NEW SECTION. Sec. 17. A surface mining model ordinance advisory committee is hereby created. The committee shall be composed of representatives of local government, state agencies, surface mining interests, and the environmental community. The department of natural resources shall appoint the members of the committee and the department shall staff the committee. This temporary advisory committee shall draft model ordinances for different surface-mining settings and shall assist counties, cities, and towns in developing ordinances. The committee shall complete its work and shall expire by December 31, 1994. Participants on the committee shall pay their own expenses, and the department of natural resources shall fund the department's involvement.

NEW SECTION. Sec. 18. RECLAMATION SETBACKS. Reclamation setbacks shall be as follows unless waived by the department:

(1) The reclamation setback for unconsolidated deposits within mines permitted after June 30, 1993, shall be equal to the maximum anticipated height of the adjacent working face or as determined by the department. Setbacks and buffers may be destroyed as part of final reclamation of each segment if approved by the department.

(2) The minimum reclamation setback for consolidated materials within mines permitted after June 30, 1993, shall be thirty feet or as determined by the department.

(3) An exemption from this section may be granted by the department following a written request. The department may consider submission of a plan for backfilling acceptable to the department, a geotechnical slope-stability study, proof of a dedicated source of fill materials, written approval of contiguous landowners, and other information before granting an exemption.

NEW SECTION. Sec. 19. WATER CONTROL. (1) Water control as regulated by the department shall be limited to those provisions necessary to effect surface mine reclamation and to protect ground and surface water resources after reclamation is complete and shall be consistent with existing water control laws. The department shall solicit recommendations from all agencies with expertise in relevant water control laws when evaluating reclamation plans for surface mines in or near water.

(2) As to surface mining projects, control of surface mine water shall be pursuant to chapter 90.48 RCW; water availability, hydraulic continuity, allocation, and use shall be pursuant to chapters 90.03, 90.44, and 90.54 RCW; regulation of drinking water shall be pursuant to Titles 43 and 70 RCW; and protection of fisheries and wildlife shall be regulated pursuant to Title 75 RCW (fisheries laws) and Title 77 RCW (wildlife laws) as well as chapters 90.03, 90.44, 90.48, and 90.54 RCW, federal storm water regulations, and/or national pollutant discharge elimination system regulations. The department of ecology upon request by a county, city, or town, may consult with the affected parties and incorporate additional site-specific requirements into individual surface mine national pollutant discharge elimination system permits where such requirements are appropriate.

A county, city, or town may regulate the impacts on water through local ordinances and regulations that:

(a) Cover significant or substantial impacts that are not covered by a subject area of regulation embodied in any other state or federal law; or

(b) Implement regulatory and/or enforcement authority that has been expressly authorized to it by a state agency.
NEW SECTION. Sec. 20. RECLAMATION. The need for, and the practicability of, reclamation shall control the type and degree of reclamation in any specific instance. However, the basic objective of reclamation is to reestablish on a continuing basis the vegetative cover, slope stability, water conditions, and safety conditions suitable to the proposed subsequent use consistent with local land use plans for the surface mine site.

Each permit holder shall comply with the minimum reclamation standards in effect on the date the permit was issued and any additional reclamation standards set forth in the approved reclamation plan.

Reclamation activities, particularly those relating to control of erosion and mitigation of impacts of mining to adjacent areas, shall, to the extent feasible, be conducted simultaneously with surface mining, and in any case shall be initiated at the earliest possible time after completion of surface mining on any segment of the permit area.

All reclamation activities shall be completed not more than two years after completion or abandonment of surface mining on each segment of the area for which a reclamation permit is in force.

The department may by contract delegate enforcement of provisions of reclamation plans to counties, cities, and towns.

A county, city, or town performing enforcement functions may not impose any additional fees on permit holders.

NEW SECTION. Sec. 21. MINIMUM RECLAMATION STANDARDS. Reclamation of surface mines permitted after June 30, 1993, and reclamation of surface mine segments addressed by reclamation plans modified after June 30, 1994, shall meet the following minimum standards except as waived in writing by the department.

1. Prior to surface mining, permit holders shall carefully stockpile all topsoil on the site for use in reclamation, or immediately move topsoil to reclaim adjacent segments, except when the approved subsequent use does not require replacing the topsoil. Topsoil needed for reclamation shall not be sold as a mineral nor mixed with sterile soils. Stockpiled materials used as screening shall not be used for reclamation until such time as the appropriate county or municipal government has given its approval.

2. The department may require that clearly visible, permanent monuments delineating the permit boundaries and maximum extent of the disturbed area be set at appropriate places around the mine site. The permit holder shall maintain the monuments until termination of the reclamation permit.

3. All minimum reclamation standards may be waived in writing by the department in order to accommodate unique and beneficial reclamation schemes such as parks, swimming facilities, buildings, and wildlife reserves. Such waivers shall be granted only after written approval by the department of a reclamation plan describing the variances to the minimum reclamation standards, receipt of documentation of SEPA compliance, and written approvals from the landowner and by the local land use authority.

4. All surface-mined slopes shall be reclaimed to the following minimum standards:

   a. In surface mines in soil, sand, gravel, and other unconsolidated materials, all reclaimed slopes shall:
      i. Have varied steepness;
      ii. Have a sinuous appearance in both profile and plan view;
      iii. Have no large rectilinear topographic elements;
      iv. Generally have slopes of between 2.0 and 3.0 feet horizontal to 1.0 foot vertical or flatter except in limited areas where steeper slopes are necessary in order to create sinuous topography and to control drainage;
      v. Not exceed 1.5 feet horizontal to 1.0 foot vertical except as necessary to blend with adjacent natural slopes;
      vi. Be compacted if significant backfilling is required to produce the final reclaimed slopes and if the department determines that compaction is necessary.

   b. Slopes in consolidated materials shall have no prescribed slope angle or height, but where a severely hazardous condition is created by mining and that is not indigenous to the immediate area, the slopes shall not exceed 2.0 feet horizontal to 1.0 foot vertical. Steeper slopes shall be acceptable in areas where evidence is submitted that demonstrates that the geologic or topographic characteristics of the site preclude reclamation of slopes to such angle or height or that such slopes constitute an acceptable subsequent use under local land use regulations.

   c. Surface mines in which the seasonal or permanent water tables have been penetrated, thereby creating swamps, ponds, or lakes useful for recreational, wildlife habitat, water quality control, or other beneficial wetland purposes shall be reclaimed in the following manner:
      i. For slopes that are below the permanent water table in soil, sand, gravel, and other unconsolidated materials, the slope angle shall be no steeper than 1.5 feet horizontal to 1.0 foot vertical;
      ii. Generally, solid rock banks shall be shaped so that a person can escape from the water, however steeper slopes and lack of water egress shall be acceptable in rural, forest, or mountainous areas or where evidence is provided that such slopes would constitute an acceptable subsequent use under local land use regulations;
      iii. Both standpipes and armored spillways or other measures to prevent undesirable overflow or seepage shall be provided to stabilize all such water bodies within the disturbed area; and
Where lakes, ponds, or swamps are created, the permit holder shall provide measures to establish a beneficial wetland by developing natural wildlife habitat and incorporating such measures as irregular shoreline configurations, sinuous bathymetry and shorelines, varied water depths, peninsulas, islands, and subaqueous areas less than 1.5 foot deep during summer low-water levels. Clay-bearing material placed below water level may be required to avoid creating sterile wetlands.

(d) Final topography shall generally comprise sinuous contours, chutes and buttresses, spurs, and rolling mounds and hills, all of which shall blend with adjacent topography to a reasonable extent. Straight planar slopes and right angles should be avoided.

(e) The floors of mines shall generally grade gently into postmining drainages to preclude sheet-wash erosion during intense precipitation, except where backgrading is appropriate for drainage control, to establish wetlands, or to trap sediment.

(f) Topsoil shall be restored as necessary to promote effective revegetation and to stabilize slopes and mine floors. Where limited topsoil is available, topsoil shall be placed and revegetated in such a way as to ensure that little topsoil is lost to erosion.

(g) Where surface mining has exposed natural materials that may create polluting conditions, including but not limited to acid-forming coals and metalliferous rock or soil, such conditions shall be addressed according to a method approved by the department. The final ground surface shall be graded so that surface water drains away from these materials.

(h) All grading and backfilling shall be made with nonnoxious, noncombustible, and relatively incompactible solids unless the permit holder provides:

(i) Written approval from all appropriate solid waste regulatory agencies; and

(ii) Any and all revisions to such written approval during the entire time the reclamation permit is in force.

(i) Final reclaimed slopes should be left roughly graded, preserving equipment tracks, depressions, and small mounds to trap clay-bearing soil and promote natural revegetation. Where reasonable, final equipment tracks should be oriented in order to trap soil and seeds and to inhibit erosion.

(j) Pit floors should be bulldozed or ripped to foster revegetation.

(5) Drainages shall be graded and contain adequate energy dissipation devices so that essentially natural conditions of water velocity, volume, and turbidity are reestablished within six months of reclamation of each segment of the mine. Ditches and other artificial drainages shall be constructed on each reclaimed segment to control surface water, erosion, and siltation and to direct runoff to a safe outlet. Diversion ditches including but not limited to channels, flumes, tightlines and retention ponds shall be capable of carrying the peak flow at the mine site that has the probable recurrence frequency of once in twenty-five years as determined from data for the twenty-five year, twenty-four hour precipitation event published by the national oceanic and atmospheric administration. The grade of such ditches and channels shall be constructed to limit erosion and siltation. Natural and other drainage channels shall be kept free of equipment, wastes, stockpiles, and overburden.

(6) Impoundment of water shall be an acceptable reclamation technique provided that approvals of other agencies with jurisdiction are obtained and:

(a) Proper measures are taken to prevent undesirable seepage that could cause flooding outside the permitted area or adversely affect the stability of impoundment dikes or adjacent slopes;

(b) Both standpipes and armored spillways or other measures necessary to control overflow are provided.

(7) Revegetation shall be required to stabilize slopes, generate new topsoil, reduce erosion and turbidity, mask rectilinear contours, and restore the scenic value of the land to the extent feasible as appropriate to the approved subsequent use. Although the scope of and necessity for revegetation will vary according to the geography, precipitation, and approved subsequent use of the site, the objective of segmental revegetation is to reestablish self-sustaining vegetation and conditions of slope stability, surface water quality, and appearance before release of the reclamation permit. Revegetation shall normally meet the following standards:

(a) Revegetation shall commence during the first proper growing season following restoration of slopes on each segment unless the department has granted the permit holder a written time extension.

(b) In eastern Washington, the permit holder may not be able to achieve continuous ground cover owing to arid conditions or sparse topsoil. However, revegetation shall be as continuous as reasonably possible as determined by the department.

(c) Revegetation generally shall include but not be limited to diverse evergreen and deciduous trees, shrubs, grasses, and deep-rooted ground cover.

(i) For western Washington, nitrogen-fixing species including but not limited to alder, white clover, and lupine should be included in dry areas. In wet areas, tubers, sedges, wetland grasses, willow, cottonwood, cedar, and alder are appropriate.

(ii) In eastern Washington, lupine, white clover, Russian olive, black locust, junipers, and pines are among appropriate plants. In wet areas, cottonwood, tubers, and sedges are appropriate.
The requirements for revegetation may be reduced or waived by the department where erosion will not be a problem in rural areas where precipitation exceeds thirty inches per annum, or where revegetation is inappropriate for the approved subsequent use of the surface mine.

In areas where revegetation is critical and conditions are harsh, the department may require irrigation, fertilization, and importation of clay or humus-bearing soils to establish effective vegetation.

The department may refuse to release a reclamation permit or performance security until it deems that effective revegetation has commenced.

**NEW SECTION, Sec. 22. PERMIT TRANSFERS.** Reclamation permits shall be transferred to a subsequent permit holder and the department shall release the former permit holder from the duties imposed by this chapter if:

1. Both permit holders comply with all rules of the department addressing requirements for transferring a permit; and
2. Unless waived by the department, the mine and all others operated by both the former and subsequent permit holders and their principal officers or owners are in compliance with this chapter and rules.

**NEW SECTION, Sec. 23. MODIFICATION OF RECLAMATION PLANS.** The department and the permit holder may modify the reclamation plan at any time during the term of the permit for any of the following reasons:

1. To modify the requirements so that they do not conflict with existing or new laws;
2. If the department determines that the previously adopted reclamation plan is impossible or impracticable to implement and maintain; or
3. The previously approved reclamation plan is not accomplishing the intent of this chapter as determined by the department.

Modified reclamation plans shall be reviewed by the department as lead agency under SEPA. Such SEPA analyses shall consider only those impacts relating directly to the proposed modifications. Copies of proposed and approved modifications shall be sent to the appropriate county, city, or town.

**NEW SECTION, Sec. 24. REPORTS.** On the anniversary date of the reclamation permit and each year thereafter until reclamation is completed and approved, the permit holder shall file a report of activities completed during the preceding year. The report shall be on a form prescribed by the department.

**NEW SECTION, Sec. 25. INSPECTION OF PERMIT AREA.** The department may order at any time an inspection of the disturbed area to determine if the miner or permit holder has complied with the reclamation permit, rules, and this chapter.

**NEW SECTION, Sec. 26. ORDER TO RECTIFY DEFICIENCIES.** The department may issue an order to rectify deficiencies when a miner or permit holder is conducting surface mining in any manner not authorized by:

1. This chapter;
2. The rules adopted by the department;
3. The authorized reclamation plan; or
4. The reclamation permit.

The order shall describe the deficiencies and shall require that the miner or permit holder correct all deficiencies no later than sixty days from issuance of the order. The department may extend the period for correction for delays clearly beyond the miner or permit holder's control, but only when the miner or permit holder is, in the opinion of the department, making every reasonable effort to comply.

**NEW SECTION, Sec. 27. EMERGENCY NOTICE AND ORDER TO RECTIFY DEFICIENCIES--EMERGENCY ORDER TO SUSPEND SURFACE MINING.** When the department finds that a permit holder is conducting surface mining in any manner not authorized by:

1. This chapter;
2. The rules adopted by the department;
3. The approved reclamation plan; or
4. The reclamation permit;

and that activity has created a situation involving an immediate danger to the public health, safety, welfare, or environment requiring immediate action, the department may issue an emergency notice and order to rectify deficiencies, and/or an emergency order to suspend surface mining. These orders shall be effective when entered. The department may take such action as is necessary to prevent or avoid the danger to the public health, safety, welfare, or environment that justifies use of emergency adjudication. The department shall give such notice as is practicable to the permit holder or miner who is required to comply with the order. The order shall comply with the requirements of the administrative procedure act.

Regulations of surface mining operations administered by other state and local agencies shall be preempted by this section to the extent that the time schedule and procedures necessary to rectify the emergency situation, as determined by the department, conflict with such local regulation.
NEW SECTION. Sec. 28. ORDER TO SUSPEND SURFACE MINING. Upon the failure of a miner or permit holder to comply with a department order to rectify deficiencies, the department may issue an order to suspend surface mining when a miner or permit holder is conducting surface mining in any manner not authorized by:

(1) This chapter;
(2) The rules adopted by the department;
(3) The approved reclamation plan;
(4) The reclamation permit; and
(5) If the miner or permit holder fails to comply with any final order of the department.

The order to suspend surface mining shall require the miner or permit holder to suspend part or all of the miner’s or permit holder’s mining operations until the conditions resulting in the issuance of the order have been mitigated to the satisfaction of the department.

The attorney general may take the necessary legal action to enjoin, or otherwise cause to be stopped, surface mining in violation of an order to suspend surface mining.

NEW SECTION. Sec. 29. DECLARATION OF ABANDONMENT. The department may issue a declaration of abandonment when it determines that all surface mining has ceased for a period of one hundred eighty consecutive days not set forth in the permit holder’s reclamation plan or when, by reason of inspection of the permit area, or by any other means, the department determines that the mine has in fact been abandoned by the permit holder except that abandonment shall not include normal interruptions of surface mining resulting from labor disputes, economic conditions associated with lack of smelting capacity or availability of appropriate transportation, war, social unrest, demand for minerals, maintenance and repairs, and acts of God.

Following a declaration of abandonment, the department shall require the permit holder to complete reclamation in accordance with this chapter. If the permit holder fails to do so, the department shall proceed to do the necessary reclamation work pursuant to section 31 of this act.

If another miner applies for a permit on a site that has been declared abandoned, the department may, in its discretion, cancel the reclamation permit of the permit holder and issue a new reclamation permit to the applicant. The department shall not issue a new permit unless it determines that such issuance will be an effective means of assuring that the site will ultimately be reclaimed. The applicant must agree to assume the reclamation responsibilities left unfinished by the first miner, in addition to meeting all requirements for issuance of a new permit.

NEW SECTION. Sec. 30. CANCELLATION OF THE RECLAMATION PERMIT. When the department determines that a surface mine has been abandoned, it may cancel the reclamation permit. The permit holder shall be informed of such actions by a department notification of illegal abandonment and cancellation of the reclamation permit.

NEW SECTION. Sec. 31. ORDER TO SUBMIT PERFORMANCE SECURITY—RECLAMATION BY THE DEPARTMENT. The department may, with the staff, equipment, and material under its control, or by contract with others, reclaim the disturbed areas when it finds that reclamation has not occurred in any segment of a surface mine within two years of completion of mining or of declaration of abandonment and the permit holder is not actively pursuing reclamation.

If the department intends to undertake the reclamation, the department shall issue an order to submit performance security requiring the permit holder or surety to submit to the department the amount of moneys posted pursuant to section 15 of this act. If the amount specified in the order to submit performance security is not paid within twenty days after issuance of the notice, the attorney general upon request of the department shall bring an action on behalf of the state in a superior court to recover the amount specified and associated legal fees.

The department may proceed at any time after issuing the order to submit performance security with reclamation of the site according to the approved reclamation plan or according to a plan developed by the department that meets the minimum reclamation standards.

The department shall keep a record of all expenses incurred in carrying out any reclamation project or activity authorized under this section, including:

(1) Reclamation;
(2) A reasonable charge for the services performed by the state’s personnel and the state’s equipment and materials utilized; and
(3) Administrative and legal expenses related to reclamation of the surface mine.

The department shall refund to the surety or permit holder all amounts received in excess of the amount of expenses incurred. If the amount received is less than the expenses incurred, the attorney general, upon request of the department, may bring an action against the permit holder on behalf of the state in the superior court to recover the remaining costs listed in this section.

NEW SECTION. Sec. 32. FINES. Each order of the department may impose a fine or fines in the event that a miner or permit holder fails to comply with an order of the department. When a miner or permit holder fails to comply with an order of the
department, the miner or permit holder shall be subject to a civil penalty in an amount not more than ten thousand dollars for each violation plus interest based upon a schedule of fines set forth by the department in rule. Procedures for imposing a penalty and setting the amount of the penalty shall be as provided in RCW 90.48.144. Each day on which a miner or permit holder continues to disobey any order of the department shall constitute a separate violation. If the penalty and interest is not paid to the department after it becomes due and payable, the attorney general, upon the request of the department, may bring an action in the name of the state of Washington to recover the penalty, interest, mitigation for environmental damages, and associated legal fees. Decisions of the department are subject to review by the pollution control hearings board.

All fines, interest, penalties, and other damage recovery costs from mines regulated by the department shall be credited to the surface mining reclamation account.

NEW SECTION. Sec. 33. REFUSAL TO ISSUE PERMITS. The department shall refuse to issue a reclamation permit if it is determined during the SEPA process that the impacts of a proposed surface mine cannot be adequately mitigated. The department or county, city, or town may refuse to issue any other permit at any other location to any miner or permit holder who fails to rectify deficiencies set forth in an order of the department within the requisite time schedule. However, the department or county, city, or town shall issue all appropriate permits when all deficiencies are corrected at each surface mining site.

Sec. 34. RCW 78.44.150 and 1970 ex.s. c 64 s 16 are each amended to read as follows:

Any ((operator)) miner or permit holder conducting surface mining within the state of Washington without a valid ((reclamation)) reclamation permit shall be guilty of a gross misdemeanor. Surface mining outside of the permitted area shall constitute illegal mining without a valid reclamation permit. Each day of ((operation)) mining without a valid reclamation permit shall constitute a separate offense.

Sec. 35. RCW 78.44.170 and 1989 c 175 s 166 are each amended to read as follows:

Appeals from department determinations made under this chapter shall be made under the provisions of the Administrative Procedure Act (chapter 34.05 RCW), and shall be considered an adjudicative proceeding within the meaning of the Administrative Procedure Act, chapter 34.05 RCW. Only a person aggrieved within the meaning of RCW 34.05.530 has standing and can file an appeal.

Sec. 36. RCW 78.44.910 and 1970 ex.s. c 64 s 22 are each amended to read as follows:

(This act shall not direct itself to the reclamation of land mined) Miners and permit holders shall not be required to reclaim any segment where all surface mining was completed prior to January 1, 1971. However, the department shall make an effort to reclaim previously abandoned or completed surface mining segments.

NEW SECTION. Sec. 37. RECLAMATION AWARDS ESTABLISHED. The department shall create reclamation awards in recognition of excellence in reclamation or reclamation research. Such awards shall be presented to individuals, miners, operators, companies, or government agencies performing exemplary surface mining reclamation in the state of Washington. The department shall designate a percent of the state annual fees as funding of the awards.

NEW SECTION. Sec. 38. RECLAMATION SERVICE ESTABLISHED. The department may establish a no-cost consulting service within the department to assist miners, permit holders, local government, and the public in technical matters related to mine regulation, mine operations, and reclamation. The department may prepare concise, printed information for the public explaining surface mining activities, timelines for permits and reviews, laws, and the role of governmental agencies involved in surface mining, including how to contact all regulators. The department shall not be held liable for any negligent advice.

NEW SECTION. Sec. 39. The following acts or parts of acts are each repealed:

1. RCW 78.44.030 and 1987 c 258 s 1, 1984 c 215 s 1, & 1970 ex.s. c 64 s 4;

tangible or intangible personal property, proceeds, or assets acquired in whole or in part with proceeds traceable to an exchange or
series of exchanges in violation of this chapter or chapter 69.41 or 69.52 RCW, and all moneys, negotiable instruments, and
securities used or intended to be used to facilitate any violation of this chapter or chapter 69.41 or 69.52 RCW ((PROVIDED, That)
A forfeiture of money, negotiable instruments, securities, or other tangible or intangible property encumbered by a bona fide
security interest is subject to the interest of the secured party if, at the time the security interest was created, the secured party
neither had knowledge of nor consented to the act or omission ((PROVIDED FURTHER, That)). No personal property may be
forfeited under this paragraph, to the extent of the interest of an owner, by reason of any act or omission which that owner
establishes was committed or omitted without the owner's knowledge or consent; and

(8) All real property, including any right, title, and interest in the whole of any lot or tract of land, and any appurtenances or
improvements which are being used with the knowledge of the owner for the manufacturing, compounding, processing, delivery,
importing, or exporting of any controlled substance, or which have been acquired in whole or in part with proceeds traceable to an
exchange or series of exchanges in violation of this chapter or chapter 69.41 or 69.52 RCW, if such activity is not less than a class
C felony and a substantial nexus exists between the commercial production or sale of the controlled substance and the real
property ((PROVIDED, That)). However:

(i) No property may be forfeited pursuant to this subsection, to the extent of the interest of an owner, by reason of any act
or omission committed or omitted without the owner's knowledge or consent;

(ii) The bona fide gift of a controlled substance, legend drug, or imitation controlled substance shall not result in the
forfeiture of real property;

(iii) The possession of marijuana shall not result in the forfeiture of real property unless the marijuana is possessed for
commercial purposes, the amount possessed is five or more plants or one pound or more of marijuana, and a substantial nexus
exists between the possession of marijuana and the real property. In such a case, the intent of the offender shall be determined by
the preponderance of the evidence, including the offender's prior criminal history, the amount of marijuana possessed by the
offender, the sophistication of the activity or equipment used by the offender, and other evidence which demonstrates the offender's
intent to engage in commercial activity;

(iv) The unlawful sale of marijuana or a legend drug shall not result in the forfeiture of real property unless the sale was
forty grams or more in the case of marijuana or one hundred dollars or more in the case of a legend drug, and a substantial nexus
exists between the unlawful sale and the real property; and

(v) A forfeiture of real property encumbered by a bona fide security interest is subject to the interest of the secured party if
the secured party, at the time the security interest was created, neither had knowledge of nor consented to the act or omission.

(b) Real or personal property subject to forfeiture under this chapter may be seized by any board inspector or law
enforcement officer of this state upon process issued by any superior court having jurisdiction over the property. Seizure of real
property shall include the filing of a lis pendens by the seizing agency. Real property seized under this section shall not be
transferred or otherwise conveyed until ninety days after seizure or until a judgment of forfeiture is entered, whichever is later:
PROVIDED, That real property seized under this section may be transferred or conveyed to any person or entity who acquires title
by foreclosure or deed in lieu of foreclosure of a security interest. Seizure of personal property without process may be made if:

(1) The seizure is incident to an arrest or a search under a search warrant or an inspection under an administrative
inspection warrant;

(2) The property subject to seizure has been the subject of a prior judgment in favor of the state in a criminal injunction or
forfeiture proceeding based upon this chapter;

(3) A board inspector or law enforcement officer has probable cause to believe that the property is directly or indirectly
dangerous to health or safety; or

(4) The board inspector or law enforcement officer has probable cause to believe that the property was used or is
intended to be used in violation of this chapter.

(c) In the event of seizure pursuant to subsection (b), proceedings for forfeiture shall be deemed commenced by the
seizure. The law enforcement agency under whose authority the seizure was made shall cause notice to be served within fifteen
days following the seizure on the owner of the property seized and the person in charge thereof and any person having any known
right or interest therein, including any community property interest, of the seizure and intended forfeiture of the seized property.
Service of notice of seizure of real property shall be made according to the rules of civil procedure. However, the state may not
obtain a default judgment with respect to real property against a party who is served by substituted service absent an affidavat
stating that a good faith effort has been made to ascertain if the defaulted party is incarcerated within the state, and that there is no present basis to believe that the party is incarcerated within the state. Notice of seizure in the case of property subject to a security interest that has been perfected by filing a financing statement in accordance with chapter 62A.9 RCW, or a certificate of title, shall be made by service upon the secured party by the seizing law enforcement agency or the assignee addressed as shown on the financing statement or the certificate of title. The notice of seizure in other cases may be served by any method authorized by law or court rule including but not limited to service by certified mail with return receipt requested. Service by mail shall be deemed complete upon mailing within the fifteen day period following the seizure.

(d) If no person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of items specified in subsection (a)(4), (a)(7), or (a)(8) of this section within forty-five days of the seizure in the case of personal property and ninety days in the case of real property, the item seized shall be deemed forfeited. The community property interest in real property of a person whose spouse committed a violation giving rise to seizure of the real property may not be forfeited if the person did not participate in the violation. A perfected security interest of a secured party may be extinguished only after a contested hearing or agreement by the secured party.

(e) If any person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of items specified in subsection (a)(2), (a)(3), (a)(4), (a)(5), (a)(6), (a)(7), or (a)(8) of this section within forty-five days of the seizure in the case of personal property and ninety days in the case of real property) within ninety days, the person or persons shall be afforded a reasonable opportunity to be heard as to the claim or right. (The hearing shall be before the chief law enforcement officer of the seizing agency or the chief law enforcement officer's designee, except where the seizing agency is a state agency as defined in RCW 34.12.020(4), the hearing shall be before the chief law enforcement officer of the seizing agency or an administrative law judge appointed under chapter 34.12 RCW, except that any person asserting a claim or right may remove the matter to a court of competent jurisdiction if the aggregate value of the article or articles involved is more than five hundred dollars.) The prosecuting attorney shall file the case into a court of competent jurisdiction. The court to which the matter is file shall be the district court when the aggregate value of personal property is within the jurisdictional limit set forth in RCW 3.66.020. (A hearing before the seizing agency and any appeal therefrom shall be under Title 34 RCW.) In a court hearing between two or more claimants to the article or articles involved, the prevailing party shall be entitled to a judgment for costs and reasonable attorney's fees. In cases involving personal property, the burden of producing evidence shall be upon the person claiming to be the lawful owner or the person claiming to have the lawful right to possession of the property. In cases involving real property, the burden of producing evidence shall be upon the law enforcement agency. The burden of proof that the seized real property is subject to forfeiture shall be upon the law enforcement agency. The seizing law enforcement agency shall promptly return the article or articles to the claimant upon a determination by the (administrative law judge or) court that the claimant is the present lawful owner or is lawfully entitled to possession thereof if items specified in subsection (a)(2), (a)(3), (a)(4), (a)(5), (a)(6), (a)(7), or (a)(8) of this section.

(f) When property is forfeited under this chapter the board or seizing law enforcement agency may:
(1) Retain it for official use or upon application by any law enforcement agency of this state release such property to such agency for the exclusive use of enforcing the provisions of this chapter;
(2) Sell that which is not required to be destroyed by law and which is not harmful to the public;
(3) Request the appropriate sheriff or director of public safety to take custody of the property and remove it for disposition in accordance with law; or
(4) Forward it to the drug enforcement administration for disposition.

(g)(f) When property is forfeited, the seizing agency shall keep a record indicating the identity of the prior owner, if known, a description of the property, the disposition of the property, the value of the property at the time of seizure, and the amount of proceeds realized from disposition of the property.
(2) Each seizing agency shall retain records of forfeited property for at least seven years.
(3) Each seizing agency shall file a report including a copy of the records of forfeited property with the state treasurer each calendar quarter.

(4) The quarterly report need not include a record of forfeited property that is still being held for use as evidence during the investigation or prosecution of a case or during the appeal from a conviction.

(h)(1) By January 31st of each year, each seizing agency shall remit to the state treasurer an amount equal to ten percent of the net proceeds of any property forfeited during the preceding calendar year. Money remitted shall be deposited in the drug enforcement and education account under RCW 69.50.520.

(2) The net proceeds of forfeited property is the value of the forfeitable interest in the property after deducting the cost of satisfying any bona fide security interest to which the property is subject at the time of seizure; and in the case of sold property, after deducting the cost of sale, including reasonable fees or commissions paid to independent selling agents, and the cost of any valid landlord's claim for damages under subsection (n) of this section.
(3) The value of sold forfeited property is the sale price. The value of retained forfeited property is the fair market value of the property at the time of seizure, determined when possible by reference to an applicable commonly used index, such as the index used by the department of licensing for valuation of motor vehicles. A seizing agency may use, but need not use, an independent qualified appraiser to determine the value of retained property. If an appraiser is used, the value of the property appraised is net of the cost of the appraisal. The value of destroyed property and retained firearms or illegal property is zero.

(i) Forfeited property and net proceeds not required to be paid to the state treasurer shall be retained by the seizing law enforcement agency exclusively for the expansion and improvement of controlled substances related law enforcement activity. Money retained under this section may not be used to supplant preexisting funding sources.

(j) Controlled substances listed in Schedule I, II, III, IV, and V that are possessed, transferred, sold, or offered for sale in violation of this chapter are contraband and shall be seized and summarily forfeited to the state. Controlled substances listed in Schedule I, II, III, IV, and V, which are seized or come into the possession of the board, the owners of which are unknown, are contraband and shall be summarily forfeited to the board.

(k) Species of plants from which controlled substances in Schedules I and II may be derived which have been planted or cultivated in violation of this chapter, or of which the owners or cultivators are unknown, or which are wild growths, may be seized and summarily forfeited to the board.

(l) Only if the funds applied under (2) of this subsection are insufficient to satisfy the damage directly caused by a law enforcement officer prior to asserting a claim under the provisions of this section;

(ii) Failed to respond to a notification of the illegal activity, provided by a law enforcement agency under RCW 59.18 RCW, to cover the damage directly caused by a law enforcement officer prior to asserting a claim under the provisions of this section;

(m) Upon the entry of an order of forfeiture of real property, the court shall forward a copy of the order to the assessor of the county in which the property is located. Orders for the forfeiture of real property shall be entered by the superior court, subject to court rules. Such an order shall be filed by the seizing agency in the county auditor's records in the county in which the real property is located.

(n) A landlord may assert a claim against proceeds from the sale of assets seized and forfeited under subsection (f)(2) of this section, only if:

(i) A law enforcement officer, while acting in his or her official capacity, directly caused damage to the complaining landlord's property while executing a search of a tenant's residence; and

(ii) The landlord has applied any funds remaining in the tenant's deposit, to which the landlord has a right under chapter 59.18 RCW, to cover the damage directly caused by a law enforcement officer prior to asserting a claim under the provisions of this section;

(i) Only if the governmental entity denies or fails to respond to the landlord's claim within sixty days of the date of filing, whichever occurs first, a claim with the seizing law enforcement agency. The seizing law enforcement agency must notify the landlord of the status of the claim by the end of the thirty-day period. Nothing in this section requires the claim to be paid by the end of the sixty-day or thirty-day period.

(3) For any claim filed under (2) of this subsection, the law enforcement agency shall pay the claim unless the agency provides substantial proof that the landlord either:

(i) Knew or consented to actions of the tenant in violation of this chapter or chapter 69.41 or 69.52 RCW; or

(ii) Failed to respond to a notification of the illegal activity, provided by a law enforcement agency under RCW 59.18.075, within seven days of receipt of notification of the illegal activity.

(o) The landlord's claim for damages under subsection (n) of this section may not include a claim for loss of business and is limited to:

(1) Damage to tangible property and clean-up costs;

(2) The lesser of the cost of repair or fair market value of the damage directly caused by a law enforcement officer;

(3) The proceeds from the sale of the specific tenant's property seized and forfeited under subsection (f)(2) of this section; and

(4) The proceeds available after the seizing law enforcement agency satisfies any bona fide security interest in the tenant's property and costs related to sale of the tenant's property as provided by subsection (h)(2) of this section.

(p) Subsections (n) and (o) of this section do not limit any other rights a landlord may have against a tenant to collect for damages. However, if a law enforcement agency satisfies a landlord's claim under subsection (n) of this section, the rights the landlord has against the tenant for damages directly caused by a law enforcement officer under the terms of the landlord and tenant's contract are subrogated to the law enforcement agency.
NEW SECTION Sec. 2. A new section is added to chapter 46.61 RCW to read as follows:

(1) A vehicle driven by or under the actual physical control of the owner of the vehicle in violation of RCW 46.61.502 or 46.61.504 is, upon the conviction of the owner when that conviction is the second or subsequent conviction for a violation of RCW 46.61.502 or 46.61.504 within a five-year period, subject to seizure and forfeiture and no property right exists in that vehicle.

A forfeiture of a vehicle encumbered by a bona fide security interest is subject to the interest of the secured party if the secured party neither had knowledge of nor consented to the violation of RCW 46.61.502 or 46.61.504.

(2) A vehicle subject to forfeiture under this chapter may be seized by a law enforcement officer of this state upon process issued by a court of competent jurisdiction. Seizure of a vehicle may be made without process if the vehicle subject to seizure has been the subject of a prior judgment in favor of the state in a forfeiture proceeding based upon this section.

(3) A seizure under subsection (2) of this section automatically commences proceedings for forfeiture. The law enforcement agency under whose authority the seizure was made shall cause notice of the seizure and intended forfeiture of the seized vehicle to be served within fifteen days after the seizure on the owner of the vehicle seized, on the person in charge of the vehicle, and on any person having a known right or interest in the vehicle, including a community property interest. The notice of seizure may be served by any method authorized by law or court rule, including but not limited to service by certified mail with return receipt requested. Service by mail is complete upon mailing within the fifteen-day period after the seizure. Notice of seizure in the case of property subject to a security interest that has been perfected by filing a financing statement in accordance with chapter 62A.9 RCW, or a certificate of title, shall be made by service upon the secured party to the secured party's assignee at the address shown on the financing statement or the certificate of title.

(4) If no person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of the seized vehicle within ninety days of the seizure, the vehicle is deemed forfeited. A perfected security interest of a secured party may be extinguished only after a contested hearing or agreement by the secured party.

(5) If a person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of the seized vehicle within ninety days of the seizure, the law enforcement agency shall give the person or persons a reasonable opportunity to be heard as to the claim or right. The prosecuting attorney shall file the case into a court of competent jurisdiction. The court to which the matter is filed shall be the district court when the value of the vehicle is within the jurisdictional limit of the district court. In a court hearing between two or more claimants to the vehicle involved, the prevailing party is entitled to a judgment for costs and reasonable attorneys' fees. The burden of producing evidence is upon the person claiming to be the lawful owner or the person claiming to have the lawful right to possession of the vehicle. The seizing law enforcement agency shall promptly return the vehicle to the claimant upon a determination by the chief law enforcement officer of the seizing agency, the chief law enforcement officer's designee, or the court that the claimant neither knew of nor consented to the violation leading to seizure and is the present lawful owner or is lawfully entitled to possession of the vehicle.

(6) When a vehicle is forfeited under this chapter the seizing law enforcement agency may sell the vehicle, retain it for official use, or upon application by a law enforcement agency of this state release the vehicle to that agency for the exclusive use of enforcing this title.

(7) When a vehicle is forfeited, the seizing agency shall keep a record indicating the identity of the prior owner, if known, a description of the vehicle, the disposition of the vehicle, the value of the vehicle at the time of seizure, and the amount of proceeds realized from disposition of the vehicle.

(8) Each seizing agency shall retain records of forfeited vehicles for at least seven years.

(9) Each seizing agency shall file a report including a copy of the records of forfeited vehicles with the state treasurer each calendar quarter.

(10) The quarterly report need not include a record of a forfeited vehicle that is still being held for use as evidence during the investigation or prosecution of a case or during the appeal from a conviction.

(11) By January 31st of each year, each seizing agency shall remit to the state treasurer an amount equal to ten percent of the net proceeds of vehicles forfeited during the preceding calendar year. Money remitted shall be deposited in the public safety and education account.

(12) The net proceeds of a forfeited vehicle is the value of the forfeitable interest in the vehicle after deducting the cost of satisfying a bona fide security interest to which the vehicle is subject at the time of seizure; and in the case of a sold vehicle, after deducting the cost of sale, including reasonable fees or commissions paid to independent selling agents.

(13) The value of a sold forfeited vehicle is the sale price. The value of a retained forfeited vehicle is the fair market value of the vehicle at the time of seizure, determined when possible by reference to an applicable commonly used index, such as the index used by the department of licensing. A seizing agency may use, but need not use, an independent qualified appraiser to determine the value of retained vehicles. If an appraiser is used, the value of the vehicle appraised is net of the cost of the appraisal.

NEW SECTION Sec. 3. A new section is added to chapter 46.61 RCW to read as follows:
(1) Whenever a person is charged with a violation of RCW 46.61.502 or 46.61.504 and that person has been previously convicted for a violation of RCW 46.61.502 or 46.61.504 within a five-year period, the court shall instruct the person charged of the provisions of section 5 of this act and shall immediately forward notice of the charge to the director.

(2) Upon the conviction or acquittal of the person charged or if a pending charge is otherwise terminated, the court shall immediately forward notice of the conviction, acquittal, or other termination of charge to the director.

NEW SECTION. Sec. 4. A new section is added to chapter 46.12 RCW to read as follows:
Upon receiving notice of a charge under section 3 of this act, the director shall withhold the issuance of a certificate of ownership on a vehicle subject to section 5 of this act unless the applicant is included in the exceptions listed in that section or until receiving notice of acquittal or other termination of the charge under section 3 of this act.

NEW SECTION. Sec. 5. A new section is added to chapter 46.12 RCW to read as follows:
It is unlawful to convey, sell, or transfer the ownership of a motor vehicle that was driven by or was under the actual physical control of the owner of the vehicle who has previously been convicted for a violation of RCW 46.61.502 or 46.61.504 within a five-year period and is currently charged with a violation of RCW 46.61.502 or 46.61.504, except that:

(1) A vehicle encumbered by a bona fide security interest may be transferred to the secured party or to a person designated by the secured party; and

(2) A leased vehicle may be transferred to the lessor or to a person designated by the lessor.

Sec. 6. RCW 46.12.270 and 1969 ex.s.c 125 s 3 are each amended to read as follows:
Any person violating (the provisions of) RCW 46.12.250 ((or)), 46.12.260 ((shall be)), or section 5 of this act is guilty of a misdemeanor and shall be punished by a fine of not more than two hundred fifty dollars or by imprisonment in a county jail for not more than ninety days.”, and the same are herewith transmitted.

MESSAGE FROM THE HOUSE

April 18, 1993

MR. PRESIDENT:
The House has passed SUBSTITUTE SENATE BILL NO. 5837 with the following amendment(s):
Strike everything after the enacting clause and insert the following:

“NEW SECTION. Sec. 1. LEGISLATIVE FINDINGS AND DECLARATIONS. The legislature finds and declares that the issuance by state and local governments of bonds and other obligations, and the investment of moneys in connection with these obligations, involve exposure to changes in interest rates; that a number of financial instruments are available to lower the net cost of these borrowings, to increase the net return on these investments, or to reduce the exposure of state and local governments to changes in interest rates; that these reduced costs and increased returns for state and local governments will benefit taxpayers and ratepayers; and that the legislature desires to provide state and local governments with express statutory authority to take advantage of these instruments. In recognition of the complexity of these financial instruments, the legislature desires that this authority be subject to certain limitations, and be granted for an initial period of two years.

NEW SECTION. Sec. 2. DEFINITIONS. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter:

(1) “Financial advisor” means a financial services or financial advisory firm:
(a) With recognized knowledge and experience in connection with the negotiation and execution of payment agreements;

(b) That is acting solely as financial advisor to the governmental entity in connection with the execution of the payment agreement and the issuance or incurring of any related obligations, and not as a principal, placement agent, purchaser, underwriter, or other similar party, and that does not control, nor is it controlled by or under common control with, any such party;

(c) That is compensated for its services in connection with the execution of payment agreements, either directly or indirectly, solely by the governmental entity; and

(d) Whose compensation is not based on a percentage of the notional amount of the payment agreement or of the principal amount of any related obligations.

(2) "Governmental entity" means state government or local government.

(3) "Local government" means any city, county, port district, or public utility district, or any joint operating agency formed under RCW 43.52.360, that has or will have outstanding obligations in an aggregate principal amount of at least one hundred million dollars as of the date a payment agreement is executed or is scheduled by its terms to commence or had at least one hundred million dollars in gross revenues during the preceding calendar year.

(4) "Obligations" means bonds, notes, bond anticipation notes, commercial paper, or other obligations for borrowed money, or lease, installment purchase, or other similar financing agreements or certificates of participation in such agreements.

(5) "Payment agreement" means a written agreement which provides for an exchange of payments based on interest rates, or for ceilings or floors on these payments, or an option on these payments, or any combination, entered into on either a current or forward basis.

(6) "State government" means (a) the state of Washington, acting by and through its state finance committee, (b) the Washington health care facilities authority, (c) the Washington higher education facilities authority, (d) the Washington state housing finance commission, or (e) the state finance committee upon adoption of a resolution approving a payment agreement on behalf of any state institution of higher education as defined under RCW 28B.10.016: PROVIDED, That such approval shall not constitute the pledge of the full faith and credit of the state, but a pledge of only those funds specified in the approved agreement.

NEW SECTION. Sec. 3. AUTHORITY TO ENTER INTO PAYMENT AGREEMENTS. (1) Subject to subsections (2) and (3) of this section, any governmental entity may enter into a payment agreement in connection with, or incidental to, the issuance, incurring, or carrying of specific obligations, for the purpose of managing or reducing the governmental entity's exposure to fluctuations or levels of interest rates. No governmental entity may carry on a business of acting as a dealer in payment agreements.

(2) No governmental entity may enter into a payment agreement under this chapter unless it first:

(a) Finds and determines, by ordinance or resolution, that the payment agreement, if fully performed by all parties thereto, will (i) reduce the amount or duration of its exposure to changes in interest rates; or (ii) result in a lower net cost of borrowing with respect to the related obligations, or a higher net rate of return on investments made in connection with, or incidental to, the issuance, incurring, or carrying of those obligations;

(b) Obtains, on or prior to the date of execution of the payment agreement, a written certification from a financial advisor that (i) the terms and conditions of the payment agreement and any ancillary agreements, including without limitation, the interest rate or rates and any other amounts payable thereunder, are commercially reasonable in light of then existing market conditions; and (ii) the finding and determination contained in the ordinance or resolution required by (a) of this subsection is reasonable.

(3) Prior to selecting the other party to a payment agreement, a governmental entity shall solicit and give due consideration to proposals from at least two entities that meet the criteria set forth in section 4(2) of this act. Such solicitation and consideration shall be conducted in such a manner, but a pledge of only those funds specified in the approved agreement.

NEW SECTION. Sec. 4. PAYMENT AGREEMENTS--TERMS. (1) Subject to subsections (2), (3), and (4) of this section, payment agreements entered into by any governmental entity may include those payment, term, security, default, remedy, termination, and other terms and conditions, and may be with those parties, as the governmental entity deems reasonably necessary or desirable.

(2) No governmental entity may enter into a payment agreement under this chapter unless:

(a) The other party to the agreement has a rating from at least two nationally recognized credit rating agencies, as of the date of execution of the agreement, that is within the two highest long-term investment grade rating categories, without regard to subcategories, or the payment obligations of the party under the agreement are unconditionally guaranteed by an entity that then has the required ratings; or

(b)(i) The other party to the agreement has a rating from at least two nationally recognized credit rating agencies, as of the date of execution of the agreement, that is within the three highest long-term investment grade rating categories, without regard to subcategories, or the payment obligations of the party under the agreement are unconditionally guaranteed by an entity that has the required ratings; and
(ii) The payment obligations of the other party under the agreement are collateralized by direct obligations of, or obligations the principal and interest on which are guaranteed by, the United States of America, that (A) are deposited with the governmental entity or an agent of the governmental entity; and (B) maintain a market value of not less than one hundred two percent of the net market value of the payment agreement to the governmental entity, as such net market value may be defined and determined from time to time under the terms of the payment agreement.

(3) No governmental entity may enter into a payment agreement with a party who qualifies under subsection (2)(a) of this section unless the payment agreement provides that, in the event the credit rating of the other party or its guarantor falls below the level required by subsection (2)(a) of this section, such party will comply with the collateralization requirements contained in subsection (2)(b) of this section.

(4) No governmental entity may enter into a payment agreement unless:

(a) The notional amount of the payment agreement does not exceed the principal amount of the obligations with respect to which the payment agreement is made; and

(b) The term of the payment agreement does not exceed the final term of the obligations with respect to which the payment agreement is made.

NEW SECTION. Sec. 5. PAYMENT AGREEMENTS--PAYMENTS--CREDIT ENHANCEMENTS. (1) Subject to any covenants or agreements applicable to the obligations issued or incurred by the governmental entity, any payments required to be made by the governmental entity under a payment agreement entered into in connection with the issuance, incurring, or carrying of those obligations may be made from money set aside or pledged to pay or secure the payment of those obligations or from any other legally available source.

(2) Any governmental entity may enter into credit enhancement, liquidity, line of credit, or other similar agreements in connection with, or incidental to, the execution of a payment agreement. The credit enhancement, liquidity, line of credit, or other similar agreement may include those payment, term, security, default, remedy, termination, and other terms and conditions, and may be with those parties, as the governmental entity deems reasonably necessary or desirable.

NEW SECTION. Sec. 6. CALCULATIONS REGARDING PAYMENT OF OBLIGATIONS--STATUS OF PAYMENTS. (1) Subject to any covenants or agreements applicable to the obligations issued or incurred by the governmental entity, if the governmental entity enters into a payment agreement with respect to those obligations, then it may elect to treat the amounts payable from time to time with respect to those obligations as the amounts payable after giving effect to the payment agreement for the purposes of calculating:

(a) Rates and charges to be imposed by a revenue-producing enterprise if the revenues are pledged or used to pay those obligations;

(b) Any taxes to be levied and collected to pay those obligation; and

(c) Payments or debt service on those obligations for any other purpose.

(2) A payment agreement and any obligation of the governmental entity to make payments under the agreement in future fiscal years shall not constitute debt or indebtedness of the governmental entity for purposes of state constitutional and statutory debt limitation provisions if the obligation to make any payments is contingent upon the performance of the other party or parties to the agreement, and no moneys are paid to the governmental entity under the payment agreement that must be repaid in future fiscal years.

NEW SECTION. Sec. 7. EXPIRATION DATE--VALIDITY OF CONTRACTS. (1) Except as provided in subsection (3) of this section, no governmental entity may enter a payment agreement under section 3 of this act after June 30, 1995.

(2) The termination of authority to enter payment agreements after June 30, 1995, shall not affect the validity of any payment agreements or other contracts entered into under section 3 of this act on or before that date.

(3) A governmental entity may enter into a payment agreement under and in accordance with this chapter after June 30, 1995, to replace a payment agreement that relates to specified obligations issued on or before that date and that has terminated before the final term of those obligations.

(4) The state finance committee shall make a report to the appropriate legislative committees on payment agreements authorized in this act. The report shall include the governmental entity entering into a payment agreement, the amount of the agreement, the expected savings resulting from the agreement, the transactions cost, and any other information the state finance committee determines relevant. The report shall be submitted on November 30, 1993, and December 30, 1994.

NEW SECTION. Sec. 8. AUTHORITY CUMULATIVE. The powers conferred by this chapter are in addition to, and not in substitution for, the powers conferred by any existing law, and the limitations imposed by this chapter do not directly or indirectly modify, limit, or affect the powers conferred by any existing law.

NEW SECTION. Sec. 9. LIBERAL CONSTRUCTION. This chapter shall be liberally construed to effect its purposes.

NEW SECTION. Sec. 10. CAPTIONS. Captions used in this chapter do not constitute any part of the law.

In event of war, insurrection, rebellion, invasion, tumult, riot, mob, or organized body acting together by force with intent to commit a felony or to offer violence to persons or property, or by force and violence to break and resist the laws of this state, or the United States, or in case of the imminent danger of the occurrence of any of said events, or at the lawful request of competent state or local authority in support of enforcement of controlled substance statutes, or whenever responsible civil authorities shall, for any reason, fail to preserve law and order, or protect life or property, or the governor believes that such failure is imminent, or in event of public disaster, the governor shall have power to order the organized militia of Washington, or any part thereof, into active service of the state to execute the laws, and to perform such duty as the governor shall deem proper.

NEW SECTION. Sec. 2. A new section is added to chapter 38.08 RCW to read as follows:

(1) The governor, with the consent of congress, is authorized to enter into compacts and agreements for the deployment of the national guard with governors of other states concerning drug interdiction, counter-drug, and demand reduction activities. Article 1, Section 10 of the Constitution of the United States permits a state to enter into a compact or agreement with another state, subject to the consent of congress. Congress, through enactment of Title 4 of the U.S.C. Section 112, encourages the states to enter such compacts for cooperative effort and mutual assistance.

(2) The compact language contained in this subsection is intended to deal comprehensively with the supportive relationships between states in utilizing national guard assets in counter-drug activities.

NATIONAL GUARD MUTUAL ASSISTANCE
COUNTER-DRUG ACTIVITIES COMPACT

ARTICLE I
PURPOSE

The purposes of this compact are to:
(a) Provide for mutual assistance and support among the party states in the utilization of the national guard in drug interdiction, counter-drug, and demand reduction activities.
(b) Permit the national guard of this state to enter into mutual assistance and support agreements, on the basis of need, with one or more law enforcement agencies operating within this state, for activities within this state, or with a national guard of one or more other states, whether said activities are within or without this state in order to facilitate and coordinate efficient, cooperative enforcement efforts directed toward drug interdiction, counter-drug activities, and demand reduction.
(c) Permit the national guard of this state to act as a receiving and a responding state as defined within this compact and to ensure the prompt and effective delivery of national guard personnel, assets, and services to agencies or areas that are in need of increased support and presence.
(d) Permit and encourage a high degree of flexibility in the deployment of national guard forces in the interest of efficiency.
(e) Maximize the effectiveness of the national guard in those situations that call for its utilization under this compact.
(f) Provide protection for the rights of national guard personnel when performing duty in other states in counter-drug activities.
(g) Ensure uniformity of state laws in the area of national guard involvement in interstate counter-drug activities by incorporating said uniform laws within the compact.

ARTICLE II
ENTRY INTO FORCE AND WITHDRAWAL

(a) This compact shall enter into force when enacted into law by any two states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof.
(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of such withdrawal to the governors of all other party states.

ARTICLE III
MUTUAL ASSISTANCE AND SUPPORT

(a) As used in this article:
(1) "Drug interdiction and counter-drug activities" means the use of national guard personnel, while not in federal service, in any law enforcement support activities that are intended to reduce the supply or use of illegal drugs in the United States. These activities include, but are not limited to:
(i) Providing information obtained during either the normal course of military training or operations or during counter-drug activities, to federal, state, or local law enforcement officials that may be relevant to a violation of any federal or state law within the jurisdiction of such officials;
(ii) Making available any equipment, including associated supplies or spare parts, base facilities, or research facilities of the national guard to any federal, state, or local civilian law enforcement official for law enforcement purposes, in accordance with other applicable law or regulation;
(iii) Providing available national guard personnel to train federal, state, or local civilian law enforcement in the operation and maintenance of equipment, including equipment made available above, in accordance with other applicable law;
(iv) Providing available national guard personnel to operate and maintain equipment provided to federal, state, or local law enforcement officials pursuant to activities defined and referred to in this compact;
(v) Operation and maintenance of equipment and facilities of the national guard or law enforcement agencies used for the purposes of drug interdiction and counter-drug activities;
(vi) Providing available national guard personnel to operate equipment for the detection, monitoring, and communication of the movement of air, land, and sea traffic, to facilitate communications in connection with law enforcement programs, to provide transportation for civilian law enforcement personnel, and to operate bases of operations for civilian law enforcement personnel;
(vii) Providing available national guard personnel, equipment, and support for administrative, interpretive, analytic, or other purposes;

(viii) Providing available national guard personnel and equipment to aid federal, state, and local officials and agencies otherwise involved in the prosecution or incarceration of individuals processed within the criminal justice system who have been arrested for criminal acts involving the use, distribution, or transportation of controlled substances as defined in 21 U.S.C. Sec. 801 et seq., or otherwise by law, in accordance with other applicable law.

(2) "Demand reduction" means providing available national guard personnel, equipment, support, and coordination to federal, state, local, and civic organizations, institutions and agencies for the purposes of the prevention of drug abuse and the reduction in the demand for illegal drugs.

(3) "Requesting state" means the state whose governor requested assistance in the area of counter-drug activities.

(4) "Responding state" means the state furnishing assistance, or requested to furnish assistance, in the area of counter-drug activities.

(5) "Law enforcement agency" means a lawfully established federal, state, or local public agency that is responsible for the prevention and detection of crime and the enforcement of penal, traffic, regulatory, game, immigration, postal, customs, or controlled substances laws.

(6) "Official" means the appointed, elected, designated, or otherwise duly selected representative of an agency, institution, or organization authorized to conduct those activities for which support is requested.

(7) "Mutual assistance and support agreement" or "agreement" means an agreement between the national guard of this state and one or more law enforcement agencies or between the national guard of this state and the national guard of one or more other states, consistent with the purposes of this compact.

(8) "Party state" refers to a state that has lawfully enacted this compact.

(9) "State" means each of the several states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or a territory or possession of the United States.

(b) Upon the request of a governor of a party state for assistance in the area of interdiction and counter-drug, and demand reduction activities, the governor of a responding state shall have authority under this compact to send without the borders of his or her state and place under the temporary operational control of the appropriate national guard or other military authorities of the requesting state, for the purposes of providing such requested assistance, all or any part of the national guard forces of his or her state as he or she may deem necessary, and the exercise of his or her discretion in this regard shall be conclusive.

(c) The governor of a party state may, within his or her discretion, withhold the national guard forces of his or her state from such use and recall any forces or part or member thereof previously deployed in a requesting state.

(d) The national guard of this state is hereby authorized to engage in interdiction and counter-drug activities and demand reduction.

(e) The adjutant general of this state, in order to further the purposes of this compact, may enter into a mutual assistance and support agreement with one or more law enforcement agencies of this state, including federal law enforcement agencies operating within this state, or with the national guard of one or more other party states to provide personnel, assets, and services in the area of interdiction and counter-drug activities and demand reduction. However, no such agreement may be entered into with a party that is specifically prohibited by law from performing activities that are the subject of the agreement.

(f) The agreement must set forth the powers, rights, and obligations of the parties to the agreement, where applicable, as follows:

(1) Its duration;

(2) The organization, composition, and nature of any separate legal entity created thereby;

(3) The purpose of the agreement;

(4) The manner of financing the agreement and establishing and maintaining its budget;

(5) The method to be employed in accomplishing the partial or complete termination of the agreement and for disposing of property upon such partial or complete termination;

(6) Provision for administering the agreement, which may include creation of a joint board responsible for such administration;

(7) The manner of acquiring, holding, and disposing of real and personal property used in this agreement, if necessary;

(8) The minimum standards for national guard personnel implementing the provisions of this agreement;

(9) The minimum insurance required of each party to the agreement, if necessary;

(10) The chain of command or delegation of authority to be followed by national guard personnel acting under the provisions of the agreement;

(11) The duties and authority that the national guard personnel of each party state may exercise; and

(12) Any other necessary and proper matters.
Agreements prepared under the provisions of this section are exempt from any general law pertaining to intergovernmental agreements.

(g) As a condition precedent to an agreement becoming effective under this part, the agreement must be submitted to and receive the approval of the office of the attorney general of Washington. The attorney general of the state of Washington may delegate his or her approval authority to the appropriate attorney for the Washington national guard subject to those conditions which he or she decides are appropriate. The delegation must be in writing and is subject to the following:

(1) The attorney general, or his or her agent as stated above, shall approve an agreement submitted to him or her under this part unless he or she finds that it is not in proper form, does not meet the requirements set forth in this part, or otherwise does not conform to the laws of Washington. If the attorney general disapproves an agreement, he or she shall provide a written explanation to the adjutant general of the Washington national guard; and

(2) If the attorney general, or his or her authorized agent as stated above, does not disapprove an agreement within thirty days after its submission to him or her, it is considered approved by him or her.

(h) Whenever national guard forces of any party state are engaged in the performance of duties, in the area of drug interdiction, counter-drug, and demand reduction activities, pursuant to orders, they shall not be held personally liable for any acts or omissions which occur during the performance of their duty.

ARTICLE IV
RESPONSIBILITIES

(a) Nothing in this compact shall be construed as a waiver of any benefits, privileges, immunities, or rights otherwise provided for national guard personnel performing duty pursuant to Title 32 of the United States Code nor shall anything in this compact be construed as a waiver of coverage provided for under the Federal Tort Claims Act. In the event that national guard personnel performing counter-drug activities do not receive rights, benefits, privileges, and immunities otherwise provided for national guard personnel as stated above, the following provisions shall apply:

(1) Whenever national guard forces of any responding state are engaged in another state in carrying out the purposes of this compact, the members thereof so engaged shall have the same powers, duties, rights, privileges, and immunities as members of national guard forces of the requesting state. The requesting state shall save and hold members of the national guard forces of responding states harmless from civil liability, except as otherwise provided herein, for acts or omissions that occur in the performance of their duty while engaged in carrying out the purposes of this compact, whether responding forces are serving the requesting state within the borders of the responding state or are attached to the requesting state for purposes of operational control.

(2) Subject to the provisions of paragraphs (3), (4), and (5) of this Article, all liability that may arise under the laws of the requesting state or the responding states, on account of or in connection with a request for assistance or support, shall be assumed and borne by the requesting state.

(3) Any responding state rendering aid or assistance pursuant to this compact shall be reimbursed by the requesting state for any loss or damage to, or expense incurred in the operation of, any equipment answering a request for aid, and for the cost of the materials, transportation, and maintenance of national guard personnel and equipment incurred in connection with such request, provided that nothing herein contained shall prevent any responding state from assuming such loss, damage, expense, or other cost.

(4) Unless there is a written agreement to the contrary, each party state shall provide, in the same amounts and manner as if they were on duty within their state, for pay and allowances of the personnel of its national guard units while engaged without the state pursuant to this compact and while going to and returning from such duty pursuant to this compact.

(5) Each party state providing for the payment of compensation and death benefits to injured members and the representatives of deceased members of its national guard forces in case such members sustain injuries or are killed within their own state shall provide for the payment of compensation and death benefits in the same manner and on the same terms in the event such members sustain injury or are killed while rendering assistance or support pursuant to this compact. Such benefits and compensation shall be deemed items of expense reimbursable pursuant to paragraph (3) of this Article.

