen, McCaslin, Newhouse, Patterson, Peterson, Pullen, Quigg, Scott, Sellar, Talley, von Reichbauer, Zimmerman—27.

Excused: Senators Fleming, Gaspard—2.

Senator McDermott moved adoption of the following amendment to the committee amendment:

On page 2, line 1 following "43.31.370" and before the period, insert ": PROVIDED FURTHER, That the money shall be used for an office in Japan only"

Debate ensued.

The motion by Senator McDermott failed and the amendment to the committee amendment was not adopted.

The President declared the question before the Senate to be the committee amendment, as amended.

Debate ensued.

Senator Vognild demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the committee amendment, as amended.
ROLL CALL

The Secretary called the roll and the committee amendment, as amended, was adopted by the following vote: Yeas, 27; nays, 20; excused, 2.

Voting yea: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hansen, Hayner, Hemstad, Jones, Kiskaddon, Lee, Lysen, Moore, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, Talley, von Reichbauer, Zimmerman—27.

Excused: Senators Fleming, Gaspard—2.

On motion of Senator Quigg, the rules were suspended, Engrossed House Bill No. 780, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Quigg, I think when we were debating previously the amendment, it was stated that there would be not more than three hundred and forty thousand available to this fund. Is that correct?"

Senator Quigg: "Senator Rasmussen, the present projection of funds for this program are estimated to be three hundred and forty thousand dollars. As you know, they are the surplus from those pari-mutuel funds. It could be greater or it could be less, but it is expected to be somewhere in that range."

Senator Rasmussen: "It is not our intention then to spend a million dollars?"

Senator Quigg: "The intention is, according to legislation, to spend less than a million dollars, Senator."

Senator Rasmussen: "Spend three hundred and forty thousand or less?"

Senator Quigg: "No, it is a million or less the way the bill is now, Senator Rasmussen, and three hundred and forty thousand is still less than a million. In fact, that will go for the improvement of trade which occurs in the Pierce County area at the Port of Tacoma, so I am sure you would be very interested in that."

Senator Rasmussen: "We will take care of that trade. I am not running for Congress, Senator Quigg. This amendment strikes everything after the enacting clause so there is no mention of a million dollars."

Senator Quigg: "The amendment as amended has a million dollar cap in it, Senator Rasmussen. Commissioner Rasmussen."

Senator Rasmussen: "Not more than. But there is only three hundred and forty thousand dollars available."

Senator Quigg: "Presently, there is estimated to only be three hundred and forty thousand dollars available, as I have answered earlier."

Senator Rasmussen: "Thank you."

Debate ensued.

POINT OF INQUIRY

Senator Hurley: "I don't think it is absolutely clear. On line 13 it says, 'In addition to the sum transferred in RCW, additional funds determined to be surplus by the director.' Now I don't know what those additional funds determined to be surplus. It seems to me that this would give the director authority over all the funds that go to the Department of Commerce and Economic Development and that he could declare any amount of those surplus, add those to what he gets from that one percent, and spend it all for this purpose. Is that true?"

Senator Quigg: "Senator Hurley, there are trade funds as mentioned earlier by Senator Vognild in his remarks that have a matching ratio and that are used for that
particular purpose. There are two such accounts like that. These accounts, I believe, have a total appropriation for this biennium of around one hundred and fifty thousand dollars, so the moneys that come from the pari-mutuel funds that we are discussing here today in excess of those would be the funds that would be available for the purposes set forth in this bill."

Senator Hurley: "But he wouldn't be able to use any of the other funds then that come to the Department of Commerce and Economic Development? Is that right? Any of the other ones?"

Senator Quigg: "Senator, he can use other funds as well. It just says that these funds may also be used, the funds that are coming from the pari-mutuel betting."

Senator Hurley: "The limit is not what Senator Rasmussen thinks it is."

Further debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed House Bill No. 780, as amended by the Senate, and the bill passed the Senate by the following vote:

Yeas, 27; nays, 20; excused, 2.

Voting yea: Senators Benitz, Bluechel, Clarke, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hansen, Hayner, Hemstad, Jones, Kiskaddon, Lee, Lysen, Moore, Newhouse, Patterson, Peterson, Quigg, Rasmussen, Scott, Sellar, Talley, von Reichbauer, Zimmerman—27.

Excused: Senators Fleming, Gaspard—2.

ENGROSSED HOUSE BILL NO. 780, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

Prohibiting transfer of assets for the purpose of qualifying for medical assistance benefits.

The Senate resumed consideration of Second Substitute House Bill No. 557 from earlier today. At that time, Senator Deccio had moved adoption of the committee amendment. An amendment by Senator Talmadge to page 2, following line 26 of the committee amendment had been moved for adoption.

On motion of Senator Talmadge, there being no objection, the amendment to the committee amendment was withdrawn.

Senator Talmadge moved adoption of the following amendment by Senators Talmadge and Deccio to the committee amendment:

On page 2 of the amendment, after line 26, strike everything down to and including "fees." on page 3, line 5 and insert the following:

"The department, by rule, shall adopt procedures to provide due process for applicants or recipients found not to qualify for medical assistance or the limited casualty program for the medically needy. At any hearing the department shall prove by a preponderance of the evidence that the person knowingly and willfully
assigned or transferred cash or other resources at less than fair market value for the purpose of qualifying or continuing to qualify for the benefits or care. If the prevailing party, in such an action is the person, the person shall be awarded reasonable attorney fees."

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "I need a little clarification here, Senator. In the event that the Department is going after this aged person, whomever it may be, that they think has defrauded the state, who handles the Department's case? They usually use two or three Attorneys General, don't they?"

Senator Bottiger: "Yes, they would use the Attorney General's office."

Senator Rasmussen: "On full pay."

Senator Bottiger: "Sure. And sometimes they contract it out, Senator Rasmussen. If they are overloaded they may pick up somebody on a contract."

Senator Rasmussen: "On the bigger cases where there is a good . . ."

Senator Bottiger: "They have done it on little cases too."

Senator Rasmussen: "Then my question would be, so the state has the attorneys already paid for, presumably through the State Attorney General, but the party that is defending themselves doesn't have any state paid attorneys. This would say that if they could interest an attorney, such as Phil Talmadge who is very capable, in their case and he would study it and find out there was merit, that that attorney would then get his reasonable attorneys' fees. Are attorneys' fees awarded by the court? Would they be awarded against the state?"

Senator Bottiger: "Yes, Senator Rasmussen. Remember where we are. There is an amendment on that that is up there, and Senator Talmadge is offering to substitute this for the other amendment. The other amendment says the prevailing party, either way, gets the attorney fee. So if it is the state and the person has the money in the sock, he has to pay the state for the cost of bringing the action. If he is right, the individual is right, then he gets awarded his attorney fees for defending the action. That is the way we usually do it, and the original amendment is just fine.

"The concern Senator Hurley had for the elderly person who has no money, there is no way to collect it anyhow. If we are talking about somebody applying for Medicare or for nursing home care, they have no funds so there is no way to collect the money."

Senator Rasmussen: "Then the original amendment would be the better one."

Further debate ensued.

The motion by Senator Talmadge carried and the amendment to the committee amendment was adopted.

The President declared the question before the Senate to be the committee amendment, as amended.

POINT OF INQUIRY

Senator Williams: "Mr. President, before we adopt the amendment, which is the bill now as I understand it, would Senator Talmadge yield to a question? I assume you are the one who has been answering all the legal questions on this, but on Section 4, I have a question about the penalties to those people who receive property or something of value from the person who later on may apply for public assistance. The situation that I am curious about is, after the effective date of this act, let's say some time down the road, for whatever reason, a parent transfers property to a member of the family and at some later date, well past two, three, four, five years, for whatever reason, they are in a position of seeking public assistance. Does
the person who has received property or money and so forth, are they in jeopardy then of being, for whatever reason, being charged with some crime in this bill then?"

Senator Talmadge: "No, I think not, because if you look at Section 1 of the committee amendment there is a section on line 21 that indicates that the transfer must take place within two years preceding the date of application for such care, limited casualty program or the Medicaid program. So the way I would read Section 4 is the transfer has to take place within two years of the time of the application for the benefits before that criminal sanction can apply. So it wouldn't be seven or eight years in your example, Senator Williams."

Senator Williams: "Okay, that is a better way of asking the question which I really wanted to ask. In other words, does the two-year period that is mentioned in Section 1 then, as you understand it, apply within Section 4 also?"

Senator Talmadge: "Yes, it does."

Senator Williams: "Thank you."

Senator McDermott moved adoption of the following amendment to the committee amendment:

On page 8, line 28 of the committee amendment, strike "Sec. 9."

Debate ensued.

POINT OF INQUIRY

Senator Bottiger: "Mr. President and Senator Clarke, we passed the bill, really the major bill was passed in the last session with bipartisan support and I think almost unanimous votes. This is just a little clean-up thing into the emergency section.

"Now nobody has put a fiscal note on this and somebody is telling us that we are now going to save a whole bunch of money by passing this bill. We would like to know about it. We are sure not counting on it saving more money. I think the bill we passed last year might save some, but has anybody got a fiscal dollar amount on this bill that we are going to save?"

Senator Deccio: "In response to Senator Bottiger's request, the dollar figure that we got from the Department was about four or five million dollars. Not in this biennium."

Further debate ensued.

POINT OF INQUIRY

Senator Hansen: "Senator Deccio, you raised some concerns in my mind when you said that there is four or five, six, seven million dollars that could be collected this direction, so I am going to put a hypothetical question to you.

"Say a farmer, and he has had a son, his son has been running the place for many years and has finally decided to transfer that estate into his son's name for their purposes. He gets in a car wreck and he is in intensive care for, say, a year. If he hadn't transferred that two years in advance, then is this the case that the state is going to go after that estate and mop it out for the gentlemen that had been working on that place his whole career?"

Senator Deccio: "Senator Hansen, I can't answer that question for you right now. I will get the answer in just a couple of minutes if I may."

POINT OF INQUIRY

Senator McDermott: "Senator Bottiger, let's suppose that an attorney had a client come into his office and ask him to draw up the papers to transfer his estate to one of his children, and the attorney was unaware of the change in this law and did not tell the client how that might be interpreted if something befell them in the future. In other words, he didn't tell them all the consequences. What liability does
the attorney have in that situation, having a law go into effect like this immediately?"

Senator Bottiger: "Senator McDermott, if the attorney was aware and didn't tell his client, he would very clearly be guilty of legal malpractice. I am more concerned about the poor attorney who has the client come in, and if you will look at page 5, the new (4). If somebody came into my office and looked it up, I looked at the 1981 statutes which are in the books that I buy, they are about 90 days after we adjourn they finally get to us and I looked it up and by golly, there is no subsection four. That language isn't in there talking about somebody who was not eligible or had not received, and so I analyse it and tell them, 'I can't find anything that says you can't do this.' And lo and behold, there was an emergency clause on a bill that none of the books contain any of that material or it is no place to be found. I guess I would call my malpractice carrier and tell them what happened."

Further debate ensued.

REMARKS BY SENATOR CLARKE

Senator Clarke: "In response to both Senators Bottiger and McDermott, and Senator Bottiger referred to Section (4), number one says, 'Any person who knowingly and willingly receives cash or resources transferred or assigned for less than the fair market value'—wait a minute, I am reading the wrong section. What I am saying is that the transfer, in order to be in violation, must be for the purpose, in effect, of enabling the grantor to become eligible for welfare. So Senator Hansen, in your situation the transfer was not made for the purpose of enabling him to become eligible for welfare. It was made for other purposes, and your automobile accident occurred some time subsequently.

"As I understand this bill, it is to prevent transfers which are made for the purpose of having the donor become eligible for welfare. It is a thing that I think all attorneys will concede is not an unusual practice at all. We will have a person who would not otherwise be eligible for welfare because they own a substantial asset, and there is nothing in the law now that prevents them from transferring those assets to the son or the daughter or whoever and then they are eligible for welfare."

"Now the intent of this bill and the reason why there is an emergency clause on it is that this is a loophole that ought to be closed up so that the state does not become saddled with caring for people on welfare who, in reality, have sufficient assets to take care of themselves but in order, in effect, to have the state pay for their welfare, they transfer it."

"Now that is the whole purpose of the bill and that is the reason for the emergency clause, because we are closing a loophole. And in the event, as a matter of fact as Senator Bottiger suggests, we give the attorneys time to find out, they probably will go out and have everybody transfer it before the law becomes effective, and I suggest that is not the thing we are trying to do here."

Senators Jones, Clarke and Hayner demanded the previous question and the demand was sustained.

The President declared the question before the Senate to be the amendment by Senator McDermott to the committee amendment, as amended.

The motion by Senator McDermott failed and the amendment to the committee amendment was not adopted.

The President declared the question before the Senate to be the committee amendment, as amended.

The motion by Senator Deccio carried and the committee amendment, as amended, was adopted.

On motion of Senator Deccio, the committee amendment to the title was adopted.
On motion of Senator Deccio, the rules were suspended, Second Substitute House Bill No. 557, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator McDermott: "Senator Bottiger, today the average rate in a private nursing home is fifty dollars and fifty cents per day, which totals up to about eighteen thousand dollars a year. If an elderly person, at the suggestion of the operator of a nursing home, were to sign over their property at something less than its market value, who would then be liable if the elderly person was thrown out of the nursing home on the basis of that transaction? In other words, if they had signed over their property and the nursing home operator said, 'I will keep you as long as the value of the property lasts,' and then the value ran out and they put them on Medicaid. Who would be liable in that situation?"

Senator Bottiger: "There are two penalties, Senator McDermott. The first would be to the elderly person who would be disqualified if he knowingly and willfully did it, for a period of up to twenty-four months. Secondly, the recipient of the property, under section four, would be guilty of a gross misdemeanor and subject to a civil fine and that would include a church, a charitable organization, any type of group to which people traditionally make gifts like this. We have been talking about that mean kid that is out to get the family farm, but the breadth of this bill is much greater. I want to tell you, I support that. My only concern was, you are going to make it effective tomorrow and there are going to be a lot of churches that had better revamp their little fliers that they send out and things of this nature to make sure that that person knows that he is going to be ineligible to go on public assistance."

REMARKS BY SENATOR NEWHOUSE

Senator Newhouse: "Mr. President, ladies and gentlemen, I must argue a little with Senator Bottiger's answer. Under the particulars laid down by Senator McDermott, where the value was substantial, you did say that the entire assets would be used up by the per month charge in that nursing home and therefore there would be no willful or any disobedience to the law at all. The assets are used up and it would not be contrary to this bill."

POINT OF INQUIRY

Senator Talmadge: "Senator, I am looking at page 2, lines 18 through 23 of the committee amendment and that is subsection two of section two which states, 'The department may waive a period of ineligibility if the department determines that the application of the period of ineligibility will cause undue hardship.' Senator, by the adoption of such particular subsection to section two, is it the intent of the proponents of this bill that there would be no situation in which an old person who was really legitimately in need of nursing home care would be turned away from nursing home care by the Department of Social and Health Services?"

Senator Deccio: "Senator Talmadge, that is correct. As a matter of fact, we asked Mr. Jerry Riley, the head of the Medical Assistance Unit in DSHS two or three times whether this meant just exactly the way that it read and the answer was yes, and I think it has been reinforced and will be further reinforced by your question and my answer being read into the Journal."

Senator Talmadge: "So it is the intent that this section be very liberally construed."

Senator Deccio: "Yes, it is."

Senator Talmadge: "Thank you, Senator Deccio."

PARLIAMENTARY INQUIRY

Senator Bottiger: "Mr. President, that was a suspension of the rules. It takes a two-thirds vote."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Bottiger, the Senate rules do not specifically cover this particular situation. That would apply during a regular session, but this being a special session, the rule simply doesn't cover it. Therefore, I would have to, where a situation is not specifically covered, go to Reed's Rules. Rule 23 applies."

Senator Bottiger: "Mr. President, I understood Senator Clarke's motion to be to suspend the rules, and I was looking at Rule 67 which reads 'every bill shall be read on three separate days.' The bill comes out of committee on second reading, and then on second reading calendar amendments at the end and where no further amendments shall be offered the President shall declare the bill is passed its second reading and shall be referred to the Committee on Rules for third reading, so we are suspending Rule 69 of the Senate Rules."
FIFTEENTH DAY, NOVEMBER 23, 1981

REPLY BY THE PRESIDENT

President Cherberg: "What was considered was the receiving of the standing committee report. Rule 69 refers to advancing the bill from second reading."

REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "Mr. President, referring to Rule 68 provides that after first reading a bill shall be referred to the proper standing committee and upon being reported back by the committee, all bills shall be referred to the Committee on Rules for second reading unless otherwise ordered by the Senate, and it provides then that you must have a suspension of the rules in order to get by Rule 68 which requires a suspension of the rules. Yes, the Senate at any time can do that by a suspension of the rules. And the special session has nothing to do with the rules because the rules of the regular session are adopted for the rules of the special session."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Rasmussen, the President reads Rule 68, understanding of Rule 68 is somewhat different from yours. You read, 'Upon being reported by committee, all bills shall be referred to the Committee on Rules for second reading unless otherwise ordered by the Senate.' Rule 52 merely applies to the procedures in the Rules Committee."

REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "Yes, but the point is, Mr. President; on a point of order, that it does require a suspension of Rule 68 and that was what Senator Clarke moved and it did not get the two-thirds vote necessary to suspend the rules."

REPLY BY THE PRESIDENT

President Cherberg: "The President believes that is covered by the statement, 'unless otherwise ordered by the Senate.' The Senate under Rule 67 ordered that every bill shall be read on three separate days unless the Senate deems it expedient to suspend this rule, provided however that on and after the tenth day preceding adjournment sine die of any regular session, this rule may be suspended by a majority vote. If this were a regular session, the President would agree with you, but this is a special session and this rule does not apply—or this situation is not specifically covered by the rules, in the mind of the President."

PARLIAMENTARY INQUIRY

Senator Shinpoch: "Mr. President, maybe you could answer for the body. Would it be the ruling of the President that only a simple majority is required in order to suspend the rules? It was my understanding that the rules of the regular session had been adopted for the special session. If that is correct, then it would also be my understanding that it takes a two-thirds vote except near sine die in order to suspend the rules, and a rule suspension was specifically requested."

REMARKS BY SENATOR BOTTIGGER

Senator Bottiger: "Mr. President, for your consideration, could I call your attention to Rule 42. You previously mentioned that the difference between the regular session and a special session, but Rule 42 makes all the rules apply to any session subsequently convened during the same legislative biennium, so I think the reference to regular session by using the rule the expression of one implies the
exclusion of the other, is negated by Rule 42 which says that all sessions called would be governed by the same set of rules."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Bottiger, the President is not being facetious, but if you could tell me when the last ten days will be, I would agree with you."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, this being a session called by the Governor, the last ten days of this session would be at the end of the thirty days."

REPLY BY THE PRESIDENT

"President Cherberg: "The President believes that the Governor called this session up to thirty days."

REPLY BY THE PRESIDENT

President Cherberg: "The President still believes that the situation is not specifically covered by Rule 67 or the Senate rules in general. Therefore, I will refer the members to rule of the majority, Rule 23 in Rules, 'Unless by organic law or by virtue of rules adopted by an assembly the number required for an affirmative decision is increased above a majority, the majority rules. The general principle of decision is the natural one that the majority shall govern. Any increase in the requirement is of course in the interest of conservatism.' The measure is advanced, put on second reading calendar for today."

The motion by Senator Clarke carried. Engrossed Second Substitute House Bill No. 756 was placed on the second reading calendar for today.

(d) Design and equip the resident living areas for the comfort, safety, and privacy of each resident. Each resident's room shall:
(i) Be equipped with or conveniently located near toilet and bathing facilities;
(ii) Be at or above grade level;

(g) Have an activities program designed to maintain normal activity and help each resident return to self care.
(2) The department may waive the space and occupancy requirements of this section for as long as the department considers appropriate if the department finds that the requirements would result in unreasonable hardship on the facility, the waiver serves the particular needs of the residents, and the waiver does not adversely affect the health and safety of the residents.
NEW SECTION. Sec. 2. There is added to chapter 18.51 RCW a new section to read as follows:

The nursing home shall provide or arrange for the provision of the services listed in this section for each resident whose plan of care should provide for such services. These services are:

4. Nutritionist services.

NEW SECTION. Sec. 3. There is added to chapter 18.51 RCW a new section to read as follows:

If any part of this chapter is found to conflict with federal requirements which are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this chapter is hereby declared to be inoperative solely to the extent of the conflict, and such finding or determination shall not affect the operation of the remainder of this chapter.

Sec. 4. Section 6, chapter 117, Laws of 1951 as last amended by section 17, chapter 2, Laws of 1981 1st ex. sess. and RCW 18.51.050 are each amended to read as follows:

Upon receipt of an application for license, the department shall issue a license if the applicant and the nursing home facilities meet the requirements established under this chapter. Prior to the issuance or renewal of the license, the licensee shall pay a license fee ((of one hundred dollars plus two dollars per bed per year)) as established by the department. No fee shall be required of government operated institutions. All licenses issued under the provisions of this chapter shall expire on a date to be set by the department, but no license issued pursuant to this chapter shall exceed ((twelve)) thirty-six months in duration((PROVIDED, That when the annual license renewal date of a previously licensed nursing home is set by the department on a date less than twelve months prior to the expiration date of a license in effect at the time of reissuance, the license fee shall be prorated on a monthly basis and a credit be allowed at the first renewal of a license for any period of one month or more covered by the previous license)). When a change of ownership occurs, the entity becoming the licensed operating entity of the facility shall pay ((the full licensing fee ((for the facility)) established by the department at the time of application for the license. The previously determined date of license expiration shall not change.

All applications and fees for renewal of the license and for change of ownership licenses shall be submitted to the department not later than thirty days prior to the date of expiration of the license or the date of the proposed change of ownership.     all records, methods of administration, the general and special dietary and the stores
    and methods of supply. Following such inspection or inspections, written notice of
    any violation of this law or the rules and regulations promulgated hereunder, shall
    be given the applicant or licensee and the department. The notice shall describe the
    reasons for the facility's non-compliance. The notice shall inform the facility that it
    must comply with a plan of correction within a specified time, not to exceed sixty
    days from the date the plan of correction is approved by the department. The penal-
    ties in RCW 18.51.060 may be imposed if, after the specified period, the department
    determines that the facility has not complied. In life-threatening situations or situa-
    tions which substantially limit the provider's capacity to render adequate care, the
    department may require immediate correction or proceed immediately under RCW
    18.51.060. The department may prescribe by regulations that any licensee or appli-
    cant desiring to make specified types of alterations or additions to its facilities or to
    construct new facilities shall, before commencing such alteration, addition or new
    construction, submit its plans and specifications therefor to the department for pre-
    liminary inspection and approval or recommendations with respect to compliance

    or hereafter amended.

(2) The department shall review the comprehensive plan of care for such resi-

    assign such resident to a classification. Developmentally disabled residents shall be

All additional services provided by the hospital shall be purchased at rates established by the department after consultation with the hospital. The department shall purchase nursing home care by contract. The department shall establish regulations for reasonable nursing home accounting and reimbursement systems which comply with RCW 74.09.610. The regulations shall provide that no payment shall be made to a nursing home which does not permit inspection by the department of social and health services of every part of its premises and an examination of all records, including financial records, methods of administration, general and special dietary programs, the disbursement of drugs and methods of supply, and any other records the department deems relevant to the establishment of such a system.

All other services and supplies provided under the program shall be secured by contract.

The department may purchase care in institutions for the mentally retarded, also known as intermediate care facilities for the mentally retarded. The department shall establish rules for reasonable accounting and reimbursement systems for such care. Sec. 10. Section 4, chapter 260, Laws of 1977 ex. sess. as amended by section 2, chapter 2, Laws of 1981 1st ex. sess. and RCW 74.09.580 are each amended to read as follows:

The nursing home payment system under this chapter shall provide for individually-based or class-based rates which shall be the maximum reimbursement for each nursing home for the period for which the rates are assigned.

(1)(a) Beginning with the settlements for calendar year 1981, the nursing home shall submit a preliminary settlement report simultaneously with the annual cost report. (b) Within ninety days after receipt of the reports by the secretary, the department shall submit a proposed settlement report by cost center to the nursing home which fully substantiates disallowed costs, refunds, underpayments, and/or adjustments to the preliminary settlement report.
(c) The proposed settlement shall provide the basis for a schedule to correct overpayments and underpayments.

(2) (a) The department shall calculate a settlement for the 1980 cost reporting period by comparing the rate paid to a contractor with that contractor's reported allowable costs. Refunds due the department based upon overpayments made to nursing home contractors from January 1, 1980, through December 31, 1980, indicated by this settlement shall be due and payable in full within thirty days after written notice is received from the department.

(b) Where deemed appropriate by the department, repayment may be made according to a schedule determined by the department.

(c) Failure on the part of a nursing home contractor to tender payment due in full within thirty days after notice is received from the department shall render the contractor liable for the payment of interest to the department at the rate of one percent per month for any unpaid balance from thirty days after the date of notification until payment in full is received by the department. Liability for interest payments under this subsection (2)(c) shall remain in effect whether a contractor is in default of repayment or is making repayment according to a schedule determined by the department in lieu of payment in full upon notification of payment due.

(d) Unless payment due from a nursing home contractor is received in full within thirty days after notification from the department or unless principal and interest payments are received according to a schedule determined by the department, recoupment from current reimbursement payments due a contractor in default will commence according to a schedule determined by the department.

(e) Nothing in this subsection shall prejudice the rights of contractors or the department regarding audit adjustments and/or revised settlements which may be promulgated by the department from time to time in individual contractor cases.

(3) Operators of nursing homes shall refund all portions of payments received which exceed actual audited costs and all portions of payments received which are attributable to unreasonable or nonallowable costs as determined by federal or state regulations.

NEW SECTION. Sec. 11. There is added to chapter 74.46 RCW a new section to read as follows:

This chapter does not apply to institutions for the mentally retarded, also known as intermediate care facilities for the mentally retarded.

Sec. 12. Section 1, chapter 2, Laws of 1981 1st ex. sess. and RCW 74.09.610 are each amended to read as follows:

(1) The nursing home auditing and cost reimbursement system of the department of social and health services shall be governed by this section until implementation of chapter 74.46 RCW. The department shall reimburse nursing homes on the basis of the following cost centers: Patient care, food, administration and operations, and property.

(2) (a) For rate setting purposes for fiscal year 1982, the department shall reimburse the patient care cost center at the January 1, 1981, reimbursement rate, as adjusted for inflation.

((fa7)) (b) For rate setting purposes in fiscal year 1983, this subsection (2)(b) applies.

(i) There shall be established by the department a redistribution pool consisting of overpayments to contractors for 1981 indicated by proposed settlements for 1981, less one million dollars.

(ii) If a contractor's patient care cost center rate for 1981 is greater than or equal to the contractor's desk reviewed 1981 patient care costs, the department shall reimburse the patient care cost center at the desk reviewed 1981 patient care costs plus any patient care funds shifted to other cost centers pursuant to subsection (8) of this section, as adjusted for inflation.
If the contractor’s 1981 patient cost center rate is less than the contractor’s desk reviewed 1981 patient care costs, the department shall reimburse the contractor’s patient care cost at the January 1, 1982, reimbursement rate less one and one half percent, as adjusted for inflation, plus an allowance from the redistribution pool. The allowance for a contractor shall not exceed the contractor’s patient care costs, as adjusted for inflation, and the total of allowances distributed shall not exceed the redistribution pool under subsection (2)(b)(i) of this section. If the funds contained in the redistribution pool exceed or are equal to the total amount by which contractors were underfunded in the patient care cost center, each contractor’s allowance will be equal to the amount by which the contractor was underfunded. If the funds contained in the redistribution pool are less than the total amount by which contractors were underfunded in the patient care cost center, each contractor will receive an allowance which shall be a percentage of the amount by which the contractor was underfunded. The percentage shall be determined by dividing the amount of the pool by the total amount of underfunding.

(c) In addition, the reimbursement shall be enhanced by three million dollars for the first year of the biennium and by ((five)) one million four hundred thousand dollars for the second year of the biennium. These enhancements shall be apportioned among the nursing homes proportionately based on the patient care cost center for each nursing home.

((fbt))

For the purpose of nursing assistant certification, the department shall reimburse at a rate of thirty cents for each medicaid patient day for the first year of the biennium (and at a rate of thirty-three cents, as adjusted for inflation, for each medicaid patient day for the second year of the biennium). This is in addition to the January 1, 1981, reimbursement rate.

(e) Effective July 1, 1982; the patient care cost center reimbursement rate shall be adjusted as follows:

(i) As used in (ii) of this subsection, patient care consultation refers to medical director, patient activities, physical therapy, speech therapy, occupational therapy, and other therapy consultation.

(ii) The department shall determine the average expense weighted by patient days for patient care consultation taken from the most recently completed cost reports.

(B) If the contractor’s administration and operations wage component rate for 1981 is less than the contractor’s desk reviewed 1981 administration and operations wage component rate, the department shall reimburse the contractor’s administration and operations wage component at the January 1, 1981, reimbursement rate as adjusted for inflation, except that, after distribution of the redistribution pool to contractors underfunded in the patient care cost center pursuant to subsection (2)(b)(iii) of this section, the department shall reimburse the contractor’s administration and operations wage component at a rate equal to the January 1, 1982, reimbursement rate as adjusted for inflation, plus an allowance from the redistribution pool.

(ii) The department shall determine the average expense weighted by patient days for patient care consultation taken from the most recently completed cost reports.

In determining the patient care cost to be used for rate setting pursuant to subsections (2)(b)(ii) and (iii) of this section, the department shall not include any cost in excess of the average cost determined under (ii) of this subsection.

Effective July 1, 1982, the administration and operations cost center reimbursement rate shall be adjusted as follows:

(i) As used in (ii) and (iii) of this subsection, administration and operations consultation expense refers to dietary and medical record consultant fees.

(ii) The department shall determine the average expense weighted by patient days for administration and operations consultation expense taken from the most recent completed cost report.

(iii) Reimbursement for administration and operations consultation shall be the lesser of the average expense as determined under (ii) of this subsection or the individual facility's costs for administration and operations consultation expenses taken from the most recent completed cost report, as adjusted for inflation. This adjustment applies only to the July 1, 1982, through July 1, 1983, reimbursement period.

(5) The return on net invested equity for each facility shall be determined by utilizing medicare rules and regulations.

(6) Property cost center reimbursement for both leased and owner-operated facilities shall not exceed the predicted cost plus one standard deviation of the necessary and ordinary costs of depreciation, and interest, of owner-operated facilities utilizing a multiple regression formula developed by the department of social and health services, recognizing factors which may be significant, including location, age, and type of facility. Rental costs of leased facilities other than those operating as intermediate care facilities for the mentally retarded, and depreciation and interest costs of owner-operated facilities, for leases or mortgages entered into prior to July 1, 1979, shall be reimbursed to the extent they do not exceed the reimbursement rate payable for the property cost center as of June 30, 1979, or July 1, 1979, whichever is higher, adjusted to meet any discrepancies as determined by the federal government between the reimbursements made and the approved state medicaid plan, and adjusted for any approved capitalized additions or replacements, except that any leased facility which has operated as an intermediate care facility for the mentally retarded prior to July 1, 1979, shall be reimbursed to the extent that the property costs exceed the upper limit of the multiple regression formula.

(7) The patient personal needs allowance limitation shall be thirty-three dollars and fifty cents.

(8) For settlement purposes only, for calendar years 1981, 1982, and 1983, a nursing home may shift among cost centers an amount not greater than twenty percent of the reimbursement rate of the cost center into which the shift is being made. Shifts may be made among the cost centers. However, shifts may not be made into the property cost center. The department shall monitor on a random basis the extent and patterns of shifting between cost centers authorized by this section. The department shall report to the legislature on its findings required by this section prior to ((February)) July 15th of each year.

(9) Audits shall be conducted by the department and settlements shall be calculated by cost center only.

(10) The department may adjust reimbursement rates to reflect required increases in staffing levels and capital improvements.
(11) Any reference in this section to a January 1, 1981, reimbursement rate includes any adjustment resulting from a rate appeal and its final resolution, but shall not include any adjustment resulting from litigation on reimbursement rates prior to June 30, 1981, or the procedures by which they were established.

(12) References in this section to adjustments for inflation mean adjustments of 5.0 percent for rates effective July 1, 1981, through December 31, 1981; 5.2 percent for rates effective January 1, 1982, through June 30, 1982; 2.91 percent for patient care and the wage component of administration and operations and 4.35 percent for food and the nonwage component of administration and operations for rates effective July 1, 1982, through December 31, 1982; and 4.35 percent for food and the nonwage component of administration and operations for rates effective January 1, 1983, through June 30, 1983. Rates for patient care and the wage component of administration and operations shall not be adjusted for inflation during the period January 1, 1983, through June 30, 1983.

POINT OF INQUIRY

Senator Gould: "In reference to Senator McDermott's statement, and I recognize that you are not a lawyer either, but would it not appear to you that if the nursing home providers were responsible for encouraging a patient to take his own medication that if he mis-medicated himself or gave himself poor medication, that then he would be really liable for that, he would have that responsibility. The nursing home provider would, and therefore I guess my statement is, they would be very cautious as to who would give themselves medication."

Senator Deccio: "I can't answer your question fully, Senator Gould. I would assume that regardless, that the provider would be liable."

Further debate ensued.
The motion by Senator McDermott carried and the amendments to the committee amendment were adopted.

PERSONAL PRIVILEGE

Senator Fleming: "Mr. President, it is in order, at some time I realize I can't tell when Senator Deccio is yes or no, but I did not hear him, I was back on the telephone, that he was supporting the amendment, so if in fact he felt as though that our comments were sort of pointed at him or something, unjustly, then I would like to say that that is not what was intended, but if he was against the measure, I wanted to make sure that I was on the opposite side of it."

On motion of Senator McDermott, the following amendments to the committee amendment were considered and adopted simultaneously:

The motion by Senator Deccio carried and the committee amendment, as amended, was adopted.

On motion of Senator Deccio, the committee amendment to the title was adopted.

POINT OF INQUIRY

Senator Bottiger: "Senator, I have got about four—I don't want to exaggerate, four or five letters, I stopped counting them, from people that have read the story about the money that had been received but not properly spent, and can you tell me what is going to happen to that so that I can respond to these letters?"

Senator Deccio: "The newspaper article told about a four and one-half million dollar overpayment, but they said nothing about a six million dollar underpayment that also existed in some of the facilities. The Department—quite frankly, we have been after the Department for a long time to do something about these audits and I think now with the passage of this legislation these audits will be made on time. One of the reasons that they were concerned about leaving the audits set was because of lawsuits. I think this bill will go a long way to cleaning up some of the lawsuit problems that we have had. This bill was agreed to by the Department, by the industry, and by the Governor's office and that is the way it came to the House and subsequently to us."

Senator Bottiger: "Senator, just to be a little more specific, a nursing home operator who got too much money and put it in the bank and drew interest, is he going to pay that back along with the interest into the fund so that we can reimburse those people that were underpaid?"

Senator Deccio: "Senator, as I understand it, all of the money has to go back to the Department. That is the understanding that I have. If you want further detail on that, I would be glad to get it for you."

ROLL CALL

The Secretary called the roll on the final passage of Substitute House Bill No. 760, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 46; nays 2; excused or not voting, 1.

Voting nay: Senators Shinpoch, Talley—2.

Excused: Senator Lysen—I.

SUBSTITUTE HOUSE BILL NO. 760, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 774, by House Committee on Institutions: (originally sponsored by Representatives Sommers, Owen, Williams, Nisbet, Monohon, McCormick, Amen, Brown, Fiske, Grimm, Heck, Hine, Houchen, King (J.), Leonard, Prince, Scott, Struthers and Walk):

Modifying jail space requirements.

REPORT OF STANDING COMMITTEE

November 18, 1981.

SUBSTITUTE HOUSE BILL NO. 774, modifying jail space requirements (reported by Committee on Social and Health Services):

MAJORITY recommendation: Do pass with the following amendments:

Strike everything after the enacting clause and insert the following:
"NEW SECTION. Section 1. The legislature finds that:

(1) The United States supreme court has reversed lower court decisions relating to jail and prisons standards, thus permitting state and local authorities more flexibility in planning jail and prison facilities;

(2) Current physical plant standards used by the state jail commission in allocating state funds for local jail construction are inconsistent with supreme court decisions, and will result in increased construction costs, and impose higher staffing costs on local governments;

(3) The major part of the two hundred thirty-six million dollars of bonds presently authorized for jail construction remains to be issued, and it is estimated that the state will exceed its statutory limit for bond issues by 1984;

(4) It is incumbent upon the legislature to eliminate unnecessary bond issues and to reduce costs to the state and local governments.

NEW SECTION. Sec. 2. There is added to chapter 70.48 RCW a new section to read as follows:

The jail commission shall immediately review and modify physical plant, operating, and other standards in accordance with current case law: PROVIDED, That the commission may also, alternatively, grant variances to existing physical plant standards for specific projects based upon such review. In accordance with such revised standards or variances, local governments may modify jail designs to reduce space and staffing requirements and construction costs.

NEW SECTION. Sec. 3. There is added to chapter 70.48 RCW a new section to read as follows:

The net capital savings resulting from the modification of jail designs under section 2 of this act shall be divided equally between the state and the local government making the modification.

A local government may use its share of such savings for capital costs relating to the jail, such as law enforcement offices, juvenile detention facilities, land, construction, remodeling, court facilities, equipment, and furnishings, except as prohibited in RCW 70.48.200(7).

NEW SECTION. Sec. 4. The state jail commission shall advise the legislature of the changes in standards by or before February 1, 1982.

Sec. 5. Section 5, chapter 316, Laws of 1977 ex. sess. as last amended by section 1, chapter 276, Laws of 1981 and RCW 70.48.050 are each amended to read as follows:

In addition to any other powers and duties contained in this chapter, the commission shall have the powers and duties:

(1) To adopt such rules and regulations, after approval by the legislature, pursuant to chapter 34.04 RCW, as it deems necessary and consistent with the purposes and intent of this chapter on the following subjects:

(a) Mandatory custodial care standards that are essential for the health, welfare, and security of persons confined in jails. In adopting each rule or regulation pertaining to mandatory custodial care standards, the commission shall cite the applicable case law, statutory law or constitutional provision which requires such rule or regulation. The commission shall grant variances from custodial care standards to governing units which operate jails with physical deficiencies which directly affect their ability to comply with these standards, if the governing unit is eligible for and has applied for funds under RCW 70.48.110. The variances remain in effect until state funding to improve or reconstruct the jails of these governing units has been expended for that purpose;

(b) Advisory custodial care standards;

(c) The classification and uses of holding, detention, and correctional facilities. Except for the housing of work releasees in accordance with commission rules, a person may not be held in a holding facility longer than seventy-two hours, exclusive
of weekends and holidays, without being transferred to a detention or correctional facility unless the court having jurisdiction over the individual authorizes a longer holding, but in no instance shall the holding exceed thirty days;

(d) The content of jail records which shall be maintained by the department of corrections or the chief law enforcement officer of the governing unit. In addition the governing unit, chief law enforcement officer, or department of corrections may require such additional records as they deem proper; and

On page 1, line 1 of the title after "standards;" strike the remainder of the title and insert "amending section 5, chapter 316, Laws of 1977 ex. sess. as last amended by section 1, chapter 276, Laws of 1981 and RCW 70.48.050; adding new sections to chapter 70.48 RCW; creating new sections; providing an expiration date; and declaring an emergency."
Signed by: Senators Deccio, Chairman; Craswell, McCaslin, Metcalf, Rasmussen.

The bill was read the second time by sections.

Senator Deccio moved adoption of the committee amendment.

Senator McDermott moved adoption of the following amendment to the committee amendment:

On page 2, following line 3, strike all material through "costs" on line 17 and insert:

"Upon application of a local government and a showing of need, the commission may grant variances to existing physical plant standards for specific projects based on current case law. In accordance with such variances, local governments may modify jail designs to reduce space and staffing requirements and construction costs."

POINT OF INQUIRY

Senator Gould: "Does the effect of this amendment allow the Jail Commission to establish or allow variances for less than those standards which have been provided under new case law? Does it allow variances for anything they want?"

Senator McDermott: "My amendment has been drawn so that the Jail Commission may grant variances to existing physical plant standards for any specific projects based on current case law. My intention was to allow them to use the current case law as the basis for granting changes to the standards that have already been established. I do not think it—at least, it is not my intention to allow them to grant beyond what current case law already has been established in other places in this country."

POINT OF INQUIRY

Senator Lee: "One of the things that puzzles me a bit, and probably would deserve some clarification for the record too, is that you say, 'upon application and a showing of extreme need.' What would you consider some of the criteria of extreme need?"

Senator McDermott: "I think the whole question of money is a matter of extreme need in this state at this moment, and if there is money to be saved, I think that that is the basis, at least, for them to go to the Jail Commission and say, 'We have this need. We have only so much money. We can save X number of dollars and for that reason we would like to have this kind of a variance.' I think that is at least one basis of extreme need. I really would leave that to a liberal interpretation by the Jail Commission to try and get new jails built. There are many jails in this state that are either under court order or have been threatened by court order by federal courts, and I think that that again is another example of extreme need. I don't want the federal courts running the jails in the state of Washington, so I think we ought to do everything we can to get jails built in the most expeditious way and at the least cost."

Senator Lee: "I do appreciate that and I think that is important for the record to show, particularly if this amendment should hang. My real concern is using the word 'extreme'. I think there—a showing of need would be an adequate criteria."

Senator McDermott: "If you would wish to make an oral amendment to strike the word 'extreme' I would consider that a friendly amendment."

Senator Lee: "I think that would be very helpful."

POINT OF INQUIRY

Senator Wilson: "I was going to suggest that the entire phrase, 'and a showing of extreme need' be deleted. Why wouldn't it work as well and logically to say,
'Upon application of a local government, the Commission may grant variances based on current case law'. Why do we have to insist that either extreme need or need be shown, because I wouldn't imagine the Commission would be granting a variance unless there were a good reason for it? Therefore, you now have the opportunity to make a second correction which will bring this amendment more into line with something that I might or might not support.

Senator McDermott: "Was there a question there or a request, or what am I supposed to do? The reason for putting the phrase in 'and a showing of need' is that they ought to at least be required to show there is a need. I'd assume there would be a need, but to have them go in and say, 'We want to make a modification without showing the need for it doesn't make a whole lot of sense, and it is for that reason that we had the phrase in 'a showing of need.' And I hope I won't lose your vote on that basis."

The motion by Senator McDermott failed and the amendment to the committee amendment was not adopted on a rising vote.

Senator Deccio moved adoption of the following amendment to the committee amendment:

On page 2 of the amendment, on line 8, after "law:" strike everything down to "review" on line 12

POINT OF INQUIRY

Senator Talmadge: "Senator, by the striking of the language in that particular section of the committee amendment, in those counties such as King County where a variance has been granted to the county jail to depart from the design and physical space standards of the Jail Commission, would not your amendment make that variance illegal?"

Senator Deccio: "Senator Talmadge, the input of this bill came from King County and they are in agreement with my position on this whole bill, and I would suspect that perhaps you probably could answer that question better by asking Mr. Metcalf. You live in King County. You seem to have the problem there. We don't have this much of a problem in Yakima County."

Debate ensued.

Senator Deccio demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Deccio to the committee amendment.

ROLL CALL

The Secretary called the roll and the amendment to the committee amendment was adopted by the following vote: Yeas, 31; nays, 16; absent or not voting, 2.

Absent or not voting: Senators Lysen, Ridder—2.

Senator Talmadge moved adoption of the following amendment to the committee amendment:

On page 2, line 18, strike all of section 3 and renumber the remaining sections consecutively.

Debate ensued.
PARLIAMENTARY INQUIRY

Senator Goltz: "Inasmuch as the adoption of this amendment or the failure to adopt this amendment would change the conditions under which the bond issue was referred to the people, does such an amendment or such a bill require more than a majority vote in order for it to pass and thereby change the amendment, the referendum?"

Senator Clarke moved for adjournment before the President could reply to the inquiry by Senator Goltz.

REMARKS MADE DURING THE ADOPTION OF SENATE RESOLUTION 1981-159
REMARKS BY SENATOR VON REICHBAUER

Senator von Reichbauer: "Mr. President, there is not a great deal I can add to what has been described by the clerk in outlining what Michael has gone through. We have often debated the merits of individual issues here on the floor of the Senate but today we have the opportunity to salute an individual, one who personifies the highest principles of his profession, one who put his own welfare after that of his fellow citizens. When I heard last April of the accident involving Mike, I did not know what trooper was involved and as I know a great many troopers from my role as chairman of the Senate Committee on Transportation, I was deeply concerned. We sit here often in comfortable chairs passing laws, and troopers like Mike Buckingham are often placed in an uncomfortable position implementing those laws. Mike is today joined, Mr. President, by his wife, by his parents, by his mother-in-law here, and hopefully joined by those of us who are appreciative of what he has done. Mike is not only a credit to his profession but to humanity and I would like to share a quote in a local paper about Mike after the accident and after the identity of the person responsible was convicted. Referring to the person responsible for this accident Mike said, 'I hope it helps him turn his direction around and gets him to square things away. If he becomes a positive contributing member of society, it would be a neat deal to come out of this thing.' Mr. President and members of the Senate, Mike Buckingham is a credit to the Washington State Patrol and he is a credit to humanity. Thanks, Mike."

REMARKS BY THE PRESIDENT

President Cherberg: "At this time, honored members of the Senate, honored members of the Washington State Patrol and other very welcome and distinguished guests, the President should like to present to you the beautiful, charming and loyal wife of trooper Buckingham, Mrs. Cynthia Buckingham. Won't you please stand in order that the Senators may properly recognize and welcome you.

