(15) \$60,000 of the general fund--state appropriation is provided solely for the Pacific Northwest economic region.

(16) \$500,000 of the general fund--state appropriation is provided solely for distribution to the city of Burien for analysis of the proposed Port of Seattle third runway including preparation of a draft environmental impact statement and other technical studies. The amount provided in this subsection shall not be expended directly or indirectly for litigation, public relations, or any form of consulting services for the purposes of opposing the construction of the proposed third runway.

(17) Not more than \$458,000 of the general fund--state appropriation may be expended for the operation of the Pacific northwest export assistance project. The department will continue to implement a plan for assessing fees for services provided by the project. It is the intent of the legislature that the revenues raised to defray the expenditures of this program will be increased to fifty percent of the expenditures in fiscal year 1996 and seventy-five percent of the expenditures in fiscal year 1997. Beginning in fiscal year 1998, the legislature intends that this program will be fully self-supporting.

(18) \$4,804,000 of the public safety and education account appropriation is provided solely for contracts with qualified legal aid programs for civil indigent legal representation pursuant to RCW 43.08.260. It is the intent of the legislature to ensure that legal aid programs receiving funds appropriated in this act pursuant to RCW 43.08.260 comply with all applicable restrictions on use of these funds. To this end, during the 1995-97 fiscal biennium the department shall monitor compliance with the authorizing legislation, shall oversee the implementation of this subsection, and shall report directly to the appropriations committee of the house of representatives and the ways and means committee of the senate.

(a) It is the intent of the legislature to improve communications between legal aid programs and persons affected by the activities of legal aid programs. There is established for the 1995-97 fiscal biennium a task force on agricultural interests/legal aid relations. The task force shall promote better understanding and cooperation between agricultural interests and legal aid programs and shall provide a forum for discussion of issues of common concern. The task force shall not involve itself in pending litigation.

(i) The task force shall consist of the following sixteen members: Four representatives of agricultural organizations, to be appointed by the legislator members; two individuals who represent the corresponding interests of legal clients, to be appointed by organizations designated by the three legal services programs; two representatives of Evergreen Legal Services, to be appointed by its board of directors; one representative each from Puget Sound Legal Assistance Foundation and Spokane Legal Services Center, each to be appointed by its directors; one member from each of the majority and minority caucuses of the house of representatives, to be appointed by the speaker of the house of representatives; one member from each of the majority and minority caucuses of the senate, to be appointed by the president of the senate; and two members of the supreme court-appointed access to justice board, to be appointed by the board. During fiscal year 1996, the task force shall be chaired by a legislative member, to be selected by the task force members. During fiscal year 1997, the committee shall be chaired by a nonlegislator member, to be selected by the task force members.

(ii) All costs associated with the meetings shall be borne by the individual task force members or by the organizations that the individuals represent. No task force member shall be eligible for reimbursement of expenses under RCW 43.03.050 or 43.03.060. Nothing in this subsection prevents the legal aid programs from using funds appropriated in this act to reimburse their representatives or the individuals representing legal clients.

(iii) The task force will meet at least four times during the first year of the biennium and as frequently as necessary thereafter at mutually agreed upon times and locations. Any member of the task force may place items on meeting agendas. Members present at the first two task force meetings shall agree upon a format for subsequent meetings.

(b) The legislature recognizes that farmworkers have the right to receive basic information and to consult with attorneys at farm labor camps without fear of intimidation or retaliation. It is the intent of the legislature and in the interest of the public to ensure the safety of all persons affected by legal aid programs' farm labor camp outreach activities. Legal aid program employees have the legal right to enter the common areas of a labor camp or to request permission of employees to enter their dwellings. Employees living in grower supplied housing have the right to refuse entry to anyone including attorneys unless they have a warrant. Individual employees living in employer supplied housing do not have the right to force legal aid program employees to leave common areas of housing (outside) as long as one person who resides in the associated dwellings wants that person to be there. Any legal aid program employee wishing to visit employees housed on grower property has the right to enter the driveway commonly used by the housing occupants. This means that if agricultural employees must use a grower's personal driveway to get to their housing, legal aid program employees also may use that driveway to access the housing without a warrant so long as at least some of the housing is occupied. When conducting outreach activities that involve entry onto labor camps, legal aid programs shall establish and abide by policies regarding conduct of outreach activities. The policies shall include a requirement that legal aid program employees identify themselves to persons whom they encounter at farm labor camps. The legal aid programs shall provide copies of their current outreach policies to known agricultural organizations and shall provide copies upon request to any owner of property on which farmworkers are housed. Legal aid program employees involved in outreach activities shall attempt to inform operators of licensed farm labor camps or their agents, and known grower organizations of the approximate time frame for outreach activities and shall cooperate with operators of farm labor camps at which farmworkers are housed in assuring compliance with all pertinent laws and ordinances, including those related to trespass and harassment. Employers who believe that Evergreen Legal Services Outreach Guidelines have been violated shall promptly provide all available information on the alleged violation to the director of Evergreen Legal Services and to the chair of the Task Force on Agricultural Interests/Legal Aid Relations. Evergreen Legal Services will promptly investigate any alleged violations of the outreach guidelines and inform the complaining party of the result. If the resolution of the investigation is not satisfactory to the complainant, the matter shall be placed on the Task Force agenda for discussion at the next scheduled meeting. Employers who believe that Evergreen Legal Services staff members have trespassed should immediately contact local law enforcement authorities.

(c) It is the intent of the legislature to provide the greatest amount of legal services to the largest number of clients by discouraging inefficient use of state funding for indigent legal representation. To this end, it is the intent of the legislature that, prior to the commencement of litigation against any private employer relating to the terms and conditions of employment legal aid programs receiving funds appropriated in this act make good faith written demand for the requested relief, a good faith offer of settlement or an offer to submit to nonbinding arbitration prior to filing a lawsuit, unless the making of the offer is, in the opinion of the director of the legal services program or his/her designee, clearly prejudicial to: (i) The health, safety, or security of the client; or (ii) the timely availability of judicial relief. The director of the legal aid program may designate not more than two persons for purposes of making the determination of prejudice permitted by this section.

(d)(i) The legislature encourages legal aid programs to devote their state and nonstate funding to the basic, daily legal needs of indigent persons. No funds appropriated under this act may be used for legal representation and activities outside the scope of RCW 43.08.260.

(ii) No funds appropriated in this act may be used for lobbying as defined in RCW 43.08.260(3). Legal aid programs receiving funds appropriated in this act shall comply with all restrictions on lobbying contained in Federal Legal Services Corporation Act (P.L. 99-951) and regulations promulgated thereunder.

(e) No funds appropriated in this act may be used by legal aid programs for representation of undocumented aliens.

(f) The legislature recognizes the duty of legal aid programs to preserve inviolate and prevent the disclosure of, in the absence of knowing and voluntary client consent, client information protected by the United States Constitution, the Washington Constitution, the attorney-client privilege, or any applicable attorney rule of professional conduct. However, to the extent permitted by applicable law, legal aid programs receiving funds appropriated in this act shall, upon request, provide information on their activities to the department and to legislators for purposes of monitoring compliance with authorizing legislation and this subsection.

(g) Nothing in this subsection is intended to limit the authority of existing entities, including but not limited to the Washington state bar association, the public disclosure commission, and the Federal Legal Services Corporation, to resolve complaints or disputes within their jurisdiction.

(f) For districts operating no more than two high schools with enrollments of less than three hundred average annual full-time equivalent students, for enrollment in grades 9-12 in each such school, other than alternative schools:

(i) For remote and necessary schools enrolling students in any grades 9-12 but no more than twenty-five average annual full-time equivalent students in grades K-12, four and one-half certificated instructional staff units and one-quarter of a certificated administrative staff unit;

(ii) For all other small high schools under this subsection, nine certificated instructional staff units and one-half of a certificated administrative staff unit for the first sixty average annual full time equivalent students, and additional staff units based on a ratio of 0.8732 certificated instructional staff units and 0.1268 certificated administrative staff units per each additional forty-three and one-half average annual full time equivalent students.

Units calculated under (f)(ii) of this subsection shall be reduced by certificated staff units at the rate of forty-six certificated instructional staff units and four certificated administrative staff units per thousand vocational full-time equivalent students.

(g) For each nonhigh school district having an enrollment of more than seventy annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-8 program or a grades 1-8 program, an additional one-half of a certificated instructional staff unit;

(h) For each nonhigh school district having an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-6 program or a grades 1-6 program, an additional one-half of a certificated instructional staff unit.

(3) Allocations for classified salaries for the 1995-96 and 1996-97 school years shall be calculated using formula-generated classified staff units determined as follows:

(a) For enrollments generating certificated staff unit allocations under subsection (2) (d) through (h) of this section, one classified staff unit for each three certificated staff units allocated under such subsections;

(b) For all other enrollment in grades K-12, including vocational full-time equivalent enrollments, one classified staff unit for each sixty average annual full-time equivalent students; and

(c) For each nonhigh school district with an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, an additional one-half of a classified staff unit.

(4) Fringe benefit allocations shall be calculated at a rate of 20.71 percent in the 1995-96 school year and 20.71 percent in the 1996-97 school year of certificated salary allocations provided under subsection (2) of this section, and a rate of 18.77 percent in the 1995-96 school year and 18.77 percent in the 1996-97 school year of classified salary allocations provided under subsection (3) of this section.

(5) Insurance benefit allocations shall be calculated at the rates specified in section 504(2) of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent;

(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2) (a), (b), and (d) through (h) of this section, there shall be provided a maximum of \$7,656 per certificated staff unit in the 1995-96 school year and a maximum of \$7,893 per certificated staff unit in the 1996-97 school year.

(b) For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c) of this section, there shall be provided a maximum of \$14,587 per certificated staff unit in the 1995-96 school year and a maximum of \$15,039 per certificated staff unit in the 1996-97 school year.

(7) Allocations for substitute costs for classroom teachers shall be distributed at a maximum rate of \$341 for the 1995-96 school year and \$341 per year for the 1996-97 school year for allocated classroom teachers. Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported state-wide for the 1994-95 school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(9) The superintendent may distribute a maximum of \$3,122,000 outside the basic education formula during fiscal years 1996 and 1997 as follows:

(a) For fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW, a maximum of \$431,000 may be expended in fiscal year 1996 and a maximum of \$444,000 may be expended in fiscal year 1997;

(b) For summer vocational programs at skills centers, a maximum of \$1,938,000 may be expended in the 1995-96 school year; and

(11) If two or more school districts consolidate and each district was receiving additional basic education formula staff units pursuant to subsection (2) (b) through (h) of this section, the following shall apply:

(a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

(b) For the fourth through eighth school years following consolidation, the difference between the basic education formula staff units received by the districts for the school year prior to consolidation and the basic education formula staff units after consolidation pursuant to subsection (2) (a) through (h) of this section shall be reduced in increments of twenty percent per year.

NEW SECTION. Sec. 503. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--BASIC EDUCATION EMPLOYEE COMPENSATION

(1) The following calculations determine the salaries used in the general fund allocations for certificated instructional, certificated administrative, and classified staff units under section 502 of this act:

(a) Salary allocations for certificated instructional staff units shall be determined for each district by multiplying the district's certificated instructional derived base salary shown on LEAP Document 12C, by the district's average staff mix factor for basic education certificated instructional staff in that school year, computed using LEAP Document 1A; and

(b) Salary allocations for certificated administrative staff units and classified staff units for each district shall be based on the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 12C.

(2) For the purposes of this section:

(a) "Basic education certificated instructional staff" is defined as provided in RCW 28A.150.100;

(b) "LEAP Document 1A" means the computerized tabulation establishing staff mix factors for basic education certificated instructional staff according to education and years of experience, as developed by the legislative evaluation and accountability program committee on April 8, 1991, at 13:35 hours; and

(c) "LEAP Document 12C" means the computerized tabulation of 1995-96 and 1996-97 school year salary allocations for basic education certificated administrative staff and basic education classified staff and derived base salaries for basic education certificated instructional staff as developed by the legislative evaluation and accountability program committee on May 21, 1995, at 23:35 hours.

(3) Incremental fringe benefit factors shall be applied to salary adjustments at a rate of 20.07 percent for certificated staff and 15.27 percent for classified staff for both years of the biennium.

(4)(a) Pursuant to RCW 28A.150.410, the following state-wide salary allocation schedules for certificated instructional staff are established for basic education salary allocations:

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

- (i) Credits earned since receiving the masters degree; and
- (ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

- (a) "BA" means a baccalaureate degree.
- (b) "MA" means a masters degree.
- (c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules used by the superintendent of public instruction for salary allocations in the 1994-95 school year.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 or as hereafter amended.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

- (a) The employee has a masters degree; or
- (b) The credits were used in generating state salary allocations before January 1, 1992.

(7)(a) Credits earned by certificated instructional staff after September 1, 1995, shall be counted only if the content of the course: (i) is consistent with the school district's strategic plan for improving student learning; (ii) is consistent with a school-based plan for improving student learning developed under section 520(2) of this act for the school in which the individual is assigned; (iii) pertains to the individual's current assignment or expected assignment for the following school year; (iv) is necessary for obtaining an endorsement as prescribed by the state board of education; (v) is specifically required for obtaining advanced levels of certification; or (vi) is included in a college or university degree program that pertains to the individual's current assignment, or potential future assignment, as a certificated instructional staff.

(b) Once credits earned by certificated instructional staff have been determined to meet one or more of the criteria in (a) of this subsection, the credits shall be counted even if the individual transfers to other school districts.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2).

NEW SECTION. Sec. 504. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL EMPLOYEE COMPENSATION ADJUSTMENTS

The appropriations in this section are subject to the following conditions and limitations:

(1) \$218,748,000 is provided for cost of living adjustments of 4.0 percent effective September 1, 1995, for state-formula staff units. The appropriation includes associated incremental fringe benefit allocations for both years at rates 20.07 percent for certificated staff and 15.27 percent for classified staff.

(a) The appropriation in this section includes the increased portion of salaries and incremental fringe benefits for all relevant state funded school programs in PART V of this act. Salary adjustments for state employees in the office of superintendent of public instruction and the education reform program are provided in the Special Appropriations sections of this act. Increases for special education result from increases in each district's basic education allocation per student. Increases for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in section 503 of this act.