(b) Officers and enlisted personnel of the national guard performing duties subject to proper orders pursuant to this compact shall be subject to and governed by the provisions of their home state code of military justice whether they are performing duties within or without their home state. In the event that any national guard member commits, or is suspected of committing, a criminal offense while performing duties pursuant to this compact without his or her home state, he or she may be returned immediately to his or her home state and said home state shall be responsible for any disciplinary action to be taken. However, nothing in this section shall abrogate the general criminal jurisdiction of the state in which the offense occurred.
ARTICLE V
DELEGATION

Nothing in this compact shall be construed to prevent the governor of a party state from delegating any of his or her responsibilities or authority respecting the national guard, provided that such delegation is otherwise in accordance with law. For purposes of this compact, however, the governor shall not delegate the power to request assistance from another state.

ARTICLE VI
LIMITATIONS

Nothing in this compact shall:
(a) Authorize or permit national guard units or personnel to be placed under the operational control of any person not having the national guard rank or status required by law for the command in question.
(b) Deprive a properly convened court of jurisdiction over an offense or a defendant merely because of the fact that the national guard, while performing duties pursuant to this compact, was utilized in achieving an arrest or indictment.

ARTICLE VII
CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the Constitution of the United States or of any state or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating herein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

MESSAGE FROM THE HOUSE

April 17, 1993
The legislature finds that the proportion of the state budget dedicated to postsecondary educational programs has decreased for two decades. At the same time, major technological, economic, and demographic changes have exacerbated the need for improved training and education to maintain a high-quality, competitive work force, and a well-educated populace to meet the challenges of the twenty-first century. Therefore, the legislature finds that there is increasing need for postsecondary educational opportunities for citizens of the state of Washington.

The legislature declares that the policy of the state of Washington shall be to improve the access to, and the quality of, this state's postsecondary educational system. The budgetary policy of the state of Washington shall be to provide a level of protection and commitment to the state's postsecondary educational system commensurate with the responsibility of this state to the educational and professional improvement of its citizens and work force.

It is the policy of the state of Washington that the essential requirements level budget calculation for institutions of higher education include enrollment levels necessary to maintain, by educational sector, the participation rate funded in the 1993 fiscal year. The participation rate shall be based on the state's estimated population ages seventeen and above by appropriate age groups.

The legislature finds that the proportion of the state of Washington that the governor and legislature, in their budget deliberations, consider adding sufficient incremental enrollment increases to achieve, by the year 2010, the goals, by educational sector, adopted by the higher education coordinating board in its enrollment plan entitled "Design for the 21st Century: Expanding Higher Education Opportunities in Washington." In the biennial operating budget documents submitted to the legislature, the governor shall display information on the number of additional students necessary and the amount of money needed to fund these incremental enrollment increases.

The participation rate used to calculate enrollment levels under sections 2 and 3 of this act shall be based on predicted fall enrollment as reported in the higher education enrollment report as maintained by the office of financial management, and on the fall population forecast by the office of financial management. Formal estimates of the state participation rates and enrollment levels necessary to fulfill the requirements of sections 2 and 3 of this act shall be determined by the office of financial management as part of its responsibility to develop and maintain student enrollment forecasts for colleges and universities under RCW 43.62.050. Formal estimates of the state participation rates and enrollment levels required by this section shall be submitted to the fiscal committees of the house of representatives and senate on or before November 15th of each even-numbered year. The higher education coordinating board shall periodically review the enrollment goals set forth in sections 2 and 3 of this act and submit recommendations concerning modification of these goals to the governor and to the higher education committees of the house of representatives and the senate.

MESSAGE FROM THE HOUSE

April 17, 1993

MR. PRESIDENT:

The House has passed SECOND SUBSTITUTE SENATE BILL NO. 5836 with the following amendment(s):

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds a need to redefine the relationship between the state and its postsecondary education institutions through a compact based on trust, evidence, and a new alignment of responsibilities. As the proportion of the state budget dedicated to postsecondary education programs has continued to decrease and the opportunity for this state's citizens to participate in such programs also has declined, the state institutions of higher education have increasingly less flexibility to respond to emerging challenges through innovative management and programming. The legislature finds that this state has not provided its institutions of higher education with the ability to effectively achieve state-wide goals and objectives to increase access to, improve the quality of, and enhance the accountability for its postsecondary education system.

Therefore, the legislature declares that the policy of the state of Washington is to create an environment in which the state institutions of higher education have the authority and flexibility to enhance attainment of state-wide goals and objectives for the state's postsecondary education system through decisions and actions at the local level. The policy shall have the following attributes:

(1) The accomplishment of equitable and adequate enrollment by significantly raising enrollment lids, adequately funding those increases, and providing sufficient financial aid for needy students;
(2) The development and use of a new definition of quality measured by effective operations and clear results; the efficient use of funds to achieve well-educated students;

The attainment of a new resource management relationship that removes the state from micromanagement, allows institutions greater management autonomy to focus resources on essential functions, and encourages innovation; and

(4) The development of a system of coordinated planning and sufficient feedback to assure policymakers and citizens that students are succeeding and resources are being prudently deployed.

NEW SECTION. Sec. 2. A new section is added to chapter 28B.80 RCW to read as follows:

(1) At the local level, the higher education institutional responsibilities include but are not limited to:

(a) Development and provision of strategic plans under the guidelines established by the higher education coordinating board. In developing their strategic plans, the research universities shall consider the feasibility of significantly increasing the number of evening graduate classes;

(b) For the four-year institutions of higher education, timely provision of information required by the higher education coordinating board to report to the governor, the legislature, and the citizens;

(c) Provision of local student financial aid delivery systems to achieve both state-wide goals and institutional objectives in concert with state-wide policy; and

(d) Operating as efficiently as feasible within institutional missions and goals.

(2) At the state level, the higher education coordinating board shall be responsible for:

(a) Delineation and coordination of strategic plans to be prepared by the institutions;

(b) Preparation of reports to the governor, the legislature, and the citizens on program accomplishments and use of resources by the institutions;

(c) Administration and policy implementation for state-wide student financial aid programs; and

(d) Assistance to institutions in improving operational efficiency through measures that include periodic review of program efficiencies.

(3) At the state level, on behalf of community colleges and technical colleges, the state board for community and technical colleges shall coordinate and report on the system's strategic plans and shall provide any information required of its colleges by the higher education coordinating board.

NEW SECTION. Sec. 3. A new section is added to chapter 28B.80 RCW to read as follows:

In cooperation with institutions of higher education, the state board for community and technical colleges, and appropriate state and local agencies, the higher education coordinating board may identify methods to reduce administrative barriers to efficient institutional operations. These methods may include waivers of statutory requirements and administrative rules. The higher education coordinating board shall report to the governor and appropriate legislative committees its recommendations for any statutory changes necessary to enhance institutional efficiencies. In cooperation with affected institutions, the board shall work with appropriate agencies to reduce administrative barriers that do not require statutory changes.

NEW SECTION. Sec. 4. A new section is added to chapter 28B.80 RCW to read as follows:

The higher education coordinating board, in conjunction with the four-year institutions of higher education, shall conduct a study of higher education system operations to identify efficiencies to increase access to, improve the quality of, and reduce the cost of higher education. This study shall include but not be limited to:

(1) Examining potential unnecessary duplicative and low-productivity programs for possible consolidation or termination;

(2) Developing criteria for and conducting an evaluation of faculty productivity;

(3) Reviewing and developing recommendations on appropriate institutional roles for providing remedial instruction;

(4) Exploring the potential for greater use of the public higher education system physical plant and other resources through such means as expanded operations during summer terms, evenings, and weekends;

(5) Initiating pilot projects to test the effectiveness of actions such as variable tuition rates and faculty salary incentives; and

(6) Identifying ways for institutions to share resources, faculty, and curricula through collaboration with other public and private postsecondary institutions and common school districts in their service areas to increase student opportunities and reduce costs. Analyses shall include clear articulation of functions among institutions, means to reduce duplication, and policies to facilitate student movement among institutions.

NEW SECTION. Sec. 5. A new section is added to chapter 28B.80 RCW to read as follows:

The higher education coordinating board, in conjunction with the state board for community and technical colleges and the institutions of higher education, shall report regularly to the legislature and the citizens the accomplishments of, expenditures for, and requirements of the postsecondary educational system in the state of Washington. The state board for community and technical colleges and the state institutions of higher education shall report uniformly to the higher education coordinating board, on an annual basis, the information necessary to prepare the report. Independent colleges and universities are encouraged to cooperate with this effort and to provide to the board information in a uniform format developed by the board, in cooperation with the institutions. Examples of performance measures that could be included are:

(1) Retention and graduation rates;

(2) Average time to a degree;

(3) Credit hours per degree awarded;

(4) Degrees awarded by discipline and by level;

(5) Multiple degrees;

(6) Measures taken to reduce duplicative courses, programs, and requirements;

(7) Student-faculty contact hours;

(8) Placement rates;

(9) Success in recruiting and graduating underrepresented groups; and

(10) Various fiscal and management measures.

Sec. 6. RCW 28B.80.330 and 1985 c 370 s 4 are each amended to read as follows:

The board shall perform the following planning duties in consultation with the four-year institutions, the community and technical college system, and when appropriate the (commission for vocational education) work force training and education
coordinating board, the superintendent of public instruction for the vocational-technical institutes, and the independent higher educational institutions:

1. Develop and establish role and mission statements for each of the four-year institutions and for the community and technical college system;
2. Identify the state's higher education goals, objectives, and priorities;
3. Prepare a comprehensive master plan which includes but is not limited to:
   a. Assessments of the state's higher education needs. These assessments may include, but are not limited to: The basic and continuing needs of various age groups; business and industrial needs for a skilled workforce; analyses of demographic, social, and economic trends; consideration of the changing ethnic composition of the population and the special needs arising from such trends; college attendance, retention, and dropout rates, and the needs of recent high school graduates and placebound adults. The board should consider the needs of residents of all geographic regions, but its initial priorities should be applied to heavily populated areas underserved by public institutions;
   b. Recommendations on enrollment and other policies and actions to meet those needs;
   c. Guidelines for continuing education, adult education, public service, and other higher education programs.

The initial plan shall be submitted to the governor and the legislature by December 1, 1987. Comments on the plan from the board's advisory committees and the institutions shall be submitted with the plan. The plan shall be updated (biennially) every four years, and presented to the governor and the appropriate legislative policy committees. Following public hearings, the legislature shall, by concurrent resolution, approve or recommend changes to the initial plan, and the (biennial) updates. The plan shall then become state higher education policy unless legislation is enacted to alter the policies set forth in the plan;

4. Review, evaluate, and make recommendations on operating and capital budget requests from four-year institutions and the community and technical college system, based on the elements outlined in subsections (1), (2), and (3) of this section, and on guidelines which outline the board's fiscal priorities. These guidelines shall be distributed to the institutions and the community college board by December of each odd-numbered year. The institutions and the community college board shall submit an outline of their proposed budgets, identifying major components, to the board no later than August 1 of each even-numbered year. The board shall submit recommendations on the proposed budgets and on the board's budget priorities to the office of financial management before October 15 of each even-numbered year, and to the legislature by January 1 of each odd-numbered year;
5. Recommend legislation affecting higher education;
6. Recommend tuition and fees policies and levels based on comparisons with peer institutions;
7. Establish priorities and develop recommendations on financial aid based on comparisons with peer institutions;
8. Prepare recommendations on merging or closing institutions; and
9. Develop criteria for identifying the need for new baccalaureate institutions.

NEW SECTION. Sec. 7. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993.\^

4. The appropriation in this section includes $154,000 for support of Clinton terminal agent expenses, but shall be expended only upon the construction of a new Clinton terminal.
The appropriation in this section includes $359,000 to provide, during the summer, eight hours of Issaquah vessel class service on the Edmonds/Kingston route. This amount shall be expended only if the super class vessel refurbishment program impacts super class vessel service on this route.

The appropriation in this section includes $185,000 to assess the ability of enhancing vessel maintenance for those routes that require extensive service schedules throughout the year by placing additional oiler staff hours on two routes during the 1993-94 fiscal year. Negative cash balances also may result from the use of state funds to finance federal advance construction projects prior to conversion to federal funding. The governor and the legislature recognize that the department of transportation may require interfund loans or other short-term financing to meet temporary seasonal cash requirements and additional cash requirements to fund federal advance construction projects.
NEW SECTION. Sec. 46. NEW SECTION. Sec. 8. A new section is added to chapter 41.06 RCW to read as follows:

(1) The Washington management service is created. The purpose of the management service is to strive for excellence in the management of the state's resources, attract and retain qualified managers, and establish a management identity in state government unique to the responsibilities of management employees.

(2) Within the management service, the board shall adopt rules that provide for:
(a) Moving managers among agencies without changing job classifications; and
(b) Facilitating decentralized and regional administration.

(3) In establishing rules for the management service, the board shall adhere to the following goals:
(a) To develop a simplified classification system that facilitates movement of managers between agencies and promotes upward mobility;
(b) To establish a performance appraisal system that emphasizes individual accountability for program results and efficient management of resources; effective planning, organization, and communication skills; valuing and managing workplace diversity; development of leadership and interpersonal abilities; and employee development;
To strengthen management training and career development programs that build critical management knowledge, skills, and abilities; focus on managing and valuing workplace diversity; empower employees by enabling them to share in workplace decision making and to be innovative, willing to take risks, and able to accept and deal with change; promote a workplace where the overall focus is on the recipient of the government services and how these services can be improved; and enhance mobility and career advancement opportunities;

d) To permit flexible recruitment and hiring procedures that enable agencies to compete effectively with other employers, both public and private, for managers with appropriate skills and training; and achieve affirmative action goals and diversity in the workplace; and

e) To provide that members of the classified management service may only be reduced, dismissed, suspended, or demoted for cause.

For the purposes of this section, “managers” or “management employees” means employees who:

(a) Formulate policy or direct the work of an agency or subdivision thereof; or
(b) Are responsible to administer and carry out policies and programs of an agency or subdivision thereof; or
(c) Manage, administer, and control a local branch office of an agency or subdivision thereof, including the physical, financial, or personnel resources thereof; or

   a. Formulates policy or directs the work of an agency or subdivision;
   b. Is responsible to administer policies and programs of an agency;
   c. Manages, administers, and controls a local branch office of an agency or subdivision, including the physical, financial, or personnel resources; or
   d. Has substantial responsibility in personnel administration, legislative relations, public information, or the preparation and administration of budgets.

2. Notwithstanding any requirement that at least one in ten promotional registers be open to all persons, the Washington personnel resources board, for purposes of creating any register of employees to fill a management position shall:

   a. Require that any qualified person (i) currently employed by the state of Washington or (ii) any other qualified person to be eligible to seek inclusion on such register;
   b. Require that prior job performance be a consideration in selection to a management position; and
   c. Require that a hiring authority who selects a person other than a current employee of Washington state must submit written justification to the director for such decision. The director shall have five business days from the date of receipt of the written justification in which to disapprove the selection. Disapproval shall be in writing and state the reasons. If the director does not disapprove the selection within the five-day time period authorized under this section, the selection shall be deemed approved.

NEW SECTION. Sec. 10. A new section is added to chapter 41.06 RCW to read as follows:

Each institution of higher education and each related board shall designate an officer who shall perform duties as personnel officer. The personnel officer at each institution or related board shall direct, supervise, and manage administrative and technical personnel activities for the classified service at the institution or related board consistent with policies established by the institution or related board and in accordance with the provisions of this chapter and the rules adopted under this chapter. Institutions may undertake jointly with one or more other institutions to appoint a person qualified to perform the duties of personnel officer, provide staff and financial support and may engage consultants to assist in the performance of specific projects. The services of the department of personnel may also be used by the institutions or related boards pursuant to RCW 41.06.080.

The state board for community and technical colleges shall have general supervision and control over activities undertaken by the various community colleges pursuant to this section.

**NEW SECTION. Sec. 12.** A new section is added to chapter 41.06 RCW to read as follows:
The board may authorize agency administration and management of the policies and practices created under this chapter. The board shall pursue a policy of flexibility in the administration of this chapter.

**NEW SECTION. Sec. 13.** A new section is added to chapter 41.06 RCW to read as follows:
(1) The legislature recognizes that:
(a) The labor market and the state government work force are diverse in terms of gender, race, ethnicity, age, and the presence of disabilities.
(b) The state's personnel resource and management practices must be responsive to the diverse nature of its work force composition.
(c) Managers in all agencies play a key role in the implementation of all critical personnel policies. It is therefore the policy of the state to create an organizational culture in state government that respects and values individual differences and encourages the productive potential of every employee.
(2) To implement this policy, the department shall:
(a) In consultation with agencies, employee organizations, and employees, review civil service rules and related agency policies to ensure that they support the state's policy of valuing and managing diversity in the workplace;
(b) In consultation with agencies, employee organizations, and employees, institutions of higher education, and related boards, develop model policies, procedures, and technical information to be made available to such entities for the support of workplace diversity programs, including, but not limited to:
(i) Voluntary mentorship programs;
(ii) Alternative testing practices for persons of disability where deemed appropriate;
(iii) Career counseling;
(iv) Training opportunities, including management and employee awareness and skills training, English as a second language, and individual tutoring;
(v) Recruitment strategies;
(vi) Management performance appraisal techniques that focus on valuing and managing diversity in the workplace; and
(vii) Alternative work arrangements;
(c) In consultation with agencies, employee organizations, and employees, institutions of higher education, and related boards, develop training programs for all managers to enhance their ability to implement diversity policies and to provide a thorough grounding in all aspects of the state civil service law and merit system rules, and how the proper implementation and application thereof can facilitate and further the mission of the agency.
(3) The department shall coordinate implementation of this section with the office of financial management and institutions of higher education and related boards to reduce duplication of effort.

**NEW SECTION. Sec. 14.** A new section is added to chapter 41.06 RCW to read as follows:
Meaningful and effective involvement of employees and their representatives is essential to the efficient and effective delivery of state government services. To accomplish this, agencies shall use joint employee-union-management committees to collaborate on the desired goals of streamlined and flatter organizational structures, continuous improvement in all systems and processes, empowerment of line level employees to solve workplace and system delivery problems, managers functioning as coaches and facilitators, and employee training and development as an investment in the future. In addition, the committees shall be used for improvement of the quality of work life for state employees resulting in more productive and efficient service delivery to the general public and customers of state government.

**NEW SECTION. Sec. 15.** (1) The legislature recognizes that the most vital asset of state government is the people who design, manage, and implement its programs and deliver its services. The quality and effectiveness of state service depends on many factors, including adequate resources, personal dedication, proper training, skilled and sensitive management, and the removal of artificial barriers to personal and organizational success.
(2) The legislature further recognizes that due to increasing demands on state government requiring new levels of efficiency and effectiveness in service delivery, and the impact of the total system of laws and rules governing recruitment, development, and management of personnel resources in state government, it is imperative to immediately and comprehensively examine all aspects of that system, and make whatever changes are indicated forthwith.
To that end, there is hereby created a study task force composed of the following members: Three members of the house of representatives appointed by the speaker of the house of representatives, three members of the senate appointed by the president of the senate, three members appointed by the governor, and one representative from each employee organization that has at least five hundred dues-paying members employed by the state of Washington. The charge of the task force is to make a comprehensive recommendation to the legislature no later than December 1, 1993, in the form of proposed legislation, regarding the provision of personnel resources in state government. The task force shall address at least the following issues:

1. Overall organization of the personnel resources apparatus in state government:
   a. Consolidation or decentralization of all personnel services; and
   b. The appropriate role and degree of control of the governor, the Washington personnel resources board, agency directors, and other elected officials;

2. Efficiency in management and service delivery:
   a. Identify the principal barriers to, and successes in, effective recruitment, retention, development, and assignment of a quality work force in state service;
   b. Analyze the extent to which improvement in these areas is best achieved by changes in civil service reform, or from management and organizational initiatives of the governor, agency directors, employee organizations, employees, and other elected officials; and
   c. Develop principles regarding the purchase of services by state government;
   d. Employee rights and participation:
      i. Identify areas and issues that are appropriately decided cooperatively between classified employees and management through collective bargaining or otherwise, and those areas that are inherently management prerogatives and responsibilities;
      ii. Analyze the full range of collective bargaining or other collaborative process issues, and identify those features that are the most effective and equitable, including grievance procedures, bargaining units, representation, union security, negotiations, and unfair labor practices; and
      iii. Any other related issue that comes to light during the course of the study may properly be examined. This list of issues is in no way intended to limit the inquiry and exploration of the task force in its pursuit of its principal charge.

4. In developing its recommendation the task force shall draw upon the following resources:
   a. Full and frequent consultation with particular interest groups, including state employees and their organizations, managers, and directors at all levels of state service, elected officials, and academic and private sector personnel resource specialists;
   b. The experience of other states, particularly those who have recently made significant changes in this area; and
   c. The experience of private sector organizations that are recognized for innovative and effective accomplishment in this field.

5. The task force shall meet at least monthly, and shall hold meetings in different regions of the state. Staff services shall be provided by legislative and governor’s office staff.

6. This section shall expire December 31, 1993.

NEW SECTION. Sec. 16. A new section is added to chapter 41.06 RCW to read as follows:

1. Unless the context clearly requires otherwise, as used in this chapter, “register” means a list of names of persons certified by the director to meet the minimum qualifications necessary for purposes of consideration and potential selection by a hiring authority for employment by the state of Washington.

2. Inclusion on a register is proof of only the existence of the opinion of the director that a person has met the minimal qualifications for consideration by the hiring authority of the persons on the register for employment by the state of Washington in a job classification. Inclusion on a register shall not, by itself, for any purpose or in any cause of action be evidence that a person has obtained a right to employment.

Sec. 17. RCW 28B.12.060 and 1987 c 330 s 202 are each amended to read as follows:

The higher education coordinating board shall adopt rules (and regulations) as may be necessary or appropriate for effecting the provisions of this chapter, and not in conflict with this chapter, in accordance with the provisions of chapter 34.05 RCW, the state higher education administrative procedure act. (b) That all positions established which are comparable shall be identified to a job classification under the ((higher education)) Washington personnel resources board's classification plan and shall receive equal compensation;
(c) Shall not take place in any manner that would replace classified positions reduced due to lack of funds or work; and
(d) That work study positions shall only be established at entry level positions of the classified service.

Sec. 18. RCW 34.05.030 and 1989 c 175 s 2 are each amended to read as follows:

(4) All other agencies, whether or not formerly specifically excluded from the provisions of all or any part of the Administrative Procedure Act, shall be subject to the entire act.

(6) Disclosure to governmental agencies of information or records obtained by the employment security department from the federal government shall be governed by any applicable federal law or any agreement between the federal government and the employment security department where so required by federal law. When federal law does not apply to the records or information state law shall control.

(7) The disclosure of any records or information by a governmental agency which has obtained the records or information under this section is prohibited unless the disclosure is directly connected to the official purpose for which the records or information were obtained.

Sec. 29. RCW 41.06.160 and 1985 c 94 s 2 are each amended to read as follows:

In preparing classification and salary schedules as set forth in RCW 41.06.150 as now or hereafter amended the department of personnel shall give full consideration to prevailing rates in other public employment and in private employment in this state. For this purpose the department shall undertake comprehensive salary and fringe benefit surveys (to be planned and conducted on a joint basis with the higher education personnel board), with such surveys to be conducted in the year prior to the convening of every other one hundred five day regular session of the state legislature. In the year prior to the convening of each one hundred five day regular session during which a comprehensive salary and fringe benefit survey is not conducted, the department shall plan and conduct (on a joint basis with the higher education personnel board) a trend salary and fringe benefit survey. This survey shall measure average salary and fringe benefit movement for broad occupational groups which has occurred since the last comprehensive salary and fringe benefit survey was conducted. The results of each comprehensive and trend salary and fringe benefit survey shall be completed and forwarded by September 30 with a recommended state salary schedule to the governor and director of financial management for their use in preparing budgets to be submitted to the succeeding legislature. A copy of the data and supporting documentation shall be furnished by the department of personnel to the standing committees for appropriations of the senate and house of representatives.

In the case of comprehensive salary and fringe benefit surveys, the department shall furnish the following supplementary data in support of its recommended salary schedule:

(1) A total dollar figure which reflects the recommended increase or decrease in state salaries as a direct result of the specific salary and fringe benefit survey that has been conducted and which is categorized to indicate what portion of the increase or decrease is represented by salary survey data and what portion is represented by fringe benefit survey data;

(2) An additional total dollar figure which reflects the impact of recommended increases or decreases to state salaries based on other factors rather than directly on prevailing rate data obtained through the survey process and which is categorized to indicate the sources of the requests for deviation from prevailing rates and the reasons for the changes;

(3) A list of class codes and titles indicating recommended monthly salary ranges for all state classes under the control of the department of personnel with: (a) those salary ranges which do not substantially conform to the prevailing rates developed from the salary and fringe benefit survey distinctly marked and an explanation of the reason for the deviation included; and
(b) Those department of personnel classes which are substantially the same as classes being used by the higher education personnel board clearly marked to show the commonality of the classes between the two jurisdictions.

(4) A supplemental salary schedule which indicates the additional salary to be paid state employees for hazardous duties or other considerations requiring extra compensation under specific circumstances. Additional compensation for these circumstances shall not be included in the basic salary schedule but shall be maintained as a separate pay schedule for purposes of full disclosure and visibility; and

(5) A supplemental salary schedule which indicates those cases where the board determines that prevailing rates do not provide similar salaries for positions that require or impose similar responsibilities, judgment, knowledge, skills, and working conditions. This supplementary salary schedule shall contain proposed salary adjustments necessary to eliminate any such dissimilarities in compensation. Additional compensation needed to eliminate such salary dissimilarities shall not be included in the basic salary schedule but shall be maintained as a separate salary schedule for purposes of full disclosure and visibility.

It is the intention of the legislature that requests for funds to support recommendations for salary deviations from the prevailing rate survey data shall be kept to a minimum, and that the requests be fully documented when forwarded by the department of personnel. (Further, it is the intention of the legislature that the department of personnel and the higher education personnel board jointly determine job classes which are substantially common to both jurisdictions and that basic salaries for these job classes shall be equal based on salary and fringe benefit survey findings.)

Salary and fringe benefit survey information collected from private employers which identifies a specific employer with the salary and fringe benefit rates which that employer pays to its employees shall not be subject to public disclosure under chapter 42.17 RCW.

The first comprehensive salary and fringe benefit survey required by this section shall be completed and forwarded to the governor and the director of financial management by September 30, 1986. The first trend salary and fringe benefit survey required by this section shall be completed and forwarded to the governor and the director of financial management by September 30, 1988.

Sec. 30. RCW 41.06.163 and 1987 c 185 s 9 are each amended to read as follows:

(1) In the conduct of salary and fringe benefit surveys under RCW 41.06.160 as now or hereafter amended, it is the intention of the legislature that the surveys be undertaken in a manner consistent with statistically accurate sampling techniques. For this purpose, a comprehensive salary and fringe benefit survey plan shall be submitted to the director of financial management, employee organizations, and the standing committees for appropriations of the senate and house of representatives six months before the beginning of each periodic survey required before regular legislative sessions. This comprehensive plan shall include but not be limited to the following:

(a) A complete explanation of the technical, statistical process to be used in the salary and fringe benefit survey including the percentage of accuracy expected from the planned statistical sample chosen for the survey and a definition of the term "prevailing rates" which is to be used in the planned survey;

(b) A comprehensive salary and fringe benefit survey model based on scientific statistical principles which:

(i) Encompasses the interrelationships among the various elements of the survey sample including sources of salary and fringe benefit data by organization type, size, and regional location;

(ii) Is representative of private and public employment in this state;

(iii) Ensures that, wherever practical, data from smaller, private firms are included and proportionally weighted in the survey sample; and

(iv) Indicates the methodology to be used in application of survey data to job classes used by state government;

(c) A prediction of the increase or decrease in total funding requirements expected to result from the pending salary and fringe benefit survey based on consumer price index information and other available trend data pertaining to Washington state salaries and fringe benefits.

information or records are needed by the agency for official purposes and:

(a) The agency submits an application in writing to the employment security department for the records or information
containing a statement of the official purposes for which the information or records are needed and specific identification of the
records or information sought from the department; and

(b) The director, commissioner, chief executive, or other official of the agency has verified the need for the specific
information in writing either on the application or on a separate document; and

(c) The agency requesting access has served a copy of the application for records or information on the individual or
employing unit whose records or information are sought and has provided the department with proof of service. The requesting agency shall include with the copy of the
application a statement to the effect that the individual or employing unit may contact the public records officer of the employment
security department to state any objections to the release of the records or information. The employment security department shall
not act upon the application of the requesting agency until at least five days after service on the concerned individual or employing
unit. The employment security department shall consider any objections raised by the concerned individual or employing unit in
deciding whether the requesting agency needs the information or records for official purposes.

(2) The requirements of subsections (1) and (7) of this section shall not apply to the state legislative branch. The state
legislature shall have access to information or records deemed private and confidential under this chapter, if the legislature or a
legislative committee finds that the information or records are necessary and for official purposes. If the employment security
department does not make information or records available as provided in this subsection, the legislature may exercise its authority
granted by chapter 44.16 RCW.

chapter. An emergency is defined as a situation in which irreparable harm or damage could occur if records or information are not released immediately.

(4) The requirements of subsection (1)(c) of this section shall not apply to governmental agencies where the procedures
would frustrate the investigation of possible violations of criminal laws.

(5) Governmental agencies shall have access to certain records or information, limited to such items as names,
addresses, social security numbers, and general information about benefit entitlement or employer information possessed by the
department, for comparison purposes with records or information possessed by the requesting agency to detect improper or fraudulent claims, or to determine potential tax liability or employer compliance with registration and licensing requirements. In those cases the governmental agency shall not be required to comply with subsection (1)(c) of this section, but the requirements of the remainder of subsection (1) must be satisfied.

(6) Disclosure to governmental agencies of information or records obtained by the employment security department from the federal government shall be governed by any applicable federal law or any agreement between the federal government and the employment security department where so required by federal law. When federal law does not apply to the records or information state law shall control.

(7) The disclosure of any records or information by a governmental agency which has obtained the records or information under this section is prohibited unless the disclosure is directly connected to the official purpose for which the records or information were obtained.

(8) In conducting periodic salary or fringe benefit studies pursuant to law, the department of personnel ((and the higher education personnel board)) shall have access to records of the employment security department as may be required for such studies. For such purposes, the requirements of subsection (1)(c) of this section need not apply.

The rules shall specifically provide for such training and education for law enforcement, correctional, and health care workers. The ((state)) Washington personnel resources board((the higher education personnel board)) and each unit of local government shall work with the office on AIDS under RCW 70.24.250 to develop the educational and training material necessary for employees.

Inspectors have the right during reasonable hours to enter into and upon any building or premises in the discharge of their official duties, for the purpose of making any inspection or testing any conveyance contained thereon or therein. Inspections and tests shall conform with the rules adopted by the department. The department shall inspect all installations before it issues any initial permit for operation. Permits shall not be issued until the fees required by this chapter have been paid.

(3) If inspection shows a conveyance to be in an unsafe condition, the department shall issue an inspection report in writing requiring the repairs or alterations to be made to the conveyance that are necessary to render it safe and may also suspend or revoke a permit pursuant to RCW 70.87.125 or order the operation of a conveyance discontinued pursuant to RCW 70.87.145.

All such funds shall be deposited in the personal account of the convicted person and the superintendent shall have authority to disburse moneys from such person’s personal account for the personal and incidental needs of the convicted person as may be deemed reasonably necessary. When
convicted persons are released from the confines of the institution either on parole, transfer, or discharge, all funds and valuable personal property in the possession of the superintendent belonging to such convicted persons shall be delivered to them. In no case shall the state of Washington, or any state officer, including state elected officials, employees, or volunteers, be liable for the loss of such personal property, except upon a showing that the loss was occasioned by the intentional act, gross negligence, or negligence of the officer, official, employee, or volunteer, and that the actions or omissions occurred while the person was performing, or in good faith purporting to perform, his or her official duties. Recovery of damages for loss of personal property while in the custody of the superintendent under this subsection shall be limited to the lesser of the market value of the item lost at the time of the loss, or the original purchase price of the item or, in the case of hand-made goods, the materials used in fabricating the item.

NEW SECTION. Sec. 69. RCW 28B.16.240 is recodified as a new section in chapter 41.06 RCW.

NEW SECTION. Sec. 70. RCW 41.06.230, 41.06.240, 41.06.310, and 41.64.900 are each decodified.

NEW SECTION. Sec. 71. (1) The legislature recognizes that the most vital asset of state government is the people who design, manage, and implement its programs and deliver its services. The quality and effectiveness of state service depends on many factors, including adequate resources, personal dedication, proper training, skilled and sensitive management, and the removal of artificial barriers to personal and organizational success.

(2) The legislature further recognizes that due to increasing demands on state government requiring new levels of efficiency and effectiveness in service delivery, and the impact of the total system of laws and rules governing recruitment, development, and management of personnel resources in state government, it is imperative to immediately and comprehensively examine all aspects of that system, and make whatever changes are indicated forthwith.

(3) To that end, there is hereby created a study task force composed of the following members: Three members of the house of representatives appointed by the speaker of the house of representatives, three members of the senate appointed by the president of the senate, five members appointed by the governor, and one representative from each employee organization that has at least five hundred dues-paying members employed by the state of Washington. The charge of the task force is to make a comprehensive recommendation to the legislature no later than December 1, 1993, in the form of proposed legislation, regarding the provision of personnel resources in state government. The task force shall address at least the following issues:

(a) Overall organization of the personnel resources apparatus in state government:
   (i) Consolidation or decentralization of all personnel services; and
   (ii) The appropriate role and degree of control of the governor, the Washington personnel resources board, agency directors, and other elected officials;

(b) Efficiency in management and service delivery:
   (i) Identify the principal barriers to, and successes in, effective recruitment, retention, development, and assignment of a quality work force in state service;
   (ii) Analyze the extent to which improvement in these areas is best achieved by changes in civil service reform, or from management and organizational initiatives of the governor, agency directors, employee organizations, employees, and other elected officials; and
   (iii) Develop principles regarding the purchase of services by state government;

(c) Employee rights and participation:
   (i) Identify areas and issues that are appropriately decided cooperatively between classified employees and management through collective bargaining or otherwise, and those areas that are inherently management prerogatives and responsibilities;
(ii) Analyze the full range of collective bargaining or other collaborative process issues, and identify those features that are the most effective and equitable, including grievance procedures, bargaining units, representation, union security, negotiations, and unfair labor practices;

(iii) Analyze the duty of the state to provide job stability and termination rights such as notice for exempt employees and develop a policy of equitable protection for exempt employees; and

(d) Any other related issue that comes to light during the course of the study may properly be examined. This list of issues is in no way intended to limit the inquiry and exploration of the task force in its pursuit of its principal charge.

(4) In developing its recommendation the task force shall draw upon the following resources:

(a) Full and frequent consultation with particular interest groups, including state employees and their organizations, managers, and directors at all levels of state service, elected officials, and academic and private sector personnel resource specialists;

(b) The experience of other states, particularly those who have recently made significant changes in this area; and

(c) The experience of private sector organizations that are recognized for innovative and effective accomplishment in this field.

(5) The task force shall meet at least monthly, and shall hold meetings in different regions of the state. Staff services shall be provided by legislative and governor's office staff.

(6) This section shall expire December 31, 1993.

NEW SECTION. Sec. 72. Section 67 of this act shall take effect July 1, 1997.

NEW SECTION. Sec. 73. Sections 1 through 66 and 68 through 70 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993."

MOTION

On motion of Senator Moore, the following amendments to the striking amendment by Senators Moore and Gaspard were considered simultaneously and were adopted:

On page 56, before line 1, insert the following:

"(27) RCW 28B.16.200 and 1979 c 151 s 18 and 1969 ex.s. c 36 s 20;"

Renumber the remaining subsections consecutively.

On page 56, after line 11, insert the following:

"NEW SECTION. Sec. 69. RCW 41.06.430 and 1990 c 60 s 102 and 1980 c 118 s 7 are each repealed."

Renumber the remaining sections consecutively and correct any references accordingly.

The President declared the question before the Senate to be the adoption of the striking amendment by Senators Moore and Gaspard, as amended, to Engrossed Substitute House Bill No. 2054.

Debate ensued.

POINT OF INQUIRY

Senator Deccio: "Senator Gaspard, I understand there has been some change in Item No. 5, the Director--giving rule-making authority to the Director for the manager positions. Would you explain that for us, please?"

Senator Gaspard: "Yes, Senator Deccio, the change that Senator Moore has just outlined creates a new definition of the managerial core. Under the powers of the Director of the Department, as appointed by the Governor, that Director will have rule-making authority over that managerial group. The board, as it is retained in the bill, will have the rule-making authority over all the rest of the state employees."

Senator Deccio: "I understand that that has been softened somewhat since this information sheet was distributed to us. Is it as it reads then, that the Director will be giving rule-making authority for manager positions?"

Senator Gaspard: "That is correct. What has changed from a draft that we looked at yesterday, at least from an outline that we looked at yesterday, was the definition by percentage which is one percent that allows the exempt positions to be increased."

Senator Deccio: "And one more question, if I may, the Personnel Director is appointed by and serves at the pleasure of the Governor. Through that place on the table organization, how many employees would the Governor have direct control over?"
Senator Gaspard: “If you mean the number of employees we anticipate to be in the management group, is that what you are asking, Senator Deccio? We anticipate that to be somewhere around four thousand—perhaps five thousand—the management definition as provided in the bill.”

Senator Deccio: “Thank you.”

POINT OF INQUIRY

Senator Nelson: “Senator Moore, I go back to the amendments that have been adopted here. I didn’t have a chance to see those before they were finally adopted and I am wondering now on the amendment to the striking amendment where we are removing the fund that had heretofore been used to fund the Higher Education Personnel Board. That has now been eliminated. What is the source of funding now for this combined personnel board that is going to take place in this bill?”

Senator Moore: “I think, in looking at the bill, I believe that it is unchanged from where it is now.”

Senator Nelson: “Yes, from where it is now.”

Senator Nelson: “OK. The second question is on your second amendment to the striking amendment which eliminated the career executive program for those who were involved in higher education programs with our universities and colleges, and I fail to see the rationale as to why we now are doing that in this bill when, in fact, the thrust of the rest of the bill was to give more exempt positions to effectively create opportunities for more people to pursue managerial activities without being under the umbrella of civil service. Can you explain why we are eliminating the career executive program? That is the second amendment to the striking amendment.”

Senator Moore: “We are not eliminating it for community colleges, technical schools, as I understand it, and we do have the Washington management group that would be the replacement.”

The striking amendment by Senators Moore and Gaspard, as amended, to Engrossed Substitute House Bill No. 2054 was adopted.

MOTIONS

On motion of Senator Moore, the following title amendments were considered simultaneously and were adopted:

MOTION

On motion of Senator Adam Smith, the Senate concurred in the House amendment(s) to Engrossed Substitute Senate Bill No. 5157.

POINT OF INQUIRY

Senator Newhouse: "Senator Smith, would you describe the amendments to us and the situation, please?"

Senator Adam Smith: "This is the bill that had to do with statutory attorney's fees received in district court. When you don't plead a specific amount of attorney's fees, you receive just a statutory amount. This happens in small cases. Currently, in all courts, except district court, the statutory amount is a hundred twenty-five dollars. The district court amount is fifty dollars, but you only receive it if you receive a minimum of twenty-five dollars in the judgment. What this bill does, originally, it bumped it up to fifty dollars, the minimum amount, and bumped the attorney's fees up to one hundred and twenty-five.

"On the floor, we changed that, and said the statutory attorney's fees are a hundred dollars and it floats below that. So, in other words, you would have to collect at least a hundred to get a hundred. If you collected eighty, you would get eighty and so on down the line. My understanding is this is something new that just sort of makes up the fee schedule. I mean why create more confusion in the system. So, we are going back to what the original bill had wanted to do before we messed around with it in
committee and, basically, doing what they brought to us in the first place, because it turned out, in my opinion, that they had the better approach."

The President declared the question before the Senate to be the motion by Senator Adam Smith that the Senate concur in the House amendment(s) to Engrossed Substitute Senate Bill No. 5157.

MESSAGE FROM THE HOUSE

April 21, 1993

MR. PRESIDENT:
The House has passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5868 with the following amendment(s)
Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. INTENT. The legislature finds that the long-term economic health of the state and its citizens depends upon the strength and vitality of its communities and businesses. It is the intent of this chapter to create a merged department of community, trade, and economic development that fosters new partnerships for strong and sustainable communities. The consolidation of the department of trade and economic development and the department of community development into one department will: Streamline access to services by providing a simpler point of entry for state programs; provide focused and flexible responses to changing economic conditions; generate greater local capacity to respond to both economic growth and environmental challenges; and increase accountability to the public, the executive branch, and the legislature.

A new department can bring together a focused effort to: Manage growth and achieve sustainable development; diversify the state's economy and export goods and services; provide greater access to economic opportunity; stimulate private sector investment and entrepreneurship; provide stable family-wage jobs and meet the diverse needs of families; provide affordable housing and housing services; construct public infrastructure; protect our cultural heritage; and promote the health and safety of the state's citizens.

The legislature further finds that as a result of the rapid pace of global social and economic change, the state and local communities will require coordinated and creative responses by every segment of the community. The state can play a role in
assisting such local efforts by reorganizing state assistance efforts to promote such partnerships. The department has a primary responsibility to provide financial and technical assistance to the communities of the state, to assist in improving the delivery of federal, state, and local programs, and to provide communities with opportunities for productive and coordinated development beneficial to the well-being of communities and their residents. It is the intent of the legislature in this consolidation to maximize the use of local expertise and resources in the delivery of community and economic development services.

**NEW SECTION, Sec. 2. MANAGEMENT RESPONSIBILITY.** The purpose of this chapter is to establish the broad outline of the structure of the department of community, trade, and economic development, leaving specific details of its internal organization and management to those charged with its administration. This chapter identifies the broad functions and responsibilities of the new department and is intended to provide flexibility to the director to reorganize these functions and to make recommendations for changes through the implementation plan required in section 8 of this act.

**NEW SECTION, Sec. 3. DEFINITIONS.** Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Associate development organization" means a local economic development nonprofit corporation that is broadly representative of community interests.

(2) "Department" means the department of community, trade, and economic development.

(3) "Director" means the director of the department of community, trade, and economic development.

A department of community, trade, and economic development is created. The department shall be vested with all powers and duties established or transferred to it under this chapter and such other powers and duties as may be authorized by law. Unless otherwise specifically provided in chapter ..., Laws of 1993 (this act), the existing responsibilities and functions of the agency programs will continue to be administered in accordance with their implementing legislation.

**NEW SECTION, Sec. 5. DIRECTOR'S APPOINTMENT.** The executive head of the department shall be the director. The director shall be appointed by the governor with the consent of the senate, and shall serve at the pleasure of the governor. The director shall be paid a salary to be fixed by the governor in accordance with RCW 43.03.040.

(c) Accept and expend gifts and grants, whether such grants be of federal or other funds;

(d) Appoint such deputy directors, assistant directors, and up to seven special assistants as may be needed to administer the department. These employees are exempt from the provisions of chapter 41.06 RCW;

(e) Prepare and submit budgets for the department for executive and legislative action;

(f) Submit recommendations for legislative actions as are deemed necessary to further the purposes of this chapter;

(g) Adopt rules in accordance with chapter 34.05 RCW and perform all other functions necessary and proper to carry out the purposes of this chapter;

(h) Delegate powers, duties, and functions as the director deems necessary for efficient administration, but the director shall be responsible for the official acts of the officers and employees of the department; and

(i) Perform other duties as are necessary and consistent with law.

(3) When federal or other funds are received by the department, they shall be promptly transferred to the state treasurer and thereafter expended only upon the approval of the director.

(4) The director may request information and assistance from all other agencies, departments, and officials of the state, and may reimburse such agencies, departments, or officials if such a request imposes any additional expenses upon any such agency, department, or official.

(5) The director shall, in carrying out the responsibilities of office, consult with governmental officials, private groups, and individuals and with officials of other states. All state agencies and their officials and the officials of any political subdivision of the state shall cooperate with and give such assistance to the department, including the submission of requested information, to allow the department to carry out its purposes under this chapter.

(6) The director may establish additional advisory or coordinating groups with the legislature, within state government, with state and other governmental units, with the private sector and nonprofit entities or in specialized subject areas as may be necessary to carry out the purposes of this chapter.

(7) The internal affairs of the department shall be under the control of the director in order that the director may manage the department in a flexible and intelligent manner as dictated by changing contemporary circumstances. Unless specifically limited by law, the director shall have complete charge and supervisory powers over the department. The director may create such administrative structures as the director deems appropriate, except as otherwise specified by law, and the director may employ such personnel as may be necessary in accordance with chapter 41.06 RCW, except as otherwise provided by law.

"Sec. 1. RCW 28B.15.820 and 1985 c 390 s 35 are each amended to read as follows:
(1) Each institution of higher education, except technical colleges, shall deposit two and one-half percent of revenues collected from tuition and services and activities fees in an institutional ("long-term loan") financial aid fund ("which") that is hereby created and which shall be held as a restricted fund. Moneys in (such) fund shall be used only for the following purposes: (a) To make guaranteed long-term loans to eligible students ("except as provided for") as provided in subsections (3) through (8) of this section; (b) to provide short-term loans as provided in subsection (9) of this section; or (c) to provide financial aid to needy students as provided in subsection (10) of this section.

(2) An "eligible student" for the purposes of subsections (3) through (8) and (10) of this section is a student registered for at least six credit hours or the equivalent, who is eligible for resident tuition and fee rates as defined in RCW 28B.15.012 through (28B.15.015) 28B.15.013, and who is a " needy student" as defined in RCW 28B.15.802.

(3) The amount of the guaranteed long-term loans made under (subsection (1) of this section shall not exceed the demonstrated financial need of the student. Each institution shall establish loan terms and conditions which shall be consistent with the terms of the guaranteed loan program established by 20 U.S. Code Section 1071 et seq., as now or hereafter amended. All loans made shall be guaranteed by the Washington student loan guaranty association or its successor agency. Institutions are hereby granted full authority to operate as an eligible lender under the guaranteed loan program.

(4) Before approving a guaranteed long-term loan, each institution shall analyze the ability of the student to repay the loan based on factors which include, but are not limited to, the student's accumulated total education loan burdens and the employment opportunities and average starting salary characteristics of the student's chosen fields of study. The institution shall counsel the student on the advisability of acquiring additional debt, and on the availability of other forms of financial aid.

(5) Each institution is responsible for collection of guaranteed long-term loans made under (subsection (1) of this section and shall exercise due diligence in such collection, maintaining all necessary records to insure that maximum repayments are made. Institutions shall cooperate with other lenders and the Washington student loan guaranty association, or its successor agency, in the coordinated collection of guaranteed loans, and shall assure that the guarantability of the loans is not violated.

Collection and servicing of guaranteed long-term loans under (subsection (1) of this section shall be performed by entities approved by the Washington student loan guaranty association or its successor agency: PROVIDED, That institutions are permitted to perform such servicing if specifically recognized to do so by the Washington student loan guaranty association or its successor agency. Collection and servicing of guaranteed long-term loans made by community colleges under subsection (1) of this section shall be coordinated by the student loan guaranty association for community and technical colleges ("education") and shall be conducted under procedures adopted by (such) the state board for community and technical colleges ("educational activities").

(6) Receipts from payment of interest or principal or any other subsidies to which institutions are entitled, (which) that are paid by or on behalf of borrowers of funds under subsections ((4)) (3) through (8) of this section, shall be deposited in the institution's (general local) financial aid fund and shall be used to cover the costs of making the guaranteed long-term loans under (subsection (1) of this section and maintaining necessary records and making collections under subsection (5) of this section: PROVIDED, That such costs shall not exceed five percent of aggregate outstanding loan (principal) principal.

Institutions shall maintain accurate records of such costs, and all receipts beyond those necessary to pay such costs, shall be (used for the support of the institution's operating budget) deposited in the institution's financial aid fund.

(7) The governing boards (of regents) of the state universities, (the boards of trustees of) the regional universities, and the Evergreen State College, and the state board for community and technical colleges ("education"), on behalf of the community colleges, shall each adopt necessary rules and regulations to implement this section.

(8) (Lending activities) First priority for any guaranteed long-term loans made under this section shall be directed toward students who would not normally have access to educational loans from private financial institutions in Washington state, and shall be made of secondary markets in the support of loan consolidation.

(9) Short-term ("interim") loans, not to exceed one (hundred twenty days) year, may be made from the institutional ("long-term loan") financial aid fund to students (eligible for guaranteed student loans and whose receipt of such loans is pending. Such short-term loans shall not be subject to the guarantee restrictions or the constraints of federal law imposed by subsection (3) of this section, nor shall they be subject to the overall limit on one (hundred twenty days) loans made under (subsection (1) of this section; or (c) to provide financial aid to needy students as provided in subsection (10) of this section.

(10) Any moneys deposited in the institutional ("long-term loan") financial aid fund ("which") that are not used in making ("long") long-term or short-term loans (or transferred to institutional operating budgets) may be used by the institution for locally-administered financial aid programs for needy students, such as need-based institutional employment programs or need-based tuition and fee (waiver) scholarship or grant programs. These funds shall be used in addition to and not to replace institutional funds (which) that would otherwise support these locally-administered financial aid programs. Priority in the use of these funds shall be given to needy students who have accumulated excessive educational loan burdens. An excessive educational loan burden is a burden that will be difficult to repay given employment opportunities and average starting salaries in the student's chosen fields of study.

Sec. 2. RCW 28B.101.040 and 1990 c 288 s 6 are each amended to read as follows:

Grants may be used by eligible participants to attend any public or private college or university in the state of Washington that is accredited by an accrediting association recognized by rule of the higher education coordinating board and that has an existing unused capacity. Grants shall not be used to attend any branch campus or educational program established under chapter 28B.45 RCW. The participant shall not be eligible for a grant if it will be used for any programs that include religious worship, exercise, or instruction or to pursue a degree in theology. Each participating student may receive up to two thousand five hundred dollars per academic year, not to exceed the student's demonstrated financial need for the course of study.

Sec. 3. RCW 28B.12.040 and 1985 c 370 s 58 are each amended to read as follows:

The higher education coordinating board shall develop and administer the college work-study program and shall be authorized to enter into agreements with employers and eligible institutions for the operation of the program. MESSAGE FROM THE HOUSE

April 17, 1993

MR. PRESIDENT:

The House has passed SENATE BILL NO. 5925 with the following amendment(s):

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. A new section is added to chapter 67.28 RCW to read as follows:

(1) The legislative body of any county with a population greater than seventy-five thousand in which is located all or part of a national monument is authorized to levy and collect a special excise tax not to exceed two percent on the sale of or charge made for the furnishing of lodging by a hotel, rooming house, tourist court, motel, trailer camp, and the granting of any similar license to use real property, as distinguished from the renting or leasing of real property. For the purposes of this tax, it shall be presumed that the occupancy of real property for a continuous period of one month or more constitutes a rental or lease of real property and not a mere license to use or to enjoy the same.

(2) The tax authorized in subsection (1) of this section is in addition to any other tax authorized by law.

(3) Any seller, as defined in RCW 82.08.010, who is required to collect any tax under this section shall pay over the tax to the county as provided in RCW 67.28.200. The deduction from state taxes under RCW 67.28.190 does not apply to the tax imposed under this section.

(4) All taxes levied and collected under this section shall be credited to a special fund in the treasury of the county. The taxes shall only be used for the acquisition, construction, repair, and improvement of a rest area for tourists which includes restrooms, picnic areas, trails and viewpoints, emergency facilities, transient parking facilities, concession and gift sales, and marketing of facilities for tourists visiting the county or the national monument, or to pay or secure the payment of all or any portion of general obligation bonds issued for such purposes. As used in this section, "transient parking facilities" does not include parking spaces to be used for overnight stays.

(5) The tax authorized in subsection (1) of this section may only be imposed if the county and at least one of the two largest cities in the county provide moneys for the project described in subsection (4) of this section from revenue received under RCW 67.28.180 or if the county provides moneys for the project from revenue received under RCW 82.14.030. Moneys provided under this section shall be deposited in the special fund created under subsection (4) of this section and may be used only as provided in subsection (4) of this section.

NEW SECTION. Sec. 2. A new section is added to chapter 67.28 RCW to read as follows:

The department of revenue shall perform the collection of taxes under section 1 of this act on behalf of the county at no cost to the county.

Sec. 3. RCW 36.100.010 and 1999 1st ex.s. c 8 s 1 are each amended to read as follows:

(1) A public facilities district may be created in any county with three hundred thousand or more population that is located more than one hundred miles from any county in which the state has constructed and owns a convention center, or any county with a population less than seventy-five thousand but greater than twenty thousand in which is located all or part of a national monument. A public facilities district shall be coextensive with the boundaries of the county.

(2) A public facilities district shall be created upon adoption of a resolution providing for the creation of such a district by the county legislative authority in which the proposed district is located and the city council of the largest city within such county.

(3) A public facilities district is a municipal corporation, an independent taxing "authority" within the meaning of Article VII, section 1 of the state Constitution, and a "taxing district" within the meaning of Article VII, section 2 of the state Constitution.
(4) No taxes authorized under this chapter may be assessed or levied unless a majority of the voters of the public facilities district has validated the creation of the public facilities district at a general or special election.

(5) A public facilities district shall constitute a body corporate and shall possess all the usual powers of a corporation for public purposes as well as all other powers that may now or hereafter be specifically conferred by statute, including, but not limited to, the authority to hire employees, staff, and services, to enter into contracts, and to sue and be sued.

Sec. 4. RCW 36.100.030 and 1989 1st ex.s. c 8 s 3 are each amended to read as follows:

A public facilities district is authorized to acquire, construct, own, and operate sports and entertainment facilities with contiguous parking facilities and, upon the approval of the voters of the public facilities district, a regional science education facility may be located in any city or county within a public facilities district which has a population of more than one hundred fifty thousand. A public facilities district may impose charges and fees for the use of its facilities, and may accept and expend or use gifts, grants, and donations. The taxes that are provided for in this chapter may only be imposed for such purposes.

Sec. 5. RCW 36.100.040 and 1989 1st ex.s. c 8 s 4 are each amended to read as follows:

A public facilities district may impose an excise tax on the sale of or charge made for the furnishing of facilities related to the national monument.

The House amendment to Senate Bill No. 5925 is a measure which allows counties in

(6) Motion to Concur in House Amendments to Senate Bill No. 5925

Senator Snyder moved that the Senate do concur in the House amendment to Senate Bill No. 5925.

POINT OF ORDER

Senator Nelson: “Mr. President, I rise to a point of order that I would like the President to rule on the scope and object of the House amendment to Senate Bill No. 5925—a very meritorious measure as it left this body—a measure that would permit an excise tax on lodging and other facilities within a special purpose district of a county of not more than seventy-five thousand population where a national monument exists, and would permit proceeds from that excise tax to be used for lodging and other purposes for the sole activity of those who were visiting the monument.

“I notice, now, that on the amendment from the House, they have added to this measure which started out in RCW 67.28, they have added a section in RCW 36.100 concerning public facility districts and adding language that will allow the approval of a voter initiated plan to permit a regional science education facility in a public facility district with a population of more than a hundred-fifty thousand. For that reason, I rise for this point of order to have the President rule on the scope.”

Further debate ensued.

RULING BY THE PRESIDENT

President Pritchard: “In ruling upon the point of order raised by Senator Nelson, the President finds that Senate Bill No. 5925 is a measure which allows counties in which all or part of a national monument is located to levy an excise tax on lodging for use in construction, repair, improvement and marketing of facilities related to the national monument.

“The House amendment would, in addition, expand the list of counties who are eligible to create a public facilities district and, furthermore, would expand the authorization of public facilities districts by allowing construction and operation of regional science education facilities in certain cities and towns which meet certain population requirements and obtain voter approval.

“The President, therefore, finds the proposed House striking amendment does change the scope and object of the bill and the point of order is well taken.”

The House striking amendment to Senate Bill No. 5925 was ruled out of order.

MOTION
On motion of Senator Snyder, the Senate refuses to concur in the House amendment to Senate Bill No. 5925 and asks
the House to recede therefrom.

At 8:07 p.m., there being no objection, the President declared the Senate to be at ease.

The Senate was called to order at 8:15 p.m. by President Pritchard.

SECOND READING
CONFIRMATION OF GUBERNATORIAL APPOINTMENTS

MOTION

On motion of Senator Owen, Gubernatorial Appointment No. 9270, Robert V. Jensen, as a member of the Pollution Control/Shorelines Hearings Board, was confirmed.

APPOINTMENT OF ROBERT V. JENSEN

The Secretary called the roll. The appointment was confirmed by the following vote: Yeas, 38; Nays, 0; Absent, 0; Excused, 11.

MOTION
Senator Owen moved that Gubernatorial Appointment No. 9292, Senator Dean Sutherland, as a member of the Pacific Marine Fisheries Commission, be confirmed.

POINT OF INQUIRY

Senator McCaslin: “Senator Owen, is he any relation to Senator Sutherland here?”
Senator Owen: “A striking resemblance."

Further debate ensued.

POINT OF INQUIRY

Senator Moore: “Senator Owen, do you have before you the schedule of meetings for that commission?”
Senator Owen: “It is pretty hectic, having served on that commission for a number of years. It is normally one in-state meeting of the interested parties who then go out of state for one meeting, either to Boise, Idaho, or Juneau, Alaska, or someplace in California or Oregon.”
Senator Moore: “Well, it is my understanding that Senator Sutherland has not been to Hawaii for awhile and I wondered—"
Senator Owen: “As chairman of the Pacific Marine Fisheries Commission for one year, we diligently worked to bring Hawaii into the compact, only because we have mutual fishing interests. They refused to join, so if he gets a trip to Hawaii, I think we should look very closely at the travel request.”

6. (a) Establish for each year a community-rated maximum premium for the uniform benefits package that shall operate to control overall health care costs. The maximum premium cost of the uniform benefits package in the base year 1995 shall be established upon an actuarial determination of the costs of providing the uniform benefits package and such other cost impacts as may be deemed relevant by the commission. Beginning in 1996, the growth rate of the premium cost of the uniform benefits package for each certified health plan shall be allowed to increase by a rate no greater than the average growth rate in the cost of the package between 1990 and 1993 as actuarially determined, reduced by two percentage points per year until the growth rate is no greater than the five-year average average of growth in Washington per capita personal income, as determined by the office of financial management.

   (b) In establishing the community-rated maximum premium under this subsection, ([the commission shall develop a composite rate for employees that provides nominal, if any, variance between the rate for individual employees and employees with dependent medical conditions to minimize any economic incentive to an employer to discriminate between prospective employees based upon whether or not they have a dependent for whom coverage would be required. Nothing in this subsection (6)(b) shall preclude the commission from evaluating other methodologies for establishing the community-rated maximum premium for the uniform benefits package as provided in section 449 of chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993.).

7. Determine the need for medical risk adjustment mechanisms to minimize financial incentives for certified health plans to enroll individuals who present lower health risks and avoid enrolling individuals who present higher health risks, and to minimize financial incentives for employer hiring practices that discriminate against individuals who present higher health risks. In the design of medical risk distribution mechanisms under this subsection, the commission shall (a) balance the benefits of price competition with the need to protect certified health plans from any unsustainable negative effects of adverse selection; (b) consider the development of a system that creates a risk profile of each certified health plan’s enrollee population that does not create disincentives for a plan to control benefit utilization, that requires contributions from plans that enjoy a low-risk enrollee population to plans that have a high-risk enrollee population, and that does not permit an adjustment of the premium charged for the uniform benefits package or supplemental coverage based upon either receipt or contribution of assessments; and (c) consider whether registered employer health plans should be included in any medical risk adjustment mechanism. Proposed medical risk adjustment mechanisms shall be submitted to the legislature as provided in section 454 of chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993.

8. Design a mechanism to assure minors have access to confidential health care services as currently provided in RCW 70.24.110 and 71.34.030.

9. Monitor the actual growth in total annual health services costs.

10. Monitor the increased application of technology as required by chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993 and take necessary action to ensure that such application is made in a cost-effective and efficient manner and consistent with existing laws that protect individual privacy.

