Pursuant to law, the Senate of the 1986 Regular Session of the Forty-ninth Legislature of the State of Washington was called to order at 12:00 noon by Lieutenant Governor John A. Cherberg, President of the Senate. The Secretary called the roll and all members were present except Senator Stratton. On motion of Senator Bender, Senator Stratton was excused.

WELCOME BY THE PRESIDENT

President Cherberg: "Ladies and gentlemen of the Senate. It is indeed a pleasure to see so many of you back. We would especially like to congratulate Senator Granlund. Where are you sir? We hope you enjoy the session and I am sure it will be a very productive and worthwhile session."

The Sergeant at Arms Color Guard, consisting of Pages Chad Beebe and Jodi Burns, presented the Colors. The Reverend Scott Sherman, pastor of the Unity Church of Seattle, and a guest of Senator Jeannette Hayner, offered the prayer.

PERSONAL PRIVILEGE

Senator Goltz: "Mr. President and members of the Senate, a point of personal privilege. I would like to speak on behalf of all of you this morning to welcome Senator Win Granlund to the chamber of the Washington State Senate.

"Senator Granlund will be representing the Twenty-sixth Legislative District. He was appointed by the county legislative authorities of Pierce and Kitsap Counties to replace Senator Barbara Granlund. He was appointed on October 14th and was sworn in October 18th, so he will not have to go through a swearing in ceremony this morning. We are particularly appreciative of the fact that we do not have to reprint the roll call and go to other expense in changing things because we have a new Senator in our midst in the middle of a session.

"Senator Granlund is a retiree of the South Kitsap School District. He served for thirty-three years as a teacher, coach, counselor and administrator. As a former principal of South Kitsap High School, Senator Granlund is imminently qualified to now take on the new responsibilities as row monitor of his row and we hope, Senator Granlund, that you will keep good order in your row and that you will enjoy your stay in the Washington State Senate. We enjoy having you here."

REMARKS BY SENATOR GRANLUND

Senator Granlund: "Thank you, Senator Goltz, for the remarks and the welcoming remarks to me in this body.

"When I was sworn in I said, on many times, I never thought I would be on this floor. I've watched many of the doings and your goings on from the balcony and from the wings and it was not maybe a desire at one time to even be here, but I'm looking forward to serving my district and the state of Washington, and working with you in the legislative process. Thank you for the welcome."
There being no objection, the President advanced the Senate to the eighth order of business.

GOVERNOR’S STATE OF THE STATE ADDRESS

Governor Gardner: "Mr. President, Mr. Speaker, Mr. Chief Justice, distinguished Justices of the Supreme Court, members of the Legislature, honored elected officials and fellow citizens of Washington State.

"The state of our state is stable. The economy is holding, although not growing as rapidly as we would like. Government is maintaining, though not expanding, vital programs. Unemployment has stabilized and even declined, though many people are going back to work for lower salaries than they earned in the past. The timber industry has restructured into a leaner, more efficient operation and seems to have leveled off in its employment. Things are stable, but stability has never been good enough for the people of this state. People want progress.

"A year ago I delivered my first address before you as a rookie Governor. It was a speech filled with optimism and with priorities. Those priorities remain today—A clean and safe environment, the best possible educational system, jobs for the unemployed and underemployed, and stable growth for our economy. I have spent a great deal of time in the past year talking with the people who pay the bills for government—the taxpayers. They share the goals which I have outlined, but they also had another message—'Get rid of waste and duplication in government.' Governors in the past have spent the majority of their time formulating policy and talking to the Legislature and the people. But when it came time to implement policy, they turned it over to state employees and left them to their own devices.

"Our approach has been different. My experience in the private sector taught me that you don't make policy decisions until you really understand how the business runs. I've spent countless hours over the past year dropping in on agency offices unannounced, talking with people who are responsible for carrying out policy and delivering services to the people of this state, and talking to the managers I have selected to run these agencies. I have instructed the managers to make these agencies as lean and effective as they can, and the results so far have been impressive. The Department of Labor and Industries was long thought to be totally unmanageable, but Dick Davis has done an outstanding job bringing that agency under control. By tightening up eligibility requirements in vocational rehabilitation to prevent abuse, the Department is projecting a savings of 175 million dollars over an 18-month period. Bud Shinpoch applied business techniques from the private sector to the Department of Revenue and saved more than a million dollars in operating costs. Now he's working for the same kind of efficient operation in the Department of Social and Health Services. His proposal is to reduce the number of supervisors from about 2,862 to about 1,532, putting an additional 1,330 people at the service-delivery level where they are desperately needed.

"Our state productivity program has blossomed under new enlightened management. For example, the Department of Labor and Industries had received a total of only 15 suggestions in two years. In 1985, the Department received 255 suggestions that will produce a savings of about $750,000. That experience shows what a tremendous resource we have in our state employees. When given proper support and challenged by leaders who really care about improving state services, they do quality work. Yet we have a long way to go in giving proper support to employees at the service delivery level, employees who carry excessive workloads and lack adequate clerical and word processing support. Bringing efficiency to state government requires a broad approach. The lines of communication between the people and decision-makers in state government are clogged. To fix the problem will take action akin to open-heart surgery.

"State government consists of more than 400 agencies, boards and commissions. Since 1982, more than 50 new boards, commissions and agencies have been established. The trend has been to create a new board, commission or agency for every new program. Attempts to control the growth have failed. Sunset review was established to try to eliminate unneeded commissions and agencies, yet growth continued. Taken as a whole, this hodgepodge, defies rational management, creates confusion in people's minds and results in duplication of effort.

"Then there is the question of authority and responsibility. When people elected a Governor in November of 1984, they thought they were picking someone to run government. What they got was a Governor who is responsible for less than
half the money and less than half of the state employees. Of the nearly 100 sepa-
ately budgeted agencies, only 35 report directly to the Governor. Most of the rest
report to a commission. Our high school civics classes taught us that there were
three branches of government—the Executive, the Judicial and the Legislative.
Today government has a fourth branch—the Commission. Commissions are com-
posed of people who make major decisions about the life of our citizens, yet you
never have the opportunity to vote for them or, probably, even to know who they
are. A major difference between a commission and the Governor is that if the peo-
ple aren't satisfied with the job the Governor does, you can fire him. As the third
Governor in five years, I'm proof of that, but you can't fire a commission.

'The problems I have outlined with the operation of government must be
solved before the people will be willing to trust us with new initiatives. My goal by
the end of the year is to be able to look each citizen in the eye and tell them, 'Like
everything else, Government is not perfect, but we are doing a good job with your
tax dollars.'

'The heart of my legislative program this year is a package of bills to reshape
state government. It took nearly 100 years for government to get in its current con-
tdition. We can't change it in a single session, but we will begin the process. Given
the problems, our goals are clear:
1. To create a streamlined and responsive state government that is account-
able to the public.
2. To improve citizen accessibility and understanding of state government.
3. To enhance the effectiveness of existing agency operations and procedures.

Given these goals, we will focus our efforts on the following objectives:
1. We will reduce the number of agencies through consolidations along func-
tional lines.
2. We will ensure that key functions of state government are performed by
agencies managed by executives appointed by the Governor.
3. We will give line managers greater administrative authority and a greater
role in decisions.

'Harry Truman had a sign on his desk that said, 'The Buck Stops Here.' I like
that idea and think the people want to know where the buck stops in this state. It is
true that the ultimate responsibility for any operation of state government rests with
the Governor. In turn, the Governor must build and lead a team that is able to del-
egate responsibility and is willing to live with the consequences. There will be mis-
takes, but there can be tremendous accomplishments. The challenge of a good
manager is to accept the blame for the mistakes and to share the credit for the
accomplishments.

'Now, let's get to the specifics. Government reorganization is not a single-ses-
son project. It is an unending process, but we must have a strong beginning this
year—a beginning that accomplishes the goals I outlined a moment ago. I am
recommending to the Legislature that the Governor be given direct responsibility
for the administration of the Department of Transportation, the Department of Game
and the Department of Parks and Recreation. This would include appointing the
director of these agencies. In each case, the commissions would be retained, but
their role would be focused on policy issues and serving as a link with constituenc-
cies actively involved with the areas.

'While I am recommending that the responsibility for the selection of the
director go immediately to the Governor, I am also recommending that a process
be established to review the statutes pertaining to each of the three areas and the
1987 session of the Legislature would be charged with passing legislation to clear
up any conflicts between the commissions and the directors.

In addition to requesting a clear line of authority to these agencies, I intend to
propose several other major changes. Twenty-four state agencies have less than
10 fulltime employees. In such cases, administrative overhead consumes a dispro-
portionate share of the agency's budget. When economic times get tough and
across-the-board cuts are made, the small agencies do not have the flexibility to
absorb a 10 percent cut without serious damage to the program.

'To begin with, I will be asking for the elimination of at least 10 boards and
commissions. These are commissions that have either outlived their usefulness, that
have never been utilized or that duplicate other entities in government.
Next, I propose the merger of certain functions of state government to provide more flexibility. I will propose that the Department of Emergency Management, the Office of Archaeology and Historic Preservation and the Fire Protection Board be eliminated as separate government agencies and their functions transferred into the Department of Community Development. Also, that the Board of Accountancy, the Cemetery Board and the Board of Pharmacy be transferred to the Department of Licensing, and that the Commission for Vocational Education be allowed to terminate through the Sunset process, and that a new State Board for Vocational Education, substantially reduced in size, be established with the Governor as chairman and the Superintendent of Public Instruction and the State Community College Director as members.

We will start by tackling the obvious issues this session, while continuing to pull together more information about how elements of government can be made more efficient. There will be those who will oppose these efforts. They will try to use scare tactics. They will talk about politics creeping into government and they will say the commissions are needed in their current role as a protection. My response to that is this. 'Do we really need to protect government from the people?'

Today we have annual legislative sessions, monthly legislative meetings, professional legislative staffs, open meetings, an aggressive press corps and public access to information. These are things that did not exist when commissions were first formed. I hope the members of this Legislature will have courage to look harshly on the arguments of the special interests when they come in opposition to these changes in government. These are bold steps, but they are only the beginning in what promises to be a long battle to bring the organization of government into the twentieth century. I am confident that this Legislature will join with me in an effort to make government more efficient and accountable to the people. After these first steps are taken, I will work with the Legislature to keep going and take even more action than I am offering today. It took nearly 100 years for government to get in the shape it is in today. We won't turn it around in one 60-day legislative session. I intend to pursue government reorganization methodically until the job is done. We will take on the task in manageable pieces.

Government reorganization is a critical issue this session, but there are other issues that must be addressed. Legislative leaders and I have worked long and hard to achieve a workable agreement on financing efforts to protect and improve water quality throughout this state, and have developed a responsible compromise. It is imperative that the water quality financing plan be approved this session. We also have a comparable worth agreement for your ratification. Our supplemental budget provides money for street kids, for respite care for the elderly, for education of the handicapped and for day care assistance for low-income families. Safe, affordable day care has become a necessity in thousands of single-parent and two-income families, and I will ask you to approve several measures which were recommended by the statewide day care task force.

Two other Governors and I worked all of last year to achieve a solution to our three states being the only repositories in the nation for low-level nuclear waste. Before it adjourned last month, Congress passed the bill which we had presented to it. I will send you legislation to implement our state's responsibility for policing this new national system. In the past year, there has been great concern over what state government is doing to help in-state businesses grow and prosper. I share that concern. Several departments have been working for months to implement a simplified business licensing system, and I have included funds in the supplemental budget to continue this process. We also have tried to expedite state reviews necessary for permits and we have brought agencies together through the economic development cabinet to help cut red tape.

As I look back over the past year, my greatest frustration as Governor has been the state's inability to provide adequate resources necessary to make substantial improvements in education. Education—both the common schools and higher education—has more responsibility for the future well-being of our people and communities than any other part of state government. In the past year, I have spent one day a month in the primary and secondary schools. I am acutely aware of the continuing problems that exist, ranging from levy equity and restrictive state
funding, to school employee salaries and the tremendous building needs in communities such as Selah and Bremerton.

"In condensing my school experiences over the past year into a brief summary, I am impressed with:

1. The complexity of the teaching process. There are many different levels of learning going on in a single classroom. As a result, the teaching process also becomes a management process. Teachers must motivate children to learn and to be creative, using many of the same techniques a manager would use to motivate his employees.

2. The diversity of the school system, which delivers many services to the communities, all the way from food and health resources to transportation and education. The schools also play a vital role in the socialization of our young, the learning and development of ideas, instincts and social skills--skills that will guide students through life.

3. The enthusiasm each community has for their children having a positive experience in the school system. They like students who are challenging and hard-working; and they like teachers who challenge their students, who teach creatively and who include the patrons of the school system into the development of new curriculum. This all adds up to a good school system.

"Throughout this state we have good school systems. If you doubt it, go see for yourself. Ultimately, however, our success is going to rely on our ability to attract and retain quality teachers. It will also rely on our ability to get children off to a positive start. Therefore, I've included funds in the supplemental budget for the early childhood education program, to give those most at risk a fighting chance when they are starting out.

"Finally, I am proposing legislation to make the appointment of the State School Board a Governor's appointment with ratification by the Senate. The current system of appointing members of the State Board is so obscure and removed from the people of this state that few understand it. It is my hope that this change will lead to a more intense and visible discussion about the future of education in this state.

"We have an equally great challenge in higher education. Our major universities are in danger of losing hard-won ground both in their programs and facilities. The need for additional resources must be addressed, at the same time that we look at the questions of who goes where, who pays for what and what they get for their money. A vital and prosperous future relies on answering these questions and meeting these needs. There is much more that should be done. The problem is that today, in this era of limited resources, there are simply not the resources at hand to begin major new initiatives in education. The people of this state are going to have to make some hard decisions about how much commitment they are going to put into the educational system.

"I have outlined an agenda for this legislative session. It will be a short, 60-day session. If we accomplish the goals I have outlined, this will be one of the most productive sessions in the history of the state. With reorganization and water quality, we are taking major initiatives that will affect the people of this state for generations. To do less is a commitment to the status quo. We have a great number of challenges ahead of us. We have an even greater number of opportunities. As a government, we must be lean, efficient and flexible. As a people, we must be understanding, compassionate and willing to break new ground.

"I hope this session can be the beginning of something very special in this state—not politics as usual, but government as it can be.

"Thank you."

THIRD READING

ENGROSSED SUBSTITUTE SENATE BILL NO. 3416, by Committee on Financial Institutions (originally sponsored by Senators Moore, Rasmussen, Halsan, Warnke and McDonald)

Providing penalties for persons writing drafts or checks and having insufficient funds.

The bill was read the third time and placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Moore, do you think that this is a heavy enough penalty where Westside Federal Savings or Shoreline would issue checks for millions of dollars and then can't make them good--and would this also affect E. F. Hutton with their balancing act?"
Senator Moore: "Well, of course, Senator, one of them comes under federal regulation and we can't do a whole lot about that and the other one, of course, comes under the SEC and the Department of Licensing in the state. Your question is well taken and something probably should be done, but I haven't any idea what the best approach is."

Senator Rasmussen: "I think you have a bill in your committee, Senator Moore, that would require them to reveal when they were in precarious straights—the bank examiner. I hope we can see that this session."

Senator Moore: "Well, it is certainly going to get a hearing, Senator Rasmussen, and God-willing, we'll get an opportunity—all of us—to vote on it."

The President declared the question before the Senate to be the roll call on final passage of Engrossed Substitute Senate Bill No. 3416.

ROLL CALL

The Secretary called the roll on final passage of Engrossed Substitute Senate Bill No. 3416 and the bill passed the Senate by the following vote: Yeas, 46; excused, 3.

MOTION

On motion of Senator Warnke, the rules were suspended. Reengrossed Substitute Senate Bill No. 3498 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Bluechei: "Senator Warnke, is this bill really necessary? Around here, we try to, it seems, regulate everything. Who wants the regulations? I know in King County that they have had some problems with the water quality of one of the operators and it was taken care of, but is it necessary for the state to set up a whole new series of regulations? If we set up advisory boards and the whole works, are we going overboard?"

Senator Warnke: "So to speak. The people that have requested are the Departments of Health of both the state and county. Both testified for the bill. The industry, itself, came in and testified that some regulation was needed to be instituted. We have worked closely with those people all through the interim two-year period and it is fairly well agreed to that there is a public safety hazard in not having regulations dealing with the quality and the safety of the water in the facilities that the general public is going to use. That is exactly what this bill is intended to do—to protect the general public from some of those infectious type contacts."

Further debate ensued.

The President declared the question before the Senate to be the roll call on final passage of Reengrossed Substitute Senate Bill No. 3498.

MESSAGE FROM THE GOVERNOR

April 17, 1985

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I am returning herewith without my approval Substitute Senate Bill No. 3090, entitled:

"AN ACT Relating to defense of persons."

The legislature in trying to strengthen the self-defense statute appears to have significantly broadened the areas of coverage. The current statute protects citizens who defend themselves or aid others in defense of heinous crimes from the added burden of paying legal fees when they are charged with criminal conduct. When the citizen's actions are found to be justified, the state will pay the legal costs. The current statute is a positive approach by state government to help its citizens.

However, Substitute Senate Bill No. 3090 includes an exemption for civil liability, as well as criminal, and could be construed to require the state to pay legal fees, loss-wages, and all expenses in civil cases. Normally, the losing party in a civil suit pays at least the court costs of the prevailing party. It would not be appropriate to expand the use of state funds to pay legal fees, loss-wages and other expenses in civil cases where the state is not a party to the litigation.

The bill also greatly expands the offense categories which are covered under self-defense actions. The United States Supreme Court recently handed down a decision concerning the use of force by law enforcement to stop a fleeing criminal. The Court ruled that the crime committed should be considered a "dangerous felony" for the police to shoot the criminal. The offense categories in this bill are expanded beyond what could be considered a dangerous felony and should be the subject of further review before changes are made, including a review of the state law on use of deadly force.

The bill would also expand coverage for legal fees to include law enforcement officers who are required to defend themselves in a coroner's inquest or other similar proceeding. According to RCW 30.24.020, coroner's inquests are a local decision and proceeding with cost borne at the local level. It would seem reasonable that additional costs for law enforcement officers are also clearly a local responsibility, which should not be transferred to the state.

For the above reasons, I have vetoed Substitute Senate Bill No. 3090.

Respectfully submitted,

BOOTH GARDNER

The veto message on SUBSTITUTE SENATE BILL NO. 3090 was referred to the Committee on Judiciary.

(1) The governing bodies of counties and cities may amend the codes enumerated in RCW 19.27.031 as they apply within their respective jurisdictions, but the amendments shall not result in a code that is less than the minimum performance standards and objectives contained in the state building code. No amendment to a code enumerated in RCW 19.27.031 that affects single family or multifamily residential buildings shall be effective unless the amendment is approved by the building code council under RCW 19.27.074(1)(b). INITIATIVE TO THE LEGISLATURE NO. 90

AN ACT Relating to fish and wildlife management; amending RCW 82.08.020, 82.12-020, 82.12.045, and 43.99.110; adding a new section to chapter 43.99 RCW; creating a new section; and providing an effective date.

NEW SECTION. Sec. 1. Washington’s fish and wildlife resources belong to all residents of the state. We all benefit economically, recreationally, and aesthetically from these resources. Wildlife management should provide for healthy populations of all species. Adequate funding for proper management now, and for future generations, is the responsibility of everyone.

The universal need of wildlife is sufficient and suitable habitat. Other fundamental needs include control of poaching, a comprehensive resource data base, and a well-informed public. Recreational needs include increased public access and properly funded facilities such as fish hatcheries. To meet these critical needs, a stable and sufficient funding source must be secured. License revenues, the traditional funding source for wildlife, are not keeping up with costs.

Reinvesting in these valuable wildlife resources will protect our quality of life and maintain a three billion-dollar state industry.

Sec. 2. Section 1, chapter 32, Laws of 1985 and RCW 82.08.020 are each amended to read as follows:
There is levied and there shall be collected a tax on each retail sale in this state equal to six and five-tenths percent of the selling price.

In the tax imposed under subsection (1) of this section, there is levied and shall be collected on each retail sale in this state an additional tax equal to one-eighth of one percent of the selling price. Moneys collected under this subsection shall be deposited in the state game fund and the wildlife account as provided in section 5 of this 1986 act.

(3) The tax imposed under this chapter shall apply to successive retail sales of the same property.

(4) The rates provided in this section (applies) apply to taxes imposed under chapter 82.12 RCW as provided in RCW 82.12.020.

Sec. 3. Section 82.12.020, chapter 15, Laws of 1961 as last amended by section 7, chapter 7. Laws of 1983 and RCW 82.12.020 are each amended to read as follows:

(1) There is hereby levied and there shall be collected from every person in this state a tax or excise for the privilege of using within this state as a consumer any article of tangible personal property purchased or acquired at retail, or acquired by lease, gift, repossession, or bailment, or extracted or produced or manufactured by the person so using the same, or otherwise furnished to a person engaged in any business taxable under RCW 82.04.280, subsections (2) or (7). This tax will not apply with respect to the use of any article of tangible personal property purchased, extracted, produced or manufactured outside this state until the transportation of such article has finally ended or until such article has become commingled with the general mass of property in this state. This tax shall apply to the use of every article of tangible personal property, including property acquired at a casual or isolated sale, and including byproducts used by the manufacturer thereof, except as hereinafter provided, irrespective of whether the article or similar articles are manufactured or are available for purchase within this state. Except as provided in RCW 82.12.0252, payment by one purchaser or user of tangible personal property of the tax imposed by chapter 82.06 or 82.12 RCW shall not have the effect of exempting any other purchaser or user of the same property from the taxes imposed by such chapters. The tax shall be levied and collected in an amount equal to the value of the article used by the taxpayer multiplied by the rate in effect for the retail sales tax under RCW 82.08.020, as now or hereafter amended, in the county in which the article is used.

(2) The moneys collected under this section which result from a rate of one-eighth of one percent of the value of the article used shall be deposited in the state game fund and the wildlife account as provided in section 5 of this 1986 act.

In the collection of the use tax on motor vehicles, the department of revenue may designate the county auditors of the several counties of the state as its collecting agents. Upon such designation, it shall be the duty of each county auditor to collect the tax at the time an applicant applies for the registration of, and transfer of title to, the motor vehicle, except in the following instances: (1) Where the applicant exhibits a dealer's report of sale showing that the retail sales tax has been collected by the dealer; (2) where the application is for the renewal of registration; (3) where the applicant presents a written statement signed by the department of revenue, or its duly authorized agent showing that no use tax is legally due; or (4) where the applicant presents satisfactory evidence showing that the retail sales tax or the use tax has been paid by him on the vehicle in question. The term "motor vehicle," as used in this section means and includes all motor vehicles, trailers and semitrailers used, or of a type designed primarily to be used, upon the public streets and highways, for the convenience or pleasure of the owner, or for the conveyance, for hire or otherwise, of persons or property, including fixed loads, facilities for human habitation, and vehicles carrying exempt licenses. It shall be the duty of every applicant for registration and transfer of certificate of title who is subject to payment of tax under this section to declare upon his application the value of the vehicle for which application is made, which shall consist of the consideration paid or contracted to be paid therefor. Any person wilfully misrepresenting, or failing or refusing to declare upon his application, such value shall be guilty of a gross misdemeanor.

Each county auditor who acts as agent of the department of revenue shall at the time of remitting license fee receipts on motor vehicles subject to the provisions of this section pay over and account to the state treasurer for all use tax revenue collected under this section, after first deducting as his collection fee the sum of two dollars for each motor vehicle upon which the tax has been collected. Except as provided in RCW 82.12.020, all revenue received by the state treasurer under this section shall be credited to the general fund. The auditor's collection fee shall be deposited in the county current expense fund. A duplicate of the county auditor's transmittal report to the state treasurer shall be forwarded forthwith to the department of revenue.

Any applicant who has paid use tax to a county auditor under this section may apply to the department of revenue for refund thereof if he has reason to believe that such tax was not legally due and owing. No refund shall be allowed unless application therefor is received by the department of revenue within two years after payment of the tax. Upon receipt of an application for refund the department of revenue shall consider the same and issue its order either granting or denying it and if refund is denied the taxpayer shall have the right of appeal as provided in RCW 82.32.170, 82.32.180 and 82.32.190.
The provisions of this section shall be construed as cumulative of other methods prescribed in chapters 82.04 to 82.32 RCW, inclusive, for the collection of the tax imposed by this chapter. The department of revenue shall have power to promulgate such rules and regulations as may be necessary to administer the provisions of this section. Any duties required by this section to be performed by the county auditor may be performed by the director of licensing but no collection fee shall be deductible by said director in remitting use tax revenue to the state treasurer.

NEW SECTION. Sec. 5. A new section is added to chapter 43.99 RCW to read as follows:

(1) Two-thirds of the moneys collected under RCW 82.08.020(2) and 82.12.020(2) shall be deposited in the state game fund.

(2) One-third of the moneys collected under RCW 82.08.020(2) and 82.12.020(2) shall be deposited in the wildlife account hereby created in the state treasury. The wildlife account shall be administered by the interagency committee for outdoor recreation and shall be used for programs and projects related to fish and wildlife conservation and recreation. Moneys in the wildlife account shall be divided as follows:

(a) Not less than forty percent to state agencies. upon application, for eligible programs and projects. "State agencies" include the Washington departments of fisheries, game, natural resources, and ecology, the state parks and recreation commission, and the office of the superintendent of public instruction.

(b) Not less than forty percent to local agencies. upon application, for eligible programs and projects. "Local agencies" mean those public bodies defined in RCW 43.99.020(2).

The interagency committee for outdoor recreation shall adopt rules for the distribution of funds from the wildlife account in accordance with the comprehensive plan under subsection (3) of this section. Multiple use projects and cooperative programs between agencies are encouraged as long as they are consistent with the comprehensive plan.

(3) All funds shall be allocated according to a new comprehensive fish and wildlife management plan. The plan shall be developed by the department of game, in consultation with the public and agencies eligible to receive a portion of these funds. Habitat protection and enhancement shall be the primary consideration in development of the comprehensive plan. Other considerations shall include public access, wildlife enforcement, conservation education, population enhancement, and research. The purpose of the plan shall be to establish long-range goals; modern, integrated data collection and management systems; and methods for determining and managing trends for all elements of the resource. The planning and monitoring shall be ongoing and continuous efforts.

Sec. 6. Section 84, chapter 287, Laws of 1984 as amended by section 1, chapter 77, Laws of 1985 and RCW 43.99.110 are each amended to read as follows:

Section 12, of the Washington State Constitution:

Section 6 and 7 of Senate Bill No. 3569, the remainder of which has been designated Chapter 188, Laws of 1985.

IN TESTIMONY WHEREOF, I have hereunto set my hand, and affixed the Seal of the state of Washington at Olympia, this twenty-sixth day of April, 1985.

MESSAGES FROM THE GOVERNOR
VETOES AND PARTIAL VETOES

May 20, 1985

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:

I am returning herewith without my approval as to Section 5, Substitute Senate Bill No. 3007, entitled:

"AN ACT Relating to motor vehicles;"

Section 5 provides that the value of a motor vehicle for the purpose of paying a use tax will be determined by a bill of sale signed by both parties. Such a proviso would require the acceptance of an unverified document as proof of sales price.

It is my belief that this is an improper way to administer the laws relating to tax collection on vehicles. The Departments of Revenue and Licensing have indicated that they will administratively provide instructions to Licensing's agents to insure the best collection method for use tax on motor vehicles.

With the exception of Section 5, which I have vetoed, Substitute Senate Bill No. 3007 is approved.

Respectfully submitted.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:

I am returning herewith without my approval as to several portions, Engrossed Senate Bill No. 3067, entitled:

"AN ACT Relating to aquatic farming."

Section 6 would create an aquaculture advisory council appointed by the Governor. I wholeheartedly support the purpose of the council, which will bring together private interests with the state agencies responsible for aquaculture promotion and regulation. This cooperation is essential to a successful program. However, the council should more appropriately be appointed by and report to the Director of the Department of Agriculture, who has the prime responsibility for promotion under the Act. The Director has authority under existing statute to appoint such an advisory body. The Director should consult the Departments of Fisheries and Natural Resources in making appointments.

Section 8(7) would provide treble damages in civil actions by aquatic farmers in cases where Department of Fisheries' orders for the destruction of aquatic products are held to be unreasonable. Treble damages against the state are without precedent and are, I believe, excessive and unnecessary. However, removing this provision in no way suggests that the Department should not be accountable for its actions. When the Department has committed an
unreasonable act, the courts should continue, as under current law, to award actual and consequent damages.

Section 26(2) would require the Department of Fisheries to survey the boundaries of the state's Puget Sound oyster reserves, assess their ability to support aquaculture, and report to the legislature regarding their optimum use. The Department of Fisheries reports that the surveys required by this subsection would cost more than $500,000, for which no funding has been provided. In recognition of the need to enhance Puget Sound oyster reserves, I have signed into law Substitute Senate Bill No. 4041. This requires that Fisheries categorize the reserves according to their best uses. It further requires that Fisheries undertake a pilot Olympia oyster cultivation project.

With the exception of Sections 6, 8(7) and 26(2), which I have vetoed, Engrossed Senate Bill No. 3067 is approved.

Respectfully submitted,
BOOTH GARDNER, Governor

Referred to Committee on Agriculture.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I am returning herewith without my approval as to Section 1, Substitute Senate Bill No. 3069, entitled:

"AN ACT Relating to professional service corporations;"

Section 1 of Substitute Senate Bill No. 3069 permits non-profit corporations practicing in one of the professions otherwise regulated by Title 18 of the Revised Code of Washington to employ individuals or groups incorporated under Title 18. This provision is unnecessary to the central purpose of this measure which is to permit organizations currently organized under Title 18 to organize under the non-profit corporation provisions of Title 24.

The inclusion of this provision raises significant questions about the relationships of for-profit enterprise with non-profit corporations. There is no current bar to a non-profit corporation contracting with a Title 18 professional services corporation as long as an arms-length relationship is maintained. Section 1 of Substitute Senate Bill No. 3069 is therefore unnecessary unless some change in existing policy is intended. I believe that any provision which implies less stringent standards than those in the current law governing the relationship of non-profit entities to for-profit enterprise is unwise. I have therefore vetoed Section 1.

With the exception of Section 1, which I have vetoed, Substitute Senate Bill No. 3069 is approved.

Respectfully submitted,
BOOTH GARDNER, Governor

Referred to Committee on Human Services and Correction.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I am returning herewith Substitute Senate Bill No. 3090, entitled:

"AN ACT Relating to defense of persons."

The legislature in trying to strengthen the self-defense statute appears to have significantly broadened the areas of coverage. The current statute protects citizens who defend themselves or aid others in defense of heinous crimes from the added burden of paying legal fees when they are charged with criminal conduct. When the citizen's actions are found to be justified, the state will pay the legal costs. The current statute is a positive approach by state government to help its citizens.

However, Substitute Senate Bill No. 3090 includes an exemption for civil liability, as well as criminal, and could be construed to require the state to pay legal fees, loss-wages, and all expenses in civil cases. Normally, the losing party in a civil suit pays at least the court costs of the prevailing party. It would not be appropriate to expand the use of state funds to pay legal fees, loss-wages and other expenses in civil cases where the state is not a party to the litigation.

The bill also greatly expands the offense categories which are covered under self-defense actions. The United States Supreme Court recently handed down a decision concerning the use of force by law enforcement to stop a fleeing criminal. The Court ruled that the crime committed should be considered a "dangerous felony" for the police to shoot the criminal. The offense categories in this bill are expanded beyond what could be considered a dangerous felony and should be the subject of further review before changes are made, including a review of the state law on use of deadly force.

The bill would also expand coverage for legal fees to include law enforcement officers who are required to defend themselves in a coroner's inquest or other similar proceeding. According to RCW 30.24.020, coroner's inquests are a local decision and proceeding with cost borne at the local level. It would seem reasonable that additional costs for law enforcement officers are also clearly a local responsibility, which should not be transferred to the state.
For the above reasons, I have vetoed Substitute Senate Bill No. 3090.
Respectfully submitted,
BOOTH GARDNER, Governor

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:

I am returning herewith, without my approval as to three portions of Substitute Senate Bill No. 3184, entitled:

"AN ACT Relating to state-owned housing."

This bill would establish that no rent could be charged to state employees who are required to live in state-owned or leased living facilities as a condition of their employment. I have been advised this portion of the bill is mandated by an existing court order and the old rent structure varied from zero to $100 per month. I have left this portion of the bill intact, but noting the free rent may count as income for retirement and other tax purposes.

However, Section 3(1) in part, requires that housing be made available rent free to employees who work at the site but are not required to live there. These employees should pay rent since it is their option to live at the facilities. I have left intact the portion of the bill which allows employees the first option and non-employees the second option to occupy the housing if the agency chooses to rent the facility for its fair market rental value.

I have also vetoed Sections 3(2) and 3(3) which limited to $78 per month or less, the discretion of the state to charge employees the actual cost of utilities and placed the rent determination at the agency level rather than at a centralized level as it had been in the past.

In all these situations, the state is acting as a landlord and should fulfill its obligations beyond just maintaining the facilities in a safe and healthful condition. The facilities should also be made reasonably energy efficient given their age and design and given regular maintenance. I feel requiring these measures makes more business sense than setting an arbitrary average maximum rate and house size on utility rates by statute. Other legislation passed this session takes a major step in requiring energy standards for new housing. I feel the state also should work to make all of its buildings as energy efficient as financially practical.

The Department of Personnel, General Administration and affected agencies will be asked to work together to resolve the above issues reference rental rates and improving the energy efficiency and maintenance of housing involved. If necessary, I will ask the Department of Personnel and General Administration to adopt regulations or draft an Executive Order to implement a uniform progressive policy in this area.

With the exceptions of Sections 3(1) in part, 3(2) and 3(3), Substitute Senate Bill No. 3184 is approved.
Respectfully submitted,
BOOTH GARDNER, Governor

Referred to Committee on Governmental Operations.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:

I am returning herewith without my approval Substitute Senate Bill No. 3249, entitled:

"AN ACT Relating to group life insurance."

This bill would have established a separate statute governing group life insurance policies for members of an association composed of Washington National Guard members. The original intent for the bill was to allow the proceeds of members' group life insurance coverage to endow a scholarship fund. However, the final bill goes much further than that and contains provisions that should not be in statute.

I would be happy to consider legislation that would properly accomplish the original intent of this bill. In the meantime, I am pleased that an existing group policy is providing for the personal needs of Association members.

For the above reasons, I have vetoed Substitute Senate Bill No. 3249.
Respectfully submitted,
BOOTH GARDNER, Governor

Referred to Committee on Financial Institutions.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:

I am returning herewith without my approval as to four sections Engrossed Substitute Senate Bill No. 3261, entitled:

"AN ACT Relating to building codes."

This Act would establish the State Building Code Council. The Council would be responsible for the administration of the State Building Code. Counties, cities and towns would have the responsibility for its strict enforcement.
Substitute House Bill No. 1114, which I have signed, would also amend the State Building Code to provide a process and guidelines for the establishment and maintenance of up to date energy building codes.

I agree with the purpose of both bills. However, there are four double amendments that must be corrected.

Section 7 of Engrossed Substitute Senate Bill No. 3261 would conflict with the language of Section 1 of Substitute House Bill No. 1114. Therefore, I have vetoed Section 7 of Engrossed Substitute Senate Bill No. 3261 to avoid any possible confusion among the users of the State Energy Code.

Section 12 of Engrossed Substitute Senate Bill No. 3261 would make a minor amendment to a section of the State Building Code and makes reference to an obsolete federal code. Section 2 of Substitute House Bill No. 1114 extensively amends the same section of the State Building Code. Therefore, I have vetoed Section 12 of Engrossed Substitute Senate Bill No. 3261 as no longer being required.

Section 14 of Engrossed Substitute Senate Bill No. 3261 amends an obsolete provision of the State Building Code that would be repealed by Section 5 of Substitute House Bill No. 1114. Therefore, I have vetoed Section 14 of Engrossed Substitute Senate Bill No. 3261 to avoid any possible confusion.

Section 18 of Engrossed Substitute Senate Bill No. 3261 recodifies several obsolete sections of the State Building Code. Section 5 of Substitute House Bill No. 1114 repeals the same sections. Therefore, I have vetoed Section 18 of Engrossed Substitute Senate Bill No. 3261 as the recodification will not be necessary.

With the exceptions of Section 7, 12, 14, and 18, which are vetoed. Engrossed Substitute Senate Bill No. 3261 is approved.

Respectfully submitted.

May 21, 1985

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:

I am returning herewith, without my approval, Engrossed Senate Bill No. 3282, entitled: "AN ACT Relating to historic preservation:"

I support the intent of Engrossed Senate Bill No. 3282 which would require the Director of General Administration to assert a preference for historic properties when the state has a requirement to purchase, lease or rent space for state agency purposes. This preference is to be asserted when it would be feasible and prudent compared with available alternatives.

Nevertheless, I am vetoing Engrossed Senate Bill No. 3282 because it would impose a costly procedure on the State Historic Preservation Officer (SHPO) to prepare a detailed list of qualifying properties in each instance that the Department of General Administration has a space requirement to fill. The SHPO does not currently maintain the type of information about historic properties which is mandated by Engrossed Senate Bill No. 3282, and this legislation does not provide an appropriation.

While I am vetoing Engrossed Senate Bill No. 3282, I will establish by executive order a procedure for building and maintaining an inventory of suitable historic properties and a policy that establishes a preference for the state to use historic properties under certain circumstances.

For these reasons I have vetoed Engrossed Senate Bill No. 3282.

Respectfully submitted.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:

I am returning herewith, without approval as to certain sections, Substitute Senate Bill No. 3333, entitled: "AN ACT Relating to motorcycle franchises:"

This bill would establish a very detailed regulatory system for the business relationship between manufacturers and the dealers of motorcycles, all terrain vehicles, snowmobiles, and any motor vehicle weighing less than 1,500 pounds. The activities of both the manufacturer and dealer would continue to be regulated under RCW 46.70. The bill is held by its proponents as being necessary to end certain practices on the part of motorcycle manufacturers.

I believe that motorcycle manufacturers have been, at times, heavy-handed in their relationships with dealers. Nonetheless, government should be extremely careful about substituting statutory regulation for matters normally decided between the parties of a commercial transaction.

In general, government should not interfere with business transactions except to protect the consuming public from dangerous, anti-competitive, or fraudulent activities. The alleged actions leading to the measure at hand do not directly affect the consuming public but rather
the practices of one business with respect to another. It appears that many of these practices result from vigorous competition within the motorcycle industry.

Some of the provisions of Engrossed Substitute Senate Bill No. 3333 are reasonable standards for any business transaction. Other provisions place unreasonable restrictions on the ability of one party to engage in normal business activity. Others are clearly anti-competitive and would deny the public the benefits of a full, competitive market. For example, entry of new dealers in major urban markets would be virtually prohibited by this bill due to language giving dealers a ten mile radius marketing area. It also restricts warranty work to dealerships and prohibits manufacturers from owning or operating dealerships. All of these provisions, and others like them, restrict competition and would lead to higher prices for the consumers.

The bill also prohibits a manufacturer from reducing a dealer's allocations of motorcycles for poor sales performances, from denying a transfer or succession of dealership to another person except under extremely restricted conditions, and from initiating certain sales promotions which require dealer participation.

In summary, the bill places extraordinary restrictions on one type of business entity for the benefit of another. The public does not benefit from these restrictions and may, in fact, be adversely affected by reduced competition, higher prices and poor service.

The bill also would require manufacturers to purchase back all of a dealer's new or prior year "new" motorcycle inventory which had not been driven over fifty miles, all new, used and rebuilt parts, etc., at a price not less than current prices charged. This section would apply even where the dealer voluntarily chose to go out of business. This language puts the business risk almost totally on the manufacturer.

While this bill contains many provisions such as those described above which are not in the interests of the public, there are also desirable provisions which provide reasonable standards for any business relationship. To preserve these positive provisions, I have decided to approve this measure with the exception of a number of sections.

In making these vetoes, I have attempted to establish a balance between the interest of the dealers, manufacturers and the consumers. The consumer is best served by leaving room for competition between dealers and bargaining power on both sides between dealers and manufacturers in establishing franchise agreements.

For the above reasons, I have vetoed the following Sections: 3(2) in part, 3(8) in part, 3(16), 4(1)(a) in part, 4(1)(b), 4(1)(c), 4(1)(g), 4(7), 4(11), 4(17), 4(18), 4(20), 4(21), 4(22), 4(24), 5(4), 5(5), 6, 7, 8(1) in part, 8(2) in part, 10 in part, 11 and 12.

With the exception of the above vetoes, Substitute Senate Bill No. 3333 is approved.

Respectfully submitted,

BOOTH GARDNER, Governor

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I am returning herewith without my approval as to Section 1 subsection (5), Sections 3, 4, 5, and a portion of Section 7. Substitute Senate Bill No. 3354, entitled:

"AN ACT Relating to the medical aid fund;"

These sections of the bill would require expenditures from the Medical Aid Fund to be subject to appropriation. While this has been a very troubled program in the past, I have appointed new management which is actively undertaking management improvements. The need for control of health care costs is to run the workers' compensation program like the insurance business that it is. To do this, management needs the flexibility to adequately direct the program. For these reasons, I have vetoed Section 1 subsection (5), Sections 3, 4, 5, and a portion of Section 7.

With the exception of Section 1 subsection (5), Sections 3, 4, 5, and a portion of Section 7. Substitute Senate Bill No. 3354 is approved.

Respectfully submitted,

BOOTH GARDNER, Governor

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I am returning herewith without my approval as to Section 1. Substitute Senate Bill No. 3367:

"AN ACT Relating to the public disclosure law."

Section 1 amends the definition of "election campaign." While there may need to be more clarity in this definition. I do not believe the proposed change is appropriate. Under the proposed new definitions an "election campaign" would begin when the initial campaign committee organization form is filed. It would not end until a final report showing a $0 balance in the campaign fund is filed. In my opinion, this would mean an unacceptably long "election campaign" since most campaign committees do not file final reports after each November election.
NINTH DAY, JANUARY 21, 1986

With the exception of Section 1, Substitute Senate Bill No. 3367 is approved.

Respectfully submitted,
BOOTH GARDNER, Governor

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I am returning herewith without my approval as to one section Engrossed Substitute Senate Bill No. 3376, entitled:

"AN ACT Relating to governance in higher education;"

Senate Bill 3630 transfers the High Technology Coordinating Board’s administrative support responsibility from the existing Council for Postsecondary Education to the Department of Commerce and Economic Development. Engrossed Substitute Senate Bill No. 3376 replaces CPE with a new Higher Education Coordinating Board and changes existing statutes accordingly. Therefore, Section 3 of Senate Bill No. 3630 and Section 88 of Engrossed Substitute Senate Bill No. 3376 are in conflict as they relate to staff for the High Technology Coordinating Board. To carry out legislative intent, I, therefore, have vetoed Section 88 of Engrossed Substitute Senate Bill No. 3376.

With the exception of Section 88, Engrossed Substitute Senate Bill No. 3376 is approved.

Respectfully submitted.
BOOTH GARDNER, Governor

Referred to Committee on Education.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I am returning herewith, without my approval as to two portions of Substitute Senate Bill No. 3384, entitled:

"AN ACT Relating to salmon enhancement;"

The first two sentences of Section 8(1)(c) would require all facilities funded by the Salmon Enhancement Account to operate at full production capacity or be made available for volunteer cooperative projects to produce salmon for stocking state waters. This provision is apparently based on the idea that any hatchery not operated at full capacity is surplus. This is not the case. There are many good reasons for operating at less than full capacity, including disease control, water quantity and quality, and compliance with federal court orders.

The remainder of Section 8(1)(c) requires that the Salmon Advisory Council evaluate the operation of certain salmon hatcheries and report to the Legislature. I will request that the Council comply with this language.

Section 9 contains similar language relating to the Game Department. I am vetoing it for the same reasons.

With the exception of Sections 8(1)(c) and 9, Substitute Senate Bill No. 3384 is approved.

Respectfully submitted.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I am returning herewith, without my approval as to one section, Engrossed Senate Bill No. 3400, entitled:

"AN ACT Relating to the exploration and extraction of nonrenewable resources;"

Section 5 of this bill would change the fees for surface mining permits. The current fee structure was instituted only a year ago and has been very positively received. In addition, the change proposed in this section would result in the need for a higher general fund subsidy of this activity in a time of severe revenue shortfalls. I believe that the current fee structure should receive a longer trial and a thorough evaluation before we consider changing it again.

With the exception of Section 5, Engrossed Senate Bill No. 3400 is approved.

Respectfully submitted.
BOOTH GARDNER, Governor

Referred to Committee on Natural Resources.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I am returning herewith without my approval as to two sections, Senate Bill No. 3569, entitled:

"AN ACT Relating to risk management;"

Sections 6 and 7 of this bill would require claims against the state for damages arising out of tortious conduct to be filed with the Risk Management Office in addition to the currently
required filing with the Office of Financial Management. This dual claim filing could be unnec-
ecessarily burdensome and confusing to the public. However, notice to the Risk Management
Office is necessary to the improvement of our risk management program, which I support.

Therefore, I have directed the Office of Financial Management to provide the Risk Man-
agement Office with a copy of all filings. This will accomplish the purpose of these sections at
no inconvenience to the public. State government should avoid requiring duplicate filings by
the public when possible.

With the exceptions of Sections 6 and 7, Senate Bill No. 3569 is approved.

Respectfully submitted,
BOOTH GARDNER, Governor

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:

I am returning herewith without my approval as to two sections Engrossed Senate Bill 3612
entitled:

"AN ACT Relating to excess school levies;"
The primary purpose of Engrossed Senate Bill 3612 is to extend the levels of local school
support levy options for three years. Section 2 of that legislation also establishes a legislative
committee to undertake a review of the means to adequately fund the state's basic education
responsibilities.

I support both the need for such a study and the issues identified within Section 2. However,
I believe that there are additional far-reaching issues that must also be considered. These
issues include state and local revenues; the relationship of educational funding to other state
responsibilities; and structured relationships between the state and local schools which result
from state funding.

For this reason I am vetoing Section 2. In lieu of allowing that section to become law, I will,
bymexecutive order, establish a broadly based study committee including legislators, educators
and interested citizens.

Section 4 of the bill declares an emergency and provides for the act to take effect imme-
diately. The emergency clause section is not necessary in order to continue the administrative
provisions for the collection of the levels of school levies that would be based upon this legisla-
tion. The 1985 levies have already been certified. The 1986 levies are to be certified in October,
well after the normal effective date of this legislation.

The emergency clause should be restricted to those instances where its use is clearly war-
ranted due to the urgency of the situation. For these reasons I have vetoed Section 4.

With the exception of Sections 2 and 4, which I have vetoed, the remainder of Engrossed
Senate Bill No. 3612 is approved.

Respectfully submitted,
BOOTH GARDNER, Governor

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:

I am returning herewith, without my approval as to several sections, Second Substitute
Senate Bill No. 3656, entitled:

"AN ACT Relating to the budget; making appropriations and authorizing expenditures for
the operations of state agencies for the fiscal biennium beginning July 1, 1985 and ending June
30, 1987."

Section 1, Subsection (3), Page 2, Biennial budget.
The effect of this section is to place an absolute prohibition on transferring appropriations
between fiscal years 1986 and 1987. Based on the language of Subsection (4) of this section, I
do not believe the Legislature intended this absolute prohibition and the consequent restrictions
on management actions. In removing this language, I do not intend to transfer appropriations
between programs. Rather, I want to ensure the ability to allot monies as needed over the
entire biennium. I have therefore vetoed this section.

As further explanation of my veto of Subsection (3), I am offering the following comment on
the language in Subsection (5) which states the Legislature's intent that the dollars appropri-
ated are to sustain state government through the biennium without any supplemental appro-
priations. I endorse this statement and will manage within the scope of this policy. However, if
the assumptions underlying the appropriations in this document as to enrollments, caseloads,
prison population, and other critical factors vary significantly, it could result in a supplemental
budget request.

Section 2, Page 2, OFM review of publications.
This section prohibits production or publication of any magazine or brochure unless it has
been expressly authorized by the director of Financial Management. I believe agency direc-
tors and elected officials should be responsible for the content of their publications and whether
or not to publish them. I also believe that sufficient oversight authority already exists under

May 20, 1985
RCW 40.07. However, we will advise agencies of the Legislature’s concern. Agencies will be required to review their policies on publications and expected to use restraint.

I have vetoed the proviso to this section which places certain conditions and limitations upon the director of Financial Management in relationship to the State Auditor. RCW 43.09.418 currently allows the director of the office of Financial Management the discretion to approve payments to the State Auditor in excess of the legislative appropriation in cases of necessity. This proviso in the budget would require OFM to approve any additional payments as determined by the State Auditor. This language appears to limit the discretion of OFM rather than broaden it.

Section 121, Subsection (4) in part. Page 8. DWI grants.

I have vetoed the following sentence from Subsection (4) of Section 121: “No city or county is eligible for grants under this subsection unless the city or county has levied or proposed all optional excise taxes authorized by the Legislature.” This language appears to disallow most, if not all, of the fifty jurisdictions presently receiving grants. Few “levied or proposed all optional excise taxes” which probably means the half-cent sales tax, the quarter percent real estate excise tax, the gambling excise taxes, and other miscellaneous excise taxes.

However, the message from the Legislature to cities and counties is clear—don’t ask for more money until you have exhausted or tried to exhaust all avenues to raise local taxes for funding this activity. The funds provided in this budget are to allow local governments time to assume full responsibility for support of this program.

Section 214, Subparagraph (2). Page 36. Work Incentive Demonstration Project.

The Work Incentive Demonstration Project (WIN Demo) is a federal program which would require the consolidation of WIN Work Programs under DSHS administration. At the current time, responsibility for the program is divided between DSHS and the Employment Security Department. Implementation of WIN Demo would result in a reduction of federal funds. It is possible, however, that this reduction would be offset by operating efficiencies.

I am vetoing the requirement that a WIN Demo application be submitted to the federal Department of Health and Human Services. I have the matter of WIN Demo and other means to increase the effectiveness of WIN programs under consideration. My intention is to initiate program changes in this area within the near future.

Section 214, Subparagraphs (3) and (4). Page 36 and 37. Community Work Training Programs.

I am vetoing the sections requiring increases in these programs because no money was appropriated for the staff needed to carry them out.

I have vetoed Subsection (2) of Section 311 because Subsections (1) and (2) appear redundant in part. I have chosen to retain Subsection (1), which appears to more accurately conform with the description of the activities intended for these funds.

Section 601, Subsection (3) in part. Page 75 and Section 602, Subparagraph (4). Page 77. Community College intercollegiate sports.

I have vetoed the first sentence of Subsection (3) of Section 601 and Subsection (4) of Section 602 which would have placed a $648,000 maximum on what could have been spent for intercollegiate sports purposes by the State Board for Community College Education. This amount was based upon inaccurate data provided to the Legislature. While I do not condone providing less than accurate figures, either through oversight, inadvertence or neglect, it would be inappropriate to create unintended consequences by imposing the extent of this reduction. I have left intact the portion of Subsection (3) which expresses the Legislature’s intent for intercollegiate sports becoming self-supporting to the greatest extent feasible by June 30, 1989. The Board has agreed by these programs under consideration to increase the effectiveness of WIN programs by 90 percent of the actual current funding level for this activity, which is consistent with the approach for most four-year institutions.

I have vetoed the language “other than normal increments” from the first sentence in Subsection (4) of Section 603 and Subsection (5) of Section 604. I have done so because this language appears to have been included inadvertently and only serves to confuse the meaning of this section. The University of Washington and Washington State University do not have “normal increments” for faculty salaries. The vetoed language is standard in salary provisions in a number of other areas of state government where normal increments do occur.

Section 604, Subsection (6). Page 80, W.S.U. Southwest Joint Center for Education.

I have vetoed this section which places a maximum of $7,500 per academic year for full-time equivalent enrollment average for the biennium to be spent at the Southwest Joint Center for Education for Washington State University. The Southwest Joint Center is intended to provide students in Southwest Washington access to first rate scientific and technical instruction provided by Washington State University. This is a worthwhile objective, but the current costs of this program are more than four times higher on a per student basis than any other similar program. The Legislature found the difference unacceptable and I agree. Reducing costs to a yearly average of $7,500, however, is simply not practical. It would very likely result in the total failure of this program. While vetoing this provision, I expect the administrators of the
Southwest Joint Center program to take effective action beginning immediately to reduce per
student costs to a level which is comparable to other similar programs.

Section 609, Subsection (1) in part, Page 84, Funding for Council for Postsecondary
Education.

I have vetoed the first sentence in Subsection (1) of Section 609 which reads "16,824,000
from the fiscal year 1986 general fund - State Appropriation and $16,824,000 from fiscal year
1987 general fund - State Appropriation are provided solely for student financial aid, including
administrative costs." A technical error in this subsection resulted in $300,000 of general oper­
ing funds for the agency being earmarked for financial aid. The result is an inadvertent
$300,000 reduction for other council programs which would severely impact this agency.

With the exception of Sections 1 (3), 2, 119 - The proviso, 121 (4) in part, 214 (2), (3) and (4),
311 (2), 601 (3) in part, 602 (4), 603 (4) in part, 604(5) in part, 604 (6), and 609 (1) in part. Second
Substitute Senate Bill No. 3656 is approved.

Respectfully submitted,

BOOTH GARDNER, Governor

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:

I am returning herewith without my approval as to several sections, Engrossed Substitute
Senate Bill No. 3678, entitled:

"AN ACT Relating to revenue and taxation;"

The following sections of Engrossed Substitute Senate Bill No. 3678 are hereby vetoed: Sec­
tions 2, 3, 4, 5, 6, 7, and the part of Section 9 which refers to Sections 3 through 6.

This bill was a very narrow one which Is a response to the recent U. S. Supreme Court.
decision in Armco relating to taxation. Due to the narrowness of my request and the need for
passage of this legislation, I requested that no other measures regardless of merit be attached
as amendments.

Although the sections I am vetoing may be meritorious, I believe it is important to maintain
the legislation as a narrow bill as requested.

With the exception of those sections vetoed, Engrossed Substitute Senate Bill No. 3678 is
approved.

Respectfully submitted,

BOOTH GARDNER, Governor

Referred to Committee on Ways and Means.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:

I am returning herewith without my approval as to two portions Substitute Senate Bill No.
3684, entitled:

"AN ACT Relating to lotteries;"

Section 2(6) of this bill would require the Lottery to competitively bid all contracts exceed­
ing $2,500 in value. The Lottery now competitively bids all contracts for goods. Contracts for
services, however, are done on a negotiated basis when appropriate. The option of negotiat­
ing contracts in appropriate circumstance is available to all other departments, and should
continue to be available to the Lottery.

Section 3 of the bill would forbid former lottery employees, (managers and rank and file
alike), within two years of termination, to work for an employer that supplies or promotes lot­
ttery related goods or services. This section was apparently designed to prevent state employ­
ees from providing favored treatment to suppliers in hopes of receiving employment after
termination. This concern is not without foundation, nor without countervailing concerns for the
rights of individuals to use their skills and knowledge for their own benefit. Because the same
potential for wrongdoing exists in several other areas of state government I believe that this
situation should be treated in a comprehensive manner and more practical in scope as an
amendment to the conflict of interest statutes, RCW 42.18.

With the exception of Sections 2(6) and 3, Substitute Senate Bill No. 3684 is approved.

Respectfully submitted,

BOOTH GARDNER, Governor

Referred to Committee on Ways and Means.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:

I am returning herewith without my approval as to Section 1(e), Substitute Senate Bill No.
3799, entitled:

"AN ACT Relating to nuclear energy and materials;"

Section 1(e) is identical to Section 1(c) of Engrossed Second Substitute House Bill No. 3. Since
I have previously signed E2SHB No. 3, Section 1(e) of this bill is unnecessary.

Respectfully submitted,

BOOTH GARDNER, Governor

Referred to Committee on Ways and Means.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:
I am returning herewith, without my approval as to Sections 14, 65, 66, 70, 71, 74, 77, 79, 81, 82 and 85 Senate Bill No. 3800, entitled: "AN ACT Relating to publications."
Sections 14, 65, 66, 70, 71, 74, 77, 79, 81, 82 and 85 conflict with provisions contained in Substitute House Bill No. 150 and House Bill No. 331. While the proposed amendatory language contained in these sections is consistent with the intent of Senate Bill No. 3800, they would no longer be applicable since Substitute House Bill No. 150 and House Bill No. 331 are approved. I have, therefore, determined to veto these sections in order to avoid difficulties in codification and future interpretation of these sections.
With the exception of Sections 14, 65, 66, 70, 71, 74, 77, 79, 81, 82 and 85, which I have vetoed, Senate Bill No. 3800 is approved.
Respectfully submitted,
BOOTH GARDNER, Governor

Referred to Committee Energy and Utilities.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:
I am returning herewith, without my approval as to Section 8(18), Engrossed Second Substitute Senate Bill No. 3828, entitled: "AN ACT Relating to Puget Sound water quality."
This is a significant bill which establishes a planning mechanism for improving and maintaining the water quality of Puget Sound. The Puget Sound Water Quality Authority is reestablished as a seven-member body and required to develop, with the participation of all interested citizens, a comprehensive Puget Sound water quality management plan by January 1, 1987.
Section 8 requires the plan to be a "positive document prescribing the needed actions for the maintenance and enhancement of Puget Sound water quality." This section also specifies twenty subjects which are to be studied by the Authority and included in the plan. With the exception of Subsection 18, these subjects are all positive actions that are likely to result in improved water quality for Puget Sound.
Subsection 18 of Section 8 calls for the Authority to make recommendations for "implementation of waivers from the uniform national requirements of secondary treatment." This language was added by amendment late in the legislative process and is not, in my opinion, consistent with the purposes of the act. Moreover, our Congressional delegation has indicated that the prospect for secondary treatment waivers under federal law appears remote and that "political and practical reality calls for secondary treatment compliance." The issue has the potential to consume too much of the limited time for the Authority to develop the plan. For these reasons, I am vetoing Section 8(18).
With the exception of Section 8(18), which is vetoed, Engrossed Second Substitute Senate Bill No. 3828 is approved.
Respectfully submitted,
BOOTH GARDNER, Governor

Referred to Committee on Judiciary.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:
I am returning herewith, without my approval as to Sections 3, 5, 9 and Section 40 in part, Engrossed Substitute Senate Bill No. 3856, entitled: "AN ACT Relating to fire protection."
This bill would create a ten-member Fire Protection Board to administer the fire protection services that are now under the Insurance Commissioner and the fire training services that are now under the Commission for Vocational Education.
I agree that the fire protection functions which are brought together in this measure ought to be located within a single agency. I do not believe that it is wise to create a separate, single-purpose state agency—governed by a new board for this purpose. The functions should properly be located within the executive branch in an agency responsible to the Governor.
Since I believe the purposes of this measure are worthwhile, I am approving it with several exceptions. I am vetoing the following:
Section 3: establishes the terms of the Board.
Section 5: says the Governor selects one member to serve as chairperson.

Respectfully submitted,
BOOTH GARDNER, Governor

Referred to Committee on Parks and Ecology.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON

Respectfully submitted,
BOOTH GARDNER, Governor
Section 9: authorizes the Board to employ an Executive Director.
Section 40: as to the portion requiring the Board and Director to be appointed by October 1, 1985.

By vetoing these sections, a board will be established which may later act in an advisory capacity to the fire protection unit. The board will not, however, be able to proceed to implement the substantive provisions of this act until the legislature passes new legislation.

I intend to ask the next regular session of the legislature to perfect this measure by placing the functions of the board in an existing executive agency and making the board advisory to that agency.