"It is also the President’s privilege to present to you trooper Buckingham's mother and father, Mr. Ward Buckingham and his lovely wife, Doris. Won't you please stand in order that the members may properly recognize you."
"And it is also a privilege and a pleasure to present to you Mrs. Evelyn Love who is Cynthia's mother and Michael's mother-in-law. Won't you please stand in order that you may be properly recognized and welcomed.

"Honorable ladies and gentlemen, it is with pride and honor that the President presents to you the Honorable John Spellman, Governor of the State of Washington.

REMARKS BY THE GOVERNOR

Governor Spellman: "Thank you, Mr. President and members of the Senate. I am very proud of the State Patrol, as you are. I am exceedingly proud of trooper Buckingham, his wife and family. It is my pleasure to heartily concur in the resolution which you have adopted this morning and join you in wishing every blessing in terms of recuperation and support and strength to trooper Buckingham and to his family. Thank you."

REMARKS BY THE PRESIDENT

President Cherberg: "Also, the President is happy to present to you the Chief of the Washington State Patrol, the Honorable Neil Moloney."

REMARKS BY CHIEF MOLONEY

Chief Moloney: "Thank you, Mr. President, Governor Spellman, members of the Senate, guests. I would only make this very short and to the point. Six months ago I met Michael in the hospital and he has been a supporter of the Patrol from the day I walked in the office and all the men and women of the Patrol. I can only say how lucky we are as citizens and how lucky I am to be a member of the Patrol that has youngsters like Michael join the Patrol, those people that will follow him and myself. Thank you very much."

REMARKS BY THE PRESIDENT

President Cherberg: "Trooper Buckingham, we are all honored and proud to have you present with us today because, after all, we are glorying in the reflection of your splendor, courage and character. Thank you for coming. And now, trooper Michael Buckingham."

REMARKS BY MICHAEL BUCKINGHAM

Michael Buckingham: "Thank you. Governor Spellman, Governor Cherberg, Chief Moloney, members of the Legislature, my wife, my parents, Sergeant Little and other family and friends, I wish to thank you all. I was just doing a job. Seven months ago I never thought that humanity could be the way it has shown me in the last seven months. People really care. I have been lucky enough for God to give me a second chance at my life and perhaps I can do something even better to better humanity and maybe not go quite through what I went through in the process. It is a great honor and a privilege to be here and I thank you all very much."

REMARKS BY THE PRESIDENT

President Cherberg: "Thank you, Mike. We are proud of you.

"It is my pleasure, on behalf of the members of the Washington State Senate and indeed all the people of the state of Washington, to present this copy of the resolution to you. This resolution will also be documented in the Washington State Senate Journal. I just want you to take a look now because we would like to get this suitably framed for you."

Michael Buckingham: "Thank you very much. It is beautiful."
President Cherberg: "We will let you have it for the time being but we will want it back to frame."

Michael Buckingham: "Okay. All right."

The committee of honor escorted Trooper Michael W. Buckingham from the Senate Chamber and the committee was discharged.

The committee of honor escorted Governor John Spellman from the Senate Chamber and the committee was discharged.

MOTIONS

On motion of Senator Talmadge, all members were permitted as sponsors to Senate Resolution 1981–157.

On motion of Senator Hughes, the following resolution was unanimously adopted:

SENATE RESOLUTION
1981 – 157

By Senators Hughes, Deccio, Hurley, McCaslin, Bauer, Benitz, Bluechel, Bottiger, Charnley, Clarke, Conner, Craswell, Fleming, Fuller, Gallagher, Gaspard, Goltz, Gould, Guess, Haley, Hansen, Hayner, Hemstad, Jones, Kiskaddon, Lee, Lysen, McDermott, Metcalf, Moore, Newhouse, Patterson, Peterson, Pullen, Quigg, Rasmussen, Ridder, Scott, Sellar, Shinpoch, Talley, Talmadge, Vognild, von Reichbauer, Williams, Wilson, Wojahn, Woody and Zimmerman; Lieutenant Governor John A. Cherberg; Sid Snyder, Secretary of the Senate; Marilyn Brachtenbach, Deputy Secretary of the Senate; and Fred Hildebrand, Sergeant at Arms:

WHEREAS, The legislative process is dependent upon many things, not the least of which is sound and accurate information for deliberation on the issues affecting Washington's citizens; and

WHEREAS, Lobbyists are a major source of that information, and are respected when that information is accurate, provided in a timely manner, and in a candid manner; and

WHEREAS, Friendship and respect are earned by those who ply their trade and live life to its fullest, but who also are considerate of others, their needs and positions; and

WHEREAS, David Cunningham is a friend and a respected lobbyist who has gained the trust of legislators from his many years of providing that necessary and complete information, which has been accurate and which has also represented the needs of the Washington Water Power Company; and

WHEREAS, David's congenial, courteous and helpful relationship with members of the Senate has endeared him to those he worked with; and

WHEREAS, David Cunningham was seriously injured in an accident and is presently convalescing at the University of Washington Medical Center;

NOW, THEREFORE, BE IT RESOLVED, By the Washington State Senate on behalf of the Members and staff, that prayers and good wishes be offered for David's speedy and complete recovery; and

BE IT FURTHER RESOLVED, That our friend and colleague, Dave Cunningham, receive a certified copy of this resolution as representative of the respect David has in our hearts and minds.

REMARKS MADE DURING THE ADOPTION OF
SENATE RESOLUTION 1981–157

REMARKS BY SENATOR HUGHES

Senator Hughes: "I think most of you on this floor know Dave Cunningham and you know the circumstances that prevent Dave from being with us today. He is
listening on a phone in his bed at the University of Washington Medical Hospital
and I just would like to make a couple of personal comments myself, and I hope
some of the rest of you will have an opportunity to join with me on that. I think the
job of a lobbyist is a most difficult one. To perform that job and to perform it in a
manner that gains the respect of everybody who meets you is certainly something
that we can look upon with pride. Dave Cunningham has performed that obligation
for many years down here. And, Dave, we just want you to know that all of us here
constantly have you in our prayers and our thoughts; and we are very confident that
your recovery will be speedy and that it will be full. We know these are tough times
but we want you to know we are thinking about you, and we expect to have you
back with us just as soon as possible."

POINT OF INQUIRY

Senator Bottiger: "Senator Hughes, I don't find anything in here about being
stubborn, unreasonable, bullheaded, a whole bunch of other things that I think
would be only fair if you are talking about the same Cunningham that I am thinking
of."

Senator Hughes: "I would tend to agree, but, unfortunately, Dave was able to
edit that out of this and I regret that we weren't able to put that forward, but I
think it is well that you noted that."

PERSONAL PRIVILEGE

Senator Mccaslin: "Senator Bottiger, those things you mentioned, this resolu­
tion does not concern me. I would like to say a word about Dave Cunningham who I
consider a friend. He is from my district and he laughingly calls me his Senator. He
always has a smile on his face. Dave is a sincere individual. He is fun loving. He is a
personal friend. And as an Episcopalian, you know, in our prayer books we are asked
to say five prayers a day, and being an Episcopalian and always in a hurry, of
course, we count the three prayers at the meal so we can get away with a short
prayer to God. But every night when I go to bed, and I am sincere and I say my
prayers at night, I say a prayer for Dave Cunningham and I do ask God to heal him
to the extent that God would. And I sincerely hope that Dave recuperates to the
extent that he can recuperate, but regardless of what life leaves Dave, he still has a
tremendous sense of humor. He is an honest individual, he is compassionate, and he
does his job as well as any lobbyist here, so I sincerely wish Dave Cunningham the
very best in life."

REMARKS BY SENATOR HURLEY

Senator Hurley: "Mr. President and members of the Senate, Dave Cunningham
was one of my favorite lobbyists. I don't think I should say was. He is one of my
favorite lobbyists, not only because he is a Spokanite, but he is always fun to be
with. In my estimation he is extremely handsome, and it is a funny thing, I noticed
this the very first time I ever met him, besides being extremely loyal to his company
and extremely serious about the job that he has with that company, he is extremely
courteous also in his dealings with all legislators. The last time I saw Dave was just
a few days before his accident. He had come to my back door just to say hello, and I
invited him in and we talked for a while over my kitchen table with a cup of coffee.
And it was just before the session was called and we talked a little and joked a little
about the coming session and we laughed a lot because there is always a lot of
laughing to be done when you are talking with Dave. I have prayed every day for his
complete recovery and I just want to say, if that recovery necessitates a miracle,
Dave deserves it."

REMARKS BY SENATOR GOULD

Senator Gould: "Mr. President, I would like to add my thoughts to this. As Chairman of the Senate Energy and Utilities Committee, I had quite an opportunity to get to know Dave and to work with him, and I want to say that in my judgment he represented well the Washington Water Power Company. He was quiet, but had a good humor and he was very persuasive and even when he lost, which was a few times, why he always did it with grace and came back for another chance the next time, and I hope his recovery is speedy."

REMARKS BY SENATOR DECCIO

Senator Deccio: "Dave is listening on a telephone hookup, and Senator Gould, when you said he was quiet, I don't know whether that is the same Dave Cunningham that I know. Dave, I think everybody on this floor, including the other lobbyists and the House think of you nearly every day, and want you to know that our prayers are with you and we are asking for a speedy and a complete recovery."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Mr. President, adding to what has been said, we can only wish Dave all of our best wishes for a speedy recovery. I would move, Mr. President, that you add all of the names of the members of the Senate to Senate Resolution 1981–157."

REMARKS BY THE PRESIDENT

President Cherberg: "The members may be interested in knowing that Dave is listening in on the telephone and I am sure you will all join with me in wishing Dave the very best of everything in the future."

MOTION

Senator Patterson moved adoption of the following resolution:

SENATE RESOLUTION 1981–156

WHEREAS, For the first time in forty-five years, the intrastate rivalry between the Huskies and the Cougars decided the Pacific 10 Rose Bowl representative; and

WHEREAS, For the second consecutive year, the Huskies will be playing in the Rose Bowl and will be competing in a bowl game for the fourth time in the past five years; and

WHEREAS, The Cougars will be playing in the Holiday Bowl, their first bowl game appearance in fifty-one years; and

WHEREAS, The Huskies posted a 9 and 2 record in a rebuilding year and the Cougars were the nation's surprise team with an 8–2–1 record; and

WHEREAS, This represents a fundamental and basic shift in the power base of the Pac 10 Conference from southern California to the State of Washington; and
WHEREAS, The successful seasons recorded by the two teams can be expected to reflect on their fortunes in the recruiting wars with the southern California schools; and

WHEREAS, The Apple Cup Trophy game between these two national power-houses drew over 61,000 people, one of the largest crowds ever for a football game in this state; and

WHEREAS, This combination of factors should generate discussion as to the appropriateness of relocating the Rose Bowl from Pasadena to Seattle; and

WHEREAS, The two schools have two of the finest coaches in the nation who emphasize both the development of athletic ability and character amongst their ball players; and

WHEREAS, This is the first time ever that both the Huskies and the Cougars will be appearing in bowl games in the same year;

NOW, THEREFORE, BE IT RESOLVED, By the Senate of the State of Washington, That even though in a contest of skills of this nature there must be victors and vanquished, both the Huskies and the Cougars and the State of Washington as a whole stand as winners as a result of this football season; and

BE IT FURTHER RESOLVED, That it rains in Pasadena and that the sun shines in San Diego on the respective game days; and

BE IT FURTHER RESOLVED, That congratulations are in order for both the UW and WSU football teams on their excellent seasons and that the whole state is exceedingly proud of both the teams and will look forward to the 1982 football season; and

BE IT FURTHER RESOLVED, That all of the State of Washington wishes the best of luck to the Cougars on December 18th in the Holiday Bowl and to the Huskies on January 1st in the Rose Bowl; and

BE IT FURTHER RESOLVED, That copies of this resolution be forwarded to both football teams with our heartiest congratulations.

On motion of Senator Bottiger, there being no objection, an amendment on the desk of the Secretary of the Senate was withdrawn.

POINT OF INQUIRY

Senator Fleming: "Senator Patterson, I appreciate the resolution and all this camaraderies and so forth that we have here on the floor and I am sure that it is sincere coming on your part, but I just wanted to ask a question. It has been obvious to me that you have not been your usual self the last few days and it has been obvious to me that you have been avoiding me and ignoring me or not speaking to me, and so I know that when we take issues on this floor we usually say that we don't take anything personal, anything of that nature, and I hope that that same thing is following through. Maybe I have misread your movements in the last few days but if that has been the case, I am wondering why."

Senator Patterson: "I am just being my usual ornery self. I assure you that — I want to at this time, Senator Fleming, I do want to congratulate the Washington Huskies in the game and their victory, but I do think it is even more important that we recognize that these two teams really have achieved great goals in this last football season and I would hope that we can extend the same kind of feeling to both of the teams, even though the Cougars lost and the Huskies won."

The motion by Senator Patterson carried and the resolution was unanimously adopted.

INTRODUCTION AND FIRST READING

ENGROSSED SUBSTITUTE HOUSE BILL NO. 763, by Select Committee on Deregulation and Productivity (originally sponsored by Select Committee on Deregulation and Productivity and Representative Williams):
Revising public employment laws.
Referred to Committee on State Government.

(originally sponsored by Representatives Sommers, Owen, Williams, Nisbet, Monohon, McCormick, Amen, Brown, Fiske, Grimm, Heck, Hine, Houchen, King (J.), Leonard, Prince, Scott, Struthers and Walk):
Modifying jail space requirements.
The Senate resumed consideration of Substitute House Bill No. 774 from November 23, 1981. At that time, the committee amendment had been moved for adoption. An amendment by Senator Deccio to the committee amendment had been adopted. The following amendment by Senator Talmadge to the committee amendment had been moved for adoption:

On page 2, line 18, strike all of section 3 and renumber the remaining sections consecutively
The motion by Senator Talmadge carried and the amendment to the committee amendment was adopted.

On motion of Senator McDermott, there being no objection, an amendment to page 2, following line 35, to the committee amendment, on the desk of the Secretary of the Senate, was withdrawn.

Senator Talmadge moved adoption of the following amendment to the committee amendment:
On page 3, line 2, strike "February" and insert "July"
Debate ensued.

On motion of Senator Talmadge, there being no objection, the amendment to the committee amendment was withdrawn.

On motion of Senator McDermott, there being no objection, an amendment to page 3, line 4 to the committee amendment, on the desk of the Secretary of the Senate, was withdrawn.

Senator Talmadge moved adoption of the following amendment to the committee amendment:
On page 6, line 10, after "chapter" insert ". Any action of the commission which purports to preempt the provisions of chapter 19.27 RCW, shall be immediately reported to the Senate Committee on Social and Health Services and the House Committee on Human Services."

On motion of Senator Talmadge, there being no objection, the amendment to the committee amendment was withdrawn.

Senator Deccio moved adoption of the following amendment to the committee amendment:

On page 5 of the amendment, on line 31 after "legislature," strike everything down to and including "chapter" on page 6, line 10 and insert "The commission may preempt any provisions of the state building code under chapter 19.27 RCW and any local ordinances that apply to jails or a particular jail if the provisions relate
the installation or use of sprinklers in the cells and the commission finds that com-
pliance with the provisions would conflict with the secure and humane operation of
jails or the particular jail.

POINT OF INQUIRY

Senator Goltz: "Senator Deccio, this is a very serious power we are giving o this
Jail Commission because it would remove from fire marshals, apparently, the right
to determine what is necessary for life safety in a jail which would be resulting from
the removal of these sprinklers. I wonder what liability the state would have or the
county would have if the Jail Commission overruled and a death occurred as a result
of a fire; and secondly, what provision is made then under the law for providing an
alternative to the sprinkler for life safety?"

Senator Deccio: "Senator Goltz, this situation exists in Yakima County so I am
a little more than just a little familiar with it. The problem they have there is in the
local ordinance which requires the installation of sprinkler systems, and in this case
the county is arguing that it is a class A building which reduces greatly the possibil-
ity of fire. However, they are offering to install smoke detectors because they feel
that smoke could be a greater hazard to life and public safety than the sprinkler
head. These are only in the cells.

"The other argument that the Sheriff of Yakima County gives is that the
sprinkler heads could lead to a situation where it increases the possibility of suicide.
It has been argued quite extensively between the counties and the Jail Commission.
The Commission found no problem with this amendment. However, what we are
doing is, rather than have the Jail Commission overrule the Fire Marshal in all
instances, this would narrow it to just sprinklers alone in the cell. I think the liability
would be less, Senator Goltz, under this kind of an amendment than it would be
with the former situation that I explained."

POINT OF INQUIRY

Senator Talley: "Senator Deccio, I think this is one of the poorest attempts of
anything we could do to take out these sprinklers. You can set a sprinkler nowadays
flush. You don't have anything they can hang a rope on, and I think it would be
much better for a man if he wanted to hang himself than burn himself to death. It
would be a lot quicker death. I think it is a terrible thing to take these sprinklers
out. You get these men locked in these cells and you get a fire, you can't get them
out. You just let them sit there and roast. Is that what you want to do?"

Senator Deccio: "Senator Talley, I am not the sheriff. The only thing that this
was in the bill as it came over from the House, which was as I indicated, gave the
Commission the power to overrule any ordinance, and what I think I am trying to do
here is to not take away that power or the responsibility that the fire marshals and
the local authority has by limiting it to the problem that Yakima County says that
they have, and I think that if it would apply to Yakima County it would also apply
to the other counties that are going to be under new construction. That is the best
answer I can give you."

Senator Talley: "You are not (inaudible) but the Senate rule is advocating tak-
ing them out, so you are more than responsible if somebody burns to death, in my
opinion."

POINT OF INQUIRY

Senator Vognild: "Senator, I am very concerned about this amendment and one
thing you said really caught my attention. Did I understand you to say that this
would only allow the exclusion of sprinklers from the cells themselves?
Senator Deccio: "As I understand it, Senator Vognild, that is correct. This was the case in point was the sprinklers in the cells, not in the rest of the jail."

Senator Vognild: "Thank you, Senator. On that basis, with some reluctance I perhaps should support this, but I wonder if the language shouldn't be clarified so that intent of the Legislature is extremely clear here, that we are only talking about the variance in regard to the cell itself. There is no such thing, as you said, as a fireproof building, and the prisoners in many of these jails seem to delight in setting fires and probably trying to use that, and sometimes successfully, for an escape route. I think a good dousing with water might do them good and cool everything down as well as stop the escape. But I could, I guess, reluctantly accept it if we could change this language to read specifically the cell itself."

Senator Deccio: "Senator Vognild, it is my understanding that is the only requirement that Yakima County would like to have so I see no objection to having the amendment worded exactly that way."

On motion of Senators Clarke and Wilson a technical correction was made to the amendment by Senator Deccio to the committee amendment.

POINT OF INQUIRY

Senator Williams: "In reading the language, I just wanted to clarify one thing. The language of the amendment says the Commission may preempt any provision. Now is the intent here that the preemption shall relate only to sprinklers, etc? That sort of thing? Or is it if the sprinklers are found and not proper and so forth, that we have then preempted all other aspects of the Uniform Building Code?"

Senator Deccio: "I don't think so, Senator Williams. I think whatever circumstances might develop, we are still coming back to the wording in this bill, that the preemption can only apply to sprinklers."

Senator Williams: "I guess what I am getting at is the intent. Is it the intent that it is only the sprinkler situation that we are dealing with and not preempting all the rest of the Building Code when in fact we find that sprinklers as required for the Uniform Building Code are not appropriate?"

Senator Deccio: "Senator Williams, the intent of this language is to limit it to sprinklers only."

Senator Williams: "Thank you."

The motion by Senator Deccio carried and the amendment to the committee amendment was adopted.

The motion by Senator Deccio carried and the committee amendment, as amended, was adopted.

On motion of Senator Deccio, the committee amendment to the title was adopted.

On motion of Senator Deccio, the rules were suspended, Substitute House Bill No. 774, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

PARLIAMENTARY INQUIRY

Senator Talley: "Am I required to vote? I think a vote either way is wrong. I feel so strong about it that I think to even vote on it is wrong."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Talley, if you would care to leave the floor you wouldn't have to vote."
ROLL CALL

The Secretary called the roll on the final passage of Substitute House Bill No. 774, as amended by the Senate, and the bill passed the Senate by the following vote:

Yeas, 46; nays, 2; absent or not voting, 1.

REPORT OF STANDING COMMITTEE

November 23, 1981.

ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 756, modifying provisions relating to public assistance (reported by Committee on Ways and Means):

MAJORITY recommendation: Do pass with the following amendments:

(1) Applicants and recipients under this title must satisfy all reporting requirements imposed by the department.

(2) The secretary shall have the discretion to consider: (a) Food stamp allotments and/or (b) rent or housing subsidies as income in determining eligibility for and assistance to be provided by public assistance programs. If the department considers food stamp allotments as income in determining eligibility for assistance, applicants or recipients for any grant assistance program must apply for and take all reasonable actions necessary to establish and maintain eligibility for food stamps.

NEW SECTION. Sec. 2. There is added to chapter 74.04 RCW a new section to read as follows:

Payment of assistance shall not be made for any month if the payment prior to any adjustments would be less than ten dollars. However, if payment is denied solely by reason of this section, the individual with respect to whom such payment is denied is determined to be a recipient of assistance for purposes of eligibility for other programs of assistance except for a community work experience program.

NEW SECTION. Sec. 3. There is added to chapter 74.12 RCW a new section to read as follows:

(1) A family or assistance unit is not eligible for aid for any month if for that month the total income of the family or assistance unit, without application of income disregards, exceeds one hundred fifty percent of the state standard of need for a family of the same composition."
(2) Participation in a strike does not constitute good cause to leave or to refuse to seek or accept employment. Assistance is not payable to a family for any month in which any caretaker relative with whom the child is living is, on the last day of the month, participating in a strike. An individual's need shall not be included in determining the amount of aid payable for any month to a family or assistance unit if, on the last day of the month, the individual is participating in a strike.

(3) Children over eighteen years of age and under nineteen years of age who are full-time students reasonably expected to complete a program of secondary school, or the equivalent level of vocational or technical training, before reaching nineteen years of age are eligible to receive aid to families with dependent children: PROVIDED HOWEVER, That if such students do not successfully complete such program before reaching nineteen years of age, the assistance rendered under this subsection during such period shall be a debt due the state.

NEW SECTION. Sec. 4. There is added to chapter 74.04 RCW a new section to read as follows:

The department shall establish consolidated standards of need each biennium which may vary by geographical areas, program, and family size, for aid to families with dependent children, refugee assistance, supplemental security income, and general assistance to unemployable persons. Standards for aid to families with dependent children, refugee assistance, and general assistance to unemployable persons shall include reasonable allowances for shelter, fuel, food, transportation, clothing, household maintenance and operations, personal maintenance, and necessary incidentals. The standard of need shall take into account the economies of joint living arrangements.

The department is authorized to establish rateable reductions and grant maximums consistent with federal law.

Payment level will be equal to need or a lesser amount if rateable reductions or grant maximums are imposed. In no case shall a recipient of supplemental security income receive a state supplement less than the minimum required by federal law.

The department may establish a separate standard for shelter provided at no cost.

Sec. 5. Section 1, chapter 6, Laws of 1981 1st ex. sess. and RCW 74.04.005 are each amended to read as follows:

Signed by: Senators Scott, Chairman; Craswell, Vice Chairman; Bluechel, Deccio, Haley, Hayner, Jones, Lee, Zimmerman.

The bill was read the second time by sections.

Senator Scott moved adoption of the committee amendment.
POINT OF INQUIRY

Senator Rasmussen: "Senator Scott, I am looking at a provision on page 5, line 21 where a motor vehicle is exempted, but it goes on to say, and this is new material that has never been in there before, 'other than a motor home.' Now if a motor home was being used as a residence, would that still prohibit people from getting assistance?"

Senator Scott: "It would exclude—the motor home would be included in their asset level."

Senator Rasmussen: "A home is excluded. The home can be any value. And that is my question. If a person does not have a home and would be living in a motor home, he would evidently be excluded from assistance."

Senator Scott: "Senator, I think you have got a good point. While we are waiting for Dr. McDermott's amendment, can I investigate that a little? Maybe we can cooperate."

Senator Rasmussen: "Thank you."

Senator McDermott moved adoption of the following amendment to the committee amendment:

On page 4, line 16, following "plan" strike the period and insert "; (c) or are unemployed needy pregnant women without other children who are in the third, fourth and fifth months of pregnancy."

REMARKS BY SENATOR SCOTT

Senator Scott: "In response to Senator Rasmussen's earlier question, we have something here from the Attorney General that, apparently in the federal definition of motor homes, automobile includes motorcycles and pickup trucks and part of the worry here is that there is a broader definition. I am also told by staff that if a motor home is on a fixed pad with sewer and water and electric hookups, the Department has the power and does generally—there is no reason to say that it isn't a home and thus within the definition, so I don't think we have any problem here, Senator."

POINT OF INQUIRY

Senator Newhouse: "Senator McDermott, I am not sure whether I am accusing you of not being able to count to three, but if you are talking about second trimester, in my opinion the first, second and third months should be the first, and the fourth, fifth and sixth ought to be the second. Am I wrong?"

Senator McDermott: "I haven't delivered a baby since 19... I am a psychiatrist. I deal with them when they come. The amendment should be on page 4, line 16."

"In answer to your question, Senator Newhouse, obviously in the first month of pregnancy you are not sure that you are pregnant. You become pregnant, you know it in the next month. The second month—I don't have to explain it to you, the second month we have a consolidated emergency medical program which kicks in and that covers one month. Then this amendment would take care of the third, fourth and fifth month, and then the way the present law is, medical assistance kicks in, or GAU kicks in in the sixth month. So we are really taking care of the time between the confirmation of the pregnancy and the time where the present law gives assistance. So it is a little bit of the first trimester and a little bit of the second trimester."

Debate ensued.

POINT OF INQUIRY

Senator McDermott: "The question is this. Are you saying that without this amendment the Department still could grant assistance to both housing and food without this amendment?"
Senator Scott: "I said food stamps and medical care."
Senator McDermott: "Could they grant any other cash grant without the adoption of this amendment for that period of time?"
Senator Scott: "Not before the sixth month."
Senator McDermott: "Not before the sixth month."
Further debate ensued.
Senator Hughes demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the amendment by Senator McDermott to the committee amendment.

Senator Clarke moved the amendments by Senator Rasmussen to the committee amendment be laid upon the table.
Senator Bottiger demanded a roll call and the demand was sustained.

Debate ensued.

POINT OF INQUIRY

Senator Woody: "Senator Scott, would you take a look at Section 3 on the second page, sub three, and on line 22 you have 'Provided, however, that if such students do not successfully complete such programs before reaching nineteen years of age, the assistance rendered under this subsection during such period shall be a debt due to the state.' Senator Scott, is that a debt that the parent or parents owe or is that a debt that the student owes and how would that be collected? And is there interest on that or are we leaving these various questions up to the Department?"

Senator Scott: "No interest is mentioned here or elsewhere in the law. The debt is owed by the student. The repayment would be made by standard means, presumably income of one form or another or borrowing or other means of support."

Senator Woody: "To continue with that, I just wanted to make sure that if the debt was owed by the student, that the parents' welfare grant would not be ratably reduced or reduced on a percentage over a period of months to make up that debt. Thank you."

Further debate ensued.

Senator Clarke demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the committee amendment.

POINT OF INQUIRY

Senator Ridder: "Senator Scott, earlier in the discussion on the amendment you mentioned grant standards and you mentioned the amount of seven hundred dollars. I would not want this body to have the understanding that that is the actual cash amount that is received. Would you describe what that might be?"

Senator Scott: "Senator, I was referred to Section 3, and the standard is one hundred and fifty percent of the need standard which is established—the actual level in the DSHS study for a family of three in Area One which you and I live in would have been seven hundred, and here we are contemplating six hundred and twenty-two dollars."

Senator Ridder: "In actual cash, won't that come out closer to about five hundred dollars?"

Senator Scott: "Those are the figures given in committee."

Senator Ridder: "Yes."

Senator Scott: "But that is in addition to benefits from whatever source."

Senator Ridder: "I understand that, but I would not want it thought that we were handing out seven hundred dollars when in actuality we are not, and this is a measure that while it may be in conformity with the federal standards, I think it is too bad that we should be adopting the standards which are now at least in part pulling us into depression and recession, and I would think that it would be the responsibility of the state to pick up some of that gap. I think that is the new federalism that was endorsed during the last campaign and I am sorry that we don't have that attitude."

Debate ensued.

The bill was read the second time by sections.

Senator Shinpoch moved adoption of the following amendment:

On page 2, after line 26, insert:

"Section 3. Section 16, chapter 117, Laws of 1972 ex. sess. and RCW 43.31A-.160 are each amended to read as follows:

(1) The department of revenue shall conduct an audit of the project upon its completion in order to determine the total amount of tax deferral. Any tax found due on nonqualifying construction or purchases shall be immediately assessed and payable.

(2) Except as provided in subsection (3) of this section, the manufacturing firm will begin paying the deferred taxes three years after the date certified by the authority as the date on which the construction project has been operationally completed. The first payment will be due on December 31st of the third calendar year after such certified date, with subsequent annual payments due on December 31st of the following four years with amounts of payment scheduled as follows:

</table>

This subsection does not apply to a manufacturing firm whose total dollar value of all eligible investment projects at time of completion has been determined by the department to be thirty million dollars or less.

Renumber the remaining sections consecutively.

POINT OF ORDER

Senator Clarke: "The point of order is that the proposed amendment is not within the scope and object of the original bill. The original bill is a very simple, temporary increase in the sales tax, and as has been very eloquently explained by Senator Shinpoch, the object of the proposed amendment is something entirely different and relates to an entirely different section of existing law."

REMARKS BY SENATOR SHINPOCH

Senator Shinpoch: "Mr. President, the bill does deal with the sales tax, with the increase in the sales tax and this is doing away with the sales tax deferral and, very simply, both of them raise money."

RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the point of order raised by Senator Clarke, the President finds that Second Substitute House Bill No. 788 is simply a measure which provides an increase in the sales tax from 4½ percent to 5½ percent for the time period of December 1, 1981 through June 30, 1983.

"The amendment proposed by Senator Shinpoch deals with the Economic Assistance Act which encourages business investment through incentives and defines a repayment schedule for sales taxes which have been deferred.

"The President therefore finds that the proposed amendment does expand the scope and object of the bill and that the point of order is well taken."

The amendment by Senator Shinpoch was ruled out of order.

Senator Bottiger moved adoption of the following amendment:

On page 2, after line 26, insert "NEW SECTION. Sec. 3. Section 36, chapter 37, Laws of 1980 and RCW 82.08.0269 is repealed."

POINT OF ORDER

Senator Clarke: "Mr. President, point of order. I also raise the question of scope and object with respect to this amendment. I might remark that many of these items may be entirely desirable in separate bills, but we have a clean bill here and I am going to have to raise scope and object so that we have the single issue before us."

On motion of Senator Bottiger, there being no objection, the amendment was withdrawn.
On motion of Senator Scott, the rules were suspended, Second Substitute House Bill No. 788 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

Senators Talley, Guess and Peterson demanded the previous question and the demand was sustained.

**MOTION**

On motion of Senator Ridder, Senator Rasmussen was excused.

The President declared the question before the Senate to be the roll call on Second Substitute House Bill No. 788 on final passage.

**ROLL CALL**

The Secretary called the roll on the final passage of Second Substitute House Bill No. 788, and the bill failed to pass the Senate by the following vote: Yeas, 20; nays, 28; excused, 1.

Voting yea: Senators Benitz, Bluechel, Clarke, Deccio, Fuller, Gallagher, Gould, Guess, Hayner, Hemstad, Jones, Kiskaddon, Lee, Metcalf, Newhouse, Patterson, Quigg, Scott, Sellar, von Reichbauer—20.

SECOND SUBSTITUTE HOUSE BILL NO. 788, having failed to receive the constitutional majority, was declared lost.

**NOTICE OF RECONSIDERATION**

Having voted on the prevailing side, Senator Zimmerman served notice that he would, on the next working day, move for reconsideration of the vote by which Second Substitute House Bill No. 788 failed to pass.

**PERSONAL PRIVILEGE**

Senator Fleming: "Mr. President, I don't want to put you in a tough situation, but you have been in those before, but I would like to ask the President to take under advisement the question that Senator Clarke in his inimitable way put it. I would like for you to put under advisement the ruling on what is rhetoric and what is not because what Senator Clarke was doing sure sounded like rhetoric to me."

**MOTION**

At 7:28 p.m., on motion of Senator Clarke, the Senate recessed until 9:00 p.m.

**EVENING SESSION**

The President called the Senate to order at 9:00 p.m.
The President declared the Senate to be at ease.
The President called the Senate to order at 9:30 p.m.

Senator Hayner moved the amendments be divided and considered separately. Debate ensued.

On motion of Senator Clarke, the Committee of the Whole did arise and reported back to the Senate that there would be a Call of the Senate and it was necessary to dissolve the Committee of the Whole to do so.

President Cherberg assumed the Chair.

Senators Clarke, Lee and Hayner demanded a Call of the Senate.

**POINT OF ORDER**

Senator Rasmussen: "Senator Clarke, and I tried to raise it at the time the Chairman of the Committee of the Whole had it, made a very improper motion. Senator Clarke moved that we dissolve the Committee of the Whole for the purpose of calling a Call of the Senate. The only reason for dissolving the Committee of the Whole is to report back. They can either agree or disagree on the matter before them, and the matter before them was not the Call of the Senate. The matter before them was budget bill 811 and the amendments, and the amendments were in disorder, so I really think the motion was improper, Senator Clarke."

**RULING BY THE PRESIDENT**

President Cherberg: "Senator Rasmussen, with all due respect, the President believes that if he were to follow your line of thinking that the members and the President might be here forever."

**POINT OF ORDER**

Senator Goltz: "Is it possible for the Committee of the Whole to organize itself under a call of the Committee of the Whole, or is the rule only applicable to a Call of the Senate?"
RULING BY THE PRESIDENT

President Cherberg: "Senator Clarke's remarks are well taken. The President will research your point of order and report back to you at a later time."

Senator Bottiger demanded a roll call on the demand for the Call of the Senate and the demand for the roll call was sustained.

The President declared the question before the Senate to be the roll call on the demand for the Call of the Senate.

ROLL CALL

The Secretary called the roll and the demand for the Call of the Senate was sustained by the following vote: Yeas, 24; nays, 23; absent or not voting, 1; excused, 1.

Voting yea: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer, Zimmerman—24.

Absent or not voting: Senator Peterson—1.

PARLIAMENTARY INQUIRY

Senator Pullen: "Mr. President, I was wondering if it is possible to go into the Committee of the Whole while we are under a Call of the Senate? According to Rule 48, no committee shall sit during the daily session of the Senate. We are under a call of the Senate. That implies that we are undergoing a daily session of the Senate, and I was wondering if we could then go under a Committee of the Whole because then we would be sitting as a committee."

REMARKS BY SENATOR CLARKE

Senator Clarke: "Mr. President, I believe that is covered in Reed's that the Committee of the Whole is regarded in substance as the entire Senate, and for that reason that particular rule does not apply as to the Committee of the Whole. I also think there is precedent for the Committee of the Whole to sit during a Call of the Senate."

The Secretary called the roll on the Call of the Senate. All members were present except Senator Fleming who had previously been excused.

MOTION

On motion of Senator Clarke, the Senate proceeded under the Call of the Senate.

REPLY BY THE PRESIDENT

President Cherberg: "Senator Pullen and other members of the Senate, in the interest of time the President believes that under Rule 48 that if the Senate votes by special leave to organize itself into the Committee of the Whole, that it has the authority to do so."
MOTION

Senator Clarke moved the Senate do resolve itself into the Committee of the Whole pursuant to Rule 58.

Senator Bottiger demanded a roll call and the demand was sustained.

COMMITTEE OF THE WHOLE

Senator Newhouse assumed the Chair.

The Senate resumed consideration of Substitute House Bill No. 811 from earlier today.

PARLIAMENTARY INQUIRY

Senator Talmadge: "In light of the President's ruling that the Committee of the Whole is virtually synonymous with the Senate as a body, would it then be the ruling of the Chair that Rule 40 requiring the yeas and nays be taken on the request of one-sixth of the members of the Senate, would that be applicable in the Committee of the Whole?"

REPLY BY SENATOR NEWHOUSE

Senator Newhouse: "Senator Talmadge, I think it becomes obvious that in the Committee of the Whole Rule 55 would apply. That is as far as the yeas and nays."

The bill was read the second time by sections.

MESSAGE FROM THE HOUSE

December 1, 1981.

Mr. President: The House has concurred in the Senate amendment to SUBSTITUTE HOUSE BILL NO. 760, and has passed the bill as amended by the Senate.

VITO T. CHIECHI, Chief Clerk.

FIRST READING OF RESOLUTION

SENATE CONCURRENT RESOLUTION NO. 127, by Senators Metcalf, Vognild, Rasmussen, Moore, McCaslin, Pullen, Guess, Hansen, Bauer, Lysen, Craswell and Fuller:

Requesting actions be filed in the Supreme Court against unsound monetary policies.

MOTIONS

On motion of Senator Metcalf, the rules were suspended and Senate Concurrent Resolution No. 127 was advanced to second reading and read the second time in full.
On motion of Senator Metcalf, the following amendment to the resolution was adopted:

On page I, lines 3, 7 and 12, strike "usurious" and insert "exorbitant".

On motion of Senator Metcalf, the rules were suspended, Engrossed Senate Concurrent Resolution No. 127 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage. Debate ensued.

POINT OF INQUIRY

Senator Goltz: "I have two questions. First of all, I wonder why this is not addressed to the Congress of the United States rather than to our Attorney General to bring an action in the Supreme Court. If the federal—has any action been attempted to change the law rather than to challenge it as a constitutional issue?"

Senator Metcalf: "They have considered this in Congress, but we are talking about an unconstitutional delegation of power and the Congress could raise it if they chose. They have chosen not to. You know what they say about memorials that we send to Congress. They ignore them, and frankly this is a way that a state—the state is the one that is damaged. The people and the state are the ones damaged, and it is the state then that has the responsibility to bring this action."

Senator Goltz: "The second question is, has anyone made an estimate as to what the cost of bringing an action in the Supreme Court by our Attorney General would be?"

Senator Metcalf: "The costs are minimal except for the actual—there will be the filing fees and the cost of the attorney going there, and very frankly, as I say, this does not carry any appropriation at all. If there is any cost beyond what is normally contained in the budget for the Attorney General's office or whatever, frankly there is no possibility, no problem at all. I will personally pledge to raise the money necessary to have them go there. In other words, this does not carry an appropriation and we are not talking about a lot of money, but if money is needed, there is no problem about raising the money."

Senator Goltz: "I guess I would like at least some estimate as to what we are asking the Attorney General's office to assume out of their budget. I don't know whether we cut the Attorney General's office travel thirty percent or not. They might only get as far as Columbus, Ohio, on their way to Washington, D.C., but there must be some estimate as to whether this is a ten thousand, a twenty thousand, a thirty thousand dollar expenditure or not."

Senator Metcalf: "This says 'to file the action' and we are not talking—again, I cannot give you an estimate, Senator Goltz. I think we could provide you with that."

Further debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator, to follow up on Senator Goltz's question, I guess, the question I had was, how many FTEs in the Attorney General's office would you anticipate would be devoted to the handling this lawsuit?"

Senator Metcalf: "I would doubt that it would be more than one or two. I wouldn't ask the Attorney General to authorize a very large—this has enormous implications, but very frankly, this is a very simple issue. It is an unconstitutional delegation of power and, Senator Talmadge, you yourself on the floor have made several references to the fact, last session and once this session, that what you are authorized to do, you are not necessarily authorized to delegate someone else to do. This is a clear point. It is not a complicated case."

Further debate ensued.

The motion by Senator Metcalf carried.

SECOND READING
SUBSTITUTE HOUSE BILL NO. 782, by House Committee on Higher Education and Representative McDonald (originally sponsored by House Committee on Higher Education and Representative McDonald):
Implementing laws relating to discharge of community college personnel.

REPORT OF STANDING COMMITTEE
November 23, 1981.

SUBSTITUTE HOUSE BILL NO. 782, implementing laws relating to discharge of community college personnel (reported by Committee on Higher Education):

MAJORITY recommendation: Do pass with the following amendments:
On page 1, line 9, after "The" strike "board of trustees" and insert "state board for community college education"
On page 1, line 14, after "When" strike "the" and insert "a district"
On page 1, line 17, after "by the" insert "state"

Signed by: Senators Benitz, Chairman; Guess, Patterson, Scott, von Reichbauer.
The bill was read the second time by sections.
On motion of Senator Benitz, the committee amendments were considered and adopted simultaneously.

On motion of Senator Benitz, the rules were suspended, Substitute House Bill No. 782, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.
POINT OF INQUIRY

Senator McDermott: "Senator Talmadge, in reading this bill, it has a great deal to do with contracts and I wonder if you could tell me what legal or constitutional problems you see in this bill?"

Senator Talmadge: "Senator, I think I see at least three particular constitutional or legal problems, and I would certainly ask the other attorneys on the floor of the Senate, including Senator Hemstad who has extraordinary knowledge of constitutional law, to take a look at some of these things, but it seems to me that the bill has the three problems that I was talking about. One is amending without reference. We are asking for another WEA type lawsuit where we amend sections of the existing RCW by implication without taking those up specifically. The second one is the contractual obligation impairment. I think this particular bill intends to impair existing collective bargaining agreements, and that is an impairment of the obligation of contract that is barred by the State Constitution and the Federal Constitution. The last thing is probably the question of due process. Our whole constitutional and legal system is based on the theory the individuals stand up for individual rights and that individuals are responsible individually.

"So where you have a system that requires that people act in a group and if the group does not act, the individual then forfeits his or her individual rights, I think that is wrong. In particular, the bill amends Chapter 28B.52, the community college collective bargaining law, without indicating that it is doing so. All you have to do is look at page 3, line 16, to see that where it specifically indicates that collective bargaining agreements in effect are hereby modified, and that gets into the whole collective bargaining process without saying so. The second thing is that it is intending to impair and deal with existing collective bargaining agreements, and that raises the contractual impairment issue, and the last thing is that in order for an employee to request a hearing and go through the process of vindicating his or her individual rights, if the employee is not able to get all of the employees RIFFED at any time to participate, that employee forfeits his or her individual right to bring a request for a hearing. And I think that has serious due process questions attached to it."

Further debate ensued.

POINT OF INQUIRY

Senator Clarke: "Senator, the question and answer procedure has been used to get into the record what amounts to a legal opinion by a member Senator. Do you have an opinion on the point requested and could you respond as to what you have done with respect to the question raised as to possible constitutionality?"

Senator Benitz: "Yes, Senator. Thank you. I have an opinion from Richard Montecucco, who is highly respected on both sides, and while it is not an Attorney General's Opinion and he has written a letter—impairment of obligation of contracts, and he says in the letter the answer is no for the following reasons: The Legislature has the authority to grant or deny state agencies the ability to enter into contracts. In the Professional Negotiation Act authorizing community colleges to enter into contracts, the Legislature limited the duration of such contracts to three fiscal years. Then the Legislature went on to state as follows: 'These agreements will not be binding upon future actions of the Legislature,' and he concludes that it does not violate that."

Further debate ensued.

POINT OF INQUIRY

Senator Gould: "Senator, one of the arguments, or the strongest argument that was presented to me in opposition to this bill was that a lot of boards neither needed it nor wanted it, that the boards of trustees of several community colleges. But when
I asked them if they would like to have it optional so they could use it if they had to use it, why the answer was affirmative. Is this mandatory that they use this process or is it optional at the local district level?"

Senator Benitz: "In answer to your question, it is up to the local districts. First, with your changes here on the floor we have put the responsibility first at the State Board level and then on line 14 it now reads, 'When a district board of trustees determines that a reduction in force of tenured or probationary faculty members may, 'may be necessary due to financial emergency' and continues, and I am sure that is plain."

Further debate ensued.

President Cherberg: "Senator Charnley, in reply to your point, the motion that will bring the two houses together is the positive motion. In other words, the motion to recede is the positive motion."

On page 5, after line 24, insert the following:

"Sec. 4. Section 2, chapter 134, Laws of 1972 ex. sess. and RCW 82.14A.010 are each amended to read as follows:

Sec. 5. Section 3, chapter 134, Laws of 1972 ex. sess. and RCW 82.14A.020 are each amended to read as follows:

Renumber the sections consecutively and correct any internal references.

On page 1, on line 6 of the title, after "36.32.120;" insert "amending section 2, chapter 134, Laws of 1972 ex. sess. and RCW 82.14A.010; amending section 3, chapter 134, Laws of 1972 ex. sess. and RCW 82.14A.020;"

Signed by: Senators Zimmerman, Chairman; Bauer, Charnley, Fuller, Gould.
The bill was read the second time by sections.
On motion of Senator Zimmerman, the committee amendments were not adopted.

Senator Hurley moved adoption of the following amendment by Senators Hurley, Hughes, Moore, Pullen and Metcalf:

On page 1, after line 11 insert:

"NEW SECTION. Section 1. The legislature hereby recognizes the plight of local governmental entities regarding the financing of vital services to residents of this state. The legislature finds that local governments are a very efficient means of providing these vital services to the citizens of this state. It is the intent of the legislature that vital services such as public safety, public health and fire protection be recognized by all local governmental entities in this state as the top priorities of the citizens of Washington."
Renumber the remaining sections consecutively.
Debate ensued.

