POINT OF INQUIRY

Senator Patterson: "Senator Bauer, the concern I have, and I would like to have maybe some legislative intent, is that in case, say of a cloudburst, and you have a piece of property that ends up in a washout and destroyed; and yet the area, the total area was not determined to be a disaster area, whether or not that individual would have opportunity under this act, to have a reevaluation of his property, where it was not declared as a total disaster."

Senator Bauer: "The Governor or the legislative authority would have to take the first action by declaring it a disaster area. And until that is done, that area could not come under this bill."

Senator Patterson: "So you're saying that this act would not provide an opportunity for revaluation in the event of an isolated disaster, maybe not a whole area but as I say, a cloudburst and I am thinking of a particular case where the washout dumped ash all through the home and yet the whole area was not declared as a disaster area. And I'm wondering whether or not the county authority would have the authority to declare an individual's property for purposes of reevaluation?"

Senator Bauer: "I'm sure the intent would be that the county authority or the Governor could designate the area and declare that area under that designated area as a disaster. It might be small acreage or the whole state or whatever."

POINT OF INQUIRY

Senator Guess: "Senator Bauer, yesterday a group of us went down to the Cowlitz and followed the river from mile 24 down to the mouth. What we saw, dwarfed the imagination; and what I feel now, that this law, this bill that you have
for reevaluation, is only going to make up a part of the damage that those people suffered there.

"Would you have an objection when this bill is over in the House, that if we provided that the assessor not take into consideration any temporary easement that might be granted to those property owners by the department of natural resources, would you think about accepting that bill when it comes to the amendments to the bill when it comes back from the House?"

Senator Bauer: "From what you have said there and what you have indicated to me earlier, Senator, I see no problem with it at this time and I would support that situation."

The Reader of the Senate read the following letters to Senator Magnuson from Congressman Thomas S. Foley and President Reagan:
I regret that I cannot be there personally to add my voice to those paying tribute to a great man. For years I have benefited from the guidance and knowledge of Warren Magnuson as Washington State has grown and prospered from his service.

It is appropriate on this day as we pay tribute to you, Maggie, that we also pay tribute for the things you have done. As a result of your efforts, lives have been saved, medical knowledge furthered, wilderness areas set aside and farmland protected. In all, you have, in no small way, helped make this state great. We can never repay you for your compassion and concern—but we can thank you from the bottom of our hearts.

Sincerely,

THOMAS S. FOLEY, Majority Whip.

March 19, 1981

Dear Senator Magnuson:

I am very proud and happy to extend my congratulations and best wishes as your friends and former colleagues in the Washington State Legislature gather in a Joint Session to honor you.

"Maggie Day" is a special tribute to a special gentleman whose forty-four years in the United States Congress reflect your caring spirit and dedication not only to the people of your home state but to those of our great nation.

Nancy joins me in saluting you and your distinguished career.

With warm personal regard and, again, our congratulations.

Sincerely,

RONALD REAGAN, President.

TRIBUTES

Senator Bottiger: "Mr. President, members of the Legislature, I take great honor on speaking in behalf of the Democratic Caucus in the Senate, Maggie, to extend to you our tribute and our good wishes. I think each of us has a special story he could tell and the one that comes to mind most vividly to me is: Some few years ago when we had a problem with a tanker bill here in the Legislature—we had passed it; it got vetoed, and there were a couple of phone calls back to you and to your staff, explaining the problem and asking what could be done—of course, along came a little amendment to the Marine Mammal Act to preserve Puget Sound from the supertankers, hopefully for a long, long time to come in the future.

"More than any one story, I think what you left when you left the Senate, and what you contributed to all of us is more symbolic by the quality of the people you brought around you and the ability of you to collect the friends and instill the knowledge that you, and you alone, have. I think you have taught so much to so many that will last so long that this state will always have Warren Magnuson."

Senator Jones: "Mr. President, members of the Legislature, guests and fellow taxpayers (that gets us all into the act, I guess). Speaking for the Senate Majority Caucus, I would like to add these words, Senator Magnuson. We feel that it is appropriate that we pay tribute today to a man whose long and distinguished career began as a member of this body. You, armed with those legislative skills that you acquired here in Olympia, went on to represent this state in Washington, D.C. for over forty years. During that time you became a recognized leader in the areas of health care, communications and transportation. Your great love of the sea and its resources raised the issue of ocean policy to a level of national and international concern. You are a founding member of the bipartisan Northwest Coalition in the Congress with our neighbors from Idaho, Montana, Oregon and Alaska. The list of your accomplishments does seem endless, but in anyone's career there comes a time to pause and reflect on the record and it is in this spirit that we join together to honor you, Senator Magnuson."
Representative Gary Nelson: "Mr. President, ladies and gentlemen of the House and Senate, distinguished guests: I would like to reach back after having been reminded by the slides here today that when Warren G. Magnuson began his career here in the Washington State Legislature, he was known as the most expert and learned parliamentarian in these chambers. I guess the theory goes back that we had senators in public life who became identified with one major issue and we had others who became mechanics of this process, perhaps in a quiet fashion, and Warren G. Magnuson was known as the man who knew the process, sometimes being quiet until someone chose or gave him reason not to be quiet, and then Warren G. Magnuson let his feelings be known. I should point out to the new members of this body that learning the parliamentary maneuvers and learning how to make this process work is very important, and in his career here, Maggie was proof positive. Mr. Magnuson learned here, over half century ago, that good intentions are not always enough. That we must translate good intentions into good public policy. Sometimes, perhaps we didn't agree with Maggie's philosophy, but never did we question his good intentions.

"Mr. Magnuson, you've certainly made your mark on the citizens of the State of Washington and in this body. You began as a prosecuting attorney in the late twenties and early thirties. The state did have its gangster and undercover operation times even here in scandal-free Washington, and we are proud of the efforts you made on our behalf in taking that squeaky-clean reputation to Washington, D.C. as a congressman. Sir, we welcome you back today. We know that you will continue to make a contribution to our state. I guess we all should be careful because perhaps, sir, you may start over again in this legislature and most of us are getting to like our jobs."

Representative O'Brien: "Mr. President, ladies and gentlemen of the House and Senate, distinguished guests: Speaking on behalf of the Democratic Caucus, today we are honoring one of the most outstanding citizens of the Twentieth Century, Warren G. Magnuson, who began his elective public service career here in the Washington State House of Representatives. Today we are proud to have the opportunity to welcome you home, Warren.

"Warren G. Magnuson served in the 1933 Session of the Legislature and was Chairman of the Unemployment Relief Committee. Then, as now, we were very much concerned about the plight of the unemployed. At that time he introduced House Bill No. 88, an act relating to and providing for the development of the Grand Coulee Power and Irrigation Project. This bill was referred to his committee on Unemployment Relief, where for some reason, it never saw the light of day. I make reference to this incident only because, as many of you will recall, President John F. Kennedy, in his comments on Senator Warren Magnuson's achievements in the Senate, said that Senator Magnuson was an unassuming person, very humble in his relations with other Senators, and on one occasion, on the floor of the Senate asked them to support a little amendment to the budget bill which authorized the construction of the Grand Coulee Dam. Apparently Warren had been interested in that area for a long time.

"He rose to the highest position in the Senate, President Pro Tempore, which is constitutionally appointed third in line to the Presidency of the United States. We were all fully cognizant of the role he played as chairman of the all-powerful Senate Appropriations Committee, where he did more for our state than anyone in its history. His continued commitment to health care earned him the nickname of Mr. Health. In 1980, he was awarded an Honorary degree by the Georgetown University for his humane efforts in the field of health and welfare and students. The first bill he ever introduced in Congress established the National Cancer Institute which became the National Institute of Health. In 1973, he was the recipient of the Albert
Lasker Public Service and Health Award, which is considered by some to be as noteworthy as the Nobel Prize in medicine.

"One day at a reception in Washington, D.C., he commented that he had had a very difficult time with the budget that day where cuts had been made, and he said, 'You know the Senators are still talking to me and they are here tonight.' Which shows the deep affection that his fellow senators had for Warren Magnuson, and he had for them.

"Senator Magnuson was of tremendous assistance to us on the dedication of the Mother Joseph statue ceremony on May 1, 1980 in the national Capitol. He has been willing at all times, to be of service whenever called upon. His congressional staff and his long-time assistants were of great assistance to him. They were active and busy and he often referred to them as his 'bumblebees.' He had a great attraction for young people. Many wanted to serve on his staff as interns.

"Senator Warren G. Magnuson has received many rewards for his outstanding leadership and his assistance in the fields of education, consumer and environmental protection.

"Senator Magnuson will be sorely missed, not only by the people of this state, but the nation as a whole. We extend our best wishes to Warren Magnuson on his retirement from public service, and with the feeling that it must be a genuine source of personal satisfaction to him that his long and dedicated public service will be forever recognized in the annals of the history of the State of Washington and that he left a legacy to our state and nation that will be hard to surpass."

Speaker Polk: "Senator Magnuson, I am especially pleased and honored to participate in these proceedings, because what really unites all of us today is the fact that we are all here as legislators. Certainly, you, Senator, have had a long honorable service to our country and legislative productivity. One of the favorite things that visitors do when they visit the House of Representatives is walk around the offices upstairs on the fourth floor and see all the pictures of former legislators. Somewhere around 1933 is a fine one that has a handsome young freshman legislator with the name Magnuson under it. Do you remember what it was like around here in 1933? I don't, I have to confess, so I had to do a little bit of research. I thought as we go through the things we are going through this year it might be constructive to note what they were doing at that time.

"Things really haven't changed so much in the past thirty-five years, you'll find. Back then the press also clamored about the danger of prolonged legislative sessions, only then the headlines said, 'Solons predict 40-day session of the Legislature. Nelson sees little chance of legislative adjournment.' I can assure you, Senator, that is not our present majority leader but Senator L.H. Nelson. I note then, as now, government interference was a hotly debated topic. Thirty-six days of that particular session were spent on debating the state liquor system. This headline really fascinates me: 'Sale of liquor here confined to drug stores.' Right next to that is another headline which says: 'Legislators adjourn for lunch without deciding appropriation.' Some things never change. For a black Republican heart like mine, it was especially gratifying to note that the young Representative, Warren Magnuson, was in the forefront leading the fight for free enterprise as he opposed the state's intrusion into the free market in this question of the state liquor stores. I love this quote because the persuasion of the logic is overwhelming: 'My grandfather could produce and deliver bottled spirits faster than any state controlled agency.'

"In the area of committee work, very little has changed, my friends. Maggie's very first bill, just a little hummer to authorize state purchase of Grand Coulee Dam, didn't get out of committee. And of course there was a budget fight complete with court action to revise the 1934 education budget. So Senator, on this occasion, it ought to give us a lot of hope. Take special heed, freshmen legislators, who
thought it difficult to move your bill out of committee, that Maggie made it through all the adversities of being a legislator and how!

"Senator Magnuson, it is a pleasure for me today to present to you another plaque. I guess my role today is as a presenter. This reads, 'Since 1931 Warren Grant Magnuson has set the highest standards for public service. His dedication to the best interests of his constituents, the environment, the well-being of this nation and its people are hallmarks of his unparalleled career and an inspiration to legislators everywhere.' Thank you, Maggie."

President Cherberg: "Ladies and gentlemen, it is now my pleasure to perform one of the most rewarding acts I've done in my life. I'd like to say that behind every man who has ever climbed to the heights of success that Senator Magnuson has reached, there is a strong woman behind him holding the ladder—Jermaine Magnuson."

The President of the Senate presented Mrs. Magnuson with a bouquet of roses.

President Cherberg: "The best way to introduce the Governor is to do it short and simply, but I don't want to do that in this particular instance because I believe that most of you know that John Spellman's father, Bart Spellman, was a football coach at the University of Washington at the time that Senator Magnuson was an outstanding quarterback. Therefore, Senator Magnuson knew the Spellman family before John did. There's one other little angle, that being that Bart Spellman was also a coach at the University of Washington when I was trying to be a football player. I at least knew the Spellman family when John was maybe two or three years old. Now it is with great pleasure and high honor that I introduce, with all due respect and affection, His Excellency, the Governor of the State of Washington."

Governor Spellman: "Let me first say how happy I am Mr. President, distinguished members of the Legislature, honored guests, everyone, to be here to honor Senator Magnuson. Yes, Lieutenant Governor Cherberg, the Senator and I go back a long way. He not only, of course, played football with my father, but I know the night he was first elected he spent most of the night with my father.

I know also that he appointed my brother to the United States Military Academy and introduced me to the Supreme Court when I was first admitted to the bar, so we go back a long way. There is little to say about the history of Senator Magnuson's career as others have already said it so eloquently. I will read you a proclamation after while.

I think the Senator typifies a couple of things. First of all, Sam Rayburn's statement that, very early on, he learned to disagree without being disagreeable, which is a great virtue in public life. The thing that sticks out—I was trying to think what thing really does stand out—was maybe two years ago. I was in Washington D.C. as County Executive—and I have to add the Senator didn't start his political career in Olympia, he started in King County as prosecutor and a darn good one—I had to leave his office to go somewhere else and the Senator, who was Senate Leader Pro Temp, arranged for me to have a ride. It was, of course a very special car, with a hotline to the White House. The gentleman who was driving the car was somewhat senior, and we struck up a conversation, and I asked him about himself. He said, 'Well, I was the driver for Hubert Humphrey for the last few years of his life and the Senate assigned me to that position. When Senator Humphrey died, a lot of me died with him.' He said Humphrey was such a warm and caring man and he was confident that the void in his heart would never be filled. Then he concluded by saying, 'It has been filled. I called Muriel Humphrey the other day and told her that my period of sorrow was over, that Warren Magnuson has filled that position for me, because he is a man who really cares about people. About the people who drive him in the car, about people he meets on the street.' I think that is the outstanding
characteristic about Maggie. He has had an illustrious career, but based on the fact
he cares about each individual person, no matter what their walk of life.

"So, as Governor, I'd like to read a proclamation:

WHEREAS, Warren Grant Magnuson has served the people of Washington
State with extraordinary distinction for forty-eight years, including thirty-
four years as this state's senior United States Senator; and
WHEREAS, he has displayed national leadership in the fields of consumer
protection, health care, and environmental quality, among many others; and
WHEREAS, he has made inestimable contributions to the economic prosperity
and enviable quality of life this state enjoys; and
WHEREAS, he demonstrated that public officials can and must work as a
team if the well-being of the people is to be protected and enhanced; and
WHEREAS, he proved that humor and good will have a place in politics, while
enmity should not; and
WHEREAS, he has been a legislative master who was always there, and
always ready, whenever we needed him; and
WHEREAS, he is affectionately known as "Maggie" in every corner of his
state; and
WHEREAS, we will heed his example always, but will not see his equal again;
and
WHEREAS, it is fitting that we, the people, should pause to honor him and
thank him, and show him the respect and admiration we feel for him and
his great life's work:
NOW THEREFORE, I, John Spellman, Governor of the State of Washington,
hereby proclaim Thursday, March 19, 1981, as

MAGGIE DAY

and urge all citizens of the state to follow the great example set forth by
this very great American.

Signed, this 19th day of March, 1981

JOHN SPELLMAN, Governor.

President Cherberg: "Honored ladies and gentlemen, on several occasions the
President has had the opportunity to be present when Senator Magnuson has
received glowing introductions. On such occasions, the Senator would generally
reply that if his father had happened to be present he would have enjoyed the
remarks, but if his mother were present she would have believed them.

"Senator Magnuson, you have received the highest of accolades that the mem-
bers of the Legislature and the officials of state government have been able to impart
to you. I'm sure that every person in the House who has heard these remarks
believes every word. I certainly do. I tried to do the best I could to introduce Gover-
nor Spellman and the best way, I believe, to introduce Warren Grant Magnuson is
to just say, 'Here's Maggie!'"

Senator Magnuson: "Governor Spellman, John, Mr. Speaker, members of the
Supreme Court, fellow legislators, ladies and gentlemen: I am a little bit over-
whelmed and I suppose I ought to just say thank you and sit down and quit while
I'm ahead, but I know you'll be patient with me and listen to a few remarks that I
have prepared for this occasion.

"It was here, as has been mentioned so many times today, that my own life as a
legislator started. I sat down there in the second aisle seat and that was 48 years
ago. That's half a century almost. So there's a flood of memories—good memories—
that well up in my body when I look at this Chamber. I'm sure that as I sat there
that I never believed in my wildest dreams that I would be back here today, a half
century later, speaking to this group. But the Lord has been good to me. He's kept me well and healthy and here I am.

*Although I do not expect this to be my last visit here or with many of you, the fact that I now have a greater degree of freedom to say what I might makes it even more difficult to single out what I wish to say to you today. But knowing that some of you might have the good fortune, or the curse, whichever you want to call it, to serve as a legislator as long as I have, I want to say a few things about legislators. Although the problems facing you during this session loom large, they differ mainly in degrees to what my colleagues and I faced right here in 1933. They differ little from what all members of all legislative bodies in our nation have faced. They always boil down to just how to cope with the problems of the day. I've learned one thing, there aren't any new problems. There's just more of them. That's all—more of them—as the country gets bigger. I am always reminded of that. I have the front page of the New York Times from the day I was born and I can read all of the articles. Newspapers didn't have headlines in those days; they had little stories and everything was on the front page. All I have to do is change the names and the dates and it's the same old story. To meet the challenges of the day is the responsibility that we all assume when we seek legislative office—it is the burden of all who sit in legislative halls. Legislators—John, with due respect to the executive department—are the true keepers of the flame and we must be mindful of just how that happened and how all this got started in our nation.

*After the constitutional convention finally adjourned in Philadelphia and Benjamin Franklin walked out into the square, there was a crowd there and someone asked him, 'What kind of a government did you give us, Ben—a democracy?' He answered, 'No, we gave you a republic, if we can just make it work.' And we've made it work for over 200 years, haven't we?

*A republic means representative government, which you people are. Making it work is what legislating and legislators are all about; you are the power; you're the source, and you delegate out, as it were, to the executive, but elected representatives like yourselves must go about doing the people's business. Sometimes I think the reason we have more executives is because you can't be in session all the time and you've got to leave it up to the good will or at least the foresight or the hindsight of the executive who will carry out what you do.

*I know you must go about doing the people's business in their name and in their best interests and as each of you see it, trying to do what is best for all and not just what the loudest might demand. Now to ignore the problems of our constituents is one option that legislators have, but that is often an option that undermines public confidence. I know that most legislators, most of them, want to address themselves to the issues of the time. I've found, however, that legislators have varying degrees of looking at the same problems and that divergence of views causes problems within the legislature. But down deep all legislators—all of them that I know—Republicans and Democrats in the Congress—I've served with many of them—share the same goals. They want to do what is best for our state and the nation. It's just how to go about it that causes division, but that keeps things interesting, doesn't it? Some problems, I've found, might only need public exposure or extensive hearings and debate and review. Just talking it out, many of we legislators can talk it out without getting into legislation, might help resolve things without positive action. Whatever the problems that a significant number of our constituents face, that is the proper business of legislators. Legislative bodies are the repository of the people's power to do or not to do things. Only you can act. Executives carry out what the legislators direct. And that's just what Ben Franklin meant when he said, 'It's a republic.' It's a representative government, so you are very important people.

*If there is a single hallmark to my own career as a legislator, it was that I was in a position to accept a number of those challenges, delve into the problems and
explore the possible solutions with a vast number of experts and concerned citizens. I don't know how many hours and days and weeks I've spent in extensive hearings and listened to people like you're doing right now. Whenever a consensus was attainable we tried to make the solution work. And so, over the years I've found, as I mentioned earlier, there were not so many new problems—more often they were variations of old problems caused by growth in the country.

"It was mentioned here today that I was made chairman of the Unemployment Committee, a special committee formed in the 1933 Legislature. If you think you're having trouble with unemployment now, you should have been here then. We had hunger marches down in Olympia; people actually hungry. We appropriated the big sum of ten million for a bond issue to handle the unemployed—ten million dollars. We went through that depression period and we came out of it. We were very important people. It is another duty of legislators to see that change evolves slowly to meet the conditions of the time. It is never easy to determine that and to make that decision. There's a legislative prayer. It goes something like this:

"Oh Lord, give me the courage to change what needs to be changed; give me the humility to accept what can't be changed; but above all, Lord, give me the wisdom to discern between the two." That's a legislative prayer.

"Change, itself, is inevitable in our institutions, especially the legislative, and you are designed to be responsive to the need for change. Most of the forces seeking change today are represented within legislative bodies, and they can all be heard right here. The marvelous, resilient, adaptable energy of our free political system should focus right here with you. To me evolution of legislation is the most appropriate engine for change. Now there have always been those opposed to any change; their approach to politics is negative. The media has a habit of grading legislative bodies according to the number of bills they pass. They have a chart. Well, I can tell them, and you can tell them, that it's sometimes harder to kill a bill than it is to pass one. That takes some doing. It could be that if a legislature did nothing—didn't do anything affirmative, except the housekeeping, which they have to do—it could be listed as a good legislature. Some people would like that. That's why our forefathers in the State of Washington limited us to a sixty-day session. We used to stop the clock; you don't do that anymore—we'd stop the clock and go on for awhile, not too long, but we had to stay in session continuously. Everybody had a bet around here.

"Some people just don't trust government anymore but, deep down, maybe they don't trust people either. But we must trust government and we must trust the people; for government is the one institution that the people, collectively, put in place to meet whatever needs the people might have. Government remains ever accountable to the people and, through them, that means you. It is a legislator's duty to see that government works well so it will be trusted. Whether it be the town meetings of colonial days or legislative chambers like this, it is right here, with legislators like yourselves, where all public issues come home to roost. It is right here where the job must be done.

"I have received a great honor today. Jermaine and I are quite proud of it; very humble about it, and it is with no small amount of envy that I view the challenges that you face and your position to do something about them. I know you will meet those challenges and you will try to represent your constituents the very best you know how as you see it. You may see differently from your colleagues but, as I say, that's what makes things interesting.

"The other day at a press conference some reporters asked me what I'd learned in 48 years as a legislator. That's a tough question. I had to pause and think awhile. I looked back over my service and thought that you can't be an efficient legislator unless you have the respect of your colleagues. That's the main thing and one of the main ingredients for that respect is, first and most important, your word must be
good. Perhaps it's a little old fashioned but your word in legislative bodies should be as good as your bond. You don't have time to make written contracts.

"Another thing I've learned is most legislators get into trouble because they talk too much. No legislator is defeated by what he didn't say. There are show horses in legislative bodies and there are work horses. The work horses usually stay and the show horses sometimes run into political trouble. They prance and show off too much. I'm of the work horse school in a legislative body. I also learned that if you have the votes you don't need to make a speech.

"I'm a good example of that. A Senator named Harry Berg, Sr. had been trying for years to abolish the RFC. He didn't talk very much. His son succeeded him and he didn't talk very much either. He won by one vote to abolish the RFC. His colleague was absent that day and had worked for a week on his speech and he wanted to give it, so Harry Berg, to help him out, moved to reconsider the vote and let his colleague give his speech. His colleague made his 1-hour speech against the evils of the RFC and they called for the roll again and they lost by 2 votes.

"The last thing I've learned is you must gauge your decisions on all legislative matters by asking yourself, 'Is this in the best interests of the state or nation?'—not just what might please some single-issue interest group. Do not give in to the tyranny of single-issue politics. You are here to represent everyone in the state whether you're a Republican or Democrat. I wish you every success in your duties. And I wish some of you have the same good luck that followed me in my own legislative endeavors. In time to come we might even work together on specific issues or public programs for I am not about to lay aside all of my interests and concerns in the public realm. I don't think I'll run for the legislature because I live in the 37th District—the district I represented in Congress—but I couldn't beat George Fleming because he's too good a Senator. You know we had a lame duck session in Congress after the election and someone characterized me—all the columnists—that I wasn't a lame duck; I'm a retired rooster. The rooster is about ready to crow again every once in awhile even though he's retired.

"In closing, if I did not express fully, for both myself and Jermaine, our heartfelt thanks to all those here who have been so considerate, so helpful and kind to us over the years. That you've all been so kind does me honor enough. Good luck—and God bless." (Applause)

On motion of Senator Clarke, the Senate commenced consideration of gubernatorial appointment 371, Donald W. Moos.
CONFIRMATION OF GUBERNATORIAL APPOINTMENT
MOTION

The Secretary called the roll. The appointment was confirmed by the Senate by the following vote: Yeas, 49.

SPECIAL ORDER OF BUSINESS

ENGROSSED SUBSTITUTE HOUSE BILL NO. 166, by Committee on Education (originally sponsored by Representatives McDonald, Taylor, Chandler, Bond, Flanagan, Barr, Smith, Wilson, McGinnis, Struthers, Lundquist and Amen):

Implementing law relating to payment of school district personnel.

The time having arrived, the Senate resumed consideration of Engrossed Substitute House Bill No. 166. On March 13, 1981, the measure failed to pass the Senate. On that day, Senator Hurley gave notice of reconsideration. On March 16, 1981, Senator Hurley moved the Senate reconsider the vote by which Engrossed Substitute House Bill No. 166 failed to pass the Senate. At that time, on motion of Senator Bottiger, and amended by Senator Fleming, the motion for reconsideration was made a special order of business for March 19, 1981 immediately upon convening on a roll call vote.

Debate ensued.

President Cherberg: "The special order of business. A motion by Senator Hurley that the Senate reconsider the vote by which Engrossed Substitute House Bill No. 166 failed to pass."

Senator Bottiger: "Mr. President, having voted on the prevailing side . . ." President Cherberg: "The motion to reconsider has already been announced, Senator. No action has taken place."

Senator Bottiger: "Mr. President, members of the Senate.

"The purpose of the motion to reconsider the vote by which House Bill 166 failed was to permit us to prepare an amendment that would provide the necessary tightening down of the language in 166 and yet still permit collective bargaining. Now the amendment is on your desk and I now move to commit the bill to the . . ."

President Cherberg: "Senator Bottiger, the President believes that the Senate will have to act on the reconsideration motion in order to have the bill before the Senate."
PARLIAMENTARY INQUIRY

Senator Hurley: "Point of parliamentary procedure, then. The bill has failed and a negative vote, a vote 'no' would mean the bill would continue in its failed state, a vote 'yes' would put the bill back for reconsideration."

REPLY BY THE PRESIDENT

President Cherberg: "Be back before the Senate for disposition. Senator Hurley."

REMARKS BY SENATOR HURLEY

Senator Hurley: "Mr. President and members of the Senate.

The remarks that I intended to make on final passage, I am not sure they are going to be made on final passage, so I think probably I had better make them now, in support of your vote for reconsideration of, because of the failure of 166 last week.

I intend to vote 'yes' on 166 today if I have a chance and I have a few compelling reasons why I want to do this. I want to put us back on the road to equalization of educational opportunities for children, based as they were when we established that program a number of years ago on teachers' salaries.

And I think 166 will be a strong disincentive for teachers' strikes, and a benefit for parents and children throughout the state, and I'm thinking in particularly of my area over there in Spokane.

As far as the argument for local control goes, I just want to say that I am for local control. But local control, to me, means the ability on the part of school directors to say 'yes' or 'no.' However, what we seem to have is not local control, but lack of local control. And I can understand that. It gets to be an impossible situation when a strike is called the day school starts in the fall, or is supposed to start. And these strikes tend to go on for weeks and weeks. Parents get frantic because the children aren't in school; and even the children get antsy and begin to think of school as maybe a pretty good thing. And frustrated school boards look everywhere they can with the possibility of snatching at some funds in order to add them to the salaries and put the teachers back to work and schools back in operation.

They find these funds. They find them in leftover reserves, they find them in supplies and books, and they find them in special programs for children. And I am one who thinks that school is for children; school is not for teachers; school is for children. And I speak from long many years of experience; I always thought that if I were ever compelled to strike I would not do it and we had these talks out many, many times in front of our own district there in the valley.

Now each time legislative guidelines are exceeded, guidelines for salaries are exceeded, then the time for the equalization to be completed is extended. And as the rate of equalization extends, there comes a possibility that we will never have equalization at all. And this is the program we started out on in 1977 under a court mandate. I am for it and this is one of the reasons why I strongly support 166."

REMARKS BY SENATOR HUGHES

Senator Hughes: "Mr. President, members of the Senate.

Responding to the remarks of Senator Hurley, both Senator Hurley and I are within a district that had a strike. I have introduced legislation for the last three sessions that addresses the issue of strikes. It requires binding arbitration. That bill still sits with this body.

You want to insure prevention of strikes; that is the proper mode to go. I think Senator Hurley's reasoning is faulty. This will insure strikes and it will insure them,
not on a district level, but on a statewide level. And I think the individual teacher will no longer look to his local association and his local school board.

"What we saw yesterday will be nothing compared to what you will see in the future. I, too, care about children; I have taught for thirteen years in the school system. And I don't think there is anything anywhere in the Durand decision that requires equality of pay and there isn't any member on this floor right now could stand and cite any portion of the Durand decision that requires that.

"What we are doing is taking a very simplistic approach to a very complex problem and we're going to tie the hands of school boards to recruit the best teachers in the areas where it may be most difficult to teach in. And this is just one step in a long series of removing local control and local authority.

"I will make a prediction and I have never been more confident in my life; if we pass this legislation we will regret it more than anything we have done in recent times."

Senator Gaspard demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the motion by Senator Hurley that the Senate reconsider the vote by which Engrossed Substitute House Bill No. 166 failed to pass the Senate.

ROLL CALL ON MOTION FOR RECONSIDERATION

The Secretary called the roll and the motion for reconsideration carried by the following vote: Yeas, 27; nays, 22.

Voting yea: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hansen, Hayner, Hemstad, Hurley, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, Wilson, Zimmerman—27.

MOTION

Senator Bottiger: "Mr. President, I move that Senate Bill 166 be committed to the Senate committee on education with instructions to consider the amendment proposed by Senators Gaspard, Hansen and Bauer which is on the desks."

President Cherberg: "Senator Bottiger has moved that Engrossed Substitute House Bill Number 166 be committed to the Senate committee on education for the purpose of considering an amendment."

POINT OF ORDER

Senator Clarke: "Mr. President, Point of Order."

President Cherberg: "Senator Clarke will please state his point."

Senator Clarke: "Point of order. Is the motion not in order until the bill has been returned to second reading which takes a suspension of the rules.

"The bill is presently on third reading and the ruling of the chair has always been that, in order to revert, since it takes a two-thirds majority to advance in suspension of the rules, but it also takes a two-thirds majority to, in effect, return the bill to second reading.

"Now I am quite aware of rule 73 which says that 'A bill may be committed with special instructions to amend at any time before taking the final vote.' I submit, however, that that relates to a bill which, in effect, is in a second reading status because if the entire body is not in a position to amend when it's on third reading,
and it takes a suspension of the rules to return from third to second reading, certainly a committee which is but an arm of the body, is in no position to receive and consider amendments on a bill when the bill is in third reading capacity.

"So my Point of Order is that, unless and until the bill is returned to second reading for amendment, the motion by Senator Bottiger is not in order."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, speaking to the Point of Order, the rule is clear, unambiguous, plain on its face. 'A bill may be committed with special instructions to amend at any time before taking the final vote.' Now if that were not clear and it needed an interpretation, we could argue the reasoning. But when a rule is that clear it seems to me, Mr. President, that it speaks for itself."

REMARKS BY SENATOR CLARKE

Senator Clarke: "The answer simply is that the obvious reasoning for the rule 73, is that where the Senate has, in effect, the bill on second reading, so that amendments are properly considered by the Senate, the Senate may well feel that it is not in a position to suggest or consider amendments, and for that reason would want to return a bill to a committee in order that the committee should give more specific consideration and deliberation with respect to proposed amendments.

"Now the fact that a bill may be committed with special instructions at any time does not mean that the bill must be in a second reading position. In other words at any time before the final vote, the body, if it so desires, may amend the rules and return the bill to second reading at which time a motion would be proper to send the bill to committee in order that the committee should consider the particular amendment."

REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "In rule 66, would indicate that 'When a motion is made to refer a subject, and different committees are proposed, the question shall be taken in the following order: first, the committee of the whole senate; second, a standing committee; third, a select committee.' And in addition to that, we've had many motions on this floor recently to relieve the rules committee and bring it out on the floor or transfer between committees. I think that's the pleasure of the body at any time; doesn't matter whether it's on third reading or second reading or could be even first reading.

"So I don't think Senator Clarke's Point of Order is well taken."

RULING BY THE PRESIDENT

President Cherberg: "Senator Clarke, in ruling upon your Point of Order, the President believes that many of your remarks are correct inasmuch as in order to return a bill from third reading or final passage to second reading, that it would require two-thirds vote. However, the President believes that rule 73 is quite explicit inasmuch as it states that 'A bill may be committed with special instructions to amend at any time before taking the final vote.'

"The President believes that is quite clear and specific and permits the motion to be in order. Senator Bottiger."

The motion by Senator Bottiger was ruled to be in order.

Debate ensued.
PARLIAMENTARY INQUIRY

Senator Newhouse: "Two-pronged, I guess, Mr. President. With the motion to commit with instructions to consider a certain amendment, is that limiting to that amendment and do you consider that specific instructions?"

REPLY BY THE PRESIDENT

President Cherberg: "The motion to commit with instructions opens up the main question. The President believes if the Senate acts favorably upon the motion that the bill, in essence, will take the course of a new bill."

PARLIAMENTARY INQUIRY

Senator Newhouse: "And when it comes back to the body, if it comes back, would be again on third reading or again on second?"

REPLY BY THE PRESIDENT

President Cherberg: "The President believes it would be on second reading, Senator Newhouse."

REMARKS BY SENATOR GASPARD

Senator Gaspard: "Mr. President, members of the Senate. I also rise to urge the body to support Senator Bottiger's motion to send this bill back to committee with the instructions of considering the amendment that is before us.

"Many of us are concerned about what is happening in our school districts these days; but I think our concern ought to be, and ought to focus around local control. I am afraid if we take 166 in its present form, that we will no longer have local control in our school districts. . . . tried to come up with an alternative. This is our second alternative. We felt our first one was a good one, but it was defeated; and now I guess we would like to try again and even with stricter language.

"As Senator Bottiger indicated, this language would still allow for some bargaining, but bargaining that would be very, very limited in scope. If you look at the provisos, the two provisos in the amendment that is offered by myself and Senator Hansen and Senator Bauer. The first RCW reference is to the basic education law. The reference is, that in order to increase compensation levels for employees in basic education programs above that amount, specifically provided in the budget, we can't do; we can't go beyond that.

"The second RCW reference deals with the categorical and we can't take money out of categorical to give across-the-board salary increases.

"Not much is left. But I ask you, how do school districts develop a surplus in the first place? I would hope it would be because of good management, and not at the expense of the teaching profession, not at the expense of the students, but good management. And if we want good management, shouldn't we be able to reward those people who do a good job? Shouldn't they be able to negotiate for something that's higher than what the state provides, if there is good management in a school district? I think they should.

"We also recognize that if they do that, the state will not pick up the cost and the state will not assume that to be . . . for the next year when . . . state's money for salaries. It is not only teachers' salaries but it is administrative salaries, it's superintendents' salaries. Last school year the average salary for classroom teacher was $18,800.

"The superintendent of public instruction of the state of Washington is paid $42,500. There are approximately 81 local school district superintendents that make
more money than the state superintendent of public instruction, a couple of them almost to the range of $70,000 a year. Now those costs are figured in when we look at the over-all average, when we are talking about salaries.

"I guess if we are really concerned about salaries, maybe we ought to look at the top level and stop picking on the person who is there to do the job and to teach the students of this state. With so many restrictions and so many burdens on the classroom teacher that we've made it so difficult for them to do the job that they're hired to do, and that's to teach. Maybe if we took some of these restrictions off, we would see a better product in our students then we are seeing today.

"I think it is important that we consider this motion because I think it's important that we think twice about the alternatives that this amendment will provide. I think we ought to think twice before we make local control of education a mere shadow of a slogan because that's what we will do if this motion doesn't pass and we pass 166, in its present form. I think we should think twice before we trample over the collective bargaining rights of about 50,000 citizens of the state of Washington. I think we should think twice before we establish a new superagency because it is going to take more money, more bureaucracy, to deal with the salary issue for over three hundred separate and local school districts.

"I think that we should let the people of the state of Washington know that we can put partisanship below public responsibility. And I think it is important that we work together for people than against one another for partisanship."

**REMARKS BY SENATOR CLARKE**

Senator Clarke: "Thank you, Mr. President, speaking against the amendment, it is obvious that what is attempted to be done here is to use an apparent technicality in the rules to, in effect, circumvent what the Senate has already done. We have debated this bill on second reading with all sorts of amendments; it has reached third reading. Now the proposed motion, I call your attention, is to send it back to committee with specific instructions as to a specific amendment. Now that cannot be done, to ask the Senate itself to consider that amendment, so the idea, in effect, of opening the whole subject up again and sending it back to committee with specific instructions to do something which cannot be done by the Senate as a body who is sitting here, go over things that have already been debated, makes no sense whatsoever and I urge your rejection of the motion."

Senator Fleming: "I'd like to demand a roll call, please."

President Cherberg: "Senator Fleming has demanded a roll call on the question; do one-sixth of the members present join in the demand?"

"The demand for the roll call is sustained."

**POINT OF INQUIRY**

Senator Fleming: "Mr. President, would Senator Clarke yield to a question?"

"Senator Clarke, you will not yield, but I will ask the question anyway. You spoke in terms of the curiosity of this particular move. It's been made before but you also spoke in terms of this motion sending the bill back to committee with specific instructions to consider amendments."

"Would you be willing and those members on your side of the aisle who might vote against this motion, would you be willing to send the bill back to second reading and support that motion with the vote to take it there?"

Senator Clarke: "In response to the question, I would say 'no.' My remarks were that the bill was thoroughly considered on second reading; there was ample opportunity to offer any and all amendments; the body advanced the bill to third reading. It was held over because you decided that you didn't want to bump it so this can be nothing else but a further delaying tactic."
REMARKS BY SENATOR BOTTIGGER

Senator Bottiger: "Mr. President and members of the Senate.

"There's something that's going unsaid here and that is that the budget which sets the range of appropriations to the school districts of the state, hasn't yet been heard. Now we understand that you've been discussing it in your caucus but we would like to know what that budget is going to look like in the way of the ratio of FTEs to school students, to kids in the classrooms, what changes are going to be made; and we are concerned as to why House Bill 166 has to go ahead of that. It's a House bill; we're considering it before the budget. Now there has to be a reason why this thing has got so important that it has to go ahead. And we are becoming a little suspicious that that budget's going to have some language in it that it will be too late for you or us to do anything about it if 166 is already passed.

"We would just like to warn a concern of ours that might be shared by a lot more people very shortly."

Senator Fleming demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the motion by Senator Bottiger that Engrossed Substitute House Bill No. 166 be referred to the Committee on Education with instructions.

ROLL CALL

The Secretary called the roll and the motion by Senator Bottiger failed by the following vote: Yeas, 24; nays, 25.

The President declared the question before the Senate to be the roll call on final passage of Engrossed Substitute House Bill No. 166, on reconsideration.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute House Bill No. 166 and the bill passed the Senate, on reconsideration, by the following vote: Yeas, 26; nays, 23.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 166, having received the constitutional majority, was declared passed on reconsideration. There being no objection, the title of the bill was ordered to stand as the title of the act.

PARLIAMENTARY INQUIRY

Senator McDermott: "Mr. President, I will read the parliamentary inquiry and submit it to you for your consideration. When this Senate initially convenes as a
publicly elected body, determines its membership, elects its officers, selects its committee chairmen, membership and staff, adopts its permanent rules or relies on the permanent rules of the previous biennium, and notifies the House of Representatives and the Governor that it is organized and ready to conduct the public business, then for the sake of the institutional stability and the integrity of this Senate as a public body, is this Senate permanently organized for the biennium as a fundamental constitutional principle under Article I of the Washington State Constitution so as to efficiently and orderly accomplish the public business?"

POINT OF ORDER

Senator Clarke: "I raise the Point of Order on two grounds, first, that the inquiry is not timely in that it relates to a matter that the Senate has as a body, has already taken action upon so that therefore the matter is not properly one for determination by the presiding officer, having already been acted upon and decided by the body; also for the further reason that it relates to a matter that is not currently before the body."

REMARKS BY SENATOR McDERMOTT

Senator McDermott: "Mr. President, in answer to Senator Clarke, a parliamentary inquiry on a constitutional issue is always timely."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Clarke, Senator McDermott, the other members of the Senate. The President has traditionally taken the position that it is not the prerogative of the President to rule on constitutional matters."

MOTION

On motion of Senator Clarke, the Senate advanced to the eighth order of business.

MOTION

On motion of Senator McDermott, there being no objection, the Parliamentary Inquiry made by Senator McDermott on March 13, 1981 was withdrawn.

MOTIONS

On motion of Senator Lee, the Committee on Financial Institutions and Insurance was relieved from further consideration of Senate Bill No. 3821.

On motion of Senator Lee, Senate Bill No. 3821 was rereferred to the Committee on Higher Education.

On motion of Senator Lee, the Committee on Natural Resources was relieved from further consideration of Senate Bill No. 3978.

On motion of Senator Lee, Senate Bill No. 3978 was rereferred to the Committee on Ways and Means.

MOTION

Having given prior notice, Senator Charnley moved the Senate do now consider Senate Resolution 1981—33.
MOTION

Senator Hayner moved Senate Resolution 1981—33 be referred to the Committee on Rules.

PARLIAMENTARY INQUIRY

Senator McDermott: "Mr. President, in responding to my parliamentary inquiry, you said it was your custom not to rule on questions of constitutional issues. Is that your decision in this case?"

REPLY BY THE PRESIDENT

President Cherberg: "Yes, Senator McDermott."

POINT OF INQUIRY

Senator Bottiger: "Mr. President, I would like to ask Senator Sellar a question that is of import and I know of no way technically, to do it under the rules except just to get up and ask him if he will yield to a question.

"Senator Sellar, the meeting announcement for the financial institutions and insurance committee on House Bill 31 has been published which would indicate an 8 o'clock Wednesday, March 25, and you sent us notice of that; and then Friday at 8 o'clock, a public testimony; and then Friday, that same Friday at 2 o'clock, work session.

"And we had some people that we would like to invite to testify, and I'm wondering if you could give us an indication of, is the single two-hour public testimony hearing the only hearing that will be held for testimony?"

Senator Sellar: "Senator Bottiger, when we get the work session we can certainly allow some additional testimony in work session as we get working on the amendment. The following week, I intend to follow exactly the same schedule, so there'll be an 8 a.m. and a Friday, so we will follow the same schedule for two weeks. It is hopeful that we can deal with substantial amendments to the bill and get through it in that time frame. If we can't, we will have to do something else. But the following week, we will have the same schedule."

POINT OF ORDER

Senator Chamley: "My Point of Order is that, if I may speak on my motion which was before the body."

RULING BY THE PRESIDENT

President Cherberg: "The motion is open to amendment. You may speak on your motion, but . . . ."

Senator Hayner: "Would not my motion take precedence over his?"

President Cherberg: "Yes, Senator, on the motion to refer the resolution to the rules committee."

The President declared the question before the Senate to be the motion by Senator Hayner that Senate Resolution 1981—33 be referred to the Committee on Rules.

Debate ensued.

Senator Bottiger demanded a roll call and the demand was sustained.

POINT OF INQUIRY

Senator Hughes: "Thank you, Mr. President and members of the Senate."
"I wonder if Senator Hayner would yield to a question? Perhaps I could ask the question to the body, then.

"I wonder what purpose would be served, Mr. President and members of the Senate, to deny the public the right to know how each member voted on issues that affect something as profound as the budget? I just find it absolutely unacceptable to hear that we might slow down the process by having a roll call vote, and at the same time, denying knowledge to the public.

"I think this is obviously a fallacious argument, a very simple amendment that we do not wish to deny the public a basic right; we should act on this motion at this time."

(Senator Hayner declined to yield.)
Further debate ensued.

PARLIAMENTARY INQUIRY

Senator Gaspard: "Mr. President, would you inform me: is a resolution considered to be a bill? The reason I ask, under the Senate rules here we have what are called 'bills,' we have 'joint resolutions,' and 'memorials.' There seems to be a distinction."

President Cherberg: "Are you talking about a floor resolution, Senator?"

Senator Gaspard: "Mr. President, I am speaking specifically to senate resolution 1981—33."

Senator Hayner: "Sixty-four says that '... resolutions shall be subject to the rules governing the course of bills ...'"

REPLY BY THE PRESIDENT

President Cherberg: "Senator Hayner, the President believes that rule 64 concerns itself with concurrent resolutions."

Senator Hayner: "Mr. President, let's try 59 then. There is a definition of a bill, there."

REMARKS BY SENATOR GASPARD

Senator Gaspard: "Mr. President, if I may, I would just point out that that refers to a joint resolution, just as you have indicated previously, 64, that was a concurrent resolution."

REPLY BY THE PRESIDENT

President Cherberg: "Perhaps the President can clarify the situation by stating that Senator Hayner's motion is proper and in order."

Senators Hayner, Clarke and Benitz demanded the previous question and the demand was sustained.

The President declared the question before the Senate to be the roll call on the motion by Senator Hayner that Senate Resolution 1981—33 be referred to the Committee on Rules.

The Secretary called the roll and the motion by Senator Hayner carried by the following vote: Yeas, 24; nays, 23.

MESSAGE FROM THE HOUSE
March 20, 1981.

Mr. President: The Speaker has signed: SUBSTITUTE HOUSE BILL NO. 166, and the same is herewith transmitted.

VITO T. CHIECHI, Chief Clerk.

SIGNING BY THE PRESIDENT
The President signed: SUBSTITUTE HOUSE BILL NO. 166.

APPOINTMENT OF SPECIAL COMMITTEE
The President announced the presence in the Senate Chamber of former Senator Reuben Knoblauch and appointed Senators McCaslin, Hansen, Benitz, Gaspard, Gallagher, Rasmussen and Wojahn as a committee of honor to escort the honored guest to the Senate rostrum.

With permission of the Senate, business was suspended to permit Senator Knoblauch to address the Senate and present rhubarb to the members.

The committee was discharged and Senator Knoblauch remained on the Senate rostrum during the day's session.

MOTION
On motion of Senator Clarke, the Senate commenced consideration of Senate Bill No. 3342.

SECOND READING
SENATE BILL NO. 3342, by Senators Fleming, Talmadge, Ridder, McDermott, Bottiger, Scott, Bluechel, Jones and Charnley:
Making malicious harassment a crime.

MOTIONS
On motion of Senator Hemstad, Substitute Senate Bill No. 3342 was substituted for Senate Bill No. 3342 and the substitute bill was placed on second reading and read the second time in full.
On motion of Senator Hemstad, the rules were suspended, Substitute Senate Bill No. 3342 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

MOTIONS
On motion of Senator Bluechel, Senator Gallagher was excused.
On motion of Senator Ridder, Senator Woody was excused.

POINT OF INQUIRY
Senator Pullen: "Senator Fleming, I believe it is important that we clarify legislative intent on this bill. I very much want to put a stop to malicious harassment. But at the same time I would not like to see someone arrested for conduct which, although it would be highly objectionable to you or I, should not be classified as criminal conduct. To help establish legislative intent, I need to ask you some clarifying questions.

"My first question is this: suppose a person were caught painting the following message on the home occupied by a Jewish family, 'Get out while you still can before you join the six million.'"
"Would it be your intent under Substitute Senate Bill 3342 that such an act would constitute a class C felony?"

Senator Fleming: "If inflammatory remarks in terms of name-calling that has been used in past and still is by some, relating to that Jewish family in a threatening way, yes, it would, for two reasons. Number one, the painting of the message on the home did physical damage to the Jewish family's property. Number two, the message is very intimidating and threatens physical injury to that family."

Senator Pullen: "Thank you, Senator Fleming. Let's consider another example. Suppose a person were caught burning a cross on the lawn of a black family. Would it be your intent in this second example that such an action constitute a class C felony under the terms of the bill?"

Senator Fleming: "Yes, because by tradition, the burning of a cross is an intimidating action and represents a threat to the black family's safety or property."

Senator Pullen: "Thank you. I have one final question. Suppose a black person were walking down the street and a Caucasian yelled from the other side of the street, 'I wish all blacks would go back to Africa.' Would it be your intent that such an action constitute a class C felony under the terms of Substitute Senate Bill 3342?"

Senator Fleming: "No, it would not be, Senator Pullen. While I condone neither the language or the attitude of the prejudiced Caucasian you used in your example, he or she would not be violating the law under the terms of this bill, because he was merely expressing a personal thought, although highly prejudiced point of view, and was not threatening harm to the black person."

Senator Pullen: "Would it have made any difference if the Caucasian had referred to the black person by a name more inflammatory than the word 'black'?"

Senator Fleming: "No, not so long as there was no implied threat or harm to the black person or his property."

Senator Pullen: "Senator Fleming, I feel that your responses have helped clarify this important and excellent bill and based on your clarifications, I want to give this measure my wholehearted support."

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 3342, and the bill passed the Senate by the following vote: Yeas, 47; excused, 2.

SUBSTITUTE SENATE BILL NO. 3342, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Clarke, Senate Bill No. 3206 was ordered held for consideration on March 24, 1981.

SECOND READING

SENATE BILL NO. 3347, by Senators Charnley, Goltz and Patterson: Implementing law relating to waivers by institutions of higher education.
MOTIONS

On motion of Senator Benitz, Substitute Senate Bill No. 3347 was substituted for Senate Bill No. 3347 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Charnley, the rules were suspended, Substitute Senate Bill No. 3347 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 3347, and the bill passed the Senate by the following vote: Yeas, 47; excused, 2.

SUBSTITUTE SENATE BILL NO. 3347, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SENATE BILL NO. 3600, by Senator Guess:
Protecting proprietary information.
The bill was read the second time by sections.
Senator McDermott moved adoption of the following amendment:
On page 1, following line 16, insert "This section does not apply to plans, specifications and proposals for nuclear power plants or ferries."
Debate ensued.

POINT OF ORDER

Senator Lysen: "Is it valid for Senator Guess to make a judgment on whether Senator McDermott knows what he is talking about or not?"
Debate ensued.

On motion of Senator Clarke, Senate Bill No. 3600, together with the pending amendment by Senator McDermott, was ordered held for consideration on March 24, 1981.

MOTION

On motion of Senator Bluechel, Senator Gould was excused.

SECOND READING

SENATE BILL NO. 3632, by Senators Wojahn and Clarke:
Modifying provisions relating to branch banking.
The bill was read the second time by sections.

On motion of Senator Sellar, the rules were suspended, Senate Bill No. 3632 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.
POINT OF INQUIRY

Senator Goltz: "Senator Sellar, I notice that the emergency clause requires an effective date of July 1, 1981. I am curious as to why that particular date was designated as the effective date of the act."

Senator Sellar: "Well, it was ... as we talked about that, that there are a couple of banks that are considering branching at this point, particular time, and we felt that a time certain would allow them to go ahead with those plans where, as the indefinite time of when it was passed and when it is signed could facilitate their actions."

Senator Goltz: "I appreciate that; I was wondering whether this is not, as a matter of fact, starting the process of branching quicker or earlier than other banks might be able to consider the effect in their areas. It sounds like it's rushing it a bit, and I was just wondering whether a later date, effective date, had been considered?"

Senator Sellar: "We talked about a couple of particularly different dates; this seemed to be reasonably agreeable to the financial communities that were represented there."

POINT OF INQUIRY

Senator Talley: "Senator Wojahn, in your remarks, I may have misunderstood you, but you said 'in the unincorporated areas of the county.' It is in the incorporated areas too, isn't it?"

Senator Wojahn: ". . . July 1 of 1981 they would be able to branch into the unincorporated areas. If they are located within a city, they cannot go into another city, but they can go into the unincorporated areas. Then July 1 of '85, they could go into other cities."

Senator Talley: "I believe there is a question; I didn't read the bill that way. It says they can branch anywhere within their own county now, in July."

Senator Wojahn: "That is correct and I believe it is in unincorporated areas at that point."

Senator Talley: "They can do that now, Senator Wojahn."

Senator Wojahn: "Then the bill would permit them to go into cities within their county, Senator."

REMARKS BY SENATOR BLUECHEL

Senator Bluechel: "Yes, to clarify that point which was just brought up by Senator Talley. After July 1, the bank can go into the same county in which it exists now, either cities or the county area; and any place in the state after 1985."

STATEMENT FOR THE JOURNAL

SENATE BILL 3632

"Existing law imposes restrictions on branching into incorporated areas of the head office county of a bank. On the effective date of this act, banks will be able to branch into all incorporated areas, as well as unincorporated areas, of their head office county."

Signed: SENATOR GEORGE SELLAR

SECOND READING

SENATE BILL NO. 3385, by Senators Vognild, Gallaghan, Patterson and Haley:

Authorizing private salmon release-recapture facilities.

MOTIONS

On motion of Senator Gallaghan, Substitute Senate Bill No. 3385 was substituted for Senate Bill No. 3385 and the substitute bill was placed on second reading and read the second time in full.

Senator McDermott moved adoption of the following amendment:

On page 5, line 14, after "fish" strike all the language down through "application" on line 16.

Debate ensued.

The motion by Senator McDermott failed and the amendment was not adopted on a rising vote.

Senator Lysen moved adoption of the following amendment:

On page 9, line 13, strike subsection (3).

Renumber remaining subsections accordingly.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Vognild, how are you going to determine which fish are raised by the corporation and which fish are raised by the state hatcheries? Now I am depending on the advice of my good friend Senator Gallaghan, who tells me that fish roam and he has the statistics to prove it.

"At what point do we determine that these fishtraps are catching hatchery-raised fish or corporation fish?"

Senator Vognild: "Senator, the director of the department has the authority of siting. The bill states that he shall not site where it will endanger a natural run or where it will endanger a state-operated or a nonprofit-operated facility. He also has the authority to order tagging if he deems that necessary in order to determine where the fish are going.

"When you talk about fish 'roaming,' you are talking about a very small percentage of fish that roam; and I might add that they roam both ways, so I just don't see that they would be a problem under this bill."

Senator Rasmussen: "Well, I think it will be a problem. It has been a problem in Oregon and I don't see any clear definition in the bill; I don't see that we are going to have any more success in defining that hatchery or corporation fish than they have in Oregon."

REMARKS BY SENATOR GALLAGHAN

Senator Gallaghan: "I would like to respond to that a little bit."
"This piece there says that it will be at the facility which is located within tide-water in all of our hatcheries presently operating have a weir which traps those fish when they return to their home to spawn. And that is what we are talking about. In that pond then, you would have a net or a seine in order to capture those fish within his own facility, just exactly like we do.

"So we don't go looking for other fish; if they happen to stray into the pond they belong to the ocean rancher but they will be identifiable in some manner, a certain portion of them which we are able to compute into how many did stray, and all that will be accounted for."

POINT OF INQUIRY

Senator Rasmussen: "I did have a question for Senator Gallaghan, yes. Senator, what percentage of the fish that are at the present time in our hatcheries, what percentage are wire coded? One percent, two percent or . . . ."

Senator Gallaghan: "Yes, there is numbers of percentages depending upon the study; but we are right now at a five percent level on most of the major species."

Senator Rasmussen: "Only five percent are tagged?"

Senator Gallaghan: "Right. We can't tag them all."

POINT OF INQUIRY

Senator Shinpoch: "Senator Vognild, my question is, under this bill, could a facility be sited on any river or stream that now has or in the future may have a fish run?"

Senator Vognild: "No."

Further debate ensued.

The motion by Senator Lysen failed and the amendment was not adopted on a rising vote.

Senator Lysen moved adoption of the following amendment:
On page 10, line 33, after "chapter" insert "after court imposed legal requirements"

POINT OF INQUIRY

Senator Talley: "Senator Peterson, we went down and inspected those fish farms in Oregon and they said if they could get a 3% return they could make money, isn't that right?"

Senator Peterson: "That is true. I also understand, Senator Talley, that their last season as to up to date they are getting about 1%."

Further debate ensued.

The motion by Senator Lysen failed and the amendment was not adopted.

Senator Lysen moved adoption of the following amendment:
On page 15, line 35, after "any" insert "volunteer public release or"

Debate ensued.

MOTION

On motion of Senator Bluechel, Senator McCaslin was excused.

The motion by Senator Lysen carried and the amendment was adopted.

Senator Lysen moved adoption of the following amendment:
On pages 2, 5, 6, 7, 11, 12, 13, strike "significant" wherever it appears.
On pages 5 and 7, strike "significantly" wherever it appears.
POINT OF INQUIRY

Senator Lysen: "... so the way they have handled it is by saying there shall not be a 'significant' depletion and the word 'significant' has no meaning, in fact that means there could be a rather large depletion. If you just said 'there shall not be depletion, period' then you would have a better standard. In fact, I would like to ask Senator Talmadge to yield to a question on this with his legal talent and mind he can enlighten us on the significance of the word 'significant'."

Senator Talmadge: "Senator Lysen, I guess all the debate on the issue of whether or not you could define 'significantly' as well as you can define 'mental illness' has probably clarified the question. 'Significant' speaks for itself; it means that there has to be something in the way of an impact."

Senator Lysen: "So it has no legal standard that you are aware of that would make it meaningful in terms of trying to, we're trying, by putting that word in there, I think Senator Vognild was trying to protect depletion, minimize depletion and reinforce his concern that there be an increase, and by putting in the word 'significant,' I think actually the opposite occurs because it means there can be an increase."

Senator Talmadge: "There's no special legal significance to it; it's straight, simple English language."

Debate ensued.

The motion by Senator Lysen failed and the amendment was not adopted. There being no objection, the amendment by Senator Lysen to pages 5 and 7 on the desk of the Secretary of the Senate was withdrawn.

Senator Gallaghan moved adoption of the following amendment by Senators Gallaghan and Vognild:

On page 13, line 33, strike ". . . ." and insert "$500.00"

POINT OF INQUIRY

Senator Rasmussen: "Senator Gallaghan, is it your intention that this $500 permit fee apply to all of those private and nonprofit organizations that would want to raise salmon?"

Senator Gallaghan: "That want to release and recapture, yes."

Senator Rasmussen: "This would also apply to your local high school over there in the Gig Harbor vicinity that does want to raise salmon, recapture and release?"

Senator Gallaghan: "It would apply to them, too, if they want to own those fish when they return to facility. But they could sell that product when they return to the facility at the high school, which would give them money to further their program."

Senator Rasmussen: "You don't see any hindrance to these organizations that, first place, raising the $500, and the second place, why would you want to keep them out of the field by this high permit fee?"

Senator Gallaghan: "The reason being that I got from the agency was that if we had too small a fee everyone in the whole state would start applying for these permits which is occurring at the moment; we are getting quite a few applications for ocean ranching."

Senator Rasmussen: "Well, I guess my next question would be, Senator Gallaghan, what kind of reasoning that is where you would charge a little school group $500, the same amount as a corporation such as Puget Power, Weyerhaeuser, or Simpson that would go into release and recapture on a large scale; it doesn't seem to be any fairness to it at all and that is what is bothering me."

Senator Gallaghan: "If they remain public, they are fine, but the fish coming back there would still remain the property of the people of the state of Washington, not the facility."

Debate ensued.
POINT OF INQUIRY

Senator Peterson: "Senator Gallaghan, I may have misinterpreted your remarks, but we have a number of wildcat steelhead clubs, statewide, that are putting in rearing boxes and this type of thing, and when you speak of release and recapture, they are not, nor have they ever to my knowledge, put in a weir or a trap to get these fish back. My question is this, is it the intent of this legislation that this would preclude them from going ahead with their little rearing program such as Senator Rasmussen alluded to from doing that on a voluntary, self-sustaining basis in cooperation with game and fisheries?"

Senator Gallaghan: "They would not be precluded from operating the way they presently operate at all."

Senator Peterson: "And they would not be charged the $500 license fee?"

Senator Gallaghan: "No, they would not."

Senator Peterson: "And they could proceed in, with the cooperation of game or fisheries on the level that they are now doing without paying this fee?"

Senator Gallaghan: "That is correct."

Senator Peterson: "I wanted that in the record."

Senator Lysen moved adoption of the following amendment to the amendment by Senators Gallaghan and Vognild:

On line 2 of the Gallaghan, Vognild amendment, strike "$500.00" and insert "$10.00"

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, speaking against the amendment, in following up on the Peterson-Gallaghan exchange, if the Senate will look at page 4, line 32, it's absolutely clear that the Boy Scouts, and the high school groups are not included in this bill at all; and it's a 'red herring' you might say, to try to inject that argument into the discussion of the bill. Those people do not build recapture units and therefore they are not, would not be required to have any license, not even the ten dollars. So the $500 fee is the fees that will make this a non-general fund-dependent expenditure, and it ought to be left at the $500 or raised, rather than lowered."

REMARKS BY SENATOR LYSEN

Senator Lysen: "Yes, let me just respond to that for a minute. The reason we put the three hundred thousand in two years ago for the volunteer programs, was to, Representative Jovanovich in my district, of course, . . . before that I put in $10,000, about five or six years ago, and the department never even used it, period; it just disappeared on us, we didn't find anything on that $10,000.

"But this should not be a program that we raise money from; it should be something that we are willing to contribute as government, to people that want to show self-initiative, self-starter; it shouldn't be a program that has to be on their burden."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, I won't want to beleaguer this but we are talking about, totally, two different subjects. Your amendment to the $500 fee is what the ocean rancher will pay, you are reducing his fee. You are not affecting the Boy Scouts or anybody else. If your amendment were to provide an additional fee for those who do it on a voluntary basis and who do not recapture, that would be a different subject matter. On page 4, beginning on line 32, it defines who will pay this fee."

Debate ensued.
There being no objection, on motion of Senator Lysen the amendment by Senator Lysen to the amendment by Senators Gallaghan and Vognild was withdrawn.

POINT OF INQUIRY

Senator Shinpoch: "Senator Gallaghan, I am not sure, with all the conversation that has gone back and forth, that I understand how this thing works, but one of the things that you said brought a question to my mind, and the question is, the groups that now have the box hatcheries and those kinds of things, if they pay their $500, can they have their fishtraps?"

Senator Gallaghan: "If the department approves the permit, which I doubt seriously if they would qualify under all the different restrictions and the money that would require them to install it, would be totally prohibitive."

Senator Shinpoch: "Well, I guess I don't mind the bill being written for Weyerhaeuser, if that is who it is written for, but it does bother me that number one, we are going to have fishtraps; and number two if the department approves that, we would wind up with a fishtrap in every stream. And that really bothers me. So I guess that is just one more of the things that bothers me about the total bill."

POINT OF INQUIRY

Senator Williams: "Senator Vognild, the question that seems to be perplexing a number of us, is in relation to the permit and those who have to pay the fee. Who is required to get a permit and pay the fee, and who is not?"

Senator Vognild: "The fee would be charged against any operator who raises, releases and recaptures salmon for commercial disposition. They would have to be a commercial use of the salmon that is recaptured."

Senator Williams: "And the language in the bill explicitly states that?"

Senator Vognild: "The staff analyst who did the work for us assured me that it does."

Further debate ensued.

REMARKS BY SENATORVOGNILD

Senator Vognild: "Thank you Mr. President and members of the Senate. "I have your answer. There are no private operations of any kind in the state of Washington right now, exclusive of some of the Indians. All these things you are talking about are operated under the umbrella of the state hatchery system. They use state eggs, they operate totally under the umbrella of the state hatchery system, so there is no way they could be included under this bill; and I hope that answers that question."

REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "That, Senator, is not an adequate explanation. It may be true what you have said, that there are none at the present time or they are not operating; what we are trying to do, it is my understanding under this bill, is to increase the number of voluntary groups and that is what the aim of it was. And if you are going to retard that increase of voluntary groups working because you are going to require $500 permit, that is very restrictive."

REMARKS BY SENATORVOGNILD

Senator Vognild: "Well, Senator Rasmussen, what I am trying to say is, that a voluntary group that wishes to operate a hatchery can do so now under the umbrella
of the state system; and nothing would change, and that also remains the number one priority of this bill."

MESSAGE FROM THE HOUSE

March 21, 1981.

Mr. President: The House has adopted: ENGROSSED HOUSE CONCURRENT RESOLUTION NO. 17, and the same is herewith transmitted.

VITO T. CHIECHI, Chief Clerk.
FIRST READING OF HOUSE RESOLUTION

ENGROSSED HOUSE CONCURRENT RESOLUTION NO. 17, by Representatives Wilson, Nelson (G), Mitchell, Houchen, Scott, Sprague, Grimm, Ehlers, Erickson, King (R), Clayton, Martinis, Walk, Sanders, Johnson, Lundquist, Gallagher, Eberle, Bender and Granlund:

Encouraging the location of high-technology industries in Washington state.

MOTIONS

On motion of Senator Clarke, the rules were suspended, Engrossed House Concurrent Resolution No. 17 was advanced to second reading and read the second time in full.

On motion of Senator Clarke, the rules were suspended, Engrossed House Concurrent Resolution No. 17 was advanced to third reading, the second reading considered the third, and the resolution was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Wojahn: "Senator Hayner, since you were the first spokesman on the bill, it occurred to me that these are both highly technical industries, both Hewlett/Packard and the firm going into the Pierce county area and I would like to know if, because they are so highly skilled and specialized, if the local people will be hired or are they going to bring in a large bulk of the staffing from out of state that will further unsettle the total communities as far as housing and schools are concerned? Or are they going to use those that are presently here?"

Senator Hayner: "I am delighted to have the opportunity to answer that question because that question was asked in our conference. And the answer that was given to us, was that Hewlett/Packard makes every effort to hire people within the state and their average number that they will hire is 65% that will be residents of the state as of the time. They will not, they check the applications very carefully to see that the people have just not moved into the state very recently for that purpose. Now they do, obviously, bring people in for the management-level positions and so forth.

"But I think 65% of the total number of 5,500 is a considerable number, and I was very delighted to see that. They work very hard to do that."

Further debate ensued.

MOTION

Senator Rasmussen moved the rules be suspended and any Senator be added as a sponsor to Engrossed House Concurrent Resolution No. 17 that desires to do so.

PARLIAMENTARY INQUIRY

Senator Metcalf: "Mr. President, this is Engrossed House Concurrent Resolution No. 17. Is it possible to have Senate sponsors to a House Concurrent Resolution?"

President Cherberg: "It was done last week, Senator Metcalf; whether that sets a precedent or not the President is unsure."

The motion by Senator Rasmussen carried. Any additional sponsors may be added to Engrossed House Concurrent Resolution No. 17 by advising the Secretary of the Senate.

Further debate ensued.
Senator Patterson: "Senator Guess, I am looking at the second page of the resolution and I am particularly concerned about the language which says that the state shall 'ensure state financial assistance for necessary improvements to roads identified in the impacted area . . .' and so forth to the 'service D' level. Can you tell the body what 'service D' level is?"

Senator Guess: "No, I cannot."

Further debate ensued.

REMARKS BY SENATOR HAYNER

Senator Hayner: "Mr. President, ladies and gentlemen and Senator Patterson:

'I did check and category 'D' is 'present level of services' and it has already been cleared with the department. It is not changing the array that the transportation commission has set up at all; there is no intention to get into their business in that way. This just relates to the present level of services."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, members of the Senate.

'Speaking in part to the 'D' level, we are all aware of ABC programs. Now if you will go to the urban arterial funds, you'll see a schedule within the urban arterial funds that indicates the level of service and this is in the area, as I read the resolution, that the state would assist counties in providing the collector roads to the state highway system. In the case of Fairchild-Cameron, Pierce county, it is three-tenths of a mile. And they need some assistance in the Puyallup, top of the hill, one fifty-five area, in SR 512. And this is the reference to the 'D' level as I understand it.

Debate ensued.

POINT OF INQUIRY

Senator Williams: "Senator Guess, I am not unfavorable toward the intent of all this legislation, this measure. However, I have a question; I wonder if you could reflect on it.

'Article 2, section 28 of the state Constitution, says 'The legislature is prohibited from enacting any private or special laws in the following cases: . . . ' and subsection 2 of that section is 'For laying out, opening or altering highways, except in cases of state roads extending into more than one county, and military roads to aid in the construction of which lands shall have been or may be granted by congress.'

'It seems to me that in this particular instance, based on the circumstances, there could be a challenge on this basis. I wonder if you might comment on that?"

Senator Guess: "Senator Williams, I think it is fine that the roads and the level of service that is being asked for in this instance, does not open up the land, does not go into the private property of either the companies. The judgment will be made because of the expression that the level of service shall not drop below that of level 'D', means that the department will, when the traffic count gets above the level 'D,' then the road will be put into the priority.

'If you have a road servicing any area today, regardless of where it is serving and the number of people desiring and trying to use that road begins to climb above a certain number of cars per day, then the department will go in and do the corrective action."

Further debate ensued.
Senator Deccio: "Mr. President, can Engrossed House Concurrent Resolution No. 17 be amended?"

REPLY BY THE PRESIDENT

President Cherberg: "It is on final passage, Senator; if you care to move to return the measure . . . ."

Senator Deccio: "I really don't care to do that, Mr. President. The only thing I wanted to say was that if there is some confusion or dispute or differences as to whether the west side of the mountains wants this done, I am sure that Senator Hansen and I would be very happy to offer an amendment to move it to Grant and Yakima county."

Further debate ensued.

POINT OF INQUIRY

Senator Patterson: "Thank you, Mr. President. The concern I have and the question that I was hoping I could get an answer to, was that what source of funding would the state insure that level 'D' would be maintained?

"I think all of you know that there are some substantial revenue bills in the area of gasoline tax that will be before us. I am concerned, if Senator Bottiger is right in what he says, then my assumption from your comments would be, that the money would come out of urban arterial money. Is that correct, Senator Bottiger?"

Senator Bottiger: "I checked by phone with and I'm not sure whether it was Maresca or who over at the highway department, the county classification runs from 'A' through 'F'; and the way the state has traditionally helped the counties is through the urban arterial fund. It wouldn't have to be that way but that is how we have traditionally done it."

Further debate ensued.

POINT OF INQUIRY

Senator McDermott: "Senator Guess, you mentioned earlier that when the count on the highways went up to a certain level, then they would step in and act. Do you expect that to happen within this next biennium?"

Senator Guess: "No, Senator, I do not expect this to happen within this next two years. I think that the information that we have from Hewlett-Packard is that it would occur in six years. This is the same, exactly the same thing that Hewlett-Packard told us in Spokane. The traffic levels have not risen as high as they had anticipated in Spokane and that is yet put off further in Spokane; so I would say that it would be six years.

"Now we find that more people are riding busses to the Hewlett-Packard plant in Spokane and a number of private automobiles did not develop, so we would hope that they would use the van pool and the busses."

Senator Wilson moved that Engrossed House Concurrent Resolution No. 17 be held at the beginning of the third reading calendar for March 24, 1981.

Senator Kiskaddon: "Mr. President, my understanding was that the resolution was on third reading now. Is it in order to have a motion to go to second reading calendar for tomorrow?"

On motion of Senator Pullen, the rules were suspended, Engrossed Substitute Senate Joint Resolution No. 133 was advanced to third reading, the second reading considered the third, and the resolution was placed on final passage.

POINT OF INQUIRY

Senator Woody: "Senator Pullen, this bill has a provision which speaks to 'provisional certification' of initiative measures, and my question then is, if a measure is subsequently not certified, would consideration of that measure have precedence over all other legislative matters, except appropriations bills?"

Senator Pullen: "No, not at all."

**POINT OF INQUIRY**

Senator Quigg: "Senator Metcalf, I understand this bill is intended to clear up confusion about the role of the utilities and transportation commission by changing the name; is that right?"

Senator Metcalf: "Well, not the role of it but just the confusion between the transportation commission and the utilities and transportation commission; so this will now be called the 'public service commission.'"

Senator Quigg: "Were any names other than the 'public service commission' considered?"

Senator Metcalf: "I am sure that many were considered. This is the name that they came up with and requested."

Senator Quigg: "Well, did they consider calling it the 'price fixing commission'?"

Senator Metcalf: "I am not sure that they considered that; do you have an amendment?"

Senator Quigg: "No, I didn't think they did. Thank you, Senator?"

**REMARKS BY SENATOR BOTTIGER**

Senator Bottiger: "Mr. President, you never know whether those questions make an impression on anybody. In every other state in the union, it is called the 'public service commission.' We are one of the last holdouts with the old name. I believe it is every other state."

SECOND READING

SENATE BILL NO. 3255, by Senators Pullen, Rasmussen, Hurley, Benitz and Vognild:

Clarifying the law regulating carrying concealed weapons.

The bill was read the second time by sections.

On motion of Senator Hemstad, the rules were suspended, Senate Bill No. 3255 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Deccio: "Senator Pullen, I have gone on record many times as not favoring gun control, however, I think there ought to be some limitations. I have the same concern Senator Hemstad has.

"Would it not be the case that a gun could be left in a car where the mother goes in for a quick trip into the super market, leaves the children in the car. Is there that possibility that that gun could then be manipulated by those children in the car?"

Senator Pullen: "Senator Deccio, if you are asking whether loaded guns are dangerous, the answer to your question is 'yes.' And if anyone is going to have a loaded gun around the house or around the car or on his person, that is a great responsibility. And there will always be tragic accidents as long as we have guns. And right now this bill will not change one thing in that regard because everyone I know, and I know a few people who do have concealed weapons permits for whatever reason; and every single person I know who has a concealed weapons permit and who drives a car, keeps the pistol in the car.

"They are ignoring the law now; they are lawbreakers now and they are going to continue to be lawbreakers unless this particular measure passes. And yet I assume that they, in some cases, statistically, if you have enough guns around and if enough people are irresponsible, yes, someone is going to leave a gun around and someone is going to get involved in a tragic accident.

"But whether this bill passes or whether it does not pass, will change nothing in that regard."

Senator Deccio: "Well, isn't it true that we rarely ever pass bills to deal with the lawbreaker, it is always the law-abiding citizen, and that is who we are affecting in this bill. The lawbreaker is going to break the law regardless of what is on the books. . . ."

Senator Pullen: "Unless this bill passes, we are making lawbreakers out of many fine citizens in the state. There are fifty-seven thousand concealed weapons permits outstanding in the state and I assume most of those people have firearms and I don't know a single one of them who, when he gets out of the car, puts the pistol in his belt and goes walking around with the pistol stuck out of his belt."

Senator Deccio: "Well, I guess my consideration here is a value judgment as to whether we need to be more concerned about the children in that car or anyone else for that matter, as opposed to making it convenient for somebody to have the ability to carry a concealed weapon, or have a concealed weapon whether he has a permit for it or not.

"It seems a little odd that a few weeks ago we were debating a bill regarding the safety of children and were going to require special seats in automobiles for those children to ride in and now we're debating something that could be much more dangerous than that situation and for that reason, Mr. President, I am going to vote against this bill."

Further debate ensued.
Senator Talmadge: "Senator Pullen, in the course of the deliberations of the committee, did anybody from the Washington Association of Sheriffs and Police Chiefs have an opportunity to testify on the question of whether or not they felt this might make more difficult or, make more terrible in any way, the problem of the law enforcement officer approaching the vehicle and someone having a concealed, loaded weapon under the seat or in the glove compartment when they attempted to get a license or something like that?"

Senator Pullen: "There were representatives of law enforcement groups in the room at the time we heard the bill; none of them testified either for or against the bill. In fact, there was no testimony of any kind against the bill during the hearing.

"I would just point out, I have talked to law enforcement officers personally, and what you say is correct, they do worry about sudden reaching into certain areas but under the current law and under the current court decision, a person could have the pistol inside a coat pocket, and I can guarantee you from talks I have had with law enforcement officers, they are a lot more nervous when a person reaches into their coat pockets than they are when they reach in the glove compartment."

STATEMENT FOR THE JOURNAL  
March 26, 1981.

TO: Secretary of the Senate  
FROM: Senator Hal Zimmerman  
RE: Statement for the Journal

1. Because Governor John Spellman invited me to accompany him to Longview, Kelso, Castle Rock, Vancouver and the Columbia River Gorge on Monday, March 23, I missed the session and votes on measures before the Senate that day. Republican caucus leadership had arranged to hear a "consent" calendar so that there would not be any major issues decided that day. The trip to Southwest Washington was very productive.

2. I missed the early part of the session on Tuesday, March 25 because of an emergency meeting on one of the agencies in the proposed Senate Ways and Means budget.

MOTIONS

On motion of Senator Clarke, the Senate advanced to the sixth order of business.

On motion of Senator Clarke, the Senate commenced consideration of Substitute Senate Bill No. 3385.

SECOND READING

SUBSTITUTE SENATE BILL NO. 3385, by Committee on Natural Resources (originally sponsored by Senators Vognild, Gallaghan, Patterson and Haley):

Authorizing private salmon release-recapture facilities.

The Senate resumed consideration of Substitute Senate Bill No. 3385. On March 20, 1981, an amendment by Senator Lysen was adopted to page 15, line 35. Senator Gallaghan had moved adoption of the following amendment on that date:

On page 13, line 33, strike "..." and insert "$500.00"

The motion by Senator Gallaghan carried and the amendment was adopted.

Senator Rasmussen moved adoption of the following amendment:

On page 1, beginning on line 12, strike all of section I.
Renumber remaining sections.

POINT OF ORDER

Senator Newhouse: "Mr. President, we have perfected the bill up to page 13 and now we are going back to page 1. I suggest that rule 69 says that we shall handle these amendments section-by-section."

RULING BY THE PRESIDENT

President Cherberg: "Senator Newhouse and members of the Senate. Your Point of Order would be well taken if the Senate had considered the bill section-by-section. However, when the last line of a bill is read, it opens up the entire bill for amendment, Senator Newhouse."

The amendment was ruled to be in order.
Debate ensued.

POINT OF INQUIRY

Senator Lysen: "Senator Rasmussen, the intent section applies to the language that says 'It is the intent of the legislature that the department of fisheries do everything within its legal authority to assist and promote operations of private salmon release-recapture facilities in the acquisition of salmon eggs.'

'Now does that conflict with the amendment we just passed? That Senator Vognild just passed? By passing your amendment we put it in the context of agreement with his amendments?"

Senator Rasmussen: "I think the amendment adopted took the $500 license fee off of the small co-ops and the schools and the various small groups that we were talking about. And what this amendment would do is to take the intent section off that we have to supply these people, these various firms and corporations, with eggs, even to the detriment of our own hatcheries. And that is what I don't want to see."
"We have one of the best hatchery systems in the United States and I think that it can be improved. I would further state that the fisheries department can, at this time, do all of these things that are authorized in the bill, as Senator Vognild has indicated. To have that power we researched this, had attorney general’s opinions on it, a number of years ago, so that they do have all these powers we grant in here. But to come out and tell the legislature, say it is our intent that they provide these eggs for private business, is like telling some other firm that we have to supply all things necessary to make them economically viable and we do not do that."

Senator Lysen: "Thank you, Senator Rasmussen. I guess I would have to then ask Senator Vognild, as I understand what you told me was this amendment that you just added, put the volunteer programs on a priority over the commercial ocean ranchers. And I would assume that they would include the state hatcheries that are currently operated. Is that not correct?"

Senator Vognild: "Yes, that is correct. We have had conflicting testimony; we can get more conflicting testimony about the supply of eggs.

"Going to the actual operators of the hatcheries, you will get testimony that says that they are burying eggs; and what we are trying to do with this, is to say that they will provide eggs to the ocean ranchers after they have taken care of their first priority, which is the state system and the volunteer systems that we reinforced here."

The motion by Senator Rasmussen failed and the amendment was not adopted on a rising vote.

Senator McDermott moved adoption of the following amendment:
On page 2, line 20, after "industry." strike all the matter down through "state." on line 25.

The motion by Senator McDermott failed and the amendment was not adopted on a rising vote.

On motion of Senator Gallaghan, the following amendment by Senators Gallaghan and Vognild was adopted:
On page 14, line 22 after "cases." insert, "NEW SECTION. Sec. 12. Sections 1 through 11 of this 1981 act shall not apply to any volunteer, non-profit, cooperative enhancement program that is part of the State's enhancement program where no compensation is given by the Department of Fisheries to volunteer participants in the program and where the fertilized salmon eggs and other necessary materials are furnished by the Department at no costs to the volunteers."

Renumber the remaining sections accordingly.

Senator Lysen moved adoption of the following amendment by Senators Lysen and McDermott:
On page 13, line 33, after "of" strike ". . . Dollars." and insert "Ten Dollars. In the event the applicant intends to engage in a commercial operation, as defined in RCW 75.04.080, an additional application fee shall be paid as follows:
$500 per million released Chinook salmon;
$300 per million released Chum salmon;
$400 per million released Coho salmon;
$200 per million released Pink salmon;
$500 per million released Sockeye salmon."

Debate ensued.

The motion by Senator Lysen failed and the amendment was not adopted.

Senator Shinpoch moved adoption of the following amendment:
On page 9, lines 13 through 17, strike subsection (3).
Renumber accordingly.
Senator Vognild: "Mr. President, this amendment was considered Friday; it was submitted by Senator Lysen at that time and it was voted down at that time."

President Cherberg: "Senator Vognild, it will be necessary to check the records. Senator Shinpoch."

Senator Shinpoch: "Mr. President, I would submit that there has been a volume of information that has been made available to us in the question and answer period and the debate of this; the people simply didn't know that at the time that we previously considered this amendment."

Senator Clarke: Mr. President, if what Senator Shinpoch has said is correct, the proper motion would be for somebody to vote for reconsideration that voted on the prevailing side. My own recollection is that the identical amendment was submitted and defeated which . . ."

RULING BY THE PRESIDENT

President Cherberg: "The Point of Order as presented by Senator Vognild is well taken, inasmuch as Senator Lysen did submit a similar amendment which was not adopted."

The amendment by Senator Shinpoch was ruled out of order.

MOTION FOR RECONSIDERATION

Having voted on the prevailing side, Senator Woody moved the Senate reconsider the vote by which the following amendment by Senator Lysen failed on March 20, 1981:

On page 9, line 13, strike subsection (3). Renumber remaining subsections accordingly.

PARLIAMENTARY INQUIRY

Senator Jones: "Is reconsideration appropriate? There has been intervening business?"

REPLY BY THE PRESIDENT

President Cherberg: "Reconsideration is appropriate, Senator Jones, inasmuch as the rule does say that an amendment may be considered immediately; however, the measure is before the Senate on second reading and thus is open, opens up the opportunity to reconsider the vote by which the amendment was lost."

Senator Conner demanded a roll call and the demand was sustained. Debate ensued.

The President declared the question before the Senate to be the motion for reconsideration by Senator Woody on the amendment by Senator Lysen to page 9, line 13 which failed on a rising vote on March 20, 1981.

ROLL CALL ON MOTION FOR RECONSIDERATION

The Secretary called the roll and the motion for reconsideration failed by the following vote: Yeas, 12; nays, 35; absent or not voting, 1; excused, 1.

Voting nay: Senators Bauer, Benitz, Bluechel, Bottiger, Charnley, Clarke, Craswell, Fleming, Fuller, Gallagher, Goltz, Gould, Guess, Haley, Hansen, Hayner, Hemstad, Hurley, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson,
SEVENTY-SECOND DAY, MARCH 24, 1981

Peterson, Pullen, Quigg, Scott, Sellar, Talley, Vognild, von Reichbauer, Wilson, Zimmerman—35.

Absent or not voting: Senator Deccio—1.

Excused: Senator Hughes—1.

On motion of Senator Gallaghan, the rules were suspended, Engrossed Substitute Senate Bill No. 3385 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Talley: "Senator Gallaghan, the Columbia River and the streams draining into the Columbia river, are exempted from this bill?"

Senator Gallaghan: "That is correct."

Debate ensued.

POINT OF INQUIRY

Senator Lysen: "Senator Vognild, you made the point that they will only give one permit per person or per company. Now what is to prevent a company from having a number of subsidiaries and each subsidiary having a permit, and each permit can release a maximum, for $500 fee, of eighty million fish, of which, if they had only a one percent return, they would get back eight hundred thousand fish. So at $6.00 a pound, that is pretty good economics, I would say."

Senator Vognild: "That is what it is, in some cases."

Senator Lysen: "But I am concerned, the fact, the one permit per person per company, or per company, is that going to be effective in limiting because you form subsidiaries. At the risk of being impolite, maybe, we don't even know what subsidiary built the computers on our ferries, you know; so how are we going to know, what are we limiting this thing or not? Is this going to be an effective limit? It would appear to me that it is not."

Senator Vognild: "I could answer that in two ways. It is certainly my intent for the record, that subsidiaries cannot be formed for the purpose of obtaining a permit. I think also, in response to your question and other statements, section sub 5) of section 5 says: 'In making a decision on whether to grant or deny a permit, the director shall consider (a) information developed by the department under sub 3, 1 (a) (b), (c), etc.

"And I believe that that is sufficient latitude right there for the director to deny a permit to a subsidiary by merely establishing that the board of directors or the majority of the stock, if you will, in a subsidiary, is owned by another corporation which already holds a permit."

Senator Lysen: "Thank you. That does alleviate my concern somewhat; however, the statements that were made earlier, I think, really focus in on this. This is a major transfer of a public resource, potentially a major transfer of, what has been a public resource into the private sector through the fishtrap method and the granting of permits to release a maximum of eighty million fish per permit.

"I think this is a real serious question of public policy which we should not pass at this time, especially when the director of the department himself is opposed to this; has a memo on each of our desks indicating why he is opposed to it and the fact that we put in another user group in the salmon resource at a time when we are having to endure the Boldt decision only adds to the problem. Senator Magnuson passed Federal laws to try to alleviate the problem and there is monies available to improve the whole system which are unprecedented in past years so we are coming into some major changes and the director has asked us for a delay in this matter until he has had a time to see how this private ocean ranching could be fitted in, in the least disruptive manner."
"And so at the request of our own director, I would urge that we not pass this bill at this time."

Further debate ensued.

POINT OF INQUIRY

Senator Charnley: "Senator Vognild, a statement has been made that we are putting fishtraps back in the streams and rivers of this state. Now I understand the problems that have been in the past.

"Would you please once again state for myself and the body, are we putting fishtraps in the streams where none exist now?"

Senator Vognild: "No, Senator Charnley, we are not. Section 6, sub (3) states that these traps may be built 'at the facility that were initially,' for capturing the salmon, 'that were initially released from the facility.' The specific wording is 'at the facility.'"

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 3385, and the bill passed the Senate by the following vote: Yeas, 31; nays, 17; excused, 1.

Voting nay: Senators Bauer, Conner, Fuller, Gaspard, Goltz, Lysen, McDermott, Moore, Peterson, Quigg, Rasmussen, Sellar, Shinpoch, Talley, Talmadge, Williams, Wojahn—17.

Excused: Senator Hughes—1.

ENGROSSED SUBSTITUTE SENATE BILL NO. 3385, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

Debate ensued.

The motion by Senator Quigg failed and the amendment was not adopted.
On motion of Senator Rasmussen, the following amendment by Senators Jones and Rasmussen was adopted:

On page 15, after line 25, insert the following:

Homesteads may be selected and claimed in lands and tenements with the improvements thereon, as defined in RCW 6.12.010, regardless of area but not exceeding in net value, of both the lands and improvements, the sum of (twenty) forty thousand dollars. The premises thus included in the homestead must be actually intended or used as a home for the claimant, and shall not be devoted exclusively to any other purpose."

Renumber the sections consecutively.

Debate ensued.

Senator Bottiger demanded a roll call and the demand was sustained.

POINT OF INQUIRY

Senator Rasmussen: "Senator Clarke, it is true that for the settlement of a judgment on a garnishment, you could just as well lose your home as they have been losing them in Seattle now for claims that people are not aware of that they are against the property. Could this happen?"

Senator Clarke: "It is true, Senator, that any type of judgment could be levied against available assets which are not subject to exemption. That relates both to personal property and homesteads that are exempted; so this is one of the areas in which a judgment could be collected, that is quite correct."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the amendment by Senator Rasmussen.

MOTION

At 12:40 p.m., on motion of Senator Hayner, the Senate recessed until 7:00 p.m.

MESSAGE FROM THE HOUSE

March 24, 1981.

Mr. President: The House has consented to the Senate motion to add sponsors, and the Speaker has signed: HOUSE CONCURRENT RESOLUTION NO. 17, and the same is herewith transmitted.

VITO T. CHIECHI, Chief Clerk.

SIGNED BY THE PRESIDENT

The President signed: HOUSE CONCURRENT RESOLUTION NO. 17.

SECOND READING

SUBSTITUTE SENATE BILL NO. 3206, by Committee on State Government (originally sponsored by Senators Rasmussen and Jones):

Implementing the law relating to control of intoxicating liquor.

The Senate resumed consideration of Substitute Senate Bill No. 3206 from earlier today. The bill was amended by Senators Jones and Rasmussen. The following amendment by Senator Haley, Woody and Scott had been moved for adoption by Senator Haley. A Point of Order had been raised by Senator Metcalf and held for a Ruling by the President.

On page 26, after line 1, insert "(I) Section 11, chapter 62, Laws of 1933 ex. sess. and RCW 66.16.080;"

RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the Point of Order raised by Senator Metcalf, the President finds that Substitute Senate Bill No. 3206 is a measure relating to alcoholic beverage control which has as its primary purpose the amendment of the existing law to conform to changing federal requirements and generally improve administration.

"The amendment proposed by Senators Haley, Woody and Scott, which repeals the statute prohibiting Sunday openings of state liquor stores, would, on the other hand, represent a major policy change.

"The President therefore finds that the proposed amendment does expand the scope and object of the bill and that the Point of Order is well taken."

The amendment by Senators Haley, Woody and Scott was ruled out of order.

On motion of Senator Rasmussen, the following amendments to the title were adopted:

On motion of Senator Rasmussen, the rules were suspended, Engrossed Substitute Senate Bill No. 3206 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Talmadge: "Senator Rasmussen, in section 7 of the substitute bill on page 10, there is a change with respect to whether or not someone who has been convicted of a felony offense can receive a license from the liquor control board.

"Could you please describe what that change is because down in sub (c), or former sub (c) it says 'any person who has been convicted of a felony within 5 years prior to filing his application couldn't get a license,' and it seems in sub (2) of section 7 that the change is so that the board can just consider the criminal offense and need not deny the application of someone who's been convicted of a felony."

Senator Rasmussen: "Well, this section brings the liquor board law into conformity with court decisions where that, after a person has served his time when convicted of a felony, that he's then eligible again. The Court decision is on that and the liquor board is only conforming to those court decisions."

MOTIONS

On motion of Senator Ridder, Senator Conner was excused.
On motion of Senator Jones, Senator von Reichbauer was excused.

Excused: Senator Conner—1.

ENGROSSED SENATE BILL NO. 3740, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.
SECOND READING

SENATE BILL NO. 3265, by Senators Peterson, Gallagher and Talley (by Department of Fisheries request):
Modifying the moratorium on salmon charter boat licenses.
The bill was read the second time by sections.
On motion of Senator Gallagher, the rules were suspended, Senate Bill No. 3265 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.
Debate ensued.

POINT OF INQUIRY

Senator Metcalf: "Senator Peterson, I understood this did apply to salmon charters and not bottom fish charters; and if this applies to bottom fish charters, also, I would like to have that clearly, if that was the meaning of your statement just a minute ago, I would like to have you repeat them."

Senator Peterson: "Senator Metcalf, this measure is devoted to the charter boat industry, principally concerning salmon. Now if there was any reference in the measure that indicates that it pertains to bottom fishing, I am not aware of it, but that is not the intent of the bill and for the record and for the journal, I would state that it only pertains to the salmon fishery. That is what it was intended to be."

Further debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 3265 and the bill passed the Senate by the following vote: Yeas, 28; nays, 20; excused, 1.
Excused: Senator Conner—1.
SENATE BILL NO. 3265, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SENATE BILL NO. 3128, by Senators Sellar and Talley:
Modifying provisions on special purposes districts.

MOTIONS

On motion of Senator Zimmerman, Substitute Senate Bill No. 3128 was substituted for Senate Bill No. 3128 and the substitute bill was placed on second reading and read the second time in full.
On motion of Senator Talmadge, the following amendments by Senators Talmadge and Sellar were considered and adopted simultaneously:
On page 1, line 17, after "officials" strike ", officers, and employees"
On page 1, line 22 after "officials" strike ", officers, and employees"
On motion of Senator Pullen, the following amendment was adopted:
On page 1, line 18, after "from" insert "civil"
On motion of Senator Zimmerman, the rules were suspended, Engrossed Substitute Senate Bill No. 3128 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Sellar, sewer districts are specifically authorized to manage on-site septic tanks. I thought that would be the problem of the owner, that he had to manage his own septic tanks. Why are school districts authorized to move in on private property?"

Senator Sellar: "I would assume that if maybe a commercial location that could not be served by a sewer and wanted to be served by some type of a large septic tank operation, this could be put in by a sewer district and like a ULID or anything else. Perhaps the sewer district could extend to some place that they just couldn't get their lines to."

Senator Rasmussen: "On private property?"

Senator Sellar: "With the consent of the owner."

Senator Rasmussen: "Second question. Sewer districts are especially allowed to pay the employee share of social security insurance."

Senator Sellar: "Correct."

Senator Rasmussen: "The sewer district then would pay 13¼%, pay both employees . . . ."

Senator Sellar: "That is correct, this gives, it doesn't mandate, but it gives them the authorization . . . You know, with our present tax structures it is beginning to be a little bit more attractive to employees to receive this type of benefit in lieu of raises."

Senator Rasmussen: "That is only for one term, one round; then the next time you come back again with the Senator Sellar: "That is only for one term, one round; then the next time you come back again with the raises; you get that little bit.

"The reason I asked, Senator Sellar, that is quite a departure from what is being done now where the employee pays his share and the state pays their share and the sewer district pays their share. I don't know if that has been approved yet in general, for all state employees."

Senator Sellar: "There may be others coming in that same fashion."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 3128, and the bill passed the Senate by the following vote: Yeas, 44; nays, 4; excused, 1.

Excused: Senator Conner—1.

ENGROSSED SUBSTITUTE SENATE BILL NO. 3128, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.
SECOND READING

SENATE BILL NO. 3303, by Senators Talmadge and Clarke (by Washington State Patrol request):

Revising law relating to speed traps.

The bill was read the second time by sections.

Senator Woody moved adoption of the following amendment by Senators Woody and McCaslin:

On page 2, after line 13 insert the following:

"(4) Evidence of a vehicle's speed of less than ten miles per hour over the posted speed limit is not admissible against any person arrested or issued a notice of traffic infraction for violation of any of the laws of this state or of any orders, rules or regulations of any city, town or other political subdivision regarding speed if the evidence is based on a determination of speed made under subsection (2)(b) of this section."

Debate ensued.

The motion by Senator Woody failed and the amendment was not adopted.

On motion of Senator Hemstad, the rules were suspended, Senate Bill No. 3303 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Goltz: "Senator Talmadge, is it true that if a state patrolman, operating from an airplane, observes a car traveling more than the 55 mile an hour speed limit, and makes that information known to another patrolman that the person in the aircraft has to appear in court?"

Senator Talmadge: "Yes, Senator Goltz; that is the person that has first-hand knowledge for purposes of testifying in court and what we were advised was that the person in the aircraft rather than the officer on the ground is the one that has to testify because he or she has to identify the car that was being observed down on the highway. And that is something that the officer in the car on the road can't do."

Senator Goltz: "One further question, Senator, if I may. It seems to me that this is somehow duplicative; you said that the reason for having this aircraft making these observations was that it somehow took care of a manpower problem on the ground, but if you are doubling up, that is, one person making the observation from the air and having that, in fact, duplicated again on the ground, it seems to me that that is a duplication of effort and expense and it may be that we should reexamine whether or not the aircraft is really necessary."

Senator Talmadge: "I think for some of the broad expanses of highway in the state, Senator Goltz, the use of the aircraft gives the state patrol the opportunity to monitor a larger section of the road than would be the case when you simply had a car on the road; it gives them the opportunity to see what is going on in a better fashion and have a car on the road locate it at a particular point to be advised when someone who had violated the speed law earlier, the aircraft can monitor what is going on a little bit better."

POINT OF INQUIRY

Senator Quigg: "Senator Hughes, are you a pilot?"

Senator Hughes: "I was for about fifteen seconds during that flight, Senator."

Senator Quigg: "Is it normal practice this aircraft surveillance, is there an observer along with the pilot or is the pilot up there by himself or by herself?"

Senator Hughes: "When it is possible, they do have an observer, but that is not always possible."
Senator Quigg: "Well, as long as we have big brother watching us, you mean big brother is also timing us as he is flying the airplane?"

Senator Hughes: "Senator, the implication there is that proper law enforcement is a big brother, and I know that must be falsely drawing an implication from you there; you certainly do not intend that, I am sure."

Senator Quigg: "Well, Senator Hughes, I am sure you had your hands full up there, just flying that airplane for those fifteen seconds and trying to clock that car through that quarter-mile speed trap, but it just seems to me as though we are just kind of moving one step further to having some sort of speed-o-graph recorder in our cars where the patrol can pull us over, ask us to show them the chart, and we will see whether we were speeding or not, and we will put that in before the judge.

"Frankly, I think big brother is creeping . . . a little stronger than he should be already, to have him have this one more handle on us, makes me a little nervous about this bill and I urge that it not be passed."

Debate ensued.

POINT OF INQUIRY

Senator Hughes: "Senator Quigg, we have regions in the state of Washington that are rather sparsely populated. The state patrol has a very limited number of individuals and they have to concentrate their numbers in areas where there are larger populations.

"How would you address the problem of those who would tend to speed between, let's say Moses Lake and Ritzville, if we were not able to use the aerial surveillance?"

Senator Quigg: "Well, once again, I imagine it is just the matter of the proper application of accurate resources and to have some pilot up there with his hands full, flying an airplane with a Senator along side of him, trying to clock people down on the road, seems to me a much more dangerous situation than somebody exceeding the speed limit by less than ten miles an hour through the straight stretches between Vantage and Moses Lake."

POINT OF INQUIRY

Senator Peterson: "Senator Hughes, did I understand you to say that you were a pilot, or you just flew in the airplane?"

Senator Hughes: "For about fifteen minutes, Senator, I was able to hold the controls of the airplane and I completely failed to listen to the instructions given to me by the officer at the time and he had to repeat them as soon as he took control of the plane once again."

Senator Peterson: "Senator, when you were flying in the patrol plane and the patrolman in the aircraft sighted a motorist, was he right over the 'x' mark on the highway and then, was he right over him when he clocked him at the quarter-mile or half-mile mark?"

Senator Hughes: "First of all, the officer did not give me the control of the plane in order to clock. He did it to pull out the three watches so that the staff member and myself and he could all clock at the same time. What he did do, he paralleled some traffic on I-5 and he picked out what he believed to be an excessive speeder. We clocked the first one; it was not. The second one, we clocked as I said, at the exact mark, all three of us were asked, we thought the car hit the zero mark, hit the watch at the one-quarter, at the half, at the three-quarter and at the mile. All three of us came up with exactly 62.25 and I was rather impressed . . . ."

Senator Peterson: "Well, Senator, then didn't the pilot radio down to a patrolman on the highway that was parked in advance of the speeding car and say, 'Well,
this is a white Chevrolet, '67 or '72 model, and he is doing 62 miles an hour; pick him up?"

Senator Hughes: "I asked that question of the pilot, Senator, and he told me
that once they do determine that a driver is in excess, they do notify another officer
on the ground; he then begins to follow that car and he clocks it over, at least, I
think the minimum was a quarter of a mile, and if they do meet the same figures or
excessive figures of the one presented by the pilot, then that person is pulled aside.

"Now there is one contradiction; if it is a two-lane highway, they do signal
people in advance, one car patrols behind once he clarifies that that individual is
exceeding it, he warns the officer in advance so that the car is not swinging in and
out and passing cars, and they do pull them across.

"But I really was impressed by the fact that it is a dual system, Senator, that is
incredibly accurate when you can get three people who manually have to clock and
all come up with the same figure. I was very impressed by it."

Further debate ensued.

Senators Deccio, Bottiger and Zimmerman demanded the previous question
and the demand was sustained.

The President declared the question before the Senate to be the roll call on final
passage of Senate Bill No. 3303.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 3303, and
the bill passed the Senate by the following vote: Yeas, 27; nays, 22.

Voting yea: Senators Bauer, Bluechel, Bottiger, Charnley, Clarke, Craswell,
Deccio, Fuller, Gallagher, Gould, Guess, Hayner, Hemstad, Hughes, Jones,

Talmadge, Wojahn, Zimmerman—27.

Voting nay: Senators Benitz, Conner, Fleming, Gaspard, Goltz, Haley,
Hansen, Hurley, Lee, Lysen, McDermott, Moore, Patterson, Peterson, Quigg,
Rasmussen, Sellar, Vognild, von Reichbauer, Williams, Wilson, Woody—22.

SENATE BILL NO. 3303, having received the constitutional majority, was
declared passed. There being no objection, the title of the bill was ordered to stand
as the title of the act.

MOTION

On motion of Senator Clarke, Senate Bill No. 3359 was ordered held for con­
ideration on March 25, 1981.

SECOND READING

SENATE BILL NO. 3353, by Senators Vognild, Talley and Clarke (by Insur­
ance Commissioner's request):

Revising requirements for fire safety inspections of transient accommodations
by the fire marshal.

REPORT OF STANDING COMMITTEE

February 25, 1981.

SENATE BILL NO. 3353, revising requirements for fire safety inspections of
transient accommodations by the fire marshal (reported by Committee on Com­
merce and Labor):

MAJORITY recommendation: Do pass with the following amendment:

On page 2, line 10, after "lease" and before the period strike "annually" and
insert "biennially"
Signed by: Senators J. T. Quigg, Chairman; Jones, Newhouse, Sellar.

The bill was read the second time by sections.

On motion of Senator Quigg, the committee amendment was adopted.

Senator Hayner moved adoption of the following amendment:

On page 2, after line 13, insert:

"NEW SECTION. Sec. 2. There is added to chapter 70.62 RCW a new section to read as follows: The provisions of this act and chapter do not apply to transient accommodations offered by a bona fide nonprofit, charitable organization which makes no charge for the use of such accommodations."

POINT OF INQUIRY

Senator Goltz: "Senator Hayner, you mentioned the inspection by the department of social and health services. As I read the bill, the inspections that are required here are by the fire marshal. Is this a fire marshal inspection or is it a department of social and health services inspection?"

Senator Hayner: "In the bill it is a fire inspection, there is no question about that. But I was just mentioning the other by the fire marshal, yes. I was mentioning the other inspections that are made on these groups such as this, and for the most part, they are in areas where they are very close to fire departments because they are in the populated areas as you well know. There are essentially six of them in the state of Washington; and the other thing about that, Senator Talmadge, I could take in transients any time I wanted, free of charge, and keep them in my house; nobody's inspecting my quarters, in fact, it might be much worse, the situation.

"I think we have to encourage in these economic conditions, these kinds of organizations to take people in like this. Every time we put these onerous regulations on them, it makes them more difficult to operate.

"I don't think it is a question of safety, I certainly want to have them as safe as possible, but I am sure that every one of these organizations also has insurance and when they have insurance, they are inspected by that, as well."

Debate ensued.

The motion by Senator Hayner carried and the amendment was adopted on a rising vote.

PERSONAL PRIVILEGE

Senator Goltz: "Mr. President, I would like to point out on a point of personal privilege that most of these people that we didn't protect are Democrats who sleep in those Lighthouse missions."

On motion of Senator Hayner, the following amendment to the title was adopted:

On page 1, line 1 of the title strike "and" and on line 3, after "70.62.290" insert "and adding a new section to chapter 70.62 RCW"

On motion of Senator Quigg, the rules were suspended, Engrossed Senate Bill No. 3353 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Hayner: "Senator Vognild, does this not also apply to hotels and motels?"

Senator Vognild: "No, it does not. RCW 67.28.160 is part of, I have the bill turned over, I'm sorry; just strike 70.62.290, refers to transient facilities only."

Debate ensued.
POINT OF INQUIRY

Senator McDermott: "Senator Guess, are any of the organizations, to your knowledge, who provide housing for youngsters who are on the move, nonprofit organizations, the fact that they charge something doesn't mean they are nonprofit."

Senator Guess: "Well, this thing says 'which makes no charge for the use of such accommodations.'"

REMARKS BY SENATOR VOGNILD

Senator Vognild: "I would like to clarify one thing. Defeating this bill as I ask you to, will not change the present inspection structures of any motels or hotels. The inspections will still stay in place as they are; and I think from a fire-safety position over all, we are better off to have that than we are to take this large number of transient facilities and totally take them out of the inspection picture.

"That is why I ask you to vote 'no.'"

Further debate ensued.

POINT OF INQUIRY

Senator Deccio: "Senator Vognild, I am a little confused I remember reading from the bill, been looking at this synopsis, it says, 'transient accommodations, primarily hotels and motels are licensed by the department of social and health services.' Is that true?"

Senator Vognild: "That is correct."

Senator Deccio: "DSHS licenses motels, Thunderbirds, the Tyee . . ."

Senator Vognild: "I am not sure at what level that that changes, I know it does change. But DSHS licenses any transient facility, any, well they go into nursing homes, hospitals, and all of this, is not part of this bill; but that is the type of licensing that they do. I do not believe that they license a private-for-profit motel/hotel."

Senator Deccio: "I hope not; thank you."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 3353, and the bill failed to pass the Senate by the following vote: Yeas, 24; nays, 25.

ENGROSSED SENATE BILL NO. 3353, having failed to receive the constitutional majority, was declared lost.

SECOND READING

SENATE BILL NO. 3262, by Senator Bottiger:

Senator Pullen moved adoption of the following amendment:
On page 1, line 10, after "parties" insert "and such interest shall be paid in gold or silver coin as required by Article 1, Section 10 of the United States Constitution"

POINT OF INQUIRY

Senator Wojahn: "Senator Pullen, do you suppose that the Constitution would permit the use of silver certificates which are backed by silver?"
Senator Pullen: "No, Senator Wojahn . . ."
Senator Wojahn: ". . . except they're not good any more, of course; but they are still good but there are none in circulation, or very few.
"But it would seem to me that they would be adequate also, a silver certificate."
Senator Pullen: "I would not think so, Senator Wojahn."
Senator Wojahn: "I am thinking of some of the debts that some of us may have around here; be pretty hard to tug all that to the bank; I can see a bag of gold or silver, but it would be so heavy that it would seem that a silver certificate should be adequate."
Senator Pullen: "Well, I am sure it would be adequate if the person receiving payment accepted it in lieu of the actual silver coin."
Debate ensued.

POINT OF INQUIRY

Senator Talley: "Senator Pullen, it's hard to get public to trust and accept these Susan B. Anthony dollars; would it be all right to amend the bill that we paid for them?"
Senator Pullen: "Senator Talley, we could mint Susan B. Anthony dollars in gold or silver then maybe we would be okay."
The motion by Senator Pullen failed and the amendment was not adopted on a rising vote.
Senator Metcalf moved adoption of the following amendment:
On page 1, line 13, after "chapter" insert ": PROVIDED, HOWEVER, That the rate shall revert to six percent on January 1, 1985"

Debate ensued.
The motion by Senator Metcalf failed and the amendment was not adopted.
On motion of Senator Sellar, the rules were suspended, Senate Bill No. 3066 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

**POINT OF INQUIRY**

Senator Rasmussen: "Senator Gaspard, how do they figure the reimbursement? Does that include the capital outlay, some of these busses of course, cost $100,000, and students pay no fare, the public school students pay no fare. How would they determine the reimbursement, include in the total fare charge, the cost of the busses?"