For these reasons, I have vetoed Sections 3, 5, 9 and a part of Section 40 of Engrossed Substitute Senate Bill No. 3856.

Respectfully submitted,

BOOTH GARDNER, Governor

Referred to Committee on Commerce and Labor.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:

I am returning herewith, without my approval as to several portions, Engrossed Substitute Senate Bill No. 3920, entitled:

“AN ACT Relating to transportation.”

The provisions I have vetoed and the reasons therefore are as follows:

1. County Road Administration Board

The proviso language in Section 4 requires the County Road Administration Board to hire, contract or project personnel for the Implementation of the Pavement Management System and the completion of the road jurisdiction and revenue distribution study. While such an approach is probably desirable, the proviso places restrictive conditions on the Board’s hiring procedures before the implementation planning has begun. The new positions require persons who have specific expertise in road engineering; the Board’s ability to recruit qualified personnel is limited by the necessity to hire only those applicants who would be willing to take a temporary position.

The proviso also requires the Board to provide a detailed report to the Legislative Transportation Committee on the cost effectiveness of utilizing consultants or other non-agency personnel to undertake the implementation of the projects. My veto eliminates this requirement; however, I strongly urge the Board to undertake this evaluation and to keep the legislature fully informed of its implementation plans.

2. Department of Licensing

Language in Section 9 requires that no more than $6,270,100 be spent for the County Auditor and Subagent Automation project. Although this figure represents the additional appropriation authority necessary to support the project, the total cost is $7.8 million, offset by $1.5 million in savings. Because of the misleading project cost reflected in the proviso amount, and the accounting problems which would result from keeping track of both expenditures and savings, I am vetoing the proviso. It is expected that the Department of Licensing will nevertheless comply with legislative intent by keeping net expenditures to the amount stipulated and by complying with all other requirements of the original proviso.

With the exception of the provisos in the aforementioned sections, which I have vetoed, Engrossed Substitute Senate Bill No. 3920 is approved.

Respectfully submitted,

BOOTH GARDNER, Governor

Referred to Committee on Transportation.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON
Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute Senate Bill No. 3981, entitled:

“AN ACT Relating to exemption from industrial insurance premiums for taxicab operators.”

This bill would remove taxicab operators who work as independent contractors from mandatory coverage under the state’s industrial insurance program. As a group, these operators appear to be treated like many other employees although technically they may be independent contractors. This bill would deprive them of the security provided by the worker’s compensation system without establishing any workable system to insure they would pick up the cost on their own as self-employers.

It is likely that many drivers will not pay for their own insurance coverage, either because they view their work as temporary, feel the coverage is too expensive, believe they will never need coverage, and realize enforcement and collection will be difficult and expensive. The result of injuries without coverage will only serve to shift the cost to the State General Fund under social programs when the cost of adequate coverage should be borne by the business activity.

I realize the rates in this occupation are high. This is a problem to address along with other Labor and Industry issues. Other businesses have to bear the cost of this insurance, and it would
not be fair to shift this cost to taxicab drivers when it is likely that a high percentage will not participate and will not be covered for their injuries.

For these reasons, I have vetoed Substitute Senate Bill No. 3981.

Respectfully submitted,

BOOTH GARDNER, Governor

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 2 through 4 and Sections 13 through 15, Engrossed Substitute Senate Bill 4228, entitled:

"AN ACT Relating to revenue and taxation."

This measure contains several changes to business taxes. It includes important new revenue sources to meet the infrastructure financing needs of local government. It also includes adjustments in taxes for several industries which have clearly demonstrated that present taxes place them at a significant competitive disadvantage to similar businesses in other states. In each of these cases, Washington industries made convincing cases that continuing the current taxes would result in actual loss of existing business within the state with a resulting loss of jobs.

While approving the provisions of Sections 1, 5, 6, 7 and 16, I want to express once again my extreme distaste for piecemeal tax reform. I have approved these provisions only because I believe actual and irreparable losses of business and jobs would result before any general reform can occur. Substantial inequity continues to exist for many other industries in this state which must be addressed in a comprehensive manner in the very near future.

Sections 2 and 3 are essentially identical to Sections 1 and 2 of Engrossed House Bill 99, which I have already signed into law. They are vetoed to avoid double amendments. Section 4 is identical to Section 5 of Engrossed House Bill 99, which I have vetoed and which I am again vetoing.

Sections 13 through 15 create a fifty percent exemption from the B & O tax for new businesses which locate in distressed areas. These sections have an extremely laudable intent. I am firmly committed to bringing new jobs and industry to areas in which there is persistent unemployment resulting from long-term changes in the local economy. Given the state's limited resources, however, it is essential that such efforts are carefully targeted to reach areas with the greatest need. Unfortunately, I do not believe the exemption created in Section 13 through 15 meets this test.

These sections, taken as a whole, are likely to result in substantial loss of revenue to the state without necessarily benefitting truly distressed areas. For example, an existing business could dissolve and reincorporate under a new name or create a wholly owned subsidiary and become eligible for the exemption. Also, Section 15 does not specify how much of a qualifying business is eligible for the exemption. It is, therefore, possible that a new business would qualify for the entire exemption by locating an insignificant operation in a distressed area while the vast majority of its business was located elsewhere in the state in a non-distressed area.

In addition, the fact that a county is considered distressed at any time its unemployment rate exceeds the average, will result in benefits going to businesses in areas with temporary problems instead of being restricted to areas with persistent high joblessness.

For these reasons, I have vetoed Sections 2 through 4 and Sections 13 through 15 of Engrossed Substitute Senate Bill No. 4228.

With the exceptions of Sections 2 through 4 and Sections 13 through 15, which I have vetoed, Engrossed Substitute Senate Bill No. 4228 is approved.

Respectfully submitted,

BOOTH GARDNER, Governor

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 10 and 11, Substitute Senate Bill No. 4267, entitled:

"AN ACT Relating to abandoned rail rights of way."

Sections 10 and 11 of this bill seek to terminate and repeal, in 1991 and 1992, the rail right of way acquisition program and the rail right of way acquisition act, which are not defined. Signing these sections into law would raise difficult technical questions about the intent of Sections 10 and 11. I have, therefore, vetoed Sections 10 and 11 of Substitute Senate Bill No. 4267.

With the exception of Sections 10 and 11, which I have vetoed, Substitute Senate Bill No. 4267 is approved.

Respectfully submitted,

BOOTH GARDNER, Governor

Referred to Committee on Ways and Means.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I am returning herewith without my approval as to portions of Section 3(1)(a) through (h) of Engrossed Substitute Senate Bill No. 4399 entitled:

"AN ACT Relating to creating a local governance study commission."

I fully support the purpose of this legislation. I believe that it is now timely for the State, in cooperation with local government representatives, to undertake a comprehensive review of the State's assignment of various public service responsibilities, authorities and funding sources among counties, cities and special districts. Much of the rationale for the current allocation of responsibilities and authorities may now be outmoded due to the changes that have occurred over time in population growth and settlement patterns. The proposed Local Governance Study Commission represents a useful opportunity to recommend needed changes to State policies, statutes, and the constitution, which better serve current public service requirements, and which more appropriately define the roles and activities of cities, counties and special districts, as well as their interrelationship to one another.

However, language contained in Section 3(1)(a) through (h) of this bill directs the Governor to appoint to the Commission twenty-one persons who are nominated by certain specified organizations related to local governance. While I concur with the appropriateness of placing representatives of the named organizations on the Commission, I believe this language precludes gubernatorial discretion and negates the Governor's appointment authority.

Therefore, in order to preserve the Governor's appointment prerogatives, I have vetoed the language that requires the Governor to appoint the nominees of specified organizations. I will, of course, honor the spirit of the vetoed language when making my appointments.

With the exception of portions of Section 3(1)(a) through (h), Engrossed Substitute Senate Bill No. 4399 is approved.

Respectfully submitted,

BOOTH GARDNER, Governor

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 3, Substitute Senate Bill No. 4424, entitled:

"AN ACT Relating to water rights."

This bill reopens the filing of water claims for water rights based on water use up to 1917 for surface water and up to 1945 for groundwater. All claims must be filed by September 1, 1985.

Section 3 of the bill is an emergency clause that would make the bill effective immediately. I believe it is in the best interest of all claimants to keep this period for filing claims as short as possible. By vetoing Section 3, this bill will become effective on July 28, 1985.

With the exception of Section 3, Substitute Senate Bill No. 4424 is approved.

Respectfully submitted,

BOOTH GARDNER, Governor

There being no objection, the President returned the Senate to the first order of business.

POINT OF INQUIRY

Senator Lee: "Senator Rinehart, I notice in our information that a fiscal note was available and I don't see it in our floor books. Could you tell us what kind of fiscal impact is anticipated for the remainder of this biennium or does it take place just for the next biennium?"

Senator Rinehart: "Senator Lee, the fiscal note would be halved from the original fiscal note and I would call to the members' memory the fact that this, once again, is one of the traditional shot in the dark fiscal notes."

Senator Lee: "What does the shot in the dark tell us—that it would be for a full biennium because the following year would be a full biennium, of course, and we can divide it by half for this year?"

Senator Rinehart: "The fiscal note from the original bill gives a six-year total of seven million dollars."

Senator Lee: "So for a biennium you divide that by three?"

Senator Rinehart: "And then again in half."

Senator Lee: "For our fiscal year?"

Senator Rinehart: "That's correct."

Senator Lee: "Thank you very much. Seven million over a six-year period, as far as the fiscal note that was prepared?"

Senator Rinehart: "Right, and perhaps you will remember the committee's debate over the fiscal note."

Senator Lee: "Thank you very much, Senator Rinehart."

Waiving higher education fees for students of foreign nations.

MOTIONS

Senator Gaspard moved that the rules be suspended and Senate Bill No. 3278 be returned to second reading.

POINT OF INQUIRY

Senator Pullen: "Senator Gaspard, has this amendment been reviewed with the ranking Republican member on the Education Committee?"

Senator Gaspard: "Senator Pullen, I have not directly talked with the membership of the committee. My understanding is that my staff has worked with your staff and it is a Code Reviser technical amendment that deals with the 1986 act rather than the 1985 act."

Senate Bill No. 3278 was returned to second reading and read the second time.

MOTION

On motion of Senator Gaspard, the following amendment was adopted:

Beginning on page 1, after line 24, strike all the material down to and including "section," on page 2, line 24, and insert the following:
sec. 2. Section 1. chapter 262, Laws of 1979 ex. sess. as last amended by section 33, chapter 390, Laws of 1985 and RCW 28B.15.740 are each amended to read as follows:

(1) The boards of trustees or regents of each of the state's regional universities, The Evergreen State College, or state universities, and the various community colleges, consistent with regulations and procedures established by the state board for community college education, may waive, in whole or in part, tuition and services and activities fees subject to the limitations set forth in subsection (2).

(2) The total dollar amount of tuition and fee waivers awarded by any state university, regional university, or state college, shall not exceed four percent, and for the community colleges considered as a whole, such amount shall not exceed three percent of an amount determined by estimating the total collections from tuition and services and activities fees had no such waivers been made and deducting the portion of that total amount which is attributable to the difference between resident and nonresident fees: PROVIDED, That at least three-fourths of the dollars waived shall be for needy students who are eligible for resident tuition and fee rates pursuant to RCW 28B.15.012 through 28B.15.015; PROVIDED FURTHER, That the remainder of the dollars waived, not to exceed one-fourth of the total, may be applied to other students at the discretion of the board of trustees or regents, except on the basis of participation in intercollegiate athletic programs; PROVIDED FURTHER, That the waivers for undergraduate and graduate students of foreign nations under section 1 of this 1986 act are not subject to the limitation under this section.

MOTION

On motion of Senator Gaspard, Engrossed Senate Bill No. 3278 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Pullen: "Senator Gaspard, there is a fiscal note connected with this bill and could you tell me what the fiscal impact is?"

Senator Gaspard: "Yes, I do have a fiscal note here before us, and again to refresh our memory, At the time when the Council for the Post Secondary Education staff reworked the fiscal note, they indicated that the exact impact could not be felt because it deals with tuition and fee waivers and they made some clarifying language to it, but the figures they came up with a possible summary of revenue lost—remember that this is a net that would never occur—it's a bookkeeping figure more than a national loss, but they anticipate a biennial loss of all undergraduate resident fees of about $835,000 and nonresident tuition fees of about three million. Again to reemphasize—that if we don't use the program we don't get any benefit at all, so it's really a tuition and fee waiver."

Further debate ensued.

REMARKS BY SENATOR GASPARD - CLARIFICATION TO PREVIOUS POINT OF INQUIRY

Senator Gaspard: "Mr. President and members of the Senate. Just to clarify—in response to Senator Pullen's question about the fiscal impact; the two figures that I read were a range that was given by OFM in this case— actually the Council for Post Secondary Education and reviewed by OFM, but let me also read another statement that they make here in their memo dated March 24, 1985, when they did the fiscal note on this measure. They said, 'We would also like to emphasize that one of the primary benefits of such a program is the opportunity to study abroad and provides for Washington residents at no additional educational cost over what they pay at home.' I think we tend to overlook that benefit."

The President declared the question before the Senate to be the roll call on final passage of Engrossed Senate Bill No. 3278.

ROLL CALL

The Secretary called the roll on final passage of Engrossed Senate Bill No. 3278, and the bill passed the Senate by the following vote: Yeas, 40; nays, 7; absent, I; excused, 1.

Absent: Senator McDonald – 1.

MESSAGE FROM THE SECRETARY OF STATE

January 24, 1986

The Honorable John A. Cherberg
President of the Senate
The Legislature of the State of Washington
Olympia, Washington
Dear Mr. President:

As required by Article II, Section 1, of the State Constitution and RCW 29.79.200, we herewith respectfully transmit the certification of the sufficiency of Initiative to the Legislature 90, a copy of the full, true and complete text of which was certified to you on January 13, 1986.

Ralph Munro, Secretary of State

CERTIFICATION OF INITIATIVE TO THE LEGISLATURE 90

Pursuant to Article II, Section 1 of the Washington State Constitution, RCW 29.79-200, and WAC 434-79-010, the Office of the Secretary of State has caused the signatures submitted in support of Initiative to the Legislature 90 to be examined in the following manner:

1) It was determined that 211,299 signatures were submitted by the sponsors thereof. A random sample of 21,238 signatures was taken from those submitted;

2) Each sampled signature was examined to determine the following: a) if the signer was a registered voter of the state at the address indicated on the petition; b) if the signature was reasonably similar to the one appearing on the record of that voter; c) if the same signature appeared more than once in the sample. We found 17,682 valid signatures, 3,494 signatures invalid due to non-registration or improper form, and 62 pairs of duplicated signatures in the sample;

3) We calculated an allowance for the chance error of sampling (89) by multiplying the square root of the number of invalid signatures by 1.5;

4) We estimated the upper limit of the number of signatures on the initiative petition which were invalid (35,652) by dividing the sum of the number of invalid signatures in the sample and the allowance for the chance error of sampling by the sampling ratio:

5) We determined the maximum allowable number of pairs of signatures on the petition (9,400) by subtracting the sum of 110% of the number of signatures required by Article II, section 1 of the Washington State Constitution (166,247) and the estimate of the upper limit of the number of invalid signatures on the petition from the number of signatures submitted:

6) We determined the expected value of the maximum number of pairs of signatures in the sample (95) by multiplying the square of the sampling ratio by the maximum allowable number of pairs of signatures on the initiative petition;

7) We determined the acceptable number of pairs of signatures in the sample (78) by subtracting 1.65 times the square root of the expected number of pairs of signatures in the sample from the expected number of pairs of signatures in the sample; and

8) Since the number of pairs of signatures in the sample is less than the acceptable number of pairs of signatures in the sample, I hereby declare Initiative to the Legislature 90 to be sufficient.

IN WITNESS WHEREOF, I have hereunto set my hand, and caused the Seal of the state of Washington to be affixed this 24th day of January, 1986.
There being no objection, the President advanced the Senate to the fifth order of business.

The award for teachers under the Washington award for excellence in education program shall be named the "Christa McAuliffe Award," in honor and memory of Sharon Christa Corrigan McAuliffe." As the first teacher and private citizen selected nationally to voyage into space, Christa McAuliffe exemplified what is exciting and positive about the teaching profession. Her contributions within the scope of the nation's education system helped to show that education can and should be a vital and dynamic experience for all participants. Christa McAuliffe's chosen profession encompasses learning by discovery and her desire to make new discoveries was reflected by her participation in the nation's space program.

The tragic loss of the life of Christa McAuliffe on the flight of the space shuttle Challenger on January 28, 1986, will be remembered through the legacy she gave to her family, friends, relatives, students, colleagues, the education profession, and the nation: a model example of striving toward excellence."

SECOND READING
CONFIRMATION OF GUBERNATORIAL APPOINTMENT

MOTION
Senator Owen moved that the appointment of William Wilkerson as Director of the Department of Fisheries be confirmed.

Debate ensued.

POINT OF INQUIRY
Senator Guess: "Senator Owen, when I come from Eastern Washington to fish and I can only get two fish as my limit, it makes that fish a very dear and expensive commodity that I can't afford to eat. Can you tell me why we went from three fish to two fish as a limit, if Mr. Wilkerson is such a great manager and such a great producer of fish?"

Senator Owen: "Statistics on fish production speak for themselves. Obviously, we went from three fish to two fish because of conservation. That's why we have limitations on the number of fish that we can take. We went to that in order to comply with federal court orders which a lot of people seem to want to disregard. They don't want to accept the fact that Bill Wilkerson is under court orders to provide a fair and equal allocation to the tribes that the court has ordered. That's all part of the scheme."

MOTION
Senators Peterson, Bottiger and Conner demanded the previous question.

Debate ensued.

Senator Rasmussen demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on shall the main question be now put.

SECOND READING

SENATE BILL NO. 4539, by Senators Moore, Bender, Deccio, von Reichbauer, Zimmerman, Johnson, Bauer, Williams, Vognild, Fleming, Conner, Rasmussen and Talmadge (by request of Joint Study Committee on Insurance Availability and Affordability)

Providing insurance coverage for applicants currently unable to obtain it.

MOTIONS

On motion of Senator Moore, Substitute Senate Bill was substituted for Senate Bill No. 4539 and the substitute bill was placed on second reading and read the second time.

Senator Lee moved that the following amendment be adopted:

On page 1, line 5, after "apportionment" insert "on an assigned risk basis"

Debate ensued.

POINT OF INQUIRY

Senator Bluechel: "Senator Moore, I was under the impression that with the original bill, while the coverage may be mandated, there is no cap on the coverage. In other words, the rates could be set at whatever level the insurance company so wished and I fail to see the benefit of that. Is there a definite cap which this coverage will be made if this bill should pass?"

Senator Moore: "The only cap, as I understand it, is the negotiation between them and the Insurance Commissioner. As to affordability, you know, Senator Hayner and others are absolutely right. It does not totally address that. We're trying to cure a problem with a few band aids and believe me, it isn't easy."

Senator Bluechel: "Thank you, Senator Moore."

Further debate ensued.

Senator Talmadge demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on adoption of the amendment by Senator Lee.
ROLL CALL

The Secretary called the roll and the motion by Senator Lee failed and the amendment was not adopted by the following vote: Yeas, 23; nays, 26.

Voting yea: Senators Bailey, Barr, Benitz, Bluechel, Cantu, Craswell, Deccio, Garrett, Guess, Hayner, Johnson, Kiskaddon, Lee, McCaslin, McDonald, Newhouse, Patterson, Pullen, Saling, Sellar, Stratton, von Reichbauer, Zimmerman - 23.

MOTION

On page 1, after line 18, insert a new section to read as follows:

"NEW SECTION. Sec. 2. The insurance commissioner shall make a full report to the January 1987 session of the legislature as to the effectiveness of this act."

Renumber the remaining section accordingly.

Debate ensued.

POINT OF INQUIRY

Senator Cantu: "Senator Deccio, your amendment requires a report from the Commissioner on the effectiveness of the rate. Is it your intent that that report would also address the issue of affordability of this plan, if this act is enacted?"

Senator Deccio: "Senator Cantu, the purpose of my amendment would address not only the affordability but all aspects of what the bill purports and directs to do, whether it's successful, whether insurance truly was obtainable and whether it was affordable and whether or not we ought to scrap the bill in 1987 or continue this program."

Senator Cantu: "Thank you, Senator Deccio."

The President declared the question before the Senate to be adoption of the amendment by Senator Deccio.

The motion by Senator Deccio carried and the amendment was adopted.

MOTIONS

On motion of Senator von Reichbauer, Senator Pullen was excused.

On motion of Senator Talmadge, the rules were suspended, Engrossed Substitute Senate Bill No. 4539 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Deccio: "Senator Moore, during the meetings of the Joint Select Committee, which both of us served on, the Insurance Commissioner indicated that the companies were forming the MAPs plan, which is marketing assistance plan, which means the companies would make recommendations to companies that might write certain types of insurance.

"Is it your understanding, as it is mine, that the Insurance Commissioner would work in conjunction with that program—that this plan would not necessarily be the only one that would be put into effect to try and solve the problem but that he would also pursue the MAPs program as well?"

Senator Moore: "Senator Deccio, at all of the hearings that the Senate Financial Institutions Committee held and the ones that were under the so-called Marquardt committee, when that question came up, it was clearly defined by the insurance company that he was going to pursue both and I was sure that a voluntary plan was going to work like MAPs, but I think we need to try both because we won't be back here for a while, hopefully, and I want something in place this session. Thank you."

Senator Deccio: "Ray, you said insurance company. I think you meant Insurance Commissioner."

Senator Moore: "Excuse me, correct that—Insurance Commissioner."

Senator Deccio: "Thank you, Senator Moore."

Further debate ensued.
The President declared the question before the Senate to be the roll call on final passage of Engrossed Substitute Senate Bill No. 4539.

ROLL CALL

The Secretary called the roll on final passage of Engrossed Substitute Senate Bill No. 4539 and the bill passed the Senate by the following vote: Yeas. 31; nays, 17; excused, 1.

MESSAGE FROM THE HOUSE

January 31, 1986

Mr. President:

The House has passed:

ENGROSSED SUBSTITUTE SENATE CONCURRENT RESOLUTION NO. 126 with the following amendment:

On page 1, line 27 after "1985" insert "as interpreted by the letters of the parties dated January 27, 1986 and January 28, 1986,"

and the same are herewith transmitted.

DENNIS L. HECK, Chief Clerk

MOTION

Senator McDermott moved that the Senate do concur in the House amendment to Engrossed Substitute Senate Concurrent Resolution No. 126.

Debate ensued.

POINT OF INQUIRY

Senator Newhouse: "Senator McDermott, of course I'm concerned that here we were told that an agreement had to be enforced by December 31, 1986, and here we have an addendum that must be part of the agreement that's dated January 27th, which I don't think statutorily conforms, but my question to you really is on the second page of this letter. It says, 'The overall cost of the contract to the state is not more than 482.4 million.' My question is, does that include fringe benefits, pension costs and that type of thing?"

Senator McDermott: "Senator Newhouse, the question that you're asking, ordinarily when you figure salaries you figure about fifteen percent for those things that are directly connected to increases in salaries, and that's the way this 482 million dollars was calculated—including pension benefits—including the additional social security that would have to be paid and so forth. That is the cost. It does not include health benefits or any of that sort of thing."

Senator Newhouse: "But that's an overall cost. Health benefits are just as much of a cost to the employer—the state—as any of those other costs."

Senator McDermott: "The health benefits issue is always decided by a separate part of the appropriations bill and that is not included in the 482 million."

Further debate ensued.

The President declared the question before the Senate to be the roll call on final passage of Engrossed Substitute Senate Concurrent Resolution No. 126, as amended by the House.
ROLL CALL

The Secretary called the roll on final passage of Engrossed Substitute Senate Concurrent Resolution No. 126, as amended by the House, and the resolution passed the Senate by the following vote: Yeas, 30; nays, 18; excused, 1.

Voting nay: Senators Barr, Benitz, Bluechel, Cantu, Craswell, Deccio, Guess, Hayner, McCaslin, McDonald, Metcalf, Newhouse, Owen, Patterson, Rasmussen, Saling, Sellar, Zimmerman - 18.

Excused: Senator Pullen - 1.

ENGROSSED SUBSTITUTE SENATE CONCURRENT RESOLUTION NO. 126, as amended by the House, having received the constitutional majority, was declared passed.

MOTION

On motion of Senator McDermott, the following letters, which were addressed in the House amendment, were made a part of the record:

RE: Comparable Worth Agreement

Dear Representative Grimm:

Thank you for your letter of January 21st in which you request an interpretation of certain of the agreement’s language to better understand the intent of the parties. We provide the following in answer to your questions.

Initially we note that underlying each of your questions is how the agreement will, in fact, be administered. Let us indicate at the outset that the overriding intent of the parties is that the agreement be administered in as fair, equitable and consistent a manner as possible by the state and, in particular, the two personnel systems. With this principle in mind, we address each of the questions.

As you may know, the two personnel systems have, using the Willis methodology, evaluated almost all job classifications which have a large number of employees that can be expected to qualify for a comparable worth adjustment. In the Department of Personnel system, approximately seventy-eight percent of the employees are in job classifications which have been evaluated, and the corresponding number for the Higher Education Personnel system is approximately eighty-two percent. We recognize that all remaining jobs could not, with a high degree of accuracy, be evaluated by the implementation date of April 1, 1986. Therefore, we intended that the two personnel systems would use the best data available to them on the effective date of April 1. In other words, to determine which job classifications qualify for a comparable worth adjustment and to determine their range entitlements after April 1, 1986, the personnel boards would use the evaluated worth of the job classes where available. Because all benchmark jobs have been evaluated, determination for the remaining classes would be through benchmark-indexing. It is expected that the two personnel systems will do a limited number of additional evaluations prior to the effective date of the agreement to make necessary adjustments and provide direction for certain job classes. It was the intent of the parties that no job classification at or above the comparable worth line would receive any increase pursuant to the agreement.

You next address paragraph 2(B) of the agreement. Because all jobs have not been studied, the current actual average comparable worth line is drawn based on the evaluated worth and actual salaries of benchmark jobs only. Should the personnel boards, during the term of the agreement, complete evaluations on all jobs, it would be up to the two personnel boards to adopt a new line. At that point, the all jobs line would be used for continued implementation under the agreement. Please note that an all jobs line, by the agreement must, like the benchmark line,
be based on January 1, 1985 actual salaries. The parties did not necessarily expect a new line to be drawn but intended in paragraph 2(B) to address such a possibility. In any event, the overall cost of the contract to the state is not more than $482.4 million. This figure does not include monies that are a part of any general salary increase used to maintain comparable worth pursuant to paragraph 4 of this agreement. By referencing the "Willis" points in the agreement, the parties simply were referring to the current methodology used in calculating comparable worth but did not intend to require the personnel boards to be locked into any particular methodology.

In answer to your third question, the parties did not intend to restrict or enhance the work of jurisdiction of the personnel boards. It is expected that there may be classes established or abolished and class series restructured during the term of the agreement. As a result of such board actions, comparable worth classification entitlement reflecting the new classification should be addressed in the normal course of the boards' actions.

We hope this sufficiently addresses the matters you have raised. Thank you for allowing us to answer your questions.

RE: Comparable Worth Agreement

Dear Representative Grimm:

In a letter dated January 28, 1986, you requested an interpretive letter regarding the Agreement dated December 31, 1985, and, in specific, the parties' intent with respect to the use of the term "appropriated" in paragraph 3(G).

The parties intended the term "appropriate" to mean "pay", "allocate", "provide", or "expend" monies necessary to achieve comparable worth as set forth in the Agreement. Thus, the parties did not intend to identify or to limit the sources of these funds, nor to adopt a definition of "appropriated" in the technical sense as used in legislative budget actions. The necessary monies, i.e. $10 million annually as set forth in paragraph 3(G), are to be comprised of all funds whether technically appropriated or non-appropriated, budgeted or non-budgeted, or any combination of these funds. This intent of the parties is illustrated by the fact that following the term "appropriated" the parties made specific reference to both general and special fund monies, i.e. all monies, from whatever source.

We hope this clarifies the language of the Agreement and answers the question as set forth in your letter.

There being no objection, the President returned the Senate to the first order of business.

SECOND READING

SENATE BILL NO. 3193. by Senators Talmadge, Wojahn, Kreidler, Halsan and Gaspard

Providing for public employees retirement in case of total disability resulting from occupational disease.

The bill was read the second time.

MOTION

On motion of Senator Talmadge, the rules were suspended. Senate Bill No. 3193 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Talmadge, in the summary it says, 'This must be certified'—and that's all right—'and the claim for disability must be made within two years of incurring the disease.' Is that still in the bill?"

Senator Talmadge: "I believe that is in the bill, Senator. It's on lines twenty through twenty-three of page 1 of the bill—'No application shall be valid, or a claim thereunder enforceable unless filed within two years after the date upon which injury occurred, or disease was diagnosed.' That is exactly the same standard that exists under the Washington Industrial Insurance Act for industrial injuries."

Senator Rasmussen: "This is not a two-year limitation? It's only after the disease is diagnosed?"

Senator Talmadge: "That's correct."

Senator Rasmussen: "so a person could still claim if they had poisoning from asbestos or from any other chemicals?"

Senator Talmadge: "That is my understanding, Senator. It's designed to deal with the problem where the latency period for the disease is a relatively long one. The disease is not diagnosable by a physician. Once the physician diagnoses the existence of the disease or problem, then the individual has to present the claim within two years of that period in order to be able to qualify under this law."

Senator Rasmussen: "Thank you, Senator Talmadge."

The President declared the question before the Senate to be the roll call on final passage of Senate Bill No. 3193.

SECOND READING

SENATE BILL NO. 4540, by Senators Bender, Deccio, Moore, von Reichbauer, Bauer, Zimmerman, Johnson, Newhouse, Hansen, McManus, Conner and Rasmussen (by request of Joint Study Committee on Insurance Availability and Affordability)

Establishing procedures for canceling written agreements between insurance companies and agents.

The bill was read the second time.

MOTION

On motion of Senator Moore, the rules were suspended, Senate Bill No. 4540 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator McCaslin: "Senator Moore, let me give you a little background on the question. Several years ago my son, who is a diabetic was cancelled and the reason he was cancelled, the insurance company received a notice from his doctor. Apparently, they had written him and the doctor had told the insurance company that he was not following a strict diet, so out of the blue one day we received a letter stating that our insurance on the son was cancelled. Now, under that type of circumstance, does this bill address that?"

Senator Moore: "Very, very indirectly. This bill addresses willy, nilly cancellations by insurers of agents for no apparent reason, other than something very serious, like fraud."

Senator McCaslin: "Thank you very much, Senator Moore, the problem we had, and all of you would have—or any citizen might have is that it was arbitrarily cancelled without contacting the parents and all they did was receive a notice that
your son's not following the doctor's orders—you're cancelled. It puts a parent in a
very precarious position, having a son under twenty-one without insurance."
Senator Moore: "Senator McCaslin, the bill is coming up that will address that,
and secondly, this particular bill addresses casualty liability. Thank you."
Senator McCaslin: "Thank you, very much."
Further debate ensued.
The President declared the question before the Senate to be the roll call on
final passage of Senate Bill No. 4540.

ROLL CALL

The Secretary called the roll on final passage of Senate Bill No. 4540 and the
bill passed the Senate by the following vote: Yeas. 45; nays. 1; excused. 3.
Voting yea: Senators Bailey, Barr, Bauer, Bender, Benitz, Bluechel, Bottiger, Camu, Conner,
Craswell, Deccio, DeJamatt, Fleming, Gaspard, Goltz, Granlund, Guess, Halsan, Hansen,
Hayner, Johnson, Kiskaddon, Kreidler, Lee, McCaslin, McDermott, McManus, McTavish,
Moore, Newhouse, Owen, Patterson, Peterson, Pullen, Rasmussen, Rinehart, Saling,
Voting nay: Senator Garrett - 1.
SENATE BILL NO. 4540, having received the constitutional majority, was
declared passed. There being no objection, the title of the bill was ordered to stand
as the title of the act.

SECOND READING

SENATE BILL NO. 4541, by Senators Granlund, Deccio, Moore, von Reichbauer,
Zimmerman, Johnson, Hansen, Vognild, Bauer, Fleming, Williams, Newhouse,
McManus and Conner (by request of Joint Study Committee on Insurance Aval­
ability and Affordability)

Establishing procedures for canceling insurance.

MOTIONS

On motion of Senator Moore, Substitute Senate Bill No. 4541 was substituted for
Senate Bill No. 4541 and the substitute bill was read the second time.
Senator Moore moved that the following amendment be adopted:
On page 3, on line 3, after "policy: strike.everything through ·made." on line 6 and insert
"((including the amount by which the premium or deductibles have changed from the previ­
ous policy period, and the date by which such payment must be made.))"

POINT OF INQUIRY

Senator Deccio: "Senator Moore, on line 19, does this in any way affect—to my
recollection it doesn't—but I need to ask the question anyway. This in no way
diminishes the responsibility of insurance companies to give forty-five days notice
in the event of cancellation or nonrenewal?"
Senator Moore: "No."
The President declared the question before the Senate to be adoption of the
amendment by Senator Moore.
The motion by Senator Moore carried and the amendment was adopted.

MOTION

On motion of Senator Moore, the rules were suspended, Engrossed Substitute
Senate Bill No. 4541 was advanced to third reading, the second reading consid­
ered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Deccio: "Senator Moore, I'm sorry I asked that question in the middle of
the debate on the amendment, but again in order to clarify—on line 19, page 1,
where it says, 'Ten days notice of cancellation is sufficient. If cancellation occurs
within thirty days after the effective date.' I guess my question is, do you agree that
this does not affect the forty-five day cancellation notice for nonrenewal and
cancellation?"
Senator Moore: "I do."
Senator Deccio: "Thank you."
Further debate ensued.

POINT OF INQUIRY

Senator Zimmerman: "Mr. President, would Senator Moore or Senator Granlund yield—one who is familiar with this bill? There's a question I have that hasn't really been answered yet. Who else is on Insurance that knows this bill readily? Senator Granlund, would you want to tackle it?

"The question that Senator Deccio had asked regarding the matter of surplus funds and whether the exemptions listed in there whether that covers that particular exemption—yes, under the RCW 48.15.160, the exemption from surplus line requirements are listed in the RCW here and it would look to me like we've got an exemption of an exemption. I wonder if that turns it around into a positive matter, because see, we've got several subsections here and all of those refer to surplus lines and yet this is an exemption to 48.15. In other words, the way the bill was written, it takes the entire section of the RCW it's talking about—48.15 Uninsured Insurers—yet under one part of that is an exception to that section and I'm concerned whether it's doing what you want it to do?"

Senator Granlund: "I would have to yield to Senator Moore to respond to your question because it relates back to that. The amendment came on the floor."

Senator Zimmerman: "It's just simply that I'm wondering the way the language is written—it's all inclusive of RCW 48.15 when you have a subsection 48.15.160 that lists exemptions from surplus line requirements."

Senator Granlund: "I don't believe that's the intent, Senator Zimmerman. That's the committee amendment as I know it, but I don't want to say that specifically."

MOTION

On motion of Senator Vognild, further consideration of Engrossed Substitute Senate Bill No. 4541 was deferred.

There being no objection, the President advanced the Senate to the eighth order of business.

MOTION

On motion of Senator Vognild, the following resolution was adopted:

SENATE BILL NO. 4470, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SENATE BILL NO. 4486, by Senators Thompson and Zimmerman

Authorizing county legislative authorities to designate certain violations as civil.
MOTIONS

On motion of Senator Thompson, Substitute Senate Bill No. 4486 was substituted for Senate Bill No. 4486 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Thompson, the rules were suspended. Substitute Senate Bill No. 4486 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Thompson, this is a civil penalty, the same—as for instance—some place like the Liquor Board where they give them a fine instead of shutting them down. Suppose you get a civil penalty assessed by the county—whatever department—what appeal is there? At the present time, it has to go through the court and it's a court-judged action."

Senator Thompson: "Essentially the same appeal, Senator Rasmussen. The right of appeal is not deprived by this process."

Senator Rasmussen: "You can still go for a jury trial?"

Senator Thompson: "Yes."

Senator Rasmussen: "And you have the protection of the court then?"

Senator Thompson: "Yes, indeed."

Senator Rasmussen: "If you think it's unjust?"

Senator Thompson: "That's right."

Senator Rasmussen: "Thank you, Senator Thompson."

Senator Thompson: "Thank you."

The President declared the question before the Senate to be the roll call on final passage of Substitute Senate Bill No. 4486.

ROLL CALL

The Secretary called the roll on final passage of Substitute Senate Bill No. 4486 and the bill passed the Senate by the following vote: Yeas, 44; nays, 2; excused, 3.

Excused: Senators Hayner, Stratton, Talmadge - 3.

SUBSTITUTE SENATE BILL NO. 4486, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SENATE BILL NO. 3718, by Senator McDermott

Relating to retirement systems.

MOTIONS

On motion of Senator McDermott, Substitute Senate Bill No. 3718 was substituted for Senate Bill No. 3718 and the substitute bill was read the second time.

On motion of Senator McDermott, the rules were suspended. Substitute Senate Bill No. 3718 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Kiskaddon: "Senator McDermott, I didn't understand what you were saying. It sounded to me like what you said was that the spouse of the person in question would have to put the entire amount into the pension system to get it back out and it would be no cost to the system. It just doesn't make sense to me that she would want to do that if she wasn't getting a benefit of more out of the system than what she would put in, otherwise there may be a better investment."

Senator McDermott: "Perhaps I didn't state that absolutely correctly. This opens the window for a potential pay into the system. The amount that would have been
possible to pay in at another point in the system—that window was missed some years ago and so we are opening the window to allow one person to pay in the contributions that would have been expected at that time."

Senator Kiskaddon: "Thank you, Senator McDermott."

Further debate ensued.

The President declared the question before the Senate to be the roll call on final passage of Substitute Senate Bill No. 3718.

ROLL CALL

The Secretary called the roll on final passage of Substitute Senate Bill No. 3718 and the bill failed to pass the Senate by the following vote: Yeas, 23; nays, 21; absent, 2; excused, 3.

Voting nay: Senators Bailey, Barr, Benitz, Bluechel, Cantu, Craswell, Deccio, Guess, Johnson, Kiskaddon, Lee, McCaslin, McDermott, McDonald, Metcalf, Patterson, Pullen, Rasmussen, Soling, Sellar, von Reichbauer - 21.

Absent: Senators Conner, Newhouse - 2.

Excused: Senators Hayner, Stratton, Talmadge - 3.

SUBSTITUTE SENATE BILL NO. 3718, having failed to receive the constitutional majority, was declared lost.

SECOND READING

ENGROSSED HOUSE BILL NO. 1703, by Representatives Niemi, Brough, Allen, Belcher, Fisher, Miller, Cole, Hine and Unsoeld (by request of Governor Gardner)

Revising the implementation of comparable worth.

The bill was read the second time.

MOTION

On motion of Senator McDermott, the rules were suspended. Engrossed House Bill No. 1703 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator McDermott, maybe you could give us an idea of what the meaning of special pay is in the definition of WAC 251-09-090?"

Senator McDermott: "Senator Talmadge, special pay is granted for unique working conditions, employment problems, such as recruitment and retention, and for special use needs necessary to maintain effective operation of an institution."

Senator Talmadge: "Senator, is the purpose of the proviso on page 3, line 6, to require the Higher Education Personnel Board to eliminate all types of special pay?"

Senator McDermott: "Senator Talmadge, the answer is 'no.' The purpose of the proviso is to require the HEP Board to examine special pay in light of the increase to base salaries as a result of the April 1 comparable worth adjustments. If the need for special pay has changed in view of those increases, then appropriate adjustments should be adopted by the HEP Board. For example, the Board may determine that the need for special pay due to unique working conditions has not changed, so no adjustment would be made. Alternatively, the Board may determine that the increase in base pay requires an adjustment to special pay granted for recruitment and retention purposes."

POINT OF INQUIRY

Senator Rasmussen: "Senator McDermott, I note in the Governor's message to the Senate that he's asking two hundred thousand more of a special fund and which wasn't considered. He said, 'Since negotiation and related costs will exceed previous estimates, I am requesting that two hundred thousand ol a special fund salary increase revolving fund appropriation be provided to meet these additional costs.' Apparently he was not aware of the costs at the time we considered the bill and now he's finding out. Is this the only cost that's going to be related to the comparable worth contract that you people pushed through?"

Senator McDermott: "Senator Rasmussen, the supplemental request the Governor has made, to my knowledge, is the only one he will make referencing this bill."

Senator Rasmussen: "One more question, Senator McDermott, if I may. I understand that the comparable worth did not apply to school teachers and have we considered the increase in the appropriation for the educational districts? They're going to want comparable worth. They're going to want equality with the superintendents and the administrators. How much do you estimate that will cost?"

Senator McDermott: "Senator Rasmussen, it is one of your familiar techniques to raise a question. I think, that is irrelevant to this particular point. To speculate on what may happen in the future is really beyond my knowledge. I can only go one case at a time."

Senator Rasmussen: "I thought you were a psychiatrist and you could predict the future. Evidently, Senator McDermott, then you have no idea of the future costs and it's liable to go over instead of the four hundred and eighty--two million--go over probably a billion. Is that correct? You just said you had no idea of the future."

Senator McDermott: "As Ways and Means Chairman, I've learned never to speculate on anything. I play it where it lies every day---one day at a time."

Senator Rasmussen: "Well, thank you. I expected more of the Ways and Means Chairman, because he has that extra knowledge."
POINT OF INQUIRY

Senator McDonald: "Senator McDermott, in your question and answer with Senator Talmadge, you were referring I think to the nurses in particular where the step that they were on was actually about five steps, if my memory serves me, below where they actually are and that was because of market conditions. Is the answer that you gave to Senator Talmadge such that irrespective of where they really are, they are still going to get the same number of steps through the comparable worth, whether it takes them above the comparable worth line or not?"

Senator McDermott: "Senator McDonald, I think the answer was self explanatory. The HEP Board will have the ability to make an evaluation and decide whether the provisions of the WAC I mentioned are necessary in terms of special pay. If they are not, they will have the ability to raise the pay or leave it the same, depending upon what their determination is."

Further debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator McDonald, I know that consistency is the hobgoblin of little minds as Emerson said, but it occurs to me that some people on the floor voted for Senator Lee's bill back in 1983, and I was wondering if it was your sense that you voted for that and how many members of your side of the aisle voted for that particular piece of legislation that year?"

Senator McDonald: "Senator, I have no idea. I was in the House at that time and I was one of the people who voted against that bill."

Senator Talmadge: "As I recall, Senator McDonald, a substantial number of people out here voted for it. There were, as I recall, in excess of forty votes—some of whom are still present in the State Senate at this time. I hope the gist of the remarks that we're hearing out here, Mr. President, is not that people didn't understand what they were voting on in 1983 because it was rather clear. We should be reminded that what we, in fact, accomplished in this agreement is a substantially less expensive alternative than as to what was passed in 1983 as a statute."

The President declared the question before the Senate to be the roll call on final passage of Engrossed House Bill No. 1703.

MOTION TO LIMIT DEBATE

Senator Bolliger moved that the members of the Senate be allowed to speak only once and be limited to three minutes on each motion or amendment except that the mover of the motion shall be allowed to open and close debate, and that members be prohibited from yielding their time and also, that this motion shall remain in effect through February 18, 1986.

Debate ensued.

POINT OF INQUIRY

Senator Pullen: "Senator Bolliger, I feel your proposed rule change is a very good one and I think the wording of it is also very good. I just wanted to clarify your intent on one matter. If a member has already spoken once for three minutes, is he then later, during the debate, able to ask a question of another member to establish legislative intent?"

Senator Bolliger: "Senator Pullen, my understanding is 'no' and that if he asks a question the answer is against his three minutes. If I were to stand and ask you a question and you took three minutes to answer, then that would be counted as my three minutes."

Senator Pullen: "If the member is asked to respond to a question of legislative intent, is he then later prohibited from speaking for three minutes?"

Senator Bolliger: "I don't believe so. Senator Snyder indicates that hasn't been the past ruling or the present."

The President declared the question before the Senate to be the motion by Senator Bolliger to limit debate.

The motion by Senator Bottiger carried and debate was limited to three minutes through February 18, 1986.

POINT OF ORDER

Senator Talmadge: "Thank you, Mr. President. I raise the point of order on scope and object with respect to the Lee amendment. Senate Bill 4705 is designed to deal with the present anomaly in the laws relating to the communications with a minor for immoral purposes. That is dealing with juvenile prostitution. There was a problem with respect to the law in terms of the punishment of the original crime of communicating with a minor by an adult and they punished it as a gross misdemeanor. We indicated it in the law if someone was guilty of this crime a second time that we were going to enhance the penalty the second time, but the problem is the enhancement language is there only if the original crime was a felony as opposed to a misdemeanor. That's all that Senate Bill 4705 is designed to do.

"The amendment by Senator Lee is designed to raise the question that she has acknowledged is one that's been previously debated in this body as to child pornography, the age at which a child can be involved in that kind of a situation.

"I believe, Mr. President, the amendment clearly expands the scope and object of a technical bill dealing with communication with a minor for immoral purposes to reopen the issue relating to child pornography that child prosecutors like Norm Maleng and some of the others across the state believe should remain at the age of sixteen, which is the age of consent. The Lee amendment would raise the problem of the age of consent at age sixteen and all of these sexually related crimes being at eighteen and perhaps punishing discussion about it and the problems between teenagers as opposed to dealing with the problems that are really those of pornographers."

Further debate ensued.

On motion of Senator Vognild, further consideration of Senate Bill No. 4705 was deferred.

POINT OF INQUIRY

Senator Talmadge: "Senator Granlund, I'm looking at the bill on page 3, lines 11 through 13, talking about the prioritization of the services, and it talks in terms of a child who has been subjected to continual distress, as indicated by repeated physical or sexual abuse and neglect.

"I assume that section is meant to deal specifically with instances of sexual abuse and neglect and not just the normal kinds of distress that may be something that a child is subjected to in the course of his or her upbringing."

Senator Granlund: "Senator, you are absolutely correct. This was addressed in committee by members of the committee and in determining what that was meant to be and that is what it is meant to be."

POINT OF INQUIRY

Senator Pullen: "Senator Talmadge, would the language of this bill, in effect, change the definition of basic education or affect our obligation to fund basic education?"

Senator Talmadge: "Senator, my response to that would be that it simply deals with the issue of curriculum to be offered in the K-12 system. It does not provide for a change in the definition of basic education. My judgment would be that it is something that should be considered and offered by the local school districts as we require them to do with other aspects of the curriculum, but it is not made a part of basic education by virtue of this change in the law relating to curriculum."

"NEW SECTION. Sec. 5. In any prosecution for criminal mistreatment because of a parent’s failure to provide physical examinations, surgical operations, or any form of medical treatment for his or her child, it is a defense that such health care is contrary to the wishes of the parent who relies on or believes in treatment by prayer or spiritual means in accordance with the creed and tenets of any recognized church or religious denomination."

On page 2, following section 4, insert a new section as follows:

"NEW SECTION. Sec. 5. In any prosecution for criminal mistreatment because of a parent’s failure to provide medical treatment for his or her child, it is a defense that the parent relied on treatment by spiritual means alone through prayer for healing in accordance with bona fide religious beliefs which were genuinely held by such parent, unless the parent had reasonable cause to believe that the life of the child was substantially and seriously threatened or that permanent physical damage could result to such child for failure to provide medical treatment."

Renumber the remaining section consecutively and correct internal references.

POINT OF INQUIRY

Senator Metcalf: "Senator Talmadge, for the purpose of clarifying legislative intent, will this amendment prevent emergency medical treatment by a doctor or a hospital if the parent objects?"

Senator Talmadge: "My understanding, Senator Metcalf, is that it would not. The intention here is to simply provide for a defense to the crime of criminal mistreatment that could be asserted should the criminal prosecution proceed. There is nothing in this amendment and there is absolutely no intent to prevent the court from intruding if it believes the child’s life is in danger and it wishes to order the medical treatment to take place. In fact, the amendment makes clear that even if the parent, himself or herself, had reasonable cause to believe that the life of the child was substantially or seriously threatened or that permanent physical damage could result, then that parent has an obligation to have medical treatment proceed and could be prosecuted criminally if they failed to act."

The President declared the question before the Senate to be adoption of the amendment by Senators Metcalf and Talmadge.

Strike everything after the enacting clause and insert the following:

(1) Subject to other provisions of this chapter, each authorized insurer except title insurers shall on or before the first day of March of each year pay to the state treasurer through the commissioner's office a tax on premiums. Except as provided in subsection (2) of this section, such tax shall be in the amount of two ((and sixteen one-hundredths)) percent of all premiums, excluding amounts returned to or the amount of reductions in premiums allowed to holders of industrial life policies for payment of premiums directly to an office of the insurer, collected or
received by the insurer during the preceding calendar year ((in the case of foreign and alien insurers, and in the amount of one and sixteen one-hundredths percent of all such premiums in the case of domestic insurers, for direct insurances)) other than ocean marine and foreign trade insurances, after deducting premiums paid to policyholders as returned premiums, upon risks or property resident, situated, or to be performed in this state. For the purposes of this section the consideration received by an insurer for the granting of an annuity shall not be deemed to be a premium.

(2) In the case of insurers which require the payment by their policyholders at the inception of their policies of the entire premium thereon in the form of premiums or premium deposits which are the same in amount, based on the character of the risks, regardless of the length of term for which such policies are written, such tax shall be in the amount of two ((and sixteen one-hundredths)) percent of the gross amount of such premiums and premium deposits upon policies on risks resident, located, or to be performed in this state, in force as of the thirty-first day of December next preceding, less the unused or unabsorbed portion of such premiums and premium deposits computed at the average rate thereof actually paid or credited to policyholders or applied in part payment of any renewal premiums or premium deposits on one-year policies expiring during such year.

(3) (An additional tax is imposed equal to the rate specified in RCW 82.02.030 multiplied by the taxes payable under subsections (1), (2), and (4) of this section. All revenues from this additional tax shall be deposited in the state general fund:

((4)) Each authorized insurer shall with respect to all ocean marine and foreign trade insurance contracts written within this state during the preceding calendar year, on or before the first day of March of each year pay to the state treasurer through the commissioner's office a tax of ((ninety-one)) ninety-five one-hundredths of one percent on its gross underwriting profit. Such gross underwriting profit shall be ascertained by deducting from the net premiums (i.e., gross premiums less all return premiums and premiums for reinsurance) on such ocean marine and foreign trade insurance contracts the net losses paid (i.e., gross losses paid less salvage and recoveries on reinsurance ceded) during such calendar year under such contracts. In the case of insurers issuing participating contracts, such gross underwriting profit shall not include, for computation of the tax prescribed by this subsection, the amounts refunded, or paid as participation dividends, by such insurers to the holders of such contracts.

(((5))) (4) The state does hereby preempt the field of imposing excise or privilege taxes upon insurers or their agents, other than title insurers, and every county, city, town or other municipal subdivision shall have the right to impose any such taxes upon such insurers or their agents.

(((6))) (5) If an authorized insurer collects or receives any such premiums on account of policies in force in this state which were originally issued by another insurer and which other insurer is not authorized to transact insurance in this state on its own account, such collecting insurer shall be liable for and shall pay the tax on such premiums.

(((7))) (5) This section shall be effective as to and shall govern the payment of all taxes due for calendar year 1982 and thereafter.)

(2) The commissioner shall credit the prepayment toward the appropriate tax obligations of the insurer for the current calendar year under RCW 48.14.020.

(3) The minimum amounts of the prepayments shall be percentages of the insurer's preceding calendar year's tax obligation ((based on the preceding calendar year's business)) recomputed using the rate in effect for the current year and shall be paid to the state treasurer through the commissioner's office by the due dates and in the following amounts:

(a) On or before June 15, forty-five percent;
(b) On or before September 15, twenty-five percent; and
(c) On or before December 15, twenty-five percent.

For good cause demonstrated in writing, the commissioner may approve an amount smaller than the preceding calendar year's ((business as the base)) tax obligation as recomputed for calculating the insurer's prepayment obligations.

(4) The effect of transferring policies of insurance from one insurer to another insurer is to transfer the tax prepayment obligation with respect to the policies.

(5) On or before June 1 of each year, the commissioner shall notify each insurer required to make prepayments in that year of the amount of each prepayment and shall provide remittance forms to be used by the insurer. However, an insurer's responsibility to make prepayments is not affected by failure of the commissioner to send, or the insurer to receive, the notice or forms.

(4) Forty percent of all moneys received by the state from taxes on fire insurance premiums (except any such moneys received under RCW 48.14.020(3)) shall be paid into the state treasury and credited to the fund.
(5) The state investment board, upon request of the state treasurer shall invest such portion of the amounts credited to the fund as is not, in the judgment of the treasurer, required to meet current withdrawals. Such investments may be made in such bonds, notes or other obligations now or hereafter authorized as an investment for the funds of the public employees' retirement system.

NEW SECTION. Sec. 6. It is the intent of the legislature that the fees charged in section 7 of this act shall be used to increase and improve the staff of the insurance commissioner. The legislature finds that this increase and improvement in staff is necessary to properly regulate the insurance industry and protect the insurance consumers of Washington State. The increases and
improvements in staff shall be determined through the legislative appropriation process and shall be funded by section 7 of this act.

NEW SECTION. Sec. 7. A new section is added to chapter 48.02 RCW to read as follows:

(1) As used in this section:

(a) "Organization" means every insurer, as defined in RCW 48.01.050, having a certificate of authority to do business in this state and every health care service contractor registered to do business in this state. "Class one" organizations shall consist of all insurers as defined in RCW 48.01.050. "Class two" organizations shall consist of all organizations registered under provisions of chapter 48.44 RCW.

(b) "Receipts" means (i) net direct premiums consisting of direct gross premiums, as defined in RCW 48.18.170, paid for insurance written or renewed upon risks or property resident, situated, or to be performed in this state, less return premiums and premiums on policies not taken, dividends paid or credited to policyholders on direct business, and premiums received from policies or contracts issued in connection with qualified plans as defined in RCW 48.14.021, and (ii) prepayments to health care service contractors as set forth in RCW 48.44.010(3) less experience rating credits, dividends, prepayments returned to subscribers, and payments for contracts not taken.

(2) The annual cost of operating the office of insurance commissioner shall be determined by legislative appropriation. A pro rata share of the cost shall be charged to all organizations. Each class of organization shall contribute sufficient in fees to the insurance commissioner’s regulatory account to pay the reasonable costs, including overhead, of regulating that class of organization.

(3) Fees charged shall be calculated separately for each class of organization. The fee charged each organization shall be that portion of the cost of operating the insurance commissioner’s office, for that class of organization, for the ensuing fiscal year that is represented by the organization’s portion of the receipts collected or received by all organizations within that class on business in this state during the previous calendar year: PROVIDED, That the fee shall not exceed one-eighth of one percent of receipts: PROVIDED FURTHER, That the minimum fee shall be one thousand dollars.

(4) The commissioner shall annually, on or before June 1, calculate and bill each organization for the amount of its fee. Fees shall be due and payable no later than June 15 of each year: PROVIDED, That if the necessary financial records are not available or if the amount of the legislative appropriation is not determined in time to carry out such calculations and bill such fees within the time specified, the commissioner may use the fee factors for the prior year as the basis for the fees and, if necessary, the commissioner may impose supplemental fees to fully and properly charge the organizations. The penalties for failure to pay fees when due shall be the same as the penalties for failure to pay taxes pursuant to RCW 48.14.060. The fees required by this section are in addition to all other taxes and fees now imposed or that may be subsequently imposed. The commissioner shall report fees to the legislative committees responsible for insurance and appropriations concurrent with notification to the organizations.

(5) All moneys collected shall be deposited in the insurance commissioner’s regulatory account in the state treasury which is hereby created.

(6) Unexpended funds in the insurance commissioner’s regulatory account at the close of a fiscal year shall be carried forward in the insurance commissioner’s regulatory account to the succeeding fiscal year and shall be used to reduce future fees.

Sec. 8. Section 12, chapter 115, Laws of 1969 as amended by section 1, chapter 63, Laws of 1983 and RCW 48.44.145 are each amended to read as follows:

(2) Every health care service contractor shall submit its books and records relating to its operation for financial condition and market conduct examinations and in every way facilitate them. For the purpose of examinations, the commissioner may issue subpoenas, administer oaths, and examine the officers and principals of the health care service contractor.

(3) The commissioner may elect to accept and rely on audit reports made by an independent certified public accountant for the health care service contractor in the course of that part of the commissioner’s examination covering the same general subject matter as the audit. The commissioner may incorporate the audit report in his report of the examination.

(4) Health care service contractors licensed in the state shall be equitably assessed to cover the cost of financial condition and market conduct examinations. The assessments shall be levied not less frequently than once every twelve months and shall be in an amount expected to fund the examinations, including a reasonable margin for cost variations. The assessments shall be established by rules promulgated by the commissioner but shall not exceed one-half cent per month per person entitled to health care services pursuant to an agreement under RCW 48.44.029(1), excluding such persons who are not residents of this state. Assessment receipts shall be deposited in the general fund; shall be accounted for separately; and shall be used for the sole purpose of funding the examinations authorized in subsection (1).
of this section. Amounts remaining in the separate account at the end of a biennium shall be applied to reduce the assessments in the succeeding biennium.

(5) Whenever any health care service contractor applies for initial admission, the commissioner may make, or cause to be made, an examination of the applicant's business and affairs. Whenever such an examination is made, all of the provisions of chapter 48.03 RCW not inconsistent with this chapter shall be applicable. In lieu of making an examination himself the commissioner may, in the case of a foreign health care service contractor, accept an examination report of the applicant by the regulatory official in its state of domicile.

Sec. 9. Section 13, chapter 290, Laws of 1975 1st ex. sess. as last amended by section 115, chapter 7, Laws of 1985 and RCW 48.46.120 are each amended to read as follows:

(2) Every health maintenance organization shall submit its books and records relating its operation for financial condition and market conduct examinations and in every way facilitate them. The quality or appropriateness of medical services or systems shall not be examined except to the extent that such items are incidental to an examination of the financial condition or the market conduct of a health maintenance organization. For the purpose of examinations, the commissioner may issue subpoenas, administer oaths, and examine the officers and principals of the health maintenance organization and the principals of such providers concerning their business.

(3) The commissioner may elect to accept and rely on audit reports made by an independent certified public accountant for the health maintenance organization in the course of that part of the commissioner's examination covering the same general subject matter as the audit. The commissioner may incorporate the audit report in his report of the examination.

(4) Health maintenance organizations licensed in the state shall be equitably assessed to cover the cost of financial condition and market conduct examinations, the costs of promulgating rules, and the costs of enforcing the provisions of this chapter. The assessments shall be levied not less frequently than once every twelve months and shall be in an amount expected to fund the examinations, promulgation of rules, and enforcement of the provisions of this chapter, including a reasonable margin for cost variations. The assessments shall be established by rules promulgated by the commissioner but shall not exceed five and one-half cents per month per person entitled to health care services pursuant to a health maintenance agreement, excluding such persons who are not residents of this state. Assessment receipts shall be deposited in the general fund, shall be accounted for separately, and shall be used for the sole purpose of funding the examinations authorized in subsection (1) of this section, the costs of promulgating rules, and the costs of enforcing the provisions of this chapter. Amounts remaining in the separate account at the end of a biennium shall be applied to reduce the assessments in the succeeding biennium.

NEW SECTION. Sec. 10. Section 35, chapter 9, Laws of 1982 1st ex. sess. and RCW 48.14.015 are each repealed.