(b) The appropriation in this section provides salary increase and incremental fringe benefit allocations for the following programs based on formula adjustments as follows:

(i) For pupil transportation, an increase of \$0.77 per weighted pupil-mile for the 1995-96 school year and maintained for the 1996-97 school year;

(4) The rates specified in this section are subject to revision each year by the legislature.

NEW SECTION. Sec. 505. INCREMENT SALARY INCREASES The appropriations in sections 502 through 519 of this act contain \$27,880,000 in fiscal year 1996 and \$63,950,000 in fiscal year 1997 for funding of experience and education increments for certificated instructional staff. This provides an average salary increase of 1.55 percent per year.

NEW SECTION. Sec. 506. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR PUPIL TRANSPORTATION

General Fund--State Appropriation (FY 1996) \$ 3,000,000

General Fund--State Appropriation (FY 1996) \$ 380,179,000

General Fund--State Appropriation (FY 1997) \$ 373,289,000

General Fund--Federal Appropriation \$ 98,684,000

TOTAL APPROPRIATION \$ 852,152,000

The appropriations in this section are subject to the following conditions and limitations:

(1) The general fund--state appropriation includes such funds as are necessary for the remaining months of the 1994-95 school year.

(2) In recognition of the need for increased flexibility at the local district level to facilitate the provision of appropriate education to children with disabilities, and the need for substantive educational reform for a significant portion of the school population, the funding formula for special education is modified. These changes result from a 1994 study and recommendations by the institute for public policy and the legislative budget committee, aided by the office of the superintendent of public instruction and the statewide task force for the development of special education funding alternatives. The new formula is for allocation purposes only and is not intended to prescribe or imply any particular pattern of special education service delivery other than that contained in a properly formulated, locally determined, individualized education program.

(3) The superintendent of public instruction shall distribute state funds to school districts based on two categories, the mandatory special education program for special education students ages three to twenty-one and the optional birth through age two program for developmentally delayed infants and toddlers. The superintendent shall review current state eligibility criteria for the fourteen special education categories and consider changes which would reduce assessment time and administrative costs associated with the special education program.

(4) For the 1995-96 and 1996-97 school years, the superintendent shall distribute state funds to each district based on the sum of:

(a) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, times the district's average basic education allocation per full-time equivalent student, times 1.15; and

(b) A district's annual average full-time equivalent basic education enrollment times the enrollment percent, times the district's average basic education allocation per full-time equivalent student times 0.9309.

(5) The definitions in this subsection apply throughout this section.

(a) "Average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 (i.e., 49/1000 certificated instructional staff in grades K-3, and 46/1000 in grades 4-12), and shall not include enhancements for K-3, secondary vocational education, or small schools.

(b) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(c) "Enrollment percent" shall mean the district's resident special education annual average enrollment including those students counted under the special education demonstration projects, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment. For the 1995-96 and the 1996-97 school years, each district's enrollment percent shall be:

(i) For districts whose enrollment percent for 1994-95 was at or below 12.7 percent, the lesser of the district's actual enrollment percent for the school year for which the allocation is being determined or 12.7 percent.

(ii) For districts whose enrollment percent for 1994-95 was above 12.7 percent, the lesser of:
(A) The district's actual enrollment percent for the school year for which the special education allocation is being determined; or
(B) The district's actual enrollment percent for the school year immediately prior to the school year for which the special education allocation is being determined; or
(C) For 1995-96, the 1994-95 enrollment percent reduced by 25 percent of the difference between the district's 1994-95 enrollment percent and 12.7. For 1996-97, the 1994-95 enrollment percent reduced by 50 percent of the difference between the district's 1994-95 enrollment percent and 12.7.

(6) A minimum of \$4.5 million of the general fund--federal appropriation shall be expended for safety net funding to meet the extraordinary needs of individual special education students.

(7) From the general fund--state appropriation, \$14,600,000 is provided for the 1995-96 school year, and \$19,575,000 for the 1996-97 school year, for safety net purposes for districts with demonstrable funding needs for special education beyond the combined amounts provided in subsection (4) of this section. The superintendent of public instruction shall, by rule, establish procedures and standards for allocation of safety net funds. School districts shall submit their requests for safety net funds to the appropriate regional committee established by the superintendent of public instruction. Regional committees shall make recommendations to the state oversight committee for approval. The following conditions and limitations shall be applicable to school districts requesting safety net funds:

(a) For a school district requesting state safety net funds due to special characteristics of the district and costs of providing services which differ significantly from the assumptions contained in the funding formula, the procedures and standards shall permit relief only if a district can demonstrate at a minimum that:

- (i) Individualized education plans are appropriate and are properly and efficiently prepared and formulated;
- (ii) The district is making a reasonable effort to provide appropriate program services for special education students utilizing state funds generated by the apportionment and special education funding formulas;
- (iii) The district's programs are operated in a reasonably efficient manner and that the district has adopted a plan of action to contain or eliminate any unnecessary, duplicative, or inefficient practices;
- (iv) Indirect costs charged to this program do not exceed the allowable percent for the federal special education program;
- (v) Any available federal funds are insufficient to address the additional needs; and
- (vi) The costs of any supplemental contracts are not charged to this program for purposes of making these determinations.

(b) For districts requesting safety net funds due to federal maintenance of effort requirements, the procedures and standards shall permit relief only if a district can demonstrate at a minimum that:

- (i) Individualized education plans are appropriate and are properly and efficiently prepared and formulated;
- (ii) The district is making a reasonable effort to provide appropriate program services for special education students utilizing state funds generated by the apportionment and special education funding formulas; and
- (iii) Calculations made in accordance with subsection (8) of this section with respect to state fund allocations justify a need for additional funds for compliance with federal maintenance of effort requirements.

(8)(a) For purposes of making safety net determinations pursuant to subsection (7) of this section, the superintendent shall make available to each school district, from available data, prior to June 1st of each year:

- (i) The district's 1994-95 enrollment percent;
- (ii) For districts with a 1994-95 enrollment percent over 12.7 percent, the maximum 1995-96 enrollment percent, and prior to 1996-97 the maximum 1996-97 enrollment percent;
- (iii) The estimate to be used for purposes of subsection (7) of this section of each district's 1994-95 special education allocation showing the excess cost and the basic education portions; and
- (iv) If necessary, a process for each district to estimate the 1995-96 school year excess cost allocation for special education and the portion of the basic education allocation formerly included in the special education allocation. This process may utilize the allocations generated pursuant to subsection (4) of this section, each district's 1994-95 estimated basic education backout percent for the 1994-95 school year, and state compensation increases for 1995-96.

(b) The superintendent, in consultation with the state auditor, shall take all necessary steps to successfully transition to the new formula and minimize paperwork at the district level associated with maintenance of effort calculations. The superintendent shall develop such rules and procedures as are necessary to implement this process for the 1995-96 school year, and may use the same process for the 1996-97 school year if found necessary for federal maintenance of effort calculations.

(9) Prior to adopting any standards, procedures, or processes required to implement this section, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) Membership of the regional committees may include, but not be limited to:

- (a) A representative of the superintendent of public instruction;
- (b) One or more representatives from school districts including board members, superintendents, special education directors, and business managers; and
- (c) One or more staff from an educational service district.

(11) The state oversight committee appointed by the superintendent of public instruction shall consist of:

- (a) Staff of the office of superintendent of public instruction;
- (b) Staff of the office of the state auditor;
- (c) Staff from the office of the financial management; and
- (d) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(12) The institute for public policy, in cooperation with the superintendent of public instruction, the office of financial management, and the fiscal committees of the legislature, shall evaluate the operation of the safety nets under subsections (6) and (7) of this section and shall prepare an interim report by December 15, 1995, and a final report on the first school year of operation by October 15, 1996.

(13) A maximum of \$678,000 may be expended from the general fund--state appropriation to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at Children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(14) \$1,000,000 of the general fund--federal appropriation is provided solely for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(15) Not more than \$80,000 of the general fund--federal appropriation shall be expended for development of an inservice training program to identify students with dyslexia who may be in need of special education.

NEW SECTION. Sec. 509. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR TRAFFIC SAFETY

EDUCATION PROGRAMS

Public Safety and Education Account

Appropriation \$ 17,488,000

The appropriation in this section is subject to the following conditions and limitations:

(2) The state grant may provide no more than fifteen percent of the estimated total capital cost or actual total capital cost of the project, whichever is less. The remaining portions of project capital costs shall be a match from nonstate sources. The match may include cash and land value.

(3) State funding shall be distributed to projects in the order in which matching requirements have been met.

(4) The department shall submit a list of recommended performing arts, museum, and cultural organization projects for funding in the 1997-99 capital budget. The list shall result from a competitive grants program developed by the department based upon: Uniform criteria for the selection of projects and awarding of grants for up to fifteen percent of the total project cost; local community support for the project; a requirement that the sites for the projects are secured or optioned for purchase; and a state-wide geographic distribution of projects.

(5) The reappropriation and new appropriation in this section are provided to fund the state share for phase 1, 2, and 3 of the building for the arts program. Within this amount the department may fund projects that demonstrate adequate progress and have secured the necessary match funding. The department may require that projects recompile for funding.

(6) No single project shall exceed \$4,500,000 unless there are uncommitted funds from the appropriations in this section after January 1, 1997. (7) The department is authorized to allocate the amounts appropriated in this section among the eligible projects in phases 1, 2, 3 and to set matching requirements for individual projects.

The appropriation in this section is subject to the following conditions and limitations:

(1) \$150,000.00 of the state building construction account appropriation is provided solely for the master plan for the improvements to the hatchery. The master plan's primary consideration is to identify, prioritize, and design improvements which will aid in the continued production of salmon at this facility. It shall also consider the educational, cultural, watershed management, research, tourism, tribal interests, and community development aspects of the hatchery. This master plan shall incorporate participation and recommendations from the Issaquah fishery management task force. A report is due to the legislature by January 1996.

(2) State dollars for construction and improvements shall be matched by at least \$1.00 from nonstate sources for each dollar provided by the state. Up to \$150,000.00 of the construction and improvement appropriation shall be immediately released and combined with matching funds to expedite in-stream improvements which meet the following criteria: Improvements will be designed and constructed which: (a) Facilitate better fish passage for utilization of up-stream habitat; (b) provide for flexible management strategies for a variety of fish stocks including small runs, threatened or endangered species and game fish; (c) minimally impact future operating expenses while reaching these objectives; and (d) provide for raising of the pumps at the lower intake and make other improvements which protect in-stream structures from seasonal high water.

NEW SECTION. Sec. 805. The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts.

NEW SECTION. Sec. 806. "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 1995, in the 1993-95 biennial appropriations for each project.

The intent of the requirement imposed by this section is to eliminate duplication and reduce total office space requirements where feasible, while ensuring proper service to the public.

NEW SECTION. Sec. 812. The governor, through the office of financial management, may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes which govern the grants.

been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

For the purposes of this section, the legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

A report of any transfer effected under this section except emergency projects or any transfer under \$250,000 shall be filed with the legislative fiscal committees of the senate and house of representatives by the director of financial management at least thirty days before the date the transfer is effected. The director shall report all emergency or smaller transfers within thirty days from the date of transfer.

The predesign document shall include but not be limited to program, site, and cost analysis in accordance with the predesign manual adopted by the office of financial management.

Before any such expenditure by a public school, a video telecommunications expenditure plan shall be approved by the superintendent of public instruction. The office of the superintendent of public instruction shall submit the plans to the department of information services in a form prescribed by the department. The office of the superintendent of public instruction shall coordinate the use of the video telecommunications in public schools by providing educational information to local school districts and shall assist local school districts and educational service districts in telecommunications planning and curriculum development. NEW SECTION. Sec. 819. STUDYING THE FEASIBILITY OF ESTABLISHING A POOLED REVENUE DISTRIBUTION SYSTEM FOR STATE TRUST LANDS. The board of natural resources shall evaluate the feasibility of establishing a pooled revenue distribution system for state lands, as defined in RCW 79.01.004, to provide a more consistent and predictable revenue stream to trust beneficiaries. For the purposes of this section, a "pooled revenue distribution system" means a system that distributes revenues to each trust beneficiary based on the proportional net present value of revenue forecasted for each trust ownership over a defined time period. Actual revenue distribution to each trust during a fiscal period would be based on the assigned proportional benefit multiplied by the actual total revenues produced from all state lands during the period. The board shall report to the legislature on its evaluation, including any recommendations for implementation, by November 1, 1995. The report shall include necessary modifications to the legal framework governing state trust land revenues, and a proposed valuation methodology, as well as a forecast of potential revenue distributions using a pooled revenue distribution system.

NEW SECTION. Sec. 820. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

Senator Gaspard: "Cities and counties currently have authority to enter into agreements covering various governmental services and may agree to distribution of revenues as part of such agreements. For example, the Legislature approved Senate Bill No. 5038 last year which describes one process through which counties and cities may reach agreements on providing governmental services, including detention. Nothing in this bill, House Bill No. 2110, precludes counties and cities from entering into agreements for providing services or for the distribution of revenue authorized by this bill."

The appropriation in this section is subject to the following conditions and limitations:

(1) \$150,000.00 of the state building construction account appropriation is provided solely for the master plan for the improvements to the hatchery. The master plan's primary consideration is to identify, prioritize, and design improvements which will aid in the continued production of salmon at this facility. The master plan shall also focus on improvements which will enable this facility with the merger of the departments to aid in wild stock restoration for migratory fish species previously under management of the department of wildlife. It shall also consider the educational, cultural, watershed management, research, tourism, tribal interests, and community development aspects of the hatchery. This master plan shall incorporate participation and recommendations from the Issaquah fishery management task force. A report is due to the legislature by January 1996.

(2) State dollars for construction and improvements shall be matched by at least \$1.00 from nonstate sources for each dollar provided by the state. Up to \$150,000.00 of the construction and improvement appropriation shall be immediately released and combined with matching funds to expedite in-stream improvements which meet the following criteria: Improvements will be designed and constructed which: (a) Facilitate better fish passage for utilization of up-stream habitat; (b) provide for flexible management strategies for a variety of fish stocks including small runs, threatened or endangered species and game fish; (c) minimally impact future operating expenses while reaching these objectives; and (d) provide for raising of the pumps at the lower intake and make other improvements which protect in-stream structures from seasonal high water.

(3) The remainder of the funds may be spent for hatchery improvements following approval of the master plan by the office of financial management.

NEW SECTION. Sec. 805. The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts.