11. Establish reporting requirements for certified health plans that own or manage health care facilities, health care facilities, and health care providers to periodically report to the commission regarding major capital expenditures of the plans. The commission shall review and monitor such reports and shall report to the legislature regarding major capital expenditures on at least an annual basis. The Washington health care facilities authority and the commission shall develop standards jointly for evaluating
and approving major capital expenditure financing through the Washington health care facilities authority, as authorized pursuant to chapter 70.37 RCW. By December 1, 1994, the commission and the authority shall submit jointly to the legislature such proposed standards and rules as the commission and the authority shall, after legislative review, but no later than June 1, 1995, publish such standards. Upon publication, the authority may not approve financing for major capital expenditures unless approved by the commission.

(12) Establish maximum enrollee financial participation levels. The levels shall be related to enrollee household income.

(13) For health services provided under the uniform benefits package and supplemental benefits, adopt standards for enrollment, and standardized billing and claims processing forms. The standards shall ensure that these procedures minimize administrative burdens on health care providers, health care facilities, certified health plans, and consumers. Subject to federal approval or phase-in schedules whenever necessary or appropriate, the standards also shall apply to state-purchased health services, as defined in ROW 41,05.011.

(14) Propose that certified health plans adopt certain practice indicators or risk management protocols for quality assurance, utilization review, or provider payment. The commission may consider indicators or protocols recommended according to section 410 of chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993 for these purposes.

(15) Propose other guidelines to certified health plans for utilization management, use of technology and methods of payment, such as diagnosis-related groups and a resource-based relative value scale. Such guidelines shall be voluntary and shall be designed to promote improved management of care, and provide incentives for improved efficiency and effectiveness within the delivery system.

(16) Adopt standards and oversee and develop policy for personal health data and information system as provided in chapter 70.170 RCW.

(17) Adopt standards that prevent conflict of interest by health care providers as provided in section 408 of chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993.

(18) At the appropriate juncture and in the fullness of time, consider the extent to which medical research and health professions training activities should be included within the health service system set forth in this chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993.

(19) Evaluate and monitor the extent to which racial and ethnic minorities have access and to receive health services within the state, and develop strategies to address barriers to access.

(20) Develop standards for the certification process to certify health plans and employer health plans to provide the uniform benefits package, according to the provisions for certified health plans and registered employer health plans under chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993.

(21) Develop rules for implementation of individual and employer participation under sections 463 and 464 of chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993 specifically Applicable to persons who work in this state but not live in the state or persons who live in this state but work outside of the state. The rules shall be designed so that these persons receive coverage and financial requirements that are comparable to that received by persons who both live and work in the state.

(22) After receiving advice from the health services effectiveness committee, adopt rules that must be used by certified health plans, disability insurers, health care service contractors, and health maintenance organizations to determine whether a procedure, treatment, drug, or other health service is no longer experimental or investigatory.

(23) Establish a process for purchase of uniform benefits package services by enrollees when they are out-of-state.

(24) Develop recommendations to the legislature as to whether state and school district employees, on whose behalf health benefits are or will be purchased by the health care authority pursuant to chapter 41.05 RCW, should have the option to purchase health benefits through health insurance purchasing cooperatives on and after July 1, 1997. In developing its recommendations, the commission shall consider:

(a) The impact of state or school district employees purchasing through health insurance purchasing cooperatives on the ability of the state to control its health care costs; and

(b) Whether state or school district employees purchasing through health insurance purchasing cooperatives will result in inequities in health benefits between or within groups of state and school district employees.

(25) Establish guidelines for providers dealing with terminal or static conditions, taking into consideration the ethics of providers, patient and family wishes, costs, and survival possibilities.

(26) Evaluate the extent to which Taft-Hartley health care trusts provide benefits to individuals in the state; review the federal laws under which these trusts are organized; and make appropriate recommendations to the governor and the legislature on or before December 1, 1994, as to whether these trusts should be brought under the provisions of chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993 when it is fully implemented, and if the commission recommends inclusion of the trusts, how to implement such inclusion.

(27) Make appropriate recommendations to the governor and the legislature on or before December 1, 1994, as to how seasonal workers and their employers may be brought under the provisions of chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993 when it is fully implemented, and with particular attention to the financial impact on seasonal workers and their employers. Until such time this study has been completed and the legislature has taken affirmative action, RCW 43.88.810 (section 484, chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993, as amended by section 3 of this act) shall not apply to seasonal workers or their employers.

(28) Evaluate whether Washington is experiencing a higher percentage in in-migration of residents from other states and territories than would be expected by normal trends as a result of the availability of unsubsidized and subsidized health care benefits for all residents and report to the governor and the legislature their findings.

(29) In developing the uniform benefits package and other standards pursuant to this section, consider the likelihood of the establishment of a national health services plan adopted by the federal government and its implications.

(30) Evaluate the effect of reforms under chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993 on access to care and economic development in rural areas.

To the extent that the exercise of any of the powers and duties specified in this section may be inconsistent with the powers and duties of other state agencies, offices, or commissions, the authority of the commission shall supersede that of such other state agency, office, or commission, except in matters of personal health data, where the commission shall have primary data system policymaking authority and the department of health shall have primary responsibility for the maintenance and routine operation of personal health data systems.
Sec. 3. Section 464, chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993 is amended to read as follows:

(1) The legislature recognizes that small businesses play an essential and increasingly important role in the state's economy. The legislature further recognizes that many of the state's small business owners provide health insurance to their employees through small group policies at a cost that directly affects their profitability. Other small business owners are prevented from providing health benefits to their employees by the lack of access to affordable health insurance coverage. The legislature intends that the provisions of chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993 make health insurance more available and affordable to small businesses in Washington state through strong cost control mechanisms and the option to purchase health benefits through the basic health plan, the Washington state group purchasing association, and health insurance purchasing cooperatives.

(2) On July 1, 1995, every employer employing more than five hundred qualified employees shall:
(a) Offer a choice of the uniform benefits package as provided by at least three available certified health plans, one of which shall be the lowest cost available package within their geographic region, and for employers who have established a registered employer health plan, one of which may be its own registered employer health plan, to all qualified employees. The employer shall be required to pay no less than fifty percent of the premium cost of the lowest cost available package within their geographic region. On July 1, 1996, all dependents of qualified employees of these firms shall be offered a choice of packages as provided in section 2 with the employer paying no less than fifty percent of the premium of the lowest cost package within their geographic region.
(b) For employees who work fewer than thirty hours during a week or one hundred twenty hours during a calendar month, three hundred sixty hours during a calendar quarter or one thousand four hundred forty hours during a calendar year, and their dependents, pay, for the period of time adopted by the employer under this subsection, the amount resulting from application of the following formula: The number of hours worked by the employee in a month is multiplied by the amount of a qualified employee's premium, and that amount is then divided by one hundred twenty.
(c) If an employee under (b) of this subsection is the dependent of a qualified employee, and is therefore covered as a dependent by the qualified employee's employer, then the employer of the employee under (b) of this subsection shall not be required to participate in the cost of the uniform benefits package for that employee.
(d) If an employee working on a seasonal basis is a qualified employee of another employer, and therefore has uniform benefits package coverage through that primary employer, then the seasonal employer of the employee shall not be required to participate in the cost of the uniform benefits package for that employee.

(3) By July 1, 1996, every employer employing more than one hundred qualified employees shall:
(a) Offer a choice of the uniform benefits package as provided by at least three available certified health plans, one of which shall be the lowest cost available package within their geographic region, to all qualified employees. The employer shall be required to pay no less than fifty percent of the premium cost of the lowest cost available package within their geographic region. On July 1, 1997, all dependents of qualified employees in these firms shall be offered a choice of packages as provided in this section with the employer paying no less than fifty percent of the premium of the lowest cost package within their geographic region.
(b) For employees who work fewer than thirty hours during a week or one hundred twenty hours during a calendar month, three hundred sixty hours during a calendar quarter or one thousand four hundred forty hours during a calendar year, and their dependents, pay, for the period of time adopted by the employer under this subsection, the amount resulting from application of the following formula: The number of hours worked by the employee in a month is multiplied by the amount of a qualified employee's premium, and that amount is then divided by one hundred twenty.
(c) If an employee under (b) of this subsection is the dependent of a qualified employee, and is therefore covered as a dependent by the qualified employee's employer, then the employer of the employee under (b) of this subsection shall not be required to participate in the cost of the uniform benefits package for that employee.
(d) If an employee working on a seasonal basis is a qualified employee of another employer, and therefore has uniform benefits package coverage through that primary employer, then the seasonal employer of the employee shall not be required to participate in the cost of the uniform benefits package for that employee.

(4) By July 1, 1997, every employer shall:
(a) Offer a choice of the uniform benefits package as provided by at least three available certified health plans, one of which shall be the lowest cost available package within their geographic region, to all qualified employees. The employer shall be required to pay no less than fifty percent of the premium cost of the lowest cost available package within their geographic region. On July 1, 1999, all dependents of qualified employees in all firms shall be offered a choice of packages as provided in this section with the employer paying no less than fifty percent of the premium of the lowest cost package within their geographic region.
(b) For employees who work fewer than thirty hours during a week or one hundred twenty hours during a calendar month, three hundred sixty hours during a calendar quarter or one thousand four hundred forty hours during a calendar year, and their dependents, pay, for the period of time adopted by the employer under this subsection, the amount resulting from application of the following formula: The number of hours worked by the employee in a month is multiplied by the amount of a qualified employee's premium, and that amount is then divided by one hundred twenty.
(c) If an employee under (b) of this subsection is the dependent of a qualified employee, and is therefore covered as a dependent by the qualified employee's employer, then the employer of the employee under (b) of this subsection shall not be required to participate in the cost of the uniform benefits package for that employee.
(d) If an employee working on a seasonal basis is a qualified employee of another employer, and therefore has uniform benefits package coverage through that primary employer, then the seasonal employer of the employee shall not be required to participate in the cost of the uniform benefits package for that employee.
(e) If an employee working on a seasonal basis is a qualified employee of another employer, and therefore has uniform benefits package coverage through that primary employer, then the seasonal employer of the employee shall not be required to participate in the cost of the uniform benefits package for that employee.

(5) Employer participation requirement shall be waived if imposition of the requirement would constitute a violation of the freedom of religion provisions of the First Amendment of the United States Constitution or Article I, section 11, of the state Constitution. In such case the employer shall, pursuant to commission rules, set aside an amount equal to the applicable employer contribution level in a manner that would permit his or her employee to fully comply with the requirements of this chapter.

(6) In lieu of offering the uniform benefits package to employees and their dependents through direct contracts with certified health plans, an employer may combine the employer contribution with that of the employee's contribution and enroll in the basic health plan as provided in chapter 70.47 RCW or a health insurance purchasing cooperative established under sections 425
and 426 of chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993. Any subsidy that may be provided according to the provisions of chapter 70.47 RCW shall not lessen the employer's obligation to pay a minimum of fifty percent of the premium and the full amount of the direct subsidy shall be for the benefit of the employee or the dependent.

(7) For purposes of determining the financial obligation of an employer who enrolls employees or employees and their adult dependents in the basic health plan, the premium shall be the per adult, per month, cost of coverage in the plan, including administration.

NEW SECTION. Sec. 4. Section 466, chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993 is amended to read as follows:

SMALL FIRM FINANCIAL ASSISTANCE. (1) Beginning July 1, 1997, firms with fewer than twenty-five workers that face barriers to providing health insurance for their employees may, upon application, be eligible to receive financial assistance with funds set aside from the health services account. Firms with the following characteristics shall be given preference in the distribution of funds: (a) New firms, (b) employers with low average wages, (c) employers with low profits, and (d) firms in economically distressed areas.

(2) All employers in existence on or before July 1, 1997, who meet the criteria set forth in this section, and rules adopted under this section, may apply to the health services commission for assistance. Such employers may not receive premium assistance beyond July 1, 2001. New employers, who come into existence after July 1, 1997, may apply for and receive premium assistance for a limited period of time, as determined by the commission.

(3) The total funds available for small business assistance shall (not exceed) be the lesser of (a) one hundred fifty million dollars or (b) twenty-five percent of the cost of the uniform benefits package per the eligible applicants' insured employee or dependents as the case may be. For the biennium beginning July 1, 1997. Thereafter, the amount of total funds available for premium assistance shall be determined by the office of financial management, based on a forecast of inflation, employment, and the number of eligible firms.

(4) By July 1, 1997, the health services commission, with assistance from the small business advisory committee established in section 404 of chapter 70.47 RCW (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993, shall develop specific definitions, rules, and procedures governing all aspects of the small business assistance program, including application procedures, thresholds regarding firm size, wages, profits, and age of firm, and rules governing duration of assistance. The health services commission will endeavor to design a system for the distribution of assistance that will create minimal burdens on businesses seeking financial assistance.

(5) Final determination of the amount of the premium assistance to be dispensed to an employer shall be made by the commission based on rules, definitions, and procedures developed under this section. If total claims for assistance are above the amount of total funds available for such purposes, the commission shall have the authority to prorate employer claims so that the amount of available funds is not exceeded.

(6) The office of financial management, in consultation with the commission, shall establish appropriate criteria for monitoring and evaluating the economic and labor market impacts of the premium assistance program and report its findings to the commission annually through July 1, 2001.

NEW SECTION. Sec. 5. No later than January 1, 1997, the commission shall recommend legislation establishing a program for tax credits under chapter 82.04 RCW for employers with fewer than five hundred full-time equivalent employees, that provides a credit against the amount of employer tax. The credit shall be in an amount equal to a proportion of the cost of premium contributions made by such employer on behalf of dependents of employees under chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993. The proposed legislation shall limit the tax credit based on the criteria set forth in RCW 43.--.--.

- (section 466, chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993, as amended by section 4 of this act). The tax credit shall not exceed forty percent of the employer's actual premium paid on behalf of dependents of employees.

NEW SECTION. Sec. 6. A new section is added to chapter 70.47 RCW to read as follows:

The administrator shall continue to use a premium pricing structure substantially equivalent to that used by the plan on January 1, 1993.

NEW SECTION. Sec. 7. Section 5 of this act is added to chapter 43.-- RCW (sections 401 through 407, 409, 425, 427 through 430, and 447 through 466 of chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993.

NEW SECTION. Sec. 8. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993."

MOTION

Senator Deccio moved that the following amendment by Senators Deccio, West, Moyer, Bluechel and McDonald to the striking amendment by Senators Talmadge, Gaspare and Snyder be adopted:

Beginning on page 1, line 7, after "Sec. 1." strike the remainder of the amendment and insert the following:

"Sec. 1. The legislature finds that:

(a) A significant percentage of the population of this state does not have reasonably available insurance or other coverage of the costs of necessary basic health care services;

(b) This lack of basic health care coverage is detrimental to the health of the individuals lacking coverage and to the public welfare, and results in substantial expenditures for emergency and remedial health care, often at the expense of health care providers, health care facilities, and all purchasers of health care, including the state; and

(c) The use of managed health care systems has significant potential to reduce the growth of health care costs incurred by the people of this state generally, and by low-income pregnant women who are an especially vulnerable population, along with their children, and who need greater access to managed health care.

(2) The purpose of this chapter is to provide or make available necessary basic health care services in an appropriate setting to working persons and others who lack coverage, at a cost to these persons that does not create barriers to the utilization of necessary health care services. To that end, this chapter establishes a program to be made available to those residents under sixty-five years of age not otherwise eligible for medicare with gross family income at or below $30,000 three hundred percent of the
federal poverty guidelines, except as provided for in RCW 70.47.060(11)(b), who share in a portion of the cost or who pay the full cost of receiving basic health care services from a managed health care system. It is not the intent of this chapter to provide health care services for those persons who are presently covered through private employer-based health plans, nor to replace employer-based health plans. Further, it is the intent of the legislature to expand, wherever possible, the availability of private health care coverage and to discourage the decline of employer-based coverage.

(4) (The program authorized under this chapter is strictly limited in respect to the total number of individuals who may be allowed to participate and the specific areas within the state where it may be established. All such restrictions or limitations shall remain in full force and effect until quantifiable evidence based upon the actual operation of the program, including detailed cost benefit analysis, has been presented to improve the operation of the legislature, by specific act at that time may then modify such limitations.) (a) It is the purpose of this chapter to acknowledge the initial success of this program that has (i) assisted thousands of families in their search for affordable health care; (ii) demonstrated that low-income uninsured families are willing to pay for their own health care coverage to the extent of their ability to pay; and (iii) proved that local health care providers are willing to enter into a public/private partnership as they configure their own professional and business relationships into a managed care system.

(b) As a consequence, the legislature intends to make the program available to individuals in the state with incomes below three hundred percent of federal poverty guidelines, except as provided for in RCW 70.47.060(11)(b), who reside in communities where the plan is operational, and who collectively or individually wish to exercise the opportunity to purchase health care coverage through the program if it is done at no cost to the state. It is also the intent of the legislature to allow employers and other financial sponsors to financially assist such individuals in purchasing health care through the program.

Sec. 2. RCW 70.47.020 and 1987 1st ex.s. c 5 s 4 are each amended to read as follows:

As used in this chapter:

(1) "Washington basic health plan" or "plan" means the system of enrollment and payment on a prepaid capitated basis for basic health care services, administered by the plan administrator through participating managed health care systems, created by this chapter.

(2) "Administrator" means the Washington basic health plan administrator.

(3) "Managed health care system" means any health care organization, including health care providers, insurers, health care service contractors, health maintenance organizations, or any combination thereof, that provides directly or by contract basic health care services, as defined by the administrator and rendered by duly licensed providers, on a prepaid capitated basis to a defined patient population enrolled in the plan and in the managed health care system.

(4) "Enrollee" means an individual, or an individual plus the individual's spouse and/or dependent children, all under the age of sixty-one and not otherwise eligible for Medicare, who resides in an area of the state served by a managed health care system participating in the plan, (whose gross family income at the time of enrollment does not exceed twice the federal poverty level as adjusted for family size and determined annually by the federal department of health and human services,) who chooses to obtain basic health care coverage from a particular managed health care system in return for periodic payments to the plan.

Nonsubsidized enrollees shall be considered enrollees unless otherwise specified.

(5) "Nonsubsidized enrollee" means an enrollee who pays the full premium for participation in the plan and shall not be eligible for any subsidy from the plan.

(6) "Subsidy" means the difference between the amount of periodic payment the administrator makes, from funds appropriated from the basic health plan trust account, to a managed health care system on behalf of an enrollee plus the administrative cost to the plan of providing the plan to that enrollee, and the amount determined to be the enrollee's responsibility under RCW 70.47.060(2).

(7) "Premium" means a periodic payment, based upon gross family income and determined under RCW 70.47.060(2), which an enrollee makes to the plan as consideration for enrollment in the plan.

(8) "Rate" means the per capita amount, negotiated by the administrator with and paid to a participating managed health care system, that is based upon the enrollment of enrollees in the plan and in that system.

Sec. 3. RCW 70.47.030 and 1992 c 232 s 907 are each amended to read as follows:

(1) The basic health plan trust account is hereby established in the state treasury. (All) Any nongeneral fund-state funds collected for this program shall be deposited in the basic health plan trust account and may be expended without further appropriation. Moneys in the account shall be used exclusively for the purposes of this chapter, including payments to participating managed health care systems on behalf of enrollees in the plan and payment of costs of administering the plan. After July 1, 1993, the administrator shall not expend or encumber for an ensuing fiscal period amounts exceeding ninety-five percent of the amount anticipated to be spent for purchased services during the fiscal year.

(2) The basic health plan subscription account is created in the custody of the state treasurer. All receipts from amounts due under RCW 70.47.060 (11) and (12) shall be deposited into the account. Funds in the account shall be used exclusively for the purposes of this chapter, including payments to participating managed health care systems on behalf of enrollees in the plan and payment of costs of administering the plan. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures.

(3) The administrator shall take every precaution to see that none of the funds in the separate accounts created in this section or that any premiums paid either by subsidized or nonsubsidized enrollees are commingled in any way, except that the administrator may combine funds designated for administration of the plan into a single administrative account.

Sec. 4. RCW 70.47.060 and 1992 c 232 s 908 are each amended to read as follows:

(1) The administrator has the following powers and duties:

(a) To design and from time to time revise a schedule of covered basic health care services, including physician services, inpatient and outpatient hospital services, and other services that may be necessary for basic health care, which enrollees in any participating managed health care system under the Washington basic health plan shall be entitled to receive in return for premium payments to the plan. The schedule of services shall emphasize proven primary and preventive health care and shall include all services necessary for prenatal, postnatal, and well-child care. However, with respect to coverage for groups of subsidized enrollees, the administrator shall not contract for prenatal or postnatal services that are provided under the medical assistance program under chapter 74.09 RCW except to the extent that such services are necessary over not more than a one-month period in order to maintain continuity of care after diagnosis of pregnancy by the managed care provider, or
except to provide any such services associated with pregnancies diagnosed by the managed care provider before July 1, 1992. The schedule of services shall also include a separate schedule of basic health care services for children, eighteen years of age and younger, for those enrollees who choose to secure basic health care in the managed health care system. The administrator shall consider the guidelines for assessing health services under the mandated benefits act of 1984, RCW 48.42.080, and such other factors as the administrator deems appropriate.

(2) To design and implement a structure of periodic premiums due the administrator from enrollees that is based upon gross family income, giving appropriate consideration to family size as well as the ages of all family members. The enrollment of children shall not require the enrollment of their parent or parents who are eligible for the plan.

(a) An employer or other financial sponsor may, with the approval of the administrator, pay the premium on behalf of any enrollee, by arrangement with the enrollee and through a mechanism acceptable to the administrator, but in no case shall the payment made on behalf of the enrollee exceed eighty percent of total premiums due from the enrollee.

(b) Premiums due from nonsubsidized enrollees who are not otherwise eligible to be enrollees, shall be in an amount equal to the cost charged by the managed health care system provider to the state for the plan plus the administrative cost of the plan to the enrollee.

(3) To design and implement a structure of nominal copayments due a managed health care system from enrollees. The structure shall discourage inappropriate enrollee utilization of health care services, but shall not be so costly to enrollees as to constitute a barrier to appropriate utilization of necessary health care services.

(4) To design and implement, in concert with a sufficient number of potential providers in a discrete area, an enrollee financial participation structure, separate from that otherwise established under this chapter, that has the following characteristics:

(a) Nominal premiums that are based upon ability to pay, but not set at a level that would discourage enrollment;

(b) A modified fee-for-service payment schedule for providers;

(c) Coinsurance rates that are established based on specific service and procedure costs and the enrollee's ability to pay for the care. However, coinsurance rates for families with incomes below one hundred twenty percent of the federal poverty level shall be nominal. No coinsurance shall be required for specific prevention programs, such as prenatal care. The coinsurance rate levels shall not have a measurable negative effect upon the enrollee's health status; and

(d) A case management system that fosters a provider-enrollee relationship whereby, in an effort to control cost, maintain or improve the health status of the enrollee, and maximize patient involvement in her or his health care decision-making process, every effort is made by the provider to inform the enrollee of the cost of the specific services and procedures and related health benefits.

The potential financial liability of the plan to any such providers shall not exceed in the aggregate an amount greater than that which might otherwise have been incurred by the plan or the enrollee on the basis of the number of enrollees multiplied by the average of the prepaid capitated rates negotiated with participating managed health care systems under RCW 70.47.100 and reduced by any sums charged enrollees on the basis of the coinsurance rates that are established under this subsection.

(5) To limit enrollment of persons who qualify for subsidies so as to prevent an overexpenditure of appropriations for such purposes. Whenever the administrator finds that there is danger of such an overexpenditure, the administrator shall close enrollment until the administrator finds the danger no longer exists.

(6) (a) To limit the payment of a subsidy to only those enrollees, as defined in RCW 70.47.020, whose gross family income at the time of enrollment does not exceed twice the federal poverty level adjusted for family size and determined annually by the federal department of health and human services. 

(b) Except as provided for in subsection (11)(b) of this section, to limit participation of nonsubsidized enrollees in the plan to those whose family incomes at the time of enrollment does not exceed three times the federal poverty level adjusted for family size and determined annually by the federal department of health and human services.

(7) To adopt a schedule for the orderly development of the delivery of services and availability of the plan to residents of the state, subject to the limitations contained in RCW 70.47.080.

In the selection of any area of the state for the initial operation of the plan, the administrator shall take into account the levels and rates of unemployment in different areas of the state, the need to provide basic health care coverage to a population reasonably representative of the portion of the state's population that lacks such coverage, and the need for geographic, demographic, and economic diversity.

(Before July 1, 1988, the administrator shall endeavor to secure participation contracts with managed health care systems in discrete geographic areas within at least five congressional districts. (2))

(2) To solicit and accept applications from managed health care systems, as defined in this chapter, for inclusion as eligible basic health care providers under the plan. The administrator shall endeavor to assure that covered basic health care services are available to any enrollee of the plan from among a selection of two or more participating managed health care systems. In adopting any rules or procedures applicable to managed health care systems and in its dealings with such systems, the administrator shall consider and make suitable allowance for the need for health care services and the differences in local availability of health care resources, along with other resources, within and among the several areas of the state.

((iii)) (9) To receive periodic premiums from enrollees, deposit them in the basic health plan operating account, keep records of enrollee status, and authorize periodic payments to managed health care systems on the basis of the number of enrollees participating in the respective managed health care systems.

((iiii)) (10) To accept applications from individuals residing in areas served by the plan, on behalf of themselves and their spouses and dependent children, for enrollment in the Washington basic health plan, to establish appropriate minimum-enrollment periods for enrollees as may be necessary, and to determine, upon application and at least annually thereafter, or at the request of any enrollee, eligibility due to current gross family income for sliding scale premiums. Except as provided for in subsection (11)(b) of this section, an enrollee who remains current in payment of the sliding-scale premium, as determined under subsection (2) of this section, and whose gross family income has risen above (iii) three times the federal poverty level, may continue enrollment unless and until the enrollee's gross family income has remained above (iii) three times the poverty level for (i) eighteen consecutive months, by making payment at the unsubsidized rate required for the managed health care system in which he or she may be enrolled plus the administrative cost of providing the plan to that enrollee. No subsidy may be paid with respect to any enrollee whose current gross family income exceeds twice the federal poverty level or, subject to RCW 70.47.110, who is a recipient of medical assistance or medical care services under chapter 74.09 RCW. If a number of enrollees drop their enrollment for no
apparent good cause, the administrator may establish appropriate rules or requirements that are applicable to such individuals before they will be allowed to re-enroll in the plan.

- (11)(a) To accept applications from small business owners on behalf of themselves and their employees, spouses, and dependent children who reside in an area served by the plan. The administrator may require all or the substantial majority of the eligible employees of such businesses to enroll in the plan and establish those procedures necessary to facilitate the orderly enrollment of groups in the plan and into a managed health care system. For the purposes of this subsection, an employee means an individual who regularly works for the employer for at least twenty hours per week. Such businesses shall have less than fifty or fewer employees and enrollment shall be limited to those not otherwise eligible for Medicare, whose gross family income at the time of enrollment does not exceed three times the federal poverty level as adjusted for family size and determined by the federal department of health and human services (HHSS), and who wish to enroll in the plan at no cost to the state and choose to obtain the basic health care coverage and services from a managed health care system participating in the plan. The administrator shall adjust the amount determined to be due on behalf of or from all such enrollees whenever the amount negotiated by the administrator with the participating managed health care system or systems is modified or the administrative cost of providing the plan to such enrollees changes. No enrollment of a small business group shall be eligible for any subsidy from the plan and at no time shall the administrator allow the credit of the state or funds from the trust account to be used or extended on their behalf.

- (b) Notwithstanding income limitations provided for in (a) of this subsection, if seventy-five percent or more of employees in a small business at the time of enrollment have gross family incomes that do not exceed three times the federal poverty level as determined by the legislature in any act appropriating funds to the plan, the administrator may establish appropriate rules or requirements that are applicable to such individuals before they will be allowed to re-enroll in the plan. The plan shall annually require participating small businesses enrolled under this subsection (11)(b) to provide evidence of gross family incomes of enrolled employees for purposes of determining continued eligibility of such employees under this subsection (11)(b). To minimize the burden and cost of complying with this reporting requirement, the plan shall accept documentation from the small business that provides such information as may be required by other state agencies. Should more than twenty-five percent of employees of an enrolled small business be found to have gross family incomes exceeding three times the federal poverty level, the plan shall notify the small business that those employees are no longer eligible for enrollment and shall disenroll these employees eighteen months after the notification. The remaining employees of such small businesses who have gross family incomes below three times the federal poverty level will continue to be eligible enrollees under (a) of this subsection.

- (12) To accept applications from individuals residing in areas serviced by the plan, on behalf of themselves and their spouses and dependent children, not otherwise eligible for Medicare, whose gross family income at the time of enrollment does not exceed three times the federal poverty level as adjusted for family size and determined by the federal department of health and human services, who wish to enroll in the plan at no cost to the state and choose to obtain the basic health care coverage and services from a managed health care system participating in the plan. Any such nonsubsidized enrollees must pay the amount negotiated by the administrator with the participating managed health care system and the administrative cost of providing the plan to such nonsubsidized enrollees and shall not be eligible for any subsidy from the plan.

- (13) To determine the rate to be paid to each participating managed health care system in return for the provision of covered basic health care services to enrollees in the plan. Although the schedule of covered basic health care services will be the same for similar enrollees, the rates negotiated with participating managed health care systems may vary among the systems. In negotiating rates with participating systems, the administrator shall consider the characteristics of the populations served by the respective systems, at the time of enrollment, have gross family incomes that do not exceed three times the federal poverty level as adjusted for family size and determined by the federal department of health and human services (HHSS), all employees in the small business will be eligible for enrollment under this subsection. The plan shall annually require participating small businesses enrolled under this subsection (11)(b) to provide evidence of gross family incomes of enrolled employees for purposes of determining continued eligibility of such employees under this subsection (11)(b). To minimize the burden and cost of complying with this reporting requirement, the plan shall accept documentation from the small business that provides such information as may be required by other state agencies. Should more than twenty-five percent of employees of an enrolled small business be found to have gross family incomes exceeding three times the federal poverty level, the plan shall notify the small business that those employees are no longer eligible for enrollment and shall disenroll these employees eighteen months after the notification. The remaining employees of such small businesses who have gross family incomes below three times the federal poverty level will continue to be eligible enrollees under (a) of this subsection.

- (14) To monitor the provision of covered services to enrollees by participating managed health care systems in order to assure enrollee access to quality basic health care, to require periodic data reports concerning the utilization of health care services rendered to enrollees in order to provide adequate information for evaluation, and to inspect the books and records of participating managed health care systems to assure compliance with the purposes of this chapter. In requiring reports from participating managed health care systems, the administrator shall require that any data be reported on a nonidentifiable basis. Participating managed health care systems may vary among the systems. In negotiating rates with participating systems, the administrator shall consider the characteristics of the populations served by the respective systems, at the time of enrollment, have gross family incomes that do not exceed three times the federal poverty level as adjusted for family size and determined by the federal department of health and human services (HHSS), all employees in the small business will be eligible for enrollment under this subsection. The plan shall annually require participating small businesses enrolled under this subsection (11)(b) to provide evidence of gross family incomes of enrolled employees for purposes of determining continued eligibility of such employees under this subsection (11)(b). To minimize the burden and cost of complying with this reporting requirement, the plan shall accept documentation from the small business that provides such information as may be required by other state agencies. Should more than twenty-five percent of employees of an enrolled small business be found to have gross family incomes exceeding three times the federal poverty level, the plan shall notify the small business that those employees are no longer eligible for enrollment and shall disenroll these employees eighteen months after the notification. The remaining employees of such small businesses who have gross family incomes below three times the federal poverty level will continue to be eligible enrollees under (a) of this subsection.

- (15) To monitor the access that state residents have to adequate and necessary health care services, determine the extent of any unmet needs for such services or lack of access that may exist from time to time, and make such reports and recommendations to the legislature as the administrator deems appropriate.

- (16) To develop and implement employer-based health care coverage and to take appropriate measures consistent with state and federal statutes that will discourage the reduction of such coverage in the state.

- (17) To develop a program of proven preventive health measures and to integrate it into the plan wherever possible and consistent with this chapter.

- (18) To provide, consistent with available resources, technical assistance for rural health activities that endeavor to develop needed health care services in rural parts of the state.

Sec. 5. RCW 70.47.080 and 1987 1st ex.s. c 5 s 10 are each amended to read as follows:

- (11)(a) To accept applications for enrollment of eligible persons for the purposes outlined in the basic health care program by small business owners on behalf of themselves and their employees, spouses, and dependent children who reside in an area served by the plan. The administrator shall adjust the amount determined to be due on behalf of or from all such enrollees whenever the amount negotiated by the administrator with the participating managed health care system or systems is modified or the administrative cost of providing the plan to such enrollees changes. No enrollment of a small business group shall be eligible for any subsidy from the plan and at no time shall the administrator allow the credit of the state or funds from the trust account to be used or extended on their behalf.

Thereafter, ((total)) the average monthly enrollment of those eligible for subsidies during any biennium shall not exceed the number established by the legislature in any act appropriating funds to the plan, and total subsidized enrollment shall not result in expenditures that exceed the total amount that has been made available by the legislature in any act appropriating funds to the plan. ((Before July 1, 1988, the administrator shall endeavor to secure participation contracts from managed health care systems in discrete geographic areas within at least five congressional districts of the state and in such manner as to allow residents of both urban and rural areas access to enrollment in the plan. The administrator shall make a special effort to secure agreements with health care providers in one such area that meets the requirements set forth in RCW 70.47.060(4).))
The administrator shall at all times closely monitor growth patterns of enrollment so as not to exceed that consistent with the orderly development of the plan as a whole, in any area of the state or in any participating managed health care system. The annual or biennial enrollment limitations derived from operation of the plan under this section do not apply to nonsubsidized enrollees as defined in RCW 70.47.020(5).

Sec. 6. RCW 70.47.120 and 1987 1st ex.s. c 5 s 14 are each amended to read as follows:

In addition to the powers and duties specified in RCW 70.47.040 and 70.47.060, the administrator has the power to enter into contracts for the following functions and services:

1. With public or private agencies, to assist the administrator in her or his duties to design or revise the schedule of covered basic health care services, and/or to monitor or evaluate the performance of participating managed health care systems.

2. With public or private agencies, to provide technical or professional assistance to health care providers, particularly public or private nonprofit organizations and providers serving rural areas, who show serious intent and apparent capability to participate in the plan as managed health care systems.

3. With public or private agencies, including health care service contractors registered under RCW 48.44.015, and doing business in the state, for marketing and administrative services in connection with participation of managed health care systems, enrollment of enrollees, billing and collection services to the administrator, and other administrative functions ordinarily performed by health care service contractors, other than insurance except that the administrator may purchase or arrange for the purchase of reinsurance, or self-insure for reinsurance, on behalf of its participating managed health care systems. Any activities of a health care service contractor pursuant to a contract with the administrator under this section shall be exempt from the provisions and requirements of Title 48 RCW.

NEW SECTION. Sec. 7. BASIC HEALTH PLAN EXPANSION. The Washington basic health plan authorized under chapter 70.47 RCW is expanded for the purposes of enrolling a total of one hundred thousand members during the 1993-95 biennium.

NEW SECTION. Sec. 8. The following acts or parts of acts are each repealed:

Debate ensued.

POINT OF INQUIRY

Senator Erwin: “Senator Quigley, I know you have worked this issue very diligently the last couple of days and you are very concerned about small businesses, but I have a question regarding the assistance to small businesses, a hundred and fifty million dollars which you referred to. In your opinion does this give, once a business is characterized as being distressed and it can't afford the health care, do we suddenly put government in charge of micro managing that business? For instance, would I, as a small business owner who is getting this public assistance, have to check with a government agency before I could buy a Xerox machine or hire another employee?”

Senator Quigley: “Fortunately, we don't have to speculate on this, we have some data we can go by. In the state of Hawaii, in fact, they have a similar program and I am happy to report that even with the employer requirement in Hawaii, it is a little used program. Of course, nothing would prevent us, in any case, down the road to make sure that the program is more finely tuned. But, no, I think that what this does and says, ‘yes, we are going to ask businesses to cover their employees, but the government is going to be there in partnership with that business to share the burden.’ So, I think that this can work quite well.”

Senator Erwin: “Thank you.”

Further debate ensued.

Senator Nelson demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the adoption of the amendment by Senators Deccio, West, Moyer, Bluechel and McDonald on page 1, line 7, to the striking amendment by Senators Talmadge, Gaspard and Snyder to Senate Bill No. 5076.

POINT OF INQUIRY

Senator McAuliffe: "Senator Decio, did all the businesses that signed that paper that we received yesterday, against this bill, know the contents of this bill?"

Senator Decio: "I’m sure they didn’t, but they are scared by what they have heard, Senator McAuliffe."

Senator McAuliffe: "I think you have answered my question. Thank you."

Further debate ensued.

The President declared the question before the Senate to be the adoption of the striking amendment by Senators Talmadge, Gaspard and Snyder to Senate Bill No. 5076.

On motion of Senator Talmadge, the rules were suspended, Engrossed Senate Bill No. 5076 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Engrossed Senate Bill No. 5076.

MESSAGE FROM THE HOUSE

April 21, 1993

MR. PRESIDENT: The House has adopted the Report of the Conference Committee on ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5304 and has passed the bill as recommended by the Conference Committee, and the same are herewith transmitted.

ALAN THOMPSON, Chief Clerk

REPORT OF CONFERENCE COMMITTEE

E2SSB 5304 April 19, 1993

Includes "new item": Yes

Providing for health care costs and access

MR. SPEAKER: MR. PRESIDENT: We of your CONFERENCE COMMITTEE, to whom was referred ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5304, providing for health care costs and access, have had the same under consideration and we recommend that: The House Committee on Revenue amendment(s) adopted April 9, 1993, not be adopted, and that the following Conference Committee striking amendment be adopted with the following amendments:

Strike everything after the enacting clause and insert the following:
"PART I. FINDINGS, GOALS, AND INTENT

NEW SECTION. Sec. 101. FINDINGS. The legislature finds that our health and financial security are jeopardized by our ever increasing demand for health care and by current health insurance and health system practices. Current health system practices encourage public demand for unnecessary, ineffective, and sometimes dangerous health treatments. These practices often result in unaffordable cost increases that far exceed ordinary inflation for essential care. Current total health care expenditure rates should be sufficient to provide access to essential health care interventions to all within a reformed, efficient system.

The legislature finds that too many of our state's residents are without health insurance, that each year many individuals and families are forced into poverty because of serious illness, and that many must leave gainful employment to be eligible for publicly funded medical services. Additionally, thousands of citizens are at risk of losing adequate health insurance, have had insurance canceled recently, or cannot afford to renew existing coverage.

The legislature finds that businesses find it difficult to pay for health insurance and remain competitive in a global economy, and that individuals, the poor, and small businesses bear an inequitable health insurance burden.

The legislature finds that persons of color have significantly higher rates of mortality and poor health outcomes, and substantially lower numbers and percentages of persons covered by health insurance than the general population. It is intended that chapter . . . , Laws of 1993 (this act) make provisions to address the special health care needs of these racial and ethnic populations in order to improve their health status.

The legislature finds that uncontrolled demand and expenditures for health care are eroding the ability of families, businesses, communities, and governments to invest in other enterprises that promote health, maintain independence, and ensure continued economic welfare. Housing, nutrition, education, and the environment are all diminished as we invest ever increasing shares of wealth in health care treatments.

The legislature finds that while immediate steps must be taken, a long-term plan of reform is also needed.

NEW SECTION. Sec. 102. LEGISLATIVE INTENT AND GOALS. (1) The legislature intends that state government policy stabilize health services costs, assure access to essential services for all residents, actively address the health care needs of persons of color, improve the public's health, and reduce unwarranted health services costs to preserve the viability of nonhealth care businesses.

(2) The legislature intends that:
(a) Total health services costs be stabilized and kept within rates of increase similar to the rates of personal income growth within a publicly regulated, private marketplace that preserves personal choice;
(b) State residents be enrolled in the certified health plan of their choice that meets state standards regarding affordability, accessibility, cost-effectiveness, and clinical efficaciousness;
(c) State residents be able to choose health services from the full range of health care providers, as defined in section 402(12) of this act, in a manner consistent with good health services management, quality assurance, and cost effectiveness;
(d) Individuals and businesses have the option to purchase any health services they may choose in addition to those contained in the uniform benefits package or supplemental benefits package;
(e) All state residents, businesses, employees, and government participate in payment for health services, with total costs to individuals on a sliding scale based on income to encourage efficient and appropriate utilization of services;
(f) These goals be accomplished within a reformed system using private service providers and facilities in a way that allows consumers to choose among competing plans operating within budget limits and other regulations that promote the public good; and
(g) A policy of coordinating the delivery, purchase, and provision of health services among the federal, state, local, and tribal governments be encouraged and accomplished by chapter . . . , Laws of 1993 (this act).

(3) Accordingly, the legislature intends that chapter . . . , Laws of 1993 (this act) provide both early implementation measures and a process for overall reform of the health services system.

PART II. EARLY IMPLEMENTATION MEASURES
A. BASIC HEALTH PLAN EXPANSION

NEW SECTION. Sec. 201. A new section is added to chapter 70.47 RCW to read as follows:

TRANSFER OF POWER AND DUTIES TO WASHINGTON STATE HEALTH CARE AUTHORITY. The powers, duties, and functions of the Washington basic health plan are hereby transferred to the Washington state health care authority. All references to the administrator of the Washington basic health plan in the Revised Code of Washington shall be construed to mean the administrator of the Washington state health care authority.

NEW SECTION. Sec. 202. TRANSFER OF RECORDS, EQUIPMENT, FUNDS. All reports, documents, surveys, books, records, files, papers, or written material in the possession of the Washington basic health plan shall be delivered to the custody of the Washington state health care authority. All cabinets, furniture, office equipment, motor vehicles, and other tangible property used by the Washington basic health plan shall be made available to the Washington state health care authority. All funds, credits, or other assets held by the Washington basic health plan shall be assigned to the Washington state health care authority.

Any appropriations made to the Washington basic health plan shall, on the effective date of this section, be transferred and credited to the Washington state health care authority. At no time may those funds in the basic health plan trust account, any funds appropriated for the subsidy of any enrollees, or any premium payments or other sums made or received on behalf of any enrollees in the basic health plan be commingled with any appropriated funds designated or intended for the purposes of providing health care coverage to any state or other public employees.

Whenever any question arises as to the transfer of any personnel, funds, books, documents, records, papers, files, equipment, or other tangible property used or held in the exercise of the powers and the performance of the duties and functions transferred, the director of financial management shall make a determination as to the proper allocation and certify the same to the state agencies concerned.

NEW SECTION. Sec. 203. TRANSFER OF EMPLOYEES. All employees of the Washington basic health plan are transferred to the jurisdiction of the Washington state health care authority. All employees classified under chapter 41.06 RCW, the
state civil service law, are assigned to the Washington state health care authority to perform their usual duties upon the same terms as formerly, without any loss of rights, subject to any action that may be appropriate thereafter in accordance with the laws and rules governing state civil service.

NEW SECTION. Sec. 204. RULES AND BUSINESS. All rules and all pending business before the Washington basic health plan shall be continued and acted upon by the Washington state health care authority. All existing contracts and obligations shall remain in full force and shall be performed by the Washington state health care authority.

NEW SECTION. Sec. 205. VALIDITY OF PRIOR ACTS. The transfer of the powers, duties, functions, and personnel of the Washington basic health plan shall not affect the validity of any act performed prior to the effective date of this section.

NEW SECTION. Sec. 206. APPORTIONMENT OF BUDGETED FUNDS. If apportionments of budgeted funds are required because of the transfers directed by sections 201 through 205 of this act, the director of financial management shall certify the apportionments to the agencies affected, the state auditor, and the state treasurer. Each of these shall make the appropriate transfers and adjustments in funds and appropriation accounts and equipment records in accordance with the certification.

NEW SECTION. Sec. 207. COLLECTIVE BARGAINING. Nothing contained in sections 201 through 206 of this act may be construed to alter any existing collective bargaining unit or the provisions of any existing collective bargaining agreement until the agreement has expired or until the bargaining unit has been modified by action of the personnel board as provided by law.

Sec. 208. RCW 70.47.010 and 1987 1st ex.s. c 5 s 3 are each amended to read as follows:

BASIC HEALTH PLAN—FINDINGS. (1) The legislature finds that:

(a) A significant percentage of the population of this state does not have reasonably available insurance or other coverage of the costs of necessary basic health care services;
(b) This lack of basic health care coverage is detrimental to the health of the individuals lacking coverage and to the public welfare, and results in substantial expenditures for emergency and remedial health care, often at the expense of health care providers, health care facilities, and all purchasers of health care, including the state; and
(c) The use of managed health care systems has significant potential to reduce the growth of health care costs incurred by the people of this state generally, and by low-income persons (defined in this chapter as low-income pregnant women, persons who share in the costs of necessary basic health care services, as defined by the administrator and rendered by duly licensed providers, or who pay the full cost of necessary basic health care services, administered by the plan administrator through participating managed health care systems, created by this chapter), and at-risk children and adolescents who need greater access to managed health care.

(2) The purpose of this chapter is to provide or make more readily available necessary basic health care services in an appropriate setting to working persons and others who lack coverage, at a cost to these persons that does not create barriers to the utilization of necessary health care services. To that end, this chapter establishes a program to be made available to those residents (under sixty-five years of age) not otherwise eligible for medical (with gross family income at or below two hundred percent of the federal poverty guidelines) or medical assistance who share in the cost of or who pay the full cost of receiving basic health care services from a managed health care system.

(3) It is not the intent of this chapter to provide health care services for those persons who are presently covered through private employer-based health plans, nor to replace employer-based health plans. However, the legislature recognizes that cost-effective and affordable health plans may not always be available to small business employers. Further, it is the intent of the legislature to expand, wherever possible, the availability of private health care coverage and to discourage the decline of employer-based coverage.

(4) It is the purpose of this chapter to acknowledge the initial success of this program that has (i) assisted thousands of families in their search for affordable health care; (ii) demonstrated that low-income, uninsured families are willing to pay for their own health care coverage to the extent of their ability to pay; and (iii) proved that local health care providers are willing to enter into a public-private partnership as a managed care system.

(b) As a consequence, the legislature intends to extend an option to enroll to certain citizens above two hundred percent of the federal poverty guidelines within the state who reside in communities where the plan is operational and who collectively or individually wish to exercise the opportunity to purchase health care coverage through the basic health plan if the purchase is done at no cost to the state. It is also the intent of the legislature to allow employers and other financial sponsors to financially assist such individuals to purchase health care through the program so long as such purchase does not result in a lower standard of coverage for employees.

(c) The legislature intends that, to the extent of available funds, the program be available throughout Washington state to subsidized and nonsubsidized enrollees. It is also the intent of the legislature to enroll subsidized enrollees first, to the maximum extent feasible.

(d) The legislature directs that the basic health plan administrator identify enrollees who are likely to be eligible for medical assistance and assist these individuals in applying for and receiving medical assistance. The administrator and the department of social and health services shall implement a seamless system to coordinate eligibility determinations and benefit coverage for enrollees of the basic health plan and medical assistance recipients.

Sec. 209. RCW 70.47.020 and 1987 1st ex.s. c 5 s 4 are each amended to read as follows:

BASIC HEALTH PLAN—DEFINITIONS. As used in this chapter:

(1) "Washington basic health plan" or "plan" means the system of enrollment and payment on a prepaid capitated basis for basic health care services, administered by the plan administrator through participating managed health care systems, created by this chapter.

(2) "Administrator" means the Washington basic health plan administrator, who also holds the position of administrator of the Washington state health care authority.

(3) "Managed health care system" means any health care organization, including health care providers, insurers, health care service contractors, health maintenance organizations, or any combination thereof, that provides directly or by contract basic health care services, as defined by the administrator and rendered by duly licensed providers, on a prepaid capitated basis to a defined patient population enrolled in the plan and in the managed health care system. On and after July 1, 1995, "managed health care system" means a certified health plan, as defined in section 402 of this act.
(4) "Subsidized enrollee" means an individual, or an individual plus the individual’s spouse (and/or) or dependent children, (all under the age of sixty-five and) not (otherwise) eligible for medicare, who resides in an area of the state served by a managed health care system participating in the Plan. The administrator determines at the time of application does not have health insurance more comprehensive than that offered by the plan, and who chooses to obtain basic health care coverage from a particular managed health care system in return for periodic payments to the plan.

(5) "Nonsubsidized enrollee" means an individual, or an individual plus the individual’s spouse or dependent children, not eligible for medicare, who resides in an area of the state served by a managed health care system participating in the plan, who the administrator determines at the time of application does not have health insurance more comprehensive than that offered by the plan, who chooses to obtain basic health care coverage from a particular managed health care system, and who pays on behalf is paid the full costs for participation in the plan, without any subsidy from the plan.

(6) "Subsidy" means the difference between the amount of periodic payment the administrator makes (from funds appropriated from the basic health plan trust account) to a managed health care system on behalf of a subsidized enrollee plus the administrative cost to the plan of providing the plan to that subsidized enrollee, and the amount determined to be the subsidized enrollee’s responsibility under RCW 70.47.060(2).

(7) "Premium" means a periodic payment, based on gross family income (determined under RCW 70.47.060(2)), which an (enrolled) individual, their employer or another financial sponsor makes to the plan as consideration for enrollment in the plan as a subsidized enrollee or a nonsubsidized enrollee.

(8) "Rate" means the per capita amount, negotiated by the administrator with and paid to a participating managed health care system, that is based upon the enrollment of subsidized and nonsubsidized enrollees in the plan and in that system.

Sec. 210. RCW 70.47.030 and 1992 c 232 s 907 are each amended to read as follows:

ACCOUNTS. (1) The basic health plan trust account is hereby established in the state treasury. Any nongeneral fund-state dollars collected for the program shall be deposited in the basic health plan trust account and may not be further appropriated. Moneys in the account shall be used exclusively for the purposes of this chapter, including payments to participating managed health care systems on behalf of enrollees in the plan and payment of costs of administering the plan. (After July 1, 1993, the administrator shall not expend or encumber for an ensuing fiscal period amounts exceeding ninety-five percent of the amount anticipated to be spent for purchased services during the fiscal year.)

(2) The basic health plan subscription account is created in the custody of the state treasurer. All receipts from amounts due from or on behalf of nonsubsidized enrollees shall be deposited into the account. Funds in the account shall be used exclusively for the purposes of this chapter, including payments to participating managed health care systems on behalf of nonsubsidized enrollees in the plan and payment of costs of administering the plan. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures.

(3) The administrator shall take all necessary steps to see that none of the funds in the separate accounts created in this section or that any premiums paid either by subsidized or nonsubsidized enrollees are commingled in any way, except that the administrator may combine funds designated for administration of the plan into a single administrative account.

Sec. 211. RCW 70.47.040 and 1987 1st ex.s. c 5 s 6 are each amended to read as follows:

BASIC HEALTH PLAN–PROGRAM WITHIN STATE HEALTH CARE AUTHORITY. (1) The Washington basic health plan is created as (an independent agency of the state) a program within the Washington state health care authority. The administrator shall appoint a medical director. The (administrator) medical director((s)) and up to five other employees of the plan shall be exempt from the civil service law, chapter 41.06 RCW.

(2) The administrator shall employ such other staff as are necessary to fulfill the responsibilities and duties of the administrator, such staff to be subject to the civil service law, chapter 41.06 RCW. In addition, the administrator may contract with third parties for services necessary to carry out its activities where this will promote economy, avoid duplication of effort, and make best use of available expertise. Any such contractor or consultant shall be prohibited from releasing, publishing, or otherwise using any information made available to it under its contractual responsibility without specific permission of the administrator. The administrator may call upon other agencies of the state to provide available information as necessary to assist the administrator in its responsibilities under this chapter, which information shall be supplied as promptly as circumstances permit.

(3) The administrator may appoint such technical or advisory committees as he or she deems necessary. The administrator shall appoint a standing technical advisory committee that is representative of health care professionals, health care providers, and those directly involved in the purchase, provision, or delivery of health care services, as well as consumers and those knowledgeable of the ethical issues involved with health care public policy. Individuals appointed to any technical or other advisory committee shall serve without compensation for their services as members, but may be reimbursed for their travel expenses pursuant to RCW 43.03.050 and 43.03.060.

(4) The administrator may apply for, receive, and accept grants, gifts, and other payments, including property and service, from any governmental or other public or private entity or person, and may make arrangements as to the use of these receipts, including the undertaking of special studies and other projects relating to health care costs and access to health care.

(5) (In the design, organization, and administration of the plan under this chapter, the administrator shall consider the report of the Washington health care project commission established under chapter 305, Laws of 1988. Nothing in this chapter requires the administrator to follow any specific recommendation contained in that report except as it may also be included in this chapter or other law.) Whenever feasible, the administrator shall reduce the administrative cost of operating the program by adopting joint policies or procedures applicable to both the basic health plan and employee health plans.

Sec. 212. RCW 70.47.050 and 1992 c 232 s 908 are each amended to read as follows:

AUTHORITY OF ADMINISTRATOR. The administrator has the following powers and duties:

(1) To design and from time to time revise a schedule of covered basic health care services, including physician services, inpatient and outpatient hospital services, prescription drugs and medications, and other services that may be necessary for basic health care, which subsidized and nonsubsidized enrollees in any participating managed health care system under the Washington
basic health plan shall be entitled to receive in return for premium payments to the plan. The schedule of services shall emphasize proven preventive and primary health care and shall include all services necessary for prenatal, postnatal, and well-child care. However, (for the period ending June 30, 1992) with respect to coverage for groups of subsidized enrollees who are eligible to receive prenatal and postnatal services through the medical assistance program under chapter 74.09 RCW, the administrator shall not contract for ([prenatal or postnatal]) such services ([that are provided under the medical assistance program under chapter 74.09 RCW]) except to the extent that such services are necessary over not more than a one-month period in order to maintain continuity of care after diagnosis of pregnancy by the managed care provider([or except to provide any such services associated with pregnancies diagnosed by the managed care provider before July 1, 1992]). The schedule of services shall also include a separate schedule of basic health care services for children, eighteen years of age and younger, for those subsidized or nonsubsidized enrollees who choose to secure basic coverage through the plan only for their dependent children. In designing and revising the schedule of services, the administrator shall consider the guidelines for assessing health services under the mandated benefits act of 1984, RCW 48.42.080, and such other factors as the administrator deems appropriate. On and after July 1, 1995, the uniform benefits package adopted and from time to time revised by the Washington health services commission pursuant to section 449 of this act shall be implemented by the administrator as the schedule of covered basic health care services. However, with respect to coverage for subsidized enrollees who are eligible to receive prenatal and postnatal services through the medical assistance program under chapter 74.09 RCW, the administrator shall not contract for such services except to the extent that the services are necessary over not more than a one-month period in order to maintain continuity of care after diagnosis of pregnancy by the managed care provider.

(2) [a] To design and implement a structure of periodic premiums due the administrator from subsidized enrollees that is based upon gross family income, giving appropriate consideration to family size ([as well as]) and the ages of all family members. The enrollment of children shall not require the enrollment of their parent or parents who are eligible for the plan. The structure of periodic premiums shall be applied to subsidized enrollees entering the plan as individuals pursuant to subsection (9) of this section and to the share of the cost of the plan due from subsidized enrollees entering the plan as employees pursuant to subsection (10) of this section.

(b) To determine the periodic premiums due the administrator from nonsubsidized enrollees. Premiums due from nonsubsidized enrollees shall be in an amount equal to the cost charged by the managed health care provider to the state for the plan plus the administrative cost of providing the plan to those enrollees and the appropriate premium tax as provided by law.

(c) An employer or other financial sponsor may, with the prior approval of the administrator, pay the premium, rate, or any other amount on behalf of a subsidized or nonsubsidized enrollee, by arrangement with the enrollee and through a mechanism acceptable to the administrator, but in no case shall the payment made on behalf of the enrollee exceed the total premiums due from the enrollee to the plan.

(3) To design and implement a structure of ([nominal]) copayments due a managed health care system from subsidized and nonsubsidized enrollees. The structure shall discourage inappropriate enrollee utilization of health care services, but shall not be so costly to enrollees as to constitute a barrier to appropriate utilization of necessary health care services. On and after July 1, 1995, the administrator shall endeavor to make the copayments structure of the plan consistent with enrollee point of service cost-sharing levels adopted by the Washington health services commission, giving consideration to funding available to the plan.

(4) [To design and implement, in concert with a sufficient number of potential providers in a discrete area, an enrollee financial participation structure, separate from that otherwise established under this chapter, that has the following characteristics:]

(a) Nominal premiums that are based upon ability to pay, but not set at a level that would discourage enrollment;
(b) A modified fee-for-service payment schedule for providers;
(c) Coinsurance rates that are established based on specific service and procedure costs and the enrollee's ability to pay for the care. However, coinsurance rates for families with incomes below one hundred twenty percent of the federal poverty level shall be nominal. No coinsurance shall be required for specific proven prevention programs, such as prenatal care. The coinsurance rate levels shall not have a measurable negative effect upon the enrollee's health status; and
(d) A case management system that fosters a provider-enrollee relationship whereby, in an effort to control cost, maintain or improve the health status of the enrollee, and maximize patient involvement in her or his health care decision-making process, every effort is made by the provider to inform the enrollee of the cost of the specific services and procedures and related health benefits.

The potential financial liability of the plan to any such providers shall not exceed in the aggregate an amount greater than that which might otherwise have been incurred by the plan on the basis of the number of enrollees multiplied by the average of the prepaid capitated rates negotiated with participating managed health care systems under RCW 70.47.100 and reduced by any sums charged enrollees on the basis of the coinsurance rates that are established under this subsection.

(5) To limit enrollment of persons who qualify for subsidies so as to prevent an overexpenditure of appropriations for such purposes. Whenever the administrator finds that there is danger of such an overexpenditure, the administrator shall close enrollment until the administrator finds the danger no longer exists.

(6) To adopt a schedule for the orderly development of the delivery of services and availability of the plan to residents of the state, subject to the limitations contained in RCW 70.47.080 or any act appropriating funds for the plan.

(7) To solicit and accept applications from managed health care systems, as defined in this chapter, for inclusion as eligible basic health care providers under the plan. The administrator shall endeavor to assure that covered basic health care services are available to any enrollee of the plan through the participating managed health care systems. In adopting any rules or procedures applicable to managed health care systems and in its dealings with such systems, the administrator shall consider and make suitable allowance for the need for health care services and the differences in local availability of health care resources, along with other resources, within and among the several areas of the state. Contracts with
participating managed health care systems shall ensure that basic health plan enrollees who become eligible for medical assistance may, at their option, continue to receive services from their existing providers within the managed health care system if such providers have entered into provider agreements with the department of social and health services.

(8) To receive periodic premiums from or on behalf of subsidized and nonsubsidized enrollees, deposit them in the basic health plan operating account, keep records of enrollee status, and authorize periodic payments to managed health care systems on the basis of the number of enrollees participating in the respective managed health care systems.

(9) To accept applications from individuals residing in areas served by the plan, on behalf of themselves and their spouses and dependent children, for enrollment in the Washington basic health plan as subsidized or nonsubsidized enrollees, to establish appropriate minimum-enrollment periods for enrollees as may be necessary, and to determine, upon application and at least (quarterly) semiannually thereafter, or at the request of any enrollee, eligibility due to current or prior gross family income for sliding scale premiums. (An enrollee who remains current in payment of the sliding-scale premium, as determined under subsection (2) of this section, and whose gross family income has risen above twice the federal poverty level, may continue enrollment unless and until the enrollee's gross family income has remained above twice the poverty level for six consecutive months, by making payment at the unsubsidized rate required for the managed health care system in which he or she may be enrolled.) No subsidy may be paid with respect to any enrollee whose current gross family income exceeds twice the federal poverty level or, subject to RCW 70.47.110, who is a recipient of medical assistance or medical care services under chapter 74.09 RCW. If, as a result of an eligibility review by the administrator determines that a subsidized enrollee's income exceeds twice the federal poverty level and that the enrollee knowingly failed to inform the plan of such increase in income, the administrator may bill the enrollee for the subsidy paid on the enrollee's behalf during the period of time that the enrollee's income exceeded twice the federal poverty level. If a number of enrollees drop their enrollment for no apparent good cause, the administrator may establish appropriate rules or requirements that are applicable to such individuals before they will be allowed to re-enroll in the plan.