Senator Gaspard: "Senator Rasmussen, we have set somewhat of a precedent here in the past. We do now allow senior citizens to ride busses, school busses, on a cost reimbursement basis, and the precedent has been set in establishing that criteria for cost reimbursement for actual cost.
"If that is not satisfactory to the school district, it would certainly be up, then, to the local school districts to set out a policy that would meet the Constitutional requirements of separation of church and state. Also the state superintendent of public instruction could provide guidelines, too."

POINT OF INQUIRY

Senator Lysen: "Senator Goltz, I introduced a bill that would give American citizens priority over foreigners in our state's tax supported colleges and universities. Now as I was talking to you the other day, you are saying that for each of these hundred tuition and fee waiver for foreign students, there is a corresponding student from this state of Washington who receives the same benefits in a foreign country. Is that correct?"

Senator Goltz: "I wouldn't say, Senator Lysen, that it works one-on-one in every case. But the way the program is administered, that is the objective by many of the colleges and universities in the state; and the way it's administered at Washington State University, it does, in fact, work that way.

"But the objective is that it is meant to be reciprocal and it gives many of our students that opportunity; but not one-on-one."

Senator Lysen: "So you are saying but by and large they have achieved that standard?"

Senator Goltz: "In a very substantial move in that direction."

Senator Lysen: "I don't think I got a straight answer, Senator Goltz. 'Very substantial move in that direction' means what?"

Senator Goltz: "That many students do receive the same treatment abroad as we give them here . . . one-on-one."

Senator Lysen: "If we have a hundred students would you say it is fair to say that we have ninety or eighty who receive the comparable . . .?"

Senator Goltz: "I would say more than fifty percent. I would have to defer, I think, to perhaps to Senator Patterson to get a more definitive number, but it is certainly close to 100% at Washington State and approaches that at the University of Washington, I am sure. Senator Patterson could elaborate on it."

REMARKS BY SENATOR PATTERSON

Senator Patterson: "The best I can do is speak about the institution that I was associated with, Washington State University; and the administrator of the program is very, very selective, not only in the students who have the opportunity to study on an exchange program, one-on-one, from another university around the world.

"I might add that the American students probably have the better side of this particular arrangement; not only do they have their tuition and fees waived, but in many, many cases they have both board and room provided for them when they are on an exchange program. The only thing that we waive for the foreign student coming into the program, is the tuition and fees and they pay for their way otherwise.

"I think it is an excellent program and I think we would be remiss if we did not continue this program. I think it has a tremendous impact on our ability to maintain better relations from some of our friendlier nations around the world."

STATEMENT FOR THE JOURNAL

March 26, 1981.

TO: Secretary of the Senate
FROM: Senator Hal Zimmerman
RE: Statement for the Journal

1. Because Governor John Spellman invited me to accompany him to Longview, Kelso, Castle Rock, Vancouver and the Columbia River Gorge on Monday, March 23, I missed the session and votes on measures before the Senate that day. Republican Caucus leadership had arranged to hear a "consent" calendar
so that there would not be any major issues decided that day.

The trip to Southwest Washington was very productive.

2. I missed the early part of the session on Tuesday, March 25 because of an emergency meeting on one of the agencies in the proposed Senate Ways and Means budget.

Debate ensued.

POINT OF INQUIRY

Senator Ridder: "Senator Newhouse, I'm curious; now you said this was an error in drafting and as I would understand that then, these two separate pieces would normally be in two separate amendments, is that correct, Senator?"

Senator Newhouse: "Yes, it would. They are incorporated; well, in effect, the main change in the language would be on page 3 of the amendment which is new sub (4); and stricken by my amendment is the underlined language in the bill of sub (3). In other words, we are striking that underlined language and making it stronger, putting it in as sub (4)."

Senator Ridder: "Would you have any objection to dividing those, or putting it down a little bit, and presenting them as separate amendments?"

Senator Newhouse: "I would agree that it should be properly drafted. . . ."

Senator Ridder: "I wonder if we might do that."

SENATE BILL NO. 3866, by Senators Hemstad and Lee:
Modifying the powers and duties of the state capitol historical association.

REPORT OF STANDING COMMITTEE

MAJORITY recommendation: Do pass with the following amendment:
On page 3, line 16, after "RCW 27.36.010" insert "or chapter 24.03 RCW"

On motion of Senator Metcalf, the rules were suspended, Engrossed Senate Bill No. 3866 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Hemstad, on page 3, I see new material 'to engage in appropriate fund-raising activities for the purpose of increasing the self-support of the association.'

"At the present time, isn't that support state funded? Not the association itself, but as the State Capitol Museum?"

Senator Hemstad: "Senator Rasmussen, the historical association receives an appropriation through the state general fund. The problem has been, that it has been constrained from being able to raise money on its own to deal with the kinds of needs that the museum has. With the amendments here, it will be able to raise money in the community, to be able to carry on the kinds of activities that museums typically do.

"Again, this is a power that is available to the other museums in the state and this basically conforms to that."

Senator Rasmussen: "Senator, the last time I had any communication with them, they were going to open a furniture factory. Are they still planning on that?"

Senator Hemstad: "I can't speak to that because I do not know."

Debate ensued.

The President called the Senate to order at 7:20 p.m.

SECOND READING
SENATE BILL NO. 3797, by Senators Gould, Bottiger, Guess, Hemstad, Hurley, Scott, Williams, Woody and Moore:
Modifying provisions relating to the management of joint operating agencies.

MOTIONS
On motion of Senator Gould, Substitute Senate Bill No. 3797 was substituted for Senate Bill No. 3797 and the substitute bill was placed on second reading and read the second time in full.
On motion of Senator Gould, the following amendments were considered and adopted simultaneously:
On page 2, line 24, strike "thermal" and insert "nuclear"
On page 3, line 6, strike "thermal" and insert "nuclear"
On page 4, line 31, strike "thermal" and insert "nuclear"
On page 5, line 13, strike "thermal" and insert "nuclear"
On motion of Senator Gould, the following amendments were adopted:
On page 2, line 30, strike "bond sales" and insert: "bids or offers for bonds and the sale and issuance of bonds: PROVIDED, That the board of directors may delegate this authority to the executive board"
On page 3, line IO, strike "two" and insert "four"
On page 3, line 11, after "directors.", insert:
"The board of directors may provide by rule for the composition of the executive board so as to afford fair representation which reflects the member public utility districts' and cities' participation in the joint operating agency's projects. The board of directors may also provide by rule for the removal of a member of the executive board."
Senator Gould moved adoption of the following amendment:
On page 3, after line 26, insert:
"(iv) Not be involved in any way in the financial affairs of the operating agency, including but not limited to as an investor, underwriter or financial adviser of the operating agency or any of its members or any of the participants in any of the operating agency's plants; and"
Renumber subsequent subsection accordingly.

POINT OF INQUIRY
Senator Moore: "Senator Gould, I am still concerned that if we begin putting board members onto the WPPSS board, that then we become, we have some liability; and I do not know that anybody can give assurance that we are or are not becoming liable. But I do not want to put the state in that position and if you can discuss that a little bit, I would appreciate it. Thank you."
Senator Gould: "Yes, I would be glad to answer. I think perhaps it could be answered when we discuss the bill, but I would be glad to answer now.
"This was a question that we also raised and wanted to verify because it is a very important question. Mr. Bill Apple who testified before the inquiry committee and who also has given information to the energy committee, has stated, and he is a municipal bond counsel, has stated that it does not.
"We have been able to find no evidence that it does. Everyone that we have talked to says that it does not put a liability on the state. That is information that I can get."

The motion by Senator Gould carried and the amendment was adopted. On motion of Senator Gould, the following amendments were adopted:

On page 5, line 23, after "executive", strike "committee" and insert "((committee)) board"

On page 5, line 26, after "by the", strike "committee" and insert "((committee)) executive board"

Senator McDermott moved adoption of the following amendment:

On page 7, after line 20, insert:

"NEW SECTION. Sec. 5. There is added to chapter 43.52 RCW a new section to read as follows:

The Washington Public Power Supply System shall impose a moratorium on the construction of Washington Nuclear Plants 4 and 5 between June 1, 1981 and June 1, 1983. By January 1, 1983, the House and Senate Standing Committees on Energy and Utilities or their successors shall review and make recommendations to the legislature regarding the costs and management of the Washington nuclear plants already operating or near completion."

POIN T OF INQUIRY

Senator Goltz: "Senator Williams, along somewhat the same line as the question that was asked by Senator Moore, I am concerned about whether or not the legislature, mandating or imposing a moratorium upon the WPPSS system, would not, in fact, interfere with the management prerogatives and the board prerogatives of setting a sensible anticipation of revenue by this system. And if we are involved in the intervention here, of interrupting income, I wonder if we are not, then, so involved in the business of WPPSS that we, in fact, are the board of directors, and maybe I should ask, this is a legal question, to Senator Bottiger instead of you, but I will be glad to have anybody answer it who can."

Senator Williams: "If I might, just, and others certainly I would expect, might answer it.

"First, I am making the argument for an amendment that I did not draft. I might have drafted it differently. However, it is my opinion that the implications that you raised may go with the bill in its present form. . . "

"The point that Senator Goltz raised, I believe the amendment, in my mind, is consistent with what I think may be the thrust of the bill itself, even without this amendment. I have some serious questions as to whether we are encumbering the full state obligation on the retirement of these bonds or the taking of the responsibility for these plants.

"It is a question that I hope to have some additional answers on soon; so in my mind, I am not that concerned, others may be about this amendment in regard to the issue that you raised."

POIN T OF ORDER

Senator Gould: "Mr. President, I raise the question of scope and object, this is beyond the scope and object of the bill."

President Cherberg: "Senator Gould has raised the point of order that the purpose amendment expands the scope and object of the bill. Senator Gould."

Senator Gould: "Just to offer a comment on it, Mr. President, if I may. This bill is designed to strengthen the board of directors of the Washington Public Power Supply System and does not deal with the issue of the construction of the plants at all, and I would consider that this would be well beyond the object of the bill."
REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, if Senator Gould will permit me or the Senate will permit me, could I also respond to Senator Goltz' question?

"You will notice on the green sheet calendar the Senate Bill 3972 which calls for a study sponsored by Senators Williams, Gould and McDermott. That, to me, is the right way to make the determination of the need for plants 4 and 5, to complete the study, make the report; and the report then goes back to WPPSS and if it is coupled with the new board of directors as the bill before us contemplates, it would seem to me that the pressure would be such, if the study says they are not needed, then this newly constituted board would put them in mothballs. If the study says they are needed, then the board would have justification to proceed.

"So rather than us on the Senate floor, subject to the concerns of Senator Goltz of becoming liable, this would be the proper way, I think, to do it."

MOTION

On motion of Senator Clarke, Substitute Senate Bill No. 3797, as amended, together with the pending amendment by Senator McDermott and the Point of Order raised by Senator Gould, was ordered held for March 26, 1981.

Establishing the Frances Haddon Morgan Children's Center as a state residential school.

The bill was read the second time by sections.

Senator Bottiger moved adoption of the following amendment:

On page 1, after line 16, insert the following:

"Sec. 2. Section 1, chapter 108, Laws of 1979 ex. sess. and RCW 72.72.010 are each amended to read as follows:

The legislature finds that political subdivisions in which state institutions are located incur a disproportionate share of the criminal justice and emergency service costs due to (criminal) the behavior of the residents and/or employees of such institutions. To redress ((this inequity)) these inequities, it shall be the policy of the state of Washington to reimburse political subdivisions which have incurred such costs.

Sec. 3. Section 2, chapter 108, Laws of 1979 ex. sess. and RCW 72.72.020 are each amended to read as follows:
Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Department" means the department of social and health services.
(2) "Political subdivisions" means counties, cities and towns.
(3) "Institution" means any state institution operated by the department for the confinement of (adult offenders) persons committed pursuant to chapters 10.64, 10.77, (and) 13.40, 71.06, or 72.33 RCW (or juvenile offenders committed pursuant to chapter 13.40 RCW).

The secretary shall make such reimbursement to the extent funds are available. Reimbursements shall be limited to law enforcement, prosecutorial, judicial search and rescue, fire protection, and jail facilities costs which are documented to be strictly related to the (criminal) activities of the (offender) person."

POINT OF ORDER

Senator Craswell: "Thank you, Mr. President. I would like to ask that you look at this. I believe it is beyond the scope and object of the bill. The bill is strictly a placing of the name of Frances Haddon Morgan School in the statutes and I don't believe that this would apply."

MOTION

On motion of Senator Clarke, Senate Bill No. 4199, together with the amendment by Senator Bottiger and the Point of Order raised by Senator Craswell, was ordered held for further consideration on March 26, 1981.

SECOND READING

Debate ensued.

POINT OF ORDER

Senator Jones: "Mr. President, I would raise the point of scope and object. I think this is certainly, goes far beyond the object of the measure or the scope."
MOTION

On motion of Senator Clarke, Senate Bill No. 3375 together with the amendments by Senator Ridder and the Point of Order raised by Senator Jones, was ordered held for further consideration on March 26, 1981.

SECOND READING

SENATE BILL NO. 3893, by Senators Clarke and Wojahn (by Department of General Administration Division of Banking request):
Revising laws relating to banking.
The bill was read the second time by sections.

On page 6, line 24, add a new section as indicated below and renumber the remaining sections accordingly:

Upon making a deposit in a bank or trust company the depositor shall be given a receipt that shall include as a minimum the name of the bank or trust company, the date, the amount of the deposit, and, if the depositor so requests, the name of the account holder or his or her account number."

POINT OF ORDER

Senator Bottiger: "I would question the three-minute rule where; we are within the cutoff, approaching the cutoff resolutions; is the three-minute rule in effect now?"

RULING BY THE PRESIDENT

President Cherberg: "The President is unaware of any three-minute limitation, Senator Bottiger."

POINT OF ORDER

Senator Clarke: "Point of Order that the amendment is beyond the scope and object of the bill. I agree with substantially everything that Senator Pullen has said, and that this very well may be a most desirable piece of legislation but I call attention to the fact that this is a bill requested by the supervisor of banking to correct and bring up to date certain imperfections in the banking code; and to encumber it with any additional matter which is irrelevant, no matter how meritorious, is completely out of order.
"The bill should be by a separate bill and I am sure if Senator Pullen introduces such a bill, that with all of the cosigners he got on his amendment, that he would have no trouble at all getting such a bill passed."

MOTION

On motion of Senator Clarke, Senate Bill No. 3893, together with the amendment by Senator Pullen and the Point of Order raised by Senator Clarke, was ordered held for further consideration on March 26, 1981.
PERSONAL PRIVILEGE

Senator McCaslin: "Mr. President, the secretary Senator Pullen was alluding to is my secretary and I know now why my letters are not ready; she has been preparing Senator Pullen's speeches. And to answer a question he asked, 'If you can't trust your banker, who can you trust?', I would recommend your local realtor."

President Cherberg: "Was your point personal privilege, Senator McCaslin, or personal interest?"

Senator McCaslin: "If your house is up for sale, Mr. President, I would be happy to list it."

SECOND READING

SENATE BILL NO. 4022, by Senators Bluechel and Scott:
Providing for the transfer of the Saint Edward's Seminary to the parks and recreation commission.

The bill was read the second time by sections.

Senator Wojahn moved adoption of the following amendment:
On page 1, insert a new section to read as follows:
"NEW SECTION. Sec. 2. There is added to chapter 43.51 RCW a new section to read as follows:
The commission may not operate the swimming pool at Saint Edward state park, but the commission may enter into a contract with one or more local governments for the operation of the pool: PROVIDED, That any such contract must require the local government or governments to pay for all renovation, maintenance, and operation costs associated with the pool."

Renumber the remaining section consecutively.

Senator Bluechel moved adoption of the following amendment to the amendment by Senator Wojahn:
On line 4 of the amendment, strike "Edward" and insert "Edwards" and beginning on line 6, after "pool" insert a period and strike the balance of the amendment.

Debate ensued.

POINT OF INQUIRY

Senator Wojahn: "Senator Bluechel, isn't this what would happen?"

Senator Bluechel: "You are partially correct, Senator Wojahn; you are not entirely correct. The negotiations have not been finished with King county as to how much will be carried. The county will carry what they considered was their fair share of the cost. We have not concluded negotiations for the fact that there was no money to proceed with the filter and the dressing rooms and so the negotiations came to a halt until the pool was put in shape so that you had something to negotiate about.

"As I mentioned, one of the costs that is major in the pool is the cost of heat and it cannot be separated out under the common boiler system which goes to all buildings.

"And so that I say we have a viable pool; it is in first-class shape. It simply has to be made coeducational to work.

Senator Wojahn: "Would Senator Bluechel yield to another question?"

"It would seem to me that if we do not add this language, the total amendment right now, that we could then, under the contractual arrangement we entered into, could then be left with the cost of maintaining all of this. And I would suggest that we should not be paying for the heating of the pool or any of the buildings or building a facility for the men's and women's dressing rooms, that that is a local problem, because that does not lend itself to the definition of state parks, even with urban
assistance; I mean, an urban park with state assistance because the urban parks' bill would permit the state to purchase property, find property, assist with the purchase, but it does not anticipate building little league soccer facilities or maintaining pools. "Wouldn't you, isn't it true that if we do not do this now, accept this amend­ment in total, that we could, then, be left with the cost of the maintenance over and above what could be generated locally, because of initiative 62?"

Senator Bluechel: "Senator Wojahn, right now we are maintaining everything. This is an attempt to get some of the maintenance off our back and put it where it belongs with the county or entity that operates it. Right now we have to pay for the heat, we have to pay for everything. This is the only way we are going to get out from under. This is the whole point of contracting it with King county and finishing the pool."

Further debate ensued.

Senator Wojahn demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Bluechel to the amendment by Senator Wojahn.

ROLL CALL

The Secretary called the roll and the amendment to the amendment was adopted by the following vote: Yeas, 23; nays, 22; absent or not voting, 1; excused, 3.

Voting yea: Senators Benitz, Bluechel, Charnley, Clarke, Craswell, Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Patterson, Pullen, Quigg, Scott, Sellar, Zimmerman—23.

Absent or not voting: Senator Newhouse—1.

The President declared the question before the Senate to be the amendment by Senator Wojahn as amended by Senator Bluechel.

POINT OF INQUIRY

Senator Wilson: "Senator Wojahn, simply in the interest of accuracy, is this installation presently known as 'Saint Edward's State Park,' or is it proposed to become a state park?"

Senator Wojahn: "I cannot answer that, I do not know what it is called. I call it 'Saint Edward's seminary' because that is what it used to be. Maybe Senator Hurley could answer that."

Senator Wilson: "If Senator Bluechel would yield."

Senator Bluechel: "Senator Wilson, this is known as 'Saint Edward's State Park.' It is already a state park."

There being no objection, an amendment to the amendment by Senator Wilson was withdrawn.

The motion by Senator Wojahn carried and the amendment, as amended, was adopted.

On motion of Senator Wojahn, the following amendment to the title was adopted:

On line 1 of the title, after "Seminary," insert "adding a new section to chapter 43.51 RCW;"

On motion of Senator Fuller, the rules were suspended, Engrossed Senate Bill No. 4022 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.
Debate ensued.

POINT OF INQUIRY

Senator Wojahn: "Senator Bluechel, it is my understanding that any time property is to be sold by the state of Washington that it must be placed under the aegis of the general administration. They are the one agency of state government that can sell property.

"Now, is that your understanding also?"

Senator Bluechel: "I believe parks can sell property, DNR can sell property, and other agencies of state government can sell property."

Senator Wojahn: "If they have buildings on them?"

Senator Bluechel: "I believe so. They can also exchange property."

Senator Wojahn: "I do not think so, I think it has to be done by general administration at state level, the same as the Federal level; but I won't argue that but I believe, and for the journal, I believe that they are the only one that can sell it; if we turn it over to the parks, in my opinion, then we are going to end up with a property that we cannot sell; it will have to go back to GA to be sold in case we cannot fund it."

POINT OF INQUIRY

Senator Hurley: "Senator Bluechel, do you know how much this will cost state parks to operate and maintain the Saint Edward's State Park?"

Senator Bluechel: "I cannot give you that answer because I do not think it has been figured out. It will be in any budget for parks; in any budget for parks it will have to take its own level with whatever priority it may attain; and until we pass a budget for parks, we won't know what the cost will be, and to my knowledge that budget has not yet been written.

"In parks, as you know, there are 'wish lists', there are practical lists and in today's world, in today's revenue constraint, I would say that no one and no park is going to get everything they ask for; and it may be three or four years, or ten years, before all of the entities at any particular park are fully funded.

"I do not think that is the issue in the bill. The issue in the bill here is just to make it simple to operate it instead of operating it with a contract to operate it directly."

Senator Hurley: "No, Senator Bluechel, I knew that was not an issue in the bill, but I am sure it will be an issue with state parks, because the maintenance and operation will subtract some other parks, the maintenance and operation of other necessary parks, unless you make sure that an additional amount is in the budget to provide for this certain instance.

"Now I am certainly not against the beautiful, beautiful park that Saint Edward's is, because I have been there and I have seen it and I think it is a wonderful addition to our urban parks, which we need. But I do hope that you will make sure that that amount is in the budget so that it won't detract from other operations of state parks."

Senator Bluechel: "Senator Hurley, it would be my hope that enough money would be put in the budget to enable King county or any other entity, to operate the pools and to take the maintenance cost as far as possible, off the state, because the state has to maintain them right now to keep them from deteriorating."

POINT OF INQUIRY

Senator Hurley: "Senator Wojahn, do you have the answer to my question about the maintenance and operation costs?"
Senator Wojahn: "I have before me the budget request for the capital budget for the year 1981–83 biennium. The total project cost will be $1,045,200 and the operating cost will be $252,369."

Senator Hurley: "Yes, $253,000. Now I know that parks and rec have been, have reduced, have had their funds reduced, I mean, for the operation in the next budget; and I do hope that this will be added to what their budget is so that it won't be cut further."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 4022, and the bill passed the Senate by the following vote: Yeas, 30; nays, 16; excused, 3.

POINT OF INQUIRY

Senator Wilson: "Senator Williams, you said this is a local control bill and by that do you mean that it is entirely optional with local jurisdictions as to whether they participate in this program or not?"

Senator Williams: "Yes."

POINT OF INQUIRY

Senator Rasmussen: "Senator Williams, it indicates here in the digest that a local review board or where none exists, the state review board is to approve on any applications for tax benefits and then if other states, if the application is not denied within sixty days, they are considered approved.

"How do you correlate that with the fact that you say it is local control? State review board is going to determine whether or not they get the tax exemption."
Senator Williams: "Senator, let me explain that. There is a state review board only in certain instances, that is, in those areas where local boards or local governments choose not to have such a mechanism for granting a tax freeze.

"In those cases where there are properties listed in the national register, and there are only some 381 of those properties, plus some districts in this state. Only in those cases, in order to offer this incentive to all properties on an equal basis, only national registered properties in those areas where local government does not choose to use this mechanism, is there then an appeal to a state review board. And in those instances then, the state review board may grant the freeze."

Further debate ensued.

On motion of Senator Fuller, the rules were suspended, Engrossed Substitute Senate Bill No. 3031 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Patterson: "Senator Williams, the $25,000 dollar appropriation that we just added to the bill for staffing the planning of the centennial, do you have any idea what kind of a staff we are talking about?"

Senator Williams: "This was my assumption that we did put a $25,000 dollar appropriation on it; now my assumption is that the commission would determine that they would need at least one person to take care of their staffing situation and whatever.

"I assume there will be some state agencies that may cooperate on this, perhaps provide some office space and that sort of thing. However, I also presume that if the commission chose not to hire somebody, they could use this in some other way."

Senator Patterson: "Further, Senator Williams, we are making a commitment in this bill for general obligation bonds against the credit of the state of Washington."
Do you have any idea what this commission might come up with and the magnitude of the bond issue that we are endorsing through this legislation?"

Senator Williams: "I think approximately, first of all, I would not presume to tell them how much it should be; however, some two years or so ago, there was a bond proposal brought to this legislature which incorporated both historic preservation and cultural facilities, and I think that was, at that time, was in the neighborhood of $40,000,000 dollars."

Senator Patterson: "Forty million dollars."

Senator Williams: "Right."

Senator Patterson: "Is that what you are suggesting that we, through this legislation, are endorsing the possible issuance of a bond issue to the magnitude of $40,000,000 dollars to carry on this program?"

Senator Williams: "I think we are asking a commission to make that judgment; in other words, we are not saying that we are endorsing it in a sense that we are approving it; we are asking them and directing them to come up with a method, and we have suggested that method in the bill."

POINT OF INQUIRY

Senator Rasmussen: "Senator Goltz, did your mother ever tell you that story about what happened when the camel got his nose under the tent?"

Senator Goltz: "I believe someone told me that story at one time."

Senator Rasmussen: "I would say, Senator Goltz, that the camel is getting his nose under the tent if we go for this bill tonight, even as late as it is."

Debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 3031, and the bill passed the Senate by the following vote: Yeas, 32; nays, 14; absent or not voting, 1; excused, 2.

Voting nay: Senators Benitz, Clarke, Craswell, Fuller, Gallagher, Guess, McCaslin, Metcalf, Patterson, Pullen, Quigg, Rasmussen, Sellar, Shinpoch—14.

Absent or not voting: Senator Hughes—1.

ENGROSSED SUBSTITUTE SENATE BILL NO. 3031, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

At 9:46 p.m., on motion of Senator Hayner, the Senate adjourned until 10:30 a.m., Thursday, March 26, 1981.

JOHN A. CHERBERG, President of the Senate.

SIDNEY R. SNYDER, Secretary of the Senate.
Senate Chamber, Olympia, Thursday, March 26, 1981.

The Senate was called to order at 10:30 a.m. by President Cherberg. The President declared the Senate to be at ease. The President called the Senate to order at 10:54 a.m. The Secretary called the roll and announced to the President that all Senators were present.

The Color Guard, consisting of Pages Karen O'Malley and Laura McLatchy, presented the Colors. Reverend Lee Forstrom, pastor of the Westwood Baptist Church of Olympia, offered the prayer.

MOTION

On motion of Senator Clarke, the reading of the journal of the previous day was dispensed with and it was approved.

MOTION

Senator Jones: "Mr. President, I move that from now until cutoff of consideration of Senate bills on April 2, that comments on the floor by members be limited to three minutes per issue or amendment, except that the prime sponsor or mover of an amendment, may both open and close debate.

"I also move that members be prohibited from yielding their time to another Senator.

"It is our hope, and my hope, of course, that this will greatly expedite the consideration of Senate bills as we near the cutoff."

POINT OF INQUIRY

Senator Rasmussen: "Senator Jones, matter of clarification. Three minutes is an awful long time to talk, we do not have to talk that long, do we?"

Senator Jones: "I never knew that you were aware of the length of three minutes, Senator Rasmussen."

Senator Rasmussen: "My question was, the mover of the motion, is he allowed three minutes at the front and three minutes at the back for closing, or is there no limit on the mover of a motion?"

Senator Jones: "I believe it is specific in its three minutes to move and three minutes to close, Senator Rasmussen. I think this ... further comment? ... This follows the pattern of the past when I can remember Senator Bailey and the others rising to attempt to expedite the business of the Senate, and I think this motion is drawn from exactly that kind of a concept."

POINT OF INQUIRY

Senator Metcalf: "Senator Jones, does this include the response of say, a series of questions to one member on a bill? Would this include questions from members in the three minutes?"

Senator Jones: "No, that is a different matter. Let us hope we could have questions though, rather than statements."

Senator Metcalf: "Thank you very much ... expeditious manner."
REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, members of the Senate. I would concur with Senator Jones and support the proposal to expedite the business. I think, technically, it is a rule change and our side will attempt to abide by it today, and tomorrow we adopt it formally as a rule, might be the exact procedure; otherwise the question of suspension would be there.

"But I think our side will support it today and I would suggest tomorrow you make it a formal rule change."

POINT OF INFORMATION

President Cherberg: "Senator Jones, may the President direct a question? Would you like to clarify whether a member may speak more than once on an issue, other than the prime sponsor?"

Senator Jones: "No, no I think once . . ."

President Cherberg: "In other words, if a member speaks a minute-and-a-half, that is it?"

Senator Jones: "Three minutes."

President Cherberg: "One time."

Senator Jones: "One time."

PARLIAMENTARY INQUIRY

Senator Hayner: "Mr. President, I have a point of parliamentary inquiry. "Are Senate Bill 3464 and Senate Bill 3328 on the consent calendar?"

REPLY BY THE PRESIDENT

President Cherberg: "No, the bills are not on the consent calendar, Senator Hayner."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, I thank Mrs. Hayner for her concession and agree that there probably should be some written policy. The rules committee, when it met, had a list before it and I think formerly that motion carried in the rules committee and that was the consent calendar.

"And I agree that the moving by the majority leader on and off after that rules committee, is not the proper way to do it and I think that has been acknowledged and we appreciate that and would support the motion as stated."

REMARKS BY SENATOR CLARKE

Senator Clarke: "By way of clarification and if I do not understand, Senator Hayner can correct me, but it is my understanding that when a bill is on the consent calendar and comes before the body for consideration, that while it is the general consensus that if amendments are the type of substantive debate ensues, that when the motion will be made to place the bill at the bottom of the yellow calendar; but in each instance that will be up to the body to make a determination as to whether or not, in reality, the debate is or is not made merely for the purpose of delaying the bill or whether it is a really germane type of objection.

"I think we have to, in effect, leave it up to the body in each instance to make a determination once a bill is before the body for consideration as to whether it should go off the consent calendar and to the yellow calendar."
REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Well, Senator Clarke, that is a change of policy. In the past, a bill on the consent calendar could be dropped to the bottom at the request of, and I believe in the past, it has been two members. We never really have pouted if there was an objection to a bill that went to the bottom on the consent calendar, the idea being that we could run through the agreed-to bills very rapidly, and then go to the contested bills.

"Now in our caucus we have a list of bills from the consent calendar that had, in some cases, substantial objection and one case I believe only one member; if he finds a joiner that bill would be submitted to you as being . . . and that would go to the bottom of the consent calendar. Now if we are going to vote individually on each one, on a motion to put at the bottom, that is a change of policy from the past, as I know it."

REMARKS BY SENATOR CLARKE

Senator Clarke: "Well, in response to that, if you were talking about the original making up of the consent calendar and how they get on there and how they don't get on there, that is one thing. But my observation is that once a bill which is on the consent calendar is before the body for consideration and debate starts to ensue, that then it is entirely a matter for the body itself to determine as to whether or not that bill should continue to be considered or whether it should be placed on the bottom of the yellow calendar."

REMARKS BY SENATOR FLEMING

Senator Fleming: "Mr. President, members of the Senate. Senator Clarke, my understanding of past practices has been somewhat a little different than that. When we had our consent calendar and if a measure came before the body on that consent calendar, amendments and what have you, debate was quite in order. If it was quite a controversy but was not necessarily a consent, but you know, not a major amendment of another bill being amended onto it, then that bill would some time be sent to the bottom of the consent calendar. If it was evident that the bill was being amended by a major amendment, another bill, then it would be determined by the body that that would go to the yellow calendar; but just because a little debate arose on a bill, it did not go all the way to the yellow calendar, but it went down to the bottom of the pink calendar. That is my understanding.

"Secondly, I think what we also have to do in all fairness on both sides of the aisle, we are going to have to do a little better job on the consent calendar, because some of these bills are not consent."

REMARKS BY SENATOR CLARKE

Senator Clarke: "Well, Mr. President, the point I was making is simply that it is almost impossible to adopt an all-comprehensive rule as to when, if a bill is up for consideration and if consideration actually is started by the body on the pink calendar as to when the consideration should be stopped and should be placed on the yellow calendar.

"My point simply is that that is a matter that is up for the body to determine in each individual instance."

REMARKS BY THE PRESIDENT

President Cherberg: "Senator Fleming still has the floor."
Senator Fleming: "Senator Clarke, I guess my point is that we ought to try to have some rule of consistency so we'll know exactly what we are doing."

REMARKS BY THE PRESIDENT

President Cherberg: "First, the President would like to put the motion about the three-minute rule. As many as are in favor of Senator . . ."

Senator McDermott: "I object."

REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "Mr. President, what I was going to suggest was that our leaders get together and then bring a message back to the caucus so that the leaders on each side have an understanding of what we are supposed to be working at, instead of washing out linen out here on the floor when we should be passing bills; and then we could caucus and we will come back with a clear understanding what each side wants to do. Thank you."

REMARKS BY THE PRESIDENT

President Cherberg: "The President wishes to advise that once a measure is before the Senate, whether it is on the pink calendar or the yellow calendar, the Senate may, in its wisdom, dispose of it in any manner a majority chooses. Senator McDermott."

REMARKS BY SENATOR McDERMOTT

Senator McDermott: "Mr. President, that was entirely my point. What we are having here is kind of ad hoc rulemaking. None of what has been said in the last fifteen minutes will appear in the journal; there will be no way to go back and say 'Well, what I remember you saying was that if we did this, that would happen.' The Senate adopted a set of rules; we also use Reed's rules when they are applicable; and the fact is, we violated the rules on the thirteenth of February, and we have continued to do ad hoc rulemaking since that point. We still have two elected president pro tems in the Senate and those kinds of issues have never been resolved. You cannot ad hoc, make rules like this and have an orderly procedure, and you have five people standing up here interpreting what a consent calendar is. There is no such entity as a consent calendar. It is not in Reed's; it is not in the Senate rules so if you want to do this, I think you ought to sit down and write a rule, give a day's notice and proceed with it."

Senate Bill No. 3390 was rereferred to the Committee on Rules.
Senate Bill No. 3464 and Senate Bill No. 3328 were placed on the Consent Calendar for today.

The motion by Senator Jones carried and the three-minute rule will be imposed.

At 11:25 a.m., on motion of Senator Fleming, the Senate recessed until 11:53 a.m.

PARLIAMENTARY INQUIRY

Senator McDermott: "Mr. President, do you still have a motion before the Senate? I guess I am raising a point of parliamentary inquiry."

REPLY BY THE PRESIDENT

President Cherberg: "Are you referring to the motion by Senator Hayner to take certain bills off and on the calendar?"
Senator McDermott: "Yes, the whole . . . that is disposed of?"
President Cherberg: "Yes, sir."
PERSONAL PRIVILEGE

Senator Fuller: "Mr. President, I rise to a point of personal privilege.

"Several days ago when I first spoke on the floor, majority leader Jones pointed out to me, for having the temerity to use the microphone in this body, you had to pay a price. The price is something comestible, provided for the members. I asked him to name his caloric poison and he failed to do so. I left it to my wife's good judgment; she went to a bake shop operated by Fuller Market Basket, Incorporated in the town of Chehalis, and there selected various comestibles which were provided for your enjoyment this morning.

"I hope that you enjoyed a sweet, union-produced product. Thank you."

PERSONAL PRIVILEGE

Senator Vognild: "Mr. President, I, too, rise for a point of personal privilege.

"Referring to the last speech on the floor, in 1979 I went approximately 62 days on the floor without speaking; and apparently held the modern-day record. This year, a Senator went 72 days without speaking; I presume that was what caused the three-minute rule today. I am going to formally concede that he now has the modern-day record and I will ask him if he will please start now to strive for a new record."

PERSONAL PRIVILEGE

Senator McCaslin: "Mr. President, I want you to know that Senator Vognild got those lines from me, not that I deny his natural talent. I, too, am indebted to this Senator Jones, would you put down the phone when I'm speaking?—I, too, am indebted to this body and I appreciate Senator Fuller and Mrs. Fuller providing us with the doughnuts and the cookies, and now I am obligated to ask this which they would prefer, Rolaids or Tums?"

REMARKS BY THE PRESIDENT

President Cherberg: "With the permission of the body, the President regretfully announces that neither of the three have the record. Former Senator John Cooney went the entire session without speaking."

There being no objection, the Senate advanced to the sixth order of business.

On motion of Senator Clarke, Senate Bill No. 3263 and Senate Joint Resolution No. 108 were ordered held for consideration on March 27, 1981.

SECOND READING

SENATE BILL NO. 3600, by Senator Guess:

Protecting proprietary information.

The Senate resumed consideration of Senate Bill No. 3600. On March 20, 1981, the following amendment had been moved for adoption by Senator McDermott:

On page 1, following line 16, insert "This section does not apply to plans, specifications and proposals for nuclear power plants or ferries."

Debate ensued.

POINT OF INQUIRY

Senator Goltz: "Senator Guess, my initial reading of this bill was that you were trying to protect proprietary information which was given to the state of Washington
under a request for a proposal and that the proprietary information was to be protected only during the time that the proposal was under consideration for purchase by the state.

"The question is: does the deal go beyond that and protect this information after the state has purchased the item under consideration."

Senator Guess: "Senator, the patented, and the review of the computer in this case, the computer was furnished according to the bid proposal. The only thing that is necessary, other than the schematics which are given, is that the department is furnished an operation manual. At the completion of the contract, the department will be furnished the manual on the computer, the wiring diagrams and the entire thing.

"In the meantime they will have had the design copy–righted, but this is in the preliminary stages so after the final job when the copyright has been put on the computer, then it will be available to anybody to have."

**POINT OF INQUIRY**

Senator McDermott: "Senator Metcalf, well, I know you have read the bill. Who is it that makes the decision about the release of information?"

Senator Metcalf: "For the purposes of this section, a state agency may agree to maintain the confidentiality of proprietary information . . . whenever it determines, we are talking about the state agency, it has to determine that it would result in a gain to a third party. That's what the bill says."

Further debate ensued.

Senator McDermott demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator McDermott.

**ROLL CALL**

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 22; nays, 27.

Voting nay: Senators Benitz, Bluechel, Bottiger, Clarke, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hansen, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, Talley, von Reichbauer—27.

Senator Lysen moved adoption of the following amendment:

On page 1, line 22, after "owner" insert: "PROVIDED, That once the state has executed a contract with any party for the acquisition of real or personal property, all documents relating to the plans, specifications, proposals, and all other documents associated with the contract shall be the property of the state"

Debate ensued.

The motion by Senator Lysen carried and the amendment was adopted.

On motion of Senator Guess, the rules were suspended, Engrossed Senate Bill No. 3600 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

**POINT OF INQUIRY**

Senator Lysen: "Well, I would like to ask Senator Hemstad, the remarks he made, I would like to get them in the record, if they are accurate and I assume they are, that they would be helpful in getting the information I have been after."
"What I would like to ask you, Senator Hemstad, in the legislative history on my amendment, if this bill passes, will that make these records available, which I have been trying to get now for three years?"

Senator Hemstad: "Senator Lysen, I cannot answer your question directly. All I can respond by saying that this becomes the property of the state of Washington in under whatever laws of the state of Washington then apply, they may or may not be available. I cannot speak to every section of the RCW as to the accessibility of these records.

"What your amendment does is make them the property of the state and then public to whatever the Revised Code of Washington will permit."

ROLL CALL
The Secretary called the roll on the final passage of Engrossed Senate Bill No. 3600, and the bill failed to pass the Senate by the following vote: Yeas, 24; nays, 25.

Voting yea: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer—24.

ENGROSSED SENATE BILL NO. 3600, having failed to receive the constitutional majority, was declared lost.

MOTION
On motion of Senator Clarke, the Senate commenced consideration of Substitute Senate Bill No. 3797 for the purpose of receiving a Ruling by the President on a Point of Order raised by Senator Gould on March 24, 1981.

SECOND READING
SUBSTITUTE SENATE BILL NO. 3797, by Committee on Energy and Utilities (originally sponsored by Senators Gould, Bottiger, Guess, Hemstad, Hurley, Scott, Williams, Woody and Moore):
Modifying provisions relating to the management of joint operating agencies.

The Senate resumed consideration of Substitute Senate Bill No. 3797. On March 24, 1981, an amendment by Senator McDermott had been moved for adoption. Senator Gould raised a Point of Order on the amendment by Senator McDermott.

RULING BY THE PRESIDENT
President Cherberg: "In ruling upon the Point of Order raised by Senator Gould, the President finds that Substitute Senate Bill No. 3797 is a measure which establishes an executive board to manage the affairs of the Washington Public Power Supply System.

"The amendment proposed by Senator McDermott directs the Washington Public Power Supply System to impose a moratorium on the construction of certain nuclear power plants between June 1, 1981 and June 1, 1983.

"The President therefore finds that the proposed amendment does expand the scope and object of the bill and that the Point of Order is well taken."

The amendment by Senator McDermott was ruled out of order.
MOTION

On motion of Senator Clarke, the Senate commenced consideration of Senate Bill No. 3375 for the purpose of receiving a Ruling by the President on a Point of Order raised by Senator Jones on March 25, 1981.

SECOND READING

SENATE BILL NO. 3375, by Senators Patterson, Peterson, Sellar, Gallaghan and Bauer (by Executive request):
Doubling the life of driver's licenses and adjusting fees and the apportionment thereof accordingly.

The Senate resumed consideration of Senate Bill No. 3375. On March 25, 1981 Senator Ridder moved adoption of an amendment. Senator Jones raised a Point of Order on the amendment.

RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the Point of Order raised by Senator Jones, the President finds that Senate Bill No. 3375 is a measure adjusting driver licensing fees and the allocation of those fees to the Highway Safety Fund and the General Fund.

"The amendment proposed by Senator Ridder also deals with the allocation of those fees to the Highway Safety Fund and the General Fund.

"The President therefore finds that the proposed amendment does not expand the scope and object of the bill and that the Point of Order is not well taken."

The amendment by Senator Ridder was ruled to be in order.

President Cherberg: "In ruling upon the Point of Order raised by Senator Craswell, the President finds that Senate Bill No. 4199 is a measure which simply adds the name of The Frances Haddon Morgan's Children Center to the statutory list of state schools.

"The amendment proposed by Senator Bottiger, however, deals with the subject of the reimbursement of local governments by the state for costs arising from the criminal behavior of residents and employees of state institutions located in their area.

"The President therefore finds that the proposed amendment does expand the scope and object of the bill and that the Point of Order is well taken.

The amendment by Senator Bottiger was ruled out of order.

"The President therefore finds that the proposed amendment does expand the scope and object of the bill and that the Point of Order is well taken."
The amendment by Senator Pullen and others was ruled out of order.

PARLIAMENTARY INQUIRY

Senator Talmadge: "Point of parliamentary inquiry, Mr. President.
"Mr. President, with respect to rule 47 and rule 48 of the Senate rules, should
there not be a public hearing on a bill, on a particular title number to a Senate Bill,
can that Senate bill be read into second reading, be read into the records?
"Mr. President, could I speak to my Point of Order, in specifics?
"Mr. President and members of the Senate. I think Senate Bill 3395 relating to
the jurisdiction of the state human rights commission, passed the Senate judiciary
committee with a majority report and a minority report. However, somehow in the
process, that Senate Bill 3395 was not used and a new number and a new title was
used, Senate Bill 3704.
"Now I realize that members can go off the floor of the Senate and hold a
hearing and dispense with the public notice requirements of rule 47 if that is the
wish of the members of the committee. But there was no hearing on this particular
number and I guess we are just a bit concerned about what the difference between
Senate Bill 3704 and Senate Bill 3395 might be.
"I don't want to raise a Point of Order but I do want to raise a point of parlia­
mentary inquiry, because I am a little bit concerned about this process."
Debate ensued.

POINT OF INQUIRY

Senator Fleming: "Mr. President, I want to ask Senator Clarke a question on
your particular point that you made. I guess I am wondering on the bill that came
out of the committee which was 3395 or whatever the number is, was that substitute
bill the bill that was voted out of committee and then subsequent to that action after
the committee had done their business and realized, the staff realized there might be
a problem with the title, did they then put that subject matter on to 3401 and then
put it before us today?
"If that is the case then 3401 was never voted out of committee and 3395 was;
370, whatever."

Senator Clarke: "In response to your question, I cannot give a definite recollec­
tion. I do know that prior to the time of the hearing, staff was informed of the title
problem and were instructed in substance, to place the bill with that title situation.
Now whether that was formally brought to the attention of the members of the
committee in open meeting, I do not recall. But I certainly have no objection what­
soever to following Senator Talmadge's suggestion that we call a special meeting of
the committee for the purpose of considering that title change."

Senator Fleming: "Thank you, Senator Clarke. I am just not sure of some of
his concerns but also, I think we ought to look at that because we want to follow our
rules and not say a rule of the day, because we can get ourselves in trouble that way;
and if it was not acted upon, you could probably hold a meeting in one of the caucus
rooms or off in the wings or whatever, as long as there was some formal action that
that bill was the bill that was passed out of committee."

Senator Clarke: "Well, there certainly was no intention on the part of the com­
mittee or the committee chairman, to circumvent the rules, and the bill was, in sub­
stance, a more or less compromise bill that was worked out, and for that reason it
was felt that it would be just better procedures to have a title that was a broader
title. But, I move that the further reading in of that particular bill be deferred until
such time as we have had an opportunity to give the committee, allow the committee
to meet and if they wish to consider . . . reconsider, I certainly have no objection to that . . . ."

MOTION

Senator Clarke moved that the reading of the Standing Committee Report on Senate Bill No. 3704 be deferred until such time as the Judiciary Committee meets to consider the measure.

REPLY BY THE PRESIDENT

President Cherberg: "If there is no objection, the Senate will defer the reading in of this particular measure. Senator Talmadge, with your permission and that of the other members, the President should like time over the weekend to study your inquiry. Thank you. "Senator Clarke and other members of the Senate, the Secretary advises the President, Senator Clarke and other members, that this is the last day that the measure can be read in."

POINT OF INQUIRY

Senator Clarke: "I understand that. Would Senator Bluechel respond to a question? "Senator Bluechel, you, apparently, have a more definite recollection since you attended the committee meeting as to what, if anything, took place with respect to the change of title; and could you relate your recollection as to that, please?"

Senator Bluechel: "Yes, Senator Clarke. During the testimony that I presented to the committee, I stated that the title of the existing bill was narrow, and that I would request that the bill be hung on a title--only bill which we had already transferred into the committee. I made that statement, and you told the committee at that time, is my best recollection, that this will be put on a title--only bill, and gave them the number."

Debate ensued.

POINT OF ORDER

Senator Bottiger: "Mr. President, I do not believe a formal Point of Order has been raised and I do now raise it as to whether Senate Bill 3704 is properly before the Senate on the committee report since the 5-day notice was not given and the minutes do not record the reason why an emergency meeting had to be held of the committee."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Bottiger has raised a point of order. Senator Bottiger, the President should like to have the same privilege of studying the question over the weekend."

Further debate ensued.

The motion by Senator Clarke carried. The Standing Committee Report on Senate Bill No. 3704 will be held pending meeting of the Judiciary Committee.

MOTIONS

On motion of Senator Clarke, Senate Bill No. 3263 and Senate Joint Resolution No. 108 were ordered held for consideration on March 30, 1981.

On motion of Senator Clarke, the Senate resumed consideration of Substitute Senate Bill No. 3797.

SECOND READING

SUBSTITUTE SENATE BILL NO. 3797, by Committee on Energy and Utilities (originally sponsored by Senators Gould, Bottiger, Guess, Hemstad, Hurley, Scott, Williams, Woody and Moore):
Modifying provisions relating to the management of joint operating agencies.
The Senate resumed consideration of Substitute Senate Bill No. 3797, as amended, from March 25, 1981. On March 26, 1981, an amendment proposed by Senator McDermott on March 25, 1981, was ruled out of order.

Senator Williams moved the following amendments be considered and adopted simultaneously:
On page 3, line 9, after "(a)" strike "Seven" and insert: "The"
On page 3, line 14, following "(b)" strike all material down through "state" on page 3, line 34 and insert: "At least four members of the executive board shall not be employees of the Bonneville Power Administration or any electric utility conducting business in the states of Washington, Oregon, Idaho, or Montana.
(c) At least four members of the executive board shall be representatives of policy makers in business, finance or science or be recognized in the construction or management of such facilities as the operating agency is constructing or operating"
Renumber the following subsections accordingly
On page 4, line 13, following "elect" strike "seven members to" and insert: "the members of"

POINT OF INQUIRY

Senator Gould: "Senator Williams, if I may I would like to ask Senator Williams to yield to two questions and then make some comments.
"My first question, Senator, I think all of your amendments deal with the one issue and would you like to consider them as one amendment?"
Senator Williams: "Yes, yes, in fact that would be most appropriate."
Senator Gould: "All right, I felt that that was what you wanted. The second was in regard to any indication that the state might be liable by going this route, by
having the gubernatorial appointments which are confirmed by the Senate. Have you had any kind of a written statement, I ask that, have you any kind of a written statement from any council that that is a possibility?"

Senator Williams: "No, I do not. All I can say is that there is a certain amount of research going on, however, no one has reached a point where they could conclusively or felt that they could, at this point in time, put something on paper; and you are correct, I do not have anything in hand at this moment to say that. Mr. President, I would move all the amendments as one."

Further debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator Hemstad, let me pose for you a normal situation of corporate law where the four members appointed by the governor engage in an act that is ultra vires, beyond their stated authority. Would not the state of Washington be vicariously liable for the acts of those four directors appointed by the governor, since the state of Washington, acting through the governor, would be the appointing authority for them on the executive board?"

Senator Hemstad: "Senator Talmadge, I simply cannot respond to that kind of a generalized question. What I can respond to is the structure that has been put into this statute with the explicit directive that this does not translate this agency into a state agency. And by general, I think, I am relatively confident in my understanding of the obligations that a municipality and/or the state will undertake, and it is my judgment that the structure of this agency is now defined, does not translate that into the potential risk of a state obligation."

Further debate ensued.

POINT OF INQUIRY

Senator Bauer: "Senator Bottiger, this is a different question than I approached you earlier on. You have indicated your interest would be, would have been to start with, that we dump the entire elected board and go with the governor-appointed board; and then you said that, you backed off of that concept because somewhere we are going to reach a threshold where we might involve the state financially.

"So, if assuming that we back off to a point where the controlling majority of the board were WPPSS' people and the noncontrolling members were non-WPPSS' people or gubernatorially appointed, then what improvement on the board in decision-making if the WPPSS' people board members have the majority and their decisions are going to be not too much different from whether they have the seven members or eleven members as long as their controlling members are WPPSS' elected people. You still come maybe closer to not involving the state financially, however you haven't improved the board if the policy-making aspect of it has not been transferred to some non-WPPSS' people."

Senator Bottiger: "Senator Bauer, Mr. Apple indicated that even the three-member board was not across the line until the state started getting involved in the every day operation. I was never quite sure that I agreed with him on that.

"But I would liken the four members in addition to the seven, as the public members that we have been putting on say, professional licensing. For example, we have a public member on the state bar association now. These four members serve to kind of break up the club and if their objections, if their constant questioning and objecting are not part of the public record, they are there, they are being, spending sufficient time to become familiar. They are then the public members who raise the flags, raise the questions. And even though they are not in the majority, four out of eleven is enough to, in my opinion, turn the board around and make all eleven members become very active in the every day decisions."
Senator Bauer: "But in the event they were influential enough to change the attitude of the other seven members, the WPPSS' members, and if it could be proven that their decision or their influence was sufficient enough to change the policy outcome of the board, then wouldn't that be grounds that the state had, by virtue of the fact that the governor had appointed four people, who had influenced the decision—making to the degree that the state did have a say in the final outcome and that those WPPSS' board members then, had somewhat relegated or negated their authority, their over-all authority, to nonelected people.

"Now, at whatever point that decision might be made, whether or not they are a part of making the decision or whether they are a part of influencing the decision be made to the point where the state is obligated, that is a question . . . ."

Senator Bottiger: "Senator Bauer, neither Mr. Apple nor I nor anybody else that we have contacted, is of the opinion that that would jeopardize the liability question, that that would put the state in liability.

"Senator Williams has called everybody that he can think of, the WPPSS' staff has assured me they have called, I believe eleven New York bonding counsel; Mr. Apple does a lot of work for utilities here in the state of Washington. They are all of the opinion that danger does not exist in the bill as written; and for that matter would exist in Senator Williams' amendment.

"It is when the state begins passing laws regulating the every day activity; let me give you, for example, if we passed a bill to put a moratorium on four and five, I think we have clearly crossed the line, the utilities could sue the state. But if we could force them to do a study and that study showed them they should cancel four and five and then they, exercising their decision, cancel four and five, the state would not be liable."

Debate ensued.

POINT OF INQUIRY

Senator Fuller: "Senator Williams, before I vote on your amendment, I would like to ask you, in section (b) and section (c), both times you refer to 'four members.' Are those the same four members or that would make a total of eight, would it not, if they are not the same persons?"

Senator Williams: "The intention, you know I am assuming the amendment was drafted correctly, the intention is that there is only one four-member group appointed by the governor. There are not additional four members."

Senator Fuller: "As I read your amendment the government (sic) definitely would no longer appoint as a . . . ."

Senator Williams: "That is correct. The appointments to that would be by the board of directors."

Senator Fuller: "Now I would like to ask one further question. When you speak of the employees of Bonneville and any electric utility conducting business in the state of Washington, Oregon, Idaho and so on, does this eliminate PUD commissioners or do you not consider them employees?"

Senator Williams: "Yes, it would eliminate them; in other words the intent, going back to the basic intent of the legislation, aside from this amendment, is to get people without a conflict of interest but from outside of the whole electric utility business."

Further debate ensued.

Senator Williams demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendments by Senator Williams.
The Secretary called the roll and the amendments were not adopted by the following vote: Yeas, 19; nays, 30.

On motion of Senator Gould, the rules were suspended, Engrossed Substitute Senate Bill No. 3797 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

PARLIAMENTARY INQUIRY

Senator Shinpoch: "Mr. President, is it possible to yield three minutes of my time to Senator Lysen? I was interested in the balance of what he had to say."

REPLY BY THE PRESIDENT

President Cherberg: "The statement by Senator Jones which was adopted, prevents yielding of time to another Senator."

Further debate ensued.

POINT OF INQUIRY

Senator Vognild: "Senator Lysen, my concerns are the bottom line when this thing is done, and just how much money could the state of Washington wind up being liable for if that little crack in the door was just pounded through by people involved?"

Senator Lysen: "Well, I got the figures yesterday off the computer run. Using WPPSS' own figures which is 17.3 billion for construction costs, 33.6 billion for interest, 136 billion for operations, maintenance, fuel, taxes, insurance, waste disposal; and 8.6 billion for decommissioning, comes to a total of 196 billion dollars. And these are WPPSS' figures, by the way, not my figures. This is the total liability that would go on the rate payers, is going to be on the rate payers of the state of Washington, and if this bill passes, it could be general obligation to the taxpayers of the state of Washington. And these are WPPSS' own figures, these are not anything that I dreamed up."

Senator Vognild: "One hundred and ninety-six billion dollars. I think that comes pretty close to about nine years of the Washington state budget."

Senators Guess, Hayner and Jones demanded the previous question and the demand was sustained.

The President declared the question before the Senate to be the roll call on final passage of Engrossed Substitute Senate Bill No. 3797.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 3797, and the bill failed to pass the Senate by the following vote: Yeas, 24; excused, 25.

Voting yea: Senators Bluechel, Bottiger, Clarke, Craswell, Deccio, Gallaghan, Gaspard, Gould, Guess, Haley, Hemstad, Hurley, Jones, Kiskaddon, Lee, McCaslin,
Newhouse, Peterson, Pullen, Quigg, Rasmussen, Scott, von Reichbauer, Zimmerman—24.

ENGROSSED SUBSTITUTE SENATE BILL NO. 3797, having failed to receive the constitutional majority, was declared lost.

NOTICE OF RECONSIDERATION

Having voted on the prevailing side, Senator Woody served notice that she would, on the next working day, move to reconsider the vote by which Engrossed Substitute Senate Bill No. 3797 failed to pass the Senate.

MOTION

At 12:55 p.m., on motion of Senator Clarke, the Senate was declared to be at ease.

The President called the Senate to order at 1:05 p.m.

MOTION

On motion of Senator Clarke, Senate Bill No. 3542 was ordered held for March 30, 1981.

SECOND READING

SENATE BILL NO. 4199, by Senators Craswell, Gallaghan, Gould and Moore:

Establishing the Frances Haddon Morgan Children's Center as a state residential school.

The Senate resumed consideration of Senate Bill No. 4199. On March 25, 1981 an amendment by Senator Bottiger was moved for adoption and held for a Point of Order raised by Senator Craswell. The President ruled the amendment out of order on March 26, 1981.

On motion of Senator Craswell, the rules were suspended, Senate Bill No. 4199 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 4199, and the bill passed the Senate by the following vote: Yeas, 48; absent or not voting, 1.

Absent or not voting: Senator Jones—1.

SENATE BILL NO. 4199, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.
SECOND READING

SENATE BILL NO. 3375, by Senators Patterson, Peterson, Sellar, Gallagher and Bauer (by Executive request):

Doubling the life of driver's licenses and adjusting fees and the apportionment thereof accordingly.

The Senate resumed consideration of Senate Bill No. 3375. On March 25, 1981 an amendment by Senator Ridder was moved for adoption. Senator Jones raised a Point of Order on the amendment. On March 26, 1981, the President ruled the following amendment to be in order.

On page 2, line 29, after "fund" insert "; PROVIDED, That during the period July 1, 1981 through June 30, 1983 the sum of five dollars and ten cents shall be deposited in the highway safety fund, three dollars and eighty cents shall be deposited in the general fund, and five dollars and ten cents shall be deposited in the general fund and appropriated to the department of social and health services for the sole purpose of providing additional funds for the income maintenance program".

Debate ensued.

POINT OF INQUIRY

Senator Ridder: "Senator Patterson, can you tell me what the amount of money from the photography dollar will be?"

Senator Patterson: "I do not have and the fiscal statement does not identify exactly what that one dollar generates. I am sorry, I do not have that information available."

Senator Ridder: "Okay, I do not have that either but I do point out that the saving over the biennium is 8.3 million dollars and according to the budgets that we have, the highway safety fund state is proposed at 9½ million dollars for each year. So I would hold that we are making that decision now about making funds available for transportation in a nontransportation budget."

Further debate ensued.

Senator Ridder demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Ridder.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 16; nays, 33.

On motion of Senator Patterson, the rules were suspended, Senate Bill No. 3375 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Bottiger: "Senator Patterson, in the past when this has been proposed and this idea has been around here a long, long time, one of the objections that was regularly raised by the state patrol and law enforcement agencies, is that this is one
check we had on people who had outstanding warrants and another check that people came in and had their eyes checked and they had to sign the statement that they did not have any diseases or taking any drugs.

"Has there been a change in the department's position that we can find the outstanding warrants and things through this periodic check?"

Senator Patterson: "Well, I do not know whether or not there has been a major change; I, too, questioned whether or not we were creating a problem, particularly with those people that were licensed with some kind of a qualification as to that license. They expressed that they were going to keep a special tab on those people and that they would be examined more often than during that 4-year period. I am not sure about what they would do in the case of warrants and this type of activity."

Debate ensued.

REMARKS BY SENATOR HANSEN

Senator Hansen: "Thank you, Mr. President. Ladies and gentlemen of the Senate. In answer to Senator Bottiger's question, computers have come a long ways and each one of those speeding violations or any violation is put on your list now. Any time that you get picked up or even slowed up, they can phone in, or through the short wave radio, get a complete record of how many tickets you have outstanding and they can gather up that license at that time. So the computer system, I think, is what is letting them keep a better tab on us, and they will keep track. If you do not believe it, just get three speeding tickets, you'll see how fast you get a notice to come in and talk about it."

Debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 3375, and the bill passed the Senate by the following vote: Yeas, 33; nays, 14; absent or not voting, 2.

Voting yea: Senators Bauer, Benitz, Bluechel, Bottiger, Charnley, Clarke, Craswell, Fuller, Gallaghan, Gaspard, Goltz, Gould, Guess, Haley, Hansen, Hemstad, Hughes, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Peterson, Pullen, Quigg, Rasmussen, Sellar, Talley, Vognild, von Reichbauer, Zimmerman—33.

Absent or not voting: Senators Fleming, Hayner—2.

SENATE BILL NO. 3375, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

INTRODUCTION OF GUEST

The President announced on the Senate Rostrum former Senator Frances Haddon Morgan. With permission of the Senate business was suspended to permit Senator Morgan to address the Senate.

PARLIAMENTARY INQUIRY

Senator Clarke: "The question was raised earlier today as to whether Senate Bill 3704 was properly before the body on the standing committee report. Since the question was raised, pursuant to rule 47, a special meeting of judiciary was held, and the proviso that by majority vote of committee members present at any committee meeting the five-day notice may be dispensed with and the reasons shall be set forth
in written statement to be preserved in the record of the meeting has been complied with. My parliamentary inquiry is to whether the matter, in view of that fact, is now properly before the body in its due course with respect to the standing committee report."

REPLY BY THE PRESIDENT

President Cherberg: "Under the circumstances you outline, Senator Clarke, the measure would be properly before the Senate. Senator Talmadge."

PREVIOUS PARLIAMENTARY INQUIRY

Senator Talmadge: "Mr. President, I framed a point of inquiry, a point of parliamentary inquiry, earlier. I believe Senator Clarke's point of parliamentary inquiry takes care of Senator Bottiger's Point of Order with respect to the bill. But I would hope that my parliamentary inquiry would still be answered."

REPLY BY THE PRESIDENT

President Cherberg: "The President will give you a reply at this time, if that meets with the approval of the Senate.

"The President finds that the preceding discussion on Senator Talmadge's parliamentary inquiry and on Senator Bottiger's Point of Order, establish the following: Senate Bill 3395 relating to the jurisdiction of the human rights commission was heard by the judiciary committee and was passed out with a majority and a minority report (2) the contents of Senate Bill 3395 were transferred subject to the hearing to Senate Bill 3704, a title only; and it is this bill to which the standing committee report is being submitted today.

"Senate rule 47, section 4, provides in part that 'Bills reported to the senate from a standing committee' etc., '. . . shall be adopted at a regularly or specially called meeting' etc. Senate Bill 3704 was not adopted in compliance with Senate rule 47 and the President therefore finds that the judiciary committee report, majority report, on Senate bill 3704 is not properly before the Senate at this time. And that the Point of Order is well taken."

Senator Clarke: "Just by way of clarification, the matter now having been cured, it is presently the President's ruling that the matter is properly before the . . ."

President Cherberg: "When the report is received on the first order of business."

SECOND READING

SENATE BILL NO. 3893, by Senators Clarke and Wojahn (by Department of General Administration Division of Banking request):

MOTION

Senator Bottiger moved that Senate Bill No. 3408 be considered following Senate Bill No. 3386.

POINT OF INQUIRY

Senator Benitz: "Senator Bottiger, which amendment and where is the error?"

Senator Bottiger: "Well, it's Senator Wojahn's amendment and the way the amendment is worded, we are appropriating and taxing in the same bill; and the amendment should be reworded so that the fund is deposited in the general fund to an account, rather than to an appropriation."

The motion by Senator Bottiger, as amended by Senator Clarke to consider Senate Bill No. 3408 following Senate Bill No. 3630, carried. Senate Bill No. 3408 will be considered following Senate Bill No. 3630.

SECOND READING

SENATE BILL NO. 3555, by Senators Bluechel and Charnley:

Mandating certain information from institutions of higher education relating to remunerated professional leaves.

The bill was read the second time by sections.

On motion of Senator Bluechel, the rules were suspended, Senate Bill No. 3555 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Gallaghan: "Senator Shinpoch, I have one here, it is rather interesting, that came out of committee, signed out 'do pass' with your name on it. Was there a problem that was not addressed in the committee?"

Senator Shinpoch: "That is absolutely correct. It was one of those times that they brought three bills over and said 'Here are three bills that everybody's agreed on, would you sign them?' And, being one of those good guys, I don't suppose you have ever done that, though; well, I have and this is one time that I got caught. I suspect that I won't be caught again this session, but no doubt somebody will catch me again next session."

Further debate ensued.
ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 3555, and the bill passed the Senate by the following vote: Yeas, 25; nays, 23; absent or not voting, 1.

Expanding the authority of department of ecology for land reclamation.

MOTIONS

On motion of Senator McCaslin, Substitute Senate Bill No. 3630 was substituted for Senate Bill No. 3630 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator McCaslin, the rules were suspended, Substitute Senate Bill No. 3630 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

MOTION

On motion of Senator Jones, Senator Hayner was excused.

CALL OF THE SENATE
The Sergeant at Arms locked the doors of the Senate Chamber. The Secretary called the roll on the Call of the Senate, all members being present.

MOTION
On motion of Senator Clarke, the Senate proceeded under the Call of the Senate.

The President declared the question before the Senate to be the motion by Senator Bottiger that the Senate advance to the eighth order of business.

Senator Clarke demanded a roll call and the demand was sustained.

Debate ensued.

The President declared the question before the Senate to be the roll call on the motion by Senator Bottiger that the Senate advance to the eighth order of business.

ROLL CALL
The Secretary called the roll and the motion by Senator Bottiger failed by the following vote: Yeas, 24; nays, 25.

MOTION
Senator Clarke moved the Senate return to the first order of business.

PERSONAL PRIVILEGE
Senator Hughes: "I think it is rather sad that a resolution that I have that was on the desks at the time we were originally on the eighth order of business, was passed over.

"A man who was retiring after thirty-one years of public service today, I would hope that this body could have presented a present to him at his retirement which starts in twenty minutes. But because of some political game playing, that right has been denied, and I think that is a little bit sad. Perhaps we can address it on Monday."

PERSONAL PRIVILEGE
Senator Jones: "He knows who played the political game. A request had been before us and we were willing to honor it and we cannot honor that now. And we had agreed. I think that should be in the record.

"By the way, I have forty years of service, haven't retired yet; and I don't expect us to spend some money to send me a resolution."

The motion by Senator Clarke carried. The Senate returned to the first order of business.
REMARKS BY SENATOR HUGHES

Senator Hughes: "In response to the comments of Senator Jones, again I guess it is rather pathetic when we have to personally attack an individual because he was denied . . . ."

POINT OF ORDER

Senator von Reichbauer: "... a point of personal privilege or just speaking?"
President Cherberg: "The Senator is responding to Senator Jones' comments."
Senator von Reichbauer: "Under what order is he doing that, Mr. President?"

PERSONAL PRIVILEGE

Senator Hughes: "Again I want to reiterate that I think it is tragic that an individual was denied, and I am sure Senator Jones' record is a very distinguished one, but if I were Senator Jones I would not want to match it against the service of the gentleman who is going to be honored today."

PARLIAMENTARY INQUIRY

Senator Hurley: "My point of inquiry, Mr. President, is when a gubernatorial appointment is considered by a Senate committee and that ends in a tie vote of the committee, does the motion fail?"

REPLY BY THE PRESIDENT

President Cherberg: "The motion would fail; if it does not receive a majority, the motion is lost."

POINT OF ORDER

Senator Hurley: "My point is, that gubernatorial appointment 424 relating to Eustace 'Sonny' Vynne, Jr., as a member of the state parks and recreation commission, is illegally before this body. And if I may make some comments on the committee that . . ."

President Cherberg: "Senator Hurley."

Senator Hurley: "A committee meeting was held yesterday and the appointment, the appointment for approval was made by Senator Guess. There was a vote of the committee and a show of hands. Those voting 'yes' were Bluechel, Guess, Fuller, Haley, Quigg; five in number. Those voting 'no' were Hansen, Hughes, Hurley, Williams, Goltz; five in number. One abstained, Senator Zimmerman.

"I have a transcript of that portion of the meeting. Would it be helpful if I read that transcript? It is only about five or six sentences long."

President Cherberg: "With the consent of the Senate, the Senator may read the message."

Senator Hurley: "After the vote, it goes like this:
"Hurley: Pardon me, a Point of Order, Mr. Chairman. A tie vote does not permit a collection of signatures; a tie vote loses the position."

"Fuller: I am going to rule that way until some higher authority will . . ."

"Hurley: This committee is governed by the same rules as the rules of the Senate and a tie vote is destroyed in a committee."

"Fuller: Well, I, the proper place to bring that point would be to the rules committee."

"Hurley: I wouldn't think that you would want the signatures on just your approval."
SENATE PROCEEDINGS

SEVENTY-FIFTH DAY, MARCH 27, 1981

"Fuller: We will continue."

"Now to continue with my Point of Order, I would like to state House rule 21, sub (5). That says 'The passage of a bill or action on a question is lost by a tie vote.'"

POINT OF ORDER

Senator Fuller: "I would question whether the Senator has a right to quote a House rule to us?"

REPLY BY THE PRESIDENT

President Cherberg: "Senator Fuller, in reply to your Point of Order, the President believes that Senator Hurley really meant the Senate rule rather than the House rule."

Senator Fuller: "With that understanding, Mr. President, thank you."

President Cherberg: "Senator Hurley."

Senator Hurley: "Because of your ruling that a tie vote does lose the motion, then I request that gubernatorial appointment 424 be withdrawn from the list of those that are to be read in today.

"I have some statements I would like to make about this procedure but in the interest of . . ."

President Cherberg: "Senator Hurley."

Senator Hurley: "Well, the tradition of the Senate and the procedure over the years, is that a motion is lost by a tie vote because, I think this is extremely important, the confirmation of a gubernatorial appointment is an extremely important procedure reserved only for the Senate. We should remember what this confirmation process is all about. It is not a political game; it is not, which side of the aisle has one more vote than the other side; it is not a popularity contest; it is not if the candidate is a good fellow. The issue is, 'Will the candidate for appointment do a conscientious job that serves all the people of the state.'

"Having questioned 'Sonny' Vynne on his philosophy, I have concluded that he would not serve the state and four other members of our committee agreed with me at that point."

PARLIAMENTARY INQUIRY

Senator von Reichbauer: "Am I correct that the gubernatorial appointments as referred to as well as all other gubernatorial appointments, are not affected by our cutoff calendar?"

REPLY BY THE PRESIDENT

President Cherberg: "That is correct, Senator."

PERSONAL PRIVILEGE

Senator Zimmerman: "Since it was brought up as to the actions of yesterday, I think it is appropriate that I at least explain my being absent, stepping out of the room, not voting on this particular measure, and as to what has taken place since that time.

"First of all, I had been, I had not been present for the original interview with the candidate. I felt unprepared at that point to be able to vote wisely on the issue, so I stepped from the room so I would not be voting on that measure.

"I, if the measure, at that point I did have an appointment, made an appointment with the candidate himself, had an opportunity to interview him, talked to him
in great detail about every matter that had been brought up in previous meetings; all the questions that were asked of him; all the concerns that were brought up and reported in the press. I felt very comfortable after that interview that he answered them responsibly, that he answered them in great detail, as a matter of fact with much detail than I would have expected him to be able to do so. I was very convinced that the man is probably a very capable member to be confirmed by this body. I feel that having three governors that have already appointed him, that I wanted to have the opportunity to confirm him. I would hope that we could either have a meeting and do it here or we could take whatever action is necessary, because I think the man does deserve the confirmation."

Senator Clarke: "In view of the President's ruling on the parliamentary inquiry, if this matter remains alive, I move that the President's ruling on the Point of Order be, that the matter be continued until Monday's meeting of the; and I would like to comment very briefly on the Point of Order raised.

"I think that it is an interesting Point of Order in that I do not believe that rule 47, in reality, relates to the problem as to where bills are voted out of committee by, we'll say, less than a quorum of the committee and subsequently they are signed out by a majority, and I think that is a matter that needs clarification.

"I think all committees on numerous occasions, have had situations where a quorum or less than a quorum were present, or where there would be, in effect, a tie vote on whether it would go out or not, and subsequently a majority of the committee has signed a 'do pass' report. Now that has happened on numerous occasions; frankly, I do not think it is covered specifically in the rules and I just make that statement for the purpose of the ruling that is requested by the President."

REMARKS BY SENATOR FLEMING

Senator Fleming: "Mr. President, along those same lines, speaking to the Point of Order, I am not sure and maybe Senator Clarke might be available to more information in that area than I have, of sitting on some of those committees.

"I am not sure that that is the case when a majority of members sitting in a committee, decide an action on a bill, whether, in the past, less than a majority or tie vote allowed this situation to happen. I know there have been some situations when the majority of the members were there, and might not necessarily be a quorum, but the majority sitting had made an affirmative action and they had moved on to gather signatures.

"But I have not witnessed one when it was a negative vote or tie, which means that there is a failure, that they still got the signature, I am not sure about."

PARLIAMENTARY INQUIRY

Senator Williams: "Mr. President, do the rules of the Senate in terms of procedure, apply to the committees also? And the reason I ask this question, since the motion was a tie motion, a motion to approve, was a tie vote and by normal rules, that means the motion was lost. If that committee sits again and attempts to bring this issue before it again, and before this body, my understanding would be it would take a person voting on the prevailing side which means on the losing side, to bring the motion before the committee again. Is that not true?"

Senator Clarke: "Responding, just a matter for the President's consideration, it has always been my understanding that a motion to pass a bill out is a renewable motion, that if it fails before a committee at any time, it may then be brought up at a subsequent occurrence and that it does not require a motion for reconsideration.

"In view of the inquiry that Senator Williams has made, I think that that instance also requires consideration as to whether it is or is not a renewable motion."
Senator Guess: "I believe that if memory serves properly, that the chairman made the announcement subject to signature on the sign-out sheet we vote. Is that not so, Senator Fuller?"

Senator Fuller: "That is correct, Senator Guess."

Senator von Reichbauer: "Mr. President, I am just going to advise the body that on Monday I am going to ask that this body relieve the committee of the appointment, and we bring the gubernatorial appointment's name to the floor."

President Cherberg: "Senator Williams, the President believes it would be advisable to hold your question over, along with the Point of Order, if you do not mind."

PARLIAMENTARY INQUIRY

Senator Fuller: "Thank you, Mr. President. Being new to the chamber but realizing that we changed a rule the other day and limited discussion on a subject to three minutes, I would like to know when a gubernatorial appointment comes before us again, has Senator Hurley exhausted her three minutes, or does she get another three minutes? I'll be very happy to hear your decision on Monday."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Hurley would be permitted to close debate."

Senator Fuller: "To close debate only? Thank you, Mr. President."

POINT OF INQUIRY

Senator Fleming: "Senator Clarke, in view of the notice that we just received, that in view of the ruling that the chair has made as to gubernatorial appointments not falling under the deadline within the Senate consideration of their measures, I would like to know, will this be a normal practice that we will have that the majority will just stand up and pull a gubernatorial appointment or bill from a committee and pull it to the floor when there is no need for that? That bill can be read out of committee and take its normal course into rules as these others. And I am just wondering, is that going to be your normal procedure or just certain Senators are going to have the privilege of pulling whoever they want out of committee and considering it at that particular time."

Senator Clarke: "Senator, my response is that as all other matters that come before this body under the rules, that they will be handled on an individual basis and consideration will be given as to what our procedure has been and whether the particular situation is sufficiently unique to warrant a departure from those particular rules."

Senator Fleming: "May I ask a further question? Is this situation that unique and that this appointment is that important, much more so than the rest of these people that are on this and the rest of the people that have been appointed by the governor, that we have to take a special preference to this person?"

Senator Clarke: "Senator, I am . . . in no position to answer that question because I have no knowledge with respect thereto, and I can assure you that if and when any motion of that kind comes before the Senate, that it will be given the considerations which you are outlining."

Senator Fleming: "And what you are saying is that, as of Monday if that motion is made, and, according to the vote, it will be special preference or not, we will know at that particular time."

Senator Clarke: "All I am saying, Senator, is that on each individual instance, it will be up to the majority of the Senators to decide how they want to handle the particular situation."
Senator Fleming: "Well, I just want to see, just want to try to make sure that we work with some consistency, even though with the majority we still should be consistently in the majority."

Senator Clarke: "Senator, I have no problem whatsoever with assuring you that our record of consistency will be so much better than it was when you people were in the majority, that, if you want chapter and verse on that, you know perfectly well I can give it to you."

Senator Fleming: "Well, not the way you have been going so far."

Senator Clarke: "Mr. President, I move that we proceed with the first reading."

REMARKS BY SENATOR HAYNER

Senator Hayner: "I just wanted to make the statement that since we have been in the majority we have tried, in every way possible, to comply with your requests. We have been very courteous, as best we could be, and when you have made the requests to us directly, we have tried, in almost every instance, to comply, and I think there isn't a member that cannot say that that is true.

"And I am sorry that there has to be this kind of confrontation because I do not believe that it is in the best interests of the people of the state to be divided on strictly partisan bases on all issues before us. I think these issues should be considered on a single day-by-day basis on the merits with respect to how the people believe and how it will affect them. And I hope that is the way we will look at it in the future."

REMARKS BY SENATOR FLEMING

Senator Fleming: "Mr. President, just briefly responding to Senator Hayner, I recognize on this floor, we have a tendency to try to refer back last year, year before, ten years ago, and I guess Senator Guess and some others that might have been here could refer it back twenty-eight or thirty years ago when they were in the majority, and I am not going to deal with that.

"But the new group of leaders on that side of the aisle have been in the majority for a little over a month and they are talking about the cooperation that they have given us. This group over here, when they were in the majority, were in the majority about a month. And I would suggest, if you want to compare the record, I do not think you could run up a green flag saying that you were any more cooperative than we were. And that is what we are dealing with. We are dealing with you, and you are dealing with us and let's come from that point of view and I think that is what we have to deal with."

REMARK BY THE PRESIDENT

President Cherberg: "Senator Clarke has moved that the Senate proceed in order. As many as are in favor will say 'aye.' As many as are opposed will say 'no.' The ayes appear to have it. The Senate will proceed in order. For what purpose does Senator Hurley rise?"

PARLIAMENTARY INQUIRY

Senator Hurley: "Point of inquiry. My point is, when you responded to Senator Fuller and you said that I could make a rebuttal statement, that just related to today; I just wanted to clarify that because I still have my three minutes on the final passage, don't I? My statement before was on a motion about the committee."
REPLY BY THE PRESIDENT

President Cherberg: "When the appointment comes up for confirmation, the mover of the motion to confirm will be permitted to make opening remarks and closing remarks. If you are the sponsor you will be permitted to have that privilege. However, if the rule is still prevalent, it is prevalent up until April second. If it is considered before April second, you will have a three-minute period."

Senator Hurley: "I will have three minutes to comment on the appointment, then?"

President Cherberg: "Yes."

Senator Hurley: "Thank you."

PARLIAMENTARY INQUIRY

Senator Fleming: "I would like to ask Senator Jones, the maker of the motion, if possible, with his motion being made on the three-minute limitation, I was under the impression that that three minutes would be on those measures that fell under the cutoff. Since gubernatorial appointments do not fall under the cutoff, I am wondering, whether in fact, the three minutes relate to that; or secondly, whether we will get the cooperation of the majority side over there, and make sure that we do not run any of those measures out that do not fall under cutoff, so we'd not spend that extra time and use it on measures that do fall under the cutoff."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Fleming, the rule adopted by the Senate and suggested by Senator Jones, says that 'members be limited to three minutes per issue or amendment, except the prime sponsor of a move may have opening and closing remarks;' however, if the Senate in its wisdom wishes to suspend this rule, it may do so."

POINT OF INFORMATION

Senator Williams: "Did I understand that you would give an answer or a ruling on the question that I raised?"

REPLY BY THE PRESIDENT

President Cherberg: "The President, there have been so many questions raised, Senator Williams, that the President will have to consult with Mrs. Greeley and get them all lined up and rule on Monday."

PERSONAL PRIVILEGE

Senator Williams: "You know, speaking for myself only in terms of the procedures that we follow and how it affects me, I just wanted to make sure that I did not want to enter into a partisan bickering in this thing. I am concerned about the observation of the rules and it is for that purpose that we raised the question in terms of proper maintenance of those rules and that is all.

"In fact, the issue does not matter to me at the moment; it is the issue of the person and so forth, and the personality. It is a practice of how the committees work and how we move procedurally that is important, and that is the reason why I have raised that question. And I just want to make sure that that is understood."
Senator Woody: "Mr. President, with your forbearance I would appreciate your patience in this issue. Considering the many points that have been raised this afternoon, I would like to ask the chair if one of the points that has been raised, whether or not Senate rules governing Senate committee procedures, allows a motion which receives a tie vote in committee to be passed out, pursuant to signatures?"

REPLY BY THE PRESIDENT

President Cherberg: "That will be ruled on Monday, Senator."
President Cherberg: "Senator Fuller, for what purpose do you rise?"
Senator Fuller: "To inform the body of a matter. Am I permitted to do that? "Mr. President, the body should be forewarned that if this is found to be the case, your last remark that there does have to be a majority of signatures in a committee, Senate Bill 3823 would not qualify to be on the list of bills read in today."

MOTIONS

MOTIONS

On motion of Senator Clarke, the Senate advanced to the sixth order of business.

SECOND READING

SENATE BILL NO. 3542, by Senators Vognild and Jones:
Permitting self-insurers to close certain claims under workers' compensation.

MOTIONS

On motion of Senator Newhouse, Substitute Senate Bill No. 3542 was substituted for Senate Bill No. 3542 and the substitute bill was placed on second reading and read the second time in full.

Senator Newhouse moved the rules be suspended and Substitute Senate Bill No. 3542 be advanced to third reading.
Debate ensued.

MOTION

Senator Newhouse moved Substitute Senate Bill No. 3542 be held for further consideration on March 31, 1981.
Senator Clarke: "Mr. President, the bill had finished second reading and was ready for the motion to advance. If that is so, and if there is no further action taken today does it not then automatically advance to third reading calendar."

President Cherberg: "It would be referred to Senate rules on third reading."

Senator Clarke: "We go back to Senate rules and would have to come out, then, on a third reading calendar?"

President Cherberg: "Yes, Senator, unless the motion to hold the bill on second reading prevails."

There being no objection, on motion of Senator Newhouse the motion to advance Substitute Senate Bill No. 3542 was withdrawn.

On motion of Senator Clarke, Substitute Senate Bill No. 3542 will be held on the second reading calendar for further consideration on March 31, 1981.

SECOND READING

SENATE BILL NO. 3408, by Senators Benitz, Hansen, Newhouse, Moore, Patterson, von Reichbauer, Deccio, Charnley, Gaspard, Goltz and Haley:
Providing for wine and wine grape research and instruction programs.

MOTIONS

On motion of Senator Benitz, Substitute Senate Bill No. 3408 was substituted for Senate Bill No. 3408 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Benitz, the following amendments were considered and adopted simultaneously:

On page 2, line 18, after "That" strike "two cents per gallon" and insert "one-half cent per liter"

On page 3, beginning on line 10, after "tax" strike "of ((seventy-five)) seventy-seven cents per wine gallon" and insert "((of seventy-five cents per wine gallon)) at the rate of twenty and one-half cents per liter"

On page 3, line 13, after "such" strike "gallonage" and insert "((gallonage))"

On page 3, line 15, after "on" strike "gallonage" and insert "((gallonage)) wine"

Senator Wojahn moved adoption of the following amendment:

On page 3, line 11, after "gallon." insert "PROVIDED, That the increase provided by this 1981 amendatory act shall be deposited in the general fund and credited to the department of social and health services for the sole purpose of providing additional funds for the chore service program:"

Debate ensued.

POINT OF ORDER

Senator Benitz: "I would like to raise the question of scope and object of the amendment. I think it far expands what the bill is intended to do, so I would submit to the President, the question of scope and object."
At 11:20 a.m., the President declared the Senate to be at ease.
The President called the Senate to order at 11:30 a.m.
The Senate resumed consideration of Substitute Senate Bill No. 3408, as amended by Senator Benitz, and the pending amendment moved for adoption by Senator Ridder and Point of Order raised by Senator Benitz.

RULING BY THE PRESIDENT
President Cherberg: "In ruling upon the Point of Order raised by Senator Benitz, the President finds that Substitute Senate Bill No. 3408 is a measure which increases the wholesalers' wine tax and also provides for allocation of a portion of that tax.
"The amendment proposed by Senator Wojahn also provides for the allocation of a portion of the wholesalers' wine tax.
"The President therefore finds that the proposed amendment does not expand the scope and object of the bill and that the Point of Order is not well taken."
The amendment by Senator Wojahn was ruled to be in order.
Senator Wojahn demanded a roll call and the demand was sustained.
Debate ensued.
The President declared the question before the Senate to be the roll call on the amendment by Senator Wojahn.

ROLL CALL
The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 18; nays, 31.

POINT OF INQUIRY
Senator Bottiger: "Senator Benitz, I am concerned with the structure of this bill and I rise to ask you this question. As I read it, in section 2, you are making an appropriation; you are appropriating two cents of the gallonage tax to the Washington state university for purposes of certain research.
"In section 4 you are raising the tax. And my concern is this: are we increasing a tax and appropriating the money in the same bill in violation of the Constitution, and Senator Pullen might be interested in this, this is both a tax increase and an appropriation in a single bill.
"And my concern is, are we passing an unconstitutional act by doing this?"
Senator Benitz: "Senator Bottiger, I would simply have to defer to some of the budget experts, I have not been on Senate ways and means and I have not been advised of any problem here."
Senator Wojahn moved adoption of the following amendment:
On page 3, line 33, after the period insert: "The credit provided by this 1981 amendatory act shall cease on July 1, 1983."
Debate ensued.
Senator Rasmussen: "Senator Benitz, it is my understanding that there are quite a few grapes being raised over there in eastern Washington at the present time. Could you tell us the quantity and also the people that are involved?"

Senator Benitz: "Yes; eastern Washington has provided a start in the wine grape industry. We only have one sizable grower and one sizable winery. All the rest in eastern Washington are trying to get started in the so-called family type of wine grape growing and wine processing. They are very small and on western Washington, we have several varieties we are working with that will provide from Bellingham clear to Vancouver, Washington, the opportunity to produce a wine grape that we think will be a very good one. It is two totally different worlds, we are just getting started."

Senator Rasmussen: "Senator Benitz, it is my understanding Pete Taggares and the Simplot Company are two of the biggest people in wine grape. . . ."

Senator Benitz: "Senator Rasmussen, I am glad you have asked that question, an opportunity to clarify. They are in the Concord business; they are large Concord growers which is not used except a small part of it used for cold duck, shipped to California. But that is a total different industry, and that is one reason this bill is as specific as it is. They are not in the wine grape business as yet."

The motion of Senator Wojahn failed and the amendment was not adopted on a rising vote.

On motion of Senator McCaslin, the rules were suspended, Engrossed Substitute Senate Bill No. 3408 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Senator Wojahn: "Senator Hansen, don't the wheat growers subsidize themselves, it may not be through a commission, but don't they do it through some type of a self-funding, to improve wheat; and isn't this true of the apple commission, a lot of the other commissions on, for producers, they subsidize themselves . . . ."

Senator Hansen: "They assess themselves for this commodity; but don't you ever think that that assessment isn't added on to the end profit, end cost, of the commodity."

Senator Wojahn: "Well, can I ask you another question? Then, this will be added on also, to the cost . . . ."

Senator Hansen: "... only it is dedicated and I think you have legislation in here at the present time, allowing the wheat commission to change from cents-per-bushel to a percentage tax this time, for the same identical purpose."

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 3408, and the bill passed the Senate by the following vote: Yeas, 33; nays, 15; absent or not voting, 1.

Absent or not voting: Senator Hughes—1.
ENGROSSED SUBSTITUTE SENATE BILL NO. 3408, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

PERSONAL PRIVILEGE

Senator Ridder: "Mr. President, I notice on the bill that just passed, the digest says the two cents per gallon increase in the wine tax. I would like it noted that I hope that the majority will be as interested in voting for taxes for other parts of the budget."

Senator Clarke: "This relates to a matter before the body?"

Senator Ridder: "All right."

PERSONAL PRIVILEGE

Senator Talmadge: "Mr. President, and members of the Senate, if you have not already heard, there was an assassination attempt on President Reagan this morning in Washington, D.C., apparently. The President was unhurt, although two people accompanying the President were, in fact, struck by the assassin's bullet.

"I would simply say, Mr. President, that, having been someone who has gone through the situation with President Kennedy, with Senator Kennedy, with Martin Luther King, with President Ford twice, and others, that this kind of thing is one of those things that is always a personal shock, I think to all of us.

"It is a senseless and brutal kind of tragedy and I hope that the Senate would extend its concern and its regard to the two people and the family of the two people that were struck by this person's senseless bullets. I would hope that that would be true, Mr. President."

SECOND READING

SENATE BILL NO. 3386, by Senators Deccio, Hurley, Moore, Craswell, Gallaghan, Bauer, Vognild, Sellar, Jones, Hughes, Scott, Woody, Hayner, Lee and Zimmerman:

Authorizing legislative review of agency rules by a joint select committee with power to suspend.

MOTIONS

On motion of Senator Deccio, Substitute Senate Bill No. 3386 was substituted for Senate Bill No. 3386 and the substitute bill was placed on second reading and read the second time in full.

Senator Deccio moved adoption of the following amendment by Senators Deccio, Craswell, Shinpoch, Goltz, McDermott, Hansen and Quigg:

On page 8, after line 32, strike all of section 9 and insert:

"NEW SECTION. Sec. 9. There is added to chapter 34.04 RCW a new section to read as follows:

(1) When the legislature is not in session, the rules review committee may suspend an existing rule or delay the adoption of a proposed rule or any part thereof if the committee finds by a majority vote of its members that the rule has not been modified, amended, withdrawn, or repealed by the agency so as to conform with the intent of the legislature. The suspension of a rule or delay of a proposed rule by the rules review committee may not remain in effect beyond the thirtieth day of the next regular session of the legislature.

(2) The rules review committee shall provide the code reviser with a notice of any rule suspension or delay and a statement of the reasons therefor. The code reviser shall publish the committee's notice of suspension or delay and a statement of
the reasons therefor in the Washington state register and shall publish in the next supplement and compilation of the Washington Administrative Code a reference to the notice and statement and to the issue of the Washington state register in which the full text thereof appears."

**POINT OF INQUIRY**

Senator Rasmussen: "Senator Deccio, is this intended to be able to suspend an emergency rule also?"

Senator Deccio: "If it was not in compliance, yes."

Senator Rasmussen: "It does not indicate whatever I presume, would be all rules, emergency or otherwise."

Senator Deccio: "Excuse me, I did not understand what you said, Senator."

Senator Rasmussen: "I said just by reading the amendment it would indicate that it covers all rules, whether they be emergency or otherwise."

Senator Deccio: "That is right; the reason being that an emergency rule could be just as out of compliance as a rule or regulation which is done in its proper course and time."

Debate ensued.

The motion by Senator Deccio carried and the amendment was adopted.

Senator Lee moved adoption of the following amendment by Senators Lee, Shinpoch, McDermott and Deccio:

> On page 17, after line 12 insert the following:
> *NEW SECTION. Sec. 20. There is added to chapter 44.28 RCW a new section to read as follows:*

> The legislature hereby reaffirms the necessity of developing a uniform and coordinated procedure for determining the expected fiscal impact of bills, rules, and resolutions on state and local government. The legislature also recognizes that developing such statements of fiscal impact, which shall be known as fiscal notes, requires the legislature to make an independent assessment of the fiscal impact of measures on state and local government. It is the intent of the legislature that the legislative budget committee develop the abilities to advise the legislature regarding the fiscal impact of proposed legislation and rules.

> By January 1, 1982, the legislative budget committee shall, in cooperation with other appropriate legislative committees and legislative staff, establish a procedure for the provision of fiscal notes on the expected impact of bills, rules, and resolutions which increase or decrease or tend to increase or decrease state or local government revenues or expenditures and report its findings to the rules review committee. Such examination of fiscal notes shall include an assessment of the accuracy of past fiscal notes by fiscal year and the impact for the remainder of the biennium in which the bill, rule, or resolution first took effect as well as a cumulative forecast of the fiscal impact for the succeeding four fiscal years.

> In establishing the fiscal impact analysis called for pursuant to this chapter, the legislative budget committee shall propose a system to coordinate the development of fiscal notes with the office of financial management and all state agencies affected.

> *NEW SECTION. Sec. 21. There is added to chapter 44.28 RCW a new section to read as follows:*

> The rules review committee may request the legislative budget committee to prepare fiscal notes on the effects of bills or resolutions before the legislature and proposed rules. When a fiscal note is prepared and approved as to form, accuracy, and completeness by the legislative budget committee, which depicts the expected fiscal impact of a bill, rule, or resolution, copies shall be filed immediately with:

> (1) The chairperson of the committee to which the bill or resolution was referred upon introduction in the house of origin;

> (2) The senate committee on ways and means, or its successor;
(3) The house committee on ways and means, or its successor;
(4) The caucuses of each house of the legislature; and
(5) The office of financial management.
Whenever possible, such fiscal note shall be provided prior to or at the time the bill, rule, or resolution is first heard by the appropriate committee.
When a fiscal note has been prepared for a bill, rule, or resolution, a copy of the fiscal note shall be placed in the bill books or otherwise attached to the bill, rule, or resolution and shall remain with the bill, rule, or resolution throughout the legislative process insofar as possible.

NEW SECTION. Sec. 22. There is added to chapter 44.28 RCW a new section to read as follows:
The legislative budget committee shall also provide a fiscal note on any rule or legislative proposal at the request of any legislator. Such fiscal note shall be returned to the requesting legislator, and copies shall be filed under section 21 of this act at the time such rule is proposed or proposed legislation is introduced in either house.

NEW SECTION. Sec. 23. There is added to chapter 44.28 RCW a new section to read as follows:
Nothing in sections 20 through 22 of this act shall prevent the rules review committee from acting on any rule nor either house of the legislature from acting on any bill or resolution before it as otherwise provided by the state Constitution, by law, and by the rules and joint rules of the senate and house of representatives, nor shall the lack of any fiscal note as provided in sections 20 through 22 of this act or any error in the accuracy thereof affect the validity of any measure otherwise duly passed by the legislature.

NEW SECTION. Sec. 24. The following acts or parts of acts are each repealed:
(1) Section 1, chapter 25, Laws of 1977 ex. sess. and RCW 43.88A.010;
(2) Section 2, chapter 25, Laws of 1977 ex. sess., section 146, chapter 151, Laws of 1979 and RCW 43.88A.020;
(3) Section 3, chapter 25, Laws of 1977 ex. sess., section 147, chapter 151, Laws of 1979, section 1, chapter 112, Laws of 1979 ex. sess. and RCW 43.88A.030;
(4) Section 4, chapter 25, Laws of 1977 ex. sess., section 148, chapter 151, Laws of 1979 and RCW 43.88A.040; and
(5) Section 5, chapter 25, Laws of 1977 ex. sess. and RCW 43.88A.900.

NEW SECTION. Sec. 25. Section 24 of this act shall take effect on January 1, 1982.
Renumber the remaining sections consecutively and correct any internal references accordingly.

POINT OF INQUIRY

Senator Hayner: "Senator Lee, do you have any idea what the fiscal impact of this might be, as far as the legislative budget committee is concerned? Does this mean that we would have to hire several new people?"

Senator Lee: "The fiscal impact on this, of course, is almost impossible to determine at this point because not every agency rule would necessarily have a fiscal impact, nor do we know how many rules would actually be reviewed.
"If the history of other states, putting in an agency review committee comes through, and the number of rules that are promulgated are reduced, the legislative budget committee could handle it with their current staff."

SECOND READING

SENATE BILL NO. 3118, by Senators Gaspard and Sellar:
Permitting any port district to appoint police officers.

MOTIONS

Senator Zimmerman moved Substitute Senate Bill No. 3118 be substituted for Senate Bill No. 3118 and the substitute bill be placed on second reading and read the second time in full.

POINT OF INQUIRY

Senator Pullen: "Senator Zimmerman, could you explain some of the differences between the original bill and the substitute bill? I am sorry to catch you unawares, but I was just reading the digest and got interested in this particular subject matter; and before we make a routine motion substitute, I just thought it might be helpful at this point, before we go further, to get a little bit of clarification."

Senator Zimmerman: "We added the ports of entry so that it would include those communities that are, have been designated ports of entry rather than the original way when it was . . . ."

Senator Pullen: "So this would narrow it down, then? The substitute bill would narrow it down?"

Senator Zimmerman: "It narrows it down, at the same time it does include some people that probably otherwise might not, well, the ports of entries may not have airports, of course."

Senator Pullen: "I am sorry I did not check this out with you before I asked the question; but could you give me some of the ports of entry that. . . ."

Senator Zimmerman: "I wish I had my sheet, I've got one of the most interesting lineup of names, and it isn't included in my packet, but it is small communities all along the Canadian border that go all the way back to North Dakota and Minnesota. We found communities that are almost as small as Wishram, formerly Senator Wilson's old communities of Pembina and others in North Dakota that are included. It is a fine list of ports of entry but of course in the state of Washington they are mostly up above Okanogan county and above Whatcom county; but the bill primarily does deal primarily with the one port, namely, of SeaTac."

REMARKS BY SENATOR TALLEY

Senator Talley: "I think I could answer that question. A port of entry is any place where they maintain a customs' office and you can declare and pay duty."
The motion by Senator Zimmerman carried. Substitute Senate Bill No. 3118 was substituted for Senate Bill No. 3118 and the substitute bill was placed on second reading and read the second time in full.

MOTION

On motion of Senator Zimmerman, the rules were suspended, Substitute Senate Bill No. 3118 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Talmadge: "Senator Gaspard, under the provisions of the bill, would the port of Seattle be entitled to have a police force in addition to the police force that operates for the airport, down on the docks in Seattle?"

Senator Gaspard: "The port of Seattle already can have a police force as defined by statute. "I might point out, it says right here in the statute, RCW 53.08.280, that 'Any port district operating an airport with a police department as authorized . . .' They are already allowed to do it."

Debate ensued.

MOTION

On motion of Senator Pullen, Substitute Senate Bill No. 3118 was ordered placed on the Consent Calendar on third reading for March 31, 1981.

Debate ensued.

POINT OF INQUIRY

Senator Goltz: "Senator Bottiger, do these corporate officers who are covered under this fund, this amendment does not ask, receive any benefits under any circumstances covered by this act?"
Senator Bottiger: "Absolutely; if a corporation goes out of business, they can go down and draw their unemployment comp."
Senator Bottiger demanded a roll call and the demand was sustained.

The bill was read the second time by sections.

On motion of Senator Kiskaddon, the rules were suspended, Senate Bill No. 3351 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Gaspard, I did hear that we were abolishing the educational service district, there was going to be no operating funds for them. Here you are expanding them and making them a separate school district. I fail to understand, it would seem like these educational service districts are trying to develop new things to keep them in existence and they just barely stayed in existence for the last two or three sessions and I think that they are going out of existence now.

"Nobody has ever said that they do anything that is vital; I have talked with numerous school teachers and they say it is a duplication of service.

"I wish you would have some answers. I am inclined to vote 'no' on this bill."

Senator Gaspard: "Thank you, Senator Rasmussen. I wish Senator Scott were here and maybe he could answer your questions whether or not ESD is going to be in the budget, whether or not we are going to eliminate them from the educational system that we currently have in the state of Washington.

"Senator Rasmussen, this is nothing but permissive legislation; it will take a request from the school board, the local school board and the superintendent to request the ESDs to conduct these student services that are needed by the students, and many of them are required by law, but are not economically feasible for the local districts to handle because of the too few students involved in the programs.

"I might also point out to you, Senator Rasmussen, that this does not mean an additional appropriation because the local school districts would have to contract with the ESD and that would be part of their general fund appropriation that they receive from the state."
SEVENTY-EIGHTH DAY, MARCH 30, 1981

REMARKS BY SENATOR WILSON

Senator Wilson: "Mr. President, in further reply to Senator Rasmussen, I would guess or speculate that the teachers you talked to who see little value of the ESDs may be substantially from Tacoma. It is true that large metropolitan school districts have relatively little need for ESDs because they can afford most of the specialized resources they need by themselves.

"The important function that ESDs serve in rural areas and in the small cities and towns, is that they can make available the services of therapists, psychologists, and other specialists on a cooperative basis, to numerous small districts, none of which could afford to maintain those specialized services themselves."

On motion of Senator Gallaghan, Substitute Senate Bill No. 3527 was substituted for Senate Bill No. 3527 and the substitute bill was placed on second reading and read the second time in full.

Senator Talmadge moved adoption of the following amendment:
On page 3, line 13, strike "ten cubic feet" and insert "one-half cord"

POINT OF INQUIRY

Senator Woody: "Senator Talmadge, for my information, could you tell me how many cubic feet a half a cord would be, approximately?"

Senator Talmadge: "A cord is four by four by eight, my recollection. That is, whatever half of four by four by eight is. Sixty-four, my mathematical expert says."

POINT OF INQUIRY

Senator Talley: "Senator Quigg, in your district you have a vast amount of beach and about half of the people get their wood off that beach. This would say they couldn't take it home, they could not go cut it. How are you going to answer to them?"

Senator Quigg: "Are you speaking to the matter of fire wood over eight feet in length or fire wood on the beach that is under eight feet in length? Senator, there is some of that wood that is covered by the DNR’s salvage law as it stands right now, anyway, so that we have a statute that applies to the merchantable timber that is cut up on the beach already."

Senator Talley: "Well, this is not merchantable timber, they have mostly driftwood; it is good for nothing else. They could not even cut this and take it home; I think you and Senator Fuller will both be in serious trouble if this bill ever passes."

The motion by Senator Talmadge carried and the amendment was adopted.

On motion of Senator Gallaghan, the rules were suspended, Engrossed Substitute Senate Bill No. 3527 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.
Debate ensued.

POINT OF INQUIRY

Senator Hansen: "Senator Conner, where do you go to get this permit and what entails getting a permit like this?"

Senator Conner: "Well, I am not sure exactly what the bill says. I do know that living in an area, the Olympic peninsula, where it is 109 miles this way, and it is 132 miles the other way, on highway 101, we have a tremendous outburst of the stealing of timber and of slash and we have a real problem on the Olympic peninsula; and this is an attempt and this bill that we have is a substitute bill which was changed after it was put in the original bill in attempting to get all peoples' versions and the bill that we have out in attempting to address this particular problem, this seems to be a growing siege in our area, particularly as electrical prices are rising.

"And so when you talk about having a problem like this and not doing something about it, I do think it is time that we do address the problem, and this bill was an attempt by those who had made some question marks when I put in the first bill, in changing this measure to make it applicable."

Further debate ensued.

MOTION

Senator Rasmussen moved Engrossed Substitute Senate Bill No. 3527 be referred to the Judiciary Committee.

Debate ensued.

The motion by Senator Rasmussen carried and Engrossed Substitute Senate Bill No. 3527 was rereferred to the Judiciary Committee on a rising vote.

SECOND READING

SENATE BILL NO. 3582, by Senators Lee, Moore, Kiskaddon and Ridder:
Providing for reports of abuse of dependent elderly persons.

MOTIONS

On motion of Senator Deccio, Substitute Senate Bill No. 3582 was substituted for Senate Bill No. 3582 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Lee, the rules were suspended, Substitute Senate Bill No. 3582 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Wojahn: "Senator Lee, what provisions are being made in the budget to take care of these persons if, in fact, they are abused by members of their family, because they will have to be gotten out of that situation and obviously they are going to have to have some social services; and I can see it coming now with the cutback in social services, with the cutback in assistance for senior citizens through chore services, etc., more and more families are going to have to take in their senior citizens or older mothers and dads. And this is going to create a situation, I am afraid, where there will be abuse by family members and somehow it appears to me that money is going to have to be provided to take care of these abused seniors when it does occur.

"Now can you answer the question of what kind of money is being put in the budget to take care of this problem, if it does occur?"
Senator Lee: "It seems to me that there are two parts to that question, one, as to whether or not services would be available if those individuals requested them, and the answer to that question is 'yes.'

"The next question is 'will the budget provide enough funds to provide those additional protective services' and I believe that it will."

POINT OF INQUIRY

Senator Rasmussen: "Senator Lee, I am looking at page 7, new section, Sec. 7. 'The legislature finds that there are a number of adults sixty years of age or older who lack the ability to perform or obtain those services necessary to maintain or establish their well-being. It is the intent of the legislature to prevent or remedy the abuse, neglect, exploitation, or abandonment of persons sixty years of age or older . . .' Senator Lee, I am in that age bracket."

Senator Lee: "Yes sir."

Senator Rasmussen: "My concern is, if I were one of these persons unable to obtain the services, could I charge the legislature with abuse, and would it stand up in court under this law?"

Senator Lee: "Not a body, if a person, a legislator had physically abused you, then you could.

"Why don't you turn to page 8, the new section, which gives the definitions and all of those terms that you read to us, 'abandonment,' 'abuse,' 'consent,' 'exploitation,' and so on, are defined there; and I think that was really your question as to what the definition of those words would be, and that is in section 8."

Senator Rasmussen: "Thank you, Senator Lee. I am looking at section 8. '"Abandonment" means leaving a vulnerable adult without the means or ability to obtain food, clothing, shelter, or health care.' That would make it very clear that if any of these people in that age bracket, it would seem to me, could sue the legislature for abuse under this law."

Senator Lee: "If I am not mistaken, you would sue the state for fault, and that, of course, would have to be established by a court of law. And we passed a bill the other day which said that the, 'in case of frivolous suits, that whoever lost would have to pay the fee.' So it would have to be a well-founded suit."

Senator Rasmussen: "I understand that, and Evergreen Legal Services loves those suits because most people do not have anything to pay the court charges or anything like that, so it is not really classed as frivolous. I think we are leaving the legislature wide open . . ."

Senator Lee: "You mean the state of Washington."

Senator Rasmussen: "We are the state. And thank you, Senator Lee."

Senator Wojahn: "Yes, it does, as a state agency, the health care facilities authority will be subject to the provisions of the new subsection, subsection (7). There was some question on it because the, whether it was a state agency or a political subdivision, but it is a state agency; it is qualified as such because of the problems with WPPSS."

POINT OF INQUIRY

Senator Rasmussen: "Senator Vognild, I was looking here at the digest, 'structures on which property taxes have not been paid for more than two years,' and that would be reason for the insurance company to cancel insurance?"

Senator Vognild: "That was one of a series which must be used in order for them to apply for permission to cancel within five days."
Senator Rasmussen: "That is kind of a wide-open provision. I know several places where the taxes are not paid, the buildings are occupied, for some reason or other, the owner has not been able to come up with the taxes; and they are liable to use that as a means of cancelling out."

Senator Vognild: "Senator, I believe that is possible, however, this basis for this legislation comes from two different reports in regards to the common factors that relate it to serious arson fires and arson-for-profit fires. And on that basis I feel that we are safe with what we have here; the insurance commissioner has the final say. And I do not believe that he will allow cancellation of, for that one reason if there is not something else to back it up with."

SENEATE BILL NO. 3355, by Senators Hansen, Deccio, Gaspard, Wilson and Jones (by Department of Agriculture request):
Making miscellaneous changes in laws regulated by department of agriculture or director thereof.

REPORT OF STANDING COMMITTEE

March 11, 1981.

SENEATE BILL NO. 3355, making miscellaneous changes in laws regulated by the state department of agriculture or director thereof (reported by Committee on Agriculture):
Recommendation: Do pass with the following amendments:

On page 8, beginning on line 10, strike all of the material down through "director" on line 18 and insert:
"The director ((and)) may require the governing body of counties, cities, towns and irrigation and school districts ((shall)) or other political subdivisions of the state to disinfect or destroy all infected trees, ((or)) shrubs, or other nursery stock growing upon public property within their respective jurisdictions, ((and they may expend funds of their county, city, town or district in carrying out the provisions of this section. The director may compel compliance herewith by an action in the name of the state upon the relation of the director)) or the director may disinfect or destroy such infected trees, shrubs, or other nursery stock."

On page 13, beginning on line 9, insert the following amendatory section:
"Sec. 13, Section 15.60.150, chapter 11, Laws of 1961 and RCW 15.60.150 are each amended to read as follows:
No person shall wilfully or maliciously kill honey bees, or, for the purpose of injuring honey bees place any poisonous or sweetened substance in a place where it is accessible to them within this state.

Any person who violates any provision of this section shall be ((fined not less than ten or more than one hundred dollars)) guilty of a misdemeanor.