NEW SECTION. Sec. 806. "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 1995, in the 1993-95 biennial appropriations for each project.

NEW SECTION. Sec. 807. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 808. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with funds available from private or local sources. Any capital improvements or capital projects involving construction or major expansion of a state office facility, including, but not limited to, district headquarters, detachment offices, and off-campus faculty offices, shall be reviewed by the office of financial management and the department of general administration for possible consolidation, collocation, and compliance with state office standards before allotment of funds. NEW SECTION. Sec. 812. The governor, through the office of financial management, may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes which govern the grants.

For purposes of this section, the governor may find that an amount is in excess of the amount required for the completion of a project only if: (1) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (2) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

For the purposes of this section, the legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

A report of any transfer effected under this section except emergency projects or any transfer under \$250,000 shall be filed with the legislative fiscal committees of the senate and house of representatives by the director of financial management at least thirty days before the date the transfer is effected. The director shall report all emergency or smaller transfers within thirty days from the date of transfer.

NEW SECTION. Sec. 813. To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act referencing this section or in excess of \$5,000,000 shall not be expended until the office of financial management has reviewed the agency's predesign and other documents and approved an allotment for the project. The board of natural resources shall evaluate the feasibility of establishing a pooled revenue distribution system for state lands, as defined in RCW 79.01.004, to provide a more consistent and predictable revenue stream to trust beneficiaries. For the purposes of this section, a "pooled revenue distribution system" means a system that distributes revenues to each trust beneficiary based on the proportional net present value of revenue forecasted for each trust ownership over a defined time period. Actual revenue distribution to each trust during a fiscal period would be based on the assigned proportional benefit multiplied by the actual total revenues produced from all state lands during the period. The board shall report to the legislature on its evaluation, including any recommendations for implementation, by November 1, 1995. The report shall include necessary modifications to the legal framework governing state trust land revenues, and a proposed valuation methodology, as well as a forecast of potential revenue distributions using a pooled revenue distribution system.

NEW SECTION. Sec. 820. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

(1) The legislature declares that Washington's waters have irreplaceable value for the citizens of the state. These waters are vital habitat for numerous and diverse marine life and wildlife and the source of recreation, aesthetic pleasure, and pride for Washington's citizens. These waters are also vital for much of Washington's economic vitality.

The legislature finds that the transportation of oil on these waters creates a great potential hazard to these important natural resources. ~~((The legislature also finds that there is no state agency responsible for maritime safety to ensure this state's interest in preserving these resources.~~

~~The legislature therefore finds that in order to protect these waters it is necessary to establish an office of marine safety which will have the responsibility to promote the safety of marine transportation in Washington.)~~

(2) The legislature finds that the long-term environmental health of the state's waters depends upon the strength and vitality of its oil spill prevention and response program. It is the intent of this section and sections 515 through 524 of this act to create an integrated oil spill prevention and response program that fosters planning, coordination, and incidence command. To that end, the merger of the office of marine safety with the department of ecology will: Ensure coordination via streamlining the marine safety functions of two agencies into one; provide a focused prevention and response program under a single administration; generate efficient incidence command to meet challenges threatening marine safety and the environment; and increase accountability owed to the public, the executive branch, and the legislature.

(3) It is the intent of the legislature that the merger of the office of marine safety with the department of ecology be accomplished in an organizational manner that maintains a priority focus and position for the oil spill prevention and response program. The merger shall allow for ready identification of the program by the public and ensure no diminution in the state's commitment to marine safety and environmental protection.

Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(b) applies; however, any transfer under this subsection (2)(b) must be greater than zero;

(c) To the public transportation systems account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within counties not described in (b) of this subsection, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(c) applies; however, any transfer under this subsection (2)(c) must be greater than zero; and

(d) To the general fund, for revenues distributed after June 30, 1993, and to the transportation fund, for revenues distributed after June 30, 1995, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent notwithstanding the requirements set forth in subsections (3) through (6) of this section, reduced by an amount equal to distributions made under (a), (b), and (c) of this subsection and RCW 82.14.046.

(4) At the close of each calendar year accounting period, but not later than April 1, each municipality that has received motor vehicle excise taxes under subsection (3) of this section shall transmit to the director of licensing and the state auditor a written report showing by source the previous year's budgeted tax revenues for public transportation purposes as compared to actual collections. Any municipality that has not submitted the report by April 1 shall cease to be eligible to receive motor vehicle excise taxes under subsection (3) of this section until the report is received by the director of licensing. If a municipality has received more or less money under subsection (3) of this section for the period covered by the report than it is entitled to receive by reason of its locally-generated collected tax revenues, the director of licensing shall, during the next ensuing quarter that the municipality is eligible to receive motor vehicle excise tax funds, increase or decrease the amount to be remitted in an amount equal to the difference between the locally-generated budgeted tax revenues and the locally-generated collected tax revenues. In no event may the amount remitted for a calendar year exceed the amount collected on behalf of the municipality under RCW 35.58.273 during that same calendar year excluding the sales and use tax equalization distributions provided under RCW 82.14.046. At the time of the next fiscal audit of each municipality, the state auditor shall verify the accuracy of the report submitted and notify the director of licensing of any discrepancies.

Sec. 537. RCW 81.104.140 and 1992 c 101 s 25 are each amended to read as follows:

(1) Agencies authorized to provide high capacity transportation service, including transit agencies and regional transit authorities, are hereby granted dedicated funding sources for such systems. These dedicated funding sources, as set forth in RCW 81.104.150, 81.104.160, and 81.104.170, are authorized only for agencies located in ~~((a) each county with a population of two hundred ten thousand or more and (b) each county with a population of from one hundred twenty-five thousand to less than two hundred ten thousand except for those counties that do not border a county with a population as described under (a) of this subsection. In any county with a population of one million or more or in any county having a population of four hundred thousand or more bordering a county with a population of one million or more, these funding sources may be imposed only by a regional transit authority))~~ any county that has a population of one hundred seventy-five thousand or more and has an interstate highway within its borders. A vote within the boundaries of a regional transit authority to authorize imposition of these dedicated funding sources may not occur prior to February 1, 1996.

(2) Agencies planning to construct and operate a high capacity transportation system should also seek other funds, including federal, state, local, and private sector assistance.

(3) Funding sources should satisfy each of the following criteria to the greatest extent possible:

- (a) Acceptability;
- (b) Ease of administration;
- (c) Equity;
- (d) Implementation feasibility;
- (e) Revenue reliability; and
- (f) Revenue yield.

(4) Agencies participating in regional high capacity transportation system development are authorized to levy and collect the following voter-approved local option funding sources:

- (a) Employer tax as provided in RCW 81.104.150;
- (b) Special motor vehicle excise tax as provided in RCW 81.104.160; and
- (c) Sales and use tax as provided in RCW 81.104.170.

Revenues from these taxes may be used only to support those purposes prescribed in subsection (10) of this section. Before the date of an election authorizing an agency to impose any of the taxes enumerated in this section and authorized in RCW 81.104.150, 81.104.160, and 81.104.170, the agency must comply with the process prescribed in RCW 81.104.100 (1) and (2) and 81.104.110. No construction on exclusive right of way may occur before the requirements of RCW 81.104.100(3) are met.

(5) Authorization in subsection (4) of this section shall not adversely affect the funding authority of transit agencies not provided for in this chapter. Local option funds may be used to support implementation of interlocal agreements with respect to the establishment of regional high capacity transportation service. Except when a regional transit authority exists, local jurisdictions shall retain control over moneys generated within their boundaries, although funds may be commingled with those generated in other areas for planning, construction, and operation of high capacity transportation systems as set forth in the agreements.

(6) Agencies planning to construct and operate high capacity transportation systems may contract with the state for collection and transference of voter-approved local option revenue.

(7) Dedicated high capacity transportation funding sources authorized in RCW 81.104.150, 81.104.160, and 81.104.170 shall be subject to voter approval by a simple majority. A single ballot proposition may seek approval for one or more of the authorized taxing sources. ((The ballot title shall reference the document identified in subsection (8) of this section.))

(8) ((Agencies shall provide to the registered voters in the area a document describing the systems plan and the financing plan set forth in RCW 81.104.100. It shall also describe the relationship of the system to regional issues such as development density at station locations and activity centers, and the interrelationship of the system to adopted land use and transportation demand management goals within the region. This document shall be provided to the voters at least twenty days prior to the date of the election)) When making public representations about revenues available to support a proposed project, regional transit authorities shall not assume, nor imply the availability of state funds unless those funds have been specifically authorized. Any assumptions of federal funds shall be based on authorizations in the current six-year transportation authorization law.

(9) For any election in which voter approval is sought for a high capacity transportation system plan and financing plan pursuant to RCW 81.104.040, a local voter's pamphlet shall be produced as provided in chapter 29.81A RCW.

(10) Agencies providing high capacity transportation service shall retain responsibility for revenue encumbrance, disbursement, and bonding. Funds may be used for any purpose relating to planning, construction, and operation of high capacity transportation systems and commuter rail systems, personal rapid transit, busways, bus sets, and entrained and linked buses.

Sec. 538. RCW 82.44.150 and 1994 c 241 s 1 are each amended to read as follows:

(1) The director of licensing shall, on the twenty-fifth day of February, May, August, and November of each year, advise the state treasurer of the total amount of motor vehicle excise taxes imposed by RCW 82.44.020 (1) and (2) remitted to the department during the preceding calendar quarter ending on the last day of March, June, September, and December, respectively, except for those payable under RCW 82.44.030, from motor vehicle owners residing within each municipality which has levied a tax under RCW 35.58.273, which amount of excise taxes shall be determined by the director as follows:

The total amount of motor vehicle excise taxes remitted to the department, except those payable under RCW 82.44.020(3) and 82.44.030, from each county shall be multiplied by a fraction, the numerator of which is the population of the municipality residing in such county, and the denominator of which is the total population of the county in which such municipality or portion thereof is located. The product of this computation shall be the amount of excise taxes from motor vehicle owners residing within such municipality or portion thereof. Where the municipality levying a tax under RCW 35.58.273 is located in more than one county, the above computation shall be made by county, and the combined products shall provide the total amount of motor vehicle excise taxes from motor vehicle owners residing in the municipality as a whole. Population figures required for these computations shall be supplied to the director by the office of financial management, who shall adjust the fraction annually.

(2) On the first day of the months of January, April, July, and October of each year, the state treasurer based upon information provided by the department shall, from motor vehicle excise taxes deposited in the general fund, under RCW 82.44.110(1)(g), make the following deposits:

(a) To the high capacity transportation account created in RCW 47.78.010, a sum equal to four and five-tenths percent of the special excise tax levied under RCW 35.58.273 by those municipalities authorized to levy a special excise tax within ~~((i))~~ each county ~~((with a population of two hundred ten thousand or more and (ii) each county with a population of from one hundred twenty five thousand to less than two hundred ten thousand except for those counties that do not border a county with a population as described in subsection (i) of this subsection))~~ that has a population of one hundred seventy-five thousand or more and has an interstate highway within its borders; except that in a case of a municipality located in a county that has a population of one hundred seventy-five thousand or more that does not have an interstate highway located within its borders, that sum shall be deposited in the passenger ferry account;

(b) To the central Puget Sound public transportation account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within a county with a population of one million or more and a county with a population of from two hundred thousand to less than one million bordering a county with a population of one million or more, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(b) applies; however, any transfer under this subsection (2)(b) must be greater than zero;

(c) To the public transportation systems account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within counties not described in (b) of this subsection, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection

for each of the municipalities within the counties to which this subsection (2)(c) applies; however, any transfer under this subsection (2)(c) must be greater than zero; and

(d) To the general fund, for revenues distributed after June 30, 1993, and to the transportation fund, for revenues distributed after June 30, 1995, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent notwithstanding the requirements set forth in subsections (3) through (6) of this section, reduced by an amount equal to distributions made under (a), (b), and (c) of this subsection and RCW 82.14.046.

(3) On the first day of the months of January, April, July, and October of each year, the state treasurer, based upon information provided by the department, shall remit motor vehicle excise tax revenues imposed and collected under RCW 35.58.273 as follows:

(a) The amount required to be remitted by the state treasurer to the treasurer of any municipality levying the tax shall not exceed in any calendar year the amount of locally-generated tax revenues, excluding (i) the excise tax imposed under RCW 35.58.273 for the purposes of this section, which shall have been budgeted by the municipality to be collected in such calendar year for any public transportation purposes including but not limited to operating costs, capital costs, and debt service on general obligation or revenue bonds issued for these purposes; and (ii) the sales and use tax equalization distributions provided under RCW 82.14.046; and

(b) In no event may the amount remitted in a single calendar quarter exceed the amount collected on behalf of the municipality under RCW 35.58.273 during the calendar quarter next preceding the immediately preceding quarter, excluding the sales and use tax equalization distributions provided under RCW 82.14.046.

(4) At the close of each calendar year accounting period, but not later than April 1, each municipality that has received motor vehicle excise taxes under subsection (3) of this section shall transmit to the director of licensing and the state auditor a written report showing by source the previous year's budgeted tax revenues for public transportation purposes as compared to actual collections. Any municipality that has not submitted the report by April 1 shall cease to be eligible to receive motor vehicle excise taxes under subsection (3) of this section until the report is received by the director of licensing. If a municipality has received more or less money under subsection (3) of this section for the period covered by the report than it is entitled to receive by reason of its locally-generated collected tax revenues, the director of licensing shall, during the next ensuing quarter that the municipality is eligible to receive motor vehicle excise tax funds, increase or decrease the amount to be remitted in an amount equal to the difference between the locally-generated budgeted tax revenues and the locally-generated collected tax revenues. In no event may the amount remitted for a calendar year exceed the amount collected on behalf of the municipality under RCW 35.58.273 during that same calendar year excluding the sales and use tax equalization distributions provided under RCW 82.14.046. At the time of the next fiscal audit of each municipality, the state auditor shall verify the accuracy of the report submitted and notify the director of licensing of any discrepancies.

(5) The motor vehicle excise taxes imposed under RCW 35.58.273 and required to be remitted under this section and RCW 82.14.046 shall be remitted without legislative appropriation.

(6) Any municipality levying and collecting a tax under RCW 35.58.273 which does not have an operating, public transit system or a contract for public transportation services in effect within one year from the initial effective date of the tax shall return to the state treasurer all motor vehicle excise taxes received under subsection (3) of this section.