POINT OF INQUIRY

Senator Hemstad: "Senator Zimmerman, I have some concern about how this language would be interpreted. While this is focusing on concern about priorities, the last sentence says, 'This act is intended to finance these vital services.' That is public safety, public health and fire protection. Is it your understanding, however, that by this language that would not limit the use of these funds to only those services?"

Senator Zimmerman: "Senator Hemstad, it is my understanding that this would not be limiting in terms of the funding, that it would certainly, with the rest of the bill that is along with it, that it would be emphasizing these services but not limiting it to these services. I certainly would not except that that was the intent of the sponsors and I would certainly hope that they would realize that we do intend to provide other services that the rest of the bill would provide."

POINT OF INQUIRY

Senator Wilson: "Senator Zimmerman, in pursuing Senator Hemstad's question, would you not be compelled to agree that a sentence which says, 'This act is intended to finance these vital services' at least creates the possibility of citizens in various communities at various times bringing a legal or or other action against public officials who have implemented this tax and then used a portion of it, for example, for library services or for swimming pools or for parks or for any other number of municipal purposes which are not clearly included in the preceding language in Section 1?"

Senator Zimmerman: "I would assume that this particular amendment is attempting to stress the need for those three vital services outlined. I do not see that it would limit them to that and I think that once the funding is placed in the general fund, that it becomes part of a major pot used for all of city government and county government would not necessarily be restrictive. I certainly was—I am not a sponsor of that side of it. Maybe we need a word from (inaudible)"

Senator Wilson: "Mr. President, simply to conclude my remarks, I really couldn't see anything wrong with a general statement as to some of the more important functions of government but it seems to me that a sentence which says, 'This act is intended to finance these vital services' is simply a wide open invitation for people to bring their local officials into court or get out restraining orders or injunctions or whatever when any part of the money raised by this tax is going to be applied for some purpose other than that pretty clearly delineated in the language in Section 1, and for this reason I feel compelled to oppose the amendment."

POINT OF INQUIRY

Senator Talley: "Senator, we are talking about fire. Do you think the fire districts should come in, as they are short of money, under this amendment could come in and claim some of the funds?"

Senator Zimmerman: "Senator Talley, I am not sure I understood that question exactly, but you say that under that, do I understand, that the fire districts or fire departments would what?"

Senator Talley: "Could our rural fire districts come in and ask for funds under this amendment?"

Senator Zimmerman: "I think that we probably could well either strike the bottom line, 'This act is intended to finance these vital services,' or say that this act is not intended to solely finance these particular services, and therefore clarify it. I
think we are really perhaps belaboring more than we need to on this. I do not see it as one opening a door, as you have indicated, Senator Talley."

POINT OF INQUIRY

Senator Hurley: "Mr. President, I think to clarify this point, a question and answer might suffice, and if Senator Zimmerman would ask me what my intent is, then I would tell him that it was not to be used solely. Now would you like to do that?"

Senator Zimmerman: "Senator Hurley, in terms of this particular amendment, (inaudible)."

Senator Hurley: "Thank you. My intent was to provide guidelines in the way of priorities and I did not intend that the money be spent solely for the purpose of these three basic services."

Senator Zimmerman: "Thank you very much."

On motion of Senator Gaspard, the following amendment to the amendment by Senator Hurley and others was adopted:

Strike the last sentence of the amendment.

The President declared the question before the Senate to be the amendment by Senators Hurley, Hughes, Moore, Pullen and Metcalf as amended by Senator Gaspard.

The motion by Senator Hurley carried and the amendment, as amended, was adopted.

Senator Pullen moved adoption of the following amendment:

On page 2, line 4, subsection (2), after "section," insert "from the effective date of this act until July 1, 1983,"

Debate ensued.

The motion by Senator Pullen failed and the amendment was not adopted.

Senator Gould moved adoption of the following amendment by Senators Gould, Zimmerman, Hurley, Talley and Conner:

On page 3, beginning with line 9, strike all material through "ordinance." on page 5, line 24

Renumber the sections consecutively and correct internal references accordingly.

Debate ensued.

Senator Gaspard demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senators Gould, Zimmerman, Hurley, Talley and Conner.

ROLL CALL

The Secretary called the roll and the amendment was adopted by the following vote: Yeas, 34; nays, 15.

Senator Zimmerman moved adoption of the following amendment by Senators Zimmerman, Gould and Bottiger:

On page 3, add a new section as follows:
NEW SECTION. Sec. 3. There is added to chapter 82.14 RCW a new section to read as follows:

Every county and city imposing the tax under RCW 82.14.030(2) shall provide a citizen initiative and referendum process which may be used by the citizens of the county or city, as the case may be, to repeal the tax imposed under RCW 81.14.030(2). The initiative process shall not contain requirements which are more stringent than the requirements for initiatives and referendums under chapter 35A-11 RCW.

Senator Pullen moved adoption of the following amendment to the amendment by Senators Zimmerman, Gould and Bottiger:

On line 13 of the amendment, strike "initiative and"

POINT OF INQUIRY

Senator McCaslin: "Senator Pullen, if your oral amendment is adopted, would that in essence or in effect be akin or identical to what Senators Hurley and Talmadge have proposed on page 11 after line 7?"

Senator Pullen: "I don't know what was proposed on those."

Senator McCaslin: "Don't you have the amendment in front of you?"

Senator Pullen: "I have the Zimmerman amendment in front of me."

Senator McCaslin: "Okay, I do too, but on line 11 it says Section blank, 'This tax shall be submitted to the voters of the jurisdiction for their adoption and ratification or rejection at the next general election. Other than at the next general election, are we in essence saying the same thing here?"

Senator Pullen: "No, this is a completely different amendment that has completely different implications to it."

Senator McCaslin: "Okay, but what you are seeking is a referendum?"

Senator Pullen: "No, what this would allow is a referendum process, a petition referendum process which would allow the citizens of a local jurisdiction to challenge the enactment of this act by collecting a certain number of signatures which is not defined in this particular amendment, by the way, which is another deficiency of the amendment, and they could then somehow get it on the ballot, again by a route that is not defined in the amendment, and if the people in that local jurisdiction, after undergoing the petition referendum, vote no, then the tax would be repealed."

Senator McCaslin: "After the tax has been imposed?"

Senator Pullen: "That is correct."

POINT OF INQUIRY

Senator Wilson: "A couple of questions, Senator. The first is, does the final sentence of this new section three mean that the ratio of people in a local jurisdiction who had to sign a petition to get this measure on the ballot could never exceed the ratio that exists for the state with respect to statewide initiative proceedings?"

Senator Gould: "In response to that, it cannot exceed those which exceed current charter cities, which is fifteen percent of the registered voters."

Senator Wilson: "Then, Senator, how does that percentage compare with the percentage needed to put either an initiative or a referendum on the ballot?"

Senator Gould: "My understanding of the way the initiative is drafted is that it provides that cities and counties for this purpose will have exactly the same restrictions or requirements for an initiative referendum process that are now in chartered cities, and that is fifteen percent of the registered voters. The wording is taken directly from the current charter city code."

Senator Wilson: "Okay, thank you."

The motion by Senator Pullen failed and the amendment to the amendment by Senators Zimmerman, Bottiger and Gould was not adopted.
The President declared the question before the Senate to be the amendment by Senators Zimmerman, Bottiger and Gould.

Senator Hurley demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senators Zimmerman, Bottiger and Gould.

ROLL CALL

The Secretary called the roll and the amendment was adopted by the following vote: Yeas, 38; nays, 11.

Voting nay: Senators Bauer, Charnley, Conner, Craswell, Hayner, Hughes, Hurley, Jones, Newhouse, Patterson, Pullen—11.

MOTION

Senator Pullen moved that Senate Bill No. 4421, as amended, be referred to the Committee on Constitutions and Elections.

Debate ensued.

Senator Bottiger demanded a roll call and the demand was sustained.

Senators Scott, Jones and Gould demanded the previous question and the demand was sustained.

The President declared the question before the Senate to be the roll call on the motion by Senator Pullen that Senate Bill No. 4421, as amended, be referred to the Committee on Constitutions and Elections.

ROLL CALL

The Secretary called the roll and the motion failed by the following vote: Yeas, 6; nays, 43.

Senator Quigg moved adoption of the following amendment:

On page 5, after line 24, insert the following:

"Sec. 4. Section 82.02.020, chapter 15, Laws of 1961 as last amended by section 3, chapter 196, Laws of 1979 ex. sess. and RCW 82.02.020 are each amended to read as follows:

Except only as expressly provided in RCW 67.28.180 and 67.28.190 and the provisions of chapter 82.14 RCW, the state preempts the field of imposing taxes upon retail sales of tangible personal property, the use of tangible personal property, parimutuel wagering authorized pursuant to RCW 67.16.060, conveyances, and cigarettes, and no county, town, or other municipal subdivision shall have the right to impose taxes of that nature. Without explicit authorization from the legislature, a county, city, or town shall not impose taxes, either direct or indirect, whether under the name of a tax, excise, fee, or other description, on the construction or reconstruction of residential buildings, commercial buildings, industrial buildings, or any other building or building space or appurtenances thereto, or the development or
subdivision of land. The legislature finds that dedication of land constitutes a tax for purposes of this section. However, this section does not preclude dedications of land or easements for roads, streets, sidewalks, rights of way, and utilities, including surface water drainage facilities, which are reasonably necessary as a direct result of the proposed development to which the dedication requirement is to apply.

Nothing in this section precludes the imposition of business and occupation taxes measured by gross income or of sales and use taxes under chapter 82.14 RCW.

Nothing in this section prohibits cities, towns, or counties from collecting reasonable fees from an applicant for a permit or other governmental approval to cover the cost to the city, town, or county of processing applications, inspecting and reviewing plans, or preparing detailed statements required by chapter 43.21C RCW.

This section does not limit the existing authority of any city, town, or county to impose special assessments on property specially benefited thereby in the manner prescribed by law.

Nothing in this section prohibits cities, towns, or counties from imposing utility system connection charges, except that no such charge shall exceed the proportionate share of utility system costs attributable to the property being charged.

Renumber the sections consecutively and correct any internal references accordingly.

Debate ensued.

The motion by Senator Quigg failed and the amendment was not adopted on a rising vote.

Senator Gould moved adoption of the following amendment by Senators Zimmerman, Bottiger and Gould:

On page 10, line 17, after "82.14.030(2)" and, before "and" insert "at the maximum rate"

POINT OF INQUIRY

Senator Wilson: "The sales tax distribution will be equalized among cities with respect to the half cent sales tax they are now authorized to adopt. Is that not correct? Regardless of whether they implement the second half cent sales tax?"

Senator Gould: "Yes."

Senator Wilson: "Thank you."

The motion by Senator Gould carried and the amendment by Senators Zimmerman, Bottiger and Gould was adopted.

Senator Hurley moved adoption of the following amendment by Senators Hurley and Talmadge:

On page 11, after line 7, insert:

"NEW SECTION. Sec. . This tax shall be submitted to the voters of the jurisdiction for their adoption and ratification, or rejection at the next general election, or a special election ordered by the legislative authority of the jurisdiction under the general election laws of this state. This tax shall be approved by a majority of the voters of the jurisdiction voting on the measure. The legislative authority of the jurisdiction may levy the tax up to the maximum amount approved by the voters. At the discretion of the legislative authority of the jurisdiction, the approved tax may be imposed at a rate lower than the amount authorized."

Debate ensued.

Senator Hurley demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senators Hurley and Talmadge.
ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 19; nays, 29; absent or not voting, 1.

Absent or not voting: Senator Hayner—1.

Senator Hurley moved adoption of the following amendment:

On page 11, after line 7, insert:

"NEW SECTION. Sec... This act shall cease to exist on June 30, 1983, unless extended by law for an additional fixed period of time."

POINT OF INQUIRY

Senator Goltz: "Senator Hurley, the language of your proposed amendment indicates that the act will cease to exist. I assume that this amendment does not by that wording cause any of the taxes which have been raised prior to June 30, 1983 to cease to exist as well."

Senator Hurley: "I intended by the words 'the act' the permission that this Legislature grants to local jurisdictions to impose this half cent."

Senator Goltz: "So if taxes are increased prior to that time, those tax increases would stay in effect even though the authority for other jurisdictions to add taxes would not be available. Is that correct?"

Senator Hurley: "It relates only to this act."

Debate ensued.

POINT OF ORDER

Senator Shinpoch: "Mr. President, I wonder if you would be so kind as to rule on the point of order of Senator Pullen's amendment which we voted down gave the effective date of this act 'until July 1, 1983.' Senator Hurley's is 'cease to exist on June 30' and I would ask you to rule whether there is any difference in those two, even though it is stated differently. It seems to me like both of them end on midnight, June 30, and if so, we have already acted on this amendment."

REMARKS BY SENATOR PULLEN

Senator Pullen: "Clearly this amendment is in order. My amendment only applied to one section of the bill. Senator Hurley's amendment applies to the entire bill."

RULING BY THE PRESIDENT

President Cherberg: "Senator Shinpoch, the President believes that Senator Pullen's remarks are correct. Therefore, the amendment is in order."

Further debate ensued.

The motion by Senator Hurley failed and the amendment was not adopted.

Senator Quigg moved adoption of the following amendment by Senators Quigg and Talley:

On page 11, after line 7, insert the following:
NEW SECTION. Sec. 6. There is added to chapter 35.21 RCW a new section to read as follows:

The following principles shall allocate gross receipts of a transporter of persons or freight for hire (called the "transporter" in this section) to prevent multiple taxation by two or more municipalities. They shall apply when two or more municipalities in this state impose a license fee or tax for the act or privilege of engaging in business activities; each municipality has a basis in local activity for imposing its tax; and the gross receipts measured by all taxing municipalities, added together, exceed the transporter's gross receipts.

(1) No municipality shall be entitled to an allocation of the gross receipts of a transporter on account of the use of its streets or highways when no pick-up or delivery occurs therein.

(2) Gross receipts of a transporter derived within a municipality, where it solicits orders and engages in business activities that are a significant factor in holding the market but where it maintains no office or terminal, shall be allocated equally between the municipality providing the local market and the municipality where the transporter's office or terminal is located. Where no such local solicitation and business activity occurs, all the gross receipts shall be allocated to the municipality where the office or terminal is located irrespective of the place of pick-up or delivery. The word "terminal" means a location at which any three of the following four occur: Dispatching takes place, from which transportation vehicles operate or are serviced, personnel report and receive assignments, and orders are regularly received from the public.

(3) Gross receipts of a transporter that are not attributable to transportation services, such as investment income, vehicle repair, and rental of equipment, shall be allocated to the office or terminal conducting such activities.

(4) Gross receipts of a transporter with an office or terminal in two or more municipalities in this state shall be allocated to the office or terminal at which the transportation services commenced.

NEW SECTION. Sec. 7. There is added to chapter 35.21 RCW a new section to read as follows:

A transporter of persons or freight for hire whose gross receipts are subject to multiple taxation by two or more municipalities in this state may request and shall be given a joint audit of the taxpayer's books and records by all of the taxing authorities seeking to tax all or part of such gross receipts. Such taxing authorities shall agree upon and establish a tax allocation formula which shall be binding upon the taxpayer and the taxing authorities participating in the audit or receiving a copy of such request from the taxpayer. Payment by the taxpayer of the taxes to each taxing authority in accordance with such tax allocation formula shall be a complete defense in any action by any taxing authority to recover additional taxes, interest, and/or penalties. A taxing municipality, whether or not a party to such joint audit, may seek a revision of the formula by giving written notice to each other taxing municipality concerned and the taxpayer. Any such revision as may be agreed upon by the taxing municipalities, or as may be decreed by a court of competent jurisdiction in an action initiated by one or more taxing authorities, shall apply only to gross receipts of the taxpayer received after the date of any such agreed revision or effective date of the judgment or order of any such court.

NEW SECTION. Sec. 8. There is added to chapter 35.21 RCW a new section to read as follows:

No demand for a fee or tax or penalty shall be made by a city or town against a transporter of persons or freight for hire on gross income derived from providing transportation services more than four years after the close of the year in which the same accrued except (1) against a taxpayer who has been guilty of fraud or misrepresentation of a material fact; or (2) where a taxpayer has executed a written waiver
of such limitations; or (3) against a taxpayer who has not registered as required by
the ordinance of the city or town imposing such tax or fee, provided this subsection
shall not apply to a taxpayer who has registered in any city or town where the tax­
payer maintains an office or terminal, or in the case of a taxpayer who has paid a
license fee or tax based on such gross receipts to any city or town levying same
which may reasonably be construed to be the principal market of the taxpayer but in
which he maintains no office or terminal.

NEW SECTION, Sec. 9. This act applies to transporters of persons or freight
for hire only. Nothing in this act applies to a person engaged in the business of
making sales at retail or wholesale or of providing storage services for tangible per­
sonal property."

accordingly.

REPORT OF STANDING COMMITTEE

December 2, 1981.

SENATE BILL NO. 4370, relating to revenue and tax (reported by Commit­
tee on Ways and Means):

MAJORITY recommendation: That Substitute Senate Bill No. 4370 be substi­
tuted therefor, and the substitute bill do pass.

Signed by: Senators Scott, Chairman; Craswell, Vice Chairman; Bluechel,
Fleming, Gaspard, Haley, Jones, Ridder, Zimmerman.
MOTION
On motion of Senator Clarke, the rules were suspended and Senate Bill No. 4370 was ordered placed on the second reading calendar for today.

MOTION
On motion of Senator Clarke, the Senate advanced to the sixth order of business.

SECOND READING
SENATE BILL NO. 3398, by Senator McDermott:
Relating to revenue and taxation.

MOTIONS
On motion of Senator Scott, Substitute Senate Bill No. 3398 was substituted for Senate Bill No. 3398 and the substitute bill was placed on second reading and read the second time in full.

Senator Talley moved adoption of the following amendment:
On page 1, line 28, strike "three" and insert "ten"

Debate ensued.
The motion by Senator Talley failed and the amendment was not adopted on a rising vote.

On motion of Senator Scott, the rules were suspended, Substitute Senate Bill No. 3398 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY
Senator Wilson: "Two questions. The first is, sometimes we unknowingly dump additional burdens on local government. Would the implementation of this bill complicate life at all for county treasurers in any respect?"

Senator Scott: "There was no testimony to that effect. What would happen is the check coming in would be ninety-seven percent greater and constitute one transaction instead of two."

Senator Wilson: "Okay. Second question then. I am sure I am wrong on this but the wording of the underline language, as I scan it, it says that if the total tax is paid by April, then any amount which would have been due in October shall be reduced by three percent. Now if the total amount is paid in April, then nothing is due in October so there is nothing to reduce by three percent. Or you could read this to say that if the total amount is paid by April, then the three percent might apply only to the part that was due in October. I see at least three different ways of reading this language, and I guess if your experts don't share my confusion, there is probably no problem, but do you see how this language can be interpreted?"

Senator Scott: "With a good deal of thinking I can, Senator Wilson, but suffice to say that lawyers as well as Mr. Van Gorkom on our side and the House people on both sides of the aisle have been looking at this for at least six days now and they don't believe that that is the interpretation to be placed upon it. First half taxes would be due fifty percent, the second half come in in effect at forty-seven percent if they come in early."

POINT OF INQUIRY
Senator Bottiger: "Senator Quigg, in sympathy for Senator Scott's voice I am asking you this question. Would it be your intent that the discount be restricted
solely to the actual taxpayer as opposed to any bank or escrow company or anyone else holding a reserve account for the payment of that amount?"

Senator Quigg: "The intent would be that this discount would go to the taxpayer, Senator Bottiger. And one further note for the benefit of the question that Senator Fleming raised, that the figures that I presented here earlier about the Oregon experience were from their Department of Revenue and the tax office in Multnomah County, so that is their experience. How it is going to come out here we really don't know yet, but I agree with you. I think we have got to do what we can to encourage early collection."

Further debate ensued.

**POINT OF INQUIRY**

Senator Fleming: "Senator McDermott, are you supporting this bill because it is a good measure, or you just don't like to vote against bills with your name on them?"

Senator McDermott: "This is a good little bill. Just vote for it."

**MOTIONS**

On motion of Senator Peterson, the rules were suspended and Substitute Senate Bill No. 3398 was returned to second reading.

Senator Peterson moved adoption of the following amendment:

On line 28 before the period and after "percent" insert "for that taxable year"

**POINT OF INQUIRY**

Senator Peterson: "Senator, there seems to be considerable amount of confusion on the floor, both on your side of the aisle and on mine, as to your previous statement that the three percent discount would only be applied for the second half taxes if paid in April which would have no effect at all on the first half taxes. Is that correct?"

Senator Scott: "That is correct."

Further debate ensued.

**POINT OF INQUIRY**

Senator Wilson: "Senator Scott, if Senator Peterson's amendment is adopted, that is a six percent discount on the second half, what would be the estimated revenue loss to local government over a year's period?"

Senator Scott: "Double the seven million."

Senator Wilson: "Did you say double seven million?"

Senator Scott: "Double the seven million is what the price of the discount. I don't know what the breakout would be for local government. It was one and one-half before. I presume it would be three."

Senator Wilson: "By the fourteen million, is that the total decline in property tax collections or is it that part that goes to local government?"

Senator Scott: "No, that is the price of the discount. That is three percent of the total that is being collected. One and one-half percent would be lost by local government at the three percent level, double that for six."

Senator Wilson: "How much would local government lose then?"

Senator Scott: "Three percent of the amount of dollars owed the second half."

Senator Wilson: "What would that be apt to come to in a year's period?"

On motion of Senator Peterson, there being no objection, the amendment was withdrawn.

Debate ensued.
MOTIONS

On motion of Senator Clarke, further consideration of Substitute Senate Bill No. 3398 was deferred until a later time.

SECOND READING

A grant of authority by a common school district pursuant to this section shall be by resolution of the board of directors and shall specify the duration and extent of the authority so granted. Any authority delegated to an educational service district pursuant to this section may be redelegated pursuant to RCW 28A.21.095, as now or hereafter amended."

Renumber the remaining sections accordingly.
On motion of Senator Gould, the following amendments to the title were adopted:

On page 1, line 4 of the title, after "82.14.040;" strike all material down to and including "36.32.120;" on line 6

On page 1, line 9 of the title, after "adding" strike "a new section" and insert "new sections"

On page 1, line 3 of the title, strike "amending" through "36.32.120;" on line 6

In line 4 of the title, after "040;" insert "amending section 1, chapter 47, Laws of 1975 and RCW 28A.58.430;"

On motion of Senator Gould, the rules were suspended, Engrossed Senate Bill No. 4421 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

The motion by Senator Peterson failed and the amendment was not adopted on a rising vote.

THIRD READING

SECOND SUBSTITUTE HOUSE BILL NO. 788, by House Committee on Ways and Means (originally sponsored by House Committee on Revenue):

Providing a temporary modification in the state retail sales and use tax rates.

The bill was read the third time by sections.

POINT OF INQUIRY

Senator Moore: "Now I want to raise the same question I raised yesterday. If we are going to collect some five hundred and thirty million in sales tax, as close as we can guess what the economy will bring, and we are going to have cuts of three hundred million, is that about right? That is eight hundred and thirty million. Now as I get the figures from OFM, we are talking about probably a billion dollar shortfall, so what about the hundred and seventy million difference? I do not want to leave here without settling this. I don't want half measures. We were called to do this job. I just want to know, what is the program for the hundred and seventy million?"

Senator Scott: "You will remember that we have already passed through here a transfer of eighty million dollars in DNR money, fifty-three million of which goes into the common school construction fund to cover our earlier borrowing and therefore it becomes an add back to the reapportionment formula, so you should add the fifty-three there and the remaining thirty million that we transferred in DNR money. The Unclaimed Property Act, you remember we passed through here, constituted an additional seven million and the other items that we have passed to date leave us about one hundred and fifty million dollars short of closing the one point one billion dollar debt. There are, of course, Senator Moore, two halves of the equation. One is the deficit side of the problem which is now at some seven hundred and thirty million dollars. We will have covered that within thirty million dollars as of today if the sales tax bill passes.

"In terms of cash flow, we are about one hundred and fifty million dollars short today of covering a two hundred and fifty-eight million dollar problem. As far as the final solution, I too would want one. There has been no agreement to date on this floor about tax measures which would raise the remaining money. The situation is
not critical in terms of cash flow between now and January in that our worst month in cash flow is next October, October of '82 when we are projected to be some two hundred million dollars below the line. The passage of this bill, however, will go far, together with the budget reduction, will go far to ensure that our credit rating is stabilized. I would assume that this body would come back in January, pass items such as the higher education bill, 774 which came out of committee yesterday, which was deferred from today's calendar by way of insistence of the minority and generally a lack of twenty-five votes. There are twenty-seven million dollars in that bill. There are some more bills here that could raise money but they are not on our agreed-upon agenda between now and five o'clock."

Senator Moore. "Thank you. This is a very good explanation by Senator Scott, but if my arithmetic is right, we are still short and we have accomplished even this close to being in balance by borrowing from funds which will eventually have to be repaid, and I think we are digging ourselves in deeper all the time by this kind of action, and with that I have to say that I am opposing this bill."

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "My question would be, Senator Clarke, and this is purely for clarification, the bill provides that the tax shall become effective December 1, 1981. It is my understanding that the intent is that the tax does not become due and payable until the Governor signs the bill and from there on. Now if you would say yes . . . "

Senator Hayner: "That is correct. I had a conversation with Marilyn Showalter, who is the attorney for the Governor, and she indicated that there would be no problem with that, that it would be forward from there, and that they would not go back and collect it from the December 1 date."

Senator Rasmussen: "The reason that I asked that question, Senator Hayner, is that some eager tax collectors might want to go back to the first and the retailer has not collected that tax from the first. He has only collected it starting maybe tomorrow. Thank you, Senator Hayner."

Further debate ensued.

REMARKS BY SENATOR HAYNER

Senator Hayner: "Mr. President and ladies and gentlemen of the Senate, Senator McDermott, it is very easy to criticize but I have heard very few positive suggestions. Oh yes, you talk about some of the loopholes that we have had, loopholes which were put into the law by the then Democratic majority, and it is very easy to criticize, but when it comes to changing things, you don't want to help very much. Let me say that—you say that we should have had this tax in the last session? Yes, you wanted to spend a great deal more money. You didn't want to cut down government during the last session. You wanted to have more taxes. But just think how deep the hole would be now if we had really responded to that and we had left all of those services, some of which we know are unnecessary and are abused, in place. Let me tell you that I just received, just a few minutes ago on the telephone, a LEAP run on the figures, including the sales tax. That is our Legislative Evaluation and Assessment Program which gives us a run on what we are doing here. It shows that we will be in balance at fourteen million dollars with this five hundred and thirty million dollar tax package, that the cash flow with the bills that we have passed and are presently considering will be two hundred and sixty million dollars, and that October, a one-time dip when we have a cash flow problem, we will have a sixty-eight million dollar deficit only and we have over ninety million dollars in transfer
funds. So I suggest to you that we have done a very good job considering the problems with which we have worked this time. And I urge you to vote for this."

**POINT OF INQUIRY**

Senator Goltz: "If I understood you correctly, this is the best news that I have heard since we have come down here this session. Did you say that with the sales tax increase which is now before us and the cuts which we have passed over to the House and the other things that we have done, that the budget for this biennium is in balance?"

Senator Hayner: "What I said was that it is in balance as far as the shortfall, the revenue that was not coming in, the eight hundred and thirty million shortfall. We have taken care of that with three hundred million of cuts and five hundred and thirty million of this tax. In addition to that, what we have done with the other things has brought in a cash flow of two hundred and sixty. That means that on October 1 we have a sixty-eight million dollar deficit but we also have ninety million dollars in transfer funds within state government that can be used for that purpose. That is the very latest LEAP run."

Senator Goltz: "I am not quite sure that I got a direct answer as to whether we are in balance for the biennium, but I was hoping that is true, because then that would mean that we would not need to consider in this next session of the Legislature those tuition increases where we have already made great increases, and the parental responsibility for developmental disability persons and so on, so I hope your optimism is present in January."

Further debate ensued.

Senators Scott, Jones and Hayner demanded the previous question.

Senator Talmadge demanded a roll call on the demand for the previous question.

On motion of Senator Scott, there being no objection, the demand for the previous question was withdrawn.

**POINT OF INQUIRY**

Senator Ridder: "I have a question for Senator Hayner regarding the LEAP run. You mentioned October 1. Was that before or after the four hundred million which I understand is due on that date?"

Senator Hayner: "Taking into consideration that we must pay that back, as you probably know we have to put aside one hundred and twenty-five million of that on August 1. We have to put aside another two hundred and fifty million on September 1 so that the money will be there. That is assuming that we pay back the four hundred million and that we do not borrow any, we don't turn it over and borrow any more."

Senator Ridder: "All right. Thank you very much."

**ROLL CALL**

The Secretary called the roll on the final passage of Second Substitute House Bill No. 788, and the bill passed the Senate by the following vote: Yeas, 25; nays, 24.

Voting nay: Senators Bauer, Charnley, Craswell, Fleming, Gaspard, Goltz, Hansen, Hughes, Hurley, Lysen, McCaslin, McDermott, Moore, Patterson,
SECOND SUBSTITUTE HOUSE BILL NO. 788, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

NEW SECTION. Sec. 8. In the plan:

(1) Districts shall have a population as nearly equal as is practicable, excluding nonresident military personnel, based on the population reported in the federal decennial census.

(2) To the extent consistent with other criteria of this section, district lines shall be drawn so as to coincide with the boundaries of local political subdivisions. The number of counties and municipalities divided among more than one district shall be as small as possible.

If the legislature amends the commission's plan the legislature's amendment must be approved by an affirmative vote in each house of two-thirds of the members elected or appointed thereto, and may not affect more than five percent of the population of any legislative district contained in the commission's plan.

(3) The plan approved by the commission, with any amendment approved by the legislature, shall be final upon approval of such amendment or after expiration of the time provided for legislative amendment by subsection (2) of this section whichever occurs first, and shall constitute the districting and apportionment law applicable to this state for legislative elections, beginning with the next elections held in an even-numbered year. This plan shall be in force until the effective date of the plan based upon the next succeeding federal decennial census.

(4) If three of the four voting members of the commission fail to approve and submit a plan within the time limitations provided in subsection (2) of this section, the supreme court shall adopt a plan by January 1st of the year ending in two. In this case, the legislature shall have until March 1, 1982, to amend the plan.

(5) Following submission of the plan to the legislature, the commission shall conclude its business in accordance with section 10 of this act, and shall cease to exist thirty days after submission of the plan.

NEW SECTION. Sec. 13. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 16. The following act is hereby repealed:

POINT OF ORDER

Senator Metcalf: "I raise the point of scope and object. This is the tightest title I have ever seen on any legislation in my time here, and this is obviously far, far beyond the scope and object of the bill."

MOTION

At 5:25 p.m., on motion of Senator Clarke, the Senate was declared to be at ease pending a Ruling by the President on the Point of Order by Senator Metcalf on the amendment by Senator Talmadge to House Bill No. 775. The President called the Senate to order at 5:33 p.m.
RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the point of order raised by Senator Metcalf, the President finds that House Bill No. 775 is a measure clarifying the legislative district boundaries between the twenty-fourth and thirty-fifth legislative districts and legislative district 19-B.

"The amendment proposed by Senator Talmadge completely repeals the redistricting bill passed in the Regular Session and establishes a legislative/congressional redistricting commission.

"The President therefore finds that the proposed amendment does expand the scope and object of the bill and that the point of order is well taken."

The amendment by Senator Talmadge was ruled out of order.

MOTION

Senator Metcalf moved the rules be suspended and House Bill No. 775 be advanced to third reading.

Senator Talmadge demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the motion by Senator Metcalf that the rules be suspended and House Bill No. 775 be advanced to third reading.

ROLL CALL

The Secretary called the roll and the motion carried by the following vote:

Yeas, 25; nays, 22; absent or not voting, 2.

Voting yea: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallaghan, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer, Zimmerman—25.

Absent or not voting: Senators Bottiger, Charnley—2.

House Bill No. 775 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF ORDER

Senator Goltz: "I would like to raise the point of order with respect to amendment number sixty-eight which amended Article Two, Section Twelve of the Constitution. The point of order is that the Governor's proclamation calling this session into being does not include redistricting as one of the subjects to be covered. There is a provision in the amendment that says that the specification of purpose by the Governor pursuant to Article Three, Section Seven of this Constitution shall be considered by the Legislature but shall not be mandatory. It would be my point of order that the Legislature has not considered adding to the agenda of the Governor. There is no resolution on our desks which sets a different agenda from that of the Governor, and therefore I think further consideration of House Bill 775 is out of order."

RULING BY THE PRESIDENT

President Cherberg: "Senator Goltz, with all due respect to your constitutional acumen, the President has followed a long-time policy of not giving advisory opinions on constitutional questions."
Further debate ensued.

POINT OF INQUIRY

Senator Wojahn: "I am sorry I have to ask this question of you, Senator Metcalf, but I don't have Representative Eberle here to ask the question of and since you have been handling this area, I would like to know why we have to have a Section 2 in this bill declaring this act necessary for the immediate preservation of the public health and safety, the support of state government, its existing public institutions, and shall take effect immediately. Why?"

Senator Metcalf: "As you know, Senator, this is a normal addition to make a bill go into effect immediately, and it was the opinion of the drafters that it should go into effect immediately. That is the only answer I can give you. I think it is necessary to tune up the only glitch that there was in that bill. That is pretty creditable that there was only one glitch after all the slander I endured on this floor, but in any event it is necessary. It does go into effect immediately and I think it is a good idea, but I can't answer the technical question."

Further debate ensued.

MOTION

Senator Fleming moved that further consideration of House Bill No. 775 be indefinitely postponed.

POINT OF ORDER

Senator Clarke: "Senator Fleming made a motion, he spoke first and then made a motion so his motion is out of order."

RULING BY THE PRESIDENT

President Cherberg: "Senator Clarke's remarks are well taken."

MOTION

Senator McDermott moved that further consideration of House Bill No. 775 be indefinitely postponed.

Senator Fleming demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the motion by Senator McDermott that further consideration of House Bill No. 775 be indefinitely postponed.

The Secretary called the roll and the motion failed by the following vote: Yeas, 23; nays, 25; absent or not voting, 1.

Absent or not voting: Senator Bottiger—1.

Absent or not voting: Senators Bottiger, Woody—2.

HOUSE BILL NO. 775, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

Senator Moore moved that the Committee on Ways and Means be relieved from further consideration of Senate Joint Memorial No. 113, and that the memorial be placed on second reading.

Debate ensued.

Senator Moore demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the motion by Senator Moore that the Committee on Ways and Means be relieved from further consideration of Senate Joint Memorial No. 113 and that the memorial be placed on second reading.

MOTION

Senator Conner moved adoption of the following resolution by Senators Conner and Quigg:

SENATE RESOLUTION
1981–160

By Senators Conner and Quigg:

WHEREAS, Unemployment in Washington State for September, 1981, was eight point eight percent (8.8%) with twenty–seven (27) of Washington's thirty–nine (39) counties having unemployment rates above this state–wide average; and

WHEREAS, Pend Oreille, Skamania, Okanogan, Clallam, Ferry, Stevens, Cowlitz, Lewis, Wahkiakum, Grays Harbor, Klickitat, Pacific, Skagit, Grant and Whatcom Counties all have unemployment rates above ten percent; and

WHEREAS, High interest rates have affected Washington as they have the nation, especially the industries of home construction, lumber and milling as well as other areas of our economy; and

WHEREAS, The Honorable Victor Atiyeh, Governor of Oregon, a state whose economy parallels Washington's to a great degree, has indicated his concern over the "disaster in Oregon's timber industry" as caused by high interest rates and Canadian lumber imports into the United States; and

WHEREAS, The Congress and Administration have indicated their disposition is to "look into" Canadian lumber imports for a determination of whether American jobs are lost because of such importation;

NOW, THEREFORE, BE IT RESOLVED, By the Senate assembled in session, That a hearing be conducted no later than January 8, 1982, by the Senate Committee on Natural Resources, in concert with other committees and agencies of state government as necessary, to solicit testimony from persons, organizations, businesses and others interested in and concerned with the effects of Canadian lumber imports on jobs and the economy of Washington State and the Pacific Northwest; and

BE IT FURTHER RESOLVED, That the Committee shall forward to the full Senate, no later than January 15, 1982, a report indicating the testimony, discussion and conclusions from such hearing(s) which shall, upon approval by the Senate by
Resolution, be forwarded to members of Washington's Congressional delegation, 
U.S. Trade Representative David McDonald, the State–Federal Assembly of the 
National Conference of State Legislatures, The Honorable Victor Atiyeh and Legis­
lative Leadership of the Oregon State Legislature; and

BE IT FURTHER RESOLVED, That nothing in this resolution shall prevent 
such hearing(s) from being conducted jointly with a similar committee of the 
Washington House of Representatives and Oregon State Legislature at a location 
acceptable to committee members, in such case the committee shall request appro­
priate authority from the Facilities and Operations Committee.

POINT OF INQUIRY

Senator Lysen: "You are involved in a foreign trade bill that went through here 
last year, as I recall, and I stood up and I think I spoke against it and voted against 
it, and I thought foreign trade really contributed to the economy quite a bit. Now 
here this resolution is against foreign trade with the Canadians, our neighbor to the 
north. Now is this going to hurt us by hurting our trade when trade contributes so 
much to the economy according to some people? They really feel that trade is what 
saved us through the last decline so I am concerned about our trade situation. Is this 
going to affect that?"

Senator Quigg: "Senator Lysen, the resolution down there about four 
'Whereases' states that Congress and the administration have indicated their dispo­
sition is to look into Canadian lumber imports for determination of whether Ameri­
can jobs are lost because of such importation. And I think the question of the 
Canadian imports and the American housing and construction industry and related 
forest products industry is one that is of vital concern to this state and the role that 
the Canadian imports play in it is something that this state and our Legislature 
should be aware of as we look at our severely depressed economy. I don't think that 
the resolution as it is drafted is anti-trade. What it is doing is it is pro-trade knowl­
dge. Let's find out just really what we have here. I imagine you would find there 
are probably some builders, the few that are left, who would feel that low cost lum­
ber is desirable regardless of where it comes from, so I think this is an open, honest 
look at the question that severely bothers a lot of people in the forest products com­
unities that are out of work. So I think that it is not a slanted look at all. I think it 
is straightforward and for that reason I support it."

Senator Lysen: "I want to thank you for your reassurance on that. I do have 
concern. I guess I would say that we should have reciprocity in the trade situation. 
The Canadians, as you know, have a statute where they do not export logs, raw logs. 
They only export lumber, and possibly we should consider some type of reciprocity 
and I would hope that that would be a part of the look that is taken here on this 
resolution."

The motion by Senator Conner carried and the resolution was adopted.

MOTION

Senator Wilson moved adoption of the following resolution:

SENATE RESOLUTION
1981–153

By Senators Wilson, Hughes, Woody, Rasmussen and McCaslin:

BE IT RESOLVED, That the murals presently displayed on the east and west 
walls of the Senate Chamber be removed as soon as possible after the conclusion of 
the 2nd Extraordinary Session of the 47th Legislature, and that the Department of 
General Administration be directed to find a different location for the display of 
these murals or otherwise arrange for their disposition.
Debate ensued.
Senator McDermott moved adoption of the following amendment:
Following the period of the last sentence of the resolution, insert the following:
"The murals should not be taken down until it can be decided what should be put in their place."
Debate ensued.
The motion by Senator McDermott failed and the amendment to the resolution was not adopted.
The President declared the question before the Senate to be Senate Resolution 1981-153.

Absent or not voting: Senators Bottiger, Conner, Williams—3.

MOTION
On motion of Senator Quigg, the following resolution was adopted:

SENATE RESOLUTION
1981-162

By Senators Quigg, Zimmerman, Patterson, McCaslin, Goltz, Talley, Wilson, Benitz, Guess, Hayner and Bauer:
WHEREAS, State and local taxes represent a significant aspect in the state's economy; and
WHEREAS, That increased tax rates in a period of economic downturn and recession may further impact consumer spending and business activity;
NOW, THEREFORE, BE IT RESOLVED, By the Senate, That the department of revenue be directed to undertake a study of the impact of state and local taxes on the economy of the state and that particular reference be given to the impact of such tax rates in communities which border neighboring states with which Washington businesses must compete; and

POINT OF INQUIRY

Senator Fleming: "Senator Clarke, and it is just an inquiry. The jail commission, has that normally gone to judiciary committee or has it normally gone to the committee on social and health services? And if so, is there any particular reason for the turnaround?"

Senator Clarke: "Frankly, Senator, I do not recall how it has been handled in the past; but as chairman of the judiciary committee, I am quite willing that those go to social and health services."

Senator Fleming: "I have no preference. I was just wondering if there was some reason. I am not sure whether they had been or not but I know much of the jail commission material was handled by social and health services. That is the only reason I asked."

Senator Clarke: "Well, that I think, is the rationale for the reference in this instance."

REMARKS BY SENATOR WILSON

Senator Wilson: "Thank you, Mr. President. Just to join in this, Senator Clarke, I suspect Senator Zimmerman and I and others would appreciate consideration of at least inviting members of the local government committee in to this hearing pertaining to appointments to the state jail commission because it is, among other things, of very much concern to local governments."

Senator Fleming: "I think it comes back to my memory now. I was in error. I think it was local government committee that those jail commission appointments had gone to in the past, I think."

REMARKS BY THE PRESIDENT

President Cherberg: "The Secretary advises that there are several jail commission appointees already in the judiciary committee.

"If there is no objection, the gubernatorial appointments will be referred to the designated committees that appear on the message from the Governor."

The motion by Senator Clarke carried and the messages from the Governor concerning gubernatorial appointments were referred as indicated on the list provided each member.

STATE OF THE STATE ADDRESS

Governor Spellman: "Mr. President, Mr. Speaker, distinguished elected officials, members of the House and Senate, ladies and gentlemen: As required by the State Constitution, let me report to you the condition of the affairs of the state.
"Unemployment will soon be running at eleven or twelve percent. The construction and timber industries are in a depression. $1.5 billion has been cut from previous program levels. The prisons are bursting at the seams, after a one-year population increase of one thousand prisoners. In 1982, the population will increase by another one thousand. We have no cash reserves. We have nine months in which
to pay off a $400 million loan. We are $925 million below the strict tax lid imposed by the people. The state's bond rating has been down-graded, costing the taxpayers $100 million in interest payments over the next twenty years. Soon the bond rating will be reviewed and scrutinized again. High credit costs have depressed the retail sales upon which state revenues depend. The most recent economic forecast—confirmed by the best economic thinkers in the state—showed a projected $144 million revenue shortfall over the next seventeen months. There is mounting evidence of further revenue declines before the biennium is over.

"Let's assume for the moment that we take care of the immediate problems we face today. A year from today, we are likely to face another $1 billion in fiscal problems. Increased enrollments in kindergarten through high school will require an increase in school spending for the 1983–85 biennium. Higher education enrollment is projected to increase in the next biennium. And we will have to replace $70 million in capital construction money used to pay for higher education operating costs in this biennium. State pension funding requirements will leap by at least $250 million. Adult corrections will require additional millions, as the prison population continues to increase through the 1983–85 biennium. And we must assume that federal reductions in appropriations to the states will continue. The $1 billion 1983–85 biennium problem we will face next year does not include inflation.

"Let us assume that inflation runs at seven percent. Counting inflation alone, maintaining only the radically reduced state spending of the past year, we would be required to come up with about another $1 billion in revenue.

"That's a great start for a speech!

"While the ravages of inflation—though already somewhat curbed—continue to mount, the property tax collection rate will continue to fall. The people's repeal of the inheritance tax last November will add a further revenue erosion of $114 million in the 1983–85 biennium. We will be about $1 billion below Initiative 62's strict tax limit a year from today, when the next Legislature must write the next biennial budget.

"What must we do now? We must meet our $144 million and $15 million revenue shortfalls, which currently exist. We must also restore adequate levels of reserves, by $150 million, in anticipation of further economic and revenue deterioration. In short, we must provide $309 million in additional revenues. This is what we must do as prudent stewards of the public trust. And we must do it without concern for the elections this fall.

"The people of the state of Washington did not elect us to get reelected. They elected us to deal forthrightly with the problems of our state. They did not elect us to give us a job. They elected us to do a job. I call upon all of us today to put aside electioneering until after our crucial work is completed. For the good of the people we must resist the strong temptation to characterize as scapegoats those who take the difficult course of responsible action. Let us all delay the start of this fall's campaign until we get the job done!

"At the end of your 1981 session, I told you and I told the people that you were to be congratulated on what you accomplished; that you deserved praise for your unprecedented hard work; that you had responsibly taken the politically difficult course. And I want more than anything to be able to repeat that praise following this session, because if the crucial work is not done in this session, and if the economy continues to deteriorate, there is not question you will be back in special session before the fall. I suggest to you that the electorate of this state would prefer a good-faith approach to solving our problems to the supposedly 'safe' political course of trying to avoid those problems. To try to avoid those problems is to grossly underestimate the wisdom and intelligence of the electorate. As long as I am Governor I will continue to urge you to cooperate with each other and to work together with mutual respect to get the job done.
"I have just submitted to you my assessment of the top priorities for this meeting of the Legislature. We have, minimally, a $309 million problem. That's the bare bones. My $309 million revenue proposal is based on my assessment of what can win your acceptance, even though I know that neither you nor I like taxes as a solution, and that taxes are almost always among the last agenda items that any session deals with, I ask for a tax increase of $180 million—$176 million from imposing the sales tax on gasoline and $4 million from closing a loophole by taxing aircraft. I ask for $129 million in nontax revenues. I ask that you require the top 2.6 percent of the state's retail stores to pay their collections of state sales tax in a more timely way so that the taxpayers can reap the benefits of their money without delay. I ask you to pass a higher education fee bill which would establish a more equitable tuition and fee system for the state's colleges and universities. And I ask you to pass a DSHS fiscal responsibility bill which would require families with good incomes to pay for a portion of the care and services that they receive from the state.