Renumber remaining sections accordingly.

Signed by: Senators McCaslin, Chairman; Benitz, Gaspard, Hansen, Jones, Wilson.

The bill was read the second time by sections.

Senator McCaslin moved adoption of the committee amendment to page 8.

POINT OF INQUIRY

Senator Goltz: "Senator Hansen, section 6, the language has been changed so that the director of agriculture now directs the local government to destroy the various plants if they are infected. I wonder, under initiative 62, whether the state maintains an obligation if the director of agriculture directs the local jurisdiction to destroy those plants?"

Senator Hansen: "I think the department of agriculture will be the one doing the destroying if they find infected plants."

Senator Goltz: "So it would be done at state expense in any case?"

Senator Hansen: "Yes, it will be a state expense instead of a local expense."

The motion by Senator McCaslin carried and the committee amendment to page 8 was adopted.

Senator Hansen moved adoption of the committee amendment to page 13.

POINT OF INQUIRY

Senator Bottiger: "Senator Hansen, I have a brother-in-law that is in the beehive business and I mean, he is in the business, so I am not anti-beehive. But if I get my fly swatter out and swat a honey bee, am I going to be guilty of a misdemeanor?"

Senator Hansen: "No, this is by poison, by deliberately spraying apiary . . . ."

Senator Bottiger: "I am trying to find the amendment, Senator; is that spelled out in the amendment?"

Senator Hansen: "No, it is not spelled out in the amendment. I would hope that anybody that has an infestation of honey bees could go to the owner and get him to move the apiaries on health reasons."

Senator Bottiger: "Well, you and I know that actually you can call up somebody in the beehive business and if you have a swarm in your yard, they will come get it and in some cases even pay you for it."

Senator Hansen: "Yes, that is right."

Senator Bottiger: "But if somebody not that knowledgeable were to get a can of Black Flag out and; can we set this bill down one to make sure this amendment is written so that we are not creating crimes where. . . ."

Senator Hansen: "Help yourself."

MOTION

On motion of Senator Bottiger, Senate Bill No. 3355, together with the adopted committee amendment to page 8 and the committee amendment to page 13 moved for adoption, was ordered held following consideration of Senate Bill No. 3424.
SECOND READING

SENATE BILL NO. 3424, by Senator Moore (by Department of Social and Health Services request):
Exempting prisoners transferred outside the state for personal security from the notice of transfer requirement.

The bill was read the second time by sections.

On motion of Senator Deccio, the rules were suspended, Senate Bill No. 3424 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Deccio, a little bit concerned as to how far this bill goes in keeping secrets. There are some countries, you know, once a prisoner is transferred you never hear of him again. And this doesn't say whether the family would be notified or if anybody will be notified where this prisoner is transferred, how far he's gone, whether . . . ."

Senator Deccio: "I would expect, the only thing the bill does, Senator, is the information does not have to be given to the press so that there would be news coverage on the transfer. I am sure that the family would know, or any interested parties particularly family, would know where he has gone, except that the records do not have to be disclosed to the public."

Senator Rasmussen: "That raises other questions in my mind; of course the press is your best protection and I do not know, were there any arguments in the committee at the time they considered this?"

Senator Deccio: "No there was not; it was a departmental request, apparently this is standard procedure in many states now that when prisoners are transferred for their own safety, that they do not have to disclose this, or make public knowledge the fact that a prisoner has been transferred.
"I would imagine it is probably just for the short term while the person is being transferred, because I am sure, after a while, that news is going to get out. Apparently, it is for the protection of the prisoner during that short period that he is in transit from one institution to another. That is the basic purpose. So someone's 'friends' on the outside won't be a greeting committee while he is coming out of the institution."

POINT OF INQUIRY

Senator McDermott: "Senator Deccio, is it the legislative intent that the move which is supposed to be made for personal security is determined by the inmate?"

Senator Deccio: "By the superintendent."

Senator McDermott: "By the superintendent, so he makes the determination. . . ."

Senator Deccio: "If the superintendent believes that it is in the best interest of the safety of the prisoner, and this deals with only a notice of transfer, which I expect means that they do not publish before the transfer is made that the prisoner is going to be public. I assume that after the transfer has been made and he is at his new destination, then it is not a problem; it is only during the time that the notice is made that he is going to be transferred, as I understand the bill."

Senator McDermott: "So if I understand correctly then, there is no intention to keep his family or people that he wants to know where he is, or she . . . ."

Senator Deccio: "Yes, that is right."

Senator McDermott: " . . . to know his whereabouts."

Senator Deccio: "It deals with the notice of transfer."
ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 3424, and the bill passed the Senate by the following vote: Yeas, 40; nays, 7; excused, 2.

Voting yea: Senators Bauer, Benitz, Bluechel, Bottiger, Charnley, Clarke, Craswell, Deccio, Fuller, Gallagher, Gaspard, Goltz, Gould, Guess, Hansen, Hayner, Hughes, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Moore, Newhouse, Patterson, Peterson, Pullen, Quigg, Rasmussen, Ridder, Scott, Sellar, Shinpoch, Talley, Talmadge, Vognild, von Reichbauer, Williams, Wojahn, Woody—40.

SECOND READING

SENATE BILL NO. 3530, by Senators Rasmussen and Gould (by State Treasurer request):

The bill was read the second time by sections.

On motion of Senator Pullen, the rules were suspended, Senate Bill No. 3530 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Deccio: "Senator Rasmussen, I guess I would like to have an explanation of why copies of income tax returns, statements of net worth, why is the state treasurer asking for this legislation?"

Senator Rasmussen: "Well, I think the question arose during the last campaign in which several of the opponents bandied around the fact the state treasurer, or inferred that he had extensive property holdings outside of the state."

Senator Deccio: "Which candidate was this?"

Senator Rasmussen: "A candidate for office of state treasurer."

Senator Deccio: "Okay, go ahead."

Senator Rasmussen: "I could not remember the name, I know the present city treasurer, I cannot remember the name of the opponent."

Senator Deccio: "Does this bill just apply to the state treasurer?"

Senator Rasmussen: "It does at the present time, yes."

Senator Deccio: "And he is a Democrat?"

Senator Rasmussen: "I think he is one of the better Democrats, he just got reelected."

Senator Deccio: "I have no problems, Mr. President."

ROLL CALL

POINT OF INQUIRY

Senator Lysen: "Senator Sellar, as I recall in the committee hearing, is this not the same bill that, in the process of being able to issue money market accounts, these terms would have to be licensed as banks and meet the requirements the banks meet under state statute?"

Senator Sellar: "Yes, that is correct."

Senator Lysen: "So what would the effect of that be?"

Senator Sellar: "I will yield to Senator Clarke."

REMARKS BY SENATOR CLARKE

Senator Clarke: "This simply permits banks to, in effect, compete with, issue the same kind of money market certificates that the various brokerage houses are now issuing. But they have to be a bank, that is the reason for the requirement. It
simply enables the banks, in effect, to compete for all of this money market money that is now going out of the state."

POINT OF INQUIRY

Senator Lysen: "I have no objection to that, Senator Clarke, but what I am concerned about is to require brokerage houses now to become themselves licensed as banks. Is that inaccurate?"

Senator Clarke: "That is not my understanding. The understanding is, simply empowering the banks to have the same authority that the brokerage houses do."

Senator Lysen: "So that section requiring brokerage houses to become, in effect, banks, has been taken out, is that right?"

Senator Clarke: "I don't recall that it was ever in there."

REMARKS BY SENATOR WOJAHN

Senator Wojahn: "They don't have to ever become banks. It is just to make the banks more competitive with brokerage houses and to deal in the money market and to take advantage of money that is available."

"But first before it can even happen, the Federal government has to relax regulations, too, which they have not done, so they cannot even do it yet. It is being done in other areas, few money markets but not in the banking area."

Debate ensued.

POINT OF INQUIRY

Senator Wilson: "Senator Quigg, the impression I get from the digest is that this bill relates only to the nonhigh districts' contributions to building programs in high school districts and does not relate to the operating money that it would send along with a student, regardless of which high school district he or she attended. Is that correct?"

Senator Quigg: "That is correct."

Senator Wilson: "So that a nonhigh district might designate high school district 'A' as its official district, and would contribute to building programs in district 'A' but if, for one reason or another, students in the nonhigh district wish to attend high school district 'B' or 'C', the operating money could go along with them."

Senator Quigg: "Yes, but not the building money."

Senator Wilson: "Right. Thank you."

MOTION
On motion of Senator Clarke, the Senate commenced consideration of measures on the Regular Second Reading Calendar for today.

SECOND READING
SENATE BILL NO. 3258, by Senators Gallaghan and Goltz:
Authorizing fisheries enforcement officers to enforce all state laws.

MOTIONS
On motion of Senator Gallaghan, Substitute Senate Bill No 3258 was substituted for Senate Bill No. 3258 and the substitute bill was placed on second reading and read the second time in full.
Senator Goltz moved adoption of the following amendment by Senators Goltz, Gallaghan and Fuller:
On page 2, line 30, after "patrol" insert ", the Washington state parks and recreation commission"

POINT OF INQUIRY
Senator Quigg: "Senator Goltz, there is nothing in here that would allow those folks to use airplanes, is there?"
Senator Goltz: "Nothing in this that will allow them to fly."

POINT OF INQUIRY
Senator Hansen: "Senator Goltz, is it against the law for a private citizen to go down and shop and buy a blue light?"
Senator Goltz: "It is my understanding that that would be against the law for anyone to have a flashing light and use it as though he were a police officer would be against the law in my opinion."
Senator Hansen: "I think you can go down to the parts house and buy a blue light; it might be against the law to use it but they are sure there for sale."

POINT OF INQUIRY
Senator Pullen: "Senator Goltz, can you tell me what agencies or departments or commissions or whatever now can have flashing blue lights?"
Senator Goltz: "Yes, they can now be had by any police department, sheriff's office, and the Washington state patrol. If this bill is passed, they will also be able to be used by the department of fisheries and the department of game; and if this amendment is passed, they will be allowed to be used by the Washington State parks and recreation commission."

POINT OF INQUIRY
Senator Talley: "Senator Goltz, this does not put a gun on every garbage attendant and every supervisor in the park, does it?"
Senator Goltz: "No, what this amendment does, it simply makes it clear that a police vehicle used by the parks and recreation commission, can be identified with its blue flashing light. As I stated earlier, I think one of the important things to
remember is, that there are people stopping people out there in the countryside and I think the public has come to expect that these vehicles that are flashing the blue light are police vehicles. If somebody is trying to stop somebody else, they should not be allowed to do so or should be warned that they are probably not a police officer."

**POINT OF INQUIRY**

Senator Peterson: "Senator Gallaghan, this measure is a little bit deeper than blue lights, quite substantially so. You are extending the state patrol's law enforcement authority to all fisheries offices, right? Fish, game and parks."

Senator Gallaghan: "Right."

Senator Peterson: "Okay. To clarify that then, it says 'in the line of duty.' If a fisheries officer or parks commission officer, game department law enforcement man was traveling up I-5 on his way from Olympia to Mount Vernon and he came up behind your car and you were doing sixty-five miles an hour, does this measure, the intent of this is to substantially allow him to pick you up for a speeding violation or maybe I am beating up on my wife or something?"

Senator Gallaghan: "No, this is not intended to do that, it is merely in the enforcement of their present duties or primary concern like parks' people would be in parks, violation within a park, that then would allow them to use their police powers."

Senator Peterson: "Well, I believe the language in the bill is broad enough to where they could do it but I wanted to establish some legislative intent and get it in the record and that is not what we are attempting to do here. We are attempting to give them enforcement powers in their line of duty and not just necessarily on their way to or from for any minor civil infraction, am I right?"

Senator Gallaghan: "That is correct."

**POINT OF INQUIRY**

Senator Pullen: "Senator Gallaghan, to expand on Senator Peterson's question, as I understand it, it is not your intent to make fisheries department officers go around during normal working hours . . . ."

**POINT OF ORDER**

Senator Goltz: "Mr. President, I believe the discussion has gone from the amendment to the bill and I would appreciate it if we could dispose of the amendment and then go back to the bill for substance of the bill."

Senator Pullen: "Senator Gallaghan, I have a number of interests in this bill including the general area of police powers and the question of flashing blue lights and to allow me to vote intelligently on Senator Goltz' amendment I wanted to understand the basics of the bill and my question is this: as I understand your answer to Senator Peterson's question, your intent is not to give broad police powers so that these fisheries department officers will go down the freeway and ticket someone for speeding sixty-five in a fifty-five, but there is nothing in here that would prohibit them from doing that. Is that correct?"

Senator Gallaghan: "Well, that is not the intent of it, of course. I do not see anything that would prohibit them, they are now authorized to enforce the laws of the state within a particular county if they are deputized by the sheriff of that county."

Senator Pullen: "So the thrust of the bill is not to allow that but there is no specific language in the bill that would prohibit it?"

Senator Gallaghan: "Not that I am aware of."
POINT OF INQUIRY

Senator Guess: "Senator Gallaghan, the language of the bill says that 'all employees of the department of fisheries.' That would mean you, too. Or all of the clerks and all of the people who run the fish hatcheries, it says that 'all employees of the department of fisheries and game engaged as peace officers only enforce the general laws of the state when during the normal course of their duties as department peace officers they come in contact with violations of the general laws of the state and it is not prudent or reasonable to call a local state law enforcement officer.'

"Why is that designation 'peace officers'?"

Senator Gallaghan: "I do not know why it is peace officer; a peace officer is a peace officer no matter where you find him. These are fisheries enforcement officers and wildlife agents who now enforce the laws of the state."

REMARKS BY SENATOR GOLTZ

Senator Goltz: "I think I can answer Senator Guess' question. A peace officer is charged with the responsibility for enforcing departmental rules and regulations and they do not have police power. In the proposed bill and we are now getting away again from that amendment, it seems to be so elusive, but the purpose of the bill is to extend, on a limited basis, full police powers to peace officers so that when they are out there doing their regular line of work and somebody finds a sleeping bag in the back of a truck that has been stolen, the game officer could, under those circumstances, make an investigation, and if necessary, arrest the person with stolen property; whereas under the present law he cannot do that."

POINT OF INQUIRY

Senator Guess: "Senator Gallaghan, is the officer, is he to engage in other than prosecutions and finding violators of the game or fish laws?"

Senator Gallaghan: "You bet they do; and this will help them a little bit more. Trained by the Washington state patrol academy."

The motion by Senator Goltz carried and the amendment was adopted.
MOTION

On motion of Senator Clarke, Substitute Senate Bill No. 3258, as amended, was ordered held for further consideration following Senate Bill No. 3580.

SECOND READING

SENATE BILL NO. 3580, by Senators Guess and Hansen:

Senator McDermott moved adoption of the following amendment:
On page 1, line 12, after ".070" insert ": PROVIDED, That the department shall be required to make available the information of the successful bidder"
Debate ensued.

POINT OF ORDER

Senator Shinpoch: "Are we still under the rule where you can only speak one time?"
President Cherberg: "Yes, Senator."
Senator Shinpoch: "Has Senator Guess spoken once?"
President Cherberg: "Yes, Senator Guess has spoken once . . . did you direct a question to Senator Guess, Senator Lysen?"
Senator Lysen: "Well, actually I did not, but I do not want to muzzle him; I mean if he wants to, I guess I will, if that would be a way that we could respond, under the rules."
"Senator Guess, would you yield to a question?"
Senator Guess: "I yield. I will answer the question that you ask, Senator Lysen. Senator Lysen, this amendment is much different from the contract that we were talking about on 3600 because that was the twenty-five percent bond required by statutory language. This, the bond that is put up in this instance, the contractor puts a one hundred percent bond up as a matter of statutory language and therefor, the one hundred percent bond protects the highway department from any loss."
Senator Lysen: "May I continue my remarks?"
President Cherberg: "You have just about run out of time, Senator. Senator Lysen."
Senator Lysen: "The point I was trying to make, Senator Guess, on this amendment offered by Senator McDermott, it says 'the department shall be required to make available the information. . . . successful bidder;' in other words, identical with the amendment we had the other night. Once the contract is entered into, that information becomes public information. That is exactly what you went along with the other night. I do not see any difference at all. I guess that is self-evident."
Senator Guess: "I attempted to say that the situation is entirely different. Mr. President, because in this case, the contractor puts up a hundred percent performance bond and does not put up only the bond of the twenty-five percent in Senate Bill 3600."
Senator McDermott demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the amendment by Senator McDermott to page 1, line 12.

The Secretary called the roll and the amendment was adopted by the following vote: Yeas, 25; nays, 23; excused, 1.

SECOND READING

SENATE BILL NO. 3965, by Senators Gallaghan and Haley:
Providing funding for fish hatchery expenditures of the department of fisheries.

MOTIONS

On motion of Senator Gallaghan, Substitute Senate Bill No. 3965 was substituted for Senate Bill No. 3965 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Gallaghan, the rules were suspended, Substitute Senate Bill No. 3965 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Shinpoch: "Senator Gallaghan, could you tell me how much money it is estimated is involved in this?"

Senator Gallaghan: "It varies considerably from $300,000, sometimes $600,000."

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Gallaghan, on line 20, it states '... Disbursements from the revolving fund shall be on authorization of the director of the department of fisheries or the director's designee. ...' Further down it says that it shall be by appropriation. Why would the director ... authorized if he has an appropriation, he spends that appropriation, rather than dipping into the revolving fund?
"The other question would be, of course, it is a wash if you have this much money, we are going to take that much away from you that we appropriated for the general fund. What is the appropriation this year for the department of fisheries?"

Senator Gallaghan: "I have not seen that yet, Senator Rasmussen; but this is reason for this, the whole reason for this, so they would not take money away from that particular operation. We are a little short on many of our hatcheries for equipment. You are one of the people that we went down to Oregon and watches the equipment that those people are working with. This will increase our operational efficiency in our hatcheries. That is the reason for that. They couldn't say that it would reduce our budget by that amount."

Senator Rasmussen: "Well, I am sure Senator Scott will, or Senator Shinpoch whoever happens to be in charge, it will be a wash. The bad part of it is, thank you, Senator Scott, I see you are taking care of that already.

The only bad part of it is, Senator Shinpoch says it is the concern of the fishermen that the season will be shortened up, so it will be as you had this year, an unlimited amount of salmon returning to hatcheries that they did not know what to do with; and as you say, they are burning eggs and fry and the whole works, when they should have let the commercial season go a little longer, and as Senator Lysen has said, they would be catching bright fish instead of the real dark ones that are only good for cat food."

POINT OF INQUIRY

Senator Quigg: "Senator Gallaghan, how would you respond to the statement that this bill is ill-timed in light of the return of alligators to our hatcheries and things of that nature? Are the fishermen really for this or not?"

Senator Gallaghan: "Well, surprisingly enough I left that out of my testimony. This is one of the rare occasions that we have completely supported by Phil Sutherland and the Puget Sound Gillnetters Association, all of our fishing organizations. I forgot that part. There was no one testified against it. The alligators are saleable right now."

ROLL CALL

of public buildings (reported by Committee on Energy and Utilities):

MAJORITY recommendation: Do pass with the following amendments:
On page 2, beginning on line 35, strike "cost of acquisition and" and insert
"initial cost and cost of"
On page 3, on line 5, strike "acquisition" and insert "initial"
On page 4, beginning on line 34, strike all matter down through line 3, page 5
Renumber the remaining sections consecutively.
On page 1, beginning on line 7 of the title, strike "adding a new section to
chapter 39.35 RCW;"

Signed by: Senators Williams, Chairman; Bottiger, Charnley, Fuller, Gould,
Hemstad, Hurley, McCaslin, Quigg.

The bill was read the second time by sections.
On motion of Senator Gould, the committee amendments were adopted.
On motion of Senator Williams, the following amendment was adopted:
On page 4, line 25, after "agency" strike all material down through "analyzed"
on line 30, and insert "may accept the facility design if the agency is satisfied that
the life-cycle cost analysis provides for an efficient energy system or systems based
on the economic life of the major facility"

On motion of Senator Gould, the committee amendment to the title was
adopted.

On motion of Senator Gould, the rules were suspended, Engrossed Senate Bill
No. 3156 was advanced to third reading, the second reading considered the third,
and the bill was placed on final passage.

POINT OF INQUIRY

Senator Lysen: "Senator Williams, the concern I have is on the experience we
went through on the ferry contract where we had the requirements, the phrase used
on the ferry contract was 'most advantageous to the state' in terms of the life-cycle
cost analysis. So even though one company came in with a lower bid, it was on
actual construction cost, it was determined by a life-cycle cost analysis, that the
actual higher cost bid was the most advantageous to the state, because the energy,
over a twenty-five year period, because the energy consumption would have been
less, so total cost was less.

"And the basis for the energy life-cycle cost analysis was extremely question­
able and it is a very inexact science, subject to manipulation and I guess I am very
concerned that we are going to get into this situation again in bidding on these
contracts.

"So how would this actually work, Senator?"

Senator Williams: "Well, Senator Lysen, as I said earlier, one of the reasons
for making it not mandatory but simply a judgment was because life-cycle analysis
is not an exact science at this time, and I think making it nonmandatory recognizes
that fact.

"As far as relation to ferry contracts and so forth, I guess I would have to plead
a certain amount of ignorance there because this really does apply to buildings, and
it is related to the public facilities, generally it is related to those buildings with
25,000 square feet or more of floor area.

"So I think, as I understand it, at least, it would not have any relationship to
the issue you mention."

Debate ensued.
SEVENTY-EIGHTH DAY, MARCH 30, 1981

POINT OF INQUIRY

Senator Rasmussen: "Senator Williams, I am looking at new section, Sec. 7, 'The department of general administration, in cooperation with the office . . . ' that is on line 9, 'and after consultation with affected agencies. . . .'

"What office is the director of general administration going to be in cooperation with?"

Senator Williams: "Well, I suspect it would be those agencies where general administration is the managing office for construction, such as social and health services or any other agency where general administration actually puts out for bid and does, you know, contracts for the design and construction of those buildings, as opposed to universities and other higher education facilities which have their own administration for that kind of thing."

Senator Rasmussen: "But Senator Williams, ordinarily the director of general administration, in cooperation with the office, the office is not an agency or anything. I am looking at line 9, section 7, he . . . cooperate with what office?"

Senator Williams: "That refers back to page 2, new language on line 22 where 'office' is defined as the 'Washington state energy office.'"

Senator Rasmussen: "Well, that is the office that doesn't have enough to do right now, they are trying to create new jobs for them?

"The other question, Senator Williams, would be, what does this bill do that they cannot already do without this law?"

Senator Williams: "It requires, the only thing it does that they, it doesn't do anything that they cannot do. It is simply a matter of policies, states that state agencies shall consider renewable energy systems in the design of the energy systems of buildings. I understand your point, however, in 1975, for instance, we first introduced the requirement in the first place that state agencies should consider life-cycle cost analysis in the use of energy. In 1980 we tried, we did pass a bill very similar to this, however it had the mandatory requirement in it and was vetoed."

"All I can say is that sometimes state agencies take a little push to get them to do things which traditionally they are not used to doing."

Further debate ensued.

PARLIAMENTARY INQUIRY

Senator Talmadge: "Mr. President, if a bill fails to receive a constitutional majority on final passage, and notice of reconsideration is given for the following day's business, and the body goes to the eighth order of business on the following day without a motion for reconsideration being lodged or other action taken with
respect to the bill, would consideration of the bill then on a subsequent day, be in order?"

THE WEATHER OF THE MORNING AND THE EVENTS OF THE PAST DAY HAVE FORCEFULLY REMINDED US AGAIN THAT LIFE IS NOT ALL SUNSHINE AND GOOD. LORD, WE HOLD UP OUR PRESIDENT, RONALD REAGAN, AND THOSE WOUNDED YESTERDAY IN A SELFISH, SENSELESS ACT OF VIOLENCE.

"WE PRAY THAT YOUR COMFORT AND HEALING MAY TOUCH ALL THOSE WHOSE LIFE HAS BEEN DRAMATICALLY CHANGED BY THE UNEXPECTED. POINT OF INQUIRY

Senator Talmadge: "Senator Gallaghan, some of my concerns with respect to the bill I think will be reflected in my questions. The first is, do you anticipate that these wildlife and game department agents will be permitted to carry firearms?"

Senator Gallaghan: "I rather suspect."

Senator Talmadge: "Would it be your intention that these people would be subject to training by the criminal justice training commission?"

Senator Gallaghan: "Yes, I would."

Senator Talmadge: "Finally, I do have a concern, at the top of page 3 of the bill, it permits the director of the department of fisheries to be one of those people that will be carrying the firearms and would be permitted to go out and actually arrest people. Is it your intention that the director of the department be the one that would go out and enforce the law in that direct a fashion?"

Senator Gallaghan: "No, he probably would never do this."

The motion by Senator Pullen carried and the amendment to the title was adopted.

POINT OF INQUIRY

Senator McDermott: "Senator Bottiger, is it your understanding, Senator Bottiger, that the applications are made to the department of natural resources?"

Senator Bottiger: "Senator McDermott, there is a local permit that is required and then the department works out the contract with you as to how you do the reforestation, how many trees, what kind of trees per acre; you can go in and show them where it is flooded and get a reduction in the number of trees per acre that you have to replant.

"And you do that through the county under their county plan and in addition, you get the permit and the negotiated agreement with the department. And that is how it works in practice, and I am trying to find the exact language in this bill, how much of this bill pertains to the actual practice; but as I read it, it puts that language back in that was declared unconstitutional."

Senator McDermott: "Mr. President and members of the Senate. If you look on, it is in bill number 349 on line 16 or 17 it says then 'the local government rather than the department of natural resources is responsible for any detailed statement required under the RCW.' It seems to me that you are actually shifting it away from the department and you are saying 'We will let the local government make all
the decisions as to whether there is a likelihood of urban development.' I think that is a public policy question that Senator Talmadge was raising which I object to as well."

Senator Bottiger: "Mr. President, in answer to that, the procedure requires the local government to come up with their comprehensive zone and whether this is going; you first start by putting your land in to forest practices, that gives you some tax advantages. Now when you want to cut your trees, you now have to get a department of natural resources permit. If you also want to change your use out of forest practices, you have to go to the county and get consent to take your property out of the forest practices act. And that is the language here, about looking to the county for the permit. If you do not get the permit from the county and you do not get your conversion, you go back to the department and get your agreement as to how much you replant.

"And all we are doing is putting that practice back into the act that was knocked out in the court decision."

NEW SECTION. Section 1. There is added to chapter 41.26 RCW a new section to read as follows:
(1) The retirement board shall adopt rules, in accordance with chapter 34.04 RCW, under which each disability board shall execute its disability retirement duties under this chapter. The rules shall include, but not be limited to:
   (a) Standards governing the type and manner of presentation of medical, employability, and other evidence before disability boards; and
   (b) Standards governing the necessity and frequency of reexaminations of persons receiving disability benefits. The rules shall not require more than two reexaminations per year.
(2) If the retirement board determines that an order or determination of a disability board was not processed in accordance with rules established under this section, the retirement board may remand the order or determination for further proceedings consistent with the rules.
Sec. 2. Section 12, chapter 209, Laws of 1969 ex. sess. as last amended by section 10, chapter 120, Laws of 1974 ex. sess. and RCW 41.26.120 are each amended to read as follows:
Any member, regardless of ((his)) age or years of service may be retired by the disability board, subject to approval by the retirement board as hereinafter provided, for any disability which has been continuous since his discontinuance of ((active)) service and which renders him unable to continue his service, whether incurred in the line of duty or not. No disability retirement allowance shall be paid until the expiration of a period of six months after the ((disability is incurred)) discontinuance of service during which period the member, if found to be physically or mentally unfit for duty by the disability board following receipt of his application for disability retirement, shall be granted a disability leave by the disability board and shall receive an allowance equal to his full monthly salary and shall continue to receive all other benefits provided to active employees from his employer for such
period. However, if, at any time during the initial six-month period, the disability board finds the beneficiary is no longer disabled, his disability leave allowance shall be canceled and he shall be restored to duty in the same rank or position, if any, held by the beneficiary at the time he became disabled. Applications for disability retirement shall be processed in accordance with the following procedures:

(1) Any member who believes he is or is believed to be physically or mentally disabled shall be examined by such medical authority as the disability board shall employ, upon application of said member, or a person acting in his behalf, stating that said member is disabled, either physically or mentally: PROVIDED, That no such application shall be considered unless said member or someone in his behalf, in case of the incapacity of a member, shall have filed the application within a period of one year from and after the discontinuance of service of said member.

(2) If the examination shows, to the satisfaction of the disability board, that the member is physically or mentally disabled from the further performance of duty, and that such disability has been continuous from the discontinuance of (active) service, the disability board shall enter its written decision and order, accompanied by appropriate findings of fact and by conclusions evidencing compliance with this chapter as now or hereafter amended, granting the member a disability retirement allowance; otherwise, if the member is not found by the disability board to be so disabled, the application shall be denied pursuant to a similar written decision and order, subject to appeal to the retirement board in accordance with RCW 41.26.200: PROVIDED, That in any order granting a disability retirement the disability board shall make a finding of whether or not the disability was incurred in line of duty.

(3) Every order of a disability board granting a disability retirement allowance shall forthwith be reviewed by the retirement board for the purposes of determining (a) whether the facts as found by the disability board are supported by substantial evidence in the record, except the finding of whether or not the disability was incurred in line of duty; and (b) whether the order is in accordance with law on the basis of such facts. If an affirmative determination is made by the retirement board on both of the aspects of the decision and order, it shall be affirmed; otherwise, it shall be reversed and remanded to the disability board for such further proceedings as the retirement board may direct.

(4) Every member who can establish, to the disability board, that he is physically or mentally disabled from the further performance of duty and that such disability will be in existence for a period of at least six months may waive the six-month period of disability leave and be immediately granted a disability retirement allowance, subject to the approval of the state board as provided in subsection (3) above.

Sec. 3. Section 13, chapter 209, Laws of 1969 ex. sess. as amended by section 8, chapter 6, Laws of 1970 ex. sess. and RCW 41.26.130 are each amended to read as follows:

(1) Upon retirement for disability a member shall be entitled to receive a monthly retirement allowance computed as follows: (a) A basic amount of fifty percent of final average salary at time of disability retirement, and (b) an additional five percent of final average salary for each child as defined in RCW 41.26.030(7), (c) the combined total of subsections (1)(a) and (1)(b) of this section shall not exceed a maximum of sixty percent of final average salary.

(2) A disabled member shall begin receiving his disability retirement allowance as of the expiration of his six month period of disability leave or, if his application was filed after the sixth month of (disability) discontinuance of service but prior to the one year time limit, the member's disability retirement allowance shall be retroactive to the end of the sixth month.

(3) Benefits under this section will be payable until the member recovers from the disability or dies. If at the time that the disability ceases the member is over the
age of fifty, he shall then receive either his disability retirement allowance or his retirement for service allowance, whichever is greater.

(4) Benefits under this section for a disability that is incurred while in other employment will be reduced by any amount the member receives or is entitled to receive from workmen's compensation, social security, group insurance, other pension plan, or any other similar source provided by another employer on account of the same disability.

(5) A member retired for disability shall, at the discretion of the disability board, be subject to (a semiannual) medical examination by a physician approved by the disability board prior to his attainment of age fifty, pursuant to rules adopted by the retirement board under section 1 of this 1981 act.

(1) Upon the basis of (a semiannual) reexaminations of members on disability retirement as provided in RCW 41.26.130 and section 1 of this 1981 act, the disability board shall determine whether such disability beneficiary is still unable to perform his duties either physically or mentally for service in the department where he was employed.

(2) If the disability board shall determine that the beneficiary is not so incapacitated his retirement allowance shall be canceled and he shall be restored to duty in the same civil service rank, if any, held by the beneficiary at the time of his retirement or if unable to perform the duties of said rank, then, at his request, in such other like or lesser rank as may be or become open and available, the duties of which he is then able to perform. In no event, shall a beneficiary previously drawing a disability allowance be returned or be restored to duty at a salary or rate of pay less than the current salary attached to the rank or position held by the said beneficiary at the date of his retirement for disability. If the disability board determines that the beneficiary is able to return to service he shall be entitled to notice and a hearing, both the notice and the hearing shall comply with the requirements of chapter 34.04 RCW, as now or hereafter amended.

(3) Should a disability beneficiary reenter service and be eligible for membership in the retirement system, his retirement allowance shall be canceled and he shall immediately become a member of the retirement system.

(4) Should any disability beneficiary under age fifty refuse to submit to medical examination as provided in RCW 41.26.130 and section 1 of this 1981 act, his retirement allowance shall be discontinued until his withdrawal of such refusal, and should such refusal continue for one year or more, his retirement allowance shall be canceled.

(5) Should the disability retirement allowance of any disability beneficiary be canceled for any cause other than reentrance into service or retirement for service, he shall be paid the excess, if any, of his accumulated contributions at the time of his retirement over all payments made on his behalf under this chapter.

Sec. 5. Section 16, chapter 209, Laws of 1969 ex. sess. as last amended by section 6, chapter 120, Laws of 1974 ex. sess. and RCW 41.26.200 are each amended to read as follows:

((++)) Any person feeling aggrieved by any order or determination of a disability board denying disability leave or disability retirement, or canceling a previously granted disability retirement allowance, shall have the right to appeal the said order or determination to the retirement board. The said retirement board shall have no jurisdiction to entertain the appeal unless a notice of appeal is filed with the said retirement board within thirty days following the rendition of the order by the applicable disability board. A copy of the notice of appeal shall be served upon the applicable disability board and, within ninety days thereof, the disability board shall
certify its decision and order which shall include findings of fact and conclusions of law, together with a transcript of all proceedings in connection therewith, to the retirement board for its review. Upon its review of the record, the retirement board may affirm the order of the disability board or it may remand the case for such further proceedings as it may direct, in accordance with such rules of procedure as the retirement board shall promulgate.

(2) The said appeal authorized by this section shall be governed by the provisions of RCW 41.26.210 and 41.26.220.

On motion of Senator Gould, the rules were suspended, Substitute Senate Bill No. 3972 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.
Senator Deccio: "Would Representative Lysen respond to a question? I am still in the House.

"Senator Lysen, I guess maybe I regard you as probably one of the foremost critics of WPPSS and I think probably there is all the reason in the world to be critical of what has happened. But of all the thousands of words that I have read and the several hearings that we had regarding WPPSS when I was on the LBC and all the articles in the paper and all the criticisms, I never heard anybody say anything about the cost overruns caused by labor disputes, by change orders created by the Federal government, by the environmentalists and their concerns, of course, and we cannot forget inflation.

"I think maybe a million and a half is probably a very inexpensive way to take a look at this thing but unless we, if these are part of the heart of the problem and we aren't ever going to mention them for political reasons, then I do not think any study or any other kind of in depth penetration made by the legislature is going to do any good.

"I cannot help but think that the last labor strike at Hanford must have had a tremendous impact on those projects and would you care to answer that?"

Senator Lysen: "Well, thank you, Senator Deccio, for your compliment; I did not start out as a critic of WPPSS, by the way, I started out as a strong supporter of WPPSS, and I am a convert to my present position. My criticism of WPPSS is set in sorrow, primarily, of something that was a very good, James O'Sullivan from Senator Hansen's district, the whole history.

"But in terms of your points of labor, the Federal government, environment and inflation, those four points. I would like to respond to those.

"The Federal government, or the NRC standards have not affected the WPPSS plants at Hanford one single bit. The community over there is a hundred percent pro nuclear power, there has been no delays or anything because of environmental problems whatsoever. So that is not a valid criticism.

"The other problem of labor I think is something we should possibly mention. It has been a problem over there but my personal view is that the labor disputes over there have been caused by engineering, or a big factor in that, I think the inquiries brought that out, that the engineering is actually behind construction and engineering is pacing construction. And so that when the strikes occurred, the contract, the cost-plus, in effect, contracts were written in such a way, that the management of the construction companies continued to get paid for their overhead in administration.

"So the economic sanction which is normally in effect on both sides of a labor dispute, did not function. It is another example of the unreality situation which Senator Hemstad referred to.

"All the checks and balances we have normally in our economic system, in private industry, are not functioning at WPPSS because of the hell—or—high—water bonds written into the bond covenant, the labor contract, cost-plus, continue to get paid even though your, it is cost-plus on an hourly basis, plus management overhead, so all that reality checks have been taken away from this thing. And that's what caused it to get so out of control, in my view.

"In terms of inflation, I think the inflation of this thing is far beyond inflation as we have experienced it. The original of this cost was 4.1 billion; we are now up to an admitted 17,300,000,00, and that does not count the change order of 300,000,00 for Peter Kiewit, 308,000,000, which we just reviewed in the committee the other day just as a point of review.

"I do not know if this answers your question or not. I think Three—Mile Island is a factor here; these things do not always go the way they are planned, we are building three different kinds of plants instead of uniform engineering, you have got
boiling water reactor, we have a high pressure reactor, and a third kind of reactor from a third engineering firm. We do not have any consistency so volumes of scale is not working here. The idea was to divide it all up and give all companies a little piece of the action.

Well, it has come right back on us; in fact, I am partially responsible for some of the problems because when I was chairman of the House energy and utilities committee, in pure faith in Mr. Billington, we passed the bill out, allowing them to modify their contracts and have change order increases without having to go back and rebid the contract. This was to give them more flexibility. And they went ahead and did that, in fact, as I chaired the committee I said 'I don't think we really understand this, but because of the excellent record of Mr. Billington and the PUDs and the great credibility they have in Washington state and this legislature, we are going to pass this bill', and we passed it.

And now, here they are, four years later, they are back with another one, they want to open it up even more, total flexibility, total lack of accountability or unreality in the contract. The contracts, if this next bill goes through, are going to be totally meaningless. It is just wide open, and if that is what we want to do, that is our only solution is to give more and more power and authority and flexibility over the resources of the state to this agency and their technicians, I think we are going to be in for more and more trouble.

"And you had a long question and so I thought I had a right to give you a long answer, Senator Deccio."

Further debate ensued.

**POINT OF INQUIRY**

Senator Lysen: "I would like to ask a question to Senator Bottiger. For the sponsors."

Senator Bottiger: "Short question or long question?"

Senator Lysen: "Well, I think it is important, if we are serious about this bill and I know everybody wants to rush on to the other bills but I submit that this is a very important bill, one of the most important of the session.

"On page 2 of the bill, line 24, Senator Bottiger, it says 'A study director shall be appointed by Washington State University. The study director shall contract with nationally recognized expert and disinterested consultants as needed for expeditious completion of the study.'

"Now when you and I were wrestling over the auditor bill to create an auditor for WPPSS two years ago, I was allowed to put an amendment on there which took out the nationally recognized firm. It just said 'an expert' period. And the word 'nationally recognized' I understand, limits it, as I recall, to about seven consultants, very limited number; and this national, this atomic, or nuclear construction business is so pervasive that is it possible to get a nationally recognized consultant who will be disinterested? Is that really possible and wouldn't it be better if we did not have that in there unless ... more flexible? We have always divided this million and a half dollars between Washington State and U of W; we sort of made a political cut of the pie there.

"But I am concerned that this nationally recognized expert is going to get us into an impossible situation."

Senator Bottiger: "Well, Senator Lysen, I went off the energy committee and I was not there to hear the testimony. There is a problem as you have identified with finding somebody who is disinterested, but it will be up to the University of Washington and Washington State staff directors to make that decision. If they cannot, they will undoubtedly report back to the legislature that they were not able to find any such person. I did not hear the testimony so I do not have any idea. This isn't quite exactly the same as the auditor bill and the study that has been made."

Senator Bluechel moved adoption of the following amendment by Senators Goltz and Bluechel:

On page 1, line 12, after "review" insert "if a procedure for administrative appeal is available"

Debate ensued.

POINT OF INQUIRY

Senator Pullen: "Senator Goltz, ... the amendment if the procedure for administrative appeal is available, could you give me some examples of what administrative appeals are available? I guess I am not sure exactly what kind of a structure we are talking about in the amendment."

Senator Goltz: "My understanding that when an appeal is made and this usually occurs in a county which has a fairly sophisticated way of dealing with the state environmental policy act permit system, that they will be able to go from the filing of this permit to an appeal to someone within the county organization. That person would ordinarily be a hearings officer or someone of that kind, just short of a judicial review.

"My further understanding that in some counties, such as San Juan county, such sophistication is not available and therefore there is not a hearings officer, and in such counties as that, I think the judicial system has to be available.

"So this really tries to say that if there is no administrative appeal to a hearings officer or quasi-legal judicial officer, then the judicial review, of course, would still remain."

POINT OF INQUIRY

Senator Hemstad: "Senator Bluechel, in reading section 1, with or without the amendment, is the thrust of this that this will foreclose access to judicial review of decisions made within the system?"

Senator Bluechel: "You have asked a question that may require me to explain the whole bill and the procedures how we came to this bill.

"Yes, this would, in the counties that have the ability of administrative review. The reason for the amendment is to eliminate those counties where they do not have administrative reviews.

"Now, to further explain, and it will take an explanation of the whole bill. What we are trying to do here, and this is one part of a two-part sequence, the other being a study bill that is designed to tackle the whole issue of SEPA, the state environmental policy act. For the past ten years, we have had a situation where the
environmental groups on one hand and the industry-builder groups on the other hand, have been sparring with each other, literally not talking to each other, and both sides complaining about SEPA. There was testimony in the committee from the attorney and I believe president of the Friends of Washington which is a large broad-based environmental group, that SEPA simply was not working and something needs to be done. There was testimony from the builders that SEPA was costing the average citizen on a residence, as much as $5,000 additional for the paper work and for the delay.

"The end result of trying to put together a compromise, and we took a bill that was, quite frankly, very slanted one way, and tried to arrive at a middle ground. The three points in this bill as evidenced in each one of the three sections there, were worked out, negotiated, partially agreed to, partially disagreed to; it was the best we could do.

"The two points of these amendments that Senator Goltz and I are proposing here, are a further safeguard so that this trial period, and by trial period if you will notice, each one of these sections has a sunset clause for July 1, 1983. What we have is a partial agreement between the various parties; individually, parties have come up and said 'That is fine, we can live with it'. The whole idea of this thing is to put this together so that then we have a much broader agreement on the two-year study bill; and it does limit it in the way that I first mentioned to you, but only in those counties that we felt, and many of the people on both sides felt, had different remedies that would not, that would preclude any bad actions in terms of environment."

Further debate ensued.

POINT OF INQUIRY

Senator Metcalf: "Senator Bluechel, I have a published sheet here by the Washington Environmental Council where they are very much, at least, they say they are very much opposed to substitute senate bill 4036. The question is, would your amendment make the bill more acceptable to them, or do you think it would make it less acceptable to the people who are opposed to 4036?"

Senator Bluechel: "A direct answer to that question, in talking to Mr. Leeds yesterday in the hallway downstairs, he said, 'That is a substantial improvement.'"

Senator Metcalf: "This amendment that you have today?"

Senator Bluechel: Yes. Yes. And the amendment was agreed to by the industry representatives."

The motion by Senator Bluechel carried and the amendment was adopted on a rising vote.

On motion of Senator Goltz, the following amendment by Senators Goltz and Bluechel was adopted:

On page I, line 25, after "consistent with the" strike everything down through "governing" on line 26.

Senator Hurley moved adoption of the following amendment:

On page I, line 15 after "filed" insert a period and strike the remainder of the sentence.

Debate ensued.

The motion by Senator Hurley failed and the amendment was not adopted on a rising vote.

On motion of Senator Fuller, the rules were suspended, Engrossed Substitute Senate Bill No. 4036 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

STATEMENT FOR THE JOURNAL

April 20, 1981.

TO: Honorable Sid Snyder
FROM: Secretary of the Senate
RE: Senator Hal Zimmerman

Statement for the Journal

Because of the recent death of my daughter, Judi Jean Zimmerman, I missed session and votes on measures before the Senate on the following days: March 31, April 1, 10, and 11. Republican Caucus leadership arranged to hear a consent calendar so that there would be no major controversial issues decided those days.

MOTION

At 3:30 p.m., on motion of Senator Clarke, the Senate adjourned until 11:00 a.m., Wednesday, April 1, 1981.

JOHN A. CHERBERG, President of the Senate.

SIDNEY R. SNYDER, Secretary of the Senate.

EIGHTIETH DAY

MORNING SESSION

Senate Chamber, Olympia, Wednesday, April 1, 1981.

The Senate was called to order at 11:30 a.m. by President Cherberg. The Secretary called the roll and announced to the President that all Senators were present except Senator Zimmerman. On motion of Senator Bluechel, Senator Zimmerman was excused.

The Color Guard, consisting of Pages Shawn Stoner and Nannette Gilmore, presented the Colors. Reverend Richard Hart, Senior Pastor of the First Baptist Church of Olympia offered the following prayer:

"In light of the news that has been released concerning Senator Zimmerman and the sorrow of his family, it is appropriate that we should spend a few moments in silent prayer for them.

(A moment of silent prayer was observed)

ETERNAL FATHER, EXPERIENCE HAS TAUGHT US THAT ALL IN LIFE IS NOT FAIR OR GOOD. WE SEE IT ALL AROUND US EVERYDAY, BUT SOMEHOW IT APPEARS SO MUCH MORE INTENSE WHEN IT REACHES OUT WITH ITS UNEXPECTED AND UNWELCOMED HAND AND TOUCHES US AND THE ONES WE ARE ABOUT. WE WANT TO HOLD UP IN THIS SACRED MOMENT SENATOR ZIMMERMAN, JUDY, HIS WIFE, AND OTHER MEMBERS OF THE FAMILY, MAY YOUR EVERLASTING ARMS OF PEACE AND COMFORT HOLD THEM CLOSE DURING THESE DAYS OF NEED. WE ARE GRATEFUL FOR THEIR FAITH AND PRAY THAT IT MAY BECOME A VERY REAL SOURCE OF STRENGTH IN THESE MOMENTS OF PAIN AND SORROW. AND THEN, O LORD, MAY THEY EVEN NOW BEGIN TO EXPERIENCE THAT SPECIAL HEALING WHICH COMES BY YOUR GRACE. MAY THEY KNOW THAT WE CARE. WE PRAY ALSO FOR ALL THE MEMBERS OF THE SENATE AS THEY GO ABOUT THE TASK OF MEETING THEIR RESPONSIBILITIES FOR THIS DAY. GRANT TO EACH OF THEM WISDOM BEYOND THEIR OWN. IN THE NAME OF CHRIST OUR LORD. AMEN."

MOTION

On motion of Senator Clarke, the reading of the journal of the previous day was dispensed with and it was approved.

MOTIONS
On motion of Senator Lee, Substitute Senate Bill No. 4190 was substituted for Senate Bill No. 4190 and the substitute bill was placed on second reading and read the second time in full.
Senator Hurley moved adoption of the following amendment:
On page 3, line 7, strike all language after "shall" down to and including the period on line 9 and insert "include one representative of the Washington Environmental Council, one representative of business, one representative of labor and one representative of the public at large."

Senator Pullen moved adoption of the following amendment to the amendment by Senator Hurley:

On the third line of the Hurley amendment, strike "the Washington Environmental Council" and insert "a citizens' environmental group"

POINT OF INQUIRY

Senator Hurley: "Senator Pullen, there was a member of a citizens' advisory, environmental group who spoke to the committee, and I, for one, thought that he was representative of a larger group, a statewide group, and it certainly affected my opinion of the whole bill because he spoke in a very responsible manner and I thought he must be speaking for the whole state. And he was not; and I resented some of the things that he said and the attitude that he had.

"And I wonder if you could change your amendment to say, 'a large,' or 'a representative,' or a, whatever could you say before that word 'citizens' environmental group' in order to make it a statewide, a statewide citizens' environmental group; maybe that would be it. Would you please offer that type of amendment to your amendment?"

Senator Pullen: "I am sure that that can be worked out if we could just move the bill down one bill. Mr. President, I move that the bill be moved down one notch on the calendar."

MOTION

On motion of Senator Pullen, Substitute Senate Bill No. 4190, together with the pending amendment by Senator Hurley and the amendment to the amendment by Senator Pullen was ordered held following Senate Bill No. 3591.

SECOND READING

SENATE BILL NO. 3591, by Senators Craswell, Bottiger and Guess:
Permitting counties to establish local improvement districts for water, sewer and/or drainage.

REPORT OF STANDING COMMITTEE

March 24, 1981.

SENATE BILL NO. 3591, permitting counties to establish local improvement districts for water, sewer, and/or drainage (reported by Committee on Local Government):

MAJORITY recommendation: Do pass with the following amendment:

On page 3, line 9, after "by" insert "ordinance or"

Signed by: Senators Zimmerman, Chairman; Bauer, Charnley, Fuller, McCaslin, Talley, Wilson.

The bill was read the second time by sections.

On motion of Senator Craswell, the committee amendment was adopted.

On motion of Senator Craswell, the rules were suspended, Engrossed Senate Bill No. 3591 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.
POINT OF INQUIRY

Senator Rasmussen: "Senator Craswell, is it the intent to issue these bonds and the assessments for the bond payment would come out of what the LID bonds would be guaranteed by the LID district?"

Senator Craswell: "Yes, the LID bonds would be guaranteed. They are easier to get investors because they are based on the property values; and the assessment comes off the property values; and they operate just like any other LID."

Senator Rasmussen: "Well, at what stage would the assessment be placed on the property, at the time the services were offered, or prior to?"

Senator Craswell: "The bill picks up the same language for all other LIDs."

Senator Rasmussen: "And all other LIDs usually, the project is completed and then the assessments are spread on the tax rolls and notification sent out to property owners."

Senator Craswell: "Senator Rasmussen, it is my understanding that these operate the same way. The people have the same right to appeal the initiative process and it takes the same public hearings and the assessment operates the same way as cities now do."

POINT OF INQUIRY

Senator Talmadge: "Senator Craswell, I had a particular concern about the city of Seattle but it already has sewer and water provided by the city of Seattle. Would it be the intention of the bill to permit a local improvement district that would, in any way, supersede the existing sewer and water authority of the incorporated portions of the county?"

Senator Craswell: "No, Senator Talmadge, I do not believe that that would be the intent of the bill."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 3591, and the bill passed the Senate by the following vote: Yeas, 47; nays, 1; excused, 1.

Voting nay: Senator Lysen—1.

ENGROSSED SENATE BILL NO. 3591, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTIONS

On motion of Senator Clarke, Substitute Senate Bill No. 4190 will be considered following Senate Bill No. 3824.

On motion of Senator Clarke, Senate Joint Resolution No. 115, and Senate Bill No. 3554 were ordered held for consideration on April 2, 1981.

Authorizing criminal justice training for law enforcement personnel of recognized Indian tribes.

The bill was read the second time by sections.

On motion of Senator Hemstad, the rules were suspended, Senate Bill No. 3717 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 3717, and the bill passed the Senate by the following vote: Yeas, 48; excused, 1.

SENATE BILL NO. 3717, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SENATE BILL NO. 3824, by Senators Talley and Fuller:

On motion of Senator Guess, the rules were suspended, Substitute Senate Bill No. 3824 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Talley, that Toutle river, did it cut any new channels?"

Senator Talley: "It used to have a gravel bed and was a beautiful river; now it is just a drainage stream full of mud."

Senator Rasmussen: "I realize that; my concern was whether or not it would cut a new channel if this would give new property to other owners."

Senator Talley: "I do not know; I do not think so, you've got to move that mud; some of that mud is over one hundred feet deep. ... shove the property back. Some of those homes are shoved back two and three hundred feet just by the mud, just oozed in there and carried them back. It is not like a flood or anything like that ... it is just oozing mud."

Senator Rasmussen: "I can understand the problem, but my concern was did the river cut a new channel, if you were giving for a dollar a year, a lease of accreted lands to some other party because of the river channel."

Senator Talley: "We think within a ten-year period, it will probably get stabilized and we'll know what we have. The mountain is still in an active, still acting, they expect another eruption at any time; so we do not know what we've got, we do
not know what we will have. This will give us some time to study it and to work with it and the department can come up with some recommendations as to what should be done."

Senator Rasmussen: "Thank you, Senator Talley. Senator Guess, did you have something you wanted to add to it?

REMARKS BY SENATOR GUESS

Senator Guess: "Senator Rasmussen, the corps of engineers is working now to try to define the channel. They are building a revetment, they are putting a channel into a stream bed so that there is some degree of semblance of what happened down there, what was there before. It will take several years before the corps of engineers finishes their project. You have to realize that this might all be for naught, because there is a 200 foot dam of mud or silt up in the Toutle, and if this comes out again, then, of course, all of this will be lost. When we went down there, we determined that it would be better to put off the final settlement on it for a period, and let those people have access to the water in the meantime so that they could do the necessary watering and swimming and whatever they wanted to do on it as a . . . from the department of natural resources. If anything happens to the mountain, then of course, they will have to start all over again."

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 3824, and the bill passed the Senate by the following vote: Yeas, 48; excused, 1.

Excused: Senator Zimmerman—I.

SUBSTITUTE SENATE BILL NO. 3824, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Clarke, Substitute Senate Bill No. 4190 was ordered held for consideration following Senate Bill No. 4083.

SECOND READING

SENATE BILL NO. 4085, by Senators Gould, Williams and Newhouse (by Governor's request):
Modifying powers and duties of the energy office.

MOTIONS

On motion of Senator Gould, Substitute Senate Bill No. 4085 was substituted for Senate Bill No. 4085 and the substitute bill was placed on second reading and read the second time in full.

Senator Williams moved adoption of the following amendment:
On page 2, line 12, strike "economic" and insert "general"
Senator Pullen: "Senator Williams, could you give me some examples of general welfare that would come under the purview of the act as you would amend it, that would suggest that we ought to vote for your amendment? In other words, you said that economic welfare is too narrow and we should broaden it to general welfare, but could you give me an example of an impact on the citizens that would come under general welfare that would not be included under health and economic welfare, which is the wording in the bill right now?"

Senator Williams: "Well, I think possibly if one were to get into, let us say some sort of general criteria which would compare different classes of either business or residences and that sort of thing. 'Economic' generally, to me, seems to be too narrow and 'general' could refer beyond just general health but could refer to the general standard of living."

Debate ensued.

The motion by Senator Williams carried and the amendment was adopted on a rising vote.

Senator Williams moved adoption of the following amendment:

On page 8, line 11, after "nine" insert "voting"

Senator Lysen: "Senator Williams, this question of voting or nonvoting members, the council is advisor, purely advisory. What would it have to vote on that would be binding in any way on the director? I do not quite understand just what the distinction here is?"

Senator Williams: "Well, there are a number of agencies, state agencies, that have advisory council, and from time-to-time they perhaps are asked to render some opinion on policy and so forth. I am thinking of some advisory councils that I know of that have a role and they do go through proper procedures and do have voting on them. It is a good point, though, but it is an advisory council and . . . ."

Senator Lysen: "I guess what my question is to the sponsors of the bill is, what advisory council and, do they have to keep minutes then and recorded votes, and what does the director have to do if he feels one way and the council feels another? Who is responsible? I would hold the director responsible, not an advisory council.

"I am going to offer an amendment to strike this whole section, but thank you."

Senator Fuller: "Senator Williams, on line 21 of that page, it refers 'in addition there shall be four nonvoting members.' Is that an implication that the other nine members are voting members?"

Senator Williams: "That would be, that is the indication, or the implication. However, just to clarify, that is the purpose of my amendment, to make sure that the nine members are voting members and that later on where these four additional members are on the council, that they are indicated as nonvoting."

The motion by Senator Williams carried and the amendment was adopted.

On motion of Senator Williams, the following amendment was adopted:

On page 8, line 17, after "appointments." insert "Members may be reappointed."

Senator Lysen moved adoption of the following amendment:

On page 8, line 8, strike "Sec. 7."

Renumber accordingly.

Debate ensued.

The motion by Senator Lysen failed and the amendment was not adopted.
Senator Gould moved the rules be suspended, Engrossed Substitute Senate Bill No. 4085 be advanced to third reading, the second reading considered the third, and the bill be placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Gould, in new section 12 would indicate that the new energy office is going to have land leasing responsibilities adjacent to the Hanford reservation may lease to anybody; and then, while I am asking you and you are getting the information, it also provides 'To assure maintenance of such insurance coverage by state licensees, lessees, or sub-lessees as will adequately, in the opinion of the director . . . protect . . . the state' and so forth. That, at the present time, land leasing, is under the director of natural resources and the insurance purchasing under the general administration. And none of these duties were ever under the energy office. Yes or no?"

Senator Gould: "No, but I would like to respond further than that.

"The reason this is in there is because it shifts the responsibility for the Hanford radioactive waste project to the department of energy. It has been under the office of commerce and economic development and they have really not done anything with it. We felt, and the recommendation was, that it would be more appropriate to have that under the department of energy, and that is specifically what they are talking about."

Senator Rasmussen: "Well, Senator Gould, what about the insurance?"

Senator Gould: "Pardon me, I had to confirm what I already believed, that that part of the Hanford project again, the radioactive waste project, they would then have control of the insurance part. It is just part of that package is their having responsibility for that project area."

POINT OF INQUIRY

Senator Wilson: "Senator Gould, although I signed this bill out, my attention is captured by a sentence on page 29 of the yellow digest which says, 'The office will no longer develop and disseminate guidelines for conservation plans but instead merely provide support for increasing cost-effective conservation.'

"Now this energy office has been busy writing reports and compiling information and studying data, and so on. And the one thing that I felt it has not been doing, most importantly, is developing specific conservation plans that individual home owners and businesses could implement and then mailing this material out and disseminating it around the state and getting out into the sticks and encouraging people actually to install conservation devices and procedures in their homes and businesses.

"A number of individual utilities are doing this sort of thing, but I do not see any entity in the state that is really spearheading a well-coordinated comprehensive energy conservation program which, if adopted by a lot of citizens, could, of course, eliminate the need for a considerable addition to our generating facilities.

"And my question is then, does this sentence indicate that the new bill will reduce, rather than increase, the department's responsibility in this area that I am talking about?"

Senator Gould: "The answer is 'no,' but I will elaborate on that.

"Part of the responsibility for the northwest regional power council will be in the area of conservation and encouraging conservation, in fact, that is tops on their list, as you well know. The state energy office will be the coordinating group for the state of Washington for that process. Local jurisdictions, local communities, will be helped through the state energy office to develop plans, programs, etc. for conservation that would be under the original power council."
Senator Wilson: "Yes, that is an accurate answer, however, I take it that, what I am talking about is this office taking some initiative on its own in the area of conservation, rather than trying to implement what the regional council may or may not do.

"And my question then, is, is the authority in the directions, does the energy office to do that sort of thing, enhanced or diminished by this bill, in comparison with its present directives?"

Senator Gould: "Senator Wilson, in response to your comments, I would say it is not enhanced by this. I would have to say that the promulgation of rules will come under the building codes which we are going to be, the state energy building code which we will be voting on shortly. They will still be able, the energy office, within what resources they have, will still be able to help to promote conservation and help develop plans. That is as much as I can give you, I am sorry."

POINT OF INQUIRY

Senator Hayner: "Senator Gould, I notice on page 5, the energy office is to 'prepare and transmit to the governor and the legislature a report on energy supply and demand, conservation, and other factors ...' almost endless number of factors because it says 'not limited to.'

"One of the things that I would like you to respond to, are they going to do forecasting and come up with all kinds of cost estimates and that sort of thing?"

Senator Gould: "One of the specific questions that was determined, was this particular issue because it was a controversial issue. They will not be doing forecasting. They will be analyzing current forecasts that are produced, however; but they will not be doing their own forecasting."

The motion by Senator Gould carried and Engrossed Substitute Senate Bill No. 4085 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage on a rising vote.

Debate ensued.

POINT OF INQUIRY

Senator Lysen: "Senator Gould, on page 6, new section 5 of the bill, it says, 'The office shall not intervene in any regulatory proceeding before the Washington utilities and transportation commission or proceedings of utilities not regulated by the commission.' I would like to know why that was put in there, that the energy office, the governor through his energy office should be allowed that leeway. Any other agency can intervene, the department of general administration or the attorney general and so forth, can intervene if they so desire. I would like to know what possible reason there was to specifically exclude the governor, through his energy office where the expertise lies, from intervening and participating in UTC proceedings."

Senator Gould: "Senator Lysen, specifically those two are separate entities and should not, in my mind, even if it had been recommended that they do, that they should not interfere with each other's positions. The UTC is a regulatory body, it has specific design requirements, and the department of energy does not deal with those particular issues. They can certainly give information for the UTC, that is not precluded by this; but for them to interfere in decisions by the UTC, I think would be inappropriate."

Senator Lysen: "I guess I do not quite understand Senator Gould. The other agencies of state government are not specifically precluded and can intervene in these proceedings; and the one agency under the governor's office, or part of the governor's office that it does have the expertise to intervene and represent the consumer or the utility or whatever the case may be, is excluded here."
"I really feel that this is unfortunate that this language is in the bill, that that option should be left open to the governor and to the director of UTC and this advisory council he is going to have with voting and nonvoting members to make those decisions, because this is where the expertise is going to be and they should not be excluded."

Further debate ensued.

POINT OF ORDER

Senator Charnley: "I believe Senator Bluechel has already spoken on this issue once."

REPLY BY THE PRESIDENT

President Cherberg: "The President believes that your point is well taken, Senator."

POINT OF INQUIRY

Senator von Reichbauer: "Senator Bluechel, you have dealt with this bill. Can you give me some background on the makeup of the membership of . . . ."

POINT OF ORDER

Senator Bottiger: "Senator von Reichbauer is obviously stretching and violating the intent of the rule, that he ask specific question; but it's a rather general invitation to speak for three more minutes."

REMARKS BY SENATOR CLARKE

Senator Clarke: "Mr. President, I would have to agree with Senator Bottiger, but I would also have to make the observation at this time that the precedent for that type of procedure seems to have been pretty well set, and if it is understood that the same 3-minute rule would apply with respect to questions and responses, and also the proposition that the people should not speak more than the allotted time, I would go along. I think that it is quite true that the intent of the limitation rule is being routinely avoided simply through the proposition of purporting to ask a question.

"Another, as long as I am on my feet also, I would hate to be in the position of the journal clerk who is endeavoring to determine what portion of the question and answers should go in the journal because unfortunately in connection with asking a question, many times a speech is first given, and then a rather simple question is added at the end of the speech. And by simple, I mean simple."

There being no objection, on motion of Senator von Reichbauer, the Point of Inquiry directed to Senator Bluechel was withdrawn.
Further debate ensued.

PARLIAMENTARY INQUIRY

Senator Jones: "Mr. President, the inquiry is, was the Hurley amendment, she spoke twice on it, so that does open it and close debate on the amendment as well?"

REPLY BY THE PRESIDENT

President Cherberg: "The President does not think that your proposal fully covers that situation, Senator Jones."
Senator Jones: "I am sure it does."

Further debate ensued.
Senator Talmadge demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on adoption of the amendment by Senator Hurley.

Absent or not voting: Senator Bauer—1.

On motion of Senator Fuller, the rules were suspended, Engrossed Substitute Senate Bill No. 4190 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 4190, and the bill passed the Senate by the following vote: Yeas, 47; nays, 1; excused. 1.

ENGROSSED SUBSTITUTE SENATE BILL NO. 4190, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Clarke, Senate Concurrent Resolution No. 109 was ordered held for consideration on April 2, 1981.
SECOND READING

SENATE BILL NO. 3310, by Senators Gould, Williams and Fuller:
Confirming rules adopted as standards for energy use in buildings.
The bill was read the second time by sections.
Senator McDermott moved adoption of the following amendment:
On page 2, line 32, after the semicolon insert "shall prohibit the installation of
urea-formaldehyde based foam insulation in any residential structure within the
state whether such structure is new or otherwise;"

POINT OF INQUIRY

Senator Pullen: "Senator McDermott, I am just now getting the bill out and so
all I have is the last half of the sentence in front of me and I cannot see quite where
it fits into the bill. Your amendment inserts 'shall prohibit the installation of urea­
formaldehyde.' Can you tell me who shall prohibit that? I am trying to get the bill
out so I can see how it fits and I wanted to see . . . . "

Senator McDermott: "I'll talk while you open it. It is 140, is the book number
and it is on the second page if you go down to line 32, the paragraph reads 'The
state building code advisory council shall have authority to promulgate rules, pursu­
ant to chapter 34.04 RCW, for the purpose of adopting a statewide thermal effi­
ciency and lighting code to the extent necessary to comply with Title 10' and so
forth and then on line 32, it says 'Such code shall take into account regional climatic
conditions;' and then my amendment 'shall prohibit the installation of urea–formal­
dehyde base foam insulation in any residential structure within the state whether
such structure is new or otherwise. . . ."

Senator Pullen: "Okay, that clarifies it but it raises another question.
"Is it your intent, then, to allow the state building code advisory council to have
a certain amount of flexibility in how they shall constitute that prohibition? In other
words, since they will be promulgating rules and regulations, will those rules and
regulations perhaps allow a certain degree of flexibility, for example, depending on
how the urea–formaldehyde installation is installed or the method of preparation or
something like that. Part of the problem is the number of volatiles that are released
in this type of insulation; and the number of volatiles that you get is highly depen­
dent upon the process of installation; and is it your intent that the state building
code advisory council shall have some flexibility in determining conditions under
which the urea–formaldehyde insulation can or cannot be used, or is it your inten­
tion that there shall be an absolute prohibition of use under any and all
circumstances?"

Senator McDermott: "You asked me several questions, but let me try and give
you what my intention is. It is basically a health question that I am raising here and
it is my intention that the prohibition be to prevent any kind of health problems
from the use of urea–formaldehyde insulation.
"Clearly, I am not. Senator Guess earlier suggested I do not know everything
about everything, but I do know that there are significant health problems and it is
in that direction that I am aiming this amendment because many people have
become ill from living in homes where this insulation has been installed."

Senator Pullen: "But the state building code advisory council can, in their rules
and regulations. . . ."

President Cherberg: "Three minutes are up."

Senator Pullen: "... set the circumstances under which . . . ."

Senator McDermott: "It is not my intention to tie their hands, I think they
have to have flexibility, but I am concerned about the health and I think that any
rules they make should not create a health problem."

The motion by Senator McDermott carried and the amendment was adopted.
Senator Quigg moved the following amendments be considered and adopted simultaneously:

On page 1, line 19, delete "1976" and insert "((1976)) 1979"
On page 1, line 22, delete "1976" and insert "((1976)) 1979"
On page 1, line 26, delete "1976" and insert "((1976)) 1979"
On page 2, line 3, delete "1976" and insert "((1976)) 1979"
On page 2, line 3, after "edition," insert "with 1980 amendments"

MOTION

SECOND READING

SENATE BILL NO. 3310, by Senators Gould, Williams and Fuller:
Confirming rules adopted as standards for energy use in buildings.
The Senate resumed consideration of Senate Bill No. 3310 from earlier today. An amendment by Senator McDermott had been adopted. Senator Quigg had moved that amendments to pages 1 and 2 be considered and adopted simultaneously. The motion by Senator Quigg carried and the amendments were adopted. There being no objection, on motion of Senator Vognild an amendment to page 2, line 35 on the desk of the Secretary of the Senate was withdrawn. On motion of Senator Quigg, the following amendment to the title was adopted: On page 1, line 1 of the title, after "to" strike "energy-related"
On motion of Senator Gould, the rules were suspended, Engrossed Senate Bill No. 3310 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Lysen: "Senator Gould, this is so we can get a legislative record on this. When we passed the code four years ago, we did have some litigation problems that you referred to. Now this code when it passes, this will allow local cities, such as Seattle, if they want to pass a more stringent code in some areas, they will be able to do it. This is a minimum standard code, is it not, and local jurisdictions will have the authority to go beyond this if it is their decision to so do?"

Senator Gould: "Yes, that is true. The local governments may adopt more stringent codes if they desire to."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 3310, and the bill passed the Senate by the following vote: Yeas, 44; nays, 5.

Voting nay: Senators Pullen, Rasmussen, Sellar, Wilson, Zimmerman—5.

ENGROSSED SENATE BILL NO. 3310, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

POINT OF ORDER

Senator Bottiger: "Mr. President, according to the calendar that is published by rules known as the yellow sheet, the next bill for consideration should be SB 3920, local ordinances against discrimination."

President Cherberg: "Senator Bottiger's raised the point that the next bill to be considered should be Senate Bill 3920. Do you wish to explain your point, Senator?"

Senator Bottiger: "Well, Mr. President, the rules committee published a series of calendars, the yellow calendar, the ivory calendar, and there is a pink consent calendar. We were on the yellow calendar, we just finished Senate Bill 3310, the next order of business should have been 3920. I am aware that the rules committee has subsequently met and, over the protests of the Democratic members of that, purported to rearrange the calendar. But I would point the President's attention to rule 52 which first provides that the committee on rules may arrange the calendar. And then the second paragraph, 'The senate may change the order of consideration of bills on the second or third reading calendar.'

"Now once the bills were reported from the rules committee in the order contained in the yellow, the ivory and pink calendars, the bills are in the possession of the Senate and it is my point of order, Mr. President, that the rules committee lost its authority to rearrange that calendar."

MOTION

Senator Clarke: "Mr. President, I move that the Senate do now reconstitute the calendar, pursuant to the list that is now on the desk of each member, starting with Senate Bill 3871 and continuing on down that list as is on the desk of each Senator."
Debate ensued.
Senator Bottiger demanded a roll call and the demand was sustained.
Further debate ensued.
The President declared the question before the Senate to be the motion by Senator Clarke to reconstitute the Senate Calendar as shown on the list distributed to each member's desk.

ROLL CALL

The Secretary called the roll and the motion by Senator Clarke carried by the following vote: Yeas, 25; nays, 24.
Voting yea: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallaghan, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer, Zimmerman—25.

SECOND READING

SENATE BILL NO. 3871, by Senators Benitz, Patterson and Guess:
Facilitating construction of a toll bridge at north Richland.

REPORT OF STANDING COMMITTEE

SENATE BILL NO. 3871, facilitating construction of a toll bridge at north Richland (reported by Committee on Transportation):
MAJORITY recommendation: Do pass with the following amendments:
On page 1, line 19, after "and" strike "shall" and insert "may"
On page 1, line 21, after "and strike "may" and insert "shall"
Signed by: Senators von Reichbauer, Chairman; Patterson, Vice Chairman; Sellar, Vice Chairman; Benitz, Charnley, Conner, Guess, Hansen, Metcalf, Peterson, Talley, Vognild.

On motion of Senator Charnley, the question was divided.
On motion of Senator Benitz, the committee amendment to page 1, line 19 was adopted.
Senator Benitz moved adoption of the committee amendment to page 1, line 21.

POINT OF INQUIRY

Senator Bottiger: "Senator Benitz, I know we have had toll bridges before, but this, as I read this now, we are also applying the toll bridges to how many miles of road?"
Senator Benitz: "It is not fully determined but it is much less than the former Senator Mike McCormack from this body included in the Vernita toll bridge, it is only a small fraction of that amount."
Senator Bottiger: "So there is a precedent there, we have before financed roads with toll bridges?"
Senator Benitz: "The precedent was set by Senator McCormack when he was in this body."
Debate ensued.
Senator Fleming demanded a roll call and the demand was sustained.

REQUEST TO BE EXCUSED

Senator Moore: "I would like to be excused from the Senate. I stand to benefit greatly from the improvement which will be caused by that bridge and I would just feel better if I were allowed to be excused.

"As you know, I have never requested this before and I have a pretty fair voting record, maybe not by everybody's standards but at least I vote. And with that I ask your permission to be excused."

The President declared the question before the Senate to be the roll call on the committee amendment to page 1, line 21.

Excused: Senator Moore—1.

MOTION

Debate ensued.

The motion by Senator Lysen failed and the amendment was not adopted on a rising vote.
There being no objection, on motion of Senator Lysen, the amendment to page 1, line 9 on the desk of the Secretary of the Senate, was withdrawn.

Senator Lysen moved adoption of the following amendment:
On page 1, line 9, after "plants" strike everything down through the period on line 11 and insert "has not occurred."

The motion by Senator Lysen failed and the amendment was not adopted on a rising vote.

Senator Williams moved adoption of the following amendment:
On page 1, line 19, after "having" strike "eighty" and insert "one hundred"

Debate ensued.

**POINT OF INQUIRY**

Senator Lysen: "Senator Quigg, under your bill, if this amendment were not to pass, would it be possible to sell the plants and then the ratepayers, the public utilities, the ownership and obligations to the bonds, they would still hold the obligations on the bonds, or a portion of those bond obligations, even though they had sold the plants?"

Senator Quigg: "Senator, if those plants were sold, they would be sold for a consideration, hopeful, and that consideration, I imagine, would be applied to retire debt or to complete other plants. You see, I think that is the problem we have here; we have a lot of assets but we are short of cash; and what this provides is a way to turn some of those assets into cash to finish what plants we have, rather than have them go back to an already saturated bond market. So I imagine the management would need that latitude to pay down those bonds and to put that back into complete the plant."

Senator Lysen: "That would just be in terms of the cash flow, how they handle that, I am not concerned about that. What I am actually concerned about is a situation where we could end up with the public utilities having the debt or the bond and not having the plants.

"We could have the worst of both worlds I guess; some people would interpret it that way. Would that be possible under your bill? I guess what I am concerned about if we are going to sell the plants, they should take with them the obligation to pay off the bonds. That is what I am concerned about, and how would you explain that portion?"

Senator Quigg: "That would be a matter for the board participants to decide, Senator, and I imagine that would be. . . They would be most concerned about the disposition of that debt and that is why I think it is important that that 80% . . . be included and that the language be kept as it is."

Senators McCaslin, Fuller and Gallaghan demanded the previous question.

Senator Bottiger demanded a roll call.

The President declared the question before the Senate to be the roll call on the demand for the previous question.

**ROLL CALL**

The Secretary called the roll and the demand for the previous question was sustained by the following vote: Yeas, 25; nays, 24.

PARLIAMENTARY INQUIRY

Senator Williams: "Is the maker of the motion going to be allowed to close debate?"

the bonds for those plants shall be cancelled, on the desk of the Secretary of the Senate was withdrawn.

Senator Williams moved adoption of the following amendment by Senators Williams, McDermott and Hurley:

On page 1, after line 22, insert the following:

"Sec. 3. Section 43.52.300, chapter 8, Laws of 1965 as last amended by section 4, chapter 184, Laws of 1977 ex. sess. and RCW 43.52.300 are each amended to read as follows:

An operating agency formed under RCW 43.52.360 shall have authority:

(1) To generate, produce, transmit, deliver, exchange, purchase or sell electric energy and to enter into contracts for any or all such purposes.

(2) To construct, condemn, purchase, lease, acquire, add to, extend, maintain, improve, operate, develop and regulate plants, works and facilities for the generation and/or transmission of electric energy, either within or without the state of Washington, and to take, condemn, purchase, lease and acquire any real or personal, public or private property, franchise and property rights, including but not limited to state, county and school lands and properties, for any of the purposes herein set forth and for any facilities or works necessary or convenient for use in the construction, maintenance or operation of any such works, plants and facilities; provided that an operating agency shall not be authorized to acquire by condemnation any plants, works and facilities owned and operated by any city or district, or by a privately owned public utility; provided further that legislative approval shall be required to qualify an operating agency, prior to undertaking any action prerequisite to the construction of a thermal power plant with a capacity in excess of seven hundred fifty megawatts. Such approval shall be required for each such project and shall qualify an operating agency to proceed with a project of defined scope, but shall make no representation with respect to the financing, siting, or other facts or conditions pertaining to the project itself. An operating agency shall be authorized to contract for and to acquire by lease or purchase from the United States or any of its agencies, any plants, works or facilities for the generation and transmission of electricity and any real or personal property necessary or convenient for use in connection therewith.

(3) To negotiate and enter into contracts with the United States or any of its agencies, with any state or its agencies, with Canada or its agencies or with any district or city of this state, for the lease, purchase, construction, extension, betterment, acquisition, operation and maintenance of all or any part of any electric generating and transmission plants and reservoirs, works and facilities or rights necessary thereto, either within or without the state of Washington, and for the marketing of the energy produced therefrom. Such negotiations or contracts shall be carried on and concluded with due regard to the position and laws of the United States in respect to international agreements.

(4) To negotiate and enter into contracts for the purchase, sale, exchange, transmission or use of electric energy or falling water with any person, firm or corporation, including political subdivisions and agencies of any state of Canada, or of the United States, at fair and nondiscriminating rates.

(5) To apply to the appropriate agencies of the state of Washington, the United States or any thereof, and to Canada and/or to any other proper agency for such permits, licenses or approvals as may be necessary, and to construct, maintain and operate works, plants and facilities in accordance with such licenses or permits, and to obtain, hold and use such licenses and permits in the same manner as any other person or operating unit.

(6) To establish rates for electric energy sold or transmitted by the operating agency. When any revenue bonds or warrants are outstanding the operating agency shall have the power and shall be required to establish and maintain and collect
rates or charges for electric energy, falling water and other services sold, furnished or supplied by the operating agency which shall be fair and nondiscriminatory and adequate to provide revenues sufficient for the payment of the principal and interest on such bonds or warrants and all payments which the operating agency is obligated to set aside in any special fund or funds created for such purposes, and for the proper operation and maintenance of the public utility owned by the operating agency and all necessary repairs, replacements and renewals thereof.

(7) To act as agent for the purchase and sale at wholesale of electricity for any city or district whenever requested so to do by such city or district.

(8) To contract for and to construct, operate and maintain fishways, fish protective devices and facilities and hatcheries as necessary to preserve or compensate for projects operated by the operating agency.

(9) To construct, operate and maintain channels, locks, canals and other navigational, reclamation, flood control and fisheries facilities as may be necessary or incidental to the construction of any electric generating project, and to enter into agreements and contracts with any person, firm or corporation, including political subdivisions of any state, of Canada or the United States for such construction, operation and maintenance, and for the distribution and payment of the costs thereof.

(10) To employ legal, engineering and other professional services and fix the compensation of a managing director and such other employees as the operating agency may deem necessary to carry on its business, and to delegate to such manager or other employees such authority as the operating agency shall determine. Such manager and employees shall be appointed for an indefinite time and be removable at the will of the operating agency.

(11) To study, analyze and make reports concerning the development, utilization and integration of electric generating facilities and requirements within the state and without the state in that region which affects the electric resources of the state.

(12) To acquire any land bearing coal, uranium, geothermal, or other energy resources, within or without the state, or any rights therein, for the purpose of assuring a long-term, adequate supply of coal, uranium, geothermal, or other energy resources to supply its needs, both actual and prospective, for the generation of power and may make such contracts with respect to the extraction, sale, or disposal of such energy resources that it deems proper."

**POINT OF ORDER**

Senator Quigg: "Mr. President, I would raise the point of scope and object on this amendment.

"Mr. President, this bill is a bill relating to the sale of plants, not the construction or the siting or the authorization for new ones and the amendment speaks to the matter of legislative approval to new construction and it therefore would expand the bill beyond the scope and object."

Debate ensued.

Senator Fleming moved that Substitute Senate Bill No. 4315 be held for further consideration on April 2, 1981.

There being no objection, the Point of Order raised by Senator Quigg was withdrawn.
Senator Clarke moved the amendment by Senators Williams, McDermott and Hurley be laid upon the table.

Senator Bottiger demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the motion by Senator Clarke that the amendment by Senators Williams, McDermott and Hurley be laid upon the table.

ROLL CALL

The Secretary called the roll and the amendment was laid upon the table by the following vote: Yeas, 25; nays, 24.

Senator Charnley moved adoption of the following amendment by Senators Charnley and Williams:

On page 1, after line 20, insert the following:

"Sec. 3. Section 43.52.3411, chapter 8, Laws of 1965 and RCW 43.52.3411 are each amended to read as follows:

For the purposes provided for in this chapter, an operating agency shall have power to issue revenue bonds or warrants payable from the revenues of the utility properties operated by it. Whenever the board of a joint operating agency shall deem it advisable to issue bonds or warrants to construct or acquire any public utility or any works, plants or facilities or any additions or betterments thereto or extensions thereof it shall provide therefor by resolution, which shall specify and adopt the system or plan proposed and declare the estimated cost thereof as near as may be. Such cost may include funds for working capital, for payment of expenses incurred in the acquisition or construction of the utility and for the repayment of advances made to the operating agency by any public utility district or city. Except as otherwise provided in RCW 43.52.343, all the provisions of law as now or hereafter in effect relating to revenue bonds or warrants of public utility districts shall apply to revenue bonds or warrants issued by the joint operating agency including, without limitation, provisions relating to: The creation of special funds and the pledging of revenues therefor; the time and place of payment of such bonds or warrants and the interest rate or rates thereof; the covenants that may be contained therein and the effect thereof; the execution, issuance, sale, funding, or refunding, redemption and registration of such bonds or warrants; provided, however, that at least once each year a public rate hearing shall be held by each municipal corporation, cooperative and mutual in such project, to receive testimony and advise ratepayers and utility management of the effect of the project upon the electric rates of the utility and upon the ability of the utility to finance other projects; and the status thereof as negotiable instruments, as legal securities for deposits of public moneys and as legal investments for trustees and other fiduciaries and for savings and loan associations, banks and insurance companies doing business in this state.

NEW SECTION. Sec. 4. There is added to chapter 43.52 RCW a new section to read as follows:

Each municipal corporation, cooperative and mutual participating with a joint operating agency in a project or projects subject to certification under chapter 80.50
is required to inform its ratepayers as to the rate impacts of its participation in any such project or projects. At least semiannually, any such operating agency shall prepare an analysis of the contribution of the projects' financing to projected rate increases required by each participating public utility. Each participating municipal corporation, cooperative and mutual shall include a notice of that analysis in a regular billing statement to its customers at least semiannually; provided, however, that for any public utility which bills less than semiannually, such notice may be mailed under separate cover. The form of such notice shall be substantially as follows:

NOTICE OF PROJECTED RATE INCREASE

(Name of municipal corporation, cooperative or mutual), an energy monopoly established under chapter (RCW citation applicable to utility publishing notice) RCW, is participating in (name of operating agency) project(s) (name of projects).

(Name of municipal corporation, cooperative or mutual)’s share of the obligation is $(dollar amount of share). This obligation will be repaid through rates charged for electric power.

Your electric rates are expected to be affected as follows:

*These projected increases are in real dollars, and do not account for inflation.

NEW SECTION. Sec. 5. If any provision of this amendatory act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."
MOTION

Senator Clarke moved the amendment by Senators Charnley and Williams be laid upon the table.

Senator Charnley demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the motion by Senator Clarke that the amendment by Senators Charnley and Williams be laid upon the table.

ROLL CALL

The Secretary called the roll and the amendment was laid upon the table by the following vote: Yeas, 25; nays, 24.

Voting yea: Senators Benitz; Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer, Zimmerman—25.

PERSONAL PRIVILEGE

Senator Lysen: "I cannot believe what is happening here. I think . . ."

President Cherberg: "Senator Clarke."

Senator Clarke: "Just that Senator Lysen bear in mind the fact that personal privilege cannot relate to any matter presently before the body, but must relate to something that is peculiarly applicable to the individual Senator speaking on the point."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Clarke’s remarks are well taken, Senator. It will have to be something strictly personal to you."

PERSONAL PRIVILEGE

Senator Lysen: "Well, I guess I would think that it is. I am the member of this body that precipitated and caused the WPPSS inquiry to take place. And the things we have been voting here have bipartisan support and I know that there are members on the other side of the aisle who supported both these amendments that have just been laid on the table, and we are getting into a partisan row here and it is beneath the dignity of this body and members feel trapped in their each and respective party."

REMARKS BY THE PRESIDENT

President Cherberg: "Senator Lysen, the President believes that you are not talking on a point of personal privilege. You will have to confine your remarks to something personal strictly to you."

Senator Lysen: "Well, the rates, my rates, my constituents' rates are going to go up."

President Cherberg: "You cannot discuss the pending question, Senator."

Senator Lysen: "They are not pending . . ."

President Cherberg: "There is, the bill is pending."

Senator Lysen: "Thank you."
PARLIAMENTARY INQUIRY

Senator Clarke: "... a matter of parliamentary inquiry. Pursuant to rule 69, when all amendments have been concluded upon a bill and no motion is made to advance, the last paragraph states 'When no further amendments shall be offered, the president shall declare the bill has passed its second reading, and shall be referred to the committee on rules for third reading.'

"So in the absence of a motion, the bill automatically advances to third reading and is referred to the committee on rules for the purpose of placing on the third reading calendar."

REPLY BY THE PRESIDENT

President Cherberg: "Your remarks are true, Senator; passed to third reading which means it is referred to the rules committee."

Substitute Senate Bill No. 4315 was passed to the Committee on Rules for third reading.

SECOND READING

SENATE BILL NO. 4360, by Senator Hayner:
Relating to nonhigh school districts.

MOTION

On motion of Senator Kiskadden, Substitute Senate Bill No. 4360 was substituted for Senate Bill No. 4360, and the substitute bill was placed on second reading and read the second time in full.

POINT OF INQUIRY

Senator Bottiger: "Mr. President, someone has passed out on our desk, a letter signed by a Jerry White from a private firm, there is no name of any member of the Senate on it; it is a clear violation, I do not know who authorized it; it would never have occurred while this side of the aisle was in control, and I would request that the Senate pages be instructed to pick it up and destroy it."

President Cherberg: "If there is no objection, the pages will pick up the unauthorized letter. Senator Haley."

REMARKS BY SENATOR HALEY

Senator Haley: "Mr. President, this piece of literature should not have been passed out without reference to myself on it, and I am apologizing for this oversight."

President Cherberg: "Under those circumstances, the pages will not pick up the letter."

POINT OF INQUIRY

Senator Bottiger: "Senator Hayner, there is a rule that prohibits this; otherwise we can be inundated by any lobbyist just bringing down more and more stuff on our desk. The rule says it must bear the signature of the member of the Senate in order to be authorized to be passed out."

Senator Hayner: "You are absolutely right, but you have never made a mistake in your life, Senator Bottiger?"

Senator Bottiger: "Oh, lots of them, and I have had them called to my attention."
SECOND READING

SENATE BILL NO. 4201, by Senator Clarke:
Regulating the valuation of insurance and nonforfeiture of life insurance.
The bill was read the second time by sections.
On motion of Senator Bottiger, the rules were suspended, Senate Bill No. 4201
was advanced to third reading, the second reading considered the third, and the bill
was placed on final passage.
Debate ensued.

POINT OF INQUIRY

Senator Ridder: "Senator Clarke, I am not too familiar with this but I notice
that it says (sic) "Interest rate assumptions for policies issued prior to the effective
date of the act, remain in effect." That means that deposits previously made on life
policies will stay at a low rate, is that right? And then 'policies issued after the
effective date of the act will have assumptions that they are earning at a current rate
of interest,' is that correct?"

Senator Clarke: "Well, my understanding is that the premiums for the policies
presently in effect, were based upon the assumption that the investment income
would receive interest at the old rate. Those rates having been set in the policies are,
in effect, contractually fixed. What this does is to provide that policies that are
issued subsequent to the effective date of this act, may take into contemplation the
fact that the interest rates are substantially higher and therefore, based upon the
fact that the insurance companies will be receiving more money from investment
income, they can then offer the policies at a lower rate to the policyholder.
"But . . . would relate to policies that are issued in the future."

Senator Ridder: "Assuming that I have a paid-up life policy, that I assume was
part of the investment on which that income is accruing, will I receive any increased
benefit, if I am receiving, say, a 5% annual rate, will that be increased in any way?"

Senator Clarke: "It is my impression that this would not apply to policies
presently in existence. Now I confess that I am not technically conversant with all
the provisions of this bill, but the main thrust of the bill is to permit the companies,
in issuing new policies, to issue them on the basis of the fact that the interest
earnings will be substantially greater than the tables presently in effect. And it is the
tables presently in effect which govern the amount of surplus and capital that must
relate to the amount of, number of policies written.
"And in response to Senator Wojahn's apprehension, this is a national
insurance commissioners' approved model-type act and I can assure her that
adequate provisions are in the act to give the commissioner supervisory powers to see
to it that there is no invasion of the solvency. If that were not the case, it certainly
would never have been made a part of the national association of insurance
commissioners' recommended bill."

Senator Ridder: "Thank you, if I might, on behalf of Senator Wojahn, ask, will
that budget presume that there will be additional staff to the insurance
commissioner's office to deal with additional filings?"

Senator Clarke: "It is my understanding that the insurance commissioner is
requesting an additional amount and I think, with all due respect, that since these
filings and this bill will be, presumably, adopted in most of the states throughout the
country, that the state of Washington will not be necessary for this commissioner to
make individual evaluations in each instance, because the same evaluations will be
. . . by the commissioners of other states.
"So while there will be some additional requirements, in reality, I think they will be rather minimal because the new filings, when one company makes them, it will be similar to the same filings that substantially all of the companies will be making.

"So while undoubtedly there will be a substantial additional number of filings, those filings, I think, will be sufficiently similar so that having evaluated the first filing, for instance, the commissioner, on subsequent filings will merely have to look and see in what way, if any, they differ from a filing that he has already approved.

"So I think, it is my own personal opinion, that the additional workload will be rather minimal."

POINT OF INQUIRY

Senator Rasmussen: "Senator Clarke, you are right, this is a long bill and it is hard to digest in a few minutes; but could you explain the variable rate policy; I understand term insurance and you go for a ten-year term and for the next ten-year term or whatever, you go up to higher rates. What are the variable rate policies that they are speaking of here now?"

Senator Clarke: "Senator, I am not technically conversant in detail, but my understanding is that a variable rate means that the premium may be increased or decreased, dependent upon the amount of investment income that the company may make from its investments; in other words, if, at the present time, there is a very high interest rate on the premium funds that are being put in and invested, then the company may recognize that by a lower rate, but in the event that the investment income goes down, the rate may then be varied in accordance with the actual experience of the investment income.

"Now that is my impression and I may be wrong, but that is my understanding of what a variable rate is."

Senator Rasmussen: "Thank you, Senator Clarke. Well, Mr. President and members of the Senate, I kind of have reservations; I can recall in 1974 there were just a lot of the insurance companies had to dump a lot of their stock because they just did not have any reserves left, cash reserves.

"And in that case, they would immediately up the rate on the policy, Senator Clarke, as I understand your explanation. And this next downturn that we are going to have, could well be the same thing, that they would up the rates on a life insurance policy beyond the ability of a person to carry it. And they could do that under this variable rate, as I understand it."

Senator Clarke: "Further answering your inquiry, Senator, I think what you have said is substantially correct as to the variable rate policies. However, this is permissive only, so that if you want to buy a variable rate policy and in effect, gamble with the company upon how much it makes upon the premiums that you pay and they have invested, you can buy such a policy. But you can also buy a fixed rate policy, a fixed rate premium which does not vary; this is merely an additional permissive, competitive type of policy which may be offered, and I think it is really in the benefit of the consumer to have that choice."

POINT OF INQUIRY

Senator Woody: "Senator Clarke, on page 36 it says "Second, the act speaks to new concept of life insurance plans' and it speaks then to the variable rate policies. Now if your premiums go up and down, are you saying then that the cash-out or the total end value of your policy goes up and down, depending on how much you have put in?"
Senator Clarke: "Are you talking about the cash surrender value of your policy? I cannot answer that question with any knowledgeability, Senator, I am sorry."

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 4201, and the bill passed the Senate by the following vote: Yeas, 34; nays, 15.

Voting yea: Senators Benitz, Bluechel, Bottiger, Clarke, Conner, Craswell, Deccio, Fuller, Gallagher, Guess, Haley, Hansen, Hayner, Hemstad, Hughes, Hurley, Jones, Kiskaddon, Lee, Lysen, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, Shinpoch, Talley, Talmadge, Vognild, von Reichbauer, Zimmerman—34.

SENATE BILL NO. 4201, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

NOTICE OF RECONSIDERATION

Having voted on the prevailing side, Senator Shinpoch served notice that he would, on the next working day, move for reconsideration of the vote by which Senate Bill No. 4201 passed the Senate.

SECOND READING

SENATE BILL NO. 3602, by Senators Vognild and Newhouse:
Establishing industrial insurance benefit payment requirements for self—insurers.

MOTIONS

On motion of Senator Quigg, Substitute Senate Bill No. 3602 was substituted for Senate Bill No. 3602, and the substitute bill was placed on second reading and read the second time in full.

Senator McDermott moved adoption of the following amendment by Senators McDermott and Talmadge:

On page 1, line 28, after "the", strike "insurance commissioner" and insert "department"

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Newhouse, it is my understanding that when there is a death covered by industrial insurance, the department sets 'x' number of dollars aside, based on the actuarial life presumption of the survivors. Where does he get that advice from, the insurance commissioner, or does he have his own actuary; how do they determine that?"

Senator Newhouse: "Presently it is developed within the labor and industries office, and they are using obsolete factor of 5½% interest. I would like to point out that the department agreed with the development of this bill and supported us on it, the department of labor and industries."

The motion by Senator McDermott failed and the amendment was not adopted.
There being no objection, on motion of Senator McDermott, three amendments to page 2, line 3 and line 7 on the desk of the Secretary of the Senate were withdrawn.

Senator Talmadge moved adoption of the following amendment:
On page 2, following line 30, insert the following:
"NEW SECTION. Sec. 2. There is added to chapter 51.14 RCW a new section to read as follows: All certifications for self-insurance shall require the self-insurer to self-administer workers' compensation. No service agencies shall be authorized."

Debate ensued.

Senator Ridder demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Talmadge.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 19; nays, 30.

Substitute Senate Bill No. 3602 was passed to the Committee on Rules for third reading.

SECOND READING

SENATE BILL NO. 4129, by Senator Haley:
Establishing commercial zones and terminal areas for trucks.

REPORT OF STANDING COMMITTEE

March 26, 1981.

SENATE BILL NO. 4129, establishing commercial zones and terminal areas for trucks (reported by Committee on Transportation):

MAJORITY recommendation: Do pass with the following amendment:
On page 3, line 32, after "authority" insert ", except as exempted by RCW 81.80.040"

Signed by: Senators von Reichbauer, Chairman; Benitz, Charnley, Gallagher, Guess, Hansen, Metcalf, Vognild.

The bill was read the second time by sections.

On motion of Senator Haley, the committee amendment was adopted.

Senator Jones moved adoption of the following amendment by Senators Jones and Haley:
On page 3, line 24, after "zone" insert "at rates prescribed by the commission"

POINT OF INQUIRY

Senator Bottiger: "Senator Jones, the existing law says that the trucker must have an order from the commission authorizing services between points and it is, in a sense, a kind of a monopolistic right to do business between those points. There can be three or four trucking industries that have that competitive right and the bill, as originally written, deletes that and also deletes the price element."
"Now as we are, if we adopt your amendment, we are going to have anybody service the areas, but they have to charge the same rate. Is that your understanding of your amendment as it compares to the rest of the bill?"

Senator Haley: "Perhaps I could answer Senator Bottiger's question... this portion of the bill would have taken away only the rate-setting ability of the UTC, that is all, nothing more. But Senator Jones' amendment then deletes that portion of the bill so that the UTC will continue their ratesetting ability and they will also continue as before, their supervision and control of those truckers allowed to operate within a commercial zone. Does that answer your question?"

Senator Bottiger: "If that is your intent, Senator, then may I speak against the amendment, Mr. President."

Debate ensued.

POINT OF INQUIRY

Senator Ridder: "Senator Haley, I am not familiar with the trucking regulations but I have been asked by someone who lives up in Skagit county who hauls hay, say, down to Senator Bauer's district, Vancouver. That is a paying load but he is not allowed to haul back. Because I am not familiar with the total of the bill, I am wondering if this amendment changes his status in any way?"

Senator Haley: "No, it would not, it would not change it at all."

Senator Ridder: "He will still have to deadhead back?"

Senator Haley: "He will still have to be totally under the control of the UTC. This affects only what we call 'commercials zones' and 'terminal areas.' It does not affect anything else."

Senator Ridder: "Vancouver or that area, or what if he hauls, say, to Seattle area over to Bellevue for those horses of Senator Jones'."

Senator Haley: "This bill, if Senator Jones' amendment is accepted, does nothing except make the commercial zones, the commercial zones of the state identical to the commercial zones that the Feds have laid down through the ICC. And the commercial zones of the Feds are much larger than the state zones; but anyone operating between one commercial zone and another one like the case you have related, is still totally under the control of the UTC in rates and so forth, nothing has changed for them."

Senator Ridder: "Okay, the amendment does not do that; I will ask the same question again on the bill itself, unless you can tell me that now."

Senator Haley: "I will give you the same answer... ."

The motion by Senator Jones failed and the amendment was not adopted.

There being no objection, on motion of Senator Jones, an amendment to page 3, line 35 on the desk of the Secretary of the Senate was withdrawn.

Senator Fleming moved adoption of the following amendment:

On page 4, following line 32, add a section as follows:

"NEW SECTION. Sec. 6. This act shall take effect on July 1, 1983."

Debate ensued.

POINT OF INQUIRY

Senator Ridder: "Senator Fleming, you work for the telephone company. Can you tell me about deregulation in that line?"

Senator Fleming: "Well, the telephone company is a regulated industry at this point in time, but the Congress has indicated that they will have to deregulate, and just like anything else, once that deregulation takes place, your telephone bills will probably quadruple over the next two or three years if that takes place, and they will be blaming, yelling at the telephone company, and it is not the telephone company that did that, it was the Congress that suggested that happen."
"And that will happen there and it has happened in almost every area where there has been deregulation, the consumer has had to pay more. They have always charged the top dollar."

POINT OF INQUIRY

Senator Ridder: "Senator Jones, have you had occasion to book any airline flights in which he has to determine the time at which he has to go. I would suggest to you that the specials are very nice but they happen to be special for the airlines, and if you can make it between April first and May fifteenth, you may be lucky. If you have to go on the sixteenth, you can add another hundred dollars or so."

Senator Jones: "Was that a question? I have been to St. Croix and that was in July at a rate that was well under four hundred dollars each, and that was in July, and a heavy traffic period. So I think it works for the benefit of all. Deregulation, and I might even respond to Senator Fleming's remarks, you want to get into the competitive nature of the telephone industry, we are going to be divided into a competitive and non-competitive arena, and I will guarantee you that in the long run, the consumer will benefit."

Senator Ridder: "If I may just finish my comments or colloquy with Senator Jones; Senator, you may have gone to St. Croix in July for just under four hundred; I went in May and it was three twenty-nine."

Further debate ensued.

Senator Deccio demanded the previous question. The demand was not sustained.

The motion by Senator Fleming failed and the amendment was not adopted.

On motion of Senator Bottiger, the rules were suspended, Senate Bill No. 4129 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Ridder: "Mr. President, I am not sure which of these transportation authorities I should check with. Senator Hemstad was so emphatic maybe I will start with him, if you would yield, Senator? No? I want information, so Senator Peterson, would you mind?"

"I spoke earlier about an example of someone in, say, Skagit county, who is hauling hay somewhere south, say to Senator Jones' coral. He is required to deadhead back to Skagit county. Will this bill do anything for that?"

Senator Peterson: "I think Senator Haley answered your question. I do not think it affects it either way, Senator Ridder; it is a separate matter under ITC and WCT ... this bill to my knowledge does not have any effect on that particular . . ."

Senator Ridder: "This kind of deregulation would not affect that?"

Senator Peterson: "No."

Senator Ridder: "Okay. I heard Senator Haley's answer but I wanted to remove it from the context of the amendment and so asked."

Further debate ensued.

POINT OF INQUIRY

Senator Pullen: "Senator Clarke, lines 26 and 27 of the bill say 'Such request or concurrence shall be communicated in writing to the attorney general.' As I understand present law, the attorney general is supposed to keep similar records for a minimum period of seven years. Is that correct?"

Senator Clarke: It is my recollection that he so testified at the hearing before the judiciary committee."

As used in this chapter, "state aquatic lands and harbor areas" means:

(1) First class tidelands, as defined in RCW 79.01.020;
(2) Second class tidelands, as defined in RCW 79.01.024;
(3) First class shorelands, as defined in RCW 79.01.028;
(4) Second class shorelands, as defined in RCW 79.01.032;
(5) Beds of navigable waters, as described in chapter 79.16 RCW;
(6) Publicly platted places, as described in RCW 79.01.432, including waterways;
(7) Vacated oyster reserves, as described in chapter 79.20 RCW; and
(8) Harbor areas, as defined in RCW 79.01.012, and freshwater harbor areas.

Sec. 4. Section 130, chapter 255, Laws of 1927 as last amended by section 1, chapter 97, Laws of 1979 ex. sess. and RCW 79.01.520 are each amended to read as follows:

"(Prior to the issuance of a lease, renewal lease, or re-lease of harbor area on tidal waters under the preceding sections of this chapter, and every five years thereafter during the life of all leases written after August 11, 1969, and no less frequently than every five years for all prior leases, the department of natural resources shall determine the true and fair value in money of such harbor area (exclusive of the improvements thereon), which value shall be the value at which the property
would be taken in payment of a just debt from a solvent debtor. All harbor area
leases will stipulate the percentage rate of said values that will be paid as the annual
rent during the period until the next reappraisal of the value of the harbor area as
established herein. PROVIDED, That the) (1) State aquatic lands and harbor
areas shall be leased at fair market rental except as provided in subsection (5) of
this section. Fair market rental shall be based upon the fair market value using
accepted appraisal methods developed by the department and promulgated as rules.
In the case of harbor areas, the fair market value shall be determined exclusive of the
improvements thereon. After arriving at fair market value, the fair market rental
shall be determined by:

(a) Comparing the market rental rates for comparable private aquatic proper­
ties in the same local vicinity as the subject state aquatic property, except that, if
comparable private aquatic properties are not available, comparable public aquatic
properties may be used in the same local vicinity. If the nature or use of the prop­
erty is unique in Washington, not having comparable private or public aquatic prop­
ties in the same local vicinity as the subject state aquatic property, a comparison
may be made with comparable private or public aquatic properties at other locations
in Washington or at the regional or national level. The department shall designate
such nature or uses in rules.

(b) If comparisons are not available under subsection (1)(a) of this section, fair
market rental shall be derived by multiplying the fair market value by the use rate
percentage, as approved by the commissioner of public lands.

(2) The use rate percentage shall be based upon:

(a) Market rental rates being applied to comparable private aquatic properties
in the same local vicinity as the subject state aquatic property, except that, if com­
parable private aquatic properties are not available, comparable public properties
may be used in the same local vicinity.

(b) If comparisons are not available under subsection (2)(a) of this section, the
use rate percentage shall be determined by using the average rate charged by lend­
ing institutions in the area for long-term, or a term equivalent to the length of the
lease, mortgages for comparable properties.

(3) Unless specified otherwise in leases in existence as of the effective date of
this 1981 act, all lease rents shall be adjusted every year of the lease term based on
the implicit price deflator for the gross national product, or its equivalent designa­
tion if there is a change in the name of the implicit price deflator for the gross
national product, for the twelve months in that year of the lease prior to the month
in which the lease was entered into. Leased property shall be reappraised at least
every four years to arrive at a new fair market value.

(4) If any adjusted rent exceeds an increase of fifty percent over the previous
rent, the annual rent may be stair-stepped, at the discretion of the lessee, at the rate of
thirty percent of the rental increase for the first year, forty-five percent of the
rental increase for the second year, sixty-seven percent of the rental increase for the
third year, and one hundred percent of the rental increase for the fourth year.

(5) Harbor areas and any improvements thereon used for the convenience of
navigation and commerce and immediately adjacent to and abutting any property
owned by any port district, or any property leased, controlled, or managed under an
agreement with another governmental entity by a port district located within a
county containing a population of less than two hundred ten thousand persons, shall
be leased to the port district at no rent, but a reasonable administrative fee shall be
charged to reimburse the department for administering the lease without appraising
the property and determining fair market value. Harbor areas shall be leased at fair
market rental to all other lessees.

(6) Notice of the department's determination of fair market rental value shall
be sent to the applicant or lessee by certified mail. Any applicant((;) or lessee of
state aquatic lands or harbor areas, being dissatisfied with the (valuation) rental as fixed by the department of natural resources shall have the right of appeal from the findings of the department under chapter 84.48 RCW to (a valuation) the county board ((to be composed of the county commissioners, the county treasurer and the county assessor)) of equalization of the county in which the state aquatic lands or harbor area is located. To perfect such appeal, notice thereof shall be in writing and a copy must, within thirty days after receipt of notice of the department of natural resources' valuation, be (personally) served by certified mail upon each member of the county board of (county commissioners and upon the county treasurer, the county assessor)) equalization and the administrator of the department of natural resources((or such copy may be left at the residence of such officer with some person of suitable age and discretion. Service of the notice may be made by any person qualified to serve a summons in a civil action. Within five days following the service of said notice on the chairman of the board of county commissioners, said)). The chairman of the county board of equalization shall fix a time and place for a meeting of ((said valuation)) the board and shall notify each of the ((officers)) members of said board thereof((which said time shall be not less than five nor more than ten days from the date of giving said notice)); like notice of the time and place fixed for said hearing shall also be given the applicant, or lessee, and the department of natural resources. ((Except as otherwise provided in chapter 79.01 RCW, such hearing will be conducted in compliance with chapter 34.04 RCW. At the time and place fixed for said meeting, the said board shall meet and determine, by such means as it may select, the valuation of the harbor area in question. A majority of said officers shall constitute a quorum for the purpose of determining the question, and the valuation shall be determined by a majority vote of the members of said board. If a majority of the members of said board participate in said meeting no question shall be made as to any irregularity of the giving of the notices required. The meeting of the board and its deliberations and voting shall be open to the public and any interested parties.)) Any ruling of the county board of equalization may be appealed by the lease applicant, lessee, or the department to the state board of tax appeals pursuant to chapter 82.03 RCW. The decision of the board of ((the question of valuation shall be final and conclusive on all parties)) tax appeals may be appealed to the superior court and the state supreme court.

(7) Any applicant for a lease or lessee of state aquatic lands or harbor areas may appeal any terms and conditions of the lease, including, but not exclusively, the lease rent, to the department of natural resources pursuant to chapter 34.04 RCW. The department shall notify in writing any applicant for a lease or lessee that the applicant or lessee may appeal the terms and conditions of the lease under RCW 79.01.500 and subsection (6) of this section.

(8) Notwithstanding any appeal of the valuation, the lessee shall pay the rental as proposed by the department on the due dates required if no decision of the board has been made. If additional payments or refunds are required as a result of the board's decision, such moneys shall be due and payable within thirty days after the decision.

NEW SECTION. Sec. 5. There is added to chapter 79.01 RCW a new section to read as follows:

(1) Except for those harbor areas leased under RCW 79.01.520(5), the department shall provide for a reduction in rent for any portions of state aquatic lands and harbor areas that are leased for public use or open water access.

(2) "Public use" means any area within the leased property designed and specifically set aside solely for use by the general public on a first-come, first-serve and continual basis; which may not be leased to private persons by the lessee for any more than a twenty-four hour period; and is not operated for the purpose of earning
a profit, or results in a profit, from the majority of the public that uses the public use area or, in fact, the area earns a profit.

(3) (a) "Open water access" means any area within the lease property that is continually covered by water; open and accessible to the general public for the general use of the public on a first-come, first-serve basis not less than fifty percent of the time; available for general use of the public at such times and under such conditions where the area can reasonably be expected to be used by the general public; and is not operated for the purpose of earning a profit, or results in a profit, from the majority of the public that uses the open water access area or, in fact, the area earns a profit.

(b) Notwithstanding the requirements of (a) of this subsection, open water access shall also include any area covered by water, not operated for the purpose of earning a profit or, in fact, earns a profit, that provides a reasonable direct water access, on a continual basis, to that area of the premises leased for public use or to an area leased for public use and an area leased for other than public use.