Sec. 540. RCW 81.104.015 and 1992 c 101 s 19 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "High capacity transportation system" means a system of public transportation services within an urbanized region operating principally on exclusive rights of way, and the supporting services and facilities necessary to implement such a system, including interim express services and high occupancy vehicle lanes, which taken as a whole, provides a substantially higher level of passenger capacity, speed, and service frequency than traditional public transportation systems operating principally in general purpose roadways.

(2) "Regional transit system" means a high capacity transportation system under the jurisdiction of one or more transit agencies ~~((except where a regional transit authority created under chapter 81.112 RCW exists, in which case "regional transit system" means the high capacity transportation system under the jurisdiction of a regional transit authority)).~~

(3) "Transit agency" means city-owned transit systems, county transportation authorities, metropolitan municipal corporations, and public transportation benefit areas.

Sec. 541. RCW 81.104.030 and 1993 c 428 s 1 are each amended to read as follows:

(1) In any county ~~((with a population of from two hundred ten thousand to less than one million that is not bordered by a county with a population of one million or more, and in each county with a population of less than two hundred ten thousand))~~ that has a population of one hundred seventy-five thousand or more and has an interstate highway within its borders, except for any county having a population of more than one million or a county that has a population more than four hundred thousand and is adjacent to a county with a population of more than one million, transit agencies may elect to establish high capacity transportation service. Such agencies shall form a regional policy committee with proportional representation based upon population distribution within the designated service area and a representative of the department of transportation, or such agencies may use the designated metropolitan planning organization as the regional policy committee.

Transit agencies participating in joint regional policy committees shall seek voter approval within their own service boundaries of a high capacity transportation system plan and financing plan. For transit agencies in counties adjoining state or international boundaries where the high capacity transportation system plan and financing plan propose a bi-state or international high capacity transportation system, such voter approval shall be required from only those voters residing within the service area in the state of Washington.

(2) Transit agencies in counties adjoining state or international boundaries are authorized to participate in the regional high capacity transportation programs of an adjoining state or Canadian province.

Sec. 542. RCW 81.104.040 and 1992 c 101 s 21 are each amended to read as follows:

Transit agencies in each county with a population of one million or more, and in each county with a population of from ~~((two))~~ four hundred ~~((ten))~~ thousand to less than one million bordering a county with a population of one million or more ~~((that are authorized on January 1, 1991, to provide high capacity transportation planning and operating services must))~~ may establish through interlocal agreements a ~~((joint regional policy committee with proportional representation based upon the population distribution within each agency's designated service area, as determined by the parties to the agreement.~~

~~((1) The membership of the joint regional policy committee shall consist of locally elected officials who serve on the legislative authority of the existing transit systems and a representative from the department of transportation. Nonvoting membership for elected officials from adjoining counties may be allowed at the committee's discretion.~~

~~((2) The joint regional policy committee shall be responsible for the preparation and adoption of))~~ process to jointly prepare a regional high capacity transportation implementation program, which shall include the system plan, project plans, and a financing plan. This program shall be in conformance with the regional transportation planning organization's regional transportation plan and consistent with RCW 81.104.080.

~~((3) The joint regional policy committee shall present an adopted high capacity transportation system plan and financing plan to the boards of directors of the transit agencies within the service area or to the regional transit authority, if such authority has been formed. The authority shall proceed as prescribed in RCW 81.112.030)).~~

Transit agencies are encouraged to utilize this process and the process in RCW 81.104.170 in order to better coordinate high-capacity transit services and to provide for more effective utilization of transportation resources.

Sec. 543. RCW 81.104.050 and 1992 c 101 s 22 are each amended to read as follows:

Regional high capacity transportation service may be expanded beyond the established district boundaries through interlocal agreements among the transit agencies ~~((and any regional transit authorities in existence)).~~

Sec. 544. RCW 81.104.120 and 1993 c 428 s 2 are each amended to read as follows:

(1) Transit agencies ~~((and regional transit authorities))~~ may operate or contract for commuter rail service where it is deemed to be a reasonable alternative transit mode. A reasonable alternative is one whose ~~((passenger))~~ costs per passenger mile, including costs of trackage, equipment, maintenance, operations, and administration are equal to or less than comparable bus, entrained bus, trolley, or personal rapid transit systems.

(2) A county may use funds collected under RCW 81.100.030 or 81.100.060 to contract with one or more transit agencies ~~((or regional transit authorities))~~ for planning, operation, and maintenance of commuter rail projects which: (a) Are consistent with the regional transportation

plan; (b) have met the project planning and oversight requirements of RCW 81.104.100 and 81.104.110; and (c) have been approved by the voters within the service area of each transit agency (~~(or regional transit authority)~~) participating in the project. For transit agencies in counties adjoining state or international boundaries where the high capacity transportation system plan and financing plan propose a bi-state or international high capacity transportation system, such voter approval shall be required from only those voters residing within the service area in the state of Washington. The phrase "approved by the voters" includes specific funding authorization for the commuter rail project.

(3) The utilities and transportation commission shall maintain safety responsibility for passenger rail service operating on freight rail lines. Agencies providing passenger rail service on lines other than freight rail lines shall maintain safety responsibility for that service.

Sec. 545. RCW 81.104.140 and 1992 c 101 s 25 are each amended to read as follows:

(1) ~~Transit agencies authorized to provide high capacity transportation service~~~~(, including transit agencies and regional transit authorities,)~~ are hereby granted dedicated funding sources for such systems. The rate of tax shall be approved by the voters. This tax may not be imposed by(~~(:-(1))~~) a transit agency when the county within which it is located is imposing an excise tax pursuant to RCW 81.100.030(~~(: or (2) a regional transit authority when any county within the authority's boundaries is imposing an excise tax pursuant to RCW 81.100.030)~~). The rate of tax shall bear the same ratio to the rate imposed under RCW 82.08.020(2) as the excise tax rate imposed under subsection (1) of this section bears to the excise tax rate imposed under RCW 82.44.020 (1) and (2). The base of the tax shall be the selling price in the case of a sales tax or the rental value of the vehicle used in the case of a use tax. The maximum rate of such tax that may be imposed shall not exceed nine-tenths of one percent in any county that imposes a tax under RCW 82.14.340(~~(, or within a regional transit authority if any county within the authority imposes a tax under RCW 82.14.340)~~).

The program shall be destination oriented, addressing not only the service needs of urban areas but those of less populated areas throughout the region. It shall include necessary freeway expansion, including the use of special purpose lanes to expedite commerce and for other purposes. It shall also consider programs developed for certain areas such as fare-free programs, and tax incentives for business and individuals designed to reduce trips, in order to reduce traffic congestion and to ensure mobility.

The process shall include input from cities and counties, public ports, large employers in the area, the department of transportation, and the legislature.

NEW SECTION. Sec. 556. Section 537, chapter . . ., Laws of 1995 1st sp. sess. (this act) shall expire on May 31, 1996.

Sec. 557. RCW 81.112.030 and 1994 c 44 s 1 are each amended to read as follows:

Two or more contiguous counties each having a population of four hundred thousand persons or more may establish a regional transit authority to develop and operate a high capacity transportation system as defined in chapter 81.104 RCW.

The authority shall be formed in the following manner:

(1) The joint regional policy committee created pursuant to RCW 81.104.040 shall adopt a system and financing plan, including the definition of the service area. This action shall be completed by September 1, 1992, contingent upon satisfactory completion of the planning process defined in RCW 81.104.100. The final system plan shall be adopted no later than June 30, 1993. In addition to the requirements of RCW 81.104.100, the plan for the proposed system shall provide explicitly for a minimum portion of new tax revenues to be allocated to local transit agencies for interim express services. Upon adoption the joint regional policy committee shall immediately transmit the plan to the county legislative authorities within the adopted service area.

(2) The legislative authorities of the counties within the service area shall decide by resolution whether to participate in the authority. This action shall be completed within forty-five days following receipt of the adopted plan or by August 13, 1993, whichever comes first.

(3) Each county that chooses to participate in the authority shall appoint its board members as set forth in RCW 81.112.040 and shall submit its list of members to the secretary of the Washington state department of transportation. These actions must be completed within thirty days following each county's decision to participate in the authority.

(4) The secretary shall call the first meeting of the authority, to be held within thirty days following receipt of the appointments. At its first meeting, the authority shall elect officers and provide for the adoption of rules and other operating procedures.

(5) The authority is formally constituted at its first meeting and the board shall begin taking steps toward implementation of the system and financing plan adopted by the joint regional policy committee. If the joint regional policy committee fails to adopt a plan by June 30, 1993, the authority shall proceed to do so based on the work completed by that date by the joint regional policy committee. Upon formation of the authority, the joint regional policy committee shall cease to exist. The authority may make minor modifications to the plan as deemed necessary and shall at a minimum review local transit agencies' plans to ensure feeder service/high capacity transit service integration, ensure fare integration, and ensure avoidance of parallel competitive services. The authority shall also conduct a minimum thirty-day public comment period.

(6) If the authority determines that major modifications to the plan are necessary before the initial ballot proposition is submitted to the voters, the authority may make those modifications with a favorable vote of two-thirds of the entire membership. Any such modification shall be subject to the review process set forth in RCW 81.104.110. The modified plan shall be transmitted to the legislative authorities of the participating counties. The legislative authorities shall have forty-five days following receipt to act by motion or ordinance to confirm or rescind their continued participation in the authority.

(7) If any county opts to not participate in the authority, but two or more contiguous counties do choose to continue to participate, the authority's board shall be revised accordingly. The authority shall, within forty-five days, redefine the system and financing plan to reflect elimination of one or more counties, and submit the redefined plan to the legislative authorities of the remaining counties for their decision as to whether to continue to participate. This action shall be completed within forty-five days following receipt of the redefined plan.

(8) The authority shall place on the ballot within two years of the authority's formation, a single ballot proposition to authorize the imposition of taxes to support the implementation of an appropriate phase of the plan within its service area. In addition to the system plan requirements contained in RCW 81.104.100(2)(d), the system plan approved by the authority's board before the submittal of a proposition to the voters shall identify the system, and an estimate of the cost of that system, of which the phase is a component and also contain an equity element which:

(a) Identifies revenues anticipated to be generated by corridor and by county within the authority's boundaries;

(b) Identifies the phasing of construction and operation of high capacity system facilities, services, and benefits in each corridor.

Phasing decisions should give priority to jurisdictions which have adopted transit-supportive land use plans; and

(c) Identifies the degree to which revenues generated within each county will benefit the residents of that county, and identifies when such benefits will accrue.

A simple majority of those voting within the boundaries of the authority is required for approval. If the vote is affirmative, the authority shall begin implementation of the projects identified in the proposition. However, the authority may not submit any authorizing proposition for voter-approved taxes prior to July 1, 1993, nor a second proposition prior to February 1, 1996; nor may the authority issue bonds or form any local improvement district prior to ~~((July 1, 1993))~~ February 1, 1996.

(9) If the vote on a proposition fails, the board may redefine the proposition, make changes to the authority boundaries, and make corresponding changes to the composition of the board. If the composition of the board is changed, the participating counties shall revise the membership of the board accordingly. The board may then submit the revised proposition or a different proposition to the voters. No single proposition may be submitted to the voters more than twice. The authority may place additional propositions on the ballot to impose taxes to support additional phases of plan implementation.

If the authority is unable to achieve a positive vote on a proposition within two years from the date of the first election on a proposition, the board may, by resolution, reconstitute the authority as a single-county body. With a two-thirds vote of the entire membership of the voting members, the board may also dissolve the authority.

NEW SECTION. Sec. 558. A new section is added to chapter 47.60 RCW to read as follows:

There is hereby established in the transportation fund the passenger ferry account. Money in the account shall be used for capital improvements for passenger ferry projects including, but not limited to, pedestrian and transit facilities at ferry terminals and passenger-only ferry vessels. Moneys in the account shall be expended with legislative appropriation.

NEW SECTION. Sec. 559. Sections 539 through 556 of this act shall take effect the earlier of: (1) May 31, 1996, unless a high capacity transportation system plan, with funding, as authorized under RCW 81.104.140 is approved by a majority of the voters within the boundaries of a regional transit authority, authorized under chapter 81.112 RCW, by May 31, 1996, then sections 539 through 556 of this act shall not take effect; or (2) the last day of the month following the month in which a high capacity transportation system plan, with funding, as authorized under RCW 81.104.140 is rejected by a majority of the voters within the boundaries of a regional transit authority, authorized under chapter 81.112 RCW, after January 31, 1996.

NEW SECTION. Sec. 560. Sections 537 through 558 of this act expire June 30, 1997.

NEW SECTION. Sec. 561. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 562. Except for sections 539 through 556 of this act, this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1995."

Correct internal references accordingly and fix the title as required.

On page 89, after line 5, insert the following:

"NEW SECTION. Sec. 561. It is the intent of the legislature to compensate Okanogan County in the amount of \$363,000.00 for damages caused by the intentional or grossly negligent delays in the completion of the state's duties regarding issuance of permits for mining operations in northern Okanogan County. This region of our state has a history of resource based economic growth, but by reason of continual deference to groups with narrow self-interests the state has cost the county substantial lost tax revenues. These damages are continuing and adverse to the services required by the citizens of Okanogan County and compensation is due and owing in the amount here specified."

Renumber the remaining sections accordingly.

MOTION

Senator Morton moved to withdraw the amendment on page 89, after line 5, to the striking amendment by Senators Owen and Prince to Second Engrossed Substitute House Bill No. 2080.

Debate ensued.

PARLIAMENTARY INQUIRY

Senator McCaslin: "A parliamentary inquiry, Mr. President. When a Senator withdraws a motion, may another Senator introduce it and move it?"

REPLY BY THE PRESIDENT

President Pritchard: "Oh, Senator, at this late hour, you can, but he hasn't withdrawn it yet. He said he was going to withdraw it and I haven't moved the withdrawal."

POINT OF INQUIRY

Senator McCaslin: "Are you going to or are do you intend to withdraw this amendment?"

Senator Morton: "In view of the fact that it has received so much indication of positivism here that we adopt it, I think we better proceed and adopt it."

Senator McCaslin: "I think you better move it. You are a gentlemen and a scholar and we all appreciate you introducing this amendment."

The President declared the question before the Senate to be the adoption of the amendment by Senator Morton on page 89, after line 5, to the striking amendment by Senators Owen and Prince to Second Engrossed Substitute House Bill No. 2080.