"I have kept my package simple and minimal. It will meet the state's needs for the biennium. It is not the only possible tax package, but it is the one I think has the best chance for passage. Washington State has one of the narrowest tax bases in the country. We are one of only six states that have no income tax. More than two-thirds of the states have a higher property tax burden than we do. Half the states still impose a sales tax on food. Our ranking in the state and local tax burden has been dropping steadily for years. This is good news for the taxpayer, but we can go only so far before creating a chronic crisis in financing basic state services. That crisis was the reality which dominated state government in 1981; and, until we act conclusively, it will remain the priority of our agenda for the 1980's.

"Beyond that, we need to make a beginning toward establishing a firmer footing for future budgets. I am proposing that the Legislature create a dual purpose fund to serve as a cushion against any further revenue declines that may occur. This fund will also provide a down payment on putting the state's finances back in order. We do this, not to keep budget officers happy, but to meet the needs that people cannot meet on their own. We cannot be satisfied with the current availability of care for the mentally ill. The demand for state and local mental health care is placing a great strain on barely adequate resources. The need for better care is undeniable. Additional funds will be necessary before the end of this biennium in order to care for an increasing number of mentally ill persons requiring involuntary treatment. Because additional appropriations are unlikely, money to meet mental health needs will have to come from existing and already strained DSHS appropriations. As a minimum action, we must take up the question of how to restructure the state's mental health system—to integrate hospital care, outpatient care, emergency services, and follow-up care in community services. The explosion of the state's prison population requires legislative action to begin building a new 500-bed prison in addition to the one under construction at Monroe. The social price that would have to be paid for not taking such action is better left undiscussed.

"While I have spoken against unacceptable spending cuts in the delivery of services, that does not mean that the efficiency and productivity of the government cannot be improved. I, therefore, have proposed, as you have requested, a reorganization of the state's data processing authority to maximize efficiency and productivity and to avoid needless waste. I have also proposed a first-step program in government reorganization to eliminate needless agencies, boards and commissions, and to provide for a more economical approach to the delivery of government services. And I have asked for the power to develop and implement further organizational reforms and efficiencies. Efficiency is not enough. More than anything else, we need jobs, and we need them now.
I propose creating a Community Economic Revitalization Board, to increase public project construction and economic development tailored to the needs of individual communities. I propose accelerating bond programs, already authorized and approved by the people, to create jobs now. I propose that, as the federal government removes itself from funding jobs-finding services, the state come up with the money to help relieve the most serious human problem facing us—unemployment. Ultimately, the only real solution to our fiscal woes is the rehabilitation of our economy and the creation of hundreds of thousands of jobs. On this point we are of one mind. We must do everything we can to create jobs and to stimulate economic activity. The crisis condition of the Washington Public Power Supply System makes this task doubly urgent. WPPSS has created a vast dark cloud of awesome debt that has for so many months loomed as a fiscal and economic danger so great as to make a $309 million revenue problem pale indeed. Were WPPSS to collapse—to go into uncontrolled termination—the impacts on the public and private sectors of our economy and on the economic health of our entire region, would be profoundly adverse.

The problems we face are real. They will not go away. If we fail to deal with them now, the Budget and Accounting Act would require an across-the-board cut in state services, including K–12 education, of almost five percent for the second year of this biennium. Potentially, that could mean a ten percent across-the-board cut, were common schools to be exempted by the courts. If the economy deteriorates further, and if we fail to act now, those cuts could be even deeper. It is these times and these problems, and not political expediency, that dictate the actions we must take.

In my first year as Governor, the Legislature responded to the challenge and met the demands of responsibility and conscience. I pray with all my heart that our record of success will continue in 1982. Our success has come from working closely together, step by step, through extremely difficult times. As I hope you discovered in 1981, my door is always open and will remain open. I will continue to work closely with you so that together we do the job the people have chosen us to do.

Thank you.

REMARKS BY THE PRESIDENT

President Cherberg: "Honored and respected members of the Senate, ladies and gentlemen.

"Thanks to the Honorable Susan E. Gould and at Senator Gould's request, the President is highly privileged and pleased to have the opportunity to present to you a very welcome guest from our friendly neighbors in the Far East, Australia. This very fine young gentleman is the Honorable Ivar Schmidt, a member of Parliament, and represents the District of Mawson.

"It is with great pride that we request of you, Mr. Schmidt, that you make a few remarks to the members and to the ladies and gentlemen present in the galleries.

"The Honorable Mr. Schmidt."

REMARKS BY MR. SCHMIDT

Mr. Schmidt: "Thank you very much Governor Cherberg.

"Senators and ladies and gentlemen. It is indeed an honor that I should be here today to meet with you and speak with the Governor himself and with Senator Gould.

"Might I start off by saying that since I have been in America the last three weeks, I have been more than impressed with the hospitality which has been afforded to me by the people of America. And I would only sincerely hope that at any time anybody from here were to do an exchange to Australia, we could also afford you that very same custom and the hand of friendship that you have shown to me here.

"It is interesting to note that whilst we have different systems the problems that confront us are nonetheless very identical. Namely, we have a younger generation who, in some areas, are not quite sure what the future will bring; and yet we are burdened with such tasks and we were told in the prayer that if we had the wisdom of say, somebody like Solomon, that we could look ahead and know just what solution would be most suited to the forthcoming generation that we could pity knowing that our past would be somewhat easier. But unfortunately very few of us throughout history have the wisdom of Solomon and we can only rely upon our own better judgment and upon the wisdom of other persons with more experience to give us
some sort of guidance. And it is in that sense that I have come to America to talk to various representatives in the hope that I might cull from your souls, some wisdom from errors that you have already dealt with and hope to take that information back with me to Australia and use that in my own district.

"But in the main, I wish to extend to you, greetings from the Premier of our own state, South Australia, and from our own legislature and I wish you all the very best in your own forthcoming session, and my regardance that we all require for our own future and in particular, for the future of their younger peoples whom I see sitting here in your house, and I must say I am very impressed with that system you have, which we do not afford that custom to our young people, and so maybe this is a good example for me to take back to our own legislature and say, 'Well, we should involve our young people more so in our legislative program.'

"I wish you all the best for your sessions and I sincerely trust that your deliberations may be for the better of all. Thank you very much."

REMARKS BY THE PRESIDENT

President Cherberg: "Thank you very much, Mr. Schmidt. We certainly appreciated your friendly remarks."

POINT OF INQUIRY

Senator Newhouse: "Senator Talmadge, on this bill having to do with the Supreme Court having the authority to create a situation of disability for a judge who is retired because of inability or because the performance of his duties might be seriously interfered with, would it be, in your opinion, the legislative intent that any misconduct might be involved or perhaps in a situation of alcoholism or something of that nature, would it be your intent that disability pension should be allowed?"

Senator Talmadge: "Senator, my understanding of this is, that it relates solely to retirement for disability; and by 'disability' I would understand that to mean something of a physical nature. WHEREAS, We, the members of the Senate, as we gather here together on
January 15, 1982, the fifth day of the legislative session, are honored to commemo-
rate the birthday of Reverend Dr. Martin Luther King, Jr., who tirelessly preached
the gospel of Christianity not only in the four walls of the church but in the streets of
this nation and the world; and
WHEREAS, This champion of the oppressed, armed with the creative weapon of love endured countless seasons of suffering in his battle to wear down injustices which blocked the capacity of so many lives and scarred so many souls; and

WHEREAS, This man, this landmark of liberation and symbol of hope, through his words and deeds, through his magnetism and sincerity, raised familiar platitudes from cliche' to commandment; and

WHEREAS, This Nobel laureate, labored on the mountain tops and in the valleys of the world inciting social change that would give new hope to those beleaguered by poverty, hunger, unemployment, war and political disenfranchisement; and

WHEREAS, The Reverend Dr. King, unselfishly shared his life and his dream with all America in the hope that freedom would ring from and equality would prevail in every village and hamlet – every state house and city hall of this Nation; and

WHEREAS, All people regardless of race, creed, color, religion or national origin have benefited from the efforts of this great American;

NOW, THEREFORE, BE IT RESOLVED, That on this day, we, the members of the Senate of the State of Washington, pause in our endeavors to pay tribute to one of America's most honored and honorable citizens, the Reverend Dr. Martin Luther King, Jr., in order to call to the attention of the residents of this state Dr. King's accomplishments and to recommit ourselves to the fulfillment of his dream and the pursuance of his principles of love, peace, freedom and equality for all men; and

BE IT FURTHER RESOLVED, That the Secretary of the Senate transmit a copy of this resolution to Dr. King's widow and the members of his family.

REMARKS BY SENATOR FLEMING

Senator Fleming: "Mr. President, members of the Senate, ladies and gentlemen.

"If Dr. King had been an ordinary man, he would be celebrating his fifty-third birthday. He would probably be at home right now with his family and a few close friends. But he was no ordinary man. He refused to march sleepily in steps with his times; instead he marched against an established order of injustice, racism, and institutionalized hopelessness.

"And he did not march alone. Tens of thousands marched along with him. Millions more listened and learned and lifted their heads with new-found dignity. They called him, as you may remember, the 'drum major of love and justice.' And they followed him.

"He was no ordinary man. But because he was no ordinary man, he was dangerous, dangerous to those who despised and feared the prospect of true, true equal opportunity.

"So Dr. King was shot down, slain before his fortieth year. There is always some special sadness on January 15 for me, and for as many Januaries as I may live, there will be sadness. But this January 15 seems to be even sadder. But when I think of the dream that we shared with Dr. King, I also think of the stark reality brewing outside of these walls. The reality makes the dream all the more distant and the dream makes the reality all the more unbearable.

"This year the contrast is especially painful. We dreamed with him of justice for all. This year, legal help was snatched from the poor and the needy. We dreamed with him of a dignity for people to know the satisfaction and the dignity of a productive work. This year, millions of Americans have been told they are of no use right now. We dreamed with him of the day when justice would roll down like waters in righteousness like a mighty stream, a far cry from the trickle-down theory.

"The list of reasons why this January 15 is especially sad could go on and on and on. But I am sure Dr. King would rather have us remember him with something
other than sadness. Shortly before his tragically early death, he was before his con­gregation and he told his congregation exactly how he wished to be remembered. 'If you get someone to deliver a eulogy,' he said, 'tell them not to make it too long. I just want it to be said that Dr. Martin Luther King tried to love somebody; that I tried to love and serve humanity.'

'I will follow Dr. King's wishes. I won't talk about his milestone victory in Montgomery. I won't talk about the Nobel Peace Prize. I won't talk about the unending honors that were bestowed on him by this grateful world of ours. And I won't talk about the nation that wept when he died. I will just say that there was a man who knew how to love people.

'Speeches and resolutions are not the best ways to honor Dr. King. We can do him far more honor through our actions. We can do him more honor by remembering him through his actions, through the actions in which we take, by carrying on the march which he was not able to complete. I wish, I just wish some time, that I was blessed with the eloquence of Dr. King. His words had deep meaning for people, not because they were fancy words or of novel ideas; his words had deep meaning because they reminded us of the things that were deeply implanted inside of all of us; that in our hearts we are decent people, fair and honorable people; that we are deeply grateful for our freedom and the opportunities that have enriched our lives; that when we reach out to others it is to help them up, not to push them down.

'The message and example of Dr. King's life is courage — courage. Courage to be the kind of people we know ourselves to be; courage to make the choice; courage is the key. Do we have the courage — do we have the courage to choose the right direction in this year of fateful decisions? I urge you, my fellow colleagues, I urge you to make the resolution with me today to try; let us try to proceed with courage.

'Thank you, Mr. President. Could I ask the members to stand in a moment of silence, please?'

The members observed a moment of silence honoring Dr. Martin Luther King, Jr.

MOTION

Senator Clarke moved the following measures be referred to the Committee on Parks and Ecology from Committee on Rules on third reading:

SSB 3025, SSB 3026, ESSB 3027, ESB 3028, SSB 3030 and ESSB 3031.

POINT OF INQUIRY

Senator Williams: "Senator Clarke, perhaps, for the chairman of the committee or, for you, I am curious as to why, for instance, the preservation bills are being moved back to committee. There was a period of time that these bills all passed the Senate and went to the House and then of course were returned after the conclusion of the last session.

I am just curious as to what the intent of moving the bills back to committee is since I really have not been contacted in the interim or, for that matter, the people that are primarily interested in these bills, as to what the nature of the reason is for bringing them back to committee."

Senator Clarke: "I should perhaps yield to a member of rules committee because I am no longer on rules since I am a committee chairman but it is my understanding that most of these bills either have already been enacted into law in some other bill or for some reason or other rules committee felt that it was not desirable to have the Senate reconsider them for final passage. For that reason the reference back to committee, I believe in most instances, is to allow the committee simply to finally dispose of the bill by indefinite postponement or by simply not reconsidering."

Senator Williams: "I guess that, then, raises a concern on my part because I am not aware of any of these, for that matter, as being bills that have been resolved
either in other legislation or otherwise. The bills, perhaps, may have some work that could be done on them, however, I have not . . . ".

Senator Clarke: "Senator, may I yield to Senator Fuller who is the chairman of that committee and who has more intimate knowledge as to the reasons on those particular bills."

REMARKS BY SENATOR FULLER

Senator Fuller: "Senator Williams, it has turned out that one or two of these bills have a very significant financial impact and also we have a conflict between one of those bills and a bill coming from the House. We would like to resolve that conflict in the committee rather than here on the floor. So we think they can be beneficially worked on in committee and we hope you will be able to attend the committee meeting, of course, and help us do that."

REMARKS BY SENATOR WILLIAMS

Senator Williams: "I guess my question is, 'Are you intending to put the bills on the calendar for consideration and hearing?'"

Senator Fuller: "We will have at least one hearing on each one and if the committee sees fit, we will go beyond that, yes."

Senator Williams: "Can you tell me which of the two bills are the ones that have the significant financial impact?"

Senator Fuller: "I believe 3025 has a local impact and the restoration building skills has some implications of cost to the state."

Senator Williams: "Well, I guess on the assurance that the bills will have hearings as opposed to simply putting them back to committee for killing them, I would not oppose the motion as long as there is that understanding that the bills are going to be heard."

Senator Fuller: "We expect to have hearings on them, yes.

Senator Williams: "Thank you."

The motion by Senator Clarke carried. The measures as indicated were referred to the Committee on Parks and Ecology.

MOTION

Senator Clarke moved Engrossed Substitute Senate Bill No. 3120 be referred to the Judiciary Committee from the Committee on Rules on third reading.

POINT OF INQUIRY

Senator Talmadge: "Senator Clarke, the same kind of question as Senator Williams'. Will you be scheduling Senate Bill 3120 or some kind of similar house bill for a hearing sometime soon? That is the bill relating to the oversight of the organized crime intelligence unit of the state patrol who are members of the body."

Senator Clarke: "I assume I will if there are substantial requests for it. At the last meeting of that committee, there was some feeling that the present law should be allowed to remain in effect for a longer period of time to see whether it was working out properly. If you wish to request a hearing, that certainly will be taken under consideration."

Senator Talmadge: "Thank you, Senator Clarke. I would submit that both Senator Shinnpoch and I would have a substantial interest in that bill."

The motion by Senator Clarke carried. Engrossed Substitute Senate Bill No. 3120 was referred to the Judiciary Committee from the Committee on Rules on third reading.

MESSAGE TO THE SENATE

Mr. President, members of the Senate, pursuant to the provision of Senate Floor Resolution No. 146, we, the members of the Senate Constitutions and Elections Committee, have considered the Senate and House memorials requesting a balanced budget amendment to the federal constitution. After due consideration and public debate, we have adopted a report outlining our findings and recommendations. This report received the affirmative vote of four members and the negative vote of three members and has been made available for your review.

Signed: KENT PULLEN,
Chairman
Senate Constitutions and Elections Committee.

INTERIM STUDY REPORT PURSUANT TO SENATE FLOOR RESOLUTION NO. 146

By: Senate Committee on Constitutions and Elections.

BACKGROUND
This report is submitted by the Senate Constitutions and Elections Committee pursuant to Senate Floor Resolution No. 146. SFR 146, in substance, requests that a joint select committee be appointed to study the differences between Senate and House legislation regarding a federal balanced budget and to make recommendations to the "1982 session of the Legislature."

The Senate Rules Committee, rather than appointing members to a joint select committee, referred the resolution to this standing committee. Therefore, we have assumed the responsibilities stipulated in the resolution and make the following report.

MATTERS OF DIFFERENCE
During the 1981 regular session of the Washington State Legislature, both houses of the Legislature passed slightly different memorials to the President of the United States and Congress calling for a constitutional amendment to require that the federal budget be balanced. Both memorials requested such an amendment be initiated either by Congress or by a constitutional convention. The Senate Memorial (ESJM 105) contains the identical language of the House Memorial (HJM 1), except that:
(a) The Senate Memorial specifically provides that if a constitutional convention were called, that convention may not consider revisions to Amendments I, 2, 4, 5, 6, 7, 13, 14, 15 or 19 of the Constitution of the United States of America; and (b) the Senate Memorial includes a referendum clause.

INTERIM STUDY
On September 11, 1981, the committee held a hearing to gather testimony on the measures. Testimony opposing the memorials focused on the potential evils of a runaway convention rather than attacking the need for constitutional restraints on federal spending. Supporting testimony contended that constitutional restraint is necessary to restore fiscal responsibility by curtailing federal deficit spending.

Regarding the differences between the Senate and House Memorials, testimony, staff research and committee debate revealed that opinions vary sharply on the force and effect of restrictions on the scope of a convention. Some scholars contend that Congress may limit the actions of a convention, while others argue that only the
delegates themselves may set the procedures for their deliberation. We found rational support for the position that limitations contained in memorials by the states will be held as valid restrictions over the scope of a constitutional convention. However, this position has not been tested by the Court, and therefore there is no positive assurance that a convention, once called, will restrict itself solely to the question of a balanced federal budget.

Additional discussion evolved around the need for and validity of the referendum clause contained in ESJM 105. Article V of the United States Constitution provides that Congress shall call a convention "on the application of the legislatures of two-thirds of the several states" (emphasis added). It is argued that only the legislature of a state may make an application and that a referendum clouds the validity of the origin of an application.

RECOMMENDATIONS

The committee recommends that a no memorial to Congress regarding a balanced federal budget contain a provision for a constitutional convention.

Further, in the course of this interim study, we have found that any memorial to Congress requesting a constitutional convention should include language which will endeavor to restrict the scope of the convention, precluding revisions to Amendments 1, 2, 4, 5, 6, 7, 13, 14, 15 or 19 to the Constitution of the United States.

Due to the need for clarification of the impact of the referendum clause, we finally recommend that ESJM 105 be amended as follows:

On page 3, beginning on line 16, strike all material down to and including "thereof;" on line 21 and insert

"AND BE IT FURTHER RESOLVED, That this memorial shall be submitted to the people for their ratification, at the next succeeding general election to be held in this state, in accordance with the provisions of Article II, Section 1 of the State Constitution, as amended, and the laws adopted to facilitate the operation thereof; and further

THAT, This memorial is an application by the legislature within the meaning of Article V of the Federal Constitution unless rejected by the people; and if rejected by the people, this memorial shall be considered null and void;"

On page 3, line 22, after "That" insert the following:

"if ratified by the people."

POINT OF INQUIRY

Senator Pullen: "Senator Gould, a few years ago, President Carter, by executive order, mandated that all thermostats were to be maintained at 65 degrees. That made quite a few people rather cold during the winter months. Many citizens thought that that was simply government bureaucracy in action."

"Is there anything you can tell us about this bill that would convince us that it is not just more bureaucracy?"

Senator Gould: "I am not sure if I could ever convince you of that, Senator Pullen. In reference to President Carter's order on the 65 degree thermostat and people were concerned because that made them cold, I will assure you that this bill will help make them warm."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, members of the Senate. This bill and Senator Pullen's remarks give me an opportunity to remind you that at the time President Carter issued that order, we were importing almost 20% of our oil from foreign countries. That got down to a substantially lower figure; however, the trend is now going back up, and it is a warning, Senator Pullen, that this is not an issue that will come and go; one that we will have to continually address is that of minimizing our dependence on foreign imported oil. And a building code, a proper and adequate building code is at least a step in the right direction."

Senator Quigg: "Compared to what, Senator Bottiger?"

Senator Bottiger: "Well, it looks like the public is getting into collecting a tax and then going to build a convention center and an art center and whole bunch of things like that. We are not violating any of the new rules?"

INTRODUCTION AND FIRST READING

HOUSE BILL NO. 847, by Representatives Barnes and Scott:
Revising maximum interest paid by operating agencies.

MOTION

On motion of Senator Clarke, the rules were suspended and House Bill No. 847
was advanced to second reading and read the second time in full.
Senator Gould moved adoption of the following amendment:
On page 2, line 24, after "act." insert "The legislative body of any member may
authorize and make such advances or contributions to an operating agency to assist
in a plan for termination of a project or projects, whether or not such member is a
participant in such project or projects."

POINT OF INQUIRY

Senator Rasmussen: "Senator Gould, as I read the bill and your amendment,
the bill does not relate to, particularly to mothballing or termination. It is a wide-
open bill that any entity may loan money to WPPSS; and I am going to touch
briefly on your other amendment which strikes the twelve and inserts the fifteen, fif-
teen percent or 4. above the amount established by the San Francisco Reserve Bank,
the Federal Reserve Bank, which could, in the future, go up to nineteen, twenty or twenty-one percent as we were in the past, and is headed that way right now.

"But my main question is, do you propose that the legislative body of any member—city of Tacoma, we have a legislative body for public utilities, and we have a separate legislative body in the city council. Now it might be that they could interpret this that the legislative body of the public utilities could act independently of the city council. And I would hope that you would put that on the record that it would have to be the final legislative body; and while I am asking this question, the other question would be, let us take the city of Seattle or Tacoma or Spokane that have bonding capabilities. They could issue bonds on their own, either inside levy or general obligation, it would be general obligation if they were an inside levy anyway; and then loan them to WPPSS for whatever purpose WPPSS wanted. There is no provision in the bill and it does not tie it down, this determination.

"For instance, let me clarify that a little bit. WPPSS goes to the bond market and they have been dropped down to a single A from AA or AAA, and they decide they do not want to go at that rate, but the other operating agencies have a better bonding capacity and a better rating, AA or AAA. They then could issue the bonds and loan the money to WPPSS under this. So that is what I am suggesting to you, it is a wide-open bill that the people themselves may not like."

Senator Gould: "In response to Senator Rasmussen's statement and questions, I see three things in there that I want to respond to. One is, 'Yes, Senator, it is the legislative authority of the city itself that makes the decision,' as has the city of Tacoma; and the city council of Tacoma made the decision all the way along as to how they participate in this program, so there is no problem with that.

"Secondly, the city of Spokane, or any other city in the state that was not a member of the Washington Public Power Supply System, could not participate in this, could not use this as a vehicle for participating, because it says 'any member' and that includes, basically, Tacoma and Seattle who have their own municipal city light.

"As far as the open-endness of the rate, you are right. It does not say that it has to specifically be tied to termination or even to mothballing. In fact, originally the idea was to do this so they could go into mothballing and help them in that; since that has fallen apart it becomes even more imperative that they have that authority under termination process.

"I believe and I think you believe too, Senator Rasmussen, that in this case, first of all the utility is not going to be lending 'their bonding rating' because the bonding companies are looking very closely at that, in fact the facilities are getting very similar bond ratings as to WPPSS. Some of the utilities even at this point cannot go out, or have been told they cannot get funds for their own individual projects because of the indenture of, indebtedness of WPPSS.

"I guess that clarifies as much as I could on it."

Senator McDermott moved adoption of the following amendment to the amendment by Senator Gould:

Following the last word of the Gould amendment, after the period, insert "However, such member who lends monies shall not, solely because of said loan, accrue any liability for WPPSS projects 4 and 5." Debate ensued.

POINT OF INQUIRY

Senator Bottiger: "Senator McDermott, I see the import and purpose of your amendment and I would tend to sympathize with it. I am wondering, however, if you would—and I realize I am asking for an amendment to an amendment to an
amendment, so it would have to be a substitute amendment. But would you be willing to insert, after 'accrue,' the words 'solely because of said loan any liability for the loan of such money,' any liability for the project.

"What I am thinking of, let us suppose Snohomish and Tacoma which are liable on four and five, contribute to the form of a loan, would they then escape liability they already had because of said loan, obviously if they would, WPPSS could not accept the money."

Senator McDermott: "With your answer to my question already in the record, if it is, as long as Seattle or any agency that did not participate in setting up four and five, as long as they do not get any responsibility for the whole problem as a result of making this loan, I would accept that as a friendly amendment. Perhaps you ought to set it down for a moment and redraw it so everybody knows what we are talking about."

Further debate ensued.

MOTIONS

Senator Clarke moved that House Bill No. 847, together with the pending amendment by Senator Gould and the amendment to the amendment by Senator McDermott, be considered following House Concurrent Resolution No. 33.

Senator Talmadge moved that House Bill No. 847, together with the pending amendment by Senator Gould and the amendment to the amendment by Senator McDermott, be considered on January 21, 1982.

Debate ensued.

There being no objection, the motion by Senator Talmadge was withdrawn.

The motion by Senator Clarke carried. House Bill No. 847, with the pending amendments, will be considered following House Concurrent Resolution No. 33.

FIRST READING OF HOUSE RESOLUTION

HOUSE CONCURRENT RESOLUTION NO. 33, by Representatives Fiske, Thompson and Wilson:

Establishing a joint select committee on telephone systems.

MOTIONS

On motion of Senator Newhouse, the rules were suspended and House Concurrent Resolution No. 33 was advanced to second reading and read the second time in full.

On motion of Senator Bottiger, the following amendment by Senators Gaspard and Bottiger was adopted:

On page 1, line 15, strike "majority leader" and insert "president"

MOTION

On motion of Senator Newhouse, the rules were suspended and Engrossed House Concurrent Resolution No. 33 was advanced to third reading, the second reading considered the third and the resolution was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Hayner, you say the department of general administration has already made the decision?"
Senator Hayner: "They have not purchased any equipment, they are seriously toying with the idea and they are thinking that is the way they will go but they have not taken the action yet, as I understand it."

Senator Rasmussen: "Well, the resolution reads 'to investigate the cost and reliability of the proposed new telephone system and other appropriate matters.' What would the 'other appropriate matters' be?"

Senator Hayner: "With respect to costs and efficiency and how the thing operates and what the new system is and what the future shall hold and how obsolete it becomes and . . . ."

Senator Rasmussen: "I thought maybe the 'appropriate matters' might refer to our good Senators Jones and Fleming whether or not they would be allowed to stay working with the telephone company. And whether or not we should retain our stock in AT & T or PNB, I do not know which; but I presume all of us that are affected will not be voting on it, and I would sincerely hope the 'appropriate matters' would not interfere with the normal cost-savings of the general administration under this administration, are particularly looking for, because they are running out of dollars and they have to get service as cheap as they can. As far as the state is concerned, I would hope that they could also get a little cheaper service for the people that are paying for the operation of the state as Senator Bottiger said, we, the taxpayers need a little relief, too."

The President declared the question before the Senate to be adoption of Engrossed House Concurrent Resolution No. 33.

ENGROSSED HOUSE CONCURRENT RESOLUTION NO. 33, having received the constitutional majority, was passed.

SECOND READING

HOUSE BILL NO. 847, by Representatives Barnes and Scott:
Revising maximum interest paid by operating agencies.

The Senate resumed consideration of House Bill No. 847, the pending amendment by Senator Gould and the amendment to the amendment by Senator McDermott from earlier today.

There being no objection, the amendment by Senator McDermott to the amendment by Senator Gould, was withdrawn.

Senator McDermott moved adoption of the following amendment to the amendment by Senator Gould:

Following the last word of the Gould amendment, after the period, insert "However, such member who lends monies shall not, solely because of said loan, accrue any liability for any projects in which they are not a participant."

POINT OF INQUIRY

Senator Wilson: "Senator McDermott, the statute that we are amending with this bill is 43.52, which pertains generally to joint operating agencies. Nowhere in the existing statute is WPPSS or the Washington Public Power Supply System specifically identified. There are occasional references to an 'operating agency constructing or operating a nuclear power plant' which are designed to apply, of course, to WPPSS but the entity itself, is that defined in the statute or specifically a name, so that the adoption of your amendment to the amendment would be the first mention of something called 'WPPSS projects four and five'?"

"And I guess my question is whether this is good law and whether it would be clear, crystal clear to everyone what we are talking about and whether the definition is legally defensible in case there is a legal problem with the language you are attempting to insert into the bill?"
Senator McDermott: "Senator Wilson, I confess that my amendment has not been run through the code reviser but I am sure it is good law. It is intended to, when the bill was written in 1957 and they set up the joint operating agency, the creature that came out of that was the Washington Public Power Supply System, affectionately known as 'WPPSS'; and the projects four and five, one is at Hanford and one is at Satsop and it is to those two plants I am referring."

Debate ensued.

POINT OF INQUIRY

Senator Gould: "Mr. President, I do not have a particular problem with Senator McDermott's amendment; and I would ask Senator McDermott to yield to a question, I guess, just to make it perfectly clear, what you want.

"My understanding of the purpose of your amendment is that any member who gives a loan to the supply system for termination, who is not a participant in four and five, will not, by giving the loan, become liable for any of the indebtedness of four and five; is that correct?"

Senator Bottiger: "That is correct, Senator Gould, and in fact, Senator Hayner has already suggested perhaps a better way to word the latter part of that amendment, rather than saying 'shall not, solely because of said loan, accrue any liability for projects of which they are not a participant'; that would be, I think, a better way to put it and I would be willing to stop for a minute and change those words if the will of the body would be in that direction."

Senator Gould: "I would like, excuse me if I may continue; I would like to add, in my mind and I have checked this out with legal counsel and staff, there is no liability under current law for those projects, that without this amendment they would still be safe. But if, in the wisdom of the body of the Senate that they feel that is necessary just to double assure that, why there is no problem with that amendment as changed."

POINT OF INQUIRY

Senator Williams: "Senator McDermott, I have some concerns also about our amending on the floor in this manner. But I have another question about the language of your amendment and that is the word 'solely.' As I read it there is a possibility—I am wondering about that word being in there, because it seems to me by leaving it that way there is a possibility that, not solely because of this action of lending this money, but perhaps additively to other actions that a nonparticipant in four and five might make, that this could be an additive action that could bring them into being liable for those two plants. So from point of view of the original intention of this amendment to protect the interests of the city of Seattle, which is not a participant in four and five, it seems to me that this added language, particularly the word 'solely' could, in a very small way, bring us back into jeopardy in being liable for those plants."

Senator McDermott: "In answer to your question, Senator Williams, I became aware this morning when I got down here that this bill was set for running down the railway at a hundred miles an hour, and I have had concerns and made phone calls all morning trying trying to find out the best way to go on this.

"It may be that the word 'solely' should not be in there for the best interests of Seattle. I cannot actually say and I personally would rather put the bill down until tomorrow so that we can talk to some bond people and know exactly what we are doing. We started out with a little teeny project that has turned into a forty–billion–dollar problem and we are now trying to correct it; and I, personally, think we would be much better off if we waited until tomorrow because I am not absolutely certain that the word 'solely' helps Seattle as much as I want to."
Senator Williams: "Well, I agree and I think some of us understand that the motion will be made to set this down after we have discussed this; and I partially raised this question now so that it is out before us as opposed to talking about it later."

**MOTION**

On motion of Senator Clarke, House Bill No. 847, together with the pending amendment by Senator Gould and the amendment to the amendment by Senator McDermott, was ordered held for further consideration on January 21, 1982.

**REMARKS BY SENATOR FLEMING**

Senator Fleming: "Mr. President, before you recognize the motion of Senator Clarke, I think we would be remiss if we did not, the Senate itself, recognize the fact that the many people from all over the state that came down to visit the state capitol today, to visit their legislators and show their concern about the plight of the people in the state of Washington. I think we would be remiss without recognizing the fact that they came down, and I think we ought to commend them on participatory government."

**REMARKS BY SENATOR HAYNER**

Senator Hayner: "Mr. President, I certainly want to agree with Senator Fleming. There were a number of us who went down to Capital Lake Park and to Sylvester Park to talk with some of these individuals; and the fact that they are interested in the legislative process, in participating in it, is certainly laudatory, and we want to thank them for joining us."

"The first lady of Washington State, Mrs. Lois Spellman;
"The first lady of British Columbia, Mrs. Audrey Bennett;
"The Honorable J. R. Sharpe, Canadian Consul General and Mrs. Sharpe;
"The Honorable Walter Lockwood, American Consul General and Mrs. Lockwood."

President Cherberg introduced Speaker Polk for welcoming remarks.

Speaker Polk: "Thank you, Governor Cherberg. Governor Spellman, very distinguished guests, ladies and gentlemen: It's a distinct honor and a pleasure to welcome you here today to meet His Excellency Premier William R. Bennett of British Columbia. I am reliably informed that Premier Bennett has heard about our reapportionment plan and has come to meet some of his new constituents.

"Our relationship with our neighbors to the north has always, and continues to be, one of cordial and productive relations and I am certain that all of us will find the experiences and approaches with which our Canadian friends are addressing the concerns, which all of us share, to be most interesting and productive. I have to confess that in the dozen or so years now that I have been in the Washington State Legislature that we have not had great amount of governmental contact between our Legislature and that of British Columbia and I think we should all regard that as one of lost opportunity.

"Mr. Bennett, I think your visit today brings with it a rich opportunity for establishing a strong working relationship between our governments—a close working relationship between the State of Washington and British Columbia—and I am certainly encouraged by that. I want to extend a heartfelt and warm welcome to you and your visitors who are with us today. I hope you will find your visit fruitful and rewarding."

The President of the Senate introduced Governor John Spellman.

Governor Spellman: "Speaker Polk, distinguished members of the Supreme Court, members of the House and Senate, distinguished guests, ladies and gentlemen: As Governor, I am greatly honored by the opportunity to welcome and introduce to our Legislature, the Premier of the Province of British Columbia, the Honorable William Richards Bennett. He has the unique distinction of being the son of a Premier, the late W.A. C. Bennett, who for two decades was Premier of British Columbia.
"Our state's quest is for better relations with British Columbia and indeed we have the opportunity to reach out the hand of friendship across the border and meet in Victoria with Premier Bennett. I had the rare experience of speaking to their Legislative Assembly and the experience of seeing a Legislative Assembly where the Premier didn't just come in occasionally to talk, but was the center of all debate. He is at least a part of the debate of which he is the center.

"He is a native of British Columbia and went through the school system in British Columbia and later distinguished himself in business. He followed then in his father's footsteps in public life. The diversity and breadth of his business career spanning lumber, agriculture and investment companies, wholesale and retail, I think, reflects the diversitability that he has brought to public service. He has, for three decades, been an active member of the British Columbia Social Credit Party. When he first sought public office, really only eight years ago, he was elected as a representative from the Okanogan south constituency to the Provincial Legislative Assembly. Two years later he was chosen as Premier and for those of you who may not know, he is not only Premier, but he is a very active floor leader and the leader of all debate. Almost everyone sitting behind you is not only a member of the cabinet, but is an elected representative of their constituency as well. If I think I have problems with department heads, imagine having elected department heads. It seemed to work rather well on the occasion I was there.

"His resume, I don't think, would be complete without referring to the fact the he and Audrey, who is gracing us with her attendance this morning, have four sons and maintain a residence in the Okanogan Territory in addition to being in Victoria. This is only the second time, as far as I can determine, that a provincial Premier has addressed this body. After their generous welcome and the opportunity I received to speak to their Legislative Assembly, I think this is an important occasion, because we do so much business and we have so much cultural activity and so much educational activity that we share. It is important that we—despite our differences, because we are different countries and we have different political systems—that Washington and British Columbia share a common destiny and we acknowledge that as we have shared a very fruitful and common past. We have agreed, the Premier and I, that when we do differ, we will not bicker; that our mutual problems call for solutions, not confrontations. So, on my last visit I discovered Premier Bennett to be a leader with charm and insight, great skill and I know you will share my view as you join in welcoming him.

"Ladies and gentlemen, it is my privilege to present to you the Honorable W. R. Bennett, Premier of British Columbia."

Premier Bennett: "Governor Spellman, Lieutenant Governor Cherberg, Mr. Speaker, members of the State Supreme Court, the Senate and the House of Representatives, and, of course, Canadian Consul General Sharpe and American Consul Lockwood, distinguished guests: It is a great honor and pleasure for me to have the honor to speak with you today. I must say, coming from a Legislature in British Columbia, I have never experienced a welcome such as you have given to me and to understand that, you must sometime, if you have not, visit the proceedings of the British Columbia Legislature to get some idea of the different sort of welcome I receive there.

"Although we are now well into the month of January, I cannot let this occasion pass without conveying two sets of wishes. First I bring with me the greetings and belated wishes for a happy and successful new year to all of you from the 2,700,000 British Columbians who are your neighbors to the north. Secondly, it pleases me to offer my congratulations to the University of Washington Huskies for their well-earned Rose Bowl victory. I might say that I hope some of their success would rub off on the Seattle Seahawks and the British Columbia Lions, who aren't noted for the same success the Huskies have.
"We, in the vibrant and burgeoning problems of British Columbia, believe we are very fortunate—indeed, that we are doubly blessed. In the first place, we are endowed with a land that is immeasurably rich in natural resources and in scenic wonderment. A land that is a source of both our life style and our livelihood. The second blessing is that we have the inestimable advantage of having neighbors such as yourselves and on a larger scale that is Canadians we have you, as Americans on our frontier. I call you neighbors, but in truth, we are more. We are neighbors by chance, but we are friends by choice. That we have come to share a frontier through the shifting of continents from the fashioning of mountains out of the sea, was surely beyond man's control. That we have taken this frontier and have made it a pathway to close encounters of commerce and friendship is a tribute to the wisdom of our forefathers and the continuing good sense of our people today. One has only to look at recent events in Poland to appreciate how fortunate we are to be free men and women. Free to build our lives according to our efforts and our abilities; free to criticize our governments; free to cross into each others country, albeit sometimes slowed considerably by the traffic at the border at Blaine. However, our system of government may differ somewhat—your Constitution having been forged out of revolution; our own after many years of discussion, and in recent months, after some division, in the Canadian way of compromise and conciliation—as neighbors and friends we share, to a great extent, the common past, common traditions and a common feature of prosperity that is the framework of freedom and liberty.

Each time I look at our corner of the world on a globe, located as we are in the northeast of the great Pacific Rim, an area that spans such diverse societies and exciting markets as Australia, Mexico, Japan and the Asian, or Southeast Asian nations, I'm awed by the bountiful opportunities that await us in the future. With Alaska and the Yukon to the north, and British Columbia and Washington to the south, we share an area together of 1.2 million square miles which is roughly one-third of the total of your United States. When we consider our immense natural resources, our fortune in being part of the developing Pacific Rim, and most importantly, the energies, skills and creativity of our people, one cannot help but be impressed by the future potential of our corner of the world for the rest of this century and for the century to follow.

I recently returned from a visit to Japan. What I saw will come as no surprise to your Governor, who has had the foresight to lead trade missions to that part of the world. I've been to Japan and seen a society of almost continuous technological change and innovation; of dynamic marketing and above all, a cooperative effort and commitment toward the achievement of mutually beneficial goals. Although our histories and traditions are quite different, there are some lessons we can learn or relearn from the Japanese, both economically and socially. The Japanese have gained greatly from a commitment to growth and productivity; from an emphasis on cooperation above confrontation. In recent months as the economy has turned down, we have seen workers and managers in both Canada and the United States come to recognize a common interest in the health and prosperity of their enterprise and in an environment of tough international competition, it is to be hoped that this new knowledge will endure once the economic situation improves. Just as we might learn to put greater emphasis on cooperation in our internal affairs, if we, in the Pacific Northwest, are to benefit fully from our good fortune in the provinces and the states, we must take every appropriate opportunity available to us to cooperate with each other.

Forest fire suppression and emergency measure agreements, signed by your Governor and myself on his visit to Victoria last year, are tangible examples of the benefits of dialogue and cooperation to both of our peoples. Agreements such as these can only result in the strengthening of our region and, indeed, of the entire social and economic fabric of our respective nations. The spirit of cooperation in our
region can serve as a beacon of hope for improving relations between our two great countries. At present the people of British Columbia and of your state are experiencing difficult economic times, with the very high levels of unemployment the most disturbing feature. Entire industries, and most particularly the forest industry, on both sides of the border are undergoing unprecedented challenge. Governments, too, are facing a downturn in their fiscal fortune and are having to come to grips with a period of fiscal restraint. In your country the federal administration is transferring a greater share of the burden of financing social programs to the states in the name of decentralizing power. In my country the same process is under way, but, ironically, in the name of centralizing power. But whatever the rationale, the process underway in both countries makes it all the more necessary that we pursue economic recovery as our number one social priority. As it is increasingly clear, in order to do good, you have to do well. In this vein, I cannot help but recall the words of your late President, John F. Kennedy, who, in commenting on the importance of economic growth to all society, once observed that a rising tide lifts all boats.

"I'm optimistic. I sense that this period we are going through, difficult as it may be, is only a temporary adjustment. A challenge, if you will, posed by the world to test the energy and creativity of our respective nations. I believe in the underlying strength of our two nations, and I am confident that this strength will soon begin to manifest itself to the long-term benefit of our people. This does not mean that periodic differences between British Columbia and the State of Washington will disappear. Governor Spellman, when addressing the British Columbia Legislature last May, put it very aptly—if I may quote him when he said, 'It is normal for friends and neighbors who share a common fence to fall into occasional dispute, sometimes even with a bit of yelling across that fence.' He went on to point out that British Columbia and the State of Washington have too much in common to let occasional dispute stand between us. I agree with Governor Spellman. For the benefit of both British Columbia and the State of Washington, both sides must accept the challenge of resolving these disputes through communication and cooperation. We must always be careful that we do not allow issues to escalate, for as Governor Spellman and I know at first hand, once voices have been raised, it takes a lot of hard work to restore good relations. When I refer to our mutual benefit, I'm not only referring to trade and commerce, to questions such as energy, forests and environmental quality, I'm also referring to our friendship. I believe the financial rewards of cooperation are secondary to the real rewards, that of the enhancement of the sense of harmony and mutual understanding and of genuine closeness that we share in this part of the world. That is the greatest reward of all. In the best of times small incidents can magnify in importance and threaten a basically healthy relationship. In times such as those we must be especially vigilant not to allow short term economic difficulties to lead to 'beggar thy neighbor' policies. If we, in the Pacific Northwest know anything—and this is a lesson that perhaps our eastern countries seem not to have learned from the 1930's—it is that trade must be made freer and not more controlled and that economic barriers must be reduced rather than reinforced.

"Again, I would like to thank you, Governor Spellman, on behalf of myself and all British Columbians for honoring us by allowing me the opportunity to address your Legislature today. Official visits of this type are an important part of the communication and cooperation I've just mentioned. To that end, we in British Columbia are looking forward, Governor, to your next visit to us, hopefully later this year. Again thank you very much for your courtesy today."

On motion of Senator Quigg, the rules were suspended, Reengrossed Senate Bill No. 3565, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Moore: "Senator Quigg, to what extent do you feel this legislation will cure or at least help that lease situation we have in Lake Union and Salmon Bay and everywhere as far as that is concerned?"

Senator Quigg: "Senator Moore, the department just recently has applied the same pricing policy to aquatic land leases as they have applied historically to trust land revenue accounts and that is they have decided they will go for all the money they could get. And in the committee, when our committee met and when the department testified, they brought this out, that they were going to maximize the return; and then with some study we found that these aquatic lands have a different charge than the trust lands do, and those are not to maximize revenue but to maximize benefits to the state of Washington, not only in terms of revenue but also in terms of transportation and all sorts of other needs: water access, marine food chain supply, and this sort of thing.

"So what we have done in this bill is capped those increases to a price deflater so we do not see those astronomical increases that literally, you are putting people out of their homes where they have lived for years. So I think that this is a reasonable approach. There will be increases but they will not be the thousand percent increases we have seen when they changed policy last."

Senator Moore: "One more question if I might, Mr. President. In those lands, is it your feeling, impression, whatever, at this point that the department of natural resources will treat all lands the same, or do you think that they will be taking into consideration the profitability, the need for water areas. You know there is a lot of difference between whether you run a plywood plant or a shipyard or a flying service, or a yacht sales business, or houseboat — do you have any feeling or any information you could pass on to us on that score?"

Senator Quigg: "The committee received a report from a group of appraisers that suggested appraisal methods that the department may wish to adopt to better match the revenue or the lease requirements to the ability of that property to generate those lease revenues. The department, as you know, for years had a very nominal lease that was probably, maybe in some of the cases too low, they just never checked it. But when all of a sudden they did, they tried to get well overnight and a lot of those folks that were holding those leases dropped them; and I think what this bill will provide is the department with a guideline, a cap, so that that runaway will not occur. That guideline, cap, coupled with the lease recommendations of the appraisers, I think will address just what your concerns are, so that they match up with the use of that land."