(4) Any lease of state aquatic lands and harbor areas providing for public use or open water access shall make provisions for notifying the general public on or about the leased property designated public use or open water access, of the availability of the area for such use.

(5) The reduction in rent for any portion of the leased area placed in public use shall be determined by using the following method:

(a) Calculating the average rental rate per square foot for the entire leased area;

(b) Multiplying the average rental rate per square foot by the number of square feet placed in public use; and

(c) Deducting the dollar value arrived at in (b) of this subsection from the total rent for the entire leased area.

(6) The reduction in rent for any portion of the leased area placed in open water access shall be determined by using the following method:

(a) Calculating the average rental rate per square foot for the entire leased area;

(b) Multiplying the average rental rate per square foot by the number of square feet placed in open water access;

(c) Reducing the dollar value arrived at in (b) of this subsection by fifty percent; and

(d) Deducting the dollar value arrived at in (c) of this subsection from the total rent for the entire leased area.

Whenever, in any waterways created under the laws of the state of Washington, the government of the United States shall have established pierhead lines in said waterway at any distance from the boundaries thereof established by the state, no structure shall be allowed in the strip of waterway between the boundary and the nearest pierhead line except by the consent of the department of natural resources or a port district as provided in subsection (1) of this section and upon plans approved and terms and conditions fixed by it, and then only for such period of use as shall be designated by him, but any permit shall not extend for a longer period than thirty years. PROVIDED, HOWEVER, That the owner of land abutting upon either side of any such waterway shall have the right, if application be made therefor within a period of ninety days following the date when this section shall go into effect, to obtain such a permit for a thirty year term, and every permit obtained by virtue of the exercise of such right shall provide that the area described therein or such reasonable portion thereof as shall be designated by the state land commissioner, having in view the requirements of the business proposed to be carried on thereon, shall be improved upon plans approved by the state land commissioner, the construction of such improvement to be commenced within such time as may be fixed in each case by the state land commissioner, such time to be in no case less than two years from the date of such permit, to be completed within such reasonable time thereafter as the state land commissioner shall fix in each case, any of which times so fixed may be thereafter extended by him, the character of which improvements may be changed either before or after completion with the consent of the state land commissioner, but in all cases where the abutting owner or one claiming under him had prior to February 22, 1913, built upon such area, his improvements shall be recognized and accepted as a sufficient compliance with the requirements of this section so far as concerns the area covered thereby, and as to uncovered area such improvements shall be given the same consideration as in other cases, and every permit obtained by virtue of the exercise of such right shall further provide that the annual rental to be paid shall be a sum equal to two percent of the assessed valuation for the year preceding the date of such permit of an equal area of adjoining or abutting shore or tide lands, exclusive of improvements thereon, and where the adjoining or abutting strip of shore or tide lands is of less width than the harbor area, a value proportional to said width. PROVIDED FURTHER, HOWEVER, That the foregoing provision fixing the rate of rental shall not extend beyond December 31, 1928, but all rentals after that date shall be subject to be controlled and fixed in the manner and by the public authority or authorities then provided by law for the same. PROVIDED FURTHER, That it shall not be necessary for any public corporation proposing to make use of any such strip of waterway to acquire by condemnation or otherwise the right hereby granted relating thereto, but nothing herein contained shall be construed to deprive any party to any such condemnation proceeding of any damages to which he would have been entitled if this section had not been passed. The state land commissioner shall require of the holder of every permit under this section a bond with sufficient surety, to be approved by said commissioner, in such penalty, and not exceeding twice the amount of the annual rental, but in no case less than five hundred dollars, as may be prescribed by said commissioner, conditioned for the payment of the rental reserved in the permit at or prior to the time of payment therein specified, during the term of such permit or during such part thereof as said commissioner in his discretion shall require to be covered by such bond, and in case only a part of the term of such permit shall be covered thereby, said commissioner shall require another like bond, to be executed and delivered within three months and not less than one month prior to the expiration of the period covered by the previous bond, covering the remainder of the term of the permit, or such part thereof as said commissioner in his discretion shall require to be covered thereby. time to summon sureties upon any bond and to examine into the sufficiency thereof; and if he shall find the same to be insufficient he shall require the holder of the permit to file a new and sufficient bond within thirty days after receiving notice so to do, under penalty of cancellation of the permit, and the said commissioner shall have power upon sixty days' notice to cancel any permit for a substantial breach by the holder thereof of any of the conditions thereof, or for lack of a bond therewith as herein required. It shall be the duty of the (commissioner of public lands) department of natural resources to, simultaneously with the establishment of harbor lines and the determination of harbor areas in front of any city or town, or as soon thereafter as practicable, survey and plat all tide and shore lands of the first class not heretofore platted, and in platting the same to lay out streets which shall thereby be dedicated to public use, subject to the control of the cities or towns in which they are situated, and establish one or more public waterways not less than fifty nor more than one thousand feet wide, beginning at the outer harbor line and extending inland across the tidelands belonging to the state, which waterways shall include within their boundaries, as near as practicable, all navigable streams running through such tidelands, and shall be located at such other places as in the judgment of the (commissioner of public lands) department of natural resources may be necessary for the present and future convenience of commerce, and such waterways heretofore established under former laws or hereafter established shall be reserved from sale or lease as public ways for watercraft until vacated as provided in this chapter((, and it shall be the duty of the commissioner of public lands to appraise the value of such platted tide and shore lands and enter such appraisal in the records of his office)).

Sec. 9. Section 118, chapter 255, Laws of 1927 as amended by section 1, chapter 105, Laws of 1967 ex. sess. and RCW 79.01.472 are each amended to read as follows:
Whenever any waterway established under the authority of the laws of this state, or any portion of such waterway, shall not have been excavated, or shall not be in use for the purposes of navigation, or shall no longer be required in the public interest to exist as a waterway, such waterway or portion thereof may be vacated by written order of the ((commissioner of public lands of the state of Washington whenever he shall be requested so to do by ordinance or resolution of the city council of the city in which such waterway is situate, in whole or in part, or, in case such waterway is situate, in whole or in part, in a port district organized under the laws of the state of Washington, whenever he shall be requested so to do by resolution of the port commission of such port district,)) department of natural resources and upon the making of such order the waterway or portion thereof shall thereupon be deemed to be and shall be thereby vacated: PROVIDED, HOWEVER, That if the waterway or portion thereof so vacated be navigable water of the United States, or otherwise within the jurisdiction of the United States, ((a copy of such resolution or ordinance, together with)) a copy of said order of the ((commissioner of public lands)) department certified to by ((him))) shall be submitted to the secretary of the army and chief of engineers of the United States, and upon the making of such order the waterway or portion thereof shall thereupon be deemed to be and shall be thereby vacated. However, if such waterway lies within a port district organized under the laws of this state, the department shall, before such vacation, notify the port commission of that port district, which shall make such recommendations to the department as it may deem proper within sixty days of the notification.

Upon such vacation occurring, ((in either of the manners aforesaid,)) the ((commissioner of public lands)) department shall notify the city within, or in front of, which((;)) such waterway is located, and the city shall have the right to extend across the portions so vacated any existing streets, or to select therefrom such portions thereof as the city may desire for street purposes, in no case to exceed one hundred fifty feet in width for any one street. Such selection shall be made within sixty days subsequent to the receipt of notice of the vacation of the portion of the waterway so vacated and upon selection, the department shall reserve and provide such area for city street use.

((Should such city fail to make such selection within such time, or within such time make such selection;)) The title ((of the remaining portions)) of such waterway so vacated shall vest in the state((, unless the same be situate within the territorial limits of a port district created under the laws of the state, in which event such title shall vest in said port district. If subsequent to such vacation, the vacated waterway or portion of waterway shall be embraced within the limits of a port district created under the laws of the state, the title to such portions thereof as shall then remain undisposed of by the state shall vest in such port district. Such title so vesting shall be subject to any railroad or street railway crossings existing at the time of such vacation)). However, if a vacated waterway area is immediately adjacent to and abuts on real property owned by a port district, title to that waterway area shall vest in the port district.

NEW SECTION. Sec. 10. There is added to chapter 79.64 RCW a new section to read as follows:

(1) There shall be a fund in the state treasury known as the harbor improvement fund which shall consist of twenty-five percent of the rents paid, after deduction of costs and expenses allowed by RCW 79.64.040, on existing or future leases of harbor areas, tidelands, and waterways belonging to the state of Washington where the proceeds are not otherwise directed to a particular fund or account. The moneys in the fund shall be expended by the department of natural resources only for harbor or waterfront improvement purposes which contribute to public access or other beneficial improvement to state aquatic lands and harbor areas.
(2) The remaining seventy-five percent of rents paid on existing or future leases of harbor areas, tidelands, and waterways, after deduction of costs and expenses allowed by RCW 79.64.040 or where the proceeds are not otherwise directed to a particular fund or account, shall be deposited in the capitol purchase and development account of the state general fund and shall be subject to appropriation only for purchasing, improving, and managing the east capitol site."

On page 3, after line 3, insert the following:

"NEW SECTION. Sec. 3. There is added to Chapter 79.01 RCW a new section to read as follows:

Senator Lysen moved adoption of the following amendment:
On page 1, line 18, strike "and the most economical management of low-level radioactive wastes"

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Guess, is that true, the statement that Senator Williams just made, that this was passed out and we could not even consider it? What was the use of it going to committee?"

Senator Guess: "Senator, I think you would find in the passage of interstate compacts, that they can originate in different ways. We have participated in a number of interstate compacts here in the state of Washington. We have some twenty-six that have already been approved.

"It is not totally an iron-bound contract that you have to pass the exact language. What happens, though, when we have passed language different from that which has been arrived at by the governors' offices of thirteen western states, working in consort, having had many meetings on it. I went to the meeting in Las Vegas on December 12. The agreement there was that we would work the interstate compacts between the various western states. We have two regional groups, the northwest region and the southwest region.

"We, and Mr. David Stevens who is a very competent expert in the field, was representing Governor Spellman. Governor Brown has somebody on there. Governor of Utah, governor of Idaho, and so forth.

"It will only slow down the process of arriving at an interstate compact if we here on the floor change the wording of the compact.

"And so they have committed this in good faith, they have worked very hard on it and I am very hopeful we will pass it like it is so that the business can be carried out."

Further debate ensued.

Senator Ridder demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Lysen.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 23; nays, 26.

PARLIAMENTARY INQUIRY

Senator Wilson: "Mr. President, my inquiry asks whether Senate Bill 4182 is an amendment, is amending initiative 383, and therefore would require a two-thirds vote, or whether that is not the case?"
POINT OF INFORMATION

President Cherberg: "Senator Wilson, do you have any evidence that this particular measure is amending initiative 383?"

REMARKS BY SENATOR McDERMOTT

Senator McDermott: "Initiative 383, in new section 4, gives the date of July 1, 1981. By inference, this bill amends that, changes the basic intent of the initiative which was passed by the people. And I think that very clearly, although nowhere specifically does the section of the initiative appear, the effect of it is to amend this without putting the section in the bill so that the effect is that of an amendment directly to the initiative."

REMARKS BY SENATOR GUESS

Senator Guess: "When the 383 passed, it said that it would go into effect unless there was an interstate compact. The interstate compact that we have before us is the vehicle by which the governors of the state decided that the provisions of 383 would be carried out. It is born out of 383, it is not attached in any way by any cord. It is a separate piece that stands on its own feet and it is no different from some twenty-six interstate compacts that we have adopted in this body since early 1947."

REMARKS BY SENATOR BOTTIGGER

Senator Bottiger: "Mr. President, at my request the former staff of the energy committee, one of the former staff, has submitted to your attorney, a memorandum on that question and they handed it to your counsel in the back rather than, I am sorry, directly to you."

REMARKS BY SENATOR WILLIAMS

Senator Williams: "Yes, Mr. President. The initiative that was passed, the essence of it was to not allow nuclear waste to be deposited in this state unless it was from states in which a compact had been reached between this state and those states. However, this particular bill sets up a mechanism for exceptions to that, in other words, allows nuclear waste to come in from states not a party to this compact, so therefore I would suggest that it goes beyond the intent of the initiative and allows, and is, in fact, then, amending the initiative that was passed by the voters."

REMARKS BY SENATOR NEWHOUSE

Senator Newhouse: "Mr. President, I would suggest that the question is not properly before us at this time; the compact is not on final passage; we could properly bring the issue through second reading and have it on final passage tomorrow. The question could be studied by you in that time."

REPLY BY THE PRESIDENT

President Cherberg: "In the absence of a copy of initiative 383, the President believes that the suggestion by Senator Newhouse was well put, and believes that it would be in order to at least advance the bill, or read the bill and . . . "

PARLIAMENTARY INQUIRY

Senator McDermott: "Mr. President, may I add a second parliamentary inquiry which you can consider while you are doing that, and I would like to read it."
Section 4 of initiative 383 provides a July 1, 1981 date for stopping out-of-state waste coming into the state. In Senate Bill 4182, sections 2 and 3 of article 6, allows a state to become a party to the compact and store waste within the state before it has been ratified by Congress. Section 6 of initiative 383 provides that the compact does not take effect until the Congress has ratified it. Therefore it is my question, is 4182 amending initiative 383 without reference?

REPLY BY THE PRESIDENT

President Cherberg: "Your particular inquiry will be studied at the same time as the other question."

Senator Lysen moved adoption of the following amendment:
On page 1, lines 25 and 26, strike "most economical" and insert "sage"

POINT OF INQUIRY

Senator Lysen: "Senator Bottiger, would you yield to a question on this amendment? Maybe it is a lawyer-kind of question, terms of statutory construction. Senator Gould said there is no doubt in her mind that 'safety' would have priority over 'most economical.' I have to admit there is doubt in my mind and under the rules of statutory construction, I guess I would like a legal opinion on that as to what you think."

Senator Bottiger: "Senator Lysen, I would love to help you out but I have, very candidly, the hour is getting late and I am working three bills ahead of this one on amendments I've got and very candidly, I am not able to answer that question. Probably an hour from now I will be more tired and I will be working six bills ahead and after the question . . . ."

Senator Lysen: "I am serious about this. Senator Talmadge? Senator Hemstad? Dealing with the finest legal minds in the Senate here: Did you hear the question, Senator?"

Senator Hemstad: "I believe you are asking if the sentence as it stands assures that they will be looking at health and safety. The answer is 'yes.'"

Senator Lysen: "Well, no, the question is 'will health and safety have a priority over economical management;' if there is a conflict which will have the priority?"

Senator Hemstad: "They would have to take all factors into account but health and safety surely is going to be a paramount duty and responsibility of this state in carrying out its duties under this compact."

Senator Lysen: "So your answer is the paramount would be health and safety would be paramount over economical, after they take everything into consideration which I am sure they will do, with or without this amendment, health and safety will be paramount over economical management? If your answer is 'yes' to that, I will feel reassured."

Senator Hughes demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Lysen.

On page 2, lines 1 and 2, after "states" strike "and the maintenance of the viability of the states' economies"
Debate ensued.
The motion by Senator Lysen failed and the amendment was not adopted.
Senator Williams moved adoption of the following amendment:
On page 3, line 30, strike all of section 3 and renumber subsequent subsections.
Debate ensued.

POINT OF INQUIRY

Senator Ridder: "Senator Guess, I am a little confused, Senator, from what I am hearing, we are supposed to allow outside states in, in order that the Congress will not override us and allow outside states in."
Senator Guess: "No, no."
Senator Ridder: "No?"
Senator Guess: "We are to leave, under certain and rare instances, wastes to come from some other western states until they can get their storage area agreed upon. This would, if we did not have this, then they are afraid that the Congress would say that it was an exclusionary document and was not adopted in a democratic frame; and for that reason the committee felt that it was the better part of judgment to let, under those particular limited conditions, other wastes come in."
Further debate ensued.
Senator Rasmussen demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the amendment by Senator Williams.

PERSONAL PRIVILEGE

Senator Zimmerman: "I feel a slight bit of responsibility for the fact that we are working this late and I want to express my apologies to the body for the fact that I was absent, and consequently there was some pushing forward of measures.

I do want to give you a quick report because I think, so everybody hears the same thing. I had talked a few hours ago to Isaiah Eldridge in the embassy in Mexico City, a man who is very close-mouthed and does not tell us very much and we do not get very much information from him, consequently we still have had very little information in regards to his reports as to what he sent to the FBI in Seattle. The FBI in Seattle, I talked to George Fisher a few hours ago, and of course, he, too, has not received anything. It's a slow mail boat or whatever it is that comes from Mexico to this part of the country.

"We did have an opportunity, we had a discussion with the UPI reporter who had had a report from Villa Hermosa, a city in Mexico and Tabasco, where a body had been found and they had considerable more details than anything we have had yet, and it is far more drastic report than we had expected to hear, despite the fact that we had some very optimistic things that had happened in the past several weeks as far as our children's visit down, our son and his wife; consequently our hopes had been buoyed but they have not been helped by the report of a few, of just about an hour ago."
"At the same time I want to express my sincere appreciation to the members of this house, the members of this body, the Senate, for the very, very kind things that you have said, and the very, very sympathies and all that you have expressed. Judy and I have had an opportunity, my wife Judy, and I, too, of course, spent the past day and a half, approximately, and we have certainly worked throughout a good number of things in regard to this situation. We still have some hopes that it might be misidentification, at the same time we are prepared for what is undoubtedly some realities that perhaps could be much worse than that.

"But I have also appreciated the fact that members from the Democrat aisle, across the aisle, had indicated their cooperation and I appreciate that that was such that it made possible a continuation of work here in this body.

"I would simply want you to know that we have had twenty-seven years of a fine opportunity to enjoy the youngest member of our family, and no matter what the final outcome is, it is one in which she lived life to the fullest and had worked in this building as a page, several times voluntarily and others, and also worked in the bill room, and had wanted to make a journey, a journey that perhaps, at this point, we do not know the final result of but other than it is not all that good, it does not appear to be.

"But I do appreciate your sincere and very, very kind thoughts; and I do not, in any way, I did not want to have anything to do with the extension of this time this evening, but at the same time, I feel privileged to be here and I hope that we can resume.

"Thank you very much."

REMARDS BY THE PRESIDENT

President Cherberg: "Well, thank you very much, Senator Zimmerman. I am sure that every member of the Senate is with you and Mrs. Zimmerman in every sense of the word during this trying time, and I am absolutely positive that no one in the least holds you responsible for working tonight. This was a 'must' job and I hope that you won't feel any embarrassment in that regard."

The Senate resumed consideration of the amendment by Senator Williams to page 4, line 25.

Senator Rasmussen demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Williams.

PARLIAMENTARY INQUIRY

Senator Talmadge: "Mr. President, it is now approximately 12:30 a.m. on Thursday, April 2, 1981. As I understand it, on Wednesday, April 1, 1981, was the 80th day of this legislative session. Is it the ruling of the chair that this is the 80th day or the 81st day of this legislative session?"

REMARKS BY SENATOR CLARKE

Senator Clarke: "My understanding that the working day continues until adjournment, regardless of the hour."

REPLY BY THE PRESIDENT

President Cherberg: "The President believes that the remarks that Senator Clarke just made are well taken. This is still the 80th day."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, if that rule were followed to its logical conclusion, then we could extend the cutoff by just not adjourning; we just keep going and not adjourning and thereby extend the cutoff.

"But Mr. President, the constitution says that we have to adjourn on the 105th calendar day, so you cannot do this forever."
Senator Vognild moved adoption of the following amendment by Senators
Vognild and Lysen to Substitute Senate Bill No. 4182:

On page 4, line 31, strike everything after "states," on line 31 through "states"
on line 33, and insert "each other party state agrees to maintain a hazardous
chemical waste disposal facility available to generators within Washington"

Debate ensued.
Senator Rasmussen demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the
amendment by Senators Vognild and Lysen.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the
following vote: Yeas, 24; nays, 25.

Voting yea: Senators Bauer, Bottiger, Charnley, Conner, Fleming, Gaspard,
Goltz, Hansen, Hughes, Hurley, Lysen, McDermott, Moore, Peterson, Rasmussen,
Ridder, Shinpoch, Talley, Talmadge, Vognild, Williams, Wilson, Wojahn, Woody—
24.

Voting nay: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller,
Gallaghan, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee,
McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von
Reichbauer, Zimmerman—25.

Senator Williams moved adoption of the following amendment:

On page 5, line 7, after "bonding." insert "Such fees and requirements shall be
in conformance with nuclear regulatory commission requirements."

MOTION

Senator Clarke moved the amendment by Senator Williams be laid upon the
table.
Senator Ridder demanded a roll call and the demand was sustained.

PARLIAMENTARY INQUIRY

Senator Newhouse: "Could it be a proper motion to move that all the
amendments to Senate Bill 4182 be laid upon the table in one motion."

REPLY BY THE PRESIDENT

President Cherberg: "The President thinks not, Senator. The President believes
that each amendment deserves individual consideration."

PARLIAMENTARY INQUIRY

Senator Newhouse: "The motion has been made in other bodies and is used in
other bodies. I find no prohibition against such a motion in our rules or in Reed's
rules, sir."

REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "Senator Newhouse, you are referring to 'other bodies.' I
presume you mean the Soviet Union, or what do you have reference to? That is the
way they handle it over there, in those countries. There is no argument; they don't
even have a President of the Senate. What body do you refer to? You have
experienced these practices in . . . ?
"I guess he doesn't know anybody, Mr. President, that they do this in."
REMARKS BY SENATOR NEWHOUSE

Senator Newhouse: "Remind the Senator that I was not asked to yield to a question and did not yield."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, the most drastic motion is the question of consideration. I think if you will look in Reed's, you will see a discussion of this. "And on the Senate rules, ' . . . the question of consideration has been raised as to any motion, resolution or amendment, it shall not be put until said motion, resolution or amendment has been read.' Now if you cannot do it with a question of consideration, you most certainly should not be able to do it with lay on the table."

REMARKS BY SENATOR GOLTZ

Senator Goltz: "I wonder if it would be in order to clear the galleries of all the public, because I do not think the public ought to see what is going on here. I guess if you are making sausage, you shouldn't invite people into the sausage factory."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Newhouse and other members of the Senate: the President believes that the entire purpose of placing a bill on second reading is to give the Senators an opportunity to perfect the bill; and the President cannot find any substantive evidence in the rules that would make your suggested motion in order."

PARLIAMENTARY INQUIRY

Senator Newhouse: "May I turn it around? Do you find anything in the rules which says that such a motion is not in order?"

REPLY BY THE PRESIDENT

President Cherberg: "You have the power of tradition and custom which has practically the same force as law."

PARLIAMENTARY INQUIRY

Senator Fleming: "Mr. President, doesn't it suggest that the issue is not before the body? Would that suggest, to the affirmative of what you are ruling? The other amendments which he wants to lay on the table are not before the body."

REPLY BY THE PRESIDENT

President Cherberg: "The President has already said that he felt that each amendment deserves individual consideration. After all, a member may wish to vote for or against an amendment; and a motion to table all amendments, in a sense, is preventing the possible perfection of the bill."

POINT OF INQUIRY

Senator Ridder: "Senator Bottiger, would you tell me the meaning of the term 'prior restraint,' Senator?"

Senator Bottiger: "Well, 'prior restraint' is a classic case of preventing people from discussing or considering it by prohibiting it in advance of their ever even bringing it up; and I think, Senator Ridder, that is an excellent example of prior
restraint. You table all amendments before they are offered, in other words, nobody ever gets to know what it is they are voting on to table. Good example of prior restraint."

POINT OF ORDER

 Senator Williams: "Yes, Mr. President. I would like to ask Senator Clarke to yield to a question. Or any member on that side.
 "My question is just a simple courtesy, to ask what the purpose of the motion to lay on the table is for? On page 1, line 10 after "general," insert "not a recall election,"
Debate ensued.

Further debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Pullen, reading from the digest, which indicates that 'public disclosure law is amended to prohibit legislators or their political committees from accepting contributions.' How would you interpret that . . . ?"

Senator Pullen: "You are reading the original bill, not the substitute bill, Senator Rasmussen."
Senator Rasmussen: "Well, what does it say then, regarding political committees, Senator Pullen, the substitute?"

Senator Pullen: "Says you cannot solicit a contribution; there is a difference."

Senator Rasmussen: "What is the difference?"

Senator Pullen: "Well, the difference is, a person could conceivably have a fund raiser prior to the start of session and as all of us know, checks, contributions sometimes filter in for months afterward and it would put a legislator in a very difficult spot under the original bill as introduced; if he or she held a fund raiser in December of November, just after the election, to perhaps pay off the debt, and then contributions started coming in in January after the session was under way, under the original bill as introduced, that legislator could not accept the contribution even though it was solicited far in advance of the session.

"In the substitute bill, it simply says that you may not solicit a contribution during the session, but you could accept one if the fund raiser had been held prior to the session."

Senator Rasmussen: "Well, I am thinking possibly, in Pierce county we just had a race in which legislators were running but they were not running for legislative office, state legislative office, they were running for county legislative office. Under this bill they would then be prohibited from having a fund raiser?"

Senator Pullen: "No, Senator Rasmussen, in your case you could have had a fund raiser and you could have solicited and accepted contributions. Because of the language in the bill which provides an exception, saying that there is an exception for a legislator whose name appears on the ballot for a primary or other election which will be held during the legislative session or within thirty days following its adjournment.

"So that would have exempted you in your particular case, and you would have been eligible to solicit contributions."

POINT OF INQUIRY

Senator Hughes: "Senator Craswell, the charge of 'eyewash' has been put forward; I am sure your intentions in introducing this bill, was not eyewash and I am sure that we can count on, or I would like to ask if we can count on you to go even further, perhaps introduce some legislation that would forbid caucus fund raisers, since the concept, if you find if offensive for individual legislators, surely the caucus would follow along those lines. Would you agree?"

Senator Craswell: "No, the bill specifically excludes caucus fund raisers and I do not think that is a similar consideration."

Senator Hughes: "You do not believe you would want to pursue that course as well?"

"... one other question. I am wondering, Senator Craswell, if you feel that in any way, exempting a member who might be under recall from this, would be in any way providing a special privilege?"

Senator Craswell: "I think a member, under recall, should be treated just the same as anybody else who might be running for any other election."

Senator Hughes: "One last follow-up. Would you support the concept of public funding which surely would eliminate any appearance of unfair, unethical practice?"

Senator Craswell: "I really do not know what public funding has to do with this bill, but no, I do not support public funding."

REMARKS BY SENATOR McDERMOTT

Senator McDermott: "Mr. President, Senator Guess, if you had been in your seat you would have heard I said 'When Senator Shinpoch spots somebody and says 'There's a ripoff', why, that is a perfectly appropriate comment. It was not directed at you; but this bill is a bill that is giving people special privilege. It is passing in the middle of the night, nobody knows that it is happening, and when somebody stands up and points it out and says 'Let us include all the people,' then for you to put them down and say they have not read the bill, seems to me a very bad misuse of your position on this floor."

REMARKS BY SENATOR GUESS

Senator Guess: "Mr. President, may I read one paragraph out of this bill? 'Copies of prorational registration applications and supplements for all jurisdictions in which the fleet is prorated; proof of proportional or full registration with other jurisdictions; vehicle license or trip permits; temporary proration authorization permits; weight certifications indicating the unladen, ready for the road, weight of each vehicle in the fleet . . . ."

POINT OF INQUIRY

Senator Bottiger: "Senator Sellar, for years many of us down here have been opposed to revolving funds that were not subject to legislative appropriation. President Cherberg: "The President finds that Senate resolution 1981-38, and the Senate resolution 1981-39 are identical to Senate resolution 1981-36 and Senate resolution 1981-37. The Senate, upon motion by Senator Hayner, referred Senate resolution 1981-36 and Senate resolution 1981-37, to the Senate rules committee. Therefore, the President believes it will be necessary for the rules committee to place the matter before the body or by motion, the Senate may relieve the committee of the resolutions."

PARLIAMENTARY INQUIRY

Senator Charnley: "Mr. President, if we are not in session at 2 o'clock, does that mean that when we go into session at any time after 2 o'clock, that would be the first order of business?"

REPLY BY THE PRESIDENT

President Cherberg: "The President would construe that to be the case."

The motion by Senator Bottiger failed on a rising vote.

The President declared the question before the Senate to be the motion by Senator Pullen that Senate Resolutions 1981–36 and 37 be held on the Senate floor for possible future action.

POINT OF INQUIRY

Senator Bottiger: "Mr. President and perhaps Senator Pullen I have a problem with 'a future time.' The resolutions are then in some form of limbo that I do not understand. If it was on the second reading calendar or some place, but 'a future time' is so indefinite that I really do not understand what it is."

Senator Pullen: "Senator Bottiger, I have a problem that we are even here at 5 a.m. in the morning, on the eighth order of business.

"The intent of the motion would be to have it on the floor before us just like the measure is when it is first introduced. After it is introduced it sits on the floor and when we get to the eighth order of business, we can dispose of it in a way that a majority of this body sees fit. And it will be in the same category or status as it was when it was originally introduced.

"There is nothing unusual about that and it is a standard motion that is often applied to many bills and other measures."

Mr. President: Fellow Senators, I respectfully request to be excused from the Senate when we vote on Engrossed Senate Bill No. 3871. I stand to possibly materially gain as a result of voting on this legislation. With the permission of the body, I shall leave the floor during the vote on Engrossed Senate Bill No. 3871 (the North Richland Toll Bridge). Thank you all.

PERSONAL PRIVILEGE

Senator Moore: "Mr. President, I did endeavor to get the floor before the roll call started and I would still like to give everyone knowledge of why I did not vote on this issue."
President Cherberg: "The Senator wishes to speak upon a point of personal privilege?"
Senator Moore: "I guess I have just spoken on a point of personal privilege. Thank you."

THIRD READING

SUBSTITUTE SENATE BILL NO. 4315, by Committee on Energy and Utilities (originally sponsored by Senators Quigg, McCaslin, Fuller, Newhouse, Gould and Bluechel):
Extending powers of joint operating agencies.
The bill was read the third time and placed on final passage. Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Bottiger, last night there were questions raised on the legality and what the possibilities were that a lawsuit, if this bill were to be passed, where they had, or they required only eighty percent approval. Do you have any...?"
Senator Bottiger: "Well, Senator, Senator Quigg has advised me and I very candidly and between the time we adjourned at 5 last night until now, I have not had a chance to check it. Senator Quigg advises me that that is the current participants' agreement that eighty percent can sell. That being the case, I wonder why we need the bill? If the participants have an agreement, a signed agreement, I would presume the agreement would control.
"I am concerned, and I continue to be concerned about the question of the sale for less than value and who picks up the outstanding debt. It might be Tacoma City Light pays, picks up their share if the plant is sold for less than what is owed on it."

POINT OF INQUIRY

Senator Goltz: "Senator Quigg, I have one question about how the sale of a nuclear plant might affect the future rates caused by the sale and I would like to use as the analogy, the problem that the nursing home industry presented to the state of Washington when a sale of a nursing home went from, let us say, one million dollars to two million dollars, and under the rate structure, we were obligated to pay the second nursing home owner for the inflated price of a nursing home.
"If the WPPSS plants are sold at an inflated price, what protection does the public have that these would be arms length sales, and that you simply do not sell to, one consortium selling to another for purposes of boosting the rate base?"
Senator Quigg: "In answer to Senator Goltz' question, Senator, the... in this state we have a utility and transportation commission that is involved in the regulation of those utility rates, and so the case would have to be made that that rate increase was justified and as Senator Lysen has pointed out, somebody would, of course, have to have a willing buyer, say a willing buyer. I would assume we have some willing sellers around right now already, just by the remarks that are made here on the Senate Floor.
"But the matter of what those rates would be, would be dependent on the decision, at least in this state, of the utilities and transportation commission, and whether they felt that the price was determined at an arms length basis, I imagine would be a determination to be made by that commission."
Senator Goltz: "Is there any protection built into this law or any other law, that would require the utilities and transportation commission to investigate whether or not an arms length transaction has taken place? You see, the problem that I fear is, that unless you have that kind of protection built in some place, one consortium can
sell to another consortium. It is like the few horrible examples in the nursing home industry where one group of officers sold to themselves as another group of officers and thereby inflated the base; and you are correct if utility and transportation commission has to pay a fair rate based upon those costs. And I want those costs to be under control."

Senator Quigg: "I guess that is really the point of the bill, Senator Goltz. It presently appears under the, at least up until recent times, the management team there has had those costs not under control and I think the spotlight that we have been able to shine on this and the investigation that has been done into the Supply System would be followed up by the utilities and transportation commission and by the parties to any rate increases that would come about due to a . . . ." Further debate ensued.

POINT OF INQUIRY

Senator Ridder: "Senator Lysen, I really have some apprehensions about the turkey situation, too, and we heard about horsefeathers last night also. I would like to ask Senator Lysen about hell-and-high-water bonds and how they influence the sale."

POINT OF ORDER

Senator Clarke: "I think this is obviously an attempt to circumvent the rule as to time and I raise the point of order."

RULING BY THE PRESIDENT

President Cherberg: "Senator Clarke's point of order is well taken."

The President declared the question before the Senate to be the roll call on final passage of Substitute Senate Bill No. 4315.

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 4315 and the bill passed the Senate by the following vote: Yeas, 30; nays, 19.

SUBSTITUTE SENATE BILL NO. 4315, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

At 1:05 p.m., on motion of Senator Clarke, the Senate recessed until 1:30 p.m.

AFTERNOON SESSION

MOTION
On motion of Senator Bottiger, the Senate commenced consideration of Substitute Senate Bill No. 4360.

THIRD READING
SUBSTITUTE SENATE BILL NO. 4360, by Committee on Education (originally sponsored by Senator Hayner):
Relating to nonhigh school districts.
The bill was read the third time and placed on final passage.

POINT OF INQUIRY
Senator Bottiger: "Senator Hayner, I do have a nonhigh district in the district I represent and I have one question that I know I am going to be asked this when I go home. If the levy, now I notice the bill amends the ten percent excess levy. If the levy that is requested from the voters of Carbonado school district exceeds the 110%, or for that matter for any reason they vote it down, how does the Carbonado school district pay to the adjoining school district, the amount required under this bill?"

Senator Hayner: "Senator Bottiger, I think that would have to be negotiated between the high and nonhigh school districts. Presently if they do not have sufficient money, they are going to have to take it out of some of the monies that they have and that is one of the problems that exists.

"I think this situation will correct it; I am not sure exactly what happens if their levy fails totally."

Senator Bottiger: "Perhaps then, Senator McCaslin would yield to a question?"
President Cherberg: "Senator McCaslin would yield to a question?"
Senator Bottiger: "Senator Kiskaddon, excuse me, I am sorry. Normally if I have five hours of sleep I can just about do anything, but with three it is getting hard.

"Senator Kiskaddon, in the committee this question came up, and obviously I am asking it for the record so I can show people what the circumstance was; but as I understand it, if the levy fails, then the school district goes into automatic consolidation?"

Senator Kiskaddon: "I am not sure of the answer to that question."
Senator Bottiger: "Senator Gaspard here? Senator Bauer, could you help me on this and the record? Under this bill, if the excess levy fails, in order to pay the tuition from the nonhigh district to the high school district, is there then an automatic consolidation of the nonhigh district?

"I am not finding anybody that can answer that; it was brought up in testimony . . . ."

REMARKS BY SENATOR HAYNER
Senator Hayner: "Senator Bottiger, I do not believe there is anything in this particular bill that addresses that."

POINT OF INQUIRY
Senator Wilson: "Senator Hayner, I am very sympathetic to this bill and I applaud your efforts to make life a little easier for nonhigh districts. The point that Senator Bottiger has raised concerns me a bit. My question is, is there anything in this bill which, in any way, enhances the prospect of a nonhigh district becoming involuntarily consolidated with some adjoining district?"

Senator Hayner: "There is nothing in this bill that addresses that."
Further debate ensued.

MOTION

On motion of Senator Fleming, Substitute Senate Bill No. 4360 will be considered following Senate Bill No. 3704.

President Cherberg: "The bill is on final passage, Senator Scott."
Further debate ensued.
The President declared the question before the Senate to be the roll call on final passage of Engrossed Substitute Senate Bill No. 3704.

 Relating to nonhigh school districts.
The Senate resumed consideration of Substitute Senate Bill No. 4360 from earlier today.

REMARKS BY SENATOR HAYNER

Senator Hayner: "Ladies and gentlemen of the Senate, I now have the answer to the question that was asked by Senator Bottiger and Senator Wilson.
"This bill, as I mentioned, has nothing to do at all with the problem of consolidation. It only has to do with operation and maintenance and the payments between nonhigh and high school districts. As far as consolidation is concerned, I am told that that is under the control of the board of education, not the SPI but the board of education, and they have a great many criteria that they examine whenever there is a problem in a district to determine whether finally that consolidation should take place."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, may I ask that was a response to a question and I ask that it be in the journal, because I intend to vote for the bill and I just want to make sure that I have an answer to the questions that may be raised."

THIRD READING

ENGROSSED SUBSTITUTE SENATE BILL NO. 4182, by Committee on Energy and Utilities (originally sponsored by Senator Gould):
 Relating to nuclear wastes.

PARLIAMENTARY INQUIRY

Senator McDermott: "Last night when we were working on this bill from eleven o'clock to two o'clock, two points of parliamentary inquiry were raised, I think one by Senator Wilson and one by myself. I would appreciate your giving us your opinion on those points of parliamentary inquiry before we vote on this bill."
REPLY BY THE PRESIDENT

President Cherberg: "Thank you. The President finds that initiative 383, section 6, provides for the state of Washington to enter into an interstate compact to provide for the regional storage of low level radioactive waste. It is unclear to the President whether regional storage of waste would preclude storage of out-of-region waste within the region.

"Substitute Senate Bill No. 4182 is the enabling legislation through which the state of Washington may enter into an interstate compact for the storage of low level radioactive waste. The compact does provide for the storage of out-of-region wastes within the region in specific instances.

"The President finds that because of the language of initiative 383, section 6, is ambiguous as to the meaning of the words 'regional storage of waste,' that Substitute Senate Bill No. 4182 does not clearly amend initiative 383 and that therefore only a majority of a vote is needed for passage."

POINT OF ORDER

Senator Rasmussen: "Mr. President, in the dark of the night last night, about sometime two or three o'clock in the morning, I do not recall when, I thought there was an amendment adopted to this bill; and I have been trying to find that amendment to refresh my memory as to what the amendment was. Could you, there were two amendments? I am informed there were two amendments. I do not find them in my book."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Rasmussen has raised a point about the possible amendments. Senator Guess."

Senator Guess: "Mr. President, I believe that there was an amendment that was put on the bill by Senator Goltz and Senator Gould. It had to do with the portion outside of the compact. It was in the statutory portion of the bill."

Senator Rasmussen: "I would like to see it, before we go on final passage."

POINT OF ORDER

Senator Rasmussen: "Has the bill been placed on third reading?"

REPLY BY THE PRESIDENT

The President: "Yes, Senator."

Senator Rasmussen: "Have the rules been suspended concerning the reading?"

President Cherberg: "It is on third reading, Senator, and final passage."

Senator Rasmussen: "I understand it, Mr. President, rule 70 provides 'Bills on third reading shall be read in full by sections, and no amendment shall be entertained.' And I have not heard the reading in full, by sections, Mr. President; that is why I am raising that point of order. I think that this bill was debated in the dark of the night, half of the people were asleep, and I think it should be read in full at this time so we may become fully acquainted with that is in the bill. There are many, many, many questions raised by the debate last night as to the action of other states; they were not settled by any means, they were voted up or down, some amendments were adopted, some reduced; but I think this is an important bill for the people of the state to know fully what is in the bill, they voted 75% overwhelmingly for some type of control over nuclear waste.

"So that is why I am raising the question now, if the rule has been suspended."

President Cherberg: "The rule has not been suspended, Senator Rasmussen."
MOTION

Senator Clarke moved the rules be suspended and the Secretary read the last line of Engrossed Substitute Senate Bill No. 4182.

Senator Rasmussen demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the motion by Senator Clarke that the rules be suspended and the Secretary read the last line of Engrossed Substitute Senate Bill No. 4182.

The Secretary called the roll and the motion by Senator Clarke carried by the following vote: Yeas, 41; nays, 6; absent or not voting, 2.

Absent or not voting: Senators Conner, Vognild—2.

The bill was read the third time and placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Ridder: "Senator Gould, I am at a loss to understand why you feel that this state can be overridden in having to accept waste and yet at the same time, you tell me that the state of Nevada may be closed because the governor will say that is shall be."

Senator Gould: "If we accept any radioactive waste at all we have to accept all that comes to us. We either close down completely or we do not accept anything."

Senator Ridder: "Under 383, what would be the effect, we have indicated that if there is not a compact by July first, we are closed to out-of-state waste."

Senator Gould: "With exception of medical waste which is the majority of waste that comes to us."

Senator Ridder: "I see, and you feel that that leaves a sufficient gap that we are not protected?"

Senator Gould: "I think that and the fact that 383, I do not think will be held up in court, would both provide that we are not protected without the restrictions of this compact."

Senator Ridder: "Would you feel that our governor would be able to issue such a mandate as proposed in Nevada?"

Senator Gould: "Yes, now under current circumstances, yes; but we could not accept any waste at all."

Senator Ridder: "Thank you."

Senator Gould: "If I may add to that, the governor did do that, previous Governor Ray did do that for a short time a year or two ago."

POINT OF INQUIRY

Senator Hurley: "Senator Gould, I am interested in the compact, too, and I do intend to support it. But when you said we would be on the way to excluding waste from out of the region, it is a little unclear to me that both Alaska and Hawaii could be included in the word 'region.' I think when the people voted for 383, they had no idea that our region would be anything but the contiguous western states and it is a
little unclear to me and maybe it has been explained but I just still do not understand it."

"Out-of-region waste could only be accepted, under the compact, if two-thirds of the members of the region participating states, including the host state, accepted it. That is the only way you could do it."

Senator Hurley: "I did understand that, but I meant in the spirit of 383, how Alaska and Hawaii could be included in the region."

Senator Gould: "I guess you, perhaps, interpret it differently than I, what the spirit was."

Further debate ensued.

POINT OF INQUIRY

Senator Vognild: "Senator Gould, I notice, in reading the summary here, it says 'The party states may impose fees on waste generators and shippers to cover the cost of the requirements in the section above.' Could you give me an idea what the amount of dollars might be involved and where those dollars would go?"

Senator Gould: "I could not give you that amount but the fees would be used to cover the cost of maintaining and operating the Hanford site as well as any related costs to that, so they would completely cover that."

Senator Vognild: "That would then perhaps be a revolving and nonappropriated fund?"

Senator Gould: "Yes, in my mind, it would be separate than anything from the general budget."

Further debate ensued.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Bottiger, I was very much interested in your remarks that the way to evade this law was to have the caucus hold a fund raiser and then turn the money over to the individual. I would hope that you could explain two or three more ways, not myself ever having a fund raiser, I heard that there was a 'welcome back' party or 'welcome into' party for certain new recruits to the Republican party the other night here in Olympia, during the session, and apparently that must be perfectly legal; and there was quite a lot of money raised because there were certain campaigns that were going to be coming on here in the future.

'It was always my understanding and maybe somebody would correct me, I realize that after working through the dark of the night, because some people
wanted to push certain legislation through, it is a little difficult to comprehend. But it was always my understanding that when you did raise funds, you had a continuing committee, you were a legislator that you had to file with the public disclosure commission; you also had to file the date, the time that you received the money and the amount you received from the individuals.

"I believe in the public disclosure law and have been voting for it all the time, strengthening it when we had the opportunity. Now we have something that says the public disclosure law is not working. I agree it is not working, when they can have 'welcome back' parties and dump a lot of money into a person's campaign; not alone have one party, have several parties and of course these welcome back parties were welcoming somebody into the party that had never been in the party before. That is strange, strange doings, Senator Bottiger, is that what you had in mind when you mention ways that this can be evaded?"

Senator Bottiger: "Senator, only one a session."

The President declared the question before the Senate to be the roll call on final passage of Substitute Senate Bill No. 3844.

On motion of Senator Clarke, the Senate commenced consideration of Senate Bill No. 3522.

Providing for the preservation of agricultural lands.

MOTIONS
On motion of Senator Benitz, Substitute Senate Bill No. 3522 was substitute for Senate Bill No. 3522 and the substitute bill was placed on second reading and read the second time in full.
On motion of Senator Benitz, the following amendments by Senators Benitz and Hansen were considered and adopted simultaneously:
On page 2, line 10, after "bushes," insert: "deciduous fruit and nut bearing".
On page 3, line 6, after "bushes," insert: "deciduous fruit and nut bearing"

MOTIONS
On motion of Senator Metcalf, an amendment to page 3, line 10 on the desk of the Secretary of the Senate was withdrawn.
On motion of Senator Benitz, the rules were suspended, Engrossed Substitute Senate Bill No. 3522, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY
Senator Rasmussen: "Senator Hansen, I would ask Senator Benitz but he always refuses to answer when I am trying to find out what is in a law and I know it is not lack of knowledge, it is that he does not want to impart his knowledge to the rest of us. You are much better.
"Senator Benitz spoke that there was going to be a slight tax shift. We have participated in some of those 'slight tax shifts' before and they amounted to quite a bit of money that the rest of us taxpayers had to pick up. How much money is this tax shift, and I will give you the other question while you are getting your figures out. I understand that they amended out the trees. The one amendment that was adopted here."
Senator Hansen: "No, it did not amend out, it added, it added fruit trees that are edible fruit so the pines trees in your back yard would not qualify."
Senator Rasmussen: "Well, that is my question. Why aren't those presently exempted under the agricultural act rather than the open space, and then explain the fact . . ."
Senator Hansen: "The reason that they are not, when the passed the open spaces, that was the intent; but the county assessors have devised a method of valuing the land at a certain price and then adding the trees to it as an amenity, so what we are doing now is saying that the trees are part of the land and so you go into current use taxation or pay what that land will stand to bear with the crops, the percentage of profit you make on that land as your tax base. As it is now, they add the trees as an amenity to that land which raises the tax on current use, the other one is above on two amenities and it is allowing the metropolitan areas or developers
to come out and purchase those orchards, cut them down, and put housing develop­ments in, and this just allows the farmer to call it all current use taxation and when he ties it up, he has tied it up for ten years and he has to give three years' notice before he can take it out and if he takes it out at any other time, he has to go back and pick up the tax break that he's got up to that time. So . . .

Senator Rasmussen: "Have you cleared this with Senator Wilson; are local people in favor of assuming that increase tax load?"

Senator Hansen: "Yes, it is going to be very little tax shift."

Debate ensued.

POINT OF INQUIRY

Senator Goltz: "Senator Hansen, this applies not just to urban areas, this applies to farm lands throughout the state. Somewhere a mention was made that this is to take off the urban pressure and I guess I need to know whether we are taking off the urban pressure around Moses Lake, or whether we are taking off the urban pressure around Tacoma."

Senator Hansen: "Yes, we need urban pressure taken off from Moses Lake, we need it taken off around Yakima, we need it taken off around Ellensburg. And the main thing that I have heard since I have been in this legislature, is the preservation of agricultural land."

"Now if you want to get rid of them as fast as possible, you continue the route we are going so a farmer cannot make a living because his land lays up against a city and so you raise that tax base at what it would take to, the developers would pay for, it has to go to development pretty fast."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 3522 and the bill passed the Senate by the following vote: Yeas, 40; nays, 8; absent or not voting, 1.

Absent or not voting: Senator Newhouse—1.

ENGROSSED SUBSTITUTE SENATE BILL NO. 3522, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SENATE BILL NO. 3610, by Senators Wojahn, Jones, Vognild, Deccio, Hemstad, Williams, Quigg, Hurley and Newhouse:
Authorizing a class L liquor license for nonprofit arts organizations.

REPORT OF STANDING COMMITTEE

March 23, 1981.

SENATE BILL NO. 3610, authorizing a class L liquor license for nonprofit arts organizations (reported by Committee on Commerce and Labor):

MAJORITY recommendation: Do pass with the following amendment:
The bill was read the second time by sections.

Senator Jones moved adoption of the committee amendment.

POINT OF INQUIRY

Senator Rasmussen: "Senator Quigg, is this the one where you can drink booze while viewing art so it makes it more palatable?"

Senator Quigg: "Maybe. It is sort of a judgment call, Senator, and I'll bet you are good at those."

Debate ensued.

The motion by Senator Jones carried and the committee amendment was adopted.

Senator Wojahn spoke to the bill but failed to suspend the rules and advance the bill to third reading and final passage.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 3610 and the bill passed the Senate by the following vote: Yeas, 41; nays, 8.

ENGROSSED SENATE BILL NO. 3610, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

Senator Deccio moved the rules be suspended, Engrossed Senate Bill No. 3610 be advanced to third reading, the second reading considered the third, and the bill placed on final passage.

POINT OF ORDER

Senator Rasmussen: "I know, Mr. President, that most of us realize that we have to reconsider the vote, get ourself back in the original position, and then make the proper motion. As I read, there is no way we can handle this bill at the present time unless we reconsider the vote by which it passed, then put it back where we can move it up to third reading and final passage. I raise that point of order, Mr. President, knowing that Senator Deccio is new over here and they may work like that in the House but I do not think the Senate does that."

PARLIAMENTARY INQUIRY

Senator Woody: "Mr. President, would it not be possible to move to suspend the rules to move the bill from second and third reading to final passage and also suspend the rules and consider the roll call vote, previous roll call vote on this bill, on final passage as a final passage vote on this bill?"

REPLY BY THE PRESIDENT

President Cherberg: "No, Senator. Senator Deccio."

Senator Deccio: "Mr. President, I believe that my motion was that, I moved that the rules be suspended and that the bill be moved from second to third reading and final passage."

President Cherberg: "Actually, members of the Senate, Senator, the President believes that everything from the second reading on, every action taken is moot, and just go back and start over."

Senator Rasmussen: "Mr. President, I could not make the motion because I did not vote on the prevailing side, it would take somebody that voted on the prevailing side to move to reconsider. . . ."

Senator Bottiger: "Mr. President, I believe the President has already ruled on that question and the motion before the Senate is Senator Deccio's motion."

President Cherberg: "The question before the Senate is a motion by Senator Deccio that the rules be suspended, Senate Bill 3610 be advanced to third reading, the second reading considered the third and the bill be placed on final passage. If there is no objection . . . All those in favor will say 'aye;' and those opposed say 'no.' The motion is carried, Senator."

Senator Rasmussen: "I think Mr. President, that the Constitution would enter into . . . ."

President Cherberg: "The President does not rule on Constitutional matters. The measure is on final passage. Senator Pullen."

Senator Pullen: "Just real quick, I wanted to indicate, although it is a common misconception, there is nothing in the Constitution that says we have to read a bill three times."

President Cherberg: "The secretary will please call the roll on the final passage of Senate Bill 3610."

With a vote of 41 ayes, and 8 nays, the bill was declared passed.
Senator Clarke: "I move that the Senate do now consider Senate Bill 3890, page 43 on the pink calendar; and I also have another motion to follow that."

POINT OF ORDER

Senator Rasmussen: ". . . to suspend the rules will still show in the record that the bill was improperly handled and was passed without second, being moved to second reading. The record may not be expunged from that . . . . My question, I guess is, the record is not expunged . . . ."

RULING BY THE PRESIDENT

President Cherberg: "Senator, the secretary advises that the records will show the proceedings as they occur."

The President declared the question before the Senate to be the roll call on final passage of Engrossed Senate Bill No. 3610.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 3610 and the bill passed the Senate by the following vote: Yeas, 41; nays, 8.

ENGROSSED SENATE BILL NO. 3610, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Clarke, Senate Bill No. 3360 was made a special order of business for 4:58 p.m. today.

SECOND READING

SENATE BILL NO. 3890, by Senators Jones, Moore and Hemstad:
Modifying provisions on commercial paper.

MOTIONS

On motion of Senator Hemstad, Substitute Senate Bill No. 3890 was substituted for Senate Bill No. 3890 and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Hemstad, the rules were suspended, Substitute Senate Bill No. 3890 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

NOTICE OF RECONSIDERATION

Having voted on the prevailing side, Senator Lysen served notice that he would, on the next working day, move for reconsideration of the vote by which Engrossed Substitute Senate Bill No. 3640 passed the Senate earlier today.
POINT OF ORDER

Senator Rasmussen: "Wouldn't it appear to the President that Senator Clarke is trying to evade the concurrent rules which provide for a cutoff at 5 o'clock p.m. on April second? I raise that question because he just placed one bill that has always been the President's ruling in the past, that the particular bill that you are working on at the cutoff time, would be permitted to go to conclusion? And it would now appear that Senator Clarke is trying to evade the rule by putting numerous bills on and I frankly find that out of character for Senator Clarke. He has not been that type of a person. He is the kind of a man I would trust with my pocketbook any place. What I am not so sure, are his motives at this time.

"Would the chair rule on...?"

RULING BY THE PRESIDENT

President Cherberg: "The President, in the past, and this is strictly from memory, Senator Rasmussen; if a bill is made a special order of business, at say 4:58, that if the Senate had under consideration another bill and that bill progressed past, still being considered past 5 o'clock, the President would permit the consideration of the one bill, if it is special order of business at 4:58. That has been the custom in the past, as the President recalls."

Senator Rasmussen: "You would not permit bringing up a new bill, then, after 5 o'clock?"

President Cherberg: "The President has permitted the one special order of business following 5 o'clock."

PARLIAMENTARY INQUIRY

Senator Shinpoch: "Mr. President, I am somewhat confused. If I remember correctly, we have a special order of business at 4:58; there is a motion for another special order of business at 4:59. If we take up the bill that is on special order of business at 4:58 and that runs past 5 o'clock, will the 4:59 still be allowed?"

REPLY BY THE PRESIDENT

President Cherberg: "Senator, the President and the very capable Secretary have conferred on this matter. Technically, Senate Bill No. 3360 was under consideration prior to 5 o'clock, and in the past, consideration of this, if it ran past 5 o'clock, the special order of business would still be permitted after 5 o'clock.

"In other words, 3360 be considered, acted upon, and then the special order of business after that."

POINT OF ORDER

Senator Rasmussen: "The President, Senator Clarke made a motion. The President did not place that motion because I raised the point of order at that time.

"I would call the President's attention to the fact that it is now two minutes past 5 o'clock, the motion has not been placed, so I think it would become moot. The motion that is pending has no effect on the cutoff."

The President declared the question before the Senate to be the roll call on final passage of Substitute Senate Bill No. 3890.

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 3890 and the bill passed the Senate by the following vote: Yeas, 45; nays, 2; absent or not voting, 2.

Absent or not voting: Senators Deccio, McDermott—2.

SUBSTITUTE SENATE BILL NO. 3890, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SPECIAL ORDER OF BUSINESS

The time having arrived the Senate commenced consideration of Senate Bill No. 3360.

SECOND READING

SENATE BILL NO. 3360, by Senators Patterson, Charnley and Zimmerman: Providing for parks and recreation service areas.

MOTIONS

On motion of Senator Fuller, Substitute Senate Bill No. 3360 was substituted for Senate Bill No. 3360 and the substitute bill was placed on second reading and read the second time in full.

POINT OF ORDER

Senator Rasmussen: "My point of order, Mr. President, is a motion was never put to place this bill before the body. It was, Senator Clarke raised a question, I raise a point of order, five o'clock, now five after five, and it was never placed, the motion was never placed, it was something like that bill; that bill that got passed to third reading without even a motion."

REPLY BY THE PRESIDENT

President Cherberg: "The records show, Senator Rasmussen, that Senate Bill 3360 was made a special order of business for 4:58."

Senator Rasmussen: "That was the 4:58 one; then we passed the 4:59 one. I am a little confused on the time . . . ."

President Cherberg: "Four fifty-nine was never placed, Senator."

Senator Rasmussen: "The 4:59 was never placed?"

President Cherberg: "The reason was because the President believes that certain members were trying to create disorder and impede business."

Senator Rasmussen: "That is why it was never placed?"

President Cherberg: "Yes."

Senator Rasmussen: "Thank you, Mr. President."

There being no objection, the Senate returned to the first order of business.

SECOND READING

SUBSTITUTE SENATE BILL NO. 3360, by Committee on Parks and Ecology (originally sponsored by Senators Patterson, Charnley and Zimmerman):
Providing for park and recreation service areas.
The Senate resumed consideration of Substitute Senate Bill No. 3360 from earlier today.
Senator Hurley moved adoption of the following amendment:
On page 14, after line 8, insert a new section as follows:
Sec. 21. Section 46.08.180, chapter 12, Laws of 1961 as amended by section 7, chapter 120, Laws of 1967 and RCW 43.51.680 are each amended to read as follows:
For the protection and conservation of natural resources, and for the safety and enjoyment of the public using the beaches, the Washington state parks and recreation commission (after agreement with the Washington state highway commission) shall establish reasonable regulations for the use and control of vehicular traffic and horses on and along the ocean beach highways as designated and established under RCW 79.16.130, 79.16.160, and 79.16.170: PROVIDED, That the commission shall by regulation prohibit vehicular traffic and horses, other than authorized emergency and public service vehicles, on at least eighteen miles of such highways. The Washington state parks and recreation commission shall cooperate with city police, county sheriffs, and state patrol in enforcing such regulations. PROVIDED, That automobile driving shall be permitted on the beaches subject to the authority of the department of fisheries to prohibit driving over clam beds).

Renumber the sections consecutively.

POINT OF INQUIRY

Senator Pullen: "Senator Hurley, your amendment refers to ocean beach highways as designated and established under various parts of RCW 79.16. I do not have the RCWs in front of me. Can you give me an idea of what the definition of 'ocean beach highways' is?"

Senator Hurley: "Yes, years and years ago when there weren't any very good highways in this state, the ocean beaches were designated as highways, mainly by, I think, a Senator that was on the floor of this Senate; and I would really like to eliminate that, Senator Pullen, but in order to eliminate that in my amendment, it would have had to a number of pages long, so that word 'highways' does not change the designation. I would like to change it to 'recreation areas' and I think you would, too."

Senator Pullen: "One final question . . ."

Senator Hurley: "I was just going to say it is because that exists in the law and we decided we could preserve eighteen miles of the beach and still call them 'highways'."

Senator Pullen: "Could you tell me, we are talking only about public beaches, or would there be any private property included under your amendment?"

Senator Hurley: "No. No private property included at all, it is all public ocean beach."

POINT OF INQUIRY

Senator Haley: "Senator Hurley, how did the number 'eighteen' happen to be chosen? Is that some special number better than 'twelve' or 'fifteen' or 'twenty' or . . . ?"

Senator Hurley: "Yes, thank you. It is a special number. A number of years ago, the parks department established 11.5 miles and they made rules and regulations that were adhered to for a long time, and then it was brought to court and the court said that they did not have legislative authority to establish this 11.5 miles; and so various bills that I have brought before the house, and in the bill that I asked staff to work on last summer, I said I want to make it extremely reasonable; I just want to preserve some beach for kids because beaches are so dangerous for kids in the state of Washington. And so I said, 'Let's not establish any more than we have to' and this relates, as I said, mainly to areas, there is one area, Ledbetter Point, and that has been preserved as a refuge, a refuge for birds and things like this. And that is designated as part of this beach.

'There is another down south of Fort Canby and the land is bad to drive on but people can walk on it and we thought, 'Well, we'll preserve that.'
"There are other places that the department knows very well I have designated for safe access for pedestrians, and they are mainly in five- and six-mile areas, just near the ocean beaches, I guess near the Ocean Beach state park.

"And that is why we established only eighteen point miles. I thought in establishing only eighteen out of eighty, could I eliminate some of the objections that I presume I am going to get; and I cannot understand that objection."

Debate ensued.

Senator Talley moved the amendment by Senator Hurley be laid upon the table.

"In the spirit of fun and exuberance, when a matter does offend somebody and it must be considered an indiscretion and that is certainly the situation at this time. And so I hope that those, and I know that there are many, who were offended, will at this time, take this public apology in the manner in which it is offered. Thank you."

The President called the Senate to order at 11:02 a.m.

PERSONAL PRIVILEGE

Senator Shinpoch: "Mr. President, ladies and gentlemen. Senator Haley made an apology for a mailing that he had made or distributed to us, and I think that is nice, he made an apology.

"But I guess that has not relieved my anger and I feel personally impugned by this, the piece of scurrilous material and I do not like it. There may be people who think that this is humor, but I am not one of those.

"I would not think this was funny even if it were in private, much less public and being distributed by young people to members’ offices. To me, at least, to have young people, pages, who are mostly young women, distribute this kind of material, is unconscionable. Now the pages come here to find out how government works and to assist in that. I can find no way in the world that they can get a good impression of us by having to handle this kind of material. And if this is what they are going to learn about government, it is not going to do them much good and they are not going to have a very high opinion of us, or of the system that works.

"And if this is an example of the highroad or the high-mindedness that the Republican leadership talked about, then I do not want to travel your high-mindedness highways. This is not my kind of road.

"I think it is nice that we had an apology but I guess it fits in with the rest of us, this is another time that we did something and then we apologized for it, or we did something and then we tore something up and said we would study it. And I simply do not like it. Thank you."

REMARKS BY SENATOR HALEY

Senator Haley: "Mr. President, if I may respond to Senator Shinpoch’s point of personal privilege.

"I was taken to task by my leadership on this, and rightfully so, and so I do not think that Senator Shinpoch should cast any blame or aspersions on Republican leadership."

The President declared the question before the Senate to be the roll call on the motion by Senator Clarke that the Senate resolve itself into the Committee of the Whole for the purpose of considering Senate Bill No. 3636.

REMARKS BY SENATOR CLARKE

Senator Clarke: "To show that the committee of the whole conducted no business and therefore there would be nothing to report."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Fleming, Senator Clarke's point was well taken inasmuch as nothing occurred in the committee of the whole."

Senator Fleming: "Thank you, Mr. President, I just wanted to make sure that that was reported to the body. Some of us sitting here might not have known that."

President Cherberg: "Well, the conclusion when the Senate dissolves the committee of the whole, the President is sure there will be a report made."

Senator Shinpoch demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the motion by Senator Clarke that the Senate resolve itself into a Committee of the Whole for the purpose of considering Substitute Senate Bill No. 3636.

ROLL CALL

The Secretary called the roll and the motion by Senator Clarke carried by the following vote: Yeas, 25; nays, 23; absent or not voting, 1.

Voting yea: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallaghan, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer—25.

Substitute Senate Bill No. 3636 was considered in the Committee of the Whole and reported back to the Senate, President Pro Tempore Guess presiding, with the recommendation that it do pass as amended.

On motion of Senator Scott, the reading had in the Committee of the Whole was considered the second reading of Substitute Senate Bill No. 3636.

On motion of Senator Scott, the following amendments adopted in the Committee of the Whole were adopted by the Senate:

On page 50, starting on line 4 after "basis" strike all material down through "staff units" on line 9 on page 50.

On page 50, starting on line 26 after "enrolled" strike all material down thru "subsection" on line 30 on page 50.

President Cherberg assumed the Chair.

Senator Scott: "Mr. President, I move that the rules be suspended, that Substitute Senate Bill. . . ."

President Cherberg: "Senator Scott has moved that the reading had in the committee of the whole be considered a second reading of the bill. As many as are in favor will say 'aye.' As many as are opposed will say 'no.' The motion is carried. Senator McDermott."

Senator McDermott: "Mr. President, I have an amendment; we are now on second reading. There is an amendment on the desk, Mr. President."

President Cherberg: "Senator Bottiger."
POINT OF ORDER

Senator Bottiger: "Mr. President, point of order. What I understood Senator Scott's motion was to suspend the rules which would require a two-thirds vote."

President Cherberg: "To adopt the report of the committee as the President believes requires."

Senator Bottiger: "That would be a majority vote, but he said 'to be considered the second reading' that the bill be placed on final passage."

President Cherberg: "Well, the bill is on second reading now."

POINT OF ORDER

Senator Shinpoch: "Mr. President, you ruled in what I was attempting to ask you, that the point of order that I intended to raise was, would it not take a suspension of rules to have gone directly from the committee of the whole to third reading? With an amendment on the desk for second reading when we came out of the committee of the whole, is it not necessary to consider that amendment?"

Senator Scott: "Mr. President, as a demonstration of courtesy to my counterpart across the way, I am going to withdraw the motion, although I know that, for the fourth time today, we are going to talk about the 'gang of six.'"

Senator McDermott moved the following amendments be considered and adopted simultaneously:

On page 27, beginning on line 28, strike all of subsection (2) of section 47, and renumber the remaining subsection accordingly.

On page 28, beginning on line 5, strike all of subsection (3) of section 47.

POINT OF INQUIRY

Senator Rasmussen: "Senator Bottiger, on line 12, page 28, I will quote from line 12, 'The plan is subject to approval by a select legislative task force of six members appointed by the president pro tem. . .' which is a very great change, we have always depended on Governor Cherberg for his fairness in choosing the members of a committee. And it is an unusual approach. But in all committees that we usually have appointed, we spell out the number and make sure that the Senate is equally represented with the House. That is one question.

"The other one is, and it further states on line 14, 'The plan, subject to amendment by the legislative designees, shall be implemented no later than October, 1981.' In your opinion, does this delegate legislative powers of the legislature to a committee we know not what, whether it is four or five House of Representatives members, or one Senator or what it can be? It seems just the wrong approach, and I wondered what your legal opinion would be?"

Senator Bottiger: "Well, as to the president pro tem provision, it is a direct violation of the Senate rules, Senate rule 1, subsection (6); and of course the Senate rules are part of any record that would be taken to court as to the appointment, who makes the appointment.

"As to the second portion of your question, not only is it delegation of the legislative authority to a committee which has final action and not subject to further review and final passage by the legislature, but it is probably, in my opinion, a violation of the separation of powers, and I gave the example in the committee of the whole of a state case where we tried to appoint a member of the legislature to an executive board and have him vote and the court said he could not do that. So I think that this section in this bill is subject to several grounds for constitutional challenge."
POINT OF ORDER

Senator Clarke: "Mr. President, I think that the so-called privilege of question and answer is being abused, and for this particular reason, it has already been debated that there is some possible question among the members with respect to various amounts of legality. Now if we are endeavoring to make a record in the journal with respect to legislative intent and we have a question by two people who are on the same side of a project and that then goes into the record without some sort of a challenge, it could be construed as evidencing the legislative intent of this legislature, and it certainly does not evidence the legislative intent of this side of the aisle.

"So I submit that the use of the facility of questions and answers to get in the journal is being abused and that this type of repartee should not be a part of the journal for the very reasons that I have stated, in that it is not a legitimate expression of legislative intent which should go to a court in trying to determine what the legislative intent is."

POINT OF INQUIRY

Senator Rasmussen: "Senator Bottiger, by your answer then say that this committee is being delegated executive powers by reason of being able to control the way the money is spent by the department of social and health?"

Senator Bottiger: "Well, Senator, the language speaks for itself. It says that the department is supposed to come up with a plan which changes the allocation and the appropriation and the qualifications of people who might be eligible for assistance. And then it says a group of legislators, and they are not specified as to how many Senators, how many House members, whether it is bipartisan or partisan, but a group of legislators can amend it, adopt it, do whatever they want with it; and it speaks for itself. I am sure any court would see the three questions that I have raised, it is going to be up to them to decide it, but obviously there are grounds for challenging."

POINT OF INQUIRY

Senator Scott: "Senator Clarke, you believe that the questions asked or the responses given by Senator Bottiger to Senator Rasmussen's questions can be in any way construed as legislative intent?"

Senator Clarke: "Senator Scott, I am quite sure the intent of Senator Bottiger who made the response, but I can assure you that they are not the intent of the majority on this side of the aisle with many of whom I have discussed the question. I am not prepared at this time to go into any legal analysis, but I simply do want the record to show that the expression does not constitute the legislative intent of the majority of the Senate."

REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "Let the records show also that supreme court judges are known to be able to read for themselves."

PARLIAMENTARY INQUIRY

Senator Shinpoch: "Mr. President, we are now on second reading and dealing with an omnibus appropriation bill, is a simple majority all that is required to pass an amendment deleting an item? Is this amendment before us?"
President Cherberg: "The President rules that a majority vote is necessary for the adoption of the amendment."

POINT OF INQUIRY

Senator Bauer: "Senator Lee, on page 58, on institutional education under department of superintendent of public instruction, there is, the funding is only designated for one year of the biennium for the institutional education. Is that any effort on the part of this body to look at the potential of closing the schools for the deaf and the blind in the near future?"

Senator Lee: "No, Senator Bauer, that is not the reason for the one-year appropriation, and in fact, if that were, I would certainly resist it because I think we have done far too much deinstitutionalizing of children who profit by those kinds of facilities.

"The reason for that section being for one year, is that we have added a whole new category of teaching in institutions and that is within group homes. We felt that it needed to be continued at its present rate, but that we should be looking at it to be sure that it is properly done and is really serving the real needs of these people that have already been deinstitutionalized and are being put into group homes."

Senator Bauer: "Thank you, Senator Lee, and I appreciate that attitude of yours and I hope that is the prevailing attitude of the Senate and the entire legislature."

POINT OF INQUIRY

Senator Bauer: "Senator Scott, I was assigned to the committee on sundry claims and because of whatever circumstances we only held one meeting, did not make a final judgment on any of the requests that were made in there. We did take testimony from the groups.

"I see here in the biennial budget, some of those are listed here without committee recommendation, of course; and I wonder about the others or what is the position of the committee, Senator?"

Senator Scott: "Senator Bauer, I think it was just after you left the ways and means committee meeting two days ago, that we considered additional sundry claims as a part of the second supplemental budget which will be before this body either Monday or Tuesday."

Senator McDermott demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendments by Senator McDermott.

ROLL CALL

The Secretary called the roll and the amendments by Senator McDermott were not adopted by the following vote: Yeas, 23; nays, 25; absent or not voting, 1.

Absent or not voting: Senator Lysen—1.
On motion of Senator Scott, the rules were suspended, Engrossed Substitute Senate Bill No. 3636 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

PROTEST

Sid Snyder:
I have served with pride in this Senate for 24 years under the leadership of four governors.

It is extremely hard for me to accept the fact that we are not providing for the needs of our old and sick people who have no food or shelter, our mentally ill and retarded.

We are denying an education to some of our young by our enrollment limits; a chance of vocational training is practically gone. We are legislating away things our constitution guarantees.

I think we, as elected Senators, regardless of party, should send this budget back to committee and see if we can't do better. As I have stated, we can do better.

I want this entered in the Senate Journal.

MOTION

Senator Clarke moved that all measures on the Regular Second Reading Calendar be returned to the Committee on Rules with the exception of the
following: Senate Bills 3554, 3307, 3084, 3287, 3242, 4119, 3263 and Senate Joint Resolutions 111 and 115.

POINT OF INQUIRY

Senator Goltz: "Senator Clarke, if a bill includes a fee or ability for a local unit of government to increase its revenue, would that be eligible under the cutoff?"

Senator Clarke: "Senator, that is not a matter that I would be ruling upon, the President would be ruling upon that and if you have some of those bills that you would like to have considered individually, then I suggest that you move to amend my motion by adding that particular bill to those that are not referred to rules."

On motion of Senator Goltz, Senate Bill No. 3390 will be included in the exceptions and whether that bill survives the cutoff will be decided when the bill reaches the calendar.

On motion of Senator Bottiger, there being no objection, Senate Bill No. 3931 is also excepted from the measures being returned to rules.

The motion by Senator Clarke, as amended, carried.

MOTIONS

Senator Clarke moved all measures on the Consent Calendar be returned to the Committee on Rules with the exception of the following: Senate Bills 3726, 3355, 3928, 3534, 3612, 3796, 3884 and 3204.

On motion of Senator Bottiger, Senate Bill No. 3512 will also be excepted from the measures to be returned to the Committee on Rules.

The motion by Senator Clarke, as amended, carried.

SECOND READING

SENATE BILL NO. 3726, by Senators Scott, Craswell, Gallaghan and Gould: Providing for higher interest rates on delinquent property taxes.

MOTIONS

On motion of Senator Scott, Substitute Senate Bill No. 3726 was substituted for Senate Bill No. 3726, and the substitute bill was placed on second reading and read the second time in full.

President Pro Tempore Guess assumed the Chair.

Senator Ridder moved the following amendments by Senators Ridder, Gaspard and Bauer be considered and adopted simultaneously:

- On page 1, line 17, after "the" strike "greater" and insert "lesser"
- On page 1, line 24, after "exceeds" strike "twenty" and insert "twelve"

Debate ensued.

POINT OF INQUIRY

Senator Talley: "Senator Zimmerman, what about the people that are desperate and cannot pay their taxes?"

Senator Zimmerman: "I think that the bill does certainly offer the opportunity for some of that to be taken care of and I am certainly aware that there will be some situations that are going to be difficult. But in this particular instance, I think we are really looking at the big total, the big totals that have been abusing it."
Further debate ensued.
Senator Ridder demanded a roll call and the demand was sustained.
President Cherberg resumed the Chair.
The President declared the question before the Senate to be the roll call on the amendments by Senators Ridder, Gaspard and Bauer.

ROLL CALL

The Secretary called the roll and the amendments were not adopted by the following vote: Yeas, 23; nays, 25; absent or not voting, 1.
Voting nay: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer, Zimmerman—25.
Absent or not voting: Senator Shinpoch—1.

The President declared the question before the Senate to be the roll call on the amendment by Senators Ridder, Gaspard and Bauer.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 24; nays, 25.
Voting nay: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer, Zimmerman—25.
Senator Ridder moved adoption of the following amendment by Senators Ridder, Gaspard and Bauer:
On page 4, line 8, after "of" strike "((five)) three" and insert "five"
Debate ensued.

POINT OF INQUIRY

Senator Ridder: "Yes, a couple of questions. If Senator Hansen's neighbor were 58, where would she be? She is not eligible for that tax deferral program. She may have a very limited income and that may not include enough money to cover the taxes for her very inflated property and her opportunities for employment at that age are severely limited even though we have laws against age discrimination.
"Senator Newhouse is off the floor; I would ask him to yield because he said there was a way we could take care of those people and I would like to know that for the benefit of those people who come to me as Senator Moore's constituents came to him last spring. Senator Newhouse, you had mentioned that there were ways of taking care of those situations, if someone was not able to pay their taxes."
Senator Newhouse: "Obviously we have exemptions for taxes for senior citizens which is largely what people are talking about."

Senator Ridder: "Well, no, I just mentioned someone who is 58 who has a pension and very little income isn't eligible for the tax deferral, or was that the program that you meant? I just wish I knew what you had been referring to."

Further debate ensued.

POINT OF INQUIRY

Senator Hughes: "Senator Ridder, even assuming that this 58-year-old person could secure a second mortgage, what interest rate would they be paying on that mortgage?"

Senator Ridder: "Well, I assume from what Senator Newhouse and Senator Scott mentioned, no, Senator Jones I think, 14% at least. I do not know how many of you have tried to borrow even on a standard mortgage of somebody who is fairly employable. Since my husband retired, we wanted to help our daughter in buying a home. We had to have our employed son co-sign; I have to tell you Senate salary even if you own some property, is not sufficient to borrow on a small one-family home.

"I would suggest you know you are living off your capital if you borrow on a second mortgage; and I think by the time that five years is up, that misstatement I made to Senator Newhouse earlier, would have been true."

Senator Ridder demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senators Ridder, Gaspard and Bauer.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 24; nays, 25.

Voting nay: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer, Zimmerman—25.

There being no objection, on motion of Senator Ridder, an amendment by Senators Ridder, Gaspard and Bauer to page 4, line 13 on the desk of the Secretary of the Senate was withdrawn.

Senator Scott moved the rules be suspended, Substitute Senate Bill No. 3726 be advanced to third reading, the second reading considered the third, and the bill be placed on final passage.

Senator Rasmussen demanded a roll call.

There being no objection, on motion of Senator Scott, the motion to advance Substitute Senate Bill No. 3726 was withdrawn.

Making miscellaneous changes in laws regulated by department of agriculture or director thereof.

The motion by Senator Hansen carried and the committee amendment was adopted.

On motion of Senator Benitz, the following amendment was adopted:
On page 32, after line 9, insert the following:

"(6) The name and address of the purchaser: PROVIDED, That the name and address of the purchaser may be deleted from the record furnished to the consignor."

On motion of Senator Benitz, the rules were suspended, Engrossed Senate Bill No. 3355 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

**POINT OF INQUIRY**

Senator Rasmussen: "Senator Benitz, a person wilfully, maliciously killing honey bees is guilty of a misdemeanor rather than tend a hundred dollar fine. What fine would be subject to . . . misdemeanor, two hundred and fifty dollars, up to?"

Senator Benitz: "That question could be answered by a member of the judiciary committee."

Senator Rasmussen: "Who imposes a fine? Do they go to court and are they entitled to a jury trial? I happened to kill one or two honey bees in my life and I just did not want to get stung on this bill."

Senator Benitz: "I do not think you have any problem. This addresses the commercial operation of the bees and would probably not be heard at all unless someone walked into the middle of the beehives and started kicking them over or putting chemical in illegally, that is what it addresses."

**REMARKS BY SENATOR NEWHOUSE**

Senator Newhouse: "Mr. President, Senator Rasmussen, I think Senator Bottiger raised that question the other day and we held this bill back; and as I recall, Senator Bottiger, you found that there are other portions of the statute that already make this a misdemeanor and it is no change from existing laws, is that right?"

**REMARKS BY SENATOR BOTTIGER**

Senator Bottiger: "Mr. President, that is correct. Much to my surprise, in 1931, the legislature made it a misdemeanor to kill a honey bee, and so I guess that is."

**ROLL CALL**

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 3355, and the bill passed the Senate by the following vote: Yeas, 49.

*ENGROSSED SENATE BILL NO. 3355, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.*

The Secretary commenced reading the Committee Report on Gubernatorial Appointment 424, Eustace "Sonny" Vynne.

PARLIAMENTARY INQUIRY

Senator Williams: "Point of order, Mr. Chairman. Yes, Mr. President.
"Gubernatorial appointment, Mr. 'Sonny' Vynne, as a member of the parks and ecology committee, I have some question as to what the status of that appointment is. I recognize that the committee voted on it yesterday; however, as I understand it, I believe the appointment itself was before the body or on the desk. Could you give us information as to where that appointment is?"
President Cherberg: "Senator Williams, the gubernatorial appointment of Mr. Eustace 'Sonny' Vynne, Jr., as a member of the state parks and recreation commission, was on the desk of the Secretary pending a ruling or answer to an inquiry by Senator Hurley."

Senator Williams: "That being the case, then the action by the committee really was not proper or . . . ."

President Cherberg: "The President believes that your remarks are well taken, Senator Williams."

Senator Williams: "In other words, may I ask then, where that appointment is at this point in time?"

President Cherberg: "The President believes that the proper procedure would be to reply to Senator Hurley's point of order."

President Cherberg: "The President finds that the preceding discussion on Senator Hurley's Point of Order established the following:

"The motion recommending Eustace 'Sonny' Vynne, Jr., as a member of the State Parks and Recreation Commission received a 5-5 tie vote in the Parks and Ecology Committee.

"Senate Rule 21(5) provides in part that 'The passage of a bill or action on a question is lost by a tie vote. . . . ' Senate Rules are applicable to committee action where appropriate (Rule 74, Reed's).

"Therefore, the Report of the Parks and Ecology Committee on the appointment of Eustace 'Sonny' Vynne, Jr., is not properly before the Senate and thus Senator Hurley's Point of Order is well taken."

Senator Hurley: "My point of order is that the signup sheet relating to gubernatorial appointment 424 is again illegally before the Senate, because the bill itself was not in the possession. . . ."

President Cherberg: "The President just ruled on that particular point, Senator Hurley."

Senator Clarke: "In view of the President's ruling, does this mean that the appointment is still in the committee?"

President Cherberg: "Technically, it will be returned to the committee, Senator, for any action the committee may. . . ."

Senator Clarke: " . . . it will be returned to the committee?"

President Cherberg: "Yes, sir."

SENATE BILL NO. 3221.

MOTIONS

On motion of Senator Clarke, the Senate advanced to the eighth order of business.

On motion of Senator Clarke, the Senate commenced consideration of Senate Resolution 1981–49.

MOTION

On motion of Senator Hayner, the following resolution was adopted:

SENATE RESOLUTION 1981–49

By Senators Hayner, Hurley, Jones and Haley:
WHEREAS, The Washington Association of Future Homemakers of America, popularly known as the FHA, which is sponsored by the Washington State Superintendent of Public Instruction, celebrated its thirty–fifth anniversary in 1980; and

WHEREAS, The FHA is an organization of thousands of home economics students, both girls and boys, in junior and senior high schools throughout the State of Washington who are extremely interested in leadership training through home, school and community participation; and

WHEREAS, These young American leaders feel it is important to develop an interest in home economics, home economics careers and other related occupations; and
WHEREAS, They strive to encourage democracy through cooperative action in the home and in the community and to become aware of the multiple roles of men and women in today's society; and

WHEREAS, The people of the State of Washington recognize the contributions the Washington Association of Future Homemakers of America has made to the state and to its youth;

NOW, THEREFORE, BE IT RESOLVED, That the Senate commends the Washington Future Homemakers for thirty-five years of family and community service, and expresses its sincere appreciation for the multitude of projects undertaken for the benefit of our communities; and

BE IT FURTHER RESOLVED, That the Senate commends Amy Montierth, of Mesa, Washington, who has been honored for her services to the organization by being selected the 1981 National President; and

BE IT FURTHER RESOLVED, That copies of this Resolution be transmitted by the Secretary of the Senate to the Washington Association of Future Homemakers of America, to Amy Montierth, and to each active chapter within the State of Washington.

MOTIONS

On motion of Senator Clarke, the Senate commenced consideration of Senate Resolution 1981-42.

On motion of Senator Hughes, the following resolution was adopted:

SENATE RESOLUTION 1981-42

By Senators Hughes, Hurley, Conner, Woody, Bauer, Hansen, Charnley, Shinpoch, Ridder, Williams, Fleming, Rasmussen, Talley, Bottiger, Peterson, Gaspard, Wojahn, Vognild, Lysen, Talmadge, Moore, McDermott, Goltz and Wilson:

WHEREAS, John Joseph Porter has served the people of the City of Spokane and the State of Washington for thirty-one years in the area of fire protection and prevention; and

WHEREAS, He has exhibited a deep sense of loyalty, exemplary dedication, and the highest professional standards in his public service; and

WHEREAS, He has continually and diligently worked for the well-being of the people by fighting any effort to compromise the safety of life; and

WHEREAS, As a loyal public servant he has made significant contributions to the quality of life in Spokane and the State of Washington;

NOW, THEREFORE, BE IT RESOLVED, By the Washington State Senate that we pause to honor him and commend him, and show him the deep respect and appreciation that we, and the people of Washington State, have for him and his work as a public servant; and

BE IT FURTHER RESOLVED, That the Secretary of the Senate shall transmit a copy of this resolution to John Joseph Porter.

REMARKS BY SENATOR HUGHES

Senator Hughes: "Every now and then the Senate provides an opportunity to say 'Thank you' to someone who has served in the true ideals of the public servant, with judgment, with integrity, and perhaps most of all, with political courage."
"Jack Porter is one of those people. We are all well aware of the horrors of the fires of Las Vegas the last few months. It is now a very popular issue to be concerned about fire standards. Jack Porter has dedicated thirty-one years to that service and he constantly battled with some of his colleagues because he has refused to compromise on those standards. And of all the individuals I have had the opportunity to observe for a lengthy period of time, I would say that Jack Porter has done more to represent the interests of the people than any public servant I have had the opportunity to work with."

"I am pleased that all the members on my side of the aisle join with me to sign this resolution. I am hopeful that members on the other side of the aisle will do also. "Jack Porter is truly a man of courage; he deserves our recognition today."

REMARKS BY SENATOR HURLEY

Senator Hurley: "Mr. President, I want to join with Senator Hughes and commend this outstanding example of courageous and honorable public servant. He is respected and honored by all of the population of the City of Spokane."

"I recommend the adoption of the resolution."

MOTION

On motion of Senator Clarke, the Senate commenced consideration of Senate Resolution 1981-50.

MOTION

On motion of Senator Bluechel, the following resolution was adopted:

SENATE RESOLUTION 1981—50

By Senators Bluechel, Gaspard, Hemstad, McDermott and Metcalf:

WHEREAS, The House of Representatives has superior numbers and is sometimes noted for hasty actions;

WHEREAS, The Senate has a tradition of quality of performance albeit sometimes slow deliberations;

WHEREAS, It is in the best interests of the State of Washington to encourage interactions between the two chambers of the Legislature;

WHEREAS, Any activity of the Legislature naturally attracts the interests and sometimes the participation, of those most concerned by-standers in the Third House and the Fourth Estate;

NOW, THEREFORE, BE IT RESOLVED, That the Senate challenge the House of Representatives to participate in the First Annual Legislative Fun Run, such run to be held on April 20, 1981, commencing at 8:30 a.m. from the Legislative Building proceeding around Capitol Lake through historic Tumwater and returning in time to conduct the state's business of the day;

AND, BE IT FURTHER RESOLVED, That the Senate and House teams shall include members from each of the respective Caucuses and such staff as are willing or coerced into participating;

AND, BE IT FURTHER RESOLVED, That negotiations between the chambers concerning the details of the Legislative Fun Run will be worked out by a Conference Committee consisting of a representative of each of the Caucuses, with any unsettled differences to be disposed of in the typically fair and impartial manner by the President of the Senate;
AND, BE IT FURTHER RESOLVED, That the Third House and the Fourth Estate will be extended an invitation to participate on any terms to which they may suggest subject to the approval of the Conference Committee;

AND, BE IT FURTHER RESOLVED, That the Secretary of the Senate is directed to formally notify the House of Representatives of this event by submitting a copy of this resolution to allow Senate members sufficient time for preparation in recognition of their more senior Legislative standing.

There being no objection, the Senate returned to the sixth order of business.

SECOND READING

The bill was read the second time by sections.

On motion of Senator Goltz, the rules were suspended, Senate Bill No. 3884 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Goltz, how do they handle the drawing for the permits?"

Senator Goltz: "As I understand it, Senator Rasmussen, under the present plan the 4,600 or so, 700 or so, applicants, who send in their applications, these are put into a box and are drawn out of the box by lot. And they draw, this last year there were thirty-two permits drawn and thirty-one of those actually bought the tag to hunt the mountain sheep."

Senator Rasmussen: "Did all thirty-one get a mountain sheep?"

Senator Goltz: "No; of the thirty-one hunters, only eight were successful in taking a sheep."

Senator Rasmussen: "Then this would not be a conservation measure, then?"

Senator Goltz: "This is not a conservation measure. This is strictly a sport for persons who want to hunt these animals for trophy purposes."

Debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 3884, and the bill passed the Senate by the following vote: Yeas, 40; nays, 6; absent or not voting, 3.

MOTIONS

On motion of Senator Gallaghan, Substitute Senate Bill No. 3204 was substituted for Senate Bill No. 3204, and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Gallaghan, the rules were suspended, Substitute Senate Bill No. 3204 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 3204, and the bill passed the Senate by the following vote: Yeas, 40; nays, 8; excused, 1.

SUBSTITUTE SENATE BILL NO. 3204, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

Senator Clarke moved the Senate commence consideration of Senate Bill No. 3554.

Debate ensued.

POINT OF ORDER

Senator Shinpoch: "I would like to request a Ruling on whether 3554 meets the cutoff resolution or not. I have some concerns relative to that; I do not find that the bill by itself meets the cutoff resolution requirement."

At 12:10 p.m., the President declared the Senate to be at ease.

The President called the Senate to order at 12:21 p.m.

The Senate resumed consideration of the motion by Senator Clarke that the Senate commence consideration of Senate Bill No. 3554 and the Point of Order raised by Senator Shinpoch.

RULING BY THE PRESIDENT

President Cherberg: "Substitute Senate Bill No. 3554 is a measure which provides a means to finance local economic and employment development. In order to encourage such development, municipalities are authorized to create a public corporation to finance eligible projects through the issuance of revenue bonds."
"The President therefore finds that Substitute Senate Bill No. 3554 is a measure relating to revenue and that it may be properly considered by the Senate at this time pursuant to Engrossed House Concurrent Resolution No. 3."

The President declared the question before the Senate to be the motion by Senator Clarke that the Senate commence consideration of Senate Bill No. 3554. Debate ensued.

The motion by Senator Clarke carried.

SECOND READING

 SENATE BILL NO. 3554, by Senators Bluechel, Fleming, Ridder, Wojahn, Gaspard, Bauer, Zimmerman and Gallagher (by Governor Spellman, Secretary of State and State Treasurer request):
Implementing law by providing means to finance local economic and employment development.

MOTIONS

On motion of Senator Scott, Substitute Senate Bill No. 3554 was substituted for Senate Bill No. 3554, and the substitute bill was placed on second reading and read the second time in full.

There being no objection, the amendment proposed by Senator Pullen, on the desk of the Secretary of the Senate, will be considered following the amendments by Senator Ridder.

Senator Ridder moved the following amendments be considered and adopted simultaneously:

On page 2, line 33, after "facilities;" insert "(h) single family housing facilities; and (i) utility facilities, etc."

On page 5, line 15, insert:

"(21) "Single-family housing facilities" shall mean any newly purchased dwelling owned and occupied by the owner, provided that such owner obtains only a first mortgage, or deed or (sic) trust, of no more than $75,000, from funds of revenue bonds issued pursuant to this act; provided that such dwellings comply with all local and state energy conservation and other codes, requirements, or guidelines; and provided that at least one half of the proceeds of revenue bonds issued by any public corporation for single-family housing facilities shall be used to finance newly built dwellings."

Renumber accordingly.

POINT OF INQUIRY

Senator Scott: "Senator Ridder, as I read your amendment, up to $75,000 from this source could be applied to a single-family dwelling without any statement having been made as to how much equity the owner has.

"So could I take and apply $150,000 of my own equity and still be eligible for public support to complete my mortgage under your amendment?"

Senator Ridder: "Yes, that is right. The intent is not to finance specifically low income property; the intent is to make it possible to keep the housing market going, and at the same time if you have $150,000, you are providing additional security against the bonding."

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Bluechel, if I heard you right, you could issue bonds to provide a place for the dancing girls to dance because it allows them
continuing activity; but apparently you do not want to finance single-family homes which provide housing and some comfort for the children. Is that correct?"

Senator Bluechel: "That is not correct, Senator Rasmussen. . . ."

Senator Rasmussen: "... I, . . . but must have heard you wrong, then."

Senator Bluechel: "I said that multi-family housing is allowable. These are primarily based at providing industrial-type long-range facilities to provide jobs in each of the local communities."

Senator Rasmussen: "Well, Senator Bluechel, further; you know, of course, that multiple-family housing is very difficult for people with children to get; it is practically impossible to get housing from the apartments, for children."

Further debate ensued.

Senator Pullen demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendments by Senator Ridder.

ROLL CALL

The Secretary called the roll and the amendments were not adopted by the following vote: Yeas, 21; nays, 25; absent or not voting, 2; excused, 1.

Voting nay: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallaghan, Goltz, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Patterson, Quigg, Scott, Sellar, Talley, von Reichbauer, Wilson, Zimmerman—25.

Absent or not voting: Senators Charnley, Newhouse—2.

Senator Pullen moved adoption of the following amendment:

On page 1, line 5, add a new section as follows:

"NEW SECTION. Section 1. This act shall be known and may be cited as the Socialized Economy Act of 1981."

POINT OF INQUIRY

Senator Goltz: "Senator Pullen, would you be willing to change the ferry system to the socialized ferry system; highway system to the socialized highway system?"

Senator Pullen: "If you will offer some legislation, I will give it fair consideration."

Senator Goltz: "We will have the budget bill before us soon enough to do that."

Debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator Pullen, this bill, as well as the Constitutional amendment, are Governor Spellman requests and Secretary of State Munro requests.

"Would it be your judgment that those two good Socialists are pushing this particular bill and Constitutional amendment for some reason we do not understand?"

Senator Pullen: "Neither one of those fine gentlemen is a Socialist. I have the highest regard for both of those people; they are both outstanding individuals and outstanding elected officials. But everyone can make a mistake and I am simply trying to correct the mistake."

The motion by Senator Pullen failed and the amendment was not adopted.
On motion of Senator Williams, the following amendment by Senators Williams and Gould was adopted:

On page 3, line 3, insert:

"(8) Renewable resource shall mean a resource which utilizes solar, wind, hydro, geothermal, bio--mass, or similar sources of energy which are used for electric power generation or which will reduce the electric power or fossil fuel requirements of a consumer."

Renumber the remaining subsections accordingly.

Senator Williams moved adoption of the following amendment:

On page 5, line 30, after "act." insert: "The creation of such a corporation, or any significant change in a corporation's powers, shall be deemed a major action as set forth in RCW 43.21C.030 and the provisions of chapter 43.21C shall apply."

**POINT OF INQUIRY**

Senator Williams: "Senator Bluechel, for the record, and the question is, are you saying that the projects that are the outgrowth of the public corporations that are formed, themselves are subject to all the normal requirements of SEPA, etc., etc.? Is that what ... ?"

Senator Bluechel: "What Senator Williams said is correct; there is no derogation or exemptions whatsoever in this bill for any SEPA requirements under any projects that would normally come under SEPA."

There being no objection, on motion of Senator Williams, the amendment by Senator Williams to page 5, line 30, was withdrawn.

Senator Hughes moved adoption of the following amendment:

On page 5, line 33, after "ordinance" insert ", approved by the voters of the municipality,"

Debate ensued.

Senator Hurley demanded a roll call and the demand was sustained.

Further debate ensued.

**MOTION**

At 1:05 p.m., on motion of Senator Hayner, the Senate adjourned until 10:30 a.m., Thursday, April 9, 1981, at which time the Senate will resume consideration of Substitute Senate Bill No. 3554, and the pending amendment by Senator Hughes.

JOHN A. CHERBERG, President of the Senate.

SIDNEY R. SNYDER, Secretary of the Senate.
Senate Chamber, Olympia, Thursday, April 9, 1981.

The Senate was called to order at 10:30 a.m., by President Cherberg. The Secretary called the roll and announced to the President that all Senators were present except Senator Deccio.

The Color Guard, consisting of Pages Carol Carlton and Cheryl Carlton, presented the Colors. Reverend Coreless V. Hanson, pastor of the United Methodist Church of Olympia, offered the prayer.

**MOTION**

On motion of Senator Clarke, the reading of the journal of the previous day with and it was approved.

**REPORT OF STANDING COMMITTEE**

April 6, 1981.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 31, revising workers' compensation laws (reported by Committee on Financial Institutions and Insurance):

Signed by: Senators Sellar, Chairman; Bluechel, Clarke, Haley, Pullen.
MINORITY recommendation: Do not pass.
Signed by: Senators Bauer, Bottiger, Lysen, Wojahn.
Passed to Committee on Rules for second reading.

**MOTION**

Senator Bottiger moved that Engrossed Substitute House Bill No. 31 be rereferred to the Committee on Ways and Means.
Debate ensued.

**POINT OF INQUIRY**

Senator Bauer: "Thank you, Mr. President. Would Senator Scott yield to a question?"
President Cherberg: "Will Senator Scott yield? Senator Scott declines."
Senator Bauer: "Senator Shinpoch? Being a freshman here on the floor of the Senate and remembering what we did in the House in terms of establishing some kind of a fair and equitable uniform standard for ascertaining whether a bill or not should go to ways and means so that we would not be in a constant fight on every issue, there was a threshold of dollar limits . . . that automatically forced the bill into ways and means.
"Have you, by precedent or rule, adhered to anything of that nature in the Senate?"
Senator Shinpoch: "Senator Bauer, I am not certain that I can answer that with any certainty. I do not recall, in our rules here, that there is any minimum or any set amount that requires a bill to go to ways and means."
"As you recall, in the House, in the House rules we had a rule, when I left there at least, that read '$50,000 or more must go through the ways and means committee,' required action. If it was more than $5,000,000, it required action of the combined ways and means committee, not just the appropriation committee or the revenue committee as the case may be.

"And I simply cannot, I do not recall that it is currently in our rules and I do not recall if it has during the three years that I have been here."

REMARKS BY SENATOR VOGNILD

Senator Vognild: "Thank you, Mr. President. Senator Bauer, in answer to your question, the new majority did establish what they told me at least, was a guideline when they sent Senate Bill No. 3294, the arson reporting rewards bill to ways and means, the guideline at that time, I believe, was $50,000. Anything that had a fiscal impact had to go to ways and means."

MESSAGE FROM THE HOUSE

April 9, 1981.

Mr. President: The House has passed HOUSE CONCURRENT RESOLUTION NO. 23, and the same is herewith transmitted.

VITO T. CHIECHI, Chief Clerk.

MOTION

Senator Clarke moved that the rules be suspended and House Concurrent Resolution No. 23 be advanced to second reading and read the second time in full.

MOTION

Senator Bottiger moved that further consideration of House Concurrent Resolution No. 23 be considered following Senate Bill No. 3390.

Senator Bottiger demanded a roll call.

There being no objection, on motion of Senator Clarke, the motion to suspend the rules and advance House Concurrent Resolution No. 23 to second reading was withdrawn.

The motion by Senator Bottiger carried. House Concurrent Resolution No. 23 will be considered following Senate Bill No. 3390.

MOTIONS

On motion of Senator Clarke, Substitute Senate Bill No. 3554 was ordered held for a later time.

On motion of Senator Clarke, the Senate commenced consideration of Senate Bill No. 3390.
SECOND READING

SENATE BILL NO. 3390, by Senator Goltz:
Expanding the scope of business improvement areas.

MOTIONS

On motion of Senator Quigg, Substitute Senate Bill No. 3390 was substituted for Senate Bill No. 3390, and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Wilson, the following amendment was adopted:
On page 1, line 13, after "establish" insert "after a petition submitted by the operators responsible for 60 percent of the assessments by businesses within the area."

On motion of Senator Quigg, the rules were suspended, Engrossed Substitute Senate Bill No. 3390 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Lee: "Senator Goltz, I know you mentioned about the downtown areas in cities. The bill says 'all counties and all incorporated areas.' I presume that this also includes, then, the unincorporated areas of counties that might have groups of businesses. Would that be correct?"

Senator Goltz: "Just a moment.
"The bill says that '... all counties and all incorporated areas [sic] ... including unclassified cities and towns operating under special charters.'
"Now I believe that, if I understood your question correctly, you are asking whether it could be done . . . ."

Senator Lee: "Well, what I was asking, if the term 'counties' in your understanding of this bill, includes the unincorporated areas of counties?"

Senator Goltz: "Yes, if the counties are involved as a legislative body creating these kinds of improvement areas, I would say 'yes,' it would include the unincorporated areas under the direction of the county government."

POINT OF INQUIRY

Senator Rasmussen: "Senator Goltz, would you enlighten us a little bit on how the county legislative authority would handle the underlined section on page 2 where you go in and explore the number of employees and the square footage and the business and occupation taxes imposed and things like that?"

Senator Goltz: "Senator Rasmussen, this would apply to both the cities and counties and the reason for the various ways of calculating is that the businesses in each area might wish, because some are commercial, some are professional, some are other kinds of business classification. In some cases they might want to use the number of personnel as the basis for the assessment. Some might want to use volume of business.

There is a good reason for having that amount of flexibility so that each city and each county, working with the businesses in the area, can develop the ordinance
which will best work for that area. It is simply a matter of having a flexible, the local choice would be made upon one or more of these different methods of calculating the assessment rate."

Senator Rasmussen: "Well, as I understand your explanation, Senator Goltz, if I were a lawyer or accountant with a high volume, they would examine my business and occupation tax and then would assess my rate of charges, but this won’t be an LID, this will be a business improvement district, so that lawyers and people with high volume, doctors and things, could be assessed higher amount than some little shoe merchant, shoe repair shop?"

Senator Goltz: "Senator Rasmussen, the way it would actually work, is that each business in the area would be required to sign a petition and that petition would recommend to the city council the basis upon which the assessment should be made; so they go back to the city council with a pre, say described plan. When that plan gets to the city council, the city council will have to take it into account as well.

"With the amendment that Senator Wilson added, 60% of the operators of these businesses would have to be involved in the petition. And only then would the city council act.

"The city council could further massage the recommendation by the businesses in the area.

"It is not designed to take advantage of one business over another; it is designed to create a situation where all of the businesses in the area would want the benefit of this legislation. If it does not serve the needs of the business man, the accountant as well as the merchant, this kind of legislation should not be enacted at the local level."

POINT OF INQUIRY

Senator Lysen: "Senator Goltz, out in my area we are basically unincorporated. We are not in an incorporated area.

"What if some of the businesses did not want to participate? They would be assessed anyway? This is a mandatory taxing power?"

Senator Goltz: "That is correct and one of the ways that that is protected in this, is the two-step protection. The first protection is that the businesses, 60% of the operators of those businesses, would have to petition; and the second protection is, that the county government, which would, I assume, look after the people who wanted it as well as the people who did not want it, would have to vote for the creation of this kind of an assessment against the members of that district."

Senator Lysen: "What are the qualifications to sign a petition, is it the landlord who might own the property, or the business man who rents the property? What are the parameters for this, will you come up with the . . . ?"

Senator Goltz: "These are the operators, not the property owners because the assessment is not made against the property owner, it is made against the operators of the business.

"The criteria for them would be that they would want to be assessed; in other words, this is something that originates with the business. They would want to be assessed because it is to their advantage to have business management promotion for the area in which they live.

"If I understood your circumstances correctly, people living in an unincorporated area who are in business, may very well say, 'The only way we are going to get our business promoted in this area, is for us to work together as a business association and we will do that by calling for the city council to designate us as a business improvement area.' And under those terms, those businesses would recommend to the county council the kind of assessment they would want and then the county council would have to pass it.

"But it is true that if it is passed, the assessment would be mandatory."
Senator Lysen: "And the form of the assessment is wide open, they could cover any type of assessment at all. You could have an assessment where you might get the people that refused to sign the petition, say 20% or 25%, are the ones that are, the way the thing would be programmed would be to bear the greatest burden of the assessment.

"Whatever happened to voluntarism? If you want to participate and promote, you do it voluntarily?"

Senator Goltz: "Well, apparently, Senator Lysen, the people that want this bill feel, and there are a lot of small businessmen that want this bill, feel that they spend all their time trying to get people to volunteer and do not spend any time on promoting their business."

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 3390, and the bill passed the Senate by the following vote: Yeas, 40; nays, 8; absent or not voting, 1.

POINT OF INQUIRY

Senator Rasmussen: "Senator Quigg, in the resolution, provides for the, 'Recognize the need for the development of an adequate and effective data base with computerized collection; . . . ' and so forth. That is one item I would like to have some information on, Senator Quigg.

'And on line 23, 'Provide for a review of existing laws and rules which may have an inhibiting effect on our state's foreign trade and business; . . . ' Are you aware of any rules or regulations or laws that we have that are inhibiting foreign trade at the present time, and the last land commissioner we had was defeated on the basis of log exports, the new land commissioner is taking the same position as the previous land commissioner on the export of logs, that it should continue.

'But we have no laws or rules that I know of that are inhibiting foreign trade at the present time. Could you enlighten me?"

Senator Quigg: "Senator Rasmussen, as these kinds of impediments to foreign trade are noted and identified, I think it would be wise to say the, addressed and eliminated to whatever extent possible and I am sure with your voluminous knowledge of the laws of the state of Washington, I can look to you for that kind of assistance because I am sure you are concerned about the vital trade implications of the Port of Tacoma on the state of Washington and people in your district as well as I am in my district."

I really do not understand the need for this. Maybe you could explain it a little more fully. Why do you have to go outside of the uniform commercial code? It is very important."

President Cherberg: "Senator Newhouse."

Senator Newhouse: "Mr. President, ladies and gentlemen. As I recall the testimony in committee, Senator Rasmussen, both sides, the artists and the gallery owners actually carry on normally this type of operation, anyway, and what it is designed to do is to say that the gallery owner will be insured so that the art object will be insured if it is lost or damaged or destroyed while in the custody of the gallery owner. This would protect the interest of the artist.

Enacting the Washington uniform limited partnership act.

REPORT OF STANDING COMMITTEE

March 31, 1981.

SUBSTITUTE HOUSE BILL NO. 112, enacting the Washington uniform limited partnership act (reported by Judiciary Committee):

MAJORITY recommendation: Do pass with the following amendments:

On page 31, line 21, section 67(1), after "as of" strike "October 1, 1981" and insert "January 1, 1982"

On motion of Senator Hemstad, the rules were suspended, Substitute House Bill No. 112, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Wilson: "Senator Hemstad, without going into elaborate detail, I am attracted by a statement in the digest which says, 'This bill makes limited partnerships more akin to corporations than they are now.' Could you tell me a little bit about what that means?"

Senator Hemstad: "Senator Wilson, a limited partnership structure incorporates some aspect of a partnership and other aspects of the limited liability of a corporation. A limited partner is entitled to participate only to the extent of his contribution to the partnership, but then his liability is limited to that extent. . . . not have general liability the way either a proprietor does nor the way a general partner, the general partner of a limited partnership does."
So he acts more like a shareholder in a corporation but it has the attributes of a partnership in terms of being able to pass through profits and losses, for example, for tax purposes, but the limited partner cannot participate directly in the management of the corporation, I am sorry, the partnership, in the way that the general partner does.

That has been the standard for many years, but now this revised uniform act makes various changes, further clarifies the area in management where the limited partner can participate and defines more precisely the nature of his limited liability.

Senator Wilson: "Then, essentially however, or I should say, a limited partner retains the same essential characteristics under this bill as he did before?"

Senator Hemstad: "That is correct."

SECOND READING

SUBSTITUTE SENATE BILL NO. 3554, by Committee on Commerce and Labor (originally sponsored by Senators Bluechel, Fleming, Ridder, Wojahn, Gaspard, Bauer, Zimmerman and Gallagher (by Governor Spellman, Secretary of State and State Treasurer request):

Implementing law by providing means to finance local economic and employment development.

The Senate resumed consideration of Substitute Senate Bill No. 3554 on second reading. On April 8, 1981, the bill was amended by Senators Williams and Gould. Senator Hughes had moved adoption of the following amendment on that day and the bill was held for consideration on April 9, 1981. A roll call by Senator Hurley had been demanded and the demand was sustained at that time.

On page 5, line 33, after "ordinance" insert ", approved by the voters of the municipality,"

POINT OF INQUIRY

Senator Talmadge: "Mr. President, members of the Senate. Perhaps Senator Scott or Senator Bluechel could respond to the concern that many people on this side have that, although the public corporation that is created does not have the authority of eminent domain, the municipality involved would still exercise eminent domain over the area that the public corporation serves.

"Now Senator Hurley has an amendment that will come later on, that bars the municipality so affected, from exercising the power of eminent domain and requiring that there be relocation costs. But if Senator Hurley's amendment is not adopted and Senator Hughes' amendment is not adopted, many of us who represent areas which may be subject to one of these public corporations could have people who are adversely affected without having any opportunity to either seek their approval of an election or respond in any way to the exercise of eminent domain by municipalities. Perhaps one of you can answer that."

Senator Bluechel: "Speaking to the point raised by Senator Talmadge. As you know, within the bill there is no eminent domain. The public corporation we are talking about here is primarily a financial corporation for financial transactions. It has nothing whatsoever to do with eminent domain. It is a pass-through corporation for funds, enabling the entity, the financial entity, to achieve a tax-exempt bond status.

"The city or county which has to set it up, the city or county itself, of course, has the power of eminent domain but we are, I believe we are making something that just isn't in the bill. There is nothing to do with eminent domain in this bill. Most of these entities will be of a private corporation nature. There is, however, targeted redevelopment areas within the city.