Debate ensued.

The motion by Senator Morton failed and the amendment to the striking amendment was not adopted.

The President declared the question before the Senate to be the adoption of the striking amendment by Senators Owen and Prince, as amended, to Second Engrossed Substitute House Bill No. 2080.

POINT OF ORDER

Senator Fraser: "A point of order, Mr. President. I believe and would ask you to rule on whether Sections 514 through 525 violate the scope and object rule. Second Engrossed Substitute House Bill No. 2080 is an act relating to transportation funding and appropriations, as stated in the title. It is a measure that provides funding to specified agencies for specified transportation purposes and does no more than that. The amendment in Sections 514 through 525, and I think those are correct--I haven't had time to look at this--would change the scope and object of the bill by making changes to substantive laws and transferring statutory duties from one agency to another. It would eliminate the Office of Marine Safety and transfer its functions to another agency.

"These functions relate to environmental protection; they deal with standards for vessels operating in our state's waters in order to protect our state's water and marine habitat from oil spills. Also, the sections contain appropriations to the Department of Ecology and that is generally a subject in the operating budget. I also believe that these sections violate the constitutional rule of one subject in a bill. I have not had much chance to check all the sections. There might be another section that does all this, too, including maybe Section 105. I'll get the references to you; I've had about a couple of minutes to look at this. We have not caucused on it; I just received this when it came to the desk. I do believe this also violates the constitutional requirement that there be no more than one subject in a bill, which has been litigated in *Flanders v. Morris* and I will provide you with a copy of that decision."

Further debate ensued.

At 2:46 p.m., the President declared the Senate to be at ease.

The Senate was called to order at 3:44 p.m. by President Pritchard.

THIRD READING

ENGROSSED SUBSTITUTE SENATE BILL NO. 5000, by Senate Committee on Ways and Means (originally sponsored by Senators Loveland, Snyder, Wojahn, Sheldon, Gaspard, Franklin, Haugen, Rasmussen, Quigley, Owen, McAuliffe, Winsley, McCaslin, Drew, Morton, Prentice, Bauer, Spanel, Hale and Deccio)

Reducing property taxes.

MOTION

On motion of Senator Loveland, the rules were suspended, Engrossed Substitute Senate Bill No. 5000 was returned to second reading and read the second time.

MOTION

Senator Loveland moved that the following amendment by Senator Rinehart be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. With property valuations continuing to increase, property taxes have been steadily increasing. At the same time, personal incomes have not continued to rise at the same rate. Property taxes are becoming increasingly more difficult to pay. Many residential property owners complain about the overall level of taxes and about the continuing increase in tax from year to year. Taxpayers want property tax relief. The legislature intends to establish an on-going program of state property tax reductions the amount of which is to be determined by the legislature on a yearly basis based on the level of general fund tax revenues.

NEW SECTION. Sec. 2. A new section is added to chapter 84.55 RCW to read as follows:

(1) The state property tax levy for collection in 1996 shall be reduced by 4.7187 percent of the levy amount that would otherwise be allowed under this chapter without regard to this section or any other tax reduction legislation enacted in 1995.

(2) The tax reduction provided in this section is in addition to any other tax reduction legislation that may be enacted by the legislature.

(3) State levies for collection after 1996 shall be set at the amount that would be allowed otherwise under this chapter if the state levy for collection in 1996 had been set without the reduction under subsection (1) of this section.

Sec. 3. RCW 84.48.080 and 1994 c 301 s 43 are each amended to read as follows:

(1) Annually during the months of September and October, the department of revenue shall examine and compare the returns of the assessment of the property in the several counties of the state, and the assessment of the property of railroad and other companies assessed by the department, and proceed to equalize the same, so that each county in the state shall pay its due and just proportion of the taxes for state purposes for such assessment year, according to the ratio the valuation of the property in each county bears to the total valuation of all property in the state.

First. The department shall classify all property, real and personal, and shall raise and lower the valuation of any class of property in any county to a value that shall be equal, so far as possible, to the true and fair value of such class as of January 1st of the current year for the

purpose of ascertaining the just amount of tax due from each county for state purposes. In equalizing personal property as of January 1st of the current year, the department shall use the assessment level of the preceding year. Such classification may be on the basis of types of property, geographical areas, or both. For purposes of this section, for each county that has not provided the department with an assessment return by December 1st, the department shall proceed, using facts and information and in a manner it deems appropriate, to estimate the value of each class of property in the county.

Second. The department shall keep a full record of its proceedings and the same shall be published annually by the department.

(2) The department shall levy the state taxes authorized by law(~~(=PROVIDED, That)~~). The amount levied in any one year for general state purposes shall not exceed the lawful dollar rate on the dollar of the assessed value of the property of the entire state, which assessed value shall be one hundred percent of the true and fair value of such property in money. The department shall apportion the amount of tax for state purposes levied by the department, among the several counties, in proportion to the valuation of the taxable property of the county for the year as equalized by the department: PROVIDED, That for purposes of this apportionment, the department shall recompute the previous year's levy and the apportionment thereof to correct for changes and errors in taxable values reported to the department after October 1 of the preceding year and shall adjust the apportioned amount of the current year's state levy for each county by the difference between the apportioned amounts established by the original and revised levy computations for the previous year. For purposes of this section, changes in taxable values mean a final adjustment made by a county board of equalization, the state board of tax appeals, or a court of competent jurisdiction and shall include additions of omitted property, other additions or deletions from the assessment or tax rolls, any assessment return provided by a county to the department subsequent to December 1st, or a change in the indicated ratio of a county. Errors in taxable values mean errors corrected by a final reviewing body.

In addition to computing a levy under this subsection that is reduced under section 2 of this act, the department shall compute a hypothetical levy without regard to the reduction under section 2 of this act. This hypothetical levy shall also be apportioned among the several counties in proportion to the valuation of the taxable property of the county for the year, as equalized by the department, in the same manner as the actual levy and shall be used by the county assessors for the purpose of recomputing and establishing a consolidated levy under RCW 84.52.010.

(3) The department shall have authority to adopt rules and regulations to enforce obedience to its orders in all matters in relation to the returns of county assessments, the equalization of values, and the apportionment of the state levy by the department.

(4) After the completion of the duties (~~hereinafter~~) prescribed in this section, the director of the department shall certify the record of the proceedings of the department under this section, the tax levies made for state purposes and the apportionment thereof among the counties, and the certification shall be available for public inspection.

Sec. 4. RCW 84.52.010 and 1995 c 99 s 2 are each amended to read as follows:

Except as is permitted under RCW 84.55.050, all taxes shall be levied or voted in specific amounts.

The rate percent of all taxes for state and county purposes, and purposes of taxing districts coextensive with the county, shall be determined, calculated and fixed by the county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the county, as shown by the completed tax rolls of the county, and the rate percent of all taxes levied for purposes of taxing districts within any county shall be determined, calculated and fixed by the county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the taxing districts respectively.

When a county assessor finds that the aggregate rate of tax levy on any property, that is subject to the limitations set forth in RCW 84.52.043 or 84.52.050, (~~as now or hereafter amended,~~) exceeds the limitations provided in either of these sections, the assessor shall recompute and establish a consolidated levy in the following manner:

(1) The full certified rates of tax levy for state, county, county road district, and city or town purposes shall be extended on the tax rolls in amounts not exceeding the limitations established by law; however any state levy shall take precedence over all other levies and shall not be reduced for any purpose other than that required by RCW 84.55.010. If, as a result of the levies imposed under RCW 84.52.069, 84.34.230, the portion of the levy by a metropolitan park district that was protected under RCW 84.52.--- (section 1, chapter 99, Laws of 1995), and 84.52.105, the combined rate of regular property tax levies that are subject to the one percent limitation exceeds one percent of the true and fair value of any property, then these levies shall be reduced as follows: (a) The portion of the levy by a metropolitan park district that is protected under RCW 84.52.--- (section 1, chapter 99, Laws of 1995) shall be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or shall be eliminated; (b) if the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the levies imposed under RCW 84.34.230, 84.52.105, and any portion of the levy imposed under RCW 84.52.069 that is in excess of thirty cents per thousand dollars of assessed value, shall be reduced on a pro rata basis until the combined rate no longer exceeds one percent of the true and fair value of any property or shall be eliminated; and (c) if the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the thirty cents per thousand dollars of assessed value of tax levy imposed under RCW 84.52.069 shall be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or eliminated.

(2) The certified rates of tax levy subject to these limitations by all junior taxing districts imposing taxes on such property shall be reduced or eliminated as follows to bring the consolidated levy of taxes on such property within the provisions of these limitations:

(a) First, the certified property tax levy rates of those junior taxing districts authorized under RCW 36.68.525, 36.69.145, and 67.38.130 shall be reduced on a pro rata basis or eliminated;

(b) Second, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of flood control zone districts shall be reduced on a pro rata basis or eliminated;

(c) Third, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of all other junior taxing districts, other than fire protection districts, library districts, the first fifty cent per thousand dollars of assessed valuation levies for metropolitan park districts, and the first fifty cent per thousand dollars of assessed valuation levies for public hospital districts, shall be reduced on a pro rata basis or eliminated;

(d) Fourth, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates authorized to fire protection districts under RCW 52.16.140 and 52.16.160 shall be reduced on a pro rata basis or eliminated; and

(e) Fifth, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates authorized for fire protection districts under RCW 52.16.130, library districts, metropolitan park districts under their first fifty cent per thousand dollars of assessed valuation levy, and public hospital districts under their first fifty cent per thousand dollars of assessed valuation levy, shall be reduced on a pro rata basis or eliminated.

In determining whether the aggregate rate of tax levy on any property, that is subject to the limitations set forth in RCW 84.52.050, exceeds the limitations provided in that section, the assessor shall use the hypothetical state levy, as apportioned to the county under RCW 84.48.080, that was computed under RCW 84.48.080 without regard to the reduction under section 2 of this act."

REMARKS BY THE PRESIDENT

President Pritchard: "John, we are indebted to you, Sir."

There being no objection, the President returned the Senate to the sixth order of business.

There being no objection, the Senate resumed consideration of Second Engrossed Substitute House Bill No. 2080 and the pending striking amendment by Senators Owen and Prince, deferred earlier today.

RULING BY THE PRESIDENT

President Pritchard: "In ruling upon the point of order raised by Senator Fraser, the President finds that Second Engrossed Substitute House Bill No. 2080 is a measure which provides appropriations for transportation purposes for the 1995-97 biennium.

"The striking amendment by Senators Owen and Prince would accomplish the same purpose. In addition, Sections 514 through 524 make numerous changes to substantive statutes relating to the Office of Marine Safety and the Department of Ecology.

"The relevant version of a bill for determination of scope and object is the bill which was before the Senate. In this case, two versions of this bill have been before the body. Engrossed Substitute House Bill No. 2080 did not contain the language found in Sections 514 through 524 of the striking amendment by Senators Owen and Prince, but only contained an appropriation to the Office of Marine Safety which referenced another bill dealing with the functions of the office (House Bill No. 1510, an act relating to the restructuring of oil spill prevention and response programs). Second Engrossed House Bill No. 2080 did not contain any similar provisions.

"The President has historically recognized that greater latitude is given to omnibus appropriations bills when considering scope and object arguments. However, there is a point when changes to substantive law, unrelated to appropriation amounts, will violate Senate Rule No. 66. The challenged sections severely test the scope and object boundary. The President strongly recommends that when drafting appropriations bills, the members stick to appropriation items.

"Despite these concerns, it is arguable that Sections 514 through 524 could be viewed as 'provisos' to Section 105, the appropriation to the Office of Marine Safety. Additionally, the President notes that Chapter 88.46 RCW effectively would have limited the changes in this bill to the same time frame as the appropriations, the 1995-97 biennium. Accordingly, the President believes that this is a unique situation and finds that the amendment does not exceed the scope and object of the bill.

"Senator Fraser also raised the question of Senate Rule 25, one subject in a bill. The President believes that if an amendment is within the scope and object, it is sufficiently within the 'subject.' If a title amendment is required to provide adequate notice of the contents of the bill, such an amendment would be in order and has been historically accepted."

The striking amendment by Senators Owen and Prince to Second Engrossed Substitute House Bill No. 2080 was ruled in order.

MOTION

Senator Owen moved that the following amendment by Senators Owen and Prince to the striking amendment by Senators Owen and Prince be adopted:

On page 27, line 3, after "program T" strike all material down to and including "1995" on line 5, and insert "for the regional transit authority"

MR. PRESIDENT:

We respectfully transmit for your consideration the following bill which was vetoed by the Governor, together with the official veto message of the Governor setting forth his objections to the bill as required by Article III, section 12, of the Washington State Constitution:

SUBSTITUTE SENATE BILL NO. 5231

VETOED BILL

MESSAGE FROM THE GOVERNOR
VETO MESSAGE ON SUBSTITUTE SENATE BILL NO. 5231

June 14, 1995

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute Senate Bill No. 5231 entitled:
"AN ACT Relating to the tort liability account;"

Substitute Senate Bill No. 5231 creates a sub-account within the state's Tort Liability Account comprised only of premium payments from the Motor Vehicle Account and transportation accounts. It allows the new sub-account to retain its interest earnings and creates a separate transportation risk management advisory subcommittee.

This separate risk management account for transportation agencies is not necessary and only contributes additional administrative work with little benefit to the public. Transportation agencies are already individually monitored within the statewide risk pool to calculate risk and premium assessments. In addition, the bill promotes inconsistent treatment of state fund sources since the new transportation sub-account would be the only account in the risk management pool to retain interest earnings. This change would result in lost revenue to the General Fund. Finally, the creation of a separate transportation risk management advisory subcommittee duplicates the work currently being done by the statewide Risk Management Advisory Committee.

For these reasons, I have vetoed Substitute Senate Bill No. 5231 in its entirety.

Respectfully submitted,
MIKE LOWRY, Governor

MESSAGE FROM THE SECRETARY OF STATE

The Honorable Joel Pritchard
President of the Senate
Legislature of the State of Washington
Olympia, Washington 98504
MR. PRESIDENT:

We respectfully transmit for your consideration the following bills which have been partially vetoed by the Governor, together with the official veto message of the Governor setting forth his objections to the sections or items of each of the bills as required by Article III, section 12, of the Washington State Constitution:

Sections 3 and 4, SECOND ENGROSSED SENATE BILL NO. 5555, the remainder of which has been designated Chapter 12, Laws of 1995 First Special Session;

Section 2, SENATE BILL NO. 6010, the remainder of which has been designated Chapter 13, Laws of 1995 First Special Session.