(10) To accept applications from business owners on behalf of themselves and their employees, spouses, and dependent children, as subsidized or nonsubsidized enrollees, who reside in an area served by the plan. The administrator may require all or the substantial majority of the employees of the enterprise to establish initial or continue their participation in the plan and shall establish procedures necessary to facilitate the orderly enrollment of groups in the plan and into a managed health care system. The administrator shall require that a business owner pay at least fifty percent of the nonsubsidized premium cost of the plan on behalf of each employee enrolled in the plan. Enrollment is limited to those not eligible for Medicare who wish to enroll in the plan and choose to obtain the basic health care coverage and services from a managed care system participating in the plan. The administrator shall adjust the amount determined to be due on behalf of or from all such enrollees whenever the amount negotiated by the administrator with the participating managed health care system or systems is modified or the administrative cost of providing the plan to such enrollees changes.

(11) To determine the rate to be paid to each participating managed health care system in return for the provision of covered basic health care services to enrollees in the system. Although the schedule of covered basic health care services will be the same for similar enrollees, the rates negotiated with participating managed health care systems may vary among the systems. In negotiating rates with participating systems, the administrator shall consider the characteristics of the populations served by the respective systems, economic circumstances of the local area, the need to conserve the resources of the basic health plan trust account, and other factors the administrator finds relevant.

(12) To monitor the provision of covered services to enrollees by participating managed health care systems in order to assure enrollee access to good quality basic health care, to require periodic data reports concerning the utilization of health care services rendered to enrollees in order to provide adequate information for evaluation, and to inspect the books and records of participating managed health care systems to assure compliance with the purposes of this chapter. In requiring reports from participating managed health care systems, including data on services rendered enrollees, the administrator shall endeavor to minimize costs, both to the managed health care systems and to the (administrator) plan. The administrator shall coordinate any such reporting requirements with other state agencies, such as the insurance commissioner and the department of health, to minimize duplication of effort.

(13) To evaluate the effects this chapter has on private employer-based health care coverage and to take appropriate measures consistent with state and federal statutes that will discourage the reduction of such coverage in the state.

(14) To develop a program of proven preventive health measures and to integrate it into the plan wherever possible and consistent with this chapter.

(15) To provide, consistent with available (resources, technical) funding assistance for rural ((health activities that encourage development of needed health care services in rural parts of the state)) residents, underserved populations, and persons of color.

Sec. 213. RCW 70.47.080 and 1987 1st ex.s. c 5 s 10 are each amended to read as follows:

ENROLLMENT. On and after July 1, 1988, the administrator shall accept for enrollment applicants eligible to receive covered basic health care services from the respective managed health care systems which are then participating in the plan. (The administrator shall not allow the total enrollment of those eligible for subsidies to exceed thirty thousand.)

Thereafter, total (enrollment shall not exceed the number established by the legislature in any act appropriating funds to the plan.

Before July 1, 1988, the administrator shall endeavor to secure participation contracts from managed health care systems in discrete geographic areas within at least five congressional districts of the state and in such manner as to allow residents of both urban and rural areas access to enrollment in the plan. The administrator shall make a special effort to secure agreements with health care providers in one such area that meets the requirements set forth in RCW 70.47.080(14)) subsidized enrollment shall not result in expenditures that exceed the total amount that has been made available by the legislature in any act appropriating funds to the plan. To the extent that new funding is appropriated for expansion, the administrator shall endeavor to secure participation contracts from managed health care systems in geographic areas of the state that are served by the plan at the time at which the new funding is appropriated. In the selection of any
such areas the administrator shall take into account the levels and rates of unemployment in different areas of the state, the need to provide basic health care coverage to a population reasonably representative of the portion of the state’s population that lacks such coverage, and the need for geographic, demographic, and economic diversity.

The administrator shall at all times closely monitor growth patterns of enrollment so as not to exceed that consistent with the orderly development of the plan as a whole, in any area of the state or in any participating managed health care system. The annual or biennial enrollment limitations derived from operation of the plan under this section do not apply to nonsubsidized enrollees as defined in RCW 70.47.020(5).

B. EXPANDED MANAGED CARE FOR STATE EMPLOYEES

Sec. 214. RCW 41.05.011 and 1990 c 222 s 2 are each amended to read as follows:

On and after January 1, 1997, ferry employees shall enroll with certified health plans under chapter ... Laws of 1993 (this act).

(3) The administrator with the assistance of the public employees' benefits board shall survey private industry and public employers in the state of Washington to determine the average employer contribution for group insurance programs under the jurisdiction of the authority. Such survey shall be conducted during each even-numbered year but may be conducted more frequently. The survey shall be reported to the authority for its use in setting the amount of the recommended employer contribution to the employee insurance benefit program covered by this chapter. The authority shall transmit a recommendation for the amount of the employer contribution to the governor and the director of financial management for inclusion in the proposed budgets submitted to the legislature.

F. DATA COLLECTION

Sec. 259. RCW 70.170.100 and 1990 c 269 s 12 are each amended to read as follows:

STATE-WIDE DATA SYSTEM—HEALTH SERVICES COMMISSION. (1) To promote the public interest consistent with the purposes of chapter . . . , Laws of 1993 (this act), the department is responsible for the development, implementation, and custody of a state-wide ((hospital)) health care data system, with policy direction and oversight to be provided by the Washington health services commission. As part of the design stage for development of the system, the department shall undertake a needs assessment of the types of, and format for, ((hospital)) health care data needed by consumers, purchasers, health care payers, ((hospitals)) providers, and state government as consistent with the intent of chapter . . . , Laws of 1993 (this act) ((chapter)). The department shall identify a set of ((hospitals)) health care data elements and report specifications which satisfy these needs. The ((re council)) Washington health services commission, created by section 403 of this act, shall review the design of the data system and may ((direct the department to)) establish a technical advisory committee on health data and may, if deemed cost-effective and efficient, recommend that the department contract with a private vendor for assistance in the design of the data system or for any part of the work to be performed under this section. The data elements, specifications, and other ((design)) distinguishing features of this data system shall be made available for public review and comment and shall be published, with comments, as the department's first data plan by ((January 1, 1990)) July 1, 1994.

(2) Subsequent to the initial development of the data system as published as the department's first data plan, revisions to the data system shall be considered ((through the department's development of a biennial data plan, as proposed to)) with the oversight and policy guidance of the Washington health services commission or its technical advisory committee and funded by((j)) the legislature through the biennial appropriations process with funds appropriated to the health services account. ((Costs of data activities outside of those data plans except for special studies shall be funded through legislative appropriations.))

(3) In designing the state-wide ((hospital)) health care data system and any data plans, the department shall identify ((hospital)) health care data elements relating to ((both hospital finances)) health care costs, the quality of health care services, the outcomes of health care services, and ((the)) use of ((services by patients)) health care by consumers. Data elements ((relating to hospital finances)) shall be reported ((by hospitals)) as the Washington health services commission directs by reporters in conformance with a uniform ((system of)) reporting ((as specified by the department and shall)) system established by the department, which shall be adopted by reporters. "Reporter" means an individual, hospital, or business entity, required to be registered with the department of revenue for payment of taxes imposed under chapter 82.04 RCW or Title 48 RCW, that is primarily engaged in furnishing or insuring for medical, surgical, and other health services to persons. In the case of hospitals this includes data elements identifying each hospital's revenues, expenses, contractual allowances, charity care, bad debt, other income, total units of inpatient and outpatient services, and other financial information reasonably necessary to fulfill the purposes of chapter . . . , Laws of 1993 (this ((chapter)) act), for hospital activities as a whole and, as feasible and appropriate, for specified classes of hospital purchasers and payers. Data elements relating to use of hospital services by patients shall, at least initially, be the same as those currently compiled by hospitals through inpatient discharge abstracts ((and reported to the Washington state hospital commission)). The commission and the department shall encourage and permit reporting by electronic transmission or hard copy as is practical and economical to reporters.

(4) The state-wide ((hospital)) health care data system shall be uniform in its identification of reporting requirements for ((hospital)) reporters across the state to the extent that such uniformity is ((necessary)) useful to fulfill the purposes of chapter . . . , Laws of 1993 (this ((chapter)) act). Data reporting requirements may reflect differences ((in hospital size; urban or rural location; scope, type, and method of providing service; financial structure; or other pertinent distinguishing factors)) that involve pertinent distinguishing features as determined by the Washington health services commission by rule. So far as ((possible)) is practical, the data system shall be coordinated with any requirements of the trauma care data registry as authorized in RCW 70.168.090, the federal department of health and human services in its administration of the medicare program, ((and)) the state in its role of gathering public health statistics, or any other payer program of consequence so as to minimize any unduly burdensome reporting requirements imposed on ((hospital)) reporters.

(5) In identifying financial reporting requirements under the state-wide ((hospital)) health care data system, the department may require both annual reports and condensed quarterly reports from reporters, so as to achieve both accuracy and timeliness in reporting, but shall craft such requirements with due regard of the data reporting burdens of reporters.

(6) In designing the initial state-wide ((hospital)) health care data system as published in the department's first data plan, the department shall review all existing systems of hospital financial and utilization reporting used in this state to determine their usefulness for the purposes of this act, including their potential usefulness as revised or simplified.

(7) Until such time as the state-wide ((hospital)) health care data system and first data plan are developed and implemented and hospitals are able to comply with reporting requirements, the department shall require hospitals to continue to submit the hospital financial and patient discharge information previously required to be submitted to the Washington state hospital commission. Upon publication of the first data plan, hospitals shall have a reasonable period of time to comply with any new reporting requirements and even in the event that new reporting requirements differ greatly from past requirements, shall comply within two years of July 1, 1989.

(8) The ((hospital)) health care data collected ((and)), maintained, and studied by the department or the Washington health services commission shall only be available for retrieval in original or processed form to public and private requesters and shall be available within a reasonable period of time after the date of request. The cost of retrieving data for state officials and agencies shall be funded through the state general appropriation. The cost of retrieving data for individuals and organizations engaged in research or private use of data or studies shall be funded by a fee schedule developed by the department which reflects the direct cost of retrieving the data or study in the requested form.

G. DISCLOSURE OF HOSPITAL, NURSING HOME, AND PHARMACY CHARGES

NEW SECTION. Sec. 265. A new section is added to chapter 70.41 RCW to read as follows:

SPIRALING COSTS--HOSPITALS. (1) The legislature finds that the spiraling costs of health care continue to surmount efforts to contain them, increasing at approximately twice the inflationary rate. The causes of this phenomenon are complex. By making physicians and other health care providers with hospital admitting privileges more aware of the cost consequences of health care services for consumers, these providers may be inclined to exercise more restraint in providing only the most relevant and cost-beneficial hospital services, with a potential for reducing the utilization of those services. The requirement of the hospital to inform physicians and other health care providers of the charges of the health care services that they order may have a positive effect on containing health costs. Further, the option of the physician or other health care provider to inform the patient of these charges may strengthen the necessary dialogue in the provider-patient relationship that tends to be diminished by intervening third-party payers.

(2) The chief executive officer of a hospital licensed under this chapter shall be required to develop a procedure for disclosing to physicians and other health care providers with admitting privileges the charges of all health care services ordered for their patients. These charges may be available on request of any physician and/or other health care provider ordering care in hospital inpatient/outpatient services. The physician and/or other health care provider may inform the patient of these charges and may specifically review them. Hospitals are also directed to conduct studies for making daily charges available to prescribing physicians through the use of interactive software and/or computerized information thereby allowing physicians and other health care providers to review not only the costs of present and past services but also future contemplated costs for additional diagnostic studies and therapeutic medications.

NEW SECTION. Sec. 266. A new section is added to chapter 18.68 RCW to read as follows:

SPIRALING COSTS--PRESCRIPTION MEDICATIONS. The legislature finds that the spiraling costs of health care continue to surmount efforts to contain them, increasing at approximately twice the inflationary rate. One of the fastest growing segments of the health care expenditure involves prescription medications. By making physicians and other health care providers with prescriptive authority more aware of the cost consequences of health care treatments for consumers, these providers may be inclined to exercise more restraint in providing only the most relevant and cost-beneficial drug and medication treatments. The requirement of the pharmacy to inform physicians and other health care providers of the charges of prescription drugs and medications that they order may have a positive effect on containing health costs. Further, the option of the physician or other health care provider to inform the patient of these charges may strengthen the necessary dialogue in the provider-patient relationship that tends to be diminished by intervening third-party payers.

NEW SECTION. Sec. 267. A new section is added to chapter 18.68 RCW to read as follows:

COST OF PRESCRIPTIVE MEDICATIONS. The registered or licensed pharmacist of this chapter shall establish and maintain a procedure for disclosing to physicians and other health care providers with prescriptive authority information detailed by prescriber, of the cost and dispensation of all prescriptive medications prescribed by him or her for his or her patients on request. These charges should be made available on at least a quarterly basis for all requested patients and should include medication, dosage, number dispensed, and the cost of the prescription. Pharmacies may provide this information in a summary form for each prescribing physician for all patients rather than as individually itemized reports. All efforts should be made to utilize the existing computerized records and software to provide this information in the least costly format.

NEW SECTION. Sec. 268. A new section is added to chapter 18.51 RCW to read as follows:

SPIRALING COSTS--NURSING HOMES. (1) The legislature finds that the spiraling costs of nursing home care continue to surmount efforts to contain them, increasing at approximately twice the inflationary rate. The causes of this phenomenon are complex. By making nursing home facilities and care providers more aware of the cost consequences of care services for consumers, these providers may be inclined to exercise more restraint in providing only the most relevant and cost-beneficial services and care, with a potential for reducing the utilization of those services. The requirement of the nursing home to inform physicians, consumers, and other care providers of the charges of the services that they order may have a positive effect on containing health costs.

(2) All nursing home administrators in facilities licensed under this chapter shall be required to develop and maintain a written procedure for disclosing patient charges to attending physicians with admitting privileges. The nursing home administrator shall have the capability to provide an itemized list of the charges for all health care services that may be ordered by a physician. The information shall be made available on request of consumers, or the physicians or other appropriate health care providers responsible for prescribing care.

H. HEALTH PROFESSIONAL SHORTAGES

NEW SECTION. Sec. 269. LEGISLATIVE INTENT. The legislature finds that the successful implementation of health care reform will depend on a sufficient supply of primary health care providers throughout the state. Many rural and medically underserved urban areas lack primary health care providers and because of this, basic health care services are limited or unavailable to populations living in these areas. The legislature has in recent years initiated new programs to address these provider shortages but funding has been insufficient and additional specific provider shortages remain.

Sec. 270. ROW 28B.125.010 and 1991 c 332 s 5 are each amended to read as follows:

STATE-WIDE HEALTH PERSONNEL RESOURCE PLAN--PERSONS OF COLOR--INDIAN HEALTH. (1) The higher education coordinating board, the state board for community ((college education)) and technical colleges, the superintendent of
public instruction, the state department of health, the Washington health services commission, and the state department of social and health services, to be known for the purposes of this section as the committee, shall establish a state-wide health personnel resource plan. The governor shall appoint a lead agency from one of the agencies on the committee.

In preparing the state-wide plan the committee shall consult with the training and education institutions affected by this chapter, health care providers, employers of health care providers, insurers, consumers of health care, and other appropriate entities.

Should a successor agency or agencies be authorized or created by the legislature with planning, coordination, or administrative authority over vocational-technical schools, community colleges, or four-year higher education institutions, the governor shall grant membership on the committee to such agency or agencies and remove the member or members it replaces.

The governor shall appoint subcommittees for the purpose of assisting in the development of the institutional plans required under this chapter. Such subcommittees shall at least include those committee members that have statutory responsibility for planning, coordination, or administration of the training and education institutions for which the institutional plans are being developed. In preparing the institutional plans for four-year institutes of higher education, the subcommittee shall be composed of at least the higher education coordinating board and the state's four-year higher education institutions. The appointment of subcommittees to develop portions of the state-wide plan shall not relinquish the committee's responsibility for assuring overall coordination, integration, and consistency of the state-wide plan.

In establishing and implementing the state-wide health personnel resource plan the committee shall, to the extent possible, utilize existing data and information, personnel, equipment, and facilities and shall minimize travel and take such other steps necessary to reduce the administrative costs associated with the preparation and implementation of the plan.

(2) The state-wide health resources plan shall include at least the following:

(a)(i) Identification of the type, number, and location of the health care professional work force necessary to meet health care needs of the state.

(ii) A description and analysis of the composition and numbers of the potential work force available for meeting health care service needs of the population to be used for recruitment purposes. This should include a description of the data, methodology, and process used to make such determinations.

(b) A centralized inventory of the numbers of student applications to higher education and vocational-technical training and education programs, yearly enrollments, yearly degrees awarded, and numbers on waiting lists for all the state's publicly funded health training and education programs. The committee shall request similar information for incorporation into the inventory from private higher education and vocational-technical training and education programs.

(c) A description of state-wide and local specialized provider training needs to meet the health care needs of target population. The committee shall appoint subcommittees for the purpose of assisting in the development of the institutional plans required under this chapter. Such subcommittees shall at least include those committee members that have statutory responsibility for planning, coordination, or administration of the training and education institutions for which the institutional plans are being developed. In preparing the institutional plans for four-year institutes of higher education, the subcommittee shall be composed of at least the higher education coordinating board and the state's four-year higher education institutions. The appointment of subcommittees to develop portions of the state-wide plan shall not relinquish the committee's responsibility for assuring overall coordination, integration, and consistency of the state-wide plan.

(d) A description of how innovative, cost-effective technologies such as telecommunications can and will be used to provide higher education, vocational-technical, continued competency, and skill maintenance and enhancement education and training to placebound students who need flexible programs and who are unable to attend institutions for training.

(e) A strategy for assuring higher education and vocational-technical educational and training programming is sensitive to the changing work force such as reentry workers, women, minorities, and the disabled.

(f) Strategies to increase the number of persons of color in the health professions. Such strategies shall incorporate, to the extent possible, federal and state assistance programs for health career development, including such strategies as the establishment of preferential admissions and designated enrollment slots.

(g) A strategy and coordinated state-wide policy developed by the subcommittees authorized in subsection (1) of this section for increasing the number of graduates intending to serve in shortage areas after graduation, including such strategies as the establishment of preferential admissions and designated enrollment slots.

(j) A description of the need for multiskilled health care professionals and an implementation plan to restructure educational and training programming to meet these needs.

(k) An analysis of the types and estimated numbers of health care personnel that will need to be recruited from out-of-state to meet the health professional needs not met by in-state trained personnel.

(l) An analysis of the need for educational articulation within the various health care disciplines and a plan for addressing the need.

(m) An analysis of the training needs of those members of the long-term care profession that are not regulated and that have no formal training requirements. Programs to meet these needs should be developed in a cost-effective and a state-wide accessible manner that provide for the basic training needs of these individuals.

(n) A designation of the professions and geographic locations in which loan repayment and scholarships should be available based upon objective data-based forecasts of health professional shortages. A description of the criteria used to select professions and geographic locations shall be included. Designations of professions and geographic locations may be amended by the department of health when circumstances warrant as provided for in RCW 28B.15.070.

(o) A description of needed changes in regulatory laws governing the credentialing of health professionals.

(p) A description of linguistic and cultural training needs of foreign-trained health care professionals to assure safe and effective practice of their health care profession.

(r) A description of criteria and standards that institutional plans provided for in this section must address in order to meet the requirements of the state-wide health personnel resource plan, including funding requirements to implement the plans. The committee shall also when practical identify specific outcome measures to measure progress in meeting the requirements of this section. The criteria and standards shall be established in a manner to provide flexibility to the institutions in meeting state-wide
plan requirements. The committee shall establish required submission dates for the institutional plans that permit inclusion of funding requests into the institutions budget requests to the state. (5) The committee may call upon other agencies of the state to provide available information to assist the committee in meeting the responsibilities under this chapter. This information shall be supplied as promptly as circumstances permit.

(6) State agencies involved in the development and implementation of the plan shall to the extent possible utilize existing personnel and financial resources in the development and implementation of the state-wide health personnel resource plan.

(7) The state-wide health personnel resource plan shall be submitted to the governor by July 1, 1992, and updated by July 1 of each even-numbered year. The governor, no later than December 1 of that year, shall approve, approve with modifications, or disapprove the state-wide health resource plan.

(7) Implementation of the state-wide plan shall begin by July 1, 1993.

(8) Notwithstanding subsections (5) and (7) of this section, the committee shall prepare and submit to the higher education coordinating board by June 1, 1992, the analysis necessary for the initial implementation of the health professional loan repayment and scholarship program created in chapter 28B.115 RCW.

(9) Each publicly funded two-year and four-year institute of higher education authorized under Title 28B RCW and vocational-technical institution authorized under Title 28A RCW that offers health education programs shall biennially prepare and submit an institutional plan to the committee. The institutional plan shall identify specific programming and activities of the institution that meet the requirements of the state-wide health professional resource plan.

The committee shall review and assess whether the institutional plans meet the requirements of the state-wide health personnel resource plan and shall prepare a report with its determination. The report shall become part of the institutional plan and shall be submitted to the governor and the legislature.

The institutional plan shall be included with the institution's biennial budget submission. The institution's budget shall identify proposed spending to meet the requirements of the institutional plan. Each vocational-technical institution, college, or university shall be responsible for implementing its institutional plan.

Sec. 271. RCW 28B.115.080 and 1991 c 332 s 21 are each amended to read as follows:

ANNUAL AWARD AMOUNT. After June 1, 1992, the board, in consultation with the department and the department of social and health services, shall:

(1) Establish the annual award amount for each credentialed health care profession which shall be based upon an assessment of reasonable annual eligible expenses involved in training and education for each credentialed health care profession. The annual award amount may be established at a level less than annual eligible expenses. The annual award amount shall (not be more than fifteen thousand dollars per year) be established by the board for each eligible health profession. The awards shall not be paid for more than a maximum of five years per individual;

(2) Determine any scholarship awards for prospective physicians in such a manner to require the recipients declare an interest in serving in rural areas of the state of Washington. Preference for scholarships shall be given to students who reside in a rural physician shortage area or a nonshortage rural area of the state prior to admission to the eligible education and training program in medicine. Highest preference shall be given to students seeking admission who are recommended by sponsoring communities and who declare the intent of serving as a physician in a rural area. The board may require the sponsoring community located in a nonshortage rural area to financially contribute to the eligible expenses of a medical student if the student will serve in the nonshortage rural area;

(3) Establish the required service obligation for each credentialed health care profession, which shall be no less than three years or no more than five years. The required service obligation may be based upon the amount of the scholarship or loan repayment award such that higher awards involve longer service obligations on behalf of the participant;

(4) Determine eligible education and training programs for purposes of the scholarship portion of the program;

(5) Honor loan repayment and scholarship contract terms negotiated between the board and participants prior to May 21, 1991, concerning loan repayment and scholarship award amounts and service obligations authorized under chapter (48.160) 28B.115, 28B.104, or 70.180 RCW.

NEW SECTION. Sec. 272. A new section is added to chapter 41.05 RCW to read as follows:

The technical assistance provided shall include, but is not limited to: (a) Collaborative research and data analysis on health care outcomes that disproportionately affect persons of color; (b) design and development of model health education and promotion strategies aimed at modifying unhealthy health behaviors or enhancing the use of the health care delivery system by persons of color; (c) provision of technical information and assistance on program planning and financial management; (d) administration, public policy development, and analysis in health care issues affecting persons of color; and (e) enhancement and promotion of health care career opportunities for persons of color.

(2) Consistent with appropriated funds, the programs shall be available on a state-wide basis.

Sec. 273. RCW 70.185.030 and 1991 c 332 s 9 are each amended to read as follows:

COMMUNITY-BASED RECRUITMENT AND RETENTION—UNDERSERVED URBAN AREAS. (1) The department (shall) may, subject to funding, establish (up to three) community-based recruitment and retention project sites to provide
A new section is added to chapter 70.185 RCW to read as follows:

(1) The department may develop a mechanism for underserved rural or urban communities to contract with education and training programs for student positions above the full time equivalent lids. The goal of this program is to provide additional capacity, educating students who will practice in underserved communities.

(b) Primary health care services shall be provided at community clinics that are public or private tax-exempt corporations; and

(3) Students participating in the community contracted educational positions shall meet all applicable educational program requirements and provide assurances, acceptable to the community, that they will practice in the sponsoring community following completion of education and necessary licensure.

NEW SECTION. Sec. 274. A new section is added to chapter 70.185 RCW to read as follows:

AREO HEALTH EDUCATION CENTERS. The secretary may establish and contract with area health education centers in the eastern and western parts of the state. Consistent with the recruitment and retention objectives of this chapter, the centers shall provide or facilitate the provision of health professional educational and continuing education programs that strengthen the delivery of primary health care services in rural and medically underserved urban areas of the state. The center shall assist in the development and operation of health personnel recruitment and retention programs that are consistent with activities authorized under this chapter. The centers shall further provide technical expertise in the development of well managed health care delivery systems in rural Washington consistent with the goals and objectives of chapter . . . . Laws of 1993 (this act).

NEW SECTION. Sec. 275. A new section is added to chapter 70.185 RCW to read as follows:

RETIRRED PRIMARY CARE PROVIDERS-MALPRACTICE INSURANCE. (1) The department may establish a program to purchase and maintain liability malpractice insurance for retired ((physician)) primary care providers who provide primary health care services at community clinics. The following conditions apply to the program:

(a) Primary health care services shall be provided at community clinics that are public or private tax-exempt corporations; and
(b) Primary health care services provided at the clinics shall be offered to low-income patients based on their ability to pay;
(c) Retired ((physician)) primary care providers providing health care services shall not receive compensation for their services; and
(d) The department shall contract only with a liability insurer authorized to offer liability malpractice insurance in the state.

Eligible education and training programs are those programs approved by the department that lead to eligibility for a credential as a credentialed health care professional. Eligible professions are those licensed under chapters 18.36A, 18.57, 18.57A, 18.71, and 18.71A RCW and advanced registered nurse practitioners and certified nurse midwives licensed under chapter 18.88 RCW, and may include other providers identified as needed in the health personnel resource plan.

(3) The state and its employees who operate the program shall be immune from any civil or criminal action involving claims against clinics or physicians that provided health care services under this section and RCW 43.70.470. This protection of immunity shall extend only to the extent funds are provided for this purpose by the legislature.

Sec. 277. RCW 43.70.470 and 1992 c 113 s 2 are each amended to read as follows:

RETIRRED PRIMARY CARE PROVIDERS--CONDITIONS. The department may establish by rule the conditions of participation in the liability insurance program by retired ((physician)) primary care providers at clinics utilizing retired physicians for the purposes of this section and RCW 43.70.460. These conditions shall include, but not be limited to, the following:

1. The participating ((physician)) primary care provider associated with the clinic shall hold a valid license to practice medicine and surgery in this state and each state in which the clinics is located as a physician under chapter 18.71 or 18.57 RCW, a naturopath under chapter 18.36A RCW, a physician assistant under chapter 18.71A or 18.57A RCW, an advanced registered nurse practitioner under chapter 18.88 RCW, a dentist under chapter 18.32 RCW, or other health professionals as may be deemed in short supply in the health personnel resource plan under chapter 28B.125 RCW. All primary care providers must be in conformity with current requirements for licensure as a retired ((physician)) primary care provider, including continuing education requirements;

2. The participating ((physician)) primary care provider shall limit the scope of practice in the clinic to primary care. Primary care shall be limited to noninvasive procedures and shall not include obstetrical care, or any specialized care and treatment. Noninvasive procedures include injections, suturing of minor lacerations, and incision of boils or superficial abscesses. Primary dental care shall be limited to diagnosis, oral hygiene, restoration, and extractions and shall not include orthodontia, or other specialized care and treatment;
The legislature finds that the shortage of primary care physicians practicing in rural and medically underserved areas of the state has created a severe public health and safety problem. If unaddressed, this problem is expected to worsen with health care reform since an increased demand for primary care services will only contribute further to these shortages.

The legislature further finds that the medical training program at the University of Washington is an important and well respected resource to the people of this state in the training of primary care physicians. Currently, only a small proportion of medical school graduates are Washington residents who serve as primary care practitioners in certain parts of this state.

The University of Washington shall prepare a primary care shortage plan that accomplishes the following:

(a) Identifies specific activities that the school of medicine shall pursue to increase the number of Washington residents serving as primary care physicians in rural and medically underserved areas of the state, including establishing a goal that assures that no less than fifty percent of medical school graduates who are Washington state residents at the time of matriculation will enter into primary care residencies, to the extent possible, in Washington state by the year 2000;

(b) Assures that the school of medicine shall establish among its highest training priorities the distribution of its primary care physician graduates from the school and associated postgraduate residency programs into rural and medically underserved areas;

(c) Establishes the goal of assuring that the annual number of graduates from the family practice residency network entering rural or medically underserved practice shall be increased by forty percent over a baseline period from 1988 through 1990 by 1995;

(d) Establishes a further goal to make operational at least two additional family practice residency programs within Washington state in geographic areas identified by the plan as underserved in family practice by 1997. The geographic areas identified by the plan as being underserved by family practice physicians shall be consistent with any such similar designations as may be made in the health personnel research plan as authorized under chapter 28B.125 RCW;

(e) Establishes, with the cooperation of existing community and migrant health clinics in rural or medically underserved areas of the state, three family practice residency training tracks. Furthermore, the primary care shortage plan shall provide that one of these training tracks shall be a joint American osteopathic association and American medical association approved training site coordinated with an accredited college of osteopathic medicine with extensive experience in training primary care physicians for the western United States. Such a proposed joint accredited training track will have at least fifty percent of its residency positions in osteopathic medicine; and

(f) Implements the plan, with the exception of the expansion of the family practice residency network, within current biennial appropriations for the University of Washington school of medicine.

(2) The plan shall be submitted to the appropriate committees of the legislature no later than December 1, 1993.

I. SHORT-TERM HEALTH INSURANCE REFORM

NEW SECTION. Sec. 280. INTENT--INCREASE ACCESS TO COVERAGE. The legislature intends that, during the transition to a fully reformed health services system, certain health insurance practices be modified to increase access to health insurance coverage for some individuals and groups. The legislature recognizes that health insurance reform will not remedy the significant lack of access to coverage in Washington state without the implementation of strong cost control measures. The authority granted to the commissioner in chapter 48.21 RCW and Title 48 RCW to regulate insurers, health care service contractors, and health maintenance organizations.

NEW SECTION. Sec. 281. A new section is added to chapter 48.18 RCW to read as follows:

CANCELLATIONS, DENIALS--WRITTEN COMMUNICATION. Every insurer upon canceling, denying, or refusing to renew any disability policy, shall, upon written request, directly notify in writing the applicant or insured, as the case may be, of the reasons for the action by the insurer and to any person covered under a group contract. Any benefits, terms, rates, or conditions of such a contract that are restricted, excluded, modified, increased, or reduced shall, upon written request, be set forth in writing and supplied to the insured and to any person covered under a group contract. The written communications required by this section shall be phrased in simple language that is readily understandable to a person of average intelligence, education, and reading ability.

Sec. 282. RCW 48.21.200 and 1983 c 202 s 16 and 1983 c 106 s 24 are each reenacted and amended to read as follows:

REDUCTIONS OR REFUSAL OF BENEFITS. (1) No individual or group disability insurance policy, health care service contract, or health maintenance agreement which provides benefits for hospital, medical, or surgical expenses shall be delivered or issued for delivery in this state (after September 8, 1975) which contains any provision whereby the insurer, contractor, or health maintenance organization may reduce or refuse to pay such benefits otherwise payable thereunder solely on account of the
existence of similar benefits provided under any (individual) disability insurance policy, (or under any individual) health care service contract, or health maintenance agreement:

No individual or group disability insurance policy, health care service contract, or health maintenance agreement providing hospital, medical or surgical expense benefits and which contains a provision for the reduction of benefits otherwise payable or available thereunder on the basis of other existing coverages, shall provide that such reduction will operate to reduce total benefits payable below an amount equal to one hundred percent of total allowable expenses exclusive of copayments, deductibles, and other similar cost-sharing arrangements.

The commissioner shall by rule establish guidelines for the application of this section, including:

1. The procedures by which persons (insured) covered under such policies, contracts, and agreements are to be made aware of the existence of such a provision;
2. The effect of such a provision on the benefits provided;
3. Establishment of the order of benefit determination; and
4. Exceptions necessary to preserve policy, contract, or agreement requirements for use of particular health care facilities or providers; and

Reasonable claim administration procedures to expedite claim payments and prevent duplication of payments or benefits under such a provision. PROVIDED, HOWEVER, That any group disability insurance policy which is issued as part of an employee insurance benefit program authorized by RCW 41.05.025(3) may exclude all or part of any deductible amounts from the definition of total allowable expenses for purposes of coordination of benefits within the plan and between such plan and other applicable group coverages; AND PROVIDED FURTHER, That any group disability insurance policy providing coverage for persons in this state may exclude all or part of any deductible amounts required by a group disability insurance policy from the definition of total allowable expenses for purposes of coordination of benefits between such policy and a group disability insurance policy issued as part of an employee insurance benefit program authorized by RCW 41.05.025(3).

The provisions of this section shall apply to health care service contractor contracts and health maintenance organization agreements.

NEW SECTION. Sec. 283. A new section is added to chapter 48.20 RCW to read as follows:

DISABLED INSURER—PREEXISTING CONDITIONS EXCLUSIONS AND LIMITATIONS. (1) After January 1, 1994, every disability insurer issuing coverage against loss arising from medical, surgical, hospital, or emergency care coverage shall waive any preexisting condition exclusion or limitation for persons who had similar coverage under a different policy, health care service contract, or health maintenance agreement in the three-month period immediately preceding the effective date of coverage under the new policy to the extent that such person has satisfied a waiting period under such preceding policy, contract, or agreement; however, if the person satisfied a twelve-month waiting period under such preceding policy, contract, or agreement, the insurer shall waive any preexisting condition exclusion or limitation. The insurer need not waive a preexisting condition exclusion or limitation under the new policy for coverage not provided under such preceding policy, contract, or agreement.

(2) The commissioner may adopt rules establishing guidelines for determining when coverage is similar under new and preceding policies, contracts, and agreements and for determining when a preexisting condition waiting period has been satisfied.

(3) The commissioner in consultation with insurers, health care service contractors, and health maintenance organizations shall study the effect of preexisting condition exclusions and limitations on the cost and availability of health care coverage and shall adopt rules restricting the use of such conditions and limitations by January 1, 1994. No insurer, health care service contractor, or health maintenance organization may deny, exclude, or limit coverage for preexisting conditions for a period longer than that provided for in such rules after July 1, 1994.

NEW SECTION. Sec. 284. A new section is added to chapter 48.21 RCW to read as follows:

GROUP DISABILITY INSURER—PREEXISTING CONDITIONS EXCLUSIONS AND LIMITATIONS. (1) After January 1, 1994, every disability insurer issuing coverage against loss arising from medical, surgical, hospital, or emergency care coverage shall waive any preexisting condition exclusion or limitation for persons who had similar coverage under a different policy, health care service contract, or health maintenance agreement in the three-month period immediately preceding the effective date of coverage under the new policy to the extent that such person has satisfied a waiting period under such preceding policy, contract, or agreement; however, if the person satisfied a twelve-month waiting period under such preceding policy, contract, or agreement, the insurer shall waive any preexisting condition exclusion or limitation. The insurer need not waive a preexisting condition exclusion or limitation under the new policy for coverage not provided under such preceding policy, contract, or agreement.

(2) The commissioner may adopt rules establishing guidelines for determining when coverage is similar under new and preceding policies, contracts, and agreements and for determining when a preexisting condition waiting period has been satisfied.

(3) The commissioner in consultation with insurers, health care service contractors, and health maintenance organizations shall study the effect of preexisting condition exclusions and limitations on the cost and availability of health care coverage and shall adopt rules restricting the use of such conditions and limitations by January 1, 1994. No insurer, health care service contractor, or health maintenance organization may deny, exclude, or limit coverage for preexisting conditions for a period longer than that provided for in such rules after July 1, 1994.

NEW SECTION. Sec. 285. A new section is added to chapter 48.44 RCW to read as follows:

HEALTH CARE SERVICE CONTRACTORS—PREEXISTING CONDITIONS EXCLUSIONS AND LIMITATIONS. (1) After January 1, 1994, every health care service contractor, except limited health care service contractors as defined under RCW 48.44.035, shall waive any preexisting condition exclusion or limitation for persons who had similar coverage under a different policy, health care service contract, or health maintenance agreement in the three-month period immediately preceding the effective date of coverage under the new contract to the extent that such person has satisfied a waiting period under such preceding policy, contract, or agreement; however, if the person satisfied a twelve-month waiting period under such preceding policy, contract, or agreement, the insurer shall waive any preexisting condition exclusion or limitation. The insurer need not waive a preexisting condition exclusion or limitation under the new policy for coverage not provided under such preceding policy, contract, or agreement.

(2) The commissioner may adopt rules establishing guidelines for determining when coverage is similar under new and preceding policies, contracts, and agreements and for determining when a preexisting condition waiting period has been satisfied.
(3) The commissioner in consultation with insurers, health care service contractors, and health maintenance organizations shall study the effect of preexisting condition exclusions and limitations on the cost and availability of health care coverage and shall adopt rules restricting the use of such conditions and limitations by January 1, 1994. No insurer, health care service contractor, or health maintenance organization may deny, exclude, or limit coverage for preexisting conditions for a period longer than that provided for in such rules after July 1, 1994.

NEW SECTION. Sec. 286. A new section is added to chapter 48.46 RCW to read as follows:

HEALTH MAINTENANCE ORGANIZATIONS--PREEXISTING CONDITIONS EXCLUSIONS AND LIMITATIONS. The insurer need not waive a preexisting condition exclusion or limitation under the new policy for coverage not provided under such preceding policy, contract, or agreement.

(2) The commissioner may adopt rules establishing guidelines for determining when coverage is similar under new and preceding policies, contracts, and agreements and for determining when a preexisting condition waiting period has been satisfied.

(3) The commissioner in consultation with insurers, health care service contractors, and health maintenance organizations shall study the effect of preexisting condition exclusions and limitations on the cost and availability of health care coverage and shall adopt rules restricting the use of such conditions and limitations by January 1, 1994. No insurer, health care service contractor, or health maintenance organization may deny, exclude, or limit coverage for preexisting conditions for a period longer than that provided for in such rules after July 1, 1994.

(8) Consistent with policies and rules established by the commission, establish such administrative divisions, offices, or programs as are necessary to carry out the purposes of this act; and

(9) Perform such other administrative and technical duties as are consistent with chapter 41.06, Laws of 1993 (this act) and the rules and policies of the commission.

NEW SECTION, Sec. 406. POWERS AND DUTIES OF THE COMMISSION. The commission has the following powers and duties:

(1) Ensure that all residents of Washington state are enrolled in a certified health plan to receive the uniform benefits package, regardless of age, sex, family structure, ethnicity, race, health condition, geographic location, employment, or economic status.

(2) Endeavor to ensure that all residents of Washington state have access to appropriate, timely, confidential, and effective health services, and monitor the degree of access to such services. If the commission finds that individuals or populations lack access to certified health plan services, the commission shall:

(a) Authorize appropriate state agencies, local health departments, community or migrant health clinics, public hospital districts, or other nonprofit health service entities to take actions necessary to assure such access. This includes authority to contract for or directly deliver services described within the uniform benefits package to special populations; or

(b) Notify appropriate certified health plans and the insurance commissioner of such findings. The commission shall adopt by rule standards by which the insurance commissioner may, in such event, require certified health plans in closest proximity to such individuals and populations to extend their catchment areas to those individuals and populations and offer them enrollment.
(3) Adopt necessary rules in accordance with chapter 34.05 RCW to carry out the purposes of chapter . . ., Laws of 1993 (this act). An initial set of draft rules establishing at least the commission's organization structure, the uniform benefits package, and standards for certified health plan certification, must be submitted in draft form to appropriate committees of the legislature by December 1, 1994.

(4) Establish and modify as necessary, in consultation with the state board of health and the department of health, and coordination with the planning process set forth in section 467 of this act a uniform set of health services based on the recommendations of the health care cost control and access commission established under House Concurrent Resolution No. 4443 adopted by the legislature in 1990.

(5) Establish and modify as necessary the uniform benefits package as provided in section 449 of this act, which shall be offered and provided by certified health plans. The benefit package shall be provided at no more than the maximum premium specified in subsection (6) of this section.

(6)(a) Establish for each year a community-rated maximum premium for the uniform benefits package that shall operate to control overall health care costs. The maximum premium cost of the uniform benefits package in the base year 1995 shall be established upon an actuarial determination of the costs of providing the uniform benefits package and such other cost impacts as may be deemed relevant by the commission. Beginning in 1996, the growth rate of the premium cost of the uniform benefits package for each certified health plan shall be allowed to increase by a rate no greater than the average growth rate in the cost of the package between 1990 and 1993 as actuarially determined, reduced by two percentage points per year until the growth rate is no greater than the five-year rolling average of growth in Washington per capita personal income, as determined by the office of financial management.

(b) In establishing the community-rated maximum premium under this subsection, the commission shall develop a composite rate for employees that provides nominal, if any, variance between the rate for individual employees and employees with dependents to minimize any economic incentive to an employer to discriminate between prospective employees based upon whether or not they have dependents for whom coverage would be required. Nothing in this subsection (6)(b) shall preclude the commission from evaluating other methodologies for establishing the community-rated maximum premium and recommending an alternative methodology to the legislature.

c) If the commission adds or deletes services or benefits to the uniform benefits package in subsequent years, it may increase or decrease the maximum premium to reflect the actual cost experience of a broad sample of providers of that service in the state, considering the factors enumerated in (a) of this subsection and adjusted actuarially. The addition of services or benefits shall not result in a redetermination of the entire cost of the uniform benefits package.

(d) The level of state expenditures for the uniform benefits package shall be limited to the appropriation of funds specifically for this purpose.

(7) Determine the need for medical risk adjustment mechanisms to minimize financial incentives for certified health plans to enroll individuals who present lower health risks and avoid enrolling individuals who present higher health risks, and to minimize financial incentives for employer hiring practices that discriminate against individuals who present higher health risks. In the design of medical risk distribution mechanisms under this subsection, the commission shall (a) balance the benefits of price competition with the need to protect certified health plans from any unsustainable negative effects of adverse selection; (b) consider the development of a system that creates a risk profile of each certified health plan's enrollee population that does not create disincentives for a plan to control benefit utilization, that requires contributions from plans that enjoy a low-risk enrollee population to plans that have a high-risk enrollee population, and that does not permit an adjustment of the premium charged for the uniform benefits package or supplemental coverage based upon either receipt or contribution of assessments; and (c) consider whether registered employer health plans should be included in any medical risk adjustment mechanism. Proposed medical risk adjustment mechanisms shall be submitted to the legislature as provided in section 454 of this act.

(8) Design a mechanism to assure minors have access to confidential health care services as currently provided in RCW 70.24.110 and 71.34.030.

(9) Monitor the actual growth in total annual health services costs.

(10) Monitor the increased application of technology as required by chapter . . ., Laws of 1993 (this act) and take necessary action to ensure that such application is made in a cost-effective and efficient manner and consistent with existing laws that protect individual privacy.

(11) Establish reporting requirements for certified health plans that own or manage health care facilities, health care facilities, and health care providers to periodically report to the commission regarding major capital expenditures of the plans. The commission shall review and monitor such reports and shall report to the legislature regarding major capital expenditures on at least an annual basis. The Washington health care facilities authority and the commission shall develop standards jointly for evaluating and approving major capital expenditure financing through the Washington health care facilities authority, as authorized pursuant to chapter 70.37 RCW. By December 1, 1994, the commission and the authority shall submit jointly to the legislature such proposed standards. The commission and the authority shall, after legislative review, but no later than June 1, 1995, publish such standards. Upon publication, the authority may not approve financing for major capital expenditures unless approved by the commission.

(12) Establish maximum enrollee financial participation levels. The levels shall be related to enrollee household income.

(13) For health services provided under the uniform benefits package and supplemental benefits, adopt standards for enrollment, and standardized billing and claims processing forms. The standards shall ensure that these procedures minimize administrative burdens on health care providers, health care facilities, certified health plans, and consumers. Subject to federal approval or phase-in schedules whenever necessary or appropriate, the standards shall also apply to state-purchased health services, as defined in RCW 41.05.011.

(14) Propose that certified health plans adopt certain practice indicators or risk management protocols for quality assurance, utilization review, or provider payment. The commission may consider indicators or protocols recommended according to section 410 of this act for these purposes.

(15) Propose other guidelines to certified health plans for utilization management, use of technology and methods of payment, such as diagnosis-related groups and a resource-based relative value scale. Such guidelines shall be voluntary and shall be designed to promote improved management of care, and provide incentives for improved efficiency and effectiveness within the delivery system.
NEW SECTION. 
Sec. 406. Continuous Quality Improvement and Total Quality Management. To ensure the highest quality health services at the lowest total cost, the commission shall establish a total quality management system of continuous quality improvement. Such endeavor shall be based upon the recognized quality science for continuous quality improvement. The commission shall impanel a committee composed of persons from the private sector and related sciences who have broad knowledge and successful experiences in continuous quality improvement and total quality management applications. It shall be the responsibility of the committee to develop standards for a Washington state health services supplier certification process and recommend such standards to the commission for review and adoption. Once adopted, the commission shall establish a schedule for full compliance no later than July 1, 1996, whereby all health service providers and health service facilities shall be certified prior to providing uniform benefits package services.

B. Practice Indicators

The department of health shall consult with health care providers and facilities, purchasers, health professional regulatory authorities under RCW 18.130.040, appropriate research and clinical experts, and consumers of health care services to identify specific practice areas where practice indicators and risk management protocols have been developed, including those that have been demonstrated to be effective among persons of color. Practice indicators shall be based upon expert consensus and best available scientific evidence. The department shall:

(1) Develop a definition of expert consensus and best available scientific evidence so that practice indicators can serve as a standard for excellence in the provision of health care services.
(2) Establish a process to identify and evaluate practice indicators and risk management protocols as they are developed by the appropriate professional, scientific, and clinical communities.
(3) Recommend the use of practice indicators and risk management protocols in quality assurance, utilization review, or provider payment to the health services commission.

any civil action, and no person who was in attendance at a meeting of such committee or (board) who participated in the creation, collection, or maintenance of information or documents specifically for the committee shall be permitted or required to testify in any civil action as to the content of such proceedings or the documents and information prepared specifically for the committee. This subsection does not preclude: (a) In any civil action, the discovery of the identity of persons involved in the medical care that is the basis of the civil action whose involvement was independent of any quality improvement activity; (b) in any civil action, the testimony of any person concerning the facts which form the basis for the institution of such proceedings of which the person had personal knowledge acquired independently of such proceedings; (c) in any civil action by a health care provider regarding the restriction or revocation of that individual's clinical or staff privileges, introduction into evidence information collected and maintained by quality (assurance) improvement committees regarding such health care provider; (d) in any civil action, disclosure of the fact that staff privileges were terminated or restricted, including the specific restrictions imposed, if any and the reasons for the restrictions; or (e) in any civil action, discovery and introduction into evidence of the patient's medical records required by regulation of the department of health to be made regarding the care and treatment received.

(6) Hospitals shall be granted access to information held by the medical disciplinary board and the board of osteopathic medicine and surgery pertinent to decisions of the hospital regarding credentialing and recredentialing of practitioners.

(7) Violation of this section shall not be considered negligence per se.

(b) All such programs shall comply with the requirements of RCW 70.41.200(1)(a), (c), (d), (e), (f), (g), and (h) as modified to reflect the structural organization of the institution, facility, professional societies or organizations, or certified health plan, unless an alternative quality improvement program substantially equivalent to RCW 70.41.200(1)(a) is developed. All such programs, whether complying with the requirement set forth in RCW 70.41.200(1)(a) or in the form of an alternative program, must be approved by the department before the discovery limitations provided in subsections (3) and (4) of this section shall apply.

In reviewing plans submitted by licensed entities that are associated with physicians' offices, the department shall ensure that the discovery limitations of this section are applied only to information and documents related specifically to quality improvement activities undertaken by the licensed entity.

(2) Health care provider groups of ten or more providers may maintain a coordinated quality improvement program for the improvement of the quality of health care services rendered to patients and the identification and prevention of medical malpractice as set forth in RCW 70.41.200. All such programs must be approved by the department before the discovery limitations provided in subsections (3) and (4) of this section shall apply.

(3) Any person who, in substantial good faith, provides information to further the purposes of the quality improvement and medical malpractice prevention program or who, in substantial good faith, participates on the quality improvement committee shall not be subject to an action for civil damages or other relief as a result of such activity.

(4) Information and documents, including complaints and incident reports, created specifically for, and collected, and maintained by a quality improvement committee are not subject to discovery or introduction into evidence in any civil action, and no person who was in attendance at a meeting of such committee or who participated in the creation, collection, or maintenance of information or documents specifically for the committee shall be permitted or required to testify in any civil action as to the content of such proceedings or the documents and information prepared specifically for the committee. This subsection does not preclude: (a) In any civil action, the discovery of the identity of persons involved in the medical care that is the basis of the civil action whose involvement was independent of any quality improvement activity; (b) in any civil action, the testimony of any person concerning the facts which form the basis for the institution of such proceedings of which the person had personal knowledge acquired independently of such proceedings; (c) in any civil action by a health care provider regarding the restriction or revocation of that individual's clinical or staff privileges, introduction into evidence information collected and maintained by quality (assurance) improvement committees regarding such health care provider; (d) in any civil action, disclosure of the fact that staff privileges were terminated or restricted, including the specific restrictions imposed, if any and the reasons for the restrictions; or (e) in any civil action, discovery and introduction into evidence of the patient's medical records required by rule of the department of health to be made regarding the care and treatment received.

(c) The mutually agreed upon expert would conduct an impartial review of the claim and provide his or her opinion to the parties.

(d) A pool of available experts would be established and maintained for each category of health care practitioner by the corresponding practitioner association, such as the Washington state medical association and the Washington state nurses association.

(3) The administrator for the courts shall seek to involve at least the following organizations in a collaborative effort to develop the informal review system described in subsection (2) of this section:

NEW SECTION. Sec. 421. A new section is added to chapter 7.70 RCW to read as follows:
MANDATORY MEDIATION OF HEALTH CARE MALPRACTICE CLAIMS. Section 419 of this act may not be construed to abridge the right to trial by jury following an unsuccessful attempt at mediation.

Sec. 422. RCW 5.60.070 and 1991 c 321 s 1 are each amended to read as follows:
MEDIATION–COMMUNICATIONS PRIVILEGED. (1) If there is a court order to mediate ([ω]), a written agreement between the parties to mediate, or if mediation is mandated under section 419 of this act, then any communication made or materials submitted in, or in connection with, the mediation proceeding, whether made or submitted to or by the mediator, a mediation organization, a party, or any person present, are privileged and confidential and are not subject to discovery in any judicial or administrative proceeding except:
(a) When all parties to the mediation agree, in writing, to disclosure;
(b) When the written materials or tangible evidence are otherwise subject to discovery, and were not prepared specifically for use in and actually used in the mediation proceeding;
(c) When a written agreement to mediate permits disclosure;
(d) When disclosure is mandated by statute;
(e) When the written materials consist of a written settlement agreement or other agreement signed by the parties resulting from a mediation proceeding;
(f) When those communications or written materials pertain solely to administrative matters incidental to the mediation proceeding, including the agreement to mediate; or
(g) In a subsequent action between the mediator and a party to the mediation arising out of the mediation.
(2) When there is a court order ([ω]), a written agreement to mediate, or when mediation is mandated under section 419 of this act, as described in subsection (1) of this section, the mediator or a representative of a mediation organization shall not testify in any judicial or administrative proceeding unless:
(a) All parties to the mediation and the mediator agree in writing; or
(b) In an action described in subsection (1)(g) of this section.

NEW SECTION. Sec. 423. A new section is added to chapter 7.70 RCW to read as follows:
MANDATORY MEDIATION OF HEALTH CARE MALPRACTICE CLAIMS. A cause of action that has been mediated as provided in section 419 of this act shall be exempt from any superior court civil rules mandating arbitration of civil actions or participation in settlement conferences prior to trial.

Sec. 424. RCW 4.22.070 and 1986 c 305 s 401 are each amended to read as follows:
PERCENTAGE OF FAULT–JOINT AND SEVERAL LIABILITY. (1) Except as provided in subsection (4) of this section, in all actions involving fault of more than one entity, the trial of the total fault which is attributable to every entity which caused the claimant's damages, including the claimant or person suffering personal injury or incurring property damage, defendants, third-party defendants, entities released by the claimant, entities immune from liability to the claimant and entities with any other individual defense against the claimant. Judgment shall be entered against each defendant except those who
have been released by the claimant or are immune from liability to the claimant or have prevailed on any other individual defense against the claimant in an amount which represents that party's proportionate share of the claimant's total damages. The liability of each defendant shall be several only and shall not be joint except:

(a) A party shall be responsible for the fault of another person or for payment of the proportionate share of another party where both were acting in concert or when a person was acting as an agent or servant of the party.

(b) If the trier of fact determines that the claimant or party suffering bodily injury or incurring property damages was not at fault, the defendants against whom judgment is entered shall be jointly and severally liable for the sum of their proportionate shares of the claimant's total damages.

(2) If a defendant is jointly and severally liable under one of the exceptions listed in subsection(a) of this section, such defendant's rights to contribution against another jointly and severally liable defendant, and the effect of settlement by either such defendant, shall be determined under RCW 4.22.040, 4.22.050, and 4.22.060.

(3)(a) Nothing in this section affects any cause of action relating to hazardous wastes or substances or solid waste disposal sites.

(b) Nothing in this section shall affect a cause of action arising from the tortious interference with contracts or business relations.

(c) Nothing in this section shall affect any cause of action arising from the manufacture or marketing of a fungible product in a generic form which contains no clearly identifiable shape, color, or marking.

(4) In all actions governed by chapter 7.70 RCW involving fault of more than one entity, the trier of fact shall determine the percentage of the total fault that is attributable to every entity that caused the claimant's damages, including the claimant or person suffering personal injury or incurring property damage, defendants, third-party defendants, entities released by the claimant, entities immune from liability to the claimant, and entities with any other individual defense against the claimant. Judgment shall be entered against each defendant except those who have been released by the claimant or are immune from liability to the claimant or have prevailed on any other individual defense against the claimant in an amount that represents that party's proportionate share of the claimant's total damages. The total damages shall first be reduced by any amount paid to the claimant by a released entity. The liability of each defendant shall be several only and shall not be joint except:

(a) A party shall be responsible for the fault of another person or for payment of the proportionate share of another party where both were acting in concert or when a person was acting as an agent or servant of the party.

(b) If the trier of fact determines that the claimant or party suffering bodily injury or incurring property damages was not at fault, the defendants against whom judgment is entered shall be jointly and severally liable for the sum of their proportionate shares of the claimant's total damages.

(c) A defendant against whom judgment has been entered shall be responsible to the claimant for any fault of an entity released by the claimant. The total damages shall first be reduced by any amount paid to the claimant by a released entity, and, then, where some fault has been attributed to the claimant, by the claimant's proportionate share of his or her total damages.

D. HEALTH INSURANCE PURCHASING COOPERATIVES

NEW SECTION. Sec. 425. HEALTH INSURANCE PURCHASING COOPERATIVES—DESIGNATION OF REGIONS BY COMMISSION, INFORMATION SYSTEMS, MINIMUM STANDARDS, AND RULES. (1) The commission shall designate four geographic regions within the state in which health insurance purchasing cooperatives may operate, based upon population, assuming that each cooperative must serve no less than one hundred fifty thousand persons; geographic factors; market conditions; and other factors deemed appropriate by the commission. The commission shall designate one health insurance purchasing cooperative per region.

(2) In coordination with the commission and consistent with the provisions of chapter 70.170 RCW, the department of health shall establish an information clearinghouse for the collection and dissemination of information necessary for the efficient operation of cooperatives, including the establishment of a risk profile information system related to certified health plan enrollees that would permit the equitable distribution of losses among plans in accordance with section 406(7) of this act.

(3) Every health insurance purchasing cooperative shall:

(a) Admit all individuals, employers, or other groups wishing to participate in the cooperative;

(b) Make available for purchase by cooperative members every health care program offered by every certified health plan operating within the cooperative's region;

(c) Be operated as a member-governed and owned, nonprofit cooperative in which no certified health plan, health maintenance organization, health care service contractor, independent practice association, independent physician organization, or any individual with a pecuniary interest in any such organization, shall have any pecuniary interest in or management control of the cooperative;

(d) Provide for centralized enrollment and premium collection and distribution among certified health plans; and

(e) Serve as an ombudsman for its members to resolve inquiries, complaints, or other concerns with certified health plans.

(4) Every health insurance purchasing cooperative shall assist members in selecting certified health plans and for this purpose may devise a rating system or similar system to judge the quality and cost-effectiveness of certified health plans consistent with guidelines established by the commission. For this purpose, each cooperative and directors, officers, and other employees of the cooperative are immune from liability in any civil action or suit arising from the publication of any report, brochure, or guide, or dissemination of information related to the services, quality, price, or cost-effectiveness of certified plans unless actual malice, fraud, or bad faith is shown. Such immunity is in addition to any common law or statutory privilege or immunity enjoyed by such person, and nothing in this section is intended to abrogate or modify in any way such common law or statutory privilege or immunity.

(5) Every health insurance purchasing cooperative shall bear the full cost of its operations, including the costs of participating in the information clearinghouse, through assessments upon its members. Such assessments shall be billed and accounted for separately from premiums collected and distributed for the purchase of the uniform benefits package or any other supplemental insurance or health services program.

(6) No health insurance purchasing cooperative may bear any financial risk for the delivery of uniform benefits package services, or for any other supplemental insurance or health services program.
(7) No health insurance purchasing cooperative may directly broker, sell, contract for, or provide any insurance or health services program. However, nothing contained in this section shall be deemed to prohibit the use or employment of insurance agents or brokers by the cooperative for other purposes or to prohibit the facilitation of the sale and purchase by members of supplemental insurance or health services programs.

(8) The commission may adopt rules necessary for the implementation of this section including rules governing charter and bylaw provisions of cooperatives and may adopt rules prohibiting or permitting other activities by cooperatives.

(9) The commission shall consider ways in which cooperatives can develop, encourage, and provide incentives for employee wellness programs.
(a) If the certified health plan has not intervened in the action by an injured enrollee against a negligent third party, then the amount of costs the certified health plan can recover shall be limited to the excess remaining after the enrollee has been fully compensated for his or her loss minus a proportionate share of the enrollee's costs and fees in bringing the action. The proportionate share shall be determined by:
   (i) The fees and costs approved by the court in which the action was initiated; or
   (ii) The written agreement between the attorney and client that established fees and costs when fees and costs are not addressed by the court.

When fees and costs have been approved by a court, after notice to the certified health plan, the certified health plan shall have the right to be heard on the matter of attorneys' fees and costs or its proportionate share;

(b) If the certified health plan has intervened in the action by an injured enrollee against a negligent third party, then the amount of costs the certified health plan can recover shall be the excess remaining after the enrollee has been fully compensated for his or her loss or the amount of the plan's incurred costs, whichever is less;

(11) Establish and maintain a grievance procedure approved by the commissioner, to provide a reasonable and effective resolution of complaints initiated by enrollees concerning any matter relating to the provision of benefits under the uniform benefits package and supplemental benefits, access to health care services, and quality of services. Each certified health plan shall respond to complaints filed with the insurance commissioner within fifteen working days. The insurance commissioner in consultation with the commission shall establish standards for resolution of grievances.

(12) Comply with the provisions of chapter 48.30 RCW prohibiting unfair and deceptive acts and practices to the extent such provisions are not specifically modified or superseded by the provisions of chapter . . . . Laws of 1993 (this act) and be prohibited from offering or supplying incentives that would have the effect of avoiding the requirements of subsection (3) of this section;

(13) Have culturally sensitive health promotion programs that include approaches that are specifically effective for persons of color and accommodating to different cultural systems, gender, and age;

(14) Permit every category of health care provider to provide health services or care for conditions included in the uniform benefits package to the extent that:
   (a) The provision of such health services or care is within the health care providers' permitted scope of practice; and
   (b) The providers agree to abide by standards related to:
      (i) Provision, utilization review, and cost containment of health services;
      (ii) Management and administrative procedures; and
      (iii) Provision of cost-effective and clinically efficacious health services;

(15) Establish the geographic boundaries in which they will obligate themselves to deliver the services required under the uniform benefits package and include such information in their application for certification, but the commissioner shall review such boundaries and may disapprove, in conformance with guidelines adopted by the commission, those that have been clearly drawn to be exclusionary within a health care catchment area;

(16) Annually report the names and addresses of all officers, directors, or trustees of the certified health plan during the preceding year, and the amount of wages, expense reimbursements, or other payments to such individuals;

(17) Annually report the number of residents enrolled and terminated during the previous year. Additional information regarding the enrollment and termination pattern for a certified health plan may be required by the commissioner to determine compliance with the open enrollment and free access requirements of chapter . . . . Laws of 1993 (this act); and

(18) Disclose any financial interests held by officers and directors in any facilities associated with or operated by the certified health plan.