"We could not, and we had no testimony at any time that said that the city could go out and use eminent domain to get property and then move somebody on. It said that, the testimony stated that this simply would not happen."
REMARKS BY SENATOR HEMSTAD

Senator Hemstad: "Mr. President, members of the body. Speaking against the amendment, in further response to Senator Talmadge, there are other situations now where we use public corporations such as, for example, in Seattle the Pike Place Market, and for purposes of urban redevelopment and we do not have public votes for projects in those operations which are far more public than what we are talking about here, so if they are not usable there I cannot see how you can stretch the standard to say that it should be applicable here.

"Second, with regard to the issue of eminent domain, the standard in this state is for the application of eminent domain is that there must be a public use involved. That is a very narrow standard and it simply is not applicable to this bill at all."

Debate ensued.

The President declared the question before the Senate to be the roll call on the amendment by Senator Hughes.

POINT OF INQUIRY

Senator Talley: "Senator Pullen, I do not think any contractor could live with this amendment. He would come under OSHA and OSHA would not allow any unauthorized personnel to be around without proper hardhats and everything else. I do not think it is a sensible amendment at all."

Senator Pullen: "This is a public corporation, Senator Talley, not a contractor."

On page 1, line 1, strike everything after "WHEREAS," and insert the following:
"The state of Washington is a governmental entity which can guide, direct, and influence conditions affecting international trade, tourism, and investment; and

WHEREAS, The state of Washington, by virtue of its geographic location and plentiful natural resources, has an economy which is unusually dependent on international trade and because of changing international economic conditions will have the opportunity to increase its trade; and

WHEREAS, The state of Washington has a primary interest in the assessment of the impact of international trade upon the economy of the state and to determine the appropriate role of state government in the development of a favorable climate for international trade; and

WHEREAS, Past activities of the Joint Legislative Committee on International Business and Tourism enhanced and expanded the scope and quantity of international trade with Washington business; and

SECOND READING

SENATE BILL NO. 3381, by Senators Gallaghan, Talley and Vognild:
Imposing motorcycle safety programs.

MOTIONS

On motion of Senator Gallaghan, Substitute Senate Bill No. 3381 was substituted for Senate Bill No. 3381, and the substitute bill was placed on second reading and read the second time in full.

On motion of Senator Gallaghan, the rules were suspended, Substitute Senate Bill No. 3381 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Gallaghan, you indicated in the school training that they had different levels of training for different horsepower automobiles. I was not aware of that. I do not know that they trained certain people on Hondas and the other people on Chrysler Imperials. It seems to me they train them in any car that is donated by the dealers. Can you enlighten me on that? You indicated a different horsepower had different training."

Senator Gallaghan: "Certainly. If I indicated that, it certainly is not true of automobiles...

Senator Rasmussen: "... well, then, the second question would be, why should that difference in horsepower rating be trained differently from motorcycles?"

Senator Gallaghan: "If you have ever ridden a motorcycle."

Senator Rasmussen: "... I have. I had a Harley 74. It was a good one."

Senator Gallaghan: "All right. There is a tremendous difference in the maneuverabilities of these machines and the power. If a young person gets on a small machine and takes that test that presently exists, he does very well with it. You put him on a 1000cc motorcycle and he cannot pass that same examination. This will make the examination on par with those different endorsements."

Senator Rasmussen: "I am just questioning all the involvement here and the extra costs, whether it is necessary."

Senator Gallaghan: "I believe it is absolutely necessary for the state to give those young people going on our highways."

POINT OF INQUIRY

Senator Wilson: "Senator Gallaghan, is every school district in the state required to offer motorcycle training?"

Senator Gallaghan: "I do not believe they would be required to. It says 'may,' they 'may' do this. They can also contract it out to a private motorcycle foundation."

Senator Wilson: "That leads me to the problem that I am concerned with and that pertains to the availability of this training in sparsely settled rural areas, such as the area that I represent. With the schools obviously being underfunded on the whole, they are going to be hard-pressed and have to make difficult decisions as to what special classes they offer and which ones they don't."
"And if, in the northeastern part of the state, for example, many school districts simply felt they could not afford this training or for some other reason did not want to offer it, would we not then be creating a situation for young people who wanted to pass the course and ride a motorcycle, might have to travel considerable distances in order to find the training available?"

Senator Gallaghan: "The funding on this instructs the SPI to do this. I do not know how they do it with automobiles over in your district, but certainly that could be worked out the same as it is presently with automobiles. Do they have an automobile . . . ?"

Senator Wilson: "Yes, of course the ratio of automobile drivers is considerably higher than that of motorcycle drivers.

"I sort of compare this in a way to the mandatory nurses' training that we have been trying to set up; and in some instances that works out where nurses in my district end up having to travel 100 or 150 miles, and then back again the same evening in order to acquire a certain mandated training they need in order to continue in their profession.

"And the essence of my inquiry is, is it possible that the same sort of situation could result with respect to the mandatory training that motorcycle riders will now need under terms of this bill?"

Senator Gallaghan: "I imagine it could develop that way, but I would certainly hope it would not, any more than it would with automobile driving."

POINT OF INQUIRY

Senator Peterson: "Senator Gallaghan, $50,000 appropriation in this bill, wouldn't even take care of Lakewood, I do not think, to put this program into effect; and following along Senator Wilson's comments, I think the rural communities and we have K-12 shorted to the point to where I do not see how they could even offer it or would be entitled or have any portion of this $50,000 and I can't; what is the rationale behind the distribution of the funds and how are they going to be allocated to rural areas?"

Senator Gallaghan: "Well, it seems to me the rural areas now, I do not know what they do now in automobiles, but they certainly, in most of the districts, they charge a fee for that, that the ones wishing to take that course would have that money available to work on. The one dollar extra assessment on this should take care of those educational programs in the schools. I believe that is where a lot of the money goes now for automobile license training; so they should be able to secure those funds. The $50,000 for development of the program by SPI."

Debate ensued.

POINT OF INQUIRY

Senator McCaslin: "Senator Gallaghan, you are quoting the deaths here, from 1975, it was 51; in 1979 it was 119; and I know you are a motorcycle rider and I know you wear a helmet; and I am a motorcycle rider and I wear a helmet although I understand it is not the law in this state, is that correct?"

Senator Gallaghan: "That is correct."

Senator McCaslin: "Was this discussed in committee when you discussed this bill?"

Senator Gallaghan: "The helmet part of it? No, it was not but it was thoroughly discussed in the interim meetings of the safety group people and it was decided not to put it on there."

Senator McCaslin: "Well, is it possible to statistically analyze the fatalities and determine how many fatalities resulted from motorcycle riders not wearing a helmet?"
Senator Gallaghan: "I do not have that information; I probably have it in a stack of papers here but I do not remember exactly what it was. I do not believe you can establish a cause and effect on that basis."

Senator McCaslin: "Well, it is surprising to me that we are discussing imposing motorcycle safety programs, and we are not discussing the wearing of helmets; and I really think this should be discussed very thoroughly, as far as the safety program is concerned. And I wonder if this bill shouldn't be held until that is discussed thoroughly?"

Senator Gallaghan: "I do not think it ought to be delayed that long; that helmet thing has come up down here a number of times before I ever got here and certainly there are times when I ride to the neighbor, a hundred yards, that I don't wear a helmet; and I would hate to have that thing strapped on me to just go down, in my yard, a hundred yards, to have that helmet on. So . . . ."

Senator McCaslin: "Well, I would not want to change the bill, but I would like to see helmets reimposed."

Further debate ensued.

WHEREAS, Bing Crosby, one of the world's most famous entertainers was born in Tacoma, Washington, May 3, 1903; and
WHEREAS, The Crosby family roots in the Northwest go back to the early 1800's; and
WHEREAS, Three family homes remain in Washington:

WHEREAS, Bing Crosby is being honored state-wide this year by various programs and by many radio and TV stations;
NOW, THEREFORE, BE IT RESOLVED, By the Senate of Washington State, That Bing Crosby be honored as a world renowned entertainer and a native son of the State of Washington; and
BE IT FURTHER RESOLVED, That the Secretary of State certify this resolution and present a copy to Kathryn Crosby, The Bing Crosby Historical Society, Gonzaga University, and Governor Spellman.

REMARKS BY SENATOR WOJAHN

Senator Wojahn: "Mr. President, members of the Senate. This is a resolution adopting and acknowledging Bing Crosby as a native son of the state of Washington. And I think it is appropriate because he is probably one of the world's renowned ambassadors of goodwill through his singing and entertainment.

"He is recognized worldwide. He has spread a lot of joy and entertainment to people throughout the world, and during these rather tedious and disruptive times. I
think that it is important. I think it is also important to let the world know that this man is a native of Washington state; and actually there are three homes existing in the state of Washington that are acknowledged to be homes built for the Crosby family. His grandfather, Nathaniel, has a home still standing in Tumwater, that the family lived in in the early days, shortly after the early 1800s; and the family home where Bing Crosby was born is in the twenty-seventh district in the city of Tacoma on North J street; and the family home, now restored by Gonzaga University, is located in Spokane.

"I think that this is the one really good thing we can do, and at the same time if you remember the last line, we do honor Governor Spellman as our renowned crooner from the state of Washington.

"I urge the adoption of the resolution."

REMARKS BY SENATOR HURLEY

Senator Hurley: "Mr. President, and members of the Senate. Bing Crosby attended schools in my legislative district, including Gonzaga University and Gonzaga Prep. Gonzaga U is just two blocks from my house.

"His singing career started there, and he was a member of the trio and would sing all over town, any place that he could. Although he was not too academically inclined, he certainly was musically inclined. He played the cymbals, he played the piano, and he whistled beautifully. And you remember some of his records had some beautiful whistling in them.

"The orchestra leader, Paul Whiteman, recruited him when he heard the quartet that Bing had established and were singing. The quartet was called 'The Rhythm Boys,' and this is where he developed his crooning style, was with the Paul Whiteman orchestra.

"He has been very generous, not only to Spokane, but to Gonzaga University. He donated $1,000,000 for the Crosby library there at Gonzaga, and there is one upstairs room that houses the gold records that he has donated to Gonzaga as a permanent possession and sort of a museum in this room.

"I am sure that his hit 'Winter Wonderland' was one of his favorites because of the many winters that he spent in Spokane when we used to have an awful lot of snow there.

"He is one of the most wonderful people that has brought so much pleasure and so much music and so much happiness to the world, I just had to say a word in commendation for Bing Crosby."

REMARKS BY SENATOR QUIGG

Senator Quigg: "Well, Mr. President, I am just glad that at this stage of the session, we had a chance to handle this matter now and not in the dark of the night, or as Bing would have said, 'in the blue of the night.'"

SECOND READING

SUBSTITUTE SENATE BILL NO. 3554, by Committee on Commerce and Labor (originally sponsored by Senators Bluechel, Fleming, Ridder, Wojahn, Gaspard, Bauer, Zimmerman and Gallagher (by Governor Spellman, Secretary of State and State Treasurer request):

Implementing law by providing means to finance local economic and employment development.

The Senate resumed consideration of Substitute Senate Bill No. 3554 from April 10, 1981. The following amendment by Senators Hurley and Williams had been moved for adoption by Senator Hurley at that time:

On page 10, line 29, after "power." insert "Nothing herein shall be construed to give to, or allow, any municipal corporation in the furtherance of this act to exercise the power of eminent domain. Any public corporation created pursuant to this act shall, in the acquisition of any interest in real property, be required to provide all relocation assistance benefits and service required of state agencies pursuant to chapter 8.26 RCW."

POINT OF INQUIRY

Senator Talmadge: "Senator Bluechel, as you know there are many people in the entire Senate that have a concern about the exercise of the power of eminent domain. In Senator Hurley's amendment it says that 'The power of eminent domain shall not be exercised by a municipality in furtherance of the purpose of the public corporation.' In your amendment it says 'No municipality shall exercise the eminent domain authority on behalf of a public corporation.'

"Do you see any difference whatsoever between the term 'in the furtherance of' as opposed to the term 'on behalf of' a public corporation?"

Senator Bluechel: "Mr. President, and no, Senator Talmadge, I do not. This was drafted by the attorneys to do exactly what Senator Hurley wanted without any change. There is no intent for a community to exercise its power of eminent domain and then turn around and utilize the public corporation to do something on the area on which they have condemned.

"This amendment is designed to prohibit that act specifically."

POINT OF INQUIRY

Senator Hurley: "Senator Bluechel, why, then, if your amendment means exactly the same as my amendment, I do not see what the need is to make any changes. Could you tell me what your purpose is?"

Senator Bluechel: "Senator Hurley, your amendment is in two parts; one is relocation assistance, the other is the power of eminent domain. According to the attorneys who drafted this, there is no need for the relocation assistance because at no time will there be any use of the power of eminent domain to condemn properties that would further, or after the fact, be used for a public corporation. And it was felt that this amendment does exactly what you want legally. I am advised that the language is more straightforward to do and to get the end result you specifically want."
There being no objection, on motion of Senator Hurley, the amendment by Senators Hurley and Williams was withdrawn.

On motion of Senator Bluechel, the following amendment was adopted:

On page 10, line 29, add:

"No municipality shall exercise its attributes of sovereignty, including, without limitation, the power to tax, the power of eminent domain, and the police power on behalf of a public corporation."

On motion of Senator Hurley, an amendment to page 10, line 29 on the desk of the Secretary of the Senate was withdrawn.

Senator Williams moved adoption of the following amendment by Senators Williams and McDermott:

On page 14, line 6, strike "without" and insert "subject to"

Debate ensued.

Senator Williams demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senators Williams and McDermott.

**ROLL CALL**

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 19; nays, 28; absent or not voting, 1; excused, 1.

Absent or not voting: Senator Pullen—1.

Excused: Senator McDermott—1.

An amendment by Senator Pullen to page 16, line 25 was ordered held for the arrival of Senator Pullen.

Senator Williams moved adoption of the following amendment by Senators Williams and Gould:

On page 19, after line 32, insert the following:

NEW SECTION. Sec. 22. (1) After consultation with the advisory committee, the director shall by rule establish standards, criteria, and procedures for projects to be funded under this chapter. The standards and criteria shall operate to encourage diversity in projects funded and assure acceptability of environmental impacts. The standards and criteria shall require consideration of the potential contribution of a project if developed at other suitable locations to meeting the energy needs of this state. In order to encourage diversity in projects funded, the director shall allocate percentages of the fund for distribution between conservation materials and equipment and small scale renewable energy systems projects, and between residential, commercial, agricultural, and industrial end users.

(a) After consultation with the advisory committee, the director shall establish standards and criteria for the disbursement of funds to energy suppliers and local governments. (c) After consultation with the advisory committee, the director shall establish standards and criteria for the disbursement of grants. Grants shall be made available only to low-income persons for the implementation of conservation materials and equipment. Five percent of the total fund moneys shall be set aside for grants.

**NEW SECTION.** Sec. 25. If the director approves a loan for a project, the director, on behalf of the state, shall enter into a loan contract, secured by a first lien or by other good and sufficient collateral, which shall set forth, among other matters:

1. That the director, on behalf of the state, must approve the arrangements made by the applicant for the development, operation, and maintenance of the project;

2. A plan for repayment by the loan applicant to the fund of moneys borrowed from the fund used for the development of the project and interest on those moneys at a rate of interest the director determines is necessary to provide adequate funds to recover the administrative expenses incurred under this chapter;

3. Any other provisions the director considers necessary to insure expenditure of funds for the purposes set forth in the application, and to protect the integrity of the fund; and

4. That the director may institute an appropriate action or suit to prevent use of the project financed by the fund by any person who is delinquent in the repayment of any moneys due the fund.

The director may contract with regulated financial institutions to provide application processing or other services.

**NEW SECTION.** Sec. 27. (1) If a loan under this chapter is secured by a lien on the real property of the applicant, the director shall file notice of the loan with the recording officer of each county in which is situated the real property of the applicant. The notice shall contain a description of the real property of the applicant, the amount of the loan, and a statement that the state has a lien against the real property.

(2) Upon payment of all amounts lent to an applicant, the director shall file with each recording officer referred to in subsection (1) of this section a satisfaction notice that indicates repayment of the loan.

(3) The director may cause to be instituted appropriate proceedings to foreclose liens for delinquent loan payments and shall pay the proceeds of any such foreclosure, less the expenses incurred in foreclosing, into the fund.

**NEW SECTION.** Sec. 28. If an applicant fails to comply with a contract entered into with the director for development and repayment as provided in this chapter, the director, in addition to remedies provided in section 27 of this act, may seek other appropriate legal remedies to secure the loan and may contract as provided in section 25 of this act with any other person for continuance of development and for repayment of moneys from the fund used therefor and interest thereon.

**NEW SECTION.** Sec. 29. The director may accept gifts of money or other property from any source, given for the purposes of this chapter. Moneys so received shall be paid into the fund. Money or other property so received shall be used for the purposes for which received.

**NEW SECTION.** Sec. 30. In accordance with chapter 34.04 RCW, the director may adopt rules considered necessary to carry out the purposes of this chapter.

NEW SECTION. Sec. 32. If the applicant receives from any source other than the fund any moneys to assist in the development of the project, the amount of the loan to the applicant from the fund shall be limited to that amount necessary for the development of those portions of the project not funded by other sources.

NEW SECTION. Sec. 33. For the purpose of financing grants and loans under this chapter, the state finance committee is authorized to issue and sell general obligation bonds of the state of Washington in the sum of five hundred million dollars, or so much thereof as may be required, to finance the grants and loans and all costs incidental thereto. The bonds shall be paid and discharged within thirty years of the date of issuance in accordance with Article VIII, section 1 of the state Constitution.

NEW SECTION. Sec. 34. When the state finance committee has determined to issue the general obligation bonds, or a portion thereof, it may, pending the issuance of the bonds, issue in the name of the state temporary notes in anticipation of the bonds, which notes shall be designated as "bond anticipation notes."

NEW SECTION. Sec. 35. The state finance committee is authorized to determine the amounts, dates, form, terms, conditions, denominations, interest rates, maturities, rights and manner of redemption prior to maturity, registration privileges, place(s) of payment, and covenants of the bonds and the bond anticipation notes; the time or times of sale of all or any portion of them; and the conditions and manner of their sale, issuance, and redemption.

NEW SECTION. Sec. 36. Each bond and bond anticipation note shall state that it is a general obligation of the state of Washington, shall contain a pledge of the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain the state's unconditional promise to pay the principal and interest as the same shall become due.

The state finance committee, on or before June 30 of each year, shall certify to the state treasurer the amount required in the next succeeding twelve months for the payment of the principal of and interest coming due on the bonds. NEW SECTION. Sec. 41. The bonds authorized in this chapter shall constitute a legal investment for all state funds or for funds under state control and all funds of municipal corporations.

NEW SECTION. Sec. 42. Except as to bonds, loans, and grants issued prior to January 1, 1995, this chapter shall expire on January 1, 1995, unless extended by the legislature by law.

NEW SECTION. Sec. 43. Sections 18 through 42 of this act shall constitute a new chapter in Title 43 RCW.

NEW SECTION. Sec. 44. Sections 18 through 42 of this act shall take effect on January 1, 1982, if the proposed amendment to Article ...., section .... of the state Constitution (SJR No. ....) is validly submitted and approved and ratified by the voters at the general election held in November 1981. If the proposed amendment is not so approved and ratified, sections 18 through 42 of this act shall be void in its entirety.

Renumber the sections consecutively and correct internal references accordingly.

POINT OF ORDER

Senator Bluechel: "Mr. President, I would like to raise the question of scope and object on this amendment.

"Mr. President, the bill itself deals with revenue bonds issued by local governments. The amendment deals with general obligation bonds of the state and brings in lending of the full faith and credit of the state. I think those are two substantially different subjects."

RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the point of order raised by Senator Bluechel, the President finds that Substitute Senate Bill 3554 is a measure which allows municipalities to create corporations that are authorized to issue tax exempt revenue bonds for the purpose of financing local economic and employment development.

"The amendment proposed by Senators Williams and Gould is a measure which deals with the totally distinct subject of allowing the state to finance loans for energy conservation and renewable energy development through the sale of general obligations bonds.

"The President therefore finds that the proposed amendment does expand the scope and object of the bill and that the point of order is well taken."

The amendment by Senators Williams and Gould was ruled out of order.
MOTIONS

On motion of Senator Clarke, Substitute Senate Bill No. 3554, as amended, was ordered held for further consideration following Engrossed Substitute House Bill No. 307.

POINT OF INQUIRY

Senator Wojahn: "Yes, I would like to ask Senator Bluechel or Senator Clarke or Senator Scott a question and I do not know who wants to answer it so I will ask the question first.

"We have, on this calendar, a Constitutional amendment and also a bill which is presently before us. My understanding was the Constitutional convention (amendment) or the Constitutional resolution, amendment, would run concurrently with the
bill; and we also have on the calendar, Senate Bill 4119, tax increment financing which does not have a Constitutional convention (amendment) on the agenda.

"I want to know, are we going to run two bills that involve perhaps Constitutional changes, without any Constitutional amendment to go with it? Are we using the same philosophy that the court will approve without a Constitutional change, what the public has not had a chance to vote on?"

Senator Hayner: "I answered that question before, Senator Wojahn, at least I thought I did. What I said was that we are sending this implementing statute over to the House. They have a Constitutional amendment there that will fit with it and they are going to send them both back to us, or at least the Constitutional amendment, their Constitutional amendment. If they make any changes in the implementing statute, that will come back also."

Senator Wojahn: "One further question, then. I notice that Senate Bill 4119 also, in my opinion, would require a Constitutional amendment, and that is 104; so we have two Constitutional amendments in two bills.

"Now what about 104, is that going to come back from the House, too, or is that going to be ignored, and are we going to try to pass the bill with no Constitutional amendment?"

REMARKS BY SENATOR ZIMMERMAN

Senator Zimmerman: "Mr. President, perhaps I could respond. The bill that is the Constitutional amendment, is in the ways and means committee, has been there for quite a while and has been waiting for a hearing in the Senate.

"There is another companion measure in the House, and at this point I have not too much confidence that we are going to get tax increment financing out of the legislature; and I am not too confident that 4119 is going to get out. But the whole theory of the bill being before you, was exactly the theory that there has been the criticism that if you only have a Constitutional amendment, you do not know what is going to be in it and therefore we need to show them what the measure would be.

"At this point we have all the vehicles and they are all around here and available but at the same time I am convinced, like you, that they both should, at some point, be sure that they all were passed; but they obviously will not go into effect, the bill would not go into effect until the Constitutional amendment would be approved by the people and by the two-thirds of the legislature before it gets to the legislature. So I mean, this, you know, it is a comme ci, comme Ca.

"At this point we are in the same position, but I do not think there is quite the enthusiasm for tax increment financing, redevelopment financing as there is for industrial financing."

REMARKS BY SENATOR WOJAHN

Senator Wojahn: "Could I continue this, Mr. President: Then I would like to ask Senator Clarke a question. Senator Clarke, are you going to hear Senate Joint Resolution 104 in ways and means with the idea that it perhaps could pass?

"While you are waiting to answer that question, I would direct my response back to Senator Zimmerman and suggest that we are going to attack and try to take on 4119 with no Constitutional convention (amendment) to accompany it as we may be doing with the bill presently before us in the hope that the supreme court will find that they are not unconstitutional. That would worry me. I have to know what I am going to do, I need an answer before I vote on this bill before us."

REMARKS BY SENATOR SCOTT

Senator Scott: "No."
Senator Wojahn: "Thank you."
Further debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 3554, and the bill passed the Senate by the following vote: Yeas, 36; nays, 13.

ENGROSSED SUBSTITUTE SENATE BILL NO. 3554, having received the constitutional two-thirds majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

PERSONAL PRIVILEGE

Senator Metcalf: "Thank you, Mr. President, members of the Senate. And I thank you Senator Clarke for your courtesy.

"I have just had placed on your desk, a letter which I have sent to our state treasurer, Mr. O'Brien, and I have discussed this at length with our very excellent state treasurer, and I want you to know I would do nothing to embarrass him, and also can assure that he has, is not at all uncomfortable with this letter.

"I did, as the letter states, cash my check last week at the state treasurer's office and I got these Federal reserve notes and I want you to know I am not happy with Federal reserve notes because they are sort of like ice cubes, they tend to lose their value; they melt. And when I started in politics they were losing their value about 1½% a year, and now about 13% and 18% a year.

"And I just want you to know that I am going to cash my check as I assured the state treasurer, this next week, and I am going to endorse it in this way 'It is hereby officially noted that in cashing this check I will accept only Constitutional, lawful money.'

"Now I would ask you to stay tuned in later, for the next interesting episode in this little drama, 'Is our money really money?'"

POINT OF INQUIRY

Senator Talley: "Senator Patterson, . . . pilots and the oilports all set to fight in favor of it. It does not affect commercial airlines or commuter airlines. The amendment takes commuter airlines out, doesn't it?"

Senator Patterson: "Senator Talley, the committee amendment was basically taking out that provision we had for a transfer of some (sum) of $5,000,000 or $7,000,000 from the general fund into the air facilities account. And that is what basically the committee amendment which left only the increase from the cents-per-gallon to the percentage per gallon."

PARLIAMENTARY INQUIRY

Senator Charnley: "Is this an amendment to Senate rules, because if it is, I would feel we do not have the one-day notice? I am not in objection, I am not speaking or would not speak in opposition to the rule but I am wondering if we are following our rules correctly."

REPLY BY THE PRESIDENT

President Cherberg: "Yes, Senator Charnley, it is not a change in the Senate rules, however, such a time limitation may be placed, according to Senate rules."

Senator Charnley: "At any time; thank you very much."

REMARKS BY SENATOR JONES

Senator Jones: "I might add that this was brought upon me by popular request."

POINT OF INQUIRY

Senator Pullen: "Senator Jones, would you object if an opponent of the motion could also get a three-minute period in which to also close debate?"

Senator Jones: "Yes, I would object."

Senator Pullen: "Another question. The way you put the motion, you said 'no yielding to questions.' Could you explain what you mean by that?"

Senator Jones: "No yielding of time."

Senator Pullen: "No yielding of time."

Further debate ensued.

POINT OF INQUIRY

Senator Fleming: "Mr. President, I am wondering whether Senator Jones would yield to a friendly amendment? Recognizing that we will be coming up on some deadlines, and normally this motion is put when we start approaching that deadline, and I think it is next Tuesday or Wednesday. We approach the deadline when it is past the time that we can consider the House's amendments. Maybe we could amend that motion up until next week some time to five minutes to give Senator Hurley a little better chance of letting it all hang out."

Senator Jones: "I like the three minutes. By the way, it seldom has got beyond that but it has been the repetitious nature of some things, and I think I heard 'McDonalds' at least five times today and it just gave me hunger pangs."

Senator McDermott demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the motion by Senator Jones to limit debate to three minutes from this time to Sine Die.

NEW SECTION. Sec. 2. There is added to chapter 70.54 RCW a new section to read as follows:

No hospital or health facility may interfere with the physician/patient relationship by restricting or forbidding the use of DMSO (dimethyl sulfoxide) when prescribed or administered by a physician licensed pursuant to chapter 18.57 or 18.71 RCW and requested by a patient under his/her care who has requested the substance after having been given sufficient information in writing to make an informed decision.

No physician may be subject to disciplinary action by any entity of either the state of Washington or a professional association for prescribing or administering DMSO (dimethyl sulfoxide) to a patient under his/her care who has requested the substance after having been given sufficient information in writing to make an informed decision.

It is not the intent of this section to shield a physician from acts or omissions which otherwise would constitute unprofessional conduct as defined in RCW 18.57-.170 and 18.72.030."

On page 1, line 1 of the title, after "health;" strike the remainder and insert "adding a new section to chapter 69.04 RCW; and adding a new section to chapter 70.54 RCW."

On page 1, line 20 of the amendment, before the period and after "condition" insert ": PROVIDED, That DMSO intended for topical application, consistent with rules governing purity and labeling promulgated by the state board of pharmacy, shall not be considered a legend drug and may be sold to any retailer"

On motion of Senator Clarke, the following amendment to the amendment by Senators Haley and Talley was adopted:

On the last line of the amendment, strike "to" and insert "by"

POINT OF INQUIRY

Senator Talley: "Senator Haley, I joined with this amendment, I thought get it out to the public a lot more reasonable price; but does this in any way stop a doctor from prescribing it as a drug to be taken internally?"

Senator Haley: "No. If it is given by mouth or intravenously I believe that the board of pharmacy would pass rules saying it must be a legend drug and must be sold only by prescription."

Senator Talley: "It doesn't stop the doctor from doing that?"

Senator Haley: "No."

The motion by Senator Haley carried and the amendment, as amended, to the committee amendment was adopted.

Senator Haley moved adoption of the following amendment to the committee amendment:

On page 1, line 21 of the amendment, beginning with "NEW SECTION." strike everything down to and including "18. 72.030." on page 2, line 18 of the amendment.

POINT OF INQUIRY

Senator Talmadge: "Mr. President, members of the Senate. In response to Senator Haley's inquiry, it is my understanding that DMSO has not been approved by the Federal Drug Administration for administration to people in this country; and I think there were some physicians and others who indicated some concern that should they prescribe or recommend the use of this particular drug, that they could possibly have problems with their professional disciplinary bodies.

"Maybe Senator Haley would respond to the concern that it is not an FDA approved drug as yet."

Senator Haley: "Yes, I would be glad to respond to that. I have never heard of any objection in any form whether it is by a body of health people, medical doctors and so forth, or by any particular article in literature, any precaution about its use intravenously, or by mouth. And I think anyone that uses it that way, certainly takes the usual risk that he is liable to be sued for malpractice or some actions brought against him if it isn't used that way, especially, as you point out the Food and Drug has not adopted it.

"But I believe that since there has been no mention of the fact by the medical society or any place else that I am aware of, there would be any disciplinary action taken against anybody. So I just do not believe it is necessary."
Senator Deccio: "Senator Haley, I think the Washington Medical Association was represented at the hearing but that is not the point I want to make. "As I understand it, hospitals are really run by the doctors, . . . boards, I think they make some strange decisions; sometimes it affects the hospital. And I guess the reason that, I don't guess, I know the reason that this amendment was put in to make sure that no hospital could deny a patient the use of DMSO while they were in the hospital; and I think to take this, to adopt your amendment, would give a hospital, either through its own decision or a decision by its medical board, that they may not feel sufficiently sure that DMSO is a proper drug or product to use in solving illnesses or actions or what have you.

"And I think if we were to adopt your amendment, that that certainly would happen, that if someone, some physician wanted to use DMSO and it was a policy of the hospital that DMSO could not be used, then that doctor could not prescribe DMSO. And I think that really this amendment would probably allow the Washington Medical Association to regulate the use of DMSO, and I urge you to vote against it."

Senator Haley: "Well, to answer your question, if that is what it was.
"Inasmuch as the medical association has discussed this thing and nobody has brought up any particular criticism, it just seems like it is filling up RCWs with unnecessary laws. It seems like if somebody really had a problem in some particular hospital, then that would be one thing; but since I do not believe there has been any threat of action against anyone using it, I just do not believe it is necessary."

Senator McCaslin: "Doctor Haley, on line 11, 12 and 13, it says, 'This act is not intended to interfere with the sale and distribution of DMSO for use as a legitimate solvent.' Then the amendment addresses itself to '. . . intrastate commerce as long as . . . it is used, or intended to be used, in the treatment of human beings or animals for any ailment or adverse condition.'

"Now can we still sell it for a solvent?"

Senator Haley: "Well, I believe so, I believe that those lines, 10, 11, 12 and 13 which are still there in the amendment, takes care of that."

Senator McCaslin: "Okay, we can still sell it, then for a solvent. Thank you, Doctor."

The motion by Senator Haley carried and the amendment to the committee amendment was adopted.

The motion by Senator Deccio carried and the committee amendment, as amended, was adopted.

Senator Haley moved adoption of the committee amendment to the title.

On motion of Senator Haley, the following amendment to the committee amendment to the title was adopted:

On page 2, line 25 of the title amendment, before "adding" insert "and" and on line 26 strike "; and adding a new section to chapter 70.54 RCW"

On page 24, line 31 add a new section to read as follows:
*NEW SECTION. Sec. 28. This act shall be contingent upon the passage of Substitute Senate Joint Resolution 115 at the 1981 general election. In the event that Substitute Senate Joint Resolution 115 is not submitted to the voters or is rejected by the voters, this act shall be null and void and without force or effect.*
Renumber remaining sections consecutively.
Debate ensued.
Senator Pullen demanded a roll call and the demand was sustained.

POINT OF INQUIRY

Senator Goltz: "Senator Pullen, how do you answer the technical problem of using Senate Joint Resolution 115, if it is agreed that a House Joint Resolution on the same subject is the vehicle that is going to be considered by this legislature and that 115 will not be considered?"

Senator Pullen: "Very simple, Senator Goltz. All we have to do is amend it in the House."

The President declared the question before the Senate to be the roll call on the amendment by Senators Pullen, Hayner and Lee.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 17; nays, 30; absent or not voting, 2.

Voting yea: Senators Clarke, Craswell, Deccio, Guess, Hurley, Lee, Lysen, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Rasmussen, Scott, Shinpoch, Woody—17.

On page 25, line 8, after "be" strike "liberally" and insert "conservatively"
Debate ensued.

There being no objection, on motion of Senator Pullen, an amendment striking all of New Section 29, on the desk of the Secretary of the Senate, was withdrawn. Senator Pullen moved adoption of the following amendment:
Strike all of new section 29.
Strike all of new section 31.
Renumber the remaining sections accordingly.
POINT OF ORDER

Senator Pullen: "Mr. President, Second Substitute Senate Bill 3084 is in violation of rule 25; and I would ask that the act be ruled out of order pursuant to rule 25.

"I realize that that is an unusual point of order to rise to but I am completely serious. Rule 25 says 'No act shall ever be revised or amended by mere reference to its title, but the act revised or the section amended shall be set forth at full length.'

"I would draw the President's attention to section number 31 of Second Substitute Senate Bill 3084, and section 31 says, 'Insofar as the provisions of this act are inconsistent with the provisions of any general or special law or parts thereof, the provisions of this act shall be controlling.'

"I would submit, Mr. President, that section 31 is amending by mere reference to the title of an act and is in violation of rule 25."

RULING BY THE PRESIDENT

President Cherberg: "Senator Pullen, in reply to your point of order, the President agrees that your point is somewhat out of the ordinary so the President will give you a similar answer.

"The President does not know of any particular statute that this section amends so therefore does not wish to rule the bill as not being properly before the Senate. Senator Pullen."

REMARKS BY SENATOR PULLEN

Senator Pullen: "Mr. President, I will give you some provisions of law that it is amending. All of title 34, 35 and 36."

RULING BY THE PRESIDENT

President Cherberg: "Senator Pullen, in reply, you may be correct, but the President is certain that he does not have the prerogative of ruling a bill out of order that has been acted upon by the Senate."

PARLIAMENTARY INQUIRY

Senator Shinpoch: "Your ruling brought up an interesting question. Had Senator Pullen asked for the ruling prior to the time we started action on it, would you have had authority to rule it out then?"

REPLY BY THE PRESIDENT

President Cherberg: "The President would have found some other answer, Senator."

The motion by Senator Pullen failed and the amendment was not adopted.

There being no objection, on motion of Senator Pullen, two amendments regarding low income, on the desk of the Secretary of the Senate, were withdrawn.

The Senate resumed consideration of the following amendment moved for adoption by Senator Deccio earlier today:

On page 10, after line 18, insert the following:

"The commission shall not develop, assist in the development, or otherwise participate in multifamily housing located in any county, city, or town having a single family or multiple family dwelling vacancy rate in excess of four percent at the time of the commission's initial participation."

Debate ensued.

Senator Fleming demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the amendment by Senator Deccio.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 23; nays, 25; absent or not voting, 1.

Absent or not voting: Senator Hayner—1.

On motion of Senator Scott, the rules were suspended, Engrossed Second Substitute Senate Bill No. 3084 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Woody: "Mr. President, I would like to address a question to either Senator Scott or Senator Fleming, whoever feels most comfortable in answering. I notice in section 27 an appropriation from the general fund of $200,000 is made, and section 27 stipulates that this money shall be paid back in six years, in ten annual installments, and then further in that section it says 'from any moneys in excess of the amount required to keep the commission self-supporting.' And then sub (2) states that further grants of money from the state general fund or property to the commission, may be made as necessary in the future, and I would like to know, for the record, where is the money going to come from to pay this $200,000 back?"

Senator Fleming: "Mr. President and members of the Senate.

"Senator Woody, as you are well aware, well, I won't say that, the fact is behind this package there will be revenue bonds sold. That is where the funds would come from, the revenue from those bonds that are sold, that is where the money will be paid back.

"And maybe what might have confused you was a comment that Senator Scott might have made and what Senator Ridder was talking about; this indeed is not the traditional public housing, that is not what this is. This is private housing, this is just a secondary market made available to get housing for these needy and moderate income people that has not been available and will not be available to us if we do not have an agency intact. So it would come from the revenue of the bonds that are sold."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Second Substitute Senate Bill No. 3084, and the bill passed the Senate by the following vote: Yeas, 30; nays, 18; absent or not voting, 1.

Absent or not voting: Senator Hayner—1.

Establishing an interim joint committee on illegal drug trafficking.

On page 1, line 20, after "the" strike "senate majority leader" and insert "president of the senate"

On motion of Senator Hayner, the rules were suspended, House Concurrent Resolution No. 7, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the resolution was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of House Concurrent Resolution No. 7, as amended by the Senate, and the resolution passed the Senate by the following vote: Yeas, 48; absent or not voting, 1.

Absent or not voting: Senator McDermott—I.

HOUSE CONCURRENT RESOLUTION NO. 7, as amended by the Senate, having received the constitutional majority, was declared passed.

SECOND READING

HOUSE BILL NO. 181, by Representatives Smith and Flanagan:

Authorizing agreements between irrigation districts.

The bill was read the second time by sections.

Senator Newhouse moved the following amendments by Senators Newhouse, Hansen and McCaslin be considered and adopted simultaneously:

On page 1, line 4 strike "80" and insert "03"

On page 1, line 6 beginning with "To" strike all the remaining material and insert "Two or more irrigation districts may create a separate legal authority to carry out any or all of the powers described in RCW 87.03.015. To enable such a legal authority to carry out its delegated powers, the irrigation districts creating the authority may assign, convey, or otherwise transfer to it any or all of their respective property, rights, or obligations, including, without limitation, the power to issue revenue obligations and the power of condemnation. Such a legal authority shall be created and organized by contract in the manner described in chapter 39.34 RCW and shall be a separate legal entity."

POINT OF INQUIRY

Senator Lysen: "Senator Newhouse, I guess I am not familiar with this. What does this really achieve that the water, the existing irrigation district cannot do now? And the root of my concern, if I had to admit it here, is WPPSS. We had PUDs who did very well as PUDs and we allowed them to join together to build a joint facility and it turned out to be a very unfortunate situation.

"So I would like to know, you know sometimes when you push things to the point of breaking, something that is done well, at one level you add another level to it and you get to a point where it doesn't work at all.

"And I have that very same concern; I would like to ask your comments."

Senator Newhouse: "I am not sure that I can completely answer your question, Senator Lysen. The irrigation districts do own these reservoir facilities, the five major reservoirs up in the Cascade mountains. They own them jointly; that is, the Federal government really has title, they have paid for them. But to use the facilities to produce power both for sale and to use power for their own use, that is, in sprinkler irrigation, it would be the extent of their desires and the safeguards, I am
sure that they don't plan and I don't see that they ever could, get into anything as extensive as a PUD, I mean as the PUDs did with the WPPSS project.

Senator Lysen: "I guess my question is, the responsibility is clear when you have an individual irrigation district doing a project; I have no problem with that because of the responsibility and the authority go together. When you merge two or three of them together, it becomes unclear who is responsible and who benefits; and I think that is where my concern lies."

Senator Newhouse: "All right, perhaps I can answer that. Really, the effects of this bill and this amendment would allow the districts to band together under the interlocal cooperation act which cities, counties, all districts can do now. There was some question about irrigation districts because they are quasi-municipal organizations rather than a municipal."

Senator Lysen: "But Senator Newhouse, why couldn't a single district just do it now, on its own? Why does it have to have more than one district involved in this?"

Senator Newhouse: "I believe a single district could, but the ownership of the facility, the canal system, the dam, the reservoirs, are in the several districts and they feel that they should cooperate."

POINT OF INQUIRY

Senator Rasmussen: "Senator Hansen, I recall one time your telling me that you had either 10,000 or 100,000 acres taken away from you by condemnation. You weren't very happy about it."

Senator Hansen: "Five thousand acres."

Senator Rasmussen: "Was it 5,000 acres? Then they made no use of it but they took it away from you. My question would be, this new amendment that we are discussing, your name is on it, ... including, without limitation, the power to issue revenue obligations and ..., also the power of condemnation.' It all depends now on whether it is a good project or bad project. How do you know it is going to be a good project with its unlimited power of condemnation?"

Senator Hansen: "I think, Senator Rasmussen, we passed Senate Bill 3033 which allowed the irrigation districts to go into low-head hydropower generation. And really what happened, the south district of the Columbia Basin Project got off and running ahead of them, put in applications in the east and in the Quincy district and they sat on their duffs until after the south district got so far ahead, now they are asking to come in and be a part of a good project, being the south district did all the fighting and negotiation and the hours of negotiating to get 3033 passed.

"The Rosa district which has a lesser water right on the Yakima river, is also out hunting power and water for reservoir systems. This allows the Sunnyside, the Yakima-Tieton to come in and help with the bonding and help put these projects in, so they are all better off.

"So I really think it is a must; it is Johnny—come—lately—they weren't there when they were needed, when we passed the original legislation."

POINT OF INQUIRY

Senator Charnley: "Senator Hansen, you have heard my concerns; I would appreciate your reflections on this."

Senator Hansen: "Irrigation districts primarily are for the irrigation purposes. Through this canal system, through their water reservoir system, there are opportunities for low hydro projects and so all they are doing is bonding themselves, selling this electricity to Seattle City Light, Tacoma City Light, to put up the front money to build the projects; and so all we are doing besides using the water for irrigation, we are squeezing what electricity that is in the water before we use it."
Senator Charnley: "So you are saying to me or it is your understanding that the purpose here is for low-head hydro, not to create another form of public entity which will overlap with or confuse or . . . with the PUD, this is strictly for the idea of using the water while it is fastened to their system?"

Senator Hansen: "That is definitely right, because before we got this 3033 put together, we spent hours in the back room with the PUD, the private power, the Bonneville, and all the rest of them coming out with a bill that would be limited to the small hydro projects within the irrigation district, whether it was a reservoir bill in the Cascades where they drop the water out, took the juice out of the water and then used it for irrigation."

The motion by Senator Newhouse carried and the amendments were adopted.

On motion of Senator Newhouse, the following amendment to the title was adopted:

On page 1, line 2 of the title, strike "80" and insert "03"

MOTION

On motion of Senator Ridder, Senator McDermott was excused.

Senator Newhouse moved the rules be suspended, House Bill No. 181, as amended by the Senate, be advanced to third reading, the second reading considered the third, and the bill be placed on final passage.

On motion of Senator Clarke, House Bill No. 181, as amended by the Senate, was ordered held for further consideration on second reading after the next two measures.

SECOND READING

Tightening control of gambling activities.

MOTIONS

On motion of Senator Quigg, Substitute Senate Bill No. 3307 was substituted for Senate Bill No. 3307 and the substitute bill was placed on second reading and read the second time in full.

Senator Vognild moved adoption of the following amendment by Senators Vognild and Quigg:

On page 3, line 8, following "game" insert "conducted only in the county within which the organization is principally located" and on line 29, following "game." insert "For the purposes of this subsection the organization shall be deemed to be principally located in the county within which it has its primary business office. If the organization has no business office, the organization shall be deemed to be located in the county of principal residence of its chief executive officer:

PROVIDED, That any organization which is conducting any licensed and established bingo game in any locale as of January 1, 1981 shall be exempt from the
requirement that such game be conducted in the county in which the organization is principally located."

**POINT OF INQUIRY**

Senator Goltz: "Senator Vognild, if it is a good idea not to allow these bingo games to be located outside the county where the organization is located, why are we grandfathering, and how many are we grandfathering which would be allowed to exist away from their home base?"

Senator Vognild: "We asked the gambling commission to supply that information. They were unable to supply exactly, they said that there are few games involved. There is one particular game that is operated by a senior citizens' group that is operated, I believe it is in Pierce county and they are based in King county. That is the only one that I am aware of that is presently in that situation.

"There are several other games that I am aware of that are operated outside the county, but those are basically games that will turn over rather rapidly under, what I call a semi-professional operation. They turn over about every six months and these are the games I am interested in stopping."

The motion by Senator Vognild carried and the amendment was adopted.

**MOTIONS**

On motion of Senator Clarke, Substitute Senate Bill No. 3307, as amended by Senators Vognild and Quigg, was ordered held for further consideration on April 14, 1981.

On motion of Senator Clarke, Second Substitute House Bill No. 157 will be considered on April 14, 1981.

On motion of Senator Clarke, Substitute House Bill No. 399 will be considered at a later time.

There being no objection, the Senate advanced to the seventh order of business.

**THIRD READING**

SUBSTITUTE SENATE BILL NO. 3726, by Committee on Ways and Means (originally sponsored by Senators Scott, Craswell, Gallagher and Gould):

Providing for higher interest rates on delinquent property taxes.

The bill was read the third time and placed on final passage.

Debate ensued.

**POINT OF INQUIRY**

Senator Rasmussen: "Senator Scott, on moving it up from five years to three years; you are three years delinquent, you must pick up all three years? You cannot just pick up one year? Is that still in the bill?"

Senator Scott: Yes, Senator, as it left committee. You have to pick up your back taxes and get yourself out of arrears. I do not remember that it had anything to do with picking up all three years; you pick up one year . . . .

"The same feature as exists now where you pick up one year and you are no longer in . . . delinquency."

Senator Rasmussen: "Well, I did not take time to read the whole bill again, but I understood that you had to pick all of them if you became delinquent, you had to pick up all the taxes in order to get back in good standing, you could not just pick up one year.

"The other question was the floating rates, how anyone would ever know, including all the book work required by the treasurers. You go on, revalued every three months at the floating prime rate so that you become delinquent you would
have three months at one rate, you would have three months at another rate, and another three months at a different rate. So it would be very hard for a person to ever know how much the amount of delinquent taxes that he would have to pay, besides all of the continual book work for the treasurers. Is this correct?"

Senator Scott: "Senator, the rate would be adjusted four times a year; there was no complaint to doing so from any of the assessors, putting it on their books. If you go down now and get a loan for six months, a short term credit, you pay a difference in rate. If you go into the hardware store from one month to the next you pay a difference in rate. Rates have varied 8% back and forth within the last eighteen months.

"If there is not that adjustment to accommodate whatever, it isn't the prime rate but the T-bill rate, if you don't have that stable measure of changes in the money market, then the individual who is outstanding takes advantage, as it were, of the situation. That is why a sticky 8% won't work when the prime is at twenty."

Further debate ensued.

POINT OF INQUIRY

Senator Williams: "Senator Scott, partially, I guess, to ask for a response to a question that Senator Rasmussen was partially asking, I believe. His question was, as I understand it, we were shortening the period under which delinquency may occur from five to three years, and then his question was, 'When that three-year period expires, is the total tax due as opposed to simply paying the first of that three-year delinquency' and continuing that three-year delinquency and as I read section 4, that is, in fact, what happens. In other words, when that three-year period expires, all of the tax is due, all three years, not just simply the first of those three. Is that correct?"

Senator Scott: "That is correct. I just reread section 4 too and also in section 4 you see that the notice date is moved up to coincide with the shortening of the period so that the individual does get an 11-month advance notice."

Senator Williams: "Thank you. I just wanted to make sure that we understood, that in fact, once that three-year period does terminate, all of the taxes are due, not simply the first of the three."

POINT OF INQUIRY

Senator Goltz: "Senator Scott, on page 4, on section 4, on line 16, we are talking about the tax statement for 1982 and '83, and I am wondering if that means that this isunsetted after 1983 or, we are so specific about the tax years, that it appears that it is either unsetted or there is some provision elsewhere that I have not found."

Senator Scott: "I am sorry I just put my section 4 back in the bookcase here, but my reading and memory is that those amendments that are made in section 4 are to bring back the notice period to a year before the person goes into delinquency, in short, to move it back two years."

The President declared the question before the Senate to be the roll call on the final passage of Substitute Senate Bill No. 3726.

In establishing these maximum limits the commission shall take into account the amount of income received, or expected to be received, from the class of activities to which the limits will apply and the amount of money the games could generate for authorized charitable or nonprofit purposes absent such expenses. On motion of Senator Talmadge, the following amendments to the amendment by Senators Quigg and Vognild were considered and adopted simultaneously:

On page 11, line 11, after "activity" insert "or physical harm to individuals"

On page 39, line 2, after "activity" insert "or physical harm to individuals"
There being no objection, on motion of Senator McDermott an amendment to the amendment by Senators Quigg and Vognild to page 17, following line 24 on the desk of the Secretary of the Senate was withdrawn.

The motion by Senator Quigg carried and the amendment, as amended was adopted.

On motion of Senator Quigg, the following amendments by Senators Vognild and Quigg to the title was adopted:

On motion of Senator Quigg, the rules were suspended, Engrossed Substitute Senate Bill No. 3307 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

**POINT OF INQUIRY**

Senator Rasmussen: "Senator Quigg, I was interested, there was a long amendment adopted and on page 21, it indicates 'For the purpose of this section, coin operated gambling devices means a machine which is so-called slot machine which operates by means of coin, token or similar object and also pays off in cash.'

"Is this legalizing slot machines then, in the state of Washington?"

Senator Quigg: "Senator Rasmussen, that provision applies to what is commonly known as a 'pull-tab' machine where you insert a coin and a ticket or card is ejected and the player then determines the, based on the contents, of that card whether or not there would be any prize or cash won."

Senator Rasmussen: "It is not the intent, then, to legalize slot machines in Washington?"

Senator Quigg: "That is correct."

**POINT OF INQUIRY**

Senator Metcalf: "Senator Quigg, I appreciated your comments relative to the circumscription of the gambling element but would you say, as a general rule, that this bill tightens on gambling for a charitable institution? Does it tighten it up or does it loosen it? That is the key factor."
Senator Quigg: "Senator Metcalf, this tightens it up; this makes it much more difficult for a charitable organization to qualify for a license to conduct gambling activities in the state of Washington. It sets out provisions requiring them to be in operation for at least a year, to be making progress toward the accomplishment of that charitable organization's goal. It says they must have at least fifteen members and it describes and sets out what membership is so it is not some kind of a sham organization, but it really in fact has to be a charitable organization with a substantial membership making successful progress toward its goal and be an established one.

"So the charitable organization of convenience for the purpose of gambling is certainly discouraged with this legislation."

Senator Metcalf: "One further question then; this is relative to the organization, but what about the things the organization can do? Is there any change relative to what they can do relative to the minor gamblings they are involved in?"

Senator Quigg: "The commission has increased enforcement powers through this bill, Senator Metcalf, so it is not tightening down, in some cases it tightens down the location as the Vognild amendment would be tightening down the location where bingo games could be played but generally it provides more enforcement power for the commission to enforce the rules that we presently have and it, as far as the games are concerned, but it substantially extends their powers and relates to the kinds of people that are putting these games on. It is not very often the games that get people in trouble, it is usually people that get people in trouble.

"I think that this bill is directed in that way and I think for that reason it deserves a 'yes' vote."

PARLIAMENTARY INQUIRY

Senator Bottiger: "Mr. President, I do not object to the answers being more than three minutes, but the questions should not be more than three minutes."

POINT OF INQUIRY

Senator Goltz: "Senator Quigg, you said that an organization had to be working toward and having some reasonable chance of succeeding with its goals. Will the Democratic party be able to gamble in the future under this . . .?"

Senator Quigg: "Which one, Senator?"

Senator Goltz: "The one that is striving and reaching toward its goal."

Senator Quigg: "Well, I guess it would depend on whether or not they had any bona fide members."

POINT OF INQUIRY

Senator Pullen: "Senator Quigg, I think you have to forgive the suspicion of some of the members here, but you do represent one of the most pro-gambling legislative districts in the entire state, and I am not sure that you fully answered the question of Senator Metcalf. His concern was not so much the tightening down on nonprofit organizations but the expansion of gambling as allowed by certain devices in the bill, such as the so-called 'slot machines' which is the terminology used in the bill, and 'coin operated gambling devices.'

"I believe a cursory reading would indicate that we may be allowing some devices that are not currently allowed and if that is not the case, then why are we changing the terminology of these gambling devices?"

Senator Quigg: "Senator Pullen, as you will recall in the . . . House Bill 1410, the governor vetoed that bill because she felt that it was ambiguous as to whether or not it would be setting up the state for the possible operation of the classical slot
machine, and this bill was drafted to address exactly that concern and the concern you are expressing. This bill was drafted to eliminate the slot machine as a possibility for a play here in the state of Washington that was, I think, pretty clear before, that it wasn't supposed to be used here but this makes it just that much clearer. This bill does not allow the one–armed bandit to begin working over the citizens of the state of Washington."

**PARLIAMENTARY INQUIRY**

Senator Pullen: "Mr. President, since this bill purportedly does not expand gambling, does it take a 60% constitutional majority to pass?"

**REPLY BY THE PRESIDENT**

President Cherberg: "Yes it does, Senator."

**FURTHER PARLIAMENTARY INQUIRY**

Senator Pullen: "Well, why is that, Mr. President?"

**REPLY BY THE PRESIDENT**

President Cherberg: "Because it's a gambling bill, Senator Pullen."

**FURTHER PARLIAMENTARY INQUIRY**

Senator Pullen: "The Constitution, as I recall the wording, does not specify a 60% majority for all gambling bills, simply for bills that would increase gambling or establish gambling. This does neither, it simply tightens down on existing gambling."

**REPLY BY THE PRESIDENT**

President Cherberg: "It is still a gambling bill in the mind of the President, Senator Pullen."

Senator Pullen: "To pursue this, because it is potentially very important to some bills we may have in the future, if we were to repeal the gambling laws that are now on the books, would that require 60% majority?"

President Cherberg: "Yes, Senator Pullen."

Senator Pullen: "In other words, in your view, the so–called protection that was put into the Constitution. . . ."

President Cherberg: "The gambling bill, Senator, will require 60%."

Senator Pullen: "... and even to repeal gambling laws that are now on the books will take a 60% . . . ."

President Cherberg: "The question is not before the body, Senator."

**ROLL CALL**

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 3307, and the bill passed the Senate by the following vote: Yeas, 40; excused, 9.

ENGROSSED SUBSTITUTE SENATE BILL NO. 3307, having received the constitutional sixty percent majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SUBSTITUTE SENATE BILL NO. 3698, by Committee on Transportation (originally sponsored by Senator Hansen):

Relating to transportation financing.

The Senate resumed consideration of Substitute Senate Bill No. 3698 from earlier today. An amendment by Senator Bottiger, had been moved for adoption, striking all of subsection (2).

There being no objection, the amendment by Senator Bottiger was withdrawn.

Senator Bottiger moved the following amendments be considered and adopted simultaneously and the rules were suspended to allow Senator Bottiger nine minutes to explain them:

On page 6, line 17, insert: "Motor Vehicle Fund Appropriation—State . . . $5,000,000"

On page 6, line 23 strike "$145,350,900" and insert "$150,350,000"

On page 10, line 23 strike "$64,660,000" and insert "$127,110,000"

On page 10, line 26 strike "$201,920,000" and insert "$264,370,000"

On page 10, line 30 after "47.05.030." insert "It is the intent of the legislature that to the extent federal funds are available, state matching funds shall be expended for transit benefit projects."

On page 11, line 14 after "act." insert "The state appropriation includes $34,450,000 from the proceeds of the sale of general obligation bonds for financing the Category B construction program. It is the intent of the legislature that to the extent federal funds are available, state matching funds shall be expended for transit benefit projects."

On page 11, line 17 strike "$10,937,000" and insert "$50,937,000"

On page 11, line 19 strike "$10,940,000" and insert "$50,940,000"

On page 11, line 23 after "47.05.030." insert "The appropriation includes $40,000,000 from the proceeds of the sale of general obligation bonds for financing the Category C construction program."

Debate ensued.

POINT OF INQUIRY

Senator Woody: "Mr. President, fellow members. I would like to address a question to either Senator Bottiger or Senator von Reichbauer or both.

"I am wondering if we have $31,000,000 additionally going into ferry subsidies, how is that money going to be spent? And how much money this state is currently spending on the ferry system? What does that $31,000,000 represent in terms of a percentage increase in this category?"

Senator Guess: "I will answer, Senator Woody.

"Senator Woody, the $31,000,000 is not going to be spent on the ferries. It will either be, according to the committee work, we'll either put $5,000,000 or $5.8 million or $8.3 million in there. And that is the part that has not been decided on by the committee and it seems to me that we have, Senator Bottiger is being very precipitous here, because this afternoon in committee, we had four pieces, or four bills; we had a white one and a yellow one and a blue one and a pink one. And we will make up our mind when we can get all the people together as to what the level of funding will be for the ferries, yet we do not know.

"We also do not know exactly the division of the remainder of that which is not going to go to the state patrol."
"So, and it depends, too, on the ferries, the fare that the ferry riders will pay, depends upon whether or not the gas tax goes. If the gas tax goes, the variable gas tax goes, there is an additional $7,000,000 that will go in there from their share of the gas tax increase. But if that $7,000,000 does not go in there, Senator Woody, then it is going to mean that they are going to have to pay a higher fare.

"We are trying to work that out and I think that this, these amendments are totally precipitous and they do damage to the process that we are going through.

"One of the things he says in here, 'It is the intent of the legislature to the extent Federal funds are available, state matching funds shall be expended for transit benefit projects.'

"Well, Senator, evidently Senator wants to do some additional talking . . . in the Tacoma area. I do not think that normally you would read this bill, you would think that this is going to solve the problem out on the highways. It is not supposed to be for, the program they have now for park-and-ride lots is pretty well thought out, has been worked out over a number of years; but this would put more money in there.

"This, the problem that we have in the state, is getting the matching funds for the shuttle funds and we have done, to the very best of ability, we have provided enough matching funds for the Federal funds that we know are coming. Those, of course, that we don't know, you cannot tell about that."

**POINT OF INQUIRY**

Senator Ridder: "Senator Guess, Senator Wilson had a comment earlier this evening, and you mentioned the phrase 'precipitous,' Senator; and frankly, without all the pieces of the puzzle, those of us who are not on transportation, find this extremely confusing.

"Would it not be possible to have all the bills before us at one time so that we might judge them on their value as a portion of the whole, because it is our understanding that one bill allocates a substantial amount of money, two-thirds to the ferries and one-third otherwise?"

Senator Guess: "Senator Ridder, I think that what we are going through is what we have been through in history. I can remember Senator Washington having this desk right here and I remember how disgusted Senator Henry was when he was presiding that Senator Washington would be allocated a whole day to pass the omnibus bill. Now, in those days, you did have all the bills before you, but frankly, nobody read it because it was impossible to read, and I think, to follow, unless you had been to the hundreds of hours of hearings that we have had in the committee.

"And so what we tried to do, and under Senator Bottiger's direction, we started this thing off to have the budget in the pieces that made up the whole. Now there is one more that you can read in your book and the other two haven't come out of committee."

Senator Ridder: "Well, I would just like to say, that from the sound of it, obviously you have spent a great deal of time on this; but we are talking about a great deal of money and it really makes a difference to some of us if we are going to be voting to double the fee that is now charged for motor vehicles, we have already decided that lots of people in our economy cannot stand additional taxes and yet certainly, anyone who has any kind of a vehicle is going to be subject to that. We are going to be talking about a potential gas tax which, like it or not, is a general tax increase, about as general as you can get in our lifestyle; and we would like to have those pieces before us. I think a full day on transportation matters would be very well in order."

Senator Guess: "Mr. President."

President Cherberg: "Senator Guess, you have spoken one time."

Senator Guess: "I was going to answer her question — she left it up in the air."
"This will only appropriate the money out of the twelve-cent gas tax, nothing more, nothing less."
Further debate ensued.

POINT OF INQUIRY

Senator Lysen: "Senator von Reichbauer, I want to compliment you on bringing out a 'no-tax increase' budget for the transportation department. I think this is the first time that I have seen this, and how was that possible that you were able to come out here on the floor with a no-tax increase budget?"

Senator von Reichbauer: (No reply.)

Senator Fleming demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendments by Senator Bottiger.

ROLL CALL

The Secretary called the roll and the amendments were not adopted by the following vote: Yeas, 23; nays, 26.

Senator Talmadge moved adoption of the following amendment:

On page 7, after line 32, insert:

"(8) After the effective date of this act, no moneys may be expended by the department in any substantial expansion of the Fauntleroy ferry terminal in Seattle as it existed on January 1, 1981."

Debate ensued.

POINT OF INQUIRY

Senator Wojahn: "Senator Talmadge, is it your understanding that in this substantial expansion project, there would be parking lots on the Fauntleroy side where people could leave sort of disreputable cars to be used instead of paying the high freight of taking cars back and forth on the ferry from the various areas, that they would leave one on either side and then would drive in to Seattle in the car that was on the Fauntleroy side, which obviously, would be parked outside all of the time and would probably be less than a fancy car. Would this expansion include that, to your knowledge?"

Senator Talmadge: "In response to your question, Senator Wojahn, the monies that are contemplated in the budget do not provide for the purchase, to my understanding, of new parking facilities, although the Washington state department of transportation has considered the possibility of taking the parking that exists for Lincoln park in West Seattle, which I think is the second most used park in the city of Seattle for ferry parking. The particular problem that we have is people leave their cars on the Seattle side, people from Vashon and people from Southworth, and in response to that particular problem the city council in the city of Seattle is contemplating a residential parking zone where people actually have to have a sticker on their car to indicate that they come from that neighborhood, because the congestion on these very narrow and very small streets, in a geographical cul-de-sac is so great that people can't even park in front of their own homes, and sometimes come
home to find that a car from Vashon and a car from Southworth is parked in their

Senator Talmadge demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the
amendment by Senator Talmadge.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the fol­
lowing vote: Yeas, 23; nays, 26.

Voting yea: Senators Bauer, Bottiger, Conner, Fleming, Gaspard, Goltz,
Hansen, Hughes, Hurley, Lysen, McDermott, Moore, Peterson, Rasmussen, Ridder,

Voting nay: Senators Benitz, Bluechel, Charnley, Clarke, Craswell, Deccio,
Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee,
McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von

Senator Vognild moved adoption of the following amendment by Senators
Vognild, Gould, Bottiger, Woody and von Reichbauer:

On page 14, line 29, insert the following:

"NEW SECTION. Sec. 26. The legislature recognizes the economic impor­
tance to the state of attracting new environmentally suitable high-technology indus­
trial development, and that the availability of transportation services is a significant
factor in locating such industries. In furtherance of the provisions and objectives of
HCR 17, passed by the 1981 regular session of the legislature, the transportation
commission and department of transportation shall, therefore, lend their coopera­
tion, and allocate so much of the funds provided by sections 18 through 20 of this
act as are reasonably necessary, to fund the state's fair share of the improvements
contemplated by HCR 17."

Renumber the remaining sections accordingly.

Debate ensued.

POINT OF INQUIRY

Senator Lysen: "Senator Metcalf, in King county we have really destroyed the
Green River valley of which you may be aware. How would this, explain to me how
your planning commission process appears to be subverted here in the whole process.
How did this happen that the planning commissioners resigned and were overruled
by a single company coming into your county?"

Senator Metcalf: "Senator Lysen, the conclusions as you look through them on
the three-page report of Snohomish county planning commission, are very clear. To
say more than sufficient area to meet the anticipated needs of planning area is pres­
tenly designated industrial in the comprehensive plan. That is a finding. There is
plenty of land.

"And the second one on page 1, the proposed amendment is not in conformance
with the comprehensive plan . . . and so forth.

"In other words, the comprehensive plans of counties have been developed to
basically set the goals and the guidelines, and this came in and specifically overruled
the comprehensive, came in and the comprehensive plan was supported by the plan­
ing commission and this was turned down. Then, following that, the members, as I
say, five of the nine are now gone, they have been replaced, they came back in with
another plan and as Senator Gould says local government has prevailed. But is has
been, I wish I could have brought you the findings of fact from that group, because
they just do not add up. This is specifically a violation of the comprehensive plan,
and the comprehensive plan has been changed to accommodate this."
Senator Lysen: "Senator Metcalf, would it have been possible for Hewlett-Packard to come in to your county in compliance with the comprehensive plan and build their plant and do this, create these jobs which we all want?"

Senator Metcalf: "Yes, as I say, there is sufficient area, there are other areas they could have come into, they chose this particular one."

Senator Lysen: "What was the reason for that? The economic reason?"

Senator Metcalf: "I am not sure what the reason was that they felt that they needed this one instead of other areas that were already zoned industrial. I am not sure."

Senator Lysen: "Are we using agricultural land here for the plant, or what . . . ?"

Senator Metcalf: "This is sort of a side hill, it is not really prime agricultural land. It was zoned residential before."

REMARKS BY SENATOR WOODY

Senator Woody: "Mr. President, I can attempt to answer part of Senator Lysen's concerns. This was quite an issue of controversy in Snohomish county when we were going through the planning process and I was not deeply involved in it because I was involved in a reelection campaign at the time."

"But I do know that one of the problems with the other industrial sites that had been set out in this area were problems with adequate water and problems with adequate sewer facilities. This property that was selected has the facilities, utilities and energy availability that is necessary for this kind of installation. And that is why this site was selected and the argument was strongly made that the other sites which, by this comprehensive plan were originally established for industrial development, did not have the necessary utilities available and that was an integral part of the decision which allowed Hewlett-Packard to eventually locate at this site rather than the other originally planned industrial development site in this area."

Senator Patterson demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Vognild and others.

ROLL CALL

The Secretary called the roll and the amendment was adopted by the following vote: Yeas, 31; nays, 18.

Voting nay: Senators Bluechel, Clarke, Craswell, Fuller, Gallagher, Goltz, Hughes, Hurley, McDermott, Metcalf, Patterson, Pullen, Ridder, Scott, Shinpoch, Williams, Wilson, Zimmerman—18.

POINT OF ORDER

Senator Talmadge: "The cutoff resolution, Mr. President, provides that, commencing at 5 p.m. on Thursday, April 2, 1981, the eighty-first day of the session except for 'omnibus appropriation (commonly known as the budget or supplemental budget)' revenue and redistricting bills in the House will consider only Senate bills, memorials and so on and so forth."

"Mr. President, my point is that the bill before us is a Senate bill, not a House bill. It is not an omnibus appropriations bill because, should it be an omnibus
appropriations bill, rule 58 provides that, "Omnibus appropriation bills shall be considered in committee of the whole senate, . . ." We considered the budget, the general fund budget in the committee of the whole Senate. This, obviously, is not an omnibus appropriations bill because we are not in the committee of the whole and I think it is beyond the cutoff date."

REMARKS BY SENATOR CLARKE

Senator Clarke: "The fact that we did not go into the committee of the whole is not in any way determinative because there was no objection or suggestion that we should. The question before the President is simply whether or not this is or is not a general appropriation bill."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Mr. President, to only slightly correct the remarks of Senator Clarke, it is not a question of whether or not this is an appropriations bill, but whether or not it is THE omnibus appropriations bill."

PARLIAMENTARY INQUIRY

Senator Goltz: "If I understand the question before us, the point of order before us, if this is an omnibus appropriations bill that Senator Clarke I think, said it may very well be, then the next question would be whether or not this bill would require a two-thirds vote."

RULING BY THE PRESIDENT

President Cherberg: "In reply to Senator Talmadge's point of order, the President believes that the transportation budget is one of several bills that are considered supplemental budgets.
"Your point of order, Senator Talmadge, in regard to the committee of the whole is well taken, but untimely."

Engrossed Substitute Senate Bill No. 3698 was passed to the Committee on Rules for third reading.

Senator Bottiger moved adoption of the following amendment:

On page 2, lines 1, 4 and 11, after "budget)." insert "and" and after "revenue" strike ", and redistricting"

Debate ensued.

POINT OF INQUIRY

Senator Ridder: "Senator Metcalf, you mentioned that redistricting would not come up in the final moments of the legislature. I think that, counting this day, we have thirteen; can you tell me at what point it is not in the final moments?"

Senator Metcalf: "Well, I said that the dark of the night of the last day. I would certainly hope we can do it before that."

Senator Ridder: "You mean the afternoon of the last day?"

Senator Metcalf: "We are moving on it just as soon as we can, Senator Ridder."

Further debate ensued.

Senators Jones, Hayner and Guess demanded the previous question.

Senator Bottiger demanded a roll call and the demand was sustained.

MOTIONS

On motion of Senator Clarke, the Senate commenced consideration of Engrossed Substitute Senate Bill No. 3698.

THIRD READING

ENGROSSED SUBSTITUTE SENATE BILL NO. 3698, by Committee on Transportation (originally sponsored by Senator Hansen):
Relating to transportation financing.

REQUEST FOR RECESS

Senator Bottiger: "I have had a request from several of our members for a caucus on this budget. They did not expect it to come up on third reading today in this manner without a rules committee or anything, so if we could, we would like to have a recess for about thirty minutes for a caucus."

Senator Jones: "I regret it, but I think the bill was thoroughly discussed last evening. You are all well aware of what's in that measure. It was a, talked at great length; we even gave you an extension of time and gave you a 9-minute span. And if you intend to go, we intend to proceed."

POINT OF INQUIRY

Senator Wilson: "Do I understand, Senator Jones, that you are unwilling to give the minority an opportunity to caucus on one of the major transportation bills of the session?"

Senator Hayner: "It seems to me, Senator Wilson, that we have been inordinately considerate. I have been sitting in our caucus, they have been saying for a long time, 'Let's ask for the previous question, let's make it a matter of consideration or whatever and cut it off,' because we do have a deadline and we have a plan to meet that deadline.

"Now we have tried to comply, in every way we could, with reasonable amendments, discussion, and so forth. We did not put the 3-minute rule on until yesterday."
"I think that anyone who is observing this operation could see very clearly that we have tried very hard to comply with your legitimate requests. I do not consider this a legitimate request at this time. I think you have had every opportunity to caucus for an hour this morning, an hour yesterday morning, and I cannot believe that you are not prepared to take this vote now."

REMARKS BY SENATOR FLEMING

Senator Fleming: "Mr. President, in the spirit of cooperation which you talked to both sides of the aisle about last week, I think it is important to note that if the other side of the aisle felt as though the spirit of cooperation were to continue, we were in rules committee meeting until eleven o'clock last night, I mean twelve o'clock this morning, twelve a.m. And if they had planned on bringing this bill out in this manner, the old subject of talking to each other before and after would go a long way. They could have indicated to us at that point in time that they would make this move rather than go back to the rules committee and pull a bill out.

"Some of our members, when we discussed this matter unfortunately were not there and they have asked that we get a chance to talk about this measure before it came back on the floor.

"So I am going to once again appeal to the other side that we have at least fifteen minutes to talk about this issue.

"No consideration? There will be a Democratic caucus immediately."

The bill was read the third time and placed on final passage.

The President declared the question before the Senate to be the roll call on final passage of Engrossed Substitute Senate Bill No. 3698.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 3698, and the bill passed the Senate by the following vote: Yeas, 26; nays, 1; absent or not voting, 22.

ENGROSSED SUBSTITUTE SENATE BILL NO. 3698, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

NOTICE OF RECONSIDERATION

Having voted on the prevailing side, Senator Shinpoch served notice that he
would, on the next working day, move for reconsideration of the vote by which Engrossed Substitute Senate Bill No. 3698 passed the Senate.

MOTIONS

On motion of Senator Clarke, the Senate returned to the sixth order of business.

On motion of Senator Clarke, the Senate commenced consideration of House Bill No. 181.

SECOND READING

HOUSE BILL NO. 181, by Representatives Smith and Flanagan:
Authorizing agreements between irrigation districts.

The Senate resumed consideration of House Bill No. 181. On April 13, 1981, an amendment by Senators Newhouse, Hansen and McCaslin was adopted. A title amendment was also adopted at that time.

Senator Lysen moved adoption of the following amendment:

On page 1, line 15, after "effect" insert ": PROVIDED, That no entity so established may issue revenue bonds in excess of $500 million (one-half billion)"

Debate ensued.

Senator Lysen demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Lysen.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 20; nays, 28; absent or not voting, 1.

Absent or not voting: Senator Conner—1.

On motion of Senator Newhouse, the rules were suspended, House Bill No. 181, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Lysen: "Senator Newhouse, would the bonds issued under this law
pledge the entire revenue generating ability of the member irrigation districts, in the same manner as the WPPSS 'hell-or-high water' revenue bonds pledge the entire revenue generating ability of the individual utilities which make up WPPSS? My concern is, if one of the worthy hydroelectric projects to be financed under this act were washed away in a flood, like the Teton dam, would the bondholders then be able to come back to the irrigation districts that are involved in the joint agency which issued the bonds, and make them pay off the bonds from their other irrigation facilities, thereby driving up irrigation rates, and possibly bankrupting the farmers in the process?"

Senator Newhouse: "The answer, for the record, Senator Lysen, is 'no' according to the information I have. It is the intent of this bill that revenue bonds issued by a separate legal entity established by this bill would be satisfied only from revenues derived from the project for which the bonds were issued. Neither the member irrigation districts, nor the landowners in the districts would be obligated to make payments on the bonds from revenues derived from any other source. This is required under RCW 87.28.030 and .040."

ROLL CALL

The Secretary called the roll on the final passage of House Bill No. 181, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 41; nays, 8.

HOUSE BILL NO. 181, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Clarke, the Senate commenced consideration of Second Substitute House Bill No. 157.

SECOND READING

SECOND SUBSTITUTE HOUSE BILL NO. 157, by House Committee on Local Government (originally sponsored by Representatives Addison, O'Brien, Sanders, Erak, Dickie, Isaacson, Johnson, McGinnis, Leonard, Bond and Taylor):

Requiring local governments and state agencies to pay interest on delinquent contract payments.
SECOND SUBSTITUTE HOUSE BILL NO. 157, requiring local
governments and state agencies to pay interest on delinquent contract payments
(reported by Committee on Commerce and Labor):
Recommendation: Do pass with the following amendment:
Page 2, following line 13, add a new subsection (7) to read as follows:
"(7) Payment from any retirement system listed in RCW 41.50.030 and
chapter 41.24 RCW."
Signed by: Senators Quigg, Chairman; Hurley, Jones, Newhouse, Sellar,
Vognild, Williams.
The bill was read the second time by sections.
On motion of Senator Quigg, the committee amendment was adopted.
Senator McDermott moved adoption of the following amendment:
On page 2, line 9, after "failures," insert "cash flow emergency declared by the
governor."
Debate ensued.

POINT OF INQUIRY
Senator Bottiger: "Mr. President, I am not opposed to this bill, but I have a
question and I have asked two people, 'How much do warrants fare, what rate of
interest would we have if we were on state warrants?' I have gotten different
answers to that question; Senator Scott, do you know what . . . ?"
Senator Scott: "Senator, I have not had a quote on that lately and I cannot help
you. I think what we had better do is ask Bob O'Brien, post haste, if it is critical to
your . . . ."
Senator Bottiger: "It would be because if we are in a position where one debtor
gets 12%, 1% per month, and somebody else gets less, then that would, I think,
create a flaw in the bill."
The motion by Senator McDermott failed and the amendment was not adopted.
On motion of Senator Quigg, the rules were suspended, Second Substitute Bill
No. 157, as amended by the Senate, was advanced to third reading, the second
reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY
Senator Shinpoch: "Senator Quigg, I notice in section 1 that it applies to every
agency of state government and that is fine. And units of local government. And my
question is, has anyone checked how this impacts or initiative 62 impacts this? It
seems to me if there is no problem in local government, well then, local government
should not be included. If there is a problem in local government that they are
delaying, then we are imposing an additional expenditure on local government, and
it was my understanding that under initiative 62, if we did that, we, the state, had to
pay for it. Have you checked that out?"
Senator Quigg: "Senator, I have not got an analysis of initiative 62
implications; however, I have a rather thorough analysis of the next layer of tax,
really the taxpayers that are affected by this, and theirs is that there is a substantial
burden borne by the people who are subjected to an extended wait for receipt of
payments due them by governmental agencies because the agencies decide, for
whatever reason, not to pay them and I am not talking about delaying of payments
over a dispute or whatever, it is just because it is in the computer."
REMARKS BY SENATOR HAYNER

Senator Hayner: "Senator Shinpoch, it appears to me that they are obligations that the state has already created for itself. We are not imposing any additional ones on them, nor are we saying they have to pick up any services or anything that they are not picking up. They are obligations that they have incurred. We are just saying, 'Pay your bills.' I cannot see how that would affect initiative 62 in any way."

REMARKS BY SENATOR SHINPOCH

Senator Shinpoch: "Well the obligation, Senator Hayner, that what we are imposing upon local government is an interest, to pay the interest at 1% per month over and above what Senator Quigg is indicating that they are doing now, that they are not paying, and if I understand initiative 62, in section 6 of initiative 62, in the manner in which that is imposed, that we, very simply, at this time, for that 1% per month, if there are units of local government there now which are traditionally running 60 to 90 days to pay their bills, and we have tacked on a 1% per month, that we have simply now, under the manner in which 62 is written in section 6, that we have now picked up all of the interest charges of local government if we pass this bill."

REMARKS BY SENATOR CRASWELL

Senator Craswell: "Thank you, Mr. President, members of the Senate. "Speaking in regard to that last question, I also had that question on my mind, I didn't have a chance to talk directly to any of the assistant attorney generals but sent a message and it came back without explanation. I might say that it would not be affected by initiative 62."

POINT OF INQUIRY

MAJORITY recommendation: Do pass with the following amendments:
On page 3, after line 16, insert new sections as follows:
"Sec. 5. Section 3, chapter 105, Laws of 1979 ex. sess. and RCW 10.99.030 are each amended to read as follows:
(1) All training relating to the handling of domestic violence complaints by law
enforcement officers shall stress enforcement of criminal laws in domestic situations, availability of community resources, and protection of the victim. Law enforcement agencies and community organizations with expertise in the issue of domestic violence shall cooperate in all aspects of such training.

(2) The primary duty of peace officers, when responding to a domestic violence situation, is to enforce the laws allegedly violated and to protect the complaining party.

(3)(a) When a peace officer responds to a domestic violence call and has probable cause to believe that a crime has been committed, the peace officer may exercise arrest powers with reference to the criteria in RCW 10.31.100. The officer shall notify the victim of the victim's right to initiate a criminal proceeding in all cases where the officer has not exercised arrest powers or decided to initiate criminal proceedings by citation or otherwise. The parties in such cases shall also be advised of the importance of preserving evidence.

(b) A peace officer responding to a domestic violence call shall take a complete offense report including the officer's disposition of the case.

(4) The peace officer may offer, arrange, or facilitate transportation for the victim to a hospital for treatment of injuries or to a place of safety or shelter.

(5) The law enforcement agency shall forward the offense report to the appropriate prosecutor ((as soon as practicable,)) within ten days of making such report if there is probable cause to believe that an offense has been committed, unless the case is under active investigation.

(6) Each law enforcement agency shall make as soon as practicable a written record and shall maintain records of all incidents of domestic violence reported to it.

(7) Records kept pursuant to subsections (3) and (6) of this section shall be made identifiable by means of a departmental code for domestic violence.

Sec. 6. Section 4, chapter 105, Laws of 1979 ex. sess. and RCW 10.99.040 are each amended to read as follows:

(1) Because of the serious nature of domestic violence, the court in domestic violence actions:

(a) Shall not dismiss any charge or delay disposition because of concurrent dissolution or other civil proceedings;

(b) Shall not require proof that either party is seeking a dissolution of marriage prior to instigation of criminal proceedings;

(c) Shall waive any requirement that the victim's location be disclosed to any person, other than the attorney of a criminal defendant, upon a showing that there is a possibility of further violence: PROVIDED, That the court may order a criminal defense attorney not to disclose to his client the victim's location; and

(d) Shall identify by any reasonable means on docket sheets those criminal actions arising from acts of domestic violence.

(2) Because of the likelihood of repeated violence directed at those who have been victims of domestic violence in the past, when any defendant charged with a crime involving domestic violence is released from custody before trial on bail or personal recognizance, the court authorizing the release may prohibit the defendant from having any contact with the victim. Wilful violation of a court order issued under this section is a misdemeanor. The written order releasing the defendant shall contain the court's directives and shall bear the legend: Violation of this order is a criminal offense under chapter ((~)) 10.99 RCW ((and is also subject to civil contempt proceedings)). A certified copy of such order shall be provided to the victim.

NEW SECTION. Sec. 7. There is added to chapter 10.99 RCW a new section to read as follows:

(1) A defendant arrested for an offense involving domestic violence as defined by RCW 10.99.020(2) shall be required to appear in person before a magistrate within one judicial day after the arrest; or
(2) A defendant who is charged by citation, complaint, or information with an offense involving domestic violence as defined by RCW 10.99.020(2) and not arrested shall appear in court for arraignment in person as soon as practicable, but in no event later than fourteen days after the next day on which court is in session following the issuance of the citation or the filing of the complaint or information.

At the time of the appearances provided in subsection (1) or (2) of this section, the court shall determine the necessity of imposing a no contact order or other conditions of pretrial release according to the procedures established by court rule for a preliminary appearance or an arraignment. The decision of the judge and findings of fact in support thereof shall be in writing.

Appearances required pursuant to this section are mandatory and cannot be waived.

NEW SECTION. Sec. 8. There is added to chapter 10.99 RCW a new section to read as follows:

Any law enforcement agency in this state may enforce this chapter as it relates to orders restricting the defendants' ability to have contact with the victim."

On page 3, after line 16, insert a new section as follows:

"NEW SECTION. Sec. 9. There is added to chapter 70.125 RCW a new section to read as follows:

Records maintained by rape crisis centers shall not be made available to any defense attorney as part of discovery in a sexual assault case unless:

(1) A written pretrial motion is made by the defendant to the court stating that the defendant is requesting discovery of the rape crisis center's records;

(2) The written motion is accompanied by an affidavit or affidavits setting forth specifically the reasons why the defendant is requesting discovery of the rape crisis center's records;

(3) The court reviews the rape crisis center's records in camera to determine whether the rape crisis center's records are relevant and whether the probative value of the records is outweighed by the victim's privacy interest in the confidentiality of such records taking into account the further trauma that may be inflicted upon the victim by the disclosure of the records to the defendant; and

(4) The court enters an order stating whether the records or any part of the records are discoverable and setting forth the basis for the court's findings."
Victims and witnesses are further frustrated by the complexity of the criminal justice process, very limited understanding of that process, and the resulting inability to successfully obtain basic case update information from an already overburdened system. County-wide victim and witness programs work to lessen the difficulties of being a victim or witness by providing a link into the criminal justice system. This link creates a more informed public, reassured that they as taxpaying citizens are involved in a criminal justice system that represents them, the people of the state of Washington.

NEW SECTION. Sec. 11. (1) Upon a person pleading guilty to or being convicted of a crime against another person or property in the state, in addition to any other fine or penalty, the court shall levy an assessment of twenty-four dollars for each felony and twelve dollars for each misdemeanor or gross misdemeanor.

(2) When any full deposit of bail is made by a person who is not in custody and who is charged with a misdemeanor or gross misdemeanor, the person making the deposit shall also deposit a sufficient amount to include the assessment required by this section. A person upon whom an assessment has been levied is entitled to a refund of the assessment if the person is acquitted or the charges are withdrawn.

(3) The assessment imposed under this section shall be divided in the following manner:

(a) One-half shall be deposited in the crime victim compensation fund and shall be allocated to the payment of claims made under chapter 7.68 RCW;

(b) One-half shall be deposited in the county victims assistance fund hereby created in the state treasury. Moneys deposited in the fund shall be administered by the department of labor and industries for allocation exclusively to comprehensive county programs for crime victims and witnesses.

NEW SECTION. Sec. 12. (1) The department of labor and industries shall establish fiscal guidelines for the distribution of moneys designated in section 6 of this act for use by the prosecuting attorney or the prosecuting attorney's designee to provide comprehensive services to victims and witnesses of all types of crimes. The Washington victim/witness coordinating council shall provide consultation and assistance to prosecuting attorneys or their designees in designing and implementing programs pursuant to this chapter.

(2) It is the intent of the legislature that funds distributed under this section to comprehensive county programs shall be supplementary to established funding by local governments and that this local funding shall not be supplanted.

(3) Funds distributed under this section shall be made available to those public agencies for the assistance of victims and witnesses which:

(a) Provide comprehensive services to victims and witnesses of all types of crime with particular emphasis on serious crimes against persons and property. It is the intent of the legislature to make funds available only to programs which do not restrict services to victims or witnesses of a particular type or types of crime;

(b) Are administered by the county prosecuting attorney;

(c) Assist victims in the restitution and adjudication process; and

(d) Assist victims of violent crimes in the preparation and presentation of their claims to the department of labor and industries under chapter 7.68 RCW.

NEW SECTION. Sec. 13. Moneys held by the county clerk which have been paid by defendants for restitution to victims of crime shall be returned to the local county program for victims and witnesses if the victim cannot be located. POINT OF INQUIRY

Senator Talmadge: "Senator Hemstad, although the title of these officers is changed to 'administrative law judge' from 'hearing examiner,' it does not mean that they would be included in the judicial retirement system?"
Senator Hemstad: "That is correct. These officers will be part of the executive branch."

POINT OF INQUIRY

Senator Rasmussen: "Senator Hemstad, you are creating a whole new judicial system in effect, below the superior court. These administrative law judges, their rulings have the force and effect of law, yet they are not elected, they are appointed. You are starting out with a small appropriation, $120,000. What do you anticipate that this balloon into the next 6 to 10 years? How many administrative law judges do you figure, obviously $120,000, you won't have very many.
"But in the future, what do you anticipate that this new department will be in employees?"
Senator Hemstad: "Senator Rasmussen, in answer to your question, the $120,000 appropriation is for the startup costs for the appointment of the necessary centralized activity of the chief administrative law judge. There will be transferred into this unit or agency, all of those administrative officers currently serving in state government and that total is approximately 90. In other words, these are functions that are currently being carried out by most of the agencies of state government now. I suspect the structure will be operated on a revolving fund basis, comparable to the way services of the attorney general are now provided or of the state auditor, paid for by the agency as they make use of this resource. Therefore, at least in terms of current operations, it would simply awash with the cost reflecting what are the current level costs of the operation of state agencies."

Senator Rasmussen: "One further question, Senator Hemstad. This bill also provides for the licensing of administrative law judges? How are they to be chosen? At the present time, hearings examiners are picked by the department. Now, after this is in operation, how will these administrative law judges be appointed, and by whom?"

Senator Hemstad: "They will be appointed by the chief administrative law judge. They may be removed for cause. They, themselves, will not be included within civil service, and they will have the right of appeal if terminated, to the superior court in Thurston county to review the basis for their termination."

SECOND READING

ENGROSSED HOUSE BILL NO. 719, by House Committee on Education and Representative Taylor:
Providing for a citizens' study commission on school finance.

REPORT OF STANDING COMMITTEE

April 7, 1981.

ENGROSSED HOUSE BILL NO. 719, providing for a citizens' study commission on school finance (reported by Committee on Education):
MAJORITY recommendation: Do pass with the following amendments:
Strike everything after the enacting clause and insert the following:
NEW SECTION. Section 1. The legislature has reason to believe there seemingly exists in the Washington state educational structure at present a lack of coordination between institutions, a weak response to the progressive academic and vocational needs of students, an unclear statement as to roles and missions, an inconsistency between programs, duplications of effort, and inefficient uses of public dollars. The possibilities for improving this structure require comprehensive examination.

The current structure has evolved into several separate and distinct educational components: The kindergarten through grade twelve system, the community college system, the four year colleges and universities system, the vocational technical institute system, and educational instruction within other state institutions; outside of the state systems, but of much importance, are the private and proprietary schools.

Accountability in education should be equally applicable to all levels of instruction. The assessments of student achievement, what constitutes good instruction, and the responsibilities of management, should be public knowledge and publicly controlled in all segments of education funded by state taxes. The needs of the student, the product of the educational system, are paramount.

Therefore, it is the intent of this act to investigate thoroughly the entire educational complex in Washington state.

A review of the educational complex is merited so that the legislative and administrative branches of government and the public may consider these and other issues: Coordination, needs of students and response to those needs; the role and missions of the components, educational diversity and independence; obstacles to orderly student progression; open access; efficiency; duplication; accreditation; graduation and entrance requirements from high school to postsecondary; efficient uses of public dollars; ways to improve the system possibly through managerial reorganization or combining of components; accountability of the various levels; student achievement; and a determination of what constitutes good instruction.

NEW SECTION. Sec. 2. There is hereby created the Temporary Committee on Educational Policies, Structure and Management which shall consist of nine citizen members, appointed by the governor, one member from each political party of the house of representatives, appointed by the speaker of the house, and one member from each political party of the senate, appointed by the president of the senate.

The temporary committee shall undertake a general review of Washington education, its strengths and areas needed for improvement, and make a report on its findings to the governor, the legislature and the citizens of the state.

In addition to the examination of those questions raised in section 1 of this act, this review shall include:

(1) An emphasis on the educational progression of the student;
(2) An examination of the current educational components with particular attention directed to their interrelationships, obstacles to student mobility and progression, and how the system or its components might be improved;
(3) Examination of the educational goals of the components and a determination of their intended interrelationships;
(4) Determination of the extent of duplication of educational services in both the vocational and academic areas, the extent to which such duplication may be unwarranted, and proposed corrections; and
(5) Consideration of the nature and extent of any benefits, including those pertaining to student access, progression, and learning, improved information, and cost reduction, as well as any disadvantages, that might accrue from structural reorganization in Washington education.

The committee shall submit its report not later than January 15, 1983, and it shall cease its existence not later than June 30, 1983.
NEW SECTION. Sec. 3. The Temporary Committee on Educational Policies, Structure and Management may accept and expend funds in accordance with chapter 43.88 RCW from private sources and grants from public agencies for the purposes of fulfilling its duties: PROVIDED, That the acceptance and expenditure of such funds first must be approved by the governor.

The committee may establish advisory committees and task forces, as it may deem necessary, to assist it in the fulfillment of its duties.

The educational institutions, delivery systems, and support systems of the state shall fully cooperate with the committee in its investigations and deliberations.

The committee may employ such staff or consultants that it may deem necessary to fulfill its duties.

NEW SECTION. Sec. 4. There is hereby appropriated for the biennium ending June 30, 1983, the sum of one hundred thousand dollars, or so much thereof as may be necessary, from the state general fund, to be used by the committee for the purpose of carrying out the provisions of sections 1 through 3 of this act. The appropriation contained in this section is subject to the following conditions and limitations:

(1) That the general fund state funds provided shall be matched by local or private funds on a one to one basis.

(2) That upon completion of the study, any residual general fund state funds shall revert to the general fund.

NEW SECTION. Sec. 5. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

On line 1 of the title after "to the" strike "Citizens Study Commission on School Finance" and before ";" and insert "Temporary Committee on Educational Policies, Structure and Management".

On line 4 of the title after "commission" and before ";" insert "; and making an appropriation".

Draft recommendations shall be proposed by August 1, 1982, and after extensive state-wide public discussion of those recommendations, final recommendations for appropriate action shall be completed and presented to the governor by December 1, 1982. Members of the committee shall present those recommendations to the legislature, to the appropriate state agencies and to the public as soon as
possible after the 1983 legislature convenes, and the committee shall cease to function by the end of the 1983 legislative session."

Senator Guess moved adoption of the following amendment to the committee amendment:

Amend the amendment to page 1, line 21, on the second line as follows: Strike "175,000" and insert "160,000"

POINT OF INQUIRY

Senator Gould: "Mr. President, I wonder if Senator Williams would yield to a question?

"Senator Williams, I remember back some time ago when I was on the school board and we had an engineering firm on retainer, as many public agencies do. Would we still be able to hire any engineering firm we wanted? We had one that knew the district better than anybody ever had. Would we now, if I were still there, have to go out and go through the process that you have stated? Or would we be able to stick with the one we had always had?"

Senator Williams: "I think it depends on the kind of work you are talking about. If a school district or some other agency has an engineer or architect on retainer to do a continuing series of projects, this is a practice that goes on quite often. And what is negotiated initially, then, with that particular consultant firm, is what the scope of that work is going to be and what the retainer is going to be for that. Now many firms, many agencies, the Seattle engineering department and others, do this, particularly for small work that comes up periodically and they need design or help in doing that. However, I personally would frown on an agency doing this if, in fact, a brand new school is coming up or let's say a new courthouse, or something like that. I think these are projects of such a size that they really should be advertised so that there is more open competition for that, rather than somebody having a cozy arrangement with a particular agency or school district or whatever.

"But in a kind of a routine sort of work where a consultant is needed on an ongoing basis, the bill does allow, as long as the agency, you know, initially, goes through the negotiation process for that firm, then an agency can do that."

Senator Gould: "If I may ask just one more question to clarify. Can you write into that original scope of work or into the description, job description, or whatever qualifications, that you want somebody who has considerable knowledge of the city, town, school district or the area. I think in terms of engineering in particular, not in architecture, but as an engineer, think a knowledge of the area is invaluable and can save the district a considerable amount of money, particularly if they have had experience doing work for them before."

Senator Williams: "Well, yes, I think, the bill does not purport to make a judgment for the particular agency or school district or whatever, as to who is best qualified. It simply says that that agency shall go through a process for determining who is the best qualified; and whatever criteria they may select then, to determine who is the most qualified, is for them to determine."

Debate ensued.
Senator Talley: "Senator Guess, I was always under the impression on con-
struction jobs, the architect got a certain percentage of the contract to supervise and
see that they were following the designs."

Senator Guess: "Senator Talley, a number of years ago there was an action at
the national level by the Federal government, that said that the fixing of a fee, and
this is the 10% which was normal, was an illegality and that if anybody that engaged
in proposing to do work for that fixed fee, then was subject to the sanctions of the
Federal government . . . .

"They had to go away from that. It had been the standard practice for many,
many years that work was done, normally, for instance, I can remember when I first
came to Spokane, doing repair work on buildings, the architects would charge 10%
for remodel work or 6% for new work. And then as prices grew and cost of things
did increase, it became normal for 10%.

"Well, lately, because of the Federal action, it is now to the point that they
cannot any longer say that.

"And so this was the approach that is being used here with a selection and
talking to the architects, discussing and outlining the scope of work in each one of
the tasks. This is a solution that has come out and has resulted in the best type of
solution to that problem.

"And I think that this bill is the best solution to the problem."

Further debate ensued.

Senator Bauer: "Senator Williams, the first sentence of section 4 requires agen­
cies to encourage architectural and engineering firms 'engaged in the lawful practice
of their profession, to submit annually a statement of qualifications and performance
data.'

"Can local agencies such as sewer districts, comply with the requirement, by
having their association permit lists of agencies with each agency's name, address,
phone number, and contact person's name to the architect and engineers' profes­
sonal association?"

Senator Williams: "Yes, Senator Bauer. That section basically has language to
indicate that agencies should, in a positive way, try to encourage firms to engage in
practice and come to them.

"And for a particular type of small district, like sewer districts and so forth, for
them, then, to provide the information on who to contact through the various associ­
ations of engineers and architects and so forth, I would think, would comply very
readily with the intention of the act."

Senator Clarke: "We intend to recess as soon as we finish this bill. I am just
suggesting . . . ."

Senator Fleming: "I just want to ask Senator Williams a question. It is in line
with what Senator Shinpoch and some others, which is one of my concerns.

"If, in fact, you have this measure and I don't know if it is much different other
than the fact if you are out there now and if you know the right people, I guess you
might be able to get contracts with the right agencies. I don't know how it is done
and maybe you can deal with that.

"But what I would like to know under the present circumstances versus this bill,
if you do have a firm, 'Goltz and McDermott,' that is newly operating, engineering
or architectural firm, have qualifications, I guess, because you go through certain
requirements to be an architect or engineer. But they wanted to get some action."
"What process is there available if you are getting these certain criteria set up, what process is it for Goltz and McDermott to get a piece of the public action under this measure versus what is there presently? And I think that might address some of what Senator Shinpoch was concerned about also."

Senator Williams: "Let me give you an example of what I think is an outstanding example of how this bill has worked. "King county and the city of Seattle, both, in 1968 when the forward thrust bond issue was passed, set up a design selection process which fits exactly with the intent of this bill and so forth. "And those two entities have operated since 1968 that way. What they both have is a design commission, a selection process, for the selection of consultants. And over that period of years, we have seen an outstanding number of projects in the city and in the county that have been designed by all range of firms, including new firms, starting; because what you have, generally, is a selection process which, these are people knowledgeable in the business, and demonstrated competence does not necessarily mean that you have a long history of projects already completed. It may mean that, bringing to that design selection process, you have convinced that panel of people, whoever they are, that you have the competence, the design imagination, and the ability to get that job done. "However, no initial firm, starting out, should expect to get the Kingdome, for instance. I mean it is normal process to start out with some smaller job, prove your worth, and move on then to compete for larger projects. "So, there is nothing in this bill that I see that would inhibit the selection of new, qualified firms that are just forming, coming out of school and so forth; because we all look for that kind of talent."

Debate ensued.
The motion failed and the amendments were not adopted.
On motion of Senator Hemstad, the rules were suspended, Engrossed House Bill No. 42 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Lysen: "Senator Hemstad, I have been told that the staff's clips on their cards, this bill would make those clips illegal, is that true or not? Could that be true?"
Senator Hemstad: "Well, I am not sure to what you are specifically referring, Senator Lysen; but let me guess, at least. The bill prohibits paraphernalia which is designed for use with a controlled substance, and that is where the challenges have tended to come with this bill because a pipe can be designed for use with an illegal drug as well as for smoking tobacco, for example. . ."
Senator Lysen: "Well, ... Secretary Snyder has a clip on that is considered a 'roach clip' or something could be, that holds his badge on. Would that come under this section? I have been told it does. I do not know."

Senator Hemstad: "I cannot answer your question because I am not sure what you referred to would be used, or designed or intended for use.

"I would suggest you would have to ask someone who is more sophisticated than I in the mechanisms of paraphernalia."

Senator Lysen: "Well, Senator, you are an attorney, you would know the definitions of how this is ... If you do not know, who do we rely on, who would you suggest?"

Senator Hemstad: "I suppose you could ask someone on your side of the aisle."

REMARKS BY SENATOR CLARKE

Senator Clarke: "Senator McDermott would undoubtedly be much more knowledgeable than I, but in the testimony before the committee, it is quite true that many of these items as I stated in connection with the argument on the amendment, may, theoretically, be used for many other purposes. They gave illustrations of certain kinds of straws, for instance; well, you can buy a straw, you can buy a small spoon, you can buy a little clip. But if these are all offered, in effect, in a display which shows how they can be used for drug purposes, then that type of a situation is what constitutes the illegality of it.

"You can, as reduced to absurdity as it were, by picking out many of these items and show that they can have completely lawful uses, if they are so applied.

"But the whole idea, I suppose you could say that you could take a gun, say you are not going to use that gun to shoot, you are going to use it for an ornament on the wall or something like that. You get into that type of an argument and so you can pick out various specific items which, if they were on display in connection with a book that shows you how to use it to smoke pot, as it were, then that would be an illegal situation whereas if it were in an ordinary grocery store, it would not be."

REMARKS BY SENATOR McDERMOTT

Senator McDermott: "Mr. President, members of the Senate. In response to Senator Clarke, I am not sure you have read this bill if you want me to explain the instruments, apparently the instruments of drug use, according to this bill are scales and balances, kitchen sifters—I am sure your mother had a sifter that she could put the flour in and you turn a little handle and it fell through; they have bowls and spoons; they have balloons.

"Here we are, everybody is running a political campaign. he had balloons; that is going to be drug paraphernalia. And envelopes; think of all the envelopes.

"The really, I guess, sad thing about this bill is that we are putting it out with the belief that it will change the drug scene in this state and this country. It really is not going to do anything. What you are going to do is create a lot of hassle in a lot of situations. If you read on page 3, it says, 'In determining whether an object is drug paraphernalia under this section, a court or authority shall consider, in addition . . .' Then it goes through a long list of things, including 'Direct or circumstantial evidence of the intent of an owner, or . . . anyone in control of the object, to deliver it to persons whom he knows, or should reasonably know . . . . ' You start into that, this is about as vague a language . . . . you could catch anybody with that kind of language.

"And I think that really you deceive yourself if you think this kind of bill will do what you think it is intended to do. It will not stop drug use. There are other things that are much more important, drug education programs in the schools which
were cut out in the budget. That is more important than passing this kind of P.R. bill."

SECOND READING

ENGROSSED HOUSE BILL NO. 83, by Representatives Lewis, Williams, King (J.), Wang, Pruitt, Leonard, Erickson, Smith, Hankins and McGinnis:

Modifying the regulation of optometry.

The bill was read the second time by sections.

Senator McDermott moved adoption of the following amendment by Senators McDermott, Haley and Sellar:

On page 1, line 24, after "vision." insert "The practice of optometry does not include the use of drugs or surgery in the treatment of eye diseases."

Debate ensued.

POINT OF INQUIRY

Senator Goltz: "Senator McDermott, in the wording of your amendment, would the word 'eye disease' include the after effects or the side effects of the use of a diagnostic drug on the eye?"

Senator McDermott: "Senator Goltz, the intention here is to deal with eye diseases, not with systemic effects which might occur as a result of the drug usage. That would be the response of the optometrist. He would have to, if he puts drugs, drops in the eye and he had some kind of reaction, he would have to be responsible for that. He would have to take that on his own risk.

"What I am saying is that you should not be into actually treating eye diseases, that is, making the diagnosis and then saying, 'Well, you should take this antibiotic which has reactions or that surgery might be necessary.' Again, I do not think that is in the science of optometry."

Senator Goltz: "Senator McDermott, I think you said 'no,' correct?"

Senator McDermott: "I believe that was the essence, yes."

Further debate ensued.

POINT OF INQUIRY

Senator Peterson: "Senator McDermott, the wording of your amendment does not include the use of drugs or surgery. I can understand a portion of it and I do not think the optometrists are surgeons anyway, and I do not think they ever practice surgery on a practical basis.

"But it is so broad that I don't even know whether it relates, and I could even maybe raise a question of scope and object. I can remember years ago when I went in to the optometrist to get a test for glaucoma, he had to put some drops in my eyes. Now they do not do that any more, they have a machine that they put up in your eye and flash a little light and they can test it. Would that be a drug? Or would a little Visine, maybe, that some of the Senators have to put in their eyes in the morning, after we work 'til midnight, would that be classified as a drug? I think it is a little bit vague and broad and I would like to have you tell me what you mean by 'drugs and surgery.'"

Senator McDermott: "Senator Peterson, your question gave me many chances for response. Basically, you diagnose an illness and then you prescribe treatment. And the bill is designed to use drops to dilate the eyes for diagnosis only. That is what is alleged to be the point of the bill.

"This amendment is merely to make explicit diagnosis only, not treatment and not surgery. And I, the proponents of the bill, had never alleged they wanted to have surgery or to have the ability to treat diseases of the eye, and for that reason I cannot see why this amendment should create a problem."

Senator Peterson: "Well, between us, Senator McDermott, if I am not out of time, the word 'drug,' we just passed a bill through the Senate which we authorized DMSO and that is supposed to be good for bruises and arthritis and all this kind of
thing, and what is the difference between that and a drop in the eye put in there by an optometrist?"

Senator McDermott: "Mr. President, I hope you won't mind if I wander a little bit afield here in answering the question. "What we did in the DMSO bill was to give people the right to do it to themselves. If they want to go down and buy the drug and use it, that is certainly, I think, a good thing to give people freedom of choice. I have supported bills for laetrile and recently DMSO. People are choosing for themselves; but in this situation, they are going into a professional and they are putting their trust in the professional; I think it should be clear what the intent is when they go in, what the doctor is being held liable for."

The motion by Senator McDermott failed and the amendment was not adopted.

Senator Haley moved adoption of the following amendment by Senators Haley, McDermott and Sellar:

On page 2, line 17, after "have" strike all material down through "purposes" on line 26 and insert "completed the following:

(a) A course prescribed by the board of optometry and the board of medical examiners consisting of at least one hundred fifty hours of which at least seventy-five hours must concern examination techniques and resuscitation techniques; and

(b) A clinical examination, satisfactorily passed, conducted by the department of ophthalmology of the University of Washington school of medicine demonstrating proficiency in the use of techniques required by the board of optometry and the board of medical examiners"

Debate ensued.

POINT OF INQUIRY

Senator Peterson: "Senator Haley, I have a memo up on my desk, I did not bring it down because I did not think we would be working this calendar tonight. But I am not even sure these courses could or would be offered by the university and what assurances do we have that if this amendment passes, the opportunity would even be available? My information is that it probably would not."

Senator Haley: "The ophthalmologists every week see people whom they decide should not have these drugs used even by the ophthalmologist. I have heard the figure used that twenty cases a week in the busy ophthalmologist practice by their diagnostic equipment, should not be given drugs because they might produce an acute angle closure glaucoma; and they can get around the use of these drugs by a puff test for glaucoma and looking at the retina of the eye without the use of drugs that dilate the pupil of the eye.

"And I think that if even half of the number per week that the busy ophthalmologist or the busy optometrist would see, has a chance of developing this acute angle closure glaucoma, I think that it is just foolish for us to consider granting these people the opportunity to use these drugs without a thorough training in the use and all the ramifications that come with the use of these drugs."

Further debate ensued.

REMARKS BY SENATOR SELLAR

Senator Sellar: "Mr. President, in response to Senator Peterson, acute glaucoma is a very serious disease. There is an angle, looks like a little 'v' that is right in behind the pupil of the eye; and when glaucoma is precipitated, that angle closes and the eye gets a little swelling and the angle gets very, very narrow and the fluid of the eye passes very slowly through that, and that is what causes glaucoma.

"Sometimes when you dilate the eye, suddenly it closes off that angle and there is no place for the fluid to go and there is a tremendous pressure build-up. It is
painful and it hurts and it is scary, both to the patient and to the doctor. It really is. Even a trained ophthalmologist is frightened when he sees an acute glaucoma attack; believe me, I have seen it. And it is not funny. And it requires a little bit more training. It is dangerous at its best. It is not a laughing matter. And I would really, really urge you to adopt this amendment."

POINT OF INQUIRY

Senator Quigg: "Senator Haley, you say that a busy office has ten to twenty cases a week like this?"

Senator Haley: "That is what I am told. I am told that in a busy practice of . . . ."

Senator Quigg: "Okay, well that is if there are ten to twenty a week; and how many busy offices are there in the state?"

Senator Haley: "Well, there are a great many, in my area . . . ."

Senator Quigg: "Okay, are there any other states in the nation where optometrists presently can dispense or use this kind of . . . ."

Senator Haley: "Yes, there are, but unfortunately nobody knows how much partial blindness or perhaps total blindness is caused by this condition."

Senator Quigg: "That would almost be, Senator Shinpoch's calculator comes up with nearly 4,000 cases a year of this in the state of Washington in one office. I think that indicates that across the nation this would be an epidemic proportion."

"Now I think it is only reported as such in that tan newsletter that was sent, I think; I think the rest of the experience indicates that that is not the case."

"I think I am going to vote against this amendment."

Further debate ensued.

The motion by Senator Haley failed and the amendment was not adopted on a rising vote.