IN TESTIMONY WHEREOF, I have hereunto set my hand
and affixed the Seal of the state of Washington at Olympia,

Secretary of State

PARTIALLY VETOED BILLS

MESSAGE FROM THE GOVERNOR PARTIAL VETO MESSAGE ON SECOND ENGROSSED SENATE BILL NO. 5555

June 14, 1995

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 3 and 4, Second Engrossed Senate Bill No. 5555 entitled:
"AN ACT Relating to taxation of massage services;"

Second Engrossed Senate Bill No. 5555 provides that massage services no longer would be subject to the retail sales tax, but would continue to be taxed at the same business and occupation tax rate as retailers.

Massage services were added to the list of services subject to the retail sales tax in 1993. The state further agreed that medically-ordered massage was part of physical therapy services and should remain taxable under the service classification. Massage therapists performing both medically-ordered massage and discretionary massage services were forced to report under two classifications.

Massage therapists have argued since the change in 1993 that they are health care professionals and should be taxed, as are most other health care professionals, under the service classification of the business and occupation tax.

Although the bill orders massage services to be taxed under the new, special rate, it does not end the distinction between medically-ordered massage and discretionary massage.

Thus, in order to return the massage therapists to the tax status they enjoyed prior to the 1993 legislative session, I am vetoing sections 3 and 4 of Second Engrossed Senate Bill No. 5555. This will have the effect of removing massage services from the retail sales tax, making all massage services taxable at a single rate. With this veto, massage services will be taxed under the service and other business and occupation tax.

For these reasons, I have vetoed sections 3 and 4 of Second Engrossed Senate Bill No. 5555.

With the exception of sections 3 and 4, Second Engrossed Senate Bill No. 5555 is approved.

Respectfully submitted,
MIKE LOWRY, Governor

MESSAGE FROM THE GOVERNOR

PARTIAL VETO MESSAGE ON SENATE BILL NO. 6010

June 14, 1995

To the Honorable President and Members,

The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 2, Senate Bill No. 6010 entitled:

"AN ACT Relating to the learning assistance program;"

Senate Bill No. 6010 changes the state funding formula for the learning assistance program beginning with the 1995-96 school year. Section 2 contains an emergency clause indicating this act is necessary "for the immediate preservation of the public peace, health, or safety, or support of the state government." However, the new formula starts with the beginning of the 1995-96 school year, which is not until September 1, 1995. Preventing this bill from being subject to a referendum under Article II, section 1(b) of the state Constitution unnecessarily denies the people of this state their power, at their own option, to approve or reject this bill at the polls.

For this reason, I am vetoing section 2 of Senate Bill No. 6010.

With the exception of section 2, Senate Bill No. 6010 is approved.

Respectfully submitted,
MIKE LOWRY, Governor

With that, Mr. President, I request that the Senate have a moment of silence."

**"PART I
STATE CONTRIBUTION**

NEW SECTION. Sec. 101. A new section is added to chapter 82.14 RCW to read as follows:

(1) The legislative authority of a county with a population of one million or more may impose a sales and use tax in accordance with the terms of this chapter. The tax is in addition to other taxes authorized by law and shall be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the county. The rate of tax shall not exceed 0.017 percent of the selling price in the case of a sales tax or value of the article used in the case of a use tax.

(2) The tax imposed under subsection (1) of this section shall be deducted from the amount of tax otherwise required to be collected or paid over to the department of revenue under chapter 82.08 or 82.12 RCW. The department of revenue shall perform the collection of such taxes on behalf of the county at no cost to the county.

(3) Moneys collected under this section shall only be used for the purpose of paying the principal and interest payments on bonds issued by a county to construct a baseball stadium. Moneys collected in excess of the amount necessary to pay one-fourth of the principal and interest payments, as defined in section 107 of this act, on the bonds that are issued for the construction of the stadium shall be used to reduce the payments on the bonds from the sports bond retirement account, as provided in section 107 of this act.

(4) No tax may be collected under this section before January 1, 1996, and no tax may be collected under this section until the county legislative authority has adopted resolutions imposing the taxes under RCW 82.14.360. The tax imposed in this section shall expire when the

taxes imposed under RCW 82.14.360 expire or when the bonds issued for the construction of the baseball stadium are retired, but not more than twenty years after the bonds are issued.

(5) As used in this section, "baseball stadium" means a baseball stadium with natural turf and a retractable roof or canopy, together with associated parking facilities, constructed in the largest city in a county with a population of one million or more.

Sec. 102. RCW 46.16.301 and 1994 c 194 s 2 are each amended to read as follows:

(1) The department may create, design, and issue special license plates that may be used in lieu of regular or personalized license plates for motor vehicles required to display two motor vehicle license plates, excluding vehicles registered under chapter 46.87 RCW, upon terms and conditions established by the department. The special plates may:

(a) Denote the age or type of vehicle; or

(b) Denote special activities or interests; or

(c) Denote the status, or contribution or sacrifice for the United States, the state of Washington, or the citizens of the state of Washington, of a registered owner of that vehicle; or

(d) Display a depiction of the name and mascot or symbol of a state university, regional university, or state college as defined in RCW 28B.10.016.

(2) The department shall create, design, and issue a special baseball stadium license plate that may be used in lieu of regular or personalized license plates for motor vehicles required to display two motor vehicle license plates, excluding vehicles registered under chapter 46.87 RCW, upon terms and conditions established by the department. The special plates shall commemorate the construction of a baseball stadium, as defined in section 101 of this act. The department shall also issue to each recipient of a special baseball stadium license plate a certificate of participation in the construction of the baseball stadium.

(3) The department has the sole discretion to determine whether or not to create, design, or issue any series of special license plates, other than the special baseball stadium license plate under subsection (2) of this section, and whether any interest or status merits the issuance of a series of special license plates. In making this determination, the department shall consider whether or not an interest or status contributes or has contributed significantly to the public health, safety, or welfare of the citizens of the United States or of this state or to their significant benefit, or whether the interest or status is recognized by the United States, this state, or other states, in other settings or contexts. The department may also consider the potential number of persons who may be eligible for the plates and the cost and efficiency of producing limited numbers of the plates. The design of a special license plate shall conform to all requirements for plates for the type of vehicle for which it is issued, as provided elsewhere in this chapter.

Sec. 103. RCW 46.16.313 and 1994 c 194 s 4 are each amended to read as follows:

(1) The department may establish a fee for each type of special license plates issued under RCW 46.16.301(1) (a), (b), or (c) in an amount calculated to offset the cost of production of the special license plates and the administration of this program. The fee shall not exceed thirty-five dollars and is in addition to all other fees required to register and license the vehicle for which the plates have been requested. All such additional special license plate fees collected by the department shall be deposited in the state treasury and credited to the motor vehicle fund.

(2) In addition to all fees and taxes required to be paid upon application, registration, and renewal registration of a motor vehicle, the holder of a collegiate license plate shall pay a fee of thirty dollars. The department shall deduct an amount not to exceed two dollars of each fee collected under this subsection for administration and collection expenses incurred by it. The remaining proceeds, minus the cost of plate production, shall be remitted to the custody of the state treasurer with a proper identifying detailed report. The state treasurer shall credit the funds to the appropriate collegiate license plate fund as provided in RCW 28B.10.890.

(3) In addition to all fees and taxes required to be paid upon application, registration, and renewal registration of a motor vehicle, the holder of a special baseball stadium license plate shall pay a fee of thirty dollars. The department shall deduct an amount not to exceed two dollars of each fee collected under this subsection for administration and collection expenses incurred by it. The remaining proceeds, minus the cost of plate production, shall be remitted to the custody of the state treasurer with a proper identifying detailed report. The state treasurer shall credit the funds to the sports bond retirement account under section 107 of this act through the date of the retirement of the bonds issued by a county to construct a baseball stadium, as defined in section 101 of this act. After this date, the state treasurer shall credit the funds to the state general fund.

NEW SECTION. Sec. 104. A new section is added to chapter 43.79 RCW to read as follows:

Any moneys that may be donated to the state for the purpose of constructing a baseball stadium as defined in section 101 of this act shall be deposited in the sports bond retirement account under section 107 of this act.

NEW SECTION. Sec. 105. A new section is added to chapter 67.70 RCW to read as follows:

The lottery commission shall conduct at least two but not more than four games with sports themes per year. Revenues from these games shall be deposited into the sports bond retirement account under section 107 of this act. Three million dollars shall be deposited under this section during calendar year 1996. During subsequent years, such deposits shall equal the prior year's distributions increased by four percent. Deposits under this section shall cease when the bonds issued for the construction of the baseball stadium, as defined in section 101 of this act, are retired, but not more than twenty years after the bonds are issued.

Sec. 106. RCW 67.70.240 and 1987 c 513 s 7 are each amended to read as follows:

The moneys in the state lottery account shall be used only: (1) For the payment of prizes to the holders of winning lottery tickets or shares; (2) for purposes of making deposits into the reserve account created by RCW 67.70.250 and into the lottery administrative account created by RCW 67.70.260; (3) for purposes of making deposits into the state's general fund; (4) for purposes of making deposits into the housing trust fund under the provisions of section 7 of this 1987 act; (5) for purposes of making deposits into the sports bond retirement account under section 107 of this act as provided in section 105 of this act; (6) for the purchase and promotion of lottery games and game-related services; and ~~((6))~~ (7) for the payment of agent compensation.

The office of financial management shall require the allotment of all expenses paid from the account and shall report to the ways and means committees of the senate and house of representatives any changes in the allotments.

NEW SECTION. Sec. 107. A new section is added to chapter 43.79 RCW to read as follows:

(1) The sports bond retirement account is created in the custody of the state treasurer. The account shall be used exclusively for the payment of up to one-fourth of the principal and interest payments on bonds issued by a county with a population of one million or more to construct a baseball stadium. Interest and earnings on investments of moneys in the account shall be deposited into the account.

(2) The sports bond retirement account shall consist of all moneys deposited into the account under RCW 46.16.313(3) and sections 104 and 105 of this act and interest and earnings of moneys in the account under subsection (1) of this section.

(3) A county with a population of one million or more that has issued bonds to construct a baseball stadium shall, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet one-fourth of the bond retirement and

interest requirements. Not less than thirty days prior to the date on which any interest or principal and interest payment is due, the department of revenue shall certify to the state treasurer the amount of revenues accruing to the county under section 101 of this act in excess of the amount needed to pay one-fourth of the prior principal and interest payment. On the date on which any such interest or principal and interest payment is due, the state treasurer shall withdraw and transmit to the county from the sports bond retirement account an amount equal to the amount certified by the county to be due on the payment date, less the amount certified by the department of revenue.

(5) The sports bond retirement account is abolished on the date of the retirement of the bonds issued by a county with a population of one million or more to construct a baseball stadium. Moneys remaining in the account shall be transferred to the state general fund on that date.

(6) As used in this section:

(a) "Baseball stadium" means "baseball stadium" as defined in section 101 of this act; and

(b) "One-fourth of the principal and interest payments" means the lesser of one-fourth of the principal and interest payments on the bonds that are issued for the construction of the stadium or one-fourth of the principal and interest payments on the bonds equal to an amount of two hundred fifty-five million dollars.

Sec. 108. RCW 43.79A.040 and 1995 c 394 s 2 and 1995 c 365 s 1 are each reenacted and amended to read as follows:

(1) Money in the treasurer's trust fund may be deposited, invested and reinvested by the state treasurer in accordance with RCW 43.84.080 in the same manner and to the same extent as if the money were in the state treasury.

(2) All income received from investment of the treasurer's trust fund shall be set aside in an account in the treasury trust fund to be known as the investment income account.

(3) The investment income account may be utilized for the payment of purchased banking services on behalf of treasurer's trust funds including, but not limited to, depository, safekeeping, and disbursement functions for the state treasurer or affected state agencies. The investment income account is subject in all respects to chapter 43.88 RCW, but no appropriation is required for payments to financial institutions. Payments shall occur prior to distribution of earnings set forth in subsection (4) of this section.

(4)(a) Monthly, the state treasurer shall distribute the earnings credited to the investment income account to the state general fund except under (b) and (c) of this subsection.

(b) The following accounts and funds shall receive their proportionate share of earnings based upon each account's or fund's average daily balance for the period: The agricultural local fund, the American Indian scholarship endowment fund, the energy account, the fair fund, the game farm alternative account, the grain inspection revolving fund, the rural rehabilitation account, ~~((and))~~ the self-insurance revolving fund, and the sports bond retirement account. However, the earnings to be distributed shall first be reduced by the allocation to the state treasurer's service fund pursuant to RCW 43.08.190.

(c) The following accounts and funds shall receive eighty percent of their proportionate share of earnings based upon each account's or fund's average daily balance for the period: The advanced right of way revolving fund, the federal narcotics asset forfeitures account, the high occupancy vehicle account, and the local rail service assistance account.

(5) In conformance with Article II, section 37 of the state Constitution, no trust accounts or funds shall be allocated earnings without the specific affirmative directive of this section.

NEW SECTION. Sec. 109. Sections 101 through 108 of this act constitute the entire state contribution for a baseball stadium, as defined in section 101 of this act, and assumes that the state share is one-half of the total amount of bonds issued, but not exceeding one-half of a total amount of two hundred fifty-five million dollars. The state will not make any additional contributions based on revised cost or revenue estimates, cost overruns, unforeseen circumstances, or any other reason.

PART II LOCAL FUNDING

Sec. 201. RCW 82.14.360 and 1995 1st sp.s. c 14 s 7 are each amended to read as follows:

(1) The legislative authority of a county with a population of one million or more ~~((operating under a county charter))~~ may impose a special stadium sales and use tax ~~((by resolution adopted on or before December 31, 1995, for collection following its approval by a majority of the voters in the county at a general or special election))~~ upon the retail sale or use within the county by restaurants, taverns, and bars of food and beverages that are taxable by the state under chapters 82.08 and 82.12 RCW. The rate of the tax shall not exceed five-tenths of one percent of the selling price in the case of a sales tax, or value of the article used in the case of a use tax. The tax imposed under this subsection is in addition to any other taxes authorized by law and shall not be credited against any other tax imposed upon the same taxable event.