NEW SECTION. Sec. 11. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

POINT OF INQUIRY

Senator Pullen: "Senator Thompson, maybe you could clarify the situation a little bit. As you know, some local improvement districts have caused great financial hardships for some of the resident taxpayers who live within the boundaries. Sometimes the assessments amount to a huge amount of money, in particularly poor people and elderly people and retired people on fixed income are very, very hard hit. I'm concerned that under the changes of this bill there may be some decrease in their ability to find out about the proposed LID, and I'm wondering if there is any impact on such citizens?"

Senator Thompson: "Senator Pullen, this bill was drafted to take care of an oversight that occurred last year when there was a general rewrite of a notice of requirements to bring about some uniformity. The former provision for such notices required publication five times in a daily newspaper or twice in a weekly newspaper. In the rewrite, we picked the larger requirement which removed the flexibility from the notice provision and now seek to correct that through this bill.

'I believe that it does not alter the situation as existed formerly when these districts could publish, as provided by law, in two consecutive weeks. So, the proposal certainly is not radical and it conforms with the requirements for public notices generally.'

Debate ensued.

POINT OF INQUIRY

Senator Pullen: "Senator Gaspard, my suspicions are usually aroused when I see a third substitute bill. That usually suggests to me that the people supporting the bill had to go through all sorts of machinations to try to overcome many obstacles and problems. Can you identify some of the problems and concerns that necessitated a third substitute bill?"

Senator Gaspard: "Yes, Senator, the machinations that we went through were primarily being referred to one committee and then being rereferred to Ways and Means in concern about an appropriation. Basically, the intent of the bill is pretty much the same. The first bill that was introduced was the 3609 bill and in the time period from last session to this session, the community colleges and the SPI, and the coalition on adult literacy have developed a package to us as a group and we amended that package then on the 3609 bill, which is 3517 and then sent it to Ways and Means. That's how we got the third substitute before us."

MOTIONS

On motion of Senator McDermott, Second Substitute Senate Bill No. 4242 was substituted for Senate Bill No. 4242 and the second substitute bill was placed on second reading and read the second time.

Senator McDermott moved that the following amendments be considered simultaneously and adopted:

On page 3, after line 4, insert the following:

"NEW SECTION. Sec. 6. The department at social and health services shall establish a therapeutic drug utilization and review committee to consider establishing standards and/or procedures for therapeutic drug utilization review and control that may be implemented either by the department or through a private contractor. The committee shall be charged with the following responsibilities:

(1) Developing policy for monitoring and control of drug utilization based on therapeutic effectiveness.

(2) Overseeing the establishment of a computer-based information system that will provide timely information on drug prescription and consumption and that will be capable of
tracking by drug, by illness, by beneficiary, and by provider. In addition, this system shall include information on acute or long-term care admissions related to under or inappropriate utilization of drugs.

(3) Establishing standards for dosage, duration, and effectiveness of medications according to particular diagnoses.

(4) Setting standards to serve as guidelines on misprescribing, overprescribing, and contraindicated drug use.

Renumber the remaining sections consecutively and correct internal references accordingly.

On page 11, line 2, strike "rand insert "a"

Debate ensued.

POINT OF INQUIRY

Senator Lee: "Senator McDermott, would this apply to the dosages that are used in nursing homes that are primarily the kinds of things that keep people calm and all that sort of thing? We all get complaints about over dosage sometimes."

Senator McDermott: "Senator Lee, this program has been adopted by eleven states and also by General Motors and it requires that all medication requests to the insurance company or to medicaid be put in a computer. They are then matched against the various side effects of drugs and the computer can send a letter to the doctor or both doctors who were prescribing medication so they will know they are giving too much or if there is any kind of problem. It's really a clinically based evaluation system of medication used to prevent over-drug use."

Senator Lee: "So if you have medicaid patients in nursing homes, this would crop up at the same place and you would be able to find out whether or not there was a problem?"

Senator McDermott: "That's correct."

Senator Lee: "Thank you."

Further debate ensued.

POINT OF INQUIRY

Senator Kiskaddon: "Senator McDermott, does this program mean that a person, by name, is going to be tracked in the computer so that you would be able to know exactly which medication, say, that I would be taking if I was under any medical care?"

Senator McDermott: "That's really the purpose to give the doctor the information that another doctor is prescribing medication. This is related purely to the Department of Social and Health Services, not the private sector. It may be that your employer or the Boeing Company is actually considering buying this program, then it would be related to anybody in the private sector. We're talking here about only people who are under medicaid."

Senator Kiskaddon: "Then what kind of safeguards are in there, so that the confidentiality aspects of all of this would be taken so that the information would be say readily available that to find out that somebody may be on some drugs for some kind of psychosis or something that they really didn't want the world to know about?"

Senator McDermott: "Once you turn in a chit to pay for the medication, the state of Washington knows you're on that drug and if you are seeing another physician, that other physician ought to know that you're taking that medication, because if he or she prescribes something, there may be two things that are antithetical to each other."

Senator Kiskaddon: "And if I'm working for Boeing and they buy into the program, it would still be limited only to the doctors that would be able to get the information?"

Senator McDermott: "That's correct."

POINT OF ORDER

Senator Pullen: "Mr. President, a point of order. I would like to challenge the amendments on scope and object. I have been so impressed with the success of your insight on these matters and I know that you always rule one hundred percent correctly—that there is just no need for me to comment further. I am sure the President will make the right ruling."
MOTION

On motion of Senator Vognild, further consideration of Second Substitute Senate Bill No. 4242 was deferred.

SECOND READING

SENATE BILL NO. 4500, by Senators Granlund, Bender, Gaspard, McManus, Hansen, Bauer, Rinehart, Warnke, Garrett, Goltz and Fleming

Revising the basic education formula.

The bill was read the second time.

MOTIONS

- On page 2, line 14, after "program" insert "in grades kindergarten through third grade."
- On page 2, line 16, after "grade", insert "."

On motion of Senator Bender, the following amendment by Senators Bender and Gaspard was adopted:

- On page 2, line 23, after "students", insert: "PROVIDED, FURTHER. That local districts shall give priority consideration to provide certificated personnel with any increase in funds generated by the change in the ratio of certificated personnel to annual average full time equivalent students."

On motion of Senator Gaspard, the rules were suspended. Engrossed Senate Bill No. 4500 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Pullen: "Senator Gaspard, I see that a fiscal note has been requested. Could you give me a summary of what the fiscal note says?"

Senator Gaspard: "Senator Pullen, if you will recall, in the budget that passed last year—we made provisions for this in the budget and that had a fiscal impact and an appropriation of approximately six million dollars for the second biennium. If we are to continue that into future bienniums we could look at that six million dollars as being a yearly cost. So if you want to project that to the next biennium, we are probably looking at a total of a million dollar improvement over the funding ratio we now have."

Senator Pullen: "Thank you, Senator Gaspard. That does a good job of answering my question."

Further debate ensued.

POINT OF INQUIRY

Senator Barr: "Senator Gaspard, I think we all realize this class size thing is really important out there in teaching the kids, but could you explain to me—in reading this description it says, 'one hundred annual average full-time equivalent.' That means that the school that is less than a hundred—this wouldn't be applicable to?"

Senator Gaspard: "Senator Barr, as you probably know, the small school districts have an enhancement right now through the small school district factor and practically, if you have less than a hundred students, this would not make a dent, because of the ratio in the way it is funded. Small school districts already have the enhancement over school districts that are of normal size."

Further debate ensued.

The President declared the question before the Senate to be the roll call on final passage of Engrossed Senate Bill No. 4500.

On motion of Senator Gaspard, the rules were suspended, Engrossed Senate Bill No. 5033 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.
POINT OF INQUIRY

Senator Bottiger: "Senator Kiskaddon, I presume then that that would apply to child molesters and everything else and that it’s a waste of time here trying to prevent that kind of an activity, because the parent should go out and do that checking for themselves."

Senator Kiskaddon: "I believe any parent that believes that leaving it up to the state is going to do it for them is not going to work. When it comes to day care, I would really like to train the parents of that day care how to do their own drop-in checks as a group so that there’s somebody checking almost all of the time and teach the parents how to observe their children when they’re coming home and if their child really says, ‘No, I don’t want to be there’ -- to trust that and start doing something about moving it. I believe the only place that we’ll make sure that the children are safe in day care and preschool is for them to be aware of the signals and know how to do it themselves. So, that is the ultimate basic."

Further debate ensued.

The President declared the question before the Senate to be the roll call on final passage of Engrossed Senate Bill No. 5033.

"NEW SECTION. Sec. 1. The long-range health and economic and environmental goals for the state of Washington require the protection of the state’s surface and underground waters for the health, safety, use, and enjoyment of its people. It is the purpose of this chapter to provide public bodies an additional means by which to provide for financing, development, and operation of water pollution control facilities needed for achievement of state and federal water pollution control requirements for the protection of the state’s waters.

It is the intent of the legislature that public bodies be authorized to provide service from water pollution control facilities by means of service agreements with public or private parties as provided in this chapter.

NEW SECTION. Sec. 2. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Water pollution control facilities" or "facilities" means any facilities, systems, or subsystems owned or operated by a public body, or owned or operated by any person or entity for the purpose of providing service to a public body, for the control, collection, storage, treatment, disposal, or recycling of wastewater, including but not limited to sanitary sewage, storm water, residential, commercial, industrial, and agricultural wastes, that are causing water quality degradation due to concentrations of conventional, nonconventional, or toxic pollutants. Water pollution control facilities include all equipment, utilities, structures, real property, and interests in and improvements on real property necessary for or incidental to such purpose. Water pollution control facilities also include such facilities, equipment, and collection systems as are necessary to protect federally designated sole source aquifers.

"NEW SECTION. Sec. 3. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Water pollution control facilities" or "facilities" means any facilities, systems, or subsystems owned or operated by a public body, or owned or operated by any person or entity for the purpose of providing service to a public body, for the control, collection, storage, treatment, disposal, or recycling of wastewater, including but not limited to sanitary sewage, storm water, residential, commercial, industrial, and agricultural wastes, that are causing water quality degradation due to concentrations of conventional, nonconventional, or toxic pollutants. Water pollution control facilities include all equipment, utilities, structures, real property, and interests in and improvements on real property necessary for or incidental to such purpose. Water pollution control facilities also include such facilities, equipment, and collection systems as are necessary to protect federally designated sole source aquifers."
be responsive to its needs, and shall not be a member of the legislative authority.

(3) "Water pollution" means such contamination, or other alteration of the physical, chemical, or biological properties of any waters of the state, including change in temperature, taste, color, turbidity, or odor of the waters, or such discharge of any liquid, gaseous, solid, radioactive, or other substance into any waters of the state as will or is likely to create a nuisance or render such waters harmful, detrimental, or injurious to the public health, safety, or welfare, or to domestic, commercial, industrial, agricultural, recreational, or other legitimate beneficial uses, or to livestock, wild animals, birds, fish, or other aquatic life.

(4) "Agreement" means any agreement to which a municipal corporation and a service provider are parties by which the service provider agrees to deliver service to such corporation in connection with its design, financing, construction, ownership, operation, or maintenance of water pollution control facilities in accordance with this chapter.

(5) "Service provider" means any privately owned or publicly owned profit or nonprofit corporation, partnership, joint venture, association, or other person or entity that is legally capable of contracting for and providing service with respect to the design, financing, ownership, construction, operation, or maintenance of water pollution control facilities in accordance with this chapter.

NEW SECTION. Sec. 3. (1) Public bodies may enter into agreements with service providers for the furnishing of service in connection with water pollution control facilities pursuant to the process set forth in section 4 of this act. The agreements may provide that a public body pay a minimum periodic fee in consideration of the availability of the service without regard to the amount of service actually used during all or any part of the contractual period. Agreements may be for a term not to exceed forty years or the life of the facility, whichever is longer, and may be renewable.

(2) The source of funds to meet periodic payment obligations assumed by a public body pursuant to an agreement permitted under this section may be paid from taxes, or solely from user fees, charges, or other revenues pledged to the payment of the periodic obligations, or both.

NEW SECTION. Sec. 4. The legislative authority of a public body may secure services by means of an agreement with a service provider. Such an agreement may obligate a service provider to design, finance, construct, own, operate, or maintain water pollution control facilities by which services are provided to the public body. Service agreements and related agreements under this chapter shall be entered into in accordance with the following procedure:

(1) The legislative authority of the public body shall publish notice that it is seeking to secure certain specified services by means of entering into an agreement with a service provider. The notice shall be published in the official newspaper of the public body, or if there is no official newspaper then in a newspaper in general circulation within the boundaries of the public body, at least once each week for two consecutive weeks. The final notice shall appear not less than sixty days before the date for submission of proposals. The notice shall state (a) the nature of the services needed, (b) the location in the public body's offices where the requirements and standards for construction, operation, or maintenance of projects needed as part of the services are available for inspection, and (c) the final date for the submission of proposals. The legislative authority may undertake a prequalification process by the same procedure set forth in this subsection.

(2) The request for proposals shall (a) indicate the time and place responses are due, (b) include evaluation criteria to be considered in selecting a service provider, (c) specify minimum requirements or other limitations applying to selection, (d) insular as practicable, set forth terms and provisions to be included in the service agreement, and (e) require the service provider to demonstrate in its proposal that a public body's annual costs will be lower under its proposal than they would be if the public body financed, constructed, owned, operated, and maintained facilities required for service.

(3) The criteria set forth in the request for proposals shall be those determined to be relevant by the legislative authority of the public body, which may include but shall not be limited to: The respondent's prior experience, including design, construction, or operation of other similar facilities; respondent's management capability; schedule availability; and financial resources; cost of the service; nature of facilities design proposed by respondents; system reliability; performance standards required for the facilities; compatibility with existing service facilities operated by the public body or other providers of service to the public body; project performance warranties; penalty and other enforcement provisions; environmental protection measures to be used; and allocation of project risks. The legislative authority shall designate persons or entities (a) to assist it in issuing the request for proposals to ensure that proposals will be responsive to its needs, and (b) to assist it in evaluating the proposals received. The designee shall not be a member of the legislative authority.

(4) After proposals under subsections (1) through (3) of this section have been received, the legislative authority's designee shall determine, on the basis of its review of the proposals and
any recommendations of the designated persons or entities, whether one or more proposals have been received from respondents which are (a) determined to be qualified to provide the requested services, and (b) responsive to the notice and evaluation criteria, which shall include, but not be limited to, cost of services. The designee shall conduct a bidder's conference to include all qualified respondents to assure a full understanding of the proposals. The bidder's conference shall also allow the designee to make qualified respondents aware of any changes in the request for proposal. Any information related to revisions in the request for proposal shall be made available to all qualified respondents. Any qualified respondent shall be accorded a reasonable opportunity for revision of its proposal prior to commencement of the negotiation provided in subsection (5) of this section, for the purpose of obtaining best and final proposals.

(5) After such conference is held, the designee may negotiate with the respondent whose proposal it determines to be the most advantageous to the public body, considering the criteria set forth in the request for proposals. If the negotiation is unsuccessful, the legislative authority may authorize the designee to commence negotiations with any other qualified respondent. On completion of this process, the designee shall report to the legislative authority on his or her recommendations and the reasons for them.

(6) Any person aggrieved by the legislative authority's approval of a contract may appeal the determination to an appeals board selected by the public body, which shall consist of not less than three qualified persons. Such board shall promptly hear and determine whether the public body entered into the agreement in accordance with this chapter and other applicable law. The hearing shall comply with chapter 34.04 RCW. The board shall have the power only to affirm or void the agreement.

(7) Notwithstanding the foregoing, where contracting for design services by the public body is done separately from contracting for other services permitted under this chapter, the contracting for design of water pollution control facilities shall be done in accordance with chapter 39.80 RCW.

(8) A service agreement shall include provision for an option by which a public body may acquire fair market value facilities dedicated to such service.

(9) Before any service agreement is entered into by the public body, it shall be reviewed and approved by the department of ecology to ensure that the purposes of chapter 90.48 RCW are implemented.

NEW SECTION. Sec. 5. A public body may sell, lease, or assign public property for fair market value to any service provider as part of a service agreement entered into under the authority of this chapter. The property sold or leased shall be used by the provider, directly or indirectly, in providing services to the public body. Such use may include demolition, modification, or other use of the property as may be necessary to execute the purposes of the service agreement.

NEW SECTION. Sec. 6. A public body that enters into a service agreement pursuant to this chapter, under which a facility is owned wholly or partly by a service provider, shall be eligible for a grant or loan to the extent permitted by law or regulation as if the entire portion of the facility dedicated to service to such public body were publicly owned. The grant or loan shall be made to the public body.

NEW SECTION. Sec. 7. Sections 3 through 6 of this act shall be deemed to provide an additional method for the provision of services from and in connection with facilities and shall be regarded as supplemental and additional to powers conferred by other state laws and by federal laws.

NEW SECTION. Sec. 8. (1) The provisions of chapters 39.12, 39.19, and 39.25 RCW shall apply to a service agreement entered into under this act to the same extent as if the facilities dedicated to such service were owned by a public body.

(2) Subsection (1) of this section shall not be construed to apply to agreements or actions by persons or entities which are not undertaken pursuant to this act.

(3) Except for section 13 of this act, this act shall not be construed as a limitation or restriction on the application of title 39 RCW to public bodies.

NEW SECTION. Sec. 9. This chapter may be cited as the water quality joint development act.

NEW SECTION. Sec. 10. A new section is added to chapter 35.23 RCW to read as follows: RCW 35.23.352 does not apply to agreements entered into under authority of chapter 70.-- RCW (sections 1 through 9 of this act) provided there is compliance with the procurement procedure under section 4 of this act.

MOTION
Senator Pullen moved that the following amendment to the amendment be
adopted:
On page 1, line 21, after "waters" and before the period, insert "from pollution due to the
effects of carcinogens, heavy metals, halogenated hydrocarbons, and other long-lived toxins"

Debate ensued.
Senator Bolliger demanded a roll call and the demand was sustained.
The President declared the question before the Senate to be the roll call on
adoption of the amendment by Senator Pullen to the amendment by Senators
Talmadge, Vognild and Bluechel.

ROLL CALL
The Secretary called the roll and the motion by Senator Pullen failed and the
amendment to the amendment was not adopted by the following vote: Yeas. 21: nays, 27; absent.
 Voting yea: Senators Benitz, Craswell, Deccio, Guess, Hayner, Johnson, McCaslin,
 McDermott, McDonald, Metcalf, Newhouse, Owen, Patterson, Pullen, Rasmussen, Saling, Sellar,
 Voting nay: Senators Bailey, Barr, Bauer, Bender, Bluechel, Bottiger, Cantu, Conner,
 Dejamatt, Fleming, Garrett, Gaspard, Goltz, Granlund, Hatisan, Kiskaddon, Kreidler, Lee,
 McManus, Moore, Peterson, Rinewater, Talmadge, Thompson, Vognild, Williams, Wojahn - 27.
 Absent: Senator Hansen - 1.

MOTION
Senator McDermott moved that the following amendment to the amendment be
adopted:
On page 2, line 25 of the striking amendment, after "aquifers." insert "water pollution con-
trol facilities do not include dams or water supply systems."

Debate ensued.

POINT OF INQUIRY
Senator Rasmussen: "Senator McDermott, we have had in this country—not
particularly—but we may have it here too, we have wash water from various
mines that are in up behind our dams. Would this amendment say you can't use
any pollution control money for that—which, of course, ends up as our drinking
water and it's not necessarily an aquifer—the water behind the dam. The way I
read this amendment it would appear that that's what you are prohibiting."
Senator McDermott: "Senator, this program started as a cleanup of the waters
of the state. If they are already clear behind the dam, you shouldn't need more
money to repair or build dams and we are talking about sewage treatment plants both for the City of Spokane’s aquifer, as well as the Puget Sound, as well as lakes that are being polluted, like Lake Chelan. We’re talking about sewer treatments—

Senator Rasmussen: “Of course, Lake Chelan is retained by a dam, so, if pollution facilities were needed any place, this amendment would prohibit it?”

Senator McDermott: “This amendment would prohibit them from working on the dam with this money. They would have to get the money somewhere else. That’s correct.”

Senator Rasmussen: “I’m not speaking of dams. I’m speaking of necessary putting in pollution controls either above or below the dam.”

Senator McDermott: “This would prohibit them from working on the dam.”

Further debate ensued.

The President declared the question before the Senate to be adoption of the McDermott amendment to the amendment by Senators Talmadge, Vognild and Bluechel.

The motion by Senator McDermott carried and the amendment to the amendment was adopted on a rising vote.

POINT OF ORDER

Senator Bottiger: “Mr. President, while the amendment is being passed out, I raise the point of order that this Guess and Pullen amendment is simply a rewrite of an amendment that already failed by another sponsor. Now, there are appropriate debate techniques and there are obviously delaying techniques. I raise the point of order that the matter has already been the subject matter of an amendment and it has been defeated by the Senate.”

REPLY BY THE PRESIDENT

President Cherberg: “The amendment is not before the body.”

POINT OF ORDER

Senator Bottiger: “Mr. President, I raise the point of order and I have already made my comment.”

RULING BY THE PRESIDENT

President Cherberg: “Senator Guess and members of the Senate, the President believes the point of order raised by Senator Bottiger is proper as the two amendments are virtually the same.”

The amendment by Senators Guess and Pullen to the amendment was ruled out of order.

The President declared the question before the Senate to be adoption of the amendment by Senators Talmadge, Vognild and Bluechel, as amended.

Debate ensued.

POINT OF INQUIRY

Senator Bender: “Senator Talmadge, is it the intent of this bill to permit contractors to receive a bid under this act and circumvent the prevailing wage act in Chapter 39.12 RCW by subcontracting for a substantial portion of work outside of the state?”
Senator Talmadge: "No, Senator Bender. It is my understanding that that would be a violation of the prevailing wage law."

Further debate ensued.

The motion by Senator Talmadge carried and the amendment, as amended, was adopted.

MOTION

On motion of Senator Kreidler, the rules were suspended. Engrossed Substitute Senate Bill No. 4717 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

The President declared the question before the Senate to be the roll call on final passage of Engrossed Substitute Senate Bill No. 4717.

ROLL CALL

The Secretary called the roll on final passage of Engrossed Substitute Senate Bill No. 4717 and the bill passed the Senate by the following vote: Yeas, 42; nays, 7.

Voting yea: Senators Bailey, Barr, Bender, Benitz, Bluechel, Bottiger, Cantu, Conner, Craswell, Deccio, DeJarnatt, Fleming, Garrett, Goltz, Granlund, Guess, Halsan, Hansen, Hayner, Johnson, Kiskaddon, Kreidler, Lee, McCaslin, McDonald, McManus, McCall, Moore, Newhouse, Owen, Patterson, Peterson, Rasmussen, Saling, Sellar, Stratton, Talmadge, Thompson, Vogtland, von Reichbauer, Wojahn, Zimmerman - 42.

ENGROSSED SUBSTITUTE SENATE BILL NO. 4717, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

NOTICE OF RECONSIDERATION

Having voted on the prevailing side, Senator Bolliger served notice that he would move to reconsider the vote by which Engrossed Substitute Senate Bill No. 4717 passed the Senate.

SECOND READING

SENATE BILL NO. 4519, by Senators McDermott and Bolliger (by request of Governor Gardner)

Adopting provisions on water quality.

MOTIONS

On motion of Senator McDermott, Substitute Senate Bill No. 4519 was substituted for Senate Bill No. 4519 and the substitute bill was placed on second reading and read the second time.

Senator McDermott moved that the following amendment by Senators Bottiger, Bluechel, Thompson, Lee, Goltz, Bailey and Kreidler be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The long-range health and environmental goals for the state of Washington require the protection of the state's surface and underground waters for the health, safety, use, enjoyment, and economic benefit of its people. It is the purpose of this chapter to provide financial assistance to the state and to local governments for the planning, design, acquisition, construction, and improvement of water pollution control facilities and related activities in the achievement of state and federal water pollution control requirements for the protection of the state's waters.

It is the intent of the legislature that distribution of moneys for water pollution control facilities under this chapter be made on an equitable basis taking into consideration legal mandates, local effort, ratepayer impacts, and past distributions of state and federal moneys for water pollution control facilities.

It is the intent of this chapter that the cost of any water pollution control facility attributable to increased or additional capacity that exceeds one hundred ten percent of existing needs at the time of application for assistance under this chapter shall be entirely a local or private responsibility. It is the intent of this chapter that industrial pretreatment be paid by industries and that the water quality account shall not be used for such purposes.

(1) Not to exceed one million five hundred thousand dollars for planning assistance to any

ground water management area created pursuant to chapter 453, Laws of 1985, provided that

such assistance does not exceed fifty percent of the estimated annual cost of such planning

(5) Not to exceed thirteen million five hundred thousand dollars for water pollution control facilities that are determined by the department of ecology to be of highest priority for receipt of state assistance solely for design of such facilities. Such assistance shall not exceed fifty percent of the eligible cost of any such facility.

NEW SECTION. Sec. 5. (1) There is hereby appropriated to the office of financial management from the water quality account for the biennium ending June 30, 1987, the sum of one hundred fifty thousand dollars, or so much thereof as may be necessary, for the requirements in section 7 of this act.

(2) There is hereby appropriated to the department of ecology from the water quality account for the biennium ending June 30, 1987, the sum of two hundred fifty thousand dollars, or so much thereof as may be necessary, for the requirements in section 7 of this act.

NEW SECTION. Sec. 6. No grant or loan made in this chapter for fiscal year 1987 shall be construed to establish a precedent for levels of grants or loans made from the water quality account thereafter.

NEW SECTION. Sec. 7. (1) The office of financial management, with the assistance of the department of ecology and other appropriate state agencies and representatives of local government, shall develop a plan for state financial assistance for future water pollution control facilities and activities in conformance with the intent and purposes of this chapter. The plan shall be presented to the legislature no later than January 1, 1987, and shall include but not be limited to the following:

(a) An evaluation of the total cost to public bodies throughout the state constructing water pollution control facilities and undertaking water pollution control activities, including an identification of the federal, state, and local resources and mechanisms available to address water quality needs: the need for and appropriate level of state assistance for such facilities and activities and the appropriate level of such assistance; and an evaluation of whether such assistance should be in the form of loans, grants, or a combination thereof. The evaluation shall give consideration to the absence of conservation district taxing authority and the corresponding need for increased levels of matching loans or grants for such districts.

(b) Recommendations for the establishment of a state revolving loan fund program for water pollution control expenditures, including the terms and rate of interest to be charged on state loans.

(c) A description of criteria for the equitable distribution of state moneys based upon the intent and policies of this chapter. This element shall include a compilation of current local household sewerage rates imposed throughout the state and a forecast of future sewerage rates throughout the state based upon the costs of construction and of proper operation and maintenance of water pollution control facilities. Such forecast shall include estimates of the impact on future household sewerage rates of varying levels of state assistance.

(d) An assessment of the capacity of local entities providing sewerage services to raise the capital necessary to comply with federal and state wastewater treatment requirements and to provide proper operation and maintenance of water pollution control facilities.

(e) An evaluation of the feasibility of debt service agreement with local entities where the state would assist local jurisdictions to defray the debt service on locally issued bonds.

(f) An assessment of and recommendations for improved coordination of all water quality management activities among state agencies and between the state and local governments.

(2) The director of ecology shall report to the legislature by January 1, 1987, an evaluation of the water quality protection needs for the state, excluding the geographic area covered by the Puget Sound water quality authority's management plan for Puget Sound. The evaluation should include, but not be limited to:

(a) An assessment of future water pollution control facility needs to accommodate population and economic growth, including those facilities under compliance orders and other legal mandates. This shall include consideration of the appropriate state role in financing such needs.

(b) Incorporation of nonpoint water quality management plans generated under section 208 of the federal clean water act and the needs of public bodies for:

(i) Ground water protection planning and implementation including source protection plans for public water systems;

(ii) Control of nonpoint pollution from agriculture, urban stormwater runoff, forest practices, and on-site sewage disposal;

(iii) Shellfish protection;

(iv) Lake restoration; and

(v) Greatest reasonable reduction of combined sewer overflows.
NEW SECTION. Sec. 8. The department of ecology may provide for a phased in compliance schedule for secondary treatment which addresses local factors that may impede compliance with secondary treatment requirements of the federal clean water act.

In determining the length of time to be granted for compliance, the department shall consider the criteria specified in the federal clean water act.

NEW SECTION. Sec. 9. During the period from July 1, 1987, until June 30, 1995, the following limitations shall apply to the department's total distribution of funds appropriated from the water quality account:

(1) Not more than fifty percent for water pollution control facilities which discharge directly into marine waters;

(2) Not more than twenty percent for water pollution control activities that prevent or mitigate pollution of underground waters and facilities that protect federally designated sole source aquifers with at least two-thirds for the Spokane-Rathdrum Prairie Aquifer;

(3) Not more than ten percent for water pollution control activities that protect freshwater lakes and rivers including Lake Chelan and the Yakima and Columbia rivers;

(4) Not more than ten percent for activities which control nonpoint source water pollution;

(5) Ten percent and such sums as may be remaining from the categories specified in subsections (1) through (4) of this section for water pollution control activities or facilities as determined by the department; and

(6) Not more than two and one-half percent of the total amounts of moneys under subsections (1) through (5) of this section from the effective date of this act until December 31, 1995, may be transferred by the department to the state conservation commission for the purposes of this chapter.

The distribution under this section shall not be required to be met in any single fiscal year.

NEW SECTION. Sec. 10. When making grants or loans for water pollution control facilities, the department shall consider the following:

(1) The protection of water quality and public health;

(2) The cost to residential ratepayers if they had to finance water pollution control facilities without state assistance;

(3) Actions required under federal and state permits and compliance orders;

(4) The level of local fiscal effort by residential ratepayers since 1972 in financing water pollution control facilities;

Any retailer who sells or otherwise disposes of any unstamped cigarettes other than (1) a federal instrumentality with respect to sales to authorized military personnel and (2) a federally recognized Indian tribal organization with respect to sales to enrolled members of the tribe shall collect from the buyer or transferee thereof the tax imposed on such buyer or transferee by (RCW 82.24.020, 82.24.025) this chapter and RCW 28A.47.440 and remit the same to the department after deducting from the tax collected the compensation he would have been entitled to under the provisions of this chapter and RCW 28A.47.440 if he had affixed stamps to the unstamped cigarettes. Such remittance shall be made at the same time and manner as remittances of the retail sales tax as required under chapters 82.08 and 82.32 RCW. In the event the retailer fails to collect the tax from the buyer or transferee, or fails to remit the same, the retailer shall be personally liable therefor, and shall be subject to the administrative provisions of RCW 82.24.230 with respect to the collection thereof by the department. The provisions of this section shall not relieve the buyer or possessor of unstamped cigarettes from personal liability for the tax imposed by (RCW 82.24.020, 82.24.025) this chapter and RCW 28A.47.440.

Nothing in this section shall relieve a wholesaler or a retailer from the requirements of affixing stamps pursuant to RCW 82.24.040 and 82.24.050.

MOTION

Senator Moore moved that the following amendment to the amendment be adopted:

On page 8, after line 19, of the striking amendment insert the following:

“NEW SECTION. Sec. 7. Metropolitan municipal corporations having the authority to perform water pollution abatement activities which receive grants or loans made in this chapter are prohibited from constructing new or expanding existing water pollution control facilities or tidelands or shorelands within the boundaries of such municipal corporations.”

Renumber remaining sections consecutively and correct internal references accordingly.

Debate ensued.

POINT OF INQUIRY

Senator McDonald: “Senator Moore, would it be your intention that if we did adopt this amendment that we would put the sewage treatment plant in its inner base site?”

Senator Moore: “No. the present sites are protected by virtue of what the amendment says. It’s just that I don’t want to see us expand present sites that are located on waterways. I think that sums it up.”
Further debate ensued.

The President declared the question before the Senate to be adoption of the amendment by Senator Moore to the amendment by Senators Bottiger, Bluechel, Thompson, Lee, Goltz, Bailey and Kreidler.

The motion by Senator Moore failed and the amendment to the amendment was not adopted on a rising vote.

**MOTION**

Senator Guess moved that the following amendment by Senators Guess and Pullen to the amendment be adopted:

> On page 3, line 31, after 'means' insert 'and by eliminating or reducing pollution from sewage and industrial waste, with special emphasis on eliminating, reducing, or neutralizing heavy metals and other toxins that are known to have long lives'.

Debate ensued.

**POINT OF INQUIRY**

Senator Rasmussen: "Senator Guess, by the way the bill is geared, it's all for building and enlarging existing sewer treatments. Aren't there new methods of removing heavy metals that would be far greater benefits? I think you were telling me one day."

Senator Guess: "Senator, I don't think that had anything to do with heavy metals. The Cesium 137 is to kill the bacteria and it kills the bacteria 99.95 percent, but it does not remove the heavy metals and the toxins, so, that's a different approach and a different technology."

Senator Rasmussen: "Secondary treatment doesn't remove any heavy metals?"

Senator Guess: "No, sir."

Senator Rasmussen: "So that would be an improvement?"

Senator Guess: "This would be an improvement on that, because it is really the heavy metals and the toxin that get into the bottom fish that causes the blisters on them. It was the thing that caused the scare about our tuna a number of years ago and you don't eat fish out of Commencement Bay purely and simply because of the heavy metals that are there and there is, as yet, no way to go back into a bay and to pick that up."

Senator Rasmussen: "Thank you."

**POINT OF INQUIRY**

Senator Bottiger: "Senator Guess, I'm tempted to agree with your amendment, but I don't understand one implication—if a certification for the design construction of a sewer treatment plant could not guarantee the elimination. You know, we're not talking about eighty percent or ninety percent, we're just talking about the total elimination of heavy metals and toxics with known long lives. Then, would your amendment not prohibit the construction of anything?"

Senator Guess: "Senator, the thing that I would hope that I could do is to make clear that the heavy metals under the present system have to be taken out at the third level of treatment—tertiary treatment. Now, there are no tertiary treatment plants in the state of Washington at the present time, but we are moving towards that, but with the elimination and use of the Cesium, you would be able to skip the secondary treatment plant and go directly to tertiary to remove the heavy metals, and it would be a much more economical operation to do that than by going through the secondary and later having to go to tertiary."

Senator Bottiger: "Are you advocating that we just stop all activity and wait?"

Senator Guess: "Not at all."

Senator Bottiger: "Then why do we need the language?"

Senator Guess: "Because if we don't have the language there, we're going to put secondary in and not third—not tertiary."

Senator Bottiger: "So you're advocating that we don't do any secondary, we do all—"

Senator Guess: "Immediately to tertiary."

Senator Bottiger: "How much more does that cost?"

Senator Guess: "Well, it's not going to cost nearly as much, Senator, because you are going to purify the water; you're going to kill the bacteria. You see, the
primary treatment removes the sludge and then after the sludge is removed and its
irradiated—so it can be used for many things—we don’t use it now, but you would
then treat the effluent from the primary plant directly with the Cesium and then put
it immediately into the tertiary treatment which you don’t have to—–"

Senator Bottiger: "I’m not going to comment on the Cesium, but it seems to me if
it’s more economical, the local governments would do it anyhow and all your
amendment does is create confusion as to what we’re supposed to do. These things
are drafted by people who are experts in the field and I’m still trying to track down
this Cesium thing that we string a little string of thing across the river and—–"

Senator Guess: "Senator, I didn’t distribute that because I thought—–"

Senator Bottiger: "I’m going to recommend a ‘no,’ because this amendment
simply makes it more confusing if local governments want to go to tertiary and if
it’s cheaper, as you indicate, they’ll do that anyhow."

Senator Guess: "O.K."
Senator Bottiger: "Thank you."

Senator Guess moved to withdraw the amendment by Senators Guess and
Pullen to the amendment.

In so contracting, the district or governmental entity is deemed for all purposes to be acting within its governmental capacity. This contracting authority includes the furnishing of fire prevention, fire suppression, emergency medical services, facilities, and equipment to or by the district, governmental entity, or private person or entity;

(4) Encourage uniformity and coordination of fire protection district operations. The fire commissioners of fire protection districts may form an association to secure information of value in suppressing and preventing fires and other district purposes, to hold and attend meetings, and to promote more economical and efficient operation of the associated fire protection districts. The commissioners of fire protection districts in the association shall adopt articles of association or articles of incorporation for a nonprofit corporation, select a chairman, secretary, and other officers as they may determine, and may employ and discharge agents and employees as the officers deem convenient to carry out the purposes of the association. A copy of inspection reports prepared by the district shall be furnished by the district to the appropriate state, county, city, or town that has jurisdiction over the area in which the property is located: PROVIDED. That nothing in this subsection shall be construed to grant code enforcement authority to a district. This subsection shall not be construed as imposing liability on any governmental jurisdiction;

Any use made of the equipment or personnel under this section shall be deemed an exercise of a governmental function of the district.

(2) During the fire season, a fire protection district may take immediate action to suppress any fire outside of its jurisdictional boundaries to protect life and property if such immediate
response could prevent the spread of the fire onto lands protected by the district. The reason-
able costs of suppressing a fire outside the jurisdictional boundaries of the fire protection district
shall be recovered from the owners thereof. PROVIDED, That, in the absence of negligence,
reimbursement is not permitted from owners who pay a fire protection assessment under this

action under subsection (2) of this section on lands protected by a state agency, shall be reim-
bursed for the reasonable fire suppression costs that are incurred until the responsible agency
takes charge, but in no event shall the costs exceed a twenty-four-hour period. A fire protec-
tion district suppressing a fire outside its jurisdictional boundaries shall as soon as practicable
notify the responsible agency or landowner. Failure to notify results in nonreimbursement by
the responsible agency.

Reasonable efforts shall be taken to protect evidence of the fire's origin. Failure to reason-
ably protect such evidence shall result in nonreimbursement by the responsible agency.

Requests for reimbursement shall be submitted within thirty days of the complete suppres-
sion of the fire. Reasonable costs submitted for reimbursement include all salaries and expenses
of personnel, equipment, and supplies and shall be based on the standard wage and equip-
ment rates established by the department of natural resources.

and suppression obligation. The commission may adopt rules for the operation, maintenance,
protection, and use of and conduct on the property.

The commission may sell timber, gravel, sand, and other materials or products from real
property held by the department. The commission may sell or lease the departments' real or
personal property or grant concessions or rights of way for roads or utilities in the property.

If the commission determines that real or personal property held by the department cannot
be used advantageously by the department, the commission may dispose of that property if it is
in the public interest.

If the state acquired real property with use limited to specific purposes, the director may
negotiate terms for the return of the property to the donor or grantor. Other real property shall
be sold to the highest bidder at public auction. After appraisal, notice of the auction shall be
published at least once a week for two successive weeks in a newspaper of general circulation
within the county where the property is located at least twenty days prior to sale.

(1) The department of natural resources may use its equipment and personnel to suppress fires on nonforested lands outside its jurisdiction if such action could reasonably be expected to prevent the fire from spreading onto forest lands. The reasonable costs of suppressing a fire on nonforest lands outside the department's jurisdiction shall be recovered from the owners thereof: PROVIDED, That in the absence of negligence, recovery is not permitted if the owner or owners of the land pay a fire protection assessment or otherwise provide for fire protection as required by law.

(2) The department of natural resources is encouraged to enter into mutually beneficial contracts covering reciprocal response arrangements with other agencies or fire protection districts. In the absence of such a contractual agreement, if the department of natural resources takes suppression action under subsection (1) of this section on lands protected by a fire protection district under Title 52 RCW or on lands protected by another state agency, the department of natural resources shall be reimbursed for reasonable fire suppression costs that are incurred until the responsible agency or district takes charge but in no event shall the costs exceed a twenty-four-hour period. The department of natural resources shall as soon as practicable notify the responsible agency or landowner that the suppression action is being taken. Failure to notify results in nonreimbursement by the responsible agency or district.

Reasonable efforts shall be taken to protect evidence of the fire's origin. Failure to reasonably protect such evidence shall result in nonreimbursement by the responsible district or agency.

Requests for reimbursement shall be submitted within thirty days of the complete suppression of the fire. The legislature finds that information delivery services, which are also known as information-access telephone services and more commonly known as "976" services, are in widespread use in the state. These services operate on a charge-per-call basis and provide revenue for both the service provider and the telecommunications companies. The marketing practices for these toll telephone services have at times been misleading to
consumers and at other times specifically directed toward children. The result has been the placement of calls by individuals, particularly by children, uninformed about the charges that might apply. Therefore, the legislature finds that residential telephone users in the state are entitled to reasonable protection from telephone services they have no desire to use due to confusion or misinformation about these services.

NEW SECTION. Sec. 2. The definitions in this section apply throughout sections 3 through 7 of this act.

1) "Information delivery services" means telephone recorded messages, interactive programs, or other information services which are provided for a charge to a caller. These services are usually provided through a "976" telephone number.

2) "Information providers" means the persons or corporations that provide the information, prerecorded message, or interactive program to the telecommunications company for the information delivery service. The information provider generally receives a portion of the revenue from the calls.

3) "Interactive program" means a program which allows an information delivery service caller, once connected to the information provider's announcement machine, to use the caller's telephone device to access more specific information.

4) "Currently equipped" means an existing switch and software that has the current capability of blocking access to information delivery services on an individual customer basis.

NEW SECTION. Sec. 3. The utilities and transportation commission shall by rule require telecommunications companies to offer each residential telephone subscriber the opportunity to have the subscriber's telephone blocked or deleted from access to all information delivery services. This means that the residential telephone subscriber's telephone would not complete a call to any 976 or information delivery service number. Under this rule, any telecommunications company that makes available information delivery services must also make available to its subscribers the blocking service described in this section.

NEW SECTION. Sec. 4. The utilities and transportation commission shall by rule mandate that information providers who make information available that is pornographic in nature also provide at their expense for access to their services only through a personal identification number in conjunction with 976.

NEW SECTION. Sec. 5. The telecommunications company shall inform subscribers of the rules adopted under sections 3 and 4 of this act, including the availability of the blocking service, through a bill insert or by publication in the telephone directory.

NEW SECTION. Sec. 6. The costs of complying with the rules adopted under sections 3 and 4 of this act shall be borne by the information providers.

NEW SECTION. Sec. 7. The rules under sections 3 through 6 of this act shall take effect on or before December 1, 1986. The commission may also order a phase-in period for the rules if a telecommunications company is not currently equipped to block the services. If a telecommunications company is not so equipped, then the commission shall examine the economic feasibility of installing the blocking system if the newly installed system would be only for the purpose of blocking access to information delivery services.

NEW SECTION. Sec. 8. Sections 2 through 7 of this act are each added to chapter 80.36 RCW.

NEW SECTION. Sec. 9. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.*

SECOND READING

SENATE BILL NO. 4737, by Senator Talmadge

Revising provisions relating to child abuse information.

MOTIONS

On motion of Senator Talmadge, Substitute Senate Bill No. 4737 was substituted for Senate Bill No. 4737 and the substitute bill was placed on second reading and read the second time.

Senator Thompson moved that the following amendments by Senators Thompson and Hayner be considered simultaneously and adopted:

On page 1, line 10, after "employee" strike "or volunteer"

On page 3, line 2, after "employees" strike ", licenses, or volunteers" and insert "or licensees"

On page 3, line 5, after "employee's" strike "or volunteer's"

Debate ensued.

Senator Talmadge demanded a roll call and the demand was sustained.

POINT OF INQUIRY

Senator Kiskaddon: "Senator Talmadge, would there be, within this bill, any reason or occasion that all the people that are volunteers would have to be fingerprinted as part of applying to be a volunteer from the way this bill is?"

Senator Talmadge: "Senator, in order to be effective in checking out the background of an individual, fingerprinting would probably be required to utilize the State Patrol's criminal information system. That is the only way you can be sure that the person you have before you has not changed his or her name or done something else to disguise his or her identity. That's what they said last year; that's what they say this year."

Senator Kiskaddon: "Would there be any way of removing the requirements for fingerprinting only from this bill, so that it would still then apply to volunteers in everything except the fingerprints?"

Senator Talmadge: "Not if you wanted to have an effective check of the individual's background. That is, in fact, the testimony that we had in the committee and in the Judiciary Committee's Task Force from the Washington State Patrol, who testified on this issue. What you might want to do is think about making the volunteers submit the affidavit that says they have or have not been convicted of the offenses because if, in fact, they submit that and they lied they are guilty of perjury, which is a punishable offense in Washington State."

POINT OF INQUIRY

Senator Metcalf: "Senator Talmadge, does this amendment remove from the volunteers the necessity of signing the affidavit or the fingerprinting or both?"
Senator Talmadge: “Both. It simply removes them entirely from the ambit of the bill, as I understand the amendment.”

Senator Metcalf: “Thank you, Senator Talmadge.”

Further debate ensued.

POINT OF INQUIRY

Senator DeJamatt: “Senator Talmadge, are these fingerprint cards permanently retained?”

Senator Talmadge: “My understanding is that they are not, that in fact the fingerprint cards, once utilized to check the background of the individual, are discarded by the State Patrol.”

Senator DeJamatt: “Thank you.”

On motion of Senator Zimmerman, Senator Barr was excused.

Further debate ensued.

POINT OF INQUIRY

Senator McCaslin: “Senator Talmadge, since the bill came through your committee, if you look at New Section 1, sub (1), when and if ‘volunteer’ is stricken out on line 13, what would the words ‘or involvement’—what meaning would that have with an applicant? Would that cause a legal or technical problem with that section with the word ‘volunteer’ out?”

Senator Talmadge: “Could you give me the site again, Senator McCaslin?”

Senator McCaslin: “It’s line 13, page 1, Section 1, sub (1), it says, ‘Employment or involvement with the business or organization.’ I don’t know what involvement would mean if you’re not a volunteer and you’re not an employee.”

Senator Talmadge: “That’s right. I think it’s meant to deal exclusively with the issue of the volunteer. Employment has a special meaning under the common law, but involvement is. I suppose, as accurate a description of what a volunteer has with an organization as we could come up with in this area.”

Senator McCaslin: “A further question, Senator. If the word ‘volunteer’ is stricken, should the word ‘or involvement’ be out of there to clarify it?”

Senator Talmadge: “I would certainly agree with that.”

Senator McCaslin: “Thank you, Senator Talmadge.”

MOTION

On motion of Senator McCaslin, the following amendment was adopted:

On page 1, line 12, after “employment” strike “or involvement”

Prohibiting fraud in the acquisition of benefits or payments in health care coverage and insurance.

The bill was read the second time.

MOTION

Senator Moore moved that the following amendment be adopted:

*NEW SECTION. Sec. 1. The legislature finds and declares that the welfare of the citizens of this state is threatened by the spiraling increases in the cost of health care. It is further recognized that fraudulent health care claims contribute to these increases in health care costs. In recognition of these findings, it is declared that special attention must be directed at eliminating the unjustifiable costs of fraudulent health care claims by establishing specific penalties and deterrents. This chapter may be known and cited as "the health care false claim act."

NEW SECTION. Sec. 2. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Claim" means any attempt to cause a health care payer to make a health care payment.

(2) "Deceptive" means presenting a claim to a health care payer that contains a statement of fact or fails to reveal a material fact, leading the health care payer to believe that the represented or suggested state of affairs is other than it actually is. For the purposes of this chapter, the determination of what constitutes a material fact is a question of law to be resolved by the court.

(3) "False" means wholly or partially untrue or deceptive.

(4) "Health care payment" means a payment for health care services or the right under a contract, certificate, or policy of insurance to have a payment made by a health care payer for a specified health care service.

(5) "Health care payer" means any insurance company authorized to provide health insurance in this state, any health care service contractor authorized under chapter 48.44 RCW, any health maintenance organization authorized under chapter 48.46 RCW, any legal entity which is self-insured and providing health care benefits to its employees, or any individual person responsible for paying for health care services.

(6) "Person" means an individual, corporation, partnership, association, or other legal entity.

(7) "Provider" means any person lawfully licensed or authorized to render any health service.

NEW SECTION. Sec. 3. (1) A person shall not make or present or cause to be made or presented to a health care payer a claim for a health care payment knowing the claim to be false.

(2) No person shall knowingly present to a health care payer a claim for a health care payment that falsely represents that the goods or services were medically necessary in accordance with professionally accepted standards. Each claim that violates this subsection shall constitute a separate offense.

(3) No person shall knowingly make a false statement or false representation of a material fact to a health care payer for use in determining rights to a health care payment. Each claim that violates this subsection shall constitute a separate violation.

(4) No person shall conceal the occurrence of any event affecting his or her initial or continued right under a contract, certificate, or policy of insurance to have a payment made by a
health care payer for a specified health care service. A person shall not conceal or fail to disclose any information with intent to obtain a health care payment to which the person or any other person is not entitled, or to obtain a health care payment in an amount greater than that which the person or any other person is entitled.

(5) A person who violates this section is guilty of a class C felony punishable under chapter 9A.20 RCW.

(6) This section does not apply to statements made on an application for coverage under a contract or certificate of health care coverage issued by an insurer, health care service contractor, health maintenance organization, or other legal entity which is self-insured and providing health care benefits to its employees.

NEW SECTION. Sec. 4. In a prosecution under this chapter, circumstantial evidence may be presented to demonstrate that a false statement or claim was knowingly made. Such evidence may include but shall not be limited to the following circumstances:

(1) Where a claim for a health care payment is submitted with the person's actual, facsimile, stamped, typewritten, or similar signature on the form required for the making of a claim for health care payment; and

(2) Where a claim for a health care payment is submitted by means of computer billing tapes or other electronic means if the person has advised the health care payer in writing that claims for health care payment will be submitted by use of computer billing tapes or other electronic means.

NEW SECTION. Sec. 5. This chapter shall not be construed to prohibit or limit a prosecution of or civil action against a person for the violation of any other law of this state.

NEW SECTION. Sec. 6. Upon the conviction under this chapter of any provider, the prosecutor shall provide written notification to the appropriate regulatory or disciplinary agency of such conviction.

NEW SECTION. Sec. 7. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 8. Sections 1 through 7 of this act shall constitute a new chapter in Title 48 RCW."

Debate ensued.

POINT OF INQUIRY

Senator Deccio: "Senator Moore, just to clarify one of the issues that was brought up in committee. This bill is certainly not intended for those people who may be covered by more than one policy and while they're waiting for one policy to pay and they present a claim under another policy, or by inadvertently placing claims under one or more policies, would not constitute a fraudulent act. Is that correct?"

Senator Moore: "Definitely not a fraudulent act under those circumstances."

Senator Deccio: "Thank you."

POINT OF INQUIRY

Senator Pullen: "Senator Moore, I notice on page 2 of your amendment, near the top of the page, in subsection (2) of Section 3, it says, 'No person shall knowingly present to a health payer a claim for a health care payment that falsely represents that the goods or services are medically necessary, in accordance with professionally accepted standards.' Would this make it illegal for a doctor who, say, believes in less conventional treatment—say a nutritional approach to health care—if he were to treat a patient nutritionally which may not fall into the usual customary kind of treatment, would that claimant then be in violation of this law if he--"

Senator Moore: "No, I think not. You will notice down in subsection (7) we speak to provider. It means any person lawfully licensed or authorized to render any health service."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "I think you missed the point of Senator Pullen's question. If I am a medical doctor and falling under the definition of a provider, but because of some idiosyncrasy of mine, I submit a charge for a heart examination to cover up for giving someone some vitamins. That would be a fraudulent claim because the vitamins would not be a legitimate charge under that insurance policy. I'm presuming that."
Senator Moore: "That did not come up specifically in committee. I would pre­sume that you are right, Senator."

Further debate ensued.

The President declared the question before the Senate to be adoption of the amendment by Senator Moore.

The motion by Senator Moore carried and the amendment was adopted.

MOTION

On motion of Senator Moore, the rules were suspended, Engrossed Senate Bill No. 4582 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Senator Lee: 'I'm sorry, Senator Vognild, this was one of those that I didn't find out, because I wasn't there for all of the testimony. Could you tell me if these are maximum amounts, if there's any flexibility for the director in any case or must he assess the maximal amount?'

Senator Vognild: "Every penalty that is listed here is a scale that the director can levy. For instance, the large one that I mentioned, the willful violation that results in death, the director has the ability to levy from ten thousand up to a hundred thousand."

Senator Lee: "Thank you very much. I did want to know if that was the case, because it's important that there'll be some kind of flexibility, depending upon the circumstances in the case, just as we allow that kind of flexibility for our court system."

Senator Vognild: "Senator, I definitely agree."

Further debate ensued.

On motion of Senator Thompson, the rules were suspended. Substitute Senate Bill No. 4661 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator McCaslin, I know that you are very familiar with the bill. You had your name on it and I presume you've been following the loans of six million, seven million and ten million. That's going to the poor people. They won't be poor any longer, because most of it's going to investment trusts--250 or 300 unit apartments and I can tell you some of the names of them that are not poor any more. In fact, they weren't poor to start with.

"How much of this money, this one billion that they authorized now--you know we're going up to two billion now, and it might not be much money to you, but I can't even count that high. What I want to know is how much of it is gone to single-family housing? How much is now in like HUD? They take full-page ads to get rid of the houses and if they can't get rid of them, they give them away for a dollar a piece. There is a lot of that going on and my concern is with all we're doing for the poor people and the people who can't afford to buy housing. You tell me how it's working, will you? And, why they need another billion on top of the billions they are already authorized for?

"I understand they issue bonds and the same people that are building these apartment houses are buying these tax exempt bonds, so they're getting it both ways, so you can't beat the system. How many of these houses are coming back? Do you know? How many single family homes are being built under this plan? O.K., Senator McCaslin is quite familiar with this."

Senator McCaslin: "No. I. I want everyone to look at the bill. Senator McCaslin's name is not on the bill. I don't know where you got that information.""

Senator Rasmussen: "You said it was on last time and I presumed--"
Senator McCaslin: "That was two years ago, but this isn't the bill two years ago, Senator. No. 1, my name is not on the bill; No. 2, we had all that information provided to the Governmental Operations Committee when we passed this out. Senator, and let's correct something else. All this money, and I can't tell you the specific amount, does not go to poor people. There are many, many, many young families out there in the moderate income levels that are benefiting from this legislation. So, this particular legislation is not socialistic; it is not costing the state government any money and you're getting your dollar value on this particular bill. But, we do have information on it—Senator Fleming may have it or Senator Deccio may have it."

Further debate ensued.

PARLIAMENTARY INQUIRY

Senator McDonald: "Mr. President, since this is a measure dealing with bonds and bonding authorities, I wonder what the requirements for passage are—whether it's fifty percent or sixty percent?"

The President did not respond.

Editors Note: (See Reply by President when Substitute Senate Bill No. 4661 is resumed later in the day)

MOTION

On motion of Senator Vognild, further consideration of Substitute Senate Bill No. 4661 was deferred.

There being no objection, the Senate resumed consideration of Second Substitute Senate Bill No. 4626, deferred earlier today.

MOTION

Senator Cantu moved that the following amendment be adopted:

On page 4, line 28, after "organizations" insert ": PROVIDED. That no application by a local government for assistance under this act will be accepted unless the applicant demonstrates that it has utilized eighty percent or more of its legal debt limitation."

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Warnke, you mentioned that they could not issue bonds. My understanding, and maybe it's in error, that if they want to exceed the one hundred and six percent limit, all they have to do is put it on the ballot and ask the people. Do you think this project's worthwhile? Will you vote for the bonds over the one hundred and six percent? Is that correct?"

Senator Warnke: "That's correct, Senator. My point is being made, however, that if a community is going to go above the hundred and six, they would have to go so far at eighty percent of the bonding capacities of some of the counties that are now at fourteen percent, for example, on the average across the state to move immediately to an eighty-five or ninety percent even on one vote obviously would not pass."

Further debate ensued.

POINT OF INQUIRY

Senator Deccio: "Senator Warnke, under the bill—I have read clear through it but— it says that the moneys shall be deposited into the state treasury. How is this money distributed after it's collected?"

Senator Warnke: "The program is being run through the Department of Community Development. Grants and applications are made to that department."

Senator Deccio: "So then it would not be distributed on a pro rata basis? It would be just based on the approval of the applications?"

Further debate ensued.

Senator Deccio demanded a roll call and the demand was sustained.

Further debate ensued.

The President declared the question before the Senate to be the roll call on adoption of the amendment by Senator Cantu.
ROLL CALL

The Secretary called the roll and the motion by Senator Cantu failed and the amendment was not adopted by the following vote: Yeas, 21; nays, 25; absent, 2; excused, 1.

Absent: Senators Bottger, Peterson - 2.

Excused: Senator Bluechel - 1.

MOTION

Senator Goltz moved that the following amendment by Senators Goltz, Sellar, Hayner, Rasmussen and Johnson be adopted:

On page 5, after line 33, strike everything down to and including "commingled." on page 9, line 4

Renumber remaining sections appropriately.

Debate ensued.

POINT OF INQUIRY

Senator McCaslin: "Senator Goltz, if I am reading your amendment correctly, page 5, after line 33 is Section 13. Section 13, and if you turn the page to page 6, (1) there, this is old language. This requires me as a real estate broker to keep records and if this is stricken, I think you pretty well gut the real estate law, as far as brokers keeping records. Would you agree to that?"

Senator Goltz: "I would have to have someone else respond because I've not examined the amendment. I asked for it to be drawn and frankly, I haven't read it that way, but I will ask somebody else to respond."

Senator McCaslin: "I think we should look at that very carefully before this amendment is voted on."

Further debate ensued.

The President declared the question before the Senate to be adoption of the amendment by Senators Goltz, Sellar, Hayner, Rasmussen and Johnson.

The motion by Senator Goltz carried and the amendment was adopted.

MOTIONS

On motion of Senator Warnke, the following title amendment was adopted:

On page 1, line 1 of the title, after "fund;" strike everything down to and including "59.18-.270;" on line 2.

On motion of Senator Warnke, the rules were suspended, Engrossed Second Substitute Senate Bill No. 4626 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

Voting nay: Senators Barr, Craswell, Deccio, McCaslin, Newhouse, Owen, Patterson, Pullen, Rasmussen, Zimmerman - 10.

SECOND READING

SENATE BILL NO. 4933, by Senators Fleming, Zimmerman, Rinehart, Deccio and Garrett

Authorizing counties and cities to assist in low-income housing.

MOTIONS

On motion of Senator Thompson, Substitute Senate Bill No. 4933 was substituted for Senate Bill No. 4933 and the substitute bill was placed on second reading and read the second time.

Senator Pullen moved that the following amendment be adopted:

On page 1, line 14 after "exceed" strike "eighty" and insert "fifty"

Debate ensued.

POINT OF INQUIRY

Senator McDermott: "Senator Fleming, I'm confused about the eighty percent and the fifty percent and the definitions in the federal law. Could you clarify that?"

Senator Fleming: "Mr. President and members of the body. As far as I know, the other bill that Senator Pullen was dealing with, the housing trust fund, and Senator Warnke can correct me if I'm wrong on this, that fifty percent is the federal government's definition of the very low income—you're way down there. That is the people that we're trying to work with in the housing trust fund. In terms of eighty percent, that is the federal government's definition of the low income and that's what we're trying to deal with in this measure and that's what they've been dealing with in the past with federal dollars. All we want to do is with local dollars, so there's not really an inconsistency—you're dealing with different economic levels in terms of the people being able to afford housing."

Further debate ensued.

Senator Fleming demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on adoption of the amendment by Senator Pullen.

ROLL CALL

The Secretary called the roll and the motion by Senator Pullen failed and the amendment was not adopted by the following vote: Yeas, 22; nays, 23; absent, 3; excused, 1.

Absent: Senators Bottiger, Hayner, Moore – 3.

Excused: Senator Bluechel – 1.

MOTION

Senator Pullen moved that the following amendments be considered simultaneously and adopted:

On page 1, line 17 after "shall" strike "not"

On page 1, line 20 beginning with the colon strike all language through "process" on line 22

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Garrett, as a former mayor—there is another statute that says that any city or county money that is used over a certain limit—they must go to bids. Would this affect that? There are no repealers in here, so that statute would still stand?"