POINT OF INQUIRY

Senator Conner: "To Senator Quigg or Senator Peterson, we are establishing this harbor improvement revolving fund and I remember the problems that we have had the past two years, as well as others, with the department of natural resources. We are taking away these monies which were being, twenty-five percent of the money that went into this particular program, away from the port districts and we are giving that to the DNR to go ahead on their own program. I am wondering if
they are going to be doing things that would be detrimental to the people in the areas that we were talking about in the interim where there were some real problems involved; and as to whether the committee is going to keep the finger on this particular program to see that these particular problems are not going to be gone back into because it has been a real concern I know to the ports in our area and the people concerned. And so I am particularly concerned about how much leeway we are giving back to the department of natural resources to, in effect I guess, do their own thing."

Senator Quigg: "Senator Conner, this of course, as I mentioned earlier, is a compromise between the ports, DNR, and those folks involved. Of course, when DNR changes its pricing policy to the extent we are changing it here, it is going to make a difference to the cost of the folks using those lands, including the ports. This twenty-five percent that is changed here, I think you could say fairly is offset by the lower cost to the users of those state aquatic lands.

"But we also found out during committee hearings that the DNR in many cases, as some real problems identifying the boundaries in state aquatic lands as a landlord or as an owner of these properties, some of these property ownership functions, frankly, have fallen a bit behind. And the DNR has a job ahead of it to see to it that these properties are properly managed, and these funds will see to it that that is the case and that the state really does know what it has in terms of aquatic lands and that those aquatic lands are managed for the benefit of the people of the state of Washington, not just highest and most revenue but for transportation for fisheries, and for all of the aquatic activities that are so important to the state’s economy on the sound, the coast and in those areas where our economy is tied together with our waterfront."

MOTION

On motion of Senator Bluechel, Senator Sellar was excused.

ROLL CALL

The Secretary called the roll on the final passage of Reengrossed Senate Bill No. 3565 and the bill passed the Senate by the following vote: Yeas, 41; nays, 3; absent or not voting, 1; excused, 4.

Absent or not voting: Senator Bottiger—1.

REENGROSSED SENATE BILL NO. 3565, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

THIRD READING

SUBSTITUTE SENATE BILL NO. 3965, by Committee on Natural Resources (originally sponsored by Senators Gallagher and Haley):

Providing funding for fish hatchery expenditures of the department of fisheries.
MOTION

Senator Shinpoch moved that Substitute Senate Bill No. 3965 be referred to the Committee on Ways and Means. Debate ensued.

POINT OF INQUIRY

Senator Ridder: "Senator Clarke, essentially what I hear you saying is, that a department should be encouraged to go out and raise its own funds. If those things are being sold now, are they? Money is going into the general fund? And now we are simply saying that because they are a specific source, we are going to leave it within the department? Because I have some real questions about that; I think we have other departments that might be encouraged to go out and have no-bake sales or what—have—you that would raise their own direct funds when really, what we want to do here is to judge the quality and quantity of money that should be established."

Senator Clarke: "Senator, in answer to your question I would not subscribe to all the lengthy remarks that you have made and I will endeavor to answer the substance of it. And that is, as I understand it, and I, in reality, should defer to Senator Gallaghan who is much more expert on this than I.

"But my general philosophy is, that if there is an activity such as the propagation of fisheries' fish, and that in connection with that, the operation itself promotes certain revenue which will be promoted only in the event the hatcheries are maintained to a substantial degree and the fish are put out so that they come back, then that the proceeds of the fish that come back which are generated by the very activity itself, that it does make sense to say that those proceeds should be retained for the purpose of maintaining and if necessary, perhaps, enhancing the fisheries' program."

Senator Ridder: "Well, it would seem to me, Mr. President and members, that if we want to write those numbers considerably larger, there is reason to say that DNR then, should have the management of its own monies in order to propagate our timber land; and it seems to me that we are prededicating a fund that then will not be subject to any further across-the-board cut because that money is already there and that program is established and it removes it from our purview and we also have, I understand, game department sales. Do those then revert to the game department and are they outside of our own judgment?"

Further debate ensued.

Senator Shinpoch demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the motion by Senator Shinpoch that Substitute Senate Bill No. 3965 be referred to the Committee on Ways and Means.

ENGROSSED SENATE BILL NO. 3446, by Senators Lee and Zimmerman:
Revising laws relating to boundary review boards.

MOTIONS

On motion of Senator Lee, the rules were suspended and Engrossed Senate Bill No. 3446 was returned to second reading.

On motion of Senator Lee, the following amendment was adopted:

On page 3, following line 1 add the following sections:

"Sec. 3. Section 35.02.150, chapter 7, Laws of 1965, as last amended by section 1, chapter 164, Laws of 1973 1st ex. sess. and RCW 35.02.150 are each amended to read as follows:

On motion of Senator Lee, the rules were suspended, Reengrossed Senate Bill No. 3446 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Peterson: "Senator Lee, I had this amendment on my desk just one minute before we took action on it and passed it. Would you kindly tell us just what this bill does now?"

Senator Lee: "Boundary review boards are set up in the major counties of the state of Washington. They are appointees of the governor. Before any kind of annexation or incorporation can take place in those counties, the boundary review board has to look at it. They can do any number of things: they can say, 'Sure, it's okay, you can go ahead and do it, have a vote on it.' Or they can even say 'No'... you do not even get a chance to move on it.

"What the bill does itself is say that they have a particular period of time in which to make that finding, because there has been some problems when it has gone on for years and years; or for more than a year without making any finding.

"It also allows them, if there are requests in for both annexation and incorporation for the same area, that they can look at them both at the same time. And that is, in fact, what the amendment did.

"We passed it out of this house without any dissenting vote."
Senator Wilson: "Senator Lee, these bills as you know, Senator, being an old hand at local government, involving boundary review boards and so on, are always kind of delicate matters. Now this a bill which had a full hearing in the local government committee, and while I do not remember all the particulars, I am looking at the list of people who signed it out; it would seem to include everyone on that committee, I think.

"The amendment introduces a new element, I really do not know offhand whether it is a good or not such a good thing to do. I don't know that we heard any testimony in the committee on the contents of the amendment. There is often a conflict between a municipality that wants to annex an area and an area that would like to incorporate for itself. And, I agree that boundary review boards, that is one of their functions, is to try to resolve that sort of dispute.

"I guess my question is, in what respect has existing law been failing and therefore why is the amendment needed?"

Senator Lee: "Your remarks are quite correct and to the point. The intent of the law was, that of course they could consider both matters as far as the boundary review board is concerned. And it was not until a conflict came up recently, we recognized that the law was imperfect in the way in which it was written. For example the case in point. An incorporation petition has been filed to carry a very large area. At the same time, one day later, annexation petitions were handed in for a very small addition with the 75% requirement of the people in that area saying they wanted to annex.

"The way the law is presently written they cannot even consider them both at the same time. They cannot even talk about them at the time when they are considering the incorporation amendment. And they felt they should be able to consider them concurrently.

"So what it is really doing is putting the law in the kind of form so they can really do what the intent was originally."

Senator Wilson: "I take it then, Senator, that in some particular instance somewhere in the state has led to the proposal of the amendment and amendments are quite justified with that sort of motivation; but sometimes, as you know, they have a different effect and receive a different reaction in other parts of the state, and my final question is, has this proposal received any sort of public hearing in either the Senate or the House so that people from all parts of the state, if they are sufficiently interested, would have had an opportunity to comment?"

Senator Lee: "The answer to that question is 'Yes.' It did have a hearing in the House and of course will have another opportunity to have that kind of scrutiny. And as I say, the procedure that this amendment puts into play would be the same procedure that is now available to all of the counties that do not have boundary review boards."

Senator Rasmussen: "Senator Lee, where did this request originate, is this a new thought by you or did the Association of Washington Cities, or County Commissioners Association, which body . . .?"

Senator Lee: "Both."

Senator Rasmussen: "They all asked for this?"

Senator Lee: "Yes."

Senator Rasmussen: "I was not aware that they had."

Senator Lee: "Well, it is because it was a request that was made in the House, in a House hearing, and came from that angle."

Senator Rasmussen: "Thank you."
Senator Charnley: "Senator Lee, I listened very carefully to your explanation and you explained the present law, and I think I see that it is deleted language in the first paragraph, would not make it possible for a board to consider things concurrently. But then I read the additional language at the bottom of the page and it says, 'A boundary review board, county auditor, county legislative authority or any other public official, shall act on a petition for annexation before considering or acting on a petition for incorporation.' So I am confused because you explained that originally in your first comments, that this would allow the boundary review board to consider them concurrently and yet the language down there does not read that way to me. Could you tell me how I am reading this incorrectly?"

Senator Lee: "This is the language that they which to have in there — let me explain why it is written in this particular way. The boundary review board, when it comes to an annexation that has the 75% of property owners on it, just simply says it is okay or it is not okay; it does not involve an election procedure.

In the incorporation procedure, it always involves an election process. So this allows at the time they are looking at whether or not they are going to allow an area to even go through the process of having an election for incorporation, to look at other annexation petitions that are filed, and they can say 'No, you cannot do it until the incorporation has taken place,' or they can say 'Yes, you might as well go ahead and annex, this is just one block, or something of this sort, it does not affect the incorporation,' because as the way it now stands, they do not have any ability to do anything that relates to anything other than the incorporation petition. It really ties their hands."

Senator Charnley: "Okay, the only thing I guess I would point out or I would ask to make clearer, that it says 'shall act' — it does not say they shall act in any way, it says they 'shall act' on the annexation first and then on the incorporation."

Senator Lee: "That is right. In other words, they do have the ability to say to the person with the annexation petition, 'No, this is going to be deferred until after the incorporation election.'"

Senator Charnley: "Is there, I must ask this because you are the proponent and therefore I presume something in your area, is there an area in the Highline area that has run into this problem? I have heard there is annexation considered in the Highline area, or incorporation, I should say?"

Senator Lee: "That is the area, that is the only incorporation proceeding I think, presently before the board. They did run into it in that area and they also ran into it in the Federal Way situation. In the Highline situation, of course, the incorporation simply used the boundaries of the entire school district less the cities that were involved. And one of the cities that was involved had a petition in hand, in fact, to annex one single piece of property. In other words, they had a 100% petition . . . And so the only recourse that property owner has, is to try to defeat the incorporation in order to be annexed to the other city and we really think we should have some way of resolving that problem, short of that other alternative."

Senator Charnley: "Good. Thank you for that explanation."

SENATE BILL NO. 3719, by Senators Zimmerman, Bauer, Talley and Benitz:

Authorizing bonds for the acquisition of scenically fragile lands.

MOTIONS

On motion of Senator Zimmerman, Second Substitute Senate Bill No. 3719 was substituted for Senate Bill No. 3719 and the second substitute bill was placed on second reading and read the second time in full.

On motion of Senator Zimmerman, the rules were suspended, Second Substitute Senate Bill No. 3719 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Lysen: "Senator Zimmerman, I have always liked to think of myself as a conservationist and very concerned about the environment. But I think the remarks of Senator Rasmussen strike home that in a situation where we are losing our bond rating, the state is bankrupt, we are paying $6,000 an hour on interest since September. Something like this should be held over until we solve the fiscal crisis that this state is in. Would that not be possible and appropriate, Senator?"
Senator Zimmerman: "Senator Lysen, this measure is not going to have any immediate problem as far as financing, funding as far as bonds. Obviously, first of all, the people would have to decide that they would even like the idea, that would be the first step, even in the concept one way or another. Obviously, beyond that point, nothing, no bond, even if it were approved, and assuming it were approved, they have to come back, which is down the road. First of all you have to have an election. You are going to have to have at least another year before there would be a session, the legislature would have to decide if we were to then consider issuing any bonds. No bonds would be approved, of course, without the state finance committee, their taking action. At the present time they have approximately $1,645,000,000 in bonds, more than that available. I have to read the figures there again but secondly, that is obviously where a priority would be made in terms of that agency.

"Third, the department of natural resources and the others that they have to confer with, also have to be appropriated, the funds have to be appropriated for every purchase that would be made, according to the bill, it is that tightly drawn — no purchase without the legislative approval to that agency.

"So you are not looking at anything in the very near future. It is going to be long term even if we were to start today, you are going to be looking down the line. I think that the point that needs to be mentioned, however, that does have a significance in terms of jobs. You talk about jobs: first of all, this deals precisely with one of the biggest things we have spent $4.5 million on and that is tourism, because ultimately, this fits into the tourism plan, idea, for the Columbia Gorge as well as other places in the state.

"And certainly if you were to have persons offer their land, and they have to voluntarily offer their land; you are not going to condemn property, this is not a voluntary offering. Finally, this is the time to have them at this point, suggest their land, because I think we are going to get better prices if we were able to move into it in the next couple of years than if it were five or ten years down the line.

"So I think that there are several legitimate reasons for letting for the people decide and also the very tightness of its being drawn, for us to have full chance to hold back if need be, and at the same time I think it does relate, eventually and very definitely, to the subject of preservation and jobs and tourism, and I would hope that we take this very limited first step."

ROLL CALL

The Secretary called the roll on the final passage of Second Substitute Senate Bill No. 3719 and the bill failed to pass the Senate by the following vote: Yeas, 20; nays, 26; excused, 3.

Excused: Senators Conner, Hughes, McDermott—3.

SECOND SUBSTITUTE SENATE BILL NO. 3719, having failed to receive the constitutional two-thirds majority, was declared lost.

STATEMENT FOR THE JOURNAL

Monday, January 26, 1982

Regarding

Second Substitute Senate Bill 3719
This measure passed the Senate Parks & Ecology Committee, Senate Ways & Means Committee and Senate Rules Committee and yet failed to receive a 60% majority on the floor of the Senate as a bond issue referendum to the people.

It should be stressed that the voters would decide first; the legislature would have to appropriate funds for any purchase; the State Finance Committee would be able to decide on issuing bonds.

Special property, irreplaceable and fragile exists, such as in the Columbia River Gorge in Skamania & Klickitat Counties; Cypress Island and Shark Reef in San Juan County; Hendrickson Canyon Creek's 160 acres in Wahkiakum County and Mountain Peak near Enumclaw in King County.

The lands are cheaper now than they will be in six years. The State's bonding limit, as per Tim Kerr of OFM, is as follows:

- $3,951,868,135.00 — Total bond limit authorized
- $1,645,308,980.00 — Bonds outstanding
- $1,958,600,000.00 — Bonds available

It is estimated that it should take approximately one to one and a half years to reach the 7% bond statutory debt limit. $370 million is currently available.

Now is the right time to take this first step, to help develop tourism, to keep faith with private land owners and preserve special places for our descendants.

Signed: SENATOR HAL ZIMMERMAN
CAMAS
17th District
(Clark, Skamania & Klickitat Counties)

SECOND READING

SENATE BILL NO. 3609, by Senators Bauer, Haley, Gaspard, McDermott, Bluechel, Rasmussen, Ridder, Lee, Zimmerman, Fleming and Hughes:

Establishing a temporary committee on educational policies, structure and management, and setting forth its duties and providing for its abolishment.

REPORT OF STANDING COMMITTEE

March 26, 1981.

SENATE BILL NO. 3609, establishing a temporary committee on educational policies, structure and management, and setting forth its duties, and providing for its abolishment (reported by Committee on Ways and Means):

MAJORITY recommendation: Do pass with the following amendment:

On page 3, line 30, strike all of NEW SECTION, Sec. 4 and insert:

"NEW SECTION. Sec. 4. There is hereby appropriated for the biennium ending June 30, 1983, the sum of one hundred thousand dollars, or so much thereof as may be necessary, from the state general fund, to be used by the committee for the purpose of carrying out the provisions of sections 1 through 3 of this Act. The appropriation contained in this section is subject to the following conditions and limitations:

(1.) That the general fund state funds provided shall be matched by local or private funds on a one to one basis.

(2.) That upon completion of the study, any residual general fund state funds shall revert to the general fund."

Signed by: Senators Craswell, Vice Chairman; Bauer, Deccio, Fleming, Gaspard, Hughes, Lee, McDermott and Zimmerman.

The bill was read the second time by sections.
MOTIONS

On motion of Senator Bluechel, Senator Clarke was excused.
Senator Scott moved adoption of the committee amendment.
Debate ensued.
The motion by Senator Scott carried and the amendment was adopted.
Senator Bauer moved adoption of the following amendment by Senators Bauer, Lee and Haley:
Strike everything after the enacting clause and insert the following:

"NEW SECTION. Section 1. The legislature has reason to believe there seemingly exists in the Washington state educational structure at present a lack of coordination between educational institutions, a weak response to the progressive academic and vocational needs of students, an unclear statement as to roles and missions, an inconsistency between programs, duplications of effort, and inefficient uses of public dollars. The possibilities for improving this structure require comprehensive examination.

The current structure has evolved into several separate and distinct educational components: The kindergarten through grade twelve system; the community college system; the four year colleges and universities system; the vocational technical institute system; and educational instruction within other state institutions; outside of the state systems, but of much importance, are the private and proprietary schools.

Accountability in education should be equally applicable to all levels of instruction. The assessments of student achievement, what constitutes good instruction, and the responsibilities of management, should be public knowledge and publicly controlled in all segments of education funded by state taxes. The needs of the student, the product of the educational system, are paramount.

Therefore, it is the intent of this act to investigate thoroughly the entire educational complex in Washington state.

A review of the educational complex is merited so that the legislative and administrative branches of government and the public may consider these and other issues: Coordination, needs of students and response to those needs; the role and missions of the components, educational diversity and independence; obstacles to orderly student progression; open access; efficiency; duplication; accreditation; graduation and entrance requirements from high school to postsecondary; efficient uses of public dollars; ways to improve the system possibly through managerial reorganization or combining of components; accountability of the various levels; student achievement; and a determination of what constitutes good instruction.

NEW SECTION. Sec. 2. There is hereby created the Temporary Committee on Educational Policies, Structure and Management which shall consist of thirteen citizen members, appointed by the governor, each of whom shall apply for membership and demonstrate his or her concern and interest in all of education, one member from each political party of the house of representatives, appointed by the speaker of the house, and one member from each political party of the senate, appointed by the president of the senate.

The temporary committee shall undertake a general review of the entire structure of Washington education, its strengths and areas needed for improvement, and make a report on its findings to the governor, the legislature and the citizens of the state.

In addition to the examination of those questions raised in section 1 of this act, this review shall include:

(1) An emphasis on the educational progression of the student;
(2) An examination of the current educational components with particular attention directed to their interrelationships, obstacles to student mobility and progression, and how the system or its components might be improved;
(3) Examination of the educational goals of the components and a determination of their intended interrelationships;

(4) Determination of the extent of duplication of educational services in both the vocational and academic areas, the extent to which such duplication may be unwarranted, and proposed corrections;

(5) Consideration of the nature and extent of any benefits, including those pertaining to student access, progression, and learning, improved information, and cost reduction, as well as any disadvantages, that might accrue from structural reorganization in Washington education;

(6) Consideration of the state's responsibility to make ample provisions for K-12 education, including alternative methods of funding staff costs, alternative approaches to levy limitation, incentive approaches to encouraging effective responsible decision-making at the local level, and the optimum use of the ideas and talents of teachers, administrators and citizens; and

(7) In regard to postsecondary education, the committee shall take into consideration the policy and planning studies of the council for postsecondary education and shall utilize to the extent possible the data and findings of such council's studies.

The committee's initial recommendations shall be made public as soon as possible. Those recommendations shall then be made to the governor and to the 1983 legislature. The committee shall cease to function at the conclusion of the 1983 legislature unless its duties are legislatively continued.

NEW SECTION. Sec. 1. The Temporary Committee on Educational Policies, Structure and Management may accept and expend funds in accordance with chapter 43.88 RCW from private sources and grants from public agencies for the purposes of fulfilling its duties: PROVIDED, That the acceptance of such funds first must be approved by the governor.

The committee may establish advisory committees and task forces, as it may deem necessary, to assist it in the fulfillment of its duties.

The educational institutions, delivery systems, and support systems of the state shall fully cooperate with the committee in its investigations and deliberations.

The committee may employ such staff or consultants that it may deem necessary to fulfill its duties.

The committee, when providing compensation, travel expenses, and/or per diem reimbursement for its members, staff or consultants, may do so according to the provisions of chapter 43.03 RCW or chapter 44.04 RCW, respectively.

NEW SECTION. Sec. 2. There is hereby appropriated for the biennium ending June 30, 1983, the sum of one hundred thousand dollars, or so much thereof as may be necessary, from the state general fund, to be used by the committee for the purpose of carrying out the provisions of sections 1 through 3 of this act. Upon completion of the study, any residual general fund state funds shall revert to the general fund.

NEW SECTION. Sec. 3. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 4. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately."

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Bauer, if we were to strike the first section of the striking amendment, would it cause any difficulty with the study? The reason I ask
that, is I agree with several of the members who spoke here that it is a lot of state-
ments that we really should not put on the record. I do not believe all of them are
fully true.

"New section, Sec. 1, if we struck the first part there, and let the rest of it start
on line 22."

Senator Bauer: "Yes, Senator Rasmussen, the original bill had made some dec-
larations or goal suggestions for identifying problem areas that we thought were too
harsh. And those comments came back and as a consequence, then, we made this
compromise.

"When we say that we believe it is, the legislature believes that there exists in
Washington state educational structure at present, a lack of coordination between
educational institutions and a weak response to the progressive academic and voca-
tional needs of the student, it is not a slam at any particular delivery system of edu-
cation in this state — it is a statement of fact. When the Constitution was put
together, the Constitution says 'There shall be public school system; and there shall
be a superintendent of public instruction, and he should have the responsibility for
common schools, normal schools, and technical schools.' The only thing you have in
the Constitution right now that provides for a public education in this state. Every-
thing else you have in this state has grown up out of custom or desire or whatever.
The Constitution only provides for the common schools."

Senator Rasmussen: "Thank you, Senator Bauer. I gather you want to retain
this part of section 1?"

Senator Bauer: "Oh yes, Senator Rasmussen, I think it definitely gives to the
commission some understanding of what legislative intent is."

Senator Bauer demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the
amendment by Senators Bauer, Lee and Haley.

ROLL CALL

The Secretary called the roll and the amendment was adopted by the following
vote: Yeas, 31; nays, 13; absent or not voting, 1; excused, 4.
Voting yea: Senators Bauer, Bluechel, Bottiger, Charnley, Fleming, Fuller,
Gallaghan, Gaspard, Goltz, Gould, Haley, Hansen, Hemstad, Kiskaddon, Lee,
Lysen, Metcalf, Moore, Peterson, Rasmussen, Ridder, Shinpoch, Talley, Talmadge,
Voting nay: Senators Benitz, Craswell, Deccio, Guess, Hayner, Hurley, Jones,
McCaslin, Newhouse, Patterson, Pullen, Quigg, Scott—13.
Absent or not voting: Senator Sellar—1.
Excused: Senators Clarke, Conner, Hughes, McDermott—4.
On motion of Senator Scott, the following amendment by Senators Bauer, Lee
and Haley to the title was adopted:
In line 5 of the Title after "an appropriation" and before "." insert "; and
declaring an emergency"
On motion of Senator Scott, the rules were suspended, Engrossed Senate Bill
No. 3609 was advanced to third reading, the second reading considered the third,
and the bill was placed on final passage.
Debate ensued.

POINT OF INQUIRY

Senator Shinpoch: "Senator Bauer, I have a concern relative to both the time
frame and the studies to be completed and the amount of money available for such a
broad change."
"And I guess that my question to you is, in your judgment, do you feel you can get an adequate study under . . ., we now have a specific amendment in front of us and it was discussed before. Under the language of your amendment, do you feel that we can get an adequate answer within this year, with $100,000?"

Senator Bauer: "Senator Shinpoch, I would prefer more money; and I would prefer that the legislature would say that that three-to four-billion-dollar expenditure for education every year warrants a little more money in the study.

"However, since we started off with the $500,000 and recognized that created some problem in terms of its passage here, the direction and the issue is so important that some people from the private sector came and said, 'Well, if you can get some money in it and get it started, then we are willing to come in and work hard for generating additional dollars to give it those extra needed dollars.' And I believe those will be forthcoming. Once the legislature has said that we have a commitment and we want to put $100,000 up front there right now to tell the public that we are interested in this direction, those dollars will come, I am hopeful they will come and I believe that the public has enough interest now to come forth with those dollars."

Further debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 3609 and the bill passed the Senate by the following vote: Yeas, 25; nays, 19; absent or not voting, 1; excused, 4.

SECOND READING

Authorizing the use of ORV moneys for hiking trails and areas.

REPORT OF STANDING COMMITTEE
March 27, 1982.
SENATE BILL NO. 3823, authorizing the use of ORV moneys for hiking trails and areas (reported by Committee on Parks and Ecology):
MAJORITY recommendation: Do pass with the following amendments:
On page 1, after line 24, insert a new subsection as follows:
"(c) Three and one-half percent shall be credited to the ORV account and administered by the parks and recreation commission solely for the acquisition, planning, development, maintenance, and management of nonhighway roads and recreation facilities;"
Renumber the remaining subsection accordingly.
On page 2, line 19, after "(d)" strike "fifty-one and one-half" and insert "(fifty-one and one-half) forty-eight"
On page 4, line 5, after "basis," strike "three" and insert "(three)"
Signed by: Senators Fuller, Chairman; Goltz, Guess, Hughes, Hurley, Williams and Zimmerman.
The bill was read the second time by sections.
On motion of Senator Hurley, the committee amendments were adopted.
Senator Vognild moved adoption of the following amendment:
On page 3, line 1, after "moneys" insert ": PROVIDED, That in circumstances where ORV moneys are expended for hiking trails and areas, such trails and areas shall be available for ORV use or shall be directly related to trails used by ORV operators"
Debate ensued.

POINT OF INQUIRY
Senator Peterson: "Senator Hurley, are horses permitted on hiking trails?"
Senator Hurley: "I think you are injecting something new here I presume they are. But I would think that horses, being heavier than hikers, would also destroy some of the fragile trails; although as we all know, horses do not cause sparks like ORVs do and of course they do not endanger the forest, still I suppose you cannot keep the horses off either."
Further debate ensued.
Senator Hurley demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the amendment by Senator Vognild.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 9; nays, 37; absent or not voting, 1; excused, 2.
Absent or not voting: Senator Conner—1.
Excused: Senators Bluechel, Williams—2.

MOTION

On motion of Senator Clarke, Senate Bill No. 3823, as amended, was ordered held for further consideration on January 27, 1982.

MOTION

On motion of Senator Clarke, Senate Bill No. 3332 will be considered following Senate Bill No. 3512.

SECOND READING

SENATE BILL NO. 4313, by Senators Fuller and Conner:
Authorizing increases in the compensation paid members of the youth development and conservation corps.
The bill was read the second time by sections.
Senator Fuller moved adoption of the following amendment:
On page 1, after line 18, strike all of the material down to and including the period on line 23.

POINT OF INQUIRY

Senator Goltz: "Senator Fuller, I would like to know whether or not the park recreation department would be able, in fact, to implement the program without the appropriation, or will they continue to do what they are not doing now?"
Senator Fuller: "They are hopeful they can have an increase in income by economies which allows them the latitude to do this, yes."
Debate ensued.
Senator Bottiger demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the amendment by Senator Fuller.

MOTION

On motion of Senator Ridder, Senator Conner was excused.
ROLL CALL

The Secretary called the roll and the amendment was adopted by the following vote: Yeas, 23; nays, 22; absent or not voting, 1; excused, 3.

Absent or not voting: Senator Talley—1

Excused: Senators Bluechel, Conner, Williams—3.

MOTION

On motion of Senator Fuller, the following amendment to the title was adopted: On page 1, line 4 of the title, strike "; and making an appropriation"

On motion of Senator Fuller, the rules were suspended, Engrossed Senate Bill No. 4313 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Bottiger: "Senator Fuller, as I understood this bill, the purpose which you have outlined to make sure that the kids that are really out there hustling, get at least the minimum hourly wage, is a good purpose. And the $85,000 was to pay them the money. So by deleting the appropriation, are we now reducing the number of kids in the program so that fewer can get paid more?"

Senator Fuller: "There is no intent to reduce the number. The hope is that they will be able to find other income or if the economy would make it possible for them to implement the bill without an appropriation."

Senator Bottiger: "So they are going to take money from something else and so they can keep at least the same number of kids there?"

Senator Fuller: "They have the flexibility to do that if it is 'do-able.'"

MOTION

On motion of Senator Ridder, Senator Wojahn was excused.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 4313 and the bill passed the Senate by the following vote: Yeas, 46; excused, 3.

Excused: Senators Bluechel, Conner, Williams—3.

ENGROSSED SENATE BILL NO. 4313, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

PERSONAL PRIVILEGE

Senator Lysen: "In the last two days there has been references by two senators here about a 'bunch of sheep.' That is incorrect. It would be 'bunch of bananas' or a
'flock of sheep' or 'herd of goats' would be the proper reference, Senator Patterson and Senator Guess.

"I think that we should, if we are going to continue to talk about sheep in this chamber, let us use correct English on that. Thank you."

SECOND READING

SENATE BILL NO. 3518, by Senators McCaslin, Hansen, Moore, Deccio, Patterson, Benitz, Metcalf, Quigg, Vognild and von Reichbauer:
Excluding freeway speeding violations between 55 and 70 mph from a driver's insurance abstract.

MOTIONS

On motion of Senator von Reichbauer, Substitute Senate Bill No. 3518 was sustained for Senate Bill No. 3518 and the substitute bill was placed on second reading and read the second time in full.
On motion of Senator von Reichbauer, the rules were suspended, Substitute Senate Bill No. 3518 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Charnley: "Senator McCaslin, if a person loses their license because of a certain number, they do lose licenses after receiving a certain number of citations for whatever reason. And that is reported to an insurance company.

"Suppose an individual has about four of these energy citations, or speeding violations but they are energy-type, and as a result of it, they lose their, according to the department, they lose their license. Is that reported to the insurance company. Is that fact?"

Senator McCaslin: "Well, I think if you lose your license it will be reported. But these energy violations will not be reported."

Senator Charnley: "Well, will not the insurance company be rather curious as to why a person has been reported to them by the highway department as having lost their license for no reason?"

Senator McCaslin: "Well, I am sure they will lose their license for a reason, but whether or not they will lose their license for energy citations, I doubt it."

Senator Charnley: "Well, the proponents of this, including yourself, has told us that the violation will still be reported as a violation to the department of licenses and so forth, because it is a speeding violation. It just will not be reported to the insurance company, so it seems to me that when the insurance company gets this notice that somebody has lost their license, they are going to want to know why; and it will be for speeding."

Senator McCaslin: "Would you like to offer an amendment?"

Senator Charnley: "No, but I think I will conclude with a few remarks. Thank you very much."

Debate ensued.

POINT OF INQUIRY

Senator Hurley: "Senator Clarke, I wonder if this brings back memories to you of about eight or nine years ago when you and I had a little discussion about turning over records of drivers to the insurance companies, and, you remember that?"

Senator Clarke: "I remember several arguments we had."
Senator Hurley: "Well, what I want to ask you is, is there a fee that the insurance companies pay for these records, or is this a gratuitous service that they receive, having the records of the drivers furnished to them?"

Senator Clarke: "I really do not know. It is my impression that they pay for it but I am not certain."

Senator Hurley: "They do pay? I would be interested to know how much, if you have that information."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Senator Hurley, I understand it is $3.00. That is what we pay for a traffic accident, an attorney pays for a traffic accident report. I believe it is the same thing for a transcript."

Senator Hurley: "I see; thank you."

POINT OF INQUIRY

Senator Talley: "Senator McCaslin, is there any way to make this bill retroactive?"

Senator McCaslin: "I need it too, sir."

Further debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 3518 and the bill passed the Senate by the following vote: Yeas, 28; nays, 20; excused, 1.

Excused: Senator Bluechel—1.

SUBSTITUTE SENATE BILL NO. 3518, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

APPOINTMENT OF COMMITTEE

Under the provisions of House Concurrent Resolution No. 33, the President appointed Senators Sellar, Newhouse and Vognild as member of the Joint Select Committee on Telephone Systems.

MOTION

On motion of Senator Clarke, the appointees were confirmed.

NOTICE OF PROPOSAL — RULE CHANGE

Senator Clarke: "Mr. President, at this time I would like to give notice to the members that we will be proposing an amendment in the rules which will have to do with the cutoff date for the introduction of bills. And this would simply provide that for 60-day sessions, that the cutoff day for introductions would be on the 19th day or, continue with the 40th day during a 105-day regular session and should be read
in under the proper order of business no later than the 23rd legislative day of a 60-day session.

"This would relate simply to the introduction of bills as a separate cutoff; just giving notice that the proposed change will be distributed."

President Cherberg: "Notice of the rule change has been received."

**POINT OF INQUIRY**

Senator Charnley: "If Senator Clarke could answer a question. What date, effectively, would that be this term?"

Senator Clarke: "Next Tuesday, I am informed."

Senator Charnley: "A week from today; for being read in, yes, I understand. Okay."

**POINT OF INQUIRY**

Senator Bottiger: "Mr. President, so there is no confusion, you have to have your bill in to bill drafting by Friday and bill drafting has to have it up here and read in by Tuesday.

"Senator Clarke, that is the cutoff of bills. Is there any progress on getting a cutoff resolution on consideration? I remember a short time ago we got down to the end and the whole thing fell apart because we did not have proper cutoff resolutions. I hope that it is not going to happen again."

Senator Hayner: "Mr. President, ladies and gentlemen of the Senate. We have a cutoff resolution for the consideration of Senate bills and House bills which we are looking at. One of the problems with adopting that is that there are so many exceptions to it that seem to be necessary in a session such as this where we have fiscal problems to deal with that it may be unwise to do that, and as you know, the House does not have any cutoff. We will make a decision on that soon."

**MOTION**

At 12:04 p.m., on motion of Senator Clarke, the Senate adjourned until 10:30 a.m., Wednesday, January 27, 1982.

PERSONAL PRIVILEGE

Senator McDermott: "Mr. President, members of the Senate. I received a phone call from a member of my constituency. Happens to be somebody who is a part of the 214,000 people who are unemployed in this state.

"His first question to me was, 'Is the legislature in session? I haven't noticed them doing anything.' Then he went on to comment about the leadership of the majority party and I assured him I did not think they were gutless, or aimless; I thought they just did not know how to react to the President's remarks.

"Then he asked me what was it that happened in 1971 . . ."

President Cherberg: "For what purpose does Senator Guess rise?"
POINT OF ORDER

Senator Guess: "Point of order."
President Cherberg: "Senator will please state his point."

REMARKS BY SENATOR GUESS

Senator Guess: "I do not believe that the Senator is speaking on a point of per­
sonal privilege. His opinion of our ability to respond to the President's message
hasn't anything to do with the order of business before us."

RULING BY THE PRESIDENT

President Cherberg: "Senator McDermott, the President believes that Senator
Guess' remarks are well taken and if you . . ."

SENATOR McDERMOTT CONTINUES

Senator McDermott: "I will confine myself to the third question he asked me.
His question was, 'What was the first thing that happened in the 1971 legislature
when Boeing went belly-up?' This is one of my constituents, Senator Guess, and I
want to respond publicly to him."

REMARKS BY SENATOR GUESS

Senator Guess: "Senator McDermott was not in the legislature, in the Senate,
in 1971, therefore I do not think it has anything to do with his personal business. He
was not here, so he does not know."

REMARKS BY SENATOR METCALF

Senator Metcalf: "Thank you, Mr. President, members of this Senate. I would
urge that we follow the normal procedure on this bill. I like this bill, I am very vig­
orously in favor of it . . ."

REPLY BY THE PRESIDENT

President Cherberg: "The motion is not debatable. The President will put the
question."

POINT OF INQUIRY

Senator McDermott: "Mr. President, may I finish my point of personal
privilege?"
President Cherberg: "Senator, you have struck out twice."
Senator McDermott: "Is one not allowed, Mr. President, to respond to one's
constituents on the floor of the Senate?"
President Cherberg: "The President will permit you to respond to Senator
Guess' remarks."

SENATOR McDERMOTT CONTINUES

Senator McDermott: "I was in the House of Representatives when the first bill
that passed in this legislature in 1971 was an extension of unemployment benefits.
And at that time, all the Republicans voted against it; and we are back in 1982 with
a major problem. We have more unemployment in this state than in the history of
the state and we are doing nothing about it. And the constituents are now asking,
'When are you going to do something about unemployment?'"
"We have hearings on mosquito districts but we do not discuss jobs. And I think it is a major failing of all of us."

PERSONAL PRIVILEGE

Senator Hayner: "That is simply not true, Senator McDermott. We have launched a Washington works program; we have spent a good deal of time, in fact, we spent three hours last night talking about possible legislation to promote new jobs in the state of Washington. And I think it is unfair to say that we are not considering it, we certainly are considering it."

House Bill No. 4 was referred to the Committee on State Government.

POINT OF INQUIRY

Senator Fleming: "Senator Clarke, the question is that I am concerned, Senator McDermott made some comments and so forth; but they were more general. I notice — and I do not know what the problem is — it seems to be that we have more of these whole sheets of rereferrals the last couple of sessions and than I have know having that problem in quite some time since I have been in the Senate.

"And I guess my question would be, are we going to have to refine how we are referring these bills; have we changed the system on who decides how they are referred or whatever. Because we seem to have more of this referral and not going to the committees that they maybe should be.

"And I do not know, I am being up front and not trying to be sly about anything, but I am just concerned about that because it creates confusion."

Senator Clarke: "Well, Senator, what we are endeavoring to do, it is obviously impractical to go over each one of these referrals when they come in as a caucus
matter, and allow each individual Senator to set forth his idea. For that reason, normally, these bills are referred to the committees, either if it is a House bill, conversant with the House committee or where the bills normally go.

"Now, we could, but I think it would simply delay the business of the Senate further if we delayed those referrals each day. Now, there may have been more rereferrals this session. But, if so, I think, perhaps, it is indicative of the fact that each individual Senator is raising questions; and if then it seems that those are well-taken, the matter comes back before the body and the reason for the rereferral will be explained any time there is a question."

Senator Fleming: "I guess my concern, Senator Clarke, it seems before that we had a pretty good system, and evidently the system has been changed. Before, I think, the Lieutenant Governor and the attorney and Sid or somebody, made most of the referrals and that is the way most of them went. I do not know if that is still the system because I am not asked.

"But seemingly we are having more problems getting the right bills into the right committees; and I am just saying if the system has changed, is this a part of sort of weeding the bugs out of the system? Or is the system still the same and we are just having, you know, more individual input?"

Senator Clarke: "One of the reasons, I think, is that the House has realigned its committee system over there and for that reason it is not as readily ascertainable when we receive a House bill as to what the comparable Senate committee would be.

"But I can assure you, Senator, that we will heed your comments and anything that we can do to increase the efficiency of the Senate we will endeavor to do."

PERSONAL PRIVILEGE

Senator Ridder: "I notice in the gallery that we have one of our former members, Senator Peter Francis; and I would like to say I am personally glad to have him down here to counsel with us as a veteran of these halls and also as a resident of the outside world. Perhaps he will bring some words of wisdom to us and specifically I see, to Senator Williams."

POINT OF INQUIRY

Senator Woody: "Thank you, Mr. President. My problem is I do not know who I should properly address the question to; and so I am going to state the question; anybody who feels competent to answer I would appreciate a response.

"My question is, I notice that this bill will allow two percent additional to go to the administration of the funds. And I am wondering: two percent doesn't sound like
a lot. How many dollars are we talking about in that two percent? What is the dollar increase going to administration going to be if this bill passes?"

Senator Hurley: "I am not sure I can answer in dollar amounts, but it is not a two percent, it is up to two percent. It changes the three percent that is now used for the administration of this area of recreation from 3 to 2.5. And the cost has gone up in the administration of the program."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 3823 and the bill passed the Senate by the following vote: Yeas, 30; nays, 16; absent or not voting, 1; excused, 2.

Absent or not voting: Senator Fleming—1.

ENGROSSED SENATE BILL NO. 3823, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

Providing for a distribution of leasehold excise tax revenues to fire protection districts.

MOTIONS

On motion of Senator Lee, Substitute Senate Bill No. 3512 was substituted for Senate Bill No. 3512 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Lee, the rules were suspended, Substitute Senate Bill No. 3512 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Bottiger: "Senator Lee, whenever we do 'for' somebody, we do 'to' somebody else. If the fire district around the airport is going to get this leasehold tax, who are they going to get it from?"

Senator Lee: "In this particular case, it will be a small portion left from what the county normally receives. If this were a city, for example, that was getting a leasehold tax, they would be providing fire protection anyway.

"In the case of a county, the county still retains the major portion of the leasehold tax for the service they provide which is police protection."
Senator Bottiger: "But the reduction of revenue to the county in favor of a fire district?"

Senator Lee: "If they do decide to make the annexation, that would be the case."

Senator Bottiger: "Now is initiative 62 complied with? Are we taking a revenue source away from the county without making it up someplace else?"

Senator Lee: "It was my analysis and from talking to others, that we are not in violation of initiative 62 because counties do not provide fire protection services."

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 3512 and the bill passed the Senate by the following vote: Yeas, 44; excused, 5.

Excused: Senators Craswell, Fleming, Metcalf, Moore, Peterson—5.

On motion of Senator Zimmerman, the rules were suspended, Senate Bill No. 4064 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Lee, as I read this bill, the board of a sewer or water district may hold a hearing, may get 95% remonstrance at that hearing, but they can go ahead an annex this island, willy-nilly, and then the burden is on the people within the island to get a petition, is that correct?"

Senator Lee: "That is correct; the same way it works for all other kinds of annexation proceedings. That is the kind of procedure we now have in state law, as soon as an action is taken, that if the people in the area are dissatisfied with that action, that they have the right of referendum."

"Now, of course, I would think they would be flying in the face of fate if they had 95% objections, went ahead with it, I do not really think that any elected group of commissioners has that kind of suicidal complex."

Senator Rasmussen: "Well, the problem of course, is that, if I understand your explanation, if the board, the commissioners of this sewer and water district say 'We want it' and they hold a pro forma meeting, the people may not want it and they may protest. But then you put the additional burden on them of having to get a petition and say 'No' instead of reversing it and have the people themselves within the area petition for annexation. That would be a more democratic way, I would think."

Senator Lee: "You have the privilege of voting 'No' on the bill, sir."
Senator Rasmussen: "I think I will."

On page 9, line 7, after "territory" strike everything through "board" on line 9.

Debate ensued.

The motion by Senator Williams carried and the amendments were adopted.

POINT OF INQUIRY

Senator Bottiger: "Senator Deccio, when this bill was first explained to me, it made a lot of sense and I totally supported it. However, when the digest came out, if you will look on page 14 directly under 'effective substitute,' that raised a question and I understood that there was either going to be an amendment offered or that you had gotten some opinion from the attorneys that the digest is incorrect.

Well, it says in the digest, 'The practice of chiropractics and osteopathy are included in the definition of physical therapy.' Now an osteopath has some limited surgical authority, and I don't think we really mean to allow a physical therapist to do everything that a chiropractor and an osteopathist can do.

'Did they follow through, they said they were going to get in touch with you and see if this digest was wrong?'

'I did not prepare an amendment; but the digest frightens me if it is correct.'

Senator Deccio: "Well, Senator Bottiger, I really do not, I did not introduce the bill, what I am trying to say, and did not follow the thing when it came out . . . ."

Senator Bottiger: "Well Senator Haley, I am sure, would agree with me, that we do not want physical therapists doing everything the chiropractors and osteopathists do."

Senator Deccio: "Do we examine the exact language in the bill rather than just take it from the digest?"
Senator Bottiger: "I really did not follow through on it, I understood there was going to be some clarification or amendment, and none appearing on my desk, I just raised the question."

On motion of Senator Clarke, Substitute Senate Bill No. 3332, as amended, was ordered placed at the beginning of the second reading calendar for consideration on the next working day.

On motion of Senator Clarke, the Senate advanced to the eighth order of business.

**SENATE RESOLUTION 1982—171**

By Senators Gaspard, Bauer, Benitz, Bluechel, Bottiger, Charnley, Clarke, Conner, Craswell, Deccio, Fleming, Fuller, Gallagher, Goltz, Gould, Guess, Haley, Hansen, Hayner, Hemstad, Hughes, Hurley, Jones, Kiskaddon, Lee, Lysen, McCaslin, McDermott, Metcalf, Moore, Newhouse, Patterson, Peterson, Pullen, Quigg, Rasmussen, Ridder, Scott, Sellar, Shinnoph, Talley, Talmadge, Vognild, von Reichbauer, Williams, Wilson, Wojahn, Woody and Zimmerman; Lieutenant Governor John A. Cherberg; Sid Snyder, Secretary of the Senate; Marilyn Brachtenbach, Deputy Secretary of the Senate; and Fred Hildebrand, Sergeant at Arms:

**WHEREAS,** Washington is the only state named for a President of the United States, George Washington, the father of our country, and as such we Washingtonians hold the presidency and presidents with special regard; and

**WHEREAS,** Thousands of Washington citizens remember the intense despair of the Great Depression and the hopelessness with which the population regarded the future as rampant unemployment affected one-quarter of the national labor force and, by early March 1933, every bank in our nation was closed; and

**WHEREAS,** He instilled hope within the hearts of a country as despairing people, the youth and the elderly, the poor and the middle class, and people of all colors and faiths drew courage not only from his able leadership but also because of his courageous personal struggle against a crippling disease; and

**WHEREAS,** No national monument stands today to honor this President, whose compassionate stewardship brings praise to the United States whenever attention is turned to that trying time in world history;

**NOW, THEREFORE, BE IT RESOLVED,** By the Washington State Senate assembled in session, That we declare our support for observation of January 30, 1982, as a day to acknowledge and honor the charity of this great world leader and American President, Franklin Delano Roosevelt; and

**BE IT FURTHER RESOLVED,** That the Secretary of the Senate is hereby directed to send a certified copy of this resolution to the Franklin Delano Roosevelt Library in Hyde Park, New York.