(2) The legislative authority of a county with a population of one million or more may impose a special stadium sales and use tax upon retail car rentals within the county that are taxable by the state under chapters 82.08 and 82.12 RCW. The rate of the tax shall ((equal one-tenth of one)) not exceed two percent of the selling price in the case of a sales tax, or rental value of the ((article used)) vehicle in the case of a use tax. The tax imposed under this ((section)) subsection is in addition to any other taxes authorized by law and shall not be credited against any other tax imposed upon the same taxable event.

(3) The revenue from the ~~((tax))~~ taxes imposed under this section shall be used for the purpose of principal and interest payments on bonds issued by ~~((a public facilities district, created within))~~ the county ~~((under chapter 36.100 RCW,))~~ to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate a baseball stadium ~~((with a retractable roof or canopy and natural turf.))~~ The county shall issue bonds, in an amount determined to be necessary by the public facilities district, for the district to acquire, construct, own, and equip the baseball stadium. Total bonds authorized for the baseball stadium shall not exceed two hundred fifty-five million dollars unless agreed otherwise by the public facilities district and the county. If the revenue from the tax imposed under this section exceeds the amount needed for such principal and interest payments in any year, the excess shall be used solely:

(a) For either or both: ~~((a))~~ (i) Early retirement of the bonds issued for the baseball stadium; or ~~((b))~~ (ii) retirement of bonds issued for expanding, remodeling, repairing, or reequipping of a multipurpose stadium that has a seating capacity over forty-five thousand; and

(b) If the revenue from the taxes imposed under this section exceeds the amount needed for the purposes in (a) of this subsection in any year, the excess shall be placed in a contingency fund which may only be used to pay unanticipated capital costs on the baseball stadium, excluding any cost overruns on initial construction, or on a multipurpose stadium that has a seating capacity over forty-five thousand.

Revenues shall not be used as provided in this subsection (3) for the retirement of bonds issued for expanding, remodeling, repairing, or reequipping of a multipurpose stadium that has a seating capacity over forty-five thousand or to pay unanticipated capital costs on a multipurpose stadium that has a seating capacity over forty-five thousand unless authorized in a separate resolution adopted by the county legislative authority.

(4) Revenues from the taxes authorized in this section shall be transferred by the county to the public facilities district for design and other pre-construction costs of the baseball stadium until bonds are issued for the baseball stadium. The taxes authorized under this section may not be collected ((only)) after June 30, 1997, unless the county executive has certified to the department of revenue that a professional major league baseball team has made a binding and legally enforceable contractual commitment to:

(a) Play at least ninety percent of its home games in the stadium for a period of time not shorter than the term of the bonds issued to finance the initial construction of the stadium;

(b) Contribute ~~((principal of))~~ forty-five million dollars toward the ~~((bonded))~~ reasonably necessary preconstruction costs including, but not limited to architectural, engineering, environmental, and legal services, and the cost of construction of the stadium, or to any associated public purpose separate from bond-financed property, including without limitation land acquisition, parking facilities, equipment, infrastructure or other similar costs associated with the project, which contribution shall be made during a term not to exceed the term of the bonds issued to finance the initial construction of the stadium. If all or part of the contribution is made after the date of issuance of the bonds, the team shall contribute an additional amount equal to the accruing interest on the deferred portion of the contribution, calculated at the interest rate on the bonds maturing in the year in which the deferred contribution is made. No part of the contribution may be made without the consent of the county until a public facilities district is created under chapter 36.100 RCW to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate a baseball stadium. To the extent possible, contributions shall be structured in a manner that would allow for the issuance of bonds to construct the stadium that are exempt from federal income taxes; and

(c) Share a portion of the profits generated by the baseball team from the operation of the professional franchise for a period of time equal to the term of the bonds issued to finance the initial construction of the stadium, after offsetting any losses incurred by the baseball team after the effective date of chapter 14, Laws of 1995 1st sp. sess. Such profits and the portion to be shared shall be defined by agreement between the public facilities district and the baseball team. The shared profits shall be used to retire the bonds issued to finance the initial construction of the stadium. If the bonds are retired before the expiration of their term, the shared profits shall be paid to the public facilities district.

(5) No tax may be collected under this section before January 1, 1996. Before collecting the taxes under this section or issuing bonds for a baseball stadium, the county shall create a public facilities district under chapter 36.100 RCW to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate a baseball stadium. The county shall assemble such real property as the district determines to be necessary as a site for the baseball stadium. Property which is necessary for this purpose that is owned by the county on the effective date of this section shall be contributed to the district, and property which is necessary for this purpose that is acquired by the county on or after the effective date of this section shall be conveyed to the district. The proceeds of any bonds issued for the baseball stadium or any other facility that the district will own shall be provided to the district.

(6) As used in this section, "baseball stadium" means "baseball stadium" as defined in section 101 of this act.

(7) The taxes imposed under this section shall expire when the bonds issued for the construction of the ~~((new public facilities))~~ baseball stadium are retired, but not later than twenty years after the tax is first collected.

Sec. 202. RCW 35.21.280 and 1995 1st sp.s. c 14 s 8 are each amended to read as follows:

Every city and town may levy and fix a tax of not more than one cent on twenty cents or fraction thereof to be paid by the person who pays an admission charge to any place: PROVIDED, No city or town shall impose such tax on persons paying an admission to any activity of any elementary or secondary school. This includes a tax on persons who are admitted free of charge or at reduced rates to any place for which other persons pay a charge or a regular higher charge for the same privileges or accommodations. A city that is located in a county with a population of one million or more may not levy a tax on events in stadia constructed on or after January 1, 1995, that are owned by ~~((county government or))~~ a public facilities district under chapter 36.100 RCW and that have seating capacities over forty thousand. The city or town may require anyone who receives payment for an admission charge to collect and remit the tax to the city or town.

The term "admission charge" includes:

(1) A charge made for season tickets or subscriptions;

(2) A cover charge, or a charge made for use of seats and tables reserved or otherwise, and other similar accommodations;

(3) A charge made for food and refreshment in any place where free entertainment, recreation or amusement is provided;

(4) A charge made for rental or use of equipment or facilities for purposes of recreation or amusement; if the rental of the equipment or facilities is necessary to the enjoyment of a privilege for which a general admission is charged, the combined charges shall be considered as the admission charge;

(5) Automobile parking charges if the amount of the charge is determined according to the number of passengers in the automobile.

Sec. 203. RCW 36.38.010 and 1995 1st sp.s. c 14 s 9 are each amended to read as follows:

(1) Any county may by ordinance enacted by its county legislative authority, levy and fix a tax of not more than one cent on twenty cents or fraction thereof to be paid for county purposes by persons who pay an admission charge to any place, including a tax on persons who are admitted free of charge or at reduced rates to any place for which other persons pay a charge or a regular higher charge for the same or similar privileges or accommodations; and require that one who receives any admission charge to any place shall collect and remit the tax to the county treasurer of the county: PROVIDED, No county shall impose such tax on persons paying an admission to any activity of any elementary or secondary school.

(2) As used in this chapter, the term "admission charge" includes a charge made for season tickets or subscriptions, a cover charge, or a charge made for use of seats and tables, reserved or otherwise, and other similar accommodations; a charge made for food and refreshments in any place where any free entertainment, recreation, or amusement is provided; a charge made for rental or use of equipment or facilities for purpose of recreation or amusement, and where the rental of the equipment or facilities is necessary to the enjoyment of a privilege for which a general admission is charged, the combined charges shall be considered as the admission charge. It shall also include any automobile parking charge where the amount of such charge is determined according to the number of passengers in any automobile.

(3) The tax herein authorized shall not be exclusive and shall not prevent any city or town within the taxing county, when authorized by law, from imposing within its corporate limits a tax of the same or similar kind: PROVIDED, That whenever the same or similar kind of tax is imposed by any such city or town, no such tax shall be levied within the corporate limits of such city or town by the county, except that the legislative authority of a county with a population of one million or more may: (a) Exclusively levy a tax on events in stadiums constructed on or after January 1, 1995, that are owned by ~~((county government or))~~ a public facilities district under chapter 36.100 RCW and that have seating capacities over forty thousand at the rate of ~~((not more than))~~ one cent on twenty cents or fraction thereof; (b) exclusively levy an additional tax on events in stadiums constructed on or after January 1, 1995, that are owned by a public facilities district under chapter 36.100 RCW and that have seating capacities over forty thousand at the rate of not more than one cent on twenty cents or fraction thereof; and (c) additionally levy a tax on events in a multipurpose stadium constructed before January 1, 1995, that has a seating capacity of over forty-five thousand at the rate of not more than one cent on twenty cents or fraction thereof. The revenues under (a) of this subsection shall be used as provided in RCW

82.14.360(3). The revenues under (b) of this subsection shall be used to pay unanticipated capital costs on the baseball stadium, as defined in section 101 of this act. The revenues under (c) of this subsection shall be used for expanding, remodelling, repairing, or reequipping of a multipurpose stadium that has a seating capacity over forty-five thousand. No tax may be collected under (a) through (c) of this subsection unless the conditions of RCW 82.14.360 have been met.

~~((4) By contract, the county shall obligate itself to provide the revenue from the tax authorized by this section on events in stadia owned, managed, or operated by a public facilities district, having seating capacities over forty thousand, and constructed on or after January 1, 1995, to the public facilities district.))~~

PART III MISCELLANEOUS

"PART I STATE CONTRIBUTION

NEW SECTION. Sec. 101. A new section is added to chapter 82.14 RCW to read as follows:

(1) The legislative authority of a county with a population of one million or more may impose a sales and use tax in accordance with the terms of this chapter. The tax is in addition to other taxes authorized by law and shall be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the county. The rate of tax shall not exceed 0.017 percent of the selling price in the case of a sales tax or value of the article used in the case of a use tax.

(2) The tax imposed under subsection (1) of this section shall be deducted from the amount of tax otherwise required to be collected or paid over to the department of revenue under chapter 82.08 or 82.12 RCW. The department of revenue shall perform the collection of such taxes on behalf of the county at no cost to the county.

(3) Moneys collected under this section shall only be used for the purpose of paying the principal and interest payments on bonds issued by a county to construct a baseball stadium.

(4) No tax may be collected under this section before January 1, 1996, and no tax may be collected under this section unless the taxes under RCW 82.14.360 are being collected. The tax imposed in this section shall expire when the bonds issued for the construction of the baseball stadium are retired, but not more than twenty years after the tax is first collected.

(5) As used in this section, "baseball stadium" means a baseball stadium with natural turf and a retractable roof or canopy, together with associated parking facilities, constructed in the largest city in a county with a population of one million or more.

Sec. 102. RCW 46.16.301 and 1994 c 194 s 2 are each amended to read as follows:

(1) The department may create, design, and issue special license plates that may be used in lieu of regular or personalized license plates for motor vehicles required to display two motor vehicle license plates, excluding vehicles registered under chapter 46.87 RCW, upon terms and conditions established by the department. The special plates may:

(a) Denote the age or type of vehicle; or

(b) Denote special activities or interests; or

(c) Denote the status, or contribution or sacrifice for the United States, the state of Washington, or the citizens of the state of Washington, of a registered owner of that vehicle; or

(d) Display a depiction of the name and mascot or symbol of a state university, regional university, or state college as defined in RCW 28B.10.016.

(2) The department shall create, design, and issue a special baseball stadium license plate that may be used in lieu of regular or personalized license plates for motor vehicles required to display two motor vehicle license plates, excluding vehicles registered under chapter 46.87 RCW, upon terms and conditions established by the department. The special plates shall commemorate the construction of a baseball stadium, as defined in section 101 of this act. The department shall also issue to each recipient of a special baseball stadium license plate a certificate of participation in the construction of the baseball stadium.

(3) The department has the sole discretion to determine whether or not to create, design, or issue any series of special license plates, other than the special baseball stadium license plate under subsection (2) of this section, and whether any interest or status merits the issuance of a series of special license plates. In making this determination, the department shall consider whether or not an interest or status contributes or has contributed significantly to the public health, safety, or welfare of the citizens of the United States or of this state or to their significant benefit, or whether the interest or status is recognized by the United States, this state, or other states, in other settings or contexts. The department may also consider the potential number of persons who may be eligible for the plates and the cost and efficiency of producing limited numbers of the plates. The design of a special license plate shall conform to all requirements for plates for the type of vehicle for which it is issued, as provided elsewhere in this chapter.

Sec. 103. RCW 46.16.313 and 1994 c 194 s 4 are each amended to read as follows:

(1) The department may establish a fee for each type of special license plates issued under RCW 46.16.301(1) (a), (b), or (c) in an amount calculated to offset the cost of production of the special license plates and the administration of this program. The fee shall not exceed thirty-five dollars and is in addition to all other fees required to register and license the vehicle for which the plates have been requested. All such additional special license plate fees collected by the department shall be deposited in the state treasury and credited to the motor vehicle fund.

(2) In addition to all fees and taxes required to be paid upon application, registration, and renewal registration of a motor vehicle, the holder of a collegiate license plate shall pay a fee of thirty dollars. The department shall deduct an amount not to exceed two dollars of each fee collected under this subsection for administration and collection expenses incurred by it. The remaining proceeds, minus the cost of plate production, shall be remitted to the custody of the state treasurer with a proper identifying detailed report. The state treasurer shall credit the funds to the appropriate collegiate license plate fund as provided in RCW 28B.10.890.

(3) In addition to all fees and taxes required to be paid upon application, registration, and renewal registration of a motor vehicle, the holder of a special baseball stadium license plate shall pay a fee of thirty dollars. The department shall deduct an amount not to exceed two dollars of each fee collected under this subsection for administration and collection expenses incurred by it. The remaining proceeds, minus the cost of plate production, shall be distributed to a county for the purpose of paying the principal and interest payments on bonds issued by the county to construct a baseball stadium, as defined in section 101 of this act, including reasonably necessary preconstruction costs, while the taxes are being collected under RCW 82.14.360. After this date, the state treasurer shall credit the funds to the state general fund.

NEW SECTION. Sec. 104. A new section is added to chapter 67.70 RCW to read as follows:

The lottery commission shall conduct at least two but not more than four scratch games with sports themes per year. These games are intended to generate additional moneys sufficient to cover the distributions under RCW 67.70.240(5).