Senator Garrett: "Well, I don't know. You would have to ask Senator Pullen; he is more legal than I am. Senator Rasmussen, but you are right, the statute regulating cities says that they must award the bid to the lowest responsible bidder. I do not believe, though, that this would affect this statute."
THIRTY-SECOND DAY, FEBRUARY 13, 1986

Senator Rasmussen: "Without repealing that statute, it would not have any effect?"

Senator Garrett: "I don’t think so. If you went out for water or street projects, you would still award it to the lowest responsible bidder."

The President declared the question before the Senate to be adoption of the two amendments by Senator Pullen.

The motion by Senator Pullen failed and the amendments were not adopted.

MOTION

On motion of Senator Fleming, the rules were suspended, Substitute Senate Bill No. 4933 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

The President declared the question before the Senate to be the roll call on final passage of Substitute Senate Bill No. 4933.

ROLL CALL

The Secretary called the roll on final passage of Substitute Senate Bill No. 4933 and the bill passed the Senate by the following vote: Yeas, 35; nays, 13; absent, 1.

Voting nay: Senators Benitz, Cantu, Croswell, Guess, Hayner, McDonald, Newhouse, Owen, Patterson, Pullen, Rasmussen, Saling, Sellar – 13.

There being no objection, the President advanced the Senate to the seventh order of business.

There being no objection, the Senate resumed consideration of Substitute Senate Bill No. 4661 and the parliamentary inquiry by Senator McDonald, deferred earlier today.

REPLY BY THE PRESIDENT

President Cherberg: "In response to Senator McDonald’s parliamentary inquiry, the President believes that only a constitutional majority twenty-five members of the elected Senators is necessary."

PARLIAMENTARY INQUIRY

Senator McDonald: "Mr. President, is there a citation on that?"

President Cherberg: "These bonds—the state is not contracting any general obligation indebtedness in this matter."

PARLIAMENTARY INQUIRY

Senator Newhouse: "Mr. President, it would appear to me that the previous bill, the one that we are amending, allowed a one billion dollar bond issue and authorized it and required a sixty percent vote at that time. In this measure, we are amending the one billion to a two billion dollar authorization, so it would appear to me that the additional billion dollars, as authorized by this measure, would require no further authorization of the Legislature, and therefore, should require a sixty percent vote."

REPLY BY THE PRESIDENT

President Cherberg: "To the best of my knowledge, Senator Newhouse, the President did not require a sixty percent majority. There were thirty-five votes on the bill. The record shows that the President said that the constitutional majority was received. Otherwise, the President would have specified if it had sixty percent."
Senator Newhouse: "But, Mr. President, the point is that there any further authorization required from the Legislature for the sale of these bonds, if this measure is passed? I think the answer is 'no.' therefore, this is an authorization to sell bonds."

President Cherberg: "It is the President's understanding that the Supreme Court ruled that this was not a state debt and, therefore, a sixty percent majority was not required."

PARLIAMENTARY INQUIRY

Senator Rasmussen: "What I'm wondering, Mr. President, is under the new construction for tax exempt bonds if this will not impact the ability of the state to issue bonds—general obligation—and also there is going to be a limit on the amount that can be issued. In fact, I think that's the limit that's retroactive back to January 1st."

REPLY BY THE PRESIDENT

President Cherberg: "That is not my decision, Senator."

Further debate ensued.

The President declared the question before the Senate to be the roll call on final passage of Substitute Senate Bill No. 4661.

MOTION

Senator Bluechel moved that the following amendment be adopted:
On page 2, line 14, following "during the" strike "five-year" and insert "two-year"

Debate ensued.

POINT OF INQUIRY

Senator Metcall: "Senator Zimmerman, this additional development levy--this is a port levy. Is this a levy voted by the people?"

Senator Zimmerman: "They are allowed to proceed with this levy without a vote. Let me explain why it arose in the first place. The ports put the levy on by referendum. Eight percent of the people got a petition and said we would like to vote on the issue. Then they had to go to a vote. The vote was turned down--seventy percent turned down--of the port's request, yet the port does have the privilege under present law to come right back around and say, 'Shall we do it?' That's too bad. They have extensive power now.

"My thought was, with the requests of the constituency down there, hey, they should have a limit as to how soon they can come back and put the levy back on you, and it seemed to me that there was a logical wait--a delay--of five years before they could proceed in the usual fashion. We're not taking away their fashion, we're just saying they have this delay."

Senator Metcall: "Thank you, very much."

Further debate ensued.

The President declared the question before the Senate to be adoption of the amendment by Senator Bluechel.

The motion by Senator Bluechel failed and the amendment was not adopted.

Debate ensued.

POINT OF INQUIRY

Senator Pullen: "Senator Thompson, I notice on page 2, Section 4, line 21, that the bill states, 'The State Treasurer shall invest the funds in such manner as to effectively maximize the yield to the investment pool.' It seemed to me, recently, Clallam County got into a great deal of difficulty through its efforts to maximize the yield without due consideration to the safety of the investment. Do you feel that there is some danger with respect to not adequately considering the safety of the investment pool?"

Senator Thompson: "I feel confident that we're safe in providing this authority. It extends no change with regard to the prudence that they must follow presently. The possibility of making judgmental errors exists now and I guess we have to rely on their individual confidence in dealing with those matters, but this doesn't alter existing law with regard to that."

Senator Pullen: "Well, I guess my concern is that, if I were State Treasurer and I saw a statute that directed me to maximize the yield without some clear language that requires me to give due consideration to the safety, I would head for rather speculative investments and would feel that the statutes require me to do that.

"I feel with the economic times that we've seen in the last several years and with the economic times that are ahead of us, we may be getting into situations where there is increased risks to public monies and that does worry me. We may just be seeing the tip of the iceberg here, as far as the Clallam County situation was
concerned, and I hope the State Treasurer and others will go beyond ordinary prudence as times get more and more dangerous."

Further debate ensued.

The President declared the question before the Senate to be the roll call on final passage of Substitute Senate Bill No. 4590.

POINT OF INQUIRY

Senator Pullen: "Senator Rasmussen, first of all I would like to compliment you on your sponsorship of this bill that deals with such an important subject and one that can help out so many other people who are in need of organs. The only question I have concerns the issue of pressure, which you alluded to in your remarks. Is there any language in the bill or any other requirements that you can cite that would guarantee that there would be no undue pressure on the next of kin?"

"The concern I have is that the next of kin is in a relatively bereaved state frequently when they're approached by the hospital officials. In such a bereaved state, I suspect the next of kin could be unusually sensitive to pressure and I want to make sure that there will be no undue pressure put on the next of kin."

Senator Rasmussen: "No, Senator Pullen. I do not expect any undue pressure. It could be handled very easily with just somebody getting a slip of paper saying, 'Would you like to donate?' but at least it makes it known to them that somebody else needs very badly these organs. They have a chance to donate if they'd like to and it doesn't have to be—it isn't compulsory. It just says, 'You shall ask.'"

PERSONAL PRIVILEGE

Senator Hansen: "A point of personal privilege, Mr. President and ladies and gentlemen of the Senate. I want to thank the people that put the gifts together for all of our Senators and Representatives today. They are all donated by our agricultural commissions and are gathered and packaged and put together by the Women for Survival of Agriculture.

"A few statistics, I think, that should be pertinent today is that in 1920 seventy-five percent of the people were involved in agriculture for their own subsistence—a lot. Today there’s about four percent of our public actually raising the food for the balance of us. Twenty-five percent of the people who are working today in the state of Washington are working as a result of our agricultural ability, and that’s from the processing plants to the retail grocers, the truckers and everything, so agriculture is the number one industry in the state. We’re very much interested in holding our water rights, keeping our options open for more agriculture in the state of Washington, which is our natural resource. At the present time, we’re in a distressed area. The cost of production is exceeding the amount that we can sell our products for. I’m sure this is going to turn around, so I appreciate the Senate being sympathetic to our water bills that I’ve been allowed to run here in the Senate and the cooperation of the full Senate for our agricultural problems and for our agricultural needs.

"At this time I would like to have the Senate give an applause to the ladies that put this together—that worked in the interim to help us put our legislation together. Study groups and things like this are a very vital part of the agricultural community and I would appreciate a good round of applause for our women in the front rows of the gallery."

SECOND READING

SENATE BILL NO. 4629, by Senators Talmadge, Sellar, McDermott, Granlund, Zimmerman and Lee

Reauthorizing the examining board of psychology.

MOTIONS

On motion of Senator Wojahn, Substitute Senate Bill No. 4629 was substituted for Senate Bill No. 4629 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Wojahn, the rules were suspended, Substitute Senate Bill No. 4629 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.
POINT OF INQUIRY

Senator Rasmussen: "Senator Talmadge, I note in the digest here that it says, 'Which informs clients of financial requirements.' Is that the client or is that the psychologist to know whether he has enough resources—then you could have the right to refuse treatment resources?"

Senator Talmadge: "No, Senator. I think that pertains to the cost of the service to be provided. It's similar to what is an ethical requirement; for example, for the legal profession that with respect to a contingency fee contract, that has to be negotiated up front, the client has to be advised that he or she can receive an hourly rate as an alternative to a contingency contract. Similarly here, the psychologist has to advise in advance what the financial arrangements will be as to costs and arrangements for payment of the service."

Senator Rasmussen: "Do we require that of doctors also?"

Senator Talmadge: "I don't know what the ethical requirements are in the medical profession, but I would certainly hope that that would be the case. I don't know, Senator Rasmussen."

Senator Rasmussen: "It says they have to post their rate on the wall."

Senator Talmadge: "I don't know."

Senator Rasmussen: "No, I mean this."

Senator Talmadge: "Well, in effect they would have to advise the patient up front. Yes."

Senator Rasmussen: "It's a good provision. It's like buying gasoline. You know what price you pay when you go in. Thank you."

POINT OF INQUIRY

Senator Patterson: "I note, Senator Talmadge, there's a fiscal note requested. Was that ever received and, hopefully, consolidation would mean a reduction in the cost of operation. I just wonder whether or not we have any idea whether this will cost more or less."
Senator Talmadge: "I'm trying to recall if I ever saw the fiscal note. Senator Patterson, but I would believe with you that it would have no fiscal impact. In fact, it might be a small reduction."

Senator Patterson: "Thank you."

The President declared the question before the Senate to be the roll call on final passage of Senate Bill No. 4528.

ROLL CALL

The Secretary called the roll on final passage of Senate Bill No. 4528 and the bill passed the Senate by the following vote: Yeas, 45; excused, 4.

On page 4, line 7, after "cost" strike everything through "cost)" on line 9 and insert ", in the absence of the filing with the department of revenue of satisfactory proof of a lesser or higher cost."

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Hayner, there's an old saying--'what evils we get into follow us through life.'
This is the original and only price-fixing bill, but nobody is challenging for constitutionality. Doesn't the constitution say we may not fix prices—or should not?"

Senator Hayner: "I don't believe there's anything in the constitution with respect to that. What this bill is doing now is saying that in five years this whole thing will go away and we will have no more price setting with respect to cigarettes whatsoever—and I think that's appropriate, but I do think that to chop it off now and to say we're going to go to a system where everybody can go as low as they want is going to kill those who are still somewhat dependent, and incidentally, as far as I know, there are not any little wholesalers who are just selling cigarettes. They have long since tried to get into other fields, but they are still somewhat dependent upon that. This is fair notice to them to get out of the business."

Senator Rasmussen: "Thank you."

Further debate ensued.

Senator Rasmussen demanded a roll call and the demand was sustained.

Authorizing an interim alternative allocation mechanism for tax exempt bonds.

MOTIONS

On motion of Senator Warnke, Substitute Senate Bill No. 4923 was substituted for Senate Bill No. 4923 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Warnke, the rules were suspended, Substitute Senate Bill No. 4923 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator Warnke, you know I have some concerns about the allocation of what will now be a relatively scarce amount of bonds pursuant to House Resolution 3838. May we assume from this allocation process--looking to the federal legislation—that the Governor in doing the allocation will take into consideration on a priority basis, things like public health, environmental protection and other critical public needs as opposed to some of the more frivolous purposes to which the Legislature has permitted industrial development revenue bonds to be put?"

Senator Warnke: "Yes, Senator. I think that the Governor would use the existing recommendations that we have in the law now and would make sure that the small amount of bills, and you are correct, under the new allocation formula would be used for public health, safety and welfare."
POINT OF INQUIRY

Senator Rasmussen: "Senator Warnke, is it necessary that the Legislature authorize Executive Orders? The reason I asked is that because the Governor made a very queer Executive Order on Christmas Eve when everybody was decorating the Christmas tree. In that order, you recall, he said that there were no laws and no rules and so he was going to make his own rules. Why would it be necessary at this time, to authorize Executive Orders? In fact, the Constitution gives no right of Executive Orders, but I'm wondering if you know something I don't?"

Senator Warnke did not respond.

REMARKS BY SENATOR NEWHOUSE

Senator Newhouse: "I would attempt to answer that this way, and I have the same qualms that you do. The Legislature is the only one authorized to make these changes and we probably will not be in session and we can't really write the bill now because we don't know what Congress is going to put in that 3838. Temporarily, by this measure, we are authorizing the Governor by Executive Order to perform what could be called a function of the Legislature—the right to draft the rules by which these tax-exempt bonds will be authorized and who will get the authority to authorize them."

Senator Rasmussen: "Thank you, Senator Newhouse, that explains that he has no right of Executive Orders and that the Legislature is the only one. I'm glad to hear that.

"I need another question of Senator Warnke though. Let us assume, Senator Warnke, that the state of Washington, which is practically up to its bond limit, would issue 250 or 300 million dollars worth of bonds and the City of Tacoma wants to issue a hundred million dollars to invest in a new dam project. Which bond issue would be cut down or would they be cut down percentage wise?"

REPLY BY SENATOR WARNKE

Senator Warnke: "I have no idea which bond issue would be cut down, Senator. I know that the issuance of both bonds could not surpass the ceiling that's in existence today. I can only assume that those people making the decision on the allocation would issue the amount of bonds necessary to keep the projects going until the new allocation system is brought forward."

Senator Rasmussen: "I thought we authorized another billion dollars worth of bonds for the Housing Commission. Would those be reduced?"

Senator Warnke: "It's not a state debt, Senator."

Further debate ensued.

The President declared the question before the Senate to be the roll call on final passage of Substitute Senate Bill No. 4923.

ROLL CALL

The Secretary called the roll on final passage of Substitute Senate Bill No. 4923 and the bill passed the Senate by the following vote: Yeas, 47; absent, 1; excused, 1.

SECOND READING

SENATE BILL NO. 4941, by Senators Granlund, DeJarnatt, Bender, Fleming, Kreidler, Wojahn and Rinehart (by request of Governor Gardner)

Providing for school districts to operate child care programs.
MOTIONS

On motion of Senator Gaspard, Second Substitute Senate Bill No. 4941 was substituted for Senate Bill No. 4941 and the second substitute bill was placed on second reading and read the second time.

On motion of Senator Stratton, the following amendment was adopted:

On page 1, line 8, after "care" insert "especially for school age children and the children of teenage parents".

Senator Stratton moved that the following amendments be considered simultaneously and adopted:

On page 1, line 17, after "of" strike "minors" and insert "students enrolled in the common school program".

On page 1, line 17, after "before" strike ", during."

Debate ensued.

POINT OF INQUIRY

Senator Kiskaddon: "Senator Stratton, my understanding is that there are a number of programs around the state now in school districts, in various ways of using schools for day care—that are currently operating. Would this amendment put any of those programs out of business?"

Senator Stratton: "This amendment applies only to the schools using the facilities of the school for the latch key program. Whatever is off the school premises or other programs, I would not think—"

Senator Kiskaddon: "But some of them I believe, may be using the school facilities and extra room now for a program during the day and would this stop that from happening?"

Senator Stratton: "If they were able to do it now, then I guess we would not need the bill, would we?"

Senator Kiskaddon: "I have the sense that that may be an accurate way of looking at it."

Further debate ensued.

MOTION

On motion of Senator Vognild, further consideration of Second Substitute Senate Bill No. 4941 was deferred.

There being no objection, the Senate resumed consideration of Second Substitute Senate Bill No. 4242 and the pending McDermott amendments on page 3, line 4, and page 11, line 2, deferred February 12, 1986.

Renumber remaining sections consecutively and correct internal references.

Debate ensued.

POINT OF INQUIRY

Senator Gaspard: "Senator Saling, the question I'd like to ask concerns your definition or understanding in offering this amendment of what 'surplus school facilities' means. As you know, we had some discussion in committee and it was felt in committee that it can be a classroom within a building. Is that your definition or understanding also?"
Senator Saling: "The intent of this is not only a classroom within a building, but an entire building in some cases is being used for this purpose, if it is not currently being used in the K-12 instructional program. So, it would be any facility, room or building—should have a first call for the K-12 instructional program."

Senator Gaspard: "But that wouldn't preclude that if they aren't surplus and the first priority would be for the K-12 program, then if that is not needed then it doesn't preclude from the day care program that could take place?"

Senator Saling: "This amendment does not speak directly to that. It merely says that any of the space that is provided by the public for K-12 education should be used for that, if it is needed by the school district."

Further debate ensued.

The President Pro Tempore declared the question before the Senate to be adoption of the amendment by Senators Saling, Benitz, Bailey, Craswell, Deccio, McCaslin, Stratton and Owen.

On page 2, beginning with line 26, strike all of subsection (4) through line 28.
Renumber remaining subsections consecutively and correct internal references.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Granlund, most of these children probably would be under five. Does your school district now transport these children?"

Senator Granlund: "Yes, there is a program that's in operation that's called 'Discovery School' and they are transported. They are brought in with the mother when she comes into school and we do that and I'm sure there are many others, Slim."

Senator Rasmussen: "And it has not affected your liability?"

Senator Granlund: "It has not been an impact on liability. That's a question asked in all cases but this, in fact, allows that to happen. If you say you cannot do it, which is what taking this out of the bill would do, then I would suggest that we're going to eliminate, in the case of South Kitsap, thirteen to fifteen young persons who are presently getting to school and are completing their education and hopefully moving down the road to a better life than they've had up to this point in their lives."

Senator Rasmussen: "Thank you, Senator Granlund."

Further debate ensued.

Senator Gaspard demanded a roll call and the demand was sustained.

The President Pro Tempore declared the question before the Senate to be the roll call on adoption of the amendment by Senators Patterson and Stratton.

"NEW SECTION. Sec. 8. A school district operating a child care program under this chapter shall not be liable for damages caused in connection with such program unless such damages were the result of gross negligence or willful misconduct on the part of the school district or its employees."

Renumber remaining sections consecutively and correct internal references.

Debate ensued.

POINT OF INQUIRY

Senator Saling: "Senator Talmadge, if we were to take out the 'gross,' would you then approve this amendment?"

Senator Talmadge: "Senator, then you have existing law. It really doesn't do anything. I'm not the floor manager for the bill, as is Senator Gaspard, but I certainly suggest that if you delete the word 'gross,' you really haven't done anything of any significance. That is, in fact, the law at the present time."

Senator Saling: "Thank you."

Further debate ensued.

MOTION

On motion of Senator Gaspard, the rules were suspended. Engrossed Second Substitute Senate Bill No. 4941 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.
POINT OF INQUIRY

Senator Rasmussen: "Senator Granlund, is it the intention of this bill that the day cares be contracted out to private operators?"

Senator Granlund: "That's one of the options. Yes."

Senator Rasmussen: "One of the options, but it's not the intention?"

Senator Granlund: "Well, it could be an option. It spells out the other things that the school district could develop. Again, the citizens of that community are going to develop that program, not you or I. We're not going to dictate. They can develop the program but the needs assessment has to be made by the people who want this program within the school district. Now, the school district is going to be cooperative. They will work to develop this. Parent cooperatives are involved with the development of the program."

Senator Granlund: "Thank you."

SECOND READING

SENATE BILL NO. 4990, by Senator Goltz

Regulating river running.

MOTIONS

On motion of Senator Kreidler, Substitute Senate Bill No. 4990 was substituted for Senate Bill No. 4990 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Kreidler, the rules were suspended. Substitute Senate Bill No. 4990 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Pullen: "Senator Goltz, is there any language in the bill that would affect the rights of an individual citizen to raft down the river?"

Senator Goltz: "No, this bill does not cover people who raft on their own. This is only for those who provide the service for others."

Further debate ensued.

POINT OF INQUIRY

Senator Deccio: "Senator Goltz, would it not be possible for an attorney to draw up a well-worded waiver that each person riding these rafts could sign before the trip holding the operator or equipment harmless of any liability, rather than go through this process?"

Senator Goltz: "I would have to have an attorney answer that. I think, but I don't think you can waive away a person's legal rights, if that was the question.
Maybe you should ask someone like Senator Bottiger or Senator Talmadge, or Senator Hayner. I'm not sure that I can answer that question to give you a legal opinion."

POINT OF INQUIRY

Senator Newhouse: "You have in this bill Section 3, Senator Goltz, a rather unique liability section in which the owner and any member of his immediate family mentioned explicitly shall be jointly and severally liable. My question is, what happens if an employee is operating this craft, is he liable, or is the owner liable?"

Senator Goltz: "Again I would have to ask someone with better legal training than I have to respond to that."

Further debate ensued.

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "On the two questions that were raised, first with respect to waivers of negligence. There is a Washington Supreme Court case called 'Baker v. the City of Seattle,' involving the lease of a golf cart, where the courts struck down some small language that provided for the waiver of one's rights with respect to an action for negligence against the City of Seattle.

"More recently, however, there is a case called 'Shorter v. Drury,' that the Washington Supreme Court decided involving the consequences attached to a patient refusing to having a blood transfusion—the patient was a Jehovah's Witness. The court said the physician could legitimately contract to deal with the consequences or conditions of that person refusing to have a blood transfusion; but the court reserved its opinion with respect to the issue of whether or not a negligence could be waived or a negligence could be contracted away."

"We'll probably have a good idea as to whether or not this area is possible, whether you can draft an effective waiver of negligence when the Supreme Court gets the case involving the Seattle School Districts' language of waiver with respect to athletic events. They drafted a very tight waiver proviso that students have to sign before they can participate in school athletics in the Seattle School Districts, so we will know about that, I believe shortly."

"As to the concerns about Section 3 of the bill, it is a very common section, that, in effect, imputes fault to the owner of the watercraft. There is a distinction between the owner and the operator of the craft and says that if the watercraft is being operated by a member, in effect of the immediate family, the owner of the watercraft, the fault will be imputed—not unusual at all."

Further debate ensued.

MOTION

On motion of Senator Zimmerman, Senator von Reichbauer was excused. The Vice President Pro Tempore declared the question before the Senate to be the roll call on final passage of Substitute Senate Bill No. 4990.

POINT OF INQUIRY

Senator Deccio: "Senator Kreidler, in response to my remarks—I think some of yours were a response—I think it was either you or Senator Gaspard said that this is
a move towards the appointment of the Superintendent of Schools. At what point do you see that coming?"

Senator Kreidler: "Senator Deccio, I have no idea when I would anticipate that coming, but it's a move that I was expressing my own personal feelings on, and my personal feelings are that that's the kind of decision that should be made at some point in time."

POINT OF INQUIRY

Senator Deccio: "Mr. President, with your permission, I would like to ask Senator Gaspard the same question.

"Senator Gaspard, the same question I put to Senator Kreidler—he indicated that this was a move towards the appointment of the State Superintendent of Public Instruction. Number 1, do you agree with that and Number 2, at what point do you see this happening?"

Senator Gaspard: "Senator Deccio, I think that Senator Kreidler was expressing a personal preference and I don't agree with that position. If you will look at the Report from the 3609 Committee, for example, when they looked at school government and they looked at the issue of having the State School Board appointed rather than elected—they viewed that it has to be a constitutional amendment, and we all know that. The State Constitution allows for the SPI to be a state-wide elected official and, secondly, when they ran a poll to find out what kind of public support there would be for the SPI to be appointed, they found out that sixty-nine percent of the public thought that the SPI ought to be elected the way it is now.

"The polls that I have looked at—conducted in my own district—are very similar in responses, in that high 60's low 70's range. Quite frankly, I don't think the public, at least the public in this state, that has a very populous background and we look at all of the elected officials that we do elect in elections, that the public is very unlikely to give up their opportunity to vote for public officials, so I don't see that change coming about."

Further debate ensued.

Senators McDermott, Gaspard and Bottiger demanded the previous question and the demand was sustained.

The President declared the question before the Senate to be the roll call on final passage of Engrossed Substitute Senate Bill No. 4872.

In other words, the right of the people to have a referendum on this issue?”

(2) "Director" means the director of marine transportation.

NEW SECTION. Sec. 3. There is hereby created a department of state government to be known as the department of marine transportation. The department shall be vested with all powers and duties transferred to it under this chapter and such other powers and duties as may be authorized by law.

NEW SECTION. Sec. 4. The executive head and appointing authority of the department shall be the director. The director shall be appointed by the governor, with the consent of the senate, and shall serve at the pleasure of the governor.

NEW SECTION. Sec. 5. It is the intent of the legislature wherever possible to place the internal affairs of the department under the control of the director in order that the director may institute therein the flexible, alert, and intelligent management of its business that changing contemporary circumstances require. Therefore, whenever the director's authority is not specifically limited by law, the director shall have complete charge and supervisory powers over the department. The director may create such administrative structures as the director considers appropriate, except as otherwise specified by law.

NEW SECTION. Sec. 6. The director shall appoint a deputy director and such assistant directors as may be needed to administer the department. The deputy director shall have charge and general supervision of the department in the absence or disability of the director and, in case of a vacancy in the office of director, shall continue in charge of the department until a successor is appointed and qualified. This employment shall be in accordance with the state civil service law, chapter 41.06 RCW, except as otherwise provided.

NEW SECTION. Sec. 7. As a condition to a recovery thereon, a verified claim against the department growing out of such damages, loss, injuries, or death must first be presented to the department and filed with the ((secretary)) director within one hundred twenty days after the time when the claim accrued. If the claimant is incapacitated from verifying and filing a claim within the one hundred twenty days, or if the claimant is a minor, then the claim may be verified and presented on behalf of the claimant by his or her relative, attorney, or agent. Each claim must accurately locate and describe the event or defect that caused the damage, loss, injury, or death, reasonably describe the damage, loss, or injury, and state the time when the damage, loss, or injury occurred, give the claimant’s residence for the last six months, and contain the items of damages claimed. No action may be maintained against the department upon the claim until the claim has been presented to, and filed with, the department and sixty days have elapsed after the presentation and filing, nor more than three years after the claim accrued.

With respect to the content of the claims, this section shall be liberally construed so that substantial compliance will be deemed satisfactory.

(1) In order to maintain an adequate, fair, and economically sound schedule of charges for the transportation of passengers, vehicles, and commodities on the Washington state ferries, including the Hood Canal bridge, the department ((of transportation)) each year shall conduct a full review of such charges.

(2) ((Prior to February 1st of each odd-numbered year)) The department ((shall transmit to the transportation commission a report of its review together with its recommendations for the revision of a schedule of charges for the ensuing biennium. The commission)) on or before July 1st of ((that)) each odd-numbered year shall adopt as a rule, in the manner provided by the Washington administrative procedure act, a schedule of charges for the Washington state ferries for the ensuing biennium commencing July 1st. The schedule may initially be adopted as an emergency rule if necessary to take effect on, or as near as possible to, July 1st.

(3) The department in ((making its review and formulating recommendations and the commission-in)) adopting a schedule of charges may consider any of the following factors:
   (a) The amount of subsidy available to the ferry system for maintenance and operation;
   (b) The time and distance of ferry runs;
   (c) The maintenance and operation costs for ferry runs with a proper adjustment for higher costs of operating outmoded or less efficient equipment;
   (d) The efficient distribution of traffic between cross-sound routes;
   (e) The desirability of reasonable commutation rates for persons using the ferry system to commute daily to work;
   (f) The effect of proposed fares in increasing walk-on and vehicular passenger use;
   (g) The effect of proposed fares in promoting all types of ferry use during nonpeak periods;
   (h) Such other factors as prudent managers of a major ferry system would consider.

(4) If at any time during the biennium it appears that projected toll revenues from the ferry system, together with the appropriation from the Puget Sound ferry operations account and any other operating subsidy available to the Washington state ferries, will be less than the projected total cost of maintenance and operation of the Washington state ferries for the biennium, the department shall forthwith undertake a review of its schedule of charges to ascertain whether or not the schedule of charges should be revised. ((The department shall, upon completion of its review report, submit its recommendation to the transportation commission which may in its sound discretion revise the schedule of charges as required to meet necessary maintenance and operation expenditures of the ferry system for the biennium or may defer action until the regular annual review and revision of ferry charges as provided in subsection (2) of this section.))

(5) The provisions of RCW 47.60.330 relating to public participation shall apply to the process of revising ferry tolls under this section.

(3) Before increasing ferry tolls the department ((of transportation)) shall consider all possible cost reductions with full public participation as provided in subsection (1) of this section and, consistent with public policy, shall consider adapting service levels equitably on a route-by-route basis to reflect trends in and forecasts of traffic usage. Forecasts of traffic levels shall be developed by the bond covenant traffic engineering firm appointed under the provisions of RCW 47.60.450. Provisions of this section shall not alter obligations under RCW 47.60.450. Before including any toll increase in a budget proposal ((by the commission)), the department ((of transportation)) shall consult with affected ferry users in the manner prescribed in (1)(b) of this section plus the procedure of either (1) (a) or (c) of this section.

The department ((of transportation)) shall each quarter report to and consult with the legislative transportation committee on the implementation of ((sections 1 through 7 of this 1979 act)) RCW 47.60.502 through 47.60.543.

Sec. 30. Section 1, chapter 133. Laws of 1983 and RCW 47.60.680 are each amended to read as follows:

No contract for the construction, improvement, or repair of a ferry, ferry terminal, or other facility operated by the Washington state ferries or for the repair, overhaul, or the dry-docking of any ferry operated by Washington state ferries may be awarded to any contractor who has not first been prequalified to perform the work by the department ((of transportation)). Upon receipt of an application by a contractor for prequalification to perform ferry system construction and repair contracts, the department shall conduct such additional investigation as it deems necessary. If it finds that the applicant is qualified in accordance with the rules as adopted by the director, the department shall prequalify the contractor to perform the contracts for a period of one year. The prequalification shall fix the aggregate dollar amount of work, including any contract let by the department, that the contractor may have under contract and uncompleted at any one time and may limit the contractor to the submission of bids or proposals upon a certain class of work. Subject to any restrictions on the dollar amount or class of work specified thereunder, the prequalification shall authorize a contractor to bid or submit proposals on all ferry system construction and repair contracts mentioned in RCW 47.60.680 except contracts requiring special prequalification. If the department determines that an applicant is not entitled to prequalification, it shall give written notice of the determination to the applicant.

"Lockout" means the refusal of ferry system management to furnish work to ferry employees in an effort to get ferry employee organizations to make concessions during collective bargaining, grievance, or other labor relation negotiations. Curtailment of employment of ferry employees due to lack of work resulting from a strike or work stoppage, as defined in subsection (11) of this section, shall not be considered a lockout.

"Marine employees' commission" means the commission created in RCW 47.64.280.

"Office of financial management" means the office as created in RCW 43.41.050.

"Strike or work stoppage" means a ferry employee's refusal, in concerted action with others, to report to duty, or his or her willful absence from his or her position, or his or her stoppage or slowdown of work, or his or her abstinence in whole or in part from the full, faithful, and proper performance of the duties of employment, for the purpose of inducing, influencing, or coercing a change in conditions, compensation, rights, privileges, or obligations of his, her, or any other ferry employee's employment. A refusal, in good faith, to work under conditions which pose an endangerment to the health and safety of ferry employees or the public, as determined by the master of the vessel, shall not be considered a strike for the purposes of this chapter.

"Transportation commission" means the commission as defined in RCW 47.01.021.

Sec. 37. Section 5, chapter 15, Laws of 1983 and RCW 47.64.140 are each amended to read as follows:

If any party assumes the operation and maintenance of any ferry or ferry system by rent, lease, or charter from the department (of transportation), such party shall assume and be bound by all the provisions herein and any agreement or contract for such operation of any ferry or ferry system entered into by the department shall provide that the wages to be paid, hours of employment, working conditions and seniority rights of employees will be established by the marine employees' commission in accordance with the terms and provisions of this chapter and it shall further provide that all labor disputes shall be adjudicated in accordance with chapter 47.64 RCW.

Laws of 1983 and RCW 47.64.090 are each amended to read as follows:

(1) It is unlawful for any ferry system employee or any employee organization, directly or indirectly, to induce, instigate, encourage, authorize, ratify, or participate in a strike or work stoppage against the ferry system.

(2) It is unlawful for ferry system management to authorize, consent to, or condone a strike or work stoppage; or to conduct a lockout; or to pay or agree to pay any ferry system employee for any day in which the employee participates in a strike or work stoppage; or to pay or agree to pay any increase in compensation or benefits to any ferry system employee in response to or as a result of any strike or work stoppage or any act that violates subsection (1) of this section. It is unlawful for any official, director, or representative of the ferry system to authorize, ratify, or participate in any violation of this subsection. Nothing in this subsection prevents new or renewed bargaining and agreement within the scope of negotiations as defined by this chapter, at any time. No collective bargaining agreement provision regarding suspension or modification of any court-ordered penalty provided in this section is binding on the courts.

(3) In the event of any violation or imminently threatened violation of subsection (1) or (2) of this section, any citizen domiciled within the jurisdictional boundaries of the state may petition the superior court for Thurston county for an injunction restraining the violation or imminently threatened violation. Rules of civil procedure regarding injunctions apply to the action. However, the court shall grant a temporary injunction if it appears to the court that a violation has occurred or is imminently threatened; the plaintiff need not show that the violation or threatened violation would greatly or irreparably injure him or her; and no bond may be required of the plaintiff unless the court determines that a bond is necessary in the public interest. Failure to comply with any temporary or permanent injunction granted under this section constitutes a punishable contempt. The punishment shall not exceed ten thousand dollars for an employee organization or the ferry system, for each day during which the failure to comply continues, or imprisonment in a county jail for officials thereof not exceeding six months, or both such fine and imprisonment. The punishment for a ferry employee found to be in contempt shall be as provided in chapter 7.20 RCW. An individual or an employee organization which makes an active good faith effort to comply fully with the injunction shall not be deemed to be in contempt.

(4) The right of ferry system employees to engage in strike or work slowdown or stoppage is not granted and nothing in this chapter may be construed to grant such a right.

(5) Each of the remedies and penalties provided by this section is separate and several, and is in addition to any other legal or equitable remedy or penalty.

(6) In addition to the remedies and penalties provided by this section the successful litigant is entitled to recover reasonable attorney fees and costs incurred in the litigation.

(7) Notwithstanding the provisions of chapter 88.04 RCW and chapter 88.08 RCW, the department (of transportation) shall promulgate rules and regulations allowing vessels, as defined in RCW 88.04.300, as well as other watercraft, to engage in emergency passenger
service on the waters of Puget Sound in the event ferry employees engage in a work slowdown or stoppage. Such emergency rules and regulations shall allow emergency passenger service on the waters of Puget Sound within seventy-two hours following a work slowdown or stoppage. Such rules and regulations that are promulgated shall give due consideration to the needs and the health, safety and welfare of the people of the state of Washington.

Sec. 38. Section 8, chapter 15, Laws of 1983 and RCW 47.64.170 are each amended to read as follows:

(1) Any ferry employee organization certified as the bargaining representative shall be the exclusive representative of all ferry employees in the bargaining unit and shall represent all such employees fairly.

(2) A ferry employee organization or organizations and the (Secretary of Transportation) director may each designate any individual as its representative to engage in collective bargaining negotiations.

(3) Negotiating sessions, including strategy meetings of ferry system management or employee organizations, mediation, and the deliberative process of arbitrators are exempt from the provisions of chapter 42.30 RCW. Hearings conducted by arbitrators may be open to the public by mutual consent of the parties. Any meeting ((of)) held by the (Transportation Commission) department, during which a collective bargaining agreement is subject to ratification, shall be open to the public.

(4) Terms of any collective bargaining agreement may be enforced by civil action in Thurston county superior court upon the initiative of either party.

(5) ((Ferry system employees or any employee organization shall not negotiate or attempt to negotiate directly with a member of the transportation commission if the commission has appointed or authorized a bargaining representative for the purpose of bargaining with the ferry employees or their representative, unless the member of the commission is the designated bargaining representative of the ferry system:))

(((5))) The negotiation of a proposed collective bargaining agreement by representatives of ferry system management and a ferry employee organization shall commence in each odd-numbered year immediately following adoption by the legislature and approval by the governor of the biennial budget.

(((5))) (6) Until a new collective bargaining agreement is negotiated, or until an award is made by the arbitrator, the terms and conditions of the previous collective bargaining agreement shall remain in force. The wage and benefit provisions of any collective bargaining agreement, or arbitrator’s award in lieu thereof, that is concluded after July 1st of an odd-numbered year shall be retroactive to July 1st. It is the intent of this section that the collective bargaining agreement or arbitrator’s award shall commence on July 1st of each odd-numbered year and shall terminate on June 30th of the next odd-numbered year to coincide with the ensuing biennial budget year, as defined by RCW 43.88.020(7), to the extent practical.

(((6))) (7) Any ferry union contract terminating before July 1, 1983, shall, with the agreement of the parties, remain in effect until a contract can be concluded under RCW 47.64.006, 47.64.011, and 47.64.120 through 47.64.280. The contract may be retroactive to the expiration date of the prior contract, and the cost to the department of three months retroactive compensation and benefits for this 1983 contract negotiation only shall not be included in calculating the limitation imposed by RCW 47.64.180. If the parties cannot agree to contract extension, any increase agreed to for the three-month period shall be included in calculating the limit imposed by RCW 47.64.180.

(((7))) (8) Any ferry union contract which would terminate after July 1, 1983, may, by agreement of the parties, be terminated as of July 1, 1983, and a new contract concluded pursuant to RCW 47.64.006, 47.64.011, and 47.64.120 through 47.64.280. Any contract terminating after July 1, 1983, is subject to this chapter only upon its expiration and shall not be renewed for a period beyond July 1, 1985.

Sec. 39. Section 9, chapter 15, Laws of 1983 and RCW 47.64.180 are each amended to read as follows:

(1) No collective bargaining agreement or arbitrator’s award is valid or enforceable if its implementation would be inconsistent with any statutory limitation on the (Department of Transportation) department’s funds, spending, or budget. The department (of transportation) shall, in good faith, exercise its administrative discretion with full public participation as required by RCW 47.60.330, subject only to legislative limitations and conditions, to implement the terms of any collective bargaining agreement or arbitrator’s award.

(2) In no event may (the transportation commission or the) department (of transportation) authorize an increase in tolls after the enactment of the budget that is in excess of the Seattle consumer price index for the preceding twelve months for the purpose of providing revenue to fund a collective bargaining agreement or arbitrator’s award. The (commission or the) department may increase tolls after the first fiscal year of the biennium by the amount that the Seattle consumer price index increased after the previous toll increase. This subsection shall not be construed to prevent increases due to items that are not labor-related and that are beyond the direct control of the department.
Sec. 40. Section 10, chapter 15, Laws of 1983 and RCW 47.64.190 are each amended to read as follows:

(1) No negotiated agreement or arbitration order may become effective and in force until five calendar days after an agreement has been negotiated or an arbitration order entered for each and every ferry employee bargaining unit.

(2) Upon the conclusion of negotiations or arbitration procedures with all ferry employee bargaining units, the ((secretary)) director shall ascertain whether the cumulative fiscal requirements of all such agreements and arbitration orders are within the limitations imposed by RCW 47.64.180.

(3) If the ((secretary)) director finds that budgetary or fare restrictions will be exceeded, he shall, within five calendar days of completion of negotiations or arbitration with the last bargaining unit to conclude an agreement, submit all agreements and arbitration awards to the marine employees' commission for a binding determination whether the limitations of RCW 47.64.180 have been exceeded.

(4) The marine employees' commission shall review all negotiated agreements and arbitration orders, and may take written or oral testimony from the parties, regarding compliance with RCW 47.64.180. Within fifteen calendar days of receiving the ((secretary)) director's request for review, the commission shall determine by a majority vote of its members whether or not the cumulative effect of all such agreements and orders exceeds the limitations of RCW 47.64.180.

(5) If the marine employees' commission determines that the limitations of RCW 47.64.180 would be exceeded if all agreements and arbitration orders were given full force and effect, it shall order the minimum percentage reduction in straight time wage provisions applied equally across the board to all agreements or arbitration orders which will result in compliance with RCW 47.64.180.

(6) Whenever the ((secretary)) director requests a determination by the marine employees' commission pursuant to this section, the effect of all agreements and arbitration orders shall be stayed, pending the commission's final determination.

Sec. 41. Section 15, chapter 15, Laws of 1983 and RCW 47.64.240 are each amended to read as follows:

(1) If impasse persists fourteen days after the mediator has been appointed, or beyond any other date mutually agreed to by the parties, all impasse items shall be submitted to arbitration pursuant to this section, and that arbitration shall be binding upon the parties.

(2) Each party shall submit to the other within four days of request, a final offer on the impasse items with proof of service of a copy upon the other party. Each party shall also submit a copy of a draft of the proposed collective bargaining agreement to the extent to which agreement has been reached and the name of its selected arbitrator. The parties may continue to negotiate all offers until an agreement is reached or a decision rendered by the panel of arbitrators.

As an alternative procedure, the two parties may agree to submit the dispute to a single arbitrator. If the parties cannot agree on the arbitrator within four days, the selection shall be made pursuant to subsection (5) of this section. The full costs of arbitration under this provision shall be shared equally by the parties to the dispute.

(3) The submission of the impasse items to the arbitrators shall be limited to those issues upon which the parties have not reached agreement. With respect to each such item, the arbitration panel award shall be restricted to the final offers on each impasse item submitted by the parties to the arbitration board on each impasse item.

(4) The panel of arbitrators shall consist of three members appointed in the following manner:

(a) One member shall be appointed by the ((secretary of transportation)) director;
(b) One member shall be appointed by the ferry employee organization;
(c) One member shall be appointed mutually by the members appointed by the ((secretary of transportation)) director and the employee organization. The last member appointed shall be the chairman of the panel of arbitrators. No member appointed may be an employee of the parties;
(d) Ferry system management and the employee organization shall each pay the fees and expenses incurred by the arbitrator each selected. The fee and expenses of the chairman of the panel shall be shared equally by each party.

(5) If the third member has not been selected within four days of notification as provided in subsection (2) of this section, a list of seven arbitrators shall be submitted to the parties by the marine employees' commission. The two arbitrators selected by ferry system management and the ferry employee organization shall determine by lot which arbitrator shall remove the first name from the list submitted by the marine employees' commission. The second arbitrator and the first arbitrator shall alternately remove one additional name until only one name remains. The person whose name remains shall become the chairman of the panel of arbitrators and shall call a meeting within thirty days, or at such time mutually agreed to by the parties, at a location designated by him or her. In lieu of a list of seven nominees for the third member being submitted by the marine employees' commission, the parties may mutually agree to
have either the Federal Mediation and Conciliation Service or the American Arbitration Association submit a list of seven nominees.

(6) If a vacancy occurs on the panel of arbitrators, the selection for replacement of that member shall be in the same manner and within the same time limits as the original member was chosen. No final award under subsection (3) of this section may be made by the panel until three arbitrators have been chosen.

(7) The panel of arbitrators shall at no time engage in an effort to mediate or otherwise settle the dispute in any manner other than that prescribed in this section.

(8) From the time of appointment until such time as the panel of arbitrators makes its final determination, there shall be no discussion concerning recommendations for settlement of the dispute by the members of the panel of arbitrators with parties other than those who are direct parties to the dispute. The panel of arbitrators may conduct formal or informal hearings to discuss offers submitted by both parties.

(9) The panel of arbitrators shall consider, in addition to any other relevant factors, the following factors:

(a) Past collective bargaining contracts between the parties including the bargaining that led up to the contracts;

(b) Comparison of wages, hours, employee benefits, and conditions of employment of the involved ferry employees with those of private sector employees within the state and Washington state employees doing directly comparable work, giving consideration to factors peculiar to the area and the classifications involved;

(c) The interests and welfare of the public, the ability of the ferry system to finance economic adjustments, and the effect of the adjustments on the normal standard of services;

(d) The right of the legislature to appropriate and to limit funds for the conduct of the ferry system;

(e) The limitations on ferry toll increases and operating subsidies as may be imposed by the legislature.

(10) The chairman of the panel of arbitrators may hold hearings and administer oaths, examine witnesses and documents, take testimony and receive evidence, issue subpoenas to compel the attendance of witnesses and the production of records, and delegate such powers to other members of the panel of arbitrators. The chairman of the panel of arbitrators may petition the superior court in Thurston county, or any county in which any hearing is held, to enforce the order of the chairman compelling the attendance of witnesses and the production of records.

(11) A majority of the panel of arbitrators shall within thirty days after its first meeting select the most reasonable offer, in its judgment, of the final offers on each impasse item submitted by the parties.

(12) The selections by the panel of arbitrators and items agreed upon by the ferry system management and the employee organization shall be deemed to be the collective bargaining agreement between the parties.

(13) The determination of the panel of arbitrators shall be by majority vote and shall be final and binding, subject to RCW 47.64.180 and 47.64.190. The panel of arbitrators shall give written explanation for its selection and inform the parties of its decision.

Sec. 42. Section 16. chapter 15. Laws of 1983 and RCW 47.64.250 are each amended to read as follows:

(1) Any ferry employee organization and the department ((of transportation)) may sue or be sued as an entity under this chapter. Service upon any party shall be in accordance with law or the rules of civil procedure. Nothing in this chapter may be construed to make any individual or his assets liable for any judgment against the department ((of transportation)) or a ferry employee organization if the individual was acting in his official capacity.

(2) Any legal action by any ferry employee organization or the department ((of transportation)) under this chapter shall be filed in Thurston county superior court within ten days of when the cause of action arose. The court shall consider those actions on a priority basis and determine the merits of the actions within thirty days of filing.

Sec. 43. Section 18. chapter 15. Laws of 1983 as amended by section 95. chapter 287. Laws of 1984 and RCW 47.64.270 are each amended to read as follows:

Absent a collective bargaining agreement to the contrary, the department ((of transportation)) shall provide contributions to insurance and health care plans for ferry system employees and dependents, as determined by the state employees' insurance board, under chapter 41.05 RCW. The ferry system management and employee organizations may collectively bargain for other insurance and health care plans, and employer contributions may exceed that of other state agencies as provided in RCW 41.05.050, subject to RCW 47.64.180. However, after July 1, 1984, any amount by which the employer contribution for ferry system employees' and dependents' insurance and health care plans exceeds that provided for other state agencies shall reduce the funds available for compensation purposes, pursuant to RCW 47.64.180.

Sec. 44. Section 19, chapter 15. Laws of 1983 as amended by section 95, chapter 287. Laws of 1984 and RCW 47.64.280 are each amended to read as follows:
(1) There is created the marine employees’ commission. The governor shall appoint the commission with the consent of the senate. The commission shall consist of three members: One member to be appointed from labor, one member from industry, and one member from the public who has significant knowledge of maritime affairs. The public member shall be chairman of the commission. One of the original members shall be appointed for a term of three years, one for a term of four years, and one for a term of five years. Their successors shall be appointed for terms of five years each, except that any person chosen to fill a vacancy shall be appointed only for the unexpired term of the member whom he succeeds. Commission members are eligible for reappointment. Any member of the commission may be removed by the governor, upon notice and hearing, for neglect of duty or malfeasance in office, but for no other cause. Commission members are not eligible for state retirement under chapter 41.40 RCW by virtue of their service on the commission. Members of the commission shall be compensated in accordance with RCW 43.03.250 and shall receive reimbursement for official travel and other expenses at the same rate and on the same terms as provided for the transportation commission by RCW 47.01.061. The payments shall be made from the Puget Sound ferry operations account.

(2) The marine employees’ commission shall: (a) Adjust all complaints, grievances, and disputes between labor and management arising out of the operation of the ferry system as provided in RCW 47.64.150; (b) provide for impasse mediation as required in RCW 47.64.210; (c) conduct fact-finding and provide salary surveys as required in RCW 47.64.220; and (d) provide for the selection of an impartial arbitrator as required in RCW 47.64.240(5).

(3) In adjudicating all complaints, grievances, and disputes, the party claiming labor disputes shall, in writing, notify the marine employees’ commission, which shall make careful inquiry into the cause thereof and issue an order advising the ferry employee, or the ferry employee organization representing him or her, and the department (for transportation), as to the decision of the commission. The parties are entitled to offer evidence relating to disputes at all hearings conducted by the commission. The orders and awards of the commission are final and binding upon any ferry employee or employees or their representative affected thereby and upon the department. The commission shall adopt rules of procedure under chapter 34.04 RCW.

The commission has the authority to subpoena any ferry employee or employees, or their representatives, and any member or representative of the department, and any witnesses. The commission may require attendance of witnesses and the production of all pertinent records at any hearings held by the commission. The subpoenas of the commission are enforceable by order of any superior court in the state of Washington for the county within which the proceeding may be pending. The commission may hire staff as necessary, appoint consultants, enter into contracts, and conduct studies as reasonably necessary to carry out this chapter.

What you’re saying here is they may be protesting the taxes and penalties, but they have to pay them before they can institute court action or else they have to go in there and plead with the court that it would be a hardship. Well, that's kind of contrary to general law isn’t it?"

On motion of Senator Warnke, the rules were suspended, Engrossed Substitute Senate Bill No. 4503 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: Senator Warnke, in the summary it says that county assessors are required to remove from the tax rolls used mobile homes that apparently become part of the dealer’s inventory. I am a real estate investor and I have eight or ten homes, how do I get them off the tax rolls? Doesn’t matter if they are vacant or whatever and they’re for sale. Is this old law or new law?

Senator Warnke: You know, Senator, I just can’t answer that. I cannot answer that question.

Senator Rasmussen: Well, I would hope that somebody takes a look at it, because it seems some of these mobile homes, you know, are forty or fifty thousand dollars and if you take them off the tax rolls—

Senator Warnke: This bill only deals with those mobile homes that are in inventory. Now, if you are talking about a real estate person that has ten mobile homes that are out there for rent, they are not off the tax rolls.

Senator Rasmussen: Well, it merely said here they are being held for sale apparently and it says the county assessors are required to remove from the tax rolls used mobile homes and it doesn’t seem fair that you might have eight or ten homes for sale and you continue to pay the taxes on them, but on a mobile home of equal value, you don’t. I would hope that you would have checked this further.

Senator Warnke: Senator, this bill deals with mobile homes under dealer’s inventory. What you are talking about are privately held homes and you’d have to look into different statues for that.

Senator Rasmussen: Senator Warnke, as I read the summary, it says that the assessor removes them from the tax rolls, so they have been on the tax rolls and then they’re removed, because they have to be empty and for sale, but if I’m in real estate and I’ve got eight or ten homes—nobody removes them from the tax rolls. It’s kind of contradictory. Evidently, if they’re in the inventory, they’ve never been on the tax rolls—if they’re new, but then the assessor is directed to remove them from the rolls if they become used and go back on the lot. I don’t understand. I would hope that you would check it.

The President declared the question before the Senate to be the roll call on final passage of Substitute Senate Bill No. 4639.

POINT OF INQUIRY

Senator McDonald: "Senator Thompson, in just looking at the summary in here and I'm not familiar with this bill at all, but the appointees may serve until a general election rather than the next general election. Could you explain that?"

Senator Thompson: "It has the same affect. Senator McDonald. A general election would be the next general election."

Senator McDonald: "So, it's just technical language and not that they're going to be going on---past a couple of---"

Senator Thompson: "Certainly not, but should the Legislature ever wish to change the general election laws, of course, that would have to be addressed, but this—a general election—would be the next general election in any case."

Senator McDonald: "Thank you."
REMARKS BY SENATOR GRANLUND

Senator Granlund: "Mr. President and members of the Senate, I do rise to speak in favor of the bill. I was the most recently involved, but there are other members on the floor here who were involved in like-situations of appointment to the Senate. This bill does impact twenty of the forty-nine legislative districts and you are probably more aware of that than the general public is and actually thirty-one out of the thirty-nine counties are affected by how an appointment may happen, but twenty of those are—there are eight districts with two counties, four with three, six with at least four and two with six, and I'm sure that those of you from the east side at least are very conscious of the spread that you have in gaining an election or in covering the bases, so to speak.

"One of the things it does is prevent the bickering that does take place and I will just use the two counties that I'm involved in—Kitsap and Pierce. As one of the media put it after a lengthy article about the selection process and so forth, and I'm quoting, 'Once again Pierce County says they will name the Senator with its seven council members over Kitsap's three commissioners, and once again Kitsap says, go blow it out your ear.' So, see, the problem very literally deals with the numbers game and this does correct that. It gives proportional representation in the selection and it gets down to fractional votes, but at least it is equitable as far as the population is concerned within the counties that are represented. I urge your support."

POINT OF INQUIRY

Senator Pullen: "Senator Thompson, there appears to be many excellent features to this bill and most of the discussion is centered around Section 2 of the bill. I'm interested in the deleted language in Section 1 of the bill. For example, in subsection (3) of subsection (1), the language is deleted which says that, 'If the two commissioners fail to agree upon a selection after the expiration of five days from the day the vacancy occurred, the Governor shall appoint the third commissioner.' With that deletion of the language, what would happen if two commissioners are unable to agree? Would that situation cause any special problems that we would need to be aware of?"

Senator Thompson: "No, the deleted language is that I referred to in my other remarks. The five-day requirement is in contradiction to the time provided by the Constitution. Also, if there is failure to agree on the part or the outcome results somehow in a tie vote or in any way there's a failure to comply with the exercise of the legislative authorities responsible in this area, the responsibility is bumped up to the Governor."

Senator Pullen: "Senator Thompson, we deleted the language though that says that the Governor shall appoint the third commissioner. I don't have any problem with the five-day deletion. I agree that five days is such a short time that that is, in effect, ridiculous, but it appears to me that we're deleting the language that says that the Governor shall appoint the third commissioner if the two commissioners are unable to agree, and if that's the case it would appear that we have no way in resolving—"

Senator Thompson: "I think you'll find it set forth elsewhere, Senator Pullen."

Senator Pullen: "Oh, in another statute that is not set forth in the bill?"

Senator Thompson: "Yes."

Senator Pullen: "O.K. Thank you very much."

The President declared the question before the Senate to be the roll call on final passage of Substitute Senate Bill No. 4639.

ROLL CALL

The Secretary called the roll on final passage of Substitute Senate Bill No. 4639 and the bill passed the Senate by the following vote: Yeas, 45; nays, 1; absent, 1; excused, 2.

Absent: Senator Deccio - 1.

SUBSTITUTE SENATE BILL NO. 4639, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION
At 10:21 a.m., on motion of Senator Bolliger, the Senate recessed until 10:45 a.m.

SECOND MORNING SESSION
The Senate was called to order at 11:18 a.m. by President Cherberg.

SECOND READING
SENATE BILL NO. 4897, by Senators Bender, Newhouse and Bolliger
Requiring certification of process servers.

MOTIONS
On motion of Senator Talmadge, Substitute Senate Bill No. 4897 was substituted for Senate Bill No. 4897 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Talmadge, the rules were suspended, Substitute Senate Bill No. 4897 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY
Senator Bluechel: "Senator Bender, does this give the process server the right to go into, say a manufacturing plant and serve papers on an employee during working hours?"
Senator Bender: "I can't address—let me ask Senator Talmadge on that particular situation. I was dealing with the situation dealing with private property. Senator Talmadge, could you answer that question?"

REMARKS BY SENATOR TALMADGE
Senator Talmadge: "I wasn't listening to Senator Bluechel's question. What is that?"
Senator Bluechel: "Would this give a process server the right to go into a manufacturing plant and serve papers on an employee while working?"
Senator Talmadge: "Senator, my understanding, at least based on the bill, is that there are three things that the bill does. It talks about the dates the subpoena can be served. It also talks about assaults on people who are serving process and in circumstances where they're serving process at a facility, as you say, and somebody commits an assault on them—somebody who is guilty of a crime and is served with respect to the crime of criminal trespassing. This is a defense that would be available to the process server who is lawfully serving process. So in the circumstances you are suggesting, if they were lawfully serving process, they would be permitted to do so and it would constitute to defense any action for criminal trespassing."

REMARKS BY SENATOR BOTTIGER
Senator Bolliger: "Mr. President, just so everybody understands, you can serve process two ways. Either you give it to the deputy sheriff, who is too busy and doesn't want it or you can give it to a private processor. If a deputy sheriff could have gone in there and served the employee, then so could the private processor."

FURTHER REMARKS BY SENATOR TALMADGE
Senator Talmadge: "Mr. President, if I could follow up. One other thing I noted. The defense does not apply so long as the person does not enter into a private residence or other building not open to the public. and the entry to the premises is reasonable and necessary to the service of legal process. So, the follow up of my answer, if the plant were open to the general public, in one sense or another and a
person entered it to serve process, that would be appropriate. If it were clearly closed to the general public, with no permission to have access, say to an assembly line or something like that, I would say the person could not do so and the defense would not apply."

The President declared the question before the Senate to be the roll call on final passage of Substitute Senate Bill No. 4897.

PARLIAMENTARY INQUIRY

Senator McDonald: "Mr. President, a parliamentary inquiry, how many votes to roll back to amend?"

REPLY BY THE PRESIDENT

President Cherberg: "A simple majority."

Senator McDonald: "What authority, Mr. President?"

President Cherberg: "Rule 61, Senator McDonald."

Senator McDonald: "Mr. President, are you ruling that Rule 61 allows a roll back or bump procedure by majority vote for four days, the day of the cutoff and three full days prior to that?"

President Cherberg: "Three days prior, Senator."

Senator McDonald: "And so my reading of three days would be Tuesday, Monday, Sunday, but your interpretation is three days prior to the Tuesday?"
President Cherberg: "The President's interpretation is Saturday, Sunday, Monday."

Senator McDonald: "Thank you, Mr. President."

The President declared the question before the Senate to be the motion by Senator Bottiger to suspend the rules and return Engrossed Senate Bill No. 4875 to second reading.

The motion by Senator Bottiger carried and Engrossed Senate Bill No. 4875 was returned to second reading and read the second time.

MOTION

Senator Bottiger moved that the following amendment be adopted:

On page 7, beginning on line 9, strike all material down to and including "immediately" on line 10 and insert the following:

"NEW SECTION. Sec. 9. This act shall be submitted to the people for their adoption and ratification, or rejection, at the next succeeding general election to be held in this state, in accordance with Article II, section 1 of the state Constitution, as amended, and the laws adopted to facilitate the operation thereof."

Debate ensued.

PARLIAMENTARY INQUIRY

Senator McDonald: "Mr. President, a parliamentary inquiry—there are three amendments here. All of them come before Senator Bottiger's amendment, which is on page 7. Are we not out of order in the order to taking those things in succession?"

REPLY BY THE PRESIDENT

President Cherberg: "Senator Bottiger's amendment was on the desk yesterday, also, Senator."

Senator McDonald: "Mr. President, the timing of the placement—"

President Cherberg: "The other amendments, the Secretary advises, came up today."

Senator McDonald: "Mr. President, is it your interpretation that the time of placement on the desk is the important thing and not the area in which it is amending the bill?"

President Cherberg: "Well, the President has always believed first come, first served."

Senator McDonald: "Thank you, Mr. President."