NEW SECTION  Sec. 429. LIMITED CERTIFIED HEALTH PLAN FOR DENTAL SERVICES. (1) For the purposes of this section "limited certified dental plan" or "dental plan" means a limited health service contractor governed by RCW 48.44.035 offering dental care services only and that complies with all certified health plan requirements for managed care, community rating, portability, and nondiscrimination as provided in section 427 of this act.

(2) A dental plan may provide coverage for dental services directly to individuals or to employers for the benefit of employees. If an individual or an employer purchases dental care services from a dental plan, the certified health plan covering the individual or the employees need not provide dental services required under the uniform benefits package. A certified health plan may subcontract with a dental plan to provide the dental benefits required under the uniform benefits package.

NEW SECTION  Sec. 430. REGISTERED EMPLOYER HEALTH PLANS. Consistent with the provisions of section 464 of this act, a registered employer health plan shall:

(1) Register with the insurance commissioner by filing its plan of management and operation including but not limited to information required by the commissioner sufficient for a determination by the commissioner that such plan meets the requirements of this section and any rules adopted by the health services commission and the insurance commissioner pertaining to such plans.

(2) Provide the benefits included in the uniform benefits package to employees and their dependents for a prepaid, community-rated premium not to exceed the maximum premium established by the commission and provide such benefits through managed care in accordance with rules adopted by the commission. Such plans need not comply with the provisions of sections 449 and 450 of this act.

(3) Offer supplemental benefits to employees and their dependents for a prepaid, community-rated premium and provide such benefits through managed care in accordance with rules adopted by the commission. Such supplemental benefits, including the uniform benefits package, offered by such plan need not comply with the provisions of sections 449 and 450 of this act.

(4) Provide or assure the provision of all services within the uniform benefits package and offer supplemental benefits regardless of age, sex, family structure, ethnicity, race, health condition, socioeconomic status, or other condition or situation.

(5) If the plan provides benefits through contracts with, ownership of, or management of health care facilities and contracts with or employs health care providers, demonstrate to the satisfaction of the insurance commissioner in consultation with the department of health and the commission that its facilities and personnel are adequate to provide the uniform benefits package and any supplemental benefits or has made adequate contractual arrangements with health care providers and facilities to provide employees and their dependents with such benefits.

(6) Comply with portability of benefits requirements prescribed by the commission for registered employer health plans.
(7) Comply with administrative rules prescribed by the commission, the insurance commissioner, and other state agencies governing registered employer health plans. Providers shall provide all employees and their dependents enrolled in the plan with instruction and informational materials to increase individual and family awareness of injury and illness prevention; encourage assumption of personal responsibility for protecting personal health; and stimulate discussion about the use and limits of medical care in improving the health of individuals and communities.

(9) Include in all of its contracts with health care providers and health care facilities a provision prohibiting such providers and facilities from billing employees and their dependents enrolled in the plan for any amounts in excess of applicable enrollee point of service, cost-sharing obligations for services included in the uniform benefits package and supplemental benefits.

(10) Include in all of its contracts issued for uniform benefits package and supplemental benefits coverage a subrogation provision that allows the plan to recover the costs of uniform benefits package and supplemental benefit services incurred to care for a plan enrollee injured by a negligent third party. The costs recovered shall be limited to:

(a) If the plan has not intervened in the action by an injured plan enrollee against a negligent third party, then the amount of costs the plan can recover shall be limited to the excess remaining after the plan enrollee has been fully compensated for his or her loss minus a proportionate share of the enrollee's costs and fees in bringing the action. The proportionate share shall be determined by:

(i) The fees and costs approved by the court in which the action was initiated; or

(ii) The written agreement between the attorney and client that established fees and costs when fees and costs are not addressed by the court.

When fees and costs have been approved by a court, after notice to the plan, the plan shall have the right to be heard on the matter of attorneys' fees and costs or its proportionate share;

(b) If the plan has intervened in the action by an injured enrollee against a negligent third party, then the amount of costs the plan can recover shall be limited to the excess remaining after the enrollee has been fully compensated for his or her loss or the amount of the plan's actual incurred costs, whichever is less.

(11) Establish and maintain a grievance procedure approved by the insurance commissioner, to provide a reasonable and effective resolution of complaints initiated by plan enrollees concerning any matter relating to the provision of benefits under the uniform benefits package and supplemental benefits, access to health care services, and quality of services. Each plan shall respond to complaints filed with the insurance commissioner within fifteen working days. The insurance commissioner in consultation with the commission shall establish standards for resolution of grievances by enrollees of registered employer health plans.

(12) Have culturally sensitive health promotion programs that include approaches that are specifically effective for persons of color and accommodating to different cultural value systems, gender, and age.

(13) Permit every category of health care provider to provide health services or care for conditions included in the uniform benefits package to the extent that:

(a) The provision of such health services or care is within the health care providers' permitted scope of practice; and

(b) The providers agree to abide by standards related to:

(i) Provision, utilization review, and cost containment of health services;

(ii) Management and administrative procedures; and

(iii) Provision of cost-effective and clinically efficacious health services.

(14) Pay to the state treasurer a tax equivalent to the tax applied to taxpayers under section 301 of this act in accordance with rules adopted by the department of revenue.

(15) File their uniform benefits package and supplemental benefits with the insurance commissioner who may disapprove and order a modification of such package or benefits if such package or benefits fail to meet any standards or rules adopted by the commissioner pertaining to maximum premiums, enrollee financial participation, point of service cost-sharing, benefit design, or health service delivery.

(16) Comply with and shall be subject to sections 429, 446, and 447 of this act.

(17) Pay an annual fee to the insurance commissioner's office in an amount established by rule of the commissioner necessary for the performance of the commissioner's responsibilities under this section consistent with and subject to the collection, depositing, and spending provisions applicable to fees collected pursuant to RCW 48.02.190.

(18) File an annual report with the commissioner containing such information as the commissioner may require to determine compliance with this section.

(19) In addition to any other penalties prescribed by law, be subject to the penalties contained in section 436 of this act for violations of this section.

NEW SECTION. Sec. 431. CONTRACTS BETWEEN CERTIFIED HEALTH PLANS AND HEALTH CARE PROVIDERS.

(1) Balancing the need for health care reform and the need to protect health care providers, as a class and as individual providers, from improper exclusion presents a problem that can be satisfied with the creation of a process to ensure fair consideration of the inclusion of health care providers in managed care systems operated by certified health plans. It is therefore the intent of the legislature that the health services commission in developing rules in accordance with this section and the attorney general in monitoring the level of competition in the various geographic markets, balance the need for cost-effective and quality delivery of health services with the need for inclusion of both individual health care providers and categories of health care providers in managed care programs developed by certified health plans.

(2) All licensed health care providers licensed by the state, irrespective of the type or kind of practice, should be afforded the opportunity for inclusion in certified health plans consistent with the goals of health care reform.

The health services commission shall adopt rules requiring certified health plans to publish general criteria for the plan's selection or termination of health care providers. Such rules shall not require the disclosure of criteria deemed by the plan to be of a proprietary or competitive nature that would hurt the plan's ability to compete or to manage health services. Disclosure of criteria is proprietary or anticompetitive if revealing the criteria would have the tendency to cause health care providers to alter their practice pattern in a manner that would harm efforts to contain health care costs and is proprietary if revealing the criteria would cause the plan's competitors to obtain valuable business information.
If a certified health plan uses unpublished criteria to judge the quality and cost-effectiveness of a health care provider’s practice under any specific program within the plan, the plan may not reject or terminate the provider participating in that program based upon such criteria until the provider has been informed of the criteria that his or her practice fails to meet and is given a reasonable opportunity to conform to such criteria.

(3)(a) Whenever a determination is made under (b) of this subsection that a plan’s share of the market reaches a point where the plan’s exclusion of health care providers from a program of the plan would result in the substantial inability of providers to continue their practice thereby unreasonably restricting consumer access to needed health services, the certified health plan must allow all providers within the affected market to participate in the programs of the certified health plan. All such providers must meet the published criteria and requirements of the programs.

(b) The attorney general with the assistance of the insurance commissioner shall periodically analyze the market power of certified health plans to determine when the market share of any program of a certified health plan reaches a point where the plan’s exclusion of health service providers from a program of the plan would result in the substantial inability of providers to continue their practice thereby unreasonably restricting consumer access to needed health services. In analyzing the market power of a certified health plan, the attorney general shall consider:

(i) The ease with which providers may obtain contracts with other plans;

(ii) The amount of the private pay and government employer business that is controlled by the certified health plan taking into account the selling of its provider network to self-insured employer plans;

(iii) The difficulty in establishing new competing plans in the relevant geographic market; and

(iv) The sufficiency of the number or type of providers under contract with the plan available to meet the needs of plan enrollees.

Notwithstanding the provisions of this subsection, if the certified health plan demonstrates to the satisfaction of the attorney general and the health services commission that health service utilization data and similar information shows that the inclusion of additional health service providers would substantially lessen the plan’s ability to control health care costs and that the plan’s procedures for selection of providers are not improperly exclusive of providers, the plan need not include additional providers within the plan’s program.

(4) The health services commission shall adopt rules for the resolution of disputes between providers and certified health plans including disputes regarding the decision of a plan not to include the services of a provider.

(5) Nothing contained in this section shall be construed to require a plan to allow or continue the participation of a provider if the plan is a federally qualified health maintenance organization and the participation of the provider or providers would prevent the health maintenance organization from operating as a health maintenance organization in accordance with 42 U.S.C. Sec. 300e.

NEW SECTION. Sec. 432. CERTIFIED HEALTH PLANS--REGISTRATION REQUIRED--PENALTY. (1) No person or entity in this state may, by mail or otherwise, act or hold himself or herself out to be a certified health plan as defined by any other organization paying or insuring payment for health care services; and

(a) Any agreements with a casualty insurer, a government agency, or any other organization paying or insuring payment for health care services;

(b) Any agreements with providers for the provision of health care services; and

(c) Any arrangements for liability and malpractice insurance coverage.

(2) Anyone violating subsection (1) of this section is liable for a fine not to exceed ten thousand dollars and imprisonment not to exceed six months for each instance of such violation.

NEW SECTION. Sec. 433. ELIGIBILITY REQUIREMENTS FOR CERTIFICATE OF REGISTRATION--APPLICATION REQUIREMENTS. Any corporation, cooperative group, partnership, association, or groups of health professionals licensed by the state of Washington, public hospital district, or public institutions of higher education are entitled to a certificate from the insurance commissioner as a certified health plan if it:

(1) Submits an application for certification as a certified health plan, which shall be verified by an officer or authorized representative of the applicant, being in a form as the insurance commissioner prescribes in consultation with the health services commission;

(2) Meets the minimum net worth requirements set forth in section 438 of this act and the funding reserve requirements set forth in section 439 of this act;

(3) A certified health plan may establish the geographic boundaries in which they will obligate themselves to deliver the services required under the uniform benefits package and include such information in their application for certification, but the commissioner shall review such boundaries and may disapprove, in conformance to guidelines adopted by the commission, those which have been clearly drawn to be exclusionary within a health care catchment area.

NEW SECTION. Sec. 434. ISSUANCE OF CERTIFICATE--GROUNDS FOR REFUSAL. The commissioner shall issue a certificate as a certified health plan to an applicant within one hundred twenty days of such filing unless the commissioner notifies the applicant within such time that such application is not complete and the reasons therefor; or that the commissioner is not satisfied that:

(1) The basic organization document of the applicant permits the applicant to conduct business as a certified health plan;

(2) The applicant has demonstrated the intent and ability to assure that the health services will be provided in a manner to assure both their availability and accessibility;

(3) The organization is financially responsible and may be reasonably expected to meet its obligations to its enrolled participants. In making this determination, the commissioner shall consider among other relevant factors:

(a) Any agreements with a casualty insurer, a government agency, or any other organization paying or insuring payment for health care services;

(b) Any agreements with providers for the provision of health care services; and

(c) Any arrangements for liability and malpractice insurance coverage.

(4) The procedures for offering health care services are reasonable and equitable; and

(5) Procedures have been established to:

(a) Monitor the quality of care provided by the certified health plan including standards and guidelines provided by the health services commission and other appropriate state agencies;

(b) Resolve complaints and grievances in accordance with section 443 of this act and rules established by the insurance commissioner in consultation with the commission.

NEW SECTION. Sec. 435. PREMIUMS AND ENROLLEE PAYMENT AMOUNTS--FILING OF PREMIUMS AND ENROLLEE PAYMENT AMOUNTS--ADDITIONAL CHARGES PROHIBITED. (1) The insurance commissioner shall verify that the
certified health plan and its providers are charging no more than the maximum premiums and enrollee financial participation amounts during the course of financial and market conduct examinations or more frequently if justified in the opinion of the insurance commissioner or upon request by the health services commission.

(2) The certified health plans shall file the premium schedules including employer contributions, enrollee premium sharing, and enrollee point of service cost sharing amounts with the insurance commissioner, within thirty days of establishment by the health services commission.

(3) No certified health plan or its provider may charge any fees, assessments, or charges in addition to the premium amount or in excess of the maximum enrollee financial participation limits established by the health services commission. The certified health plan that directly provides health care services may charge and collect the enrollee point of service cost sharing fees as established in the uniform benefits package or other approved benefit plan.

NEW SECTION. Sec. 436. ANNUAL STATEMENT FILING--CONTENTS--PENALTY FOR FAILURE TO FILE.--ACCURACY REQUIRED. (1) Every certified health plan shall annually not later than March 1 of the calendar year, file with the insurance commissioner a statement verified by at least two of its principal officers showing its financial condition as of December 31 of the preceding year.

(2) Such annual report shall be in such form as the insurance commissioner shall prescribe and shall include:

(a) A financial statement of the certified health plan, including its balance sheet and receipts and disbursements for the preceding year, which reflects at a minimum:

(i) All prepayments and other payments received for health care services rendered pursuant to certified health plan benefit packages;

(ii) Expenditures to all categories of health care facilities, providers, and organizations with which the plan has contracted to fulfill obligations to enrolled residents arising out of the uniform benefits package and other approved supplemental benefit agreements, together with all other direct expenses including depreciation, enrollment, and commission; and

(iii) Expenditures for capital improvements, or additions thereto, including but not limited to construction, renovation, or purchase of facilities and capital equipment;

(b) A report of the names and addresses of all officers, directors, or trustees of the certified health plan during the preceding year, and the amount of wages, expense reimbursements, or other payments to such individuals;

(c) The number of residents enrolled and terminated during the report period. Additional information regarding the enrollment and termination pattern for a certified health plan may be required by the commissioner to demonstrate compliance with the open enrollment and free access requirements of chapter . . . Laws of 1993 (this act). The insurance commissioner shall specify additional information to be reported, which may include but not be limited to age, sex, location, and health status information;

(d) Such other information relating to the performance of the certified health plan or the health care facilities or providers with which it has contracted as reasonably necessary to the proper and effective administration of this chapter in accordance with rules;

(e) Disclosure of any financial interests held by officers and directors in any providers associated with the certified health plan or provider of the certified health plan.

(3) The commissioner may require quarterly reporting of financial information, such information to be furnished in a format prescribed by the commissioner in consultation with the commission.

(4) The commissioner may for good reason allow a reasonable extension of time within which such annual statement shall be filed.

(5) The commissioner may suspend or revoke the certificate of a certified health plan for failing to file its annual statement when due or during any extension of time therefor that the commissioner, for good cause, may grant.

(6) The commissioner shall provide to the health services commission an annual summary report of at least the information required in subsections (2) and (3) of this section.

NEW SECTION. Sec. 437. PROVIDER CONTRACTS--ENROLLED RESIDENT'S LIABILITY, COMMISSIONER'S REVIEW. (1) Subject to subsection (2) of this section, every contract between a certified health plan and its providers of health care services shall be in writing and shall set forth that in the event the certified health plan fails to pay for health care services as set forth in the uniform benefits package, the enrollee is not liable to the provider for any sums owed by the certified health plan. Every such contract shall provide that this requirement shall survive termination of the contract.

(2) The provisions of subsection (1) of this section shall not apply to emergency care from a provider who is not a contracting provider with the certified health plan, or to emergent and urgently needed out-of-area services.

NEW SECTION. Sec. 438. MINIMUM NET WORTH--REQUIREMENTS TO MAINTAIN--DETERMINATION OF AMOUNT. (1) Every certified health plan must maintain a minimum net worth equal to the greater of:

(a) One million dollars; or

(b) Two percent of annual premium revenues as reported on the most recent annual financial statement filed with the insurance commissioner on the first one hundred fifty million dollars of premium and one percent of annual premium on the premium in excess of one hundred fifty million dollars; or

(c) An amount equal to the sum of three months' uncovered expenditures as reported on the most recent financial statement filed with the commissioner.

(2)(a) In determining net worth, no debt may be considered fully subordinated unless the subordination clause is in a form acceptable to the commissioner. An interest obligation relating to the repayment of a subordinated debt must be similarly subordinated.

(b) The interest expenses relating to the repayment of a fully subordinated debt may not be considered uncovered expenditures.

(c) A subordinated debt incurred by a note meeting the requirements of this section, and otherwise acceptable to the insurance commissioner, may not be considered a liability and shall be recorded as equity.
Every certified health plan shall, in determining liabilities, include an amount estimated in the aggregate to provide for unearned premiums and for the payment of claims for health care expenditures that have been incurred, whether reported or unreported, that are unpaid and for which such organization is or may be liable and to provide for the expense of adjustment or settlement of such claims.

The claims shall be computed in accordance with rules adopted by the insurance commissioner in consultation with the health services commission.

NEW SECTION. Sec. 439. FUNDED RESERVE REQUIREMENTS. (1) Each certified health plan obtaining certification from the insurance commissioner under sections 427 through 444 of this act shall provide and maintain a fund as of the certified health plan's insolvency for which premium payment has been made and until the enrolled Washington residents are transferred to a new certified health plan. The funded reserve shall be established as an assurance that the uncovered expenditures obligations of the certified health plan to the enrolled Washington residents shall be performed.

(2) All income from reserves on deposit with the commissioner shall belong to the depositing certified health plan and shall be paid to it as it becomes available.

(3) Funded reserves required by this section shall be considered an asset in determining the plan's net worth, for purposes of any proceedings concerning their business.

NEW SECTION. Sec. 441. INSOLVENCY--COMMISSIONER'S DUTIES, CONTINUATION OF BENEFITS, ALLOCATION OF COVERAGE. (1) In the event of insolvency of a certified health plan and upon order of the commissioner, all other certified health plans shall offer the enrolled Washington residents of the insolvent certified health plan the opportunity to enroll in a solvent certified health plan. Enrollments shall be without prejudice for any preexisting condition and shall be continuous for the resident enrolled in the new certified health plan within thirty days of the date of insolvency.

(2) The insurance commissioner, in consultation with the health services commission, shall establish guidelines for the equitable distribution of the insolvent certified health plan's enrollees to the remaining certified health plans. The guidelines may include limitations to enrollment based on financial condition, provider delivery network, administrative requirements, and other reasonable measures of the certified health plan's ability to provide benefits to the newly enrolled residents.

(3) Each certified health plan shall have a plan for handling insolvency that allows for continuation of benefits for the duration of the coverage period for which premiums have been paid and continuation of benefits to enrolled Washington residents who are confined on the date of insolvency in an inpatient facility until their discharge or transfer to a new certified health plan as provided in subsection (1) of this section. The plan shall be approved by the insurance commissioner at the time of certification and shall be submitted for review and approval on an annual basis. The commissioner shall approve such a plan if it includes:

(a) Insurance to cover the expenses to be paid for continued benefits after insolvency;

(b) Provisions in provider contracts that obligate the provider to provide services for the duration of the period after the certified health plan's insolvency for which premium payment has been made and until the enrolled participant is transferred to a new certified health plan in accordance with subsection (1) of this section. Such extension of coverage shall not obligate the provider of service beyond thirty days following the date of insolvency;

(c) Use of the funded reserve requirements as provided under section 439 of this act;

(d) Acceptable letters of credit or approved surety bonds;

(e) Other arrangements the insurance commissioner and certified health plan mutually agree are adequate to assure that benefits are continued.

NEW SECTION. Sec. 442. FINANCIAL FAILURE, SUPERVISION OF COMMISSIONER--PRIORITY OF DISTRIBUTION OF ASSETS. (1) Any rehabilitation, liquidation, or conservation of a certified health plan shall be conducted under the rehabilitation, liquidation, or conservation company and shall be conducted under the supervision of the insurance commissioner under the law governing the rehabilitation, liquidation, or conservation of insurance companies. The insurance commissioner may apply for an order directing the insurance commissioner to rehabilitate, liquidate, or conserve a certified health plan.
plan upon one or more of the grounds set forth in RCW 48.31.030, 48.31.050, and 48.31.080. Enrolled residents shall have the same priority in the event of liquidation or rehabilitation as the law provides to policyholders of an insurer.

(2) For purposes of determining the priority of distribution of general assets, claims of enrolled residents and their dependents shall have the same priority as established by RCW 48.31.280 for policyholders and their dependents of insurance companies. If an enrolled resident is liable to a provider for services under and covered by a certified health plan, that liability shall have the status of an enrolled resident claim for distribution of general assets.

(3) A provider who is obligated by statute or agreement to hold enrolled residents harmless from liability for services provided under and covered by a certified health plan shall have a priority of distribution of the general assets immediately following that of enrolled residents and enrolled residents’ dependents as described in this section, and immediately proceeding the priority of distribution described in RCW 48.31.280(2)(e).

NEW SECTION. Sec. 443. GRIEVANCE PROCEDURE. A certified health plan shall establish and maintain a grievance procedure approved by the commissioner, to provide a reasonable and effective resolution of complaints initiated by enrolled Washington residents concerning any matter relating to the provision of benefits under the uniform benefits package, access to health care services, and quality of services. Each certified health plan shall respond to complaints filed with the insurance commissioner within twenty working days. The insurance commissioner in consultation with the health services commission shall establish standards for grievance procedures and resolution.

NEW SECTION. Sec. 444. EXEMPTION. The provisions of sections 433 through 443 of this act do not apply to any disability insurance company, health care service contractor, or health maintenance organization authorized to do business in Washington.

NEW SECTION. Sec. 445. ENFORCEMENT AUTHORITY OF COMMISSIONER. For the purposes of chapter . . . , Laws of 1993 (this act), the insurance commissioner shall have the same powers and duties of enforcement as are provided in Title 48 RCW.

NEW SECTION. Sec. 446. ANNUAL REPORT BY THE INSURANCE COMMISSIONER TO THE HEALTH SERVICES COMMISSION. Beginning January 1, 1997, the insurance commissioner shall report annually to the health services commission on the compliance of certified health plans and health insurance purchasing cooperatives with the provisions of chapter . . . , Laws of 1993 (this act). The report shall include information on (1) compliance with chapter . . . , Laws of 1993 (this act) open enrollment and antidiscrimination provisions, (2) financial solvency requirements, (3) the mix of enrollee characteristics within and among plans and groups including age, sex, ethnicity, and any easily obtainable information related to medical risk, (4) the geographic distribution of plans and groups, and (5) other information that the commission may request consistent with the goals of chapter . . . , Laws of 1993 (this act).

F. MANAGED COMPETITION AND LIMITED ANTI-TRUST IMMUNITY

NEW SECTION. Sec. 447. MANAGED COMPETITION FINDINGS AND INTENT. (1) The legislature recognizes that competition among health care providers, facilities, payers, and purchasers will yield the best allocation of health care resources, the lowest prices for health care, and the highest quality of health care when there exists a large number of buyers and sellers, easily comparable health care plans and services, minimal barriers to entry and exit into the health care market, and adequate information for buyers and sellers to base purchasing and production decisions. However, the legislature finds that purchasers of health care services and health care coverage do not have adequate information upon which to base purchasing decisions; that health care facilities and providers of health care services face legal and market disincentives to develop economies of scale or to provide the most cost-efficient and efficacious service; that health insurers, contractors, and health maintenance organizations face market disincentives in providing health care coverage to those Washington residents with the most need for health care coverage; and that potential competitors in the provision of health care coverage bear unequal burdens in entering the market for health care coverage.

(2) The legislature therefore intends to exempt from state anti-trust laws, and to provide immunity from federal anti-trust laws through the state action doctrine for activities approved under this chapter that might otherwise be constrained by such laws and intends to displace competition in the health care market: To contain the aggregate cost of health care services; to promote the development of comprehensive, integrated, and cost-effective health care delivery systems through cooperative activities among health care providers and facilities; to promote comparability of health care coverage; to improve the cost-effectiveness in providing health care coverage relative to health promotion, disease prevention, and the amelioration or cure of illness; to assure universal access to a publicly determined, uniform package of health care benefits; and to create reasonable equity in the distribution of funds, treatment, and medical risk among purchasers of health care coverage, payers of health care services, providers of health care services, health care facilities, and Washington residents. To these ends, any lawful action taken pursuant to chapter . . . , Laws of 1993 (this act) by any person or entity created or regulated by chapter . . . , Laws of 1993 (this act) are declared to be taken pursuant to state statute and in furtherance of the public purposes of the state of Washington.

(3) The legislature does not intend and unless explicitly permitted in accordance with section 448 of this act or under rules adopted pursuant to chapter . . . , Laws of 1993 (this act), does not authorize any person or entity to engage in activities or to conspire to engage in activities that would constitute per se violations of state and federal anti-trust laws including but not limited to conspiracies or agreements:

(a) Among competing health care providers not to grant discounts, not to provide services, or to fix the price of their services;

(b) Among certified health plans as to the price or level of reimbursement for health care services;

(c) Among certified health plans to boycott a group or class of health care service providers;

(d) Among purchasers of certified health plan coverage to boycott a particular plan or class of plans;

(e) Among certified health plans to divide the market for health care coverage through the exercise of market power;

(f) Among certified health plans and purchasers to attract or discourage enrollment of any Washington resident or groups of residents in a certified health plan based upon the perceived or actual risk of loss in including such resident or group of residents in a certified health plan or purchasing group.

NEW SECTION. Sec. 448. COMPETITIVE OVERSIGHT AND ANTI-TRUST IMMUNITY. (1) A certified health plan, health care facility, health care provider, or other person involved in the development, delivery, or marketing of health care or
certified health plans may request, in writing, that the commission obtain an informal opinion from the attorney general as to whether particular conduct is authorized by chapter . . ., Laws of 1993 (this act). The attorney general shall issue such opinion within thirty days of receipt of a written request for an opinion or within thirty days of receipt of any additional information requested by the attorney general necessary for rendering an opinion unless extended by the attorney general for good cause shown. If the attorney general concludes that such conduct is not authorized by chapter . . ., Laws of 1993 (this act), the person or organization making the request may petition the commission for review and approval of such conduct in accordance with subsection (3) of this section.

(2) After obtaining the written opinion of the attorney general and consistent with such opinion, the health services commission:

(a) May authorize conduct by a certified health plan, health care facility, health care provider, or any other person that could tend to lessen competition in the relevant market upon a strong showing that the conduct is likely to achieve the policy goals of chapter . . ., Laws of 1993 (this act) and a more competitive alternative is impractical;

(b) Shall adopt rules governing conduct among providers, health care facilities, and certified health plans including rules governing provider and facility contracts with certified health plans, rules governing the use of "most favored nation" clauses and exclusive dealing clauses in such contracts, and rules providing that certified health plans in rural areas contract with a sufficient number and type of health care providers and facilities to ensure consumer access to local health care services;

(c) Shall adopt rules permitting health care providers within the service area of a plan to collectively negotiate the terms and conditions of contracts with a certified health plan including the ability of providers to meet and communicate for the purposes of these negotiations; and

(d) Shall adopt rules governing cooperative activities among health care facilities and providers.

(3) A certified health plan, health care facility, health care provider, or any other person involved in the development, delivery, and marketing of health services or certified health plans may file a written petition with the commission requesting approval of conduct that could tend to lessen competition in the relevant market. Such petition shall be filed in a form and manner prescribed by rule of the commission.

(4) The commission shall issue a written decision approving or denying a petition filed under this section within ninety days of receipt of a properly completed written petition unless extended by the commission for good cause shown. The decision shall set forth findings as to benefits and disadvantages and conclusions as to whether the benefits outweigh the disadvantages.

(5) In authorizing conduct and adopting rules of conduct under this section, the commission with the advice of the attorney general, shall consider the benefits of such conduct in furthering the goals of health care reform including but not limited to:

(a) Enhancement of the quality of health services to consumers;

(b) Gains in cost efficiency of health services;

(c) Improvements in utilization of health services and equipment;

(d) Avoidance of duplication of health services resources; or

(e) And as to subsections (b) and (c) of this subsection: (i) Facilitates the exchange of information relating to performance expectations; (ii) simplifies the negotiation of delivery arrangements and relationships; and (iii) reduces the transactions costs on the part of certified health plans and providers in negotiating more cost effective delivery arrangements.

These benefits must outweigh disadvantages including and not limited to:

(i) Reduced competition among certified health plans, health care providers, or health care facilities;

(ii) Adverse impact on quality, availability, or price of health care services to consumers; or

(iii) The availability of arrangements less restrictive to competition that achieve the same benefits.

(6) With the assistance of the attorney general's office, the commission shall actively supervise any conduct authorized under this section to determine whether such conduct or rules permitting certain conduct should be continued and whether a more competitive alternative is practical. The commission shall periodically review petitioned conduct through, at least, annual progress reports from petitioners, annual or more frequent reviews by the commission that evaluate whether the conduct is consistent with the petition, and whether the benefits continue to outweigh any disadvantages. If the commission determines that the likely benefits of any conduct approved through rule, petition, or otherwise by the commission no longer outweigh the disadvantages attributable to potential reduction in competition, the commission shall order a modification or discontinuance of such conduct. Conduct ordered discontinued by the commission shall no longer be deemed to be taken pursuant to state statute and in the furtherance of the public purposes of the state of Washington.

(7) Nothing contained in chapter . . ., Laws of 1993 (this act) is intended to in any way limit the ability of rural hospital districts to enter into cooperative agreements and contracts pursuant to RCW 70.44.450 and chapter 39.34 RCW.

G. THE UNIFORM BENEFITS PACKAGE

NEW SECTION. Sec. 449. UNIFORM BENEFITS PACKAGE DESIGN. (1) The commission shall define the uniform benefits package, which shall include those health services that, consistent with the goals and intent of chapter . . ., Laws of 1993 (this act), are effective and necessary on a societal basis for the maintenance of the health of citizens of the state, weighed against the need to control state health services expenditures.

(2) The schedule of covered health services shall emphasize proven preventive and primary health care and shall be composed of the following essential health services: (a) Primary and specialty health services; (b) inpatient and outpatient hospital services; (c) prescription drugs and medications; (d) reproductive services; (e) services necessary for maternity and well-child care, including preventive dental services for children; and (f) case-managed chemical dependency, mental health, short-term skilled nursing facility, home health, and hospice services, to the extent that such services reduce inappropriate utilization of more intensive or less efficacious medical services. The commission shall determine the specific schedule of health services within the uniform benefits package, including limitations on scope and duration of services. The schedule shall be the benefit and actuarial equivalent of the schedule of benefits offered by the basic health plan on January 1, 1993, including any additions that may result from the inclusion of the services listed in (c) through (f) of this subsection. The commission shall consider the recommendations of health services effectiveness panels established pursuant to section 404 of this act in defining the uniform benefits package.
(3) The uniform benefits package shall not limit coverage for preexisting or prior conditions, except that the commission shall establish exclusions for preexisting or prior conditions to the extent necessary to prevent residents from waiting until health services are needed before enrolling in a certified health plan.

(4) The commission shall establish enrollee point of service cost-sharing for nonpreventive health services, related to enrollee household income, such that financial considerations are not a barrier to access for low-income persons, but that, for those of means, the uniform benefits package provides for moderate point of service cost-sharing. All point of service cost-sharing and cost control requirements shall apply uniformly to all health care providers providing substantially similar uniform benefits package services. The schedule shall provide for an alternate and lower schedule of cost-sharing applicable to enrollees with household income below the federal poverty level.

(5) The commission shall adopt rules related to coordination of benefits and premium payments. The rules shall not have the effect of eliminating enrollee financial participation. The commission shall endeavor to assure an equitable distribution, among both employers and employees, of the costs of coverage for those households composed of more than one member in the work force.

(6) In determining the uniform benefits package, the commission shall endeavor to seek the opinions of and information from the public. The commission shall consider the results of official public health assessment and policy development activities including recommendations of the department of health in discharging its responsibilities under this section.

(7) The commission shall submit the following to the legislature by December 1, 1994, and by December 1 of the year preceding any year in which the commission proposes to significantly modify the uniform benefits package: (a) The uniform benefits package; and (b) an independent actuarial analysis of the cost of the proposed package, giving consideration to the factors considered under section 406(6) of this act. The commission shall not modify the services included in the uniform benefits package before January 1, 1999.

NEW SECTION. Sec. 450. SMALL BUSINESS ECONOMIC IMPACT STATEMENT. (1) In conjunction with submission of the uniform benefits package as provided in section 449(7) of this act, the commission also shall submit a small business economic impact statement, prepared in consultation with the small business advisory committee. The impact statement shall address the economic impact on businesses with twenty-five or fewer employees of participating in the cost of the uniform benefits package for their employees and employees' dependents. As an aid in preparing the small business economic impact statement, the commission shall conduct a survey of a statistically valid sample of small businesses.

(2) If the small business economic impact statement indicates a need to address the economic consequences of mandating employer participation in the cost of uniform benefits package coverage for employees and their dependents, the commission shall submit proposed strategies to address such consequences. Strategies may include: The level of employer participation in uniform benefits package costs; coverage of dependents; application of the uniform benefits package as the minimum benefits package offered to employees or dependents; and any other strategies deemed appropriate by the commission.

NEW SECTION. Sec. 451. HOUSEHOLD INCOME ANALYSIS. In conjunction with submission of the uniform benefits package as provided in section 449(7) of this act, the commission shall submit an analysis of the impact of employee premium contributions on individuals with household income of less than two hundred percent of the federal poverty level. The analysis shall include estimates of the cost of varying levels of premium subsidies for these individuals and their families.

NEW SECTION. Sec. 452. CERTIFIED HEALTH PLAN BENEFIT PACKAGES--OFFERING, FILING, AND APPROVAL OF FORMS. No uniform benefits package or supplemental benefits may be offered, delivered, or issued for delivery to any person in this state unless it otherwise complies with chapter 48, Laws of 1993 (this act), and complies with the following:

(1) All certified health plan forms for uniform and supplemental benefits issued by the plan to enrollees and such other marketing documents purporting to describe the plan's benefits shall comply with the minimum standards the commissioner deems reasonable and necessary to carry out the purposes and provisions of this chapter and consistent with health services commission standards. The plan's forms and documents shall fully inform enrollees of the health services to which they are entitled, and shall fully disclose any limitations, exclusions, rights, responsibilities, and duties required of either the enrollee or the certified health plan. No form or document may be issued, delivered, or issued for delivery unless it has been filed with and approved by the commissioner.

(2) Every form or document filing containing a certification, in a manner approved by the commissioner, by either the chief executive officer of the plan or by an actuary who is a member of the American academy of actuaries, attesting that the filing complies with Title 48 RCW, Title 284 WAC, and this chapter, may be used by such certified health plan immediately after filing with the commissioner. The commissioner may order a plan to cease using a certified form or document upon the grounds set forth in subsection (6) of this section.

(3) Every filing that does not contain a certification pursuant to subsection (2) of this section shall be made not less than thirty days in advance of any such issuance, delivery, or use. At the expiration of such thirty days the form or document filed shall be deemed approved unless affirmatively approved or disapproved by the commissioner within the thirty-day period. The commissioner may extend by not more than an additional fifteen days the period within which the commissioner may review such filing, by notifying the plan of the extension before expiration of the initial thirty-day period. At the expiration of any extension period and in the absence of prior affirmative approval or disapproval, any such form or document shall be deemed approved. The commissioner may withdraw approval at any time for cause. By approval of any filing for immediate use, the commissioner may waive any unexpired portion of the initial thirty-day waiting period.

(4) Whenever the commissioner disapproves a filing or withdraws a previous approval, the commissioner shall state the grounds for disapproval.

(5) The commissioner may exempt from the requirements of this section any plan document or form that, in the commissioner's opinion, may not practically be applied to, or the filing and approval of which are, in the commissioner's opinion, not desirable or necessary for the protection of the public.

(6) The commissioner shall disapprove any form or document or shall withdraw any previous approval, only:

(a) If it is in any respect in violation of or does not comply with Title 48 RCW, Title 284 WAC, and this chapter, or any applicable rule or order of the commissioner;

(b) If it does not comply with any controlling filing previously made and approved;

(c) If it contains or incorporates by reference any inconsistent, ambiguous, or misleading clauses, or exceptions and conditions that unreasonably or deceptively affect the health services purported to be offered or provided;
(d) If it has any title, heading, or other indication of its provisions that is misleading;
(e) If purchase of health services under the form or document is being solicited by deceptive advertising; or
(f) If the health service benefits provided in the form or document are unreasonable in relation to the premium charged.

NEW SECTION. Sec. 453. UNIFORM AND SUPPLEMENTAL BENEFITS—RATES—FILING AND APPROVAL. (1)
Premium rates for uniform benefits package and supplemental benefits shall not be excessive or inadequate, and shall not discriminate in a manner prohibited by section 428(3) of this act. Premium rates, enrollee point of service cost-sharing, or maximum enrollee financial participation amounts for a uniform benefits package may not exceed the limits established by the health services commission in accordance with section 406 of this act. Premium rates for uniform benefits package and supplemental benefits shall be developed on a community-rated basis as determined by the health services commission.

(2) Prior to using, every certified health plan shall file with the commissioner its enrollee point of service, cost-sharing amounts, enrollee financial participation amounts, rates, its rating plan, and any other information used to determine the specific premium to be charged any enrollee and every modification of any of the foregoing.

(3) Every such filing shall indicate the type and extent of the health services contemplated and must be accompanied by sufficient information to permit the commissioner to determine whether it meets the requirements of this chapter. A plan shall offer in support of any filing:
   (a) Any historical data and actuarial projections used to establish the rate filed;
   (b) An exhibit detailing the major elements of operating expense for the types of health services affected by the filing;
   (c) An explanation of how investment income has been taken into account in the proposed rates;
   (d) Any other information that the plan deems relevant; and
   (e) Any other information that the commissioner requires by rule.

(4) If a plan has insufficient loss experience to support its proposed rates, it may submit loss experience for similar exposures of other plans within the state.

(5) Every filing shall state its proposed effective date.

(6) Actuarial formulas, statistics, and assumptions submitted in support of a rate or form filing by a plan or submitted to the commissioner at the commissioner’s request shall be withheld from public inspection in order to preserve trade secrets or prevent unfair competition.

(7) No plan may make or issue a benefits package except in accordance with its filing then in effect.

NEW SECTION. Sec. 454. The legislature may disapprove of the uniform benefits package developed under section 449 of this act and medical risk adjustment mechanisms developed under section 406(7) of this act by an act of law at any time prior to the thirtieth day of the following regular legislative session. If such disapproval action is taken, the commissioner shall notify the plan of the reasons for disapproval and the commissioner shall resubmit the filing for approval within fifteen days of the commissioner’s notice.

(8) The commissioner shall review a filing as soon as reasonably possible after made, to determine whether it meets the requirements of this section.

(9)(a) No filing may become effective within thirty days after the date of filing with the commissioner, which period may be extended by the commissioner for an additional period not to exceed fifteen days if the commissioner gives notice within such waiting period to the plan that the commissioner needs additional time to consider the filing.
   (b) A filing shall be deemed to meet the requirements of this section unless disapproved by the commissioner within the waiting period or any extension period.
   (c) If within the waiting or any extension period, the commissioner finds that a filing does not meet the requirements of this section, the commissioner shall disapprove the filing, shall notify the plan of the grounds for disapproval, and shall prohibit the use of the disapproved filing.

(10) If at any time after the applicable review period provided in this section, the commissioner finds that a filing does not meet the requirements of this section, the commissioner shall, after notice and hearing, issue an order specifying in what respect the commissioner finds that such filing fails to meet the requirements of this section, and stating when, within a reasonable period thereafter, the filings shall be deemed no longer effective.

The order shall not affect any benefits package made or issued prior to the expiration of the period set forth in the order.

NEW SECTION. Sec. 455. SUPPLEMENTAL AND ADDITIONAL BENEFITS NEGOTIATION. (1) Nothing in chapter . . . Laws of 1993 (this act) shall preclude insurers, health care service contractors, health maintenance organizations, or certified health plans from insuring, providing, or contracting for benefits not included in the uniform benefits package or in supplemental benefits.

(2) Nothing in chapter . . . Laws of 1993 (this act) shall restrict the right of an employer to offer, an employee representative to negotiate for, or an individual to purchase supplemental or additional benefits not included in the uniform benefits package.

NEW SECTION. Sec. 457. LONG-TERM CARE INTEGRATION PLAN. (1) To meet the health needs of the residents of Washington state, it is critical to finance and provide long-term care and support services through an integrated, comprehensive system that promotes human dignity and recognizes the individuality of all functionally disabled persons. This system shall be available, accessible, and responsive to all residents based upon an assessment of their functional disabilities. The governor and the legislature recognize that families, volunteers, and community organizations are essential for the delivery of effective and efficient long-term care and support services, and that this private and public service infrastructure should be supported and strengthened. Further, it is important to provide benefits without requiring family or program beneficiary impoverishment for service eligibility.

(2) To realize the need for a strong long-term care system and to carry out the November 30, 1992, final recommendations of the Washington health care cost control and access commission, established under House Concurrent Resolution No. 4443, adopted by the legislature in 1990, related to long-term care, the commission shall:

The commission, in coordination with the appropriate agencies and departments, shall establish a Washington life care benefits package that shall include the uniform benefits package established in chapter . . . , Laws of 1993 (this act) and long-term care services. The Washington life care benefits package shall include, but not be limited to, the following long-term care services: Case management, intake and assessment, nursing home care, adult family home care, home health and home health aide care, hospice, chore services/homemaker/personal care, adult day care, respite care, and appropriate social services. This program must allow for the exclusion of an individual’s assets, as approved by the federal health care financing administration, in a determination of the individual’s eligibility for medicaid; the amount of any medicaid payment; or any subsequent recovery by the state for a payment for medicaid services to the extent such assets are protected by a long-term care insurance policy or contract governed by chapter 48.84 RCW and meeting the criteria prescribed in this chapter.

NEW SECTION. Sec. 459. WASHINGTON LONG-TERM CARE PARTNERSHIP. The department of social and health services shall seek approval and a waiver of appropriate federal medicaid regulations to allow the protection of an individual’s assets as provided in this chapter. The department shall adopt all rules necessary to implement the Washington long-term care partnership program, which rules shall permit the exclusion of an individual’s assets in a determination of medicaid eligibility to the extent that private long-term care insurance provides payment or benefits for services that medicaid would approve or cover for medicaid recipients.
NEW SECTION. Sec. 460. WASHINGTON LONG-TERM CARE PARTNERSHIP. (1) The insurance commissioner shall adopt rules defining the criteria that long-term care insurance policies must meet to satisfy the requirements of this chapter. The rules shall provide that all long-term care insurance policies purchased for the purposes of this chapter:

(b) Provide coverage for home and community-based services and nursing home care;
(c) Provide automatic inflation protection or similar coverage to protect the policyholder from future increases in the cost of long-term care;
(d) Not require prior hospitalization or confinement in a nursing home as a prerequisite to receiving long-term care benefits; and

This participation requirement shall be waived if imposition of the requirement would constitute a violation of the freedom of religion provisions set forth in the First Amendment, United States Constitution or Article I, section 11 of the state Constitution. Residents of the state of Washington who work in another state for an out-of-state employer shall be deemed to have satisfied the requirements of this section if they receive health insurance coverage through such employer.
(2) The commission shall monitor the enrollment of individuals into certified health plans and shall make public periodic reports concerning the number of persons enrolled and not enrolled, the reasons why individuals are not enrolled, recommendations to reduce the number of persons not enrolled, and recommendations regarding enforcement of this provision.

NEW SECTION. Sec. 464. EMPLOYER PARTICIPATION. (1) The legislature recognizes that small businesses play an essential and increasingly important role in the state’s economy. The legislature further recognizes that many of the state’s small business owners provide health insurance to their employees through small group policies at a cost that directly affects their profitability. Other small business owners are prevented from providing health benefits to their employees by the lack of access to affordable health insurance coverage. The legislature intends that the provisions of chapter . . ., Laws of 1993 (this act) make health insurance more available and affordable to small businesses in Washington state through strong cost control mechanisms and the option to purchase health benefits through the basic health plan, the Washington state group purchasing association, and health insurance purchasing cooperatives.
(2) On July 1, 1995, every employer employing more than five hundred qualified employees shall:
(a) Offer a choice of the uniform benefits package as provided by at least three available certified health plans, one of which shall be the lowest cost available package within their geographic region, and for employers who have established a registered employer health plan, one of which may be its own registered employer health plan, to all qualified employees. The employer shall be required to pay no less than fifty percent of the premium cost of the lowest cost available package within their geographic region. (c) If an employee under (b) of this subsection is the dependent of a qualified employee, and is therefore covered as a dependent by the qualified employee's employer, then the employer of the employee under (b) of this subsection shall not be required to participate in the cost of the uniform benefits package for that employee.

(d) If an employee working on a seasonal basis is a qualified employee of another employer, and therefore has uniform benefits package coverage through that primary employer, then the seasonal employer of the employee shall not be required to participate in the cost of the uniform benefits package for that employee.

(3) By July 1, 1996, every employer employing more than one hundred qualified employees shall:

(a) Offer a choice of the uniform benefits package as provided by at least three available certified health plans, one of which shall be the lowest cost available package within their geographic region, to all qualified employees. (c) If an employee under (b) of this subsection is the dependent of a qualified employee, and is therefore covered as a dependent by the qualified employee's employer, then the employer of the employee under (b) of this subsection shall not be required to participate in the cost of the uniform benefits package for that employee.

(d) If an employee working on a seasonal basis is a qualified employee of another employer, and therefore has uniform benefits package coverage through that primary employer, then the seasonal employer of the employee shall not be required to participate in the cost of the uniform benefits package for that employee.

(4) By July 1, 1997, every employer shall:

(a) Offer a choice of the uniform benefits package as provided by at least three available certified health plans, one of which shall be the lowest cost available package within their geographic region, to all qualified employees. The employer shall be required to pay no less than fifty percent of the premium cost of the lowest cost available package within their geographic region. On July 1, 1998, all dependent of qualified employees in all firms shall be offered a choice of packages as provided in this section with the employer paying no less than fifty percent of the premium of the lowest cost package within their geographic region.

(5) This employer participation requirement shall be waived if imposition of the requirement would constitute a violation of the freedom of religion provisions of the First Amendment of the United States Constitution. In such case the employer shall, pursuant to commission rules, set aside an amount equal to the applicable employer contribution level in a manner that would permit his or her employee to fully comply with the requirements of this chapter.

(6) In lieu of offering the uniform benefits package to employees and their dependents through direct contracts with certified health plans, an employer may combine the employer contribution with that of the employee's contribution and enroll in the basic health plan as provided in chapter 70.47 RCW or a health insurance purchasing cooperative established under sections 427 and 428 of this act.

NEW SECTION. Sec. 465. DEPOSITORY. (1) The health care authority shall establish a depository where payments under section 464 of this act can be made and held in safekeeping for the benefit of employees working less than the number of hours worked by a qualified employee.

(2) The authority shall adopt appropriate rules for operation of the depository, in consultation with representatives of employees and employers, especially those that are seasonal or employ large numbers of part-time workers. The study shall include a review of options and recommendations for modifying the industrial insurance system to provide medical services for injured workers in a more cost-effective manner under a consolidated system, and may include consideration of the purchase of industrial insurance medical benefits through the health care authority or the inclusion of industrial insurance medical benefits in the services offered by certified health plans or other appropriate options. The commission should also give consideration to at least the following issues: The use of managed care and the effect of managed care options on the injured workers’ choice of health services provider; the potential cost savings or other impacts of various consolidation options; the benefit structure required under industrial insurance; the potential for consolidation to meet or exceed existing medical cost management of the medical aid fund; the impact of separating the medical management of claims from the disability management of claims; the relationship between return-to-work efforts, medical services, and disability prevention; the relationship between medical services and rehabilitation services; and the effects of the quasi-judicial system that determines industrial insurance rights and obligations. In addition, the final report shall include a proposed plan and timeline for including the medical benefits of the industrial insurance system in the services offered by certified health plans. The proposed plan shall assure that:

(1) The plan shall not take effect until at least ninety-seven percent of state residents have access to the uniform benefits package as required in chapter ..., Laws of 1993 (this act);
(2) The uniform benefits package of the certified health plan will provide benefits for injured workers that are at least equivalent to the medical benefits provided to injured workers under Title 51 RCW as determined by the department of labor and industries as of the effective date of the plan, including payments for services that are ancillary to industrial insurance medical benefits, such as but not limited to medical examinations for permanent disabilities;
(3) Other nonmedical benefits required to be provided under Title 51 RCW, such as but not limited to total or partial disability benefits or vocational rehabilitation benefits, are not affected;
(4) Employers who do not choose to become certified health plans under chapter ..., Laws of 1993 (this act), will continue to be required to provide industrial insurance medical benefits under Title 51 RCW;
(5) Employees participating in the plan shall not be required to pay deductibles, copayments, or other point of service charges for services related to industrial insurance injuries or diseases, such costs to be paid by the department of labor and industries or self-insured employer, as applicable;
(6) The plan includes a mechanism to return to workers and employers, in equal shares, any savings that are realized in the costs of medical services for injured workers, as identified by the department of labor and industries;
(7) The majority of the employer’s employees or, if the employees are represented for collective bargaining purposes, the exclusive bargaining representative voluntarily agree to the employer’s participation in the plan.

NEW SECTION. Sec. 486. MANAGED CARE PILOT PROJECTS. (1) The department of labor and industries, in consultation with the workers’ compensation advisory committee, may conduct pilot projects to purchase medical services for injured workers through managed care arrangements. The projects shall assess the effects of managed care on the cost and quality of, and employer and employee satisfaction with, medical services provided to injured workers.

(2) The pilot projects may be limited to specific employers. The implementation of a pilot project shall be conditioned upon a participating employer and a majority of its employees, or, if the employees are represented for collective bargaining purposes, the exclusive bargaining representative, voluntarily agreeing to the terms of the pilot. Unless the project is terminated by the department, both the employer and employees are bound by the project agreements for the duration of the project.

(3) Solely for the purpose and duration of a pilot project, the specific requirements of Title 51 RCW that are identified by the department as otherwise prohibiting implementation of the pilot project shall not apply to the participating employers and employees to the extent necessary for conducting the project. Managed care arrangements for the pilot projects may include the designation of doctors responsible for the care delivered to injured workers participating in the projects.

(4) The projects shall conclude no later than January 1, 1996. The department shall present the results of the pilot projects and any recommendations related to the projects to the governor and appropriate committees of the legislature on or before October 1, 1996.

POINT OF ORDER

Senator Newhouse: "A point of order, Mr. President. I wish to raise the point of order that this Conference Committee Report expands the scope and object of the basic bill, Senate Bill No. 5304, as it passed the Senate. This may be more of an indictment or a criticism of our system than of the bill itself, but when we passed Senate Bill No. 5304 out of here all of these many weeks ago, it did not have Section 424 and related sections amending the joint and several provisions of our, so called, Tort Reform Law of 1986. I do admit that the House version, as passed the House, did have that provision in it.

"My claim is that we never had an opportunity to raise the scope and object of those issues added into the basic bill, Senate Bill No. 5304, and that we should have had. It is the practice of this body that the scope and object of every bill may be checked and we didn't have an opportunity. We find that in the House, with the large striking amendment, they didn't even print a reproduction of the amendment that day or the following day. In fact, up until yesterday, those amendments were to be in the books up at the head of our Chamber, they were not and probably still are not.

"We did not realize that those sections were in that bill. That is an invasion of our rights and provisions of how we should proceed here. I think that we should have an opportunity to raise the scope and object when issues are added and an amendment by four attorneys on a conference committee that the rest of us knew nothing about and we were not advised as to what was in them."

Further debate ensued.

RULING BY THE PRESIDENT

President Pritchard: "The President rules that the long standing precedent in the Senate to the question of scope and object of a House amendment to a Senate Bill must be raised prior to the bill being sent to conference. Much of what you said in criticism of the process, I would agree with you, Senator, but I think that is our precedent and has been our ruling and the President is going to stick with it."

The Report of the Conference Committee on Engrossed Second Substitute Senate Bill No. 5304 was ruled in order.

POINT OF INFORMATION

Senator Newhouse: "As a point of information, Mr. President, when could any member of the Senate have raised the scope and object of that amendment before us? I contend that we could not have."

REPLY BY THE PRESIDENT

President Pritchard: "On April 9, approximately at 3 o'clock, the motion to not concur and request for conference was made. The following occurred:

"President Pritchard: Fourth order, Message from the House, secretary will read."
SECRETARY: Message from the House, April 9, 1993, Mr. President, the House has passed Engrossed Second Substitute Senate Bill No. 5304 with the following amendment(s):

PRESIDENT PRITCHARD: Do you want to read the amendments? Last line.

SECRETARY: January 1, 1996.

PRESIDENT PRITCHARD: Senator Talmadge, and he moved at that time and that would have been the time.

SENATOR NEWHOUSE: "The motion was do not concur with the House amendment(s) and the opportunity was never granted. You recognized, sir, the chairman of the committee and no one else had an opportunity."

PRESIDENT PRITCHARD: "I believe if you would have stood up at that time, I would have--I will agree that the process is very difficult at that time and we probably should look at this and see if we have a better way to do it."

MOTION

Senator Talmadge moved that the Report of the Conference Committee on Engrossed Second Substitute Senate Bill No. 5304 be adopted.

Debate ensued.

The President declared the question before the Senate to be the motion by Senator Talmadge that the Senate adopt the Report of the Conference Committee on Engrossed Second Substitute Senate Bill No. 5304.

The motion by Senator Talmadge carried and the Report of the Conference Committee on Engrossed Second Substitute Senate Bill No. 5304 was adopted.

The President declared the question before the Senate to be the roll call on the final passage of Engrossed Second Substitute Senate Bill No. 5304, as recommended by the Conference Committee.

Debate ensued.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Second Substitute Senate Bill No. 5304, as recommended by the Conference Committee, and the bill passed the Senate by the following vote: Yeas, 28; Nays, 21; Absent, 0; Excused, 0.

Voting yea: Senators Bauer, Drew, Franklin, Fraser, Gaspard, Hargrove, Haugen, Jesernig, McAuliffe, Moore, Moyer, Niemi, Pelz, Prentice, Quigley, Rasmussen, M., Rinehart, Sheldon, Skratek, Smith, A., Snyder, Spavel, Sutherland, Talmadge, Vognild, Williams, Winsley and Wojahn - 28.

ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5304, as recommended by the Conference Committee, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

DISPENSE WITH CALL OF THE SENATE

The Call of the Senate was dispensed with on motion of Senator Jesernig.

MOTION

At 2:29 p.m., on motion of Senator Jesernig, the Senate recessed until 4:00 p.m.

The Senate was called to order at 4:12 p.m. by President Pritchard.

MESSAGES FROM THE HOUSE

MR. PRESIDENT:
The House has passed SENATE BILL NO. 5474 with the following amendment(s):
On page 3, after line 32, strike everything through "chapter 19.86 RCW." on page 4, line 6 and insert the following subsection:
"(3) (Notwithstanding any other provisions of this chapter, any act) Except for any unfair practice committed by an employer against an employee or a prospective employee, or any unfair practice in a real estate transaction which is the basis for relief specified in the amendments to RCW 49.60.225 contained in chapter . . . (House Bill 1476 section 9) Laws of 1993, any unfair practice prohibited by this chapter (related to sex discrimination or discriminatory boycotts or blacklists) which is committed in the course of trade or commerce (in the state of Washington) as defined in the Consumer Protection Act, chapter 19.86 RCW, (shall be deemed an unfair practice within the meaning of RCW 19.86.020 and 19.86.030 and subject to all the provisions of chapter 19.86 RCW as now or hereafter amended) is, for the purpose of applying that chapter, a matter affecting the public interest, is not reasonable in relation to the development and preservation of business, and is an unfair or deceptive act in trade or commerce.
"
On page 5, line 34, after "institution" insert "; nor shall anything contained in this definition apply to any newspaper or other advertising media when selling or publishing advertisements;"

(1) For purposes of the term “disability” as used in this chapter, homosexuality and bisexuality are not impairments and as such are not disabilities under this act. Under this chapter, the term “disability” shall not include:
(a) Transvestism, transsexualism, pedophilia, exhibitionism, voyeurism, gender identity disorders not resulting from physical impairments, or other sexual behavior disorders;
(b) Compulsive gambling, kleptomania, or pyromania; or
(c) Psychoactive substance use disorders resulting from current illegal use of drugs.
(2) (a) For purposes of this chapter, a person who is currently engaging in the illegal use of drugs, when the covered entity acts on the basis of such use, shall not be considered to have a disability.

(i) Has successfully completed a supervised drug rehabilitation program and is no longer engaging in the illegal use of drugs, or has otherwise been rehabilitated successfully and is no longer engaging in such use;

(ii) Is participating in a supervised rehabilitation program and is no longer engaging in such use; or

(iii) Is erroneously regarded as engaging in such use, except that it shall not be a violation of this chapter for a covered entity to adopt or administer reasonable policies or procedures, including but not limited to drug testing, designed to ensure that an individual described in (b) (i) or (ii) of this subsection is no longer engaging in the illegal use of drugs; however, nothing in this section may be construed to encourage, prohibit, restrict, or authorize the conducting of testing for the illegal use of drugs.”

On page 18, line 8, after “frivolous” strike “((a)) or unreasonable ((groundless))” and insert “, unreasonable, or groundless”, and the same are herewith transmitted.

ALAN THOMPSON, Chief Clerk

MOTION

Senator Adam Smith moved that the Senate concur in the House amendments on page 3, after line 32; page 5, line 34, page 18, line 8; and refuse to concur in the House amendment on page 6, after line 15, to Senate Bill No. 5474.

POINT OF ORDER

Senator Nelson: “Mr. President, I rise to a point of order. I would ask the President to rule on the scope and object of the amendment on page 5, line 34, which has been moved for concurrence and ask that the President review this particular amendment, since it is new to the bill, Senate Bill No. 5474. The original bill dealt, primarily, with language that was intended to update the Human Rights Commission definitions and make some limited changes. Now, we have an amendment that brings in advertising media. There wasn’t anything in the original bill that dealt with media, accommodations, amusement or anything like that. I believe that the amendment is out of order.”

RULING BY THE PRESIDENT

President Pritchard: “In ruling upon the point order raised by Senator Nelson, the President finds that Senate Bill No. 5474 is a measure which changes the definitions of physical disability and age, and expands the unfair practices under the law against discrimination which are subject to the Consumer Protection Act. The bill also increases the administrative penalty for humiliation and mental suffering associated with unfair practices.

“The amendment on page 5, line 34, by the House of Representatives would, among other provisions, expressly remove newspapers and advertising media from the definition of public resort, accommodation, assemblage, or amusement.

“The President, therefore, finds that the proposed amendment does change the scope and object of the bill and the point of order is well taken.”

The House amendment on page 5, line 34, to Senate Bill No. 5474 was ruled out of order.

MOTION

Senator Adam Smith moved that the Senate refuse to concur in the remaining House amendment(s) to Senate Bill No. 5474 and asks the House to recede therefrom.

MOTION

Senator Nelson moved that the question be divided and that the Senate do concur in the House amendment on page 6, line 15, to Senate Bill No. 5474.

MOTION

On motion of Senator Jesernig, further consideration of Senate Bill No. 5474 was deferred.