Sec. 105. RCW 67.70.240 and 1987 c 513 s 7 are each amended to read as follows:

The moneys in the state lottery account shall be used only: (1) For the payment of prizes to the holders of winning lottery tickets or shares; (2) for purposes of making deposits into the reserve account created by RCW 67.70.250 and into the lottery administrative account created by RCW 67.70.260; (3) for purposes of making deposits into the state's general fund; (4) for purposes of making deposits into the housing trust fund under the provisions of section 7 of this 1987 act; (5) for distribution to a county for the purpose of paying the principal and interest payments on bonds issued by the county to construct a baseball stadium, as defined in section 101 of this act, including reasonably necessary preconstruction costs; (6) for the purchase and promotion of lottery games and game-related services; and ~~((6))~~ (7) for the payment of agent compensation. Three million dollars shall be distributed under subsection (5) of this section during calendar year 1996. During subsequent years, such distributions shall equal the prior year's distributions increased by four percent. Distributions under subsection (5) of this section shall cease when the bonds issued for the construction of the baseball stadium are retired, but not more than twenty years after the tax under section 101 of this act is first imposed.

The office of financial management shall require the allotment of all expenses paid from the account and shall report to the ways and means committees of the senate and house of representatives any changes in the allotments.

NEW SECTION. Sec. 106. Sections 101 through 105 of this act constitute the entire state contribution for a baseball stadium, as defined in section 101 of this act. The state will not make any additional contributions based on revised cost or revenue estimates, cost overruns, unforeseen circumstances, or any other reason.

PART II LOCAL FUNDING

Sec. 201. RCW 82.14.360 and 1995 1st sp. s. c 14 s 7 are each amended to read as follows:

(1) The legislative authority of a county with a population of one million or more (~~(operating under a county charter)~~) may impose a special stadium sales and use tax (~~(by resolution adopted on or before December 31, 1995, for collection following its approval by a majority of the voters in the county at a general or special election)~~) upon the retail sale or use within the county by restaurants, taverns, and bars of food and beverages that are taxable by the state under chapters 82.08 and 82.12 RCW. The rate of the tax shall not exceed five-tenths of one percent of the selling price in the case of a sales tax, or value of the article used in the case of a use tax. The tax imposed under this subsection is in addition to any other taxes authorized by law and shall not be credited against any other tax imposed upon the same taxable event. As used in this section, "restaurant" does not include grocery stores, mini-markets, or convenience stores.

(2) The legislative authority of a county with a population of one million or more may impose a special stadium sales and use tax upon retail car rentals within the county that are taxable by the state under chapters 82.08 and 82.12 RCW. The rate of the tax shall (equal one-tenth of one) not exceed two percent of the selling price in the case of a sales tax, or rental value of the (article used) vehicle in the case of a use tax. The tax imposed under this (section) subsection is in addition to any other taxes authorized by law and shall not be credited against any other tax imposed upon the same taxable event.

(3) The revenue from the (~~(tax)~~) taxes imposed under this section shall be used for the purpose of principal and interest payments on bonds₂ issued by (~~(a public facilities district, created within)~~) the county (~~(under chapter 36.100 RCW)~~), to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate a baseball stadium (~~(with a retractable roof or canopy and natural turf)~~). Revenues from the taxes authorized in this section may be used for design and other preconstruction costs of the baseball stadium until bonds are issued for the baseball stadium. The county shall issue bonds, in an amount determined to be necessary by the public facilities district, for the district to acquire, construct, own, and equip the baseball stadium. The county shall have no obligation to issue bonds in an amount greater than that which would be supported by the tax revenues under this section, section 101 of this act, and RCW 36.38.010(3)(a) and (b). If the revenue from the taxes imposed under this section exceeds the amount needed for such principal and interest payments in any year, the excess shall be used solely:

(a) For (either or both: (a)) early retirement of the bonds issued for the baseball stadium; (or (b) retirement of bonds issued for expanding, remodeling, repairing, or reequipping of a multipurpose stadium that has a seating capacity over forty-five thousand;)) and

(b) If the revenue from the taxes imposed under this section exceeds the amount needed for the purposes in (a) of this subsection in any year, the excess shall be placed in a contingency fund which may only be used to pay unanticipated capital costs on the baseball stadium, excluding any cost overruns on initial construction.

(4) The taxes authorized under this section (~~(may)~~) shall not be collected (only) after June 30, 1997, unless the county executive has certified to the department of revenue that a professional major league baseball team has made a binding and legally enforceable contractual commitment to:

(a) Play at least ninety percent of its home games in the stadium for a period of time not shorter than the term of the bonds issued to finance the initial construction of the stadium;

(b) Contribute (~~(principal of)~~) forty-five million dollars toward the (bonded) reasonably necessary preconstruction costs including, but not limited to architectural, engineering, environmental, and legal services, and the cost of construction of the stadium, or to any associated public purpose separate from bond-financed property, including without limitation land acquisition, parking facilities, equipment, infrastructure or other similar costs associated with the project, which contribution shall be made during a term not to exceed the term of the bonds issued to finance the initial construction of the stadium. If all or part of the contribution is made after the date of issuance of the bonds, the team shall contribute an additional amount equal to the accruing interest on the deferred portion of the contribution, calculated at the interest rate on the bonds maturing in the year in which the deferred contribution is made. No part of the contribution may be made without the consent of the county until a public facilities district is created under chapter 36.100 RCW to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate a baseball stadium. To the extent possible, contributions shall be structured in a manner that would allow for the issuance of bonds to construct the stadium that are exempt from federal income taxes; and

(c) Share a portion of the profits generated by the baseball team from the operation of the professional franchise for a period of time equal to the term of the bonds issued to finance the initial construction of the stadium, after offsetting any losses incurred by the baseball team after the effective date of chapter 14, Laws of 1995 1st sp. sess. Such profits and the portion to be shared shall be defined by agreement between the public facilities district and the baseball team. The shared profits shall be used to retire the bonds issued to finance the initial construction of the stadium. If the bonds are retired before the expiration of their term, the shared profits shall be paid to the public facilities district.

(5) No tax may be collected under this section before January 1, 1996. Before collecting the taxes under this section or issuing bonds for a baseball stadium, the county shall create a public facilities district under chapter 36.100 RCW to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate a baseball stadium.

(6) The county shall assemble such real property as the district determines to be necessary as a site for the baseball stadium. Property which is necessary for this purpose that is owned by the county on the effective date of this section shall be contributed to the district, and property which is necessary for this purpose that is acquired by the county on or after the effective date of this section shall be conveyed to the district.

(7) The proceeds of any bonds issued for the baseball stadium shall be provided to the district.

(8) As used in this section, "baseball stadium" means "baseball stadium" as defined in section 101 of this act.

(9) The taxes imposed under this section shall expire when the bonds issued for the construction of the ~~((new public facilities))~~ baseball stadium are retired, but not later than twenty years after the ~~((tax is))~~ taxes are first collected.

Sec. 202. RCW 35.21.280 and 1995 1st sp.s. c 14 s 8 are each amended to read as follows:

Every city and town may levy and fix a tax of not more than one cent on twenty cents or fraction thereof to be paid by the person who pays an admission charge to any place: PROVIDED, No city or town shall impose such tax on persons paying an admission to any activity of any elementary or secondary school. This includes a tax on persons who are admitted free of charge or at reduced rates to any place for which other persons pay a charge or a regular higher charge for the same privileges or accommodations. A city that is located in a county with a population of one million or more may not levy a tax on events in stadia constructed on or after January 1, 1995, that are owned by ~~((county government or))~~ a public facilities district under chapter 36.100 RCW and that have seating capacities over forty thousand. The city or town may require anyone who receives payment for an admission charge to collect and remit the tax to the city or town.

The term "admission charge" includes:

(1) A charge made for season tickets or subscriptions;

(2) A cover charge, or a charge made for use of seats and tables reserved or otherwise, and other similar accommodations;

(3) A charge made for food and refreshment in any place where free entertainment, recreation or amusement is provided;

(4) A charge made for rental or use of equipment or facilities for purposes of recreation or amusement; if the rental of the equipment or facilities is necessary to the enjoyment of a privilege for which a general admission is charged, the combined charges shall be considered as the admission charge;

(5) Automobile parking charges if the amount of the charge is determined according to the number of passengers in the automobile.

Sec. 203. RCW 36.38.010 and 1995 1st sp.s. c 14 s 9 are each amended to read as follows:

(1) Any county may by ordinance enacted by its county legislative authority, levy and fix a tax of not more than one cent on twenty cents or fraction thereof to be paid for county purposes by persons who pay an admission charge to any place, including a tax on persons who are admitted free of charge or at reduced rates to any place for which other persons pay a charge or a regular higher charge for the same or similar privileges or accommodations; and require that one who receives any admission charge to any place shall collect and remit the tax to the county treasurer of the county: PROVIDED, No county shall impose such tax on persons paying an admission to any activity of any elementary or secondary school.

(2) As used in this chapter, the term "admission charge" includes a charge made for season tickets or subscriptions, a cover charge, or a charge made for use of seats and tables, reserved or otherwise, and other similar accommodations; a charge made for food and refreshments in any place where any free entertainment, recreation, or amusement is provided; a charge made for rental or use of equipment or facilities for purpose of recreation or amusement, and where the rental of the equipment or facilities is necessary to the enjoyment of a privilege for which a general admission is charged, the combined charges shall be considered as the admission charge. It shall also include any automobile parking charge where the amount of such charge is determined according to the number of passengers in any automobile.

(3) The tax herein authorized shall not be exclusive and shall not prevent any city or town within the taxing county, when authorized by law, from imposing within its corporate limits a tax of the same or similar kind: PROVIDED, That whenever the same or similar kind of tax is imposed by any such city or town, no such tax shall be levied within the corporate limits of such city or town by the county, except that the legislative authority of a county with a population of one million or more may exclusively levy ~~((a tax))~~ taxes on events in stadiums constructed on or after January 1, 1995, that are owned by ~~((county government or))~~ a public facilities district under chapter 36.100 RCW and that have seating capacities over forty thousand at the ~~((rate))~~ rates of:

(a) Not more than one cent on twenty cents or fraction thereof, to be used for the purpose of paying the principal and interest payments on bonds issued by a county to construct a baseball stadium as defined in section 101 of this act. If the revenue from the tax exceeds the amount needed for that purpose, the excess shall be placed in a contingency fund which may only be used to pay unanticipated capital costs on the baseball stadium, excluding any cost overruns on initial construction; and

(b) Not more than one cent on twenty cents or fraction thereof, to be used for the purpose of paying the principal and interest payments on bonds issued by a county to construct a baseball stadium as defined in section 101 of this act. The tax imposed under this subsection (b) shall expire when the bonds issued for the construction of the baseball stadium are retired, but not later than twenty years after the tax is first collected.

~~(((4) By contract, the county shall obligate itself to provide the revenue from the tax authorized by this section on events in stadia owned, managed, or operated by a public facilities district, having seating capacities over forty thousand, and constructed on or after January 1, 1995, to the public facilities district.))~~

A single ballot proposition may both validate the imposition of the sales and use tax under RCW 82.14.048 and the excise tax under RCW 36.100.040.

(5) A public facilities district shall constitute a body corporate and shall possess all the usual powers of a corporation for public purposes as well as all other powers that may now or hereafter be specifically conferred by statute, including, but not limited to, the authority to hire employees, staff, and services, to enter into contracts, and to sue and be sued.

(6) The county legislative authority or the city council may transfer property to the public facilities district ~~((as part of the process of creating the public facilities district))~~ created under this chapter. No property that is encumbered with debt or that is in need of major capital renovation may be transferred to the district without the agreement of the district and revenues adequate to retire the existing indebtedness.

Sec. 302. RCW 36.100.020 and 1995 1st sp.s. c 14 s 2 are each amended to read as follows:

(1) A public facilities district shall be governed by a board of directors consisting of five or seven members as provided in this section. If the largest city in the county has a population of less than forty percent of the total county population, the county legislative authority shall establish in the resolution creating the public facilities district whether the board of directors of the public facilities district has either five or seven members, and the county legislative authority shall appoint the members of the board of directors to reflect the interests of cities and towns in the county, as well as the unincorporated area of the county. However, if the county has a population of one million or more, the largest city in the county has a population of less than forty percent of the total county population, and the county operates under a county charter, which provides for an elected county executive, three members shall be appointed by the governor and the remaining members shall be appointed by the county executive subject to confirmation by the county legislative authority. Of the members appointed by the governor, the speaker of the house of representatives and the majority leader of the senate shall each recommend to the governor a person to be appointed to the board.

(4) A vacancy shall be filled in the same manner as the original appointment was made and the person appointed to fill a vacancy shall serve for the remainder of the unexpired term of the office for the position to which he or she was appointed.

(5) A director appointed by the governor may be removed from office by the governor. Any other director may be removed from office by action of at least two-thirds of the members of the legislative authority which made the appointment.

PARLIAMENTARY INQUIRY

Senator West: "Mr. President, Amendment 56 to the State Constitution requires a sixty percent vote for any vote authorizing a lottery. Section 104 of this bill authorizes a new lottery with new funds. I would ask for the Governor to rule as to whether or not this bill requires a sixty percent vote."

RULING BY THE PRESIDENT

President Pritchard: "Well, I think we will have the Lieutenant Governor rule on it rather than the Governor."

Senator West: "I keep promoting you, sir. I'd vote for you for Governor."

President Pritchard: "Thank you. I thought probably someone would ask this question. Let me respond: 'Does this measure require a sixty percent vote because it involves bonding?' Answer: 'No, only a majority vote is required for final passage. Article VIII, Section 1 of the State Constitution requires a sixty percent vote for bills which specify the amount of state debt to be issued. Engrossed House Bill No. 2115 does not specify the bonding.'

"The second question: 'Does this measure require a sixty percent vote because it expands gambling?' Answer: 'No, Engrossed House Bill No. 2115 does not expand gambling. Section 104 of Engrossed House Bill No. 2115 directs the Lottery Commission to conduct two to four sports theme lotteries per year. The bill does not require that these be additional lotteries. Even if they are additional drawings, the Lottery Commission already has the authority under RCW 67.70.040 to determine the total number of drawings. The bill does not expand that authority. Therefore, Engrossed House Bill No. 2115 needs just a simple majority for passage.'"

The President declared the question before the Senate to be the roll call on the final passage of Engrossed House Bill No. 2115, as amended by the Senate.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed House Bill No. 2115, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 25; Nays, 16; Absent, 0; Excused, 8.