POINT OF INFORMATION

Senator Patterson: "Mr. President, a point of information. I have an amendment on the desk that was circulated—I dropped it in this morning. We were not in session at the time the notice was made last evening. It did not give me an opportunity to put it on the desk at the same time that Senator Bottiger's amendment was put on the desk. We had adjourned; you made the motion, and I did not have time to put it up there to have it timely and I am merely suggesting—"

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, there's no attempt here to deny the other amendments. One of the ways of getting people to put their amendments up to stop surprises was that we have considered amendments that were first put up. That was the way that everybody was going to lay their cards on the table ahead of time. So, I immediately—when we lost the vote—went up and placed my amendment there.

"Now, we all know how it works. We hold the amendments back to surprise people. One way we get them out early—I've asked people to put them out twenty-four hours ahead of time, so we'd have an honest discussion and I'm not suggesting that there is anything devious about waiting to put them up this morning, but I put my amendment up. We're not going to deny you the right to consider your amendment."

Senator Patterson: "Thank you."

Further debate ensued.
The President declared the question before the Senate to be adoption of the amendment by Senator Bolliger.

The motion by Senator Bolliger carried and the amendment was adopted.

MOTION

POINT OF INQUIRY

Senator Newhouse: "Senator Bottiger, I note that with your referendum clause, Section 8 no longer has an emergency clause and would be a study which could not possibly go into effect until thirty days after the federal election, but must be completed by December 31st. Is your intent to have the referendum clause stricken in the House or must we have that kind of a study?"

Senator Bottiger: "Senator, obviously that won't work and so since the study probably can't be made unless the Governor can do it by executive order."

MOTIONS

On motion of Senator Bottiger, the following title amendment was adopted:

On page 1, line 4, strike "declaring an emergency" and insert "providing for submission of this act to a vote of the people."

On motion of Senator Thompson, the rules were suspended, Reengrossed Senate Bill No. 4875 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Bailey: "Senator Thompson, usually when we think about reorganization, we think in terms of reduction in FTEs or fiscal savings, or some extra service to the public. We ask for these analyses of the Governor in the Government Committee on which both you and I serve and we didn't receive anything. Do you now have in your possession any information, so that we can make an intelligent decision on reorganization, as the Governor suggests?"

Senator Thompson: "The intelligent decision, Senator, is to offer this measure to the public to determine. These departments, at present, are impenetrable and giving the Governor the appointive power will enable him to ensure the carrying out
of efficiencies, for instance, as Senator Cantu spoke to so eloquently yesterday. This is something we can look forward to—should the public approve this measure.”

Further debate ensued.

**POINT OF INQUIRY**

Senator Deccio: “Senator Bottiger, I guess we all know that the referendum clause picks up a couple of votes and you indicated that the referendum was Governor approved, but can you advise us as to whether or not the referendum is House proof?”

Senator Bottiger: “Senator, I don’t have any idea. It beats me. I do know that if they take it off and it comes back here notwithstanding that I might try to flip through the concurrences and still take twenty-five votes on final passage, and that’s the problem without the referendum that we had before this.”

Senators Vognild, Bottiger and Conner demanded the previous question and the demand was sustained.

The President declared the question before the Senate to be the roll call on final passage of Reengrossed Senate Bill No. 4875.

POINT OF INQUIRY

Senator Pullen: "Senator Talmadge, could you tell me if the State Patrol intends to store in the Automatic Fingerprint Information System the fingerprints of applicants or just criminals, or both?"

Senator Talmadge: "My understanding, Senator Pullen, is that their intention is to maintain in their system only those people who are convicted offenders and certain individuals who might be required by state law to have their fingerprints maintained in that system, and that would include people who had been adjudicated civilly pursuant to the terms of the statute that we passed last year. My understanding is those would be the only people at this time who would be maintained in that system. It would be my intention to have the Senate Judiciary Committee explore the issue in the interim as to whether or not licensed applicants, such as Senator McCaslin, I think real estate people are required to do so and some others. Whether or not their fingerprints would be maintained in this system or separately, that's an issue that I think we should decide as a matter of public policy."

SECOND READING
SENATE BILL NO. 4630, by Senator Talmadge
Revising provisions relating to civil actions.

REMARKS BY SENATOR TALMADGE
Senator Talmadge: "Mr. President, in light of the very serious nature of the contents of Senate Bill No. 4630, I would request that the debate with respect to Senate Bill No. 4630 be included in the journal of the Senate verbatim."

PARLIAMENTARY INQUIRY
Senator Pullen: "I am not necessarily going to object. I think that it seems like an unusual request and I guess I'd like to know a little bit more about the reasons behind it. We do have a Senate Rule that limits the number of words that can be entered into the journal and perhaps your request is very appropriate, but maybe you could elaborate a little bit on what your idea behind that is."

REMARKS BY SENATOR TALMADGE
Senator Talmadge: "I'd be more than happy to, Senator. My sense is that we are about to undertake what amounts to a very serious change in the tort law of the state of Washington that was developed over decades in this state and centuries of Anglo-American law.

"In order to give some guidance to the courts as they will be interpreting the various sections of the bill that we have before us, because there is no section-by-section analysis of the bill as we did with the Product Liability and Tort Reform Act of 1981. I believe the remarks pro and con with respect to the amendments and the
discussion of the bill should be in the journal to give guidance to the Justices of the Supreme Court who will be interpreting it. I’ve been advised by the justices of the court that this is of substantial benefit to them as they deliberate on the interpretation of major enactments by the Legislature and, in fact, on the Product Liability and Tort Reform Act, they followed what I believe was our intention almost in every instance and I think we need to give them guidance in this area.

REPLY BY THE PRESIDENT

President Cherberg: "If there is no objection, the request will be granted."

MOTIONS

On motion of Senator Talmadge, Substitute Senate Bill No. 4630 was substituted for Senate Bill No. 4630 and the substitute bill was placed on second reading and read the second time.

Senator Thompson moved that the following amendment by Senators Thompson and Newhouse be adopted:

On page 1, line 8, after the enacting clause, insert a new section to read as follows:

"NEW SECTION, Sec. 100. PREAMBLE. Tort law in this state has generally been developed by the courts on a case-by-case basis. While this process has resulted in some significant changes in the law, including amelioration of the harshness of many common law doctrines, the legislature has periodically intervened in order to bring about needed reforms. The purpose of this chapter is to enact further reforms in order to create a more equitable distribution of the cost and risk of injury and increase the availability and affordability of insurance.

The legislature finds that counties, cities, and other governmental entities are faced with increased exposure to lawsuits and awards and dramatic increases in the cost of insurance coverage. These escalating costs ultimately affect the public through higher taxes, loss of essential services, and loss of the protection provided by adequate insurance. In order to ensure the continued availability and affordability of quality governmental services, comprehensive reform is necessary.

The legislature also finds comparable cost increases in professional liability insurance. Escalating malpractice insurance premiums discourage physicians and other health care providers from initiating or continuing their practice or offering needed services to the public and contribute to the rising costs of consumer health care. Other professionals, such as architects and engineers, face similar difficult choices. Financial instability, and unlimited risk in providing services to the public.

The legislature also finds that general liability insurance is becoming unavailable or unaffordable to many businesses, individuals, and nonprofit organizations in amounts sufficient to cover potential losses. High premiums have discouraged socially and economically desirable activities and encourage many to go without adequate insurance coverage.

Therefore, it is the intent of the legislature to reduce costs associated with the tort system, while assuring that reasonable compensation for persons injured through the fault of others is available. Objective limits and greater predictability in the amount of awards is necessary. The costs of providing reasonable compensation should be reduced whenever it is possible and equitable by eliminating potential windfalls to persons and purposes for which awards were not intended."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Mr. President and members of the Senate, we have at the start of this discussion, this evening, a very important amendment. This New Section was the preamble of a piece of legislation that thirty-four members of this body signed for introduction. We have before us instead another title which causes no particular process difficulty, but it should begin with this preamble to express the intent of the Legislature in its finding with regard to conditions relating to the costs and availability of liability insurance and the intention of the Legislature to these modifications of the tort system to bring about cost control and to make insurance more available to the citizens of this state and the use of local governments in the state.

This language, indeed, would make a good letter to your constituents to explain our actions here and also provides a message to the State Supreme Court of why we undertook this, because I believe all of us anticipate that this measure will be forced into consideration by the Supreme Court. I urge the adoption of the amendment."
Senator Talmadge: "Thank you, Mr. President and members of the Senate. Speaking in opposition to this preamble, it is not often that I would quibble with the language of a preamble, however, after some ten hours of hearings over a number of days in the Senate Judiciary Committee, I am not persuaded that the testimony that was taken in the Senate Judiciary Committee bears out the preamble in the alleged legislative findings in the preamble with respect to the problem we face.

"We have been told repeatedly that the problem we are facing is one of insurance availability and affordability. That is, is insurance available first, and second, is insurance affordable, if available? The solution that is being offered by many is a substantial change in the tort law of the state of Washington enacted over decades in this state—over centuries in Anglo-American jurisprudence. I am not persuaded that the connection between changes in tort law and changes in insurance premium experience, either as to availability or affordability, is demonstrated. We know that the underwriters of insurance look to the national closed claims data that comes from the insurance service organization in San Francisco. We know that with respect to most minds of property and casualty insurance, the underwriting is done on a national basis and not with respect to the law of the state of Washington.

"The state of Washington has enacted substantial civil justice reform. We do not have punitive damages in this state, as most states in the United States do, and none of those factors—the aggressive attitude about dealing with claims in the civil justice system, the lack of punitive damages and the other efforts that this Legislature has undertaken since my service, at least in the Legislature that I can recall, to deal with the issue of tort. None of these have had a substantial impact on the so-called crisis that we now experience.

"I would simply submit, members of the Senate, that there is not a demonstrated relationship between what will be attempted to be accomplished in this piece of legislation and what is, in fact, happening in terms of the insurance premium experience of day-care operators, long-haul truckers, physicians, lawyers and others in our society who are adversely impacted by liability insurance issues."

Senator Newhouse: "Mr. President, ladies and gentlemen. We have been informed and I think I first heard from Senator Talmadge that the states in New England adopted some tort reform. The court negated that decision of the Legislature partially, at least, on the basis that the Legislature had not stated its intent and the arguments of the previous speaker, I think, are probably for the record, but let us say that I think a majority of this body feels that this does state legislative intent and I urge your adoption."

Senator Talmadge demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on adoption of the amendment by Senators Thompson and Newhouse.

ROLL CALL

The Secretary called the roll and the motion by Senator Thompson carried and the amendment was adopted by the following vote: Yeas, 31: nays, 16; excused, 2.

Voting nay: Senators Bender, Bottiger, Fleming, Garrett, Gaspard, Goltz, Graniund, Halsan, McDermott, Moore, Rasmussen, Rinehart, Talmadge, Warnke, Williams, Wojahn - 16.

MOTION

Senator Talmadge moved that the following amendment be adopted:

On page 3, line 22, after "community and before the period insert ". In addition, the prevailing party is entitled to prejudgment interest at the rate of twelve percent per annum from the date of the final written offer of settlement"
REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President and members of the Senate. In explaining the amendment, I believe I have to explain to some extent the section in which this amendment appears. We are providing in this bill for something called an offer of settlement or offer of judgment which is very similar to what is presently being proposed by the United States Supreme Court in federal civil rule 68 and the amendments thereto. We have this section already in Washington State law with respect to claims of ten thousand dollars or less, although this section would be a change in that policy.

"Basically, what we are suggesting here is that in order to provide some inducement to the parties to settle, either party, a plaintiff or defendant can make an offer of settlement to the other party. If the other party rejects that offer, then the case has to go to trial and if the party making the offer improves upon the offer at the time of trial, it will be able to recover its reasonable attorney fees and other costs from the losing party. This particular amendment expands that principal to include interest, so that either the plaintiff or the defendant would be able to recover, if they improved upon an offer of settlement made at the time of trial--interest on the offer from the time of the offer forward. I urge your support."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President. I also urge your support. I think the Senate should support any effort to achieve a pre-trial settlement. I'm convinced that this is a mechanism that would attribute to that end and certainly I urge your support."

The President declared the question before the Senate to be adoption of the amendment by Senator Talmadge.

The motion by Senator Talmadge carried and the amendment was adopted.

MOTION

Senator Thompson moved that the following amendment be adopted:

On page 3, beginning on line 20, strike everything through "community." on line 22 and insert "In the event costs, including attorneys' fees are awarded to the defendant, the court shall subtract the costs from the award in favor of the plaintiff. If there is an award of damages to the plaintiff. If there is no award of damages in favor of the plaintiff, the defendant shall receive a judgment against the plaintiff for its costs, as defined in this section." 

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President. this language provides for handling of attorney fees under the settlements just described in the explanation of the amendment by Senator Talmadge. It also removes some language that would prevent local governments from receiving the same consideration as private parties. I urge adoption of the amendment."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President. I certainly concur in Senator Thompson's amendment. I think that makes the amendment just that much fairer and what was intended by the offer of the settlement process."

The President declared the question before the Senate to be adoption of the amendment by Senator Thompson.

The motion by Senator Thompson carried and the amendment was adopted.

MOTION

Senator Thompson moved that the following amendments be considered simultaneously and adopted:

On page 6, after line 15, insert the following:

"(d) "Average annual wage" means the average annual wage in the state of Washington as determined under RCW 50.04.355 as now or hereafter amended." 

On page 6, line 21, after "exceeding" strike "two hundred fifty thousand dollars" and insert "the average annual wage multiplied by the life expectancy of the claimant and then multiply the product of such calculation by 0.36"
REMARKS BY SENATOR THOMPSON

Senator Thompson: "Mr. President, these amendments, if adopted, would change the cap on general damages that are provided in the legislation. They effectively raise that cap and adjust it at the same time to provide for a higher cap on general damages for a successful claimant of earlier years.

"Distributed at your desks is a model of such an arrangement—it's slightly off mathematically, but certainly represents the concept. I can assure you that as a result of the adoption of this language the economic effect of the cap is increased from $250,000 to something over $290,000. The numbers on the distributed sheet are not far off of the result that it provides for and the sheet is useful for that purpose of understanding this bill. It addresses the concern that many persons have, and that I certainly have, that there needs to be some acknowledgement that a person with longer life expectancy should receive greater consideration. I urge adoption of the amendment."

REMARKS BY SENATOR NEWHOUSE

Senator Newhouse: "Aren't we addressing—I suspect it could be called two amendments one on page 6, line 15, and one on page 6, line 21. that are right together there? Thank you. I want to speak in favor of those amendments, too."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President and members of the Senate. I certainly support the amendments. It is a better alternative to a flat $250,000 cap on non-economic damages, however, I must advise the members of the Senate that it is my view that any kind of cap on non-economic damages constitutes an invasion of the province of the jury of violation of the separation of powers doctrine as the Legislature attempts to intervene in the judicial process and also raises some severe questions about equal protection under the state and federal constitutions. However, I believe that this is a better approach to the problem than is the approach taken with a simple flat dollar cap of $250,000."

The President declared the question before the Senate to be adoption of the amendments by Senator Thompson.

The motion by Senator Thompson carried and the amendments were adopted.

MOTION

On motion of Senator Talmadge, the following amendment (on the desk) was withdrawn:

On page 6 line 21, strike "two hundred fifty" and insert "five hundred"

MOTION

Senator Talmadge moved that the following amendment be adopted:

On page 6, after line 26, insert the following:

"(4) This section does not apply to actions for libel or slander."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Mr. President and members of the Senate. In reviewing the description of what constitutes non-economic damages, you should note that that does not simply confine itself to the term 'pain and suffering' as we've come to understand it in tort law, but rather it covers pain and suffering that a party might sustain. It impacts on the relationship between spouses that might be impaired by an injury to a party. It impacts on the relationship between children and parents and it also deals with the issue of loss of reputation or humiliation. I have to tell you that in the average defamation case involving libel or slander, it is my view that very seldom in that kind of case there are economic damages to be sustained. It is my view that we should not be covering actions for libel or slander defamation within the meaning of this non-economic damage limitation, because there can be a very severe impact on one's reputation or humiliation as a result of defamation. It should not be covered by this section. That's why I've offered this amendment. I think it should be exempted from the section on non-economic damages."
POINT OF INQUIRY

Senator Thompson: “Senator Talmadge, by the removal of this libel and slander language from its affect on general damages, do you think this provides a greater cause of action for recovery as economic damage?”

Senator Talmadge: “For libel and slander, do you mean?”

Senator Thompson: “Yes.”

Senator Talmadge: “No, I don’t think so, because I think it is very difficult, as some people have suggested, to prove economic damages in the case of defamation. Frequently, you have to demonstrate that someone has lost income—economic damages as a result of a defamation or slander. That’s very difficult to demonstrate whereas someone’s reputation, someone’s standing in the community—the one great example being John Goldmark, for example, or some of the lawsuits that have been engendered by the National Inquirer—may not have their basis in economic loss, but rather in the person’s reputation and the humiliation that they have sustained as a result of the defamation.”

Senator Thompson: “Thank you, Senator Talmadge. I guess in my profession I am exposed to and subject to a cause of action for libel and have to deal with that as a condition of life and in my profession. I don’t, however, consider they should be separated as a higher concern than some of the other matters under general damages and for which we all have sympathy and for which, I believe, we are reasonably providing some settlement within the limited resources that may be available for this purpose. I can’t hold it as a higher hurt or harm than pain and suffering and, therefore, I urge opposition to the amendment.”

REMARKS BY SENATOR HAYNER

Senator Hayner: “Mr. President and ladies and gentlemen of the Senate. Obviously, this is a very difficult area. It deals with intangible injuries and if there are, indeed, economic losses certainly, and it can be proven, certainly that should be covered, but there is really no reason to exclude this from the provisions that we have made in the bill for non-economic limitations and I think there should be a finite limit to it. It is one of the areas that there can also be an enormous verdict and judgment and I think what we’re trying to do is bring some sanity to this whole thing, so that there is affordable and available insurance. I think this is one of the areas we have to address and I would urge you to oppose it.”

CLOSING REMARKS BY SENATOR TALMADGE

Senator Talmadge: “Thank you, Mr. President and hopefully closing debate on the amendment. If any of you happened to read Bill Dwyer’s book about the Goldmark trial over in Okanogan County. I think you would recognize that in that particular circumstance, the jury verdict was primarily rooted in non-economic damages—that is loss of reputation or humiliation. What this amendment does, is try to prevent that kind of thing from happening and certainly any time you have the area of defamation of issue, you have first amendment questions associated with it. It occurs to me that when we talk about personal injury, we talk about tort reform. We’re talking about tangible injuries to people. We’re not talking about issues like defamation and I don’t believe that that was ever the intention of the parties representing to the Legislature that they wanted to see tort reform—that this was part of that effort, but what you’re essentially doing in the area of defamation is putting a $250,000 limit on recovery, because the opportunity or the ability of a person to prove economic loss in a defamation action is extraordinarily rare. I think you want to think about that very carefully before adopting such a policy and this amendment would preclude that from taking place.”

Senator Talmadge demanded a roll call and the demand was sustained. The President declared the question before the Senate to be the roll call on adoption of the amendment by Senator Talmadge.

ROLL CALL

The Secretary called the roll and the motion by Senator Talmadge failed and the amendment was not adopted by the following vote: Yeas, 17; nays, 30; excused, 2.
Voting yea: Senators Bender, Bottiger, Conner, Fleming, Garrett, Gaspard, Goltz, Granlund, Halsan, Kreidler, McDermott, Moore, Rasmussen, Rinehart, Talmadge, Williams, Wojahn - 17.

MOTION

Senator Halsan moved that the following amendment be adopted:

On page 6, after line 26, insert the following:

"(4) This section does not apply to actions in which the claimant's injuries have rendered the claimant paraplegic."

REMARKS BY SENATOR HALSAN

Senator Halsan: "Thank you, Mr. President, I would request, if possible, that there be a recorded roll call vote on this amendment and the following amendments bearing my signature."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Halsan has requested a roll call vote. Do one-sixth of the members join in the request? The roll call on this amendment is sustained."

PARLIAMENTARY INQUIRY

Senator McDonald: "Mr. President, this is kind of an unusual request. Is it your intention that all roll calls then with one particular Senator's signature will then--"

REPLY BY THE PRESIDENT

President Cherberg: "The President believes that he stated that the request for the roll call on this amendment was sustained and was specifically stated."

Senator McDonald: "I see, then all the others--"

President Cherberg: "Each amendment will have to be separate and requested."

Senator McDonald: "Thank you."

FURTHER REMARKS BY SENATOR HALSAN

Senator Halsan: "That's fine. Mr. President and ladies and gentlemen of the Senate. This is the first in a series of amendments that I would hope that you would take very serious consideration of. What we're talking about here, is we're talking about the cap on non-economic damages that is in this bill and has been modified by the amendments proposed by Senator Thompson. I agree with Senator Talmadge that this amendment is not as aggregious as the one that previously existed in the bill, that of $250,000, but I will point out in looking at the chart that Senator Thompson has, in fact, submitted for your looking over that what this amounts to is a situation in which I, at age approximately thirty-five would be limited to $268,000 for non-economic damages for any injury caused by whatever negligence that a person might have.

"Those members of you in the body who, in fact, are age 60 would be limited to a $133,000, but look at the next column. I have a life expectancy of forty-one years following today and those of you who are at 60 have a life expectancy of twenty years. This amendment would state that cap on non-economic damages does not apply if the negligence of some other person—a drunk driver, or some person doing some other type of conduct renders you to be a paraplegic. Each and everyone of you think how much you feel is appropriate to the quality of your life—if damage should be done to you that you should be rendered a paraplegic for either twenty years or forty years, because I would point out that non-economic damages, the non-medical damages, the non-loss of income damages—those are the damages to your quality of life—they're pain, they're suffering, they're the inability to do the things that you previously had done—hiking, boating, playing with your children, things such as that.

"Now, if I were to be damaged and made a paraplegic with forty more years of my life, it's worth a lot more to me and I would submit it's worth a lot more to
each and everyone of you than $268,000 to be at a loss of all of those non-economic types of things and those of you, as I mentioned, who are sixty years of age, that would be living for twenty years with the total loss of the ability to use your arms or your legs, how much is that worth to you, a $133,000? Would you take that today for the ability to be in a wheel chair for the next twenty years? I submit that when we’re talking about a person who is a paraplegic, we’re talking about a person who we want the jury to determine what’s fair when that drunk driver put them in that wheel chair. I would urge your passage of this.”

REMARKS BY SENATOR PULLEN

Senator Pullen: “I just wanted to correct Senator Halsan on his estimate in his life expectancy. He’s failing to take into account the decrease of his life expectancy due to working Saturdays and Sundays.”

REMARKS BY SENATOR THOMPSON

Senator Thompson: “Thank you, Mr. President and members of the Senate. Senator Halsan has urged us to take this amendment seriously and the many that follow dealing with other grievous harm that can befall people for which fault may be discovered. We do take it seriously and I think we’re taking all of these amendments in the substance of this measure seriously— as they should be taken.

“I think in offering these amendments Senator Halsan is providing us with a model of matters that are presented to juries and for which he finds sympathy, as he should, for the misfortune that befalls a person that comes to court to recover damages. All of us feel sympathy for those conditions. There are, however, a lot of other conditions for which fault cannot be found or for which a deep pocket cannot be found and we have sympathy for those as well. And we have sympathy for programs to which we must say ‘no’ and for which we don’t have adequate funding, unfortunately.

“The resources of government are limited; private resources are limited. In fact, they have to be acknowledged when dealing with such matters. Juries, however, are dealing with injuries on an ad hoc basis and respond, as we would, sympathetically in answering to them. We have broader responsibilities, societal responsibilities to necessitate the maintenance of this cap which does provide a moderation of the provisions for general damages and I think does so very reasonably. I urge opposition of the amendment.”

REMARKS BY SENATOR TALMADGE

Senator Talmadge: “Thank you, Mr. President and members of the Senate. You’ve heard articulated from both sides of the equation the concern in this area. Senator Thompson argues that we have a societal responsibility to reduce costs and somehow that will filter down to the rest of us, because of the insurance mechanism for spreading the risk. Senator Halsan articulates the need to recall the needs of the individual victims who have to bear the consequences of a wrongful act for the rest of his or her life.

“I have great concern for what Senator Thompson said. I think we have a societal responsibility when we deal with issues in the Legislature, when we establish the duty that people owe to other people in the society in which we live, but I think the first and foremost responsibility of the Legislature is to remember the individuals. We have a responsibility to the people who are the victims of wrongful conduct, as determined by the juries in the state of Washington—to remember those concerns. You are doing something very severely damaging to the rights of victims in this state if you impair the rights of victims to recover.

“The Constitution of this state in Article I, Section 21, talks about the right to trial by jury being inviolate, not being something that we can invade as members of the Legislature, and when you start to put limitations on what juries can do, you have, in fact, invaded the province of the jury and have not preserved the right to a trial by jury inviolate.

“I have to tell you something else from a practical standpoint. That is, juries are not ordinarily requested by plaintiff’s counsel, in the average civil case, they are requested by defense counsel, like me, because juries are conservative despite the belief that some insurance people have and despite what you read, juries are very
conservative in their assessment of issues and their assessment of damages. I would urge you not to forget the rights of the victims to recover—quadriplegics, paraplegics and all the rest of the list that Senator Halsan has. I think you need to remember those victims, as we deliberate, because they are the ones least able to respond. They’re not here with their lobbyists from powerful law firms in Seattle. They’re not here talking to you in your offices. They can’t get down here. They’re the people you should not forget.

The President declared the question before the Senate to be the roll call on adoption of the amendment by Senator Halsan.

ROLL CALL

The Secretary called the roll and the motion by Senator Halsan failed and the amendment was not adopted by the following vote: Yeas, 15; nays, 31; absent, 1; excused, 2.

Absent: Senator Pullen – 1.

MOTION

Senator Halsan moved that the following amendment be adopted:

On page 6, after line 26, insert the following:

"(4) This section does not apply to actions in which the claimant's injuries have rendered the claimant quadriplegic."

Senator Halsan demanded a roll call and the demand was sustained.

REMARKS BY SENATOR HALSAN

Senator Halsan: "Thank you, Mr. President, as I mentioned, this is the second in a series of educational amendments, perhaps to test the level of concern of this body relative to the injured people in this state. I point out another fact relative to non-economic damages. As I mentioned in the debate on the last amendment, non-economic damages are the amount that is the value placed upon the reduction and the quality of your life should you be injured due to their negligence. This amendment deals with when a person is a quadriplegic as a result of a DWI or some other type of action that is not their fault and as I mentioned before, you can look down the list of caps relative to the particular age you are and the particular life expectancy in years, but I point out that that amount of $6,500 per year which is listed in this cap as being the value of being permanently confined in a bed, or permanently confined in a wheel chair with the inability to move both your legs and your arms, that that $6,500 is not what this bill would place as the value of that.

One of the things that is being attacked in this particular legislation is the ability to get into court, the ability for a person who has no funds to have an attorney represent them. Now, clearly, the attorneys in this case, in these situations are going to be going by a contingent fee. Some people say some contingent fees are higher than others and the higher ones are perhaps inappropriate, but I would point out to you that if a contingent fee of twenty-five percent of what, in fact, was done and you had a situation where there was a million dollar judgment, that twenty-five percent, which might be a very reasonable contingent fee would be perhaps $250,000 or around there. That's going to come out of the non-economic damages. It's not going to come out of the economic lost wages, the medical costs—it's going to come out of the non-economic damages. What you're having by this particular cap is, you are placing a value on being a quadriplegic of somewhere in the neighborhood of $3,000 per year.

Well, if you want to be a quadriplegic, I'll give you $3,000 and see how you like it. This is a very serious amendment. I realize that Senator Thompson, I'm sure, will be arguing against each and every one of these, but we have to decide whether or not we want to approach the people who are the most aggregiously
damaged in this state in order to clear up any insurance problem of their own making.

"We're not attacking the persons who have small nuisance suits--ones with little or no merit that settle on the courthouse steps for ten, fifteen or twenty thousand dollars. What we're attacking here, is the most seriously injured people in this state and what was termed to be negotiations in the last two days, that over the last two years with a $250,000 cap. the amount of people in the state of Washington that we are penalizing amounts to six very seriously damaged people. If you are going to try and get at the problem of court congestion, if you're going to try and get at the problem of insurance rates that are unpredictable, don't go after the people who have the least hope of any kind of a fruitful life in the future. I urge your passage of the amendment."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President. I hope I can rely on the memory of the Senate on my previous remarks. I don't intend to respond to each one of these amendments. Also relying on the fact that Senator Talmadge has requested a record of these proceedings, I only want to say that I reject the idea that in voting against each one of these that we should feel or be characterized as being insensitive to the human problems that are identified in these amendments."

REMARKS BY SENATOR VOGNILD

Senator Vognild: "Thank you, Mr. President. I rise to speak against this amendment. Obviously, it's not an easy thing to do. Senator Halsan has laid out, I think, a strong argument for his position on this, but I think it's important that we discuss, just for a minute, what's happening in this state. We are having, right now, businesses that cannot buy insurance. We have cities and counties that cannot buy insurance. Now I believe that those of us who are supporting this bill are supporting it in the really solid feeling that the economics of this state literally can collapse if we continue on the road that we're on. I don't care who is making the problems. Some people say the insurance companies are making the problem. Some say that the judgments are making it. It really doesn't matter. The result is that we are having a starting of an economic collapse.

"As far as the injured parties are concerned. I think I'm supporting the injured parties in what I'm doing, because I can see the possibilities that an injured party--a paraplegic, for example, may wind up with no one to recover against--absolutely no one--joint and several or no matter which way you go--there just isn't any money out there and nobody--no recovery. I believe that putting caps in here, and we must keep in mind that this is a non-economic loss and this paraplegic we're talking about here will have an economic loss as well, so there will be more income of some type.

"I think if we're going to go through this--I'm not going to speak on any further amendments here. I'm going to vote against them. I just wanted to state my reasons."

REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "Mr. President and members of the Senate. I didn't intend to talk because I'm not an insurance expert, but I find it very strange. I find it unbelievable. You believe in the jury system. You believe in the jury system that finds a man guilty and then comes back a second time to find out whether he's entitled to live or die. What are we doing? We're saying the jury system no longer works, because somebody got a few dollars more than somebody else thinks he's deserving. I'll ask you--just think a little bit before you vote down all of these amendments. What's that jury system doing? It's the protection of the American way of life and you're willing to throw it out the door for a few dollars, because you think that maybe somebody got too large of a settlement. but you're not in that wheelchair or you're not even in a wheelchair--you're in bed with an attendant to take care of you. to take you to the toilet, do everything for you that you used to do for yourself.

"I am amazed that we can sit here on the floor and say that the jury system no longer is any good. Someday--someday you're going to regret that you threw the
jury system out. It's not perfect. I'll agree with you, the same way our judges are not perfect, but when you're willing to take the jury system in the case of a man or a woman in a life and death case—and then you are saying, 'Throw the jury system out' when what the person has, the plaintiff, is much worse than death. I would ask you to take a good look down deep in your heart and say, 'Do I really believe we should do away with the jury system?' That's what you're doing. It's serious. And if so, you're willing to go with a different method that they have in some countries. I think we should hang onto the jury system with all of its imperfections and hope that we do the right thing by the injured parties. I'm going to support the amendment and I've not made any pledges either way."

REMARKS BY SENATOR BENDER

Senator Bender: "Thank you, Mr. President and members of the Senate, also speaking in support of the amendment. I was going along this table dealing with non-economic caps and I was trying to put that in respect with my own grandmother who is now eighty-nine and will be ninety this year. I got to thinking if she was eighty years old and through no fault of her own or maybe just slightly at fault, she became a quadriplegic and I'm trying to determine how it is fair and just to allow her to only have $51,364 between the years eighty and ninety right now. I guess I just don't understand how we can put that kind of a cap on pain and suffering. Now, I also question what type of value we put on our elderly people in this state. When you're old, your caps are so low, but if you're young, your caps are much larger. You know, I just don't understand where this body is going when we put those types of caps and those types of values on our older people. I urge you to support this amendment."

The President declared the question before the Senate to be the roll call on adoption of the amendment by Senator Halsan.

ROLL CALL

The Secretary called the roll and the motion by Senator Halsan failed and the amendment was not adopted by the following vote: Yeas, 18; nays, 28; absent, 1; excused, 2.

Absent: Senator McManus - 1.

MOTION

On motion of Senator Halsan, the following amendment (on the desk) was withdrawn:

On page 6, after line 26, insert the following:

"(4) This section does not apply to actions in which the claimant's injuries have resulted in the complete loss of sight in both eyes."

REMARKS BY SENATOR HALSAN

Senator Halsan: "It is pretty obvious the sense of the body in regards to whether or not these particular outlying exemptions, as to the cap on non-economic damages, are sufficient to gain the sympathy of this body. I can see the writing on the wall relative to that. This is an amendment, which would allow a person made totally blind to break that cap. I would personally support such an amendment, but it appears that others would not. I would just wish that as we go through these, some of them I will withdraw, some of them I won't, but all of you be very cautious and think about what you're doing and I hope that's reflected in the final passage of the bill."

MOTION

On motion of Senator Halsan, the following amendment (on the desk) was withdrawn:
On page 6, after line 26, insert the following:

"(4) This section does not apply to actions in which the claimant's injuries resulted from the escape of a convict."

REMARKS BY SENATOR HALSAN

Senator Halsan: "This is a situation which we dealt with in the Campbell case, as you note from this. It would be a situation where the escape of a convict was the one that caused the general damages. I'm not going to put us through the necessity of a roll call vote on this particular item, but this also brings up the difficulties when we are trying to change law and obstruct the ability of people who are severely damaged in the most outrageous of circumstances to, in fact, not get the total recovery that they might have."

MOTION

On motion of Senator Halsan, the following amendment (on the desk) was withdrawn:

On page 6, after line 26, insert the following:

"(4) This section does not apply to actions in which the claimant's injuries have resulted in the loss of both arms."

REMARKS BY SENATOR HALSAN

Senator Halsan: "Thank you, Mr. President. A person who has lost both arms, obviously, has a situation in which they have a very difficult way of life into the future. Perhaps they can be fitted with prosthetics and be able to function in an adequate manner. It clearly is not one that I would prefer. I would request that you all keep that in consideration when discussing this bill."

MOTION

On motion of Senator Halsan, the following amendment (on the desk) was withdrawn:

On page 6, after line 26, insert the following:

"(4) This section does not apply to actions in which the claimant's injuries have resulted in permanent sexual dysfunction."

REMARKS BY SENATOR HALSAN

Senator Halsan: "Thank you, Mr. President. This is an example of something in which there is absolutely no economic damages that might arise. The total permanent sexual dysfunction is one that is totally not economic and that might be a situation for sixty or more years following the injury. We are dealing with things here that are not economic. People who sometimes are not getting recovery—but I would request that you consider the fact that many times non-economic damages are all that exist."

MOTION

On motion of Senator Halsan, the following amendment (on the desk) was withdrawn:

On page 6, after line 26, insert the following:

"(4) This section does not apply to actions in which the claimant's injuries resulted from the negligent failure of a law enforcement agency to respond to a call."

REMARKS BY SENATOR HALSAN

Senator Halsan: "Thank you, Mr. President. This is a situation that happened in Seattle where the police officers received numerous calls that a person was being harassed and that person ended up being murdered with the police not responding to the call. This is the type of thing that this bill would, in fact, cap non-economic damages for the survivors of the person such as that, or the person who was substantially injured."

MOTION

Senator Halsan moved that the following amendment be adopted:

On page 6, after line 26, insert the following:

"(4) This section does not apply to actions in which the claimant's injuries resulted from rape."
Senator Halsan demanded a roll call and the demand was sustained.

REMARKS BY SENATOR HALSAN

Senator Halsan: "Thank you, Mr. President. It's questionable as to what economic damages might result from a person who has been subjected to a rape. I myself, am not a lawyer that tries a lot of cases for personal injuries. I do lender benders, but I do have, in fact, a feeling of accordance as to what is being done in this particular piece of legislation. Perhaps one of the things I do more of than a lot of other lawyers and more than anyone in this particular body—or the one across the hall—is criminal law.

I've had situations in which I've seen, in my practice, charges of rape where the victim was seventy-six years old. I point out on Senator Thompson's chart, that would cap as non-economic damages of $67,000. I don't know what economic damages would be in that particular case. I do know that $67,000 goes no where near compensating a person who has been subjected to a violent rape by someone else at that particular age and vulnerability. At any age, the crime of rape is a very significant and dramatic experience. I would urge you to reevaluate your position relative to capping non-economic damages on a situation in which this violent and malicious act results in physical damages which are compensable at a very low amount—psychological damages which perhaps might allow a psychologist or psychiatrist for a number of years. but tremendous trama and non-economic injuries that can last for years, and as I mentioned in one case that I saw in the past—could amount to $67,000. I would urge passage of this amendment."

The President declared the question before the Senate to be the roll call on adoption of the amendment by Senator Halsan.

ROLL CALL

The Secretary called the roll and the motion by Senator Halsan failed and the amendment was not adopted by the following vote: Yeas, 17: nays, 28: absent, 2: excused, 2.

Voting yea: Senators Bauer, Bender, Bottiger, Fleming, Garrett, Gaspard, Goltz, Granlund, Halsan, McDermott, Moore, Peterson, Rasmussen, Rinehart, Talmadge, Williams, Wojahn - 17.

Voting nay: Senators Bailey, Barr, Benitz, Bluechel, Cantu, Conner, Craswell, Deccio, DeJarmatt, Guess, Hansen, Hayner, Johnson, Kreidler, McCaslin, McDonald, Metcalf, Newhouse, Owen, Patterson, Pullen, Saling, Sel lar, Stratton, Thompson, Vognild, Warnke, Zimmerman - 28.

Absent: Senators Lee, McManus - 2.

MOTION

Senator Halsan moved that the following amendment (on the desk) be withdrawn:

(On page 6, after line 26, insert the following:

"(4) This section does not apply to actions for the loss of a mother by a child under five years of age."

MOTION

Senator Halsan moved that the following amendment (on the desk) be withdrawn:

(On page 6, after line 26, insert the following:

"(4) This section does not apply to actions in which the claimant's injuries resulted from asbestosis."

MOTION

 Senator Halsan moved that the following amendment (on the desk) be withdrawn:

(On page 6, after line 26, insert the following:

"(4) This section does not apply to actions in which the claimant's injuries resulted from toxic poisoning."

MOTION

Senator Halsan moved that the following amendment (on the desk) be withdrawn:

(On page 6, after line 26, insert the following:

"(4) This section does not apply to actions for the loss of both parents by a minor claimant."
MOTION

Senator Halsan moved that the following amendment (on the desk) be withdrawn:

On page 6, after line 26, insert the following:

"(4) This section does not apply to actions in which the claimant has no children and, as a result of the injuries, is physically unable to procreate or bear children."

REMARKS BY SENATOR HALSAN

Senator Halsan: "Thank you, Mr. President. I would make a request that I just thought of. I would request that my amendments—I don't know whether they are, but the amendments that I have withdrawn be put in the journal as well."

REPLY BY THE PRESIDENT

President Cherberg: "Your amendments will show in the journal, Senator."

MOTION

Senator Halsan moved that the following amendment be adopted:

On page 6, after line 26, insert the following:

"(4) This section does not apply to actions in which the claimant's injuries resulted from the actions of a person driving or in physical control of a motor vehicle while under the influence of alcohol or drugs.

REMARKS BY SENATOR HALSAN

Senator Halsan: "Thank you, Mr. President. This amendment would allow non-economic damages in excess of the cap provided in this bill for situations in which the damage was done by a person who was driving a motor vehicle under the influence of alcohol or intoxicating drugs. We've tried a great deal to eliminate DWI from the state or to do the best we can to control it. I think without adopting this amendment, we're going a long way towards alleviating a person—a drunk driver—from the total consequences of their act. If we're, in fact, going to limit down the person who is seventy-five years of age and who is confined to a wheelchair as a result of a drunk driver hitting him in a cross walk and limit their damages for non-economic purposes to $67,000 and the destruction of their quality of life for those ten years they might have remaining, I think that's a sad comment on the efforts we've made in the past years to try to crack down on drunk driving. I urge your passage of this amendment."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President and members of the Senate and Senator Halsan. Senator Halsan, I think you do a disservice to the efforts of all of us to control drunk driving in this state and discredit the actions that we've taken to effectively reduce the instance of drunk driving. I reject the idea that our failure to adopt your amendment now would have any effect on the good measures that we've passed here. I urge your rejection of the amendment."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President and members of the Senate. This particular amendment illustrates the purpose of the tort law that we have not discussed out here on the floor and that I suspect has not been discussed as it should be in the caucuses. You should be aware that the tort law evolved over the years, because of a desire to provide a standard for behavior in society. Under the Old English Common Law, if a person committed a felony, the death penalty applied and their property was forfeited. The property was forfeited and it was available for distribution by the victims of the individual’s felony conduct. You didn't need a tort law, because the criminal law handled the problems as felons were executed for their failure to subscribe to the standards of society that existed in rural England.

“What we have had, as a result of the industrial revolution, is a need for an evolving standard of behavior. We don't want to execute people for every violation of the standard of care. We don't want to forfeit the property of the family as a result of the violation of the law. The tort law developed as an incentive for people to subscribe to the standard of behavior that a reasonable person should subscribe to in our society.
“What Senator Halsan’s amendment illustrates, is the need to encourage people to subscribe to a standard of reasonable care in their dealings with other people in a complex and difficult society. What this entire bill does, as Senator Halsan’s amendment illustrates, is remove the incentive for people to subscribe to a standard of appropriate conduct in their dealings with one another. It says that we can invade the province of the jury—we know better here in the Legislature than what juries know and we will not permit certain people to recover beyond a certain limited amount for non-economic damages—whatever that means in the way of the definition in the bill.

I think you should remember very, very carefully what the tort law is all about. It’s about wrongful conduct—violation of the standard of care—violation of the standard of a reasonable person in this complex society. If you remove the incentive for people to behave in a reasonable way to subscribe to the standard of care, you will in fact encourage people to engage in wrongful conduct because they bear no consequence for that wrongful conduct. Senator Halsan’s amendment, as were all of these amendments, illustrative of that principle. Don’t forget it as you consider the tort law in this state.”

Senator Halsan demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on adoption of the amendment by Senator Halsan.

ROLL CALL

The Secretary called the roll and the motion by Senator Halsan failed and the amendment was not adopted by the following vote: Yeas. 17; nays. 28; absent. 2; excused. 2.

Voting yea: Senators Bender, Bottiger, Fleming, Garrett, Gaspard, Goltz, Granlund, Halsan, Hansen, McDermott, Moore, Peterson, Rasmussen, Rinehart, Talmadge, Williams, Wojahn - 17.

Absent: Senators Lee, McManus - 2.

MOTION

Senator Halsan moved that the following amendment be adopted:

On page 6, after line 26, insert the following:

NEW SECTION. Sec. 402. A new section is added to chapter 4.24 RCW to read as follows:

In civil actions regarding the following, involving aggravating circumstances, either in the act or in the intention, the trier of the fact may award additional damages including punitive damages to the victim, either to deter such wrongdoing or as further compensation for his or her mental anguish and harm or physical injury:

(1) Where injury or death has been caused by the actions of an individual driving a motor vehicle while under the influence of alcohol;

(2) Where a person has been sexually abused while a client or patient of a professional person licensed by the state of Washington;

(3) Where the tort of outrage has been committed;

(4) Where an insurance company has engaged in bad faith conduct; and

(5) Where a person has been subject to discrimination or malicious harassment as a member of a protected class as defined under chapter 49.60 RCW.

NEW SECTION. Sec. 403. Section 402 of this act shall apply to all claims arising after the effective date of this act and to all claims in which suit has not been filed on the underlying action before the effective date of this act.

REMARKS BY SENATOR HALSAN

Senator Halsan: "Thank you, Mr. President and members of the Senate. Let's shift gears a little bit in our educational exercise that we're having here on the floor. I've heard it said many times about how terrible it is to have these gross punitive damages that people see in suits across the states. Well, I've got a flash for you. Washington does not permit punitive damages. In fact, in the state of California, that many people have pointed out, the limitations on general non-economic damages that are in place—California does have punitive damages. What you're seeing and calling punitive damages are the damages that are awarded for the loss of quality of life that people sustain as a result of the negligence and actions of others. This amendment gives you the opportunity to bring..."
tort law in Washington up to the level of California which has the caps that you're so anxious to place upon recoveries in the state of Washington.

"This will allow you to grant punitive damages in this state for basically the first time. There are punitive damages, of course, in actions of consumer protection to a maximum of $100,000 treble damages. Treble damages, of course--I notice in my district for cutting down someone else's trees when you're not supposed to--but very rarely are any kind of damages that are not directly related to fault and damage and injury are allowed. This would allow punitive damages to be awarded by the court when the injury or death was caused by an individual driving while he was drunk, where a person has been sexually abused while a client or a patient of a professional person, where the tort of outrage has been committed, where an insurance company--I guess they're the people who brought us here today--has engaged in bad faith or where a person has been subject to discrimination and vicious harassment as a member of the protective class as defined under Chapter 49.60 RCW.

"In that last one, I think that points out another thing. Many times that harassment or malicious conduct won't have an economic loss and perhaps the only way that a court or a jury can tell the person who has been engaging in that kind of conduct that that is outrageous to society, is to grant some kind of punitive damages in a suit. I would urge your passage of this amendment. If you want to bring tort law up to date in Washington, then perhaps this is a very appropriate one. Washington is one of only four states in the country that don't allow punitive damages. I urge passage of the amendment."

MOTION

Senator Talmadge moved that the following amendment to the amendment be adopted:

On page 1, after line 35, of the amendment by Senator Halsan that begins on page 6, insert:

"All moneys received as punitive damages shall be remitted to the crime victims compensation fund maintained by the department of labor and industries."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President. This oral amendment that I'm offering is an amendment to this amendment on exemplary damages to provide that any of these punitive damages received would not go to the party who has brought the law suit, but rather would go to the Crime Victims Compensation Fund in order to provide for some compensation to that fund. Essentially, these people that are the victims of a situation where exemplary or punitive damages would apply are, in effect, crime victims and I simply would like to suggest that that money would go to them as a proper place for that money. It's been suggested in the federal product liability law by Senator Gorton that there would be some apportionment of punitive damages received under the federal product liability law between consumer organizations and the individual claimant. What I'm suggesting is a matter of state policy in that any punitive exemplary damages would go to the Crime Victims Fund here."

The President declared the question before the Senate to be adoption of the amendment to the amendment.

REMARKS BY SENATOR THOMPSON

Senator Thompson: "I should not have interrupted your putting of the question. I have no objection to the adoption of amendment to the Halsan amendment."

The President declared the question before the Senate to be adoption of the amendment to the amendment.

The motion by Senator Talmadge carried and the amendment to the amendment was adopted.

The President declared the question before the Senate to be adoption of the amendment by Senator Halsan, as amended.

Senator Halsan demanded a roll call and the demand was sustained.
REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President. I rise now to oppose the amendment, as amended, and suggest that criminal law exists to correct wrong doing and urge that we not adopt this amendment and contribute substantially to the economic costs of the system that we're attempting to moderate or mitigate to some degree. Senator Talmadge suggested in debate on the previous amendment that unless we do something in the punitive area, unless we provide exceptional general damages, for instance, for drunk drivers that we are somehow setting up a situation where wrongdoers don't bear the consequence for their crimes or wrongdoings. I shouldn't have to remind a body of lawmakers that we have a body of criminal law for that purpose which works very effectively in that regard. I urge we not adopt this amendment."

REMARKS BY SENATOR BOTTIGGER

Senator Bolliger: "Mr. President and members of the Senate, I've kind of kept my mouth shut on most of these amendments, but this is one time I have to share with you another purpose of the tort law. I want to tell you about a little case that occurred down in California that would be applicable in the future in this state if the same facts occur.

"Ford Motor Company put out a car called the Pinto and in the manufacture of that car, they made a decision in the corporate level to use a gas tank that was defective. It saved $23 per car and, of course as you all know, a lot of those gas tanks started exploding and people started getting killed or badly burned. Someone brought a lawsuit and in the discovery discovered there was an internal memo in the Ford Motor Company that acknowledged that this was a defective gas tank, acknowledged that it would cost $23 per car to fix it, acknowledged that they would kill approximately 700 people if they continued to manufacture the gas tank in that method. They estimated that they would have to pay each one of them about $300,000 and that by not fixing it, the company would make $120,000,000 and so they didn't fix it.

"A jury in California discovered this memo, because the trial lawyer was enforcing the law and stuck Ford Motor Company for that amount of money. Now under that set of facts, you don't put Ford Motor Company in jail because, as Senator Thompson says, the criminal law handles it. The tort law handles it and it handles it where you have punitive damages. We don't have them in this state. So people in this state—if in the action the people are killed—they can just go merrily on their way saving money for the corporation. Punitive damages enforces the law in many cases."

The President declared the question before the Senate to be the roll call on adoption of the amendment by Senator Halsan, as amended.

ROLL CALL

The Secretary called the roll and the motion by Senator Halsan failed and the amendment, as amended, was not adopted by the following vote: Yeas, 20; nays, 25; absent, 2; excused, 2.

Voting nay: Senators Bailey, Barr, Benitz, Bluechel, Cantu, Conner, Craswell, Deccio, Guess, Hansen, Hayner, Johnson, McCaslin, McDonald, Metcalf, Newhouse, Owen, Patterson, Pullen, Saling, Sellar, Stratton, Thompson, Vognild, Zimmerman - 25.

Absent: Senators Lee, McManus - 2.

PERSONAL PRIVILEGE

Senator Halsan: "Thank you, Mr. President, I guess a point of personal privilege. I appreciate the patience of the body in going through this, what I view, as a very important discussion and I would request for illustrative purposes that the list of actuarial ages and life expectancies, as well as the graduated non-economic cap presented in the document by Senator Thompson, be made part of the record."

REMARKS BY SENATOR BOTIGER

Senator Bolliger: "Mr. President, Senator, I would personally object to that. The bill, as referenced, refers to the Insurance Commissioner's Life Expectancy Tables and as Senator Thompson has acknowledged, it doesn't vary very much, but the Insurance Commissioner's tables change with the life expectancy and I don't want something in the record that doesn't change."

REMARKS BY SENATOR HALSAN

Senator Hatsan: "Perhaps if we just noted that this is not accurately reflective of what's in the bill, but for illustrative purposes only."

REMARKS BY SENATOR BOTIGER

Senator Bolliger: "Mr. President, with that understanding and since this will be in the record, we are using the time honored life expectancy tables put out by the Insurance Commissioner's Office that reflect change and I most certainly don't want this stuck in concrete in any decision the courts make."

REMARKS BY SENATOR HALSAN

Senator Hatsan: "I would agree. If this is inaccurate in its reflection of the Insurance Commissioner's table, it does, however, give a feel for the variance between per people as a result of their ages, and I think it perhaps is as valuable to a reader of the record as it has been to us on the floor."

PARLIAMENTARY INQUIRY

Senator McDonald: "Mr. President, tell me the procedure by which all this stuff is entered in. I've got some constituent calls on my desk, too, who may want to be entered as well. We're really getting to a point of being ludicrous in entering things into the record that everybody wants on the floor. It's a very unusual act and I want to understand what's going on."

REPLY BY THE PRESIDENT

President Cherberg: "Well, Senator Hatsan, merely spoke on a personal privilege matter. The Secretary advises that at the start of the consideration of this measure that Senator Talmadge requested that all matters would be entered in the journal and to the best of the President's knowledge, no one objected."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Mr. President, I would also remind Senator McDonald that with respect to the Washington Product Liability and Tort Reform Act, in 1981, a section-by-section analysis of that bill is contained in the Journal of the Senate. In the appendix of the 1984 Journal of the Senate, is a section-by-section analysis of the Washington Trust Law and in the 1985 Journal of the Senate, in the appendix, is contained a section-by-section analysis of various changes in the Corporation Law. It has been done in times past, Senator McDonald, on the motion of a member without objection by the body."

OBJECTION BY SENATOR MCDONALD

Senator McDonald: "Mr. President, then I guess I am objecting to the inclusion of all this material in the record. Tapes are available for anybody that wants them. The material that we have is public record and I think to have a very unusual motion of putting actuarial tables that may or may not be correct—for us to be putting all the words in the record is most unusual and I do object."

POINT OF ORDER

Senator Talmadge: "Mr. President, I made that motion earlier on and the President asked for any objection by any of the members. Senator McDonald did not raise an objection and I believe the objection that he now raises is not timely."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Talmadge's remarks are correct. Senator, your remarks are well taken. No one objected."
On motion of Senator Bender, Senator McManus was excused.

PARLIAMENTARY INQUIRY

Senator Vognild: "Thank you, Mr. President, a point of parliamentary inquiry. Do I understand properly that the proceedings of the Senate are recorded on tapes?"

REPLY BY THE PRESIDENT

President Cherberg: "Yes."

Senator Vognild: "Do I further understand that those tapes of the proceedings are referred to Archives and are kept for virtually an indefinite time?"

President Cherberg: "The Secretary advises that after the journal has been completed, they are sent to the Archives."

Senator Vognild: "One further inquiry. Mr. President, I believe it is possible that at any time in the future for a member to request of the Secretary a transcript of a given section of the business of the Senate and receive that transcript?"

President Cherberg: "That is correct."

MOTION FOR RECONSIDERATION

Senator Vognild: "Mr. President, I guess by virtue of not objecting, I'm going to say that I voted in the affirmative position on the motion to include all of this in the journal and I would move for reconsideration of that motion."

POINT OF ORDER

Senator Talmadge: "Mr. President, I believe the point of order that I look with respect to the comments of Senator McDonald applies equally to the statement now made by Senator Vognild. The request was made. It was not in the form of a motion before the body, but rather a request and is the right of an individual member of the Senate. The request was granted without disagreement. I believe the President's response to Senator McDonald's comments applies with equal vigor and enforcement to the comment now made by Senator Vognild. He simply failed to take a timely objection to a request as a member of this body."

REMARKS BY SENATOR GARRETT

Senator Garrett: "Thank you, Mr. President and members of the Senate. As I see what's going on here, no one objected until something came up that somebody didn't want in the record, and I think the President in his decision should take that into consideration that we went along and maybe something that someone didn't want in the record—and they didn't object—but now someone has found something that was going to go into the record, that they objected to and now they want to object after all the other proceedings are recorded."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President. I would like to urge the Senate to get along with the business before us. I introduced the grid that helped explain the amendment which I proposed and which the Senate adopted and in my remarks, which were part of the record, I explained that it was an approximation intended to convey a concept. I should think that would be clearly understood by anyone reading the record. I see no harm to anyone's interest—the public or ours—or any partisan—one side or the other issue in having all of this included in the record."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President. I agree with Senator Thompson. I don't know what we're fussing about. The objection I had to having that in the record without the acknowledgment that the life expectancy tables which are used by the Insurance Commissioner in every court, that I know of, differentiates between male and female. The example, is in my case, eleven-tenths of a year off and the Insurance Commissioner's Life Expectancy Table changes with medical histories as to how long we live; whereas a static life expectancy table put out there meets none of
those objections. So let's put it in with the understanding that what the statute says, the amendment we voted on, is the Insurance Commissioner's Life Expectancy Table."

WITHDRAW MOTION FOR RECONSIDERATION

Senator Vognild: "Thank you, Mr. President, I will withdraw my request for reconsideration and I would like to speak to it. "Thank you, Mr. President, at the time this motion was made--most of us on the floor, at least, did not expect it. As a result, there was really no consideration at that point of time--quickly--as to what it was doing to the journal. Also, I think there was an honest desire, at least on my part, that this be a complete record. At that point in time, I consulted with the Secretary and was told that it would be on tape and that the tapes would, in fact, be kept and any Senator could at any time get a transcript of any part of this. As we went along, I became quite concerned at the length of the journal--and I realize I am adding to it. I don't particularly care for that, but I wanted the Senators to know that the motion I just made and withdrew was not in any way an effort to keep anything from the record. It was merely to point out that it will simply be in the record twice."

TABLE

GRADUATED NON-ECONOMIC CAP

| A. Age of the Plaintiff.                                      | 31.0 |
| (Median age of population of USA).                           |      |
| B. Expectation of Life, years (EOL).                         | 45.1 |
| (Table 103, Statistical Abstract of the USA, 1984).          |      |
| C. Median Income of Year Round full-time Worker (MI).         | 18,091.36 |
| D. Constant (C).                                             | 0.36 |

Formula:
From Table, A. provides EOL
EOL x (MI/C) = Non-Economic Cap (Age Specific)
45.1 x 18,091.36 x 0.36 = $293,725.00

On motion of Senator Talmadge, the following amendment (on the desk) was withdrawn:

On page 5, after line 30, strike everything down to and including "injury." on page 6, line 26.

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President, this would be an amendment to strike any caps contained in the legislation. I still maintain the view that I've expressed before on this floor—that any such effort to limit the ability of a party who is wronged by another to recover, whether it is for non-economic recovery damages or economic damages, is probably unconstitutional in light of the responsibilities of this body to respect the right of a jury to deal with this responsibility. It is probably unconstitutional in light of due process and equal protection and it is probably unconstitutional in light of separation of powers between the three branches of government.

I have to remind the members of the Senate that when we talk about non-economic damages, we're not talking simply about pain and suffering. We're talking about humiliation, loss of reputation, loss of consortium, that is, the relationship between a man and a wife and the marital relationship, the loss of a parent by a child, the loss of a child by a parent, the loss of a spouse by another spouse, disfigurement and other forms of non-economic damages to a person horribly injured. All of these are much more significant than these caps permit, but the will of the body has been expressed again and again in these amendments—to my chagrin."

REMARKS BY SENATOR RINEHART

Senator Rinehart: "Thank you, Mr. President, speaking in support of the amendment.

REPLY BY THE PRESIDENT

President Cherberg: "Senator Rinehart, that is not before the body. Senator Talmadge withdrew the amendment."

MOTION

Senator Thompson moved that the following amendment be adopted:

On page 6, beginning on line 31, strike all material through "claimant." on page 7, line 18 and insert the following:

"In all actions involving fault of more than one entity, the trier of fact shall determine the percentage of the total fault which is attributable to every entity which caused the claimant's damages, including the claimant or person suffering personal injury or incurring property damage, third-party defendants, entities released by the claimant, entities immune from liability to the claimant and entities with any other individual defense against the claimant. Judgment shall be entered against each defendant except those who have been released by the claimant or are immune from liability to the claimant or have prevailed on any other individual defense against the claimant in an amount which represents that party's proportionate share of the claimant's total damages. The liability of each defendant shall be several only and shall not be joint except:

(1) A party shall be responsible for the fault of another person or for payment of the proportionate share of another party where both were acting in concert or when a person was acting as an agent or servant of the party.

(2) The defendants shall be jointly and severally liable for an indivisible claim for personal injury or property damage if the trier of fact determines that the claimant or party suffering bodily injury or incurring property damages was not at fault.

Sec. 502. Section 4, chapter 85, Laws of 1977 ex. sess. as last amended by section 5, chapter 218, Laws of 1984 and RCW 51.24.060 are each amended to read as follows:

(1) If the injured worker or beneficiary elects to seek damages from the third person. any recovery made shall be distributed as follows:

(a) The costs and reasonable attorneys’ fees shall be paid proportionately by the injured worker or beneficiary and the department and/or self-insurer;

(b) The injured worker or beneficiary shall be paid twenty-five percent of the balance of the award: PROVIDED, That in the event of a compromise and settlement by the parties, the injured worker or beneficiary may agree to a sum less than twenty-five percent;
(c) The department and/or self-insurer shall be paid the balance of the recovery made, but only to the extent necessary to reimburse the department and/or self-insurer for compensation and benefits paid;

(1) The department and/or self-insurer shall bear its proportionate share of the costs and reasonable attorneys' fees incurred by the worker or beneficiary to the extent of the benefits paid or payable under this title: PROVIDED, That the department or self-insurer may require court approval of costs and attorneys' fees or may petition a court for determination of the reasonableness of costs and attorneys' fees.