REPORT OF CONFERENCE COMMITTEE

SHB 1069 April 22, 1993

Providing for seizure of property involved in a felony

MR. PRESIDENT:

MR. SPEAKER:

We of your CONFERENCE COMMITTEE, to whom was referred SUBSTITUTE HOUSE BILL NO. 1069, Seizure of property, have had the same under consideration and we recommend that:

The Senate Committee on Law and Justice amendment(s) adopted as amended on April 12, 1993, not be adopted, and that the following Conference Committee striking amendments be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. This chapter does not apply to property subject to forfeiture under chapter 66.32 RCW, RCW 69.50.505, 9.41.098, 9.46.230, 9A.82.100, 9A.83.030, 7.48.090, or 77.12.101.

NEW SECTION. Sec. 2. (1) The following are subject to seizure and forfeiture and no property right exists in them: All personal property, including, but not limited to, any item, object, tool, substance, device, weapon, machine, vehicle of any kind, money, security, or negotiable instrument, which has been or was actually employed as an instrumentality in the commission of, or in aiding or abetting in the commission of any felony, or which was furnished or was intended to be furnished by any person in the commission of, as a result of, or as compensation for the commission of, any felony, or which was acquired in whole or in part with proceeds traceable to the commission of a felony. No property may be forfeited under this section until after there has been a superior court conviction of the owner of the property for the felony in connection with which the property was employed, furnished, or acquired.

A forfeiture of property encumbered by a bona fide security interest is subject to the interest of the secured party if the time the security interest was created, the secured party neither had knowledge of nor consented to the commission of the felony.

(2) Personal property subject to forfeiture under this chapter may be seized by any law enforcement officer of this state upon process issued by any superior court having jurisdiction over the property. Seizure of personal property without process may be made if:

(a) The seizure is incident to an arrest or a search under a search warrant;

(b) The property subject to seizure has been the subject of a prior judgment in favor of the state in a criminal injunction or forfeiture proceeding;

(c) A law enforcement officer has probable cause to believe that the property is directly dangerous to health or safety; or

(d) The law enforcement officer has probable cause to believe that the property was used or is intended to be used in the commission of a felony.

(3) In the event of seizure pursuant to this section, proceedings for forfeiture shall be deemed commenced by the seizure. The law enforcement agency under whose authority the seizure was made shall cause notice to be served within fifteen days following the seizure on the owner of the property seized and the person in charge thereof and any person having any known right or interest therein, including any community property interest, of the seizure and intended forfeiture of the seized property. The notice of seizure may be served by any method authorized by law or court rule including but not limited to service by certified mail with return receipt requested. Service by mail shall be deemed complete upon mailing within the fifteen day period following the seizure. Notice of seizure in the case of property subject to a security interest that has been perfected by filing a financing statement in accordance with chapter 62A.9 RCW, or a certificate of title shall be made by service upon the secured party to the secured party's assignee at the address shown on the financing statement or the certificate of title.

(4) If no person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of items specified in subsection (1) of this section within forty-five days of the seizure, the item seized shall be deemed forfeited.

(5) If a person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of the seized property within forty-five days of the seizure, the law enforcement agency shall give the person or persons a reasonable opportunity to be heard as to the claim or right. The hearing shall be before the chief law enforcement officer of the seizing agency or the chief law enforcement officer's designee, except where the seizing agency is a state agency as defined in RCW 34.12.020(4), the hearing shall be before the chief law enforcement officer of the seizing agency or an administrative law judge appointed under chapter 34.12 RCW, except that any person asserting a claim or right may remove the matter to a court of competent jurisdiction. Removal may only be accomplished according to the rules of civil procedure. The person seeking removal of the matter must serve process against the state, county, political subdivision, or municipality that operates the seizing agency, and any other party of interest, in accordance with RCW 4.28.080 or 4.92.020, within forty-five days after the person seeking removal has notified the seizing law enforcement agency of the person's claim of ownership or right to possession. The court to which the matter is to be removed shall be the district court when the aggregate value of the property is within the jurisdictional limit set forth in RCW 3.66.020. A hearing before the seizing agency and any appeal therefrom shall be under Title 34 RCW. In a court
hearing between two or more claimants to the property involved, the prevailing party shall be entitled to a judgment for costs and reasonable attorney's fees. The burden of producing evidence shall be upon the person claiming to be the lawful owner or the person claiming to have the lawful right to possession of the property. The seizing law enforcement agency shall promptly return the property to the claimant upon a determination by the administrative law judge or court that the claimant is the present lawful owner or is lawfully entitled to possession of the property.

(6) When property is forfeited under this chapter, after satisfying any court-ordered victim restitution, the seizing law enforcement agency may:
   (a) Retain it for official use or upon application by any law enforcement agency of this state release such property to such agency for the exclusive use of enforcing the criminal law.
   (b) Sell that which is not required to be destroyed by law and which is not harmful to the public.
   (7) By January 31st of each year, each seizing agency shall remit to the state treasurer an amount equal to ten percent of the net proceeds of any property forfeited during the preceding calendar year. Money remitted shall be deposited in the public safety and education account.

   (a) The net proceeds of forfeited property is the value of the forfeitable interest in the property after deducting the cost of satisfying any bona fide security interest to which the property is subject at the time of seizure; and in the case of sold property, after deducting the cost of sale, including reasonable fees or commissions paid to independent selling agents.
   (b) The value of sold forfeited property is the sale price. The value of retained forfeited property is the fair market value of the property at the time of seizure, determined when possible by reference to an applicable commonly used index, such as the index used by the department of licensing for valuation of motor vehicles. A seizing agency may use, but need not use, an independent qualified appraiser to determine the value of retained property. If an appraiser is used, the value of the property appraised is net of the cost of the appraisal. The value of destroyed property and retained firearms or illegal property is zero.
   (c) Retained property and net proceeds not required to be paid to the state treasurer, or otherwise required to be spent under this section, shall be retained by the seizing law enforcement agency exclusively for the expansion and improvement of law enforcement activity. Money remitted may not be used to supplant preexisting funding sources.

NEW SECTION, Sec. 3. The legislature finds compelling state interests in compensating the victims of crime and in preventing criminals from profiting from their crimes. Sections 4 through 7 of this act are intended to advance both of these interests.

NEW SECTION, Sec. 4. The following are subject to seizure and forfeiture and no property right exists in them:

   (1) All tangible or intangible property, including any right or interest in such property, acquired by a person convicted of a crime for which there is a victim of the crime and to the extent the acquisition is the direct or indirect result of the convicted person having committed the crime. Such property includes but is not limited to the convicted person's remuneration for, or contract interest in, any reenactment or depiction of the crime in a movie, book, magazine, newspaper or other publication, audio recording, radio or television presentation, live entertainment of any kind, or any expression of the convicted person's thoughts, feelings, opinions, or emotions regarding the crime.

   (2) Any property acquired through the traceable proceeds of property described in subsection (1) of this section.

NEW SECTION, Sec. 5. (1) Any property subject to seizure and forfeiture under section 4 of this act may be seized by the prosecuting attorney of the county in which the convicted person was convicted upon process issued by any superior court having jurisdiction over the property.

   (2) Proceedings for forfeiture are commenced by a seizure. Seizure of real property shall include the filing of a lis pendens by the seizing agency. Real property seized under this section shall not be transferred or otherwise conveyed until ninety days after seizure or until a judgment of forfeiture is entered, whichever is later, except that such real property seized may be transferred or conveyed to any person or entity who acquires title by foreclosure or deed in lieu of foreclosure of a security interest.

   (3) The prosecuting attorney who seized the property shall cause notice to be served within fifteen days following the seizure on the owner of the property seized and the person in charge thereof and any person having any known right or interest therein, including any community property interest, of the seizure and intended forfeiture of the seized property. Service of notice of seizure of personal property shall be made according to the rules of civil procedure. However, the state may not obtain a default judgment with respect to real property against a party who is served by substituted service absent an affidavit stating that a good faith effort has been made to ascertain if the defaulted party is incarcerated within the state, and that there is no present basis to believe that the party is incarcerated within the state. The notice of seizure in other cases may be served by any method authorized by law or court rule including but not limited to service by certified mail with return receipt requested. Service by mail shall be deemed complete upon mailing within the fifteen-day period following the seizure. Notice of seizure in the case of property subject to a security interest that has been perfected by filing a financing statement in accordance with chapter 62A.9 RCW, or a certificate of title, shall be made by service upon the secured party to the secured party's assignee at the address shown on the financing statement or the certificate of title.

   (4) If no person notifies the seizing prosecuting attorney in writing of the person's claim of ownership or right to possession of the property within forty-five days for personal property or ninety days for real property, the property seized shall be deemed forfeited.

   (5) If any person notifies the seizing prosecuting attorney in writing of the person's claim of ownership or right to possession of the property within forty-five days for personal property or ninety days for real property, the person or persons shall be afforded a reasonable opportunity to be heard as to the claim or right. The prosecuting attorney shall file the case into a court of competent jurisdiction. In a court hearing between two or more claimants to the article or articles involved, the prevailing party shall be entitled to a judgment for costs and reasonable attorneys' fees. In cases involving personal property, the burden of producing evidence shall be by a preponderance and upon the person claiming to be the lawful owner or the person claiming to have the lawful right to possession of the property. In cases involving real property, the burden of producing evidence shall be by a preponderance and upon the prosecuting attorney. The seizing prosecuting attorney shall promptly return the property to the claimant upon a determination by the prosecuting attorney or court that the claimant is the present lawful owner or is lawfully entitled to possession of the property.

   (6) Upon the entry of an order of forfeiture of real property, the court shall forward a copy of the order to the county auditor of the county in which the property is located. Orders for the forfeiture of real property shall be entered by the superior court, subject to court rules.
A forfeiture action under this section may be brought at any time from the date of conviction until the expiration of the statutory maximum period of incarceration that could have been imposed for the crime involved.

A forfeiture of property encumbered by a bona fide security interest is subject to the interest of the secured party if at the time the security interest was created, the secured party did not know that the property was subject to seizure and forfeiture.

NEW SECTION. Sec. 6. (1) The proceeds of any forfeiture action brought under section 5 of this act shall be distributed as follows:

(a) First, to the victim or to the plaintiff in a wrongful death action brought as a result of the victim’s death, to satisfy any money judgment against the convicted person, or to satisfy any restitution ordered as part of the convicted person’s sentence;

(b) Second, to the reasonable legal expenses of bringing the action;

(c) Third, to the crime victims’ compensation fund under RCW 7.68.090.

(2) A court may establish such escrow accounts or other arrangements as it deems necessary and appropriate in order to distribute proceeds in accordance with this section.

NEW SECTION. Sec. 7. (1) Any action taken by or on behalf of a convicted person including but not limited to executing a power of attorney or creating a corporation for the purpose of defeating the provisions of sections 3 through 6 of this act is null and void as against the public policy of this state.

(2) Sections 3 through 6 of this act are supplemental and do not limit rights or remedies otherwise available to the victims of crimes and do not limit actions otherwise available against persons convicted of crimes.

NEW SECTION. Sec. 8. (1) Sections 1 and 2 of this act shall constitute a new chapter in Title 10 RCW.

(2) Sections 3 through 7 of this act are each added to chapter 7.68 RCW; and adding a new chapter to Title 10 RCW.

On page 1, line 1 of the title, after “victims;” strike the remainder of the title and insert “adding new sections to chapter 7.68 RCW; and adding a new chapter to Title 10 RCW;” and that the bill do pass as recommended by the Conference Committee.

"NEW SECTION. Sec. 4. The legislature finds that installation of trickle irrigation systems in climatically and economically suitable areas may result in significant water savings. The legislature further finds that encouraging the voluntary transfer of the water savings will provide an incentive for the installation of trickle irrigation systems.

Therefore, the legislature directs the committee on natural resources and parks in the house of representatives and the committee on energy and utilities in the senate to jointly: (1) Study the physical, legal, and economic feasibility of transferring water saved from installation of trickle irrigation systems; (2) explore the relationship between a possible water transfer program connected to water savings from trickle irrigation systems and the state's existing trust water rights program; and (3) make recommendations for legislation to implement a transfer program for savings from trickle irrigation systems. If the committees determine that such a program is in the public interest. The committees shall coordinate the study with the agriculture committees in the senate and the house of representatives. The committees shall report their findings and recommendations to the legislature by December 1, 1993."

REPORT OF CONFERENCE COMMITTEE

Regulating steamboat operators

MR. PRESIDENT:
MR. SPEAKER:
We of your CONFERENCE COMMITTEE, to whom was referred SUBSTITUTE HOUSE BILL NO. 1931, Steamboat operators, have had the same under consideration and we recommend that:
The Senate Transportation Committee amendment(s) adopted, as amended, on April 14, 1993, be not adopted, and that the following Conference Committee striking amendment(s) adopted:
Strike everything after the enacting clause and insert the following:
Sec. 1. RCW 47.60.120 and 1984 c 7 s 307 are each amended to read as follows:
(1) If the department acquires or constructs, maintains, and operates any ferry crossings upon or toll bridges over Puget Sound or any of its tributary or connecting waters, there shall not be constructed, operated, or maintained any other ferry crossing
upon or bridge over any such waters within ten miles of any such crossing or bridge operated or maintained by the department excepting such bridges or ferry crossings in existence, and being operated and maintained under a lawfully issued franchise at the time of the location of the ferry crossing or construction of the toll bridge by the department.

(2) The ten-mile distance in subsection (1) of this section means ten statute miles measured by airline distance. The ten-mile restriction shall be applied by comparing the two end points (termini) of a state ferry crossing to those of a private ferry crossing.

(3) The Washington utilities and transportation commission may, upon written petition of a commercial ferry operator certificated or applying for certification under chapter 81.84 RCW, and upon notice and hearing, grant a waiver from the ten-mile restriction. The waiver must not be detrimental to the public interest. In making a decision to waive the ten-mile restriction, the commission shall consider, but is not limited to, the impact of the waiver on transportation congestion mitigation, air quality improvement, and the overall impact on the Washington state ferry system. The commission shall act upon a request for a waiver within ninety days after the conclusion of the hearing. A waiver is effective for a period of five years from the date of issuance. At the end of five years the waiver becomes permanent unless appealed within thirty days by the commission on its own motion, the department, or an interested party.

(4) The department shall not maintain and operate any ferry crossing or toll bridge over Puget Sound or any of its tributary or connecting waters that would infringe upon any franchise lawfully issued by the state and in existence and being exercised at the time of the location of the ferry crossing or toll bridge by the department, without first acquiring the rights granted to such franchise holder under the franchise.

(While any revenue bonds issued by the department under the provisions of this chapter are outstanding no additional bonds may be issued for the purposes of acquiring, constructing, operating, or maintaining any ferries or toll bridges within the aforesaid ten-mile distance by the department unless the revenues of any such additional ferries or toll bridges are pledged to the bonds then outstanding to the extent provided by the resolution authorizing the issue of the outstanding bonds. The provisions of this section are binding upon the state, and all of its departments, agencies, and instrumentalities, as well as any and all private, political subdivisions, and public corporations, cities, towns, counties, school districts, other public subdivisions, and subdivisions of the state and the state itself, and the provisions of this section shall restrict and limit the powers of the legislature of the state in respect to the matters herein mentioned so long as any of such bonds are outstanding and unpaid shall be deemed to constitute a contract to that effect for the benefit of the holders of all such bonds.))

Sec. 2. RCW 81.84.010 and 1961 c 14 s 81.84.010 are each amended to read as follows:

(1) No [(steamboat company shall)] commercial ferry may hereafter operate any vessel or ferry for the public use for hire between fixed termini or over a regular route upon the waters within this state, including the rivers and lakes and Puget Sound, without first applying for and obtaining from the commission a certificate declaring that public convenience and necessity require such operation. Service authorized by certificates issued before or after the effective date of this act to a commercial ferry operator shall be exercised by the operator in a manner consistent with the conditions established in the certificate or tariffs: PROVIDED, That no certificate shall be required for a vessel primarily engaged in transporting freight other than vehicles, whose gross earnings from transportation of passengers and/or vehicles, are not more than ten percent of the total gross annual earnings of such vessel: PROVIDED, That nothing herein shall be construed to affect the right of any county public transportation benefit area or other public agency within this state to construct, condemn, purchase, operate, or maintain, itself or by contract, agreement, or lease, with any person, firm, or corporation, ferries or boats across or wharfs at or upon the waters within this state, including the rivers and lakes and Puget Sound provided such operation is not over the same route or between the same districts, being served by a certificate [(carrier)] holder without first acquiring the rights granted to the certificate holder under the certificate, nor shall this chapter be construed to affect, amend, or invalidate any contract entered into prior to January 15, 1927, for the operation of ferries or boats upon the waters within this state, which was entered into in good faith by any county with any person, firm, or corporation, except that in case of the operation or maintenance by any county, city, town, port district, or other political subdivision by contract, agreement, or lease with any person, firm, or corporation, of ferries or boats across or wharfs at or upon the waters within this state, including the rivers and lakes and Puget Sound, the commission shall have power and authority to regulate rates and services of such operations, and the maintenance of ferries, boats, or wharfs, to make, fix, alter, or amend said rates, and to regulate service and safety of operations thereof, in the manner and to the same extent as it is empowered to regulate a [(steamboat company)] commercial ferry, notwithstanding the provisions of any act or parts of acts inconsistent herewith.

(2) The holder of a certificate of public convenience and necessity granted under this chapter must initiate service within five years of obtaining the certificate. The certificate holder shall report to the commission every six months after the certificate is granted on the progress of the certificated route. The reports shall include, but not be limited to, the progress of environmental impact, parking, local government land use, docking, and financing considerations. However, if service has not been initiated within five years of obtaining the certificate, the commission may extend the certificate on a twelve-month basis for up to three years if the six-month progress reports indicate there is significant advancement toward initiating service. PROVIDED, The department shall have power and authority to regulate rates and services of such operations, and the maintenance of ferries, boats, or wharfs, to make, fix, alter, or amend said rates, and to regulate service and safety of operations thereof, in the manner and to the same extent as it is empowered to regulate a [(steamboat company)] commercial ferry, notwithstanding the provisions of any act or parts of acts inconsistent herewith.

(3) The commission shall review certificates in existence as of the effective date of this act, where service is not being provided on or any portion of the route or routes certificated. Based on progress reports required under subsection (2) of this section, the commission may grant an extension beyond that provided in subsection (2) of this section. Such additional extension may not exceed a total of two years.

Sec. 3. RCW 81.84.020 and 1961 c 14 s 81.84.020 are each amended to read as follows:

(1) Upon the filing of an application the commission shall give reasonable notice to the department, affected cities and counties, and any common carrier which might be adversely affected, of the time and place for hearing on such application. The commission shall have power after hearing, to issue the certificate as prayed for, or to refuse to issue it, or to issue it for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted by said certificate such terms and conditions as in its judgment the public convenience and necessity may require; but the commission shall not have power to grant a certificate to operate between districts and/or into any territory prohibited by RCW 47.60.120 or already served by an existing certificate holder, unless such existing certificate holder [(shall fail and refuse)] has failed or refused to furnish reasonable and adequate service or has failed to describe the service or tariff advertised in its certificate or the filing of an application for certificate after the time period allowed to initiate service has elapsed: PROVIDED, That in case two or more [(steamboat companies)] commercial ferries
shall upon said date have been operating vessels upon the same route, or between the same districts the commission shall determine after public hearing whether one or more certificates shall issue, and in determining to whom a certificate or certificates shall be issued, the commission shall consider all material facts and circumstances including the prior operation, schedules, and services rendered by either of ((said companies)) the ferries, and in case more than one certificate shall issue, the commission shall fix and determine the schedules and services of the ((companies to whom such)) ferries to which the certificates are issued to the end that duplication of service be eliminated and public convenience be furthered.

(2) Before issuing a certificate, the commission shall determine that the applicant has the financial resources to operate the proposed service for at least twelve months, based upon the submission by the applicant of a pro forma financial statement of operations. Issuance of a certificate shall be determined upon, but not limited to, the following factors: ridership and revenue forecasts; the cost of service for the proposed operation; an estimate of the cost of the assets to be used in providing the service; a statement of the total assets on hand of the applicant that will be expended on the proposed operation; and a statement of prior experience, if any, in such field by the applicant. The documentation required of the applicant under this section shall comply with the provisions of RCW 9A.72.085.

(3) Subsection (2) of this section does not apply to an application for a certificate that is pending as of the effective date of this act.

NEW SECTION. Sec. 4. A new section is added to chapter 81.84 RCW to read as follows:

The commission, in granting a certificate to operate as a commercial ferry, shall require the operator to first obtain liability and property damage insurance from a company licensed to write liability insurance in the state or a surety bond of a company licensed to write surety bonds in the state, on each vessel or ferry to be used, in the amount of not less than one hundred thousand dollars for any recovery for personal injury by one person, and not less than one million dollars and in such additional amount as the commission shall determine, for all persons receiving personal injury and property damage by reason of one act of negligence, and not less than fifty thousand dollars for damage to property of any person other than the insured; or combined bodily injury and property damage liability insurance of not less than one million dollars, and to maintain such liability and property damage insurance or surety bond in force on each vessel or ferry while so used. Each policy for liability or property damage insurance or surety bond required by this section must be filed with the commission and kept in full force and effect, and failure to do so is cause for revocation of the operator’s certificate.

Sec. 5. RCW 81.84.030 and 1961 c 14 s 81.84.030 are each amended to read as follows:

No certificate or any right or privilege thereunder held, owned, or obtained under the provisions of this chapter shall be sold, assigned, leased, mortgaged, or in any manner transferred, either by the act of the parties or by operation of law, except upon authorization by the commission first obtained. (The commission may at any time by its order duly entered after hearing had upon notice to the holder of any certificate hereunder and an opportunity to such holder to be heard, suspend, revoke, alter, or amend any certificate issued under the provisions of this chapter, if the holder thereof willfully violates or fails to observe the provisions of the certificate, or the orders, rules or regulations of the commission, or the provisions of this title.)

Sec. 6. RCW 81.84.050 and 1961 c 14 s 81.84.050 are each amended to read as follows:

Every ((steamboat company)) commercial ferry and every officer, agent, or employee of any ((steamboat company)) commercial ferry who violates or who procures, aids, or abets in the violation of any provision of this title, or any order, rule, regulation, or decision of the commission shall incur a penalty of one hundred dollars for every such violation. Each and every such violation shall be a separate and distinct offense, and in case of a continuing violation every day’s continuance shall be and be deemed to be a separate and distinct violation. Every act of commission or omission which procures, aids, or abets in the violation shall be considered a violation under the provisions of this section and subject to the penalty herein provided for.

The penalty herein provided for shall become due and payable when the person incurring the same receives a notice in writing from the commission describing such violation with reasonable particularity and advising such person that the penalty is due.

The commission may, upon written application therefor, received within fifteen days, remit or mitigate any penalty provided for in this section or discontinue any prosecution to recover the same upon such terms as it in its discretion shall deem proper, and shall have authority to ascertain the facts upon which all such applications in such manner and under such regulations as it may deem proper.

If the amount of such penalty is not paid to the commission within fifteen days after receipt of notice imposing the same or, if application for remission or mitigation has not been made, within fifteen days after the violator has received notice of the disposition of such application, the attorney general shall bring an action to recover the penalty in the name of the state of Washington in the superior court of Thurston county or of some other county in which such violator may do business. In all such actions the procedure and rules of evidence shall be the same as in ordinary civil actions except as otherwise herein provided. All penalties recovered by the state under this chapter shall be paid into the state treasury and credited to the public service revolving fund.

NEW SECTION. Sec. 7. A new section is added to chapter 81.84 RCW to read as follows:

The commission, upon complaint by an interested party, or upon its own motion after notice and opportunity for hearing, may cancel, revoke, suspend, alter, or amend a certificate issued under this chapter on any of the following grounds:

(1) Failure of the certificate holder to initiate service by the conclusion of the fifth year after the certificate has been granted or by the conclusion of an extension granted under RCW 81.84.010 (2) or (3), if the commission has considered the progress report information required under RCW 81.84.010 (2) or (3); (2) Failure of the certificate holder to file an annual report; (3) The filing by a certificate holder of an annual report that shows no revenue in the previous twelve-month period after service has been initiated;

(4) The violation of any provision of this chapter; (5) The violation of or failure to observe the provisions or conditions of the certificate or tariffs; (6) The violation of an order, decision, rule, regulation, or requirement established by the commission under this chapter; (7) Failure of a certificate holder to maintain the required insurance coverage in full force and effect; or (8) Failure or refusal to furnish reasonable and adequate service after initiating service.

The commission shall take appropriate action within thirty days upon a complaint by an interested party or of its own finding that a provision of this section has been violated.

NEW SECTION. Sec. 8. A new section is added to chapter 81.84 RCW to read as follows:
The commission may, with or without a hearing, issue temporary certificates to operate under this chapter, but only after it finds that the issuance of the temporary certificate is necessary due to an immediate and urgent need and is otherwise consistent with the public interest. The certificate may be issued for a period of up to one hundred eighty days. The commission may prescribe such special rules and impose special terms and conditions on the granting of the certificate as in its judgment are reasonable and necessary in carrying out this chapter. The commission shall collect a filing fee, not to exceed two hundred dollars, for each application for a temporary certificate. MR. SPEAKER:

We of your CONFERENCE COMMITTEE, to whom was referred ENGROSSED SUBSTITUTE HOUSE BILL NO. 2067, Commute trip reduction programs, have had the same under consideration and we recommend that:

The Senate amendment by Senators Drew, Nelson and Vognild adopted on April 13, 1993, not be adopted, and that the following Conference Committee amendments be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that reducing the number of commute trips to work is an effective way of reducing automobile related air pollution, traffic congestion, and energy use. The legislature intends that state agencies shall assume a leadership role in implementing programs to reduce vehicle miles traveled and single-occupant vehicle commuting, under RCW 70.94.521 through 70.94.551.

The legislature has established and directed an interagency task force to consider mechanisms for funding state agency commute trip reduction programs; and to consider and recommend policies for employee incentives for commuting by other than single-occupant vehicles, and policies for the use of state-owned vehicles.

It is the purpose of this act to provide state agencies with the authority to provide employee incentives, including subsidies for use of high occupancy vehicles to meet commute trip reduction goals, and to remove existing statutory barriers for state agencies to use public funds, including parking revenue, to operate, maintain, lease, or construct parking facilities at state-owned and leased facilities, to reduce parking subsidies, and to support commute trip reduction programs.

NEW SECTION. Sec. 2. A new section is added to chapter 43.01 RCW to read as follows:

The definitions in this section apply throughout this chapter.

(1) "Guaranteed ride home" means an assured ride home for commuters participating in a commute trip reduction program who are not able to use their normal commute mode because of personal emergencies.

(2) "Pledged" means parking revenue designated through any means, including moneys received from the natural resource building, which is used for the debt service payment of bonds issued for parking facilities.

Sec. 3. RCW 43.41.140 and 1979 c 151 s 119 are each amended to read as follows:

Pursuant to policies and regulations promulgated by the office of financial management (after consultation with and approval by the automotive policy board), an elected state officer or (his) delegate or a state agency director or (his) delegate may permit an employee (commuting) to commute in a state-owned or leased vehicle (only) if such travel is on official business, as determined in accordance with RCW 43.41.130, and is determined to be economical and advantageous to the state, or as part of a commute trip reduction program as required by RCW 70.94.551.

Sec. 4. RCW 46.08.172 and 1991 sp.s. c 31 s 12 and 1991 sp.s. c 13 s 41 are each reenacted and amended to read as follows:

(There is hereby established an account in the state treasury to be known as the "state capitol vehicle parking account.") The director of the department of general administration shall establish equitable and consistent parking rental fees for state-owned or leased property, to be charged to employees, visitors, clients, service providers, and others, that reflect the legislature's intent to reduce state subsidization of parking. The department shall solicit representatives from affected state agencies, employees, and state employee bargaining units to meet as regional committees. These regional committees will advise the director on parking rental fees, taking into account the market rate of comparable, privately owned rental parking in each region. In the event that such fees become part of a collective bargaining agreement and there is a conflict between the agency and the
collective bargaining unit, the terms of the collective bargaining agreement shall prevail. All fees shall take into account the market rate of comparable privately owned rental parking, as determined by the director. (All unpledged parking rental income collected by the department of general administration from rental of parking space on the capitol grounds and the east capitol site shall be deposited in the "state capitol vehicle parking account.")) However, parking rental fees are not to exceed the local market rate of comparable privately owned rental parking.

The director may delegate the responsibility for the collection of parking fees to other agencies of state government when cost-effective. (The "state capitol vehicle parking account" shall be used to pay costs incurred in the operation, maintenance, regulation and enforcement of vehicle parking and parking facilities.)

NEW SECTION. Sec. 5. A new section is added to chapter 43.01 RCW to read as follows:

There is hereby established an account in the state treasury to be known as the "state capitol vehicle parking account." All parking rental income collected from rental of parking space at state-owned or leased property shall be deposited in the "state capitol vehicle parking account." Revenue deposited in the "state capitol vehicle parking account" shall be first applied to pledged purposes. Unpledged parking revenues deposited in the "state capitol vehicle parking account" may be used to:

1. Pay costs incurred in the operation, maintenance, regulation, and enforcement of vehicle parking and parking facilities on state-owned or leased properties;
2. Support the lease costs and/or capital investment costs of vehicle parking and parking facilities at agency-owned and leased facilities off the capitol campus; and
3. Support commute trip reduction programs under RCW 70.94.521 through 70.94.551.

Distribution of funds from the "state capitol vehicle parking account" are subject to appropriation by the legislature and will be made by the office of financial management after considering recommendations from the director of general administration and the interagency task force for commute trip reduction, under RCW 70.94.551.

NEW SECTION. Sec. 6. A new section is added to chapter 43.01 RCW to read as follows:

State agencies may, subject to appropriation and under the internal revenue code rules, use public funds to financially assist agency-approved incentives for alternative commute modes, including but not limited to carpools, vanpools, purchase of transit and ferry passes, and guaranteed ride home programs, if the financial assistance is an element of the agency's commute trip reduction program as required under RCW 70.94.521 through 70.94.551. This section does not permit any payment for the use of state-owned vehicles for commuter ride sharing.

NEW SECTION. Sec. 7. A new section is added to chapter 43.01 RCW to read as follows:

All state higher education institutions are exempt from section 5 of this act.

On page 1, line 1 of the title, after "programs;" strike the remainder of the title and insert "amending RCW 43.41.140; reenacting and amending RCW 46.08.172; adding new sections to chapter 43.01 RCW; creating a new section; and prescribing penalties.;" and that the bill do pass as recommended by the Conference Committee.

REMARKS BY SENATOR SHELDON

Senator Sheldon: "Thank you, Mr. President. I want to thank Senator McDonald for his question, because it is an important question. Certain language was struck that says that preference shall be given to youths in residing in areas--
areas—where there is a lot of unemployment. Actually, there is a separate code section that does specify that sixty percent of the funding will go to distressed areas with high unemployment. So, it was felt that it was redundant to have that also in there. I believe that Senator McDonald is satisfied with that.”

The President declared the question before the Senate to be the motion by Senator Sheldon that the Senate do adopt the Report of the Conference Committee on Engrossed Substitute House Bill No. 1307.

The motion by Senator Sheldon carried and the Report of the Conference Committee on Engrossed Substitute House Bill No. 1307 was adopted.

REPORT OF CONFERENCE COMMITTEE

ESHB 2026 April 23, 1993

Includes "NEW ITEM": YES

Requiring notice about fetal alcohol syndrome

MR. PRESIDENT:

MR. SPEAKER:

We of your CONFERENCE COMMITTEE, to whom was referred ENGROSSED SUBSTITUTE HOUSE BILL NO. 2026, Fetal alcohol syndrome, have had the same under consideration and we recommend that:

The Senate amendments to page 1, lines 13, 14 and 16, and the title amendment adopted April 18, 1993, not be adopted, and that the following Conference Committee striking amendments be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The United States surgeon general warns that women should not drink alcoholic beverages during pregnancy because of the risk of birth defects. The legislature finds that these defects include fetal alcohol syndrome, a birth defect that causes permanent antisocial behavior in the sufferer, disrupts the functions of his or her family, and, at an alarmingly increasing rate, extracts a safety and fiscal toll on society.

"NEW SECTION. Sec. 2. A new section is added to chapter 66.08 RCW to read as follows:

The board shall cause to be posted in conspicuous places, in a number determined by the board, within each state liquor store, notices in print not less than one inch high warning persons that consumption of alcohol shortly before conception or during pregnancy may cause birth defects, including fetal alcohol syndrome and fetal alcohol effects.

"NEW SECTION. Sec. 3. The legislature recognizes that the use of alcohol and other drugs during pregnancy can cause medical, psychological, and social problems for women and infants. The legislature further recognizes that communities are increasingly concerned about this problem and the associated costs to the mothers, infants, and society as a whole. The legislature recognizes that the department of health and other agencies are focusing on primary prevention activities to reduce the use of alcohol or drugs during pregnancy but few efforts have focused on secondary prevention efforts aimed at intervening in the lives of women already involved in the use of alcohol or other drugs during pregnancy. The legislature recognizes that the best way to prevent problems for chemically dependent pregnant women and their resulting children is to engage the women in alcohol or drug treatment. The legislature acknowledges that treatment professionals find pretreatment services to clients to be important in engaging women in alcohol or drug treatment. The legislature further recognizes that pretreatment services should be provided at locations where chemically dependent women are likely to be found, including public health clinics and domestic violence or homeless shelters. Therefore the legislature intends to prevent the detrimental effects of alcohol or other drug use to women and their resulting infants by promoting the establishment of local programs to help facilitate a woman's entry into alcohol or other drug treatment. These programs shall provide secondary prevention services and provision of opportunities for immediate treatment so that women who seek help are welcomed rather than ostracized.

"NEW SECTION. Sec. 4. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Alcoholism" means a disease, characterized by a dependency on alcoholic beverages, loss of control over the amount and circumstances of alcohol use, symptoms of tolerance, physiological or psychological withdrawal, or both, if use is reduced or discontinued, and impairment of health or disruption of social or economic functioning.

(2) "Approved treatment program" means a discrete program of chemical dependency treatment provided by a treatment program certified by the department of social and health services as meeting standards adopted under this chapter.

POINT OF INQUIRY

Senator Deccio: "Senator Fraser, as you know, we spent many hours sitting with the payors of anywhere from cities, counties, irrigators, and the like—everybody was included. They agreed with the fifty dollars. Has there been an agreement reached among the people who are going to pay this bill—of the increase to one hundred dollars?"

Senator Fraser: "We had a meeting one night with a lot of people, not all people who would be potentially affected by fee increases, and we hit around a lot of ideas. We came up with an idea at that meeting which some people agreed with, and others
didn't, to go with a fifty dollar surcharge. That is what passed the Senate and went over to the House and there has been a lot of conversation since then and they felt a higher one would be appropriate. That's what ended up in the conference committee. Some people agree with it; some don't."

Senator Deccio: "Further question. Has there been any language change in the study that will take place by the committee?"

Senator Fraser: "The only change in the conference committee, compared to what came over from the House, is to assure that the Agriculture Committees will be in cooperation with this study."

Further debate ensued.

growing demand for improvement and expansion of home and community-based long-term care services to support and complement the services provided by these informal caregivers.

The legislature further finds that the public interest would best be served by a broad array of long-term care services that support persons who need such services at home or in the community whenever practicable and that promote individual autonomy, dignity, and choice.

The legislature finds that as other long-term care options become more available, the relative need for nursing home beds is likely to decline. The legislature recognizes, however, that nursing home care will continue to be a critical part of the state's long-term care options, and that such services should promote individual dignity, autonomy, and a homelike environment.

NEW SECTION. Sec. 2. PURPOSE AND INTENT. It is the legislature's intent that:

(1) Long-term care services administered by the department of social and health services include a balanced array of health, social, and supportive services that promote individual choice, dignity, and the highest practicable level of independence;

(2) Home and community-based services be developed, expanded, or maintained in order to meet the needs of consumers and to maximize effective use of limited resources;

(3) Long-term care services be responsive and appropriate to individual need and also cost-effective for the state;

(4) Nursing home care is provided in such a manner and in such an environment as will promote maintenance or enhancement of the quality of life of each resident and timely discharge to a less restrictive care setting when appropriate; and

(5) State health planning for nursing home bed supply take into account increased availability of other home and community-based service options.

NEW SECTION. Sec. 3. ASSISTED LIVING. To the extent of available funding, the department of social and health services may contract with licensed boarding homes for assisted living services. The department shall develop rules that ensure that the contracted services:

(1) Recognize individual needs, privacy, and autonomy;

(2) Include, but not be limited to, personal care, nursing services, medication administration, and supportive services that promote independence and self-sufficiency;

(3) Are of sufficient scope to assure that each resident who chooses to remain in assisted living may do so, unless nursing care needs exceed the level of care defined by the department;

(4) Are directed first to those persons most likely, in the absence of assisted living services, to need hospital, nursing facility, or other out-of-home placement; and

(5) Are provided in compliance with applicable department of health facility and professional licensing laws and rules.

Sec. 4. RCW 74.42.010 and 1979 ex.s. c 211 s 1 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Department" means the department of social and health services and the department's employees.

(2) A health maintenance organization, combination of health maintenance organizations, or health care facility shall not be exempt under subsection (1) of this section from obtaining a certificate of need before offering a tertiary health service unless:

   (b) The application contains such information respecting the organization, combination, or facility and the proposed offering or obligation by a nursing home as the department may require to determine if the organization or combination meets the requirements of subsection (1) of this section or the facility meets or will meet such requirements; and
   (c) The department approves such application. The department shall approve or disapprove an application for exemption within thirty days of receipt of a complete application. In the case of a proposed health care facility (or portion thereof) which has not begun to provide tertiary health services on the date an application is submitted under this subsection with respect to such facility (or portion), the facility (or portion) shall meet the applicable requirements of subsection (1) of this section when the facility first provides such services. The department shall approve an application submitted under this subsection if it determines that the applicable requirements of subsection (1) of this section are met.

   (a) The department issues a certificate of need approving the sale, lease, acquisition, or use; or
   (b) The department determines, upon application, that (i) the entity to which the facility is proposed to be sold or leased, which intends to acquire the controlling interest, or which intends to use the facility is a health maintenance organization or a combination of health maintenance organizations which meets the requirements of (1)(a)(i), and (ii) with respect to such facility, meets the requirements of (1)(a)(ii) or (iii) or the requirements of (1)(b)(i) and (ii).

(4) A health maintenance organization, an ambulatory care facility, or a health care facility, which ambulatory or health care facility is controlled, directly or indirectly, by a health maintenance organization or a combination of health maintenance organizations, the department may under the program apply its certificate of need requirements only to the offering of inpatient tertiary health services and then only to the extent that such offering is not exempt under the provisions of this section.

(5) (a) The department shall not require a certificate of need for the construction, development, or other establishment of a nursing home, or the addition of beds to an existing nursing home, that is owned and operated by a continuing care retirement community that:
   (i) Offers services only to contractual members;
   (ii) Provides its members a contractually guaranteed range of services from independent living through skilled nursing, including some assistance with daily living activities;
(iii) Contractually assumes responsibility for the cost of services exceeding the member's financial responsibility under the contract, so that no third party, with the exception of insurance purchased by the retirement community or its members, but including the medical program, is liable for costs of care even if the member depletes his or her personal resources;

(iv) Has offered continuing care contracts and operated a nursing home continuously since January 1, 1988, or has obtained a certificate of need to establish a nursing home;

(v) Maintains a binding agreement with the state assuring that financial liability for services to members, including nursing home services, will not fall upon the state;

(vi) Does not operate, and has not undertaken a project that would result in a number of nursing home beds in excess of one for every four living units operated by the continuing care retirement community, exclusive of nursing home beds; and

(vii) Has obtained a professional review of pricing and long-term solvency within the prior five years which was fully disclosed to members.

(b) A continuing care retirement community shall not be exempt under this subsection from obtaining a certificate of need unless:

(i) It has submitted an application for exemption at least thirty days prior to commencing construction of, is submitting an application for the licensure of, or is commencing operation of a nursing home, whichever comes first; and

(ii) The application documents to the department that the continuing care retirement community qualifies for exemption.

(c) The sale, lease, acquisition, or use of part or all of a continuing care retirement community nursing home that qualifies for exemption under this subsection shall require prior certificate of need approval to qualify for licensure as a nursing home unless the department determines such sale, lease, acquisition, or use is by a continuing care retirement community that meets the conditions of (a) of this subsection.

(6) A rural hospital, as defined by the department, reducing the number of licensed beds to become a rural primary care hospital under the provisions of Part A Title XVIII of the Social Security Act Section 1820, 42 U.S.C. 1395c et seq, may, within three years of the reduction of beds licensed under chapter 70.41 RCW, increase the number of licensed beds to no more than the previously licensed number without being subject to the provisions of this chapter.

(7) A rural health care facility licensed under RCW 70.175.100 formerly licensed as a hospital under chapter 70.41 RCW may, within three years of the effective date of the rural health care facility license, apply to the department for a hospital license and not be subject to the requirements of RCW 70.38.105(4)(a) as the construction, development, or other establishment of a new hospital, provided there is no increase in the number of beds previously licensed under chapter 70.41 RCW and there is no redistribution in the number of beds used for acute care or long-term care, the rural health care facility has been in continuous operation, and the rural health care facility has not been purchased or leased.

(d) A nursing home that voluntarily reduces the number of its licensed beds to provide assisted living, licensed boarding home care, adult day care, adult day health, respite care, hospice, outpatient therapy services, congregate meals, home health, or senior wellness clinic, or to reduce to one or two the number of beds per room in the nursing home, may convert the original facility or portion of the facility back, and thereby increase the number of nursing home beds to no more than the previously licensed number of nursing home beds within the effective date of the reduction of beds licensed under chapter 70.41 RCW, and there is no redistribution in the number of beds used for acute care or long-term care, after the state assuring that financial liability for services to members, including nursing home services, will not fall upon the state.

(e) To convert beds back to nursing home beds under this subsection, the nursing home must:

(i) Give notice of its intent to preserve conversion options to the department of health no later than thirty days after the effective date of the license reduction; and

(ii) Give notice to the department of health and to the department of social and health services of the intent to convert beds back. If construction is required for the conversion of beds back, the notice of intent to convert beds back must be given no later than two years prior to the effective date of license modification reflecting the restored beds; otherwise, the notice must be given no later than one year prior to the effective date of license modification reflecting the restored beds.

(f) Conversion of beds back under this subsection must be completed no later than four years after the effective date of the license reduction. However, for good cause shown, the four-year period for conversion may be extended by the department of health for one additional four-year period.

(g) Nursing home beds that have been voluntarily reduced under this section shall be counted as available nursing home beds for the purpose of evaluating need under RCW 70.38.115(2)(a) and (k) so long as the facility retains the ability to convert them back to nursing home use under the terms of this section.

Sec. 6. RCW 70.38.115 and 1989 1st ex.s. c 9 s 605 and 1989 c 175 s 126 are each reenacted and amended to read as follows:

(1) Certificates of need shall be issued, denied, suspended, or revoked by the designee of the secretary in accord with the provisions of this chapter and rules of the department which establish review procedures and criteria for the certificate of need program.

(2) Criteria for the review of certificate of need applications, except as provided in subsection (3) of this section for health maintenance organizations, shall include but be not limited to consideration of the following:

(a) The availability of alternative uses of project resources for the provision of other health services; and

(b) The extent to which such proposed services will be accessible to all residents of the area to be served, and

(c) The need for and the availability in the community of services and facilities for osteopathic and allopathic physicians and their patients. The department shall consider the application in terms of its impact on existing and proposed institutional training programs for doctors of osteopathy and medicine at the student, internship, and residency training levels.

(d) In the case of a construction project, the costs and methods of the proposed construction, including the costs and methods of energy provision, and the probable impact of the construction project reviewed (i) on the cost of providing health services by the person proposing such construction project and (ii) on the cost and charges to the public of providing health services by other persons;
(i) The special needs and circumstances of osteopathic hospitals, nonallopathic services and children's hospitals;
(ii) Improvements or innovations in the financing and delivery of health services which foster cost containment and serve to promote quality assurance and cost-effectiveness;
(iii) In the case of health services proposed to be provided, the efficiency and appropriateness of the use of existing services and facilities similar to those proposed;
(iv) In the case of existing services or facilities, the quality of care provided by such services or facilities in the past;
(v) In the case of hospital certificate of need applications, whether the hospital meets or exceeds the regional average level of charity care, as determined by the secretary; and
(a) In the case of nursing home applications:
(i) The availability of other nursing home beds in the planning area to be served; and
(ii) The availability of other services in the community to be served. Data used to determine the availability of other services will include but not be limited to data provided by the department of social and health services.
(b) A certificate of need application is not approved, or not approved in the form and manner applied for, if the project is justified only under specific circumstances.
(c) An increase in bed capacity;
(d) A significant reduction in the scope of a nursing home project without a commensurate reduction in the cost of the nursing home project, or a cost increase (as represented in bids on a nursing home construction project or final cost estimates acceptable to the person to whom the certificate of need was issued) if the total of such increases exceeds twelve percent or one thousand dollars, whichever is greater, over the maximum capital expenditure approved.
(e) Improvements or innovations in the financing and delivery of health services which foster cost containment and serve to promote quality assurance and cost-effectiveness;
(f) In the case of hospital certificate of need applications, whether the hospital meets or exceeds the regional average level of charity care, as determined by the secretary; and
(i) The availability of other nursing home beds in the planning area to be served; and
(ii) The availability of other services in the community to be served. Data used to determine the availability of other services will include but not be limited to data provided by the department of social and health services.

A health care facility, or any part thereof, with respect to which a certificate of need was issued under this subsection may not be sold or leased and a controlling interest in such facility or in a lease of such facility may not be acquired unless the department approves a certificate of need approving the sale, lease, or lease.

(4) Until the final expiration of the state health plan as provided under RCW 70.38.919, the decision of the department on a certificate of need application shall be consistent with the state health plan in effect, except in emergency circumstances which pose a threat to the public health. The department in making its final decision may issue a conditional certificate of need if it finds that the project is justified only under specific circumstances. The conditions shall directly relate to the project being reviewed. The conditions may be released if it can be substantiated that the conditions are no longer valid and the release of such conditions would be consistent with the purposes of this chapter.

(5) Criteria adopted for review in accordance with subsection (2) of this section may vary according to the purpose for which the particular review is being conducted or the type of health service reviewed.

(6) The department shall specify information to be required for certificate of need applications. Within fifteen days of receipt of the application, the department shall request additional information considered necessary to the application or start the review process. Applicants may decline to submit requested information through written notice to the department, in which case review starts on the date of receipt of the notice. Applications may be denied or limited because of failure to submit required and necessary information.

(7) Concurrent review is for the purpose of comparative analysis and evaluation of competing or similar projects in order to determine which of the projects may best meet identified needs. Categories of projects subject to concurrent review include at least new health care facilities, new services, and expansion of existing health care facilities. The department shall specify time periods for the submission of applications for certificates of need subject to concurrent review, which shall not exceed ninety days. Review of concurrent applications shall start fifteen days after the conclusion of the time period for submission of applications subject to concurrent review. Concurrent review periods shall be limited to one hundred fifty days, except as provided for in rules adopted by the department authorizing and limiting amendment during the course of the review, or for an unresolved pivotal issue declared by the department.

(8) Review periods for certificate of need applications other than those subject to concurrent review shall be limited to ninety days. Review periods may be extended up to thirty days if needed by a review agency, and for unresolved pivotal issues the department may extend up to an additional thirty days. A review may be extended in any case if the applicant agrees to the extension.

(9) The department or its designee, shall conduct a public hearing on a certificate of need application if requested unless the review is expedited or subject to emergency review. The department by rule shall specify the period of time within which a public hearing must be requested and related matters.

(10) Any applicant denied a certificate of need or whose certificate of need has been suspended or revoked has the right to an adjudicative proceeding. The proceeding is governed by chapter 34.05 RCW, the Administrative Procedure Act.

(11) An amended certificate of need shall be required for the following modifications of an approved project:
(a) A new service requiring review under this chapter;
(b) An expansion of a service subject to review beyond that originally approved;
(c) An increase in bed capacity;
(d) A significant reduction in the scope of a nursing home project without a commensurate reduction in the cost of the nursing home project, or a cost increase (as represented in bids on a nursing home construction project or final cost estimates acceptable to the person to whom the certificate of need was issued) if the total of such increases exceeds twelve percent or fifty thousand dollars, whichever is greater, over the maximum capital expenditure approved. The review of reductions or cost increases shall be restricted to the continued conformance of the nursing home project with the review criteria pertaining to financial feasibility and cost containment.

(12) An application for a certificate of need for a nursing home capital expenditure which is determined by the department to be required to eliminate or prevent imminent safety hazards or correct violations of applicable licensure and accreditation standards shall be approved.

(13) In the case of an application for a certificate of need to replace existing nursing home beds, all criteria must be met on the same basis as an application for a certificate of need for a new nursing home, except that the need criteria shall be deemed
met if the applicant is an existing licensee who proposes to replace existing beds that the licensee has operated for at least one year with the same or fewer number of beds in the same planning area. When an entire nursing home ceases operation, its beds shall be treated as existing nursing home beds for purposes of replacement for eight years or until a certificate of need to replace them is issued, whichever occurs first. However, the nursing home must give notice of its intent to retain the beds to the department of health no later than thirty days after the effective date of the facility's closure.

Debate ensued.

POINT OF INQUIRY
Senator Newhouse: "Senator Talmadge, can you tell me what the fiscal impact of this bill is and how it is related to our budget for this session?"

Senator Talmadge: "My understanding, Senator Newhouse, is that the language in the budget provides for the conversion of some nursing home beds and provides for some incentives for taking people out of the nursing home setting and having them treated in the less-expensive community programs. This facilitates the process by which that placement of elderly people in community programs can take place and it will save us some money, because the nursing home beds are more expensive than treating people in home-based care—community-based care."

Senator Newhouse: "We're talking about saving six or seven million dollars, are we, for the biennium?"

Senator Talmadge: "I believe that is correct. Senator Rinehart can confirm that, but it is not only a cost saving, but, I think, that the way we have now worked it, it is a superior policy than what we now have for dealing with the needs of people in long-term care."

Further debate ensued.

The President declared the question before the Senate to be the adoption of the striking amendment by Senators Talmadge and Deccio to Substitute House Bill No. 2098.

(8) Any school district may petition the state board of education for a reduction in the total program hour offering requirements for one or more of the grade level groupings specified in this section. The state board of education shall grant all such
petitions that are accompanied by an assurance that the minimum total program hour offering requirements in one or more other grade level groupings will be exceeded concurrently by no less than the number of hours of the reduction.

The performance level in such academic core subjects shall be determined by grade point averages, numbers of credits earned, and courses enrolled in during the beginning of the senior year.

Creating the PNWER-Net working group

MR. SPEAKER:
MR. PRESIDENT:
We of your Conference Committee, to whom was referred ENGROSSED SENATE BILL NO. 5745, creating the PNWER-Net working group, have had the same under consideration and we recommend that the House Appropriations Committee Amendment not be adopted, and that the following Conference Committee striking amendments be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. In chapter 251, Laws of 1991, the legislature enacted into law the Pacific Northwest economic region agreement and made the state of Washington a party along with member states Alaska, Idaho, Montana, and Oregon, and member Canadian provinces Alberta and British Columbia. The legislature recognized that the member states and provinces of the Pacific Northwest economic region are in a strategic position to act together, as a region, thus increasing the overall competitiveness of the members and providing substantial economic benefits for all of their citizens.

For those reasons, in chapter 251, Laws of 1991, the legislature also encouraged the establishment of cooperative activities between the seven legislative bodies of the Pacific Northwest economic region. The member states and provinces now desire to engage in such cooperation by electronically sharing twenty-two million volumes from certain of their respective universities. The member states and provinces have determined that such interlibrary sharing will provide substantial economic benefit for their citizens. The legislature agrees, specifically also finding that such interlibrary sharing furthers a major component of education strategy in the 1990's and twenty-first century, namely providing increased access to knowledge via technology.

NEW SECTION. Sec. 2. Unless the context clearly requires otherwise, as used in sections 1 through 5 of this act "PNWER-Net" means the technology network to be created by the member states and provinces of the Pacific Northwest economic region that will be capable of electronically linking the following undergraduate university libraries of the member states and provinces:

(1) Alaska:
   (a) University of Alaska, Anchorage;
   (b) University of Alaska, Juneau;
(2) Alberta:
   (a) University of Alberta, Calgary;
   (b) University of Alberta, Edmonton;
(3) British Columbia:
   (a) University of British Columbia, Vancouver;
   (b) University of Victoria, Victoria;
(4) Idaho:
   (a) Boise State University, Boise;
   (b) University of Idaho, Moscow;
(5) Montana:
   (a) Montana State University, Bozeman;
   (b) University of Montana, Missoula;
(6) Oregon:
   (a) Oregon State University, Corvallis;
   (b) University of Oregon, Eugene;
(7) Washington:
   (a) University of Washington, Seattle; and
   (b) Washington State University, Pullman.

NEW SECTION. Sec. 3. (1) The PNWER-Net working subgroup is hereby created for the member state of Washington.

The working subgroup shall be composed of seven members as follows: Two members of the senate, one from each of the major caucuses, appointed by the president of the senate; two members of the house of representatives, appointed by the speaker of the house of representatives; the state librarian; and the primary undergraduate academic librarian from each of the state's two research institutions of higher education.
(2) The staff support shall be provided by the senate committee services and, to the extent authorized by the chief clerk of the house of representatives, by the house of representatives office of program research as mutually agreed by the legislators on the working group.

(3) Legislative members shall be reimbursed for expenses in accordance with RCW 44.04.120. Non-legislative members shall be reimbursed for expenses in accordance with RCW 43.03.050 and 43.03.060.

NEW SECTION. Sec. 4. The PNWER-Net working subgroup shall have the following duties:
(1) To work with working subgroups from other member states and provinces in an entity known as the PNWER-Net working group to develop PNWER-Net;
(2) To assist the PNWER-Net working group in developing criteria to ensure that designated member libraries use existing telecommunications infrastructure including the internet; and
(3) To report to the legislature by December 1, 1994, concerning the status of PNWER-Net.

NEW SECTION. Sec. 5. The PNWER-Net working group may accept gifts, grants, and donations from private individuals and entities made for the purposes of sections 1 through 4 of this act.

NEW SECTION. Sec. 6. Sections 1 through 5 of this act are each added to chapter 43.147 RCW.

MOTION
Senator Bauer moved that the Senate adopt the Report of the Conference Committee on Engrossed Senate Bill No. 5745. Debate ensued.

The President declared the question before the Senate to be the motion by Senator Bauer that the Senate do adopt the Report of the Conference Committee on Engrossed Senate Bill No. 5745. The motion by Senator Bauer carried and the Report of the Conference Committee on Engrossed Senate Bill No. 5745 was adopted.

POINT OF ORDER
Senator Nelson: "A point of order, Mr. President. I note in Section 5, now, of the bill—the Conference Report that we have now adopted—that it has the phrasing and the actual exact wording that a section of a previous bill that dealt with gifts being received—grants and donations—by private individuals for the purposes of being used for the rest of the act. We had similar language in a measure that provided to the Secretary of State the ability to receive gifts and grants for the purposes of then purchasing mementos like flags and the rest. I would like the President to rule whether or not this then becomes an exception to Initiative 134.

REPLY BY THE PRESIDENT
President Pritchard: “Senator Bluechel, do you wish to respond to this?”

REMARKS BY SENATOR BLUECHEL
Senator Bluechel: "Mr. President, in this working group, the private sector has provided the funds to carry on the work. It is composed of two representatives from each House—from each state and province. One of the issues that has been before us is that one private sector organization provided a consultant to work with this group to develop the technical language that was not available through any of the public entities. This is the whole basis of which PNWER-Net operates with private sector donations. The enabling act of PNWER-Net has simply said that private sector donations will be solicited to match or to exceed the funds from each state and province.”

The President declared the question before the Senate to be the roll call on the final passage of Engrossed Senate Bill No. 5745, as recommended by the Conference Committee.

ROLL CALL
The Secretary called the roll on the final passage of Engrossed Senate Bill No. 5745, as recommended by the Conference Committee, and the bill passed the Senate by the following vote: Yes, 42; Nays, 2; Absent, 0; Excused, 5.

Voting nay: Senators Jesernig and Sutherland - 2.

Excused: Senators Niemi, Rinehart, Smith, L., Spanel and West - 5.

ENGROSSED SENATE BILL NO. 5745, as recommended by the Conference Committee, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

obtain a default judgment with respect to real property against a party who is served by substituted service absent an affidavit
stating that a good faith effort has been made to ascertain if the defaulted party is incarcerated within the state, and that there is no
present basis to believe that the party is incarcerated within the state. Notice of seizure in the case of property subject to a security
interest that has been perfected by filing a financing statement in accordance with chapter 62A.9 RCW, or a certificate of title, shall
be made by service upon the secured party to the secured party's assignee at the address shown on the financing statement or the

possession of items specified in subsection (a)(4), (a)(7), or (a)(8) of this section within forty-five days of the seizure in the case of

personal property and ninety days in the case of real property, the item seized shall be deemed forfeited. The community property

possession of items specified in subsection (a)(2), (a)(3), (a)(4), (a)(5), (a)(6), (a)(7), or (a)(8) of this section within forty-five days of the seizure in the case of personal property and ninety days in the case of real property, the person or persons shall be afforded a reasonable opportunity to be heard as to the claim or right. The hearing shall be before the chief law enforcement officer of the seizing agency or the chief law enforcement officer's designee, except where the seizing agency is a state agency as defined in RCW 34.12.020(4), the hearing shall be before the chief law enforcement officer of the seizing agency or an administrative law judge appointed under chapter 34.12 RCW, except that any person asserting a claim or right may remove the matter to a court of

competent jurisdiction (if the aggregate value of the article or articles involved is more than five hundred dollars). Removal of any

matter involving personal property may only be accomplished according to the rules of civil procedure. The person seeking removal

of the matter must serve process against the state, county, political subdivision, or municipality that operates the seizing agency,

and any other party of interest, in accordance with RCW 4.28.080 or 4.92.020, within forty-five days after the person seeking

limit set forth in RCW 3.66.020. A hearing before the seizing agency and any appeal therefrom shall be under Title 34 RCW. In a
court hearing between two or more claimants to the article or articles involved, the prevailing party shall be entitled to a judgment for
costs and reasonable attorney's fees. In cases involving personal property, the burden of producing evidence shall be upon the

person claiming to be the lawful owner or the person claiming to have the lawful right to possession of the property. In cases
involving real property, the burden of producing evidence shall be upon the law enforcement agency. The burden of proof that the

seized real property is subject to forfeiture shall be upon the law enforcement agency. The seizing law enforcement agency shall

promptly return the article or articles to the claimant upon a determination by the administrative law judge or court that the claimant
is the present lawful owner or is lawfully entitled to possession thereof of items specified in subsection (a)(2), (a)(3), (a)(4), (a)(5),

(a)(6), (a)(7), or (a)(8) of this section.
(3) Request the appropriate sheriff or director of public safety to take custody of the property and remove it for disposition in accordance with law; or

(4) Forward it to the drug enforcement administration for disposition.

(g)(1) When property is forfeited, the seizing agency shall keep a record indicating the identity of the prior owner, if known, a description of the property, the disposition of the property, the value of the property at the time of seizure, and the amount of proceeds realized from disposition of the property.

(2) Each seizing agency shall retain records of forfeited property for at least seven years.

(3) Each seizing agency shall file a report including a copy of the records of forfeited property with the state treasurer each calendar quarter.

(4) The quarterly report need not include a record of forfeited property that is still being held for use as evidence during the investigation or prosecution of a case or during the appeal from a conviction.

(h)(1) By January 31st of each year, each seizing agency shall remit to the state treasurer an amount equal to ten percent of the net proceeds of any property forfeited during the preceding calendar year. Money remitted shall be deposited in the drug enforcement and education account under RCW 69.50.520.

(2) The net proceeds of forfeited property is the value of the forfeitable interest in the property after deducting the cost of satisfying any bona fide security interest to which the property is subject at the time of seizure; and in the case of sold property, after deducting the cost of sale, including reasonable fees or commissions paid to independent selling agents, and the cost of any valid landlord's claim for damages under subsection (n) of this section.

(3) The value of sold forfeited property is the sale price. The value of retained forfeited property is the fair market value of the property at the time of seizure, determined when possible by reference to an applicable commonly used index, such as the index used by the department of licensing for valuation of motor vehicles. A seizing agency may use, but need not use, an independent qualified appraiser to determine the value of retained property. If an appraiser is used, the value of the property appraised is net of the cost of the appraisal. The value of destroyed property and retained firearms or illegal property is zero.