**REMARKS MADE DURING THE PROCEEDINGS ON SENATE RESOLUTION 1982—171**

**REMARKS BY SENATOR GASPARD**

Senator Gaspard: "Although I did not live through the Roosevelt eras, I have read history of the times. I believe that he was the right man at the right time for our nation. And history, I think, tells a story about this man and our nation while he lived."
"But I think one of the most important contributions that he made to us Americans, is that he gave us reason to have hope, hope for the future. "I am very happy that we can take this time to give observation to the one hundredth anniversary of President Roosevelt that will take place tomorrow. "Mr. President, I would like to have the Secretary instructed to add additional sponsors to the resolution, upon their request."

REMARKS BY SENATOR HUGHES

Senator Hughes: "Just adding a word to Senator Gaspard. Whether you agreed with the policies of President Roosevelt or not, and I think the vast majority on this side of the aisle certainly did, there was probably no personality in the twentieth century that more affected the United States than Franklin Delano Roosevelt, to face the crisis of a depression, to face the catastrophe of World War II, and to do it with the style that that man offered this nation, I think makes all of us feel good in having the opportunity to recognize his one hundredth birthday today."

REMARKS BY SENATOR QUIGG

Senator Quigg: "Mr. President and members of the Senate. This is a resolution that, while it may not be able to stop the bullets or to unlock any of the chains that are presently enslaving the people of Poland, it does sent a message to those people that we here in the state of Washington and the Washington Stae Senate support their valiant efforts to get out from under the heel of the Soviet oppression.

"The State of Washington is a state that has a strong link with the Polish people. Just a quick run-through of some of the folks that I was in school with and that live in my community, the Walkowiczes, the Wensewiczes, Rakoskis, Karnockis, Nebroskis and Malinowskis, and many, many more look back to Poland for their roots, and fine, strong roots they are.

"We are fortunate to have with us here today from the Polish Home Association, Ron Golubiek, James A. Hicker, and Teresa Malinowski, in the north gallery.

"The connection between the state of Washington, the United States, and the Polish people fighting for freedom is a strong one. This resolution puts that message out for all to see, and Mr. President, I would ask that the Secretary be directed to accept additional signatures on the resolution."

Impounding vehicles driven by unlicensed drivers.

MOTIONS

On motion of Senator Metcalf, the rules were suspended and Substitute Senate Bill No. 3549 was returned to second reading.

On motion of Senator Bottiger, the following amendments were considered and adopted simultaneously:

On line 13, after "(2)" strike "The" and insert "If the driver of the vehicle is the owner of the vehicle, the"

After line 20, insert a new subsection as follows:

"(3) If the driver of the vehicle is not the owner of the vehicle, the driver shall be responsible for any penalties, fines, or forfeitures owed or due and for the costs of impoundment and storage. The vehicle shall be released to the owner upon proof of such ownership."

Renumber the remaining subsection accordingly.

On motion of Senator Metcalf, the rules were suspended, Engrossed Substitute Senate Bill No. 3549 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Moore: "Senator Metcalf, I recall, on Friday, that Senator Talmadge raised the question whether this would authorize the police to impound someone's car if they had simply forgotten to carry their license with them. Can you clarify the intent of the bill on this point for the record?"

Senator Metcalf: "Certainly, Senator Moore. In subsection 1 of the bill, reference is made to 'operating a motor vehicle without a valid driver's license in violation of RCW 46.20.021.' RCW 46.20.021 is our basic driver licensing statute requiring all drivers not specifically exempted, to obtain a license as a condition of exercising the driving privilege on any of our streets and highways. What you have referred to is a 'nonmoving' offense covered specifically by RCW 46.20.190, 'licensee operating without a license in his immediate possession.' In such instances, the officer verifies that the driver is licensed through a computer records' check using the
driver's name and birth date. As long as the department of licensing computer verifies that the driver does have a valid license currently issued to him, the driver could be cited for driving without a valid operator's license in his possession, but would not be subject to impoundment under this bill."

Senator Moore: "Senator, are we currently equipped to find this information on the spot?"

Senator Metcalf: "It is my opinion, after checking with the staff of the highway committee, that we are, yes."

Senator Moore: "Very good, that answers the question. Thank you."

POINT OF INQUIRY

Senator Deccio: "Senator Bottiger, I think your amendment is a very good one, I am sorry I did not ask this question while it was being considered."

"But if the driver of the vehicle was unlicensed and not the owner and does not have the wherewithal to pay the penalty, does that mean then that the vehicle remains in the impounded state until the unlicensed driver comes up with the money?"

Senator Bottiger: "Senator Deccio, the intent in offering the amendment that that not be the case, that the driver is responsible for fines, forfeitures and penalties, not necessarily the owner when the owner is a different person."

Senator Deccio: "The owner could then pick up his car but the unlicensed driver is still liable for the penalty."

Senator Bottiger: "That is correct."

MESSAGE FROM THE GOVERNOR
GUBERNATORIAL APPOINTMENT

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON.

LADIES AND GENTLEMEN:

I have the honor to submit the following appointment subject to your confirmation:

Sincerely,

JOHN SPELLMAN
Governor.

Referred to Committee on Commerce and Labor.

MESSAGE FROM THE HOUSE

February 2, 1982.

Mr. President: The House has adopted: HOUSE CONCURRENT RESOLUTION NO. 36, and the same is herewith transmitted.

VITO T. CHIECHI, Chief Clerk.

FIRST READING OF HOUSE RESOLUTION

HOUSE CONCURRENT RESOLUTION NO. 36, by Representative Nelson (G.):

Calling a joint session for distinguished Japanese.

MOTIONS

On motion of Senator Clarke, the rules were suspended and House Concurrent Resolution No. 36 was advanced to second reading and read the second time in full.

On motion of Senator Clarke, the rules were suspended and House Concurrent Resolution No. 36 was advanced to third reading, the second reading considered the third, and the resolution was adopted.

On motion of Senator Clarke, the Senate advanced to the sixth order of business.

On motion of Senator Clarke, Engrossed Senate Bill No. 3915 was ordered held for consideration on February 3, 1982.

SECOND READING

SENATE BILL NO. 3405, by Senators Jones, Gallagher, Hayner and Gould (by Department of Revenue request):

Establishing fact finding procedures under the educational employment relations act.

The bill was read the second time by sections.

Senator McDermott moved adoption of the following amendment:

On page 4, beginning on line 2 strike everything down to and including "and to" and insert "the two parties, by written notice to" 

Debate ensued.

Senator Talmadge demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator McDermott.

ROLL CALL

The Secretary called the roll and the amendment was adopted by the following vote: Yeas, 28; nays, 20; excused, 1.

Voting nay: Senators Benitz, Bluechel, Clarke, Craswell, Fuller, Gallagher, Guess, Haley, Hayner, Jones, Kiskaddon, Lee, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, Zimmerman—20.

Senator McDermott moved adoption of the following amendment:

On page 4, line 16, after "fact finder." strike the remainder of the subsection.

Debate ensued.

POINT OF INQUIRY

Senator McDermott: "Senator Gould, my question is, do you think somebody else who works for the PERC commission could be the fact-finder, rather than a person who was the mediator?"

Senator Gould: "I do not have any feeling about that; I cannot . . . ."

Senator McDermott: "If you are worried, we could write language. I would be willing to set the bill down and set language so that it could be somebody else who works for the PERC commission; but forcing the situation into the outside and to choose somebody, an attorney or somebody, to come down and work for $125.00 an hour or whatever as a fact finder when you have people employed by the PERC commission, it seems to me is not a cost-effective way to spend public money. And that is why I would gladly set the bill down if there is a way to write an amendment that makes more sense."

Senator Gould: "Maybe that would be even more reason to defeat the amendment because it would force agreement at mediation level which I think is appropriate."

Senator Ridder demanded a roll call and the demand was sustained.

MOTION

Senator Wilson moved that Senate Bill No. 3405, as amended, be held for further consideration following the next three measures on the calendar.

Debate ensued.

The motion by Senator Wilson failed on a rising vote.

The President declared the question before the Senate to be the roll call on the amendment by Senator McDermott.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 21; nays, 27; excused, 1.

President Pro Tempore Guess assumed the Chair.

There being no objection, on motion of Senator Vognild, an amendment by Senators Vognild and McDermott to page 5, line 11 was withdrawn.

Senator McDermott moved adoption of the following amendment:
On page 5, line 13, after "incurring them" and before "." insert ": PROVIDED, That if the employee bargaining unit contains thirty-five or fewer members, the cost of the fact finder's service shall be borne by the commission"
Debate ensued.

POINT OF INQUIRY

Senator Newhouse: "Senator Vognild, your remarks brought a question to my mind. Are you inferring that in a situation of a small district and its teachers being toward an impasse, that if we do not adopt this amendment, then the statewide organization might subsidize the local organization of teachers in financing this impasse procedure?"

Senator Vognild: "Yes, this was discussed on the floor before."

Senator Newhouse: "Thank you. I think this would indicate a good reason why we should not pass discriminatory legislation that would cost for some districts and the PERC commission does not have money for that."

Senator Ridder demanded a roll call and the demand was sustained.

Further debate ensued.

The President declared the question before the Senate to be the roll call on the amendment by Senator McDermott.

ROLL CALL

The Secretary called the roll and the amendment was adopted by the following vote: Yeas, 29; nays, 19; excused, 1.

PARLIAMENTARY INQUIRY

Senator Bottiger: "Mr. President, on a motion to advance a bill to third reading, does it now require two-thirds vote or only 50%?"

REPLY BY PRESIDENT PRO TEMPORE

President Pro Tempore Guess: "Senator Bottiger, Rule 67 says 'Every bill shall be read on three separate days unless the senate deems it expedient to suspend this rule: PROVIDED, HOWEVER, That on and after the tenth day preceding adjournment sine die of any regular session this rule may be suspended by a majority vote ... .' We are on the twenty-third day. I would say that it would require two-thirds majority to suspend."

Senate bill No. 3405, as amended, was passed to third reading.

President Cherberg assumed the Chair.

At 11:24 a.m., the Senate retired to the House Chamber for the purpose of a Joint Session.

"Gentlemen, welcome to the State of Washington.

"The President should also like to present to you The Honorable Ichiji Ishii, Secretary-General of the Japan-America Society and distinguished member of Hyogo Prefectural Assembly."

The President of the Senate introduced Governor John Spellman.

Governor Spellman: "Governor Cherberg, Speaker Polk, members of the Senate and House of Representatives, ladies and gentlemen: I discovered, when I went to Japan earlier this year, to speak in phrases and verse so that we may have the opportunity of translation. I'm giving our interpreter the opportunity to come forward to the microphone, and I will go somewhat slower than usual.

"It is a distinct pleasure for me to welcome our good friends of the Hyogo Prefectural Assembly and their goodwill delegation who honor us with their presence today under the auspices of the Japan-America Society of the Hyogo Prefectural Assembly. We regret that Speaker Nakabayashi was unable to be with us today, but we are very pleased Assemblyman Ishii, the Secretary General of the Japan-America Society was able to lead the delegation. The state of Washington and the Hyogo Prefecture have been sister-states for more than eighteen years. It is among the oldest of relationships we have, and I feel that it is, perhaps, most certainly the most active. We have sister-state relations between not only Hyogo, but also many of the cities within Hyogo Prefecture with the state of Washington.

"The visit we made—Senators Benitz and Quigg, Representatives Sanders, Smith and myself—to Kobe in June was a real eye-opener. We found that we are
very similar in climate (we were there in the rainy season), in the greenery and the natural evergreens rising from the ocean, and the view from the Portopia Hotel in Kobe showed us one of the world’s most active ports—an active trading partner with the state of Washington. Awesome traffic—it was almost like an air-traffic control situation with the ships coming in and out of that very busy port. Ten thousand sea-going vessels a year in and out of the port.

"The Hyogo Prefecture and its port of Kobe is Japan’s gateway to the world. We, in the state of Washington, hope with our ports to become the gateway to Japan and to the Pacific. Their manmade ports and the islands that attribute to being those ports are well worth observing. Portopia ’81 was a remarkable demonstration of various technologies, and it was fitting that the state of Washington was the only state in the United States that participated with Japan and the the port of Kobe in that awesome display of modern technology.

"Let me speak briefly of the benefits of the sister-state relationship which we have. Certainly, it starts with the personal contacts between the governmental leaders and the people of our two states getting to know each other better. We found that many people here and many people there have mutual relatives, mutual businesses, which makes for a strong and warm friendship.

"There are twenty-two of the cities in the state of Washington that have a sister-city relationship with various cities in Japan. Seattle and Kobe is one of the oldest, which is twenty-five years in existence this year, and if you were to go to Kobe, you would find a totem pole in downtown Kobe as you would find a stone pagoda in Mount Baker Park. Relationships have been good for decades, but they have never been better. We have greeted numerous delegations from Hyogo here in the last year and the Prime Minister of Japan met with me within the last two months. Japan has great faith in Washington’s future. That faith in Washington’s future was demonstrated only yesterday in the signing of the articles of agreement between the giant Marubeni Corporation of Japan and the state of Washington. It was preceded earlier this year with a similar agreement with the largest and oldest trading corporation in Japan, Mitsui. Those growing economic ties from this relationship have been demonstrated in every part of this state in the last year, but we have only begun to tap the future of the Pacific Rim. The world is coming to an acknowledgement of the fact that this is the century of the Pacific. Both Hyogo Prefecture and the state of Washington are very much in the ‘catbird seat’—I think that translates into a key position—in terms of world trade and the opportunities as traders in that Century of the Pacific.

"Members of the Prefectural Goodwill Delegation, please convey warm wishes of friendship to my good friend, Governor Sakai, to Speaker Nakabayashi and to the people of Hyogo Prefecture. During your stay, make yourselves at home in Washington, and let it be your home away from home. Thank you."

President Cherberg introduced Speaker Polk.

Speaker Polk: "Governor Spellman, Mr. President, fellow legislators, distinguished and honored guests: I am certainly pleased and honored to introduce to you, and to extend our heartfelt welcome, to a distinguished legislative colleague from our sister-state in Japan, the Hyogo Prefecture. Mr. Ichiji Ishii has served his third four-year term in the Hyogo Prefectural Assembly and is also the Secretary General of the Japan-America Society of the Assembly. His visit marks the eighteenth anniversary of the unique sister-state relationship between his prefecture and our state of Washington, which, indeed, has contributed so much to the bonds, not only between our nations, but also between the people of the regions and localities which share remarkably similar characteristics, common goals and concerns.

"It is notable that of the twenty-two sister-cities in Japan, eight are located in the hills of Hyogo Prefecture, including Seattle’s sister-city of Kobe, which is also Mr. Ishii’s birthplace. The strong commitment to effect a productive international
relation, which this reflects, is personified by our distinguished guest today. His involvement and achievement in furthering the excellent relationships we enjoy are impressive, indeed.

"In addition to his legislative responsibilities, Mr. Ishii is Executive Director of Kokusi-Shusho Company and Secretary of the Trade Committee of the Kobe Chamber of Commerce and Industry as well as a board member of Prefectural Mutual Aid Association. We note also that Mr. Ishii's ties to the Pacific Northwest extend beyond the Washington border to the south. He is a graduate of the University of Oregon with a Master's Degree in Business Administration.

"Ladies and gentlemen, will you please join me in welcoming this remarkable individual and in greeting our close relatives in the family of nations: Mr. Ichiji Ishii."

Mr. Ishii: "It is our greatest honor and pleasure to be able to visit our American sister-state, Washington, at this time. We would like to express our sincere appreciation to Governor John Spellman, Lieutenant Governor John Cherberg, Speaker of the House William Polk, Senators, Representatives and all others whose kind cooperation and understanding made this trip possible.

"Our sense of honor and pleasure at this historic Legislative Hall of the state of Washington is even more exalted when I realize that our goodwill delegation represents not only the Hyogo Prefectural Assembly, but also the five million, two hundred thousand people of Hyogo Prefecture.

"The friendship between the United States and Japan originates in the Treaty of Peace and Amity signed in 1854 by the two countries. Therefore, with the exception of the tragic Pacific War, the history of our relations is almost 130 years old.

"However, the most impressive aspect of our friendship is not the length of its history, but the common framework of democracy and freedom through which the two nations have vested mutual trust in each other. We must be aware that the same common framework is the sustaining and strengthening force underlying our sister-state affiliation.

"Our sister-state affiliation is only nineteen years young, but it is gratifying to know that the relations have been expanding enormously through economic and industrial cooperation, exchange of visits and many programs which transcend the geographical and cultural differences and barriers.

"A recent memorable event in our sister-state affiliation was the visit to the Portopia Fair in 1981 by Governor Spellman, Senators Benitz, and Quigg and Representatives Sanders and Smith. We are grateful to these people and the state of Washington for their support of the Fair.

"Currently we have eight pairs of sister-state affiliations among the cities of Washington and Hyogo. They are: Seattle and Kobe; Spokane and Nishinomiya; Kent and Kaibara; Auburn and Kasuga; Renton and Nishiwaki; Walla Walla and Sasayama; Edmonds and Himeji; and Olympia and Yashiro.

"I'm sure that various programs of exchange and friendship in these sister-city affiliations will contribute significantly to the development and maintenance of peace, understanding, tolerance and mutual trust between the people of Washington and our people and even between the two countries.

"Again, thank you for this opportunity, and we hope to see you in Japan in the near future. Thank you."

The President of the Senate requested the special committee to escort Mr. Ishii from the House Chamber.

On motion of Senator Clarke, there being no objection, Senate Bill No. 4888 was referred to the Committee on Social and Health Services.
Senator Clarke moved that Senate Bill No. 4773 be referred to the Committee on Commerce and Labor.
Debate ensued.
Senator Ridder demanded a roll call and the demand was sustained.

POINT OF INQUIRY
Senator Jones: "Mr. President, if you can indulge me, I was wondering if I could ask Senator Ridder if, in the past as chairman of labor, and looking around at all the rest on the Democratic side, if indeed this bill was not sent to the labor committee in the past? And I believe that is true."

Senator Ridder: "That was, Mr. President, it was the labor committee; however, it was not the commerce and labor committee and in recent years our financial institutions committee has developed an expertise which I think we should recognize."

The President declared the question before the Senate to be the roll call on the motion by Senator Clarke that Senate Bill No. 4773 be referred to the Committee on Commerce and Labor.
ROLL CALL

The Secretary called the roll and the motion by Senator Clarke failed by the following vote: Yeas, 21; nays, 22; absent or not voting, 5; excused, 1.

MOTION

On motion of Senator Bottiger, Senate Bill No. 4773 was referred to the Committee on Financial Institutions and Insurance.

MOTION

On motion of Senator Clarke, the Senate advanced to the eighth order of business.

Senator Lysen moved adoption of the following resolution:

SENATE RESOLUTION 1982—167

By Senators Lysen, Shinpoch, Bottiger, Talley, Conner, Williams, McDermott, Metcalf, McCaslin, Goltz, and Vognild:

WHEREAS, The voters of the sovereign state of Washington overwhelmingly approved Initiative 394; and

WHEREAS, The Washington Public Power Supply System, which is limited by Initiative 394, is a municipal corporation of the sovereign state of Washington, and is subject to laws of this sovereign state; and

WHEREAS, WPPSS has failed to effectively manage and control construction costs of the five nuclear power plants; and

WHEREAS, Men at the Bonneville Power Administration, in the positions of responsibility and power, have neglected to effectively exercise authority for oversight of management and costs of the first three WPPSS nuclear plants; and

WHEREAS, The citizens of the state of Washington, in their wisdom and sovereignty, and in spite of over 1.2 million dollars spent to defeat their initiative, overwhelmingly chose Initiative 394 as the legal vehicle by which to protect their electricity costs, the state's credit rating, and our economic stability; and

WHEREAS, The Bonneville Power Administration is a federal agency which has contracted to purchase power from the utilities participating in the first three WPPSS plants, in contracts which explicitly recognize that WPPSS is a municipal corporation created and empowered by this legislature, and subject to all the laws of this legislature; and

WHEREAS, The bond fund trustees have filed a lawsuit naming the sovereign state of Washington as defendant, in an effort to have Initiative 394 declared invalid; and

WHEREAS, The Bonneville Power Administrator, Mr. Peter Johnson, has indicated his intention to allow the plaintiffs to charge the costs of their effort to overturn the law of the sovereign state of Washington to WPPSS, which would require that Washington state ratepayers pay the costs for the plaintiffs, at the same time they are funding the Attorney General in his effort to enforce the law of this sovereign state;
NOW, THEREFORE, BE IT RESOLVED, By the Senate of the State of Washington, that the efforts to charge the electric ratepayers for the costs of a lawsuit against this law enacted by the people of this sovereign state be declared contrary to the public policy of this sovereign state; and

BE IT FURTHER RESOLVED, That copies of this resolution be forwarded to each member of the Washington Congressional delegation, to the Bonneville Power Administrator, and to the Attorney General.

POINT OF INQUIRY

Senator Bottiger: "Senator Lysen, the third 'Whereas,' I am wondering if that is essential to the resolution and I am concerned about a lawsuit started by Bonners Ferry municipality, alleging that they do not have any liability for their share of the cost of curtailment, using that 'Whereas' to add to the fuel of their lawsuit. Do you think it is essential or could we delete that to prevent us making a finding?"

Senator Lysen: "Well, it is not essential. I think it is true, however."

Senator Bottiger: "I can appreciate that and then call you as a witness. I think the turnaround in the management and I think they are doing a lot better job now, and I just do not want that brought up in a lawsuit as a finding of this senate."

Senator Lysen: "I think it was a finding of our committee, was it not, that . . . ."

Senator Bottiger: "At that time, but the point is this now speaks at a later date when there has been a turnaround in the management ability. We also praised the new management and the corrections that were being made."

Senator Lysen: "Senator, I think that is an open question. The new management has presided over the disintegration of the last two plants. We now lost two plants and they were there for a year and a half and Mr. Squire was there for two years. So I certainly think that is certainly an open question. My preference would be to leave this in there and help the small communities that have been victimized by these people."

Senator Bottiger: "I hope you realize you end up paying for it if they get out."

Senator Bottiger moved adoption of the following amendment:
Delete the third paragraph.
Debate ensued.

POINT OF INQUIRY

Senator McDermott: "Senator Bottiger, does the legislative action of removing that question change the legal status of the fact?"

Senator Bottiger: "I do not think it changes anything. It just prevents us from making a finding that conceivably could be used by the Bonners Ferry group lawsuit as a declaration by the senate that they are currently mismanaging."

Senator McDermott: "Well, in the same logic couldn't the action that we are now proposing to take be used as an evidence in the other direction that, in fact, we are saying they had done a good job?"

Senator Bottiger: "I do not believe so, Senator McDermott. It is just a nothing. It is not a finding either way."

MOTION

Senator Gould moved that the Senate Resolution 1982–167 be referred to the Committee on Energy and Utilities with instructions.
Debate ensued.
POINT OF ORDER

Senator Hayner: "I think that Senator Lysen is straying from the motion and if he wants to speak on the motion, fine, but I do not think we want to speak on the merits of the WPPSS and what they have done."

RULING BY THE PRESIDENT

President Cherberg: "The motion before the senate is a motion by Senator Gould that the measure be referred to the senate committee on energy and utilities with instructions. The President believes that opens up the measure for full discussion."

POINT OF INQUIRY

Senator Hurley: "Mr. President, I wonder if Senator Bottiger would yield to a question? Senator Bottiger, in relation to your request to delete the third 'Whereas,' I think I read in the paper, and on TV I have also seen that the board of WPPSS has admitted that they were not good managers, that they were not effective. And I have heard Bob Ferguson also say that he had hoped to turn it around, that in the past the management was not good, that they had made a lot of blunders, that their decision-making was not good; and in the face of all of those admissions, it just seems to me that just putting it down on paper does not make that much difference."

Senator Clarke moved the Senate adjourn.

MOTION

At 2:04 p.m., on motion of Senator Clarke, the Senate adjourned until 10:30 a.m., Wednesday, February 3, 1982.

MOTIONS

On motion of Senator Clarke, the Senate advanced to the eighth order of business.

On motion of Senator Clarke, the Senate resumed consideration of Senate Resolution 1982—167 from February 2, 1982. At that time, Senator Gould had moved that the resolution be referred to the Committee on Energy and Utilities.

Debate ensued.

The motion by Senator Gould carried. Senate Resolution 1982—167 was referred to the Committee on Energy and Utilities.

MOTION

Senator Wojahn moved adoption of the following resolution:
SENATE RESOLUTION 1982—169

By Senators Wojahn, Gallagher, Rasmussen, Bauer, Bottiger, Goltz, Gaspard, Hughes and Haley:

WHEREAS, The State of Washington and the Tacoma Public Schools have suffered a significant loss in the recent death of L. H. (Vern) Bates, Mr. Vocational Education; and

WHEREAS, The citizens of the state were served with dedication, intelligence and effectiveness through his personal and professional contributions; and

WHEREAS, All persons fortunate enough to have had personal contact with Mr. Bates received a living example of personal and professional integrity that added materially to each individual; and

WHEREAS, The Legislature has looked to Mr. Bates for wise, practical and useful advice and counsel for many years in formulating its significant policy decisions relating to vocational education; and

WHEREAS, Mr. Bates served in significant public positions during his lifetime, including Administrative Director of Vocational Education for the Tacoma Public Schools, Commissioner of the State Department of Employment Security (September 1951 to September 1953), Director of the State Department of Labor and Industries (May 1955 to January 1957), and as special assistant to United States Department of Labor Secretary and was later appointed by Secretary of Labor Mitchell to the position of national director of the Bureau of Apprenticeship and Training; and

WHEREAS, Labor and management in Washington State have long recognized his contribution to both industry and people;

NOW, THEREFORE, BE IT RESOLVED, That the Senate of the State of Washington gratefully acknowledges and appreciates the significant contributions of L. H. Bates and mourns his recent passing; and

BE IT FURTHER RESOLVED, That the Secretary of the Senate certify this resolution and present a copy to Mr. Bates' daughter, Colleen Sterns, and The L. H. Bates Vocational-Technical Institute.

REMARKS BY SENATOR WOJAHN

Senator Wojahn: "Mr. President, members of the Senate. L. H. Bates is a bona fide and genuine Washington product. Born in Spokane, he is as much a part of the history and the tradition of vocational education in the state of Washington as green-up time is to the farming community around Walla Walla.

"And just as the farmer harnesses the elements of nature and uses them to make things grow, Vern Bates creatively and with persistence gave substance to the work ethic by providing structured educational work programs. He is quoted once as having said 'We gave students work to do. Their projects were all productive. That is what made it work.'

"And he further quoted, stated: 'You can take any person and they can make an orange crate if you give them enough time. But you do it on a time schedule and to meet standards of industry, is where we come in, in vocational education.' And then after saying this he went on to prove exactly what he could do and what could be done.

"L. H. Bates Vocational Technical School now covers several square blocks in the heart of Tacoma, and stands as a monument to his efforts. It is a far cry from Tacoma's first vocational program authorized by the Tacoma school board and started by Mr. Bates, which had its beginning in early 1944 in rented buildings. And even then, in spite of the handicaps of finding placement and places to do projects, 17,000 workers were trained for war industries before World War II ended.

"Mr. Bates held state positions that included commissioner of the department of employment security, and director of the department of labor and industries
under the Langley administration, both times. Although he was an avowed Demo­
crat, he did serve in Republican administrations; he served with much stature. He
also served in the national administration during the Eisenhower administration as a
special assistant to U. S. Secretary of Labor, and was later appointed to the newly
established position of national director of the bureau of apprenticeship and training.
"Throughout his years of dedicated service, he maintained his balance and
affection for working men and women with whom he related because he had his
beginnings as a journeyman printer. He treated the smallest pea in the pod with the
same respect as he treated the jolly green giant."

REMARKS BY SENATOR HALEY

Senator Haley: "Thank you, Mr. President; ladies and gentlemen of the senate.
"In spite of the fact that I was born and raised in Tacoma and took my educa­
tion there, I did no know Mr. Bates. I was away doing my own 'thing.'

"And those were the years when, during the war and right afterwards, so many
Tacomans were not in town but came back later to find out what a marvelous insti­
tution Bates Vocational Technical Institute has become. I think that thousands and
thousands of people who have been trained there, are a living tribute to this man
with this tremendous amount of foresight. I think that this resolution is very appro­
priate, but I think a far greater and a far more significant tribute to this man are all
those people."

REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "Mr. President, members of the Senate.
"Unfortunately, of course, that all great people usually get their recognition
after they are dead and gone; but in this case the results of this man's work, Mr.
Bates, is going on; his successors in the job are doing the same thing, they are
enabling the young people of the state to go ahead and get an education, be able to
work with both their hands and their brains, and are doing a tremendous job.

"During the war and later, we have had a great demand from certain industries
for skilled training of their workers and for additional crews. This is what the Bates
Vocational School does. And you all recall the big fights that we have had in the
past on the benefits of vocational training. Well, most certainly the history that this
man has given us in what vocational training can do, has been very worthwhile to
the state — a good example for the rest of the nation. I am only sorry that Mr.
Bates could not be here today to listen to the remarks that we are able to make
about him and the great work he has done both in the fight to get the vocational
school built, and then to provide the necessary training in the school. And it was a
battle but the people supported him and the people voted the bond issues, both for
the school and for the equipment; and his work was recognized not alone in the state
but also out of the state, and that he was working on the national level for the
department of labor.

"I urge the support for this resolution."

The motion by Senator Wojahn carried and the resolution was unanimously
adopted.

The President introduced the family and friends of Mr. Bates that were seated
in the south gallery.

The Senate observed a moment of silence in memory of Mr. Bates.

MOTIONS

On motion of Senator Lee, the Committee on Energy and Utilities was relieved
from further consideration of Senate Bill No. 4904.
On motion of Senator Lee, Senate Bill No. 4904 was rereferred to the Committee on Social and Health Services.

On motion of Senator Clarke, the Senate returned to the sixth order of business.

On motion of Senator Clarke, the Senate commenced consideration of Senate Bill No. 4115.

SECOND READING

SENATE BILL NO. 4115, by Senators Sellar and Wojahn:
Revising laws relating to international banking facilities.

MOTIONS

On motion of Senator Sellar, Substitute Senate Bill No. 4115 was substituted for Senate Bill No. 4115 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Sellar, the following amendment was adopted:
On page 3, line 28, beginning with "subsections" strike all material down to and including "section" on line 30, and insert "subsection (1) of this section"

On motion of Senator Sellar, the rules were suspended, Engrossed Substitute Senate Bill No. 4115 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Sellar, I heard on a news broadcast and saw a brief item in the paper that the Pentagon and the federal government was very concerned with foreign corporations taking over the corporations in the United States and, principally some of the bigger corporations that are in defense. Will this encourage that, that the foreign banking will also take over the national banks in the United States so we will be solely controlled by foreign governments? The reason I ask that, in most instances the foreign governments are the foreign banks and they operate as a branch of the government."

Senator Sellar: "I appreciate your concern, Senator, and I share your concern. However, I do not believe that this bill either helps or hurts that particular practice. We are talking about an international banking facility of an American bank. We are talking about Rainier or Seafirst or one of these banks having an international banking facility here in the state of Washington. It would deal only with accounts that come from citizens outside the state of Washington. Basically, they are operating these banks now, except they are operating them offshore, they are not in the state of Washington. California and Oregon have already authorized this. Some of the local banks have already set up their international banking facilities in those states and they are anxious to bring them here and we would like to have the employment of those folks being here.

"So I think directly it does not help nor does it hinder your concern."

Senator Rasmussen: "One further question, Senator Sellar. Does this also require reciprocity?"

Senator Sellar: "To the best of my knowledge does not."

Senator Rasmussen: "Why not?"

Senator Sellar: "Reciprocity with who?"

Senator Rasmussen: "So that if we grant banking interests in this country that we also get the same privileges in the other countries."

Senator Sellar: "No, that is not in this bill."

Debate ensued.
Senator Shinpoch: "Senator Sellar, there are two portions of the bill and the portion of the bill that I am concerned about is that which provides tax exemption. Did you have testimony in your committee what the amount of tax exemption would be?"

Senator Sellar: "No, sir, we did not."

Senator Shinpoch: "I suppose it might be an appropriate question for the body to ask the chairman of the committee, 'Why not?'"

Senator Sellar: "Because this is a tax that we are currently not collecting because these facilities are offshore and bringing them onto shore, it gives no net tax loss, it is something that we are not collecting now, we are not going to be collecting when these facilities are here; the employees, which are not going to be a great number, I cannot stand here and tell you it is going to employ a hundred people or something like that. But we are going to employ maybe four, five, six, seven or eight people, who knows, whatever the banking might build up; but those people are going to be employed here rather than Tokyo and I think that is a plus. If we put the B&O tax on those assets, they simply will not come to the state of Washington, they will go to the state of Oregon, they will go to the state of California as they are now; so it is not a matter of a tax loss, it is a matter of not collecting a tax that we are not collecting now; therefore we did not deal with the amount that we are not collecting."

Senator Shinpoch: "If we used that same argument with Hewlett Packard when they wanted to come in here, well then I suppose we could have given them a tax exemption for all of theirs because they are not here now; and if they were not going to pay our taxes well then, the manner in which we should go about getting them in here is to not tax them. I don't mind if they stay in the Cayman Islands; I have heard no testimony that there is going to be a large number of people here. We are simply doing this for the convenience of the bank. We have people that simply, that bank here, that do not want to pay the proper amount of taxes—they want to leave them in the Cayman Islands, that is fine with me. But if you used your argument that they are not here therefore we are not losing anything, we would use the same argument last year with Hewlett Packard, the same thing with Lockheed or any other company that wanted to locate here, that if we exempt them from all of our state taxes, we would not be losing anything because they are not located here now. I find that a difficult argument in which to find the logic."

Senator Lysen moved that Substitute Senate Bill No. 4115, as amended, be rereferred to the Committee on Ways and Means.

Senator McDermott demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the motion by Senator Lysen that Substitute Senate Bill No. 4115, as amended, be rereferred to the Committee on Ways and Means.

ROLL CALL

The Secretary called the roll and the motion failed by the following vote: Yeas, 19; nays, 30.

Voting nay: Senators Bauer, Benitz, Bluechel, Clarke, Conner, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Jones,
Further debate ensued.

MOTION

Senator Rasmussen moved that Substitute Senate Bill No. 4115, as amended, be held for consideration on February 4, 1982. Debate ensued. The motion by Senator Rasmussen failed. The President declared the question before the Senate to be the roll call on final passage of Engrossed Substitute Senate Bill No. 4115.

SENATE BILL NO. 4544, permitting the department of licensing to supply lists of vehicle owners for certain purposes (reported by Committee on Transportation):

MAJORITY recommendation: Do pass with the following amendment:

On page 1, line 24, before "vehicles" insert "specific"

Signed by: Senators von Reichbauer, Chairman; Patterson, Vice Chairman; Sellar, Vice Chairman; Benitz, Charnley, Guess, Hansen, Kiskaddon, Metcalf, Peterson, Talley.

On motion of Senator von Reichbauer, the rules were suspended, Engrossed Senate Bill No. 4544 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Talmadge: "Senator von Reichbauer, I wanted to get it nailed down explicitly in the record, is it intended that the list maintained by the department of licensing or by the department of motor vehicles' be distributed to any commercial enterprise for purposes of commercial solicitation of any kind?"

Senator von Reichbauer: "Senator Talmadge, that is not the intention of the bill."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 4544 and the bill passed the Senate by the following vote: Yeas, 47; nays, 1; absent or not voting, 1.

Absent or not voting: Senator Bottiger—1.

ENGROSSED SENATE BILL NO. 4544, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Clarke, Senate Bill No. 4133 will be considered following Senate Bill No. 3328.

SECOND READING

SENATE BILL NO. 3328, by Senators Fleming, Jones, Bottiger, Hayner, Talley, Peterson, Sellar, Shinpoch and Clarke:

Creating the legislative facilities committee to provide legislative control over legislative buildings.

MOTIONS

On motion of Senator Fleming, Substitute Senate Bill No. 3328 was substituted for Senate Bill No. 3328 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Fleming, the rules were suspended, Substitute Senate Bill No. 3328 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Quigg: "Senator Fleming, we have over 200,000 people out of work in this state, and we have a lot of concern about that situation getting reversed. I just wondered if you might review for us the jobs impact we have here. I notice there is no fiscal note available. Is this going to cost the taxpayers any money? Those poor
folks who are already burdened up to the eyeballs? What benefit is there to be gained by passing a bill that is concerned about space when we are concerned about jobs?"

Senator Fleming: "Twofold, Senator, I am glad you asked. It will have a lot more to do than the bill you just voted through a few minutes ago.

"But let us look at it this way. I am a representative of the people. I am a representative of the people, and I think the people of this state would be very much more concerned about my overseeing or watching the purse string as it relates to this building. If you would check, and I can give you the information where it is, one of the things that brought this about was that we are spending more of the taxpayers' money for the space that we occupy than we should. And I think that, in itself, would be tax saving; I think that, in itself, is something that you, Senator, and other members on this floor, should be concerned about. Why should we be paying more than we are supposed to be paying? And that has been indicated up to now, so I think this is sort of a little savings and I think it will help our economy, at least in this legislative building."

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 3328 and the bill passed the Senate by the following vote: Yeas, 48; absent or not voting, 1.

Absent or not voting: Senator Bluechel—1.

SUBSTITUTE SENATE BILL NO. 3328, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

On page 1, line 16, strike "1981" and insert "1982"
On page 1, line 25, strike "1981" and insert "1982"

(2) Compensation for amputation of a member or part thereof at a site other than those above specified, and for loss of central visual acuity and loss of hearing other than complete, shall be in proportion to that which such other amputation or partial loss of visual acuity or hearing most closely resembles and approximates. Compensation for any other permanent partial disability not involving amputation shall be in the proportion which the extent of such other disability, called unspecified disability, shall bear to that above specified, which most closely resembles and approximates in degree of disability such other disability, compensation for any other unspecified permanent partial disability shall be in an amount as measured and compared to total bodily impairment: PROVIDED, That in order to reduce litigation and establish more certainty and uniformity in the rating of unspecified permanent partial disabilities, the department shall enact rules having the force of law classifying such disabilities in the proportion which the department shall determine such disabilities reasonably bear to total bodily impairment. In enacting such rules, the department shall give consideration to, but need not necessarily adopt, any nationally recognized medical standards or guides for determining various bodily impairments. For purposes of calculating monetary benefits, the amount payable for total bodily impairment shall be deemed to be sixty thousand dollars: PROVIDED, That compensation for unspecified permanent partial disabilities involving injuries to the back that do not have marked objective clinical findings to substantiate the disability shall be determined at an amount equal to seventy-five percent of the monetary value of such disability as related to total bodily impairment: PROVIDED FURTHER, That the total compensation for all unspecified permanent partial disabilities resulting from the same injury shall not exceed the sum of sixty thousand dollars, except that the total compensation for all unspecified permanent partial disabilities involving injuries to the back that do not have marked objective clinical findings to substantiate the disability and resulting from the same injury shall not exceed the sum of forty-five thousand dollars: PROVIDED FURTHER, That in case permanent partial disability compensation is followed by permanent total disability compensation, any portion of the permanent partial disability compensation which exceeds the amount that would have been paid the injured worker if permanent total disability compensation had been paid in the first instance, shall be deducted from the pension reserve of such injured worker and his or her monthly compensation payments shall be reduced accordingly.

(3) Should a worker receive an injury to a member or part of his or her body already, from whatever cause, permanently partially disabled, resulting in the amputation thereof or in an aggravation or increase in such permanent partial disability but not resulting in the permanent total disability of such worker, his or her compensation for such partial disability shall be adjudged with regard to the previous disability of the injured member or part and the degree or extent of the aggravation or increase of disability thereof.

(4) When the compensation provided for in subsections (1) and (2) exceeds three times the average monthly wage in the state as computed under the provisions of RCW 51.08.018, payment shall be made in monthly payments in accordance with the schedule of temporary total disability payments set forth in RCW 51.32.090 until such compensation is paid to the injured worker in full, except that the first monthly payment shall be in an amount equal to three times the average monthly wage in the state as computed under the provisions of RCW 51.08.018, and interest shall be paid at the rate of six percent on the unpaid balance of such compensation commencing with the second monthly payment: PROVIDED, That upon application of the injured worker or survivor the monthly payment may be converted, in whole or in part, into a lump sum payment, in which event the monthly payment shall
cease in whole or in part. Such conversion may be made only upon written application of the injured worker or survivor to the department and shall rest in the discretion of the department depending upon the merits of each individual application: PROVIDED FURTHER, That upon death of a worker all unpaid installments accrued (less interest) shall be paid (in a lump sum amount) according to the payment schedule established prior to the death of the worker to the widow or widower, or if there is no widow or widower surviving, to the dependent children of such claimant, and if there are no such dependent children, then to such other dependents as defined by this title.

Renumber the sections consecutively.

POINT OF INQUIRY

Senator Pullen: "Senator Woody, I am certainly not unsympathetic to the intent of this amendment but I just wanted to clarify one point. Some widows may want to receive a lump sum and for their particular situation, that would be a desirable thing to receive.

"Now, what I want to know, is under what circumstances under the terms of your amendment, it would go as a lump sum and under what circumstances as a monthly payment? Is it solely the choice of the provider or . . . ?"

Senator Woody: "I can answer that, Senator Pullen. On page 10, line 29, the change is made to include survivor in the provision which currently allows an injured worker to apply to the department for a lump sum payment, so a widow would have that same right to apply for a lump sum. This would simply stipulate that the payment would continue on a monthly schedule unless there is an application for lump sum."

Senator Vognild moved adoption of the following amendment to the amendment by Senators Woody and Quigg:

On page 10, line 25, strike "six" and insert "((six)) eight".

POINT OF INQUIRY

Senator Scott: "I believe the difference between six and eight would be coming out of the general fund, (a) do we have a fiscal note? (b) I would remind the members that people who are taking payments on a monthly basis have that option as opposed to getting lump sums. Do we have a fiscal note?"

Senator Vognild: "No; if we had a fiscal note on this, in my opinion, it would be one of those fiscal notes saying 'How much did we, we are losing this much' when in reality it should have shown us how much we were really gaining on the whole thing. We are gaining money when we hold it at investment at a higher rate than we later return to the people. We can make that kind of fiscal note up, I am sure, Senator, as you know. But I believe if the money was taken out to start with, how much would we lose? What we would lose is the profit we otherwise are making when we invest it at a higher interest rate, then we turn around and pay back to the people.

"I do not have a fiscal note. In my opinion the fiscal note would not be a factual note if we had it."

Senator Scott: "By the same logic then, the 12% lid should raised?"

Senator Vognild: "No, sir; by the same logic, the 12% lid should be 8%.

MOTION

Senator McDermott moved that Senate Bill No. 4133, as amended, and the pending amendment by Senators Woody and Quigg and the amendment to the amendment by Senator Vognild be held down two measures.

Senator Metcalf: "No, Senator, I do not believe it does."

Senator Vognild: " . . . it does not require that the . . . ."

Senator Metcalf: "No, that it is not constitutional; the only requirements are guidelines relative to splitting racial minorities. But there are no constitutional, in fact, the court once ruled that, essentially gerrymandering, drawing districts for political purposes, redistricting is a political process and that is, will pass court guidelines. It is not the kind of thing that I can, we would like but the court has said that."

Senator Vognild: "Senator, I made a mistake. I understand it is the court direction that has laid down criteria, one of which is the community of interest; and I wanted to ask you, if, in your opinion, leaving, putting Everett in the first district, removing it from the second, would be of community, the proper community interest for the city of Everett?"

Senator Metcalf: "Well, the community interest of Everett is with the second congressional district . . . there is no court guideline in anything I am aware of, and we have studied this deeply. Community of interest is not a court concept."

MOTIONS

On motion of Senator Clarke, the Senate returned to the sixth order of business.

On motion of Senator Clarke, the Senate resumed consideration of Substitute House Bill No. 787.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 787, by House Committee on Select Committee on Redistricting (originally sponsored by Representatives Eberle, Sanders and Prince):

Providing for congressional redistricting and reapportionment and establishing a redistricting commission.

The Senate resumed consideration of Substitute House Bill No. 787 on second reading. On February 4, 1982, amendments proposed by Senators Vognild, Gould, Woody and Charnley were not adopted on a roll call vote. Senator Moore gave notice of reconsideration on those amendments. On motion of Senator Clarke, the Senate moved to immediately reconsider the vote by which the amendments were not adopted. An amendment by Senators Haley and Craswell was pending at the time of adjournment on that day.

The President declared the question before the Senate to be the motion by Senator Moore that the Senate reconsider the vote by which the amendments by Senators Vognild, Gould, Woody and Charnley were not adopted on February 4, 1982.

POINT OF ORDER

Senator Talmadge: "Mr. President, I would raise the point of order, under Article II, Sec. 30 of the State Constitution, it states '... A member who has a private interest in any bill or measure proposed or pending before the legislature, shall disclose the fact to the house of which he is a member, and shall not vote thereon.'

'Similarly, Rule 21 of the Senate provides 'No senator shall be allowed to vote . . . upon any way question upon which he or she is in any personally or directly interested. . . .'"

'Mr. President, there have been at least eleven members of the legislature, I would suggest Senator Quigg, Senator Bluechel, Senator Hemstad, Representative Chandler, Representative Hastings, Representative Houchen, Representative Taylor, Senator Craswell, Representative Eberle, Senator von Reichbauer, and Senator Haley who have indicated at one point or another, an interest in running for Congressional seat. And in particular Senator Quigg and Representative Eberle have, in fact, filed committees to run for Congress.