Senator Zimmerman moved the following amendments be considered and adopted simultaneously:

On page 3, line 30, after "anesthetics," insert "and"

On page 3, line 31, strike ", and for emergency use only, miotics"

On page 3, line 33, after "administer" insert "if these agents are administered at the time and place of an eye examination for the purpose of ascertaining defects"

Debate ensued.

The motion by Senator Zimmerman failed and the amendments were not adopted on a rising vote.

Senator Sellar moved adoption of the following amendment by Senators Sellar, McDermott and Haley:

On page 3, strike all material on line 29 and down through "administer" on line 33 and insert "the following agents so long as a notation, in writing, is made in the permanent record of the person whenever any of these agents is used and any adverse reaction to the agents is reported to the optometry board and the national registry of ocular side effects within seven days of the adverse reaction:

(a) Topical anesthetics: proparacaine HCl ½%, benoxinate HCl 0.4%, piperacaine HCl 2%, and tetracaine ½%;

(b) Cycloplegics: tropicamide in concentrations not over 1% and cyclopentolate in concentrations not over 1%;

(c) Mydriatics: phenylephrine in concentrations not over 2.5% and hydroxyamphetamine in concentrations not over 1%;

(d) Dyes: fluorescein"
POINT OF INQUIRY

Senator Fleming: "Senator Haley, does this type of thing, if this would happen at the present time and an ophthalmologist was doing it, does he make that same report?"

Senator Haley: "The ophthalmologists have a big body of medical literature . . ."

Senator Fleming: "No, no, that is not what I asked. Do they make the report, the same report that you are asking the optometrists to make to the same body at the time of the same reaction?"

Senator Haley: "I cannot answer whether or not they do but I would be glad to support the amendment with you . . . require the ophthalmologists to do that."

POINT OF INQUIRY

Senator Moore: "Senator Haley, I think, if I read this thing right, that there is a matter of the optometrists having to report. Now to whom do they report?"

Senator Haley: "The optometry board."

Senator Moore: "And, what happens then?"

Senator Haley: "They would keep a registry of the adverse effect so that this would be open for public inspection. This would be published and could be known by the legislature or anyone else who is interested in the number of reactions that occur when these drugs are used."

Further debate ensued.

The motion by Senator Sellar failed and the amendment was not adopted on a rising vote.

Senator Zimmerman moved adoption of the following amendment:

On page 4, after line 2, insert the following:

"NEW SECTION. Sec. 4. There is added to chapter 18.53 RCW a new section to read as follows:

If during the course of examining a person, an optometrist determines the possibility of the existence of a pathological condition, the optometrist shall so advise the person and shall refer the person to an appropriate medical specialist for further evaluation.

Renumber the remaining section consecutively.

Debate ensued.

POINT OF INQUIRY

Senator Haley: "Senator Bottiger, in the pursuit of a case of malpractice where an optometrist saw a patient and suspected that there was a pathologic problem in the eye and did not refer this patient to an ophthalmologist for care or did not take any steps to find out what was wrong and get the patient to treatment immediately as Senator Wojahn has suggested in the case she mentioned, unless this amendment is adopted and these days we hold a health vendor to the standard of care for his or her specialty, would you be able to bring suit against that optometrist if such a case developed where he did not refer but suspected the pathology to be there?"

Senator Bottiger: "Doctor Haley, it wouldn't make any difference whether it was an optometrist or a general medical practitioner or an ophthalmologist or anybody else. If you detect a condition which is beyond your ability to handle, whether it be in my case as a lawyer or any of the rest of us in this field, then you should refer that person to a specialist. I think the key word in here is 'pathology.'

"I look around the floor of this Senate and I notice that I share a pathological condition with almost half of the members. Mine is an astigmatism, a shortsightedness, a whole series of eye conditions which are pathological. The key
word in this amendment of course is that if anybody needs glasses, they have to go
to an ophthalmologist because they have a pathological condition.

"And the word in this amendment which makes it susceptible to voting 'no,' is
that no optometrist could treat anybody; they would have to refer everybody to an
ophthalmologist."

Senator Haley: "Senator Bottiger, I hate to try to upstage an attorney on this
but I have never heard of a case where anyone got sued because someone did not
detect a refractive error, in other words, the condition that needs someone to require
eyeglasses."

Senator Bottiger: "Senator, I don't try to do yours and you don't try to do
mine. The word is 'pathological.' You know what it means and I know what it
means: any disease of the eye, astigmatism."

POINT OF INQUIRY

Senator McDermott: "Mr. President, I would like to clarify one thing Senator
Bottiger said which I think is incorrect, at least I do not think you meant what you
said, Senator Bottiger, because if you look at the first part of the bill which is
existing language it talks about 'eye defects,' not diseases. The 'defects' of structure
such as being shortsighted or nearsighted and being farsighted or having
astigmatism, are defects of the shape of the eye, they are not diseases. And diseases,
that is a different category and the word 'pathological' really means 'disease.'

"So when you say that this would prevent optometrists from prescribing
eyeglasses, I do not think there is any basis for that; they are already allowed to do
that earlier in the bill and there is no intention in this to take that away."

Senator Bottiger: "Senator, presuming that was the question, I am reading the
amendment: 'If, during the course of an examination of a person, an optometrist
determines the possibility of existence of a pathological condition,' and you and I
both know what that means, it means a disease of the eye, and as I understand
astigmatism is a disease of the eye."

Senator McDermott: "May I just respond to that. The use of the word
'pathology' is in terms of life-threatening diseases, things that threaten the life . . .
The usual use of the word 'pathology,' unless you are talking in legal terms; if you
are talking in medical terms, it clearly is not a disease to have, otherwise the whole
world is 'diseased.' You look at the number of people in their seventies who wind up
wearing glasses, you would have to say everybody is 'diseased' and that is not the
nature of the definition of 'disease.' It is a physical defect."

Further debate ensued.

The motion by Senator Zimmerman failed and the amendment was not adopted
on a rising vote.

Senator Zimmerman moved adoption of the following amendment:
On page 4, after line 6, insert the following:

"NEW SECTION. Sec. 5. There is added to chapter 18.53 RCW a new section
to read as follows:

An optometrist licensed under this chapter shall inform the person that his
judgement of eye health is not that of an eye specialist. All optometrists shall be
held to the same standard of care in the use of pharmaceutical agents and in
detection of disease as is applied to ophthalmologists."

Debate ensued.

POINT OF INQUIRY

Senator Moore: "Senator Haley, what is the definition of 'eye specialist?' Since
it is not in the statute, perhaps you, as a doctor, can enlighten us."
Senator Haley: "Thank you. This term is vague, I admit that. The important part of this amendment is in the following sentence that 'the standard of care must be used and observed' and that is Washington state law for all health vendors, according to their profession. And I cannot give you a definition of 'eye specialist' but I can tell you that the standard of care for an optometrist should be in accordance with the drugs he is using."

Further debate ensued.

REMARKS BY SENATOR ZIMMERMAN

Senator Zimmerman: "Mr. President, members of the Senate. To close debate on this particular amendment, an eye specialist is quite obviously in the RCW and it does obviously mean an ophthalmologist or a person who can function as an ophthalmologist. An eye specialist is exactly what it is, it is an ophthalmologist. And it is in the statute, RCW 18.53.100 refers to what optometrists cannot do. He cannot call himself an 'eye specialist' and so I am suggesting that if we are going to treat them, we are going to let them treat them like ophthalmologists with drugs, let them do all those things, let them consider that they are a real doctor in terms of eye training and they have not had the training we had better tell the folks about it. We had better be sure they tell the folks because you people believe in the idea that people have the right to know what it is all about. Up front, we have got to be sure. So let us adopt it, put it in there, you know, right up there where everybody can see it.

"Now let us be serious about it, let us pass one amendment on this bill that might do something good for us before you send it back in the condition it is in, because frankly, it is not really good law and this is a deliberative body of people who really think it over."

POINT OF INQUIRY

Senator Peterson: "Senator Zimmerman, don't you consider an optometrist an 'eye specialist'?

Senator Zimmerman: "I do not consider an optometrist an 'eye specialist.' I consider an optometrist a person who is trained to do some measurements as far as vision, who certainly has the ability to fit glasses and contacts, and do an awful lot of things that are helpful to persons that need glasses. I have no qualms, as a matter of fact I have, I think there is a very definite service that optometrists fill and I would feel that that is the place we need to have it. But I do not consider, that as far as eye specialists, their work is really in terms of, it does not fit the term, at least as far as the RCWs are concerned, let us say that."

Senator Peterson: "We are not debating the fact of whether he is an ophthalmologist or qualified to operate or this, but wouldn't you consider an optometrist a 'specialist'??"

Senator Zimmerman: "Well, we could go a long time on this. I guess as far as the RCW it doesn't consider that at the present time."

Senator Zimmerman demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Zimmerman.

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 17; nays, 31; absent or not voting, 1.

Debate ensued.

POINT OF INQUIRY

Senator Hansen: "Senator Charnley, you made the statement that we are running out of water. Every drop of water that was ever on earth is still on earth, we have not used up one drop yet. It is in this cycle business.

"Now the moisture in your body is going to return into the cycle and so I cannot see where you can say that the world is running out of water. We may be using that water for useful purposes and maybe your idea of a useful purpose is different than my idea of useful purpose, but when it gets to your belly, my idea will be the one that will stand out the strongest.

"So I think the statement was in error when you said that we are running out of water because every drop of water that was ever on earth is still here."

Senator Charnley: "Thank you, Senator Hansen. Mr. President, I presume I can respond to the question.

"I would like to suggest that the water is the same amount and therein Senator Hansen makes my point. It is the same amount of water but there are more of us, and we have found more and more ways to use water and I will name one that people are very interested in. We are running low on oil and there is a lot of oil shale, but in order to get the oil out of oil shale, we have got to have water and there is the problem right now because the oil shale is in the dryest parts of the country, the world.

"Yes there is plenty of water, but it does not fall where we need it, it falls out in the ocean. Forty inches of rain per year all over the world. Eight inches remains on the surface and of that, three inches runs off. And that is what we are talking about, is that three inches. We are talking about an exceedingly limited supply which is being stretched further and further, and Senator Hansen certainly, I think,
strengthens my argument. Yes, there is the same amount of water but there is lot more of us and a lot greater need in use of that water particularly for the kinds of irrigation we have now which is great, the high-powered large circle irrigation.

"The water is being used, gang, we have got to be careful of it."

Senator Shinpoch demanded a roll call and the demand was sustained.

"You had mentioned when we discussed Senator Goltz' amendment that you would give us sufficient amount of time to consider a redistricting plan. I guess I would like to have you go on record what you consider to be a 'sufficient amount of time.'"

Senator Hayner: "Mr. President, certainly enough time to see what your districts are. You have the same equipment available to you at the University of Washington right now that we have. You can run your figures, you can do what needs to be done. When you see your district you can run that through and see exactly what it is."

Senator Gaspard: "Well, if I can continue, then that 'sufficient amount of time' means the time that you decide. Would that be six hours or twelve hours or twenty-four? It makes no difference, the time that you want to run redistricting is the time that you will decide to do it."

POINT OF INQUIRY

Senator Lysen: "Senator Goltz, I have been listening to the debate with taxpayer against a student and taxpayer against taxpayer, but the thing that comes to my mind is what about this, the tuition is paid for either by the taxpayer or by the student or the student's family; there is no free lunch, right?

"So the tuition has been paid for, for all these years by families who have not been . . . ."

President Cherberg: "Senator Clarke."

Senator Clarke: "Prior order. If he wants to ask a question I would appreciate it if he would ask the question instead of making a speech."

Senator Lysen: "The question I was trying to get at, it appears to me we are switching the subsidy onto the family who has not yet had their children in school, and who have in turn, been subsidizing myself and all of us that have gone to school. Would that be a fair interpretation of this?"

Senator Goltz: "Senator Lysen, I think I should have had the benefit of a speech. I think, Senator Lysen, it is somewhat correct to say that families that have been paying tuition at a 25% rate have been paying in anticipation that when their children go to college, they will also be paying a 25% rate, plus their taxes.

"In some respects this is changing the rule in the middle of the game. "Now I do not think anyone denies that inflation and rising costs really require a fee increase. Senator Charnley's bill is a fee increase, it is a substantial fee increase. But it does not change the ground rules that we have been operating under for a number of years, and I do support the Charnley amendment."

On motion of Senator Benitz, the rules were suspended, Substitute Senate Bill No. 4090 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.
Debate ensued.

POINT OF INQUIRY

Senator Talley: "Senator Scott, isn't it true that there is about 12.2 million of tuition fees going into current expense?"

Senator Scott: "That is true, but you will find that of the total amount of money raised by tuition, the amount of money going back into higher education in this budget, is higher than it has ever been before in any budget."

POINT OF INQUIRY

Senator Hughes: "Senator Scott, you made the statement that you felt that enough revenue would be generated through the student loan program that, in effect, anybody who needed money in order to attend an institution of higher education, would have that. Is that your position, that there will be no student in the state of Washington denied access to higher education because of the dramatic increases in fees?"

Senator Scott: "As I indicated earlier, I worked with the CPE's chief financial officer and expert Denis Curry, and with Carl Donovan of the Student Guarantee Association to develop these figures. And they assured me that was the case.

"I said to them at the time, 'If another $5,000,000 of the increase has to be plowed back into the student fund to assure that any student that needs a loan will be able to get one, they will be in combination with Federal and private monies available at the institution, an adequate amount available for students, let us do it.' And I was assured, after looking at the statistics, that the loan fund that has been created, together with the compounding effect in attracting Federal loan monies and grant-in-aid monies, was adequate for that purpose."

Senator Hughes: "Just one quick follow-up, Senator. Many of us on this side of the aisle feel that one of the problems with the Republican budget has been the assumptions of Federal dollars that we believe will not be available, and should the worst of all worlds come about and we have to be back here next fall for a special session, I hope that you will be one of those providing leadership on that increase funding should we need it because of lack of Federal funds and underestimation on the number of students who will be denied access to institutions of higher education."

Senator Scott: "Senator Hughes, you can count on it."

Further debate ensued.

Yeas, 46; nays, 3.

SUBSTITUTE HOUSE BILL NO. 302, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

There being no objection, the Senate returned to the sixth order of business.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 374, by House Committee on Local Government (originally sponsored by House Committee on Local Government and Representatives Isaacson, Garrett, Erickson and McGinnis):
Modifying procedures governing annexation.

The Senate resumed consideration of Substitute House Bill No. 374 as amended on April 14, 1981. At that time an amendment by the Committee on Local Government to page 1, line 32 was adopted. A committee amendment to page 8, line 16 had been moved for adoption by Senator Zimmerman. A Point of Order was raised by Senator McDermott on that amendment.

RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the Point of Order raised by Senator McDermott, the President finds that Substitute House Bill No. 374 is a measure which deals in one of its sections with the annexation of fire districts by cities or towns.

"The amendment proposed by the Senate Committee on Local Government deals with the distinct subject of the annexation by fire districts of contiguous property.

"The President therefore finds that the proposed amendment does expand the scope and object of the bill and that the Point of Order is well taken."

The amendment by the Committee on Local Government was ruled out of order.

Senator Hemstad moved adoption of the following amendment by Senators Hemstad and Talmadge:
On page 2, beginning on line 12, strike all of section 2. Renumber the following section accordingly.

POINT OF INQUIRY

Senator Bottiger: "Senator Hemstad, I am still shortsighted and I have to look through my nearsighted glasses. As I read the amendment that was adopted by the committee, only section 2 applies to cities over 40,000, 400,000; and my question is, there is another section in this bill that is of vital importance to rural areas, and that is the fire protection district.

"Do you interpret that amendment as negating the section that provides for the fire protection districts to have the right to have a city pay for the cost of the area included in the annexation?"

Senator Hemstad: "No."
POINT OF INQUIRY

Senator Rasmussen: "Senator Talmadge, maybe I am missing something here, Senator Talmadge, but it seems to me, as I recall it in the annexations that we have had, that the owner of 75% of the property could petition the city for annexation and by the same reason, the owner would be able to reject that. And we have just recently had a ULID that when the case was brought, and I think it is similar to what you were talking about, about people, that the contention at that time when the suit was, that the people, renters and so forth, in the area, did not have the opportunity to vote. And it was only the property owners. So that it was defective. But the court found otherwise.

"Now is it true that 75% of the people, may, in any area petitioned be annexed to the city?"

Senator Talmadge: "Senator, I looked at the annexation statute as it now exists and I do not recall having seen anything that allows a situation like this where someone can veto the annexation petition by virtue of being an owner of 75% of the property in the area affected."

Senator Rasmussen: "Most of the fear, Senator Talmadge and members of the Senate, of course, is that the city is going to swallow you up, willy-nilly, and you are going to have to pay city taxes which most people hate to do. We have the same problem in the Lakewood area, you have the same problem out in Federal Way, that they do not want to be annexed, they maybe want their own city, but they certainly do not desire annexation. So I think all the protection you can put in there against annexation against their will, is good."

Debate ensued.

POINT OF INQUIRY

Senator Ridder: "Senator Clarke, if I were to agree with you on your premise that equity is all, and it would be absurd not to adopt this, can you tell me where the logic of dividing at 400,000 population is? Why would it not make sense for a city of 40,000 to have the same restriction? Why should it be limited to one city in our state?"

Senator Clarke: "My comments were not with respect to the limitation, it was respect to the desirability of the enactment. Now if you would prefer to propose an amendment that it would apply to all areas, I might be willing to support it."

Senator Ridder: "I think that was proposed last night, Senator Clarke, and from my copy of the roll call, you voted to maintain it at one single city in the state of 400,000."

Senator Clarke: "The reason, if that is correct and I am not disputing that it may not be, the reason for it was that I thought that the bill was desirable and that in the event scope was enlarged, it might well result in people who were not involved in this particular bill, to suddenly come to the realization that without having an opportunity to be present or testify in committee meetings, suddenly they were stuck with the situation which they might not like.

"There are many reasons why you vote against an amendment that comes up without having received mature consideration."

Senator Ridder: "I am afraid I did not make myself clear, Senator Clarke. That vote, your vote was an affirmative one for the committee amendment which was put on; there had been testimony and it was adopted in committee and you did vote for that.

"I am afraid I still do not see the logic of why it should be one city and if indeed it is equity, I would say it should be equity for all."

Senator Clarke: "Senator, I am arguing in response to the two presentations which would have, in effect, amended out the requirement that I think is desirable."
Further debate ensued.
Senator Wilson demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the amendment by Senators Hemstad and Talmadge to page 2, line 12.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 16; nays, 32; absent or not voting, 1.
Voting nay: Senators Bauer, Benitz, Bluechel, Clarke, Conner, Craswell, Deccio, Fuller, Gallagher, Gaspard, Guess, Haley, Hansen, Hayner, Hurley, Jones, Kiskaddon, McCaslin, Metcalf, Moore, Newhouse, Patterson, Peterson, Pullen, Quigg, Rasmussen, Sellar, Talley, Vognild, von Reichbauer, Woody, Zimmerman—32.
Absent or not voting: Senator Scott—1.

MOTION FOR RECONSIDERATION

Having voted on the prevailing side, Senator Bottiger moved the Senate reconsider the vote by which the committee amendment to page 1, line 23 was adopted.

POINT OF ORDER

Senator Newhouse: "My point of order is that there may well have been action taken in consequence of the amendment, the motion to strike section 2, the amendment which Senator Bottiger refers to is now a part of section 2."

RULING BY THE PRESIDENT

President Cherberg: "The roll call on the amendment referred to by Senator Bottiger indicates that Senator Bottiger voted upon the prevailing side. Rule 37 says that 'Motions to reconsider a vote upon amendments to any pending question may be made and decided at once.' Senator Bottiger's motion is in order."

REMARK BY SENATOR NEWHOUSE

Senator Newhouse: "May I cite Reed's Rule 204: 'A motion to reconsider is not in order after action has been had by the assembly in consequence of the decision proposed to be reconsidered."

REPLY BY THE PRESIDENT

President Cherberg: "Reed's Rule does not apply where a Senate rule applies, Senator Newhouse."

Further debate ensued.
Senator Fleming demanded a roll call and the demand was sustained.

POINT OF INQUIRY

Senator Fleming: "Senator Zimmerman, you indicated that there was lots of testimony on this measure against leaving it state-wide and for the descriptive amendment. To your recollection do you know how much opposition and who is that
opposition from and what were the reasons they gave, other than the fact that they
did not want to be a part of it?

"And secondly, whether some felt as though if it did not attract this amendment,
that the bill might die?"

Senator Zimmerman: "There were about twenty-five to thirty people that
testified on the bill."

Senator Fleming: "From the local community?"

Senator Zimmerman: "Yes, I would say about half of them were from the
south Seattle area down in that general area. I have their names and addresses here
who testified.

"And then there were persons who came from other parts of the state that
testified that they did not like the bill in any way, but they certainly did not want it
to apply to their particular area. There are people who did not like the bill but there
are also people who did not like it, they would prefer it not apply to them. And that
is what I am saying, I am checking some of the mouse of the country mice I guess
what I am saying. And I apologize to Senator Ridder, I am not trying to, I assume
that delays are, that is another matter, we won't talk about that. Accept my
apologies."

POINT OF INQUIRY

Senator Williams: "Senator Bottiger, the purpose of reconsideration as I
understand it, is to then consider an amendment which would make the bill that we
are looking at, be applicable to the whole state and not just one section or one
population area, is that correct?"

Senator Bottiger: "Senator Williams, the motion to reconsider the vote by
which the committee amendment was adopted, the committee amendment restricts it
to a single, for all practical purposes, a single city. I did not realize the import of
this bill until we got into it, but if we take off the committee amendment, then it will
apply to—in Senator Haley's area, the industrial development that is just outside the
city of Tacoma that is currently servicing his fire district; down in the town of Roy, I
am thinking of Yelm, I am thinking of a whole series of places that would be then
subject to the same restrictions, percentages as would apply to the city of Seattle.

"So what I am suggesting, you know I can look around the audience and see
people and just visualize the, right outside the city industrial park, which probably
should be in the city. And what we would then be doing is applying the same test to
each of us as now is only being applied to a few of us."

Senator Williams: "If I may continue. The point I was trying to get at was, we
classify cities by different classes and they have populations that match those
classifications. And usually, then, when we write legislation and apply that
legislation to certain classes, there is a relationship to that class of cities.

"I am wondering, does this particular issue have any sort of relationship to the
size of the city or class of cities? It seems to me that it does not."

Senator Bottiger: "Senator Williams, I agree with you. As I read this bill, now
my interest was in the fire district sections, because it was a big city problem, I
wasn't too interested in the other part of the bill; but as I began to hear the debate
and find out what was going on. . . ."

The President declared the question before the Senate to be the motion by
Senator Bottiger that the Senate reconsider the vote by which the committee
amendment to page 2, line 32 was adopted.

PERSONAL PRIVILEGE

Senator Jones: "This is a happy occasion for Bill and Claire Fuller, and Claire is on the podium there with the Lieutenant Governor. This is their third anniversary; they have eight children and fourteen grandchildren. They decided, I guess Bill decided to make an honest woman of her three years ago.

"In any event, that dynamic duo of Sue Gould and Margaret Hurley are going to lead us in 'happy anniversary to Bill and Claire.'

"We have a cake and ice water in my office for those who would like to share a little bit of the spirit of this occasion. And my office is full right now, but . . . ."

PERSONAL PRIVILEGE

Senator McDermott: "Mr. President, I think this is very poor practice. We are working here for the third night in a row at this hour of the night. We have party atmosphere here, 'let's go in the office and have ice water and cake,' and I think it is
very bad. You are dealing with enormously important issues late at night; you have done this night after night after night, and now you make a joke out of it.

"As far as I am concerned this is very bad. It makes all of us look bad. The people of the state give us their trust; they don't send us down here to have parties in the middle of the night on the floor."

**PERSONAL PRIVILEGE**

Senator Fuller: "I appreciate Senator Rasmussen's good wishes. The number was 14, not 24."

The Senate resumed consideration of Substitute Senate Bill No. 3929, as amended.

On motion of Senator Benitz, the following amendment was adopted:

On page 1, line 21 after "the insert "average"

On motion of Senator Benitz, the following amendment was adopted:

Senator Goltz moved adoption of the following amendment:

Beginning on page 1, strike all of section 1 and insert the following:

"Section 1. Section 28B.50.240, chapter 223, Laws of 1969 ex. sess. as last amended by section 1, chapter 285, Laws of 1971 ex. sess. and RCW 28C.04.230 are each amended to read as follows:

The state board of education shall have the power to authorize the school districts to offer vocational education programs in the elementary and secondary schools and the state board shall adopt rules and regulations to implement such programs and shall also adopt such rules and regulations for programs authorized by RCW 28A.58.245 and 28B.56.770) vocational-technical institutes. Such rules and regulations shall:

(1) Require school districts that operate vocational-technical institutes in cooperation with each other to charge adult students enrolled therein such operating fees for this biennium that equal the present systemwide average operating fees charged to adult students plus thirty-three percent: PROVIDED, That students who are regularly enrolled for the purpose of obtaining a high school diploma shall be exempt from the payment of such fees.

(2) Authorize school districts that operate vocational-technical institutes to waive the operating fees for any full-time student who qualifies as a "needy student" as defined in RCW 28B.10.802; PROVIDED, That the total amount of such waivers shall not exceed an amount equal to four percent of what would have been the total of operating fees collections had no such waivers been granted."

Debate ensued.

**POINT OF INQUIRY**

Senator Goltz: "Senator Benitz, if you say this only goes halfway, I would like to ask you, what is the fee rate that a vocational technical institute student will pay next year in the state of Washington?"

Senator Benitz: "Very close to the figures you just quoted."

Further debate ensued.

**POINT OF INQUIRY**

Senator Bottiger: "Senator Lee, within Senator Haley's and my district are two educational units, the Clover Park Vocational Technical Institute and Fort
Steilacoom Community College. They both offer a course in legal secretary classes and anybody is eligible to enter it.

"Now do you think that the course at Fort Steilacoom, which is a two-year course which involves the swimming pool, the basketball team and everything else, do you think the fees for that course should be the same as Clover Park which is an evening part-time course and has none of the extracurricular activities?"

Senator Lee: "Okay, well one of the things you were talking about when you were talking about these differences in fees, was not the total amount the student was paying but only that part which was the operating portions of, what goes into the community colleges.

"And we are talking about the total amount of fee because those that are going to community colleges are not only paying for a portion of the operating cost but they are paying the other two sections of what is normally called 'tuition;' so those who are going to community colleges, are going to Fort Steilacoom, are going to have to put more money out of their pocket than those who are going to Clover Park."

Senator Bottiger: "I presume, then, your answer to the question is that, 'No, the fees, the general fees should not be the same.'"

Senator Lee: "At the community college, they are charged a student activity fee in addition to tuition. We are not proposing that for vocational technical institute so if a person goes to community college, they are going to have to pay more."

Senator Bottiger: "And I presume also that the fact that they get college credit and can transfer those to schools of higher education would weigh in your decision as to whether the basic fee should be the same?"

Senator Lee: "What I am saying is, at community colleges where they are receiving more services, they are paying additional for those services."

Senator Bottiger: "Well, Senator, what we are trying to do here and I thought I was, was trying to differentiate out the extra fees and get down to the basic fee and then I was going to point out to you that unless you adopt these amendments, that young lady who enters the legal secretary course at Fort Steilacoom is going to be paying almost exactly the same for college credit courses as her counterpart is going part-time at a voc-tech school, not a half a mile away, is paying for the voc-tech legal secretary course.

"And then my ultimate question, I might as well forewarn you, is that, if you were me, which one would you hire, the one that went through the two-year course with all the college credits and all the extras, or the young lady that went evenings at Clover Park? And if you answer equally, then why should one pay so much more than another?"

Senator Lee: "We are talking about two different things. You are talking about a particular fee that is charged for the instructional part of a program; I am talking about the checks the person has to write to get into that school, and the checks the person has to write to get into the community college is considerably higher because of the other fees."

Further debate ensued.

Senator Benitz demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Goltz.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 24; nays, 25.

Voting yea: Senators Bauer, Bottiger, Charnley, Conner, Fleming, Gaspard, Goltz, Hansen, Hughes, Hurley, Lysen, McDermott, Moore, Peterson, Rasmussen,

Senator Goltz moved adoption of the following amendment:

On page 2, line 28, strike "1981" and insert "1983"

Debate ensued.

"Fringe benefits" for purposes of this subsection shall include:

(a) Employer retirement contributions, if applicable;

(b) Health and insurance payments including life, accident, disability, unemployment compensation, and workmen's compensation; and

(c) Employer social security contributions.

(3) Any school district whose average base compensation for certificated or classified personnel respectively is below state-wide average base compensation level for certificated or classified personnel during the preceding school year, may collect and expend property taxes authorized by this section, or under RCW 84.52-052, for the purpose of increasing such district's average compensation for certificated or classified personnel as allowed in the latest applicable state operating budget. Classified personnel shall include those persons employed by a school district other than certificated personnel as defined in this section in a capacity for which certification is not required.

(a) The dollar amount of levy qualification for taxes to be collected in 1983 shall be the same as the maximum qualification for 1982.

(b) For every district which qualifies to exceed the limitations in subsection (1) of this section during calendar year 1982, a "base year levy percentage" shall be established. This levy percentage shall be equal to the percent a district's levy qualification during calendar year 1982 is of the prior 1980–81 school fiscal year's basic education allocation and state allocation for categorical programs.

(c) The base year levy percentage shall be reduced in even increments beginning in calendar year 1984. The incremental reduction shall equal one-seventh of the percentage points the base year levy percentage exceeds the amount authorized in subsection (1) of this section.

The provisions of this subsection shall not apply to excess levies to be collected after calendar year 1990.

(6) For the purpose of subsection((s)) (1) ((and(2)))) of this section, the superintendent of public instruction may grant local school districts authority to exceed the levy limitations imposed by said subsections: PROVIDED, That said limitations can only be exceeded by an amount that will insure local school districts the ability to raise a total excess levy dollar amount per annual average full time equivalent student which when combined with the basic education allocation is equal to but does not exceed ((one hundred and four percent for levies to be collected in 1979; and)) one hundred and six percent for levies to be collected in 1980 and thereafter of the previous school year's comparable dollars per annual average full time equivalent student: PROVIDED FURTHER, That for levies to be collected in 1980 and thereafter any school district receiving authority to exceed the levy limitation and whose enrollment is declining at a rate of at least four percent, or three hundred full time equivalent students, whichever is less, from the immediately preceding school year, may, in addition to the increase above, further increase its levy by an amount equal to fifty percent of the enrollment decline multiplied by the previous school year's comparable dollars per annual full time equivalent student. The provisions of this subsection (6) shall only apply to excess levies for collection prior to calendar year 1983.

(7) The superintendent of public instruction shall develop rules and regulations and inform school districts of the pertinent data necessary to carry out the provisions of this section.

POINT OF INQUIRY

Senator Guess: "Senator Bottiger, the charge has, going out in 1990, goes down to 15% rather than to 10% that you mentioned. Is that . . . ?"

Senator Bottiger: "Senator, we turned down the 15%, we just did that. So now we are at 10%.

Senator Guess: "Well, which line would that be, then?"

Senator Bottiger: "Well, if you will draw a line from 20% to 1990 at 10% at the bottom, you will cross straight across. If you do not adopt this amendment, you adopt the committee position, if I can just hold it up; and you adopt the committee position, you will phase it out on that straight line period."

Senator Guess: "All right, now. You intimidated, but you didn't quite say it, maybe I was trying to listen; I am trying to make up my mind because I have got some 'biggies' and I have got some 'littlies' and what is this going to do to the 'littlie' districts? The little ones."

Senator Bottiger: "Well, each district is different, Senator. It does not make any difference whether they are big or little, the question would be, 'What is their current position in respect to the grandfather clause?'"

"Looking at your area, I would presume, and I do not know what your school districts are, but I know your fire district, if you would take the valley, that is the high assessed valuation area, I would presume that they are above the level, they would be up in the assessed valuation per levy area, and you would phase them down slower than, I would imagine, downtown Spokane, the Spokane school district.
"If you go out into the suburbia areas where they have very low assessed valuation, they are probably not on this chart to begin with."

Senator Guess: "Okay, thank you very much."

Further debate ensued.

Senator Hayner demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendments by Senators Shinpoch and Jones to the committee amendment.

(4) Section 17, chapter 14, Laws of 1977 ex. sess. and RCW 19.27.905."

Renumber the remaining section consecutively.

POINT OF ORDER

Senator Rasmussen: "Mr. President, I question scope and object on that amendment.

"Well, Mr. President, the bill is a simple little bill to regulate the amount of fees that are charged for inspection, and the amendment that is being put on attempts to regulate all, control over all building operations, and while it might be very meritorious, it certainly has enough weight that it could sink this little bill. It does not fit at all as far as scope and object are concerned."
MOTIONS

On motion of Senator Bottiger, Engrossed House Bill No. 171, together with the pending amendment by Senators Williams, Gould, Bottiger and McDermott and the Point of Order raised by Senator Rasmussen, was ordered held pending a Ruling by the President.

On motion of Senator Clarke, the Senate commenced consideration of Substitute House Bill No. 264.

SECOND READING

Restricting imposition of rent control by counties, cities and towns.

The bill was read the second time by sections.

Senator Vognild moved the following amendments be considered and adopted simultaneously:

On line 20, after "rent" insert "of newly constructed residential property"
On line 23, after "for" insert "newly constructed"

POINT OF INQUIRY

Senator Rasmussen: "Senator Vognild, as I read that amendment, it would say that only new construction residential property is excluded from rent control and all other property may be under rent control. Now maybe I am reading that wrong."

Senator Vognild: "No, Senator Rasmussen, you are reading it correct. What I felt was the preponderance of the testimony received before the committee in support of this bill, was that newly constructed residential property was being suppressed by the threat of local rent control, and I tried to address that."

The motion by Senator Vognild failed and the amendments were not adopted.

Senator Vognild moved adoption of the following amendment.

On page 1, line 14, after "housing" insert ", unless such ordinance or other provision has been approved by the voters of the city or town"

Renumber remaining section accordingly.

Debate ensued.

POINT OF INQUIRY

Senator Wojahn: "Mr. President and members of the Senate, I guess I now have seen everything because Senator Rasmussen now has put on another hat. When Senator Rasmussen was mayor of Tacoma he was very, very, very supportive of local control, local ordinance should preempt state law. Now he is speaking with his hat on as a Senator and he is saying 'No state law should preempt local control.'

"But about the first of May he is going to become a county councilman and then he is going to come back and say, 'Counties, local government should preempt state law,' and I am very confused, Senator Rasmussen. Would you like to respond to this? I am not impugning your motives, I just would like an answer."

Senator Rasmussen: "Well, Senator Wojahn, and for the rest of the Senators, if it is raining you wear one type of hat; if the sun is shining, you do not wear any."

Further debate ensued.

Senator Ridder demanded a roll call and the demand was sustained.

"Have you researched this? Can you tell us that conditions are of an emergent nature or crisis that would require an emergency?"

Senator Bottiger: "Not within the definition; I have heard no testimony from anybody within the constitutional definition of an emergency affecting public health, safety and public institutions. Now I have heard people say that they are paying higher interest rates when they borrow money from the bank than they can charge when they lend money, but they are not public institutions."
REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "Thank you, Senator Bottiger. I wanted to get that in the record because it is very important that we let the world know that there was no testimony that this was an emergency situation. Thank you."

REMARKS BY SENATOR CLARKE

Senator Clarke: "I object to this dialogue as being accepted as any indication of legislative intent because I wish to go on record and I think the vote will indicate that the legislative intent of the majority who vote for this is directly contrary to that expressed in the dialogue we have just heard."

POINT OF ORDER

Senator Rasmussen: "I object to Senator Clarke getting up and saying that I do not have the right to ask a question. I asked a question and it was answered and I expect it to be in the record; and we did not say anything other than, as far as the testimony we have heard on the floor here today, there was no emergency. And Senator Clarke continually tries to trip me up in that manner and confuse me so that I cannot ask the proper questions, and I object."

REMARKS BY SENATOR CLARKE

Senator Clarke: "Mr. President, I made no suggestion, if the good Senator will recall, that his remarks be stricken or that the answer of Senator Bottiger be stricken.

"I simply wanted the record to also show that there is an expression which will be evidenced by the vote of many Senators on this floor, that that is not the legislative intent."

REMARKS BY THE PRESIDENT

President Cherberg: "Senator Rasmussen, in reply to your point of order, the discussion just engaged in by you and Senator Clarke and Senator Bottiger will be in the record."

PARLIAMENTARY INQUIRY

President Cherberg: "The President believes the rule goes into effect tomorrow."

Debate ensued.
NINETY-SIXTH DAY, APRIL 17, 1981

POINT OF INQUIRY

Senator Shinpoch: "Senator Clarke, I understood you to say that it was not currently legal to give a discount for cash. Did I understand you correctly to say that it is not currently legal to give a discount for cash?"

Senator Clarke: "My understanding is that under the present law, if you give a discount for cash then, in substance, that differential has to be figured as a part of your carrying charge or interest that is charged for your credit card sales; and that has had the practical effect, then, of completely preventing a cash discount, because if you offer that cash discount, then that completely throws out of proportion your normal credit card business."

Further debate ensued.

POINT OF INQUIRY

Senator Deccio: "Senator Clarke, would your amendment deal with the use of credit cards and having that option to pay cash instead of, I am thinking of credit cards in restaurants, hotels, Sears Roebuck, Montgomery Ward, and all of those retail sales outlets who have used credit cards as a substantial part of their business. Would people have the option of, when they add up the bill and put it on the credit card, it comes to $95.00, that they would be able to save 5-10%, whatever your amendment does?"

Senator Clarke: "It is my understanding, Senator, that cash means either cash or check. And that they could not take the benefit of the cash discount and then put it on their credit card."

Senator Deccio: "No, that is not what I meant. If you go to a restaurant and you, with your wife, and you have a bill of $75.00 and instead of putting it on your credit card which would be subject to interest, would you have the option of paying that $75.00, less $7.50, if you paid cash?"

Senator Clarke: "If they post, as I understand it, then I, frankly, am not very technically conversant with this whole field; but it is my understanding and I am informed, that if they post a cash discount, we'll say a 5% or 10%, in your restaurant that you are talking about, then if you pay by cash or check, you could get that discount; but that is the only way you get that discount, is cash or check, which is a cash discount."

Further debate ensued.

POINT OF INQUIRY

Senator Goltz: "Senator Clarke, it seems to me that the problem that Senator Bottiger has tried to express, could be cured by requiring that all of the sales made in that particular establishment had to be subject to the cash discount. In other words, that you could not be selective and say that 'On these items you will get a cash discount, and on these items you will not.' I wonder if there is some language that could be put into the bill that would cure the problem by requiring that if a person offered a cash discount, that that cash discount had to be applied to all sales offered by that store."

Senator Clarke: "Senator, I suppose such language could be prepared and frankly, I can't give you an authoritative answer myself as to whether, if they offer a cash discount under this proposed amendment, it would be required to be applied to all items.

"Now with respect to Senator Bottiger's problem to which you related, that of the used car salesman, it is my impression that from a practical standpoint because there is extreme elasticity in negotiations for used cars as to trade-in values and everything of that nature, that the differential in reality, if you are going to put it on credit, the used car man will just charge you by not giving you as much turn-in or
something like that, so he will adjust that selling price to achieve the very result that Senator Bottiger is talking about under the current law.

"And that, I think, also would apply to the real estate transaction when you are dealing with a single item, single large-ticket item, then the negotiation of the price is itself tied in to the method so that, in reality, the price can be adjusted upward if they are going to handle it on a credit basis."

Further debate ensued.

POINT OF INQUIRY

Senator Ridder: "Senator Bottiger, I am impressed by Senator Quigg's concern for those old people going out to eat. Does this apply to restaurants, Senator Bottiger?"

Senator Bottiger: "Mr. President, and members of the Senate. Unfortunately, we do not read what we are voting on. This has nothing to do with plastic money at the restaurant. This is a definition of a retail installment credit sale. The question is, 'At what price do you begin to figure the interest?' The price the product is offered for cash is the current law. What the amendment does is allow another price to be established from which you then take and add the interest. And that other price would be the retail installment credit price.

"So the example of the lawn mower is the one you should be voting on, not offering a discount under a plastic money credit card. That is not covered under a retail installment sale."

Further debate ensued.

POINT OF INQUIRY

Senator Gould: "I am sorry to interrupt but I would like to have a statement for the record, and I would like to ask Senator Sellar to yield so that we can clarify a question that was just brought to us, if I may?

"Senator Sellar, the question was brought up as to whether this does apply to credit cards. It is my understanding that it does apply to them as well as to other retail installments. Is that your understanding?"

Senator Sellar: "As I read the amendment, it does, I think Senator Bottiger is correct, that it deals with retail sales contracts."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, I am shocked at how little the members, some of the members of the Senate, understand House Bill 137 and House Bill 160. If the credit card is a J. C. Penney credit card this language applies. If it is a Visa card that you used at the restaurant, it does not apply; that is in House Bill 137. This is retail installment contracts where you go to the person who is selling and he is providing the financing, either by writing a contract and selling it to the bank, which is the car dealer situation, or to the J. C. Penny account where they are carrying their own financing.

"That is what this bill, 160, applies to and that is all the amendment applies to."

POINT OF INQUIRY

Senator Lysen: "Senator Bottiger, I am not sure what the reality of the situation is when I hear all the different, whether Senator Quigg is right, Senator Clarke, Senator Sellar, or yourself. Would you go through this once more so I can understand the substance and the practical effect in reality from a practical
standpoint, what your understanding is and how you are informed on it? All I heard were those words used over and over again."

Senator Bottiger: "The law now says that you cannot charge more than 12% on a retail installment contract. In defining what the price is from where we start figuring the interest, the law now says that you take the price that product would be sold for, for cash. If you read the language of the bill we are amending, then you figure the interest above that. You delete the words that Senator Clarke wants to delete, and you can have two prices, the cash price and the credit price.

"And the example I gave of the lawn mower, you could advertise a lawn mower for $100.00 if you pay cash or $150.00 if you buy it on time. The $150.00 then is the figure to which you apply the interest. So by creating a difference, you totally eliminate the usury law because the merchant is free to charge whatever he wants, difference between cash and installment contract, and that difference will not be included in figuring the interest."

Senator Lysen: "If this amendment passes, which I think it might, we totally eliminate the usury law, Senator Bottiger. The usury law was enacted, you said by 1890? Was there a time when we did not have usury laws at all which appear to be entering into now?"

Senator Bottiger: "Well, in some of the early records of the Roman empire, we find records where they set the usury limit, and it has been as low in their history as zero. For a period of time they refused to charge interest.

"We could never find—that is true—we could never find any case where the Roman empire permitted more than 12%, and until in recent times, 12% was a kind of a figure that was adopted by everybody."

Senator Lysen: "Was the Roman empire hit with heavy inflation like this?"

Senator Bottiger: "I am sure they were."

Further debate ensued.

Senator Ridder demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendments by Senator Clarke.

ROLL CALL

The Secretary called the roll and the amendments were adopted by the following vote: Yeas, 29; nays, 20.

Senator Pullen moved adoption of the following amendment:

On page 5, beginning on line 29, strike all material through "balances" on line 32 and insert the following:

"(2) The service charge in a retail charge agreement, revolving charge agreement, or charge agreement, shall not exceed the greater of one percent per month on the outstanding unpaid balances or an annual rate each calendar biennium on outstanding unpaid balances of six percentage points above the average, rounded to the nearest one-quarter of one percent, of the equivalent coupon issue yields (as published by the Federal Reserve Bank of San Francisco) of the average bill rate for twenty-six week treasury bills as determined at the last market auctions conducted during February, May, August, and November of each even-numbered year prior to the applicable calendar biennium."

Debate ensued.
Senator Woody: "Senator Pullen, as I read this amendment, once a new rate is set, it is set for two years, is that correct?"

Senator Pullen: "That is correct. And then at the end of that two–year period, the rate may go up or down, depending on what the economic circumstances were during the year prior to the end of the two–year period."

Senator Fleming demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Pullen.

Renumber the remaining sections accordingly.

Debate ensued.
Senator Ridder demanded a roll call and the demand was sustained. Further debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Bottiger, is there any emergency that you can see in this legislation that will require eliminating the emergency clause, I mean, having the emergency clause on the bill?"

Senator Bottiger: "Senator Rasmussen, this bill and the others, contains this clause that says there is an emergency and that it is necessary to protect the public peace, health and safety and I have not heard any testimony from anybody that would indicate that there is such an emergency. Perhaps in the minds of those, of some that raising the amount of money that lending institutions can receive is an emergency, but I have not heard it."

Further debate ensued.

Senator Pullen moved adoption of the following amendment to the amendment by Senators Charnley and Wojahn:

On the amendment by Senators Charnley and Wojahn, after "act"insert "shall take effect immediately but"

Debate ensued.

The motion by Senator Pullen failed and the amendment to the amendment by Senators Charnley and Wojahn was not adopted.

The President declared the question before the Senate to be the roll call on the amendment by Senators Charnley and Wojahn.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 19; nays, 29; absent or not voting, 1.

Senator Bottiger moved adoption of the following amendment:

Strike everything after the enacting clause, and insert the following:

"Section 1. Section 4, chapter 236, Laws of 1963 as last amended by section 2, chapter 47, Laws of 1972 ex. sess. and RCW 63.14.040 are each amended to read as follows:

(1) The retail installment contract shall contain the names of the seller and the buyer, the place of business of the seller, the residence or other address of the buyer as specified by the buyer and a description or identification of the goods sold or to be sold, or service furnished or rendered or to be furnished or rendered. The contract also shall contain the following items, which shall be set forth in the sequence appearing below:

If installment payments other than the final payment are stated as a series of equal scheduled amounts and if the amount of the final installment payment does not substantially exceed the scheduled amount of each preceding installment payment, the maximum number of payments and the amount and due date of each payment need not be separately stated and the amount of the scheduled final installment payment may be stated as the remaining unpaid balance. The due date of the first installment payment may be fixed by a day or date or may be fixed by reference to the date of the contract or to the time of delivery or installation.

Additional items may be included to explain the calculations involved in determining the balance to be paid by the buyer.

(2) Every retail installment contract shall contain the following notice in ten point bold face type or larger directly above the space reserved in the contract for the signature of the buyer: "NOTICE TO BUYER:

(a) Do not sign this contract before you read it or if any spaces intended for the agreed terms, except as to unavailable information, are blank.

(b) You are entitled to a copy of this contract at the time you sign it.

(c) You may at any time pay off the full unpaid balance due under this contract, and in so doing you may receive a partial rebate of the service charge.

(e) You may cancel this contract if it is solicited in person, and you sign it, at a place other than the seller’s business address shown on the contract, by sending notice of such cancellation by certified mail return receipt requested to the seller at his address shown on the contract which notice shall be posted not later than midnight of the third day (excluding Sundays and holidays) following your signing this contract. If you choose to cancel this contract, you must return or make available to the seller at the place of delivery any merchandise, in its original condition, received by you under this contract."

Clause (2)(e) needs to be included in the notice only if the contract is solicited in person by the seller or his representative, and the buyer signs it, at a place other than the seller’s business address shown on the contract.

Sec. 2. Section 13, chapter 236, Laws of 1963 as last amended by section 3, chapter 2, Laws of 1969 and RCW 63.14.130 are each amended to read as follows:

The service charge shall be inclusive of all charges incident to investigating and making the retail installment contract or charge agreement and for the privilege of making the installment payments thereunder and no other fee, expense or charge whatsoever shall be taken, received, reserved or contracted therefor from the buyer.

(1) The service charge, in a retail installment contract, shall not exceed the ((highest)) higher of the following:

(a) ((One percent per month on the outstanding unpaid balances)) A rate on each month’s outstanding unpaid balance which exceeds on an annual basis six percentage points above the equivalent coupon issue yield (as published by the Federal Reserve Bank of San Francisco) of the average bill rate for twenty-six week treasury bills as determined at the last bill market auction conducted during the month preceding the month in which the retail installment contract is executed; or
(b) Ten dollars.

(2) The service charge in a retail charge agreement, revolving charge agreement or charge agreement, shall not exceed one percent per month on the outstanding unpaid balances. If the service charge so computed is less than one dollar for any month, then one dollar may be charged.

(3) A service charge may be computed on the median amount within a range which does not exceed ten dollars and which is a part of a published schedule of consecutive ranges applied to an outstanding balance, provided the median amount is used in computing the service charge for all balances within such range.

(((4)) The service charge in a retail installment contract or charge agreement shall not exceed the rate of twelve percent per annum, computed monthly. A service charge computed by one of the foregoing methods, or within the permitted minimum charges, shall be deemed not to be in excess of twelve percent per annum computed monthly.))

On motion of Senator Pullen, the following amendment to the amendment by Senator Bottiger was adopted:

On page 4, beginning on line 36, after ",(a)" strike the remainder of the subsection and insert "((one percent per month on the outstanding unpaid balances, or))

A rate on outstanding unpaid balances which exceeds six percentage points above the average, rounded to the nearest one-quarter of one percent, of the equivalent coupon issue yields (as published by the Federal Reserve Bank of San Francisco) of the bill rates for twenty-six week treasury bills for the last market auctions conducted during February, May, August, and November of the year prior to the year in which the retail installment contract is executed; or"

The President declared the question before the Senate to be adoption of the amendment by Senator Bottiger as amended by Senator Pullen.

Debate ensued.

POINT OF INQUIRY

Senator Ridder: "Senator Sellar, is it not true that now they have an option, they will be able to pay cash and get a discount?"

Senator Sellar: "Yes, that is correct, which is probably the better, really."

Senator Rasmussen demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Bottiger as amended by Senator Pullen.

ROLL CALL

The Secretary called the roll and the amendment, as amended, was not adopted by the following vote: Yeas, 21; nays, 27; absent or not voting, 1.

Voting nay: Senators Bauer, Benitz, Bluechel, Clarke, Conner, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Hughes, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Quigg, Scott, Sellar, Talley, Zimmerman—27.

Absent or not voting: Senator von Reichbauer—1.

On motion of Senator Clarke, the following amendment to the title was adopted:

On page 1, on line 1 of the title, after "sales;" insert "amending section 1, chapter 236, Laws of 1963 as amended by section 1, chapter 47, Laws of 1972 ex. sess. and RCW 63.14.010; amending section 3, chapter 236, Laws of 1963 as amended by section 2, chapter 234, Laws of 1967 and RCW 63.14.030;"
On motion of Senator Sellar, the rules were suspended, Engrossed House Bill No. 160, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage. Debate ensued.

POINT OF INQUIRY

Senator Hughes: "Senator Metcalf, rather than get into a lengthy debate as to the causes of inflation, may I ask you to yield to one question?

"Do you know what the basic cause of our national debt is, where most of it was accumulated?"

Senator Metcalf: ". . . the creation of money which we have allowed the Federal reserve to create money, just like that, out of nothing, and loan it to us at interest. Most of the national debt, or much of the national debt is our own money, in circulation. We are paying interest on our own money in circulation to a private banking organization, the Federal reserve."

Senator Hughes: "Thank you, Senator. If I could continue."

"Now, I have to correct one thing. The vast majority of the national debt is a result of war; and if you can eliminate war you will do more to cure inflation than any other single factor."

Further debate ensued.

Senators Clarke, Newhouse and Jones demanded the previous question.

Senator Bottiger demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the demand for the previous question.

ROLL CALL

The Secretary called the roll and the demand was sustained by the following vote: Yeas, 25; nays, 24.

Voting yea: Senators Benitz, Bluechel, Clarke, Conner, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Quigg, Scott, Sellar, Talley, Zimmerman—25.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed House Bill No. 160, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 26; nays, 23.

ENGROSSED HOUSE BILL NO. 160, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.
PARLIAMENTARY INQUIRY

Senator Vognild: "Mr. President, looking at the second reading calendar I see Senate Bill 3405, and 3406, are on the second reading calendar for the day. Mr. President, these bills do not contain an appropriation, they are not a measure designed to raise revenue for the state.

"I would request a ruling from the chair as to whether pursuant to the cutoff resolution, Senate Bill 3405, as one question, and 3406 as the second question, are legitimately before the Senate on the second reading calendar."

REMARKS BY SENATOR CLARKE

Senator Clarke: "I would respectfully suggest that the President should withhold ruling on that until the bills are brought before the Senate for consideration. The mere fact they are on the calendar does not mean they are presently before the Senate for consideration, and the motion should properly be made at the time that the bills are brought up for consideration."

Senator Vognild: "Mr. President, it was my understanding, after the cutoff that all bills that failed to survive the cutoff were removed from the calendar and returned to the committee of origin. I believe that a ruling at this time would be appropriate."

Senator Rasmussen: "Mr. President, I find myself a little bit confused by Senator Clarke's statement that, just because the bills are on the calendar that they are not before the Senate. It is my understanding from years of practice here that once a bill is on the calendar, it is before the Senate; so Senator Clarke, I find it hard to understand what you were saying. You are confused, too; well, maybe I could ask the President."

PARLIAMENTARY INQUIRY

Senator Rasmussen: "Mr. President, if a bill is on the calendar, is it before the Senate?"

REPLY BY THE PRESIDENT

President Cherberg: "The President believes that it is before the Senate, Senator Rasmussen."

REPLY BY PRESIDENT TO SENATOR VOGNILD

President Cherberg: "In reply to your inquiry, Senator Vognild, the President believes that the bills do not presently fit within the provisions of House Concurrent Resolution No. 3."

Senator Vognild: "Thank you, Mr. President. Does that automatically return those bills to the committee of origin, or will that require a motion?"

President Cherberg: "The bills would be returned to rules, Senator, under normal process. Would you care to make a motion otherwise?"

Senator Vognild: "I would move that those two bills, having failed to survive the cutoff, be returned to the committee of origin."

President Cherberg: "Senator Vognild has moved that the two measures be referred to the committee of origin. Senator Clarke."

Senator Clarke: "Speaking in opposition to the motion, it is not the normal procedure. Other bills that had cutoff problems had traditionally been returned to rules and I would urge the body to reject the motion."

President Cherberg: "The question before the Senate is the motion by Senator Vognild that the bills be referred to the committee of origin."
PARLIAMENTARY INQUIRY

Senator Rasmussen: "The President has ruled the bills are improperly before us. I do not know how this Senate can amend a concurrent resolution by retaining the bills before us.

"That is an agreement with the other House. It would seem that Senator Clarke is even making more and more improper decisions."

MOTION

Senator Clarke moved the motion by Senator Vognild be laid upon the table.
Senator Ridder demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the motion by Senator Clarke that the motion by Senator Vognild be laid upon the table.

ROLL CALL

The Secretary called the roll and the motion by Senator Vognild was laid upon the table by the following vote: Yeas, 25; nays, 24.

Voting yea: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer, Zimmerman—25.

PARLIAMENTARY INQUIRY

Senator Vognild: "Mr. President, do I understand properly that Senate Bill 3405, Senate Bill 3406, having been ruled as not surviving the cutoff, are now in rules?"

REMARKS BY SENATOR CLARKE

Senator Clarke: "The ruling does not necessarily imply that, that is, the President responded to a question of inquiry as to whether or not they survived the cutoff, that has been answered, so the bills remain in present status unless and until some further action is taken. The ruling merely relates to the cutoff situation."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Clarke's remarks are well taken."

MOTION

On motion of Senator Clarke, the Senate commenced consideration of Senate Concurrent Resolution No. 113.

SECOND READING

SENATE CONCURRENT RESOLUTION NO. 113, by Senators Hayner and Jones:

Yeas, 37; nays 9; absent or not voting, 3.
Absent or not voting: Senators Craswell, Peterson, Williams—3.
ENGROSSED SENATE CONCURRENT RESOLUTION NO. 113, having received the constitutional majority, was declared passed.

SECOND READING
SENATE BILL NO. 3843, by Senators Scott, McDermott, Jones and Hayner (by Office of Financial Management request):
Adopting the capital budget.

MOTIONS
On motion of Senator Scott, Substitute Senate Bill No. 3843 was substituted for Senate Bill No. 3843 and the substitute bill was placed on second reading and read the second time in full.
Senator McDermott moved adoption of the following amendment:
On page 5, line 38, strike all of subsection (11) and renumber the remaining subsections.

POINT OF INQUIRY

Senator McDermott: "Mr. President, I really put this amendment up here, Senator Scott, so you would explain to us. We went through this bill so rapidly last night that I, there was no time to ask and people in the caucuses said 'Why are we buying land next to the Olympia Technical Community College?' and I did not have an answer for that and, sounds like we are extending the college. So maybe you can explain to us why we should leave that in."

Senator Scott: "Mr. President, Senator McDermott, that land is now available, it is not likely to be available in the future. There is no intention to, if you are referring indirectly to the question of the balance between OTCC and the academic programs in (Chehalis) Centralia, there is no intention to begin a full-blown community college here. It is a case of this property being available at a very reasonable price. It cannot last long and we thought it the better part of wisdom to get ahold of it. It is not a question of expanding the programs of the local college, either in terms of their present scope or adding to their scope. I would hope then the amendment is superfluous."

Senator McDermott: "Mr. President, why would they buy the land if they don't expect to expand? I mean, you do not buy land, . . . . for a parking lot or something."

Debate ensued.

POINT OF INQUIRY

Senator Bottiger: "Senator Hemstad, I have no objection to foresightedness, planning and things of this nature, but as we buy land and put it into the public domain, we take it off the local tax rolls and there's got to be a need for it and so far nobody has explained what it is that we are going to use this for, at some future date."

Senator Hemstad: "Senator Bottiger, this request comes both from the local community college board and the state community college board. There is complete agreement that the land should now be purchased and held. There will be a necessity for an expansion of the capacity of that facility for its technical college responsibilities in any event. And so if that land is not purchased now, it will permanently foreclose, at least at that site, any future expansion of the facility there, for any purpose."

Further debate ensued.

There being no objection, on motion of Senator McDermott, the amendment to page 5, line 38 was withdrawn.

Senator Bottiger moved adoption of the following amendment:

On page 6, line 5, following "building" strike "located in eastern Washington" and on line 7, strike "300,000" and insert "6,500,000"

Debate ensued.

The motion by Senator Bottiger carried and the amendment was adopted.

On motion of Senator McDermott, the following amendment by Senators McDermott, Ridder, Gaspard, Deccio, Wojahn, Hughes and Bauer was adopted:

On page 10, Section 6, following line 2, insert the following new subsection to read as follows:

"(3) To provide funding for the Department of Social and Health Services compliance with section 504 relating to handicapped access to facilities.

On motion of Senator Scott, the following amendment to the amendment by Senators Williams and Bottiger was adopted:

After "member" insert "one from each party"

The President declared the question before the Senate to be adoption of the amendment by Senators Williams and Bottiger as amended by Senator Scott.

POINT OF INQUIRY

Senator Charnley: "Senator Scott, I am sure you intend one from each party from each House, and I wondered if the effect of your amendment, the oral amendment, was to do that or do we just say two members, one from each party in the Senate and just . . . the two members from the House?"

Senator Scott: "Well, Senator Charnley, the majority leader was replaced as the appointing power by the President, so I presume the amendment refers to the Senate only."

Senator Charnley: "But it is not your desire to make the same change for the House?"

Senator Scott: "That is correct."
The motion by Senator Williams carried and the amendment by Senators Williams and Bottiger as amended by Senator Scott was adopted.

Senator Williams moved adoption of the following amendment:
On page 8, after line 7, insert:
"(22) Legislative Chambers art work

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 13; nays, 36.
Senator Hurley moved adoption of the following amendment:
On page 30, line 13, strike all of subsection (35).
Renumber remaining sections accordingly.
Debate ensued.

POINT OF INQUIRY

Senator Hughes: "Senator Hurley, as I recall, in the four years we served together in the House, you were constantly out front on this issue and I recall you did introduce some legislation to address this problem of applying moorage fees to large pleasure boat owners, is that correct?"

Senator Hurley: "Yes, this is true. This has been under study by our committee in the House for a number of years. In 1977 we had a study on moorage fees and we proposed it at that time. But I believe the bill did not get out of committee until 1979 and at that time, we felt that a moorage fee, it was only fair that a moorage fee be established. It was the commission that did intervene at that time and no moorage fee has been established up to this time; and another study was made in 1980, as I just said, and the recommendation came back 'Do not establish one at this time.'

"Well, if '77 was not right, if '79 was not right, if 1980 was not right, it is my contention we are never going to have one, they are never going to pay their share, and I think that we ought to delete this gratuity now."

Senator Hurley demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the amendment by Senator Hurley.

GF, Fish Cap Proj Acct
Project Costs Through 6/30/81
Estimated Costs 7/1/83 and Thereafter
Estimated Total Costs

Debate ensued.

POINT OF INQUIRY

Senator Goltz: "Senator Scott, you mention that the reason you would oppose the amendment is that it would alter the total, and does that mean that there can be no altering of the total number of dollars in the appropriation column, and if that is so, why is that so?"

Senator Scott: "That is not so, Senator Goltz, we have already altered it by over $6,000,000 and I have an amendment to the bond bill to make that change."

Senator Goltz: "If it is altered again, can the bond bill be altered again? Or is there a technical problem in producing the material?"

Senator Scott: "There is no problem except the low priority here, Senator. The bill could of course be amended an infinite number of times and likewise with the bond bill, but as I look across the way I see that we are on the 96th day."

The motion by Senator Goltz failed and the amendment was not adopted on a rising vote.

Senator Gaspard moved adoption of the following amendment by Senators Gaspard, Pullen, McDermott, Ridder, Fleming, Talmadge and Charnley:

On page 53, following line 50, insert the following new subsection to read as follows:

Est. Costs 7/1/83 and Thereafter         
Est. Total Costs                       $391,500

Debate ensued.
The motion by Senator Talley failed and the amendment was not adopted on a rising vote.
On motion of Senator Charnley, the following amendment was adopted.
On page 6, beginning on line 39, after "include" strike all material down through "house" on line 41, and insert:
"two members from the senate, one from the majority and one from the minority party, appointed by the president of the senate; two members from the house, one from the majority and one from the minority party, appointed by the speaker of the house; and one representative of the office of financial management."

Engrossed Substitute Senate Bill No. 3843 was passed to the Committee on Rules for third reading.

THIRD READING

ENGROSSED HOUSE BILL NO. 137, by House Committee on Financial Institutions and Insurance and Representatives Dawson and Clayton:

Modifying laws on usury.

The bill was read the third time and placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Bottiger, I warn you that Senator Clarke is getting disturbed. I thought he was asleep."

Senator Bottiger: "Senator, I knew you would wake him up."

Senator Rasmussen: "You, Senator Bottiger, have a very fine legal mind and you heard all the arguments yesterday why this was an emergency and they needed the emergency clause on this particular legislation.

"Have you, in your study overnight, determined if there was an emergency or, I presume that..." "

Senator Bottiger: "Well, Senator, I think I know what you mean by the question."

Senator Rasmussen: "Senator Clarke, would you sit down until Senator Bottiger gets a chance to answer that question I asked him? Point of order? Okay, go ahead."

POINT OF ORDER

Senator Clarke: "Mr. President, under Reed's rules, I think one of the prerogatives of the President is to determine whether or not certain procedures are deliberately dilatory. I call to the President's attention the fact that this identical exchange was made yesterday; it has nothing to do with the matter now before the body, and I urge the President to rule that it is out of order."

POINT OF ORDER

Senator Fleming: "Mr. President, respectfully to Senator Clarke, I wish he would let Senator Rasmussen's silver tongue slide those words over toward Senator Bottiger and see what he has to say before he can determine whether, in fact, it is the same thing that he heard yesterday; because I have heard Senator Rasmussen lots of times and I do not think I have ever heard him say the same thing twice."

Senator Rasmussen: "Mr. President, speaking to the point of order as raised by Senator Clarke, the bill, of course, was passed yesterday to third reading; we had a chance to study it and all the emergency situations. I am merely asking Senator Bottiger now if after proper study of the bill, he has discovered any emergency. I would appreciate Senator Bottiger having a chance to offer the answers."

RULING BY THE PRESIDENT

President Cherberg: "Senator Clarke, the President feels that Senator Rasmussen will use up three minutes one way or another, so... He presently has a minute and about twelve seconds."

REMARKS BY SENATOR BOTTIGGER

Senator Bottiger: "In answer to your question, there are very narrow circumstances under which we can take away the people's right of referendum, and that is when we make a finding that it is absolutely imperative for the public health, safety
and welfare and the preservation of public institutions, that the normal 90–day delay in the implementation date of a bill cannot take place.

"So have I heard about emergencies? A lot of them. Have I heard about emergencies that fall in that class of cases? None."

Further debate ensued.

The President declared the question before the Senate to be the roll call on final passage of Engrossed House Bill No. 137, as amended by the Senate on April 16, 1981.

Revising laws relating to deferred compensation plans.

REPORT OF STANDING COMMITTEE

March 24, 1981.

SENATE BILL NO. 3931, revising laws relating to deferred compensation plans, (reported by Committee on Ways and Means):

MAJORITY recommendation: Do pass with the following amendments:

On page 1, line 28 after "full-time" insert "part-time"

On page 3, line 24 after "RCW 43.84.150" insert "as in effect on January 1, 1981"

On page 5, after line 8 insert a new subsection as follows:

"(3) The Committee may adopt rules necessary to carry out the purposes of RCW 41.04.250 and 41.04.260."

Signed by: Senators Craswell, Vice Chairman; Fleming, Gaspard, Hughes, McDermott, Pullen, Ridder, Wojahn, Zimmerman.

The bill was read the second time by sections.

On motion of Senator Scott, the Committee amendments were adopted.

On motion of Senator Scott, the rules were suspended, Engrossed Senate Bill No. 3931 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Scott, I have not studied this. Let us assume that you defer the limit, the amount the law limits you can defer, and assume you have done that for twenty years. You have quite a chunk of money put aside. Then assume that you die. Is this willable as part of your estate?

And then if it is willable, does it go at the chief value or do you go back the number of years since we started the plan?"

Senator Scott: "Senator, the amount you can defer in any one year is 25% of your income or no more than $7500. It does become a part of your estate and it is treated for inheritance tax purposes the same way that the rest and residue of your estate is treated."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 3931, and the bill passed the Senate by the following vote: Yeas, 48; absent or not voting, 1.

SECOND READING

ENGROSSED HOUSE BILL NO. 143, by House Committee on Financial Institutions and Insurance and Representative Dawson:

Making miscellaneous changes in credit union laws.

The bill was read the second time by sections.

On motion of Senator Sellar, the rules were suspended, Engrossed House Bill No. 143 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Bottiger: "Senator Sellar, there are several bills on this calendar relating to powers and duties of credit unions and otherwise, and one of the concerns that I have is under the 'most favored lender' doctrine or regulation R or Q of the Federal regulations.

"To your knowledge, does this bill create a 'most favored lender' situation for credit unions that would affect the ability of commercial banks or the limits that might be imposed on them for interest rates?"

Senator Sellar: "To the best of my knowledge, Senator Bottiger, this bill does not. There is another bill that would do that, but this is not the one. This would put them under Title 1952, which would make them competitive with any other changes that we might make, but would not give favored lender authorization."

POINT OF INQUIRY

Senator Rasmussen: "Senator Sellar, does this bill encompass anything other than credit unions?"

Senator Sellar: "No, sir, it does not."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed House Bill No. 143, and the bill passed the Senate by the following vote: Yeas, 49.

ENGROSSED HOUSE BILL NO. 143, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

POINT OF INQUIRY

Senator Bottiger: "Mr. President, would Senator Metcalf indicate to us when we can get the figures and the maps so that we can do our checking?

"Senator Metcalf, Friday you told me that at 1:30 today we would have the maps and we have reserved computer time and can you tell us now what the new time will be?"

Senator Metcalf: ". . . computer problem, we had to cancel the state government meeting at 1 o'clock today, I am a little embarrassed about that. We do intend to have the maps in the hands of the members of the minority party today.
"And we intend to go ahead with the committee meeting at eight o’clock tomorrow morning. But we intend to get those maps in your hands, that is our intention."

Senator Bottiger: "Senator, if you do not; you know, I was reading the contract and I was wondering at what point you would like to join in a suit against the Rose Institute for breach."

Senator Metcalf: "I do not think it is the Rose Institute problem; it is a computer problem. If we could just, you know, I did not have a very high impression of computers when I came here and my impression, my opinion is very much lower today. Many of those gray hairs are due to nothing but computers."

Senator Bottiger: "Isn’t it the software package that has the problem in it?"

Senator Metcalf: "Oh no, no it is not."

Senator Bottiger: "Where is the problem, . . . tell us?"

Senator Metcalf: "Well, the problem is the fact that the Federal government, when they do their census, does their census by census track which is utterly stupid, instead of doing them by precinct. If they did it by precinct we could, three-quarters of our time has been spent trying to get so that we know what happens when we move a line. And if we could do this by precinct, and I think we should all put pressure on the Congressmen to get them to, in 1990 have the census done by precinct and then it is easy."

"This is the problem; that is the problem it is the numbers in this state, it is not the Rose Institute."

Senator Bottiger: "Well, Senator Metcalf, the only value of the precincts is the political information. The numbers are all in the census track information. Is it converting to get the political information out that is causing the problem?"

Senator Metcalf: "We are going to get this stuff to you just as soon as we can, Senator."

MOTION

At 12:30 p.m., on motion of Senator Clarke, the Senate recessed until 1:30 p.m.

AFTERNOON SESSION

The President called the Senate to order at 1:30 p.m.

POINT OF INQUIRY

Senator Scott: "Senator McDermott, does your amendment to page 13, line 48, intend that, or speak to a 500-bed prison, or two 250-bed prisons, at a site other than Monroe? And are you speaking of different facilities than the 500-bed prison already under way, and that has been under way for several years at Monroe?"

Senator McDermott: "Senator Scott, the legislature several times, the Senate at several times, voted to continue what I think is a useless exercise in forcing 500 beds
into Monroe. This amendment is not intended to deal with the 500-bed that is presently on the drawing boards. It is planning money for facilities beyond that."

**REMARKS BY SENATOR TALMADGE**

Senator Talmadge: "Mr. President and members of the Senate. Simply concurring in the remarks of Senator McDermott, it is designed not to impact on the present Monroe facility, but it is to be the money for those facilities that we anticipate we'll need and have been identified as the need that we have for the future, by 1985 – 1990, given our shortfall in bed space."

The motion by Senator McDermott carried and the amendment was adopted. On motion of Senator Shinpoch, the following amendment was adopted:

"(41) Acquire portions of riverbank on the Green River.

On motion of Senator Scott, the rules were suspended, Reengrossed Substitute Senate Bill No. 3843 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Charnley: "Senator Scott, there are two things I would like to ask you about. On page 54, line 34–35, could you explain to me what a 'health sciences intramural dentistry clinic' is?"

Senator Scott: "We have allocated some $437,000 for this project, but I, what line are you on, Senator?"

Senator Charnley: "Line 34, 35 on page 54, at least the copy I have. This is in the University of Washington budget."

Senator Scott: "They have had a lot of intramurals from the dentistry department up in the University in the last few years. Maybe they are resorting to padding the walls."

Senator Charnley: "You can't tell me..."

Senator Scott: "Senator, I can now, I remember at the time we ran our fingers down through all of these things; and it is part of the basic remodeling of what is known as 'E wing' in the health sciences complex there; and the building, as you know, most of it is about 25 years old and these are largely replacements to pipes that carry chemical fluids, electricity to accommodate the new equipment and the overloads; what the 'intramural' is about, I do not know."

Senator Charnley: "The other question is on page 56, lines 24 and 25. You provide for the completion of a new teaching building for biological sciences. As I recall, they built a new building on that campus some eight or ten years ago, not too long ago. This is the second biological sciences building, or, this is the second building?"

Senator Scott: "Yes, this is a new facility and it reflects the increased usage in the sciences at Pack Forest."

Senator Charnley: "All right. Third, last question, on page 58. It says 'acquire land for hospital laundry facility.' I know there has been considerable concern, as you well know, in the community around the University of Washington, that it keeps growing octopus-like, leapfrog-like in terms of acquiring land. Do you know where this particular land is or what is it they are acquiring that is not apparently on the present campus?"

Senator Scott: "Senator Charnley, we discussed this with Jim Ryan and it is their intent not to try and put the laundry facility, the expanded laundry facility for the additional hospital beds right on the canal. They would have to bite into the already inadequate parking, and my memory is that their intention is to get a piece of property over behind University Village where they have two other parcels."

Senator Charnley: "Well, all right. I would hope that your committee and in general, we would overview any of this type of thing because there is, I think, a valid concern in terms of the community if the University keeps spreading out and spreading out and using up land that could be better used in other ways."

Senator Scott: "Senator McDermott and I are both very conscious of that."

Senator Charnley: "I am sure you are; thank you very much."

ROLL CALL

The Secretary called the roll on the final passage of Substitute House Bill No. 557, as amended by the Senate, and the bill passed the Senate by the following vote:

Yeas, 46; nays, 2; absent or not voting 1.

Voting nay: Senators Hansen, Williams—2.

SECOND READING

HOUSE BILL NO. 304, by Representatives Hankins, Hastings, McCormick, Isaacson, Stratton, Nisbet, Prince, Johnson, Lundquist and Garrett:

Authorizing operating agencies to maintain security forces.

The bill was read the second time by sections.

Senator Lysen moved adoption of the following amendment:

On page 1, line 9, after "area" insert "subject to the consent and approval of the governing body of every county in which such an area may be located"
Debate ensued.
The motion by Senator Lysen failed and the amendment was not adopted.
Senator Lysen moved adoption of the following amendment:
On page 1, line 22, after "by the" insert "ratepayers of the Pacific Northwest through the"
Debate ensued.

POINT OF INQUIRY

Senator Shinpoch: "Senator Zimmerman, Senator Lysen's amendment would
read that the training . . . certification program and so forth should be paid by
ratepayers of the Pacific Northwest through the operating agency. Is his amendment
an incorrect statement?"
Senator Zimmerman: "I think Senator Gould seems better prepared to
respond."
Senator Gould: "I guess I would have to say 'yes' and 'no' which is probably
typical of making statements on WPPSS. Actually, technically, in the cases of 1, 2
and 3, which are net billed by BPA it is paid by all people within the rate system.
On the other hand, with 4 and 5 it is directly only by those who are participating in
those four plants, two plants I mean, 4 and 5. It is a minor technicality; we all pay
for it to some degree, I suppose in both cases. . . ."
Senator Shinpoch: "Well, I think you have told me 'yes,' but some may say less
than others. But that we are, the ratepayers of the Pacific Northwest will pay for
this as well as a number of other things to the operating agency. And I guess, it
appears to me, it is nothing more nor less than being more technically correct if you
want to do that. On that basis I would support it."

POINT OF INQUIRY

Senator Lysen: "Senator Bottiger, does that meet your concern?"
Senator Bottiger: "You are technically accurate. Any time there is an added
cost or a savings, as Senator Fuller mentions, the ratepayers either benefit or pay, no
matter where they are at, if they are in any of the intertie exchange agreement."
Senator Lysen: "So with just using the word 'ratepayers' it becomes technically,
I should say 'ratepayers of.' Senator Shinpoch says 'ratepayers' through 'the operat-
ing agency.'"

Further debate ensued.
There being no objection, on motion of Senator Lysen, the amendment was
withdrawn.

On motion of Senator Talmadge, the following amendment by Senators
Talmadge and Williams was adopted:
On page 2, after line 27, insert a new subsection to read as follows:
"(4) The board of directors is accountable for the conduct of members of the
security force. The board may delegate responsibility to a named individual by reso-
lution to establish the security force. The liability of board members and the named
individual is as provided by law, including but not limited to, RCW 9A.08.020."
There being no objection, the remaining amendments by Senator Lysen on the
desk of the Secretary of the Senate were withdrawn.

On motion of Senator Shinpoch, the following amendment by Senators
Shinpoch and Newhouse was adopted:
On page 2, line 28, strike all of section 4.

On motion of Senator Zimmerman, the rules were suspended, House Bill No.
304, as amended by the Senate, was advanced to third reading, the second reading
considered the third, and the bill was placed on final passage.
MOTION

On motion of Senator Ridder, Senator Hurley was excused.

SECOND READING

SECOND SUBSTITUTE HOUSE BILL NO. 338, by House Committee on Energy and Utilities (originally sponsored by Representatives Isaacson and Hankins):

Permitting operating agencies to contract with nationally recognized firms without letting bids.

REPORT OF STANDING COMMITTEE

April 14, 1981.

SECOND SUBSTITUTE HOUSE BILL NO. 338, permitting operating agencies to contract with nationally recognized firms without letting bids (reported by Committee on Energy and Utilities):

MAJORITY recommendation: Do pass with the following amendments:

Strike everything after the enacting clause and insert the following:

*Section 1. Section 2, chapter 28, Laws of 1977 ex. sess. and RCW 43.52.490 are each amended to read as follows:

An operating agency shall have the power to (make any amendment to) amend a contract previously let for the construction of (the project) a nuclear generating project and associated facilities, by change order or other writing, if (it finds) the managing director certifies to the executive board or executive committee and the executive board or executive committee finds in an open public meeting that:

(1) Such amendment is necessary to comply with applicable regulations or standards of any state or federal governmental agency, or with any change in plans or specifications recommended by the architect-engineer in charge of the project or under his (its) direction or by the managing director for the purpose of improving the safety or feasibility of the project or expediting completion of the project on the most advantageous terms in the public interest((Provided, That)).
(2) Such amendment does not provide for a type of construction (of a project) basically different from that provided for in such contract;

(3) The plans and specifications for work to be performed under the contract amendment are at least fifty percent complete; and

(4) Such amendment specifies that the contractor will be compensated for actual work performed valued at its contracted cost.

Nothing in this 1981 act may be construed to bear on the validity of any contract amendment executed under the law as it existed prior to the effective date of this 1981 act or to affect any judicial proceeding arising from actions taken under such law.

This section shall expire on December 31, 1987, or on the date that construction is completed on those nuclear generating projects which are under construction by any joint operating agency on the effective date of this act, whichever is sooner.

NEW SECTION. Sec. 2. There is added to chapter 43.52 RCW a new section to read as follows:

It is the long-established policy of the state of Washington that competitive bidding for construction and procurement contracts for public improvements is the best practice and is in the public interest in assuring the citizens of the state the lowest cost in obtaining these improvements. However, the legislature declares that for certain work during the final stages of construction and startup of a nuclear generating project and associated facilities it will permit award of contracts through competitive negotiation when competitive bidding is not practicable or not advantageous.

The legislature intends that negotiated contracts be limited to the final stages of construction and startup of a nuclear generating project and associated facilities.

NEW SECTION. Sec. 3. There is added to chapter 43.52 RCW a new section to read as follows:

In addition to the powers of an operating agency under other provisions of law, an operating agency may enter into a contract for work to be performed during the final stages of construction and startup through negotiation without competitive bids only if all the following conditions are first satisfied:

(1) The executive board or executive committee of the operating agency has adopted a procedure to determine when a project has reached the final stages of construction and startup. A project shall not be considered to have reached the final stages of completion and startup unless the managing director certifies that the project is approximately eighty percent or more complete calculated by the method used to determine this percentage for the purpose of disclosing relevant information under 15 U.S.C. Sec. 77 et seq. as existing on the effective date of this act.

(2) The managing director certifies in writing to the executive board or executive committee and the executive board or executive committee finds that executing a negotiated contract will accomplish completion and startup more economically, expeditiously, or safely than executing a competitively bid contract.

(3) The selection of a contractor was made in accordance with procedures adopted by the executive board or executive committee requiring competitive proposals, the request for which states the relative importance of the various evaluation factors, including professional competence of offerors, the technical merits of offers, and the price.

(4) The joint operating agency retains authority and responsibility for inspection, testing, and compliance with applicable regulations or standards of any state or federal governmental agency.

(5) The operating agency has defined in writing the roles, responsibilities, and obligations of the new contractor and any contractor who commenced any work to be reworked, performed by, or completed by the new contractor.
NEW SECTION. Sec. 4. There is added to chapter 43.52 RCW a new section to read as follows:

An operating agency may provide in any negotiated contract for payment of cost and compensation in the form of reimbursement of actual contractor's costs recognized as allowable under the contract, plus a profit or fee as set forth in the contract, only if there is compliance with the following requirements:

1) The managing director certifies to the executive board or executive committee that it is not feasible to determine in advance what a fixed or unit contract price should be for the work, materials, or equipment to be covered by the proposed contract, either because of difficulty in defining and detailing the scope of the work to be performed, the materials, or equipment required;

2) The executive board or executive committee finds in an open public meeting held under chapter 42.30 RCW that the contract is likely to be less costly than contracts of other types or that it is impracticable to obtain the work, materials, or equipment required except under the contract;

3) The contract provides that:
   a) The contractor shall submit cost or pricing data and shall certify that, to the best of its knowledge and belief, the cost and pricing data submitted were accurate, complete, and current as of a mutually agreed upon date which is prior to the pricing of the negotiated contract;
   b) The operating agency and the state auditor shall audit the books and records of the contractor, its subcontractors under the contract, or any person who has submitted cost or pricing data in connection with the obtaining of the contract or the performance of the contract as necessary to determine compliance with relevant provisions of law;
   c) The contract price or compensation, including any profit or fee, shall be adjusted to exclude any significant sum by which the price was increased because contractor-furnished cost or pricing data was inaccurate, incomplete, or not current as of the date agreed upon between the parties; and
   d) Notice is given to the contractor that the provisions of chapters 42.20 and 42.23 RCW apply to employees and officers of the operating agency; and

4) Standards or guidelines are set forth in the contract for the determination of what the compensation payable to the contractor shall be, which shall not be based upon cost—plus—a—percentage—of—cost.

NEW SECTION. Sec. 5. There is added to chapter 43.52 RCW a new section to read as follows:

The administrative auditor shall file with the executive board or executive committee of the operating agency a quarterly report relating to compliance by the operating agency with sections 1 through 4 of this act. The administrative auditor shall file copies of the report with the legislative budget committee, which shall file a copy of each report with the respective chairpersons of the energy and utilities committees of the senate and house of representatives under RCW 43.52.378.

NEW SECTION. Sec. 6. There is added to chapter 43.52 RCW a new section to read as follows:

All of the provisions of Titles 9 and 9A RCW apply to actions of a joint operating agency.

NEW SECTION. Sec. 7. Section 1, chapter 28, Laws of 1977 ex. sess. and RCW 43.52.480 are each repealed.

NEW SECTION. Sec. 8. Sections 2 through 5 of this act shall expire on December 31, 1987, or on the date that construction is completed on those nuclear generating projects which are under construction by any joint operating agency on the effective date of this act, whichever is sooner.
NEW SECTION. Sec. 1. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 2. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately."

On page 1, line 1 of the title, after "Relating to operating agencies;" strike the remainder of the title and insert "amending section 2, chapter 28, Laws of 1977 ex. sess. and RCW 43.52.490; adding new sections to chapter 43.52 RCW; repealing section 1, chapter 28, Laws of 1977 ex. sess. and RCW 43.52.480; prescribing penalties; providing expiration dates; and declaring an emergency."

final stages of construction and startup through negotiation without competitive bids
only if all the following conditions are first satisfied:

(1) The executive board or executive committee of the operating agency has
adopted a procedure to determine when a project has reached the final stages of
construction and startup. A project shall not be considered to have reached the final
stages of completion and startup unless the managing director certifies that the
project is approximately eighty percent or more complete calculated by the method
used to determine this percentage for the purpose of disclosing relevant information
under 15 U.S.C. Sec. 77 et seq. as existing on the effective date of this act.

(2) The managing director certifies in writing to the executive board or execu­
tive committee and the executive board or executive committee finds that executing
a negotiated contract will accomplish completion and startup more economically,
expeditiously, or safely than executing a competitively bid contract.

(3) The selection of a contractor was made in accordance with procedures
adopted by the executive board or executive committee requiring competitive pro-
posals, the request for which states the relative importance of the various evaluation
factors, including professional competence of offerors, the technical merits of offers,
and the price.

(4) The joint operating agency retains authority and responsibility for inspec-
tion, testing, and compliance with applicable regulations or standards of any state or
federal governmental agency.

(5) The operating agency has defined in writing the roles, responsibilities, and
obligations of the new contractor and any contractor who commenced any work to
be reworked, performed by, or completed by the new contractor.

NEW SECTION. Sec. 4. There is added to chapter 43.52 RCW a new section
to read as follows:

An operating agency may provide in any negotiated contract for payment of
cost and compensation in the form of reimbursement of actual contractor's costs
recognized as allowable under the contract, plus a profit or fee as set forth in the
contract, only if there is compliance with the following requirements:

(1) The managing director certifies to the executive board or executive com-
mittee that it is not feasible to determine in advance what a fixed or unit contract
price should be for the work, materials, or equipment to be covered by the proposed
contract, either because of difficulty in defining and detailing the scope of the work
to be performed, the materials, or equipment required;
(2) The executive board or executive committee finds in an open public meeting held under chapter 42.30 RCW that the contract is likely to be less costly than contracts of other types or that it is impracticable to obtain the work, materials, or equipment required except under the contract;

(3) The contract provides that:
   (a) The contractor shall submit cost or pricing data and shall certify that, to the best of its knowledge and belief, the cost and pricing data submitted were accurate, complete, and current as of a mutually agreed upon date which is prior to the pricing of the negotiated contract;
   (b) The operating agency and the state auditor shall audit the books and records of the contractor, its subcontractors under the contract, or any person who has submitted cost or pricing data in connection with the obtaining of the contract or the performance of the contract as necessary to determine compliance with relevant provisions of law;
   (c) The contract price or compensation, including any profit or fee, shall be adjusted to exclude any significant sum by which the price was increased because contractor-furnished cost or pricing data was inaccurate, incomplete, or not current as of the date agreed upon between the parties; and
   (d) Notice is given to the contractor that the provisions of chapters 42.20 and 42.23 RCW apply to employees and officers of the operating agency; and

(4) Standards or guidelines are set forth in the contract for the determination of what the compensation payable to the contractor shall be, which shall not be based upon cost-plus-a-percentage-of-cost.

NEW SECTION. Sec. 5. There is added to chapter 43.52 RCW a new section to read as follows:

The administrative auditor shall file with the executive board or executive committee of the operating agency a quarterly report relating to compliance by the operating agency with sections 1 through 4 of this act. The administrative auditor shall file copies of the report with the legislative budget committee, which shall file a copy of each report with the respective chairpersons of the energy and utilities committees of the senate and house of representatives under RCW 43.52.378.

NEW SECTION. Sec. 6. There is added to chapter 43.52 RCW a new section to read as follows:

All of the provisions of Titles 9 and 9A RCW apply to actions of a joint operating agency.

NEW SECTION. Sec. 7. The legislature believes that the new authority granted in sections 1 through 6 of this act requires strengthening of the joint operating agency board of directors, so that it may exercise a meaningful role in monitoring the decision-making process. Therefore, the legislature directs that boards of operating agencies engaged in nuclear power plant construction shall be reorganized as provided in sections 8 through 11 of this act.

Sec. 8. Section 43.52.370, chapter 8, Laws of 1965 as amended by section 7, chapter 184, Laws of 1977 ex. sess. and RCW 43.52.370 are each amended to read as follows:

(1) Except as provided in subsection (2) of this section, the management and control of an operating agency shall be vested in a board of directors, herein sometimes referred to as the board. The legislative body of each member of an operating agency shall appoint a representative who may, at the discretion of the member and regardless of any charter or other provision to the contrary, be an officer or employee of the member, to serve on the board of the operating agency. Each representative shall have one vote and shall have, in addition thereto, one vote for each block of electric energy equal to ten percent of the total energy generated by the agency during the preceding year purchased by the member represented by such representative. Each member may appoint an alternative representative to serve in
the absence or disability of its representative. Each representative shall serve at the
pleasure of the member. The board of an operating agency shall elect from its
members a president, vice president and secretary, who shall serve at the pleasure of
the board. The president and secretary shall perform the same duties with respect to
the operating agency as are provided by law for the president and secretary, respec-
tively, of public utility districts, and such other duties as may be provided by motion,
rule or resolution of the board. The board of an operating agency shall adopt rules
for the conduct of its meetings and the carrying out of its business, and adopt an
official seal. All proceedings of an operating agency shall be by motion or resolution
and shall be recorded in the minute book which shall be a public record. A majority
of the board members shall constitute a quorum for the transaction of business. A
majority of the votes which the members present are entitled to cast shall be neces-
sary and sufficient to pass any motion or resolution: PROVIDED, That such board
members are entitled to cast a majority of the votes of all members of the board.
The members of the board of an operating agency may be compensated by such
agency as is provided in RCW 43.52.290: PROVIDED, That the per diem compen-
sation to any member shall not exceed five thousand dollars in any year except for
board members who are elected to serve on an executive board established under
section 9 of this 1981 act, in which case compensation to any member shall not
exceed ten thousand dollars in any year.

(2) If an operating agency is constructing a nuclear power plant under a site
certification agreement under chapter 80.50 RCW, the powers and duties of the
board of directors are limited to the following:

(a) Final authority on any decision of the operating agency to purchase or con-
struct additional sources of power generation;

(b) Acceptance or rejection of bids or offers for bonds and the sale and issuance
of bonds: PROVIDED, That the board may delegate this authority to the executive
board;

(c) Appointment of a treasurer under RCW 43.52.375;

(d) Election of members to the executive board under section 9 of this 1981 act;

and

(e) Select, appoint, and establish the compensation of the outside directors as
provided in section 9 of this 1981 act.

All other powers and duties of the operating agency are vested in the executive
board established under section 9 of this 1981 act.

NEW SECTION. Sec. 9. There is added to chapter 43.52 RCW a new section
to read as follows:

(1) With the exception of the powers and duties of the board of directors
described in RCW 43.52.370(2), the management and control of an operating
agency constructing or operating a nuclear power plant under a site certification
agreement under chapter 80.50 RCW is vested in an executive board established
under this subsection and consisting of eleven members.

(a) Seven members of the executive board shall be elected to four-year terms
by the board of directors from among the members of the board of directors. The
board of directors may provide by rule for the composition of the seven members of
the executive board elected from among the members of the board of directors so as
to afford fair representation which reflects the member public utility districts' and
cities' participation in the joint operating agency's projects. The board of directors
may also provide by rule for the removal of a member of the executive board,
including the outside directors. Members of the board of directors may be elected to
serve successive terms on the executive board.

(b) Four members of the executive board shall be outside directors and shall be
selected and appointed by the board of directors. The outside directors shall:
(i) Serve four-year terms on the executive board. However, of the initial members of the executive board, the board of directors shall choose by lot two outside directors to serve two-year terms and two to serve four-year terms. Thereafter, all outside directors shall be appointed for four-year terms. All outside directors are eligible for reappointment;

(ii) Be compensated and reimbursed for travel expenses as provided in RCW 43.52.290. Compensation shall not exceed ten thousand dollars in any year. In addition, the outside directors may be paid a consulting fee as established by the board of directors;

(iii) Not be an officer or employee of, or in any way affiliated with, the Bonneville power administration or any electric utility conducting business in the states of Washington, Oregon, Idaho, or Montana;

(iv) Not be involved in any way in the financial affairs of the operating agency, including but not limited to as an investor, underwriter, or financial adviser of the operating agency or any of its members or any of the participants in any of the operating agency’s plants; and

(v) Be representative of policy makers in business, finance, or science or be recognized experts in the construction or management of such facilities as the operating agency is constructing or operating.

(2) Nothing in this chapter may be construed to mean that an operating agency is in any manner an agency of the state.

(3) The eleven members of the executive board shall be selected with the objective of establishing an executive board which has the resources to effectively carry out its responsibilities. To the extent reasonably possible, the membership and operation of the executive board should be patterned after boards of directors of large private corporations.

(4) The executive board shall adopt rules for the conduct of its meetings and the carrying out of its business. All proceedings shall be by motion or resolution and shall be recorded in the minute book, which shall be a public record.

(5) With respect to any operating agency existing on the effective date of this act, to which the provisions of this section are applicable:

(a) The board of directors shall elect seven members to the executive board no later than sixty days after the effective date of this act; and

(b) The board of directors shall select and appoint the initial outside directors and the executive board shall hold its organizational meeting no later than ninety days after the effective date of this act, and the powers and duties prescribed in RCW 43.52.375 and 43.52.378 and this section shall devolve upon the executive board at that time.

(6) The executive board shall select and employ a managing director of the operating agency and may delegate to the managing director such authority for the management and control of the operating agency as the executive board deems appropriate. The managing director’s employment is terminable at the will of the executive board.

Sec. 10. Section 43.52.375, chapter 8, Laws of 1965 and RCW 43.52.375 are each amended to read as follows:

The board of each joint operating agency shall by resolution appoint a treasurer. If the joint operating agency is constructing a nuclear power plant under a site certification agreement under chapter 80.50 RCW, the appointment of the treasurer shall be on the recommendation of the executive board established under section 9 of this 1981 act. Before entering upon his duties the treasurer shall give bond to the operating agency, with a surety company authorized to write such bonds in this state as surety, in an amount which the board finds by resolution will protect the operating agency against loss, conditioned that all funds which he receives as such treasurer will be faithfully kept and accounted for and for the faithful discharge of his
duties. The amount of such bond may be decreased or increased from time to time as the board may by resolution direct. The board shall also appoint an auditor and may require him to give a bond with a surety company authorized to do business in the state of Washington in such amount as it shall by resolution prescribe, conditioned for the faithful discharge of his duties. If the joint operating agency is constructing a nuclear power plant under a site certification agreement under chapter 80.50 RCW, the auditor shall be appointed by the executive board. The premiums on the bonds of the auditor and the treasurer shall be paid by the operating agency. The board may provide for coverage of said officers and other persons on the same bond.

All funds of the joint operating agency shall be paid to the treasurer and shall be disbursed by him only on warrants issued by the auditor upon orders or vouchers approved by the board: PROVIDED, That the board by resolution may authorize the executive board to approve or disapprove vouchers presented to defray salaries of employees and other expenses of the operating agency arising in the usual and ordinary course of its business and expenses incurred by the executive board in the performance of such duties as the operating agency may authorize it to perform. All moneys of the operating agency shall be deposited forthwith by the treasurer in such depositaries, and with such securities as are designated by rules of the board. The treasurer shall establish a general fund and such special funds as shall be created by the board, into which he shall place all money of the joint operating agency as the board by resolution or motion may direct.

Sec. 11. Section 1, chapter 220, Laws of 1979 ex. sess. and RCW 43.52.378 are each amended to read as follows:

The executive board of any operating agency constructing or operating a thermal power plant under a site certification agreement issued pursuant to chapter 80.50 RCW shall appoint an administrative auditor. The administrative auditor shall be deemed an officer under chapter 42.23 RCW. The appointment of the administrative auditor shall be in addition to the appointment of the auditor for the issuance of warrants and other purposes as provided in RCW 43.52.375. The executive board shall retain a qualified firm or firms to conduct performance audits, including such engineering expertise as the executive board deems necessary, which is in fact independent and does not have any interest, direct or indirect, in any contract with the operating agency other than its employment hereunder. No member or employee of any such firm shall be connected with the operating agency as an officer, employee, or contractor. The administrative auditor and the firm or firms shall be independently and directly responsible to the executive board of the operating agency. The executive board shall require a firm to conduct continuing audits of the methods, procedures, and organization used by the operating agency to control costs, schedules, productivity, contract amendments, project design, and any other topics deemed desirable by the executive board. The executive board may also require a firm to analyze particular technical aspects of the operating agency's projects and contract amendments. The firm or firms shall provide advice to the executive board in its management and control of the operating agency. At least once each year, the firm or firms shall prepare and furnish a report of its actions and recommendations to the executive board for the purpose of enabling it to attain the highest degree of efficiency in the management and control of any thermal power project under construction or in operation. The administrative auditor shall assist the firm or firms in the performance of its duties. The administrative auditor and the firm or firms shall consult regularly with the executive board which the administrative auditor, firm, or executive board deems helpful in accomplishing the purpose above stated. The administrative auditor shall perform such other duties as the executive board shall prescribe to accomplish the purposes of this section.
In addition to the powers and duties conferred by chapter 44.28 RCW, the legislative budget committee shall evaluate such management audits as to adequacy and effectiveness of procedure and shall consult with and make reports and recommendations to the executive board. The operating agency shall reimburse the legislative budget committee for all costs of furnishing such services.

The operating agency shall file a copy of each firm's reports, and the legislative budget committee shall file a copy of each of its reports or recommendations in a timely manner, prepared in accordance with this section, with the respective chairmen of the senate and house energy and utilities committees. Upon the concurrent request of the chairmen of the senate or house energy and utilities committees, the operating agency shall report to the committees on a quarterly basis.

NEW SECTION. Sec. 12. Section 1, chapter 28, Laws of 1977 ex. sess. and RCW 43.52.480 are each repealed.

NEW SECTION. Sec. 13. Sections 2 through 5 of this act shall expire on December 31, 1987, or on the date that construction is completed on those nuclear generating projects which are under construction by any joint operating agency on the effective date of this act, whichever is sooner.

NEW SECTION. Sec. 14. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 15. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately.

POINT OF INQUIRY

Senator Wilson: "Senator Gould, it is obvious that a certain level of confusion prevails in the chamber. Would you be kind enough to remind us which bill is before us, and then which amendment is before us, and which amendment to the amendment is before us?"

Senator Gould: "Thank you Senator Wilson. I will start, and I see I have some support from Senator Williams in helping to clarify that.

"The bill that is before us is Second Substitute House Bill 388.

"The bill that is before us is a bill which allows the Washington Public Power Supply System to go into negotiated contracts. There was a committee amendment which would provide two changes to the original bill which had been adopted in committee and which were accepted by the WPPSS' lobbyist.

"The amendment to the amendment that we have in front of us, is almost a striking amendment. It includes those changes, in other words the bill which has been accepted to all parties, but it also includes Senate Bill 3797 which we passed a few weeks ago which reorganizes the board of directors. And that is in addition to the bill. Does that clarify...?"

There being no objection, at 7:20 p.m., the Senate was declared to be at ease.

The President called the Senate to order at 7:34 p.m.

POINT OF ORDER

Senator Guess: "Mr. President, on the admission of Senator Gould who says that the amendment which is being offered, is not only the bill but a bill of a different nature. This has to do with reorganizing of the board.

"And I think it is a fairly late time in the night to begin paperhanging and I would like to ask the chair for a ruling whether or not the amendment does not expand the scope and object of the original bill."
President Cherberg: "In ruling upon the point of order raised by Senator Guess, the President finds that Second Substitute House Bill number 338 is a measure which permits joint operating agencies to negotiate contracts with nationally recognized firms for the completion of nuclear generating projects and associated facilities under certain circumstances.

"The amendment proposed by Senators Gould and Williams modifies the structure and powers of the Washington Public Power Supply System's executive board.

"The President therefore finds that the proposed amendment does expand the scope and object of the bill and the point of order is well taken."

The amendment by Senators Gould and Williams to the committee amendment was ruled out of order.

Senator Charnley moved adoption of the following amendment by Senators Charnley and Talmadge to the committee amendment:

On page 1 of the committee amendment, beginning on line 7, strike the remainder of the amendment through and including page 8, line 22, and insert the following:

"Section 1. Section 2, chapter 28, Laws of 1977 ex. sess. and RCW 43.52.490 are each amended to read as follows:

An operating agency shall have the power to ((make any amendment to)) amend a contract previously let for the construction of ((the project)) a nuclear generating project and associated facilities, by change order or other writing, if ((if finds)) the managing director certifies to the executive board or executive committee and the executive board or executive committee finds in an open public meeting that:

(1) Such amendment is necessary to comply with applicable regulations or standards of any state or federal governmental agency, or with any change in plans or specifications recommended by the architect-engineer in charge of the project or under his (its) direction or by the managing director for the purpose of improving the safety or feasibility of the project or expediting completion of the project on the most advantageous terms in the public interest((Provided, That));

(2) Such amendment does not provide for a type of construction ((of a project)) basically different from that provided for in such contract;

(3) The plans and specifications for work to be performed under the contract amendment are at least fifty percent complete; and

(4) Such amendment specifies that the contractor will be compensated for actual work performed valued at its contracted cost.

Nothing in this 1981 act may be construed to bear on the validity of any contract amendment executed under the law as it existed prior to the effective date of this 1981 act or to affect any judicial proceeding arising from actions taken under such law.

This section shall expire on December 31, 1987, or on the date that construction is completed on those nuclear generating projects which are under construction by any joint operating agency on the effective date of this act, whichever is sooner.

NEW SECTION. Sec. 2. There is added to chapter 43.52 RCW a new section to read as follows:

It is the long-established policy of the state of Washington that competitive bidding for construction and procurement contracts for public improvements is the best practice and is in the public interest in assuring the citizens of the state the lowest cost in obtaining these improvements. However, the legislature declares that for certain work during the final stages of construction and startup of a nuclear generating project and associated facilities it will permit award of contracts through competitive negotiation when competitive bidding is not practicable or not advantageous.
The legislature intends that negotiated contracts be limited to the final stages of construction and startup of a nuclear generating project and associated facilities.

NEW SECTION. Sec. 3. There is added to chapter 43.52 RCW a new section to read as follows:

In addition to the powers of an operating agency under other provisions of law, an operating agency may enter into a contract for work to be performed during the final stages of construction and startup through negotiation without competitive bids only if all the following conditions are first satisfied:

1. The executive board or executive committee of the operating agency has adopted a procedure to determine when a project has reached the final stages of construction and startup. A project shall not be considered to have reached the final stages of completion and startup unless the managing director certifies that the project is approximately eighty percent or more complete calculated by the method used to determine this percentage for the purpose of disclosing relevant information under 15 U.S.C. Sec. 77 et seq. as existing on the effective date of this act.

2. The managing director certifies in writing to the executive board or executive committee and the executive board or executive committee finds that executing a negotiated contract will accomplish completion and startup more economically, expeditiously, or safely than executing a competitively bid contract.

3. The selection of a contractor was made in accordance with procedures adopted by the executive board or executive committee requiring competitive proposals, the request for which states the relative importance of the various evaluation factors, including professional competence of offerors, the technical merits of offers, and the price.

4. The joint operating agency retains authority and responsibility for inspection, testing, and compliance with applicable regulations or standards of any state or federal governmental agency.

5. The operating agency has defined in writing the roles, responsibilities, and obligations of the new contractor and any contractor who commenced any work to be reworked, performed by, or completed by the new contractor.

NEW SECTION. Sec. 4. There is added to chapter 43.52 RCW a new section to read as follows:

An operating agency may provide in any negotiated contract for payment of cost and compensation in the form of reimbursement of actual contractor's costs recognized as allowable under the contract, plus a profit or fee as set forth in the contract, only if there is compliance with the following requirements:

1. The managing director certifies to the executive board or executive committee that it is not feasible to determine in advance what a fixed or unit contract price should be for the work, materials, or equipment to be covered by the proposed contract, either because of difficulty in defining and detailing the scope of the work to be performed, the materials, or equipment required;

2. The executive board or executive committee finds in an open public meeting held under chapter 42.30 RCW that the contract is likely to be less costly than contracts of other types or that it is impracticable to obtain the work, materials, or equipment required except under the contract;

3. The contract provides that:
   a. The contractor shall submit cost or pricing data and shall certify that, to the best of its knowledge and belief, the cost and pricing data submitted were accurate, complete, and current as of a mutually agreed upon date which is prior to the pricing of the negotiated contract;
   b. The operating agency and the state auditor shall audit the books and records of the contractor, its subcontractors under the contract, or any person who has submitted cost or pricing data in connection with the obtaining of the contract.
or the performance of the contract as necessary to determine compliance with relevant provisions of law;

(c) The contract price or compensation, including any profit or fee, shall be adjusted to exclude any significant sum by which the price was increased because contractor-furnished cost or pricing data was inaccurate, incomplete, or not current as of the date agreed upon between the parties; and

(d) Notice is given to the contractor that the provisions of chapters 42.20 and 42.23 RCW apply to employees and officers of the operating agency; and

(4) Standards or guidelines are set forth in the contract for the determination of what the compensation payable to the contractor shall be, which shall not be based upon cost–plus–a–percentage–of–cost.

NEW SECTION. Sec. 5. There is added to chapter 43.52 RCW a new section to read as follows:

The administrative auditor shall file with the executive board or executive committee of the operating agency a quarterly report relating to compliance by the operating agency with sections 1 through 4 of this act. The administrative auditor shall file copies of the report with the legislative budget committee, which shall file a copy of each report with the respective chairpersons of the energy and utilities committees of the senate and house of representatives under RCW 43.52.378.

NEW SECTION. Sec. 6. There is added to chapter 43.52 RCW a new section to read as follows:

All of the provisions of Titles 9 and 9A RCW apply to actions of a joint operating agency.

NEW SECTION. Sec. 7. The legislature believes that the new authority granted in sections 1 through 6 of this act significantly reduces public competition and disclosure requirements for contract awards and changes, and should be balanced by strengthening public information regarding the obligations of local utilities and rate impacts of projects of operating agencies. Therefore, the legislature directs that participants in operating agency projects shall inform their ratepayers of such obligations and rate impacts in the manner provided in sections 8 and 9 of this act.

Sec. 8. Section 43.52.3411, chapter 8, Laws of 1965 and RCW 43.52.3411 are each amended to read as follows:

For the purposes provided for in this chapter, an operating agency shall have power to issue revenue bonds or warrants payable from the revenues of the utility properties operated by it. Whenever the board of a joint operating agency shall deem it advisable to issue bonds or warrants to construct or acquire any public utility or any works, plants, or facilities or any additions or betterments thereto or extensions thereof it shall provide therefor by resolution, which shall specify and adopt the system or plan proposed and declare the estimated cost thereof as near as may be. Such cost may include funds for working capital, for payment of expenses incurred in the acquisition or construction of the utility and for the repayment of advances made to the operating agency by any public utility district or city. Except as otherwise provided in RCW 43.52.343, all the provisions of law as now or hereafter in effect relating to revenue bonds or warrants of public utility districts shall apply to revenue bonds or warrants issued by the joint operating agency including, without limitation, provisions relating to: The creation of special funds and the pledging of revenues therefor; the time and place of payment of such bonds or warrants and the interest rate or rates thereon; the covenants that may be contained therein and the effect thereof; the execution, issuance, sale, funding, or refunding, redemption, and registration of such bonds or warrants; provided, however, that at least once each year a public rate hearing shall be held by each municipal corporation, cooperative, and mutual in such project, to receive testimony and advise ratepayers and utility management of the effect of the project upon the electric rates of the utility and upon the ability of the utility to finance other projects; and the status thereof as negotiable.
instruments, as legal securities for deposits of public moneys and as legal investments for trustees and other fiduciaries and for savings and loan associations, banks, and insurance companies doing business in this state.

NEW SECTION. Sec. 2. There is added to chapter 43.52 RCW a new section to read as follows:

Each municipal corporation, cooperative, and mutual participating with a joint operating agency in a project or projects subject to certification under chapter 80.50 RCW is required to inform its ratepayers as to the rate impacts of its participation in any such project or projects. At least semiannually, any such operating agency shall prepare an analysis of the contribution of the projects' financing to projected rate increases required by each participating public utility. Each participating municipal corporation, cooperative, and mutual shall include a notice of that analysis in a regular billing statement to its customers at least semiannually; but for any public utility which bills less than semiannually, such notice may be mailed under separate cover. The form of such notice shall be substantially as follows:

**NOTICE OF PROJECTED RATE INCREASE**

(Name of municipal corporation, cooperative, or mutual), an energy monopoly established under chapter (RCW citation applicable to utility publishing notice) RCW, is participating in (name of operating agency) project(s) (name of projects).

(Name of municipal corporation, cooperative, or mutual)’s share of the obligation is $(dollar amount of share). This obligation will be repaid through rates charged for electric power.