(1) The sum representing the department's and/or self-insurer's proportionate share shall not be subject to subsection (1) (d) and (e) of this section.

(d) Any remaining balance shall be paid to the injured worker or beneficiary;

(e) Thereafter no payment shall be made to or on behalf of a worker or beneficiary by the department and/or self-insurer for such injury until the amount of any further compensation and benefits shall equal any such remaining balance. Thereafter, such benefits shall be paid by the department and/or self-insurer to or on behalf of the worker or beneficiary as though no recovery had been made from a third person;

(f) If the claimant, employer, and/or the co-employee are determined to be at fault, the deductions made under (c) and (e) of this subsection do not apply and benefits shall be paid by the department and/or self-insurer to or on behalf of the worker or beneficiary as though no recovery had been made from a third person.

(2) The recovery made shall be subject to a lien by the department and/or self-insurer for its share under this section.

(3) The department or self-insurer has sole discretion to compromise the amount of its lien. In deciding whether or to what extent to compromise its lien, the department or self-insurer shall consider at least the following:

(a) The likelihood of collection of the award or settlement as may be affected by insurance coverage, solvency, or other factors relating to the third person;

(b) Factual and legal issues of liability as between the injured worker or beneficiary and the third person. Such issues include but are not limited to possible contributory negligence and novel theories of liability; and

(c) Problems of proof faced in obtaining the award or settlement.

(4) In the case of an employer not qualifying as a self-insurer, the department shall make a retroactive adjustment to such employer's experience rating in which the third party claim has been included to reflect that portion of the award or settlement which is reimbursed for compensation and benefits paid and, if the claim is open at the time of recovery, applied against further compensation and benefits to which the injured worker or beneficiary may be entitled.

(5) In an action under this section, the self-insurer may act on behalf and for the benefit of the department to the extent of any compensation and benefits paid or payable from state funds.

(6) It shall be the duty of the person to whom any recovery is paid before distribution under this section to advise the department or self-insurer of the fact and amount of such recovery, the costs and reasonable attorneys' fees associated with the recovery, and to distribute the recovery in compliance with this section.

(7) The distribution of any recovery made by award or settlement of the third party action shall be confirmed by department order, served by registered or certified mail, and shall be subject to chapter 51.52 RCW. In the event the order of distribution becomes final under chapter 51.52 RCW, the director or the director's designee may file with the clerk of any county within the state a warrant in the amount of the sum representing the unpaid lien plus interest accruing from the date the order became final. The clerk of the county in which the warrant is filed shall immediately designate a superior court cause number for such warrant and the clerk shall cause to be entered in the judgment docket under the superior court cause number assigned to the warrant, the name of such worker or beneficiary mentioned in the warrant, the amount of the unpaid lien plus interest accrued and the date when the warrant was filed. The amount of such warrant as docketed shall become a lien upon the title to and interest in all real and personal property of the injured worker or beneficiary against whom the warrant is issued, the same as a judgment in a civil case docketed in the office of such clerk. The sheriff shall then proceed in the same manner and with like effect as prescribed by law with respect to execution or other process issued against rights or property upon judgment in the superior court. Such warrant so docketed shall be sufficient to support the issuance of writs of garnishment in favor of the department in the manner provided by law in the case of judgment, wholly or partially unsatisfied. The clerk of the court shall be entitled to a filing fee of five dollars, which shall be added to the amount of the warrant. A copy of such warrant shall be mailed to the injured worker or beneficiary within three days of filing with the clerk.

(8) The director, or the director's designee, may issue to any person, firm, corporation, municipal corporation, political subdivision of the state, public corporation, or agency of the state, a notice and order to withhold and deliver property of any kind if he or she has reason to believe that there is in the possession of such person, firm, corporation, municipal corporation,
political subdivision of the state, public corporation, or agency of the state, property which is
due, owing, or belonging to any worker or beneficiary upon whom a warrant has been served
by the department for payments due to the state fund. The notice and order to withhold and
deliver shall be served by the sheriff of the county or by the sheriff's deputy, or by any author­
tized representatives of the director. Any person, firm, corporation, municipal corporation,
political subdivision of the state, public corporation, or agency of the state upon whom service
has been made shall answer the notice within twenty days exclusive of the day of service,
under oath and in writing, and shall make true answers to the matters inquired of in the notice
and order to withhold and deliver. In the event there is in the possession of the party named
and served with such notice and order, any property which may be subject to the claim of the
department, such property shall be delivered forthwith to the director or the director's author­
ized representative upon demand. If the party served and named in the notice and order fails
to answer the notice and order within the time prescribed in this section, the court may, after
the time to answer such order has expired, render judgment by default against the party
named in the notice for the full amount claimed by the director in the notice together with
costs. In the event that a notice to withhold and deliver is served upon an employer and the
property found to be subject thereto is wages, the employer may assert in the answer to all
exemptions provided for by chapter 7.33 RCW to which the wage earner may be entitled."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President, in anticipation of amendments
to the amendment, I wasn't prompt in explaining it. This amendment is long,
because it represents a rewrite and reordering of the joint and several provisions
that were contained in the bill and otherwise there is no substantive change except
on page 4, which Senator Bottiger is more competent to explain than I and, of
course, I support the amendment and we're going to be dealing with some
amendments to the amendment."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, I'm on the horns of a dilemma, while I would
prefer that we not rewrite joint and several, if we are going to rewrite joint and
several, then I proposed this amendment to the group that was meeting to cure a
problem that I see in industrial injury cases where there is an employer and
employee relationship which is covered by workmen's compensation, under exist­
ing law, if the injured employee recovers against a third party, they must pay
back the Labor and Industries Department out of the settlement they receive. If we
go to joint and several, since the employer and fellow employer are exempt or
immune from lawsuit, the injury occurred to the plaintiff attributable to the fellow
employer or employee, there is a double whammy. Not only does he have
deducted their negligence from any award he has received, but out of what is left,
he has to pay back the Department of Labor and Industries.

"The amendment as proposed beginning on pages 3 and 4 resolves that issue
by, in effect, saying that the insurance that the employer bought to cover employ­
ees injured on his premises covers the negligence of the employer and fellow
employee and this amendment would mean that it need not be paid back. Now in
all candor, this creates a problem of approximately a one percent impact on
Labor and Industry premiums, but no other solution to this problem could be found
in the negotiations that was acceptable and while it's my second choice of how to
handle it, it's one that was agreed to and I agreed to support it."
of the proportionate share of another party where both were acting in concert or when a person was acting as an agent or servant of the party.

In determining a party’s proportionate share of the claimant’s total damages, the trier of fact shall determine the percentage of the total fault which is attributable to every entity which caused the claimant’s damages, including the claimant or person suffering personal injury or incurring property damage, third-party defendants, persons released by the claimant, and persons with any other individual defense against the claimant.”

REMARKS BY SENATOR TALMADGE

Senator Talmadge: “Thank you, Mr. President and members of the Senate. The amendment to Senator Thompson’s amendment that you have before you provides, I think, an alternative to the view of joint and several liability that you have before you. This is essentially the rule that applies in the state of Oregon that modifies the joint and several principle as we know it in this state. To give you a bit of background, I can think of no more damaging change in the law relating to torts for victims in this state than change in joint and several liability. Some people have argued to you that this is the deep pocket theory for dealing with problems in our state.

“I would remind you that what the Legislature decided to do in 1981, as a matter of conscience policy, was to permit the victim of a wrongful act to be made whole. Then, as between the various wrongdoers who might be at fault for the wrong, they would fight it out between themselves by virtue of something called the right of contribution to decide who bore what share of fault in the allocation of fault. We provided for offsets for settlements entered into. We provided for a comprehensive way of apportioning fault amongst the parties. What you’re proposing to do now, is to switch the burden. if the various wrongdoers aren’t capable of responding to judgment, if the victim is hurt—the victim is the one who bears the consequence of that economic problem and not the wrongdoer.

“It’s a fascinating change in the principle of who should bear the consequences of wrongful conduct in this state. You are, in effect, saying to the victims of wrongful conduct that you shall bear the consequence of any economic problems in that area, not the various wrongdoers. I would suggest to you very strongly that this Oregon approach is a better one. It abrogates the principle of joint and several liability if, as to the parties who are in the lawsuit, there is a party that the plaintiff has more fault than those parties. The two things that you do with any attempt to do joint and several liability in the way that is proposed here—first you are going to start allocating fault to empty chairs in the lawsuit. You’re going to allocate fault to immune parties and immune employers. You’re going to allocate fault to people who have been released from the lawsuit and you create serious problems that raise res judicata under our reasonableness hearing process. That’s number 1.

“Number 2. I don’t know how those empty chairs are going to be able to respond to the issue in the case, because they are not going to be represented by attorneys. In fact, they are not going to be present in the case. The defendants who are there trying the case are going to point to the chair like that one and say, ‘They’re the ones that are really at fault in this lawsuit’—and that’s what they’re going to do.

“Now lastly, let me suggest something to you that I think is the most serious unintended consequence and that is the abrogation of the immunity of employers under the Workers Compensation Law. Defendants in cases are going to argue that because you are starting to allocate fault to employers under this law as you do, then defendants can bring action for indemnification against those immune employers and argue that the fault should be completely spread out. A dissent from Justice Rosellini in the Glass case, a concurrence, in the Davis case and a whole series of cases across the United States on implied indemnification, suggest that that’s what’s going to happen. So, instead of closing the door to liability, you’re opening it wide open to all of the employers who thought they were immune under the Industrial Insurance Act.”

REMARKS BY SENATOR HAYNER

Senator Hayner: “I urge you to vote against the amendment to the amendment. What you see before you is the language that has been accepted in the state of
Oregon, but what it really does is eliminate joint and several only where the plaintiff is the same or more at fault than the defendant. It is not the agreement that I think we came to when we were negotiating on this and there was movement on both sides. I think we should continue with the major amendments that Senator Thompson has. The Glass case to which Senator Talmadge referred is not the law yet of this state, nor may it ever be, perhaps. He doesn't know and I don't know. If we were to try and out guess the courts, we would be here from now on. I guess. We have to assume that the law is what it is presently. I certainly urge you to vote against this amendment to the amendment."

CLOSING REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Mr. President, closing debate. Despite the remarks of Senator Hayner, I would only remind her that the party who argued the case to the Washington Supreme Court, on behalf of the Morell Foundry Corporation, was the chairman of the Senate Judicary Committee and I believe I have some greater knowledge of the Glass case and the questions that the Supreme Court asked than does Senator Hayner. I would urge the members to take a very careful look at this issue. If, in fact, the other state's direction is similar to what is true here, you'd break the immunity of the employer under the Industrial Insurance Act. You'd give them an opportunity—give defendants an opportunity, not plaintiffs—but co-defendants to make the argument that they are entitled to indemnification from the wrongdoer. I don't think that is what the members of the Senate want to see happen. What we have to try to do, is say that for a plaintiff who's fault is starting to get very large in this continuum of fault, that they are no longer, in fact, a victim, but rather they are a wrongdoer. That is what Oregon has decided. When the fault of the plaintiff exceeds that of any defendant, the plaintiff does not recover. That makes sense from a policy standpoint. They are not a victim anymore, but when their fault is very small—as is the case under this proposal from Senator Thompson—one-tenth of one percent or one percent or two percent or whatever, joint and several liability goes out the door and the victim has to bear the consequence of that. The wrongdoers then get away."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President and members of the Senate. Senator Talmadge, we do acknowledge your knowledge in this field. However, I have been attending negotiation sessions with you and I am sure that you would concede that what you have raised has come under dispute. We have a different view of the outcome of this amendment—an outcome that will benefit injured workmen substantially at a very, very small impact on the fund. This, I caution members of the Senate, goes to the heart of the local government's interest in this legislation and would substantially modify the proposal of joint and several. The fact is that joint and several isn't eliminated or the plaintiff does not recover. That makes sense from a policy standpoint. They are not a victim anymore, but when their fault is very small—as is the case under this proposal from Senator Thompson—one-tenth of one percent or one percent or two percent or whatever, joint and several liability goes out the door and the victim has to bear the consequence of that. The wrongdoers then get away."

The President declared the question before the Senate to be adoption of the amendment to the amendment.

Senator Talmadge demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on adoption of the amendment by Senator Talmadge to the amendment by Senator Thompson.

ROLL CALL

The Secretary called the roll and the motion by Senator Talmadge failed and the amendment to the amendment was not adopted by the following vote: Yeas, 17; nays, 28; absent, 1; excused, 3.

Voting yea: Senators Bender, Bottiger, Fleming, Garrett, Gaspard, Goltz, Granlund, Halsan, Kreidler, McDermott, Moore, Peterson, Rasmussen, Rinehart, Talmadge, Williams, Wojahn - 17.

Absent: Senator Lee - 1.
THIRTY-FOURTH DAY, FEBRUARY 15, 1986

MOTION

Senator Talmadge moved that the following amendment to the amendment be adopted:

On page 2, after line 12, of the Thompson amendment that begins on page 6, line 31, insert the following:

"(3) The defendants shall be jointly and severally liable if the cause of action involves a violation of any state or local law relating to solid wastes, hazardous wastes or substances, air, water, or high or low level radioactive wastes or substances. If legislation is enacted in 1986 creating joint and several liability for causes of action relating to solid wastes or hazardous wastes or substances, then this subsection shall be null and void."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President and members of the Senate. I believe this amendment to the Thompson amendment is agreeable to Senator Thompson. One of the things that I've tried to illustrate by these amendments to the amendment in the joint and several liability areas--when we talk about joint and several liability, we are not simply talking about personal injuries in the traditional sense of that word, but we are talking about hazardous waste under Superfund, we are talking about product liability, we are talking about tortious interference with business expectations, we are talking about all forms of deciding how liability is apportioned. What this amendment is designed to do, is to allow the continuation of the process that Senator Kreidler has undertaken in the area of Superfund to urge the parties to that controversy to come to an agreement both as to the funding of the state Superfund and as to the liability issue."

"If we were not to have this amendment in place, there is zero incentive for large business in this state to attempt to develop a funding mechanism to deal with Superfund, because their liability would be several only and that means that only their share of the fault. However, that could be determined in situations involving hazardous waste. You know it is often said that there are circles within circles within circles in the legislative process. It is worthy to remind members of the Senate that on key issues like this, we shouldn't forget the scope of what this particular bill is attempting to do. That is why I think we need this amendment very badly."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President and members of the Senate. One of the benefits of the several meetings we had with regard to this measure in the last few days has been the attention that Senator Talmadge has drawn to this problem. This is a good amendment. He has explained it. I urge the Senate to adopt it."

The President declared the question before the Senate to be adoption of the amendment to the amendment.

The motion by Senator Talmadge carried and the amendment to the amendment was adopted.

MOTION

Senator Talmadge moved that the following amendment to the amendment be adopted:

On page 2, after line 12, of the amendment by Senator Thompson that begins on page 6, line 31, insert the following:

"(3) The defendants shall be jointly and severally liable if the cause of action involves a product liability claim under chapter 7.72 RCW."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President and members of the Senate. This amendment deals with product liability under 7.72 of the RCW. Again the members of the Senate need to remember that when dealing with the issue of joint and several liability, you are touching upon work-place injuries, you are touching upon hazardous waste, you are touching upon product liability, you are touching upon business torts, you are touching upon a wide variety of issues of interest to society and the state of Washington. This amendment is designed to carve out an exception to the area of joint and several liability for product liability actions where it is
very difficult at times to be able to recover against the wrongful manufacturer of a product. I urge your support."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President and members of the Senate. We have already mentioned the substantial effect of this amendment, unamended, beneficial, in fact, for the injured workmen—so much for the workplace reference. I would urge the Senate to reject this amendment as another economic hit on the bill."

The President declared the question before the Senate to be adoption of the amendment to the amendment.

The motion by Senator Talmadge failed and the amendment to the amendment was not adopted.

MOTION

Senator Talmadge moved that the following amendment to the amendment be adopted:

On page 2, after line 12 of the Thompson amendment that begins on page 6, line 31, insert the following:

"(3) The defendants shall be jointly and severally liable if the cause of action involves the tortious interference with contract or business expectations."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President and members of the Senate. This amendment to the Thompson amendment is designed to advise the members of the Senate that they are not only dealing with personal injury actions, but you are also dealing with that whole category of something called 'business torts' where someone interferes with a contractual relationship that someone has—that's a tort. When someone deals with the problems that we have in terms of business relationships, you are seriously affecting the law that we have developed in the business torts area. I'm not certain that the members of this Senate intended to abrogate the principle of joint and several liability in dealing with business torts. That's why I have offered this amendment to accept those torts relating to the business relationships that have been developed over the years. I urge your support."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President and members of the Senate. Very frankly I was asleep when we were talking about this in the conference. First of all I would like to point out that this has nothing to do with insurance. You cannot buy insurance to cover this, so we are not affecting any insurance rates. What we are doing is, saying that if you have a contract to supply widgets to somebody and I come in and interfere with that right and get him to switch to me in violation of your contract and I am insolvent and the court decides it is fifty percent one guy's fault and fifty percent the other and one of them is insolvent, you are only going to get one-half of your recovery. Now, nobody is reducing any insurance premium one penny by adopting—this amendment doesn't raise it or lower it. It just protects the businessman that has a valid, honest contract to make sure that he is going to be able to collect on his damages. I would recommend that you think seriously about adopting this one."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President and members of the Senate. You are very persuasive, Senator Bottiger and Senator Talmadge. I would like to join with you in urging the Senate to adopt this amendment."

The President declared the question before the Senate to be adoption of the amendment to the amendment.

The motion by Senator Talmadge carried and the amendment to the amendment was adopted.

MOTION

Senator Talmadge moved that the following amendment to the amendment be adopted:
On page 2, after line 12 of the Thompson amendment that begins on page 6, line 31, insert the following:

"(3) The defendants shall be jointly and severally liable if the cause of action involves the manufacture or marketing of a product causing injury to the claimant which cannot be attributed to the conduct of a particular defendant. In such cases the conduct of all defendants must be simultaneous in time, or substantially the same risk of harm to the claimant. The fault of each defendant shall be determined on a market-share basis."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President and members of the Senate. This is another very significant amendment. It deals with those situations involving something that the Washington State Supreme Court has developed called 'alternate market-share liability.' The case that developed this theory is something called Martin against Abbott Laboratories, recently decided by the Supreme Court in instances of ingestion of DES.

That's a particular pharmaceutical that women use that causes cancer of the cervix. What the Supreme Court said was because of the generic nature of the drug—you simply can't identify who is at fault for providing the particular drug. It is impossible to allocate fault in this situation, so what the court has said is that if a manufacturer of this kind of pharmaceutical—you can pick this kind of case or thalidomide or anyone of a number of other drug-type of injuries. If you can't identify the nature of the drug, then the party is able to recover from all of those people who have manufactured that type of drug. It is up to the defendants—the defendant pharmaceutical manufacturers—to show that they did not manufacture and deal with the drug in the particular area in which the claimant was injured. Then, if liability is established, the liability is apportioned between the various pharmaceutical manufacturers on the basis of their market share of liability. If you don't adopt an amendment like this dealing with alternate market-share liability, you are consigning all of those people who have been injured by pharmaceutical related claims and problems to an inability to recover, because they simply cannot prove which one of the manufacturers of the drug was the one that caused their problems. It's clear that one of the manufacturers caused the problem, but you can't identify which one it was with specificity.

This amendment carves out an exception for alternative market-share liability as decided by the Supreme Court of this state. If you don't adopt it, you absolutely prevent the recovery in the area of pharmaceutical injury. I urge your careful consideration of this for the same reasons that we adopted the amendments relating to Superfund and tortious interference with business relationships."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President and members of the Senate. I would like to join with Senator Talmadge in adopting this excellent amendment."

The President declared the question before the Senate to be adoption of the amendment to the amendment.

The motion by Senator Talmadge carried and the amendment to the amendment was adopted.

The President declared the question before the Senate to be adoption of the Thompson amendment, as amended.

The motion by Senator Thompson carried and the amendment, as amended, was adopted.

MOTION

Senator Talmadge moved that the following amendment by Senators Talmadge and Vognild be adopted:

On page 7, after line 18, insert the following:

"NEW SECTION. Sec. 502. A breach of a duty imposed by statute, ordinance, or administrative rule shall not be considered negligence per se, but shall be considered by the trier of fact as evidence of negligence."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President and members of the Senate. By way of explanation, there is another bill on the calendar that Senator Vognild is
prime sponsor or Senator Peterson—one of the two, dealing with the issue of highway design liability and actions against the state. In discussing that particular issue, our belief was that this particular proposed amendment was a superior way of dealing with some of the problems that Senators Vognild and Peterson and a special sub-committee on tort that the Transportation Committee had, had developed. The particular proposal that you have before you indicates that a breach of a duty imposed by statute, ordinance or administrative rule shall not be considered negligence per se, but rather evidence of negligence. To avoid getting into the very, very difficult decisions relating to highway design and problems in that particular area, the feeling was that this is an issue that should be subject to an evidentiary standard allowing the parties to bring the issue to the jury and discuss it and that is what this amendment is designed to accomplish. I think it is a better way of approaching the problem of highway design than that that was offered in that other free-standing bill. If this amendment is adopted, that other bill will not be considered."

**MOTION**

Senator Halsan moved that the following amendment to the amendment be adopted:

On page 1, line 12, of the Talmadge and Vognild amendment that begins on page 7, after "negligence" and before the period insert "except any breach of duty relating to electrical tire safety or use of smoke alarms as provided by statute, ordinance or administrative rule, shall be considered negligence per se"

**REMARKS BY SENATOR HALSAN**

Senator Halsan: "Thank you, Mr. President and members of the Senate. The amendment, as you can read, would maintain the doctrine of negligence per se when we are dealing with violations of electrical codes and safety use of smoke alarms—when they are required to be put in. I had an experience—I didn't represent the people involved, but they were very close to my home in Centralia, a while back, where the situation of a rental house, in which the landlord had unfortunately maintained the electrical outlets in many portions of this house by running extension cords and nailing them to the wall. This, obviously, would be in violation of codes, but as to whether or not it could be shown to be a negligent act done by the person who was, in fact, maintaining the premises—I think clearly the purpose behind negligence per se is that you have violations of the law, it should be just a matter of a closed book. It should be a case that is, in fact, negligence. Why should we argue about it? The person is violating the law, so I would urge the passage of this amendment. In fact, if you have people burned to death in buildings due to violations of electrical safety statues, ordinances or administrative rule, that should just be negligence per se. Let's not quibble about it."

**REMARKS BY SENATOR VOGNILD**

Senator Vognild: "Thank you, Mr. President. I believe that the particular amendment that Senator Halsan has brought up here is probably a good one. It does no damage to the intent of the original amendment and, therefore, I would support it."

**POINT OF INQUIRY**

Senator McCaslin: "Senator Halsan, in the case where a tenant or leasee removes the fire alarm, is that covered under other sections of the law to protect the landlord or owner?"

Senator Halsan: "I would think that the act of alteration by the tenant or the leasee in that particular case would, in fact, be obviously demonstrable to show that it wasn't negligence per se of the landlord by their violation. Perhaps, Senator Talmadge could answer it better, but that would be my understanding."

**POINT OF INQUIRY**

Senator McCaslin: "Senator Talmadge, what evidence would be necessary to prove that the tenant removed it and that the landlord had, in fact, installed it at some time?"
Senator Talmadge: "Senator, I don't know what the specific type of evidence would be. I guess it would just have to be the testimony of the various parties and whatever demonstrative evidence that they could produce. I really can't answer, I guess, anymore than that."

Senator McCaslin: "It is extremely nebulous and I just wonder if this addition to the amendment is needed."

POINT OF INQUIRY

Senator Thompson: "Thank you, Mr. President. Senator Halsan, I agree with your arguments. I have a question for you. My impression would be that your amendment does not alter existing law—that a violation—that a disregard of a statute, ordinance or administrative rule with regard to these matters would presently be considered negligence per se."

Senator Halsan: "That's correct, Senator Thompson, but the amendment that I am attempting to amend is the amendment offered by Senator Talmadge and Senator Vognild which would eliminate the doctrine of negligence per se."

Senator Thompson: "I support your amendment."

The President declared the question before the Senate to be adoption of the amendment to the amendment.

The motion by Senator Halsan carried and the amendment to the amendment was adopted.

MOTION

Senator Goltz moved that the following amendment to the amendment be adopted:

On page 1, line 12 of the Talmadge and Vognild amendment to page 7, after "negligence." insert:

"An action by a person affected by intoxicating liquor or drugs shall be barred where such person's actions are a proximate cause of his or her injury. A person whose blood alcohol content is 0.10 or more shall be conclusively deemed to be intoxicated."

REMARKS BY SENATOR GOLTZ

Senator Goltz: "Mr. President and members of the Senate. This is a good local government amendment and it is a good amendment, because it tries to place responsibility upon people who act properly in our society and not to allow people who act improperly to be able to rip off cities and counties because of their improper actions. This says that a person who is intoxicated or under the influence of drugs who is the cause of an accident shall have no cause to bring a case for that injury.

"There is a case now in the city of Bellingham where a person was intoxicated to a level that is higher than is specified here or in other parts of the law, who ran off a road and is now suing the city for sixteen million dollars, because the city failed to put up a guard rail. I regard that kind of thing as something that we ought to take action against. This does not affect a person who is intoxicated standing on a street and run down by someone else. Since they are not the cause of that accident, that person would probably have the right to recover. This has to do with cause at the time of the intoxication. I urge the adoption of the amendment."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President and members of the Senate. What Senator Goltz wants to do, I agree with. My problem is, I can't figure out how to write it. Now, what we are after here is the guy whose conduct and his intoxication is the cause of his accident, but the problem is, you can have many proximate causes of the accident. So, if someone is barely over the intoxication figure and that is one of the reasons for the accident, you have barred him against all other defendants including somebody who might be at a 2.0 that ran into him and killed him.

"Here is this guy, just barely over, but he is, and in some way, he is going five miles an hour over the speed limit and somebody that is really blown out of shape kills them, he can't recover. If, however, you don't adopt this amendment, as to the protection of the city, the first amendment—the amendment offered by Senators Vognild and Talmadge says that the fact that that guard rail isn't there, is only evidence—while it can get to the jury—there is no guard rail—it is not negligence per
se and, therefore, you can't get a directed verdict on it. The jury will no longer be
instructed that the failure to put the guard rail up makes the city liable. It is only
evidence of—and this is what Senator Vognild tries to solve, because sometimes
regulations are past and we don't have a chance to spend the money to fix the sit­
uation. I don't know—I can't make a recommendation and I don't know what to do
because I agree with what Senator Goltz wants to do, but I don't know how to say
it."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Mr. President and members of the Senate. I agree with
Senator Bottiger's remarks. I think you may want to have negligence per se apply
to a circumstance where someone who is guilty of intoxication and that intoxication
results in the injury. Negligence per se operates both as to comparative negligence
or comparative fault and negligence on the part of the defendant. Maybe what we
could do is set this down for an amendment. Mr. President, and work on some lan­
guage so that intoxication would result in a finding of negligence per se—but both
ways. I think I have an idea for some language that I could run by Senator Goltz, if
that is acceptable."

MOTION

On motion of Senator Bottiger, further consideration of the amendment by Sen­
ator Goltz on page 12 to the amendment by Senators Talmadge and Vognild was
deferred.

MOTION

Senator Talmadge moved that the following amendments (on the desk) be
withdrawn:

On page 7, beginning on line 2, after "damages," strike all material down to and includ­
ing "(a) A." on line 4 and insert "Each joint tortfeasor defendant is jointly and severally liable for
the entire amount of the judgment awarded a plaintiff, except that a defendant whose per­
centage of fault is less than that allocated to the plaintiff is liable to the plaintiff only for that
percentage of the recoverable damages. However, a"

On page 7, beginning on line 8, strike all material down to and including line 11
On page 7, after line 11, insert the following:

"(c) The defendants shall be jointly and severally liable if the cause of action involves a
product liability claim under chapter 7.72 RCW."

MOTION

Senator Bottiger moved that the following amendment be adopted:
On page 7, after line 18, insert the following:

"Sec. 502. Section 51.24.020, chapter 23, Laws of 1961 as last amended by section 2, chapter
218, Laws of 1984 and RCW 51.24.020 are each amended to read as follows:

If injury results to a worker from the deliberate intention of his or her employer to produce
such injury or if an employer, with willful disregard of the safety of an employee and in know­
ing disregard of written recommendatons by the product supplier or in knowing disregard of
an administrative agency's written notice of a violation of a safety regulation, intentionally (1)
removes, authorizes the removal of, or fails to install permanent safety features or devices for
the product, or (2) misuses the product, the worker or beneficiary of the worker shall have the
privilege to take under this title and also have cause of action against the employer as if this
title had not been enacted. for any damages in excess of compensation and benefits paid or
payable under this title."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Thank you, Mr. President and members of the Senate. A few
minutes ago, I offered a suggestion that raised industrial insurance premium rates
by approximately one percent as the best I could do under that given set of facts. I
would like to pay it back now.

"In 1979, Senator Newhouse and I offered this amendment because, at least I
was, at that time just fed up with the people in my classification or at that time a
classification of a client of mine who repeatedly and continually violated OSHA
and WISHA rules, had a terrible record and in that employment classification and
was causing all kinds of premium increases to Labor and Industries. I tried to write
an amendment that is as tight as you can write it—intentionally, willfully, know­
ingly takes safety equipment off, ignores written instructions from the Department of
Labor and Industry safety inspectors or from their own insurance company inspectors and yet keep causing cave-ins on excavation sites—safety equipment on machinery. In that limited case, where they have done it—and done it—and they just simply pay their little extra premium to L & I, I am suggesting that they are no longer protected and the employee can sue them directly.

"I think for all the self-insurers, for all the insurance companies that sell liability insurance, the investigators will see to it that those kinds of violations stop. Now, that language is as tight—is intentional—is as obnoxious of conduct that I can think of and that is what we came up with then and I offer it again now. I think that will save industrial insurance premiums."

**REMARKS BY SENATOR THOMPSON**

Senator Thompson: "Thank you, Mr. President and members of the Senate. I like your punch line, Senator Bolliger. You have a good amendment. I hope the Senate will approve it."

The President declared the question before the Senate to be adoption of the amendment by Senator Bolliger.

The motion by Senator Bolliger carried and the amendment was adopted.

**MOTION**

Senator Bailey moved that the following amendments be considered simultaneously and adopted:

- On page 7, line 20, strike "—FELONY"
- On page 7, after line 26, insert the following:

> NEW SECTION. Sec. 602. A new section is added to chapter 4.16 RCW to read as follows:

> Notwithstanding RCW 4.16.190, no action may be brought for damages for injury to a child occurring as a result of health care in the prenatal care or delivery of that child unless commenced within ten years of the delivery."

**REMARKS BY SENATOR BAILEY**

Senator Bailey: "Thank you, Mr. President and ladies and gentlemen of the Senate. These amendments are meant to keep the doctors in the business of delivering babies. In clinics and hospitals all across the state of Washington, doctors are getting out of the business of delivering babies, because they can be held liable for any injury up to twenty-six years. This is an attempt to cut down on that long tail of liability. After all, I have had many, many doctors come to me and say, 'Cliff, I am fifty years old and I can't deliver babies any longer, because I don't want my retirement or my family's retirement impaired.' I think this amendment would cut off a lot of that long tail. I think it would give adequate protection to those babies and I urge the adoption of these amendments."

**POINT OF ORDER**

Senator Talmadge: "A point of order, Mr. President. I believe the amendments by Senator Bailey expand the scope and object of Substitute Senate Bill No. 4630. Specifically speaking to the point of order, Substitute Senate Bill No. 4630 deals with general changes in the tort law in the state of Washington. I would point out to the President that we consciously and deliberately kept separate Senate Bill No. 4631, relating specifically to medical malpractice in the considerations by the committee and in the deliberations, to date, on the floor of the Senate. I would submit that, insofar as this bill relates generally to tort law of a general and applicable nature that an amendment dealing specifically with the issue of medical malpractice expands the scope and the object of the bill insolar as the committee kept separate the issues contained in Senate Bill No. 4631."

**RULING BY THE PRESIDENT**

President Cherberg: "In ruling upon the point of order raised by Senator Talmadge, the President finds that Substitute Senate Bill No. 4630 is an omnibus bill limiting exposure in civil actions for tort claims and reducing the amount of potential court awards with the intention of decreasing future insurance premiums.

"The amendments proposed by Senator Bailey establish a ten-year statute of limitations for civil actions regarding prenatal care or child delivery."
"The President, therefore, finds that the proposed amendments do not expand the scope and object of the bill and the point of order is not well taken."

The amendments by Senator Bailey were ruled in order.

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President and members of the Senate. Speaking in opposition to the amendments and I understand Senator Bailey’s concern, but I think the issue is adequately dealt with in a House Bill that is coming over to us. The approach that I think is preferable, is an approach that relates to the discovery of the harm. An arbitrary, flat tenure limitation period can be terribly damaging in certain circumstances relating to birth—in certain circumstances relating to a child’s injury. There are many kinds of injuries that are late manifesting and in those late manifesting kinds of injuries, it is going to be very difficult for any kind of recovery to be obtained, particularly if the child does not demonstrate the particular symptoms of the problem in time.

"The approach that was taken, I believe, in the House and the approach that was taken in the Senate Judiciary Committee was a discovery-related rule, so that if the parents discovered or were aware of the existence of a problem, that that knowledge of the parent was imputed to the child, so that somebody would have the knowledge or the existence of a problem. I think it is a serious mistake to simply adopt the flat and arbitrary limit. but rather we should do one that is somewhat more flexible, but yet cuts off those long-tailed kinds of claims that I know Senator Bailey is concerned about. These amendments will be damaging. I submit we should try a different approach that we will have an opportunity to vote on in the House Bill."

REMARKS BY SENATOR METCALF

Senator Metcalf: "Mr. President and members of the Senate, rising to support Senator Bailey’s amendments, I had a similar amendment that I didn’t present, because I figured it would be ruled out of scope and object, so I am supporting Senator Bailey’s. I have some material which I have prepared for a later bill and just a couple of headlines relative to how important it is: From the Olympian—‘Rural Health Care Threatened’—‘Insurance Forces Doctors Out’—‘Costs Push Doctors Out of Baby Business.’ They all have a whole bunch of problems relative to this area.

"In my county, we face the prospect on Whidbey Island of not having any doctor deliver babies there. We will still have one or two left, but within a year or two, probably not that. I have some other material which I will put on your desks which shows that there are five counties in the state today that do not have any baby delivery service from doctors and in the near future, and I think the date will be within six months, there will be ten counties in the state where there won’t be babies delivered. I urge you to support and adopt these amendments. This is a step toward one of the most important issues—all of these other issues that we have been talking about are important, but as far as just issues that affect people and affect lives, this is a critical one."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President and members of the Senate. Not only is it important, Senator Metcalf, it is complex. I hope the members attended closely to Senator Talmadge’s remarks. I think it would be a mistake to place this arbitrary statute of limitations in this bill at this time. The doctors of this state, represented by their association, join in the effort to obtain these generic or general modifications of the tort system. This request does not emanate from their organization, although some individual doctors may desire it. I caution the Senate and urge them to continue working with Senator Talmadge and the Judiciary Committee in working this problem separately and more carefully."

POINT OF INQUIRY

Senator Newhouse: "Senator Talmadge, in view of the presence of the House Bill, is that in your committee and do we have your assurance that we will be working on that bill for the rest of this session and try and get it out?"
Senator Talmadge: "Senator, I don't know if that bill has come over from the House, as yet, but we will hear that bill as we hear all House Bills coming over."

POINT OF INQUIRY

Senator Stratton: "Senator Talmadge, for the last several years, you have had in your committee, a wrongful birth bill. Do you see any possibility that we might get a hearing on that and start moving some of that stuff out?"

Senator Talmadge: "What is this—the omnibus blood bath for bills in the Judiciary Committee night? We can probably take that up as we take up the issue of the statute of limitations. You can probably have an opportunity to consider that when the House Bill comes over, Senator Stratton. I don't know what the title of the House Bill is or anything else, but I know the approach that has been taken in the House. I have a feeling that it will probably be considered."

CLOSING REMARKS BY SENATOR BAILEY

Senator Bailey: "Thank you, Mr. President and members of the Senate. I have doctors in my community that tell me that it costs three to four hundred dollars a baby for their liability insurance. Now, remembering back to my children, that was about what we paid, I believe—my wife and I paid, for the total delivery cost of those children. Here we are talking about just one item—liability insurance of three to four hundred dollars. I think it is time that we cut off this long tail and I urge adoption of these amendments."

The President declared the question before the Senate to be adoption of the amendments by Senator Bailey.

The motion by Senator Bailey failed and the amendments were not adopted. Senator Bailey demanded a roll call.

PARLIAMENTARY INQUIRY

Senator Talmadge: "Mr. President, I believe the gavel had fallen. The request is not timely."

REPLY BY THE PRESIDENT

President Cherberg: "Senator Talmadge's remarks are well taken. You may move to reconsider the vote by which it lost if you care to do so. That is only in the case that you voted on the prevailing side, Senator."

There being no objection, the Senate resumed consideration of the amendment by Senator Goltz on line 12 of the amendment by Senators Talmadge and Vognild, deferred earlier today.

MOTION

On motion of Senator Goltz, the amendment to the amendment was withdrawn.

MOTION

Senator Goltz moved that the following amendment to the amendment by Senators Talmadge and Vognild be adopted:

On line 12 of the Talmadge and Vognild amendment that begins on page 7, after "negligence." insert the following:

"A person intoxicated by liquor or drugs whose actions are found to be more than fifty percent the proximate cause of that person's injuries is guilty of negligence per se. A person whose blood alcohol content is 0.10 or more shall be conclusively deemed to be intoxicated."

REMARKS BY SENATOR GOLTZ

Senator Goltz: "I thought we had the perfect amendment, Mr. President, but my two drafters—I should have gotten us all together. I see there is some discussion between them. Perhaps I should simply ask that Senator Talmadge explain his concern and then we can proceed."

PARLIAMENTARY INQUIRY

Senator Deccio: "A parliamentary inquiry. What line does the Goltz amendment substitute? It is not indicated here."
REPLY BY THE PRESIDENT

President Cherberg: "The Secretary will please read."

PARLIAMENTARY INQUIRY

Senator Fleming: "Which amendment are we on? Is it the Goltz, Fleming, McDermott amendment or is it the substitute for the Goltz, Fleming, McDermott amendment?"

REPLY BY THE PRESIDENT

President Cherberg: "This is the substitute for the Goltz, Fleming and McDermott amendment and Fleming and McDermott--"

Senator Fleming: "Mr. President, just for the record, the two amendments—we're dealing with two different subject matters and I wanted to make sure that the amendment is the substitute for the Goltz, Fleming and McDermott amendment and not the Fleming, McDermott and Goltz amendment."

REPLY BY THE PRESIDENT

President Cherberg: "This amendment is the substitute for the Goltz, Fleming and McDermott amendment to the Talmadge and Vognild amendment."

Editor's Note: (See amendment by Senators Goltz, Fleming and McDermott moved later in the day)

REMARKS BY SENATOR GOLTZ

Senator Goltz: "Mr. President, I would like to correct my writing by striking the word 'proximate' in this amendment. I am told that fifty percent and proximate are contradictory, so I would like to strike the word 'proximate' in the version of the amendment, since I cannot amend the amendment to the amendment. I would like it understood that the word 'proximate' does not appear here."

REPLY BY THE PRESIDENT

President Cherberg: "If there is no objection, the word 'proximate' has been eliminated."

REMARKS BY SENATOR GOLTZ

Senator Goltz: "Mr. President and members of the Senate. What we are trying to do here, as I explained earlier—and I don't think I need to take any more time at it—what we are trying to say is that if a person is intoxicated by liquor or drug and whose actions are found to be more than a fifty percent cause of that person's injury, he is guilty of negligence per se. I think this is the kind of thing that says that if you are going to be irresponsible, you shouldn't make somebody pay for your irresponsibility. I think that is all that this attempts to do. Thank you."

POINT OF INQUIRY

Senator Thompson: "Will Senator Goltz yield to a question?"
Senator Goltz: "I will yield with my team of legal experts."
Senator Thompson: "Well, you are not confronting a legal expert, I assure you. I am interested in the English language and I wondered if the two persons referred to in—two references to person in the first sentence are the same person, as they appear to be?"" Senator Goltz: "Yes."
Senator Thompson: "So, if someone injures himself, he is guilty of negligence?"
Senator Goltz: "Yes, that is precisely what it is intended to be."
Senator Thompson: "Thank you."

The President declared the question before the Senate to be adoption of the amendment to the amendment by Senators Talmadge and Vognild. The motion by Senator Goltz carried and the amendment to the amendment was adopted.

The President declared the question before the Senate to be adoption of the amendment by Senator Talmadge and Vognild, as amended.
POINT OF INQUIRY

Senator Vognild: "Senator Talmadge, in the amendment, we referenced the breach of duty imposed by statute, ordinance or administrative rule, do you intend that that would mean design factors in terms of putting out to bid a highway or that type of structure?"

Senator Talmadge: "So long as they are contained in the Washington Administrative Code, Senator, absolutely."

Senator Vognild: "Thank you."

REMARKS BY SENATOR VOGNILD

Senator Vognild: "Mr. President, it is my intent to, obviously, support this amendment and I would like the body to be aware that with the inclusion of this amendment in Substitute Senate Bill No. 4630, it would not be my intent to bring Senate Bill No. 4946 before this body."

The President declared the question before the Senate to be adoption of the amendment by Senators Talmadge and Vognild, as amended.

The motion by Senator Talmadge carried and the amendment, as amended, was adopted.

MOTION

On motion of Senator Talmadge, the following amendment (on the desk) was withdrawn:

On page 10, line 4, strike "one hundred" and insert "two hundred fifty"

MOTION

Senator Talmadge moved that the following amendment be adopted:

On page 10, line 10 after "damages," insert "In entering a judgment for the payment of future damages in periodic installments, the verdict of the jury or determination of the arbitrator as to future damages shall not be reduced to present cash value."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President and members of the Senate. In dealing with the issue of periodic payments, there is a technical concern that needed to be raised. That is, juries are instructed, in the state of Washington, to review any verdict for future damages to the present cash value of the amount of compensation. That is in a Washington civil pattern jury instruction and what this amendment is designed to do, is eliminate reduction of the damages to present cash value, because, in effect, we are doing that when the judgment is paid on a periodic basis. You are paying it out over a period of time and so you don't need to reduce the verdict of the jury to present cash value. The two are inconsistent and if you retain both without this kind of amendment, you, in effect, have allowed a double reduction of the amount to which the injured party is entitled."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President and members of the Senate. Rising to oppose the amendment, the option exists for a party to request periodic payments and may not occur in all cases, so that fact, within this process, causes a substantial problem with the amendment requiring that this judgment be not reduced to present cash value. The periodic payment—the process—in providing for the recovery of economic damages should certainly take into account the wage loss reflected by the consequence of passage of time, but this does not cause more than drafting problems with the process. I urge opposition to it."

POINT OF INQUIRY

Senator Bolliger: "Senator Thompson, I am going to ask you to presume that in the trial there has been proven that the injured party, who is not now employable, had been making fifteen hundred dollars a month and it is also proven that he is going to have nursing home bills of three thousand dollars a month and that inflation would cause both of those figures, normally, to go up. Is it your understanding of how this periodic payment will work is, that he will get periodic payments that will go up and reflect both the nursing home bill and his lost wages?"
Senator Thompson: "It is both my hope and my intent and I would expect an economist would give that kind of advice that would be heeded by the court."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, that is exactly what should happen. There is a little confusion the way this bill has been written by the coalition as to whether or not that is what is intended, but Senator Thompson remarks, I think, satisfy me especially since they are in the record."

REMARKS BY SENATOR HALSAN

Senator Halsan: "Thank you, Mr. President and members of the Senate. If I understand correctly, and I was downstairs when this first came up, this is Senator Talmadge's amendment that would, in fact, require that the amount of damages for future damages be not reduced to present value. If, in fact, you don't do what Senator Talmadge is suggesting, I think, the greed of that is absolutely amazing. What happens in the situation of the state lottery—if a person wins a million dollars, of course, we say we're going to pay him over a period of twenty years, so the Lottery Commission goes out and buys an annuity for $300,000 which over the course of twenty years will pay the person a million dollars. That, in fact, making periodic payments is stretching them out into the future.

"If Senator Talmadge's amendment is not adopted, you would have a situation in which the jury would immediately reduce those future payments that are supposed to total a million dollars to the value of $300,000 and then allow the person who is the negligent party to buy an annuity for $100,000 to pay $300,000 over twenty years. That is double dipping. That is reducing twice the present value and anybody who knows anything about business knows that is not right. I would urge the support of Senator Talmadge's amendment."

REMARKS BY SENATOR NEWHOUSE

Senator Newhouse: "Mr. President and ladies and gentlemen. I think I would like to back up Senator Thompson's statements that the language here—the amendment is really not necessary. It is the normal practice, we understand, that the jury be instructed to come in with the damages reduced to present value. Following that, is when the request for structured damages come in and we don't want another reduction. We're agreed to that, but this language would infer that we expand the number of dollars after the request for structured benefits is made by either party. If the present value situation has been reached already, I think that is adequate with the assurances that Senator Thompson gave."

The President declared the question before the Senate to be adoption of the amendment by Senator Talmadge.

The motion by Senator Talmadge failed and the amendment was not adopted.

MOTION

Senator Bottiger moved that the following amendment be adopted:

On page 10, line 19, after "circumstances." insert: "If requested by a claimant, each proposal submitted to the court shall specifically provide for the claimant to be covered by a group hospital medical coverage contract which is comparable in cost and coverage to that provided to employees of the state of Washington under chapter 41.05 RCW. The contract shall not be canceled by the carrier except for nonpayment of premium."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President and members of the Senate. We are changing tort law and how people are compensated and I'm bringing you a problem. I want to, very candidly, say that it is a 'gimme.' It is something for the party that has been seriously injured. We are only talking about the very big cases now where you get into structured settlements. One of the problems that you will find is if you or someone you know is injured, you currently—prior to your injury—you have a chance to buy group medical insurance. In which case, if you are a state employee, you will be paying; in effect, on major medical, you pay twenty percent and the insurance company pays eighty percent. However, if you are very, very seriously
injured, nobody will sell you group insurance or if they do, they exclude everything out. They will literally not insure you for anything that remotely is reflected in the injury.

"What I'm proposing is that if an insurance company asks for a structured settlement and only if they ask for one, then in that structured settlement, they will secure at the same costs and I looked for something that we knew something about, they will secure a medical payment plan for that insured party similar to that offered state employees at the price that a state employee's policy costs and the injured party will have the option to pay the premium.

"You take a twenty-year old kid that receives an extremely serious injury which means that he will never be employed in the future, never have a chance to buy group insurance, will have illnesses because of an inability to exercise or do something else—which he will have to pay out of this lump sum or structured settlement that we are talking about here. All I'm asking is that if the insurance company asks for a structured settlement, part of the package will be a medical health plan similar to state employees and he will have to pay the premium—the injured party."

POINT OF INQUIRY

Senator Deccio: "Senator Bottiger, what if such insurance is not available at any price?"

Senator Bottiger: "Senator, several of us went to dinner with Mr. Richter of United Pacific and that question was put to him by a member there and he said, 'Any insurance is obtainable—we would just retain it and under your proposal we would expect and require the injured party to pay us $176 a month, because that is what the state employees' package is worth—we would insure him—we would create, in a sense, an insurance policy for him if we wanted a structured settlement that bad.'"

Senator Deccio: You are talking the amount of the premium, rather than the coverage, because I really don't—I know Mr. Richter—I don't know if he is really giving you the standard in the industry. I am just saying that it would be impractical to require something that is not available. If you are only talking about the premium, that is one thing, but if you are talking about duplicating the coverage, you know, we as state employees have the cadillac of the industry and I don't know if it would be available."

Senator Bottiger: "Senator, I threw up a standard that I knew something about. Obviously, an insurance company reserves a risk and they write it and set the money aside in reservation for claims under it and put a price on it just like they do for state employees. Only this time, they would be dealing with an unhealthy person and they would have to write it greater. The injured party would pay the same premium as state employees, because we have decided that is a good group value."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President and members of the Senate. This measure and the amendments that we have been considering bears the imprint of Senator Bottiger's sincerity and conscience, but in this instance, there are practical problems. I guess, apparent to Senator Deccio. Talking about a quantifiable economic consequence, I guess, that would certainly prompt a plaintiff's attorney to point out to a jury if circumstances existed that there are going to be difficulties in obtaining insurance for his plaintiff and we should certainly be considered in making the award. Specifically to identify one area of economic compensation and provide for it in this language provides a real complication to process and despite Senator Bottiger's sincere concern, I hope the Senate opposes this requirement. It is unrealistic."

CLOSING REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President and members of the Senate, to close debate. Remember the insurance companies came to us wanting structured settlements, so they can save money. This isn't something that is in the law now other than by negotiations and we negotiate structured settlements with all kinds of things in
them. Now, all I am asking is that if you are going to pass a law that says that the judge has to give a structured settlement, that you give back a little bit to that guy who will never to able to buy medical insurance at a group rate. He probably won't be able to buy any at all, but you give just a little bit back in return for the large savings to the insurance companies that structured settlements will provide."

The President declared the question before the Senate to be adoption of the amendment by Senator Bottiger.

Senator Bottiger demanded a roll call and the demand was sustained.

MOTION

On motion of Senator Zimmerman, Senator Hayner was excused.

The President declared the question before the Senate to be the roll call on adoption of the amendment by Senator Bottiger

ROLL CALL

The Secretary called the roll and the motion by Senator Bolliger failed and the amendment was not adopted by the following vote: Yeas, 21; nays, 24; excused, 4.

Voting nay: Senators Bailey, Barr, Benitz, Bluechel, Cantu, Conner, Craswell, Deccio, Guess, Johnson, Lee, McCaslin, McDonald, Metcalf, Newhouse, Owen, Patterson, Pullen, Saling, Sellier, Stratton, Thompson, Vognild, Zimmerman - 24.

MOTION

Senator Bottiger moved that the following amendments be considered simultaneously and adopted:

On page 10, line 22, after "claimant," insert "Any proposal for periodic payments of ten years or more approved by the court must guarantee payments for a minimum of ten years."

On page 10, line 32, after "future damages" insert "PROVIDED, That there shall be no apportionment of the balance of the ten-year guarantee provided in subsection (2) of this section"

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President and members of the Senate. I think these are agreed to. The problem that came up and the way the periodic payments came out of committee is that there is no way that an injured party could buy a van or make a down payment on a house or anything with this substitution for his lost wages, because the provision out of committee said that everything stopped on his death. No bank is going to let you buy a van or anything if next month, you have no income, so we negotiated—I was going to start it at a thirty year mortgage and come down—we negotiated and we ended up with a ten year guarantee. Most structured settlements have guarantees and I have never heard of one that didn’t have one."

The President declared the question before the Senate to be adoption of the amendments by Senator Bottiger.

The motion by Senator Bottiger carried and the amendments were adopted.

MOTION

Senator Bottiger moved that the following amendment be adopted:

On page 10, line 23, delete subsection (3) and insert the following:

"(3) Security required for payment under subsection (2) of this section shall be executed by a qualified insurer approved by the office of insurance commissioner.

(a) When the court enters a judgment for periodic payments, each party liable for all or a portion of such judgment shall separately or jointly with one or more others post security in an amount necessary to secure payment for the amount of the judgment for future periodic payments within thirty days after the date judgment is entered. If security is not posted within thirty days, the court shall enter a judgment for the payment of future damages in a lump sum.

(b) If at any time following entry of judgment, a judgment debtor fails for any reason to make a payment in a timely fashion according to the terms of the judgment, the judgment creditor may petition the court which rendered the original judgment for an order requiring payment by the judgment debtor of the outstanding payments in a lump sum. In calculating the amount of the lump sum judgment, the court shall total the remaining periodic payments
due and owing to the judgment creditor converted to present value. The court may also require payment of interest on the outstanding judgment."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, again this is periodic payments. The bill as it came out of committee sounds like a real estate contract. If the insurance—this is the company that is paying this guy the money—if you will read in there—what it says, 'If they are constantly late in their payments'—you know, this guy sitting there in the nursing home expecting his check at the first day of the month and you know it doesn't get there until the fifteenth or the twentieth or whatever. you know, you can be out in the street from the nursing home. So I rewrote this and said I didn't want to make it miss one day in the whole thing, so I said, if they are thirty days late in their payment, then the whole amount comes due. That's kind of an incentive to insurance companies to get their payments out periodically."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President. I just wanted an opportunity to support Senator Bottiger's amendment."

The President declared the question before the Senate to be adoption of the amendment by Senator Bottiger.

The motion by Senator Bottiger carried and the amendment was adopted.

MOTION

Senator Talmadge moved that the following amendment be adopted:
On page 11, after line 8, insert the following:
"Sec. 1001. Section 2. chapter 103, Laws of 1979 as last amended by section 3, chapter 265. Laws of 1985 and RCW 7.06.020 are each amended to read as follows:

(1) All civil actions, except for appeals from municipal or justice courts, which are at issue in the superior court in counties which have authorized arbitration, where the sole relief sought is a money judgment, and where no party asserts a claim in excess of ten thousand dollars, or if approved by the superior court of a county by two-thirds or greater vote of the judges thereof, up to ((twenty-five)) one hundred thousand dollars, exclusive of interest and costs, are subject to mandatory arbitration.

(2) If approved by majority vote of the superior court judges of a county which has authorized arbitration, all civil actions which are at issue in the superior court in which the sole relief sought is the establishment, termination or modification of maintenance or child support payments are subject to mandatory arbitration. The arbitrability of any such action shall not be affected by the amount or number of payments involved."

Renumber the remaining sections consecutively.

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President and members of the Senate. We have in place, at the present time, in Washington State Law, Mandatory Civil Arbitration in certain of the counties. It is on a local option basis. Ten thousand dollars of the majority, if the judges of the particular superior court approved, twenty-five thousand dollars if there is a two-thirds vote or greater of the judges of that particular superior court. From all indications, that we have heard, this process has worked admirably in reducing litigation in the various superior courts across the state. The arbitration is held outside of the courtroom process. If a party objects to the decision or the outcome of the arbitration, they can then go thru the normal court process and have their jury and trial and everything else.

"It has worked very well. It has reduced the caseload in the King County Superior Court very dramatically. What the amendment proposes to do, as some insurance companies have suggested, is to increase the limits for these kinds of mandatory civil arbitration matters from twenty-five thousand dollars to a hundred thousand dollars subject to the approval of the two-thirds of the judges in that particular county. It is an effective system for actually reducing transactional costs with respect to litigation. I would urge your support."

REMARKS BY SENATOR NEWHOUSE

Senator Newhouse: "Mr. President, first, having sponsored the Mandatory Arbitration in 1979, I believe, from the House—at that point it was at a much lower level than even the twenty-five. I have some qualms about doing it in this bill. I would
suggest that we should not put it in this bill: that it is a matter that should be handled on its own."

POINT OF ORDER
Senator McDonald: "Mr. President, I wonder if this amendment is within the scope and object of this bill."

REPLY BY THE PRESIDENT
President Cherberg: "Are you raising the point, Senator?"
Senator McDonald: "Yes, I am."

REPLY BY THE PRESIDENT
President Cherberg: "Do you wish to speak on it, Senator?"
Senator McDonald: "No."

REMARKS BY SENATOR TALMADGE
Senator Talmadge: "Thank you, Mr. President. I would remind the President that this is an act relating to civil actions. The mandatory civil arbitrations, Senator McDonald, would be clearly within the purview of the title and the object of the bill is designed to reduce, at least allegedly, the cost of insurance in the state of Washington and the various transactional costs associated with the processing of civil claims. This is a mechanism that is proven to be exceeding effective and that now, given the President’s ruling on the statute of limitations and medical malpractice and everything, I believe is clearly within scope and object."

MOTION
On motion of Senator Vognild, further consideration of the amendment by Senator Talmadge on page 11, line 8, was deferred.

Vice President Pro Tempore Rasmussen assumed the chair.

MOTION
Senator Rinehart moved that the following amendment be adopted:
On page 11, after line 8, insert the following:
"Sec. 1001. Section 19.03, chapter 79, Laws of 1947 and RCW 48.19.030 are each amended to read as follows:
Rates shall be used, subject to the other provisions of this chapter, only if made in accordance with the following provisions:
(1) In the case of insurances under standard fire policies and that part of marine and transportation insurances not exempted under RCW 48.19.010, manual, minimum, class or classification rates, rating schedules or rating plans, shall be made and adopted: except as to specific rates on inland marine risks individually rated, which risks are not reasonably susceptible to manual or schedule rating, and which risks by general custom of the business are not written according to manual rates or rating plans.
(2) In the case of casualty and surety insurances:
(a) The systems of expense provisions included in the rates for use by any insurer or group of insurers may differ from those of other insurers or groups of insurers to reflect the requirements of the operating methods of any such insurer or group with respect to any kind of insurance, or with respect to any subdivision or combination thereof for which subdivision or combination separate expense provisions are applicable.
(b) Risks may be grouped by classifications for the establishment of rates and minimum premiums. Classification rates may be modified to produce rates for individual risks in accordance with rating plans which establish standards for measuring variations in hazards or expense provisions, or both. Such standards may measure any differences among risks that can be demonstrated to have a probable effect upon losses or expenses.
(3) Due consideration in making rates for all insurances shall be given to:
(a) Past and prospective loss experience within and outside this state; and in the case of rates for fire insurance, to the loss experience of insurers as to insurance against fire during a period of not less than the most recent five-year period for which such experience is available.
(b) Conflagration and catastrophe hazards, where present.
(c) A reasonable margin for underwriting profit and contingencies.
(d) Dividends, savings and unabsorbed premium deposits allowed or returned by insurers to their policyholders, members, or subscribers.
(e) All other relevant factors within and outside this state.
(4) In addition to other factors required by this section, rates filed by an insurer on its own behalf may also be related to the insurer’s plan of operation and plan of risk classification."
(5) Except to the extent necessary to comply with RCW 48.19.020 uniformity among insurers in any matter within the scope of this section is neither required nor prohibited.
(6) Under no circumstances shall any filing pursuant to the requirements of this chapter be made which would constitute more than a twenty-five percent increase over the rate in use one year before the date of filing."
Renumber the remaining sections consecutively.

REMARKS BY SENATOR RINEHART

Senator Rinehart: "Thank you, Mr. President, the adoption of this amendment will serve to bring the bill into conformity with the intent section. We have heard a lot tonight about a lot of fascinating words. we've heard about tortfeasors and tortious interference and malfeasance and misfeasance and res judicata. This amendment, pure and simply, has to do with people. There are people in Washington State who are having real problems with liability insurance rates. Those people are doctors, lawyers, members of school districts, they are architects, day-care providers, restaurant owners, almost every professional--every walk of life has a problem with insurance rates. What this amendment does, in conformity with caps adopted earlier in the bill, puts a cap on liability insurance rates. It simply provides that there will be no increases in excess of twenty-five percent per year. I think this comes closer to any other portion of the bill of solving the real problems that exist in the state and I would urge the body to join with me in adopting this amendment."

POINT OF ORDER

Senator Deccio: "Thank you. Mr. President, I would like to challenge the scope and object of Senator Rinehart's amendment and would like to speak to the argument."