(i) Forfeited property and net proceeds not required to be paid to the state treasurer shall be retained by the seizing law enforcement agency exclusively for the expansion and improvement of controlled substances related law enforcement activity. Money retained under this section may not be used to supplant preexisting funding sources.

(j) Controlled substances listed in Schedule I, II, III, IV, and V that are possessed, transferred, sold, or offered for sale in violation of this chapter are contraband and shall be seized and summarily forfeited to the state. Controlled substances listed in Schedule I, II, III, IV, V, which are seized or come into the possession of the board, the owners of which are unknown, are contraband and shall be summarily forfeited to the board.

(k) Species of plants from which controlled substances in Schedules I and II may be derived which have been planted or cultivated in violation of this chapter, or of which the owners or cultivators are unknown, or which are wild growths, may be seized and summarily forfeited to the board.

(l) The failure, upon demand by a board inspector or law enforcement officer, of the person in occupancy or in control of land or premises upon which the species of plants are growing or being stored to produce an appropriate registration or proof that he is the holder thereof constitutes authority for the seizure and forfeiture of the plants.

(m) Upon the entry of an order of forfeiture of real property, the court shall forward a copy of the order to the assessor of the county in which the property is located. Orders for the forfeiture of real property shall be entered by the superior court, subject to court rules. Such an order shall be filed by the seizing agency in the county auditor's records in the county in which the real property is located.

(3) A landlord may assert a claim against proceeds from the sale of assets seized and forfeited under subsection (f)(2) of this section, only if:

(i) A law enforcement officer, while acting in his or her official capacity, directly caused damage to the complaining landlord's property while executing a search of a tenant's residence; and

(ii) The landlord has applied any funds remaining in the tenant's deposit, to which the landlord has a right under chapter 59.18 RCW, to cover the damage directly caused by a law enforcement officer prior to asserting a claim under the provisions of this section;

(ii) Only if the government entity denies or fails to respond to the landlord's claim within sixty days of the date of filing, may the landlord collect damages under this subsection by filing within thirty days of denial or the expiration of the sixty-day period, whichever occurs first, a claim with the seizing law enforcement agency. The seizing law enforcement agency must notify the landlord of the status of the claim by the end of the thirty-day period. Nothing in this section requires the claim to be paid by the end of the sixty-day or thirty-day period.

(3) For any claim filed under (2) of this subsection, the law enforcement agency shall pay the claim unless the agency provides substantial proof that the landlord either:

(i) Knew or consented to actions of the tenant in violation of this chapter or chapter 69.41 or 69.52 RCW; or

(ii) Failed to respond to a notification of the illegal activity, provided by a law enforcement agency under RCW 59.18.075, within seven days of receipt of notification of the illegal activity.

(c) The landlord's claim for damages under subsection (n) of this section may not include a claim for loss of business and is limited to:

(1) Damage to tangible property and clean-up costs;

(2) The lesser of the cost of repair or fair market value of the damage directly caused by a law enforcement officer;

(3) The proceeds from the sale of the specific tenant's property seized and forfeited under subsection (f)(2) of this section;

and

(4) The proceeds available after the paying the law enforcement agency satisfies any bona fide security interest in the tenant's property and costs related to sale of the tenant's property as provided by subsection (n) of this section, the rights the
landlord has against the tenant for damages directly caused by a law enforcement officer under the terms of the landlord and tenant’s contract are subrogated to the law enforcement agency.

NEW SECTION. Sec. 2. A new section is added to chapter 46.61 RCW to read as follows:

(1) Upon the conviction of the owner when that conviction is the second or subsequent conviction for a violation of RCW 46.61.502 or 46.61.504 within a five-year period, subject to seizure and forfeiture and no property right exists in that vehicle.

(2) A forfeiture of a vehicle encumbered by a bona fide security interest is subject to the interest of the secured party if the secured party neither had knowledge of nor consented to the violation of RCW 46.61.502 or 46.61.504.

NEW SECTION. Sec. 3. A new section is added to chapter 46.61 RCW to read as follows:

(1) Whenever a person is charged with a violation of RCW 46.61.502 or 46.61.504 and that person has been previously convicted for a violation of RCW 46.61.502 or 46.61.504 within a five-year period, the court shall instruct the person charged of the provisions of section 5 of this act and shall immediately forward notice of the charge to the director.

(2) Upon the conviction or acquittal of the person charged or if a pending charge is otherwise terminated, the court shall immediately forward notice of the conviction, acquittal, or other termination of charge to the director.

NEW SECTION. Sec. 4. A new section is added to chapter 46.12 RCW to read as follows:

(1) Upon the conviction or acquittal of the person charged or if a pending charge is otherwise terminated, the court shall immediately forward notice of the conviction, acquittal, or other termination of charge to the director.
Upon receiving notice of a charge under section 3 of this act, the director shall withhold the issuance of a certificate of ownership on a vehicle subject to section 5 of this act unless the applicant is included in the exceptions listed in that section or until receiving notice of acquittal or other termination of the charge under section 3 of this act.

NEW SECTION. Sec. 5. A new section is added to chapter 46.12 RCW to read as follows:

It is unlawful to convey, sell, or transfer the ownership of a motor vehicle that was driven by or was under the actual physical control of the owner of the vehicle who has previously been convicted for a violation of RCW 46.61.502 or 46.61.504 within a five-year period and is currently charged with a violation of RCW 46.61.502 or 46.61.504, except that:

1. A vehicle encumbered by a bona fide security interest may be transferred to the secured party or to a person designated by the secured party; and

2. A leased vehicle may be transferred to the lessor or to a person designated by the lessor.

Includes "NEW ITEM": YES

Redefining the relationship between the state and its postsecondary institutions

MR. SPEAKER:

MR. PRESIDENT:

We of your Conference Committee, to whom was referred SECOND SUBSTITUTE SENATE BILL 5836, redefining the relationship between the state and its postsecondary institutions, have had the same under consideration and we recommend that
the House Higher Education Committee amendments not be adopted, and that the following Conference Committee striking amendment be adopted:

Strike everything after the enacting clause and insert the following:

**NEW SECTION. Sec. 1.** The legislature finds a need to redefine the relationship between the state and its postsecondary education institutions through a compact based on trust, evidence, and a new alignment of responsibilities. As the proportion of the state budget dedicated to postsecondary education programs has continued to decrease and the opportunity for this state’s citizens to participate in such programs also has declined, the state institutions of higher education have increasingly less flexibility to respond to emerging challenges through innovative management and programming. The legislature finds that this state has not provided its institutions of higher education with the ability to effectively achieve state-wide goals and objectives to increase access to, improve the quality of, and enhance the accountability for its postsecondary education system.

Therefore, the legislature declares that the policy of the state of Washington is to create an environment in which the state institutions of higher education have the authority and flexibility to enhance attainment of state-wide goals and objectives for the state’s postsecondary education system through decisions and actions at the local level. The policy shall have the following attributes:

1. The accomplishment of equitable and adequate enrollment by significantly raising enrollment lids, adequately funding those increases, and providing sufficient financial aid for the neediest students;
2. The development and use of a new definition of quality measured by effective operations and clear results; the efficient use of funds to achieve well-educated students;
3. The attainment of a new resource management relationship that removes the state from micromanagement, allows institutions greater management autonomy to focus resources on essential functions, and encourages innovation; and
4. The development of a system of coordinated planning and sufficient feedback to assure policymakers and citizens that students are succeeding and resources are being prudently deployed.

**NEW SECTION. Sec. 2.** A new section is added to chapter 28B.80 RCW to read as follows:

1. At the state level, the higher education institutional responsibilities include but are not limited to:
   a. Development and provision of strategic plans under the guidelines established by the higher education coordinating board.
   In developing their strategic plans, the research universities shall consider the feasibility of significantly increasing the number of evening graduate classes;
   b. For the four-year institutions of higher education, timely provision of information required by the higher education coordinating board to report to the governor, the legislature, and the citizens;
   c. Provision of local student financial aid delivery systems to achieve both state-wide goals and institutional objectives in concert with state-wide policy; and
   d. Operating as efficiently as feasible within institutional missions and goals.
2. At the state level, the higher education coordinating board shall be responsible for:
   a. Delineation and coordination of strategic plans to be prepared by the institutions;
   b. Preparation of reports to the governor, the legislature, and the citizens on program accomplishments and use of resources by the institutions;
   c. Administration and policy implementation for state-wide student financial aid programs; and
   d. Assistance to institutions in improving operational efficiency through measures that include periodic review of program efficiencies.
3. At the state level, on behalf of community colleges and technical colleges, the state board for community and technical colleges shall coordinate and report on the system’s strategic plans and shall provide any information required of its colleges by the higher education coordinating board.

**NEW SECTION. Sec. 3.** A new section is added to chapter 28B.80 RCW to read as follows:

In cooperation with institutions of higher education, the state board for community and technical colleges, and appropriate state and local agencies, the higher education coordinating board may identify methods to reduce administrative barriers to efficient institutional operations. These methods may include waiver of statutory requirements and administrative rules. The higher education coordinating board shall report to the governor and appropriate legislative committees its recommendations for any statutory changes necessary to enhance institutional efficiencies. In cooperation with affected institutions, the board shall work with appropriate agencies to reduce administrative barriers that do not require statutory changes.

**NEW SECTION. Sec. 4.** A new section is added to chapter 28B.80 RCW to read as follows:

The higher education coordinating board, in conjunction with the four-year institutions of higher education, shall conduct a study of higher education system operations to identify efficiencies to increase access to, improve the quality of, and reduce the cost of higher education. This study shall include but not be limited to:

1. Examining potential unnecessary duplicative and low-productivity programs for possible consolidation or termination;
2. Developing criteria for and conducting an evaluation of faculty productivity;
3. Reviewing and developing recommendations on appropriate institutional roles for providing remedial instruction;
4. Exploring the potential for greater use of the public higher education system physical plant and other resources through such means as expanded operations during summer terms, evenings, and weekends;
5. Examining the effectiveness of proposals on variable tuition rates and faculty salary incentives; and
6. Identifying ways for institutions to share resources, faculty, and curricula through collaboration with other public and private postsecondary institutions and common school districts in their service areas to increase student opportunities and reduce costs. Analyses shall include clear articulation of functions among institutions, means to reduce duplication, and policies to facilitate student movement among institutions.

**NEW SECTION. Sec. 5.** A new section is added to chapter 28B.80 RCW to read as follows:

The higher education coordinating board, in conjunction with the state board for community and technical colleges and the institutions of higher education, shall report regularly to the legislature and the citizens the accomplishments of, expenditures for, and requirements of the postsecondary education system in the state of Washington. The state board for community and technical colleges and the state institutions of higher education shall report uniformly to the higher education coordinating board, on an annual basis, the information necessary to prepare the report. Independent colleges and universities are encouraged to
cooperate with this effort and to provide to the board information in a uniform format developed by the board, in cooperation with
the institutions. Examples of performance measures that could be included are:
(1) Retention and graduation rates;
(2) Average time to a degree;
(3) Credit hours per degree awarded;
(4) Degrees awarded by discipline and by level;
(5) Multiple degrees;
(6) Measures taken to reduce duplicative courses, programs, and requirements;
(7) Student-faculty contact hours;
(8) Placement rates;
(9) Success in recruiting and graduating underrepresented groups;
(10) Various fiscal and management measures; and
(11) Demographic information on enrolled students, including but not limited to socioeconomic and ethnic backgrounds.

Sec. 6. RCW 28B.80.330 and 1985 c 370 s 4 are each amended to read as follows:

The board shall perform the following planning duties in consultation with the four-year institutions, the community and technical college system, and when appropriate the (commission for vocational education) workforce training and education coordinating board, the superintendent of public instruction (for the vocational technical institutes), and the independent higher educational institutions:

(1) Develop and establish role and mission statements for each of the four-year institutions and for the community and technical college system;
(2) Identify the state's higher education goals, objectives, and priorities;
(3) Prepare a comprehensive master plan which includes but is not limited to:
   (a) Assessments of the state's higher education needs. These assessments may include, but are not limited to: The basic and continuing needs of various age groups; business and industrial needs for a skilled workforce; analyses of demographic, social, and economic trends; consideration of the changing ethnic composition of the population and the special needs arising from such trends; college attendance, retention, and dropout rates, and the needs of recent high school graduates and placebound adults. The board should consider the needs of residents of all geographic regions, but its initial priorities should be applied to heavily populated areas underserved by public institutions;
   (b) Recommendations on enrollment and other policies and actions to meet those needs;
   (c) Guidelines for continuing education, adult education, public service, and other higher education programs.

The initial plan shall be submitted to the governor and the legislature by December 1, 1987. Comments on the plan from the board's advisory committees and the institutions shall be submitted with the plan.

The plan shall be updated (biennially) every four years, and presented to the governor and the appropriate legislative policy committees. Following public hearings, the legislature shall, by concurrent resolution, approve or recommend changes to the initial plan, and the (biennial) updates. The plan shall then become state higher education policy unless legislation is enacted to alter the policies set forth in the plan;
(4) Review, evaluate, and make recommendations on operating and capital budget requests from four-year institutions and the community and technical college system, based on the elements outlined in subsections (1), (2), and (3) of this section, and on guidelines which outline the board's fiscal priorities. These guidelines shall be distributed to the institutions and the community college board by December of each odd-numbered year. The institutions and the community college board shall submit an outline of their proposed budgets, identifying major components, to the board no later than August 1 of each even-numbered year. The board shall submit recommendations on the proposed budgets and on the board's budget priorities to the office of financial management before October 15 of each even-numbered year, and to the legislature by January 1 of each odd-numbered year;
(5) Recommend legislation affecting higher education;
(6) Recommend tuition and fees policies and levels based on comparisons with peer institutions;
(7) Establish priorities and develop recommendations on financial aid based on comparisons with peer institutions;
(8) Prepare recommendations on merging or closing institutions; and
(9) Develop criteria for identifying the need for new baccalaureate institutions.

NEW SECTION. Sec. 7. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993.

Modifying process and procedures for disciplining of health care professionals

MR. SPEAKER:

We of your Conference Committee, to whom was referred ENGROSSED SUBSTITUTE SENATE BILL NO. 5948, modifying process and procedures for disciplining of health care professionals, have had the same under consideration and we recommend that the House Health Care Committee amendment, as amended, adopted April 17, 1993, be adopted with the following change:

On page 2, line 26, of the amendment strike all of subsection (3) and insert

"(3) Only upon the authorization of a disciplinary authority identified in RCW 18.130.040(2)(b), the secretary, or his or her designee, may serve as the presiding officer for any disciplinary proceedings of the disciplinary authority authorized under this chapter. The presiding officer shall not vote on any final decision. All functions performed by the presiding officer shall be subject to chapter 34.05 RCW. The secretary, in consultation with the disciplinary authorities, shall adopt procedures for implementing this subsection. This subsection shall not apply to the board of funeral directors and embalmers."

and that the bill do pass as recommended by the Conference Committee.

Signed by: Senators Talmadge, Deccio, Niemi; Representatives L. Johnson, Campbell, Dyer.

MOTION

Senator Talmadge moved that the Senate adopt the Report of the Conference Committee on Engrossed Substitute Senate Bill No. 5948.

POINT OF INQUIRY

Senator Nelson: "Senator Talmadge, I notice, and you brought up the fact, that we have removed in Section 3 the pharmacists and pharmacy assistants. Where, now, do those individual disciplines find themselves in the process of complaints that might be rendered against them? We've stricken them from--"

Senator Talmadge: "I'm not for certain what--"

Senator Nelson: "We've stricken them here from Chapter 18.130 and where have we put them now? Where do individuals go if they have a complaint against a pharmacist or a pharmacy assistant? In the old language, it was all under the Board of Pharmacy."

Senator Talmadge: "They are under the Uniform Disciplinary Act, Senator. If you go to Section 4, you will find health care assistants in Section xiii on page 6 and the pharmacists in ix. Both are under the Disciplinary Act. The idea was to take and have these health care professionals be under the same set of standards for discipline as we provide for all other professionals rather than have them handle disciplinary matters in a separate setting. It is under RCW 18.130, the State's Uniform Disciplinary Act. These individuals would be handled in the same way that we handle all other health care professionals."

Senator Nelson: "Well, I went there, Senator Talmadge, and I couldn't find pharmacists in that section."

Senator Talmadge: "In Section 4 on page 5 and page 6? Line 4 on page 8 is health care assistants certified under chapter 18.135."

Senator Nelson: "That's pharmacists?"

Senator Talmadge: "No, that's health care assistants. On page 6, lines 29 and 30, the board of pharmacy as established in chapter 18.64 RCW governing licenses issued under chapters 18.64 and 18.64A RCW, which are pharmacists."

Senator Nelson: "Thank you."
The President declared the question before the Senate to be the motion by Senator Talmadge that the Senate do adopt the Report of the Conference Committee on Engrossed Substitute Senate Bill No. 5948. The motion by Senator Talmadge carried and the Report of the Conference Committee on Engrossed Substitute Senate Bill No. 5948 was adopted.

The President declared the question before the Senate to be the roll call on the final passage of Engrossed Substitute Senate Bill No. 5948, as recommended by the Conference Committee.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 5948, as recommended by the Conference Committee, and the bill passed the Senate by the following vote: Yeas, 43; Nays, 0; Absent, 0; Excused, 6.

ENGROSSED SUBSTITUTE SENATE BILL NO. 5948, as recommended by the Conference Committee, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

The department may request a waiver to, or seek an alternate method of compliance with, the federal requirement for a licensed on-site administrator during a transition phase from July 1, 1993, to June 30, 1994.

"NEW SECTION. Sec. 1. The legislature finds that student achievement in Washington must be improved to keep pace with societal changes, changes in the workplace, and an increasingly competitive international economy.

To increase student achievement, the legislature finds that the state of Washington needs to develop a public school system that focuses more on the educational performance of students, that includes high expectations for all students, and that provides more flexibility for school boards and educators in how instruction is provided.

The legislature further finds that improving student achievement will require:
(1) Establishing what is expected of students, with standards set at internationally competitive levels;
(2) Parents to be primary partners in the education of their children, and to play a significantly greater role in local school decision making;
(3) Students taking more responsibility for their education;
(4) Time and resources for educators to collaboratively develop and implement strategies for improved student learning;
before July 1, 1992, and (5) the knowledge and skills all public school students need to know and able to do based on the student learning goals [(of the governor's council on education reform and funding)] in RCW 28A.150.210, to develop student assessment and school accountability systems, and to take other steps necessary to develop a performance-based education system. The commission shall include three members of the state board of education, three members appointed by the governor before July 1, 1992, and (three) five members appointed no later than June 1, 1993, by the governor elected in the

PART II
COMMISSION ON STUDENT LEARNING

NEW SECTION. Sec. 201. A new section is added to chapter 28A.630 RCW to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout RCW 28A.630.885 and 28A.300.130.

1. "Commission" means the commission on student learning created in RCW 28A.630.885.
3. "Essential academic learning requirements" means more specific academic and technical skills and knowledge, based on the student learning goals, as determined under RCW 28A.630.885(3)(a). Essential academic learning requirements shall not limit the instructional strategies used by schools or school districts or require the use of specific curriculum.
4. "Performance standards" or "standards" means the criteria used to determine if a student has successfully learned the specific knowledge or skill being assessed as determined under RCW 28A.630.885(3)(b). The standards should be set at internationally competitive levels.
5. "Assessment system" or "student assessment system" means a series of assessments used to determine if students have successfully learned the essential academic learning requirements. The assessment system shall be developed under RCW 28A.630.885(3)(b).
6. "Performance-based education system" means an education system in which a significantly greater emphasis is placed on how well students are learning, and significantly less emphasis is placed on state-level laws and rules that dictate how instruction is to be provided. The performance-based education system does not require that schools use an outcome-based instructional model. Decisions regarding how instruction is provided are to be made, to the greatest extent possible, by schools and school districts, not by the state.

Sec. 202. RCW 28A.630.885 and 1992 c 141 s 202 are each amended to read as follows:

(1) (i) The Washington commission on student learning is hereby established. The academic assessment system shall include a variety of (methodologies) assessment methods, including performance-based measures that are criterion-referenced. Performance standards for determining if a student has successfully completed an assessment shall be initially determined by the commission in consultation with the advisory committees required in subsection (2) of this section.

The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who ((do)) have not ((mastered)) mastered the essential academic learning requirements at the appropriate periods in the student’s educational development.

Beginning in the 2000-2001 school year, all school districts shall be required to participate in the assessment system.

(v) The state board of education and superintendent of public instruction may modify the essential academic learning requirements for use in the assessment system, as needed, in subsequent school years.

The certificate of mastery shall be required for graduation but shall not be the only requirement for graduation.
(The assessment system shall be designed so that the results are used by educators to evaluate instructional practices, and to initiate appropriate educational support for students who do not master the essential academic learning requirements.))

Signed by Senators Pelz, McAuliffe; Representatives Dorn, Brough, Cothern.

MOTION
Senator Pelz moved that the Senate adopt the Report of the Conference Committee on Engrossed Substitute House Bill No. 1209.

POINT OF INQUIRY

Senator Erwin: "Senator Pelz, the HIV testing and sex education and things like that, that at one time were in the section of the bill, where it would have ruined the bill to veto that section out and now it is all by itself. Is there some indication from the Governor on what he plans to do on that?"

Senator Pelz: "I have to confess that during the conference process, I think I overlooked the fact that that language had fallen out and I apologize for that. However, that language was a reiteration of exiting law that we had placed into the bill to clearly delineate for people with concerns that we recognize their concerns. That existing statute is in Washington law and we continue to apply to our K-12 system under this new bill."

Further debate ensued.

The President declared the question before the Senate to be the motion by Senator Pelz that the Senate do adopt the Report of the Conference Committee on Engrossed Substitute House Bill No. 1209.

The motion by Senator Pelz carried and the Report of the Conference Committee on Engrossed Substitute House Bill No. 1209 was adopted.

(1) The legislative body of a city with a population of over ten thousand in a county that is the smallest county in a metropolitan statistical area defined on the effective date of this act that has a population of between thirty-eight thousand and fifty thousand may levy and collect a special excise tax not to exceed two percent on the sale of or charge made for the furnishing of lodging by a hotel, roominghouse, tourist court, motel, trailer camp, and the granting of a similar license to use real property, as distinguished from the renting or leasing of real property. For the purposes of this tax, it is presumed that the occupancy of real property for a continuous period of one month or more constitutes a rental or lease of real property and not a mere license to use or to enjoy the property.

The tax levied and collected under this section must be credited to a special fund of the city. The taxes may be levied only for the purpose of paying any part of the cost of siting, acquisition, construction, operation, and maintenance of a trade recreation agricultural center, which facility includes an exhibition hall, a meeting and convention center, and an agricultural arena, in the city and may be used for and pledged to the payment of bonds, leases, or other obligations incurred for these purposes.

Sec. 2. RCW 67.28.200 and 1991 c 331 s 2 are each amended to read as follows:

The legislative body of any county or city may establish reasonable exemptions and may adopt such reasonable rules and regulations as may be necessary for the levy and collection of the taxes authorized ((by RCW 67.28.180, 67.28.182, and 67.28.230 through 67.28.250, and 67.28.260) under this chapter. MR. PRESIDENT:

MR. SPEAKER:

We of your CONFERENCE COMMITTEE, to whom was referred SUBSTITUTE HOUSE BILL NO. 2055, Fish and wildlife department, have had the same under consideration and we recommend that:

The Senate Committee on Natural Resources striking amendment(s) adopted, as amended, on April 12, 1993, not be adopted, and that the following Conference Committee striking amendments be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. Perpetuation of fish and wildlife in Washington requires clear, efficient, streamlined, scientific, management from a single state fish and wildlife agency. Such a consolidation will focus existing funds for the greatest protection of species and stocks. It will bring combined resources to bear on securing, managing, and enhancing habitats. It will simplify licensing, amplify research, increase field staff, avoid duplication, and magnify enforcement of laws and rules. It will provide all fishers, hunters, and observers of fish and wildlife with a single source of consistent policies, procedures, and access.

NEW SECTION. Sec. 2. There is hereby created a department of state government to be known as the department of fish and wildlife. The department shall be vested with all powers and duties transferred to it under this chapter and such other
powers and duties as may be authorized by law. All powers, duties, and functions of the department of fisheries and the department of wildlife are transferred to the department of fish and wildlife. All references in the Revised Code of Washington to the director or the department of fisheries or the director or department of wildlife shall be construed to mean the director or department of fish and wildlife.

NEW SECTION. Sec. 3. As used in this chapter, unless the context indicates otherwise:
(1) "Department" means the department of fish and wildlife.
(2) "Director" means the director of fish and wildlife.
(3) "Commission" means the fish and wildlife commission.

NEW SECTION. Sec. 4. The executive head and appointing authority of the department shall be the director. (4) Adopt rules in accordance with chapter 34.05 RCW, the administrative procedure act;
(5) Delegate powers, duties, and functions as the director deems necessary for efficient administration but the director shall be responsible for the official acts of the officers and employees of the department;
(6) Appoint advisory committees and undertake studies, research, and analysis necessary to support the activities of the department;
(7) Accept and expend grants, gifts, or other funds to further the purposes of the department;
(8) Carry out basic goals and objectives as prescribed by the fish and wildlife commission pursuant to RCW 77.04.055; and
(9) Perform other duties as are necessary and consistent with law.

NEW SECTION. Sec. 6. The director shall appoint such deputy directors, assistant directors, and up to seven special assistants as may be needed to administer the department. These employees are exempt from the provisions of chapter 41.06 RCW.

NEW SECTION. Sec. 7. The director of fisheries and the director of wildlife shall, by November 15, 1993, jointly submit a plan to the governor for the consolidation and smooth transition of the department of fisheries and the department of wildlife in such a manner that the department of fish and wildlife will operate as a single entity on July 1, 1994. The legislative budget committee shall study the role of the fish and wildlife commission and prepare a report on recommended changes to the governor and the appropriate standing committees of the legislature by December 1, 1994.

NEW SECTION. Sec. 8. The department of fisheries and the department of wildlife are abolished and their powers, duties, and functions are transferred to the department of fish and wildlife.

NEW SECTION. Sec. 9. All reports, documents, surveys, books, records, files, papers, or written material connected with the powers, duties, and functions transferred in this act shall be delivered to the custody of the department of fish and wildlife. All cabinets, furniture, office equipment, motor vehicles, and other tangible property employed in connection with the powers, duties, and functions transferred shall be made available to the department of fish and wildlife. All funds, credits, or other assets held in connection with the powers, duties, and functions transferred shall be assigned to the department of fish and wildlife.

All existing contracts, obligations, and agreements shall remain in full force and shall be performed by the department of fish and wildlife.

NEW SECTION. Sec. 12. The transfer of the powers, duties, functions, and personnel shall not affect the validity of any act performed by any employee before the effective date of this section.

The department of ((fisheries, the department of)) fish and wildlife, the department of ecology, and the department of natural resources shall jointly develop an informational brochure that describes when permits and any other authorizations are required for flood damage prevention and reduction projects, and recommends ways to best proceed through the various regulatory permitting processes.
The director of ecology shall give the director (of fisheries and the director of wildlife) notice of each application for a permit to divert or store water. The director (of fisheries and director of wildlife have) has thirty days after receiving the notice to state (their objections or her objections) or issue the permit. The permit shall not be issued until the thirty-day period has elapsed.

The director of ecology may refuse to issue a permit if, in the opinion of the director (of fisheries or director of wildlife), issuing the permit might result in lowering the flow of water in a stream below the flow necessary to adequately support food fish and game fish populations in the stream.

The provisions of this section shall in no way affect existing water rights.

Sec. 30. RCW 75.20.100 and 1991 c 322 s 30 are each amended to read as follows:

In the event that any person or government agency desires to construct any form of hydraulic project or perform other work that will use, divert, obstruct, or change the natural flow or bed of any of the salt or fresh waters of the state, such person or government agency shall, before commencing construction or work thereon and to ensure the proper protection of fish life, secure the written approval of the department (of fisheries or the department of wildlife) as to the adequacy of the means proposed for the protection of fish life. This approval shall not be unreasonably withheld. Except as provided in RCW 75.20.1001 and 75.20.1002, the department (of fisheries or the department of wildlife) shall grant or deny approval within forty-five calendar days of the receipt of a complete application and notice of compliance with any applicable requirements of the state environmental policy act, made in the manner prescribed in this section. A complete application for approval shall contain general plans for the overall project, complete plans and specifications of the proposed construction or work within the mean higher high water line in salt water or within the ordinary high water line in fresh water, and complete plans and specifications for the proper protection of fish life. The forty-five day requirement shall be suspended if (1) after ten working days of receipt of the application, the applicant remains unavailable or unable to arrange for a timely field evaluation of the proposed project; (2) the site is physically inaccessible for inspection; or (3) the applicant requests delay.

Immediately upon determination that the forty-five day period is suspended, the department (of fisheries or the department of wildlife) shall notify the applicant in writing of the reasons for the delay. Approval is valid for a period of up to five years from date of issuance. The permittee must demonstrate substantial progress on construction of that portion of the project relating to the approval within two years of the date of issuance. If, either the department (of fisheries or the department of wildlife) denies approval, (that) the department shall provide the applicant, in writing, a statement of the specific reasons why and how the proposed project would adversely affect fish life. Protection of fish life shall be the only ground upon which approval may be denied or conditioned.

Chapter 34.05 RCW applies to any denial of project approval, conditional approval, or requirements for project modification upon which approval may be contingent. If any person or government agency commences construction on any hydraulic works or projects subject to this section without first having obtained written approval of the department (of fisheries or the department of wildlife) as to the adequacy of the means proposed for the protection of fish life, or if any person or government agency fails to follow or carry out any of the requirements or conditions as are made a part of such approval, the person or director of the agency is guilty of a gross misdemeanor. If any such person or government agency is convicted of violating any of the provisions of this section and continues construction on any such works or projects without fully complying with the provisions hereof, such works or projects are hereby declared a public nuisance and shall be subject to abatement as such.

For the purposes of this section and RCW 75.20.103, "bed" shall mean the land below the ordinary high water lines of state waters. This definition shall not include irrigation ditches, canals, storm water run-off devices, or other artificial watercourses except where they exist in a natural watercourse that has been altered by man.

The phrase "to construct any form of hydraulic project or perform other work" shall not include the act of driving across an established ford. Driving across streams or on wetted stream beds at areas other than established fords requires approval. Work within the ordinary high water line of state waters to construct or repair a ford or crossing requires approval.

(For each application, the department of fisheries and the department of wildlife shall mutually agree on whether the department of fisheries or the department of wildlife shall administer the provisions of this section, in order to avoid duplication of effort. The department designated to act shall cooperate with the other department in order to protect all species of fish life found at the project site. If the department of fisheries or the department of wildlife receives an application concerning a project not in its jurisdiction, it shall transmit the application to the other department within three days and notify the applicant.)

In case of an emergency arising from weather or stream flow conditions or other natural conditions, the department (of fisheries or department of wildlife), through (their) its authorized representatives, shall issue immediately upon request oral approval for removing any obstructions, repairing existing structures, restoring stream banks, or to protect property threatened by the stream or a change in the stream flow without the necessity of obtaining a written approval prior to commencing work. Conditions of an oral approval shall be reduced to writing within thirty days and complied with as provided for in this section. Oral approval shall be granted immediately upon request, for a stream crossing during an emergency situation.

This section shall not apply to the construction of any form of hydraulic project or other work which diverts water for agricultural irrigation or stock watering purposes authorized under or recognized as being valid by the state’s water codes, or when such hydraulic project or other work is associated with streambank stabilization to protect farm and agricultural land as defined in RCW 84.34.020. These irrigation or stock watering diversion and streambank stabilization projects shall be governed by RCW 75.20.103.

Sec. 31. RCW 75.20.1001 and 1991 c 322 s 12 are each amended to read as follows:

The department (of fisheries and the department of wildlife) shall process hydraulic project applications submitted under RCW 75.20.100 or 75.20.103 within thirty days of receipt of the application. This requirement is only applicable for the repair and reconstruction of legally constructed dikes, seawalls, and other flood control structures damaged as a result of flooding or windstorms that occurred in November and December 1990.

Sec. 32. RCW 75.20.103 and 1991 c 322 s 31 are each amended to read as follows:

In the event that any person or government agency desires to construct any form of hydraulic project or other work that diverts water for agricultural irrigation or stock watering purposes, or when such hydraulic project or other work is associated with streambank stabilization to protect farm and agricultural land as defined in RCW 84.34.020, and when such diversion or streambank stabilization is used, divert, obstruct, or change the natural flow of any river or stream or will utilize any waters of the state or materials from the stream beds, the person or government agency shall, before commencing construction or work thereon and to ensure the proper protection of fish life, secure a written approval from the department (of fisheries or the department of wildlife) as to the adequacy of the means proposed for the protection of fish life. This approval shall not be unreasonably withheld. Except as
provided in RCW 75.20.1001 and 75.20.1002, the department ((of fisheries or the department of wildlife)) shall grant or deny the approval within forty-five calendar days of the receipt of a complete application and notice of compliance with any applicable requirements of the state environmental policy act, made in the manner prescribed in this section. The applicant may document receipt of application by filing in person or by registered mail. A complete application for an approval shall contain general plans for the overall project, complete plans and specifications of the proposed construction or work within ordinary high water line, and complete plans and specifications for the proper protection of fish life. The forty-five day requirement shall be suspended if (1) after ten working days of receipt of the application, the applicant remains unavailable or unable to arrange for a timely field evaluation of the proposed project; (2) the site is physically inaccessible for inspection; or (3) the applicant requests delay.

Immediately upon determination that the forty-five day period is suspended, the department ((of fisheries or the department of wildlife)) shall notify the applicant in writing of the reasons for the delay.

An approval shall remain in effect without need for periodic renewal for projects that divert water for agricultural irrigation or stock watering purposes and that involve seasonal construction or other work. Approval for streambank stabilization projects shall remain in effect without need for periodic renewal if the problem causing the need for the streambank stabilization occurs on an annual or more frequent basis. The permittee must notify the appropriate agency before commencing the construction or other work within the area covered by the approval.

The permittee must demonstrate substantial progress on construction of that portion of the project relating to the approval within two years of the date of issuance. If (either) the department ((of fisheries or the department of wildlife)) denies approval, (that) the department shall provide the applicant, in writing, a statement of the specific reasons why and how the proposed project would adversely affect fish life. Protection of fish life shall be the only ground upon which approval may be denied or conditioned. Issuance, denial, conditioning, or modification shall be appealable to the hydraulic appeals board established in RCW 43.21B.005 within thirty days of the notice of decision. The burden shall be upon the department ((of fisheries or the department of wildlife)) to show that the denial or conditioning of an approval is solely aimed at the protection of fish life.

The department ((granting approval)) may, after consultation with the permittee, modify an approval due to changed conditions. The modifications shall become effective unless appealed to the hydraulic appeals board within thirty days from the notice of the proposed modification. The burden is on the department ((issuing the approval)) to show that changed conditions warrant the modification in order to protect fish life.

A permittee may request modification of an approval due to changed conditions. The request shall be processed within forty-five calendar days of receipt of the written request. A decision by the department ((that issued the approval)) may be appealed to the hydraulic appeals board within thirty days of the notice of the decision. The burden is on the permittee to show that changed conditions warrant the requested modification and that such modification will not impair fish life.

If any person or government agency commences construction on any hydraulic works or projects subject to this section without first having obtained written approval of the department ((of fisheries or the department of wildlife)) as to the adequacy of the means proposed for the protection of fish life, or if any person or government agency fails to follow or carry out any of the requirements or conditions as are made part of such approval, the person or director of the agency is guilty of a gross misdemeanor. If any such person or government agency is convicted of violating any of the provisions of this section and continues construction on any such works or projects without fully complying with the provisions hereof, such works or projects are hereby declared a public nuisance and shall be subject to abatement as such.

Any applicant obstructing the department of fisheries or the department of wildlife shall mutually agree on whether the department of fisheries or the department of wildlife shall administer the provisions of this section, in order to avoid duplication of effort. The department designated to act shall cooperate with the other department in order to protect all species of fish life found at the project site. If the department of fisheries or the department of wildlife receives an application concerning a site not in its jurisdiction, it shall transmit the application to the other department within three days and notify the applicant.

In case of an emergency arising from weather or stream flow conditions or other natural conditions, the department ((of fisheries or the department of wildlife)), through (their) its authorized representatives, shall issue immediately upon request oral approval for removing any obstructions, repairing existing structures, restoring stream banks, or to protect property threatened by the street, or a change in the stream flow within the time of obtaining a written approval prior to commencing work. Conditions of an oral approval shall be reduced to writing within thirty days and complied with as provided for in this section. For purposes of this chapter, "streambank stabilization" shall include but not be limited to log and debris removal, bank protection (including riprap, jetties, and groins), gravel removal and erosion control.

Sec. 33. RCW 75.20.104 and 1991 c 322 s 18 are each amended to read as follows:

Whenever the placement of woody debris is required as a condition of a hydraulic permit approval issued pursuant to RCW 75.20.100 or 75.20.103, the department ((of fisheries or the department of wildlife)), upon request, shall invite comment regarding that placement from the local governmental authority, affected tribes, affected federal and state agencies, and the project applicant.

Sec. 34. RCW 75.20.1041 and 1991 c 322 s 19 are each amended to read as follows:

The department ((of fisheries or the department of wildlife)) and the department of ecology will work cooperatively with the United States army corps of engineers to develop a memorandum of agreement outlining dike vegetation management guidelines so that dike owners are eligible for coverage under P.L. 84-365, and state requirements established pursuant to RCW 75.20.100 and 75.20.103 are met.

Sec. 35. RCW 75.20.106 and 1988 c 36 s 35 are each amended to read as follows:

The department ((of fisheries and the department of wildlife)) may ((each)) levy civil penalties of up to one hundred dollars per day for violation of any provisions of RCW 75.20.100 or 75.20.103. The penalty provided shall be imposed by notice in writing, either by certified mail or personal service to the person incurring the penalty, from the director ((of the appropriate department)) or ((that)) the director's designee describing the violation. Any person incurring any penalty under this chapter may appeal the same under chapter 34.05 RCW to the director ((of the department levying the penalty)). Appeals shall be filed within thirty days of receipt of notice imposing any penalty. The penalty imposed shall become due and payable thirty days after receipt of a notice imposing the penalty unless an appeal is filed. When an appeal is filed, the penalty shall become due and payable only upon completion of all review proceedings and the issuance of a final order confirming the penalty in whole or in part.
If the amount of any penalty is not paid within thirty days after it becomes due and payable the attorney general, upon the request of the director ((of the department of fisheries or the department of wildlife)) shall bring an action in the name of the state of Washington in the superior court of Thurston county or of any county in which such violator may do business, to recover such penalty. In all such actions the procedure and rules of evidence shall be the same as an ordinary civil action. All penalties recovered under this section shall be paid into the state's general fund.

**Sec. 36.** RCW 75.20.110 and 1988 c 36 s 36 are each amended to read as follows:

(1) Except for the north fork of the Lewis river and the White Salmon river, all streams and rivers tributary to the Columbia river downstream from McNary dam are established as an anadromous fish sanctuary. This sanctuary is created to preserve and develop the food fish and game fish resources in these streams and rivers and to protect them against undue industrial encroachment.

(2) Within the sanctuary area:

(a) It is unlawful to construct a dam greater than twenty-five feet high within the migration range of anadromous fish as determined by the director ((of fisheries and the director of wildlife)).

(b) Except by (concurrent) order of the director ((of fisheries and director of wildlife)), it is unlawful to divert water from rivers and streams in quantities that will reduce the respective stream flow below the annual average low flow, based upon data published in United States geological survey reports.

(3) The director (of fisheries and the director of wildlife) may acquire and abate a dam or other obstruction, or acquire any water right vested on a sanctuary stream or river, which is in conflict with the provisions of subsection (2) of this section.

(4) Subsection (2)(a) of this section does not apply to the sediment retention structure to be built on the North Fork Toutle river by the United States army corps of engineers.

**Sec. 37.** RCW 75.20.130 and 1989 c 175 s 160 are each amended to read as follows:

(1) There is hereby created within the environmental hearings office under RCW 43.21B.005 the hydraulic appeals board of the state of Washington.

(2) The hydraulic appeals board shall consist of three members: The director of the department of ecology or the director's designee, the director of the department of agriculture or the director's designee, and the director or the director's designee of the department whose action is appealed under subsection (6) of this section. A decision must be agreed to by at least two members of the board to be final.

(3) The board may adopt rules necessary for the conduct of its powers and duties or for transacting other official business.

(4) The board shall make findings of fact and prepare a written decision in each case decided by it, and that finding and decision shall be effective upon being signed by two or more board members and being filed at the hydraulic appeals board's principal office, and shall be open to public inspection at all reasonable times.

(5) The board shall have exclusive jurisdiction to hear appeals arising from the approval, denial, conditioning, or modification of a hydraulic approval issued by the department (of fisheries and the department of wildlife) under the authority granted in RCW 75.20.103 for the diversion of water for irrigation or stock watering purposes or when associated with streambank stabilization to protect farm and agricultural land as defined in RCW 84.34.020.

(6)(a) Any person aggrieved by the approval, denial, conditioning, or modification of a hydraulic approval pursuant to RCW 75.20.103 may seek review from the board by filing a request for the same within thirty days of notice of the approval, denial, or modification of such approval.

(b) The review proceedings authorized in (a) of this subsection are subject to the provisions of chapter 34.05 RCW pertaining to procedures in adjudicative proceedings.

**Sec. 38.** RCW 75.20.300 and 1989 c 213 s 3 are each amended to read as follows:

(1) The legislature intends to expedite flood-control, acquisition of sites for sediment retention, and dredging operations in those rivers affected by the May 1980 eruption of Mt. St. Helens, while continuing to protect the fish resources of these rivers.

(2) The director (of fisheries and director of wildlife) shall process hydraulic project applications submitted under RCW 75.20.100 within fifteen working days of receipt of the application. This requirement is only applicable to flood control and dredging projects located in the Cowlitz river from mile 22 to the confluence with the Columbia, and in the Toutle river from the mouth to the North Fork Toutle sediment dam site at North Fork mile 12, and to river mile 3 on the South Fork Toutle river, and volcano-affected areas of the Columbia river.

(3) For the purposes of this section, the emergency provisions of RCW 75.20.100 may be initiated by the county legislative authority if the project is necessary to protect human life or property from flood hazards, including:

(a) Flood fight measures necessary to provide protection during a flood event; or

(b) Measures necessary to reduce or eliminate a potential flood threat when other alternative measures are not available or cannot be completed prior to the expected flood threat season; or

(c) Measures which must be initiated and completed within an immediate period of time and for which processing of the request through normal methods would cause a delay to the project and such delay would significantly increase the potential for damages from a flood event.

(4) This section does not apply to the sediment retention structure to be built on the North Fork Toutle river by the United States army corps of engineers.

(5) This section expires on June 30, 1995.

**Sec. 39.** RCW 75.20.310 and 1988 c 36 s 39 are each amended to read as follows:

The legislature recognizes the need to mitigate the effects of sedimentary build-up and resultant damage to fish population in the Toutle river resulting from the Mt. St. Helens eruption. The state has entered into a contractual agreement with the United States army corps of engineers designed to minimize fish habitat disruption created by the sediment retention structure on the Toutle river, under which the corps has agreed to construct a fish collection facility at the sediment retention structure site conditional upon the state assuming the maintenance and operation costs of the facility. The department (of wildlife and the department of fisheries) shall cooperatively operate and maintain a fish collection facility on the Toutle river. (Each agency shall share in the cost of operating and maintaining the facility.)

Signed by: Senators Owen, Oke, Hargrove; Representatives Anderson, Reams, King.

MOTION

Senator Owen moved that the Senate adopt the Report of the Conference Committee on Substitute House Bill No. 2055. Debate ensued.

POINT OF ORDER

Senator Roach: "Mr. President, a point of order. I would ask that you look at the scope and object of the New Section, Section 100. I think this bill is addressing the merger of two departments. This particular section involves the establishing of an arboretum as being a Washington State Park. I don’t think that this is within the scope and object of this bill."

Further debate ensued.

MOTION

On motion of Senator Jesernig, further consideration of Substitute House Bill No. 2055 was deferred.

REPORT OF CONFERENCE COMMITTEE

ESHB 1372 April 24, 1993

Includes "NEW ITEM": YES

Creating the government accountability task force

MR. PRESIDENT:

MR. SPEAKER:

We of your CONFERENCE COMMITTEE, to whom was referred ENGROSSED SUBSTITUTE HOUSE BILL NO. 1372, Emergency communic/privacy, have had the same under consideration and we recommend that:

The Senate Committee on Ways and Means striking amendment(s) adopted on April 16, 1993, not be adopted, and that the following Conference Committee striking amendments be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that many of the systems currently in place for assuring accountability in state government programs are not operated comprehensively, do not take advantage of modern management techniques, and do not contribute adequately to the optimum use of scarce resources. Critical variables that are not always taken into account include whether stated goals and objectives are being achieved, and whether desired results are being accomplished.

Agency executives need more accurate information for setting policy, determining whether new or existing programs are effective, and improving internal controls for agency management. These needs must be met at all levels of operation, and must be clearly communicated to the legislature and all interested parties.

Ensuring accountability in government involves a long-term commitment to policy planning, quality management, and results-oriented evaluation. It is the intent of the legislature to facilitate program evaluations and performance audits of selected state agencies and programs through the coordinated resources of the executive and legislative branches of state government."

Any such bond so furnished shall be conditioned that the person, firm or corporation receiving the advance payment will apply it toward performance of the contract. The responsibility for recovery of erroneous or improper payments made under this section shall lie with the agency head or the agency head's designee in accordance with regulations issued pursuant to this chapter. Nothing in this section shall be construed to permit a public body to advance funds to a private service provider pursuant to a grant or loan before services have been rendered or material furnished.
(6) The state auditor shall:

The auditor may make such a report to a legislative committee only if the auditor has determined that the agency has been given an opportunity and has failed to resolve the management or performance issues raised by the auditor. If the auditor makes a report to a legislative committee, the agency may submit to the committee a response to the report. This subsection (6) shall not be construed to authorize the auditor to allocate other than de minimis resources to performance audits except as expressly authorized in the appropriations acts.

REPORT OF CONFERENCE COMMITTEE

ESHB 1512 April 24, 1993

Includes "NEW ITEM": YES

Changing provisions relating to dependent children

MR. PRESIDENT:

MR. SPEAKER:
We of your CONFERENCE COMMITTEE, to whom was referred ENGROSSED SUBSTITUTE HOUSE BILL NO. 1512, Dependent children, have had the same under consideration and we recommend that:

The Senate striking amendment(s) by Senators Talmadge, Hargrove, Fraser and Roach adopted on April 16, 1993, not be adopted, and that the following Conference Committee striking amendments be adopted:

Strike everything after the enacting clause and insert the following:

Sec. 1. RCW 13.34.145 and 1989 1st ex.s. c 17 s 18 are each amended to read as follows:

(1) In all cases where a child has been placed in substitute care for at least fifteen months, the agency having custody of the child shall prepare a permanency plan and present it in a hearing held before the court no later than eighteen months following commencement of the placement episode.

(2) At the permanency planning hearing, the court shall enter findings as required by RCW 13.34.130((4)(i)(b))((5)). In addition to the court shall: (a) Approve a permanency plan which shall include one of the following: Adoption, guardianship, ((or)) placement of the child in the home of the child's parent, relative placement with written permanency plan, or family foster care with written permanency plan; (b) require filing of a petition for termination of parental rights; or (c) dismiss the dependency, unless the court finds, based on clear, cogent, and convincing evidence, that it is in the best interest of the child to continue the dependency beyond eighteen months, based on ((a permanency plan)) the permanency plan. Extensions may only be granted in increments of twelve months or less.

Sec. 2. RCW 13.34.180 and 1990 c 246 s 7 are each amended to read as follows:

A petition seeking termination of a parent and child relationship may be filed in juvenile court by any party to the dependency proceedings concerning that child. Such petition shall conform to the requirements of RCW 13.34.040, shall be served upon the parties as provided in RCW 13.34.070(7), and shall allege:

(1) That the child has been found to be a dependent child under RCW 13.34.030(2); and
(2) That the court has entered a dispositional order pursuant to RCW 13.34.130; and
(3) That the child has been removed or will, at the time of the hearing, have been removed from the custody of the parent for a period of at least six months pursuant to a finding of dependency under RCW 13.34.030(2); and
(4) That the services ordered under RCW 13.34.130 have been offered or provided and all necessary services, reasonably available, capable of correcting the parental deficiencies within the foreseeable future have been offered or provided; and
(5) That there is little likelihood that conditions will be remedied so that the child can be returned to the parent in the near future. In determining whether the conditions will be remedied the court may consider, but is not limited to, the following factors:

(a) Use of intoxicating or controlled substances so as to render the parent incapable of providing proper care for the child for extended periods of time and documented unwillingness of the parent to receive and complete treatment or documented multiple failed treatment attempts; or
(b) Psychological incapacity or mental deficiency of the parent that is so severe and chronic as to render the parent incapable of providing proper care for the child for extended periods of time, and documented unwillingness of the parent to receive and complete treatment or documentation that there is no treatment that can render the parent capable of providing proper care for the child in the near future; and
(6) That continuation of the parent and child relationship clearly diminishes the child's prospects for early integration into a stable and permanent home; or
(7) In lieu of the allegations in subsections (1) through (6) of this section, the petition may allege that the child was found under such circumstances that the whereabouts of the child's parent are unknown and no person has acknowledged paternity or maternity and requested custody of the child within two months after the child was found.

A parent's failure to substantially improve parental deficiencies within twelve months following entry of the dispositional order shall give rise to a rebuttable presumption that there is little likelihood that conditions will be remedied so that the child can be returned to the parent in the near future. The presumption shall not arise unless the petitioner makes a showing that all necessary services reasonably capable of correcting the parental deficiencies within the foreseeable future have been offered or provided.

Notice of rights shall be served upon the parent, guardian, or legal custodian with the petition and shall be in substantial form:

*NOTE*
(3) The allegation under RCW 13.34.180(7) is established beyond a reasonable doubt. In determining whether RCW 13.34.180(5) and (6) are established beyond a reasonable doubt, the court shall consider whether one or more of the (following:
(a) Conviction of the parent of rape of the child in the first, second, or third degree as defined in RCW 9A.44.073, 9A.44.075, and 9A.44.079;
(b) Conviction of the parent of criminal mistreatment of the child in the first or second degree as defined in RCW 9A.42.020 or 9A.42.030;
(c) Conviction of the parent of one of the following assault crimes, when the child is the victim: Assault in the first or second degree as defined in RCW 9A.36.011 and 9A.36.021 or assault of a child in the first or second degree as defined in RCW 9A.36.120 or 9A.36.130;
(d) Conviction of the parent of murder, manslaughter, or homicide by abuse of the child's other parent, sibling, or another child;
(e) A finding by a court that a parent is a sexually violent predator as defined in RCW 71.09.020;
(f) Failure of the parent to complete available treatment ordered under this chapter or the equivalent laws of another state, where such failure has resulted in a prior termination of parental rights to another child and the parent has failed to effect significant change in the interim; and
(g) aggravated circumstances listed in RCW 13.34.130(2) exist; and
4) Such an order is in the best interests of the child.

Sec. 4. RCW 13.34.232 and 1981 c 195 s 3 are each amended to read as follows:
The court shall hold a fact finding hearing on the petition and, unless the court dismisses the petition, shall make written finding or dispositional hearing if ((all)) the parties, their attorneys, the

NEW SECTION. Sec. 5. A new section is added to chapter 13.34 RCW to read as follows:
(1) The provisions of this section shall apply when a court orders a party to undergo an alcohol or substance abuse diagnostic investigation and evaluation.
(2) The facility conducting the investigation and evaluation shall make a written report to the court stating its findings and recommendations including family-based services or treatment when appropriate. If its findings and recommendations support treatment, it shall also recommend a treatment plan setting out:
(a) Type of treatment;
(b) Nature of treatment;
(c) Length of treatment;
(d) A treatment time schedule; and
(e) Approximate cost of the treatment.

The affected person shall be included in developing the appropriate plan of treatment. The plan of treatment must be signed by treatment provider and the affected person. The initial written report based on the treatment plan and response to treatment shall be sent to appropriate persons six weeks after initiation of treatment, and after three months, after six months, after twelve months, and thereafter every six months if treatment exceeds twelve months. Reports are to be filed in a timely manner. Close-out of the treatment record must include summary of pretreatment and posttreatment, with final outcome and disposition. The report shall also include recommendations for ongoing stability and decrease in destructive behavior.

The report with the treatment plan shall be filed with the court and a copy given to the person evaluated and the person's counsel. A copy of the treatment plan shall also be given to the department's caseworker and to the guardian ad litem. Any program for chemical dependency shall meet the program requirements contained in chapter 70.96A RCW.
(3) If the court has ordered treatment pursuant to a dependency proceeding it shall also require the treatment program to provide, in the reports required by subsection (2) of this section, status reports to the court, the department, the supervising child-placing agency if any, and the person or person's counsel, within twenty-four hours, together with its recommendation. These reports shall be made as a declaration by the person who is personally responsible for providing the treatment.
(4) In addition, if the party fails or neglects to carry out and fulfill any term or condition of the treatment plan, the program or agency administering the treatment shall report such breach to the court, the department, the guardian ad litem, the supervising child-placing agency if any, and the person or person's counsel, within twenty-four hours, together with its recommendation. These reports may be construed as allowing the court to require the department to pay for the cost of any alcohol or substance abuse evaluation or treatment program.

NEW SECTION. Sec. 6. A new section is added to chapter 13.34 RCW to read as follows:
(1) The court or the department, upon receiving a report under section 5(4) of this act, may schedule a show cause hearing to determine whether the person is in violation of the treatment conditions. All parties shall be given notice of the hearing. The court shall hold the hearing within ten days of the request for a hearing. At the hearing, testimony, declarations, reports, or other relevant information may be presented on the person's alleged failure to comply with the treatment plan and the person shall have the right to present similar information on his or her own behalf.
(2) If the court finds that there has been a violation of the treatment conditions it shall modify the dependency order, as necessary, to ensure the safety of the child. The modified order shall remain in effect until the party is in full compliance with the treatment requirements.

Sec. 7. RCW 13.34.110 and 1991 c 340 s 3 are each amended to read as follows:
The court shall hold a fact-finding hearing on the petition and, unless the court dismisses the petition, shall make written findings of fact, stating the reasons therefor, and after it has announced its findings of fact shall hold a hearing to consider disposition of the case immediately following the fact-finding hearing or at a continued hearing within fourteen days or longer for good cause shown. The parties need not appear at the fact-finding or dispositional hearing if ((all)) the parties, their attorneys, the
guardian ad litem, and court-appointed special advocates, if any, are all in agreement. The court shall receive and review a social study before entering an order based on agreement. No social file or social study may be considered by the court in connection with the fact-finding hearing or prior to fact-finding determination, except as otherwise admissible under the rules of evidence. Notice of the time and place of the continued hearing may be given in open court. If notice in open court is not given to a party, that party shall be notified by mail of the time and place of any continued hearing.

All hearings may be conducted at any time or place within the limits of the county, and such cases may not be heard in conjunction with other business of any other division of the superior court. The general public shall be excluded, and only such persons may be admitted who are found by the judge to have a direct interest in the case or in the work of the court. If a child resides in foster care or in the home of a relative pursuant to a disposition order entered under RCW 13.34.130, the court may allow the child's foster parent or relative care provider to attend any dependency review proceedings pertaining to the child for the sole purpose of providing information about the child to the court.

Stenographic notes or any device which accurately records the proceedings may be required as provided in other civil cases pursuant to RCW 2.32.200.

Sec. 8. RCW 13.34.120 and 1987 c 524 s 5 are each amended to read as follows:
(1) To aid the court in its decision on disposition, a social study, consisting of a written evaluation of matters relevant to the disposition of the case, shall be made by the person or agency filing the petition. The study shall include all social records and may also include facts relating to the child's cultural heritage, and shall be made available to the court. The court shall consider the social file (aud), social study, guardian ad litem report, the court-appointed special advocates report, if any, and any reports filed by a party at the disposition hearing in addition to evidence produced at the fact-finding hearing. At least ten working days before the disposition hearing, the department shall mail to the parent and his or her attorney a copy of the agency's social study and proposed service plan, which shall be in writing or in a form understandable to the parents or custodians. In addition, the department shall provide an opportunity for parents to review and comment on the plan at the community service office. If the parents disagree with the agency's plan or any part thereof, the parents shall submit to the court at least twenty-four hours before the hearing, in writing, or signed oral statement, an alternative plan to correct the problems which led to the finding of dependency. This section shall not interfere with the right of the parents or custodians to submit oral arguments regarding the disposition plan at the hearing.
(2) In addition to the requirements set forth in subsection (1) of this section, a predisposition study to the court in cases of dependency alleged pursuant to RCW 13.34.030(2) (b) or (c) shall contain the following information:
(a) A statement of the specific harm or harms to the child that intervention is designed to alleviate;
(b) A description of the specific programs, for both the parents and child, that are needed in order to prevent serious harm to the child; the reasons why such programs are likely to be useful; the availability of any proposed services; and the agency's overall plan for ensuring that the services will be delivered;
(c) If removal is recommended, a full description of the reasons why the child cannot be protected adequately in the home, including a description of any previous efforts to work with the parents and the child in the home; the in-home treatment programs which have been considered and rejected; and the parents' attitude toward placement of the child;
(d) A statement of the likely harms the child will suffer as a result of removal. This section should include an exploration of the nature of the parent-child attachment and the meaning of separation and loss to both the parents and the child;
(e) A description of the steps that will be taken to minimize harm to the child that may result if separation occurs; and
(f) Behavior that will be expected before determination that supervision of the family or placement is no longer necessary.

Sec. 9. RCW 13.34.150 and 1990 c 246 s 5 are each amended to read as follows:

(2) The reporting requirement of subsection (1) of this section does not apply to the discovery of abuse or neglect that occurred during childhood if it is discovered after the child has become an adult. However, if there is reasonable cause to believe other children, dependent adults, or developmentally disabled persons are or may be at risk of abuse or neglect by the accused, the reporting requirement of subsection (1) of this section shall apply.

(3) Any other person who has reasonable cause to believe that a child or adult dependent or developmentally disabled person has suffered abuse or neglect may report such incident to the proper law enforcement agency or to the department of social and health services as provided in RCW 26.44.040.

(4) The department, upon receiving a report of an incident of abuse or neglect pursuant to this chapter, involving a child or adult dependent or developmentally disabled person who has died or has had physical injury or injuries inflicted upon him or her other than by accidental means or who has been subjected to sexual abuse, shall report such incident to the proper law enforcement agency. In emergency cases, where the child, adult dependent, or developmentally disabled person's welfare is endangered, the department shall notify the proper law enforcement agency within twenty-four hours after a report is received by the department. In all other cases, the department shall notify the law enforcement agency within seventy-two hours after a report is received by the department. If the department makes an oral report, a written report shall also be made to the proper law enforcement agency within five days thereafter.
(5) Any law enforcement agency receiving a report of an incident of abuse or neglect pursuant to this chapter, involving a child or adult dependent or developmentally disabled person who has died or has had physical injury or injuries inflicted upon him or her other than by accidental means, or who has been subjected to sexual abuse, shall report such incident in writing as provided in RCW 26.44.040 to the proper county prosecutor or city attorney for appropriate action whenever the law enforcement agency's investigation reveals that a crime may have been committed. The law enforcement agency shall also notify the department of all reports received and the law enforcement agency's disposition of them. In emergency cases, where the child, adult dependent, or developmentally disabled person's welfare is endangered, the law enforcement agency shall notify the department within twenty-four hours. In all other cases, the law enforcement agency shall notify the department within seventy-two hours after a report is received by the law enforcement agency.

(6) Any county prosecutor or city attorney receiving a report under subsection (5) of this section shall notify the victim, any persons the victim requests, and the local office of the department, of the decision to charge or decline to charge a crime, within five days of making the decision.

(7) The department may conduct ongoing case planning and consultation with those persons or agencies required to report under this section, with consultants designated by the department, and with designated representatives of Washington Indian tribes if the client information exchanged is pertinent to cases currently receiving child protective services or department case services for the developmentally disabled. Upon request, the department shall conduct such planning and consultation with those persons required to report under this section if the department determines it is in the best interests of the child or developmentally disabled person. Information considered privileged by statute and not directly related to reports required by this section shall not be divulged without a valid written waiver of the privilege.