Your electric rates are expected to be affected as follows:

NEW SECTION. Sec. 11. Sections 2 through 5 of this act shall expire on December 31, 1987, or on the date that construction is completed on those nuclear generating projects which are under construction by any joint operating agency on the effective date of this act, whichever is sooner.

NEW SECTION. Sec. 13. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately.

POINT OF ORDER

Senator Guess: "I find it very painful, that I have to raise the scope and object on the amendment. It is totally out of order; hasn't got anything to do with the original bill and I think this is a delaying tactic I hate very much to see on the floor. But, Mr. President, I would raise the point of order on the bill that it does enlarge the scope and object of the bill."

RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the point of order presented by Senator Guess, the President finds that Second Substitute House Bill number 338 is a measure which permits joint operating agencies to negotiate contracts with nationally recognized firms for the completion of nuclear generating projects and associated facilities under certain circumstances.

"The amendment proposed by Senators Charnley and Talmadge deals with informing utility ratepayers of the impact on their rates of joint operating agency obligations.

"The President therefore finds that the proposed amendment does expand the scope and object of the bill and the point of order is well taken."

The amendment by Senators Charnley and Talmadge to the committee amendment was ruled out of order.

The President declared the question before the Senate to be adoption of the committee amendment on reconsideration.

On motion of Senator Gould, the rules were suspended, Second Substitute House Bill No. 338, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 339, by House Committee on Energy and Utilities (originally sponsored by Representatives Isaacson and Hankins):

Permitting certain provisions and revenue bonds and warrants issued by operating agencies.

REPORT OF STANDING COMMITTEE

April 14, 1981.

SUBSTITUTE HOUSE BILL NO. 339, permitting certain provisions and revenue bonds and warrants issued by operating agencies (reported by Committee on Energy and Utilities):

MAJORITY recommendation: Do pass with the following amendments:

Strike everything after the enacting clause and insert the following:

"Section 1. Section 43.52.250, chapter 8, Laws of 1965 as amended by section 1, chapter 184, Laws of 1977 ex. sess. and RCW 43.52.250 are each amended to read as follows:

As used in this chapter and unless the context indicates otherwise, words and phrases shall mean:

"District" means a public utility district as created under the laws of the state of Washington authorized to engage in the business of generating and/or distributing electricity.

"City" means any city or town in the state of Washington authorized to engage in the business of generating and/or distributing electricity.

"Canada" means Canada or any province thereof.

"Operating agency" or "joint operating agency" means a municipal corporation created pursuant to RCW 43.52.360, as now or hereafter amended.

"Public utility" means any person, firm or corporation, political subdivision or governmental subdivision including cities, towns and public utility districts engaged in or authorized to engage in the business of generating, transmitting or distributing electric energy.

"Revenue bonds or warrants" means bonds, notes, bond anticipation notes, warrants, certificates of indebtedness, commercial paper, refunding or renewal obligations, payable from a special fund or revenues of the utility properties operated by the joint operating agency.

Sec. 2. Section 43.52.3411, chapter 8, Laws of 1965 and RCW 43.52.3411 are each amended to read as follows:

For the purposes provided for in this chapter, an operating agency shall have power to issue revenue bonds or warrants payable from the revenues of the utility properties operated by it. Whenever the board of a joint operating agency shall deem it advisable to issue bonds or warrants to construct or acquire any public utility or any works, plants or facilities or any additions or betterments thereto or extensions thereof it shall provide therefor by resolution, which shall specify and adopt the system or plan proposed and declare the estimated cost thereof as near as may be. Such cost may include funds for working capital, for payment of expenses incurred in the acquisition or construction of the utility and for the repayment of advances made to
the operating agency by any public utility district or city. Except as otherwise pro-
vided in RCW 43.52.343, all the provisions of law as now or hereafter in effect
relating to revenue bonds or warrants of public utility districts shall apply to revenue
bonds or warrants issued by the joint operating agency including, without limitation,
provisions relating to: The creation of special funds and the pledging of revenues
thereof; the time and place of payment of such bonds or warrants and the interest
rate or rates thereof; the covenants that may be contained therein and the effect
thereof; the execution, issuance, sale, funding, or refunding, redemption and regis-
tration of such bonds or warrants; and the status thereof as negotiable instruments,
as legal securities for deposits of public moneys and as legal investments for trustees
and other fiduciaries and for savings and loan associations, banks and insurance
companies doing business in this state. However, for revenue bonds or warrants
issued by an operating agency, the provisions under RCW 54.24.030 relating to
additional or alternate methods for payment may be made a part of the contract
with the holders of any revenue bonds or warrants of an operating agency. The
board may authorize the managing director or the treasurer of the operating agency
to sell revenue bonds or warrants maturing one year or less from the date of issu-
ance, and to fix the interest rate or rates on such revenue bonds or warrants with
such restrictions as the board shall prescribe.

NEW SECTION. Sec. 3. The legislature believes that the new authority
granted in the 1981 amendment of RCW 43.52.250 and 43.52.3411 requires a pru-
dent review of the status of those nuclear projects which are in the early stages of
construction and financing on the effective date of this act. Therefore, the study pre-
scribed in sections 4 through 8 of this act is authorized, to examine project financ-
ing, estimate the amount necessary to finance, assess the need for financing the
projects, as compared to cost–effective alternatives, and determine the electric rate
impacts of the projects to be financed. The legislature directs that an independent
study shall be made of the feasibility of completion and operation of the Washington
Public Power Supply System (WPPSS) Nuclear Projects Nos. Four and Five, which
are the least advanced in construction of the five WPPSS projects.

NEW SECTION. Sec. 4. The study shall include, but not be limited to the
following:

(1) The probability of successful financing of plant construction, including
analysis of inflation effects, probable interest rates, future monetary policy, market
reaction to financing arrangements, and risks associated with such financing
arrangements;

(2) The probable ultimate costs and schedule for completing each plant assum-
ing that: (a) Construction continues without a deferral, and (b) construction is com-
pleted after a deferral lasting as long as ten years;

(3) The probable cost of power produced by each plant throughout the period
of plant operation;

(4) The electric rates that are to be expected assuming that each plant is com-
pleted according to the determinations under subsection (2) of this section, including
costs of substitutes for the outputs of each plant if the plant's completion is subject
to a deferral, the plant is not completed, or the plant ceases operation before the
plant is finally amortized;

(5) The need for projected output of each plant considering projected demand
for electricity, other supply or conservation programs that will be initiated during
the period before each plant would be on line, and the availability of and potential
for using alternative resources and conservation in new programs which could be
undertaken;

(6) The market for and probable rate at which surplus electricity, if any, could
be sold outside the Pacific Northwest region; and
The cost-effectiveness of available energy alternatives as compared to continued investment in each plant, considering among other factors life cycle costs, time of availability, and options for the disposition of uncompleted plants.

NEW SECTION. Sec. 5. The legislature intends that the study described in section 4 of this act shall be managed and conducted by an independent research unit, recognized both for expertise in the investigation of electric energy supply and demand in the Pacific Northwest, particularly the process of electric generation by nuclear fission, and for objectivity in past research. The joint Washington energy research center of the University of Washington and Washington State University shall conduct this study through its affiliate office of applied energy studies of Washington State University. A study director shall be appointed by Washington State University. The study director shall contract with nationally recognized expert and disinterested consultants as needed for expeditious completion of the study. WPPSS shall provide unrestricted access to its personnel and records to the persons, including consultants, conducting the study.

The legislative budget committee shall monitor the fiscal administration of the study described in section 4 of this act and may require adherence to such fiscal practices as are appropriate to the needs of the state and the intent of this section and section 3 of this act.

The study director shall assemble an advisory panel which shall provide technical advice and support for the study. Experts from the private sector in the fields of public works construction and finance shall be included on the panel.

NEW SECTION. Sec. 6. The study required by section 4 of this act is needed as expeditiously as possible and shall be completed by March 15, 1982. The study director shall report periodically upon the concurrent request of the chairmen of the energy and utility committees of the senate and the house of representatives regarding study progress and preliminary findings and shall provide a draft report to the Washington state legislature by January 31, 1982.

A full report of the findings and recommendations in the study shall be submitted by the office of applied energy studies of the Washington energy research center to the governor, the speaker of the house of representatives, the president of the senate, the chairmen of the energy and utilities committees of the senate and house of representatives, the managing director and the president of the board of directors of the Washington Public Power Supply System, and the governing body of each participant in the projects.

NEW SECTION. Sec. 7. There is hereby appropriated to Washington State University the sum of one million five hundred thousand dollars or so much thereof as is necessary for the 1981-1983 biennium from the state general fund to be used for the sole purpose of paying the costs of conducting the study under section 4 of this act.

NEW SECTION. Sec. 8. The Washington Public Power Supply System shall reimburse the state general fund in the amount of one million five hundred thousand dollars or so much thereof as is paid from the state general fund to Washington State University for the sole purpose of conducting the study which is the subject of section 4 of this act and such reimbursement shall be made to the state general fund upon completion of the study, but in no event later than June 30, 1982. The moneys reimbursed shall be considered part of the costs of construction of WPPSS projects Nos. Four and Five.

Sec. 9. Section 43.52.343, chapter 8, Laws of 1965 and RCW 43.52.343 are each amended to read as follows:

All bonds issued by an operating agency shall be sold and delivered in such manner, at such rate or rates of interest and for such price or prices and at such time or times as the board shall deem in the best interests of the operating agency, whether by negotiation or to the highest and best bidder after such advertising for
bids as the board of the operating agency may deem proper: PROVIDED, That the board may reject any and all bids so submitted and thereafter sell such bonds so advertised under such terms and conditions as it may deem most advantageous to its own interests.

NEW SECTION. Sec. 10. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 11. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately."

On page 1, line 5 of the title, after "43.52.3411," strike "repealing" and insert "amending"

On page 1, line 6 of the title, after "43.52.343;" insert "creating new sections; making an appropriation;"

Signed by: Senators Gould, Chairman; Fuller, Hemstad, Hurley, Moore, Williams, Wilson, Woody.

The bill was read the second time by sections.

Senator Gould moved adoption of the committee amendment.

POINT OF ORDER

Senator Sellar: "Mr. President, the Senate committee amendment which is submitted, is a striking amendment and has incorporated a totally different Senate bill as sections 3 through 8 deal with an entirely separate issue, past previously in Senate Bill 3972.

"I would respectfully challenge the scope and object of sections 3 through 8, expand the scope and object of the bill."

RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the point of order presented by Senator Sellar, the President finds that Substitute House Bill 339 is a measure which relates to the financing of nuclear power plants operated by a joint operating agency, namely the Washington Public Power Supply System.

"The amendment proposed by the Senate committee on energy and utilities provides for a study of the availability and feasibility of such financing.

"The President therefore finds that the proposed amendment does not expand the scope and object of the bill and that the point of order is not well taken.

The committee amendment was ruled to be in order.

Senator Williams moved adoption of the following amendment to the committee amendment:

On page 3, line 38, following "of" strike "any" and on line 39 following "agency" insert "maturing in not less than six years from the date of issuance"

Debate ensued.

MOTION

On motion of Senator Clarke, Substitute House Bill No. 339 together with the pending amendments was ordered held for consideration at a later time.

MOTION

On motion of Senator Clarke, the Senate commenced consideration of Engrossed House Bill No. 677.
SECOND READING

ENGROSSED HOUSE BILL NO. 677, by House Committee on Transportation and Representatives Schmidt, Wilson, Eberle, Houchen, Owen, McCormick, James, Lundquist, and Nisbet and Berleen:

Granting emergency powers to the governor to operate the Puget Sound ferry and toll bridge system.

The bill was read the second time by sections.

Senator McDermott moved adoption of the following amendment:

On page 1, line 10, after "system" insert ": PROVIDED, That the governor shall not intervene while collective bargaining or any dispute resolution mechanism, including binding arbitration, is in active progress"

Debate ensued.

POINT OF INQUIRY

Senator Ridder: "Senator Guess, observing the hour, Senator, and your comments about 'eyes wide open,' and people being kept away from their homes night after night, there might indeed be some concern for emergency powers in order to take care of that particular problem."

Senator Guess: "Senator, I imagine before you go home, you will be going home in the daylight, so the birds will be singing as they did the other morning at 5 o'clock when I walked into the house."

Further debate ensued.

Senator McDermott demanded a roll call and the demand was sustained.

Senators Clarke, Jones and Hayner demanded a Call of the Senate. A Call of the Senate was ordered.

CALL OF THE SENATE

The Sergeant at Arms locked the doors of the Senate Chamber.

Senator Bottiger demanded a roll call.

PARLIAMENTARY INQUIRY

Senator Bottiger: "Mr. President, is that question debatable?"

REPLY BY THE PRESIDENT

President Cherberg: "The question is not debatable, Senator."

The demand for the roll call was sustained.

The President declared the question before the Senate to be the roll call on the Call of the Senate.

ROLL CALL

The Secretary called the roll and the demand for the Call of the Senate was sustained by the following vote: Yeas, 25; nays, 24.

Voting yea: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer, Zimmerman—25.

CALL OF THE SENATE

The Secretary called the roll and announced to the President that all Senators were present.

MOTION

On motion of Senator Clarke, the Senate proceeded under the Call of the Senate.

The President declared the question before the Senate to be the roll call on the amendment by Senator McDermott to page 1, line 10.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 24; nays, 25.

Voting nay: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallaghan, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer, Zimmerman—25.

Senator von Reichbauer moved adoption of the following amendment by Senators von Reichbauer and Patterson:

On page 1, line 10, after "system" insert the following:

"In the event of such an emergency, the governor may assume all the powers granted by law to the transportation commission and department of transportation with respect to the ferry system. In addition, notwithstanding the provisions of chapters 47.60 and 47.64 RCW, the governor may contract with any qualified persons for the operation of the Washington state ferry system, or any part thereof, or for ferry service to be provided by privately owned vessels."

POINT OF INQUIRY

Senator Talmadge: "Would Senator von Reichbauer yield?"

President Cherberg: "Senator von Reichbauer declines."

Senator Talmadge: "Mr. President and members of the Senate.

"We all swear an oath when we are elected to the state Senate to observe the Constitution of the state of Washington. One of the provisions of the Constitution of the state of Washington is that we cannot pass a law that impairs the obligation of contracts. I believe Senator von Reichbauer swore that oath like all of us did.

"The key concern that I have here is if a contract provides that there shall be no contracting out of the service during the pendency of the collective bargaining agreement, then what we are doing if this amendment is adopted, is impairing the obligation of a contract between the state of Washington and the unions involved.

"Perhaps Senator von Reichbauer, in not answering the direct question, would respond to that concern."

Senator Bottiger demanded a roll call and the demand was sustained.

ROLL CALL

The Secretary called the roll and the amendment was adopted by the following vote: Yeas, 25; nays, 24.
Voting yea: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Gould, Guess, Haley, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer, Zimmerman—25.

On motion of Senator Quigg, the following amendment by Senators Quigg and Lysen was adopted on a rising vote:

On page 1, line 21, after "immediately." insert the following:

"NEW SECTION. Sec. 4. Chapter 31, Laws of 1961, and RCW 47.60.120 are each amended to read as follows:

((In the event the authority acquires or constructs, maintains and operates any ferry crossings upon or toll bridges over Puget Sound or any of its tributary or connecting waters there shall not be constructed, operated or maintained any other ferry crossing upon or bridge over any such waters within ten miles of any such crossing or bridge operated or maintained by the authority excepting such bridges or ferry crossings in existence, and being operated and maintained under a lawfully issued franchise at the time of the location of the ferry crossing or construction of the toll bridge by the authority. The authority shall not maintain and operate any ferry crossing or toll bridge over Puget Sound or any of its tributary or connecting waters which would infringe upon any franchise lawfully issued by the state and in existence and being exercised at the time of the location of the ferry crossing or toll bridge by the authority, without first acquiring the rights granted to such franchise holder under said franchise:))

While any revenue bonds issued by the authority under the provisions of this chapter are outstanding no additional bonds shall be issued for the purposes of acquiring, constructing, operating or maintaining any ferries or toll bridges within the aforesaid ten mile distance by the authority unless the revenues of any such additional ferries or toll bridges are pledged to the bonds then outstanding to the extent provided by the resolution authorizing the issue of such outstanding bonds. The provisions of this section shall be binding upon the state, and all of its department, agencies and instrumentalities, ((as well as any and all private, political, municipal and public corporations and subdivisions, including cities, towns, counties and other political subdivisions,)) and the prohibitions of this section shall restrict and limit the powers of the legislature of the state in respect to the matters herein mentioned so long as any of such bonds are outstanding and unpaid and shall be deemed to constitute a contract to that effect for the benefit of the holders of all such bonds.

NEW SECTION. Sec. 5. There is added to Chapter 47.60 RCW a new section to read as follows:

Notwithstanding any other provision of law, there shall be free and open competition of vessel or ferry operators for public hire on the waters of Puget Sound.

NEW SECTION. Sec. 6. The following acts or parts of acts are each repealed:

1) Chapter 14, laws of 1961 and RCW 81.84.010;
2) Chapter 14, laws of 1961 and RCW 81.84.020;
3) Chapter 14, laws of 1961 and RCW 81.84.030;
4) Section 14, chapter 115, laws of 1961 and RCW 81.84.040;
5) Chapter 14, laws of 1961 and RCW 81.84.050."

PARLIAMENTARY INQUIRY

Senator McDermott: "Mr. President, when we are under a Call of the Senate, is 27–20 sufficient?"
President Cherberg: "Yes, Senator."

Senator Vognild moved adoption of the following amendment by Senators Vognild, McDermott, Conner, Talmadge, Bottiger, Charnley and Moore:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Section 1. It is the purpose of sections 1 through 6 of this act to prevent strikes by marine employees while preserving their noncivil service status and providing for a fair and impartial arbitration procedure for the resolution of contractual disputes.

NEW SECTION. Sec. 2. Nothing contained in this chapter constitutes a grant of the right to strike by any marine employee or group of marine employees, and such strikes are hereby expressly prohibited.

NEW SECTION. Sec. 3. If no agreement between an employer and the exclusive bargaining representative of marine employees has been reached after a reasonable period of negotiations and mediation, if voluntarily requested by one or both of the parties, and the executive director appointed under RCW 41.58.015 finds that the parties remain at impasse, then an arbitration panel shall be created to resolve the dispute. Within five days following the issuance of the determination of the executive director, each party shall name one person to serve as its arbitrator on the arbitration panel. The two members so appointed shall meet within three days following their appointments to attempt to choose a third member to act as the neutral chairman of the arbitration panel. Upon the failure of the arbitrators to select a neutral chairman within five days, the two appointed members shall use one of the two following options in the appointment of the third member, who shall act as chairman of the panel: (1) By mutual consent, the two appointed members may jointly request the commission, and the commission shall appoint a third member within two days of such request. Costs of each party's appointee shall be borne by each party respectively; other costs of the arbitration proceedings shall be borne by the commission; or (2) either party may apply to the commission, the federal mediation and conciliation service or the American Arbitration Association to provide a list of five qualified arbitrators from which the neutral chairman shall be chosen. Each party shall pay the fees and expenses of its arbitrator, and the fees and expenses of the neutral chairman shall be shared equally between the parties. Neither of these two methods may exceed five additional days.

The arbitration panel so constituted shall promptly establish a date, time, and place for a hearing and shall provide reasonable notice thereof to the parties to the dispute: PROVIDED, That the requirements of chapter 34.04 RCW do not apply to such notice. A hearing, which shall be informal, shall be held, and each party shall have the opportunity to present evidence and make argument. No member of the arbitration panel may present the case for a party to the proceedings. The rules of evidence prevailing in judicial proceedings may be considered, but are not binding, and any oral testimony or documentary evidence or other data deemed relevant by the chairman of the arbitration panel may be received in evidence. A recording of the proceedings shall be taken. The arbitration panel shall have the power to administer oaths, require the attendance of witnesses, and require the production of such books, papers, contracts, agreements, and documents as may be deemed by the panel to be material to a just determination of the issues in dispute. If any person refuses to obey a subpoena issued by the arbitration panel, or refuses to be sworn or to make an affirmation to testify, or any witness, party, or attorney for a party is guilty of any contempt while in attendance at any hearing held hereunder, the arbitration panel may invoke the jurisdiction of the superior court in the county where the labor dispute exists, and such court shall have jurisdiction to issue an appropriate order. Any failure to obey such order may be punished by the court as a contempt thereof. The hearing conducted by the arbitration panel shall be concluded..."
within fifteen days following the selection or designation of the neutral chairman of the arbitration panel.

The neutral chairman shall consult with the other members of the arbitration panel and, within fifteen days following the conclusion of the hearing, the neutral chairman shall make written findings of fact and a written determination of the issues in dispute, based on the evidence presented. A copy thereof shall be served on the commission, on each of the other members of the arbitration panel, and on each of the parties to the dispute. That determination shall be final and binding upon both parties, subject to review by the superior court upon the application of either party solely upon the question of whether the decision of the panel was arbitrary or capricious.

Nothing in this section shall be construed to prohibit an employer and an exclusive bargaining representative from agreeing to substitute a different method to be used by the arbitration panel in reaching its decision such as a final offer package or an issue by issue arbitration system.

NEW SECTION. Sec. 4. In making its determination, the panel shall be mindful of the legislative purpose enumerated in section 1 of this act and as additional standards or guidelines to aid it in reaching a decision, it shall take into consideration the following factors:

(1) The constitutional and statutory authority of the employer;
(2) Stipulations of the parties;
(3) Comparison of the wages, hours, and conditions of employment of the marine employees involved in the proceedings with the wages, hours, and conditions of employment of marine employees in comparable jurisdictions in the public and private sectors;
(4) Such other factors, not confined to the foregoing, which are normally or traditionally taken into consideration in the determination of wages, hours, and conditions of employment.

NEW SECTION. Sec. 5. During the pendency of the proceedings before the arbitration panel, existing wages, hours, and other conditions of employment shall not be changed by action of either party without the consent of the other, but a party may so consent without prejudice to the party's rights or position under sections 1 through 6 of this act.

NEW SECTION. Sec. 6. If the representatives of either or both the exclusive bargaining agent and the employer refuse to submit to the procedures set forth in section 3 of this act, the parties, or the commission on its own motion, may invoke the jurisdiction of the superior court for the county where the labor dispute exists, and such court shall have jurisdiction to issue an appropriate order. A failure to obey such order may be punished by the court as a contempt thereof. A decision of the arbitration panel shall be final and binding on the parties, and may be enforced at the instance of either party, the arbitration panel or the commission in the superior court for the county where the labor dispute exists.

NEW SECTION. Sec. 7. The provisions of sections 1 through 6 of this act relating to marine employees are intended to be additional to other remedies and shall be liberally construed to accomplish their purpose. If any provision of sections 1 through 6 of this act conflicts with any other statute, ordinance, rule, or regulation as it relates to marine employees, the provisions of sections 1 through 6 of this act shall control.

Sec. 8. Section 1, chapter 39, Laws of 1970 ex. sess. as last amended by section 2, chapter 125, Laws of 1979 and RCW 41.05.010 are each amended to read as follows:

Unless the context clearly indicates otherwise, words used in this chapter have the following meaning:
(1) "Board" means the state employees' insurance board established under the provisions of RCW ((41.05.020)) 41.05.025.

(2) "Employee" shall include all full time and career seasonal employees of the state, a county, a municipality, or other political subdivision of the state, whether or not covered by civil service, other than any person defined as an employee under RCW 47.64.010; elected and appointed officials of the executive branch of government, including full time members of boards, commissions, or committees; and shall include any or all part time and temporary employees under the terms and conditions established by the board; justices of the supreme court and judges of the court of appeals and the superior courts; and members of the state legislature or of the legislative authority of any county, city, or town who are elected to office after February 20, 1970.

(3) "Panel medicine plan" means a health care plan which can be offered by a health care service contractor which itself furnishes the health care service contracted for by means of a group practice prepaid medical care plan, and also includes a health maintenance organization holding a valid certificate of registration under chapter 48.46 RCW.

(4) "Trustee" shall mean the director of personnel.

NEW SECTION. Sec. 9. Sections 1 through 7 of this act are added to chapter 47.64 RCW.

NEW SECTION. Sec. 10. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

POINT OF ORDER

Senator von Reichbauer: "Mr. President, I believe that the amendment to Engrossed House Bill 677 broadens the scope and object of the intent of the bill.

"Mr. President and members of the Senate. Engrossed House Bill 677 adds new sections to chapter 47.60 RCW which are concerned solely with the exercise of emergency powers over the ferry system by the governor.

"This amendment, offered by Senator Vognild, adds new sections to chapter 47.64, a different chapter concerned solely with labor relations. The amendment clearly expands the scope and object of the bill and should be ruled out of order."

RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the Point of Order raised by Senator von Reichbauer, the President finds that Engrossed House Bill No. 677 is a measure which grants emergency powers to the Governor to operate the Puget Sound ferry and toll bridge system.

"The amendment proposed by Senator Vognild and others deals with the distinct subject of establishing procedures for binding arbitration for ferry workers.

"The President therefore finds that the proposed amendment does expand the scope and object of the bill and that the Point of Order is well taken."

The amendment by Senator Vognild and others was ruled out of order.

Senator Lysen moved adoption of the following amendment:
On page 1, line 14, insert:
"The Washington ferry system shall be taken out of the Washington state department of transportation and reestablished in the toll bridge authority."

Senator von Reichbauer moved the amendment by Senator Lysen be laid upon the table.

Senator Bottiger demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the motion by Senator von Reichbauer that the amendment be laid upon the table.
ROLL CALL

The Secretary called the roll and the amendment was laid upon the table by the following vote: Yeas, 26; nays, 23.

On motion of Senator Quigg, the following amendments to the title were considered and adopted simultaneously:

On page 1, line 1, after "system" insert "amending Chapter 31, Laws of 1961, and RCW 47.60.120".

On page 1, line 2, after "adding" strike "a new section" and insert "new sections".

On page 1, line 2, after "47.60 RCW;" insert "repealing Chapter 14, laws of 1961 and RCW 81.84.010; Chapter 14, laws of 1961 and RCW 81.84.020; Chapter 14, laws of 1961 and RCW 81.84.030; Section 14, chapter 115, laws of 1961 and RCW 81.84.040; Chapter 14, laws of 1961 and RCW 81.84.050;"

On motion of Senator von Reichbauer, the rules were suspended, Engrossed House Bill No. 677, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed House Bill No. 677, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 26; nays, 23.

ENGROSSED HOUSE BILL NO. 677, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 203, by House Committee on Appropriations—General Government and Compensation (originally sponsored by House Committee on Appropriations—General Government and Compensation and Representative Williams) (by Office of Financial Management request):

Providing for fire protection for state-owned buildings.

The bill was read the second time by sections.

Senator Vognild moved adoption of the following amendment by Senators Vognild, Wojahn, Bottiger, Conner, Talley and Talmadge:

Strike everything after the enacting clause and insert the following:

*NEW SECTION* Section 1. The legislature finds that fire protection services have lacked a comprehensive state-level focus. This has resulted in a lack of cooperation and coordination between local and state agencies. The purpose of this chapter is to create a broadly representative state board which will: (1) Advise and assist
local fire protection agencies in program development without encroaching upon their historic autonomy; (2) centralize traditional state fire protection services under the jurisdiction of a single state board; and (3) advise the governor and the legislature on fire protection matters in this state.

NEW SECTION. Sec. 2. There is created the state fire protection board consisting of the following nine members appointed by the governor with the advice and consent of the senate:

1. Two fire chiefs. One fire chief shall be from a fire department east of the Cascade mountains and one shall be from a fire department west of the Cascade mountains. In making these appointments, the governor shall consider the recommendations of the Washington state association of fire chiefs;

2. One insurance industry representative. In making this appointment, the governor shall consider the recommendations of the Washington insurance council;

3. One representative of cities and towns. In making this appointment, the governor shall consider the recommendations of the association of Washington cities;

4. One representative of counties. In making this appointment, the governor shall consider the recommendations of the Washington state association of counties;

5. One full-time fire fighter. In making this appointment, the governor shall consider the recommendations of the Washington state council of fire fighters;

6. One volunteer fire fighter. In making this appointment, the governor shall consider the recommendations of the Washington state fire fighters association;

7. One fire commissioner. In making this appointment, the governor shall consider the recommendations of the Washington fire commissioners association; and

8. One representative of business and industry. In making this appointment, the governor shall consider the recommendations of the association of Washington business.

The commissioner of public lands, the insurance commissioner, and the director of emergency services, or their designees, are nonvoting ex officio members of the state fire protection board.

NEW SECTION. Sec. 3. Each voting member of the state fire protection board shall be appointed to a term of three years and until a successor is appointed and qualified. However, in making the initial appointments to the board, the governor shall stagger the terms of office by appointing three members to terms of one year, three members to terms of two years, and three members to terms of three years. In the case of a vacancy, the governor shall fill the unexpired term of the member whose office has become vacant. An office shall become vacant whenever a member ceases to be employed in the occupation the member was appointed to represent.

NEW SECTION. Sec. 4. Each voting member of the state fire protection board, other than a full-time employee of a governmental agency, is entitled to fifty dollars for each day or portion thereof engaged in the business of the board. Members of the board shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060 as now or hereafter amended.

NEW SECTION. Sec. 5. The governor shall select one member of the board to serve as chairperson. The board shall be convened at least six times annually at the call of the chairperson or a majority of the board. A majority of the board constitutes a quorum for the transaction of business.

NEW SECTION. Sec. 6. The state fire protection board shall:

1. Establish suggested minimum standards with respect to physical requirements and education and training of fire service personnel;

2. Establish suggested minimum standards for fire apparatus and equipment;

3. Establish suggested minimum performance standards for all grades of fire service personnel;

4. Adopt and implement a state fire protection master plan;
(5) Monitor fire protection in the state and develop objectives and priorities to improve fire protection for the state's citizens;

(6) Review the duties, responsibilities, and authority of state agencies and departments that deal with fire and life safety and make such recommendations to the governor and the legislature that will eliminate duplication and fragmentation of fire protection services;

(7) Establish and promote state arson control programs and encourage development of local arson control programs including formation of local and regional arson task forces;

(8) Represent fire protection services in all state level fire protection planning in matters such as, but not limited to, hazardous materials;

(9) Establish and promote programs of fire safety education for school systems and the public;

(10) Coordinate interaction between the department of natural resources, federal fire protection agencies operating within the state, and political fire protection subdivisions of the state in matters pertinent to common concerns;

(11) Seek and solicit grants, gifts, bequests, devices, and matching funds for use in furthering the objectives and duties of the board, and establish procedures for administering them;

(12) When funds are available, make grants for use in pursuing the board's objectives;

(13) Promote mutual aid and disaster planning for fire services in this state;

(14) Disseminate within the state information concerning the amount of fire damage, including that damage caused by arson, and its causes and prevention;

(15) Make studies, reports, and recommendations to the governor and the legislature when requested or warranted; and

(16) Adopt such rules as necessary for the administration of this chapter.

NEW SECTION. Sec. 7. The state fire protection board shall:

(1) Administer any legislation enacted by the legislature in pursuance of the aims and purposes of any acts of congress insofar as the provisions thereof may apply to the administration of fire service training;

(2) Establish and provide state-wide fire service training and education courses, including courses in arson detection and investigation, for personnel of fire, police, and prosecutors' departments;

(3) Construct, equip, maintain, and operate necessary fire service training and education facilities. The board's authority to construct, equip, and maintain such facilities is subject to chapter 43.19 RCW;

(4) Purchase, lease, rent, or otherwise acquire real estate necessary to establish and operate fire service training and education facilities in the manner provided by law;

(5) Cooperate with the common schools, the community colleges, the institutions of higher education, and any department or division of the state or of any county or municipal corporation, in establishing and maintaining instruction in fire service training and education in accordance with any act of congress and legislation enacted by the legislature in pursuance thereof, and in establishing, building, and operating training and education facilities;

(6) Administer the funds provided by the federal government and by the state under any federal or state acts for the promotion of fire service training and education;

(7) Adopt and implement a state fire training and education master plan; and

(8) Establish a certification program for fire service personnel available to any state or local governmental agency which elects to participate.
Industrial fire departments and private fire investigators may participate in training and education programs under this chapter for a reasonable fee under rules established by the board.

NEW SECTION. Sec. 8. The state fire protection board shall sit as a board of appeals on the application of the state fire marshal’s regulations by the state fire marshal. When an affected person believes that the regulations are being applied incorrectly, the person may appeal the decision of the state fire marshal to the board. The board shall not consider an appeal unless the matter has come to the attention of the state fire marshal in writing and the state fire marshal has rendered a decision in writing. An appeal to the board shall be made by the affected person or the affected person’s agent in writing in the form and manner prescribed by the board. The decision of the board shall be binding on the state fire marshal.

Appeals to the board shall be conducted in accordance with chapter 34.04 RCW, the administrative procedure act.

NEW SECTION. Sec. 9. The board shall determine the qualifications of and appoint a director of fire protection, who shall receive a salary as fixed by the governor in accordance with RCW 43.03.040. The board may delegate to the director the powers and duties of the board described in sections 6 and 7 of this act.

NEW SECTION. Sec. 10. The director shall appoint and supervise:

1. An assistant director to serve as state fire marshal responsible for carrying out the duties prescribed by law to that office and any other duties assigned by the director;
2. An assistant director to serve as administrator of fire service training and education responsible for carrying out the duties prescribed in section 7 of this act and any other duties assigned by the director; and
3. All additional staff necessary to carry out functions under the board’s jurisdiction, including deputy state fire marshals and resident fire marshals who shall meet the minimum certification standards established by the board.

POINT OF ORDER

Senator Scott: "Mr. President, I would raise the question of scope and object on the amendment.

"As to scope, the bill is a very narrowly defined bill having to do with the state contracting with local agencies for fire protection in state-related buildings.

"This amendment broadens the bill several times over by rearranging the governance of the whole fire protection system state-wide, along the lines that Senator Vognild indicated, and I think that it enlarges the bill several times over."

RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the Point of Order raised by Senator Scott, the President finds that Substitute House Bill No. 203 is a measure which has as its only purpose the repeal of a statute which requires state agencies and institutions to contract with local governments for fire protection services.

"The amendment proposed by Senator Vognild makes a major change to state law by transferring the power for enforcement of the state's fire codes from the State Fire Marshal's Office to a newly created State Fire Protection Board.

"The President therefore finds that the proposed amendment does expand the scope and object of the bill and that the Point of Order is well taken."

The amendment by Senators Vognild and others was ruled out of order. On motion of Senator Scott, the rules were suspended, Substitute House Bill No. 203 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage. Debate ensued.
POINT OF INQUIRY

Senator Goltz: "Would Senator Craswell yield to a question?"
President Cherberg: "Senator Craswell declines."

POINT OF INQUIRY

Senator Goltz: "I am curious as to what the effect of initiative 62 is, if we have an obligation under the law, and then repeal the obligation. I just am puzzled, I guess, as to whether or not we haven't an initiative 62 issue in this bill? It seems to me that if we have an obligation by law in place, and require the state to pay for local government services, such as fire protection for state institutions located within those districts, and repeal the law, and if we still expect fire protection from those local government jurisdictions, that initiative 62 might take over where the law now is in place.

"And I am asking somebody if there is a point of law here that we should be concerned about?"

Senator Wilson: "Senator Goltz, I think the answer to your question, in all seriousness, is uncertain. Initiative 62 is very clear in saying that when the state mandates new programs for higher levels of service upon local government, it has an obligation to pay for them.

"Well, in a direct and simplistic sense, we are not doing either of those under terms of this bill. I think the question you posed underlines the desirability of passing a bill which clearly implements section 6 of initiative 62. That was one of the tasks we were unable to accomplish at this session, but I suggest the sooner we do that the better and the less uncertainty we will have in this body when questions such as the one you asked, come up."

ROLL CALL

The Secretary called the roll on the final passage of Substitute House Bill No. 203 and the bill failed to pass the Senate by the following vote: Yeas, 10; nays, 39.

SUBSTITUTE HOUSE BILL NO. 203, having failed to receive the constitutional majority, was declared lost.

MOTION

On motion of Senator Bottiger, Substitute House Bill No. 339 was made a special order of business for 10:00 p.m. this evening.

The bill was read the second time by sections.
On motion of Senator Scott, the committee amendment was adopted.
On motion of Senator Scott, the rules were suspended, Engrossed Substitute House Bill No. 561, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Hansen: "Senator Shinpoch, I notice in our Ag budget the money to run the department was deleted and the biggest part of the agriculture budget are user fees.

"Is this any way clarifying that it isn't a state obligation for the administration of the department could go back and be added to the industry for user fees in that department? Could that be included in this bill?"

Senator Shinpoch: "Not in any way that I am aware of. We do make provisions in this bill for things such as the commodity groups. The budget and accounting act will now cover nonappropriated funds not in the state treasury; but that does not count the commodities which are in the state treasury.

"As far as I know, they will continue to be appropriated or handled in the same manner they have always been handled. I do not know of anything that this would do and this is basically a reporting bill. I do not know anything that this would do that would impact that."

Senator Hansen: "I would hope not because I know our commodity groups are on that telephone to me every day, wanting to know, or run an amendment to some bill over here, anything I could hang it on, to take them out of the liability of the administration of the Ag department."

POINT OF INQUIRY

Senator Charnley: "Senator Shinpoch, one of the concerns I have on this type of legislation is that we are increasing at probably too fast a rate, the amount of paper work that is required and I notice here that it is in the digest; it says 'additional reports are required,' and in the upper part it says 'broadening the scope of the act' and so forth. Now I understand it is important that we want to keep a hand on these things but in your view, do you think that we are significantly increasing the paper work and therefore increasing the cost of these various agencies?"

Senator Shinpoch: "Senator Charnley, it would be my judgment that overall we will be significantly reducing total paper work.

"What we have done is set up a system whereby certain reports have to be made at certain times. If I could give you an example. Under the allotment procedure now, any time anyone overspends or underexpends, they simply come in with next month with an allotment that takes the remaining balance and spreads it over what it is to go; and this bill says that, 'Hey, you can't go back and rewrite history.' They go back to the front and their actuals become their estimate and one of the
things this says is that you cannot rewrite history, that whatever you estimated versus what you spent is going to be there. And we think it will stop agencies coming in every month and redoing their allotment because we have effectively said 'You know that is history and you are not going to rewrite it.'

"I think in the long run, once we get through this, I think it will tend to reduce paper work; and most of the checking is through the computer. The allotment process goes in and once it gets in, then we simply receive a tape from OFM into the LEAP system and we make all those checks."

POINT OF INQUIRY

Senator Guess: "Senator Shinpoch, I find something in here that says that the legislative transportation committee, the legislative evaluation and accountability program committee, and the office of the state actuary are added to the act. Now on the second page, and this is on page 18, it says 'The legislative budget committee, the legislative evaluation and accountability program committee, and the ways and means committee of the Senate and House of Representatives, shall coordinate their activities with the legislative transportation committee...' Now this is a strange type of language. How in the world can the legislative transportation committee be governed by all of those other committees?"

Senator Shinpoch: "It is my understanding, Senator Guess, that the legislative transportation committee, and we are running the check on the allotment through the LEAP system. And it is my understanding that the only time the legislative transportation committee gets involved is when you are dealing with transportation matters, and then they simply take the reports out of the LEAP system is my understanding of the manner in which that... The LEAP system is set up to do the monitoring; when we set up the LEAP system, we did two things, we set up a budgeting and analysis portion, and we set up an analysis portion. The portion that we have here is to, that we are talking about here, is to check, after the allotments have gone in, we are doing the monitoring and we have a system already set up to do that. This sets up, for those items dealing with transportation matters, and if I read it correctly, dealing with transportation matters only, then the LTC would get their reports out of the LEAP system dealing with that; that LEAP would, in effect, use their computer to crank out the reports for the LTC to do their monitoring."

"So the problem with that is that it goes ahead and says that it shall carry out its... duties under chapter 43.88... in matters relating to the transportation programs of the state."

"Now the transportation commission is charged with carrying out the transportation programs of the state of Washington, not the legislative transportation committee. Aren't you mixing apples and oranges here?"

Senator Shinpoch: "I guess I simply cannot answer that. The LTC, and I don't understand the LTC all that well; maybe Senator Scott understands that better than I do.

"I do not understand the LTC all that well, I can probably talk to you about everything else, but never did the transportation budget so I don't know what else LTC does. But it is my understanding that we are talking, that for that portion of lines 15 through 21 on page 18, that what we are talking about are the groups of people who will do the monitoring and that includes the LTC which will monitor the transportation people."

POINT OF INQUIRY

Senator Guess: "Senator Scott, this is introducing, the bill appears to me to be introducing matters that have never been before the legislature..."
Senator Scott: "Senator Guess, this bill is intended simply as a tracing and tracking mechanism and a definitional way of getting a lot of funds that have been nonappropriated funds that haven't had a lot of visibility in the state treasury in and accounted for in the system; and it is meant to be encompassing with the exception of the office of the SPI. It is not a control mechanism."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute House Bill No. 561, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 46; nays, 3.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 561, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 388, by House Committee on Appropriations—Human Services (originally sponsored by Representatives Houchen, Becker, Leonard, Heck, Garrett, Patrick, Barr, Gruger, Rinehart, Burns, Lux, Maxie, Valle, Sommers, Nelson (D.), Pruitt, Rust, Hine and Brekke) (by Governor Spellman request):
Authorizing local jail improvement and construction bonds.

REPORT OF STANDING COMMITTEE

April 13, 1981.

SUBSTITUTE HOUSE BILL NO. 388, authorizing local jail improvement and construction bonds (reported by Committee on Ways and Means):
MAJORITY recommendation: Do pass with the following amendment:
On page 3, following line 10, add a new section as follows:
"NEW SECTION. Sec. 8. (1) There is hereby reappropriated from the general fund—local jail improvement and construction account the sum of ninety-four million three hundred and two thousand two hundred and seventy dollars to the Washington state jail commission for the purposes of this act.
(2) There is hereby appropriated from the general fund—local jail improvement and construction account the sum of one hundred thirty million dollars, or so much as may be necessary, to the Washington state jail commission for the purposes of this act."
Renumber the remaining sections accordingly.
Signed by: Senators Scott, Chairman; Craswell, Vice Chairman; Bauer, Fleming, Gaspard, Haley, Hayner, Jones, Lee, Ridder, Wojahn, Zimmerman.
The bill was read the second time by sections.
Senator Scott moved adoption of the committee amendment.

POINT OF INQUIRY

Senator Talmadge: "Senator Scott, my concern is a very particular one. It was my belief that when we passed that bond issue previously, that King county was improperly left out in terms of the priority list. King county was the second priority and yet the jail commission bounced around and did not choose to fund the needs of the King county jail which is, in my judgment, the most pressing need in the state.
Can you assure us that, as a result of the passage of this bill, that the King county people will get sufficient moneys to go ahead with the renovation and improvement or replacement of the King county jail?"
Senator Scott: "Forty-six million dollars, Senator."

POINT OF INQUIRY

Senator Rasmussen: "Senator Scott, you said this was $224,000,000 more than, what was the amount of the last bond issue, 138 or 119?" Senator Scott: "This is a $130,000,000 additional, Senator, over the last one. The total is 224."
Senator Rasmussen: "Well, my question would be: are we able to give these prisoners all the comforts of home with this minor amount of money? I haven't seen any mention of conjugal visits in the county jail and some of these people, of course, are assigned to the county jail for periods, extended periods.
"It just seems to be in the public's mind that we are not properly taking care of the prisoners with their money, unless we provide these items. Now I don't think the majority of the public views it that way; somebody must. Are we taking care of that in this minor amount we are appropriating?"

Senator Scott: "Senator Rasmussen, I am not sure I know what you mean by 'taking care of that or this'..."

Senator Rasmussen: "Well, I mean all the comforts of home. Television room and so forth."

Senator Scott: "No, we are not, Senator; I assured myself by spending a half day in the King county jail about a year ago and if you think about what seventy-two square feet is, it is not a very big space. In terms of the King county jail which I think is the largest local jail in the state, you have people that are crowded together so that in a day room, they cannot exercise, they really do not have enough space between them so that they can read or even carry on a conversation without shouting at one another; and most of this money in the bill is allocated to renovation of the system to expansion to meet the basic standards that I quoted, and as you look across the jail commission statistics, you will find that those are a little bit above below average. We are not doing anything very fancy here."

Senator Rasmussen: "Well, that is open to question, but thank you for the answer."

The motion by Senator Scott carried and the committee amendment was adopted.

On motion of Senator Bauer, the following amendment by Senators Bauer, Deccio and Zimmerman was adopted:

On page 3, after line 10, insert a new section 9 as follows:

NEW SECTION. Sec. 9. It is the intent of the legislature that the construction and remodeling of jails proceed without further delay, and the jail commission's review and funding procedures are to reflect this intent. Neither the jail commission nor local governments should order or authorize capital expenditures to improve jails now in use which are scheduled for replacement. Capital expenditures which relate directly to life safety of inmates or jail personnel may be ordered."

Renumber the remaining sections accordingly.

On motion of Senator Scott, the following amendment to the title was adopted:

On page 1, line 5 of the title, after "sections;" insert "making an appropriation;"

On motion of Senator Scott, the rules were suspended, Substitute House Bill No. 388, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Goltz: "Senator Bauer, we passed your amendment but I have a question about it because it seems to me that the language in the second sentence which starts on line 3 saying, 'Neither the jail commission nor local government should order or authorize capital expenditures to improve jails now in use which are scheduled for replacement.'"

"My concern is that what you are doing in this language, is you are restricting what a local government might do with its own money and I suspect that you wanted the local government not to authorize any money from these bonds. First of all I would like to ask you, is that a correct assumption, that the local government money that we are referring to here, would be money provided for by the jail bonds and not other sources?"

Senator Bauer: "Well, it would be my understanding that the bonding money, and also, you will note, it talks about directly related to life safety of the inmate. So
that I would interpret as a pretty broad category in terms of utilization of those funds."

Senator Goltz: "I think then, Senator Bauer, your question satisfies me because I would not want this legislature to tell a local government that it could not make any capital expenditure to improve a jail which it now has in use, even if that jail is going to be demolished. There might very well be reasons that they would want to expend some of their own money to make improvements, even in a jail which is scheduled for demolition; and I think your answer satisfies me."

POINT OF INQUIRY

Senator Patterson: "Senator Scott, I have a little different problem. As I understand it, in the past practically all the city and county jails were built at the expense of the local jurisdiction; and I have a concern with this kind of money going in from the state, whether or not the counties or the local jurisdictions still have the authority to tell the state that they will not hold state prisoners. I do not know whether or not it is necessary to have law to this effect, but it seems to me if the state is going to fund to this magnitude, then the state ought to have some opportunity to hold some of the state prisoners in these local jails.

"And I just wondered whether you can respond to that."

Senator Scott: "Senator Patterson, about two weeks ago now, the state lost the suit in superior court wherein we were mandated to pay the food costs, not the capital costs and the operating costs, but the food costs of state prisoners in local jails. And I believe the limit on the number of days they can be held in local jails is sixty.

"There is $1.2 million dollars in the operating budget to pay that food allowance to the local jails through February of next year at which point we will be reviewing the whole matter again come January. That is where things sit."

Senator Patterson: "Well, just to continue, Senator Scott. The question I am asking is, once we put this kind of money into the improvement of the local jails, it seems to me that the state, at that point in time, should be able to ask those local jurisdictions to hold state prisoners in the event that we do not have the capacity if we are going to build them."

Senator Scott: "Well, Senator, that would require a code change from where we are. I suspect that perhaps the reverse is going to happen with the added capacity in the counties, in particular, will be back asking us for adding taxing authority in order to operate them, once they are enlarged."

ROLL CALL

The Secretary called the roll on the final passage of Substitute House Bill No. 388, as amended by the Senate, and the bill passed the Senate by the following vote:

Yeas, 47; nays, 2.

SUBSTITUTE HOUSE BILL NO. 388, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.
The time having arrived, the Senate commenced consideration of Substitute House Bill No. 339.

SECOND READING

The President declared the question before the Senate to be the roll call on the amendment by Senator Williams to the committee amendment.

On page 3, line 39, following the period, insert "For any revenue bond or warrant maturing in six years or less from the date of issuance, the operating agency may not issue additional revenue bonds or warrants to refund, exchange, convert or refinance such bonds in excess of the amount of principal reduced by the amount of interest on such bonds."

Debate ensued.

POINT OF INQUIRY

Senator Guess: "Senator Bottiger, if I get the impact of your amendment, then, it is that the money that they borrow, they will have to establish a sinking fund in order to pay the interest, is that not right?"

Senator Bottiger: "That is correct, Senator."

Senator Guess: "All right then. When do they start building the rates in order to build that sinking fund?"

Senator Bottiger: "You would have to have a rate increase to create enough money in the sinking fund when the interest came due on the bonds."

Further debate ensued.

Senator Ridder demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the amendment by Senators Bottiger and Williams to the committee amendment.

ROLL CALL

The Secretary called the roll and the amendment to the committee amendment was not adopted by the following vote: Yeas, 22; nays, 27.

Senator Talmadge moved adoption of the following amendment by Senators Talmadge, Quigg and Williams to the committee amendment:

On page 1, line 7 strike all the material beginning with "Section I" through "prescribe" on page 4 line 9 and insert:

"BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

NEW SECTION. Section 1. Unless the context clearly requires otherwise, the definitions in this section apply throughout sections 1 through 5 of this act.

(1) "Joint Operating agency" means a joint operating agency organized under this chapter, and any assignee of a joint operating agency.

(2) "Cost of construction" means the total cost of planning and building a nuclear electric generating facility and placing it into operation, including, but not limited to, planning cost, direct construction cost, cost of fuel inventory for the first year's operation, interest, and all other costs incurred prior to the first day of full operation, whether or not incurred prior to the effective date of this act.

(3) "Bond" means a revenue bond, a general obligation bond, or any other indebtedness issued by a joint operating agency.

NEW SECTION. Sec. 2. Every joint operating agency engaged in the construction of one or more nuclear electric generating facilities on the effective date of this act shall adopt and file with the state auditor by July 1, 1981, a projected total construction budget for completion of the nuclear electric generating facilities.

NEW SECTION. Sec. 3. (1) To determine compliance with sections 1 through 5 of this act, the state auditor shall monitor and periodically audit each joint operating agency engaged in the construction of one or more nuclear electric generating facilities on the effective date of this act. For each joint operating agency, an audit shall be completed at least annually by July 31st of each year of construction. As a part of the audit, the state auditor shall determine whether there is a substantial probability that construction of the facilities will be completed at the cost specified in the projected total construction budget submitted under sections 1 through 5 of this act.

(2) If the state auditor determines that there is sufficient evidence that a joint operating agency will not complete construction of the nuclear electric generating facilities within the projected total construction budget, the state auditor shall estimate, in consultation with the joint operating agency, the additional amount of funds, in excess of the previous projected total construction budget, that will be required to complete the construction. An authorization for expenditure of the additional funds shall be submitted to both house of the legislature. The joint operating agency shall not issue bonds in excess of the previous projected total construction budget unless it has first obtained approval for the additional funds by two-thirds majorities of both the senate and the house of representatives.
If the authorization for additional funds is approved by both houses of the legislature, this becomes the new projected total construction budget. If the authorization for additional funds is not approved by both houses of the legislature, the joint operating agency, in consultation with the state auditor, shall determine which of the nuclear electric generating facilities can actually be completed within the projected total construction budget. The joint operating agency shall then submit this plan for completion to the legislature for final approval.

NEW SECTION. Sec. 4. If a joint operating agency obtains authorization for the issuance of bonds under section 3 of this act, the joint operating agency shall not issue bonds in excess of the new projected total construction budget unless the joint operating agency again receives authorization under the procedures established in sections 1 through 3 of this act.

NEW SECTION. Sec. 5. The state auditor shall refer to the attorney general any evidence obtained by the state auditor indicating that a joint operating agency has failed to comply with sections 1 through 4 of this act. The attorney general shall seek appropriate relief to insure compliance, including injunctive relief.

Sec. 6. Section 43.52.3411, chapter 8, Laws of 1965 and RCW 43.52.3411 are each amended to read as follows:

For the purposes provided for in this chapter, an operating agency shall have power to issue revenue bonds or warrants payable from the revenues of the utility properties operated by it. Whenever the board of a joint operating agency shall deem it advisable to issue bonds or warrants to construct or acquire any public utility or any works, plants or facilities or any additions or betterments thereto or extensions thereof it shall provide therefor by resolution, which shall specify and adopt the system or plan proposed and declare the estimated cost thereof as near as may be. Such cost may include funds for working capital, for payment of expenses incurred in the acquisition or construction of the utility and for the repayment of advances made to the operating agency by any public utility district or city. Except as otherwise provided in RCW 43.52.343, all the provisions of law as now or hereafter in effect relating to revenue bonds or warrants of public utility districts shall apply to revenue bonds or warrants issued by the joint operating agency including, without limitation, provisions relating to: The creation of special funds and the pledging of revenues thereto; the time and place of payment of such bonds or warrants and the interest rate or rates thereon; the covenants that may be contained therein and the effect thereof; the execution, issuance, sale, funding, or refunding, redemption and registration of such bonds or warrants; and the status thereof as negotiable instruments, as legal securities for deposits of public moneys and as legal investments for trustees and other fiduciaries and for savings and loan associations, banks and insurance companies doing business in this state. The issuance and sale of bonds by a joint operating agency in the construction of a nuclear electric generating facility is subject to the procedures established by sections 1 through 5 of this 1981 act.

Sec. 7. Section 4, chapter 159, Laws of 1967 as amended by section 4, chapter 7, Laws of 1973 1st ex. sess. and RCW 54.44.040 are amended to read as follows:

Any such city, public utility district, or joint operating agency participating in common facilities under this chapter, without an election, may furnish money and provide property, both real and personal, issue and sell revenue bonds pledging revenues of its electric system and its interest or share of the revenues derived from the common facilities and any additions and betterments thereto in order to pay its respective share of the costs of the planning, financing, acquisition and construction thereof. Such bonds shall be issued under the provisions of applicable laws authorizing the issuance of revenue bonds for the acquisition and construction of electric public utility properties by cities, public utility districts, or joint operating agencies as the case may be. All moneys paid or property supplied by any such city, public
utility district, or joint operating agency for the purpose of carrying out the powers conferred herein are declared to be for a public purpose.

The issuance and sale of bonds by a joint operating agency in the construction of a nuclear electric generating facility is subject to the procedures established by sections 1 through 5 of this 1981 act.

NEW SECTION. Sec. 8. Sections 1 through 5 of this act are each added to chapter 43.52 RCW."

Renumber remaining sections consecutively.

POINT OF ORDER

Senator Gould: "Mr. President, I raise the question of scope and object on the amendment." There being no objection, at 10:45 p.m. the Senate was declared to be at ease. The President called the Senate to order at 11:15 p.m.

RULING BY THE PRESIDENT

President Cherberg: " Members of the Senate, in ruling upon the Point of Order raised by Senator Gould, the President finds that Substitute House Bill number 339 is a measure which relates to the financing of nuclear power plants operated by a joint operating agency, namely the Washington Public Power Supply System.

"The amendment proposed by Senators Talmadge, Quigg and Williams, among other items, requires joint operating agencies constructing nuclear power plants to file a budget with the state auditor and if expenditures exceed the budget, voter approval must be obtained for the added expenditures.

"The President therefore finds that the proposed amendment does expand the scope and object of the bill and the Point of Order is well taken."

The amendment by Senators Talmadge, Quigg and Williams to the committee amendment was ruled out of order.

PARLIAMENTARY INQUIRY

Senator Talmadge: "Mr. President, before we go on, I would like to raise a point of parliamentary inquiry.

"Mr. President, ruling on the Point of Order, you had ruled that the bill was outside of scope and object because there was a requirement that the budget of the Public Power Supply system be submitted to the voters.

"In talking to your counsel, I believe she was under the mistaken impression that it was the original Senate Bill 3510 that was at issue, rather than the substitute version which had nothing to do with the submission of the question to a vote of the people. It simply dealt with the question of the authority of the System to issue bonds and if there was a question, then the issue had to come back to the legislature for a vote of both Houses as to whether or not the bonds could be issued.

"I guess what I am saying, Mr. President, is I believe the ruling on the Point of Order related to, not the present amendment that is before the body, but the original Senate Bill 3510 which formed the basis, I guess, for the amendment."

Senator Williams moved adoption of the following amendment by Senators Williams and Moore to the committee amendment:

On page 9, following line 24, insert:

*NEW SECTION. Sec. 10. There is added to chapter 43.52 RCW a new section to read as follows:

Any municipal corporation, cooperative or mutual which has entered into a contract with an operating agency to participate in the construction or acquisition of an energy plant as defined in chapter 80.50 RCW shall annually adopt a plan for the repayment of its contractual share of any operating agency obligation which matures
prior to the planned operation of the plant. The manner of adoption of the plan shall be subject to the laws regarding approval of rates of the municipal corporation, cooperative or mutual.

The plan shall include the effect of the means of repayment on its financial condition, its customers' rates, its other contractual rights and obligations, and any other matter deemed useful by the participant.

Each such participating municipal corporation, cooperative or mutual shall include a statement of the extent of its contractual obligation to any operating agency in an annual financial report."

Renumber remaining sections consecutively.

MOTION

On motion of Senator Clarke, Substitute House Bill No. 339, together with the pending committee amendment and the amendment to the committee amendment by Senators Williams and Moore, and the Parliamentary Inquiry by Senator Talmadge, was ordered held for a Reply by the President.

President Pro Tempore Guess assumed the Chair.

MOTION

On motion of Senator Clarke, the Senate commenced consideration of Engrossed Second Substitute House Bill No. 440.

SECOND READING

Enacting the Sentencing Reform Act.

REPORT OF STANDING COMMITTEE

April 14, 1981.

ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 440, enacting the sentencing reform act (reported by Judiciary Committee):

MAJORITY recommendation: Do pass with the following amendments:

Strike everything after the enacting clause and insert:

"NEW SECTION. Section 1. The purpose of this chapter is to make the criminal justice system accountable to the public by developing a system for the sentencing of felony offenders which structures, but does not eliminate, discretionary decisions affecting sentences, and to add a new chapter to Title 9 RCW designed to:

1. Ensure that the punishment for a criminal offense is proportionate to the seriousness of the offense and the offender's criminal history;

2. Promote respect for the law by providing punishment which is just;

3. Be commensurate with the punishment imposed on others committing similar offenses;

4. Protect the public;

5. Offer the offender an opportunity to improve him or herself; and

6. Make frugal use of the state's resources.

NEW SECTION. Sec. 2. This chapter may be known and cited as the sentencing reform act of 1981."
NEW SECTION. Sec. 3. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Commission" means the sentencing guidelines commission.

(2) "Community supervision" means a period of time during which a convicted offender is subject to crime–related prohibitions and other sentence conditions imposed pursuant to this chapter by a court. For first-time offenders, the supervision may include crime–related prohibitions and other conditions imposed pursuant to section 12(4) of this act.

(3) "Confine ment" means total or partial confinement as defined in this section.

(4) "Conviction" means an adjudication of guilt pursuant to Titles 10 or 13 RCW.

(5) "Crime–related prohibition" means an order of a court prohibiting conduct which directly relates to the circumstances of the crime for which the offender has been convicted, and shall not be construed to mean orders directing an offender affirmatively to participate in rehabilitative programs or to otherwise perform affirmative conduct.

(6)(a) "Criminal history" means the list of a defendant's prior convictions, whether in this state, in federal court, or elsewhere. The history shall include, where known, for each conviction (i) whether the defendant has been placed on probation and the length and terms thereof; and (ii) whether the defendant has been incarcerated and the length of incarceration.

(b) "Criminal history" includes a defendant's convictions or pleas of guilty in juvenile court if: (i) The guilty plea or conviction was for an offense which is a felony and is criminal history as defined in RCW 13.40.020(6)(a); and (ii) the defendant was fifteen years of age or older at the time the offense was committed; and (iii) the defendant was twenty–three years of age or less at the time the offense for which he or she is being sentenced was committed.

(7) "Department" means the department of social and health services.

(8) "Determinate sentence" means a sentence which states with exactitude the number of actual years, months, or days of total confinement, of partial confinement, of community supervision, the number of actual hours or days of community service work, or dollars or terms of a fine or restitution. The fact that an offender through "earned early release" can reduce the actual period of confinement shall not affect the classification of the sentence as a determinate sentence.

(9) "Fines" means the requirement that the offender pay a specific sum of money over a specific period of time to the court.

(10) "First–time offender" means any person convicted of a felony not classified as a violent offense under this chapter, who previously has never been convicted of a felony in this state, federal court, or another state, and who has never participated in a program of deferred prosecution for a felony offense.

(11) "Offender" means a person who has committed a felony established by state law and is eighteen years of age or older or is less than eighteen years of age but whose case has been transferred by the appropriate juvenile court to a criminal court pursuant to RCW 13.40.110. Throughout this chapter, the terms "offender" and "defendant" are used interchangeably.

(12) "Partial confinement" means confinement for no more than one year in a facility or institution operated or utilized under contract by the state or any other unit of government, for a substantial portion of each day with the balance of the day spent in the community.

(13) "Restitution" means the requirement that the offender pay a specific sum of money over a specific period of time to the court as payment of damages. The sum may include both public and private costs. The imposition of a restitution order does not preclude civil redress.
(14) "Sentence range" means the sentencing court's discretionary range in imposing a nonappealable sentence.

(15) "Total confinement" means confinement inside the physical boundaries of a facility or institution operated or utilized under contract by the state or any other unit of government for twenty-four hours a day, or pursuant to RCW 72.64.050 and 72.64.060.

(16) "Violent offense" means:

(a) Any of the following felonies, as now existing or hereafter amended: Any felony defined under any law as a class A felony or an attempt to commit a class A felony, criminal solicitation of or criminal conspiracy to commit a class A felony, manslaughter in the first degree, manslaughter in the second degree, indecent liberties if committed by forcible compulsion, rape in the second degree, kidnapping in the second degree, arson in the second degree, assault in the second degree, extortion in the first degree, and robbery in the second degree;

(b) Any conviction for a felony offense in effect at any time prior to July 1, 1976, which is comparable to a felony classified as a violent offense in subsection (16)(a) of this section; and

(c) Any federal or out-of-state conviction for an offense comparable to a felony classified as a violent offense under subsection (16)(a) or (b) of this section.

NEW SECTION. Sec. 4. (1) A sentencing guidelines commission is established as an agency of state government.

(2) The commission shall, following a public hearing or hearings:

(a) Devise a series of recommended standard sentence ranges for all felony offenses and a system for determining which range of punishment applies to each offender based on the extent and nature of the offender's criminal history, if any;

(b) Devise recommended prosecuting standards in respect to charging of offenses and plea agreements; and

(c) Devise recommended standards to govern whether sentences are to be served consecutively or concurrently.

(3) Each of the commission's recommended standard sentence ranges shall include one or more of the following: Total confinement, partial confinement, community supervision, community service, and a fine.

(4) In devising the standard sentence ranges of total and partial confinement under this section, the commission is subject to the following limitations:

(a) If the maximum term in the range is one year or less, the minimum term in the range shall be no less than one-third of the maximum term in the range;

(b) If the maximum term in the range is greater than one year, the minimum term in the range shall be no less than seventy-five percent of the maximum term in the range; and

(c) The maximum term of confinement in a range may not exceed the statutory maximum for the crime as provided in RCW 9A.20.020.

(5) In carrying out its duties under subsection (2) of this section, the commission shall give consideration to the existing guidelines adopted by the association of superior court judges and the Washington association of prosecuting attorneys and the experience gained through use of those guidelines. The commission shall emphasize confinement for the violent offender and alternatives to total confinement for the nonviolent offender.

(6) This commission shall conduct a study to determine the capacity of correctional facilities and programs which are or will be available. While the commission need not consider such capacity in arriving at its recommendations, the commission shall project whether the implementation of its recommendations would result in exceeding such capacity. If the commission finds that this result would probably occur, then the commission shall prepare an additional list of standard sentences which shall be consistent with such capacity.
(7) By September 1, 1982, the commission shall recommend its standard sentence ranges and standards to the legislature by providing the recommendations to the chief clerk of the house of representatives and secretary of the senate. If the commission has prepared an additional list of standard sentence ranges, as provided under subsection (6) of this section, then the commission shall include such list along with its recommendations.

(8) Every two years, the commission may recommend to the legislature revisions or modifications to the standard sentence ranges and other standards. If implementation of the revisions or modifications would result in exceeding the capacity of correctional facilities, then the commission shall accompany its recommendation with an additional list of standard sentence ranges which are consistent with correction capacity.

(9) The commission shall study the existing criminal code and from time to time make recommendations to the legislature for modification.

(10) The commission shall exercise its duties under this section in conformity with chapter 34.04 RCW, as now existing or hereafter amended.

NEW SECTION. Sec. 5. The commission shall appoint a research staff of sufficient size and with sufficient resources to accomplish its duties. The commission may request from the office of financial management, the board of prison terms and paroles, administrator for the courts, and the department of social and health services such data, information, and data processing assistance as it may need to accomplish its duties, and such services shall be provided without cost to the commission. The commission shall adopt its own bylaws.

The salary for a full-time executive officer, if any, shall be fixed by the governor pursuant to RCW 43.03.040.

NEW SECTION. Sec. 6. (1) The commission consists of fifteen voting members, one of whom the governor shall designate as chairperson. With the exception of ex officio voting members, the voting members of the commission shall be appointed by the governor, subject to confirmation by the senate.

(2) The voting membership consists of the following:
(a) The head of the state agency having general responsibility for adult correction programs, as an ex officio member;
(b) The director of financial management, as an ex officio member;
(c) Until July 1, 1988, the chairman of the board of prison terms and paroles, as an ex officio member, and thereafter the chairman of the clemency and pardons board, as an ex officio member;
(d) Two prosecuting attorneys;
(e) Two attorneys with particular expertise in defense work;
(f) Four persons who are superior court judges;
(g) One person who is the chief law enforcement officer of a county or city;
(h) Three members of the public who are not and have never been prosecutors, attorneys, judges, or law enforcement officers.

In making the appointments, the governor shall seek the recommendations of Washington prosecutors in respect to the prosecuting attorney members, of the Washington state bar association in respect to the attorney members, of the association of superior court judges in respect to the members who are judges, and of the Washington association of sheriffs and police chiefs in respect to the member who is a law enforcement officer.

(3) All voting members of the commission, except ex officio voting members, shall serve terms of three years and until their successors are appointed and confirmed. However, the governor shall stagger the terms by appointing four of the initial members for terms of one year, four for terms of two years, and four for terms of three years.
(4) The speaker of the house of representatives and the president of the senate may each appoint two nonvoting members to the commission, one from each of the two largest caucuses in each house. The members so appointed shall serve two-year terms, or until they cease to be members of the house from which they were appointed, whichever occurs first.

(5) The members of the commission shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060 as now existing or hereafter amended. Legislative members shall be reimbursed by their respective houses as provided under RCW 44.04.120, as now existing or hereafter amended.

NEW SECTION. Sec. 7. (1) At its regular session convening in 1983, the legislature shall enact laws approving or modifying either the standards recommended by the commission, or the additional list of standard sentence ranges consistent with prison capacity in the event an additional list has been submitted pursuant to section 4(6) of this act. The standards so adopted shall take effect on July 1, 1984.

(2) Revisions or modifications of standard sentence ranges or other standards, together with any additional list of standard sentence ranges, shall be submitted to the legislature every two years and shall become effective as provided under subsection (1) of this section on July first of the year in which they are submitted.

NEW SECTION. Sec. 8. The prosecutor and the attorney for the defendant, or the defendant when acting pro se, may engage in discussions with a view toward reaching an agreement that, upon the entering of a plea to a charged offense or to a lesser or related offense, the prosecutor will do any of the following:

(1) Move for dismissal of other charges or counts;
(2) Recommend a particular sentence within the sentence range applicable to the offense or offenses to which the offender pled guilty;
(3) Recommend a particular sentence outside of the sentence range;
(4) Agree to file a particular charge or count;
(5) Agree not to file other charges or counts; or
(6) Make any other promise to the defendant, except that in no instance may the prosecutor agree not to allege prior convictions.

The court shall not participate in any discussions under this section.

NEW SECTION. Sec. 9. (1) If a plea agreement has been reached by the prosecutor and the defendant pursuant to section 8 of this act, they shall at the time of the defendant's plea state to the court, on the record, the nature of the agreement and the reasons for the agreement. The court, at the time of the plea, shall determine if the agreement is consistent with the interests of justice and with the prosecuting standards. If the court determines it is not consistent with the interests of justice and with the prosecuting standards, the court shall order that neither the defendant nor the prosecutor is bound by the agreement and that the defendant may withdraw the defendant's plea of guilty if one has been made and enter a plea of not guilty.

(2) The sentencing judge is not bound by any recommendations contained in an allowed plea agreement and the defendant shall be so informed at the time of plea.

NEW SECTION. Sec. 10. The prosecuting attorney and the defendant shall each provide the court with their understanding of what the defendant's criminal history is prior to a plea of guilty pursuant to a plea agreement. All disputed issues as to criminal history shall be decided at the sentencing hearing.

NEW SECTION. Sec. 11. Before imposing a sentence upon a defendant, the court shall conduct a sentencing hearing. The sentencing hearing shall be held within forty court days following conviction. Upon the motion of either party for good cause shown, or on its own motion, the court may extend the time period for conducting the sentencing hearing. The court shall consider the presentence reports and criminal history, and allow arguments from the prosecutor, the defense counsel, the offender, the victim or a representative of the victim, and an investigative law
enforcement officer as to the sentence to be imposed. If the court is satisfied by a preponderance of the evidence that the defendant has a criminal history, the court shall specify the convictions it has found to exist. All of this information shall be part of the record. All presentence reports presented to the sentencing court and all written findings of facts and conclusions of law entered by the court shall accompany the offender if the offender is committed to the custody of the department.

NEW SECTION. Sec. 12. When a person is convicted of a felony, the court shall impose punishment as provided in this section.

(1) Except as authorized in subsections (2) and (4) of this section, the court shall impose a sentence within the sentence range for the offense.

(2) The court may impose a sentence outside the standard sentence range for that offense if it finds that imposition of a sentence within the standard range would impose an excessive punishment on the defendant or would pose an unacceptable threat to community safety.

(3) Whenever a sentence outside the standard range is imposed, the court shall set forth the reasons for its decision in written findings of fact and conclusions of law. A sentence outside the standard range shall be a determinate sentence.

(4) In sentencing a first-time offender, the court may waive the imposition of a sentence within the sentence range and impose a sentence which may include up to ninety days of confinement in a facility operated or utilized under contract by the county and a requirement that the offender refrain from committing new offenses. The sentence may also include up to two years of community supervision, which, in addition to crime-related prohibitions, may include requirements that the offender:

(a) Devote time to a specific employment or occupation;
(b) Undergo available outpatient treatment or inpatient treatment not to exceed the standard range of confinement for that offense;
(c) Pursue a prescribed, secular course of study or vocational training;
(d) Remain within prescribed geographical boundaries and notify the court or the probation officer of any change in the offender’s address or employment;
(e) Report as directed to the court and a probation officer; or
(f) Pay a fine, make restitution, and/or accomplish some community service work.

(5) If a sentence range has not been established for the defendant’s crime, the court shall impose a determinate sentence which may include not more than one year of confinement, community service work, restitution, a term of community supervision not to exceed one year, and/or a fine. The court may impose a sentence which provides more than one year of confinement if the court finds that the sentence otherwise authorized by this subsection would pose an unacceptable threat to community safety.

(6) If the court imposes a sentence requiring confinement of sixty days or less, the court may, in its discretion, specify that the sentence be served on consecutive or intermittent days. A sentence requiring more than sixty days of confinement shall be served on consecutive days.

(7) If a sentence imposed includes a fine or restitution, the sentence shall specify a reasonable manner and time in which the fine or restitution shall be paid. No such period of time may exceed ten years subsequent to the entering of the judgment of conviction.

(8) A court may not impose a sentence which exceeds the statutory maximum for the crime as provided in RCW 9A.20.020.

NEW SECTION. Sec. 13. The power to defer or suspend the imposition or execution of sentence is hereby abolished in respect to sentences prescribed for felonies committed after June 30, 1984.

NEW SECTION. Sec. 14. (1) If restitution is ordered, the court shall determine the amount of restitution due at the sentencing hearing and may set the terms
and conditions under which the defendant shall make restitution. Restitution ordered by a court pursuant to a criminal conviction shall be limited to easily ascertainable damages for injury to or loss of property, actual expenses incurred for medical treatment for physical injury to persons, and lost wages resulting from physical injury. Restitution shall not include reimbursement for damages for mental anguish, pain and suffering, or other intangible losses. The amount of restitution shall not exceed double the amount of the offender's gain or the victim's loss from the commission of the crime. For the purposes of this section, the offender shall remain under the court's jurisdiction for a maximum term of ten years subsequent to the imposition of sentence.

(2) Restitution may be ordered whenever the offender is convicted of an offense which results in injury to any person or damage to or loss of property. In addition, restitution may be ordered to pay for an injury, loss, or damage if the offender pleads guilty to a lesser offense or fewer offenses and agrees with the prosecutor's recommendation that the offender be required to pay restitution to a victim of an offense or offenses which are not prosecuted pursuant to a plea agreement.

(3) In addition to any sentence that may be imposed, a defendant who has been found guilty of an offense involving fraud or other deceptive practice or an organization which has been found guilty of any such offense may be ordered by the sentencing court to give notice of the conviction to the class of persons or to the sector of the public affected by the conviction or financially interested in the subject matter of the offense by mail, by advertising in designated areas or through designated media, or by other appropriate means.

(4) This section does not limit civil remedies or defenses available to the victim or defendant.

NEW SECTION. Sec. 15. No person serving a sentence imposed pursuant to this chapter shall leave the confines of the correctional facility or be released prior to the expiration of the sentence except as follows:

(1) The terms of the sentence may be reduced by earned early release time in accordance with procedures developed and promulgated by the department. The earned early release time shall be for good behavior and good performance, as determined by the department. In no case shall the aggregate earned early release time exceed one-third of the sentence;

(2) An offender may leave a correctional facility pursuant to an authorized furlough or leave of absence. In addition, offenders may leave a correctional facility when in the custody of a corrections officer or officers;

(3) The governor, upon recommendation from the clemency and pardons board, may grant an extraordinary release for reasons of serious health problems, senility, advanced age, extraordinary meritorious acts, or other extraordinary circumstances;

(4) If the sentence of confinement is in excess of eighteen months but not in excess of three years, the final three months of the sentence shall be served in partial confinement designed to aid the offender in finding work and reestablishing him or herself in the community. If the sentence of confinement is in excess of three years, the final six months of the sentence shall be served in such partial confinement;

(5) The governor may pardon any offender; and

(6) The department of social and health services may release an offender from total confinement any time within ten days before a release date calculated under this section.

(7) An offender may leave a correctional facility prior to completion of his sentence if the sentence has been reduced as provided in section 16 of this act.

NEW SECTION. Sec. 16. If the governor finds that an emergency exists in that the population of a state residential correctional facility exceeds its reasonable, maximum capacity, then the governor may do any one or more of the following:
(1) Call the sentencing guidelines commission into an emergency meeting for the purpose of evaluating its standard ranges and other standards. The commission may adopt any revision or amendment to its standard ranges or other standards that it believes appropriate to deal with the emergency situation. The revision or amendment shall be adopted in conformity with chapter 34.04 RCW, as now existing or hereafter amended, and shall take effect on the date prescribed by the commission. Unless the commission provides to the contrary, section 7 of this act does not apply to such revision or amendments;

(2) If the emergency occurs prior to July 1, 1988, call the board of prison terms and paroles into an emergency meeting for the purpose of evaluating its guidelines and procedures for release of prisoners. The board may take any action authorized by law to modify the terms of prisoners under its jurisdiction;

(3) Call the clemency and pardons board into an emergency meeting for the purpose of recommending whether the governor's commutation or pardon power should be exercised to meet the present emergency.

NEW SECTION. Sec. 17. A term of confinement ordered in a sentence pursuant to this chapter shall be tolled by any period of time during which the offender has absented him or herself from supervision without the prior approval of the entity in whose custody the offender has been placed.

NEW SECTION. Sec. 18. An offender sentenced to a term of partial confinement shall be confined in the facility for at least eight hours per day. The offender shall be required as a condition of partial confinement to report to the facility at designated times. An offender may be required to comply with crime-related prohibitions during the period of partial confinement.

NEW SECTION. Sec. 19. A sentence which includes a term or terms of confinement totaling more than one year shall be served in a facility or institution operated, or utilized under contract, by the state. A sentence of not more than one year of confinement shall be served in a facility operated, or utilized under contract, by the county.

NEW SECTION. Sec. 20. (1) If an offender violates any condition or requirement of a sentence, the offender may receive further punishment in accordance with this section.

(2) If a defendant fails to comply with any of the requirements or conditions of a sentence the following provisions apply:

(a) The court, upon the motion of the state, or upon its own motion, shall require the defendant to show cause why the defendant should not be confined for the noncompliance. The court may issue a summons or a warrant of arrest for the defendant's appearance;

(b) The state has the burden of showing noncompliance by a preponderance of the evidence. The defendant has the burden of showing by a preponderance of the evidence that the noncompliance was not a wilful refusal. If the court finds that the violation was wilful, it shall order the defendant confined for a period not to exceed sixty days for each violation; and

(c) If the court finds that the violation was not wilful, the court may reduce or extend the payment period or eliminate the fine or reduce or relieve the defendant of the obligation of community service work or of making restitution.

(3) Nothing in this section prohibits the filing of escape charges if appropriate.

NEW SECTION. Sec. 21. (1) A sentence within the standard range for the offense shall not be appealed. For purposes of this section, a sentence imposed on a first offender under section 12(4) of this act shall also be deemed to be within the standard range for the offense and shall not be appealed.

(2) If a sentence is outside of the sentence range for the offense, the defendant or prosecutor may seek review of the sentence before the court of appeals in accordance with rules adopted by the supreme court.
(3) Pending review of the sentence, the sentencing court or the court of appeals may order the defendant confined or placed on conditional release, including bond.

(4) To reverse a sentence which is outside the sentence range, the reviewing court must find: (a) Either that the reasons supplied by the sentencing judge are not supported by the record which was before the judge or that those reasons do not justify a sentence outside the standard range for that offense; or (b) that the sentence imposed was clearly excessive or clearly too lenient.

(5) A review under this section shall be made solely upon the record that was before the sentencing court. Written briefs shall not be required and the review shall be heard within thirty days following the date of sentencing and a decision shall be rendered within fifteen days following the oral argument.

(6) The court of appeals shall issue a written opinion in support of its decision whenever the judgment of the sentencing court is reversed and may issue written opinions in any other case where the court believes that a written opinion would provide guidance to sentencing judges and others in implementing this chapter and in developing a common law of sentencing within the state.

NEW SECTION. Sec. 22. When an offender has completed the requirements of the offender's sentence, the sentencing court shall discharge the offender and provide the offender with a certificate of discharge. The discharge shall have the effect of restoring all civil rights lost by operation of law upon conviction, and the certificate of discharge shall so state. Nothing in this section prohibits the use of an offender's prior record for purposes of determining sentences for later offenses as provided in this chapter. Nothing in this section affects or prevents use of the offender's prior conviction in a later criminal prosecution either as an element of an offense or for impeachment purposes. A certificate of discharge is not based on a finding of rehabilitation.

Up on release from custody, the offender may apply to the department for counseling and help in adjusting to the community. This voluntary help may be provided for up to one year following the release from custody.

NEW SECTION. Sec. 23. (1) Every offender who has been discharged under section 22 of this act may apply to the sentencing court for a vacation of the offender's record of conviction. If the court finds the offender meets the tests prescribed in subsection (2) of this section, the court may clear the record of conviction by: (a) Permitting the offender to withdraw the offender's plea of guilty and to enter a plea of not guilty; or (b) if the offender has been convicted after a plea of not guilty, by the court setting aside the verdict of guilty; and (c) by the court dismissing the information or indictment against the offender.

(2) An offender may not have the record of conviction cleared if: (a) There are any criminal charges against the offender pending in any court of this state or another state, or in any federal court; (b) the offense was a violent offense as defined in section 3 of this act; (c) the offender has been convicted of a new crime in this state, another state, or federal court since the date of the offender's discharge under section 22 of this act; (d) the offense is a class B felony and less than ten years have passed since the date the applicant was discharged under section 22 of this act; and (e) the offense was a class C felony and less than five years have passed since the date the applicant was discharged under section 22 of this act.

(3) Once the court vacates a record of conviction under subsection (1) of this section, the fact that the offender has been convicted of the offense shall not be included in the offender's criminal history for purposes of determining a sentence in any subsequent conviction, and the offender shall be released from all penalties and disabilities resulting from the offense. For all purposes, including responding to questions on employment applications, an offender whose conviction has been vacated may state that the offender has never been convicted of that crime. Nothing
in this section affects or prevents the use of an offender's prior conviction in a later criminal prosecution.

**NEW SECTION.** Sec. 24. There is added to chapter 9.95 RCW a new section to read as follows:

1. On July 1, 1988, the board of prison terms and paroles shall cease to exist. Prior to that time, the board's membership shall be reduced as follows: (a) On July 1, 1985, the board shall be reduced to five members. This reduction shall take place by the expiration, on that date, of the two terms having the least time left to serve. (b) On July 1, 1986, the board shall be reduced to three members. This reduction shall take place by the expiration, on that date, of the two terms having the least time left to serve.

2. Prior to its expiration and after July 1, 1984, the board shall continue its functions with respect to persons incarcerated for crimes committed prior to July 1, 1984. The board shall consider the standard ranges and standards adopted pursuant to section 4 of this act, and shall attempt to make decisions reasonably consistent with those ranges and standards.

However, the governor shall stagger the terms by appointing one of the initial members for a term of one year, one for a term of two years, one for a term of three years, and two for terms of four years.

3. The board shall elect a chairman from among its members and shall adopt bylaws governing the operation of the board.

4. Members of the board shall receive no compensation but shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060 as now existing or hereafter amended.

5. The attorney general shall provide a staff as needed for the operation of the board.

Signed by: Senators Clarke, Chairman; Hemstad, Vice Chairman; Hayner, Hughes, Newhouse.

The bill was read the second time by sections.
Senator Hemstad moved adoption of the committee amendment.
Senator Clarke moved adoption of the following amendment by Senators Clarke and Pullen to the committee amendment:

On page 15, section 12, after subsection (3), add a new subsection and renumber the remaining subsections consecutively:
"(4) An offender convicted of the crime of murder in the first degree shall be sentenced to a term of total confinement not less than twenty years. An offender convicted of the crime of assault in the first degree where the offender used force or means likely to result in death or intended to kill the victim shall be sentenced to a term of total confinement not less than five years. An offender convicted of the crime of rape in the first degree shall be sentenced to a term of total confinement not less than three years, and shall not be eligible for furlough, work release or other authorized leave of absence from the correctional facility during such minimum three year term except for the purpose of commitment to an inpatient treatment facility. The foregoing minimum terms of total confinement are mandatory and shall not be varied or modified as provided in subsection (2) of this section."

Debate ensued.
Senator Jones demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the amendment by Senators Clarke and Pullen to the committee amendment.
ROLL CALL

The Secretary called the roll and the amendment to the committee amendment was adopted by the following vote: Yeas, 30; nays, 19.

Senator Pullen moved adoption of the following amendment to the committee amendment:

On page 31, after section 35, add a new section as follows and renumber the remaining sections accordingly:

"Sec. 36. Sec. 4, chapter 14, Laws of 1975 as last amended by section 1, chapter 244, Laws of 1979 and RCW 9A.44.040 are each amended to read as follows:

1. A person is guilty of rape in the first degree when such person engages in sexual intercourse with another person not married to the perpetrator by forcible compulsion where the perpetrator or an accessory:
   (a) Uses or threatens to use a deadly weapon; or
   (b) Kidnaps the victim; or
   (c) Inflicts serious physical injury; or
   (d) Feloniously enters into the building or vehicle where the victim is situated.

2. Rape in the first degree is a class A felony. (No person convicted of rape in the first degree shall be granted a deferred or suspended sentence except for the purpose of commitment to an inpatient treatment facility. PROVIDED, That every person convicted of rape in the first degree shall be confined for a minimum of three years. PROVIDED FURTHER, That the board of prison terms and paroles shall have authority to set a period of confinement greater than three years but shall never reduce the minimum three-year period of confinement nor shall the board release the convicted person during the first three years of confinement as a result of any type of automatic good time calculation nor shall the department of social and health services permit the convicted person to participate in any work release program or furlough program during the first three years of confinement.))"

POINT OF INQUIRY

Senator Goltz: "Senator Pullen, I notice it is impossible to amend an amendment to the amendment, but I notice that under subsection (1) you have included the word 'not married to the perpetrator' as part of the language. It was my impression that we passed somewhere in this legislature a law which actually makes it permissible for a spouse to charge rape against her husband; and this would be inconsistent with that law, would it not?"

Senator Pullen: "No, Senator Goltz, because that has not gone into law yet. That has just been a bill that has been making its way through the legislature and the proper way to technically handle such an amendment is to set forth the existing law as I have done so here.

"Eventually that law may be changed as you correctly indicated and at that time, the code reviser will take care of it."

POINT OF INQUIRY

Senator Talmadge: "Senator Pullen, it is late at night and we are looking through all this stricken language but I want to make sure that the language you
have stricken out does not mean that a person could not be confined at Western State Hospital in the sexual psychopathy program, for example."

Senator Pullen: "You don't have any need to fear that, Senator Talmadge, because of the Clarke/Pullen amendment which was just adopted a few minutes ago by a 30 to 19 vote. In there it specifically says that a person shall be eligible for commitment to an inpatient treatment facility if they have been convicted of rape in the first degree.

"So all we have done is transfer the language from one part of the RCW to the part that will be set forth in House Bill 440."

Senator Talmadge: "Just wanted to make sure."

The motion by Senator Pullen carried and the amendment to the committee amendment was adopted.

The President declared the question before the Senate to be adoption of the committee amendment as amended.

The motion by Senator Hemstad carried and the committee amendment, as amended, was adopted.

Senator Hemstad moved adoption of the committee amendment to the title.

On motion of Senator Pullen, the following amendment to the committee amendment to the title was adopted:

On page 1, line 4 of the title, after "9A.20.020;" insert "amending section 4, chapter 14, Laws of 1975 as last amended by section 1, chapter 244, Laws of 1979 and RCW 9A.44.040"

The motion by Senator Hemstad carried and the committee amendment to the title, as amended, was adopted.

On motion of Senator Hemstad, the rules were suspended, Engrossed Second Substitute House Bill No. 440, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Second Substitute House Bill No. 440, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 47; nays, 2.

ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 440, as amended by the Senate, Having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Clarke, the Senate commenced consideration of House Bill No. 697.

SECOND READING

HOUSE BILL NO. 697, by House Committee on Local Government and Representative Isaacson:

Modifying the application of the appearance of fairness doctrine.
HOUSE BILL NO. 697, modifying the application of the appearance of fairness doctrine (reported by Judiciary Committee):

MAJORITY recommendation: Do pass with the following amendment:

On page 1, line 4 strike everything after the enacting clause and insert the following:

"NEW SECTION. Section 1. There is added to chapter 42.04 RCW a new section to read as follows: The right to petition executive officials or members of legislative bodies of counties, cities, and towns shall not be limited by application of the appearance of fairness common law doctrine.

NEW SECTION. Sec. 2. There is added to chapter 42.04 RCW a new section to read as follows: No action taken by a municipal legislative body or its members shall be invalidated by application of the appearance of fairness doctrine unless it can be demonstrated by a preponderance of the evidence that the deliberative functions of the legislative body were substantially prejudiced by reason of the act or actions purported to form the basis of any appearance of fairness challenge."

Signed by: Senators Clarke, Chairman; Hemstad, Vice Chairman; Newhouse, Pullen, Shinpoch, Woody.

The bill was read the second time by sections.

Senator Newhouse moved adoption of the committee amendment.

On motion of Senator Shinpoch, the following amendments to the committee amendment were adopted:

In new section 2 of the committee amendment, line 5, after "demonstrated" strike "by a preponderance of the evidence"

In new section 2 of the committee amendment on line 7, after "were" strike "substantially"

There being no objection, an amendment by Senators McDermott and Talmadge to page 1, on the desk of the Secretary of the Senate, was withdrawn.

POINT OF INQUIRY

Senator Wilson: "Senator Newhouse, to take a purely hypothetical situation, if there were a town in eastern Washington where you and I come from, and the XYZ Manufacturing Company had a large plant there, and in fact substantially dominated the economy of the town; and five members of the city council, out of seven, for example, were employees of the company, and in making a final judgment on a zoning matter, a decision was rendered that would benefit the XYZ Manufacturing Company in one form or another. Now I think one could say that some citizens of the community might feel that there was a lack of an appearance of fairness in such a procedure.

"And my question is, what would those citizens have to do under terms of section 2 of this amendment to demonstrate their case? Or is there anything they could do?"

Senator Newhouse: "Senator Wilson, I believe that is probably beyond my legal capacity. I would say that if a town in eastern Washington is large enough to have seven council members, they are not a small town like you and I come from. I will defer to Senator Clarke."

REMARKS BY SENATOR CLARKE

Senator Clarke: "The reason for the bill, in reality, are various court decisions and which, in effect, have established what the courts believe to be an appearance of fairness; and under the circumstances which you outlined, if this bill were passed, I would have no doubt whatsoever in my own mind that a court would still say that
there was no appearance of fairness, because you have outlined a situation where the council members themselves actually held positions which, in effect, if they were acting in a quasi-judicial capacity as this bill is aimed at, they should be disqualified; in other words, a judge sitting on a matter which would affect him personally should be disqualified.

"The intent of this bill is simply to enable a discussion by people with the councilmen where the councilmen have no personal interest in it; but because of certain court decisions, there is an apprehension that since they sit in a quasi-judicial capacity, they cannot even discuss proposals.

"So I would have no doubt in my own mind that under the hypothetical that you set forth, that there would still be a disqualification."

The motion by Senator Newhouse carried and the committee amendment, as amended, was adopted.

On motion of Senator Newhouse, the rules were suspended, House Bill No. 697, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

STATEMENT FOR THE JOURNAL

April 14, 1981.

Dear Sir:

We are in receipt of your letter dated April 14, 1981, regarding the constitutional procedures applicable to the passage of certain gambling legislation now pending before the state legislature.

As you have noted, Article II, § 24 of the Washington Constitution provides that:

"... Lotteries shall be prohibited except as specifically authorized upon the affirmative vote of sixty percent of the members of each house of the legislature or, notwithstanding any other provision of this Constitution, by referendum or initiative approved by a sixty percent affirmative vote of the electors voting thereon."

Your questions, in turn, are as follows:

"1. Does the state constitution require a sixty percent majority of both houses of the legislature to tighten the gambling laws?

"2. What is the test to be used to determine whether a sixty percent vote is required?"

Although you have referred, generally, to legislation now pending, you have not identified any particular bills. It is entirely possible, however, that a given bill may contain a number of different amendments, some of which may well "tighten up" the existing statutes while others, within the same bill, could conceivably be viewed as authorizing gambling activities (lotteries) which are not now authorized. In that event the above-quoted constitutional provision would clearly apply, at least to the liberalizing, or authorizing, amendments.
If, however, no such liberalizing or authorizing amendments are contained in the particular bill and, instead, the only amendments contained therein would, if enacted, have the effect of restricting or prohibiting gambling activities which are now permitted, it would be our opinion that the super majority voting requirements of Article II, § 24, supra, would not be applicable. The legislature, by the passage of such a bill, would not be authorizing lotteries. Accordingly, only a simple constitutional majority of the members of both houses would be required to vote in favor of such a bill in order to obtain passage.

It is hoped that the foregoing explanation will be of assistance to you.

Very truly yours,

Signed, PHILIP H. AUSTIN
Deputy Attorney General.

Senator Gallaghan: "I would say to those in this chamber who do not know Mr. Tollefson and who have not worked for him, that Mr. T. is what I consider the epitome of the phrase 'Truly a gentleman.'

His loyalty and tenacity for what he believes in has always been unshakeable. His compassion for his fellow man disarms his opposition. His understanding and sound counsel to those of us who have been fortunate enough to have been his employee, will always endear us to him and him to us.

To those of us, such as I, who never knew a father, you served well as a surrogate.

"Mr. T., I stand here on this joyous occasion today because of your help and guidance during my initial political involvement in the state of Washington. Thank you again for being my campaign chairman, and in closing, on behalf of myself and your many, many friends, I say we love and appreciate you and I wish to extend a very special thanks to Miss Cynthia Jones who was instrumental in putting this whole package together.

"Joy to you and yours and thank you again, Thor."

REMARKS BY SENATOR CLARKE

Senator Clarke: "Thank you, Mr. President. I just wanted to briefly endorse the very excellent remarks by Senator Gallaghan, and Thor and Eva, it is very nice to have you here and we wish you well."

"May I present to you the Honorable Mr. Tollefson."

REMARKS BY HONORABLE THOR C. TOLLEFSON

Thor C. Tollefson: "Thank you very, very much."

"After I left the office of director of fisheries some six years ago, I used to come down to Olympia every once in a while to have lunch with my old staff, to reminisce and generally have a good time. That's what I thought I was going to do today. And now I learn that I am your guest. I am honored, indeed, at what you have done and what the resolution has said. I don't know that I merit all those fine things you have said about me in the resolution. Nevertheless, I shall cherish what it says and I shall remember this day as long as I shall live. Thank you."

PARLIAMENTARY INQUIRY

Senator Charnley: "I would like the chair to clarify for me, the amendment we are discussing says to strike section 6 of Senate committee amendment to the bill. Am I correct that, effectively, if this floor amendment is adopted it strikes the committee amendment, and should not, would it not be clear for us simply to debate the merits of the amendment itself?"

Senator Sellar: Mr. President, I believe we are on the first amendment. I believe Senator Bauer was talking to the second amendment."}

REPLY BY THE PRESIDENT

President Cherberg: "Senator Sellar, in reply to Senator Charnley, the President believes that Senator Charnley's remarks are well taken. Either vote the committee amendment up or down."

The committee amendment to page 6, line 16 was ruled to be in order.

Debate ensued.

The motion by Senator Sellar carried and the committee amendment was adopted.

Senator Sellar moved adoption of the committee amendment to page 14, line 8.

POINT OF INQUIRY

Senator Talmadge: "Senator Sellar, we are slipping through with that amendment pretty quickly. My concern was, for what reason did the insurance commissioner deem it necessary to have this authority to be able to suspend the need for filing the rates of various insurance companies?"

"It sounds suspiciously near to the provisions of House Bill 230, file and use."

Senator Sellar: "Actually, Senator, I do not believe that is true. As you know, the commissioner is against that. This just gives him broad authority to adopt rules, or suspend or modify the requirement. It does not eliminate the the requirement."

Senator Talmadge: "Did he state any specific need for this authority?"

Senator Clarke: "In answer to Senator Talmadge, if this is the amendment I think it is, there is a situation with respect, primarily, to inland marine types of policies, which are more or less unique in that they are more or less an item-by-item or risk-by-risk type of filing. It was found that the procedure of the industry has been not to file in advance those particular type of filings, because it is impractical to do so. It was found that a technical reading of the language requires the commissioner to have this prerequisite filing.

"This simply gives the commissioner authority in those instances where he feels that certain classes of policies should not need to be prefilled, he can waive it. He still retains the entire discretionary right but when the filing would serve no purpose as far as he is concerned, then this gives him authority to waive the filing."

Senator Talmadge: "Senator, could we make the language a little bit tighter, just to cover that line of insurance as opposed to the relatively broad language that
could enable an insurance commissioner, maybe not the present insurance commissioner, to waive the filing requirements for liability insurance, for example?"

Senator Clarke: "Well, the commissioner, under this amendment, has to make an affirmative finding. Frankly, quite a lot of effort was made to find a proper place in the code to put this amendment which would enable him to waive the filing for this particular type; and I think we made it just about as tight as we can, and certainly you and I both know that the commissioner is opposed to file and use and had no intention of creating a situation.

"Here he retains, actually, the ability to require the filing if he so desires."

The motion of Senator Sellar carried and the committee amendment to page 14, line 8 was adopted.

On motion of Senator Sellar, the remaining committee amendments were adopted.

On motion of Senator Clarke, the following amendments were considered and adopted simultaneously:

On page 16, line 30, strike "2" and insert "1".

On page 17, line 5, strike "2" and insert "1".

On motion of Senator Sellar, the committee amendments to the title were adopted.

(1) Within two years of the effective date of this act it shall recommend such advisory standards for the department as may be necessary to meet federal and state constitutional requirements relating to the health, safety, security, and welfare of inmates and staff or specific state or federal statutory requirements. It is the intent of the legislature that the advisory board give preference to the standards of the
United States department of justice and the Commission on Accreditation of Corrections in concert with the American Corrections Association and any other standards or proposals it finds appropriate. Whenever possible these standards should discourage duplication of services by the state and local governments.

(2) The secretary of corrections shall review the department of corrections' compliance with the advisory board's adopted standards. The standards shall be advisory only and may not be enforced by the board. All final standards shall be promulgated by the secretary of corrections. Each year after standards are adopted, the secretary of corrections shall report the degree of compliance to the governor and the legislature and whether the department has plans and schedules appropriate to meet the standards.

(3) The secretary of corrections shall review the development and functioning of the department's grievance procedures. The secretary of corrections shall visit and inspect each state correctional institution at least once a year to ensure compliance with department's standards and grievance procedures.

(4) The advisory board may recommend to the secretary of corrections advisory standards for the location, construction, and operation of all state correctional facilities and programs.

(5) The advisory board may recommend to the secretary of corrections the expenditure of public funds in a manner which recognizes and advances the board's standards.

(6) The secretary of corrections shall appoint an executive secretary to assist the advisory board in developing and reviewing the implementation of its standards. As authorized by the secretary of corrections, the executive secretary shall hire and supervise necessary staff to assist the board in carrying out its duties.

NEW SECTION. Sec. 20. In respect to local government facilities and programs, the corrections standards advisory board, commencing July 1, 1983, shall exercise the powers and duties of the state jail commission.

NEW SECTION. Sec. 21. (1) The corrections standards advisory board shall consist of nine voting members appointed by the governor with the consent of the senate. The secretary of corrections or his designee shall serve as an ex officio member without vote. In addition, the speaker of the house of representatives and the president of the senate shall each appoint two nonvoting members, one from each of the two largest caucuses in their respective houses.

(2) The voting members shall serve four-year staggered terms. No member may serve more than two consecutive terms. Of the voting members, initially one-third shall be appointed for two-year terms, one-third for three-year terms, and one-third for four-year terms. The legislative members shall serve two-year terms, but their membership shall terminate if they cease to be legislators.

(3) The voting membership of the board shall be divided so that two-thirds of the members reside west of the Cascade mountains and one-third reside east of the Cascade mountains. One-third of the members shall be elected county, city, or town officials, one-third shall be elected or appointed state officials or their designees, and one-third shall be private citizens. In 1983, the members appointed to take the positions of the persons previously appointed to the two-year terms provided under subsection (2) of this section shall have been members of the state jail commission as local government representatives on June 30, 1983. The board shall include women and members of "minority groups" as that term is commonly understood.

(4) The members of the board shall not receive any compensation for their services but shall be reimbursed for travel expenses under RCW 43.03.050 and 43.03-060 for nonlegislative members and under RCW 44.04.120 for legislative members, as now or hereafter amended.

(5) The members shall elect a chairman and such other officers as they deem necessary.

On page 13, line 21, after "programs" insert ": PROVIDED, That inmate labor shall not be used on public work projects outside the confines of correctional institutions that conflict with any competitive bid statute."
On page 17, line 12, after "amount" insert ": PROVIDED, That inmate labor shall not be used on public work projects outside the confines of correctional institutions that conflict with any competitive bid statute."

POINT OF INQUIRY

Senator Deccio: "Senator Pullen, would you state for the record, exactly how this amendment would implement or would impede the use of inmate labor as I think is the intent of the bill, the intent of the . . . ."

Senator Pullen: "I am sorry, I could not hear the question."

Senator Deccio: "Would you outline specifically how this amendment would affect the use of inmate labor?"

Senator Pullen: "This amendment would prohibit work on public works projects outside the confines of the correctional institution that conflict with any competitive bid statute. They certainly could do whatever work within the confines of the institution that they wanted to and there would not be any problem at all with any work within the confines of the institution."

POINT OF INQUIRY

Senator Woody: "Senator Pullen, by 'conflict with competitive bid statute,' Senator Pullen, what is meant by those words?"

Senator Pullen: "I do not have in front of me a listing of all the competitive bid statutes but I do know that there are some statutes on the books that would prohibit having inmates go outside the confines of the institution and compete directly with the private sector.

"And while I do not have in front of me the RCWs to cite, I can say that prisoners, under the terms of this amendment, would not be able to compete with the private sector outside the confines of the penal institution."

Senator Woody: "Senator Pullen, if we adopt this amendment without knowing the extent of the term 'compete with competitive bid statutes,' how will this amendment affect our work training program, and the honor farm program at Monroe?"

Senator Pullen: "It wouldn't affect those programs at all."

Debate ensued.

POINT OF INQUIRY

Senator Wilson: "Senator Pullen, the wording in these amendments, in part, says 'Public work projects that conflict with any competitive bid statute' and I do not see how a public work project can conflict with a competitive bid statute. I think what you are trying to say is something more like 'public work project to which competitive bid statutes are applicable.'

"But I am not sure and I am also not sure that the present wording is what you really intend."

Senator Pullen: "I think it is what is intended, but if you can hold this for five minutes, I think I can get that information to you."

Further debate ensued.

The motion by Senator Pullen failed and the amendments were not adopted on a rising vote.

Senator Pullen moved adoption of the following amendment:

On page 15, add a new section 12, as follows:

"NEW SECTION. Sec. 12. Notwithstanding any other provision of law, school districts, educational service districts, or any other state or local governmental agency concerned with education, when declaring texts and other books, equipment, ((instructional)) materials or relocatable facilities as surplus, shall, prior to other disposal thereof, serve notice in writing to the office of the state superintendent of public instruction and to any public school district or private school in Washington state annually requesting such a notice, that the same is available for sale, rent, or lease to public school districts or private schools, at depreciated cost or fair market value, whichever is greater: PROVIDED, That students wishing to purchase texts pursuant to RCW 28A.58.103(2) shall have priority as to such texts. 3) The board of directors of any school district desiring to sell surplus real

5) Any sale of school district real property authorized pursuant to this section

of real property of the district not needed for school purposes would be facilitated
and greater value realized through use of the services of licensed real estate brokers,

use of a licensed real estate broker will not eliminate the obligation of the board
of directors to provide the notice described in this section: PROVIDED FURTHER,
That the fee or commissions charged for any broker services shall not exceed seven
percent of the resulting sale value for a single parcel: PROVIDED FURTHER,

Signed by: Senators Kiskaddon, Chairman; Bottiger, Craswell, Gaspard, Hemstad, Lee, Scott, Talmadge, Wojahn.

The bill was read the second time by sections.

On motion of Senator Kiskaddon, the committee amendment was adopted.

On motion of Senator Kiskaddon, the rules were suspended, Engrossed House Bill No. 427, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Quigg: "Senator Kiskaddon, what happens to the funds generated by the sale of these buildings? Where do they go?"

Senator Kiskaddon: "That is really not a part of this bill. There is another bill coming up that actually deals with the sale of property and the funds, the building fund, and that is where these funds would go, really doesn't have any application to this bill."

Senator Quigg: "Thank you. Perhaps Senator Gould could . . . ."

Senator Gould: "In answer to Senator Quigg's question. Any surplus property which is real property goes directly into the building fund. It cannot go into maintenance and operation fund."

Senator Quigg: "At the district or state level?"

Senator Gould: "At the district, the district itself."

Senator Quigg: "In other words, timber sold in a timber district that builds a building in another district ends up staying in the district where the building was built. There is no way it could then be put into a state fund and then somehow returned back to a district where the timber was logged?"

Senator Gould: "If you are talking about timber that is under the jurisdiction of the natural resources, I can't tell you that."

Senator Quigg: "Thank you."

ROLL CALL

The Secretary called the roll on the final passage of Engrossed House Bill No. 427, as amended by the Senate, and the bill passed the Senate by the following vote:

Yeas, 44; nays, 3; excused, 2.

SECOND READING

HOUSE BILL NO. 244, by representatives Valle, Sanders, Brekke, Berleen, Fancher, McCormick, Addison and Lux:

Establishing liability for leaving a restaurant without paying.

The bill was read the second time by sections.

On motion of Senator Hemstad, the rules were suspended, House Bill No. 244 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Hemstad, maybe I am not reading this bill correct. If a minor child would go to McDonald's, order hamburgers, and then suddenly take off without paying for it, would that subject his parents to $100 up to $200 fine?"

Senator Hemstad: "Yes; he, however, could be prosecuted like or treated as a juvenile and treated within the juvenile offender system; but the simple answer to your question is 'yes.'"

POINT OF INQUIRY

Senator Talmadge: "Senator Hemstad, in our caucus, Senator Wilson I think, raised a very pertinent point and I would like your assurance on his subject.

"If a customer walks into a restaurant and was served a meal that was less than the quality nature, and the customer refused to pay for the meal because the meal was lousy, would the customer be subjected to liability under this section?"

Senator Hemstad: "He could certainly be pursued under it. His offense would be that he had not received consideration for, the kind of consideration that he had sought to purchase and therefore that would be his defense."

POINT OF INQUIRY

Senator Lysen: "Senator Hemstad, . . . you went in a restaurant and you went in . . . the food stamps being cut off now and people being more in need than ever if you read the papers because of the food banks . . . . a hungry person went in and just had a meal in a restaurant and then stayed there and then tried to sneak away and said 'I'll do the dishes or anything.' Could he still be prosecuted or would that be a defense?"

Senator Hemstad: "He theoretically probably could be prosecuted. The question is, I suppose, more pertinent as to whether he would be."
"What the bill does is make the stealing of food equivalent to shoplifting; and the question, I suppose, is, who should pay for that, the owner of the restaurant just as the owner of the five-and-dime store when a shoplifting occurs.

"It still translates into whether, in fact, the prosecution will take place in all of that translation... It would seem to me to be entirely appropriate bill."

POINT OF INQUIRY

Senator Wilson: "Senator Hemstad, I realize this is a consent bill. Senator Hemstad, will you compare for me the penalty under this bill for somebody who skips out from a ten dollar meal to the person who tries to shoplift a ten dollar item from a variety store."

Senator Hemstad: "I am sorry, would I compare the two?"

Senator Wilson: "Yes, the maximum penalties. Is this a higher penalty in relation to shoplifting an item of comparable value to a ten dollar meal, or a lesser penalty, or about the same level of penalty?"

Senator Hemstad: "The same level of penalty."

POINT OF INQUIRY

Senator Guess: "Senator Hemstad, the English grammar construction in this Senate bothers me very much, it is on page 2 of the bill. It says that 'The parent or legal guardian, having custody of an emancipated minor who orders a meal in a restaurant or other eating establishment...'. It seems to me that the parent or guardian is going to do the ordering of the meal."

Senator Hemstad: "I do not read it that way, Senator Guess."

ROLL CALL

The Secretary called the roll on the final passage of House Bill No. 244, and the bill passed the Senate by the following vote: Yeas, 25; nays, 23; absent or not voting, 1.

Absent or not voting: Senator von Reichbauer—1.

HOUSE BILL NO. 244, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

POINT OF INQUIRY

Senator Fleming: "Senator Clarke, do you have any idea how long Senator Scott has indicated to you the ways and means committee might go?"