REPLY BY THE VICE PRESIDENT PRO TEMPORE

Vice President Pro Tempore Rasmussen: "Do you wish to challenge it now or do you wish to wait? I understand there is an amendment to the amendment."
Senator Deccio: "I would like to do it now, Mr. President."
Vice President Pro Tempore Rasmussen: "You want to do it now?"
Senator Deccio: "Yes."

RULING BY THE VICE PRESIDENT PRO TEMPORE

Vice President Pro Tempore Rasmussen: "In ruling upon the point of order raised by Senator Deccio, the President finds that Substitute Senate Bill No. 4630 is an omnibus bill limiting exposure in civil actions for tort claims and reducing the amount of potential court awards with the intention of decreasing future insurance premiums.
"The amendment proposed by Senator Rinehart limits insurance premium increases to twenty-five percent above the rate in use one year earlier.
"The President, therefore, finds that the proposed amendment does not expand the scope and object of the bill and that the point of order is not well taken."
The amendment by Senator Rinehart was ruled in order.

REMARKS BY SENATOR DECCIO

Senator Deccio: "Well, Mr. President, I was going to give you some arguments, but I guess you are the President. You can't fight city hall."

REPLY BY VICE PRESIDENT PRO TEMPORE

Vice President Pro Tempore Rasmussen: "I would remind you, Senator Deccio, that it is limiting exposure in civil actions for tort claims and reducing the amount of potential court awards with the intention of decreasing future insurance premiums. That is the whole intent. Sorry about that, but that is the President's ruling."

Senator Deccio: "Mr. President, I am sorry too. The point that I was going to make was the title of the act is related to civil actions, but there are many throughout Senator Rinehart's amendment --there are first party coverages involved and I don't know--I am sure you are aware of what that means. You can't bring an action against yourself and I think there is a tremendous conflict in
various sections of Senator Rinehart's amendment and that is why I was objecting—challenging scope and object.

Vice President Pro Tempore Rasmussen: "Thank you. I am sure that the Supreme Court will decide on it."

MOTION

Senator Goltz moved that the following amendment by Senators Goltz, Fleming and McDermott to the amendment be adopted:

On page 3, line 19, of the amendment by Senator Rinehart that begins on page 11, after "prohibited," insert:

"(6) Current insurance premiums are based on current Washington State tort law and rating factors. It is the finding of the legislature that this legislation will reduce insurance costs by fifteen percent. The insurance commissioner is directed to order a reduction of all applicable insurance premiums by that amount effective with the effective date of this act.

No insurance company may cancel a policy as the result of this action by the insurance commissioner."

REMARKS BY SENATOR GOLTZ

Senator Goltz: "Mr. President and ladies and gentlemen of the Senate. This is really getting to the nub of this bill. What we are trying to do in this bill, is to reduce the cost of insurance and keep it available and this amendment simply makes a finding by the Legislature that we are doing that. I think that when we go back home and try and explain whether we have done something that is good for the people with this bill, we are going to have a hard time explaining it unless we have some simple language like this. This says that we are going to save fifteen percent as a result of this—that's the figure I've heard as a potential from insurance companies and the Insurance Commissioner is empowered to make those premium reductions on our behalf and the insurance companies will not be able to cancel policies. I think that is a good way of explaining the good things that we have in this bill."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President and members of the Senate. By the way, I'm very pleased that you are up there, Mr. President."

REPLY BY THE VICE PRESIDENT PRO TEMPORE

Vice President Pro Tempore Rasmussen: "Thank you, Senator Thompson."

FURTHER REMARKS BY SENATOR THOMPSON

Senator Thompson: "Senator Goltz is noted for his rye humor and I think we have a classic example from it here before us. It certainly addresses the purposes of this act, but a bit too drastically, Senator Goltz, and goes beyond, I would suggest, the nub of the problem. However, I don't think that Senator Rinehart's amendment does and I tend to support Senator Rinehart's amendment, because it does reasonably conform, as she pointed out, with the preamble and purpose and intent of this legislation. Yours, Senator Goltz, goes a bit too far."

REMARKS BY SENATOR FLEMING

Senator Fleming: "Mr. President and members of the body. I support the Goltz amendment. I think we are out here on this floor and by reading this preamble, I don't see that Senator Goltz's amendment falls any less out of line with the preamble of this measure than Senator Rinehart's. What you are saying is, Senator Thompson, you will be willing to allow the insurance rates which will be hoped to be minimized—you would be willing to allow them to at least raise twenty-five percent, which I appreciate, because some places it has been over three-hundred percent. You are not willing, on the other hand, to say, 'If in fact, we are supposed to do all these kinds of things, then we ought to reduce those rates as to what the insurance industry has said might happen.' I think that what's good for the goose is good for the gander."

Senator Talmadge demanded a roll call and the demand was sustained.
POINT OF INQUIRY

Senator Vognild: "Senator Talmadge, as I look at this, I suspect that we may be constitutionally able to tell an insurance company that they cannot cancel a policy for a particular reason, but in your opinion, would it be constitutional for this Legislature to order a fifteen percent reduction in the costs of the goods or services?"

Senator Talmadge: "Senator, I would remind you that the state of New York, when it considered medical malpractice in that state, ordered a moratorium on any rate increases that might be ordered with respect to insurance policies in that state. Because of the McCarran Act at the federal level, the regulation of the insurance industry is left exclusively and completely to the responsibility of the various states in the United States. It is my judgment that the Constitutional section giving authority to the Insurance Commissioner is more than adequate to permit the Insurance Commissioner to take whatever steps he or she may deem necessary to deal with the issue of insurance rates in our state."

Senator Vognild: "And that would include the ability to cause a private enterprise to reduce their prices?"

Senator Talmadge: "Senator, the Insurance Commissioner might have done that when we got into the wildcat speculation and price competition that took place in the insurance marketplace only a short time ago as the Joint Select Committee on Insurance Affordability and Availability indicated. I believe the Insurance Commissioner has the authority to do it."

Senator Vognild: "Thank you, Senator."

REMARKS BY SENATOR WARNKE

Senator Warnke: "Thank you, Mr. President and members of the Senate. I am going to support this amendment and if it fails, I am going to make an oral amendment to Senator Rinehart's amendment, changing twenty-five to fifteen percent, which would be an increase and adding the last of—'No insurance company may cancel a policy as the result of this action by the Insurance Commissioner,' wherever those words will fit. As I was trying to make up my mind about this bill from the beginning of the session, I have consistently requested information on how this particular bill was going to reduce premium costs or make insurance more available to the people in my district. I have communicated weekly with the business community in my district and those are the questions they continually ask me—'When are you going to get a tort liability package out that will make my insurance more affordable and available'—and in particular for those small companies, which I have in my district, that have closed their doors because the liability rates increased so much that they went out of business and laid their people off. I am going to support this amendment and then I am going to make some oral amendments to Senator Rinehart's amendment."

REMARKS BY SENATOR ZIMMERMAN

Senator Zimmerman: "Thank you, Mr. President and members of the Senate. I hope you have all read this amendment and I hope you have really thought about what we are doing—to say that we are deciding today that we are able to determine that there could be a fifteen percent reduction, you know, that is really an awesome assumption that we have that ability to determine that on this floor today. Certainly, we don't have the information to prove or to even find it—to say that we are finding it, that is true. This is a great idea. We would hope that this would happen, but my friends we are not born here with magic wands. This is the magic wand amendment today. This we wave and it automatically shall happen. I think this is really a presumptuous idea and while I think the idea is meritorious in its aim, certainly we cannot attempt to do this in terms of this.

"This project today that we are on, where these amendments are coming out here on the floor out of anybody's mind at any time, really has become a bit beyond the aim of what we hoped would be a reasonably smooth day of trying to work on a very comprehensive, very difficult subject. I would hope that we would turn down this amendment and go back to the original Rinehart amendment which is pretty strong in itself."

"This project today that we are on, where these amendments are coming out here on the floor out of anybody's mind at any time, really has become a bit beyond the aim of what we hoped would be a reasonably smooth day of trying to work on a very comprehensive, very difficult subject. I would hope that we would turn down this amendment and go back to the original Rinehart amendment which is pretty strong in itself."
CLOSING REMARKS BY SENATOR GOLTZ

Senator Goltz: "Mr. President, to close debate, I simply want to point out to this body that the way in which the rates are set now is based upon Washington State Tort Law and ratings by the insurance companies of the risk. If those rates were set under the existing tort law and if the tort law is changed to make a savings, I submit there is a tremendous windfall for the insurance companies on the day that these laws become effective. Who benefits from that windfall? Where do the millions of dollars go from the windfall, they don't go to the premium payers, they don't go to the general good of the state of Washington. How are we going to make a determination if we don't stand up and say, 'It is a factor.' I'm not saying that fifteen percent is provable at this point, but I would be willing to bet that when we get this over to the House that the insurance companies will come by and start to argue about what is the proper percentage to return to the premium payers. If we don't do something to return premiums back to the premium payers upon the enactment of this law, we have, I think, failed to recognize what this is. It is a windfall to the insurance companies. otherwise."

POINT OF INQUIRY

Senator Patterson: "Having not been a member of the negotiation team, I would like to ask some member of the team as to whether or not this issue was raised when you were negotiating this piece of legislation? If it was, what were the concerns expressed and the reasons why it was not included in the original agreed upon draft?"

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "The response is that there was no agreement made with respect to the whole contents of this bill, Senator Patterson. There were some agreements made on some individual issues, but certainly no agreement was ever struck."

Senator Patterson: "Well, the first part of my question was whether or not this issue was even discussed."

Senator Talmadge: "Not this specific amendment, but Senator Rinehart's amendment was on the desk and we had the preamble."

Senator Patterson: "I'm talking about in your--the group of people that got together that tried to draft this piece of legislation that we are amending. Was this ever brought up during those discussions?"

Senator Talmadge: "The answer is 'no.'"

The Vice President Pro Tempore declared the question before the Senate to be the roll call on adoption of the amendment by Senators Goltz, Fleming and McDermott on page 3, line 19, to the amendment by Senator Rinehart.

ROLL CALL

The Secretary called the roll and the motion by Senator Goltz failed and the amendment to the amendment was not adopted by the following vote: Yeas, 22: nays, 23: excused, 4.

Voting nay: Senators Bailey, Barr, Benitz, Bluechel, Cantu, Craswell, Deccio, DeJamatt, Guess, Johnson, Lee, Mccaslin, McDonald, Mclellan, Newhouse, Owen, Patterson, Pullen, Satling, Sellar, Thompson, Vognild, Zimmerman - 23.

MOTION

Senator Warnke moved that the following amendment to the amendment be adopted:

On page 3, line 24 of the amendment by Senator Rinehart, strike "twenty-five" and insert "fifteen" and on line 26, after "filing," insert "No insurance company may cancel a policy as the result of this action by the insurance commissioner."
REMARKS BY SENATOR WARNKE

Senator Warnke: "Thank you, Mr. President and members of the Senate. We have obviously come to the core and the heart of this issue by the roll call vote on the last amendment. The difference on this amendment is not that there is a reduction in the premium costs, but rather for that first year, there will be not more than a fifteen percent increase in premium costs of tort liability insurance. If that is truly what we have been striving for, for the last month and knowing that it has been coming for the last six months, then now is the time that we can send the message to our constituents at home and to the parties involved in the tort liability insurance negotiations, that we are sincere in our efforts to give availability and affordability to the insurance industry. Let me quote to you from the preamble of this bill that was already adopted: 'The purpose of this chapter is to enact further reforms in order to create a more equitable distribution of the cost and risk of injury and increase the availability and affordability of insurance.' This will do both."

POINT OF INQUIRY

Senator Patterson: "Senator Warnke, I understand what you are saying, but if you really don't want any increases, why don't we just say that there shall be no increases until the effective date of this act--no increases at all, rather that a fifteen percent increase?"

Senator Warnke: "I think that as someone beside me just said, the reason for that is that we are not unreasonable and we do understand that the cost of doing business rises. The problem is that none of us here on this floor making the decisions has the information nor has it been provided to us, of what the cost of doing business is. It is my concern that we put a cap on the rise--not the present--but the rise of insurance, at least, until that information is available to us and we can send the message home."

FURTHER REMARKS BY SENATOR PATTERSON

Senator Patterson: "May I continue? Thank you very much, Senator. The reason I raise the question is that we are just grasping at a percentage and we have no basis--no basis at all--to establish any percentage. Frankly, if you were going to do this and make it effective, we shouldn't allow any increase until such time as they have had an opportunity to take a look at the impact of this law—if it becomes law—takes effect and at that point, you might consider—you know you are going to have to consider whether or not the cost of doing business and providing insurance as this act impacts that, would be the logical time to take such a step. I just question whether or not, by saying fifteen percent, that is based on any facts or what the twenty-five percent—the rise or maybe fifty percent. That is all I am trying to say."

Senator Bender demanded a roll call and the demand was sustained.

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President and members of the Senate. There are a number of reasons why we should act responsibly in this area. I think the original amendment offered by Senator Rinehart puts an expectation—establishes an expectation of control in this act that may be realistic. I intend, as I've already said, to support the main amendment. The Warnke amendment to the amendment causes problems in a number of ways. There are thousands or not—well yes, perhaps there are thousands, at least hundreds of cases that the outcome of which can't be anticipated by us. It must be anticipated by underwriters.

"The Supreme Court continues to expand liability, which affects this situation beyond our control. These limits would affect captive insurance companies that exist now and that will surely be formed that may need to accelerate their premiums in order to establish the necessary reserves. We have to consider those aspects in this situation. Further than that, what we had left here before us, is weaker than the original coalition proposal. I think it is correct to assume that there are going to be benefits and what we are doing now tonight is good news for the insurance purchaser, but it will be long-developing situation and we have to anticipate that. I urge rejection of the amendment to the amendment."
CLOSING REMARKS BY SENATOR WARNKE

Senator Warnke: "To close debate, Mr. President, I think this is a responsible amendment and in answer to how fast does it rise—you know twenty-five percent increase is on the next amendment—and what I read in reports of some of the best years the insurance companies had and the outside interests—rates are established supposedly nationally, not on just what happens here. I can't imagine that on a national scale of insurance pools that the costs of doing business will rise fifteen percent."

REMARKS BY SENATOR NEWHOUSE

Senator Newhouse: "Mr. President, it becomes obvious that the foes of the bill are trying to love it to death and I want to point out that the amendment is defective in that it says, 'no cancellation because of such action by the Insurance Commissioner,' doesn't fit in the language of the bill, but more than that, just as a practical matter, you aren't going to help the insurance situation if you drive the insurance companies out of the state."

PERSONAL PRIVILEGE

Senator Warnke: "Mr. President, I think it was referred to the amendment as by the foes of this bill. I have not committed myself to this bill from the very beginning, because I wanted to try and understand the issue and I've told both the attorney lobbyists, the medical lobbyists and the insurance company lobbyists that I was not committed on this bill—that I wanted to try and vote for a tort reform package to go out of this Legislature. I am not a foe of this bill and I don't appreciate being referred to as such, but I think it is a lot better bill if this amendment passes."

President Pro Tempore Goltz assumed the chair.

The President Pro Tempore declared the question before the Senate to be the roll call on adoption of the amendment by Senator Warnke to the amendment by Senator Rinehart.

ROLL CALL

The Secretary called the roll and the motion by Senator Warnke carried and the amendment to the amendment was adopted by the following vote: Yeas, 23; nays, 22; excused, 4.

Voting nay: Senators Bailey, Barr, Benitz, Bluechel, Cantu, Croswell, Deccio, DeJarnatt, Guess, Johnson, Lee, Mccaslin, McDonald, Metcall, Newhouse, Owen, Patterson, Pullen, Saling, Sellar, Thompson, Zimmerman — 22.

President Cherberg assumed the chair.

The President declared the question before the Senate to be adoption of the amendment by Senator Rinehart, as amended.

The motion by Senator Rinehart carried and the amendment, as amended, was adopted.

There being no objection, the Senate resumed consideration of the amendment by Senator Talmadge on page 11, line 8, deferred earlier today.

RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the point of order raised by Senator McDonald, the President finds that Substitute Senate Bill No. 4630 is an omnibus bill limiting exposure in civil actions for tort claims and reducing the amount of potential court awards with the intention of decreasing future insurance premiums.

"The amendment proposed by Senator Talmadge increases the monetary amount subject to mandatory arbitration for civil actions in counties which have authorized arbitration.

"The President, therefore, finds that the proposed amendment does not expand the scope and object of the bill and that the point of order is not well taken."

The amendment by Senator Talmadge was ruled in order.
The President declared the question before the Senate to be adoption of the amendment by Senator Talmadge.

The motion by Senator Talmadge carried and the amendment was adopted.

MOTION

Senator Talmadge moved that the following amendment be adopted:

On page 11, line 14, alter "701 of this act," strike everything through "section." on line 16 and insert "this act applies to all actions filed on or after August 1, 1986."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President and members of the Senate. In looking over the effective date section of the bill, in discussing that issue, the bill applied originally at least to actions that had not yet gone to judgment, as of the time of the effective date of the act. In discussing the issue, it was thought to be better to have the act apply to all actions filed or commenced in court after August 1, 1986, to give everybody a date certain as to the effective date. I would urge your support."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President, I am just rising to concur with Senator Talmadge. This is certainly an improvement. I urge your support."

The President declared the question before the Senate to be adoption of the amendment by Senator Talmadge.

The motion by Senator Talmadge carried and the amendment was adopted.

MOTION

Senator Talmadge moved that the following amendment be adopted:

On page 11, after line 16, insert the following:

"NEW SECTION. Sec. 1003. This act shall expire on July 1, 1991, on which date the sections amended or repealed by this act shall be restored to their status prior to the enactment of this act."

Renumber the sections consecutively.

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President, all that the amendment before us does is provide a sunset date of July 1, 1991, five years out from the effective date of the law, to see if the act has had the consequences—the effect that we’d hoped that the bill would have in terms of the effect on insurance matters. I urge your support."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President and members of the Senate. As I have already told Senator Talmadge, I support his sunrise, but not his sunset. The effect of this sunset will be to confuse and essentially diffuse the good effects that will be established by certainties that will be provided under this act. To call for this short of test of the beneficial effects of it would have the effect of injuring those beneficial effects substantially. It has a profound economic impact and I urge that the Senate not adopt the amendment."

The President declared the question before the Senate to be adoption of the amendment by Senator Talmadge.

The motion by Senator Talmadge failed and the amendment was not adopted.

MOTION

Senator Garrett moved that the following amendments be considered simultaneously and adopted:

On page 4, beginning on line 30, strike all material through "1987." on line 31.

Renumber the remaining sections consecutively and correct internal references accordingly.

On page 11, after line 20, insert a new section to read as follows:

"NEW SECTION. Sec. 1003. This act shall be submitted to the people for their adoption and ratification, or rejection, at the next succeeding general election to be held in this state, in accordance with Article II, section 1 of the state Constitution, as amended, and the laws to facilitate the operation thereof."
REMARKS BY SENATOR GARRETT

Senator Garrett: "Mr. President and members of the Senate, I think that this is a very important issue that we have been debating here this evening and tonight. As Senator Talmadge indicated, we are changing some of the tort reform that has been in effect from some eight or nine hundred years, so I believe that this is a very important matter that should go out to let the people of the state vote on it.

"Now, I can show you how this would work. The people that are so concerned about the economy of this state and the city officials, the county officials, the doctors, and all the people—the whole coalition that is supporting this issue, they will be able to talk to the people and explain to them what they are doing for them and I'm sure that if the people understand it and if they desire it—to have it on the statutes—on the law books of the state of Washington, then they will vote favorably. If they don't want it, if they want to continue the way that we are now, then they will, of course, vote it down. I urge you to support the amendment of the referendum on this bill."

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President and members of the Senate. Speaking against the proposal to refer this or adopt this amendment to refer it to the people, I would like to suggest that Senator Garrett has a very costly amendment here. A cost that can be attributed directly to the cost of insurance. It is going to require all those people that want their insurance premiums reduced to spend, spend and spend in a political campaign to try to get this bill approved. That cost has to be attributed to their insurance expense. We just adopted August 1st as the effective date, further out than normal, providing a greater than normal amount of time for citizens of this state—if they wish this to be on the ballot to take the initiative to do so. I urge rejection of the amendment."

Senator Rasmussen demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on adoption of the amendment by Senator Garrett.

ROLL CALL

The Secretary called the roll and the motion by Senator Garrett failed and the amendment was not adopted by the following vote: Yeas, 16; nays, 29; excused, 4.

Voting yea: Senators Bender, Bottiger, Fleming, Garrett, Gaspard, Goitz, Granlund, Halsen, Kreidler, McDermott, Moore, Rasmussen, Rinehart, Talmadge, Williams, Wojahn - 16.

Voting nay: Senators Bailey, Barr, Bauer, Benitz, Bluechel, Cantu, Conner, Craswell, Decicio, DeJamatt, Guess, Hansen, Johnson, Lee, McCaslin, McDonald, Metcalf, Newhouse, Owen, Patterson, Peterson, Pullen, Saling, Sellars, Stratton, Thompson, Vognild, Warnke, Zimmerman - 29.

MOTION

Senator Metcalf moved that the following amendment by Senators Metcalf, Bailey and Stratton be adopted:

On page 7, after line 20, insert the following:

"Sec. 4. Section 1, chapter 80, Laws of 1971 as amended by section 1, chapter 56, Laws of 1975-76 2nd ex. sess. and RCW 4.16.350 are each amended to read as follows:

Any civil action for damages for injury occurring as a result of health care which is provided after June 25, 1976 against:

(1) A person licensed by this state to provide health care or related services, including, but not limited to, a physician, osteopathic physician, dentist, nurse, ophthalmist, podiatrist, chiropractor, physical therapist, psychologist, pharmacist, optician, physician's assistant, osteopathic physician's assistant, nurse practitioner, or physician's trained mobile intensive care paramedic, including, in the event such person is deceased, his estate or personal representative:

(2) An employee or agent of a person described in subsection (1) of this section, acting in the course and scope of his employment, including, in the event such employee or agent is deceased, his estate or personal representative; or

(3) An entity, whether or not incorporated, facility, or institution employing one or more persons described in subsection (1) of this section, including, but not limited to, a hospital, clinic, health maintenance organization, or nursing home; or an officer, director, employee, or agent thereof acting in the course and scope of his employment. Including, in the event such officer, director, employee, or agent is deceased, his estate or personal representative; based upon alleged professional negligence shall be commenced within ((three)) six years of the act or omission alleged to have caused the injury or condition((, or one year of the time the..."
patient or his representative discovered or reasonably should have discovered that the injury or condition was caused by said act or omission, whichever period expires later, except that in no event shall an action be commenced more than eight years after said act or omission). The time for commencement of a legal action may be tolled only upon proof of (a) fraud, (b) intentional concealment, or (c) the presence in the injured person of a foreign body that was not intended to have any therapeutic diagnostic purpose or effect. Any action not commenced in accordance with this section shall be barred ("PROVIDED. That the limitations in this section shall not apply to persons under a legal disability as defined in RCW 4.16.190").

The provisions of this section apply notwithstanding RCW 4.16.190.

Renumber the remaining section consecutively.

MOTION

Senator Metcalf moved that the following amendment to the amendment be adopted:

On page 1, line 18, after ((three)), strike six and insert eight.

REMARKS BY SENATOR METCALF

Senator Metcalf: "Speaking to that amendment, I talked to several people who thought that six years was bringing it in a little too close. What this is, is the time of discovery and we are limiting the time of discovery and they fell that six years was a little too short and so eight years is what the present law reads and we would leave it eight years as far as discovery goes. Mr. President. any question on the oral amendment?"

The President declared the question before the Senate to be adoption of the amendment to the amendment by Senators Metcalf, Bailey and Stratton.

The motion by Senator Metcalf carried and the amendment to the amendment was adopted.

REMARKS BY SENATOR METCALF

Senator Metcalf: "What this bill does--what this amendment does at this time is to eliminate one of the gravest problems that we have in medical malpractice. In the birth of a child, it is twenty-six years before the doctor is free of any possible liability. In other words, it goes for eighteen years until the child—in the case of a birth—goes for eighteen years until the child reaches the age of majority and then another eight years. What we are doing in this amendment is saying that the time of discovery is eight years—period—beginning at birth. It also covers more. This covers all medical malpractices; it covers others in addition to birth. There is a time when there is no limit on malpractice and that is lines 30 thru 37. That is, in the case of fraud, intentional concealment, or the presence in the injured person of a foreign body—if a doctor left a clamp inside, then there is no statute of limitations on that. That is the purpose of this amendment. It is one of the most critical issues that we have and I've handed out some material. You've seen this—'Rural Health Care Threatened,' especially in the rural areas.

'I've handed out a list of the various counties and if you look at that list, if you look at the second column there as it goes down by counties, it lists a number of physicians practicing obstetrics in the county and then the third column lists the number who are quitting obstetrics and that is frightening. We are finding that under—if we do nothing, we will have—we have now five, we would have ten counties with no obstetrics at all and a great number more as you’ve seen which the number practicing would be gravely decreased. I urge you to support this amendment."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President and members of the Senate. I certainly appreciate Senator Metcalf bringing this amendment out for our consideration. I should let members of the Senate understand, I guess, a little bit about statutes of limitations and the equal protection clause in the state and federal constitutions. You should know first of all that in most tort cases, the statute of limitations is three years—it's a three year statute of limitation. Ordinarily, that is a discovery statute of limitations, particularly in the area of professional negligence. If you are suing a surveyor, lawyer, an accountant—anyone of those other people, you have a three year statute of limitations and it is three years from the date of discovery of the wrong.
Unfortunately, what Senator Metcalf is putting out here is not a discovery rule, at all, because you repeal that portion of the special statute of limitations relating to medical malpractice. It provides for a discovery rule. It is just a simple flat eight year statute of limitations, especially for the medical profession. Now, we can classify people under the equal protection clause as long as there is a rational basis for doing so. Now, my suspicion is that you have set up a special category of statute of limitations for one particular category for professionals—that is medical doctors that may have some serious problems with respect to surviving a challenge on the basis of the state and federal equal protection clause.

Now, we have indicated that we will be considering the issue of the statute of limitations and the medical malpractice context in the Judiciary Committee where we hear it, where we can discuss it, where we can consider it, but if you really want to run a bill, or I should say an amendment out here that, I think, is really subject to serious constitutional challenge. Senator. I am more than happy to labor this bill even a little bit more by adding such an amendment to it, because I think you have clearly made it much more likely that the Supreme Court will find this special statute of limitations special for medical doctors with no discovery rule, unlike every other professional in the state of Washington, just that much more defective from a constitutional standpoint. I may be happy to support you in this amendment. Jack.

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President and members of the Senate. As well motivated as the sponsors of this amendment are, I am convinced that it does grievous harm to this bill and the purposes that we have all labored here for this evening. Please do not vote for it. Please give the Senate Judiciary Committee an opportunity to work the medical malpractice problem. Don't attempt to do it on the floor in this bill and this manner."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President and members of the Senate. Senator Metcalf, the problem is, you forgot to put the lawyers in here. You see, we deal with minors, too. If you commit a malpractice action against a minor and we are not in this bill, so that he has until he is age six to do something about it, he can't sue us. Since we are also professionals dealing with minors. Senator Talmadge is trying to tell you that you can't do it this way, because now you have said a doctor is special when he is dealing with a minor over and above everybody else."

Senator Talmadge demanded a roll call and the demand was sustained.

PARLIAMENTARY INQUIRY

Senator McCaslin: "Are we on the oral amendment or are we on the amendment?"

REPLY BY THE PRESIDENT

President Cherberg: "We are on the amendment, as amended orally."

Senator McCaslin: "Thank you."

REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "Thank you, Mr. President and members of the Senate. The problem that Senator Metcalf is trying to address--I don't really think is the right way to address it, but it is a serious problem. You can't say, 'Well, the people are going to have babies and go to midwives.' Without a backup doctor, a mid-wife is not allowed to operate in Washington. That is the state law. Women that are going to have babies will have no place to go. I think the solution is that we will probably have to come eventually to a state law and state insurance to give them the coverage that they can afford and continue to practice."

CLOSING REMARKS BY SENATOR METCALF

Senator Metcalf: "I'm not an attorney and I obviously did not write this and I think the attorneys may be muddying the water. We went down to bill drafting and we talked to them at great length. This is nothing that was done overnight. This was
the result of hours and hours of work. This is about the third draft from bill drafting to try and do exactly what I've told you and that is what they said it does.

"Now, if there is a constitutional problem—I don't think we deal with constitutional problems here. I am just telling you that we did everything right. We went down there; we talked to them. They wrote this amendment after hours of deliberation. It does three things as I say: It sets up eight years as a discovery period. It does eliminate the time for medical—for birth; it eliminates the eighteen years before you start counting. It starts immediately at birth and it does have—there is no limitation on fraud or attempt of concealment or the presence of a foreign body in the injured person.

"In other words, if they are not competent down in bill drafting, perhaps that is their fault, but I don't seem—I just don't believe that—I think that the thing is drawn to do what we want to do. I guess that we just have to—I cannot say for sure, but I think we have some pretty competent attorneys down there. I think we have some pretty competent attorneys on this floor. They are very competent about muddying the water when they don't like something."

The President declared the question before the Senate to be the roll call on adoption of the amendment by Senators Metcalf, Bailey and Stratton, as amended.

ROLL CALL

The Secretary called the roll and the motion by Senator Metcalf failed and the amendment, as amended, was not adopted by the following vote: Yeas, 19; nays, 25; absent, 1; excused, 4.

Voting yea: Senators Bailey, Barr, Benitz, Bluechel, Craswell, Deccio, Johnson, Lee, McDermott, McDonald, Metcalf, Newhouse, Patterson, Pullen, Rasmussen, Saling, Seallar, Stratton, Talmadge - 19.

Absent: Senator Hansen - 1.

MOTION

Senator Bailey moved that the following amendment be adopted:

On page 7, line 20, strike "—FELONY".

On page 7, after line 26, insert the following:

"NEW SECTION. Sec. 602. A new section is added to chapter 4.16 RCW to read as follows:

Notwithstanding RCW 4.16.190, no action may be brought for damages for injury to a child occurring as a result of health care in the prenatal care or delivery of that child unless commenced within twelve years of the delivery."

REMARKS BY SENATOR BAILEY

Senator Bailey: "Thank you, Mr. President. In my discussion of this amendment and Senator Talmadge's discussion of the long tail of liability on the delivery of babies, if I might, Mr. President, ask Senator Talmadge a question?"

POINT OF INQUIRY

Senator Bailey: "Senator Talmadge, you indicated earlier, you would like to work in this area. I am asking if you would work in this area to help me perfect an amendment in this session, I would be pleased to withdraw this amendment. I am just asking for a comment."

Senator Talmadge: "Senator, if you are asking for legal advise, I would be happy to charge you my hourly rate for my advise, but I have to tell you, in response to your question, I indicated earlier, we are going to hear the House Bill—we maybe didn't need to, after Senator Metcalf's amendment was offered, and if you are going to seriously offer this one, you know, I would point out to you that you didn't repeal the existing medical malpractice statute of limitations and you have an inside repealer in this particular amendment, that does create a small technical problem."

Senator Bailey: "I thought, Senator Talmadge, earlier you indicated you would be willing to work to try and improve the situation that we have with the long tail where doctors are delivering babies and I would like to work with you on this in this session and that was my question."
Senator Talmadge: "Senator, I am the prime sponsor of Senate Bill No. 4631, which deals with that issue and tries to address the question of the long tail. I am more than happy to work with anyone who wants to address that problem in a responsible, legal and constitutional way."

Senator Bailey: "Thank you very much, Senator Talmadge. With the group's permission, Mr. President, I would like to withdraw my amendment."

There being no objection, the amendment by Senator Bailey was withdrawn.

PERSONAL PRIVILEGE

Senator Stratton: "I guess a point of personal privilege, Mr. President. I think these amendments that you are seeing before us on this wrongful birth issue are very exemplary of the frustration on many of our parts. Some of us, in this body and certainly on the other side of the rotunda, four years ago introduced bills addressing the wrongful birth issue. At that time, we were told the horror story of what was going to happen that we are seeing happening now. I believe it is important that this body face up to the fact that we need to do something and we need to address that problem and I would hope that we could get some attention from the Judiciary Committee on that issue."

MOTION

On motion of Senator Talmadge, the following title amendments were considered simultaneously and adopted:

On page 1, line 3 of the title, strike "and 4.16.300" and insert "4.16.300, and 7.06.020"
On page 1, line 2 of the title, alter "7.70.070," insert "51.24.020,"
On page 1, line 3 of the title, alter "4.16.310," strike "and"
On page 1, line 3 of the title, alter "4.16.300" insert "," and 48.19.030"
On page 1, line 2 of the title, alter "7.70.070," insert "51.24.060."

MOTION

On motion of Senator Talmadge, the rules were suspended, Engrossed Substitute Senate Bill No. 4630 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President and members of the Senate. As Senator Bolliger is fond of reminding us, the issue of tort is a subject that requires one full year of study in the first year of law school, in almost any accredited law school in the state. What we have attempted to do in the last few hours is, essentially, deal with something that has developed over decades in the state of Washington and literally over centuries in Anglo-American jurisprudence.

"The bill that you have before you has in it provisions relating to accelerated waiver of the physician/patient privilege, matters relating to offers of settlement that includes attorney fees and pre-judgment interest, apportionment of damages altering the principle of joint and several liability, as we know it, limitations on actions relating to felony conduct on the part of a plaintiff, sections relating to indemnification agreements in the work-place context, sections relating to the builder limitations law—a problem that was identified in the case of the Bellevue School District v. Brazier Construction Company, sections relating to periodic payment of judgment and an effective date of August 1, 1986, along with a limitation now of fifteen percent on any premium increases that the insurance industry may charge as a result of the passage of the bill.

"I would suggest to the members of the Senate—we always have a difficult time when we attempt to accomplish in one sweeping effort—major changes in law that has developed over decades and centuries. The tort law is an evolving standard; it is designed to provide for a societal standard of reasonable conduct. It is designed to try not only to provide compensation to individuals, thus a compensation system, but it is an adjunct to our criminal law and our regulatory law in urging and evolving a standard of safety with respect to people's conduct. I would urge the members of the Senate to remember that this particular legislation touches upon environmental matters, product matters, defamation, work-place
safety and a variety of very difficult issues. It raises, clearly, questions about separation of powers, the impact on the jury system, due process of law, equal protection and a number of very, very significant issues that I suspect another body than this is going to have an opportunity to consider and they will have an opportunity to review the record that we have developed tonight.

"It is an issue that is more than difficult. It is an issue that is pervasive in our society and I urge the members of the Senate to reach down in to their conscience and vote as they may see fit with respect to a policy judgment that is as significant as any decisions that the members of the Senate will make this session or any other session of the Legislature."

REMARKS BY SENATOR HALSAN

Senator Halsan: "Thank you, Mr. President and members of the Senate. Well, it has been a long and arduous task to get to the point of which we are standing now. I think that we have, at least, been successful in placing the issues before the body, what in fact, this bill entails. We've been successful in showing what you are voting for if you vote for this bill. I personally will not be voting for this bill. I think it is an abomination. I think this bill, as mentioned, overturns in certain manners hundreds of years of development of law that is to protect the injured people. You know, I have here a book called History of American Law. It is an awfully small book, just a couple inches thick, but it covers the development of law over the centuries. If any of you have had an opportunity to go over to the Temple of Justice and look in the law library there, you will see hundreds of thousands of volumes of developed American law and Anglo-American law. These centuries of development have resulted from billions of hours, literally billions of hours of thought by thousands of brilliant minds.

I would really challenge you to see whether you feel comfortable enough in the few hours that we have been working on the floor on an issue, which I'm sure, most of you are confused by and little or few of you, if any, know exactly what is in this bill and the ramifications of it. Those billions of hours of development are now to be turned back in just a short political action done for the purpose of providing for availability and affordability of insurance. There have been no insurance assurances that would, in fact, happen. What we know, we know that we are going to be limiting the damages. (President raps gavel--three minute rule) Thank you very much, Mr. President. I urge you vote against the bill."

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President and members of the Senate. Just to add my two cents. I appreciate the support I got on fixing what I thought were some of the worst things, however I must remind you of what you are trying to do is react to people who have complaints with the current system, who perceive that the way to fix that is to reduce the amount of money that a very few people get and you must realize the vast majority of claims that are handled are not affected one way or another by this bill. It is only the very large ones that you are talking about and, in my opinion, will have little if any effect on the price of insurance. What you are trying to do, and the reason that you are having so much difficulty, is you have taken a box and you are trying to cram everybody into that box, no matter what their injury or what their station, what their income, what has happened to them or happened to people around them. You are just trying to shoehorn them into this box and they won't fit.

"Over the years, your forefathers have decided the best way to handle these problems is on a case by case basis where the individual facts can be applied to an individual set of circumstances and decided by a jury of your peers. That system has worked well for a long, long time. Now, every once in a while for one reason or another, there is an upheaval arising and sometimes it works the other way. Senator Newhouse and I have been down here when we had bad jury verdicts the other way and we came down and got the law changed to expand it and that will, undoubtedly, occur again. You will always have problems trying to fit everybody into a single box, because they just don't fit."
REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "Well, Mr. President and members of the Senate, I am going to vote 'no.' In the first place, labor has a very vital interest in this and said it is a bad bill. In the second place, we have asked for and never received any information as to the financial status of the insurance companies. We all know that the stocks of the insurance companies—Aetna, Safeco and the rest of them—have doubled practically in the last year and a half. They evidently are not losing too much money. When you go and find out and we had, also, figures that showed that the majority of cases were very small settlements—in the majority of cases—and the one or two or three large settlements got the headlines. At the same time, if you would take your six-year old boy into a hospital and find out that they had murdered him there through their actions, I think that you would ask that there be some compensation paid. The same way with that person that requires attendant care for all of his life—can't do a thing, can't enjoy life, but there he is—a living vegetable.

"What we are doing, we are reacting, and I'll agree, that we should do something to assure that people can get insurance at a reasonable price. We have not done it in this bill. What we have done is—I think it is fifteen percent, isn't it Senator Warnke, that they can increase it, and I don't know if that is every year or whatever, but that is a big increase. The only thing that I see to express our feeling is to say that it is not a good bill and I know that everybody says, 'Well we'll put it over to the other side and let them correct it,' and that is what they say over there, 'Send it over here,' and that is a poor way to legislate. I am going to vote 'no' and I would urge the rest of you to do that.

REMARKS BY SENATOR THOMPSON

Senator Thompson: "Thank you, Mr. President and members of the Senate. Thank you, Senator Talmadge and thank you, Senator Bolliger, particularly, for your patience with non-lawyers and your tolerance of those of us who know less than you do about this field in which you are so practiced. I am also grateful for your contributions to this measure that much improved from the one that was called the coalition bill. Lawyers are members of a profession—a helping profession and it is understandable that they come before us here attempting to help those who have been their clients or will be their clients and that is an ethic that I respect. I have tried to suggest all along that we have a broader responsibility. We are responsible to the citizens of the state of Washington and I think those of us who support these changes have kept faith with that responsibility. I am confident, personally, that we haven't injured this system to the extent that has been characterized and I think history will bear that out and experience will bear that out and we will realize the benefits that we have sought to obtain. Thank you."

REMARKS BY SENATOR WARNKE

Senator Warnke: "Thank you, Mr. President, and members of the Senate. I certainly do not pretend to be an attorney skilled in the knowledge of tort liability, but I do have a great respect for the legislative process that takes place in our states and in our nation. It is not unusual for a Legislature to take on an extremely difficult problem that has been in law for many years—and change that. Sometimes a little bit at a time and sometimes, we take a major issue. but what usually occurs over time is that we were right in our actions and thankfully we always have a January to look forward to. I am going to echo the comments of Senator Thompson and urge you all to vote for this bill."

REMARKS BY SENATOR GASPARD

Senator Gaspard: "Mr. President and members of the Senate. I, like maybe many of you, wanted to come to Olympia this year and make some changes in the liability insurance crisis—that we are not facing—and some tort reform. I listened patiently and attentively. I think, tonight about the results that we have before us for final passage. I've been trying to make up my mind just what is the right thing to do, because I haven't committed to either side on this bill. Then I look at what some of the amendments do that we had before us and the strength of the coalition
and as people have said, it is like a five-hundred pound gorilla going through here. You just don't stop it.

"Unfortunately, when I've come to the conclusion—and look at what has been done for the victims here. I think there has been a callous disregard for the welfare of victims. We have turned down amendments to exempt the quadraplegics, paraplegics, and the people who are subject to rape for non-economic damages. Senator Halsan has had to withdraw his amendment for the loss of a mother when there are children that are five years or less. Senator Bottiger's amendment that would allow severely injured people the ability to have health insurance, was turned down. What have we done here tonight that is right for the victim? That question keeps on haunting me and then I look at what we have said about the jury system that has taken years—centuries—to develop case law and how we are disregarding our faith in the jury system that has common people making decisions on individual cases, not on cases that are wide-spread. As Senator Bottiger said. 'You can't fit everybody into a box.'

"Then I look at the real issue of why we came down here to resolve this problem, the affordability and the availability of insurance. Certainly, we had an amendment that Senator Warnke and Senator Rinehart helped us in saying that there should be some limits in premium increases. In making all the changes that we have before us now—in tort reform and liability insurance, there is no guarantee that premiums are going to decrease. There is no guarantee that there is going to be availability of insurance. I am going to have to vote 'no' when I ask the question of what is right to do tonight. I hope that when this bill goes over to the House and when it comes back to us, that we will have a better bill to vote for, because I want to vote for some changes. I recognize the problems out there, but the question is, 'What is right?' It still haunts me tonight."

REMARKS BY SENATOR MOORE

Senator Moore: "Mr. President and fellow members. About nine hundred years ago, Anglo-Saxon jurisprudence, perhaps, got its start. Down through the years, originally, everything was geared to property and people had no rights. It has been a long hard struggle through generations in England and in this country and other countries to get people to have the rights to which I believe any human being is entitled. I have literally translated this into a civil rights issue.

"Today we are setting back the civil rights in this state considerably. It will not be permanent, because the civil rights movement will go forward. I am not speaking in terms of the original civil rights act which we passed in this state in the forties. I am speaking of people's right to go to court and get justice and being entitled to ask for whatever they believe is just and I believe from my own experience that the jury system is extremely good. I think that we are doing ourselves an injustice by fantasizing that, we are in fact, a group of jail-house lawyers able to determine what is right and wrong in such an important area.

"I was not party to the discussions that led up to this legislation. For some reason, I was by-passed. I was part of the so-called Marquardt study group that came up with some legislation that we hoped would go some distance toward solving the high cost and availability of insurance, so I really do not feel qualified to make a decision on this bill in any depth and, like many of us, I'll probably vote part knowledge and part emotion. However, when we did have our hearings around the state, at no time did any insurer step forward and suggest that if tort legislation came to pass or if we did anything—that insurance rates would change. With that, I just want to remind you now that my own opinion is that insurance rates will not change one single iota, as a result of this legislation. Thank you."

REMARKS BY SENATOR ZIMMERMAN

Senator Zimmerman: "Mr. President and members of the Senate. I think it is important to realize that there are attorneys around the state that are involved in their own city governments and county governments that have been quite anxious to see us deal with this subject. Jerry King, the attorney at Vancouver has said very specifically that there needs to be a certain dollar cap on public liability. Of course, he is speaking from a city's point of view and he is an attorney. He pointed to the fact that this is not strictly and simply an insurance problem alone and he
spoke on the fact that there are other things that need to be done that are in this bill.

"I think all of us have been getting letters and calls and we have had to try and respond, and it has been my case that I said that I thought the Judiciary Committee in the Senate would be holding and was holding very balanced hearings to try and get the facts out, that there would be an opportunity for both sides to be heard and I think that has been the case. Certainly, most of us know little about the details of tort reform, but I think that we must realize that when it is this complicated an issue and it was tackled this session—there was a statement before the session—that there would be no way that we could deal with it in this session. I think it is to the credit of this body that, at least, we are at this point tonight to pass this measure out of here.

"I think it is also a little bit ironic however, that we quickly were able to put a cap on insurance companies and say that fifteen percent is all that can go up. We could do that in a moment, but we did not attempt and we did not put into this bill a cap on contingency fees—that was not to be dealt with because it is a big factor and a very complicated one, and we are going to let the courts try and work on that problem. I think it is a little bit ironic how quickly we can set some prices, but not necessarily all of them. I think it is also true that in this process, we have added a lot of amendments and, hopefully, there are some of them that will be straightened out in the House if that is necessary, because perhaps we have done some things without full consideration.

"At the same time, there is also the fact that this issue does attempt to deal with the major problems that have been identified by the coalition and at this time, hopefully, there will be the opportunity, as Senator Talmadge has said tonight, repeatedly, and has been asked about the possibility of working on this tail issue as far as the obstetricians—that issue is one that certainly needs attention, so at this time, obviously, minds have been made up, let's vote."

Senators Peterson, Hansen and Guess demanded the previous question and the demand was sustained.

The President declared the question before the Senate to be the roll call on final passage of Engrossed Substitute Senate Bill No. 4630.

The Secretary called the roll on final passage of Engrossed Substitute Senate Bill No. 4630 and the bill passed the Senate by the following vote: Yeas, 32; nays, 13; excused, 4.

SENATE BILL NO. 3990, by Senator Moore

Relating to securities.

MOTIONS

On motion of Senator Moore, Substitute Senate Bill No. 3990 was substituted for Senate Bill No. 3990 and the substitute bill was placed on second reading and read the second time.

Senator Bottiger moved that the following amendment by Senators Bottiger and Vognild be adopted:

Strike everything after the enacting clause and insert the following:

"Sec. 1. Section 43, chapter 282, Laws of 1959 as last amended by section 1, chapter 171, Laws of 1986 and RCW 21.20.430 are each amended to read as follows:

(1) Any person, who offers or sells a security in violation of any provisions of RCW 21.20.010 or 21.20.140 through 21.20.230, is liable to the person buying the security from him or her, who may sue either at law or in equity to recover the consideration paid for the security, together with interest at eight percent per annum from the date of payment, costs, and reasonable attorneys’ fees, less the amount of any income received on the security, upon the tender of the security, or for damages if he or she no longer owns the security. Damages are the amount that would be recoverable upon a tender less (a) the value of the security when the buyer disposed of it and (b) interest at eight percent per annum from the date of disposition.

(2) Any person who buys a security in violation of the provisions of RCW 21.20.010 is liable to the person selling the security to him or her, who may sue either at law or in equity to recover the security, together with any income received on the security, upon tender of the consideration received, costs, and reasonable attorneys’ fees, or if the security cannot be recovered, for damages. Damages are the value of the security when the buyer disposed of it, and any income received on the security, less the consideration received for the security, plus interest at eight percent per annum from the date of disposition, costs, and reasonable attorneys’ fees.

(3) Every person who directly or indirectly controls a seller or buyer liable under subsection (1) or (2) above, every partner, officer, director or person who occupies a similar status or performs a similar function of such seller or buyer, every employee of such a seller or buyer who materially aids in the transaction, and every broker-dealer, salesperson, or person exempt under the provisions of RCW 21.20.040 who materially aids in the transaction is also liable jointly and severally with and to the same extent as the seller or buyer, unless such person sustains the burden of proof that he or she did not know, and in the exercise of reasonable care could not have known, of the existence of the facts by reason of which the liability is alleged to exist. There is contribution as in cases of contract among the several persons so liable.

(4) (a) Every cause of action under this statute survives the death of any person who might have been a plaintiff or defendant.

(b) No person may sue under this section more than three years after the contract of sale for any violation of the provisions of RCW 21.20.140 through 21.20.230, or more than three years
after a violation of the provisions of RCW 21.20.010, either was discovered by such person or would have been discovered by him or her in the exercise of reasonable care. No person may sue under this section if the buyer or seller receives a written rescission offer, which has been passed upon by the director before suit and at a time when he or she owned the security, to refund the consideration paid together with interest at eight percent per annum from the date of payment, less the amount of any income received on the security in the case of a buyer, or plus the amount of income received on the security in the case of a seller.

(5) No person who has made or engaged in the performance of any contract in violation of any provision of this chapter or any rule or order hereunder, or who has acquired any purported right under any such contract with knowledge of the facts by reason of which its making or performance was in violation, may base any suit on the contract. Any condition, stipulation, or provision binding any person acquiring any security to waive compliance with any provision of this chapter or any rule or order hereunder is void.

(6) Any tender specified in this section may be made at any time before entry of judgment.

(7) Notwithstanding subsections (1) through (6) of this section, if an initial offer or sale of securities that are exempt from registration under RCW 21.20.310 is made by this state or its agencies, political subdivisions, municipal or quasi-municipal corporations, or other instrumentality of one or more of the foregoing and is in violation of RCW 21.20.010(2), and any such issuer, member of the governing body, committee member, public officer, director, employee, or agent of such issuer acting on its behalf, or person in control of such issuer, member of the governing body, committee member, public officer, director, employee, or agent of such person acting on its behalf, materially aids in the offer or sale, such person is liable to the purchaser of the security only if the purchaser establishes scienter on the part of the defendant.

The word "employee" or the word "agent," as such words are used in this subsection, do not include a bond counsel or an underwriter. Under no circumstances whatsoever shall this subsection be applied to require purchasers to establish scienter on the part of bond counsels or underwriters. The provisions of this subsection are retroactive and apply to any action commenced but not final before July 27, 1985. In addition, the provisions of this subsection apply to any action commenced on or after July 27, 1985.

NEW SECTION. Sec. 2. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

REMARKS BY SENATOR BOTTIGER

Senator Bottiger: "Mr. President, the difference between the substitute bill and the amendment, which strikes the substitute bill and substitutes a new substitute bill, is that the amendment makes it clear that the action does not apply to bond counsel or underwriters. You can argue as to whether the substitute bill did or did not, but the amendment makes it absolutely clear that all we are talking about is the elected officials of cities, PUD districts, mutuals, co-ops and all the rest of the electrical community. For that reason, I urge your approval of the amendment to the substitute bill."
Senator Bottiger: "I would guess the rate payers, and the elected officials of all of the city lights who are in the electrical generation business, the rate payers and elected officials of all the PUD's, the boards of directors of all the mutual co-op REA's—rural electrification organizations. It applies the standard of care of scienter, which was the applicable standard of care prior to a court decision in 1980. It returns the standard of care to those people that existed in 1980 and which we thought we fixed in 1985."

Senator Moore: "Thank you."

FURTHER REMARKS BY SENATOR MOORE

Senator Moore: "It seems illogical to me that we want to grant special privileges to public officials as opposed to private officials. I must say that I was unaware of this situation until about 1:00 on the cut-off day when people who wanted this legislation came to me and said that they were pleading for me to find the title only—that they could use for this purpose. Well, I opposed what they were doing, but in a spirit of fair play and wanting the entire body to have an opportunity to vote on such an important issue, I granted this. I still oppose it. I think it is discriminatory and I shall vote against it."

REMARKS BY SENATOR GUESS

Senator Guess: "Mr. President, I remember so clearly the 1975 session when a lobbyist by the name of Mr. Billington came down here and sold us a bill of goods as no other super salesman selling soap could do. I'm ashamed to say it—admit it—but I bought his story—hook, line and sinker and I have regretted it ever since. That bill that gave them almost unlimited authority on change orders and contracts was the thing that set the stage for the 2.29 billion dollar bust that we have suffered in the state of Washington. If we were now to vote for this bill, we would only be compounding the felony. I beg of you, my fellow colleagues, to seriously consider what you would be doing by voting for 3990."

REMARKS BY SENATOR RASMUSSEN

Senator Rasmussen: "Mr. President, speaking in favor of the amendment or the substitute to the substitute, I think it is needed. I can understand Senator Moore's reluctance and I can understand Senator Guess, but without this you don't have any point of start. It goes on for years and years. Now, Senator Garrett, WPPSS I, II and III are good—WPPSS IV and V, where the biggest bond houses in the country, say if we would have had another sixty days we would have gotten rid of the rest of them. Some of the dealers are still holding a few of them, but in the case that you
had a lot of innocent people out there—Senator Guess you remember Don Hodel—
he was head of the Bonneville—that's the fellow that just fired Lee Iacocca after he
raised all the money, but he said that they were going to turn the lights out—that
we weren't going to be able to cook our coffee or fry our eggs—that there wasn't
going to be any power. I think he may have had something to do with the Arabs
that said that there won't be any oil either—it's coming out of their ears now.

"This is needed, because there were a lot of people, a lot of elected officials
and PUD's and so forth that actually hadn't had very much experience and they
were rushed into it and they need some protection. Of course, if they want to come
back and sue us—the Legislature—that would be something else again. They
probably should, but I don't think they will. However, I think this is needed and I
urge your support."

POINT OF INQUIRY

Senator Bailey: "Thank you, Mr. President. Would Senator Bolliger yield to a
question, please?

"Senator Bolliger, there was a suggestion here that scienter meant fraud. Now,
I'm just a dairy farmer, but that isn't my understanding of the term that we're trying
to protect the board of directors of the PUD's."

Senator Bolliger: "Senator, the law is encumbered by the use of some old
Greek and Latin and English words. Scienter is an evil mind and it comes out of the
criminal statute and I guess you'd have to say it is in the fraud classification of
words as to what we're trying to describe the person was thinking when he did an
act."

Senator Bailey: "However, under your amendment to the amendment, are we
trying to protect the PUD boards from fraud? I guess that is my real question."

Senator Bolliger: "Senator, what happens is the PUD's vote to authorize some
bonds, then the underwriters and bond counsels prepare a prospectus. They are
traditionally thought of as agents of the board and of the PUD. They are responsi-
ble, and in my opinion. I think it clearly says 'to a negligent standard.' If they do
that in a negligent way, people rely on it and buy the bonds, they're liable, but is
the board that simply hired them liable? The answer is, as you and I know, we are
held unless we in an evil mind decide to do this, we are not personally liable.
That's been the standard in this state for a long, long time. In 1980, a court—in a
bad set of facts—came along and changed it. We immediately changed it back.
The question is, is it retroactive? We thought it was; a state court said that it was. A
federal court said, 'Well, it isn't clear, and we're going to let the Legislature express
its opinion as to whether they meant it to be clear.'

"Most of these bonds were sold before 1980, when we all thought the standard
of care was scienter on part of the elected officials, but negligence on the part of
their employees and contractors."

Senator Bailey: "So this merely puts it back to the way other employees of the
state of Washington were? Thank you."

FURTHER REMARKS BY SENATOR BAILEY

Senator Bailey: "Mr. President, I support this amendment. I hope others do."

The President declared the question before the Senate to be adoption of the
amendment by Senators Bottiger and Vognild.

Senator Bottiger demanded a roll call and the demand was sustained.

REMARKS BY SENATOR VOGNILD

Senator Vognild: "Thank you, Mr. President. Before this vote, if I can clarify
something that I believe, at least, is correct. We have been debating the bill and
that is fine and just and we should, but the amendment is what we are voting on.
The amendment is meant to narrow the scope of the bill. Those of you who actually
oppose the bill, I would suggest, probably would vote for the amendment, because
it narrows the scope of the bill."
REMARKS BY SENATOR HAYNER

Senator Hayner: "I believe that it is also true that it sets up a different standard for people involved in this—a different standard with respect to bond counsel and underwriters than, for example, PUD commissioners."

The President declared the question before the Senate to be the roll call on adoption of the amendment by Senators Bolliger and Vognild.

ROLL CALL

The Secretary called the roll and the motion by Senator Bolliger carried and the amendment was adopted by the following vote: Yeas, 34: nays, 13; excused, 2.

Excused: Senators Patterson, von Reichbauer — 2.

MOTION

On motion of Senator Moore, Engrossed Substitute Senate Bill No. 3990 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

REMARKS BY SENATOR BOITIGER

Senator Bolliger: "Mr. President and members of the Senate. The only thing that wasn't said on the original debate is that the rate payers are really the people that are affected by this bill. I wouldn't want anybody to think that the county commissioners or the city council of the city of Tacoma or Seattle or whatever are the ones that we are talking about. What we are talking about are the rate payers of the PUD's and the municipals and the co-ops all over this state. When their board voted to issue a bond, there was nothing wrong with the conduct in doing so. When they instructed their underwriters and bond counsel to prepare this prospectus, there was nothing wrong in doing so—just like we do every session when we order or authorize the issuance of a capital bond budget. We do not individually go and check everything that is said about those bond statements. The action brought, and pending in court, by the bondholders alleging that they were misled by the bond statements and the prospectuses that were issued by the underwriters should not be passed through. If they are successful, it should not be passed through to the rate payers on the theory of agency. So the vote here is, in my opinion, shall the underwriting firm that handled that bond issue and their bond counsels pay the bondholders, or shall the rate payers—the people of the state of Washington. This bill says not the rate payers."

POINT OF INQUIRY

Senator Hayner: "Senator Bolliger, would you yield to a question, please? This bill is retroactive. The one we passed last year, which we are now trying to correct, did not have any language about retroactivity in it and I voted for that bill, but I do not remember, and I did have the staff check. if there was any information on the floor at that time about the retroactivity of this bill.

"Now, is this bill, with its retroactive provision, intended to affect the rights in a specific law suit which is now before the courts?"

Senator Bottiger: "Senator Hayner. it's intended to affect the standard of care required by the elected boards and county councils of the utilities of the state of Washington in the period discussed directly in the amendment. I recall that a judge retroactively changed the standard of care. It had always been scienter and in 1980 he said, 'No, it's negligence retroactively.' Now, he can do that because in this area of law, there is retroactivity and not—depending on the kind of issue you're dealing with. It was presumed it was retroactive, at least in my mind, because we were not dealing with a property right. We were dealing with a standard of care to be applied to people, and that is traditionally retroactive.

"Just like the tort bill you passed yesterday, that's retroactive until all of the people who have been hurt, but haven't filed their lawsuits yet. Every one of those
people who are out there—young babies that have just been born. that's all retroactive, and so this bill is also retroactive. The state judge said, 'You're right; that's the standard in this state.' A federal judge said, 'I want the Legislature to make it more clear.' That's all we're doing."

FURTHER REMARKS BY SENATOR HAYNER

Senator Hayner: "Mr. President, may I proceed? There are many cases in the courts now dealing with the issue of who is responsible in the Washington Public Power Supply System debacle. What we are doing here is changing the playing field which existed at the time that some of those contracts were made—some of those actions which were taken which might be negligent and it appears to me that to do that now is totally unfair.

"Yes, we can do it. I don't doubt that we can do it. but it seems to me in all fairness that is not the way to deal with people. Now you can talk about rate payers all you want, but there are a lot of bondholders too that happen to be widows, orphans; there are pension funds that hold WPPSS bonds. There are all kinds of people out there—3,000 of them and I think at this point, it is only fair to leave it up to the courts to decide which of those people are responsible."

REMARKS BY SENATOR FLEMING

Senator Fleming: "Mr. President and members of the body. I'm going to support this measure and I am going to support it with some reluctance. I am not going to try to get into debate of the standard of care. I am not going to try to get into debate of the issuing of the bonds and whether the bondholders had some great risk, because those people who purchased those bonds knew they were taking some risk when they bought those bonds. Now, what the extent of the risk, I am not going to debate that. Whenever you get involved in that type of thing, unless you have some real safe type of investment, there is some level of risk.

"I am going to do this in terms of other rate payers, that we should do this. I am not as concerned, unfortunately, with those public officials, per se. There are a lot of us here on this floor—not maybe a lot of us on this floor, but a lot of us that were either in the House or Senate when this thing came about—that didn't feel as though they should have been doing that in the first place. A lot of those elected officials and boards of directors thumbed their nose at us and told us we knew where to go. Now they're back here asking us to help them, so I don't feel any real sorrow for them.