'Now, Senator Haley out here on the floor of the Senate yesterday, disclosed to the members of the Senate his personal interest in the issue of Congressional redistricting because he is, in fact, going to be a candidate for Congress.

'I would submit that under Article II, sec. 30 of the state Constitution, the next step is for those members who have indicated an intent to run for Congress, or those members who have in fact filed a Congressional election committee, that they would be disqualified from voting on this issue."
REMARKS BY SENATOR CRASWELL

Senator Craswell: "Thank you, Mr. President. For the record I would like to make a correction to the statement that was just made. I have never, ever indicated an interest in running for the United States Congress. Thank you."

REMARKS BY SENATOR CLARKE

Senator Clarke: "Mr. President, I would merely remark that if the point raised by Senator Talmadge should be sustained, the legislature could never vote on a legislative redistricting bill."

REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "Speaking in support of the point raised by Senator Talmadge, the individuals that have filed their declaration to raise sixty to eighty thousand dollars worth of money, or sixty to eighty thousand dollars in campaign contributions, they have absolutely declared their interest. And I think it's a valid point that Senator Talmadge has raised. Now in the case of Senator Craswell, she said 'No' but I know in the case of Senator Haley, he has made no secret of it that he has some thousands of dollars and an office set-up for Congress, and of course it is a great place to advertise, for when you advertise that you are running for Congress, you should also take it upon yourself the duty of obeying the Constitution and declare yourself out of the voting. I would agree with Senator Talmadge."

At 10:38 a.m., there being no objection, the Senate was declared to be at ease.

The President called the Senate to order at 10:49 a.m.

RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the point of order presented by Senator Talmadge, the President believes that Rule 21 applies to each Senator equally. The redistricting measure joins with such legislation as general tax measures and legislative pay raises, and thus is not an interest private to an individual Senator. The point is not well taken."

Debate ensued.

Senator Bottiger demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the motion by Senator Moore that the Senate reconsider the vote by which the amendments by Senators Vognild, Gould, Woody and Charnley were not adopted on February 4, 1982.

MOTIONS

Senators Clarke, Gould and Benitz demanded a Call of the Senate.
Senator Clarke moved the Senate be at ease for purpose of a caucus.
Senator Rasmussen objected.
Senator Bottiger moved the rules be suspended and Senator Hughes be excused.
POINT OF INQUIRY

Senator Newhouse: "Senator Bottiger, can you tell us where Senator Hughes is?"

Senator Bottiger: "Senator Hughes is in Spokane. I told your leadership that he was there for personal business, and to make a speech."

Senator Newhouse: "Has he been excused . . . "

Senator Bottiger: "No, unfortunately . . . "

Senator Newhouse: "Did he take himself off of per diem?"

Senator Bottiger: "Unfortunately, the motion was not, we did not have an opportunity to ask to excuse him."

Senator Newhouse: "Some of the rest of us have personal business too, you know."

Senator Bottiger: "I am sure we do; we have all missed a day or two at one time or another. I have."

Senator Newhouse: "I would like to ask Senator Bottiger a further question. When you made some remarks about someone 'taking a walk' yesterday, is this what you had reference to?"

Senator Bottiger: "It was not the same individual at that time, but . . . "

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Mr. President, for the edification of the body, Senator Hughes' wife is more than nine months pregnant. I think that constitutes 'personal business.'"

PERSONAL PRIVILEGE

Senator Fleming: "Mr. President, speaking on a point of personal privilege, I think it is personal to me as well as anyone else, that, if some personal reason, illness in the family or what have you, that the Senate do accord the courtesy of accepting the excuse of that person being absent. We have done it this session because there has been illness in other people's families because of a death or what have you. And we would hope that the majority would go along with that."

The motion by Senator Bottiger carried and Senator Hughes was excused on a voice vote.

MOTION

On motion of Senator Clarke, the Senate dispensed with the Call of the Senate. There being no objection, on motion of Senator Haley, the amendments by Senators Haley and Craswell that had been moved for adoption on February 4, 1982, were withdrawn.

Senator Woody moved adoption of the following amendment:

Beginning on page 11, after line 12 strike all the material down to and including "RCW." on page 21, line 15 and insert the following:

"NEW SECTION. Sec. 18. This act may be cited as the 1982 Reapportionment and Redistricting Act.

NEW SECTION. Sec. 19. The definitions set forth in this section apply throughout this chapter, unless the context requires otherwise.

(1) "Chief election officer" means the secretary of state.

(2) "Federal census" means the decennial census required by federal law to be prepared by the United States bureau of the census in each year ending in zero.

(3) "Lobbyist" means an individual required to register with the Washington public disclosure commission pursuant to RCW 42.17.150.

(4) "Plan" means a plan for legislative redistricting.
NEW SECTION. Sec. 20. After each decennial census made by authority of the United States after the effective date of this act, and thereafter in July of each year ending in one, a legislative redistricting commission shall be established to assist the legislature in accomplishing state legislative redistricting. The five-member commission shall be appointed as follows:

1. Each leader of the two largest political parties in each house of the legislature shall appoint one member to the commission by July 1st of each year ending in one. If there are more than two political parties in a house, then the leader of the second largest party has no power of appointment, and the members of the political parties, excluding the party with the largest share of legislators, shall elect a legislator who shall appoint a member of the commission.

2. The four legislators appointing commission members pursuant to this section shall certify their appointments to the chief election officer. If an appointing legislator does not certify an appointment by July 1st of each year ending in one, the appointing legislator of the same party in the other house shall certify a second appointment to the chief election officer within ten days.

3. Within thirty days of their appointment and no later than July 31st of the year of their selection, the four appointed members, by an affirmative vote of at least three, shall appoint and certify to the chief election officer the fifth member who shall be a nonvoting member of the commission and act as its chairman. A vacancy on the commission shall be filled by the person who made the initial appointment, or their successor, within fifteen days after the vacancy occurs.

NEW SECTION. Sec. 21. No person may be appointed to the commission who:

1. Is not a registered voter of the state at the time of selection; or
2. Is or has within one year prior to selection been a registered lobbyist.

NEW SECTION. Sec. 22. No member of the commission may:

1. Hold or campaign for public or political party office while a member of the commission;
2. Actively participate in or contribute to any political campaign of any candidate for state or federal elective office while a member of the commission; or
3. Hold or campaign for a seat in the state house of representatives or the state senate, for two years after the effective date of the plan.

NEW SECTION. Sec. 23. (1) The commission shall prepare a plan dividing the state into legislative districts.

2. The commission may employ the services of experts, consultants, and support staff, including attorneys not employed by the attorney general, as necessary to carry out its duties pursuant to this chapter. The chief election officer, the treasurer, and the attorney general shall make available to the commission such personnel, facilities, and other assistance as the commission may reasonably request.

3. The commission, upon written request by a witness and subject to rules promulgated by the commission, may reimburse witnesses for their necessary expenses incurred in appearing before the commission.

4. The legislature shall appropriate funds to enable the commission to carry out its duties. Members shall receive one hundred dollars of compensation for each day spent in the performance of their duties and reimbursement for actual and necessary expenses. Employee's compensation and reimbursement for actual and necessary expenses shall be determined by the commission.

NEW SECTION. Sec. 24. In addition to other duties prescribed by law, the commission shall:

1. Adopt rules pursuant to the Administrative Procedure Act, chapter 34.04 RCW, to carry out the provisions of Article II, section 3 of the state Constitution
and of this chapter, which rules shall provide that three voting members of the com-
mission constitute a quorum to do business, and that the votes of three of the four
voting members are required for any official action of the commission;

(2) The commission shall act as the legislature’s recipient of redistricting data
and maps from the United States Bureau of the Census. Upon receipt of the data
and maps, the commission shall promptly provide copies to the secretary of the sen-
ate and chief clerk of the house of representatives.

(3) Preserve all information filed with and developed by the commission pursuant
to public records statutes, chapter 42.17 RCW;

(4) Hold open meetings pursuant to the Open Public Meetings Act, chapter
42.30 RCW;

(5) Prepare and maintain minutes pursuant to RCW 42.32.030;

(6) Prepare and publish a report with the plan; the report will be made avail-
able to the public at the time the plan is published. The report will include but will
not be limited to: (a) The population and percentage deviation from the average
district population for every district; (b) an explanation of the criteria used in devel-
oping the plan with a justification of any deviation in a district from the average
district population; (c) a map of all the districts; and (d) the cost incurred by the
counties for adjusting precinct boundaries.

NEW SECTION. Sec. 25. In the plan:

(1) Districts shall have a population as nearly equal as is practicable, excluding
nonresident military personnel, based on the population reported in the federal
decennial census.

(2) To the extent consistent with other criteria of this section, district lines shall
be drawn so as to coincide with the boundaries of local political subdivisions. The
number of counties and municipalities divided among more than one district shall be
as small as possible.

(3) Districts shall be composed of convenient, contiguous, and compact terri-
tory. Land areas are deemed contiguous if they share a common land border or are
connected by a highway, bridge, or tunnel. Areas separated by unbridged water are
deemed contiguous to the nearest land area only where necessary to comply with the
other criteria enumerated in the Constitution and this section. Areas which only
share common borders at the points of adjoining corners may not be deemed contig-
uous. Areas separated by geographical boundaries or artificial barriers that prevent
transportation within a district may not be deemed contiguous.

(4) No district may be drawn for the purpose of diluting the voting strength of
any language or racial minority group.

(5) The commission shall provide, whenever practicable, that a precinct shall be
wholly within a single legislative district.

The commission shall exercise its powers to provide fair and effective represen-
tation and to encourage electoral competition.

NEW SECTION. Sec. 26. (1) Upon approval of a redistricting plan by three
of the four voting members of the commission, and not later than December 1st of
the year ending in one, the commission shall submit the plan to the legislature.

(2) After submission of the plan by the commission, the legislature shall have
the next thirty days during any regular or special session to amend the commission’s
plan. If the legislature amends the commission’s plan the legislature’s amendment
must be approved by an affirmative vote in each house of two-thirds of the members
elected or appointed thereto, and may not affect more than five percent of the popu-
lation of any legislative district contained in the commission’s plan.

(3) The plan approved by the commission, with any amendment approved by
the legislature, shall be final upon approval of such amendment or after expiration of
the time provided for legislative amendment by subsection (2) of this section whichever occurs first, and shall constitute the districting and apportionment law applicable to this state for legislative elections, beginning with the next elections held in an even-numbered year. This plan shall be in force until the effective date of the plan based upon the next succeeding federal decennial census.

(4) If three of the four voting members of the commission fail to approve and submit a plan within the time limitations provided in subsection (2) of this section, the supreme court shall adopt a plan by January 1st of the year ending in two. The supreme court shall direct the commission to immediately approve and submit this plan to the legislature for amendment in accordance with subsections (2) and (3) of this section.

NEW SECTION. Sec. 27. (1) Following the period provided by section 26(1) of this act for the commission's adoption of a plan, the commission shall take all necessary steps to conclude its business and cease operations. The commission shall prepare a financial statement disclosing all expenditures made by the commission. The official record shall contain all relevant information developed by the commission pursuant to carrying out its duties under this chapter, data collected, minutes of meetings, written communications, and other information of a similar nature. The commission shall provide for the permanent preservation of this official record. Once the commission ceases to exist any budget surplus shall revert to the state general fund.

(2) The commission shall cease to exist ninety days after the date established by section 26 of this act for submission of a plan unless the legislature extends the commission's term by law.

NEW SECTION. Sec. 28. After the plan takes effect as provided in section 26 of this act, any registered voter may file a petition with the supreme court challenging the plan. The court may consolidate any or all petitions and shall give all such petitions precedence over all other matters.

NEW SECTION. Sec. 29. Sections 18 through 28 of this act shall constitute a new chapter in Title 44 RCW."

Renumber the remaining sections consecutively and correct any internal references accordingly.

"(1) In the plan the districts shall be:
(a) Contiguous;
(b) Geographically compact and convenient, as nearly as practicable;
(c) Drawn so as to use existing natural or artificial boundaries whenever possible;
(d) Of equal population, excluding nonresident military personnel and their dependents, as nearly as practicable.

(2) In order to minimize electoral confusion and to facilitate communication within state legislative and congressional districts, the commission shall provide, whenever practicable, that:
(a) A precinct shall be wholly included within a single state representative district;
(b) A state representative district shall be wholly included within a single state senate district; and
(c) A state senate district shall be wholly included within a single congressional district.

(3) The commission shall exercise its powers to provide fair and effective representation and to encourage electoral competition."
POINT OF ORDER

Senator Clarke: "If I understood the Senator correctly, this brings in the question of legislative redistricting and I raise the point of order that it is beyond the scope and object because this is a Congressional redistricting bill; and if I understood the Senator correctly, he would involve the commission in legislative redistricting."

REMARKS BY SENATOR McDERMOTT

Senator McDermott: "I would point out to Senator Clarke that on page 15, it says 'The commission shall adopt state legislative and Congressional plans in accordance with rulemaking procedures, chapter 34.04.' So it does not expand the scope and object of this bill; this is a commission designed to do both legislative and Congressional redistricting."

There being no objection, at 11:21 a.m., the Senate was declared to be at ease.

The President called the Senate to order at 11:25 a.m.

There being no objection, on motion of Senator Clarke, the Point of Order was withdrawn.

**PARLIAMENTARY INQUIRY**

Senator Bottiger: "Mr. President, I raise the point of parliamentary inquiry and I do not want to be accused of delaying the Senate or doing it later, but there is a bill on the calendar, Senate Bill 4469 pertaining to interstate highway construction. And we have had a dispute as to whether it takes a majority vote or a 60% vote to vote for this bond issue. So I would submit to the President a memorandum on that, on the question that I have received and be able to give the President time at his convenience to consider that."

For purposes of calculating monetary benefits, the amount payable for total bodily impairment shall be deemed to be sixty thousand dollars: PROVIDED, That compensation for unspecified permanent partial disabilities involving injuries to the back that do not have marked objective clinical findings to substantiate the disability shall be determined at an amount equal to seventy-five percent of the monetary value of such disability as related to total bodily impairment: PROVIDED FURTHER, That the total compensation for all unspecified permanent partial disabilities resulting from the same injury shall not exceed the sum of sixty thousand dollars, except that the total compensation for all unspecified permanent partial disabilities involving injuries to the back that do not have marked objective clinical findings to substantiate the disability and resulting from the same injury shall not exceed the sum of forty-five thousand dollars: PROVIDED FURTHER, That in case permanent partial disability compensation is followed by permanent total disability compensation, any portion of the permanent partial disability compensation which exceeds the amount that would have been paid the injured worker if permanent total disability compensation had been paid in the first instance, shall be deducted from the pension reserve of such injured worker and his or her monthly compensation payments shall be reduced accordingly.

(3) Should a worker receive an injury to a member or part of his or her body already, from whatever cause, permanently partially disabled, resulting in the amputation thereof or in an aggravation or increase in such permanent partial disability but not resulting in the permanent total disability of such worker, his or her compensation for such partial disability shall be adjudged with regard to the previous disability of the injured member or part and the degree or extent of the aggravation or increase of disability thereof.

(4) When the compensation provided for in subsections (1) and (2) exceeds three times the average monthly wage in the state as computed under the provisions of RCW 51.08.018, payment shall be made in monthly payments in accordance with the schedule of temporary total disability payments set forth in RCW 51.32.090 until such compensation is paid to the injured worker in full, except that the first monthly payment shall be in an amount equal to three times the average monthly wage in the state as computed under the provisions of RCW 51.08.018, and interest shall be paid at the rate of six percent on the unpaid balance of such compensation commencing with the second monthly payment: PROVIDED, That upon application of the injured worker or survivor the monthly payment may be converted, in whole or in part, into a lump sum payment, in which event the monthly payment shall cease in whole or in part. Such conversion may be made only upon written application of the injured worker or survivor to the department and shall rest in the discretion of the department depending upon the merits of each individual application: PROVIDED FURTHER, That upon death of a worker all unpaid installments accrued((, less interest,)) shall be paid ((in a lump sum amount)) according to the payment schedule established prior to the death of the worker to the widow or widower, or if there is no widow or widower surviving, to the dependent children of such claimant, and if there are no such dependent children, then to such other dependents as defined by this title."

SECOND READING

SENATE BILL NO. 4477, by Senators Fuller and Zimmerman:
Modifying provisions relating to volunteer work on state park lands.

REPORT OF STANDING COMMITTEE

SENATE BILL NO. 4477, modifying provisions relating to volunteer work on state park lands (reported by Committee on Parks and Ecology):

MAJORITY recommendation: Do pass with the following amendment:

On page 2, line 7, after "good" strike "repute" and insert "((repute)) standing"

Signed by: Senators Fuller, Chairman; Bluechel, Guess, Haley, Hansen, Quigg, Zimmerman.

The bill was read the second time by sections.

On motion of Senator Fuller, the committee amendment was adopted.

Senator Hurley moved adoption of the following amendment:

On page 1, line 14, after "improve" strike "((; without expense to the state;))' and insert "; without substantial expense to the state;"

Debate ensued.

The motion by Senator Hurley failed and the amendment was not adopted.

Senator Goltz moved adoption of the following amendment:

On page 1, line 17, after "chapter." insert "These improvements shall not interfere with access to or use of such public lands by the general public and shall be a benefit to all members of the general public."
POINT OF INQUIRY

Senator Fuller: "Senator Goltz, as you interpret this proposed amendment, do you see 'general public' to mean that this would have to be usable by the entire general public, toddlers, elderly people, handicapped people or what is the meaning of this?"

Senator Goltz: "It would have to be available to the general public all on the same basis, that is to say you could not exclude from use, all of the public except those that had a membership let us say, in a bridle club or a boating club or something of this kind. It is designed to mean that all of the public could use it and when you put toddlers and seniors all in the same group, if toddlers of one group can use it, toddlers of another group can use it."

Senator Fuller: "Thank you, Senator Goltz. With that explanation, I have no opposition to this amendment."

Senator Bluechel moved adoption of the following amendment to the amendment by Senator Goltz:

On the third line of the amendment, strike "a benefit" and insert "available"

POINT OF INQUIRY

Senator Guess: "Senator Goltz, in the case of a park that is adjacent to Spokane, the Explorer Scouts built a hut out there for their weekend activities and it was adjacent to the range that the federal government maintained for survival."

"As I see this, this would prohibit the state permitting the Explorer group to build their hut on the state property."

Senator Goltz: "If I understand the question correctly, if they built a hut that is available for survival, they certainly wouldn't turn non boy scouts away if they need the benefit of the hut. So I am assuming that it is available to all members under this language."

Senator Guess: "Senator Goltz, since they stored their equipment there, it was not open for all groups and if you say that it shall be available to the general public, then you defeat the purpose of the troup to keep their equipment out there and not have to bring it out on trucks every time they came out for an exercise."

Senator Goltz: "I guess under this language that kind of thing probably would be prohibited."

Debate ensued.

POINT OF INQUIRY

Senator Wilson: "Senator Goltz, my question is whether the phrase 'such public land' is intended to also relate to water that is adjacent to a state park?"

Senator Goltz: "Yes, it . . . ."

Senator Wilson: " . . . and if that is the intention, do you feel that that needs to be clarified in the wording of the amendment?"

Senator Goltz: "I don't feel that it needs to be clarified because it really refers here to structures and I suppose that any structure that would be built, would be built on public land even though it would be called 'tideland.' Those are not built on the water, they are really built on tidelands and that is public land."

"The only thing this refers to is the building of structures or improvements upon public land, and I know of no situation where you could build on anything but land."

Senator Wilson: "You do not feel then, that, for example, the construction of docks might get involved in this situation and that they might be designed primarily to serve a particular special interest group to the detriment of the general public?"
Senator Goltz: "I think a dock might very well be the subject of such a pro­gram but it would be built on land, not on water. It would be built over the water on public tideland."

Further debate ensued.

The motion by Senator Bluechel carried and the amendment to the amendment by Senator Goltz was adopted on a rising vote.

The President declared the question before the Senate to be the amendment by Senator Goltz as amended by Senator Bluechel.

Debate ensued.

POINT OF INQUIRY

Senator Haley: "Senator Fuller, is it the intent of the legislature to deny to the general public, significant portions of state parks?"

Senator Fuller: "Senator Haley, it certainly is not the legislative intent to accomplish such a thing at all. I think Senator Zimmerman very well expressed the purpose of the bill, is to bring up—to-date an archaic statute that has not been substantially changed since 1929, and in this age, when I know the Governor and the Governor's wife are both promoting volunteerism, we are trying to assist that effort, make as much use as possible of it. We have no intention of giving special privileges to special groups or giving away access to any public land in the name of 'volunteerism'—quite the contrary."

Further debate ensued.

Senator Ridder demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Goltz as amended by Senator Bluechel.

ROLL CALL

The Secretary called the roll and the amendment, as amended, was adopted by the following vote: Yeas, 24; nays, 23; absent or not voting, 1; excused, 1.

Voting nay: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hansen, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Quigg, Sellar, Zimmerman—23.

Absent or not voting: Senator von Reichbauer—1.

Excused: Senator Hughes—1.

Senator Goltz moved adopted of the following amendment:

On page 1, line 17, after "chapter." insert "Prior to granting such a permit, the commission shall conduct at least one public hearing for the purpose of soliciting public testimony and comments on a proposed improvement: PROVIDED, That no additional public hearing shall be required for minor nonconstruction improvements or any construction project which requires a public hearing during the applicable government permit process."

Debate ensued.

MOTION

At 12:25 p.m., Senator Clarke moved the Senate adjourn.

PARLIAMENTARY INQUIRY

Senator Fleming: "Point of order, Mr. President. Recognizing that the motion to adjourn is nondebatable and that it is of higher rank, when we come into session on Monday, will we have to go back to the eighth order of business to the motion that was before the body before we adjourned would be considered? And if, in fact, we do, whenever we go to the eighth order of business, will that motion be before us?"

REPLY BY THE PRESIDENT

President Cherberg: "The motion is pending, Senator, upon the eighth order of business.
The motion by Senator Clarke carried and at 12:30 p.m., the Senate adjourned until Monday, February 8, 1982.

SENATE BILL NO. 4464, by Senators Gallaghan, Peterson, Sellar and Conner (by Department of Fisheries request):
Modifying provisions relating to crab fishing.
REPORT OF STANDING COMMITTEE

January 20, 1982.

SENATE BILL NO. 4464, modifying provisions relating to crab fishing (reported by Committee on Natural Resources):

MAJORITY recommendation: Do pass with the following amendment:

On page 2, line 33, after "unchanged." insert "Upon request of a vessel owner, the director may issue a temporary permit to allow the vessel owner to use the license endorsement on a leased or rented vessel."

Signed by: Senators Gallaghan, Chairman; Patterson, Peterson, Vognild, von Reichbauer, Zimmerman.

The bill was read the second time by sections.
On motion of Senator Gallaghan, the committee amendment was adopted.
On motion of Senator Gallaghan, the rules were suspended, Engrossed Senate Bill No. 4464 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Gallaghan, this is a conservation measure, I take it?"

Senator Gallaghan: "It is that."

Senator Rasmussen: "It is meant to be a conservation measure?"

Senator Gallaghan: "It is that."

Senator Rasmussen: "So you are going to require every crab fisherman to take at least a thousand pounds?"

Senator Gallaghan: "No, in order to retain it..."

Senator Rasmussen: ". . . in order to retain his license, that is the kind of conserving I like. Does this also, Senator Gallaghan, only allow the transfer of license in the family from a father to the son?"

Senator Gallaghan: "That is correct."

Senator Rasmussen: "So that nobody other than those families that now have a license would ever have a chance of getting a license?"

Senator Gallaghan: "That is not true."

Senator Rasmussen: "Well, if you only allow the transfer within the families"

Senator Gallaghan: "When it goes below the 200 mark, the director would be allowed to issue more licenses to keep it within the 200 vessels that were allowed to fish in that fishery."

Senator Rasmussen: "So it is like the old feudal system, handed down from family to family, no outsiders can get in."

Senator Gallaghan: "That is not true."

Senator Rasmussen: "Thank you, Senator Gallaghan."

Debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator Gallaghan, in the event we are not able to reduce the number of licenses to 200, what happens then? Either 215 licensees out there by virtue of the landing requirement, they all land 1000 pounds of crab."

Senator Gallaghan: "I rather doubt that that will occur; you know, if; the department is determined that in order to have a sustained yield on that fishery without any enhancement or any interference, it would take a reduction. This is the figure they have arrived at, the 1000 pounds, would probably, more than likely, not occur in that many, more than 200 licenses."

Senator Talmadge: "Thank you."
Further debate ensued.

POINT OF INQUIRY

Senator Charnley: "Senator Gallagher, you have heard the discussion here and the alternative proposed by Senator Talmadge. My concern is, if we had unlimited licenses but limited days, it would not be economical, say 300, 400 people who wanted to fish or wanted to crab rather, that it would prove to be uneconomical for anybody to crab. And I am wondering if that might not be the reason why, going this route, either way is going to be punitive, either way is going to have some effect on the industry, but this route at least guarantees that those that will be crabbing will be able to make a living doing it. Could you respond to this?"

Senator Gallagher: "I am still trying to catch up with what your question is, Senator."

Senator Charnley: "The question was: if we went the route Senator Talmadge suggested, would that not result in just nobody being able to make a living crabbing, and we wouldn't have people crabbing?"

Senator Gallagher: "If they cannot catch 1000 pounds, they ought not to be in there. A lot of speculation exists too, as you well know, in other fisheries where you have an overcapitalization of boats or licenses; and I can just foresee other little problems along the line.

"This was requested and worked out by the fishermen themselves in order to protect that fishery. If the method of reducing the number to sustain the yield of that resource and protect that resource from overcapitalization, where everyone is only catching five or six crab, it would be worthless to anyone then. If that were the case, then there would be no licenses."

Senator Charnley: "Thank you, Senator Gallagher."

Further debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 4464, and the bill passed the Senate by the following vote: Yeas, 31; nays 18.

SECOND READING

SENATE BILL NO. 4510, by Senators Quigg, Talley, Guess, Zimmerman, Fuller and Sellar:
Providing for recovery operations from Mt. St. Helens eruption.

MOTIONS

On motion of Senator Quigg, Substitute Senate Bill No. 4510 was substituted for Senate Bill No. 4510 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Quigg, the rules were suspended, Substitute Senate Bill No. 4510 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Quigg, does this bill contain the $1,000,000 appropriation?"
Senator Quigg: "This bill contains the $1,000,000".
Senator Rasmussen: "I notice the department of transportation is going to purchase the land?"
Senator Quigg: "That is correct."
Senator Rasmussen: "And is this money coming out of the gas tax funds, or where is the money coming from?"
Senator Quigg: "Money is coming from the general fund, Senator."
Senator Rasmussen: "From the general fund for the department of transportation?"
Senator Quigg: "That is correct."
Senator Rasmussen: "You have any idea how many acres they are proposing to buy for $1,000,000?"
Senator Quigg: "The acreage is presently not determined because the Corps of Engineers is doing a survey of the area to determine which acreage is best suited and how much acreage would be required."
Senator Rasmussen: "Then, do you have any idea how much of that land already belongs to the department of natural resources?"
Senator Quigg: "In the area that is being studied, Senator, the very small part is owned by the department of natural resources."
Senator Rasmussen: "Once the land has been purchased by the department of transportation, who will hold title and what will they do with the land after it has been used for fill?"
Senator Quigg: "The disposition of that land after it has been filled, will be left to the legislature to decide, the way the bill is written. That is why we have a committee reporting back here on a regular basis. The question of whether or not it would be better for recreational land or for a light commercial industrial site, are the two that have been put forth at this stage. It appears as though the property most suited for the spoils' disposal site is that property southeast of the intersection of the Interstate 5 freeway and the Toutle river. And that is the southeast quad and it is an area, of course, that is served by the old 99 highway and probably could have both recreational as well as some commercial/residential use."
Senator Rasmussen: "No intention of constructing roads on top of the dike?"
Senator Quigg: "On this site, Senator Rasmussen, if you can picture that area, there really isn't a suitable road connection to be made through that area. The freeway serves that part of the Cowlitz county area about as well as any road could and it would be rather redundant to build a road alongside of it."

Senator Rasmussen: "That was my question, are we going to spend $1,000,000 general fund money ... the department of transportation, where are you going to provide public access and you certainly need a road for public access?"

Senator Quigg: "The old Highway 99, Senator, runs right into this area. I think if you will recall the I-5 cuts across the old 99 grade right at that intersection of the Toutle and the Interstate 5 on the south bank of the Toutle river."

POINT OF INQUIRY

Senator McDermott: "Senator Quigg, I see in this bill a principle that we have not done before, and we are two years after the emergency yet we are giving emergency powers to the Cowlitz county commissioners to avoid shoreline management act, the state environmental policy act, department of ecology, department of game, department of fisheries. Fairly broad powers."

"My question is, what is the anticipated area to which these powers are limited? My concern is that we do not say anything about the area, they could take these spoils and dump them in Pierce county for landfill as far as I can tell from this bill. And I would like to at least know from you what you think the area is that you are affecting by this. It does have a sunset clause of June 30, 1984; but I am reluctant to turn the entire Columbia river loose for the next two years."

Senator Quigg: "You are not the one that turned Mount St. Helens loose, are you Senator?"

Senator McDermott: "Well, it did come in handy."

Senator Quigg: "Senator, Mount St. Helens recovery operations are the ones that are specifically mentioned in the bill and those recovery operations are going to be carried out through the greatest extent, by the Corps of Engineers, and the Corps of Engineers funding is such that the cost of moving material is going to be a very extreme limiter on the impact these materials can have any place else and very close to those recovery operation sites themselves."

"The material is determined to be of very little value to anyone; and because it is such a low value it is being treated as a dredge spoil and as a spoil the cost-per-ton mile of moving of it, goes up dramatically as you begin to move it any more than a few hundred yards away from the river site. So I do not think you are going to be seeing the dredge spoils sent out across the state of Washington, it is just simply not financially feasible. They are going to want to move that material as short a distance as possible, that is why the Corps of Engineers is working to identify the most suitable price to have as little environmental impact as well as as little economic cost as possible to relieve that community of the risk of a 350,000,000 cubic-yard/ten-year problem."

Senator McDermott: "Do you have any concerns over the fish hatchery on the Cowlitz and what this does in exempting the county commissioners from taking into consideration what happens in that fish hatchery?"

Senator Quigg: "Senator, I do have concerns about that; the county commissioners have sent up a statement from their operations, saying just exactly how they were going to implement this recovery operation authority, and evidently it has not been circulated as yet, but the clerk has it. Those people are equally, and probably even more concerned with the successful operation of the Cowlitz fish hatchery because as you know, that is where the folks from Cowlitz county do a lot of fishing, both commercially and sport. So I think the question of the Cowlitz hatchery is one that is going to be addressed, should there be recovery operations undertaken, but also by the department of fisheries."
"We are talking here about recovery operations to mitigate an impending dis­aster. As you heard in the ways and means committee, even so much time as a few hours for a phone call when the river is high and rising, can mean the difference between saving a million dollar state bridge or not, or a state fish hatchery, or not. And I think it is important that we have the folks that are closest to those valuable state assets able to respond effectively and quickly to see that they are not lost."

Debate ensued.

REMARKS BY SENATOR TALLEY

Senator Talley: "We did not ask for the powers of eminent domain. In that emergency first year they had eleven dredges on that Cowlitz river. They used every site owned by the department of natural resources and fisheries and things like that. They filled them up. Now we have to find additional sites to do any more dredging. This is an emergency situation and it has to be done.

"We did not ask for eminent domain. We had some thoughts about that, too."

Further debate ensued.

POINT OF INQUIRY

Senator Wilson: "Senator Quigg, are there specific examples where adherence to any of these environmental programs from which exemptions are granted, has resulted in delays or is there a strong indication that adherence to these programs will result in delays?"

Senator Quigg: "Senator Wilson, Senator McDermott asked a similar question when this bill was before the ways and means committee and Commissioner Van Youngquist from Cowlitz county recounted that only that day or just very recently before that day of the hearing, the county had taken action without a hydraulic permit to save a bridge because of high water flows, and just went out and did it, didn't call up, just went out and saved the bridge because they just didn't have the time to go through the calling and the liaison with the various state agencies that would otherwise be required, even in an emergency situation, to sign off because as you know, an emergency in governmental time is a much different matter of days than an emergency in the real world time which can be hours and minutes.

"So I think that the handout that I think you now have on your desk, sets out some of the problems that the commission and the folks from Cowlitz county have had just in getting timely response from state agencies in light of the quick response required to handle an emergency the size and the magnitude of Mount St. Helens."

POINT OF INQUIRY

Senator Goltz: "Senator Quigg, it is my impression, I have been responsible for distributing the handout or the letter of concern by the Washington Environmental Council just so that all the members would have that before you, and the second paragraph of this refers to emergency procedures which are already in the law.

"And the question is, why are not these emergency procedures adequate?

"Senator Quigg, I was asking the same question that is asked in the Washington Environmental Council handout which I have been responsible for distributing, where they referred to the emergency procedures which are already in the existing laws, and the WACs referenced here; and they say that there has been cooperation, that these emergency procedures are already in place.

"And I wonder why those emergency procedures are not adequate?"

Senator Quigg: "Senator Goltz, for two reasons (1), the one I mentioned in the discussion with Senator Wilson recounting Commissioner Youngquist's testimony, that time is much different in an emergency situation than it is in agency time; so timeliness is important."
Also, and once again in this handout since then distributed, there are examples of Salmon Creek and Arkansas Creek where the problems that the recovery team faced with state agencies, exacerbated and compounded the problems of the recovery operation. And I think that when you realize that this is a county government that is very close to the voter who is close to the fishery resource and to all the other environmental concerns that we all share, they are not going to be running roughshod over the fishery resource, the water resource, or air, or aesthetics or anything else. It is just that they happen to be closest to a very, very big problem.

"I suspect that had Mount St. Helens blown a little more northerly and filled up Lake Washington, we would see King county down here turning handsprings. I guess maybe because it's, you know, on the far end of things down on the Columbia river we may not feel quite as much compassion for some of those folks. But I will tell you, they have to be able to move and move quickly, and I think that is the real first reason; the second one is that they have had problems with these resource agencies and those problems, just a couple are set out right here in the handout you have."

Further debate ensued.

POINT OF INQUIRY

Senator Woody: "Senator Quigg, would you yield to another question? Senator Quigg, I am very supportive of efforts to restore the damage to the environment caused by Mount St. Helens' eruption. But I remember Senator McDermott's question of ten minutes or so ago, and the question essentially was 'Why is it necessary to exempt this recovery operation from the shoreline management act and the state environmental policy act?' and we talked about several other related issues, but I have heard no specific answer to that question.

"And I notice in the bill, sections 4 and 5, do exempt the recovery operations from these two acts. I am wondering why that is necessary at this time? I have read the emergency exemption procedures in the handout that you have distributed and I do not see an explanation of those two exemptions in that handout."

Senator Quigg: "Senator Woody would you mind if Senator Guess replied?"

Senator Guess: "Mr. President, having been in the Cowlitz area on three different occasions, and having gone over the problems that the Corps of Engineers faces because of Public Law 99, it became completely apparent to me as an individual and as a legislator and as an engineer, that to follow the normal procedures of going through all of the permits securing, introduced a question of doubt in the minds of the Corps as to whether or not the state was really interested in the Corps coming in and spending the multi-millions of dollars to do the job. And the last meeting we had down there just before the legislative session, it appeared to us that the best show of concern and the actual 'putting your money where your mouth was' was to assure the Corps of Engineers that the state was going to do its very best to make sure that the recovery was not held up.

"There will be a period of time, some ten-to-twelve years, perhaps, where over 300,000,000 cubic yards of material is yet to come out of the tributary system. Now, this is for a period of only up to 1984. I assure you we are going to have to be back down here because the local agencies do not have the capability of meeting all of the costs that are necessary. This next two years is the most critical of the years that we face. If we do not take action there could be a loss of lives beyond which I would not even want to speculate. We could have damage in excess of $3,000,000,000 if this thing is not taken care of in an orderly way. The county commissioners pointed out to us the problems that they have had with the agencies, and so we wrote the law in order that we get this first two years, and I took the amendment, not wanting to, really, but we wrote the law so that we do have a two-year look at it and then if the thing is going to be needed, we'll come back down here."
"I think that this is the least that we can do."

MOTION

Senator Talmadge moved the rules be suspended and Substitute Senate Bill No. 4510 be returned to second reading.

The motion by Senator Talmadge failed on a voice vote.

POINT OF ORDER

Senator Rasmussen: "Senator Guess, as I recall that appropriation that Senator Magnuson made for the relief down there was some $900,000,000, and that they only spent a small portion of it; there was an article in the paper a while back said it was vastly overestimated, the cost. Do you recall what that figure was?"

Senator Guess: "No, I do not."

Senator Rasmussen: "A lot of that money reverted back."

(inaudible response).

POINT OF INQUIRY

Senator Woody: "Senator Guess, you attempted to answer my question about why the exemption from the shoreline management act and the state environmental policy act, and I certainly can understand your response about the need not to hold up the recovery. And as a legislator from a district which has periodic and very serious flooding problems, I am very sympathetic to the intent of the bill.

"But I guess what I am looking for in the effort to understand what the exemptions will affect, is an example of what the result of the exemptions will be. I understand the purpose but the in the absence of an example of what we are talking about, it is difficult.

"Also in section 6, I notice that there is a further exemption from the requirements related to diking and drainage under the department of ecology. What kind of an exemption would this affect for the dredging operation?"

Senator Guess: "Senator, when someone wants to improve or to put a dredge spoil on an area, they have to go in and they first obtain the permission of the shorelines protection act to put any material out there. That approval can take up to a year, or a year-and-a-half, if anybody protests it. If the height of the fill, for instance, has, because of the limited area, has, in some places, gone up to 300 feet in height somebody could object because they didn’t like that, although they have mountains all around there, they would object to that.

"So this is the kind of thing we want to be able to do. There is a very, very limited area on which we can put the dredge spoil and there is not much choice. Now, since there isn’t choice, then why go through all of the myriad of forms to fill out and all of the costing? As Senator Quigg said, the cost of moving fill is something in the neighborhood of fifty cents a yard a mile, and they are not about to move the material any farther than they absolutely have to.

"So the Corps and the county cannot afford to wait, and so this is the reason for the exclusion."

Senator Woody: "Then, Senator Guess, what you are saying is that the elected county officials in the affected counties in conjunction with the Corps of Engineers, will be the decision-makers? They will be making the decisions in this case. And the elected officials are responsible to their electorate. Thank you."

Senator Guess: "Yes."

SECOND READING

SUBSTITUTE SENATE BILL NO. 4469, by Committee on Transportation (originally sponsored by Senators von Reichbauer, Patterson, Hansen and Vognild):
Advancing construction of interstate highways.

POINT OF INQUIRY

Senator von Reichbauer: "Senator Bottiger, this measure dealing with advancing of construction of interstate highways first came out of the transportation committee on January 18 and knowing that you well know that Pierce county, in fact,
Pierce county management, consultants, Pierce county businesses and Pierce county labor's building trades people appeared before the committee concerned about completion of the Tacoma spur and other projects in Pierce county as well as other areas around the state. Do you want to delay this another day, Senator, or would you want to do it today?"

Senator Bottiger: "Senator von Reichbauer, I am sure all of those people have talked to you as well as me and they are very interested in those projects. I am sure they also don't want us to do anything irresponsible in view of news that keeps coming out of Washington, D.C. as to the status of President Reagan's proposal from these areas.

"This bill, in a sense, adds to our debt another $120,000,000 to be paid in five years to a debt service that is already 10% of all highway income funds and to add that amount of debt service without some assurance that the federal money will be there, could very well be irresponsible."

Senator von Reichbauer: "Senator, as you know, this bill takes 60% of the floor to support it. Do you wish this bill held over another day, or are you willing to have it brought up for today's action?"

Senator Bottiger: "Senator, I asked you if you would hold it over for one more day so that we can check this out. It does take 60%.

MOTION

On motion of Senator von Reichbauer, Substitute Senate Bill No. 4469 was ordered placed at the beginning of the second reading calendar for February 10, 1982.

This subsection shall be of no further force and effect when RCW 19.27.200 through 19.27.290 expire as provided in RCW 19.27.300.)) The rules adopted by the state building code advisory council establishing energy-efficient thermal and lighting standards for commercial and residential buildings under RCW 19.27.075.

In case of conflict among the codes enumerated in subsections (1), (2), (3), and (4) of this section, the first named code shall govern over those following.

Sec. 2. Section 3, chapter 76, Laws of 1979 ex. sess. and RCW 19.27.075 are each amended to read as follows:

The state building code advisory council shall have authority to promulgate rules, pursuant to chapter 34.04 RCW, for the purpose of adopting a state-wide thermal efficiency and lighting code to the extent necessary to comply with Title 10, Code of Federal Regulations, section ((420.35)) 420.7. Debate ensued.

POINT OF INQUIRY

Senator Guess: "Senator Bottiger, we are dealing with an act relating to the
building code, not the energy code. Do you have any hesitancy in putting an energy
bill into the building code? I think it would put the bill into jeopardy, purely and
simply because it violates the Constitution on 'one bill, one subject.'"

Senator Bottiger: "Well, Senator, if that were true, then, the entire bill as writ­
ten which has the fire code, the plumbing code, the electric code, the mechanical
code, the thermal performance and design code, on page 4, are already in there. If
you look on page 2, subparagraph 6, all we are doing is updating that one from the
1971 Act, and bringing it up to the current one, the same as you are doing with all
the other numbers."

PERSONAL PRIVILEGE

Senator Bottiger: "Mr. President, Senator Gould's name was on this amend­
ment. I had prepared two amendments, I had my name typed on them, and I can
only presume that somebody wrote Senator Gould's name on it. It is not mine, and
she is suggesting that it was there without her authority and I would have no objec­
tion to removing it. As you can see, there were two that were passed out and appar­
ently had it done twice and I don't know who put her name on the other one."

MOTIONS

On motion of Senator Clarke, Senate Bill No. 4113, together with the adopted
committee amendment and the pending amendment by Senator Bottiger, was
ordered held for consideration on February 10, 1982.

not adopted.

issue may be turned over to a collection agency by the injured party"

On motion of Senator Jones, the rules were suspended, Senate Bill No. 4476
was advanced to third reading, the second reading considered the third, and the bill
was placed on final passage.
Debate ensued.

PERSONAL PRIVILEGE

Senator Kiskaddon: "I heard my name being mentioned as being quoted on
something, I said nothing, and it was nothing."
Further debate ensued.

POINT OF INQUIRY

Senator Ridder: "Thank you, Mr. President. Would Senator Deccio yield? All
right then if you choose not to answer a question to something that you put very
positively, I will tell you that, based on your remarks, it is my assumption that there
will never be a collection agency used to collect arrears based on the parental pay
bill, 759, and further, by extension, there will be none used for the collection of fees
or assessments based on the juvenile rehabilitation act.
"That is the assumption that you have given on your remarks in the last few
minutes."
(Senator Deccio declined to yield.)
Further debate ensued.

ENGROSSED SUBSTITUTE SENATE BILL NO. 4505, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

POINT OF INQUIRY

Senator Talmadge: "Mr. President, I wonder if Senator Hayner would yield to a question; and I will frame the question first because I know the partisan concern. Senator, this is not meant to be a partisan question in any fashion or form, but personally I guess I am just a little bit exasperated with Roosevelt elk or Roosevelt geoducks, or collection agencies or whatever; and I was wondering if you could give an indication to us when, if ever, we are going to get the issues of making jobs for
people in the state of Washington, and dealing with the fiscal problems that we are facing in the state? I guess I am craving a little substance and would like to know what we are going to be doing."

Senator Hayner: "Mr. President, ladies and gentlemen. I think we will get too them a lot faster if there weren't a lot of frivolous amendments. You know as well as I do that many of those bills are in the mill, they are on the schedule, a matrix to be considered, and they will be considered and the more time we waste here, the more evenings and weekends we will be spending on the floor."

SECOND READING

Putting Arabian horse racing under parimutuel betting system.
The bill was read the second time by sections.

On page 2, after line 8 insert "The Commission shall determine by rule, pursuant to chapter 34.04 RCW, the requirements of any other horses participating in a race meet."
On page 2, after line 26 add a new section to read as follows:
"NEW SECTION. Sec. 5. There is added to chapter 67.16 RCW a new section to read as follows: The commission may promulgate rules, pursuant to chapter 34.04 RCW, for establishing race meets for any other breed or classification of horses that the commission deems appropriate and in the public interest. Such rule shall include the percentages kept and given the state, the number of dates and any other requirement the commission feels prudent and necessary." and renumber the remaining section accordingly."

POINT OF INQUIRY

Senator Newhouse: "Senator Bottiger, this would appear to be, even though it wouldn't discriminate against Clydesdales or Percherons, it might discriminate against dogs. Would you want to include them, too, or trotting horses, would those be involved?"

Senator Bottiger: "I think you could, a trotting horse, if the commission wants to designate a harness horse event, they could, under this amendment; Clydesdales, if they wanted to — I wouldn't suggest they would because they are not a racing horse. But I am just trying to relieve the load and make it unnecessary to go through the motion."

Debate ensued.
The motion by Senator Bottiger failed and the amendment was not adopted on a rising vote.
On motion of Senator Hemstad, the rules were suspended, Senate Bill No. 4584 was advanced to third reading, the second reading considered the third, and the bill as placed on final passage.