Senator Clarke: "He hasn't indicated to me."

Senator Fleming: "My reason for asking, Senator Clarke, because last time we had ways and means right up to 7 o'clock and some of us did not get a chance to eat, and I am just wondering, is there some way we can, in the spirit of cooperation, do something about that? Senator Scott, you have a few words of wisdom?"

Senator Scott: "Senator, I think if the worst should happen, it would do wonders for your profile."
MOTION

At 5:31 p.m., on motion of Senator Clarke, the Senate recessed until 7:00 p.m. There being no objection, the Senate returned to the first order of business.

Senator Goltz: "Senator Hemstad, all I know about the Olympia project is what I read in the newspapers and what I read in the newspapers, as I recall, tells me that the original project which was the basis for the original funding of this bill, did not materialize and that in its place, the community committee is now recommending the possible purchase and renovation of an existing old theatre.

"And I would like to have a very brief description of the events that took place from the time of the original appropriation to this bill."
Senator Hemstad: "The original idea in Olympia was to build a new theatre on donated land in the west side of Olympia. Because of difficulties, both with potential traffic congestion and the location itself, the decision was made by the city to build, as required by the statute currently in place, to build a new theatre in downtown Olympia, rather than on the west side.

*After further public discussion and considerable planning, including a RUDAT study, to deal with the question of the larger issues of redevelopment of the Olympia area, it was concluded that an entirely new theatre would be too expensive and beyond the capacity of the community to fund.

*Therefore the decision was made to pursue the matter with the renovation of an older and potentially very attractive theatre at substantially less cost over all, and thereby also to save a theatre of some historic significance in the community."

Senator Goltz: "Senator Hemstad, has the city of Olympia fulfilled its commitment under the law, under the previous act, to provide the real estate necessary for this particular facility to be located on?"

Senator Hemstad: "The city had purchased property for the purposes intended in the act, or is in the process of doing so. Now the project is switched from that to the renovation of the theatre. The intention now will be to purchase that theatre, and options, I believe, have been taken on the property to do just that."

**REMARKS BY SENATOR WOJAHN**

Senator Wojahn: "Mr. President and members of the Senate and especially Senator Goltz.

*I think the bill has been cleaned up, Senator Goltz, so that the bonding cannot be provided until the city expends its share of the money, or the Federal government, or the people, and this simply permits them to do that.

*And we are busily trying to do it in Tacoma, also, and I appreciate the support from Senator Scott in assisting me, and also Senator Hemstad in getting the Pantages included, because apparently there was some misunderstanding about their being included in the bill.

*So I do not think there is a problem. They must come up with their share before the bonds are ever sold."

On page 15, line 30, strike all of subsection (2) and renumber the remaining subsection consecutively

Signed by: Senators Clarke, Chairman; Hayner, Newhouse, Pullen, Woody.

The bill was read the second time by sections.

On motion of Senator Talmadge, the committee amendments were adopted.

On motion of Senator Hemstad, the following amendment was adopted:

On page 5, after line 11, add the following subsection:

"(4) Upon receiving notice of special proceeding, the court may appoint counsel to assist the defendant's attorney where the court believes such assistance is required to provide the defendant an effective defense. Counsel appointed pursuant to this section shall have at least five years experience in criminal law in the state of Washington and shall be approved by the Criminal Law Section of the Washington State Bar Association, who shall maintain a list of attorneys qualified to represent criminal defendants subject to the sentence of death. The cost of counsel appointed pursuant to this section shall be borne by the state."

On page 16, line 3, after "carried out" strike "within the walls of the state penitentiary" and insert "publicly in the county in which the defendant was sentenced."

Debate ensued.

The motion by Senator Goltz failed and the amendment was not adopted.

MOTION FOR RECONSIDERATION

Having voted on the prevailing side, Senator Rasmussen moved that the Senate reconsider the vote by which the amendment by Senator Hemstad to page 5, line 11 was adopted.

Debate ensued.
POINT OF INQUIRY

Senator Deccio: "Senator Hemstad, what is the process used now when a defendant cannot afford an attorney, can you explain that to us?"

Senator Hemstad: "The current process will vary from one county to another depending upon the structure that exists in that county. If it is a county where private attorneys are appointed, they will tend to be attorneys with less experience unless they are willing on a pro bono basis to take this case because at least in the smaller counties, they tend not to be able to afford to pay for that kind of a defense.

"There are then legally created defense structures that are available for indigent defendants in some of the counties, such as King county. There is a different structure in Pierce county. So there are different kinds of systems in place in the state at the present time.

Senator Deccio: "Well, if I may continue, Mr. President.

"I guess the thing I was getting at, doesn't the judge, isn't the judge the one that appoints the attorney and if so, are we leaving it up to the judge to, in his judgment and knowledge, to appoint a properly experienced attorney to handle these kinds of cases?"

Senator Hemstad: "Yes."

Senator Deccio: "Well, I guess my next question would be, if that is the case we place a lot of faith in judges, why do we need this additional language in this bill in order to insure that a defendant gets the proper kind of legal representation?"

Senator Hemstad: "In order to attract sufficient number of experienced private attorneys who have the kind of skill and capacity to provide an effective representation."

Further debate ensued.

The motion by Senator Rasmussen to reconsider the amendment by Senator Hemstad failed.

Senator Goltz moved adoption of the following amendment:

On page 16, after line 3, insert:

"(4) The secretary of social and health services shall institute a system whereby a majority vote of the members of the house of representatives present and voting on its electric roll call machine will release the trap door of the gallows for any execution under subsection (1) of this section. The governor shall call a special legislative session for the purpose of the voting required under this subsection for each execution under subsection (1) of this section."

Debate ensued.

The motion by Senator Goltz failed and the amendment was not adopted.

Senator Fleming moved adoption of the following amendment:

On page 16, line 3, following "." insert a new subsection to read:

"(4) Upon application, a warden may permit photographs and silent television broadcasting of an execution under the following conditions:

(a) Permission shall have been first expressly granted by any defendant who is to be executed: PROVIDED, That such permission may be withdrawn at any time;

(b) The media personnel will not distract participants or impair the dignity of the proceedings;

(c) The media shall agree to provide prior warnings of the content of any broadcast of any execution conducted in Washington;

(d) No witness to the execution, or participant in the conduct of the execution who expresses any objection shall be photographed or have his image transmitted via the television broadcast."

Debate ensued.

The motion by Senator Fleming failed and the amendment was not adopted.
On motion of Senator Talmadge, the rules were suspended, Engrossed Substitute House Bill No. 76, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage. Debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute House Bill No. 76, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 33; nays, 15; absent or not voting, 1.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 250, by House Committee on Labor and Economic Development (originally sponsored by House Committee on Labor and Economic Development and Representatives Sanders, Eberle, Clayton, Smith, Hankins, Barrett, Patrick, Flanagan, Barr, Johnson and Wilson):

Exempting contractors employing subcontractors from industrial insurance requirements.

The bill was read the second time by sections.

On motion of Senator Quigg, the rules were suspended, Substitute House Bill No. 250 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Hansen: "Mr. President, ladies and gentlemen of the Senate.

"Last fall I had a telephone call from one of my constituents that was falling trees. He went to work for a logging outfit, the logging outfit says 'We'll make you subcontractors, and you will have to carry your own insurance.'

"So he went down to make application to pay, to carry insurance on himself through the department. The department, after questioning and finding out what it was, they turned around and went back to the timber outfit that hired him, and says he is nothing more or less than a hired hand to fall trees, 'so you are going to be responsible.'

"Is this bill going to let that forest man get away with this . . . ?"

Senator Quigg: "In response to the question by Senator Hansen, Senator, the language in the bill sets out the provisions, or the requirements that would have to be met for that subcontractor to qualify as a subcontractor and therefore be responsible for purchasing his or her own worker compensation coverage, or qualifying with the state for that coverage, and it sets out that they must maintain a separate set of books or records, they've got to have a principal place of business, you know, within the, let's see, 'have a principal place of business which shall be eligible for
business deduction for internal revenue service tax purposes, and in effect, be estab­lished as a employer.' And in the case of your constituent, it probably would be a good case made that in fact, he probably was more or less an employee of the person for whom he was doing that falling or whatever work he was doing in the forestry industry and was really not a subcontractor in the sense as set out in this bill.

"I think that this has to be something you have to judge on a case–by–case basis, but I do think the language of the bill speaks to that problem and would clarify it should that arise again in the future."

POINT OF INQUIRY

Senator Charnley: "Senator Hemstad, I always get a little nervous when I pick up a little brief housekeeping amendment and discover thirteen sections of law repealed.

"In this case I notice that all 1881 laws, so we are really going back, so could you just, in a few words, tell me what is it we are repealing here?"

Senator Hemstad: "Well, the repealers are found in the amendment. The problem there, the original laws, as you notice, go back into the 19th century, dealing with the mechanisms for disposition of property that has been left with a bailee. As I said, for all practical purposes that that law, archaic, is effectively useless; and the problem of proprietors, a typical example is a laundry or persons like that holding property for individuals, have no way to dispose, legally dispose of it in a practical way."
"The amendment resolves that problem, describes how they now will be able to dispose of the property if, after proper notice, the owner does not respond."

Senator Zimmerman moved adoption of the committee amendment to page 3, line 19.

POINT OF INQUIRY

Senator Rasmussen: "Senator Zimmerman, it was not quite clear to me, you indicated this is good for the cities, yet it is not good for the counties?"
Senator Zimmerman: "This is a particularly expansive amendment in the original form it came from the House. In the discussion of cities and counties, . . . would be particularly useful for cities, particularly cities of large size where they have a good deal of land which needs have some encouragement for in-city development; and that the short plat offers that opportunity.
However when you are outside the city limits and you are in the county, it becomes an abused means of subdividing in terms of short plat. It has been heavily abused in the past dozen years."
"Therefore we thought that it was not logical to give the counties the additional size as far as number of short plats."

The motion by Senator Zimmerman carried and the amendment was adopted. On motion of Senator Zimmerman, the remaining committee amendments were adopted.

Senator Williams moved adoption of the following amendment by Senators Williams, Gould and Bottiger:

On page 13, line 22, following "exist." insert a new section to read as follows:

"NEW SECTION. Sec. 15. Notwithstanding any other provision, counties may adopt the thermal efficiency and lighting code as promulgated by the Washington State Building Code Advisory Council. The amendatory provisions of this 1981 act shall not apply to any county which has not adopted such code."

Renumber the remaining sections consecutively.

Senator Bluechel: "Mr. President, I was going to raise the question of scope and object on the amendment, because it deals with the building codes for the... The basic bill itself deals with subdivision platting."

MOTION

On motion of Senator Clarke, Substitute House Bill No. 320, as amended, together with the pending amendment by Senators Williams, Gould and Bottiger and the Point of Order raised by Senator Bluechel, was ordered held for further consideration and a Ruling by the President.

NEW SECTION. Sec. 2. If a corporation plaintiff is represented by an attorney at law, legal paraprofessional or similarly trained person, the justice shall at the request of the defendant transfer the case to the regular civil docket. In the small claims department it shall not be necessary to summon witnesses, but the plaintiff and defendant in any claim shall have the privilege of offering evidence in their behalf by witnesses appearing at such hearing, and the justice may informally consult witnesses or otherwise investigate the controversy between the parties, and give judgment or make such orders as may by him be deemed to be right, just and equitable for the disposition of the controversy."

In any civil action commenced before or transferred to a justice court, the plaintiff shall, at the time of such commencement or transfer, pay to such court a filing fee of ((twelve)) twenty dollars to be used for the operation of the courts. Senator Hemstad moved adoption of the committee amendment to the title.

MOTION

On motion of Senator Ridder, Senators Gaspard, Hughes and Shinpoch were excused.

POINT OF INQUIRY

Senator Patterson: "Senator Talmadge, I am looking at the amendment that we just adopted, an amendment to the amendment, which increased the filing fee from $12 to $20. Now what I would like to know, do you consider this to be a tax increase or users fee?"

Senator Talmadge: "Senator, I think it is pretty explicitly a users fee because the problem that is being experienced is the people who are using the judicial computer, the JIS system, are finding that they need the money for the use of that computer system, and additionally, there are some people out there, who, in the court system, are trying to make the courts of limited jurisdiction courts of record.

"So the counties are telling us they need this in order to have a better administration of justice, and all the people in the judicial system are definitely using this kind of thing.

"I think it would be helpful."

POINT OF INQUIRY

Senator Newhouse: "Senator Talmadge, I see no language in here which applies this increase to the JIS, the informational system, which I understand would greatly help the county costs and I am concerned that we are going to give the counties more money, save them money and be paying for the information system from state funds. Can you assure me that this $8.00 will be used to fund the judicial information system?"

Senator Talmadge: "Senator Newhouse, my understanding is House Bill 590 came over from the House with this identical increase from $12.00 to $20.00, and my assumption is that it will be used not only for JIS but for making the courts of limited jurisdictions courts of record, as I know you worked so hard for in the House."

ROLL CALL

The Secretary called the roll on the final passage of Substitute House Bill No. 601, as amended by the Senate, and the bill passed the Senate by the following vote:

Yeas, 40; nays, 4; absent or not voting, 2; excused, 3.

Absent or not voting: Senators Bottiger, Pullen—2.

ONE HUNDRED-FIRST DAY, APRIL 22, 1981

SUBSTITUTE HOUSE BILL NO. 601, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Clarke, the Senate returned to the fourth order of business.

NEW SECTION. Sec. 3. PUBLIC CORPORATIONS—CREATION, DISSOLUTION. (1) For the purpose of facilitating economic development and employment opportunities in the state of Washington through the financing of the project costs of industrial development facilities, a municipality may enact an ordinance creating a public corporation for the purposes authorized in this chapter. The ordinance creating the public corporation shall approve a charter for the public corporation containing such provisions as are authorized by and not in conflict with this chapter. Any charter issued under this chapter shall contain in substance the limitations set forth in section 6 of this act. In any suit, action, or proceeding involving the validity or enforcement of or relating to any contract of the public corporation, the public corporation is conclusively presumed to be established and authorized to transact business and exercise its powers under this chapter upon proof of the adoption of the ordinance creating the public corporation by the governing body. A copy of the ordinance duly certified by the clerk of the governing body of the municipality shall be admissible in evidence in any suit, action, or proceeding.

(2) A public corporation created by a municipality pursuant to this chapter may be dissolved by the municipality if the public corporation: (a) Has no property to administer, other than funds or property, if any, to be paid or transferred to the municipality by which it was established; and (b) all its outstanding obligations have been satisfied. Such a dissolution shall be accomplished by the governing body of the municipality adopting an ordinance providing for the dissolution.

(3) The creating municipality may, at its discretion and at any time, alter or change the structure, organizational programs, or activities of a public corporation, including termination of the public corporation if contracts entered into by the public corporation are not impaired. Any net earnings of a public corporation, beyond those necessary for retirement of indebtedness incurred by it, shall not inure to the benefit of any person other than the creating municipality. Upon dissolution of a public corporation, title to all property owned by the public corporation shall vest in the municipality.

NEW SECTION. Sec. 4. BOARD OF DIRECTORS OF PUBLIC CORPORATION. The ordinance creating a public corporation shall include provisions establishing a board of directors to govern the affairs of the public corporation, what constitutes a quorum of the board of directors, and how the public corporation shall conduct its affairs.

NEW SECTION. Sec. 5. PUBLIC CORPORATIONS—DIRECTORS. It shall be illegal for a director, officer, agent, or employee of a public corporation to have, directly or indirectly, any financial interest in any property to be included in or any contract for property, services, or materials to be furnished or used in connection with any industrial development facility financed through the public corporation. Violation of any provision of this section is a gross misdemeanor.

NEW SECTION. Sec. 6. PUBLIC CORPORATIONS—LIMITATIONS. No municipality may give or lend any money or property in aid of a public corporation. The municipality that creates a public corporation shall annually review any financial statements of the public corporation and at all times shall have access to the books and records of the public corporation. No public corporation may issue
revenue obligations under this chapter except upon the approval of both the municipality under the auspices of which it was created and the county, city, or town within whose planning jurisdiction the proposed industrial development facility lies. No revenue bonds may be issued pursuant to this chapter unless the board of directors of the public corporation proposing to issue revenue bonds makes a finding that in its opinion the interest paid on the bonds will be exempt from income taxation by the federal government. Revenue bonds issued by a public corporation under this chapter shall not be considered to constitute a debt of the state, of the municipality, or of any other municipal corporation, quasi municipal corporation, subdivision, or agency of this state or to pledge any or all of the faith and credit of any of these entities. The revenue bonds shall be payable solely from both the revenues derived as a result of the industrial development facilities funded by the revenue bonds, including, without limitation, amounts received under the terms of any financing document or by reason of any additional security furnished by the user of the industrial development facility in connection with the financing thereof, and money and other property received from private sources. Each revenue bond shall contain on its face statements to the effect that: (1) Neither the state, the municipality, or any other municipal corporation, quasi municipal corporation, subdivision, or agency of the state is obligated to pay the principal or the interest thereon; (2) no tax funds or governmental revenue may be used to pay the principal or interest thereon; and (3) neither any or all of the faith and credit nor the taxing power of the state, the municipality, or any other municipal corporation, quasi municipal corporation, subdivision, or agency thereof is pledged to the payment of the principal of or the interest on the revenue bond. A public corporation may incur only those financial obligations which will be paid from revenues received pursuant to financing documents, from fees or charges paid by users or prospective users of the industrial development facilities funded by the revenue bonds, or from the proceeds of revenue bonds. A public corporation established under the terms of this chapter constitutes an authority and an instrumentality (within the meaning of those terms in the regulations of the United States treasury and the rulings of the Internal Revenue Service prescribed pursuant to section 103 of the Internal Revenue Code of 1954, as amended) and may act on behalf of the municipality under whose auspices it is created for the specific public purposes authorized by this chapter. The public corporation is not a municipal corporation within the meaning of the state Constitution and the laws of the state, or a political subdivision within the meaning of the state Constitution and the laws of the state, including without limitation, Article VIII, section 7, of the Washington state Constitution. A municipality shall not delegate to a public corporation any of the municipality's attributes of sovereignty, including, without limitation, the power to tax, the power of eminent domain, and the police power.

**NEW SECTION.** Sec. 7. PUBLIC CORPORATIONS—AUDIT BY STATE. The finances of any public corporation are subject to examination by the state auditor's office pursuant to RCW 43.09.260.

**NEW SECTION.** Sec. 8. PUBLIC CORPORATIONS—POWERS. (1) A public corporation created under this chapter has the following powers with respect to industrial development facilities together with all powers incidental thereto or necessary for the performance thereof:

(a) To construct and maintain one or more industrial development facilities;

(b) To lease to a lessee all or any part of any industrial development facility for such rentals and upon such terms and conditions, including options to purchase, as its board of directors considers advisable and not in conflict with this chapter;

(c) To sell by installment contract or otherwise and convey all or any part of any industrial development facility for such purchase price and upon such terms and conditions as its board of directors considers advisable which are not in conflict with this chapter;
(d) To make secured loans for the purpose of providing temporary or permanent financing or refinancing of all or part of the project cost of any industrial development facility, including the refunding of any outstanding obligations, mortgages, or advances issued, made, or given by any person for the project costs; and to charge and collect interest on the loans for the loan payments upon such terms and conditions as its board of directors considers advisable which are not in conflict with this chapter;

(e) To issue revenue bonds for the purpose of financing all or part of the project cost of any industrial development facility and to secure the payment of the revenue bonds as provided in this chapter;

(f) As security for the payment of the principal and interest on any revenue bonds issued and any agreements made in connection therewith, to mortgage, pledge, or otherwise encumber any or all of its industrial development facilities or any part or parts thereof, whether then owned or thereafter acquired, and to assign any mortgage and repledge any security conveyed to the public corporation, to secure any loan made by the public corporation and to pledge the revenues and receipts therefrom;

(g) To sue and be sued, complain, and defend in its corporate name;

(h) To make contracts and to execute all instruments necessary or convenient for the carrying out of its business;

(i) To have a corporate seal and to use the same by causing it, or a facsimile thereof, to be impressed or affixed or in any other manner reproduced;

(j) Subject to the limitations of section 6 of this act, to borrow money, accept grants from, or contract with any local, state, or federal governmental agency or with any financial, public, or private corporation;

(k) To make and alter bylaws not inconsistent with its charter for the administration and regulation of the affairs of the corporation;

(l) To collect fees or charges from users or prospective users of industrial development facilities to recover actual or anticipated administrative costs;

(m) To execute financing documents incidental to the powers enumerated in this subsection.

(2) No public corporation created under this chapter may operate any industrial development facility as a business other than as lessor, seller, or lender. The purchase and holding of mortgages, deeds of trust, or other security interests and contracting for any servicing thereof is not considered the operation of an industrial development facility.

(3) No public corporation may exercise any of the powers authorized in this section or issue any revenue bonds with respect to any industrial development facility unless the industrial development facility is located wholly within the boundaries of the municipality under whose auspices the public corporation is created or unless the industrial development facility comprises energy facilities or solid waste disposal facilities which provide energy for or dispose of solid waste from the municipality or the residents thereof.

NEW SECTION. Sec. 9. REPORTING TO THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT. (1) Prior to issuance of any revenue bonds, each public corporation shall submit a copy of its enabling ordinance and charter, a description of any industrial development facility proposed to be undertaken, and the basis for its qualification as an industrial development facility to the department of commerce and economic development.

(2) If the industrial development facility is not eligible under this chapter, the department of commerce and economic development shall give notice to the public corporation, in writing and by certified mail, within twelve working days of receipt of the description.
(3) The department of commerce and economic development shall report annually to the legislature and the governor on the amount of capital investment undertaken under this chapter and the amount of permanent employment reasonably related to the existence of such industrial development facilities.

(4) The department of commerce and economic development shall provide such advice and assistance to public corporations and municipalities which have created or may wish to create public corporations as the public corporations or municipalities request and the department of commerce and economic development considers appropriate.

NEW SECTION. Sec. 10. REVENUE BONDS—PROVISIONS. (1) The principal of and the interest on any revenue bonds issued by a public corporation shall be payable solely from the funds provided for this payment from the revenues of the industrial development facilities funded by the revenue bonds. Each issue of revenue bonds shall be dated, shall bear interest at such rate or rates, and shall mature at such time or times as may be determined by the board of directors, and may be made redeemable before maturity at such price or prices and under such terms and conditions as may be fixed by the board of directors prior to the issuance of the revenue bonds or other revenue obligations.

(2) The board of directors shall determine the form and the manner of execution of the revenue bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the revenue bonds and the place or places of payment of principal and interest. If any officer whose signature or a facsimile of whose signature appears on any revenue bonds or coupons ceases to be an officer before the delivery of the revenue bonds, the signature shall for all purposes have the same effect as if he had remained in office until delivery. The revenue bonds may be issued in coupon or in registered form or both as the board of directors may determine, and provisions may be made for the registration of any coupon revenue bonds as to the principal alone and also as to both principal and interest and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. A public corporation may sell revenue bonds at public or private sale for such price and bearing interest at such fixed or variable rate as may be determined by the board of directors.

(3) The proceeds of the revenue bonds of each issue shall be used solely for the payment of all or part of the project cost of or for the making of a loan in the amount of all or part of the project cost of the industrial development facility for which authorized and shall be disbursed in such manner and under such restrictions, if any, provided in the resolution authorizing the issuance of the revenue bonds or in the trust agreement securing the bonds. If the proceeds of the revenue bonds of any series issued with respect to the cost of any industrial development facility exceeds the cost of the industrial development facility for which issued, the surplus shall be deposited to the credit of the debt service fund for the revenue bonds or used to purchase revenue bonds in the open market.

(4) A public corporation may issue interim notes in the manner provided for the issuance of revenue bonds to fund industrial development facilities prior to issuing other revenue bonds to fund such facilities. A public corporation may issue revenue bonds to fund industrial development facilities that are exchangeable for other revenue bonds when these other revenue bonds are executed and available for delivery.

(5) The principal of and interest on any revenue bonds issued by a public corporation shall be secured by a pledge of unexpended bond proceeds and the revenues and receipts received by the public corporation from the industrial development facilities funded by the revenue bonds pursuant to financing documents. The resolution under which the revenue bonds are authorized to be issued and any financing document may contain agreements and provisions respecting the maintenance or use
of the industrial development facility covered thereby, the fixing and collection of
rents, purchase price payments or loan payments, the creation and maintenance of
special funds from such revenues or from revenue bond proceeds, the rights and
remedies available in the event of default, and other provisions relating to the secu-
ritv for the bonds, all as the board of directors consider advisable which are not in
conflict with this chapter.

(6) The governing body of the municipality under whose auspices the public
corporation is created shall approve by resolution any agreement to issue revenue
bonds adopted by a public corporation, which agreement and resolution shall set out
the amount and purpose of the revenue bonds. Additionally, no issue of revenue
bonds, including refunding bonds, may be sold and delivered by a public corporation
without a resolution of the governing body of the municipality under whose auspices
the public corporation is created, adopted no more than sixty days before the date of
sale of the revenue bonds specifically, approving the resolution of the public corpo-
ration providing for the issuance of the revenue bonds.

(7) All revenue bonds issued under this chapter and all interest coupons appli-
cable thereeto are negotiable instruments within the meaning of Article 8 of the Uni-
form Commercial Code, Title 62A RCW, regardless of form or character.

NEW SECTION. Sec. 11. REVENUE BONDS—REFUNDING. Each
public corporation may provide by resolution for the issuance of revenue refunding
bonds for the purpose of refunding any revenue bonds issued for an industrial devel-
opment facility under this chapter, including the payment of any redemption pre-
mium thereon and any interest accrued or to accrue to the date of redemption or
maturity of the revenue bonds and, if considered advisable by the public corporation,
for the additional purpose of financing improvements, extensions, or enlargements to
the industrial development facility for another industrial development facility. The
issuance of the revenue bonds, the maturities and other details thereof, the rights
of the holders thereof, and the rights, duties, and obligations of the public corporation
in respect to the same shall be governed by this chapter insofar as applicable.

NEW SECTION. Sec. 12. TRUST AGREEMENTS. Any bonds issued under
this chapter may be secured by a trust agreement between the public corporation
and a corporate trustee, which may be any trust company or bank having the powers
of a trust company within or without the state. The trust agreement may evidence a
pledge or assignment of the financing documents and lease, sale, or loan revenues to
be received from a lessee or purchaser of or borrower with respect to an industrial
development facility for the payment of principal of and interest and any premium
on the bonds as the same shall become due and payable and may provide for cre-
ation and maintenance of reserves for these purposes. A trust agreement or resolu-
tion providing for the issuance of the revenue bonds may contain such provisions for
protecting and enforcing the rights and remedies of the bondholders as may be rea-
sonable and proper and not in violation of law, including covenants setting forth the
duties in relation to the acquisition of property and the construction, improvement,
maintenance, use, repair, operation, and insurance of the industrial development
facility for which the bonds are authorized, and the custody, safeguarding, and
application of all money. Any bank or trust company incorporated under the laws of
the state which may act as depository of the proceeds of revenue bonds or of reve-
nues may furnish such indemnifying bonds or pledge such securities as may be
required by the corporation. A trust agreement may set forth the rights and reme-
dies of the bondholders and of the trustee and may restrict the individual right of
action by bondholders as is customary in trust agreements or trust indentures secur-
ing bonds and debentures of private corporations. In addition, a trust agreement
may contain such provisions as the public corporation considers reasonable and
proper for the security of the bondholders which are not in conflict with this chapter.
NEW SECTION. Sec. 13. COMMINGLING OF BOND PROCEEDS OR REVENUES WITH MUNICIPAL FUNDS PROHIBITED. No part of the proceeds received from the sale of any revenue bonds under this chapter, of any revenues derived from any industrial development facility acquired or held under this chapter, or of any interest realized on moneys received under this chapter may be commingled by the public corporation with funds of the municipality creating the public corporation.

NEW SECTION. Sec. 14. SUBLEASES AND ASSIGNMENTS. A lessee or contracting party under a sale contract or loan agreement shall not be required to be the eventual user of an industrial development facility if any sublessee or assignee assumes all of the obligations of the lessee or contracting party under the lease, sale contract, or loan agreement, but the lessee or contracting party or their successors shall remain primarily liable for all of its obligations under the lease, sale contract, or loan agreement and the use of the industrial development facility shall be consistent with the purposes of this chapter.

NEW SECTION. Sec. 15. DETERMINATION OF RENT. Before entering into a lease, sale contract, or loan agreement with respect to any industrial development facility, the public corporation shall determine that there are sufficient revenues to pay (1) the principal of and the interest on the revenue bonds proposed to be issued to finance the industrial development facility; (2) the amount necessary to be paid each year into any reserve funds which the public corporation considers advisable to establish in connection with the retirement of the proposed bonds and the maintenance of the industrial development facility; and (3) unless the terms of the lease, sale contract, or loan agreement provide that the lessee or contracting party shall maintain the industrial development facility and carry all proper insurance with respect thereto, the estimated cost of maintaining the industrial development facility in good repair and keeping it properly insured.

NEW SECTION. Sec. 16. PROCEEDINGS IN THE EVENT OF DEFAULT. The proceedings authorizing any revenue bonds under this chapter or any financing document securing the revenue bonds may provide that if there is a default in the payment of the principal of or the interest on the bonds or in the performance of any agreement contained in the proceedings or financing document, the payment and performance may be enforced by mandamus or by the appointment of a receiver in equity with power to charge and collect rents, purchase price payments, and loan repayments, and to apply the revenues from the industrial development facility in accordance with the proceedings or provisions of the financing document. Any financing document entered into under this chapter to secure revenue bonds issued under this chapter may also provide that if there is a default in the payment thereof or a violation of any agreement contained in the financing document, the industrial development facility may be foreclosed and sold under proceedings in equity or in any other manner now or hereafter permitted by law. Any financing document may also provide that any trustee under the financing document or the holder of any revenue bonds secured thereby may become the purchaser at any foreclosure sale if it is the highest bidder.

NEW SECTION. Sec. 17. CONSTRUCTION—SUPPLEMENTAL NATURE OF CHAPTER. This chapter supplements and neither restricts nor limits any powers which a municipality or presently authorized public corporation might otherwise have under any laws of this state.

NEW SECTION. Sec. 18. LEGISLATIVE DIRECTIVE. Sections 1 through 17 of this act shall constitute a new chapter in Title 39 RCW.

NEW SECTION. Sec. 19. CAPTIONS NOT PART OF LAW. As used in this chapter, captions constitute no part of the law.
NEW SECTION. Sec. 20. SEVERABILITY. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

On page 1, on line 1 of the title, after "development;" strike the remainder of the title and insert "adding a new chapter to Title 39 RCW; creating new sections; and prescribing penalties." and the same is herewith transmitted.

Not less than thirty days prior to the date of sale, the judgment creditor shall cause a copy of the notice as provided in section 2 of this 1981 act to be (a) served on the judgment debtor in the same manner as a summons in a civil action, and (b) transmitted by both regular and certified mail, return receipt requested, to the judgment debtor at the debtor's last known address, and the judgment creditor shall mail a copy of the notice of sale to the attorney of record for the judgment debtor.

The information contained in this subsection shall be captioned "IMPORTANT NOTICE" and shall be in boldface print or typed in capital letters.

Sec. 3. Section 6, chapter 53, Laws of 1899 and RCW 6.24.100 are each amended to read as follows:

(1) The plaintiff judgment creditor or successful purchaser at the sheriff's sale at any time after twenty days have elapsed from the mailing of the notice of the filing of such return shall be entitled, on motion with notice given to all parties appearing in the action, to have an order confirming the sale, unless the judgment debtor, or in case of his death, his representative, shall file with the clerk within twenty days after the mailing of the notice of the filing of such return, his objections thereto.

(2) If such objections be filed the court shall, notwithstanding, allow the order confirming the sale, unless on the hearing of the motion, it shall satisfactorily appear that there were substantial irregularities in the proceedings concerning the sale, to the probable loss or injury of the party objecting. In the latter case, the court shall disallow the motion and direct that the property be resold, in whole or in part, as the case may be as upon an execution received of that date.

(3) Upon the return of the execution, the sheriff shall pay the proceeds of sale to the clerk, who shall then apply the same, or so much thereof as may be necessary, in satisfaction of the judgment. An order confirming a sale shall be a conclusive determination of the regularity of the proceedings concerning such sale as to all persons in any other action, suit or proceeding whatever.

(5) If, after the satisfaction of the judgment, there be any proceeds of the sale remaining, the clerk shall pay such proceeds to the judgment debtor, or his representative, as the case may be, at any time before the order is made upon the motion to confirm the sale: PROVIDED, Such party file with the clerk a waiver of all objections made or to be made to the proceedings concerning the sale; but if the sale be confirmed, such proceeds shall be paid to said party of course; otherwise they shall remain in the custody of the clerk until the sale of the property has been disposed of.

NEW SECTION. Sec. 4. There is added to chapter 6.04 RCW a new section to read as follows:

(1) Before a writ of execution may issue on any real property, the judgment creditor must file an affidavit with the court stating:

(a) That the judgment creditor has exercised due diligence to ascertain if the judgment debtor has sufficient nonexempt personal property to satisfy the judgment with interest; a list of the personal property so located and whether the judgment creditor believes the items to be exempt; and a statement that, after diligent search, there is not sufficient nonexempt personal property belonging to the judgment debtor to satisfy the judgment; and

(b) That the judgment creditor has exercised due diligence in ascertaining whether the property is claimed as a homestead by the judgment debtor, as defined in chapter 6.12 RCW.

(2) The term "due diligence," as used in this section, includes but is not limited to the creditor or the creditor's representative personally visiting the premises, contacting the occupants and inquiring about their relationship to the judgment debtor, contacting immediate neighbors of the premises, and searching the records of the auditor of the county in which the property is located to determine if a declaration of homestead or abandonment has been filed by the judgment debtor.

A copy of the affidavit must be mailed to the judgment debtor at the debtor's last known address.
If the affidavit attests that the premises are claimed as a homestead by the judgment debtor, the execution for the enforcement of a judgment obtained in a case not within the classes enumerated in RCW 6.12.100 must comply with RCW 6.12-140 through 6.12.250.

Sec. 5. Section 4, chapter 25, Laws of 1929 and RCW 6.04.040 are each amended to read as follows:

The writ of execution shall be issued in the name of the state of Washington, sealed with the seal of the court, and subscribed by the clerk, and shall be directed to the sheriff of the county in which the property is situated, or to the coroner of such county, or the officer exercising the powers and performing the duties of coroner in case there be no coroner, when the sheriff is a party, or interested, and shall intelligibly refer to the judgment, stating the court, the county where the judgment was rendered, the names of the parties, the amount of the judgment if it be for money, and the amount actually due thereon, and shall require substantially as follows:

(1) If the execution be against the property of the judgment debtor it shall require the officer to satisfy the judgment, with interest, out of the personal property of the debtor((, and if sufficient personal property cannot be found, out of his real property upon which the judgment is a lien)) unless an affidavit has been filed with the court pursuant to section 4 of this 1981 act, in which case it shall require that the judgment, with interest, be satisfied out of the real property of the debtor.

(2) If the execution be against real or personal property in the hands of personal representatives, heirs, devisees, legatees, tenants of real property, or trustees, it shall require the officer to satisfy the judgment, with interest, out of such property.

(3) If the execution be for the delivery of real or personal property, it shall require the officer to deliver possession of the same, particularly describing it, to the party entitled thereto, and may, at the same time, require the officer to satisfy any charges, damages, or rents and profits recovered by the same judgment, out of the personal property of the party against whom it was rendered, and the value of the property for which the judgment was recovered, shall be specified therein. If a delivery of the property described in the execution cannot be had, and if sufficient personal property cannot be found to satisfy the judgment, it shall be satisfied out of the real property of the party against whom the judgment was rendered.

(4) When the execution is to enforce obedience to any special order, it shall particularly command what is required to be done or to be omitted.

(5) When the nature of the case shall require it, the execution may embrace one or more of the requirements above mentioned. And in all cases the execution shall require the collection of all interest, costs, and increased costs thereon.

NEW SECTION. Sec. 6. There is added to chapter 6.24 RCW a new section to read as follows:

Every two months during the redemption period provided by RCW 6.24.140, the purchaser or his assignee shall send by certified mail, return receipt requested, and by first class mail to the judgment debtor or his successor in interest a notice advising the judgment debtor that the redemption period is expiring, how many months have expired, and how many months remain. The notice shall also state the amount for which the property may be redeemed and shall advise the judgment debtor that if the property is not redeemed he will face eviction at the end of the redemption period. The notice shall be sent to the judgment debtor at the judgment debtor's last known address and, if different, the property address. The notice shall be sent between the first day and tenth day of the second calendar month after the calendar month of the sale and the equivalent days of each succeeding second calendar month thereafter during the redemption period. The sole effect of noncompliance with this section shall be that the redemption period provided by RCW 6.24.140 shall be extended two months for each missed or noncomplying notice.
NEW SECTION. Sec. 7. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

POINT OF INQUIRY

Senator Scott: "Senator Talmadge, we have discussed this on the floor once this session. Do I understand you are maintaining the $20,000 current level but you are making it automatic?"

Senator Talmadge: "This amendment retains the $20,000 level and makes it automatic. Somebody else might offer another amendment, but this amendment says '$20,000.'"

Senator Scott: "And what is the fiscal, the stated fiscal impact since you have a for-certain number of people that are now they are going to receive the exemption?"

Senator Talmadge: "I do not think there will be any fiscal impact to the state, Senator Scott, that I can discern because people, if they wanted to right now, could go out and petition for the homestead right and if they understood the process, they could protect the assets in the way that this bill allows automatically."

Senator Scott: "But surely there is a difference between those, that is the purpose of your amendment, as I understand it, to insure that everyone gets it rather than just those that think about it and do the petitioning. There must be a net difference in the number of individuals involved."

Senator Talmadge: "Yes, but there is no impact to the state, if that is what you are getting at. The fiscal impact only comes in terms of whether or not somebody has a judgment against the debtor. It is not a situation involving the state unless the state happens to have a judgment of some kind against the debtor. And it relates only to the home in which the person lives, that is why it is called the 'homestead.'"

Senator Scott: "I see the logic in what Senator Talmadge is trying to do. I think my position is unchanged."

The motion by Senator Talmadge carried and the amendments to the committee amendment were adopted.

Senator Rasmussen moved adoption of the following amendment to the committee amendment:

On page 11, line 32 of the Senate Committee Amendment, insert the following:

"Sec. 7. Section 24, chapter 64, Laws of 1895 as last amended by section 3, chapter 98, Laws of 1977 ex. sess. and RCW 6.12.050 are each amended to read as follows:

Homesteads may be selected and claimed in lands and tenements with the improvements thereon, as defined in RCW 6.12.010, regardless of area but not exceeding in net value, of both the lands and improvements, the sum of ((twenty)) forty thousand dollars. The premises thus included in the homestead must be actually intended or used as a home for the claimant, and shall not be devoted exclusively to any other purpose."

"NEW SECTION. Sec. .... There is added to chapter 6.24 RCW a new section to read as follows:

(1) During the period of redemption for any property which a person would be entitled to claim as a homestead, any licensed real estate broker within the county in which the property is located may nonexclusively list the property for sale whether or not there is a listing contract. If the property is not redeemed by the judgment debtor and a sheriff's deed is issued under RCW 6.24.220, then the property owner shall accept the highest current qualifying offer upon tender of full cash payment within two banking days after notice of the pending acceptance is received by the offeror. If timely tender is not made, such offer shall no longer be deemed to be current and the opportunity shall pass to the next highest current qualifying offer, if any. Notice of pending acceptance shall be given for the first highest current qualifying offer within five days after delivery of the sheriff's deed under RCW 6.24.220 and for each subsequent highest current qualifying offer within five days after the offer becoming the highest current qualifying offer. An offer is qualifying if the offer is made during the redemption period through a licensed real estate broker listing the property and is at least equal to the sum of: (a) One hundred twenty percent greater than the redemption amount determined under RCW 6.24.140 and (b) the normal commission of the real estate broker or agent handling the offer.

(2) The proceeds shall be divided at the time of closing with: (a) One hundred twenty percent of the redemption amount determined under RCW 6.24.140 paid to
the property owner, (b) the real estate broker's or agent's normal commission paid, and (c) any excess paid to the judgment debtor.

POINT OF INQUIRY

Senator McCaslin: "Senator Hemstad, on line 16, the word 'nonexclusively.' My question is . . .

"Thank you, Mr. President. My question is whether or not that has the same meaning as an open listing. I do not believe it has but I would wish that it be recorded in the journal."

Senator Hemstad: "I do not believe the term 'nonexclusively' would limit that to an open, only to open listings, I think. It would have the effect that when listed, it would not mean that it could be only an exclusive arrangement, in other words that it would have to be available for other kinds of listings, too."

Senator McCaslin: "Yes, I would assume other realtors could sell it but I would also assume that in the event the owner, the legal owner of the property, whether it be the sheriff or who would own it legally, if they sold it the listing broker would be entitled to a commission. . . ."

Senator Hemstad: "If it hadn't listed, yes."

Senator McCaslin: "Yes."

POINT OF INQUIRY

The time having arrived, the Senate resumed consideration of Substitute House Bill No. 324 from earlier today. Senator Zimmerman had moved adoption of the committee amendment to page 13, line 22.

POINT OF INQUIRY

Senator Bottiger: "Senator Zimmerman, during the break I was able to meet with the committee staff and also with the representatives of the cities and counties.
"And it is my understanding, and I would appreciate it if you would confirm it in the record, that the purpose of this amendment is not to amend in any way the authority of municipalities in their sale or issuance of bonds, that they can still, where they are otherwise authorized to do so, still sell bonds by the negotiation method. Is that your understanding?"

Senator Zimmerman: "You are exactly right, Senator Bottiger. It was not our intention in any way to change that. We would, only thing would be if they want to go to bids, that they would have a shortened period. That is the only purpose of this amendment. No way change the other...."

"We would be glad to see this perhaps worked into, in terms of interim study if you would like to later on."

Senator Bottiger: "Senator Zimmerman, I think it would be a good idea. From what we learned from the WPPSS' inquiry on this subject, it may be that we can save our local governments a substantial amount of money."

PARLIAMENTARY INQUIRY

Senator Clarke: "Mr. President, in the event consideration of the motion for reconsideration is placed tomorrow beyond the deadline, the matter would then still be alive, would it, since the . . . ."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Clarke, in reply to your inquiry, the President firmly believes that the measure has to be reconsidered some time today."

Senator Clarke: "Thank you, I move that . . . ."

President Cherberg: "... during the last ten days of the session is the time when the measure must be reconsidered on the day."

Senator Clarke: "Well, my impression was, and I may be in error, that the motion had to be made the same day, but that consideration of the motion could then be delayed until a later date; but we still, if that were done, we still perhaps, I think it is a money bill so I guess it goes, not a money bill, doesn't go beyond the deadline.

"I withdraw my parliamentary inquiry, Mr. President. Move that reconsideration be made a special order of business at 3:45 today."

There being no objection, on motion of Senator Clarke, the parliamentary inquiry was withdrawn.

On motion of Senator Deccio, the rules were suspended, Substitute House Bill No. 525 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

MOTION

On motion of Senator Ridder, Senator Williams was excused.

POINT OF INQUIRY

Senator Shinpoch: "Senator Deccio, does this apply to overpayments where the department has made an error and they paid them five or ten dollars too much a month, and they finally, or whatever the amount may be, and they finally determined that, or does this only apply to fraud?"

Senator Deccio: "Senator, I cannot answer that. I am not the prime sponsor of the bill. I would have to check into that. I wish it would also provide for overpayments made in the case of the energy overpayments... almost a million dollars, I don't think it does that, either.

"I cannot answer your question. I would assume that any overpayment that would not be repaid would then probably come under this act."

Senator Sellar: "Senator, if my memory serves me right in the committee and this was probably a month or so ago, that rate would be about 12%. Could be higher
or lower than that, depending on what the index is. But at that time, think it was 12.1%, I think was the Moody index at that time.”

POINT OF INQUIRY

Senator Talmadge: "Mr. President and members of the Senate.

"I have a concern I guess, about the same section in the law, and it is in subsection (1). Subsection (1) says, 'Whenever the involvement in a motor vehicle accident in this state results in the driving privilege of a person being suspended, the department shall suspend the Washington registration of the motor vehicle which the person was driving at the time of the accident.'

"I guess my concern is, and maybe somebody could explain it, Senator Sellar or somebody else, what if the person is driving a motor vehicle of somebody other than himself or somebody in his family when the accident occurs? Does that mean in addition to suspending the driver's license of the person who was driving the car, which is the financial responsibility law, that somehow the department would be authorized to pull the registration on somebody else's vehicle, or vehicle registered in somebody else's name?"

Senator Sellar: "The way I read that, Senator, you are correct and that is, if the judgment is not settled, if it is not paid, then the department could do one or either or both. They could suspend the license of the driver or they could suspend
the registration of the vehicle. So I guess you would have to be a little bit more careful who you lend your uninsured car to."

POINOf INQUIRY

Senator Shinpoch: "Senator Sellar, have we ever before had anything in either the insurance laws or anything else where we have suspended the motor vehicle license, or is this the first time that we have ever moved into that?"

Senator Sellar: "Senator Shinpoch, I am going to have to read some existing law to answer you. It is my feeling that 'Yes, there has been the ability to suspend the license in the case of the person who does not meet the requirements of the financial liability law that is on the books.'"

Senator Shinpoch: "Well, that is just the driver's license, is it not? I am talking about, suspending the motor vehicle license."

Senator Sellar: "Senator Shinpoch, I am probably going to have to put this down one and get that answer for you, because I am sure it is important to you and I cannot give it to you . . . . right now."

MOTION

On motion of Senator Clarke, Engrossed House Bill No. 228, as amended by the Senate, was ordered held for consideration on third reading, following consideration of Engrossed House Bill No. 276.

SPECIAL ORDER OF BUSINESS
MOTION FOR RECONSIDERATION

Having voted on the prevailing side and having served prior notice, the time has
arrived to reconsider the vote by which Substitute House Bill No. 490, providing for
a state exhibition at Energy Fair '83, failed to pass the Senate earlier today.
Debate ensued.

POINT OF INQUIRY

Senator Goltz: "Would Senator Benitz yield?
"Well I would like to know why the commerce and economic department is not
asking for the money. It is being asked, it seems to me, by somebody other than
that."

Senator Benitz refused to yield.

POINT OF INQUIRY

Senator Lysen: "Would Senator McCaslin yield to a question?"
President Cherberg: "Senator McCaslin declines."
Debate ensued.
Senator McDermott demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the
motion by Senator Fuller to reconsider the vote by which Substitute House Bill No.
490 failed to pass the Senate today.
ROLL CALL ON MOTION FOR RECONSIDERATION

The Secretary called the roll and the motion for reconsideration carried by the following vote: Yeas, 28; nays, 21.

Voting yea: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gould, Guess, Haley, Hansen, Hayner, Hemstad, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Moore, Newhouse, Patterson, Peterson, Pullen, Quigg, Scott, Sellar, Vognild, von Reichbauer, Zimmerman—28.

The President declared the question before the Senate to be the roll call on the final passage of Substitute House Bill No. 490, on reconsideration.

ROLL CALL

The Secretary called the roll on the final passage of Substitute House Bill No. 490 and the bill passed the Senate, on reconsideration, by the following vote: Yeas, 26; nays, 23.

SUBSTITUTE HOUSE BILL NO. 490, having received the constitutional majority, on reconsideration, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Senator Clarke, the Senate commenced consideration of Substitute House Bill No. 285.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 285, by House Committee on Education (originally sponsored by House Committee on Education and Representatives Cantu, Schmidt, Patrick, James, Barrett, Ellis, Johnson, Eberle, Dickie, McDonald, Lane, Taylor, Hastings, Sanders and Addison):

Mandating flag exercises in each classroom at beginning of school day.

The bill was read the second time by sections.

Senator Pullen moved adoption of the following amendment:

On page 1, line 24, restore the stricken language beginning on line 24 and continuing through the end of line 1 on page 2.

POINT OF INQUIRY

Senator Hughes: "Senator Pullen, there are certain religions that do not allow an individual to salute any national symbol. Is there anything in the bill in the language that you want replaced that would address that problem?"

Senator Pullen: "My amendment, of course, has nothing to do with that. I believe the answer to your question is 'No,' but you may want to address that question to the chairman of the committee."
"My amendment only deals with the people who refuse to provide for the flag salute. That would be, for example, a school official; it would not apply to someone in the class whose religious convictions would prohibit them from saluting the flag."

Senator Hughes: "It would not apply to an individual who refused to do it?"

Senator Pullen: "Not the way I read the language in line 24 to 29 on page 1, and line 1 on page 2 of the bill."

Senator Hughes: "I would like to yield to Senator Talmadge."

**POINT OF INQUIRY**

Senator Talmadge: "Senator Pullen, would it be your intention that all that penalty language also applies to a child who doesn't maintain a respectful silence?"

Senator Pullen: "No, that is not my intention."

Debate ensued.

**POINT OF INQUIRY**

Senator Talley: "Senator Talmadge, you feel sure the bill does not require people of Jehovah's witness faith and Adventists to salute the flag if their religion prohibits it?"

Senator Talmadge: "I think the bill, Senator, says that the people of that religious persuasion need not salute the flag, and need not go through the pledging allegiance to the flag as is required under the bill."

"But my concern rests, I guess, with the penalty section that Senator Pullen is attempting to put back in."

"I do not think all they need do is maintain a respectful silence and that includes a student or a teacher who might be of that religious persuasion."

Further debate ensued.

The motion by Senator Pullen failed and the amendment was not adopted.

On motion of Senator Kiskaddon, the rules were suspended, Substitute House Bill No. 285 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

**POINT OF INQUIRY**

Senator Talley: "Senator Talmadge, does this in any way apply to private schools?"

Senator Talmadge: "Senator, from what I can see, I think it says the 'board of directors of every school district.' I am not certain that it would apply to a private school. It simply would apply to a public school, by the language of the statute."

Further debate ensued.

**ROLL CALL**

The Secretary called the roll on the final passage of Substitute House Bill No. 285 and the bill passed the Senate by the following vote: Yeas, 35; nays, 10; absent or not voting, 4.

Voting yea: Senators Bauer, Benitz, Bluechel, Bottiger, Clarke, Conner, Craswell, Deccio, Fleming, Fuller, Gallagher, Gaspard, Guess, Hayner, Hurley, Jones, Kiskaddon, Lysen, McCaslin, McDermott, Metcalf, Patterson, Peterson, Pullen, Quigg, Rasmussen, Ridder, Sellar, Shinpoch, Talley, Talmadge, Vognild, von Reichbauer, Wilson, Wojahn—35.

MOTION

Senator Bottiger moved Engrossed Substitute House Bill No. 149 be made a special order of business for 4:58 today.

Debate ensued.

Senator Clarke demanded a roll call and the demand was sustained.

POINT OF INQUIRY

Senator Hughes: "Would Senator Clarke yield to a question?"
President Cherberg: "Senator Clarke declines."

POINT OF INQUIRY

Senator Hughes: "Senator Hurley, what will be the effect of not making this a special order of business? What will this mean if the majority party allows this bill to die?"

Senator Hurley: "I would presume that it would be quite an item of interest for the paper, I think it is a very, very popular issue. So many people have written and called and there have been surveys and much, much talk of this impending issue before the session even began. So it just means that if a child survives abortion, that it has a right to medical treatment, a right to live, a right guaranteed by the Constitution. . . ."

POINT OF ORDER

Senator Clarke: "I do not think the question and answer relates to the question presently before the Senate which is whether or not it should be made a special order of business."

RULING BY THE PRESIDENT

President Cherberg: "Will you please confine your remarks and questions to the motion to make Engrossed Substitute House Bill 149 a special order of business at 4:58."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the motion by Senator Bottiger that Engrossed Substitute House Bill No. 149 be made a special order of business for 4:58 p.m. today.

ROLL CALL

The Secretary called the roll and the motion by Senator Bottiger failed by the following vote: Yeas, 22; nays, 27.

STATEMENT FOR THE JOURNAL

April 22, 1981.

We voted against a motion to set House Bill 149 as a special order of business because we felt it was a dilatory move by the minority leader to usurp the prerogative of the majority to set the calendar. We did vote to set House Bill 149 on the calendar by voting the bill out of Rules Committee. If the minority wished to handle the bill, they could have allowed the Senate to get to the bill by acting responsibly and limiting time-wasting debate and procedural delays. We do favor House Bill 149. We also have the responsibility of getting the necessary legislation passed to wind up this session.

Signed,
SENATOR JEANNETTE HAYNER, District 16
SENATOR IRV NEWHOUSE, District 15
SENATOR E. G. PATTERSON, District 9.

MOTION

On motion of Senator Clarke, the Senate advanced to the sixth order of business.

On motion of Senator Shinpoch, the following amendments by Senators Shinpoch and Talmadge were adopted:
On page 4, line 6, after "vehicle" strike all the language down through "accident" on line 7 and insert "if the person driving at the time of the accident was also the registered owner of the motor vehicle"

On page 4, line 10, after "the" strike "person's" and insert "owner's"

Senator Bottiger moved adoption of the following amendment by Senators Bottiger and Wilson:

"NEW SECTION. Sec. 2. There is added to chapter 84.36 RCW a new section to read as follows:

Real or personal property owned by a nonprofit organization, association, or corporation in connection with the operation of a public assembly hall or meeting place is exempt from taxation. The area exempt under this section includes the building or buildings, the land under the buildings, and an additional area necessary for parking, not exceeding a total of one acre.

To qualify for this exemption the property must be used exclusively for public gatherings and be available to all organizations of persons desiring to use the property, but the owner may impose conditions and restrictions which are necessary for the safekeeping of the property and promote the purposes of this exemption. Membership shall not be a prerequisite for the use of the property.

The use of the property for pecuniary gain or to promote business activities, except fund raising activities conducted by a nonprofit organization, nullifies the exemption otherwise available for the property for the assessment year. The exemption is not nullified by the collection of rent or donations if the amount is reasonable and does not exceed maintenance and operation expenses created by the user.

Sec. 4. Section 1, chapter 178, Laws of 1949 as last amended by section 2,
chapter 88, Laws of 1980 and RCW 73.04.110 are each amended to read as follows:

section prior to (June 12, 1980) the effective date of this 1981 act, shall continue
to be eligible for the annual free license plates.
For the purposes of this section, "blind" shall mean that definition of "blind"
utilized by the state of Washington in determining eligibility for financial assistance
to the blind under Title 74 RCW.

Sec. 5. Section 1, chapter 84, Laws of 1895 as last amended by section 1,

limb;)) or ((other)) a physical impairment, which does not in fact incapacitate, shall
not be deemed to disqualify them, provided they possess the capacity necessary to
discharge the duties of the position involved((. PROVIDED, That
spouses of honorably discharged veterans who have a service connected permanent and total
disability shall also be preferred for appointment and employment)). The spouse of
such a veteran who died in active military service or has a service connected

shall claim the preference under subsection (1) of this section within four years of
the date the veteran was discharged from military service unless:
(a) The veteran received a campaign ribbon for service during a war declared
by congress or during a period where a campaign ribbon was awarded; or
(b) The veteran has sustained a disability rated thirty percent or more.
(4) If a governmental unit under subsection (1) of this section needs to consider sex, race, national origin, handicaps, periods of military service, or a service-connected disability rated thirty percent or more to achieve the established goals in a published affirmative action plan, the governmental unit need not comply with subsection (1) of this section.

NEW SECTION. Sec. 6. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

Renumber the remaining section consecutively.

POINT OF INQUIRY

Senator Hemstad: "Senator Fuller, as I understand from what you said, does this floor amendment mean that a surviving spouse would stand in the shoes of a veteran for all purposes of civil service testing and advancing in all respects?"

Senator Fuller: "This has nothing to do with anything but the entry examination, the civil service entry examination. It would get a preference in points, point counts. It would not have anything to do with their advancement after they passed the initial exam."

Debate ensued.

POINT OF ORDER

Senator Bottiger: "Reluctantly, being a supporter of both of these bills and being schooled in how to kill two good bills by hanging them together in the last session, I reluctantly raise the question of scope and object. And speaking to that, Mr. President, the bill under consideration is an appropriation for veterans' employment seminars. The amendment, proposed amendment, goes an entirely different field of civil service, different chapters and codes and creates preferential points for veterans in public employment.

"I think it expands the scope and object of the original bill."

President Pro Tempore Guess assumed the Chair.

MOTION

On motion of Senator Clarke, the Senate commenced consideration of House Bill No. 167.

SECOND READING

Debate ensued.

MOTION

Senator Rasmussen moved House Bill No. 167 be rereferred to the Committee on Education.
Debate ensued.
MOTION

On motion of Senator Clarke, the Senate commenced consideration of the Special Order of Business, Engrossed Substitute House Bill No. 711.

SPECIAL ORDER OF BUSINESS
SECOND READING

ENGROSSED SUBSTITUTE HOUSE BILL NO. 711, by House Committee on Education (originally sponsored by Representatives Addison and Lane):
Providing reimbursement for school district transportation costs only to school geographically nearest or next-nearest to student's place of residence.
The time having arrived, the Senate commenced consideration of Engrossed Substitute House Bill No. 711.

REPORT OF STANDING COMMITTEE

ENGROSSED SUBSTITUTE HOUSE BILL NO. 711, providing reimbursement for school district transportation costs only to school geographically nearest or next-nearest to student's place of residence (reported by Committee on State Government):

MAJORITY recommendation: Do pass with the following amendment:
On page 1, line 21, after "September 1," strike "1982" and insert "1981"
Signed by: Senators Metcalf, Chairman; Benitz, Conner, Deccio, Gallaghan, Moore, Quigg, Rasmussen.
The bill was read the second time by sections.
Senator Metcalf moved the committee amendment not be adopted.
Senator McDermott moved the committee amendment be adopted.
Debate ensued.
The President declared the question before the Senate to be the positive motion by Senator McDermott that the committee amendment be adopted.
The motion by Senator McDermott failed.
The motion by Senator Metcalf carried and the committee amendment was not adopted.
Senator Bottiger moved adoption of the following amendment:
On page 1, beginning on line 18, strike "1980-81 school year, reimbursement shall be at one hundred percent or as close thereto as reasonably possible" and insert "((1980-81 school year, reimbursement shall be at one hundred percent or as close thereto as reasonably possible)) 1981-82 school year, reimbursement shall be at one hundred percent"
Debate ensued.
Senator Gaspard demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the amendment by Senator Bottiger.

ROLL CALL

The Secretary called the roll and the amendment was not adopted by the following vote: Yeas, 20; nays, 29.
Voting nay: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallaghan, Gould, Guess, Haley, Hansen, Hayner, Hemstad, Hurley, Jones,
ONE HUNDRED-FIRST DAY, APRIL 22, 1981

Kiskaddon, Lee, McCaslin, Metcalf, Moore, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, Vognild, von Reichbauer, Zimmerman—29.

Senator Fleming moved adoption of the following amendment:

On page 1, beginning on line 27 after "level" strike "and/or course of study" and insert ": Provided further, that no school district shall be reimbursed under this section for transportation costs resulting from preschool and follow through programs, vocational technical programs, occupational education programs, bilingual education programs, gifted programs, compensatory programs, other special education programs and extracurricular activities where transportation for such programs and activities is to any school other than one which is geographically located nearest or next-nearest to the student's place of residence within the district offering the appropriate grade level"

Debate ensued.

POINT OF INQUIRY

Senator Lee: "Senator Fleming, you know, I agree with you, Senator Fleming. I would also object if vocational technical programs were mandatory and they said my kid had to take that program whether I wanted it or not. Same way with the gifted program; I might think that . . . was there for my kid to stay in school rather than have to go to a gifted program.

"But I think your amendment probably leaves out a couple of words in order to make that clear. It seems to me that you need to have, before the word 'preschool' which starts your whole list, a particular kind of special programs. The words 'mandatory programs for.' Would you agree that to be an oral amendment because you are talking about mandatory programs. If one mandatory program is not financed by the state, then other mandatory programs should not be financed. Is that correct? Would you agree to have that as an oral amendment?"

Senator Fleming: "No."

Senator Lee: "You would not? Then you are also talking about voluntary programs."

Senator Fleming: "What I am saying to you is that I want to make neighborhood schools. That is what you want, okay? You want a neighborhood school. I want your kids whether they are handicapped, whether it is for special programs, or whatever it is, I want you to do what is right and put the kind of money in our educational system to make those schools in your neighborhood quality education schools for whatever handicap our students have right in that neighborhood.

"And whether it is voluntary or whatever it is do not pay for . . . ."

Senator Lee: "Okay, so you are saying we should not finance either, either voluntary or mandatory . . . ."

Senator Fleming: " . . . what I am saying is let us stop the busses."

Senator Lee: "I wanted to make that very clear, that you were not just talking about mandatory programs."

Senator Fleming: "Let us stop the busses if they are so bad."

The motion by Senator Fleming failed and the amendment was not adopted on a rising vote.

There being no objection, an amendment by Senators Fleming and McDermott to page 1, line 28 adding a proviso, on the desk of the Secretary of the Senate, was withdrawn.

Senator Fleming moved adoption of the following amendment by Senators Fleming and McDermott:

On page 1, line 28, after "study" insert ": PROVIDED FURTHER, That notwithstanding the provisions of section 98 of Engrossed Substitute Senate Bill No.
3636, any moneys not reimbursed to a school district for transportation costs pursuant to this subsection shall be allocated to the school district for block grants under section 104 of Engrossed Substitute Senate Bill No. 3636."

Debate ensued.

POINT OF INQUIRY

Senator McDermott: "Senator Metcalf, you read to us the amendment which I put on the desk which Representative McDonald has proposed for Substitute Senate Bill 3636. You read the text, beginning with 'The superintendent of public instruction shall transfer...'. Is it your belief and your intention that this money go back to the districts from which it was taken? In other words, if $5,000,000 is taken out of the Seattle budget, will that money then go back in as a $5,000,000 block grant to Seattle?"

Senator Metcalf: "The state transportation money comes from the state and it is state money. It is not, in this it does not specifically say that it goes back to those districts, Senator McDermott."

Senator McDermott: "Well, if that is your answer, then I think Senator Fleming is correct in his amendment because if you want the money specifically to go back to the districts that need it from which it has been taken, it seems to me you would need to make that specifically clear some place.

"We will not have an opportunity on 3636 to amend it. It will come back for a single vote on the floor of the Senate. We will vote 'aye' or 'no' in terms of concurrence with the budget.

"So we will never have a chance to put any specific language in this budget provision.

"For that reason that is why Senator Fleming and I wrote this provision because if it is your intention to make sure that the money goes back to the districts. I think you ought to support this amendment. I hope that you all will."

Senator Ridder demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senators Fleming and McDermott.

ROLL CALL

The Secretary called the roll and the amendment was adopted by the following vote: Yeas, 24; nays, 24; absent or not voting, 1; the President voted "aye".

Voting nay: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Guess, Haley, Hansen, Hayner, Jones, Kiskaddon, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellars, von Reichbauer, Zimmerman—24.

Absent or not voting: Senator Rasmussen—1.

Senator Moore moved adoption of the following amendment:

On page 1, line 28, before the semicolon, insert "Any monies not reimbursed to a school district pursuant to this 1981 act shall be provided to the affected school district for remedial assistance programs, transitional bilingual programs, preschool education programs, affirmative education programs, community involvement programs, environmental education programs, cultural enrichment programs, education for superior students programs, Indian education programs, model programs, and Pacific Science Center programs."
There being no objection, on motion of Senator Moore, the amendment was withdrawn.

Senator Bottiger moved adoption of the following amendment:

On page 1, line 28, after "study" insert ": PROVIDED FURTHER, That the superintendent of public instruction, when so requested by the appropriate educational service district superintendent or his or her designee, may waive the requirements of this 1981 provision, if natural geographic boundaries or safety factors would make this provision unworkable and/or more costly to the district or to the state"

Debate ensued.

POINT OF INQUIRY

Senator Bottiger: "Would Senator Metcalf yield to a question as to what my motives are? You know, I live in a rural area, my kids go to rural schools, I am going to vote for your bill; I am trying to fix it so when I go home I do not catch . . ."

Senator Metcalf: "Your motives, why don't you explain them, then? You know, no, I don't mean to challenge your motives, Senator. I just believe that this amendment will damage the bill for the reasons that I gave. This is a very tough constitutional issue. I am very happy we have the opinion from the attorney, Malachy Murphy; but this amendment will damage the bill, Senator."

Further debate ensued.

POINT OF INQUIRY

Senator Haley: "Senator Talmadge, are you inferring that a brother attorney, a fellow attorney, a member of the attorney general's department, would not give his most honest, forthright, frank opinion on this question that we are dealing with?"

Senator Talmadge: "Senator, I assume that the opinion of that gentleman would be just as frank as the opinion of one doctor would be in testifying in a malpractice case against another."

The motion by Senator Bottiger carried and the amendment was adopted.

Senator Wojahn moved adoption of the following amendment by Senators Wojahn, Talmadge, Gaspard, Rasmussen and Bottiger:

On page 1, line 27, after "level" strike all language down through "study" on line 28, and insert ", course of study, or special academic program as designated by the local school board

Debate ensued.

POINT OF INQUIRY

Senator Haley: "Members of the Senate. Reflecting and agreeing with the remarks of Senator Gaspard, we are very concerned in Tacoma about our Magnet school system, and I would like to, for the record, ask Senator Metcalf if he would yield to a question?

"Senator Metcalf, will this bill prevent school districts from transporting students to Magnet schools?"

Senator Metcalf: "No, Senator Haley, you will note that at page 1, lines 27 and 28 of the bill, the quote 'appropriate course of study' is provided as an exemption to the requirement of nearest or next nearest school. The technical definition of the term 'course of study' as used in education, will include structuring of Magnet schools, consequently students could be transported to such schools even though they are not nearest or next nearest school."

Further debate ensued.

Senator Metcalf demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the amendment by Senators Wojahn, Talmadge, Gaspard, Rasmussen and Bottiger.

ROLL CALL

The Secretary called the roll and the amendment was adopted by the following vote: Yeas, 26; nays, 23.

Voting nay: Senators Benitz, Bluechel, Clarke, Craswell, Deccio, Fuller, Gallagher, Guess, Haley, Hayner, Hurley, Jones, Lee, McCaslin, Metcalf, Newhouse, Patterson, Pullen, Quigg, Scott, Sellar, von Reichbauer, Zimmerman—23.

There being no objection, on motion of Senator Fleming, an amendment to page 1, line 27 on the desk of the Secretary of the Senate was withdrawn.

On motion of Senator Metcalf, the rules were suspended, Engrossed Substitute House Bill No. 711, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Ridder: "Senator Fleming, I want to be very sure that I understand the intent of your amendment.

"As I read it, if there are savings from the cessation of the mandatory bussing programs, those monies will be allocated to augmenting academic programs, special programs for enrichment in the communities in which the mandatory bussing programs cease. Is that accurate?"

Senator Fleming: "Senator Ridder, that is somewhat accurate. The intent, yes, indeed, is those affected districts that are involved in mandatory bussing at the present time, that would be negatively affected by this bill, i.e., withdrawing mandatory funds, those funds would go back to those affected districts to make sure that those programs in those districts receive the special education programs in those districts receive the funds to try to lessen the negative effect on those urban school districts that are to be affected."

POINT OF INQUIRY

Senator Kiskaddon: "Senator Fleming, when, the last answer you gave was that if it was a mandatory bus program that the money would go back to the districts. What would happen in the case of a voluntary bussing program that was bussing beyond that . . . ?"

Senator Fleming: "Senator Kiskaddon, I think your bill 711 says that those school districts that are involved in mandatory bussing, that their state funds would be cut off. And so those are the only funds that we are talking about. I would assume the voluntary, the regular transportation budget as it is presented and as it is allocated would continue on its merry way."

POINT OF INQUIRY

Senator Talmadge: "Mr. President and members of the Senate.

"I intend to support this bill but I have three areas of concern and I would appreciate it if Senator Metcalf could yield to a question."
"Senator, is it the intent of this bill to unambiguously bar state reimbursement for mandatory desegregation programs?"

Senator Metcalf: "It was the intent of this bill to use the money that we now spend on mandatory bussing, forced bussing, the way we have the bill now written for the block grant, for the educational activities of students."

Senator Talmadge: "But it is the intent to stop state reimbursement for mandatory desegregation?"

Senator Metcalf nods 'yes.'

Senator Talmadge: "Senator, is it the intent of the bill to bar any state reimbursement for educational transportation programs other than mandatory desegregation?"

Senator Metcalf: "Well, we covered that well in the debate, Senator. It says very clearly 'courses of study' and if they are bussed to specific courses of study, it is obvious that that is legitimate under this bill."

Senator Talmadge: "So it would be 'no'?"

"Senator, the last question I had was with respect to course of study. Does 'course of study' mean 'voluntary racial transfer'? . . ."

Senator Metcalf: "... after the letter the course of study includes programs such as those for gifted students and so forth. A course of study could be a skill center, I suppose, where they teach auto mechanics, 'course of study' is relatively clear."

Senator Talmadge: "I am just thinking of a volunteer, there was a program in Seattle called 'voluntary racial transfer' where there was money coming in and part of it was state money and it was used to transfer kids who wanted to go to a school that had a different ethnic or racial background."

"And I would assume that 'course of study' did not mean 'voluntary racial transfer' here?"

Further debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute House Bill No. 711, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 39; nays, 10.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 711, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

STATEMENT FOR THE JOURNAL

Yesterday in the course of debate on SHB 711, Senator Talmadge asked me a series of questions regarding the Legislative intent of SHB 711. You will recall that prior to these questions a considerable number of amendments had been offered to this bill. Some were adopted.

It was extremely difficult for me to determine the ultimate legislative intent due to the unfriendly amendments which were adopted and which were very carefully designed to weaken the bill in anticipation of future litigation.
I wish to make it clear for the record that my answers to Senator Talmadge's questions can in no way relate to the intent of the bill if the amendments involved in the dialogue between us are not sustained by the House.

Signed,
Senator Jack Metcalf.

President Cherberg assumed the Chair.

SECOND READING

HOUSE BILL NO. 468, by House Select Committee on Vietnam Era Veterans and Representatives Tupper, Bender, Van Dyken, Scott, Dawson, Brown, Pruitt, Winsley, Maxie, Lux and Patrick:
Appropriating funds for veterans employment seminars.
The Senate resumed consideration of House Bill No. 468 from earlier today. An amendment by Senators Fuller and Conner had been moved for adoption. A Point of Order had been raised by Senator Bottiger on the amendment.

RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the Point of Order raised by Senator Bottiger, the President finds that House Bill No. 468 is a measure of limited scope which appropriates funds to the Department of Employment Security to conduct employer awareness seminars for the purpose of insuring private employer knowledge and support for veterans' employment programs.
"The amendment proposed by Senators Fuller and Conner on the other hand amends the civil service law relating to Veterans' preferences.
"The President therefore finds that the proposed amendment does expand the scope and object of the bill and that the Point of Order is well taken."
The amendment by Senators Fuller and Conner was ruled out of order.

On motion of Senator Metcalf, the rules were suspended, House Bill No. 468 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

**PERSONAL PRIVILEGE**

Senator Metcalf: "Thank you, Mr. President, members of the Senate.

"I think that, as this day progresses, this will be a very difficult day and perhaps a partisan day and I would like to raise a point upon which I think we can all agree; and I mention this because last night we had a Ruling, had a whole bunch of Rulings on scope and object, and . . . we finished that, basically I don't think that the bills that come up from now on will have very many rulings on scope and object.

"The last bill that was raised last night had a Ruling, and I really wanted that amendment to hang, and the President ruled that it was out of the scope and object and you know, that hurt, but by golly, I will tell you, the requirement that we hang, that we don't just paperhang in the Senate, and this thing of scope and object is one of the most important tools that we have to protect legislation, to make good legislation and to avoid improper legislation.

"And the President over the years has developed a reputation for very tight Rulings on scope and object.

"And I would like to say today that I think of all the contributions that President Cherberg has made to good government in Washington state, that his Rulings..."
on tight scope and object is, by far, the best and most important contribution that he
has made to sound legislation in the state of Washington.

"And I would like to have the Senate join with me in a standing ovation to the
President for his consistent Rulings over a lot of years on scope and object."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Metcalf, you really know how to embarrass a
guy. A peacock today and a feather duster tomorrow."

REMARKS BY SENATOR PULLEN

Senator Pullen: "I just wanted to remind Senator Metcalf of what the President
told me one day when I complimented him on his Rulings. He told me that 'flattery
will get me nowhere.'"

The motion by Senator Clarke carried and the Senate commenced considera-
tion of Substitute House Bill No. 650.

In section 2, page 3, add a subsection 4 to read as follows:

"(4) Other funds may be established by rule or regulation of the superintendent of public instruction working in cooperation with the state auditor. Such rule or regulation shall establish the purpose, standards, conditions, and procedures governing the establishment and use of other school district funds and special accounts within all funds."

POINT OF ORDER

Senator Hayner: "Mr. President, I raise the issue of scope and object here. This bill deals with using building funds for certain limited purposes and it does not include expanding it to give the superintendent of public instruction rule and regulation authority into other areas."
MOTION

On motion of Senator Clarke, Substitute House Bill No. 650 together with the pending amendment by Senators Shinpoch, Williams, Hayner and Patterson and the amendment to the amendment by Senator Wojahn and the Point of Order raised by Senator Hayner will be considered as the second measure following the noon recess.

SECOND READING

ENGROSSED HOUSE BILL NO. 590, by Committee on Ethics, Law and Justice and Representative Ellis:

Modifying provisions relating to court funds.

On motion of Senator Scott, the following amendment by Senators Scott and Shinpoch was adopted:

On page 1, line 29, strike "five" and insert "three"

POINT OF INQUIRY

Senator Talmadge: "Mr. President and members of the Senate.

This is a question maybe Senator Clarke can answer. The concern I have with this amendment and with this section of the bill is that in House Bill 601 that we sent back to the House, there is a section that provides for an increase in the filing fee for the district court from $12 to $20, that is Senator Shinpoch's amendment.

This particular area, this particular amendment deals with the very same section in the RCW, and I was wondering whether we were going to deal with the House Bill 601 to deal with that problem, or whether we have an amendment that would take out the $20 provision in this bill?"

Senator Shinpoch: "Senator Talmadge, it is my understanding that if we pass House Bill 590 with this breakout in it, that the House will ask us to recede from my amendment, and when it comes back, I would request that we do that."

On motion of Senator Scott, the rules were suspended, Engrossed House Bill No. 590, as amended by the Senate, was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

MOTION

On motion of Senator Ridder, Senator Shinpoch was excused.

SPECIAL ORDER OF BUSINESS
SECOND READING

SUBSTITUTE HOUSE BILL NO. 650, by House Committee on Education (originally sponsored by House Committee on Education and Representative Cantu):

Establishing school district building fund and specifying purposes for which it may be used.

The time having arrived, the Senate resumed consideration of Substitute House Bill No. 650 from earlier today. At that time an amendment by Senator Shinpoch and others had been moved for adoption and an amendment to that amendment by Senator Wojahn had been moved for adoption. A Point of Order was raised by Senator Hayner on the amendment to the amendment by Senator Wojahn.

RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the Point of Order raised by Senator Hayner, the President finds that Substitute House Bill No. 650 is a measure which establishes new school district funds in order to allow school districts greater administrative flexibility.

The amendment proposed by Senator Wojahn also deals with the establishing of new school district funds.

"The President therefore finds that the proposed amendment does not expand the scope and object of the bill and that the Point of Order is not well taken."

The following amendment by Senator Wojahn to the amendment by Senator Shinpoch and others was ruled to be in order:

In section 2, page 3, add a subsection 4 to read as follows:

"(4) Other funds may be established by rule or regulation of the superintendent of public instruction working in cooperation with the state auditor. Such rule or regulation shall establish the purpose, standards, conditions, and procedures governing the establishment and use of other school district funds and special accounts within all funds."

Debate ensued.

Senator Kiskaddon demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Wojahn to the amendment by Senators Shinpoch, Williams, Hayner and Patterson.

ROLL CALL

The Secretary called the roll and the amendment to the amendment was not adopted by the following vote: Yeas, 18; nays, 27; absent or not voting, 4.

Absent or not voting: Senators Conner, Hughes, Jones, Vognild—4.
The President declared the question before the Senate to be the amendment by Senators Shinpoch, Williams, Hayner and Patterson.

The amendment was adopted.

exemption otherwise available for the property for the assessment year. The exemp-
tion is not nullified by the collection of rent or donations if the amount is reasonable

3. If the cessation of use under subsections (1) or (2) of this section involves a portion of the total property exemptions the provisions of those subsections shall apply only to that portion: PROVIDED FURTHER, That such additional tax shall not be imposed if the cessation of use resulted solely from:

Senator Talmadge: "Mr. President, rule 21 in the Senate rules provides that "No senator shall be allowed to vote except when within the bar of the senate, or upon any question upon which he or she is in any way personally or directly interested,..."

"And Mr. President, by its very nature, redistricting is something in which a member is personally or directly interested in.

"But when there is a situation involving a specific geographical jiggle in which a person actually has their own personal residence, would that constitute a 'personal interest' sufficient to require that that member disqualify themselves from voting pursuant to rule 21?"

(no reply)

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Mr. President, what I am getting at in reality, is the question of where someone had actually physically located in terms of their own personal residence; not necessarily to be simply an issue involving a whole legislative district, but an issue involving their own personal home and family residence."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Talmadge, in rely to your inquiry, the President believes that every member of the Senate is affected by the redistricting measure, some to a certain degree, some to a lesser degree.

"The President cannot single out any single person as having a personal interest in the manner that you describe."

Senator Talmadge: "What you are suggesting, Mr. President, is then, each individual member has to search his or her conscience to determine if there is a personal interest there or not?"

REMARKS BY SENATOR GOLTZ

Senator Goltz: "Mr. President and members of the Senate. Perhaps it would be useful to add to the comments of Senator Clarke some floor debate from May 2nd, 1979, also by Senator Clarke, in which he said every member of the legislature has to have a personal interest in redistricting because it affects his political future.

"Now it has been a fundamental premise in reality, that when such a situation arises, a legislator should not vote upon that type of thing. But I think that is good guidance for each one of us as we deal with these matters."

POINT OF INQUIRY

Senator Hughes: Senator Metcalf, you produced an awful lot of geometric oddities in this program and I just wondered . . ."

Senator Metcalf: What's your question, Senator?"

Senator Hughes: "I would like to finish, Senator Metcalf, without being interrupted.

"I would appreciate it if you would explain how you could develop this pimple, this little extension, whatever you want to call it, how you can explain that to the people that are here, to the press, and to the public."

Senator Metcalf: "Thank you, Senator. Had you been listening before when I explained it, you would have known but I will explain it again. The geographer had taken in a substantial amount of Montlake Terrace and Snohomish County. We reduced that amount when we, in this bill, but it was correcting of his work previously that was the reason."

POINT OF INQUIRY

Senator Goltz: "Would Senator Metcalf yield to a question? I am curious as to why, if you believe that the rural district should be divided A-B, why aren't they divided A-B so that all districts are treated alike? It seems to me this is the very kind of thing that leads to court contests because it shows some different reason for doing it than the reason that you stated for doing it."

Senator Metcalf: "Senator Goltz, there is no problem with the court. The courts have ruled in other states when this has been litigated that A and B districts can be done in some areas and not in others. I do believe in this as a political philosophic principle. Since this did not involve Senators and my responsibility is more in the Senate, I did not—I was busy with other areas and did not pursue that one particularly. I do defend the concept of A-B districts. Frankly, if we could, I would like to have had one district that had A, B and C and get back to 49 members in the House but that would change the population to the extent that we thought it might subject it to a court challenge so we didn't do it."

POINT OF INQUIRY

Senator Lysen: "In the interests of competition, Jack, do you think you could go for that? You are a free enterpriser. You ran for the U.S. Senate on that basis. Does Senator Metcalf yield?"
Senator Metcalf: "Your eloquence, Senator, almost won me over here, but I caught myself in time and I rise to . . ."
Senator Lysen: "No, your party caught you in time."
Senator Metcalf: " . . . oppose your amendment."
Senator Lysen: "You have basic instincts. Follow your instincts and you will be all right."

Senator Metcalf: "We tried to follow school district boundaries or community boundaries wherever we could, but the population requirements were such that we haven't been able to do that. We have followed population first, this is a pretty massive change and I would fear that it might mean the population imbalance which could risk the constitutionality of our bill and so I reluctantly oppose your amendment."

Senator Lysen: "Mr. President, I would be willing to make a motion to hold the whole thing over until next session so we can have a good opportunity to consider it and study it thoroughly. If that would be your preference I would certainly go along with that, Senator Metcalf."

MOTION

On motion of Senator Bottiger, the rules were suspended and Senator Williams was allowed additional time to explain the amendments.

POINT OF INQUIRY

Senator Bottiger: "Senator Clarke, the problem is that that court-ordered redistricting did not have these sections in it. That is the suspicion we have. We don't know why they are in there in that language and that order unless there is an intent to do what Senator Talmadge has suggested. Now, for the purposes of legislative intent, Senator Talmadge was asking Senator Metcalf if he would respond. Is that what you intend?"
Senator Metcalf: "Thank you, Senator Bottiger. Our intention is that when a Senator is elected to represent a district, that district number, they will finish out the term as the Senator from that elected number. The same as we did before that Senator Clarke referred to. We have no intention of doing anything that would disturb that concept."
Debate ensued.

We put out good amendments, ones that should be put out. For Congressman Foley. The ones that I have put out that tie their communities back together,
and we are tied in with a 25–24 vote and I can't believe that you can honestly sit over there and . . ."

PERSONAL PRIVILEGE

Senator Fleming: "Mr. President, I indeed think it is a point of personal privilege when I am the only minority on this floor and something is going to take place that might be somewhat adverse to me and the minority community of this state and not have an opportunity to express that on this floor and not have an opportunity to express it in the committee in which this bill was held, I think that is personal to me and a community in which I represent, and I just wanted to say on that point of personal privilege I resent that."

President Cherberg: "Senator Gaspard, the President must remind you that your remarks must be strictly personal to you and not to any issue before the Senate."

Senator Gaspard: "This is very personal to me, Mr. President, that we have passed a bill without any public debate. We have cut off debate here tonight, and I think this is evidence that there is something very, very wrong in Olympia."

SUBSTITUTE SENATE BILL NO. 3780,
SENATE BILL NO. 3785,
SENATE BILL NO. 4027,
MOTION

On motion of Senator Clarke, the Senate commenced consideration of Substitute House Bill No. 175.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 175, by House Committee on Revenue (originally sponsored by Representatives Fancher, Bond, Scott, Martinis, Flanagan and Salatino):

- Modifying provisions on timber taxation.
- The bill was read the second time by sections.

On motion of Senator Craswell, the rules were suspended, Substitute House Bill No. 175 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Bottiger: "Senator Craswell, for the small property owners, the small tax people, is there any relief in them for the difference between the market value and what actually a small property tax owner receives?"

Senator Craswell: "Senator Bottiger, there is another bill, House Bill 145, that does address that. This bill treats all timber owners and . . . the same."

Senator Bottiger: "Where is this House Bill 145?"

Senator Craswell: "I believe it is on the calendar."

MOTION

Senator Bottiger moved that further action on Substitute House Bill No. 175 be deferred following consideration of House Bill No. 145.

POINT OF INQUIRY

Senator Talley: "We have got to extend this timber tax. You know, it runs out in June. I don't want to monkey around here and end up with no tax at all.

Senator Bottiger: "Senator Talley, I agree with you. The greatest tragedy that could happen in the state is that we let this timber tax expire, but at the same time there are an awful lot of small property tax owners that, if we pass this bill without the other bill, they are going to have a substantial tax increase and I think we ought to couple those two bills together because I am not going to vote for 175 unless I know that 145 is going to happen."

Senator Talley: "That is fine as long as we get one or the other."

Further debate ensued.

POINT OF ORDER

Senator Ridder: "Ordinarily we have on our calendar a report of the committee and those who signed it out. I don't see this on this particular bill. Could you tell me the date it was signed out and by whom, please?"

President Cherberg: "It was reported out April 21, 1981."

Senator Ridder: "Okay. Through the Ways and Means Committee?"

President Cherberg: "Ways and Means."

Senator Ridder: "And can you tell me who signed it out please?"

President Cherberg: "A majority Do Pass signed, nine members."

Senator Ridder: "May I have the names?"
President Cherberg: "The Journal Clerk will obtain the information."
Senator Ridder: "Okay, thank you."
Further debate ensued.

POINT OF INQUIRY

Senator Ridder: "Would Senator Hayner yield? I would like to ask a question. I would like to know if there is any significance in scheduling in the fact that 145 seems to have the six and one-half percent amendment that simply is there and 175 has the six and one-half percent amendment that has a two-year termination. Is it your thought that that is more important than the indefinite extension? Your silence speaks loudly."
(Senator Hayner declined to yield.)
Further debate ensued.
Senator Clarke demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on the motion by Senator Bottiger that further action on Substitute House Bill No. 175 be deferred following consideration of House Bill No. 145.

POINT OF INQUIRY

Senator Hansen: "Before this comes up to a vote, I would like to ask one question. I don't know who wants to answer it but the leadership on the other side of the aisle — what assurance, if we vote on 175 now, are you giving me assurance that we will be voting on 145 before this Legislature stops?"
Senator Hayner: "Mr. President, we have before us quite a number of schedules. We would like to get to almost all of those bills because they were priorities for all of us, and it will depend on how much time we have left between now and Sunday at 12 p.m."
Senator Hansen: "Senator, we would have — 145 and 175 in the time we have been arguing over this, so all I am asking is an assurance that we will be voting on 145 which will take all of two minutes."
Further debate ensued.

ROLL CALL

The Secretary called the roll and the motion by Senator Bottiger failed by the following vote: Yeas, 23; nays, 26.
The President declared the question before the Senate to be the roll call on final passage of Substitute House Bill No. 175.
Debate ensued.

Peterson, Pullen, Quigg, Rasmussen, Scott, Sellar, Talley, von Reichbauer, Zimmerman—32.

SUBSTITUTE HOUSE BILL NO. 175, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTIONS

Senator Bottiger moved the Senate now consider Substitute House Bill No. 145.

Senator Clarke moved the motion by Senator Bottiger be laid upon the table.

Senator Bottiger demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the motion by Senator Clarke that the motion by Senator Bottiger to now consider Substitute House Bill No. 145 be laid upon the table.

In adjudicating disputes, the com­mission shall take into consideration that though an individual employee shall be free to decline to associate with his fellow employees, it is necessary that he have full freedom of association, self-organization, and designation of representatives of his own choosing who shall represent him in all respects before the commission.

NEW SECTION. Sec. 3. There is added to chapter 47.64 RCW a new section to read as follows:

(1) For purposes of efficient, dependable, and equitable personnel management, the provisions of this chapter and the state-wide maritime classification and compensation plan adopted by the state personnel board shall apply, after the effective date of this act, to the employees of the Washington state ferries.

(2) The employees of Washington state ferries under this chapter shall continue to have the right to affiliate with the employees' existing unions or other employee organizations of their choice and shall have the right to bargain collectively with the department of transportation regarding grievance procedures and all personnel mat­ters over which the department of transportation may lawfully exercise discretion.

(3) This chapter shall not affect the provisions of any existing collective bar­gaining agreement entered into prior to the effective date of this act, or any order of the public employment relations commission issued prior to the effective date of this act.

(4) Each employee of the Washington state ferries shall remain subject to the classification and compensation provisions of the applicable collective bargaining agreement in effect on the effective date of this act, until the termination of the collective bargaining agreement and thereafter until the employee's position has been duly classified and incorporated into the state-wide maritime classification and com­pensation plan by the state personnel board and department of personnel.

(5) No permanent employee of the Washington state ferries may be required to pass a competitive examination to retain the position held by the employee on the
effective date of this act, or held by the employee on the termination date of a collective bargaining agreement in force on the effective date of this act which governs the conditions of employment of the employee, whichever date is later.

NEW SECTION. Sec. 4. There is added to chapter 47.64 RCW a new section to read as follows:

(1) It is unlawful for any employee of the Washington state ferry system or any employee organization, representing such employees, directly or indirectly, to induce, instigate, encourage, authorize, ratify, or participate in a strike.

(2) "Strike" means concerted action in failing to report for duty, the wilful absence from one's position, the stoppage of work, slowdown, or the abstinence in whole or in part from the full, faithful, and proper performance of the duties of employment for the purposes of inducing, influencing, or coercing a change in the conditions or compensation or the rights, privileges, or obligations of employment.

(3) If an employee, a group of employees, an employee organization or any officer, agent, or representative of any employee organization engages in a strike in violation of subsection (1) of this section or if there is a clear, real, and present danger that such a strike is imminent, the state of Washington may file suit to restrain or enjoin the strike in the superior court having proper jurisdiction and proper venue of such actions in accordance with superior court civil rules.

(4) In the event of any violation or imminently threatened violation of subsection (1) of this section, any citizen domiciled within the jurisdictional boundaries of the state of Washington who is or may be affected by the violation may petition the superior court for the county in which the violation occurs for a restraining order or an injunction in accordance with superior court civil rules. The plaintiff need not show that the violation or threatened violation would greatly or irreparably injure him; and no bond may be required of the plaintiff unless the court determines that a bond is necessary in the public interest.

(5) If an injunction to enjoin a strike issued pursuant to this section is not promptly complied with, on the application of the plaintiff, the court shall immediately hear contempt proceedings in accordance with superior court civil rules.

(a) An employee organization found to be in contempt of court for violating an injunction against a strike shall be fined an amount deemed appropriate by the court. In determining the appropriate fine, the court shall objectively consider the extent of lost services and the particular nature and position of the employee group in violation. In no event may the fine exceed two thousand five hundred dollars for each calendar day that the violation is in progress.

(b) Each officer, agent, or representative of an employee organization or employee found to be in contempt of court for violating an injunction against a strike, shall be fined not less than fifty dollars nor more than two hundred dollars for each calendar day that the violation is in progress.

(6) Each of the remedies and penalties provided by this section is separate and several, and is in addition to any other legal or equitable remedy or penalty.

(7) The court may receive and collect any fines imposed pursuant to this section and disburse such funds pursuant to law.

NEW SECTION. Sec. 5. There is added to chapter 47.60 RCW a new section to read as follows:

(1) In order to maintain an adequate, fair, and economically sound schedule of charges for the transportation of passengers, vehicles, and commodities on the Washington state ferries, including the Hood Canal bridge, the department of transportation each year shall conduct a full review of such charges.

(2) Prior to February 1st of each year the department shall transmit to the transportation commission a report of its review together with its recommendations for the revision of a schedule of charges for the ensuing fiscal year. The commission on or before April 1st shall adopt as a rule, in the manner provided by the
Washington administrative procedure act, a schedule of charges for the Washington state ferries for the ensuing twelve-month period commencing May 1st. The schedule may initially be adopted as an emergency rule if necessary to take effect on, or as near as possible to, May 1st.

(3) The department in making its review and formulating recommendations and the commission in adopting a schedule of charges may consider any of the following factors:

(a) The amount of subsidy available to the ferry system for maintenance and operation;
(b) The time and distance of ferry runs;
(c) The maintenance and operation costs for ferry runs with a proper adjustment for higher costs of operating outmoded or less efficient equipment;
(d) The efficient distribution of traffic between cross-sound routes;
(e) The desirability of reasonable commutation rates for persons using the ferry system to commute daily to work;
(f) The effect of proposed fares in increasing walk-on and vehicular passenger use;
(g) The effect of proposed fares in promoting all types of ferry use during nonpeak periods;
(h) Such other factors as prudent managers of a major ferry system would consider.

(4) If at any time during the biennium it appears that projected toll revenues from the ferry system, together with the appropriation from the Puget Sound ferry operations account and any other operating subsidy available to the Washington state ferries, will be less than the projected total cost of maintenance and operation of the Washington state ferries for the biennium, the department shall forthwith undertake a review of its schedule of charges to ascertain whether or not the schedule of charges should be revised. The department shall, upon completion of its review report, submit its recommendation to the transportation commission which may in its sound discretion revise the schedule of charges as required to meet necessary maintenance and operation expenditures of the ferry system for the biennium or may defer action until the regular annual review and revision of ferry charges as provided in subsection (2) of this section.

All such contributions will be paid into the state employees insurance fund to be expended in accordance with RCW 41.05.030.

(2) The contributions of any department, division, or separate agency of the state government, and such county, municipal, or other political subdivisions as are covered by this chapter, shall be set by the state employees insurance board, subject

PROVIDED FURTHER.)) That provision for school district personnel shall not be made under this chapter.

(3) The trustee with the assistance of the department of personnel shall annually survey private industry and public employers in the state of Washington to determine the average employer contribution for group insurance programs under the jurisdiction of the state employees insurance board. Such survey shall be reported to the board for its use in setting the amount of the recommended employer contribution to the employee insurance benefit program covered by this chapter. The board shall transmit a recommendation for the amount of the employer contribution to the governor and the director of financial management for inclusion in the proposed budgets submitted to the legislature.

NEW SECTION. Sec. 7. There is added to chapter 41.06 RCW a new section to read as follows:

(1) The state personnel board shall adopt and from time to time revise a statewide marine classification and compensation plan for all positions in the Washington state ferry system, based on an investigation and analysis of the duties and responsibilities of each such position, which shall be accomplished generally in the manner prescribed in RCW 41.06.140 through 41.06.165. The plan shall be forwarded to the transportation commission and department of transportation for their use, and the department may allocate and reallocate positions within the classification plan as it deems necessary for the efficient operation of the ferry system.

(2) In each even-numbered year the department of personnel shall prepare a comprehensive salary and fringe benefit survey plan for ferry system employees, generally in the manner prescribed by RCW 41.06.140 through 41.06.165. The plan shall be forwarded to the transportation commission for its use in preparing the department of transportation budget for submission to the legislature, and a copy of the data and supporting documentation shall be submitted to the legislative transportation committee.

NEW SECTION. Sec. 8. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 9. There is appropriated to the department of personnel for the biennium ending June 30, 1983, from the motor vehicle fund, the sum of twenty thousand dollars or so much thereof as may be necessary, to prepare recommendations to the state personnel board for the classification of the positions of employees of the Washington state ferries in accordance with section 7 of this act.

Senator von Reichbauer moved the Senate concur in the House amendment with the exception of the amendment to section 4, subsection (5) (b), on page 7, lines 22–30.

MOTION

At 8:44 p.m., on motion of Senator Clarke, the Senate recessed until 8:57 p.m.

The Senate resumed consideration of the motion by Senator von Reichbauer that the Senate concur in the House amendment with the exception of the amendment to section 4, subsection (5) (b), on page 7, lines 22–30 to Engrossed Senate Bill No. 3359.

Senator Bottiger moved the question be divided.

PARLIAMENTARY INQUIRY

Senator Charnley: "Mr. President, I am not sure whether my logic follows this. It would seem to me logical to consider these two motions in just the reverse order, to first consider the portion that we are not concurring in which is a portion of the total thing, and then aye or nay on that and then vote for the full — to concur in the whole motion. Now I am simply asking the question, whether there is any sense or order one way or the other."

REPLY BY THE PRESIDENT

President Cherberg: "The President believes that it would be perfectly in order for the Senate to concur in the House amendments to the measure with the exception of the Section 4, subsection 5, page 7, lines 22 through 30 and then consider that."

The motion by Senator Bottiger carried. The question was divided.

Senator Bottiger moved the Senate do not concur in the House amendment to section 4, subsection (5) (b) on page 7, lines 22–30.

Senator Ridder demanded a roll call and the demand was sustained.

Debate ensued.

PERSONAL PRIVILEGE

Senator Charnley: "I believe that last remark was directed to me as anybody else. I first raised the question about how to properly approach on this and I am trying to help this body move expeditiously through this legislation, not to hold things up, and I resent very much that implication. Thank you."

Debate ensued.

PERSONAL PRIVILEGE

Senator Ridder: "Personally, I find it hard to maintain my righteous indignation if you are going to address me in such a fashion. I simply asked for a roll call because I thought that we should have it, Senator Jones."
The President declared the question before the Senate to be the roll call on the motion by Senator Bottiger that the Senate do not concur in the House amendment to section 4, subsection (5) (b), on page 7, lines 22–30 to Engrossed Senate Bill No. 3359.

Article II, section 3. ((The legislature shall provide by law for an enumeration of the inhabitants of the state in the year one thousand eight hundred and ninety-five and every ten years thereafter, and at the first session after such enumeration, and also after each enumeration made by the authority of the United States, the legislature shall apportion and district anew the members of the senate and house of representatives, according to the number of inhabitants, excluding Indians not taxed, soldiers, sailors and officers of the United States army and navy in active service.))

(1) In July of each year ending in one, a commission shall be established to provide for the redistricting of state legislative and congressional districts as are required by law.

(2) The commission shall be composed of five members to be selected as follows: Each leader of the two largest political parties in each house of the legislature shall appoint one member to the commission by July 1st of each year ending in one. If there are more than two political parties in a house, then the leader of the second largest party has no power of appointment, and the members of the political parties, excluding the party with the largest share of legislators, shall elect a legislator who shall appoint a member of the commission. Within thirty days, the four appointed members, by an affirmative vote of at least three, shall appoint the remaining member. The fifth member shall be a nonvoting member of the commission and act as its chairperson. No elected official may serve on the commission. The legislature may enact laws providing additional qualifications for commissioners and prescribing additional standards to govern the commission.

To the extent reasonable, each district shall contain contiguous territory, shall be compact and convenient, and shall be separated from adjoining districts by natural geographic barriers, artificial barriers, and political subdivision boundaries. The commission shall exercise its powers to provide fair and effective representation and to encourage electoral competition. The commission's plan shall not be drawn for the purpose of favoring any political party, incumbent legislator, or other person or group.

(4) Each commission shall complete redistricting as soon as possible following the federal decennial census, but no later than December 1st of each year ending in one. At least three of the voting members shall approve such redistricting. If three of the voting members of the commission fail to approve and submit a plan within the time limitations provided in this subsection, the supreme court shall adopt a plan by January 1st of each year ending in two in conformance with the standards set forth...
in subsection (3) of this section. The redistricting completed by the commission, as revised or pursuant to court order, constitutes the districting and apportionment law applicable to this state for legislative and congressional elections. This plan shall be in force until the effective date of the plan based upon the next succeeding federal decennial census. The legislature has no power to establish or change any legislative district.

(5) The supreme court has original jurisdiction to hear and decide all cases involving congressional and legislative redistricting.

Debate ensued.

POINT OF INQUIRY

Senator Wilson: "Would Senator Haley yield? Senator Haley, please accept this as a friendly question. I detect with respect to your remarks that you have not been particularly exhilarated by the recent redistricting ruckus that we have gone through here now and I guess my question is, why should your amendment not be applied to the forthcoming redistricting? There is obviously time to set up a commission and have it develop a plan in advance of the 1982 election. What good reason is there, then, to defer it until 1990 which is nine or ten years off? If it is a good plan which you have sponsored, why shouldn't it be put into effect now rather than ten years from now?"

Senator Haley: "Well, the majority here today was that this Legislature do the redistricting for this time. That is the best answer I can give you. You know how I voted on that whole matter."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the amendment by Senator Talmadge to the amendment by Senator Haley.

POINT OF ORDER

Senator Metcalf: "Senator McDermott knows that he is in violation of Reed's Rule 224, reference to another legislative branch, and I think his remarks are inappropriate for that matter. I have noticed that on numerous occasions he has referred to the other house and I have refrained from calling point of order but I am going to call it every time from now on because I just do not think it is proper and it is against the rules."

The motion by Senator Gould carried and the amendment to the amendment was adopted.

PARLIAMENTARY INQUIRY

Senator Pullen: "We are working on Senator Haley's amendment now which is a striking amendment and I also see before us another striking amendment by Senator Metcalf. In the event that the Haley amendment is adopted, would that preclude us from considering the Metcalf amendment?"
President Cherberg: "Senator Pullen, the President believes that if the Haley amendment prevails, that that will be it."

On motion of Senator Hayner, the following amendments to the amendment by Senator Haley were adopted:

- On page 3, line 14, strike "nonresident" and insert "transient"

Senator Rasmussen: "I thought I heard the President say that he would not recognize any motion to adjourn other than from the majority party. I, Mr. President, would not like that to be in the record because it is my understanding a motion to adjourn is in order always; and the other thing is, Mr. President, sometimes good sense prevails when you make that motion, and that was what my inquiry was. Is it your intention never to recognize . . .?"

President Cherberg: "The President will amend his statement and say if he determines it is a dilatory action."

Senator Rasmussen: "Thank you, Mr. President."
President Cherberg: "You are entirely welcome, Senator Rasmussen. It is a pleasure to do business with you."

The President declared the question before the Senate to be the motion by Senator Guess that the Senate reconsider the vote by which the amendment by Senator Haley, as amended, was adopted.

Debate ensued.

POINT OF INQUIRY

Senator Zimmerman: "Would Senator Metcalf submit to a question? On your proposal here, Senator Metcalf, on subsection 4 on the second page, is it not possible that by having those dates that you listed in there, May 1 and then down on line 12, June 1, isn't that possibly an impossible date to be able to work with? In other words, when you say that it must be done in the year in which it is established, doesn't that mean within the calendar year within which you are establishing it?"

Senator Metcalf: "Yes."

Senator Zimmerman: "Isn't it such that you could be in a position where you would not be able to do that from the time standpoint? It just seems to me that you could very well find yourself in an impossible way to meet that criteria."

Senator Metcalf: "I considered that, Senator Zimmerman. The commission goes into effect on March 1 as far as being able to function. It doesn't have any power to do the job under this plan until the adjournment of the session but it does give it 60 days. Now your point is well taken and if an amendment would be offered to set that back till June 1, I would certainly have no objection, give them 90 days instead of 60 days. I wanted to keep it far enough ahead of the election so the auditors would have plenty of time to prepare because it will take them a while to prepare for the new districts, but I would have no objection to a date of June 1 there on line 32 on the second page."

Senator Zimmerman: "I guess I just would not be able to work unless you did change the date. I haven't prepared an amendment. It just seemed to me it was impossible to make it work."

POINT OF INQUIRY

Senator Lysen: "I have several questions about this that I think are—this is a legislative responsibility we are transferring to a commission and yet you are going to have the Governor appoint one from the executive branch. Isn't that a violation of the separation of powers and the same with the Chief Justice? These are two concerns I have with it."

Senator Metcalf: "... that is proper. This is a constitutional amendment and if we, if the Legislature approves it and the people adopt it, I think that that would be completely proper."

Senator Lysen: "Wouldn't it be similar of us appointing someone to the Governor's cabinet? Maybe I should ask Senator Hemstad or Senator Pullen about this."

The motion by Senator Guess carried and the Senate moved to reconsider the vote by which the amendment by Senator Haley, as amended, was adopted.

MOTION

On motion of Senator Bottiger, Senators Conner and Peterson were excused.

The President declared the question before the Senate to be adoption of the amendment by Senator Haley, a amended, on reconsideration.

Debate ensued.
POINT OF INQUIRY

Senator Wilson: "Will Senator Hemstad yield? Senator Hemstad, at 10:15 at night, all I am trying to do is make an intelligent decision between the Haley and the Metcalf amendment. Now you are a trustworthy soul and would you kindly outline for this body very briefly the difference between these amendments so we can make a rational decision?"

Senator Hemstad: "I think, simply stated, the Haley amendment assigns the responsibility for redistricting to an independent commission now limited to legislative redistricting. The Metcalf amendment would give a first shot to the Legislature to do it. If it did not do it by, I believe it is March 1 in the present proposal, then it would at that point in the year in which it would first be addressed be transferred to a commission that would then have responsibility to proceed. So it is a two-step process with the Legislature having the first shot in the Metcalf amendment. It is exclusively a commission in the Haley amendment."

POINT OF INQUIRY

Senator McDermott: "It looks to me like on line 23 that it is not March 1. It says if the Legislature fails to accomplish either reapportionment or redistricting by the adjournment sine die of the complete regular session. That would sound like it was April 26, 1991 that we are talking about rather than March 15."

Senator Hemstad: "I believe you are correct. There would probably be a floor amendment to correct what would appear to be a deficiency in the amendment, but in any event the point is in separating out these, we are looking at a two-step process in the one situation as against the complete transfer of the authority in the other."

Further debate ensued.

Senator McCaslin demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the amendment by Senator Haley, as amended, on reconsideration.

THAT, At the next general election to be held in this state there shall be submitted to the qualified voters of the state for their approval and ratification, or rejection, an amendment to the Constitution of the state of Washington, by amending Article II, section 3 to read as follows:

Article II, section 3. ((The legislature shall provide by law for an enumeration of the inhabitants of the state in the year one thousand eight hundred and ninety five and every ten years thereafter, and at the first session after such enumeration; and
also after each enumeration made by the authority of the United States; the legisla-
ture shall apportion and district anew the members of the senate and house of rep-
resentatives, according to the number of inhabitants, excluding Indians not taxed; soldiers, sailors and officers of the United States army and navy in active service;)

(1) After each decennial census made by the authority of the United States, beginning with the 1990 census, the legislature shall provide for the reapportionment and redistricting of the state into as many state legislative and congressional districts as are required by law. If the legislature fails to accomplish either reapportionment or redistricting by the adjournment sine die of a complete regular legislative session following the release of the final census figures by the United States bureau of the census, the redistricting commission established under subsection (2) of this section shall assume the responsibility for the unfinished redistricting and/or reapportion-
ment, precluding the legislature from further action thereon.

(2) No later than March 1st of the year in which the legislature is directed by subsection (1) of this section to provide for redistricting and reapportionment, a redistricting commission of seven members shall be appointed as follows:

(a) Each leader of the two largest political parties in each house of the legisla-
ture shall appoint one member;
(b) These four members, by an affirmative vote of at least three shall appoint a fifth member, who shall serve as chairman of the commission;
(c) The governor and the chief justice of the state supreme court shall each appoint one member.

No elected official may serve on the commission. The legislature shall establish by law the qualifications of commissioners and procedures for filling vacancies. The legislature shall further establish by law the duties and powers of the commission and shall appropriate funds to enable the commission to carry out its duties.

(3) Each district, whether defined by the legislature or by the commission, shall:

(a) Be of equal population as nearly as is practicable, excluding nonresident military personnel and their dependents;
(b) Be composed of convenient, contiguous territory;
(c) Be compact in form;
(d) Be separated from adjoining districts by natural geographic barriers or artificial barriers whenever possible;
(e) Be drawn to be consistent with the boundaries of local subdivisions and communities of interest wherever practicable;
(f) Be drawn without purposely favoring any political party, incumbent legislator, or other person or group; and
(g) Be drawn so that a precinct shall be wholly within a single representative, legislative, or congressional district.

The legislature may establish by law additional standards to guide the commis-
sion in preparing the redistricting plan.

(4) The commission shall adopt a redistricting plan approved by at least five members not later than May 1st of the year in which it is established. The commis-
sion shall file the plan with the secretary of state, whereupon it shall constitute the districting and apportionment law applicable to this state for legislative and/or congressional elections. The legislature may not amend such plan nor may it enact any law in conflict therewith.

(5) The supreme court shall have original jurisdiction to hear and decide all cases involving congressional and legislative redistricting.

(6) The commission shall cease to exist on June 1st of the year in which it is established, unless extended by order of the state supreme court under a case involving the redistricting plan.
BE IT FURTHER RESOLVED, That the secretary of state shall cause notice of the foregoing constitutional amendment to be published at least four times during the four weeks next preceding the election in every legal newspaper in the state."