"I think if we don't do something like this, that ultimately we are going to affect the rate payers and it is under those circumstances that I am going to vote on this measure. I think that we might even have to begin to look at it—and I know it's going against the grain because I am one of those great local control people and local charters and that type of thing there. but these organizations do have broad sweeping powers and they do have the tendency to thumb their nose at us, but when they get into trouble they don't hesitate to come to us for some support. I am going to support the measure, but I am doing it with some reluctance."

REMARKS BY SENATOR ZIMMERMAN

Senator Zimmerman: "Mr. President and members of the Senate. Occasionally, we need to look at things from the standpoint of what's right and not necessarily how many people we're going to help or hurt. In this case, it is a matter that the court made a decision that now got us sort of where we are and the court, perhaps, made a mistake in terms of what they did a couple of years ago in '83—the actual court decision that has somewhat been a factor in complicating this whole subject. Now, obviously, there are a lot of rate payers that will be helped as far as what has been said this afternoon.

"At the same time, in the state of Washington, today, we still—despite all the problems—we've got the lowest power rate in the country. Grant County is the lowest in the state. Our county PUD of which we have recently had a rebate for rate payers, just suggested that they had enough money that they turned it back with the idea that we give to the PUD for other purposes. I have three PUD counties. Obviously, there are a lot of people in my district that are going to be helped—the PUD's commissioners are going to be helped. I think that the point is that that's not
what we should be doing in this case, because we should be trying to stay with the contract that originally had been set up and with the original facts that those bondholders had certain rights that also should be protected in terms of contractual rights. In this case, we are trying to change the ball game.

"I think where there is popularity, and while the votes and while all the numbers are out there on the basis of voting for this measure, it is the wrong way to vote and I think for once you should, perhaps, take a look at the situation and vote for what you think is right—and in this case, I think that's a vote 'no.'"

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Mr. President and members of the Senate. As chairman of the Judiciary Committee, it's, I think, my responsibility to be certain that we shouldn't be using the Legislature as the appellate court when somebody disagrees with the outcome of the decision of the trial court in our state—be it a state court or federal court. I voted against the People's leasing bill several years ago for that very reason, although I think it passed with flying colors and had a lot of support from some of the people who are now so concerned about this issue.

"I think consistency dictates that you oppose the use of the Legislature as the ultimate appellate court for any disagreement with what happens in our state's court system, but at the same time I can't help but feel that some of the statements made out here like some of the people who last night made such outstanding pronouncements on the issues relating to victims—less of a concern about injured people and more of a concern about protection of a financial interest—makes it a little bit difficult for me to stomach this vote. Nevertheless, I think, in order to preserve the process that we have in the Legislature and the protection of the sanctity of the legal system to avoid having the Legislature being the ultimate appeals court for every single disagreement of every single issue that there is. I intend to vote 'no' on the bill. I hope that some of the pronouncements that were made in brave support of financial interests will now carry over when we deal with the issue of personal injuries and people who are hurt, as opposed to money."

REMARKS BY SENATOR GOLTZ

Senator Goltz: "Mr. President and members of the Senate. Senator Zimmerman kind of confused me and so I went over to my coach and asked what the facts are in the case and what I surmised before and what I surmise now is that the rules of the game under which everyone was playing at the time when those bonds were sold were the rules of the first half. The judge came in at halftime and said the rules for the second half are going to be different from what we played in the first half and we are back here now reestablishing the rules for the second half of the game. The same rules that were in for the first half will be the rules that we play under for the second half, and the judge made a mistake when he came in to the locker room and told us that the rules were going to be different. That's the way I understand this, so that's why I am going to vote for the bill."

REMARKS BY SENATOR GARRETT

Senator Garrett: "Thank you, Mr. President and members of the Senate. You know how we got into this mess was that the PUD association came down here and asked the Legislature to create a JOA—Joint Operating Agency. Now any PUD district in the state could have gone ahead and done this on their own, but they got the Legislature to create this association thing and so then they started doing what they did. Now this is the way the people in other states and from everywhere look at this thing. Then after they got all the money, they went down to the supreme court and got the whole thing declared unconstitutional, so they could keep the money.

"There was one thing in this scheme that they overlooked and that was maintaining the responsibility. Now, they're down here and they want us to do this retroactively—and you know—I'm shocked that our leadership is saying that the reason we want to do this is because of the rate payers in the state of Washington. In other words, we are wanting to help to confiscate this money because it may raise electrical rates in the state—and we are admitting—we are saying that is why we want to do it. I don't think that's fair. I don't think that it's proper to do it that
way and I am not so sure that it's going to help the rate payers. When the people who buy bonds see how we operate and how we will retroactively take somebody off of the hook, I'm not so sure that it won't affect our bond rating and that everybody in the state of Washington will be paying for it. I feel for the rate payers as well as anyone else, but I don't think that we should be voting to confiscate all of this money all over the United States to use it to keep our power rates lower. If we are doing that, I don't think we should admit it.

REMARKS BY SENATOR VOGNILD

Senator Vognild: "Thank you, Mr. President. I rise in support of this bill and I guess I differ with my friend, the chairman of the Judicial Committee. Roughly ten days ago, I had no idea what scienter was—never heard of it. We take some crash courses around here. I believe that it is the function of this body of the Legislature to correct things that are wrong and I believe that the change of rules that Senator Goltz talked about are, in fact, wrong. We're dealing with public bodies here. We're dealing basically with part-time officials. They have no profit motive; their employees have no profit motive; they're dealing in the public interest. Why should they be judged at a higher standard than they were when they took office? More importantly, why should they be judged at a higher standard than we judge ourselves on this floor? I guess that's the one that really got to me.

As I understand scienter, and I believe I am correct, it says that the claim of fraud against public officials requires proof of scienter. That proof is knowing, reckless or intent to defraud. I am not even sure that the members on this floor are held to that standard. I suspect we are even immune from that standard, so I repeat to you, these are public officials. They are part-time—practically all of them. They serve in the public interest. The court changed the rules. This bill purports to change the rules back to where they were in the first place, so we all play by the same rules. I do not believe we are impounding any money here. I don't believe that at all. I believe we are putting public officials and the rate payers—actually not the rate payers, but the tax payers—almost totally under the same standard that they were under when this whole thing started. I believe that's absolutely fair and I'd recommend a 'yes' vote."

REMARKS BY SENATOR GUESS

Senator Guess: "Mr. President, I have a different view of the ball game that Senator Goltz was playing awhile ago. I think that at the end of the eighth inning, the supreme court said a contract wasn't a contract and the rest of the game is going to be played by anybody's rules—sort of like Senator Henry's gavel. I have taken the short end of that gavel a number of times and it got faster and faster as time went on—not to depreciate that Al is my best friend. I still think that Senator Talmadge is right and if we go in and pass the bill, then what we are going to do is that we are going to say all bets are off."

REMARKS BY SENATOR BAUER

Senator Bauer: "Thank you, Mr. President and members of the Senate. I reluctantly move into an area of which I know very little about the law, but I do believe I know something about common sense and fairness. This legislative body which has the responsibility of making the legislative decisions of this state, made a decision and set a rule of scienter. One judge decided that he was more powerful or holy than this Legislature and he made the determination to change that particular rule.

"Now all we are doing here is going back and exercising our legislative authority to reestablish that rule. I guess it's a choice of deciding to put all of our elected officials out there who ran for office—agreed to serve, based on certain rules. Then we change the rules in midstream. Those people all ought to quit, because now they are going to operate under rules that subject them to some extremely heavy personal financial liability. Now if we want them all to quit, then we should vote 'no.' but if we want them to know that this legislative body will maintain rules that will be fair and protect them at the time that they run for office, then they will run for office."
"The choice, I guess, is between giving those people some assurances and protection to serve on boards and commissions with very little compensation, or a choice of giving to some bondholders, who at 15 percent interest, knew at the time they were going into it, that they were high risk. Bondholders all over the United States of America—a choice of protecting fairness to the people that hold offices in our localities at very little compensation or protection of bondholders who are making a profit—high risk—good return on their investments—and many of them made a good return before these changes were made. I urge your support of the bill."

REMARKS BY SENATOR MOORE

Senator Moore: "Mr. President and fellow members. I am the only one here whose name is on this bill. I am going to vote against it. I do not yet see why the private sector should be treated differently from the public sector. More boards in this state—more board members in this state serve for free than get paid, by at least, tenfold, so I am wondering why we have to grant this very special immunity.

"Now I personally do not believe that what we do here today is going to influence this court case or these court cases, because there may be nothing left after the attorneys get through. Even if there is something left, I doubt that one percent of what we do here will be of any effect. I don't like to speak in terms of principal, but I can't think of another word and I don't like the Legislature stepping in and changing contracts. Now the PUD's made a contract with the underwriter; the underwriter made a contract with the individuals and it traces all the way back to the beginning. I have to rest my case on that point. Thank you."

The President declared the question before the Senate to be the roll call on final passage of Engrossed Substitute Senate Bill No. 3990.

SECOND READING

SENATE BILL NO. 4611, by Senators Halsan, Talmadge, McCaslin, DeJarnatt, Saling, Moore, Williams, Bailey, Kreidler and Johnson

Requiring owners of pit bulls to maintain liability insurance or surety bond.

MOTIONS

On motion of Senator Talmadge, Substitute Senate Bill No. 4611 was substituted for Senate Bill No. 4611 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Halsan, the following amendment was adopted:

On page 2, beginning on line 13, after "section." strike all material down to and including "work." on line 14

On motion of Senator Halsan, the following amendment was adopted:

On page 3, after line 21, insert the following:

"(5) Subsections (1)(b), (1)(c), (1)(d), (2), and (3) of this section do not apply to police dogs performing police work, or guard dogs performing guard work on the premises of the owner, in a reasonable time, place, and manner."

On motion of Senator Talmadge, the rules were suspended. Engrossed Substitute Senate Bill No. 4611 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Deccio: "Senator Halsan, I wasn't paying attention when your last amendment--would you explain what you mean by guard dogs performing guard work on the premises of the owner in a reasonable time, place and manner?"

Senator Halsan: "What's intended by that, as I explained to one of the members of the Senate who has a Doberman, would be that if, in fact, that dog were in their home and protecting it from intruders, if it, in fact, bit an intruder there would be no liability. If the dog was roaming onto other people's property in the neighborhood and attacking people who were not logically, reasonably within the preview of its guard activities, it would not be exempt from the statute, and also if, in fact, the paperboy came up and was invited into the premises and the dog was not kept under control, that would not be in a reasonable manner, if, in fact, the paperboy was attacked while reasonably in the premises. What we're trying to do is, we're not trying to grant license to guard dogs to roam through the neighborhood and attack people, but we feel they have an appropriate place in society."
POINT OF INQUIRY

Senator Newhouse: "Senator Halsan, I note on page 3, Section 3, you have online 7 dog is not validly licensed under Section 2 of this act. and I don't see any licensing provisions in Section 2."

Senator Halsan: "I don't have that right in front of me. What we have tried to set up by the language we have in here, is the licensing is to be done by the local city municipality or county."

Senator Newhouse: "You have stricken, I think, the language of the original bill and didn't make the corrections in Section 3 to compensate for that."

Senator Halsan: "I would have to look into that."

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Mr. President and members of the Senate, I believe in Section 2, sub(1), where it states, 'It is unlawful to possess, harbor, keep, or maintain a vicious dog in the state without a certificate of registration issued under this section,' may be the thing to which Senator Newhouse is referring. In sub(2) it talks about the animal control authority of the city being able to issue certificates of registration, and maybe the licensure is meant to refer to that certificate or registration. There is a reference, but it may not be licensure in the sense that we've come to know of dog licenses and so forth."

POINT OF INQUIRY

Senator Rasmussen: "Senator Talmadge, there was a young fellow that left the bowling alley and he had his bag and bowling ball with him and so forth and a police dog—I think it was a sheriff's dog attacked him and tore him all up—and the city ruled that the Legislature had said police dogs are like deputy sheriffs and policemen, if they bite you, there is nothing you can do about it, but he suffered quite a bit of damage. Will this correct that to those who have a vicious dog?"

Senator Talmadge: "My belief is that Senator Halsan's amendment, Senator Rasmussen, would, in fact, correct that kind of situation. If the police dog were in the business of doing police work with its controller-trainer, then there would be no liability involved or no penalty—no sanction involved. If, however, that police dog were simply roaming the streets and bit that individual in the way that you state, the provisions of this bill would apply."

Senator Rasmussen: "Thank you."

POINT OF INQUIRY

Senator Hansen: "Senator Halsan, in my area over there we have lots of pick-ups with all the farmer's tools or gas tanks, all the compressors and things like that and generally they pack a dog in the back end of them that is not vicious. They are there strictly for the protection and the only time they let themselves be known is if somebody starts to get into that pickup. What kind of category would that put those dogs in?"

Senator Halsan: "In that situation, I would not think they would qualify as being a vicious dog under the definition and they would not fall under the requirements of the statute."

Senator Hansen: "Most of them are German Shepherds or—"

Senator Halsan: "That's correct. The definition of a vicious dog is a dog that when unprovoked either chases or bites people in public areas or on property of another and it is set out pretty specifically. It doesn't cover all dogs. It covers the dogs that, in fact, that are vicious. It doesn't say they have to get one child chewed up before they are taken into the provisions of the act. I think the dog in the pickup would not be covered."

The President declared the question before the Senate to be the roll call on final passage of Engrossed Substitute Senate Bill No. 4611.

based upon alleged professional negligence shall be commenced within (three) eight years of the act or omission alleged to have caused the injury or condition((, or one year of the time the patient or his representative discovered or reasonably should have discovered that the injury or condition was caused by said act or omission; whichever period expires later, except that in no event shall an action be commenced more than eight years after said act or omission)). The time for commencement of a legal action may be tolled only upon proof of (a) fraud, (b) intentional concealment, or (c) the presence in the injured person of a foreign body that was not intended to have any therapeutic diagnostic purpose or effect. Any action not commenced in accordance with this section shall be barred((, PROVIDED. That the limitations in this section shall not apply to persons under a legal disability as defined in RCW 4.16.190)).

The provisions of this section apply notwithstanding RCW 4.16.190.*

Renumber the remaining section consecutively.

POINT OF ORDER

Senator Kreidler: "Mr. President, a point of order. I would raise the question of scope and object on this particular amendment and I would do so because the title of the act that's being amended here is an act relating to the filings of insurance rates and this is an amendment that deals with the statute of limitations and medical malpractice suits. POINT OF INQUIRY

Senator Hayner: "Senator Thompson. I see here that they are given the authority to randomly make audits of filings received under the public disclosure system. Within the limits of staff capabilities and available funding, does that mean that we’re going to have lot of pressure on us to increase their funding so that they can make complete audits of everything, in your opinion?"

Senator Thompson: "The language you’re alluding to was taken out of the original bill as introduced, Senator Hayner, and now says 'shall audit each year at randomly selected sample of filings by persons required to comply with this chapter.' The language you’re reading is not a part of the act now and the level of their activity will depend entirely on the appropriation the Legislature provides in the biennial budget."

Debate ensued.

POINT OF INQUIRY

Senator Saling: "Senator Rinehart, under current law, is the lobbyist’s employer required to report all costs associated with the employer’s lobbying effort?"

Senator Rinehart: "Senator Saling, only the employer must make a good faith effort to report costs that it makes in connection with an attempt to influence legislation or agency rules."

Senator Saling: "Under current law, is the lobbyist’s employer required to report non-lobbying related expenses?"

Senator Rinehart: "No."

Senator Saling: "Under current law, is the employer obligated to report personal travel expenses which are not related to lobbying and which are unreimbursed?"

Senator Rinehart: "No, Senator Saling. The employer reporting statute, RCW 42.17.180, clearly says that only expenditures made for lobbying purposes are reportable."

Senator Saling: "Under current law, is a lobbyist’s employer obligated to report expenses incurred by its officers or employees who serve on legislative advisory committees?"

Senator Rinehart: "No."

Senator Saling: "Is a lobbyist’s employer required to report all contacts between its employees and the Legislature?"

Senator Rinehart: "No. Senator Saling. If a legislator wanted technical information to better understand a matter before the Legislature, and knew that a particular company which employed a lobbyist had the expertise, the legislator could solicit that specific information and the employer could provide it without that being considered a lobbying expense. It would be a reportable lobbying expense, however, if the employer and/or the lobbyist were the initiator in providing the technical information."

Senator Saling: "Thank you."
POINT OF ORDER

Senator McCaslin: "A point of order, Mr. President. I wish to point out to the body that reading does occur on the floor and reading is accepted on the floor. I wish that entered in the journal. Thank you."

Senator Moore: "Under the present statute, the six members of the committee, three from the Senate and three from the House hire the State Actuary and he has his own budget that's in our budget and that's the way it operates."

Senator Barr: "I just wondered. This indicates that there was a change in that the State Actuary would now serve at the pleasure of the committee."

Senator Moore: "That's true. He had a seven-year term before, now he will serve at our pleasure. You're right."

Senator Barr: "To serve at the pleasure, would indicate to me that the committee has the right to hire and fire and apparently they didn't before."

Senator Moore: "We had the right to hire, but it was really on a seven-year contract unless there was some malfeasance of some type."

Senator Barr: "Thank you, very much. That sound like an improvement."

Debate ensued.

POINT OF INQUIRY

Senator McDonald: "Senator Talmadge, one of the things that always bothers me about the procedure of the Senate is that we don’t have in our books any of the fiscal notes on these things that we’re dealing with. I always get nervous, as I know Senator Rasmussen and others do, when we’re dealing with pension systems and granting benefits that we’re not going to be able to withhold. Do you have any idea or does anybody on the floor have any idea, Senator Talmadge, how much this is going to cost?"

Senator Talmadge: "My recollection, Senator McDonald, is that the fiscal impact was very small. We had the State Actuary before the Ways and Means Committee and my recollection was the impact was small. Senator McDermott may have a more specific number, but it’s a very small number of people. I think it’s about eighty people who have had six months of time as a cadet, as their probationary period and they essentially have the time up until June 30 of ’88 to buy that back. I don’t think it has a huge fiscal impact at all."

Senator Talmadge: "My recollection, Senator McDonald, is that the fiscal impact was very small. I don’t think it has a huge fiscal impact at all."

POINT OF INQUIRY

Senator McDonald: "Senator McDermott, I guess I pose the same question to you that I did to Senator Talmadge."

Senator McDermott: "Senator McDonald, I don’t have the figure here in front of me either. If you want, we can hold the bill and I can get the figure, but it’s not a big impact. They have to pay back into the system the amount necessary to cover the liability."

Senator McDonald: "But will there be additional contributions to the state and to the general fund to implement this?"

Senator McDermott: "Mr. President, I move that we hold the bill and move on to the next one."
MOTION

On motion of Senator McDermott, and there being no objection, further consideration of Substitute Senate Bill No. 4931 was deferred.

Senator Warnke: "No, Senator Bottiger. Those businesses which own and operate their own motor vehicles would not be required to register as vehicle dealers. Section 3 of the proposed substitute states that a person must be engaged in buying and offering for sale, or buying and selling motor vehicles before registration is required. Firms which own and operate motor vehicles as a part of their operations are not in the business of buying and selling vehicles. It does not matter that those businesses later dispose of the vehicles. The registration requirements apply to those people who are in the business of buying and selling vehicles."

Further debate ensued.

POINT OF INQUIRY

Senator Garrett: "Senator Bottiger, the thing that confuses me--I want the consumer protection part of this bill, but it seems to me like your amendments which lowered the bond--how do you explain that as consumer protection?"

Senator Bottiger: "Senator, I didn't lower the bond. I just left it where it is now rather than raise it, because we found that the higher bond--the difficulty for small businesses to get it would drive--and it depends upon who you believe--some place between ten and twenty percent of the dealers out of business. They couldn't get the bond.

"While Senator Guess would probably tell you about the recreational vehicle dealer in Spokane that ran off with some three hundred thousand dollars worth of deposit money--we can't build a bond that high and leave anybody in business. I can't fix that part of the problem, but this does give some teeth to the people who aren't registering who when you buy a vehicle from them and you find out thirty days later they had sawdust in the transmission and you find out that it wasn't the guy that you dealt with. His name was never in the title. It was me, who sold it to him telling him that it's got a bad transmission and then he resells it. That's what we're after."

Senator Garrett: "I understand, Senator Bottiger, that you are not lowering the bond from what it is now, but is just appears to me that--like your original bill--
that if you don't raise the bond, it must be because those dealers are not responsible. I can't understand why the price of the bond would put them out of business unless they are at some risk there—that the price of the bond would keep them from getting it and so the consumer is still liable."

Senator Bottiger: "Senator, I can't tell you why bonding companies insist that you have actual liquid assets—double the amount of the amount to be bonded. You know that is like the old story that the only time the bank will loan you money is when you don't need it."

Further debate ensued.

POINT OF INQUIRY

Senator Hayner: "Senator Warnke, has the director always been given the authority to make exceptions to this three thousand square feet provision which exists in the law?"

Senator Warnke: "I don't believe so, Senator."

Senator Hayner: "So, this is a new provision, with respect to that? You know, that bothers me a little bit. I certainly recognize the need for this bill, but to give the director or the head of an agency the power to make exception to the bills that we passed does concern me because of the over rates that we do and after all we're not out there watching what these agency directors do and sometimes they pay attention to these things and sometimes they do not. Sometimes they over react to them."

Senator Warnke: "The reason for that provision, Senator, I believe it's in either Senator Cantu's or Senator McDonald's district. there's a small firm that makes electronic equipment that may fall under the definition of three thousand square feet to display, and they are mobile units which they display and so the director was given the opportunity to give an exemption to that type of firm."

Senator Hayner: "Specifically to that type of firm?"

Senator Warnke: "No, but that's—"

Senator Hayner: "So you opened it all up to all of this. that's what I'm saying. You know, that kind of a provision does concern me."

Further debate ensued.

Quarterly distributions shall be made to the limit of trust resources, consistent with prudent management thereof. NEW SECTION. Sec. 5. This act shall take effect July 1, 1986.
correct. The tax would be a tenth; we would raise ten cents per one hundred dollars a purchase to do what I think is a solution on both ends of this deal, in terms of the charity care and in terms of your proposal, and under those circumstances I could see we would find a need for a caucus."

POINT OF INQUIRY

Senator Kiskaddon: "Senator Talmadge. under this section of the bill. what's the definition of a child—how old?"

Senator Talmadge: "My understanding. Senator Kiskaddon. is the same definition as we have under the juvenile code. which is a person under the age of eighteen years."
Senator Kiskaddon: "So a seventeen-year old that would be going to a movie and would be getting out of the movie at 12:30, from just looking at the summary, it looks like they would not be coming from a youth activity or just going from a place of employment. Would that seventeen-year old who is able to see an R rated movie then not be able to be out after midnight just going to a movie?"

Senator Talmadge: "Senator, in response to your question. One of the reasons that we did not adopt a criminal curfew statute, which is what the House has considered and which the city attorney in Seattle has suggested is that very problem. We have simply indicated to the law enforcement officers those circumstances where we believe a child can be in danger per se, but we still preserved to the law enforcement officer that officer's good discretion in exercising that authority, so that the child literally has to be in a dangerous situation.

"We said that there are certain circumstances that we believe constitute danger per se. I would suggest to you finding a thirteen-year old child on the streets of downtown Seattle on 4th and Pike at 3 o'clock in the morning, in my view, puts that child clearly in danger. Some officers have had some question about that. This simply makes that clear, but we leave to the officer some discretion in exercising that determination as to when a child is in danger, under this code. It is not a criminal statute. It is more designed for the protection of the children."

Senator Rasmussen: "And you would violate the Bar ethics by going against the resolution of the Seattle/King County Bar?"

Senator Talmadge: "Absolutely not, Senator. I can disagree with them freely as I can disagree with any organization and association of which I'm a member."

Senator Rasmussen: "Well, I guess I have to ask you, why would the largest Bar association in the state come out in opposition to this constitutional amendment?"

Senator Talmadge: "Because, Senator, I suspect what they really want is some additional judicial positions from this Legislature. You know, the King County Superior Court Bench, at the present time, has thirty-nine judicial positions, and if you looked at the weighted case load method of the office of the administrator for the courts, they are entitled to forty-five or forty-six positions. So, Senator, maybe the option is for you to sponsor a bill that would authorize seven or eight new judicial positions for King County, because I suspect that's what the Seattle/King County Bar Association wants, rather than methods of trying to decongest the calendar of the court and looking to alternatives to the court system for resolving disputes."

On motion of Senator Williams, the rules were suspended, Second Substitute Senate Bill No. 3487 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Lee: "Senator Williams, I can understand your frustration in not seeing some data that is useful to us in trying to see where we could possibly expend some capital money or reward those who have used energy conservation methods because of our lack of data, but I think what my concern is that we're still using the term 'agency' rather than relating it to buildings or to particular kinds of activities. I can understand how an agency can monitor its energy conservation as far as, possibly, its own automobiles are concerned, but we have a state motor pool which is not an agency, per se. We have buildings that are under the authority of General Administration rather than DSHS, for example, as far as maintenance and other kinds of things. I guess what I'm really asking you is why do you think that using the agency approach is going to get us these factors better than using the program approach?"

Senator Williams: "I'm not sure I totally understand what you're saying. Let me make just one comment and then I think Senator Goltz may comment on it. One of the reasons for using the agency approach is we want the agencies themselves to be the instigators of the change, so that they themselves then see the specific benefits to their programs and to their institution in this program.

"That's the best way I can answer it. In other words, we are trying to direct those people to do the job themselves, so they understand what they're doing and what they're getting back for it, as opposed to doing it through some outside force or through some sort of program element which might not have quite the relationship to this particular agency. I'm not sure that it's the appropriate answer to what you're asking, but perhaps Senator Goltz might comment on it."

REMARKS BY SENATOR GOLTZ

Senator Goltz: "Mr. President and members of the Senate. One of the problems that state agencies have is trying to compose or to conduct problems within the
agency which are beneficial to the agency and to the state, such as energy conservation, because there is no reward for it.

"The way we budget for energy is you pay the bill. That's the way you tell the agencies to budget—to pay the bill. What this will say is that the Office of Fiscal Management will give them what you might call energy target reductions and the savings that they earn in reaching those targets of reduction of energy—those funds will be allowed to remain with the agency.

"If you are referring to programs, such as the use of automobiles or something as broad as that across agency lines, I would think that it's hard to do that unless you get the agencies to participate as management experts at getting it within the agency. So, what we're trying to inspire here is some incentive and some reward for participating in a program which I think otherwise simply is taken for granted. They'll just get the money no matter how much energy they use, so I support this approach. I think it will save energy. I think it will save money and I think it will give some good tools for management in the state agencies."

Further debate ensued.

The President declared the question before the Senate to be the roll call on final passage of Second Substitute Senate Bill No. 3487.

(I) The state building code (advisory council) shall promulgate rules, pursuant to chapter 34.04 RCW, for the purpose of adopting a revised state code. The revised code shall be designed to achieve reductions in energy consumption relative to buildings constructed to comply with the state energy code, June 30, 1980 edition, as amended. The council shall follow the legislature’s guidelines set forth in this section to design a revised code which requires new buildings to meet a certain level of energy efficiency, but allows flexibility in building design and construction within that framework. The revised code shall take into account regional climatic conditions and shall be designed according to the following guidelines:

(a) For new electric resistance heated residential buildings, the code shall be designed to achieve energy savings equivalent to savings achieved in typical buildings constructed with:

(i) Ceilings insulated to a level of R-38, except single rafter or joist vaulted ceilings may be insulated to a level of R-30 (R value includes insulation only);
(ii) Walls insulated to a level of R-19 (total assembly);
(iii) Floors over unheated spaces insulated to a level of R-19 for areas with six thousand or less annual heating degree days and to a level of R-25 for areas with more than six thousand annual heating degree days (R value includes insulation only);
(iv) Double glazed windows with tested R values not less than 1.79 when tested according to the procedures of the American architectural manufacturers association; and
(v) In areas with more than six thousand annual heating degree days a maximum of seventeen percent of the floor area in glazing; in areas with six thousand or less annual heating degree days a maximum of twenty-one percent of the floor area in glazing. Throughout the state for the purposes of determining equivalent thermal performance, the maximum glazing area shall be fifteen percent.

(b) For new residential buildings which are space-heated with other fuels, the code shall be designed to achieve energy savings equivalent to savings achieved in typical buildings constructed with:

(i) Ceilings insulated to a level of R-30 (R value includes insulation only);
(ii) Walls insulated to a level of R-19 (total assembly);
(iii) Floors over unheated spaces insulated to a level of R-19 (R value includes insulation only);
(iv) Double glazed windows with tested R values not less than 1.40 when tested according to the procedures of the American architectural manufacturers association; and
(v) In areas with more than six thousand annual heating degree days a maximum of seventeen percent of the floor area in glazing; in areas with six thousand or less annual heating degree days a maximum of twenty-one percent of the floor area in glazing. Throughout the state for the purposes of determining equivalent thermal performance, the maximum glazing area shall be fifteen percent.

(c) For new nonresidential buildings, the code shall be designed to achieve a ten percent reduction in energy consumption relative to buildings constructed to comply with the state energy code, June 30, 1980 edition, as amended.

(2) In developing the revised code, the council shall consider possible health and respiratory problems caused by insulating buildings so tightly that the rate of air exchange is significantly retarded, thereby concentrating toxic pollutants at unhealthy high levels.

(3) The council shall publish the revision as proposed rules pursuant to chapter 34.04 RCW and provide for the rules to become effective January 1, 1986. All cities, towns, and counties shall enforce the revised state energy code not later than April 1, 1986.

(7) "Motor fuel retailer-supplier" means any person, firm, or corporation, including any affiliate of the person, firm, or corporation, engaged in the refining of crude oil into petroleum who supplies motor fuel for sale, consignment, or distribution through retail outlets and has an operable refinery capacity of three hundred twenty-five thousand barrels a day or more as reported to the federal department of energy.

It is unlawful for any motor fuel refiner-supplier to discriminate in price between motor fuel retailers for purchases of motor fuel of like grade and quality, where the effect of the discrimination may be substantially to injure, destroy, or prevent competition with any retailer who receives the benefit of the discrimination, or with the customers of either retailer. Nothing in this section prevents differentials which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which the fuel is sold to retailers. Upon proof being made of discrimination under this section, the burden of rebutting the prima facie case thus made by showing justification is upon the refiner-supplier.

NEW SECTION. Sec. 3. Notwithstanding the terms of any motor fuel franchise, a motor fuel refiner-supplier shall not absolutely prohibit or unreasonably withhold its consent to any sale, assignment, or other transfer of the motor fuel franchise by a motor fuel retailer to a third party without fairly compensating the motor fuel retailer for the fair market value, at the time of expiration of the franchise, of the motor fuel retailer's inventory, supplies, equipment, and furnishings purchased from the motor fuel refiner-supplier, and good will, exclusive of personalized materials which have no value to the motor fuel refiner-supplier, and inventory, supplies, equipment, and furnishings not reasonably required in the conduct of the franchise business. A motor fuel refiner-supplier may offset against amounts owed to a motor fuel retailer under this section any amounts owed by the motor fuel retailer to the motor fuel refiner-supplier.

NEW SECTION. Sec. 4. Notwithstanding the terms of any motor fuel franchise, no motor fuel refiner-supplier may prohibit or prevent the sale, assignment, or other transfer of the motor fuel franchise to a corporation in which the motor fuel retailer has a controlling interest if the motor fuel retailer offers in writing personally to guarantee the performance of the obligations under the motor fuel franchise.

NEW SECTION. Sec. 5. Notwithstanding the terms of any motor fuel franchise, the interest of a motor fuel retailer under such an agreement shall be considered personal property and shall devolve on the death of the motor fuel retailer to a designated successor in interest of the retailer, limited to the retailer's spouse, adult child, or adult stepchild or, if no successor in interest is designated, to the retailer's spouse, if any. The designation shall be made, witnessed in writing by at least two persons, and delivered to the motor fuel refiner-supplier during the term of the franchise. The designation may be revised at any time by the motor fuel retailer and shall be substantially in the following form:
'I (motor fuel retailer name) at the ............ service station located at ......... in the City of ............, Washington, designate ............ as my successor in interest under section 4 of this act and ............ as my alternate successor if the originally designated successor is unable or unwilling so to act.

I so specify this ........ day of ........, 19 .......

The motor fuel refiner-supplier shall assist the designated successor in interest temporarily in the day-to-day operation of the service station to insure continued operation of the service station.

NEW SECTION. Sec. 6. Notwithstanding the terms of any motor fuel franchise, the retailer shall be given the right of first refusal to purchase the real estate and/or improvements owned by the refiner-supplier at the franchise location, and at least thirty days' advance notice within which to exercise this right, prior to any sale thereof to any other buyer.

NEW SECTION. Sec. 7. Notwithstanding the terms of any motor fuel franchise, no motor fuel refiner-supplier may:

(1) Require any retailer to meet mandatory minimum sales volume requirements for fuel or other products unless the refiner-supplier proves that its price to the retailer has been sufficiently low to enable the retailer reasonably to meet the mandatory minimum;

(2) Alter, or require the retailer to consent to the alteration of, any provision of the franchise during its effective term without mutual consent of the retailer;

(3) Interfere with any retailer's right to assistance of counsel on any matter or to join or be active in any trade association; and

(4) Set or compel, directly or indirectly, the retail price at which the retailer sells motor fuel or other products to the public.

NEW SECTION. Sec. 8. It is unlawful for any person in connection with the offer, sale, or purchase of any franchise directly or indirectly:

(1) To sell or offer to sell a franchise in this state by means of any written or oral communication which includes an untrue statement of a material fact or omits to state a material fact necessary in order to make the statements made in light of the circumstances under which they were made not misleading.

(2) To employ any device, scheme, or artifice to defraud.

(3) To engage in any act, practice, or course of business which operates or would operate as a fraud or deceit upon any person.

(4) To violate any order of the attorney general.

NEW SECTION. Sec. 9. Without limiting the other provisions of this chapter, the following specific rights and prohibitions shall govern the relation between the motor fuel refiner-supplier and the motor fuel retailers:

(1) The parties shall deal with each other in good faith.

(2) For the purposes of this chapter and without limiting its general application, it shall be an unfair or deceptive act or practice or an unfair method of competition and therefore unlawful and a violation of this chapter for any person to:

(a) Require a motor fuel retailer to purchase or lease goods or services of the motor fuel refiner-supplier or from approved sources of supply unless and to the extent that the motor fuel refiner-supplier satisfies the burden of proving that such restrictive purchasing agreements are reasonably necessary for a lawful purpose justified on business grounds, and do not substantially affect competition. PROVIDED, That this provision shall not apply to the initial inventory of the franchise. In determining whether a requirement to purchase or lease goods or services constitutes an unfair or deceptive act or practice or an unfair method of competition the courts shall be guided by the decisions of the courts of the United States interpreting and applying the anti-trust laws of the United States.

(b) Discriminate between motor fuel retailers in the charges offered or made for royalties, goods, services, equipment, rentals, advertising services, or in any other business dealing, unless and to the extent that the motor fuel refiner-supplier satisfies the burden of proving that any classification of or discrimination between motor fuel retailers is reasonable, is based on franchises granted at materially different times and such discrimination is reasonably related to such difference in time or on other proper and justifiable distinctions considering the purposes of this chapter, and is not arbitrary.

(c) Sell, rent, or offer to sell to a motor fuel retailer any product or service for more than a fair and reasonable price.

(d) Require motor fuel retailer to assent to a release, assignment, novation, or waiver which would relieve any person from liability imposed by this chapter.

NEW SECTION. Sec. 10. (1) Any person who sells or offers to sell a franchise in violation of this chapter shall be liable to the motor fuel retailer or motor fuel refiner-supplier who may sue at law or in equity for damages caused thereby for rescission or other relief as the court may deem appropriate. In the case of a violation of section 8 of this act rescission is not available to the plaintiff if the defendant proves that the plaintiff knew the facts concerning the untruth or omission or that the defendant exercised reasonable care and did not know or if he had exercised reasonable care would not have known of the untruth or omission.
NEW SECTION. Sec. 11. The pendency of any civil, criminal, or administrative proceedings against a person brought by the federal or Washington state governments or any of their agencies under the anti-trust laws, the Federal Trade Commission Act, or any federal or state act related to anti-trust laws or franchising, or under this chapter shall toll the limitation of this action if the action is then instituted within one year after the final judgment or order in such proceedings. PROVIDED. That said limitation of actions shall in any case toll the law so long as there is actual concealment on the part of the person.

NEW SECTION. Sec. 12. Any motor fuel retailer who is injured in his or her business by the commission of any act prohibited by this chapter, or any motor fuel retailer injured because of his or her refusal to accede to a proposal for an arrangement which, if consummated, would be in violation of this chapter may bring a civil action in superior court to enjoin further violations, to recover the actual damages sustained by him or her, or both, together with the costs of the suit, including reasonable attorneys' fees.

NEW SECTION. Sec. 13. (1) The attorney general may bring an action in the name of the state against any person to restrain and prevent the doing of any act herein prohibited or declared to be unlawful. The prevailing party may in the discretion of the court recover the costs of such action including a reasonable attorneys' fee.

(2) Nothing in this chapter limits the power of the state to punish any person for any conduct which constitutes a crime by statute or at common law.

NEW SECTION. Sec. 14. In any proceeding under this chapter, the burden of proving an exception or an exemption from definition is upon the person claiming it. Any condition, stipulation or provision purporting to bind any person acquiring a franchise at the time of entering into a franchise or other agreement to waive compliance with any provision of this chapter or any rule or order hereunder is void.

NEW SECTION. Sec. 15. The provisions of this chapter apply to any motor fuel franchise or contract entered into or renewed on or after the effective date of this act between a motor fuel refiner-supplier and a motor fuel retailer.

NEW SECTION. Sec. 16. The Administrative Procedure Act, chapter 34.04 RCW, shall wherever applicable herein govern the rights, remedies, and procedures respecting the administration of this chapter.

Debate ensued.

POINT OF INQUIRY

Senator Saling: "Senator Benitz, your amendment suggests that the radioactive material be less than ten nanocuries. That means a very small amount of radioactive material. Does it not?"

Senator Benitz: "Yes, and that's the definition you have before you. It is the federal definition and this is my concern that we are not adopting a state statute that conforms with the federal regulation and if we don't, it's in conflict, and I can assure you that the Feds are going to prevail. It cleans it up and puts it in the same context as the federal one and that's the reason I urge you to adopt it."

Senator Saling: "Well, Senator Benitz, if it is less than ten nanocuries, it seems to me that the whole bill would only refer to those radioactive materials that had a very small amount of radioactivity in it and we would be ignoring those with the greater amount. Is that correct?"

Senator Benitz: "Not quite. It's true that would be low level waste and that's what we should be referring to. We do not have the authority to legislate and put into being high level waste, and this is the correct definition."

The President declared the question before the Senate to be adoption of the amendment by Senator Benitz.

The motion by Senator Benitz failed and the amendment was not adopted on a rising vote.

POINT OF INQUIRY

Senator Deccio: "Senator Talmadge, do these amendments, and I'd ask you the same thing on final passage, do these affect the transfer of the asset's amendment that you and I placed in statute in 1982?"

Senator Bluechel moved that the following amendment to the amendment be adopted:

On page 1, line 3, of the Bottiger amendment, after "home" strike "immediately"

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Bottiger, what difference does it make? You've got a patient out there and in the case that Senator Bluechel explained, he is going to get adequate care and if he or his relatives decide they don't want it, they can go to some other care. I'm thinking about it from the patient's standpoint and what's best for them. I would think the availability of this would be better and I would think that the oral amendment by Senator Bluechel, striking 'immediately' doesn't harm the patient, but gives them an option and I would most certainly agree with the amendment."

Senator Bottiger: "Senator, what we're talking about is this whole bill pertains to whose going to pay for it. It doesn't have anything to do with who you can contract for if you want to pay for it with your own money, but if it comes under your insurance policy, then that's what this bill is about."
"Now the turf battle is between one group who we have required to be licensed, certified and tested, called Home Health Care Service Providers and on the other hand nursing homes who are licensed to conduct a facility, but normally do not leave the premises to provide service. They are not willing to go through the whole regulatory process to become Home Health Care Service Providers. They feel because they've got a nursing home license that's about all they should have to do, so we've got a turf problem. I'm trying to find the middle road—if a patient who went home and they're continuing the service, they can, but if it was a fifteen year-old who broke his leg thirty years ago, they can't."

Further debate ensued.

The President declared the question before the Senate to be adoption of the amendment by Senator Bluecheel to the amendment by Senator Bottiger.

The motion by Senator Bluecheel carried and the amendment to the amendment was adopted.

Debate ensued.

POINT OF INQUIRY

Senator Kiskaddon: "Senator Bottiger, the thing that I'm wondering about is, does this say as to which one is which? Are we going to say that the nursing homes in any way would have to do greater standards than—"

Senator Bottiger: "Senator Kiskaddon, both sides agreed to this amendment. They say it resolves a turf problem."

The President declared the question before the Senate to be adoption of the amendment by Senator Bottiger.

Debate ensued.

POINT OF INQUIRY

Senator Bottiger: "Senator Thompson, as to members of the Legislature, they would have to be reelected? In my case, since I'm not up for election until '89, I could not draw any increase until that time. Is that correct?"

Senator Thompson: "That's correct and it is provided for in the Constitution."
The President declared the question before the Senate to be adoption of the amendment by Senator Thompson.

SECOND READING

SENATE BILL NO. 4798, by Senators Granlund, Zimmerman, Kreidler and Talmadge

Providing for enforcement of water quality.

MOTIONS

On motion of Senator Thompson, Substitute Senate Bill No. 4798 was substituted for Senate Bill No. 4798 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Granlund, the following amendment was adopted:

On page 2, line 3, after "90.48 RCW," insert a new section as follows:

"NEW SECTION. Sec. 7. The department is not required to comply with sections 3, 4, and 5 of this act unless specific funding is provided therefore."

On motion of Senator Thompson, the rules were suspended, Engrossed Substitute Senate Bill No. 4798 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Granlund, I notice in the synopsis here, 'The Department of Ecology is to periodically review water quality standards and a report is to be submitted to the Legislature by January.' Are they going to review and change the water quality standards or what do they have in mind?"

Senator Granlund: "They were unable to do so with the fiscal note that's attached because it didn't appropriate the funds to do that. I would assume they could make a report back to us on the unannounced investigations to help do something with water quality."

Senator Rasmussen: "Is it your belief that they will stick with the federal water quality standards as published?"

Senator Granlund: "Yes."

Senator Rasmussen: "Thank you."
POINT OF INQUIRY

Senator Lee: "Senator Granlund, since we have effectively taken out anything except the requirement for them to make a ten percent inspection for those who already have water quality permits and that those be unannounced. I'm just wondering why there's really any need for the bill at all, if we are no longer—and I really can't understand why they thought they needed an additional appropriation for us to require them to put together rules and regulations for these particular kinds of waste discharge permits when the Legislative Budget Committee quite clearly in their analysis of this Department chided them for not having done so when they had specifically been granted additional funds in this biennium budget to make such inspections, as well as the rules and regulations. Why we're suddenly saying now—unless they get an additional appropriation—they don't have to do it. I just think that's a cop-out for us."

Senator Granlund: "I don't think we're saying they don't have to do it. We're hopeful that they will do it, Senator Lee."

Senator Lee: "What you're saying is the Department is not required to comply with those sections, unless specific funding is provided."

Senator Granlund: "You're correct. The part that they can do or have not been doing is the unannounced investigations and until the funding is there it would not be done. Certainly, we would expect the report that LBC has asked for."

The President declared the question before the Senate to be the roll call on final passage of Engrossed Substitute Senate Bill No. 4798.

ROLL CALL

The Secretary called the roll on final passage of Engrossed Substitute Senate Bill No. 4798 and the bill passed the Senate by the following vote: Yeas, 45; nays, 2; absent, 1; excused, 1.

MOTION FOR RECONSIDERATION

Having served prior notice, Senator Talmadge moved that the Senate now reconsider the vote by which Engrossed Substitute Senate Bill No. 4659 failed to pass the Senate earlier today.

Debate ensued.

The President declared the question before the Senate to be the motion by Senator Talmadge that the Senate reconsider the vote by which Engrossed Substitute Senate Bill No. 4659 failed to pass the Senate.

The motion by Senator Talmadge carried and the Senate resumed consideration of Engrossed Substitute Senate Bill No. 4659, on reconsideration.

MOTIONS

On motion of Senator Talmadge, Engrossed Substitute Senate Bill No. 4659 was returned to second reading and read the second time.
Senator Talmadge moved that the following amendment be adopted:
Strike everything after the enacting clause and insert:

"NEW SECTION. Sec. 1. A new section is added to chapter 74.09 RCW to read as follows:
The department shall apply community property law under chapter 26.16 RCW for purposes of determining eligibility for medical assistance or the limited casualty program for the medically needy for institutionalized persons and recipients of home and community-based waivers as defined in Title XIX of the federal social security act except that:
(1) An agreement between spouses transferring or assigning rights to future income from one spouse to the other shall be invalid for purposes of determining eligibility for medical assistance or the limited casualty program for the medically needy, but this subsection does not affect agreements between spouses transferring or assigning resources, and income produced by transferred or assigned resources shall continue to be recognized as the separate income of the transferee; and
(2) The department shall not apply community property law where the income or earnings of the nonapplicant spouse exceeds the income or earnings of the applicant spouse.

NEW SECTION. Sec. 2. There is appropriated from the general fund to the department of social and health services for the biennium ending June 30, 1987, the sum of two million seven hundred nine thousand dollars, or so much thereof as may be necessary, to carry out the purposes of this act.

NEW SECTION. Sec. 3. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately."

Debate ensued.

POINT OF INQUIRY

Senator Deccio: "Senator Talmadge, I have a letter from Secretary Shinpoch of the Department of Social and Health Services, dated February the 4th, which says that the Department does not intend to impact the transfer of the asset's amendment which permits unlimited transfer of resources between spouses. In your opinion, does this amendment affect the statement made by Senator Shinpoch in any way?"

Senator Talmadge: "I think it's consistent with the statement made by Secretary Shinpoch. It affects only income and not assets."

Senator Deccio: "I guess the next question I have is the difference between transfer of resources as opposed to income."

Senator Talmadge: "The intention, Senator, is to affect only income not tangible assets or resources of the parties. That would be handled consistent with the section that you and I worked on back in 1982."

The President declared the question before the Senate to be adoption of the amendment by Senator Talmadge.

The motion by Senator Talmadge carried and the amendment was adopted.

MOTIONS

On motion of Senator Talmadge, the following title amendment was adopted:
On page 1, line 2, after "74.09 RCW:" insert "making an appropriation;"

On motion of Senator Talmadge, the rules were suspended, Reengrossed Substitute Senate Bill No. 4659 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator McDonald: "Senator Talmadge, the exchange between you and Senator Deccio attracts my attention. This only deals with income so you could have a lot of wealth, but not much income and transfer that around? Is that correct?"

Senator Talmadge: "That is correct, Senator McDonald. Of course, you should recall that the federal tax code frowns upon such transfers of assets and such transfers of assets do carry some considerable capital gain and income significance, that's why there's some disincentive for people to do that. This permits people to make the kind of separate property agreements and community property agreements that are rather common out there that people utilize. There is some value in doing that but it does not, in effect, provide an incentive for people to do that as a mechanism for qualifying someone for a public assistance, specifically medicaid."

Senator McDonald: "Then the barrier to doing that would be the penalty that you pay in capital gains?"
Senator Talmadge: "That's my belief, yes—among other things."
Senator McDonald: "Thank you."

POINT OF INQUIRY

Senator Rasmussen: "Senator Talmadge, it's not quite clear yet. Take that person that has a three hundred dollar income and the other person that has seven hundred dollars, say, combined they've got a thousand dollars, which is a minimum standard of living. What would this do? Would this say that you split the income with the one person who's going into the nursing home or whatever?"

Senator Talmadge: "Senator, I'll let Senator Kreidler respond to that. The idea is to recognize in a limited way the separate property status of the property, the community property status of the property, depending upon whether they're the primary generator of income and the other individual is in a situation of qualifying for assistance.

"Senator Kreidler may respond—"

Senator Kreidler: "Why I was interested in it, is that the survivor never has enough money to live on. Once it's decided, that money is gone. The person that is in the home dies. The decision still stands and whoever is the survivor, man or woman, there's no inheritance after you've taken it away. No, because many of these pensions are not inheritable."

REMARKS BY SENATOR KREIDLER

Senator Kreidler: "Senator Rasmussen, if the person in the nursing home was the person with the seven hundred dollar income and the person on the outside was the one with three hundred, then community property would apply. You would essentially get five hundred dollars of the income from the person on the outside. If the person on the outside has the seven hundred dollar income and the person in the nursing home had three hundred, then community laws don't apply. The person on the outside keeps the seven hundred.

"That is a marked improvement over the current practice that preceded the Purser case or the one that is being applied after the Purser case. I should say the one after the Purser case essentially protects that position for that—"

Senator Rasmussen: "One other question, please. The Purser v. Rahm went in last fall according to Senator Talmadge. How many cases have been filed? And were they wealthy or poor?"

Senator Kreidler: "Essentially, the people who have come back under the Purser situation were women who ever since medicaid became the law of the land, and essentially what would happen is that person on the outside who was the low income one would have community property applied, so that they would have essentially then been limited effectively to the five hundred dollars by virtue—excuse me, to half of the property that was on the outside. It it were a hundred and fifty, they would come under SSI and qualify that way. They were really penalized. As a result of the Purser case then, they benefited in exactly the way the amendment specifies in the sense that if community laws applied, it would be averaging of their two incomes and fifty percent then of that would be applied."

Senator Rasmussen: "My concern is that women live an average of ten years longer than the men and that's my concern that they'll be left with nothing."

Further debate ensued.

The President declared the question before the Senate to be the roll call on final passage of Reengrossed Substitute Senate Bill No. 4659.

Promoting local governments hazardous waste management programs.

The bill was read the second time.

MOTIONS

On motion of Senator Kreidler, the following Committee on Parks and Ecology amendment was adopted:

Strike everything after the enacting clause and insert the following:

"Sec. 1. Section 6, chapter 448, Laws of 1985 and RCW 70.105.220 are each amended to read as follows:

(1) Each local government, or combination of contiguous local governments, is directed to prepare a local hazardous waste plan which shall be based on state guidelines and include the following elements:

(a) A plan or program to manage moderate-risk wastes that are generated or otherwise present within the jurisdiction. This element shall include an assessment of the quantities, types, generators, and fate of moderate-risk wastes in the jurisdiction. The purpose of this element is to develop a system of managing moderate-risk waste, appropriate to each local area, to ensure protection of the environment and public health;

(b) A plan or program to provide for ongoing public involvement and public education in regard to the management of moderate-risk waste. This element shall provide information regarding:

(i) The potential hazards to human health and the environment resulting from improper use and disposal of the waste; and

(ii) Proper methods of handling, reducing, recycling, and disposing of the waste;

(c) An inventory of all existing generators of hazardous waste and facilities managing hazardous waste within the jurisdiction. This inventory shall be based on data provided by the department;

(d) A description of the public involvement process used in developing the plan:

(e) A description of the eligible zones designated in accordance with RCW 70.105.225. However, the requirement to designate eligible zones shall not be considered part of the local hazardous waste planning requirements; and

(f) Other elements as deemed appropriate by local government.

(2) To the maximum extent practicable, the local hazardous waste plan shall be coordinated with other hazardous materials-related plans and policies in the jurisdiction.

(3) In recognition of the role of the private sector in providing hazardous and moderate-risk waste management facilities and transportation services, and in addition to other public involvement activities that may be required, local governments shall coordinate with those persons involved in providing such facilities and services.

(4) (a) The department shall prepare guidelines for the development of local hazardous waste plans. The guidelines shall be prepared in consultation with local governments and shall be completed by December 31, 1986. The guidelines shall include a list of substances identified as hazardous household substances.

(b) In preparing the guidelines under (a) of this subsection, the department shall review and assess information on pilot projects that have been conducted for moderate-risk waste management. The department shall encourage additional pilot projects as needed to provide information to improve and update the guidelines.
The department shall consult with retailers, trade associations, public interest groups, and appropriate units of local government to encourage the development of voluntary public education programs on the proper handling of hazardous household substances.

Local hazardous waste plans shall be completed and submitted to the department no later than June 30, 1990. Local governments may from time to time amend the local plan.

Each local government, or combination of contiguous local governments, shall submit its local hazardous waste plan or amendments thereto to the department. The department shall approve or disapprove local hazardous waste plans or amendments by December 31, 1990, or within ninety days of submission, whichever is later. The department shall approve a local hazardous waste plan if it determines that the plan is consistent with this chapter and the guidelines under subsection (4) of this section. If approval is denied, the department shall submit its objections to the local government within ninety days of submission. However, for plans submitted between January 1, 1990, and June 30, 1990, the department shall have one hundred eighty days to submit its objections. No local government is eligible for grants under RCW 70.105.235 for implementing a local hazardous waste plan unless the plan for that jurisdiction has been approved by the department.

Each local government, or combination of contiguous local governments, shall implement the local hazardous waste plan for its jurisdiction by December 31, 1991.

The department may waive the specific requirements of this section for any local government if such local government demonstrates to the satisfaction of the department that the objectives of the planning requirements have been met.

Sec. 2. Section 9, chapter 448, Laws of 1985 and RCW 70.105.235 are each amended to read as follows:

Subject to legislative appropriations, the department may make and administer grants to local governments for (a) preparing and updating local hazardous waste plans, (b) implementing approved local hazardous waste plans, and (c) designating eligible zones for designated zone facilities as required under this chapter.

Local governments shall match the funds provided by the department for planning or designating zones with an amount not less than twenty-five percent of the estimated cost of the work to be performed. Local governments may meet their share of costs with cash or contributed services. Local governments, or combination of contiguous local governments, conducting pilot projects pursuant to RCW 70.105.220(4) may subtract the cost of those pilot projects conducted for hazardous household substances from their share of the cost. If a pilot project has been conducted for all moderate-risk wastes, only the portion of the cost that applies to hazardous household substances shall be subtracted. The matching funds requirement under this subsection shall be waived for local governments, or combination of contiguous local governments, that complete and submit their local hazardous waste plans under RCW 70.105.220 prior to June 30, 1988.

Recipients of grants shall meet such qualifications and follow such procedures in applying for and using grants as may be established by the department.

NEW SECTION. Sec. 3. A new section is added to chapter 70.105 RCW to read as follows:

The legislature recognizes the need for new, modified, or expanded facilities to treat, incinerate, or otherwise process or dispose of hazardous substances safely. In order to encourage the development of such facilities, the department shall adopt rules as necessary regarding the permitting of such facilities to ensure the most expeditious permit processing possible consistent with the substantive requirements of applicable law. If owners and operators are not the same entity, the operator shall be the permit applicant and responsible for the development of the permit application and all accompanying materials, as long as the owner also signs the application and certifies its ownership of the real property described in the application, and acknowledges its awareness of the contents of the application and receipt of a copy thereof.

On motion of Senator Kreidler, the following title amendment was adopted:

On page 1, line 2 of the title, after “uses:” strike “and” and after “70.105.235” insert “; and adding a new section to chapter 70.105 RCW”

MOTION

ROLL CALL

The Secretary called the roll on final passage of Second Substitute House Bill No. 136, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 44; absent, 1; excused, 4.
Voting yea: Senators Bailey, Barr, Bauer, Bender, Bluetchel, Bottiger, Cantu, Conner, Craswell, Decco, DeJarnatt, Garrett, Gaspard, Goltz, Granlund, Guess, Haisan, Hansen, Hayner, Johnson, Kiskaddon, Kreidler, Lee, McDermott, McManus, Metcalf, Moore, Newhouse, Owen, Patterson, Peterson, Pullen, Rasmussen, Rinehart, Saling, Talmadge, Thompson, Vognild, von Reichbauer, Warnke, Williams, Wojahn, Zimmerman - 44.

Absent: Senator McCaslin - 1.

Excused: Senators Fleming, McDonald, Sellar, Stratton - 4.

SECOND SUBSTITUTE HOUSE BILL NO. 136, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 160, by Committee on Education (originally sponsored by Representative P. King)

Authorizing fees for certain preadmission screening processes.

The bill was read the second time.

MOTIONS

On motion of Senator Gaspard, the following Committee on Education amendment was adopted:

On page 1, line 18, after "which" strike "requires" and insert "authorizes"

Senator Pullen moved that the following amendment be adopted:

On page 1, line 20, after "tees" insert "not to exceed ten dollars per preadmission student"

Debate ensued.

POINT OF INQUIRY

Senator Metcalf: "Senator Gaspard, what are the fees they are charging? Let's get an idea of where we are in this because perhaps Senator Pullen's amendment isn't necessary and maybe the fees are very high. What are they charging in these cases?"

Senator Gaspard: "Senator Metcalf, in those districts that seem to be doing this, we don't have any indication in committee testimony of what the fees were. We didn't have anybody to testify that they had been exorbitant or they had been burdensome in any case. It's a situation where there's ambiguity in the law and we're trying to straighten it out and have provisos that allow the local school districts to adopt common sense and rules of common reason."

Senator Metcalf: "Thank you, Senator Gaspard. It appears to me that we don't have an idea of what the fees are. I guess I'm going to go with Senator Pullen on the amendment just to put a limit there, since we don't have any idea of what is now being charged."

POINT OF INQUIRY

Senator Rasmussen: "Senator Gaspard, in the testimony before your committee, how many of these pre-admission tests, on the whole, would they have?"

Senator Gaspard: "Senator Rasmussen, that would be determined by the local school district and the parents."

Senator Rasmussen: "Well, I mean in past history. What did they have—a thousand, two thousand or three thousand people who were asking for pre-admittance screening?"

Senator Gaspard: "Senator, I don't know if I can give you an exact figure. The committee did not look in asking those types of questions to those who testified. I quite frankly don't see that there is any particular bearing on how many students and parents who are asking for pre-admittance. We do know that it takes place and sometimes it is time-consuming for the school districts, but it is also important that they do these types of pre-screening testing and some of them can be rather extensive."

Senator Rasmussen: "You indicated, Senator Gaspard, that maybe this would take money away from basic education and that's why I was wondering just how many people were involved—young children?"

Senator Gaspard: "I don't think it's a great percentage to be alarmed but I know that Senator Pullen always has a concern about basic education money."
Senator Rasmussen: "Thank you, Senator Gaspard."
Further debate ensued.

MOTION
On motion of Senator Vognild, and there being no objection, further consideration of Substitute House Bill No. 160 was deferred.

MOTION
On motion of Senator Vognild, the Senate advanced to the eighth order of business.

MOTION
Senator Goltz moved that the following resolution be adopted:

SENATE RESOLUTION 1986-157

by Senators Goltz, Benitz and Hayner

WHEREAS, The state of Washington and the province of British Columbia have historically enjoyed excellent relations, with citizens of each jurisdiction partaking of the products, services, and hospitality of the other; and

WHEREAS, This good neighbor relationship is reflected in the participation by the state of Washington in "Expo 86"; and

WHEREAS, Existing barriers to trade have resulted in a significant trade deficit for the United States in relation to Canada; and

WHEREAS, The federal governments of the United States and Canada are currently negotiating toward reduction of these barriers to improve the flow of trade and the quality of life for the citizens of both countries; and

WHEREAS, The British Columbia Liquor Distribution Branch continues to impose a discriminatory mark up on beer and wine imported from the state of Washington for sale in the provincial liquor stores, resulting in products produced in the state of Washington being at a distinct competitive disadvantage and unnecessarily high prices for the citizens of British Columbia; and

WHEREAS, The British Columbia Liquor Distribution Branch has recently acted to change the levy on the casual importation of beer and wine in a way that will result in an enormous increase in costs to citizens of British Columbia who purchase beer and wine in Washington State; and