POINT OF INQUIRY

Senator Bottiger: "Senator Hayner, we received a copy of a House–Senate Republican caucus resolution establishing cutoff dates; and I am wondering why the custom and procedure of the Senate to have a joint floor resolution hasn't been followed, and why just one party is deciding cutoff dates for consideration of matters by this body."

Senator Hayner: "The cutoff dates are somewhat tentative and soft. We are just trying to have some kind of direction. As you know, the House doesn't really want to have any cutoffs at all but I think that, in order to conclude this session in an orderly manner, we have to have some direction; so they are not hard and fast rules."

Senator Bottiger: "Well, Senator Hayner, then thirteen people now are deciding what we will consider and what will be the agenda for the legislature. I think that this is a very sad mistake and a very large error and I would hope that even the majority can understand that. A very small group now is deciding what we will consider and what we won't consider."

MOTIONS

On motion of Senator Clarke, the Senate returned to the sixth order of business.

On motion of Senator Clarke, the Senate resumed consideration of Substitute Senate Bill No. 4469.

SECOND READING

SUBSTITUTE SENATE BILL NO. 4469, by Committee on Transportation (originally sponsored by Senators von Reichbauer, Patterson, Hansen and Vognild):
Advancing construction of interstate highways.
The Senate resumed consideration of Substitute Senate Bill No. 4469. On February 9, 1982, the substitute bill was substituted for the original bill and on motion of Senator von Reichbauer held for consideration today.

MOTION

On motion of Senator von Reichbauer, the rules were suspended and Substitute Senate Bill No. 4469 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.
Debate ensued.
Senator Goltz: "Senator von Reichbauer, what is the bond rating on the bonds that are anticipated to be sold under provisions of this act?"

Senator von Reichbauer: "These will be short-term bonds."

Senator Goltz: "Are they rated by a national rating bureau? That is, do they have double A, A, A minus, or what?"

Senator von Reichbauer: "I am not aware of that, but maybe someone would like to assist me. I am not aware of any particular rating. They are short-term loans; I don't believe that bond loans have that particular rating."

Senator Goltz: "I am sorry, I didn't hear it. Are they general-obligation backed also?"

(Senator Guess replied to Senator Goltz without standing or using his microphone "No")

Senator Wojahn: "Senator von Reichbauer, I am a little provincial and so I would like to know exactly how much of this $120,000,000 will be used on 705 which is the Tacoma project?"

Senator von Reichbauer: "Senator Wojahn, I cannot give you the exact figures; all I know is that the phase of 705, the Tacoma spur, will be completed, including the off ramps into the new Tacoma dome, and that is why the downtown association from Tacoma, the building and trade unions from Tacoma, and others, came to testify. I do not know the exact dollar figures, only that phase that has already been approved by the department of transportation in conjunction with people from Pierce county and the city of Tacoma."

Senator Wojahn: "Yes, I am not through; thank you, Mr. President. Well, I am really curious because I am reading from the handout that was given us by the department of transportation and they refer to this as 'the Tacoma spur'; but, it actually is not the Tacoma spur, from what I understand; it is just a little, maybe eight or ten block area of concrete that is going to be poured to lead into the Tacoma dome, and the rest of it, there will be nothing done except for some acquisition of right-of-way, but nothing as far as building.

"And that is the reason I wanted to know exactly how much is being spent there, how much is being spent on I–82 and 182, and also I–90 which I understand will get 60% of the $120,000,000."

Senator Talley: "Senator von Reichbauer, if the federal money comes through, the jobs will go ahead. If it doesn't come through, they won't. We need this legislation in case they do, right?"

Senator von Reichbauer: "Yes, Senator. And to answer you Senator Wojahn, included in this is also some purchase of property for that phase of the Tacoma spur. It is an integral part. It is the opening phase of the Tacoma spur and in fact, should be called the beginning of the Tacoma spur. They are planning to buy buildings that are presently located down there, I think near Eighth Street, or in that area for the access to Tacoma. Tacoma, as you well know, is the only city in the state, in fact, not only the city in the state, but it is the only major city in the nation that does not have a major access to interstate. And that is why it is so critical to the Tacoma area.

"And as long as I am on the floor, if you, additional question? As long as I am also speaking, Mr. President . . . ."

President Cherberg: "What is it, Senator von Reichbauer?"

Senator von Reichbauer: "May I go beyond the question of Senator Wojahn?"
President Cherberg: "Yes."

Senator von Reichbauer: "It was mentioned earlier, regarding Senator Jackson's comments and I would point out that when Senator Jackson was asked that question, I was advised that he thought they were talking about additional planning of interstates beyond what had already been planned in conjunction with the national department of transportation and the state.

"I would further point out that advance construction interstate in conjunction with the Jackson remark that plan was developed by the Washington state DOT and is not predicated on either increase in the federal gas tax or a renewal of obligation controlled on available federal aid highway funds before 1984.

"And if I can refer to some other remarks about a bet. It is. This is a good bet, though. This is a bet on the working men and women of this state who believe in this, who know that this is an answer to the problems that beset us both economically as well as safety-wise on our state highways. There are people who are 'chicken little' to say 'the sky is falling,' and there are others would rather look up and say 'The sky is the limit.' I would rather be with the working men and women of the state who believe the sky is the limit.

"As Bob Dilger, who is head of the building trades, said before our committee, 'I am here today to try and convince you to expedite this action as soon as you can to get our people back on a paying basis where they can go to work in the morning, where they can make a living for their families, where they can pay their taxes, where they can put some food and groceries on the table and start to build back in society and get us back on the road of economic recovery.' That is why the unions of the state wants it, that is why the builders of the state want it, and that is why republicans and democrats are working together to get this plan going, and to get Washington state working again. Washington works."

President Cherberg: "Was Senator von Reichbauer responding to your question, Senator Wojahn?"

REMARKS BY SENATOR WOJAHN

Senator Wojahn: "Thank you, Mr. President. Members of the Senate, Mr. President.

"I have been voting for the Tacoma spur for 10 years now, first it was the variable gas tax and I voted for it. And then there was another variable gas tax; to date we have nothing to show for it — nothing — except promises. Well, I have watched empty promises now for about eight sessions of the legislature.

"Today we are being told, 'We will give you an inch, give you an inch.' You need about ten miles in order to produce the effect that you really want. We are still not going to get entry into the city of Tacoma. You know what we are going to get? We are going to get a couple of inches into a dome, a domed stadium. It is not going to take care of the problems of downtown; it is not going to take care of anything but the jocks that want to go to the stadium. And I am not so sure that this is going to be a good vote; you know, here I am, caught between a rock and a hard place — if you don't you are in trouble, if you do you are in trouble.

"And I guess my decision, which I haven't really made yet, is going to be based upon what really happened as far as the bond rating, how much is it going to cost and maybe I am going to hear this before the debate is over; how much Tacoma is going to get for that one inch. And I would like to know what the dollar amount, and I need to know that.

"And I also need a firm promise that 'Yes, you are going to get something at last that will mean something to the citizens of Tacoma and the twenty-seventh district.' I understand Senator von Reichbauer has the answer. Thank you."
REMARKS BY SENATOR von REICHBAUER

Senator von Reichbauer: "Senator Wojahn, when you speak, the department of transportation listens. I was just advised by the secretary of transportation that if this ACI plan is completed and voted on today favorably, I-705, the Tacoma spur, will receive over $130,000,000 between now and 1988. This is not just one phase, one inch; this is the completion."
Further debate ensued.

MOTION

REMARKS BY SENATOR LYSEN

Senator Lysen: "Thank you, Mr. President; ladies and gentlemen of the Senate.
"I have some deep concerns about this program, basically the $120,000,000 that is supposed to be forthcoming from the federal government, may not come. Now what does that mean? That means we will have to pay out approximately $400,000,000 in interest on these bonds; and these bonds, although they are revenue bonds, are ultimately backed up by the GO, general obligation bonds or backed up by the general fund.

"So we may be faced with another massive increase in our total indebtedness. Right now, we are up against our 7% statutory ceiling, and our bond rating has been lowered because of that. We are paying $6,000 an hour in interest right now on $400,000,000 loan which we do not have in place a way of repaying.

"So I think we have to start being fiscally much more conservative. In exchange for a few, high-paid, temporary jobs, we are putting the general fund of the state of Washington on the line. And I do not think it is worth the gamble. We have already made the gamble and we are in trouble because of it. In fact, I feel rather funny having to stand up here and carry essentially the conservative banner, fiscal responsibility. The party of fiscal responsibility is in power, yet they are not living up to the mandate of the people, in my judgment. This is not fiscal responsibility, even though the temptation of the reward is quite encouraging, and I can certainly sympathize
with that aspect of it, Senator von Reichbauer. But I think the risk is too great, the price is too high, and the reward benefits too few. We need a much broader base to get our economy going again and this does not do that job."

(These remarks were included in the Journal at the request of the Secretary of the Senate to substantiate the Statement for the Journal by Senator Lysen in which he was recorded as having not voted which was due to a clerical error)

"NEW SECTION. Sec. 5. There is added to chapter 8, Laws of 1965 and to chapter 43.51 a new section to read as follows:

The parks and recreation commission shall make an annual report to the appropriate committees of the legislature on or before January 15, concerning applications for and permits granted to individuals, groups, organizations, agencies, clubs, or associations for improvements in any state park or parkway, or on any lands belonging to the state. The report shall include the names and addresses of all applicants, description of lands proposed to be improved, the nature of the proposed improvement, actions by the commission regarding applications, and current status of improvements undertaken."

POINT OF INQUIRY

Senator Guess: "Senator Williams, because of the tenses that are used in the grammar here, I am a little bit in the dark as to, 'the report shall include the names and address of all applicants, description of land proposed to be improved.' Now this would imply to me that the legislature is going to have to receive it before the land can be improved."

Senator Williams: "No, that is not the intent of it at all. In this particular situation, in other words, during the one-year period prior to the submission of the report, there obviously would be proposals that had not been either acted on or completed. So however you read it, you know, perhaps you could find a technical way that, the situation you suggest, applies; however, I do not see that nor is it the intention in any way to have the legislature, in this amendment, to be involved in any approval process."

Senator Guess: "Well, Senator, I am afraid that that is what would result. If you were to say very simply that 'the parks and recreation commission shall make an
annual report to the appropriate committees of the legislature,' and leave it go at
that, then I think that would be all right. But to say that the description of the land
'proposed to be improved' would make a total block, and would mean they would
have to accumulate all the proposals and then after the legislature met; but it does-
n't say what the legislature does with it after we get through with it. After it is
received by us, so what?"

Senator Williams: "What happens, simply, we are a public body and it's a
reporting, rather than posting it for public consumption or whatever, it brings it to
the appropriate legislative body, the representatives of the people, to see what, in
fact, that agency has done. I think the legislative committees are an appropriate
body to report to."

Debate ensued.

Senators Hayner, Clarke and Goltz demanded the previous question and the
demand was sustained.

Senator Williams demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the
amendment by Senator Williams.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the fol-
lowing vote: Yeas, 23; nays, 25; excused, 1.

On page 1, line 17, after "chapter." insert "The permit process herein shall be
as prescribed in chapter 42.30, the Open Public Meetings Act."

Debate ensued.

POINT OF INQUIRY

Senator Bottiger: "Senator Fuller, are you suggesting the parks commission will
not adopt these permits and things in a public meeting?"

Senator Fuller: "I am saying in some instances there will be no reason to have a
commission meeting. When you are dealing with a very small project, I should think
the park supervisor or ranger could grant permission to a small group to, Boy Scouts
is an example, or whatever. I do not see why we have to wait a period of months to
go to a commission meeting and then make application at that point."

Senator Bottiger demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the amendment by Senator Goltz.

Any expenses borne by the state shall be limited to premiums or assessments for the insurance of volunteers by the department of labor and industries, compensation of staff who assist volunteers, natural resources contained within such public lands, paint, incidental materials, and equipment used to assist volunteers. These improvements shall not interfere with access to or use of such public lands by the general public and shall benefit the public in terms of safety, recreation, aesthetics, or wildlife or natural area preservation."

On motion of Senator Fuller, the rules were suspended, Engrossed Senate Bill No. 4477 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

PARLIAMENTARY INQUIRY

Senator Bauer: "Mr. President, as I have understood it, when a amendment was tabled, it took the main issue with it? Will the President rule?"

REPLY BY THE PRESIDENT

President Cherberg: "Not to the President's knowledge, Senator."

POINT OF INQUIRY

Senator Ridder: "Senator Fuller, earlier you made some reference to the granting of permits by individual rangers or campground managers? Is that correct? Is that what the bill allows? In reading it, I see only the reference to the commission."

Senator Fuller: "I believe it, I know it refers only to the commission. A further particular instance, in Spokane, there is a couple who returns there year after year, voluntarily work in the park and act as guides and so forth. I would think that in time, it would not be necessary for them to go to the commission and get a permit that they could do it, handle it through rules and regulations and the ranger would know them and recognize them and let them do it without going through some sort of an involved formal process."

Senator Ridder: "Is there a place in the bill that allows for the development of rules and regulations?"

Senator Fuller: "I do not think it is necessary to have such a provision because as an agency the commission is required to have rules and regulations. They have to set up their WACs."

Senator Ridder: "I see. In effect then we don't really need the bill. If these people that you refer to are already doing this..."

Senator Fuller: "I think the commission likes it much better when it is spelled out in exact detail, where their limits are and what their authority is."

Senator Ridder: "Okay. But the bill itself does not spell out that individual campground personnel may grant those permits?"

Senator Fuller: "It does not, no."

Senator Ridder: "Thank you."

Debate ensued.

POINT OF INQUIRY

Senator Shinpoch: "Senator Bluechel, just so that we have it on the record in case we ever get down to that, I understood you to say that this bill, in your judgment, deals with volunteers and volunteers only; does not open up the utilization of parkland to building marinas by a boat club or anything of that nature; or building a ski cabin or anything of that nature that was not open to all the public, irrespective. Do I understand you correctly in your statement that that is your belief of the intent of the bill?"
Senator Bluechel: "To use my own words, Senator Shinpoch, as to what the bill does, it is simply to allow the park commission to make common sense judgment as to what is and what isn't in the best interest of the state; and to allow volunteers at all levels to encourage, not just to allow, but the key word is 'encourage' volunteers at all levels to enhance the parks of this state for the benefit of all."

Senator Shinpoch: "I am not sure, if you answered my question, I missed it. Would it be, in your judgment, is it possible under this bill, for a group of people to build a marina on park land and call it 'volunteer labor'?

Senator Bluechel: "If the marina is for use of everybody, I do not know; I cannot answer that question. I think that the parks commission would be the people who would decide that and they are the ones who should decide it. I cannot directly answer the question because I cannot envision something like this happening. I think you can invent a list of horrors which are absolutely ridiculous from a standpoint of usage. This simply gives the park commission more freedom to encourage people to help and takes away red tape and that is all the bill does."

Further debate ensued.

Senators Jones, Guess and Clarke demanded the previous question and the demand was sustained.

The President declared the question before the Senate to be the roll call on final passage of Engrossed Senate Bill No. 4477.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 4477 and the bill passed the Senate by the following vote: Yeas, 28; nays, 20; excused, 1.

POINT OF INQUIRY

Senator Talmadge: "Senator Newhouse, the question I have, you are extending the lease period for an additional thirty years. What requirements are there now in the statute that require that the lease be for something approaching fair market value?"

Senator Newhouse: "The department has required in leases, and I am not sure of the statutory requirement to answer your direct question. But the department has required that at the end of the lease period, the department could take over the land. In many cases we are talking about land, the raw value of which is $50 to $150 an acre. The investment of the lessor required to bring this land into production, can be ten or more times that, so that a longer term is required and at the end of the lease period the land would belong to the state with all the improvements that have been put on the land by the lessor."

Senator Talmadge: "But you know of no specific requirement that the lease, the average monthly rent or annual rental be for something of substantial value?"
Senator Newhouse: "It is of substantial value but I do not know the statutory requirements. As a matter of fact, for a period of a few years while there is no return, the lessor is required to put all the investment in. The department puts in none other than the possibility of the department putting in a well if it is land that requires a well for irrigation. And then in the terms of the lease, during the later years of the lease while the land is productive, then there is a percentage of the crop that goes to the lessee, which is the state trustlands.

"And let me assure you that the department of natural resources is a good representative of the owners of the land who are the people of the state."

POINT OF INQUIRY

Senator Rasmussen: "Senator Newhouse, this makes no change in the 5-year reevaluation of all the leases, does it?"

Senator Newhouse: "I am not sure I know what you are referring to in a five-year lease."

Senator Rasmussen: "Well, we used to lease land for an indeterminate period of time, up to 55 years; and they never revalued the leases. And then we changed the law so that the department has to revalue the leases every five years and change the lease terms in accord with the growth of the, whatever the crop is."

Senator Newhouse: "Senator Rasmussen, I am reminded of what you are speaking. You are speaking in that case of a grazing lease in which there is no improvement to the land. This is an improvement lease in which the lessor must improve the land, actually increase the value. So not only does the state, the trustlands, get rental from the share of the crops which are sold, but they also get the increased value of the land."

Senator Rasmussen: "Well, I see you are including agricultural, grazing in this; this is part of the new material. . . "

Senator Newhouse: "The 55-year lease is only granted in cases of permanent crops which require quite a few years to come to maturity."

MOTION

On motion of Senator Talmadge, Senator Vognild was excused.

We want to know what they are doing, how they are doing it, and where they are proceeding in the future. That is the whole bill, Senator Talley."

Requiring children under five in their parents' vehicles to be secured in a child passenger restraint system.

REPORT OF STANDING COMMITTEE

February 4, 1982.

SENATE BILL NO. 4548, requiring children under five in their parents' vehicles to be secured in a child passenger restraint system (reported by Judiciary Committee):

MAJORITY recommendation: Do pass with the following amendments:

On page 2, line 3, strike "purchase" and insert "acquisition"

On page 2, line 6, after "of" strike "purchase" and insert "acquisition"

On page 2, line 10, after "negligence" insert "per se"

On page 2, line 11, after "guardian" strike all of the material down to and including "action" on line 12.

Signed by: Senators Clarke, Chairman; Hemstad, Vice Chairman; Hayner, Hughes, Newhouse, Shinpoch, Talmadge, Woody.

The bill was read the second time by sections.

On motion of Senator Hemstad, the committee amendments were considered and adopted simultaneously.

On motion of Senator Hemstad, the rules were suspended, Engrossed Senate Bill No. 4548 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.
POINT OF INQUIRY

Senator Hansen: "Senator Haley, it says here 'Failure to use a child restraint system, however, may be admissible in civil action.' Now let us take that court, or the case of this mother carrying her child home and somebody rear-ended her and killed her child. And so they turn around and sued the guy that rear-ended them; is this going to lessen their chances to collect because they did not have the child in a restraint?"

(Senator Haley deferred to Senator Clarke)

Senator Clarke: "Senator, that was a matter that was discussed and was the cause of one of the judiciary committee amendments, and legal terminology, but as amended it says that the failure shall not be considered negligence per se. The law is that any violation of a law, all you have to do is to prove that the law was violated and that, of itself, constitutes negligence.

"So if it was a part of the proximate cause of the injury, why, it forms the basis for recovery.

"The bill as amended says that it is not negligence per se but it does permit the introduction of evidence for the consideration by the jury as to whether or not, under all of the circumstances, the jury feels that is should or should not have been done. In other words, we had your point in mind and I think we tried to adopt the most reasonable solution for it."

Further debate ensued.

POINT OF INQUIRY

Senator Deccio: "Senator Haley, as the prime sponsor. If a mother is nursing a child in the car and there is an accident, then this law would apply? She would be guilty of a, not a misdemeanor, but liable for civil action, is that right?"

Senator Haley: "I would like to defer to that question again, to the attorneys present. The courts would probably not prosecute in that situation, I would think."

Senator Deccio: "But the way I read this thing, they could. Also if the parents borrow your car or someone else's car, the title says, the summary says, 'Requiring children . . . in their parent's vehicle to be secured.' If they are driving someone else's car, does that mean that they are not liable under the law?"

Senator Haley: "Well, let's see, I . . . 'His or her own motor vehicle' is the only place where this applies according to the bill; the legal guardian or the parent . . . ."

Senator Deccio: " . . . so if they borrow grandpa's car . . . ?"

Senator Haley: " . . . his or her own motor vehicle."

Senator Deccio: " . . . so if they borrow grandpa's car and get into a wreck, then they are not liable under the law?"

Senator Haley: "Not liable."

Senator Deccio: "If grandpa or grandma is carrying the child in their car, then the law does not apply?"

Senator Haley: "It does not apply under those circumstances."

Senator Deccio: "Who wrote this dumb bill?"

POINT OF INQUIRY

Senator Peterson: "Senator Haley, this bill has been before the transportation committee for the last two sessions of the legislature. It is my recollection, I think the last count I had, there are seven states that have passed this type of legislation throughout the United States. That was the last count that I had. Are there any specifics that would indicate that this has, in fact, done anything to prevent the deaths in the states that have already passed similar, not identical because I am sure this is a conglomerate of other legislation. But are there any facts to back up that it has done anything?"
Senator Haley: "Senator Peterson, there are eight states that have passed this law. They are Tennessee, Rhode Island, West Virginia, Kansas, Michigan, Minnesota, New York and North Carolina. Our own experience tells us, I do not have any facts and figures from these other states, but our own experience tells us and I think you have on your desk a copy of this abstract from the journal of pediatrics. Our own experience tells us that if the child is in a seat-restraining device and there is an accident, there are about fourteen less chances of fourteen times less chances that child being killed. I think those are pretty compelling figures, and they are gathered from our own state's experience."

Further debate ensued.

Revising bicycle laws.

MOTIONS

On motion of Senator Charnley, Substitute Senate Bill No. 4460 was substituted for Senate Bill No. 4460 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Charnley, the rules were suspended, Substitute Senate Bill No. 4460 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Charnley, on page 1, 'Bicycle facilities constructed or modified after the effective date of this act, shall meet or exceed the standards of the state department of transportation.' Would you tell me what those standards are? Let me express my concern, that if I am a city or county official then I would like to enlarge on the bicycle transportation; I just might want to run a little foot trail through there that the bicycles could get through. Do you have any idea what the standards are, the department of transportation?"
Senator Charnley: "I am sorry, Senator Rasmussen, I cannot give you that because they are in the midst, right now, of getting them reorganized with the aid and assistance of the bicycle and local government entities. I can tell you that they will, they are direct and they understand they are not to be restrictive, but they are simply to make standard and unified so a bicyclist, coming from one community into another, won't have to, suddenly, fact a new set of conditions.

"The most serious condition in towns was the fact that painting a bicycle path on one side of a roadway and requiring bicycles traveling both directions to use it, so that some bicycles were facing oncoming traffic. And this is one of biggest concerns that the bicyclers have had on this.

"But I can assure you that I feel very confident that these regulations will be the standard regulations and will not inhibit nor hinder your or other local governments from developing the kind of paths and kind of facilities you wish."

Debate ensued.

POINT OF INQUIRY

Senator Patterson: "Senator Charnley, the part of this bill that bothers me is where it makes it mandatory that on limited access highway, that if it is limited, then it requires the department to provide for these new standards for use, I presume alongside of the limited access or freeway, if it does not currently accommodate bicycles in a safe way.

"I am concerned about the potential cost of it, and whether or not we are mandating something to the department at a time when they do have limited resources. And I just want the body to understand, as best they can understand, what requirements the department would have in this case?"

Senator Charnley: "Very briefly. The department has supported this legislation in both their experiences and some places around the state where they had to allow bicycles because there was no other way for bicycles to get through, such as between here and Fort Lewis. There experience there on the passes and other places, and also in limited freeways around the country, they found the safest places to operate a bicycle when you are traveling across country, is on the shoulders of freeways, because the freeways have very wide shoulders and you are definitely going on the right side, and with the direction of traffic. The experience, Senator Patterson, is that this is safe and proper and the department already has made rules allowing bicycles to use that. That has already been passed by the commission. It does clarify that they may forbid it in areas where there might be serious concern, such as urban areas."

POINT OF INQUIRY

Senator Wilson: "Senator Gallaghan, I wish I had asked you a minute earlier, I would just like to get that statement on record, if I may, and ask you if the sole effect of this bill is to extend these provisions to a steelhead operation?"
Senator Gallaghan: "That is correct; the other thing in the bill that you read there, is already the present law that they already have that authority. The only thing it does is extend it to the steelhead buyers of state." (sic)
Senator Wilson: "Thank you."

POINT OF INQUIRY

Senator Talmadge: "Senator Gallaghan, I have a colleague in my law firm who raises game birds. Does this bill apply to game birds? Would this authorize warrantless inspections of a farm where game birds were raised?"
Senator Gallaghan: "That is already the law, Senator Talmadge, yes. That is the law now, existing law. All this does is extend it to the steelhead operation. The department has that authority presently."
Senator Talmadge: "This bill itself specifically does not apply to game birds?"
Senator Gallaghan: "It does not change the present law."

Creating council on child abuse and neglect.

REPORT OF STANDING COMMITTEE

February 3, 1982.

THIRD SUBSTITUTE HOUSE BILL NO. 179, creating the council on child abuse and neglect (reported by Committee on Social and Health Services):

MAJORITY recommendation: Do pass with the following amendments:
Strike everything after the enacting clause and insert the following:

**NEW SECTION.** Section 1. The legislature recognizes that child abuse and neglect is a threat to the family unit and imposes major expenses on society. The legislature further declares that there is a need to assist private and public agencies in identifying and establishing community based educational and service programs for the prevention of child abuse and neglect. It is the intent of the legislature that an increase in prevention programs will help reduce the breakdown in families and thus reduce the need for state intervention and state expense. It is further the intent of the legislature that prevention of child abuse and child neglect programs are partnerships between communities, citizens, and the state.

**NEW SECTION.** Sec. 2. (1) There is established in the executive office of the governor a council on child abuse and neglect subject to the jurisdiction of the governor. As used in this chapter, "council" means the council on child abuse and neglect.

(2) The council shall be composed of the chairperson and ten other members as follows:

(a) The chairperson and four other members shall be appointed by the governor and shall be selected for their interest and expertise in the prevention of child abuse. A minimum of four designees by the governor shall not be affiliated with governmental agencies. A minimum of two of the designees shall reside east of the Cascade mountain range. Members appointed by the governor shall serve for two-year terms, except that the chairperson and two other members designated by the governor shall initially serve for three years. Vacancies shall be filled for any unexpired term by appointment in the same manner as the original appointments were made.

(b) The secretary of social and health services or the secretary's designee and the superintendent of public instruction or the superintendent's designee shall serve as voting members of the council.

(c) In addition to the members of the council, four members of the legislature shall serve as nonvoting, ex officio members of the council, one from each political caucus of the house of representatives and one from each political caucus of the senate to be appointed by the president of the senate.

**NEW SECTION.** Sec. 3. Council members shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060 as now or hereafter amended. Attendance at meetings of the council shall be deemed performance by a member of the duties of a member's employment.

**NEW SECTION.** Sec. 4. The governor may employ an executive director who shall be exempt from the provisions of chapter 41.06 RCW, and such other staff as are necessary to carry out the purposes of this chapter. The salary of the executive director shall be fixed by the governor pursuant to RCW 43.03.040.

**NEW SECTION.** Sec. 5. To carry out the purposes of this chapter, the council on child abuse and neglect may:

(1) Contract with public or private nonprofit organizations, agencies, schools, or with qualified individuals for the establishment of community-based educational and service programs designed to reduce the occurrence of child abuse and neglect. Each contract entered into by the council shall contain a provision for the evaluation of services provided under the contract. Contracts for services to prevent child abuse and child neglect shall be awarded as demonstration projects with continuation based upon goal attainment. Contracts for services to prevent child abuse and child neglect shall be awarded on the basis of probability of success based in part upon sound research data.

(2) Facilitate the exchange of information between groups concerned with families and children.
(3) Consult with applicable state agencies, commissions, and boards to help determine the probable effectiveness, fiscal soundness, and need for proposed educational and service programs for the prevention of child abuse and neglect.

(4) Establish fee schedules to provide for the recipients of services to reimburse the state general fund for the cost of services received.

(5) Adopt its own bylaws.

(6) Adopt rules under chapter 34.04 RCW as necessary to carry out the purposes of this chapter.

NEW SECTION. Sec. 6. Programs contracted for under this chapter are intended to provide primary child abuse and neglect prevention services. Such programs may include, but are not limited to:

(1) Community–based educational programs on prenatal care, perinatal bonding, child development, basic child care, care of children with special needs, and coping with family stress; and

(2) Community–based programs relating to crisis care, aid to parents, child–abuse counseling, support groups for abusive or potentially abusive parents and their children, and early identification of families where the potential for child abuse and neglect exists.

The council shall develop policies to determine whether programs will be demonstration or will receive continuous funding. Nothing in this chapter requires continued funding by the state.

NEW SECTION. Sec. 7. In awarding contracts under section 6 of this act, consideration shall be given to factors such as need, diversity of geographic locations, coordination with or enhancement of existing services, and the extensive use of volunteers in the program. Further consideration shall be given to the extent to which contract proposals are based on prior research that indicates a probability of goal achievement.

The bill was read the second time by sections.

On motion of Senator Deccio, the committee amendment was adopted.
On motion of Senator Deccio, the committee amendment to the title was adopted.

On motion of Senator Deccio, the rules were suspended, Third Substitute House Bill No. 179, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

**POINT OF INQUIRY**

Senator Bottiger: "Mr. President, would Senator von Reichbauer yield to a question? Well Senator von Reichbauer, you are the only one on that I know of on the body of the floor that is even contemplating paying the $5 tax and I wanted to find out if you had any objection to it?"

(no reply by Senator von Reichbauer)

**POINT OF INQUIRY**

Senator Pullen: "Senator Deccio, my understanding of this bill is that it allows the council on child abuse and neglect to have rulemaking authority. Could you tell me what kind of rules and regulations the council on child abuse and neglect is likely to make?"

Senator Deccio: "Well Senator Pullen, I think that is a little difficult to say at this point but they would certainly be in keeping with dealing with the issue of child abuse, and I think that these rules would have the same scrutiny by the legislature as a department of state government as those rules would be reviewed by the rules review committee so that we would be able to monitor them to see that they stayed within legislative intent. But I really cannot answer your question in detail because the council hasn't been formed yet."

**REMARKS BY SENATOR McDERMOTT**

Senator McDermott: "Mr. President, I think in answer to your question, Senator Pullen, if you look at the bill, it is 299 in the book, you look at new section 5, you will see 'To carry out the purposes of this chapter, the council . . . may: Contract with public or private nonprofit organizations . . . for . . . programs . . . ;' they can 'Facilitate the exchange of information . . . ;' they can 'Consult with . . . state agencies, . . . ; and then finally they can 'Establish fee schedules to provide for the recipients of services to reimburse the state general fund . . . .' And the last provision of that section says they can 'Adopt rules . . .' with respect to those issues only. They are not going to be deciding court rules or something beyond merely the things which are in that section of the bill."

Debate ensued.

**POINT OF INQUIRY**

Senator Vognild: "Senator Deccio, I note that the appropriation here is $300,000, the anticipated revenue is $470,000. I detect a surplus there of about $170,000. Can you give me an idea where that money will be going?"

Senator Deccio: "Well, I would suspect, Senator, that it would be the same way with any other appropriation. If there has been generated too much out of that, the rest would go back into the general fund; that would be the determination of the legislature."

Further debate ensued.
THIRTY-THIRD DAY, FEBRUARY 12, 1982

. POINT OF INQUIRY

Senator Talmadge: "Senator Deccio, is it the intent of the bill to have all of the money derived from the marital fee increase go to the council on child abuse and not to go to the general fund for any other purpose?"

Senator Deccio: "Senator Talmadge, my understanding during the hearing that the amount of money that was needed was around $320,000. It was at that time that any monies that were generated in excess of that would go into the general fund."

Senator Talmadge: "Senator, my understanding was different because section 14 of the bill provides that 'There is appropriated from the general fund to the office of the governor for the fiscal year ending June 30, the sum of one hundred fifty thousand dollars, and for the fiscal year . . ., the sum of one hundred fifty thousand dollars also. My understanding had been there would be no money going to the general fund, but it was rather going to pay for the cost of the council for the time period ending in 1984 also, the understanding being that the money would be there and available for the council in 1984."

Further debate ensued.

POINT OF INQUIRY

Senator Fleming: "Senator Deccio, from your comments a few minutes ago, I am somewhat reluctant to speak on this measure although I am in support of it. Do you have a script that we should know about, because I would not want any of the members of this side to say anything out of line, about, you know, rotation, something of that nature because I have never seen that happen on this floor where we are told we cannot censure anything. So I you have a script that we ought to see so we can be able to follow along with you, because I wouldn't want to get out of line, Senator."

Senator Deccio: "Well, I wouldn't want you to get out of line, Senator. You never have so far, so I wouldn't want you to set a precedent. No, I do not have a script."

MOTION

On motion of Senator Newhouse, Third Substitute House Bill No. 179, as amended by the Senate, was ordered held on third reading following consideration of Senate Bill No. 4461.

SECOND READING

SENATE BILL NO. 4461, by Senators Bluechel, Deccio, Charnley, Benitz, Fuller, Gallagher, Gould, Guess, Haley, Jones, Lee, Patterson, Quigg, Sellar, von Reichbauer and Hemstad:

Modifying time limits and evidence rules in actions involving sexual abuse of children.

MOTIONS

On motion of Senator Bluechel, Substitute Senate Bill No. 4461 was substituted for Senate Bill No. 4461 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Bluechel, the rules were suspended, Substitute Senate Bill No. 4461 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.
ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 4461 and the bill passed the Senate by the following vote: Yeas, 48; excused, 1.

Excused: Senator Clarke—I.

THIRD READING

THIRD SUBSTITUTE HOUSE BILL NO. 179, by House Committee on Appropriations – Human Services (originally sponsored by House Committee on Human Services and Representatives Mitchell, Winsley, Houchen, Brekke, Wang, Patrick, Rinehart and Brown):

Creating the council on child abuse and neglect.

The Senate resumed consideration of Third Substitute House Bill No. 179, as amended by the Senate, from earlier today.

Debate ensued.

MOTIONS

On motion of Senator Ridder, Senator Hurley was excused.

On motion of Senator Bluechel, Senator Gould was excused.

The President declared the question before the Senate to be the roll call on final passage of Third Substitute House Bill No. 179, as amended by the Senate.

POINT OF INQUIRY

Senator Talmadge: "Senator Deccio, what is the intention with respect to the appropriation of the five dollars, the monies derived from the five dollar marital fee?"

Senator Deccio: "Senator Talmadge, the first $300,000 of the additional five dollars would go to finance the council for the first two years. Any monies in excess of that would go into the general fund to be reappropriated by the legislature."

Senator Talmadge: "So it is the intention to reappropriate these monies to the council on child abuse in the next biennium?"

Senator Deccio: "That would be up to the discretion of the legislature; but the monies would go back into the general fund."

ROLL CALL

The Secretary called the roll on the final passage of Third Substitute House Bill No. 179, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 39; nays, 7; excused, 3.

THIRD SUBSTITUTE HOUSE BILL NO. 179, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

PERSONAL PRIVILEGE

Senator Deccio: "We just had this bill setting up a council for sexual abuses of children. Whether it works or not is something that no one knows and that can be determined and further disposition made by the legislature.

"I guess the thing that I did want to do today was to point out one thing that very rarely ever happens around these halls. I haven't known this lady very long but I was impressed by the fact that she has been working on this project as a volunteer, didn't ask for any federal grants or any of those kinds of things in order to accomplish a goal that she thought was necessary.

"At this time I would like to have Senator McDermott stand and join me in introducing Bonnie Riach who has made this bill possible after about five years' work. Bonnie."

REMARKS BY SENATOR McDERMOTT

Senator McDermott: "Mr. President, I will now tell Alex a secret. I was on the child abuse council for a couple of years, and I worked with Mrs. Riach, and when she said 'We ought to put a bill into the legislature — would you introduce it?' I said 'No, I don't think this is the year for me to introduce bills. Why don't you go over to the Republicans and see if somebody won't sponsor your bill?' And it worked, Bonnie. Congratulations."

MOTION

REPORT OF STANDING COMMITTEE

February 12, 1982.

SENATE BILL NO. 3944, modifying the labor dispute disqualification for unemployment benefits (reported by Committee on Commerce and Labor):

MAJORITY recommendation: Do pass.

Signed by: Senators Quigg, Chairman; Jones, Newhouse, Sellar.

Passed to Committee on Rules for second reading.

POINT OF INFORMATION

Senator Vognild: "Thank you, Mr. President. I would like to inquire of the chair if Senate Bill 3944 is properly before this body? Senate Bill 3944 was reported out of commerce and labor at approximately 10:35 on a day when the senate convened at 10:30. I believe the tapes will show that Senator Williams indicated that the senate was in session, subject to rule 48 of the senate rules. I do not believe that the committee was properly in session and I therefore believe that reporting the bill out was an act that should not stand, and 3944 committee report should be refused."

REPLY BY THE PRESIDENT

President Cherberg: "The report of the standing committee is in order. The committee meeting was properly called. The President raises another question as to whether the senate actually had a quorum at approximately 10:35. Without a quorum, the senate was not in session, in the mind of the President.

'The President thinks this is a highly technical question and as long as the bill does have four signatures of the seven-person committee, it strikes the President that whereas the rule clearly states that no committee shall be in session, I think
THIRTY-SIXTH DAY, FEBRUARY 15, 1982

that is a little too technical for the President to rule the bill as being not properly before the senate.

"The President rules that the bill is properly before the senate. Passed to second reading."

Passed to Committee on Rules for second reading.
POINT OF INQUIRY

Senator Bottiger: "Senator Jones, we have this house/senate republican caucus resolution that supposedly is the cutoff date and I have been trying to put these bills that are coming in, being read in today, that are in violation of this Republican house/senate caucus resolution; and I am wondering, is there a new copy, has it been amended, are we changing . . . ?"

Senator Jones: "Not that I am aware of; there has been no change."

Senator Bottiger: "Well, this says that on 'Friday, February 12, shall be the final day to read in committee reports of senate bills, memorials, joint resolutions, in the senate,' and I presume the same thing is happening in the house and yet here it is Monday, the 15th, and we are still doing it."

Senator Jones: "I am not aware of this being an absolute rule at this moment, is it, Senator Bottiger, wasn't that your ... ?"

Senator Bottiger: "No, Senator, it is obvious it is not. It is not even a rule in your own caucus. I am just wondering if there has been an amendment?"

REMARKS BY SENATOR CLARKE

Senator Clarke: "Mr. President, responding, it has always been the prerogative of the majority to make determinations with respect to what it desires or does not desire to consider. It is certainly something that has been done by your side when it was in control and the fact that we have established what might be referred to as 'tentative goals' in order to endeavor to help us expedite the work of the session, should not be regarded as, nor do we suggest they be regarded as any type of mandated rule."

Authorizing payroll deductions for IRA’s.

MOTIONS

On motion of Senator Metcalf, Substitute Senate Bill No. 4697 was substituted for Senate Bill No. 4697 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Metcalf, the rules were suspended, Substitute Senate Bill No. 4697 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Goltz: "Senator Quigg, I intend to vote for this bill because it simply is an option for people to exercise which it should be available to everyone, a convenient way of doing it.

"But I do have a question as to the effect of putting money into IRA accounts. You have made it appear like this is going to be part of a Jobs Now program and I wonder if there is any justification for expecting that money in IRA accounts will actually do any good whatsoever in the state of Washington, when it is so easy to transfer the money from the IRA account to some other state or some other place where it could form the capital for some other good purpose?"

Senator Quigg: "Senator Goltz, in response to your question, I, too, considered limiting this to investments only in Washington state investment vehicles. But the problem we have in our state stems from a national problem of a shortage of savings. We save at about one-fifth the rate of other industrialized nations. And so the question of where these funds were to be saved, I felt should be best left to that state or municipal employee to decide, and should they choose to put it in a state employee credit union or a local savings and loan, or even a money market fund back East, I think the key is instead of, the individual's decision as to where that money will go. And I think we will find that when the state and municipal employees realize that the tax base of this state depends on a vigorous state economy, we are probably going to find them deciding to keep that money at home. But I think that is a choice for that individual and not necessarily for the legislature.

"And just to follow up. This is a national problem. The increase in savings that occurs in this country is going to help forest products economy based states. So whether we do it or whether somebody else does it, the key thing is that folks be allowed to keep more of what they earn and save more of what they earn should they choose to do so."

Debate ensued.

POINT OF INQUIRY

Senator Deccio: "Senator Quigg, I want to ask the same question I asked Mr. Masten in committee, as to whether or not the state of Washington is legally obligated for the guarantee or the production of any particular rate of interest on the part of that person who invests in an IRA?"

Senator Quigg: "Senator Deccio, the state of Washington would not be liable for any rate of return on an individual retirement account simply because it is an account that the individual has with a financial institution or investment house. This
bill simply authorizes a state or municipal agency to facilitate deposits on behalf of the employee by a payroll deduction and that is the extent of it. There is nothing here that would put the state or any of its municipal corporations in any position of liability for the funds invested in an individual retirement account any more than it would now if the state employee, without payroll deductions, went in and deposited some funds."

Senator Deccio: "Further, Senator Quigg, that would apply to any type of investment whether it is money market certificates, IRA, or any other form of investment where a payroll deduction is concerned?"

Senator Quigg: "That is correct, Senator Deccio.

Further debate ensued.

MOTION

On motion of Senator Bluechel, Senator Hayner was excused.

SECOND READING

SENATE BILL NO. 3617, by Senator Metcalf:
Implementing law relating to use of associated student body funds.

MOTIONS

On motion of Senator Metcalf, Substitute Senate Bill No. 3617 was substituted for Senate Bill No. 3617 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Metcalf, the rules were suspended, Substitute Senate Bill No. 3617 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Goltz: "Senator Metcalf, on line 18, in the new language, it says that 'Nothing in this section shall prevent moneys... and so on 'purposes as the appropriate governing body representing the associated student body shall determine,.. .' and I wonder whether the determination made by the associated student body in the new language is subject to the same approval as is required elsewhere in the section, having to do on line 4 and 5 with '... subject to the approval by the board of directors of the school district...'."

Senator Metcalf: "I am certain it would be subject to their approval; now whether or not they can authorize the associated student body, governing body, to go ahead with them having an oversight capability or not or whether they have to approve every budget item. I think this is to get away from them having to approve every budget item and that they still have the overriding authority, in my view."

Senator Goltz: "Well, the original language, Senator Metcalf, says that they may spend this money for a variety of purposes and they can budget, they are responsible for budgeting it, but that final approval rests with the school board of directors. And I think it is important that the new language still retained the approval of the board of directors of the school district, even though the language clarifies purposes for which the money can be budgeted by the associated student body."

Senator Metcalf: "Okay; in answer to this, my question would be, 'Are you asking whether the school board of directors for the Everett school district has to approve the...""

Senator Goltz: "Charitable use?"
Senator Metcalf: "... charitable use; for example, if the students of the school have a fund raiser to raise some money for a family that has burned out; this is what brought it to the attention of the people in Everett. A family had a home fire, they were burned out, and the students raised a bunch of money to help them, but they could not do that by their own authority, they had to go to the school board. And it is my opinion that this would allow, and I will defer to the committee chairman or others that were at the committee hearing, it is my opinion that this would allow them to do things like that with the board having oversight rather than to have to take each expenditure to the school board.

"Senator Bluechel or Senator Kiskaddon or Senator Hemstad may want to comment on this."

Senator Goltz: "I think it is very important that the school boards retain final approval of such expenditures, and if that is what this bill does, removes the school board from all of the scholarship, student exchange, and charitable purposes, that virtually, you know, that is a big loophole for associated students to drive through."

Senator Metcalf: "Anyone care to answer that further? It is my opinion that this would give them the oversight capability but not every specific, they don't have to take their school board meetings with every budget item."

Debate ensued.

POINT OF INQUIRY

Senator Pullen: 'Senator Metcalf, you are highly regarded as one of the outstanding senators who knows the Constitution and believes in adhering to the Constitution. And I am a little bit worried about this particular bill in that it specifies that these associated student body funds as not being public moneys and it seems to me that in the past they have been considered public moneys and my question for you is, how you can rationalize the constitutionality of this bill?"

Senator Metcalf: "Thank you, Senator Pullen. The constitutionality to me is clear in that the intent originally was to allow to happen exactly what this bill would allow to happen. Then an attorney general's ruling or a court ruling, and I think it was a court ruling, came along and botched up what was a workable system. And so we are trying to reestablish what is a workable system in the schools.

"If you are interested I would be very happy to go into detail relative to some of the problems that we now have. But I feel that this is not in any way in conflict with the Constitution — it's in conflict with a particular ruling, the particular ruling which caused the problem."

POINT OF INQUIRY

Senator Talmadge: "Senator Patterson, you said there were some winners and some losers. How does King county or any of the other larger counties do under this proposed measure?"

Senator Patterson: "King county is a winner. That probably, I guess that is what you were looking for. Some of the smaller counties in the state are going to be losers under it but there is a proviso in here where no one will lose more than 5% and obviously no one gains more than 5% under this formula."

(9) Maintain such records of the costs and benefits of the overall forms management program as may be necessary for executive and legislative program review and evaluation.

The governor, acting through the director of general administration, may delegate or assign program implementation responsibility under mutually developed agreements with various state agencies when such action will contribute to the economical, efficient, and effective accomplishment of the objectives of the overall state forms management program.

All state agencies shall cooperate with and support the development and implementation of the state–wide forms management program. To assist in the coordination and implementation of the forms management program, each state agency shall appoint at least one forms management representative who within three months of appointment shall have completed a forms management training course approved by the forms management center.