(8) Any case referred to the department by a physician licensed under chapter 18.57 or 18.71 RCW on the basis of an expert medical opinion that child abuse, neglect, or sexual assault has occurred and that the child's safety will be seriously endangered if returned home, the department shall file a dependency petition unless a second licensed physician of the parents' choice believes that such expert medical opinion is incorrect. If the parents fail to designate a second physician, the department may make the selection. If a physician finds that a child has suffered abuse or neglect but that such abuse or neglect does not constitute imminent danger to the child's health or safety, and the department agrees with the physician's assessment, the child may be left in the parents' home while the department proceeds with reasonable efforts to remedy parenting deficiencies.

(9) Persons or agencies exchanging information under subsection (7) of this section shall not disseminate or release the information except as authorized by state or federal statute. Violation of this subsection is a misdemeanor.

(10) Upon receiving reports of abuse or neglect, the department or law enforcement agency may interview children. The interviews may be conducted on school premises, at day-care facilities, at the child's home, or at other suitable locations outside of the presence of the parents. Parental notification of the investigation shall occur at the earliest possible point in the investigation that will not jeopardize the safety or protection of the child or the course of the investigation. Prior to commencing the interview the department or law enforcement agency shall determine whether the child wishes a third party to be present for the interview and, if so, shall make reasonable efforts to accommodate the child's wishes. Unless the child objects, the department or law enforcement agency shall make reasonable efforts to include a third party in any interview so long as the presence of the third party will not jeopardize the course of the investigation.

(11) Upon receiving a report of incidents, conditions, or circumstances of child abuse and neglect, the department shall have access to all relevant records of the child in the possession of mandated reporters and their employees.

(12) The department shall maintain investigation records and conduct timely and periodic reviews of all cases constituting abuse and neglect. The department shall maintain a log of screened-out nonabusive cases.

(13) The department (of social and health services) shall (within funds appropriated for this purpose) use a risk assessment (tool) process when investigating child abuse and neglect referrals. The tool shall be used, on a pilot basis, in three local office service areas. The department shall present the risk factors at all hearings in which the placement of a dependent child is an issue. The department shall, within funds appropriated for this purpose, offer enhanced community-based services to persons who are determined not to require further state intervention.

(14) Upon receipt of (such) a report of abuse or neglect the law enforcement agency may arrange to interview the person making the report and any collateral sources to determine if any malice is involved in the reporting. Sec. 14. RCW 26.44.040 and 1987 c 206 s 4 are each amended to read as follows:

An immediate oral report shall be made by telephone or otherwise to the proper law enforcement agency or the department of social and health services and, upon request, shall be followed by a report in writing. Such reports shall contain the following information, if known:

(1) The name, address, and age of the child or adult dependent or developmentally disabled person;

(2) The name and address of the child's parents, stepparents, guardians, or other persons having custody of the child or the residence of the adult dependent or developmentally disabled person;

(3) The nature and extent of the injury or injuries;

(4) The nature and extent of the neglect;

(5) The nature and extent of the sexual abuse;

(6) Any evidence of previous injuries, including their nature and extent; and

(7) Any other information which may be helpful in establishing the cause of the child's or adult dependent or developmentally disabled person's death, injury, or injuries and the identity of the alleged perpetrator or perpetrators.

Sec. 15. RCW 26.44.063 and 1988 c 190 s 3 are each amended to read as follows:

(1) It is the intent of the legislature to minimize trauma to a child involved in an allegation of sexual or physical abuse. The legislature declares that removing the child from the home often has the effect of further traumatizing the child. It is, therefore, the legislature's intent that the alleged offender, rather than the child, shall be removed from the home and that this should be done at the earliest possible point of intervention in accordance with RCW 10.31.100, 13.34.130, this section, and RCW 26.44.130.

(2) In any judicial proceeding in which it is alleged that a child has been subjected to sexual or physical abuse, if the court finds reasonable grounds to believe that an incident of sexual or physical abuse has occurred, the court may, on its own motion, or
the motion of the guardian ad litem or other parties, issue a temporary restraining order or preliminary injunction restraining or enjoining the person accused of committing the abuse from:

(a) Molesting or disturbing the peace of the alleged victim;
(b) Entering the family home of the alleged victim except as specifically authorized by the court; or
(c) Having any contact with the alleged victim, except as specifically authorized by the court.

(3) In issuing a temporary restraining order or preliminary injunction, the court may impose any additional restrictions that the court in its discretion determines are necessary to protect the child from further abuse or emotional trauma pending final resolution of the abuse allegations.

(4) The court shall issue a temporary restraining order prohibiting a person from entering the family home if the court finds that the order would eliminate the need for an out-of-home placement to protect the child's right to nurturance, health, and safety and is sufficient to protect the child from further sexual or physical abuse or coercion.

(5) The court may issue a temporary restraining order without requiring notice to the party to be restrained or other parties only if it finds on the basis of the moving affidavit or other evidence that irreparable injury could result if an order is not issued until the time for responding has elapsed.

(6) A temporary restraining order or preliminary injunction:
(a) Does not prejudice the rights of a party or any child which are to be adjudicated at subsequent hearings in the proceeding;
(b) May be revoked or modified.

(7) The person having physical custody of the child shall have an affirmative duty to assist in the enforcement of the restraining order including but not limited to a duty to notify the court as soon as practicable of any violation of the order, a duty to request the assistance of law enforcement officers to enforce the order, and a duty to notify the department of social and health services of any violation of the order as soon as practicable if the department is a party to the action. Failure by the custodial party to discharge these affirmative duties shall be subject to contempt proceedings.

(8) Willful violation of a court order entered under this section is a misdemeanor. A written order shall contain the court's directive and shall bear the legend: "Violation of this order with actual notice of its terms is a criminal offense under chapter 26.44 RCW and is also subject to contempt proceedings, and will subject a violator to arrest."

**Sec. 16.** RCW 26.44.067 and 1989 c 373 s 23 are each amended to read as follows:

(1) Any person having had actual notice of the existence of a restraining order issued by a court of competent jurisdiction pursuant to RCW 26.44.063 who refuses to comply with the provisions of such order (when requested by any peace officer of the state) shall be guilty of a misdemeanor.

(2) The notice requirements of subsection (1) of this section may be satisfied by the peace officer giving oral or written evidence to the person subject to the order by reading from or handing to that person a copy certified by a notary public or the clerk of the court to be an accurate copy of the original court order which is on file. The copy may be supplied by the court or any party.

(3) The remedies provided in this section shall not apply unless restraining orders subject to this section shall bear this legend: VIOLATION OF THIS ORDER WITH ACTUAL NOTICE OF ITS TERMS IS A CRIMINAL OFFENSE UNDER CHAPTER 26.44 RCW AND IS ALSO SUBJECT TO CONTEMPT PROCEEDINGS.

(4) It is a defense to prosecution under subsection (1) of this section that the court order was issued contrary to law or court rule. No right of action shall accrue against any peace officer acting upon a properly certified copy of a court order lawful on its face if such officer employs otherwise lawful means to effect the arrest.

**Sec. 17.** RCW 26.44.100 and 1985 c 183 s 1 are each amended to read as follows:

The legislature finds parents and children often are not aware of their due process rights when agencies are investigating allegations of child abuse and neglect. The legislature reaffirms that all citizens, including parents, shall be afforded due process, that protection of children remains the priority of the legislature, and that this protection includes protecting the family unit from unnecessary disruption. To facilitate this goal, the legislature wishes to ensure that parents and children be advised in writing and orally, if feasible, of their basic rights and other specific information as set forth in this (act) chapter, provided that nothing contained in this (act) chapter shall cause any delay in protective custody action.

**NEW SECTION.** **Sec. 18.** A new section is added to chapter 26.44 RCW to read as follows:

(1) If a person who has unsupervised visitation rights with a minor child pursuant to a court order is accused of sexually or physically abusing a child and the alleged abuse has been reported to the proper authorities for investigation, the law enforcement officer conducting the investigation may file an affidavit with the prosecuting attorney stating that the person is currently under investigation for sexual or physical abuse of a child and that there is a risk of harm to the child if a temporary restraining order is not entered. Upon receipt of the affidavit, the prosecuting attorney shall determine whether there is a risk of harm to the child if a temporary restraining order is not entered. If the prosecutor determines there is a risk of harm, the prosecutor shall immediately file a motion for an order to show cause seeking to restrict visitation with the child, and seek a temporary restraining order. The restraining order shall be issued for up to ninety days or until the investigation has been concluded in favor of the alleged abuser, whichever is shorter.

(2) Willful violation of a court order entered under this section is a misdemeanor. The court order shall state: "Violation of this order is a criminal offense under chapter 26.44 RCW and will subject the violator to arrest."

Increasing the membership of the commission on student learning

MR. PRESIDENT:

We of your CONFERENCE COMMITTEE, to whom was referred ENGROSSED HOUSE BILL NO. 1708, Student learning commission, have had the same under consideration and we recommend that:

The Senate Committee on Education amendment(s) adopted, as amended, on April 9, 1993, not be adopted, and that the following Conference Committee striking amendments be adopted:

Strike everything after the enacting clause and insert the following:

Sec. 1. RCW 28A.630.885 and 1992 c 141 s 202 are each amended to read as follows:

The Washington commission on student learning is hereby established. The primary purposes of the commission are to identify what all students need to know and be able to do based on the student learning goals of the governor's council on education reform and funding, to develop student assessment and school accountability systems, and to take other steps necessary to develop a performance-based education system. The commission shall include three members of the state board of education, three members appointed by the governor before July 1, 1992, and five members appointed no later than June 1, 1993, by the governor elected in the November 1992 election. The governor shall appoint a chair from the commission members, and fill any vacancies of gubernatorial appointments that may occur. The state board of education shall fill any vacancies of state board of education appointments that may occur. The state board of education shall fill any vacancies of state board of education appointments that may occur. In making the appointments, educators, business leaders, and parents shall be represented, and nominations from state-wide education, business, and parent organizations shall be requested. Efforts shall be made to ensure that the commission reflects the cultural diversity of the state's K-12 student population and that the major geographic regions in the state are represented. Appointees shall be qualified individuals who are supportive of educational restructuring, who have a positive record of service, and who will devote sufficient time to the responsibilities of the commission to ensure that the objectives of the commission are achieved.

The commission shall begin its substantive work subject to subsection (1) of this section.

The commission shall establish technical advisory committees. Membership of the technical advisory committees shall include, but not necessarily be limited to, professionals from the office of the superintendent of public instruction and the state board of education, and other state and local educational practitioners and student assessment specialists.

The commission, with the assistance of the technical advisory committees, shall:

(a) Identify what all elementary and secondary students need to know and be able to do. At a minimum, these essential academic learning requirements shall include reading, writing, speaking, science, history, geography, mathematics, and critical
In developing these essential academic learning requirements, the commission shall incorporate the student learning goals identified by the council on education reform and funding.

(b) By December 1, 1995, present to the state board of education and superintendent of public instruction a state-wide academic assessment system for use in the elementary grades designed to determine if each student has mastered the essential academic learning requirements identified in (a) of this subsection. The academic assessment system shall include a variety of methodologies, including performance-based measures. The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who do not master the essential academic learning requirements. Mastery of each component of the essential academic learning requirements shall be required before students progress in subsequent components of the essential academic learning requirements. The state board of education and superintendent of public instruction shall implement the elementary academic assessment system beginning in the 1996-97 school year, unless the legislature takes action to delay or prevent implementation of the assessment system and essential academic learning requirements. The state board of education and superintendent of public instruction may modify the assessment system, as needed, in subsequent school years;

(c) By December 1, 1996, present to the state board of education and superintendent of public instruction a state-wide academic assessment system for use in the secondary grades designed to determine if each student has mastered the essential academic learning requirements identified for secondary students in (a) of this subsection. The academic assessment system shall use a variety of methodologies, including performance-based measures, to determine if students have mastered the essential academic learning requirements, and shall lead to a certificate of mastery. The certificate of mastery shall be required for graduation. The assessment system shall be designed so that the results are used by educators to evaluate instructional practices, and to initiate appropriate educational support for students who do not master the essential academic learning requirements. The commission shall recommend to the state board of education whether the certificate of mastery should take the place of the graduation requirements or be required for graduation in addition to graduation requirements. The state board of education and superintendent of public instruction shall implement the secondary academic assessment system beginning in the 1997-98 school year, unless the legislature takes action to delay or prevent implementation of the assessment system and essential academic learning requirements. The state board of education and superintendent of public instruction may modify the assessment system, as needed, in subsequent school years;

(d) Consider methods to address the unique needs of special education students when developing the assessments in (b) and (c) of this subsection;

(e) Develop strategies that will assist educators in helping students master the essential academic learning requirements;

(f) Establish a center the primary role of which is to plan, implement, and evaluate a high quality professional development process for quality schools centers. Have an advisory council composed of educators, parents, and community and business leaders; use best practices research regarding instruction, management, curriculum development, and assessment; coordinate its activities with the office of the superintendent of public instruction and the state board of education; employ and contract with individuals who have a commitment to quality reform; prepare a six-year plan to be updated every two years; and be able to accept resources and funding from private and public sources;

(g) Develop recommendations for the repeal or amendment of federal, state, and local laws, rules, budgetary language, regulations, and other factors that inhibit schools from adopting strategies designed to help students achieve the essential academic learning requirements;

(h) Develop recommendations on the time, support, and resources, including technical assistance, needed by schools and school districts to help students achieve the essential academic learning requirements. These recommendations shall include an estimate for the legislature, superintendent of public instruction, and governor on the expected cost of implementing the elementary and secondary academic assessment systems during the 1995-97 biennium and beyond;

(i) Develop recommendations for consideration by the higher education coordinating board for adopting college and university entrance requirements that would assist schools in adopting strategies designed to help students achieve the essential academic learning requirements;

(j) By December 1, 1996, recommend to the legislature, state board of education, and superintendent of public instruction a state-wide accountability system to evaluate accurately and fairly the level of learning occurring in individual schools and school districts. The commission also shall recommend to the legislature steps that should be taken to assist school districts and schools in which learning is significantly below expected levels of performance as measured by the academic assessment systems established under this section;

(k) Report annually by December 1st to the legislature and the state board of education on the progress, findings, and recommendations of the commission; and

(l) Complete other tasks, as appropriate.

((4)) (4) The commission shall coordinate its activities with the state board of education and the office of the superintendent of public instruction.

((5)) (5) The commission shall seek advice broadly from the public and all interested educational organizations in the conduct of its work, including holding periodic regional public hearings.

((6)) (6) The commission shall select an entity to provide staff support and the office of financial management shall contract with that entity. The commission may direct the office of financial management to enter into subcontracts with school districts, teachers, higher education faculty, state agencies, business organizations, and other individuals and organizations to assist the commission in its deliberations.

((7)) (7) Members of the commission shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.

REPORT OF CONFERENCE COMMITTEE

ESHB 1785 April 24, 1993

Creating jobs to restore and enhance Washington's estuaries, waterways, forests, and watersheds

MR. PRESIDENT:

The Senate Committee on Trade, Technology and Economic Development striking amendment(s) adopted, as amended, on April 12, 1993, not be adopted, and that the following Conference Committee striking amendments be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. LEGISLATIVE FINDINGS. (1) The legislature finds that the long-term health of the economy of Washington state depends on the sustainable management of its natural resources. Washington's forests, estuaries, waterways, and watersheds provide a livelihood for thousands of citizens of Washington state and millions of dollars of income and tax revenues every year from forests, fisheries, shellfisheries, recreation, tourism, and other water-dependent industries.

(2) The legislature further finds that the livelihoods and revenues produced by Washington's forests, estuaries, waterways, and watersheds would be enhanced by immediate investments in clean water infrastructure and habitat restoration.

(3) The legislature further finds that an insufficiency in financial resources, especially in timber-dependent communities, has resulted in investments in clean water and habitat restoration too low to ensure the long-term economic and environmental health of Washington's forests, estuaries, waterways, and watersheds.

(4) The legislature further finds that unemployed workers and Washington's economically distressed communities, especially timber-dependent areas, can benefit from opportunities for employment in environmental restoration projects.

(5) The legislature therefore declares that immediate investments in a variety of environmental restoration projects, based on sound principles of watershed management and environmental and forest restoration, are necessary to rehabilitate damaged watersheds and to assist displaced workers and the unemployed gain job skills necessary for long-term employment.

NEW SECTION. Sec. 2. PURPOSE AND INTENT.--DEFINITIONS. (1) It is the intent of this chapter to provide financial resources to make substantial progress toward: (a) Implementing the Puget Sound water quality management plan and other watershed-based management strategies and plans; (b) ameliorating degradation to watersheds; and (c) keeping and creating stable, environmentally sound, good wage employment in Washington state.

The legislature intends that employment under this chapter is not to result in the displacement or partial displacement, whether by the reduction of hours of nonovertime work, wages, or other employment benefits, of currently employed workers, including but not limited to state civil service employees, or of currently or normally contracted services.

(2) It is the purpose of this chapter to:

(a) Implement clean water, forest, and habitat restoration projects that will produce measurable improvements in water and habitat quality, that rate highly when existing environmental ranking systems are applied, and that provide economic stability.

(b) Facilitate the coordination and consistency of federal, state, tribal, local, and private water and habitat protection and enhancement programs in the state's watersheds.

(c) Fund necessary projects for which a public planning process has been completed.

(d) Provide immediate funding to create jobs and training for environmental restoration and enhancement jobs for unemployed workers and displaced workers in impact areas, especially timber-dependent communities.

Includes "NEW ITEM": YES
For purposes of this chapter "impact areas" means: (a) Distressed counties as defined in RCW 43.165.010(3)(a); (b) subcounty areas in those counties not covered under (a) of this subsection that are timber impact areas as defined in RCW 43.165.010(3)(b); and (d) areas that the task force determines are likely to experience dislocations in the near future from downturns in natural resource-based industries.

(4) For purposes of this chapter, "high-risk youth" means youth eligible for Washington conservation corps programs under chapter 43.220 RCW or Washington service corps programs under chapter 50.65 RCW.

(5) For purposes of this chapter, "dislocated forest products worker" has the meaning set forth in RCW 50.70.010.

(6) For purposes of this chapter, "task force" means the environmental enhancement and job creation task force created under section 5 of this act.

NEW SECTION. Sec. 3. ENVIRONMENTAL AND FOREST RESTORATION ACCOUNT. (1) The environmental and forest restoration account is established in the state treasury. Money in the account may be spent only after appropriation by the legislature and in a manner consistent with this chapter. Private nonprofit organizations and state, local, and tribal entities are eligible for funds under this chapter. Money in the account may be used to make grants, loans, or interagency contracts as needed to implement environmental and forest restoration projects.

(2) For fiscal years 1994 through 1998, at least fifty percent of the funds in the environmental and forest restoration account shall be used for environmental restoration and enhancement projects in rural communities impacted by the decline in timber harvest.

(3) The environmental and forest restoration account shall consist of funds appropriated by law, principal and interest from the repayment of loans granted under this chapter, and federal and other money received by the state for deposit in the account.

(4) At least ten percent of the funds distributed from the environmental and forest restoration account annually shall be allocated to the Washington conservation corps established under chapter 43.220 RCW to employ high-risk youth on projects consistent with this chapter and to fund administrative support services required by the senior environmental corps established under chapter 43.63A RCW.

(5) At least five percent of the funds distributed from the environmental and forest restoration account annually shall be used for contracts with nonprofit corporations to fund or finance projects, including those that increase private sector investments in pollution prevention activities and equipment and that are consistent with the provisions of this section and section 4 of this act.

(6) No more than five percent of the annual revenues to the environmental and forest restoration account may be expended for administrative purposes by any state agency or project administration; however, funds expended by the Washington conservation corps shall be subject solely to the limitations set forth in RCW 43.220.230.

(7) Except for essential administrative and supervisory purposes, funds in the environmental and forest restoration account may not be used for hiring permanent state employees.

NEW SECTION. Sec. 4. GRANTS OR LOANS FOR ENVIRONMENTAL AND FOREST RESTORATION PROJECTS--CRITERIA. (1) Subject to the limitations of section 3 of this act, the task force shall award funds from the environmental and forest restoration account on a competitive basis. The task force shall evaluate and rate environmental enhancement and restoration projects proposals using the following criteria:

(a) The ability of the project to produce measurable improvements in water and habitat quality;

(b) The cost-effectiveness of the project based on: (i) Projected costs and benefits of the project; (ii) past costs and environmental benefits of similar projects; and (iii) the ability of the project to achieve cost efficiencies through its design to meet multiple policy objectives;

(c) The inclusion of the project as a high priority in a federal, state, tribal, or local government plan relating to environmental or forest restoration, including but not limited to a local watershed action plan, storm water management plan, capital facility plan, growth management plan, or a flood control plan; or the ranking of the project by conservation districts as a high priority for water quality and habitat improvements;

(d) The number of jobs to be created by the project for dislocated forest products workers, high-risk youth, and residents of impact areas;

(e) Participation in the project by environmental businesses to provide training, cosponsor projects, and employ or jointly employ project participants;

(f) The ease with which the project can be administered from the community the project serves;

(g) The extent to which the project will either augment existing efforts by organizations and governmental entities involved in environmental and forest restoration in the community or receive matching funds, resources, or in-kind contributions; and

(h) The capacity of the project to produce jobs and job-related training that will pay market rate wages and impart marketable skills to workers hired under this chapter.

(2) The following types of projects and programs shall be given top priority in the first fiscal year after the effective date of this act:

(a) Projects that are highly ranked in and implement adopted or approved watershed action plans, such as those developed pursuant to Puget Sound water quality authority rules adopted for local planning and management of nonpoint source pollution;

(b) Conservation district projects that provide water quality and habitat improvements;

(c) Indian tribe projects that provide water quality and habitat improvements; or

(d) Projects that implement actions approved by a shellfish protection district under chapter 100, Laws of 1992.

(3) Funds shall not be awarded for the following activities:

(a) Administrative rule making;

(b) Planning; or

(c) Public education.

NEW SECTION. Sec. 5. ENVIRONMENTAL ENHANCEMENT AND JOB CREATION TASK FORCE. (1) There is created the environmental enhancement and job creation task force within the office of the governor. The purpose of the task force
is to provide a coordinated and comprehensive approach to implementation of chapter... Laws of 1993 (this act). In developing its plan, each school district shall consult with an advisory committee including school staff and community members appointed by the board of directors of the district.

(3) Using district-wide data on school lunch participation during the 1988-89 school year, the superintendent of public instruction shall adopt a schedule for implementation of school breakfast programs in severe-need schools as follows:
   (a) School districts where at least forty percent of lunches served to students are free or reduced-price lunches shall submit a plan for implementation of a school breakfast program in severe-need schools to the superintendent of public instruction no later than July 1, 1990. Senator Hargrove moved that the Senate adopt the Report of the Conference Committee on Engrossed Substitute House Bill No. 1529. Debate ensued.

POINT OF INQUIRY

Senator Linda Smith: "Senator Hargrove, it is not all that tough and I am just wanting to make sure that I understand. I don't think that it just extends to cities and counties. I think it also extends to buildings. Is there already something in the law--I've never seen it used for buildings--I've just seen it used for infrastructure in my communities. Is this an expansion beyond, also?"

Senator Hargrove: "No, what I tried to make clear, and apparently did not, currently ports can get CERB funds to do structures. Port districts can, that is current law. There are some places in these distressed areas that do not fall within a Port District--small cities for instance. To do economic development, we would be extending that provision for buildings and structures, like an industrial park, to these small cities. Now, ports currently can. I wanted to make that clear. Ports can use this money for structures. Again, it is on an application basis. It goes through the CERB Board, nothing is guaranteed to be spent."

The President declared the question before the Senate to be the motion by Senator Hargrove that the Senate do adopt the Report of the Conference Committee on Engrossed Substitute House Bill No. 1529.

The motion by Senator Hargrove carried and the Senate adopted the Report of the Conference Committee on Engrossed Substitute House Bill No. 1529.

The President declared the question before the Senate to be the roll call on the final passage of Engrossed Substitute House Bill No. 1529, as recommended by the Conference Committee.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute House Bill No. 1529, as recommended by the Conference Committee, and the bill passed the Senate by the following vote: Yeas, 32; Nays, 15; Absent, 0; Excused, 2.
Voting yea: Senators Barr, Bauer, Bluechel, Drew, Franklin, Fraser, Gaspard, Hargrove, Jesernig, Loveland, McAuliffe, Moore, Niemi, Owen, Pez, Prentice, Quigley, Rasmussen, M., Rinehart, Roach, Sheldon, Skratek, Smith, A., Smith, L., Snyder, Sutherland, Talmadge, Vognild, von Reichbauer, Williams, Winsley and Wojahn - 32.

Excused: Senators Haugen and Spanel - 2.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1529, as recommended by the Conference Committee, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

Relating to revenue.

MOTION

Senator Jesernig moved that the rules be suspended and Engrossed House Bill No. 2135 be advanced to second reading and placed on the second reading calendar.

POINT OF ORDER

Senator Nelson: "Mr. President, I rise to a point of order. Mr. President, I believe that Engrossed House Bill No. 2135 is improperly before us. It, in fact, violates House Concurrent Resolution No. 4420 in that that particular House Concurrent Resolution required that all matters now before us must be necessary to implement the budget. No budget document that we have made reference at all to Engrossed House Bill No. 2135.

"In addition, I would like to point out that the bill as introduced in the House of Representatives, an act relating to revenue, had as its title, 'this act shall be known as the revenue act of 1993.' Subsequent to that time through the process, there is now an addition of information in this particular bill that imposes an excise tax of ten percent for the privilege of parking a motor vehicle in a facility operated by a commercial parking business. It has the imposition of the hotel/motel tax for the restrooms and picnic areas for tourists visiting a county with a national monument, which was a measure before us. It also expands the public facilities districts within the state of Washington and permits them to now have additional taxation for public facilities in those districts of a county of specific sizes and locations. In fact, it permits a rate of tax in a public facilities district of a population of one million or more to be up to one percent of the proceeds of taxes collected and using those taxes for the design, construction, maintenance of facilities for youth and senior citizen programs.

"In addition, it also permits non-voter approved general obligation indebtedness. I would suggest to the President that this particular measure has gone far beyond, not only the scope and object of the original intent of the bill, but it is improperly before this body."

REMARKS BY SENATOR SNYDER

Senator Snyder: "Thank you, Mr. President. I just wanted to point out that there is reference in both the Capital Budget and the Operating Budget to the Mount St. Helen's Monument. In the Capital Budget, there is an appropriation of three and one-half million for the Johnson Observatory at Mount St. Helen's National Volcano Monument, funds provided by the state to assist in accelerating the project there. Also, in the Operating Budget, there is a proviso for seventy thousand dollars for emergency medical services to support the Mount St. Helen's National Volcano Monument area. So, I think that the bill is properly before the Senate."

REPLY BY PRESIDENT PRITCHARD

President Pritchard: "Just a moment. In a way of explanation, I would like to ask Senator Snyder a question. Senator Snyder, does the appropriation in the Capital Budget lapse if 2135 fails to pass the Legislature?"

Senator Snyder: "No. Well, the capital budget hasn't passed yet, so it could lapse if that would happen."

RULING BY THE PRESIDENT

President Pritchard: "The President feels that given the explanation, the President rules that Engrossed House Bill No. 2135 is not a bill to implement the budget and the point is well taken."

Engrossed House Bill No. 2135 was ruled to be not properly before the Senate.

MOTION

At 5:33 p.m., on motion of Senator Jesernig, the Senate recessed until 6:30 p.m.

The Senate was called to order at 6:53 p.m. by President Pritchard.

MESSAGE FROM THE GOVERNOR

April 24, 1993

TO THE HONORABLE, THE SENATE AND
HOUSE OF REPRESENTATIVES OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

In compliance with the provision of Section 11 of Article III of the Constitution of the state of Washington, the Governor hereby submits his report of each case of reprieve, commutation or pardon that he has granted since the convening of the 1993 Regular Session of the Fifty-Third Legislature, copy of which is attached.

Respectfully submitted,
ED FLEISHER, Legal Counsel to the Governor

ORDER OF REPRIEVE
FOR
WILLIAM CHARLES BRAND

TO ALL TO WHOM THESE PRESENTS SHALL COME, GREETINGS:

On February 6, 1986, William Charles Brand was found guilty of murder in the second degree by the Superior Court of the state of Washington for King County and was sentenced on August 1 of that year to 164 months of total confinement. Mr. Brand shot his wife on February 20, 1985. The possibility of a link between the combination of medications taken by Mr. Brand and his mental state at the time of the shooting led the original trial judge to grant a motion for a new trial and to release Mr. Brand on bail on October 11, 1991. Mr. Brand served a total of almost 6 years and 8 months in confinement. While incarcerated, Mr. Brand worked as a clerk in the law library until medically unable to continue. He incurred no infractions.

Since his release, Mr. Brand's health has deteriorated. He suffers from emphysema, requires an oxygen supplement and is confined to a wheelchair. He has spent the 1 year and 5 months since his release in the care of his daughters Denise and Lisa in Seattle. Mr. Brand's physician estimates a life expectancy of no more than 1 to 2 years due to his severe chronic lung disease.

The Court of Appeals remanded the case back to the trial court for further proceedings but the Washington State Supreme Court reversed. Mr. Brand is now required to report to the Department of Corrections March 17, 1993, to continue serving his sentence.

In November of 1992, Mr. Brand petitioned the Clemency and Pardons Board for relief. In its meeting of March 12, 1993, the Board voted to defer a decision on the petition until their June 11 meeting so as to gather further medical information and input from the King County Prosecuting Attorney. When questioned by the Board as to why he should be pardoned, Mr. Brand stated that
he believed he had little time left, he was not a threat to anyone and had become only a burden. He added that he preferred being a burden to his family rather than the state. The Board did not consider the issue of a reprieve during the March 12 meeting.

NOW THEREFORE, I, Mike Lowry, Governor of the state of Washington, do hereby grant William Charles Brand a reprieve from the sentence of the Court until such time as the Clemency and Pardons Board recommends, and I render, a decision on his petition.

IN TESTIMONY WHEREOF, I have hereunto set my hand, and caused the seal of the state of Washington to be affixed at Olympia, this 15th day of March, A.D., nineteen hundred and ninety-three.

ORDER OF CLEMENCY
LUPE ORTEGA FIGUEROA

TO ALL TO WHOM THESE PRESENTS SHALL COME, GREETINGS:

Lupe Ortega Figueroa was charged on February 22, 1990, with one count of possession of heroin with the intent to manufacture or deliver, in violation of the Uniform Control Substance Act. Ms. Figueroa was found guilty on July 27, 1990, by jury verdict in the Superior Court of the state of Washington for King County.

Ms. Figueroa was sentenced to a term of total confinement in the custody of the Department of Corrections for a term of 27 months.

Ms. Figueroa is in poor health. According to Dr. Marcus Rempel, she has a past history of seizure disorder, hypothyroidism, and myocardial infarction. She has had two angioplasties for coronary ischemia and is currently suffering from arthritis.

On March 12, 1993, the Clemency and Pardons Board met to review the Clemency Petition presented on behalf of Ms. Figueroa. The Board voted unanimously to recommend that the Governor grant clemency to Ms. Figueroa due to her diminished health and other extraordinary circumstances discussed in executive session.

NOW THEREFORE, I, Mike Lowry, Governor of the state of Washington, by virtue of the authority vested in me by the laws of the state of Washington, do hereby grant a full pardon for Lupe Ortega Figueroa for the conviction noted herein.

IN TESTIMONY WHEREOF, I have hereunto set my hand, and caused the seal of the state of Washington to be affixed at Olympia, this 19th day of March, A.D., nineteen hundred and ninety-three.

CONDITIONAL COMMUTATION ORDER
JOEL STEPHEN ROSE

TO ALL TO WHOM THESE PRESENTS SHALL COME, GREETINGS:

On August 13, 1989, while working as a contract attorney with the Department of Assigned Counsel in Tacoma, Joel Rose contacted a mentally ill patient at Western State Hospital and offered him payment for oral sex. At Mr. Rose's request, this patient brought in another patient who was then fondled by Mr. Rose, also for payment. Both patients involved were committed as "gravely disabled." At the time of this incident, Mr. Rose was aware that he was HIV positive.

Mr. Rose was sentenced by the Superior Court of the state of Washington for Pierce County on May 1, 1990. Mr. Rose was given an exceptional sentence of 60 months and 20 months, concurrently, for Rape in the Second Degree and Indecent Liberties.

Mr. Rose is currently incarcerated at the Washington State Reformatory with an anticipated release date of September 1, 1993. While incarcerated, he attended college classes, but has been unable to work due to his debilitating medical condition. He has been a volunteer for the Community AIDS Coalition Program.

Information provided by the Department of Corrections, the University of Washington Medical Center, Mr. Rose's attorney, and representatives from the International Coalition for Jewish Prisoner Services, and the ALEPH Institute verify that Mr. Rose is in the last stages of AIDS. His prognosis is very poor. He is dying from complications associated with the HIV virus, including thrush and skin cancer. He is AIDS active and his T cell count is below 25. Mr. Rose will probably perish in the very near future, with the most optimistic prognosis being that he will not survive beyond the next six to twelve months.

It must be noted that in the pre-sentence investigation into Mr. Rose's case, his behavior was described as being predatory. His victims were described as being extremely vulnerable due to their grave mental disabilities and susceptibility to victimization, particularly by an individual in the trusted position of attorney.
Mr. Rose made application to the Clemency and Pardons Board on January 29, 1993. The basis for his request is that he is near death, but for the fact that he was sentenced to an exceptional sentence, he would, in all likelihood, be eligible for release at the present time. He asks that his family and friends be allowed to care for him in this last stage of his life.

The Clemency and Pardons Board, at its March 12, 1993 meeting, reviewed and discussed the petition of Mr. Rose. Testimony and associated documents were presented on his behalf by his attorney, Mr. John Cain; Mr. Gary Friedman of the International Coalition for Jewish Prisoner Services; and Rabbi James Brinell. After deliberation, the Board voted 4-0 to recommend to the Governor that conditional clemency be granted on the basis of Mr. Rose's grave medical condition.

This is an extraordinary case which, because of Mr. Rose's medical condition, justifies granting conditional clemency at this time, for the remainder of Mr. Rose's sentence. By this order, I hereby commute the sentence imposed upon Joel Rose to a term of community placement not to exceed the term imposed by the sentencing court, with the following conditions:

1. Mr. Rose shall be released from the Washington State Reformatory and placed in a hospice or functionally equivalent institution with specific procedures for his release, transfer, and placement, to be determined by the Department of Corrections in consultation with the Department of Social and Health Services.

2. Upon his placement, Mr. Rose shall have his access limited only to the confines of that placement institution, unless specific authorization otherwise is secured from a community corrections officer.

3. In the event that Mr. Rose's condition improves to the point that, in the opinion of the Department of Corrections, he presents a viable threat to the community, the Department of Corrections shall return Mr. Rose to the Washington State Reformatory, or such other institution as the Secretary deems appropriate, until such time as that threat is alleviated and/or his full sentence is completed without benefit of sentence reduction credits; and

4. In the event that Mr. Rose violates the conditions of this order or conditions imposed by the Department of Corrections, the Department of Corrections shall return Mr. Rose to the Washington State Reformatory, or such other institution as the Secretary deems appropriate. Should this occur, this Conditional Clemency shall be revoked and the sentence imposed by the Court reinstated without benefit of sentence reduction credits.

The Department of Corrections, in consultation with the Department of Social and Health Services, shall set such conditions as deemed necessary to meet the general conditions enumerated above.

NOW THEREFORE, I, Mike Lowry, Governor of the state of Washington, by virtue of the authority vested in me by the laws of the state of Washington, do hereby grant conditional clemency for Joel Stephen Rose, Department of Corrections No. 965354, and commute his sentence subject and pursuant to the conditions set forth herein.

IN TESTIMONY WHEREOF, I have hereunto set my hand, and caused the seal of the state of Washington to be affixed at Olympia, this 19th day of March, A.D., nineteen hundred and ninety-three.

(Seal)

The bill was read the second time.

MOTIONS

Senator Snyder moved that the following amendment be adopted: Strike everything after the enacting clause and insert the following:

*NEW SECTION. Sec. 1. A new section is added to chapter 67.28 RCW to read as follows:

(1) The legislative body of any county with a population greater than seventy-five thousand in which is located all or part of a national monument is authorized to levy and collect a special excise tax not to exceed two percent on the sale of or charge made for the furnishing of lodging by a hotel, rooming house, tourist court, motel, trailer camp, and the granting of any similar license to use real property, as distinguished from the renting or leasing of real property. For the purposes of this tax, it shall be presumed that the occupancy of real property for a continuous period of one month or more constitutes a rental or lease of real property and not a mere license to use or to enjoy the same.

(2) The tax authorized in subsection (1) of this section is in addition to any other tax authorized by law.

(3) Any seller, as defined in RCW 82.08.010, who is required to collect any tax under this section shall pay over the tax to the county as provided in RCW 67.28.200. The deduction from state taxes under RCW 67.28.190 does not apply to the tax imposed under this section.

(4) All taxes levied and collected under this section shall be credited to a special fund in the treasury of the county. The taxes shall only be used for the acquisition, construction, repair, and improvement of a rest area for tourists which includes restrooms, picnic areas, trails and viewpoints, emergency facilities, transient parking facilities, concession and gift sales, and marketing of facilities for tourists visiting the county or the national monument, or to pay or secure the payment of all or any portion of general obligation bonds issued for such purposes. As used in this section, "transient parking facilities" does not include parking spaces to be used for overnight stays.

(5) The tax authorized in subsection (1) of this section may only be imposed if the county and at least one of the two largest cities in the county provide moneys for the project described in subsection (4) of this section from revenue received under RCW 82.14.030. Moneys provided under this section shall be deposited in the special fund created under subsection (4) of this section and may be used only as provided in subsection (4) of this section.

For the purposes of this tax, it shall be presumed that the occupancy of real property for a continuous period of one month or more constitutes a rental or lease of real property and not a mere license to use or to enjoy the same.

(2) No city may impose the special excise tax authorized in subsection (1) of this section during the time the city is imposing the tax under RCW 67.28.180, and no county may impose the special excise tax authorized in subsection (1) of this section until such time as those cities within the county containing at least one-half of the total incorporated population have imposed the tax.

Every motor truck, truck tractor, and tractor exceeding 6,000 pounds empty scale weight registered under chapter 46.16, 46.87, or 46.88 RCW shall be licensed for not less than one hundred fifty percent of its empty weight unless the amount would be in excess of the legal limits prescribed for such a vehicle in RCW 46.44.041 or 46.44.042, in which event the vehicle shall be licensed for the maximum weight authorized for such a vehicle.

The following provisions apply when increasing gross or combined gross weight for a vehicle licensed under this section:

(a) The new license fee will be one-twelfth of the fee listed above for the new gross weight, multiplied by the number of months remaining in the period for which licensing fees have been paid, including the month in which the new gross weight is effective.

(b) Upon surrender of the current certificate of registration or cab card, the new licensing fees due shall be reduced by the amount of the licensing fees previously paid for the same period for which new fees are being charged.

(2) The proceeds from the fees collected under subsection (1) of this section shall be distributed in accordance with RCW 46.68.035.

Sec. 61. RCW 82.44.020 and 1993 c ... (Substitute Senate Bill No. 5353) s 2 are each amended to read as follows:

(1) An excise tax is imposed for the privilege of using in the state any motor vehicle, except those operated under reciprocal agreements, the provisions of RCW 46.16.160 as now or hereafter amended, or dealer's licenses. The amount of such excise tax shall be two percent of the value of such vehicle.

(2) An additional excise tax is imposed, in addition to any other tax imposed by this section, for the privilege of using in the state any such motor vehicle, and the annual amount of such additional excise shall be two-tenths of one percent of the value of such vehicle.

(3) Effective with October 1992 motor vehicle registration expirations, a clean air excise tax is imposed in addition to any other tax imposed by this section for the privilege of using in the state any motor vehicle as defined in RCW 46.04.181, except that farm vehicles as defined in RCW 46.04.181 shall not be subject to the tax imposed by this subsection. The annual amount of the
additional excise tax shall be two dollars and twenty-five cents. Effective with July 1994 motor vehicle registration expirations, the annual amount of additional excise tax shall be two dollars.

(4) An additional excise tax is imposed on truck type power units that are used in combination with a trailer to transport loads in excess of forty thousand pounds combined gross weight. The (ratio) annual amount of such additional excise tax shall be fifty-eight one-hundredths of one percent of the value of the vehicle.

The department shall distribute the additional tax collected under this subsection as follows:
(a) For each trail unit subject to subsection (5) of this section, an amount equal to the clean air excise tax prescribed in subsection (3) of this section shall be distributed in the manner prescribed in RCW 82.44.110(3);
(b) Of the remainder of the additional excise tax collected under this subsection: ten percent (of the additional tax collected under this subsection) shall be distributed in the manner prescribed in RCW 82.44.110(2); ninety percent shall be distributed in the manner prescribed in RCW 82.44.110(1). This tax shall not apply to power units used exclusively for hauling logs.

(5) The excise taxes imposed by subsections (1) through (3) of this section shall not apply to trail units which are used in combination with a power unit subject to the additional excise tax imposed by subsection (4) of this section. This subsection shall not apply to trailings units used for hauling logs. (The department of licensing is authorized to adopt rules to implement subsection (4) of this section and this subsection to assure that total motor vehicle excise tax revenue is not affected.)

(6) In no case shall the total tax be less than two dollars except for proportionally registered vehicles.

(7) Washington residents, as defined in RCW 46.16.028, who license motor vehicles in another state or foreign country and avoid Washington motor vehicle excise taxes are liable for such unpaid excise taxes. The department of revenue may assess and collect the unpaid excise taxes under chapter 82.32 RCW, including the penalties and interest provided therein.

Sec. 62. RCW 81.112.030 and 1992 c 101 s 3 are each amended to read as follows:

Two or more contiguous counties each having a population of four hundred thousand persons or more may establish a regional transit authority to develop and operate an integrated and coordinated transit system and financing plan, including the definition of the service area. This action shall be completed by September 1, 1992, contingent upon satisfactory completion of the planning process defined in RCW 81.104.100. The final system plan shall be adopted no later than June 30, 1993. In addition to the requirements of RCW 81.104.100, the plan for the proposed system shall provide explicitly for a minimum portion of new tax revenues to be allocated to local transit agencies for interim express services. Upon adoption the joint regional policy committee shall immediately transmit the plan to the county legislative authorities within the adopted service area.

The legislative authorities of the counties within the service area shall decide by resolution whether to participate in the authority. This action shall be completed within forty-five days following receipt of the adopted plan or by August 13, 1993, whichever comes first.

(3) If any of the counties does not opt to participate in the authority, the joint regional policy committee shall, within forty-five days, redefine the system and financing plan and resubmit the adopted redefined plan to the remaining county legislative authorities for their decision as to whether to participate. This action shall be completed within forty-five days following receipt of the redefined plan.

(4) Each county that chooses to participate in the authority shall appoint its board members as set forth in RCW 81.112.040 and shall submit its list of members to the secretary of the Washington state department of transportation. These actions must be completed within thirty days following each county’s decision to participate in the authority.

(4)(i) The secretary shall call the first meeting of the authority, to be held within thirty days following receipt of the appointments. At its first meeting, the authority shall elect officers and provide for the adoption of rules and other operating procedures.

(4)(ii) The authority is formally constituted at its first meeting and the board shall begin taking steps toward implementation of the system and financing plan adopted by the joint regional policy committee. If the joint regional policy committee fails to adopt a plan by June 30, 1993, the authority shall proceed to do so based on the work completed by that date by the joint regional policy committee. Upon formation of the authority, the joint regional policy committee shall cease to exist. The authority may make minor modifications to the plan as deemed necessary and shall at a minimum review local transit agencies’ plans to ensure feeder service/high capacity transit service integration, ensure fare integration, and ensure avoidance of parallel competitive services. The authority shall also conduct a minimum thirty-day public comment period.

(4)(iii) If the authority determines that major modifications to the plan are necessary before being submitted to the voters, the authority may make those modifications with a favorable vote of two-thirds of the entire membership. Any such modification shall be subject to the review process set forth in RCW 81.104.110. The modified plan shall be transmitted to the legislative authorities of the participating counties. The legislative authorities shall have forty-five days following receipt to confirm or rescind their continued participation in the authority.

(7) If any county opts not to participate in the authority, but two or more contiguous counties do choose to continue to participate, the authority’s board shall be revised accordingly. The authority shall, within forty-five days, redefine the system and financing plan to reflect elimination of one or more counties, and submit the redefined plan to the legislative authorities of the remaining counties for their decision as to whether to continue to participate. This action shall be completed within forty-five days following receipt of the redefined plan.

(8) The authority shall place on the ballot within two years of the authority’s formation, a single ballot proposition to (ratify formation of the authority) approve the system and finance plan((c)) and authorize the imposition of the taxes to support the plan within its service area. In addition to the system plan requirements contained in RCW 81.104.100(2)(d), the system plan submitted to voters shall contain an equity element which:
(a) Identifies revenues anticipated to be generated by corridor and by county within the authority’s boundaries;
(b) Identifies the phasing of construction and operation of high capacity system facilities, services, and benefits in each corridor. Phasing decisions shall be prioritized to jurisdictions which have adopted transit supportive land use plans; and
(c) Identifies the degree to which revenues generated within each county will benefit the residents of that county, and identifies when such benefits will accrue.
A simple majority of those voting within the boundaries of the authority is required for approval. If the vote is affirmative, the authority shall begin implementation of the plan. However, the authority may not submit any authorizing proposition for voter-approved taxes prior to July 1, 1993; nor may the authority issue bonds or form any local improvement district prior to July 1, 1993. If the vote fails, the board may redefine the system and financing plan, make changes to the authority boundaries, and make corresponding changes to the composition of the board. If the composition of the board is changed, the participating counties shall revise the membership of the board accordingly. The board may then submit the revised plan to voters. No single system and financing plan may be submitted to the voters more than twice.

If the authority is unable to achieve a positive vote within two years from the date of the first election on a system plan, the board may, by resolution, reconstitute the authority as a single-county body. With a two-thirds vote of the entire membership of the voting members, the board may also dissolve the authority.

NEW SECTION. Sec. 63. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately except for sections 60 and 61, which shall take effect January 1, 1994.

NEW SECTION. Sec. 64. Chapter . . . (Substitute Senate bill No. 5535), Laws of 1993 each take effect January 1, 1994.

MOTION

Senator Nelson moved that the following amendment by Senators Nelson, Barr and Sellar to the striking amendment by Senator Vognild be adopted:

On page 25, after line 12, insert the following:

Sec. 55. RCW 47.17.145 and 1970 ex.s. c. 51 s 30 are each amended to read as follows:

A state highway to be known as state route number 92 is established as follows:

Beginning at a junction with state route number 9 northeast of Everett, thence northeasterly by the most feasible route to Granite Falls, then east on Stanley street to the intersection with North Alder avenue, then north on North Alder avenue to Mountain Loop Highway.

Renumber the remaining sections and correct internal references accordingly.

Debate ensued.

POINT OF INQUIRY

Senator Sutherland: "Senator Vognild, these kinds of discussions about which roads or portions of roads should be on the state highway system versus on a city or a county highway system has been the topic of debate for many, many years in the legislative arena. In fact, I am recalling a process that we set up in the Legislative Transportation Committee that would have a number of entities review all of the roads in the state and then propose which ones should be appropriately on city, county or the state's system. Is that process still in place and did this amendment or this portion of road go through that process to determine a priority of its importance or which road system it ought to belong to?"

Senator Vognild: The answer to your question is 'yes,' the process is completely in place and is functioning. Every year we have a bill here which is a result of the TIB study and the second answer would be 'no,' it did not go through the process and is not a recommendation from that study."

Senator Sutherland: "Thank you, Senator Vognild."

Further debate ensued.

Senator von Reichbauer demanded a roll call and the demand was sustained.

The President Pro Tempore declared the question before the Senate to be the roll call on the adoption of the amendment by Senators Nelson, Barr and Sellar to the striking amendment by Senator Vognild to Engrossed Substitute Senate Bill No. 5972.

Absent: Senator Niemi - 1.

Excused: Senators Amundson, Anderson and Spangle - 3.

On motion of Senator Vognild, the rules were suspended, Reengrossed Substitute Senate Bill No. 5972 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

On motion of Senator Gaspard, Senator Niemi was excused.

(5) If the office of financial management certifies that the population of a county that previously had not been required to plan under subsection (1) or (2) of this section has changed sufficiently to meet either of the ((requirements of)) sets of criteria specified under subsection (1) of this section, and where applicable, the county legislative authority has not adopted a resolution removing the county from these requirements as provided in subsection (1) of this section, the county and each city within such county shall ((adopt)) take actions under this chapter as follows: (a) The county legislative authority shall adopt a county-wide planning policy under RCW 36.70A.210; (b) the county and each city located within the county shall adopt development regulations under RCW 36.70A.060 conserving agricultural lands, forest lands, and mineral resource lands it designated within one year of the date of the certification by the office of financial management; (c) the county shall designate and take other actions related to urban growth areas under RCW 36.70A.110; and (d) the county and each city within the county shall adopt a comprehensive land use plan (under this chapter) and development regulations that are consistent with and implement the comprehensive plan within (three) four years of the certification by the office of financial management; (the, (c) development regulations pursuant to this chapter within one year of having adopted its comprehensive land use plan), but a county or city may obtain an additional six months before it is required to have adopted its development regulations by submitting a letter notifying the department of community development of its need prior to the deadline for adopting both a comprehensive plan and development regulations.

Sec. 2. RCW 36.70A.110 and 1991 s.p.s. c 32 s 29 are each amended to read as follows:

(1) Each county that is required or chooses to ((adopt a comprehensive land use plan)) plan under RCW 36.70A.040 shall designate an urban growth area or areas within which urban growth shall be encouraged and outside of which growth can occur only if it is not urban in nature. Each city that is located in such a county shall be included within an urban growth area. An urban growth area may include more than one single city. An urban growth area may include territory that is located outside of a city if such territory already is characterized by urban growth or is adjacent to territory already characterized by urban growth.

(2) Based upon the population growth management planning population projection made for the county by the office of financial management, the urban growth areas in the county shall include areas and densities sufficient to permit the urban growth that is projected to occur in the county for the succeeding twenty-year period. Each urban growth area shall permit urban densities and shall include greenbelt and open space areas. Within one year of July 1, 1990, each county (required to designate urban growth areas) that as of June 1, 1991, was required or chose to plan under RCW 36.70A.040, shall begin consulting with each city located within the county on the location of an urban growth area. At the beginning of any calendar year, each of the county legislative authority of a county adopts its resolution of intention or of certification by the office of financial management, all other counties that are required or choose to plan under RCW 36.70A.040 shall begin this consultation with each city located within its boundaries. The county shall attempt to reach agreement with each city on the location of an urban growth area within which the
city is located. If such an agreement is not reached with each city located within the urban growth area, the county shall justify in writing why it so designated the area an urban growth area. A city may object formally with the department over the designation of the urban growth area within which it is located. Where appropriate, the department shall attempt to resolve the conflicts, including the use of mediation services.

(3) Urban growth should be located first in areas already characterized by urban growth that have existing public facility and service capacities to serve such development, and second in areas already characterized by urban growth that will be served by a combination of both existing public facilities and services and any additional needed public facilities and services that are provided by either public or private sources. Further, it is appropriate that urban government services be provided by cities, and urban government services should not be provided in rural areas.

(4) On or before October 1, 1993, each county that was initially required to plan under RCW 36.70A.040(1) shall adopt development regulations designating interim urban growth areas under this chapter. Within three years and three months of the date the county legislative authority of a county adopts its resolution of intention or of certification by the office of financial management, all other counties that are required or choose to plan under RCW 36.70A.040 shall adopt development regulations designating interim urban growth areas under this chapter. Adoption of the interim urban growth areas may only occur after public notice; public hearing; and compliance with the state environmental policy act, chapter 43.21C RCW, and RCW 36.70A 110. Such action may be appealed to the appropriate growth planning hearings board under RCW 36.70A.280. Final urban growth areas shall be adopted at the time of comprehensive plan adoption under this chapter.

(5) Each county shall include designations of urban growth areas in its comprehensive plan.

Sec. 3. RCW 36.70A.120 and 1990 1st ex.s. c 17 s 12 are each amended to read as follows:

(Within one year of the adoption of its comprehensive plan, each county and city that is required or chooses to plan under RCW 36.70A.040 shall enact development regulations that are consistent with and implement the comprehensive plan. These counties and cities) Each county and city that is required or chooses to plan under RCW 36.70A.040 shall perform (these) its activities and make capital budget decisions in conformity with (these) its comprehensive plan(s).

Sec. 4. RCW 36.70A.21 and 1991 s.p.s. c 32 s 2 are each amended to read as follows:

(1) The legislature recognizes that counties are regional governments within their boundaries, and cities are primary providers of urban governmental services within urban growth areas. For the purposes of this section, a “county-wide planning policy” is a written policy statement or statements used solely for establishing a county-wide framework from which county and city comprehensive plans are developed and adopted pursuant to this chapter. This framework shall ensure that city and county comprehensive plans are consistent as required in RCW 36.70A.100. Nothing in this section shall be construed to alter the land-use powers of cities.

(2) The legislative authority of a county that plans under RCW 36.70A.040 shall adopt a county-wide planning policy in cooperation with the cities located in whole or in part within the county as follows:

(a) No later than sixty calendar days from July 16, 1991, the legislative authority of (each) each county that as of June 1, 1991, was required or chose to plan under RCW 36.70A.040 shall convene a meeting with representatives of each city located within the county for the purpose of establishing a collaborative process that will provide a framework for the adoption of a county-wide planning policy((i)). In other counties that are required or choose to plan under RCW 36.70A.040, this meeting shall be convened no later than sixty days after the date the county adopts its resolution of intention or was certified by the office of financial management.

(b) The process and framework for adoption of a county-wide planning policy specified in (a) of this subsection shall determine the manner in which the county and the cities agree to all procedures and provisions including but not limited to desired planning policies, deadlines, ratification of final agreements and demonstration thereof, and financing, if any, of all activities associated therewith((i)).

(c) If a county fails for any reason to convene a meeting with representatives of cities as required in (a) of this subsection, the governor may immediately impose any appropriate sanction or sanctions on the county from those specified under RCW 36.70A.340((i)).

(d) If there is no agreement by October 1, 1991, in a county that was required or chose to plan under RCW 36.70A.040 as of June 1, 1991, or if there is no agreement within one hundred twenty days of the date the county adopted its resolution of intention or was certified by the office of financial management in any other county that is required or chooses to plan under RCW 36.70A.040, the governor shall first inquire of the jurisdictions as to the reason or reasons for failure to reach an agreement. If the governor deems it appropriate, the governor may immediately request the assistance of the department of community development to mediate any disputes that preclude agreement. If mediation is unsuccessful in resolving all disputes that will lead to agreement, the governor may impose appropriate sanctions from those specified under RCW 36.70A.340 on the county, city, or cities for failure to reach an agreement as provided in this section. The governor shall specify the reason or reasons for the imposition of any sanction((i)).

(e) No later than July 1, 1992, the legislative authority of (each) each county that was required or chose to plan under RCW 36.70A.040 as of June 1, 1991, or no later than fourteen months after the date the county adopted its resolution of intention or was certified by the office of financial management the county legislative authority of any other county that is required or chooses to plan under RCW 36.70A.040, shall adopt a county-wide planning policy according to the process provided under this section and that is consistent with the agreement pursuant to (b) of this subsection, and after holding a public hearing or hearings on the proposed county-wide planning policy.

(3) A county-wide planning policy shall at a minimum, address the following:

(a) Policies to implement RCW 36.70A.110;

(b) Policies for promotion of contiguous and orderly development and provision of urban services to such development;

(c) Policies for siting public capital facilities of a county-wide or state-wide nature;

(d) Policies for county-wide transportation facilities and strategies;

(e) Policies that consider the need for affordable housing, such as housing for all economic segments of the population and parameters for its distribution;

(f) Policies for joint county and city planning within urban growth areas;

(g) Policies for county-wide economic development and employment; and

(h) An analysis of the fiscal impact.
(4) Federal agencies and Indian tribes may participate in and cooperate with the county-wide planning policy adoption process. Adopted county-wide planning policies shall be adhered to by state agencies. A comprehensive plan in compliance with RCW 36.70A.070, and continued authorization to collect and expend impact fees shall be contingent on the county, city, or town adopting or revising a capital facilities plan element of a comprehensive plan in compliance with RCW 36.70A.070 or the provisions for comprehensive plan adoption contained in chapter 36.70, 35.63, or 35A.63 RCW. After the date a county, city, or town is required to adopt its comprehensive plan or development regulations when such actions are required to be taken.

Sec. 6. RCW 82.02.050 and 1990 1st ex.s. c 17 s 43 are each amended to read as follows:

(1) It is the intent of the legislature:
(a) To ensure that adequate facilities are available to serve new growth and development;
(b) To promote orderly growth and development by establishing standards by which counties, cities, and towns may require, by ordinance, that new growth and development pay a proportionate share of the cost of new facilities needed to serve new growth and development; and
(c) To ensure that impact fees are imposed through established procedures and criteria so that specific developments do not pay arbitrary fees or duplicative fees for the same impact.

(2) Counties, cities, and towns that are required or choose to plan under RCW 36.70A.040 are authorized to impose impact fees on development activity as part of the financing for public facilities, provided that the financing for system improvements to serve new development must provide for a balance between impact fees and other sources of public funds and cannot rely solely on impact fees.

(3) The impact fees:
(a) Shall only be imposed for system improvements that are reasonably related to the new development;
(b) Shall not exceed a proportionate share of the costs of system improvements that are reasonably related to the new development; and

(c) Shall be used for system improvements that will reasonably benefit the new development.

(4) Impact fees may be collected and spent only for the public facilities defined in RCW 82.02.090 which are addressed by a capital facilities plan element of a comprehensive land use plan adopted pursuant to the provisions of RCW 36.70A.070 or the provisions for comprehensive plan adoption contained in chapter 36.70, 35.63, or 35A.63 RCW. After the date a county, city, or town is required to adopt its comprehensive plan or development regulations under chapter 36.70A RCW, continued authorization to collect and expend impact fees shall be contingent on the county, city, or town adopting or revising a comprehensive plan in compliance with RCW 36.70A.070, and on the capital facilities plan identifying:
(a) Deficiencies in public facilities serving existing development and the means by which existing deficiencies will be eliminated within a reasonable period of time;
(b) Additional demands placed on existing public facilities by new development; and
(c) Additional public facility improvements required to serve new development.

If the capital facilities plan of the county, city, or town is complete other than for the inclusion of those elements which are the responsibility of a special district, the county, city, or town may impose impact fees to address those public facility needs for which the county, city, or town is responsible.

The motion by Senator Roach failed and the amendment was not adopted.
MOTION
On motion of Senator Oke, Senator Moyer was excused.

MOTION
On motion of Senator Owen, the rules were suspended, Engrossed Substitute House Bill No. 2055 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY
Senator Barr: "Senator Owen, I notice that in all of your remarks, they were entirely about fish. Those of us in Eastern Washington--it's a great fishery--but it is a great game part of the state, also. What assurance can you give me that the upland birds and the big game will get a fair shake in this consolidation?"

Senator Owen: "Senator Barr, I am as equally interested in the wildlife resources--I thought I said fish and wildlife in my comments--I am as equally interested and concerned about fish and wildlife as you and, I think, anybody in Eastern Washington. I think there are several members on this floor, Senator Oke included, that are concerned about the upland birds and the wildlife resources.

"I don't see anything being diminished in combining the Department of Fishery and the Department of Wildlife. I see things being enhanced by combining the two resources. In other words, if you have a problem with the biology, if you have a problem with--I am trying to think of one that would be consistent with your area--I know that you have animals that feed off of your crops and things like that. We'll have more technical people available to us.

"If, in fact, you have enforcement problems--people poaching in your area--at that time of year, I believe we will be able to channel more resources at the times of the year, where it is important to do that. If your people have questions, whether they be fisheries or whether they be wildlife questions, they can go to one agency, they can go to that one office in your area and that would allow them to get answers to their questions.

"I don't see anything in this bill that diminishes the interest in wildlife. Furthermore, you may notice, that in the bill, we maintained the dedicated fund that we've had over the years, that goes directly for the Department of Wildlife's traditional resources, which would be warm-water game fish, game fish and wildlife resources. I don't see anything that would diminish the attention to Eastern Washington or wildlife that you would be interested in."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Engrossed Substitute House Bill No. 2055.
